

**Course Offerings Bulletin  
2021-2022**

**THE OHIO STATE  
UNIVERSITY**

## 2021 – 2022 Course Offerings Bulletin

Course information (title, credit hours, level, description, etc.) begins on page one. The most current information regarding new courses, changes to existing courses, Quarter to Semester conversion information, credit hours, sections, days, times, buildings, rooms, and instructors may be found on the Web at <http://registrar.osu.edu/courses> and <http://registrar.osu.edu/scheduling>.

### Explanation of a Course Listing

#### I. Course Heading Information

##### 1102.01 Beginning French II Classroom U 4

Course Number: 1102.01

Course Title: Beginning French II Classroom

Instructional Level: U

U = Undergraduate  
G = Graduate  
D = Dentistry  
M = Medicine  
L = Law  
O = Optometry  
P = Pharmacy  
V = Veterinary Medicine

Credit Hours: 4

#### II. Main Course Description

Continued study of French; development of listening, reading, speaking, and writing skills; readings based on contemporary French culture and literature. Taught in French.

#### III. Course Attributes

Prereq: 1101.01, or completion of 4 cr hrs of 1101.51. Not open to students with credit for 102.01. This course is available for EM credit. GE for lang course. FL Admis Cond course.

Semester of offering (not displayed in example): Au, Sp Sems. Su Term.

Au = Autumn Semester  
Sp = Spring Semester  
Su = Summer Term

Prerequisite(s): 1101.01, or completion of 4 cr hrs of 1101.51.

The course number(s) or other information indicate the preparation or classification required to enroll in the course. If no department name is

listed, the number(s) refers to the specific course within the same department. If a department name is listed, all course numbers following that name belong to that department name until another is listed (e.g., Math 1101, 1102, 1103, Chem 1101, and 1102). Enrollment in a course requires the successful completion of all prerequisites or their equivalents. The department, school, or college office should be consulted with questions of eligibility to take a course.

Exclusionary clause: Not open to students with credit for 102.01.

Students who have taken the listed courses or belong to any other categories listed in the exclusionary clause are not eligible to enroll in the course.

Repeatability clause (not displayed in example): Repeatable to a maximum of 10 cr hrs or 4 completions.

Indicates the maximum number of credit hours and/or the maximum number of completions a course may be repeated for credit (whichever limit is reached first).

Satisfactory/Unsatisfactory grading clause (not displayed in example): This course is graded S/U.

Indicates that a course is graded on an S/U basis rather than the standard letter grading system.

EM credit clause: This course is available for EM credit.

Indicates that a course is available for a type of exam credit.

GE clause: GE for lang course.

Indicates that the course may be used to meet one or many of the University's General Education requirements. Students should consult their specific college or adviser before scheduling courses to be applied to this requirement.

Admissions condition clause: FL Admis Cond course.

Indicates that the course may be used to fulfill an admission condition.

Cross-listing clause (not displayed in example): Cross-listed in English.

Indicates that the course is cross-listed with a course in another subject. The course shares a vast majority of its content with the cross-listed course, and instances of these courses are typically taught by the same instructor, in the same space, and at the same time during a semester. Courses usually share the same course number (in which case only the subject will be present in the clause), but where they do not, the number of the cross-listed course will be given.

## University Classification and Course Numbering System

The system of numbering courses offered by the University is as follows:

**1000-1099:** Undergraduate non-credit courses for orientation, remedial, or other non-college-level experiences. These courses are in addition to a program's graduation requirements.

**1100-1999:** Introductory, required or elective courses that may be prerequisite to other courses. They provide undergraduate credit, but do not count toward a major or field of specialization.

**2000-2999:** Intermediate courses providing undergraduate credit and may be counted toward a major or field of specialization.

**3000-3999:** Upper-level courses providing undergraduate credit that may be counted toward a major or field of specialization.

**4000-4999:** Advanced undergraduate courses providing undergraduate credit that may be counted toward a major or field of specialization. Graduate students may enroll in and receive graduate credit for 4000-level courses outside their own graduate program.

**5000-5999:** Courses that are regularly offered for both graduate and undergraduate credit. They are advanced-level undergraduate courses providing undergraduate credit that may be counted toward a major or field of specialization, or are foundational course work and research for graduate and professional credit.

**6000-6999:** Foundational graduate and professional courses and research providing graduate or professional credit.

**7000-7999:** Intermediate graduate and professional courses and research providing graduate or professional credit.

**8000-8999:** Advanced graduate and professional courses and research providing graduate or professional credit.

## Academic Affairs

**1100.07 Office of Diversity and Inclusion Young Scholars Program Seminar** U 2

Workshops and course discussion designed to teach study strategies and engage students in personal development for college success. Instructors will help students incorporate new tools, resources, and strategies for greater academic engagement. Students will also participate in activities to increase confidence, personal awareness, and explore social constructs impacting their college experience.

Prereq: Young Scholars Program scholarship recipient.

**1101 Personal Financial Health Seminar** U 2

Assist students with mastering the fundamental elements of personal finance and to help them make financially responsible decisions. Instructors will help students utilize learned skills to support their ability to manage their savings, scholarship awards and financial aid, and income to become financially independent, and to demonstrate financial success as an undergraduate and beyond.

Prereq: Enrollment in Young Scholars Program.

**2021 Diversity, Service and Social Justice: A Blueprint for Dynamic Leadership** U 3

This course will expose students to the key elements and character traits that influence dynamic and successful leadership. In specific, students will learn that diversity, service and social justice are inextricably linked and fundamental to the development of an effective leader. Participants will engage in interactive activities and discussions led by the instructor and visiting lecturers.

## Accounting and Management Information Systems

**1200 Survey of Accounting** U 1

An examination of the role of accounting in organizations and society, accounting fundamentals, careers in accounting and the professional skills required for success.

**2000 Foundations of Accounting** U 3

A survey of accounting for non-business students; financial statements and analysis; accounting for assets, liabilities and owners' equity; and elements of managerial accounting. Prereq: Not open to students with credit for 2200 (211), 2300 (212), or 310.

**2200 Introduction to Accounting I** U 3

Preparation and use of accounting reports for business entities; focus on uses of accounting for external reporting, emphasizing accounting as a provider of financial information. Prereq: Econ 2001.01 (200), or equiv. Not open to students with credit for 2000 (310) or 211, or equiv. This course is available for EM credit.

**2200H Introduction to Accounting I** U 3

Structure and use of financial reports; role of accounting and auditing in markets and organizations.

Prereq: Honors standing, and Soph standing. Not open to students with credit for 211H.

**2300 Introduction to Accounting II** U 3

The uses of accounting reports by managers to make business decisions and to control business operations; focus is on the internal use of accounting information.

Prereq: 2200 (211) and Econ 2001.01 (200), or equiv. Not open to students with credit for 2000 (310) or 212, or equiv. This course is available for EM credit.

**2300H Introduction to Accounting II** U 3

Use of accounting information in management control, with ties to the economic theory of the firm. Emphasizes classroom discussion and student presentations.

Prereq: Honors standing, and a grade of B or above in 2200H, and Soph standing. Not open to students with credit for 212H.

**3100H Quantitative Analysis in Accounting** U 3

Accounting information system applications of linear algebra are explored including a subspaces representation of double entry accounting structure, a probability assignment description of a decision maker's uncertain state of knowledge, and Bayesian belief updating description of information processing including projections for the case of linear or Gaussian conditional expectations.

Prereq: Honors standing, a grade of B or better in 2200H, and Soph standing. Not open to students with credit for 4780H.

**3193 Individual Studies** U 1 - 6

Individual study projects in selected areas in Accounting and Information Systems.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U.

**3194 Group Studies** U 1 - 6

Group study projects in selected areas in Accounting and Information Systems.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.

**3200 Financial Accounting I** U 3

Theory and application of accounting techniques to record and report financial information; asset and liability valuation; income measurement; first of two-course sequence.

Prereq: 2300 (212), BusMgt 2320 (330), 2321 (331), BusMHR 2292 (BusAdm 499.01), and Jr standing; or permission of instructor. Not open to students with credit for 3200.02 or 521.

**3200H Financial Accounting I** U 3

Economic role of financial reporting in markets and how it is influenced by the regulatory environment.

Prereq: Honors standing, and a grade of B or above in 2300H. Not open to students with credit for 519H.

**3201 Financial Accounting II** U 3

Theory and application of accounting techniques to record and report financial information; asset and liability valuation; income measurement; second of two-course sequence.

Prereq: 3200, 3200.02, or BusMHR 2292 (BusAdm 499.01); or permission of instructor. Not open to students with credit for 3201.02 or 523.

**3201H Financial Accounting II** U 3

Study of theory and practice of financial accounting.

Prereq: Honors standing, and a grade of B or above in 3200H. Not open to students with credit for 520H.

**3300 Cost Accounting** U 3

Managerial decision making in organizations with an emphasis on the use of financial data; theory and practice of management control.

Prereq: 2300 (212), BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01); or permission of instructor. Not open to students with credit for 525.

**3300H Cost Accounting** U 3

Theory and practice of management control with an emphasis on performance evaluation and reward.

Prereq: Honors standing, and a grade of B or above in 2300H. Not open to students with credit for 525H.

**3400 Tax Accounting I** U 3

Fundamentals of the federal income tax, and how it influences taxpayer decisions. Emphasis is on the individuals and businesses organized as proprietorships, but rules generally applicable to all taxpayers are covered.

Prereq: A grade of B or above in 2300H, or 3200 and BusMHR 2292.

**3400H Tax Accounting I** U 3

Fundamentals of the federal income tax, and how it influences taxpayer decisions. Emphasis is on individuals and businesses organized as proprietorships, but rules generally applicable to all taxpayers are covered.

Prereq: Honors standing, and a grade of B or above in 2300H.

**3600 Introduction to Accounting Information Systems** U 3

The design of accounting information systems; focus is on business processes and internal control.

Prereq: 3200 or 521, and BusMHR 2292 (BusAdm 499.01); or permission of instructor. Not open to students with credit for 631.

**3600H Introduction to Accounting Information Systems** U 3

The design and control of accounting information systems.

Prereq: Honors standing, and 3100H; or permission of instructor.

**3601 Introduction to Information Systems** U 1½

The role of information systems in capturing and distributing organizational knowledge and enhancing management decision making, process of redesigning organizations utilizing systems analysis and design, quality assurance, and change management techniques, technical foundation of information systems, including hardware, software, telecommunications, networks, and the information architecture.

Prereq: Admission to BSBA program and Business Management specialization.

**3610 Foundations of Business Information Systems** U 3

Technical foundation in programming interactive business information systems.

Prereq: 2300 (212), CSE 2123 (214), BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 532.

**4193 Individual Studies** U 1 - 6

Individual study projects in selected areas in Accounting and Information Systems.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U.

**4194 Group Studies** U 1 - 6

Group study projects in selected areas in Accounting and Information Systems.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.

**4200 Advanced Financial Accounting** U 3

Advanced topics in financial reporting; may include accounting for multi-corporate business entities, international operations, and government and not-for-profit organizations.

Prereq: 3201 (523) or 3201.02, and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 624.

**4210 Financial Statement Analysis** U 3

Methods of fundamental analysis will be examined in detail; improve ability to use financial statements as part of an overall assessment of a firm's strategy and valuation.

Prereq: 3201 (523) and BusMHR 2292 (BusAdm 499.01). Repeatable to a maximum of 12 cr hrs.

## 2 Accounting and Management Information Systems

<b>4220</b>	<b>Governmental and Non-Profit Accounting</b>	<b>U</b>	<b>3</b>
<p>Focuses on financial reporting concepts and standards for non-profit and governmental units, evaluation of performance and the analysis and interpretation of financial statements of selected non-profit and governmental organizations. Prereq: 3201 (523) and BusMHR 2291 (BusAdm 499.01).</p>			
<b>4310</b>	<b>Topics in Management Accounting</b>	<b>U</b>	<b>3</b>
<p>Advanced topics in management control, strategic interactions within the firm. Students may not repeat topics. Prereq: 3300 (525) and BusMHR 2292 (BusAdm 499.01). Repeatable to a maximum of 6 cr hrs.</p>			
<b>4410</b>	<b>Tax Accounting II</b>	<b>U</b>	<b>3</b>
<p>Intensive study of the federal income tax treatment of business corporations and partnerships, with particular attention to tax planning by these businesses and their owners. Prereq: 3400 (626) and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 636.</p>			
<b>4500</b>	<b>Auditing Principles and Procedures</b>	<b>U</b>	<b>3</b>
<p>Basic concepts and standards of auditing; audit procedures and working papers, internal and external audit reports; professional responsibilities of auditors. Prereq: 3201 (523) and BusMHR 2292 (BusAdm 499.01), or permission of instructor. Not open to students with credit for 627.</p>			
<b>4510</b>	<b>Fraud Examination</b>	<b>U</b>	<b>3</b>
<p>The course will cover all major methods employees use to commit occupational fraud involving the misappropriation of assets. Prereq: 3201 and 3600, or permission of instructor.</p>			
<b>4620</b>	<b>Analysis and Design of Management Information Systems</b>	<b>U</b>	<b>3</b>
<p>Investigation and application, through real-world projects, of concepts and tools used in the analysis and design of management information systems. Prereq: CSE 3232 (616), BusMgt 2320 (330), 2321 (331), and BusMHR 2291 (BusAdm 499.01). Not open to students with credit for 651.</p>			
<b>4650</b>	<b>Decision Support and Expert Systems</b>	<b>U</b>	<b>3</b>
<p>Study of computer-based systems designed to support decision-making within the organization. Prereq: CSE 3232 (616), BusMgt 2320 (330), and 2321 (331). Not open to students with credit for 657.</p>			
<b>4660</b>	<b>Electronic Commerce</b>	<b>U</b>	<b>3</b>
<p>Examination of technical, managerial, and strategic issues that surround the emergence of electronic commerce on the internet. Prereq: 3610 (532) or CSE 3241 (670), and BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 658.</p>			
<b>4670</b>	<b>Information Systems Planning &amp; Management</b>	<b>U</b>	<b>3</b>
<p>Planning and management of the information system function in business organizations with emphasis on the problems involved. Prereq: CSE 2123 (214), BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01); and Sr or Grad standing. Not open to students with credit for 659.</p>			
<b>4780</b>	<b>Accounting Research and Practice</b>	<b>U</b>	<b>3</b>
<p>Researching accounting concepts and standards underlying corporate and non-corporate financial statements including consideration of typical accounting problems. Prereq: 3201 and BusMHR 2292. Not open to students with credit for 628.</p>			
<b>4780H</b>	<b>Accounting Research and Practice</b>	<b>U</b>	<b>3</b>
<p>Researching accounting concepts and standards underlying corporate and non-corporate financial statements including consideration of typical accounting problems. Prereq: Permission of Honors Accounting Director. Not open to students with credit for 628H.</p>			
<b>4784</b>	<b>Tax Research Seminar</b>	<b>U</b>	<b>3</b>
<p>Case studies requiring an in-depth examination of the tax aspects of situations frequently encountered by businesses and individuals. Prereq: A grade of B- or above in 3400, or permission of instructor.</p>			
<b>4998</b>	<b>Undergraduate Research in Accounting and MIS</b>	<b>U</b>	<b>1 - 3</b>
<p>Undergraduate Research in Accounting and MIS for non-honors students. Prereq: Permission of Program Director. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.</p>			
<b>4998H</b>	<b>Research</b>	<b>U</b>	<b>1 - 4</b>
<p>Special topics research in accounting and/or management information systems; research evaluated through papers, thesis, and/or special examinations. Prereq: A grade of B or above in 3201H, or permission of Honors Accounting Director. Not open to students with credit for 783H. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is progress graded.</p>			
<b>5000</b>	<b>Accounting and Cost Analysis</b>	<b>U G</b>	<b>3</b>
<p>An introduction to accounting and cost analysis for planning, decision-making, and control. Prereq: ISE 2000 (500) and 2040 (504), or enrollment in MBLE program. Not open to students with credit for 501.</p>			

<b>5200H</b>	<b>Honors Advanced Financial Accounting</b>	<b>U G</b>	<b>3</b>
<p>Advanced topics in financial reporting including accounting for multi-corporate business entities, international operations, and other topics. Prereq: Honors standing, and a grade of B or above in 3201H; or permission of Honors Accounting Director. Not open to students with credit for 624H.</p>			
<b>5500H</b>	<b>Honors Auditing Principles and Procedures</b>	<b>U G</b>	<b>3</b>
<p>Basic concepts and standards of auditing; audit procedures and working papers, internal and external audit reports. Prereq: A grade of B or above in 3201H (520H), or permission of Honors Accounting Director. Not open to students with credit for 627H.</p>			
<b>6000</b>	<b>Management &amp; Control</b>	<b>G</b>	<b>2½</b>
<p>Fundamental role of uncertainty, risk and private information in accounting; emphasis on managerial decisions and control problems in organizations. Prereq: Enrollment in Master of Accounting Program. Not open to students with credit for 803.</p>			
<b>6001</b>	<b>Fundamentals of Accounting Data &amp; Analytics</b>	<b>G</b>	<b>2½</b>
<p>Provides an introduction to using large datasets to better understand corporate financial reporting and market behavior. Prereq: Enrollment in Master of Accounting Program.</p>			
<b>6200</b>	<b>Financial Reporting</b>	<b>G</b>	<b>2½</b>
<p>Examination of major aspects of corporate financial reporting by management under GAAP, including coverage of disclosures required for trade securities, tax aspects of mergers and acquisitions, auditing, and financial analysis. Prereq: Enrollment in Master of Accounting Program. Not open to students with credit for 7200.</p>			
<b>6201</b>	<b>Professional Research in Accounting</b>	<b>G</b>	<b>1½</b>
<p>Research and communication skills in a professional accounting context; learn to use various accounting information resources; enhance communication and teamwork skills through collaborative exercises. Prereq: Enrollment in Master of Accounting Program. Not open to students with credit for 804.</p>			
<b>6202</b>	<b>Accounting Policy &amp; Research</b>	<b>G</b>	<b>2½</b>
<p>Provides students the opportunity to develop their knowledge and appreciation of current debates surrounding the accounting profession. They will be exposed to academic research in accounting and the primary underlying methods involved. Prereq: Enrollment in Master of Accounting Program. Not open to students with credit for AcctMIS 844.</p>			
<b>7010</b>	<b>Ethical Challenges in Accounting and Business</b>	<b>G</b>	<b>1½</b>
<p>Provides students with an understanding of ethical challenges facing accounting and business professionals. Prereq: MBA 6211 (800), or enrollment in MAcc program.</p>			
<b>7020</b>	<b>Uncertainty, Diversification, and Private Information</b>	<b>G</b>	<b>1½</b>
<p>Focuses on role of uncertainty, risk aversion, and private information in decision making. The course utilizes the expected utility paradigm to study topics of portfolio diversification, CAPM, option pricing, incentive design, information cascades, and signaling theory. Prereq: Enrollment in Fisher College Grad Program.</p>			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>½ - 8</b>
<p>Individual studies in Accounting and Information Systems. Prereq: Enrollment in the AcctMIS PhD program, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.</p>			
<b>7194</b>	<b>Group Studies</b>	<b>G</b>	<b>½ - 3</b>
<p>Group studies in Accounting and Information Systems; topics vary. Prereq: MBA 6211 (800), or enrollment in MAcc program. Repeatable to a maximum of 12 cr hrs or 4 completions.</p>			
<b>7200</b>	<b>Corporate Financial Reporting I</b>	<b>G</b>	<b>1½</b>
<p>Examination of major aspects of corporate financial reporting. Prereq: 6050 or MBA 6211. Not open to students with credit for 6200 (824).</p>			
<b>7220</b>	<b>Financial Statement Analysis</b>	<b>G</b>	<b>1½</b>
<p>Examines the role of financial statement analysis in the evaluation of the firm's financial performance and the prediction of its future economic condition. Prereq: MBA 6211 (800), or enrollment in MAcc program. Not open to students with credit for 842.</p>			
<b>7221</b>	<b>Financial Statement Analysis II</b>	<b>G</b>	<b>1½</b>
<p>Examines additional techniques to evaluate the firm's financial performance and the prediction of its future economic condition based on financial statements. Prereq: 7220, or permission of instructor. Not open to students with credit for 842.</p>			
<b>7230</b>	<b>Accounting for Mergers and Acquisitions (and other Complex Transactions)</b>	<b>G</b>	<b>1½</b>
<p>Designed for students whose careers will require an expert understanding of advanced accounting and reporting concepts regarding complex financial transactions. Prereq: Not open to students with credit for 841.</p>			
<b>7240</b>	<b>International Financial Reporting Standards</b>	<b>G</b>	<b>1½</b>
<p>Students will learn the guiding principles behind international reporting standards. They will also learn areas of commonalities and substantial divergence between U.S. GAAP and IFRS. Prereq: 6200 or 7200. Not open to students with credit for 849.</p>			

## Accounting and Management Information Systems 3

<b>7250</b>	<b>Governmental and Non-Profit Accounting</b>	<b>G</b>	<b>1½</b>
Focus is on financial reporting concepts and standards for non-profit and governmental units, evaluation of performance and the analysis and interpretation of financial statements of selected non-profit and governmental organizations. Prereq: MBA 6211, or enrollment in MAcc program. Not open to students with credit for 4510.			
<b>7310</b>	<b>Managerial Accounting for Decision Making</b>	<b>G</b>	<b>1½</b>
Cost systems with emphasis on the appropriate application of system outputs to management decisions. Prereq: MBA 6211 (800), or enrollment in MAcc program. Not open to students with credit for 823.			
<b>7400</b>	<b>Tax Planning for Managerial Decision Making</b>	<b>G</b>	<b>1½</b>
Examination of the impact of taxes on several important business decisions; recognition of tax problems and planning opportunities. Prereq: MBA 6211 (800), or enrollment in Master of Accounting Program, or permission of instructor. Not open to students with credit for 826.			
<b>7410</b>	<b>Tax Accounting II</b>	<b>G</b>	<b>1½</b>
Intensive study of the federal income tax treatment of business corporations and partnerships, with particular attention to tax planning by these businesses and their owners. Prereq: 7400 (826), or enrollment in Master of Accounting Program, or permission of instructor. Not open to students with credit for 846.			
<b>7420</b>	<b>Tax Accounting III</b>	<b>G</b>	<b>1½</b>
Intensive study of the federal income tax treatment of business entities and wealthy individuals, with particular attention to tax planning by these businesses and their owners. Prereq: MBA 6211 (800), or enrollment in Master of Accounting Program, or permission of instructor. Not open to students with credit for 866. Repeatable to a maximum of 12 cr hrs.			
<b>7430</b>	<b>Taxes and Business Strategy</b>	<b>G</b>	<b>1½</b>
Identify, understand and evaluate tax planning opportunities where a conceptual framework of how tax rules affect business decisions and those aggregated business decision impact the economy. Prereq: MBA 6211 (800), or enrollment in Masters of Accounting Program; or permission of instructor.			
<b>7500</b>	<b>Auditing Principles and Procedures</b>	<b>G</b>	<b>1½</b>
Basic theory and practice of auditing. Prereq: Enrollment in MAcc program.			
<b>7510</b>	<b>Assurance Services and Information Quality</b>	<b>G</b>	<b>1½</b>
Examination of the role of assurance services in enhancing the quality of information used for financial decision making, focusing on the perspective of the decision maker. Prereq: 4500 (627), 5500H (627H), or 7500, or equiv, and enrollment in the MAcc program. Not open to students with credit for 822.			
<b>7520</b>	<b>Fraud Examination: Misappropriation of Assets</b>	<b>G</b>	<b>1½</b>
Students will learn the major methods used by employees to commit fraud, factors that motivate individuals to commit fraud, misappropriation of assets, study of assets, and fraudulent disbursements, with emphasis on mechanisms to prevent and detect such frauds. Prereq: MBA 6211 (800), or enrollment in MAcc program. Not open to students with credit for 861.			
<b>7530</b>	<b>Fraud Examination: Fraudulent Financial Reporting</b>	<b>G</b>	<b>1½</b>
Students will learn to detect fraud by studying fraudulent financial reporting (intentional misstatements or omissions in financial statements), with emphasis on detection techniques. Prereq: MBA 6211 (800), or enrollment in Master of Accounting Program, or permission of instructor. Not open to students with credit for 862.			
<b>7620</b>	<b>Management of Corporate Data Resources</b>	<b>G</b>	<b>1½</b>
Examines modern database systems with an emphasis on planning, administrative, and implementation issues. Prereq: MBA 6211 (800), or enrollment in MAcc program. Not open to students with credit for 837.			
<b>7640</b>	<b>Data Mining for Business Intelligence</b>	<b>G</b>	<b>1½</b>
A theoretical and practical understanding of core data mining concepts and techniques and hands-on experience in applying these techniques to practical real-world business problems. Prereq: MBA 6211 (800), or enrollment in MAcc program.			
<b>7650</b>	<b>Accounting Information Systems: Processes, Technology, and Analytics</b>	<b>G</b>	<b>3</b>
This course covers the design and use of accounting information systems. The course emphasizes business processes and internal controls, with a focus on emerging technologies and the use of analytics in their evaluation. Prereq: MBA 6211 (800), or enrollment in MAcc program, or permission of instructor.			
<b>7660</b>	<b>Accounting &amp; Data Analytics Internship Experience</b>	<b>G</b>	<b>1½</b>
An internship experience affords the student the opportunity to apply in the workplace the knowledge and skills s/he acquired in the classroom. In this course, students will examine the role of data analytics in the daily operations of an organization. Students will gain a better understanding of organizational culture, professional expectations, and his/her career options in the workplace. Prereq: Enrollment in MAcc program.			

<b>7716</b>	<b>Accounting and Financial Analysis in Health Sciences</b>	<b>G</b>	<b>1½</b>
Examines how managers use accounting and financial reporting information in decision making and performance evaluation. Course focuses on fundamental techniques for financial analysis such as time value money, risk and return, and capital budgeting. Prereq: BusMgt 7701, BusFin 7702, and BusMHR 7703; and enrollment in the Graduate Business Minor in Health Sciences.			
<b>7784</b>	<b>Tax Research</b>	<b>G</b>	<b>1½</b>
Case studies requiring an in-depth examination of the tax aspects of situations frequently encountered by businesses and individuals. Prereq: 7410, or enrollment in MAcc program. Not open to students with credit for 856.			
<b>7800</b>	<b>Advanced Topics in Accounting and MIS for EMBA</b>	<b>G</b>	<b>1 - 3</b>
Advanced Topics in Accounting and MIS for students in the Executive MBA Program. Prereq: Enrollment in EMBA Program. Repeatable to a maximum of 15 cr hrs or 7 completions.			
<b>7810</b>	<b>Advanced Topics in Accounting and MIS</b>	<b>G</b>	<b>1½ - 3</b>
Advanced Topics in Accounting and MIS for students in the MAcc Program. Prereq: Enrollment in MAcc program. Repeatable to a maximum of 15 cr hrs or 7 completions.			
<b>8780</b>	<b>Doctoral Seminar in Accounting &amp; MIS</b>	<b>G</b>	<b>3</b>
Required seminar in Accounting and MIS for first year doctoral students. Prereq: Enrollment in AcctMIS PhD program.			
<b>8782</b>	<b>Doctoral Seminar in Financial Accounting</b>	<b>G</b>	<b>3</b>
Required doctoral seminar in Financial Accounting. Prereq: Enrollment in AcctMIS PhD program.			
<b>8783</b>	<b>Doctoral Seminar in Managerial Accounting</b>	<b>G</b>	<b>3</b>
Required doctoral seminar in Managerial Accounting. Prereq: Enrollment in AcctMIS PhD program.			
<b>8786</b>	<b>Doctoral Seminar in MIS Research</b>	<b>G</b>	<b>3</b>
Required doctoral seminar in MIS Research. Prereq: Enrollment in AcctMIS PhD program.			
<b>8890</b>	<b>Doctoral Seminar in Accounting Topics</b>	<b>G</b>	<b>3</b>
Doctoral seminar in Selected Accounting Topics. Prereq: Enrollment in AcctMIS PhD program. Repeatable to a maximum of 12 cr hrs.			
<b>8999</b>	<b>Dissertation Research</b>	<b>G</b>	<b>1 - 9</b>
Doctoral dissertation research. Prereq: Enrollment in AcctMIS PhD program. Repeatable to a maximum of 24 cr hrs or 9 completions. This course is progress graded (S/U).			

### Advanced Computing Center for the Arts and Design

<b>3350</b>	<b>The History of Animation</b>	<b>U</b>	<b>3</b>
An overview of the history and theory of animation including origin of animation forms, Hollywood Studio animation, a sample of World Animation and contemporary animation. Prereq: Not open to students with credit for ArtsCol 350.			
<b>4101</b>	<b>Performance and Installation Technology</b>	<b>U</b>	<b>3</b>
An overview of technologies useful for creating interactive installations and performance systems, using video projection, 3D graphics, environmental sensors and visual programming. Prereq: Permission of Instructor.			
<b>5001</b>	<b>Motion Studies through Hand-Drawn Animation</b>	<b>U G</b>	<b>3</b>
The principles of animation as demonstrated through hand-drawn animation. The work produced serves as a tool for comprehending the underlying process of any animation technique. Prereq: Not open to students with credit for ArtsCol 683.			
<b>5002</b>	<b>3D Computer Animation: Form, Light and Motion I</b>	<b>U G</b>	<b>3</b>
Overview of 3D computer animation components and stages of production. Prereq: 5001 for students enrolled in the MIP (Moving Image Production) program.			
<b>5003</b>	<b>3D Computer Animation: Form, Light and Motion II</b>	<b>U G</b>	<b>3</b>
Further exploration of 3D computer animation and stages of production. Prereq: 5002, or permission of instructor.			
<b>5100</b>	<b>Concept Development for Time-Based Media</b>	<b>U G</b>	<b>3</b>
Methods for developing concepts for time-based media through the cultivation of ideas and problem-solving strategies. Storyboarding, composition, editing and sound principles will be explored. Prereq: Not open to students with credit for ArtsCol 730.			
<b>5102</b>	<b>Programming Concepts and Applications for Artists and Designers</b>	<b>U G</b>	<b>3</b>
Fundamental programming concepts useful to artists and designers for creating algorithmic - based graphics and graphics tools. Prereq: Not open to students with credit for ArtsCol 756.			
<b>5140</b>	<b>Interactive Arts Media: Web</b>	<b>U G</b>	<b>3</b>
Introduction to the theory and practice of the design of interactive media for the web. Prereq: Not open to students with credit for ArtsCol 740.			

## 4 Advanced Computing Center for the Arts and Design

<b>5141</b>	<b>Interactive Arts Media: UI/UX</b>	<b>U G</b>	<b>3</b>
Practice in methods for designing and crafting user experiences (UX) and user interfaces (UI) for web applications.			
<b>5150</b>	<b>Emerging Trends in Data Visualization</b>	<b>U G</b>	<b>3</b>
This course enables students to explore new and emerging visualization approaches, topics and trends in visualization research and their applications. Students will research, write about, experience, propose, and prototype trends and possibilities for visualization.			
<b>5191</b>	<b>ACCAD Internship</b>	<b>U G</b>	<b>½ - 3</b>
A collaborative internship assignment conducted under the supervision of a faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5193</b>	<b>Independent Study</b>	<b>U G</b>	<b>½ - 3</b>
Independent study. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>5194.01</b>	<b>Group Studies in Digital Animation and Interactive Media</b>	<b>U G</b>	<b>½ - 3</b>
Group study on various topics related to digital animation and interactive media. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>5301</b>	<b>Devising Experiential Media Systems</b>	<b>U G</b>	<b>3</b>
This course focuses on the creation of interactive and responsive spaces through the design of experiential media systems within the context of their underlying history, methodology, technology, and theory. Using a multidisciplinary and collaborative approach, students create hybrid digital-physical experiences which investigate the application of the technology used in experiential media design.			
<b>5500</b>	<b>Integrated Tech Lab</b>	<b>U G</b>	<b>½ - 3</b>
Technology exploration using ACCAD's specialized graphics laboratories. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
<b>6002</b>	<b>Computer Game Art and Design I</b>	<b>G</b>	<b>3</b>
Introduction to concepts for design and prototyping of games for entertainment, learning and social good. Prereq: Sr or Grad standing, and permission of instructor. Not open to students with credit for ArtsCol 733.			
<b>6003</b>	<b>Computer Game Art and Design II</b>	<b>G</b>	<b>3</b>
Advanced topics for design and production of both fun and serious games including networked multi-player and mobile devices. Prereq: Sr or Grad standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>6650</b>	<b>The History of Animation</b>	<b>G</b>	<b>3</b>
Overview of the history and theory of animation, including the origin of animation forms and Hollywood Studio animation, with a sample of World and contemporary animations. Prereq: Grad standing. Not open to students with credit for ArtsCol 650.			
<b>6651</b>	<b>Digital and Physical Lighting</b>	<b>G</b>	<b>4</b>
Introduction to the principles and concepts of lighting as used in theatre and computer graphics. Working in collaborative teams, students develop and execute digital and analog lighting schemes. Prereq: Grad standing, or permission of instructor. Not open to students with credit for ArtsCol 754 or Theatre 6651 (754). Cross-listed in Theatre.			
<b>7001</b>	<b>Virtual Modeling</b>	<b>G</b>	<b>3</b>
Design and modeling principles of 3D objects, environments and characters for animation, games and visualization. Prereq: Grad standing, or permission of instructor. Not open to students with credit for ArtsCol 751.			
<b>7101</b>	<b>Performance and Installation Technology</b>	<b>G</b>	<b>3</b>
An overview of technologies useful for creating interactive installations and performance systems, using video projection, 3D graphics, environmental sensors and visual programming. Prereq: Grad standing, or permission of instructor. Not open to students with credit for ArtsCol 758.			
<b>7102</b>	<b>Motion Capture Production and Experimentation</b>	<b>G</b>	<b>3</b>
Traditional motion capture pipelines and exploration of possibilities for experimental approaches and applications of the technology. Prereq: Grad standing, or permission of instructor. Not open to students with credit for ArtsCol 760.			
<b>7103</b>	<b>Designing Immersive Virtual Environments</b>	<b>G</b>	<b>3</b>
Creative and technical concepts for the development of simulations, installations, augmented reality and responsive spaces using 3D computer graphics with gesture-based and alternative input systems combined with immersive display methods. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>7193</b>	<b>Independent Study</b>	<b>G</b>	<b>½ - 3</b>
Independent Study. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			

<b>7504</b>	<b>Animation Production</b>	<b>G</b>	<b>1 - 6</b>
An advanced studio course designed for students who are well versed in animation concepts and technical basics. The course challenges students to embark on collaborative animation projects that are currently in-house at ACCAD. Prereq: 7001, 7002, 7003, 7004, or 7005, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7893</b>	<b>Collaborative Interdisciplinary Research Studio Experience</b>	<b>G</b>	<b>1 - 3</b>
Creative research by teams integrating information, data, techniques, tools, perspectives, concepts, &/or theories from two or more bodies of specialized knowledge to advance fundamental understanding or solve problems whose solutions are evolving. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.			

## Aerospace Engineering

<b>2200</b>	<b>Introduction to Aerospace Engineering I</b>	<b>U</b>	<b>4</b>
An introduction to fundamental concepts leading to aircraft design, with an emphasis on aerodynamics and aircraft performance. Prereq: Physics 1250 or 1260 (131); and Math 1152 (152), 1161 (161), 1172 (154), or 1181H, or a grade of C- or above in Math 1544. Prereq or concur: Math 2173 (254), 2153 (153), or 2162 (263). Not open to students with credit for 200.			
<b>2201</b>	<b>Introduction to Aerospace Engineering II</b>	<b>U</b>	<b>4</b>
An introduction to fundamental concepts leading to aircraft and spacecraft design, with an emphasis on stability and control, propulsion, space launch/reentry, and orbital mechanics. Prereq: 2200 (200). Not open to students with credit for 201.			
<b>2405</b>	<b>Thermodynamics</b>	<b>U</b>	<b>3</b>
Aerospace engineering thermodynamics: Introduction to the concepts of energy and entropy, the First and Second Law analysis of systems and control volumes, and the analysis of power and refrigeration cycles. Prereq: 2200 (200), and AeroEng-BS student (No AAE pre-majors can enroll in this class). Not open to students with credit for 405.			
<b>3520</b>	<b>Flight Vehicle Dynamics</b>	<b>U</b>	<b>3</b>
Introduction to mathematical modeling of dynamics (equations of motion) for rigid bodies with specific application towards aircraft and spacecraft. Prereq: 2201 (201) and MechEng 2030 (430), and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 520.			
<b>3521</b>	<b>Fundamentals of Flight Vehicle Control</b>	<b>U</b>	<b>3</b>
Linear dynamic systems analysis using Transfer function (Laplace Transformation based) methods and State Space (matrix theory based) methods with emphasis on aircraft and spacecraft models. Prereq: 3520 (520) and ECE 2300 (300 and 309), and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 521.			
<b>3542</b>	<b>Flight Vehicle Structures I</b>	<b>U</b>	<b>3</b>
Introduction to aerospace structures: Basic structural components; fundamental elements of linear elastic boundary value problems; composites; bending, torsion and shear of thin-walled sections; laboratory demonstrations. Prereq: 2201 (201) and MechEng 2030 (430) and 2040, or AeroEng 2201 (201) and MechEng 2010 and 2020 and 2030; and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 542.			
<b>3543</b>	<b>Flight Vehicle Structures II</b>	<b>U</b>	<b>3</b>
Energy Based Analysis: principles of virtual work and minimum potential energy; rayleigh-ritz & finite element methods; structural stability; thermo-elasticity; structural dynamics; laboratory demonstrations. Prereq: 3542 (342), and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 543.			
<b>3560</b>	<b>Fundamentals of Aerodynamics</b>	<b>U</b>	<b>3</b>
Fundamentals of viscous and inviscid flow encountered in aircraft aerodynamics. Prereq: 2201 (201) and 2405 (405); and Math 2174, or 2568 (568) and 2415 (415); and enrollment as AeroEng-BS student. Not open to students with credit for 560 and 570, or AeroEng pre-majors.			
<b>3570</b>	<b>One Dimensional Gas Dynamics</b>	<b>U</b>	<b>3</b>
Continuation of viscous flows and boundary layers. One-dimensional gas dynamics including shocks, waves, supersonic, and transonic flow. Prereq: 3560 (560 and 570), and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 530.			
<b>3580</b>	<b>Heat Transfer</b>	<b>U</b>	<b>3</b>
Fundamentals of conduction, convection, and radiation. Prereq: 3560 (560 and 570), and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 570.			
<b>3581</b>	<b>Numerical Methods in Aerospace Engineering</b>	<b>U</b>	<b>3</b>
Fundamentals of mathematical and numerical modeling techniques and their applications in solving engineering problems. Prereq: Math 2174, or 2568 (568) and 2415 (415); and enrollment as AeroEng-BS student. Not open to students with credit for 581, or AeroEng pre-majors.			

## Aerospace Engineering 5

<b>4193</b>	<b>Individual Studies in Aerospace Engineering</b>	<b>U</b>	<b>1 - 7</b>
Individual studies project for undergraduates. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 4 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Aerospace Engineering</b>	<b>U</b>	<b>1 - 3</b>
Group studies course for undergraduates. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 4 completions.			
<b>4510</b>	<b>Experimental Projects I</b>	<b>U</b>	<b>2</b>
Conceive, plan and design an experiment with a group of students. Emphasis on planning and experiment preparation. Prereq: 3543 (543) and 3570 (530 and 570), and Sr standing, and enrollment as AeroEng-BS student (No pre-majors can enroll in this class).			
<b>4511</b>	<b>Experimental Projects II</b>	<b>U</b>	<b>2</b>
Execute and report on experiment formulated in Projects I. Emphasis on execution and reporting. Prereq: 4510, and enrollment as AeroEng-BS student (No pre-majors can enroll in this class).			
<b>4515</b>	<b>Design of Atmospheric Flight Vehicles I</b>	<b>U</b>	<b>3</b>
Conceptual and preliminary design, methodology, case studies, introduction of design software, group planning for subsequent design effort: design of atmospheric flight vehicles and components. Prereq: 3543 (543) and 3570 (530 and 570) and 3521 (521) and 3580 (580), and Sr standing, and enrollment as AeroEng-BS student (No AAE pre-majors can enroll in this class). Prereq or concur: 4550 (550). Not open to students with credit for 515.01 or 516.01.			
<b>4516</b>	<b>Design of Atmospheric Flight Vehicles II</b>	<b>U</b>	<b>3</b>
Continuation of 4515. Preliminary and detailed design of aerospace vehicle components: design of a vehicle for atmospheric flight. Prereq: 4515 (515 and 516), and enrollment as AeroEng-BS student (No pre-majors can enroll in this class). Not open to students with credit for 516.01 or 517.01.			
<b>4517</b>	<b>Design of Space Vehicles and Systems I</b>	<b>U</b>	<b>3</b>
Feasibility study of a space mission, elements of mission design and design methodologies of spacecraft subsystems, and preliminary sizing. Prereq: 3521 and 3543 and 3570 and 3580, and Sr standing, and enrollment as AeroEng-BS student (No pre-majors can enroll in this course). Prereq or concur: 4550.			
<b>4518</b>	<b>Design of Space Vehicles and Systems II</b>	<b>U</b>	<b>3</b>
Continuation of 4517: Preliminary and detailed design of space vehicle components. Design of a space vehicle/system, and mission scenarios simulation via computer software. Prereq: 4517, and enrollment as AeroEng-BS student (No pre-majors can enroll in this course).			
<b>4550</b>	<b>Principles of Flight Vehicle Propulsion</b>	<b>U</b>	<b>3</b>
Fundamentals of aerospace propulsion, engine cycles and analysis of various air-breathing and rocket engines. Prereq: 3570. Not open to students with credit for 550.			
<b>4998</b>	<b>Aerospace Engineering Research</b>	<b>U</b>	<b>1 - 3</b>
Aerospace Engineering research. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>4999</b>	<b>Aerospace Engineering Thesis Research</b>	<b>U</b>	<b>1 - 3</b>
Aerospace Engineering research for thesis. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 5 completions.			
<b>4999H</b>	<b>Aerospace Engineering Honors Thesis Research</b>	<b>U</b>	<b>1 - 3</b>
Aerospace Engineering honors research for thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 or hrs or 5 completions. This course is graded S/U.			
<b>5610</b>	<b>Helicopter Aerodynamics</b>	<b>U G</b>	<b>3</b>
Basic treatment of helicopter aerodynamics, performance, and design. Prereq: 3570 (530 and 570).			
<b>5612</b>	<b>Aircraft Performance and Flight Test Engineering</b>	<b>U G</b>	<b>3</b>
Determination of the performance, stability, controllability, and handling qualities of general aviation aircraft through analysis and flight tests. Prereq: 3520 (520) and 3570 (530 and 570). Not open to students with credit for 612.			
<b>5615</b>	<b>Introduction to Computational Aerodynamics</b>	<b>U G</b>	<b>3</b>
Introduction to computational methods used in aerodynamics flow problems. Prereq: 3570 and 3581, and AeroEng major. Not open to AeroEng pre-major students.			
<b>5616</b>	<b>Advanced Flight Vehicle Design</b>	<b>U G</b>	<b>3</b>
The course introduces advanced flight vehicle design techniques applied during the conceptual design phase. The optimum design process and problem formulation is introduced, with an in-depth focus on multivariate graphical optimization techniques for aircraft. We will conduct optimal design based on first principles, and apply best practices to multidisciplinary flight vehicle design. Prereq or concur: 4550, and 4515 or 4517; or Grad standing in AeroEng; or permission of instructor.			

<b>5620</b>	<b>Stability and Control of Flight Vehicles</b>	<b>U G</b>	<b>3</b>
Analysis and design of aircraft, helicopter and missile flight control systems and the associated guidance and navigation systems. Prereq: 3521 (521). Not open to students with credit for 620 or 621.			
<b>5621</b>	<b>Guidance, Navigation, and Control of Aerospace Vehicles</b>	<b>U G</b>	<b>3</b>
Spacecraft (satellite) control systems analysis and design. Prereq: 3521 (521). Not open to students with credit for 620 or 621.			
<b>5626</b>	<b>Orbital Mechanics for Engineers</b>	<b>U G</b>	<b>3</b>
Introduction to orbital mechanics with orbit determination techniques, orbital maneuvers and lunar and interplanetary trajectories. Prereq: 3520 (520) and MechEng 2030 (430). Not open to students with credit for 645 or 745.			
<b>5751</b>	<b>Advanced Air-Breathing Propulsion</b>	<b>U G</b>	<b>3</b>
Fundamental and advanced concepts of gas turbine operation. Prereq: 4550 (550). Not open to students with credit for 751.			
<b>5752</b>	<b>Advanced Space Propulsion</b>	<b>U G</b>	<b>3</b>
Analysis of different propulsion techniques for access to space and inter-planetary flight: liquid, solid, hybrid, nuclear and electric. Emphasizes fundamentals based on physics and mathematics. Prereq: 4550 (550), or permission of instructor. Not open to students with credit for 752.			
<b>5775</b>	<b>Hypersonic Flow</b>	<b>U G</b>	<b>3</b>
Introduction to hypersonic inviscid and viscous flows, Newtonian theory, high-temperature effects and heat transfer. Prereq: 3570 (530 and 570) and 4550 (550). Not open to students with credit for 775.			
<b>6193</b>	<b>Individual Studies in Aerospace Engineering</b>	<b>G</b>	<b>1 - 7</b>
Individual studies project. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies in Aerospace Engineering</b>	<b>G</b>	<b>1 - 3</b>
Group studies course. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs or 4 completions.			
<b>6645</b>	<b>Introduction to Structural Dynamics and Aeroelasticity of Aerospace Vehicles</b>	<b>G</b>	<b>4</b>
Fundamental Concepts of Structural Dynamics, Unsteady Aerodynamics, and Aeroelasticity of Aerospace Vehicles. Prereq: Grad standing, or permission of instructor.			
<b>6771</b>	<b>Viscous Fluid Flow: Laminar and Transitional</b>	<b>G</b>	<b>3</b>
Focus on laminar and transitional flows, beginning with classic analytical solutions to the Navier-Stokes equations and addressing issues of boundary layer stability and compressibility effects. Prereq: 3560 and 3570.			
<b>6860</b>	<b>Experimental Fluid Mechanics</b>	<b>G</b>	<b>3</b>
Introduction to experiment planning, data acquisition and analysis, and advanced measurement techniques commonly employed in fluid dynamics research. Prereq: Grad standing in Mechanical or Aerospace Engineering, or permission of instructor. Not open to students with credit for 860.			
<b>7774</b>	<b>Aeroacoustics</b>	<b>G</b>	<b>3</b>
Fundamental concepts of classical acoustics; physical mechanisms associated with aerodynamic noise generation; computational aeroacoustic methods. Prereq: 5615 (615) or equiv.			
<b>7844</b>	<b>Optimal Design of Aerospace Structures</b>	<b>G</b>	<b>3</b>
Optimization applied to aircraft and spacecraft structures. Prereq: Grad standing in Mechanical or Aerospace Engineering, or permission of instructor. Not open to students with credit for 844 or MechEng 7761 (761). Cross-listed in MechEng 7761.			
<b>7862</b>	<b>Internal Flows in Turbomachinery</b>	<b>G</b>	<b>3</b>
Detailed study of swirling, rotating, compressible, and unsteady internal flows found in turbomachinery. Prereq: 3560 (560) and 5751 (751), or permission of instructor. Not open to students with credit for 862.			
<b>7875</b>	<b>Introduction to Turbulence</b>	<b>G</b>	<b>3</b>
Introduction to turbulence in fluid mechanics with emphasis on understanding the physical mechanisms involved. Prereq: Grad standing in Mechanical or Aerospace Engineering, or permission of instructor. Not open to students with credit for 875. Cross-listed in MechEng 7513.			
<b>8193</b>	<b>Individual Studies in Aerospace Engineering</b>	<b>G</b>	<b>1 - 7</b>
Topics selected to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			

## 6 Aerospace Engineering

<b>8194</b>	<b>Group Studies Aerospace Engineering</b>	<b>G</b>	<b>1 - 3</b>
Topics selected to give advanced students an opportunity to pursue special studies as a group not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>8802</b>	<b>Advanced Mathematical Methods in Engineering</b>	<b>G</b>	<b>3</b>
Fourier series, complex differentiation and integration and transform and Green's function methods for solution of problems arising in heat transfer, vibrations, fluid mechanics; asymptotic analysis and singular perturbations. Prereq: Grad standing in Mechanical, Aerospace, or Nuclear Engineering; or permission of instructor. Cross-listed in MechEng 8518.			
<b>8820</b>	<b>Robust Multivariable Control with Applications</b>	<b>G</b>	<b>3</b>
Advanced concepts for robust control of uncertain dynamic systems with applications. Prereq: 5620 (620) or 5621 (621), or equiv.			
<b>8873</b>	<b>Advanced Computational Fluid Dynamics</b>	<b>G</b>	<b>3</b>
Fundamentals of most types of numerical approaches employed to solve fluid dynamics and heat transfer problems. Prereq: 5615 (615) or MechEng 6507 (707), or equiv. Not open to students with credit for 873.			
<b>8890</b>	<b>Aerospace Engineering Graduate Seminar</b>	<b>G</b>	<b>1</b>
Lecture and discussion of current topics related to Aerospace Engineering presented by graduate students, staff and guest speakers. Course does not count toward course work required for MS or PhD degrees. Prereq: Grad standing in AeroEng, MechEng or NuclEn. Repeatable to a maximum of 20 or hrs. This course is graded S/U.			
<b>8998</b>	<b>Aerospace Engineering Research for MS Thesis</b>	<b>G</b>	<b>1 - 15</b>
Aerospace engineering research for thesis. Repeatable. This course is graded S/U.			
<b>8999</b>	<b>Aerospace Engineering Research for Dissertation</b>	<b>G</b>	<b>1 - 16</b>
Aerospace Engineering research for PhD. Repeatable. This course is graded S/U.			

### African American and African Studies

<b>1101</b>	<b>Introduction to African American and African Studies</b>	<b>U</b>	<b>3</b>
Introduction to the scholarly study of the Africana experience, focusing on patterns of resistance, adaptation, diversity, and transnational connections. Prereq: English 1110. GE soc sci indivs and groups course.			
<b>1121</b>	<b>African Civilizations to 1870</b>	<b>U</b>	<b>3</b>
Exploration of the political, social, and economic history of precolonial African civilizations, using a variety of interdisciplinary approaches and materials. Prereq: English 1110. GE historical study and diversity global studies course.			
<b>1122</b>	<b>African Civilizations, 1870 to the Present</b>	<b>U</b>	<b>3</b>
Exploration of the political, social, and economic history of colonial and independent African countries, using a variety of interdisciplinary approaches and materials. Prereq: English 1110. GE historical study and diversity global studies course.			
<b>2080</b>	<b>African American History to 1877</b>	<b>U</b>	<b>3</b>
The study of the African American experience in America from arrival through the era of Reconstruction, focusing on slavery, resistance movements, and African American culture. Prereq or concur: English 1110.xx. Not open to students with credit for 323.01 or History 2080 (323.01). GE historical study course. Cross-listed in History.			
<b>2081</b>	<b>African American History from 1877</b>	<b>U</b>	<b>3</b>
The study of the African American experience in the United States from the era of Reconstruction through the present. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 323.02 or History 2081 (323.02). GE historical study course. Cross-listed in History.			
<b>2101</b>	<b>Introduction to African Art and Archaeology</b>	<b>U</b>	<b>3</b>
The Art and Archaeology of Africa with emphasis on the historic cultures of Rock Art (8,000 B.C.), Egypt (3,000 B.C.), Nok (900 B.C.), Igbo-Ukwu (695 A.D.), Ife (1200 A.D.), and Benin (1400-1900 A.D.). Prereq: Not open to students with credit for HistArt 2101 (216). GE VPA course and diversity global studies course. Cross-listed in HistArt.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Groups of students are given an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions.			
<b>2201</b>	<b>Major Readings in African American and African Studies</b>	<b>U</b>	<b>3</b>
An introduction to major authors and texts contributing to the discourses that have shaped and defined African American and African Studies from its inception to the present. Prereq: English 1110 (110). Not open to students with credit for 200 or 201. GE diversity soc div in the US course.			
<b>2218</b>	<b>Black Urban Experience</b>	<b>U</b>	<b>3</b>
Examination of contemporary black urban experience focused on the impact of persistent residential segregation, increasing class polarization, and the global force of hip hop culture. GE soc sci indivs and groups course.			

<b>2251</b>	<b>Introduction to African Literature</b>	<b>U</b>	<b>3</b>
An assessment of the oral prose tradition and written prose of African literature; specific emphasis placed on student reading from primary sources. GE lit and diversity global studies course.			
<b>2253</b>	<b>Introduction to Caribbean Literature</b>	<b>U</b>	<b>3</b>
An introduction to Caribbean literature with a focus on prose, poetry, and drama. GE lit and diversity global studies course.			
<b>2270</b>	<b>Introduction to Black Popular Culture</b>	<b>U</b>	<b>3</b>
A critical analysis of the commodity production and consumption of black popular culture products, such as fashion, film, urban fiction, music, vernacular expression, television and advertising. GE VPA and diversity soc div in the US course.			
<b>2275</b>	<b>Blackness and the Politics of Sports</b>	<b>U</b>	<b>3</b>
This interdisciplinary course considers the role of Black athletes in society and culture, the racial politics involved, and the global implications of race on courts, playing fields, tracks, and other athletic arenas.			
<b>2281</b>	<b>Introduction to African-American Literature</b>	<b>U</b>	<b>3</b>
A study of representative literary works by African-American writers from 1760 to the present. Prereq: English 1110 (110), or equiv. Not open to students with credit for 281 or English 2281 (281). GE lit and diversity soc div in the US course. Cross-listed in English.			
<b>2285</b>	<b>Afropop: Popular Music and Culture in Contemporary Africa</b>	<b>U</b>	<b>3</b>
This course focuses on the rich variety, aesthetic beauty, and political significance of popular music in modern African cities. By closely attending to the genres, forms, styles, and social life of African popular music, students will encounter the dynamic soundscape of popular culture in Africa today. GE cultures and ideas course and diversity global studies course.			
<b>2288</b>	<b>Bebop to Doowop to Hip-hop: The Rhythm and Blues Tradition</b>	<b>U</b>	<b>3</b>
Examines the aesthetic and historical evolution of rhythm and blues: black music tradition including bebop, rock and roll, and hip-hop, redefining American popular culture post-WWII. Prereq: Not open to students with credit for 288 or Music 2288 (288). GE VPA and diversity soc div in the US course. Cross-listed in Music.			
<b>2300</b>	<b>Issues in the Contemporary Black World</b>	<b>U</b>	<b>3</b>
This interdisciplinary course examines contemporary issues affecting people of African descent on the continent and throughout its Diaspora. The course will call upon students to consider how race, ethnicity, national origin, gender, sexuality, and religion affect African-descended people in their daily lives, in cultural productions, and in relation to state power. GE diversity global studies course.			
<b>2327</b>	<b>Introduction to African Politics</b>	<b>U</b>	<b>3</b>
Examination of dynamics of nation-building in African countries in transition from colonial dependencies to modern nation-states.			
<b>2367.01</b>	<b>African-American Voices in U. S. Literature</b>	<b>U</b>	<b>3</b>
Discussion, analysis, and writing about issues presented through the diverse voices of African American literature. Prereq: English 1110 (110). Not open to students with credit for 367.02. GE writing and comm: level 2 and lit and diversity soc div in the US course.			
<b>2367.02</b>	<b>Debates in African American Studies</b>	<b>U</b>	<b>3</b>
This writing-intensive course will assist students in honing their rhetorical argumentation skills through the examination of debates in African American Studies from the arrival of Africans in the Americas through the current moment. Prereq: English 1110.01 (101.01), and Soph standing. GE writing and comm course: level 2.			
<b>2367.04</b>	<b>Black Women Writers: Text and Context</b>	<b>U</b>	<b>3</b>
Writing and analysis of black women's literary representations of issues in United States social history. Prereq: English 1110, and Soph standing. Not open to students with credit for WGSSt 2367.04. GE writing and comm: level 2 and lit and diversity soc div in the US course. Cross-listed in WGSSt.			
<b>2367.07S</b>	<b>Literacy Narratives of Black Columbus</b>	<b>U</b>	<b>3</b>
This service-learning course focuses on collecting and preserving literacy narratives of Columbus-area Black communities. Through engagement with community partners, students refine skills in research, analysis, and composition; students synthesize information, create arguments about discursive/visual/cultural artifacts, and reflect on the literacy and life-history narratives of Black Columbus. Prereq: English 1110, and Soph standing. Not open to students with credit for English 2367.07S. GE writing and comm: level 2 and diversity soc div in the US course. Cross-listed in English.			
<b>3080</b>	<b>Slavery in the United States</b>	<b>U</b>	<b>3</b>
The African American experience in slavery, focusing on the rise of the slave trade, slavery in the colonial and antebellum eras, the Civil War, and abolition. Prereq or concur: English 1110.xx; or permission of instructor. Not open to students with credit for History 3080. GE historical study course. Cross-listed in History.			

## African American and African Studies 7

<b>3083</b>	<b>Civil Rights and Black Power Movements</b>	<b>U</b>	<b>3</b>
Examines the origins, evolution, and outcomes of the African American freedom struggle, focusing on the Civil Rights and Black Power movements. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for History 3083. GE historical study and diversity soc div in the US course. Cross-listed in History.			
<b>3086</b>	<b>Black Women in Slavery and Freedom</b>	<b>U</b>	<b>3</b>
Traces the experiences and struggles of African American women from slavery through the Civil Rights/Black Power era. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. Not open to students with credit for History 3086. GE historical study and diversity soc div in the US course. Cross-listed in History.			
<b>3089</b>	<b>Studies in African American History</b>	<b>U</b>	<b>3</b>
Selected topics in African American history from the origins of slavery to the present. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. Not open to students with credit for History 3089. Repeatable to a maximum of 12 cr hrs. GE historical study course. Cross-listed in History.			
<b>3230</b>	<b>Black Women: Culture and Politics</b>	<b>U</b>	<b>3</b>
Examination of the social, cultural, political, economic, and historical forces, dynamics, and processes affecting women throughout the Africana world. Prereq: Not open to students with credit for 230. GE diversity soc div in the US course.			
<b>3260</b>	<b>Global Black Cultural Movements</b>	<b>U</b>	<b>3</b>
This course focuses on hemispheric studies in the Americas, examining black cultural movements emerging after emancipation through the present. It considers the ways people of African descent in the Americas have used cultural productions—literature, poetry, film, music, visual art, and performance—to construct identities; agitate for equality; and understand aesthetics as political and beautiful. GE diversity global studies course.			
<b>3304</b>	<b>History of Islam in Africa</b>	<b>U</b>	<b>3</b>
Africa from the emergence of Islam in the 600s to the Present. African contributions to Islam and the impact of Islam on African societies. Sometimes this course is offered in a distance-only format. Prereq: or concur: English 1110.xx, or permission of instructor. Not open to students with credit for History 3304. GE historical study course. Cross-listed in History.			
<b>3310</b>	<b>Global Perspectives on the African Diaspora</b>	<b>U</b>	<b>3</b>
Study of historical processes, key figures and ideas, and cultural expressions of the worldwide dispersion of people of African descent from different times and places. Prereq: Not open to students with credit for 310.			
<b>3320</b>	<b>History of African Cinema</b>	<b>U</b>	<b>3</b>
Emergence and development of African cinema as a film genre and part of material culture. European colonial and ethnographic to modern African cinema. Sometimes this course is offered in distance-only format. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for History 3310. GE historical study and diversity global studies course. Cross-listed in History 3310.			
<b>3361</b>	<b>Psychology of the Black Experience</b>	<b>U</b>	<b>3</b>
An analysis of personality theories commonly applied to black Americans and the black experience. Prereq: Not open to students with credit for 361.			
<b>3370</b>	<b>Being African in America</b>	<b>U</b>	<b>3</b>
We examine the particular experiences of first and second generation Africans in America, for whom today's amplified "us vs. them" rhetoric threatens to fracture what W.E.B. Du Bois called an African American sense of "two-ness." What are the constraints on a doubly conscious "African" and "American" identity in the United States? What are the challenges of sustaining a fragile social pluralism? Prereq: English 1110.			
<b>3376</b>	<b>Arts and Cultures of Africa and the Diaspora</b>	<b>U</b>	<b>3</b>
An overview of African and African diaspora cultures from a historical perspective. Cultural media will include art, literature, film, dance, and photography. Prereq: Not open to students with credit for 376 or HistArt 3102. GE VPA and diversity global studies course. Cross-listed in HistArt 3102.			
<b>3440</b>	<b>Theorizing Race</b>	<b>U</b>	<b>3</b>
Introduction to issues of "race," consideration of the historical emergence and development of ideas of "race" and of racist practices, along with their contemporary formations. Prereq: Any 2367 course, or Philos 2400, or enrollment in Philosophy, Politics, and Economics Major, or permission of instructor. Not open to students with credit for Philos 3440. Cross-listed in Philos.			
<b>3450</b>	<b>The Art and Politics of Hip-Hop</b>	<b>U</b>	<b>3</b>
Explores the world of Hip-Hop, from its birth in the Bronx to its infiltration of music, fashion, television, film, dance, print culture, and politics. It considers critically the intersections of race, class, gender, sexuality, nation, and geography as well as the ways in which Hip-Hop functions simultaneously as aesthetic, analytic, and politic. Prereq: English 1110.			

<b>3956</b>	<b>Black Cultures and Classical Education</b>	<b>U</b>	<b>3</b>
Study the role of classics in African and the African Diaspora (US, Caribbean, Brazil). Major themes include: adaptations of classical literature, impact of classical education, classics as a tool of colonial oppression, classics as a tool of anti-colonial resistance, theories of race, classical and classicizing depictions of black bodies. Prereq: Not open to students with credit for Clas 3956. Cross-listed in Clas. GE lit course. GE diversity global studies course.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 6</b>
Exploration of relevant subject as individually designed by student and professor. Prereq: Permission of instructor, and permission of dept chair. Repeatable to a maximum of 6 cr hrs and 2 completions. This course is graded S/U.			
<b>4250</b>	<b>African Politics</b>	<b>U</b>	<b>3</b>
An introductory survey of Sub-Saharan African politics from the pre-colonial period to the contemporary era. It will examine the common themes, issues, and trends that shape politics and development across forty-nine countries. Students will gain an understanding of how context shapes political behavior and how historical and political forces have influenced African politics. Prereq: Not open to students with credit for PolitSc 4597.02 (Au13, African Politics), 4250, or 4250H. GE soc sci orgs and politics and diversity global studies course. Cross-listed in PolitSc.			
<b>4326</b>	<b>Topics in African Americans and Public Policy</b>	<b>U</b>	<b>3</b>
Examination of the impact of public policies on African American communities in the U.S. from the New Deal's Welfare State policies and programs of the 1930s to the present. Prereq: Not open to students with credit for 326.			
<b>4342</b>	<b>Religion, Meaning, and Knowledge in Africa</b>	<b>U</b>	<b>3</b>
While the practice of religion in Africa is as diverse as its people, three major belief systems define the practice: African Traditional Religion, Islam, and Christianity. This course will examine classical and contemporary definitions of African Traditional Religion/s and the introduction and adaptations of Islam and Christianity in Africa. GE cultures and ideas and diversity global studies course.			
<b>4504</b>	<b>Black Politics</b>	<b>U</b>	<b>3</b>
Economic, political, and social constraints on the development of black political power; the efforts made by black people in recent times to organize for effective political action. Prereq: Not open to students with credit for 504 or PolitSc 4140 (504). Cross-listed in PolitSc 4140.			
<b>4515</b>	<b>Ethnicity, Development and the State in Sub-Saharan Africa</b>	<b>U</b>	<b>3</b>
Takes a theoretical and comparative historical approach to analyzing problems of development and ethnic conflict in Sub-Saharan Africa. Prereq: Soph standing or above. Not open to students with credit for 515 or IntStds 4515 (515). Cross-listed in IntStds.			
<b>4535</b>	<b>Topics in Black Masculinity</b>	<b>U</b>	<b>3</b>
A theoretical analysis of constructions, perceptions, and performances of black masculinity locally and globally.			
<b>4551</b>	<b>Topics in Africana Literature</b>	<b>U</b>	<b>3</b>
Topics selected will relate to varying issues in the literatures of the Africa and the African Diaspora. Prereq: 2251, 2281, or English 2281. Not open to students with credit for 551. GE lit and diversity global studies course.			
<b>4557</b>	<b>History of South Africa</b>	<b>U</b>	<b>3</b>
An examination of the political and social developments in South Africa from the 19th century to the present. Prereq: Not open to students with credit for 575.			
<b>4561</b>	<b>Topics in Africana Psychology</b>	<b>U</b>	<b>3</b>
The study of different dimensions of African and African American psychology; topics vary. Prereq: 3361, or permission of instructor. Not open to students with credit for 561. Repeatable to a maximum of 6 cr hrs.			
<b>4565</b>	<b>Topics in African Diaspora Studies</b>	<b>U</b>	<b>3</b>
Selected topics which examine the origins, dimensions, and dynamics of the African Diaspora; topics vary each term. Prereq: 3310. Not open to students with credit for 565. Repeatable to a maximum of 9 cr hrs.			
<b>4571</b>	<b>Black Visual Culture and Popular Media</b>	<b>U</b>	<b>3</b>
An examination of African Americans in visual culture and the theories of representation in popular media. Prereq: Not open to students with credit for 571. GE VPA and diversity soc div in the US course.			
<b>4582</b>	<b>Special Topics in African-American Literature</b>	<b>U</b>	<b>3</b>
Focuses on themes in African American Literature. Topic varies. Examples: Neo-slave narratives; the Harlem Renaissance; literature by African-American women. Prereq: English 2367.01 (367.01), or equiv, and 10 qtr cr hrs, or 6 sem cr hrs or hours of English at 2000-3000 level, or permission of instructor. Not open to students with 10 qtr cr hrs or 6 sem cr hrs for 4582 (582) or Eng 4582 (582). Repeatable to a maximum of 6 cr hrs. Cross-listed in English.			

## 8 African American and African Studies

**4610 African Americans and the Law** U 3

This is an interdisciplinary course that puts major legal cases affecting African Americans into conversation with their historical underpinnings, as well as the social contexts and how those contexts manifest in African American cultural productions. A central goal of the course is to interrogate the idea of a "colorblind" justice system.

**4921 Intersections: Approaches to Race, Gender, Class, and Sexuality** U 3

Examines intersections of race, gender, class, and sexuality in various sites within American culture (e.g., legal system, civil rights discourse, social justice movements). Prereq: One course in CompStd, WGSSt, or AfAmASt. Not open to students with credit for 545, CompStd 4921 (545), or WGSSt 4921 (545). Cross-listed in CompStd and WGSSt.

**4998 Senior Research Seminar** U 3

A seminar designed to provide experience in the creation of a research paper based on appropriate humanities and social science methodologies. Research topic to be announced. Prereq: 2101, 3310, and two 4000- or 5000-level courses; or permission of instructor.

**4999 Thesis Research** U 1 - 6

A program of individual study for undergraduate students: may include individual conferences and reports; requires presentation and oral defense of a thesis. Prereq: Sr standing. This course is graded S/U.

**4999H Honors Thesis Research** U 1 - 3

A program of individual study for undergraduate honors students: may include individual conferences and reports; requires presentation and oral defense of an honors thesis. Prereq: Honors standing, and 24 cr hrs taken in the Social and Behavioral Sciences and/or Humanities (including 12 hours in AfAmASt), and Sr standing. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

**5189S Community Development: Field Research and Seminar** U G 3 - 6

A service-learning course that draws on the principles of experiential learning by immersing students in an organized service activity that meets identified community needs. Prereq: 1101 or 2101, and permission of course coordinator. Repeatable to a maximum of 6 cr hrs or 2 completions.

**5193 Individual Studies** U G 1 - 3

Individual reading or research projects by special agreement between instructor and student. Prereq: 12 cr hrs in AfAmASt, permission of instructor, and permission of department chair. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

**5194 Group Studies** U G 1 - 3

Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

**5240 Race and Public Policy in the United States** U G 3

This course explores Race and Public Policy in the United States from Reconstruction to the present. In particular, the class is designed to look at the long list of "hot topics" in the current policy landscape, including policing, housing, wealth gap, immigration, voting, political representation, and others. Prereq: Jr, Sr, or Grad standing; or permission of instructor. Not open to students with credit for CompStd 5240 or PubAfrs 5240. Cross-listed in CompStd and PubAfrs.

**5485.01 Southern Africa: Society and Culture** U G 3

A comparative study of the social, political, cultural, and economic changes in Africa and the impact on contemporary black world. A study of the social and cultural developments in Southern Africa, and the environment. Prereq: English 1110 (110). Not open to students with credit for 485.01 or 705.01. GE cultures and ideas and diversity global studies course.

**5485.02 West Africa: Society and Culture** U G 3

A comparative study of the social, political, cultural, and economic changes in Africa and the impact on contemporary black world. A chronological and interdisciplinary exploration into the cultures and societies of West Africa. Prereq: English 1110. Not open to students with credit for 485.03 or 705.01.

**5650 Blackness and the Body in Science and Medicine** U G 3

This course considers the need for and pursuit of social justice when black bodies are subjected to commodification and systemic subordination. The course focuses on what Frantz Fanon called the "corporeal schema" of blackness as well as the social construction of blackness to think about the relationship between black bodies and social justice pursuits in medicine and science.

**5798.03 Study Tour: Brazil** U G 3

Consists of a two-week educational Study Trip that combines formal lectures by local scholars with visits to local cultural and historical institutions as well as travel within Brazil, the host Latin American country. Prereq: 5485.03. GE education abroad course.

**5798.04 Study Abroad in Africa and the Diaspora** U G 3 - 9

A study tour of Africa and the Diaspora. Students will pay all travel and subsistence costs. Successful application to eligible study abroad program required. Repeatable to a maximum of 12 cr hrs or 2 completions.

**6194 Graduate Group Studies** G 3

Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.

**6757.02 Introduction to Graduate Studies in African American Literature, 1900 to Present** G 3

A survey of creative texts and critical interpretations representing and reflecting black culture and literary expression in the United States from 1900 to the present. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 757.02 or English 6757.02 (757.02). Cross-listed in English.

**6999 Master's Thesis Research** G 1 - 12

Research for master's thesis. Prereq: Permission of instructor. Not open to students with credit for 998. This course is graded S/U.

**7086 The Civil Rights and Black Power Movements** G 1 - 6

Examines the origins, evolution, and outcomes of the African American freedom struggle, focusing on the Civil Rights and Black Power movements. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in History.

**7087 Black Women in the United States** G 1 - 6

A study of historical and related scholarship on the history and experience of black women in the United States. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in History.

**7303 Comparative History of the African Diaspora and Post-Emancipation, Colonial, & Post-Colonial Reality** G 3

Examination of social, political, and cultural developments and realities in the black world, from the period of the emancipation to the beginning of the 21st century. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs. Cross-listed in History.

**7420 African Historiography and Methodology** G 3

The study of sources, research methods, interpretations, and research trends in the field of African history. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs. Cross-listed in History.

**7507 Black Lives Matter: Law and Culture** G 3

This course examines law as a site that has defined both blackness and humanness in relationship to African Americans. It also explores black culture to understand various responses to injustice. Prereq: Not open to students with credit for Law 7507. Cross-listed in Law.

**7580 Enslavement, Emancipation, Colonial and Post-Colonial Realities** G 3

History and evolution of the African Diaspora worldwide, from ancient times to the present. Examination of social, political and cultural developments and realities in the Black world. Prereq: Grad standing, or permission of instructor.

**7730 Black Political Movements and Organizations** G 3

Analysis of Black political movements and organizations from slavery to contemporary times. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 730.

**7751 Introduction to Graduate Studies and African Literature** G 3

A broad survey of the development of African literature, its variations, genres, and themes. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 751.

**7753 Graduate Survey in African-American and African Studies** G 3

Critical analysis of the development of African-American and African Studies as a discipline and the theoretical approaches to its subject matter. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 753.

**7754 Methodological Perspectives in African-American and African Studies** G 3

A critical and trans-disciplinary examination of methodological approaches employed in the study of the Black experience in its convergent and divergent manifestations across the world. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 754.

**7756 Theorizing Race and Ethnicity** G 3

Examination of the ideas and theories of race and its intersection with ethnicity. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 756.

**7759 Topics in African Diaspora Studies** G 3

A multi-disciplinary and critical examination of the origins dimensions and legacies of the African Diaspora. Topics will vary each term. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.

**7760 African Pop Culture** G 3

Examination and critique of various theories and genres of popular culture as they relate to the African situation. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 760.

**7810 Topics in Black Feminist Theory** G 3

Theoretical analysis of the politics and perceptions of womanhood in the black community. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 810.

## African American and African Studies 9

<b>8193</b>	<b>Advanced Individual Studies</b>	<b>G</b>	<b>1 - 12</b>
Advanced individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. This course is graded S/U.			
<b>8350</b>	<b>Transnational History of the African World</b>	<b>G</b>	<b>3</b>
Starts from the premise that the African world no longer includes only the continent of Africa, but also the spaces and cultures populated by peoples of African descent. Prereq: Grad standing.			
<b>8865</b>	<b>Race, Gender, and Class in the Diaspora</b>	<b>G</b>	<b>3</b>
An examination of the core influences of race, gender, and class on people of African descent. Prereq: 9 cr hrs taken in Social/Behavioral Sciences, or permission of the instructor. Not open to students with credit for 865.			
<b>8998</b>	<b>Research in African-American and African Studies: Candidacy Exams</b>	<b>G</b>	<b>1 - 12</b>
Research for candidacy exams. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>8999</b>	<b>Dissertation Research and Writing</b>	<b>G</b>	<b>1 - 3</b>
Dissertation research and writing. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			

### Agricultural Communication

<b>2130</b>	<b>Visual Media in Agricultural and Natural Resources</b>	<b>U</b>	<b>3</b>
Prepares students to be proficient in photography, photo and video editing, and image composition techniques used in the agricultural and natural resource communications fields. Course includes at least one off-campus field trip.			
<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Planning, conducting, and reporting a special study appropriate to the needs of the student. Prereq: GPA 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Group studies for students in specialized programs. Prereq: Permission of instructor. This course is graded S/U.			
<b>2367</b>	<b>Agricultural Issues in Contemporary Society</b>	<b>U</b>	<b>3</b>
This course helps students develop a critical understanding of agricultural, environmental and related issues facing the United States and the world while improving their writing skills. This is a second writing course. Prereq: First writing course. Not open to students with credit for 367. GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2531</b>	<b>Introduction to Agricultural Communication Practices</b>	<b>U</b>	<b>3</b>
This course provides an introduction to the field of agricultural communication and examines how agricultural communication fits into the larger U.S. mass media system. This course will introduce the communication process, how media serves as a communication channel, and how agricultural communicators utilize media to reach a variety of audiences.			
<b>3130</b>	<b>Oral Expression in Agriculture</b>	<b>U</b>	<b>3</b>
An introductory public speaking course that will analyze the communication process and prepare students enrolled to write and deliver speeches for various occasions and purposes. Prereq: Not open to students with credit for 390.			
<b>3488</b>	<b>Professional Development In Agricultural Communication</b>	<b>U</b>	<b>1 - 3</b>
Developing Twenty-first Century skills through hands-on, contextual, and authentic, out-of-class experiences. Students, working individually with the instructor, will design and engage in developmental skill activities. An example is the Earl McMunn. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>3797</b>	<b>Agricultural Communication Study Abroad</b>	<b>U</b>	<b>3</b>
Engages students in concentrated study of food, agricultural, and environmental issues in a foreign country, mass media practices in communicating and educating the public about these issues, and the impact of those practices.			
<b>4130</b>	<b>Publication Design and Production</b>	<b>U</b>	<b>3</b>
Introduces students to basic practices and techniques used in designing and producing professional-quality publications for agricultural and general audiences. Agricultural communicators will find application for these skills in a variety of ways. Prereq: Not open to students with credit for 300.			
<b>4191</b>	<b>Agricultural Communication Internship</b>	<b>U</b>	<b>1 - 5</b>
The Agricultural Communication Internship is designed to give you first-hand experience working in a professional communication setting. Regardless of the field, students should be actively involved in the production of information and communication. Prereq: Enrollment in AgrComm major, and permission of instructor. Repeatable to a maximum of 5 cr hrs or 3 completions. This course is progress graded (S/U).			

<b>4191.01</b>	<b>Agricultural Communication Internship</b>	<b>U</b>	<b>2</b>
The Agricultural Communication Internship is designed to give you first-hand experience working in a professional communication setting. Internships may be arranged in publishing, broadcasting, public relations, editing, photojournalism, graphic design or related areas. Regardless of the field, students should be actively involved in the production of information and communication services. Prereq: Permission of instructor. This course is graded S/U.			
<b>4191.02</b>	<b>Agricultural Communication Advanced Internship</b>	<b>U</b>	<b>3</b>
The Ag Comm Advanced Internship is designed to give you in-depth first-hand experience working in a professional communication setting beyond your initial internship experience. Internships may be arranged in publishing, broadcasting, public relations, editing, photojournalism, graphic design or related areas. Regardless of the field, students should be actively involved in comm. production. Prereq: Permission of instructor. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Agricultural Communication</b>	<b>U</b>	<b>1 - 3</b>
Selected topics in Agricultural Communication. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>4530</b>	<b>Communicating Agricultural Issues</b>	<b>U</b>	<b>3</b>
This course is designed to introduce students to the world of communicating agricultural science to a variety of audiences. Many times the topics we are asked to write or speak on are complex science in nature and highly emotional. This course will walk you through the theories and skills needed to craft messages that can reach farmers, consumers, politicians, and the like.			
<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Conducting and reporting an undergraduate research project. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>4999</b>	<b>Research with Distinction</b>	<b>U</b>	<b>1 - 3</b>
Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the University's Denman Undergraduate Research Forum. Prereq: CPHR 3.00 or above, and GPA 3.00 or above in major, and permission of project supervisor. Not open to students with credit for 683H. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Research with Distinction</b>	<b>U</b>	<b>1 - 3</b>
Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the University's Denman Undergraduate Research Forum. Prereq: Honors standing, and FAES 4590.01H (590.01H), and CPHR 3.4 or above, and GPA 3.4 or above in major, and permission of honors project supervisor. Not open to students with credit for 683H. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>5130</b>	<b>Campaign Design and Management in Agricultural Organization</b>	<b>U G</b>	<b>3</b>
This class is a public relations laboratory class designed to provide students with a how-to, hands-on, problem solving approach to campaign planning for effective public relations. Students will draw on public relations principals and their own experiences to design a real-life, client-centered campaign for a company or organization in Columbus. Prereq: Jr standing or above, and AgrComm major or minor, or ComLdr major; or permission of instructor.			
<b>5135.01</b>	<b>Agricultural Feature Writing</b>	<b>U G</b>	<b>3</b>
This writing-intensive course will introduce AgrComm students to magazine feature writing and provide them with a comprehensive set of skills in feature writing, editing, and style. Students will also assume roles as members of the staff of the AgriNaturalist, the student magazine for the College of Food, Agricultural, and Environmental Sciences. Prereq: 2531 and Comm 2321; or Comm 2221; or Grad standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5135.02</b>	<b>AgriNaturalist Practicum</b>	<b>U G</b>	<b>3</b>
Provides AgrComm students with a comprehensive set of skills in magazine layout and design, sales, and multimedia journalism by creating print and online versions of the AgriNaturalist magazine. As members of the AgriNaturalist staff, students will gain knowledge of how print and online magazines are created, financed, and disseminated. Prereq: 4130, 5135.01, and 5530; or 5135.01, and Grad standing. Repeatable to a maximum of 6 cr hrs.			
<b>5150</b>	<b>Communication Strategies for Change and Development</b>	<b>U G</b>	<b>3</b>
Examines communication competencies needed by development and social change practitioners. Prereq: Jr or Sr standing, or permission of instructor. Not open to students with credit for 650.			
<b>5170</b>	<b>International Development Theory and Practice</b>	<b>U G</b>	<b>3</b>
We will explore varying theoretical perspectives, trace the history and the ideological underpinnings embedded in it; analyze the actors and their internationalities; and review contemporary views on the subject. Prereq: Not open to students with credit for AEE 790.			

## 10 Agricultural Communication

**5190 Extension Education in Developing Countries** U G 3

What is extension and what are the problems, prospects and challenges facing extension in the developing world? The course provides an opportunity for students to explore issues related to extension in developing countries.

Prereq: Not open to students with credit for AEE 790.

**5193 Individual Studies** U G 1 - 3

Students plan, conduct, and report on a special problem in agricultural communication not included in regular course work.

Prereq: CPHR 2.50 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

**5194 Group Studies** U G 1 - 3

Selected topics in agricultural communication.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

**5197 Agricultural and Environmental Communication Study Abroad** U G 1 - 2

Engages students in concentrated study of media practices in a foreign country, its agricultural, environmental and food systems issues and the role of the media in addressing those issues.

**5530 Advanced Agricultural Communication Technology** U G 3

Course is designed to further introduce students to practices and techniques used in computer-based electronic production when preparing informational and educational messages for public and student audiences in agriculture and natural resources.

Prereq: Not open to students with credit for 350 or AEE 532.

**5535 Data Visualization and Scientific Storytelling in FAES** U G 3

Introduction to design principles and skills needed to clearly and effectively report research results and technical information in both academic and nonacademic communication contexts in food, agricultural, and environmental sciences.

**5797 Study Abroad in Agricultural Communication** U G 3

Engages undergraduate and graduate students in an international learning experience to address their academic and professional interests in agricultural communication. Course objectives and topics will vary based on the country explored and the focus of the experience.

### Agricultural Communication, Education & Leadership

**7000 Graduate Orientation Seminar** G 1

Examination of scholarship in the discipline of agricultural and extension education. Discussion of trends and issues that are important in the disciplines and how trends may influence future career roles.

Prereq: Not open to student with credit for 795.07. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

**7230 Strategic and Program Planning for Visionary Change** G 3

Examination of strategic and program planning models in educational and community settings. Learn about the strategic and program planning process. Understand change and innovation processes in organizational settings.

Prereq: Not open to students with credit for 723 and 823.

**7300 Advanced Methods of Teaching** G 3

Designed as advanced preparation for instruction in formal learning environments, this course focuses on skills, strategies and issues common to educators in general. It will introduce learners to literature and research relevant to practicing educators. Delivered online in an asynchronous format via Carmen, will allow for information transfer and consumption.

**7320 Adult Learning and Professional Development** G 3

This course is designed to provide an introduction to adult learning and professional development to ensure effective programs and education with adult audiences.

Prereq: Not open to students with credit for 622.

**7420 Emerging Trends and Issues in Agricultural Communication, Education and Leadership** G 2

Participants in this course will gain an understanding of global issues and trends facing contemporary agricultural and extension organizations, communication and leadership. Repeatable to a maximum of 4 cr hrs.

**7520 Human Development and Program Planning** G 2

Course provide an introductory understanding of human development and why it is essential for planning programs to serve youth and adults in non-formal and formal education.

**7700 Documenting Change through Evaluation and Accountability** G 3

The key principles and practices used in evaluating the change resulting from educational programs and activities, and how that relates to programming accountability will be covered. Prereq: Not open to students with credit for 770.

**7889 Workshop in Agricultural and Extension Education** G 1 - 3

Intensive study of selected programs, practices, and skills with an emphasis on applications in agricultural and extension education.

Prereq: Teaching or extension experience. Repeatable to a maximum of 18 cr hrs or 18 completions.

**8000 Leading Through Historical Perspectives** G 2

This course will examine the mission, purpose, and historical foundations of Agricultural Communication, Education, and Leadership in America. Furthermore, this course will identify the historical trends and contemporary issues facing these professions in the 21st century.

**8100 Applied Communication Theory and Practice** G 3

A study of the theories and guiding concepts related to agricultural communication in applied and theoretical settings.

Prereq: Grad standing. Not open to students with credit for 840.

**8193 Individual Studies** G 1 - 5

Planning, conducting, and reporting a special study appropriate to the needs of the individual student.

Repeatable to a maximum of 5 cr hrs or 5 completions. This course is progress graded (S/U).

**8200 Critical Perspectives in Leadership Development** G 3

This course will cover the scholarly discipline of leadership theory, based upon critical social theories which are concerned with the flow of power in society, common sense assumptions of rules that govern our experiences, and the influence of social identities. In addition, students will apply theory to practice to address the real world leadership issues within their field.

**8310 Theory of Learning and Cognition** G 3

AEE 8310 provides a framework for the theoretical development of cognitive skills, psychomotor principles, and teaching methods relevant to teaching agricultural content.

Prereq: Ph.D. student in AEE, or permission of instructor.

**8420 Leadership and Administration in Agricultural and Extension Education** G 3

Focuses upon theories, concepts, and principles for leadership, administration, and management in communication, education, extension, and community settings.

Prereq: Not open to students with credit for 795.03 or 842.

**8850 Research Methods** G 2

Principles and techniques of research appropriate for planning, conducting, and reporting research in applied social and life sciences.

Prereq: Not open to students with credit for 885.

**8851 Research Proposal I** G 1

Companion course with 8850 in which students prepare a draft of chapter one for their theses/dissertation research. Students will be supervised by their graduate advisor in collaboration with the 8850 instructor.

Concur: 8850. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

**8855 Research Methods and Design** G 3

This course is designed to establish a culture of scholarship among students enrolled in the Agricultural Communication, Education, and Leadership graduate program. This course provides an overview of different types of quantitative research methods and design, qualitative and mixed methods approaches, and the basics of interpreting statistics and rational research.

**8860 Research Design** G 2

Development of effective design for research problems in applied social and life sciences, including theory, models, and sampling.

Prereq: Not open to students with credit for 886.

**8861 Research Proposal II** G 1

Companion course with 8860 in which students prepare a draft of chapter three for their theses/dissertation research. Students will be supervised by their graduate advisor in collaboration with the 8860 instructor.

Concur: 8860. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

**8870 Analysis and Interpretation of Data** G 2

Analysis and interpretation of descriptive and inferential statistics for research in applied social and life sciences.

Prereq: Not open to students with credit for 887.

**8875 Data Analysis and Interpretation Laboratory** G 1

Learn SPSS statistical data analysis computer program for application and interpretation of descriptive and inferential statistics in research.

Concur: 8870. Not open to students with credit for 795.05. This course is graded S/U.

**8877 Data Collection, Analysis & Interpretation** G 3

A quantitative methods course in measurement, data collection and analysis related to social and behavioral science research. An applied approach is taken on instrumentation and analyzing data using descriptive and inferential statistics. Practical skills in data manipulation using SPSS are developed.

Prereq: 8855 or equiv.

**8880 Instrumentation and Procedures for Data Collection** G 2

Selection, development, and analysis of various types of instruments and procedures for collecting research data.

Prereq: 8850 (885). Not open to students with credit for 888.

**8998 Graduate Research** G 1 - 3

Graduate student research that is not part of a thesis or dissertation.

Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

# Agricultural Communication, Education & Leadership 11

**8999 Research G 1 - 12**

Research for thesis or dissertation purposes only.  
Repeatable to a maximum of 12 cr hrs or 12 completions. This course is progress graded (S/U).

## Agricultural Systems Management

**1100 Exploring Agricultural Systems Management U ½**

Basic understanding of the global trends within agricultural systems management, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development.

**2193 Individual Studies U 1 - 3**

Introductory individual study of problems and topics not included in regular Agricultural Systems Management courses.

Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**2194 Group Studies U 1 - 5**

Introductory group study of selected topics in Agricultural Systems Management

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.

**2240 Basic Metal Fabrication for Agriculture U 3**

A study of the principles and practices in basic metal fabrication using the current metallurgical and welding processes required in the agricultural industry.

Prereq: AgSysMt 1100 and FAES 1100 (100), or one of the other university survey courses. Not open to students with credit for AgSysMgt 240 or ConSysM 2240 (ConSysMt 240). This course is available for EM credit.

**2241 Building Materials and Construction in Agriculture U 3**

Principles and techniques used in the fabrication of wood, concrete, and masonry materials used in agri-business and agricultural applications.

Prereq: Not open to students with credit for AgSysMgt 241 or ConSysM 2241 (ConSysMt 241).

**2305 Professional Development I U 2**

Business communications and professional development in agricultural systems management including job search strategies, informative and persuasive writing, academic planning, collaboration, project documentation and reporting, and presentations.

Prereq: English 1110. Not open to students with credit for ConSysM 2305. This course is available for EM credit.

**2310 Electrical Power for Agricultural and Residential Applications U 2**

Concepts of electricity applied to the planning and specification of systems and components essential for generation, distribution and control of electricity for power, heat, motors and illumination in residences and agricultural structures.

Prereq: Math 1130, 1148, 1149, 1150, or 1151. Not open to students with ConSysM 2310. This course is available for EM credit.

**2370 Environmental Hydrology U 2**

Principles of hydrology applied to agricultural and forest watersheds, including applications in drainage, erosion, irrigation, water supply and water quality.

Prereq: Not open to students with credit for AgSysMgt 370. This course is available for EM credit.

**2371 Land Surveying for Agricultural and Environmental Systems U 2**

Principles of land surveying applied to soil and water management on agricultural, forested, and environmentally sensitive areas. Traditional surveying methods, total stations and GPS will be covered.

Prereq: Math 1148 (148), or permission of instructor. Concur: Physics 1103 (103), 1200 (111), or 1250 (131). Not open to students with credit for AgSysMgt 371. This course is available for EM credit.

**2580 Introduction to Digital Agriculture U 2**

An introduction to digital agriculture and the data acquisition and data management systems, analytical tools, machinery systems and crop, animal and environmental models utilized in this rapidly evolving field to enhance the profitability and sustainability of agricultural crop and livestock production systems.

**3191 Internship in Agricultural Systems Management U 2**

A pre-approved internship of planned and supervised work experiences which provide professional and technical growth in the agricultural industry.

Prereq: AgSysMt 2305 (AgSysMgt 305), and enrollment in AgSysMt major, and 8 cr hrs in AgSysMgt, and permission of internship coordinator. Not open to students with credit for AgSysMgt 489.

**3232 Engines and Power Transmission U 3**

Principles of engine theory, operation, maintenance, and repair. In addition, alternative fuels, engine design and basic power transmission will be explored.

Prereq: Math 1130 (130) or 1148 (148), and Physics 1103 (103), 1200 (111), or 1250 (131); or enrollment in Sustainable Plant Systems major or Landscape Construction minor. Not open to students with credit for AgSysMgt 232. This course is available for EM credit.

**3320 Facilities for Agricultural and Greenhouse Production U 3**

Building and equipment design for livestock, crop and greenhouse production; selection and specification of construction materials and ventilation systems.

Prereq: Math 1148 (148), and Physics 1103 (103), 1200 (111), or 1250 (131). Not open to students with credit for AgSysMgt 320.

**3330 Grain Handling, Drying, and Milling U 3**

Principles of handling, drying, storing, and milling grain. Grain handling equipment will include grain pits, conveyors, augers, bucket elevator, and hazard monitoring. Drying and storage will include dryeration, in-bin counterflow drying, batch and continuous flow systems. Dry milling principles will include methods, applications, and parameters such as separation of particle size by sieve.

Prereq: Math 1130, 1131, 1148, 1149, 1150, or 1151.

**3360 Agricultural Machinery Management U 3**

Basic principles of operation, selection and management of agricultural machinery, including power requirements, performance evaluation, calibration, adjustment, costs of operation and optimum size.

Prereq: Math 1148 (148), or permission of instructor. Not open to students with credit for AgSysMgt 360.

**3400 Food Supply-Chain Equipment Operations U 2**

The focus of this course is description of equipment used throughout the food supply chain from harvest/assembly to preparation for consumption. After completing this course, students will recognize how equipment systems are assembled within a facility and the role of sensing and control systems in operation of facilities for handling, manufacturing, storage, distribution and preparation of foods.

Cross-listed in FdScTe.

**3550 Animal and Rural Waste Management U 2**

Management of animal wastes, wastewater and solid waste generated through agricultural practices and rural living to utilize nutrients, recover energy, reuse water, protect public health and abate environmental pollution.

Prereq: Not open to students with credit for AgSysMgt 550.

**3580 UAS and Remote Sensing in Agriculture U 3**

Introduction to Unmanned Aerial Systems (UAS) and remote sensing applications in production agriculture. Topics include: UAS basics; FAA regulations and rule making; mission planning; image sensing technologies, image collection, processing, analyses and interpretation; and agricultural applications.

Prereq: Jr standing, or permission of instructor.

**4193 Individual Studies U 1 - 3**

Advanced individual study of problems and topics not included in regular Agricultural Systems Management courses.

Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**4194 Group Studies U 1 - 5**

Advanced group studies of selected topics in Agricultural Systems Management.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**4300 Engineering Applications in Agriculture U 4**

Engineering and technology applications essential to the operation, selection and management of the processes, machinery, structures, soil and water, and materials handling systems in agriculture.

Prereq: Math 1130 (130) or 1148 (148). Not open to students with credit for 301 or students enrolled in AgSysMt or Eng.

**4560 Fluid Power and Electronics in Agricultural Machinery U 3**

Principles of operation, maintenance, and selection of basic fluid power, electrohydraulic, electronic and computer controlled systems found on agricultural and construction machinery. Prereq: AgSysMt 2310 (AgSysMgt 310) and 3360 (360). Not open to students with credit for AgSysMgt 560.

**4575 Applied Agricultural Water Management U 2**

Planning and managing the drainage, irrigation, erosion and sediment control, water harvesting and storage systems and agricultural constructed wetlands for the agricultural landscape.

Prereq: AgSysMt 2370 (AgSysMgt 370) and 2371 (371), or ConSysM 2440 (ConSysMt 440); and ENR 3000 (300.01); or permission of instructor. Not open to students with credit for AgSysMgt 575.

**4580 Precision Agriculture U 2**

Introduction to the principles and technologies of precision agriculture including: Global Positioning System (GPS), guidance systems, plant and soil sensors, soil sampling, yield mapping and related technologies.

Prereq: Not open to students with credit for AgSysMgt 580.

**4605 Professional Development II U 1**

Developing and pursuing career plans; strategies and programs for employment in the agricultural industry, professional development, personal growth, and relationships.

Prereq: 2305 (AgSysMgt 305), 3360 (AgSysMgt 360), and AgrComm 3130 (390) or Comm 2110 (321), and any second writing course numbered 2367 (367). Not open to students with credit for AgSysMgt 605.

## 12 Agricultural Systems Management

### 4900 Capstone in Agricultural Systems Management I U 2

The course is designed to prepare students on how to work with customers/sponsors/industry mentors to identify the need (problem), begin the steps to develop plausible solutions, develop a scope of work (action plan), and to assemble their findings into a proposal (Preparation for project implementation that will take place the following spring in AgSysMt 4910).  
Prereq: Jr or Sr standing, and enrollment in AgSysMt major; or permission of instructor (scheduled to graduate in the next three semesters).

### 4910 Capstone II - Project Implementation U 2

Building upon prior knowledge and experiences gained through the major, students will develop plausible solution(s) to a real-world problem that relates directly to student's interests and general area of study.  
Prereq: 4900.

### 4998 Undergraduate Research U 1 - 3

Supervised undergraduate research on various topics.  
Prereq: CPHR 2.5 or above and permission of the instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

### 4999 Research with Distinction U 1 - 3

Conducting and reporting research with Distinction. Students are expected to participate in the CFAES Undergraduate Research and the Denman University Undergraduate Research Forums.  
Prereq: CPHR 3.0 or above, and major GPA 3.0 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is progress graded (S/U).

### 4999H Honors Research with Distinction U 1 - 3

Conducting and reporting Honors research with Distinction. Students are expected to participate in the CFAES Undergraduate Research and the Denman University Undergraduate Research Forums.  
Prereq: Honors standing, and FAES 4590.01H (590H), and GPA 3.4 or above, and major GPA 3.4 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

### 5533 Laboratory Pedagogy and Management U G 4

Develops the pedagogical and management skills required to efficiently utilize educational laboratory facilities at the secondary school level for teaching agricultural mechanics and science.  
Prereq: or concur: ASE 5230 (AEE 530), and enrollment in AgriScience Education major. Not open to students with credit for AgSysMgt 533.

### 5600 Agricultural Safety and Health U G 3

Develops the knowledge, awareness and attitude necessary to becoming an effective safety manager in a non-traditional occupational environment. Includes hazard identification and mitigation; safety education, engineering, and enforcement strategies.  
Prereq: Not open to students with credit for AgSysMgt 600.

### 5786 Environmental Issues in East Asia U G 3

STEM students will study emerging, interdisciplinary environmental issues in China, Korea, Japan, Taiwan and Hong Kong, such as air and water pollution, waste management, habitat destruction, exotic species, and energy.  
Prereq: Enrollment in a Science, Technology, Engineering or Math (STEM) discipline, and Jr, Sr, or Grad Standing.

### 7786 Introduction to Graduate - Level East Asian Studies G 1

This interdisciplinary course is a combination of student explorations of scholarly work in East Asia and subjects in these cultures. Readings and presentations on the impact of STEM in agriculture and environment on the cultures in East Asia. Students participate in group discussions of student research and professionalism.  
Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

## Agricultural, Environmental, and Dev Economics

### 1100 Exploring Agribusiness and Applied Economics U ½

Basic understanding of the global trends within agribusiness and applied economics, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development.

### 1200 Exploring Sustainability: SUSTAINS LC Seminar U 1

Designed for SUSTAINS Learning Community students to explore their interests within sustainability, learn about opportunities to be involved in campus and local community sustainability efforts, and connect with campus partners and faculty working and researching in the field. Students must be a part of the SUSTAINS Learning Community in order to take this seminar.  
Prereq: Must be in the SUSTAINS Learning Community. This course is graded S/U. Cross-listed in ENR.

### 2001 Principles of Food and Resource Economics U 3

Microeconomic principles applied to allocation issues in the production, distribution, and consumption of food and natural resource use.  
Prereq: Not open to students with credit for 2001H or Econ 2001. This course is available for EM credit. GE soc sci human, nat, and econ resources course.

### 2001H Principles of Food and Resource Economics U 3

Microeconomic principles applied to allocation issues in the production, distribution, and consumption of food and natural resource use.  
Prereq: Honors standing, or permission of instructor. Not open to students with credit for 2001 (200), Econ 2001 (200), or 2001H (200H). GE soc sci human, nat, and econ resources course. SS Admis Cond course.

### 2005 Data Analysis for Agribusiness and Applied Economics U 3

Introductory course in data analysis, stressing computer applications of probability and statistics, problems of data gathering, presentation, and interpretation in economics and business.  
Prereq: Math 1130 (130) or 1131 (131) or 1148 (148) or 1150 (150) or 1151.01 (151.01) or 1151.02 (151.02) or 1156 (151.03). Not open to students with credit for 2005 (205) or ComLdr 3537 (AgrEduc 387 or AEE 387) or HCS 2260 (260) or AnimSci 2260 (260) or Stat 1430 (133) or 1450 (145). GE data only course.

### 2105 Managerial Records and Analysis U 3

Nature and need for business records, analysis and interpretation of essential records from manager/owner viewpoint; their use in small business practices.  
Prereq: 2001 or 2001H or Econ 2001.01, 2001.02, or 2001.03H. Not open to students with credit for AcctMIS 2200 or 2300.

### 2400 Diversity in the Workplace: Challenges and Opportunities U 3

The purpose of this course is to examine how and why diversity affects interpersonal and intergroup interactions in organizations, to develop an understanding of what diversity means, and to explore contemporary organizational strategies for managing workplace diversity while working to better understand what we as individuals bring to the dynamic.  
GE diversity soc div in the US course.

### 2500 Introduction to Sustainability U 3

Introduces students to principles from various disciplines related to social, economic and environmental sustainability. Students will evaluate key concepts and examine tradeoffs that are a part of sustainability action using case studies representing diverse perspectives.  
Prereq: Soph standing, or permission of instructor. Cross-listed in ENR.

### 2580 Feast or Famine: The Global Business of Food U 3

Global and regional trends in food consumption and production are surveyed. Trade, technological change, and other responses to food scarcity are analyzed.  
Prereq: Not open to students with credit for 280 or 335 or IntStds 2580 (280). GE soc sci human, nat, and econ resources and diversity global studies course. Cross-listed in IntStds.

### 3000 Quantitative Methods in Agribusiness and Applied Economics U 3

Solutions to problems in agribusiness and applied economics.  
Prereq: 2001 or Econ 2001; and Math 1130, 1131, 1148, 1150, or 1151.

### 3101 Principles of Agribusiness Management U 3

Introduction to agribusiness management principles and skills in the context of the four functions of management: planning, organizing, directing, and controlling.  
Prereq: 2001 (200) or 2001H (201H) or Econ 2001 (200) or 2001H (200H). Not open to students with credit for 401.

### 3102 Principles of Agribusiness Marketing U 3

Study of specific problems of marketing food and fiber products with emphasis on structures and institutions facing agribusinesses in domestic and international markets.  
Prereq: 2001 (200), 2001H (200H), Econ 2001 (200), or 2001H (201H). Not open to students with credit for 402.

### 3103 Principles of Agribusiness Finance U 3

Financial management of agribusinesses: financial system, time value of money, security valuation, capital budgeting, capital structure, portfolio analysis, financial institutions, futures and options contracts.  
Prereq: 2001 (200), 2001H (200H), Econ 2001 (200), or 2001H (201H); and AEDEcon 2105 (412) or AcctMIS 2200 (211); and AEDEcon 2005 (205), AEE 387, AnimSci 2260 (260), ComLdr 3537, HCS 2260 (260), Stat 1430 (133), or 1450 (145). Not open to students with credit for 403.

### 3104 Farm Business Management U 3

Analysis of resource control and detailed application of economic and management principles to the organization, operation, and administration of farm businesses.  
Prereq: 3101 (401). Not open to students with credit for 410.

### 3105 Principles of Agribusiness and Food Supply Chains U 3

Study of the actors, intrinsic issues and support systems that are essential to make agribusiness, commodity and food supply chains effective.  
Prereq: 2001 or Econ 2001.

### 3113 Commodity Futures and Options Markets U 2

Institutional structure, allocative function, and managerial applications of commodity futures and options markets.  
Prereq: 2001, 2001H, Econ 2001.01, or 2001.03H; and Math 1130 or 1148. Not open to students with credit for 5250.

### 3121 Salesmanship in Agribusiness and Agriculture U 2

Principles and techniques of selling to agribusiness buyers.  
Prereq: 2001 (200), 2001H (201H), Econ 2001 (200), or 2001H (200H). Not open to students with credit for 421.

## Agricultural, Environmental, and Dev Economics 13

<b>3123</b>	<b>Grain Merchandising</b>	<b>U</b>	<b>2</b>
Principles and practices involved in grain and feed marketing and the theory of grain pricing; economics of grain marketing. Prereq: Math 1130 or 1148. Prereq or concur: AEDEcon 3113.			
<b>3131</b>	<b>Advanced Sales Techniques and Practice</b>	<b>U</b>	<b>2</b>
Expands on basic sales principles with additional emphasis on required skills to establish long term customer-client relationships in today's business context. Prereq: 3121.			
<b>3141</b>	<b>Agricultural Cooperatives</b>	<b>U</b>	<b>2</b>
Basic principles of cooperatives including types of organizations, legal aspects, governance, membership relations, debt and equity financing, organizational and inter-cooperative problems, and distribution of earnings. Prereq: 2001, 2001H, Econ 2001, or 2001H. Not open to students with credit for 441 or 541.			
<b>3160</b>	<b>Human Resource Management in Small Businesses</b>	<b>U</b>	<b>3</b>
Students will gain an understanding of the human resource management function in the context of the small business. Emphasis is placed on strategies employed by small business owners to address shifts in workforce demographics, professional expectations, legal requirements, and contemporary workforce issues. Prereq: Jr standing.			
<b>3170</b>	<b>Agribusiness Law</b>	<b>U</b>	<b>3</b>
A study of the legal system and selected areas of law that affect agricultural types of businesses, including civil liabilities, property law, business law and regulatory law. Prereq: 2001 (200), 2001H (200H), Econ 2001 (200), or 2001H (201H). Not open to students with credit for 470 or 670.			
<b>3191</b>	<b>Internship in Agribusiness and Applied Economics</b>	<b>U</b>	<b>2</b>
Supervised experience with an approved firm or organization; pre-approved proposal and report or presentation are required. Prereq: 3101, 3102, 3103, 4001, or Econ 4001, and enrollment in department major, and permission of instructor. Prereq or concur: FAES 3191. This course is graded S/U.			
<b>3488</b>	<b>Professional Development in Agribusiness and Applied Economics</b>	<b>U</b>	<b>1 - 2</b>
Participation in structured co-curricular programs leading to professional development. Prereq: CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 or hrs. This course is graded S/U.			
<b>3680</b>	<b>Regional Economics and Sustainable Growth</b>	<b>U</b>	<b>3</b>
Designed to study theories and methodologies for analyzing rural and regional economic development, primarily in advanced economies. Prereq: 2001 (200), or equiv course in Microeconomics.			
<b>4001</b>	<b>Managerial Economics for Agribusiness</b>	<b>U</b>	<b>3</b>
Application of economic theory and methods to agribusiness decision making. Prereq: 3000, and 2001 or 2001H or Econ 2001 or 2001H.			
<b>4002.01</b>	<b>Econometric Applications in Agribusiness and Applied Economics</b>	<b>U</b>	<b>3</b>
Students will be introduced to and gain experience with quantitative statistical models and related methods and their application to agricultural, environmental and development economics and agribusiness. Prereq: 2005 or AnimSci 2260 or ComLdr 3537 or HCS 2260 or Stat 1430 or 1450; and AEDEcon 2001 or 2001H or Econ 2001 or 2001H; and AEDEcon 3000. Prereq or concur: AEDEcon 4001 or Econ 4001.02.			
<b>4002.02</b>	<b>Operations Research in Agribusiness and Applied Economics</b>	<b>U</b>	<b>2</b>
Quantitative models and methods and their application to agricultural, environmental, and development economics and agribusiness. Prereq: 2005 (205), ComLdr 3537 (AEE 387), HCS 2260 (260), AnimSci 2260 (260), Stat 1145 (145), or 1430 (133); and AEDEcon 2001 (200) or 2001H (200H) or Econ 2001 (200) or 2001H (201H); and Math 1131 (131 [Wi 03 or thereafter]) or 1132 (132) or 1151.01 (151.01) or 1152.01 (152.01). Prereq or concur: 4002.01, or Econ 4001 (500) and 4001.02 (501.02). Not open to students with credit for 502.			
<b>4003</b>	<b>Economics of Public Policy Analysis</b>	<b>U</b>	<b>3</b>
Understanding of economic tools and concepts for analyzing public policies important to the food industry, agriculture and natural resources. Prereq: 2001 or 2001H or Econ 2001 or 2001H; and AEDEcon 3000. Prereq or concur: 4001 or Econ 4001.02.			
<b>4100</b>	<b>Self-employment and Entrepreneurship in the Food, Agriculture, and Resource Sectors</b>	<b>U</b>	<b>3</b>
This course analyzes self-employment patterns in the food, agricultural, and resource sectors and considers the role of entrepreneurship in forming and reshaping business and social enterprises in these sectors. Prereq: 2001 or Econ 2001.			
<b>4103</b>	<b>Advanced Agribusiness Finance</b>	<b>U</b>	<b>2</b>
Advanced financial management for farm businesses, agribusinesses, and cooperatives: financial analysis, time value of money, capital budgeting, risk and return, portfolio analysis, credit evaluation, and risk management. Prereq or concur: 3103, or BusFin 3120 or 3220.			

<b>4106</b>	<b>Strategic Management</b>	<b>U</b>	<b>3</b>
Experiential learning and managerial economics applied to strategic management in agribusiness. Formulate managerial strategies in a competitive environment constrained by the firm's products, internal resources, market segments, and supply chains. Prereq: 3101 (401), 3103 (403), and 4001 (500), and a second writing course. Not open to students with credit for 601.			
<b>4191</b>	<b>EEDS Professional Practice in Agricultural, Environmental, and Development Economics</b>	<b>U</b>	<b>2</b>
Preparation of a written report and delivery of a presentation based on internship employment in sustainability-based professions. Prereq: Not open to students with 2 completions or 4 credits of ENR 4191 or 689 or AEDEcon 4191. This course is graded S/U.			
<b>4193</b>	<b>Individual Studies in Agribusiness and Applied Economics</b>	<b>U</b>	<b>2 - 3</b>
Planning, conducting, and reporting a special problem in agricultural economics. Prereq: CPHR 2.50 or above, and permission of instructor. Not open to students with 6 or hrs in 4193 or 693.01-693.08. Repeatable to a maximum of 6 or hrs or 3 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Agribusiness and Applied Economics</b>	<b>U</b>	<b>2 - 5</b>
Selected topics in agricultural economics to acquaint students with current economic conditions. Prereq: Permission of instructor. Not open to students with 10 or hrs of 4194 (694-series). Repeatable to a maximum of 5 or hrs or 2 completions. This course is graded S/U.			
<b>4310</b>	<b>Environmental and Natural Resources Economics</b>	<b>U</b>	<b>3</b>
This introductory course in environmental and natural resource economics provides an economic perspective to analyze contemporary issues in environmental protection and natural resource management. Prereq: 2001 or Econ 2001.			
<b>4320</b>	<b>Energy, the Environment, and the Economy</b>	<b>U</b>	<b>3</b>
Understand the role of energy in the economy and the environment. Explore the economics of clean, renewable energy, and understand the different policies for pollution control. Prereq: 2001 (200) or Econ 2001 (200). Not open to students with credit for 565 or IntStds 4320 (565). Cross-listed in IntStds.			
<b>4320E</b>	<b>Energy, the Environment, and the Economy</b>	<b>U</b>	<b>3</b>
Understand the role of energy in the economy and the environment. Explore the economics of clean, renewable energy, and understand the different policies for pollution control. Prereq: 2001 (200), Econ 2001.01, 2001.02, or 2001.03 (200). Not open to students with credit for 565 or IntStds 4320 (565). Cross-listed in IntStds 4320.			
<b>4330</b>	<b>The Sustainable Economy: Concepts and Methods</b>	<b>U</b>	<b>3</b>
Introduces students to core concepts of sustainability in economics and the quantitative methods necessary to understand and evaluate sustainable development. Prereq: 4310.			
<b>4340</b>	<b>Project Management for Sustainability and Applied Economics</b>	<b>U</b>	<b>3</b>
An introduction to project management concepts and techniques focusing on how to initiate, plan, manage, control, and close projects related to sustainability and applied economics.			
<b>4532</b>	<b>Food Security and Globalization</b>	<b>U</b>	<b>3</b>
Examination of the causes of and solutions for food insecurity. Global and local factors that affect access to food are also considered. Prereq: 2001 (200) or Econ 2001 (200), or permission of instructor. Not open to students with credit for 434 or 532, or IntStds 4532 or 434. Cross-listed in IntStds.			
<b>4534</b>	<b>Comparative Challenges to Economic Development: Sub-Saharan Africa, Latin America, and China</b>	<b>U</b>	<b>3</b>
An introductory survey course of issues shaping economic development in Sub-Saharan Africa, Latin America, and China, such as: population growth, agricultural development, industrialization, trade, structural adjustment, and environmental issues. Prereq: 2001 (200), or 2001H (200H), or Econ 2001 (200), or 2001H (200H). Not open for students with credit for 4536 (536), or 4538 (538), or 4539 (539), or IntStds 4536, (536), or 4538 (538), or 4539 (539). Cross-listed in IntStds.			
<b>4535</b>	<b>International Economic Development</b>	<b>U</b>	<b>3</b>
Study of the growth and diversification of developing economies and the causes of poverty and inequality. Analyze the impacts of human capital formation, markets, and public policy on development. Prereq: 2001 (200) or Econ 2001 (200). Not open to students with credit for 435 or 535, or IntStds 4535 (535) or 435, or PubAfrs 4535. Cross-listed in IntStds and PubAfrs.			
<b>4537</b>	<b>Middle Eastern Economic Development</b>	<b>U</b>	<b>3</b>
Introduction to current economic issues facing and similarities and differences in Middle Eastern countries' growth, inflation, unemployment, fiscal and monetary policy, imports, exports, foreign debt and exchange rate policy. Prereq: 2001 (200) or Econ 2001 (200). Not open to students with credit for 437 or 4537 (537), or Econ 4537 (537), or IntStds 437 or 4537 (537). Cross-listed in Econ and IntStds.			

## 14 Agricultural, Environmental, and Dev Economics

**4540 International Commerce and the World Economy** U 3

Application of trade theory and policies to world trade that impacts global business.  
Prereq: 2001 (200) or 2001H (200H), or Econ 2001 (200) or 2001H (200H), or permission of instructor. Not open to students with credit for 540 or IntStds 4540 (540). Cross-listed in IntStds.

**4567 Assessing Sustainability: Project Experience** U 3

Students gain experience in sustainability assessment by applying concepts and quantitative methods to evaluate environmental, economic, social & technical sustainability of specific projects. EEDS major capstone. Co-taught by ENR/AEDE faculty.  
Prereq: 2500 or ENR 2500, and Sr standing; or permission of instructor. Not open to students with credit for ENR 4567. Cross-listed in ENR.

**4597.01 Food, Population, and the Environment** U 3

Issues related to world-wide population increases, food production, and associated environmental stress; policy options for lessening these concerns, especially in low-income countries.  
Prereq: Jr or Sr standing. Not open to students with credit for 597.01, 4597.01H (597.01H), IntStds 4597.01 (597.01), or 4597.01H (597.01H). GE cross-disciplinary seminar course. Cross-listed in IntStds.

**4597.01H Food, Population, and the Environment** U 3

Issues related to world-wide population increases, food production, and associated environmental stress; policy options for lessening these concerns, especially in low-income countries.  
Prereq: Honors standing, and Sr standing; or permission of department or instructor. Not open to students with credit for 597.01H, 4597.01 (597.01), IntStds 4597.01H (597.01H), or 4597.01 (597.01). GE cross-disciplinary seminar course. Cross-listed in IntStds.

**4999 Research With Distinction** U 1 - 3

Conducting and reporting research with Distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman University Undergraduate Research Forum.  
Prereq: CPHR 3.0 overall, and GPA 3.0 or above in major, and permission of project supervisor. Not open to students with credit for 683H. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

**4999H Honors Research With Distinction** U 1 - 3

Conducting and reporting the honors research with distinction. Students are expected to present at the CFAES Undergraduate Research and the Denman University Undergraduate Research Forums.  
Prereq: Honors standing, and FAES 4590.01H (590.01H), and CPHR 3.4 or above, and GPA 3.4 or above, and permission of honors project supervisor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

**5330 Benefit-Cost Analysis** U G 3

Benefit-cost analysis theory and methods and their application to projects pertaining to public infrastructure, agriculture, the environment, natural resources, and human health.  
Prereq: 4310 (531). Not open to students with credit for 6330 or 631.

**5500 Agribusiness and Applied Economics Project Experience** U G 3

Field projects with participating organizations that require application of one or more key principles of agribusiness management or applied economics.  
Prereq: 3101, 3102, 3103, and permission of instructor. Repeatable to a maximum of 6 cr hrs.

**5797 Study at a Foreign Institution** U G 1 - 15

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work.  
Prereq: Permission of dept. chairperson. Repeatable to a maximum of 25 cr hrs or 3 completions.

**5900 Food System Planning and the Economy** U G 3

Examines the social, environmental and economic costs and benefits of our food production, distribution, and consumption.  
Prereq: Not open to students with credit for CRPlan 5900 or PubAfrs 5900. Cross-listed in CRPlan and PubAfrs.

**6110 Applied Quantitative Methods I** G 4

Application of econometric and time series method to the analysis of problems in agricultural, environmental, and development economics.  
Prereq: 4001 (500) or Econ 4001 (501), and 2005 (205) or Stat 1430 (133). Not open to students with credit for 701.

**6120 Applied Quantitative Methods II** G 4

Application of mathematical programming and statistical methods to the analysis of problems in agricultural, environmental, and development economics.  
Prereq: 4001 (500) or Econ 4001 (501), and 2005 (205) or Stat 1430 (133). Not open to students with credit for 702.

**6130 Applied Quantitative Methods III** G 4

This course builds upon the applied econometric content in AEDE 6110 by introducing complementary practical methods of data analytics. Topics include data exploration and visualization, model selection and regularization for high dimensional data, supervised and unsupervised machine learning methods. Lectures and labs will feature discussion of technical concepts and computer applications.  
Prereq: 6110, or permission of instructor.

**6194 Group Studies** G 1 - 4

Analysis of special problems in agricultural, environmental, and development economics by various students, under the guidance of an instructor.  
Prereq: Permission of instructor. This course is graded S/U.

**6200 International Economics and Policy** G 3

Application of economic theory and methods to current problems in international economics, policy and trade.  
Prereq: 4001 (500) or Econ 4001 (501). Not open to students with credit for 734.

**6300 Environmental and Resource Economics** G 3

Application of economic theory and methods to current problems in environmental and resource economics.  
Prereq: 4001 (500) or Econ 4001 (501). Not open to students with credit for 831.

**6330 Benefit-Cost Analysis** G 3

Calculus-based benefit-cost analysis theory and methods and their application to projects pertaining to public infrastructure, agriculture, the environment, natural resources, and human health.  
Prereq: Math 1131 (131) or 1151 (151).

**6400 Regional and International Development** G 3

Application of economic theory and methods to current problems in regional and international economic development.  
Prereq: 6010 or 4001 (500), or Econ 4001 (501). Not open to students with credit for 833.

**6401 International Economic Development** G 3

This course is an introduction to international development economics. The goals of this course are to familiarize students with basic theoretical concepts relating to growth and development, the current empirical evidence, and various approaches for policy design and evaluation.  
Prereq: 4001, 6010, or Econ 4001.02.

**6500 Foundations of Data-Driven Sustainable Energy Systems** G 3

Introduction to issues impacting sustainable energy systems across technology, law and policy, business models, resilience, data, geospatial, and decision sciences.  
Prereq: Enrollment in Data-Driven Sustainable Energy Systems Graduate Interdisciplinary Specialization, or permission of instructor. Not open to students with credit for EnvEng 6020, FABEng 6020, Geog 6020, ISE 6020, or PubAfrs 6020. Cross-listed in EnvEng 6020, FABEng 6020, Geog 6020, ISE 6020, and PubAfrs 6020.

**7110 Advanced Quantitative Methods I** G 3

Application of advanced mathematics and mathematical optimization methods to problems in agricultural, environmental, and development economics.  
Prereq: 4001 (500) or Econ 4001 (501).

**7120 Advanced Quantitative Methods II** G 3

Theoretical formulation and numerical analysis of stochastic dynamic models in agricultural, environmental, development and financial economics.  
Prereq: 4001 (500) or Econ 4001.01 (501.01).

**7130 Applied Econometrics I** G 3

A rigorous introduction to techniques of econometric analysis with applications to empirical problems in agricultural, environmental, and development economics.  
Prereq: 4001 (500) or Econ 4001 (501). Not open to students with credit for 801.

**7140 Applied Econometrics II** G 3

Special topics pertaining to the application of econometric methods to empirical problems in agricultural, environmental, and development economics.  
Prereq: 7130 and Econ 8712 (804), or equiv.

**7310 Advanced Environmental Economics** G 3

Application of advanced economic theory and methods to the allocation of environmental goods and services.  
Prereq: Econ 8712 (804). Not open to students with credit for 831.

**7320 Advanced Resource Economics** G 3

Application of advanced economic theory and methods to the allocation and optimal management of exhaustible and renewable natural resources.  
Prereq: Econ 8712 (804).

**7410 Advanced Regional Economics I** G 3

Application of advanced economic theory and methods to problems of regional economic development.  
Prereq: Econ 8712 (804). Not open to students with credit for 840.

**7415 Advanced Regional Economics 2** G 3

Application of advanced economic theory and methods to problems of regional economic development. Continuation of AEDEcon 7410.  
Prereq: Econ 8712.

**7421 Advanced Development Economics I** G 3

Application of advanced economic theory and methods to problems of international economic development.  
Prereq: Econ 8712 (804). Not open to students with credit for 840.

## Agricultural, Environmental, and Dev Economics 15

<b>7425</b>	<b>Advanced Development Economics II</b>	<b>G</b>	<b>3</b>	<p>Application of advanced economic theory and methods to problems of international economic development. Continuation of AEDEcon 7421.</p> <p>Prereq: Econ 8712 (804). Not open to students with credit for 840.</p>
<b>7890</b>	<b>Workshop on Microeconomic Analysis</b>	<b>G</b>	<b>2</b>	<p>Review and synthesis of advanced microeconomic theory and methods. For first-year AEDEcon PhD students preparing for microeconomics qualifying examination.</p> <p>Prereq: PhD standing in AEDEcon, and permission of instructor. This course is graded S/U.</p>
<b>7999</b>	<b>Thesis Research</b>	<b>G</b>	<b>1 - 18</b>	<p>Individual research for thesis or Plan B paper.</p> <p>Prereq: MS student in AEDEcon. Repeatable to a maximum of 36 cr hrs or 10 completions. This course is graded S/U.</p>
<b>8101</b>	<b>Applied Welfare Economics</b>	<b>G</b>	<b>4</b>	<p>This course will explore questions of how we can use welfare analyses to evaluate policy and inform public policy debates. It takes an applied approach to welfare economics and its application to issues of public policy.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8102</b>	<b>Advanced Applied Econometrics</b>	<b>G</b>	<b>4</b>	<p>This course is designed to introduce you to advanced applied econometric techniques essential for PhD level applied research. We will focus on the applied econometrics, reading, writing and problem-solving skills necessary for you to begin to do your own research.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8103</b>	<b>Seminal Readings in Applied Economics</b>	<b>G</b>	<b>4</b>	<p>This course introduces students to seminal readings in the fields of Agricultural, Environmental, Development and Regional Economics. Students are introduced to a set of seminal readings in each field and are introduced to the critical skills necessary to critically analyze, review, and translate these readings into research proposals.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 4</b>	<p>Analysis of special problems in agricultural, environmental, and development economics by an individual student, under the guidance of an instructor.</p> <p>Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs. This course is graded S/U.</p>
<b>8194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>	<p>Analysis of special problems in agricultural, environmental, and development economics by various students, under the guidance of an instructor.</p> <p>Prereq: Permission of instructor. This course is graded S/U.</p>
<b>8200</b>	<b>Frontiers of AED Economics</b>	<b>G</b>	<b>1 - 6</b>	<p>Critical discussion of seminal and innovative scholarly research in agricultural, environmental, and development economics.</p>
<b>8201</b>	<b>Advanced Agricultural Economics</b>	<b>G</b>	<b>2</b>	<p>This course provides students with an overview and an understanding of the theory guiding production economics as applied to agricultural problems and of the empirical methodologies used to study agricultural production problems.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8202</b>	<b>Agricultural Finance</b>	<b>G</b>	<b>2</b>	<p>This course will focus on the application of financial theories to agricultural economics. Topics include asset pricing, capital structure, capital budgeting, risk, financial stress, and financial institutions.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8203</b>	<b>Frontiers of Agricultural and Food System Economics</b>	<b>G</b>	<b>2</b>	<p>This course will provide students with theoretical foundations that are relevant to settings both within and outside the subfield of agricultural economics, practice in contemporary methods of empirical analysis, and exposure to both current topics of interest in agricultural economics.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8204</b>	<b>Advanced Topics in International Economics</b>	<b>G</b>	<b>2</b>	<p>This course will focus on careful study of a set of seminal articles in international economics. Topics will include Ricardian model of trade, heterogeneous firms and trade, applied general equilibrium and the gravity model and more.</p> <p>Prereq: 6200 or Econ 8861, or permission of instructor.</p>
<b>8301</b>	<b>Frontiers in Resource Economics</b>	<b>G</b>	<b>2</b>	<p>The course will focus on the theory of renewable resource economics, the seminal papers in the field, and will include contemporary issues and advanced topics such as spatial-dynamic problems and coupled human-natural systems.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8302</b>	<b>Nonmarket Valuation</b>	<b>G</b>	<b>2</b>	<p>This course is designed to introduce you to the literature and applied econometric methods needed for nonmarket valuation in Environmental and Resource Economics. Specific topics covered include: Hedonic valuation and real estate markets, Rosen-Roback and quality of life, equilibrium models of location choice, and developing software to estimate cutting-edge econometric models.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8303</b>	<b>Climate Change Economics</b>	<b>G</b>	<b>2</b>	<p>This course will provide students an in-depth exploration of theoretical concepts, methodological advances, and contemporary issues in climate change economics.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8304</b>	<b>Econometric Methods for Environmental Valuation</b>	<b>G</b>	<b>2</b>	<p>This course is designed to introduce you to the econometrics methods needed for stated and revealed nonmarket valuation in Environmental and Resource Economics.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8401</b>	<b>Human Capital</b>	<b>G</b>	<b>2</b>	<p>This course covers the key theories and empirical evidence surrounding investments in human capital. Topics include labor markets, nutrition and health, schooling and education, migration, population and fertility, and intra-household allocation.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8402</b>	<b>Econometrics in Development</b>	<b>G</b>	<b>2</b>	<p>This class will cover cutting edge topics and econometric methods in the development economics literature, examining new methods around IVs, popular machine learning techniques, and non-classical measurement error.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8403</b>	<b>Finance in Economic Development</b>	<b>G</b>	<b>2</b>	<p>This is a doctoral-level course devoted to the microeconomics of risk, saving, credit, and insurance in international economic development, based on critical reading and discussion of seminal and frequently-cited scholarly papers.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8404</b>	<b>Program Evaluation</b>	<b>G</b>	<b>2</b>	<p>The course is intended as an introduction to program evaluation methods using examples from the environmental and development economics literature. It will cover the basic concepts and methods underlying research on policy analysis in developed and developing countries, with a particular emphasis on implementing common program evaluation techniques.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8501</b>	<b>Frontiers in Regional Economics</b>	<b>G</b>	<b>2</b>	<p>This course is designed to acquaint you to the frontiers in regional, urban, spatial and rural economics as well as historical background of current research. We will gain an understanding of the key models that describe regional and urban economics. We will then explore key empirical approaches that underlie regional and urban economics.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8502</b>	<b>Frontiers in Urban and Spatial Economics</b>	<b>G</b>	<b>2</b>	<p>This course builds on AEDEcon 8501 Frontiers in Regional Economics and is designed to further introduce you to topics in urban and spatial economics. The focus will be on applied economic papers on key topics, most of which have a spatial dimension - e.g., they use spatial data, ask interesting questions about space, or seek to account for space in some way.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8601</b>	<b>Applied Economic Dynamics</b>	<b>G</b>	<b>2</b>	<p>The course will focus on the formulation, solution, and analysis of dynamic economic models arising in agricultural, environmental, development, regional and financial economics. Students will be introduced to methods to formulate, solve and analyze dynamic economic models.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8602</b>	<b>Advanced Computational, Mathematical, and Quantitative Methods Applied to Economics</b>	<b>G</b>	<b>2</b>	<p>This course will focus on advanced mathematical, statistical, and computational methods and their application to the formulation, solution, and analysis of economic models arising in agricultural, environmental, development, and regional economics.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor</p>
<b>8603</b>	<b>Survey Methodology</b>	<b>G</b>	<b>2</b>	<p>This course will focus on the theory and practices of survey design and fielding. Emphasis will be given to reducing hypothetical bias, incentive compatibility, as well as sampling error.</p> <p>Prereq: 7140, Econ 8714, and 8732; or permission of instructor.</p>
<b>8800</b>	<b>Seminar in AED Economics</b>	<b>G</b>	<b>1</b>	<p>Critical discussion of current academic research in agricultural, environmental, and development economics.</p> <p>Prereq: Grad standing in AEDEcon. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.</p>
<b>8890</b>	<b>Workshop on Research Methods</b>	<b>G</b>	<b>2</b>	<p>Preparation of research manuscripts in agricultural, environmental, and development economics.</p> <p>Prereq: PhD standing in AEDEcon, and permission of instructor. This course is graded S/U.</p>
<b>8895</b>	<b>PhD Research Seminar</b>	<b>G</b>	<b>1 - 4</b>	<p>PhD Students presenting and discussing research in agricultural, environmental, and development economics under the guidance of an instructor.</p> <p>Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.</p>
<b>8999</b>	<b>Thesis and Dissertation Research</b>	<b>G</b>	<b>1 - 16</b>	<p>Individual research for doctoral dissertation.</p> <p>Prereq: PhD candidate in AEDEcon. Repeatable. This course is graded S/U.</p>

## 16 Agriscience Education

### Agriscience Education

<b>2189</b>	<b>Early Experience in Agriscience Education</b>	<b>U</b>	<b>1</b>
The early experience program is designed to help students explore careers and gain experience in Agriscience Education. Prereq: Not open to students with credit for AEE 280.			
<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Planning, conducting, and reporting a special study appropriate to the needs of the student. Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 5</b>
Group studies for students in specialized programs. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>3488</b>	<b>Professional Development in Agriscience Education</b>	<b>U</b>	<b>1 - 3</b>
Developing Twenty-first Century skills through hands-on, contextual, and authentic, out-of-class experiences. Students, working individually with the instructor, will design and engage in developmental skill activities. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is graded S/U.			
<b>4189</b>	<b>Context-Based Learning in Agriscience Education</b>	<b>U</b>	<b>1</b>
Agriscience education students will be immersed in advanced field experience, documenting hours toward initial teacher licensure. ASE 4189 will provide students the opportunity to further understand and develop best practices in teaching and learning centered around youth development and experiential learning within authentic agriscience education learning environments. Prereq or concur: 5210.			
<b>4194</b>	<b>Group Studies in Agriscience Education</b>	<b>U</b>	<b>1 - 3</b>
Specialized topics in Agriscience Education. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>4220</b>	<b>Methods of Teaching Agriscience I</b>	<b>U</b>	<b>3</b>
An introductory instructional methodology course focused on analyzing the principles of teaching and learning, and designing instruction for teaching agriscience education in a formal classroom environment.			
<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Conducting and reporting an undergraduate research project. Prereq: Permission of instructor. This course is graded S/U.			
<b>4999</b>	<b>Research with Distinction</b>	<b>U</b>	<b>1 - 6</b>
Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman University Undergraduate Research Forum. Prereq: CPHR 3.0 or above, and GPA 3.0 or above, and permission of project supervisor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>5189</b>	<b>Planned Field Experience</b>	<b>U G</b>	<b>1 - 2</b>
Agriscience education M.Ed. students will be immersed in planned field experience, documenting hours toward initial teacher licensure. ASE 5189 will provide students the opportunity to further understand and develop best practices in teaching and learning centered around youth development and experiential learning within agriscience education. Prereq: Admission to the M.Ed. program. Repeatable to a maximum of 2 cr hrs or 2 completions.			
<b>5193</b>	<b>Individual Studies in Agriscience Education</b>	<b>U G</b>	<b>1 - 3</b>
Planning, conducting, and reporting a special study appropriate to the needs of the student. Prereq: CPHR 2.50 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Group studies for students in specialized programs. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>5210</b>	<b>Youth Development and Experiential Learning within Agriscience Education</b>	<b>U G</b>	<b>2</b>
This course provides pre-service agricultural education candidates philosophies and mechanisms for youth engagement within a comprehensive agricultural education program. Through the exploration of Positive Youth Development and Experiential Learning Theory, pre-service candidates will explore youth engagement through individual program components and intracurricular experiences. Prereq: 4220, and Jr standing.			
<b>5220</b>	<b>Methods of Teaching Agriscience II</b>	<b>U G</b>	<b>3</b>
ASE 5220 is a methods of teaching course. In ASE 5220 students will further explore the teaching and learning process with an emphasis on planning and delivering agriscience instruction in public schools. Students will demonstrate competence in agricultural literacy and science-based agriculture instruction through the use of a variety of teaching methods. Prereq: 5210, and Sr Standing.			

<b>5230</b>	<b>Methods of Teaching in Agriscience Education</b>	<b>U G</b>	<b>3</b>
Examining the teaching and learning process with emphasis on planning and delivering agriscience instruction in public schools. Students will demonstrate competence in agricultural literacy instruction, and science-based agriculture instruction. Prereq: AEE 230 and 280. Not open to students with credit for AEE 530.02.			
<b>5231</b>	<b>Experiential Learning in Agriscience Education</b>	<b>U G</b>	<b>2</b>
Provides future secondary agriscience teachers with a foundation in experiential education as part of a comprehensive agricultural education program including supervised agricultural experience and career technical student leader organizations. Prereq: Not open to students with credit for AEE 531.			
<b>5255</b>	<b>Program Planning in Agriscience Education</b>	<b>U G</b>	<b>2</b>
Principles and procedures used in planning and conducting programs of career and technical education in the public schools. Prereq: Not open to students with credit for AEE 585.			
<b>5280</b>	<b>Internship in Agriscience Education</b>	<b>U G</b>	<b>4</b>
Supervised participation in teaching and other professional responsibilities of teachers of agriculture in the public schools. Prereq: 5230 and 5231. Not open to students with credit for AEE 580.01.			
<b>5281</b>	<b>Capstone in Agriscience Education</b>	<b>U G</b>	<b>4</b>
Clinical analysis of teaching agriculture in the public schools, conferences, and seminars. Prereq: 5230 and 5231. Not open to students with credit for AEE 580.02.			
<b>5282</b>	<b>Evaluation in Agriscience Education</b>	<b>U G</b>	<b>4</b>
Lesson plan development, written assignments, and other documentation of teaching agriculture in the public schools, conferences, and seminars. Prereq: 5280 and 5282. Not open to students with credit for AEE 580.03.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>3</b>
The study abroad program will provide undergraduate and graduate students with an opportunity to learn about agriculture and related issues in a foreign country and receive credit for that work. Repeatable to a maximum of 9 cr hrs.			

### Air Force Aerospace Studies

<b>1001</b>	<b>The Foundation of the United States Air Force I</b>	<b>U</b>	<b>1</b>
Introduction to the United States Air Force and ROTC. Officership and military customs and courtesies are discussed. Foundations of Air Force communication are covered.			
<b>1002</b>	<b>The Foundation of the United States Air Force II</b>	<b>U</b>	<b>1</b>
Looks at the origin and organization of the Air Force. Selected topics contributing to an understanding of the Air Force are covered.			
<b>1101</b>	<b>Heritage and Values of the United States Air Force I</b>	<b>U</b>	<b>1</b>
A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force.			
<b>1102</b>	<b>Heritage and Values of the United States Air Force II</b>	<b>U</b>	<b>1</b>
A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force.			
<b>1111</b>	<b>Freshmen Leadership Lab I</b>	<b>U</b>	<b>0</b>
An introduction to the practical application of basic leadership principles in the United States Air Force. Prereq: Enrollment in Air Force ROTC program. Concur: 1101. This course is graded S/U.			
<b>1112</b>	<b>Freshmen Leadership Lab II</b>	<b>U</b>	<b>0</b>
An introduction to the practical application of basic leadership principles in the United States Air Force. Prereq: Enrollment in Air Force ROTC program. Concur: 1102. This course is graded S/U.			
<b>2001</b>	<b>Evolution of United States Air Force Air and Space Power I</b>	<b>U</b>	<b>1</b>
Examines air and space power from an historical perspective. Covers early flight and World War I to the Korean War and ICBMS.			
<b>2002</b>	<b>Evolution of United States Air Force Air and Space Power II</b>	<b>U</b>	<b>1</b>
Examines air and space power from an historical perspective. Covers period from the Vietnam War to the Gulf War plus a look at the Air Force of the future.			
<b>2101</b>	<b>Team and Leadership Fundamentals I</b>	<b>U</b>	<b>1</b>
Focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset.			
<b>2102</b>	<b>Team and Leadership Fundamentals II</b>	<b>U</b>	<b>1</b>
Focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset.			

## Air Force Aerospace Studies 17

<b>2111</b>	<b>Sophomore Leadership Lab I</b>	<b>U</b>	<b>0</b>
An intensified employment of leadership principles and practices relevant to future Air Force Officers. Prereq: Enrollment in Air Force ROTC program. Concur: 2101. This course is graded S/U.			
<b>2112</b>	<b>Sophomore Leadership Lab II</b>	<b>U</b>	<b>0</b>
An intensified employment of leadership principles and practices relevant to future Air Force Officers. Prereq: Enrollment in Air Force ROTC program. Concur: 2112. This course is graded S/U.			
<b>2121</b>	<b>FTP Leadership Lab I</b>	<b>U</b>	<b>0</b>
This course is for Air Force ROTC Cadets who have completed all Freshman and Sophomore Air Science courses but who have not earned and junior enrollment allocation. Prereq: 2102, and enrollment in Air Force ROTC program. This course is graded S/U.			
<b>2122</b>	<b>FTP Leadership Lab II</b>	<b>U</b>	<b>0</b>
This course is for Air Force ROTC Cadets who have completed all Freshman and Sophomore Air Science courses but who have not earned and junior enrollment allocation. Prereq: 2102, and enrollment in Air Force ROTC program. This course is graded S/U.			
<b>3001</b>	<b>Air Force Leadership Studies I</b>	<b>U</b>	<b>3</b>
Study of leadership professional knowledge and communication skills required for an Air Force officer. The role of a leader as supervisor and counselor is discussed. Prereq: 1001, 1002, 2001, and 2002, and permission of instructor.			
<b>3002</b>	<b>Air Force Leadership Studies II</b>	<b>U</b>	<b>3</b>
Study of quality management fundamentals and communication skills for the Air Force officer. The Air Force personnel evaluation system and military ethics are discussed. Prereq: 1001, 1002, 2001, 2002, and 3001, and permission of instructor.			
<b>3101</b>	<b>Leading People and Effective Communication I</b>	<b>U</b>	<b>3</b>
Teaches students advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Students have an opportunity to try out these leadership and management techniques in a supervised environment.			
<b>3102</b>	<b>Leading People and Effective Communication II</b>	<b>U</b>	<b>3</b>
Teaches students advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Students have an opportunity to try out these leadership and management techniques in a supervised environment. Prereq: 3101.			
<b>3111</b>	<b>Junior Leadership Lab I</b>	<b>U</b>	<b>0</b>
An advanced application of leadership theory, skills, and practices for prospective Air Force Officers. Prereq: Enrollment in Air Force ROTC program. Concur: 3101. This course is graded S/U.			
<b>3112</b>	<b>Junior Leadership Lab II</b>	<b>U</b>	<b>0</b>
An advanced application of leadership theory, skills, and practices for prospective Air Force Officers. Prereq: Enrollment in Air Force ROTC program. Concur: 3102. This course is graded S/U.			
<b>4001</b>	<b>Air Force Defense Studies I</b>	<b>U</b>	<b>3</b>
Course examines the political, economic and social constraints upon national security and defense structure. The role of the military including joint operations is discussed. Regional defense issues studies. Prereq: 1001, 1002, 2001, 2002, 3001, and 3002, and permission of instructor.			
<b>4002</b>	<b>Air Force Defense Studies II</b>	<b>U</b>	<b>3</b>
The role of the military and regional defense are studied. Current air force issues and other topics relevant to preparing an air force officer for active duty are covered. Prereq: 1001, 1002, 2001, 2002, 3001, 3002, and 4001, and permission of instructor.			
<b>4101</b>	<b>National Security Affairs/Preparation for Active Duty I</b>	<b>U</b>	<b>3</b>
Designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the students for Active Duty. Prereq: 3102.			
<b>4102</b>	<b>National Security Affairs/Preparation for Active Duty II</b>	<b>U</b>	<b>3</b>
Designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the students for Active Duty. Prereq: 4101.			
<b>4111</b>	<b>Senior Leadership Lab I</b>	<b>U</b>	<b>0</b>
A culmination of the knowledge, skills, theory, and leadership practices acquired in the Air Force ROTC program to ensure that prospective Air Force Officers are ready to receive a commission in the United States Air Force. Prereq: Enrollment in Air Force ROTC program. Concur: 4101. This course is graded S/U.			

<b>4112</b>	<b>Senior Leadership Lab II</b>	<b>U</b>	<b>0</b>
A culmination of the knowledge, skills, theory, and leadership practices acquired in the Air Force ROTC program to ensure that prospective Air Force Officers are ready to receive a commission in the United States Air Force. Prereq: Enrollment in Air Force ROTC program. Concur: 4102. This course is graded S/U.			
<b>4121</b>	<b>Air Science Individual Studies I</b>	<b>U</b>	<b>0</b>
This course is for Air Force ROTC Cadets who have completed all Air Science courses required for commissioning but who still need other university courses for graduation. Prereq: 4102, and enrollment in Air Force ROTC program. This course is graded S/U.			
<b>4122</b>	<b>Air Science Individual Studies II</b>	<b>U</b>	<b>0</b>
This course is for Air Force ROTC Cadets who have completed all Air Science courses required for commissioning but who still need other university courses for graduation. Prereq: 4102, and enrollment in Air Force ROTC program. This course is graded S/U.			

### American Indian Studies

<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate research in variable topics related to American Indian Studies. Student-initiated projects. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4998H</b>	<b>Research in American Indian Studies Honors</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate honors student research or creative project in variable topics related to American Indian Studies. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Research: Thesis</b>	<b>U</b>	<b>1 - 4</b>
A program of reading arranged for each student, with individual conferences, reports, paper and/or thesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 4</b>
A program of reading, research, writing, and/or creative work arranged for each student, with individual conferences, progress reports, and honors thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>5191</b>	<b>Internship</b>	<b>U G</b>	<b>1 - 3</b>
Workplace experience requiring writing and/or research. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 3</b>
Individual directed study for work not typically offered in courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Directed group study for a topic not offered in regular courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>5700</b>	<b>American Indian Studies Workshop</b>	<b>U G</b>	<b>1 - 3</b>
Structured participation in seminar or event organized for that semester. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

### American Sign Language

<b>1101</b>	<b>Elementary American Sign Language I</b>	<b>U</b>	<b>4</b>
Students develop elementary ASL skills-receptive (listening) and expressive (speaking). American deaf culture and history introduced with an emphasis on making comparisons and connections to one's own culture. Instruction primarily in ASL. Not open to native users of ASL. Prereq: Not open to students with 2 or more years of ASL study in high school. Not open to students with credit for 101, English 101, or EduTL 101. This course is available for EM credit. GE for lang course.			
<b>1102</b>	<b>Elementary American Sign Language II</b>	<b>U</b>	<b>4</b>
Further development of ASL skills. Focus on talking about others. Continued exploration of American deaf culture and history. Instruction primarily in ASL. Not open to native users of ASL. Prereq: 1101 (101), English 101, or EduTL 101. Not open to students with credit for 102, English 102, or EduTL 102. This course is available for EM credit. GE for lang course.			
<b>1103</b>	<b>Intermediate American Sign Language</b>	<b>U</b>	<b>4</b>
Advanced development of ASL skills. Focus on talking about community. Continued exploration of American deaf culture and history. Instruction primarily in ASL. Not open to native users of ASL. Prereq: 1102 (102), English 102, or EduTL 102. Not open to students with credit for 103, EduTL 113, or SphHmg 103, or equiv. This course is available for EM credit. GE for lang course.			

## 18 American Sign Language

<b>2104</b>	<b>American Sign Language Conversational Discourse</b>	<b>U</b>	<b>3</b>
This course is designed to develop conversational discourse and personal narrative skills in ASL. Students will continue the development of ASL communication skills both receptively and expressively, by expanding on ASL vocabulary and ASL grammar. These skills will allow students the ability to expand conversations in ASL beyond every day topics. Course instruction is in the target language, ASL. Prereq: A grade of C or better in 1103, or permission of department.			
<b>3105</b>	<b>American Sign Language Literature</b>	<b>U</b>	<b>3</b>
This course is an introduction to American Sign Language Literature through exploration and analysis of storytelling and poetry of the American Deaf Community. Students will expand their expressive and receptive skills by examining and deciphering ASL Literary works by native ASL users as well as by creating their own works of literature using ASL. Knowledge and use of ASL is required. Prereq: A grade of C- or above in 2104, or permission of department.			
<b>3350</b>	<b>American Deaf Arts and Literature</b>	<b>U</b>	<b>3</b>
Survey of literary and artistic works about being deaf that are written or created by individuals who are American deaf. Prereq: Not open to students with credit for ArtsSci 350.			
<b>4189S</b>	<b>Intersection of American Sign Language, Deaf Culture, and the Deaf Community</b>	<b>U</b>	<b>3</b>
Designed to increase student awareness of agencies and organizations that serve the central Ohio deaf community. Students will have the opportunity to use American Sign Language with fluent users and apply their understanding of cultural norms and expectations through providing needed services and support at those organizations. Prereq: 1101, and permission of instructor or department.			

## Anatomy

<b>1300</b>	<b>SuperAnatomy</b>	<b>U</b>	<b>3</b>
Today's pop culture includes icons from movies, television shows, and comics superheroes (including metahumans, aliens, & humans with advanced technology). The SuperAnatomy course is a 3-credit hour course that teaches basic systemic human anatomy and physiology with the help of superheroes. Lectures introduce normal human anatomy and physiology, compares superhero powers & modern technology.			
<b>2100.01</b>	<b>Introductory Human Anatomy</b>	<b>U</b>	<b>3</b>
A regional study of the basic structure and terminology associated with the human body. Prereq: Health Science students in Continuing Education (CED), University Exploration (EXP), and Arts and Sciences (ASC) only. Not open to students with credit for 2300.xx or 3300.xx.			
<b>2100.02</b>	<b>Introductory Human Anatomy</b>	<b>U</b>	<b>3</b>
Regional study of the basic structure and terminology associated with the human body. Prereq: Biology 1101, 1102, 1113, or 1114, or permission of instructor; and enrollment as a Health Science student in Continuing Education (CED), University Exploration (EXP), or Arts and Sciences (ASC). Not open to students with credit for 2300.xx or 3300.xx.			
<b>2100.03</b>	<b>Introductory Human Anatomy</b>	<b>U</b>	<b>3</b>
Regional study of the basic structure and terminology associated with the human body. Prereq: Health Science students in Continuing Education (CED), University Exploration (EXP), and Arts and Sciences (ASC) only. Not open to students with credit for 2300.xx or 3300.xx.			
<b>2100.04</b>	<b>Introductory Human Anatomy</b>	<b>U</b>	<b>3</b>
Regional study of the basic structure and terminology associated with the human body. Prereq: Biology 1101, 1102, 1113, or 1114, or permission of instructor; and enrollment as a Health Science student in Continuing Education (CED), University Exploration (EXP), or Arts and Sciences (ASC). Not open to students with credit for 2300.xx or 3300.xx.			
<b>2220</b>	<b>Human Structure and Function for Engineers</b>	<b>U</b>	<b>3</b>
Offers a block of lectures and laboratories that present the fundamentals of human anatomy and physiology tailored to undergraduate bioengineering students. Prereq: Enrollment in BiomedE major, or permission of instructor.			
<b>2300.01</b>	<b>Human Anatomy</b>	<b>U</b>	<b>4</b>
Regional study of the basic structure and terminology associated with the human body. Laboratory includes demonstrations on prosected human cadavers. Prereq: Health Science students in Continuing Education (CED), University Exploration (EXP), and Arts and Sciences (ASC) only. Not open to students with credit for 2100.xx or 3300.xx.			
<b>2300.02</b>	<b>Human Anatomy</b>	<b>U</b>	<b>4</b>
Regional study of the basic structure and terminology associated with the human body. Laboratory includes demonstrations on prosected human cadavers. Prereq: Enrollment in Dental Hygiene (DHY) only. Not open to students with credit for 2100.xx or 3300.xx.			
<b>2300.03</b>	<b>Human Anatomy</b>	<b>U</b>	<b>4</b>
Regional study of the basic structure and terminology associated with the human body. Laboratory includes demonstrations on prosected human cadavers. Prereq: Enrollment in pre-Nursing. Not open to students with credit for 2100.xx or 3300.xx.			

<b>2300.04</b>	<b>Human Anatomy</b>	<b>U</b>	<b>4</b>
Regional study of the basic structure and terminology associated with the human body supplemented with computer-assisted instruction. Laboratory includes demonstrations on prosected human cadavers. Prereq: Enrollment in pre-Health and Rehabilitation Sciences (pre-HRS), Health and Rehabilitation Sciences (HRS), pre-Optometry (pre-Opt), Exercise Science (ExSci), pre-Pharmacy (pre-Pharm), Education and Human Ecology (EHE), or pre-Dental (pre-Dent) only. Not open to students with credit for 2100.xx or 3300.xx.			
<b>2300.05</b>	<b>Human Anatomy</b>	<b>U</b>	<b>4</b>
Regional study of the basic structure and terminology associated with the human body. Laboratory includes demonstrations on prosected human cadavers. Prereq: Biology 1101, 1102, 1113, or 1114, or permission of instructor; and enrollment as a Health Science student in Continuing Education (CED), University Exploration (EXP), or Arts and Sciences (ASC). Not open to students with credit for 2100.xx or 3300.xx.			
<b>3050</b>	<b>Undergraduate Neuroanatomy Laboratory</b>	<b>U</b>	<b>1</b>
Exploration of human neuroanatomy through hands-on laboratory experiences that utilize cadaveric materials, histological cross sections, and imaging. Prereq: 2100, 2300, or 3300, and Neurosc 3050 (or concurrent) or permission of instructor.			
<b>3300.01</b>	<b>Advanced Human Anatomy</b>	<b>U</b>	<b>5</b>
Fundamental principles of human anatomy using a regional approach. Instructional format includes lecture, laboratory with prosected human cadavers, and practical examinations. Highly recommended for pre-occupational therapy, pre-physical therapy, pre-physician assistant, pre-dental, and pre-medical students. Prereq: Not open to students with credit for 2100.xx or 2300.xx.			
<b>3300.02</b>	<b>Advanced Human Anatomy</b>	<b>U</b>	<b>5</b>
Fundamental principles of human anatomy using a regional approach. Instructional format includes lecture, laboratory with prosected human cadavers, and practical examinations. Highly recommended for pre-occupational therapy, pre-physical therapy, pre-physician assistant, pre-dental, and pre-medical students. Prereq: Biology 1101, 1102, 1113, or 1114, or permission of instructor. Not open to students with credit for 2100.xx or 2300.xx.			
<b>4300</b>	<b>Human Anatomy with Dissection</b>	<b>U</b>	<b>4</b>
Advanced undergraduate study of the structure of the human body through regional dissection of a human cadaver and an introduction to histology, embryology, neuroanatomy, and medical imaging. Prereq: 2300.xx (199.xx) or 3300 (200), and permission of instructor.			
<b>4600</b>	<b>Human Embryonic Development and Birth Defects</b>	<b>U</b>	<b>2</b>
Systematic study of the basic embryological development of the human correlated with common birth defects. Prereq: 2100, 2300, or 3300, or permission of instructor.			
<b>4700</b>	<b>Undergraduate Histology</b>	<b>U</b>	<b>4</b>
Systematic study of the basic microscopic structure of mammalian cells, tissues, and organs correlated with function. Prereq: 2100, 2300, or 3300, or permission of instructor.			
<b>5300</b>	<b>Learning Human Anatomy Through Dissection</b>	<b>U G</b>	<b>2</b>
Enables students with introductory human gross anatomy experience the opportunity to further investigate the human body through the complete dissection of a human cadaver. Prereq: A grade of B- or better in 2300 or 3300, or equiv; and an application (with selection process), and permission of Course Director. This course is graded S/U.			
<b>5440</b>	<b>Advanced Regional Dissection for Undergraduate Students</b>	<b>U G</b>	<b>2</b>
Enables students with introductory human gross anatomy experience the opportunity to further investigate the human body through the in-depth independent dissection of one or more regions of the human body. Prereq: A grade of B- or above in 2300 or 3300 or equiv., and an application (with selection process), and permission of Course Director. Repeatable to a maximum of 6 or hrs.			
<b>5710</b>	<b>History of Anatomy</b>	<b>U G</b>	<b>3</b>
This course examines the history of anatomy as a way categorizing and explaining the relationships of parts to wholes in once living creatures, notably human beings. We focus on the history of anatomical observations, education, modes of communication, and professionalization. Prereq: 2220, 2300, or 3300; or Grad standing; or permission of both instructors. Cross-listed in History.			
<b>6000</b>	<b>Advanced Musculoskeletal Anatomy</b>	<b>G</b>	<b>5</b>
Musculoskeletal anatomy of the human body through an in-depth dissection experience. Prereq: Enrollment in DPT, OTD, or MOT programs, and permission of instructor.			
<b>6193</b>	<b>Individual Studies in Anatomy</b>	<b>G</b>	<b>1 - 5</b>
Enables the student to pursue a minor investigation in some anatomical field of choice. Prereq: Grad standing in Anatomy, or permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions. This course is graded S/U.			

<b>6440</b>	<b>Regional Dissection for Anatomy Non-Majors</b>	<b>G</b>	<b>3 - 4</b>
Guided regional human cadaveric dissection for graduate students outside the Anatomy MS or PhD programs. The course allows for focus on a specific region of human anatomy dissection. Allow for 4-8 hours/week of lab dissection. Instructor permission to enroll. Prereq: Grad standing, and permission of instructor. Not open to students enrolled in the Anatomy MS or PhD program. Repeatable to a maximum of 10 cr hrs or 3 completions.			
<b>6511</b>	<b>Human Anatomy for Dental Students I</b>	<b>M</b>	<b>7</b>
Introduces dental students to the basic concepts of human gross anatomy, histology, neuroscience and embryology. Prereq: Enrollment in Dentistry, or permission of instructor.			
<b>6512</b>	<b>Human Anatomy for Dental Students II</b>	<b>M</b>	<b>8</b>
Continues the introduction of dental students to the basic concepts of human gross anatomy, histology, neuroscience and embryology. Prereq: Enrollment in Dentistry, or permission of instructor.			
<b>6540</b>	<b>Regional Dissection for Anatomy Majors</b>	<b>G</b>	<b>2 - 4</b>
Guided regional human cadaveric dissection for Anatomy graduate students in either the Anatomy MS or PhD programs. The course allows for focus on a specific region of human anatomy dissection. Allow for 4-8 hours/week of lab dissection. Instructor permission & Anatomy 6900 are required to enroll. Prereq: 6900, enrollment in the Anatomy MS or PhD program, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>6600</b>	<b>Human Embryology</b>	<b>G</b>	<b>2</b>
Designed to acquaint graduate students with a basic knowledge of human embryology. Prereq: Grad standing in Anatomy, or permission of instructor. Not open to students with credit for 710.			
<b>6700</b>	<b>Human Histology</b>	<b>G</b>	<b>4</b>
The microscopic study of cells, tissues, and organs with particular emphasis on human. The microscopic structure of various organ systems are integrated with their functions. Prereq: Grad standing in Anatomy, or permission of instructor.			
<b>6800</b>	<b>Human Neuroanatomy</b>	<b>G</b>	<b>4</b>
Introduces graduate students to the basic concepts of human neuroanatomy. Prereq: Grad standing in Anatomy, or permission of instructor. Not open to students with credit for NeuroSc 716.			
<b>6900</b>	<b>Human Anatomy for Graduate Students</b>	<b>G</b>	<b>8</b>
Graduate level study of human anatomy by regional dissection. Anatomy 200 or equivalent is recommended. Prereq: Permission of instructor.			
<b>7289</b>	<b>Practicum: Developing Educational Components</b>	<b>G M</b>	<b>1 - 4</b>
Practical experience developing education tool(s) and/or curricular component(s) in Anatomy. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>7310</b>	<b>Advanced Anatomy for Dental Residents</b>	<b>G</b>	<b>1</b>
Advanced head and neck anatomy for residents in the dental specialties. Prereq: DDS or equiv, and enrollment as a resident or fellow in dental residency program.			
<b>7500</b>	<b>Imaging in Human Anatomy</b>	<b>G</b>	<b>2</b>
Application of knowledge of the anatomy of the human body to the interpretation and understanding of diagnostic images. Prereq: 6900 or equiv, and permission of instructor.			
<b>7800</b>	<b>History of Anatomy</b>	<b>G M</b>	<b>2 - 3</b>
The primary focus of this seminar course is to introduce students to the chronology, global context, and impact of anatomy, with focuses on education, illustration, research, and ethics. This course will provide students with exposure to the evolution of the science of anatomy, while also developing professional skills through in-class and online discussions, and oral presentations. Prereq: Grad standing in Anatomy or permission of instructor.			
<b>7890</b>	<b>Anatomy Seminar in Education</b>	<b>G M</b>	<b>1</b>
Readings and discussion of topics in anatomical education or biomedical pedagogy and curricular development pertinent to anatomy. Prereq: Grad standing in Anatomy, or permission of instructor. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.			
<b>7891</b>	<b>Anatomy Seminar in Research</b>	<b>G</b>	<b>1</b>
Readings and discussion of topics in biomedical or educational research pertinent to anatomy. Prereq: Grad standing in Anatomy, or permission of instructor. Repeatable to a maximum of 8 cr hrs with content change. This course is graded S/U.			
<b>7900</b>	<b>Clinically Oriented Anatomy</b>	<b>G</b>	<b>3</b>
Provides a regionally based clinical approach to the study of human anatomy. Basic anatomy and its correlation with clinical concepts will be examined while an emphasis on clinical associations of disease and assessment techniques will be explored. Prereq: 6900, and Grad standing.			

<b>7999</b>	<b>Master Research in Anatomy</b>	<b>G</b>	<b>1 - 8</b>
Designed to enable the student to conduct an in-depth research investigation in some anatomical field of choice. Prereq: Permission of instructor. Repeatable to a maximum of 40 cr hrs or 20 completions. This course is graded S/U.			
<b>8110</b>	<b>Advanced Studies in Histology</b>	<b>G</b>	<b>2</b>
Discussion of selected topics in histology based on-depth readings of the primary biomedical literature. Sample topics might include: bone and connective tissues, cardiovascular, respiratory tissues. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs.			
<b>8120</b>	<b>Advanced Studies in Embryology</b>	<b>G M</b>	<b>2</b>
Mammalian embryological development using descriptive & experimental studies in variety of vertebrate models to present current information on molecular mechanisms responsible for normal development & birth defect in humans. Anatomy 6600 recommended. Prereq: Grad or professional standing; or medical or dental residency; or advanced undergraduate, and permission of instructor. Repeatable to a maximum of 4 cr hrs.			
<b>8130</b>	<b>Advanced Studies in Neuroanatomy</b>	<b>G M</b>	<b>2</b>
The Advanced Neuroanatomy course is a two hour course that uses short vignettes and journal club learning approaches to the study of human neuroanatomy. Each class meeting will contain an advanced or applied concepts from Human Neuroanatomy (Anatomy 6800). Prereq: 6800 or equiv., and Grad standing; or permission of instructor.			
<b>8140</b>	<b>Advanced Regional Dissection</b>	<b>G</b>	<b>2 - 4</b>
In-depth dissection of one or more regions of the human body, supplemented with literature research. Prereq: 6900 or equiv, and permission of instructor. Repeatable to a maximum of 24 cr hrs or 6 completions.			
<b>8289</b>	<b>Anatomy Teaching Practicum</b>	<b>G M</b>	<b>1 - 4</b>
A teaching practicum involving direct participation in classroom teaching under the guidance of a faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>8999</b>	<b>Research in Anatomy</b>	<b>G</b>	<b>2 - 8</b>
Designed to enable the student to conduct an in depth research investigation in some anatomical field of choice. Prereq: Permission of instructor. Repeatable to a maximum of 40 cr hrs or 20 completions. This course is progress graded (S/U).			

## Animal Sciences

<b>1100</b>	<b>Exploring Animal Sciences</b>	<b>U</b>	<b>½</b>
Basic understanding of animal sciences, academic program policies and procedures, and opportunities for undergraduate professional development.			
<b>2000</b>	<b>Animal Handling</b>	<b>U</b>	<b>2</b>
General introduction to domestic animal behavior and hands-on experience handling food animal species.			
<b>2200.01</b>	<b>Introductory Animal Sciences</b>	<b>U</b>	<b>3</b>
A study of the basic principles of genetics, breeding, reproduction, nutrition, behavior, and biotechnology as it applies to the molecular, cellular, and physical underpinnings of domesticated animal form and function. The online course is not open to students with a declared AnimSci major. Prereq: Not open to students with credit for 2300H. GE nat sci bio course.			
<b>2200.02</b>	<b>Introductory Animal Sciences Laboratory</b>	<b>U</b>	<b>1</b>
Laboratory experience associated with basic principles of genetics, breeding, reproduction, nutrition, behavior, and biotechnology as it applies to the molecular, cellular, and physical underpinnings of domesticated animal form and function. Prereq or concur: 2200.01 or 2300H, or permission of instructor. GE nat sci bio course.			
<b>2200.03</b>	<b>Animal Systems</b>	<b>U</b>	<b>2</b>
Overview of the size and scope of the livestock and companion animal systems, the economic and social impact of the animals and their products, and the structure of the industries.			
<b>2221</b>	<b>Introduction to Equine Studies</b>	<b>U</b>	<b>3</b>
Introduces students to equine studies. Uses of the horse, their economic impact on society, and principles of equine behavior, anatomy, physiology, nutrition, reproduction, and health and disease are emphasized. Prereq: Not open to students with credit for 201.			
<b>2260</b>	<b>Data Analysis and Interpretation for Decision Making</b>	<b>U</b>	<b>3</b>
Introduces students to the use of statistics in data analysis and interpretation. Students develop skills in quantitative literacy and logical reasoning. Prereq: Math 1130, 1148, 1150, or 1151. Not open to students with credit for AEDecon 2205, ComLdr 3537, ENR 2000, HCS 2260, or Stat 1450. GE data any course.			

## 20 Animal Sciences

<b>2300H</b>	<b>Honors Introductory Animal Sciences</b>	<b>U</b>	<b>3</b>
A study of the basic principles of genetics, breeding, reproduction, nutrition, behavior, and biotechnology as it applies to the molecular, cellular, and physical underpinnings of domesticated animal form and function. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 2200.01. GE nat sci bio course.			
<b>2301</b>	<b>Equine Behavior and Training</b>	<b>U</b>	<b>3</b>
Introduces students to principles of equine behavior and training techniques and practical application of that knowledge to safely and effectively modify desirable and undesirable behavior of assigned horses. Must have medical insurance. Prereq: Permission of instructor. Not open to students with credit for 271.01. A maximum of 3 credits between 2301 and 2401 may count in the AnimSci major.			
<b>2367</b>	<b>Animals in Society</b>	<b>U</b>	<b>3</b>
Introduction to the historical, social, cultural, economic and legal frameworks within which current human-animal relationships have evolved. Prereq: English 1110 (110) or 111, or equiv. Not open to students with credit for 240. GE writing and comm: level 2 and soc sci indivs and groups course.			
<b>2400.01</b>	<b>Equine Studies in Europe</b>	<b>U</b>	<b>1</b>
First course in a two-course series (2400.01 & 3797.01) designed to give students an appreciation for how world history, government, geography, and infrastructure can impact the equine industry within a society. Prereq: 2200.01 (200), 2221 (201), or 2300H (200H), and permission of instructor. Repeatable to a maximum of 2 cr hrs.			
<b>2400.04</b>	<b>Scotland's Ruminants</b>	<b>U</b>	<b>1</b>
First course in a two-course series (2400.04 & 3797.04) designed to give students an appreciation for how world history, government, geography, and infrastructure can impact the small ruminant production and animal health & welfare within a society. Concur: 3797.04.			
<b>2400.05</b>	<b>Human and Animal Interactions</b>	<b>U</b>	<b>2</b>
Students will expand their understanding of the role that animals play in shaping society, culture, and economics within the US and the non-US destination identified in the 3797.02, 3797.03, or 3797.04. This course has 3 required Saturday field trips. Prereq: Not open to students with credit for 248.			
<b>2400.07</b>	<b>Global Dairy Industries</b>	<b>U</b>	<b>1</b>
An opportunity for students to study the culture; political, economic, and social framework; and dairy industry of another country. This course is offered in conjunction with AnimSci 3797.07 - Dairy Industry Outside the US. Concur: 3797.07. Not open to students with credit for 697.04.			
<b>2401</b>	<b>Advanced Equine Behavior and Training</b>	<b>U</b>	<b>3</b>
Utilizes principles of equine behavior and advanced training techniques to safely and effectively modify desirable and undesirable behavior of assigned horses. Prereq: Permission of instructor. Must have medical insurance. Maximum of 3 credits between 2301 and 2401 may count in the AnimSci major. Repeatable to a maximum of 6 cr hrs.			
<b>2500H</b>	<b>Freshman Research Seminar: Contemporary Animal Biology Research</b>	<b>U</b>	<b>2</b>
Exploration of prominent scientists and emerging issues in animal biology research. Only open to students with 60 cr hrs or fewer. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 299H.			
<b>2507</b>	<b>Challenges and Opportunities for the Dairy Industry</b>	<b>U</b>	<b>1</b>
Increase the understanding by students to the challenges and opportunities within the Ohio and US dairy industries. As the economic climate changes and the consumer demands shift, the dairy industry must respond. Prereq: 2200.01 (200) or 2300H (200H). Not open to students with credit for 347.			
<b>2700</b>	<b>Diverse Fields and Opportunities within Animal Sciences</b>	<b>U</b>	<b>1</b>
Basic understanding of the global trends in animal sciences and the diversity of career opportunities within the industry, in addition to opportunities for undergraduate professional development. Students should plan to complete the course within the first year of enrollment within the major. Prereq or concur: 1100 or MeatSci 1100.			
<b>3000</b>	<b>Puppy Love: Understanding Animal Emotions</b>	<b>U</b>	<b>3</b>
Overview of the science behind animal emotions in livestock and companion animals, including basic introduction to the neurological, physiological, and behavioral indicators of animal emotions.			
<b>3046</b>	<b>Poultry Biology</b>	<b>U</b>	<b>3</b>
This course will introduce students to the poultry industry in a manner that highlights distinctive biological characteristics of poultry species. Students will have a base of knowledge of poultry anatomy and physiology that prepares them for more advanced animal science classes that cover in-depth subjects related to biology of agricultural animals, including poultry. Prereq: 2200.01 or 2200.03.			
<b>3100</b>	<b>Animal Growth and Development</b>	<b>U</b>	<b>3</b>
An overview of growth and development on form and function of food animals and its impact on value. Prereq: 2200.01 or 2300H, and Biology 1113, and Soph standing or above; or permission of instructor.			

<b>3101</b>	<b>Equine Facilities, Marketing, and Management</b>	<b>U</b>	<b>3</b>
Aspects of equine business management, marketing and facility design. Prereq: 2200.01 (200), 2221 (201), or 2300H (200H). Not open to students with credit for 341.			
<b>3110</b>	<b>Introductory Meat Science</b>	<b>U</b>	<b>3</b>
Analysis of the principles of meat science as related to meat animal value factors, processing technology, and merchandising systems affecting the producer, processor, and consumer. Prereq: Biology 1101 or 1113. Not open to students with credit for MeatSci 3110. Cross-listed in MeatSci.			
<b>3130</b>	<b>Principles of Animal Nutrition</b>	<b>U</b>	<b>3</b>
A study of the nutrients, their roles and requirements, digestion and metabolism with an emphasis on domesticated animals maintained for human benefit. Prereq: 2200.01, 2300H, Biology 1113 or 1113H, and Soph standing or above; or permission of instructor.			
<b>3131</b>	<b>Equine Feeds and Feeding</b>	<b>U</b>	<b>3</b>
Focuses on the nutrient needs of the horse and the significance of supplements and feeds as they relate to the horse's nutrition and health. Prereq: 2200.01 (200), 2221 (201), or 2300H (200H). Not open to students with credit for 331.			
<b>3133</b>	<b>Principles of Feeds and Feeding</b>	<b>U</b>	<b>2</b>
A study of the chemical composition of feedstuffs and the application toward providing optimal nutrition to managed animals. Prereq: 3130.			
<b>3140</b>	<b>Principles of Animal Systems Physiology</b>	<b>U</b>	<b>3</b>
An introductory course that surveys organs/systems within the body and relates the functional physiology of those systems to animal production. Prereq: Biology 1101 (101), 1113 (113), or 1113H (115H). Not open to students with credit for 310. GE nat sci bio course.			
<b>3140E</b>	<b>Principles of Animal Systems Physiology</b>	<b>U</b>	<b>3</b>
An introductory course that surveys organs/systems within the body and relates the functional physiology of those systems to animal production. Prereq: Honors standing, and Biology 1101, 1113, or 1113H; or permission of instructor. Not open to students with credit for 3140 or 3140H. GE nat sci bio course.			
<b>3147</b>	<b>Milk Secretion</b>	<b>U</b>	<b>2</b>
Introduction to mammary gland anatomy, milk synthesis, and factors affecting mammary health. Prereq: 2200.01 or 2300H, and Biology 1113 or 1113H.			
<b>3150</b>	<b>Principles of Genetic Improvement</b>	<b>U</b>	<b>3</b>
Introduction to the methods available for bringing about genetic change in animals. Prereq: 2200.01 (200) and 2200.02, or 2300H (200H); and 2260 (260), HCS 2260 (260), Stat 1450 (145), AEDEcon 2005 (205), ComLdr 3537, or AEE 387. Not open to students with credit for 320.			
<b>3160</b>	<b>Reproductive Physiology</b>	<b>U</b>	<b>3</b>
Introduction to anatomy and physiology of reproductive systems of various species with a focus on agricultural species. 3140 (310) or 3140H (310H) is recommended. Prereq: 2200.01 (200) or 2300H (200H), and Soph standing or above. Not open to students with credit for 318.			
<b>3170</b>	<b>Animal Health I</b>	<b>U</b>	<b>2</b>
Provides students with an introduction to principles of animal health and emphasizes management practices that influence host-pathogen interactions. 3140 or 3140E is recommended. Prereq: 2200.01 or 2300H, and Soph standing or above.			
<b>3171</b>	<b>Equine Health &amp; Disease</b>	<b>U</b>	<b>2</b>
Introduction to infectious disease affecting horses with emphasis on management practices that influence host-pathogen interactions. Prereq: 2200.01 (200), 2221 (201), or 2300H (200H).			
<b>3191</b>	<b>Internship in Animal Sciences</b>	<b>U</b>	<b>2</b>
Supervised preplanned employment experience and/or on-site problem solving study program. Prereq: Permission of academic advisor. Prereq or concur: FAES 3191. This course is graded S/U. Cross-listed in MeatSci.			
<b>3200</b>	<b>Applied Animal Bioscience Laboratory</b>	<b>U</b>	<b>2</b>
Laboratory experience exploring the organs, tissues and cells associated with the physiological systems of domestic animals and the nutrients used to support these systems. Prereq: 3130; and 3140, 3140E, AnmlTec 3140T, or EEOB 2520; and 3160. Prereq or concur: 3170 or AnmlTec 3170T.			
<b>3270</b>	<b>Animal Health II</b>	<b>U</b>	<b>2</b>
Introduction to principles of immunology and emphasis on management practices that influence host immune responses. Prereq or concur: 3170.			
<b>3300</b>	<b>Livestock Selection and Evaluation</b>	<b>U</b>	<b>3</b>
Laboratory exercises employing current standards of animal excellence including carcass value for the selection and improvement of farm livestock. Prereq: 3100, or Jr standing or above, or permission of instructor. Not open to students with credit for 300.			

## Animal Sciences 21

<b>3301</b>	<b>Equine Selection and Evaluation</b>	<b>U</b>	<b>2</b>
Emphasis on the relationship of form to function by evaluating conformation and performance and orally defending that evaluation. Prereq: 2200.01 (200), 2221 (201), or 2300H (200H), or permission of instructor. Not open to students with credit for 301.			
<b>3306</b>	<b>Poultry Selection and Evaluation</b>	<b>U</b>	<b>2</b>
This course will provide students the opportunity to learn about the principles of poultry science; the evaluation and ranking of standard breeds of chickens; and the evaluation and grading of poultry meat and egg products. In addition, the course will cover practical and safe handling techniques of live poultry. Prereq: Soph standing or above, or permission of instructor.			
<b>3307</b>	<b>Dairy Cattle Selection and Evaluation</b>	<b>U</b>	<b>2</b>
Use of functional type traits in evaluation and selection of dairy cattle. Prereq: Soph standing or above, or permission of instructor. Not open to students with credit for 207.			
<b>3400</b>	<b>Management Intensive Grazing</b>	<b>U</b>	<b>2</b>
Application of scientific principles of plant growth, animal nutrition and behavior to manage grazing systems for profitable, sustainable livestock enterprises.			
<b>3488</b>	<b>Professional Development in Animal Sciences</b>	<b>U</b>	<b>1 - 2</b>
Participation in structured co-curricular programs leading to professional development (e.g. Academic Quadrathlon, Livestock Selection and Evaluation Teams, etc.). Prereq: CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>3500</b>	<b>Professional Networking in Animal Sciences</b>	<b>U</b>	<b>2</b>
Professional networking and exposure to the breadth of the animal industries in Ohio and the potential for career development.			
<b>3600</b>	<b>Global Food and Agriculture</b>	<b>U</b>	<b>3</b>
The integration of food, agriculture, environment, resources, technology, culture, and trade on a global scale. Prereq: Not open to students with credit for 360.			
<b>3600E</b>	<b>Global Food and Agriculture</b>	<b>U</b>	<b>3</b>
The integration of food, agriculture, environment, resources, technology, culture, and trade on a global scale. Prereq: Honors standing. Not open to students with credit for 360 or 360E.			
<b>3700</b>	<b>Animal Research Methods Laboratory</b>	<b>U</b>	<b>2</b>
Exploring research techniques associated with food animal tissues such as quantifying, separating and identifying proteins, fatty acids and carbohydrates. Prereq: 3140 (310), 3140H (310H), or MeatSci 3110 (AnimSci 355.01), or permission of instructor.			
<b>3797.01</b>	<b>Equine Studies in Europe</b>	<b>U</b>	<b>3</b>
The study abroad experience will allow the students to be surrounded with a different culture, geography, community/government infrastructure, and history to directly compare how those aspects shape and impact the equine industry in that society. Prereq: 2200.01, 2221, or 2300H. Prereq or concur: 2400.01. Repeatable to a maximum of 6 cr hrs.			
<b>3797.03</b>	<b>Human and Animal Interactions Study Abroad</b>	<b>U</b>	<b>3</b>
Experience the beliefs and views of the culture in destination countries on the use and involvements of animals as part of their daily lives. Prereq or concur: 2400.05. Repeatable to a maximum of 9 cr hrs.			
<b>3797.04</b>	<b>Scotland's Ruminants - Education Abroad</b>	<b>U</b>	<b>3</b>
Second course in a two-course series (2400.04 & 3797.04) designed to give students an appreciation for the heritage, production, health and well-being of Scotland's ruminant species and explore how world history, government, geography, and infrastructure can impact the management of animals within the Scottish society. Concur: 2400.04.			
<b>3797.07</b>	<b>Dairy Industry Outside the U.S.</b>	<b>U</b>	<b>3</b>
Increase the understanding of undergraduate students to the global nature of the dairy industry, comparing the demographics, cultural and economic forces, and natural resource availability on dairy farming and milk processing in a global setting. Prereq or concur: 2400.07.			
<b>4001</b>	<b>Equine Production and Management</b>	<b>U</b>	<b>4</b>
Application of scientific principles and best management practices in the areas of anatomy, physiology, genetics, reproduction, nutrition and health to the production of horses. Prereq: 3130 or 3131. Not open to students with credit for 541.			
<b>4002.01</b>	<b>Beef Cattle Production and Management</b>	<b>U</b>	<b>3</b>
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of beef cattle. Prereq: 3130, and 3140 or 3140E, and 3150. Prereq or concur: 3160, 3170, and 3200.			
<b>4002.02</b>	<b>Beef Cattle Production Lab</b>	<b>U</b>	<b>1</b>
Hands-on application of the science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of beef cattle. Concur: 4002.01.			

<b>4003.01</b>	<b>Swine Production</b>	<b>U</b>	<b>3</b>
Application of science and basic principles of nutrition, physiology, genetics, health, economics, meats, and housing in integrated management systems for modern swine production. Prereq: 3130 and 3140; or 3140E and 3150. Prereq or concur: 3160, 3170, and 3200.			
<b>4003.02</b>	<b>Swine Production Lab</b>	<b>U</b>	<b>1</b>
Hands-on application of scientific and basic principles of nutrition, genetics, physiology, health, economics, meat products and housing in integrated management systems for modern swine production. Concur: 4003.01.			
<b>4004.01</b>	<b>Small Ruminant and Pseudo Ruminant (Sheep, Goat, Llama, Alpaca, &amp; Deer) Production and Management</b>	<b>U</b>	<b>3</b>
Application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of small ruminants. Prereq: 3130, and 3140 or 3140E, and 3150. Prereq or concur: 3160, 3170, and 3200.			
<b>4004.02</b>	<b>Small Ruminant Production Lab</b>	<b>U</b>	<b>1</b>
Hands-on application of the science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of small ruminants. Concur: 4004.01.			
<b>4005</b>	<b>Companion Animal Biology and Behavior</b>	<b>U</b>	<b>4</b>
Anatomy, genetics, nutrition, physiology and behavior of dogs and cats. Human-animal companion relationships. Prereq: 3130 (330), and 3140 (310) or 3140H (310H), and 3150 (320). Prereq or concur: 3160 (318), 3170 (413), and 3200. Not open to students with credit for 545.			
<b>4006.01</b>	<b>Poultry and Avian Management</b>	<b>U</b>	<b>3</b>
Describes classes of poultry and game birds, incubation, housing, anatomy, diseases, genetics and nutrition. Prereq: 3130, and 3140 or 3140E, and 3150. Prereq or concur: 3160, 3170, and 3200.			
<b>4006.02</b>	<b>Poultry and Avian Management Lab</b>	<b>U</b>	<b>1</b>
Hands-on application of nutrition, genetics, physiology, health, economics, products and housing in integrated management systems for the raising of chickens for market and egg production. Concur: 4006.01.			
<b>4007</b>	<b>Dairy Herd Management</b>	<b>U</b>	<b>4</b>
Application of scientific principles to practical herd management, analyses of alternatives and decision making. Prereq: 2200.01, and 3130 (330) or 3147 (317). Not open to students with credit for 547.			
<b>4105</b>	<b>Domestication, Form, and Function of Dogs</b>	<b>U</b>	<b>3</b>
A study of the events that have shaped the domestic dog. Includes a focus on the role of domestication, selective breeding, and factors impacting growth and development on form and function of the domestic dog. Prereq: 3140, and Soph standing or above; or permission of instructor.			
<b>4189</b>	<b>Field Experience or Field Work</b>	<b>U</b>	<b>3</b>
Supervised career-related work experience where students are temporarily employed by an organization and put into practice the skills, techniques and knowledge that are important for success in the industry. Prereq: 3130 (330), and 3140 (310) or 3140H (310H), and 3150 (320), and permission of instructor. Prereq or concur: 3160 (318), 3170 (413), and 3200. Repeatable to a maximum of 6 cr hrs.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>0 - 3</b>
Special assignments and advanced research; problems assigned after consultation with the instructor in charge. Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Special topics area group studies finally proposed for a specific semester by an animal science faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>4400</b>	<b>Animal Welfare and Behavior in Livestock Industries</b>	<b>U</b>	<b>3</b>
The study of animal welfare and behavior and resulting influences on livestock production systems. Prereq: 3140 (310) or 3140H (310H), or permission of instructor.			
<b>4597</b>	<b>Contemporary Animal Use Issues</b>	<b>U</b>	<b>3</b>
The historical, biological, ethical, nutritional and economic issues of using animals to meet human needs. Prereq: Jr or Sr standing. Not open to students with credit for 597. GE cross-disciplinary seminar course.			
<b>4797</b>	<b>Study at a Foreign Institution</b>	<b>U</b>	<b>1 - 15</b>
Study at a foreign institution. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 15 completions.			

## 22 Animal Sciences

<b>4999</b>	<b>Research with Distinction</b>	<b>U</b>	<b>0 - 6</b>
Conducting and reporting research with distinction. Prereq: CPHR 3.0 overall, and GPA 3.0 or above in major, and permission of project supervisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Research with Distinction</b>	<b>U</b>	<b>0 - 6</b>
Conducting and reporting research with distinction. Prereq: Honors standing, FAES 1100H, CPHR 3.4 or above, major GPA 3.4 or above, and permission of honors project supervisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>5000</b>	<b>Human Dimension in Animal Sciences</b>	<b>U G</b>	<b>3</b>
Examines how humans have and continue to influence the field of Animal Sciences. Students will gain a perspective on both individual and societal actions and reactions to aspects of animal production for human consumption. Topics will include, but will not be limited to: attitudes, beliefs, values, and value orientations.			
<b>5031</b>	<b>Ruminant Nutrition</b>	<b>U G</b>	<b>3</b>
Principles of ruminant nutrition: nutrients, metabolism and physiology. Includes computer formulations and feeding strategies for nutritional management of ruminants. Prereq: 3130 (330), or Grad standing. Not open to students with credit for 630.01.			
<b>5032</b>	<b>Non-Ruminant Nutrition</b>	<b>U G</b>	<b>3</b>
Principles of nonruminant nutrition: nutrients, metabolism and physiology. Includes practical feeding strategies for nonruminant animals. Prereq: 3130 (330), or Grad standing. Not open to students with credit for 630.02.			
<b>5033</b>	<b>Feeding Management and Records Analysis for Dairy Cattle</b>	<b>U G</b>	<b>3</b>
Stimulates student awareness of unique nutrient metabolism systems and strategies that have evolved to meet nutrient requirements to support various animal production situations. Prereq: 3130 (330), or Grad standing, or permission of instructor. Not open to students with credit for 630.03.			
<b>5070</b>	<b>Nutritional Immunology in Animal Systems</b>	<b>U G</b>	<b>3</b>
Principles of the role of nutrients in modifying the immune responses of animals and nutrient contributions toward animal health and well-being. Prereq: 3130 (330) or HumnNtr 2310 (310), or Grad standing. Not open to students with credit for 638.			
<b>5090</b>	<b>Gut Microbiology</b>	<b>U G</b>	<b>2</b>
A study of the major microorganisms of the gastrointestinal tract of animals and humans, their microbial metabolism and functions, interactions with each other and with hosts, and impact on host nutrition and health. Prereq: Micrbio 4000.01 or 4000.02 or 4100, and Biochem 4511, and GPA 2.0 or above in Biochem and Micrbio coursework; or permission of instructor.			
<b>5100</b>	<b>Advanced Growth and Development</b>	<b>U G</b>	<b>3</b>
A molecular developmental approach to the study of tissue growth, structure, and function in animals and humans. Prereq: 9 cr hrs in 3000-level or above AnimSci course, and Jr standing or above, or Grad standing. Not open to students with credit for 400 or 618.			
<b>5131</b>	<b>Application of Nutritional Principles to Ruminant Production Systems</b>	<b>U G</b>	<b>3</b>
Principles of ruminant production, health, ruminant digestion, metabolism, physiology, nutrient requirements, behavior, growth and lactation in the production of meat and milk from ruminants. Prereq: 4002, 4004, or 4007; or Grad standing; or permission of instructor.			
<b>5310</b>	<b>Auditing Animal Production and Processing Facilities</b>	<b>U G</b>	<b>2</b>
Introduces multiple types of auditing tools currently used by the industry to evaluate best management practices and animal welfare in the production and processing of various food animal species. Prereq: 3110 or MeatSci 3110. Cross-listed in MeatSci.			
<b>5400.01</b>	<b>Southern African Animals: I</b>	<b>U G</b>	<b>2</b>
First in a two part series covering the physiology, behavior, and human interactions with various animals found in Southern Africa, establishing an appreciation of the daily struggles of animals and people in this geographic area.			
<b>5400.02</b>	<b>Southern African Animals: II</b>	<b>U G</b>	<b>2</b>
Second of a two-part series covering the physiology, behavior, and human interactions with various animals found in Southern Africa, establishing an appreciation of the daily struggles of animals and people in this geographic area.			
<b>5410</b>	<b>Food Animal Production and Processing Industry Tour</b>	<b>U G</b>	<b>2</b>
Includes travel to food animal production and processing facilities for students to gain first hand knowledge in commercial food animal production and processing. Prereq: 3110 or MeatSci 3110. Cross-listed in MeatSci.			
<b>5530</b>	<b>Comparative Animal Nutrient Metabolism</b>	<b>U G</b>	<b>3</b>
Principles of nutrient metabolism as influenced by anatomical evolution and diet selection. Includes comprehensive discussions of nutrient handling in domesticated, captive and wild animal populations. Prereq: 3130 (330) or HumnNtr 2310 (310), and Biochem 4511 (511).			

<b>5551</b>	<b>Equine Assisted Activities and Therapies</b>	<b>U G</b>	<b>2</b>
A variety of approaches, therapeutic settings and client populations will be addressed with an emphasis on equine behavior and body language. Students will gain experience in the development and practical application of an equine assisted therapy program.			
<b>5797.01</b>	<b>Welfare of Agricultural and Recreational Animals</b>	<b>U G</b>	<b>3</b>
This course is part of the long-term study abroad program in Australia. It investigates the role of animal welfare in production and recreational animals and how animal welfare issues will impact the future of global food animal agriculture. Prereq: 3130 (330), and 3140 (310) or 3140H (310H), and 3150 (320), and permission of instructor. Not open to students with credit for 697.01.			
<b>5797.02</b>	<b>Animal Production Systems in Diverse Environments in Australia</b>	<b>U G</b>	<b>3</b>
Part of the long-term study abroad program in Australia. It will investigate animal production systems including: comparing production practices, economic issues and environmental constraints between Australia and the United States. Prereq: 3130 (330), and 3140 (310) or 3140H (310H), and 3150 (320), and permission of instructor. Not open to students with credit for 697.02.			
<b>5797.03</b>	<b>History, Culture and Economies of Australia</b>	<b>U G</b>	<b>3</b>
Introduces students to key social, political and economic issues that have shaped Australia to its contemporary identity and to investigate issues of exploration, economic development, social and community standards and processes. Prereq: Permission of instructor.			
<b>5797.05</b>	<b>Exotic Animal Behavior and Welfare</b>	<b>U G</b>	<b>3</b>
Exposes students to behavior, welfare, and health conditions of food production and exotic animals found in South Africa. This is a short-term study abroad course that will include visits to a range of animal systems: intensive production, open-range, semi-contained, sanctuaries, and zoo settings. The class activities take place primarily in field settings. Prereq: 5400.01.			
<b>5810</b>	<b>Branded Meat Products</b>	<b>U G</b>	<b>4</b>
Integration of multiple factors influencing value-added product development including: raw material quality and procurement, processing, packaging, distribution, and complexity of market development and current consumer trends in niche marketing. Prereq: 3110, 355.01, or MeatSci 3110; and completion of a second writing course. Not open to students with credit for 555.03 or MeatSci 5810. Cross-listed in MeatSci.			
<b>6000</b>	<b>Introduction to Graduate Studies in Animal Sciences</b>	<b>G</b>	<b>1</b>
An introduction to the Animal Sciences discipline and the scholarly activities required to pursue a graduate studies in the field. Prereq: Grad standing.			
<b>6060</b>	<b>Advanced Reproductive Physiology</b>	<b>G</b>	<b>3</b>
Recent advances in research in mammalian reproduction. Prereq: 3160 (318), or Grad standing, or permission of instructor. Not open to students with credit for 610 or 710.			
<b>6100</b>	<b>Research Methods and Writing in Animal Sciences</b>	<b>G</b>	<b>1</b>
Emphasis on the literature of science, design of a problem, methods and techniques for investigation and scientific writing. Prereq: Grad standing.			
<b>6193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 6</b>
Special assignments and advanced research problems assigned. Repeatable to a maximum of 10 cr hrs or 6 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Special topics area group studies. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>7000</b>	<b>Applied Biometrics</b>	<b>G</b>	<b>4</b>
Study methods used in the quantification of biological processes and the integration of research results and knowledge into quantitative methods. Prereq: Stat 5301 or equiv, or permission of instructor.			
<b>7030</b>	<b>Advanced Topics in Ruminant Nutrition</b>	<b>G</b>	<b>3</b>
Advanced aspects of ruminant digestion, microbial fermentation, absorption, metabolism, physiology and the integration of these processes into rationing approaches will be emphasized, building on principles of ruminant nutrition from past courses. Prereq: 5031 (630.01) or equiv, or Biochem 4511 (511), or permission of instructor. Not open to students with credit for 730.			
<b>7040</b>	<b>Animal Physiology I</b>	<b>G</b>	<b>3</b>
This course will explore the physiology of neuronal, muscular, endocrine, & reproductive tissues at systemic, cellular, & molecular levels with a focus on domestic mammals. Human physiology will be presented at times to expand upon limited information available for animals. Prereq: Grad standing, or permission of instructor.			
<b>7100</b>	<b>Animal Growth and Development</b>	<b>G</b>	<b>3</b>
Addresses the advanced principles of animal growth and development as the food animal industries continue to emphasize more efficient growth rates and acceptable meat quality. Specific information will be focused on the structure and function of muscle, bone, and adipose tissues, and the interaction among nutrition, hormones, exercise, heredity and disease. Prereq: 3100, 3105, or permission of instructor.			

<b>7640</b>	<b>Food Carbohydrates and Proteins</b>	<b>G</b>	<b>3</b>
Chemical, physical, biological and functional properties of food carbohydrates and proteins and their interactions with other food components. Prereq: FdScTe 5600 (605) and Biochem 4511 (511), or permission of instructor. Not open to students with credit for FdScTe 822 or 823. Cross-listed in FdScTe.			
<b>7724</b>	<b>Contemporary Issues in Animal Welfare</b>	<b>G</b>	<b>1</b>
Give students the opportunity to explore current issues in animal welfare through reading, presentations and discussion. Prereq: 4400 or VMcoll 6565, or permission of instructor. Cross-listed in VetPrev.			
<b>7730</b>	<b>Endocrinology</b>	<b>G</b>	<b>4</b>
Functional principles of the major endocrine systems in vertebrates and preparation for research in this area. Prereq: Biochem 4511, or permission of instructor. Not open to students with credit for Kinesio 7730. Cross-listed in Kinesio.			
<b>7761</b>	<b>Macronutrient Metabolism</b>	<b>G</b>	<b>4</b>
In-depth treatment of digestion, absorption, transport, and utilization of dietary carbohydrates and fat for energy production and fat deposition in humans and other higher animals. Prereq: 3130 (330), HumnNtr 2310 (310), or Biochem 4511 (511). Not open to students with credit for 761, 762, HumnNtr 7761 (761 and 762), or FdScTe 7761 (761 and 762). Cross-listed in FdScTe and HumnNtr.			
<b>7762</b>	<b>Vitamin and Mineral Metabolism</b>	<b>G</b>	<b>4</b>
Biochemical functions, absorptions, transport, utilization, interrelationships and nutritional requirements of selective vitamins and minerals in higher vertebrates and humans. Prereq: Coursework in Biochemistry or Vertebrate Physiology. Not open to students with credit for FdScTe 7762 or HumnNtr 7762. Cross-listed in FdScTe or HumnNtr.			
<b>7789</b>	<b>Nutrition Research Ethics</b>	<b>G</b>	<b>1</b>
Exploring critical aspects in conducting research, including ethical considerations, authorship, conflicts of interests, and intellectual property rights. Prereq: Grad standing. Not open to students with credit for HumnNtr 7789. Cross-listed in HumnNtr.			
<b>7790</b>	<b>Animal Models and Mechanistic Research Design</b>	<b>G</b>	<b>1</b>
The course will provide fundamental principles in establishing effective research hypotheses, aims, and design strategies for mechanistic and applied research using animals and animal models. A focus on research protocols, outcomes, inferences, and reporting will be developed and reinforced through student evaluation of primary literature and student interactions. Prereq: 7789 or HumnNtr 7789. Not open to students with credit for HumnNtr 7790. Cross-listed in HumnNtr.			
<b>7899</b>	<b>Oral Research Communication</b>	<b>G</b>	<b>1</b>
Critical analysis of the scientific literature and demonstration of effective oral presentation skills tailored to the target audience, with use of information technologies as needed. Prereq: Grad standing. Not open to students with credit for FdScTe 7899 or HumnNtr 7899 (895). Cross-listed in FdScTe and HumnNtr.			
<b>7999</b>	<b>Thesis Research</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis purposes for students pursuing a MS degree. Prereq: MS Grad student standing in Animal Sciences, or permission of instructor. Repeatable. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 10</b>
Exploratory research and advanced assignments. Prereq: Grad standing, and permission of instructor. This course is graded S/U.			
<b>8780</b>	<b>Molecular Biology Techniques</b>	<b>G</b>	<b>3</b>
Demonstrates the applications of molecular biology by involving the students in a real time research project. Students will perform experiments using molecular biology techniques in the context of a muscle protein functionality study. Prereq: Grad standing, or permission of instructor.			
<b>8801</b>	<b>Macronutrients - Lipids and Energy Balance</b>	<b>G</b>	<b>3</b>
Discussion of lipids as storage molecules used for energy and metabolism modulation as well as how they influence energy balance conditions such as obesity, cachexia, weight loss and weight gain. Prereq: 7761 (761), FdScTe 7761 (761), or HumnNtr 7761 (761). Not open to students with credit for 830.01, FdScTe 8801 (830.01), or HumnNtr 8801 (830.01). Cross-listed in FdScTe and HumnNtr.			
<b>8802</b>	<b>Advanced Micronutrient Metabolism</b>	<b>G</b>	<b>3</b>
Comparative study of the regulation of micronutrient status and its influence on physiological and molecular events, including nuclear receptor activity and transcription. Prereq: 7762 (762), FdScTe 7762 (762), or HumnNtr 7762 (762). Not open to students with credit for 830.02, FdScTe 8802 (830.02), or HumnNtr 8802 (830.02). Cross-listed in FdScTe and HumnNtr.			
<b>8833</b>	<b>Diet, Nutrition and Cancer</b>	<b>G</b>	<b>3</b>
Epidemiological, clinical and basic perspective of how diet and nutrition practices predict for cancer risk. Prereq: 7761 (761), FoodSci 7761 (761), or HumnNtr 7761 (761). Not open to students with credit for 830.12, HumnNtr 8833 (830.12), or FdScTe 8833 (830.12). Cross-listed in FdScTe and HumnNtr.			

<b>8834</b>	<b>Comprehensive Approach to Food Safety</b>	<b>G</b>	<b>2</b>
A comprehensive overview of food safety challenges and solutions as experienced through the food chain from farm to consumers. Demonstration of food safety system from cellular aspects through public policy. Prereq: Micrbio 509 or equiv. Not open to students with credit for 830.10, FdScTe 8834 (830.10), or HumnNtr 8834 (830.10). Cross-listed in FdScTe and HumnNtr.			
<b>8835</b>	<b>Grantsmanship</b>	<b>G</b>	<b>1</b>
Capstone course for the OSUN PhD program will train students on grantsmanship skills. Prereq: Grad standing. Not open to students with credit for FdScTe 8835 or HumnNtr 8835. Cross-listed in FdScTe and HumnNtr.			
<b>8836</b>	<b>Advanced Nutritional Genomics</b>	<b>G</b>	<b>3</b>
The primary goal of the course is to stimulate critical thinking and discussion among graduate students about current research findings in the areas of genomics, proteomics and metabolomics as they apply to studies in the nutritional sciences. Prereq: 7761 and 7762; or HumnNtr 7761 and 7762. Cross-listed in HumnNtr.			
<b>8880</b>	<b>Interdisciplinary Seminar</b>	<b>G</b>	<b>1</b>
Discussions of current animal science research. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
<b>8881</b>	<b>General Seminar</b>	<b>G</b>	<b>1</b>
Discussions of current animal science research. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.			
<b>8882</b>	<b>Nutrition Seminar</b>	<b>G</b>	<b>1</b>
Discussions of current nutrition research. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is progress graded (S/U).			
<b>8883</b>	<b>Physiology Seminar</b>	<b>G</b>	<b>1</b>
Discussion of current animal physiology research. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
<b>8885</b>	<b>Animal Products Seminar</b>	<b>G</b>	<b>1</b>
Discussions of current animal production and animal products research. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
<b>8888</b>	<b>OSUN Research Seminar</b>	<b>G</b>	<b>1</b>
Recent advances in nutrition science are presented by locally, nationally and internationally recognized scientists. Prereq: Grad standing. Not open to students with credit for FdScTe 8888 or HumnNtr 8888. Repeatable to a maximum of 5 cr hrs. This course is graded S/U. Cross-listed in FdScTe and HumnNtr.			
<b>8997</b>	<b>Graduate Writing Experience in Animal Sciences: Non-Thesis</b>	<b>G</b>	<b>3</b>
Writing for non-thesis MS students in Animal Sciences. Prereq: Grad standing, and permission of instructor. Only available to students obtaining a non-thesis MAS in Animal Sciences. This course is graded S/U.			
<b>8998</b>	<b>Pre-Candidacy Dissertation Research</b>	<b>G</b>	<b>1 - 15</b>
Research for dissertation purposes for students having yet to complete the candidacy exam. Prereq: PhD Grad student standing in Animal Sciences prior to completion of candidacy exam, or permission of instructor. Repeatable. This course is graded S/U.			
<b>8999</b>	<b>Dissertation Research</b>	<b>G</b>	<b>1 - 15</b>
Research for dissertation purposes for students having completed the candidacy exam. Prereq: PhD Grad student standing in Animal Sciences and completion of candidacy exam, or permission of instructor. Repeatable. This course is graded S/U.			

## Animal Sciences Technology

<b>1201.01T</b>	<b>Exploring Equine Careers and Industry</b>	<b>U</b>	<b>½</b>
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			
<b>1201.02T</b>	<b>Exploring Livestock Careers and Industry</b>	<b>U</b>	<b>½</b>
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			
<b>1201.07T</b>	<b>Exploring Dairy Careers and Industry</b>	<b>U</b>	<b>½</b>
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			
<b>1201.08T</b>	<b>Exploring Animal Health Careers</b>	<b>U</b>	<b>½</b>
Provides an overview of the unique requirements of the Animal Health specialization, promotes student success in college, and explores personal and career interests, needs, goals, in the field of Animal Health.			

## 24 Animal Sciences Technology

<b>2189.01T Horse Practicum</b>	<b>U</b>	<b>1</b>
Practical experience in supervised equine laboratories with emphasis on developing and improving competencies related to classroom objectives and horse industry standards. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.		
<b>2189.07T Practicum in Dairy Cattle Production</b>	<b>U</b>	<b>1 - 2</b>
Supervised practical experience in dairy cattle production at the Ohio State ATI dairy farm with emphasis on developing and improving dairy cattle production skills and competencies. A grade of C or better required to meet graduation requirements. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions.		
<b>2190.01T Leadership in Equine Operations Management</b>	<b>U</b>	<b>1</b>
Practical, supervised leadership experience in equine facility management with emphasis on herd and facility operations and personnel supervision. A grade of C or better required to meet graduation requirements. Prerequisite: Completion of tractor/mobile equipment safety certification process required. Prereq: 2189.01T (289.04T) with a grade of C or above; 2201T (211T). Repeatable to a maximum of 2 cr hrs.		
<b>2193T Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.		
<b>2194T Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.		
<b>2200.02T Introduction to Animal Sciences Laboratory</b>	<b>U</b>	<b>1</b>
Laboratory application of basic animal husbandry practices in the various livestock and related industries. Prereq or concur: 2200T or AnimSci 2200.01. This course is available for EM credit.		
<b>2200T Introduction to Animal Sciences</b>	<b>U</b>	<b>3</b>
Introduction to animal agriculture; its purpose, terms, products, problems, and basic management principles. Prereq: Not open to students with credit for 210T or AnimSci 200. This course is available for EM credit.		
<b>2201T Introduction to Horse Science</b>	<b>U</b>	<b>3</b>
Fundamental survey of the development of domestic horses and breeds, terminology, behavior, uses, conformation, management and safe horse handling. Prereq: Not open to students with credit for 211T. This course is available for EM credit.		
<b>2202T Introduction to Beef and Small Ruminant Production</b>	<b>U</b>	<b>3</b>
Overview of beef cattle, sheep, goat, and other small ruminant species industries with regard to production and marketing; focus on ruminant livestock needs and the opportunities involved in their production. Prereq: Not open to students with credit for 222.01T. This course is available for EM credit.		
<b>2510.02T Food Animal Resource Management I - Beef</b>	<b>U</b>	<b>1</b>
Supervised practical experience in beef production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving beef production and management skills and competency. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.		
<b>2510.03T Food Animal Resource Management I - Swine</b>	<b>U</b>	<b>1</b>
Supervised practical experience in swine production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving swine production and management skills and competency. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.		
<b>2510.04T Food Animal Resource Management I - Small Ruminants</b>	<b>U</b>	<b>1</b>
Supervised practical experience in small ruminant production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving small ruminant production and management skills and competency. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.		
<b>2582.02T Food Animal Resource Management II - Beef</b>	<b>U</b>	<b>1</b>
Supervised practical experience in beef production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving leadership characteristics, beef production and management skills and competency. A grade of C or better required to meet graduation requirements. Prereq: 2510.02T. Repeatable to a maximum of 4 cr hrs.		
<b>2582.03T Food Animal Resource Management II - Swine</b>	<b>U</b>	<b>1</b>
Supervised practical experience in swine production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving leadership characteristics, swine production and management skills and competency. A grade of C or better required to meet graduation requirements. Prereq: 2510.03T. Repeatable to a maximum of 4 cr hrs.		

<b>2582.04T Food Animal Resource Management II - Small Ruminants</b>	<b>U</b>	<b>1</b>
Supervised practical experience in small ruminant production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving leadership characteristics, small ruminant production and management skills and competency. A grade of C or better required to meet graduation requirements. Prereq: 2510.04T. Repeatable to a maximum of 4 cr hrs.		
<b>2603T Swine Production and Management I</b>	<b>U</b>	<b>3</b>
A study of the basic principles of production and management for contemporary commercial swine production enterprises. 1 to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees. Prereq: Not open to students with credit for 222.02T. This course is available for EM credit.		
<b>2707T Dairy Cattle Presentation</b>	<b>U</b>	<b>1</b>
Principles and skills practiced in fitting, presenting, and merchandising dairy cattle. Course offered in even numbered years. Field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees. Prereq: Not open to students with credit for 206T. This course is available for EM credit.		
<b>2787T Applied Dairy Herd Practices and Management</b>	<b>U</b>	<b>1</b>
Experience in applying, directing, and evaluating dairy herd management procedures and practices at the Ohio State ATI dairy farm. A grade of C or better required to meet graduation requirements. Completion of the Equipment Training and Certification process and a driver background check required. Prereq: Soph standing; permission of instructor. Repeatable to a maximum of 3 cr hrs.		
<b>2797T Dairy Industry Seminar and Experience</b>	<b>U</b>	<b>1</b>
Current trends, issues, technology, and developments in the dairy industry; emphasis on developing lifelong learning skills through evaluation of science/trade journals, participation in professional meetings, and visits to innovative businesses. 1 to 3 day field trips, including weekends, may be required. Students pay field trip costs of lodging, meals, etc. above Ohio State tuition and fees. Prereq: Permission of instructor. Prereq or concur: English 1110.01 or 1110.03. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is graded S/U.		
<b>2800T Basic Horsemanship</b>	<b>U</b>	<b>2</b>
Study of equine behavior, applied safe horse handling techniques, and an introduction into basic training and handling methodologies. Prereq or concur: 2201T. Not open to students with credit for 2801T or 2811T.		
<b>2801T Horsemanship and Equitation</b>	<b>U</b>	<b>3</b>
Intermediate course in equitation with emphasis on continued development of balanced seat riding skills that incorporate natural horsemanship concepts into mounted work. Students should have riding proficiency at walk, trot, and canter. Prereq: Permission of instructor. Concur: 2189.01T or 2190.01T. Not open to students with credit for 213T. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.		
<b>2811T Schooling and Training the Riding Horse</b>	<b>U</b>	<b>3</b>
Applied techniques of schooling and training riding horses with emphasis on producing supple, willing and knowledgeable mounts. Prereq: 2201T (211T), 2801T (267T), permission of instructor. Concur: 2189.01T or 2190.01T. Not open to students with credit for 268.01T.		
<b>3101.01T Equine Marketing</b>	<b>U</b>	<b>1</b>
Students will gain experience in sale prepping horses and develop an understanding of equine sales industry practices. Students will develop promotional materials including ads and videos. Prereq: 2201T and 2189.01T.		
<b>3101.02T Equine Facility Management</b>	<b>U</b>	<b>3</b>
This course explores equine facility design, management, and business planning. Students will locate and use resources to develop a business plan and manage an event. The event is typically on a Saturday. Prereq: 2201T and 2189.01T. This course is available for EM credit.		
<b>3130T Principles of Animal Nutrition</b>	<b>U</b>	<b>2</b>
A study of the nutrients and the basic principles involved in the feeding of domestic animals, including the characteristics/composition of feedstuffs and factors that affect feed utilization. Recommended prereq: 2200T or 3140T; GenBiol 1200T (120T) or Biology 1113 (113). Prereq: Not open to students with credit for 214T or 240T. This course is available for EM credit.		
<b>3131T Equine Feeding and Nutrition</b>	<b>U</b>	<b>3</b>
A study of the nutritional needs of equids and of the principles and practices involved in providing balanced rations to different nutritional classes of equids. Prereq: 2201T or AnimSci 2200.01; GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.		
<b>3132T Ruminant Feeds and Feeding</b>	<b>U</b>	<b>3</b>
Principles of beef cattle and small ruminant nutrient requirements and feeding management with emphasis on the critical evaluation and formulation of rations in current management situations. Prereq: 2202T or AnimSci 2200.01; GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.		

## Animal Sciences Technology 25

**3133T Practical Swine Feeding** **U 3**

A study of the basic nutritional requirements and feeding management of swine, with an emphasis on evaluation and formulation of common feedstuffs and ration balancing.  
Prereq: 2603T or AnimSci 2200.01; GenMath 1040T or Math 1075 or Math Placement Level R or higher. This course is available for EM credit.

**3137T Dairy Cattle Feeding Management** **U 3**

Principles of dairy cattle feeding management with emphasis on the critical evaluation and formulation of rations in current management situations.  
Prereq: GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.

**3140T Animal Anatomy and Physiology** **U 4**

This subject will introduce the principles of animal body structure (anatomy) and function (physiology) as relevant for students of animal sciences and technology. This includes an introduction to anatomical nomenclature, cells and tissues and body systems.  
Prereq or concur: GenBiol 1200T or Biology 1113 or 1114; or permission of instructor. This course is available for EM credit.

**3150T Livestock Genetic Improvement** **U 3**

Principles of inheritance and the genetic improvement of livestock through cellular, qualitative, and population genetics; emphasizing breeding values, selection, and mating systems.  
Prereq: GenBiol 1200T or Biology 1113; GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

**3151T Horse Breeding and Selection** **U 3**

Principles of equine breeding management with emphasis on applied equine reproductive physiology, breeding methods, breeding stock management and basic genetics and selection. Recommended prereq: 3140T (221T) or GenBiol 1200T (120T).  
Prereq: 2201T (211T). Not open to students with credit for 266T. This course is available for EM credit.

**3157T Dairy Cattle Genetic Improvement** **U 3**

Principles of inheritance and the genetic improvement of dairy cattle through cellular, qualitative, and population genetics; emphasizing breeding values, selection, and mating systems.  
Prereq: GenBiol 1200T or Biology 1113; GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

**3161T Applied Equine Reproductive Management** **U 2**

Advanced course in equine reproductive management with emphasis on understanding and improving equine infertility; applications of current research; and development of technical skills.  
Prereq: 2201T (211T). Prereq or concur: 3151T (266T). Concur: 2189.01T or 2190.01T. Not open to students with credit for 269T.

**3167T Dairy Cattle Milking and Reproductive Management** **U 4**

A study of recommended dairy cattle milking and reproductive management practices, based on the anatomy and physiology of the systems.  
Prereq: Not open to students with credit for 201T and 203T. This course is available for EM credit.

**3170T Principles of Livestock Health** **U 3**

A basic introduction to the relationship between animal health and performance. Topics include: immunology, sanitation, disease etiology, and disease prevention, symptoms, and treatment.  
Prereq: 2202T or 2603T or AnimSci 2200.01. This course is available for EM credit.

**3171T Horse Health and Disease** **U 3**

Study of equine disease, lameness, and emergency first aid with emphasis on preventative health care and the manager's role with the veterinary professional.  
Prereq: 2201T or AnimSci 2200.01. This course is available for EM credit.

**3177T Dairy Cattle Health Management** **U 4**

A study of immunology and dairy cattle health management, including disease prevention, identification, and treatment of common diseases influencing the performance of dairy cattle.  
Prereq: Not open to students with credit for 201T, 203T, and 252T. This course is available for EM credit.

**3191.01T Equine Industry Internship Experience** **U 1 - 3**

Employment in the equine industry structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty; comprehensive report required. A grade of C or better required to meet graduation requirements.  
Prereq: 2189.01T (289.04T), 2201T (211T), CPHR 2.0 or above, Soph standing, and permission of instructor. Not open to students with credit for 290.04T. Repeatable to a maximum of 4 or hrs or 3 completions.

**3191.02T Beef Industry Internship** **U 2 - 3**

Employment in the beef industry structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty; comprehensive report required. A grade of C or better is required to meet graduation requirements.  
Prereq: 2202T, 2510.02T; CPHR 2.0 or above; permission of instructor. Repeatable to a maximum of 6 or hrs or 2 completions.

**3191.03T Swine Industry Internship** **U 2 - 3**

Employment in swine industry structured to provide varied occupational experiences; supervised by an industry employer & coordinated by faculty; written comprehensive report required. A grade of C or better is required to meet graduation requirements.  
Prereq: 2603T, 2510.03T; CPHR 2.0 or above; permission of instructor. Not open to students with credit for 290.02T. Repeatable to a maximum of 6 or hrs or 3 completions.

**3191.04T Small Ruminant Industry Internship** **U 2 - 3**

Employment in a small ruminant industry structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty; comprehensive report required. A grade of C or better required to meet graduation requirements.  
Prereq: 2202T, 2510.04T; CPHR 2.0 or above; permission of instructor. Repeatable to a maximum of 6 or hrs or 2 completions.

**3191.07T Dairy Industry Internship** **U 2 - 3**

Employment in the dairy industry structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty; comprehensive report required. A grade of C or better is required to meet graduation requirements.  
Prereq: 3167T (201T and 203T), 3207T (202T), 3177T (252T); CPHR 2.0 or above; permission of instructor. Repeatable to a maximum of 6 or hrs or 3 completions.

**3200T Livestock Selection and Evaluation** **U 2**

Principles of live animal selection and carcass evaluation of livestock.  
Prereq: 2202T or 2603T or 3140T or AnimSci 2200.01.

**3201T Horse Judging and Evaluation** **U 2**

Comparative evaluation of horse conformation by breed, assessment of performance in a variety of performance disciplines; development of tools for assessing and placing show horse classes.  
Prereq: Not open to students with credit for 212T. This course is available for EM credit.

**3207T Dairy Cattle Evaluation and Herd Records** **U 2**

Comparative evaluation of dairy cattle conformation and introduction to herd performance records; emphasis on breed characteristics, functional type, lifetime profitability, and record data collection, analysis, and use.  
Prereq: Not open to students with credit for 201T and 202T. This course is available for EM credit.

**3402T Beef Production and Management** **U 4**

The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of beef cattle in breeding and feeding production programs. 1 to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees. Recommended prerequisites: 2582.02T, 3130T, 3132T, 3140T, 3150T, and 3170T.  
Prereq: 2202T and 2510.02T.

**3403T Swine Production and Management II** **U 4**

An advanced study of the principles of managing a commercial swine enterprise. Coordination of production programs, evaluating economic performance, and a survey of contemporary swine housing and equipment options. 1 to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition & fees.  
Prereq: 2603T, 3140T, 3170T. Prereq or concur: 3132T, 3150T. Not open to students with credit for 2613T. This course is available for EM credit.

**3404T Small Ruminant Production and Management** **U 4**

The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of sheep, goats, and other small ruminants. One to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees. Recommended prerequisites: 2582.04T, 3130T, 3132T, 3140T, 3150T, 3170T.  
Prereq: 2202T and 2510.04T.

**3407T Dairy Cattle Facilities, Environment, and Equipment** **U 3**

Design and management of dairy cattle facilities, environment, and associated equipment; emphasizing milking equipment and parlors, animal housing, environmental control, waste management, feeding systems, and utilities. 1 to 3 day field trips, including weekends, may be required. Students pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition & fees.  
Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. Prereq or concur: 3167T. This course is available for EM credit.

**3800T Principles of Farm Business Management** **U 4**

A study of economic and management principles involved in planning, organizing, operating, and administering a farm business; emphasis placed on developing a business plan and problem solving.  
Prereq: AEDEcon 2105 (BusTec 101T or 102T). Prereq or concur: BusTec 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for BusTec 240T. This course is available for EM credit. Cross-listed in CrpSoil.

**3887T Integrated Dairy Farm Business Management** **U 4**

A study of dairy farm business management combining business, financial, and animal management principles, practices, and strategies; emphasis placed on developing a business plan and problem solving.  
Prereq: AEDEcon 2001 or BusTec 1151T; Soph standing; minimum of 10 or hrs in AnmITec. This course is available for EM credit.

## 26 Anthropology

### Anthropology

**1100 Introduction to Anthropology** U 3

Introductory exploration of what it means to be human. Course highlights the anthropological sub disciplines of archaeology, biological anthropology, cultural anthropology, and linguistic anthropology.

GE cultures and ideas and soc sci orgs and politics and diversity global studies course.

**2194 Group Studies** U 1 - 3

Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered.  
Repeatable.

**2200 Introduction to Physical Anthropology** U 4

A scientific examination of humans as a biological and cultural organism based on primate evolution from living and fossil evidence; evolutionary theory and population adaptability. This course includes laboratory activities.

Prereq: Biology 1101 (101) or equiv. Not open to students with credit for 200. GE nat sci bio course.

**2200H Introduction to Physical Anthropology** U 4

A scientific examination of humans as a biological and cultural organism based on primate evolution from living and fossil evidence; evolutionary theory and population adaptability. This course includes laboratory activities.

Prereq: Honors standing, and Biology 1101 (101) or equiv; or Honors standing, and permission of department or instructor; or Biology 1101 (101) or equiv, and permission of department of instructor. Not open to students with credit for 2200 (200) or 200H. GE nat sci bio course.

**2201 Introduction to Archaeology** U 3

World prehistory from the origin of human culture through the development of civilization illustrated by selected examples; archaeological field method; concepts of analysis and interpretation.

Prereq: Not open to students with credit for 2201H. GE soc sci indivs and groups and diversity global studies course.

**2201H Introduction to Archaeology** U 3

World prehistory from the origin of human culture through the development of civilization illustrated by selected examples; archaeological field method; concepts of analysis and interpretation.

Prereq: Honors standing, or permission of department or instructor. Not open to students with credit for 2201 (201) or 201H. GE soc sci indivs and groups and diversity global studies course.

**2202 An Introduction to Cultural Anthropology** U 3

Introduction to anthropological perspectives on cross-cultural variation in human behavior and societies.

Prereq: Not open to students with credit for 2202H. GE soc sci indivs and groups and diversity global studies course.

**2202H An Introduction to Cultural Anthropology** U 3

Introduction to anthropological perspectives on cross-cultural variation in human behavior and societies.

Prereq: Honors standing, or permission of instructor or department. Not open to students with credit for 2202. GE soc sci indivs and groups and diversity global studies course.

**2241 The Middle East Close-Up: People, Cultures, Societies** U 3

Introduction to the culture of the Middle East as lived in its villages, towns, and cities.

Prereq: Not open to students with credit for 241 or NELC 2241 (241). GE cultures and ideas and diversity global studies course. Cross-listed in NELC.

**3005 Careers with Anthropology** U 3

This course provides an overview of various career paths for students with degrees in anthropology. It will help students from all sub-fields of anthropology develop professional skills in preparation for life after graduation. Specifically, it focuses on the ways in which they can apply anthropological concepts, research methodologies, and analytical skills in a wide range of careers.

Repeatable to a maximum of 6 cr hrs.

**3191 Internship in Anthropology** U 1 - 6

An opportunity for work experience and on-the-job learning in anthropology-related employment.

Prereq: 2.5 CPHR or above, and Soph, Jr, or Sr standing, and enrollment in Anthropology major. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

**3211 Introduction to Forensic Science** U 3

This team-taught interdisciplinary course will give students an introduction to the major concepts, issues and techniques used in forensic science. It is designed to expose students to different disciplines and career paths within forensic science.

Prereq: Not open to students with credit for ArtsSci 211.

**3300 Human Origins** U 3

The search for human origins through a reconstruction of the human and non-human primate fossil records of the last 60 million years; emphasis on human skeletal, behavioral, and social patterns.

Prereq: 2200 (200), or permission of instructor. Not open to students with credit for 300.

**3301 Modern Human Physical Variation** U 3

Survey of modern human biological diversity; examination of the underlying evolutionary and adaptive mechanisms responsible; exploration of the interplay between biology and behavior in adaptation.

Prereq: 2200 (200), or permission of instructor. Not open to students with credit for 301.

**3302 Introduction to Medical Anthropology** U 3

Relationship of anthropology to the art and science of medicine.

Prereq: 2200 and 2202, or permission of instructor.

**3304 The Living Primates** U 3

Survey of the behavior, morphology and conservation of living primates; particular emphasis given to field studies and the position of humans within the Order Primates.

Prereq: Not open to students with credit for 304. GE nat sci bio course.

**3305 Introduction to Forensic Anthropology** U 3

An introduction to the field of forensic anthropology in which students will be introduced to basic methods used to analyze unidentified human skeletal remains.

Prereq: Not open to students with credit for 305.

**3334 Zombies: The Anthropology of the Undead** U 3

Students will understand how culture and social organization help us define the living, the dead and the undead in the contemporary and archaeological record, and how we create social categories that organize our world and our place.

**3340 The Anthropology of Mental Health** U 3

Provides an introduction to global mental health through the lens of medical anthropology.

Students will gain a holistic understanding of prescient concerns in global mental health and the ways in which anthropology can contribute an understanding to the experience, diagnosis, treatment, and management of mental health issues by diverse populations.

GE diversity global studies course.

**3350 Prehistoric Indians of the Ohio Valley** U 3

The archaeology and cultural history of the Ohio Valley from the first human settlement to European colonization, emphasizing the Adena, Hopewell, and Ft Ancient traditions.

Prereq: 2201 (201), or permission of instructor. Not open to students with credit for 350.

**3401 Fundamentals of Archaeology** U 3

Introduction to basic archaeological theory and practice including fundamental field and laboratory, principles of survey, excavation, chronological analysis, typology, and palaeoethnography.

Prereq: 2201 (201), or permission of instructor. Not open to students with credit for 401.

**3409 Primate Evolution** U 3

Examination of the origin, radiation, and (in some cases) extinction of each primate clade including prosimians, New World monkeys, Old World monkeys, apes, and humans.

Prereq: Not open to students with credit for 409.

**3411 Human Ecological Adaptations** U 3

A study of the interactive relationships between humans and their environments, past and present, with a focus on human biology. EEOB 400 recommended.

Prereq: 2200 (200), or permission of instructor. Not open to students with credit for 411.

**3416 Latin American Peoples and Cultures** U 3

Latin American peoples and cultures.

Prereq: Not open to students with credit for 416.

**3418 Regional Survey of the Anthropology of Africa** U 3

Overview of anthropological studies of traditional African societies, with themes of European colonialism, kinship, social organization, economics, and politics.

Prereq: Not open to students with credit for 421.05.

**3419 Latin American Cultures and Migration in Global Perspective** U 3

An intensive ethnographic investigation of Latin American and Caribbean migration (Mexico, Ecuador, The Dominican Republic) including the history of migration; contemporary movement; and transnationalism.

GE soc sci orgs and politics course.

**3420 Indians of North America** U 3

Development of culture change in North American Indians.

Prereq: Not open to students with credit for 421.08. GE soc sci indivs and groups course.

**3434 Archaeology of the Holy Land** U 3

Challenges students to evaluate the cultural phenomena that are Bible and Qur'an in their historical context by studying a broad range of archaeological cultures in the periods during which the Bible and Qur'an came to be written texts. The course provides an introduction to the archaeology of periods and cultures 3500 BCE-700 CE in the Holy Land and its neighbors.

GE cultures and ideas course.

**3451 Archaeology of the Ancient Near East** U 3

Archaeology of the Levant, Mesopotamia and Egypt from human origins through the age of pyramids and ziggurats.

Prereq: Not open to students with credit for 451.

## Anthropology 27

<b>3452</b>	<b>Archaeology of the Pacific Islands</b>	<b>U</b>	<b>3</b>
Introduces the prehistory of the Pacific Islands from an archaeological perspective. It emphasizes voyaging, colonization, and the emergence of cultural complexity. Prereq: Not open to students with credit for 452.			
<b>3500</b>	<b>Primate Sexuality</b>	<b>U</b>	<b>3</b>
An evolutionary approach to the diversity of mating systems, morphologies, processes, and behaviors among prosimians, monkeys, apes, and humans. Prereq: 2200 (200). Not open to students with credit for 500.			
<b>3504</b>	<b>Introduction to Anatomy</b>	<b>U</b>	<b>3 - 4</b>
Introduction to Anatomy. Prereq: Not open to students with credit for 504.			
<b>3554</b>	<b>Archaeology of North America</b>	<b>U</b>	<b>3</b>
Detailed survey of native American prehistory: survey of the archaeology and cultural history of North America. Prereq: 2201 (201). Not open to students with credit for 553.02.			
<b>3555</b>	<b>New World Prehistory: Ancient Maya Civilization</b>	<b>U</b>	<b>3</b>
Detailed survey of native American prehistory: recent archeological and epigraphic discoveries and examines the ancient Maya civilization of Mesoamerica. Prereq: 2201 (201). Not open to students with credit for 553.04.			
<b>3597.01</b>	<b>Crisis! An Anthropological Perspective of Global Issues</b>	<b>U</b>	<b>3</b>
Analysis of cultural conflict in developing nations resulting from rapid and extensive technological and social change. Prereq: Not open to students with credit for 4597.01 or 597.01. GE soc sci indivs and groups and diversity global studies and cross-disciplinary seminar course.			
<b>3597.02</b>	<b>Women, Culture, and Development</b>	<b>U</b>	<b>3</b>
An analysis of the dramatic changes occurring in women's lives in response to development and modernization; developing and developed countries contrasted. Prereq: Not open to students with credit for 4597.02 or 597.02. GE soc sci indivs and groups and diversity global studies and cross-disciplinary seminar course.			
<b>3604</b>	<b>Intro to the Methods of Archaeological Science</b>	<b>U</b>	<b>3</b>
Introduces students to the myriad of interdisciplinary techniques that allow us to understand the human condition. Reviewed methods and case studies include ancient DNA analysis, stable and radiogenic isotopes, zooarchaeology, paleoethnobotany, material science, remote sensing, etc. This course is taught at an introductory level for non-science majors. Anthropol 2201 is suggested.			
<b>3623</b>	<b>Environmental Anthropology</b>	<b>U</b>	<b>3</b>
Theory and ethnographic examples of human-environment interactions, focusing on the role of culture and behavior in environmental adaptation. Prereq: 2202 (202) or equiv, or permission of instructor. Not open to students with credit for 5623 or 620.05.			
<b>4525</b>	<b>History of Anthropological Theory</b>	<b>U</b>	<b>3</b>
Major theoretical viewpoints in anthropology seen in their historical context. Prereq: 2202 (202), or permission of instructor. Not open to students with credit for 525 or 3525.			
<b>4597.03H</b>	<b>The Prehistory of Environment and Climate</b>	<b>U</b>	<b>3</b>
History of modern biotic communities, biological evidence of climatic change during the late glacial and Holocene, and exploration of the responses of terrestrial ecosystems to climatic functions. Prereq: Honors standing, and Jr or Sr standing. Not open to students with credit for 597.03. GE soc sci human, nat, and econ resources; diversity global studies; cross-disciplinary seminar course.			
<b>4998</b>	<b>Undergraduate Research in Anthropology</b>	<b>U</b>	<b>1 - 6</b>
Undergraduate research in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>4998H</b>	<b>Undergraduate Research in Anthropology- Honors</b>	<b>U</b>	<b>1 - 6</b>
Undergraduate research in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Thesis Research</b>	<b>U</b>	<b>2 - 6</b>
Undergraduate thesis research. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 3 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>2 - 6</b>
Honors Thesis Research. Prereq: Honors standing, and a grade of A in at least half of Anthropol courses taken, and an average of B in the remainder, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>5193.01</b>	<b>Individual Studies: Theory</b>	<b>U G</b>	<b>1 - 80</b>
Theory. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

<b>5193.05</b>	<b>Individual Studies: Prehistory</b>	<b>U G</b>	<b>1 - 99</b>
Prehistory. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>5193.06</b>	<b>Individual Studies: Ethnography</b>	<b>U G</b>	<b>1 - 99</b>
Ethnography. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>5193.07</b>	<b>Individual Studies: Physical Anthropology</b>	<b>U G</b>	<b>1 - 99</b>
Physical Anthropology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>5193.08</b>	<b>Individual Studies: Unclassified</b>	<b>U G</b>	<b>1 - 99</b>
Unclassified. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 12</b>
Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered. Prereq: Permission of instructor. Repeatable.			
<b>5600</b>	<b>Evolutionary Medicine</b>	<b>U G</b>	<b>3</b>
Biomedical and biosocial influences on problems of human health throughout the world, focusing upon the evolutionary implications of those problems. Prereq: Not open to students with credit for 601.01.			
<b>5601</b>	<b>The Anthropology of Sex, Drugs, and HIV</b>	<b>U G</b>	<b>3</b>
Biocultural and sociocultural aspects of health in modern and prehistoric populations. Prereq: Not open to students with credit for 601.02.			
<b>5602</b>	<b>Women's Health in Global Perspective</b>	<b>U G</b>	<b>3</b>
A cross-cultural comparison of the political, economic, social, and biological issues surrounding women's health. Prereq: 2200 (200), or permission of instructor. Not open to students with credit for 601.04. GE diversity global studies course.			
<b>5603</b>	<b>Strategy of Archaeological Field Research</b>	<b>U G</b>	<b>3</b>
Detailed examination of select topics concerning the recovery and analysis of archaeological data. Design of archaeological data recovery programs and their implementation through survey, excavation, and other methods. Prereq: 3401 (401). Not open to students with credit for 602.01.			
<b>5606</b>	<b>Who Owns the Past?</b>	<b>U G</b>	<b>3</b>
Examines key ethical and epistemological issues in archaeology, including changing cultural politics. Prereq: 2201 (201) and 3401 (401). Not open to students with credit for 602.04.			
<b>5607</b>	<b>Human Osteology</b>	<b>U G</b>	<b>3</b>
Study of human skeletal anatomy. Prereq: 2200 (200), or permission of instructor. Not open to students with credit for 603.01.			
<b>5608</b>	<b>Skeletal Biology</b>	<b>U G</b>	<b>3</b>
A survey of bone biology, including histogenesis, histomorphology, and physiology of bone; topics include bone structure, growth and development, physiology, and anthropological applications. Prereq: 2200 and 5607, or permission of instructor. Not open to students with credit for HthRhSc 5608. Cross-listed in HthRhSc.			
<b>5609</b>	<b>Dental Anthropology</b>	<b>U G</b>	<b>3</b>
Evolutionary anthropology of human and non-human primate teeth. Prereq: 2200 (200) or equiv, or permission of instructor. Not open to students with credit for 5643 (603.03).			
<b>5610</b>	<b>Bioarchaeology</b>	<b>U G</b>	<b>3</b>
Study of human remains from archaeological settings, with emphasis on relationship between biology, culture, health, and behavior. Prereq: 2200 (200), or permission of instructor. Not open to students with credit for 603.04.			
<b>5614</b>	<b>Ethnobotany</b>	<b>U G</b>	<b>3</b>
Introduction to the anthropological study of human interactions with the plant world. Prereq: A course in Anthropol or PlntBio at the 2000 level or above, or permission of instructor. Not open to students with credit for 610.			
<b>5615</b>	<b>Evolutionary Perspectives on Human Behavior</b>	<b>U G</b>	<b>3</b>
Advanced survey of contemporary evolutionary theories of human behavior and culture and their relevance to the broader discipline. Prereq: 2200 (200) and 2202 (202), and 10 additional cr hrs in Anthropol; or permission of instructor. Not open to students with credit for 611.			
<b>5620</b>	<b>Hunters and Gatherers</b>	<b>U G</b>	<b>3</b>
Overview of anthropological studies of people who subsist primarily by hunting and gathering wild food. Prereq: 2202 (202) or equiv, or permission of instructor. Not open to students with credit for 620.01.			

## 28 Anthropology

### 5624 The Anthropology of Food: Culture, Society and Eating U G 3

Explores food traditions, global expansion of foods and the production/exchange of food in culture and society.

Prereq: 2200 (200), 2201 (201), or 2202 (202), or permission of instructor. Not open to students with credit for 620.08.

### 5626 More: Culture and Economic Life U G 3

An analysis of economic rationality in non-market and market societies; resource allocation, work organization, product disposition, exchange, money, trade, and development.

Prereq: 2202 (202) or equiv, or permission of instructor. Not open to students with credit for 620.15.

### 5627 Migrants and Refugees: The Anthropology of Mobility U G 3

This course is an anthropological investigation of human mobility with a focus on the movement of migrants and refugees. Credit for 2202 is recommended but not required.

### 5641 Primate Behavior U G 3

A broad survey of living primates, major taxonomic groups within the order, diet, group living, mating strategies, predation, intelligence.

Prereq: Not open to students with credit for 640.01.

### 5642 Growth and Development U G 3

Growth and development.

Prereq: 2200 (200) or equiv, or permission of instructor. Not open to students with credit for 640.02.

### 5644 Forensic Anthropology U G 3

Application of osteological and bioarchaeological methods in forensic science.

Prereq: 2200 (200) and 5607 (603.01) or equiv, or permission of instructor. Not open to students with credit for 640.04.

### 5645 Biology of Senescence U G 3

Biology of human senescence, aging, longevity, and chronic disease; evolutionary theories, mechanistic models, biocultural influences, cellular and physiological processes; biodemography, interventions, hormesis.

Prereq: 2200 (200), Biology 1101 (101), or 1113 (113), or permission of instructor. Not open to students with credit for 640.05.

### 5650 Research Design and Ethnographic Methods U G 3

Students learn to study anthropological problems through hands on experience with ethnographic methods, critical discussion of issues in ethnographic research and design of an ethnographic study.

Prereq: 2202 (202), or permission of instructor. Not open to students with credit for 650.

### 5651 Spatial Analysis for Anthropologists U G 3

Introduces the analysis of spatial data in anthropological research; data collection; analysis using GIS; theoretical and methodological issues pertaining to research design.

Prereq: Geog 607 (undergrads only), or permission of department. Not open to students with credit for 651.

### 5684 Summer Field School in Archaeology- Fee U G 3 - 15

Practical experience in archaeological fieldwork including site survey, excavation, surveying and mapping, preservation, and other related methods and techniques of data recovery. This course has a lab fee for room, board and supplies.

Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 3 completions.

### 5685 Summer Field School in Archaeology U G 2 - 15

Practical experience in archaeological fieldwork including site survey, excavation, surveying and mapping, preservation, and other related methods and techniques of data recovery.

Prereq: Permission of instructor. Repeatable.

### 5686 Practical Training in Forensic Anthropology U G 3

Hands-on Forensic Anthropology course covering crime scene processing, evidence collection, and case development for testimony in court. Students process indoor and outdoor crime scenes where foul play is suspected to have occurred and then learn about expert testimony.

### 5700 Anthropology, Public Health, and Human Rights U G 3

This course provides an introduction to the relationship between medical anthropology and global public health with an emphasis on social justice and health as a human right. Health policy, evidence-based medicine, children's health, HIV, TB, chronic disease, citizenship and deservingness, and other health topics will be discussed and analyzed from a cross-cultural and ethnographic perspective.

### 5701 Health and Healing in Latin America and the Caribbean U G 3

A biocultural examination of traditional and western healing practices and health disparities across the Latin American region. This course considers diverse perspectives on disease causality and prevention including shamanism, ethnophysiology, and ethnobotany.

### 5797 Study at a Foreign Institution U G 1 - 27

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work.

Prereq: Permission of dept chairperson. Repeatable to a maximum of 40 or hrs or 27 completions. This course is progress graded.

### 7001 Society and Environment G 3

This course provides an overview of major theoretical paradigms that have shaped anthropological research on humans and their environment. The goal is to train students to think theoretically as anthropologists by critically examining primary and secondary sources for a selection of theoretical paradigms on social-ecological systems.

### 7002 Anthropological Approaches to Health G 3

This course provides an overview of major theories, paradigms and approaches that have shaped anthropological research on the physical, biological, social and cultural factors that shape human health in the past and present. The goal of this course is to provide students with an understanding of how anthropologists define and study health.

### 7003 Human Evolutionary History G 3

This course provides an overview of major theoretical paradigms that have shaped anthropological research on human evolutionary history. The goal is to train students to think theoretically as anthropologists by critically examining primary and secondary sources for a selection of theoretical paradigms in human evolutionary history.

### 7004 Social-Ecological Systems G 3

This course provides an overview of frameworks, theories and methods used in the interdisciplinary study of social-ecological systems, including complexity theory, complex adaptive systems, resilience, institutional analysis, ecosystem services, and coupled human and natural systems. Students will also learn how to effectively collaborate in interdisciplinary studies of social-ecological systems.

Prereq: Not open to students with credit for ENR 7004. Cross-listed in ENR.

### 7005 Careers with Anthropology G 3

This course provides an overview of various career paths for students with graduate degrees in anthropology. It will help students from all sub-fields of anthropology develop professional skills in preparation for life after graduation. Specifically, it focuses on the ways in which they can apply anthropological concepts, research methodologies, and analytical skills in a wide range of careers.

### 7007 Academic Workshop G 1

This workshop has as its main goal to offer students of all cohorts a place for research presentations, academic discussions and professional development. The workshop consists of weekly meetings with a diversity of topics arranged by the course coordinator.

Repeatable to a maximum of 14 cr hrs.

### 7101 Research Design G 3

In this seminar each student will develop a research design for an anthropological research project. The focus of the seminar is on designing the research project and learning how research results and conclusions are assessed and disseminated. Topics include the relationship between theory and methods, ethics and IRB protocols, data collection methods, analysis of qualitative and quantitative data.

### 7194 Group Studies G 2 - 80

Group Studies.

Repeatable.

### 7701 Advanced Topics in Physical Anthropology: Modern Human Physical Variation G 3

Discussion of advanced topics in human variation and hominid evolution; emphasis on critical analysis and evolution of theoretical topics in research design. Survey of modern human biological diversity; underlying evolution and adaptability.

Prereq: Not open to students with credit for 701.01.

### 7702 Advanced Topics in Physical Anthropology: Hominid Paleanthropology G 3

Advanced topics in human variation and hominid evolution; emphasis on critical analysis and evolution of theoretical topics in research design.

Prereq: Not open to students with credit for 701.02.

### 7703 Theories in Cultural Anthropology G 3

Major theoretical orientations in cultural anthropology; the developmental histories of the major theoretical schools and examination of their respective philosophical foundations.

Prereq: Not open to students with credit for 702.

### 7720 Teaching In Anthropology G 4

Focuses on skills and pedagogy involved in teaching introductory anthropology.

Prereq: Grad standing in Anthro or related discipline.

### 7777 Data Collection Workshop G 1

The workshop has as its main goal to introduce several different data collections techniques that are commonly applied in Anthropology. The workshop consists of lectures by the faculty in the department, who will introduce their research and data collection protocols. The lectures by Faculty will be complemented by discussions with the invited Faculty and readings that cover the methods discussed.

Repeatable to a maximum of 4 cr hrs.

### 7800 We are what we eat: Applications of biogeochemistry G 3

Students will study both current and classic geochemical methodological developments and case studies from throughout the globe. Provides an introductory understanding of common methods in archaeochemistry and biogeochemistry, while emphasizing how these studies have pushed the epistemological boundaries of archaeological knowledge.

<b>7801</b>	<b>Archaeology of Hunter-Gatherer Societies</b>	<b>G</b>	<b>3</b>
Advanced study of hunter-gatherer band society from theoretical, ethnographic, and archaeological perspectives. Prereq: Grad standing. Not open to students with credit for 801.01.			
<b>7802</b>	<b>Origins of Food Production</b>	<b>G</b>	<b>3</b>
Advanced theoretical and comparative study of the origins of food production in the Old and New Worlds. Prereq: Admission to Grad program. Not open to students with credit for 801.02.			
<b>7803</b>	<b>The Archaeology of Complex Societies</b>	<b>G</b>	<b>3</b>
Advanced theoretical and comparative study of the rise and fall of complex societies in antiquity in the Old and New Worlds. Prereq: Admission to Grad program. Not open to students with credit for 801.03.			
<b>7804</b>	<b>Issues in Archaeological Theory</b>	<b>G</b>	<b>3</b>
Examination of the assumptions and concepts underlying analysis of archaeological data; methods of reconstructing cultural history, past lifeways, and explaining cultural change. Prereq: Admission to Grad program. Not open to students with credit for 802.			
<b>7805</b>	<b>Seminars in Ethnology</b>	<b>G</b>	<b>2 - 27</b>
Seminars in Ethnology. Repeatable to a maximum of 27 cr hrs or 14 completions.			
<b>7999</b>	<b>Research in Anthropology: Thesis</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis purposes only. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.			
<b>8193.01</b>	<b>Individual Studies: Theory</b>	<b>G</b>	<b>1 - 99</b>
Theory. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8193.04</b>	<b>Individual Studies: Research Methods</b>	<b>G</b>	<b>1 - 27</b>
Research methods. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8193.05</b>	<b>Individual Studies: Prehistory</b>	<b>G</b>	<b>1 - 27</b>
Prehistory. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8193.06</b>	<b>Individual Studies: Ethnology</b>	<b>G</b>	<b>1 - 27</b>
Ethnology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8193.07</b>	<b>Individual Studies: Physical Anthropology</b>	<b>G</b>	<b>1 - 27</b>
Physical anthropology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8193.08</b>	<b>Individual Studies: Unclassified</b>	<b>G</b>	<b>1 - 27</b>
Unclassified. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8193.09</b>	<b>Individual Studies: Cultural Anthropology</b>	<b>G</b>	<b>1 - 80</b>
Cultural anthropology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>8194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 20</b>
Group studies. Repeatable.			
<b>8827</b>	<b>Communicating Anthropology</b>	<b>G</b>	<b>3</b>
This course will walk students through the process of communicating research across several common platforms available to academics nowadays. The main goal is to work with students on the development of their academic narratives and then discuss how such narratives can (and should) be adjusted to different audiences.			
<b>8828</b>	<b>Writing Research Proposals in Anthropology</b>	<b>G</b>	<b>3</b>
The primary focus of this course is on writing competitive grant proposals in anthropology and students should use this course to develop their own research and grant proposals.			
<b>8891.04</b>	<b>Seminars in Cultural Anthropology: Human Ecology</b>	<b>G</b>	<b>2 - 27</b>
Human ecology. Repeatable to a maximum of 27 cr hrs or 14 completions.			
<b>8891.05</b>	<b>Graduate Seminar in Research Design and Ethnographic Methods</b>	<b>G</b>	<b>3</b>
Study design and data analysis. Repeatable to a maximum of 6 cr hrs.			
<b>8892.01</b>	<b>Seminars in Physical Anthropology: Evolutionary Theory</b>	<b>G</b>	<b>2 - 6</b>
Evolutionary theory. Prereq: Grad standing in Anthropol. Repeatable to a maximum of 6 cr hrs or 3 completions.			
<b>8892.09</b>	<b>Seminars in Physical Anthropology: Biocultural Medical Anthropology</b>	<b>G</b>	<b>3</b>
Explores human reproduction from a biocultural and ecological perspective. Repeatable to a maximum of 27 cr hrs.			

<b>8892.11</b>	<b>Seminars in Physical Anthropology: Quantitative Methods</b>	<b>G</b>	<b>2 - 6</b>
Quantitative methods. Repeatable to a maximum of 6 cr hrs or 3 completions.			
<b>8892.12</b>	<b>Seminars in Physical Anthropology: Quantitative Methods II: Advanced</b>	<b>G</b>	<b>2 - 27</b>
Quantitative Methods II: Advanced. Repeatable to a maximum of 27 cr hrs or 14 completions.			
<b>8892.13</b>	<b>Seminars in Physical Anthropology: Bioarchaeology</b>	<b>G</b>	<b>3</b>
Seminar on the study of human remains from archaeological contexts; focus on health, disease, injury, biomechanics, diet, and population history. Repeatable to a maximum of 27 cr hrs.			
<b>8892.14</b>	<b>Seminars in Physical Anthropology.</b>	<b>G</b>	<b>2 - 27</b>
Seminars in physical anthropology. Repeatable to a maximum of 27 cr hrs or 14 completions.			
<b>8893.06</b>	<b>Seminars in Prehistory: Paleodiet</b>	<b>G</b>	<b>3</b>
Advanced survey of current archaeological research on past human diet, with emphasis on methods. Provides graduate-level advanced study of human diet as revealed through the archaeological record. Prereq: Not open to students with credit for 830.06.			
<b>8999</b>	<b>Research in Anthropology: Dissertation</b>	<b>G</b>	<b>1 - 80</b>
Research for dissertation purposes only. Repeatable. This course is graded S/U.			

## Arabic

<b>1101.01</b>	<b>Elementary Modern Standard Arabic I</b>	<b>U</b>	<b>4</b>
Developing the ability to use Arabic functionally and communicatively in context; intensive oral interaction with instructor and fellow students; the basics of the writing system. Classroom track. Not open to native speakers of Arabic. Prereq: Not open to students with 1101.02 or 4 cr hrs of 1101.51. This course is available for EM credit. GE for lang course.			
<b>1101.02</b>	<b>Elementary Modern Standard Arabic I: Intensive</b>	<b>U</b>	<b>4</b>
Developing the ability to use Arabic functionally and communicatively in context; intensive oral interaction with instructor and fellow students; the basics of the writing system. Intensive classroom track. Not open to native speakers of Arabic through regular course enrollment, transfer, or EM credit. Prereq: Permission of department. Concur: 1102.02. Not open to students with credit for 1101.01, 1101.02, or 4 credit hours of 1101.51. This course is available for EM credit. GE for lang course.			
<b>1102.01</b>	<b>Elementary Modern Standard Arabic II</b>	<b>U</b>	<b>4</b>
Developing further language ability through learning how to perform certain functions orally and using them with fellow students; reading and writing passages reflecting their abilities. Classroom track. Not open to native speakers of Arabic. Prereq: 1101.01 or 4 cr hrs of 1101.51. Not open to students with credit for 1102.02 or 4 cr hrs of 1102.51. This course is available for EM credit. GE for lang course.			
<b>1102.02</b>	<b>Elementary Modern Standard Arabic II: Intensive</b>	<b>U</b>	<b>4</b>
Developing further language ability through learning how to perform certain functions orally and using them with fellow students; reading and writing passages reflecting their abilities. Intensive classroom track. Not open to native speakers of Arabic through regular course enrollment, transfer, or EM credit. Prereq: Permission of department. Concur: 1101.02. Not open to students with credit for 1102.01 or 4 cr hrs of 1102.51. This course is available for EM credit. GE for lang course.			
<b>1103.01</b>	<b>Intermediate Modern Standard Arabic I</b>	<b>U</b>	<b>4</b>
Building on previously acquired functional abilities; using Arabic to express opinion and feelings; oral interaction in the classroom; reading authentic texts or various genres. Classroom track. Not open to native speakers of Arabic. Prereq: 1102.01, 1102.02, or 4 cr hrs of 1102.51. Not open to students with credit for 1103.02 or 4 cr hrs of 1103.51. This course is available for EM credit. GE for lang course.			
<b>1103.02</b>	<b>Intermediate Modern Standard Arabic I: Intensive</b>	<b>U</b>	<b>4</b>
Building on previously acquired functional abilities; using Arabic to express opinion and feelings; increased oral interaction in the classroom; reading simplified original texts. Intensive classroom track. Not open to native speakers of Arabic through regular course enrollment, transfer, or EM credit. Prereq: Permission of department. Concur: 2104.02. Not open to students with credit for 1103.01 or 4 cr hrs of 1103.51. This course is available for EM credit. GE for lang course.			
<b>1113</b>	<b>Introductory Arabic for Heritage Learners I</b>	<b>U</b>	<b>4</b>
This intensive course is intended for heritage speakers and qualified Arabic speakers. It combines three semesters of Modern Standard Arabic into one semester and focuses on the productive skills (speaking and writing). Prereq: To qualify for this course, students are expected to be able to speak and understand well an Arabic dialect. This prior knowledge of a dialect is essential and will be used as a bridge towards learning Modern Standard Arabic. An interview will be conducted by the course instructor in order to establish a proficiency level. GE for lang course.			

## 30 Arabic

**2001 Arabic Pronunciation** U 3

The Arabic Pronunciation course is designed to improve and perfect the student's pronunciation of Modern Standard Arabic. Students will learn the articulatory features of speech production and ways in which to correct and enhance their oral production. They will gradually be introduced to some basic linguistic terminology of articulatory phonetics. Students will develop functional intelligibility.  
Prereq: 1103 or equiv., or permission of instructor.

**2104.01 Intermediate Modern Standard Arabic II** U 5

Initiating and sustaining communication, reading and understanding short authentic passages, and writing to express many language functions. Regular classroom track. Not open to native speakers of Arabic.  
Prereq: 1103.01 or 4 credit hours of 1103.51. Not open to students with credit for 2104.02.

**2104.02 Intermediate Modern Standard Arabic II: Intensive** U 5

Initiating and sustaining communication; reading and understanding short original texts and passages; writing to express many language functions. Intensive classroom track. Not open to native speakers of Arabic.  
Prereq: Permission of department. Concur: 1103.02. Not open to students with credit for 2104.01.

**2111 Colloquial Arabic I** U 3

Introduction to the phonology and grammar of the everyday spoken language used in the Eastern Arab World.  
Prereq or concur: 1103.01 or 1103.02. Not open to students with credit for 4111.

**2112 Colloquial Arabic II** U 3

Continued study of the phonology and grammar of the everyday spoken language used in the Eastern Arab world.  
Prereq: 2111 or 4111. Not open to students with credit for 4112.

**2193 Individual Studies** U 1 - 10

Individual Studies  
Prereq: Permission of department or instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

**2194 Group Studies** U 1 - 10

Group Studies  
Prereq: Permission of department or instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.

**2241 Contemporary Arab Cultures: Arts, Mass Media, Society** U 3

This course explores the intersecting political, artistic, and intellectual currents and practices that have shaped contemporary Arab cultures. It is organized as a survey of different cultural phenomena in Arab societies and diasporas including: the Arabic language and its varieties, music, poetry, law, television & cinema, and more.  
GE culture and ideas and diversity global studies course.

**2701 Classical and Medieval Arabic Literature in Translation** U 3

Reading and analysis of major works of Arabic literature from the 6th to the 17th centuries including classical poetry, the Qur'an, and the Arabian Nights.  
Prereq: English 1110 (110). Not open to students with credit for 371. GE lit and diversity global studies course.

**2702 Modern Arabic Literature in Translation** U 3

Reading and analysis of representative works of the 19th and 20th centuries; by contemporary women authors.  
Prereq: English 1110 (110). Not open to students with credit for 2702 (372), 2702H (372H), 372, or WGSSt 2702H (372H). GE lit and diversity global studies course. Cross-listed in WGSSt.

**2702H Modern Arabic Literature in Translation** U 3

Reading and analysis of representative works of the 19th and 20th centuries by contemporary women authors.  
Prereq: Honors standing, and English 1110 (110) or equiv. Not open to students with credit for 372H, 2702 (372), WGSSt 2702 (372), or 2702H (372H). GE lit and diversity global studies course. Cross-listed in WGSSt.

**2798.01 Morocco May Tour: The Arab World Up Close; History, Religion, Culture and Politics** U 3

Introduces students to 19th- and 20th-Century as well as contemporary history, politics, literature and culture of Morocco, through conversations with major political, civil, and intellectual figures in visits to such places as the Royal Library, The Royal Academy for Amazighi Studies, Parliament, NGOs premises, as well as to Fez, Meknes, and Marrakesh.

**3105 Intermediate Modern Standard Arabic III** U 5

Developing reading skills through reading adapted and authentic Arabic texts; selections reflect cultural and literary aspects of Arabic culture.  
Prereq: 2104.

**3301 Contemporary Folklore in the Arab World** U 3

Study of contemporary folklore of the Arab World including verbal art, material culture, visual self-presentation, and performance.  
Prereq: Not open to students with credit for 377. GE culture and ideas and diversity global studies course. Cross-listed in CompStd 3657.

**3601 Introduction to Arabic Philosophy** U 3

Surveying the development and major subjects and thinkers of the most vivid period of Arabic philosophy.

**3702 Place, Space, and Migration in Modern Arabic Literature and Film** U 3

This course on modern Arabic literature and culture in translation focuses on questions of belonging, relationship to space, and migration. It examines how Arabic literary narratives, films, documentaries, and other arts have imagined modes of belonging to spaces such as cities and nations, the natural world (and even the universe!) from the early postcolonial period to the present.  
Prereq: English 1110. GE lit and diversity global studies course.

**3705 A Thousand and One Nights: Storytelling in Arabic and World Literature** U 3

In this course, we will read the 14th century collection of tales that constitute the earliest existing version of The Thousand and One Nights and analyze it both in relation to the medieval genres and concerns that shaped it and through contemporary theoretical frameworks.  
Prereq: English 1110. GE lit course.

**4106 High Intermediate Modern Standard Arabic** U 5

Continued development of language skills through reading and evaluating a variety of authentic Arabic texts and genres; writing compositions on various aspects of Arabic culture.  
Prereq: 3105.

**4108 Advanced Arabic Grammar** U 3

Advanced discussion of Arabic morphology and syntax with readings from both modern and classical texts from various genres.  
Prereq: 4106.

**4120 Arabic Media** U 3

Reading/Listening to contemporary media in Arabic--youth culture, politics, contemporary issues.  
Prereq: 2104.01 or 2104.02. Not open to students with credit for 420.

**4998 Undergraduate Research in Arabic** U 1 - 3

Offers undergraduates with special aptitudes a greater opportunity to do more independent study and research than is possible in normal course work.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

**4998H Undergraduate Honors Research in Arabic** U 1 - 3

Offers undergraduate honors students a rigorous opportunity to do more independent study and research than is possible in normal coursework.  
Prereq: Honors standing, and permission of instructor. Not open to students with credit for 783H. This course is graded S/U.

**4999 Undergraduate Thesis** U 1 - 3

Offers undergraduates with special aptitudes and advanced skills the opportunity to do independent study leading to a thesis.  
Prereq: Sr standing, B average in Arabic coursework, permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

**4999H Undergraduate Honors Thesis** U 1 - 3

Offers undergraduates with special aptitudes the opportunity to do independent study leading to an honors thesis.  
Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

**5193 Individual Studies** U G 1 - 10

Individual Studies.  
Prereq: Permission of department. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

**5194 Group Studies** U G 1 - 10

Group Studies  
Prereq: Permission of department. Repeatable to a maximum of 20 cr hrs or 5 completions.

**5401 Translation: Theory and Practice** U G 3

Examination of some general guidelines for translating from Arabic to English or from English to Arabic, depending on the first language of the student. Requires advanced reading proficiency.  
Prereq: Arabic 3105, or permission of instructor. Not open to students with credit for 615.

**5611 History of the Arabic Language** U G 3

Survey of the evolution of the Arabic language in its cultural and historical setting.  
Prereq: Not open to students with credit for 611.

**5627 Classical Arabic Poetry** U G 3

Selected readings from classical and medieval Arabic poetry; Arabic metrics and literary theory.  
Prereq: 3105 (401), or permission of instructor. Not open to students with credit for 627.

**5628 Classical Arabic Prose** U G 3

Selected readings reflecting the evolution of Arabic prose literature from its origins to the late Abbasid period.  
Prereq: 3105 (401), or permission of instructor. Not open to students with credit for 628.

<b>5651</b>	<b>Contemporary Arabic Prose Fiction</b>	<b>U G</b>	<b>3</b>
Reading and analysis of short stories and novels representative of major developments and trends of the 20th century. Prereq: 3105 (401), or permission of instructor. Not open to students with credit for 651.			
<b>5652</b>	<b>Contemporary Arabic Poetry and Drama</b>	<b>U G</b>	<b>3</b>
Reading and analysis of plays and poems representative of major developments and trends of the 20th century. Prereq: 3105 (401), or permission of instructor. Not open to students with credit for 652.			
<b>5702</b>	<b>Arabic Folk Narrative in Translation</b>	<b>U G</b>	<b>3</b>
Literary and cultural aspects of 1001 Nights and other popular narratives (epics, legends, folktales) in the Arab world. Prereq: Not open to students with credit for 672.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 10</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Repeatable to a maximum of 30 cr hrs or 5 completions. This course is progress graded.			
<b>6501</b>	<b>Modern Arab-Muslim Thought</b>	<b>G</b>	<b>3</b>
Examining critically contemporary responses and revisions of Arab and Muslim classical Humanism. Repeatable to a maximum of 9 cr hrs.			
<b>6701</b>	<b>Major Issues of Arabic Philosophy</b>	<b>G</b>	<b>3</b>
Analyzing important texts dealing with God, man, knowledge, society, religion and politics; discussing modern approaches and interpretations. Prereq: 6 cr hrs of Arabic Literature at the 5000 level or equiv. Repeatable to a maximum of 9 cr hrs.			
<b>7601</b>	<b>Studies in Arabic Poetry</b>	<b>G</b>	<b>3</b>
Advanced study of specific poetic periods, figures, and/or topics involving extensive reading and discussion of appropriate primary and secondary source materials. Prereq: 6 cr hrs of Arabic Literature at the 5000 level or equiv. Repeatable to a maximum of 9 cr hrs.			
<b>7602</b>	<b>Studies in Arabic Prose</b>	<b>G</b>	<b>3</b>
Advanced study of specific periods, authors and/or genres of prose writing (literary or non-literary) involving extensive reading and discussion of primary and secondary materials. Prereq: 6 cr hrs of Arabic Literature at the 5000 level or equiv. Repeatable to a maximum of 12 cr hrs.			
<b>7891</b>	<b>Teaching Arabic at the College Level</b>	<b>G</b>	<b>3</b>
Methods and techniques for the teaching of Arabic at the college level. Prereq: GTA in NELC, or permission of instructor. Not open to students with credit for 801.			
<b>8891</b>	<b>Seminar in Arabic Studies</b>	<b>G</b>	<b>4</b>
Intensive investigation of a selected topic or problem in Arabic linguistics, philology, literature, or literary culture. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs.			

## Architecture

<b>1100</b>	<b>Architecture Survey</b>	<b>U</b>	<b>1</b>
Introduction to the University, the Knowlton School of Architecture, and the disciplines of architecture, landscape architecture, and city and regional planning. Prereq: Not open to students with credit for 1100E, 100, 100H, CRPlan 1100 (100), 1100E, LArch 1100 (100), 1100E, or any survey course. Cross-listed in LArch and CRPlan.			
<b>1100E</b>	<b>Architecture Survey Honors</b>	<b>U</b>	<b>1</b>
Introduction to the University, the Knowlton School of Architecture and the professions of architecture, city and regional planning and landscape architecture. Honors section. Prereq: Honors standing. Not open to students with credit for 1100, 100, 100H, CRPlan 1100 (100), 1100E, LArch 1100 (100), 1100E, or any survey course. Cross-listed in LArch and CRPlan.			
<b>2220</b>	<b>Sustainability and the Built Environment</b>	<b>U</b>	<b>3</b>
Introduction to sustainability and the built environment, emphasis on cultural context, including contributing geographic, political, social, and economic factors which influence the form of the constructed world. Prereq: Not open to students with credit for 201 or 3rd and 4th year Arch majors. GE soc sci human, nat, and econ resources course.			
<b>2220E</b>	<b>Sustainability and the Built Environment</b>	<b>U</b>	<b>3</b>
Introduction to sustainability and the built environment, emphasis on cultural context, including contributing geographic, political, social, and economic factors which influence the form of the constructed world. Prereq: Honors standing. Not open to students with credit for 201, or 3rd and 4th year Arch majors. GE soc sci human, nat, and econ resources course.			
<b>2300</b>	<b>Outlines of the Built Environment</b>	<b>U</b>	<b>3</b>
Introduction to architecture, landscape architecture, and planning as cultural practices that shape the physical environment. Prereq: Not open to students with credit for 1210, 2300E, LArch 1210, 2300, or 2300E. GE cultures and ideas course. Cross-listed in LArch.			

<b>2300E</b>	<b>Outlines of the Built Environment</b>	<b>U</b>	<b>3</b>
Introduction to the discipline of architecture and landscape architecture and planning with an emphasis on the physical artifact and its formal and cultural context. Honors section. Prereq: Honors standing. Not open to students with credit for 200, 1210, 2300, LArch 1210 (200), 2300, or 2300E. GE cultures and ideas course. Cross-listed in LArch.			
<b>2310</b>	<b>Introduction to Design</b>	<b>U</b>	<b>4</b>
Introduction to the design of the physical environment through the exploration of form, space, and order using drawing and modeling techniques. Prereq: Not open to students with credit for 1410, 151, LArch 1410 (202), or LArch 2310. Cross-listed in LArch.			
<b>2410</b>	<b>Architectural Design I</b>	<b>U</b>	<b>6</b>
Architectural design with an emphasis on technique. Prereq: Acceptance into B.S. Arch program. Concur: 5610. Not open to students with credit for 241 or 242.			
<b>2420</b>	<b>Architectural Design II</b>	<b>U</b>	<b>6</b>
Architectural design with an emphasis on technique. Continuation of Arch 2410. Prereq: 2410, or both 241 and 242. Concur: 5610 (only for students pursuing a B.S. in Arch). Not open to students with credit for 243.			
<b>2610</b>	<b>Introduction to Digital Design Software</b>	<b>U</b>	<b>3</b>
This course introduces students to architectural design strategies as they relate to introductory computer tools. Prereq: A grade of B- or above in 2310 or LArch 2310. Repeatable to a maximum of 15 cr hrs.			
<b>3192</b>	<b>Homes and Houses: Where We Live</b>	<b>U</b>	<b>3</b>
Introduction to architecture as an artistic practice through exploration of the way we design, build, and occupy houses. Historical survey of both everyday and refined dwellings, focusing on twentieth century North American architects and houses will challenge accepted norms of home design and how those have evolved. The impact of "high" design on the everyday will be a theme. GE VPA course.			
<b>3194</b>	<b>Group Studies in Architecture</b>	<b>U</b>	<b>1 - 15</b>
For group-based special studies in architecture within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>3195</b>	<b>Modern Rome</b>	<b>U</b>	<b>3</b>
Rome's historic and current architecture and its urban evolution will reveal timeless and timely influences during the modern period. Design-based historic scholarship will draw on visual literacy and creative inquiry to understand, appreciate and assess one of the most intriguing, beautiful, important and enduring cities in Western civilization. GE cultures and ideas course, and diversity global studies course.			
<b>3410</b>	<b>Architectural Design III</b>	<b>U</b>	<b>6</b>
Architectural design with an emphasis on materiality. Prereq: 2420 (243). Not open to students with credit for 341 or 342.			
<b>3420</b>	<b>Architectural Design IV</b>	<b>U</b>	<b>6</b>
Architectural design with an emphasis on materiality. Continuation of Arch 3410. Prereq: 3410, or both 341 and 342. Not open to students with credit for 343.			
<b>3420.02</b>	<b>Architectural Design IV</b>	<b>U</b>	<b>3</b>
Architectural design with an emphasis on materiality. Continuation of 3410. Part two of two with 3420.01. Prereq: 3410 (341 and 342). Not open to students with credit for 343.			
<b>4193</b>	<b>Independent Studies in Architecture</b>	<b>U</b>	<b>1 - 15</b>
For students who wish to pursue special independent studies in architecture with the guidance of an advisor/instructor. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Architecture</b>	<b>U</b>	<b>1 - 15</b>
For group-based special studies in architecture within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>4410</b>	<b>Architectural Design V</b>	<b>U</b>	<b>6</b>
Architectural design with an emphasis on organization. Prereq: 3420 (343). Not open to students with credit for 441 or 442.			
<b>4420</b>	<b>Architectural Design VI</b>	<b>U</b>	<b>6</b>
Architectural design with an emphasis on organization. Continuation of Arch 4410. Prereq: 4410, 4999, or 4999H.			
<b>4596</b>	<b>Design Agency on Wicked Problems: World Building Your Life</b>	<b>U</b>	<b>3</b>
In an era of rapid change locally and globally, technologically and socially, we are increasingly confronted by complex emergent systems problems, or Wicked Problems. This course will provide a theoretical framework for understanding and working on wicked problems, and uses design methodologies coming from architectural design to work on the wicked problem of designing your life. Prereq: Not open to students with credit for 4596E. GE cultures and ideas and cross-disciplinary seminar course.			

## 32 Architecture

<b>4596E</b>	<b>Design Agency on Wicked Problems: World Building Your Life</b>	<b>U</b>	<b>3</b>
In an era of rapid change locally and globally, technologically and socially, we are increasingly confronted by complex emergent systems problems, or Wicked Problems. This course will provide a theoretical framework for understanding and working on wicked problems, and uses design methodologies coming from architectural design to work on the wicked problem of designing your life. Prereq: Honors standing. Not open to students with credit for 4596. GE cultures and ideas course and cross-disciplinary seminar course.			
<b>4780</b>	<b>Undergraduate Research Methods</b>	<b>U</b>	<b>3</b>
Focuses on a broad scope of research methods and the development of architectural design and planning research techniques and skills. Prereq: Enrollment in a major within the Knowlton School of Architecture.			
<b>4780H</b>	<b>Undergraduate Research Methods</b>	<b>U</b>	<b>3</b>
Focuses on a broad scope of research methods and the development of architectural design and planning research techniques and skills. Prereq: Honors standing, and major within the Knowlton School of Architecture. Not open to students with credit for 783H.			
<b>4798</b>	<b>Study Tour</b>	<b>U</b>	<b>1 - 15</b>
Group international and domestic travel programs. Opportunities tailored to complement the classroom experience. Repeatable to a maximum of 45 cr hrs or 3 completions.			
<b>4798E</b>	<b>Study Tour</b>	<b>U</b>	<b>1 - 15</b>
Group international and domestic travel programs. Opportunities tailored to complement the classroom experience. Prereq: Honors standing. Repeatable to a maximum of 45 cr hrs or 3 completions.			
<b>4880</b>	<b>Interdepartmental Seminar</b>	<b>U</b>	<b>1 - 15</b>
Interdepartmental seminar; topics to be announced. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in CRPlan and LArch.			
<b>4999</b>	<b>Design Studio for Thesis</b>	<b>U</b>	<b>6</b>
Topical research/design projects in architecture. Prereq: Permission of instructor.			
<b>4999H</b>	<b>Architecture Honors Design Studio</b>	<b>U</b>	<b>6</b>
Topical research/design projects in architecture. Honors section. Prereq: Honors standing, and major within the Knowlton School of Architecture. Not open to students with credit for 784H.			
<b>5110</b>	<b>History of Architecture I</b>	<b>U G</b>	<b>4</b>
History of architecture from ancient to contemporary: historical inquiry, physical and cultural influences, theories, and analytical techniques. Continues as 5120. Prereq: Not open to students with credit for 600 and 601.			
<b>5110E</b>	<b>History of Architecture I</b>	<b>U G</b>	<b>4</b>
History of architecture from ancient to contemporary: historical inquiry, physical and cultural influences, theories, and analytical techniques. Prereq: Honors standing. Not open to students with credit for 600 and 601.			
<b>5120</b>	<b>History of Architecture II</b>	<b>U G</b>	<b>4</b>
History of architecture from ancient to contemporary: historical inquiry, physical and cultural influences, theories, and analytical techniques. Continuation of 5110. Prereq: Not open to students with credit for 602.			
<b>5120E</b>	<b>History of Architecture II</b>	<b>U G</b>	<b>4</b>
History of architecture from ancient to contemporary: historical inquiry, physical and cultural influences, theories, and analytical techniques. Continuation of 5110. Prereq: Honors standing. Not open to students with credit for 602.			
<b>5130</b>	<b>History of Architecture III</b>	<b>U G</b>	<b>3</b>
This course provides a survey of global architecture and its theoretical underpinnings from the mid-twentieth century to the present.			
<b>5191</b>	<b>Professional Experience in Architecture</b>	<b>U G</b>	<b>0</b>
Documentation of work experience in the field of architecture or suitable related areas. Prereq: Permission of instructor. Repeatable to a maximum of 6 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies in Architecture</b>	<b>U G</b>	<b>1 - 15</b>
For group-based special studies in architecture within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>5210</b>	<b>Forms of Architectural Theory</b>	<b>U G</b>	<b>3</b>
Survey of architectural theory that reviews the history of architecture while searching for reinterpretations, strategies, structures, and precedents. Prereq: 5110 and 5120 (600, 601, and 602), or permission of instructor. Not open to students with credit for 610.			
<b>5290</b>	<b>Topics in Architectural Theory</b>	<b>U G</b>	<b>3</b>
Investigation of topics in architectural theory. Prereq: Enrollment in Architecture major, or permission of instructor. Repeatable.			

<b>5290.02</b>	<b>Topics in Architectural Theory</b>	<b>U G</b>	<b>1½</b>
Investigation of topics in architectural theory. Prereq: Enrollment in Arch major, or permission of instructor. Repeatable.			
<b>5510</b>	<b>Building Construction I</b>	<b>U G</b>	<b>3</b>
Introduction to construction materials and techniques. Continues as 5520. Prereq: Not open to students with credit for 626 or 627.			
<b>5520</b>	<b>Building Construction II</b>	<b>U G</b>	<b>3</b>
Introduction to construction materials and techniques. Continuation of 5510. Prereq: Not open to students with credit for 628.			
<b>5590</b>	<b>Topics in Building Technology</b>	<b>U G</b>	<b>3</b>
Investigation of topics in building technology. Prereq: Enrollment in Architecture major, or permission of instructor. Repeatable.			
<b>5590.01</b>	<b>Topics in Building Technology</b>	<b>U G</b>	<b>1½</b>
Investigation of topics in building technology. Prereq: Enrollment in Knowlton School of Architecture major, or permission of instructor. Repeatable.			
<b>5590.02</b>	<b>Topics in Building Technology</b>	<b>U G</b>	<b>1½</b>
Investigation of topics in building technology. Prereq: Enrollment in Knowlton School of Architecture major, or permission of instructor. Repeatable.			
<b>5610</b>	<b>Architectural Representation I</b>	<b>U G</b>	<b>3</b>
Introduction to architectural representation techniques. Continues as 5620. Prereq: Enrollment in a major within the Knowlton School of Architecture. Concur: 2410 (for students pursuing a B.S. in Arch). Not open to students with credit for 271 or 272.			
<b>5620</b>	<b>Architectural Representation II</b>	<b>U G</b>	<b>3</b>
Introductions to architectural representation techniques. Continuation of 5610. Prereq: 5610, or both 271 and 272. Concur: 2420 (for students pursuing a B.S. in Arch). Not open to students with credit for 273.			
<b>5710</b>	<b>Introduction to Architectural Structures I</b>	<b>U G</b>	<b>4</b>
Statics, strength of materials, and structural systems: principles, elements, concepts. Prereq: Math 1118 (117) or 1151 or above, and Physics 1200 or above; or Grad standing in Arch; or permission of instructor. Not open to students with credit for 426, 616, 617, or 618.			
<b>5798</b>	<b>Study Tour</b>	<b>U G</b>	<b>1 - 15</b>
Group international and domestic travel programs. Opportunities tailored to complement the classroom experience. Repeatable to a maximum of 45 cr hrs or 3 completions.			
<b>5810</b>	<b>Introduction to Environmental, Mechanical, and Electrical Systems in Architecture</b>	<b>U G</b>	<b>3</b>
Introduction to environmental issues and building service systems for architecture. Prereq: Math 1118 (117) or 1151 or above, and Physics 1200; or Grad standing in Arch; or permission of instructor. Not open to students with credit for 661 or 662.			
<b>5880</b>	<b>Interdepartmental Seminar</b>	<b>U G</b>	<b>1 - 15</b>
Interdepartmental seminar; topics to be announced. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in LArch and CRPlan.			
<b>5960</b>	<b>Design Competition</b>	<b>U G</b>	<b>1 - 6</b>
Learn how to work in interdisciplinary teams to develop design proposals to solve problems in the natural or built environment. Prereq: Jr, Sr, or Grad standing. Repeatable to a maximum of 9 cr hrs or 3 completions. Cross-listed in CRPlan and LArch.			
<b>6194</b>	<b>Graduate Group Studies in Architecture</b>	<b>G</b>	<b>1 - 15</b>
For group-based special studies in architecture within the frame of an instructor guided course. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>6210</b>	<b>Introduction to Contemporary Architecture</b>	<b>G</b>	<b>3</b>
This course provides a foundation for the study of architecture as a profession and a discipline. It examines the relations between buildings and the historical, conceptual, and cultural arguments with which they are associated and the social implications of design decisions, particularly those related to issues of diversity and equity. Prereq: Enrollment in Master of Architecture Program.			
<b>6410</b>	<b>Accelerated Architectural Design I</b>	<b>G</b>	<b>6</b>
Architectural design with an emphasis on form and technique. Continues as 6420. Prereq: Acceptance in the Master of Architecture Graduate Program. Not open to students with credit for 641 or 642.			
<b>6420</b>	<b>Accelerated Architectural Design II</b>	<b>G</b>	<b>6</b>
Architectural design with an emphasis on form and technique. Continuation of 6410. Prereq: 6410, or 641 and 642. Not open to students with credit for 643.			
<b>6710</b>	<b>Architectural Structures II</b>	<b>G</b>	<b>3</b>
Statics, strength of materials, and structural systems: principles, elements, systems. Prereq: Grad standing. Not open to students with credit for 618 or 724.			

<b>6810</b>	<b>Environmental, Mechanical, and Electrical Systems in Architecture II</b>	<b>G</b>	<b>3</b>
Qualitative and quantitative aspects of environmental issues and building service systems for architecture. Prereq: Grad standing. Not open to students with credit for 663.			
<b>7193</b>	<b>Graduate Independent Studies in Architecture</b>	<b>G</b>	<b>1 - 15</b>
For students who wish to pursue special independent studies in architecture with the guidance of an advisor/instructor. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions. This course is graded S/U.			
<b>7194</b>	<b>Graduate Group Studies in Architecture</b>	<b>G</b>	<b>1 - 15</b>
For group-based special studies in architecture within the frame of an instructor guided course. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions. This course is graded S/U.			
<b>7220</b>	<b>Architectural Theory II</b>	<b>G</b>	<b>3</b>
Investigations in architectural theory. Continuation of 7210. Prereq: Grad standing. Concur: 7420. Not open to students with credit for 803.01.			
<b>7310</b>	<b>Practice of the Design Professions</b>	<b>G</b>	<b>3</b>
Legal, financial, technical, and ethical issues in architectural practice. Prereq: Enrollment in Master of Architecture Program. Not open to students with credit for 751 or 752.			
<b>7410</b>	<b>Advanced Architectural Design I</b>	<b>G</b>	<b>6</b>
Architectural design with an emphasis on materiality and organization. Prereq: 6420 (643), or Enrollment in the Master of Architecture Graduate Program with advanced standing. Not open to students with credit for 841 or 842.			
<b>7420</b>	<b>Advanced Architectural Design II</b>	<b>G</b>	<b>8</b>
Architectural design with an emphasis on materiality and organization. Continuation of Arch 7410. Prereq: 7410 (841). Not open to students with credit for 844.01.			
<b>8210</b>	<b>Master Practitioner Seminar</b>	<b>G</b>	<b>1 - 3</b>
Contemporary strategies in architectural practice and criticism as articulated by contemporary architects, theoreticians, and historians. Prereq: Master of Architecture student in third year of program. Repeatable to a maximum of 3 or hrs or 2 completions.			
<b>8220</b>	<b>Master Project Seminar</b>	<b>G</b>	<b>3</b>
Articulation of an architectural position that accounts for design production, disciplinary concerns, and cultural forces. Prereq: Enrollment in Master of Architecture Program.			
<b>8410</b>	<b>Advanced Architectural Design III</b>	<b>G</b>	<b>8</b>
Advanced topics in architectural design. Prereq: 7420 or 844.01. Not open to students with credit for 844.02 or 844.03.			
<b>8420</b>	<b>Advanced Architectural Design IV</b>	<b>G</b>	<b>8</b>
Advanced topics in architectural design. Prereq: 8410 or 844.02. Not open to students with credit for 844.04.			

## Art

<b>2000</b>	<b>Encountering Contemporary Art</b>	<b>U</b>	<b>3</b>
In this class, students will explore how and why contemporary artists make the work they do within a globalized art world. Through discussions, readings, virtual or in-person art excursions and related assignments, participants will apply critical written, oral, and visual communication skills as they analyze, interpret and respond to significant works of art, their contexts and histories.			
<b>2100</b>	<b>Beginning Drawing</b>	<b>U</b>	<b>3</b>
Students will explore fundamental freehand drawing techniques with a range of drawing methods, media and concepts; emphasis on drawing from observation and expressive experimentation. Students will apply written, oral and visual communication skills as they evaluate, interpret and respond to significant works of art and their own expressive goals. This course is available for EM credit. GE VPA course.			
<b>2100E</b>	<b>Beginning Drawing</b>	<b>U</b>	<b>3</b>
Students will explore fundamental freehand drawing techniques with a range of drawing methods, media and concepts; emphasis on drawing from observation and expressive experimentation. Students will apply written, oral and visual communication skills as they evaluate, interpret and respond to significant works of art and their own expressive goals. GE VPA course.			
<b>2200</b>	<b>Real and Recorded Time</b>	<b>U</b>	<b>3</b>
Students will engage in informed observations, explorations and communication through time-based media methods and tools as a practical and theoretical foundation for creating original artworks in video, sound, installation, performance and screen.			

<b>2300</b>	<b>Two-Dimensional Studies</b>	<b>U</b>	<b>3</b>
Students will create aesthetic and interpretive studies exploring organizational elements and principles of 2D composition, visual perception, critical thinking, invention and material experimentation as they pertain to art practice. Students will advance written, oral and visual communication skills as they interpret and respond to significant works of art and their own expressive goals. This course is available for EM credit. GE VPA course.			
<b>2300E</b>	<b>Two-Dimensional Studies</b>	<b>U</b>	<b>3</b>
Students will create aesthetic and interpretive studies exploring organizational elements and principles of 2D composition, visual perception, critical thinking, invention and material experimentation as they pertain to art practice. Students will advance written, oral and visual communication skills as they interpret and respond to significant works of art and their own expressive goals. GE VPA course.			
<b>2400</b>	<b>3-Dimensional Art</b>	<b>U</b>	<b>3</b>
Basic concepts of three-dimensional art focusing on structure with the organization of space and form, using a variety of materials, processes, tools. This course is available for EM credit.			
<b>2555</b>	<b>Introduction to Digital Photography and Contemporary Issues</b>	<b>U</b>	<b>3</b>
Students will learn fundamental digital camera techniques and explore contemporary and historical issues in photography including the relationships between technique, concept, and aesthetics as well as the relationship between images, identity formation, and larger social structures. Prereq: Not open to students with credit for 3555. GE VPA course.			
<b>2555H</b>	<b>Introduction to Digital Photography and Contemporary Issues</b>	<b>U</b>	<b>3</b>
Students will learn fundamental digital camera techniques and explore contemporary and historical issues in photography including the relationships between technique, concept, and aesthetics as well as the relationship between images, identity formation, and larger social structures. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 3555H. GE VPA course.			
<b>2990</b>	<b>BFA Portfolio Review</b>	<b>U</b>	<b>0</b>
Successful BFA portfolio review. Prereq: 2000 (200), 2100 (205), 2200 (208), 2300 (206), 2400 (207), and one core course in student's proposed area of concentration. Repeatable to a maximum of 2 completions. This course is graded S/U.			
<b>3000</b>	<b>Digital Image Manipulation</b>	<b>U</b>	<b>3</b>
Students learn to use Adobe Photoshop and Illustrator software while creating digital media artwork and gaining knowledge of digital artists. Experiences include image capture, generation, manipulation, interpretation, critique, working with the fair use principle, and professional artistic output. Prereq: Not open to students with credit for 2500.			
<b>3001</b>	<b>Internet Art</b>	<b>U</b>	<b>3</b>
Integration of image, video, animation and audio for the creation of internet art. Issues of tactical media, identity construction and digital aesthetics emphasized. Prereq: 2500 (350). Not open to students with credit for 451. Repeatable to a maximum of 6 or hrs.			
<b>3002</b>	<b>Intro to Ceramics: Structure</b>	<b>U</b>	<b>3</b>
Introduction to Ceramic Structures; lab practices with various modeling and potter's wheel techniques with lectures covering a broad survey of structural ceramics from brick to tile to sculpture. Prereq: Not open to students with credit for 2502. GE VPA course.			
<b>3003</b>	<b>Introduction to Glass Art</b>	<b>U</b>	<b>3</b>
Introduction to skills used in molten glass forming, including: gathering, hot sculpting, and blowing. Studio practice is further expanded by experimentation with glass kiln methods. Emphasis on the development of original artworks. Prereq: Not open to students with credit for 2503. Repeatable to a maximum of 6 or hrs.			
<b>3004</b>	<b>Life Studio Drawing I</b>	<b>U</b>	<b>3</b>
Students use a wide range of materials and processes to make drawings based on all aspects of life: the human figure, plants, animals, landscapes, interior spaces, etc. Students practice, appreciate and interpret drawing in relation to various traditions and as a basis for individual development. Prereq: 2100. Not open to students with credit for 2504. Repeatable to a maximum of 6 or hrs.			
<b>3005</b>	<b>Photography II: Introduction to Darkroom</b>	<b>U</b>	<b>3</b>
Students will explore and learn analogue darkroom processes including manual 35mm camera techniques, black and white film development, and archival silver gelatin printing methods. Students will gain knowledge of historical and contemporary issues in photography and develop verbal and written language skills to critique the construction of images. Limited number of loaner film cameras available. Prereq: 2555 (3555). Not open to students with credit for 4005.			

## 34 Art

<b>3006</b>	<b>Introduction to Relief and Intaglio Printmaking</b>	<b>U</b>	<b>3</b>
Students use a range of traditional processes in relief and intaglio, exploring the dynamics of their applications in the creation of unique works in print media. Students will apply oral and visual communication skills as they evaluate, interpret and respond to significant works of art, the work of their peers, and their own expressive goals. 14 Weeks AU SP, 7 Weeks SU. Prereq: 2100 or 2300. Not open to students with credit for 2516.			
<b>3009</b>	<b>Film/Video I: Technologies and Analysis</b>	<b>U</b>	<b>3</b>
Course is designed as an intro to the fundamental concepts, language, and technologies needed to work in video, grounded in critical and historical context. While the lessons learned in this class will apply broadly to all moving-image work, the focus of the work will be on fine arts approaches to video. Students will work on a series of very short projects throughout the semester. Prereq: Not open to students with credit for 5501.			
<b>3012</b>	<b>Intro to Ceramics: Form and Surface</b>	<b>U</b>	<b>3</b>
Introduction to Utilitarian uses of Ceramics; lab practices with various modeling and potter's wheel techniques with lectures covering a broad survey of ceramic form and surface, both historic and contemporary. Prereq: Not open to students with credit for 2602.			
<b>3014</b>	<b>Visual Studies: Color</b>	<b>U</b>	<b>3</b>
Art 3014 Color is an introduction to seeing and using color for all disciplines. Projects deal with color organization, phenomena, and interaction. This course will nurture students' visual sensitivity to color behavior and color relationships in works of art and natural perception. You will also learn and practice effective methods of critical evaluation of works of art with respect to color. Prereq: 2000, 2100, 2300, or 3004 (2504). Not open to students with credit for 2514.			
<b>3016</b>	<b>Printmaking - Relief</b>	<b>U</b>	<b>3</b>
The practice and examination of several modes of artistic expression in the relief processes of printmaking. Prereq: 162, 170, 172, 182, 260, and 270 (prior to 2003), or Art 375 (after 2003); and HistArt 2001, 2002, 210, 211, 212, 213, or 216. Not open to students with credit for 476 and 376.			
<b>3017</b>	<b>Introduction to Sculpture</b>	<b>U</b>	<b>3</b>
An introduction to the principles of sculpture, emphasizing basic forming processes and materials. Includes traditional and non-traditional sculpture making concepts, processes and materials through additive, subtractive, and assemblage sculpture making processes. Prereq: 2400, or permission of instructor. Not open to students with credit for 2507.			
<b>3024</b>	<b>Painting I</b>	<b>U</b>	<b>3</b>
Students explore the dynamics of painting. Students make paintings using a variety of approaches with attention to color, light, form, paint application, space and composition. Students practice, appreciate and interpret painting as related to various traditions and as a basis for individual development. Prereq: Not open to students with credit for 2524.			
<b>3026</b>	<b>Printmaking - Serigraphy</b>	<b>U</b>	<b>3</b>
The practice and examination of several modes of artistic expression in the serigraphic processes of printmaking. Prereq: 3016, and 162, 170, 172, 182, 260, and 270 (pre 2003) or 375 (post 2003), and HistArt 210, 211, 212, 213, 216, 2001, or 2002. Not open to student with credit for 375 or 477.			
<b>3036</b>	<b>Printmaking - Intaglio</b>	<b>U</b>	<b>3</b>
The practice and examination of several modes of artistic expression in intaglio processes of printmaking. Prereq: 3006, or 162, 170, 172, 182, 260, and 270 (pre 2003), or 375 (post 2003), and HistArt 210, 211, 212, 213, 216, 2001, or 2002. Not open to students with credit for 375 or 478.			
<b>3046</b>	<b>Printmaking - Lithography</b>	<b>U</b>	<b>3</b>
The practice and examination of several modes of artistic expression in lithographic processes of printmaking. Prereq: 3016, or 162, 170, 172, 182, 260, and 270 (pre 2003), or 375 (post 2003), and HistArt 210, 211, 212, 213, 216, 2001, or 2002. Not open to students with credit for 375 or 479.			
<b>3053</b>	<b>Glass Basics: Blowing &amp; Kiln Forming</b>	<b>U</b>	<b>3</b>
This course is designed to give the student a solid foundation in multiple aspects of glassmaking. Through technical demonstrations and hands-on experience students will be exposed to the glass construction methods ranging from cold (cutting, grinding and polishing), warm (kiln forming) and hot (blowing and sculpting). Prereq: 2000, and 2100 or 2200, or permission of instructor. Not open to students with credit for 2553.			
<b>3054</b>	<b>Painting II</b>	<b>U</b>	<b>3</b>
Students explore a variety of painting mediums emphasizing technical, historical and conceptual fundamentals of constructing paintings or 'picture-objects.' Students manipulate spatial and thematic pictorial relationships through painting on various surfaces with a variety of processes and begin to develop the ability to pursue individualized research, processes, themes, and aspirations. Prereq: 3024.			

<b>3056</b>	<b>Introduction to Lithography and Silkscreen Printmaking</b>	<b>U</b>	<b>3</b>
Students use a range of traditional processes in lithography and silkscreen printing, exploring the dynamics of their application in the creation of unique works in print media. Students will apply oral and visual communication skills as they evaluate, interpret and respond to significant works of art, the work of their peers, and their own expressive goals. 14 Weeks AU SP, 7 Weeks SU. Prereq: 2100 or 2300. Not open to students with credit for 2526.			
<b>3101</b>	<b>3D Modeling Sculpture</b>	<b>U</b>	<b>3</b>
Students learn, practice, and utilize 3D modeling software for generation of form, character, and environment. Includes conceptualization, development, and creation of digital assets for output to formats such as digital prints, 3D rapid prototyping, laser cutters and/or CNC mills. Prereq: 3000. Repeatable to a maximum of 6 cr hrs.			
<b>3104</b>	<b>Expanded Drawing</b>	<b>U</b>	<b>3</b>
Students expand their definition of drawing by exploring an array of contemporary, historical and conceptual ideas. Students make drawings using a variety of methods and materials, from archival to ephemeral. Students manipulate spatial and thematic pictorial relationships. Students begin to develop the ability to identify and pursue individualized research, processes, themes and aspirations. Prereq: 3004 or 3024.			
<b>3107</b>	<b>Life Sculpture</b>	<b>U</b>	<b>3</b>
Aspects of the human form studied in relation to the materials of sculpture; experimentation in a range of materials: clay, wax, cement, and plaster. Prereq: 2300 and 3507, or 207 and 307. Not open to students with credit for 482.			
<b>3191</b>	<b>Internship</b>	<b>U</b>	<b>1 - 3</b>
A cooperative education or internship assignment conducted under the supervision of a faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>3194</b>	<b>Group Studies</b>	<b>U</b>	<b>3</b>
Group studies for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>3201</b>	<b>Holography I</b>	<b>U</b>	<b>3</b>
The basic technique of three-dimensional image making; construction of a diode laser and use of this device to make holograms. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>3201H</b>	<b>Holography I</b>	<b>U</b>	<b>3</b>
The basic technique of three-dimensional image making; construction of a diode laser and use of this device to make holograms. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs. GE VPA course. Cross-listed in Physics.			
<b>3307</b>	<b>Sculpture: Wood Construction</b>	<b>U</b>	<b>3</b>
In Art 3307 students will explore various methods of fabrication and construction to make both functional and expressive works out of wood. This course will proceed through basic introduction exercises and then 2 conceptually based projects, one that highlights additive techniques and one that focuses on the human body. Prereq: 2300. Not open to students with credit for 3007.			
<b>4002</b>	<b>Intermediate Ceramics: Architectonics</b>	<b>U</b>	<b>3</b>
Intermediate course focusing on the Architectural Ceramics; lab practices with various modeling and construction techniques with lectures covering a broad survey of the range of Architectural Ceramics, from structure to cladding to interior and exterior scale. Prereq: 3002 (2502) or 3012 (2602). Not open to students with credit for 3502.			
<b>4004</b>	<b>Special Topics: Drawing</b>	<b>U</b>	<b>3</b>
Special topics in intermediate to advanced drawing materials and processes for personal expression with emphasis on development of analytical and critical skills. Prereq: 3104, or Art 470 (after Au Qtr 2003), or Art 370 (prior to Au Qtr 2003). Repeatable to a maximum of 6 cr hrs.			
<b>4006</b>	<b>Upper Level Printmaking: Intaglio + Relief</b>	<b>U</b>	<b>3</b>
Students practice/examine individual development and artistic creation through advanced exploration of intaglio & relief printmaking. They begin to develop the ability to identify/pursue individualized research, processes, themes and aspirations while they interpret/respond to significant works of art, work of their peers, and their own expressive goals through rigorous production and critique. Prereq: 3006. Repeatable to a maximum of 9 cr hrs.			
<b>4007</b>	<b>Sculpture: Topics in Experiential Making: Structure, Space, and Material</b>	<b>U</b>	<b>3</b>
Exploration of a range of technical and conceptual concerns of Sculpture using primary materials with a focus on research and experimentation. Metal in AU, Wood in SP. Prereq: 2400 and 3017 (2507). Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>4009</b>	<b>Film/Video II: Experimental Strategies</b>	<b>U</b>	<b>3</b>
This course is designed as an overview of a broad range of strategies and issues unique to the practice sometimes labeled "experimental film," avant-garde cinema," or "video art." Intermediate theory and practice of creating film/video artwork. Emphasis on personal expression and experimental approaches. Prereq: 3009 or Mvnglmg 2201 or 2202, or permission of instructor. Not open to students with credit for 5551.			

<b>4012</b>	<b>Intermediate Ceramics: Utility and Performance</b>	<b>U</b>	<b>3</b>
Intermediate course focusing on the utilitarian uses of Ceramics; lab practices with various modeling and potter's wheel techniques with lectures covering a broad survey of the broad range of use, from a cup to a tool to performative gestures. Prereq: 3002 (2502) or 3012 (2602). Not open to students with credit for 3602.			
<b>4014</b>	<b>Advanced Painting and Drawing</b>	<b>U</b>	<b>3</b>
This course is designed to assist and guide independent work. Each term will focus on special topics in painting/drawing, with a wide emphasis upon current directions, new media, techniques, social issues. Students will be encouraged to explore the use of a wide range of materials in experimental approaches to drawing/painting. Individual work will be augmented by lectures/discussions/field trips. Prereq: 3024 and 3054. Repeatable to a maximum of 9 cr hrs.			
<b>4056</b>	<b>Upper Level Printmaking: Lithography + Silkscreen</b>	<b>U</b>	<b>3</b>
Students practice/examine individual development and artistic creation through advanced exploration of lithography & silkscreen printmaking. They begin to develop the ability to identify/pursue individualized research, processes, themes and aspirations while they interpret and respond to significant works of art, work of peers, and their own expressive goals through rigorous production/critique. Prereq: 3056. Repeatable to a maximum of 9 cr hrs.			
<b>4101</b>	<b>Moving Image Art</b>	<b>U</b>	<b>3</b>
The creation of 2D animations through the generation, manipulation, and montage of multiple media elements such as drawings, video, and audio. Students gain hands-on experience with software sequencing tools and knowledge of the context of time-based computer imaging within a studio art practice. Prereq: 3000 (2500) or 3101. Repeatable to a maximum of 6 cr hrs.			
<b>4104</b>	<b>Life Drawing Studio II</b>	<b>U</b>	<b>3</b>
Intermediate to advanced level course focusing on issues of the figure. Prereq: 3104, or Art 470 (Au Qtr 2003 and after), or Art 370 (prior to Au Qtr 2003). Repeatable to a maximum of 6 cr hrs.			
<b>4201</b>	<b>New Media Robotics</b>	<b>U</b>	<b>3</b>
Students learn component level electronics and programming languages on microcontrollers to create kinetic and interactive art. Digital control of objects, projections, and sound allow for responsive environments, wearables, and multimedia experiences. Repeatable to a maximum of 6 cr hrs.			
<b>4401</b>	<b>Computer Animation</b>	<b>U</b>	<b>3</b>
Students learn and practice the concepts, aesthetics and processes of 3D computer animation. Conceptualizing, producing and integrating 3D renders and sound, with awareness of cinematography and narrative, will culminate in the completion of computer animations. Prereq: 3000 (2500) or 3101, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>4503</b>	<b>Intermediate Glass Topics</b>	<b>U</b>	<b>3</b>
Exploration of a range of technical and conceptual concerns of Art using glass as a primary material utilizing glass blowing and glass kiln working. Further exploration of a range of hot and cold glass working techniques. Repeatable to a maximum of 6 cr hrs.			
<b>4901</b>	<b>Studio Practice: Art and Technology</b>	<b>U</b>	<b>3</b>
Students gain practical experience in the development and exhibition of independent artwork. Students practice planning, presenting, and discussing their art research in process as well as participating in the critique of the work of their peers. Techniques of exhibition and documentation will be practiced through writing, video, and photography. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>4998</b>	<b>UG Scholarship Research / Creative Activity</b>	<b>U</b>	<b>3</b>
Undergraduate research or creative activities in varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>4998H</b>	<b>UG Scholarship Research / Creative Activity</b>	<b>U</b>	<b>3</b>
Undergraduate research or creative activities in varying topics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>4999</b>	<b>Senior Exhibition</b>	<b>U</b>	<b>1</b>
Course will provide seniors in the Department of Art with practical experience in the development of an exhibition of their work and exposure to professional practices for artists. This includes the development of an exhibition proposal, adequate documentation of the student's work, an artist's statement (short and long,) and presentation methods. Prereq: Sr standing, and enrollment in BFA in Art; or permission of instructor.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 3</b>
Senior Honors Thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
<b>5000</b>	<b>Art and Professional Practices Seminar</b>	<b>U G</b>	<b>3</b>
Students explore, practice, and analyze a range of approaches to presenting their artistic practice in visual, oral and written forms. Students explore multiple options, methods and strategies related to career choices and professional development. Students develop a variety of skills to sustain their practice after graduating with their BA or BFA. Prereq: Sr or Grad standing in Art.			

<b>5001</b>	<b>Aspects of Art and Technology I</b>	<b>U G</b>	<b>3</b>
Students explore and practice the technical, aesthetic, and theoretical topics in the field of Art and Technology. Includes interactive installation, biological, surveillance/telepresence, narrative, algorithmic, and performative art. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5004</b>	<b>Drawing Now</b>	<b>U G</b>	<b>3</b>
Students explore drawing through individualized projects and in groups to cultivate, develop and refine ideas, research, experimentation, critical thinking and installation methods. Students explore and interpret contemporary issues in drawing, and develop a body of drawings as well as a drawing practice. Prereq: 4004 or 4104. Repeatable to a maximum of 12 cr hrs.			
<b>5006</b>	<b>Alternative Printmaking</b>	<b>U G</b>	<b>3</b>
Intensive exploration of reproduction technologies including digital, mechanical, and photographic approaches. Emphasis will be placed on the aesthetic of these methods as tools for creative production. Prereq: 4006, 4016, 4026, 4036, 377, 378, or 379, or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
<b>5007</b>	<b>Advanced Sculpture I</b>	<b>U G</b>	<b>3</b>
Group studio with conceptual and material emphasis led by rotating area faculty. Course may have special topic focus. Prereq: 3207 (481), 3307, and 3507, or 480, 481, and 482. Repeatable to a maximum of 9 cr hrs.			
<b>5009</b>	<b>Film/Video III</b>	<b>U G</b>	<b>3</b>
Students explore in depth one technology or strategy related to experimental film and video art. Topics have included 16mm film, expanded cinema, and cameraless filmmaking. Prereq: 4009, or permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5019</b>	<b>Film/Video IV</b>	<b>U G</b>	<b>3</b>
Students explore thematic issues within experimental film and video art or in the relationship of those fields to other art forms or modes of filmmaking. Prereq: 4009, or permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5101</b>	<b>Aspects of Art and Technology II</b>	<b>U G</b>	<b>3</b>
Students explore topical art science relationships while building connections between micro and macro, plants and humans, local and global, anthropocentric and eco-centric. Both scientific and artistic methods are used in creative projects surrounding climate stress & adaptation, biotech/bio art, constructed ecosystems, biomimicry, hyper-nature, symbiosis. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5102</b>	<b>Kiln Building</b>	<b>U G</b>	<b>3</b>
Advanced studies in the design, fabrication, and uses of gas and electric fueled kilns. Practice in welding and electric wiring skills and the various types of firing methods. Prereq: 2502 (340), 2602 (342), 3502 (440), and 3602, or Art 340, 342, and 440; or permission of instructor. Not open to students with credit for 640.			
<b>5115</b>	<b>Photography Studio Lighting</b>	<b>U G</b>	<b>3</b>
Introduction to lighting equipment, principles, and techniques as applied to constructed/directed photography done predominantly in the studio environment. B&W wet lab with limited digital printing. Prereq: 3005 (400) and 5275, or Art 400 and 695.10; or permission of instructor. Concur: 5105. Not open to students with credit for 695.03.			
<b>5126</b>	<b>Advanced Printmaking - Relief and Intaglio</b>	<b>U G</b>	<b>3</b>
An intensive exploration of the relief and intaglio processes as a means for individual expression. Prereq: 4006 (476) and 4026 (478), or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>5193.20</b>	<b>Individual Studies - Ceramics</b>	<b>U G</b>	<b>3</b>
Advanced study for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5193.30</b>	<b>Individual Studies - Glass</b>	<b>U G</b>	<b>3</b>
Advanced study for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5193.50</b>	<b>Individual Studies - Photography</b>	<b>U G</b>	<b>3</b>
Advanced study for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5193.60</b>	<b>Individual Studies - Printmaking</b>	<b>U G</b>	<b>3</b>
Advanced study for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5193.70</b>	<b>Individual Studies - Sculpture</b>	<b>U G</b>	<b>3</b>
Advanced study for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			

## 36 Art

<b>5194.20</b>	<b>Group Studies - Ceramics</b>	<b>U G</b>	<b>3</b>
Advanced ceramic studio work developed in consultation with and under close supervision of the instructor. Prereq: Permission of instructor. Not open to students with credit for 691.03. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>5194.40</b>	<b>Group Studies - Painting</b>	<b>U G</b>	<b>3</b>
Group studies for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5194.70</b>	<b>Group Studies - Sculpture</b>	<b>U G</b>	<b>3</b>
Group studies for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5202</b>	<b>Mold Making</b>	<b>U G</b>	<b>3</b>
Advanced studies in the design, fabrication, and uses of models and molds. Utilizing plaster casting, rubber, and other alternative mold making material to explore the process of prototyping and generating multiples. Prereq: 2502 (340), 2602 (342), and 3502 and 3602, or 440 and 442; or permission of instructor. Not open to students with credit for 641.			
<b>5205</b>	<b>Large Format Photography</b>	<b>U G</b>	<b>3</b>
Advanced photography projects with emphasis on aesthetics, mechanics, and psychology of large format photography, including zone system controls. Advanced B&W wet lab experience. Prereq: 5105 and 5115; or permission of instructor. Concur: 5215. Not open to students with credit for 524.			
<b>5215</b>	<b>Social/Documentary Photography</b>	<b>U G</b>	<b>3</b>
Student will engage in an advanced production course with emphasis on the conceptual frameworks underpinning the documentary tradition in historical and contemporary photography. Prereq: 3005 (4005).			
<b>5254</b>	<b>Painting Now</b>	<b>U G</b>	<b>3</b>
Students expand approaches and definitions of painting in relation to the chosen topic for the semester. Topics range from studies in abstraction, figuration, conceptual approaches, materials and techniques, landscape/light/space, installation, etc. Independently and in groups, students challenge themselves to make paintings through rigorous experimentation, research and critical reflection. Prereq: 3054. Repeatable to a maximum of 6 cr hrs.			
<b>5302</b>	<b>Material Science for Artists</b>	<b>U G</b>	<b>3</b>
Advanced studio focused on geologic and chemical earth science as it pertains to art. Safe and efficient testing habits will explore applications such as clay and glaze formulation. Parallels will be drawn in metals, glass, paper, and paint. Prereq: 2502 (340), 2602 (342), and 3502 and 3602, or 440 and 442; or permission of instructor. Not open to students with credit for 640 and 644.			
<b>5335</b>	<b>Digital Imaging: Input/Output</b>	<b>U G</b>	<b>3</b>
Exploration of the use of digital technologies in creating and printing images with emphasis on aesthetic content and excellent craft. Prereq: 5205 (524) and 5215 (695.04), or permission of instructor. Concur: 5225. Not open to students with credit for 695.07.			
<b>5338</b>	<b>Digital Input/Output for Photographers</b>	<b>U G</b>	<b>3</b>
Learning to control means of input, manipulation while in and output from the computer and encourage the creation of new work. Prereq: Jr standing, and enrollment in Art major. Not open to students with credit for 695.07.			
<b>5346</b>	<b>Advanced Printmaking - Lithography and Screenprinting</b>	<b>U G</b>	<b>3</b>
An intensive exploration of the lithographic and screenprinting processes as means for individual expression. Prereq: 4016 (477) and 4036 (479), or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>5402</b>	<b>Ceramic Art History</b>	<b>U G</b>	<b>3</b>
Advanced ceramic course designed specifically to give the student an understanding of historical forms and technical processes. Prereq: 2502 (340), 2602 (342), 3502 (440), or 3602 (442), or permission of instructor. Not open to students with credit for 647.			
<b>5445</b>	<b>Alternative Processes in Photography</b>	<b>U G</b>	<b>3</b>
Advanced production and study of antique and alternative processes in photography such as non-silver emulsions, through the creation of a cohesive body of work. Prereq: 5225, 5235, 695.07, or 695.08; or written permission of instructor. Concur: 4995 or 690. Not open to students with credit for 695.06.			
<b>5502</b>	<b>Special Projects - Ceramics</b>	<b>U G</b>	<b>3</b>
Advanced ceramic studio work developed in consultation with and under close supervision of the instructor. Prereq: 2502, 2602, 3502, 3602, 340, 342, 440, or 442; or permission of instructor. Not open to students with 20 qtr cr hrs for 645. Repeatable to a maximum of 9 cr hrs.			

<b>5558</b>	<b>Book Arts</b>	<b>U G</b>	<b>3</b>
Exploration of the history and aesthetics of handmade artist books with emphasis on structure, sequence, and the relationship of image to text. Prereq: Sr standing in Art, or written permission of instructor. Not open to students with credit for 695.05.			
<b>5591</b>	<b>Independent Studio - Art and Technology</b>	<b>U G</b>	<b>3</b>
Advanced studio practice in art and technology. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5592</b>	<b>Independent Studio - Ceramics</b>	<b>U G</b>	<b>3</b>
Advanced ceramic studio work developed in consultation with and under close supervision of the instructor. Prereq: Permission of instructor. Not open to students with credit for 691.03. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>5593</b>	<b>Independent Studio - Glass</b>	<b>U G</b>	<b>3</b>
Advanced studio practice in glass art making. Prereq: Permission of instructor. Not open to students with max credit for 691.04. Repeatable to a maximum of 12 cr hrs.			
<b>5594</b>	<b>Independent Studio - Painting/Drawing</b>	<b>U G</b>	<b>3</b>
Advanced studio practice in painting. Repeatable to a maximum of 12 cr hrs.			
<b>5595</b>	<b>Independent Studio - Photography</b>	<b>U G</b>	<b>3</b>
Advanced studio practice in photography. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5596</b>	<b>Independent Studio - Printmaking</b>	<b>U G</b>	<b>3</b>
Advanced studio practice in printmaking. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5597</b>	<b>Independent Studio - Sculpture</b>	<b>U G</b>	<b>3</b>
Advanced studio practice in sculpture. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5797</b>	<b>Study Tour Foreign</b>	<b>U G</b>	<b>3</b>
Specific content, location, semester offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5798</b>	<b>Study Tour Domestic</b>	<b>U G</b>	<b>3</b>
Specific content, location, semester offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5890</b>	<b>Special Topics in Art</b>	<b>U G</b>	<b>3</b>
Open topic that takes into consideration the research interests of current faculty or visiting artists. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>5903</b>	<b>Advanced Glass Studio Practice</b>	<b>U G</b>	<b>3</b>
Individual studies in glass art. Prereq: Permission of instructor. Not open to students with credit for 691.04 (to repeat limit). Repeatable to a maximum of 12 cr hrs.			
<b>5995</b>	<b>Imagemakers' Seminar</b>	<b>U G</b>	<b>3</b>
Students expand approaches and definitions of photography in relation to the chosen topic for the semester. Topics may range from but are not limited to studies in abstraction, performance for the camera, documentary, conceptual approaches, materials and aesthetics, and the intersections of issues of identity with contemporary photographic practices. Prereq: 3005 (4005), or permission of instructor.			
<b>6008</b>	<b>Directed Studies in Studio Art</b>	<b>G</b>	<b>1 - 3</b>
Independent advanced studio practice. Prereq: Grad standing in Art. Repeatable to a maximum of 21 cr hrs or 12 completions.			
<b>6018</b>	<b>Interdisciplinary Seminar - Practices in Contemporary Art</b>	<b>G</b>	<b>3</b>
An exploration of a broad range of critical, theoretical and professional models for developing an emergent practice of contemporary visual art. Prereq: Grad standing in Art.			
<b>6108</b>	<b>Graduate Teaching Seminar</b>	<b>G</b>	<b>3</b>
Exercises and discussions exploring techniques used in organizing, presenting, and evaluating materials taught in studio art classes with special focus on the process of developing a teaching portfolio, best teaching practices and pedagogy. Prereq: First year Grad standing in Studio Art, or permission of instructor. Not open to students with credit for 896.			
<b>6691</b>	<b>Foundational Studio Practice - Art and Technology</b>	<b>G</b>	<b>1 - 3</b>
Studio practice in Art and Technology. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>6692</b>	<b>Foundational Studio Practice - Ceramics</b>	<b>G</b>	<b>1 - 3</b>
Advanced studio practice in ceramics. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			

<b>6693</b>	<b>Foundational Studio Practice - Glass</b>	<b>G</b>	<b>1 - 3</b>
Advanced studio practice in glass. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>6694</b>	<b>Foundational Studio Practice - Painting</b>	<b>G</b>	<b>1 - 3</b>
Advanced studio practice in painting. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>6695</b>	<b>Foundational Studio Practice - Photography</b>	<b>G</b>	<b>1 - 3</b>
Advanced studio practice in photography. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>6696</b>	<b>Foundational Studio Practice - Printmaking</b>	<b>G</b>	<b>1 - 3</b>
Advanced studio practice in printmaking. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>6697</b>	<b>Foundational Studio Practice - Sculpture</b>	<b>G</b>	<b>1 - 3</b>
Advanced studio practice in sculpture. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>6891</b>	<b>MFA Studio Critique: Art and Tech</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>6892</b>	<b>MFA Studio Critique: Ceramics</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>6893</b>	<b>MFA Studio Critique: Glass</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>6894</b>	<b>MFA Studio Critique: Painting / Drawing</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>6895</b>	<b>MFA Studio Critique: Photography</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>6896</b>	<b>MFA Studio Critique: Printmaking</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>6897</b>	<b>MFA Studio Critique: Sculpture</b>	<b>G</b>	<b>1</b>
Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>7108</b>	<b>Seminar in Studio Art</b>	<b>G</b>	<b>3</b>
Presentations by students, faculty, and visiting artists, with critical discussion emphasizing contemporary issues. Prereq: Grad standing. Repeatable to a maximum of 9 cr hrs.			
<b>7194</b>	<b>Intermediate Group Studies - Art</b>	<b>G</b>	<b>1 - 3</b>
Group studies for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>7208</b>	<b>Research and Writing for Artists</b>	<b>G</b>	<b>3</b>
A graduate-level seminar emphasizing research and writing strategies for the required MFA thesis as well as other writing that artists may have to undertake.			
<b>7791</b>	<b>Intermediate Studio Practice - Art and Technology</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			

<b>7792</b>	<b>Intermediate Studio Practice - Ceramics</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7793</b>	<b>Intermediate Studio Practice - Glass</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7794</b>	<b>Intermediate Studio Practice - Painting</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7795</b>	<b>Intermediate Studio Practice - Photography</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7796</b>	<b>Intermediate Studio Practice - Printmaking</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7797</b>	<b>Intermediate Studio Practice - Sculpture</b>	<b>G</b>	<b>1 - 3</b>
Graduate level studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>7999.01</b>	<b>Research in Art - Thesis Advising</b>	<b>G</b>	<b>1</b>
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.			
<b>7999.02</b>	<b>Research in Art - Thesis Exhibition</b>	<b>G</b>	<b>1</b>
Research in preparation for Thesis Exhibition. Prereq: Permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>7999.03</b>	<b>Research in Art - Thesis Writing</b>	<b>G</b>	<b>1</b>
Research and writing for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies - Art</b>	<b>G</b>	<b>1 - 3</b>
Group studies for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>8891</b>	<b>Advanced Studio Practice Art and Technology</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8892</b>	<b>Advanced Studio Practice - Ceramics</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Prereq: Permission of instructor. Not open to students with 12 cr hrs for 691.03. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8893</b>	<b>Advanced Studio Practice - Glass</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8894</b>	<b>Advanced Studio Practice - Painting</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8895</b>	<b>Advanced Studio Practice - Photography</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8896</b>	<b>Advanced Studio Practice - Printmaking</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8897</b>	<b>Advanced Studio Practice - Sculpture</b>	<b>G</b>	<b>1 - 3</b>
Advanced graduate studio practice. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			

## Art Education

<b>1600</b>	<b>Art and Music Since 1945</b>	<b>U</b>	<b>3</b>
A survey of the visual arts and music in the western world since 1945, based on live and recorded performances and exhibitions. GE VPA course.			
<b>2100</b>	<b>Introduction to Arts Management</b>	<b>U</b>	<b>3</b>
This Introduction to Arts Management is a survey of non-profit and for profit arts management topics and issues. Students will examine members of the creative sector in various fields within the arts and cultural sector and what their impact is on the global marketplace. Using scholarly articles and various media, students will identify examples of these individuals around the world.			

## 38 Art Education

<b>2250</b>	<b>Introduction to Art Education</b>	<b>U</b>	<b>3</b>
Ideas, issues, and career possibilities in art education explored through readings, dialogue, and site visitation. Prereq: Not open to students with credit for 225.			
<b>2367.01</b>	<b>Visual Culture: Investigating Diversity &amp; Social Justice</b>	<b>U</b>	<b>3</b>
A study of the artists, the artworks, and art worlds from diverse ethnic cultures in North America. Prereq: English 1110, and Soph standing. Not open to students with credit for 2367.01H. GE writing and comm course: level 2 and VPA and diversity soc div in the US course.			
<b>2367.01H</b>	<b>Visual Culture: Investigating Diversity &amp; Social Justice</b>	<b>U</b>	<b>3</b>
A study of the artists, the artworks, and art worlds from diverse ethnic cultures in North America. Prereq: Honors standing, English 1110, and Soph standing. Not open to students with credit for 2367.01 (367.01) or 367.01H. GE writing and comm course: level 2 and VPA and diversity soc div in the US course.			
<b>2367.02</b>	<b>Writing Art Criticism</b>	<b>U</b>	<b>3</b>
Focuses on critical literacy and writing about contemporary American art by a variety of artists with diverse points of view. Prereq: English 1110, and Soph standing. Not open to students with credit for 367.02. GE writing and comm course: level 2.			
<b>2367.03</b>	<b>Criticizing Television</b>	<b>U</b>	<b>3</b>
A critical analysis of a wide variety of television programs through viewing, discussing, reading, and writing. Prereq: English 1110, and Soph standing. Not open to students with credit for Theatre 2367.03. GE writing and comm course: level 2 and diversity soc div in the US course. Cross-listed in Theatre.			
<b>2520</b>	<b>Digital Artmaking</b>	<b>U</b>	<b>3</b>
Introductory study of digital artmaking through interpreting contemporary artists, constructing a language of art critique, and producing images using graphic design software. GE VPA course.			
<b>2520S</b>	<b>Digital Artmaking</b>	<b>U</b>	<b>3</b>
Introductory study of digital artmaking through interpreting contemporary artists, constructing a language of arts critique, and producing images using graphic design software. Prereq: Not open to students with credit for 252. GE VPA course.			
<b>2550</b>	<b>Introduction to Visual Culture: Seeing and Being Seen</b>	<b>U</b>	<b>3</b>
An introduction to issues of representation, spectacle, surveillance, and voyeurism, explored through a range of visual images and sites. Prereq: Not open to students with credit for 255. GE cultures and ideas and diversity soc div in the US course.			
<b>3680</b>	<b>Exploring the Creative Industry: Arts Issues in the 21st Century</b>	<b>U</b>	<b>3</b>
Explores the relationships within the creative sector; Artistic workforce, contemporary art trends, organizational structure and variety within the industries. Prereq: 2100. Not open to students without credit for 2100 who are also enrolled in the Arts Management program.			
<b>3681</b>	<b>Managing Non-profit Arts Organizations: Balancing Continuity &amp; Change</b>	<b>U</b>	<b>3</b>
Introduces the purposes of non-profit organizations and their functions such as governance, program planning, marketing, and fundraising; encourages critical thinking in managerial decision making through practical assignments. Prereq: 2100. Not open to students without credit for 2100 who are also enrolled in the Arts Management program.			
<b>3690</b>	<b>Arts Entrepreneurship</b>	<b>U</b>	<b>3</b>
This course helps students gain skills toward using creativity and artistry to solve problems and identify their personal sites of expertise as they begin to think about their future careers. Identifying opportunities in the arts can take on aspects of using artistic skill to address social problems, create economic value, and bring aesthetic solutions to social, cultural, and business problems.			
<b>3900</b>	<b>Art &amp; Curriculum Concepts for Teachers</b>	<b>U</b>	<b>2</b>
Problems of teaching in terms of personal knowledge about art, insight into children's art work, and understanding of elementary school curriculum. Prereq: Not open to students with credit for 600. Not open to art education teacher-candidates. Admis Cond course.			
<b>4000</b>	<b>Pedagogies of Critical Multiculturalism in Teaching Visual Culture</b>	<b>U</b>	<b>3</b>
Investigating the interrelationship of social and visual cultural issues and their impact on the curriculum and teaching practice. Prereq: Art Education Licensure students, or permission of instructor. Not open to students with credit for 601 or 605. Admis Cond course.			
<b>4100</b>	<b>Processes of Making and Responding to Art</b>	<b>U</b>	<b>3</b>
Interpreting and writing critically about contemporary art, methods, and strategies that enhance student artmaking. Prereq: Art Education Licensure students, or permission of instructor.			

<b>4189.02</b>	<b>Teaching Practicum: Pre K-12</b>	<b>U</b>	<b>12</b>
Field-based teaching practicum at the prekindergarten through Grade 12 levels. Prereq: Art Education Licensure students, or permission of instructor. Not open to students with credit for 786 or 787. Admis Cond course.			
<b>4191</b>	<b>Internship</b>	<b>U</b>	<b>1 - 9</b>
Students intern at non-public school sites to synthesize and apply what they have learned in the classroom through concentrated practice in the field. Prereq: Jr standing or above, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 9</b>
Individual studies and project work in specified problems in the field of art education. Prereq: Written permission. Not open to students with credit for 493. This course is graded S/U.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 12</b>
Group studies and project work in specified problems of the field of art education. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>4200</b>	<b>Concepts for Planning Art Education Curricula</b>	<b>U</b>	<b>3</b>
Planning for and management of the social and physical environment of art education. Prereq: Art Education Licensure students, or permission of instructor. Not open to students with credit for 607. Admis Cond course.			
<b>4300</b>	<b>History &amp; Philosophy of Art Education, Schools, and Society</b>	<b>U</b>	<b>3</b>
History of the field with an emphasis on major ideas in philosophy and learning theory that affect current trends. Prereq: Art Education Licensure students, or permission of instructor. Not open to students with credit for 603. Admis Cond course.			
<b>4400</b>	<b>Art Education for Children with Special Needs</b>	<b>U</b>	<b>3</b>
Strategies that can be used in teaching art to students with special needs and lesson planning for inclusion. Prereq: Art Education Licensure students, or permission of instructor. Not open to students with credit for 608. Admis Cond course.			
<b>4491</b>	<b>Applied Research</b>	<b>U</b>	<b>1 - 6</b>
Studies in empirical, philosophical, curriculum, and studio problems in art education. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			
<b>4495</b>	<b>Seminar on Topical Issues in Art Education</b>	<b>U</b>	<b>1 - 9</b>
Seminar on topical issues in art education. Repeatable to a maximum of 9 cr hrs or 9 completions.			
<b>4500</b>	<b>Clinical Experience</b>	<b>U</b>	<b>3</b>
Contact with practicum sites and collaborative work with cooperating teachers to plan and deliver instruction. Prereq: Art Education Licensure students, or permission of instructor. Not open to students with credit for 689. Admis Cond course.			
<b>4674</b>	<b>The City As Art</b>	<b>U</b>	<b>3</b>
This course will examine the ways that cities throughout the world integrate arts and culture into their planning, as well as whether being a cultural city can build the brand, draw new residents and attract visitors. We will investigate cultural tourism, urban cultural policy and temporary built culture such as festivals and fairs. Team-taught w/ faculty in CRP. Prereq: Jr or Sr standing. Not open to students with credit for CRP 4674. Cross-listed in City and Regional Planning.			
<b>4740</b>	<b>Docent Training</b>	<b>U</b>	<b>3</b>
Introduces students to theory and techniques of teaching in museum galleries at the Wexner Center for the Arts. Students are trained to lead tours by studying contemporary art, tour planning strategies and interactive techniques. Prereq: Permission of instructor.			
<b>4900</b>	<b>Teaching Seminar</b>	<b>U</b>	<b>3</b>
Concurrent to teaching practicum. Prereq: Art Education Licensure students, or permission of instructor. Admis Cond course.			
<b>4998</b>	<b>Creative Activity in Art Education: Undergraduate Scholarship</b>	<b>U</b>	<b>1 - 9</b>
Undergraduate scholarship. Repeatable to a maximum of 9 cr hrs or 2 completions. This course is graded S/U.			
<b>4999</b>	<b>Thesis Research</b>	<b>U</b>	<b>1 - 9</b>
A program of reading and research arranged for each student, with individual conferences and reports and thesis. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 2 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 9</b>
A program of reading and research arranged for each student, with individual conferences and reports and honors thesis. Prereq: Honors standing, and permission of instructor. Not open to students with credit for 783H. Repeatable to a maximum of 9 cr hrs or 2 completions. This course is graded S/U.			

<b>5367</b>	<b>Reel Injuns: Identity and Representation</b>	<b>U G</b>	<b>3</b>
Introduces broad range of issues, theories, and practices of visual culture within the gaze of American Indians and how reaction to or rejection shapes indigenous identities, as well as non-Native understandings of American Indians. This course will explore action research practices, historical research methodologies, and critical readings. Prereq: Not open to students with credit for 3367.			
<b>5670</b>	<b>Public Policy and the Arts</b>	<b>U G</b>	<b>3</b>
Introduction to the purposes, rationales, interests, issues, political dynamics, and performance of agency/programs in the U.S. cultural policy system. Prereq: Not open to students with credit for 670.			
<b>5671</b>	<b>Organizational Leadership in the Nonprofit Arts</b>	<b>U G</b>	<b>3</b>
Students will be assisted in enhancing their knowledge and ability to take responsible leadership roles in non-profit arts organizations and as a major constituent of public arts agencies. Prereq: Not open to students with credit for 671.			
<b>5672</b>	<b>Managing Cultural Policy Change</b>	<b>U G</b>	<b>3</b>
Planning and executing strategic change in public arts agencies. Explores implications of shifting from a supply/demand to a value-based cultural policy paradigm. Prereq: Not open to student with credit for 672.			
<b>5674</b>	<b>The Creative Sector and Creative Cities</b>	<b>U G</b>	<b>3</b>
Examines policy experiences of U.S. and other countries pertaining to the composition, workforce, and support systems of the creative industries across non-profit, commercial, community, and embedded settings.			
<b>5675</b>	<b>International Cultural Relations</b>	<b>U G</b>	<b>3</b>
Explores cultural exchange as a policy tool of international cultural engagement, nation branding, and cultural diplomacy. Also considers international festival and exhibitions, cultural trade, and international collaboration.			
<b>5682</b>	<b>Nonprofit Arts Institution Governance and Board Leadership</b>	<b>U G</b>	<b>3</b>
Research-based, practical exploration of nonprofit boards critically examines governance policies and practices; specifically focusing on management, board and staff relations and issues of accountability. Prereq: Not open to students with credit for 782.			
<b>5683</b>	<b>Developing Arts Careers: Positioning Passion</b>	<b>U G</b>	<b>3</b>
Prepares students as entrepreneurs to enter nonprofit, commercial, public and/or academic careers through independent investigation, dossier development, research proposals, and grant writing. Prereq: Not open to students with credit for 683.			
<b>5684</b>	<b>Arts Participation, Cultural Literacy, and Audience Development</b>	<b>U G</b>	<b>3</b>
Building on empirical and theoretical research, this course constructs a framework to understand audience participation, understanding and reception of specific art forms. Prereq: Not open to students with credit for 781.			
<b>5685</b>	<b>Arts/Cultural Organizations: Resource Management &amp; Revenue Streams</b>	<b>U G</b>	<b>3</b>
An analysis of current issues in resource management and revenue streams available to arts & cultural organizations, and its application to marketing and development practice.			
<b>5686</b>	<b>Cultural Program Design, Implementation, and Evaluation</b>	<b>U G</b>	<b>3</b>
Research of program theory, design, and their application implementation.			
<b>5687</b>	<b>The Social World of the Arts</b>	<b>U G</b>	<b>3</b>
We often think about the arts as primarily aesthetic endeavors, but the social world around the creation, production, distribution, and reception of art are key in understanding the role of art and of artists in society. In this class, students will use a sociological lens to examine how individuals and groups create, produce, distribute, and consume art.			
<b>5795</b>	<b>Seminar on Topical Issues in Art Education.</b>	<b>U G</b>	<b>3</b>
Seminar on topical issues in Art Education. Repeatable to a maximum of 30 or hrs.			
<b>5797.01</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 9</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Repeatable to a maximum of 15 or hrs or 5 completions.			
<b>5797.02</b>	<b>Exploring Jamaican Arts and Culture</b>	<b>U G</b>	<b>3</b>
Focuses on arts and cultural practices in schools, colleges, museums, and cultural institutions in Jamaica. Students explore and analyze policies, practices, content, and pedagogies of the arts in Jamaica in comparison and contrast with our understandings of such in the United States.			

<b>5797.03</b>	<b>Ireland: Places, Spaces &amp; Earthworks</b>	<b>U G</b>	<b>3</b>
This course offers students an introduction to Neolithic to historic Christian to contemporary Irish material culture. It is designed to use the resources at University College Dublin to develop knowledge through research, critical reading/analysis, and oral and/or visual expression in fostering an understanding of the pluralistic and historic nature of institutions, society, and Irish cultures.			
<b>5798.01</b>	<b>Study Tour: Domestic</b>	<b>U G</b>	<b>1 - 9</b>
Specific content, location, semesters of offering, and prerequisites vary; contact department office for details. Repeatable for differently titled study tours only. Repeatable to a maximum of 27 cr hrs or 3 completions.			
<b>5798.02</b>	<b>Cultural Equity, Arts Policy &amp; Advocacy in Puerto Rico</b>	<b>U G</b>	<b>3</b>
This course is a special course of study for those interested in the impact & role of cultural arts in engaging issues of social justice within communities. Renowned community experts and scholars culturally grounded in the arts, public policy and advocacy will present and engage with students on best practices that have made positive and significant contributions to diverse communities.			
<b>6998</b>	<b>Research for Non-thesis</b>	<b>G</b>	<b>1 - 9</b>
Research for non-thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs. This course is graded S/U.			
<b>6999</b>	<b>Research for Thesis</b>	<b>G</b>	<b>1 - 9</b>
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions. This course is graded S/U.			
<b>7000.10</b>	<b>Concepts, Theories, and Issues in Art Education</b>	<b>G</b>	<b>2</b>
Review of analytical reading and writing; overview of topics for art education research; graduate faculty research; national and international issues; research resources. Must be taken during the first year of graduate study.			
<b>7000.20</b>	<b>Concepts, Theories, and Issues in Arts/Culture Policy</b>	<b>G</b>	<b>2</b>
Review of analytical reading and writing; overview of topics for arts policy & admin. research; graduate faculty research; national and international issues; research resources. Must be taken during the first year of graduate study.			
<b>7000.30</b>	<b>Issues, Frameworks and Theories for Art Educators</b>	<b>G</b>	<b>3</b>
This course is a required introductory course in Art Education. In this online course, we will critically analyze articles that provide an overview of topics for art education research; graduate faculty research; national and international issues, and research resources.			
<b>7100</b>	<b>Histories and Policies of Arts Education</b>	<b>G</b>	<b>3</b>
Students explore arts/education history while developing skills in researching cultural practices, programs and protocols, and analyzing the impact of arts programs/initiatives and social interventions on citizens and communities. Prereq: Not open to students with credit for 701 or 704.			
<b>7200.10</b>	<b>Introduction to Research Methodologies and Methods</b>	<b>G</b>	<b>3</b>
Introduction to research philosophies, methodologies and methods in arts education, policy, and administration. Prereq: Not open to students with credit for 705.			
<b>7200.20</b>	<b>Overview of Research Planning for Arts Policy &amp; Administration</b>	<b>G</b>	<b>3</b>
Introduction to a range of research resources and methods applicable to APA students including historical, case studies, surveys & interviews. Using the literature to frame research questions, build a conceptual framework and inform research plan. Prereq: Not open to students with credit for 705 or 809.			
<b>7200.30</b>	<b>Overview of Research for Arts Educators</b>	<b>G</b>	<b>3</b>
Introduction to a broad range of qualitative educational research methodologies in the field of art education, mainly in an art teacher's classroom, a museum setting, or community arts space. Includes research terminology and methodologies, data collection methods, and discusses the power of teachers as researchers in their own classrooms. Practices collecting and analyzing data.			
<b>7300</b>	<b>Introduction to Teaching Arts Education at the College Level</b>	<b>G</b>	<b>2</b>
An introduction to theories, methods and issues related to teaching arts education at the college level. Prereq: New or recently reassigned ARTEDUC GTAs, or permission of instructor. Not open to students with credit for 707.			
<b>7604</b>	<b>Teaching of Studio Activities</b>	<b>G</b>	<b>3</b>
Exploration of instructional application of various art materials for educational settings. Prereq: Not open to students with credit for 604.			
<b>7606</b>	<b>Technology and Digital Texts</b>	<b>G</b>	<b>3</b>
Theory and practice of engaging others in technologies and digital texts relative to art education practice. Prereq: Not open to students with credit for 606.			

## 40 Art Education

<b>7607</b>	<b>Curriculum Planning and Assessment in Art Education</b>	<b>G</b>	<b>3</b>
Introduction to curriculum development including artmaking practices and assessment strategies. Prereq: Not open to students with credit for 604, 607 or 731.			
<b>7681</b>	<b>Arts/Cultural Institutions, Organizational Theories &amp; Management Practice</b>	<b>G</b>	<b>3</b>
Building on organizational theories, this course examines the purpose and function of arts and cultural institutions and current management practices in the creative sector. Prereq: Not open to students with credit for 681.			
<b>7701</b>	<b>Contemporary Theory and Art Education</b>	<b>G</b>	<b>3</b>
Investigation of contemporary theory from an interdisciplinary perspective and the implications for art education.			
<b>7707</b>	<b>Action Research Theory and Practice</b>	<b>G</b>	<b>3</b>
Exploration of action research theories and practices in school, community, and organizational settings.			
<b>7708</b>	<b>Universal Design for Learning: Disability Studies and Art Education</b>	<b>G</b>	<b>3</b>
This course explores Universal Design for Learning in Art Education for the purposes of enhancing the learning experiences of students with disabilities and all learners and makes practical applications to classroom experiences.			
<b>7709</b>	<b>Arts-Based Education Research Approaches</b>	<b>G</b>	<b>3</b>
Survey a range of arts-based research methods in the multiple arts and education fields. Explore/develop and analyze innovations in data gathering, analyses, performance/presentation and publication.			
<b>7710</b>	<b>Experimental Writing in Qualitative Research</b>	<b>G</b>	<b>3</b>
Offers readings, discussion, and practice in writing new texts that expand the conception of qualitative research. Students engage in workshops with peers and established arts-informed writers. Completion of one qualitative research course is recommended but not required for enrollment.			
<b>7711</b>	<b>Designing and Writing Research Proposals</b>	<b>G</b>	<b>3</b>
This course is designed to assist in understanding the nature and purpose of the dissertation proposal as well as the strategies necessary to conceive of it and construct it.			
<b>7725</b>	<b>Re-imagining Research Writing Through Creative Inquiry</b>	<b>G</b>	<b>3</b>
This trans-disciplinary writing seminar encourages graduate researchers to develop a philosophy and practice of writing that reflects a full range of scholarly expression. Beginning with a review of expository writing, students engage with the theory and practice of shaping new ways to conceive of and write scholarly research in their respective disciplines.			
<b>7735</b>	<b>Art Museum History, Theory, and Practices</b>	<b>G</b>	<b>3</b>
Critical examination of the historic and theoretical foundations of art and other museums as an institution, drawing on multiple disciplinary perspectives. Counts toward Museum Education specialization.			
<b>7736</b>	<b>Teaching and Learning in Art Museums</b>	<b>G</b>	<b>3</b>
A theoretical and practical study of teaching and learning in and through museums. Counts toward Museum Education specialization.			
<b>7740</b>	<b>Docent Training</b>	<b>G</b>	<b>3</b>
Introduces students to theory and techniques of teaching in museum galleries at the Wexner Center for the Arts. Students are trained to lead tours by studying contemporary art, tour planning strategies and interactive techniques. Prereq: Permission of instructor.			
<b>7748</b>	<b>Art Museum Education &amp; Administration Practicum</b>	<b>G</b>	<b>3</b>
An examination of the role of education in art museums through an in-depth experience in a museum setting. Counts toward Museum Education specialization.			
<b>7756</b>	<b>Semiotics and Visual Culture</b>	<b>G</b>	<b>3</b>
Traditional and contemporary theories of semiotics applicable to visual culture. Understanding how cultural meanings are created, maintained and habits are shifted.			
<b>7766</b>	<b>Exploring Practices of Meaning Making and Artmaking</b>	<b>G</b>	<b>3</b>
Exploring meaning making practices and artmaking through materiality, play, and affect. Theoretical perspectives derive from Deleuzian philosophy, semiotics, and poststructuralist theory.			
<b>7767</b>	<b>Critical Analysis of Multicultural Art Education</b>	<b>G</b>	<b>3</b>
Investigation and analysis of multicultural theories, issues, and practices for art education. Prereq: Not open to students with credit for 767.			
<b>7775</b>	<b>Social and Cultural Theories in Art and Art Education</b>	<b>G</b>	<b>3</b>
Critical investigation of theoretical, artistic, and pedagogical concepts related to diversity.			
<b>7777</b>	<b>Research to Advocacy</b>	<b>G</b>	<b>3</b>
This course engages practicing arts educators in developing effective advocacy strategies, arguments and approaches grounded in reliable research and assessment measures. Educators clearly communicating these measures can effectively leverage them in persuading administrators, parents and policy makers to energetically support and advance the critical work of arts education.			

<b>7795</b>	<b>Seminar on Topical Issues in Art Education</b>	<b>G</b>	<b>3</b>
Seminar on Topical Issues in Art Education. Repeatable to a maximum of 30 cr hrs.			
<b>7890</b>	<b>Colloquium</b>	<b>G</b>	<b>1½</b>
An interdisciplinary forum of students and faculty for discussing themes selected by graduate students in the Department of Art Education. Repeatable to a maximum of 3 cr hrs or 2 completions. This course is graded S/U.			
<b>8191.01</b>	<b>Internship in Arts Management</b>	<b>G</b>	<b>1 - 9</b>
Supervised professional experience in performing arts, visual arts, literary arts, or museum/historical organization. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>8191.02</b>	<b>Art and Cultural Policy Internship</b>	<b>G</b>	<b>1 - 9</b>
Supervised professional experience in government arts or a cultural agency at any level - local, state, regional, national, or international - or within a trade or professional association engaged in arts advocacy. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>8191.03</b>	<b>Internship: Engaging with Art Museums &amp; Communities</b>	<b>G</b>	<b>1 - 9</b>
Supervised professional experience within a museum or public gallery that provides educational services. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>8191.04</b>	<b>Community Arts Internship</b>	<b>G</b>	<b>1 - 9</b>
Supervised professional experience in a community setting that provides programs addressing arts education. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 5</b>
Individual Studies. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.			
<b>8194</b>	<b>Group Studies</b>	<b>G</b>	<b>3</b>
Group studies for students in specialized programs. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>8798.02</b>	<b>Study Tour Foreign</b>	<b>G</b>	<b>1 - 9</b>
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Foreign. Repeatable for different study tours only. Repeatable to a maximum of 12 cr hrs.			
<b>8911</b>	<b>Research Problems in Art Education</b>	<b>G</b>	<b>1 - 9</b>
Research problems in Art Education. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 3 completions.			
<b>8998</b>	<b>Research for Candidacy Examination</b>	<b>G</b>	<b>1 - 9</b>
Research for candidacy examination. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions. This course is graded S/U.			
<b>8999</b>	<b>Research for Dissertation</b>	<b>G</b>	<b>1 - 9</b>
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions. This course is graded S/U.			

## Arts and Sciences

<b>1100.01</b>	<b>Arts and Sciences Survey: General</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.			
<b>1100.01H</b>	<b>Arts and Sciences Survey: General (Honors)</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Honors standing, or permission of instructor or department. Not open to students with credit for any College Survey 100.XX course. This course is graded S/U.			
<b>1100.02</b>	<b>Arts and Sciences Survey: Special</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.			
<b>1100.03</b>	<b>Arts and Sciences Survey: PASS</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.			

<b>1100.04 Arts and Sciences Survey: Transfer</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.05 Arts and Sciences Survey: Art</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.06 Arts and Sciences Survey: Arts and Humanities</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.07 Arts and Sciences Survey: Biological Sciences</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.09 Arts and Sciences Survey: Design</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.10 Arts and Sciences Survey: Mathematical and Physical Sciences</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.11 Arts and Sciences Survey: Music</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.14 Arts and Sciences Survey: Social and Behavioral Sciences BA</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1100.15 Arts and Sciences Survey: Social and Behavioral Sciences BA/BS</b>	<b>U</b>	<b>1</b>
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of Arts and Sciences academic areas of study and services. Prereq: Permission of department or instructor. Not open to students with credit for any College Survey 100.xx course. This course is graded S/U.		
<b>1101 First or Second Year Seminar</b>	<b>U</b>	<b>1</b>
Seminars on varying topics taught by University faculty. Prereq: Fresh or Soph standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.		
<b>1102H Regional Honors Seminar</b>	<b>U</b>	<b>1</b>
Seminars on varying topics taught by University faculty on regional campuses and intended to provide a common experience for Honors students. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.		
<b>1120.01 Arts Scholars Seminar</b>	<b>U</b>	<b>1</b>
This seminar course is designed for first year arts scholars students and explores arts interests, interdisciplinary opportunities, campus and local community arts connections. Prereq: Enrollment in Arts Scholars Program.		
<b>1120.02 Biological Sciences Scholars Seminar</b>	<b>U</b>	<b>1</b>
Scholars Program academic and co-curricular requirements and expectations; University procedures relative to the BIO SCI Scholars experience; resources and opportunities related to the BIO SCI Scholars program theme. Students will explore involvement related to service, research, and preparation for graduate/professional school and careers in the biological sciences. Prereq: Enrollment in Biological Sciences Scholars Program.		
<b>1120.03 Humanities Scholars Seminar</b>	<b>U</b>	<b>1</b>
Designed for the first year Humanities Scholars to explore personal humanities interests, interdisciplinary opportunities, campus and local humanities resources, and cultural topics in the humanities. Prereq: Enrollment in Humanities Scholars Program.		

<b>1120.04 International Affairs Scholars Seminar</b>	<b>U</b>	<b>1</b>
Introduction to major topics and themes in International Affairs; introduction to expectations and guidelines of the IA Scholars Program; overview of university resources and services related to the IA Scholars theme; overview of professional development and potential career paths; connections to and awareness of campus, city, and national resources related to IA Scholars theme. Prereq: Enrollment in International Affairs Scholars Program.		
<b>1120.05 Politics, Society, &amp; Law Scholars Seminar</b>	<b>U</b>	<b>1</b>
This seminar course is designed to explore interdisciplinary opportunities, campus and community resources, personal and professional development, and themes specific to the Politics, Society, and Law Scholars Program. Thematic topics will include but are not limited to those related to Ohio's judicial system, free speech, communication, and conflict. Prereq: Enrollment in Politics, Society, and Law Scholars Program.		
<b>1120.06 STEM Exploration &amp; Engagement Scholars Seminar</b>	<b>U</b>	<b>1</b>
This seminar course is designed for first year Scholars students to explore personal interests, interdisciplinary opportunities, campus and local community resources, and specific theme activities related to STEM Exploration and Engagement Scholars. Prereq: Enrollment in STEM Exploration and Engagement Scholars Program.		
<b>1137.01 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.02 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.03 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.04 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.05 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.06 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.07 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.08 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.09 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.10 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.		
<b>1137.11 First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students opportunities for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs.

## 44 Arts and Sciences

<b>1138.28</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.29</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.30</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.31</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.32</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.33</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.34</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.35</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.36</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.37</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.38</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.39</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1138.40S</b>	<b>First-Year Seminar</b>	<b>U</b>	<b>1</b>
Affords first-year students the opportunity for contact with faculty in small group settings; introduction to academic areas, research, and frontier areas of scholarly pursuit. Prereq: Fresh standing, or permission of instructor. Only one First-Year Seminar per semester allowed. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>1191</b>	<b>Non-Credit Internship</b>	<b>U</b>	<b>0</b>
Internship conducted under the supervision of the employer; enrollment and evaluation coordinated by ASC Career Services. Student is responsible for finding the internship prior to the start of the term. Requires permission to enroll. Prereq: GPA 2.0 or above. Repeatable to a maximum of 6 completions. This course is graded S/U.			

<b>1900</b>	<b>Career Readiness for Arts &amp; Sciences Majors</b>	<b>U</b>	<b>1</b>
Broaden understanding of career fields and learn about how to increase readiness for obtaining work related to career goals. Also covers writing resumes, obtaining internships, and effective strategies for finding employment for after graduation. Prereq: Not open to students with credit for 400.01 or ESCE 2271 (EduPAES 270.01). This course is graded S/U.			
<b>2120</b>	<b>Information Search, Evaluation and Use</b>	<b>U</b>	<b>2</b>
This seven-week course will help you develop skills and habits that will allow you to responsibly find, consume, create, and share information online. Among these habits is the creation of a search strategy, critical evaluation of online sources, and the use of copyrighted materials. We hope you leave this course as an intentional, reflective, and critical consumer of information.			
<b>2121</b>	<b>Academic Online Research</b>	<b>U</b>	<b>2</b>
The purpose of this course is to help you develop skills and habits that will help you to be successful on research assignments in college, as well as situations that require you to use information in your professional, personal, and civic lives. In other words, we hope you leave this course as an intentional, reflective, and critical consumer of information.			
<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Individual Studies for undergraduate students. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
<b>2194</b>	<b>Interdisciplinary Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Study of special or interdisciplinary topics at an introductory level. 2194H (honors) may be available. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>2194H</b>	<b>Interdisciplinary Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Study of special or interdisciplinary topics at an introductory level. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>2400</b>	<b>Conversations on Morality, Politics, and Society</b>	<b>U</b>	<b>3</b>
Students will explore the topic of the COMPAS program from a variety of disciplinary perspectives and be required to attend or to view recordings of the various COMPAS events. GE culture and ideas course.			
<b>2400E</b>	<b>Conversations on Morality, Politics, and Society</b>	<b>U</b>	<b>3</b>
Students explore the COMPAS program topic from a variety of perspectives and attend or view recordings of various COMPAS events. They also complete additional readings, have 5-6 hours of meetings with the instructor, and write a term paper. Prereq: Honors standing, or permission of instructor. GE cultures and ideas course.			
<b>2797.02</b>	<b>Contemporary India</b>	<b>U</b>	<b>3</b>
This interdisciplinary course introduces students to contemporary India, with a focus on the foundational diversities of Indian society, culture, religion, politics, and economy. Students will also critically reflect on how their study abroad has impacted their understanding of India and our contemporary world. GE education abroad course.			
<b>2798.02</b>	<b>Study Tour: Foreign</b>	<b>U</b>	<b>1 - 10</b>
Specific content, location, semesters of offering, and prerequisites vary; contact department office for details. Repeatable for differently titled study tours only. Non GE. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>2798.03</b>	<b>Study Tour: Introduction to the History, Politics, and Culture of Great Britain</b>	<b>U</b>	<b>3</b>
This interdisciplinary study tour introduces students to the History, Politics, and Culture of Great Britain. An examination of certain core British institutions, traditions, and problems mainly through the lens of imaginative literature - especially poetry and short stories - but will also incorporate other kinds of sources. GE education abroad course.			
<b>2798.04</b>	<b>Introduction to Quebec</b>	<b>U</b>	<b>3</b>
This interdisciplinary course introduces students to the history and culture of Quebec with time spent in Montreal, Ottawa, and Quebec City. The course examines core institutions and traditions through lecture, discussion and experiential learning of the region's history, politics, literature, geography and science. Prereq: Permission of instructor. GE education abroad course.			
<b>2798.05</b>	<b>Cuba: Race, Revolution, and Culture</b>	<b>U</b>	<b>3</b>
This course analyzes the role of race and culture in the formation of contemporary Cuban politics and national identity, with emphasis on Cuba's African roots and attention to the role of the arts as a means of resistance to social injustice. Instruction is at the Newark campus (3 weeks) and in Cuba (10 days in Havana and Varadero). Prereq: Permission of instructor. GE education abroad course.			
<b>2798.06</b>	<b>The Past, Present, and Future of Liverpool</b>	<b>U</b>	<b>3</b>
This interdisciplinary study tour introduces students to the history, literature, and culture of Liverpool, England. The course examines core institutions, traditions, and issues through lecture, discussion, and experiential learning of government, literature, history, culture, and other relevant materials. Prereq: Permission of instructor. GE education abroad course.			

<b>3142.01</b>	<b>Online Research and the Science Literature</b>	<b>U</b>	<b>2</b>
Searching techniques, information resource types, and evaluation of online science information resources. Designed for life/physical sciences and engineering students.			
<b>3191.01</b>	<b>For-Credit Internship</b>	<b>U</b>	<b>1 - 12</b>
Internship conducted under the supervision of the employer; grade determined by ASC faculty member. Student must obtain the internship before the start of the term, and a signed learning agreement approved by faculty member and employer by first day. Enrollment in an academic department internship course is not permitted during the same term. Prereq: GPA 2.50 or above, and Soph standing or above. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>3191.02</b>	<b>Internship &amp; Career Exploration</b>	<b>U</b>	<b>1 - 2</b>
Internship under the supervision of the employer, and enrollment and evaluation coordinated by ASC Career Services. Student must obtain the position, and signed agreements by employer and instructor, prior to the start of the term. Assignments vary. Prereq: GPA 2.50 or above, and Soph standing or above. Enrollment in an academic department internship course is not permitted during the same term. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.			
<b>4194</b>	<b>Interdisciplinary Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Study of special or interdisciplinary topics at the upper-division level. 4194H (Honors) may be available. Prereq: Jr or Sr standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>4194H</b>	<b>Interdisciplinary Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Study of special or interdisciplinary topics at the upper division level. Prereq: Honors standing, and Jr or Sr standing; or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4870</b>	<b>The Ohio State University: Its History and Its World</b>	<b>U</b>	<b>3</b>
An introduction to the past and present of OSU, its importance, its disciplines, the interrelations of the academic and other components of the institution, and the contributions over the years of OSU to the wider world. Prereq: Not open to students with credit for History 4870. GE cultures and ideas course. Cross-listed in History.			
<b>4998</b>	<b>Undergraduate Research in the Arts and Sciences</b>	<b>U</b>	<b>0 - 10</b>
Undergraduate research or creative activities in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Study of special or interdisciplinary studies. 5194H (honors) may be available. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5194H</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Study of special or interdisciplinary studies. Prereq: Honors standing, or permission of department or instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 18</b>
An opportunity for students to study at a foreign institution and receive OSU credit for work completed there. Students will pay OSU fees and any fees in excess of OSU tuition, as well as all travel and subsistence costs. Prereq: Permission of department chairperson. Repeatable to a maximum of 54 cr hrs or 3 completions.			
<b>6110</b>	<b>Health Literacy</b>	<b>G</b>	<b>2</b>
Examine and analyze issues of low health literacy, including populations at risk, research, measurement tools, writing in plain language; health communication techniques; and organizational approaches. Prereq: Grad standing. Not open to students with credit for 709, Nursing 6110 (710), Phr 7090 (Pharmacy 709), AlliMed 7010 (710), or MedColl 7710 (710). Cross-listed in Phr 7090, Nursing 6110, AlliMed 7010, and MedColl 7710.			
<b>6750</b>	<b>Multidisciplinary Seminar for Artists</b>	<b>G</b>	<b>3</b>
A multidisciplinary seminar for graduate students in the arts throughout the university, in which we will look at the process of art-making through the lens of each medium as well as the wider lens we can provide as a group. Prereq: Not open to students with credit for 750.			
<b>8194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Study of special or interdisciplinary topics at the graduate level. Repeatable to a maximum of 9 cr hrs or 3 completions.			

## Asian American Studies

<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate research in variable topics related to Asian American Studies. Student-initiated projects. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

<b>4998H</b>	<b>Undergraduate Honors Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate honors research in variable topics related to Asian American Studies. Student-initiated projects. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Research: Thesis</b>	<b>U</b>	<b>1 - 4</b>
A program of reading, research, writing, and/or creative work arranged for each student, with individual conferences, progress reports, and thesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 4</b>
A program of reading, research, writing, and/or creative work arranged for each student, with individual conferences, progress reports, and honors thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>5191</b>	<b>Internship</b>	<b>U G</b>	<b>1 - 3</b>
Workplace experience requiring writing and/or research. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 3</b>
Individual directed study for work not typically offered in courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Directed study of an Asian American topic not regularly offered in classes. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>5700</b>	<b>Asian American Studies Workshop</b>	<b>U G</b>	<b>1 - 3</b>
Structured participation in seminar or event organized for that semester. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

## Astronomy

<b>1101</b>	<b>From Planets to the Cosmos (With Lab)</b>	<b>U</b>	<b>4</b>
Overview of the Copernican revolution, the discovery of the nature of our solar system, light, gravity, and planets around other stars; the nature and evolution of stars and origin of the chemical elements; the history of galaxies and the expanding universe. Weekly laboratory. Not recommended for students who plan to major in astronomy or physics. Prereq: Math 1050 (075) or 102, or an ACT math subscore of 22 or higher that is less than two years old, or Math Placement R or higher; or permission of instructor. Not open to students with credit for 1140, 1144, 1161H (H161), 1162H (H162), 2161H, 2162H, 2291 (291), or 2292 (292). GE nat sci phys course.			
<b>1102</b>	<b>From Planets to the Cosmos (No Lab)</b>	<b>U</b>	<b>3</b>
Overview of the Copernican revolution, the discovery of the nature of our solar system, light, gravity, and planets around other stars; the nature and evolution of stars and origin of the chemical elements; the history of galaxies and the expanding universe. Not recommended for students who plan to major in astronomy or physics. Prereq: Math 1050 (075) or 102, or an ACT math subscore of 22 or higher that is less than two years old, or Math Placement R or higher; or permission of instructor. Not open to students with credit for 1101, 1140, 1144, 1161H (H161), 1162H (H162), 2161H, 2162H, 2291 (291), or 2292 (292). GE nat sci phys course.			
<b>1140</b>	<b>Planets and The Solar System</b>	<b>U</b>	<b>3</b>
Physical nature of the sun and its family of planets, satellites, comets and minor bodies; gravitation, light, and telescopes. Not recommended for students who plan to continue in astronomy or physics. Prereq: ACT Math Subscore of 22 or higher, or Math Placement Level R or better, or Math 1050 (075) or 102, or permission of instructor. Not open to students with credit for 1161 (161), 1161H (161H), 2291 (291), or 171. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			
<b>1141</b>	<b>Life in the Universe</b>	<b>U</b>	<b>3</b>
Potential for life elsewhere in the universe, based on discovery of extra-solar planets and nature of life on Earth; search strategies for such life. Prereq: Not open to students with credit for 141. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			
<b>1142</b>	<b>Black Holes</b>	<b>U</b>	<b>3</b>
The nature, formation, and discovery of black holes in the universe. Prereq: ACT Math Subscore of 22 or higher, or Math Placement Level R or better, or Math 1050 (075), or permission of instructor. Not open to students with credit for 142. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			
<b>1143</b>	<b>Cosmology: History of the Universe</b>	<b>U</b>	<b>3</b>
Description of the history of the universe from Big Bang to present; how observations led to discovery of this history. Prereq: Not open to students with credit for 2292 (292) or 1162 (162) or 143 or 172. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			

## 46 Astronomy

<b>1144</b>	<b>Stars, Galaxies, and the Universe</b>	<b>U</b>	<b>3</b>
Structure, motions, and evolution of stars, interstellar material, galaxies, and the universe as a whole. Not recommended for students who plan to continue in astronomy or physics. Prereq: ACT Math Subscore of 22 or higher, or Math Placement Level R or better, or Math 1050 (075), 102, or permission of instructor. Not open to students with credit for 2292 (292), 1162 (162), 1162H (162H), or 172. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			
<b>1221</b>	<b>Astronomy Data Analysis</b>	<b>U</b>	<b>3</b>
Overview of data analysis in astronomy. The course will combine select topics in modern astronomy with contemporary data analysis methods implemented in the Python programming language, illustrating how astronomical data lead to scientific conclusions. It is intended for students with interest in astronomy and analysis of large data sets; prior astronomy experience not required. Prereq or concur: Math 1141, 1151, or 1161. GE nat sci phys course.			
<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 10</b>
Independent library or laboratory work on a special problem or topic in observational or theoretical astronomy. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs or 3 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 10</b>
Special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 2 completions. This course is graded S/U.			
<b>2291</b>	<b>Basic Astrophysics and Planetary Astronomy</b>	<b>U</b>	<b>3</b>
Motions and physical nature of objects in the solar system; electromagnetic radiation, telescopes, and astronomical detectors. Prereq: Physics 1251 (133), or permission of instructor. Not open to students with credit for 291. This course is available for EM credit. GE nat sci phys course.			
<b>2292</b>	<b>Stellar, Galactic, and Extragalactic Astronomy and Astrophysics</b>	<b>U</b>	<b>3</b>
Observational and physical properties of the sun and stars; stellar structure and evolution; interstellar medium; galaxies and cosmology. Prereq: 2291 (291), or permission of instructor. Not open to students with credit for 292. This course is available for EM credit. GE nat sci phys course.			
<b>2895</b>	<b>Topics in Astrophysics</b>	<b>U</b>	<b>1</b>
Prospective astronomy majors will meet weekly with different astronomy faculty to learn about current research topics, facilities, and opportunities available in the undergraduate astronomy program. Prereq: Not open to students with credit for two sections of 295. This course is graded S/U.			
<b>3350</b>	<b>Methods of Astronomical Observation and Data Analysis</b>	<b>U</b>	<b>3</b>
Astronomical observational techniques and quantitative analysis of astronomical data; practical experience with modern astronomical instrumentation and computer-based reduction, analysis, and interpretation of astronomical data. Prereq: 1162 (162), 1162H (162H), or 2292 (292), and Math 1152 (153), and Physics 1251 (133). Not open to students with credit for 350. GE data only course.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 10</b>
Independent library or laboratory work on a special problem or topic in observational or theoretical astronomy. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs or 3 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 10</b>
Special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 2 completions. This course is graded S/U.			
<b>4998</b>	<b>Non-Thesis Research</b>	<b>U</b>	<b>1 - 10</b>
Directed undergraduate research (non-thesis). Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs or 4 completions. This course is graded S/U.			
<b>4998H</b>	<b>Honors Non-Thesis Research</b>	<b>U</b>	<b>1 - 10</b>
Directed undergraduate research (non-thesis). Prereq: Honors standing; and permission of instructor. Repeatable to a maximum of 30 or hrs or 4 completions. This course is graded S/U.			
<b>4999</b>	<b>Thesis Research</b>	<b>U</b>	<b>1 - 10</b>
Directed undergraduate research for thesis. Prereq: Permission of department and instructor. Repeatable to a maximum of 30 or hrs or 10 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 10</b>
Directed undergraduate research (thesis). Prereq: Permission of department and instructor. Repeatable to a maximum of 30 or hrs or 10 completions. This course is graded S/U.			

<b>5205</b>	<b>Planetary Science</b>	<b>U G</b>	<b>3</b>
A multidisciplinary approach to planetary science, integrating modern methods with the Earth and Astrophysical Sciences. Team-taught with faculty in Earth Sciences. Prereq: Math 1152 and a GE Data Analysis course, or permission of instructor. Not open to students with credit for EarthSc 5205. Cross-listed in EarthSc.			
<b>5681</b>	<b>Principles of Stellar Evolution and Nucleosynthesis</b>	<b>U G</b>	<b>3</b>
Physics of stellar structure, evolution, and nucleosynthesis. Prereq: Math 2174, 2255 (255), or 2415 (415); and Physics 5500 (631); or permission of instructor. Not open to students with credit for 681 or Physics 681.			
<b>5682</b>	<b>Introduction to Cosmology</b>	<b>U G</b>	<b>3</b>
Structure and evolution of the Universe. Prereq: Math 2174 or 2255 (255) or 2415 (415); and Physics 2301 (263); or permission of instructor. Not open to students with credit for 682 or Physics 682.			
<b>5830</b>	<b>Observed Properties of Astronomical Systems</b>	<b>U G</b>	<b>5</b>
Observed properties of planets (including extrasolar planets), the solar system, stars, and both active and quiescent galaxies. Prereq: Permission of instructor. Not open to students with credit for 830.			
<b>6891</b>	<b>Astronomy Seminar I</b>	<b>G</b>	<b>2</b>
First and second year graduate students will participate in weekly departmental colloquia and journal club. Prereq: Grad standing in Astron. Not open to students with 4 qtr or hrs for 801. Repeatable to a maximum of 4 or hrs. This course is graded S/U.			
<b>6892</b>	<b>Astronomy Seminar II</b>	<b>G</b>	<b>2</b>
First and second year graduate students will participate in weekly departmental colloquia and journal club. Prereq: Grad standing in Astron. Not open to students with 8 qtr or hrs in Astron 802 and/or 803. Students with no more than 4 qtr or hrs in Astron 802 and/or Astron 803 may take this course only once. This course is graded S/U.			
<b>7810</b>	<b>Order of Magnitude Astrophysics</b>	<b>G</b>	<b>2</b>
Methods for solution of a wide range of astrophysical problems, building on basic physical principles. Prereq: Grad standing in Astron, or permission of instructor. Not open to students with 8 qtr or hrs in Astron 810. Students with no more than 4 qtr or hrs in 810 may enroll only once. Repeatable to a maximum of 4 or hrs. This course is graded S/U.			
<b>8194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 5</b>
Special topics not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 40 or hrs or 20 completions. This course is graded S/U.			
<b>8823</b>	<b>Atomic and Radiative Processes in Astrophysics</b>	<b>G</b>	<b>3</b>
Continuum and discrete radiative processes relevant to astrophysics. Prereq: Grad standing in Astron; or permission of instructor. Not open to students with credit for 822 and 823.			
<b>8824</b>	<b>Numerical and Statistical Methods in Astrophysics</b>	<b>G</b>	<b>2</b>
Practical applications of numerical and statistical methods used in modern astrophysics. Prereq: Grad standing in Astron; or permission of instructor.			
<b>8831</b>	<b>Stellar Structure and Evolution</b>	<b>G</b>	<b>3</b>
Theoretical aspects of the structure and evolution of single stars. Prereq: Grad standing in Astron; or permission of instructor. Not open to students with credit for 831.			
<b>8870</b>	<b>Dynamics</b>	<b>G</b>	<b>3</b>
Planetary dynamics, stellar dynamics, and astrophysical gas dynamics. Prereq: Grad standing in Astron; or permission of instructor. Not open to students with credit for 825 and 870.			
<b>8871</b>	<b>The Interstellar Medium and the Intergalactic Medium</b>	<b>G</b>	<b>3</b>
The physics of low-density gases, with application to the interstellar medium and the intergalactic medium. Prereq: Grad standing in Astron; or permission of instructor. Not open to students with credit for 871.			
<b>8873</b>	<b>Cosmology</b>	<b>G</b>	<b>3</b>
Structure and evolution of the universe, physical processes in the early universe, formation of cosmic structure. Prereq: Grad standing in Astron; or permission of instructor. Not open to students with credit for 873.			
<b>8998</b>	<b>Directed Research in Astronomy and Astrophysics</b>	<b>G</b>	<b>1 - 12</b>
Directed laboratory or library research under the direction of a faculty member that is not leading directly to a dissertation or thesis. Prereq: Grad standing in Astronomy, or permission of instructor. Repeatable to a maximum of 60 or hrs or 20 completions. This course is graded S/U.			
<b>8999</b>	<b>Research in Astronomy and Astrophysics</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation or thesis. Prereq: Grad standing in Astronomy, and permission of instructor. Repeatable to a maximum of 20 completions. This course is graded S/U.			

## Athletic Training

<b>2000</b>	<b>Basic Athletic Training</b>	<b>U</b>	<b>3</b>
Introduction to profession of Athletic Training, its governing organizations and basic knowledge and skills in prevention, recognition, management and rehabilitation of injuries and illnesses. Prereq: Enrolled in School of Health and Rehabilitation Sciences, or permission of instructor. Not open to students with credit for 303. Admis Cond course.			
<b>2010</b>	<b>Athletic Training Pre-Clinical Skills</b>	<b>U</b>	<b>1</b>
Instruction and assessment of foundational athletic training skills. Course also includes directed observations in selected athletic training facilities. Prereq or concur: 2000.			
<b>2100</b>	<b>Athletic Training Skills Assessment I</b>	<b>U</b>	<b>1</b>
Assessment of student mastery in selected Athletic Training Clinical Skills. Prereq: 2300.			
<b>2189</b>	<b>Introduction to Clinical Care in Athletic Training</b>	<b>U</b>	<b>3</b>
Introduction to clinical field experience in Athletic Training. Includes limited supervised clinical experience in selected Athletic Training facilities. Concur: 2300.			
<b>2200</b>	<b>Foundations of Athletic Training Diagnosis</b>	<b>U</b>	<b>3</b>
In depth exploration of the morphological and functional changes that are influenced by and result from sport participation, injury, and illness and that are foundational for making accurate diagnoses. Prereq: Anatomy 2300 or 3300, and admission to the Athletic Training Program.			
<b>2289</b>	<b>Athletic Training Clinical Experience First Year Multisite</b>	<b>U</b>	<b>3</b>
Supervised clinical field experience in Athletic Training rotating through multiple selected facilities. Prereq: 2189.			
<b>2300</b>	<b>Athletic Training Diagnosis and Acute Management I</b>	<b>U</b>	<b>3</b>
Pathology, evaluation, diagnosis, on-field care, and management of lower extremity & axial skeleton pathologies by athletic trainers. Special emphasis on management of acute trauma and return to play determinations. Prereq: 2200.			
<b>2310</b>	<b>Athletic Training Diagnosis and Acute Management II</b>	<b>U</b>	<b>3</b>
Pathology, evaluation, diagnosis, on-field care, and management of upper extremity & head pathologies by athletic trainers. Special emphasis on management of acute trauma and return to play determinations. Prereq: 2300.			
<b>3100</b>	<b>Athletic Training Skills Assessment II</b>	<b>U</b>	<b>1</b>
Assessment of student mastery in selected Athletic Training Clinical Skills. Prereq: 2100.			
<b>3110</b>	<b>Athletic Training Skills Assessment III</b>	<b>U</b>	<b>1</b>
Assessment of student mastery in selected Athletic Training Clinical Skills. Prereq: 3100.			
<b>3189</b>	<b>Athletic Training Clinical Experience: Collegiate I</b>	<b>U</b>	<b>5</b>
Supervised Athletic Training clinical experience in the intercollegiate athletics setting. First of three course sequence. Prereq: 2289.			
<b>3289</b>	<b>Athletic Training Clinical Experience: Collegiate II</b>	<b>U</b>	<b>5</b>
Supervised Athletic Training clinical experience in the intercollegiate athletics setting. Second of three course sequence. Prereq: 3189.			
<b>3389</b>	<b>Athletic Training Clinical Experience: Collegiate III</b>	<b>U</b>	<b>1</b>
Supervised Athletic Training clinical experience in the intercollegiate athletics setting. Third of three course sequence. Prereq: 3289.			
<b>3500</b>	<b>Athletic Training Therapeutic Modalities</b>	<b>U</b>	<b>3</b>
Theory and clinical application of physical agents including heat, cold, light, sound, electromagnetic and mechanical energy in treatment and rehabilitation performed by Athletic Trainers. Prereq: 2310.			
<b>3600</b>	<b>Athletic Training Biomechanics</b>	<b>U</b>	<b>3</b>
Theory and clinical application of biomechanics, kinetics, and kinematics by Athletic Trainers in the prevention, diagnosis, management, and rehabilitation of injuries. Prereq: 2310.			
<b>3700</b>	<b>Athletic Training Therapeutic Exercise</b>	<b>U</b>	<b>3</b>
Theory and clinical application of therapeutic exercise in rehabilitation by Athletic Trainers. Prereq: 3500, 3600, and KnHES 5500.			
<b>3750</b>	<b>Musculoskeletal Screening and Corrective Techniques</b>	<b>U</b>	<b>1</b>
Use of musculoskeletal screening to identify injury risks and development and implementation of specific strengthening programs to minimize those risks. Prereq: 3600.			

## 3800 Care of Medical Emergencies, Trauma, and Disease U 4

Diagnosis, on-field care, and ongoing management of disease and non-orthopedic trauma by athletic trainers. Special emphasis on management of catastrophic injury and on inflammation and repair. Prereq or concur: 2310.

## 4100 Athletic Training Skills Assessment IV U 1

Assessment of student mastery in selected Athletic Training Clinical Skills. Prereq: 3110.

## 4110 Athletic Training Skills Assessment V U 1

Assessment of student mastery in selected Athletic Training Clinical Skills. Prereq: 4100.

## 4120 Athletic Training Skills Assessment VI U 1

Assessment of student mastery in selected Athletic Training Clinical Skills. Prereq: 4100.

## 4189 Athletic Training Clinical Experience: High School U 5

Supervised Athletic Training clinical experience in the high school athletics setting. Prereq: 2189.

## 4289 Athletic Training Clinical Experience: General Medicine U 1

Supervised Athletic Training clinical experience in the physician extender/general medical setting. Recommended prereq: 3389. Prereq: 3289.

## 4389 Athletic Training Clinical Experience: Elective U 1 - 12

Elective supervised Athletic Training clinical experience. Intended to provide interested students with additional, non-required clinical practice experiences. Requires pre-approval by AT Division's Director of Clinical Education. Prereq: Permission of Director of Clinical Education. Repeatable to a maximum of 36 cr hrs or 4 completions.

## 4500 Administration in Athletic Training U 3

Administration of Athletic Training programs. Includes management of personnel, budget, facilities, medical records, insurance, legal liability, emergency plans, public relations, and other topics. Prereq: 3700.

## 4600 Psychosocial Issues, Identification and Mediation in Physically Active Patients U 3

Psychosocial theory and facilitation of development. Disorders are outlined to help athletic trainers identify poor coping mechanisms, psychological disorders, mediation and referral strategies and processes. Concur: 4500.

## Atmospheric Sciences

## 2193 Individual Studies in Atmospheric Sciences U 1 - 9

Independent studies on selected atmospheric sciences related topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

## 2194 Group Studies in Atmospheric Sciences U 1 - 3

Special studies on topics directly related to the atmospheric sciences. Repeatable to a maximum of 15 cr hrs or 5 completions.

## 2940 Basic Meteorology U 3

Introduction to the underlying physics of the atmosphere; basic equations of thermodynamics, radiation, and dynamics are presented and used to explain selected atmospheric phenomena. Prereq: Math 1151 and Physics 1250. Not open to students with credit for 230 or 5900 (520).

## 4191 Internship in Atmospheric Sciences U 1 - 6

An opportunity for practical experience and on-the-job learning in an atmospheric sciences related work place. Prereq: 12 cr hrs in major program, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

## 4193 Individual Studies in Atmospheric Sciences U 1 - 9

Independent studies on selected atmospheric science-related topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

## 4194 Group Studies in Atmospheric Sciences U 1 - 3

Special studies on topics directly related to the atmospheric sciences. Repeatable to a maximum of 15 cr hrs or 5 completions.

## 4998 Undergraduate Research in Atmospheric Sciences U 1 - 9

Undergraduate research on topics in Atmospheric Sciences. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

## 48 Atmospheric Sciences

<b>4998H</b>	<b>Honors Undergraduate Research in Atmospheric Sciences</b>	<b>U</b>	<b>1 - 9</b>
Undergraduate research on topics in Atmospheric Sciences. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>4999</b>	<b>Thesis Research</b>	<b>U</b>	<b>1 - 9</b>
A program of research that includes individual conferences and culminates in a thesis. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>4999H</b>	<b>Thesis Research</b>	<b>U</b>	<b>1 - 9</b>
A program of research which includes individual conferences and which culminates in an honors thesis and an oral defense. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>5191</b>	<b>Internship in Atmospheric Sciences</b>	<b>U G</b>	<b>1 - 6</b>
An opportunity for practical experience and on-the-job learning in an atmospheric sciences related work place. Prereq: 12 cr hrs in major program, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>5193</b>	<b>Individual Studies in Atmospheric Sciences</b>	<b>U G</b>	<b>1 - 15</b>
Independent studies on selected atmospheric sciences related topics. Prereq: Permission of instructor. Repeatable to a maximum of 5 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies in Atmospheric Sciences</b>	<b>U G</b>	<b>1 - 3</b>
Special studies on selected atmospheric sciences related topics. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 9</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>5901</b>	<b>Climate System Modeling: Basics and Applications</b>	<b>U G</b>	<b>3</b>
An examination of climate system modeling, including their component atmospheric, oceanic, sea ice and land surface models, and their coupling, and their applications. Prereq: A grade of C- or above 2940 or Geog 5900, or permission of instructor.			
<b>5940</b>	<b>Synoptic Meteorology Laboratory</b>	<b>U G</b>	<b>2</b>
Introduction to reading and interpretation of synoptic weather maps and diagram- and data-communication systems. Prereq: 2940 (230) or Geog 5900 (520). Not open to students with credit for 620 or Geog 5940 (620). Cross-listed in Geog.			
<b>5950</b>	<b>Atmospheric Thermodynamics</b>	<b>U G</b>	<b>3</b>
An analysis of the fundamentals of atmospheric thermodynamics and their application to meteorological problems. Prereq: Math 1152 (153). Not open to students with credit for 631.			
<b>5951</b>	<b>Dynamic Meteorology I</b>	<b>U G</b>	<b>3</b>
Fundamental problems in dynamic meteorology; components of the equations of atmospheric motion are derived, and vorticity and divergence in the development of meteorological systems.			
<b>5952</b>	<b>Dynamic Meteorology II</b>	<b>U G</b>	<b>3</b>
Advanced problems in dynamic meteorology; use of the equations of motion in numerical models of the atmosphere, especially those used by the National Weather Service. Prereq: Math 2255, and a grade of C- or above in AtmosSc 5951 or AeroEng 2405.			
<b>7193</b>	<b>Individual Studies in Atmospheric Sciences</b>	<b>G</b>	<b>1 - 15</b>
Independent studies on selected atmospheric sciences related topics. Prereq: Permission of instructor. Repeatable to a maximum of 5 completions. This course is graded S/U.			
<b>7194</b>	<b>Group Studies in Atmospheric Sciences</b>	<b>G</b>	<b>1 - 3</b>
Special studies on topics directly related to the atmospheric sciences. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>8900</b>	<b>Atmospheric Sciences Seminar</b>	<b>G</b>	<b>3</b>
A multidisciplinary seminar reviewing selected topics in atmospheric sciences and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.			
<b>8999</b>	<b>Research in Atmospheric Sciences</b>	<b>G</b>	<b>1 - 9</b>
Research for thesis or dissertation purpose only. Repeatable to a maximum of 5 completions. This course is graded S/U.			

## Aviation

<b>2000</b>	<b>Introduction to the Aviation Industry</b>	<b>U</b>	<b>3</b>
Introduction to the aviation industry, including its elements, components, and structures. Topics include: aircraft, airports, airspace, a survey of industry segments and purposes, and careers and career paths.			

<b>2100</b>	<b>Private Pilot Fundamentals</b>	<b>U</b>	<b>5</b>
Study of flight fundamentals, aircraft operations, weather, and regulations required for Private Pilot certification. This course is conducted under Federal Aviation Administration Regulations Part 141. Prereq: Not open to students with credit for Aviation 310.01. This course is available for EM credit.			
<b>2101</b>	<b>Private Pilot Flight Lab I</b>	<b>U</b>	<b>2</b>
The first course in a series of two courses that culminate in the attainment of a private pilot certificate with airplane single engine land privileges. An application and orientation process is required before enrollment. Prereq: A grade of B- or above in 2100, and CPHR 2.0 or above. Not open to students with credit for Aviation 341.			
<b>2102</b>	<b>Private Pilot Flight Lab II</b>	<b>U</b>	<b>2</b>
The second course in a series of two courses that culminate in the attainment of a private pilot certificate with airplane single engine land privileges. Prereq: 2101, and CPHR 2.0 or above. Not open to students with credit for Aviation 342.			
<b>2200</b>	<b>Aviation Communication</b>	<b>U</b>	<b>3</b>
Consideration of oral, written, operational, professional, impromptu, prepared, and management communication. Emphasis on aviation communication protocols and formats. Prereq: 2000 and 2100.			
<b>2300</b>	<b>Aircraft Performance and Weather</b>	<b>U</b>	<b>3</b>
Weather theory, patterns, data, and analysis. Data formats and sources. Consideration of weather conditions as they relate to aircraft and flight performance. Prereq: Aviatn 2000 and 2100. Not open to students with credit for Aviation 410 or 411.			
<b>2501</b>	<b>Commercial Cross Country Flight Lab</b>	<b>U</b>	<b>2</b>
Course country flights designed to meet the requirements of the commercial pilot certificate. Prereq: 2100, 2101, and 2102; and CPHR 2.0 or above; and permission of instructor.			
<b>2900</b>	<b>Air Traffic Control Fundamentals</b>	<b>U</b>	<b>3</b>
This course is an in-depth examination of the role and function of the Air Traffic Control environment as it relates to operations and pilot communications within the National Airspace System (NAS). Prereq: 2300, or permission of instructor.			
<b>3000</b>	<b>Aviation Management and Marketing</b>	<b>U</b>	<b>3</b>
Consideration of management and marketing concepts and models. Analysis of management and marketing strategies and practices in the aviation industry. Prereq: 2000 and 2100. Concur: 2200, or a second-level writing course. Not open to students with credit for Aviation 550 or 654.			
<b>3100</b>	<b>Instrument Flight Fundamentals</b>	<b>U</b>	<b>3</b>
Study of flight by reference to instruments, IFR regulations, and procedures in the National Airspace System. Prereq: A grade of B- or above in Aviatn 2100, 2101, and 2102. Not open to students with credit for Aviation 415.			
<b>3101</b>	<b>Instrument Flight Lab</b>	<b>U</b>	<b>3</b>
Instrument flight operations, navigation, patterns, maneuvers, regulations, approach protocols, and cross country flight planning and execution. Prereq: 2100 and 2102; and CPHR 2.0 or above. Concur: 3100. Not open to students with credit for Aviation 441 or 442.			
<b>3193</b>	<b>Individual Studies in Aviation</b>	<b>U</b>	<b>2 - 5</b>
Research, project(s), and/or investigation into aviation topics that are not treated in existing classes. Prereq: Permission of instructor. Repeatable to a maximum of 7 cr hrs or 2 completions. This course is graded S/U.			
<b>3194</b>	<b>Group Studies in Aviation</b>	<b>U</b>	<b>2 - 5</b>
Research, project(s), and/or investigation into comprehensive and larger aviation topics that are not treated in existing classes and are best served by a team. Prereq: Permission of instructor. Repeatable to a maximum of 7 cr hrs or 2 completions.			
<b>3200</b>	<b>Aviation Regulations and Policy</b>	<b>U</b>	<b>3</b>
Consideration and analysis of aviation regulatory environments and processes, such as regulatory certifications, rulemaking, and legislation. Maintenance, airports, aircraft, and operations. Law, environment, safety, security, and operations. Prereq or concur: 3000.			
<b>3300</b>	<b>Aviation Human Factors and Safety</b>	<b>U</b>	<b>3</b>
Consideration of Human Factors including all sensory, perceptive, cognitive and decision making dynamics as they are expressed in aviation. Consideration of aviation safety including incidents, accidents, crew resource management, and performance. Prereq or concur: 3000. Not open to students with credit for Aviation 540 or 560.			
<b>3340.01</b>	<b>Aviation Human Factors Transition</b>	<b>U</b>	<b>2</b>
First half of the curriculum of the new semester course AVN 3300 - "Aviation Human Factors" which is the combination of AVN 540 - Aviation Human Factors, and AVN 560 - Aviation Safety, under the quarter system. This course will focus solely on the aviation human factors component of the combined course curriculum. The course will be offered for 2 semester units. Prereq: Aviation 560. Not open to students with credit for Aviation 540.			

<b>3400</b>	<b>Aviation Accident Investigation</b>	<b>U</b>	<b>3</b>
Review of accident investigation techniques and methodologies that will be reinforced with case examples. Prereq: 2000 and 2100.			
<b>3500</b>	<b>Airline Labor Relations</b>	<b>U</b>	<b>3</b>
Provides students with an overview of the modern airline labor system in the United States as regulated by the Railway Labor Act. Areas of focus include the organizing process, collective bargaining, negotiation tools and techniques, dispute resolution, corporate structures, mergers, and the union's role in safety. Prereq: 2000, 2100, and 3000.			
<b>3600</b>	<b>Business and Corporate Aviation Management</b>	<b>U</b>	<b>3</b>
Analysis and review of the principles and challenges of operating an on-demand air transportation system. Consideration of decision making strategies and sound operating practices that are needed to define and manage a corporate flight department. Presentation of information via textbook, assigned readings, videos, lecture and guest speakers. Prereq: 3000.			
<b>3700</b>	<b>Building a Diverse Workforce in Aviation</b>	<b>U</b>	<b>3</b>
This course is an analysis of what it takes to create and sustain a diverse and inclusive workforce in the aviation industry. Students will engage with guest speakers and readings to understand how diversity, inclusion, and equity are defined. Readings will cover the historical significance of diversity and inclusion efforts. Prereq: 2000, 2100, and 2200; or permission of instructor.			
<b>4000</b>	<b>Air Transportation Analysis I</b>	<b>U</b>	<b>3</b>
Analysis of domestic and international air transportation systems and models. Particular focus on supply and demand components. Consideration of major industry segments, such as commercial, business, cargo, and general aviation. Prereq: Aviatn 3000. Not open to students with credit for Aviation 650 or 652.			
<b>4100</b>	<b>Commercial Flight Fundamentals</b>	<b>U</b>	<b>3</b>
Study of regulations, aerodynamics, systems, performance profiles, navigation, weather, and operations for the commercial pilot certificate. Prereq: A grade of B- or above in Aviatn 2100, 2102, and 3101; or permission of instructor. Not open to students with credit for Aviation 413.			
<b>4101</b>	<b>Commercial Flight Lab</b>	<b>U</b>	<b>3</b>
Second course toward Commercial Pilot certificate single engine land. Prereq: 2102 and 3101; and a CPHR 2.0 or above. Not open to students with credit for Aviation 444 or 445.			
<b>4200</b>	<b>Aircraft Dispatch Fundamentals</b>	<b>U</b>	<b>3</b>
Aircraft Dispatch Fundamentals is the first in a two course sequence of Aircraft Dispatch oriented courses that lead to FAA Aircraft Dispatch Certification. This course provides an overview of aerodynamics, navigation, weather theory and forecasting, and flight planning. Small general aviation aircraft are used as examples in the course. Note: Age Requirements: All students must be 21 years of age upon completion of AVN 4201-Applied Aircraft Dispatch in order to receive a graduation certificate that allows students to sit for the FAA Aircraft Dispatch Practical Exam. This is to ensure compliance with the requirements found in FAR 65.53. Prereq: 2100, 2300, and permission of instructor.			
<b>4201</b>	<b>Applied Dispatching</b>	<b>U</b>	<b>3</b>
Study of dispatch fundamentals, aircraft systems, performance, ATC requirements, and the practical application of dispatching an aircraft. Note: Age Requirements: All students will be required to be 21 years of age upon completion of AVN 4201-Applied Aircraft Dispatch in order to receive a graduate certificate that allows you to sit for the FAA Aircraft Dispatch Practical Exam. This is to ensure compliance with the requirements found in FAR 65.53. Prereq: 4200.			
<b>4300</b>	<b>Advanced Multi-Engine Operations</b>	<b>U</b>	<b>2</b>
Introduction and consideration of Part 121 and 135 operations with a comprehensive study of the principles of advanced aircraft operations. Prereq: Aviatn 4100. Not open to students with credit for Aviation 417.			
<b>4301</b>	<b>Commercial Multi Engine Flight Lab</b>	<b>U</b>	<b>2</b>
Aeronautical knowledge and flight training required to attain an airplane multi engine rating in addition to the Commercial Pilot certificate. Prereq: A grade of B- or above in 3100 and 4100; 2501 and 3101; and a CPHR 2.0 or above. Not open to students with credit for Aviation 446.			
<b>4400</b>	<b>Airport Management</b>	<b>U</b>	<b>3</b>
Comprehensive study of airport operations and management; role of the airport manager in planning, finance, administration, public relations, socio-political and environmental considerations, and operational requirements and maintenance. Prereq: Aviatn 3000. Not open to students with credit for Aviation 552.			
<b>4500</b>	<b>Aviation Capstone</b>	<b>U</b>	<b>3</b>
Directed research, preparation, and presentation of relevant and coordinated information that summarizes current or predicted significant aviation topics, issues, and developments. Partnership with industry is encouraged. Prereq: Aviatn major, and completion of the Aviatn major core.			

<b>4800</b>	<b>Professional Practices in Industry</b>	<b>U</b>	<b>2 - 5</b>
Application of academic skills, knowledge, and training to identify issues, problems, or research in the student's aviation industry workplace. Employment and faculty sponsorship, problem identification, analysis, and solution proposals. Prereq: Approval of faculty sponsor and/or industry employer/sponsor. Not open to students with credit for Aviation 489. Repeatable to a maximum of 7 cr hrs or 2 completions. This course is graded S/U.			
<b>4999H</b>	<b>Aviation Engineering Research for Honors Thesis</b>	<b>U</b>	<b>1 - 3</b>
Supervised research and project work arranged individually for honors students resulting in a written Honors thesis. Prereq: Honors standing in the College of Engineering, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 4 completions.			
<b>5000</b>	<b>Air Transportation Analysis II</b>	<b>U G</b>	<b>3</b>
Consideration of commercial air transportation systems with emphasis on performance measurement, productivity, optimization, and network analysis. Prereq: Aviatn 4000. Not open to students with credit for Aviation 591 or 750.			
<b>5100</b>	<b>Flight Instructor Methodology</b>	<b>U G</b>	<b>2</b>
Study of learning theories, communication techniques, the teaching process, teaching methods, and evaluation. Application of these concepts to develop lesson plans and course(s) of study. Prereq: A grade of B- or above in Aviatn 2300, 3100, and 4100. Not open to students with credit for Aviation 421.			
<b>5101</b>	<b>Flight Instructor ASE Flight Lab</b>	<b>U G</b>	<b>2</b>
Aeronautical knowledge, experience and skills necessary to meet or exceed FAR Part 61 requirements for a flight instructor certificate with airplane single engine land privileges. Prereq: A grade of B- or above in 5100, and CPHR 2.0 or above. Not open to students with credit for Aviation 461.			
<b>5102</b>	<b>Flight Instructor AME Lab</b>	<b>U G</b>	<b>1</b>
Aeronautical knowledge and flight training necessary to attain an airplane multi-engine rating in addition to the Flight Instructor ASEL certificate. Prereq: Aviatn 4301 and 5101. Not open to students with credit for Aviation 463.			
<b>5193</b>	<b>Individual Studies in Aviation</b>	<b>U G</b>	<b>2 - 5</b>
Research, projects, and/or investigations into aviation topics that are not treated in existing classes. Prereq: Permission of instructor. Repeatable to a maximum of 7 cr hrs or 2 completions.			
<b>5194</b>	<b>Group Studies in Aviation</b>	<b>U G</b>	<b>2 - 5</b>
Team research, projects, and/or investigation into comprehensive and larger aviation topics that are not treated in existing classes. Prereq: Permission of instructor. Repeatable to a maximum of 7 cr hrs or 2 completions.			
<b>5200</b>	<b>Instrument Flight Instructor Methodology</b>	<b>U G</b>	<b>2</b>
Teaching methods and evaluation procedures for a course of study leading to an Instrument Instructor rating. Prereq: A grade of B- or above in Aviatn 3100 and 5100. Not open to students with credit for Aviation 422.			
<b>5201</b>	<b>Flight Instructor Instrument Flight Lab</b>	<b>U G</b>	<b>1</b>
Necessary aeronautical knowledge, experience, and skills to meet or exceed FAR Part 61 requirements for instrument flight instructor certification. Prereq: Aviatn 5101, or Flight Instructor Certificate. Not open to students with credit for Aviation 462.			
<b>5300</b>	<b>Airport Planning, Design, and Development</b>	<b>U G</b>	<b>3</b>
A comprehensive study of airport planning, design and development, the role of the airport and its components as part of the overall air transportation system, the issues related to the planning, design, and development of the airport and its system. Prereq: Aviatn 3000, CRPlan 3100, or Sr standing in CivilEn major, or Grad standing, or permission of instructor. Cross-listed in CRPlan and CivilEn.			
<b>5998H</b>	<b>Honors Research in Aviation</b>	<b>U G</b>	<b>1 - 6</b>
Designed to give the student an opportunity to pursue special studies in Aviation at an honors level on topics not otherwise offered. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			

## Biochemistry

<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions. This course is graded S/U.			
<b>2210</b>	<b>Elements of Biochemistry</b>	<b>U</b>	<b>4</b>
A survey of biochemistry stressing the qualitative rather than the quantitative approach. Credit does not count toward a major in biochemistry. Prereq: Chem 1110 (102) or 1210 (122), or equiv. Not open to students with credit for 211 and 212. This course is available for EM credit.			

## 50 Biochemistry

<b>2900H</b>	<b>Early Experience in Research in Biochemistry: Seminar</b>	<b>U</b>	<b>1</b>
Introduction to biochemical research through seminars and laboratory tours by faculty in the department. Biology 1113 (113) recommended but not required. Prereq: Honors standing, and Chem 1220 (123), 1620 (163), or 1920H (203H); or permission of instructor. Not open to students with credit for 1900H or 200H. This course is graded S/U.			
<b>2998H</b>	<b>Early Experience in Research in Biochemistry: Laboratory</b>	<b>U</b>	<b>1 - 3</b>
A laboratory sequel to Biochem 2900H to introduce undergraduates to biochemical research. Prereq: Honors standing, and 2900H; or permission of instructor. Not open to students with credit for 1998H or 201H. This course is graded S/U.			
<b>3798.02</b>	<b>Study Tour: Foreign</b>	<b>U</b>	<b>1 - 10</b>
Study Tour. Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Foreign locations only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 5</b>
Individual Studies. Prereq: Permission of instructor. Repeatable to a maximum of 25 or hrs or 8 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 16 or hrs or 4 completions. This course is graded S/U.			
<b>4511</b>	<b>Introduction to Biological Chemistry</b>	<b>U</b>	<b>4</b>
An introductory course in biochemistry dealing with the molecular basis of structure, metabolism, genetic replication, transcription, and translation in plants, animals, and microorganisms. Prereq: Chem 1220 (123) or 1250 (125), and 2510 (252) or 2310 (231), and one semester of Biological Sciences; or permission of instructor. Not open to students with credit for 511. This course is available for EM credit.			
<b>4998</b>	<b>Undergraduate Research in Biochemistry</b>	<b>U</b>	<b>1 - 5</b>
Undergraduate research in biochemistry, structural and molecular biology. Prereq: Permission of instructor under whose supervision the work is to be completed. Repeatable to a maximum of 20 or hrs or 5 completions.			
<b>4998H</b>	<b>Undergraduate Honors Research in Biochemistry</b>	<b>U</b>	<b>1 - 5</b>
Undergraduate research in biochemistry, structural and molecular biology. Prereq: Honors standing, and permission of instructor under whose supervision the work is to be completed. Repeatable to a maximum of 20 or hrs or 5 completions.			
<b>4999</b>	<b>Thesis Research in Biochemistry</b>	<b>U</b>	<b>1 - 5</b>
A program of reading and research for each student with individual conferences and reports, culminating in the preparation of a thesis. Prereq: Permission of instructor under whose supervision the work is to be completed. Repeatable to a maximum of 20 or hrs or 5 completions.			
<b>4999H</b>	<b>Honors Thesis Research in Biochemistry</b>	<b>U</b>	<b>1 - 5</b>
A program of reading and research for each student with individual conferences and reports, culminating in the preparation of an honors thesis. Prereq: Honors, and Jr or Sr standing, and permission of instructor under whose supervision the work is to be completed. Repeatable to a maximum of 20 or hrs or 5 completions.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 5</b>
A program of supervised independent study for each student with individual conferences and reports. Prereq: Permission of instructor under whose supervision the study is to be completed. Repeatable to a maximum of 25 or hrs or 8 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions.			
<b>5613</b>	<b>Biochemistry and Molecular Biology I</b>	<b>U G</b>	<b>3</b>
An introductory course in biochemistry and molecular biology developing in three semesters the molecular basis of structure and function of living cells. Prereq: Chem 2510 (252), 2610, or 2910H. Prereq or concur: Chem 2520 (253), 2620, or 2920H, and one semester in Biological Sciences. Not open to students with credit for 613 or 4511 (511).			
<b>5614</b>	<b>Biochemistry and Molecular Biology II</b>	<b>U G</b>	<b>3</b>
Continuation of Biochem 5613. Prereq: A grade of C- or above in 5613.			
<b>5615</b>	<b>Biochemistry and Molecular Biology III</b>	<b>U G</b>	<b>3</b>
Continuation of Biochem 5614. Prereq: A grade of C- or above in 5614.			
<b>5621</b>	<b>Biochemistry and Molecular Biology Laboratory</b>	<b>U G</b>	<b>4</b>
Laboratory course covering the principles and application of basic lab techniques, protein purification, enzyme assays, and recombinant DNA technologies. Prereq: A grade of C- or above in 4511 or 5613, or equiv.			

<b>5701</b>	<b>DNA Transactions and Gene Regulation</b>	<b>U G</b>	<b>3</b>
Understanding mechanisms of DNA replication, DNA repair and recombination, transcription, translation, regulation of gene expression, and the experimental approaches to these topics. Prereq: 4511 or equiv., and MolGen 4500 or 5606; and Sr or Grad standing, or permission of instructor. Not open to students with credit for MolGen 5701. Cross-listed in MolGen.			
<b>5721</b>	<b>Physical Biochemistry I</b>	<b>U G</b>	<b>3</b>
Introduction to physical chemistry with emphasis on biological applications; designed for students in the life sciences. Prereq: Biology 1113; Math 1152 (153), 1172, 1181H, or 2162 (162); and Physics 1201 (113) or 1251 (133). Prereq or concur: Chem 2520 (253), 2620, or 2920H. Not open to students with credit for 721.01 or Chem 4200 or 4300.			
<b>5722</b>	<b>Physical Biochemistry II</b>	<b>U G</b>	<b>3</b>
Continuation of Biochem 5721. Prereq: 5721, or Chem 4200 or 4300. Not open to students with credit for 721.02 and 721.03.			
<b>6701</b>	<b>Advanced Biochemistry: Molecular Biology</b>	<b>G</b>	<b>3</b>
An advanced treatment of the biochemical principles of gene and genome function. Prereq: 5615 and MolGen 4500, or equivs. Concur: 6761 or BioPhrm 6761, or permission of instructor. Not open to students with credit for BioPhrm 6701, Micrbio 6080, 6010, or MolGen 5701. Cross-listed in BioPhrm.			
<b>6761</b>	<b>Advanced Biochemistry: Macromolecular Structure and Function</b>	<b>G</b>	<b>3</b>
An advanced treatment of the physical and chemical properties, biological function, and structural biology of proteins and nucleic acids. Prereq: 5615 (615), Chem 2520 (253), 2550 (255), and 4210 (521), or equiv; or permission of instructor. Not open to students with credit for 761 and 766, or Chem 761 and 766, or BioPhrm 6761 (761 and 766). Cross-listed in BioPhrm.			
<b>6762</b>	<b>Advanced Biochemistry: Enzymes</b>	<b>G</b>	<b>1½</b>
An advanced treatment of enzymology and enzyme mechanisms. Prereq: 5615 (615), and Chem 2520 (253) or 2550 (255), and 4210 (521), or equiv; or permission of instructor. Not open to students with credit for 762, Chem 762, or MolBioc 6762 (762). Cross-listed in MolBioc.			
<b>6763</b>	<b>Advanced Biochemistry: Membranes and Lipids</b>	<b>G</b>	<b>1½</b>
An advanced treatment of membranes structure, function, and lipids. Prereq: 5615 (615), Chem 2520 (253), 2550 (255), and 4210 (521), or equiv; or permission of instructor. Not open to students with credit for 763, Chem 763, or MolBioc 6763 (763). Cross-listed in MolBioc.			
<b>6765.01</b>	<b>Advanced Biochemistry: Physical Biochemistry</b>	<b>G</b>	<b>1½</b>
An advanced treatment of physical biochemistry including topics in spectroscopy. Prereq: 5615 (615), Chem 2520 (253), 2550 (255), and 4210 (521), or equiv; or permission of instructor. Not open to students with credit for 6765.02 (765), Chem 765, or MolBioc 765.			
<b>6765.02</b>	<b>Advanced Biochemistry: Physical Biochemistry</b>	<b>G</b>	<b>3</b>
An advanced treatment of physical biochemistry including topics in spectroscopy. Prereq: 5615 (615), Chem 2520 (253), 2550 (255), and 4210 (521), or equiv; or permission of instructor. Not open to students with credit for 6765.01 (765), Chem 765, or MolBioc 765.			
<b>6998</b>	<b>Graduate Research in Biochemistry</b>	<b>G</b>	<b>1 - 12</b>
Research in biochemistry, structural and molecular biology. Repeatable. This course is graded S/U.			
<b>6999</b>	<b>Research for Masters Thesis</b>	<b>G</b>	<b>1 - 12</b>
Research for Masters thesis only. Repeatable. This course is graded S/U.			
<b>7766.01</b>	<b>Advanced Biochemistry: Nucleic Acids</b>	<b>G</b>	<b>1½</b>
Advanced understanding of the structure and function of nucleic acids, their interactions with other biological molecules, and of the techniques for detailed mechanistic investigation of nucleic acid structure and function. Prereq: 6701 or 6761, or permission of instructor. Not open to students with credit for 7766.02.			
<b>7770.01</b>	<b>Advanced Biochemistry: Protein Engineering</b>	<b>G</b>	<b>1½</b>
Current research on genetic and protein engineering of proteins for biotechnological and theoretical studies. Prereq: 6761 (761), Chem 6761 (761), or MolBioc 6761 (761), or equiv, or permission of instructor. Not open to students with credit for 7770.02 (770).			
<b>8900.01</b>	<b>Advanced Biochemistry: Biomolecular NMR</b>	<b>G</b>	<b>1½</b>
Application of NMR spectroscopy to the study of biological macromolecules. Heteronuclear NMR, product operators, multidimensional spectra, proteins, nucleic acids, structure determination, dynamics, ligand complexes. Prereq: Grad standing in Biochemistry, Biophysics or Chemistry, or permission of instructor. Not open to students with credit for 8900.02 (905).			
<b>8990</b>	<b>Advanced Topics in Biochemistry</b>	<b>G</b>	<b>1 - 4</b>
Advanced treatment of areas of current interest in biochemistry; topics will be announced each semester. Prereq: 5615 (615) or equiv, or permission of instructor. Repeatable to a maximum of 16 or hrs or 4 completions.			

8999	Research for Dissertation	G	1 - 12
------	---------------------------	---	--------

Research for doctoral dissertation only.  
Repeatable. This course is graded S/U.

## Bioenergy and Water Treatment Management

1201T	Exploring Bioenergy and Water Treatment Management	U	½
-------	--	---	---

Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

2010T	Introduction to Bioenergy and Water Treatment Management	U	3
-------	--	---	---

An Introduction to conventional and alternative energy (with emphasis on bioenergy and bioproducts), including conservation, economic and environmental issues. Water Consumption, scarcity, pollution, and water resource recovery will be emphasized. Fermentation technology and biochemistry of microbial breakdown of carbohydrates, proteins, and lipids will be introduced.

This course is available for EM credit.

2020T	Bioenergy and Wastewater Technologies	U	4
-------	---------------------------------------	---	---

A detailed description of technologies employed in bioenergy-generating processes and wastewater treatment. Scientific and technical backgrounds of fermentation technology will be introduced. A critical evaluation of the environmental impacts of organic wastes. Bioreactor design; management of industrial, agricultural, and municipal solid wastes and wastewater will be covered.

Prereq: 2010T; Chem 1110 or 1210. This course is available for EM credit.

2030T	Feedstock Evaluation and Analysis	U	3
-------	-----------------------------------	---	---

An Introduction to feedstocks used in the bioenergy/bio-products industry, including analytical tools for feedstock evaluation and handling, and logistical and economic aspects of industrial biomass feedstocks.

Prereq: 2010T. This course is available for EM credit.

2035T	Sustainable Bio-Based Technologies	U	3
-------	------------------------------------	---	---

The science and economics of composting, recycling, bioremediation, and phytoremediation will be introduced. Biocoverion of organic wastes and plant-derived sugars to value-added non-fuel products (platform chemicals and other bio-products) will be explored through classroom sessions and laboratory experiments.

Prereq: 2010T; Chem 1210. This course is available for EM credit.

2040T	Bioenergy and Water Management Projects	U	3
-------	---	---	---

This capstone course provides a general overview of bioenergy-generating and wastewater treatment systems with emphasis on planning and logistics, project management, economics, and operations in a real-world setting. Practical applications for managing waste-to-energy projects and wastewater treatment will be emphasized through hands-on and on-site experience.

Prereq: 2020T; 2030T.

2189T	Bioenergy and Water Management Practicum	U	1 - 2
-------	--	---	-------

Supervised practical experience in a relevant work environment-bioenergy laboratory, wastewater treatment plant, biogas plant-with emphasis on developing competencies related to classroom and career activities. A grade of C or better required to meet graduation requirements.

Repeatable to a maximum of 4 or hrs or 2 completions.

2191T	Bioenergy and Water Management Internship	U	2
-------	---	---	---

Employment experience in a bioenergy/biological waste management work environment that provides varied occupational experience, supervised by an employer and coordinated by faculty. A grade of C or better required to meet graduation requirements.

Prereq: GPA 2.00 or above, and permission of instructor.

2193T	Individual Studies	U	1 - 3
-------	--------------------	---	-------

Designed to give an individual student an opportunity to pursue special studies not offered in other courses.

Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

This course is graded S/U.

2194T	Group Studies	U	1 - 3
-------	---------------	---	-------

Designed to give groups of students an opportunity to pursue special studies not offered in other courses.

Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

## Bioethics

2000	Theory and Foundations of Bioethics	U	3
------	-------------------------------------	---	---

Explores moral concerns and ethical decision-making in medicine and health care. Topics include health care reform informed consent, quality of life decisions, decisions to allow to die, rationing, futility, and scarcity of resources. In particular, we will analyze concerns regarding equality, justice, and individual rights to health care.

GE cultures and ideas course.

2010	Ethics of Biomedical Science Research	U	3
------	---------------------------------------	---	---

Provides a foundation in traditional ethics, a consideration of the subcategories of bioethics, neuroethics, and eugenics and instructs students in how to apply ethics to contemporary issues in research and technology. This course also satisfies the basic components of Responsible Conduct of Research (RCR) education.

GE cultures and ideas course.

2020	Bioethics in Film, Media & Society: Explorations in Culture and Biopolitics	U	3
------	---	---	---

This course is designed as a forum for identifying and discussing moral, societal, and political issues in bioethics as represented through various forms of moving-image culture, primarily in film but also including still photography, television, and digital media.

3000	Case Studies in Medical and Healthcare Ethics	U	3
------	---	---	---

The field of medical ethics has been and is continually shaped by major cases, both famous and infamous. This course surveys the causes and contexts, as well as the philosophical and ethical issues embedded within these cases.

4000	Readings in Bioethics	U	3
------	-----------------------	---	---

Readings in Bioethics entails a close reading of classic bioethics texts from Hippocrates through the beginning of the modern bioethics period (i.e., Fletcher, Ramsey, and Singer) and through the contemporary era. Religious and secular writings from diverse perspectives will be included. This course combines lecture presentation, class discussion, and student presentations.

6000	Bioethics Theory and Foundations	G	3
------	----------------------------------	---	---

Offers a philosophical survey of the moral foundations of contemporary bioethical theories and health care policies.

6010	Biomedical Research Ethics	G	3
------	----------------------------	---	---

The broad intent of this course is to highlight the importance of ethics in biomedical research and to explore how critical ethical thinking can be used to analyze personal decision-making, public regulation, and the law concerning advanced biomedical sciences/technologies and their clinical applications.

6020	Clinical Bioethics I	G	3
------	----------------------	---	---

Explore the major clinical ethical issues confronting the practices of medicine and biomedical science.

6030	Bioethics, Law, & Public Policy	G	3
------	---------------------------------	---	---

Instructs students in rudimentary legal research skills, constitutional foundations of health care law applicable to some classical and contemporary legal issues, and an overview of the structures of the legal system of the United States.

6040	Bioethics Symposium I	G	1½
------	-----------------------	---	----

This unique course follows a longitudinal format with monthly 3-hour lectures, presentations, panel discussions, and/or debates led by various OSU faculty and guest lecturers. The intent of the course is to present to students a wide exposure to the most relevant, contemporary, and controversial topics in bioethics presented from a wide array of experts in the disciplines intersecting bioethics.

Repeatable to a maximum of 3 or hrs. This course is graded S/U.

6050	Bioethics Symposium 2	G	1½
------	-----------------------	---	----

This unique Symposium II course follows a longitudinal format with monthly 3-hour lectures, presentations, panel discussions, and/or debates led by various OSU faculty and guest lecturers.

Repeatable to a maximum of 3 or hrs. This course is graded S/U.

7000	Advanced Clinical Bioethics	G	3
------	-----------------------------	---	---

Building upon Clinical Bioethics (BIOETHIC 6020), this course will engage students in the more advanced processes and procedures of clinical ethical analysis, focusing on ethical reflection, negotiation, and decision making in clinical ethical scenarios. Theoretical frameworks, concepts, and applied analytical strategies will be examined in light of their usefulness for practice.

7010	End of Life Ethics	G	3
------	--------------------	---	---

Over 2/3rds of clinical ethics dilemmas involve end-of-life decision-making. End-of-life care and palliative care are growing fields. This course will engage the essential ethics issues involved in end-of-life care. Clinical cases and medical knowledge will be explored. The prevailing procedural ethics of our time will be utilized to discuss ethical dilemmas.

7030	History of Medical Ethics and Bioethics	G	3
------	---	---	---

The main goal of this course is to explore the historical roots of the field of bioethics. The course will be divided into a few main parts: the first is a broad survey of key figures and movements in medical history from antiquity to modernity, including the Hippocratics, Galenic medicine, the birth of dissection, Christian hospitality, Medieval medicine, modern surgery, the age of antibiotics, etc.

7040	Bioethics and the Holocaust	G	3
------	-----------------------------	---	---

This course is designed to allow students an in-depth study of one of the most troubling periods in the history of medicine the active participation of physicians in the Holocaust. We will attempt to understand the distorted rational behind this genocide by ordinary men and women. We will also discuss, in depth, analogies to today's medical practice.

## 52 Bioethics

<b>7050</b>	<b>Pediatric and Perinatal Bioethics</b>	<b>G</b>	<b>3</b>
This course focuses on key ethical issues surrounding women's health and the pre, peri, and post natal care of the mother and the newborn, including but not limited to ethics of: pre-implantation genetic diagnosis, prenatal diagnosis, maternal decision making, in vitro fertilization, prenatal diagnosis, fetal treatment/surgery, neonatal care, genetic counseling, gene therapy, and genetic testing.			
<b>7060</b>	<b>Religious and Theological Perspectives in Bioethics</b>	<b>G</b>	<b>3</b>
This course addresses the discourses and interplay of secular, religious, and theological perspectives in the field of bioethics. One central goal of this course is to identify the thought and language of secular, immanent bioethics in comparison/contrast with religious, transcendent bioethics without glossing the thick plurality of religious differences and perspectives in the major religions			
<b>7070</b>	<b>President's Bioethics Councils</b>	<b>G</b>	<b>1½</b>
This course will survey the writings of the various president's bioethics councils beginning in 1974 to the most recent bioethics commission established by President Obama.			
<b>7080</b>	<b>Belmont Report</b>	<b>G</b>	<b>1½</b>
This course will delve deeply into the text of the Belmont Report, including reading essays in the appendices of the report and additional outside material.			
<b>7800</b>	<b>Research Methods in Bioethics</b>	<b>G</b>	<b>3</b>
Students will explore the variety of methods used to address ethical concerns surrounding clinical care, biomedical research, and health care policy. The course will equip students with analytic and practical skills to engage in research of their own.			
<b>7890</b>	<b>Clinical Bioethics, Healthcare Mediation, and Conflict Resolution</b>	<b>G</b>	<b>3</b>
This course emphasizes learn-by-doing approach to conflict resolution through online and on-site elements. The course familiarizes participants with a 'toolbox' of skills essential to conflict resolution applicable to bioethics consultations. Prereq: 6020, or permission of instructor. This course is graded S/U.			
<b>7895</b>	<b>Bioethical Issues in Genetic Counseling</b>	<b>G</b>	<b>3</b>
The course aims to give students the ethical background to lead in an ongoing national dialogue about the ethical, legal, and social implications of advances in genomic technology, reproductive health and the professional responsibility of counseling.			
<b>8000</b>	<b>Directed Readings in Bioethics</b>	<b>G</b>	<b>3</b>
This course of directed readings provides additional research preparation for a particularly high-level MA Thesis. Admission to this course requires a sponsoring faculty member and approval from the Director of the MA program. The Syllabus for this course will be written in conjunction between the student and sponsoring faculty member and approved by the Director of the MA program. Prereq: 6000-level BioEthc course, or approval of Program Director. This course is graded S/U.			
<b>8010</b>	<b>Bioethics Practicum</b>	<b>G</b>	<b>3</b>
Alongside the MA Thesis Project, the Ethics Practicum is one of two possible capstone projects in the MA program. Having selected the Ethics Practicum, students two options or fields of focus for the practicum: clinical ethics or research ethics. Both areas of focus for the practicum are based upon a Personal Learning Plan (PLP) developed in collaboration with a supervisor. Prereq: BioEthc 6000-level course. This course is graded S/U.			
<b>8020</b>	<b>Bioethics Masters Thesis</b>	<b>G</b>	<b>3</b>
The master's thesis is a carefully argued scholarly paper of approximately 12,000 to 13,000 words (roughly 50 pages). Students will under the supervision of a faculty adviser to craft and write an original argument with sources. The thesis must have a substantial research component and a focus on a suitable topic within the field of bioethics as a final element in the master's degree. Prereq: BioEthc 6000-level course. This course is graded S/U.			

## Biological Chemistry and Pharmacology

<b>3311</b>	<b>Fundamentals of Medical Biochemistry I</b>	<b>U</b>	<b>3</b>
Includes organic chemistry necessary for biochemistry. Basic structures and interactions of biomolecules in health and disease. Topics essential to human nutrition, dietetics, clinical chemistry, & paramedical fields. Proteins, enzymes, and vitamins. Prereq: Chem 1110 (102), 1210 (121), or 1220. Not open to students with credit for 311.			
<b>3312</b>	<b>Fundamentals of Medical Biochemistry and Molecular Biology II</b>	<b>U</b>	<b>3</b>
A continuation of 3311. Energy production; the chemistry and metabolism of carbohydrates, lipids and amino acids; nucleic acids and protein biosynthesis; integration and control of metabolic pathways, and the biochemistry of body fluids. Prereq: Chem 1110, 1210, or 1220.			
<b>4250</b>	<b>Undergraduate Independent Study in Pharmacology/Pharmacogenomics</b>	<b>U</b>	<b>1 - 10</b>
Offers undergraduate students the opportunity to gain research experience in laboratories in Pharmacology/Pharmacogenomics and learn the latest techniques and approaches. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs or 20 completions. This course is graded S/U.			

<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Undergraduate research or study in an area molecular and/or cellular biochemistry under the direction of a department faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 3 completions.			
<b>4998H</b>	<b>Undergraduate Research for an Honors Program</b>	<b>U</b>	<b>1 - 10</b>
Undergraduate research or study in an area of molecular and/or cellular biochemistry under the direction of a departmental faculty member. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>4999</b>	<b>Thesis Research in Biological Chemistry and Pharmacology</b>	<b>U</b>	<b>1 - 10</b>
A program of reading and research for each student with individual conferences and reports, culminating in the preparation of an honors thesis. Prereq: GPA 3.0 and above, and permission of the instructor under whose supervision the work is to be completed.			
<b>4999H</b>	<b>Honors Thesis Research in Biological Chemistry and Pharmacology</b>	<b>U</b>	<b>1 - 10</b>
A program of reading and research for each student with individual conferences and reports, culminating in the preparation of an honors thesis. Prereq: Honors status, GPA of 3.4 or higher, Junior or Senior standing, and permission of the instructor under whose supervision the work is to be completed.			
<b>5050</b>	<b>Molecular Basis of Oxidative Stress</b>	<b>U G M</b>	<b>2</b>
The inter-relationships between reactive species and development of human diseases will be the highlight of lectures and discussions. Prereq: Chem 2520, 2620, or 2920H.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G M</b>	<b>1 - 10</b>
Qualified students can conduct a minor investigation under the direction of a faculty member. Au, Sp, or Su Sem. Prereq: Course work in Biochemistry, and permission of instructor. Repeatable to a maximum of 10 or hrs or 4 completions. This course is graded S/U.			
<b>5300</b>	<b>Molecular Pharmacology</b>	<b>U G</b>	<b>2</b>
Identification of drug receptor genes and their second messenger pathways provides information unavailable from traditional approaches. We will examine how this information is used to develop new medications to treat a wide range of disorders with improving efficacy and safety. Prereq: Permission of instructor.			
<b>5400</b>	<b>Chemotherapeutic Drugs for Cancer and Infectious Diseases</b>	<b>U G</b>	<b>2</b>
Over the course of the last century a wide variety of drugs have been developed for chemotherapy of cancer and infectious disease. The mechanisms of action of these drugs involves diverse biological processes. In this course we will examine the molecular components targeted by anticancer, antimycobacterial, antifungal, antiprotozoal, anthelmintic and antiviral drugs. Prereq: Prior coursework in biochemistry or physiology or equiv., or permission of instructor.			
<b>5500</b>	<b>Cardiovascular Pharmacology</b>	<b>U G</b>	<b>2</b>
Covers basic principles of drug action for specific drug classes; including chemical properties, mechanisms of drug action, clinical uses, disposition, contraindications, adverse reactions, clinically significant drug interactions, and drug-disease interactions. Prereq: Prior coursework in biochemistry or physiology or equiv., or permission of instructor.			
<b>5510</b>	<b>Responsible Conduct in Biomedical Research</b>	<b>U G M</b>	<b>1 - 2</b>
The broad intent of this course is to highlight the importance of responsible conduct in biomedical research and to explore how critical ethical thinking can be used to analyze personal decision-making, public regulation, and the law concerning advanced biomedical sciences/technologies and their clinical applications. This course will introduce students to professional and ethical issues.			
<b>5555</b>	<b>Epigenetics</b>	<b>U G M</b>	<b>3</b>
This course will provide an in depth understanding of the molecular mechanisms underlying epigenetic inheritance, which is the inheritance of traits not encoded in the sequence of a genome. In addition, the course will provide students an opportunity to demonstrate command of the subject matter through a presentation from the current scientific literature. Prereq: MolGen 4606; or Biochem 5613, 5614, and 5615; or Grad standing; or permission of instructor.			
<b>5600</b>	<b>Introduction to General Pharmacology</b>	<b>U G</b>	<b>3</b>
Introductory course emphasizing the general principles of pharmacology using a systems-based and mechanism-based approach. The course provides a simple overview of the subject. Prereq: Prior coursework in physiology, or permission of instructor. Not open to students with credit for Pharmacol 600.			
<b>5700</b>	<b>Introduction to Personalized Therapeutics and Pharmacogenomics</b>	<b>U G</b>	<b>3</b>
Exploration of the trend to therapy tailored to the individual patient rather than "one drug fits all;" inter-individual differences in drug responses, with emphasis on genetic and genomic factors; ethical, regulatory and economic issues that impact drug therapies. Introductory biology course recommended.			

## Biological Chemistry and Pharmacology 53

<b>5733</b>	<b>Human Genetics</b>	<b>U G M</b>	<b>2</b>
The principles of human genetics covering mapping of disease genes, defects causing human disease, the cloning of disease genes, gene therapy, transgenes, and specific pathological disorders. Open to seniors who have completed the prerequisites. Prereq: MolGen 4500 (500) or 4606 (606), or equiv. Not open to students with credit for 733, MolGen 5733 (733), or Pathol 5733 (733). Cross-listed in MolGen and Pathol.			
<b>5800</b>	<b>Stem Cell Biology and Applications for Human Regenerative Medicine</b>	<b>U G M</b>	<b>3</b>
Basics of stem cell biology, as applied to multiple disease models of the brain and other organs, cancer research and aging. Practical examples and models from patients with neurodevelopmental and neurodegenerative diseases. Demonstration of laboratory strategies and techniques will be presented. Prereq: One year of basic biology, or permission of instructor.			
<b>5824</b>	<b>Pharmacology of the Nervous System</b>	<b>U G</b>	<b>3</b>
Pharmacological agents are valuable tools with which to probe the molecular and cellular basis of brain function. The scientific rational underlying the use of drugs to treat a wide range of neurologic and psychiatric disorders will be examined. Prereq: Undergraduate Biochemistry or Physiology (or equivalent), or permission of instructor. Cross-listed in Psych.			
<b>5852</b>	<b>Biology of Aging</b>	<b>U G</b>	<b>2</b>
Covers molecular, cellular and organismal aspects of aging. Experimental evidence as well as current and historically important theories of aging will be discussed. The course will rely on analysis of original peer-reviewed publications. Prereq: Not open to students with credit for 5852 (852). CT Admis Cond course.			
<b>6701</b>	<b>Advanced Biochemistry: Molecular Biology</b>	<b>G</b>	<b>3</b>
An advanced treatment of the biochemical principles of gene and genome function. Prereq: Biochem 5615 and MolGen 4500, or equivs. Concur: BioPhm 6761 or Biochem 6761; or permission of instructor. Not open to students with credit for Biochem 6701, Micrbio 6080, 6010, or MolGen 5701. Cross-listed in Biochem.			
<b>6761</b>	<b>Advanced Biochemistry: Macromolecular Structure and Function</b>	<b>G</b>	<b>3</b>
An advanced treatment of the physical and chemical properties, biological function, and structural biology of proteins and nucleic acids. Prereq: Biochem 5615 (615), and Chem 2520 (253), 2550 (255) and 4210 (521), or equiv; or permission of instructor. Not open to students with credit for 6761 (761 and 766), Chem 761 and 766, or Biochem 6761 (761 and 766). Cross-listed in Biochem.			
<b>6785</b>	<b>DNA Microarray Technology</b>	<b>G M</b>	<b>1</b>
Covers the major areas of microarray technology, including theory, target preparation and labeling, manufacturing methods, imaging, and analysis and mining of data. Offered every other year. Prereq: BioChem 511 or equiv. Not open to students with credit for 785.			
<b>6850</b>	<b>Research in Progress Seminars</b>	<b>G</b>	<b>1</b>
Seminar presentations from faculty laboratories of ongoing research. Prereq: Grad standing. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.			
<b>7050</b>	<b>Neurobiology of Disease</b>	<b>G</b>	<b>3</b>
Neurobiology of Disease will explore the basis of major diseases affecting the nervous system. Prereq: Permission of instructor. Not open to students with credit for BioPhm 705. Cross-listed in NeuroSc 7050 (705).			
<b>7193.01</b>	<b>Individual Studies in Pharmacology</b>	<b>G</b>	<b>1 - 30</b>
Digitalis pharmacodynamics; neuropharmacology; endocrine pharmacology; cardiovascular pharmacology, autonomic pharmacology, clinical pharmacology; biochemical pharmacology; pharmacogenomics; toxicology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>7510</b>	<b>Professional and Ethical Issues in Biomedical Sciences</b>	<b>G</b>	<b>2</b>
A discussion course based on case scenarios dealing with ethical issues facing biomedical researchers, such as publishing practices, confidentiality, mentoring. Prereq: Grad standing, and enrollment in Biomedical Sciences program. This course is graded S/U. Cross-listed in VetBios 751.			
<b>7550</b>	<b>Research Applications of Clinical Pharmacology</b>	<b>G</b>	<b>3</b>
Application of basic and advanced concepts in pharmacology to contemporary research literature to solidify understanding of the pharmacologic principles underlying the individualization of drug therapy and contemporary drug development. Fundamentals of clinical pharmacology for the development, evaluation, and clinical use of pharmaceutical products. Prereq: 5600, HthRhSc 5510, Phr 5010, or other general pharmacology course; or permission of instructor. Cross-listed in Phr.			
<b>7560</b>	<b>Clinical Trials I: Design and Regulation</b>	<b>G</b>	<b>3</b>
This course provides a fundamental overview of clinical trial design, methods, and regulation with an emphasis on medical product development, clinical trial protocols, preclinical research requirements, and the appraisal of published clinical trials. Prereq: Enrollment in the MS Pharmacology program, or permission of instructor. Not open to students with credit for Nursing 7770 or Phr 7770. Cross-listed in Nursing and Phr.			

<b>7561</b>	<b>Clinical Trials II: Site Management and Study Leadership</b>	<b>G</b>	<b>3</b>
This course provides a fundamental overview of best practices of clinical trial study and site management, including an emphasis on data, safety, and quality management, and study team leadership. Prereq: 7560, Nursing 7560, or Phr 7560, or permission of instructor. Not open to students with credit for Nursing 7405 or Phr 7405. Cross-listed in Nursing and Phr.			
<b>7599</b>	<b>Capstone in Applied Clinical and Preclinical Research</b>	<b>G</b>	<b>1 - 12</b>
Capstone project or practicum for students in the master's program in Applied Clinical and Preclinical Research. Culminating learning activity integrating core and specialization coursework. Capstone project or practicum performed at an organization involved with clinical or preclinical research with the oversight of a faculty advisor and site mentor. Prereq: Enrollment in the master's program in Applied Clinical and Preclinical Research, or permission of the program director. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U. Cross-listed in Nursing and Phr.			
<b>7781</b>	<b>Animal Models of Human Disease</b>	<b>G M</b>	<b>1</b>
Transgenic and knockout mouse technology and examples of models for genetic disease with each pattern of inheritance. Examples are collagen diseases (osteogenesis imperfecta), Huntington diseases, muscular dystrophy, and Fredeireich ataxia. Prereq: MolGen 5701 (701) or Biochem 5701 (702). Not open to students with credit for MolBioch 781.			
<b>7807</b>	<b>Gene Expression: Post-Transcriptional Control</b>	<b>G</b>	<b>3</b>
Intensive study of problems in the general area of post-transcriptional control of gene expression. The course consists of student presentations and class evaluations of recently published results in these fields. Prereq: 6 cr hrs at the Grad level, or permission of instructor. Not open to students with credit for MolGen 7807 (880.07) or VetBios 7807 (880.07). Cross-listed in MolGen and VetBios.			
<b>7823</b>	<b>Selected Topics in Molecular Medicine</b>	<b>G M</b>	<b>2</b>
The focus of this course is to understand the molecular bases of selective diseases. The disease focus may vary each year, and can include cancer, neurological disorders, and the roles of stem cells and metabolism in aging. Students are encouraged to check the syllabus for the selective topics each year. Prereq: 1 yr of Grad Biochem, or permission of instructor.			
<b>7828</b>	<b>Signaling Pathways and Human Disease</b>	<b>G</b>	<b>2</b>
Current concepts of signal transduction and its role in controlling genes involved in various disease states, including cardiovascular diseases, neurological diseases, and cancer. Prereq: 1 yr of Grad Biochem, or permission of instructor.			
<b>7831</b>	<b>Eukaryotic Genome: Structure &amp; Expression</b>	<b>G</b>	<b>2</b>
Current research on the structure and expression of genes in higher eukaryotes. Course includes student critiques and presentations of research papers. Prereq: Biochem 5701 or MolGen 5701 or equiv. Not open to students with credit for 831, MVIMG 831, or MolGen 831.			
<b>8300</b>	<b>Molecular Pharmacology and Human Disease</b>	<b>G</b>	<b>2</b>
Molecular mechanisms of actions of blockbuster drugs in the treatment of human disease. Prereq: Pharmacol 600, 600D, or IBGP 702, or permission of instructor/course director. Not open to students with credit for Pharmacol 830.			
<b>8999</b>	<b>Research in Biological Chemistry and Pharmacology</b>	<b>G</b>	<b>1 - 12</b>
Research for thesis or dissertation purposes only. Offered all semesters. Prereq: Grad standing. Repeatable to a maximum of 72 cr hrs or 15 completions. This course is graded S/U.			

## Biology

<b>1101</b>	<b>Introductory Biology</b>	<b>U</b>	<b>4</b>
Basic principles of biology; topics include the nature of science, organismal diversity, evolution, ecology, genetics, reproduction, and cellular structure and function. Not intended students majoring in one of the biological sciences. Prereq: Not open to students with credit for 1101E, 1113 (113), 1113H (115H), 101, Entmlyg 1101 (101), or MolGen 1101 (PintBio101). This course is available for EM credit. GE nat sci bio course.			
<b>1102</b>	<b>Human Biology</b>	<b>U</b>	<b>4</b>
Exploration of human biology; topics include structure and physiological function, reproduction and development, genetics and disease, ecology, and evolution. Not intended for students majoring in one of the biological sciences. Prereq: Not open to students with credit for 102. This course is available for EM credit. GE nat sci bio course.			
<b>1105</b>	<b>Human Biology in Cinema</b>	<b>U</b>	<b>3</b>
Human Biology in Cinema will show that mainstream films with a core biological theme can be entertaining AND educational and that having some basic biological insights will enhance your comprehension and appreciation of these films. Lectures and discussions will cover basic principles in biology that will help elucidate the content of each film. GE nat sci bio course.			

## 54 Biology

**1110 Biology for the Health Sciences** U 4

A survey of biological topics including evolution; structure and function; information flow, exchange and storage; pathways and transformations of energy and matter; and systems intended as preparation for Pre-Nursing and Pre-HRS students. Not intended for students on a Pre-Medicine or related track, or for students intending to major in biology or related areas. Prereq: Not open to students with credit for 1101, 1102, 1113, or 1114. GE nat sci bio course.

**1113 Biological Sciences: Energy Transfer and Development** U 4

Exploration of biology and biological principles; evolution and the origin of life, cellular structure and function, bioenergetics, and genetics. A broad introduction to biology comprises both Biology 1113 and 1114.

Prereq: Math 1130 (130), 1148, 1150, or above, or Math Placement Level L or M. Prereq or concur: Chem 1110 (101), 1210 (121), 1610, or 1910H (201H), or permission of course coordinator. Not open to students with credit for 113. This course is available for EM credit. GE nat sci bio course. NS Admis Cond course.

**1113E Biological Sciences: Energy Transfer and Development** U 4

Exploration of biology and biological principles; evolution and the origin of life, cellular structure and function, bioenergetics, and genetics. A broad introduction to biology comprises both Biology 1113E and 1114E.

Prereq: Honors standing; and Math 1149 or 1150 or above, or Math Placement Level L. Prereq or concur: Chem 1210, 1610, or 1910H, or permission of course coordinator. GE nat sci bio course.

**1113H Biological Sciences: Energy Transfer and Development** U 4

Exploration of biology and biological principles; evolution and the origin of life, cellular structure and function, bioenergetics, and genetics. A broad introduction to biology comprises both Biology 1113H and 1114H.

Prereq: Honors standing; and Math 1149 or 1150 or above, or Math Placement Level L. Prereq or concur: Chem 1210, 1610, or 1910H, or permission of course coordinator. Not open to students with credit for 115H. GE nat sci bio course. NS Admis Cond course.

**1114 Biological Sciences: Form, Function, Diversity, and Ecology** U 4

Exploration of biology and biological principles; evolution and speciation, diversity in structure, function, behavior, and ecology among prokaryotes and eukaryotes. A broad introduction to biology comprises both Biology 1113 and 1114.

Prereq: Math 1130 (130), 1148, or 1150 or above, or Math Placement Level L or M. Prereq or concur: Chem 1110 (101), 1210 (121), 1610, or 1910H (201H), or permission of course coordinator. Not open to students with credit for 114. This course is available for EM credit. GE nat sci bio course. NS Admis Cond course.

**1114E Biological Sciences: Form, Function, Diversity, and Ecology** U 4

Exploration of biology and biological principles; evolution and speciation, diversity in structure, function, behavior, and ecology among prokaryotes and eukaryotes. A broad introduction to biology comprises both Biology 1113E and 1114E.

Prereq: Honors standing; and Math 1149, 1150, or above, or Math Placement Level L. Prereq or concur: Chem 1210, 1610, or 1910H, or permission of course coordinator. GE nat sci bio course.

**1114H Biological Sciences: Form, Function, Diversity, and Ecology** U 4

Exploration of biology and biological principles; evolution and speciation, diversity in structure, function, behavior, and ecology among prokaryotes and eukaryotes. A broad introduction to biology comprises both Biology 1113H and 1114H.

Prereq: Honors standing; and Math 1149, 1150, or above, or Math Placement Level L. Prereq or concur: Chem 1210 (121), 1610, or 1910H (201H), or permission of course coordinator. Not open to students with credit for 116 or 116H. GE nat sci bio course. NS Admis Cond course.

**1131 Peer Led Team Learning for Biology 1113 Students** U 1

Peer-led team learning (PLTL) provides a structure within which students will actively work together in groups to complete a series of activities and deepen their understanding of concepts associated with Biology 1113. A peer leader will work with the group on challenging and relevant activities to prepare biology students to apply scientific reasoning to authentic problems.

Concur: Biology 1113. This course is graded S/U.

**1141 Peer Led Team Learning for Biology 1114 Students** U 1

Peer-led team learning (PLTL) provides a structure within which students will actively work together in groups to complete a series of activities and deepen their understanding of concepts associated with Biology 1114. A peer leader will work with the group on challenging and relevant activities to prepare biology students to apply scientific reasoning to authentic problems.

Concur: 1114. This course is graded S/U.

**2194 Group Studies** U 1 - 4

Group study of a selected topic in biology not provided by other courses.

Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 4 completions.

**2200 Genome Biology** U 1

DNA sequencing and analysis of bacteriophage genomes. Special emphasis on mycobacteriophage as part of the Howard Hughes Medical Institute National Genomics Research Initiative.

Prereq: 1113 (with participation in the Howard Hughes Medical Institute National Genomics Research Initiative), or permission of instructor. Cross-listed in Micrbio.

**2797 Study at a Foreign Institution** U 1 - 10

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work.

Prereq: Permission of advisor. Repeatable to a maximum of 30 cr hrs or 8 completions.

**3401 Integrated Biology** U 4

A case studies approach is used to gain a better understanding of biological concepts and principles. This course is designed for biology majors.

Prereq: 1113, 1114, Chem 1220, and Math 1140, or 1148 and 1149, or 1150 or above; or permission of instructor.

**4191 Internship in Biology** U 1 - 5

A cooperative education or internship assignment conducted under the supervision of a faculty member.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.

**4193 Individual Studies** U 1 - 5

A program of individual study in the biological sciences appropriate for the student's needs.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**4194 Group Studies** U 2 - 4

Group studies of topics not otherwise offered in Biology.

Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 7 completions.

**4797 Study at a Foreign Institution** U 1 - 15

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work.

Prereq: Permission of advisor. Repeatable to a maximum of 30 cr hrs or 8 completions.

**4798 Biological Roots in England** U 3

A short-term study-abroad course on the history of science in England, with emphasis on biology.

Prereq: 6 cr hrs taken in Biological Sciences. Not open to students with credit for 500.

**4998 Research** U 1 - 5

Undergraduate research in biology.

Prereq: Permission of advisor. Repeatable to a maximum of 30 cr hrs or 8 completions. This course is graded S/U.

**4998H Honors Undergraduate Research** U 1 - 5

Undergraduate research in biology.

Prereq: Honors standing, and permission of advisor. This course is graded S/U.

**4999 Thesis Research** U 1 - 5

A program of individual research in the biological sciences appropriate for the student's needs and culminating in a thesis and oral examination.

Prereq: 1113 (113) or 1113H (115H), and 1114 (114) or 1114H (116H), and permission of advisor. Repeatable to a maximum of 12 cr hrs or 8 completions. This course is graded S/U.

**4999H Honors Thesis Research** U 1 - 5

A program of individual research in the biological sciences appropriate for the student's needs and culminating in an honors thesis and oral examination.

Prereq: Honors standing, and 1113 (113) or 1114 (114), and permission of advisor. Repeatable to a maximum of 12 cr hrs or 8 completions. This course is graded S/U.

**5001.01 Topics in Biology Teaching** U G 1

Students actively participate in workshops and other activities, including the development of new instructional materials and SOTL projects, that enhance their preparedness for college teaching.

Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

**5001.02 Topics in Biology Teaching** U G 1

Students actively participate in workshops and other activities, including the development of new instructional materials and SOTL projects, that enhance their preparedness for college teaching. Students will complete a portfolio assignment. Students in the Graduate Interdisciplinary Specialization will be able to apply each instance of this course as an elective up to a maximum of 3 credits.

Repeatable to a maximum of 3 cr hrs.

**6001 Biology College Teaching** G 2

Students take a scholarly approach to studying theory-based methods to help undergraduates learn biology. Students consider methods as an instructor, peer reviewer, and student.

Prereq: Grad standing in BioSci. Not open to students with credit for Biology 701.

**6193 Graduate Independent Studies** G 1 - 4

Graduate independent studies.

Repeatable to a maximum of 4 cr hrs or 4 completions. This course is graded S/U.

## Biomedical Engineering

**2000 Introduction to BME** U 3

Introduction to the application of engineering to modern healthcare utilizing lectures from engineering, medicine, and life science.

Prereq: Permission of instructor. Not open to students with credit for 202 or 500.

## Biomedical Engineering 55

**2001 Professional Development U 1**

Development of professional skills; engineering economy; project planning; ethics, best business practices.  
Prereq or concur: 2000. Not open to students with credit for 4900.

**2193 Individual Studies in Biomedical Engineering U 1 - 12**

Provides the opportunity to pursue special studies or research in biomedical engineering not otherwise covered.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions. This course is graded S/U.

**2194 Group Studies in Biomedical Engineering U 1 - 6**

Provides groups of students opportunities to pursue special studies not otherwise offered.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**2200 Quantitative Principles of Cellular and Molecular Systems U 3**

An introduction to quantitative principles in molecular and cellular biology in the context of potential biomedical engineering applications. Topics covered: molecular structure and function; receptor-ligand and antigen-antibody specificity; cell energetics; enzyme catalysis, genetic information, disease state; Cell-surface interaction.  
Prereq: Biology 1113. Concur: 2000.

**2700 Numerical Simulations in BME U 2**

Focuses on the application of computer-based numerical and graphical display skills for solving problems relevant to biomedical engineering.  
Prereq: 2000, Engr 1182 or 1282, MechEng 2040, Math 2174, and Biology 1113 or equiv, and enrollment in BiomedE major.

**2800 Anatomy for Engineers U 3**

This course investigates the basic anatomical structure and physiological function of the human body with a biomechanical emphasis.  
Prereq: Enrollment in Biomedical Engineering pre-major or major; or permission of instructor. Not open to students with credit for Anatomy 2220.

**3701 Biomedical Engineering Domain Lab U 2**

Laboratory course for Biomedical Engineering majors. Biomedical laboratory skills, as well as designing, performing and analyzing experiments, documentation, and technical communication skills are developed in this course.  
Prereq: 2000 and Stat 3450; or permission of instructor. Not open to students with credit for 4711, 4712, 4713, 4714, 4715, or 4716.

**3702 Measurements and Instrumentation Lab U 3**

Engineering fundamentals and hands-on experiments for measuring and interpreting data from living systems; Analysis of signals generated by bioelectrical potentials; Interpretation of bioelectrical signals to human physiology and functions.  
Prereq: 2000, Anatomy 2220, and Stat 3450; or permission of instructor.

**3703 Quantitative Physiology U 3**

Introduces students to the mathematical and numerical techniques used to develop, solve and analyze quantitative models of physiological systems.  
Prereq: 2700, Anatomy 2220, and Math 2174; or permission of instructor.

**4110 Bioimaging U 3**

Introduction to medical imaging techniques like x-ray, computed tomography, magnetic resonance and ultrasound.  
Prereq: 2000, Physics 1251, Math 2174, Anatomy 2220 or EEOB 2520; or permission of instructor.

**4193 Individual Studies in Biomedical Engineering U 1 - 12**

Provides the opportunity to pursue special studies or research in biomedical engineering not otherwise covered.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions. This course is graded S/U.

**4194 Group Studies in Biomedical Engineering U 1 - 6**

Provides groups of students opportunities to pursue special studies not otherwise offered.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**4210 Biotransport U 3**

Covers key transport concepts in biomedical engineering. Emphasis is put on mass and momentum transport with applications related to biology, medical science and biotechnology.  
Prereq: 2000 and Math 2174, or permission of instructor. Concur: MechEng 3500 or FABEng 3120.

**4310 Biomaterials U 3**

Principles of materials science; biocompatibility and biological reactions to implanted materials; natural biomaterials and synthetic materials used in biological applications.  
Prereq: 2000, MatScEn 2010, and Math 2174; or permission of instructor.

**4410 Biomechanics U 3**

Mechanical characterization of biological tissues at the cellular, organ, and system level; exploration of biomechanical factors of physiological and pathological conditions.  
Prereq: 2000, Math 2174, and MechEng 2040; or permission of instructor.

**4510 Cell, Molecular, and Tissue Engineering U 3**

Application of engineering methods to study, measure, repair, or replace biological functions and the molecular cellular or tissue-level length scales.  
Prereq: 2000 and Math 2174, or permission of instructor. Concur: 2200 or Biochem 4511.

**4610 Biomedical Micro/Nanotechnology U 3**

Introduction to micro/nanotechnology in biomedical settings, including micro/nanotechnologies used to investigate biological systems, physiological responses to nanotherapeutics, and first principles of microfluidics and microfabrication.  
Prereq: 2000, MatScEn 2010, and Biochem 4511 or BiomedE 2200; or permission of instructor.

**4711 Bioimaging Lab U ½**

Hands-on lab that teaches students technical skills associated with Bioimaging. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication.  
Concur: 4110, or permission of instructor.

**4712 Biotransport Lab U ½**

Hands-on lab that teaches students technical skills associated with Biotransport. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication.  
Concur: 4210, or permission of instructor.

**4713 Biomaterials Lab U ½**

Hands-on lab that teaches students technical skills associated with Biomaterials. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication.  
Concur: 4310, or permission of instructor.

**4714 Biomechanics Lab U ½**

Hands-on lab that teaches students technical skills associated with Biomechanics. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication.  
Concur: 4410, or permission of instructor.

**4715 Molecular, Cell, and Tissue Engineering Lab U ½**

Hands-on lab that teaches students technical skills associated with Cell and Tissue Engineering. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication.  
Concur: 4510, or permission of instructor.

**4716 BME Micro/Nanotechnology Lab U ½**

Hands-on lab that teaches students technical skills associated with BME Micro/Nanotechnology. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication.  
Concur: 4610, or permission of instructor.

**4901 Biomedical Engineering Capstone Design I U 3**

First course in a two-course BME capstone sequence. Introduction to design principles; challenges of biomedical device design; projects focus on helping persons with disabilities.  
Prereq: Sr standing in BiomedE. Not open to students with credit for 501 or 565.01.

**4902 Biomedical Engineering Capstone Design II U 3**

Second course in a two-course BME capstone sequence. Applying design principles; challenges of biomedical device design; engineering and testing devices that focus on helping persons with disabilities.  
Prereq: 4901, or permission of instructor. Not open to students with credit for 502 or 565.02.

**4998.01 Undergraduate Research in Biomedical Engineering U 1 - 6**

Individual Studies in Biomedical Engineering.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**4998.02 Undergraduate Research in Biomedical Engineering U 1 - 12**

Individual Studies in Biomedical Engineering.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions. This course is graded S/U.

**4999 Biomedical Engineering Undergraduate Thesis Research U 1 - 6**

Students are offered the opportunity to pursue an independent distinction project/research. Student presentations and thesis writing included.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**4999H Biomedical Engineering Undergraduate Honors Thesis Research U 1 - 6**

Honors program students are offered the opportunity to pursue an independent distinction project/research. Student presentations and thesis writing included.  
Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**5001 Cardiovascular Bioengineering U G 3**

Overview of biomedical engineering approaches in imaging and intervention in cardiovascular medicine.  
Prereq: Sr or Grad standing in Engineering or Medicine, or permission of instructor. Not open to students with credit for 701.

## 56 Biomedical Engineering

<b>5110</b>	<b>Biomedical Microscopic Imaging</b>	<b>U G</b>	<b>3</b>
Principles and applications of microscopy techniques (light, electron and atomic force microscopy) for biomedical research. Prereq: 4110 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 611.			
<b>5120</b>	<b>Biomedical Optics</b>	<b>U G</b>	<b>3</b>
Introduction of light-tissue interaction, optical imaging, and spectroscopy. Prereq: 4110 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 612.			
<b>5170</b>	<b>Fundamentals of Medical Imaging</b>	<b>U G</b>	<b>3</b>
Fundamentals of mathematical and physical principles and signals and systems concepts involved in medical imaging modalities of x-ray, computed tomography, magnetic resonance and ultrasound. Prereq: Math 2177, or Grad standing, or permission of instructor.			
<b>5177</b>	<b>Biomedical Atomic Force Microscopy</b>	<b>U G</b>	<b>3</b>
Applications of Atomic Force Microscopy (AFM) in bio-imaging, biomechanics, and nano-manipulation. Prereq: 5110 (611) or equiv, and Sr or Grad standing; or permission of instructor.			
<b>5186</b>	<b>Biomedical Ultrasound</b>	<b>U G</b>	<b>3</b>
Introduction to use of ultrasound in biomedical applications, including interaction of ultrasound with tissue; generation, reception and interpretation of ultrasonic signals; and clinical instrumentation. Prereq: 4110 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 686 or 716.			
<b>5193</b>	<b>Individual Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 12</b>
Provides the opportunity to pursue special studies or research in biomedical engineering not otherwise covered. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 10 completions. This course is graded S/U.			
<b>5194.01</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.02</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.03</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.04</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Not open to students with credit for 510. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.05</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.06</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.07</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.08</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5194.09</b>	<b>Group Studies in Biomedical Engineering</b>	<b>U G</b>	<b>1 - 6</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5310</b>	<b>Advanced Biomaterials</b>	<b>U G</b>	<b>3</b>
Basic and advanced concepts of materials science; biocompatibility and biological reactions to implanted materials; natural biomaterials and synthetic materials used in biomedical applications. Prereq: 4310 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 631.			
<b>5353</b>	<b>Hard-Tissue Biomaterials</b>	<b>U G</b>	<b>3</b>
In-depth literature review of selected current concepts in the material science of hard tissues and related implant materials. Prereq: 5310, or permission of instructor. Not open to students with credit for 733.			

<b>5359</b>	<b>Extracellular Matrix in BME</b>	<b>U G</b>	<b>3</b>
Extracellular matrix (ECM) present in mammalian tissue(s) is important for the integrity and tensile strength of the underlying tissue as well as for cell-matrix interactions and matrix mineralization. This course provides an overview of the composition, structure and function of ECM and its application(s) for the BME domains of biomaterials, tissue engineering and biomechanics. Prereq: 4310 and Chem 2310; or Grad standing; or permission of instructor. Not open to students with credit for 632 or 739.			
<b>5420</b>	<b>Mechanobiology</b>	<b>U G</b>	<b>3</b>
Introduction to the incorporation of living components and compatible biomaterials to study, repair, or replace biological functions. Prereq: 4410, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 642.			
<b>5421</b>	<b>Tissue Mechanics</b>	<b>U G</b>	<b>3</b>
Mechanical characteristics and behavior of tissues at the organ and system level and how these properties relate to physiological and pathological function. Prereq: 4410 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 641 or 741.			
<b>5430</b>	<b>Finite Element Applications in BME</b>	<b>U G</b>	<b>3</b>
The finite element method for solution of differential equations for modeling biomedical engineering applications (implemented using COMSOL Multiphysics software). Prereq: Math 2177 or equiv, and Anatomy 2220 or equiv, and Sr or Grad standing; or permission of instructor. Not open to students with credit for 643.			
<b>5470</b>	<b>Cell &amp; Tissue Mechanics</b>	<b>U G</b>	<b>3</b>
This course will focus on the application of mechanics to biological cells and tissues. We will explore experimental methods used to measure mechanical properties of cells and tissues and mathematical models used to interpret experimental observations of cell and tissue mechanics. Computational mechanics and FE models will be used to investigate cell and tissue mechanics. Prereq: 4410, and MechEng 2040, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 740.			
<b>5510</b>	<b>Advanced Tissue Engineering</b>	<b>U G</b>	<b>3</b>
The incorporation of living components and compatible biomaterials to study, repair, or replace biological functions. Prereq: 4510 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 651.			
<b>5550</b>	<b>Engineering Principles in Cancer</b>	<b>U G</b>	<b>3</b>
The purpose of this course is to introduce engineering principles in the context of cancer progression and therapy. Prereq: MechEng 3500, 3503, or CBE 2420; or permission of instructor. Not open to students with credit for CBE 5550 or MechEng 5550. Cross-listed in CBE and MechEng.			
<b>5560</b>	<b>Biomedical Engineering Applications in Cancer Biology</b>	<b>U G</b>	<b>3</b>
Introduction to cancer biology and the application of biomedical engineering disciplines, such as biomaterials, biomechanics, bioimaging, cell and tissue engineering, to fundamental and applied cancer research. Prereq: Biology 1113; and BiomedE 4110, or 4310, or 4410, or 4510; or permission of instructor.			
<b>5580</b>	<b>Excitable Cell Engineering</b>	<b>U G</b>	<b>3</b>
Quantitative approaches to understanding excitable cell function. Advanced engineering methods applied to study these specialized cells will be addressed. Prereq: Math 415 or equiv, and EEOB 3510 (415) or equiv; or Grad standing in BiomedE; or permission of instructor.			
<b>5610</b>	<b>Biomedical Microdevices</b>	<b>U G</b>	<b>3</b>
Course covers the application of microdevices for biomedical applications, including review of microfabrication and biophysical chemistry. Discussion and analysis of current research. Prereq: 4610 or equiv, or Grad standing, or permission of instructor. Not open to students with credit for 661 or 762.			
<b>5635</b>	<b>Cellular Nanotechnology</b>	<b>U G</b>	<b>3</b>
Application of nanotechnology to cells for sensing and subcellular manipulation. Synthesis and biological modification of quantum dots and magnetic nanostructures, their unique material properties, and their application. Prereq: Sr or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 765 or ChBE 735. Cross-listed in CBE 5735.			
<b>5639</b>	<b>Medical Device Development and Regulation</b>	<b>U G</b>	<b>3</b>
Basic principles and essential steps for medical device design and commercialization. Prereq: 2000, and Sr standing; or Grad standing; or permission of instructor.			
<b>5661</b>	<b>Biomedical Nanotechnology I</b>	<b>U G</b>	<b>3</b>
Survey of biomedical micro and nanotechnology with particular emphasis on design and construction strategies for therapeutic nanodevices incorporating biological components. Prereq: 4610 or equiv, and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 761. Cross-listed in CBE 5769.			

## 5663 Introduction to Microfluidics and Nanofluidics U G 3

Principles of incompressible fluid mechanics and electrokinetic phenomena at the micro and nanoscale; biomedical applications with a laboratory illustrating fabrication techniques and experimental methods.

Prereq: MechEng 3503 or equiv, or Grad standing, or permission of instructor. Not open to students with credit for 763 or MechEng 715. Cross-listed in MechEng 6515.

## 5667 BioMEMS Microfabrication U G 3

A detailed overview of microfabrication technologies, including silicon microfabrication, polymer microfabrication, and advanced microfabrication topics, with application to specific MEMS and BioMEMS devices.

Prereq: Sr or Grad standing in Engineering, or permission of instructor.

## 5668 Biomedical Microtransducers U G 3

Examination of the Micro-Electro-Mechanical-Systems (MEMS) as a tool for detecting signals or performing functions for biomedical research and clinical purposes.

Prereq: Sr or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 768.

## 5810 Biomedical Industry and Professionalism Seminar U G 1

Seminar series for medical product industry. Speakers will be invited from companies relevant to medical product development and industry. Students will also gain skills in professional etiquette, and creating a design portfolio and resume for internships and careers in medical product development.

Prereq: Sr or Grad standing in Engr, or permission of instructor. Repeatable to a maximum of 2 or hrs. This course is graded S/U.

## 5901 Medical Product Development I U G 3

First course in a two-course sequence, focused on taking a medical product or device from concept/prototype to commercialization. Topics include medical product or device testing, IP protection, business models, manufacturability, FDA approvals, and commercialization.

Prereq: 4902, Engr 5902.02H, or equiv.; and permission of instructor.

## 5902 Medical Product Development II U G 3

Second course in a two-course sequence, focused on taking a medical product or device from concept/prototype to commercialization. Topics include medical product or device testing, IP protection, business models, manufacturability, FDA approvals, and commercialization.

Prereq: 5901, or permission of instructor.

## 6000 Scientific Methods in Biomedical Engineering G 1

Instruction on basic concepts and skills necessary for graduate students in Biomedical Engineering including literature search, proposal preparation, critical evaluation, and research presentation.

Prereq: Grad standing, or permission of instructor. Not open to students with credit for 600.

## 6983 Research Ethics G 2

Introduction to professional and ethical issues confronting biomedical research and researchers and approaches to dealing with such issues.

Prereq: Grad standing, or permission of instructor. Not open to students with credit for 883.

## 6999 Biomedical Engineering Research for Thesis G 1 - 16

Research for thesis purposes only.

Prereq: Permission of instructor. Repeatable. This course is graded S/U.

## 8193 Individual Studies in Biomedical Engineering G 1 - 16

Provides the opportunity to pursue special studies or research in biomedical engineering not otherwise covered.

Prereq: Permission of instructor. Repeatable. This course is graded S/U.

## 8194 Group Studies in Biomedical Engineering G 1 - 6

Provides groups of students opportunities to pursue special studies not otherwise offered.

Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

## 8810 Biomedical Engineering Seminars I G 0

First course in two course sequence. Seminar series for introducing the state-of-the-arts development of biomedical engineering.

Prereq: Grad standing, or permission of instructor. Not open to students with credit for 881.01, 881.02, or 881.03. This course is progress graded (S/U).

## 8811 Biomedical Engineering Seminars II G 1

Second course in two course sequence. This is a seminar series for introducing the state-of-the-arts development of biomedical engineering.

Prereq: 8810 (881.01 or 881.02), or permission of instructor. Not open to students with credit for 881.03. This course is graded S/U.

## 8812 Biomedical Engineering Seminars III G 0

Seminar series for introducing the state-of-the-arts development of biomedical engineering.

Prereq: 8811 or 881.03, or permission of instructor. Not open to students with credit for 881.04 or 881.05. This course is progress graded (S/U).

## 8813 Biomedical Engineering Seminars IV G 1

Second course in two course sequence. This is a Seminar series for introducing the state-of-the-arts development of biomedical engineering.

Prereq: 8812 (881.04 or 881.05), or permission of instructor. Not open to students with credit for 881.06. This course is graded S/U.

## 8999 Biomedical Engineering Research for Dissertation G 1 - 16

Research for dissertation purposes only.

Prereq: Permission of instructor. Repeatable. This course is graded S/U.

## Biomedical Informatics

## 5710 Introduction to Biomedical Informatics U G 3

A survey of biomedical informatics theories and methods employed in the design, implementation and management of information systems supporting basic science, clinical and translational research, clinical care, and public health. Recommended course work in computer science, statistics, anatomy, physiology, and medical terminology.

Prereq: Not open to students with credit for 710.

## 5730 Introduction to Bioinformatics U G 3

Introduces students to basic topics of bioinformatics including sequence analyses, proteomics, microarrays, regulatory networks, sequence and protein databases. Recommended background in molecular biology and computer science.

Prereq: Not open to students with credit for IBGP 730.

## 5740 Introduction to Research Informatics U G 3

A survey of biomedical informatics theories and methods employed in the design, implementation and management of clinical and translational research programs.

Recommended experience with computer science, statistics, anatomy, medical terminology, and molecular biology.

## 5750 Methods in Biomedical Informatics U G 3

An intensive, application-oriented survey of methods used during the course of the design, implementation and evaluation of BMI platforms, including clinical info systems, decision support systems, databases, elec, data capture instruments, data visualization tools and other analytical "pipelines". These methods span a broad spectrum from information needs assessments to systems evaluation.

Prereq: Basic knowledge of the following areas - basic computer science principles (logic, procedural and/or object oriented programming, data structures and algorithms), statistical methods, and medical terminology.

## 5760 Public Health Informatics U G 3

Introduction to the emerging and critical field of Public Health informatics. This course will highlight the history, current and future use of informatics in the public health settings, and give students an understanding of the role and broad application of informatics to promoting health and preventing disease.

Cross-listed in PubHlth.

## 5770 Health Analytics: Data to Discovery to Dissemination U G 3

Health Analytics is the science of analyzing health data for knowledge discovery and decision making. The sheer diversity of data types in health care settings results in what scholars call a DRIP environment: Data Rich-Information Poor. Data has become ubiquitous in healthcare settings from clinical decision making to operational/business planning; health decisions are now being made similarly. No programming experience is required, but students are expected to vigorously engage in their own learning and parts of courses will require that students use and adapt to tools demonstrated during class.

## 5780 Programming for Biomedical Informatics U G 3

This course will offer the foundational and working knowledge, skills and tools for programming for Biomedical informatics. Biomedical informatics is a field that leverages complex and heterogeneous data. Working with these data requires knowledge of multiple programming languages and software in order to take advantage of existing tools and eventually build new tools.

## 5793 Individual Studies in Biomedical Informatics U G 1 - 15

Enables graduate students to do research projects with faculty other than their adviser.

Prereq: Permission of instructor. Repeatable to a maximum of 60 or hrs or 4 completions. This course is graded S/U.

## 7040 Clinical Informatics G 3

This course provides training in the theories, methods, and application of clinical informatics (CI). CI is the field concerned with the use of data and information technology applied to the delivery of healthcare services. CI has a wide array of healthcare delivery application areas in the clinical domain, including: pharmacy, nursing, and patient care operational areas. There are no formal prerequisite course requirements, but a familiarity with United States healthcare delivery and medical terminology is strongly encouraged.

## 7600 Metabolomics, Principles and Practice G 3

Introduces students to the principles and practice of metabolomics. Metabolomics is the study of the totality of small molecules existing within a system. We will focus here on the application of metabolomics to plant, food, nutrition and health-related research, although concepts are applicable to other disciplines.

Prereq: Permission of instructor. Cross-listed in FdScTe, HCS, and HumnNtr.

## 7810 Design and Methodological Approaches in Biomedical Informatics G 3

An introduction to research design and methods in Biomedical Informatics. It is organized around elements of proposal writing, grant writing, and study design. We will be surveying aspects of research, including the formulation of research questions, testable hypotheses, the selection of appropriate research designs and methods, data collection and analysis.

## 58 Biomedical Informatics

<b>7830</b>	<b>Systems Biology</b>	<b>G</b>	<b>3</b>
Critical analysis of experiments in systems biology. Prereq: 730 or IBGP 705, or permission of instructor. Not open to students with credit for 830.			
<b>7891</b>	<b>Seminar in Biomedical Informatics</b>	<b>G</b>	<b>1</b>
Faculty, trainees, and outside speakers will give presentations on current biomedical informatics (BMI) and BMI-related research and theory. Alternate classes will consist of journal-club style discussions moderated by faculty. Prereq: Permission of instructor. Not open to students with credit for 881. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
<b>7999</b>	<b>Thesis Research in Biomedical Informatics</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 99 cr hrs or 20 completions. This course is graded S/U.			
<b>8030.01</b>	<b>Special Topics in BMI: Computational Biology and Bioinformatics</b>	<b>G</b>	<b>1 - 5</b>
This is an advanced discussion-based seminar exploring new methods, technologies, and research in computational biology and bioinformatics. Prereq: Grad standing in a graduate program of study and permission of the instructor. Repeatable to a maximum of 27 cr hrs or 9 completions.			
<b>8040.01</b>	<b>Special Topics in BMI: Clinical and Translational Informatics</b>	<b>G</b>	<b>1 - 5</b>
This is an advanced discussion-based seminar exploring new methods, technologies, and research in clinical and translational informatics. Prereq: Grad standing in a master, doctoral, or professional program; and permission of the instructor. Repeatable to a maximum of 27 cr hrs or 9 completions.			
<b>8050.01</b>	<b>Special Topics in BMI: Data Science</b>	<b>G</b>	<b>1 - 5</b>
This is an advanced discussion-based seminar exploring new methods, technologies, and research in biomedical data analytics and data science. Prereq: Graduate standing in a master, doctoral, or professional program; and permission of the instructor. Repeatable to a maximum of 27 cr hrs or 9 completions.			
<b>8130</b>	<b>Analysis and Applications of Genome-Scale Data</b>	<b>G</b>	<b>3</b>
This course introduces trainees to the fundamental algorithms needed to understand and analyze genome-scale expression data sets. The course will cover three major kinds of applications: Class Comparison, Class Discovery, and Class Prediction. We will also discuss methods for cross-validation and independent validation of predictive models. R software environment will be introduced and utilized.			
<b>8140</b>	<b>Measuring patient experience and preferences</b>	<b>G</b>	<b>3</b>
This course will cover theory and concepts of empirical tools to describe disease burden, health state utilities, patient reported outcomes, patient experience, and patient preferences, important policy contexts that govern the study of patient preferences (e.g. regulatory, pricing/reimbursement) and good research practice documents that guide empirical studies of the patient experience.			
<b>8150</b>	<b>Rigorous and Reproducible Design and Data Analysis</b>	<b>G</b>	<b>3</b>
Students will learn to: computationally analyze datasets using best practices in experimental design and analysis; use the R language to analyze datasets from transcriptome, genome, and clinical studies; use examples from experimental design literature that are rigorous and with built-in flaws; identify sources of bias and the impact these have on results/conclusions. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies in Biomedical Informatics</b>	<b>G</b>	<b>1 - 5</b>
Graduate study of a selected topic. Prereq: Grad standing and permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions. This course is graded S/U.			
<b>8999</b>	<b>Research in Biomedical Informatics</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 99 cr hrs or 20 completions. This course is graded S/U.			

### Biomedical Science

<b>1100</b>	<b>Biomedical Science Survey</b>	<b>U</b>	<b>1</b>
Introduction to the Biomedical Science major and College of Medicine. Emphasis on academic requirements and resources, career exploration, university policies, and student rights and responsibilities. Prereq: Enrollment in Biomedical Sciences major, or permission of instructor. Not open to students with credit for 100.			
<b>2891H</b>	<b>Mastering the Biomedical Literature I</b>	<b>U</b>	<b>2</b>
First course in a two semester series. Includes searching for, organizing, and analyzing the biomedical literature for applications in biomedical research and scholarly communication. Prereq: Honors standing, and Biomedical Science Major; or permission of instructor. Not open to students with credit for 220.01H or 220.02H.			
<b>2892H</b>	<b>Mastering the Biomedical Literature II</b>	<b>U</b>	<b>2</b>
Second course in a two semester series analyzing the biomedical literature. Designed in two week blocks to read an original paper in depth, and then to meet and discuss the work with the author. Prereq: Honors standing, 2891H, and a Biomedical Science Major; or permission of instructor.			

<b>2900H</b>	<b>Biomedical Science Laboratory Techniques</b>	<b>U</b>	<b>2</b>
Lab exercises to teach the theory and practice of basic techniques in cell and molecular biology: including tissue isolation, protein analysis, microscopy, DNA isolation, PCR, bacterial and mammalian cell transfections, and product analysis. Prereq: Honors standing, Biology 1113 & 1114 or equivalent, General Chemistry or equivalent, and a Biomedical Science Major; or permission of instructor. Not open to students with credit for 480H.			
<b>3193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 4</b>
An individualized program of study or research experience for BMS students. Prereq: A Biomedical Science Major, or permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.			
<b>3194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
A specially designed program of study for BMS students. Prereq: A Biomedical Science Major, or permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.			
<b>3891H</b>	<b>Biomedical Science Research Experience I</b>	<b>U</b>	<b>5</b>
An intensive research experience for BMS students. Students spend 20-25 hrs/wk in a research lab. Class meetings for three oral presentations and written reports of 1) the lab, 2) an experimental technique, and 3) a formal research proposal. Prereq: Honors standing, and a Biomedical Science Major; or permission of instructor. Not open to students with credit for 720.01, 720.02, or 720.03.			
<b>3892H</b>	<b>Biomedical Science Research Experience II</b>	<b>U</b>	<b>5</b>
An intensive research experience for BMS students. Students spend 20-25 hrs/wk in a research lab. Class meetings for three oral presentations and written reports of 1) Journal Club article, 2) a poster presentation, and 3) a final report. Prereq: Honors standing. Not open to students with credit for 720.01, 720.02, or 720.03.			
<b>3998</b>	<b>BMS Undergraduate Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate research in Biomedical Science Laboratory. Prereq: A Biomedical Science Major, or permission of instructor. Repeatable to a maximum of 50 cr hrs or 5 completions. This course is graded S/U.			
<b>4200H</b>	<b>Concepts in Healthcare I: Humanistic and Social Issues in Medicine &amp; Biomedical Science</b>	<b>U</b>	<b>3</b>
Experiential initiation into the humanistic aspects of patient centered medicine for seniors in the Biomedical Science major. Communication process between patient and professional, between professionals, team work & leadership in medicine examined. Prereq: Honors standing, and a Biomedical Science Major, or permission of instructor. Not open to students with credit for 521, 522, or 523.			
<b>4210H</b>	<b>Concepts in Healthcare II: Introduction to Health Policy and Leadership in Healthcare</b>	<b>U</b>	<b>3</b>
Students will examine the political, social, and economic forces that have shaped health policy in the U.S. and the basic concepts of leadership in preparation for a career in a health care profession, biomedical research, or other careers. Prereq: Honors standing, and a Biomedical Science Major; or permission of instructor. Not open to students with credit for 521, 522, or 523.			
<b>4810H</b>	<b>Special Topics in Biomedical Science I: Immunology &amp; Infectious Disease</b>	<b>U</b>	<b>3</b>
Integrative research and application experience for seniors in the Biomedical Science major. Special topics in biomedical science combine basic science research and clinical applications to human disease processes. Prereq: Honors standing, and a Biomedical Science Major; or permission of instructor. Not open to students with credit for 581, 582, or 583.			
<b>4820H</b>	<b>Special Topics in Biomedical Science II: Genetics &amp; Neurological Disease</b>	<b>U</b>	<b>1½</b>
Integrative research and application experience for seniors in the Biomedical Science major. Special topics in biomedical science combine basic science research and clinical applications to human disease processes. Prereq: Honors standing, and a Biomedical Science Major; or permission of instructor. Not open to students with credit for 581, 582, or 583.			
<b>4830H</b>	<b>Special Topics in Biomedical Science III: Cancer Research; Bench to Bedside and Back</b>	<b>U</b>	<b>1½</b>
Integrative research and application experience for seniors in the Biomedical Science major. Special topics in biomedical science combine basic science research and clinical applications to human disease processes. Prereq: Honors standing, and a Biomedical Science Major; or permission of instructor. Not open to students with credit for 581, 582, or 583.			
<b>4998H</b>	<b>BMS Undergraduate Thesis Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate research in a Biomedical Science Laboratory culminating in an honors thesis and defense. Prereq: Honors standing, and enrollment in Biomedical Sciences major, or permission of instructor. Repeatable to a maximum of 14 cr hrs or 14 completions. This course is graded S/U.			

### Biomedical Sciences Graduate Program

## Biomedical Sciences Graduate Program 59

<b>5194</b>	<b>Introduction to Agent-Based Modeling Using NetLogo</b>	<b>U G</b>	<b>3</b>
Teaches agent-based modeling techniques using NetLogo software. Students will develop agent-based models of complex systems drawn from Ecology, Biology, Sociology, Engineering, and Business. Computer literacy is recommended. A course in deductive logic or programming recommended. Students should download NetLogo and look over documentation before class begins.			
<b>6700</b>	<b>Patient-Centered Research</b>	<b>G</b>	<b>2</b>
Lectures and small group discussions will cover an introduction to humanistic aspects of medical research and human experimentation, including historical, socio-political, economic, and ethical aspects. Prereq: Enrollment in College of Medicine, and permission of instructor. Repeatable to a maximum of 8 or hrs. This course is progress graded (S/U).			
<b>7000</b>	<b>Concepts in Biomedical Science</b>	<b>G</b>	<b>6</b>
An exploration of selected topics in biomedical sciences, ranging from molecular and cellular to systems. An emphasis is placed on fundamental concepts and critical reading of the primary literature. The course combines traditional lectures within student presentations and weekly in-class discussions of published papers. Prereq: Enrollment in IBGP/Biomedical Sciences PhD program, or permission of instructor.			
<b>7030</b>	<b>Introduction to Data Science for Biological Sciences</b>	<b>G</b>	<b>2</b>
This course provides an introduction to data science practices in the area of Biological and Biomedical Research. Course covers how to develop scripts in R, Python & Bash and the fundamental of reproducible and transparent programming.			
<b>7040</b>	<b>Research Problem Solving in Biomedical Science</b>	<b>G</b>	<b>4</b>
Students in small groups will analyze current and classic research papers and learn how to identify the hypothesis, test the hypothesis, and whether the results support the conclusions. Prereq: 7000, or equiv, or permission of instructor. Not open to students with credit for 704.			
<b>7060</b>	<b>Faculty Research in Biomedical Science</b>	<b>G</b>	<b>1</b>
IBGP faculty members will present current research in their laboratories that could provide the basis for student laboratory rotations and dissertation research. Prereq: Enrollment in IBGP, or permission of program director. Not open to students with credit for 706. This course is graded S/U.			
<b>7070</b>	<b>Fundamentals of Grant Writing</b>	<b>G</b>	<b>4</b>
Introduce students to the basics principles of grant writing. Student must have a dissertation project about which they can write a proposal in order to enroll. Prereq: Not open to students with credit for 7070 and 7080.			
<b>7240</b>	<b>Molecular Pathogenesis</b>	<b>G</b>	<b>3</b>
In-depth presentation and discussion of the molecular and cellular mechanisms of pathogenesis, emphasizing current research in the field. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 724. Cross-listed in Micrbio 7724.			
<b>7400</b>	<b>Selected Topics in Microbial Pathogenesis</b>	<b>G</b>	<b>2</b>
Student led discussions of classic and current literature in microbial pathogenesis. Repeatable to a maximum of 4 or hrs.			
<b>7402</b>	<b>Microbial Pathogenesis Journal Club</b>	<b>G</b>	<b>2</b>
Weekly, one student will present a current paper from the literature that represents some aspect of Host-Pathogen interactions. The presentation will include background and figures from respected top-tier journals. Prior to class, all students turn in summary of manuscript and two questions. Class grades determined by presentation evaluation, written summary of manuscript and participation. Prereq or concur: 7724, or Micrbio 7020, or permission of instructor.			
<b>7880</b>	<b>Vaccine Immunology</b>	<b>G</b>	<b>1</b>
This course explores the theory and practice of developing viral vaccines by discussion of the relevant virology and immunology. It is a combination seminar and work in progress course in which trainees present relevant recent papers as well as their own work. Discussion is encouraged led by the presenter and by the 4-8 Center faculty members who attend each presentation. Prereq: 7000. This course is graded S/U.			
<b>7900</b>	<b>Cancer Immunology: Critical Journal Readings</b>	<b>G</b>	<b>1</b>
Faculty, students and postdoctoral fellows will give critical interpretations of research and journal readings on cancer immunology. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 8 or hrs. This course is graded S/U.			
<b>7930</b>	<b>Individual Studies in Integrated Biomedical Science</b>	<b>G</b>	<b>1 - 15</b>
A research project will be assigned by a faculty member to meet the individual student's educational goals. Prereq: Enrollment in IBGP, or permission of instructor. Repeatable to a maximum of 60 or hrs or 10 completions. This course is graded S/U.			
<b>7950</b>	<b>Host-Pathogen Interactions: Research Seminar</b>	<b>G</b>	<b>1</b>
Faculty, students and outside speakers will give research presentations on microbial-host interactions. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 8 or hrs. This course is graded S/U.			

<b>7960</b>	<b>Research Seminars in Heart and Lung Disease</b>	<b>G</b>	<b>1</b>
Faculty and outside speakers will give basic and clinical science research seminars on mechanisms of heart and lung disease. Prereq: Enrollment in IBGP, or permission of instructor. Repeatable to a maximum of 8 or hrs. This course is graded S/U.			
<b>7972</b>	<b>Integrated Biomedical Science Senior Seminar</b>	<b>G</b>	<b>1</b>
Senior IBGP graduate students will present research work and be advised and critiqued by other senior students and a faculty advisor. Prereq: Enrollment in IBGP, and Grad standing. Repeatable to a maximum of 3 or hrs.			
<b>7975</b>	<b>Medical Scientist Student Seminar Series</b>	<b>G</b>	<b>1</b>
The Medical Scientist Student Seminar Series is a twice monthly forum for MSTP trainees to present research-in-progress, clinical cases, or journal club to their peers. Programmatic sessions (recruitment, new initiatives, etc.) and professional development (F30/F31, career path, vertical mentoring) sessions will be integrated into the schedule each semester. Prereq: Enrollment in the Medical Scientist Training Program. Repeatable to a maximum of 10 or hrs. This course is progress graded (S/U).			
<b>8050</b>	<b>Research Techniques and Resources</b>	<b>G</b>	<b>4</b>
Survey of research techniques used to solve problems in modern cell and molecular biology, immunology, biochemistry, microbiology, microscopy, laboratory safety, and related available resources. Prereq: Enrollment in IBGP, or permission of course director. Not open to students with credit for 805.01.			
<b>8520</b>	<b>Career Discovery in the Biomedical Sciences</b>	<b>G</b>	<b>1</b>
Seminar topics related to career opportunities available in the biomedical sciences, as well as topics on career development tools such as CV preparation, interview strategies, networking and prioritizing commitments. Prereq: Enrollment in BSGP, or permission of instructor.. Repeatable to a maximum of 6 or hrs. This course is graded S/U.			
<b>8800.01</b>	<b>Signature Program Translational Science Curriculum "Immunology and Inflammation"</b>	<b>G</b>	<b>2</b>
Translational Science to understand inflammatory diseases, viral diseases, cancer, and wound healing. Prereq: Enrollment in MD or DO degree program, or permission of instructor.			
<b>8800.02</b>	<b>Signature Program Translational Science Curriculum "Infection &amp; Host/Pathogen Science"</b>	<b>G</b>	<b>2</b>
Translational Science to understand inflammatory diseases, viral diseases, cancer, and wound healing. Prereq: Enrollment in MD or DO program, or permission of instructor. Cross-listed in IntMed.			
<b>8800.03</b>	<b>Signature Program Translational Science Curriculum "Regenerative Medicine &amp; Wound Healing"</b>	<b>G</b>	<b>2</b>
Translational Science to understand inflammatory diseases, viral diseases, cancer, and wound healing. Sum Sem. Prereq: Enrollment in MD or DO program, or permission of instructor.			
<b>8800.04</b>	<b>Signature Program Translational Science Curriculum "Cancer Biology &amp; Therapeutics"</b>	<b>G</b>	<b>2</b>
Translational Science to understand the cancer pathogenesis and the rational development of targeted therapies. Prereq: Enrollment in MD or DO degree program, or permission of instructor.			
<b>8800.05</b>	<b>Genomic Medicine</b>	<b>G</b>	<b>3</b>
Translational Science to understand current genomic medicine, pharmacogenomics literature, and design of genomics research projects, with emphasis on clinical applications. Prereq: Enrollment in MD or DO degree program, or permission of instructor.			
<b>8999</b>	<b>Research in Integrated Biomedical Science</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation purposes only. Prereq: Enrollment in IBGP, or permission of instructor. Repeatable to a maximum of 60 or hrs or 10 completions. This course is graded S/U.			

## Biophysics

<b>6000</b>	<b>Topics in Research Proposal Writing</b>	<b>G</b>	<b>1</b>
Course is designed to be a "writing lab" where students produce and critique research writing. Primarily, the focus will be proposal writing with NIH/NSF grant-writing strategies. Additional time will be devoted to developing manuscripts and poster presentations. Repeatable to a maximum of 2 or hrs.			
<b>6697</b>	<b>Study at a Foreign Institution</b>	<b>G</b>	<b>1 - 15</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of program director. Repeatable to a maximum of 45 or hrs or 45 completions. This course is progress graded (S/U).			
<b>6702</b>	<b>Advanced Experimental Methods in Biophysics</b>	<b>G</b>	<b>1 - 3</b>
Advanced Experimental Methods in Biophysics. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions.			

## 60 Biophysics

<b>6789</b>	<b>Free Radicals in Biomedicine</b>	<b>G</b>	<b>2</b>
Background in free radical biology and medicine focused on biologically relevant radicals, their physiological and pathophysiological roles and underlying physico-chemical processes. Grad credit in Biochem, Phys Chem, or Biophys recommended. Sp Sem. Prereq: Permission of instructor (Ugrd only). Cross-listed in IntMed.			
<b>7600</b>	<b>First-Year Student Orientation</b>	<b>G</b>	<b>1</b>
Orientation for first-year students in Biophysics and partner graduate programs; lectures on topics important for successful graduate experience; training in presenting scientific work; training in research ethics. Prereq: Not open to students with credit for MCDBio 7600, MolGen 7600, OSBP 7600 (760), or Microbio 7600. This course is graded S/U. Cross-listed in MCDBio, MolGen, OSBP, and Microbio.			
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 5</b>
Any particular subject that is not part of the regular curriculum. Prereq: Permission of instructor and program director. Repeatable. This course is graded S/U.			
<b>8998</b>	<b>Research in Biophysics</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis and dissertation purposes. Prereq: Enrollment in a Ph.D. program. Repeatable. This course is graded S/U.			
<b>8999</b>	<b>Research in Biophysics</b>	<b>G</b>	<b>1 - 3</b>
Research credit for students who are post candidacy exam. Repeatable. This course is graded S/U.			

## Biotechnology

<b>1201T</b>	<b>Exploring Biochemical Sciences and Biotechnology</b>	<b>U</b>	<b>½</b>
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			
<b>2194T</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>2218T</b>	<b>General and Applied Entomology</b>	<b>U</b>	<b>3</b>
Classification, identification, life cycles, external/internal structures, and functions of insects; common insect pests and their damage; methods of control and their applications. Prereq: Not open to students with credit for 218T or LabBioSc 218T. This course is available for EM credit.			
<b>2219T</b>	<b>Pesticides and their Use</b>	<b>U</b>	<b>3</b>
A study of the classification of pesticides and their mode of action, physiological effects, persistence in the environment, benefits, hazards, use, performance and regulation. Prereq: Not open to students with credit for 219T or LabBioSc 219T. This course is available for EM credit.			

## Bosnian/Croatian/Serbian

<b>1101</b>	<b>Elementary Bosnian/Croatian/Serbian I</b>	<b>U</b>	<b>4</b>
Introduction to Bosnian/Croatian/Serbian; development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of these languages through regular course enrollment or EM credit, or to students with 2 or more years of study in these languages in high school, except by permission of department. Prereq: Not open to students with credit for SrbCroat 101. This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>1102</b>	<b>Elementary Bosnian/Croatian/Serbian II</b>	<b>U</b>	<b>4</b>
Continued development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of these languages through regular course enrollment or EM credit. Prereq: BCS 1101 (SrbCroat 101.01). Not open to students with credit for SrbCroat 102 or 103. This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>1103</b>	<b>Intermediate Bosnian/Croatian/Serbian I</b>	<b>U</b>	<b>4</b>
Continued development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of these languages through regular course enrollment or EM credit. Prereq: BCS 1102 (SrbCroat 102.01). Not open to students with credit for SrbCroat 104. This course is available for EM credit. GE for lang course.			
<b>2104</b>	<b>Intermediate Bosnian/Croatian/Serbian II</b>	<b>U</b>	<b>4</b>
Increasing functional ability in speaking, listening, reading, and writing practice, vocabulary-building; new grammar structures; start developing higher-level language skills in Bosnian/Croatian/Serbian. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: BCS 1103 (SrbCroat 104.01). Not open to students with credit for SrbCroat 407.01, or for 5 qtr cr hrs of 407.51.			
<b>3101</b>	<b>Advanced BCS I</b>	<b>U</b>	<b>3</b>
Further develop speaking, listening, reading, and writing skills and grammar competence. Prereq: 2104. Not open to students with credit for Slavic 5194 (Au13, Mihalicek).			
<b>3102</b>	<b>Advanced BCS II</b>	<b>U</b>	<b>3</b>
Advanced BCS; second semester. Prereq: 3101.			

## Business Admin

<b>1100</b>	<b>College of Business Survey</b>	<b>U</b>	<b>1</b>
Academic requirements; policies procedures and resources; student rights and responsibilities; academic areas of specialization; careers in accounting and business administration. Prereq: NFYS, or a transfer student in direct enrollment program in BUS; and permission of instructor or department. Not open to students with credit for any OSU survey course.			
<b>1100H</b>	<b>College of Business Survey</b>	<b>U</b>	<b>1</b>
Academic requirements; policies procedures and resources; student rights and responsibilities; academic areas of specialization; careers in accounting and business administration. Prereq: Honors standing, and NFYS standing in direct enrollment program in BUS and permission of instructor or department. Not open to students with credit for any OSU survey course.			
<b>1101.01</b>	<b>Business Administration Seminar: Scholars</b>	<b>U</b>	<b>1</b>
Seminar for first-year business scholars students to explore personal interests, interdisciplinary opportunities, campus and local community resources and activities related to business scholars program. Prereq: Admission to Business scholars program, and permission of instructor.			
<b>1101.02</b>	<b>Business Administration Seminar: Campus Change</b>	<b>U</b>	<b>1</b>
Develop successful strategies to transition from a regional campus to Fisher College and the BSBA major program on the Columbus campus. Emphasis placed on self-initiative, effective decision making and personal responsibility. Prereq: Permission of instructor.			
<b>1101.03</b>	<b>Business Administration Seminar: E&amp;I Scholars</b>	<b>U</b>	<b>1</b>
Seminar for first-year Entrepreneurship & Innovation scholars students to explore personal interests, interdisciplinary opportunities, campus and local community resources and activities related to E&I scholars program. Prereq: Admission to E&I Scholars program, or permission of instructor.			
<b>1101.04</b>	<b>Fisher First Seminar</b>	<b>U</b>	<b>1</b>
For students admitted into the Fisher College of Business and part of the Fisher F.I.R.S.T. Program. Designed to help students reflect on their self and leadership development, foster community building and enhance skills development that are necessary for academic success and career success of students in Business. Prereq: Admission to Fisher F.I.R.S.T. program.			
<b>1200</b>	<b>College of Business Survey II</b>	<b>U</b>	<b>1</b>
Students will develop a comprehensive academic, professional/career, and personal plan for success that incorporates: self-knowledge and individual interests, exploring a specialization, a 4-year graduation plan, short term and long term goals for gaining leadership and work experience, and identifying opportunities to enhance the college experience. Prereq: Fresh standing, or transfer student survey course.			
<b>2191.01</b>	<b>Professional Experience Field Study</b>	<b>U</b>	<b>1</b>
For students completing a full semester internship requiring credit; internship is supervised by the employer, three assignments related to the internship are evaluated by the Director, Undergraduate Internship Services. Prereq: Admission to College of Business major program and specialization, and permission of instructor. Not open to students with more than 3 credit hours of 2191 or 2191.02. Repeatable to a maximum of 4 or hrs. This course is graded S/U.			
<b>2191.02</b>	<b>Professional Experience Field Study</b>	<b>U</b>	<b>½</b>
For students completing a session long internship requiring credit; internship is supervised by the employer, three assignments related to the internship are evaluated by the Director, Undergraduate Internship Services. Prereq: Admission to College of Business major program and specialization, and permission of instructor. Not open to students with more than 3.5 credit hours of 2191 or 2191.01. Repeatable to a maximum of 4 or hrs. This course is graded S/U.			
<b>2292H</b>	<b>Business Skills &amp; Environment</b>	<b>U</b>	<b>3</b>
Introduction to the role of business in the lives of individuals, consumers, employees, and citizens. Focus on the concept of ethical leadership with emphasis on both oral and written communication skills for the business environment. Prereq: Honors standing, and admission to BSBA program. Not open to students with credit for BusMHR 2291, 2292 or BusAdm 499 or 499H.			
<b>2600</b>	<b>Undergraduate Speaker Series</b>	<b>U</b>	<b>1</b>
Alumni from the Fisher College of Business will discuss their specializations, and companies to assist students in making career decisions. Emphasis on networking and business communications. Prereq: Enrollment in College of Business. Not open to students with credit for 503. This course is graded S/U.			
<b>2601</b>	<b>Job Search Preparation and Transition to Work for Business Students</b>	<b>U</b>	<b>½ - 1</b>
Practical techniques and skill development in conducting a job/internship search, researching career information, evaluating career decisions and beginning a successful career. Prereq: Enrollment in the Fisher College of Business Major Program and Specialization. Repeatable to a maximum of 3 or hrs or 4 completions.			

<b>2798</b>	<b>Study Tour: International</b>	<b>U</b>	<b>½ - 3</b>
Designed to provide an orientation to students who will embark on an international experience and once there, will enable students across countries to learn from each other. Prereq: Permission of instructor. Not open to students with credit for 498.02. Repeatable to a maximum of 9 credit hours or 3 completions.			
<b>3520</b>	<b>Entrepreneurship and Innovation: Fundamentals of New Product Development</b>	<b>U</b>	<b>3</b>
Provide an understanding of the entire product development process, from the first stages of problem definition to the finished product. Prereq: BusMHR 3510.01.			
<b>3531</b>	<b>Entrepreneurship and Innovation: General, Startup-Based Entrepreneurship</b>	<b>U</b>	<b>3</b>
Transformation of knowledge captured through creative, person-centered design into conceptual, viable, commercial concepts in the area of product/service based general entrepreneurship and entrepreneurial start-ups. Examination of a variety of business models appropriate for commercializing product/service based conceptualizations. Prereq: 3510, and Design 2700 and MechEng or ISE 5682.			
<b>3532</b>	<b>Entrepreneurship and Innovation: Corporate Entrepreneurship</b>	<b>U</b>	<b>3</b>
Develop skills and understanding of theories and their application to develop new ideas and viable new businesses within an established firm. Address the development of an internal culture of innovation, processes for reviewing ideas and developing concepts, strategic analysis, positioning for competitive advantage, forms of corporate ventures, and the qualities of corporate entrepreneurs. Prereq: 3510, and Design 2700 and MechEng or ISE 5682.			
<b>3533</b>	<b>Entrepreneurship and Innovation: Technology Entrepreneurship</b>	<b>U</b>	<b>3</b>
Examine the innovative transformation of knowledge captured in scientific discoveries into conceptual, viable, commercial products and services. Prereq: 3510, and Design 2700 and MechEng or ISE 5682.			
<b>3630.01</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Previous enrollment in 3630.01, or admission to Business Industry Cluster Program, or permission of instructor. Not open to students with credit for 505.01.			
<b>3630.01E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster Program.			
<b>3630.02</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business majors to learn strategy and implementation details from current industry professionals. Prereq: Previous enrollment in 3630.02, or enrollment in Business Industry Cluster Program, or permission of instructor. Not open to students with credit for 505.02.			
<b>3630.02E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster Program.			
<b>3630.03</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Previous enrollment in 3630.03, or admission to Business Industry Cluster Program, or permission of instructor. Not open to students with credit for 505.03.			
<b>3630.03E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster Program.			
<b>3630.04</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Previous enrollment in 3630.04, or admission to Business Industry Cluster Program, or permission of instructor. Not open to students with credit for 505.04.			
<b>3630.04E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster Program.			

<b>3630.05</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Previous enrollment in 3630.05, or admission to Business Industry Cluster Program, or permission of instructor. Not open to students with credit for 505.05.			
<b>3630.05E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to the BSBA Honors Contract Industry Cluster Program.			
<b>3630.06</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to Business Industry Cluster Program, or permission of instructor.			
<b>3630.06E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster program.			
<b>3630.07</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to Business Industry Cluster Program, or permission of instructor.			
<b>3630.07E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster program.			
<b>3630.08</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to Business Industry Cluster Program.			
<b>3630.08E</b>	<b>Business Industry Cluster</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to BSBA Honors Contract Industry Cluster program.			
<b>3630.09</b>	<b>Business Industry Immersion</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to Business Industry Immersion Program, or permission of instructor.			
<b>3630.10</b>	<b>Business Industry Immersion</b>	<b>U</b>	<b>3</b>
Exploration of current interdisciplinary best business practices in industry. Students will work across business specializations to learn strategy and implementation details from current industry professionals. Prereq: Admission to Business Industry Immersion Program, or permission of instructor.			
<b>3632.01</b>	<b>Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: Enrollment in Business Industry Cluster Program, or permission of instructor. Prereq or concur: 3630.01. Not open to students with credit for 506.01.			
<b>3632.01E</b>	<b>Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.01E, and admission to BSBA Honors Contract Industry Cluster program.			
<b>3632.02</b>	<b>Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: Enrollment in Business Industry Cluster Program, or permission of instructor. Prereq or concur: 3630.02. Not open to students with credit for 506.02.			
<b>3632.02E</b>	<b>Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.02E, and admission to BSBA Honors Contract Industry Cluster program.			

## 62 Business Admin

<b>3632.03 Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: Enrollment in Business Industry Cluster Program, or permission of instructor. Prereq or concur: 3630.03. Not open to students with credit for 506.03.		
<b>3632.03E Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.03E, and admission to BSBA Honors Contract Industry Cluster Program.		
<b>3632.04 Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: Enrollment in Business Industry Cluster Program, or permission of instructor. Prereq or concur: 3630.04. Not open to students with credit for 506.04.		
<b>3632.04E Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.04E, and admission to BSBA Honors Contract Industry Cluster Program.		
<b>3632.05 Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: Enrollment in Business Industry Cluster Program, or permission of instructor. Prereq or concur: 3630.05. Not open to students with credit for 506.05.		
<b>3632.05E Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.05E, and admission to BSBA Honors Contract Industry Cluster program.		
<b>3632.06 Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq 3630.06, and enrollment in Business Industry Cluster Program; or permission of instructor.		
<b>3632.06E Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.06E, and admission to the BSBA Honors Contract Industry Clusters program.		
<b>3632.07 Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq 3630.07, and enrollment in Business Industry Cluster Program; or permission of instructor.		
<b>3632.07E Business Industry Cluster Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.07E, and admission to BSBA Honors Contract Industry Cluster Program.		
<b>3632.08 Business Industry Immersion Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.08, or permission of instructor.		
<b>3632.09 Business Industry Immersion Project Experience</b>	<b>U</b>	<b>3</b>
Hands-on experience in the execution of industry business practices to fill a need articulated by an operating public or private organization. Prereq: 3630.09, or permission of instructor.		
<b>3640.01 Introduction to Sustainability in Business I: Principles and Concepts</b>	<b>U</b>	<b>3</b>
An introduction to the topic of sustainability in business. Prereq: Must be in Business Industry Cluster Program.		
<b>3640.01E Introduction to Sustainability in Business I: Principles and Concepts</b>	<b>U</b>	<b>3</b>
An introduction to the topic of sustainability in business. Prereq: Admission to BSBA Honors Contract Industry Cluster Program.		
<b>3640.02 Introduction to Sustainability in Business I: Principles and Concepts</b>	<b>U</b>	<b>3</b>
An introduction to the topic of sustainability in business. Prereq: ENR 2500 or AEDEcon 2500. Not open to students with credit for BusMHR 504.01, 504.02 or 694.11 or BusAdm 3640.01.		
<b>3642.01 Introduction to Sustainability in Business II: Applications, Solutions and Project Experience</b>	<b>U</b>	<b>3</b>
Field projects on sustainable business issues. Prereq: 3640.01, or permission of instructor.		

<b>3642.01E Introduction to Sustainability in Business II: Applications, Solutions and Project Experience</b>	<b>U</b>	<b>3</b>
An introduction to the topic of sustainability in business with a concentration on the applications and solutions. Prereq: 3640.01E, and admission to BSBA Honors Contract Industry Cluster Program. Not open to students with credit for 3640.02 or 3642.02.		
<b>3642.02 Introduction to Sustainability in Business II: Applications, Solutions and Project Experience</b>	<b>U</b>	<b>3</b>
Field projects on sustainable business issues. Prereq: 3640.02, or permission of instructor. Not open to students with credit for BusMHR 504.03 or 694.13.		
<b>3760 Exploring Culture in International Environments</b>	<b>U</b>	<b>1</b>
Through individual reflections, activities, and discussions, students participating in Fisher's International Student Exchange Program will be challenged to view knowledge and experiences from multiple perspectives. Prereq: Accepted into a Fisher International Exchange Program. Repeatable to a maximum of 2 cr hrs. This course is progress graded.		
<b>3890H Honors Seminar</b>	<b>U</b>	<b>1 - 3</b>
Seminar on current business topics for students enrolled in the Business Administration Honors Programs. Topics may vary. Prereq: Admission to a Business Administration Honors Program. Repeatable to a maximum of 6 cr hrs of 4 completions.		
<b>4189 Advanced Field Study: Doing Business in a Global Region</b>	<b>U</b>	<b>1</b>
Required pre-departure component of Fisher College of Business Global Internship Program for Undergraduates. Prereq: Admission to Fisher College of Business Global Internship Program, and permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.		
<b>4191 Professional Experience in Business</b>	<b>U</b>	<b>0</b>
Students complete a co-op or internship assignment in private industry or for a government agency; assignment is supervised by the employer and monitored and evaluated by the course coordinator. Prereq: Permission of the Course Coordinator. Repeatable to a maximum of 4 completions. This course is graded S/U.		
<b>4510 Entrepreneurship and Innovation: Practicum</b>	<b>U</b>	<b>3</b>
Last required course in the Entrepreneurship and Innovation Minor. Application of tools and resources to real-world projects. Prereq: 3510 and 3531, 3532, 3533 or BusMHR 5530, and Design 2700, and MechEng or ISE 5682.		
<b>4798 Study Tour: International</b>	<b>U</b>	<b>1 - 10</b>
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Repeatable for different titled study tours only. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 3 completions.		
<b>4890H Honors Seminar</b>	<b>U</b>	<b>1 - 3</b>
Seminar on current business topics for students enrolled in the Business Administration Honors Programs. Topics may vary. Prereq: 3890H. Repeatable to a maximum of 6 cr hrs or 2 completions.		
<b>4998 Undergraduate Research in Business</b>	<b>U</b>	<b>1 - 3</b>
Undergraduate Research in Business for non-honors students. Prereq: BusMHR 2291 (499), and Jr standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.		
<b>5797 Study at a Foreign Institution</b>	<b>U G</b>	<b>½ - 18</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of Undergraduate BSBA Program Director of Student Services. Repeatable to a maximum of 36 cr hrs or 10 completions.		
<b>7191 Professional Experience in Business</b>	<b>G</b>	<b>0</b>
International students complete a co-op or internship assignment in private industry or for a government agency; assignment is supervised by the employer and monitored and evaluated by the course coordinator. Prereq: Permission of the Course Coordinator. Repeatable to a maximum of 4 completions. This course is graded S/U.		

### Business Admin: Finance

<b>1200 Personal Finance</b>	<b>U</b>	<b>3</b>
Introduction to the field of personal financial management and planning, focusing on the tools individuals and families employ to manage their financial affairs. Prereq: Not open to students with credit for 220, or enrolled in Accounting or Finance majors.		
<b>1250 FINIGS</b>	<b>U</b>	<b>2</b>
There is a broad range of opportunities, in a broad range of industries available to students with a Finance degree. This course is designed to explore these opportunities, in an in-depth manner. The goal of this course is to give the student a 'real world' perspective. Prereq: Soph standing, and Finance specialization. This course is graded S/U.		

<b>3120</b>	<b>Foundations of Finance</b>	<b>U</b>	<b>3</b>
Develops skills related to Time Value of Money, Risk and Return with applications in business and personal finance. Prereq: AcctMIS 2000, Math 1116 or above, Econ 2001.01, and CSE 1110 or equiv. Not open to students with credit for 3220. Not open to students enrolled in the BSBA program.			
<b>3194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 6</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor. Not open to students with credit for 494.			
<b>3220</b>	<b>Business Finance</b>	<b>U</b>	<b>3</b>
Introductory finance class which allows students develop the skills to understand how financial managers make value-maximizing decisions for their firms. Prereq: Econ 2001.01 (200), and 2002.01 (201), and AcctMIS 2200 (211). Prereq or concur: AcctMIS 2300. Not open to students with credit for 620, or to students enrolled in UUSS, UExp or PreBSBA-PR.			
<b>3222</b>	<b>Foundations of Investments</b>	<b>U</b>	<b>3</b>
Basic principles and methods of investment for non-Business majors. Prereq: 3120 (420) and AcctMIS 2000. Not open to students with credit for 4221 (722) or 522. Not open to students enrolled in the BSBA program.			
<b>3250</b>	<b>Foundations of International Finance</b>	<b>U</b>	<b>3</b>
Management of financial risk inherent with international business; problems of implementing corporate finance principles; International Capital Markets, for non-Business majors. Prereq: 2200, 3220 (620), or 420. Not open to students with credit for 4250 or 725.			
<b>3300</b>	<b>Principles of Insurance</b>	<b>U</b>	<b>3</b>
Basic principles and main characteristics of the Insurance Industry and the fundamentals of risk identification, insurance contracts, and annuities. Prereq: Econ 2001.01, 2002.01, and BusMHR 2292.

Examine the economics of property rights, the fundamental theories in urban economics, and selected applications. Prereq: Econ 2001.01 (200) or 2002.01 (201), and BusMhr 2292 (BusAdm 499.01). Not open to students with credit for 670.			
<b>3500</b>	<b>Legal Environment of Business</b>	<b>U</b>	<b>1½</b>
An introduction to American legal institutions, sources of law, and an analysis of basic concepts of public and private law related to business decisions. Prereq: Soph standing. Not open to students with credit for 510, or to students enrolled in UUSS, UExp or PreBSBA-PR.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 4</b>
Individual study projects in selected areas of finance. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 3 completions. This course is graded S/U.			
<b>4194.21</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor. Not open to students with credit for 694.21.			
<b>4194.22</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor. Not open to students with credit for 694.22.			
<b>4194.23</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor. Not open to students with credit for 694.23.			
<b>4194.24</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor. Not open to students with credit for 694.24.			
<b>4194.25</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor. Not open to students with credit for 694.25.			
<b>4200</b>	<b>Applications in Finance</b>	<b>U</b>	<b>3</b>
Applications in Finance with a discussion of Investment alternatives such as Money Market instruments, Stocks and Bonds and Corporate Finance issues such as Corporate Governance, Cost of Capital and Capital Budgeting. Prereq: 3220 (620), BusMgt 2320 (330), and 2321 (331). Not open to students with credit for 4210, 4211, 4212 (721), 4220, 4221, or 4222 (722).			
<b>4201</b>	<b>Financial Data</b>	<b>U</b>	<b>1½</b>
How to use relevant accounting information for various applications in finance such as estimating stock and bond prices and free cash flows. Prereq: 3220 (620), AcctMIS 2200 (211), AcctMIS 2300 (212), BusMgt 2320 (330), and 2321 (331); and BusMHR 2291 or 2292 (BusAdm 499.01).			
<b>4202H</b>	<b>Honors Financial Data</b>	<b>U</b>	<b>3</b>
This hands-on course covers the application of financial software tools and financial modeling. You will be exposed to real world applications used in corporate finance, investment banking, private equity, and asset management. Prereq: A CPHR of 3.5 or above, and admission to the Finance Honors Program.			

<b>4211</b>	<b>Corporate Finance</b>	<b>U</b>	<b>3</b>
Analysis of advanced capital budgeting problems through understanding the theories and applications of capital structure, leasing and real options. Theories and applications in corporate control, corporate governance and mergers and acquisitions. Prereq: 3220 (620), AcctMIS 2200, 2300, BusMgt 2320 (330), 2321 (331), and BusMHR 2291 or 2292 (BusAdm 499.01) Not open to students with credit for 721, 4210 or 4212.			
<b>4211H</b>	<b>Honors Corporate Finance</b>	<b>U</b>	<b>3</b>
The course introduces students to key concepts in financial management, including capital budgeting, the valuation of projects and companies, methods for determining the cost of capital, capital structure and payout policies, securities issuance, mergers and acquisitions, and corporate governance. Prereq: Admission to the Finance Honors Program, and a CPHR of 3.5 or above.			
<b>4213</b>	<b>Corporate Restructuring and Bankruptcy</b>	<b>U</b>	<b>1½</b>
Corporate finance theories as they relate to spinoffs, restructuring, and bankruptcy. Prereq: 4211, 4221, 4219, and BusMHR 2292. Not open to students with credit for 721.			
<b>4214</b>	<b>Corporate Finance IV</b>	<b>U</b>	<b>1½</b>
A capstone course that allows students to apply their skills and knowledge developed in earlier courses to action-based corporate finance case studies. Prereq or concur: 4213 and BusMHR 2291 (BusAdm 499.01). Not open to students with credit for 721.			
<b>4215</b>	<b>Entrepreneurial Finance</b>	<b>U</b>	<b>1½</b>
The roles of business plans, Angel Investors, and venture capital in private firms. Prereq: 4211 and 4221. Not open to students with credit for 590.			
<b>4216</b>	<b>Private Equity</b>	<b>U</b>	<b>1½</b>
Private equity funds are responsible for a large percentage of merger activity both inside and outside the U.S. The venture capital portion of the private equity industry has provided financing for most of the prominent new companies that have gone public in recent years. Prereq: 4211, 4221, and 4229.			
<b>4217</b>	<b>Private Financing (i.e. VC &amp; PE)</b>	<b>U</b>	<b>3</b>
This course provides a comprehensive look into the inner workings of Venture Capital along with the various skill sets required of first year analysts. The class will include case studies and class discussions augmented by lectures from industry experts. Prereq: 4211 and 4221.			
<b>4218</b>	<b>Fixed Income Securities</b>	<b>U</b>	<b>1½</b>
An introduction to the mathematics and evaluation of US Dollar denominated fixed income instruments. Students will learn the underlying terms and conditions used in the fixed income markets and apply Excel based mathematical models to evaluate the pricing, yield, risk, and return attributes in the market. Prereq: 4201, 4211, 4221, 4250, and CPHR 3.5 or above.			
<b>4219</b>	<b>Advanced Corporate Finance</b>	<b>U</b>	<b>3</b>
This course is a capstone undergraduate elective in the area of Corporate Finance. The course helps students bridge the gap between the theory of finance, covered in other courses, and the reality of decision-making as a financial manager through the use of real-world case studies. Students learn to analyze real-world problems and provide recommendations to a best course of action. Prereq: 4211, 4221, and BusMHR 2291 or 2292. Not open to students with credit for or currently enrolled in 4229 or 4239.			
<b>4221</b>	<b>Investments</b>	<b>U</b>	<b>3</b>
Skills for valuation and theories and applications of CAPM, APT, and efficient markets; investment options, forwards and futures, interest rate parity, and relevant market regulation. Prereq: 3220, BusMgt 2320, 2321, and BusMHR 2292. Not open to students with credit for 722, 4220 or 4222.			
<b>4221H</b>	<b>Honors Investments</b>	<b>U</b>	<b>3</b>
Designed to teach the principles of financial decision making and the investment process. The course will cover current market moving events, multiple asset classes, asset allocation, diversification, security valuation, key player types, efficient market hypothesis, adaptive market hypothesis, behavioral finance, pricing models, active investment management, investment funds, and fin. reg. Prereq: Admission to the Finance Honors Program, and a CPHR of 3.5 or above.			
<b>4223</b>	<b>Fixed Income</b>	<b>U</b>	<b>1½</b>
The basics of fixed-income securities, bond valuation skill development, and the measurement and management of credit and interest-rate risk. Prereq: 4211 and 4221. Not open to students with credit for 731.			
<b>4224</b>	<b>Behavioral Finance</b>	<b>U</b>	<b>1½</b>
Theories and implications of behavioral finance, CAPM Anomalies, and advanced Investment strategies. Prereq: 4211 (721), 4221 (722) and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 722.			

## 64 Business Admin: Finance

<b>4225</b>	<b>Investment Strategies and Philosophies</b>	<b>U</b>	<b>3</b>
This course is designed to teach different investment strategies, reveal the beliefs that underlie each one, provide evidence on whether the strategies actually produce results, and what an investor needs to understand in order to implement a philosophy. The strategies covered include value investing, growth investing, technical analysis, market timing, arbitrage, fixed income. Prereq: 4211 and 4221.			
<b>4227</b>	<b>Trading &amp; Markets</b>	<b>U</b>	<b>1½</b>
Action-based course on market design and trading cost analysis, including interactive trading simulation. Prereq: 4211, 4221 and BUSMHR 2292. Not open to students with credit for 730.			
<b>4228</b>	<b>Stock Market: Student Investment Management</b>	<b>U</b>	<b>3</b>
Action-based course applying valuation techniques and investment strategies to portfolio management and valuation. Prereq: 4211, 4221, BUSMHR 2292 and GPA 3.2 or above. Not open to students with credit for 724.			
<b>4229</b>	<b>Options and Futures</b>	<b>U</b>	<b>3</b>
This course explores the valuation of forwards, options, forward-based, and option-based financial instruments. While a student may have studied options and/or forwards in other courses, this course examines in detail the analytical methods used to price these securities, and the analytical analysis of arbitrage, hedging, and speculation using these securities. Prereq: 4211, 4221, and BusMHR 2291 or 2292. Not open to students with credit for or currently enrolled in 4219 or 4239.			
<b>4234</b>	<b>FinTech</b>	<b>U</b>	<b>1½ - 3</b>
'FinTech' refers to financial sector innovations involving technology-enabled business models that can facilitate disintermediation, revolutionize how existing firms create and deliver products and services, address privacy, regulatory and law-enforcement challenges, provide new gateways for entrepreneurship, and seed opportunities for inclusive growth. Prereq: 4211 and 4221.			
<b>4235</b>	<b>Applied Fundamental Investing</b>	<b>U</b>	<b>1½</b>
Theories and applications in asset management including the roles of investment strategies. Prereq: 4211, 4221, and CPHR 3.5 or above. Not open to students with credit for 728.			
<b>4239</b>	<b>Risk Management</b>	<b>U</b>	<b>3</b>
Extends the skills developed in Corporate Finance and Investments classes to the role of risk management within the firm. Increasingly, managers are required to understand the many risks facing their organizations, undertaking those risks which represent value-enhancing opportunities, while mitigating unwanted risks. Prereq: 4211 and 4221, and BusMHR 2291 or 2292. Not open to students with credit for or currently enrolled in 4219 or 4229.			
<b>4250</b>	<b>Global Finance</b>	<b>U</b>	<b>1½</b>
Implications for financial managers of global economic policy. Prereq: 3220 (620), AcctMIS 2200 (211), 2300 (212), BusMgt 2320 (330), 2321 (331), and BusMHR 2291 or 2292 (BusAdm 499.01). Not open to students with credit for Econ 520.			
<b>4250H</b>	<b>Honors Global Finance</b>	<b>U</b>	<b>1½ - 3</b>
In this class, we are going to look at the interconnections that link international financial markets and their implications for firms. We will develop a simple model that will help you understand the relationship between the financial markets and macroeconomic policies and the business environment in which firms operate. Prereq: A CPHR of 3.5 or above, and admission to the Finance Honors Program.			
<b>4251</b>	<b>Booms and Busts</b>	<b>U</b>	<b>3</b>
In this course we examine various financial booms, busts and how the field of finance evolved along the way. The purpose of the course is to understand the causes of past financial crises and booms as well as develop a deeper understanding of how the field of finance has progressed. Prereq: 4211, 4221, and 4201. Prereq or concur: 4250.			
<b>4255</b>	<b>International Finance</b>	<b>U</b>	<b>3</b>
The goal is to provide a framework for making financial decisions in an international context. The course is divided into three sections: 1) the international financial environment, 2) international investment analysis, and 3) international corporate finance. Students will be exposed to a broad range of topics, including some of the latest developments in global financial markets. Prereq: 4250. Prereq or concur: 4211 and 4221.			
<b>4265</b>	<b>Financial Institutions</b>	<b>U</b>	<b>3</b>
Financial Institutions play an extremely important role in the functioning of the global economy and in the operation of our firms. When financial institutions fail to act properly the results can be catastrophic, both for financial markets and greater society as a whole. Prereq or concur: 4211 and 4221. Not open to students with credit for 726.			
<b>4310</b>	<b>Commercial Property and Casualty Insurance</b>	<b>U</b>	<b>3</b>
Fundamentals of commercial property and liability insurance, including commercial property and liability contracts, and the regulation and financial analysis of property and liability insurers. Prereq: 3300 (640), BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 749.			

<b>4311</b>	<b>Personal Insurance</b>	<b>U</b>	<b>3</b>
Topics on the basics of life insurance, health insurance, disability and long term care insurance, homeowners and renters insurance, auto insurance. Prereq: 3300, BusMgt 2320, and BusMHR 2292.			
<b>4312</b>	<b>Employee Benefits Plans</b>	<b>U</b>	<b>3</b>
Fundamentals of insurance topics related to the human resource function such as health and retirement benefits, and COBRA. Prereq: BusMgt 2320 (330), 3300 (640), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 741.			
<b>4313</b>	<b>Captive Insurance Company: Development, Structure and Operations</b>	<b>U</b>	<b>3</b>
This course provides an introduction to the formation, characteristics, and functions of Captive Insurance Companies. Captive is a subsidiary insurance company that covers the loss exposures of its parent. In the 50 years since their introduction, captives have evolved to cover multiple owners or members. Prereq: 3300, BusMgt 2320, and BusMHR 2292.			
<b>4315</b>	<b>Insurance Operations</b>	<b>U</b>	<b>3</b>
This course examines the major operations of property and casualty insurers, and the issues facing managers of such operations. Students will review the core insurance functions of marketing, underwriting, and claims, as well as key staff roles, including actuarial, loss control, reinsurance and investment management. Prereq: 3300, BusMgt 2320, and BusMHR 2292.			
<b>4410</b>	<b>Real Estate Finance</b>	<b>U</b>	<b>3</b>
Basics of the mortgage markets and related finance investments and models of real estate valuation. Prereq: 3400 (670), or in Finance-BS plan. Not open to students with credit for 772.			
<b>4411</b>	<b>Property Management</b>	<b>U</b>	<b>3</b>
Basic topics related to property management such as acquisition, construction, and supporting business functions. Prereq: 3220 (620), 3400 (670), 3500 (510), BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 776.			
<b>4412</b>	<b>Real Estate Law</b>	<b>U</b>	<b>3</b>
Basic legal aspects of property contracts, transactions, and environmental law. Prereq: 3220 (620), 3400 (670), 3500 (510), BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 775.			
<b>4413</b>	<b>Planning and Development</b>	<b>U</b>	<b>3</b>
In this action-based class, students engage in site-based development case studies. Prereq: 3220 (620), 3400 (670), 3500 (510), BusMgt 2320 (330), 2321 (331), and BusMHR 2291 (BusAdm 499.01).			
<b>4415</b>	<b>Real Estate Asset Management</b>	<b>U</b>	<b>1½</b>
Real Estate Asset Management, is designed to give students a solid grasp of the skills required in analyzing a commercial real estate investment, and formulating and implementing the strategy for optimizing the investment returns. Prereq: 3220, 3400, 3500, BusMgt 2320, 2321, and BusMHR 2292.			
<b>4416</b>	<b>Real Estate Equity Investment</b>	<b>U</b>	<b>1½</b>
Real Estate Equity Investment, is designed to give students a solid understanding of equity investment in commercial real estate through a vehicle called a Real Estate Investment Trust (REIT). Prereq: 3220, 3400, 3500, BusMgt 2320, 2321, and BusMHR 2292.			
<b>4510</b>	<b>Legal Business Issues</b>	<b>U</b>	<b>1½</b>
Fundamentals of contracts and other legal aspects of business. Prereq or concur: 3500 and BusMHR 2291 (BusAdm 499.01). Not open to students with credit for 510.			
<b>4630H</b>	<b>Finance Honors Seminar-Capstone</b>	<b>U</b>	<b>3</b>
This course is a current event and capstone project with leadership service experience. The Capstone project will introduce you to the world of non-profit organizations. The non-profit sector serves a vital role in our society and covers range of institutions and organizations. Prereq: Admission to the Finance Honors Program.			
<b>4998</b>	<b>Undergraduate Research in Finance</b>	<b>U</b>	<b>1 - 3</b>
Undergraduate research in finance for non-honors students. Prereq: BusAdm 2291 (499), and Jr standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.			
<b>4998H</b>	<b>Honors Research</b>	<b>U</b>	<b>1 - 3</b>
Special topics research in finance, business law, insurance and risk, and/or real estate; research evaluated through papers, thesis, and/or special examination. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>5402</b>	<b>Real Estate Valuation</b>	<b>U G</b>	<b>3</b>
This real estate valuation and financial modeling course will cover existing income producing property as well as ground up construction. Topics include market analysis, comparable valuation, income valuation, cost valuation, real estate finance, expense reimbursements, budget development, and pro-forma modeling. Prereq: 3400, and enrollment in RealEst major or minor; or 4211, 4221, and enrollment in Finance major; or 7240; or permission of instructor.			

<b>6211</b>	<b>Finance I</b>	<b>G</b>	<b>1½</b>
Covers topics of time value of money, concepts of risk and return, and investment criteria. Prereq: Enrollment in MAcc program. Not open to students with credit for 811.			
<b>6212</b>	<b>Finance II</b>	<b>G</b>	<b>1½</b>
Covers capital budgeting, market efficiency, derivatives, interest rate parity. Prereq: Enrollment in MAcc program. Not open to students with credit for 811.			
<b>6220</b>	<b>Financial Analysis and Valuation</b>	<b>G</b>	<b>3</b>
Fundamental techniques for financial analysis such as time value of money, risk and return, capital budgeting and investment criteria, financial accounting, and an introduction to financial derivatives. Prereq: Enrollment in SMB-Finance program. Not open to students with credit for 860.

Principles of how individuals and firms make financial decisions, how financial markets work, and how financial managers make decisions under different forms of industry structure. Prereq: Enrollment in SMB-Finance program. Not open to students with credit for 861.			
<b>6225</b>	<b>Core Capstone Projects - SMF</b>	<b>G</b>	<b>1½</b>
This is a capstone, action-based course for students in the Specialized Masters - Finance (SMF) program offered in the first semester of the program. The course aims at providing SMF students with a structured environment to practice analytical and soft skills acquired throughout the program's core courses. Prereq: Enrollment in SMB-Finance program.			
<b>6226</b>	<b>Finance Consulting Practicum</b>	<b>G</b>	<b>1½</b>
Action-based course providing students in the Specialized Masters Finance the opportunity to practice analytical and soft skills through working with professionals on finance projects. Prereq: Enrollment in SMB-Finance program. Not open to students with credit for 865.			
<b>6227</b>	<b>Professional Development for SMF students</b>	<b>G</b>	<b>1½</b>
This course is designed to supplement and enhance the SMF experience. The SMF program develops technical skills in finance, but class participation and team assignments are also essential to success. Class participation is often a significant part of course grades and team are assigned to prepare case briefs. Prereq: Enrollment in SMB-Finance program. This course is graded S/U.			
<b>6230</b>	<b>Accounting &amp; Finance for Analytics</b>	<b>G</b>	<b>3</b>
Students will understand the fundamentals of accounting (managerial and financial) and finance. The course will cover defining financial data, transforming data into information and leveraging financial information to make financial decisions. Students will have hands-on experience with various types of real-world financial data and build a detailed discounted cash flow model. Prereq: Enrollment in SMB-Analytics program.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>½ - 9</b>
Individual study projects in related areas of finance. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 3 completions. This course is graded S/U.			
<b>7194.21</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor.			
<b>7194.22</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>
Group study projects in selected areas of finance. Prereq: Permission of instructor.			
<b>7200</b>	<b>Financial Software Applications</b>	<b>G</b>	<b>1½</b>
This hands-on course covers the application of financial software tools and financial modeling. Exposure to real world applications used in corporate finance, investment banking, private equity, and asset management. Apply models relating to project analysis, capital budgeting, financial statement analysis, equity intrinsic values, capital structure, portfolio mgmt, leveraged buyouts, and M&A. Prereq: MBA 6223, or enrollment in SMB-Finance program.			
<b>7210</b>	<b>Corporate Financing</b>	<b>G</b>	<b>1½</b>
Advanced valuation skills and theories and applications in capital structure and security issuance. Prereq or concur: MBA 6223, or enrollment in SMB-Finance program.			
<b>7211</b>	<b>Financial Budgeting and Management in an MNC</b>	<b>G</b>	<b>1½</b>
The course focuses on key financial forecasting and budgeting processes in a multi-national company. The audience is Finance professionals, and other disciplines who aspire to be in commercial facing roles. Prereq: MBA 6223. Prereq or concur: BusFin 7210, or enrollment in SMB-Finance program.			
<b>7212</b>	<b>Mergers and Acquisitions</b>	<b>G</b>	<b>1½</b>
Advanced theories of and applications in the areas of corporate control and governance and mergers and acquisitions. Prereq: MBA 6223, and BusFin 7210, concur: 7220 or 7230; or enrollment in SMB-Finance program.			

<b>7213</b>	<b>Corporate Restructuring and Bankruptcy</b>	<b>G</b>	<b>1½</b>
Advanced corporate finance theories and applications in the areas of spinoffs, restructuring, and bankruptcy. Prereq: MBA 6223, and BusFin 7210, concur: 7220 or 7230; or enrollment in SMB-Finance program.			
<b>7214</b>	<b>Corporate Financial Management IV</b>	<b>G</b>	<b>1½</b>
Advanced case studies in corporate finance. Prereq or concur: 7212 and 7213 (821), or 811 and MBA 810. Not open to students with credit for 828.			
<b>7215</b>	<b>Entrepreneurial Finance</b>	<b>G</b>	<b>1½</b>
Advanced study of the roles of Angel investing, business plans, and venture capital in entrepreneurial finance. Prereq: MBA 6223, concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7216</b>	<b>Private Equity</b>	<b>G</b>	<b>1½</b>
Theories of and applications in buyouts and private equity transactions. Prereq: MBA 6223, concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7218</b>	<b>Fixed Income Securities</b>	<b>G</b>	<b>1½</b>
An introduction to the mathematics and evaluation of US Dollar denominated fixed income instruments. Students will learn the underlying terms and conditions used in the fixed income markets and apply Excel based mathematical models to evaluate the pricing, yield, risk, and return attributes in the market. Prereq: MBA 6223, concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7220</b>	<b>Investment Theory and Practice</b>	<b>G</b>	<b>1½</b>
Advanced skills needed for securities valuation, theories and applications related to the CAPM, APT, and efficient markets. Prereq or concur: MBA 6223, or 810. Not open to students with credit for 822.			
<b>7221</b>	<b>Financial Modeling</b>	<b>G</b>	<b>1½</b>
Basic financial modeling techniques in EXCEL. Prereq: MBA 6223, or BusFin 6211, 6212, or 6220.			
<b>7222</b>	<b>Fixed Income Analysis</b>	<b>G</b>	<b>1½</b>
Valuation of fixed income securities as well as measures of their interest rate and credit risk. Prereq: MBA 6223. Prereq or concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7223</b>	<b>Quantitative Portfolio Management</b>	<b>G</b>	<b>1½</b>
Advanced investment strategies need for asset management and portfolio allocation. Prereq: MBA 6223. Prereq or concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7224</b>	<b>Trading &amp; Markets</b>	<b>G</b>	<b>1½</b>
Advanced theories of market design applied in an interactive trading simulation, Action-Based. Prereq: MBA 6223; or prereq or concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7225</b>	<b>Student Stock Market Investment Management</b>	<b>G</b>	<b>3</b>
Advanced topics with industry analysis and stock valuation applied to portfolio management. Prereq: MBA 6223, BusFin 7210, and 7220; or enrollment in SMB-Finance program.			
<b>7226</b>	<b>Behavioral Finance</b>	<b>G</b>	<b>1½</b>
Theories of behavioral finance, such as Prospect Theory, and their implications for investor behavior and markets. Prereq: MBA 6223; or prereq or concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.			
<b>7230</b>	<b>Derivatives Markets</b>	<b>G</b>	<b>1½</b>
Advanced investments class studying how to value options and related instruments using binomial pricing models and how to value and implement strategies using futures. Prereq or concur: MBA 6223. Not open to students with credit for 823.			
<b>7232</b>	<b>Derivatives Valuation and Application</b>	<b>G</b>	<b>1½</b>
Advanced derivatives course covering the Black-Scholes valuation model with applications to financial instruments and other areas of financial engineering. Prereq: MBA 6223; or prereq or concur: BusFin 7210, 7220, or 7230; or enrollment in SMB-Finance program.

Advanced theories of Corporate Risk Management, hedging strategies, and how to measure apply Value at Risk. Prereq: MBA 6223; or BusFin 7210, 7220, and 7230; or enrollment in SMB-Finance program.			
<b>7291</b>	<b>Enterprise Risk Management II</b>	<b>G</b>	<b>1½</b>
An Action-based Graduate level course. Students apply theories of risk management, hedging strategies, and value at risk to cases. Prereq: 829 or Prereq or concur: 7290. Not open to students with credit for 834.			
<b>7500</b>	<b>Recent Advances in Financial Markets</b>	<b>G</b>	<b>3</b>
Presentations to Korean Advanced Institute of Science and Technology (KAIST) students by faculty on current research topics. Prereq: Enrollment in KAIST program. Repeatable to a maximum of 6 or hrs.			
<b>7521</b>	<b>Building Financial Models</b>	<b>G</b>	<b>1½</b>
Advanced topics in financial modeling in EXCEL. Prereq: Enrollment in KAIST program. Not open to students with credit for 849.			
<b>7650</b>	<b>Personal Finance for the Health, Law and Public Policy Professionals</b>	<b>G</b>	<b>3</b>
This course is designed for the graduate student that wants to learn more about personal finance. Describe various behavioral biases and how they may impact their financial plan, and describe how credit is calculated and how it impacts one's financial plan. Prereq: Grad or Professional standing in Law, Pharmacy, or Veterinary Medicine. This course is graded S/U. Cross-listed in Phr.			
<b>7702</b>	<b>Applied Managerial Economics for Health Sciences</b>	<b>G</b>	<b>2</b>
To provide an economics-oriented framework for analyzing managerial and organizational problems, and to further the understanding of how a health science firm's internal rules of the game affect behavior and performance. Prereq: Admission into the Business Minor in Health Sciences.			
<b>7800</b>	<b>Advanced Topics in Finance for EMBA</b>	<b>G</b>	<b>1½ - 3</b>
Advanced topics in finance for students in the Executive MBA Program. Prereq: Enrollment in EMBA program. Repeatable to a maximum of 15 or hrs or 7 completions.			
<b>7999</b>	<b>Research in Finance: Thesis</b>	<b>G</b>	<b>1 - 12</b>
Research for thesis purposes only. Repeatable to a maximum of 24 or hrs or 6 completions. This course is graded S/U.			

<b>8210</b>	<b>Seminar: Asset Pricing Theory</b>	<b>G</b>	<b>1½</b>
PhD level class covers the theoretical models related to contingent Claims, CAPM, APT, and Black Scholes. Prereq: Permission of instructor. Not open to students with credit for 920.			
<b>8220</b>	<b>Seminar: Empirical Asset Pricing</b>	<b>G</b>	<b>1½</b>
Covers empirical asset methods such as the Fama-McBeth techniques and GMM estimation. Prereq: Permission of instructor. Not open to students with credit for 921.			
<b>8230</b>	<b>Seminar: Corporate Finance Theory</b>	<b>G</b>	<b>1½</b>
Covers seminal theories of corporate finance such as those related to capital structures, contracting, and security design. Prereq: Permission of instructor. Not open to students with credit for 922.			
<b>8240</b>	<b>Seminar: Empirical Corporate Finance</b>	<b>G</b>	<b>1½</b>
Covers empirical research and mythologies in areas related to capital structure, investment, financial distress and governance. Prereq: Permission of instructor. Not open to students with credit for 922.			
<b>8250</b>	<b>Seminar: Advanced Asset Pricing</b>	<b>G</b>	<b>1½</b>
Covers advanced topics in empirical and theoretical asset pricing. Prereq: Permission of instructor. Not open to students with credit for 922.			
<b>8260</b>	<b>Seminar: Advanced Corporate Finance</b>	<b>G</b>	<b>1½</b>
Covers advanced topics in empirical and theoretical corporate finance. Prereq: Permission of instructor. Not open to students with credit for 924.			
<b>8280</b>	<b>Seminar: Research in Finance</b>	<b>G</b>	<b>1½</b>
Faculty lead introduction to research areas in Finance to first year finance PhD students. Prereq: Permission of instructor. Not open to students with credit for 880. Repeatable to a maximum of 9 or hrs.			
<b>8290</b>	<b>Seminar: Finance Research Topics</b>	<b>G</b>	<b>1½</b>
Advanced PhD student presentations of research in Finance. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 6 completions.			
<b>8999</b>	<b>Research in Finance: Dissertation</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation purposes only. Repeatable to a maximum of 24 or hrs or 6 completions. This course is graded S/U.			

## Business Admin: Management & Human Rsrcs

<b>2000</b>	<b>Introduction to International Business</b>	<b>U</b>	<b>1½</b>
Basic coverage of world trade and investment problems, and introduction to multinational corporation strategies and the various types of environments in which they do business. <b>4490</b>	<b>Strategic Management</b>	<b>U</b>	<b>3</b>
Introduction to the concepts and analytic tools in the field of strategic management to understand the competitive position of firms. Prereq: 2000 (BusAdm 555), 2292 (BusAdm 499.01), 3200 (701), and BusMGT 2320 (330), 2321 (331), 3230 (630), and BusFin 3500 (510), 3220 (620), and BusML 3250 (650), 3380, and Sr standing in Business Administration major program. Not open to students with credit for BusAdm 799. Not open to students in UUSS, UEXP, or PREBSBA-PR.			

<b>4490H</b>	<b>Strategic Management</b>	<b>U</b>	<b>3</b>
Introduction to the concepts and analytic tools in the field of strategic management to understand the competitive position of firms. Prereq: 2000 (BusAdm 555), 2292 (BusAdm 499.01), and 3200 (701); and BusMgt 2320 (330), 2321 (331), and 3230 (630); and BusFin 3500 (510), and 3220 (620); and BusML 3250 (650), and 3380; and Sr standing in Business Administration Honors program. Not open to students with credit for BusAdm 799H.			
<b>4520E</b>	<b>Leading High Performance Ventures</b>	<b>U</b>	<b>3</b>
Focuses on concepts, frameworks, skills, and tools that enable a start-up to become a sustainable enterprise that creates jobs. Option available for honors students to do extra work for Honors credit. Prereq: Not open to students with credit for 3520 or 590.			
<b>4550</b>	<b>Capstone in Entrepreneurship: Starting the Business</b>	<b>U</b>	<b>3</b>
Students will start a business, including all aspects involved in a start-up. Second half of the course is a one-semester independent based on their start-up experience. This immersion course is required to earn an Entrepreneurship Distinction and Fellowship designation.			
<b>4570</b>	<b>Establishing Import-Export Firms</b>	<b>U</b>	<b>3</b>
To teach students how to get an export business started, how to compete in a global market and how to expand the business globally. Prereq: 2000, and permission of instructor.			
<b>4627</b>	<b>Leveraging Athletics for Business and Personal Success</b>	<b>U</b>	<b>3</b>
Study of complexities confronting professional athletes. Despite perceived glamour surrounding professional sports, many former stars become directionless and penniless when their playing careers end. Classroom experience through readings and assignments will explore how this can occur and attempt to understand and offer activities and behaviors that lead to life success.			
<b>4998</b>	<b>Undergraduate Research in Management and Human Resources</b>	<b>U</b>	<b>1 - 3</b>
Undergraduate Research in Management and Human Resources for non-honors students. Prereq: BusAdm 2291 (499), and Jr standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.			
<b>4998H</b>	<b>Honors Research</b>	<b>U</b>	<b>1 - 3</b>
Special topics research in management and human resources; research evaluated through papers, thesis, and/or special examinations. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.			
<b>5530</b>	<b>Topics in Social Entrepreneurship</b>	<b>U G</b>	<b>3</b>
Developing a business plan in social entrepreneurship. Prereq: Not open to students with credit for 691 or 694.52.			
<b>7010</b>	<b>Advanced topics in Multinational Business</b>	<b>G</b>	<b>1½</b>
Examination of topics in international business, including the role of cultural and political systems, trade and FDI, and multinational enterprise. Prereq: MBA 6261 (820). Not open to students with credit for BusAdm 856.			
<b>7013</b>	<b>China and Its Global Business Implications</b>	<b>G</b>	<b>1½</b>
Introduction to the historical, economic, cultural, social and geopolitical circumstances of China's rise, and its global business repercussions. Prereq: Not open to students with credit for 833.			
<b>7022</b>	<b>GAP: Global Applied Projects</b>	<b>G</b>	<b>3</b>
Students plan and execute real-world consulting engagement. Spring 2: students attend lectures on project management, cultural awareness, other relevant topics, and work part-time on self-managed teams guided by Coach/Faculty Advisor. In May, students travel abroad, work full-time to complete assignment and deliver final presentation to client. By application only. Mandatory info session. Prereq: Permission of instructor.			
<b>7191</b>	<b>HR Practicum</b>	<b>G</b>	<b>3</b>
Supervised practical experience relating to labor and human resources. Prereq: Permission of instructor.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 5</b>
Individual study projects in selected interdisciplinary topics in business administration. Prereq: Enrollment in BusAdm or LHR PhD program, or permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.			
<b>7194.61</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 5</b>
Group study projects in related areas in management and human resources. Prereq: Permission of instructor. Not open to students with credit for 894.61.			
<b>7194.62</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 5</b>
Group study projects in related areas in management and human resources. Prereq: Permission of instructor. Not open to students with credit for 894.62.			
<b>7194.63</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 5</b>
Group study projects in related areas in management and human resources. Prereq: Permission of instructor. Not open to students with credit for 894.63.			

**7194.64 Group Studies G 1 - 5**

Group study projects in related areas in management and human resources.  
Prereq: Permission of instructor. Not open to students with credit for 894.64.

**7194.65 Group Studies G 1 - 5**

Group study projects in related areas in management and human resources.  
Prereq: Permission of instructor. Not open to students with credit for 894.65.

**7220 Personal Leadership Effectiveness G 3**

The ability to successfully execute any project or assignment; attaining mastery in identifying, resolving problems, gaining mastery in causing results in any condition/circumstance.  
Prereq: MBA 6200 or 6202 (860). Not open to students with credit for 834.

**7221 Leadership Values and Decision Making G 1½**

This course explores the multiple ways that personal character and integrity, and organizational culture, affect leadership behavior, from both ethical and psychological perspectives. The course will employ readings, cases, speakers and self-assessment tools, and analysis of both historical and contemporary examples.  
Prereq: Enrollment in MBA, WP MBA, MHRM, or MAcc program, or permission of instructor. Not open to students with credit for 840.

**7222 Advanced Topics in Leadership: Building Your Leadership Legacy G 1½ - 3**

Development of a personal leadership legacy designed to achieve career goals and improve leadership skills.  
Prereq: Enrollment in MBA, WP MBA, MHRM, or MAcc program, or permission of instructor.

**7223 Advanced Topics in Leadership Effectiveness: Strategy Implementation G 1½**

Study strategy needed for organizational alignment; implementation, execution of strategic priorities; and organizational culture, leadership, structure, communications, compensation, metrics relative to effective execution of strategy.  
Prereq: Enrollment in MBA, WP MBA, MLHR or MAcc program or permission of instructor. Not open to students with credit for 847.

**7224 Organizational Turnarounds G 1½**

Case studies of organizational turnarounds.  
Prereq: Enrollment in MBA, WP MBA, MHRM, or MAcc program; or permission of instructor. Not open to students with credit for 843.

**7225 Crisis Leadership G 1½**

Studies of leaders and organizations facing crises to understand how to be successful in handling such challenges.  
Prereq: Enrollment in MBA, WP MBA, MLHR, or MAcc program; or permission of instructor. Not open to students with credit for 843.

**7228 Introduction to Organizational Business Coaching G 1½**

For students interested in building their own organizational and leadership coaching skills; class will explore the various roots and perspectives of modern coaching while building the skills of coaching which center upon but are not limited to deep listening, coaching presence, business acumen, cultural dynamics and powerful questioning.  
Prereq: Enrollment in MBA, WP MBA, MHRM, or permission of instructor.

**7229 Advanced Organizational Business Coaching G 1½**

This course follows Introduction to Organizational Business Coaching and intends to broaden the learners lens beyond the one-on-one coaching or coaching as a leadership skillset and venture into how coaching cultures evolve, what the coaching industry holds, and eventually will build on more complex skills in several modules on Systemic Organizational Team Coaching.  
Prereq: 7228, and enrollment in MBA, WP MBA, or MHRM.

**7230 Developing High Performance Teams G 1½**

Groups and teams are becoming a way of life in organizations. This course will teach the theory and processes of group and team behavior so that you can successfully manage groups and work effectively in a variety of group settings. It is intended for students who seek greater understanding of teams and wish to increase their competence in managing and working effectively in these contexts.  
Prereq: Not open to students with credit for 828.

**7231 Building Professional Services G 1½**

Innovative ideas for building professional service organizations; best practices; strategies; market trends/service capabilities at product-centric companies; cultural issues facing service businesses within product companies.  
Prereq: Not open to students with credit for 824.

**7233 Leadership and Implementation of Change G 3**

Expand understanding of what is involved in the successful implementation of change. Discuss key elements in leading and managing change. Focus on individual's ability to accomplish change regardless of position or authority.  
Prereq: Not open to students with credit for 7232 (809) or 7220 (834).

**7234 Developing Leaders and Coaches Through Practical Exercises G 3**

The course starts with basic leadership and coaching principles and ends with complex practical exercises challenging students to become better leaders. The course progresses, allowing the student to build upon the lessons learned through the course. The program incorporates planning, preparation, practical exercises, case studies, coaching and assessment to train and develop future leaders.

**7235 Developing Leaders through Practical Exercises G 1½**

This course is taught in a layered effect starting with basic leadership principles and ends with complex practical exercises challenging students to become better leaders. The leader development program incorporates leadership principles, practical exercises, case studies, and assessment to train and develop future leaders.  
Prereq: Not open to students with credit for 7228, 7229, and 7234.

**7236 Crucial Conversations G 3**

Building skills for handling tough conversations; practical ways to manage disagreement and disappointment in a constructive manner. Provides method for straight talk that moves people and positions forward. Principles further build a capacity to hold people accountable while increasing commitment & performance. Drives impact and competitive advantage at the leader, team and organizational level.

**7237 The Science of Leading G 3**

This course will take a scientific approach to leadership. The Matrix Leadership Model that will guide the course articulates four stages of leader development: Build-Decide-Perform-Evaluate and divides leader's activities into Leader (primarily at the leader level) and Follower (primarily at the follower or team level). At the center are two enabling mechanisms: Analyzing and Inspiring.

**7238 Leadership Effectiveness Through Applied Projects and Team Coaching G 3**

Hone, develop, and apply leadership competencies through a real-world consulting project while receiving on-going individual and team coaching.  
Prereq: Enrollment in a Fisher College of Business grad program, or permission of instructor.

**7239 BUILD Leadership Development G 3**

This course is designed to help identify leadership strengths and weaknesses and use evidence-based, experiential course materials/activities to help develop and practice KEY leadership competencies. We will use the evidence-based and comprehensive BUILD leadership model to guide our course content and developmental activities.

**7244 Negotiations G 1½ - 3**

Highlight the components of an effective negotiation and teach students to analyze their own behavior in negotiations. Largely experiential, course provides students with an opportunity to develop their skills by participating in negotiations and integrating their experiences with the principles presented in the assigned readings and course discussions.  
Prereq: Enrollment in Fisher College of Business graduate programs. Not open to students with credit for 7240, 7241, or 7345.

**7260 Organizational Behavior for Specialized Masters G 1½**

Introduction to topics in organizational behavior with a focus on applications for MBLE students.  
Prereq: Enrollment in MBLE, Specialized Masters in Logistics, or Specialized Masters in Marketing, or permission of instructor.

**7261 Leadership for Specialized Masters G 1½**

Introduction to topics in leadership with a focus on applications for specialized business masters students.  
Prereq: Enrollment in MBLE, Specialized Masters in Logistics, or Specialized Masters in Marketing, or permission of instructor.

**7263 Leadership for SMB Finance Students G 1½**

An overview of factors that influence individual work performance and techniques; analytical frameworks for determining effectiveness of given techniques in specific circumstances.  
Prereq: Enrollment in SMB Finance program, or permission of instructor. Not open to students with credit for MBA 860.

**7270 Leadership and Organizations G 1½**

This course covers the role of leadership in management and the use of power and influence to motivate individuals and effect organizational change. It provides students with the opportunity to develop personalized leadership development plans based on current literature, case study, and behavioral assessments.  
Prereq: Enrollment in SMB-Analytics program, or permission of instructor.

**7301 The Future of HR G 3**

Provide students with an overview of the HRM profession with a focus on the future. The course emphasizes an understanding of HRM policies & practices, how HRM functions are organized, the role of HRM in business today as well as in the future, & the competencies needed to be a successful HR practitioner. The history of HRM is reviewed to provide an understanding of the forces that influenced HRM.

**7302 Markets, Organizations, and HRM G 1½**

The employment relationship from an economic perspective; economic analysis applied to important managerial decisions involving the coordination and motivation of organizational members.  
Prereq: Not open to students with credit for 854.

**7303 HR Analytics G 1½**

Examination of the concepts, methods, and tools needed to conduct and evaluate research for effective human resources management decision making.  
Prereq: Enrollment in the MHRM program. Not open to students with credit for 811.

## 70 Business Admin: Management & Human Rsrcs

**7304 Talent Management** G 1½

Overview of concepts, practices, issues and learnings related to strategically managing talent to develop organizational capability and meet strategic business goals and objectives.  
Prereq: Not open to students with credit for 846.

**7305 Contemporary Employment Practices and the Law** G 1½

Title VII of the 1964 Civil Rights Act, The Equal Pay Act, the Age Discrimination in Employment Act, the Civil Rights Act of 1967, and federal affirmative action program.  
Prereq: Enrollment in MHRM program. Not open to students with credit for 868.

**7306 Understanding Teams & Leadership for Human Resource Managers** G 1½

A focus on the manager's role in dealing with individuals and work teams. Other topics include: work design, communications, leadership and motivation.  
Prereq: Enrollment in MHRM program.

**7307 Performance Management** G 1½

Measure & develop performance of individuals & groups & align performance with organization's strategic objectives; methods, theories, research findings, issues regarding employee performance in organizations.  
Prereq: Not open to students with credit for 849.

**7308 Organizational Change & Project Management** G 3

The primary focus for this course is the nature of change within organizations (of all types). Any discussion of organization change also benefits from at least some discussion of organization design and development. The course will examine the nature and implementation of organization change itself.

**7309 Strategic Management of Human Assets** G 1½

Theory and research regarding teamwork and leadership, to enhance understanding/build skills in team leadership, membership, change and followership.  
Prereq: Not open to students with credit for 869.

**7310 Labor Relations** G 1½

Examination of the basic elements of labor-management relations, including the process and content of collective bargaining.  
Prereq: Not open to students with credit for 861or 864.

**7311 Staffing & Talent** G 3

The course will look at the entire talent life cycle including four major categories: Talent Acquisition, Performance Management, Talent Development, and Talent Planning.

**7313 Total Rewards/Compensation** G 3

Introduction to pay systems; including job evaluation, pay surveys, performance appraisals, and benefits.  
Prereq: Not open to students with credit for 865.

**7314 Designing Learning Systems** G 1½

Course will cover the learning function in organizations broadly defined to include training, development, knowledge management and career management. The concepts, methods, and issues discussed in the course are applicable to all types of organizations and jobs.

**7320 MBA in a Semester** G 3

This course is designed to give a student with little or no prior business experience a quick overview of key business functions. The objective of the course is to help you become better HR managers by enhancing your understanding of strategy, the general business environment, operations & technology, marketing, and finance.  
Prereq: Enrollment in MLHR program.

**7321 Fundamentals of Business Excellence II** G 3

Focus on developing specialized knowledge of functional areas and process in modern organizations.  
Prereq: 7320 (863), or permission of instructor.

**7322 Fundamentals of Business Excellence III** G 3

Presentation of the strategic and tactical issues related to effective implementation and practice in HR.  
Prereq or concur: 7321, or permission of instructor.

**7325 International Human Resource Management** G 1½

Course is an overview of managing human resources across borders, with emphasis on the strategies and practices of multinational corporations, and examines the opportunities & challenges of operating in a global economy, how cross-national differences shape approaches to business and human resource management, and analysis of future trends and challenges in international human resource management.  
Prereq: Enrollment in MHRM program.

**7335 Managing Diversity** G 1½

Best practices and innovative ideas in managing diversity, the impact of diversity within and outside the organization, and how diversity creates value for an organization.  
Prereq: Grad standing.

**7345 HR Bargaining** G 1½

Human Resource Managers need both analytical skills to discover optimal solutions to problems and good bargaining skills to effectively implement those solutions. Through this course, students will learn the major concepts and theories of bargaining in human resource management and develop expertise in the practice of bargaining in a variety of human resource management settings.

Prereq: Enrollment in MHRM program. Not open to students with credit for or concurrent enrollment in 7244.

**7412 Competitive Analysis** G 1½

Tools to identify, parse, and analyze the economic and market data necessary to complete a comprehensive strategic analysis of business competition. Application of major steps in industry analysis, competitive positioning, capability analysis, competitor analysis, and some private equity valuation.

Prereq: Enrollment in MBA or WPMBA program, or permission of instructor. Not open to students with credit for 838.

**7413 Advanced Strategic Analysis** G 1½

Course objective is to analyze a firm's competitive situation and related strategies to create competitive advantage in a more realistic setting than is possible using the traditional case method. Theoretical frameworks learned in the core strategy course among others are applied to firms using real-time data from multiple public sources in order to create well-grounded insights about a firm.

**7415 Corporate Diversification** G 1½

A study of corporate strategies, actions firms take to gain competitive advantages: strategies studied will include corporate diversification and mergers and acquisitions.

Prereq: Enrollment in MBA or WPMBA, or permission of instructor. Not open to students with credit for 839.

**7420 Mergers, Acquisitions and Corporate Development** G 1½

Analyzes mechanisms underlying the creation and destruction of value in M&A by studying issues such as: drivers of M&A, value creation strategies, valuation and integration.  
Prereq: Enrollment in MBA, MHRM, MAcc program, or permission of instructor. Not open to students with credit for 808.

**7421 Intopia: Applied Competitive Strategy** G 3

Focuses on international operations business simulation INTOPIA and student's companies operations in it. Each company must be well prepared to make and execute decisions.  
Prereq: Enrollment in MBA or WPMBA program, or permission of instructor. Not open to students with credit for 836.

**7433 Advanced Strategy Implementation** G 3

The aim of this course is to help students gain an organization design perspective on challenges in strategy formulation and implementation, especially in multi-business firms.  
Prereq: Enrollment in MBA, WPMBA, MHRM, or MAcc program, or permission of instructor.

**7461 Technology and Innovation Strategy** G 1½

How technology strategy may lead to creation/persistence of competitive advantage. In contrast to core strategy course, provides series of strategic frameworks for managing high-tech businesses.

Prereq: Enrollment in MBA, WPMBA, MLHR, MHRM, or MAcc program; or permission of instructor. Not open to students with credit for 848.

**7522 Entrepreneurship and the Business Plan** G 3

Experiential opportunities in entrepreneurship, entrepreneurial concepts, and financing and executing the business plan.  
Prereq: Not open to students with credit for 7520 or 7521 (825).

**7525 Global Innovation and Entrepreneurial Leadership** G 3

Field study projects to introduce venture capital, private equity, technology commercialization and new venture strategy.

**7531 Technology Venture Lab** G 3

Executing the "live" launch of new ventures utilizing lean startup principles, the business model canvas and the customer discovery process for creating scalable, investment-worthy ventures.  
Prereq: Permission of instructor. Not open to students with credit for 891. Repeatable to a maximum of 6 or hrs.

**7533 Managing a Not-for-Profit Business** G 1½

General introduction and business analysis of not-for-profit businesses and business solutions to issues facing not-for-profit leaders. Focus will be the fundraising model implemented at the university. Topics will include administration, finance, resource development, donor relations, capital campaigns, event planning and volunteer management.

**7543 Understanding Commercial and Social Franchising** G 3

This course will explore the business and legal requirements of franchising in the United States and internationally. It will provide students with an understanding of how to design and develop consistent and sustainable commercial and social franchise systems.  
Prereq: Enrollment in MBA program, or permission of instructor.

**7605 The Business of College Sports** G 3

Business analyses of intercollegiate athletics, including an in depth look at OSU athletic program. College sports administration, educational, and business missions.  
Prereq: Enrollment in the MBA, WPMBA, MLHR, MHRM or MAcc program; or permission of instructor. Not open to students with credit for 870 or KnSISM 6842. Cross-listed in KnSISM 6842.

## Business Admin: Management & Human Rsrcs 71

**7610 Business Ethics** G 1½

Developing ethical perspectives in the business environment for use in managerial decision-making.  
Prereq: Not open to students with credit for 859.

**7611 International Corporate Compliance and Ethics Governance** G 1½

Managers face increasing compliance standards for multinational enterprises that governments view as reducing corruption and promoting ethical business practices. Anti-corruption prohibitions, codes of conduct, and model ethics guidelines are no longer limited to business conducted solely with governments, but also apply to NGOs.  
Prereq: Grad standing in the Fisher College of Business.

This course will explore these fundamental questions and next-generation enterprise issues using readings, cases, group presentations, and speakers.

**7629 Prof Business Communication Skills** G 1½ - 3

The purpose of this course is to create and build a baseline of communication skills used in business and industry. In addition to foundation skills, the course focuses on key elements of style and "polishing up techniques" in the presentations arena.  
Prereq: MBA 6281.01. Not open to students with credit for 7268.

**7640 Strategies for Business Sustainability: Principles and Concepts** G 1½

Examination of the principles and concepts involved in developing sustainable businesses.  
Prereq: Not open to students with credit for 841.

**7660 Innovation Practice** G 1½

Theory and application of innovation practices as well as a framework for commercial application.

**7689 Washington Campus** G 1½ - 3

Week-long program in Washington DC on public policy. Presentations by policy-makers, trips to agencies, and participation in congressional simulation.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

**7703 Leadership, Talent Management, and Organizational Behavior in Health Sciences** G 2

Provides an overview of factors that influence individual and team performance and techniques to improve it with an emphasis on the businesses in the life sciences and healthcare for managerial decision making.  
Prereq: Enrollment in the Graduate Business Minor in Health Sciences.

**7704 Contemporary Topics in HR & Professional Development** G 1

Intended to be primarily discussion based & academically challenging. Increase problem solving & written/oral communication skills. Challenge students to think in ways they may have never thought before whilst the objectives are to further develop the student's critical thinking skills, grit, perseverance, resourcefulness, confidence, cognitive skills and the ability to collaborate and innovate.  
Prereq: Enrollment in MHRM program. Repeatable to a maximum of 3 cr hrs.

**7714 Strategy and Competitive Analysis for Health Sciences** G 1½

Course focuses on creation of long term value for organizations in the health sciences industry and provides practical tools for strategic analysis of industries and individual practices for competitive strategies.  
Prereq: 7264 or 7703, BusMgt 7256 or 7701, and BusFin 7400 or 7702; and enrollment in the Graduate Business Minor in Health Sciences.

**7800 Advanced Topics in Management and Human Resources for EMBA** G 1 - 3

Advanced Topics in Management and HR for students in the Executive MBA Program.  
Prereq: Enrollment in EMBA program. Repeatable to a maximum of 15 cr hrs or 7 completions.

**7999 Research in Management and Human Resources: Thesis** G 3

Research for thesis purposes only.  
Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 4 completions. This course is progress graded (S/U).

**8001 Seminar: Seminar in International Business** G 1½

A critical study of current theories and research methodologies and findings in the field in international business.  
Prereq: Enrollment in the Fisher College of Business Ph.D program, or permission of instructor. Not open to students with credit for 925.01.

**8002.01 Advanced Seminar: Selected Issues in International Business I** G 1½

Current and key issues in international management analyzed from an interdisciplinary perspective.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

**8002.02 Advanced Seminar: Selected Issues in International Business II** G 1½

Additional current and key issues in international management analyzed from an interdisciplinary perspective.  
Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

**8201 Management Seminar: Seminar in Organizational Behavior** G 1½

Discussions of theory and research on organizational behavior.  
Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

**8202.01 Advanced Seminar: Selected Issues in Organizational Behavior I** G 1½

Advanced discussions of theory and research on organizational behavior.  
Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

**8202.02 Advanced Seminar: Selected Issues in Organizational Behavior II** G 1½

Additional advanced discussions of theory and research on organizational behavior.  
Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

**8203 Seminar: Seminar in Organizational Theory** G 1½

Theory, research on environmental and structural characteristics of formal organizations and their correlates with particular emphasis on management of the organization in dynamic, global environment.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor.

**8301 Management Seminar: Seminar in Human Resource Management** G 1½

Discussions of theory and research that serve as a foundation for the fields of human resources.  
Prereq: Enrollment in the Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

**8302.01 Advanced Seminar: Selected issues in Human Resources Management I** G 1½

Advanced discussions of theory and research on human resource management.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

**8302.02 Advanced Seminar: Selected issues in Human Resources Management II** G 1½

Additional advanced discussions of theory and research on human resource management.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

**8401 Management Seminar: Seminar in Strategic Management** G 1½

An examination of the concepts, models, theories, and research underlying contemporary thinking on strategic management.  
Prereq: Enrollment in Fisher College of Business Ph.D program, of permission of instructor. Repeatable to a maximum of 6 cr hrs.

**8402.01 Advanced Seminar: Selected issues in Strategic Management I** G 1½

Advanced discussions of current theoretical developments and research in the business policy and strategic management field.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

**8402.02 Advanced Seminar: Selected Issues in Strategic Management II** G 1½

Additional advanced discussions of current theoretical developments and research in the business policy and strategic management field.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

**8502.01 Advanced Seminar: Competitive Strategy** G 1½

Advanced discussions of theory and research in Competitive Strategy.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

**8601 Management Seminar: Micro Foundations of Management** G 1½

An examination of the micro foundations, theories, and models underlying the field of management.  
Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

## 72 Business Admin: Management & Human Rsrcs

**8602 Management Seminar: Macro Foundations of Management** G 1½

An examination of the macro foundations, theories, and models underlying the field of management.  
Prereq: Enrollment in Fisher College of Business PhD program or permission of instructor.  
Repeatable to a maximum of 3 cr hrs.

**8610 Preparing Manuscripts for Management Journals** G 1½

Students will work on skills needed to translate research into publishable papers.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor.  
Repeatable to a maximum of 4.5 cr hrs.

**8611 Professional Development** G 1½

This is a PhD seminar on Professional Development designed to be taken over the regular 14-week sessions and made up of two parts, part one to be offered Autumn and part two during Spring semester; primarily for MHR PhD candidates.  
Prereq: Enrollment in the Fisher College of Business Ph.D program, or permission of instructor.

**8780 Introduction to Micro Research Methods in Management** G 1½

Introduction to research design and methodology as it relates to the study of micro organizational phenomena.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor.  
Repeatable to a maximum of 3 cr hrs.

**8781 Introduction to Macro Research Methods in Management** G 1½

Introduction to research design and methodology as it relates to the study of macro organizational phenomena.  
Prereq: Enrollment in Fisher College of Business Ph.D program, or permission of instructor.  
Repeatable to a maximum of 3 cr hrs.

**8999 Research in Management and Human Resources: Dissertation** G 1 - 12

Research for dissertation purposes only.  
Repeatable. This course is graded S/U.

### Business Admin: Management Sciences

**2320 Decision Sciences: Statistical Techniques** U 3

Examination of the use of statistical techniques in managerial decision-making processes; statistical inference, simple and multiple regression, time series.  
Prereq: Math 1131 (132), or 1151 (152); and Stat 1430 (133); and CSE 1113, or 2111 (200); and Econ 2001.01 (200). Prereq or Concur: Econ 2002.01 (201). Not open to students with credit for 330. This course is available for EM credit.

**2321 Business Analytics** U 1½

Examination of the use of business analytic models used in managerial decision making processes. Emphasis on formulation and interpretation of models; supported by spreadsheet based software.  
Prereq: Math 1131 (132), or 1151 (152), or equivalent; and CSE 1113, or 2111 (200); and Econ 2001.01 (200), or equivalent; and Econ 2002.01 (201), or equivalent. Not open to students with credit for 331.

**3130 Foundations of Operations Management** U 3

Introduction to operations & supply chain management to improve organizations; specifically analyzing, controlling & improving resources & processes to increase productivity, generate value-added output & meet business strategic & tactical goals.  
Prereq: Math 1116, 1130, 1148, or equiv, and Econ 2001.01, or equiv. Not open to students with credit for 3230. Not open to students enrolled in the BSBA degree program.

**3194 Group Studies** U 1 - 6

Group studies projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.

**3230 Introduction to Operations Management: Improving Competitiveness in Organizations** U 3

Introduction to operations and supply chain management to improve manufacturing and service organizations; analyzing, controlling and improving resources and processes to increase productivity, generate value-added output and meet business goals.  
Prereq: Econ 2001.01 (200), 2002.01 (201); and Stat 1430 (133) or equivalent. Not open to students with credit for 3130 (430) or 630, or to students enrolled in UUSS, UExp or PreBSBA-PR.

**3230H Introduction to Operations Management: Improving Competitiveness in Organizations** U 3

Introduction to operations and supply chain management to improve manufacturing and service organizations; analyzing, controlling and improving resources and processes to increase productivity, generate value-added output and meet business goals.  
Prereq: Honors standing in BusAdm Honors Cohort program. Not open to students with credit for 630H.

**3331 Business Analytics: Data Management and Descriptive Analysis** U 3

Understand how organizations can successfully collect, organize, manipulate, use and present data.  
Prereq: Econ 2001.01 and 2002.01 or equiv; and Math 1152 or 1161.01 or equiv; and CSE 2111 or equiv.

**3332 Business Analytics: Application of Predictive Analytics to Business Data** U 3

Build and test predictive models that move from data to parameter estimation.  
Prereq: Econ 2001.01 and 2002.01 or equiv, Stat 3202, and CSE 2111 or equiv.

**3333 Business Analytics: Applied Prescriptive Analytics** U 3

Moving from estimating model parameters, to making data-informed business decisions.  
Prereq: Econ 2001.01 or AEDEcon 2001; Econ 2002.01, Stat 3202, and CSE 2111.

**4193 Individual Studies** U 1 - 6

Individual study projects in selected areas in Management Sciences.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is progress graded (S/U).

**4194.31 Group Studies** U 1 - 6

Group studies projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.

**4194.32 Group Studies** U 1 - 6

Group studies projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.

**4194.33 Group Studies** U 1 - 6

Group studies projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.

**4232 Operations Planning and Control** U 3

Review of a Planning and Control System. Theoretical frameworks and utilization of techniques to execute strategic and tactical goals to increase productivity and effectiveness of forecasting, scheduling, and inventory and capacity resources.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212); and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 732.

**4233 Operations Management Analytics** U 3

A study of data and modeling tools used in operations management. Emphasis is spreadsheet and database applications.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212), and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 733.

**4234 Service Operations** U 3

Surveys a broad framework of key operations management challenges, while also focusing on a broad variety of different services via in-depth case studies.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212); and BusMHR 2291 or 2292 (BusADM 499.01).

**4237 International Operations Management** U 3

Current influences, practices and standards for structural and infrastructural decision making across national boundaries. Explores complexity of managing geographically dispersed operations with relationships between multiple entities.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212); and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 737.

**4239 Managing Process Improvement** U 3

Describes the basics of establishing and managing a Lean process in service, office and manufacturing operations. We will look at how we can add value in delivery of goods or services to the customer.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212), and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 739.

**4240 Management of Technology** U 3

Intended for a broad range of business careers in which management of technological operations is critical for an organization's competitive advantage. Topics include methods to design, measure and improve technologies.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212); and BusMHR 2291 or 2292 (BusADM 499.01).

**4242 Business Sports Analytics** U 3

Analytical techniques and quantitative methods are on the rise in many areas of industry, and, of late, have made their foray into the sports realm. Skills such as critical thinking, mathematical modeling, statistical analysis, predictive analytics and optimization are crucial in the data-centric realm. The class seeks to develop and refine these skills in the business application area of sports.  
Prereq: Stat 3202, or permission of instructor.

**4250 Six Sigma Principles** U 3

Designed to familiarize students with the Six Sigma process improvement methodology and to provide them an opportunity to practice using Six Sigma Black Belt tools.  
Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212); and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 710.

**4251 Six Sigma Projects** U 3

Six Sigma Projects class.  
Prereq: 4250 (710). Not open to students with credit for 711.

<b>4253</b>	<b>Sustainable Operations</b>	<b>U</b>	<b>3</b>
There is increasing pressure on businesses to pay more attention to the environmental consequences of the raw materials they source, processes they deploy, and the products and services they offer. Recognizing that operations are at the core of any sustainable enterprise, this course addresses issues related to sustainable operations in three modules. Prereq: 2320, 2321, 3230, AcctMIS 2200, 2300, and BusMHR 2292.			
<b>4261</b>	<b>Purchasing and Supply Chain Management</b>	<b>U</b>	<b>3</b>
Designed to explore the industrial-institutional purchasing cycle for operating supplies, raw materials, components and capital equipment within the context of the Integrated Supply Chain Management Organizational Concept. Prereq: 2320 (330), 2321 (331), 3230 (630), and AcctMIS 2200 (211), 2300 (212); and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 735.			
<b>4262</b>	<b>Purchasing Strategy</b>	<b>U</b>	<b>3</b>
Strategic purchasing is a methodology used in many businesses to realize the greatest amount of benefit to the company while still effectively managing the costs associated with the acquisition of raw materials and operational components. Prereq: 2320 (330), 2321 (331), 3230 (630), AcctMIS 2200 (211), 2300 (212) and BusMHR 2291 or 2292 (BudAdm 499.01). Not open to students with credit for 736.			
<b>4263</b>	<b>Strategic Global Sourcing</b>	<b>U</b>	<b>3</b>
This course focuses on the strategic design and management of the global supply base. The course focuses on identifying and understanding risks and uncertainties related to make-buy, location, and on-going supplier management. Beyond that, it focuses on cross-functional decision-making under risk and uncertainty in this context. Prereq: 2320 (330), 2321 (331), 3230 (630), AcctMIS 2200 (211), and 2300 (212); and BusMHR 2291, 2292, or BusADM 499.01.			
<b>4998</b>	<b>Undergraduate Research in Management Sciences</b>	<b>U</b>	<b>1 - 3</b>
Undergraduate Research in Management Sciences for non-honors students. Prereq: BusAdm 2291 (499), and Jr standing, and permission of instructor. This course is progress graded.			
<b>4998H</b>	<b>Honors Research</b>	<b>U</b>	<b>1 - 6</b>
Special topics research in Management Sciences: Research evaluated through papers, thesis, and/or special examinations. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.			
<b>6220</b>	<b>Data Analysis for Managers</b>	<b>G</b>	<b>3</b>
Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of statistical inference and regression analysis and their use in decision making. Prereq: Enrollment in MHRM or SMB-Marketing Program. Not open to students with credit for 870.			
<b>6221</b>	<b>Data Analysis for Financial Management Part I</b>	<b>G</b>	<b>1½</b>
Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of statistical inference and regression analysis and their use in decision making. Part I of 2 course sequence. Prereq: Enrollment in MBOE or SMB-Finance Program Course. Not open to students with credit for 870. This course is progress graded.			
<b>6222</b>	<b>Data Analysis for Financial Management Part II</b>	<b>G</b>	<b>1½</b>
Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of statistical inference and regression analysis and their use in decision making. Part 2 of 2 course sequence. Prereq: Enrollment in MBOE or SMB-Finance Program Course. Concur: 6221. Not open to students with credit for 870.			
<b>6400</b>	<b>Statistics and Data Analysis for Managers</b>	<b>G</b>	<b>3</b>
Students will learn how to work with data, formulate questions, and most importantly, learn comprehensive problem solving techniques to extract and explain pertinent information from data. The course will track the problem solving process from problem formulation to data acquisition/cleaning to data analysis and conclusion to communication of the results. Prereq: Enrollment in the SMB-A program, or permission of instructor.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>½ - 6</b>
Individual study projects in selected areas in Management Sciences. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is progress graded (S/U).			
<b>7194.31</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 6</b>
Group studies projects. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>7194.32</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 6</b>
Group studies projects. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>7194.33</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 6</b>
Group studies projects. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions.			

<b>7201</b>	<b>Operational Excellence in a Service Environment</b>	<b>G</b>	<b>3</b>
Surveys a broad framework of key principles of service operations, detailing how they can be leveraged to devise a successful service strategy. Starts by covering building blocks of service operations and examines the application of these tools across various offline and online services. Prereq: MBA 6233, or permission of instructor.			
<b>7202</b>	<b>The Business of Healthcare</b>	<b>G</b>	<b>1½</b>
Focuses on the evolving and competitive issues facing the industry today, giving students the tools to adapt and excel under demanding circumstances. Students work to become effective leaders by gaining in-depth knowledge of business concepts, analytical skills and a broad understanding of health-care industry dynamics. Prereq: Enrollment in MBA or WP MBA program. Not open to students with credit for 814.			
<b>7203</b>	<b>Service and Healthcare Business Operations</b>	<b>G</b>	<b>1½</b>
Examines how techniques including lean, six sigma and value stream mapping are increasingly being utilized in service businesses, as well as to improve both flow (Cost) and patient safety outcomes in medicine. Prereq: Enrollment in MBA or WP MBA program.			
<b>7205</b>	<b>Healthcare and Service Analytics</b>	<b>G</b>	<b>3</b>
This course develops the quantitative thinking and skills needed to identify opportunities, develop models, and interpret results related to operational decision-making in service industries. Students will gain a practical understanding of the essential statistics needed for data analytics while working on a group project. Material will be presented in a hands-on manner using computer-based tools. Prereq: MBA 6273, or permission of instructor.			
<b>7222</b>	<b>Simulation, Risk Analysis, and Decision Making</b>	<b>G</b>	<b>1½</b>
Focuses on analyzing management decisions that involve uncertainty, risk and complexity. Students will explore the Monte Carlo simulation, forecasting and decision tree analytical methods with a strong emphasis on their proper use and application. Prereq: MBA 6271. Not open to students with credit for 855.			
<b>7223</b>	<b>Project Management</b>	<b>G</b>	<b>1½ - 3</b>
Introduces challenges senior managers face in companies that run multiple projects with a focus on overall project portfolio management, project selection, resource allocation between projects & organizational team design. Students identify their strengths & weaknesses in projects with a creative problem-solving exercise & experience real-life applications with visits from local project managers. Prereq: Enrollment in Fisher College of Business Grad program, or permission of instructor. Repeatable to a maximum of 3 cr hrs.			
<b>7231</b>	<b>Manufacturing Planning and Control for Supply Chain Management</b>	<b>G</b>	<b>1½</b>
Emphasizes the overall structure of the planning and control function in managing operations, a critical link for the planning activities in many areas of a business. Topics covered include forecasting, sales and operations planning (S&OP), master production scheduling (MPS), material requirements planning (MRP), capacity management, inventory management, and just-in-time (JIT) techniques. Prereq: Enrollment in MBA or WP MBA program. Not open to students with credit for 835.			
<b>7232</b>	<b>Supply Chain Analytics: Matching Supply with Demand</b>	<b>G</b>	<b>1½</b>
Explores how firms can better organize their operations so they more effectively align supply with demand for products and services. Students will learn how to assess supply flexibility and manage demand for a fixed supply and explore topics including flexible capacity management, short-life-cycle forecasting, quick response, revenue management, buy-back contracts and revenue-sharing contracts. Prereq: MBA 6231 and 6232, or 6233; and enrollment in MBA or WP MBA. Not open to students with credit for 832.			
<b>7232.01</b>	<b>Supply Chain Analytics: Matching Supply with Demand</b>	<b>G</b>	<b>1½</b>
Explores how firms can better organize their operations so they more effectively align supply with demand for products and services. Students will learn how to assess supply flexibility and manage demand for a fixed supply and explore topics including flexible capacity management, short-life-cycle forecasting, quick response, revenue management, buy-back contracts and revenue-sharing contracts. Prereq: MBA (6231 and 6232) or 6233, and enrollment in MBA or WP MBA. Not open to students with credit for 832.			
<b>7232.02</b>	<b>Supply Chain Analytics: Matching Supply with Demand</b>	<b>G</b>	<b>1½</b>
Explores how firms can better organize their operations so they more effectively align supply with demand for products and services. Students will learn how to assess supply flexibility and manage demand for a fixed supply and explore topics including flexible capacity management, short-life-cycle forecasting, quick response, revenue management, buy-back contracts and revenue-sharing contracts. Prereq: MBA (6231 and 6232) or 6233, enrollment in MBA or WP MBA. Concur: BusFin 7215.02. Not open to students with credit for 7232 or 7232.01.			
<b>7233</b>	<b>Strategic Global Sourcing</b>	<b>G</b>	<b>3</b>
Focuses on major decisions related to global sourcing, starting with ownership (make-buy) and location (offshore-onshore). Among other topics, students explore fundamental trade-offs in sourcing organization, such as centralizing or decentralizing. Prereq: MBA 6231 and 6232, and enrollment in MBA, WP MBA, or MBLE program. Not open to students with credit for 837.			

## 74 Business Admin: Management Sciences

**7235 Health Care Operations Management** G 3

As healthcare organizations face challenges such as rising costs & complexity, as well as increasing demand for limited resources, significant opportunity exists to better manage their operations. This course applies operations management tools to examine the healthcare value chain & analyze healthcare organizations using qualitative & quantitative principles & develop solutions to common problems.

Prereq: Enrollment in MBA or WP MBA program.

**7241 Lean Enterprise Leadership** G 1½

Introduces the skills and discipline needed to lead and learn in a continuous improvement environment in a hands-on, participative manner. Students who complete the class can immediately contribute to an organization's efforts in continuous improvement, whose principles are used by many leading organizations in all sectors to outpace competitors year after year.

Prereq: Enrollment in MBA, WP MBA, or MBLE program. Not open to students with credit for 840.

**7242 Six Sigma Principles** G 3

Familiarizes students with the Six Sigma process improvement methodology by practicing with its tools. Supplemented with an online textbook from Moresteam.com, project simulation that runs throughout the semester and Minitab statistical software.

Prereq: MBA 6271 (870), or enrollment in MBLE program. Not open to students with credit for 810.

**7244 Six Sigma Projects** G 3

Teams of students apply the Six Sigma body of knowledge through a real-world project at an area company. Projects will follow the DMAIC body of knowledge as students and coaches work through its tollgates to achieve process improvement.

Prereq: 7242 or 7243. Not open to students with credit for 811.

**7247 Artificial Intelligence and Machine Learning for Business: Decisions from Data** G 3

Provides business students with an overview of artificial intelligence, focusing on modern machine learning methods and applications. We study and implement supervised and unsupervised machine learning systems using software and data from practical, business contexts. Upon completion, participants will be able to identify and capitalize on opportunities to create value with artificial intelligence.

Prereq: MBA 6273 or equivalent.

**7250 Data Management for Analytics Professionals** G 3

Business Analytics is the process of transforming raw data into insights and predictions. This course is on the fundamentals of data management-the art and science of collecting, organizing, cleaning, and manipulating raw data in a variety of formats and from multiple sources, and being able to do it efficiently and at scale using R.

Prereq: Enrollment in the SMB-A program, or permission of instructor.

**7251 Managing Product and Process Innovation** G 1½

An essential element of any business model is the design and the delivery of services and goods. Many organizations are able to perform this function effectively in the short-term. But only a few organizations demonstrate sustained performance over an extended period of time. We refer to these organizations as pioneers in business model innovation.

Prereq: Enrollment in MBA, WP MBA, or MAcc program. Not open to students with credit for 834.

**7253 Sustainable Operations** G 1½

Reviews several sustainable operations strategy models and examines different ways of adopting eco-efficiency principles into business operations through waste reduction and design for recovery. Highlights factors that promote these efforts, such as environmental laws and product returns.

Prereq: Enrollment in MBA or WP MBA program.

**7256 Tools for Data Analysis** G 1½

This course is designed to introduce students to commonly used software programs in data science and improve students' problem solving skills and logical thought processes. Students will be exposed to R, SAS, and SPSS.

Prereq: MBA 6271 or 6273.

**7257 Data Analysis and Visualization** G 3

Designed to equip students with competencies in translating real-world problems into forms that such technologies can assist with, to portray/visualize these translations in ways that enhance the understanding of the dynamics of these problems, to structure mechanisms that derive suggested solutions, to clearly convey the justification and practicality of final solutions to others.

Prereq: Enrollment in the MBA or WP MBA program; or permission of instructor.

**7258 Sports Analytics for Business** G 1½

Analytical techniques and quantitative methods are on the rise in many areas of industry, and, of late, have made their foray into the sports realm. Skills such as critical thinking, mathematical modeling, statistical analysis, predictive analytics and optimization are crucial in the data-centric realm. The class seeks to develop and refine these skills in the business application area of sports.

Prereq: MBA 6271, and enrollment in MBA or WP MBA program.

**7259 Operations and Technology Strategy** G 1½

Develop a unifying framework for analyzing strategic issues in operations. Use theory and cases to illustrate and explore the concept of operations and technology strategy. Covers strategic decisions on technology, facilities, vertical integration, human resources, global operations and social issues.

Prereq: Enrollment in MBA, WP MBA, or MAcc program. Not open to students with credit for 834.

**7260 Applied Data Analytics Projects** G 3

Successful applications of data analysis in an organizational context require technical and managerial capabilities. The course provides the opportunity to develop your abilities in these areas through an analytics consulting project with a local firm or non-profit organization.

Prereq: 7256 or MBA 6273, and enrollment in MBA, WP MBA, or SMB-A; or permission of instructor.

**7261 MBOE Lean Enterprise Leadership** G 3

Introduces three important methods: Hoshin Kanri (or policy deployment); Value Stream Mapping, and A3 storyboards. We will also begin defining projects and use the methods covered to analyze and document the value streams.

Prereq: Enrollment in MBOE. Not open to students with credit for 840.02.

**7262 MBOE Capstone/Cornerstone Project** G 1½

Capstone Project is a supervised practical project executed by the student with the help of a team in the student's own workplace. A faculty coach supervises and guides the effort and a company sponsor supports the effort of the student team.

Prereq: Enrollment in MBOE. Not open to students with credit for 841. Repeatable to a maximum of 6 or hrs.

**7263 MBOE Value Stream Management** G 3

Presents students with the state-of-the-art strategic and operational approaches to planning and implementing effective change across an enterprise. Students will be taught to identify and analyze concerns and implement solutions.

Prereq: Enrollment in MBOE. Not open to students with credit for 842.

**7264 MBOE Stabilizing Operations** G 3

The objective of this course is to present students with the state-of-the-art tools for stabilizing operations and maintaining stability. Students will be taught to identify and analyze strategic core enterprise-wide concerns and implement solutions.

Prereq: Enrollment in MBOE. Not open to students with credit for 843.

**7265 MBOE Creating and Managing Flow** G 3

This class will cover flow in both service and manufacturing environments. We will consider questions such as how to achieve patient flow in a hospital; and whether Materials Requirements Planning systems and flow processes can co-exist.

Prereq: Enrollment in MBOE. Not open to students with credit for 845.

**7266 MBOE Leading Operations** G 3

The explicit link between problem solving and lean activities such as policy management, standardized work, visual management, human resources management and "go see" (gemba) activities are explained.

Prereq: Enrollment in MBOE. Not open to students with credit for 844.

**7267 MBOE Six Sigma** G 3

Designed to familiarize students with the Six Sigma process improvement methodology and to provide them an opportunity to practice using Six Sigma Black Belt tools.

Prereq: Enrollment in MBOE. Not open to students with credit for 810. This course is progress graded.

**7268 MBOE Six Sigma Projects** G 3

Six Sigma Project is a supervised DMAIC project executed by the student and with the help of a team in the student's own workplace. A faculty coach supervises and guides the effort and a company sponsor supports the effort.

Prereq: Enrollment in MBOE. Not open to students with credit for 811.

**7269 MBOE Change & Innovation for Ops Excellence** G 3

Course is designed to familiarize students with the application of lean principles in three additional key areas of the organization. The total lean transformation requires a change in the way we lead throughout the organization.

Prereq: Enrollment in MBOE. Not open to students with credit for 847.

**7270 MBOE Managing the Extended Value Stream** G 3

A focus on working across functions, companies and cultures and managing the Extended Value Stream.

Prereq: Enrollment in MBOE. Not open to students with credit for 848.

**7331 Descriptive Analytics and Visualization** G 3

Visualization is an effective way to communicate the underlying patterns of data. Students will learn different types of visualization and how to compose and combine them using R. This course covers a wide range of visualization from simple to complex, static to interactive, and familiar to exotic. Students will also be exposed to how to describe and visualize unstructured data such as texts.

Prereq: 6400, 7250, enrollment in SMB-Analytics program, or permission of instructor.

## Business Admin: Management Sciences 75

<b>7332</b>	<b>Predictive Analytics</b>	<b>G</b>	<b>3</b>
Business Analytics is the process of transforming raw data into insights and predictions. This course provides an introduction to core predictive analytics concepts and techniques as well as hands-on experience in applying these techniques to practical real-world business problems. Prereq: 7250, enrollment in SMB-Analytics program, or permission of instructor.			
<b>7334</b>	<b>Sports Analytics</b>	<b>G</b>	<b>1½</b>
Analytical techniques and quantitative methods are on the rise in many areas of industry, and, of late, have entered the sports realm. Students will expand their critical thinking skills, explore the current state of sports analytics, summarize data creatively, improve data-based decision making, and optimize output in real-world situations as well as improve presentation skills to the non-quant. Prereq: Enrollment in SMB-Analytics program, or permission of instructor.			
<b>7701</b>	<b>Managing Business Operations for Health Sciences</b>	<b>G</b>	<b>1½ - 3½</b>
Many firms have demonstrated that operations management can be an effective competitive weapon. In conjunction with well-conceived marketing and financial plans, these firms have made major penetrations into markets worldwide. This course is designed to address the key operations issues in service and manufacturing organizations that have strategic as well as tactical implications. Prereq: Enrollment in the Graduate Business Minor in Health Sciences.			
<b>7717</b>	<b>Capstone: Healthcare Business Solution Teams</b>	<b>G</b>	<b>1½ - 3½</b>
This class focuses on diagnosing and solving real-world problems in life science and healthcare business practices. Prereq: 7701, BusFin 7702, and BusMHR 7703.			
<b>7800</b>	<b>Advanced Topics in Management Sciences for EMBA</b>	<b>G</b>	<b>1½ - 3</b>
Advanced Topics in Management Sciences for students in the Executive MBA Program. Prereq: Enrollment in EMBA program. Repeatable to a maximum of 15 cr hrs or 7 completions.			
<b>7999</b>	<b>Research in Management Sciences: Thesis</b>	<b>G</b>	<b>1 - 12</b>
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 4 completions. This course is progress graded (S/U).			
<b>8230</b>	<b>Strategic Management of Operations I</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: critical analysis of research studies in different areas of operations management; linking operations to the corporate strategy, dimensions of operations strategy. Prereq: Enrollment in BusAdm PhD program.			
<b>8231</b>	<b>Strategic Management of Operations II</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: critical analysis of research in vertical integration decisions, and measuring operational effectiveness, interorganizational collaboration. Prereq: Enrollment in BusAdm PhD program.			
<b>8232</b>	<b>Operations Planning &amp; Control I</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: critical analysis of research in fundamental and classical operations management and operations research topics. Prereq: Enrollment in BusAdm PhD program.			
<b>8233</b>	<b>Operations Planning &amp; Control II</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: Critical analysis of research studies in inventory management, warehouse and facility location, vehicle routing, MRP and forecasting. Prereq: Enrollment in BusAdm PhD program.			
<b>8234</b>	<b>Innovation Management</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: Critical analysis of research in portfolio management, NPD, managing NPD teams, distributed and platform innovation, and innovation implementation. Prereq: Enrollment in BusAdm PhD program.			
<b>8235</b>	<b>Fundamentals of Operational Excellence</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: Critical analysis of research in quality management, lean, six sigma, designing operations to support and sustain innovation, integrating technology into operations. Prereq: Enrollment in BusAdm PhD program.			
<b>8236</b>	<b>Service Operations I</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: critical analysis of research in designing effective service delivery models, service quality, measuring service performance, service profit chains. Prereq: Enrollment in BusAdm PhD program.			
<b>8237</b>	<b>Service Operations II</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: Critical analysis of research in healthcare operations, retail operations, and IT service operations, sharing economies. Prereq: Enrollment in BusAdm PhD program.			
<b>8238</b>	<b>Supply Chain Management I</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: Critical analysis of research in supply chain essentials, design, and management. Prereq: Enrollment in BusAdm PhD program.			
<b>8239</b>	<b>Supply Chain Management II</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: critical analysis of research in buyer-supplier contracts, matching supply and demand, behavioral issues in supply chain. Prereq: Enrollment in BusAdm PhD program.			

<b>8240</b>	<b>Operations Method I</b>	<b>G</b>	<b>3</b>
Doctoral research seminar: critical analysis of philosophy of science, qualitative/case study research, survey-based research, research employing secondary data sources. Prereq: Enrollment in BusAdm PhD program.			
<b>8241</b>	<b>Operations Method II</b>	<b>G</b>	<b>3</b>
Doctoral research seminar: critical analysis of analytical research methods and dynamic programming. Prereq: Enrollment in BusAdm PhD program.			
<b>8242</b>	<b>Operations Management Seminar Speaker Series</b>	<b>G</b>	<b>1½</b>
Doctoral research seminar: Critical analysis of research in different areas of behavioral operations; practice in developing research questions and formulating hypotheses; presentation of original research of publishable quality. Prereq: Enrollment in BusAdm PhD program. Repeatable to a maximum of 3 cr hrs.			
<b>8999</b>	<b>Research in Management Sciences: Dissertation</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 48 cr hrs or 8 completions. This course is progress graded (S/U).			

## Business Admin: Marketing & Logistics

<b>2223</b>	<b>Professional Sales Readiness</b>	<b>U</b>	<b>1½</b>
Learn the consultative process for problem-solving and persuasion that is essential for sales as well as success in any field. Open to all majors. This experiential, instructor-led online course can be accessed from anywhere with high-speed internet. In addition to solid framework for sales success, it includes a sales aptitude assessment, personal branding for job and resume/cover letter writing.			
<b>3150</b>	<b>Foundations of Marketing</b>	<b>U</b>	<b>3</b>
Presents the concepts, framework and tools of market-based management. Topics include the marketing concept and the role that product, price, promotion and distribution play in marketing strategy and implementation. Prereq: Math 1116, 1130, 1148, or equiv, and Econ 2001.01, or equiv. Not open to students with credit for 3250. Not open to students in BSBA.			
<b>3194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 6</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 6 completions.			
<b>3241</b>	<b>Introduction to Entrepreneurial Marketing</b>	<b>U</b>	<b>3</b>
Focuses on marketing concepts of entrepreneurs leading growth-oriented companies. Typically these are small, young companies with ambitions to become major enterprises. Prereq: Econ 2001.01 (200) or AEDEcon 200, or equiv, and Math 1130 (130), or equiv. Not open to students with credit for 4241 or 490.			
<b>3250</b>	<b>Principles of Marketing</b>	<b>U</b>	<b>3</b>
Presents the concepts, framework and tools of market-based management to deliver superior customer satisfaction, value and profitability. The focus of the course is on identifying, creating, delivering and measuring value creation. Prereq: Econ 2001.01 and 2002.01. Not open to students with credit for 3150 (650) or 450 or to students enrolled in UUSS, UExp or PreBSBA-PR.			
<b>3380</b>	<b>Logistics Management</b>	<b>U</b>	<b>1½</b>
Concepts and methods used to plan and manage logistics activities in a business environment. Understanding of the components of logistics management and tradeoffs required to manage the integrated flow of goods through the supply chain. Prereq: Econ 2001.01 (200), or equivalent; and 2002.01 (201), or equivalent. Not open to students with credit for 780 or to students enrolled in UUSS, UExp, or PreBSBA-PR.			
<b>3381</b>	<b>Logistics Management for EEDS</b>	<b>U</b>	<b>1½</b>
Provides an overview and working knowledge of logistics for students majoring in Environment, Economy, Development, and Sustainability. Provides a survey of key logistics concepts along with an understanding of how logistics applies to the customer lifecycle, how logistics models are developed, logistics and risk management and continuous improvement. Prereq: Jr standing or above, and enrollment in EEDS program. Not open to students with credit for 3380, or students in BSBA.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 4</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor. This course is graded S/U.			
<b>4194.51</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor.			
<b>4194.52</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor.			
<b>4194.53</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor.			

## 76 Business Admin: Marketing & Logistics

**4201 Consumer Behavior** U 3

Examines how and why people behave as consumers. Its goals are to provide an understanding of consumer behavior and to provide experience in the application of this knowledge to marketing management and social policy decision making.  
Prereq: 3250 (650), and AcctMIS 2200 (211), 2300 (212), and BusMGT 2320 (330), 2321 (331); and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 750.

**4202 Marketing Research** U 3

Course examines the role of marketing research in the formulation and solution of marketing problems. Emphasis is placed on problem formulation, research design, data collection methods (instruments, sampling, operations) and analysis techniques.  
Prereq: 3250 (650), and AcctMIS 2200 (211), 2300 (212), and BusMGT 2320 (330), 2321 (331); and BusMHR 2291 or 2292 (BusADM 499.01). Not open to students with credit for 758.

**4203 Marketing Strategy** U 1½

This case course focuses on strategic planning examining how environmental factors affect long-term marketing strategies, how firms adapt to opportunities and threats in dynamic environments and how to assess development of competitive advantages.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 752.

**4204 Marketing Projects** U 3

In this advanced marketing course students will act as a consulting team and work with a client firm on a marketing problem, produce a report and present their work.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv; or enrollment in regional campus General Business Program.

**4210 Advanced Market Research and Analytics** U 1½ - 3

Applications of modern marketing research procedures to variety of marketing problems. Emphasis placed on survey design and sampling, attitude measurement, perceptual mapping, market segmentation, conjoint analysis, and measurement of customer satisfaction.  
Prereq: 4201, 4202, and BusMHR 2292, or equiv. Not open to students with credit for BusMgt 3333.

**4211 Market Analysis, Development & Forecasting** U 1½

Before a new product can be launched, or new customers targeted a firm must assess the size and demand for an offering. Methods used to forecast consumer behavior, market share, and sales (for production and inventory control) will be examined.  
Prereq: 4201 (750) or 4202 (758), or equiv, and BusMHR 2292 (BusAdm 499.01).

**4212 Customer Relationship Management** U 1½

Examines the theories of methods used to identify profitable customers, understand their needs and wants, and how to build a bond with them by developing customer-centric products and services directed toward providing customer value.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv.

**4220 Sales Management** U 1½

Provides an overview of the sales management process. It covers topics, such as sales force planning, budgeting, recruiting, selection, training, compensation, supervision, deployment and control.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 759.

**4221 Professional Selling** U 1½

Provides a practical, hands-on understanding of the professional selling process. Students will learn how companies use personal selling to enhance their business and develop the skills necessary to be an effective account manager.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 761.

**4222 Services Marketing** U 1½

Examines customer touch point analysis, brand consistency and integrating customer information across the organization. Issues addressed: understanding service failure and recovery, management of service employees and the establishment of a service culture.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 760.

**4223 Foundations of Sales and Sales Management** U 3

Examines the basics of business-to-business professional selling and provides core sales management building blocks. Emphasizes the importance of building relationships and adding substantial value to business customers while providing a theoretical and practical overview of the selling and buying process, salesforce structure, and sales tools.  
Prereq: 4201, 4202, and BusMHR 2292, or equiv. Not open to students with credit for 4220 and 4221.

**4230 Advertising Management** U 1½

Provides the tools needed to develop, manage and evaluate an integrated marketing communication campaign. Communication fundamentals, goal setting, creative and media strategy, campaign development and measurement issues are explored.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 755.

**4231 Promotional Strategy** U 1½

Examines how marketers utilize promotional campaigns to enhance marketing efforts. The tools needed to design, evaluate and analyze effectiveness of promotions, sponsorships, events and branded entertainment programs are explored.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 755.

**4232 Digital Marketing** U 3

Examines the how marketers can utilize emerging media (electronic, online, social and mobile) to promote customer engagement, enhance their traditional marketing mix, and measure the effectiveness of marketing efforts.  
Prereq: 4201, 4202, and BusMHR 2292, or equiv.

**4233 Advertising and Promotional Strategy** U 3

Provides the tools needed to develop, manage and evaluate an integrated marketing communication campaign. Examines how marketers utilize advertising and promotional programs to enhance marketing efforts. Communication fundamentals, goal setting, creative and media strategy, campaign development and measurement issues, and pricing implications are explored.  
Prereq: 4201, 4202, and BusMHR 2292, or equiv. Not open to students with credit for 4230 and 4231.

**4240 New Product Management** U 1½

Examines strategies for development of successful new products. The five modules of the process (i.e., opportunity identification, concept generation, concept evaluation, product design and development, and launch) will be covered.  
Prereq: 4201, 4202, and BusMHR 2292, or equiv.

**4241 Entrepreneurial Marketing** U 1½

Examines best practices in Entrepreneurial Marketing including analysis of marketing opportunities, identification of target audience, development of marketing strategy, brand positioning and an integrated marketing plan.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01).

**4251 Retail Management** U 1½

Examines contemporary distribution channels; focus on strategic decisions for successful retail practices; examine industry trends to highlight how companies design and manage retail and e-tail environments.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 753.

**4252 Social Marketing & Public Policy** U 1½

Examines social marketing, which seeks to benefit a targeted population and the general society rather than a marketer or firm. Non-profit, cause marketing, corporate social responsibility, and sustainability issues are explored.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv.

**4253 Global Marketing** U 1½

Examines the theory of marketing across national borders, as well as marketing and market research within different foreign environments, including the development of marketing strategies by the international company. Marketing majors only.  
Prereq: 4201 (750), 4202 (758), and BusMHR 2292 (BusAdm 499.01), or equiv. Not open to students with credit for 4254 (757).

**4254 International Marketing** U 3

For International Business majors only. Examines theory and practice of marketing across national borders, marketing and market research within different foreign environments, and development of marketing strategies by the international company. Does not count as elective credit for the Marketing major.  
Prereq: 3250 (650) and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 4253 (757).

**4255 Sustainability Marketing for Consumers, Firms & Society** U 3

This course is designed to provide students with the knowledge to enhance sustainable behaviors in firms, among consumers and in society at large. In doing so, this course will include frameworks for understanding how to influence sustainable practices, consumer response to sustainability, and sustainability and marketing communication in the marketplace.  
Prereq: 3250 or AEDEcon 3102.

**4380 Advanced Logistics Management** U 1½

Advanced coverage of the concepts and methods used to plan and manage logistics activities in a business environment; in-depth understanding of the components of logistics management and tradeoffs required to manage the integrated flow of goods.  
Prereq: 3380, and AcctMIS 2200 (211), 2300 (212), and BusMGT 2320 (330), 2321 (331); and BusMHR 2291 or 2292 (BusADM 499.01).

**4382 Logistics Analytics** U 3

Will equip student with the tools and skills necessary to recognize, analyze and solve significant problems in the operation of a logistics system through the application of techniques using spreadsheet analysis, optimization and simulation.  
Prereq: 4380, BusMgt 2320 (330), 2321 (331), and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 781.

<b>4383</b>	<b>Supply Chain Management</b>	<b>U</b>	<b>1½</b>
Focuses on distinction between logistics and supply chain management; cross-functional integration of key business processes within the firm and across network of firms that comprise supply-chain; framework for supply chain management. Prereq: 3380, and AcctMIS 2200, 2300, and BusMgt 2320, 2321; and BusMHR 2291 or 2292.			
<b>4385</b>	<b>Building a Sustainable Supply Chain</b>	<b>U</b>	<b>1½</b>
Focuses on understanding how to measure and impact the long-term sustainability of a company's supply chain operations; learn practices for reducing carbon footprints and creating a more resilient supply chain, while meeting financial goals. Prereq: 3380 or 3381; and AcctMIS 2200, 2300, and BusMGT 2320, 2321; and BusMHR 2291 or 2292.			
<b>4386</b>	<b>Logistics Technology - Fundamentals</b>	<b>U</b>	<b>1½</b>
Focus on the operational use of logistics software technologies such as transportation management systems, warehouse management systems, and inventory management systems. Course taught in a lab environment with tools for lectures, exercises and HW. Prereq: 3380, and AcctMIS 2200 and 2300, and BusMgt 2320 and 2321; and BusMHR 2291 or 2292.			
<b>4387</b>	<b>Lean Logistics</b>	<b>U</b>	<b>1½</b>
Examines using Lean tools and insights to remove bottlenecks and impediments to efficient, effective logistics, resulting in reduced logistics costs and improved service. Prereq: 4380 and BusMHR 2292 (BusAdm 499.01).			
<b>4388</b>	<b>Warehouse Operations</b>	<b>U</b>	<b>1½</b>
Study of general warehouse operations, focusing on facility layout, financial analysis, labor relations, warehouse management systems, productivity improvement and measurement; impact of corporate and industry strategies on warehouse operations. Prereq: 3380, and AcctMIS 2200 (211), 2300 (212), and BusMGT 2320 (330), 2321 (331); and BusMHR 2291 or 2292 (BusADM 499.01).			
<b>4389</b>	<b>Logistics Technology - ERP Systems</b>	<b>U</b>	<b>1½</b>
Introduction to enterprise resource planning (ERP) systems with emphasis on understanding the differences between the major ERP systems on the market and using an ERP system to complete exercises for common business functions.			
<b>4998</b>	<b>Undergraduate Research in Marketing &amp; Logistics</b>	<b>U</b>	<b>1 - 3</b>
Undergraduate Research in Marketing & Logistics for non-honors students. Prereq: BusAdm 2291 or 499, and Jr standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.			
<b>4998H</b>	<b>Honors Research</b>	<b>U</b>	<b>½ - 4</b>
Special Topics Research in Marketing and/or Logistics. Research evaluated through papers, thesis, and/or special examinations. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is progress graded.			
<b>5381</b>	<b>Transportation Management</b>	<b>U G</b>	<b>3</b>
Issues and strategies in transportation management and policy; emphasis on study of modes of transportation, intermodal and international transportation, capacity management, competitive relations between modes; aspects of carrier management. Prereq: 3380, and AcctMIS 2200 (211), 2300 (212), and BusMGT 2320 (330), 2321 (331); and BusMHR 2291, or 2292 (BusADM 499.01), or enrollment in MBLE. Not open to students with credit for 784.			
<b>5389</b>	<b>Logistics Decision Making</b>	<b>U G</b>	<b>3</b>
Analysis of logistics decision making in the context of the business environment; application of the solution methods needed to meet business goals. Capstone designed to expand on previous courses and prepare students to implement logistics concepts. Prereq: 4380. Prereq or concur: 4382 and BusMHR 2292 (BusAdm 499.01). Not open to students with credit for 782.			
<b>6243</b>	<b>Managerial Economics</b>	<b>G</b>	<b>3</b>
Provides a framework for analyzing managerial decisions and problems using selected topics from fundamental microeconomic theory. This framework will be used in conjunction with strategy, case studies, ethical considerations, and combined professional experience to improve managerial decision-making. Prereq: Enrollment in the SMB-A program, or permission of instructor.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>½ - 4</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 6 completions. This course is graded S/U.			
<b>7194.51</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor.			
<b>7194.52</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>
Topics in Marketing and Logistics. Prereq: Enrollment in MBA program, WP MBA program, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 6 completions.			

## Business Admin: Marketing & Logistics 77

<b>7201</b>	<b>Marketing Research and Analytics</b>	<b>G</b>	<b>1½</b>
Exploration of issues related to data analysis for marketing decisions: costs/benefits of analysis in aggregate; difference between descriptive and structural models; complexities of imperfect information. Prereq: MBA 6252 or 6253. Not open to students with credit for 847.			
<b>7202</b>	<b>Consumer Behavior</b>	<b>G</b>	<b>1½</b>
Development of the consumer decision process and its application to marketing strategy decisions. Prereq: 6250 or MBA 6252 or 6253.			
<b>7203</b>	<b>Advertising Strategy and Management</b>	<b>G</b>	<b>1½</b>
The advertising process, partnership with an ad agency, uncovering consumer insight to drive advertising strategy, formulating and guiding advertising strategy, media planning concepts, and measuring advertising effectiveness. Prereq: 6250 or MBA 6252 (840). Not open to students with credit for 846.			
<b>7204.01</b>	<b>Customer Management, Pricing, and Analytics II</b>	<b>G</b>	<b>1½</b>
Tools for predicting the effects of product reformulation. A choice simulator is constructed to investigate the source of volume and effect of targeted marketing actions. A comparison to, and the integration of, marketplace data is examined. Prereq: MBA 6250, 6252, or 6253. Not open to students with credit for 7204.02.			
<b>7204.02</b>	<b>Customer Management, Pricing, and Analytics II</b>	<b>G</b>	<b>1½</b>
Tools for predicting the effects of product reformulation. A choice simulator is constructed to investigate the source of volume and effect of targeted marketing actions. A comparison to, and the integration of, marketplace data is examined. Prereq: MBA 6250, 6252, or 6253. Concur: BusML 7219.02. Not open to students with credit for 7204.01.			
<b>7205</b>	<b>Services Marketing</b>	<b>G</b>	<b>1½</b>
Focus on equipping students to become more effective leaders of service organizations as well as more enlightened customers of service firms. Prereq: MBA 6252 (840).			
<b>7206</b>	<b>Brand Management</b>	<b>G</b>	<b>1½</b>
The brand management process, strategic targeting, constructing compelling brand platforms, brand portfolio management, building and sustaining brand equity, brand equity metrics and strategic brand communications. Prereq: 6250 or MBA 6252 or 6253.			
<b>7207</b>	<b>Pricing Strategy</b>	<b>G</b>	<b>1½</b>
Focus on microeconomic theory, statistics and psych to shed light on pricing. Explore foundation of sound pricing decisions: costs, customer and competition, and then move on to current pricing strategies, tactics and their application. Prereq: MBA 6250 or 6252 (840). Not open to students with credit for 851.			
<b>7208</b>	<b>Digital Marketing</b>	<b>G</b>	<b>1½</b>
Management of digital marketing assets in order to develop strategies and execute tactics associated with cross-channel marketing in the digital era. Prereq: 6250 or MBA 6252 (840).			
<b>7209</b>	<b>Strategic Sales Force Management</b>	<b>G</b>	<b>1½</b>
Focuses on management of the sales function and its coordination with other components of marketing strategy including pricing, product development, promotion, and distribution. Prereq: MBA 6252 or 6253.			
<b>7211</b>	<b>Consumer Psychology</b>	<b>G</b>	<b>1½</b>
Course delves into consumer psych, and the means by which consumer behavior can be influenced or altered. Course will explore the psychological underpinnings of consumer information processing, attitude formation and persuasion, learning and memory. Prereq: 6250 or MBA 6252 or 6253.			
<b>7212</b>	<b>Business Development: Client Acquisition &amp; Retention</b>	<b>G</b>	<b>1½</b>
Explore the value process in business to business relationships, leading such relationships; facilitating alliances; leading customer solutions; understanding interfaces with other functions; and quantifying/measuring value. Prereq: MBA 6252 or 6253.			
<b>7214</b>	<b>Cross Channel Marketing</b>	<b>G</b>	<b>1½</b>
Examines the unique challenges of bringing a service brand to life across multiple channels. Understanding the methods, processes and approaches to creating holistic experiences that resonate with the target audience is covered. Prereq: MBA 6252 or 6253.			
<b>7215</b>	<b>Global Marketing and Sustainability</b>	<b>G</b>	<b>1½</b>
Review core concepts of global marketing including, pricing, research, positioning, strategy, social responsibility, communicating with world consumers, and management team development from a sustainability viewpoint. Prereq: 6250 or MBA 6252 or 6253. Not open to students with credit for 845.			
<b>7218</b>	<b>New Product Management</b>	<b>G</b>	<b>1½</b>
Strategies and tools for the development of successful new products. Emphasis is placed on opportunity identification, concept generation and testing, product design, and development and launch. Prereq: MBA 6252 (840).			

## 78 Business Admin: Marketing & Logistics

**7226 Marketing Simulation** G 1½

Student teams analyze a business case and formulate their strategy for the firm. Within the context of a realistic and complex business simulation, students will implement their strategy through submission of marketing variable decisions and analysis of market response.  
Prereq: MBA 6252 or 6253.

**7227 Prescriptive Data Analysis** G 1½

Focuses on identifying the best course of action to take in response to what is known about the business and its environment. Students will develop skills in translating business objectives, threats and opportunities into actionable data collection and analysis. Students will also become be exposed to and become proficient with concepts spanning the analysis of pre-existing, secondary data.  
Prereq: MBA 6252 or 6253.

**7228 Data Driven Marketing** G 1½

Increasing computing power allows companies amassing large amounts of customer data. As a consequence, marketing decisions are becoming more data driven. Students will learn statistical learning concepts related to marketing data analytics; tools, techniques, and advanced models will be introduced not only for predicting consumer choices but also for measuring the effectiveness of marketing effort.  
Prereq: MBA 6252 or 6253.

**7230 Customer Analytics** G 1½

Tools for the analysis of survey and marketplace data. Topics include design of the surveys, scale development, analysis of the recency, frequency and monetary value of transactions, web-based 'click-stream' data and others.  
Prereq: MBA 6250, 6252, or 6253.

**7243 Prescriptive Analytics** G 3

Focus on prescriptive analytics to determine causal effects and identify optimal decisions in business. Emphasis on programming data analysis using the R statistical language.  
Prereq: Enrollment in the SMB-A program, or permission of instructor.

**7244 Bayesian Analysis** G 1½

Overview of recent developments and applications of Bayesian statistical methods in business analytics. Emphasis on developing a conceptual understanding of quantitative models, and their operational translation into methods for data analysis.  
Prereq: Enrollment in the SMB-A program, or permission of instructor.

**7245 Analytics of Micro Marketing Data** G 1½

Focus on the analytics of disaggregate marketing data including appropriate measurement scales and techniques for specific data types. Emphasis on modeling techniques and tools, such as textual analysis, utility-based analysis, and attribution models, to solve marketing problems in corporate setting.  
Prereq: Enrollment in the SMB-Analytics program, or permission of instructor.

**7247 Analytics for Macro Marketing Data** G 1½

A 'macro' approach to understanding the marketing decision process with implications stretching beyond the firm: i.e., consumers privacy, search and recommendation. Emphasis on data structures arising from online platforms and marketplaces as well as the prevalent technological and regulatory landscape in the industry.  
Prereq: Enrollment in SMB-Analytics program.

**7249 SMB-A Capstone Projects** G 3

The course provides students with an opportunity to apply, showcase, fine-tune and expand the skills and knowledge acquired in courses in the program by working through substantive real-world analytics projects from initial conception to the production of useful insights and improved decisions.  
Prereq: Enrollment in SMB-Analytics program.

**7380 Strategic Logistics Management** G 1½

Develop an understanding of key drivers of logistics performance and their inter-relationships with strategy and other functional areas. Focus on developing analytic, problem-solving, and cost trade-off management skills.  
Prereq: Enrollment in MBA, MBLE, or MAcc.

**7381 Logistics Decision Making** G 1½

This case-based course will prepare students to make data-driven decisions on key logistics issues and then make these decisions actionable through a focus on appropriate solution methods needed to achieve firm financial goals.  
Prereq: 7380.

**7382 Logistics Analytics** G 1½

Focuses on the application of quantitative techniques. Problems addressed include demand forecasting, inventory control, and network design using spreadsheet analysis, optimization and simulation.  
Prereq or concur: 7380.

**7383 Supply Chain Management** G 1½

Students learn the distinction between logistics and supply chain management (SCM) and develop SCM skills with a focus on cross-functional integration of key processes within the firm and across the network of firms that comprise the supply chain.  
Prereq or concur: MBA 6252 or 6253, or enrollment in MAcc program, or enrollment in MBLE program.

**7386 Logistics Technology and Application** G 1½

Focus on the operational use and appropriate contextual use of logistics software technologies such as transportation management systems, warehouse management systems, inventory management and network design.  
Prereq: 7380.

**7387 Lean Logistics** G 1½

Examines using Lean tools and insights to remove bottlenecks and impediments to efficient, effective logistics, resulting in reduced logistics costs and improved service.  
Prereq: 7380.

**7388 Field Problems in Logistics** G 3

Advanced graduate studies course where students work in groups as consultants to solve actual business problems for clients. Objectives include developing problem solving skills and gaining practical experience.  
Prereq: 7380.

**7715 Attracting and Retaining Customers in Health Sciences** G 1½

This class focuses on the process of attracting and retaining customers in the health sciences industry. Students will explore how to drive growth through new patient acquisition and retention as well as by understanding the practice's ability to provide value, and the patient's needs in relation to that value.  
Prereq: BusMgt 7701, BusFin 7400, and BusMHR 7264; and enrollment in the Graduate Business Minor in Health Sciences.

**7800 Advanced Topics in Marketing and Logistics for EMBA** G 1½ - 3

Advanced Topics in Marketing and Logistics for students in the Executive MBA Program.  
Prereq: Enrollment in Executive MBA program. Repeatable to a maximum of 15 cr hrs or 7 completions.

**7999 Research in Marketing and Logistics: Thesis** G 1 - 12

Topics in Marketing and Logistics.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is progress graded (S/U).

**8250 Consumer Behavior** G 4

Study of the academic literature on consumer behavior with emphasis on the theoretical and empirical contributions of consumer research.  
Prereq: Doct standing in BusAdm, or permission of instructor. Repeatable to a maximum of 8 cr hrs.

**8252 Marketing Models** G 2 - 4

A study of recent model-based research in the marketing literature; emphasis on the strengths and weaknesses of various modeling approaches in specific problem areas and evaluation of model-based research.  
Prereq: Doct standing in BusAdm, or permission of instructor. Not open to students with credit for 951. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is progress graded.

**8253 Recent Advancements in Marketing Research** G 1½ - 4

Provide students with exposure to leading marketing scholars and their most current research and give them an opportunity to critically evaluate it.  
Prereq: Doct standing in BusAdm, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 6 completions.

**8380 Research Seminar in Logistics** G 1½

Research issues in logistics. For each topic, key literature will be reviewed and discussed to understand the current state of research in the area, evaluate the research methodologies employed, and identify gaps in the academic literature.  
Prereq: 7380 and 7381, and enrollment in Fisher College of Business PhD program. Repeatable to a maximum of 9 cr hrs.

**8381 Research Seminar in Supply Chain Management** G 1½

Focuses on research issues in supply chain management.  
Prereq: 7380 (880) and 7383 (885). Repeatable to a maximum of 9 cr hrs.

**8382 Research Seminar in Transportation** G 1½

Research Issues in Transportation. For each topic, key literature will be reviewed and discussed to understand the current state of research in the area, evaluate the research methodologies employed, and identify gaps in the academic literature.  
Prereq: 7380 and 7381, and enrollment in Fisher College of Business PhD program. Repeatable to a maximum of 9 cr hrs.

**8383 Optimization Modeling in Logistics** G 1½

Focus on the application of optimization modeling techniques to logistics problems. The goal is to familiarize students with advanced modeling techniques and learn how they have been applied to solve logistics problems in the academic literature.  
Prereq: 7380 and 7381. Repeatable to a maximum of 9 cr hrs.

**8385 Empirical Methods in Logistics & Supply Chain Management Research** G 1½

Overview of empirical research in Logistics and Supply Chain Management, with a focus on appropriate topics, literature review, and hypothesis development in empirical papers. Additional focus on data analysis through statistical and econometric methods.  
Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 9 cr hrs.

<b>8386</b>	<b>Theory &amp; Qualitative Methods in Logistics &amp; Supply Chain Management Research</b>	<b>G</b>	<b>1½</b>
Introduction to multiple theoretical perspectives used in Logistics and Supply Chain Management research, as well as the qualitative methods utilized to explore theoretical concepts. Prereq: Enrollment in Fisher College of Business PhD program, or permission of instructor. Repeatable to a maximum of 9 or hrs.			
<b>8999</b>	<b>Research in Marketing and Logistics: Dissertation</b>	<b>G</b>	<b>1 - 12</b>
Topics in Marketing and Logistics. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 6 completions. This course is progress graded (S/U).			

## Business Technology

<b>1151T</b>	<b>General Economics</b>	<b>U</b>	<b>3</b>
Study of macro and micro-economic principles applicable to business, agricultural and personal financial decision making. Prereq or concur: GenMath 1040T or Math 1050 or Math Placement Level R or higher. Not open to students with credit for AEDEcon 2001. This course is available for EM credit.			
<b>1201T</b>	<b>Exploring Business</b>	<b>U</b>	<b>½</b>
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			
<b>1202T</b>	<b>Software Applications</b>	<b>U</b>	<b>1</b>
An overview of basic computer skills and study of the features and capabilities of presentations, word processing, spreadsheet and database software as decision management aids. Prereq: Not open to students with credit for 202T. This course is available for EM credit.			
<b>2191T</b>	<b>Business Internship</b>	<b>U</b>	<b>3</b>
Experience of employment in a business to provide varied occupational experience, supervised by an employer, and coordinated by faculty. A grade of C or better required to meet graduation requirements. Prereq: GPA 2.00 or above, and permission of instructor. Not open to students with credit for 290.02T or 290.03T. Repeatable to a maximum of 6 or hrs.			
<b>2193T</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>2194T</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>2207T</b>	<b>Problem Solving with Spreadsheets and Databases</b>	<b>U</b>	<b>2</b>
A problem-solving approach to managing typical business scenarios utilizing spreadsheets and databases. Prereq: 1202T (202T). Not open to students with credit for 204T and 205T. This course is available for EM credit.			
<b>2231T</b>	<b>Fundamentals of Marketing</b>	<b>U</b>	<b>3</b>
A survey of the field of marketing including functions, policies, problems, structure, strategies, and opportunities. Prereq or concur: 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for 231T. This course is available for EM credit.			
<b>2232T</b>	<b>Personal Selling</b>	<b>U</b>	<b>3</b>
A study of the basic principles and concepts of personal selling with emphasis on practical application and personal interaction. Prereq: Not open to students with credit for 232T. This course is available for EM credit.			
<b>2240T</b>	<b>Introduction to Project Management</b>	<b>U</b>	<b>3</b>
An introduction to project management concepts and techniques focusing on how to initiate, plan, manage, control, and close a project. This course is available for EM credit.			
<b>2241T</b>	<b>Small Business Management</b>	<b>U</b>	<b>3</b>
A general study of the field of small business focusing on policies, strategies, organization, operation, and problems associated with the operation of an entrepreneurial enterprise. Recommended prerequisite: AEDEcon 2105. Prereq: 1151T or AEDEcon 2001. This course is available for EM credit.			
<b>2244T</b>	<b>Human Resource Management and Leadership</b>	<b>U</b>	<b>3</b>
A study of human resource, supervisory, and leadership principles and practices that focus on recruitment, training, evaluating, and compensating employees for improved productivity. This course is available for EM credit.			
<b>2247T</b>	<b>Business Law</b>	<b>U</b>	<b>3</b>
A study of legal principles, contracts, negotiable instruments, leases, sales, product liability, and consumer protection. Prereq: Not open to students with credit for 247T. This course is available for EM credit.			

## Business Admin: Marketing & Logistics 79

<b>2248T</b>	<b>Introduction to Cooperatives</b>	<b>U</b>	<b>2</b>
An examination of business organizations including cooperatives and non-cooperatives. Analysis of the role of government in American business, with emphasis on the history, legal basis, organization, and operation of cooperatives. Prereq: Not open to students with credit for 248T. This course is available for EM credit.			
<b>2249T</b>	<b>Fundamentals of Business Finance</b>	<b>U</b>	<b>3</b>
A study of basic finance principles, such as financial institutions, time value of money, financial analysis, risk and return, budgeting, and investments. Prereq: AEDEcon 2105 (BusTec 101T or 102T). Prereq or concur: 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for 249T. This course is available for EM credit.			
<b>2250T</b>	<b>Fundamentals of International Business</b>	<b>U</b>	<b>3</b>
An overview of international business including the environment, strategies, issues, decisions, and challenges that global businesses encounter. Prereq: 1151T or AEDEcon 2001. This course is available for EM credit.			

## Cancer Biology and Genetics

<b>4998</b>	<b>CBG Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Individual minor investigation in the field of virology, immunology, microbial pathogenesis, or cancer genetics. Repeatable to a maximum of 15 or hrs or 5 completions. This course is graded S/U.			
<b>5700</b>	<b>Introduction to Personalized Therapeutics and Pharmacogenomics</b>	<b>U G</b>	<b>3</b>
Exploration of the trend to therapy tailored to the individual patient rather than "one drug fits all;" inter-individual differences in drug responses, with emphasis on genetic and genomic factors; ethical, regulatory and economic issues that impact drug therapies. Cross-listed in BioPhrm and Phr.			
<b>6930</b>	<b>Individual Studies</b>	<b>G</b>	<b>3</b>
Individual minor investigation in the field of virology, immunology, microbial pathogenesis or cancer genetics. Repeatable to a maximum of 15 or hrs. This course is graded S/U.			
<b>7741</b>	<b>Molecular Virology and Pathogenesis of Viruses</b>	<b>G</b>	<b>5</b>
An integrated study of the molecular mechanisms of virus replication and host-virus relationships that control virus pathogenesis or use as a therapeutic agent. Prereq: Grad standing, or permission of instructor. Cross-listed in MolGen and VetBios.			
<b>7931</b>	<b>Student Seminar in Cancer Biology and Genetics</b>	<b>G</b>	<b>1</b>
Student and post-doctoral presentations of research. Repeatable to a maximum of 6 or hrs. This course is graded S/U.			
<b>8270</b>	<b>Biochemical Mechanisms of Carcinogenesis</b>	<b>G</b>	<b>2</b>
Provide students with an overview of fundamental mechanisms leading to cancer. This will be done through review of current and classic literature. Prereq: Course work in one year of Grad level Biochem, or permission of instructor. Cross-listed in MCDBio 8270.			
<b>8999</b>	<b>Research in Cancer Biology and Genetics</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Grad standing in CBG. Repeatable to a maximum of 18 or hrs or 18 completions. This course is graded S/U.			

## Catalan

<b>5501</b>	<b>Catalan for Spanish Speakers I</b>	<b>U G</b>	<b>3</b>
Rapid introduction to Catalan language. Intended for students with at least High Intermediate-level Spanish skills. Prereq or concur: Spanish 3401, 3403, or 3404, or equiv; or permission of instructor.			

## Center for Languages, Literatures and Cultures

<b>3301.01S</b>	<b>Intercultural Competence for Global Citizenship</b>	<b>U</b>	<b>2</b>
This course is preparation for teaching in the one-week summer camp for middle school students. Students will learn the theories, skills and techniques involved in teaching their area of expertise as it relates to intercultural competence and will prepare the teaching materials that they will use in the summer camp. Students are also required to enroll in 3301.02S. Prereq: A grade of B or above in a 2000-level world language course. Not open to students with credit for 2302S or 3302S. This course is progress graded. GE service learning course.			
<b>3301.02S</b>	<b>Intercultural Competence for Global Citizenship Summer Camp</b>	<b>U</b>	<b>1</b>
Students will participate as assistants and instructors in a one-week summer camp for middle school students. Students will assist with the running of the camp, teach their area of expertise as it relates to intercultural competence and organize and teach an international game. Prereq: 3301.01S. Not open to students with credit for 2302S or 3302S. GE service learning course.			

## 80 Center for Languages, Literatures and Cultures

### 3302S Intercultural Competence for Global Citizenship After School Program U 3

Students will learn theories, skills and techniques involved in teaching their area of expertise as it relates to intercultural competence and will prepare the teaching materials that they will use at a local elementary and/or middle school.

Prereq: A grade of B or above in a 2000-level world language course. Not open to students with credit for 2301.02S or 3301.02S. GE service learning course.

### 5100 Introduction to Community Interpreting U G 3

CLLC 5100 is an advanced course designed to introduce students to the foundational aspects of community interpreting. Students will explore the profession of community interpreting with special emphasis on its core ethical principles, protocols and skills, strategies for strategic mediation within the interpreted encounter, the professional identity and role of the community interpreter.

Prereq: 15 cr hrs in the same language.

### 5101 Introduction to Professional Translation U G 3

This course introduces students to the field, ethics, and methodologies of professional translation, as well as provides basic professionalization for a career in the field. Students will learn about the principles of translation, how to research for a translation, and develop the skills and tools to become professional translators.

Prereq: 15 cr hrs in the same language.

### 5102 Introduction to Literary Translation U G 3

This course will give students who want to practice literary translation in one or more of their language pairs an opportunity to develop their own translation projects through a variety of approaches.

Prereq: 15 cr hrs in the same language.

### 5103 Translation and Interpretation Practicum U G 3

The purpose of this course is to offer students an opportunity to consolidate translation/interpretation skills in their working languages in real life settings that are meaningful to them and relevant to their career aspirations. The precise configuration of the practicum experience will vary from student to student and should be agreed upon between the student and the course instructor.

Prereq: 5100, 5101, or 5102. This course is graded S/U.

## Center for the Study and Teaching of Writing

### 3467S Issues and Methods in Tutoring Writing U 3

Theories and practices in tutoring and writing; explores the writing-learning connections; prepares students to work as writing consultants/tutors for small writing groups.

Prereq: English 1110.01 (110.01), or equiv. Not open to students with credit for HumCol 467 or English 3467S (467). Cross-listed in English.

## Chemical and Biomolecular Engineering

### 2194 Group Studies in Chemical and Biomolecular Engineering U 1 - 6

Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

### 2200 Process Fundamentals U 4

Application of physicochemical principles to problems of the chemical industry; stoichiometry and material balance.

Prereq: Chem 1220 (123), and Engr 1182 (Engineer 183.01). Prereq or concur: Math 2177 (254), and CPHR 2.0 or above, and permission of department. Not open to students with credit for 200 or 201.

### 2420 Transport Phenomena I U 4

Introduction to momentum, mass, and heat transfer with emphasis on the analogies between them; practical applications of momentum transfer (fluid flow).

Prereq: 2200 (201), and Math 2177 or 415.01, and enrollment in CBE, FABEng, or EngPhysics major; or Grad standing; or permission of instructor. Not open to students with credit for 420 or 521.

### 2523 Separation Processes U 3

The application of mass and energy balances and transport phenomena such as fluid, heat, and mass transfer to chemical engineering separation operations of distillation, absorption, evaporation, extraction, drying, etc.

Prereq: 2200 (201), and enrollment in CBE major. Prereq or concur: 2420 (420), or permission of instructor or Grad standing. Not open to students with credit for 523.

### 3508 Thermodynamics U 4

Application of the fundamental concepts and laws of thermodynamics to problems of the chemical industry; stress on computational problem work.

Prereq or concur: 2420 (420), and enrollment in CBE, FABEng, or EngPhysics major; or permission of instructor. Not open to students with credit for 509.

### 3521 Transport Phenomena II U 4

Emphasis on conduction, convective and radiation heat transfer, mass transfer and stagewise operations with applied computational problems.

Prereq: 2420 (420), and enrollment in CBE, FABEng, or EngPhysics major; or permission of instructor or Grad standing. Not open to students with credit for 522.

### 3610 Kinetics and Reactor Design U 4

Chemical and engineering principles for the design and operation of chemical reactors; kinetics of simple homogeneous systems and introduction to heterogeneous catalysis.

Prereq or concur: 3508 (509) or FABE 3120; and enrollment in CBE, or FABEng, or EngPhysics major; or permission of instructor; or Grad standing. Not open to students with credit for 610.

### 3631 Chemical and Biomolecular Engineering Unit Operations Laboratory I U 2

Laboratory investigation of the operating characteristics and efficiency of chemical engineering equipment such as distillation, absorption, heat exchangers, and three phase mixing dynamics with mass transfer.

Prereq or concur: 2523 (523) and 3610 (610), and enrollment in CBE major. Not open to students with credit for 630 or 4630.

### 3632 Chemical and Biomolecular Engineering Unit Operations Laboratory II U 2

Laboratory investigation of the operating characteristics and efficiency of chemical engineering equipment such as distillation, absorption, heat exchangers, and three phase mixing dynamics with mass transfer.

Prereq or concur: 2523 (523) and 3610 (610); and enrollment in CBE major. Not open to students with credit for 630 or 4630.

### 4193 Individual Studies in Chemical and Biomolecular Engineering U 1 - 12

Provides the opportunity to pursue special studies or research in biomedical engineering not otherwise covered.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions. This course is graded S/U.

### 4194 Group Studies in Chemical and Biomolecular Engineering U 1 - 6

Provides groups of students opportunities to pursue special studies not otherwise offered.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

### 4624 Chemical Process Dynamics and Control U 3

Study of the dynamics and control of chemical processes; mathematical models of simple processes, including feedback control, are derived, analyzed, and simulated.

Prereq: 2523 (523) or 3610 (610), and enrollment in CBE major; or Grad standing, or permission of instructor. Not open to students with credit for 624.

### 4760 Chemical and Biomolecular Engineering Process and Product Design Principles I U 4

Process and product design concepts encompassing a broad spectrum of fundamental engineering principles including safety, industrial practices and heuristics, flowsheet synthesis, heat integration, process/product development concepts, economic evaluations, and optimization concepts.

Prereq: 3521, 3610 (610), and enrollment in CBE or EngPhysics major; or Grad standing; or permission of instructor. Not open to students with credit for 760.

### 4764 Chemical and Biomolecular Engineering Process Design and Development U 4

Process design studies on selected chemical processes encompassing a broad spectrum of fundamental engineering principles; optimization studies utilizing economic and technical simulation.

Prereq or concur: 4760 (760), and enrollment in CBE major. Not open to students with credit for 762.

### 4998 Undergraduate Research in Chemical and Biomolecular Engineering U 1 - 6

Supervised research in Chemical and Biomolecular Engineering.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

### 4998H Honors Undergraduate Research in Chemical and Biomolecular Engineering U 1 - 6

Supervised Honors level research in Chemical and Biomolecular Engineering.

Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

### 4999 Chemical and Biomolecular Engineering Research for Thesis U 1 - 5

Supervised research and project work arranged individually for students resulting in written thesis.

Prereq: GPA 3.0 or above, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

### 4999H Chemical and Biomolecular Engineering Research for Honors Thesis U 1 - 5

Supervised research and project work arranged individually for honors students resulting in written Honors thesis.

Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

### 5194 Group Studies in Chemical and Biomolecular Engineering U G 1 - 6

Provides groups of students opportunities to pursue special studies not otherwise offered.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

## Chemical and Biomolecular Engineering 81

<b>5200</b>	<b>Introduction to Petroleum Engineering</b>	<b>U G</b>	<b>3</b>
Introduction to petroleum engineering, including fundamental petroleum engineering concepts, quantities and unit systems, petroleum geology, exploration, drilling, reservoir engineering, fluids and rock properties, production, well testing, enhanced/improved oil recovery. Prereq: Jr standing or above in Engineering, Earth Sciences, or Business. Concur: EarthSc 5661.			
<b>5210</b>	<b>Petroleum Reservoir Engineering</b>	<b>U G</b>	<b>3</b>
Determination of reserves; material balance methods; aquifer models; fractional flow and frontal advance; displacement, pattern, and vertical sweep efficiencies in waterfloods; enhanced oil recovery processes; design of optimal recovery processes. Systematic theoretical and laboratory study of physical properties of petroleum reservoir rocks. Prereq: 5200. Concur: EarthSc 5661.			
<b>5230</b>	<b>Petroleum Drilling and Production Engineering</b>	<b>U G</b>	<b>3</b>
The design and evaluation of well drilling systems; identification and solution of drilling problems; wellbore hydraulics, well control, casing design; well cementing directional drilling, offshore drilling. Introduction to production operations and oil field equipment including onshore and offshore production systems. Prereq: 5200 and EarthSc 5661; or Grad standing; or permission of instructor.			
<b>5260</b>	<b>Petroleum Project Evaluation</b>	<b>U G</b>	<b>3</b>
Economic analysis and investment decision methods in the petroleum industry; reserves estimation, depletion, petroleum taxation and market regulations, and projects of the type found in the industry; project evaluation case studies. Prereq: 5200 and EarthSc 5661.			
<b>5550</b>	<b>Engineering Principles in Cancer</b>	<b>U G</b>	<b>3</b>
The purpose of this course is to introduce engineering principles in the context of cancer progression and therapy. Prereq: MechEng 3500, 3503, or CBE 2420; or permission of instructor. Not open to students with credit for BioMedE 5550 or MechEng 5550. Cross-listed in BioMedE and MechEng.			
<b>5710</b>	<b>Computational Catalysis</b>	<b>U G</b>	<b>3</b>
Methods used to model catalyst reactivity at the atomic-scale; application of quantum methods, primarily density functional theory (DFT); kinetic Monte Carlo and microkinetic modeling; using DFT to simulate surface science and catalysis spectroscopy methods. Prereq: 3610 and Chem 4300; or Grad standing; or permission of instructor.			
<b>5712</b>	<b>Catalysis and Catalytic Processes</b>	<b>U G</b>	<b>3</b>
Kinetics of catalytic processes, mass transfer in catalysis, catalyst preparation and characterization, deactivation of catalysts, catalytic reactors, and application of catalytic phenomena in industrial processes. Prereq: 3521 (522) and 3610 (610), or Grad standing. Not open to students with credit for 712.			
<b>5713</b>	<b>Fuel Cells and Catalysis</b>	<b>U G</b>	<b>3</b>
An introduction to fuel cells and related concepts with an emphasis on the catalytic phenomena involved in fuel cells. Prereq: ChBE 3508, 3610 (610), 509, Chem 4310, or 531, or Grad standing, or permission of instructor. Not open to students with credit for 713.			
<b>5715</b>	<b>Particle Technology</b>	<b>U G</b>	<b>3</b>
Engineering processes involving particulates and powders. Multiphase transport phenomena and fluidization are emphasized. Prereq: 2523 (523), and Math 2177 or Math 415.01; or Grad standing; or permission of instructor. Not open to students with credit for 715.			
<b>5734</b>	<b>Molecular Informatics</b>	<b>U G</b>	<b>3</b>
Overview of molecular informatics, with emphasis on its use in modern drug discovery and exploration of chemical structure-property relationships. Prereq: Sr or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 734.			
<b>5735</b>	<b>Cellular Nanotechnology</b>	<b>U G</b>	<b>3</b>
Application of nanotechnology to cells for sensing and subcellular manipulation. Synthesis and biological modification of quantum dots and magnetic nanostructures, their unique material properties, and their application. Prereq: Sr or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 735 or BiomedE 765. Cross-listed in BiomedE 5635.			
<b>5761</b>	<b>Chemical and Biomolecular Engineering Processes</b>	<b>U G</b>	<b>3</b>
Integration of fundamentals of chemistry, chemical engineering operations, thermodynamics, reaction kinetics and economics for optimum design and operation of chemical process plants. Prereq: Sr or Grad standing in CBE or Chem. Not open to students with credit for 761.			
<b>5765</b>	<b>Principles of Biochemical Engineering</b>	<b>U G</b>	<b>3</b>
The application of biochemical engineering principles for modern bioprocesses and in the area of industrial biotechnology. Prereq: 2523 (523) or 3610 (610), or Grad standing, or permission of instructor. Not open to students with credit for 765.			
<b>5766</b>	<b>Biotechnology and Bioprocess Engineering</b>	<b>U G</b>	<b>3</b>
Fundamentals of biotechnology and their applications to bioprocessing with emphasis on fermentation and bioseparation. Completion of Bio 1113 or 2100 is recommended. Prereq: Jr standing in CBE, or permission of instructor. Not open to students with credit for 766.			

<b>5771</b>	<b>Air Pollution</b>	<b>U G</b>	<b>3</b>
Introduction to principal aspects of air pollution, including engineering control of stationary sources, atmospheric chemistry, aerosol behavior, transport and dispersion modeling. Prereq: Sr or Grad standing, or permission of instructor. Not open to students with credit for 771.			
<b>5772</b>	<b>Principles of Sustainable Engineering</b>	<b>U G</b>	<b>3</b>
Introduces the principles, techniques, and challenges of environmentally conscious decision making in chemical engineering. A study of systematic methods for the analysis and development of sustainable industrial products and processes. Prereq: 3508 or equivalent, Grad standing, or permission of instructor. Not open to students with credit for 772.			
<b>5773</b>	<b>Introduction to High Polymer Engineering</b>	<b>U G</b>	<b>3</b>
Introduction to polymeric materials, polymerization methods and kinetics, polymer solution properties, molecular weight determination and polymer physical/mechanical properties. Prereq: 3610 (610) or Chem 2510 (251), or permission of instructor. Not open to students with credit for 773.			
<b>5774</b>	<b>Polymer Membranes</b>	<b>U G</b>	<b>3</b>
Membrane separation mechanisms, transport models, permeability computations/measurements, membrane materials/types/modules, membrane contactors/reactors, and applications. Prereq: 3508 (509), or Grad standing; or permission of instructor. Not open to students with credit for 774 or MatScEn 774. Cross-listed in MatScEn 5774.			
<b>5775</b>	<b>Rheology of Fluids</b>	<b>U G</b>	<b>3</b>
Principles of rheology, including the characterization of non-Newtonian materials, rheological equations of state, viscometric flows, measurements, and applications to the flow of industrial materials. Prereq: 2420 (420), or permission of instructor. Not open to students with credit for 775.			
<b>5777</b>	<b>Introduction to Polymer Engineering at Macro-, Micro-, and Nanoscale</b>	<b>U G</b>	<b>3</b>
An introduction to nanomaterials and nanotechnology. Important polymeric micro/nanomaterials and structures, and their manufacturing techniques. Prereq: 3521 (521), MechEng 3500 (500), 4510 (510), MatScEn 2251 (401), or 3151 (526), or permission of instructor. Not open to students with credit for 777.			
<b>5779</b>	<b>Design and Analysis of Experiments</b>	<b>U G</b>	<b>3</b>
Design and analysis of experiments with emphasis on applications in engineering. Prereq: Jr or Sr standing in CBE. Not open to students with credit for 779.			
<b>5790</b>	<b>Modeling and Simulation</b>	<b>U G</b>	<b>3</b>
Application of chemical and biomolecular engineering principles to construct mathematical models of processes and perform simulations. Prereq: Jr, Sr, or Grad standing in CBE. Not open to students with credit for 790.			
<b>6999</b>	<b>Thesis Research in Chemical and Biomolecular Engineering</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis. Prereq: Grad standing. Repeatable. This course is graded S/U.			
<b>8194</b>	<b>Group Studies in Chemical and Biomolecular Engineering</b>	<b>G</b>	<b>1 - 6</b>
Designed to give the student an opportunity to pursue special studies and topics not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 18 completions.			
<b>8781</b>	<b>Research Communications in Chemical and Biomolecular Engineering</b>	<b>G</b>	<b>2</b>
Analysis and critique of chemical and biomolecular engineering research literature. Training and practice in written and oral communication of research ideas. Prereq: Grad standing. Not open to students with credit for 881.			
<b>8799</b>	<b>Teaching Practicum in Chemical and Biomolecular Engineering</b>	<b>G</b>	<b>1 - 6</b>
Teaching and instructional development under faculty guidance in the chemical and biomolecular engineering curriculum. Prereq: Grad standing. International students for whom English is not the first language must first become certified in English, either through the SPEAK or Mock Teaching Test. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.			
<b>8801</b>	<b>Analysis of Chemical and Biomolecular Engineering Problems</b>	<b>G</b>	<b>3</b>
Modern techniques for the theoretical analysis of chemical and biomolecular engineering problems. Prereq: Grad standing. Not open to students with credit for 801.			
<b>8808</b>	<b>Advanced Thermodynamics I</b>	<b>G</b>	<b>3</b>
Detailed discussion of the thermodynamic properties of pure compounds and mixtures; computational problem work emphasizes the application of thermodynamics in industrial problems. Prereq: 3508 (508), and Grad standing; or permission of instructor. Not open to students with credit for 808.			

## 82 Chemical and Biomolecular Engineering

**8809 Advanced Thermodynamics II** G 3

Continuation of CBE 8808 and special topics of thermodynamics that are of interest to chemical and biomolecular engineering.  
Prereq: 8808 (808), and Grad standing; or permission of instructor. Not open to students with credit for 809. Repeatable to a maximum of 6 cr hrs.

**8812 Advanced Kinetics I** G 3

Chemical engineering kinetics from the viewpoint of industrial chemical processes.  
Prereq: 2523 (523) and 3610 (610), and Grad standing; or permission of instructor. Not open to students with credit for 815.01 or 815.08.

**8815 Advanced Transport** G 3

Momentum and mass transfer theory at both the macroscopic and microscopic levels utilizing integral and differential conservation equations.  
Prereq: Grad standing in ChemEng, or permission of instructor. Not open to students with credit for 815.01 or 815.08.

**8895 Seminar in Chemical and Biomolecular Engineering** G 1

Formal lectures and discussion of state of the art research and development in chemical and biomolecular engineering.  
Prereq: Grad standing. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

**8999 Dissertation Research in Chemical and Biomolecular Engineering** G 1 - 15

Research for dissertation purposes only.  
Prereq: Grad standing. Repeatable. This course is graded S/U.

### Chemical Physics

**7998 Graduate Research** G 1 - 10

Laboratory and/or theoretical research on an individual basis on topics of current interest.  
Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 6 completions. This course is progress graded (S/U).

**7999 Masters Degree Research in Chemical Physics** G 1 - 12

Research for Masters thesis purposes only.  
Prereq: Permission of instructor. Repeatable. This course is progress graded (S/U).

**8880.01 Frontiers in Spectroscopy** G 1 - 3

An overview of both fundamental and applied topics on the frontier of spectroscopy.  
Prereq: Physics 7501, Chem 6510, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 6 completions. This course is graded S/U.

**8880.02 Frontiers in Spectroscopy** G 1 - 3

An overview of both fundamental and applied topics on the frontier of spectroscopy.  
Prereq: Physics 7501, Chem 6510, or permission of instructor.

**8999 Research in Chemical Physics** G 1 - 12

Research for doctoral dissertation purposes only.  
Prereq: Permission of instructor. Repeatable. This course is progress graded (S/U).

### Chemistry

**1100 Chemistry and Society** U 3

Terminology, methods, and principles of chemistry; examination of the roles of chemistry in our modern technological society.  
Prereq: Math 1050 (075 or 076) or an ACT math subscore of 22 or higher that is less than two years old, or satisfactory score on Ohio State Math Placement Test. Not open to students with credit for 1110 (101), 1210 (121), 1910H (201H), or 100, or any Chem course that uses these courses as prerequisites. GE nat sci phys course (BA in ASC only).

**1110 Elementary Chemistry** U 5

Introductory chemistry for non-science majors, including dimensional analysis, atomic structure, bonding, chemical reactions, states of matter, solutions, chemical equilibrium, acids and bases, along with topics in organic and biological chemistry.  
Prereq: Math 1073, 1074, 1075 or above; Math Placement Level L, M, N, or R; or ACT Math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for 1210, 1250, 1610, or 1910H. This course is available for EM credit. GE nat sci phys course.

**1205 Foundations of General Chemistry** U 2

Chemistry 1205 is a preparatory course for under-prepared students previously enrolled in Chemistry 1210/1610. Chemistry 1205 will prepare students to continue on and complete Chemistry 1210/1610 in a subsequent semester. The textbook for Chem 1205 will be the same textbook used in Chem 1210/1610.  
Prereq: Failed or withdrew from Chem 1210 or 1610, or Math 1075 or Math placement N.

**1210 General Chemistry I** U 5

First course for science majors, covering dimensional analysis, atomic structure, the mole, stoichiometry, chemical reactions, thermochemistry, electron configuration, bonding, molecular structure, gases, liquids, and solids.  
Prereq: One unit of high school chemistry, and Math Placement Level L or M; or a grade of C- or above in Math 1120, 1130, 1131, 1148, 1150, or above. Not open to students with credit for 1220, 1620, 1920H, 1250, 1610, or 1910H. This course is available for EM credit. GE nat sci phys course.

**1220 General Chemistry II** U 5

Continuation of 1210 for science majors, covering solutions, kinetics, chemical equilibrium, solubility and ionic equilibria, qualitative analysis, thermodynamics, electrochemistry, descriptive chemistry, coordination compounds, and nuclear chemistry.  
Prereq: 1210, 1215, 1250, 1610 (162), 1910H (202H), or 122, and Math Placement Level L or M; or a grade of C- or above in Math 1130 (130), 1131 (131), 1148 (148), or 1150 (150), or above. Not open to students with credit for 1620 (163), 1920H (203H), 123, 2310, 2510 (251), 2610, or 2910H (251H). This course is available for EM credit. GE nat sci phys course.

**1250 General Chemistry for Engineers** U 4

First course for engineering majors, covering dimensional analysis, atomic and molecular structure, the mole, stoichiometry, chemical reactions, states of matter, solutions, kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.  
Prereq: One unit of high school chemistry, and Math Placement Level L or M; or a grade of C- or above in Math 1130 (130), 1131 (131), 1148 (148), or 1150 (150), or above. Not open to students with credit for 1210, 1610, 1910H, 125, 2310, 2510 (251), 2610, or 2910H (251H). This course is available for EM credit. GE nat sci phys course.

**1610 General Chemistry for Majors I** U 5

First course for chemistry and biochemistry majors, covering dimensional analysis, atomic structure, the mole, stoichiometry, chemical reactions, thermochemistry, electron configuration, bonding, molecular structure, gases, liquids, and solids.  
Prereq: One unit of high school chemistry, and Math Placement Level L or M; or a grade of C- or above in Math 1120, 1130, 1131, 1148, or 1150, or above, and enrolled in Chemistry or Biochemistry major; or permission of department. Not open to students with credit for 1210, 1220, 1250, 1620, 1910H, or 1920H. GE nat sci phys course.

**1612 Peer-led Team Learning for Chemistry 1610 Students** U 1

Provides a structure with which students can work actively in groups of 6 to 8 peers on challenging chemistry problems. This course will integrate with topics covered in Chemistry 1610. The activities will be challenging and relevant to course material and groups will work to discuss, collaborate, and answer questions in the activity.  
Concur: 1610. Not open to students with credit for 1220 (123), 1620 (162), 1920H (202H), or 1250 (125). This course is graded S/U.

**1620 General Chemistry for Majors II** U 5

Continuation of 1610 for science majors, covering solutions, kinetics, chemical equilibrium, solubility and ionic equilibria, qualitative analysis, thermodynamics, electrochemistry, descriptive chemistry, coordination compounds, and nuclear chemistry.  
Prereq: 1210, 1215, 1250, 1610, 1910H, 122, 125, 162, or 202H, and Math Placement Level L or M; or a grade of C- or above in Math 1130 (130), 1131 (131), 1148 (148), or 1150 (150), or above, and enrollment in Chemistry or Biochemistry major; or permission of department. Not open to students with credit for 1220, 1920H, 2310, 2510 (251), 2610, 2910H (251H), 123, 163, or 203H. GE nat sci phys course.

**1622 Peer-led Team Learning for Chemistry 1620 students** U 1

Provides a structure with which students can work actively in groups of 6 to 8 peers on challenging chemistry problems. This course will integrate with topics covered in Chemistry 1620. The activities will be challenging and relevant to course material and groups will work to discuss, collaborate, and answer questions in the activity.  
Concur: 1620. Not open to students with credit for 2510, 2610, or 2910H. This course is graded S/U.

**1910H Honors General Chemistry I** U 5

Fundamental chemical principles and the chemistry of nonmetals for selected students.  
Prereq: ACT composite score of 30 or above, and ACT mathematics score of 30 or above, and ACT science reasoning score of 28 or above. Prereq or concur: Math 1141 or 1151 or above, or permission of instructor. Not open to students with credit for 1210 or 1610. GE nat sci phys course.

**1920H Honors General Chemistry II** U 5

Continuation of Chem 1910H for selected students covering fundamental principles and the chemistry of metals.  
Prereq: 1910H (202H). Not open to students with credit for 203H, 1220 or 1620. GE nat sci phys course. NS Admis Cond course.

**2193 Individual Studies** U 1 - 5

A qualified student may conduct a minor investigation in chemistry.  
Prereq: Satisfactory courses in field of the problem and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**2194 Group Studies** U 1 - 6

Designed for students to pursue special studies in chemistry.  
Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.

**2210 Analytical Chemistry I: Quantitative Analysis** U 5

Quantitative chemical analysis for chemistry majors; quantitative analysis of the elemental and molecular composition of complex systems.  
Prereq: 1220 (123), 1620 (163), or 1920H (203H), and Math Placement Level L, or a grade of C- or above in Math 1148 and 1149, or 1130 (130), 1131 (131), or 1150 (150), or above. Not open to students with credit for 2210H (221H). GE data only course.

<b>2210H</b>	<b>Honors Analytical Chemistry I: Quantitative Analysis</b>	<b>U</b>	<b>5</b>
Honors version of quantitative chemical analysis for chemistry majors; quantitative analysis of the elemental and molecular composition of complex systems. Prereq: Honors standing, or permission of department or instructor; and 1220 (123), 1620 (163), or 1920H (203H), and Math Placement Level L, or a grade of C- or above in Math 1148 and 1149, or 1130 (130), 1131(131), or 1150 (150), or above. Not open to students with credit for 2210 (221). GE data only course.			
<b>2310</b>	<b>Introductory Organic Chemistry</b>	<b>U</b>	<b>4</b>
A condensed presentation of organic chemistry organized by functional groups with an emphasis on practical applications. Prereq: 1110, 1220 (122), 1250 (125), 1620, or 1920H. Not open to students with credit for 2310 (251), 2610, or 2910H.			
<b>2510</b>	<b>Organic Chemistry I</b>	<b>U</b>	<b>4</b>
Introduction to structure, nomenclature, physical properties, preparation and reactions of alkanes, alkenes, alkynes, alcohols, ethers, epoxides, aldehydes and ketones. Other topics include stereochemistry, acids, bases, and reaction mechanisms. Prereq: 1220 (123), 1620 or 1920H (203H). Not open to students with credit for 252.			
<b>2520</b>	<b>Organic Chemistry II</b>	<b>U</b>	<b>4</b>
Continuation from 2510, including aromatic systems, carboxylic acids, carboxylic acid derivatives, amines, carbon-carbon bond-forming reactions, polymers, carbohydrates and amino acids. Prereq: 2510, 2610 (252) or 2910H (252H). Not open to students with credit for 2620 (253) or 2920H.			
<b>2540</b>	<b>Organic Chemistry Laboratory I</b>	<b>U</b>	<b>2</b>
Introduction to spectroscopic characterization, scientific writing, computational chemistry, and the laboratory techniques of organic chemistry, including synthesis, isolation, purification, and identification of organic compounds. Prereq or concur: 2510, 2610 or 2910H.			
<b>2550</b>	<b>Organic Chemistry Laboratory II</b>	<b>U</b>	<b>2</b>
Introduction to spectroscopic characterization, scientific writing, computational chemistry, and the laboratory techniques of organic chemistry, including synthesis, isolation, purification, and identification of organic compounds. Prereq: 2540 or 2540H. Prereq or concur: 2520, 2620 or 2920H.			
<b>2610</b>	<b>Organic Chemistry for Majors I</b>	<b>U</b>	<b>4</b>
Introduction to structure, nomenclature, physical properties, preparation and reactions of alkanes, alkenes, alkynes, alcohols, ethers, epoxides, aldehydes and ketones. Other topics include stereochemistry, acids, bases, and reaction mechanisms. Prereq: 1220 (123), 1620 (163), or 1920H (203H); and Chemistry or Biochemistry major, or permission of Department. Not open to students with credit for 252.			
<b>2620</b>	<b>Organic Chemistry for Majors II</b>	<b>U</b>	<b>4</b>
Continuation from 2610, including aromatic systems, carboxylic acids, carboxylic acid derivatives, amines, carbon-carbon bond-forming reactions, polymers, carbohydrates and amino acids. Prereq: 2510 (252), 2610, or 2910H; and Chemistry or Biochemistry major, or permission of Department. Not open to students with credit for 2520 (253), or 2920H.			
<b>2910H</b>	<b>Honors Organic Chemistry I</b>	<b>U</b>	<b>4</b>
Honors introduction to structure, nomenclature, physical properties, preparation and reactions of alkanes, alkenes, alkynes, alcohols, ethers, epoxides, aldehydes and ketones, including stereochemistry, acids, bases, and reaction mechanisms. Prereq: 1220 (123), 1620 (163), or 1920H (203H); Honors program or permission of department or instructor. Not open to students with credit for 2510, 2610, or 252H.			
<b>2920H</b>	<b>Honors Organic Chemistry II</b>	<b>U</b>	<b>4</b>
Continuation from 2910H, including aromatic systems, carboxylic acids, carboxylic acid derivatives, amines, carbon-carbon bond-forming reactions, polymers, carbohydrates and amino acids. Prereq: Honors standing, and 2910H (252H) or 252; or permission of department or instructor. Not open to students with credit for 2520, 2620, or 253H.			
<b>2990</b>	<b>Intro to Chemical Research</b>	<b>U</b>	<b>1</b>
A seminar course targeting chemistry majors focusing on the development of professional skills, conducting literature searches, writing research papers, and exploring careers and research options. Prereq: 1220, 1620, or 1920H, and English 1110.			
<b>3510</b>	<b>Inorganic Chemistry</b>	<b>U</b>	<b>3</b>
Introduction to the principles of inorganic structure and bonding, including molecular symmetry, atomic structure, ionic bonding, coordination complexes, magnetic properties, thermodynamics and reactivity, bioinorganic chemistry, and nanoparticles. Prereq: 2520 (253), 2620 (253), or 2920H (253H), or permission of instructor. Not open to students with credit for 652.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 5</b>
A qualified student may conduct a minor investigation in chemistry. Prereq: Satisfactory courses in field of the problem and permission of instructor. Repeatable to a maximum of 15 cr hours or 5 completions. This course is graded S/U.			

<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 6</b>
Designed for students to pursue advanced special studies in chemistry. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>4300</b>	<b>Physical Chemistry I</b>	<b>U</b>	<b>3</b>
Quantum chemistry and chemical kinetics. Prereq: 2210 (221), 2510 (251), 2610, 2910H, or equiv, and Math 2153 (254), and Physics 1201 (113) or 1251 (133). Prereq or concur: Math 2255 (255). Not open to students with credit for 531.			
<b>4310</b>	<b>Physical Chemistry II</b>	<b>U</b>	<b>3</b>
Statistical mechanics, thermodynamics, and thermodynamic equilibrium. Prereq: 4300. Not open to students with credit for 532.			
<b>4410</b>	<b>Physical Chemistry Laboratory</b>	<b>U</b>	<b>3</b>
Quantitative measurements of chemical phenomena and the application of chemical principles to their interpretation. It is recommended that students complete 1 physical chemistry course before taking this course. Prereq or concur: 4200 (520) or 4300 (530). Not open to students with credit for 541.			
<b>4550</b>	<b>Inorganic Chemistry Laboratory</b>	<b>U</b>	<b>2</b>
Preparation and characterization of inorganic compounds employing a variety of synthetic techniques. Prereq: 3510 (651), or an undergraduate degree with Chem major, or permission of instructor. Not open to students with credit for 755.			
<b>4870</b>	<b>Analytical Chemistry II: Instrumental Analysis</b>	<b>U</b>	<b>3</b>
Applications of physico-chemical principles to problems in qualitative and quantitative chemical analysis. Prereq or concur: 4200 or 4300; or 520 or 530, and 541.			
<b>4880</b>	<b>Instrumental Analysis Laboratory</b>	<b>U</b>	<b>2</b>
Laboratory applications of physico-chemical principles to instrumental analysis. Prereq or concur: 4870 (587), or permission of instructor. Not open to students with credit for 588.			
<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Undergraduate research or creative activities in various topics. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 15 completions.			
<b>4998H</b>	<b>Honors Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Honors undergraduate research or creative activities in various topics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 15 completions.			
<b>4999</b>	<b>Undergraduate Thesis Research</b>	<b>U</b>	<b>1 - 10</b>
Undergraduate research or creative activities in various topics, culminating in a research thesis and oral defense. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>4999H</b>	<b>Honors Undergraduate Thesis Research</b>	<b>U</b>	<b>1 - 10</b>
Honors undergraduate research or creative activities in various topics, culminating in a research thesis and oral defense. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 10</b>
Individual Studies. Prereq: Permission of instructor. Repeatable.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 10</b>
Group Studies. Prereq: Permission of instructor. Repeatable.			
<b>5230</b>	<b>Neurotransmitter Chemistry</b>	<b>U G</b>	<b>3</b>
Come and explore the natural and unnatural organic molecules involved in neurotransmission. Through the study of synthetic strategies, mechanistic principles, and the structural requirements for biological activity, students will investigate the chemical world of endogenous molecules, pharmaceuticals, and drugs of abuse. Recommended prereqs: Chem 2550, and Biochem 4511 or 5613. Prereq: 2520, 2620, or 2920H, and 2540; or Grad standing; or permission of instructor.			
<b>5240</b>	<b>Introduction to Protein Modeling</b>	<b>U G</b>	<b>3</b>
This course provides a practical introduction to the theory and methods of molecular modeling and computational chemistry as it pertains to modeling large biological molecules such as proteins. Hands-on experience will be obtained by all attendees in doing molecular mechanics and modeling dynamic systems (molecular dynamics). Recommended prereq: Biochem 4511. Prereq: A grade of C or above in 2520, 2620, or 2920H; or Grad standing; or permission of instructor.			
<b>5420</b>	<b>Spectroscopy of Organic Compounds</b>	<b>U G</b>	<b>1½</b>
Exploration of the use of spectroscopic techniques for the determination of the structure of organic molecules, including UV/vis, IR, NMR, and MS. Prereq: 2520 (253), 2620 (253), or 2920H (253H), or equiv. Not open to students with credit for 632.			

## 84 Chemistry

<b>5430</b>	<b>Carbohydrate Chemistry</b>	<b>U G</b>	<b>3</b>
Introduction to synthesis, conformation, and biological importance of carbohydrates and oligosaccharides, including nomenclature, protecting groups, glycoside synthesis, biosynthesis and biology, and NMR methods. Prereq: 2520 (253), 2620, or 2920H (253H), or equiv.			
<b>5440</b>	<b>Introduction to Computational Chemistry</b>	<b>U G</b>	<b>3</b>
Introduction to fundamental concepts in computational chemistry, including molecular modeling, molecular dynamics, and semi-empirical and ab initio calculations. Prereq: 2520 (253), 2620 (253), or 2920H (253H), or equiv. Not open to students with credit for 644.			
<b>5450</b>	<b>Practical NMR Spectroscopy</b>	<b>U G</b>	<b>1</b>
This course focuses on the application of NMR Spectroscopy to the structure determination and dynamics of primarily synthetic organic and organometallic products. The practical aspects of acquiring optimized, high-quality data are still beneficial for analysis of these spectra and will be presented as lectures and demonstrations. Prereq: 5420, or permission of instructor.			
<b>5520</b>	<b>Nanochemistry</b>	<b>U G</b>	<b>3</b>
Introduction to fundamental concepts of nanoscience, exploring strategies for complex assemblies of molecules and developing computational techniques for the investigation of nanotech structures. Prereq: 1220 (123), 1620 (163), or 1920H (203H), and permission of instructor. Not open to students with credit for 611.			
<b>6050</b>	<b>Modeling Instruction in Chemistry</b>	<b>G</b>	<b>4</b>
An inquiry-based course addressing both content learning and supporting pedagogy in chemistry instruction suitable for high school instructors implementing a modeling-based approach. Repeatable to a maximum of 12 or hrs.			
<b>6086</b>	<b>Advanced Chemistry Knowledge for Educators: Atomic Structure, Energy and Quantum Mechanics</b>	<b>G</b>	<b>5</b>
For professionals and educators seeking an advanced understanding of General Chemistry content knowledge with consideration of how this understanding informs teaching and learning in College Credit Plus Chemistry courses. Topics typically found in the first semester of General Chemistry will be investigated. Prereq: Enrollment in Advanced Chemistry Knowledge for Educators certificate program, or permission of instructor.			
<b>6087</b>	<b>Advanced Chemistry Knowledge for Educators: Bonding Models and States of Matter</b>	<b>G</b>	<b>4</b>
For professionals and educators seeking an advanced foundational and historical understanding of General Chemistry content knowledge with consideration of how this understanding informs teaching and learning in College Credit Plus Chemistry courses. Prereq: Enrollment in Advanced Chemistry Knowledge for Educators certificate program, or permission of instructor.			
<b>6088</b>	<b>Advanced Chemistry Knowledge for Educators: Kinetics, Thermodynamics, and Equilibrium</b>	<b>G</b>	<b>4</b>
For professionals and educators seeking an advanced foundational and historical understanding of General Chemistry content knowledge with consideration of how this understanding informs teaching and learning in College Credit Plus Chemistry courses. Prereq: Enrollment in Advanced Chemistry Knowledge for Educators certificate program, or permission of instructor.			
<b>6089</b>	<b>Advanced Chemistry Knowledge for Educators: Modern Applications &amp; Instrumental Analysis</b>	<b>G</b>	<b>5</b>
For professionals and educators seeking an advanced understanding of General Chemistry content knowledge with consideration of how this understanding informs teaching and learning in College Credit Plus Chemistry courses. Prereq: Enrollment in Advanced Chemistry Knowledge for Educators certificate program, or permission of instructor.			
<b>6110</b>	<b>Survey of Instrumental Methods</b>	<b>G</b>	<b>1½</b>
Introduction to instrumental analytical methods, including optical spectroscopy, mass spectrometry, surface spectrometry, microprobe methods, and separation science concepts relevant to chemical analysis. Not available for undergraduate credit.			
<b>6120</b>	<b>Analytical Data Treatment - Statistical and Numerical Analysis</b>	<b>G</b>	<b>1½</b>
Principles and practice of data acquisition, processing, and analysis in chemical research. Prereq: 4870 (587) or equiv. Not open to students with credit for 720.			
<b>6310</b>	<b>Fundamentals of Coordination Chemistry</b>	<b>G</b>	<b>1½</b>
Fundamental concepts of coordination chemistry, including properties, coordination number & isomerism, complex stability & the chelate effect, ligand substitution reactions, electron transfer, coordination chemistry & catalysis, magnetic phenomena.			
<b>6320</b>	<b>Synthetic Principles in Inorganic Chemistry</b>	<b>G</b>	<b>1½</b>
Synthesis, structure, and application of electron counting rules to organometallic clusters. Synthesis and structure of main group and transition metal hydrides. Applications in catalysis. Prereq: 3510 or equiv, or permission of instructor. Not open to students with credit for 753.			

<b>6330</b>	<b>Group Theory and Bonding</b>	<b>G</b>	<b>1½</b>
Introduction to groups and group representations, application to pi-bonding in organic molecules, molecular orbital theory, bonding in transition metal complexes, molecular vibrations, and electronic spectroscopy. Prereq: 3510 or equiv, or permission of instructor. Not open to students with credit for 851.			
<b>6340</b>	<b>Physical Methods in Inorganic Chemistry</b>	<b>G</b>	<b>1½</b>
Exploration of techniques for measuring structure and properties of small inorganic molecules and assemblies, including elemental composition, structural characterization, and physical properties. Prereq: 3510 or equiv, or permission of instructor. Not open to students with credit for 752.			
<b>6410</b>	<b>Basic Organic Reaction Mechanisms</b>	<b>G</b>	<b>1½</b>
Fundamental aspects of organic reaction mechanisms, including substitution & elimination reactions, alkene addition reactions, aromatic substitution, radical reactions, carbonyl chemistry, & pericyclic reactions. Not available for undergrad credit.			
<b>6420</b>	<b>Stereochemistry and Conformational Analysis</b>	<b>G</b>	<b>1½</b>
Fundamental principles of stereochemistry, including stereoisomerism, enantiomer resolution, conformational analysis of C-C and C-heteroatom bonds, cyclic stereochemistry, the stereochemistry of dynamic processes, and stereoelectronic effects. Prereq: 2520 (253), 2620 (253), 2920H, or equiv. Not open to students with credit for 730.			
<b>6430</b>	<b>Introduction to Organic Synthesis</b>	<b>G</b>	<b>1½</b>
Principles and reactions in the synthesis of organic molecules, acidity and basicity, chemistry of carbonyl groups, oxidation and reduction, electrophilic and nucleophilic reagents, functional group interconversions, and protecting group chemistry. Prereq: 2520, 2620, 2920H, or equiv. Not open to students with credit for both 832 and 833.			
<b>6440</b>	<b>Introduction to Physical Organic Chemistry</b>	<b>G</b>	<b>1½</b>
Fundamental principles and concepts in physical organic chemistry, including structure and bonding, strain and stability, solvation and non-covalent interactions, acid-base chemistry, and methods for studying reaction mechanisms. Prereq: 2520 (253), 2620 (253), 2920H, or equiv, and 4210 (521), 4310 (531), or equiv; or permission of instructor. Not open to students with credit for both 731 and 831.			
<b>6510</b>	<b>Quantum Mechanics and Spectroscopy</b>	<b>G</b>	<b>1½</b>
Introduction to the fundamentals of quantum mechanics with applications to chemical dynamics and spectroscopy, suitable for graduate students and advanced undergraduates from all areas of chemistry. Not available for undergraduate credit.			
<b>6520</b>	<b>Thermodynamics</b>	<b>G</b>	<b>1½</b>
Fundamental aspects of chemical thermodynamics, including spontaneous change, 1st, 2nd, and 3rd laws of thermodynamics, free energy, and thermochemical calculations. Prereq: 4310 (532) or equiv. Not open to students with credit for 775.			
<b>6530</b>	<b>Kinetics</b>	<b>G</b>	<b>1½</b>
Description of the rate of chemical reactions, including rate equations, mechanism, and transition state theory. Prereq: 4310 (532) or equiv. Not open to students with credit for 775.			
<b>6540</b>	<b>Introduction to Electronic Structure</b>	<b>G</b>	<b>1½</b>
Introduction to electronic structure of atoms and molecules, and quantum-chemical calculations, including self-consistent field methods, molecular orbital theory, density functional theory, and other methods for describing electron correlation. Prereq: 4310 or equiv. Not open to students with credit for 866.			
<b>6550</b>	<b>Atmospheric Chemistry</b>	<b>G</b>	<b>3</b>
Chemistry of the lower atmosphere, including air pollution and climate change, chemistry and kinetics of atmospheric oxidants, heterogeneous chemical mechanisms, tropospheric and stratospheric gas and particulate phases relative to ozone depletion. 231 or 251 recommended. Prereq: 1220 (123), 1620, 1920H, or equiv, and 4200, 4300, or equiv. Not open to students with credit for 641.			
<b>6780</b>	<b>Faculty Research Presentations</b>	<b>G</b>	<b>1</b>
Presentation of faculty research programs and projects to incoming doctoral students. Not available for undergraduate credit. This course is graded S/U.			
<b>6781</b>	<b>Laboratory Safety</b>	<b>G</b>	<b>1</b>
Principles of safety in the chemical laboratory. Prereq: Not open to students with credit for 685. This course is graded S/U.			
<b>6782</b>	<b>Ethics in Scientific Research</b>	<b>G</b>	<b>1</b>
An examination of the ethical principles operative in modern scientific research. This course is graded S/U.			
<b>6790</b>	<b>Scientific Writing</b>	<b>G</b>	<b>2</b>
A successful researcher is someone who knows both how to do their science, and also how to effectively communicate their findings through the written and spoken word. The purpose of this course is to introduce students to the processes involved in professional or scholarly publication. Prereq: Permission of instructor. Not open to students with credit for Micrbio 6790. Cross-listed in Microbio.			

<b>7120</b>	<b>Electrochemistry</b>	<b>G</b>	<b>3</b>
Electrochemical methods for trace analysis of species, including current/voltage relationships based on activation and diffusion control, electrode kinetics, and reaction mechanisms. Prereq: Not open to students with credit for 821.			
<b>7130</b>	<b>Fundamentals and Techniques of Separation Science</b>	<b>G</b>	<b>3</b>
Introductory course in analytical separation science: principles of chromatographic and electrophoretic processes. Prereq: Not open to students with credit for 822.			
<b>7140</b>	<b>Analytical Spectroscopy</b>	<b>G</b>	<b>3</b>
Principles for measurement of interactions of electromagnetic radiation with matter, including classical & quantum mechanical principles, group theory, and principles and applications of atomic and molecular spectroscopy. Prereq: Not open to students with credit for 823.			
<b>7150</b>	<b>Mass Spectrometry</b>	<b>G</b>	<b>3</b>
Advanced course on modern mass spectrometric methods and applications to chemical and biological sciences. Prereq: Not open to students with credit for 825.			
<b>7160</b>	<b>Nuclear Magnetic Resonance Spectroscopy</b>	<b>G</b>	<b>3</b>
Introduction to NMR spectroscopy for structural studies including nuclear magnetic resonance spectroscopy in the context of chemical and biochemical structural studies. Prereq: Not open to students with credit for 824.			
<b>7170</b>	<b>Analytical Surface Science</b>	<b>G</b>	<b>1½</b>
Introduction to instrumentation and techniques for the chemical and physical analysis of surfaces.			
<b>7230</b>	<b>Chemical Biology</b>	<b>G</b>	<b>1½</b>
Graduate-level treatment of the fundamentals of chemical biology, including enzymes, drug and probe design, diversification methodology, and proteomics.			
<b>7310</b>	<b>The Inorganic Chemistry of Bioinspired Energy Conversion</b>	<b>G</b>	<b>1½</b>
This course will give an overview of important energy conversion reactions in nature as well as those modeled chemically and discuss the implications of these processes in the context of environmental concerns. Fundamentals and applications of spectroscopic techniques that have been of particular utility for understanding the natural and model systems will also be covered.			
<b>7320</b>	<b>Organometallic Chemistry</b>	<b>G</b>	<b>1½</b>
Chemistry of organometallic compounds, main group elements (Li, Mg, Al, Sn, Pb), comparisons of Zn, Hg, & Mg, multiple bonding, transition metals, classification of ligands, pi-bonding, metallocenes, carbenes, carbynes, H <sub>2</sub> , and agostic complexes. Prereq: Not open to students with credit for 751.			
<b>7330</b>	<b>Solid State Chemistry</b>	<b>G</b>	<b>1½</b>
Structures of extended solids, including defects and phase diagrams and phase transitions. Prereq: Not open to students with credit for 754.			
<b>7340</b>	<b>Diffraction Methods</b>	<b>G</b>	<b>1½</b>
Exploration of techniques and application for determination of solid state structures, including X-ray absorption and diffraction methods, neutron diffraction methods, single crystal structure determination, and powder diffraction.			
<b>7350</b>	<b>Inorganic Photochemistry</b>	<b>G</b>	<b>1½</b>
Fundamental aspects of molecular photophysical processes, including energy and electron transfer, photochemistry of inorganic complexes, and applications.			
<b>7360</b>	<b>Bioinorganic Chemistry</b>	<b>G</b>	<b>1½</b>
Study of the role of metals in biological systems, including iron and copper proteins, other metals including Zn, Co, Ni, Mg, and Ca, metal ion homeostasis, metals and nucleic acids, and cellular toxicity and medical applications of heavy metals. Prereq: Not open to students with credit for 752.			
<b>7370</b>	<b>Nanochemistry and Nanomaterials</b>	<b>G</b>	<b>1½</b>
Advanced study of nanostructures and nanomaterials, including the basic physics for nanoscience and nanotechnology, synthesis and self-assembly, and nanotechnology in energy conversion and storage.			
<b>7380</b>	<b>Inorganic Materials</b>	<b>G</b>	<b>1½</b>
Study of the electronic and magnetic properties of extended solids, including organic and metal-organic arrays. Prereq: Not open to students with credit for 754.			
<b>7430</b>	<b>Advanced Organic Synthesis</b>	<b>G</b>	<b>1½</b>
Advanced aspects of organic synthesis/synthetic design, including advanced carbanion chemistry, synthesis of alkenes, special topics in oxidations and reductions, nucleophilic reagents, pericyclic and dipolar reactions, and free radical chemistry. Prereq: 6430.			
<b>7440</b>	<b>Kinetics, Catalysis, and Transition State Theory</b>	<b>G</b>	<b>1½</b>
Principles of kinetics, including energy surfaces and transition state theory, rate equations and rate constants, isotope effects, linear free energy relationships, and catalysis for the study of the chemical reactions of organic molecules. Prereq: 6440.			

<b>7450</b>	<b>Metals in Organic Synthesis</b>	<b>G</b>	<b>1½</b>
Organometallic complexes in organic synthesis, including organotransition metal chemistry and homogeneous catalysis and the chemistry of organic complexes of B, Cu, low valent Zr and Ti, Pd, Ni, Ru, and Mo. Prereq: 7430. Not open to students with credit for 832 or 833.			
<b>7460</b>	<b>Advanced Organic Reaction Mechanisms</b>	<b>G</b>	<b>1½</b>
Advanced study of physical aspects of reactions of organic compounds, including addition and elimination reactions, substitution reactions, photochemical reactions, and quantum mechanical approaches to chemical bonding. Prereq or concur: 7440. Not open to students with credit for 831.			
<b>7470</b>	<b>Computational Chemistry</b>	<b>G</b>	<b>1½</b>
A practical and theoretical treatment of advanced computational chemistry, from molecular mechanics to electronic structure methods and with an examination of the application of computational methods for providing guidance to experimental studies. Prereq: Permission of instructor. Not open to students with credit for 944.			
<b>7520</b>	<b>Advanced Molecular Quantum Mechanics and Spectra</b>	<b>G</b>	<b>3</b>
Advanced study of the quantum mechanics of atoms and molecules, including quantum postulates and operators, time evolution, perturbation theory and variational methods, calculation of matrix elements, representations, and multiplet theory. Prereq: Not open to students with credit for 862 or 863.			
<b>7530</b>	<b>Spectra and Structure of Molecules</b>	<b>G</b>	<b>3</b>
Application of quantum mechanics to the description and interpretation of molecular spectroscopic data, with an emphasis on the spectra of polyatomic molecules. Prereq: Not open to students with credit for 863 or 866.			
<b>7540</b>	<b>Chemical Dynamics</b>	<b>G</b>	<b>3</b>
Advanced chemical dynamics in the gas and condensed phase, including the fundamental theory of chemical reactions, molecular energy transfer, and electron and proton transfer reactions. Prereq: Not open to students with credit for 876.			
<b>7550</b>	<b>Statistical Thermodynamics</b>	<b>G</b>	<b>3</b>
Treatment of equilibrium & non-equilibrium stat mech, including fundamentals, statistical basis of thermodynamics, partition functions, thermal behavior of atoms & molecules, free energy, time-dependent stat mech, and linear response theory. Prereq: Not open to students with credit for 880.			
<b>7580</b>	<b>Lasers, Optics, and Optical Instrumentation</b>	<b>G</b>	<b>3</b>
Fundamentals of lasers, optics, and optical instrumentation used in modern experimental research in chemistry and physics including: lasing and gain, pulse generation, geometric and Gaussian optics, spatial modes, and detection.			
<b>7590</b>	<b>Molecular Simulation of Materials</b>	<b>G</b>	<b>3</b>
Advanced theoretical foundation and techniques for molecular dynamics and Monte Carlo simulation of condensed phases, including interaction models, dynamical foundations, equilibrium properties, biological systems, and transport coefficients. Prereq: Permission of instructor. Not open to students with credit for 996.			
<b>8199</b>	<b>Advanced Topics in Analytical Chemistry</b>	<b>G</b>	<b>1½ - 3</b>
Advanced, specialized topics in Analytical Chemistry. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions.			
<b>8399</b>	<b>Advanced Topics in Inorganic Chemistry</b>	<b>G</b>	<b>1½ - 3</b>
Advanced, specialized topics in Inorganic Chemistry. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions.			
<b>8499</b>	<b>Advanced Topics in Organic Chemistry</b>	<b>G</b>	<b>1½ - 3</b>
Advanced, specialized topics in Organic Chemistry. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions.			
<b>8599</b>	<b>Advanced topics in Physical Chemistry</b>	<b>G</b>	<b>1½ - 3</b>
Advanced, specialized topics in Physical Chemistry. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions.			
<b>8699</b>	<b>Advanced Topics in Theoretical Chemistry</b>	<b>G</b>	<b>1½ - 3</b>
Advanced, specialized topics in Theoretical Chemistry. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions.			
<b>8891</b>	<b>Analytical Chemistry Seminar</b>	<b>G</b>	<b>1</b>
Seminar in Analytical Chemistry. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.			
<b>8892</b>	<b>Biochemistry Seminar</b>	<b>G</b>	<b>1</b>
Seminar in Biochemistry. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.			
<b>8893</b>	<b>Inorganic Chemistry Seminar</b>	<b>G</b>	<b>1</b>
Seminar in Inorganic Chemistry. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.			
<b>8894</b>	<b>Organic Chemistry Seminar</b>	<b>G</b>	<b>1</b>
Seminar in Organic Chemistry. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.			

## 86 Chemistry

<b>8895</b>	<b>Physical Chemistry Seminar</b>	<b>G</b>	<b>1</b>
Seminar in Physical Chemistry. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.			
<b>8896</b>	<b>Departmental Seminar</b>	<b>G</b>	<b>1</b>
Seminars on topics of interest in chemistry and biochemistry. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.			
<b>8899</b>	<b>Doctoral Seminar</b>	<b>G</b>	<b>1</b>
Seminar presented by post-candidacy doctoral students on thesis/dissertation research. Prereq: Post-candidacy graduate standing, and permission of instructor. Repeatable to a maximum of 2 cr hrs.			
<b>8998</b>	<b>Non-thesis Research</b>	<b>G</b>	<b>1 - 15</b>
Non-thesis graduate research. Repeatable. This course is graded S/U.			
<b>8999</b>	<b>Thesis/Dissertation Research</b>	<b>G</b>	<b>1 - 15</b>
Graduate research for thesis or dissertation. Repeatable. This course is graded S/U.			

## Chinese

<b>1101.01</b>	<b>Level One Chinese I: Classroom Track</b>	<b>U</b>	<b>4</b>
Mandarin Chinese spoken communication and writing system. Classroom Track. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Au Sem. Prereq: Not open to students with credit for 101 and 102. This course is available for EM credit. GE for lang course.			
<b>1101.51</b>	<b>Level One Chinese I: Individualized Track</b>	<b>U</b>	<b>1 - 4</b>
Mandarin Chinese spoken communication and writing system. Individualized Track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Au, Sp, Su Sem. Prereq: Not open to students with credit for 101 and 102. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course.			
<b>1102.01</b>	<b>Level One Chinese II: Classroom Track</b>	<b>U</b>	<b>4</b>
Continuation of 1101.01. Classroom Track. Closed to native speakers of this language, or students with 3 or more years of study in this language in high school. Prereq: 1101.01 or 1101.02, or 4 cr hrs of 1101.51, or permission of instructor. Not open to students with credit for 102. This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>1102.51</b>	<b>Level One Chinese II: Individualized Track</b>	<b>U</b>	<b>1 - 4</b>
Continuation of 1101.51. Individualized Track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Prereq: 1101.01 or 1101.02, or 4 cr hrs of 1101.51, or permission of instructor. Not open to students with credit for 1102 (102). Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>1103.01</b>	<b>Level Two Chinese I: Classroom Track</b>	<b>U</b>	<b>4</b>
Mandarin Chinese second level spoken communication, development of reading skills, and written composition. Classroom Track. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Prereq: 1102.01 or 1102.02, or 4 sem cr hrs of 1102.51, or permission of instructor. Not open to students with credit for 1103 or 104. This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>1103.51</b>	<b>Level Two Chinese I: Individualized Track</b>	<b>U</b>	<b>1 - 4</b>
Mandarin Chinese second level spoken communication, development of reading skills, and written composition. Individualized Track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Prereq: 1102.01 or 1102.02, or 4 cr hrs of 1102.51, or permission of instructor. Not open to students with credit for 1103 or 104. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>2102</b>	<b>Level Two Chinese II: Classroom Track</b>	<b>U</b>	<b>5</b>
Continuation of 1103. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Sp Sem. Prereq: 1103. Not open to students with credit for 2102 (205 and 206). This course is available for EM credit. FL Admis Cond course.			
<b>2141.01</b>	<b>Intensive Level Two Chinese-Oral: Classroom Track</b>	<b>U</b>	<b>4</b>
First course in the sequence of intensive intermediate Chinese language courses focusing on speaking and listening. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Au Sem. Prereq: 1102.01 or 1102.02, or 4 cr hrs in 1102.51, or permission of instructor. Not open to students with credit for 1103.xx, 2141.02, 210, 210.02, 310, or 310.02. This course is available for EM credit. GE for lang course. FL Admis Cond course.			

<b>2141.02</b>	<b>Intensive Level Two Chinese-Oral: Summer Intensive Track</b>	<b>U</b>	<b>4</b>
First course in the sequence of intensive intermediate Chinese language courses focusing on speaking and listening. Admission to SPEAC is required for registration. Students must complete 4 credits during first 3.5 weeks to the summer session. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Prereq: 1102.01 or 1102.02, or 4 cr hrs for 1102.51, or permission of instructor. Not open to students with credit for 1103 (210) or 2141 (310). This course is available for EM credit. GE for lang course. FL Admis Cond course.			
<b>2151.01</b>	<b>Intensive Level Two Chinese-Written: Classroom Track</b>	<b>U</b>	<b>5</b>
First in the sequence of intensive intermediate Chinese language courses focusing on written Chinese. Classroom track. Au sem. Prereq: 1102.01 or 1102.02, or 4 cr hrs for 1102.51, or permission of instructor. Not open to students with credit for 1103 (211) or 2151 (311.01). This course is available for EM credit. FL Admis Cond course.			
<b>2151.51</b>	<b>Intensive Level Two Chinese-Written: Individualized Track</b>	<b>U</b>	<b>1 - 5</b>
First in the sequence of intensive intermediate Chinese language courses focusing on written Chinese. Individualized track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Closed to native speakers of this language, or to students with 3 or more years of study in this language in high school. Au, Sp, Su. Prereq: 1102.01 or 1102.02, or 4 cr hrs for 1102.51, or permission of instructor. Not open to students with credit for 1103 (211) or 2151 (311). Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit. FL Admis Cond course.			
<b>2231</b>	<b>Traditional Chinese Culture</b>	<b>U</b>	<b>3</b>
Chinese institutions, philosophical trends, religion, literature, and visual and performing arts prior to the 20th century. Prereq: Not open to students with credit for 231. GE cultures and ideas and diversity global studies course.			
<b>2232</b>	<b>Modern Chinese Culture</b>	<b>U</b>	<b>3</b>
Modern Chinese culture as reflected in family life, language, literature, art, and film viewed from the perspective of modern Chinese history. Taught in English. Prereq: Not open to students with credit for 232. GE cultures and ideas and diversity global studies course.			
<b>2283</b>	<b>Chinese Calligraphy</b>	<b>U</b>	<b>3</b>
Techniques of writing Chinese characters with a brush; practice in different styles from oracle bone to grass; introduction to its importance in the Chinese culture, and its relationship with Chinese philosophy, poetry, and painting. Prereq: Not open to students with credit for 283.			
<b>2451</b>	<b>Chinese Literature in Translation</b>	<b>U</b>	<b>3</b>
Representative masterpieces of pre-modern Chinese literature in English translation, including poetry, prose, fiction, and/or drama. Prereq: Not open to students with credit for 251. GE lit and diversity global studies course.			
<b>2797.01</b>	<b>Study Abroad in China</b>	<b>U</b>	<b>3</b>
The China Gateway Study Abroad Program introduces the dynamic nature of an important segment of contemporary Chinese culture by combining the themes of Ethnic Diversity and the Environment in Southwest China. The tandem themes are designed to allow students to experience a diverse and dynamic mix of ethnic, rural, and urban cultures in a historic and geographically varied region of China. GE education abroad course.			
<b>4101</b>	<b>Level Three Chinese I</b>	<b>U</b>	<b>5</b>
Continued study of spoken communication, reading Chinese publications, and development of written composition. Au Sem. Prereq: 2102, or permission of instructor. Not open to students with credit for 507 or 508. This course is available for EM credit. FL Admis Cond course.			
<b>4102</b>	<b>Level Three Chinese II</b>	<b>U</b>	<b>5</b>
Continuation of 4101. Sp Sem. Prereq: 2141.01, or permission of instructor. Not open to students with credit for 508 or 509. This course is available for EM credit. FL Admis Cond course.			
<b>4142.01</b>	<b>Intensive Level Three Chinese-Oral: Classroom Track</b>	<b>U</b>	<b>5</b>
Continuation of 2141.01. Sp Sem. Prereq: 2141.01 or 2141.02, or permission of instructor. Not open to students with credit for 310 and 510.01. This course is available for EM credit. FL Admis Cond course.			
<b>4142.02</b>	<b>Intensive Level Three Chinese-Oral: Summer Intensive Track</b>	<b>U</b>	<b>5</b>
Continuation of 2141.02. Summer Intensive Track. Admission to SPEAC is required for registration. Students must complete 5 credits during the second 3.5 weeks of the Summer Session. Prereq: 2141.01 or 2141.02, or permission of instructor. Not open to students with credit for 310 and 510.02. This course is available for EM credit. FL Admis Cond course.			
<b>4152.01</b>	<b>Intensive Level Three Chinese-Written: Classroom Track</b>	<b>U</b>	<b>5</b>
Continuation of 2151.01. Sp Sem. Prereq: 2151.01, or 4 cr hrs or 2151.51, or permission of instructor. Not open to students with credit for 311.01, 511.01, 5 qtr cr hrs of 311.51, or 5 qtr cr hrs of 511.51. This course is available for EM credit. FL Admis Cond course.			

<b>4152.51</b>	<b>Intensive Level Three Chinese-Written: Individualized Track</b>	<b>U</b>	<b>1 - 5</b>
Continuation of 2151.51. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Au, Sp, Su Sems. Prereq: 2151.01, or 4 cr hrs for 2151.51, or permission of instructor. Not open to students with credit for 311 or 511. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit. FL Admis Cond course.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Directed study to meet individual research needs of students in Chinese studies. Not a substitute for regular language courses. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Group investigation of issues in Chinese studies. Varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.			
<b>4301</b>	<b>Conversational Cantonese for Mandarin Speakers I</b>	<b>U</b>	<b>3</b>
A conversational Cantonese language course for speakers of Mandarin, and is open to both advanced learners and native speakers of Mandarin Chinese. The course develops basic skills in speaking and listening comprehension for functioning in everyday, Cantonese-speaking environments. Not open to native speakers of Cantonese, or to students with 2 or more years of study in Cantonese in high school.			
<b>4302</b>	<b>Conversational Cantonese for Mandarin Speakers II</b>	<b>U</b>	<b>3</b>
The second semester of conversational Cantonese language for speakers of Mandarin, and is open to both advanced learners and native speakers of Mandarin Chinese. The course develops basic skills in speaking and listening comprehension for functioning in everyday, Cantonese-speaking environments. Not open to native speakers of Cantonese, or to students with 2 or more years of high school Cantonese. Prereq: 4301, or equiv knowledge of conversational Cantonese.			
<b>4380</b>	<b>The Chinese Language</b>	<b>U</b>	<b>3</b>
Important elements of the Chinese language -- its structure, dialects, writing system -- as well as history of the language, language acquisition, language planning, and language use in society; taught in English. Prereq: 1102 or equiv, or permission of instructor. Not open to students with credit for 580.			
<b>4383</b>	<b>The Chinese Language and Its Script</b>	<b>U</b>	<b>3</b>
Examination of the Chinese script, covering its origin, classification, composition, and development, as well as such topics as standardization, script reform, romanization, and internet language; taught in English. Prereq: 1102 or equiv, or permission of instructor.			
<b>4402</b>	<b>Traditional Chinese Fiction in Translation</b>	<b>U</b>	<b>3</b>
Examines novels and short stories from the Ming and Qing dynasties. Taught in English. Prereq: Not open to students with credit for 502. GE lit and diversity global studies course.			
<b>4403</b>	<b>Modern Chinese Literature in Translation</b>	<b>U</b>	<b>3</b>
Chinese fiction and/or drama from the late 19th century to the present. Taught in English. Prereq: Not open to students with credit for 503. GE lit and diversity global studies course.			
<b>4404</b>	<b>Chinese Drama</b>	<b>U</b>	<b>3</b>
Representative works of Chinese drama in translation, taught with a focus either on premodern drama or on modern drama, depending on the instructor's area of interest and expertise. Taught in English. Prereq: Not open to students with credit for 504. GE lit and diversity global studies course.			
<b>4405</b>	<b>China in Chinese Film</b>	<b>U</b>	<b>3</b>
An overview of Chinese cinema, with a focus on how film represents issues of nationhood, national identity, and national trauma. Taught in English, no Chinese required. Prereq: English 1110 or equiv. Not open to students with credit for 505. GE VPA and diversity global studies course.			
<b>4407</b>	<b>Eco-literature in China</b>	<b>U</b>	<b>3</b>
Addresses changing conceptions of the environment in China as expressed in oral and written literature.			
<b>4998</b>	<b>Undergraduate Research Project</b>	<b>U</b>	<b>3</b>
Focused research toward completion of an original project. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>4998H</b>	<b>Honors Undergraduate Research Project</b>	<b>U</b>	<b>3</b>
Focused research toward completion of an original project. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Research Thesis</b>	<b>U</b>	<b>3</b>
Focused research toward completion of an original thesis. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>4999H</b>	<b>Honors Undergraduate Research Thesis</b>	<b>U</b>	<b>3</b>
Focused research toward completion of an original thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			

<b>5101.01</b>	<b>Level Four Chinese I: Classroom Track</b>	<b>U G</b>	<b>3</b>
Level Four Chinese; continuation of 4102, or 4142 and 4152. Classroom Track. Au Sem. Prereq: 4152.01; and 4102 or 4142.01 or 4142.02 or 4 cr hrs for 4152.51, or permission of instructor. Not open to students with credit for 610 and 611.01. This course is available for EM credit. FL Admis Cond course.			
<b>5101.51</b>	<b>Level Four Chinese I: Individualized Track</b>	<b>U G</b>	<b>1 - 3</b>
Level Four Chinese; continuation of 4102, or 4142 and 4152. Individualized Track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Prereq: 4152.01; and 4102 or 4142.01 or 4142.02 or 4 cr hrs for 4152.51, or written permission of instructor. Not open to students with credit for 610 or 611.51. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is available for EM credit. FL Admis Cond course.			
<b>5102.01</b>	<b>Level Four Chinese II: Classroom Track</b>	<b>U G</b>	<b>3</b>
Level Four Chinese: continuation of 5101.01. Sp Sem. Prereq: 5101.01, or 3 cr hrs for 5101.51, or permission of instructor. Not open to students with credit for 611 or 612.01. This course is available for EM credit. FL Admis Cond course.			
<b>5102.51</b>	<b>Level Four Chinese II: Individualized Track</b>	<b>U G</b>	<b>1 - 3</b>
Level Four Chinese: continuation of 5101.51. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Au, Sp, Su Sems. Prereq: 5101.01, or 3 cr hrs for 5101.51, or permission of instructor. Not open to students with credit for 611 and 612. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is available for EM credit. FL Admis Cond course.			
<b>5103</b>	<b>Level Five Chinese I</b>	<b>U G</b>	<b>3</b>
Level five Chinese first semester. Immersion in all four skills using the novel and TV series "Spring Grass" by Qiu Shanshan. Covers 1st half of book and TV series. Focuses on oral narration skills. Chinese only. Prereq: 5102 or equiv. This course is available for EM credit.			
<b>5104</b>	<b>Level Five Chinese II</b>	<b>U G</b>	<b>3</b>
Level five Chinese second semester. Completing the novel and TV series "Spring Grass"; focus on written composition skills. Chinese only. Completion of this class (or equivalent) required for taking master's level Chinese language classes. Prereq: 5103 or equiv. This course is available for EM credit.			
<b>5105.51</b>	<b>Selected Readings in Scholarly Chinese Texts I: Individualized Track</b>	<b>U G</b>	<b>1 - 3</b>
Academic writings by modern Chinese scholars in both Wenyan and Baihua styles. Prereq: 5102.01 or 5102.51, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 4 completions.			
<b>5106.51</b>	<b>Selected Readings in Scholarly Chinese Texts II: Individualized Track</b>	<b>U G</b>	<b>1 - 3</b>
Continuation of 5105.01 or 5105.51. Academic writings by modern Chinese scholars in both Wenyan and Baihua styles. Prereq: 5105.01 or 5105.51, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 4 completions.			
<b>5111</b>	<b>Classical Chinese I</b>	<b>U G</b>	<b>3</b>
Analysis of selected texts in classical Chinese from pre-Qin times. Prereq: Level Two Chinese or equiv, or permission of instructor. Not open to students with credit for 601 and 602.			
<b>5112</b>	<b>Classical Chinese II</b>	<b>U G</b>	<b>3</b>
Continuation of 5111. Close reading of selected texts from pre-Qin and later times. Prereq: 5111, or equiv and permission of instructor. Not open to students with credit for 602 and 603.			
<b>5194</b>	<b>Und/Grad Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Group investigation of issues in Chinese studies designed for a mix of undergraduate and graduate students. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.			
<b>5380</b>	<b>Introduction to Chinese Linguistics</b>	<b>U G</b>	<b>3</b>
Investigation of the phonology, morphology, syntax, semantics, lexicon, and writing system of the Chinese language; and exploration of some topics relating language to cognition, society, and gender. Prereq: Permission of instructor. Not open to students with credit for 680.			
<b>5381</b>	<b>History of the Chinese Language</b>	<b>U G</b>	<b>3</b>
Investigation of the history of the Chinese language from its early stages to modern forms. Prereq: 6380, or permission of instructor. Not open to students with credit for 681.			
<b>5383</b>	<b>The Chinese Writing System</b>	<b>U G</b>	<b>3</b>
Origin, classification, composition, and development of the Chinese writing system; exploration of related topics such as language reform, reading and processing of Chinese characters. Prereq: 6380, or permission of instructor. Not open to students with credit for 683.			
<b>5389</b>	<b>Topics on the Chinese Language</b>	<b>U G</b>	<b>3</b>
Exploration of topics and issues concerning the Chinese language -- language and society, language and politics, language and gender, language and identity, bilingualism, languages of China; taught in English. Prereq: 1102 or equiv, or permission of instructor. Repeatable to a maximum of 3 cr hrs.			

## 88 Chinese

<b>5400</b>	<b>Performance Traditions of China</b>	<b>U G</b>	<b>3</b>
Introduction to the panorama of oral and orally-connected performance traditions of China; explores local traditions of professional storytelling, epic singing, folksongs, and local drama. Prereq: 2231, 2232, 2451, 2452, EALL 1231, Japanese 2231, 2451, 2452, Korean 2231, 2451, or permission of instructor. Not open to students with credit for 600.			
<b>5474</b>	<b>Chinese Opera</b>	<b>U G</b>	<b>3</b>
Introduction to Chinese opera as traditional culture, dramatic literature, and performing art; selected opera scripts and stage performances from Beijing opera, Kunqu, and regional operas; illustrated discussions of various aspects of the theater. Prereq: Not open to students with credit for 674.			
<b>5490</b>	<b>Chinese Translation Workshop</b>	<b>U G</b>	<b>1 - 4</b>
Investigation of problems and techniques of translating Chinese into English. Prereq: 4102 or 5112, or permission of instructor. Repeatable to a maximum of 8 cr hrs or 2 completions.			
<b>5670</b>	<b>Literary Language in Modern Mandarin</b>	<b>U G</b>	<b>3</b>
Level seven Chinese. Use of literary Chinese in modern speech and writing. Chinese only. Prereq: Permission of Instructor. This course is available for EM credit.			
<b>5798.02</b>	<b>Study Tour: Foreign</b>	<b>U G</b>	<b>8 - 24</b>
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Repeatable for different titled study tours only. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 3 completions.			
<b>6193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 3</b>
Directed study to meet individual research needs of students in Chinese studies. Not a substitute for regular language courses. Prereq: 4102 or 5112, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Group investigation of issues in Chinese studies. Varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>6451</b>	<b>History of Chinese Literature I</b>	<b>G</b>	<b>3</b>
Chinese literature from antiquity to the end of the Tang dynasty; various aspects of the classical tradition and new developments in the Age of Disunity. Taught in English. Partial texts in Chinese optional. Prereq: Written permission of instructor for undergrads. Not open to students with credit for 651.			
<b>6452</b>	<b>History of Chinese Literature II</b>	<b>G</b>	<b>3</b>
Chinese literature from the Five Dynasties to the Qing; poetry, prose, drama, and the rise of vernacular writings. Taught in English. Partial texts in Chinese optional. Prereq: Written permission of instructor for undergrads. Not open to students with credit for 652.			
<b>6998</b>	<b>Research in Chinese: Project</b>	<b>G</b>	<b>1 - 3</b>
Research leading to the completion of a project other than a conventional MA thesis. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
<b>6999</b>	<b>Research in Chinese: Thesis</b>	<b>G</b>	<b>1 - 3</b>
Research leading to the completion of an MA thesis. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>7382</b>	<b>Chinese Phonology</b>	<b>G</b>	<b>3</b>
The phonetics and phonology of modern (Mandarin) Chinese; study of other Chinese dialects for comparative purposes. Prereq: 6380; or permission of instructor.			
<b>7384</b>	<b>Chinese Syntax</b>	<b>G</b>	<b>3</b>
The syntactic structure of modern (Mandarin) Chinese; related topics such as syntax-semantics interface. Prereq: 6380; or permission of instructor.			
<b>7385</b>	<b>Chinese Dialects</b>	<b>G</b>	<b>3</b>
Investigation of the linguistic structures of major Chinese dialects from a cross-dialectal, comparative approach; related topics in multilingualism, language planning, language contact, code-switching, vernacular literacy and dialect-writing. Prereq: 6380; or permission of instructor.			
<b>7463</b>	<b>Modern Chinese Fiction</b>	<b>G</b>	<b>3</b>
Introduction to the history of Chinese fiction from the late Qing to 1949. Prereq: 6451, 6452; or permission of instructor. Not open to students with credit for 763.			
<b>7466</b>	<b>Lu Xun</b>	<b>G</b>	<b>3</b>
Readings in the essays, prose poetry, and fiction of Lu Xun. Prereq: 7463; or permission of instructor.			
<b>7467</b>	<b>Taiwan Literature</b>	<b>G</b>	<b>3</b>
Introduction to the literature of Taiwan from 1900 to the present. Prereq: 6451, 6452, 7463; or permission of instructor.			

<b>7470</b>	<b>Ethnic Literature and Culture in China</b>	<b>G</b>	<b>3</b>
Examines poetry, prose, and other cultural expressions related to ethnic minority groups in China. Prereq: 6451, 6452, or 7463, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>7615</b>	<b>Chinese Perspectives on Chinese Civilization</b>	<b>G</b>	<b>3</b>
Level seven Chinese. Mainstream Chinese perspectives on major issues in Chinese civilization. Commonly recognized ways to presenting viewpoints and arguments on relevant topics. Chinese only. Prereq: 5104 or equiv. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.			
<b>7617</b>	<b>Analysis of Contemporary Chinese Media</b>	<b>G</b>	<b>3</b>
Level six Chinese. Developing familiarity with major contemporary Chinese media and the ability to analyze chosen topics from a specific medium. Chinese only. Prereq: 5104 or equiv. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.			
<b>7650</b>	<b>Negotiating in Chinese Culture</b>	<b>G</b>	<b>3</b>
Level Seven Chinese. Chinese in spontaneous professional discourse, emphasizing oral presentation based on readings in Chinese business practices and professional negotiation. Prereq: 5104, or permission of instructor. Not open to students with credit for 750. This course is available for EM credit.			
<b>7655</b>	<b>Language in China</b>	<b>G</b>	<b>3</b>
Level six Chinese. Language issues in China, including language variation, writing systems, minority languages, and Chinese language issues in the information age. Chinese only. Prereq: 5104 or equiv. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.			
<b>7660</b>	<b>Interpersonal Relations and Professional Networking</b>	<b>G</b>	<b>3</b>
Level six Chinese. Exploration of assumptions and expectations motivating behaviors in Chinese and American cultures when developing interpersonal relations and professional networks. Prereq: 5104 or equiv. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.			
<b>7671.51</b>	<b>Familiarity with Domain Resources and Research</b>	<b>G</b>	<b>5</b>
Level five Chinese. Individualize research with mentor. Development of research topic. Chinese only. Prereq: 5106 or equiv. Not open to students with credit for 771.51. This course is available for EM credit. This course is progress graded.			
<b>7672.51</b>	<b>Domain Research and Presentation of a Project</b>	<b>G</b>	<b>5</b>
Level six Chinese. Individualize research with mentor. Development of research project. Chinese only. Prereq: 5104 or equiv. Not open to students with credit for 772.51. This course is available for EM credit. This course is progress graded.			
<b>8500</b>	<b>Chinese Bibliography and Research Methods</b>	<b>G</b>	<b>3</b>
An introduction to bibliographies and reference works in Chinese Studies; general and specific problems for research. Prereq: Not open to students with credit for 800.			
<b>8897</b>	<b>Departmental Seminar</b>	<b>G</b>	<b>1 - 3</b>
Seminar in Chinese literature, linguistics, or pedagogy; topic varies. Prereq: 5111 or 5112; or 6451 or 6452; or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>8998</b>	<b>Research in Chinese: Project</b>	<b>G</b>	<b>1 - 3</b>
Research leading to the completion of a project other than a conventional dissertation. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8999</b>	<b>Research in Chinese: Dissertation</b>	<b>G</b>	<b>1 - 3</b>
Research leading to the completion of a dissertation. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 8 completions. This course is graded S/U.			

## City and Regional Planning

<b>1100</b>	<b>CRP Survey</b>	<b>U</b>	<b>1</b>
Introduction to the University, the Knowlton School of Architecture and the professions of architecture, city and regional planning, and landscape architecture. Prereq: Not open to students with credit for 1100, 100, Arch 1100 (100), 1100E, 100H, LArch 1100 (100), 1100E, or any survey course. Cross-listed in Arch and LArch.			
<b>2000</b>	<b>Introduction to City and Regional Planning</b>	<b>U</b>	<b>3</b>
How transportation, housing, and land use work together to create vibrant cities and regions. Prereq: Not open to students with credit for 310.			
<b>2100</b>	<b>Reading the City through History and Law</b>	<b>U</b>	<b>3</b>
An intensive investigation of cities' complex cultures and societal rules and the role of history and law in shaping their development. Prereq: Not open to students with credit for 210 and 350.			

## City and Regional Planning 89

<b>2110</b>	<b>Creating Innovative Cities and Regions</b>	<b>U</b>	<b>3</b>
Successful cities rely on innovation to keep them forward-moving. Emerging trends and unmet market needs are studied to generate innovative planning solutions. Prereq: Not open to students with credit for 2110H or 110.			
<b>2210</b>	<b>Sustainable Urbanism</b>	<b>U</b>	<b>3</b>
Globalization is changing cities, economies, social networks, and the environment. Technological innovation, entrepreneurship, and policy making guides the future of sustainable cities. Prereq: Not open to students with credit for 2210E.			
<b>2210E</b>	<b>Sustainable Urbanism</b>	<b>U</b>	<b>3</b>
Globalization is changing cities, economies, social networks and the environment. Technological innovation, entrepreneurship and policy making guides the future of sustainable cities. Prereq: Honors standing. Not open to students with credit for 2210.			
<b>2600</b>	<b>Designing Communication for Planning</b>	<b>U</b>	<b>4</b>
Graphic tools and techniques used for effective visual communication in planning. Projects focus on creative problem solving to communicate planning to a mass audience.			
<b>2630</b>	<b>Planning for Future Cities</b>	<b>U</b>	<b>3</b>
Cities are constantly evolving over time as new forms of technology, governance, and other factors occur. Students will explore Utopian concepts, learn how to help cities develop in a positive way, be familiar with current and emerging technology trends that affect cities, and gain inspiration from the many variations of futuristic cities envisioned in the science fiction genre.			
<b>2700</b>	<b>Technology in Design</b>	<b>U</b>	<b>1 - 5</b>
Software tools, information theory, and technology to aid in preparing for the professional planning workplace. Repeatable to a maximum of 20 cr hrs or 4 completions.			
<b>2798</b>	<b>Comparative Studies in Planning</b>	<b>U</b>	<b>3</b>
Planning issues are global in context. Through direct experience studying globalization, migration, sustainability, and public participation, critically understand planning on a global and community scale. Repeatable to a maximum of 9 cr hrs.			
<b>3000</b>	<b>Planning Resilient Environments</b>	<b>U</b>	<b>3</b>
Environmental resilience requires a comprehensive planning approach. Through planning techniques and practices, identify practical applications for creating resilient environments. Prereq: Math 1148 (148), or permission of instructor. Not open to students with credit for 745 or 722.			
<b>3100</b>	<b>Analyzing the City</b>	<b>U</b>	<b>3</b>
Spatial, economic, and demographic tools aid in forecasting the future of cities and regions. These tools serve as a foundation for imagining the future. Prereq: 3000, Econ 2001.01, and Math 1118 (117), 1131, 1151, or above; or permission of instructor. Not open to students with credit for 3100H.			
<b>3150</b>	<b>Digital Design and Analysis for Planners</b>	<b>U</b>	<b>2</b>
Basic principles of computer drafting and Geographic Information Systems (GIS) and their application in the professional planning office for the purpose of design, analysis, and representation of the built environment.			
<b>3194</b>	<b>Group Studies in City and Regional Planning</b>	<b>U</b>	<b>1 - 15</b>
Group-based study of city and regional planning topics within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>3200</b>	<b>Place Making</b>	<b>U</b>	<b>4</b>
Vibrant public places and sustainable communities are realized when planners visualize and understand spatial relationships at the site, neighborhood and community level. Prereq: 1100 (110), 1100E, 2000 (310), 2110, 2110E, Arch 1100 (100), 1100E, 100H, LArch 1100 (100), or 1100E, or permission of instructor. Not open to students with credit for 3200E or 330.			
<b>3200E</b>	<b>Place Making</b>	<b>U</b>	<b>4</b>
Vibrant public places and sustainable communities are realized when planners visualize and understand spatial relationships at the site, neighborhood and community level. Prereq: Honors standing, and 1100 (110), 1100E, 2000 (310), 2110, 2110E, Arch 1100 (100), 1100E, 100H, LArch 1100 (100), or 1100E; or permission of instructor. Not open to students with credit for 3200 (330).			
<b>3300</b>	<b>Planning for and with People</b>	<b>U</b>	<b>3</b>
Application of skills and techniques of community participation, emphasizing education, group formation and dynamics, consultation, engagement, and creative change within groups. Prereq: 2000 (310), 2110 (110), or 2110H (110H), or permission of instructor.			
<b>3400</b>	<b>Planning for Sustainable Economic Development</b>	<b>U</b>	<b>3</b>
Understand the intersection of economics, the environment, and development in order to use planning tools to promote sustainable economic development. Prereq: Econ 2001.01, 2001.02 (200), 2001.03H, or AEDecon 2001.			

<b>3500</b>	<b>The Socially Just City</b>	<b>U</b>	<b>3</b>
Too many cities are split between the haves and the have-nots. Explore how to reduce poverty, increase access to public services, and create a high quality of life for all residents. GE soc sci orgs and politics and diversity soc div in the US course.			
<b>3510</b>	<b>Murder by Design</b>	<b>U</b>	<b>3</b>
The way cities are designed influences criminal activity. Crime mapping, siting of businesses, and neighborhood design are explored to create safescapes. Prereq: Jr standing.			
<b>3550</b>	<b>Environmental Planning and Policy for a Sustainable Future</b>	<b>U</b>	<b>3</b>
This course has been designed to incorporate environmental considerations into land use planning and policy making. Upon completion of this course students should be able to analyze environmentally related planning problems not requiring in-depth environmental expertise and recognize when such expertise is necessary. Prereq: 2110.			
<b>3600</b>	<b>Land Development Planning</b>	<b>U</b>	<b>3</b>
Planners shape cities. The land development process requires understanding the impacts of new development and redevelopment in order to reimagine more vibrant sites. Prereq: Not open to students with credit for 745 or 780.			
<b>3610</b>	<b>Sex and the City</b>	<b>U</b>	<b>3</b>
Explores sex in the city, examining spaces, institutions, and policies that influence sex as a land use.			
<b>3620</b>	<b>The Underground City</b>	<b>U</b>	<b>3</b>
If the surface of the Earth became uninhabitable, people could be forced to live underground to survive. A plan will be conceived and developed in order to perpetuate the human race. Prereq: 2630 or 3000.			
<b>4110</b>	<b>Transportation and Land Use Planning</b>	<b>U</b>	<b>3</b>
Communities integrate transportation while promoting economic development and land-use policies to manage growth. Improve the efficiency of travel and contain infrastructure costs. Prereq: 2110 (110), 2110H, 2000, or 310. Not open to students with credit for 774.			
<b>4191S</b>	<b>Planning Internship</b>	<b>U</b>	<b>1</b>
Internship seminar providing students with an opportunity to reflect and learn about career opportunities in city and regional planning. Prereq: Permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>4193</b>	<b>Independent Studies in City and Regional Planning</b>	<b>U</b>	<b>1 - 15</b>
Study a specialized topic in city and regional planning with an instructor based on mutual interests. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in City and Regional Planning</b>	<b>U</b>	<b>1 - 15</b>
Group-based study of city and regional planning topics within the frame of an instructor guided course. Prereq: Jr or Sr standing. Repeatable to a maximum of 15 cr hrs or 4 completions.			
<b>4200</b>	<b>Arts and Entertainment Planning</b>	<b>U</b>	<b>3</b>
Planning for arts and entertainment districts, from the neighborhood art studio to entire cities as entertainment destinations.			
<b>4597</b>	<b>The Global Environment in Planning</b>	<b>U</b>	<b>3</b>
A review of challenges in developed and developing countries, examining planning issues associated with economic development, social equity, growth and rural development. Prereq: Not open to students with credit for 597. GE cross-disciplinary seminar course.			
<b>4674</b>	<b>The City as Art</b>	<b>U</b>	<b>3</b>
This course will examine the ways that cities throughout the world integrate arts and culture into their planning, as well as whether being a cultural city can build the brand, draw new residents and attract visitors. We will investigate cultural tourism, urban cultural policy and temporary built culture such as festivals and fairs. Team-taught with faculty in ArtEduc. Prereq: Jr or Sr standing. Not open to students with credit for ArtEduc 4674. Cross-listed in ArtEduc.			
<b>4780</b>	<b>Undergraduate Research Methods</b>	<b>U</b>	<b>3</b>
Quantitative, qualitative and design methods for undergraduate level city and regional planning research.			
<b>4780H</b>	<b>Undergraduate Research Methods</b>	<b>U</b>	<b>3</b>
Quantitative, qualitative and design methods for undergraduate level city and regional planning research. Honors section. Prereq: Honors standing.			
<b>4798</b>	<b>Planning Study Abroad</b>	<b>U</b>	<b>1 - 15</b>
Rapid globalization of cities creates new opportunities to explore, investigate and analyze urban development internationally. Repeatable to a maximum of 15 cr hrs or 2 completions.			

## 90 City and Regional Planning

<b>4798E</b>	<b>Study Tour</b>	<b>U</b>	<b>1 - 15</b>
Group international and domestic travel programs opportunities tailored to complement the classroom experience. Prereq: Honors standing. Repeatable to a maximum of 45 cr hrs or 3 completions.			
<b>4900E</b>	<b>Plan Making</b>	<b>U</b>	<b>6</b>
Plan creation focuses on working with real-world clients. Planning knowledge and skills will be applied to generate creative, innovative, and practical solutions. Prereq: Honors standing, and acceptance into CRPlan BS major; or permission of instructor. Concur: 3300. Not open to students with credit for 4900S.			
<b>4900S</b>	<b>Plan Making</b>	<b>U</b>	<b>6</b>
Plan creation focuses on working with real-world clients. Planning knowledge and skills will be applied to generate creative, innovative, and practical solutions. Prereq: Acceptance into CRPlan BS major, or permission of instructor. Concur: 3300. Not open to students with credit for 4900E.			
<b>4910S</b>	<b>Realizing the Plan</b>	<b>U</b>	<b>6</b>
Apply knowledge and skills to an implementation challenge. Work in consultation with professionals to produce a regulation, policy, or tool for use by the client. Prereq: 4900S (510) or 4900E, or permission of instructor.			
<b>4950</b>	<b>Professional Planning Skills Development</b>	<b>U</b>	<b>3</b>
Professional skills including technical writing, public speaking, portfolio development, conflict resolution, and contracts as essential preparation for practice. Prereq: 4900S (510) or 4900E, and acceptance to the CRPlan BS major; or permission of instructor. Not open to students with credit for 610. Repeatable to a maximum of 15 cr hrs.			
<b>4999</b>	<b>Undergraduate Thesis in City and Regional Planning</b>	<b>U</b>	<b>6</b>
Development of topical research/design projects with an interdisciplinary perspective. Prereq: Permission of instructor.			
<b>4999H</b>	<b>Undergraduate Thesis in City and Regional Planning</b>	<b>U</b>	<b>6</b>
Course allows for development of topical research/design projects with an interdisciplinary perspective. Prereq: Honors standing, and 4780H.			
<b>5001</b>	<b>Introduction to GIS for Planning</b>	<b>U G</b>	<b>4</b>
The course introduces basic principles and techniques of Geographic Information System (GIS) in city and regional planning. The course focuses on developing hands-on experience of GIS applications in planning. It is also designed to cultivate spatial thinking and help students to gain an understanding of cutting-edge geospatial technologies, their capabilities, uses, and limitations for planning. Prereq: Not open to students with credit for CivilEn 5400 or Geog 5210.			
<b>5010</b>	<b>Historic Preservation Planning</b>	<b>U G</b>	<b>3</b>
Cities are rich in history. Policies, incentives and planning aid in preserving unique historic character and heritage of cities. Prereq: Sr or Grad standing. Not open to students with credit for Arch 604.			
<b>5100</b>	<b>Technology in Design</b>	<b>U G</b>	<b>1 - 5</b>
Software tools, information theory, and technology to aid in preparing for the professional planning workplace. Repeatable to a maximum of 20 cr hrs or 4 completions.			
<b>5160</b>	<b>Green Building Methods for Planning</b>	<b>U G</b>	<b>1</b>
This course focuses on green building methods, techniques and practices and how they can be applied to city planning practice. Particular attention is paid to LEED-certification, a program that recognizes building practices that save money, reduce water consumption, make better material choices, have higher property values, and overall have fewer negative impacts on the environment. This course is graded S/U.			
<b>5170</b>	<b>Planning &amp; Zoning in Local Government</b>	<b>U G</b>	<b>1</b>
The purpose of this course is to learn about how city planning and zoning are used as practical tools for municipal governance. This course will explore topics from the perspective of what local elected and appointed leaders need to know to effectively guide a municipality, navigate codes and laws, and promote public engagement and civil discourse. This course is graded S/U.			
<b>5180</b>	<b>TechniCity</b>	<b>U G</b>	<b>3</b>
The way we understand cities is undergoing sweeping transformation, right along with the analytical tools we use to design our cities and the communication tools we use to engage people. Absorbing, studying and understanding the role of technology from a critical viewpoint allows us to generate creative ideas for improving our cities. Prereq: Jr, Sr, or Grad standing.			
<b>5191</b>	<b>Professional Experience in City and Regional Planning</b>	<b>U G</b>	<b>0</b>
Professional practice in the field of city and regional planning or suitable related areas. Prereq: Permission of instructor. Repeatable to a maximum of 6 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies in City and Regional Planning</b>	<b>U G</b>	<b>1 - 15</b>
Group-based study of City and Regional Planning topics within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 4 completions.			

<b>5200</b>	<b>Metropolitan and Regional Planning</b>	<b>U G</b>	<b>3</b>
Cities and towns are becoming increasingly dependent on each other. Progressive approaches to regional planning directly influence the economy and quality of life. Prereq: Sr or Grad standing. Not open to students with credit for 753.			
<b>5300</b>	<b>Airport Planning, Design and Development</b>	<b>U G</b>	<b>3</b>
A comprehensive study of airport planning, design and development, the role of the airport and its components as part of the overall air transportation system, the issues related to the planning, design, and development of the airport and its system. Prereq: Aviatn 3000 or CRPlan 3100; or Sr standing in CivilEn major; or Grad standing; or permission of instructor. Cross-listed in Aviatn and CivilEn.			
<b>5320</b>	<b>Transportation Data Analytics for Planners</b>	<b>U G</b>	<b>3</b>
In this course, students will analyze data for the purpose of planning transportation infrastructure. Students will build expertise in innovative transportation data collection (such as drones), improve familiarity with publicly available transportation data sources, develop basic R coding skills to visualize transportation data, and consider careers as transportation planning analysts. Prereq: Jr, Sr, or Grad standing.			
<b>5400</b>	<b>Planning for Housing</b>	<b>U G</b>	<b>3</b>
Housing - including its uses, meaning, design, and role. The creation of a range of housing to support growth and revitalization of cities and regions. Prereq: Not open to students with credit for 320, 752, or PubAfrs 5400. Cross-listed in PubAfrs.			
<b>5461</b>	<b>Latino Urbanism and the Reinvention of the American City</b>	<b>U G</b>	<b>3</b>
Interdisciplinary course that examines a new trend of urbanism based on the urban experiences of Latinos and the study of this group's social, economic, and cultural impact on cities across the US. Taught in English. Team-taught course. Prereq: Completion of 2nd GE Writing course, and Jr or Sr standing; or permission of instructor. Not open to students with credit for 4461 or Spanish 4461 or 5461. Cross-listed in Spanish.			
<b>5500</b>	<b>Energy Planning</b>	<b>U G</b>	<b>3</b>
Energy makes cities run, from renewable and non-renewable sources. Energy is a driving opportunity and constraint in urban development. Prereq: Grad standing, or 3000. Not open to students with credit for 720.			
<b>5550</b>	<b>Financing Sustainability</b>	<b>U G</b>	<b>3</b>
This course examines sustainability through the lens of financing. The primary foci are two important elements of green infrastructure - food systems and clean energy. Students will explore the systems and industry behind food and energy and develop comprehensive road maps that communities can use to build robust and financially supported supported sustainability systems for food and energy. Prereq: CRPlan 3400, Grad standing, or permission of instructor.			
<b>5670</b>	<b>Creative Place Marketing</b>	<b>U G</b>	<b>1</b>
This course introduces the idea of creative placemaking and creative place marketing, explores issues in place marketing and introduces students to key considerations for developing place marketing plans, cultural tourism strategies, and other initiatives that improve the quality and economics of place through arts and culture. Emotional aspects of place and social justice issues are also covered. This course is graded S/U.			
<b>5700</b>	<b>Urban Transportation Demand Forecasting</b>	<b>U G</b>	<b>3</b>
Introduction and applications for quantitative demand forecasting in urban transportation. Prereq: Math 1118 or equiv, or Grad standing. Not open to students with credit for 775 or CivilEn 5700 (775). Cross-listed in CivilEn.			
<b>5798</b>	<b>Planning Study Abroad</b>	<b>U G</b>	<b>1 - 15</b>
Rapid globalization of cities creates new opportunities to explore, investigate and analyze urban development internationally. Repeatable to a maximum of 15 cr hrs or 2 completions.			
<b>5880</b>	<b>Interdepartmental Seminar</b>	<b>U G</b>	<b>1 - 15</b>
Interdepartmental seminar; topics to be announced. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in Arch and LArch.			
<b>5890</b>	<b>Workshop in City and Regional Planning</b>	<b>U G</b>	<b>1 - 15</b>
Workshop on city and regional planning issues. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>5900</b>	<b>Food System Planning and the Economy</b>	<b>U G</b>	<b>3</b>
Examines the social, environmental and economic costs and benefits of our food production, distribution, and consumption. Prereq: Not open to students with credit for AEDEcon 5900 or PubAfrs 5900. Cross-listed in AEDEcon and PubAfrs.			
<b>5960</b>	<b>Design Competition</b>	<b>U G</b>	<b>1 - 6</b>
Interdisciplinary teams develop design proposals to solve problems in the natural or built environment. Prereq: Jr, Sr, or Grad standing. Repeatable to a maximum of 9 cr hrs or 3 completions. Cross-listed in Arch and LArch.			

## City and Regional Planning 91

<b>5997</b>	<b>Planning in the Developing World</b>	<b>U G</b>	<b>3</b>
What changes when we take our plans to the developing world? This course will lead you from Brazil to Nigeria to India to find out - with lots of stops in between. It combines historical and global perspectives on international development theory with real-world case studies that will force you to consider difficult tradeoffs and make tough choices.			
<b>6000</b>	<b>Historical Foundations of Planning</b>	<b>G</b>	<b>3</b>
The people, movements, and principles which have shaped contemporary planning practice. Historical successes and failures mean for the future of planning. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 643.			
<b>6010</b>	<b>Innovation in City and Regional Planning</b>	<b>G</b>	<b>3</b>
Successful cities are innovative and forward-thinking. Challenges students to focus on generation of truly innovative ideas to improve cities and regions. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 742.			
<b>6080</b>	<b>Advanced GIS for Professional Planning Practice</b>	<b>G</b>	<b>4</b>
In-depth and hands-on training in GIS applications for city and regional planning. Prereq: 5001 and Grad standing, or permission of the instructor. Not open to students with credit for 608 or 609.			
<b>6100</b>	<b>Participation and Advocacy in Planning</b>	<b>G</b>	<b>3</b>
Planning theories that support the planner's role in engaging and advocating for the public. Skills in public engagement techniques and tools. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 712.			
<b>6150</b>	<b>Environmental Planning and Policy for a Sustainable Future</b>	<b>G</b>	<b>3</b>
This course incorporates environmental considerations into land use planning and policy making. Upon completion of this course students will be able to analyze environmentally related planning problems not requiring in-depth environmental expertise and recognize when such expertise is necessary.			
<b>6191S</b>	<b>Professional Development</b>	<b>G</b>	<b>1</b>
Provides successful candidates with a broad but intensive learning experience in various areas of city and regional planning. The program is designed to prepare individuals for professional planning positions. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.			
<b>6193</b>	<b>Independent Studies in City and Regional Planning</b>	<b>G</b>	<b>1 - 12</b>
Study a specialized topic in City and Regional Planning with an instructor based on mutual interests. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 5 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies in City and Regional Planning</b>	<b>G</b>	<b>1 - 15</b>
Group-based study of City and Regional Planning topics within the frame of an instructor guided course. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>6200</b>	<b>Graphic Visualization</b>	<b>G</b>	<b>4</b>
Fundamental skills in graphics and graphic technology commonly used in planning, including on-line, print, document, poster, and video layout and design. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 702.			
<b>6300</b>	<b>Law and Planning I: Land Use</b>	<b>G</b>	<b>3</b>
The impact of law on planning, with an emphasis on the regulation of land use. Prereq: Grad standing, or permission of the instructor. Not open to students with credit for 761.			
<b>6310</b>	<b>Law and Planning II: Environment and Society</b>	<b>G</b>	<b>3</b>
The role of social and environmental justice and other societal considerations in the establishment of a legal framework in planning. Prereq: 6300 (761), and Grad standing; or permission of instructor. Not open to students with credit for 765 or 766.			
<b>6350</b>	<b>The Socially Just City</b>	<b>G</b>	<b>3</b>
Poverty reduction, access to public services and improving quality of life are goals to achieving the socially just city. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 3500.			
<b>6400</b>	<b>Site Planning and Development</b>	<b>G</b>	<b>4</b>
Effective site planning can lead to the development of a strong community. Learn the design, environmental and infrastructure elements that are needed to generate a feasible development project. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 745.			
<b>6410</b>	<b>Planning for Sustainable Development</b>	<b>G</b>	<b>3</b>
Sustainable development is a broad concept; translated into reality through relevant theory and the implementation of key design, policy and project based solutions. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 724.			

<b>6411</b>	<b>Sustainability, Measurement and Power</b>	<b>G</b>	<b>3</b>
Indicators drive decisions and inform action. This course introduces students to the history, theory and practice of measuring sustainability, with a focus on the metropolitan environment. Students will come to understand the relationship between sustainability, measurement and governance, analyzing and comparing specific indicators within their institutional, political and social contexts. Prereq: Grad standing.			
<b>6420</b>	<b>Infrastructure Planning</b>	<b>G</b>	<b>3</b>
Infrastructure development plans address the planning, budgeting and programming challenges of making cities run. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 783.			
<b>6425</b>	<b>Measuring Resilience to Disasters for Planning</b>	<b>G</b>	<b>3</b>
This course focuses on concepts, elements, theory, and applications for resilience to disasters in urban and regional planning. Students will develop quantitative analytical skills in resilience assessment through various methods, including resilience indicators, cost-benefit analysis, econometric analysis, and simulation analysis. Prereq: Grad standing, or permission of instructor.			
<b>6430</b>	<b>Urban Design</b>	<b>G</b>	<b>3</b>
Vibrant cities contribute to quality of life, through urban design and urban form. Site analysis, context sensitive design and impacts of design choices are explored. Prereq: Grad standing, or permission of the instructor. Not open to students with credit for 731.			
<b>6440</b>	<b>Research Methods for Urban Design and Planning</b>	<b>G</b>	<b>3</b>
Behavioral research and evaluation (research design, validity, reliability, data gathering techniques) methods for urban design and planning questions. Prereq: Grad standing, or permission of the instructor. Not open to students with credit for 734.			
<b>6460</b>	<b>Real Estate Finance for Planners</b>	<b>G</b>	<b>3</b>
Realize plans by understanding the financial mechanisms to fund projects. Explore how public-private partnerships create opportunities for affordable housing, downtown revitalization, and neighborhood improvement. Prereq: Grad standing, or permission of instructor. Cross-listed in PubAfrs.			
<b>6500</b>	<b>Plan Making and Analysis Techniques</b>	<b>G</b>	<b>3</b>
Collection and analysis of information used to make plans, including population projections and economic activity. Prereq: Grad standing, or permission of instructor.			
<b>6500.02</b>	<b>Data and Forecasting for Planning</b>	<b>G</b>	<b>2</b>
Models and methods used in the analysis and projection of population and employment, and the major data sources for such analyses, including data shortcomings and problems of comparability. The use of data and projection methodologies by planners, with an emphasis on translating results into policy implications that are understandable by the non-technical reader. Prereq: Permission of instructor.			
<b>6600</b>	<b>Evaluation Methods in City and Regional Planning</b>	<b>G</b>	<b>3</b>
City and regional planners routinely plan and evaluate public sector interventions which generally take the form of physical infrastructure projects or public policies and programs. This course offers an overview of the concepts, methods, and metrics used to anticipate the impact and evaluate the trade offs of proposed projects, policies, and programs. Prereq: Grad standing, or permission of instructor.			
<b>6610</b>	<b>Grant Writing in the Public Sector</b>	<b>G</b>	<b>3</b>
Public officials rely on grants to help fund their grand plans. Planners find grants, prepare proposals, and manage grants to effectively support public projects. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 837 or PubPolM/PubAfrs 880.06. Cross-listed in PubAfrs 7501.			
<b>6620</b>	<b>Project Management in the Public Sector</b>	<b>G</b>	<b>3</b>
Public officials recognize the importance of project management in organization success. Management of complex, high-risk, high-visibility public projects is examined. Prereq: Grad standing, or permission of instructor. Cross-listed in PubAfrs 7555.			
<b>6700</b>	<b>Technology in Design</b>	<b>G</b>	<b>1 - 5</b>
Software tools, information theory, and technology to aid in preparing for the professional planning workplace. Repeatable to a maximum of 20 cr hrs or 4 completions.			
<b>6750</b>	<b>Resolving Social Conflict</b>	<b>G</b>	<b>3</b>
Multidisciplinary examination of social conflict, its dynamics and negotiated and consensual resolution; offers broad-based framework for diagnosing and managing conflict; applied to legal, environmental, organizational, and geopolitical conflicts. Prereq: Grad standing, or permission of instructor.			
<b>6798</b>	<b>Planning Study Abroad</b>	<b>G</b>	<b>1 - 15</b>
The world is rapidly globalizing. Exploring global cities provides a rich perspective that can be used to evaluate domestic and international planning challenges. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>6890</b>	<b>Workshop in City and Regional Planning</b>	<b>G</b>	<b>1 - 15</b>
Workshop on city and regional planning issues. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			

## 92 City and Regional Planning

<b>6910</b>	<b>Comprehensive Planning Studio</b>	<b>G</b>	<b>6</b>
Application of knowledge and skills to a comprehensive planning process in consultation with professionals to produce a plan for use by a real world client. Prereq: 6400 (745) and 6500 (762), or permission of instructor. Not open to students with credit for 853.			
<b>6920</b>	<b>Urban Design/Physical Planning Studio</b>	<b>G</b>	<b>6</b>
Improvement of the aesthetics of the built environment through the creation of a physical plan for a portion of a city using an integrative process to solve planning challenges. Course cannot be taken concurrently with other studio courses (6930, 6950, 6960, or 6970). Prereq: 6430 (731), or permission of instructor. Not open to students with credit for 851.			
<b>6930</b>	<b>Neighborhood Planning Studio</b>	<b>G</b>	<b>6</b>
Planning for neighborhoods engages residents and local non-profit organizations to empower them to solve planning challenges using democratic methods. Course cannot be taken concurrently with other studio courses (6920, 6950, 6960, or 6970). Prereq: 6400 (745) and 6500 (762), or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
<b>6950</b>	<b>Transportation Studio</b>	<b>G</b>	<b>6</b>
Planning for transportation requires an examination of environmental, social, and economic factors, as well as active engagement of decision makers and transportation users alike. Course cannot be taken concurrently with other studio courses (6920, 6930, 6960, or 6970). Prereq: 6400 (745) and 6500 (762), or permission of instructor. Not open to students with credit for 852.			
<b>6960</b>	<b>Sustainability Studio</b>	<b>G</b>	<b>6</b>
Planning for sustainability requires systems thinking, strategic solutions and collaborative governance. Sustainability plans will be generated through active engagement with a client community. Course cannot be taken concurrently with other studio courses (6920, 6930, 6950, or 6970). Prereq: 6410 (724), and Grad standing, or permission of instructor. Not open to students with credit for 824.			
<b>6970</b>	<b>International Development Studio</b>	<b>G</b>	<b>6</b>
Cities and regions across the globe are rapidly urbanizing and are facing planning challenges. Plan development focuses on developing context-sensitive solutions. Course cannot be taken concurrently with other studio courses (6920, 6930, 6950, or 6960). Prereq: 6400 (745) and 6500 (762), or permission of instructor. Not open to students with credit for 749.			
<b>6999</b>	<b>Research for Thesis in City and Regional Planning</b>	<b>G</b>	<b>1 - 12</b>
Research for Thesis in City and Regional Planning. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is progress graded (S/U).			
<b>7000</b>	<b>Contemporary Planning Research</b>	<b>G</b>	<b>3</b>
Introduction and overview of topics and techniques in planning research. Prereq: Grad standing. Not open to students with credit for 871.01.			
<b>7100</b>	<b>City &amp; Regional Planning Theory</b>	<b>G</b>	<b>3</b>
Critical inquiry into the dominant theories related to city and regional planning research and practice. Prereq: Grad standing. Not open to students with credit for 864.01.			
<b>7110</b>	<b>Development Theory</b>	<b>G</b>	<b>3</b>
Critical inquiry into the classic debates and critiques of development theory related to planning research and practice in developing countries. Prereq: Grad standing.			
<b>7194</b>	<b>Group Studies in City and Regional Planning</b>	<b>G</b>	<b>1 - 15</b>
For group-based study of city and regional planning topics within the frame of an instructor guided course. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>7300</b>	<b>Planning Dissertations and Theses from Start to Finish</b>	<b>G</b>	<b>3</b>
Covers the full dissertation/thesis process: topic selection, refinement, proposal development, literature review, methods, data collection/analysis, presenting and publishing, getting a job, life on the job. Prereq: Enrollment in the City and Regional Planning PhD program, or permission of instructor.			
<b>7509</b>	<b>Disasters: Preparedness and Response</b>	<b>G</b>	<b>3</b>
Introduction to planning, policy, and management issues that arise when disaster strikes, and the roles of government, non-profits, communities, and individuals in emergency preparedness by examining a variety of recent natural and human-made disasters, both in the U.S. and abroad. Cross-listed in PubAfrs.			
<b>7531</b>	<b>Economic Development Policy</b>	<b>G</b>	<b>3</b>
Takes a practical approach to the legal, policy, and business issues related to urban redevelopment. Students gain a legal perspective as they investigate business and public policy issues surrounding redevelopment in our urban core. Prereq: Not open to students with credit for PubAfrs 880.02. Cross-listed in PubAfrs.			

<b>8193</b>	<b>Independent Studies in City and Regional Planning</b>	<b>G</b>	<b>1 - 15</b>
Study a specialized topic in City and Regional Planning with an instructor based on mutual interests. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
<b>8194</b>	<b>Group Studies in City and Regional Planning</b>	<b>G</b>	<b>1 - 15</b>
Group-based study of City and Regional Planning topics within the frame of an instructor guided course. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
<b>8200</b>	<b>Teaching Practicum in City and Regional Planning</b>	<b>G</b>	<b>0 - 9</b>
A hands on teaching experience in conjunction with a city and regional planning faculty member. Includes syllabus development, course preparation, lecture, discussion experience, and grading review. Prereq: Grad standing. Not open to students with credit for 990.			
<b>8300</b>	<b>General Practicum in City and Regional Planning</b>	<b>G</b>	<b>0 - 9</b>
Supervised field experience in city and regional planning; analysis and critique of field experience. Prereq: Grad standing. Not open to students with credit for 990.			
<b>8999</b>	<b>Research for Dissertation in City and Regional Planning</b>	<b>G</b>	<b>1 - 15</b>
Research for Doctoral Dissertation Purposes. Prereq: Enrollment in the City and Regional Planning PhD program. Repeatable to a maximum of 32 cr hrs or 10 completions. This course is graded S/U.			

## Civil Engineering

<b>2050</b>	<b>Probabilistic Applications and Data Interpretation in Civil and Environmental Engineering</b>	<b>U</b>	<b>3</b>
Fundamentals of probability and statistical analysis for applications and data interpretation in Civil and Environmental Engineering design and analysis. Prereq: Enrollment in CivilEn or EnvEng major.			
<b>2060</b>	<b>Numerical Analysis Methods for Civil and Environmental Engineering Applications</b>	<b>U</b>	<b>4</b>
Implement numerical solution techniques using computer programming in MATLAB and apply them to a variety of problems related to Civil Engineering. Prereq: 2050 or Stat 3450, 3460, or 3470; and Math 2173, 2177, 2255, or 2415; and enrollment in CivilEn or EnvEng major.			
<b>2090</b>	<b>Professional Aspects of Civil and Environmental Engineering</b>	<b>U</b>	<b>1</b>
Topics in Civil and Environmental Engineering ethics and practice. Must be taken as soon as possible upon entering the major. Prereq: Enrollment in CivilEn or EnvEng major. Not open to students with credit for 460 or EnvEng 460. Cross-listed in EnvEng.			
<b>2193</b>	<b>Individual Studies in Civil Engineering</b>	<b>U</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies in Civil Engineering</b>	<b>U</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>2405</b>	<b>Computer Graphics for Civil Engineers</b>	<b>U</b>	<b>1</b>
An introductory course in graphics with emphasis on the application on computer generated graphics to the solution of civil engineering problems. AutoCAD and Civil 3D or similar software to be used. Prereq: Enrollment in pre-CivilEn program, or permission of instructor. Not open to students with credit for Engr 4410.01 or FABEng 3171.			
<b>2410</b>	<b>Introduction to Surveying</b>	<b>U</b>	<b>3</b>
An introduction to surveying and geomatics, with an emphasis on basic spatial data collection and construction layout using ground-based measurement techniques. Must be taken as soon as possible upon entering the major. Prereq or concur: 2050 or Stat 3450, 3460, or 3470; and enrollment in CivilEn or EnvEng major.			
<b>2810</b>	<b>Construction Engineering and Management: An Introduction</b>	<b>U</b>	<b>3</b>
Basic engineering and management concepts of construction operations of various foundations, concrete, and steel buildings and bridges. Prereq: Enrollment in CivilEn major. Not open to students with credit for 682.			
<b>3080</b>	<b>Economic Evaluation and Optimization in Civil and Environmental Engineering</b>	<b>U</b>	<b>3</b>
Fundamentals of engineering economics and optimization for civil and environmental engineering planning and design. Prereq or concur: 2060 (406), and enrollment in CivilEn or EnvEng major. Not open to students with credit for 576 or EnvEng 576. Cross-listed in EnvEng.			

<b>3130</b>	<b>Fluid Mechanics</b>	<b>U</b>	<b>3</b>
An introduction to fluid mechanics; topics include: fluid properties; fluid statics; flow concepts; continuity, energy, and momentum equations; dimensional analysis; basic pipe flow; lab experiments. Prereq: MechEng 2010 or 2040, and enrollment in CivilEn, EnvEng, or FABEng major; or permission of instructor.			
<b>3160</b>	<b>Water Resources Engineering</b>	<b>U</b>	<b>3</b>
Pipe systems, introduction to open channel flow, basic hydrology, demographic studies, water supply, and wastewater flows. Prereq: 3130 (413) or EnvEng 413; and CSE 1221 (205) or 1222 (202) or EnGraph 167 or Engr 1221 or 1222 or 1281H or Engineer; and enrollment in CivilEn or EnvEng major. Not open to students with credit for 516 or EnvEng 516.			
<b>3310</b>	<b>Structural Engineering Principles</b>	<b>U</b>	<b>3</b>
Structural forms and loads, statically determinate structures, and trusses, internal loadings developed, influence lines for statically determinate structures, cables and arches, elastics beam deflections, energy methods. Prereq: MechEng 2020, and enrollment in CivilEn major. Prereq or concur: 2050 or Stat 3450, 3460, or 3470; or permission of instructor.			
<b>3510</b>	<b>Civil Engineering Materials</b>	<b>U</b>	<b>3</b>
Composition and Characterization of civil engineering materials - concretes, asphalts, plastics, fiber-reinforced composites; elastic, plastic, visco-elastic, and failure characterization under various environmental and mechanical loading conditions. Prereq or concur: 2050 or Stat 3450 or 3460 or 3470, and MechEng 2020, and enrollment in CivilEn major; or permission of instructor.			
<b>3540</b>	<b>Geotechnical Engineering</b>	<b>U</b>	<b>2</b>
The properties of soils as construction materials (e.g., for earth dams) and as foundations for building are introduced and state-of-the-art numerical techniques for the prediction of seepage and settlement are presented. Contemporary issues such as the impact of soil failure mechanisms and sustainability are covered. Prereq: MechEng 2020 or 2040, and enrollment in CivilEn or EnvEng or FABEng major. Concur: CivilEn 3541. Prereq or concur: CivilEn 2050 or Stat 3450, 3460, or 3470; or permission of instructor.			
<b>3541</b>	<b>Geotechnical Engineering Laboratory</b>	<b>U</b>	<b>1</b>
Laboratory determination of soil properties including grain size distribution, plasticity, permeability, compaction and shear strength (both drained and undrained). Course must be taken concurrently with 3540, 5561, or 5571. The 3541 course requirement may be waived in 5561 and 5571 by the instructor, if the student demonstrates previous completion of a similar lab program. Concur: 3540, 5561, or 5571.			
<b>3700</b>	<b>Transportation Engineering and Analysis</b>	<b>U</b>	<b>3</b>
Introduction to mathematical analysis and design of various transportation engineering topics: scheduled services, sight distance, geometric design, freeway capacity, traffic flow and queuing, signalized intersections. Prereq: 2050 or Stat 3450, 3460, or 3470, and enrollment in CivilEn major; or permission of instructor.			
<b>4001</b>	<b>Civil Engineering Capstone I</b>	<b>U</b>	<b>2</b>
Part 1 of the two semester course sequence for the culminating design component in the curriculum for students in Civil Engineering. Must be taken in semester preceding 4002, with sequence completed as close to graduation as possible. Prereq: 2050 or Stat 3450, 3460, or 3470; and CivilEn 2060, 2405, 2410, 2810, 3080, 3130, 3160, 3310, 3510, 3541, 3700, and 4320 or 4350, and EnvEng 3200; and enrollment in CivilEn major. Not open to students with credit for 4000.01.			
<b>4002</b>	<b>Civil Engineering Capstone II</b>	<b>U</b>	<b>2</b>
Part 2 of the two semester course sequence for the culminating design component in the curriculum for students in Civil Engineering. Must be taken in semester immediately following 4001, with sequence completed as close to graduation as possible. Prereq: 4000.01 or 4001. Not open to students with credit for 4000.02.			
<b>4011</b>	<b>Civil Engineering Global Capstone I</b>	<b>U</b>	<b>2</b>
Part 1 of a two semester course sequence satisfying the culminating design component in the curriculum for students in Civil Engineering set in a global development context. Must be taken in sequence with CivilEn 4012, taken as close to graduation as possible. Prereq: 2410, 2810, 3080, 3130, 3160, 3310, 3510, 3540, 3541, 3700, 4320 or 4350, and EnvEng 3200; or permission of instructor.			
<b>4012</b>	<b>Civil Engineering Global Capstone II</b>	<b>U</b>	<b>2</b>
Part 2 of a two semester course sequence satisfying the culminating design component in the curriculum for students in Civil Engineering set in a global development context. Must be taken in semester immediately following CivilEn 4011 with sequence taken as close to graduation as possible. Prereq: 4011, and Sr standing; or permission of instructor.			
<b>4191.01</b>	<b>Civil Engineering Internship I</b>	<b>U</b>	<b>1</b>
An engineering work experience with an approved employer for minimum of 10 hours per week for approximately 15 weeks. Typically taken during the autumn or spring academic terms. To earn credit students must demonstrate satisfactory work performance, complete monthly reporting requirements and submit a final report. Prereq: Enrollment in the Civil Engineering major, and permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			

<b>4191.02</b>	<b>Civil Engineering Internship II</b>	<b>U</b>	<b>2</b>
An engineering work experience with an approved employer for minimum of 30 hours per week for approximately 15 weeks. Typically taken during the summer academic term. To earn credit students must demonstrate satisfactory work performance, complete monthly reporting requirements and submit a final report. Prereq: Enrollment in the Civil Engineering major, and approval of the Civil Engineering Internship Advisor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>4193</b>	<b>Individual Studies in Civil Engineering</b>	<b>U</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Civil Engineering</b>	<b>U</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>4210</b>	<b>The Physics of Sustainable Buildings</b>	<b>U</b>	<b>3</b>
Equips students to understand and properly model the drivers of energy consumption and human exposure to airborne pollutants in buildings. Overview of the physical laws governing transport processes in buildings. Methods of modeling these processes that are specific to buildings, including energy balances, mass balances and their constituents. Prereq: 3130 and Math 2174, 2177, or 2415; or permission of instructor.			
<b>4310</b>	<b>Structural Analysis</b>	<b>U</b>	<b>3</b>
Deflection in trusses, beams, and frames. Solution of Indeterminate Structures by methods of consistent deformations and moment distribution. Beam and truss analysis using stiffness method. Prereq: 3310 (431). Not open to students with credit for 531.			
<b>4320</b>	<b>Structural Steel Design</b>	<b>U</b>	<b>3</b>
Design of steel tensile members, compression members, beams, beam-columns, and bolted and welded connections based on AISC Specifications. Design problem solving. Introduction to computer-aided design. Prereq: 3310 (431), and enrollment in CivilEn major. Not open to students with credit for 532.			
<b>4340</b>	<b>Behavior of Structural Element</b>	<b>U</b>	<b>3</b>
Mechanics of beams - symmetrical bending and unsymmetrical bending; shear stresses and shear center for thin flange beams; buckling of columns; pressure vessels and combined loadings. Prereq: 3310 (431). Not open to students with credit for 534.			
<b>4350</b>	<b>Reinforced Concrete Design</b>	<b>U</b>	<b>3</b>
Analysis and design of reinforced concrete beams, one-way slabs and columns under flexure, shear and axial loads. Prereq: 3310 (431), and enrollment in CivilEn major. Not open to students with credit for 535.			
<b>4552</b>	<b>Design and Construction of Flexible Pavements</b>	<b>U</b>	<b>3</b>
The design, manufacturing, placement, compaction and maintenance of hot mix asphalt for roadways with coverage on how to determine and specify which mixture to use for a given application. Sustainable roadway design is also covered. Prereq: 3510 (451); and Math 2250 (255), 2415 (415) or 2177. Not open to students with credit for 552.			
<b>4800</b>	<b>Project Management in Civil Engineering</b>	<b>U</b>	<b>3</b>
Comprehensive guide to project management methods, tools, and techniques. Prereq: Jr standing, and enrollment in CivilEn major.			
<b>4998</b>	<b>Undergraduate Research in Civil Engineering</b>	<b>U</b>	<b>1 - 5</b>
Opportunity for undergraduate students to conduct research in Civil and Environmental Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4998H</b>	<b>Undergraduate Research in Civil Engineering</b>	<b>U</b>	<b>1 - 5</b>
Opportunity for undergraduate honors students to conduct research in Civil and Environmental Engineering. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4999</b>	<b>Civil Engineering Research for Thesis</b>	<b>U</b>	<b>1 - 5</b>
Supervised research and project work. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4999H</b>	<b>Civil Engineering Research for Thesis</b>	<b>U</b>	<b>1 - 5</b>
Supervised research and project work arranged individually for honors students. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>5001</b>	<b>Introduction to Geographic Information Systems</b>	<b>U G</b>	<b>4</b>
Introduction to the basic principles of geographic information systems and their use in spatial analysis and information management. Prereq: 2050, Stat 3450, 3460, or 3470, and Sr standing; or Grad standing in CivilEn or EnvEng; or permission of instructor.			

## 94 Civil Engineering

<b>5130</b>	<b>Applied Hydrology</b>	<b>U G</b>	<b>3</b>
Hydrologic cycle, meteorology, streamflow, evapotranspiration, hydrographs, runoff relations, runoff hydrographs, groundwater, unit hydrographs, flood routing, frequency and duration studies, and application of hydrologic techniques. Prereq: 3160 (516) or EnvEng 516. Not open to students with credit for 613 or EnvEng 613.			
<b>5162</b>	<b>Introduction to Laminated Composite Materials</b>	<b>U G</b>	<b>3</b>
Introduction to anisotropic material behavior and failure assessment of laminated composite materials. Classical lamination theory, beams, plates and shells. Prereq: MechEng 2020 (420) or 2040; or Grad standing in Engineering; or permission of instructor. Not open to students with credit for 662, 762, MechEng 5162, 662, or 762. Cross-listed in MechEng.			
<b>5168</b>	<b>Introduction to the Finite Element Method</b>	<b>U G</b>	<b>3</b>
Basic concepts, formulation, and application of finite element techniques for numerical solution of problems of engineering and scientific interest. Prereq: 2060, Math 2568, 2174, or 2177, or equiv., or Grad standing in Engr or Math. Not open to students with credit for MechEng 5168 or Math 5168. Cross-listed in Math.			
<b>5194</b>	<b>Group Studies in Civil Engineering</b>	<b>U G</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5220</b>	<b>Open Channel Hydraulics</b>	<b>U G</b>	<b>3</b>
Flow classifications, channel properties, energy and momentum principles, critical flow, uniform flow formulas, erodible and nonerodible channel design, and gradually-varied profile computations. Prereq: 3160 (516) or EnvEng 516; and Math 2177, or 2415 and 2568. Not open to student with credit for 722.			
<b>5230</b>	<b>Transport Phenomena in Water Resources Engineering</b>	<b>U G</b>	<b>3</b>
Study of the mechanisms by which momentum, heat, and mass are transported in fluid systems of interest to water resources engineers. Prereq: 3160 (516) or EnvEng 516, and Math 2173, 2177, 2255 (255), or 2415 (415). Not open to students with credit for 723.			
<b>5240</b>	<b>Groundwater Engineering</b>	<b>U G</b>	<b>3</b>
The role of groundwater in the hydrologic cycle, water supply, construction, and contamination. Includes principles describing subsurface water movement (seepage, saturated, and unsaturated flow). Emphasis on gaining a working knowledge of techniques used in applied engineering practice to estimate groundwater parameters for design purposes. Applications include well design, pumping, and drains. Prereq: 3130, or Grad standing; or permission of instructor. Not open to students with credit for 750.			
<b>5300</b>	<b>Airport Planning, Design, and Development</b>	<b>U G</b>	<b>3</b>
A comprehensive study of airport planning, design & development, the role of the airport and its components as part of the overall Air Transportation System, and the issues related to the planning, design, and development of the airport and its systems. Prereq: Aviatn 3000 or CRPlan 3100, or Sr standing in CivilEn major, or Grad standing, or permission of instructor. Cross-listed in Aviatn and CRPlan.			
<b>5310</b>	<b>Matrix Structural Analysis</b>	<b>U G</b>	<b>3</b>
Analysis of frame structures by force and displacement methods using matrices. Prereq: 4310 (531). Not open to students with credit for 735.			
<b>5320</b>	<b>Intermediate Structural Steel Design</b>	<b>U G</b>	<b>3</b>
Design of bolted and welded building connections; structural behavior in the nonlinear range; plastic analysis and design of steel structures. Prereq: 4320.			
<b>5350</b>	<b>Intermediate Reinforced Concrete Design</b>	<b>U G</b>	<b>3</b>
Analysis and design of reinforced concrete systems and components. Prereq: 4350 (535). Not open to students with credit for 731.			
<b>5360</b>	<b>Bridge Engineering</b>	<b>U G</b>	<b>3</b>
Types of bridges; aesthetics in bridge design; loads on bridges; selection of bridge type; AASHTO specifications for bridge design; design of steel bridges. Prereq: 4310 (531) and 4320 (532). Not open to students with credit for 736.			
<b>5370</b>	<b>Prestressed Concrete Design</b>	<b>U G</b>	<b>3</b>
Design applications for prestressed concrete members and structures. Basic concepts to be covered include flexural and shear design, stress analysis, deflections, and prestress losses. Prereq: 4350 (535). Not open to students with credit for 737.			
<b>5410</b>	<b>Engineering Surveying</b>	<b>U G</b>	<b>3</b>
Surveying applications for engineering, construction, mining and transportation work. Route surveying and geometric design; topographic site surveys and mapping; earthwork computations. Prereq: 2410, GeodSciE 410, or 450, and enrollment in CivilEn major, or permission of instructor. Not open to students with credit for GeodSciE 502.			
<b>5411</b>	<b>Legal Aspects of Surveying</b>	<b>U G</b>	<b>4</b>
History of measurement; development of land survey systems; milestones in technology; Land Surveyor's role; types of land surveys; retracement principles; laws on surveying practices. Prereq: 2410 (400), and enrollment in CivilEn major; or permission of instructor. Not open to students with credit for GeodSciE 560 and 561.			

<b>5412</b>	<b>Land Boundary &amp; Development Principles</b>	<b>U G</b>	<b>4</b>
Analysis of evidence and procedures for boundary location; preparing land boundary descriptions; process of subdividing and platting land. Prereq: 5411, or 560 and 561, and enrollment in CivilEn major; or permission of instructor. Not open to students with credit for GeodSciE 561 and 562.			
<b>5420</b>	<b>Remote Sensing of Environment</b>	<b>U G</b>	<b>3</b>
The energies of the natural and cultural environment, current remote sensing systems and case histories of applications in measuring the environment. Prereq: 2410 (400), or permission of instructor. Not open to students with credit for 603 or 606.			
<b>5422</b>	<b>Terrain Analysis</b>	<b>U G</b>	<b>3</b>
Principles and applications of photo pattern analysis, geologic and geomorphologic patterns, terrain studies, and land use suitability and capability mapping. Prereq: 2050 or Stat 3450, 3460, or 3470; or permission of instructor.			
<b>5441</b>	<b>Introduction to GPS: Theory and Applications</b>	<b>U G</b>	<b>3</b>
Introduction to reference systems; fundamentals of GPS design and operation; GPS observables, error analysis and handling; data collection and data processing; interdisciplinary applications of GPS. Prereq: Math 1172 or 1544 (154) or 2153 (254), and Jr standing or above; or Grad standing; or permission of instructor. Not open to students with credit for GeodSciE 608.			
<b>5461</b>	<b>Geospatial Numerical Analysis</b>	<b>U G</b>	<b>4</b>
Application of adjustment techniques to geo-spatial information including but not limited to GPS, Photogrammetry GIS and remote sensing. Prereq: 2410 (400), or Grad standing. Not open to students with credit for GeodSci 650 or 651.			
<b>5510</b>	<b>Durability and Condition Assessment of Reinforced Concrete Structures</b>	<b>U G</b>	<b>3</b>
In-depth review of the most common processes affecting durability of portland cement concrete durability, and presents methods of assessing the quality of in-place concrete construction for vertical construction, roads and bridges, and geotechnical elements. Laboratory durability testing, on-site non-destructive evaluation techniques, and procedures for repair and rehabilitation will be discussed. Prereq: 3510, or Grad standing in Civil Engineering.			
<b>5561</b>	<b>Rock Mechanics, Slope Stability and Retaining Structures</b>	<b>U G</b>	<b>3</b>
Stress-strain properties of soil and rock. Strength of cohesive and non-cohesive materials under a variety of loads. Settlement and stability analyses of soil and rock slopes in for both in-situ and reconstituted materials. Prereq: 3540, or Grad standing.			
<b>5571</b>	<b>Principles of Foundation Analysis and Design</b>	<b>U G</b>	<b>3</b>
Design methods (classical and numerical) will be presented for the analysis of excavations, earth structures, shallow and deep foundations. The course introduces: site investigation techniques, failure mechanisms and design techniques of footings, drilled shafts, sheet piles, driven piles, anchors, tiebacks, and MSE walls, as well as, stability and settlement calculations. Prereq: or concur: 3540 and 3541; Grad standing; or permission of instructor.			
<b>5581</b>	<b>Numerical Methods in Geotechnical Engineering</b>	<b>U G</b>	<b>3</b>
Introduction to Geomechanical Numerical modeling of soils and development of Soil-Structure Interaction (SSI) solutions using the Finite Difference and Element Methods, and to the constitutive modeling of soils based on elasticity and plasticity deformation theories. Multiple numerical techniques that are widely used in Geotechnical engineering and Soil-Structure Interaction problems. Prereq: 3540; and 5561 or 5571; or permission of instructor.			
<b>5610.01</b>	<b>Sustainable Infrastructure for Developing Rural Communities</b>	<b>U G</b>	<b>3</b>
Working effectively with developing rural communities to identify and acquire their basic infrastructure needs demands a combination of community development and engineering expertise. This series of courses will, at an introductory level, bridge the gap between these two disciplines. It will provide the engineer with the knowledge of how to design sustainable infrastructure systems. Prereq: Permission of instructor.			
<b>5700</b>	<b>Urban Transportation Demand Forecasting</b>	<b>U G</b>	<b>3</b>
Introduction and applications of quantitative demand forecasting in urban transportation. Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Not open to students with credit for 775 or CRPlan 5700 (775). Cross-listed in CRPlan.			
<b>5720</b>	<b>Transportation Engineering Data Collection Studies</b>	<b>U G</b>	<b>3</b>
Methods of collecting and analyzing transportation data with empirical applications. Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Not open to students with credit for 672.			
<b>5730</b>	<b>Highway Location and Design</b>	<b>U G</b>	<b>3</b>
Methods of route location; design standards for highways, intersections, freeways, and interchanges; discussion of computer methods for highway design. Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Not open to students with credit for 673.			

<b>5740</b>	<b>Design and Operation of Road Traffic Facilities</b>	<b>U G</b>	<b>3</b>
Traffic laws and ordinances; operational design of streets, intersections, parking, and terminal facilities, design and operation of traffic control devices. Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Not open to students with credit for 774.			
<b>5750</b>	<b>Instrumentation, Signals, and Control in Transportation Applications</b>	<b>U G</b>	<b>3</b>
An interdisciplinary course bringing together electrical engineering tools and transportation applications. Students gain valuable experience working in teams while learning traffic flow, surveillance and control. Prereq: 3700 (570), or Grad standing in Engineering or Science, or permission of instructor. Not open to students with credit for 675 or ECE 5400 (675). Cross-listed in ECE 5400.			
<b>5760</b>	<b>Network Metrics and Control in Transportation Systems</b>	<b>U G</b>	<b>3</b>
Course covers fundamental analysis tools including: time space diagram, queuing theory, traffic flow theory, and further network theory. Includes application to intersection control (signal timing). Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Not open to students with credit for 776.			
<b>5770</b>	<b>Urban Public Transportation</b>	<b>U G</b>	<b>3</b>
This course focuses on the analysis, planning, and design of bus and rail urban public transportation services and operations. Fundamental knowledge and methods for network and route planning, service planning, design, performance monitoring, and operations control. Analytical tools including probability, statics, and optimization are extensively used in this course. Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Not open to students with credit for 670. Cross-listed in CRPlan.			
<b>5780</b>	<b>Seminar in Transportation Engineering and Planning</b>	<b>U G</b>	<b>1</b>
Speakers from and site visits to transportation agencies, organizations, and companies. Prereq: 3700 (570), or Grad standing in CivilEn, or permission of instructor. Repeatable to a maximum of 3 cr hrs.			
<b>5810</b>	<b>Construction Safety and Forensics</b>	<b>U G</b>	<b>3</b>
Practical aspects of identifying construction and structural problems, construction accidents, mechanisms of failures and accidents, methods of avoidance and forensic engineering. Prereq: 2810 (682), or permission of instructor. Not open to students with credit for both 683 and 688.			
<b>5820</b>	<b>Construction Estimating</b>	<b>U G</b>	<b>3</b>
Practical aspect in estimating real construction projects encompassing highway, foundation, buildings, and bridges. Prereq: 2810 (682), or permission of instructor. Not open to students with credit for 685.			
<b>5830</b>	<b>Construction Scheduling</b>	<b>U G</b>	<b>3</b>
Practical aspects in identifying construction activities and their relations, establishing visual representation of a project schedule, and computing the completion date of the project. Prereq: 2810 (682), or permission of instructor. Not open to students with credit for 684.			
<b>5840</b>	<b>Construction Contracts and Claims</b>	<b>U G</b>	<b>3</b>
Practical aspects of the development and interpretation of contracts and claims focusing on the construction industry. Prereq: 2810 (682), or permission of instructor. Not open to students with credit for 686.			
<b>6193</b>	<b>Individual Studies in Civil Engineering</b>	<b>G</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Topics selected to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies in Civil Engineering</b>	<b>G</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>6210</b>	<b>The Physics of Sustainable Buildings</b>	<b>G</b>	<b>3</b>
Equips students to understand and properly model the drivers of energy consumption and human exposure to airborne pollutants in buildings. Overview of the physical laws governing transport processes in buildings. Methods of modeling these processes that are specific to buildings, including energy balances, mass balances and their constituents. Prereq: Grad standing in CivilEn, or permission of instructor.			
<b>6211</b>	<b>Simulation of Building Energy Performance</b>	<b>G</b>	<b>3</b>
Simulation of building energy consumption under various design or retrofit scenarios. Prediction of the impact of design decisions and energy conservation measures on building energy consumption. Employment of EnergyPlus and OpenStudio, free but sophisticated and open source building energy modeling tools, to develop and simulate a model of a real building. Prereq: Grad standing in the College of Engineering, or permission of instructor.			
<b>6230</b>	<b>Numerical Models in Water Resources Engineering</b>	<b>G</b>	<b>3</b>
Lake, river, and coastal contaminant or heat numerical transport model formulation; averaging; finite difference and finite volume methods; errors, stability; data requirements, verification procedures. Prereq: 5230. Not open to students with credit for 823.			

<b>6300</b>	<b>Dynamics of Structures</b>	<b>G</b>	<b>3</b>
Concepts in structural dynamics and their applications in civil engineering type structures. Methods to determine dynamic response of single degree of freedom systems with free and forced vibrations, similar concepts in discrete and continuous multi-degree of freedom systems. Numerical methods to determine response over time, industry standard analysis software. Prereq: Grad standing, or permission of instructor.			
<b>6435</b>	<b>Global Navigation Satellite Systems (GNSS) Data Processing</b>	<b>G</b>	<b>3</b>
Theories and practices in GNSS data processing for high-precision (centimeter-level) static and kinematic applications. In-depth aspects of GNSS code and phase data, observation models, estimation strategy, and some physical phenomenon that affects the data. Data processing routines to estimate various parameters, hand-on experience in analyzing real GNSS data.			
<b>6451</b>	<b>Introduction to Photogrammetry</b>	<b>G</b>	<b>4</b>
Analytical and digital photogrammetry, bundle block adjustment, analytical camera calibration, aerotriangulation, image acquisition systems, GPS controlled aerotriangulation, quality control and network design, DEMs and orthophotography. Prereq: Not open to students with credit for 725 and 728.			
<b>6510</b>	<b>Advanced Concrete Materials</b>	<b>G</b>	<b>3</b>
This course takes a materials science-based approach to understanding the materials and processes involved in hydration and property development of cementitious materials. Students will then apply that learning to understand how to design systems which will prevent, and/or mitigate durability concerns common in concrete infrastructure. Prereq: Grad standing in CivilEn, or permission of instructor.			
<b>6880</b>	<b>Civil Engineering Graduate Seminar</b>	<b>G</b>	<b>1</b>
This seminar will strengthen presentation skills, engender professional development, and broaden understanding of current engineering research essential for graduate students and professional engineers. Components of this seminar will include: presentations of research work conducted within the department, workshops on professional skills, and talks by invited speakers. Prereq: Grad standing in CivilEn, or permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
<b>6999</b>	<b>Civil Engineering Research for Thesis</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>7320</b>	<b>Structural Reliability</b>	<b>G</b>	<b>3</b>
Fundamental concepts, theoretical developments, and simulation strategies for the assessment of the reliability of structures with applications in design and performance evaluation of new and existing structures and other engineered systems. Prereq: 2050, and 4320 or 4350; or Grad standing in CivilEn; or permission of instructor.			
<b>7330</b>	<b>Earthquake Engineering</b>	<b>G</b>	<b>3</b>
Analysis and design of structures subject to seismic loading; case studies of behavior of structures during earthquakes; design of structures to minimize earthquake damage; earthquake-resistant systems for highrise buildings; vibration control. Prereq: A course in structural dynamics or vibrations, or permission of instructor. Not open to students with credit for 830.			
<b>7350</b>	<b>Advanced Reinforced Concrete</b>	<b>G</b>	<b>3</b>
Advanced topics in reinforced concrete structural modeling, analysis, design and detailing. Prereq: 5350. Not open to students with credit for 831.			
<b>7421</b>	<b>Advanced Machine Learning for Remote Sensing Image Interpretation</b>	<b>G</b>	<b>3</b>
Introduces basic high-resolution remote sensing concepts with focus on optical remote sensing, and computational solutions for typical remote sensing problems. Students are assumed to know basic knowledge in statistical estimation, linear algebra and numerical methods for engineering. Students with prior experiences on remote sensing/machine learning/computer vision will find this easier to follow. Prereq: Grad standing, or permission of instructor. Not open for students with credit for ECE 7402. Cross-listed in ECE 7402.			
<b>7453</b>	<b>Photogrammetric Computer Vision</b>	<b>G</b>	<b>3</b>
Fundamental processes of digital photogrammetry. Advanced DEM and orthophoto methods. Extraction of high level features such as lines curves and segments; Matching high level features. Prereq: 6451.			
<b>7730</b>	<b>Transportation Demand Modeling</b>	<b>G</b>	<b>4</b>
Various applications of demand modeling in transportation, with emphasis on discrete choice demand modeling. Prereq: 5700, CRPlan 5700, or permission of instructor. Not open to students with credit for 873.			
<b>7740</b>	<b>Urban Transportation Network Analysis</b>	<b>G</b>	<b>4</b>
Various networks concepts and applications in transportation, with emphasis on equilibrium-based traffic assignment. Prereq: 5700, CRPlan 5700, or permission of instructor. Not open to students with credit for 874.			

## 96 Civil Engineering

<b>7760</b>	<b>Transportation Management Systems</b>	<b>G</b>	<b>3</b>
Concepts and methods for the management of unscheduled and scheduled urban transportation systems. Emphasizes network performance and travel demand interactions, and real-time applications. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 878.			
<b>7770</b>	<b>Infrastructure Systems Analysis</b>	<b>G</b>	<b>3</b>
Presents a systems approach to infrastructure provision and management with a focus on the uncertainty inherent to large-scale and long-lived facilities. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 777.			
<b>7780</b>	<b>Graduate Student Seminar in Transportation Engineering and Planning</b>	<b>G</b>	<b>1</b>
Students will present their research to one another to gain experience presenting, learn what other students are doing, and provide feedback to one another. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 or hrs. This course is graded S/U.			
<b>7790</b>	<b>Transportation Practicum</b>	<b>G</b>	<b>4</b>
Practical experience and perspective on practice of transportation engineering and planning. Prereq: Grad standing in CivilEn and CRPlan Dual M.S. Degree Program, and permission of instructor. Not open to students with credit for 990. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies in Civil Engineering</b>	<b>G</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Topics selected to give the advanced student opportunity to pursue special studies not otherwise offered Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>8194</b>	<b>Group Studies in Civil Engineering</b>	<b>G</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>8443</b>	<b>Advanced Topics in GPS</b>	<b>G</b>	<b>3</b>
Advanced topics in GPS focused on science, engineering and navigation applications of GPS: Positioning algorithms; Remote sensing with GPS; GPS atmospheric studies; GPS integration with other navigation and imaging sensors (digital cameras, LIDAR). Prereq: 7442, 6461, or GeodSci 650, 651, or equivalent; or permission of instructor. Not open to students with credit for GeodSci 888.			
<b>8454</b>	<b>Videogrammetry</b>	<b>G</b>	<b>3</b>
Optical flow; neuronal processing; measuring motion field; geometry of motion field; camera motion; rigid and nonrigid body motion; measurements from motion; block adjustment using motion. Prereq: 6451 and 7442.			
<b>8810</b>	<b>Construction Intelligent System and Simulation I</b>	<b>G</b>	<b>3</b>
Applications of intelligent system to construction systems and operations. Simulations include mathematics and computer modeling. Knowledge about computer programming recommended. Prereq: 2810 and 5810, or permission of instructor. Not open to students with credit for 881.			
<b>8820</b>	<b>Construction Intelligent System and Simulation II</b>	<b>G</b>	<b>3</b>
Applications of intelligent system to construction systems and operations. Simulations include mathematics and computer modeling. Knowledge about computer programming recommended. Prereq: 8810, or permission of instructor. Not open to students with credit for 888.			
<b>8998</b>	<b>Graduate Research in Civil Engineering</b>	<b>G</b>	<b>1 - 15</b>
Graduate level research in Civil Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			
<b>8999</b>	<b>Civil Engineering Research for Dissertation</b>	<b>G</b>	<b>1 - 15</b>
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			

### Classics

<b>1101</b>	<b>Introduction to Classical Literature</b>	<b>U</b>	<b>3</b>
Introductory survey of the Greek and Roman achievement in literature and its contribution to Western thought; selected readings in English translation in major authors from Homer to Boethius. GE lit and diversity global studies course.			
<b>1101H</b>	<b>Introduction to Classical Literature</b>	<b>U</b>	<b>3</b>
Introductory survey of the Greek and Roman achievement in literature and its contribution to Western thought; selected readings in English translation in major authors from Homer to Boethius. Prereq: Honors standing, or permission of instructor. GE lit and diversity global studies course.			

<b>2010</b>	<b>Classical Background of Scientific Terminology</b>	<b>U</b>	<b>3</b>
An introduction to the Greek and Latin roots of modern scientific terminology, especially medical and pharmaceutical terminology. This is an online-based course. In-person sessions include first-day orientation, midterm, and the final exam. Prereq: Not open to students with credit for Classics 210.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 9</b>
Topics in classical studies. Au, Sp, Su Sems. Prereq: Permission of instructor. Repeatable to a maximum of 36 or hrs or 12 completions. This course is graded S/U.			
<b>2194H</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 9</b>
Topics in classical studies. Au, Sp, Su Sems. Prereq: Honors standing, or permission of department or instructor. Repeatable to a maximum of 36 or hrs or 12 completions. This course is graded S/U.			
<b>2201</b>	<b>Classical Civilization: Greece</b>	<b>U</b>	<b>3</b>
A survey of ancient Greek civilization, concentrating upon important facets of literature, history, art, and archaeology. Prereq: Not open to students with credit for Classics 224. GE cultures and ideas and diversity global studies course.			
<b>2201H</b>	<b>Classical Civilization: Greece</b>	<b>U</b>	<b>3</b>
A survey of ancient Greek civilization, concentrating upon important facets of literature, history, art, and archaeology. Prereq: Honors standing, or permission of department or instructor. Not open to students with credit for Classics 224H. GE cultures and ideas and diversity global studies course.			
<b>2202</b>	<b>Classical Civilization: Rome</b>	<b>U</b>	<b>3</b>
A survey of the civilization of ancient Rome, concentrating upon important facets of literature, history, art, and archaeology. Prereq: Not open to students with credit for Classics 225. GE cultures and ideas and diversity global studies course.			
<b>2202H</b>	<b>Classical Civilization: Rome</b>	<b>U</b>	<b>3</b>
A survey of the civilization of ancient Rome, concentrating upon important facets of literature, history, art, and archaeology. Prereq: Honors standing, or permission of department or instructor. Not open to students with credit for Clas 2202 (Classics 225) or 225H. GE cultures and ideas and diversity global studies course.			
<b>2204</b>	<b>Medicine in the Ancient World</b>	<b>U</b>	<b>3</b>
An introduction to the theory and practice of medicine in ancient Greece and Rome. Prereq: Not open to students with credit for Classics 230. GE cultures and ideas and diversity global studies course.			
<b>2205</b>	<b>Sports and Spectacles in the Ancient World</b>	<b>U</b>	<b>3</b>
The history and social role of gymnastic and athletic competition in Greece and Rome. The evolution of their modern revivals. Prereq: Not open to students with credit for Classics 250. GE cultures and ideas course.			
<b>2220</b>	<b>Classical Mythology</b>	<b>U</b>	<b>3</b>
Personalities and attributes of the Greek and Roman gods and goddesses, their mythology and its influence on Western culture. GE lit and diversity global studies course.			
<b>2220H</b>	<b>Classical Mythology</b>	<b>U</b>	<b>3</b>
Personalities and attributes of the Greek and Roman gods and goddesses, their mythology and its influence on Western culture. Prereq: Honors standing, or permission of department or instructor. Not open to students with credit for 2220. GE lit and diversity global studies course.			
<b>2222</b>	<b>From Ishtar to Christ: The History of Mediterranean Religions</b>	<b>U</b>	<b>3</b>
This course introduces students to the historical facts of 10 ancient Mediterranean religions in a context that trains them to study religions more generally. It also teaches them how two of the most prominent religions today--Judaism and Christianity--succeeded within a richly diverse religious marketplace, and how religions respond to their political, economic, and social environments. Prereq: Not open to students with credit for RelStds 2222. GE historical study course. Cross-listed in RelStds.			
<b>2301</b>	<b>Classical Archaeology</b>	<b>U</b>	<b>3</b>
Introduction to the principles, methods, and history of archaeological investigation in the ancient Greek and Roman world, illustrated through a selection of major classical sites. Prereq: Not open to students with credit for Classics 240, History 2210 (240 or 306), or HistArt 2301 (306). GE cultures and ideas and historical study and diversity global studies course. Cross-listed in History 2210 and HistArt 2301.			
<b>2500H</b>	<b>Greek Identities: Ancient and Modern</b>	<b>U</b>	<b>3</b>
Explores how Greeks defined themselves by comparing ethnic and national identity in ancient and modern Greece. What does it mean to be Greek? Prereq: Not open to students with credit for MdmGrk 2500H (250H). GE lit course.			
<b>2798.01</b>	<b>Study Tour</b>	<b>U</b>	<b>3 - 9</b>
Specific content, location, semester(s) of offering, and prerequisites vary. Contact department for details. Prereq: Permission of instructor. Repeatable to a maximum of 27 or hrs or 3 completions.			

<b>2798.02</b>	<b>Byzantium - Constantinople - Istanbul: Crossroads of East and West</b>	<b>U</b>	<b>3</b>
Traces the evolution of culture, religion, and power in the eastern Mediterranean, focusing on the reception of classical culture by the Byzantine and Ottoman empires and the modern nations of Turkey and Greece. The class will examine how places endowed with cultural and religious meaning have been appropriated or rejected by their successive owners throughout history. GE cultures and ideas course and diversity global studies course.			
<b>3000</b>	<b>From Rome to Europe and Beyond</b>	<b>U</b>	<b>3</b>
Survey of the influence Latin as a literary language had on Western cultures from the Middle Ages to the present day. GE cultures and ideas and historical study course.			
<b>3100</b>	<b>Topics in Ancient Literature and Culture</b>	<b>U</b>	<b>3</b>
In depth analysis of selected topics in ancient literature and culture. Varies. Repeatable to a maximum of 6 or hrs.			
<b>3101</b>	<b>Greek and Roman Epic</b>	<b>U</b>	<b>3</b>
Study of Greek and Roman epic based on extensive readings in English translation of works by authors such as Homer, Apollonius, Vergil and Ovid. Prereq: Not open to students with credit for Classics 301.			
<b>3102</b>	<b>Greek and Roman Drama</b>	<b>U</b>	<b>3</b>
Study of Greek and Roman drama based on extensive readings in English translation of the plays of such authors as Sophocles, Euripides, Menander, Plautus, or Seneca. Prereq: Not open to students with credit for Classics 302.			
<b>3103</b>	<b>Comic Spirit in Antiquity</b>	<b>U</b>	<b>3</b>
Study of the comic literature of the Greco-Roman world based on extensive readings in English translation drawn from epic, drama, satire, and the novel. Prereq: Not open to students with credit for Classics 303.			
<b>3203</b>	<b>War in Ancient Greek and Roman Literature</b>	<b>U</b>	<b>3</b>
Study of ancient warfare as a complex political, social, cultural, and economic process through the lens of Greek and Latin literary texts. GE lit course.			
<b>3215</b>	<b>Sex and Gender in the Ancient World</b>	<b>U</b>	<b>3</b>
Introductory survey of women, gender, and sexual relations in the ancient Mediterranean world, especially Greece and Rome. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for History 3215. GE historical study and diversity global studies course. Cross-listed in History.			
<b>3401</b>	<b>Ancient Greek Religion</b>	<b>U</b>	<b>3</b>
Study of ancient Greek religions, including the beginnings of Christianity. Prereq: Not open to students with credit for Classics 323. GE historical study course.			
<b>3403</b>	<b>The Hero in Classical Mythology</b>	<b>U</b>	<b>3</b>
The development and interpretation of the major cycles of classical saga based on extensive readings in Greek and Roman epic and drama. Prereq: Not open to students with credit for Classics 322.			
<b>3404</b>	<b>Magic in the Ancient World</b>	<b>U</b>	<b>3</b>
An introduction to the theory and practice of magic in the ancient Mediterranean, how people viewed it, and how it survived in later epochs. GE cultures and ideas and diversity global studies course.			
<b>3405</b>	<b>Christians in the Greco-Roman World</b>	<b>U</b>	<b>3</b>
The origins and development of Christianity in its historical, social, and cultural context. Prereq: Not open to students with credit for Classics 325.			
<b>3408</b>	<b>Ancient Roman Religion</b>	<b>U</b>	<b>3</b>
Study of religious life and institutions in the Roman Republic and Empire, with due attention to the primary sources, in translation, and their difficulties. GE cultures and ideas and historical study course.			
<b>3956</b>	<b>Black Cultures and Classical Education</b>	<b>U</b>	<b>3</b>
Study the role of classics in African and the African Diaspora (US, Caribbean, Brazil). Major themes include: adaptations of classical literature, impact of classical education, classics as a tool of colonial oppression, classics as a tool of anti-colonial resistance, theories of race, classical and classicizing depictions of black bodies. Prereq: Not open to students with credit for AfAmAST 3956. Cross-listed in AfAmAST. GE lit course. GE diversity global studies course.			
<b>4031</b>	<b>Sacred Texts of the Ancient World</b>	<b>U</b>	<b>3</b>
Study of sacred texts from Greece and Rome.			
<b>4101</b>	<b>Classical Receptions: Ancient Greece and Rome in the Modern World</b>	<b>U</b>	<b>3</b>
Explorations of the reception of ancient culture in the modern world, from creative cultural engagements to comparative political and social topics.			
<b>4201</b>	<b>Political Thought and Institutions in the Greco-Roman World</b>	<b>U</b>	<b>3</b>
Selected topics concerning the development of ancient political theory. Prereq: Not open to students with credit for Classics 505.			

<b>4501</b>	<b>The Good Life: Ancient Ethical Philosophy</b>	<b>U</b>	<b>3</b>
Explorations of ancient ethical philosophy, from Socrates to the Hellenistic schools of Epicureanism and Stoicism, including their legacy in later periods.			
<b>4998</b>	<b>Research</b>	<b>U</b>	<b>1 - 3</b>
A program of study arranged for each student. Prereq: Sr standing, and permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			
<b>4998H</b>	<b>Honors Research</b>	<b>U</b>	<b>1 - 3</b>
A program of study arranged for each student. Prereq: Honors standing, and Sr standing, and permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			
<b>4999</b>	<b>Thesis Research</b>	<b>U</b>	<b>1 - 6</b>
A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in classics. Prereq: Jr standing or above, and enrollment in Classics major; or permission of instructor or department. Repeatable to a maximum of 18 or hrs or 3 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 6</b>
A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in classics. Prereq: Honors standing, Jr standing or above, and Enrollment in Classics Major; or permission of instructor or department. Repeatable to a maximum of 18 or hrs or 3 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 9</b>
Topics in classical studies at the upper undergraduate and introductory/intermediate graduate levels. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 27 or hrs or 9 completions. This course is graded S/U.			
<b>5302</b>	<b>Studies in Greek or Roman Topography</b>	<b>U G</b>	<b>3</b>
The topography and archaeology of ancient Athens, Rome, or other sites important to Greco-Roman literature and civilization. Prereq: Not open to students with credit for Classics 656.			
<b>5401</b>	<b>Methodologies for the Study of Ancient Religions</b>	<b>U G</b>	<b>3</b>
Introduction to the methodologies and the scholars who have significantly influenced the study of ancient religion. Prereq: Not open to students with credit for NELC 5401. Cross-listed in NELC.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 9</b>
Study at a foreign institution for which the student receives credit from OSU. Prereq: Permission of department chairperson. Repeatable to a maximum of 27 or hrs or 3 completions. This course is progress graded.			
<b>5798.02</b>	<b>Study Tour: Foreign</b>	<b>U G</b>	<b>3 - 9</b>
Specific content, location, semester(s) of offering, and prerequisites vary. Contact department for details. Prereq: Clas 3201.01, 3201.02, or 5302, or permission of department chairperson. Repeatable to a maximum of 27 or hrs or 3 completions.			
<b>6780</b>	<b>History of Philology</b>	<b>G</b>	<b>3</b>
A seminar introducing first-year graduate students to methods, instrument and history of research in ancient studies.			
<b>7890</b>	<b>Seminar on Classical Literatures and Cultures</b>	<b>G</b>	<b>3</b>
Graduate research seminar on topics that span across Greek and Latin (and occasionally other ancient Mediterranean) texts and cultures. Prereq: Grad standing. Repeatable to a maximum of 9 or hrs.			
<b>7891</b>	<b>Graduate Seminar on Epigraphy</b>	<b>G</b>	<b>3</b>
Graduate research seminar on Greek and/or Latin epigraphy. Prereq: Not open to students with credit for Classics 811.			
<b>7892</b>	<b>Graduate Seminar on Greek and Latin Palaeography and Textual Criticism</b>	<b>G</b>	<b>3</b>
Research seminar on Greek and Latin palaeography and textual criticism. Prereq: Not open to students with credit for Classics 812.			
<b>7893</b>	<b>Graduate Seminar on Religion and Mythology of the Ancient World</b>	<b>G</b>	<b>3</b>
Graduate research seminar on Greek and/or Roman religion and mythology. Reading knowledge of Greek and/or Latin preferred; special arrangements can be made for exceptional students without reading knowledge. Prereq: Not open to students with credit for Classics 870. Repeatable to a maximum of 9 or hrs.			
<b>7894</b>	<b>Graduate Seminar on Late Antiquity and Byzantium</b>	<b>G</b>	<b>3</b>
Research Seminar on select topics in the history, cultures, and literatures of Late Antiquity and Byzantium. Prereq: Not open to students with credit for Classics 890.			

## 98 Classics

**7895 Graduate Seminar on New Testament and Early Christian Literature** G 3

Graduate research seminar on the exegetical problems and current methodologies in the academic study of the New Testament and other early Christian literature. Reading knowledge of Greek preferred; special arrangements can be made for exceptional students without reading knowledge.  
Prereq: Grad standing. Repeatable to a maximum of 9 cr hrs.

**8301 Studies in Ancient Greek and Roman Art** G 4

Advanced study and specialized research on major topical problems in ancient art.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Cross-listed in HistArt.

### Communication

**1100 Communication in Society** U 3

Role of communication in society; forms, strategies, theories and issues; interpersonal, group, organizations, public and mass communication.  
Prereq: Not open to students with credit for 200. GE soc sci indivs and groups course.

**1101 History of Communication** U 3

History of human communication from the beginning of spoken and written communication to modern mediated and mass communication.  
Prereq: Not open to students with credit for 101. GE soc sci indivs and groups course.

**1102H History & Theories of Communication** U 3

This is a combination of Comm 1101 History of Communication and Comm 1100 Communication in Society that is open only to honors students. The first half of the course covers the history of human communication from the beginning of spoken and written communication to modern mediated and mass communication. The second half covers the various theoretical approaches to the study of communication.  
Prereq: Honors standing. Not open to students with credit for 1101 (101) or 1100 (200). GE soc sci indivs and groups course.

**2110 Principles of Effective Public Speaking** U 3

A course in critical thinking and public speaking; how to analyze and organize information for oral presentations; basics of public speaking for majors and non-majors.

**2131 Business and Professional Speaking** U 3

Train students in public speaking and developing interpersonal skills for business and the professions.

**2221 Media Writing and Editing** U 4

Designed to help students develop the fundamentals of news reporting, writing, and editing across news platforms.  
Prereq: C- or higher in 1100 and 1101, English 1110.xx or equivalent, and enrollment in Comm or Journal; or enrollment in AgrComm major; or permission of instructor. Not open to students with credit for 421 or 422.

**2223 Lantern Practicum** U 4

The practice of journalism as a member of the staff of the Lantern student newspaper and Web news site.  
Prereq: 2221 (421 and 422), or permission of instructor. Repeatable to a maximum of 8 cr hrs.

**2321 Writing for Strategic Communication** U 3

Introduction to, and instruction and practice in writing, reporting, and editing for the strategic communication industries.  
Prereq: Enrollment in AgrComm, Comm, or Journal major; or permission of instructor.

**2331 Strategic Communication Principles** U 3

The role of strategic communication in business, including basic principles of integrated marketing, theory, and ethical standards.  
Prereq: Not open to students with credit for 431. GE soc sci indivs and groups course.

**2367 Persuasive Communication** U 3

Principles of persuasion as reasoned discourse.  
Prereq: Soph standing or above, and English 1110.01 or equiv. Not open to students with credit for 2367H (367H) or 367. GE writing and comm course: level 2.

**2367H Persuasive Communication** U 3

Principles of persuasion as reasoned discourse.  
Prereq: Honors standing, English 1110, and Soph standing. Not open to students with credit for Comm 2367. GE writing and comm course: level 2.

**2511 Visual Communication Design** U 3

The examination of visual symbols, graphics, photographs, art, movies and video, and their impact on society.  
Prereq: Enrollment in Comm, Journal or AgrComm major/minor. Not open to students with credit for 311.

**2540 Introduction to Communication Technology** U 3

This course is designed as an introduction to major communication technologies. The course will consider a range of older media and contemporary new media, with a focus on societal, relational, and psychological effects.  
Prereq: Not open to students with credit for 240.

**2596 An Introduction to Health, Environment, Risk & Science Communication** U 3

Provides a general introduction to the fields of science, risk, environmental and health communication from multiple perspectives including psychological, social, and cultural. Students will develop a prototype communication intervention or campaign to address a health, safety, or environmental issue drawing on theories and research covered in the course. GE cross-disciplinary seminar course.

**2704 Language, Culture & Communication in Latino Health** U 3

Examines how language, culture & communication shape the healthcare experiences of Latinos in the US. Considers the individual & social factors contributing to health inequalities and key theories & techniques for developing health communication interventions. Team-taught with a faculty member in the Department of Spanish & Portuguese.  
Prereq: Not open to students with credit for Spanish 2504. GE diversity soc div in the US course. Cross-listed in Spanish 2504.

**3160 Communication Research Methods** U 4

This course provides an overview of quantitative research methods as they apply to communication research. Students will gain an understanding of how to conduct research, as well as hands-on experience with data collection and data analysis.  
Prereq: Stat 1350, 1450, or equiv. Not open to students with credit for 2160H or 2163.

**3163 Communication Industry Research Methods** U 4

This course (1) introduces students to traditional and state-of-the-art methods in communication industry and (2) describes how these methods can be used to answer important questions in communication industry.  
Prereq: Stat 1350, 1450, or equiv. Not open to students with credit for 2160H or 2160.

**3165 Evaluation and Usability Testing** U 4

Application of electronic research through the design, implementation, and reporting of an online data collection or technology-based project.  
Prereq: Stat 1350, 1450, or equiv.

**3188 The PRACTICE Experience** U 1 - 3

Students will obtain first-hand experience as to how a real communication agency works with multiple deadlines and deliverables. From strategic communication research to content creation to delivery to evaluation, the course will produce opportunities to learn more about elements of the account process and work with real clients.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**3189 Freelance Journalism Experience** U 1 - 3

Practicing journalism as a freelance reporter.  
Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.

**3225 Photojournalism** U 3

Practice in journalistic and documentary photography.

**3226 Multimedia Journalism** U 4

Multimedia journalism, including relevant theories and practices, and hands-on instruction and experience creating an original news-oriented web site.  
Prereq: 2221 (421 and 422), or permission of instructor. Not open to students with credit for 426.

**3325 Introduction to Organizational Communication** U 3

Addresses prior and current approaches to the study of organizational communication.  
Prereq: Not open to students with credit for 325.

**3330 Communication and Conflict Management** U 3

An overview of the communication and conflict literature with emphasis on effective conflict management.  
Prereq: Not open to students with credit for 3330H (531H) or 531.

**3331 Communication and Decision Making** U 3

Decision-making as a process; comparisons between interpersonal, bargaining-negotiation contexts, and group organizations; descriptive and prescriptive models of decision-making in small groups and organizations.  
Prereq: Not open to students with credit for 631.

**3332 Risk Communication** U 3

Students will learn how to plan, implement and evaluate a risk communication effort. Message design is an integral part of this class.  
Prereq: Not open to students with credit for 632.

**3333 Crisis Communication** U 3

Managing strategic communication efforts during a crisis.

**3334 Strategic Message Design** U 3

Message development for marketing communications - strategic communications writing.  
Prereq: Enrollment in Comm, Journal, or AgrComm major/minor. Not open to students with credit for 634.

**3340 Principles of Environmental Campaigns** U 3

A seminar on the principles of strategic communication and campaigns around environmental and risk topics such as green marketing & advertising, environmental advocacy, social marketing, and environmental risk.

<b>3345</b>	<b>Strategic Media Planning</b>	<b>U</b>	<b>3</b>
Media planning for students interested in careers in advertising, public relations and other forms of strategic communication. Prereq: 2331 (431), and enrollment in Journ or Comm major, or permission of instructor. Not open to students with credit for 545.			
<b>3402</b>	<b>Crime and the News Media</b>	<b>U</b>	<b>3</b>
Study of the nature of news coverage of crime and the criminal justice system, and the implications for individuals, social groups, and society. Prereq: Not open to students with credit for 502.			
<b>3403</b>	<b>Sports Journalism</b>	<b>U</b>	<b>3</b>
This hands-on, active-learning course will teach the practice of sports journalism, specifically developing skills in writing, social media, multimedia, research and broadcasting.			
<b>3404</b>	<b>Media Law and Ethics</b>	<b>U</b>	<b>3</b>
This course will explore the theory, history, and ethical issues associated with free speech and free press areas of the First Amendment. Students will analyze key legal and ethical issues that affect journalism and media, with a focus on cases that have shaped media law and theories that help journalism professionals make decisions. Prereq: Not open to students with credit for 3404H.			
<b>3405</b>	<b>Introduction to Lantern TV</b>	<b>U</b>	<b>3</b>
This course will prepare students to work in television news. There will be a particular focus on writing, editing, and shooting video. Students will apply knowledge by creating and presenting news content. Students will leave this course ready for internships at television stations or Internet news outlets. Prereq: Theatre 3351, or permission of instructor.			
<b>3413</b>	<b>Media Entertainment</b>	<b>U</b>	<b>3</b>
Explores speculation, theory, and research regarding effects and appeal of media entertainment, emphasizing emotional reactions. Prereq: Not open to students with credit for 613.			
<b>3414</b>	<b>Sports Media Relations</b>	<b>U</b>	<b>3</b>
This hands-on, active-learning course will teach the theory and practice of sports media relations, developing strategic communication skills including writing, social media and multimedia, which will prepare students for sports media careers at the collegiate or professional sports levels.			
<b>3415</b>	<b>Sports, Mass Media &amp; Society</b>	<b>U</b>	<b>3</b>
Sports communication is a growing area of study within the communication discipline, as scholars recognize the increasingly important role media play in conveying and shaping sports and society. This course will examine the intersection of sports, society, and the media, by exploring historical and current issues in sports that shape our ideas, perspectives, and assumptions about U.S.			
<b>3425</b>	<b>Media Management</b>	<b>U</b>	<b>3</b>
Introduction to media management with a focus on how issues of management apply to various media. Prereq: Not open to students with credit for 425.			
<b>3440</b>	<b>Mass Communication and Society</b>	<b>U</b>	<b>3</b>
This course is designed to promote an understanding of basic mass communication practice. Prereq: Not open to students with credit for 642.			
<b>3442</b>	<b>Violence in Society and Violence in the Media</b>	<b>U</b>	<b>3</b>
Issues in the psychology of media presentations of violence. Prereq: Not open to students with credit for 2442. GE soc sci indivs and groups course.			
<b>3444</b>	<b>Advertising and Society</b>	<b>U</b>	<b>3</b>
Examination of positive and negative contributions of advertising in the American mass media system to society from political, sociological, and economic perspectives. Prereq: Not open to students with credit for 644.			
<b>3450</b>	<b>Media and Citizenship</b>	<b>U</b>	<b>3</b>
This course provides an overview of media's role in citizenship by learning about media industry operations, how media influence us, critical evaluation of media, media responsibility and literacy, and how our experiences and biases affect the current relationship between mass media and democracy. We will learn how to engage with media to promote informed, active, and responsible citizenship.			
<b>3466</b>	<b>Communication and Popular Culture</b>	<b>U</b>	<b>3</b>
Communication causes and impacts of changing technological environment where traditional differences between cultural products, folk, mass, popular, low, elite, high, knowledge, journalistic, and informational are disappearing.			
<b>3513</b>	<b>Video Games and Society</b>	<b>U</b>	<b>3</b>
A broad overview of the effects of video game play on society. Students critique the literature on this topic and design their own study to test video game effects.			
<b>3545</b>	<b>Human-Computer Interaction &amp; User Experience</b>	<b>U</b>	<b>3</b>
This course is an introduction to human-computer interaction (HCI) and user experience (UX). The goal of this class is to help you learn how to design usable interactive technologies. We will consider what constitutes good design, study a variety of ways to conceptualize design problems, examine how users' cognitive abilities and emotions influence design, and learn about interfaces.			

<b>3554</b>	<b>Social Implications of Communication Technology</b>	<b>U</b>	<b>3</b>
Analyze the individual, interpersonal, and societal impact of digital and Internet technologies such as blogs, wikis, online dating sites, mobile telephony, texting, apps, social media sites, video games, virtual reality, and online virtual worlds. Covers important issues that cut across multiple technologies, such as privacy, digital deception, and cyberbullying. Prereq: Not open to students with credit for 654.			
<b>3558</b>	<b>Social Media</b>	<b>U</b>	<b>3</b>
This course functions to help students (1) acquire theoretical and practical knowledge about social media and (2) understand the ways in which social media influence individuals, groups, and society. Prereq: Not open to students with credit for 4554.			
<b>3597.01</b>	<b>International Perspectives on Communication</b>	<b>U</b>	<b>3</b>
Perspectives on communication media from different parts of the world. Prereq: Not open to students with credit for 597. GE diversity global studies and cross-disciplinary seminar course.			
<b>3597.02</b>	<b>Media and Terrorism</b>	<b>U</b>	<b>3</b>
Focuses on the portrayal of terrorism in the media and on how terrorists use the media to influence public opinion. Prereq: Jr or Sr standing. Not open to students with credit for 597.01. GE diversity global studies and cross-disciplinary seminar course.			
<b>3620</b>	<b>Introduction to Interpersonal Communication</b>	<b>U</b>	<b>3</b>
Analysis of the role of interpersonal communication to begin relationships, achieve intimacy, sustain a certain relational status and terminate relationships. Prereq: Not open to students with credit for 320.			
<b>3624</b>	<b>Communication in Personal Relationships</b>	<b>U</b>	<b>3</b>
Advanced level survey of theory and research concerning the role of communication in he development, maintenance, and decay of interpersonal relationships. Prereq: Not open to students with credit for 624.			
<b>3628</b>	<b>Contemporary Persuasion Theory</b>	<b>U</b>	<b>3</b>
Persuasion theories and issues in mass audience settings; persuasion in interpersonal contexts, including organizations, communities, family, and personal relationships.			
<b>3629</b>	<b>Language and Social Interaction</b>	<b>U</b>	<b>3</b>
Examination of perspectives on and ways to analyze language use in everyday contexts, discourse in society, implications for communication theory, practice, and competencies. Prereq: Not open to students with credit for 629.			
<b>3662</b>	<b>Communication and Gender</b>	<b>U</b>	<b>3</b>
Examination of contemporary communication theory, method, and practice relevant to gender issues. Prereq: Not open to students with credit for 662.			
<b>3667</b>	<b>Nonverbal Communication</b>	<b>U</b>	<b>3</b>
Theory and research on communication that does not use words. Prereq: Not open to students with credit for 435.			
<b>3668</b>	<b>Intercultural Communication</b>	<b>U</b>	<b>3</b>
An examination of the role of intercultural communication in organizational contexts and the attendant effects on the creation and transmission of cultural consciousness, knowledge, tradition, and practices. Prereq: Not open to students with credit for 368.			
<b>3800</b>	<b>Career Development in Communication</b>	<b>U</b>	<b>3</b>
This course overviews various career paths for students pursuing degrees in Journalism and Communication by using career development theories to develop their career planning skills. Strategies and ethical practices for career planning are applied to each major specialization for business and non-profit occupations.			
<b>4190</b>	<b>Journalism and Communication Co-Operative Learning Experience</b>	<b>U</b>	<b>0 - 12</b>
Allows students to participate in a full immersion professional experience in a career-related position. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
<b>4191</b>	<b>Internship</b>	<b>U</b>	<b>1 - 3</b>
On-the-job internships in communication practice or research conducted under supervision of internship coordinator through the undergraduate advising office. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Students make extensive and significant studies in the field of journalism or communication. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 12</b>
Regular class meetings and group discussion of specified problems. Repeatable.			

## 100 Communication

**4202 Feature Writing** U 3

This hands-on, active-learning course will teach students how to identify, research, report and write non-fiction feature articles that combine fact-based journalistic writing with non-fiction writing techniques, including characters development, description and narrative arc.

**4221 Data Journalism in Enterprise Reporting** U 4

A capstone experience devoted to enterprise journalism that springs from computer assisted reporting techniques and presented through the use of traditional print and multimedia journalism. Prereq: 2221 (421 and 422), and enrollment in Comm, Journal, or AgrComm major. Not open to students with credit for 621.

**4240 Science Communication** U 3

Explores the structure, meanings and implications of "science communication" with an emphasis on how values, attitudes, social structure, and communication affect public perceptions of science and technology.

Prereq: Not open to students with credit for 4240H (640H), 3240H, or 640.

**4337 Public Communication Campaigns** U 4

Application of management techniques to public relations; public relations strategy; campaign development.

Prereq: 2331 (431), and enrollment in Comm or Journal major; or permission of instructor. Not open to students with credit for 637.

**4401 Mass Communication and Youth** U 3

Introduction to theories and research on the uses and effects of media on children and adolescents, including discussion of interventions.

Prereq: Not open to students with credit for 501.

**4445 Stereotypes in Media** U 3

Expose students to the existence and impact of stereotypes in various forms of media.

Prereq: Not open to students with credit for 645.

**4511 User-Centered Communication Design** U 3

Concepts and principles of user-centered design and application of skills to multimedia design. Prereq: Comm 2511 (311), or Design 320, 570, 571, or 573, or permission of instructor. Not open to students with credit for 611.

**4555 Computer Interface and Human Identity** U 3

Surveys computer phenomena such as artificial intelligence, agents, avatars, virtual worlds, and humanoid robots, and identities such as humanness, race, gender and sexuality.

Prereq: Not open to students with credit for 655.

**4556 Information Technology and Organizational Communication** U 3

Focus on the role of various technologies within organizations and for work team members. Prereq: Not open to students with credit for 656.

**4557 Communication Network Infrastructure** U 3

Introduction to the concepts and principles that underlie contemporary telecommunication networks with the opportunity to apply these concepts to the analysis of novel systems.

Prereq: 2540 (240). Not open to students with credit for 657.

**4558 Social Media Analytics** U 3

This course is an introduction to analyzing social media data. Students will learn how to operate an established analytics platform and complete a novel research project using real world social media data. Students will learn how to tackle industry and academic research problems using social media logs and metrics.

Prereq: 3160, 3163, or 3165.

**4600 Communication and Emotion** U 3

Introduction to research about emotion in mediated communication. Applications in domains of students' choice (e.g. sports communication, entertainment, advertising, online communication, news, public affairs communication, etc.).

**4635 Communication Dynamics in Groups** U 3

This class examines how communication dynamics affect group performance in organizations through topics such as: communication roles and norms, effective communication in teamwork and decision-making, leadership, group cohesion, managing conflict and using communication technologies.

**4665 Human Communication in Social Networks** U 3

Communication creates a relationship between individuals in various ways, and the large set of these relationships form networks. In this class, our task will be to observe and understand the various ways in which communication may be directly observed or inferred and the consequences that such communication has for humans who are embedded in networks.

**4736 Health Communication in Interpersonal Contexts** U 3

Study of communication relevant to health care in various face-to-face contexts.

Prereq: Not open to students with credit for 636.01.

**4737 Health Communication in Mass Mediated Contexts** U 3

Overview of theory and research related to the role of mass media as they affect the public's health behavior.

Prereq: Not open to students with credit for 636.02.

**4738 Health Communication and New Media** U 3

Focuses on the current and future uses of technology in health communication with an emphasis on technology in both patient-provider relationships and health campaigns.

Prereq: Not open to students with credit for 638.

**4797 Study at a Foreign Institution** U 1 - 12

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work.

Prereq: Permission of department chair. Repeatable to a maximum of 36 cr hrs or 36 completions. This course is progress graded.

**4814 Political Communication** U 3

Analysis of the roles played by the mass media, public leaders, and accidental circumstances in the development of issues and images in contemporary American political communication.

Prereq: Enrollment in Comm or Journal major, or permission of instructor. Not open to students with credit for 614.

**4820 Public Opinion and Communication** U 3

Investigation of public opinion from social, political, and psychological perspectives, and study of the role communication (including the media) plays in the process.

Prereq: Not open to students with credit for 620 or 620H.

**4998 Undergraduate Research** U 1 - 15

Supervised collaborative research in Communication.

Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 8 completions. This course is graded S/U.

**4999 Thesis Research** U 1 - 12

Individualized instruction in an independent research project.

Prereq: A grade of A in at least half of all Comm courses taken and an average of B in the remainder, and Jr or Sr standing in Journalism or Communication, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**4999H Honors Thesis Research** U 1 - 12

Individual advising for an honors thesis project.

Prereq: Honors and Sr. standing in Comm or Journal and permission of instructor. Not open to students with credit for 783H. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**6500 Introduction to Graduate Study** G 1

An overview of graduate study in Communication. Research and teaching resources, procedures, and expectations, areas of study and faculty interests.

Prereq: Grad standing, or instructor permission and Grad School approval for undergrad credit. This course is graded S/U.

**6661 Statistical Applications in Communication I** G 3

Fundamental principles of statistics commonly used in communication research.

Prereq: Grad standing, or permission of instructor. Not open to students with credit for 661.

**6701 Working with Communication Data** G 3

Techniques for coding, entering and maintaining data sets in preparation for thesis or other research activities. Includes logical coding, documentation, mapping responses to numerical representations, assessing reliability, merging files, maintaining confidentiality via ID codes and other topics.

Prereq: Grad standing.

**6760 Communication Research Methods** G 3

An overview of empirical research methods in communication.

Prereq: Grad standing. Not open to students with credit for 760.

**6806 Contemporary Theories of Communication** G 3

Overview of contemporary approaches to the study of communication.

Prereq: Grad standing, or permission of instructor. Not open to students with credit for 806.

**6807 Foundations of Communication Theory** G 3

A historical overview of the major theories and research that led to the development of the field of communication.

Prereq: 6806 (806) and Grad standing; or permission of instructor. Not open to students with credit for 807.

**7710 Introduction to Social Networks** G 3

Focuses on the theoretical and methodological bases of social network analysis.

Prereq: Grad standing, and enrollment in Comm or Social program; or permission of instructor. Not open to students with credit for Social 7710. Cross-listed in Social.

**7712 Seminar in Social Networks** G 3

The theory, substance, and methods for understanding patterns, causes, and consequences of relationships among populations of actors. Social 6649 and 6581 recommended.

Prereq: Grad standing, and enrollment in Comm or Social program; or permission of instructor. Not open to students with credit for Social 7712. Cross-listed in Social.

**7713 Political Communication** G 3

A graduate-level examination of the role of communication in American politics, acquainting the student with the literature on political communication and stimulating ideas for original research in the field of political communication.

Prereq: Grad standing, or permission of instructor. Not open to students with credit for 713. Cross-listed in PolitSc 7168.

<b>7789</b>	<b>Survey Research Practicum</b>	<b>G</b>	<b>3</b>
Hands-on applications for students interested in the planning, implementation and analysis of a scientific sample survey. Prereq: Admission to grad survey research, or permission of instructor. Not open to students with credit for 7789 or 789 in Econ, PolitSc, Stat, AEDEcon, AgrEduc, BusML, EduPL, Geog, Psych, PubHlth, or PubAfrs. Cross-listed in PolitSc, Econ, and Stat.			
<b>7790</b>	<b>Statistical Applications in Communication II</b>	<b>G</b>	<b>3</b>
Survey of research methods and practical experience in conducting a research project. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 790.			
<b>7802</b>	<b>Narrative and Communication</b>	<b>G</b>	<b>3</b>
Integrated reading and research in communication narrative. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 802.			
<b>7813</b>	<b>Public Opinion and Communication</b>	<b>G</b>	<b>3</b>
Discusses the central role of communication in the concept of public opinion. Reviews research on the influence of communication on public opinion direction and quality. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 813.			
<b>7840</b>	<b>Mass Communication and the Individual</b>	<b>G</b>	<b>3</b>
Survey of theory and research in mass communication dealing with psychological aspects of mass communication. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 840.			
<b>7841</b>	<b>Mass Communication and the Social System</b>	<b>G</b>	<b>3</b>
Survey of mass communication theory at the macro or sociological level. Seminar covers social theories shaping media content and theories of media influence or effects. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 841.			
<b>7850</b>	<b>Communication Technology</b>	<b>G</b>	<b>3</b>
Theory and research on the uses and effects of communication technology. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 850.			
<b>7851</b>	<b>Human-Computer Interaction</b>	<b>G</b>	<b>3</b>
This course is one of two seminars offered as part of the communication technology focus area of the School of Communication graduate program. The focus of this course is on experiences with technology, including technological adoption and use; affordances across digital platforms; usability; and elements of interface design and their psychological, interpersonal, social and cultural implications.			
<b>7870</b>	<b>Media, Campaigns and Health</b>	<b>G</b>	<b>3</b>
How mediated communication can influence human behavior and public policy in ways that can improve (or can negatively impact) human health and well-being. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 870.			
<b>7871</b>	<b>Health Communication in Interpersonal Settings</b>	<b>G</b>	<b>3</b>
Introduce students to the research and theories comprising contemporary literature in health communication in interpersonal settings. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 871.			
<b>7890</b>	<b>Colloquium</b>	<b>G</b>	<b>1</b>
Colloquium. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>7927</b>	<b>Theory Construction</b>	<b>G</b>	<b>3</b>
The formal principles of theory and model construction function as criteria for examining the strengths and weaknesses of communication research models. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 927.			
<b>7998</b>	<b>Directed Research</b>	<b>G</b>	<b>1 - 3</b>
Directed research. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions. This course is graded S/U.			
<b>7999</b>	<b>Thesis Research</b>	<b>G</b>	<b>1 - 12</b>
Thesis research. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 3 completions. This course is graded S/U.			
<b>8193</b>	<b>Directed Reading</b>	<b>G</b>	<b>1 - 3</b>
Directed reading. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8801</b>	<b>Special Topics in Communication Research Methods</b>	<b>G</b>	<b>3</b>
In-depth study of particular methods in the field of communication. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs.			
<b>8940</b>	<b>Special Topics in Mass Communication</b>	<b>G</b>	<b>3</b>
Advanced seminar on current research in mass communication. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
<b>8970</b>	<b>Special Topics in Communication</b>	<b>G</b>	<b>3</b>
Advanced seminar on current research cutting across sub-fields of communication. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.			

<b>8999</b>	<b>Dissertation Research</b>	<b>G</b>	<b>1 - 6</b>
Dissertation research. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.			

## Community Leadership

<b>1100</b>	<b>Exploring Agricultural Communication, Education, and Leadership</b>	<b>U</b>	<b>½</b>
Basic understanding of global trends within agricultural communication, agricultural education, and community leadership, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development.			
<b>2100.01</b>	<b>Foundations of Leadership I</b>	<b>U</b>	<b>1</b>
This course focuses on the foundations of leadership. Topics include introductory leadership theories and concepts with a focus on personal development, leadership style, and self-discovery. This CCP course is offered as a part of an off-campus, community-embedded program in cooperation with the Department of Agricultural Communication, Education, and Leadership. Selection into an approved partner program with the Department of Agricultural Communication, Education, and Leadership (such as OSUE's LOOK to Ohio) required for enrollment.			
<b>2100.02</b>	<b>Foundations of Leadership II</b>	<b>U</b>	<b>2</b>
This course focuses on the foundations of leadership. Topics include introductory leadership theories and concepts with a focus on developing relationships with others. Topics include diversity, communication, and teamwork. This CCP course is offered as a part of an off-campus, community-embedded program in cooperation with the Department of Agricultural Communication, Education, and Leadership. Selection into an approved partner program with the Department of Agricultural Communication, Education, and Leadership (such as OSUE's LOOK to Ohio) required for enrollment.			
<b>2189</b>	<b>Early Experience in Community and Extension Education</b>	<b>U</b>	<b>1</b>
The early experience program is designed to help students explore careers and gain experience in Community and Extension Education. Prereq: Permission of instructor. Not open to students with credit for AEE 280.			
<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Planning, conducting, and reporting a special study appropriate to the needs of the student. Prereq: CPHR 2.50 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is progress graded (S/U).			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 5</b>
Group studies for students in specialized programs. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>2530</b>	<b>Introduction to Agricultural Communication, Education, and Leadership</b>	<b>U</b>	<b>2</b>
Creating an awareness and understanding of the agricultural communication, education and leadership profession. The class will provide a basis for educating, communicating, and leading by synthesizing theoretical knowledge with practical application. Prereq: Not open to students with credit for AEE 230 or AgrComm 200.			
<b>2530E</b>	<b>Introduction to Agricultural Communication, Education, and Leadership</b>	<b>U</b>	<b>2</b>
Creation of an awareness and understanding of the agricultural communication, education and leadership profession. Provides a basis for educating, communicating, and leading by synthesizing theoretical knowledge and practical application. Prereq: Honors standing.			
<b>3330</b>	<b>Program Development and Evaluation</b>	<b>U</b>	<b>3</b>
Introductory skills necessary to develop, deliver, and evaluate educational programs. Students will examine the principles, methods, and models of program development and evaluation.			
<b>3530</b>	<b>Foundations of Personal and Professional Leadership</b>	<b>U</b>	<b>3</b>
Leadership theories, principles, and concepts. Research-based theories, methods of social scientific inquiry, individual strengths, personal leadership philosophy and vision, concepts of diversity and ethics, and professional development plan. Prereq: Not open to students with credit for AEE 342.			
<b>3530E</b>	<b>Foundations of Personal and Professional Leadership</b>	<b>U</b>	<b>3</b>
Leadership theories, principles, and concepts. Research-based theories, methods of social scientific inquiry, individual strengths, personal leadership philosophy and vision, concepts of diversity and ethics, and professional development plan. Prereq: Honors standing. Not open to students with credit for AEE 342.			
<b>3535</b>	<b>Toward Cultural Proficiency</b>	<b>U</b>	<b>3</b>
Learner effectiveness in multicultural, multiracial learning environments. Strategies for obtaining insight into learners from varied cultures. Theory will connect practice through service-learning using cognitive, affective and psychomotor domains. Prereq: Not open to students with credit for AEE 594. GE cultures and ideas and diversity soc div in the US course.			

## 102 Community Leadership

<b>3537</b>	<b>Data Analysis in the Applied Sciences</b>	<b>U</b>	<b>3</b>
The purpose of this course is to develop an overview and basic understanding of descriptive and inferential statistics. Prereq: Math 1130 (130) or 1148 (148). Not open to students with credit for AEE 387. GE data only course. MA Admis Cond course.			
<b>4191</b>	<b>Internship in Community Leadership</b>	<b>U</b>	<b>1 - 2</b>
Provides students in the Community Leadership program with an experiential learning opportunity to practice and apply knowledge and skills learned in an authentic setting. Open to Community Leadership Majors with a Leadership Specialization. Prereq: Enrollment in ComLdr major with Leadership Specialization, and permission of instructor. Not open to students with credit for AEE 489. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Community Leadership</b>	<b>U</b>	<b>1 - 3</b>
Specialized topics in leadership or community and extension education. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>4430</b>	<b>Leadership in Teams and Community Organizations</b>	<b>U</b>	<b>3</b>
Principles and strategies involved in leading teams and community organizations. Students will examine leadership dynamics in small groups and reflect on applications in various settings. Team service project with student or community organization. Prereq: Not open to students with credit for AEE 442.			
<b>4480</b>	<b>Capstone in Leadership</b>	<b>U</b>	<b>3 - 4</b>
Application of leadership theories, principles, concepts, and skills in a setting aligned with the student's academic and/or career interests. Students will plan, conduct, reflect, and report the project in conjunction with a faculty supervisor. Prereq: Permission of instructor. This course is graded S/U.			
<b>4530</b>	<b>Senior Transition from College</b>	<b>U</b>	<b>3</b>
Designed to serve as a "transition" course for seniors at The Ohio State University, preparing them for their first professional position. Students will synthesize their knowledge and skills developed while at OSU and learn how transition those talents into practical application. Prereq: Sr standing.			
<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 10</b>
Conducting and reporting an undergraduate research project. Prereq: Permission of instructor. This course is graded S/U.			
<b>4999</b>	<b>Research with Distinction</b>	<b>U</b>	<b>1 - 6</b>
Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman University Undergraduate Research Forum. Prereq: GPA 3.0 or above, and GPA 3.0 or above in major, and permission of project supervisor. Not open to students with credit for 683H. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>4999H</b>	<b>Research with Distinction - Honors</b>	<b>U</b>	<b>1 - 6</b>
Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the University's Denman Undergraduate Research Forum. Prereq: Honors standing, and FAES 4590.01H (590.01H), and CPHR 3.4 or above, and GPA 3.4 or above in major, and permission of honors project supervisor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>5000</b>	<b>Leadership for Community Change</b>	<b>U G</b>	<b>3</b>
Leading change in a community setting is important to addressing complex, adaptive community challenges. This course will teach students how to work with a community (of place, interest, etc.) through the difficult process of change by engaging them in leadership development. This course is meant to serve as an advanced course for students learning about leadership. Prereq: ENR 3500, or permission of instructor.			
<b>5193</b>	<b>Individual Studies in Community Leadership</b>	<b>U G</b>	<b>1 - 3</b>
Planning, conducting and reporting a special study appropriate to the needs of the student. Prereq: CPHR 2.50 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies in Community Leadership</b>	<b>U G</b>	<b>1 - 3</b>
Group studies for student in specialized programs. Repeatable to a maximum of 10 cr hrs or 5 completions.			
<b>5330</b>	<b>Methods of Teaching in Nonformal Learning Environments</b>	<b>U G</b>	<b>3</b>
Examining the teaching and learning process with emphasis on planning and delivering agricultural instruction for agribusiness, extension, and non-formal learning environments.			
<b>5335</b>	<b>Volunteer and Human Resource Management</b>	<b>U G</b>	<b>3</b>
Introductory skills in volunteer and human resource management for working in educational and non-profit organizations with paid and unpaid staff. Examination of principles, methods, and models and application with case studies. Prereq: Not open to students with credit for AEE 795.02.			

<b>5350</b>	<b>Youth Organizations and Program Management</b>	<b>U G</b>	<b>4</b>
Introduction to and analysis of youth organizations and youth program management. Theories, principles, and key concepts important for assuming leadership roles in contemporary youth organizations. Prereq: Not open to students with credit for both AEE 642 and 643.			
<b>5380</b>	<b>Internship in Community and Extension Education</b>	<b>U G</b>	<b>4</b>
Under the supervision of a Departmental faculty instructor and daily leadership of an experienced Extension educator at the county level, students will enhance their professional and technical competencies in Extension education. Concur: 5381 and 5382.			
<b>5381</b>	<b>Capstone in Community and Extension Education</b>	<b>U G</b>	<b>4</b>
The capstone brings together a student's theory and programmatic work during their undergraduate career and applies it to a cohesive pattern that related to applied professional Extension work settings. Concur: 5380 and 5382.			
<b>5382</b>	<b>Issues in Community and Extension Education</b>	<b>U G</b>	<b>4</b>
Explore past, current, and potential trends and issues related to Extension programming and apply them to professional settings. Students will learn about contemporary issues and how to use futuring and strategic planning tools to address the issues. Concur: 5380 and 5381.			
<b>5430</b>	<b>Professional Leadership Ethics</b>	<b>U G</b>	<b>3</b>
This course is designed to prepare students to meet the ethical challenges facing employees and other members of education, nonprofit organizations and business. The class will address moral issues at every organizational level - personal, interpersonal, group and system wide.			

### Comparative Studies

<b>1100</b>	<b>Intro to the Humanities: Cross-Cultural Perspectives</b>	<b>U</b>	<b>3</b>
Explores the role of literature and the arts in constructing, maintaining, and questioning the values and beliefs of diverse cultures and historical periods; topics vary. Prereq: Not open to students with credit for 1100H. GE lit and diversity global studies course.			
<b>1100H</b>	<b>Intro to the Humanities: Cross-Cultural Perspectives</b>	<b>U</b>	<b>3</b>
Explores the role of literature and the arts in constructing, maintaining, and questioning the values and beliefs of diverse cultures and historical periods; topics vary. Prereq: Honors standing. Not open to students with credit for 1100 (100H, 100). GE lit and diversity global studies course.			
<b>2099</b>	<b>The Question of Comparative Studies</b>	<b>U</b>	<b>1</b>
This course offers an introduction to the Comparative Studies major. It is designed to help students to take advantage of curricular, research, and advising opportunities; to manage the particular challenges of independent and interdisciplinary work; to link classroom work to social and political engagement with relevant communities; and to prepare for life after graduation. This course is graded S/U.			
<b>2101</b>	<b>Literature and Society</b>	<b>U</b>	<b>3</b>
Study of relationships among politics, society, and literature; analysis of social and political elements of literature and film from diverse cultures and historical periods. Prereq: English 1110 (110) or equiv. Not open to students with credit for 2101H (201H, 201). GE lit and diversity global studies course.			
<b>2101H</b>	<b>Literature and Society</b>	<b>U</b>	<b>3</b>
Study of relationships among politics, society, and literature; analysis of social and political elements of literature and film from diverse cultures and historical periods. Prereq: Honors standing, and English 1110 (110) or equiv. Not open to students with credit for 2101 (201, 201H). GE lit and diversity global studies.			
<b>2103</b>	<b>Literature and the Self</b>	<b>U</b>	<b>3</b>
Study of relationships between psychology and literature; analysis of psychological concepts and processes as represented in literature and film of diverse cultures and historical periods. Prereq: English 1110 (110) or equiv. Not open to students with credit for 2103H (203H) or 203. GE lit and diversity global studies course.			
<b>2104</b>	<b>Literature, Science, and Technology</b>	<b>U</b>	<b>3</b>
Study of relationships among literature, science, and technology; analysis of representations of science and technology in literature and film of diverse cultures and historical periods. Prereq: English 1110 or equiv. Not open to students with credit for 2104H. GE lit and diversity global studies course.			
<b>2104H</b>	<b>Literature, Science, and Technology</b>	<b>U</b>	<b>3</b>
Study of relationships among literature, science, and technology; analysis of representations of science and technology in literature and film of diverse cultures and historical periods. Prereq: Honors standing, and English 1110 or equiv. Not open to students with credit for 2104. GE lit and diversity global studies course.			
<b>2105</b>	<b>Literature and Ethnicity</b>	<b>U</b>	<b>3</b>
Study of relationships between literature and ethnicity; analysis of concepts of ethnicity as represented in literature and film of diverse cultures and historical periods. Prereq: English 1110 (110) or equiv. Not open to students with credit for 205. GE lit and diversity soc div in the US course.			

<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give students an opportunity for personal study with a member of the faculty. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give groups of students an opportunity to pursue special studies not otherwise offered. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>2194H</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give groups of students an opportunity to pursue special studies not otherwise offered. Prereq: Honors standing or permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>2214</b>	<b>Introduction to Sexuality Studies</b>	<b>U</b>	<b>3</b>
Provides an introduction to sexuality studies through an interdisciplinary approach. To apply the knowledge learned, this course requires a fieldwork component. Prereq: Not open to students with credit for 214, EduPAES 214, or SxtySt 2214. GE diversity soc div in the US course. Cross-listed in SxtySt.			
<b>2220</b>	<b>Introduction to South Asia Studies</b>	<b>U</b>	<b>3</b>
A multi-disciplinary introduction to South Asia's geographical, political, cultural, and religious contexts and connections. Prereq: English 1110 (110) or equiv. Not open to students with credit for NELC 2220 or SAsia 2220. Cross-listed in SAsia. GE cultures and ideas and diversity global studies course.			
<b>2264</b>	<b>Introduction to Popular Culture Studies</b>	<b>U</b>	<b>3</b>
Introduction to the analysis of popular culture texts, with special emphasis on the relationship between popular culture studies and literary studies. Prereq: English 1110 (110) or equiv. Not open to students with credit for 264, or English 2264 (264). Cross-listed in English. GE cultures and ideas course.			
<b>2281</b>	<b>American Icons</b>	<b>U</b>	<b>3</b>
Interdisciplinary methods in American studies; emphasis on the plurality of identities in American culture. Prereq: English 1110 (110) or equiv. Not open to students with credit for 234. GE cultures and ideas and diversity soc div in the US course.			
<b>2301</b>	<b>Introduction to World Literature</b>	<b>U</b>	<b>3</b>
Analysis of oral and written literatures of diverse cultures and historical periods. Prereq: English 1110, or equiv. GE lit and diversity global studies course.			
<b>2321</b>	<b>Introduction to Asian American Studies</b>	<b>U</b>	<b>3</b>
Introduction to Asian American studies; history, experiences, and cultural production of Americans of Chinese, Japanese, Korean, South Asian, Filipino, and Southeast Asian ancestry. Prereq: English 1110 (110), or equiv. Not open to students with credit for 241. GE cultures and ideas course and diversity soc div in the US course.			
<b>2322</b>	<b>Introduction to Latino Studies</b>	<b>U</b>	<b>3</b>
Introduction to Latino studies; history, politics, and cultural production of Latino/a communities in the U.S. and its borderlands. Prereq: English 1110 (110) or equiv. Not open to students with credit for 242, or Spanish 2242. GE cultures and ideas and diversity soc div in the US course. Cross-listed in Spanish 2242.			
<b>2323</b>	<b>Introduction to American Indian Studies</b>	<b>U</b>	<b>3</b>
Explores the legal, cultural, historic, and political foundations, experiences, and perspectives and futures of American Indians in the U.S. Prereq: English 1110 or equiv. GE cultures and ideas and diversity soc div in the US course.			
<b>2340</b>	<b>Introduction to Cultures of Science and Technology</b>	<b>U</b>	<b>3</b>
Critical analysis of the multiple relations of science to society, with emphasis on knowledge, power, authority, values, and ethics. Prereq: English 1110 (110), or equiv. Not open to students with credit for 2341 (272). GE cultures and ideas and diversity global studies course.			
<b>2341</b>	<b>Technology, Science, and Society</b>	<b>U</b>	<b>3</b>
Critical analysis of the relations among science, technology, and culture, with particular emphasis on ethical issues in technology and engineering. Prereq: English 1110.01 (110.01) or equiv. Not open to students with credit for 2340 (272). GE cultures and ideas and diversity global studies course.			
<b>2350</b>	<b>Introduction to Folklore</b>	<b>U</b>	<b>3</b>
A general study of the field of folklore including basic approaches and a survey of primary folk materials: folktales, legends, folksongs, ballads, and folk beliefs. Prereq: English 1110 (110) or equiv. Not open to students with credit for English 2270 (270), or 2350H. GE cultures and ideas course. Cross-listed in English 2270.			
<b>2350H</b>	<b>Introduction to Folklore</b>	<b>U</b>	<b>3</b>
A general study of the field of folklore including basic approaches and a survey of primary folk materials: folktales, legends, folksongs, ballads, and folk beliefs. Prereq: Honors standing, and English 1110 (110) or equiv. Not open to students with credit for 2350, English 2270 (270), or 2270H. GE cultures and ideas course. Cross-listed in English 2270H.			

<b>2360</b>	<b>Introduction to Comparative Cultural Studies</b>	<b>U</b>	<b>3</b>
Introduction to interdisciplinary field of cultural studies; emphasis on relation of cultural production to power, knowledge, and authority, globally and locally. Prereq: English 1110 (110) or equiv. Not open to students with credit for 274. GE cultures and ideas course.			
<b>2367.02</b>	<b>U.S. Latino Identity</b>	<b>U</b>	<b>3</b>
Latino/a identity in the U.S.; emphasis on Latino/a cultural history and expression and on role of race, class, gender, and sexuality in identity construction. Prereq: English 1110 (110) or equiv, and Soph standing. Not open to students with credit for 367.04. GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2367.04</b>	<b>Science and Technology in American Culture</b>	<b>U</b>	<b>3</b>
Role of science and technology in contemporary American society; their relationship to human values; sources of concern about their impact; evaluation of selected issues. Prereq: English 1110 (110), or equiv, and Soph standing. Not open to students with credit for 2367.04H (367.02H) or 367.02. GE writing and comm: level 2 and cultures and ideas and diversity soc div in the US course.			
<b>2367.07</b>	<b>Religious Diversity in America</b>	<b>U</b>	<b>3</b>
Exploration of the concept of religious freedom and the position of minority religious groups in American society. Prereq: English 1110 (110) or equiv and Soph standing. Not open to students with credit for 367.03. GE writing and comm: level 2 and cultures and ideas and diversity soc div in the US course.			
<b>2367.08</b>	<b>American Identity in the World</b>	<b>U</b>	<b>3</b>
American culture viewed from inside and from the perspective of foreign cultures, as seen in literature, film, art, music, journalism, folklore, and popular culture. Prereq: English 1110, or equiv, and Soph standing. Not open to students with credit for 2367.08H. GE writing and comm: level 2 and cultures and ideas and diversity soc div in the US course.			
<b>2420</b>	<b>American Food Cultures</b>	<b>U</b>	<b>3</b>
Historical perspective on the development of the American food system, including associated discourses and cultures, leading to exploration of contemporary concerns about industrial food, the American diet, and the politics surrounding these issues. GE cultures and ideas and diversity soc div in the US course.			
<b>2797</b>	<b>Introductory Study at a Foreign Institution</b>	<b>U</b>	<b>1 - 30</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of Department. Repeatable to a maximum of 30 cr hrs.			
<b>2864H</b>	<b>Modernity and Postmodernity: Issues and Ideas</b>	<b>U</b>	<b>3</b>
Examination of some of the defining ideas of modern thought and how those ideas have problematically affected modern life in both developed and developing countries. Prereq: Honors standing and English 1110 (110) or equiv. Not open to students with credit for 240H or 240. GE lit and diversity global studies course.			
<b>3052</b>	<b>Mediterranean Voyages: Migration and Travel</b>	<b>U</b>	<b>3</b>
An exploration of human movement in the contemporary Mediterranean: tourism vs. migration. Survey of the historical varieties of travel in the Mediterranean and the examination of contemporary written and filmed narratives of migration in the Mediterranean zone. Prereq: English 1110 or equiv. Not open to students with credit for Italian 3052. GE cultures and ideas and diversity global studies course. Cross-listed in Italian.			
<b>3302</b>	<b>Translating Literatures and Cultures</b>	<b>U</b>	<b>3</b>
Introduction to issues and problems inherent to translating literatures and cultures. Prereq: English 1110 (110), or equiv. Not open to students with credit for 3302E (373E) or 373. GE cultures and ideas and diversity global studies course.			
<b>3302E</b>	<b>Translating Literatures and Cultures</b>	<b>U</b>	<b>3</b>
Introduction to issues and problems inherent to translating literatures and cultures. Prereq: Honors standing, and English 1110 (110), or equiv. Not open to students with credit for 3302 (373) or 373E. GE cultures and ideas and diversity global studies course.			
<b>3360</b>	<b>Introduction to Globalization and Culture</b>	<b>U</b>	<b>3</b>
History and contemporary dimensions of globalization, focusing on period preceding European hegemony, era of European colonialism, period of decolonization, and contemporary contexts. Prereq: Soph standing, or permission of instructor. Not open to students with credit for 357.			
<b>3501</b>	<b>Humanitarianism in Question</b>	<b>U</b>	<b>3</b>
This course addresses questions related to the history, practices, institutional dimensions, impact, criticism, and function of humanitarian and philanthropic work. Students learn about relationships between donors and targeted communities, both domestically and abroad. Discussions reflect upon reasons for giving, the goals of the supported initiatives, and mechanisms for evaluating success. Repeatable to a maximum of 6 cr hrs. GE cultures and ideas course.			
<b>3603</b>	<b>Love in World Literature</b>	<b>U</b>	<b>3</b>
Representations of love in world literature; emphasis on mythological, psychological, and ideological aspects of selected representations in different cultures and time periods. Prereq: English 1110 (110), or equiv. Not open to students with credit for 3603H (301H) or 301. GE lit and diversity global studies course.			

## 104 Comparative Studies

<b>3606</b>	<b>The Quest in World Literature</b>	<b>U</b>	<b>3</b>
Motif of the quest in world literature; physical and mental journeys as metaphors of personal transformation and salvation. Prereq: English 1110 (110) or equiv. Not open to students with credit for 306. GE lit and diversity global studies course.			
<b>3607</b>	<b>Film and Literature as Narrative Art</b>	<b>U</b>	<b>3</b>
Relationships between film and literature; emergence of cinematic art as a form of representation with emphasis on diverse cultural traditions. Prereq: English 1110 (110) or equiv. Not open to students with credit for 3607H (358H, 358). GE VPA and diversity global studies course.			
<b>3608</b>	<b>Representations of the Experience of War</b>	<b>U</b>	<b>3</b>
Representations of war in works of literature, religious texts, and film from diverse cultures and time periods. Prereq: English 1110 (110) or equiv. Not open to students with credit for 308. GE lit and diversity global studies course.			
<b>3620</b>	<b>Everyday Life in South Asia</b>	<b>U</b>	<b>3</b>
An examination of everyday life as experienced by members of the culturally diverse population of South Asia. Prereq: English 1110 or equiv. Not open to students with credit for NELC 3620 or SAsia 3620. GE cultures and ideas course. Cross-listed in SAsia.			
<b>3645</b>	<b>Cultures of Medicine</b>	<b>U</b>	<b>3</b>
Humanistic, scientific, and clinical perspectives on medical issues; literary uses of medical themes; medicine as art and science. Prereq: English 1110 (110) or equiv. Not open to students with credit for 3645H (305). GE cultures and ideas and diversity global studies course.			
<b>3645H</b>	<b>Cultures of Medicine</b>	<b>U</b>	<b>3</b>
Humanistic, scientific, and clinical perspectives on medical issues; literary uses of medical themes; medicine as art and science. Prereq: Honors standing, and English 1110 (110) or equiv. Not open to students with credit for 3645 (305). GE cultures and ideas and diversity global studies course.			
<b>3646</b>	<b>Cultures, Natures, Technologies</b>	<b>U</b>	<b>3</b>
Cultural perspectives on issues related to technology, nature, and culture; examines cultural approaches to uses of technology and their relation to natural and human worlds. Prereq: English 1110 (110), or equiv. GE cultures and ideas course.			
<b>3661</b>	<b>The City and Culture</b>	<b>U</b>	<b>3</b>
Introduction to the comparative and cross-cultural study of cities, urban culture, and urbanism. Prereq: One course in CompStd or IntStd, or permission of instructor. Not open to students with credit for 4661 (531) or IntStd 4661 (531) or IntStd 3661. Cross-listed in IntStd.			
<b>3686</b>	<b>Cultural Studies of American Musics</b>	<b>U</b>	<b>3</b>
Investigation of the social, political, and cultural contexts of the development of popular musics in the U.S. Prereq: English 1110 or equiv. GE VPA and diversity soc div in the US course.			
<b>3692</b>	<b>Comparative Social Movements</b>	<b>U</b>	<b>3</b>
Comparative and interdisciplinary analysis of social movements and theories about social movement in various global contexts. GE cultures and ideas and diversity global studies course.			
<b>3797</b>	<b>Topical Study at Foreign Institution</b>	<b>U</b>	<b>1 - 30</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of Department. Repeatable to a maximum of 30 ch hrs.			
<b>3798</b>	<b>Japanese Popular Culture</b>	<b>U</b>	<b>3</b>
This course takes up Japanese popular culture in order to get at big questions about nationalism and cosmopolitanism, appropriation and authenticity, and being human in a world of commodities. This is an intensive summer course: two weeks in Columbus and two weeks in Japan, where we will be based in Tsukuba and make trips to Tokyo, Kyoto, Osaka, and Uji. Knowledge of Japanese is not required. Prereq: English 1110. GE diversity global studies and education abroad course.			
<b>3808</b>	<b>Utopia and Dystopia</b>	<b>U</b>	<b>3</b>
Exploration and critique of utopian thinking in different historical and cultural contexts. Prereq: English 1110 (110) or equiv. Not open to students with credit for 4808 (508).			
<b>3903</b>	<b>World Literature: Theory and Practice</b>	<b>U</b>	<b>3</b>
Discussion of world literatures in theoretical, historical, and cultural contexts, with particular attention to translation, language, nationalism, globalization, and internationalism. Prereq: 2301 (273), 3302 (373), or 3302E (373E). Not open to students with credit for 4903 (573), 4903E (573E), or 3903E.			
<b>3990</b>	<b>Approaches to Comparative Studies</b>	<b>U</b>	<b>3</b>
Introduces comparative studies majors to theoretical tools, methods of investigation, and key concepts in comparative studies research and scholarship. Prereq: English 1110 (110) or equiv. CompStd major, or permission of instructor. Not open to students with credit for 398.			

<b>4191</b>	<b>Research Internship in Comparative Studies</b>	<b>U</b>	<b>1 - 3</b>
Intensive research experience in Comparative Studies; individualized research training; students collaborate closely with faculty member on research project; projects either student-initiated or faculty research. Prereq: English 1110 (110) or equiv. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give students an opportunity for personal study with a member of the faculty. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>4597.01</b>	<b>Global Studies of Science and Technology</b>	<b>U</b>	<b>3</b>
Explores relations among culture, science, and technology in changing global contexts. Previous completion of 2367.02 or 367.02 recommended. Prereq: Completion of a Second Writing course and Natural Science sequence, or permission of instructor. Not open to students with credit for 597.01. GE diversity global studies and cross-disciplinary seminar course.			
<b>4597.02</b>	<b>Global Culture</b>	<b>U</b>	<b>3</b>
Examines contemporary global cultural flows, the concepts useful in analyzing them, and the questions they raise about power and cultural change. Prereq: Completion of Second Writing course. Not open to students with credit for 597.02. GE diversity global studies and cross-disciplinary seminar course.			
<b>4597.03</b>	<b>Global Folklore</b>	<b>U</b>	<b>3</b>
Examines contemporary folklore around the world; introduces students to key concepts in folklore scholarship; focuses on transmission and transformation of cultural knowledge and practice, particularly in situations of conflict or upheaval. Prereq: Completion of a Second Writing course. Not open to students with credit for 597.02. GE diversity global studies and cross-disciplinary seminar course.			
<b>4685</b>	<b>Comparative Ethnic and American Studies</b>	<b>U</b>	<b>3</b>
Examines relationships between interdisciplinary fields of American Studies and Ethnic Studies.			
<b>4803</b>	<b>Studies in Asian American Literature and Culture</b>	<b>U</b>	<b>3</b>
Focused study of a topic in Asian American literary and cultural studies. Prereq: English 1110 (110), or equiv. Not open to students with 10 qtr cr hrs in 543 or English 587 or with 6 sem cr hrs in English 4587. Repeatable to a maximum of 6 cr hrs. Cross-listed in English 4587.			
<b>4804</b>	<b>Studies in Latino Literature and Culture</b>	<b>U</b>	<b>3</b>
Focused study of a topic in Latino/a literary and cultural studies. Prereq: English 1110 (110), or equiv. Not open to students with 10 qtr cr hrs in 544 or 588 or 6 sem cr hrs in English 4588. Repeatable to a maximum of 6 cr hrs. Cross-listed in English 4588.			
<b>4822</b>	<b>Native American Identity</b>	<b>U</b>	<b>3</b>
Historical and contemporary issues of American Indian identity, primarily in U.S.; focus on American Indian authors, artists, and scholars. Prereq: English 1110 (110) or equiv. Not open to students with credit for 542. GE cultures and ideas and diversity soc div in the US course.			
<b>4845</b>	<b>Gender, Sexuality, and Science</b>	<b>U</b>	<b>3</b>
Examination of relations between gender and science; topics include gendering of "science" and "nature," biological theories of sexual inequality, feminist critiques of science and technology. Prereq: One course in CompStd or WGSSt, or Grad standing, or permission of instructor. Not open to students with credit for 535 or WGSSt 4845 (535). Cross-listed with WGSSt.			
<b>4921</b>	<b>Intersections: Approaches to Race, Gender, Class, and Sexuality</b>	<b>U</b>	<b>3</b>
Examines intersections of race, gender, class, and sexuality in various sites within American culture (e.g., legal system, civil rights discourse, social justice movements). Prereq: One course in CompStd, WGSSt, or AfAmAST. Not open to students with credit for 545, AfAmAst 4921 (545), or WGSSt 4921 (545). Cross-listed in AfAmAST and WGSSt.			
<b>4990</b>	<b>Senior Seminar in Comparative Studies</b>	<b>U</b>	<b>3</b>
Writing seminar based on students' independent research. Prereq: 3990 (398), and 500 or a 4000-level course in CompStd, and Sr standing; or permission of instructor. Not open to students with credit for 598.			
<b>4998</b>	<b>Undergraduate Research in Comparative Studies</b>	<b>U</b>	<b>1 - 9</b>
Undergraduate research in variable topics; independent study. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4998H</b>	<b>Honors Undergraduate Research in Comparative Studies</b>	<b>U</b>	<b>1 - 9</b>
Undergraduate research in variable topics; independent study. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Thesis</b>	<b>U</b>	<b>1 - 6</b>
Independent study for 4th-year students wishing to complete a senior thesis. Prereq: Sr standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			

<b>4999H</b>	<b>Honors Thesis</b>	<b>U</b>	<b>1 - 6</b>
Senior honors course leading to graduation with distinction and a thesis; independent study for the student with special aptitude. Honors thesis credits must be completed in addition to coursework requirements for all major and minor programs. Prereq: Honors standing, and a grade of A in at least half of the CompStd courses taken, and an average of B in the remainder, and Sr standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
<b>5061</b>	<b>The Global Mediterranean</b>	<b>U G</b>	<b>3</b>
This course examines the governments, societies, and cultures of the littoral states (empires/nations) of the Mediterranean Sea. We will pay attention to the 'East/West' paradigm as a prism through which to examine past and present events. Prereq: Not open to students with credit for Italian 5061 or NELC 5061. Cross-listed in Italian and NELC.			
<b>5189S</b>	<b>Comparative Studies Field School</b>	<b>U G</b>	<b>3</b>
Introduction to ethnographic field methods (participant-observation, writing field notes, photography, interviewing), archiving, and public humanities. An introduction to fieldwork is followed by a field experience (where students will reside together in local housing) followed by accessioning, exhibition planning, and reflection. Maximum credit hours include those for English 5189S. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Cross-listed in English.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Special topics. Open to both undergraduates and graduate students. Repeatable to a maximum of 9 cr hrs.			
<b>5240</b>	<b>Race and Public Policy in the United States</b>	<b>U G</b>	<b>3</b>
This course explores Race and Public Policy in the United States from Reconstruction to the present. In particular, the class is designed to look at the long list of "hot topics" in the current policy landscape, including policing, housing, wealth gap, immigration, voting, political representation, and others. Prereq: Jr, Sr, or Grad standing; or permission of instructor. Not open to students with credit for AfAmASt 5240 or PubAfrs 5240. Cross-listed in AfAmASt and PubAfrs.			
<b>5668</b>	<b>Studies in Orality and Literacy</b>	<b>U G</b>	<b>3</b>
Examination of major theories of writing and of oral composition and transmission, in juxtaposition to case material deriving from a variety of Middle Eastern cultures. Prereq: Not open to students with credit for 648, or NELC 5568 (648). Cross-listed in NELC 5568.			
<b>5691</b>	<b>Topics in Comparative Studies</b>	<b>U G</b>	<b>3</b>
Critical study of selected themes and topics in a comparative and cross-cultural perspective; emphasis on issues of method, critical theory, representation, power, knowledge, and authority. Prereq: Not open to students with maximum qtr cr hrs for 651. Repeatable to a maximum of 12 cr hrs.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 30</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of department. Repeatable to a maximum of 30 cr hrs.			
<b>5957.01</b>	<b>Comparative Folklore</b>	<b>U G</b>	<b>3</b>
Comparative study of folklore. Topics vary, e.g., folklore and gender politics; theories of myth; folklore, memory, and history. Prereq: 2350, 2350H, English 2270, or 2270H (270). Not open to students with maximum qtr cr hrs for 677.01 and 677.02. Repeatable to a maximum of 6 cr hrs.			
<b>5957.02</b>	<b>Folklore in Circulation</b>	<b>U G</b>	<b>3</b>
Study of transmission of culture. Topics vary, e.g., tourists, travelers, tricksters; cultures of waste and recycling; orality and literacy. Prereq: 2350, 2350H, English 2270 (270), or 2270H. Not open to students with maximum qtr cr hrs for 677.03 and 677.04. Repeatable to a maximum of 6 cr hrs.			
<b>5980</b>	<b>Ancient and Modern Narrative: Cognition, Affect, Ethics, Belief</b>	<b>U G</b>	<b>3</b>
This course will juxtapose narratives from an ancient culture with narratives from a modern culture to explore the hypothesis that the power of narrative arises from its capacity to affect the lives of audiences by engaging their cognition, affect, ethics, and beliefs. Team-taught w/ faculty in English. Prereq: Not open to students with credit for English 5980. Cross-listed in English.			
<b>6100</b>	<b>Critical Foundations: Comparative Analysis</b>	<b>G</b>	<b>3</b>
This course prepares students to begin to approach their research interests and questions from a comparative perspective. The function of comparison is not to discover differences and similarities, but to understand more comprehensively the political, social, economic, and aesthetic dimensions of the various discourses and practices that constitute social and individual life.			
<b>6200</b>	<b>Critical Foundations: Interdisciplinarity &amp; Methods</b>	<b>G</b>	<b>3</b>
This course introduces interdisciplinarity as an approach to knowledge production that is problem and question driven and that therefore draws from varied approaches and methodologies. It considers a range of tools that scholars across humanities and social sciences disciplines use to critically analyze the pressing global issues.			

<b>6300</b>	<b>Critical Foundations: Cultural and Social Theory</b>	<b>G</b>	<b>3</b>
This course offers an introduction to comparative cultural studies and social theory. It introduces students to a wide range of well-known thinkers, critical movements, and widely cited texts. Attention will be paid to the ways in which these thinkers, movements, and texts are situated within disciplinary and inter-disciplinary contexts.			
<b>6390</b>	<b>Approaches to Comparative Cultural Studies I</b>	<b>G</b>	<b>3</b>
Introduces students to theoretical tools, methods of investigation, and key concepts integral to research in comparative studies. Prereq: Grad standing or permission of instructor. Not open to students with credit for 710.			
<b>6391</b>	<b>Approaches to Comparative Cultural Studies II</b>	<b>G</b>	<b>3</b>
Continuation of 6390. Discussion of theoretical tools, methods of investigation, and key concepts integral to research in comparative studies. Prereq: Grad standing or permission of instructor. Not open to students with credit for 711.			
<b>6400</b>	<b>Critical Foundations: The Humanities and Collaborative Practices</b>	<b>G</b>	<b>3</b>
The course introduces students to different forms of collaborative practices and participatory research in the humanities, recognizing the opportunities and possibilities it affords, as well as the challenges and limitations it entails. The course will also offer a space for critical reflection on how we engage other people's ideas, both in terms of our research and within the seminar community.			
<b>6425</b>	<b>Introduction to Latino Studies</b>	<b>G</b>	<b>4</b>
Introduces graduate students to the broad themes, concepts, and questions raised in the interdisciplinary field of Latina/Latino studies. Prereq: Grad standing, or permission of instructor and approved petition to the Graduate School. Not open to students with credit for 705, ArtsSci 705, or Spanish 6705 (705). Cross-listed in Spanish 6705.			
<b>6500</b>	<b>Teaching Seminar in Interdisciplinary Studies</b>	<b>G</b>	<b>3</b>
The seminar will also teach students to develop strategies to support students in questioning and challenging normative discourses while also developing teaching practices that problematize social reality and knowledge. The course topics focus on three areas: course content, methods of delivery, and issues related to in-class 'comportment.'			
<b>6750.01</b>	<b>Introduction to Graduate Study in Folklore I: The Philology of the Vernacular</b>	<b>G</b>	<b>3</b>
Introduction to the canonical folklore genres and the history of folklore as a discipline. Why and how should we study the vernacular? Prereq: Grad standing, or permission of instructor. Not open to students with credit for 770.01, English 6751.01 (770.01), or 6751.11. Cross-listed in English 6751.01.			
<b>6750.02</b>	<b>Introduction to Graduate Study in Folklore II: Fieldwork and Ethnography of Communication</b>	<b>G</b>	<b>3</b>
Introduction to fieldwork and ethnographic writing in the humanities - interviewing, participant observation, and research ethics. Focus on the ethnography of communication and community representations. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 770.02, 770.03, English 6751.02, 6751.22, 770.02, or 770.03. Cross-listed in English 6751.02.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 9</b>
Designed to give able students an opportunity to pursue special studies not otherwise offered. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>7256</b>	<b>Complex Ethnography</b>	<b>G</b>	<b>3</b>
Critical analysis of relationships among the researcher, object of research, framing knowledge, and political context of ethnographic work. Prereq: Grad standing or permission of instructor. Not open to students with credit for 706.			
<b>7301</b>	<b>Theorizing Literature</b>	<b>G</b>	<b>3</b>
Provides an accelerated introduction to literary theory and criticism, surveying significant developments in modern and contemporary literary and cultural studies in global perspective. Prereq: Cross-listed in NELC.			
<b>7320</b>	<b>Theorizing Race and Ethnicity</b>	<b>G</b>	<b>3</b>
Advanced introduction to field of critical race theory; critical analysis of concepts of law in relation to race and ethnicity. Prereq: Grad standing or permission of instructor. Not open to students with credit for 752.			
<b>7340</b>	<b>Theorizing Science and Technology</b>	<b>G</b>	<b>3</b>
Introduction to comparative and cultural studies of science and technology. Prereq: Grad standing or permission of instructor. Not open to students with credit for 730.			
<b>7350.01</b>	<b>Theorizing Folklore I: Tradition and Transmission</b>	<b>G</b>	<b>3</b>
The transmission of cultural forms through time and space across social networks, with special attention to the dynamics of conservation and innovation, reflexivity and habit. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 792 or English 870. Cross-listed in English.			
<b>7350.02</b>	<b>Theorizing Folklore II: Ethnography of Performance</b>	<b>G</b>	<b>3</b>
Performance as a heightened mode of communication characteristic of vernacular cultural process, studied in the context of ongoing social interaction. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 792 or English 870. Cross-listed in English.			

## 106 Comparative Studies

<b>7350.03</b>	<b>Theorizing Folklore III: Differentiation, Identification, and The Folk</b>	<b>G</b>	<b>3</b>
Cultural form as social marker. "Folklore" and other metacultural concepts in the history of modernity. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 792 or English 870. Cross-listed in English.			
<b>7360</b>	<b>Theorizing Culture</b>	<b>G</b>	<b>3</b>
The concept of culture as it has developed over time; emphasis on tension between descriptive and normative approaches. Prereq: Grad standing or permission of instructor. Not open to students with credit for 716.			
<b>7370</b>	<b>Theorizing Religion</b>	<b>G</b>	<b>3</b>
Relationships between religion and other domains in a cross-cultural, comparative framework with attention to theoretical models and particular texts and traditions. Prereq: Grad standing or permission of instructor. Not open to students with credit for 725.			
<b>7380</b>	<b>Theorizing America</b>	<b>G</b>	<b>3</b>
Interdisciplinary study of culture, identity, and representation in the U.S. Prereq: Grad standing or permission of instructor. Not open to students with credit for 715.			
<b>7888</b>	<b>Interdepartmental Studies in the Humanities</b>	<b>G</b>	<b>1 - 3</b>
Two or more departments present colloquia on subjects of mutual interest; topics to be announced. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs or 10 completions. Cross-listed in German 7888, English 7888.01, and 7888.02.			
<b>7999</b>	<b>Research in Comparative Studies: Thesis</b>	<b>G</b>	<b>1 - 12</b>
Research for Master's thesis. Repeatable to a maximum of 24 cr hrs. This course is graded S/U.			
<b>8100</b>	<b>Interdisciplinary Learning Laboratory I</b>	<b>G</b>	<b>3</b>
The Comparative Studies Interdisciplinary Learning Laboratories are two-part courses that seek to give participants opportunities to engage in sustained interdisciplinary research, to workshop their research projects in conversation with one another, and to share their projects with broader publics. Expect to enroll in CompStd 8200 subsequent to this course. Repeatable to a maximum of 18 cr hrs.			
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 9</b>
Designed to give able students an opportunity to pursue special studies not otherwise offered. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>8200</b>	<b>Interdisciplinary Learning Laboratory II</b>	<b>G</b>	<b>3</b>
The Comparative Studies Interdisciplinary Learning Laboratories are two-part year-long courses that seek to give participants opportunities to engage in sustained interdisciplinary research, to workshop their research projects in conversation with one another, and to share their projects with broader publics. Taken in conjunction with CompStd 8100. Prereq or concur: 8100. Repeatable to a maximum of 18 cr hrs.			
<b>8791</b>	<b>Seminar in Interdisciplinary Theory</b>	<b>G</b>	<b>3</b>
Discussion of interdisciplinary cultural theory. Repeatable to a maximum of 9 cr hrs.			
<b>8805</b>	<b>Seminar in Literature in Global Context</b>	<b>G</b>	<b>3</b>
Discussion of literary texts, cultural-political documents, and theoretical discourses in global contexts. Repeatable to a maximum of 15 cr hrs.			
<b>8842</b>	<b>Seminar in Science and Medicine</b>	<b>G</b>	<b>3</b>
Explores relationships between science, technology and the health sciences and medical practices; topic varies. Repeatable to a maximum of 15 cr hrs.			
<b>8843</b>	<b>Seminar in Technology and Culture</b>	<b>G</b>	<b>3</b>
Explores relationships between science and technology and other areas, including politics, gender and sexuality, popular culture; topic varies. Repeatable to a maximum of 15 cr hrs.			
<b>8858</b>	<b>Seminar in Folklore</b>	<b>G</b>	<b>3</b>
Advanced seminar on current or specialized topics in folklore studies. Folklore GIS course. Prereq: Grad standing, or permission of instructor. Not open to students with 9 sem cr hrs of English 8858.01 (can include equiv qtr cr hrs for 870), English 8858.02, or CompStd 8858. Repeatable to a maximum of 9 cr hrs. Cross-listed in English 8858.01.			
<b>8865</b>	<b>Seminar in Critical Trauma Theory</b>	<b>G</b>	<b>3</b>
Examines various topics in the growing field of critical trauma theory. Repeatable to a maximum of 9 cr hrs.			
<b>8866</b>	<b>Seminar in Culture and Capital</b>	<b>G</b>	<b>3</b>
Exploration of theoretical approaches to relations between cultural and economic production; examines major materialist theories, materialist feminism, and other forms of materialist critique. Repeatable to a maximum of 9 cr hrs.			

<b>8872</b>	<b>Seminar in Religious Studies</b>	<b>G</b>	<b>3</b>
Explores relationships between religious institutions and practices and other areas, including politics, gender and sexuality, technology, popular culture; topics vary. Repeatable to a maximum of 15 cr hrs.			
<b>8888</b>	<b>Interdepartmental Seminar in Critical Theory</b>	<b>G</b>	<b>3</b>
Interdisciplinary study of a movement or problem in critical theory. Repeatable to a maximum of 15 cr hrs. Cross-listed in English, French, German, Spanish, and WGSS.			
<b>8890</b>	<b>Colloquia, Workshops, and Departmental Seminars</b>	<b>G</b>	<b>1 - 3</b>
Departmental workshop, colloquium, or seminar. Topics vary. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>8896</b>	<b>Seminar in East Asian Philosophy</b>	<b>G</b>	<b>3</b>
Seminar focusing on a particular thinker, school of philosophy, or set of texts from the East Asian philosophical tradition. Topics vary. Repeatable to a maximum of 9 cr hrs. Cross-listed in EALL 8896 and Philos 8102.			
<b>8990</b>	<b>Dissertation Writing Workshop</b>	<b>G</b>	<b>2</b>
Since the dissertation is often your first effort to construct a complex, original, and extended argument, interpretation and/or analysis, this writing workshop will assist you in developing concrete strategies for tackling this major task, hold you accountable for making progress on the dissertation, and contribute to the creation of an intellectual community among Comp Studies graduate students. This course is graded S/U.			
<b>8998</b>	<b>Research in Comparative Studies: Candidacy Examination</b>	<b>G</b>	<b>1 - 12</b>
Research in preparation for Ph.D. exams. Repeatable to a maximum of 27 cr hrs or 12 completions. This course is graded S/U.			
<b>8999</b>	<b>Research in Comparative Studies: Dissertation</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation. Repeatable. This course is graded S/U.			

## Computer Science and Engineering

<b>1110</b>	<b>Introduction to Computing Technology</b>	<b>U</b>	<b>3</b>
A course of general interest giving experience with personal computer software, e.g., word processors and spreadsheets; provides fundamental computer literacy; neither teaches nor requires programming. Prereq: Not open to students with credit for 1111 or 1113.			
<b>1111</b>	<b>Introduction to Computer-Assisted Problem Solving</b>	<b>U</b>	<b>3</b>
Problem solving techniques using productivity software; spreadsheets, formulas, conditional logic; relational databases, relational algebra; word processing; data presentation; graphics. Prereq: Not open to students with credit for 1112 (105), 1113 (101), or 200. GE quant reason math and logical only course.			
<b>1112</b>	<b>Introduction to Computer-Assisted Problem Solving for Construction Systems Management</b>	<b>U</b>	<b>3</b>
Using productivity software, especially spreadsheets and databases, to solve problems for construction management; relative/absolute cell referencing, logic, functions; relational databases, querying, project integration. Prereq: Not open to students with credit for 1111 (101), 1113, 105, or 200.			
<b>1113</b>	<b>Spreadsheet Programming for Business</b>	<b>U</b>	<b>1</b>
Spreadsheet modeling/programming concepts and techniques to solve business related problems; efficient/effective data handling, computational analysis and decision support. Prereq: Math 1130 (130) or above. Not open to students with credit for 1111 (101), 1112 (105), 2111, or 200.			
<b>1114</b>	<b>Introduction to Databases Using MS Access</b>	<b>U</b>	<b>1½</b>
Database concepts and techniques for efficient/effective data handling, computational analysis and decision support. Prereq: Not open to students with credit for 1111, 1112, or 2111.			
<b>1211</b>	<b>Computational Thinking in Context: Images, Animation, and Games</b>	<b>U</b>	<b>3</b>
Introduction to computational thinking, focusing on problem solving and programming concepts and skills needed to manipulate digital images and to create interactive graphics, animations, and games; creativity and imagination encouraged. Prereq: Not open to students with credit for 203 or 204.			
<b>1213</b>	<b>Computational Thinking in Context: Game Development</b>	<b>U</b>	<b>4</b>
Introduction to computational thinking, focusing on problem solving and programming concepts and skills needed to develop video games.			
<b>1222</b>	<b>Introduction to Computer Programming in C++ for Engineers and Scientists</b>	<b>U</b>	<b>3</b>
Introduction to computer programming and to problem solving techniques using computer programs with applications in engineering and the physical sciences; algorithm development; programming lab experience. Concur: Math 1151, 1154, or 1161. Not open to students with credit for Engr 1281.01 or 1281.02. This course is available for EM credit.			

## Computer Science and Engineering 107

<b>1223</b>	<b>Introduction to Computer Programming in Java</b>	<b>U</b>	<b>3</b>
Introduction to computer programming and to problem solving techniques using computer programs; programming lab experience. Prereq: Math 1130, 1140, 1149, or 1150, or Math Placement Level L. This course is available for EM credit.			
<b>1224</b>	<b>Introduction to Computer Programming in Python</b>	<b>U</b>	<b>3</b>
Introduction to computer programming and to problem solving techniques using computer programs; programming lab experience. Prereq: Math 1130, 1140, 1149, or 1150, or Math Placement Level L.			
<b>2021</b>	<b>Introduction to Modeling and Simulation</b>	<b>U</b>	<b>3</b>
Concepts of modeling and simulation; develop MATLAB skills to explore modeling concepts; project: design, implementation, verification/validation of model; oral and written project report. Prereq: Math 1151 (152) or equivalent, and Physics 1250 (131). Not open to students with credit for 1221 or Engr 1221.			
<b>2111</b>	<b>Modeling and Problem Solving with Spreadsheets and Databases</b>	<b>U</b>	<b>3</b>
Spreadsheet and database modeling/programming concepts and techniques to solve business related problems; efficient/effective data handling, computational analysis and decision support. Additional topics: computer concepts, networking, project integration. Prereq: Math 1130 or above, or Math Placement Level L. Not open to students with credit for 1111 or 1112. This course is available for EM credit. GE quant reason math and logical any course.			
<b>2112</b>	<b>Modeling and Problem Solving with Spreadsheets and Databases for Engineers</b>	<b>U</b>	<b>3</b>
Spreadsheet and database modeling/programming concepts and techniques to solve business and engineering related problems; efficient/effective data handling, computational analysis and decision support. Prereq: 1222 (202), 1223 (201), Engr 1281.01H, or 1281.02H. Prereq or concur: Math 1151, 1161.01, or 1161.02. Not open to students with credit for 2111 (200), 1111 (101), 1112 (105), or 1113.			
<b>2122</b>	<b>Data Structures Using C++</b>	<b>U</b>	<b>3</b>
Introduction to programming in C++ and object-oriented programming; encapsulation using classes, inheritance, etc. Prereq: 1222 (202). Not open to students with credit for 230.			
<b>2123</b>	<b>Data Structures Using Java</b>	<b>U</b>	<b>3</b>
Subroutines and modular programming; searching; basic data structures; recursion; introduction to sequential files. Prereq: 1223.			
<b>2133</b>	<b>Business Programming with File Processing</b>	<b>U</b>	<b>3</b>
Business data processing principles and programming: sequential file processing algorithms, sorting, data validation; COBOL is taught. Prereq: 2123, and enrollment in Business Info Sys major or CIS minor.			
<b>2193</b>	<b>Individual Studies in Computer Science and Engineering</b>	<b>U</b>	<b>1 - 10</b>
Planning, conducting, and reporting a special study appropriate to the needs of the students. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies in Computer Science and Engineering</b>	<b>U</b>	<b>1 - 10</b>
Designed to give the student an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>2194H</b>	<b>Group Studies in Computer Science and Engineering</b>	<b>U</b>	<b>1 - 10</b>
Designed to give the student an opportunity to pursue special studies not otherwise offered. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>2221</b>	<b>Software I: Software Components</b>	<b>U</b>	<b>4</b>
Intellectual foundations of software engineering; design-by-contract principles; mathematical modeling of software functionality; component-based software from client perspective; layered data representation. Prereq: 1212, 1221, 1222, 1223, Engr 1221, 1281.01H, 1281.02H, or CSE Placement Level A. Prereq or concur: Math 1151, 1161.01, or 1161.02. Not open to students with credit for 5022. This course is available for EM credit.			
<b>2231</b>	<b>Software II: Software Development and Design</b>	<b>U</b>	<b>4</b>
Data representation using hashing, search trees, and linked data structures; algorithms for sorting; using trees for language processing; component interface design; best practices in Java. Prereq: 2221. Concur: 2321. Not open to students with credit for 2231.01.			
<b>2321</b>	<b>Foundations I: Discrete Structures</b>	<b>U</b>	<b>3</b>
Propositional and first-order logic; basic proof techniques; graphs, trees; analysis of algorithms; asymptotic analysis; recurrence relations. Prereq: 2122, 2123, or 2221; and Math 1151, or 1161. Concur (for students with credit for 2221): 2231.			

<b>2331</b>	<b>Foundations II: Data Structures and Algorithms</b>	<b>U</b>	<b>3</b>
Design/analysis of algorithms and data structures; divide-and-conquer; sorting and selection, search trees, hashing, graph algorithms, string matching; probabilistic analysis; randomized algorithms; NP-completeness. Prereq: 2231, 2321, and Stat 3460 or 3470, and enrollment in CSE, CIS, ECE, Data Analytics, or Math major, or CIS minor. Concur: Math 3345. Not open to students with credit for 5331.			
<b>2421</b>	<b>Systems I: Introduction to Low-Level Programming and Computer Organization</b>	<b>U</b>	<b>4</b>
Introduction to computer architecture at machine and assembly language level; pointers and addressing; C programming at machine level; computer organization. Prereq: 2122, 2123, or 2231; and 2321 or Math 2566; and enrollment in CSE, CIS, Data Analytics, Music (BS), Eng Physics, or Math major.			
<b>2431</b>	<b>Systems II: Introduction to Operating Systems</b>	<b>U</b>	<b>3</b>
Introduction to operating system concepts: process, CPU scheduling, memory management, file system and storage, and multi-threaded programming. Prereq: 2421, or 2451 and ECE 2560; and enrollment in CSE, CIS, Data Analytics, Engr Physics, or ECE major. Not open to students with credit for 5431.			
<b>2451</b>	<b>Advanced C Programming</b>	<b>U</b>	<b>2</b>
Advanced C features for students with significant programming experience in another language. Prereq: 2221 or 222. Concur: 2231 or 321. Not open to students with credit for 2421.			
<b>2501</b>	<b>Social, Ethical, and Professional Issues in Computing</b>	<b>U</b>	<b>1</b>
Social, ethical, and professional issues facing computing professionals; ethical principles; discussion of case studies. Prereq: 2122, 2123, or 2231; and Gen Ed Writing: Level 2; and enrollment in CSE or CIS major, or Information Security minor. Not open to students with credit for 5501.			
<b>3231</b>	<b>Software Engineering Techniques</b>	<b>U</b>	<b>3</b>
Software engineering issues, techniques, methodologies and technologies; software lifecycle activities: requirements analysis, architecture, design, testing, deployment, maintenance; project management; enterprise software systems; frameworks. Prereq: 3901 or 3902 or 3903. Not open to students with credit for 5231 (757).			
<b>3232</b>	<b>Software Requirements Analysis</b>	<b>U</b>	<b>3</b>
Information systems analysis; object-oriented analysis models and tools; use cases, system modeling using UML; requirements specification development; term project. Prereq: 3241, 3901, 3902, 3903, or 5241; and enrollment in CIS, CSE, ECE, or Business Info Sys major. Not open to students with credit for 5232.			
<b>3241</b>	<b>Introduction to Database Systems</b>	<b>U</b>	<b>3</b>
Database systems use, logical design, entity-relationship model, normalization, query languages and SQL, relational algebra and calculus, object relational databases, XML, active databases; database design project. Prereq: 2133 or 2231; and 2321 or Math 2366; and enrollment in CSE, CIS, ISE, Data Analytics, ECE, Engr Physics, or Business Info Sys major, or CIS minor. Not open to students with credit for 5241.			
<b>3244</b>	<b>Data Management in the Cloud</b>	<b>U</b>	<b>3</b>
Systematic organization of data on cloud computing architectures; basic indexing techniques, including B-tree and hash-based indexing; fundamentals of query optimization, including access path selection and cardinality estimation; full and partial replication; data partitioning and distributed task scheduling. Prereq: 3241 or 5241; and 2421 or 3430; and enrollment in CSE, CIS, or Data Analytics major.			
<b>3321</b>	<b>Automata and Formal Languages</b>	<b>U</b>	<b>3</b>
Machine-based and grammatical models of computation; finite automata and regular languages, pushdown automata and context-free languages, Turing machines; non-determinism; Church's Thesis. Prereq: 2231, 2421, 2331, and Math 3345; and enrollment in CSE, CIS, ECE, or Math major. Not open to students with credit for 5321.			
<b>3341</b>	<b>Principles of Programming Languages</b>	<b>U</b>	<b>3</b>
Formal languages and grammars; recursive descent parsing; data types, expressions, control structures, parameter passing; compilers and interpreters; memory management; functional programming principles. Prereq: 2231, 2331 (680), and 2421, and 3901 (560), 3902, or 3903. Not open to students with credit for 5341 (655).			
<b>3421</b>	<b>Introduction to Computer Architecture</b>	<b>U</b>	<b>3</b>
Organization of hardware and software in modern computer systems, including instruction set design, processor control, ALU design, pipelining, multicores and accelerators, and memory subsystem design. Prereq: 2231, and 2421 or ECE 2560, and 2000 or 2060; and enrollment in CSE, CIS, or ECE major. Not open to students with credit for 5421.			
<b>3430</b>	<b>Overview of Computer Systems For Non-Majors</b>	<b>U</b>	<b>4</b>
Introduction to computer architecture and organization at machine and assembly level; pointers and addressing using C programming; introduction to operating system concepts: process, memory management, file system and storage, and multi-threaded programming. Prereq: 2122, 2123, or 2231; and 2321; and enrollment in Data Analytics major or CIS minor. Not open to students with credit for 2421 or 2431. Not open to CSE/CIS majors.			

## 108 Computer Science and Engineering

**3461 Computer Networking and Internet Technologies** U 3

Computer networks, communication protocols, Internet TCP/IP and applications, wireless communications and network security.  
Prereq: 2421; or 3430; or 2451 and ECE 2560; and enrollment in CIS, CSE, ECE, Engr Physics, or Data Analytics major. Prereq or concur: 2431 or 3430. Not open to students with credit for 5461.

**3521 Survey of Artificial Intelligence I: Basic Techniques** U 3

Survey of basic concepts and techniques in artificial intelligence, including problem solving, knowledge representation, and machine learning.  
Prereq: 2331 or 5331, and enrollment in CSE, CIS, ECE, or Data Analytics major. Not open to students with credit for 5521.

**3541 Computer Game and Animation Techniques** U 3

Fundamental algorithms and mathematics in production of computer animation and video games, emphasizing control and rendering of animated characters.  
Prereq: 3901, 3902, or 3903; and enrollment in CSE, CIS, Music (BS), or ECE major. Not open to students with credit for 5541.

**3901 Project: Design, Development, and Documentation of Web Applications** U 4

Intensive group project involving design, development, and documentation of a web application; client-side and server-side scripting; communication skills emphasized; builds programming maturity.  
Prereq: 2231; and 2321; and 2421 or 3430, or 2451 and ECE 2560; and enrollment in CSE, CIS, ECE, or Data Analytics major.

**3902 Project: Design, Development, and Documentation of Interactive Systems** U 4

Intensive group project involving design, development, and documentation of an interactive software system, a 2D interactive game; communication skills emphasized; builds programming maturity.  
Prereq: 2231; and 2321; and 2421 or 3430, or 2451 and ECE 2560; and enrollment in CSE, CIS, ECE, Music (BS), or Data Analytics major.

**3903 Project: Design, Development, and Documentation of System Software** U 4

Intensive group project involving design, development, and documentation of system software including an assembler and a linking loader; communication skills emphasized; builds programming maturity.  
Prereq: 2231; and 2321; and 2421 or 3430, or 2451 and ECE 2560; and enrollment in CSE, CIS, ECE, or Data Analytics major.

**4191 Professional Practice in Industry** U 0

Preparation and submission of a comprehensive report based on actual employment experience in a co-op job in industry.  
Prereq: Permission of the CSE Advising Office. Repeatable to a maximum of 8 completions. This course is progress graded (S/U).

**4193 Individual Studies in Computer Science and Engineering** U 1 - 10

Designed to give the student an opportunity to pursue special studies not otherwise offered.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.

**4194 Group Studies in Computer Science and Engineering** U 1 - 10

Designed to give the student an opportunity to pursue special studies not otherwise offered.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

**4194H Group Studies in Computer Science and Engineering** U 1 - 10

Designed to give the student an opportunity to pursue special studies not otherwise offered.  
Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

**4251 The UNIX Programming Environment** U 1

Introduction to the UNIX programming environment including: shell programming (csh); regular expressions; makefiles; grep, sed, and awk programming languages.  
Prereq: 2122, 2123, or 2231; and 2321; and enrollment in CSE, CIS, ECE, Engr Physics, or Data Analytics major, or CIS minor. This course is graded S/U.

**4252 Programming in C++** U 1

Syntax and pragmatics of C++ programming; C++ types, arrays, classes, pointers; objects and classes; compile-time vs. run-time picture; inheritance; template classes.  
Prereq: 2123 or 2231; and 2321; and enrollment in CSE, CIS, ECE, Engr Physics, or Data Analytics major, or CIS minor. Not open to students with credit for 2122. This course is graded S/U.

**4253 Programming in C#** U 1

C# programming for students well-versed in programming with another object-oriented language.  
Prereq: 2122, 2123, or 2231; and 2321; and enrollment in CSE, CIS, ECE, Engr Physics, or Data Analytics major, or CIS minor. This course is graded S/U.

**4254 Programming in Lisp** U 1

Lisp programming for students well-versed in programming with another language.  
Prereq: 2122, 2123, or 2231; and 2321; and enrollment in CSE, CIS, ECE, Engr Physics, or Data Analytics major, or CIS minor. This course is graded S/U.

**4256 Programming in Python** U 1

Python programming for students well-versed in programming with another imperative language.  
Prereq: 2122, 2123, or 2231; and 2321; and enrollment in CSE, CIS, ECE, Engr Physics, or Data Analytics major, or CIS minor. This course is graded S/U.

**4471 Information Security** U 3

Introduction to security of digital information; threats and attacks; regulations; risk management; attack detection and response; cryptography; forensics; technical training and certifications.  
Prereq: 2231 and 2321; and enrollment in CSE, CIS, ECE, or Data Analytics major, or Information Security or CIS minor.

**4998 Undergraduate Research in Computer Science and Engineering** U 1 - 10

Opportunity for undergraduate student to conduct research in Computer Science and Engineering.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.

**4998H Undergraduate Research in Computer Science and Engineering** U 1 - 10

Opportunity for undergraduate student to conduct research in Computer Science and Engineering.  
Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.

**4999 Computer Science and Engineering Research for Thesis** U 1 - 10

Supervised research and project work arranged individually.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.

**4999H Computer Science and Engineering Research for Thesis** U 1 - 10

Supervised research and project work arranged individually for honors students.  
Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.

**5022 Software I: Software Components** U G 3

Intellectual foundations of software engineering; design-by-contract principles; mathematical modeling of software functionality; component-based software from client perspective; layered data representation. Previous programming experience in any language required.  
Prereq: At least one term of Calculus. Not open to students with credit for 2221, 2231, 4221, 321, or 502. Not open to students enrolled in a CSE or CIS major.

**5023 Software II: Software Development and Design** U G 3

Data representation using hashing, search trees, and linked data structures; algorithms for sorting; using trees for language processing; component interface design; best practices in Java.  
Prereq: 2221 or 5022. Not open to students with credit for 2231, 2231.01, 321, or 421.

**5032 Foundations I: Discrete Structures** U G 2

Propositional and first-order logic; basic proof techniques; graphs, trees; analysis of algorithms; asymptotic analysis; recurrence relations.  
Prereq: 5022 or equiv. Not open to students with credit for 2321, 625, or 680.

**5042 Systems I: Introduction to Low-Level Programming and Computer Organization** U G 3

Introduction to computer architecture at machine and assembly language level; pointers and addressing; C programming at machine level; computer organization.  
Prereq: 2122, 2123, or 2231; and 2321 or Math 2566; or Grad standing. Not open to students with credit for 2421.

**5043 Overview of Computer Systems For Non-Majors** U G 3

Introduction to computer architecture and organization at machine and assembly level; pointers and addressing using C programming; introduction to operating system concepts: process, memory management, file system and storage, and multi-threaded programming.  
Prereq: 5022 or equiv, and 5032 or equiv. Not open to students with credit for 2421, 5042, 2431, 3430, 360, or 660. Not open to CSE/CIS majors.

**5052 Survey of Artificial Intelligence for Non-Majors** U G 3

Survey of the basic concepts and techniques in artificial intelligence, including problem solving, knowledge representation, and machine learning.  
Prereq: 1211, 1221, 1222, 1223, or 2221, or Grad standing. Not open to students with credit for 3521 (630), 4521, or 5521, or students enrolled in a CSE or CIS major.

**5194.01 Group Studies in Computer Science and Engineering** U G 1 - 10

Designed to give the student an opportunity to pursue special studies not otherwise offered.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

**5231 Software Engineering Techniques** U G 2

Software engineering issues, techniques, methodologies and technologies; software lifecycle activities: requirements analysis, architecture, design, testing, deployment, maintenance; project management; enterprise software systems; frameworks.  
Prereq: 3901 or 3902 or 3903 (560). Not open to students with credit for 3231 (757).

<b>5232</b>	<b>Software Requirements Analysis</b>	<b>U G</b>	<b>2</b>
Information systems analysis; object-oriented analysis models and tools; use cases, system modeling using UML; requirements specification development; term project. Prereq: 3241 or 3901 or 3902 or 3903 (560) or 5241 (670). Not open to students with credit for 3232 (616).			
<b>5234</b>	<b>Distributed Enterprise Computing</b>	<b>U G</b>	<b>3</b>
Current application and middleware frameworks for distributed enterprise computing; XML; Enterprise Java; SOAP and REST web services; AJAX and JSON; enterprise service bus; Hadoop; mobile computing. Prereq: 2431 or 5431 (660). Not open to students with credit for 769.			
<b>5235</b>	<b>Applied Enterprise Architectures and Services</b>	<b>U G</b>	<b>3</b>
Modeling/analysis of complex enterprise architectures; enterprise patterns (workflow, broker, warehousing); methods for service performance (lean, ontologies, data mining, etc.); emerging topics in semantic cyber-infrastructure, social computation. Prereq: 5911 (758 and 762), 5912 (786), 5913 (682), 5914 (731), 5915 (772), or 778.			
<b>5236</b>	<b>Mobile Application Development</b>	<b>U G</b>	<b>3</b>
Mobile application development frameworks; Architecture, design and engineering issues, techniques, methodologies for mobile application development. Prereq: 3901 or 3902 or 3903 (560).			
<b>5239</b>	<b>Intermediate Studies in Software Engineering</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in software engineering. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5241</b>	<b>Introduction to Database Systems</b>	<b>U G</b>	<b>2</b>
Database systems use; logical design; entity-relationship model; normalization; query languages and SQL; relational algebra and calculus; object relational databases; XML; active databases; database design project. Prereq: 2133 or 2231 or 2233 (314) or 321, and 2321 or Math 2366 (366). Not open to students with credit for 3241 (670).			
<b>5242</b>	<b>Advanced Database Management Systems</b>	<b>U G</b>	<b>3</b>
Transaction management; query processing and optimization; organization of database systems, advanced indexing, multi-dimensional data, similarity-based analysis, performance evaluation, new database applications. Prereq: 3241 or 5241, and 2421 or 5042.			
<b>5243</b>	<b>Introduction to Data Mining</b>	<b>U G</b>	<b>3</b>
Knowledge discovery, data mining, data preprocessing, data transformations; clustering, classification, frequent pattern mining, anomaly detection, graph and network analysis; applications. Prereq: 3241 or 5241; and 2331, 5331, Stat 3301, or ISE 3200; and enrollment in CSE, CIS, ECE, Data Analytics, or ISE major.			
<b>5245</b>	<b>Introduction to Network Science</b>	<b>U G</b>	<b>3</b>
Introduction to Network Science; Global and Local Network Measures; PageRank; Community Discovery Algorithms; Network Models; Understanding the role of network analysis in Web and Social network applications. Prereq: 2331.			
<b>5249</b>	<b>Intermediate Studies in Databases</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in databases. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5321</b>	<b>Automata and Formal Languages</b>	<b>U G</b>	<b>2</b>
Machine-based and grammatical models of computation; finite automata and regular languages, pushdown automata and context-free languages, Turing machines; non-determinism; Church's Thesis; halting problem. Prereq: 2231 or 321, and 2421 or 360, and 2331 or Math 566. Not open to students with credit for 3321 (625).			
<b>5329</b>	<b>Intermediate Studies in Computation Theory</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in computation theory. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5331</b>	<b>Foundations II: Data Structures and Algorithms</b>	<b>U G</b>	<b>2</b>
Design/analysis of algorithms and data structures; divide-and-conquer; sorting and selection, search trees, hashing, graph algorithms, string matching; probabilistic analysis; randomized algorithms; NP-completeness. Prereq: 2231 or 321, and 2321 or Math 366, and 2566 (566), and Stat 3470 (427). Not open to students with credit for 2331 (680).			
<b>5339</b>	<b>Intermediate Studies in Algorithms</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in algorithms. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5341</b>	<b>Principles of Programming Languages</b>	<b>U G</b>	<b>2</b>
Formal languages and grammars; recursive descent parsing; data types, expressions, control structures, parameter passing; compilers and interpreters; memory management; functional programming principles. Prereq: 2231, 2331 (680) and 2421, and 3901 (560), 3902, or 3903. Not open to students with credit for 3341 (655).			

<b>5343</b>	<b>Compiler Design and Implementation</b>	<b>U G</b>	<b>3</b>
Lexical and syntax analysis using compiler generation tools; type checking; intermediate code; control-flow analysis; dataflow analysis; code optimizations; code generation; compiler project. Prereq: 3901 (560), 3902, or 3903, and 3341 (655). Not open to students with credit for 756.			
<b>5349</b>	<b>Intermediate Studies in Programming Languages</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in programming languages. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5351</b>	<b>Introduction to Cryptography</b>	<b>U G</b>	<b>3</b>
Foundations of cryptography; mathematical formulations/proofs of security goals; theory and practical constructions of encryption schemes, MACs, digital signatures; zero-knowledge proof systems; cryptographic protocols. Prereq: 2331 (680), 5331, Math 4573 (573), or 4580 (580), and Stat 3460 (427) or 3470. Not open to students with credit for 723 or 794Q.			
<b>5359</b>	<b>Intermediate Studies in Cryptography</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in cryptography. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5421</b>	<b>Introduction to Computer Architecture</b>	<b>U G</b>	<b>2</b>
Organization of hardware and software in modern computer systems, including instruction set design, processor control, ALU design, pipelining, multicores and accelerators, and memory subsystem design. Prereq: 2231 or 321, and 2421 (360) or ECE 2560 (265), and 2000 or 261. Not open to students with credit for 3421 (675.01 or 675.02).			
<b>5429</b>	<b>Intermediate Studies in Computer Architecture</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in computer architecture. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5431</b>	<b>Systems II: Introduction to Operating Systems</b>	<b>U G</b>	<b>2</b>
Introduction to operating system concepts: process, CPU scheduling, memory management, file system and storage, and multi-threaded programming. Prereq: 5042 or equiv. Not open to students with credit for 2431 or 660.			
<b>5432</b>	<b>Mobile Handset Systems and Networking</b>	<b>U G</b>	<b>3</b>
Mobile handset architecture: processors, memory, I/O devices, sensors, virtual machine and power management; different ranges of wireless communication technologies; TCP/IP over wireless; mobile social networking. Prereq: 2421, 3430, or 2451 and ECE 2560; or Grad standing.			
<b>5433</b>	<b>Operating Systems Laboratory</b>	<b>U G</b>	<b>3</b>
Introduction to the internals of operating systems; designing and implementing components within commercial operating systems: system calls, CPU scheduling, context switching, process management, memory management, file systems. Prereq: 2431 or 5431. Not open to students with credit for 662.			
<b>5434</b>	<b>Comparative Operating Systems</b>	<b>U G</b>	<b>3</b>
A careful examination of a number of representative computer operating systems. Prereq: 2431 (660) or 5431. Not open to students with credit for 741.			
<b>5439</b>	<b>Intermediate Studies in Operating Systems</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in operating systems. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5441</b>	<b>Introduction to Parallel Computing</b>	<b>U G</b>	<b>3</b>
Parallel programming models; sequential and parallel performance issues; high-performance computer architecture; design, analysis, implementation and performance evaluation of parallel algorithms. Prereq: 2231, 2321, and 2421; or 2231, 2321, and 3430; or 2231, 2321, 2451, and ECE 2560; or Grad standing.			
<b>5449</b>	<b>Intermediate Studies in Parallel Computing</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in parallel computing. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5461</b>	<b>Computer Networking and Internet Technologies</b>	<b>U G</b>	<b>2</b>
Computer networks, communication protocols, Internet TCP/IP and applications, wireless communications and network security. Prereq: 2451, and 2421 or ECE 2560 (265). Concur: 2431. Not open to students with credit for 3461 (677).			
<b>5462</b>	<b>Network Programming</b>	<b>U G</b>	<b>3</b>
IP-based socket programming in C/C++, TinyOS programming in NesC. Prereq: 3461, 5461, or ECE 3561.			
<b>5463</b>	<b>Introduction to Wireless Networking</b>	<b>U G</b>	<b>3</b>
Fundamental concepts in cellular design, Wireless-LANs, MANETs, and sensor networks will be explored. Specific topics will include propagation, fading, cellular-design, power-management, routing, scheduling, and control. Prereq: 3461, 5461, or ECE 3561; or Grad standing in Engineering or Math and Physical Sciences. Cross-listed in ECE 5101.			
<b>5469</b>	<b>Intermediate Studies in Computer Networking</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in computer networking. Repeatable to a maximum of 12 cr hrs or 6 completions.			

## 110 Computer Science and Engineering

<b>5471</b>	<b>Introduction to Cybersecurity</b>	<b>U G</b>	<b>3</b>
Introduction to cybersecurity. Technical fundamentals of data, software, component, network, and system security. Cybersecurity from an organizational and societal view point, including human factors. Prereq: Jr, Sr, or Grad standing, or permission of instructor. Not open to students with credit for ECE 5561. Cross-listed in ECE 5561.			
<b>5472</b>	<b>Information Security Projects</b>	<b>U G</b>	<b>3</b>
Team-based projects: solve information security problems (mobile/static host/network hardening, intrusion detection and vulnerability scanning, forensics); results communicated through report writing and presentation. Prereq: 3901, 3902, or 3903, and 3461, 5461, or 4471. Not open to students with credit for 652.			
<b>5473</b>	<b>Network Security</b>	<b>U G</b>	<b>3</b>
Security threats and services, elements of cryptography, protocols for security services, network and internet security, advanced security issues and technologies. Prereq: 3461 (677) or 5461. Not open to students with credit for 651.			
<b>5477.01</b>	<b>Offensive Security</b>	<b>U G</b>	<b>3</b>
This course will give students an overview of existing offensive computing techniques, which include well known attacks that break confidentiality, integrity and availability of computing resources. Attacks targeting on human weaknesses without taking special care to security will also be discussed. Prereq: 2431, 5431, or Grad standing. Not open to students with credit for ECE 5567.01. Cross-listed in ECE 5567.01.			
<b>5477.02</b>	<b>Reverse Engineering and Malware Analysis</b>	<b>U G</b>	<b>3</b>
This course will give students an overview of cutting edge reverse engineering techniques as well as software security and defense practices. Programming experience in C required. Prereq: 2431, 5431, or Grad standing. Prereq or concur: 5471 or ECE 5561. Not open to students with credit for ECE 5567.02. Cross-listed in ECE 5567.02.			
<b>5479</b>	<b>Intermediate Studies in Computer Security</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in computer security. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5501</b>	<b>Social, Ethical, and Professional Issues in Computing</b>	<b>U G</b>	<b>1</b>
Social, ethical, and professional issues facing computing professionals; ethical principles; discussion of case studies. Prereq: 1222 or 1223 or 2231 or 214 or 222 or 230, and 2321 or Math 366, and Gen Ed Writing Level 2. Not open to students with credit for 2501 (601).			
<b>5521</b>	<b>Survey of Artificial Intelligence I: Basic Techniques</b>	<b>U G</b>	<b>2</b>
Survey of the basic concepts and techniques in artificial intelligence, including problem solving, knowledge representation, and machine learning. Prereq: 2331 or 5331, or Grad standing. Not open to students with credit for 3521.			
<b>5522</b>	<b>Survey of Artificial Intelligence II: Advanced Techniques</b>	<b>U G</b>	<b>3</b>
Survey of advanced concepts, techniques, and applications of artificial intelligence, including knowledge representation, learning, natural language understanding, and vision. Prereq: 3521 or 5521, and enrollment in CSE, CIS, ECE, or Data Analytics major; or Grad standing.			
<b>5523</b>	<b>Machine Learning and Statistical Pattern Recognition</b>	<b>U G</b>	<b>3</b>
Introduction to basic concepts of machine learning and statistical pattern recognition; techniques for classification, clustering and data representation and their theoretical analysis. Prereq: 3521, 5521, or 5243; and 5522, Stat 3460, or 3470; and Math 2568, 2174, 4568, or 5520H; or Grad standing.			
<b>5524</b>	<b>Computer Vision for Human-Computer Interaction</b>	<b>U G</b>	<b>3</b>
Computer vision algorithms for use in human-computer interactive systems; image formation, image features, segmentation, shape analysis, object tracking, motion calculation, and applications. Prereq: 2331, or Sr or Grad standing. Not open to students with credit for 634.			
<b>5525</b>	<b>Foundations of Speech and Language Processing</b>	<b>U G</b>	<b>3</b>
Fundamentals of natural language processing, automatic speech recognition and speech synthesis; lab projects concentrating on building systems to process written and/or spoken language. Prereq: 3521 or 5521, and 5522, Stat 3460, or 3470. Not open to students with credit for 733.			
<b>5526</b>	<b>Introduction to Neural Networks</b>	<b>U G</b>	<b>3</b>
Survey of fundamental methods and techniques of neural networks; single- and multi-layer perceptrons; radial-basis function networks; support vector machines; recurrent networks; supervised and unsupervised learning. Prereq: 3521 or 5521. Not open to students with credit for 779.			
<b>5539</b>	<b>Intermediate Studies in Artificial Intelligence</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in artificial intelligence. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5541</b>	<b>Computer Game and Animation Techniques</b>	<b>U G</b>	<b>2</b>
Fundamental algorithms and mathematics in the production of computer animation and video games, emphasizing the control and rendering of animated characters. Prereq: 3901 or 3902 or 3903 (560). Not open to students with credit for 3541 (683).			

<b>5542</b>	<b>Real-Time Rendering</b>	<b>U G</b>	<b>3</b>
Comprehensive list of topics in real-time rendering using OpenGL and GLSL, including coordinate systems, transformations, viewing, illumination, texture mapping, and shader-based algorithms. Prereq: 3901 (560) or 3902 or 3903, and Math 2568 (568) or 571. Not open to students with credit for 781.			
<b>5543</b>	<b>Geometric Modeling</b>	<b>U G</b>	<b>3</b>
Common algorithmic and mathematical techniques for modeling geometric objects in computer graphics and CAD applications; sample based modeling, mesh generation, and hierarchical representations. Prereq: Math 2568 (568) or 571. Not open to students with credit for 784.			
<b>5544</b>	<b>Introduction to Data Visualization</b>	<b>U G</b>	<b>3</b>
Principles and methods for visualizing data from measurements and calculations in physical and life sciences, and transactional and social disciplines; information visualization; scientific visualization. Prereq: 5361, Stat 3301, 3541, or 5541. Not open to students with credit for 694L.			
<b>5545</b>	<b>Advanced Computer Graphics</b>	<b>U G</b>	<b>3</b>
Advanced topics in computer graphics; image synthesis, lighting and rendering, sampling and material properties, volume rendering. Prereq: 3541 or 5541 or 581. Not open to students with credit for 782.			
<b>5546</b>	<b>Virtual Reality</b>	<b>U G</b>	<b>3</b>
Principles and methods for the design, development, and evaluation of three-dimensional interfaces in virtual environments and their applications in data science, medicine, and engineering. Prereq: 3541, 5541, 5542, or 5544, or permission of instructor.			
<b>5559</b>	<b>Intermediate Studies in Computer Graphics</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in computer graphics. Repeatable to a maximum of 12 cr hrs or 6 completions.			
<b>5889</b>	<b>Intermediate Studies in Multidisciplinary Computing</b>	<b>U G</b>	<b>2 - 3</b>
Intermediate-level topics in multidisciplinary computing techniques Repeatable to a maximum of 8 cr hrs or 4 completions.			
<b>5891</b>	<b>Proseminar in Cognitive Science</b>	<b>U G</b>	<b>3</b>
Provides an in-depth examination of cognitive science from an interdisciplinary perspective. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. Cross-listed in Ling, Philos, Psych, and SphHrng.			
<b>5911</b>	<b>Capstone Design: Software Applications</b>	<b>U G</b>	<b>4</b>
Capstone design project: application of software engineering techniques, methodologies and technologies in software lifecycle activities using enterprise software frameworks; teamwork, written and oral communication. Prereq: 3231 or 5231, and 2501 or Philos 1338, and CSE 3901 or 3902 or 3903, and second writing course; or Grad standing.			
<b>5912</b>	<b>Capstone Design: Game Design and Development</b>	<b>U G</b>	<b>4</b>
Capstone design project: conceptual and technical design and implementation of interactive game, integrating custom code and toolkits; teamwork, written and oral communication skills. Prereq: 3541 or 5541, and 2501 or Philos 1338, and CSE 3901 or 3902 or 3903, and second writing course; or Grad standing.			
<b>5913</b>	<b>Capstone Design: Computer Animation</b>	<b>U G</b>	<b>4</b>
Capstone design project: conceptual and technical design and implementation of computer animation incorporating animation elements; teamwork, written and oral communication skills. Prereq: 3541 or 5541, and 2501 or Philos 1338, and CSE 3901 or 3902 or 3903, and second writing course; or Grad standing.			
<b>5914</b>	<b>Capstone Design: Knowledge-Based Systems</b>	<b>U G</b>	<b>4</b>
Capstone design project: conceptual and technical design; theory and practice of knowledge-based systems; teamwork, written and oral communication skills. Prereq: 3521 or 5521, and 2501 or Philos 1338, and CSE 3901 or 3902 or 3903, and second writing course; or Grad standing.			
<b>5915</b>	<b>Capstone Design: Information Systems</b>	<b>U G</b>	<b>4</b>
Capstone design project; information system principles: database design methods and tools, indexing, searching, application development, testing, evaluation; teamwork, written and oral communication skills. Prereq: 3241 or 5241, and 2501 or Philos 1338, and CSE 3901 or 3902 or 3903, and second writing course; or Grad standing.			
<b>6193</b>	<b>Individual Studies in Computer Science and Engineering</b>	<b>G</b>	<b>1 - 10</b>
Designed to give the student an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies in Computer Science and Engineering</b>	<b>G</b>	<b>1 - 10</b>
Designed to give the student an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>6239</b>	<b>Advanced Studies in Software Engineering</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in software engineering. Repeatable to a maximum of 24 cr hrs or 8 completions. This course is graded S/U.			

## Computer Science and Engineering 111

<b>6249</b>	<b>Advanced Studies in Databases</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in databases. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6321</b>	<b>Computability and Complexity</b>	<b>G</b>	<b>3</b>
Turing machines, decidability, recursive enumerability; many-to-one and polynomial-time reductions; NP-completeness, Cook-Levin Theorem; Recursion Theorem. Prereq: 3321 (625) or 5321. Not open to students with credit for 725.			
<b>6331</b>	<b>Algorithms</b>	<b>G</b>	<b>3</b>
Algorithm design paradigms; mathematical analysis of algorithms. Prereq: 2331 (680) or 5331. Not open to students with credit for 780.			
<b>6341</b>	<b>Foundations of Programming Languages</b>	<b>G</b>	<b>3</b>
Conceptual foundations of programming languages: attribute grammars; types; functional languages; language semantics; abstract interpretation. Prereq: 3341 (655) or 5341. Not open to students with credit for 755.			
<b>6349</b>	<b>Advanced Studies in Programming Languages</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in programming languages. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6421</b>	<b>Computer Architecture</b>	<b>G</b>	<b>3</b>
Principles and tradeoffs behind the design of modern computer architectures, including instruction-level parallelism, memory system design, advanced cache architectures, cache coherence, multiprocessors, energy-efficient and embedded architectures. Prereq: 3431 (660) or 5431, and 3421 (675), 5421, or ECE 5362 (662). Not open to students with credit for 775.			
<b>6422</b>	<b>Advanced Computer Architecture</b>	<b>G</b>	<b>3</b>
Fundamental design issues in parallel architectures, design of scalable shared memory and distributed memory systems, interconnection networks (on-chip and off-chip), multi-core architectures, accelerators, embedded systems, and exascale systems. Prereq: 6421 (775) and 6441 (721). Not open to students with credit for 875.			
<b>6429</b>	<b>Advanced Studies in Computer Architecture</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in computer architecture. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6431</b>	<b>Advanced Operating Systems</b>	<b>G</b>	<b>3</b>
Advanced topics in operating systems and concurrency; introduction to distributed systems. Prereq: 2431 (660) or 5431. Not open to students with credit for 760.			
<b>6441</b>	<b>Parallel Computing</b>	<b>G</b>	<b>3</b>
Principles and practice of parallel computing; design, implementation, and performance evaluation of parallel programs for shared-memory, distributed-memory and heterogeneous parallel systems. Prereq: 5441 (621). Not open to students with credit for 721.			
<b>6449</b>	<b>Advanced Studies in Parallel Computing</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in parallel computing. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6461</b>	<b>Computer Communication Networks</b>	<b>G</b>	<b>3</b>
Foundational understanding of network analysis, error-control, routing, congestion-control, multi-access, and their examples in the context of the existing communication networks. A previous course in statistics is recommended for students taking this course. Prereq: Grad standing in Engr. Not open to students with credit for ECE 6101. Cross-listed in ECE 6101.			
<b>6469</b>	<b>Advanced Studies in Computer Networking</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in computer networking. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6479</b>	<b>Advanced Studies in Computer Security</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in computer security. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6521</b>	<b>Artificial Intelligence</b>	<b>G</b>	<b>3</b>
Survey of advanced concepts, techniques, and applications of artificial intelligence, including knowledge representation, learning, natural language understanding, and vision. Prereq: 4256 or equiv., Math 4568 or equiv., and Stat 3470 or equiv. Not open to students with credit for 5521 or 5522.			
<b>6539</b>	<b>Advanced Studies in Artificial Intelligence</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in artificial intelligence. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6559</b>	<b>Advanced Studies in Computer Graphics</b>	<b>G</b>	<b>1 - 3</b>
Advanced-level topics in computer graphics. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.			
<b>6998</b>	<b>MS Research in Computer Science and Engineering</b>	<b>G</b>	<b>½ - 10</b>
MS research in Computer Science and Engineering. Repeatable to a maximum of 10 completions. This course is graded S/U.			

<b>6999</b>	<b>MS Thesis Research in Computer Science and Engineering</b>	<b>G</b>	<b>1 - 10</b>
MS research in Computer Science and Engineering, leading to a thesis. Repeatable to a maximum of 10 completions. This course is graded S/U.			
<b>8194</b>	<b>Group Studies in Computer Science and Engineering</b>	<b>G</b>	<b>1 - 10</b>
Designed to give the student an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 completions.			
<b>8998</b>	<b>PhD Research in Computer Science and Engineering</b>	<b>G</b>	<b>½ - 10</b>
PhD research in Computer Science and Engineering. Repeatable to a maximum of 10 completions. This course is graded S/U.			
<b>8999</b>	<b>PhD Dissertation Research in Computer Science and Engineering</b>	<b>G</b>	<b>1 - 10</b>
PhD research in Computer Science and Engineering, leading to a dissertation. Repeatable to a maximum of 10 completions. This course is graded S/U.			

## Construction Systems Management

<b>1100</b>	<b>Exploring Construction Systems Management</b>	<b>U</b>	<b>½</b>
Basic understanding of the global trends within construction systems management, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development			
<b>2193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Introductory individual study of problems and topics not included in regular Construction Systems Management courses. Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 5</b>
Introductory group studies of selected topics in Construction Systems Management Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.			
<b>2205</b>	<b>Introduction to Construction Systems Management</b>	<b>U</b>	<b>3</b>
Overview of commercial, industrial, institutional, transportation and residential sectors of the construction industry and the role of the construction manager. Introduction to planning, scheduling, estimating, safety and ethics in construction. Prereq or concur: Math 1148, 1149, 1150, or 1151. Not open to students with credit for 1205 or 3450. This course is available for EM credit.			
<b>2210</b>	<b>Graphic Presentation</b>	<b>U</b>	<b>2</b>
Presentation of three-dimensional objects by precise graphics: orthographic, sectional, pictorial, and introduction to computer graphics.			
<b>2220</b>	<b>Information Technology for Construction</b>	<b>U</b>	<b>3</b>
An introduction to information technology used in the construction process for collaboration, visualization, information modeling, and simulation. The application of current collaborative software packages for the construction process is explored. Spreadsheets are used to illustrate data collection and information modeling. Emerging trends in software and hardware are discussed. Prereq: Math 1148, 1149, 1150, or 1151.			
<b>2240</b>	<b>Construction Materials and Methods I</b>	<b>U</b>	<b>3</b>
A study of the principles and practices in basic metal fabrication using the current joining, metallurgical and welding processes required in the construction industry. Prereq or concur: Math 1130, 1148, 1149, 1150 or 1151. Not open to students with credit for AgSysMt 2240. This course is available for EM credit.			
<b>2241</b>	<b>Construction Materials and Methods II</b>	<b>U</b>	<b>3</b>
Material selection and construction methods for residential and commercial construction with an emphasis on wood, masonry, and concrete. Prereq or concur: 2205. Not open to students with credit for AgSysMt 2241. This course is available for EM credit.			
<b>2305</b>	<b>Professional Development I</b>	<b>U</b>	<b>2</b>
Business communications and professional development in construction systems management including informative and persuasive writing, academic planning, project management, research techniques, teaming, report writing and presentations. Prereq: English 1110. Not open to students with credit for AgSysMt 2305. This course is available for EM credit.			
<b>2310</b>	<b>Electrical and Lighting Systems for Buildings</b>	<b>U</b>	<b>3</b>
Concepts of electricity and illumination applied to the design and installation of electrical and lighting systems in buildings including safety, code requirements, installation methods, electrical schematics, and construction blueprints. Prereq: Math 1148, 1149, 1150, or 1151. Prereq or concur: Physics 1200 or 1250. This course is available for EM credit.			
<b>2345</b>	<b>Mechanical Systems for Buildings</b>	<b>U</b>	<b>3</b>
Fundamentals of HVAC, plumbing, fire protection and noise and vibration control and their impact on building design and construction. Prereq: Math 1148, 1149, 1150, or 1151. Prereq or concur: Physics 1200 or 1250. This course is available for EM credit.			

## 112 Construction Systems Management

**2440 Construction Surveying and Site Development** U 4

Principles of soil mechanics, erosion control, layout, and surveying as applied to site development for residential and commercial construction.  
Prereq: 2210 or Engr 1182.01 or 1182.02 or 1182.03, and CSE 1112 or Engr 1181.01 or 1181.02 or HCS 2401. Prereq or concur: ENR 3000. This course is available for EM credit.

**2600 Construction Safety and Health** U 3

Construction safety and health practices, strategies and methods for the development and management of safety and health programs in the construction industry.  
Prereq: 2205. This course is available for EM credit.

**3191 Internship in Construction Systems Management** U 2

A pre-approved internship of planned and supervised work experiences which provide professional and technical growth in the construction industry.  
Prereq: ConSysM 2305 (ConSysMt 305), and 8 sem cr hrs in ConSysM or 11 qtr cr hrs in ConSysMt courses, or some combination thereof, and permission of internship coordinator. Not open to students with credit for ConSysMt 489 or AgSysMt 3191 (AgSysMgt 489).

**3450 Estimating for Construction** U 4

Reading and interpretation of construction drawings and specifications for construction projects. Estimating the material requirements and costs of building construction projects using commercially available estimating tools.  
Prereq: 2240, 2241, 2310, 2345, and Physics 1200 or 1250. Prereq or concur: ConSysM 2440.

**3451 Scheduling Construction Projects** U 4

Planning, scheduling and tracking of construction project elements including management of time, resources, cost and safety.  
Prereq: 2440 and 3450.

**3545 Structures for Construction Mgrs I** U 3

Principles of statics, material properties, structural analysis and design theory useful in understanding the design, and managing the construction, of steel and wood structures. Overview of structural loads on buildings and bridges, types of structural systems, and accurate construction drawing interpretation.  
Prereq: 2240, 2241, and Physics 1200 or 1250. Prereq or concur: ConSysM 2440.

**3546 Structures for Construction Mgrs II** U 3

A continuation of CSM 3545 to include steel, concrete and masonry structures and design methodologies, including foundation design and building systems integration of structural components. Further review of construction drawings, submittals and actual project observations will be utilized as opportunities are available throughout the course.  
Prereq: 3545.

**4193 Individual Studies** U 1 - 3

Intermediate individual study of problems and topics not included in regular Construction Systems Management courses.  
Prereq: GPA 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**4194 Group Studies** U 1 - 5

Intermediate group studies of selected topics in Construction Systems Management.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.

**4605 Professional Development II** U 1

Development and pursuing career plans; strategies and programs for employment in the construction industry, professional development, personal growth, and relationships.  
Prereq: 2305 (ConSysMt 305), 3451 (ConSysMt 541), and AgrComm 3130 (390) or Comm 2110 (321), and any second writing course numbered 2367 (367). Not open to students with credit for ConSysMt 605 or AgSysMt 4605 (AgSysMgt 605).

**4641 Construction Project Management** U 2

The management of standard commercial/residential construction projects, including planning, scheduling, materials management, resource procurement, codes and standards, construction funding, personnel management and labor unions.  
Prereq: 3451.

**4642 Construction Control - Contracts and Documents** U 3

Documents used in the construction industry will be discussed and applied; including types of contracts, bidding and negotiating, administration and quality control of construction contracts.  
Prereq: 3451.

**4660 Heavy Construction Management** U 3

Methods, materials, equipment, and planning of heavy construction projects. Economics of equipment acquisition and operation. Equipment selection, performance characteristics, and production rates.  
Prereq or concur: 3451.

**4900 Construction Management Capstone** U 3

Skills in estimating, scheduling, blueprint reading, teamwork, oral written communication, management principles, and contracts/documents used to develop solutions to industry provided construction related problems.  
Prereq or concur: 3546, 4641, 4642, and 4660.

**4998 Undergraduate Research** U 1 - 3

Supervised undergraduate research on various topics.  
Prereq: CPHR 2.5 or above, and permission of the instructor. Repeatable to a maximum of 6 cr hrs or 4 completions. This course is graded S/U.

**4999 Research with Distinction** U 1 - 3

Conducting and reporting research with Distinction. Students are expected to present at the CFAES Undergraduate Research and the Denman University Undergraduate Research forums.  
Prereq: GPA 3.0 or above, GPA 3.0 or above in ConSysM, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

**4999H Honors Research with Distinction** U 1 - 3

Conducting and reporting honors research with distinction. Students are expected to present at the CFAES Undergraduate Research and the Denman University Undergraduate Research forums.  
Prereq: Honors standing, and FAES 4590.01H (590H), and CPHR 3.4 or above, and GPA 3.4 or above in ConSysM, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

**5670 Green Building and Sustainable Construction** U G 3

Introduction to LEED rating systems, major components of sustainable building design and construction as well as other environmental and economic issues of sustainable built environments.  
Prereq: Jr, Sr, or Grad standing. Not open to students with credit for ConSysMt 670.

**5680 Construction Renovation and Demolition** U G 3

The practices, procedures and management strategies employed by construction managers in renovating and demolishing buildings and other structures.  
Prereq or concur: ConSysM 4642 (ConSysMt 642), or permission of instructor.

**6193 Individual Studies** G 1 - 3

Advanced individual study of problems and topics not included in regular Construction Systems Management courses.  
Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

**6194 Group Studies** G 1 - 5

Advanced group studies of selected topics in Construction Systems Management.  
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.

## Consumer Sciences

**2910 Consumer Problems and Perspectives** U 3

Study of common imperfections in the market which manifest themselves in safety, fairness, quality, information and education concerns for consumers.  
Prereq: Not open to students with credit for CSCFMFNS 243. GE soc sci orgs and politics course.

**2990 Professional Development** U 1

The professional: Overview of the internship and job search process, networking, involvement in professional organizations and continued development.  
Prereq: Soph standing or above, and enrollment in a ConSci major (CSCFFS, CSFRST, CSHspMg). Not open to students with credit for 595. This course is graded S/U.

**3191 Internship** U 3

Supervised practical experience at a department approved internship site related to the student's selected major. Includes an investigation and analysis of assigned problems and documentation of experience.  
Prereq: 2990 (595), 2.0 CPHR or above, and Jr standing; and CS major: Consumer and Family Financial Services, Fashion and Retail Studies, Hospitality Management. Not open to students with credit for 589.02, CSFSnRTS 289, 589, CSHspMg 570, or 571. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.

**3930 Consumer Decision-Making I** U 3

Contemporary consumer behavior theories and decision-making processes with implications for consumers, marketers, policy makers and managers in a global economy.  
Prereq: 2910 and Econ 2001.01. Not open to students with credit for 543.

**3940 Consumer Information: Methods of Data Analysis** U 3

Application of marketing research and statistical analysis using spreadsheet applications to examine consumers, consumption patterns, workforce behavior, and retailer/marketplace responses.  
Prereq: Stat 1350, 1430, or 1450, and CSE 1111 or 2111. Not open to students with credit for 340.

**4990 Practicum in Consumer Sciences** U 1 - 3

Practical applications of fashion and retail studies, hospitality management, or consumer and family financial services; students work individually with a faculty member on a project.  
Prereq: Permission of instructor. Not open to students with credit for CSFSnRTS 590 or CSTxtCl 590. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.

**4998 Undergraduate Research in Consumer Sciences** U 1 - 3

Supervised undergraduate research in various phases of consumer sciences under the guidance of a faculty member.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

<b>4998H</b>	<b>Undergraduate Honors Research in Consumer Sciences</b>	<b>U</b>	<b>1 - 3</b>
Supervised undergraduate honors research in various phases of consumer sciences under the guidance of a faculty member. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>5193</b>	<b>Individual Studies in Consumer Sciences</b>	<b>U G</b>	<b>1 - 4</b>
Problems in various phases of consumer sciences chosen for individual study under the guidance of a faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies in Consumer Sciences</b>	<b>U G</b>	<b>1 - 4</b>
Problems in various phases of consumer sciences chosen for group study under the guidance of a faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions.			
<b>5333</b>	<b>Workplace Satisfaction, Happiness, and Well-being of Service Employees</b>	<b>U G</b>	<b>2</b>
This course discusses and applies the key concepts and strategies - intellectual and practical - to achieve a greater sense of workplace satisfaction, happiness and well-being among service employees.			
<b>5798</b>	<b>Study Tour</b>	<b>U G</b>	<b>1 - 12</b>
Specific content, location, term(s) of offering and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 2 completions.			
<b>6000</b>	<b>Introduction to Research in Consumer Sciences</b>	<b>G</b>	<b>3</b>
Research literature in consumer sciences; development of the principles of scholarly research. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 700 or CSCFmFnS 738 or CSFsnRIS 777.01.			
<b>6010</b>	<b>Individual and Family Behavior in the Market Place</b>	<b>G</b>	<b>3</b>
Study of consumer behavior in purchase of goods and services, with emphasis on applications to effective marketing management decisions from the consumer perspective. Prereq: Grad standing, or permission of instructor.			
<b>6020</b>	<b>Theories and Models in Consumer Sciences</b>	<b>G</b>	<b>3</b>
Survey of theories and models that serve as the foundation for research in Consumer Sciences; including theories from economics, psychology, and sociology. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 702.			
<b>7193</b>	<b>Individual Studies in Consumer Sciences</b>	<b>G</b>	<b>1 - 4</b>
Problems in various phases of consumer sciences chosen for individual study under the guidance of a faculty member. Prereq: 6000 (700), and Grad standing; or permission of instructor. Repeatable to a maximum of 16 cr hrs or 16 completions. This course is graded S/U.			
<b>7194</b>	<b>Group Studies in Consumer Sciences</b>	<b>G</b>	<b>1 - 4</b>
Problems in various phases of consumer sciences chosen for group study under the guidance of a faculty member. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 16 completions.			
<b>7230</b>	<b>Measurement and Analysis of the Economic Status of Consumer Units</b>	<b>G</b>	<b>3</b>
Measurement and analysis of the economic status of consumer units including key concepts, determinants, policy implications, and implications for research. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 739.			
<b>7240</b>	<b>Theories and Models in Consumer Sciences II</b>	<b>G</b>	<b>3</b>
Aspects of consumers' family life are analyzed from the perspective of economic theories. Emphasis is placed on implications of the theories for design and interpretation of empirical studies. Prereq: Intermediate Microeconomics. Not open to students with credit for 740.			
<b>7900</b>	<b>Graduate Seminar in Consumer Sciences</b>	<b>G</b>	<b>1</b>
Scholarly presentations of current research by students, faculty and invited speakers to stimulate critical thinking and discussion of implications for consumers. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 800. Repeatable to a maximum of 5 cr hrs. This course is graded S/U.			
<b>7991</b>	<b>Research Practicum in Consumer Sciences</b>	<b>G</b>	<b>1 - 4</b>
Supervised participation in empirical research inclusive of research design selection, and/or data collection, and/or data analysis, and/or manuscript preparation. Prereq: 6000 (700), and Grad standing; or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions.			
<b>7992</b>	<b>Teaching Practicum in Consumer Sciences</b>	<b>G</b>	<b>1 - 4</b>
Supervised participation in college teaching inclusive of pedagogy selection, and/or development of teaching techniques, and/or development of course content, and/or development of assessment pieces, and/or classroom instruction. Prereq: 6000 (700), and grad standing; or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions.			

<b>7999</b>	<b>Research for Thesis</b>	<b>G</b>	<b>1 - 12</b>
Research for Masters Thesis. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies in Consumer Sciences</b>	<b>G</b>	<b>1 - 4</b>
Problems in various phases of consumer sciences chosen for individual study under the guidance of a faculty member. Prereq: 6000 (700), and grad standing; or permission of instructor. Repeatable to a maximum of 16 cr hrs or 16 completions. This course is graded S/U.			
<b>8250</b>	<b>Normative Approaches to Consumer Sciences</b>	<b>G</b>	<b>3</b>
Focuses on derivation of normative guidelines for household financial decisions, but normative guidelines related to other aspects of consumer sciences will also be covered. Prereq: Intermediate microeconomics, introductory statistics, and introductory differential calculus. Not open to students with credit for 741 or CsFmScM 741.			
<b>8260</b>	<b>Behavioral Approaches to Consumer Sciences</b>	<b>G</b>	<b>3</b>
Economic behaviors are analyzed from psychological perspectives to understand factors that motivate consumption, saving, and related economic behaviors. Prereq: Grad standing, and permission of instructor.			
<b>8270</b>	<b>Managing Consumer Risk</b>	<b>G</b>	<b>3</b>
An examination of challenges involved in managing consumer risk. Topics include the economics of risk, methods of risk management, and quantitative risk analysis. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 872.			
<b>8891</b>	<b>Special Topic Seminar: Family Finance</b>	<b>G</b>	<b>3</b>
Survey of literature on specific family finance topics with emphasis on identifying research problems, assessing significance, reviewing literature, conducting research, and preparing professional presentations. Prereq: 6000 (700), and Grad standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>8999</b>	<b>Research for Dissertation</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 24 cr hrs or 8 completions. This course is graded S/U.			

### Consumer Sciences: Consumer&Family Financial Servs

<b>2260</b>	<b>Family Financial Management</b>	<b>U</b>	<b>3</b>
The management of family financial resources; topics include financial planning and budgeting, insurance, credit, and savings and investments. Prereq: Not open to students with credit for CSCFmFnS 260.			
<b>2990</b>	<b>Professional Development</b>	<b>U</b>	<b>1</b>
The professional: Overview of the internship and job search process, networking, involvement in professional organizations and continued development. Prereq: Soph standing or above, and enrollment in CSCFFS major. Not open to students with credit for 595. This course is graded S/U.			
<b>3191</b>	<b>Internship</b>	<b>U</b>	<b>3</b>
Supervised practical experience at a department approved internship site related to the student's selected major. Includes an investigation and analysis of assigned problems and documentation of experience. Prereq: 2990 (595), 2.0 CPHR or above, and Jr standing; and CSCFFS major. Not open to students with credit for 589.02. This course is graded S/U.			
<b>3260</b>	<b>Fundamentals of Financial Planning</b>	<b>U</b>	<b>3</b>
This course provides an introduction to personal financial planning from the perspective of the financial planning professional. It is a required course in the seven-course Certified Financial Planner (CFP) sequence that qualifies students to sit for the CFP Exam after obtaining their Bachelors degree. Prereq: 2260 or 9 credit hours of BusFin courses at the 3000-level or higher.			
<b>3270</b>	<b>Families in Business</b>	<b>U</b>	<b>3</b>
Students explore family business topics such as family dynamics, conflict, gender, ethnicity; and relative to the business formation: growth, strategic management, professionalization and succession. Prereq: Soph standing or above. Not open to students with credit for CSFmFnS 567.			
<b>4130</b>	<b>Consumer Decision Making II</b>	<b>U</b>	<b>3</b>
Theory and practice of rational consumer decision making under uncertainty with application to decision-making of oneself and for clients. Prereq: CONSCI 3930, and Econ 2001.01; and Stat 1350, or 1430, or 1450.			
<b>4150</b>	<b>Quantitative Methods in Consumer Sciences</b>	<b>U</b>	<b>3</b>
Application of data analysis to facilitate decision making with respect to consumer sciences. Prereq: ConSci 3940 (340), and Stat 1430 (133), 1350 (135), or 1450 (145), and CSE 1111 (101), 2111 (200), or 1223 (201). Not open to students with credit for CSCFmFnS 644.			

## 114 Consumer Sciences: Consumer&Family Financial Servs

<b>4260</b>	<b>Family Tax Planning</b>	<b>U</b>	<b>3</b>
Analyze and evaluate financial decisions by families at various points in family life cycle, apply economic principles and understanding of basic tax policy to family financial decisions. Prereq or concur: 3260.			
<b>4270</b>	<b>Retirement Planning and Employee Benefits</b>	<b>U</b>	<b>2</b>
Evaluation of retirement plans and employee benefits with consideration of the interwoven factors of Social Security, pension, private savings, and health insurance. Prereq or concur: 3260.			
<b>4280</b>	<b>Estate Planning for Individuals and Families</b>	<b>U</b>	<b>2</b>
Key topics in planning for transfer of family estate, focusing on strategies that conserve family wealth while being consistent with family financial goals. Prereq or concur: 3260.			
<b>5130</b>	<b>Solutions to Consumer Problems</b>	<b>U G</b>	<b>3</b>
Consumer problems are defined and characterized using an economics approach. Private and public solutions to consumer problems are then examined and evaluated. Prereq: ConSci 2910 and Econ 2001.01. Not open to students with credit for CSCFmFnS 443 or CSFmRsM 443.			
<b>5140</b>	<b>Topics in Consumer Sciences</b>	<b>U G</b>	<b>3</b>
Timely topics in consumer sciences are examined in depth. Prereq: Econ 2001.01 and Stat 1350, 1430, or 1450, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5150</b>	<b>FINRA Securities Industry Essentials Exam Preparation</b>	<b>U G</b>	<b>1</b>
This course prepares students for the FINRA Security Industry Essentials (SIE) Exam. Prereq or concur: BusFin 3222 or 4221. This course is graded S/U.			
<b>5250</b>	<b>Retirement Planning and Employee Benefits</b>	<b>U G</b>	<b>3</b>
This course covers advanced concepts in retirement planning, procedures and issues, with particular attention to designing retirement strategies to meet diverse client needs. Students will read journal articles covering the latest developments in planning for retirement and maintaining household well-being during retirement. Special attention will be given to qualified plans, tax-advantaged plans. Prereq or concur: 3260. Not open to students with credit for 4270.			
<b>5260</b>	<b>Family Financial Management Applications</b>	<b>U G</b>	<b>4</b>
Family financial management concepts are applied to evaluate financial goals and prepare a comprehensive financial plan for a household. Prereq: B- or above in 3260, and 4260; and BusFin 3120 or 3220. Prereq or concur: 4270 or 5250, 4280, BusFin 3300, and 3222 or 4221.			

### Consumer Sciences: Fashion and Retail Studies

<b>2100</b>	<b>Profit-Centered Merchandising and Hospitality</b>	<b>U</b>	<b>3</b>
An examination and application of managerial and financial accounting principles for the hospitality and fashion industry operations will be the focus. Students will apply the corresponding lectures to practical assignments to form a foundation of understanding concepts, procedures, and ultimately the analysis of various documents and data. Cross-listed in CSHspMg.			
<b>2300</b>	<b>Branding in Fashion, Hospitality and Sport Industries</b>	<b>U</b>	<b>3</b>
Examine branding as a business strategy in fashion, hospitality, sport and special events industries, including luxury, mass market, and boutique fashion, hotel and restaurant brands. Cross-listed in CSHspMg.			
<b>2370</b>	<b>Aesthetics of Fashion &amp; Retail</b>	<b>U</b>	<b>3</b>
The perception and presentation of self and its surrounding environment through use of aesthetics with consideration of foundations of design, physical characteristics, environment, personal expression, and context.			
<b>2371</b>	<b>Textiles</b>	<b>U</b>	<b>3</b>
Fiber, yarn, and fabric characteristics, textile coloration and finishes; textile selection for specific end uses; laundering and care; new textile products and industry trends. Prereq: Not open to students with credit for CSFsnRtS 371.			
<b>2372</b>	<b>Appearance, Dress, and Cultural Diversity</b>	<b>U</b>	<b>3</b>
A cross-cultural study of the diversity and meaning of appearance and dress as manifestations of individual and group behavior, social organizations, and cultural norms. Prereq: Not open to students with credit for CSFsnRtS 372. GE soc sci indivs and groups course.			
<b>2373</b>	<b>Business of Fashion &amp; Retailing</b>	<b>U</b>	<b>3</b>
Survey of fashion industry supply chain, business structure, design, manufacture, sourcing, distribution, and retail functions along with industry terminology, current topic analysis, and career options.			
<b>2374</b>	<b>Twentieth Century Fashion and Beyond</b>	<b>U</b>	<b>3</b>
Relationship between culture, society and fashion in the 20th century, the influence of historic dress on contemporary fashion, and industry developments leading to mass fashion. Prereq: English 1110. Not open to students with credit for CSFsnRtS 674. GE historical study course.			

<b>2990</b>	<b>Professional Development</b>	<b>U</b>	<b>3</b>
Preparation for internship experience in the fashion and retail industry by providing skills for success on the job and providing job seekers the tools applicable to an individual who is transitioning from the classroom to the work environment. This course is a prerequisite for CSFRSt 3191. Prereq: Soph standing or above, and enrollment in CSFRSt major.			
<b>3191</b>	<b>Internship</b>	<b>U</b>	<b>3</b>
Supervised practical experience at a department approved internship site related to the student's selected major. Includes an investigation and analysis of assigned problems and documentation of experience. Prereq: 2.0 CPHR or above, and Jr or Sr standing, and CSFRSt major. Prereq or concur: 2990 (595) or ConSci 2990. Not open to students with credit for 589.02. This course is graded S/U.			
<b>3330</b>	<b>Corporate Social Responsibility, Sustainability &amp; Entrepreneurship in Fashion &amp; Hospitality Indus</b>	<b>U</b>	<b>2</b>
Examination of corporate socially responsible and sustainable decision-making and regulatory processes used in advertising and promoting fashion retail and hospitality products and services. Prereq: Jr or Sr standing, or enrolled in HRL certificate program. Cross-listed in CSHspMg.			
<b>3470</b>	<b>Apparel Product Design and Branding</b>	<b>U</b>	<b>5</b>
Study of apparel design using a variety of hand and computer media: apparel product development. Prereq: C- or higher in 2372 (CSFsnRtS 372) and 2370 (270). Not open to students with credit for CSFsnRtS 370 and 670.			
<b>3471</b>	<b>Apparel Manufacturing Decisions</b>	<b>U</b>	<b>3</b>
View of the fashion supply chain that examines the life of a garment from farm to textile, garment to shelf. Investigate parameters of textile apparel quality, standards and evaluation, and assurance of quality throughout the factory garment construction phases. Learn about retailers' involvement throughout the process and logistical decision making needed to avoid quality issues. Recommended prereq: Chem 1110 (102). Prereq: C- or higher in 2373 (CSFsnRtS 275) and 2371 (371). Not open to students with credit for CSFsnRtS 571.			
<b>3474</b>	<b>Fashion Forecasting</b>	<b>U</b>	<b>3</b>
Analysis and application of trend forecasting practices in all aspects of the fashion industry. Prereq: C- or higher in 2370 (CSFsnRtS 270), and 2373 (275). Not open to students with credit for CSFsnRtS 200 or 374.			
<b>3910</b>	<b>Consumer Service and Satisfaction</b>	<b>U</b>	<b>3</b>
Provides students with an intellectual and hands-on understanding of the key consumer service management and consumer satisfaction theories and practices that are relevant in service sectors. Cross-listed in CSHspMg.			
<b>3950</b>	<b>Use of Social Media and IT in Fashion, Hospitality, and Sport Industries</b>	<b>U</b>	<b>2</b>
An application and discussion of social media and information technology strategies in fashion, sport, and hospitality industries. Prereq: Jr or Sr standing, and a major, pre-major, or minor in CSFRSt, CSHspMg, or KnSISM. Not open to students with credit for CSHspMg 650. Cross-listed in CSHspMg.			
<b>4570</b>	<b>Apparel Product Development and Technical Packages</b>	<b>U</b>	<b>3</b>
Study of computer-aided design software programs, and creative and technical apparel brand development. Recommended prereq: 3471 and 3474. Prereq: A grade of C- or above in 3470.			
<b>4575</b>	<b>Retail Environments</b>	<b>U</b>	<b>3</b>
Analysis of the influence of store environment characteristics on consumer behavior in various retail formats. Prereq: 2370 (CSFsnRtS 270) with C- or higher. Not open to students with credit for CSFscRtS 525.			
<b>4576</b>	<b>Global Sourcing and Trade in Textile Products</b>	<b>U</b>	<b>3</b>
International factors affecting the textiles and textile products industries and their impact on the economy and consumers. Prereq: 2373 (CSFsnRtS 275) with C- or higher. Prereq or concur: 3471 (571) with C- or higher. Not open to students with credit for CSFsnRtS 576.			
<b>4577</b>	<b>Fashion &amp; Retail Promotion</b>	<b>U</b>	<b>3</b>
Contemporary models, concepts and practice of image management, integrating marketing communications, media, and promotions from fashion industry perspectives. Prereq: 3474 (CSFsnRtS 374) with C- or higher, and BusML 3150 (450). Not open to students with credit for CSFsnRtS 577.			
<b>4583</b>	<b>International Retailing</b>	<b>U</b>	<b>3</b>
Study of retailers using expansion outside domestic market as strategy; reasons and process of internationalization; social, legal and economic factors influencing internationalization. Prereq: 2373, AcctMIS 2000, CSE 1111, Stat 1350 or 1450, and Jr standing.			

<b>4585</b>	<b>Merchandise Buying and Management</b>	<b>U</b>	<b>3</b>
Retail buyer's role in merchandise management: decision making, planning, buying, pricing, and preparing merchandise for sale. Analysis and synthesis of merchandising management practices and problems. Prereq: A grade of C- or above in 2373, Math 1130, AcctMIS 2000, CSE 1111, and Jr standing; or permission of instructor.			
<b>4680</b>	<b>Strategic Management in Fashion &amp; Hospitality Industries</b>	<b>U</b>	<b>2</b>
Discussion, development and application of strategic management in fashion and hospitality industries. Prereq: Sr standing, or enrolled in HRL certificate program. Cross-listed in CSHspMg.			
<b>5555</b>	<b>Management Consulting for Hospitality and Fashion Retail Operations</b>	<b>U G</b>	<b>3</b>
A conceptual foundation, discussion, and application of management consulting in the hospitality and retail industries. Prereq: Sr or Grad standing, or permission of instructor. Cross-listed in CSHspMg.			
<b>5780</b>	<b>Hospitality and Fashion Retail Leadership</b>	<b>U G</b>	<b>3</b>
Advanced hospitality and fashion retail professional course incorporating all principles of hospitality and fashion retail leadership in the various sectors and unique applications of knowledge learned. Prereq: Sr or Grad standing, or permission of instructor. Cross-listed in CSHspMg.			
<b>7478</b>	<b>Textiles: A Global and Cultural History</b>	<b>G</b>	<b>3</b>
Focuses on social, cultural, political, and technological influences, etc. on developments in historic textiles from the ancient world to modern times. Prereq: Grad standing. Not open to students with credit for CSFsnRts 878.			
<b>7574</b>	<b>Aesthetics, Appearance Management, and Self-Presentation</b>	<b>G</b>	<b>3</b>
Understanding aesthetics of dress as a medium of visual communication, with analysis of appearance management strategies employed in the social presentation of self. Prereq: ConSci 6000, or Grad standing, or permission of instructor.			
<b>7575</b>	<b>Psycho-social and Cultural Aspects of Dress</b>	<b>G</b>	<b>3</b>
In-depth study of research and social science theories as applied to appearance and dress as manifestations of individual and group consumer behavior. Prereq: ConSci 6000 (700), or Grad standing, or permission of instructor.			

### Consumer Sciences: Hospitality Management

<b>2100</b>	<b>Profit-Centered Merchandising and Hospitality</b>	<b>U</b>	<b>3</b>
An examination and application of managerial and financial accounting principles for the hospitality and fashion industry operations will be the focus. Students will apply the corresponding lectures to practical assignments to form a foundation of understanding concepts, procedures, and ultimately the analysis of various documents and data. Cross-listed in CSFRSt.			
<b>2200</b>	<b>Introduction to Healthcare Environmental and Hospitality Services</b>	<b>U</b>	<b>3</b>
An application and discussion of healthcare business and analysis of critical healthcare areas in relation to hospitality business.			
<b>2300</b>	<b>Branding in Fashion, Hospitality, and Sport Industries</b>	<b>U</b>	<b>3</b>
Examine branding as a business strategy in fashion, hospitality, sport and special events industries, including luxury, mass market, and boutique fashion, hotel and restaurant brands. Cross-listed in CsFRSt.			
<b>2600</b>	<b>Introduction to Hospitality Management</b>	<b>U</b>	<b>2</b>
Overview of the hospitality-tourism industry. Introduction to and career exploration of various segments of the hospitality-tourism field.			
<b>2700</b>	<b>Principles of Food Production Management</b>	<b>U</b>	<b>3</b>
Application of scientific food preparation and management principles to quantify food production in a commercial establishment. Prereq: 2600 or 1600 (230), or enrollment in Culinary Science major. Concur: 2710. Not open to students with credit for 350.01 or 350.02.			
<b>2710</b>	<b>Principles of Food Production Management Laboratory</b>	<b>U</b>	<b>1</b>
Applying scientific food preparation principles to quantify food production in a laboratory setting. Prereq: 2600 or 1600 (230), or enrollment in Culinary Science major. Concur: 2700 (350.01). Not open to students with credit for 350.01 or 350.02.			
<b>2800</b>	<b>Hotel Management</b>	<b>U</b>	<b>3</b>
An examination of the lodging firm as an operating entity, including structure, management strategies, functional departments, related financial reports and revenue management. Prereq or concur: 2600 (1600 (230)). Not open to students with credit for 560.			
<b>2810</b>	<b>Hotel Management Practicum</b>	<b>U</b>	<b>1</b>
Provide exposure to the lodging/hotel sector via experiences in Front of the House and Heart of the House in a real operating environment. Prereq or concur: 2600 (1600 (230)) and 2800 (4800). Not open to students with credit for 552.			

<b>2990</b>	<b>Professional Development</b>	<b>U</b>	<b>1</b>
The professional: overview of the internship and job search process, networking, involvement in professional development organizations and continued development. Prereq: Soph standing or above, and enrollment in CSHSPMG major. Not open to students with credit for 595. This course is graded S/U.			
<b>3191</b>	<b>Internship</b>	<b>U</b>	<b>3</b>
Supervised practical experience at a department approved internship site related to the student's selected major. Includes an investigation and analysis of assigned problems and documentation of experience. Prereq: 2990 (595), 2.0 CPHR or above, and Jr standing; and CSHSPMG major. Not open to students with credit for 589.02. This course is graded S/U.			
<b>3191.02</b>	<b>Healthcare Environmental Services Internship</b>	<b>U</b>	<b>3</b>
Supervised and practical experience at a department approved internship site related to environmental services in healthcare. Includes investigation and analysis of assigned problems and documentation of experience. Prereq or concur: 2200 and 3200. This course is graded S/U.			
<b>3200</b>	<b>Infection Prevention in Healthcare and Hospitality</b>	<b>U</b>	<b>3</b>
An application and discussion of introductory Microbiology, Epidemiology, Infection Prevention and Sanitation in healthcare and hospitality facilities.			
<b>3330</b>	<b>Corporate Social Responsibility, Sustainability &amp; Entrepreneurship in Fashion &amp; Hospitality Indus</b>	<b>U</b>	<b>2</b>
Examination of corporate socially responsible and sustainable decision-making and regulatory processes used in advertising and promoting fashion retail and hospitality products and services. Prereq: Jr or Sr standing, or enrolled in HRL certificate program. Cross-listed in CSFRSt.			
<b>3700</b>	<b>Controlling Food, Beverage, and Labor Costs</b>	<b>U</b>	<b>3</b>
Course will demonstrate effective and efficient controls of prime costs in a foodservice operation without sacrificing quality and good customer service. Prereq: 2600 (1600), and Hospitality Management major; or Hospitality Management premajor; or a Hospitality Management minor; or major in Human Nutrition: Dietetics, Culinary Science, or Professional Golf Management. Not open to students with credit for 370.			
<b>3720</b>	<b>Food Service Management</b>	<b>U</b>	<b>3</b>
Identification of the crucial elements involved in the successful operation of a foodservice enterprise and demonstrate their inter-relationships. Special emphasis will be on customer service and employee development. Prereq or concur: 2600 (1600), or enrollment in Human Nutrition: Dietetics major. Not open to students with credit for 551.			
<b>3730</b>	<b>Food Service Management Practicum</b>	<b>U</b>	<b>1</b>
Application of customer service and restaurant management responsibilities in a real operating foodservice environment. Prereq or concur: 2600 and 3720, or enrollment in Human Nutrition: Dietetics major. Not open to students with credit for 551.			
<b>3910</b>	<b>Consumer Service and Satisfaction</b>	<b>U</b>	<b>3</b>
Provides students with an intellectual and hands-on understanding of the key consumer service management and consumer satisfaction theories and practices that are relevant in service sectors. Cross-listed in CSFRSt.			
<b>3950</b>	<b>Use of Social Media and IT in Fashion, Hospitality, and Sport Industries</b>	<b>U</b>	<b>2</b>
An application and discussion of social media and information technology strategies in fashion, sport, and hospitality industries. Prereq: Jr or Sr standing, and a major, pre-major, or minor in CSFRSt, CSHspMg, or KNSISM. Not open to students with credit for 650. Cross-listed in CSFRSt.			
<b>4200</b>	<b>Managing the Customer Experience in Healthcare and Hospitality Services</b>	<b>U</b>	<b>3</b>
An application and discussion of hospitality principles and customer experience management in the healthcare industry.			
<b>4600</b>	<b>Special Events Planning and Management</b>	<b>U</b>	<b>3</b>
Course will examine techniques and procedures required for producing successful events of all types including effective procurement, organization, and implementation of all event aspects. Prereq: 2600.			
<b>4610</b>	<b>Beverage Management</b>	<b>U</b>	<b>2</b>
A discussion of the varieties, merchandising and management control of alcoholic and non-alcoholic beverages served in the hospitality industry. Prereq: 2600, or enrollment in Culinary Science major.			
<b>4620</b>	<b>Tourism &amp; Culture</b>	<b>U</b>	<b>3</b>
An overview of the tourism industry including travel motivation and the impacts, both positive and negative, of social, environmental, and economic influences.			
<b>4650</b>	<b>Human Resources in the Hospitality Industry</b>	<b>U</b>	<b>3</b>
Advanced management skills in specific application to the many facets of the Hospitality Industry with a focus on Hospitality Organizational structure and behavior and human resource management. Prereq: 3720 (551) and 2800 (4800 or 560). Not open to students with credit for 650.			

## 116 Consumer Sciences: Hospitality Management

**4680 Strategic Management in Fashion & Hospitality Industries** U 2

Discussion, development and application of strategic management in fashion and hospitality industries.

Prereq: Sr standing, or enrolled in HRL certificate program. Cross-listed in CSFRSt.

**4798 Tourism & Culture - Study Abroad - Bali** U 3

An overview of the tourism industry including travel motivation and the impacts, both positive and negative, of social, environmental, and economic influences.

**5555 Management Consulting for Hospitality and Fashion Retail Operations** U G 3

A conceptual foundation, discussion, and application of management consulting in the hospitality and retail industries.

Prereq: Sr or Grad standing, or permission of instructor. Cross-listed in CSFRSt.

**5640 Marketing in Hospitality Enterprises** U G 3

Designed to provide students with an intellectual and hands-on understanding of the key hospitality marketing and hospitality entrepreneurship.

Prereq: Jr, Sr, or Grad standing.

**5780 Hospitality and Fashion Retail Leadership** U G 3

Advanced hospitality and fashion retail professional course incorporating all principles of hospitality and fashion retail leadership in the various sectors and unique applications of knowledge learned.

Prereq: Sr or Grad standing, or permission of instructor. Cross-listed in CSFRSt.

**5820 Revenue Management in the Hospitality Industry** U G 3

An examination of the hotel revenue management practices including: pricing, occupancy management, cost-profit-volume analysis and forecasting.

Prereq: 2800.

**8630 Services in the Hospitality and Retail Industries** G 3

Provides an extensive overview of research on services focused on the hospitality and retail industries. Emphasis builds on theories associated with service, quality, customer satisfaction, and customer loyalty.

Prereq: Grad standing, or permission of instructor.

**8640 Managing Hospitality and Retail Operations** G 3

Provides an extensive overview of research focused on the hospitality and retail industries. Emphasis builds on theories associated with hospitality/retail operations.

Prereq: Grad standing, or permission of instructor.

### Crop and Soil Technology

**1201T Exploring Agronomy, Sustainable Agriculture, and Crop Management and Soil Conservation** U ½

Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

**2189T Practicum in Crop and Soil Technologies** U 1

Supervised experiences in field, laboratory, and/or industry work. A grade of C or higher required to meet graduation requirements.

Repeatable to a maximum of 3 or hrs.

**2191T Crop and Soil Internship** U 3

Supervised employed work experience on a crop production farm or related industries. A grade of C or better is required to meet graduation requirements.

Prereq: Soph standing, and CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 or hrs.

**2193T Individual Studies** U 1 - 3

Designed to give an individual student an opportunity to pursue special studies not offered in other courses.

Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.

**2194T Group Studies** U 1 - 3

Designed to give groups of students an opportunity to pursue special studies not offered in other courses.

Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.

**2200T Introduction to Sustainable Agriculture** U 2

A holistic study of farming systems and an examination of sustainable management practices for healthy soils, crops, and livestock.

This course is available for EM credit.

**2201T Sustainable Cropping Systems and Marketing** U 3

A study of cropping systems and marketing strategies related to sustainable agricultural enterprises.

Prereq: 2200T (220T). This course is available for EM credit.

**2210T Sustainable Agriculture Methods** U 1

This course will give students experience with the practical on-farm skills, management practices and entrepreneurship expertise needed in various sustainable agriculture enterprises. Students will work as a team to select, plan and execute a hands-on or field-based project that integrates the environmental, social and economic aspects of sustainable agriculture.

Prereq or concur: 2200T. Repeatable to a maximum of 2 or hrs. This course is available for EM credit.

**2228T Manure Management** U 3

A study of the biological, chemical, and physical components of animal manures; methods for safe handling and storage; and land application.

This course is available for EM credit.

**2265T Integrated Pest Management** U 2

A review and application of sustainable methods for controlling disease, insect, and weed pests in crops.

Prereq or concur: 2411T (260T). Not open to students with credit for 265T. This course is available for EM credit.

**2280T Applied Precision Agriculture** U 3

An introduction to precision agriculture technologies including auto-guidance, prescription mapping, variable rate technologies, and remote sensing with a focus on practical application of the technologies in modern production systems.

**2300T Introduction to Soil Science** U 3

An introduction to soil physical, chemical, and biological properties related to plant systems, environmental quality, and construction.

Prereq: Not open to students with credit for 221T. This course is available for EM credit.

**2301T Introduction to Soil Science Laboratory** U 1

Laboratory analysis of soil physical, chemical, and biological properties related to plant systems, environmental quality, and construction.

Prereq or concur: 2300T. Not open to students with credit for 221T. This course is available for EM credit.

**2324T Soil Management** U 3

A study of sustainable-use of soil resources related to soil formation, mechanics, and erosion control.

Prereq: 2300T and 2301T. This course is available for EM credit.

**2411T Grain and Oilseed Crops** U 3

A study of the cultural practices and production principles for grain and oilseed crops.

Prereq: GenBiol 1200T or 1250T or Biology 1113. This course is available for EM credit.

**2412T Technology and Field Management of Forage Crops** U 3

An applied study of the crop species, field management practices, and agricultural technologies used to grow grasses, legumes, and forbs for forage and livestock production systems.

This course is available for EM credit.

**2422T Weed Control Technology** U 3

An introduction to the application of technologies used to control weeds in field cropping systems, including biological, chemical, and mechanical methods.

This course is available for EM credit.

**2580T Soil Fertility and Fertilizers** U 3

A study of plant nutrient cycles, fertilizer recommendations, application of ag-lime, fertilizers, animal manure, and municipal biosolids.

Prereq: 2300T and 2301T. This course is available for EM credit.

**3800T Principles of Farm Business Management** U 4

A study of economic and management principles involved in planning, organizing, operating, and administering a farm business; emphasis placed on developing a business plan and problem solving.

Prereq: AEDEcon 2105 (BusTec 101T or 102T). Prereq or concur: BusTec 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for BusTec 240T. This course is available for EM credit. Cross-listed in AnmITec.

### Czech

**1101 Elementary Czech I** U 4

Introduction to Czech; development of speaking, listening, reading, and writing skills in cultural context. Closed to native speakers.

Prereq: Not open to students with credit for 101, or 2 or more years of study in this language in high school, except by permission of department. This course is available for EM credit. GE for lang course. FL Admis Cond course.

**1102 Elementary Czech II** U 4

Continued development of speaking, listening, reading, and writing skills in cultural context. Closed to native speakers of this language.

Prereq: 1101 (101.01). Not open to students with credit for 102 or 103. This course is available for EM credit. GE for lang course. FL Admis Cond course.

**1103 Intermediate Czech I** U 4

Continued development of speaking, listening, reading, and writing skills in cultural context.

Prereq: 1102 (102.01). Not open to students with credit for 104, or to native speakers of this language through regular course enrollment or EM credit. This course is available for EM credit. GE for lang course.

**2104 Intermediate Czech II U 4**

Increasing functional ability in speaking, listening, reading, and writing practice, vocabulary-building; new grammar structures; start developing higher-level language skills in Czech. Closed to native speakers.

Prereq: 1103, or 5 cr hrs for 104.51 or 111. Not open to students with credit for 407.51.

**Dance****1101 Contemporary I U 1 - 3**

Non-major introduction to studio practice of contemporary movement forms; includes survey of the history, theory, and/or literature of contemporary movement forms.

Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.

**1111 Ballet I U 1 - 3**

Non-major introduction to studio practice of classical ballet; includes survey of the history, theory, and/or literature of classical ballet.

Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.

**1141 Jazz I U 1 - 3**

Non-major introduction to studio practice of jazz dance; includes survey of the history, theory, and/or literature of jazz dance.

Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.

**1151 Hip Hop I U 1 - 3**

Non-major introduction to studio practice of hip hop dance; includes survey of the history, theory, and/or literature of hip hop dance.

Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.

**1161 Tap I U 1 - 3**

Non-major introduction to studio practice of tap dance; includes survey of the history, theory, and/or literature of tap dance.

Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.

**2102 Contemporary II U 1 - 3**

Non-major intermediate level studio practice in contemporary movement forms; includes survey of the history, theory, and/or literature of contemporary movement forms.

Prereq: One year of 1101 (201.01), or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2103 Contemporary III U 1 - 3**

Non-major advanced level studio practice in contemporary movement forms; includes survey of the history, theory, and/or literature of contemporary movement forms.

Prereq: One year of 2102 (202.01), or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2112 Ballet II U 1 - 3**

Non-major intermediate level studio practice in classical ballet; includes survey of the history, theory, and/or literature of classical ballet.

Prereq: One year of 1111 (201.02), or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2113 Ballet III U 1 - 3**

Non-major advanced level studio practice in classical ballet; includes survey of the history, theory, and/or literature of classical ballet.

Prereq: One year of 2112 (202.02), or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2121 Improvisation U 1 - 3**

Introduction to studio practice of improvisation; includes survey of the history, theory, and/or literature of improvisation.

Repeatable to a maximum of 8 cr hrs or 4 completions.

**2142 Jazz II U 1 - 3**

Non-major intermediate level studio practice of jazz dance; includes survey of the history, theory, and/or literature of jazz dance.

Prereq: One year of 1141 (201.03) or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2143 Jazz III U 1 - 3**

Non-major advanced level studio practice of jazz dance; includes survey of the history, theory, and/or literature of jazz dance.

Prereq: One year of 2142 (202.03) or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2152 Hip Hop II U 1 - 3**

Non-major intermediate/advanced level studio practice of hip hop dance; includes survey of the history, theory, and/or literature of hip hop dance.

Prereq: One Year of 1151 (201.06) or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2162 Tap II U 1 - 3**

Non-major intermediate/advanced level studio practice of tap dance; includes survey of the history, theory, and/or literature of tap dance.

Prereq: One year of 1161 or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2171 Pilates Mat I U 1 - 3**

Introduction to Pilates mat for non-majors; includes survey of the history, theory, and/or literature of Pilates.

Repeatable to a maximum of 4 cr hrs or 2 completions.

**2175 Yoga U 1 - 3**

Yoga practice for non-majors; includes survey of the history, theory, and/or literature of yoga.

Repeatable to a maximum of 8 cr hrs or 4 completions.

**2176 Bartenieff Fundamentals U 1 - 3**

Bartenieff Fundamentals taught by certified practitioner (CMA) for non-majors; includes survey of the history, theory, and/or literature of Bartenieff Fundamentals.

Repeatable to a maximum of 4 cr hrs or 2 completions.

**2178 Floor Work U 1 - 3**

Floor work for non-majors; includes survey of the history, theory, and/or literature of floor work.

Repeatable to a maximum of 4 cr hrs or 2 completions.

**2181 Social Dance U 1 - 3**

Social dance for non-majors; includes survey of the history, theory, and/or literature of social dance.

Repeatable to a maximum of 8 cr hrs or 4 completions.

**2190 Movement Practice: Special Topics U 1 - 3**

Special topics in movement practice for non-majors.

Prereq: Enrollment in Dance major. Repeatable to a maximum of 8 cr hrs or 4 completions.

**2201 Minors Composition U 2 - 3**

Introduction to composition for dance minors.

Prereq: Not open to students with credit for 211.03. Repeatable to a maximum of 4 cr hrs or 2 completions.

**2301 Analysis for Minors U 1 - 3**

Introduction to analysis of movement for dance minors.

Prereq: Not open to students with credit for 620.

**2367 Writing About Dance U 3**

Provides an opportunity to view, discuss, read, think and write about contemporary dance through the practice of criticism.

Prereq: English 1110.01 (110) or equiv. Not open to students with credit for 367.01. GE writing and comm course: level 2.

**2367H Honors Writing About Dance U 3**

Provides a rigorous opportunity to view, discuss, read, think and write about contemporary dance and its history through the study and practice of criticism.

Prereq: Honors standing, and English 1110.01 (110) or equiv, or permission of instructor. Not open to students with credit for 367.01H.

**2401 Western Concert Dance: Renaissance to Present U 3**

Includes European origins of classical ballet, Africanist contributions, postmodern impulses; looks at aesthetic, cultural, and political themes in the history of concert dance in America.

Prereq: Not open to students with credit for 200. GE VPA course.

**2601 Production U 1 - 3**

Activities in dance production; includes lectures, readings, and discussions.

Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 3 cr hrs or 2 completions. VSP Admis Cond course.

**2701 Music Skills for Dance U 2**

This course is an introduction to essential music skills. The content will explore foundational music theory, appreciation, and music for dance.

Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 615.

**2702 Creative Technologies for Dance U 2**

Introduction to technology used in the field of dance for promotional material development and art making. Includes digital image creation / manipulation, video editing, e-portfolio building, critical image analysis and foundational composition theory.

Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 289.

**2801 Introductory Seminar I U 1**

Introduction to The Ohio State University, the College of Arts and Sciences and the Department of Dance and the available resources, academic requirements, and diverse perspectives about dance research and creative activity.

Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 100 or 615. VSP Admis Cond course.

**2802 Introductory Seminar II U 1**

Continuation of introduction to The Ohio State University, the College of Arts and Sciences and the Department of Dance and the available resources, academic requirements, and diverse perspectives about dance research and creative activity.

Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 260 or 289.02. VSP Admis Cond course.

## 118 Dance

<b>3101</b>	<b>Contemporary Part I</b>	<b>U</b>	<b>1 - 3</b>
Foundational level of contemporary movement forms for dance majors. Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. VSP Admis Cond course.			
<b>3102</b>	<b>Contemporary Part II</b>	<b>U</b>	<b>1 - 3</b>
Foundational level of contemporary movement forms for dance majors. Prereq: Enrollment in Dance major or permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. VSP Admis Cond course.			
<b>3111</b>	<b>Ballet Part I</b>	<b>U</b>	<b>1 - 3</b>
Foundational level of classical ballet for dance majors. Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. VSP Admis Cond course.			
<b>3112</b>	<b>Ballet Part II</b>	<b>U</b>	<b>1 - 3</b>
Foundational level of classical ballet for dance majors. Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. VSP Admis Cond course.			
<b>3201</b>	<b>Composition I</b>	<b>U</b>	<b>3</b>
Foundational level of composition. Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 211.03, 211.04, or 620. VSP Admis Cond course.			
<b>3202</b>	<b>Composition II</b>	<b>U</b>	<b>3</b>
Further experience in composition. Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 211.03 or 645. VSP Admis Cond course.			
<b>3301</b>	<b>Analysis</b>	<b>U</b>	<b>3</b>
Foundational level of analysis of movement. Prereq: Enrollment in Dance major, or permission of instructor. Not open to students with credit for 621, 620, or 605. VSP Admis Cond course.			
<b>3401</b>	<b>Dance in Popular Culture</b>	<b>U</b>	<b>3</b>
Popular dance in the United States, with an emphasis on how movement constructs identity and community. Prereq: Not open to students with credit for 357. GE cultures and ideas and diversity soc div in the US course.

Surveys dance forms from around the globe, offering insights into the religious, social, and political functions of dances in their historical and contemporary practices. GE cultures and ideas and diversity global studies course. VSP Admis Cond course.			
<b>3411</b>	<b>History/Theory/Literature I</b>	<b>U</b>	<b>3</b>
Survey of dance from the Renaissance to the early twentieth century. Prereq: Enrollment in Dance major. VSP Admis Cond course.			
<b>3412</b>	<b>History/Theory/Literature II</b>	<b>U</b>	<b>3</b>
Survey of dance from the early twentieth century to the present. Prereq: Enrollment in Dance major. VSP Admis Cond course.			
<b>3501</b>	<b>Dance Education</b>	<b>U</b>	<b>3</b>
Foundational study in dance education. Prereq: Enrollment in Dance major. VSP Admis Cond course.			
<b>3801</b>	<b>Kinesiology</b>	<b>U</b>	<b>3</b>
Exploration of the skeleton and muscles for mechanical efficiency of movement, including principles of stability and motion as they relate to dance, for dance majors and minors. Prereq: Enrollment in Dance major. Not open to students with credit for 671.01. VSP Admis Cond course.			
<b>3999H</b>	<b>Research and Creativity in Dance</b>	<b>U</b>	<b>1 - 10</b>
Honors Research and Creativity in Dance. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U. VSP Admis Cond course.			
<b>4101</b>	<b>Contemporary Part I</b>	<b>U</b>	<b>1 - 3</b>
Further expertise in contemporary movement forms for dance majors. Prereq: Enrollment in Dance major. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>4102</b>	<b>Contemporary Part II</b>	<b>U</b>	<b>1 - 3</b>
Further expertise in contemporary movement forms for dance majors. Prereq: Enrollment in Dance major. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>4111</b>	<b>Ballet Part I</b>	<b>U</b>	<b>1 - 3</b>
Further expertise in classical ballet for dance majors. Prereq: Enrollment in Dance major. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			

<b>4112</b>	<b>Ballet Part II</b>	<b>U</b>	<b>1 - 3</b>
Further expertise in classical ballet for dance majors. Prereq: Enrollment in Dance major. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>4189</b>	<b>Field Experience</b>	<b>U</b>	<b>0 - 3</b>
Internship, practicum, or professional development activity, including teaching experience, under a faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. VSP Admis Cond course.			
<b>4193</b>	<b>Independent Study</b>	<b>U</b>	<b>1 - 10</b>
Independent projects undertaken by BFA students, under supervision of faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U. VSP Admis Cond course.			
<b>4193H</b>	<b>Independent Study: Honors</b>	<b>U</b>	<b>1 - 10</b>
Independent projects undertaken by BFA students in honors, under supervision of faculty mentor. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U. VSP Admis Cond course.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Group studies in dance. Prereq: Undergrad standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>4200</b>	<b>Choreography Workshop</b>	<b>U</b>	<b>1 - 3</b>
Workshop providing a platform for ongoing choreographic projects, includes peer and faculty observation and critique. Prereq: 3201 (211.03) and 3202 (211.04), and enrollment in Dance major. Repeatable to a maximum of 18 cr hrs or 6 completions. VSP Admis Cond course.			
<b>4201</b>	<b>Topics in Dance Composition</b>	<b>U</b>	<b>2 - 3</b>
Topics in dance composition. Prereq: 3201 (211.03) and 3202 (211.04), and enrollment in Dance major. Repeatable to a maximum of 9 cr hrs or 3 completions. VSP Admis Cond course.			
<b>4202</b>	<b>Music in Dance Composition</b>	<b>U</b>	<b>2 - 3</b>
Study of music suitable for choreographic purposes and the various approaches to the use of music in dance composition. Prereq: Enrollment in Dance major, and 3201, or 3202, or 645 with Music 250 or 251. Repeatable to a maximum of 9 cr hrs or 3 completions. VSP Admis Cond course.			
<b>4203</b>	<b>Group Forms</b>	<b>U</b>	<b>2 - 3</b>
Composing group dances and exploring compositional devices and craft unique to group choreography. Prereq: Enrollment in Dance major, and 3201 (211.03), or 3202 (211.04). Repeatable to a maximum of 9 cr hrs or 3 completions. VSP Admis Cond course.			
<b>4290</b>	<b>Composition: Special Topics</b>	<b>U</b>	<b>1 - 3</b>
Special topics in composition. Prereq: Enrollment in Dance major. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>4490</b>	<b>History/Theory/ Literature Special Topics</b>	<b>U</b>	<b>1 - 3</b>
Special topics in history/theory/literature. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>4500</b>	<b>Directed Teaching</b>	<b>U</b>	<b>1 - 3</b>
Designed to aid prospective teachers of dance in their development of essential teaching skills in a variety of settings. Prereq: Enrollment in Dance major, and 3501 (289.01 or 289.02), or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. VSP Admis Cond course.			
<b>4501</b>	<b>Dance for Children</b>	<b>U</b>	<b>3</b>
Foundation for teaching dance to children. Prereq: Enrollment in Dance major, and 3501 (289.01 or 289.02), or permission of instructor. Not open to students with credit for 687.01 or 687.02. VSP Admis Cond course.			
<b>4502</b>	<b>Methods and Materials</b>	<b>U</b>	<b>3</b>
Foundations for teaching; laboratory problems, lectures, readings, and discussion. Prereq: Enrollment in Dance major, and 3501 (289.01 or 289.02), or permission of instructor. Not open to students with credit for 688. VSP Admis Cond course.			
<b>4700</b>	<b>Repertory</b>	<b>U</b>	<b>1 - 3</b>
Studio-based experience in learning a new or existing dance work, may include informal performance. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. VSP Admis Cond course.			
<b>4701</b>	<b>Performance</b>	<b>U</b>	<b>1 - 3</b>
Rehearsal process and performance of a dance work choreographed by resident or visiting artists. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. VSP Admis Cond course.			

<b>4790</b>	<b>Repertory: Special Topics</b>	<b>U</b>	<b>1 - 3</b>
Special topics in repertory. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>4801</b>	<b>Senior Seminar I</b>	<b>U</b>	<b>1</b>
The primary vehicle for the mentoring and advising of dance majors in the senior year; includes grant writing and professional development. Prereq: Enrollment in Dance major, and Sr standing, or permission of instructor. VSP Admis Cond course.			
<b>4802</b>	<b>Senior Seminar II</b>	<b>U</b>	<b>1</b>
The primary vehicle for the mentoring and advising of dance majors in the senior year; includes production of the senior project, current trends in the dance field, and technology literacy for dancers. Prereq: Enrollment in Dance major, and Sr standing, or permission of instructor. VSP Admis Cond course.			
<b>4804</b>	<b>Interdisciplinary Workshop</b>	<b>U</b>	<b>1 - 3</b>
Advanced problems in dance and related areas; nature of workshop based on selected topics. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. VSP Admis Cond course.			
<b>4805</b>	<b>Interdisciplinary Practicum</b>	<b>U</b>	<b>1 - 3</b>
Advanced problems in dance and related areas; nature of practicum based on selected topics. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. VSP Admis Cond course.			
<b>4998</b>	<b>Senior Project</b>	<b>U</b>	<b>1 - 5</b>
Activities leading to the completion of the BFA creative project; in partial fulfillment of the BFA degree. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U. VSP Admis Cond course.			
<b>4998H</b>	<b>Honors Senior Project</b>	<b>U</b>	<b>1 - 5</b>
Activities leading to the completion of the BFA creative project; in partial fulfillment of the BFA degree with honors. Prereq: Honors standing or permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U. VSP Admis Cond course.			
<b>4999</b>	<b>Distinction Project</b>	<b>U</b>	<b>1 - 5</b>
Activities leading to the completion of the BFA distinction project; in partial fulfillment of the BFA degree. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U. VSP Admis Cond course.			
<b>4999H</b>	<b>Honors Distinction Project</b>	<b>U</b>	<b>1 - 5</b>
Activities leading to the completion of the BFA distinction project; in partial fulfillment of the BFA degree with honors. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U. VSP Admis Cond course.			
<b>5100</b>	<b>Alternative Movement Practice</b>	<b>U G</b>	<b>1 - 3</b>
Alternative movement practice for dance majors and graduate dance students. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U. VSP Admis Cond course.			
<b>5101</b>	<b>Contemporary Part I</b>	<b>U G</b>	<b>1 - 3</b>
Advanced practice in contemporary movement forms for dance majors and graduate dance students. Prereq: Enrollment in Dance major. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5102</b>	<b>Contemporary Part II</b>	<b>U G</b>	<b>1 - 3</b>
Advanced practice in contemporary movement forms for dance majors and graduate dance students. Prereq: Enrollment in Dance major. Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.			
<b>5105</b>	<b>Contemporary Dance Practice</b>	<b>U G</b>	<b>1</b>
Intermediate and advanced practice in contemporary dance for dance majors and graduate dance students, and others by permission. This is designed as a second technique class, offered later in the day, and is intended as an opportunity for deepening one's practice and technique. Prereq: Enrollment in Dance major, or permission of instructor or department. Repeatable to a maximum of 12 cr hrs.			
<b>5106</b>	<b>Contemporary Dance Practice Part II</b>	<b>U G</b>	<b>1</b>
Intermediate and advanced practice in contemporary dance for dance majors and graduate dance students, and others by permission. This is designed as a second technique class, offered later in the day, and is intended as an opportunity for deepening one's practice and technique. Sp Sem. Prereq: Enrollment in Dance major, or permission of instructor or department. Repeatable to a maximum of 12 cr hrs.			

<b>5111</b>	<b>Ballet Part I</b>	<b>U G</b>	<b>1 - 3</b>
Advanced practice in classical ballet for dance majors and graduate dance students. Prereq: Enrollment in Dance major. Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.			
<b>5112</b>	<b>Ballet Part II</b>	<b>U G</b>	<b>1 - 3</b>
Advanced practice in classical ballet for dance majors and graduate dance students. Prereq: Enrollment in Dance major. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5115</b>	<b>Ballet Practice Part 1</b>	<b>U G</b>	<b>1</b>
Intermediate and advanced practice in classical ballet for dance majors and graduate dance students, and others by permission. This is designed as a second technique class, offered later in the day, and is intended as an opportunity for deepening one's practice and technique. Prereq: Enrollment in Dance major, or permission of instructor or department. Repeatable to a maximum of 12 cr hrs.			
<b>5116</b>	<b>Ballet Practice Part II</b>	<b>U G</b>	<b>1</b>
Intermediate and advanced practice in classical ballet for dance majors and graduate dance students, and others by permission. This is designed as a second technique class, offered later in the day, and is intended as an opportunity for deepening one's practice and technique. Prereq: Enrollment in Dance major, or permission of instructor or department. Repeatable to a maximum of 12 cr hrs.			
<b>5121</b>	<b>Improvisation</b>	<b>U G</b>	<b>1 - 3</b>
This course is for experienced dance practitioners who have had some introductory experience with improvisation and allows for advanced explorations of dance improvisation methodologies and critical analysis of the relationship of this work to other domains. Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
<b>5171</b>	<b>Pilates Mat I</b>	<b>U G</b>	<b>1 - 2</b>
Foundational level of Pilates mat for dance majors and graduate dance students. Prereq: Enrollment in Dance major. Repeatable to a maximum of 4 cr hrs or 2 completions. VSP Admis Cond course.			
<b>5173</b>	<b>Pilates Reformer I</b>	<b>U G</b>	<b>1 - 2</b>
Foundational level of Pilates reformer for dance majors and graduate dance students. Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions. VSP Admis Cond course.			
<b>5174</b>	<b>Pilates Reformer II</b>	<b>U G</b>	<b>1 - 2</b>
Advanced practice in Pilates reformer for dance majors and graduate dance students. Prereq: Enrollment in Dance major, or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions.			
<b>5175</b>	<b>Yoga</b>	<b>U G</b>	<b>1 - 3</b>
Yoga practice for dance and health sciences majors and graduate students. Prereq: Enrollment in Dance or Health Sciences major, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5176</b>	<b>Bartenieff Fundamentals</b>	<b>U G</b>	<b>1 - 2</b>
Bartenieff Fundamentals taught by certified practitioner (CMA) for dance majors and graduate dance students. Prereq: Enrollment in Dance major or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions.			
<b>5177</b>	<b>Alexander Technique</b>	<b>U G</b>	<b>1 - 2</b>
The relationship of kinesthetic perception and the postural reflexes to physical coordination in performance. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. Cross-listed in Theatre and Music.			
<b>5178</b>	<b>Floor Work</b>	<b>U G</b>	<b>1 - 2</b>
Floor work for dance majors and graduate dance students. Prereq: Enrollment in Dance major or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.			
<b>5190</b>	<b>Movement Practice: Special Topics</b>	<b>U G</b>	<b>1 - 3</b>
Special topics in movement practice for dance majors and graduate dance students. Prereq: Enrollment in Dance major or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>5191</b>	<b>Eurhythmics</b>	<b>U G</b>	<b>1 - 3</b>
Eurhythmics for dance majors and graduate dance students. Prereq: Enrollment in Dance major or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.			
<b>5194</b>	<b>Graduate and Undergraduate Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Group studies in dance. Prereq: Grad or Undergrad standing in Dance, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			

## 120 Dance

<b>5200</b>	<b>Concert Workshop</b>	<b>U G</b>	<b>1 - 3</b>
Workshop in preparation for bringing a choreographed piece to a performance setting, includes faculty and peer feedback. Prereq: Enrollment in Dance major. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>5211</b>	<b>Dance - Film I</b>	<b>U G</b>	<b>3</b>
An introduction to creating short films of dance made specifically for the camera. Basics of camera and Final Cut Pro are taught as three film projects are created. Prereq: Jr standing, and enrollment in Dance major; or grad standing; or permission of instructor.			
<b>5212</b>	<b>Dance - Film II</b>	<b>U G</b>	<b>3</b>
Continuing studies from Dance Film I in dance on camera, exploring aspects of history, composition and technology as a foundation for video production. Prereq: 5211, or permission of instructor.			
<b>5213</b>	<b>Intermedia Performance</b>	<b>U G</b>	<b>2 - 3</b>
Exploration of the unique characteristics of performance that integrates movement and digital media through hands-on creative and technological projects. Prereq: Enrollment in Dance major, and Jr standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. VSP Admis Cond course.			
<b>5601</b>	<b>Production: Practicum</b>	<b>U G</b>	<b>1 - 3</b>
Hands-on exploration of elements of dance production. Prereq: Enrollment in Dance major, and 2601 (298), or Grad standing, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5602</b>	<b>Lighting: Practicum</b>	<b>U G</b>	<b>1 - 3</b>
Hands-on exploration of elements of dance lighting. Prereq: Enrollment in Dance major or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5603</b>	<b>Costume: Practicum</b>	<b>U G</b>	<b>1 - 3</b>
Hands-on exploration of elements of dance costuming. Prereq: 2601 (298), and enrollment in Dance major; or Grad standing; or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions.			
<b>5611</b>	<b>Technology: Practicum</b>	<b>U G</b>	<b>1 - 3</b>
Hands-on exploration of elements of dance technology Prereq: Enrollment in Dance major, and 2601 (298), or Grad standing, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5612</b>	<b>Digital Video Editing: Practicum</b>	<b>U G</b>	<b>1 - 3</b>
Introduction to practical skills in desktop non-linear digital video editing with particular attention to motion and action editing in dance. Prereq: Enrollment in Dance major, and 2601 (298), or Grad standing, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>5614</b>	<b>Sound Design for Dance</b>	<b>U G</b>	<b>1 - 3</b>
Course focusing on how music/sound design techniques are used in composing for dance. Prereq: Enrollment in Dance major, and 2601 (298), or Grad standing, or permission of instructor. Not open to students with credit for 632. VSP Admis Cond course.			
<b>5615</b>	<b>Costume Design for Dance</b>	<b>U G</b>	<b>1 - 3</b>
Course focusing on how costuming techniques are used in designing for dance. Prereq: 2601 (298), and enrollment in Dance major; or Grad standing; or permission of instructor. Not open to students with credit for 634.			
<b>5798</b>	<b>Study Tour</b>	<b>U G</b>	<b>1 - 15</b>
Off-campus study tour in dance outside the US. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 3 completions. This course is graded S/U. VSP Admis Cond course.			
<b>6189</b>	<b>Field Experience</b>	<b>G</b>	<b>1 - 3</b>
Internship, practicum or professional development activity, including teaching experience, under a faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. VSP Admis Cond course.			
<b>6193</b>	<b>Independent Study: MFA</b>	<b>G</b>	<b>1 - 5</b>
Independent projects undertaken by MFA students under supervision of faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 16 completions. This course is graded S/U. VSP Admis Cond course.			
<b>6194</b>	<b>Graduate Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Group studies in dance. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.			
<b>6200</b>	<b>Choreography Workshop</b>	<b>G</b>	<b>1 - 3</b>
Workshop providing a platform for on-going choreographic projects, includes faculty and peer observation and critique. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. VSP Admis Cond course.			

<b>6202</b>	<b>Music and Choreography</b>	<b>G</b>	<b>2 - 3</b>
Investigation of dance composition with emphasis on structure and the music/dance relationship. Prereq: Grad standing in Dance or permission of instructor. Not open to students with credit for 846. VSP Admis Cond course.			
<b>6203</b>	<b>Group Forms</b>	<b>G</b>	<b>2 - 3</b>
Composition of group dances, and exploration of devices and craft unique to group choreography. Prereq: Grad standing in Dance or permission of instructor. Not open to students with credit for 749. VSP Admis Cond course.			
<b>6204</b>	<b>Choreographic Process</b>	<b>G</b>	<b>2 - 3</b>
Investigation of dance composition with emphasis on the choreographic process and group interaction. Prereq: Grad standing in Dance or permission of instructor. Not open to students with credit for 847. VSP Admis Cond course.			
<b>6290</b>	<b>Composition: Special Topics</b>	<b>G</b>	<b>1 - 3</b>
Special topics in dance composition. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. VSP Admis Cond course.			
<b>6301</b>	<b>Analysis I</b>	<b>G</b>	<b>2 - 3</b>
Foundational course in Laban Movement Analysis (LMA), including studio-based studies, practice in observation, and topical readings and viewings. Prereq: Grad standing in Dance. Not open to students with credit for 707. VSP Admis Cond course.			
<b>6700</b>	<b>Repertory</b>	<b>G</b>	<b>1 - 3</b>
Studio-based experience in learning a new or existing dance work, may include informal performance. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. VSP Admis Cond course.			
<b>6701</b>	<b>Performance</b>	<b>G</b>	<b>1 - 3</b>
Rehearsal process and performance of a dance work choreographed by resident or visiting artists. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.			
<b>6702</b>	<b>Performance Techniques</b>	<b>G</b>	<b>2 - 3</b>
Interdisciplinary seminar exploring the creative and practical aspects of performance through exercises, readings and discussion. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. VSP Admis Cond course.			
<b>6790</b>	<b>Repertory/Performance: Special Topics</b>	<b>G</b>	<b>1 - 3</b>
Special topics in repertory and performance. Prereq: Grad standing in Dance or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.			
<b>6801</b>	<b>Foundations in Dance Research</b>	<b>G</b>	<b>3</b>
Introductory graduate seminar presenting department and university resources for dance research, academic writing skills, and technological literacy. Prereq: Grad standing in Dance or permission of instructor. Not open to students with credit for 801.51, 801.91. VSP Admis Cond course.			
<b>6802</b>	<b>Foundations in Dance Pedagogy</b>	<b>G</b>	<b>3</b>
Introductory graduate seminar including practical and theoretical approaches to studio- and lecture-based class pedagogy and topics in higher education. Prereq: Grad standing in Dance, or permission of instructor. Not open to students with credit for 801.81, 894.			
<b>6804</b>	<b>Interdisciplinary Workshop</b>	<b>G</b>	<b>1 - 3</b>
Advanced problems in dance and related areas; nature of workshop based on selected topics. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
<b>7303</b>	<b>Directing from Score</b>	<b>G</b>	<b>3</b>
Teaching and coaching of a dance learned from a Labanotated score. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.			
<b>7402</b>	<b>Dance in Times of Turbulence</b>	<b>G</b>	<b>4</b>
Developments in Western theatrical dance from the late eighteenth century until the end of World War I. Prereq: Grad standing or permission of instructor. Not open to students with credit for 757. VSP Admis Cond course.			
<b>7403</b>	<b>Postmodernism in Dance I</b>	<b>G</b>	<b>4</b>
Inquiry into aesthetic points of view, beliefs and assumptions inherent in dance practices and dance criticism from the 1960s through the mid-1980s. Prereq: Grad standing or permission of instructor. Not open to students with credit for 759. VSP Admis Cond course.			

<b>7404</b>	<b>Postmodernism in Dance II</b>	<b>G</b>	<b>4</b>
Inquiry into aesthetic points of view, beliefs and assumptions inherent in dance practices and dance criticism from the mid-1980s to the present. Prereq: Grad standing or permission of instructor. Not open to students with credit for 759, 801.31. VSP Admis Cond course.			
<b>7405</b>	<b>Black Continuum in American Dance</b>	<b>G</b>	<b>2 - 4</b>
Examination of dance genres, performance venues, and cultural workers that have shaped the Black continuum in American dance from the antebellum era to the present. Prereq: Grad standing or permission of instructor. Not open to students with credit for 801.30. VSP Admis Cond course.			
<b>7406</b>	<b>Theories of the Body</b>	<b>G</b>	<b>4</b>
Cross-disciplinary seminar in critical theory considering the body as flesh and bone and as a discursive entity. Prereq: Grad standing or permission of instructor. Not open to students with credit for 860. VSP Admis Cond course.			
<b>7408</b>	<b>Bodies on the Line</b>	<b>G</b>	<b>4</b>
Interdisciplinary analysis of the body as a site of political investment and contestation in stage-based performances and everyday life. Prereq: Grad standing or permission of instructor. Not open to students with credit for 760.03, 860.01. VSP Admis Cond course.			
<b>7409</b>	<b>Ethnographies of Dance and Performance</b>	<b>G</b>	<b>4</b>
Reading and conducting ethnographic research in areas of dance and performance, including feminist and post-colonial approaches to Western, non-Western, and globalized forms. Prereq: Grad standing or permission of instructor. VSP Admis Cond course.			
<b>7490</b>	<b>History/Theory/Literature: Special Topics</b>	<b>G</b>	<b>1 - 4</b>
Special topics in history/theory/literature of dance. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions. VSP Admis Cond course.			
<b>7500</b>	<b>Directed Teaching MFA or PhD</b>	<b>G</b>	<b>1 - 3</b>
Experience designed to aid prospective teachers of dance in their development of essential teaching skills in a variety of settings with a faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. VSP Admis Cond course.			
<b>7600</b>	<b>MFA Project: Production</b>	<b>G</b>	<b>1 - 2</b>
Seminar focusing on production elements relevant to MFA projects during semester of presentation. Prereq: Grad standing in Dance or permission of instructor. Not open to students with credit for 893.04. Repeatable to a maximum of 20 cr hrs or 20 completions.			
<b>7900</b>	<b>Theories and Methods</b>	<b>G</b>	<b>4</b>
Theories and methods of research in dance studies; PhD core course. Prereq: Grad standing in Dance or permission of instructor. Not open to students with credit for 880. VSP Admis Cond course.			
<b>7901</b>	<b>History/Theory/Literature Choreography</b>	<b>G</b>	<b>4</b>
Inquiry into selected topics within the history, theory and literature of choreography, PhD core course. Prereq: Grad standing in Dance or permission of instructor. VSP Admis Cond course.			
<b>7902</b>	<b>History/Theory/Literature Analysis of Movement</b>	<b>G</b>	<b>4</b>
Inquiry into selected topics within the history, theory and literature of the analysis of movement, PhD core course. Prereq: Grad standing in Dance or permission of instructor. VSP Admis Cond course.			
<b>7998</b>	<b>MFA Comprehensive Examination</b>	<b>G</b>	<b>1 - 2</b>
Examination questions written in partial fulfillment of the MFA degree. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U. VSP Admis Cond course.			
<b>7999</b>	<b>MFA Project</b>	<b>G</b>	<b>1 - 10</b>
Activities leading to the completion of the MFA creative project, in partial fulfillment of the MFA degree. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U. VSP Admis Cond course.			
<b>8193</b>	<b>PhD Independent Study</b>	<b>G</b>	<b>1 - 5</b>
Independent projects undertaken by PhD students under supervision of faculty mentor. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 16 completions. This course is graded S/U. VSP Admis Cond course.			
<b>8200</b>	<b>PhD Qualifying Examination</b>	<b>G</b>	<b>1 - 2</b>
Writing of qualifying examination question to determine capacity to proceed through the doctoral degree in Dance Studies. Prereq: Doctoral standing in Dance Studies.			
<b>8800</b>	<b>PhD Pre-Candidacy Independent Readings</b>	<b>G</b>	<b>1 - 8</b>
Selection and reading of appropriate texts toward designing candidacy examination areas. Prereq: Doctoral standing in Dance Studies. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U.			

<b>8998</b>	<b>Candidacy Exams</b>	<b>G</b>	<b>3 - 18</b>
Examination questions written in partial fulfillment of the PhD degree. Prereq: Permission of instructor. This course is graded S/U. VSP Admis Cond course.			

<b>8999</b>	<b>Dissertation</b>	<b>G</b>	<b>1 - 10</b>
Culminating written document completed in fulfillment of the PhD degree. Prereq: Permission of instructor. Repeatable. This course is graded S/U. VSP Admis Cond course.			

## Dental Hygiene

<b>1100</b>	<b>Dental Hygiene Survey</b>	<b>U</b>	<b>1</b>
Introduction to the university and the dental hygiene program. University policies, procedures and resources; students' rights and responsibilities; academic requirements; career and professional issues. Prereq: Admission to pre-DHY, or permission of instructor.			
<b>2110</b>	<b>Oral Anatomy, Tooth Morphology and Occlusion</b>	<b>U</b>	<b>4</b>
Instruction in the basics of dental morphology and oral anatomy to aid in providing dental hygiene therapy. Prereq: Admission to DHY major.			
<b>2130</b>	<b>Oral Radiography</b>	<b>U</b>	<b>2</b>
Introduction to physics, biology and technical components involved in exposing, processing and interpreting dental radiographs. Prereq: Admission to DHY major.			
<b>2140</b>	<b>Oral Histology and Embryology</b>	<b>U</b>	<b>2</b>
A study of the microscopic anatomy of the teeth and surrounding structures; the development of the teeth, oral cavity, and face. Prereq: Admission to Dental Hygiene major.			
<b>2150</b>	<b>Periodontology</b>	<b>U</b>	<b>2</b>
Introduction to principles of periodontology and periodontal medicine. Anatomy, physiology, histology and functions of dental tissue are discussed in relationship to health and disease of the periodontium. Prereq: Admission to DHY major.			
<b>2170</b>	<b>Dental Materials Laboratory</b>	<b>U</b>	<b>2</b>
Instruction in the composition, chemical and physical properties, proper manipulation and use of materials used in dentistry. Prereq: 2110.			
<b>2220</b>	<b>The Profession of Dental Hygiene</b>	<b>U</b>	<b>1</b>
Introduction to the history, professional, legal, and ethical aspects of dental hygiene. Prereq: Admission to DHY major.			
<b>2240</b>	<b>Oral Health and Disease Prevention</b>	<b>U</b>	<b>2</b>
Introduction and knowledge of appropriate use of materials and techniques in patient education and dental hygiene practice to prevent, arrest, and control dental diseases. Prereq: Admission to DHY major.			
<b>2300</b>	<b>Dental Hygiene Pre-Clinic</b>	<b>U</b>	<b>4</b>
Introduction to procedures and techniques necessary to function as a co-therapist in the dental clinical setting. Prereq: Admission to DHY major.			
<b>2310</b>	<b>Dental Hygiene Clinic I</b>	<b>U</b>	<b>3</b>
Clinical application of the principles and technical procedures of patient management in the practice of dental hygiene. Prereq: A grade of C- or above in 2110, 2130, 2150, and 2300, and recommendation of faculty.			
<b>2400</b>	<b>Scientific Inquiry</b>	<b>U</b>	<b>1</b>
Introduction to the process of scientific inquiry, research methodology, and basic statistical concepts. Research methodology from a dental perspective will be introduced for community dentistry and research poster projects. Prereq: Admission to DHY major. Not open to students with credit for 3410.			
<b>3110</b>	<b>General Pathology and Medicine for Dental Hygiene</b>	<b>U</b>	<b>2</b>
Introduction to general pathology and medicine for dental hygiene practice. Students will learn to review patient's medical history and recognize common medical conditions, implications for oral health care and how to alter treatment plans for medically compromised patients. Prereq: 2300.			
<b>3130</b>	<b>Oral Pathology</b>	<b>U</b>	<b>2</b>
Introduction to current concepts regarding the pathogenesis and clinical features of oral diseases. Prereq: 3120.			
<b>3140</b>	<b>Pain and Anxiety Management</b>	<b>U</b>	<b>2</b>
Instruction in commonly used dental office techniques for managing patient anxiety and pain primarily using nitrous oxide/oxygen inhalation and local anesthesia. Prereq: 2110 and 2300.			

## 122 Dental Hygiene

**3150 Periodontal Therapy** U 2

Instruction in initial and supportive therapy for periodontally compromised patients in dental practice settings, including discussion of adjunctive therapies and periodontal surgeries. Prereq: 2110, 2150, and 2300.

**3160 Pharmacology for Dental Hygiene** U 1

Introduction to pharmacology and its application to clinical dental hygiene. Topics include pharmacokinetics, pharmacodynamics, recognition of drug classes in patient's health history and how the pharmacologic regimen must be considered before dental treatment is rendered. Prereq: 2300.

**3170 Dental Materials** U 1

Instruction in the biologic, chemical and physical characteristics and properties of various biomaterials encountered in the practice of dental hygiene and dentistry. Prereq: 2110.

**3180 Management of Medical Emergencies** U 1

Introduces students to algorithms designed for the management of common medical emergencies in the dental office. This course includes a review of the signs and symptoms often seen in seven different medical emergencies. The medical emergencies covered in this course are: airway obstruction, syncope, hypoglycemia, seizure, acute asthma attack, angina, and anaphylaxis. Prereq: 2310, 3110, and 3230.

**3210 Community Oral Health** U 2

Introduction to the knowledge, skills and behaviors necessary to promote oral health through organized community efforts. Prereq: Admission to DHY major.

**3230 Care for Patients with Special Needs** U 2

Instruction to identify patients with special needs and development of skills and techniques to effectively treat this population. Prereq: 2240 and 2300.

**3320 Dental Hygiene Clinic II** U 3

Ongoing clinical experience with emphasis on development of fundamental clinical skills. Prereq: A grade of C- or above in 2310, 3120, 3140, and 3150, and recommendation of faculty.

**3330 Dental Hygiene Clinic III** U 4

A continuation of clinical patient care with emphasis on time management. Patient care parameters are expanded. Prereq: A grade of C- or above in 3320, and recommendation of faculty.

**3400 Research Application and Analysis** U 2

Continuation of 2400. Application of scientific inquiry, research methodology, basic statistical concepts, and interpretation of data analyses. Presentations of community dentistry and research poster projects will be completed. Prereq: 2400. Not open to students with credit for 3410.

**3410 Research Methods and Interpretation** U 4

Introduction to the process of scientific inquiry, research methodology, basic statistical concepts and interpretation of data analyses. Research methodology from a dental perspective will be introduced. Prereq: Admission to DHY or BDCP major.

**4193 Individual Studies in Dental Hygiene** U 1 - 3

Advanced studies in any relevant area of dental hygiene. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

**4194 Group Studies in Dental Hygiene** U 1 - 3

Group studies in selected topics in dental hygiene. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

**4210 Integrated Dental Hygiene Science I** U 1

Integration and review of all areas of dental hygiene related to dental hygiene practice. Application of analytical skills to case analysis. Prereq: Sr standing in DentHyg. This course is graded S/U.

**4220 Integrated Dental Hygiene Science II** U 1

Continuation of 4210. Prereq: 4210. This course is graded S/U.

**4240 Practice Management** U 2

Introduction to the economic and employment issues which impact dental hygiene practices and management skills to foster current standards of dental hygiene care. Prereq: Sr standing in DHY.

**4250 Contemporary Concepts in the Practice of Dental Hygiene Seminar** U 1

DH 4250 is designed for students to identify and explore current issues related to opportunities and demands of the dental hygiene profession. The goal of DH 4250 is to prepare students to transition from dental hygiene school to registered dental hygienists and plan for their future careers within a potentially changing American health care system and ever evolving profession. Prereq: 2220 and Sr standing in dental hygiene.

**4340 Dental Hygiene Clinic IV** U 4

A final clinical experience incorporating all previously acquired knowledge, techniques, procedures, and evaluation of results of dental hygiene therapy with emphasis on time management. Prereq: A grade of C- or above in 3330, and recommendation of faculty.

**4420 Current Concepts in Dental Hygiene** U 2

Instruction in the significant aspects of dental hygiene practice within the context of dentistry and health care. Prereq: 3400 or 3410.

**4430 Dental Hygiene Practicum** U 1 - 4

Supervised practice outside the traditional clinic in a setting similar to one in which the dental hygiene student may practice, teach, or conduct research upon graduation. Prereq: Sr standing in DHY or BDCP major. Repeatable to a maximum of 4 or hrs or 4 completions. This course is graded S/U.

**4530 Oral Health Behavior Management** U 2

Instruction in advanced skills for dental hygienists to help patients achieve good oral health, with emphasis on clinical application and evaluation. Prereq: Admission to BDCP major.

**4620 Dental Hygiene Education I** U 3

Introduction to teaching in the dental hygiene setting. This course is designed to provide the future dental hygiene educator with insight into the fundamental principles of learning and teaching. This course highlights the behaviors, attitudes, and interactions of effective and inspiring teachers. Prereq: Admission to UDHY major.

**4630 Dental Hygiene Education II** U 3

Continuation of 4620. This course is designed to provide the future dental hygiene educator with an appreciation of foundations of teaching and learning, essential teaching skills, importance of communication in teaching, instructional planning, instructional strategies/activities, assessment fundamentals, methods of assessment, teaching in higher education, and personal philosophy of teaching. Prereq: 4620.

**4725 Expanded Functions for the Dental Auxiliary Pre-clinic** U 4

Introduction to theory and technical procedures for the expanded functions dental auxiliary in four-handed dentistry and restoring cavity preparations with amalgam alloy and filled resins. Prereq: A grade of C- or above in 2310.

**4740 Expanded Functions for the Dental Auxiliary Clinic I** U 1 - 3

Clinical application of expanded function duties permitted by law. Prereq: A grade of C- or above in 4725.

**4750 Expanded Functions for the Dental Auxiliary Clinic II** U 1

Clinical application of expanded function duties permitted by law. Prereq: A grade of C- or above in 4740.

**4760 Expanded Functions for the Dental Auxiliary Seminar** U 1

Instruction in current expanded functions, practice management techniques, and current law in Ohio including practical experiences in preparation for Ohio Expanded Functions Qualifying Examination. Prereq: A grade of C- or above in 4740.

**6000 Educational Policy and Management in Dental Hygiene** G 3

Designed to study the concept of policy as it relates to dental hygiene educational institutions and their governance and practices while providing knowledge and skills in basic management and administration. Prereq: Admission to Master's in Dental Hygiene, or permission of instructor.

**6100 Dental Hygiene Educational Theory and Methods** G 3

The study of theory, principles and research related to the faculty role in active teaching and learning, critical thinking, and development of course alignment in dental hygiene education. Prereq: Admission to Master's in Dental Hygiene, or permission of instructor.

**6200 Contemporary Issues in Dental Hygiene** G 3

Examines current issues which affect the overall dental profession with a strong focus on dental hygiene issues and the delivery of dental health care. It explores current and innovative strategies to make changes in dental hygiene to improve oral and overall health care. Prereq: Admission to Master's in Dental Hygiene, or permission of instructor.

**6400 Introduction to Dental Research Designs** G 3

Designed to present conception and technical problems in the development and implementation of clinical, behavioral and basic science research projects related to dentistry. Prereq: Admission to Master's in Dental Hygiene, or permission of instructor.

**6450 Statistical Analysis and its Application to Dental Hygiene** G 3

Designed to provide a conceptual foundation of statistics related to basic, clinical and behavioral dental science. Prereq: 6400, and admission to Master's in Dental Hygiene.

**7100 Instructional Strategies** G 3

Explores modern educational methodology and course design in the teaching of dental hygiene students including technological advances in online and traditional teaching. Prereq: 6100, or permission of instructor.

<b>7191</b>	<b>Dental Hygiene Internship</b>	<b>G</b>	<b>1 - 6</b>
Supervised practical experience in the day to day operation of a dental hygiene program. Prereq: 6100, 7100, and 7200 for a teaching internship; or 6000 and 7300 for an administrative internship; and admission to the MDH program, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>7193</b>	<b>Individual Studies in Dental Hygiene</b>	<b>G</b>	<b>1 - 6</b>
Provides an opportunity for students to pursue individual studies in dental hygiene topics not otherwise offered. Prereq: Admission to MDH program, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>7200</b>	<b>Clinical/Laboratory Instruction and Administration</b>	<b>G</b>	<b>3</b>
Designed to study the theory and practice of laboratory, pre-clinical, and clinical dental hygiene instruction with an emphasis on psychomotor skill development, student mentoring, and evaluation. Prereq: Admission to MDH program, or permission of instructor.			
<b>7300</b>	<b>Leadership and Administration in Dental Hygiene Education</b>	<b>G</b>	<b>3</b>
Designed to study leadership theories and program administration unique to dental hygiene educational programs including accreditation, human resources, faculty evaluation, budgeting, administration and outcomes assessment. Introduces the administrative structure and duties required to become a faculty member or program director and focuses on leadership in the profession. Prereq: Admission to Master's in Dental Hygiene, or permission of instructor.			
<b>7999</b>	<b>Research: Thesis</b>	<b>G</b>	<b>1 - 6</b>
Provides graduate students with the opportunity to develop and conduct basic and applied Dental Hygiene research required for the completion of a master's thesis. Prereq: Admission to MDH program, and permission of thesis advisor. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			

## Dentistry

<b>6200</b>	<b>Molecular and Cellular Biochemistry</b>	<b>D</b>	<b>5</b>
Basic principles of biochemistry, molecular and cellular biology with special emphasis on biochemical processes important in dentistry. Prereq: Not open to students with credit for 606 and 607.			
<b>6262</b>	<b>Communication and Ethics in Dentistry</b>	<b>D</b>	<b>2</b>
Communication basics with an emphasis on communication with patients. Also includes an introduction to cultural competence and ethics in dentistry.			
<b>6400</b>	<b>Microbiology and Immunology</b>	<b>D</b>	<b>4</b>
Major components of the human immune system, and the immune response to medically important pathogens including bacteria, viruses, fungi and parasites.			
<b>6415</b>	<b>Clinical Evaluative Sciences I</b>	<b>D</b>	<b>1</b>
Evidence Based Dentistry. Repeatable to a maximum of 2 cr hrs.			
<b>6416</b>	<b>Introduction to Clinical Dentistry I</b>	<b>D</b>	<b>2</b>
Introduction to prevention of oral disease, oral examination and modeling, patient evaluation, and use of the dental operator. May include observation or assistance with clinical patient care, simulations, and laboratory exercises. Prereq: Not open to students with credit for 415.02, 416, and 427. This course is graded S/U.			
<b>6417</b>	<b>Oral Anatomy</b>	<b>D</b>	<b>3</b>
Dental anatomy and anatomy of the head and neck.			
<b>6423</b>	<b>Clinical Evaluative Sciences II</b>	<b>D</b>	<b>1</b>
Evaluative sciences as they relate to the practice of dentistry including measurement and description of data and research study design.			
<b>6427</b>	<b>Introduction to Clinical Dentistry II</b>	<b>D</b>	<b>2</b>
Introduction to periodontal instrumentation, charting, ultrasonic scaling and recall. Topics also include: Rubber dam, coronal polishing and composite typodont exercise. This course is graded S/U.			
<b>6435.01</b>	<b>Fixed I Lecture</b>	<b>D</b>	<b>1</b>
This course provides information regarding how to prepare ivory teeth (molars and premolars) for a complete veneer crown cast gold restoration. Repeatable to a maximum of 3 cr hrs.			
<b>6435.02</b>	<b>Fixed I Laboratory</b>	<b>D</b>	<b>1</b>
This course provides experience in preparing ivory teeth (molars and premolars) for a complete veneer crown cast gold restoration.			
<b>6436.01</b>	<b>Fixed Dentistry II Lecture</b>	<b>D</b>	<b>1</b>
Students will learn to restore anterior teeth with crowns, applying scientific basis on principals of tooth preparations, provisional restorations, and material selections. The principals of esthetics will be introduced and applied in provisional restorations.			

<b>6436.02</b>	<b>Fixed Restorative Dentistry II Laboratory</b>	<b>D</b>	<b>1</b>
Students will learn to restore anterior teeth with crowns, applying scientific basis on principals of tooth preparations, provisional restorations, and material selections. This laboratory course is taught in conjunction with 6436.01.			
<b>6437.01</b>	<b>Fixed Restorative Dentistry III</b>	<b>D</b>	<b>1</b>
Students will learn to restore anterior partial edentulism with fixed dental prosthesis. Topics include: application of scientific basis to indications and contraindications, principals of tooth preparations, provisional restorations, and material selections and esthetics. Repeatable to a maximum of 6 ch hrs.			
<b>6437.02</b>	<b>Fixed Restorative Dentistry III Laboratory</b>	<b>D</b>	<b>1</b>
Students will learn to restore anterior partial edentulism with fixed dental prosthesis. Topics include: application of scientific basis to indications and contraindications, principals of tooth preparations, provisional restorations, and material selections and esthetics. The emphasis is on associated laboratory procedures. Repeatable to a maximum of 3 cr hrs.			
<b>6438.01</b>	<b>Fixed IV Lecture</b>	<b>D</b>	<b>1</b>
Clinical and theoretical considerations of tooth preparation design for fixed partial dentures and metal ceramics, the importance of diagnostic waxing, fabrication of direct provisional restorations, theoretical considerations in framework design, and the properties of materials used in the fabrication of metal-ceramic restorations. Repeatable to a maximum of 3 cr hrs.			
<b>6438.02</b>	<b>Fixed IV Laboratory</b>	<b>D</b>	<b>1</b>
Clinical and theoretical considerations of tooth preparation design for fixed partial dentures and metal ceramics laboratory experiences. Repeatable to a maximum of 3 cr hrs.			
<b>6482</b>	<b>Removable Complete Prosthodontics I</b>	<b>D</b>	<b>2</b>
Overview of complete removable prosthodontics for the general dentist. Includes a laboratory component.			
<b>6489</b>	<b>Removable Partial Prosthodontics I</b>	<b>D</b>	<b>2</b>
Introduction to removable partial prosthodontics. Survey edentulous casts and design removable partial dentures; prepare mouth for insertion. Includes a laboratory component.			
<b>6490</b>	<b>Advanced Principles in Cardiology</b>	<b>D</b>	<b>1</b>
Advanced Principles in Cardiology is a one semester, one credit elective course designed to help third year DDS program students who are interested in specialty programs (especially anesthesia and OMFS) gain a more in-depth understanding of the functions of the human heart. It will specifically focus on advanced principles related to cardiac anatomy, physiology, and pathology. Prereq: Enrollment in the third academic year of the DDS program, and permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
<b>6491</b>	<b>Advanced Principles in Pulmonology</b>	<b>D</b>	<b>1</b>
In-depth understanding of the functions of the human respiratory system. Specific focus on advanced principles related to pulmonary anatomy, physiology, and pathology. Prereq: Enrollment as a Dentistry Year 3 student. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
<b>6500</b>	<b>Histology, Development and Cell Biology of Oral Tissues</b>	<b>D</b>	<b>3</b>
Light microscopic and ultrastructural organization of adult and developing orofacial tissues including their underlying cellular and molecular basis.			
<b>6505</b>	<b>Oral Surgery I</b>	<b>D</b>	<b>1</b>
Introduction to principles of patient evaluation and management for common dento-alveolar surgical procedures.			
<b>6516</b>	<b>Oral Microbiology and Cariology</b>	<b>D</b>	<b>1½</b>
Epidemiology of dental caries and periodontitis. Oral microbiology of the disease process and relationship to systemic disease. Topics also include: Oral infections, sterilization and asepsis, and caries assessment, diagnosis, and fluoride therapy.			
<b>6530</b>	<b>Post and Core Restoration of Endodontically Treated Teeth</b>	<b>D</b>	<b>½</b>
Restoration of endodontically treated teeth. Repeatable to a maximum of 1.5 cr hrs.			
<b>6533</b>	<b>Occlusion</b>	<b>D</b>	<b>3</b>
This course covers the impact of tooth form on function. Students will learn how to model a patient's dentition in the laboratory and appropriately relate it to the TMJ. This course will provide students with an understanding of the dynamics of mandibular movements, articulator design, occlusal schemes, anatomy of teeth.			
<b>6533.01</b>	<b>Occlusion</b>	<b>D</b>	<b>2</b>
The affect of tooth form on function. Repeatable to a maximum of 6 cr hrs.			
<b>6533.02</b>	<b>Occlusion Laboratory</b>	<b>D</b>	<b>1</b>
The goal of this course is to enable the student to explore the functional and aesthetic form of human dentition, and to more fully comprehend and visualize mandibular movements as critical elements in providing optimal restorative dental treatment. This is laboratory course is taken in conjunction with the didactic course 6533.01. Repeatable to a maximum of 3 cr hrs.			

## 124 Dentistry

### 6534.01 Operative Dentistry IV D 1

Diagnosis and treatment planning of intra-coronal restorations and facial veneers including principles of tooth preparation, fabrication of a provisional restoration and cementation of the final restoration. Additional topics include: CAD/CAM for dental restorations and treatment planning for diastemas.  
Repeatable to a maximum of 3 cr hrs.

### 6534.02 Operative Dentistry IV Laboratory D 1

This laboratory course provides students with skills related to providing intra-coronal restorations and facial veneers. Laboratory exercises include tooth preparation, fabrication of a provisional and final cementation of the permanent restoration.  
Repeatable to a maximum of 3 cr hrs.

### 6537 Fixed Restorative Dentistry V D 1

Restorative treatment of the endodontically treated tooth and Fixed Prosthodontics competency exam. Includes a laboratory component.

### 6540.01 Operative Dentistry I D 2

Introduction to the principles of conservative tooth preparations, characteristics of dental amalgam and its use in the restoration of posterior teeth and class V lesions. Students will learn how to prepare different types of cavities. The course also include information related to the caries process, techniques to control lesions, and restorative dentistry materials.  
Repeatable to a maximum of 6 cr hrs.

### 6540.02 Operative Dentistry I Laboratory D 1

Introduction to principles of conservative tooth preparations, acquiring the skills to prepare different types of cavities

### 6541.01 Operative II Lecture D 1

This course provides students knowledge in the use of composite, resin-modified glass ionomer, and amalgam to restore teeth.  
Repeatable to a maximum of 3 cr hrs.

### 6541.02 Operative II Laboratory D 1

This course provides students experience in the use of composite, resin-modified glass ionomer, and amalgam to restore teeth.  
Repeatable to a maximum of 3 cr hrs.

### 6542 Operative Dentistry III D 2

Students will review principals of amalgam preparation and restoration, bases and liners, and complex amalgam preparations and restorations. Dentistry 6542 will include foundation restorations. Students will also be introduced to Class III composite and amalgam preparations and restorations, Class IV composite preparations and restoration technique.  
Repeatable to a maximum of 6 cr hrs.

### 6542.01 Operative Dentistry III Lecture D 1

Class III composite preparations and restorations, Class IV composite preparations and restoration technique, and extensive amalgam preparations and restorations. 6542.01 is taught in conjunction with 6542.02 and is the didactic portion of the course.

### 6542.02 Operative Dentistry III Laboratory D 1

Class III composite preparations and restorations, Class IV composite preparations and restoration technique, and extensive amalgam preparations and restorations. 6542.02 is taught in conjunction with 6542.01 and is the laboratory portion of the course.

### 6543 Oral Radiology II D 2

Advanced imaging techniques including panoramic imaging and CBCT imaging.  
Repeatable to a maximum of 6 cr hrs.

### 6544 Internal Medicine for Dentistry D 2

Review of common medical conditions and implications for dental treatment. Attention is placed on major organ pathophysiology, clinical medicine & pharmacologic management. Emergency medicine is also discussed.

### 6545 Oral Radiology D 1

Introduction of basic radiology concepts to DDS program students. Course topics: formation, x-ray interactions, intraoral anatomy, image exposure and technique, effects of radiation including radiation safety and protection.

### 6546.01 Operative Dentistry V Lecture D 1

Principals of composite and amalgam preparation and restoration, bases and liners, and complex amalgam preparations and restorations, foundation restorations, fabricating veneer temporaries, uses of lasers in restorative dentistry including troubleshooting for impressions, and other advanced restorative procedures. This course is taken concurrently with the laboratory course.  
Repeatable to a maximum of 3 cr hrs.

### 6546.02 Operative Dentistry V Laboratory D 1

The primary focus of Dent 6546.02 is the Dent II pre-clinical operative competency exam. The exam consists of eight operative dentistry procedures. The procedures are a combination of amalgam preparations ideal and complex, composite preparations, amalgam restorations, and composite restorations. Dentistry 6546.02 is taken concurrently with Dentistry 6546.01.  
Repeatable to a maximum of 3 cr hrs.

### 6551 Pediatric Dentistry II D ½

Introduction to basic restorative dentistry for the primary and transitional dentition.

### 6564 Periodontology I D 3

Introduction to periodontal disease and diagnosis.

### 6565 Periodontology II D 4

Periodontal disease prevention and therapy using an evidence-based patient management approach. Includes rationale for non-surgical and surgical therapy. Lab and clinic exercises in subgingival instrumentation.

### 6567 Endodontics I D 1½

Overview of basic endodontic treatment, from access to the obturation technique. General terminology, basic instrument description, rationale for treatment. Includes laboratory component.

### 6569 Endodontics II D 1

Topics related to endodontic treatment including: diagnosis, emergency treatment, traumatic injuries, internal bleaching, vital pulp therapy, relationship to the periodontium, surgery, and treatment outcomes.

### 6571 Pharmacology I D 4

Introduction to the mechanism of action and side effects of pharmacologic agents.

### 6579 Local Anesthesia D 1

Techniques of intraoral local anesthetic administration with emphasis on predicting and preventing complications. Includes discussion of related basic science principles.

### 6587 Removable Partial Prosthodontics II D 1

Treatment of patients with a complete maxillary denture and a mandibular distal extension removable partial denture. Includes a laboratory component.

### 6600 Human Physiology D 5

Human physiology course for dental students. Overview of physiological systems including nerve, muscle, cardiovascular, respiration, endocrine and renal. Oral physiology topics including kinesthesia, mastication, swallowing and pain.

### 6601 Physiology I D 2

A course covering all areas of human physiology, plus topics related to oral physiology. The course begins in the summer semester and a second course will continue in the fall semester. An emphasis is placed on the integration of principals of basic science to clinical science by providing case histories and other material from the clinical literature.  
Prereq: Enrollment in Pre-doctoral Dental program. Repeatable to a maximum of 6 cr hrs. This course is progress graded.

### 6602 Physiology II D 3½

A course covering all areas of human physiology, plus topics related to oral physiology. The course begins in the summer semester and will continue in the fall semester. An emphasis is placed on the integration of principals of basic science to clinical science by providing case histories and other material from the clinical literature.  
Prereq: Enrollment in the DDS program. Repeatable to a maximum of 10.5 cr hrs.

### 6612 Pharmacology II D 2

Applied pharmacology including the safe prescribing of drugs used in general dental practice. Includes principles of pharmacology and interaction concerns.

### 6623 Geriatrics and Patients with Special Health Needs D 2

Concerns associated with the provision of oral health care to Geriatric and Special Needs patients. Topics include: patient mobility, psychosocial and socioeconomic issues, medical considerations, and communication.

### 6625 Practice Management I D 1

Basic concepts in personal and business finance and business management. Topics include future trends in dentistry, economics, investments, and concepts in risk management and regulatory agency oversight.

### 6626 Practice Management II D 1

Career opportunities within Dentistry. Evaluation of Dental practice types relative to business structure, organization and productivity analysis.

### 6627 Practice Management III D 1

Topics include legal issues affecting Dental practice, peer review process, liability insurance, marketing, associateships, and evaluating and purchasing a Dental practice.

### 6629 Dental Materials D 1

Evaluation and effective use of dental materials by the general dentist. Topics also include requirements of ideal materials and procedures for working with dental laboratories.  
Repeatable to a maximum of 2 cr hrs.

### 6630 Diagnosis and Treatment Planning for Patients with Complex Restorative Needs D 2

Introduction to procedures for collecting and evaluating information, particularly as related to occlusion, that enable proper diagnose and treatment of partially edentulous patients with complex restorative needs. Includes a laboratory component.

### 6631 Restorative and Prosthetic Dentistry Clinical Lecture Series I D ½

Advanced topics related to clinical guidelines, prevention of recurrent caries under fixed restorations, fluid control, soft tissue management, tooth isolation and pulpal protection.

<b>6632</b>	<b>Restorative and Prosthetic Dentistry Clinical Lecture Series II</b>	<b>D</b>	<b>1</b>
Advanced topics related to treatment planning, dental materials, articulators and impressions.			
<b>6633</b>	<b>Restorative and Prosthetic Dentistry Clinical Lecture Series III</b>	<b>D</b>	<b>1</b>
Advanced topics related to; esthetics, casting delivery, removable partial denture attachments, classification of endentulism, treating difficult denture patients and maxillofacial prostheses.			
<b>6638</b>	<b>Implant Dentistry I</b>	<b>D</b>	<b>1½</b>
Introduction to implant dentistry including discussion of treatment planning dental implants.			
<b>6645</b>	<b>Oral Pathology I</b>	<b>D</b>	<b>2</b>
Oral and maxillofacial pathologic conditions. Topics include dental and developmental anomalies, mucocutaneous and salivary gland disorders, odontogenic cysts and tumors and HIV infection.			
<b>6648</b>	<b>Oral Pathology II</b>	<b>D</b>	<b>3</b>
Oral and maxillofacial pathologic conditions. Topics include inflammatory and reactive conditions, epithelial and melanocytic pathology, Mesenchymal hard and soft tissue neoplasms, hematologic disorders and oral manifestations of systemic disease.			
<b>6651</b>	<b>Pediatric Dentistry I</b>	<b>D</b>	<b>2</b>
Overview of Pediatric Dentistry for the general dentist. Content includes treatment of infants, children, adolescents and those patients with special medical needs. Prereq: Enrollment in DDS program. Repeatable to a maximum of 6 cr hrs.			
<b>6654</b>	<b>Orthodontics Introduction</b>	<b>D</b>	<b>2</b>
This course is intended to provide the general practitioner with knowledge and skill to evaluate child, adolescent and adult patients' orthodontic problems. Repeatable to a maximum of 6 cr hrs.			
<b>6655</b>	<b>General Pathology</b>	<b>D</b>	<b>3</b>
Overview of human disease and the mechanisms associated with genetic, acquired, reactive and neoplastic conditions. Disease epidemiology, pathogenesis, diagnosis, treatment, prognosis and prevention are discussed.			
<b>6656</b>	<b>Orthodontics I</b>	<b>D</b>	<b>4</b>
Introduction to orthodontic diagnosis and treatment planning for general dentists.			
<b>6657</b>	<b>Orthodontics I</b>	<b>D</b>	<b>2</b>
Orthodontics for general dental practitioners. Repeatable to a maximum of 6 cr hrs.			
<b>6658</b>	<b>Clinical Orthodontics I</b>	<b>D</b>	<b>½</b>
This course establishes the skills required for the clinical application of the principles of facial and dental growth and development, and orthodontic diagnosis. Students will develop the skills that they will need to address the orthodontic needs of their patients and to recognize when orthodontic treatment can add to the results of their restorative and periodontal treatment. Repeatable to a maximum of 1.5 cr hrs.			
<b>6659</b>	<b>Orthodontics II</b>	<b>D</b>	<b>1</b>
Advanced topics in orthodontics for the general dentist including: growth and development and treatment evaluation.			
<b>6684</b>	<b>Removable Complete Prosthodontics II</b>	<b>D</b>	<b>1</b>
Finishing and polishing a complete denture, laboratory remount, occlusal equilibration, denture repair and relining. Includes a laboratory component.			
<b>6690</b>	<b>Introduction to Clinical Dentistry III</b>	<b>D</b>	<b>2</b>
Introduction to interim partial dentures and border molding, dental photography, carries risk assessment, removal of large restorations and head and neck examination. Includes observation or assistance with clinical patient care. This course is graded S/U.			
<b>6691</b>	<b>Introduction to Clinical Dentistry IV</b>	<b>D</b>	<b>2</b>
Overview of clinic patient records. Exercise in local anesthesia administration, use of posterior rubber dam and dental charting. Also includes observation or assistance with clinical patient care. This course is graded S/U.			
<b>6693</b>	<b>Individual Studies in Dentistry I</b>	<b>D</b>	<b>½ - 12</b>
Individual studies in any of the recognized fields of dentistry. Repeatable to a maximum of 36 cr hrs or 6 completions. This course is graded S/U.			
<b>6704</b>	<b>Oral Surgery II</b>	<b>D</b>	<b>1</b>
Overview of advanced oral surgery practice.			
<b>6744</b>	<b>Oral Pathology III</b>	<b>D</b>	<b>1</b>
Case-based study of oral pathologic conditions including documentation, development of the differential diagnosis, strategies to establish the diagnosis and patient management.			
<b>7012.01</b>	<b>Neuroscience Laboratory</b>	<b>G D</b>	<b>1</b>
Laboratory component of Dentistry 7012 in which students will learn anatomy of the human brain. Prereq: Permission of instructor. Cross-listed in NeuroSc 7200.01.			

<b>7012.02</b>	<b>Experimental Neuroscience Lab</b>	<b>G D</b>	<b>1</b>
Laboratory component of Dentistry 7012 in which students will learn the anatomy of the rodent brain using experimental techniques. Prereq: Permission of instructor. Cross-listed in NeuroSc 7200.02.			
<b>7012.03</b>	<b>Foundations of Neuroscience II</b>	<b>G D</b>	<b>6</b>
Discusses the organization of selected systems in the nervous system including motor, sensory, autonomic, and higher cognitive centers. Course will cover anatomical, functional, and behavioral concepts. Prereq: Permission of instructor. Cross-listed in NeuroSc 7002.			
<b>7400</b>	<b>Advanced Pediatric Dentistry</b>	<b>D</b>	<b>1</b>
Advanced clinical experiences and background in Pediatric Dentistry for general practitioners. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>7500</b>	<b>Community Dentistry I</b>	<b>D</b>	<b>1½</b>
General dental practice experience at external sites. Prereq: Not open to students with credit for 500, 501, 502, or 503.			
<b>7501</b>	<b>Community Dentistry II</b>	<b>D</b>	<b>2</b>
General dental practice experience at external sites. Prereq: Not open to students with credit for 500, 501, 502, or 503.			
<b>7502</b>	<b>Community Dentistry III</b>	<b>D</b>	<b>2</b>
General dental practice experience at external sites. Prereq: Not open to students with credit for 500, 501, 502, or 503.			
<b>7616</b>	<b>Primary Care I</b>	<b>D</b>	<b>1½</b>
Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. Prereq: Not open to students with credit for 616, 617, 618, or 619. This course is graded S/U.			
<b>7617.01</b>	<b>Primary Care II</b>	<b>D</b>	<b>4</b>
Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is graded S/U.			
<b>7617.02</b>	<b>Primary Care II</b>	<b>D</b>	<b>4</b>
Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. Prereq: Not open to students with credit for 616, 617, 618, or 619. Repeatable to a maximum of 8 cr hrs. This course is progress graded.			
<b>7618.01</b>	<b>Primary Care III</b>	<b>D</b>	<b>4</b>
Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is progress graded (S/U).			
<b>7618.02</b>	<b>Primary Care III</b>	<b>D</b>	<b>4</b>
Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is progress graded.			
<b>7652</b>	<b>Clinical Pediatric Dentistry I</b>	<b>D</b>	<b>1</b>
Clinical experience treating child and adolescent patients. Prereq: Not open to students with credit for 652.02. This course is graded S/U.			
<b>7658</b>	<b>Clinical Orthodontics</b>	<b>D</b>	<b>1</b>
Clinical application of the principals of orthodontic growth and development, and orthodontic treatment. Prereq: Not open to students with credit for 658.			
<b>7669</b>	<b>Clinical Endodontics I</b>	<b>D</b>	<b>1</b>
Clinical experience in performing root canal treatment on uncomplicated permanent teeth. Also exposure to treatment modalities necessary in more complicated Endodontic cases. Prereq: Not open to students with credit for 668. This course is graded S/U.			
<b>7676</b>	<b>Clinical Periodontology</b>	<b>D</b>	<b>1</b>
Students participate in treatment of patients with periodontal needs.			
<b>7693</b>	<b>Individual Studies in Dentistry II</b>	<b>D</b>	<b>½ - 12</b>
Individual studies in any of the recognized fields of dentistry. Repeatable to a maximum of 36 cr hrs or 6 completions.			
<b>7701</b>	<b>Clinical Oral Surgery I</b>	<b>D</b>	<b>4</b>
Introductory clinical experience to the primary principles of patient evaluation and management for common dento-alveolar surgical procedures. Prereq: Not open to students with credit for 701. This course is graded S/U.			
<b>7702</b>	<b>Clinical Oral Surgery II</b>	<b>D</b>	<b>½</b>
Patient evaluation and management for common dento-alveolar surgical procedures. Includes an experience in hospital dentistry. Prereq: Not open to students with credit for 704. This course is graded S/U.			

## 126 Dentistry

<b>7708</b>	<b>Clinical Pediatric Dentistry II</b>	<b>D</b>	<b>1</b>	Experience treating child and adolescent patients in a clinic environment. Also includes experience in a hospital setting and exposure to complicated Pediatric Dentistry and Special Needs cases. Includes competency examinations. Prereq: Not open to students with credit for 708.03. This course is graded S/U.	<b>8000.06</b>	<b>Endodontics</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7716.01</b>	<b>Primary Care IV</b>	<b>D</b>	<b>3</b>	Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is graded S/U.	<b>8000.07</b>	<b>Pediatric Dentistry I Graduate Pediatric Dentistry Clinic</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7716.02</b>	<b>Primary Care IV</b>	<b>D</b>	<b>3</b>	Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is progress graded.	<b>8000.15</b>	<b>Oral Pathology II Surgical Pathology</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7718.01</b>	<b>Primary Care V</b>	<b>D</b>	<b>3</b>	Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is graded S/U.	<b>8000.17</b>	<b>Pediatric Dentistry II Medical Clinical Rotations</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7718.02</b>	<b>Primary Care V</b>	<b>D</b>	<b>4</b>	Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. Prereq: Not open to students with credit for 716, 717, 718, or 719. This course is progress graded.	<b>8000.22</b>	<b>Orthodontics III Craniofacial Anomalies Clinic</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7719.01</b>	<b>Primary Care VI</b>	<b>D</b>	<b>3</b>	Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is graded S/U.	<b>8000.24</b>	<b>Prosthodontics III Maxillofacial Clinic</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7719.02</b>	<b>Primary Care VI</b>	<b>D</b>	<b>4</b>	Clinical experience in primary care dentistry including diagnosis, prognosis, treatment planning, care delivery and evaluation. May include competency examinations and special projects. This course is progress graded.	<b>8000.27</b>	<b>Pediatric Dentistry III Anesthesia Rotation</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.
<b>7746</b>	<b>Clinical Oral Radiology Introductory</b>	<b>D</b>	<b>½</b>	Introductory clinical experience in Oral Radiology. Includes selection, and evaluation of radiographs in addition to techniques for obtaining appropriate images. This course is graded S/U.	<b>8001.01</b>	<b>Anesthesia Literature Review</b>	<b>G</b>	<b>½</b>	The course will explore recent advances and opinions in anesthesiology and provide an understanding of key concepts of anesthesiology and approaches to clinical management. The course will consist of a monthly topic and at least two recent peer reviewed articles that will be presented to the class for discussion. One member of the class will develop and present the lecture for each class. Repeatable to a maximum of 3.5 cr hrs.
<b>7747</b>	<b>Clinical Oral Radiology Intermediate</b>	<b>D</b>	<b>½</b>	Intermediate level clinical experience in Oral Radiology. Includes selection, and evaluation of radiographs in addition to techniques for obtaining appropriate images. This course is graded S/U.	<b>8001.02</b>	<b>Orthodontics</b>	<b>G</b>	<b>½ - 10</b>	Review of literature. Repeatable.
<b>7769</b>	<b>Clinical Endodontics II</b>	<b>D</b>	<b>1</b>	Clinical experience in performing root canal treatment on uncomplicated permanent teeth. Also exposure to treatment modalities necessary in more complicated Endodontic cases.	<b>8001.03</b>	<b>Periodontics</b>	<b>G</b>	<b>½ - 10</b>	Review of literature. Repeatable.
<b>7776</b>	<b>Periodontology Clinical Competencies</b>	<b>D</b>	<b>1</b>	Competency examinations related to Periodontology. Repeatable to a maximum of 3 cr hrs.	<b>8001.04</b>	<b>Prosthodontics I Removable Prosthodontics</b>	<b>G</b>	<b>½ - 10</b>	Review of literature. Repeatable.
<b>7920</b>	<b>Oral Biology Seminar</b>	<b>G</b>	<b>½ - 2</b>	Student presentations of recent research findings, both original and from the literature. Repeatable to a maximum of 40 cr hrs or 20 completions.	<b>8001.05</b>	<b>Oral Pathology</b>	<b>G</b>	<b>½ - 10</b>	Review of literature. Repeatable. This course is graded S/U.
<b>7921</b>	<b>Oral Biology Journal Club</b>	<b>G</b>	<b>1 - 2</b>	Weekly, one student will present a current paper from a top tier journal that reports important findings related to Oral Biology. Prior to class, all students will read the paper, write a brief summary, summarize the experimental design and statistical approach, and compose two questions for class discussion. Grading is based on presentation quality, completion of pre-work, and participation. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U.	<b>8001.14</b>	<b>Prosthodontics II Fixed Prosthodontics</b>	<b>G</b>	<b>½ - 10</b>	Review of literature. Repeatable.
<b>7993</b>	<b>Individual Studies in Advanced Dentistry</b>	<b>G</b>	<b>½ - 12</b>	Advanced individual studies in any of the recognized fields of dentistry. Repeatable. This course is graded S/U.	<b>8001.24</b>	<b>Prosthodontics III Dental Implants</b>	<b>G</b>	<b>½ - 10</b>	Review of literature. Repeatable.
<b>8000.02</b>	<b>Orthodontics/Graduate Orthodontics Clinic</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable.	<b>8002.01</b>	<b>Anesthesia Grand Rounds</b>	<b>G</b>	<b>½ - 1</b>	Discussion of clinical cases. The course is designed to teach advanced principles of hospital anesthesia to dental anesthesia residents and provide monthly morbidity and mortality case reports. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.
<b>8000.03</b>	<b>Periodontics</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable.	<b>8002.02</b>	<b>Orthodontics I Case Seminars</b>	<b>G</b>	<b>½ - 10</b>	Discussion of clinical cases. Repeatable.
<b>8000.04</b>	<b>Prosthodontics/Graduate Prosthodontics Clinic</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable.	<b>8002.03</b>	<b>Periodontics I Faculty Presentations</b>	<b>G</b>	<b>½ - 10</b>	Discussion of clinical cases. Repeatable.
<b>8000.05</b>	<b>Oral Pathology I Clinical Assisting</b>	<b>G</b>	<b>½ - 10</b>	Broad exposure to advanced clinical principles and practices. Repeatable. This course is graded S/U.	<b>8002.05</b>	<b>Oral Pathology</b>	<b>G</b>	<b>½ - 10</b>	Discussion of clinical cases. Repeatable. This course is graded S/U.
					<b>8002.06</b>	<b>Endodontics</b>	<b>G</b>	<b>½ - 10</b>	Discussion of clinical cases. Repeatable.
					<b>8002.07</b>	<b>Pediatric Dentistry I Contemporary Issues</b>	<b>G</b>	<b>½ - 10</b>	Discussion of clinical cases. Repeatable. This course is graded S/U.

<b>8002.12</b>	<b>Orthodontics II Case Presentations</b>	<b>G</b>	<b>½ - 10</b>
Discussion of clinical cases. Repeatable. This course is graded S/U.			
<b>8002.13</b>	<b>Periodontics II Student Presentations</b>	<b>G</b>	<b>½ - 10</b>
Discussion of clinical cases. Repeatable.			
<b>8002.17</b>	<b>Pediatric Dentistry II Introductory Orthodontics</b>	<b>G</b>	<b>½ - 10</b>
Discussion of clinical cases. Repeatable. This course is graded S/U.			
<b>8002.22</b>	<b>Orthodontics III Craniofacial Anomalies</b>	<b>G</b>	<b>½ - 10</b>
Discussion of clinical cases. Repeatable. This course is graded S/U.			
<b>8002.27</b>	<b>Pediatric Dentistry III Advanced Orthodontics</b>	<b>G</b>	<b>½ - 10</b>
Discussion of clinical cases. Repeatable. This course is graded S/U.			
<b>8002.32</b>	<b>Orthodontics IV Dental Facial Anomalies</b>	<b>G</b>	<b>½ - 10</b>
Discussion of clinical cases. Repeatable. This course is graded S/U.			
<b>8003</b>	<b>Research I</b>	<b>G</b>	<b>2</b>
Statistics and research design. Introduction to research ethics, human subject and animal research.			
<b>8004</b>	<b>Research II</b>	<b>G</b>	<b>1½</b>
Advanced topics related to research ethics, intellectual property, human subjects and animal research.			
<b>8006</b>	<b>Dental Photography</b>	<b>G</b>	<b>1</b>
Dental Photography. Topics include: equipment, setup and lighting; portrait and intra-oral photography; photo management and presentation; copystand photography. This course is graded S/U.			
<b>8007</b>	<b>Legal Issues in Dentistry</b>	<b>G</b>	<b>1</b>
Legal issues in the acquisition and management of a dental practice including issues associated with delivery of dental services to consumers, malpractice claims against practitioners and impact of government regulation on the delivery of care.			
<b>8008</b>	<b>Advanced Oral Embryology and Histology</b>	<b>G</b>	<b>½</b>
Development of the craniofacial region, odontogenesis, eruption and structure and function of the orofacial tissues.			
<b>8009</b>	<b>Research Design I</b>	<b>G</b>	<b>1</b>
Using different research designs as the foundation, this course reviews evidence-based dentistry and basic parametric and non-parametric methods of statistical inference commonly encountered in clinical research. The course also provides a background in ethical considerations for responsible conduct of research and protection of human subjects in biomedical research.			
<b>8010</b>	<b>Research Design II</b>	<b>G</b>	<b>2</b>
This course will cover many basic principles involved in the evaluation of dental literature, in the design of a research project, and in composing and evaluating a dental research proposal, with emphasis on ethical issues, variable descriptions, statistical designs and possible conclusions, and research involving human or animal subjects.			
<b>8011</b>	<b>Advanced Oral and Maxillofacial Radiology</b>	<b>G</b>	<b>1½</b>
The goals of this course are to engage residents in radiographic diagnosis through active, individual, and group learning.			
<b>8150</b>	<b>Orofacial Pain</b>	<b>G</b>	<b>1</b>
Overview of musculoskeletal, neuropathic and neurovascular facial pain to enable accurate differential diagnosis of non-odontogenic facial pain. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
<b>8151</b>	<b>Sedation</b>	<b>G</b>	<b>1</b>
Covers the indications, complications, pharmacology and techniques of IV sedation for dentistry.			
<b>8152</b>	<b>Physical Diagnosis</b>	<b>G</b>	<b>1</b>
Reviews the skills and knowledge needed to perform a history and physical examination appropriate for hospital admission. This course is graded S/U.			
<b>8153</b>	<b>Anesthesia Seminar</b>	<b>G</b>	<b>½ - 1</b>
Comprehensive review of general anesthesia and sedation as well as related subjects to anesthesiology and oral and maxillofacial surgery residents in small group discussion format. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>8154</b>	<b>Integrated Anesthesia Studies</b>	<b>G</b>	<b>½</b>
This course is designed to help dental anesthesia residents gain a deeper understanding of the practice of anesthesia. Residents will discuss applied principles and techniques that will be encountered during residency training and in private practice. Repeatable to a maximum of 5 cr hrs. This course is graded S/U.			

<b>8155</b>	<b>Emergency Simulation Lab</b>	<b>G</b>	<b>½</b>
This course will teach, test, and refine clinical skills related to anesthesia emergencies. Training will utilize high-fidelity simulation mannequins and planned emergency scenarios. The lab sessions will take place in the OSUMC simulation lab and in the College of Dentistry. The course will incorporate video monitoring of the training and an in-depth debriefing sessions after each lesson. Repeatable to a maximum of 5 cr hrs. This course is graded S/U.			
<b>8156</b>	<b>Anesthesiology Science Core</b>	<b>G</b>	<b>1</b>
The purpose of this course is to help dental anesthesiology residents review the principles of general physiology. This will help residents in their treatment of patients and as they prepare to take part I of the ADBA national board examination. Repeatable to a maximum of 5 cr hrs.			
<b>8201</b>	<b>Advanced Orthodontics Orientation</b>	<b>G</b>	<b>1</b>
Orientation to methods used in conjunction with clinical care with an emphasis on diagnosis and treatment planning.			
<b>8202</b>	<b>Contemporary Orthodontics</b>	<b>G</b>	<b>½</b>
Introduction to concepts related to diagnosis, prioritization of problems and treatment planning orthodontic cases.			
<b>8203</b>	<b>Orthodontic Appliance Design</b>	<b>G</b>	<b>½</b>
Design, application and fabrication of orthodontic appliances frequently used in the clinical setting. The primary clinical function of these appliances includes: anchorage, tooth movement, skeletal change, habit management and retention.			
<b>8204</b>	<b>Cephalometrics</b>	<b>G</b>	<b>½</b>
Cephalometric techniques and interpretation in relation to orthodontic treatment and growth.			
<b>8205</b>	<b>Typodont Technique I</b>	<b>G</b>	<b>1</b>
Wire Bending techniques use in the treatment of orthodontic problems.			
<b>8206</b>	<b>Typodont Technique II</b>	<b>G</b>	<b>½</b>
Tweed edgewise technique.			
<b>8207</b>	<b>Orthodontic Diagnosis and Treatment I</b>	<b>G</b>	<b>2</b>
Orthodontic diagnosis and treatment planning focusing on problem oriented diagnostic approaches and evidence-based treatment. Seminar format.			
<b>8208</b>	<b>Orthodontic Diagnosis and Treatment II</b>	<b>G</b>	<b>½ - 2</b>
Orthodontic diagnosis and treatment planning focusing on problem oriented diagnostic approaches and evidence-based treatment. Seminar format.			
<b>8209</b>	<b>Biomechanics I</b>	<b>G</b>	<b>1½</b>
Biomechanics as related to Orthodontic treatment. Topics may include: biological basis of tooth movement, concepts of engineering stress and strain, polar moments of inertia, biomechanics or orthodontic tooth movement and skeletal anchorage.			
<b>8210</b>	<b>Biomechanics II</b>	<b>G</b>	<b>1½</b>
Biomechanics as related to Orthodontic treatment. Topics may include: biological basis of tooth movement, concepts of engineering stress and strain, polar moments of inertia, biomechanics or orthodontic tooth movement and skeletal anchorage.			
<b>8211</b>	<b>Orthodontic Materials</b>	<b>G</b>	<b>1½</b>
Scientific principles relating to the compositions, structures, properties and clinical performance of major orthodontic materials. Selection of orthodontic materials for clinical practice. Review of current orthodontic materials literature.			
<b>8213</b>	<b>Dentofacial Orthopedics</b>	<b>G</b>	<b>2</b>
Diagnosis and management of patients with dento-facial deformities.			
<b>8214</b>	<b>Growth and Development</b>	<b>G</b>	<b>2</b>
Principles of growth and development as they apply to orthodontics.			
<b>8215</b>	<b>Orthodontic Practice Management</b>	<b>G</b>	<b>½ - 2½</b>
Overview of practice management topics including financial, legal and clinical administration issues. Focus is on establishment and management of an individual or small group orthodontic practice.			
<b>8216</b>	<b>Craniofacial Anomalies</b>	<b>G</b>	<b>1½</b>
Diagnosis, treatment and management of the patient with cleft lip and palate and other craniofacial anomalies from a multi-disciplinary approach.			
<b>8300</b>	<b>Introduction to Periodontology</b>	<b>G</b>	<b>1</b>
Introduction to Advanced Periodontics. This course is graded S/U.			
<b>8302</b>	<b>Practice Management Seminar</b>	<b>G</b>	<b>½</b>
This course is designed to expose dental specialty students to practice management scenarios as a catalyst for critical thinking to enhance decision making processes for their practices. This course is graded S/U.			
<b>8303</b>	<b>Anatomy and Histology of the Periodontium</b>	<b>G</b>	<b>1</b>
Periodontal anatomy and histology, including peri-implant and surgical anatomy.			

## 128 Dentistry

<b>8304</b>	<b>Periodontal Concepts I</b>	<b>G</b>	<b>2</b>
Periodontal disease assessment, classification, epidemiology, etiology & pathogenesis.			
<b>8305</b>	<b>Periodontal Concepts II</b>	<b>G</b>	<b>2</b>
Periodontal diseases and conditions, and risk assessment.			
<b>8306</b>	<b>Periodontal Concepts III</b>	<b>G</b>	<b>½</b>
Periodontal disease risk assessment.			
<b>8307</b>	<b>Periodontal Concepts IV</b>	<b>G</b>	<b>2</b>
Periodontal disease therapy and patient management.			
<b>8308</b>	<b>Periodontal Concepts V</b>	<b>G</b>	<b>2</b>
Periodontal disease therapy and patient management.			
<b>8310</b>	<b>Introduction to Implants</b>	<b>G</b>	<b>1½</b>
Biological and clinical considerations for dental implant therapy.			
<b>8410</b>	<b>Introduction to Removable Prosthodontics</b>	<b>G</b>	<b>1</b>
Diagnosis and treatment planning for edentulous patients. This course is graded S/U.			
<b>8412</b>	<b>Occlusal Schemes for Complete Prostheses</b>	<b>G</b>	<b>2</b>
Occlusal scheme treatment options for edentulous patients. Includes laboratory component.			
<b>8413</b>	<b>Removable Prosthodontics Design and Fabrication</b>	<b>G</b>	<b>1</b>
Occlusal and laboratory procedures associated with designing removable prosthodontics for edentulous patients. Includes laboratory component.			
<b>8421</b>	<b>Fixed Prosthodontics and Diagnostic Procedures</b>	<b>G</b>	<b>1</b>
Diagnostic Procedures and treatment options for fixed oral rehabilitation including mandibular movement studies. Includes laboratory component.			
<b>8422</b>	<b>Occlusal Schemes and Morphology For Fixed Prosthodontics</b>	<b>G</b>	<b>2</b>
Dentate occlusal schemes, static tooth contacts, excursive tooth contacts. Includes laboratory component.			
<b>8423</b>	<b>Fixed Prosthodontics Fabrication Techniques for Alloy Restorations</b>	<b>G</b>	<b>1</b>
Introduction to standards for fixed prosthodontic prostheses. Includes laboratory component.			
<b>8424</b>	<b>Fixed Prosthodontics Fabrication Techniques for Metal-Ceramic Restorations</b>	<b>G</b>	<b>1</b>
Material science principles of porcelain metal bond and procedures for porcelain application. Topics also include shade selection and correction. Includes laboratory component.			
<b>8437</b>	<b>Implant Interdisciplinary Lectures</b>	<b>G</b>	<b>2</b>
Overview of the way in which periodontists, prosthodontists, oral surgeons and orthodontists work together to provide care for dental implant patients. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
<b>8446</b>	<b>Prosthodontic Treatment Planning Literature Review</b>	<b>G</b>	<b>1</b>
Overview of evidence based treatment planning for prosthodontic therapy. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
<b>8451</b>	<b>Interdisciplinary Periodontics Prosthodontics Seminar</b>	<b>G</b>	<b>1</b>
Overview of the relationships between periodontic and prosthodontic treatment with an emphasis on the pre-surgical, surgical and post-surgical aspects of dental implants. Repeatable to a maximum of 10 cr hrs.			
<b>8460</b>	<b>Maxillofacial Prosthodontics Introduction</b>	<b>G</b>	<b>1</b>
Introduction to maxillofacial prosthodontics including types of defects, prostheses and their principles of design and issues related to oncologic therapy.			
<b>8466</b>	<b>Maxillofacial Prosthodontics Literature Review</b>	<b>G</b>	<b>1</b>
Review of literature related to maxillofacial prosthodontics including critical assessment of study validity and evidence based treatment decisions. Repeatable to a maximum of 10 cr hrs.			
<b>8471</b>	<b>Dental Materials Metals and Polymers</b>	<b>G</b>	<b>1</b>
Overview of evidence based treatment decisions related to the use of dental alloys and polymers. Repeatable to a maximum of 10 cr hrs.			
<b>8472</b>	<b>Dental Materials: Ceramics and Polymers</b>	<b>G</b>	<b>1</b>
This course presents basic scientific and engineering information on polymeric dental materials and ceramic dental materials. The focus will be on understanding the basic physical, mechanical and biological properties of these materials. Each course session will start with a lecture and conclude with presentation and discussion of current literature. Repeatable to a maximum of 3 cr hrs.			
<b>8474</b>	<b>Pharmacology and TMD for Dental Specialists</b>	<b>G</b>	<b>2</b>
Overview of Pharmacology for students in Advanced Dental Specialty Education Programs with an emphasis on drug interactions. Impact of Temporomandibular Disorders on dental treatment from the perspective of structure and function. This course is progress graded (S/U).			

<b>8600</b>	<b>Advanced Endodontics</b>	<b>G</b>	<b>1 - 5</b>
Advanced endodontic topics. May also include literature review and national examination review. Repeatable to a maximum of 50 cr hrs or 50 completions.			
<b>8601</b>	<b>Oral Pathology I</b>	<b>G</b>	<b>½</b>
Review and discussion of oral management and prognosis of selected developmental, inflammatory, immunologically-mediated and infectious diseases. Repeatable to a maximum of 5 cr hrs.			
<b>8602</b>	<b>Oral Pathology II</b>	<b>G</b>	<b>2</b>
Review and detailed discussion of oral manifestations, etiology, pathogenesis, management and prognosis of selected neoplasms, bone disorders and additional conditions of immunologic, salivary and odontogenic origin. Repeatable to a maximum of 20 cr hrs.			
<b>8603</b>	<b>Oral Pathology for Periodontists</b>	<b>G</b>	<b>1</b>
Review and discussion of oral and systemic conditions that arise in or affect the jaws and particularly the alveolar or periodontal hard and soft tissues. Repeatable to a maximum of 10 cr hrs.			
<b>8635</b>	<b>Diagnostic Histopathology</b>	<b>G</b>	<b>½ - 2</b>
Daily review of oral biopsy laboratory service materials, including microscopic differential diagnosis, case management and final diagnosis. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.			
<b>8650</b>	<b>Neoplasms</b>	<b>G</b>	<b>½ - 2</b>
Specialist level review and discussion of neoplastic disease. Repeatable to a maximum of 20 cr hrs.			
<b>8703</b>	<b>Children with Disabilities and Chronic Illnesses</b>	<b>G</b>	<b>1½</b>
Management of the oral health of patients with special health care needs. Repeatable to a maximum of 15 cr hrs.			
<b>8704</b>	<b>Pediatric Dentistry Behavior Issues</b>	<b>G</b>	<b>1</b>
Basic principles and theories of child development and the age-appropriate behavior responses in the dental setting. Repeatable to a maximum of 10 cr hrs.			
<b>8705</b>	<b>Pediatric Dentistry Restorative Treatment</b>	<b>G</b>	<b>1</b>
Restorative and prosthetic techniques and materials for the primary, mixed and permanent dentitions. Repeatable to a maximum of 10 cr hrs.			
<b>8706</b>	<b>Pediatric Dentistry Pulp and Trauma Treatment</b>	<b>G</b>	<b>½ - 1</b>
Evaluation, diagnosis, and management of the pulpal, periodontal and associated soft tissues following traumatic injury. Repeatable to a maximum of 10 cr hrs.			
<b>8707</b>	<b>Pediatric Dentistry Sedation</b>	<b>G</b>	<b>½ - 2</b>
The principles and objectives of conscious sedation, deep sedation and general anesthesia as behavior management techniques, including indications and contraindications for their use. Repeatable to a maximum of 20 cr hrs or 20 completions.			
<b>8708</b>	<b>Pediatric Dentistry Cariology</b>	<b>G</b>	<b>½ - 1½</b>
The scientific basis for the prevention and treatment of dental caries and periodontal diseases. Repeatable to a maximum of 15 cr hrs.			
<b>8709</b>	<b>Pediatric Dentistry Dental Public Health and Advocacy</b>	<b>G</b>	<b>½ - 2</b>
Introduction of the concepts and techniques of disease prevention and health promotion in dentistry and health. In-depth advocacy training with hands-on exercises. Repeatable to a maximum of 20 cr hrs.			
<b>8710</b>	<b>Graduate Pediatric Oral Pathology</b>	<b>G D</b>	<b>1</b>
Oral Pathology for Pediatric Dentists. Repeatable to a maximum of 5 cr hrs.			
<b>8711</b>	<b>Management of a Contemporary Private Practice</b>	<b>G</b>	<b>½ - 1½</b>
Dent 8711 includes lecture sessions, seminars, and visits to dental practices in the Central Ohio area. Lectures and seminars will focus on contemporary private practice. Areas of focus will include ethical reasoning, informed consent issues, liability mitigation, collaboration with dental specialties and medical specialties, purchasing of a practice, dental staff management, and value-based care. Repeatable to a maximum of 1.5 cr hrs or 2 completions.			
<b>8840</b>	<b>Current Issues in Oral Biology</b>	<b>G</b>	<b>½ - 2</b>
Didactic overview of current areas of health research. Repeatable to a maximum of 40 cr hrs or 20 completions. This course is graded S/U.			
<b>8993</b>	<b>Individual Studies in Advanced Dentistry</b>	<b>G</b>	<b>½ - 12</b>
Advanced individual studies in any of the recognized fields of dentistry. Repeatable.			
<b>8999</b>	<b>Research in Dentistry</b>	<b>G</b>	<b>½ - 12</b>
Research for thesis purposes only. Repeatable. This course is graded S/U.			

## Design

<b>2110</b>	<b>Design Fundamentals I</b>	<b>U</b>	<b>3</b>
Introduction to form, organizational structures and problem solving in the context of basic 2D design. Concur: 2310.			
<b>2130</b>	<b>Design Fundamentals III</b>	<b>U</b>	<b>3</b>
Application of acquired skills and knowledge of visual language and spatial constructs to generate design concepts in a given context. Prereq: 2110. Concur: 2330.			
<b>2310</b>	<b>Visual Principles and Techniques I</b>	<b>U</b>	<b>3</b>
Skill building in using drawing to observe, see, record and communicate characteristics of subjects, objects, information, environments, experiences and interactions. Concur: 2110.			
<b>2330</b>	<b>Visual Principles and Techniques III</b>	<b>U</b>	<b>3</b>
Skills and techniques mix media that assist in interpreting, translating and generating visual narratives that reveal relationships among subjects, objects, information, environments, experience and interactions. Prereq: 2310. Concur: 2130.			
<b>2700</b>	<b>Introduction to Design Practice</b>	<b>U</b>	<b>3</b>
Introduction to theory, rationale, practice, and societal impact of design; design process, critical issues, relationship to the environment. Design Minor and Entrepreneurship and Innovation Minor students may register without prereqs or corequisites. Concur: 2110, 2120, 2310, and 2320.			
<b>2750</b>	<b>Design History</b>	<b>U</b>	<b>3</b>
A history of design as affected by technology, science, and cultural world view. Prereq: 2110, 2120, 2310, 2320, and 2700, or minor in Design. Concur: 2130, 2140, 2330, and 2340, or minor in Design.			
<b>3101</b>	<b>Introduction to Industrial Design I</b>	<b>U</b>	<b>3</b>
Introduction to divergent thinking strategies including design research, observation, abstraction, evaluation and communication in the context of Industrial Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3200, 3301, and 3400. Not open to students with credit for 262.04.			
<b>3102</b>	<b>Introduction to Interior Design I</b>	<b>U</b>	<b>3</b>
The study of the relationship of form, function and material within the context of Interior Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3200, 3302, and 3400. Not open to students with credit for 262.08.			
<b>3103</b>	<b>Introduction to Visual Communication Design I</b>	<b>U</b>	<b>3</b>
Design and application of graphic systems in the production of visual communications within frameworks of theories of communication and signs. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3200, 3400, and 3503. Not open to students with credit for 262.02.			
<b>3104</b>	<b>Introduction to Game Design</b>	<b>U</b>	<b>3</b>
Introduction to Game Design introduces students to the principles of game design and provides opportunities for them to be put into practice using analog materials and methods. Students explore what motivates play, risk-taking and reward systems, and the visual design of games for serious applications and leisure. Create, test, and play games developed in the course.			
<b>3105</b>	<b>Exploring Design Thinking</b>	<b>U</b>	<b>3</b>
An overview of concepts, processes and modes of identifying problems and proposing effective solutions from a design-oriented perspective. Prereq: Not open to students with credit for 230.			
<b>3151</b>	<b>Introduction to Industrial Design II</b>	<b>U</b>	<b>3</b>
Application of divergent thinking strategies including design research, manufacturing, evaluation and digital communication in the context of Industrial Design. Prereq: 3101, and enrollment in Design major; or permission of instructor. Concur: 3450 and 3550. Not open to students with credit for 460.04.			
<b>3152</b>	<b>Introduction to Interior Design II</b>	<b>U</b>	<b>3</b>
The study of the relationship between the user and spatial form, function and material within the context of Interior Design. Prereq: 3102, and enrollment in Design major; or permission of instructor. Concur: 3450 and 3552. Not open to students with credit for 460.08.			
<b>3153</b>	<b>Introduction to Visual Communication Design II</b>	<b>U</b>	<b>3</b>
Design and application of typographic systems in the production of visual communications within frameworks of theories of communication. Prereq: 3103, and enrollment in Design major; or permission of instructor. Concur: 3450 and 3550. Not open to students with credit for 460.02.			
<b>3200</b>	<b>Design Research I</b>	<b>U</b>	<b>3</b>
Introduction to techniques and methods of evaluative research. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3101, 3301, and 3400; or 3102, 3302, and 3400; or 3103, 3400, and 3503. Not open to students with credit for 555.			

<b>3301</b>	<b>Visualization Strategies for Industrial Design I</b>	<b>U</b>	<b>3</b>
Skill development in using freehand sketching for rapid concept generation, form development and communication in the context of Industrial Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3101, 3200, and 3400. Not open to students with credit for 501.			
<b>3305</b>	<b>Visualization as Thinking</b>	<b>U</b>	<b>3</b>
An overview of concepts, processes and modes of communicating with visual media to effectively generate design proposals.			
<b>3400.01</b>	<b>Design Media I for Industrial Design</b>	<b>U</b>	<b>3</b>
Introductory-level digital, three-dimensional modeling and visualization strategies for Industrial Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3101, 3200, and 3301; or 3102, 3200, and 3302; or 3103, 3200, and 3503. Not open to students with credit for 3400, 3400.02, or 3400.03.			
<b>3400.02</b>	<b>Design Media I for Interior Design</b>	<b>U</b>	<b>3</b>
Introductory-level digital, three-dimensional modeling and visualization strategies for Interior Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3101, 3200, and 3301; or 3102, 3200, and 3302; or 3103, 3200, and 3503. Not open to students with credit for 3400, 3400.01, or 3400.03.			
<b>3400.03</b>	<b>Design Media I for Visual Communication Design</b>	<b>U</b>	<b>3</b>
Introductory-level digital, user-interface and user-experience strategies for Visual Communication Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3101, 3200, and 3301; or 3102, 3200, and 3302; or 3103, 3200, and 3503. Not open to students with credit for 3400, 3400.01, or 3400.02.			
<b>3450.01</b>	<b>Design Media II for Industrial Design</b>	<b>U</b>	<b>3</b>
Intermediate-level digital, three-dimensional modeling and visualization strategies for Industrial Design. Prereq: 3400.01, and enrollment in Design major; or permission of instructor. Concur: 3151 and 3550.01; or 3152 and 3552; or 3153 and 3550.01. Not open to students with credit for 3450, 3450.02, or 3450.03.			
<b>3450.02</b>	<b>Design Media II for Interior Design</b>	<b>U</b>	<b>3</b>
Intermediate-level digital, three-dimensional modeling and visualization strategies for Interior Design. Prereq: 3400.02, and enrollment in Design major; or permission of instructor. Concur: 3151 and 3550.02; or 3152 and 3552; or 3153 and 3550.02. Not open to students with credit for 3450, 3450.01, or 3450.03.			
<b>3450.03</b>	<b>Design Media II for Visual Communication Design</b>	<b>U</b>	<b>3</b>
Intermediate-level digital, web-communications strategies for Visual Communication Design. Prereq: 3400.03, and enrollment in Design major; or permission of instructor. Concur: 3151 and 3550.03; or 3152 and 3552; or 3153 and 3550.03. Not open to students with credit for 3450, 3450.01, or 3450.02.			
<b>3503</b>	<b>Typographic Design</b>	<b>U</b>	<b>3</b>
Introduction to basic two- and three-dimensional practices in visual communication design; emphasis on typographic design and systematic method and research techniques. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3103, 3200, and 3400. Not open to students with credit for 258.			
<b>3505</b>	<b>Presentation as Thinking</b>	<b>U</b>	<b>3</b>
An overview of concepts, processes and modes of presenting information to create effective printed and digital communications.			
<b>3550.01</b>	<b>Materials, Process, and Production for Industrial Design</b>	<b>U</b>	<b>3</b>
An overview of current and emerging materials and manufacturing processes commonly applied in production for Industrial Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3151 and 3450.01; or 3153 and 3450.01. Not open to students with credit for 3550 (254), 3550.02, or 3550.03.			
<b>3550.02</b>	<b>Materials, Process, and Production for Interior Design</b>	<b>U</b>	<b>3</b>
An overview of current and emerging materials and manufacturing processes commonly applied in production for Interior Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3151 and 3450.02; or 3153 and 3450.02. Not open to students with credit for 3550 (254), 3550.01, or 3550.03.			
<b>3550.03</b>	<b>Materials, Process, and Production for Visual Communication Design</b>	<b>U</b>	<b>3</b>
An overview of current and emerging materials and manufacturing processes commonly applied in production for Visual Communication Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3151 and 3450.03; or 3153 and 3450.03. Not open to students with credit for 3550 (254), 3550.01, or 3550.02.			
<b>3552</b>	<b>Interior Design Technology I</b>	<b>U</b>	<b>3</b>
Principles of contract documentation, laws, ethics, codes, standards, guidelines and sustainable practices within the context of Interior Design. Prereq: Enrollment in Design major, or permission of instructor. Concur: 3152 and 3450. Not open to students with credit for 525.			

## 130 Design

<b>4101</b>	<b>Intermediate Industrial Design I</b>	<b>U</b>	<b>3</b>
Introduction to problem and opportunity identification in the context of product design. Experience with evaluative research methods and product design development process at the intermediate level. Prereq: 3151, and enrollment in Design major; or permission of instructor. Concur: 4200 and 4400. Not open to students with credit for 461.04.			
<b>4102</b>	<b>Intermediate Interior Design I</b>	<b>U</b>	<b>3</b>
Principles of space organization with FF&E (furniture, fixtures and equipment); the study of human-interior product interface relationships. Prereq: 3152, and enrollment in Design major; or permission of instructor. Concur: 4200, 4302, and 4502. Not open to students with credit for 461.08.			
<b>4103</b>	<b>Intermediate Visual Communication Design I</b>	<b>U</b>	<b>3</b>
Design and application of information systems in the production of visual communications within frameworks of theories of communication. Prereq: 3153, and enrollment in Design major; or permission of instructor. Concur: 4200 and 4400. Not open to students with credit for 461.02.			
<b>4104</b>	<b>Intermediate Game Design I</b>	<b>U</b>	<b>3</b>
Intermediate Game Design 1 introduces students to concepts for designing and prototyping digital games for entertainment, learning and social good. Students create, test, and play screen-based games developed in the course. Prereq: 3104.			
<b>4151</b>	<b>Intermediate Industrial Design II</b>	<b>U</b>	<b>3</b>
Introduction to problem and opportunity identification in the context of experience design. Experience with generative research methods and design development process at the intermediate level. Prereq: 4101, and enrollment in Design major; or permission of instructor. Concur: 4650 and 4750. Not open to students with credit for 462.04.			
<b>4152</b>	<b>Intermediate Interior Design II</b>	<b>U</b>	<b>3</b>
Principles of order, spatial sequence and connectivity; the study of medium size space organization and interior and exterior design correlations. Prereq: 4102, and enrollment in Design major; or permission of instructor. Concur: 4650 and 4750. Not open to students with credit for 462.08.			
<b>4153</b>	<b>Intermediate Visual Communication Design II</b>	<b>U</b>	<b>3</b>
Design and application of graphic form explorations that emphasize seeing, interpreting, manipulating, composing, and creating visual communication signs and messages. Prereq: 4103, and enrollment in Design major; or permission of instructor. Concur: 4650 and 4750. Not open to students with credit for 462.02.			
<b>4154</b>	<b>Intermediate Game Design II</b>	<b>U</b>	<b>3</b>
Intermediate Game Design 2 introduces students to concepts for designing and producing fun and serious games and apps that include networked multi-player formats and mobile devices. Students create, test, and play mobile games developed in the course. Prereq: 4104.			
<b>4200</b>	<b>Design Research II</b>	<b>U</b>	<b>3</b>
Introduction to tools techniques and methods and mindsets of generative research. Prereq: 3200, and enrollment in Design major; or permission of instructor. Concur: 4101 and 4400; or 4102, 4302, and 4502; or 4103 and 4400. Not open to students with credit for 554.			
<b>4400.01</b>	<b>Design Media III for Industrial Design</b>	<b>U</b>	<b>3</b>
Time-based media and storytelling strategies for Industrial Design. Prereq: 3450.01, and enrollment in Design major; or permission of instructor. Concur: 4101 and 4200; or 4103 and 4200. Not open to students with credit for 4400, 4400.02, or 4400.03.			
<b>4400.02</b>	<b>Design Media III for Interior Design</b>	<b>U</b>	<b>3</b>
Time-based media and storytelling strategies for Interior Design. Prereq: 3450.02, and enrollment in Design major; or permission of instructor. Concur: 4101 and 4200; or 4103 and 4200. Not open to students with credit for 4400, 4400.01, or 4400.03.			
<b>4400.03</b>	<b>Design Media III for Visual Communication Design</b>	<b>U</b>	<b>3</b>
Time-based media and storytelling strategies for Visual Communication Design. Prereq: 3450.03, and enrollment in Design major; or permission of instructor. Concur: 4101 and 4200; or 4103 and 4200. Not open to students with credit for 4400, 4400.01, or 4400.02.			
<b>4405</b>	<b>Design Media for Non-Majors</b>	<b>U</b>	<b>3</b>
The application of electronic media technologies to design content. Prereq: 3105, 3305, or 3505. Not open to students with credit for 320.			
<b>4502</b>	<b>Interior Design Technology II</b>	<b>U</b>	<b>3</b>
An overview of current and emerging materials, construction methods and manufacturing processes in Interior Design. Prereq: 3552, and enrollment in Design major; or permission of instructor. Concur: 4102, 4200, and 4302. Not open to students with credit for 525.			
<b>4505</b>	<b>3-D Visualization</b>	<b>U</b>	<b>3</b>
Concepts of 3D modeling, rendering and animation for visualizing design forms. Prereq: 3305. Not open to students with credit for 571.			

<b>4650</b>	<b>Collaborative Design</b>	<b>U</b>	<b>3</b>
Interdisciplinary knowledge and problems examined and discussed in the context of social responsibility (global and local). Prereq: Enrollment in Design major, or permission of instructor. Concur: 4151 and 4750; or 4152 and 4750; or 4153 and 4750. Not open to students with credit for 760.			
<b>4750</b>	<b>Professional Practices</b>	<b>U</b>	<b>3</b>
Investigation of the administrative and legal aspects of the design profession contrasting the private firm with corporate and free-lance practices. Prereq: Enrollment in Design major, or permission of instructor. Concur: 4151 and 4650; or 4152 and 4650; or 4153 and 4650. Not open to students with credit for 656.			
<b>4797</b>	<b>Study at a Foreign Institution</b>	<b>U</b>	<b>6</b>
A study abroad experience at a foreign institution approved by the Department of Design. Prereq: Enrollment in Design major, or permission of instructor. Not open to students with credit for 697.			
<b>4998</b>	<b>Undergraduate Scholarship: Research and Creative Activity in Design</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate research and creative activities in varying topics. Prereq: Enrollment in Design major, or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions.			
<b>4998H</b>	<b>Undergraduate Scholarship: Honors Research and Creative Activity in Design</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate Honors research and creative activities in varying topics. Prereq: Honors standing, and enrollment in Design major; or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions.			
<b>4999</b>	<b>Undergraduate Scholarship: Thesis Research and Creative Activity in Design</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate thesis research and creative activities in varying topics. Prereq: Enrollment in Design major, or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions. This course is graded S/U.			
<b>4999H</b>	<b>Undergraduate Scholarship: Honors Thesis Research and Creative Activity in Design</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate Honors thesis research and creative activities in varying topics. Prereq: Honors standing, and enrollment in Design major; or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions. This course is graded S/U.			
<b>5101</b>	<b>Advanced Industrial Design I</b>	<b>U G</b>	<b>3</b>
Application of problem and opportunity identification in the context of a specific client organization needs. Prereq: 4101, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5200 and 5301. Not open to students with credit for 660.04.			
<b>5102</b>	<b>Advanced Interior Design I</b>	<b>U G</b>	<b>3</b>
Principles of organizational strategy and interior identity development addressing the physical, social, and psychological context of work, leisure, and learning environments. Prereq: 4102, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5200 and 5502. Not open to students with credit for 460.08.			
<b>5103</b>	<b>Advanced Visual Communication Design I</b>	<b>U G</b>	<b>3</b>
Application of planning, analyzing, and designing in two- or three-dimensional visual communication systems; emphasis on application of design research, strategic thinking, creative concepts, and graphic implementation. Prereq: 4103, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5200 and 5800. Not open to students with credit for 660.02.			
<b>5151</b>	<b>Advanced Industrial Design II</b>	<b>U G</b>	<b>3</b>
A competency with tools, technologies, skills and materials in the exploration, creation, and production of products, artifacts, environments, systems, communication solutions and services. Prereq: 5101, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5800. Not open to students with credit for 661.04.			
<b>5152</b>	<b>Advanced Interior Design II</b>	<b>U G</b>	<b>3</b>
Student develops project that applies principles of organizational strategy and interior identity development addressing the physical, social, and psychological context of work, leisure, and learning environments. Prereq: 5102, or Grad standing or enrollment in Design major, or permission of instructor. Concur: 5552. Not open to students with credit for 661.08.			
<b>5153</b>	<b>Advanced Visual Communication Design II</b>	<b>U G</b>	<b>3</b>
Apply design research, problem definitions, concept development, and implementation approaches in creating comprehensive projects that are relevant to proposed subject, design objectives, and targeted audiences. Prereq: 5103, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5453. Not open to students with credit for 661.02.			
<b>5191</b>	<b>Internship</b>	<b>U G</b>	<b>1½ - 9</b>
Field application of design in a capacity requiring a close working relationship within a professional environment. Prereq: Grad standing, or enrollment in Design major; or permission of instructor. Repeatable to a maximum of 27 cr hrs or 3 completions.			

<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>3 - 9</b>
Advanced study for students in specialized programs. Prereq: Enrollment in Design major, or permission of instructor. Not open to students with credit for 693. Repeatable to a maximum of 27 cr hrs or 3 completions.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>3 - 9</b>
Group studies for students in specialized programs. Prereq: Grad standing, or enrollment in Design major, or permission of instructor. Not open to students with credit for 694. Repeatable to a maximum of 27 cr hrs or 3 completions.			
<b>5200.01</b>	<b>Design Research III for Industrial Design</b>	<b>U G</b>	<b>3</b>
Addresses design opportunities, including the skills of problem identification, formulation, qualitative and quantitative research, analysis, synthesis, and project proposals for Industrial Design. Prereq: 4200, and Design major; or Grad standing; or permission of instructor. Concur: 5101 and 5301; or 5102 and 5502; or 5103 and 5800.01. Not open to students with credit for 5200, 5200.02, 5200.03, 662.02, 662.04, or 662.08.			
<b>5200.02</b>	<b>Design Research III for Interior Design</b>	<b>U G</b>	<b>3</b>
Addresses design opportunities, including the skills of problem identification, formulation, qualitative and quantitative research, analysis, synthesis, and project proposals for Interior Design. Prereq: 4200, and Design major; or Grad standing; or permission of instructor. Concur: 5101 and 5301; or 5102 and 5502; or 5103 and 5800.02. Not open to students with credit for 5200, 5200.01, 5200.03, 662.02, 662.04, or 662.08.			
<b>5200.03</b>	<b>Design Research III for Visual Communication Design</b>	<b>U G</b>	<b>3</b>
Addresses design opportunities, including the skills of problem identification, formulation, qualitative and quantitative research, analysis, synthesis, and project proposals for Visual Communication Design. Prereq: 4200, and Design major; or Grad standing; or permission of instructor. Concur: 5101 and 5301; or 5102 and 5502; or 5103 and 5800.03. Not open to students with credit for 5200, 5200.01, 5200.02, 662.02, 662.04, or 662.08.			
<b>5301</b>	<b>Visualization Strategies for Industrial Design II</b>	<b>U G</b>	<b>3</b>
Design and application of information systems in the production of visual communications within frameworks of Design Research and Industrial Design. Prereq: 3301, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5102 and 5200. Not open to students with credit for 552.			
<b>5453</b>	<b>Design Media IV for Visual Communication Design</b>	<b>U G</b>	<b>3</b>
Advanced-level digital, user-interface and user-experience strategies for Visual Communication Design. Prereq: 4400, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5153.			
<b>5502</b>	<b>Interior Design Technology III</b>	<b>U G</b>	<b>3</b>
Principles of environmental control within the context of Interior Design. Prereq: 5101, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5800. Not open to students with credit for 524.			
<b>5505</b>	<b>Information Design</b>	<b>U G</b>	<b>3</b>
Design principles related to visualizing quantitative information, processes and systems. Prereq: Not open to students with credit for 340.			
<b>5552</b>	<b>Interior Design Technology IV</b>	<b>U G</b>	<b>3</b>
Principles of material specifications, liability, contracts and bidding documentation within the context of Interior Design. Prereq: 5502, or Grad standing, or enrollment in Design major, or permission of instructor. Concur: 5152. Not open to students with credit for 523.			
<b>5600S</b>	<b>Design Matters</b>	<b>U G</b>	<b>3</b>
Students in this interdisciplinary design/build studio have the opportunity to work on site in a collaborative design environment with a local non-profit organization. Prereq: Enrollment in Design major, or permission of instructor. Not open to students with credit for 553S.			
<b>5650</b>	<b>Advanced Collaborative Design</b>	<b>U G</b>	<b>3</b>
Interdisciplinary knowledge and problems examined and discussed in the context of social responsibility (global and local). Prereq: Enrollment in Design major, or permission of instructor. Concur: 5301; or 5552 and 4750; or 5453.			
<b>5750</b>	<b>Advanced Design History: Interiors, Contents, Communication, and Culture</b>	<b>U G</b>	<b>3</b>
Advanced study of the history of the designed environment, product, and communication systems.			
<b>5798</b>	<b>Study Tour</b>	<b>U G</b>	<b>3 - 9</b>
Specific content, location, term(s) of offering, and prerequisites vary; contact department office for details. Prereq: Grad standing, Design majors only, or permission of instructor. Not open to students with credit for 698.01 or 698.02. Repeatable to a maximum of 9 cr hrs or 2 completions.			

<b>5800.01</b>	<b>Design Seminar for Industrial Design</b>	<b>U G</b>	<b>3</b>
Investigation of issues and inquiry into topics of relevance to design; group discussions and analysis of events, processes, manifestations and procedures in Industrial Design. Prereq: Grad standing, or enrollment in Design major; or permission of instructor. Concur: 5151, or 5103 and 5200.01. Not open to students with credit for 5800 (780), 5800.02, or 5800.03.			
<b>5800.02</b>	<b>Design Seminar for Interior Design</b>	<b>U G</b>	<b>3</b>
Investigation of issues and inquiry into topics of relevance to design; group discussions and analysis of events, processes, manifestations and procedures in Interior Design. Prereq: Grad standing, or enrollment in Design major; or permission of instructor. Concur: 5151, or 5103 and 5200.02. Not open to students with credit for 5800 (780), 5800.01, or 5800.03.			
<b>5800.03</b>	<b>Design Seminar for Visual Communication Design</b>	<b>U G</b>	<b>3</b>
Investigation of issues and inquiry into topics of relevance to design; group discussions and analysis of events, processes, manifestations and procedures in Visual Communication Design. Prereq: Grad standing, or enrollment in Design major; or permission of instructor. Concur: 5151, or 5103 and 5200.03. Not open to students with credit for 5800 (780), 5800.01, or 5800.02.			
<b>6100</b>	<b>Methods and Tools for Conducting Design Research</b>	<b>G</b>	<b>3</b>
Hands-on learning experiences in using and analyzing design research methods, tools and techniques, user-centered design research (applied ethnography, contextual inquiry, evaluative research, usability) and generative design research. Prereq: Grad standing in Design, or permission of instructor. Not open to students with credit for 786. Repeatable to a maximum of 6 cr hrs.			
<b>6200</b>	<b>Foundation for Graduate Design Studies</b>	<b>G</b>	<b>3</b>
Expectations, orientation, and available resources in the department and university. Historical and contextual groundwork of the discipline of design through the study of a broad range of contemporary and emerging research approaches. Prereq: Design grad students only, or permission of instructor. Not open to students with credit for 785. Repeatable to a maximum of 6 cr hrs.			
<b>6300</b>	<b>Exploration in Graduate Design Studies</b>	<b>G</b>	<b>3</b>
Exploration and discovery in future-oriented domains of design practice and research. Students will practice the tools for exploration including reading, writing, making, planning, and reflection in order to establish their own research path. Prereq: Design grad students only, or permission of instructor. Not open to students with credit for 787. Repeatable to a maximum of 6 cr hrs.			
<b>6400</b>	<b>Graduate Design Studio</b>	<b>G</b>	<b>3</b>
Hands-on learning experiences in the studio or field. Collaborative teams work to explore, identify and/or solve problems. Topics vary depending on the opportunity for sponsored projects, emerging trends in practice and expertise of instructor. Prereq: Grad standing in Design, or permission of instructor. Not open to students with credit for 760. Repeatable to a maximum of 18 cr hrs.			
<b>6500</b>	<b>Graduate Design Seminar</b>	<b>G</b>	<b>3</b>
Reading, thinking, discussing, reflecting, and writing are used to explore topics of relevance. Topics vary depending on emerging trends in design practice and in the world as well as the expertise and research interest of the instructor. Prereq: Grad standing in Design, or permission of instructor. Not open to students with credit for 780. Repeatable to a maximum of 18 cr hrs.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>½ - 6</b>
Individual studies. Prereq: Grad standing in Design, or permission of instructor. Not open to students with credit for 993. Repeatable to a maximum of 18 cr hrs or 6 completions.			
<b>7194</b>	<b>Group Studies</b>	<b>G</b>	<b>3</b>
Group studies for students in specialized programs. Prereq: Design grad students only, or permission of instructor. Not open to students with credit for 894. Repeatable to a maximum of 6 cr hrs.			
<b>7998</b>	<b>Thesis Project Development</b>	<b>G</b>	<b>½ - 6</b>
Development of project outcomes as part of Thesis research. Prereq: Grad standing in Design, or permission of instructor. Not open to students with credit for 950. Repeatable to a maximum of 18 cr hrs or 6 completions.			
<b>7999</b>	<b>Thesis Writing Development</b>	<b>G</b>	<b>½ - 6</b>
Development of writing outcomes as part of Thesis research. Prereq: Grad standing in Design, or permission of instructor. Not open to students with credit for 998. Repeatable to a maximum of 18 cr hrs or 6 completions.			

## Disability Studies

<b>4998</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate research in variable topics related to Disability Studies. Student-initiated projects. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

## 132 Disability Studies

<b>4998H</b>	<b>Undergraduate Honors Research</b>	<b>U</b>	<b>1 - 4</b>
Undergraduate honors research in variable topics related to Disability Studies. Student-initiated projects. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Research: Thesis</b>	<b>U</b>	<b>1 - 4</b>
A program of reading, research, writing, and/or creative work arranged for each student, with individual conferences, progress reports, and thesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 4</b>
A program of reading, research, writing, and/or creative work arranged for each student, with individual conferences, progress reports, and honors thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>5191</b>	<b>Disability Studies Internship</b>	<b>U G</b>	<b>1 - 3</b>
Offers undergraduate and graduate students the opportunity to work with disability-related organizations on or off campus. Prereq: English 2277 or SphHrng 4510, and permission of instructor who will supervise the internship. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 3</b>
Students may register for individual directed study under this number for work not typically offered in courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Students may register for group-directed study under this number for work not normally offered in courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>6700</b>	<b>Introduction to Graduate Study in Disability Studies</b>	<b>G</b>	<b>3</b>
Introduction to Disability Studies as an interdisciplinary academic field of study; outlines major scholarly perspectives, methodologies, and professional issues in the study of disability. Prereq: Not open to students with credit for ArtsSci 6700 (700).			

## Diversity and Identity Studies

<b>5700</b>	<b>Diversity and Identity Studies Workshop</b>	<b>U G</b>	<b>1 - 3</b>
Students study topics about diversity (race, class, gender, disability, sexuality, etc) in a seminar-like setting, often focused on the work of visiting scholars. Prereq: Jr or Sr standing, Grad standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

## Earth Science

<b>1100</b>	<b>Planet Earth: How It Works</b>	<b>U</b>	<b>4</b>
The materials of the Earth's crust, the processes that produce and modify them, the development of the Earth and its life forms through time, and responsible stewardship of the earth's resources. Not intended for ASC B.S. students. Prereq: Not open to students with credit for 1121. This course is available for EM credit. GE nat sci phys course.			
<b>1105</b>	<b>Geology of the National Parks</b>	<b>U</b>	<b>3</b>
Geologic processes, materials, and history revealed in geologic settings of the National Parks. Not intended for ASC BS students. Prereq: Not open to students with credit for 1100. GE nat sci phys course.			
<b>1107</b>	<b>Field-Based Introduction to Oceanography</b>	<b>U</b>	<b>2</b>
Origin, development, and structure of ocean basins and their contents; contemporary oceanic processes of geologic significance. Offered full-time for 1 week at Stone Lab. Prereq: Permission of instructor. Not open to students with credit for EarthSci 107, 206, GeolSci 107, or 206.			
<b>1108</b>	<b>Gemstones</b>	<b>U</b>	<b>3</b>
General introduction to gemstones, including the origin of gems, identification techniques, and the history of important gems. Precious metals are also discussed. Not intended for ASC BS students. GE nat sci phys course.			
<b>1110</b>	<b>History of Life on Earth-Global Change in the Biosphere</b>	<b>U</b>	<b>3</b>
3.5 billion years of biosphere global change; introduction to major evolutionary and extinction events; processes responsible for change; biosphere, atmosphere, and lithosphere interrelationships. Prereq: Not open to students with credit for EarthSci 110 or GeolSci 110. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			

<b>1110H</b>	<b>Honors History of Life on Earth-Global Change in the Biosphere</b>	<b>U</b>	<b>3</b>
3.5 billion years of biosphere global change; introduction to major evolutionary and extinction events; processes responsible for change; and biosphere, atmosphere, and lithosphere interrelationships. Prereq: Honors standing, or permission of instructor. Not open to students with credit for EarthSci 110, 110H, GeolSci 110, or 110H. GE nat sci phys course. NS Admis Cond course.			
<b>1121</b>	<b>The Dynamic Earth</b>	<b>U</b>	<b>3</b>
This course introduces students to earth sciences. Topics include earth processes and human impacts; the structure and composition of the earth, plate tectonics, rock & water cycles, energy & mineral resources, and climate change. Before Autumn 2021: GE Physical Science with Lab. Autumn 2021 and after: GE Physical Science without Lab. Add EarthSc 1200 for lab credit. Prereq: Math 1075 or above, or ACT Mathematics Subscore of 22 or higher, or Math Placement Level R or better. Not open to students with credit for 1100. This course is available for EM credit. GE nat sci phys course.			
<b>1121H</b>	<b>Honors The Dynamic Earth</b>	<b>U</b>	<b>4</b>
Minerals, rocks, and their origin; land forms and how they are produced; structural features of the Earth's crust. Prereq: Honors standing, and Math 1075 (104) or above, ACT Mathematics Subscore of 22 or higher, or Math Placement Level R or better; or permission of instructor. Not open to students with credit for EarthSci 1121 (121), 121H, GeolSci 121, or 121H. GE nat sci phys course. NS Admis Cond course.			
<b>1151</b>	<b>Natural Hazards</b>	<b>U</b>	<b>3</b>
Occurrence and causes of earthquakes, volcanoes, and related hazards, and impact on climate, society, and history. Prereq: Not open to students with credit for EarthSci 151 or GeolSci 151. GE nat sci phys course.			
<b>1200</b>	<b>Introduction to Earth Science Laboratory</b>	<b>U</b>	<b>1</b>
Laboratory application of basic earth sciences principles to the identification and categorization of rocks and minerals, use and construction of maps to solve geological problems, and analysis of Earth's physical processes. Earth Science 1200 can be taken to fully satisfy the physical science GE requirement with lab when paired with ES 1105, 1108, 1121, 1151, 2203, 2204, 2205, or 2206(S). Prereq or concur: 1105, 1108, 1121, 1151, 2203, 2204, 2205, 2206, or 2206S. Not open to students with credit for 1100 or 2122. Not open to students with credit for EarthSc 1121 prior to Au 21. GE nat sci phys course.			
<b>1911</b>	<b>Climate Change: Mechanisms, Impacts, and Mitigation</b>	<b>U</b>	<b>4</b>
Examination of the basic science of climate change, of the ability to make accurate predictions of future climate, and of the implications for global sustainability by combining perspectives from the physical sciences, the biological sciences, and historical study. Team-taught with faculty members in EEOB and History. Prereq: Not open to students with credit for History 1911 or EEOB 1911. GE historical study and nat sci bio and nat sci phys course. Cross-listed in EEOB and History.			
<b>2000</b>	<b>Preparation for Thesis and Careers in the Earth Sciences</b>	<b>U</b>	<b>1</b>
In this course, students will be 1) exposed to the wide diversity of research in Earth Sciences and potential careers in the Earth Sciences and 2) prepared for the senior thesis, which is a requirement for Earth Sciences BS majors.			
<b>2122</b>	<b>Climate and Life Over Billions of Years on Earth</b>	<b>U</b>	<b>4</b>
Origin and evolution of Earth, including its physical, chemical and biological components; principles of geologic inference and their application to interpreting Earth. Prereq: Not open to students with credit for 1122. GE nat sci phys course.			
<b>2122H</b>	<b>Honors Climate and Life Over Billions of Years on Earth</b>	<b>U</b>	<b>4</b>
Origin and evolution of Earth, including its physical, chemical, and biological components; principles of geologic inference and their application to interpreting Earth. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 1122 or 1122H. GE nat sci phys course.			
<b>2155</b>	<b>Energy and Environment</b>	<b>U</b>	<b>3</b>
Introduces and examines the fundamentals of energy sources, energy use, energy efficiency, and resulting environmental implications of the various energy supplies. Prereq: Not open to students with credit for EarthSci 155 or ENR 2155 (155). GE nat sci phys course. Cross-listed in ENR.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group studies in various fields of the earth sciences. Prereq: Permission of instructor. Not open to students with 10 cr hrs of EarthSci 294 or GeolSci 294. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>2203</b>	<b>Environmental Geoscience</b>	<b>U</b>	<b>3</b>
Concepts and challenges of geological hazards and resources, environmental pollution, and health; regional and long-range planning; and global change and sustainability. Prereq: Not open to students with credit for EarthSci 203 or GeolSci 203. GE nat sci phys course. NS Admis Cond course.			
<b>2204</b>	<b>Exploring Water Issues</b>	<b>U</b>	<b>3</b>
Water on Earth, human impacts, and scientific and technological issues related to water resource development and conservation. GE nat sci phys course.			

<b>2205</b>	<b>The Planets</b>	<b>U</b>	<b>3</b>
Survey of the solar system's planets and moons with focus on surface environments, dynamics, and the ability to host life. GE nat sci phys course.			
<b>2206</b>	<b>Principles of Oceanography</b>	<b>U</b>	<b>3</b>
Introduction to the four basic disciplines of oceanography: geological, chemical, physical, and biological. Relevance of oceanography in contemporary issues. Prereq: Not open to students with credit for EarthSci 206 or GeolSci 206. GE nat sci phys course.			
<b>2206S</b>	<b>Principles of Oceanography (Service-Learning)</b>	<b>U</b>	<b>3</b>
Introduction to the four basic disciplines of oceanography: geological, chemical, physical, and biological. Relevance of oceanography in contemporary issues. Prereq: Not open to students with credit for 2206. GE nat sci phys course.			
<b>2210</b>	<b>Energy, Mineral Resources, and Society</b>	<b>U</b>	<b>3</b>
Geologic origin, world distribution, and uses of mineral resources critical to society; topics include mineral and fossil fuels, metallic ores, and industrial minerals. Prereq: Not open to students with credit for EarthSci 210 or GeolSci 210. GE nat sci phys course. NS Admis Cond course.			
<b>2245</b>	<b>Introductory Data Analysis for Earth and Environmental Sciences</b>	<b>U</b>	<b>4</b>
Data analysis using cooperative learning environment; topics include data visualization, error analysis, error propagation, probability distributions, hypothesis testing, ANOVA, linear regression, and spatial statistics. Prereq: Math 1151 or above, or concur: Math 1141, or permission of instructor. GE data only course.			
<b>2998</b>	<b>Undergraduate Research in Earth Sciences</b>	<b>U</b>	<b>1 - 10</b>
Undergraduate research or creative activities in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>2998H</b>	<b>Honors Undergrad Research in Earth Sciences</b>	<b>U</b>	<b>1 - 10</b>
Honors undergraduate research or creative activities in variable topics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 credit hours or 15 completions. This course is graded S/U.			
<b>3193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Special problems in any branch of the earth sciences for which the student has the proper qualifications. Prereq: Permission of instructor. Not open to students with 6 cr hrs of EarthSc 3193 (EarthSci 293) or GeolSci 293. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>3411</b>	<b>Water Security for the 21st Century</b>	<b>U</b>	<b>3</b>
Examine the major issues that are contributing to the decline in quantity and quality of global freshwater resources and the resultant environmental and societal impacts. Prereq: EarthSc 2245 (EarthSci 245) or other GEC or GE data only course, and Soph standing and above. Not open to students with credit for EarthSci 411 or GeolSci 411.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study of special topics in various fields of the earth sciences. Prereq: Permission of instructor. Not open to students with 10 cr hrs for EarthSc 4194 (EarthSci 294) or GeolSci 294. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>4194H</b>	<b>Honors Group Studies</b>	<b>U</b>	<b>1 - 4</b>
Group study of special topics in various fields of the earth sciences. Prereq: Honors standing, and permission of instructor. Not open to students with 10 cr hrs for EarthSc 4194 (EarthSci 294) or GeolSci 294. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>4421</b>	<b>Earth Materials</b>	<b>U</b>	<b>3</b>
Internal and external symmetry of minerals; relationship of physical properties to crystal structure; introduction to modern and traditional identification methods; sight identification of about 30 minerals. Prereq or concur: Chem 1210. Not open to students with credit for EarthSci 421, GeolSci 221, or GeolSci 421.			
<b>4423</b>	<b>Introductory Petrology</b>	<b>U</b>	<b>3</b>
Origin, occurrence, association, and mineral composition of the common rocks; laboratory includes work by megascopic and microscopic methods. Prereq: 1100, 1121, or 1200; and prereq or concur: 4421.			
<b>4450</b>	<b>Water, Ice, and Energy in the Earth System</b>	<b>U</b>	<b>3</b>
Earth's energy budget and the transfer of water between reservoirs. Processes that regulate water transfer, common measurement approaches, and the importance of water in geological processes, global change, and as a resource. Prereq: 1100, 1105, 1108, 1121, 1151, 2203, 2204, 2205, Geog 3901, or 5900; and Chem 1210 or Physics 1250; or permission of instructor.			
<b>4501</b>	<b>Paleontology</b>	<b>U</b>	<b>4</b>
Fundamentals of paleontology and processes responsible for the fossil record. Application of paleontology to geology, evolutionary studies, paleoclimatology, paleoenvironmental reconstruction. Prereq: 1122 or 2122, and 3 cr hrs in Biological Sciences.			

<b>4502</b>	<b>Stratigraphy and Sedimentation</b>	<b>U</b>	<b>4</b>
Principles of, and procedures in, stratigraphy and sedimentation, illustrated by field and laboratory studies of sedimentary rocks. Prereq: 1100, 1121, or 1200; and 1122 or 2122.			
<b>4530</b>	<b>Structural Geology</b>	<b>U</b>	<b>4</b>
An introduction to the principles of rock deformation, the classification and physical origin of rock structures, and crustal tectonic processes. Prereq: 1100 or 1121 or 1200, and Physics 1250.			
<b>4560</b>	<b>Applied Geophysics</b>	<b>U</b>	<b>3</b>
Methods and techniques of pure and applied geophysics; geological interpretation of geophysical data. Prereq: 1100, 1105, 1108, 1121, 1151, 2203, or 2205; and Math 1141 or 1151 or above; and Physics 1250 or above.			
<b>4798</b>	<b>Environmental Sustainability in Costa Rica (Study Tour)</b>	<b>U</b>	<b>3</b>
Traditional lectures and a study tour explore the complex relationship between the use and conservation of natural resources and economic development in Costa Rica, especially the role of protected areas in ensuring the country's environmental sustainability. Within the Earth Sciences B.S. degree, this course can only be used in the Earth System Science subprogram to meet the requirements for credits taken outside Earth Sciences. This course cannot be used to meet any other requirements within the Earth Sciences B.S. Prereq: One college-level geology, ecology, biology, or environmental sciences course; and one college-level Spanish course (or excellent achievement in at least three years in high school Spanish); and permission of instructor.			
<b>4998</b>	<b>Undergraduate Research in Earth Sciences</b>	<b>U</b>	<b>1 - 10</b>
Undergraduate research or creative activities in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions for the combination of EarthSc 4998 (EarthSci 699) and GeolSci 699. This course is graded S/U.			
<b>4998H</b>	<b>Honors Research</b>	<b>U</b>	<b>1 - 10</b>
Honors undergraduate research or creative activities in variable topics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4999.01</b>	<b>Undergraduate Research for Thesis in Earth Sciences</b>	<b>U</b>	<b>1</b>
Undergraduate research or creative activities in variable topics leading to completion of a B.S. thesis. To be taken during semester when thesis is turned in. Prereq: Sr standing, or permission of instructor. Not open to students with credit for 570.			
<b>4999.01H</b>	<b>Honors Undergraduate Research for Thesis in Earth Sciences</b>	<b>U</b>	<b>1</b>
A program of individual study arranged for students enrolled in the Honors Program with individual conferences and reports; requires presentation and oral defense of an honors thesis. Prereq: Honors standing, and permission of instructor.			
<b>4999.02</b>	<b>Undergraduate Research for Thesis in Earth Sciences</b>	<b>U</b>	<b>1 - 3</b>
Undergraduate research or creative activities in variable topics leading to completion of a B.S. thesis. Prereq: Sr standing, or permission of instructor. Not open to students with credit for EarthSci 570. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>4999.02H</b>	<b>Honors Undergraduate Research for Thesis in Earth Sciences</b>	<b>U</b>	<b>1 - 3</b>
A program of individual study arranged for students enrolled in the Honors Program with individual conferences and reports; requires presentation and oral defense of an honors thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5160</b>	<b>Geomicrobiology</b>	<b>U G</b>	<b>3</b>
The role of microorganisms in shaping our environment through mineralogical and geochemical processes at both local and global scales, in the present day and over geologic time periods. Prereq: Sr or Grad student in School of Earth Sciences, Department of Microbiology, Department of Civil, Environmental, and Geodetic Engineering, or School of Environment and Natural Resources. Not open to students with credit for Microbio 5160. Cross-listed in Microbio.			
<b>5189.01</b>	<b>Field Geology I</b>	<b>U G</b>	<b>3</b>
Concentrated training in the basic essentials of field observation and mapping; the work is done in central Utah, with headquarters in Ephraim. Requires full time of student. Prereq: 1100, 1121, or 1200; and 4530 or 6530; and permission of instructor.			
<b>5189.02</b>	<b>Field Geology II</b>	<b>U G</b>	<b>3</b>
Concentrated training in the basic essentials of field observation and mapping; the work is done in central Utah, with headquarters in Ephraim. Continuation of 5189.01. Requires full time of student. Prereq or concur: 4421, 4423, and 5189.01.			
<b>5189.05</b>	<b>Field Geology for Educators: Lake Erie</b>	<b>U G</b>	<b>2</b>
Application of geological principles and interpretation of Earth features in selected areas, with related research reports and teaching units. 7-day field trip. Prereq: EarthSc 1100 (EarthSci 100), GeolSci 100 or equiv; and permission of instructor. Not open to students with credit for EarthSci 583.03 or GeolSci 583.03. May not be used to satisfy BS, MS, or PhD degree requirements in EarthSc.			

## 134 Earth Science

### 5189.06 Field Geology for Educators: Unspecified U G 1 - 4

Application of geological principles and interpretation of Earth features in selected areas, with related research reports and teaching units. Field trip and cl. Intended primarily for in-service and pre-service teachers and education majors.

Prereq: EarthSc 1100 (EarthSci100), GeolSci 100 or equiv; and permission of instructor. Not open to students with credit for EarthSci 583.04 or GeolSci 583.04. May not be used to satisfy BS, MS, or PhD degree requirements in EarthSc. Repeatable to a maximum of 8 cr hrs or 3 completions.

### 5191 Internship in the Earth Sciences U G 1 - 5

Combines experience in earth science policy or practice in a governmental agency, private industry, or nonprofit organization with analysis of that experience.

Prereq: Jr standing or above; and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

### 5191.01 Internship in the Earth Sciences, Natural History Museum U G 3

Formal, independent study and practical training in a natural history museum. Students become acquainted with the research, teaching, and outreach activities of a museum, and enhance their knowledge of resources, research methodologies, curatorial procedures, exhibit development, institutional culture, and work environment.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.

### 5193.02 Individual Studies in Engineering Geology U G 1 - 3

Special problems in any branch of engineering geology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.03 Individual Studies in Earth and Planetary Sciences U G 1 - 3

Special problems in any branch of the earth and planetary sciences for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.04 Individual Studies in Field Geology U G 1 - 3

Special problems in any branch of field geology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.05 Individual Studies in Geochemistry U G 1 - 3

Special problems in any branch of geochemistry for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.06 Individual Studies in Geomorphology U G 1 - 3

Special problems in any branch of geomorphology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.07 Individual Studies in Geophysics U G 1 - 3

Special problems in any branch of geophysics for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.08 Individual Studies in Glaciology U G 1 - 3

Special problems in any branch of glaciology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions for the combination of EarthSc 5193 (EarthSci 693) and GeolSci 693. This course is graded S/U.

### 5193.09 Individual Studies in History of the Earth Sciences U G 1 - 3

Special problems in any branch of the history of the earth sciences for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions for the combination of EarthSc 5193 (EarthSci 693) and GeolSci 693. This course is graded S/U.

### 5193.10 Individual Studies in Hydrogeology U G 1 - 3

Special problems in any branch of hydrogeology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions for the combination of EarthSc 5193 (EarthSci 693) and GeolSci 693. This course is graded S/U.

### 5193.11 Individual Studies in Marine Geology, Limnology, and Oceanography U G 1 - 3

Special problems in any branch of marine geology, limnology, or oceanography for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions for the combination of EarthSc 5193 (EarthSci 693) and GeolSci 693. This course is graded S/U.

### 5193.12 Individual Studies in Paleobiology U G 1 - 3

Special problems in any branch of paleobiology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.13 Individual Studies in Petrology and Petrography U G 1 - 3

Special problems in any branch of petrology and petrography for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.14 Individual Studies in Remote Sensing and Geographic Information Systems U G 1 - 3

Special problems in any branch of remote sensing and GIS for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.15 Individual Studies in Sedimentation U G 1 - 3

Special problems in any branch of sedimentology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.16 Individual Studies in Stratigraphy U G 1 - 3

Special problems in any branch of stratigraphy for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.17 Individual Studies in Structural Geology U G 1 - 3

Special problems in any branch of structural geology for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.18 Individual Studies in Earth Science Education U G 1 - 3

Special problems in any branch of earth science education for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.19 Individual Studies Unspecified U G 1 - 3

Special problems in any branch of the earth sciences for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.20 Individual Studies in Global Change and Sustainability U G 1 - 3

Special problems in any topic in global change and sustainability for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.21 Individual Studies in Neotectonics U G 1 - 3

Special problems in any branch of neotectonics for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.22 Individual Studies in Mineralogy U G 1 - 3

Special problems in any branch of mineralogy for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5193.23 Individual Studies in Mineral Physics U G 1 - 3

Special problems in any branch of mineral physics for which the student has the proper qualifications.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions with 5193 (693) and GeolSci 693. This course is graded S/U.

### 5194 Group Studies U G 1 - 4

Group study of special topics in various fields of the earth sciences.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 15 completions for the combination of 5194 (694) and GeolSci 694.

### 5203 Geo-environment and Human Health U G 3

Examine geo-environmental processes that are contributing to human health degradation and the resultant societal impacts.

Prereq: EarthSc 2245 (EarthSci 245), or GE data only course, or equiv; and Soph standing or above; or permission of instructor.

**5205 Planetary Science U G 3**

A multidisciplinary approach to planetary science, integrating modern methods with the Earth and Astrophysical Sciences. Team-taught with faculty in Astronomy.  
Prereq: Math 1152 and a GE Data Analysis course, or permission of instructor. Not open to students with credit for Astron 5205. Cross-listed in Astron.

**5206 Advanced Oceanography U G 3**

Advanced study of geological, chemical, physical, and biological oceanography; their interactions; and their interactions with relevant current issues such as global change modeling, fisheries management, and energy exploration.  
Prereq: Jr standing or above, and enrollment in any STEM major; or Grad standing; or permission of instructor.

**5268 Soils and Climate Change U G 3**

Soil processes, abrupt climate change, trace gases and their properties, global C cycle, gaseous emissions, C-neutral fuels, carbon sequestration, Kyoto Treaty, trading of C credits.  
Prereq: Not open to students with credit for ENR 5268. Cross-listed in ENR.

**5310 Remote Sensing in the Earth Sciences U G 3**

The overall learning of geodetic (active) and passive remote sensing technologies and in-depth data analytics of their processing to apply to research in Earth sciences and engineering. This course is focused on students learning the theory and data processing methods to enable the use of contemporary satellite or airborne platform-equipped observations for science and engineering applications.  
Prereq: 1100, 1105, 1108, 1121, 1151, 2203, or 2205; and Math 1141 or 1151 or above; and Physics 1250 or above; or Grad standing; or permission of instructor.

**5501 Natural History Museum Data Curation U G 3**

An introduction to modern curatorial practice in a museum, with a particular emphasis on natural history collections. Use of public data repository including data acquisition and curation. Process physical specimens and other research materials, and make data available and searchable using electronic means.  
Prereq: Permission of instructor.

**5550 Geomorphology U G 4**

Investigation of the mechanics and chemistry of landscape development; interpretation of materials, processes, types, and evolution of landforms produced under diverse climates.  
Prereq: 1100 or 1121 or 1200, and 1122 or 2122; or permission of instructor.

**5580 Standards-Based Earth Science for Educators U G 1 - 5**

Examination of selected essential earth science topics through appropriate field, laboratory, and classroom activities.  
Prereq: 10 hrs in physical or biological sciences with 3 cr hrs of introductory geological sciences recommended; or permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. May not be used to satisfy BA, BS, MS, or PhD degree requirements in EarthSc.

**5602.02 Carbonate Depositional Systems II U G 2**

The field study of carbonates in a modern setting such as the Bahamas or southern Florida. 7-day field trip preceding or following the semester.  
Prereq: 5602.01 (602.01), or GeolSci 602.01; and permission of instructor. Not open to students with credit for 602.02 or GeolSci 602.02.

**5618 Advanced Historical Geology U G 2**

Principles of historical-geological analysis and interpretation of Earth's physical, chemical, and biological history.  
Prereq: EarthSc 4502 or 6502 (EarthSci 502), or GeolSci 502 or equivalent. Repeatable to a maximum of 12 cr hrs with 5618 (618) and GeolSci 618.

**5621 Introduction to Geochemistry U G 3**

Introduction to the chemistry of the solid Earth and hydrosphere describing the processes controlling the distribution of elements.  
Prereq: Chem 1220 or above; Sr standing in EarthSc (EarthSci) or related field; or permission of instructor. Not open to students with credit for 621 or GeolSci 621.

**5622 Stable Isotope Biogeochemistry U G 3**

Focus on theoretical and applied aspects of stable isotope biogeochemistry in the natural environment with emphasis on carbon, oxygen and nitrogen.  
Prereq: Sr or Grad standing in any science program; or permission of instructor. Not open to students with credit for EarthSci 622 or GeolSci 622.

**5627 Global Biogeochemical Cycles U G 3**

Examination of processes influencing the cycling of major elements in the environment: anthropogenic alteration of these cycles (e.g. nutrient addition, acid rain, greenhouse gases).  
Prereq: EarthSc 5621 (EarthSci 621) or GeolSci 621, or permission of instructor. Not open to students with credit for EarthSci 627 or GeolSci 627.

**5628 Environmental Isotope Geochemistry U G 3**

Use of natural and anthropogenic radioactivity and of natural variations in the isotope compositions of selected elements to study geochemical processes on the Earth's surface.  
Prereq: EarthSc 5621 (EarthSci 621) or GeolSci 621; or permission of instructor. Not open to students with credit for EarthSci 628 or GeolSci 628.

**5629 Principles of Petrology U G 3**

Application of physics, chemistry, and mathematics to the interpretation of igneous and metamorphic rocks.  
Prereq: Sr or Grad standing in EarthSc (EarthSci) or related field; or permission of instructor. Not open to students with credit for EarthSci 629 or GeolSci 629.

**5641 Geostatistics U G 3**

Applications of statistical methods to geoscience data, including linear error propagation, least-squares estimation, confidence interval estimation, analysis of variance. Role of computer graphics in data analysis.  
Prereq: Stat 5301 (528) or equiv, and Math 1152 (153) or above; or permission of instructor. Not open to students with credit for EarthSci 641, GeolSci 641, GeoSciM 5652 (GeodSciM 650 or 651), or 7763 (762).

**5644 Tectonic Evolution of Continents U G 3**

Survey of lithotectonic assemblages and structural associations in Archean, Proterozoic, and Phanerozoic orogenic terranes in relation to tectonic models for crustal evolution.  
Prereq: EarthSc 4423, 6423 (EarthSci 423), or GeolSci 423; and EarthSc 4502, 6502 (EarthSci 502), or GeolSci 502; and EarthSc 4530, 6530 (EarthSci 530), or GeolSci 530; or permission of instructor. Not open to students with credit for EarthSci 644 or GeolSci 644.

**5645 Advanced Structural Geology U G 4**

Mechanisms of deformation; dynamic and kinematic analysis of rock structures; field and laboratory methods of structural analysis.  
Prereq: EarthSc 4530 or 6530 (EarthSci 530), or GeolSci 530 or equivalent. Not open to students with credit for EarthSci 645 or GeolSci 645.

**5646 Geodynamics U G 3**

Application of mathematical and physical methods to the solution of geologic problems in heat flow, plate tectonics, interior dynamics, mountain building, ground-water flow, river mechanics.  
Prereq: EarthSc 4530 or 6530 (EarthSci 530), or GeolSci 530 or equivalent; Math 1152 (153) or above; and Physics 1250 (131) or above; or permission of instructor. Not open to students with credit for EarthSci 646 or GeolSci 646.

**5650 Glaciology U G 4**

The fundamental processes controlling ice flow, glacier mass balance and the interaction of glaciers and ice sheets with the solid earth, ocean and atmosphere. Observational and computational methods are also addressed.  
Prereq: EarthSci 4450 (EarthSci 450) or permission of instructor. Not open to students with credit for EarthSci 650 or GeolSci 650.

**5651 Hydrogeology U G 4**

Geologic and hydrologic factors controlling the occurrence, movement, storage, and chemical quality of surface water and ground water; exploration, evaluation, development and management of water resources.  
Prereq: 1100, 1105, 1108, 1121, 1151, 2203, or 2205; and Math 1152 or above.

**5655 Land Surface Hydrology U G 3**

Physical processes of land surface hydrology in the context of the global hydrologic cycle. Consideration of the processes and mechanisms responsible for water and energy fluxes, with examples from various river basins.  
Prereq: Math 1152 or above, and Physics 1250 or above.

**5661 Petroleum Geology U G 4**

The formation, accumulation, and trapping of oil and natural gas. Geologic source beds and traps; hydrocarbon flow; hydraulic properties of reservoirs and confining units; hydrocarbon chemistry; thin-section analysis of reservoir rocks.  
Prereq: 4502 or 6502; or permission of instructor.

**5663 Global Change and Sustainability in the Earth System U G 4**

Analysis of Earth systems, global environmental change and options for sustainability.  
Prereq: Sr or Grad standing, or permission of instructor. Not open to students with credit for EarthSci 663 or GeolSci 663.

**5675 Scanning Electron Microscopy U G 2**

Basic theoretical concepts and practical applications of scanning electron microscopy (SEM).  
Prereq: Chem 1210 or 1220, or equivalent; or permission of instructor.

**5680 Deep Earth Geophysics U G 3**

Methods and techniques for study of Earth's crust and interior, involving potential fields, seismology, and heat flow.  
Prereq: Math 1152 (153) or above; and Physics 1251 (133) or above. Not open to students with credit for EarthSci 680 or GeolSci 680.

**5687 Borehole Geophysics U G 3**

Principles and applications of borehole geophysical practices in the energy industry and in scientific drilling.  
Prereq: 1100, 1105, 1108, 1121, 1151, 2203, or 2205; and Math 1141 or 1151 or above; and Physics 1250 or above.

**5718 Aquatic Geochemistry U G 3**

Examination of the processes that control chemical equilibria in natural waters: acid/base reactions, metal complexation/speciation and oxidation-reduction processes. Intended for students in EarthSci, CivilEn, and the Grad EnvSci program.  
Prereq: Chem 1220 or above; and Math 1151 or above; or equivalents. Not open to students with credit for EnvEng 5718. Cross-listed in EnvEng.

## 136 Earth Science

<b>5719</b>	<b>Environmental Organic Geochemistry</b>	<b>U G</b>	<b>3</b>
Fate and distribution of organic pollutants in the environment including aqueous solubility, vapor pressure, environmental partition coefficients, and transformation reactions. Intended for students in EarthSc, CivilEn, and the Grad EnvSci program. Prereq: 5718, and Chem 4200; or permission of instructor. Not open to students with credit for EnvEng 5719. Cross-listed in EnvEng.			
<b>5751</b>	<b>Quantitative Reservoir Modeling</b>	<b>U G</b>	<b>4</b>
Principles of analytical and numerical techniques in modeling single- and multiphase flow in gas, oil, and water (aquifer) reservoirs. Development of Matlab code for two- and three-dimensional flow in porous media. Prereq: 2245 and Math 1152, or permission of instructor.			
<b>5780</b>	<b>Reflection Seismology</b>	<b>U G</b>	<b>4</b>
Basics of reflection seismic data processing and interpretation, using petroleum industry standard seismic processing software, hardware, and data. Prereq: 1100, 1105, 1108, 1121, 1151, 2203, or 2205; and Math 1141, or 1151 or above; and Physics 1250 or above.			
<b>5781</b>	<b>Gravity Exploration</b>	<b>U G</b>	<b>3</b>
Analytical treatment of concepts and methods of gravimetry; introductory theory of gravitational potential; geological interpretation of gravity data; gravity surveying. Prereq: Math 1152 (153) or above, or Grad standing; or permission of instructor. Not open to students with credit for EarthSci 781 or GeolSci 781.			
<b>5790.10</b>	<b>Antarctica Study Abroad Seminar</b>	<b>U G</b>	<b>1</b>
Pre-departure preparation for Antarctica study abroad. Provides general introduction to the country so that learning opportunities in-country will be maximized. Cannot be used to satisfy M.S. or Ph.D. requirements in Earth Sciences. Within the Earth Sciences B.S. degree, this course can only be used in the Earth System Science subprogram to meet the requirements for credits taken outside Earth Sciences. This course cannot be used to meet any other requirements within the Earth Sciences B.S. Prereq: Acceptance into the Antarctica Study Abroad program. Not open to students with credit for ENR 5790.10. Cross-listed in ENR.			
<b>5797.10</b>	<b>Study at a Foreign Institution: Antarctica</b>	<b>U G</b>	<b>3</b>
Two weeks of field studies in Antarctica and Ushuaia, Argentina. This course is a collaborative effort between Ohio State, American Universities International Programs, University of Canterbury, New Zealand, and Gateway Antarctica: Centre for Antarctic Studies and Research. Cannot be used to satisfy M.S. or Ph.D. requirements in Earth Sciences. Within the Earth Sciences B.S. degree, this course can only be used in the Earth System Science subprogram to meet the requirements for credits taken outside Earth Sciences. This course cannot be used to meet any other requirements within the Earth Sciences B.S. Concur: 5790.10. Not open to students with credit for ENR 5797.10. Cross-listed in ENR.			
<b>6502</b>	<b>Stratigraphy and Sedimentation</b>	<b>G</b>	<b>4</b>
Principles of, and procedures in, stratigraphy and sedimentation, illustrated by field and laboratory studies of sedimentary rocks. Prereq: EarthSc 1121 (EarthSci 121 or GeolSci 121) and 1122 (EarthSci 122 or GeolSci 122). Not open to students with credit for EarthSc 4502 (EarthSci 502 or GeolSci 502).			
<b>6530</b>	<b>Structural Geology</b>	<b>G</b>	<b>4</b>
An introduction to the principles of rock deformation, the classification and physical origin of rock structures, and crustal tectonic processes. Prereq: 1121 (EarthSci 121 or GeolSci 121), and Physics 1250 (131) or above. Not open to students with credit for 4530 (EarthSci 530 or GeolSci 530).			
<b>6560</b>	<b>Applied Geophysics</b>	<b>G</b>	<b>3</b>
Methods and techniques of pure and applied geophysics; geological interpretation of geophysical data. Prereq: 1121 (EarthSci 121 or GeolSci 121), Math 1151 (151) or above, and Physics 1250 (131) or above. Not open to students with credit for 4560 (EarthSci 560 or GeolSci 560), or GeolSci 280.			
<b>6750</b>	<b>Paleoclimatology</b>	<b>G</b>	<b>4</b>
Examination of climate records in ice, lake, and marine cores, tree rings, corals and historical records for a global perspective of Quaternary climate change. Prereq: Grad standing or permission of instructor. Not open to students with credit for EarthSci 750 or GeolSci 750.			
<b>7998</b>	<b>Research in the Earth Sciences</b>	<b>G</b>	<b>1 - 12</b>
Graduate-level research. Prereq: Grad standing in EarthSc or GeodSci. Repeatable. This course is graded S/U.			
<b>7999</b>	<b>Research for Thesis in the Earth Sciences</b>	<b>G</b>	<b>1 - 12</b>
Graduate-level research for thesis purposes only. Prereq: Grad standing in EarthSc or GeodSci. Repeatable. This course is graded S/U.			
<b>8800</b>	<b>Seminar in Stratigraphy and Basin Analysis</b>	<b>G</b>	<b>1 - 2</b>
Consideration of current and classical problems and procedures in biostratigraphic and lithostratigraphic analysis and synthesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>8801</b>	<b>Seminar in Sedimentology</b>	<b>G</b>	<b>1 - 2</b>
Consideration of sedimentation and the structures, petrography, depositional environments, and paleontologic interpretation of sedimentary rocks. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			

<b>8821</b>	<b>Seminar in Geochemistry</b>	<b>G</b>	<b>1 - 2</b>
Selected topics in applications of chemistry to earth science problems; geochronology, geochemistry, geochemical cycles, and cosmochemistry. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>8822</b>	<b>Seminar in Mineralogy, Mineral Physics, and Petrology</b>	<b>G</b>	<b>1 - 2</b>
Selected topics in optical mineralogy and igneous, sedimentary, and metamorphic petrology. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>8850</b>	<b>Seminar in Glaciology and Geomorphology</b>	<b>G</b>	<b>1 - 3</b>
Selected topics in glaciology, glacial history, and geomorphology. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>8851</b>	<b>Seminar in Hydrogeology and Oceanography</b>	<b>G</b>	<b>1 - 2</b>
Topics in hydrogeology and oceanography, such as ground-water hydrology and hydraulics, basin management, water resources, paleohydrology, reef and atoll development, or paleo-oceanography. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>8870</b>	<b>Proposal Writing and Scientific Communication in Earth Science Is Your Job</b>	<b>G</b>	<b>2</b>
Development of scientific communication skills including writing of publications and proposals, oral and poster presentations, and research ethics. Prereq: Grad standing in Earth Sciences or Geodetic Sciences, or permission of instructor.			
<b>8878</b>	<b>Seminar in Geophysics</b>	<b>G</b>	<b>1 - 2</b>
Investigation and discussion of recent developments in geophysics, including exploration geophysics, glaciology, solid-earth geophysics, paleomagnetism, tectonics, or engineering evaluation. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>8898</b>	<b>Colloquium in the Earth Sciences</b>	<b>G</b>	<b>1</b>
Presentations and discussions of current research in the earth sciences provided by visitors, faculty and students. Prereq: Grad standing in EarthSci or GeodSci. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>8998</b>	<b>Research in the Earth Sciences</b>	<b>G</b>	<b>1 - 12</b>
Graduate-level research. Prereq: Grad standing in EarthSci or GeodSci. Repeatable. This course is graded S/U.			
<b>8999</b>	<b>Dissertation Research in the Earth Sciences</b>	<b>G</b>	<b>1 - 12</b>
Research for dissertation purposes only. Prereq: Grad standing in EarthSci or GeodSci. Repeatable. This course is graded S/U.			

## East Asian Languages and Literatures

<b>1231</b>	<b>East Asian Humanities</b>	<b>U</b>	<b>3</b>
Introduction to the contemporary and traditional cultures of China, Korea, and Japan taught through readings, films, and demonstrations. Prereq: Not open to students with credit for 131. GE cultures and ideas and diversity global studies course.			
<b>2284</b>	<b>Tea Culture in East Asia</b>	<b>U</b>	<b>3</b>
Approaches tea from multiple perspectives, including, but not limited to, history, geography, agriculture, commerce, health, nutrition, arts and crafts, folklore, and transmission of everyday cultural practices. Classes include lectures, discussion, and a laboratory of preparation and tasting of a variety of tea. GE cultures and ideas course.			
<b>3223</b>	<b>The Buddhist Tradition</b>	<b>U</b>	<b>3</b>
History and structure of Buddhism from founding to present in South, Southeast, and East Asia. Emphasis on rituals, beliefs, and local and regional variations. RelStds 2370 recommended. Prereq: Not open to students with credit for 323, CompStd 3673 (323), or RelStds 3673 (323). Cross-listed in RelStds 3673.			
<b>3405</b>	<b>Introducing East Asia through Martial Arts Cinema</b>	<b>U</b>	<b>3</b>
Examines martial arts films of East Asia, focusing on their social & cultural functions. Draws upon the philosophical, cultural and historical background to depict this unique genre of imagination. Analyzes the aspiration for personal freedom and social justice and the longing for heroes amidst losing battles for liberty in authoritarian societies. GE VPA and diversity global studies course.			
<b>3446</b>	<b>Asian American Film</b>	<b>U</b>	<b>3</b>
Introduction to Asian American cinema from the 1960s to the present, including documentaries, feature films, and experimental films. Prereq: Not open to students with credit for 346. GE VPA course.			
<b>4193</b>	<b>Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Directed study to meet individual research needs of students in East Asian studies. Not a substitute for regular language courses. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Group investigation of issues in East Asian studies. Varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.			

<b>4200</b>	<b>Topics in East Asian Culture</b>	<b>U</b>	<b>3</b>
In-depth exploration of a theme, issue, or question in East Asian culture broadly conceived. Topics vary. Prereq: 1231; or Chinese 2231, Japanese 2231, or Korean 2231; or Chinese 2232; or Chinese 2451, Japanese 2451, or Korean 2451; or Japanese 2452; or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5310</b>	<b>Strategies for Performance-Oriented Language Learning: Practicum</b>	<b>U G</b>	<b>3</b>
An overview of language-learning strategies and practice in applying them to learning of East Asian languages. Prereq: Chinese 1102.01, 1102.02, or 4 credits of 1102.51; or Japanese 1102.01, 1102.02, or 4 credits of 1102.51; or Korean 1102.01, 1102.02, or 4 credits of 1102.51; or permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>5383</b>	<b>Scripts of East Asia</b>	<b>U G</b>	<b>3</b>
A critical survey of writing systems that use Chinese characters, popular and scholarly myths about them, and their impact on the history of ideas. Prereq: Soph standing in Chinese, Japanese, or Korean, or permission of instructor. Not open to students with credit for 683.			
<b>5475</b>	<b>Women Writers, Culture and Society in East Asia</b>	<b>U G</b>	<b>3</b>
Close examination of representative works of major women writers from China, Japan, and Korea in the cultural and ideological context of each country. No knowledge of East Asian languages is required. All reading materials are in English. Prereq: Chinese 2231, 2232, Japanese 2231, or Korean 2231, or at least one literature course at the college level, or permission of instructor. Not open to students with credit for 675.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>3 - 9</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Admission to specific study abroad program that accepts this course. Repeatable to a maximum of 24 cr hrs or 8 completions.			
<b>6193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 3</b>
Individual investigation of East Asian cultures, languages, and literatures. Prereq: Permission of department chairperson. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Group investigation of issues in East Asian studies. Varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
<b>7700</b>	<b>Learning East Asian Languages in Cross-Cultural Contexts: College Level</b>	<b>G</b>	<b>1 - 3</b>
Principles and practices of designing instruction and assessing performances in an East Asian language as a foreign language at post-secondary level American academic institutions. Concurrent registration in 7703 and 7704 recommended. Su Sem. Prereq: High-level competence in target East Asian language, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. FL Admis Cond course.			
<b>7701</b>	<b>Pedagogical Syntax for East Asian Languages</b>	<b>G</b>	<b>3</b>
Training in the presentation of grammar in East Asian language classes; special attention given to problems of translating linguistic studies into teachable units. Au, Sp Sems. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>7702</b>	<b>Materials Preparation for East Asian Languages</b>	<b>G</b>	<b>3</b>
Preparation of materials for teaching Chinese, Japanese, and Korean. Emphasis on the special problems faced by English-speaking students in learning these languages. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. FL Admis Cond course.			
<b>7703</b>	<b>Presentation of East Asian Languages and Cultures</b>	<b>G</b>	<b>1 - 2</b>
Preparation and presentation of curriculum and syllabus for East Asian language program and adaptation of learning materials. Concurrent registration in 7700 and 7704 recommended. Su Sem. Prereq: High-level competency in the target East Asian language, and permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions. FL Admis Cond course.			
<b>7704</b>	<b>Teaching Practicum in East Asian Languages</b>	<b>G</b>	<b>1 - 5</b>
Training as a classroom teacher through practice teaching to students and the observation of classes taught by trainees and master teachers. Prereq: High-level competence in an East Asian language, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 3 completions. FL Admis Cond course.			
<b>7705</b>	<b>Seminar in the Learning of East Asian Languages and Cultures</b>	<b>G</b>	<b>3</b>
Critical analysis of insights and theories from various disciplines relevant to the pedagogy of East Asian languages and cultures. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. FL Admis Cond course.			
<b>7897</b>	<b>Introduction to Graduate-level East Asian Studies</b>	<b>G</b>	<b>1</b>
The origins, development and current state of East Asian Area Studies in the U.S., including its relationship to other intellectual disciplines. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 797, History 7405 (797), or HistArt 6801 (797). This course is graded S/U. Cross-listed in History 7405 and HistArt 6801.			

## East Asian Languages and Literatures 137

<b>8701</b>	<b>Teaching East Asian Languages at the College Level</b>	<b>G</b>	<b>3</b>
Techniques of teaching college-level East Asian languages; effective use of teaching, testing, and laboratory materials; observation of a variety of language classes. Au Sem. Prereq: Permission of instructor. Not open to students with credit for 801.			
<b>8870</b>	<b>Research Presentations in East Asian Languages and Literatures</b>	<b>G</b>	<b>1 - 3</b>
Research presentations and discussions of specific problems in East Asian languages and literatures. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			

## East European Languages and Literatures

<b>5627</b>	<b>Reading Course in a Balkan or East European Language</b>	<b>U G</b>	<b>3</b>
Fundamentals of grammar and vocabulary needed for reading a non-Slavic language of Eastern or East Central Europe or the Balkans (e.g., Albanian, Romanian, Estonian, Hungarian, Latvian, or Lithuanian). Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 9</b>
Opportunity to study at an educational institution in East Central, Southeastern, or Eastern Europe and receive OSU credit. Students pay OSU fees, any fees in excess of tuition, travel & subsistence costs. Prereq: Permission of dept chairperson. Repeatable to a maximum of 36 cr hrs or 9 completions. This course is progress graded.			

## Economics

<b>1100.01</b>	<b>Current Economic Events in Historical Perspective</b>	<b>U</b>	<b>3</b>
Introduction to economic analysis; historical background for interpreting current economic events. Discuss current issues in a historical context, including topics like taxes and unemployment. A one-course introduction to economics. Prereq: Not open to students with credit for 110.01. GE soc sci human, nat, and econ resources course.			
<b>1100.02</b>	<b>Freakonomics</b>	<b>U</b>	<b>3</b>
Discuss current social problems and issues within an economics framework, including topics such as job discrimination and integration. A one-course introduction to economics. Prereq: Not open to students with credit for 110.02. GE soc sci human, nat, and econ resources course.			
<b>2001.01</b>	<b>Principles of Microeconomics</b>	<b>U</b>	<b>3</b>
Introduction to economic theory: supply and demand for goods, services, and factor inputs; market structure; international trade, the distribution of income. First required course for students planning to take 4000-level courses in Econ. Prereq: Not open to students with credit for 2001.02, 2001.03H, 200, 200H, or AEDEcon 2001 (200). This course is available for EM credit. GE soc sci human, nat, and econ resources course. SS Admis Cond course.			
<b>2001.03H</b>	<b>Principles of Microeconomics</b>	<b>U</b>	<b>3</b>
An advanced introduction to economic theory: supply and demand for goods, services, and factor inputs; market structure; international trade, the distribution of income. First required course for students planning to take 4000-level courses in econ. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 2001.01, 2001.02 (200), or 200H, and AEDEcon 2001 (200) or 2001H (200H). GE soc sci human, nat, and econ resources course.			
<b>2002.01</b>	<b>Principles of Macroeconomics</b>	<b>U</b>	<b>3</b>
Introduction to the theory of national income determination; economic fluctuations; money; government policy; international economics. Prereq: Not open to students with credit for 2002.02, 2002.03H, 201, or 201H. This course is available for EM credit. GE soc sci orgs and politics course.			
<b>2002.03H</b>	<b>Principles of Macroeconomics</b>	<b>U</b>	<b>3</b>
An advanced introduction to the theory of national income determination; economic fluctuations; money; government policy; international economics. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 2002.01, 2002.02 (201, 201H). GE soc sci orgs and politics course.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 5</b>
Current problems not covered in other courses. Credit for Econ 294 counts against hour cap. Prereq: 2001.01, 2001.02, 2001.03H (200 or 200H), or equiv. Repeatable to a maximum of 7 cr hrs or 2 completions.			
<b>2367.02</b>	<b>Current Economic Issues in the United States</b>	<b>U</b>	<b>3</b>
Study of problems currently facing the U.S. economy. Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), or equiv, and English 1110 (110). Not open to students with credit for 367.02. GE writing and comm: level 2 and soc sci orgs and politics course.			

## 138 Economics

### 3001 Economy, Polity, and Community U 3

Examines how different ways of thinking about human nature shape our understanding of philosophy, politics and economics.  
Prereq: Econ 2001.XX or 2002.01 or 2002.03H; and Philos 2400 or PolitSc 2400 or 2400H; and Econ 5001 or Philos 2500 or 5540 or PolitSc 4553 or 4553H; and Philos 3300; and Econ 3400 or IntStds 3400 or PolitSc 3780 or 3780H; and PolitSc 4280 or 4380. Not open to students with credit for Philos 3001 or PolitSc 3001. Cross-listed in Philos and PolitSc.

### 3002 Tradition, Progress, and Utopia U 3

Examines how different ways of thinking about social and political change shape our understanding of philosophy, and economics.  
Prereq: Econ 2001.XX or 2002.01 or 2002.03H; and Philos 2400 or PolitSc 2400 or 2400H; and Econ 5001 or Philos 2500 or 5540 or PolitSc 4553 or 4553H; and Philos 3300; and Econ 3400 or IntStds 3400 or PolitSc 3780 or 3780H; and PolitSc 4280 or 4380. Not open to students with credit for Philos 3002 or PolitSc 3002. Cross-listed in Philos and PolitSc.

### 3048 Ethics and Social Responsibility in Economic Life U 3

Examines the role of ethical norms and social constraints in determining economic outcomes.  
Prereq: At least one of these courses, 1100.01 (110.01), 1100.02 (110.02), 1100.03 (110.03), 2001.01, 2001.02 (200), 2001.03H (200H), 2002.01 2002.02 (201), or 2002.03H (201H), is recommended. Not open to students with credit for 348. GE soc sci indiv and groups course.

### 3400 The Analysis and Display of Data U 3

Introduction to the analysis of data. Topics include sampling, data collection, probability, inference, random variables, display of data, correlation, and analysis of variance. This course does not count toward a course elective for Econ majors.  
Prereq: Not open to students with credit for 4400 (444), 5410 (641), 5420 (642), 443, IntStds 3400 (443), Stat 1430 (133), 1450 (145), 2450 (245) or AEDEcon 2005 (205). GE data only course. Cross-listed in IntStds.

### 3820 The Economics of Gender in Labor Markets U 3

Application of economic analysis to the evolution and economic condition of women and men in the labor force; occupational distribution and segregation; wage gap; the glass ceiling.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or equiv. Not open to students with credit for 482. GE diversity soc div in the US course.

### 3900.01S The Other Side of the Border: Immigration Economics U 3

This is a service-learning opportunity with Esperanza International in Tijuana, Mexico. The course will introduce micro and macroeconomic issues related to immigration. This case study will focus on the opportunity costs for immigrants, the effects of the flow of money, and the loss of labor and human capital on economic growth. Students will work with the immigrant community.  
Prereq: 2001.01, 2001.02, 2002.01 or 2002.02, or AEDEcon 2001. GE service learning course.

### 4001.01 Intermediate Microeconomic Theory U 3

Theory of consumer behavior; theory of the firm; costs and production; factor price determination; general equilibrium.  
Prereq: 2001.01, 2001.02, or 2001.03H, and 2002.01, 2002.02, or 2002.03H, or equiv. Not open to students with credit for 4001.02 or 4001.03.

### 4001.02 Intermediate Microeconomic Theory U 3

Theory of consumer behavior; theory of the firm; costs and production; factor price determination; general equilibrium. Designates a calculus-based version.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), and Math 1131 (132), 1151 (151), 1152 (152 and 153), 1161 (161 and 162), 2182H (263H), or 4181H (190H) or equiv; or permission of instructor. Not open to students with credit for 4001.01 (501.01 and 501.02) or 4001.03H.

### 4001.03 Intermediate Microeconomic Theory U 3

Theory of consumer behavior; theory of the firm; costs and production; factor price determination; general equilibrium. Designates an advanced calculus-based version.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), and Math 1131 (132), 1151 (151), 1152 (152 and 153), 1161 (162 and 161), 2182H (263H), or 4181H (H190), or equiv, or permission of instructor. Not open to students with credit for 4001.01 (501.01) or 4001.02 (501.02).

### 4002.01 Intermediate Macroeconomic Theory U 3

Analysis of the determinants of national output; income and employment levels; theory of economic growth and progressive equilibrium in an economy.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201 or 201H), or 2002.03H, or equiv. Not open to students with credit for 4002.02 (502.01 or 502.02) or 4002.03.

### 4002.02 Intermediate Macroeconomic Theory U 3

Analysis of the determinants of national output; income and employment levels; theory of economic growth and progressive equilibrium in an economy. Designates a calculus-based version.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), and Math 1131 (132) or 1151 (151), 1152 (152 and 153), 1161 (161 and 162), 2182H (263H), or 4181H (190H), or equiv; or permission of instructor. Not open to students with credit for 4002.01 (502.01 or 502.02) or 4002.03.

### 4002.03 Intermediate Macroeconomic Theory U 3

Analysis of the determinants of national output; income and employment levels; theory of economic growth and progressive equilibrium in an economy. Designates an advanced calculus-based version.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), and Math 1152 (152 and 153), 1161 (161 and 162), 2182H (263H), or 4181H (190H), or equiv; or permission of instructor. Not open to students with credit for 4002.01 (502.01) or 4002.02 (502.02).

### 4050 Experimental Economics U 3

Introduction to economics as an experimental social science. Students participate in and study results of economic experiments dealing with markets, individual decision making, and a broad array of game theoretic economic models.  
Prereq: 2001.01, 2001.02, or 2001.03H or equiv.

### 4050H Experimental Economics U 3

Introduction to economics as an experimental social science. Students participate in and study results of economic experiments dealing with markets, individual decision making, and a broad array of game theoretic economic models.  
Prereq: 4001.01 or 4001.02 or 4001.03, and Stat 1450 or 2450. Not open to students with credit for 4050.

### 4130 World Economic Development in Historical Perspective U 3

A survey of economic development from the middle ages through the 20th century, emphasizing Europe, Asia and Africa.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or 2002.01, 2002.02 (201) or 2002.03H (201H), or equiv. Not open to students with credit for 5130 (614), or 515. GE historical study and diversity global studies course.

### 4140 Economic History of the Americas U 3

A survey of economic development in the Americas emphasizing the United States from colonial times to the 20th century.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or 2002.01, 2002.02 (201), or 2002.03H (201H), or equiv. Not open to students with credit for 5140 (613) or 516. GE historical study and diversity global studies course.

### 4191 Internship U 1 - 6

Allows students to apply knowledge from their economics courses and learn from hands on experience in approved positions. Applies toward an Econ 4000-level elective; 3 credit hours maximum toward major.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), or equiv; and Jr or Sr standing; and enrollment in Econ major; and permission of department. Not open to students with maximum qtr or hrs in 589. Repeatable to a maximum of 6 or hrs or 2 completions. This course is graded S/U.

### 4194 Group Studies U 1 - 10

Intermediate current problems not covered in other courses.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H). Credit taken as 594 counts toward hour cap. Repeatable to a maximum of 10 or hrs or 3 completions.

### 4200 Money and Banking U 3

Organization, operation, and economic significance of our monetary and banking system; special reference to current conditions and problems. Students intending to take 5200 are encouraged to take it instead.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), or equiv. Not open to students with credit 4200H (520H), 5200, or 520.

### 4300 Government Finance in the American Economy U 3

Analysis of fiscal institutions and decision-making in the public sector of the American economy; budget planning and execution; taxation, debt, and fiscal policy.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or equiv. Not open to students with credit for 530.

### 4310 Local Public Finance U 3

Financing public services by state/local governments. The fiscal relationship between state/local governments and the federal government. Apply techniques of economic analysis to policy issues.  
Prereq: 4300 (530), or PubAfrs 7120 (730), or equiv. Not open to students with credit for 531, or PubAfrs 4310 (531). Cross-listed in PubAfrs.

### 4320 Public Expenditure and Cost-Benefit Analysis U 3

Economics of public choice, public goods, non-market allocations, collective decision-making, and net-benefit maximization for policy majors; case studies and empirical analysis of public choice problems for policy analysts. Does not count towards units in the economics major.  
Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or equiv, and enrollment in JGSPA major. Not open to students with credit for 4300, 4310, or 532.

### 4400 Elementary Econometrics U 3

Basic linear regression analysis with applications; hypothesis testing and model specification.  
Prereq: 3400, IntStds 3400, Stat 1430 (133), 1450 (145), 2450 (245), or AEDEcon 2005 (205), or equiv. Not open to students with credit for 5410 (641), 5420 (642), or 444.

<b>4537</b>	<b>Middle Eastern Economic Development</b>	<b>U</b>	<b>3</b>
Introduction to current economic issues facing the Middle East; similarities and differences in Middle Eastern countries' growth, inflation, unemployment, fiscal and monetary policy, imports, exports, foreign debt and exchange rate policy. Prereq: 2001.01, 2001.02 (200), 2001.03H (200H), or AEDEcon 2001 (200), and 2002.01, 2002.02 (201), or 2002.03H (201H), or equiv. Not open to students with credit for 537, AEDEcon 4537 (537), 437, IntStds 4537 (537), or 437. Cross-listed in AEDEcon and IntStds.			
<b>4553</b>	<b>Economics of Population</b>	<b>U</b>	<b>3</b>
Using economic principles to analyze population growth, fertility, mortality, mating, dating, marriage, teen pregnancy, divorce, and migration. Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or 2002.01, 2002.02 (201), or 2002.03H (201H). Not open to students with credit for 553.			
<b>4560</b>	<b>Cooperation and Conflict in the Global Economy</b>	<b>U</b>	<b>3</b>
The economic, social, and political bases for and responses to increasing global economic integration. Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H), or equiv. Not open to students with credit for 4560H (556H), 556, IntStds 4560 (556), or 4560H (556H). Cross-listed in IntStds.			
<b>4597.01</b>	<b>Issues of the Underground Economy</b>	<b>U</b>	<b>3</b>
Focuses on the informal sector of the underground economy: illegal drugs, arms sales and human trafficking. Applies economic reasoning. Recommended prereqs: 2001.01, 2001.02 (200), 2001.03H (200H), and 2002.01, 2002.02 (201), or 2002.03H (201H). Prereq: Jr standing and above. Not open to students with credit for 597.01. GE cross-disciplinary seminar course.			
<b>4700</b>	<b>Government and Business</b>	<b>U</b>	<b>3</b>
Economic and legal aspects of government regulation of business in the United States; philosophies and concepts of public control; contemporary problems. Students planning on taking 5700 are encouraged to take it instead. Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or equiv. Not open to students with credit for 5700 (670), or 570.			
<b>4700H</b>	<b>Government and Business</b>	<b>U</b>	<b>3</b>
Economic and legal aspects of government regulation of business in the United States: philosophies and concepts of public control; contemporary problems. Prereq: Honors standing, and 2001.01, 2001.02, 2001.03H, 4001.01, 4001.02 or 4001.03, and Math 1151. Not open to students with credit for 4700 (570) or 5700 (670).			
<b>4797.01</b>	<b>Study at a Foreign Institution</b>	<b>U</b>	<b>1 - 10</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of dept chairperson. Repeatable to a maximum of 30 or hrs or 30 completions. This course is graded S/U.			
<b>4797.02</b>	<b>Islamic Banking and Finance</b>	<b>U</b>	<b>3</b>
The course covers Islamic banking and finance in theory and in practice. Including a study abroad component to Malaysia for students to experience Islamic banking and finance in practice, students will be prepared to: 1-Understand the relation between culture/religion and the economy 2-Better understand Islamic finance vs. conventional finance 3-Learn the challenges of Islamic finance in practice. Prereq: 2001.01, 2001.02, 2001.03H, 2002.01, 2002.02, or 2002.03H, or equiv.			
<b>4800</b>	<b>Labor Economics and Industrial Relations</b>	<b>U</b>	<b>3</b>
Survey of the field of labor economics; trade unionism, collective bargaining; wage determination, employment, unemployment; labor legislation. Students planning on taking 5850 are encouraged to take it instead. Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or equiv. Not open to students with credit for 5850 (685) or 580.			
<b>4830</b>	<b>Economics of Sports</b>	<b>U</b>	<b>3</b>
Analysis of economic and business aspects of sports teams and their strategic interactions in sports markets. Prereq: 2001.01, 2001.02 (200), or 2001.03H (200H), or equiv. Not open to students with credit for 583.			
<b>4831</b>	<b>Sports Data Analytics and Economic Analysis</b>	<b>U</b>	<b>3</b>
An introduction to basic data analysis methods used by economists to explain economic reasoning in the sport industry and associated markets. Prereq: 2001.01, 2001.02, 2001.03H, AEDEcon 2001, or 2001H.			
<b>4960H</b>	<b>Honors Seminar in Economics</b>	<b>U</b>	<b>3</b>
Prepares students to write an undergraduate thesis; group discussion of research problems, methods, and strategies. Prereq: Honors standing, and 4001.01, 4001.02, or 4001.03, and 4400, 5410, or 5420; or permission of instructor.			
<b>4998</b>	<b>Undergraduate Research in Economics</b>	<b>U</b>	<b>1 - 6</b>
Directed research for an Economics major; collection and analysis of data and information for a research project. Prereq: 4001.01 (501.01), 4001.02 (501.02), or 4001.03, and 4002.01 (502.01), 4002.02 (502.02), or 4002.03, or equiv, and permission of instructor. Not open to students with credit for 4998H or 699. This course is graded S/U.			

<b>4998H</b>	<b>Honors Research in Economics</b>	<b>U</b>	<b>1 - 6</b>
Directed research for an economics major; collection and analysis of data and information for a research project. Prereq: Honors standing; and 4001.01 (501.01), 4001.02 (501.02), or 4001.03, and 4002.01 (502.01), 4002.02 (502.02), or 4002.03, or equiv; and permission of instructor. Not open to students with greater than 9 or hrs in 4998 or max credit in 699. Repeatable to a maximum of 10 or hrs or 2 completions. This course is graded S/U.			
<b>4999</b>	<b>Undergraduate Thesis Research</b>	<b>U</b>	<b>1 - 5</b>
A program of study arranged for each student, with individual conferences and reports, to write a senior thesis. At least two semesters are required of candidates for the degree with distinction in economics. Prereq: At least half of the Econ courses taken and an average of B in the remainder, and Sr standing, and permission of instructor. Not open to students with greater than 9 hours credit for 4999H (699) or max credit in 783H. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>4999H</b>	<b>Honors Thesis Research</b>	<b>U</b>	<b>1 - 5</b>
A program of study arranged for each student, with individual conferences and reports, to write a senior thesis. At least 2 sems required for distinction in econ. Failure to receive a mark of S in this course is a disqualification for special honors. Prereq: Honors standing, and a grade of A in at least half of the Econ courses taken, and an average of B in the remainder, and Sr standing, and permission of instructor. Not open to students with credit for 4999 (783H). Credit in 783H counts toward hour cap. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>5001</b>	<b>Game Theory in Economics</b>	<b>U G</b>	<b>3</b>
Analysis of behavior in strategic situations - when a person or firm's best action depends on what others do. Prereq: 4001.01 (501.01), 4001.02 (501.02), or 4001.03, and Math 1131 (132), 1151 (151 and 152), 1152 (153), 1161 (161 and 162), or 2182H (263H), or equiv. Not open to students with credit for 601.			
<b>5130</b>	<b>Economic History of Western Europe</b>	<b>U G</b>	<b>4</b>
Survey of economic development of Europe from pre-industrialization to current globalization. Emphasis on critical analysis of long-run factors in economic growth. Prereq: 4400 (444), 5410 (641), or Stat 2450 (245), and Econ 4001.01 (501.01), 4001.02 (502.02), or 4001.03, and 4002.01 (502.01), 4002.02 (502.02), or 4002.03, or equiv; or Grad standing. Not open to students with credit for 614.			
<b>5140</b>	<b>Economic History of the United States</b>	<b>U G</b>	<b>4</b>
General survey from discovery of America to present; European economic background; westward movement and its effects; development of economic institutions in the United States. Prereq: 4400 (444), 5410 (641), 4001.01 (501.01), 4001.02 (502.02), 4001.03, and 4002.01 (502.01), 4002.02 (502.02), or 4002.03, or Stat 2450 (245), or equiv; or Grad standing. Not open to students with credit for 613.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 10</b>
Advanced readings in economics and related fields. Prereq: Jr standing or higher; and an average of B or better in all econ courses; and a CPHR of 3.00 or above. Repeatable to a maximum of 10 or hrs or 10 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies</b>	<b>U G</b>	<b>1 - 5</b>
Advanced current problems not covered in other courses. Prereq: 4001.01 (501.01), 4001.02 (501.02), or 4001.03, or equiv. Repeatable to a maximum of 10 or hrs or 10 completions.			
<b>5250</b>	<b>National and International Money Markets</b>	<b>U G</b>	<b>3</b>
Organization, functions, and control of money markets and their submarkets; flow of funds in these markets and investment policies of market participants. Prereq: 4400 (444), or 5410 (641), and 4001.01 (501.01), 4001.02 (501.02), or 4001.03, and 4002.01 (502.01), 4002.02 (502.02), or 4002.3, or Stat 2450 (245), or equiv. Not open to students with credit for 625.			
<b>5261</b>	<b>Financial Economics I</b>	<b>U G</b>	<b>3</b>
Examination of the evolution of and economic issues facing financial markets, financial institutions, and financial market participants. Does not count as course credit towards the completion of a business major. Prereq: 4001.01, 4001.02, or 4001.03, and 4002.01, 4002.02, or 4002.03, and Math 1151, 1152, 1161, or 2182H, or equiv.; or Grad standing.			
<b>5262</b>	<b>Financial Economics II</b>	<b>U G</b>	<b>3</b>
Examination of academic literature and econometric analysis of topics involving financial markets, financial institutions, and financial market participants. Does not count as course credit towards the completion of a business major. Prereq: 4001.01, 4001.02, or 4001.03, and 4002.01, 4002.02, or 4002.03, and 5261, and Math 1151, 1152, 1161, or 2182H, or equiv.; or Grad standing.			
<b>5410</b>	<b>Econometrics I</b>	<b>U G</b>	<b>3</b>
The general linear regression model; multiple correlation, path analysis, analysis of variance and tests of significance; specification errors. Prereq: 4001.01 (501.01), 4001.02 (501.02), or 4001.03, and Stat 2450 (245), 4201, 4202 (420, 421), or 3470 (427, 428), or equiv. Not open to students with credit for 641, 444, or 4400.			

## 140 Economics

<b>5420</b>	<b>Econometrics II</b>	<b>U G</b>	<b>3</b>
Discrete choice models, panel data, endogeneity, instrumental variables, and systems of equations; stationary and nonstationary time series; applications in various fields of economics. Continuation of 5410. Prereq: 5410 (641) and 4002.01, 4002.02 (502.01), or 4002.03 (502.02), or PubAfrs 7571, or equiv. Not open to students with credit for 642.			
<b>5660</b>	<b>Financial Aspects of International Trade</b>	<b>U G</b>	<b>3</b>
International payments and receipts; foreign exchange markets; balance-of-payments adjustment under different monetary systems; macroeconomic policy; international monetary reforms; foreign investments; multinational corporations. Prereq: 4400 (444), 5410 (641), or Stat 2450 (245), and 4002.01 (502.01), 4002.02 (502.02), or 4002.03, or equiv. Not open to students with credit for 666.			
<b>5700</b>	<b>Industrial Organization</b>	<b>U G</b>	<b>3</b>
Nature, role, and regulation of competition; market structure and social performance; antitrust laws; current economic, legal, and policy problems in the antitrust area. Prereq: 4400 (444), 5410 (641), or Stat 2450 (245), and 4001.01 (501.01), 4001.02 (501.02), or 4001.03, or equiv. or Grad standing. Not open to students with credit for 670.			
<b>5720</b>	<b>Comparative Institutional Analysis of Firms and Markets</b>	<b>U G</b>	<b>3</b>
Applications of economic analysis to industrial organizations including the firm's internal incentive structure, labor markets, and financial institutions, of major market economies such as U.S., and Japan from comparative perspectives. Prereq: 4001.01 (501.01), 4001.02 (501.02), or 4001.03, or equiv. or Grad standing. Not open to students with credit for 672.			
<b>5850</b>	<b>Labor Economics</b>	<b>U G</b>	<b>3</b>
Advanced study of the labor market including labor demand and supply, wage determination, and unemployment. Prereq: 4400 (444), 5410 (641), or Stat 2450 (245); and 4001.01 (501.01), 4001.02 (501.02), or 4001.03, or equiv. Not open to students with credit for 685.			
<b>5860</b>	<b>Health Economics</b>	<b>U G</b>	<b>3</b>
An introductory course to the field of health economics. Students will to apply concepts from introductory and intermediate microeconomics to problems that are faced in health and medical care. The focus is on individual demand for medical care; health insurance; markets for, and institutional features of, health care providers; measuring and pricing quality, and healthcare reform. Prereq: 4001.01, 4001.02, or 4001.03. Prereq or concur: Stat 1450 or 2450.			
<b>5870</b>	<b>Neuroeconomics and Decision Neuroscience</b>	<b>U G</b>	<b>3</b>
The focus of this course will be on the psychology and neuroscience underlying economic behavior. Discussion will cover various domains of economic decision making and what Neuroeconomics has taught us about them. Prereq: AEDEcon 2005, Stat 1450, 2450, Psych 2220, or Econ 3400; and Math 1148 or higher; and Econ 4001.01, 4001.02, 4001.03, AEDEcon 4001, Psych 3313, 3513, or 4508. Not open to students with credit for Psych 5870. Cross-listed in Psych.			
<b>6193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 4</b>
Supervised and individually designed studies for pre-qualifier graduate students in economics or graduate students in non-economics graduate programs. Prereq: Permission of instructor. Not open to students with credit for 893. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U. Letter Grade option available only with approval of economics director of graduate studies.			
<b>6700</b>	<b>Survey of Mathematical Methods in Economics</b>	<b>G</b>	<b>3</b>
Core analytical methods and techniques routinely used in the first-year graduate courses in economic theory; topics include basic real analysis, convexity, constrained optimization, envelope theorems and their economics applications. Prereq: 4001.01, 4001.02, 4001.03, or 501A and graduate mathematics courses in vector calculus and elementary linear algebra. Not open to students with credit for 704, or 705.			
<b>6701</b>	<b>Survey of Statistical Methods in Economics</b>	<b>G</b>	<b>3</b>
Probability and statistical methods frequently used in economic analysis; topics include random variables, moment generating functions, limit theorems, expectations, multiple correlations, tests of significance and their economic applications. Prereq: Math 1152 (153), or equiv; or permission of instructor and economics director of graduate studies. Not open to students with credit for Stat 5201 (520), or 6801 (620), or 640, or 720.			
<b>6711</b>	<b>Survey of Microeconomics</b>	<b>G</b>	<b>4</b>
Methodology and scope of the neo-classical microeconomics paradigm; topics include the theory of competitive firms and consumers, general equilibrium, Pareto optimum, welfare theorems, non-competitive markets, uncertainty and asymmetric information. Prereq: 4001.01 or 501A, or equiv, and permission of economics director of graduate studies. Not open to students with credit for 8711 (804), 8712 (805), 704, or 705.			
<b>6721</b>	<b>Survey of Macroeconomics</b>	<b>G</b>	<b>4</b>
Survey of macroeconomics fluctuations, business cycles and economic growth, including Keynesian, monetarist and real business cycle models; topics also include money and banking, unemployment, inflation and endogenous economic growth. Prereq: 4002.01 (502) or equiv with permission of instructor and economics director of graduate studies. Not open to students with credit for 8721 (806), or 8722 (807) or 706, or 707.			

<b>6731</b>	<b>Survey of Econometric Methods I</b>	<b>G</b>	<b>3</b>
Survey of methods as applied in econometric analysis, with applications to programming in R. Topics include data management and visualization, linear regression, causal inference, fixed/random effects, nonparametric analysis, and nonlinear models. Prereq: 4400 or 5410 or Stat 2450, and Math 2568 or equiv.; or permission of instructor. Not open to students with credit for 8731, 8732, or 8733.			
<b>6732</b>	<b>Survey of Econometric Methods II</b>	<b>G</b>	<b>3</b>
Survey of econometric methods in time series and panel data with an emphasis on empirical examples in micro and macro economics; topics include GMM, time series models, VAR, cointegration, fixed and random effects and duration models. Prereq: 6731 (702), or equiv with permission of instructor and economics director of grad studies. Not open to students with credit for 8731 (740), or 8732 (741), or 8733 (742), or 703.			
<b>6745</b>	<b>Contemporary Political Economy</b>	<b>G</b>	<b>3</b>
Survey of contemporary theories on the interactions between economic policies, domestic institutions and the international economy, and their consequences for political economy. Prereq: Grad standing or permission of instructor. Not open to students with 6 cr hrs for 6745 and PolitSc, or 10 cr hrs for 735 and PolitSc 735. Repeatable to a maximum of 6 cr hrs. Cross-listed in PolitSc 7280.			
<b>7191</b>	<b>Internship in Professional Economics I</b>	<b>G</b>	<b>0 - 1</b>
Practicum for economics graduate students who have completed the core curriculum in microeconomics, macroeconomics and econometrics to apply economic analysis on tasks and problems in an empirical economy or economic organizations. Prereq: Satisfactory completion of the first-year Ph.D. courses or equivalent with permission of Economics Director of Graduate Studies. Not open to students with credit for 901. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is graded S/U.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 4</b>
Supervised and individually designed readings in economics for postqualifier students in economics or graduate students in noneconomic graduate programs. Prereq: Open to students who completed the first-year graduate PhD core course curriculum and with permission of instructor. Not open to students with credit for 893. Repeatable to a maximum of 2 cr hrs or 5 completions. This course is graded S/U. Letter Grade option available only with approval of economics director of graduate studies.			
<b>7194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>
Lecture course of select topics designed to complement existing graduate courses in economics. Prereq: Grad standing in economics or related disciplines; permission of instructor and economics director of graduate studies. Not open to students with credit for 894. Repeatable to a maximum of 44 cr hrs or 11 completions. S/U option only available with approval of economics director of graduate studies.			
<b>7700</b>	<b>Mathematics for Economics I</b>	<b>G</b>	<b>3</b>
Mathematical concepts and techniques used in advanced economic research; real analysis; metric spaces; topology; measure and integration; convexity; separation theorems; contraction mapping; fixed point theorems; applications. Prereq: Permission of instructor and economics director of grad studies; primarily for PhD students in economics and related disciplines. Not open to students with credit for 700.			
<b>7789</b>	<b>Survey Research Practicum</b>	<b>G</b>	<b>3</b>
Hands-on applications for students interested in the planning, implementation, and analysis of a scientific sample survey. Prereq: Enrollment in Graduate Interdisciplinary Specialization program, or permission of program director. Not open to students with credit for Econ 789, AgrEduc 789, BusMktg 789, EduPL 789, Geog 789, JCom 789, PolitSc 789, Psych 789, PubHlth 789, PubPolM 789, Sociol 789, or Stat 789. Cross-listed in AEDEcon, AgrEduc, BusMktg, EduPL, Geog, JCom, PolitSc, Psych, PubHlth, PubPolM, Sociol, and Stat.			
<b>8191</b>	<b>Internship in Professional Economics II</b>	<b>G</b>	<b>0 - 1</b>
Practicum for advanced economics graduate students who have completed Ph.D. course requirements to apply economic analysis on tasks and problems in an empirical economy or economic organizations. Prereq: Satisfactory completion of the Ph.D. core and field courses or equivalent with permission of Economics Director of Grad Studies. Not open to students with credit for 901. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 4</b>
Supervised and individually specialized studies for PhD students who have finished regular course work in their economics PhD program. Letter grade option available only with approval of economics director of graduate studies. Prereq: Permission of instructor. Repeatable to a maximum of 44 cr hrs. This course is graded S/U.			
<b>8194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 4</b>
Advanced new course material in economics offered to complement existing PhD courses. Prereq: Grad standing in Econ or related field, and permission of instructor and Grad studies director for Econ. Not open to students with credit for 894. Repeatable to a maximum of 44 cr hrs or 11 completions.			

<b>8711</b>	<b>Microeconomic Theory IA</b>	<b>G</b>	<b>3</b>
Rigorous survey of the neoclassical paradigm dealing with individual economic agents, firms and markets; covers core concepts and methods such as equilibrium, optimality, duality, comparative statics and envelope theorems. Prereq: Grad standing in Econ, or related discipline with permission of Economics Director of Grad Studies.			
<b>8712</b>	<b>Microeconomic Theory IB</b>	<b>G</b>	<b>3</b>
Continuation and extension of Microeconomic Theory 1A to study competitive general equilibrium, optimality and welfare theorems; includes analysis of individual agents' behavior under uncertainty and markets subject to asymmetric information. Prereq: 8711, or equiv, and permission of Economics Director of Grad Studies.			
<b>8713</b>	<b>Microeconomic Theory IIA</b>	<b>G</b>	<b>3</b>
Rigorous introduction to game theoretic methods and concepts and their applications to study strategic interactions in economic organizations, including imperfectly competitive markets and economies with public goods and externalities. Prereq: 8711 or 8712, or equiv, and permission of economics director of grad studies.			
<b>8714</b>	<b>Microeconomic Theory IIB</b>	<b>G</b>	<b>3</b>
A theoretical treatment of information economics and mechanism design; topics include implementation, dominant strategy mechanism, Bayesian mechanism design, adverse selection, moral hazard, social choice and auctions. Prereq: 8713, or equiv, and permission of Economics Director of Graduate Studies.			
<b>8721</b>	<b>Macroeconomic Theory IA</b>	<b>G</b>	<b>3</b>
A rigorous introduction to modern macroeconomic analysis and models of economic growth with emphasis on dynamic competitive equilibrium analysis: topics include dynamic programming applied to stochastic environments. Prereq: Grad standing, and permission of Economics Director of Grad Studies.			
<b>8722</b>	<b>Macroeconomic Theory IB</b>	<b>G</b>	<b>3</b>
Continuation of 8721 with recent developments in macro and monetary economics; topics include business cycles, endogenous growth, equilibrium unemployment and risk sharing in incomplete markets. Prereq: 8721 or equiv, and permission of Economics Director of Grad Studies.			
<b>8723</b>	<b>Macroeconomic Theory IIA</b>	<b>G</b>	<b>3</b>
Continuation of Macroeconomic Theory IA-IB with emphasis on dynamic general equilibrium models with shocks and frictions and their empirical assessment. Prereq: 8722, or equiv, and permission of Economics Director of Grad Studies.			
<b>8724</b>	<b>Macroeconomic Theory IIB</b>	<b>G</b>	<b>3</b>
Micro foundations of aggregate demand from the perspective of dynamic optimization; topics also include permanent income, lifetime portfolio choice, Q-theory of investment, consumption CAPM, term structure and long term risk. Prereq: 8723, or 806 and 807, or equiv, and permission of Economics Director of Grad Studies. Not open to students with credit for 809.			
<b>8731</b>	<b>Econometrics I</b>	<b>G</b>	<b>4</b>
Probability; random variables; sampling distributions; limit theorems; point and interval estimation; statistical hypothesis testing; multiple regression analysis in the linear model including finite-sample and asymptotic statistical properties. Prereq: 6700, 6701, or Stat 5201; or equiv with permission of economics director of grad studies.			
<b>8732</b>	<b>Econometrics II</b>	<b>G</b>	<b>4</b>
Generalized least squares; specification tests; generalized method of moments; endogenous regressors and simultaneous equation systems; panel data; nonlinear estimation; discrete and limited dependent variable models; and basic time-series analysis. Prereq: 8731, or equiv with permission of Economics Director of Graduate Studies.			
<b>8733</b>	<b>Econometrics III</b>	<b>G</b>	<b>3</b>
Continuation of Economics 8731 and 8732 with an emphasis on applications of econometric theory and methods, including the use of advanced econometric software to various fields of economics. Prereq: Econ 8731 and 8732, or equiv with permission of instructor. Not open to students with credit for 640, 740, 741, and 742.			
<b>8781.01</b>	<b>First Year Research Principles and Techniques in Core Microeconomics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study of research principles and techniques for first-year PhD students in economics with focus on microeconomics. Prereq: 8714 (808), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8781.02</b>	<b>First Year Research Principles and Techniques in Core Macroeconomics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study of research principles and techniques for first year PhD students in economics with focus on macroeconomics. Prereq: 8724 (809), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

<b>8781.03</b>	<b>First Year Research Principles and Techniques in Core Econometrics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study of research principles and techniques for first year PhD students in economics with focus on econometrics. Prereq: 8732 (742), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8781.05</b>	<b>First Year Research Principles and Techniques in Economics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study of research principles and techniques for first year PhD students in economics. Prereq: Grad standing in Economics, and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.01</b>	<b>Second Year Research Principles and Techniques in Economic Theory</b>	<b>G</b>	<b>1 - 3</b>
Group independent study-cum-workshop to facilitate integrative reviews of concepts and techniques in major themes of economic theory, to prepare for field exams/papers, and to develop research perspectives. Prereq: 8816 (815), 8817 (817), or 8818 (818), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.02</b>	<b>Second Year Research Principles and Techniques in Macroeconomics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in macro-monetary economics and to develop research topics. Prereq: 8821 (810), 8822 (811), or 8823 (820), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.03</b>	<b>Second Year Research Principles and Techniques in Econometrics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in econometrics and to develop research topics. Prereq: 8830 (840), 8831 (841), or 8832 (842), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.04</b>	<b>Second Year Research Principles and Techniques in Public and Urban Economics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in public and urban economics and to develop research topics. Prereq: 7790 (790), 8841 (830), or 8842 (832), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.05</b>	<b>Second Year Research Principles and Techniques in Labor Economics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in labor economics and to develop research topics. Prereq: 8851 (883), 8852 (884), or 8853 (981), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.06</b>	<b>Second Year Research Principles and Techniques in International Economics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in international economics and to develop research topics. Prereq: 8861 (861), 8862 (862), or 8863 (863), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.07</b>	<b>Second Year Research Principles and Techniques in Industrial Organization</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in industrial organization and to develop research topics. Prereq: 8871 (871), 8872 (872), or 8873 (970), and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.08</b>	<b>Second Year Research Principles and Techniques in Economic History</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in economic history and to develop research topics. Prereq: 5130 (614), 5140 (613), or 5150 (615), and permission of instructor and economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8782.09</b>	<b>Second Year Research Principles and Techniques in Experimental Economics</b>	<b>G</b>	<b>1 - 3</b>
Group independent study designed to integrate and reinforce field knowledge and methods in experimental and behavioral economics and to develop research topics. Prereq: 8873 (970) or 8875, and permission of economics director of graduate studies. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

## 142 Economics

**8782.10 Second Year Research Principles and Techniques in Growth and Development Economics** G 1 - 3

Group independent study designed to integrate and reinforce field knowledge and methods in growth and development economics and to develop research topics.  
Prereq: 8863 (863), and a field course approved by economics director of graduate studies, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

**8782.20 Second Year Research Principles and Techniques in Economics** G 1 - 3

Group independent study designed to integrate and reinforce knowledge and methods acquired in advanced field courses, and to develop research topics.  
Prereq: Major field courses approved by economics director of graduate studies, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

**8783.01 Advanced Research Principles and Techniques in Economic Theory** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of advanced economic theory. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.02 Advanced Research Principles and Techniques in Macroeconomics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of macroeconomics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.03 Advanced Research Principles and Techniques in Econometrics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of econometrics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.04 Advanced Research Principles and Techniques in Public and Urban Economics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of public and urban economics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.05 Advanced Research Principles and Techniques in Labor Economics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of labor economics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.06 Advanced Research Principles and Techniques in International Economics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of international economics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.07 Advanced Research Principles and Techniques in Industrial Organization** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of industrial organization. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.08 Advanced Research Principles and Techniques in Economic History** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of economic history. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.09 Advanced Research Principles and Techniques in Experimental Economics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of experimental and behavioral economics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.10 Advanced Research Principles and Techniques in Growth and Development Economics** G 1 - 3

Group independent study to prepare students for original research and innovation in the field of growth and development economics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8783.20 Advanced Research Principles and Techniques in Economics** G 1 - 3

Group independent study to prepare students for original research and innovation in economics. Open to students who have completed field courses approved by economics director of graduate studies.  
Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

**8816 Advanced Economic Theory I** G 3

A topic-driven course in advanced microeconomic theory, game theory and decision theory, and their theoretical applications with emphasis on important recent results.  
Prereq: 8714 (808), or equiv with permission of instructor. Not open to students with credit for 815.

**8817 Advanced Economic Theory II** G 3

Thorough treatment of major developments in game theory and a survey of major applied game theory topics such as mechanism design, bargaining, and oligopoly.  
Prereq: 8714 (808) or equiv with permission of instructor. Not open to students with credit for 817.

**8818 Advanced Economic Theory III** G 3

Theoretical approaches to economics of information; how information affects individual behavior and market equilibrium; moral hazard; adverse selection; incomplete contracts; rational expectations; and principal-agency models.  
Prereq: 8714 (808), or equiv with permission of instructor. Not open to students with credit for 818.

**8819 Economics of Uncertainty** G 3

Classical and modern approaches to decision-making and economic behavior under uncertainty; classical expected utility; subjective probability; behavioral theory of economic choice under uncertainty. S/U option available only with permission of Grad studies director for Econ.  
Prereq: 8714 (808) or equiv, or permission of instructor. Not open to students with credit for 819.

**8821 Advanced Macroeconomics I** G 3

Recent contributions to macro-monetary economics in theoretical, empirical and policy areas; topics include computational methods, econometric techniques, dynamic modeling and empirical assessment.  
Prereq: 8724 (809), or permission of instructor. Not open to students with credit for 810.

**8822 Advanced Macroeconomics II** G 3

Studies roles of preferences, technology, endowments, and market structures to determine the behavior of aggregate variables. Topics include: dynamic stochastic general equilibrium, rational expectations, business cycles, and propagation mechanisms.  
Prereq: 8732 (742), or 8724 (809), or permission of instructor. Not open to students with credit for 811.

**8823 Advanced Macroeconomics III** G 3

Studies the macroeconomic implications of discrete decisions by heterogeneous agents and assesses quantitative DSGE models. Topics include: lumpy adjustments, non-convex adjustment costs, and the interactions of real and financial frictions.  
Prereq: 724, or 809, or permission of instructor. Not open to students with credit for 820.

**8825 Advanced Macroeconomic Methods** G 3

Develops numerical methods for dynamic stochastic general equilibrium models with heterogeneity and non-convexities. Applications include: models of households with uninsurable risk and borrowing constraints, and firms with adjustment costs.  
Prereq: Not open to students with credit for 816.

**8830 Advanced Econometrics I** G 3

Fundamental elements of time series methods and recently developed techniques for the analysis of economic time series.  
Prereq: 8732 (742), or equiv with permission of instructor. Not open to students with credit for 840.

**8831 Advanced Econometrics II** G 3

Selected advanced topics in econometrics - such as nonparametric and semiparametric estimation, numerical optimization, simulation methods - including Markov chain Monte Carlo methods and duration models used in economics.  
Prereq: 8732 (742) or equiv with permission of instructor. Not open to students with credit for 841.

**8832 Advanced Econometrics III** G 3

Theory and applications of advanced econometric methods with emphasis on parameter estimation and testing in nonlinear models. Topics include: large sample theory, extremum estimators, likelihood approach, and the GMM framework.  
Prereq: 8732 (742) or equiv with permission of instructor. Not open to students with credit for 842.

<b>8833</b>	<b>Micro Econometrics</b>	<b>G</b>	<b>3</b>
Recent advances in micro econometrics, covering both theoretical and applied areas, with emphasis varying with instructor's research interest such as spatial econometrics and social interaction models. Prereq: Econ 8732 (742), Econ 8831 (841), and Econ 8832 (842), or equiv, or permission of instructor. Not open to students with credit for 843. Repeatable to a maximum of 12 cr hrs.			
<b>8851</b>	<b>Labor Economics I</b>	<b>G</b>	<b>3</b>
Theoretical and empirical methods used to understand life-cycles and interpersonal variations in earnings. Topics include: human capital, job-market signaling, matching, schooling, and mobility. Prereq: 8712 (804, 805), and 8731 (741), or equiv with permission of instructor. Not open to students with credit for 883.			
<b>8852</b>	<b>Labor Economics II</b>	<b>G</b>	<b>3</b>
Theories and empirical analysis of the demand for labor and changes in the wage structure over time; the determinants of youth outcomes and behaviors including the effect of family and peer groups. Prereq: 8712 (804, 805), and 8731 (741), or equiv with permission of instructor; 8851 (883) recommended. Not open to students with credit for 884.			
<b>8853</b>	<b>Labor Economics III</b>	<b>G</b>	<b>3</b>
An examination of models and methods used to study household labor supply behavior. Topics include: retirement, the determinants of child outcomes, and demographic behavior. 8852 (884) is recommended. Prereq: 8851 (883). Not open to students with credit for 981.			
<b>8856</b>	<b>Health Economics</b>	<b>G</b>	<b>3</b>
This course covers major research topics in health care and individual economics decisions related to health, structure of health care and insurance markets, and government policies. The course also provides a survey of data resources available to researchers in health economics, and the methodology of measurement and valuation of healthcare market performance and quality of healthcare providers. Prereq: 8712 and 8731; or permission of instructor.			
<b>8861</b>	<b>International Economics I</b>	<b>G</b>	<b>3</b>
Theory and empirics of the determinants of trade, analysis of comparative advantage, trade patterns, gains from trade, commercial policies on resource allocations, income distribution and growth. Prereq: 8712 (804, 805). Not open to students with credit for 861.			
<b>8862</b>	<b>International Economics II</b>	<b>G</b>	<b>3</b>
Theory and empirics of international macroeconomics. Topics include: open-economy business cycles, determinants of exchange rates, international capital flows and resource allocations, financial constraints, and computational and estimation methods. Prereq: 8712 (804, 805) 8722 (806, 807); and 8861 (861) recommended. Not open to students with credit for 862.			
<b>8863</b>	<b>International Economics III</b>	<b>G</b>	<b>3</b>
Evolution of world economy from theoretical and empirical perspectives; trade; growth and development; international capital markets; financial crises and sovereign default; international business cycle transmissions. Prereq: 8712 (804, 805), and 8722 (806, 807); and 8862 (862) recommended. Not open to students with credit for 863.			
<b>8871</b>	<b>Industrial Organization I</b>	<b>G</b>	<b>3</b>
A survey of theoretical concepts used to analyze industry structure, firm conduct, market performance and related issues of public policy; topics include recent developments in the theory of the firm as well as models of competition and rivalry. Prereq: 8713 (805, 808). Not open to students with credit for 871.			
<b>8872</b>	<b>Industrial Organization II</b>	<b>G</b>	<b>3</b>
A survey of empirical methods used to analyze industry structure, firm conduct, market performance and related issues of public policy. Prereq: 8871 (871), and 8732 (742); or permission of instructor. Not open to students with credit for 872.			
<b>8873</b>	<b>Industrial Organization III: Economic Analysis of Auctions</b>	<b>G</b>	<b>3</b>
A survey of auction theory, experiments, and empirics; topics include private and common value auctions, multi-unit demand auctions, sequential and simultaneous auctions, and related research material. Prereq: 8714 (808), or equiv, and permission of instructor.			
<b>8874</b>	<b>Computational Econometric Methods in Applied Microeconomics</b>	<b>G</b>	<b>3</b>
This course covers computational methods used in applied microeconomic research, with particular focus on applications to the estimation and analysis of structural discrete choice models used in the study of empirical industrial organization. Prereq: 8711 and 8731.			
<b>8875</b>	<b>Experimental &amp; Behavioral Economics</b>	<b>G</b>	<b>3</b>
A survey of concepts and methods in experimental and behavioral economics for advanced graduate students; topics include impacts of heuristics and biases on "rational" behavior, other-regarding preferences, bargaining, public goods and market design. 8873 (970) recommended. Prereq: 8714 (808), 804, or 805, or equiv, or permission of instructor.			

<b>8876</b>	<b>Industrial Organization IV: Empirical Research Methods</b>	<b>G</b>	<b>3</b>
Recently developed techniques for estimating market power and costs with incomplete data, with applications to antitrust economics. The goal is to give you an understanding of state of the art empirical tools, with the purpose of preparing students for research. Prereq: 8714, and permission of instructor.			
<b>8891.01</b>	<b>Economic Theory Seminar</b>	<b>G</b>	<b>1 - 3</b>
Latest developments in advanced research in general economic theory, game theory and related fields. Prereq: 8714 (808), and permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
<b>8891.03</b>	<b>Colloquium in Economic Theory</b>	<b>G</b>	<b>1 - 3</b>
A supervised workshop in which advanced graduate students report their latest research in progress on the themes chosen by the colloquium instructor in advanced theory and related fields. Open to students who have completed PhD field courses approved by economics director of graduate studies. Prereq: Permission of instructor and economics director of graduate studies. Repeatable to a maximum of 16 cr hrs or 8 completions.			
<b>8892.01</b>	<b>Macroeconomics Seminar</b>	<b>G</b>	<b>1 - 3</b>
Latest developments in advanced research in macro-monetary economics and related fields. Prereq: 8724 (809), and permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
<b>8892.02</b>	<b>Workshop in Macroeconomics</b>	<b>G</b>	<b>1 - 2</b>
Forum to report and discuss the latest research results by graduate students, faculty members and outside speakers in macro-monetary economics and related fields. Prereq: Econ 8724 (809), and permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions. This course is graded S/U.			
<b>8892.03</b>	<b>Colloquium in Macroeconomics</b>	<b>G</b>	<b>1 - 3</b>
A supervised workshop in which advanced graduate students report their latest research in progress on the themes chosen by the colloquium instructor in macroeconomics and related fields. Open to students who have completed PhD field courses. Repeatable to a maximum of 16 cr hrs or 8 completions.			
<b>8893.01</b>	<b>Econometrics Seminar</b>	<b>G</b>	<b>1 - 3</b>
Latest developments in advanced research in econometrics and related fields. Prereq: 8732 (741 and 742), and permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions.			
<b>8893.03</b>	<b>Colloquium in Econometrics</b>	<b>G</b>	<b>1 - 3</b>
A supervised workshop in which advanced graduate students report their latest research in progress on the themes chosen by the colloquium instructor in econometrics. Prereq: Successful completion of micro and macro qualifiers, successful completion of two Ph.D. field requirements (econometrics recommended), and permission of instructor and economics director of graduate studies. Repeatable to a maximum of 16 cr hrs or 8 completions.			
<b>8894.01</b>	<b>Applied Microeconomics Seminar</b>	<b>G</b>	<b>1 - 3</b>
Latest developments in advanced research in applied microeconomics fields. Prereq: 8714 (808), and permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions.			
<b>8894.02</b>	<b>Workshop in Applied Microeconomics</b>	<b>G</b>	<b>1 - 2</b>
Forum to report and discuss the latest research results by graduate students, faculty members and outside speakers in applied microeconomics fields. Prereq: 8714 (808), and permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions. This course is graded S/U.			
<b>8894.03</b>	<b>Colloquium in Applied Microeconomics</b>	<b>G</b>	<b>1 - 3</b>
A supervised workshop in which advanced graduate students report their latest research in progress on the themes chosen by the colloquium instructor in applied microeconomics and related fields. Prereq: Completion of Ph.D. field courses approved by economics director of graduate studies, and permission of instructor and economics director of graduate studies. Repeatable to a maximum of 16 cr hrs or 8 completions.			
<b>8999</b>	<b>Dissertation Research</b>	<b>G</b>	<b>1 - 3</b>
Dissertation research in economics. Prereq: Doctoral candidate in Economics. Repeatable to a maximum of 60 cr hrs or 20 completions. This course is graded S/U.			

## Education and Human Ecology

<b>1100</b>	<b>Introduction to Education &amp; Human Ecology and Degree Planning</b>	<b>U</b>	<b>1</b>
Introduction to Education and Human Ecology degree programs, survey of university and college policies and procedures, and focus on degree planning. Prereq: Not open to students with credit for HumanEc 100 or EduPAES 100.			

## 144 Education and Human Ecology

<b>1100H</b>	<b>Introduction to Education &amp; Human Ecology and Degree Planning</b>	<b>U</b>	<b>1</b>
Introduction to Education and Human Ecology degree programs, survey of university and college policies and procedures, focus on degree planning, establishment of Honors requirements, and development of Honors contracts. Prereq: Honors standing. Not open to students with credit for HumanEc 100 or EduPAES 100.			
<b>2194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 5</b>
Study of special or interdisciplinary topics at an introductory level. Repeatable to a maximum of 15 cr hrs or 15 completions.			
<b>2788H</b>	<b>Education and Human Ecology Undergraduate Honors Seminar</b>	<b>U</b>	<b>1</b>
Seminar for sophomores and juniors in the Education and Human Ecology undergraduate honors program. Students will explore research topics, and learn about the process of completing a scholarly research project. Prereq: Honors standing, and Soph or Jr standing, and enrollment in EHE major or pre-major.			
<b>2990</b>	<b>Professional Career Development</b>	<b>U</b>	<b>1</b>
Job Search strategies for students including: Self-assessment, goal setting, job research, communication and correspondence, resumes, interviewing, portfolios and life after college. This course will not count for credit in any EHE major. Elective credit only. Prereq: Soph standing, and pre-majors and/or majors in College of Education and Human Ecology. Not open to students with credit for ConSci 2990, HDFS 3800, or EduPAES 2270.04. This course is graded S/U.			
<b>3000</b>	<b>Foundations for Peer Leaders in First Year Experience</b>	<b>U</b>	<b>1</b>
This foundational course introduces necessary skills/knowledge to work effectively as a Peer Leader in First Year Experience. Content covers first-year transition issues, student development theory, OSU policies and resources, relationship-building, and paraprofessional skills. Emphasis is on content relevant to experiences of New First Year Students across the university. Prereq: Only open to students who have been selected to participate in the FYE Peer Leader program, and permission of instructor. Repeatable to a maximum of 2 cr hrs.			
<b>3100</b>	<b>Paraprofessional Skill Development for EHE Peer Mentors</b>	<b>U</b>	<b>1</b>
This course provides a framework for undergraduate students to work effectively with their peers. The development of communication, public speaking, decision-making, and referral skills is stressed. Current issues in higher education are also explored. This course is limited to participants in the EHE Peer Mentor program. Prereq: Permission of instructor or department. Repeatable to a maximum of 3 cr hrs.			
<b>3191</b>	<b>Internships in Education and Human Ecology</b>	<b>U</b>	<b>1 - 3</b>
Fourteen week practical experience or equivalent in an approved organization related to student's major interest. This general internship option is for experiences that do not fit program specific EHE Internships. This course will not count for credit in any EHE major. Elective credit only. Prereq: CPHR 2.0 or above, and pre-major and/or major in Education and Human Ecology, and permission of instructor. Not open to students with credit for ConSci 3191 and 4191, or HDFS 2189, 3189.01, 3189.02, 3189.03, 3189.04, 3189.05, 3189.06, 3189.07, HumnNtr 4189, EduPAES 2189.21, 4189.05, 4489.05, 4191.20, 4191.21, 4191.40, 5191.23, or 6191. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
<b>4194</b>	<b>Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Group studies on special issues in education. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>4998</b>	<b>Undergraduate Research in Education &amp; Human Ecology</b>	<b>U</b>	<b>0 - 15</b>
Undergraduate research or creative activities in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.			
<b>4998H</b>	<b>Honors Undergraduate Thesis Research</b>	<b>U</b>	<b>0 - 15</b>
Undergraduate research or creative activities in variable topics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions. This course is graded S/U.			
<b>5193</b>	<b>Individual Studies</b>	<b>U G</b>	<b>1 - 3</b>
Individual study in the fields of education or human ecology. Prereq: Permission of instructor. This course is graded S/U.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 18</b>
An opportunity for students to study at a foreign institution and receive OSU credit for work completed there. Students will pay OSU fees and any fees in excess of OSU tuition, as well as all travel and subsistence costs. Prereq: Permission of department chairperson. Repeatable to a maximum of 54 cr hrs or 3 completions.			
<b>5892</b>	<b>Workshop</b>	<b>U G</b>	<b>1 - 5</b>
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices. Repeatable to a maximum of 20 cr hrs or 4 completions.			

<b>8000</b>	<b>Responsible Conduct of Research (RCR)</b>	<b>G</b>	<b>1</b>
Overview of the concepts and policies required for the Responsible Conduct of Research (RCR), with particular attention to federally funded research requirements. This course fulfills the NIH training requirement for research ethics. This is a condensed four-week course. Typically taught in session 1 of summer term. Prereq: Grad standing in the College of Education and Human Ecology, or permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			

## Education: Teaching and Learning

<b>1010</b>	<b>Intensive English: Integrated Skills</b>	<b>U</b>	<b>0</b>
Integrated Skills for students in the Intensive English Program. Prereq: Admission to American Language Program, and permission of Director. Repeatable to a maximum of 10 completions.			
<b>1120</b>	<b>Intercultural Communication for Undergrad Business &amp; Pre-business Majors</b>	<b>U</b>	<b>2</b>
This performance-based course focuses on the speaking skills that facilitate success in the Fisher College of Business, OSU, and ultimately in the global business community. Aimed at helping first-year international undergraduate students, the course features activities, discussions, and readings related to cross-cultural conventions of spoken English and business English. Prereq: First-year international student in the Fisher College of Business, and students who scored 24 or below on the oral proficiency section of the TOEFL.			
<b>1901</b>	<b>Advanced English as a Second Language</b>	<b>U</b>	<b>3</b>
Reviews advanced English patterns with emphasis on their use in writing essays. Intended for undergraduates. Prereq: Placement test score of 1901.			
<b>1902</b>	<b>Academic Writing in English as a Second Language</b>	<b>U</b>	<b>3</b>
Attention given to various practices involving reading and source-based writing. Rhetorical and linguistic issues addressed. Synthesis and argumentative writing in response to literary and nonliterary texts. Intended for undergraduates. Prereq: A grade of D or above in 1901, or Placement Test.			
<b>1902.04</b>	<b>Academic Writing in English as a Second Language</b>	<b>U</b>	<b>4</b>
Attention given to various practices involving reading and source-based writing. Rhetorical and linguistic issues addressed. Synthesis and argumentative writing in response to literary and nonliterary texts. Intended for undergraduates. Prereq: Placement test.			
<b>2100</b>	<b>Dramatic and Arts-Based Teaching and Learning</b>	<b>U</b>	<b>3</b>
Students will become comfortable with, and knowledgeable about arts integration: dramatic and arts-based approaches to teaching and learning in diverse settings (schools, art museums, theatres, community centers).			
<b>2189</b>	<b>Field Experience</b>	<b>U</b>	<b>1 - 2</b>
Professional service with children or youth in a school or community agency. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.			
<b>2367</b>	<b>Education, Society and Writing</b>	<b>U</b>	<b>3</b>
Designed to help students reflect critically, both orally and in writing, on the social, political, and cultural contexts that influence education in today's society. Prereq: A GE level 1 writing course. Not open to students with credit for 607. GE writing and comm course: level 2.			
<b>2368</b>	<b>Introduction to Children's Literature</b>	<b>U</b>	<b>3</b>
This is a survey course in which students study the historical and contemporary elements of literature intended for children, including picturebooks; traditional tales; novels of realism, and fantasy; nonfiction; poetry; and multicultural books. Prereq: English 1110, or equiv. Not open to students with credit for 467. GE lit course.			
<b>2744</b>	<b>Technologies Used In STEM Education</b>	<b>U</b>	<b>3</b>
The role and scope of educational technology for standards based STEM instruction. Exploration of areas in which mathematics, science education, and technology education can effectively use educational technology in a pedagogically sound manner. Technology has two roles in STEM education; to teach and learn with, and as a tool for doing STEM.			
<b>2820</b>	<b>Creativity and the Arts in Early Childhood Development and Education</b>	<b>U</b>	<b>3</b>
This course introduces students to basic definitions, theories, and practical examples of using creativity, imagination, and the arts as means for educating young children within and outside of traditional early childhood educational settings.			
<b>3160</b>	<b>Application of Development in Learning Contexts</b>	<b>U</b>	<b>3</b>
Designed for students to apply theories and research of child growth and development in multiple learning contexts. Prereq: Not open to students with credit for 460. GE soc sci indivs and groups course.			
<b>3189.01</b>	<b>Field Experience: Early Childhood Education</b>	<b>U</b>	<b>1 - 2</b>
This field experience is designed as a practice-based companion to the EC Pedagogy class. Prereq: Admission to Early Childhood Education Major. Repeatable to a maximum of 4 cr hrs or 4 completions.			

## Education: Teaching and Learning 145

### 3189.02 Field Experience: Middle Childhood Education U 1 - 2

The experience is designed to provide : lesson planning, teaching, and classroom management; student learning, interests, and perspectives; (3) the requirements of being a professional educator; and effectively bringing together the work done in a university classroom with work done in grade 4-9 classrooms.

Prereq: Admission to Middle Childhood Education Major. Repeatable to a maximum of 4 cr hrs or 4 completions.

### 3189.03 Field Experience: English Language Education U 1 - 2

The field experience is designed to provide: (1) lesson planning, teaching, and classroom management; (2) student learning, interests, and perspectives; (3) the requirements of being a professional educator; and (4) effectively bringing together the work done in a university classroom with work done in 7-12 integrated language arts classrooms.

Prereq: Admission to English Language Arts Education Major. Repeatable to a maximum of 4 cr hrs or 4 completions.

### 3189.05 Field Experience: Early Childhood Visual Impairment U 1 - 2

The experience is designed to provide: how students think & learn; how teachers engage students with visual impairments & others in the classroom in learning; how to work with children with VI in groups, including effectual guidance & discipline strategies; how to connect the classroom to families & community; how you can effectively bring the work done in pedagogy to work with VI students.

Prereq: Admission to Early Childhood Education Major and Visual Impairments licensure program. Repeatable to a maximum of 4 cr hrs or 4 completions.

### 3189.06 Field Experience: World Language Education U 1 - 2

Directed field experience emphasizing appropriate teaching strategies for world language education with different school age children and settings.

Prereq: Admission to World Language Education Major. Repeatable to a maximum of 4 cr hrs or 4 completions.

### 3189.08 Field Experience: TESOL U 1 - 2

Directed field experience emphasizing appropriate teaching strategies for TESOL with different school age children and settings.

Prereq: Admission to TESOL major. Repeatable to a maximum of 4 cr hrs or 4 completions.

### 3189.09 Field Experience: Child and Youth Studies U 1 - 2

Field experience designed to provide undergraduate students in the Child & Youth Studies program an opportunity to work with a cooperating professional within an educational or community organization focusing on teaching & learning.

Prereq: Admission to Child and Youth Studies Major. Repeatable to a maximum of 4 cr hrs or 4 completions.

### 3193 Individual Studies U 1 - 3

Individual study projects.

Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions.

This course is graded S/U.

### 3194 Group Studies U 1 - 3

Group studies on special problems in education.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.

### 3356 Literature for Adolescents U 3

Literature for individual, group, and whole-class reading in junior and senior high schools; interest factors and literary value as criteria for selection; bibliographic aids.

Prereq: English 1110 or equivalent. Not open to students with credit for 656 or 3356E. GE lit course.

### 3356E Literature for Adolescents U 3

Literature for individual, group, and whole-class reading in junior and senior high schools; interest factors and literary value as criteria for selection; bibliographic aids.

Prereq: English 1110 or equivalent. Not open to students with credit for 3356 (656). GE lit course.

### 4005 Urban Teaching and Learning U 3

This course introduces students to issues related to teaching and learning in urban school contexts.

Prereq: Not open to students with credit for 559. GE soc sci indivs and groups and diversity soc div in the US course.

### 4015 Sexualities and Education U 3

Examination of sexual orientation as an arena of diversity in K-12 and higher education as well as society.

Prereq: Not open to students with credit for EduPL 415.

### 4174 Family Participation in Early Childhood School Programs: General Student Body U 3

The purposes and importance of family involvement in early childhood school programs, types of programs, resources, methods, and curricula.

### 4189.01 Advanced Field Experience: Early Childhood Education U 1 - 4

The field experience is designed to provide: classroom practices in lesson planning, teaching, and guidance and discipline; student learning, interests, and perspectives; the official and unofficial requirements of being a professional educator; and how you can effectively bring together the work done in a university classroom with your work in classrooms with students age 3 to grade 3.

Prereq: Admission to Early Childhood Education Major. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4189.02 Advanced Field Experience: Middle Childhood Education U 1 - 4

The field experience is designed to provide: best practices in lesson planning, teaching, and classroom management; student learning, interests, and perspectives; the official and unofficial requirements of being a professional educator; and how you can effectively bring together the work done in a university classroom with grade 4-9 classrooms.

Prereq: Admission to Middle Childhood Education Major. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4189.03 Advanced Field Experience: English Language Arts Education U 1 - 4

The advanced field experience is designed to provide: lesson planning, pedagogy, and classroom management; student learning, interests, and perspectives; the requirements of being a professional educator; and effectively bringing together the work done in a university classroom with work done in 7-12 integrated language arts classrooms.

Prereq: Admission to English Language Arts Education Major. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4189.05 Advanced Field Experience: Early Childhood/Visual Impairment U 1 - 4

The field experience is designed to provide: best practices in lesson planning, teaching, & classroom management; (2) student learning, interests, & perspectives; official & unofficial requirements of being a professional educator; & how you can effectively bring together the work done in a university classroom with your work in classrooms or educational settings with students in ECVI.

Prereq: Admission to Early Childhood Education Major and Visual Impairments licensure program. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4189.06 Advanced Field Experience: World Language Education U 1 - 4

Directed field experience emphasizing appropriate teaching strategies for World Language K-12 students.

Prereq: Admission to World Language Education Major. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4189.07 Advanced Field Experience: STEM Education U 1 - 4

The purpose of this field experience is to support & enhance the development of educational leaders who engage in & implement research-based practices to support & advance STEM 7-12 educational progress. Our program prepares interns for initial licensure & engage experienced educators who aspire to advance their practice.

Prereq: Admission to STEM Education Major. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4189.08 Advanced Field Experience: TESOL U 1 - 4

Directed field experience emphasizing appropriate teaching strategies for TESOL grades K-12.

Prereq: Admission to TESOL Major. Repeatable to a maximum of 12 cr hrs or 3 completions.

### 4191 Internship U 1 - 15

Internship in an educational or community setting.

Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.

### 4303 Linguistic Diversity in Education U 3

Prepares students to work effectively with linguistically diverse populations in educational contexts and includes an introduction to linguistic diversity and how it shapes teaching and learning.

### 4998 Undergraduate Research in Teaching and Learning U 1 - 4

Undergraduate Research is completed by junior and/or senior students as an independent study under the supervision of a faculty member. The student will conceptualize a research study, identify theories and methods appropriate to the research, and assume responsibility for data collection, data management, and other activities pertaining to the research project including scholarly writing.

Prereq: A cumulative GPA of 3.0 or above. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

### 4998H Undergraduate Research in Teaching and Learning U 1 - 4

Undergraduate Research is completed by junior and/or senior honors students as an independent study under the supervision of a faculty member. The student will conceptualize a research study, identify theories and methods appropriate to the research, and assume responsibility for data collection, data management, and other activities pertaining to the research project including scholarly writing.

Prereq: Honors standing, and an overall GPA of 3.40 or above. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

### 5005 Equity and Diversity in Education U G 3

Focuses on issues of diversity, equity, teacher beliefs, and multicultural education. Emphasis is placed on the roles of identity and lived experience and its influences on approaches to teaching and learning in educational settings.

Prereq: Not open to students with credit for 815.

## 146 Education: Teaching and Learning

**5030 Spoken English for Academic Contexts U G 2**

This course is designed for international undergraduates and graduates who would like to improve their oral English proficiency and confidence speaking for academic purposes, as well as their familiarity with the languages and cultures of the U.S. and of OSU. The course is based on the principle that speaking improves only with ample opportunities to speak. Repeatable to a maximum of 4 cr hrs.

**5040 Advanced Spoken English for Int'l Graduate Students I U G 4**

Designed to improve the spoken English fluency, pronunciation, grammar, and listening comprehension of non-native English speaking graduate students. Public speaking skills and an awareness of American culture.

Prereq: Placement test, and permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

**5050 Classroom English for International Graduate Teaching Associates U G 3**

Designed to improve the classroom communication skills of non-native English speaking TAs. With a focus on teaching, linguistic and discourse competence are developed for success in the cultural context of the American university.

Prereq: Placement test, and permission of instructor. This course is graded S/U.

**5055 Teaching Workshop for International Graduate Teaching Associates U G 2**

Addresses the particular issues of non-native English speaking graduate students as TAs. Involves discussion of teaching issues, classroom observations, and extensive teaching practice and feedback in both class and tutorials.

Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

**5060 Special Topics: Spoken English for International Graduate Students U G 1**

Focuses on areas of language acquisition challenges for students needing extra work in a specific aspect of language development to progress through completion and certification in a timely manner.

Prereq: Placement test required or permission of English as a Second Language department. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

**5101 Teaching and Learning with Drama: Introduction U G 3**

Introduction to the use of drama and social imagination in education.

Prereq: Jr or Sr standing with some field experience, or experienced teacher. Not open to students with credit for 633. Repeatable to a maximum of 6 cr hrs.

**5102 Teaching and Learning of Literacy in Grades Pre-K - 3 U G 3**

Examination of children's oral and written language development and related theoretical understandings instrumental for teaching language arts including evaluation processes and instructional materials.

Prereq: Enrollment in Education major or Master of Education.

**5108 Teaching and Learning of Mathematics in Grades Pre-K - 3 U G 3**

Prepares preservice teachers with knowledge, skills of, and ability to use standards, learning theories, pedagogies, assessment, and technology for the teaching and learning of Pre-K - 3 early childhood mathematics in a diverse classroom.

Prereq: Admission to Early Childhood teaching licensure program, or permission of instructor.

**5120 Arts-Based Integrated Learning U G 3**

Focuses on using arts-based, inquiry-based, and project-based learning as interdisciplinary, integrated approaches to curriculum and building multiple literacies and supporting multiple learners simultaneously.

Prereq: Not open to students with credit for 872.

**5123 Early Childhood Pedagogy U G 3**

Pedagogy I explores sociocultural perspectives on teaching and learning in early childhood and elementary education, the role of teacher as researcher/inquirer, and the ways in which sociocultural pedagogies interface with standard-based education.

Prereq: Admission to major or M.Ed. Not open to students with credit for 723.

**5125 Redefining Roles: Investigating Reggio-inspired Practice U G 3**

Students are introduced to foundational principles of the Reggio Emilia approach for children from infancy-elementary years. Using these tenets, students will develop a theory of how Reggio principles interface with teaching and learning within an American context, emphasizing the reexamination of teacher roles and the learner through an inquiry-based approach.

**5129 Teaching and Learning of Science in Grades Pre K - 3 U G 3**

Exploration of contemporary alternatives in early childhood science education and the development of knowledge and skills for teaching and learning in grades Pre K - 3, with a focus on preschool and kindergarten.

Prereq: Enrollment in Education major or Master of Education. Not open to students with credit for 729.

**5137 Teaching and Learning of Social Studies Grades Pre-K - 3 U G 3**

Designed to provide opportunities to examine interesting and effective social studies content knowledge, cultural understandings, and pedagogies for the early childhood learner within global contexts.

Prereq: Not open to students with credit for 737.

**5174 Family Participation in Early Childhood School Programs U G 3**

The purposes and importance of family involvement in early childhood school programs, types of programs, resources, methods, and curricula.

Prereq: Education pre-major or admission to licensure program.

**5189.01 Planned Field Experience: Early Childhood U G 1 - 15**

Planned field experience under supervision in a PK-5th grade classroom.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.02 Field Experience: Middle Childhood U G 1 - 15**

Planned field experience under supervision in a 4th-9th grade classroom.

Prereq: Enrollment in Master of Education program, and permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.03 Field Experience: Integrated Language Arts & Social Studies U G 1 - 15**

Planned field experience under supervision in a ILA or ISS 7th-12th grade classroom.

Prereq: Enrollment in Master of Education program, and permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.04 Field Experience: Social Studies U G 1 - 15**

Planned field experience under supervision in an Integrated Social Studies 7th-12th grade classroom.

Prereq: Admission to Integrated Social Studies MEd program. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.05 Planned Field Experience: Visual Impairment U G 1 - 15**

Planned field experience for Visual Impairment license.

Prereq: Enrollment in Master of Education VI or TVI program, and permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.06 Field Experience: TESOL or World Language U G 1 - 15**

Planned field experience under supervision in TESOL or World Language Classroom.

Prereq: Enrollment in Master of Education program, and permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.07 Field Experience: STEM U G 1 - 15**

Planned field experience under supervision in STEM 7th-12th grade classroom.

Prereq: Enrollment in Master of Education program, and permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

**5189.11 Field Experience: Early Childhood Generalist Endorsement U G 1**

This field experience is designed to provide an opportunity to work with a mentor teacher to gain insight into: best practices in lesson planning, teaching, and classroom management; student learning, interests, and perspectives; how to effectively implement methods and pedagogical approaches specific to grades 4 & 5 for the ECG endorsement.

Prereq: Enrollment in the Early Childhood Generalist endorsement program, or Jr or Sr standing in BSEd in ECE.

**5189.22 Field Experience: Middle Childhood Generalist Endorsement U G 1**

This field experience is designed to provide an opportunity to work with a mentor teacher to gain insight into: best practices in lesson planning, teaching, and classroom management; student learning, interests, and perspectives; how to effectively implement methods and pedagogical approaches specific to grades 4-6 grade MCG content areas.

Prereq: Enrollment in the Middle Childhood Generalist endorsement program, or Jr or Sr standing in BSEd in MCE.

**5189.33 Field Experience Bilingual Endorsement U G 1 - 3**

Opportunity to work with a mentor teacher to gain insight into best practices in lesson planning, teaching, and classroom management; student learning, interests, and perspectives; how to effectively implement methods and pedagogical approaches specific to bilingual students and bilingual, dual language, and/or immersion classrooms.

Prereq: Enrollment in the Bilingual Endorsement program. Prereq or concur: 5303.

**5189.66 Planned Field Experience: TESOL U G 1 - 15**

This course comprises and complements the field experience in which students in the TESOL endorsement are required to take part. The course is used primarily as a place where students can reflect upon and discuss what they have observed in their field experience with LEP students.

Prereq: Enrollment in Grad-level TESOL Endorsement, and permission of instructor.

Repeatable to a maximum of 30 cr hrs or 4 completions.

**5191 Orientation and Mobility Internship U G 4**

This internship requires direct O&M assessment, planning and instruction of a variety of students within at least one setting (e.g., private agency, state school for the blind, and/or a VA Blind Rehabilitation Center) under the supervision of a COMS. Students must complete all other program requirements prior to entering internship. Students must also complete at least 100 documented hours of field experience (supervised observation, co-teaching, and direct instruction) prior to beginning the O&M Internship.

Prereq: Admission to the Orientation and Mobility program.

## Education: Teaching and Learning 147

<b>5191.01</b>	<b>Supervised Student Teaching Internship: Early Childhood Education</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice preK-3rd grade teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to Early Childhood Education major or MEd program. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5191.02</b>	<b>Supervised Student Teaching Internship: Middle Childhood Education</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice 4th-9th grade teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to Middle Childhood Education Major or MEd program. Repeatable to a maximum 30 cr hrs or 2 completions.			
<b>5191.03</b>	<b>Supervised Student Teaching Internship: English Language Education</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice 7-12 grade teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to English Language Arts Education Major or MEd program. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5191.04</b>	<b>Supervised Student Teaching Internship: Integrated Social Studies</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice 7-12 grade teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to Integrated Social Studies MEd program. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5191.05</b>	<b>Supervised Student Teaching Internship: Visual Impairment</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice visual impairment teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to Early Childhood Education Major with Visual Impairment specialization, Grad non-degree visual impairment licensure only program, MA in Sensory Impairment program, or MEd program in Visual Impairment. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5191.06</b>	<b>Supervised Student Teaching Internship: World Language Education</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice World Language teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to World Language Education Major or MEd program. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5191.07</b>	<b>Supervised Student Teaching Internship: STEM Education</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice STEM, 7-12th grade teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to STEM Education Major or MEd program. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5191.08</b>	<b>Supervised Student Teaching Internship: TESOL</b>	<b>U G</b>	<b>3 - 15</b>
Student teaching is designed to assess and support preservice TESOL teachers as they develop the necessary knowledge, skills, and dispositions required for beginning level teachers. Prereq: Admission to TESOL Major. Repeatable to a maximum of 30 cr hrs or 2 completions.			
<b>5195.01</b>	<b>Reflective Seminar: Early Childhood Education</b>	<b>U G</b>	<b>1 - 4</b>
This course serves as the place for mediating learning & applying it to the practical. You will engage in reading, discussion, & reflection to develop your understanding of the relationship between what you learn in the university classroom & what you experience in the elementary classroom. Prereq: Admission to Early Childhood Education Major or MEd program. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.02</b>	<b>Reflective Seminar: Middle Childhood Education</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to Middle Childhood Education Major or MEd program. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.03</b>	<b>Reflective Seminar: English Language Education</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to English Language Arts Education Major or MEd program. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			

<b>5195.04</b>	<b>Reflective Seminar: integrated Social Studies</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to Integrated Social Studies MEd program. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.05</b>	<b>Reflective Seminar: Visual Impairment</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to Early Childhood Education Major with Visual Impairment specialization, Grad non-degree visual impairment licensure only program, MA in Sensory Impairment program, or MEd program in Visual Impairment. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.06</b>	<b>Reflective Seminar: World Language Education</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to World Language Education Major or MEd program. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.07</b>	<b>Reflective Seminar: STEM Education</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to STEM Education Major or MEd program. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.08</b>	<b>Reflective Seminar: TESOL</b>	<b>U G</b>	<b>1 - 4</b>
Reflective Seminar is part one of a 3-part seminar that takes place over the course of 3 semesters. This course includes what is often viewed as the more traditional 'science' of teacher preparation. Prereq: Admission to TESOL Major. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5195.09</b>	<b>Reflective Seminar: Child and Youth Studies</b>	<b>U G</b>	<b>1 - 4</b>
This course is designed to assess and support student in their final year as they develop the necessary knowledge, skills, and dispositions required for entry level education professionals. Prereq: Admission to Child and Youth Studies Major. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>5220</b>	<b>Foundations of Middle Childhood Teaching and Learning</b>	<b>U G</b>	<b>3</b>
Introduces the foundations and major concerns in middle childhood education using contemporary research, scholarship, and practice, and exploring traditional and newer course materials. Prereq: Not open to students with credit for 601 and 603.			
<b>5225</b>	<b>Diverse Literature and Comprehension - Elementary-Middle Education</b>	<b>U G</b>	<b>3</b>
Meets state requirements for understanding theory and methods linking the teachers' understanding of diverse literature with comprehension theory and practice and the related construction of literate environments.			
<b>5226</b>	<b>Composing Print + Digital Multimodal Texts</b>	<b>U G</b>	<b>3</b>
This course focuses on interactive, creative, critical, dialogic approaches for teaching and learning composing in both print and digital multimodal formats, and is particularly applicable to early and middle childhood classrooms.			
<b>5230</b>	<b>Language Arts Methods for Preservice Middle Childhood Teachers</b>	<b>U G</b>	<b>3</b>
Preservice teachers study methods for teaching middle childhood students' reading and writing. They explore the significance of students' interests, language, and communities to their knowledge and meaning-making of the Language Arts. Prereq: Not open to students with credit for 706.			
<b>5270</b>	<b>Mathematics Methods for Preservice Middle Childhood Teachers</b>	<b>U G</b>	<b>3</b>
Preservice teachers study methods for teaching middle childhood mathematics. These methods include instruction, assessment, and learning theory to support the teaching and learning of mathematics in grades 4 through 9.			
<b>5275</b>	<b>Science Methods for Preservice Middle Childhood Teachers</b>	<b>U G</b>	<b>3</b>
Prospective teachers study methods of science instruction and assessment of student learning in grades 4 through 9, with an emphasis on inquiry-based learning and formative assessment of student understanding. Prereq: Not open to students with credit for 719.			
<b>5280</b>	<b>Social Studies Methods for Preservice Middle Childhood Teachers</b>	<b>U G</b>	<b>3</b>
Preservice teachers study planning, teaching and assessing of students' learning of social studies education, emphasizing the value of using effective and diverse teaching strategies and meaningful learning activities appropriate for grades 4-9. Prereq: Not open to students with credit for 738.			

## 148 Education: Teaching and Learning

### 5281 Development of 4th and 5th Grade Learners Across the Curriculum U G 3

Aids students in acquiring a working understanding of the physical, cognitive and language development of the children in 4th/5th grades.

Prereq: 3160 or HDFS 2410, and EduTL 3189, 4189, or 5189; or Grad standing.

### 5282 The Social Transitions of 4th and 5th Grade Learners U G 3

Focuses on the social and emotional development of the early adolescent in society, home and in the classroom setting.

Prereq: 3160 or HDFS 2410, and EduTL 3189, 4189, or 5189; or Grad standing.

### 5283 Teaching Mathematics, Science and Culture in 4th and 5th Grades U G 3

Related to teaching mathematics and science with consideration of pedagogy, content, assessment and equity.

Prereq: 5108 and 5129; or Grad standing.

### 5284 Integrating Language Arts and Social Studies in 4th and 5th Grades U G 3

Related to the integration of LA/SS. The focus is on curriculum, pedagogy, and integration specific to 4th/5th grades.

Prereq: 5102, 5137, and 5339; or Grad standing.

### 5301 Foundations of Bilingual Education U G 3

This course will provide a space to discuss and deconstruct the history, theoretical foundations, and practices of bilingual education in the United States, with a particular focus on the experiences of immigrant children. Participants will explore the definitions and characteristics of bilingual education, including its historical, political, legal, and ideological foundations.

### 5302 Assessing Bilingual Learners U G 3

Introduces participants to current school-based assessments through psychometric and socio-cultural models of assessment focusing on how schools measure language and achievement for emergent bilinguals.

Prereq: 5301 and 5365.

### 5303 Methods & Materials in Bilingual/Multilingual Education U G 3

Overview of instructional approaches and curricular materials designed to promote the language, literacy, and content learning of bilingual students. Participants will have the opportunity to familiarize themselves with relevant approaches and materials through course readings, class activities, and extension activities outside of class.

Prereq: 5301, 5302, 5365, and 5370.

### 5330 LGBTQ+-themed Literature for Children and Young Adults U G 3

This course focuses on children and young adult literature that represents the diversity of lesbian, gay, bisexual, transgender, queer, and other non-heterosexual and non-cisgender people across social dimensions defined by race, class, religion, and nationality, among others. It takes a historical view before focusing closely.

### 5339 Evaluation and Instructional Decision-Making in Literacy U G 3

Assessment instruments and processes to determine students' abilities and needs and instructional strategies to meet those needs as useful to early and/or middle childhood teachers are explored.

Prereq: 5469, and enrollment in a B.S. Ed. major or Master of Education program. Not open to students with credit for 705 or 739.

### 5341 Journalism and New Media in the 7-12 Classroom U G 3

Designed for pre-service teachers who plan to teach school newspaper, yearbook, broadcast and news media in middle school or high school (grades 7-12).

### 5345 Teacher Inquiry & Methods: Writing U G 3

Designed to assist students to understand writing development to develop process-oriented approaches to writing instruction.

Prereq: Admission to the Teaching & Learning B.S.Ed. or M.Ed. program. Not open to students with credit for 645.

### 5346 Teacher Inquiry & Methods: Literature U G 3

Designed to assist students in learning about literary understanding and in developing pedagogical content knowledge for teaching environment-oriented approaches to literature instruction. Laboratory experience required.

Prereq: Admission to B.S.Ed., M.Ed., EHE major, or permission of instructor. Not open to students with credit for 646.

### 5362 Roots of Fantasy U G 3

A study of selected works of fantasy for children grades 4-9 along with their source in traditional literature; works based on Greek and Arthurian legends, the Welsh Mabinogion and other folklore.

Prereq: Not open to students with credit for 862.

### 5365 Linguistics for Literacy Education U G 3

This is an introduction to educational linguistics. Through exploration of linguistic concepts and their relevance to teaching, learning, and literacy, students develop new ways of seeing and supporting students' development as skilled language users.

Prereq: Not open to students with credit for 665.

### 5370 Language and Literacy Development & Instruction for Bilingual Learners U G 3

This course provides an overview of key research on bilingual and biliteracy development with a focus on children who are learning and living in two (or more) languages in their homes, communities, and schools. Course examines the complexity of bilingualism and biliteracy, including the influences on and processes of bilingual/biliteracy development and the roles of culture in schooling.

Prereq: Level 1 and Level 2 courses, and enrollment in the Reading Endorsement; or 5301 and 5365, and enrollment in the Bilingual Education Endorsement.

### 5442 Teaching Reading Across the Curriculum U G 3

Provides the knowledge and tools needed to support the developmental reading and literacy skills for students seeking licensure in AYA (7-12), multi-age and Voc Ed programs. Laboratory experience required.

Prereq: Admission to B.S.Ed., M.Ed., EHE major, Agriscience Ed major, or permission of instructor. Not open to students with credit for 642.

### 5453 Critical Literacy in Content Area Classrooms U G 3

Teaches teachers to provide the support many students need throughout their schooling to develop their literacy skills in content areas; recognizing that learning the discourses of various fields and genres is a life-long endeavor.

Prereq: Not open to students with credit for 853.

### 5455 Hiphop Literacies U G 3

Combines the study of Hiphop Based Education and new literacy studies. Students will investigate Hiphop cultural arts and discourses of everyday life as a form of culturally relevant teaching and learning.

### 5468 Foundations of Reading and Literacy U G 3

Introduction to the theories and practices of teaching and learning of literacy for children in early and middle childhood. Major themes of the course are a child-centered philosophy of literacy instruction and diversity awareness - the need for teachers to be aware of the diversity of backgrounds and abilities that children bring to the classroom and of strategies for dealing with that diversity.

### 5469 Language and Word Study for All Learners U G 3

This course provides a detailed examination of the ways that oral and written languages work and how this supports development of English word reading and spelling skills for learners who are monolingual speakers of Standard English as well as those who speak other languages and varieties of English.

Prereq: 5468.

### 5470 Assessment and Instruction for Struggling Readers U G 3

Provides an introduction to theories, assessments, and instructional practices that effectively address the literacy needs of struggling and at-risk readers. Laboratory experience required.

Prereq: 5468 and 5469, or permission of instructor.

### 5471 Clinical Practice in Treating Reading Disabilities U G 3

Use of test materials in the diagnosis of reading disabilities; practice with remedial procedures.

Prereq: 5470, or permission of instructor. Not open to students with credit for 671. Repeatable to a maximum of 6 or hrs.

### 5501 Inclusion: Philosophical, Social, and Practice Issues: General Student Body U G 3

Philosophical, social, and practice issues related to the inclusion of students with disabilities in the P-12 general education classroom.

Prereq: Not open to students with credit for 809.07.

### 5505 Multi-Tiered Systems of Support U G 3

Introduces students to the concept of multi-tiered systems of support. Emphasis on 1) strategies for assessing and teaching social skills to diverse learners in inclusive classrooms; 2) designing and implementing multi-tiered instructions within Response-to-Intervention Model; 3) collaborative differentiated instruction for whole class, small group, one-on-one teaching.

Prereq: 5501 or ESSpED 5650. Cross-listed in ESSpED.

### 5506 Reading and Writing Braille U G 3

This course provides future teachers of the visually impaired an efficient, learn-by-doing experience to attain mastery of the literary braille code and to develop positive attitudes toward this valuable medium. The essential features and rules of usage of the braille code as published in The Rules of Unified English Braille (UEB), 2nd Edition (2013) are presented.

Prereq: Not open to students with credit for 6505 or 833.

### 5507 Visual Processes U G 3

Introduces students to the historical foundations, laws, and regulations that effect students with visual impairments. Students will also learn about anatomy and physiology of the eye, diseases, disorders, and eye specialists' reports.

### 5508 Modes of Communication and Instructional Materials for Students with Visual Disabilities U G 1

Continuation of the examination of expressive modes of written communication with a focus on the Nemeth Code for mathematics and science. Knowledge of teaching strategies for mathematics is also studied.

Prereq: 6505 or 5505. Not open to students with credit for 6506.

### 5510 Basics of Orientation and Mobility U G 2

Presents an overview of the major historical events, mobility systems, resources, accessibility, safety, and roles of the O&M provider. Basic O&M techniques and instructional strategies are also provided.

<b>5521</b>	<b>Co-Teaching and Co-Planning in the Inclusive Classroom</b>	<b>U G</b>	<b>3</b>
This three-credit hour course will examine the co-teaching and co-planning process across subject matter and disciplines such as general education and special education. Students will learn the approaches to co-teaching and co-planning, critically analyze the roles and responsibilities of each team member in the process, and contextually analyze leadership roles within the process.			
<b>5525</b>	<b>Curriculum and Instruction for Students with Visual Impairments and Multiple Disabilities</b>	<b>U G</b>	<b>3</b>
Introduces individuals to principles of curricular and instructional design for all children with visual impairments (K-12). Adaptations and modifications, especially for the general education curriculum, are emphasized. Prereq: Not open to students with credit for 6501 or 747.			
<b>5529</b>	<b>Introduction to Visual Impairments</b>	<b>U G</b>	<b>1</b>
This course explores theories and practices that connect relationships between general and special education needs of students with visual impairments, highlighting the use of a merged model of collaboration within learning environments. Coursework addresses an overview of services for students with visual impairments, including an emphasis on impact of vision loss.			
<b>5530</b>	<b>Professional Development in the Field of Visual Impairment</b>	<b>U G</b>	<b>3</b>
Designed to allow the student to develop knowledge and skills in adaptive technology, early childhood intervention, and issues that are unique to the field of visual impairments. Prereq: 5506, 5507, or 6507.			
<b>5610</b>	<b>Language Arts &amp; ESL Instruction</b>	<b>U G</b>	<b>3</b>
Research, theories, and practices linking second language acquisition and methods of teaching reading, writing, listening, speaking and grammar in ESL and EFL classrooms. Prereq: Admission to an undergraduate, graduate, or graduate non-degree program. Not open to students with credit for 606.			
<b>5612</b>	<b>Secondary Methods in World Language Education</b>	<b>U G</b>	<b>3</b>
Theory and practice of teaching world language in secondary (middle and high school) classrooms; use and preparation of instructional materials current theory and practice in world language teaching, learning, and assessment. Meets concurrently with 5613. Prereq: Enrollment in Foreign Language B.S. Ed. or Master in Education program.			
<b>5613</b>	<b>Core Practices in World Language Education</b>	<b>U G</b>	<b>3</b>
This course will present theory and practice of teaching world language in beginning classes, based on current research on a practice-based approach to learning to teach focused on core practices. Teacher candidates will apply the practices studied in their field-based experience in the P-12 classroom, as preparation for the student teaching experience. Prereq: Enrollment in World Language B.S. Ed. or M. Ed. program, or enrollment in Graduate Certificate in Core Practices in World Language Education.			
<b>5614</b>	<b>Teaching of Foreign Language in the Elementary School</b>	<b>U G</b>	<b>3</b>
Skill development in teaching of spoken and written foreign language on the elementary school level; construction and use of suitable materials; discussion of issues and problems, evaluation. Prereq: Enrollment in Foreign Language B.S. Ed. or Foreign Language Master of Education. Not open to students with credit for 617.			
<b>5615</b>	<b>Methods and Culture in TESOL</b>	<b>U G</b>	<b>3</b>
Study of the use of new instructional materials for intermediate and advanced TESOL classes; teaching of reading, writing, literature, and culture; evaluation. Prereq: Enrollment in Education major, Master in Education program, graduate non-degree or undergraduate non-degree (Extended Education) program.			
<b>5616</b>	<b>Core Practices for World Language Assessment</b>	<b>U G</b>	<b>3</b>
This course familiarizes students with current theory, standards, principles and practices of world language assessment. An understanding of the World-Readiness Standards for Language Learning is necessary for this course, since we will build up on this foundational knowledge to design formative and summative performance assessments using backward design.			
<b>5618</b>	<b>Advanced Core Practices in World Language Education</b>	<b>U G</b>	<b>3</b>
As the final course in the Graduate Certificate Program in Core Practices in World Language Education, this course caps participants' repertoire of core practices addressed in the certificate program.			
<b>5620</b>	<b>Introduction to Second Language Acquisition</b>	<b>U G</b>	<b>3</b>
Studies of the theories underlying the teaching and learning of English as a second language and bilingual education: analyses of curricular designs and innovative programs. Prereq: Enrollment in Education major, Master in Education program, graduate non-degree or undergraduate non-degree (Extended Education) program.			
<b>5630</b>	<b>Teaching Second Language Grammar and Vocabulary</b>	<b>U G</b>	<b>3</b>
Focuses on the teaching of grammar and vocabulary to second language learners. Various theories, models, and techniques associated with grammar and vocabulary instruction and learning are reviewed, and students gain hands-on experience in the application of this material. Prereq: Enrollment in a Grad or undergraduate program in EduTL, or Grad non-degree program.			

<b>5640</b>	<b>Syllabus and Materials Development in Second Language Teaching</b>	<b>U G</b>	<b>3</b>
The development of syllabi and materials for language courses in alignment with theories of second language learning. Prereq: Enrollment in Education major or Master in Education program. Not open to students with credit for 868.			
<b>5645</b>	<b>Assessing L2 Learning</b>	<b>U G</b>	<b>3</b>
Focuses on theories, models, and techniques associated with second language students' learning and language proficiency with the aim of preparing students to critique established testing procedures and develop their own assessment instruments. Prereq: Enrollment in a Grad or undergraduate EduTL program, or Grad non-degree.			
<b>5700</b>	<b>Training in Informal Science Outreach</b>	<b>U G</b>	<b>3</b>
Provides students with hands-on training in informal science education at the COSI museum. All students will learn to provide outreach education at the museum; advanced students will develop outreach materials, assist in the visible research operations, and mentor other students. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Cross-listed in Psych and Ling.			
<b>5711</b>	<b>Methods in Teaching STEM Secondary Mathematics I</b>	<b>U G</b>	<b>3</b>
Increase pedagogical content knowledge of number and probability concepts as appropriate for secondary students. Concepts such as ratio, fractions, decimals, percents, proportionality, data analysis and probability will be included. Prereq: Admission to major or M.Ed. Not open to students with credit for 621 and 749.			
<b>5712</b>	<b>Methods in Teaching STEM Secondary Mathematics II</b>	<b>U G</b>	<b>3</b>
Pedagogical content knowledge of geometry and measurement as appropriate for Grades 7-12. Concepts such as similarity, transformations, representations, justification, and spatial reasoning will be included. Prereq: Admission to the STEM major or M.Ed. Not open to students with credit for 749.01.			
<b>5721</b>	<b>Methods in Teaching STEM Secondary Science: I</b>	<b>U G</b>	<b>3</b>
Preservice science teachers are introduced to the principles of safe scientific inquiry through activity-based lessons for grades 7-12. Microteaching experiences offer opportunities for students to develop and present science lessons. Prereq: Enrollment to Education major or Master in Education program. Not open to students with credit for 636.01.			
<b>5722</b>	<b>Methods in Teaching STEM Secondary Science II</b>	<b>U G</b>	<b>5</b>
The nature of science is viewed from scientific, philosophical, sociological, and historical perspectives. Ideas fundamental to all science fields such as observation, inference, inquiry, hypothesis testing, models, theories, and laws are addressed. Prereq: Enrollment to Education major or Master in Education program. Not open to students with credit for 751.			
<b>5741</b>	<b>Learning, Cognition, and Teaching in STEM Education</b>	<b>U G</b>	<b>3</b>
Cognitive development, cognition and affect in the learning of STEM subjects with implications for teaching in secondary school STEM.			
<b>5744</b>	<b>Technologies Used in STEM</b>	<b>U G</b>	<b>3</b>
The role and scope of educational technology for standards based STEM instruction. Exploration of areas in which mathematics, science education, and technology education can effectively use educational technology in a pedagogically sound manner. Prereq: Not open to students with credit for 750.			
<b>5745</b>	<b>Assessment in STEM I: Introduction</b>	<b>U G</b>	<b>3</b>
Explores how prior knowledge and reasoning strategies impact meaningful learning in STEM fields. Discussions of assessment design and evaluation are framed within a value-added model of STEM teaching and learning. Prereq: Admission to major or M.Ed. Not open to students with credit for 748.01.			
<b>5798</b>	<b>Study Tour</b>	<b>U G</b>	<b>1 - 3</b>
Specific content, location, terms of offering, and prerequisites vary; contact school office for details. Repeatable to different titled study tours only. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>5808</b>	<b>Social Studies Methods I</b>	<b>U G</b>	<b>4</b>
Integrates methods of teaching social studies with daily field experiences to effect authentic teaching and learning for preservice teachers. Prereq: Admission to MEd program and completion of content courses. Not open to students with credit for 638.			
<b>5809</b>	<b>Social Studies Methods II</b>	<b>U G</b>	<b>3</b>
Focuses on lesson/unit planning with an emphasis on authentic learning, higher level thinking skills, global and multicultural perspectives, active learning strategies, and performance-based assessment. Prereq: Enrollment in Master of Education program and completion of content courses. Not open to students with credit for 639.			
<b>5892</b>	<b>Workshop</b>	<b>U G</b>	<b>1 - 4</b>
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			

## 150 Education: Teaching and Learning

**5901 Advanced English as a Second Language U G 3**

Provides English language learners with extensive field-specific writing practice, with an emphasis on academic writing conventions, grammatical accuracy, and syntactic complexity. Intended for graduate students.

Prereq: Grad standing, and placement test.

**5902 Academic Writing in English as a Second Language U G 3**

Attention given to various practices involving reading and source-based writing. Rhetorical and linguistic issues addressed. Writing about and presenting research findings in specific disciplines.

Prereq: A grade of D or above in 5901, or placement test score of 5902; and Grad standing.

**5992 Special Topics in Education U G 1 - 3**

Special topics focused on education.

Repeatable to a maximum of 12 cr hrs or 4 completions.

**6050 Multiple Perspectives on Teaching and Learning: MA G 3 - 4**

Investigates diverse ways of conceptualizing cognitive development and its relationship to learning and teaching and examine specific factors such as the development of memory, attention, problem solving, and specific academic skills.

Prereq: Not open to students with credit for 871.

**6052 Classroom-Based Inquiry: MA G 3 - 4**

Focuses on the history and evolving status of classroom-based inquiry and teacher action research. Students will develop a proposal for a classroom-based inquiry project, and will practice collecting and analyzing data and summarizing findings.

Prereq: Not open to students with credit for 874.

**6053 Balanced Assessment for Teaching and Learning G 3**

Organized to follow the conceptualization, design, and implementation of a balanced, coordinated approach to formative instructional and assessment practices.

**6101 Dramatic Inquiry Across the Curriculum G 3**

Using drama to extend inquiry-based learning in literacy and content areas.

Prereq: Not open to students with credit for 777. Repeatable to a maximum of 6 cr hrs.

**6189 O&M Field Placement G 1**

This one (1) hour graduate level course includes field experience requirements for students enrolled in the O&M Program.

Prereq: Enrollment in the Orientation and Mobility licensure program.

**6301 Exploring Language and Learning in Classrooms G 3**

Introduction to the use of discourse analysis in classroom instruction. Focus on principles, practices, analysis of instructional conversations, and implications for enhancing student learning. The course engages students in conducting discourse analyses of their own classrooms. Students must currently be teaching or co-teaching in a classroom and be able to video record events in that classroom.

Prereq: Enrollment in either M.A or M.Ed programs; or permission of instructor. Repeatable to a maximum of 6 cr hrs.

**6302 Teaching Digital Composition in Elementary and Secondary Classrooms G 3**

Intended for elementary and secondary in-service teachers who want to explore and improve their students use of digital composition. The course emphasizes teachers using digital composition themselves as well as design of instruction for promoting students' use of digital composition.

Prereq: 7393, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

**6303 Linguistic Diversity in Education G 3**

An introduction to linguistic diversity; how it relates to cultural diversity; how linguistic/cultural diversity shapes teaching and learning in educational settings; & what research says about effective instruction.

Prereq: Not open to students with credit for 703.07.

**6510 Orientation and Mobility Intermediate Seminar G 3**

Introduces a view of the history of the profession of orientation and mobility. It provides students with a foundation of understanding the process of planning, skill assessment, goal-setting, and designing and sequencing O&M programs.

Prereq: 5510 and 5507.

**6511 Orientation and Mobility Advanced Seminar G 3**

Presents important background information for Orientation and Mobility practitioners upon which techniques for instruction may be based. Unique characteristics of environments and principles for accessing them are presented.

Prereq: 6510.

**6512 Orientation and Mobility Special Topics Seminar G 2**

Highlights strategies for adaptations for early childhood and geriatric populations in the area of orientation and mobility. Considerations encountered in working with both types of populations explored.

Prereq: 6511.

**6520 Orientation and Mobility Techniques and Methods I G 2**

Covers introduction of the long cane, adaptive mobility devices, indoor travel, indoor orientation skills, route travel and residential travel skills. Practical instruction under a blindfold is a major component.

Prereq: 5510 and 5507.

**6521 Orientation and Mobility Techniques and Methods II G 2**

This hands-on course covers O&M techniques and methods for business areas, special travel environments, and public transportation. Practical skill instruction under blindfold is a major component of this course.

Prereq: 6520.

**6645 Language as a Resource: The Functions of Language in Teaching and Learning G 3**

The functions of language in teaching, learning, and schooling in general can reveal the underlying features of language use in these contexts. Whether in content-area literacy, Bilingual Education, Teaching English to Speakers of Other Languages (TESOL), or World Language Education, this course explores the language choices available based on the particular context in which language is used.

**6808 Multicultural and Global Perspectives on Teaching and Learning G 3 - 4**

Examines knowledge, pedagogy, reforms, and resources that support education for cultural diversity and equity in an interconnected world.

Prereq: Not open to students with credit for 881.

**6890 M.Ed Capstone Seminar G 3**

Seminar to prepare M.Ed students for the comprehensive written examination or approved alternative.

Prereq: Not open to students with credit for 926.

**6891 M.A. Capstone Seminar G 2**

Provides guidance for M.A. students working on final action research projects (or other approved projects), writing thesis proposals or preparing for the comprehensive examination.

Prereq: Not open to students with credit for 928.

**6892 Special Topics in Education G 1 - 4**

Special topics for professional educators and graduate students; designed to provide the opportunity to update professional skills and review current research developments.

Repeatable to a maximum of 16 cr hrs or 16 completions. This course is graded S/U.

**6894 Co-Planning & Co-Teaching for Mentors of Interns G 1**

Teachers will learn about a new model for mentoring student teachers that focuses on student learning. This apprenticeship model essentially causes the team to build strong working relationships. Teachers will learn how to make teaching decisions public so that the intern becomes better prepared to teach. Co-Planning & Co-Teaching is becoming the preferred model for mentoring student teachers.

This course is graded S/U.

**6911 Writing for Coursework for International and 2nd Language Graduate Students G 2**

Guidance and practice with writing in various genres essential to an academic career-essays, reviews, reports-the kind of writing required in grad-level coursework and end-of-term and comp. Tutorial time arranged. Intended for international graduate students.

Prereq: 5902, or qualified status; and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

**6912 Research Writing for International and 2nd Language Graduate Students G 2**

Designed to help international graduate students in preparing a conference paper and in preparing a manuscript for publication.

Prereq: 5902, or qualified status; and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

**6913 Thesis Proposal and Dissertation Writing for International and 2nd Language Graduate Students G 2**

Assist international graduate students in writing their thesis, dissertation, or thesis/dissertation proposal. Tutorial time arranged. Intended for international graduate students.

Prereq: 5902 (508), or qualified status; and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

**7008 Sociocultural Studies of Teaching and Teacher Education G 3**

A sociocultural look at ways teaching as a profession has been shaped by history, culture, gender; multiple agendas for teacher education; structure of current practice; different programs of reform; studies of teacher education.

**7010 Diverse Approaches to Research on Teaching and Learning G 3 - 4**

Explores the wide range of teaching and learning research genres; including multiple forms of statistical (quantitative), ethnographic (qualitative), historical and theoretical scholarship on teaching and learning.

Prereq: Not open to students with credit for 842.

**7014 Epistemologies and Theories in Multicultural and Equity Studies in Education G 3**

Examine and focus in depth on various critical epistemologies, theories, and assumptions and the relationships between them and the pursuit of social justice.

Prereq: Not open to students with credit for 940.

**7015 Curricular Approaches in Multicultural and Equity Studies in Education G 3**

Provides an overview of curricular approaches in MESE drawn from local, national and global scholarship and contexts. Students examine a variety of curricular approaches towards social justice and activist praxis in education.

## Education: Teaching and Learning 151

<b>7025</b>	<b>Culturally Relevant Pedagogy</b>	<b>G</b>	<b>3</b>
Focuses on the research that informs culturally relevant pedagogy.			
<b>7035</b>	<b>Teaching for Social Justice</b>	<b>G</b>	<b>3</b>
An exploration into economic, political, technological and ecological components of multicultural education as it relates to diversity and social justice. Prereq: Not open to students with credit for 879.			
<b>7075</b>	<b>Disabilities in Education</b>	<b>G</b>	<b>3</b>
This three-credit graduate course for both MA and Ph.D. students will examine the historical nature of disabilities in society and in particular in the education system, the foundation of public laws to benefit persons with disabilities, the family- community connection for students with disabilities, and current critical issues for students with disabilities in classrooms.			
<b>7102</b>	<b>Drama, Literacy, and Learning</b>	<b>G</b>	<b>3</b>
Advanced studies in how drama affects literacy and learning. Prereq: Not open to students with credit for 888. Repeatable to a maximum of 6 cr hrs.			
<b>7170</b>	<b>Rethinking Early Childhood and Elementary Education: The Politics of Childhood</b>	<b>G</b>	<b>3</b>
Examination of important classical and contemporary research concerning young children with a focus on the preschool-early elementary years.			
<b>7189</b>	<b>Advanced Field Placement</b>	<b>G</b>	<b>1 - 12</b>
Field or research experience in a P-12 school, higher education or other educational setting, agency, or cross-cultural settings. Repeatable to a maximum of 20 cr hrs or 4 completions. This course is graded S/U.			
<b>7193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 15</b>
Individual study projects. For thesis option, not more than 12 cr hrs will apply toward the master's degree. For non-thesis option, not more than 15 cr hrs will apply. Not more than 20 cr hrs will apply toward the doctoral degree. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.			
<b>7194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Group studies on special problems in education. Repeatable to a maximum of 12 cr hrs or 12 completions.			
<b>7303</b>	<b>Language and Society</b>	<b>G</b>	<b>3</b>
Focuses on the history, sociology, and the politics of national policies involving second language throughout the world. Prereq: Not open to students with credit for 803.			
<b>7306</b>	<b>Language Socialization</b>	<b>G</b>	<b>3</b>
Introduces the field of language socialization, providing theoretical, conceptual and methodological frameworks for research on linguistic and social development, teaching, and learning in various contexts. Prereq: Not open to students with credit for 906.			
<b>7308</b>	<b>Literary Experience and Understanding: Readers, Texts and Contexts</b>	<b>G</b>	<b>3</b>
Examines historical and current research on the interrelationships among children's and young adults' literary experiences, understanding, qualities of literary genres and formats, and reading in educational contexts. Prereq: Not open to students with credit for 908.			
<b>7316</b>	<b>Language Arts in the Early and Middle Childhood Program</b>	<b>G</b>	<b>3</b>
Process and support for language development in the early years. Problems, research, and current teaching method in the major areas of language arts: listening, speaking, reading, writing, viewing, and constructing images. Prereq: Not open to students with credit for 860.			
<b>7317</b>	<b>Advanced Children's Literature</b>	<b>G</b>	<b>3</b>
An evaluation of the changing role of children's literature in the education of children and youth; emphasis on identifying quality selections developmentally appropriate books. Prereq: Not open to students with credit for 817.			
<b>7324</b>	<b>Literary Theory and Adolescent Literature</b>	<b>G</b>	<b>3</b>
Explores the application of diverse theories to young adult literature for in-depth literary study in secondary classrooms. Prereq: Not open to students with credit for 923.			
<b>7341</b>	<b>Poetry for Children</b>	<b>G</b>	<b>3</b>
In-depth study of poetry for children including children's speech play & school yard rhymes, children's interests in poetry, forms of poetry & representative poets, classroom approaches for encouraging children's involvement & appreciation of poetry. Prereq: Grad standing.			
<b>7344</b>	<b>Bilingualism and Biliteracy</b>	<b>G</b>	<b>3</b>
Explores research on bilingualism, bilingual communities, and bilingual education, as well as methods for studying bilingualism in social context. Issues are viewed from global perspective, especially language policies and language ideologies. Prereq: Not open to students with credit for 844.			

<b>7348</b>	<b>Linguistic Diversity and Literacy: Varieties of English and Education</b>	<b>G</b>	<b>3</b>
Explores variation in English and its implications for literacy education, focusing on global Englishes, U.S. vernaculars, and English-based Creoles. Course considers use of research for school testing and for the teaching of Academic English. Prereq: Not open to students with credit for 848.			
<b>7356</b>	<b>Advanced Literature for Adolescents</b>	<b>G</b>	<b>3</b>
An evaluation of literature for adolescents and the role it plays in the education of youth. Prereq: Not open to students with credit for 856.			
<b>7361</b>	<b>Literature in Early Childhood Education</b>	<b>G</b>	<b>3</b>
Analysis and study of fiction and nonfiction for children age 2-8; emphasis on the importance of early exposure to literature for language acquisition visual literacy, and cognitive and affective development. Prereq: Not open to students with credit for 861.			
<b>7364</b>	<b>Multicultural Literature for Children and Young Adults</b>	<b>G</b>	<b>3</b>
Focus on educational and interdisciplinary research concerned with selecting, analyzing, and discussing diverse children's and YA literature, created by historically marginalized authors and illustrators. Literature selections include the life experiences, histories, and fantastic visions representing LGBTQ, Native American, African American, Latinx, Asian American, and new immigrant experiences. Prereq: Not open to students with credit for 864.			
<b>7371</b>	<b>Teaching Writing in the Secondary School</b>	<b>G</b>	<b>2 - 3</b>
Designed to assist teachers' understanding of writing development and writing assessment in order to develop process-oriented approaches to writing instruction. Prereq: Not open to students with credit for 970.			
<b>7374</b>	<b>Sociocultural Theory and Literacy Education and Research</b>	<b>G</b>	<b>3</b>
Examines the core concepts of sociocultural theory, several branches of this work in education, and their implications for contemporary studies of literacy teaching and learning. Prereq: Not open to students with credit for 974.			
<b>7393</b>	<b>Teaching Writing</b>	<b>G</b>	<b>2 - 6</b>
Serves as the Summer Institute of the Columbus Area Writing Project. It focuses on improving the teaching of writing for experienced teachers of all subject areas in grades K-16. Prereq: Not open to students with credit for 898.			
<b>7418</b>	<b>Synthesizing Research in Reading and Literacy</b>	<b>G</b>	<b>3</b>
Students gain an in-depth understanding of how to review, analyze, and synthesize research in reading and literacy. The focus is on the process of reviewing and synthesizing research (rather than on the content). Repeatable to a maximum of 6 cr hrs.			
<b>7420</b>	<b>Teaching Literature for Engagement and Equity</b>	<b>G</b>	<b>3</b>
Study of theory and arts-based practices in reading and literature education, that demonstrate how teachers can support readers' engagement with cross-cultural perspectives, social positioning, cultural identity and social justice.			
<b>7427</b>	<b>Advanced Study of the Development of Reading and Writing</b>	<b>G</b>	<b>3</b>
Designed to provide experienced teachers the opportunity to extend and update their knowledge of reading and writing development and the principles underlying effective reading and writing instruction in the early and late childhood years.			
<b>7428</b>	<b>Trends and Issues in Teaching Reading</b>	<b>G</b>	<b>3</b>
In-depth examination of major trends and issues in teaching reading in the elementary school including research over the last three decades and major issues and concerns currently debated among members of the literacy education profession. Prereq: Not open to students with credit for 828.			
<b>7429</b>	<b>Reading Complex Texts</b>	<b>G</b>	<b>3</b>
For elementary, middle, and secondary teachers who want to develop new multimodal approaches for challenging students to read with greater attention to details and deeper meaning, with a more difficult range of vocabulary and texts.			
<b>7430</b>	<b>Phonics, Word Study, &amp; the Complexities of English Orthography</b>	<b>G</b>	<b>3</b>
Learn the historical influences on contemporary American-English spellings. Study the technical vocabulary associated with phonics, word study, & English orthography; how to administer and analyze appropriate assessments for elementary and middle school students; and, how to implement instruction to support student learning.			
<b>7431</b>	<b>The Ethnography of Literacy and Language I</b>	<b>G</b>	<b>4</b>
Introduces the ethnography of literacy and language as fields of inquiry, providing theoretical, conceptual and methodological frameworks for research on written and oral language practices that are embedded in various social, cultural, and political contexts. Prereq: Not open to students with credit for 905. This course is progress graded.			
<b>7432</b>	<b>The Ethnography of Literacy and Language II</b>	<b>G</b>	<b>4</b>
Building on the first course of this two-course sequence, this course provides students experience in doing their own research by focusing on data gathering, fieldwork issues, data analysis, and writing aspects of the ethnographic research process. Prereq: 7431 (905), or permission of instructor. Not open to students with credit for 925.10.			

## 152 Education: Teaching and Learning

**7500 Teacher Leadership in Teaching Digital Writing** G 2

Prepares teachers and other educators to conceptualize and deliver teacher education for the integration of digital writing in K-12 classrooms. Through a series of face-to-face and online interactions, participants develop a portfolio of digital writing, a theoretical framework for the use of digital writing in instruction, and a research-based framework for professional development.

Prereq: 7393, or permission of instructor.

**7620 English as an International Language: Theory and Practice** G 3

Introduces students to the perspective of EIL (English as an International Language) and helps them to think critically about global English in use and English language teaching practices from the viewpoint of EIL.

**7645 Issues and Research in Foreign Language Testing and Assessment** G 3

Focuses on theories and practices for testing and assessing the knowledge and skills of second language learners. Topics include constructing tests and assessments, validity, reliability, grading, and test score interpretation test scores.

Prereq: Enrollment in a graduate program in T&L or graduate non-degree program. Not open to students with credit for 963.09.

**7701 Mathematics Teaching and Learning in Elementary and Middle Schools** G 3

Provides elementary or middle school teachers with skills and knowledge that will strengthen their teaching of mathematical content knowledge and process skills.

Prereq: Not open to students with credit for 812.

**7705 Cognition and Socio-Cultural Issues in School Mathematics** G 2

To be successful educators, participants need to have knowledge of child development, child psychology, and influences on student learning such as cultural diversity, limited English proficiency, gender, and physical challenges.

Prereq: Not open to students with credit for 721.01.

**7706 Science and Early Childhood Education** G 3

The nature, scope, and role of science experiences in the learning and development of young children; integration and application of current developments; theory and research in science with early childhood education.

Prereq: Not open to students with credit for 852.

**7711 K-6 Number and Algebra** G 2

Students will understand concepts such as number, number sense, variable, and equality through an opportunity to learn at a deeper level and to examine instructional strategies to help children.

Prereq: Not open to students with credit for 711.

**7712 K-6 Measurement and Geometry** G 2

Students will understand concepts such as spatial sense, units of measure, and work with two- and three-dimensional objects through an opportunity to learn at a deeper level and to examine instructional strategies to help children.

Prereq: Not open to students with credit for 711.

**7713 K-6 Data Analysis and Probability** G 2

Students will understand concepts such as chance and possible outcomes and predicting events as likely or unlikely, and testing predictions, and representational skills to depict and analyze data sets.

Prereq: Not open to students with credit for 711.

**7715 Learning Progressions in Mathematics Education** G 3

Examine the construction, use, and research on learning progressions in mathematics education.

Prereq: Not open to students with credit for 742.

**7716 Conceptual and Procedural Knowledge in Mathematics Education: Theory, Research, and Controversy** G 3

Examine research on students' learning of conceptual and procedural knowledge. We will carefully examine the nature of each type of knowledge, how they are acquired, how they are used, and how they are related.

**7717 Teaching Mathematics** G 3

Designed to provide an expanded view of the teaching of mathematics in grades 7-16 and current theories regarding best practices.

Prereq: Not open to students with credit for 802.03.

**7718 Student Learning Processes in Mathematics** G 3

Student cognition and learning. The topics of arithmetic, algebra and geometry will be used to explore issues of student thinking. We will investigate how the nature of these topics affect students' reasoning and problem solving and thinking.

Prereq: Not open to students with credit for 802.05.

**7719 Providing Professional Development in Mathematics Education** G 2

Require teachers to develop a professional development program that will provide them the opportunity to implement and reflect upon this development as a final assessment of their endorsement.

Prereq: Not open to students with credit for 714.

**7724 Teaching Evolution in Schools** G 3

Focuses on issues, alternative practices, and curricular approaches related to teaching evolution in public schools. Research, court cases, and policies related to the teaching of evolution are examined.

Prereq: Coursework in Evolutionary Biology, or teaching licensure in life science; or permission of instructor. Not open to students with credit for 875.

**7725 The Nature of Science and Implications for Science Teaching** G 3

Focuses on the nature of science and scientific knowledge from philosophical, historical, and sociological perspectives, examines the implications for science teaching at all levels, with particular emphasis on K-12 public education.

Prereq: Not open to students with credit for 877.

**7726 STEM Education in Informal Settings** G 3

Provides STEM educators with experiences to develop skills, content knowledge, professional knowledge, assessment strategies, and integration skills to maximize learning of all students in informal STEM settings.

Prereq: Not open to students with credit for 880.

**7731 Multimedia Tools For STEM Education** G 3

Introduction to a wide variety of multimedia tools for use in STEM Education. The tools are constantly changing but some of the areas included are sensors, data collection, graphics, animation, presentation, audio, video, and multimedia authoring.

Prereq: Not open to students with credit for 735. Repeatable to a maximum of 9 cr hrs.

**7732 Robotics and Automation for STEM Educators** G 3

An introduction to robotics and automation systems, their applications, and methods of teaching about and with them. Will include experiences related to the design, selection, set-up, and programming of robotic and automation systems.

Prereq: Not open to students with credit for 938.21.

**7741 Advanced Study of Learning and Cognition in STEM** G 3

Theories of learning and cognition as applied to learning, teaching and research in the STEM Education areas. Additional focus may be on affective issues.

Prereq: Not open to students with credit for 721.

**7744 Problem Solving in STEM** G 3

Help students gain a deeper understanding of the process of mathematical problem solving from an epistemological standpoint. Current theories and perspectives associated with teaching and learning problem solving will be studied.

Prereq: Not open to students with credit for 802.04.

**7745 Classroom Discourse in STEM Learning** G 3

Theory and practice on discourse patterns in STEM classrooms, including speaking, reading and writing to learn STEM subject matter in schools or colleges.

Prereq: Not open to students with credit for 802.

**7747 Science, Mathematics, Technology and the Educated Mind** G 3

Examines public understanding of science, mathematics, and technology in the growth and application of knowledge, with particular attention being given to the implications for general education in these fields.

**7749 History, Future, and Practical Applications of Concept Inventories in STEM Education** G 3

Introduction to creation, validation, evaluation and application of concept inventories in STEM education; a gateway course for future academic career in both STEM and education.

Prereq: Not open to students with credit for 610.

**7999 Thesis Research** G 1 - 15

Research for thesis purposes only.

Repeatable to a maximum of 40 cr hrs or 12 completions. This course is graded S/U.

**8001 Discourse Analysis and Educational Research I** G 4

Introduction to discourse analysis in educational research, theories, field work, data collection, analytic procedures including video and audio analysis, and ethics. First course of two course sequence.

Prereq: Permission of instructor. 8001 and 8002 must be taken in the same academic year.

Not open to students with credit for 933. Repeatable to a maximum of 8 cr hrs. This course is progress graded.

**8002 Discourse Analysis and Educational Research II** G 4

An in-depth exploration and application of discourse analysis theories and procedures for the analysis and interpretation of video, audio, and textual data collected in field-based educational research. This is the second course of two courses

Prereq: Permission of instructor. 8001 and 8002 must be taken in the same academic year.

Not open to students with credit for 934. Repeatable to a maximum of 8 cr hrs.

**8003 Theorizing and Researching Teaching and Learning** G 4

Examines how learning and teaching have been theorized and researched and provides an opportunity for students to begin conceptualizing their own studies. Emphasis is placed on teaching and learning as contextualized processes.

Prereq: Not open to students with credit for 975, 976, and 977.

## Education: Teaching and Learning 153

<b>8010</b>	<b>Critical Discourse Analysis</b>	<b>G</b>	<b>3</b>
Explores perspectives on discourse analytical research that primarily studies the way social power abuse, dominance, and inequality are enacted, reproduced, and resisted by text and talk in social and political contexts. Prereq: Must have taken at least 1 PhD level course. Not open to students with credit for 933.			
<b>8015</b>	<b>Diversity and Equity in Education</b>	<b>G</b>	<b>4</b>
Provides an overview of the pervasive individual, epistemological, structural, systemic, and institutional dimensions and complexities of equity, diversity and multiculturalism. Prereq: Not open to students with credit for 976.			
<b>8020</b>	<b>Critical Race Theory in Education</b>	<b>G</b>	<b>3</b>
Advanced doctoral seminar on Critical Race Theory and its application in education. Prereq: Not open to students with credit for 977.			
<b>8081</b>	<b>Introductory Seminar: Applied Developmental Science in Education</b>	<b>G</b>	<b>3</b>
An introductory professional seminar for doctoral students seeking the Interdisciplinary PhD Specialization in Applied Developmental Science in Education (ADS-E). Cross-listed in EducSt and HDFs.			
<b>8082</b>	<b>Capstone Seminar: Applied Developmental Science in Education</b>	<b>G</b>	<b>3</b>
A capstone professional seminar for doctoral students enrolled in the Interdisciplinary PhD Specialization in Applied Developmental Science in Education (ADS-E). Prereq: 8081 or EducSt 8081 or HDFs 8081. Cross-listed in EducSt and HDFs.			
<b>8301</b>	<b>Research and Theory on Adolescent, Post-Secondary, and Community Literacies</b>	<b>G</b>	<b>3</b>
Critical examination of trends and issues in research and theory on adolescent, post-secondary, and community literacies.			
<b>8306</b>	<b>African American Language and Literacies</b>	<b>G</b>	<b>3</b>
Examination of research and theory in African American language and literacies studies. Prereq: Credit for at least one Doctoral-level course. Not open to students with credit for 906.			
<b>8307</b>	<b>History of Children's and Young Adult Literature</b>	<b>G</b>	<b>3</b>
A seminar focusing on the history of American and English Children's literature from earliest times to the present. Prereq: Not open to students with credit for 907.			
<b>8311</b>	<b>Research in Emergent Literacy</b>	<b>G</b>	<b>3</b>
Current topics and issues concerning the development of literacy in young children, particularly the achievement of emergent literacy and the transition from emergent to early literacy, generally pre K through 1st grade. Prereq: Not open to students with credit for 911.			
<b>8313</b>	<b>Research and Theory in Written Composition</b>	<b>G</b>	<b>3</b>
Considers writing in variety of contexts--primary school, middle school, high school, college, and the larger community--from the perspective of research; broader issues of how attention to culture and context can provide more responsive instruction. Prereq: Not open to students with credit for 913 and 914.			
<b>8334</b>	<b>Research Methods for Literature for Children and Young Adults</b>	<b>G</b>	<b>4</b>
Immerses students in the methodology, practice, and application of conducting academic research in the field of Literature for Children and Young Adults. The class will aid in their professionalization by having students explore an array of peer-reviewed journals, a variety of major national as well as international conferences, and current scholarly trends in the field.			
<b>8363</b>	<b>Sociolinguistics and Language Education</b>	<b>G</b>	<b>3</b>
Surveys foundational theories, issues, & methodologies in sociolinguistics. We examine how these theoretical insights & empirical approaches have been used to study & illuminate topics of concern to language education. Prereq: Not open to students with credit for 863.			
<b>8420</b>	<b>Professional Seminar for Doctoral Students in Teaching and Learning</b>	<b>G</b>	<b>3</b>
In this seminar, students will gain professional knowledge aimed at facilitating success within the doctoral program. Students will become acquainted with both the explicit and tacit expectations of doctoral study and acquire competencies that will support their continued development as scholars. Repeatable to a maximum of 9 or hrs.			
<b>8421</b>	<b>Guided Survey of Research in Reading</b>	<b>G</b>	<b>3</b>
Explores various investigations of reading and literacy. It examines major trends in reading/literacy research and exemplary studies that address major topics, including methodological issues, basic processes, and instructional practices. Prereq: Not open to students with credit for 921. Repeatable to a maximum of 6 or hrs.			
<b>8425</b>	<b>Understanding the Reading Process</b>	<b>G</b>	<b>3</b>
Focuses on the young child as a learner and on the reading process itself. Explores and extends personal models of the reading process and grounds theory building in close observations of young children reading.			

<b>8426</b>	<b>Advanced Study in Reading Difficulties of Young Children</b>	<b>G</b>	<b>3</b>
Current thinking on reading and learning processes relative to young, low progress, "at risk" students, and seminal research and theories which have influenced the reading difficulties field will be related to students who are difficult to teach.			
<b>8427</b>	<b>Learning and Teaching Reading Comprehension</b>	<b>G</b>	<b>3</b>
Designed to provide doctoral students knowledge of the research on reading comprehension.			
<b>8610</b>	<b>Second Language Acquisition</b>	<b>G</b>	<b>3</b>
Provides an overview of theories and research in the field of second language acquisition (SLA). We examine the development of SLA as a field, exploring cognitive, linguistic, sociocultural, and critical research perspectives. Prereq: Not open to students with credit for 703.09.			
<b>8615</b>	<b>Classroom-Oriented Second Language Research</b>	<b>G</b>	<b>3</b>
Aims to help doctoral students to understand the steps involved in designing a qualitative second-language (L2) research project, to critically evaluate published research, and to consider key issues in designing their own L2 study. Prereq: Not open to students with credit for 916.			
<b>8617</b>	<b>Issues in Second Language Learning</b>	<b>G</b>	<b>3</b>
Lecture and discussion course focused on current issues related to second language acquisition research. Prereq: 8610. Not open to students with credit for 917.			
<b>8620</b>	<b>Language Teacher Education</b>	<b>G</b>	<b>3</b>
Deals with foreign and second language teacher education program designs with a focus on goals, objectives, programming, and accreditation models. It is designed for those who are majoring in either TESOL or foreign language education. Prereq: Grad admission as a foreign and 2nd lang ed program major or in an equiv. program related to global ed, multicultural ed, or a foreign language major in one of the OSU lang. dept (e.g., Spanish, German, Chinese).			
<b>8625</b>	<b>First Year Doctoral Seminar in Foreign Language Education</b>	<b>G</b>	<b>3</b>
Focuses on scholarly discourse communities, contemporary research priorities, programmatic themes and research approaches related to foreign language education. Prereq: Not open to students with credit for 937.45.			
<b>8630</b>	<b>The Dissertation Experience in Foreign Language Education</b>	<b>G</b>	<b>3</b>
Designed to meet the needs of students who are approaching the dissertation research and writing experiences. Prereq: Not open to students with credit for 938.45.			
<b>8635</b>	<b>Research on Second Language Reading and Writing</b>	<b>G</b>	<b>3</b>
Explores research and research practices related to Second Language reading and writing. Prereq: Not open to students with credit for 960.			
<b>8640</b>	<b>Seminar in Foreign Language Education</b>	<b>G</b>	<b>3</b>
A special topics course that examines theories and research related to a specified topic related to foreign language education. Prereq: Not open to students with credit for 962.			
<b>8701</b>	<b>Advanced Concepts in Elementary School Science Education</b>	<b>G</b>	<b>3</b>
Helps doctoral students develop the knowledge and skills necessary to critically analyze reports of educational research, specifically for elementary science education. Prereq: Not open to students with credit for 920.			
<b>8711</b>	<b>Current Issues and Trends in STEM Education</b>	<b>G</b>	<b>3</b>
An introductory seminar for new STEM education doctoral students and other advanced graduate students seeking increased familiarity with STEM education research communities.			
<b>8721</b>	<b>Advanced Study of Thinking, Learning, and Assessment in Mathematics Education</b>	<b>G</b>	<b>3</b>
Develop a deep, foundational knowledge of various theories and types of research on mathematical thinking and learning. Students will also develop knowledge of ways of assessing mathematical knowledge, thinking, and reasoning. Prereq: Not open to students with credit for 938.26.			
<b>8722</b>	<b>Advanced Study of Thinking, Learning, &amp; Assessment in Science Education</b>	<b>G</b>	<b>3</b>
Focuses on advanced skills and knowledge used to understand how thinking, learning, and assessment occur in science education programs. Prereq: Not open to students with credit for 938.27.			
<b>8731</b>	<b>Teaching and Teacher Education in STEM Education</b>	<b>G</b>	<b>3</b>
Students develop the knowledge and skills necessary to critically analyze reports of educational research, current thinking and perspectives, critical issues associated with science and mathematics teacher education and teacher preparation. Prereq: Not open to students with credit for 999.23.			
<b>8741</b>	<b>History of Curriculum in STEM Education</b>	<b>G</b>	<b>3</b>
Familiarizes students with the changing curriculum in school mathematics. It will examine the history and evolution of K-16 STEM curricula in the United States with particular emphasis on the past century (1890 to 2010). Prereq: Not open to students with credit for 937.26.			

## 154 Education: Teaching and Learning

**8742 History of Curriculum in Science Education G 3**

Focuses on the forces that have shaped the emergence of contemporary curriculum patterns in science education, with particular emphasis given to the trends, issues, and policies that have shaped science curriculum design and development.

Prereq: Not open to students with credit for 937.27.

**8743 History of Curriculum in Technology/Engineering Education G 3**

The history of curriculum development in technology and engineering education from the elementary grades to the graduate level.

Prereq: Not open to students with credit for 937.21.

**8751 Survey and Critical Analysis of Research in STEM Education G 3**

Examines critical issues associated with conducting and analyzing research in STEM education including formulating and evaluating the following; research questions, methodologies, data collection instruments, and analysis techniques.

**8890 Advanced Seminar G 1 - 4**

Advanced graduate seminar focusing on educational scholarship.

Prereq: Permission of instructor. Repeatable to a maximum of 40 cr hrs or 10 completions.

**8998 Research Apprenticeship in Teaching and Learning G 2 - 8**

The process of researching teaching and learning are explored through working with a faculty member on an established research project.

Prereq: Permission of PhD coordinator required. Repeatable to a maximum of 30 cr hrs or 15 completions. This course is graded S/U.

**8999 Research G 1 - 15**

Research for dissertation purposes only.

Repeatable to a maximum of 40 cr hrs or 12 completions. This course is graded S/U.

### Educational Studies

**2189S First Education Experience Program (FEEP) U 3 - 5**

Provides opportunities for students to explore education as a possible career path via a combination of field and seminar requirements. Students spend time in local, public PreK-12 school-based settings, interacting with various professionals and students.

GE service learning course.

**5189 First Education Experience Program (FEEP) U G 3 - 5**

The purpose of this course is to provide opportunities for students to explore education settings via a combination of field and seminar requirements and to reflect on how those experiences in this course intersect with the chosen career. The students will spend time in local preK-12 school settings, interacting with various professionals and students.

**5193 Individual Studies: Educational Studies U G 1 - 15**

Individual study projects.

Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.

**5194 Group Studies: Educational Studies U G 1 - 15**

Group study projects.

Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.

**5765 Grant Writing U G 3**

Provides an overview of the grant writing process.

Repeatable to a maximum of 6 cr hrs.

**5798.01 Study Tour: Domestic U G 1 - 5**

Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Repeatable for different titled study tours only.

Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.

**5798.02 Study Tour: Foreign U G 1 - 5**

Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details.

Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions for different titled study tours only. This course is graded S/U.

**5880.01 Interprofessional Education: Seminar on Interprofessional Care U G 2**

Develop and practice skills necessary for interprofessional collaboration in solving complex human problems. Case based.

Prereq: Jr standing, or above. Repeatable to a maximum of 4 cr hrs. Cross-listed in HthRhSc and Nursing and MedColl 6880.01.

**5880.03 Interprofessional Education: Seminar on Ethical issues Common to the Helping Professions U G 2**

Ethical issues common to the professions (e.g., rapidly advancing technology, death/dying, privacy/confidentiality, professional boundaries). Case based. Limited to students enrolled in Health and Rehabilitation Science, Education, Nursing, and the College of Medicine.

Prereq: Jr standing or above. Repeatable to a maximum of 4 cr hrs. Cross-listed in HthRhSc and Nursing and MedColl 6880.03.

**5880.04S Interprofessional Education: Collaboration in Urban Communities U G 3**

Students, faculty, community residents and professionals offer research-based solutions to community identified challenges. Focus on community asset mapping, best professional and interprofessional practices, and teamwork.

Prereq: Jr standing or above. Repeatable to a maximum of 6 cr hrs. Cross-listed in HthRhSc and Nursing.

**5880.07 Interprofessional Approaches to Child Abuse and Neglect U G 2**

Interdisciplinary approach to exploring issues in the identification, treatment, and prevention of child abuse and neglect.

Prereq: Jr standing, or above. Repeatable to a maximum of 4 cr hrs. Cross-listed in MedColl 6880.07.

**5892 Colloquia, Workshops and Special Topics: Educational Studies U G 1 - 8**

Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.

Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.

**6891 Proseminar in Educational Studies G 3**

An introduction to the areas of research in the Department of Educational Studies This is a core requirement for doctoral students.

Prereq: Admission to a doctoral program in Educational Studies.

**6892 Educational Policy and Inequality in Social and Cultural Context: Integrating Research Traditions G 3**

An introductory seminar course addressing issues of race, ethnicity, language, class, gender, sexuality, and disability as they influence and are influenced by educational policy processes. This is a core requirement for doctoral students.

Prereq: Admission to a doctoral program in Educational Studies.

**7189 Planned Field Experience: Foreign G 1 - 15**

Planned professional teaching experience under supervision in a public school or other educational agency.

Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.

**7406 Course Design for Higher Education G 3**

Students will gain an understanding of how to design a course based on goals and objectives. They will begin the work of planning, within a community of peers, and will leave with the basic structure for a course and the beginnings for materials. Participants will share experiences and ideas, design and implement instructional activities, and develop strategies for assessing teaching and learning.

**7717 Interdisciplinary Perspectives on Developmental Disabilities G 3**

Introduction to the psychosocial, medical, and educational implications of developmental disabilities.

Prereq: Permission of instructor. Not open to students with credit for EduPAES 717.01 or 717.03. Cross-listed in HthRhSc, SocWork, Psych, Nursing, and SphHrng.

**7718 Interdisciplinary Perspectives on Autism Spectrum Disorders G 3**

Teaches the analytical skills necessary to comprehend and formulate an interdisciplinary framework relating to major scientific and theoretical perspectives in autism spectrum disorders.

Prereq: Permission of instructor. Not open to students with credit for EduPAES 717.01 and 717.02. Cross-listed in HthRhSc, SocWork, Nursing, Psych, and SphHrng.

**7897 Special Topics: Educational Studies G 1 - 5**

Special topics for professional educators and graduate students in selected areas; designed to provide the opportunity to update professional skills and review current research developments.

Prereq: Grad standing, or registration in one of the professional schools. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.

**7999 Thesis Research: Educational Studies G 1 - 18**

Research related to the Master's thesis.

Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.

**8081 Introductory Seminar: Applied Developmental Science in Education G 3**

An introductory professional seminar for doctoral students seeking the Interdisciplinary PhD Specialization in Applied Developmental Science in Education (ADS-E). Cross-listed in EduTL and HDFS.

**8082 Capstone Seminar: Applied Developmental Science in Education G 3**

A capstone professional seminar for doctoral students enrolled in the Interdisciplinary PhD Specialization in Applied Developmental Science in Education (ADS-E).

Prereq: 8081 or EduTL 8081. Cross-listed in EduTL and HDFS.

<b>8189</b>	<b>Planned Field Experience: Educational Studies</b>	<b>G</b>	<b>1 - 15</b>
Planned professional teaching experience under supervision in a public school or other educational agency. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
<b>8191</b>	<b>Research Apprenticeship: Educational Studies</b>	<b>G</b>	<b>1 - 12</b>
Internship experiences in research, development, or evaluation settings. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>8193</b>	<b>Advanced Individual Studies: Educational Studies</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Educational Studies</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8895</b>	<b>Seminars: Educational Studies</b>	<b>G</b>	<b>2 - 5</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions.			

### Educational Studies: Counselor Education

<b>2189.01S</b>	<b>First Education Experience Program-International</b>	<b>U</b>	<b>3</b>
The main purpose of this course is to provide opportunities for students to explore education as a possible career path via a combination of field and seminar requirements. This is also an opportunity to engage in community service. Students spend time in preK-12 school-based settings, interacting with various professionals (e.g., teachers, school psychologists, school counselors) and students. Repeatable to a maximum of 12 cr hrs.			
<b>2271</b>	<b>Seminar: Self-Career Development</b>	<b>U</b>	<b>2</b>
Designed to provide opportunities for self-exploration and skill development; exploration of and clarification of vocational and educational interests. Prereq: Not open to students with credit for EduPAES 270.01. This course is progress graded (S/U).			
<b>2272</b>	<b>Seminar: Personal Growth to Increase Career Competencies</b>	<b>U</b>	<b>2</b>
Designed to provide opportunities to assist in self-exploration of and clarification for more effective development beyond the level of average performance. Prereq: Not open to students with credit for EduPAES 270.02. This course is progress graded (S/U).			
<b>2273</b>	<b>Seminar: Study Skills Related to Career Goals</b>	<b>U</b>	<b>2</b>
Designed to assist underachieving students with their efforts to ascertain and resolve the causes of low academic productivity; attitudinal and behavioral skills emphasized. Prereq: Not open to students with credit for EduPAES 270.03. This course is progress graded (S/U).			
<b>4270</b>	<b>Love, Sex, and Relationships</b>	<b>U</b>	<b>3</b>
Introduction to understanding healthy relationships including a focus on developing relationship skills such as communication, assertiveness, and conflict resolution, exploration of relationship styles, sex, sexuality, and a focus on developing lifelong healthy relationship skills.			
<b>5193</b>	<b>Individual Studies: Counselor Education</b>	<b>U G</b>	<b>1 - 15</b>
In conjunction with the instructor, students will engage in individual study projects. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
<b>5271</b>	<b>Wellness: Achieving a Healthy Lifestyle</b>	<b>U G</b>	<b>3</b>
Study and application of a holistic approach to understanding and implementing individual wellness for healthy lifestyles.			
<b>5272</b>	<b>Wellness: Intervention</b>	<b>U G</b>	<b>3</b>
The purpose of this course is to train students to understand the theories and practical applications involved in assisting individuals and targeted groups with the lifestyle modifications and habit changes that contribute to overall well being. Students must have completed ESCE 5271 before enrolling in this course. Prereq: 5271.			
<b>6189.01</b>	<b>Practicum In School Counseling</b>	<b>G</b>	<b>4</b>
Field practicum in school counseling. Prereq: 6731, 6732, and 6733; and admission into Counselor Education program.			
<b>6189.02</b>	<b>Practicum in Clinical Health Counseling</b>	<b>G</b>	<b>4</b>
Practicum in clinical mental health counseling. Prereq: 6731, 6732, and 6733; and admission into Counselor Education program.			

<b>6731</b>	<b>Foundations of Professional Counseling</b>	<b>G</b>	<b>3</b>
Foundations of professional counseling, including history and philosophy, professional associations, licensure, current settings, advocacy, collaboration, role in national emergencies, and current issues of the profession. Prereq: Admission to Counselor Education program.			
<b>6732</b>	<b>Theories of Professional Counseling</b>	<b>G</b>	<b>3</b>
Theories of change, personality development, and methods to foster client growth. Prereq: Admission to Counselor Education program. Concur: 6733.			
<b>6733</b>	<b>Techniques of Individual Counseling</b>	<b>G</b>	<b>1½</b>
Techniques to facilitate the individual counseling process for client growth. Prereq: Admission to Counselor Education program. Concur: 6732.			
<b>6734</b>	<b>Assessment in Counseling</b>	<b>G</b>	<b>3</b>
Studies that provide an understanding of individual and group approaches to counseling assessment and evaluation. Prereq: Admission to Counselor Education program.			
<b>6735</b>	<b>Counseling Across the Lifespan</b>	<b>G</b>	<b>2</b>
Developmental issues across the lifespan, including identity development, diversity, values programming, poverty, and events that alter the developmental trajectory such as trauma. Prereq: Admission to Counselor Education program.			
<b>6736</b>	<b>Lifespan Career Development and Counseling</b>	<b>G</b>	<b>2</b>
Study of the career development process across the lifespan and concurrent counseling implications. Prereq: Admission to Counselor Education program.			
<b>6737</b>	<b>Group Counseling</b>	<b>G</b>	<b>3</b>
Study of group counseling theories and developmental processes for therapeutic and psychoeducational groups. Prereq: 6731 and 6732, and admission to Counselor Education program. Concur: 6738.			
<b>6738</b>	<b>Techniques of Group Counseling</b>	<b>G</b>	<b>1½</b>
Experiential group participation and leadership. Prereq: 6731 and 6733, and admission to Counselor Education program.			
<b>6739</b>	<b>Legal and Ethical Issues in Counseling</b>	<b>G</b>	<b>1½</b>
Legal and ethical issues in professional counseling. Prereq: 6731, and admission to Counselor Education program.			
<b>6740</b>	<b>Techniques for Counseling Children and Adolescents</b>	<b>G</b>	<b>1½</b>
Techniques to facilitate the counseling process with children and adolescents. Prereq: 6731, and admission to Counselor Education program.			
<b>6831</b>	<b>Professional School Counseling</b>	<b>G</b>	<b>3</b>
Foundation concepts for providing professional school counseling through comprehensive school counseling programs. Prereq: 6731, and admission to Counselor Education program.			
<b>6931</b>	<b>Diagnosis of Mental and Emotional Disorders</b>	<b>G</b>	<b>3</b>
Study and application of the principles and practices of diagnosis according to the DSM. Prereq: 6731, and admission to Counselor Education program.			
<b>7191.01</b>	<b>Internship in School Counseling</b>	<b>G</b>	<b>5</b>
Field internship in school counseling. Prereq: 6189.01 or 6189.02, and admission to Counselor Education program. Repeatable to a maximum of 15 cr hrs.			
<b>7191.02</b>	<b>Internship in Clinical Mental Health Counseling</b>	<b>G</b>	<b>5</b>
Internship in clinical mental health counseling. Prereq: 6189.01 or 6189.02, and admission to Counselor Education program. Repeatable to a maximum of 15 cr hrs.			
<b>7741</b>	<b>Multicultural Issues In Counseling</b>	<b>G</b>	<b>4</b>
Study and application of concepts for understanding diversity of clients and self, and implications for communication and counseling practice. Prereq: 6731, and admission to Counselor Education program.			
<b>7742</b>	<b>Addictions Counseling</b>	<b>G</b>	<b>2</b>
Study and application of the principles and practices of diagnosis, treatment, and referral of addiction disorders. Prereq: 6731, and admission to Counselor Education program.			
<b>7743</b>	<b>Family and Couples Counseling</b>	<b>G</b>	<b>2</b>
Study and application of the principles and practices of marriage, family, and couples counseling. Prereq: 6731, and admission to Counselor Education program.			
<b>7745</b>	<b>Theories of Consultation</b>	<b>G</b>	<b>1½</b>
Study and application of concepts and practices of consultation in counseling. Prereq: 6731, and admission to Counselor Education program.			
<b>7832</b>	<b>Current Issues in Professional School Counseling</b>	<b>G</b>	<b>3</b>
Study of the current issues in school counseling including student issues, schools issues, and community issues. Prereq: 6831, and admission to Counselor Education program.			

## 156 Educational Studies: Counselor Education

<b>7932</b>	<b>Psychopathology, Trauma, and Crisis Counseling</b>	<b>G</b>	<b>3</b>
Study and application of treatment of major mental disorders, trauma, and crisis counseling. Prereq: 6731 and 6931, and admission to Counselor Education program.			
<b>7933</b>	<b>Wellness and Prevention Counseling</b>	<b>G</b>	<b>3</b>
Study and application of principles and practices of wellness and prevention in counseling. Prereq: 6731, and admission to Counselor Education program.			
<b>7934</b>	<b>Theories of Counseling Supervision</b>	<b>G</b>	<b>1½</b>
Study and application of concepts and practices of supervision for counselors and therapists. Prereq: 6731, and admission to Counselor Education program.			
<b>7935</b>	<b>Advanced Assessment: Personality Testing</b>	<b>G</b>	<b>4</b>
Study and application of principles and practices of comprehensive psychological evaluations. Prereq: 6731 and 6734, and admission to Counselor Education program.			
<b>8100</b>	<b>Leadership in Counselor Education</b>	<b>G</b>	<b>3</b>
Study and application of the principles and practices of leadership in professional counseling and counselor education. Prereq: Admission to Doct program in Counselor Education.			
<b>8191.01</b>	<b>Doctoral Practicum in Counselor Education</b>	<b>G</b>	<b>2 - 8</b>
Practicum in doctoral studies in counselor education. Prereq: Admission to Doc program in Counselor Education, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.			
<b>8191.02</b>	<b>Doctoral Internship: Counselor Education - Supervision</b>	<b>G</b>	<b>2 - 10</b>
Field experience in doctoral studies in counselor education: Supervision. Prereq: Admission to Doc program in Counselor Education, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
<b>8191.03</b>	<b>Doctoral Internship: Counselor Education - Teaching</b>	<b>G</b>	<b>2 - 10</b>
Field experience in doctoral studies in counselor education: Teaching. Prereq: Admission to Doct program in Counselor Education program, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
<b>8191.04</b>	<b>Doctoral Internship: Counselor Education - Counseling</b>	<b>G</b>	<b>0 - 10</b>
Field experience in doctoral studies in counselor education: Counseling. Prereq: Admission to Doct program in Counselor Education program, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
<b>8191.05</b>	<b>Doctoral Internship: Counselor Education: Research</b>	<b>G</b>	<b>2 - 10</b>
Field Experience in Counselor Education: Research. Prereq: Admission to Doctoral program in Counselor Education, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
<b>8193</b>	<b>Advanced Independent Studies: Counselor Education</b>	<b>G</b>	<b>1 - 12</b>
Advanced independent study in Counselor Education. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>8200</b>	<b>Critical Pedagogy Issues In Counselor Education</b>	<b>G</b>	<b>3</b>
Study and application of the principles and practices of teaching counseling in graduate counselor education programs. Prereq: Admission to Doct program in Counselor Education.			
<b>8300</b>	<b>Developing a Research Identity in Counselor Education</b>	<b>G</b>	<b>3</b>
Study and application of principles and practices of developing a research agenda and professional scholarship in counselor education. Prereq: Admission to Doct program in Counselor Education.			
<b>8400</b>	<b>Critical Research Issues in Counselor Education</b>	<b>G</b>	<b>3</b>
Study and application of principles and practices of research and professional scholarship in counselor education. Prereq: Admission to Doct program in Counselor Education.			
<b>8895</b>	<b>Seminars: Counselor Ed</b>	<b>G</b>	<b>1 - 4</b>
Study, discussion, and application of concepts related to doctoral study in counselor education. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is graded S/U.			
<b>8999</b>	<b>Dissertation/Thesis Research: Counselor Education</b>	<b>G</b>	<b>1 - 9</b>
Dissertation research - research conducted for dissertation, under supervision of faculty advisor. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			

### Educational Studies: Cultural Foundations of Educ

<b>5194</b>	<b>Group Studies: Cultural Foundations of Education</b>	<b>U G</b>	<b>1 - 15</b>
Group study projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			

<b>7214</b>	<b>An Interpretive History of African American Education:1700 to 1950</b>	<b>G</b>	<b>3</b>
Examination of the education of African Americans from the perspective of African American scholars from 1700 to 1950. Prereq: Not open to students with credit for EduPL 863.			
<b>8193</b>	<b>Advanced Individual Studies: Cultural Foundations of Education</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Cultural Foundations of Education</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8999</b>	<b>Dissertation or Thesis Research: Cultural Foundations of Education</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

### Educational Studies: Educational Administration

<b>5193</b>	<b>Individual Studies: Educational Administration</b>	<b>U G</b>	<b>1 - 15</b>
Individual study projects. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies: Educational Administration</b>	<b>U G</b>	<b>1 - 15</b>
Group study projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>6189.01</b>	<b>Field Experience: PK-6 principal licensure</b>	<b>G</b>	<b>½ - 3</b>
The planned field experience course is the capstone experience for students in PK-6 principal licensure. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>6189.02</b>	<b>Field Experience: 4-9 principal licensure</b>	<b>G</b>	<b>½ - 3</b>
The planned field experience course is the capstone experience for students in 4-9 principal licensure. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>6189.03</b>	<b>Field Experience: 5-12 principal licensure</b>	<b>G</b>	<b>½ - 3</b>
The planned field experience course is the capstone experience for students in 5-12 principal licensure. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>6350</b>	<b>Introduction to Educational Administration</b>	<b>G</b>	<b>3</b>
Introduction to the organizational setting of the school, the nature of administration, and personal decision making about careers in educational administration. This is a core course in administrator certification. Prereq: Not open to students with credit for EduPL 846 or 886.			
<b>6356</b>	<b>Legal Aspects of School Administration</b>	<b>G</b>	<b>3</b>
A study of statutory and case law, executive opinions, legal principles, and provisions relevant to educational administration, particularly in areas of student rights, personnel, finance, curriculum, contracts, property, liability, and organization. Prereq: Not open to students with credit for EduPL 952.			
<b>6360</b>	<b>School Community Relations and Politics</b>	<b>G</b>	<b>3</b>
Principles and practice in developing and maintaining appropriate school community relationships; communication processes; decision-making patterns; politics and micro-politics of schools.			
<b>6362</b>	<b>Strategic Human Capital Management for P-12 Administration</b>	<b>G</b>	<b>3</b>
Provides a foundation of human resource function in theory and practice; explores laws, policies, and practices related to the effective management of human capital management in P-12 education. Prereq: 6350 or EduPL 6350. Not open to students with credit for EduPL 955 or 949.			
<b>6366</b>	<b>School Finance and Business Administration</b>	<b>G</b>	<b>3</b>
A study of K-12 education finance with special emphasis on public policy and business administration. Criteria for evaluating taxation and models for making business decisions are included.			
<b>6372</b>	<b>Educational Technology Leadership and Administration</b>	<b>G</b>	<b>3</b>
Overview of the uses of technology in schools. Prepares leaders with knowledge and skills to help shape, evaluate, and supervise technology initiatives in educational organizations. Prereq: Not open to students with credit for EduPL 707.			
<b>6374</b>	<b>Database Decision Making for School Leaders</b>	<b>G</b>	<b>3</b>
Designed to assist building leaders in their understanding and ability to systematically use a variety of student and school related data to guide educational decision-making. This course will also emphasize ways in which school leaders can collaboratively work with stakeholders to use data to inform the development of a school vision. Prereq: 6350.			

## Educational Studies: Educational Administration 157

<b>7189</b>	<b>Planned School District Field Experience</b>	<b>G</b>	<b>2 - 5</b>
The candidate synthesizes and applies knowledge and skills through substantial, sustained, standards-based field work, planned and guided cooperatively by the licensure adviser and school district. Repeatable to a maximum of 8 cr hrs or 2 completions. This course is progress graded (S/U).			
<b>7350</b>	<b>School Improvement for Educational Leaders</b>	<b>G</b>	<b>3</b>
Applies theory from classroom management, learning, motivation, and teaching to the practice of PreK-12 education. Repeatable to a maximum of 6 cr hrs.			
<b>7356</b>	<b>Instructional Leadership and Supervision</b>	<b>G</b>	<b>3</b>
Instructional leadership requires the development of an organization and its members in support of its teaching and learning mission. Prereq: Not open to students with credit for EduPL 726 or 891.01.			
<b>7359</b>	<b>Leadership, Inquiry, and Ethics</b>	<b>G</b>	<b>3</b>
Authentic learning leading to application to practice in educational organizations. This is a core course in administrator certification. Learning promotes three primary principles: leadership, inquiry, and ethics.			
<b>7362</b>	<b>Board Politics and Public Relations</b>	<b>G</b>	<b>3</b>
Explores board of education and superintendent roles and responsibilities in the governance of the school district and the dynamic nature of board-superintendent relationships. Prereq: Not open to students with credit for EduPL 962.			
<b>7364</b>	<b>Finance of School Districts</b>	<b>G</b>	<b>3</b>
Explores the collective dimensions of leadership and the larger context of school finance that emphasizes economics and politics. Prereq: Not open to students with credit for EduPL 724.			
<b>7366</b>	<b>Administrative Responsibilities, Policy, and Perspectives</b>	<b>G</b>	<b>3</b>
Role of the superintendent in standards-based education reform and the improvement of the instructional program to serve diverse student needs effectively and equitably. Prereq: Permission of instructor. Not open to students with credit for EduPL 725 or 843.			
<b>7368</b>	<b>Educational Facility Planning</b>	<b>G</b>	<b>3</b>
Introduces knowledge, dispositions, and performances necessary for planning, designing, and building schools; explores notions of architectural quality, aesthetic experience, and school as public place. Prereq: Not open to students with credit for EduPL 958.			
<b>7374</b>	<b>Theory and Foundations of Supervision</b>	<b>G</b>	<b>3</b>
Addresses theory, concepts, and research related to supervision and is intended to develop comprehension of the major points-of-view, elements, and constructs that influence the practice of supervision. Prereq: Not open to students with credit for EduPL 866.			
<b>7881</b>	<b>Instructional Leadership</b>	<b>G</b>	<b>1 - 3</b>
This course will provide opportunities for students analyze and evaluate the meaning, practice and impact of instructional leadership in schools. Course readings will focus on the mechanisms through which school principals lead teacher teams to improve instruction by developing internally coherent systems of collaboration and common understandings of effective teaching practice. Prereq: Enrollment in BRIGHT MBA. Repeatable to a maximum of 3 cr hrs. This course is progress graded.			
<b>7882</b>	<b>Theories of Instruction</b>	<b>G</b>	<b>1</b>
This course will explore three different conceptual frameworks for learning developed over the course of the twentieth century, including socio-cognitive, soci-historical and cultural-historical, and instruction using technologies. Prereq: Enrollment in BRIGHT MBA program.			
<b>7883.01</b>	<b>Culture &amp; Efficacy In Education</b>	<b>G</b>	<b>1½</b>
The course will provide participants with the opportunity to develop a multicultural awareness and develop cultural competency as they explore the impact of an increasingly diverse society in the United States. Particular emphasis will be placed on gaining self-awareness around issues of cultural diversity as well as expanding one's knowledge base in the area of diversity. Prereq: Enrollment in BRIGHT MBA. Concur: 7883.02.			
<b>7883.02</b>	<b>Culture &amp; Efficacy In Education</b>	<b>G</b>	<b>1½</b>
The course will provide participants with the opportunity to develop a multicultural awareness and develop cultural competency as they explore the impact of an increasingly diverse society in the United States. Particular emphasis will be placed on gaining self-awareness around issues of cultural diversity as well as expanding one's knowledge base in the area of diversity. Prereq: 7883.01, and enrollment in BRIGHT MBA.			
<b>7884</b>	<b>Curriculum Design</b>	<b>G</b>	<b>1½</b>
This course is a compilation of curriculum history, issues, and development, primarily to facilitate an understanding of what curriculum means, looks like, and how it can be created, implemented, critiqued, assessed and modified for use in classrooms. Prereq: Enrollment in BRIGHT MBA program.			
<b>7885</b>	<b>School Law</b>	<b>G</b>	<b>1½</b>
The course is designed to help school leaders explore the interplay of law, policy, and educational leadership and practice. Prereq: Enrollment in BRIGHT MBA.			

<b>7886</b>	<b>Data Driven Improvement for School Leaders</b>	<b>G</b>	<b>1 - 2</b>
This course is designed to assist school leaders in their understanding and ability to systematically use a variety of school data to impact teaching, learning, and decision-making for the purpose of increasing student success. The course also focuses on how school leaders can create conditions that foster effective data use. Prereq: Enrollment in BRIGHT MBA program. Repeatable to a maximum of 2 cr hrs. This course is progress graded.			
<b>7887</b>	<b>Literacy</b>	<b>G</b>	<b>1</b>
This course presents an overview of reading achievement of students in American schools and instructional strategies for teaching reading skills in low resource schools with high poverty populations. Prereq: Enrollment in BRIGHT MBA program.			
<b>7888</b>	<b>Academic Motivation for School Administrators</b>	<b>G</b>	<b>1</b>
This course is designed to introduce school administrators to current theory and research on academic motivation. Prereq: Enrollment in BRIGHT MBA program.			
<b>7897</b>	<b>Special Topics: Educational Administration</b>	<b>G</b>	<b>1 - 5</b>
Special topics for professional educators and graduate students in selected areas; designed to provide the opportunity to update professional skills and review current research developments. Prereq: Grad standing, or registration in one of the professional schools. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.			
<b>7999</b>	<b>Thesis Research: Educational Administration</b>	<b>G</b>	<b>1 - 18</b>
Research for master's thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8193</b>	<b>Advanced Individual Studies: Educational Administration</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Educational Administration</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8200</b>	<b>Place, Space and Leadership</b>	<b>G</b>	<b>3</b>
The place and space are fundamental dimensions of the human experience. In this course, we will examine the ways in which place and space are produced and inhabited by people in various contexts and we will consider how place and space help shape experiences of belonging, citizenship, and community in everyday life. Prereq: Admission to the EdD in Educational Administration program, or permission of instructor.			
<b>8201</b>	<b>Community-Based Research and Evaluation in Educational Administration</b>	<b>G</b>	<b>3</b>
This course focuses on identifying, understanding and addressing problems of practice at the community level. Through class discussions and assignments, students will become familiar with the paradigm shift, developing community inquiry through problem mapping and evaluation and community based participatory research (CBPR). Cross-listed in ESQual.			
<b>8202</b>	<b>Positive Psychology and Educational Administration</b>	<b>G</b>	<b>3</b>
This course helps present and future educational leadership understand the pressure on educational systems from the economic, technological, social, cultural, and political conditions of contemporary society, while exploring their implications and ways to enhance positive and effective leadership.			
<b>8310</b>	<b>Educational Change</b>	<b>G</b>	<b>3</b>
The study and practice of strategies for implementing change in schools, including the development of shared vision, missions, goals, and interventions.			
<b>8317</b>	<b>Legal Aspects of Special Education Administration</b>	<b>G</b>	<b>3</b>
Legislative, executive, and judicial policy and action pertaining to the rights of students with special needs, with a focus on the responsibilities of school administrators and state officials. Prereq: Not open to students with credit for EduPL 963.			
<b>8318</b>	<b>Seminar on Human Resources in Education</b>	<b>G</b>	<b>3</b>
Expand knowledge and skills about human resource function in theory and practice; analyze and critique laws, policies, and practices related to the effective management of, and professional development for, human capital management in education.			
<b>8354</b>	<b>Legal Research In Educational Administration</b>	<b>G</b>	<b>3</b>
Inquiry into the field of Educational Administration using Legal Research Methodology. Part of the doctoral core in Educational Administration. Prereq: Not open to students with credit for EduPL 971.			

## 158 Educational Studies: Educational Administration

<b>8356</b>	<b>Economic Viewpoints in Education</b>	<b>G</b>	<b>3</b>
A study of K-12 education with emphasis on economic viewpoints about schooling. Human capital theory asserts that education is an investment. Signaling theory asserts that formal education is credentialing. Prereq: Admission to Educational Administration Doctoral Cohort. Not open to students with credit for EduPL 916.			
<b>8359</b>	<b>Organizational Behavior: Theory and Research</b>	<b>G</b>	<b>3</b>
Analysis of relevant research and organizational theory for understanding schools. This is the first course in the Ph.D. doctoral core in educational administration. Prereq: 6350 or EduPL 6350 (846). Not open to students with credit for EduPL 959.			
<b>8361</b>	<b>Social and Political Contexts of Education</b>	<b>G</b>	<b>3</b>
Examines societal conditions - economic, technological, social, cultural, and political - that exert intense pressures on the educational system and pose great challenges to educational leaders.			
<b>8421</b>	<b>Leading Professional Learning for Educators</b>	<b>G</b>	<b>3</b>
Study of research on teacher education and teacher education programs at the collegiate and university levels. Repeatable to a maximum of 6 cr hrs.			
<b>8700</b>	<b>Inquiry in Educational Administration</b>	<b>G</b>	<b>3</b>
This course will examine conducting research on problems of practice in school environments with a focus on critical leadership.			
<b>8895</b>	<b>Seminars: Educational Administration</b>	<b>G</b>	<b>2 - 5</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions.			
<b>8997</b>	<b>Edd Final Project Writing</b>	<b>G</b>	<b>1 - 3</b>
Writing the final project for the Edd. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U.			
<b>8999</b>	<b>Dissertation or Thesis Research: Educational Administration</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

### Educational Studies: Educational Policy

<b>3312</b>	<b>Conflict, Power, and Voice in Public Education</b>	<b>U</b>	<b>3</b>
This course introduces students to the contested interests, ideologies, and goals that sit at the center of the educational political arena. The course explores multiple and often competing purposes of education, politics of education governance, and issues of representation, agency, and change.			
<b>5217</b>	<b>Comparative Perspective on Education, Globalization, and National Development</b>	<b>U G</b>	<b>3</b>
Examines comparative perspectives on the role of educational processes in national development and globalization, including "out of school" contexts that impact where and what children learn.			
<b>6000</b>	<b>Introduction to Educational Policy</b>	<b>G</b>	<b>3</b>
Introduction to the educational policy process and common dilemmas in educational policy.			
<b>7100</b>	<b>Education Policy Writing</b>	<b>G</b>	<b>3</b>
Develop policy writing skills, including the translation of educational research to policy briefs, the development of policy scholarship, and understanding the nuances of publication in various policy venues.			
<b>7224</b>	<b>Educational Policy Analysis in Contemporary Culture</b>	<b>G</b>	<b>3</b>
Examines key theories and research perspectives on educational policy. Explores major policy processes and agendas unfolding at the time of the course. Introduction to methods for studying educational policy. Prereq: Not open to students with credit for EduPL 824.			
<b>7225</b>	<b>Inquiry into Education Policy Research</b>	<b>G</b>	<b>3</b>
Introduction to guiding principles for policy inquiry and analyses. The focus is on learning analytical vocabularies and approaches distinctive to policy inquiry. Students learn to read and think critically and creatively about public policy problems and solutions through the lens of research. Cross-listed in ESQual.			
<b>7897</b>	<b>Special Topics: Educational Policy</b>	<b>G</b>	<b>1 - 5</b>
Special topics for professional educators and graduate students in selected areas; designed to provide the opportunity to update professional skills and review current research developments. Prereq: Grad standing or registration in one of the professional schools. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.			
<b>7999</b>	<b>Thesis Research: Educational Policy</b>	<b>G</b>	<b>1 - 3</b>
Research for master's thesis purposes. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			

<b>8193</b>	<b>Advanced Individual Studies: Educational Policy</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual study. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8209</b>	<b>Cultural Processes in Education</b>	<b>G</b>	<b>3</b>
Examines the role of cultural processes in educational practices at school, after school, in the home, and on the job. Explores how culture, ethnicity, and power operate in formal and informal educational settings. Prereq: Not open to students with credit for EduPL 909.			
<b>8312</b>	<b>Governance and Control in American Education</b>	<b>G</b>	<b>3</b>
A critical examination of national, state, and local politics and governance in American education.			
<b>8352</b>	<b>Educational Policy in Democratic Society</b>	<b>G</b>	<b>3</b>
Focuses on conceptions of democracy, the democratic aims of public education, and the processes of developing, implementing and analyzing policies that further those aims. Prereq: Not open to students with credit for EduPL 922.			
<b>8895</b>	<b>Seminars: Educational Policy</b>	<b>G</b>	<b>2 - 5</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions.			
<b>8999</b>	<b>Dissertation or Thesis Research: Educational Policy</b>	<b>G</b>	<b>1 - 3</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			

### Educational Studies: Educational Psychology

<b>1159</b>	<b>Online Learning Strategies and Skills</b>	<b>U</b>	<b>2</b>
Explores how to use the web for a successful college experience. Covers navigating online resources, communicating academic content, and enhancing learning via the web. This course has been peer reviewed and is officially recognized by Quality Matters as meeting the standards of a quality online course. For more information, visit <a href="http://www.qmprogram.org">www.qmprogram.org</a> . Prereq: Not open to students with credit for EduPL 159.			
<b>1259</b>	<b>Learning and Motivation Strategies for College Success</b>	<b>U</b>	<b>3</b>
Teaches learning and motivation strategies to help students manage time, improve grades, and achieve college success. Students will develop practical skills for personal and academic effectiveness, while also understanding the related research. Topics include boosting motivation, overcoming procrastination, enhancing organization and concentration, and applying effective study strategies.			
<b>1359</b>	<b>Critical Thinking and Collaboration in Online Learning</b>	<b>U</b>	<b>3</b>
Teaches skills for effective collaboration, research, communication, and critical thinking in college and beyond. Students will develop as modern learners who are able to self-regulate while also functioning effectively as team members. Topics covered include online learning tools, search strategies, organization, use of evidence in argumentation, presentations, and self-assessment.			
<b>2059</b>	<b>Becoming a Self-Regulated Learner</b>	<b>U</b>	<b>2</b>
This course will build strategies and motivation to overcome recent academic challenges and prepare for success in the future. Main topics we will cover include self-regulation, active learning, studying, using resources, planning, goal setting, and time management. Our entire course is geared toward helping students become self-regulated learners.			
<b>2060</b>	<b>Academic Success Strategies for International Students</b>	<b>U</b>	<b>2</b>
Supports the academic transition for international students by teaching study habits and strategies for success in the U.S. classroom. Covers expressing original ideas, understanding instructor and course expectations, engaging in class and with classmates, using support resources on campus, managing time, incorporating active learning into study methods, and thinking critically.			
<b>2309</b>	<b>Psychological Perspectives on Education</b>	<b>U</b>	<b>3</b>
This course deals with the major theories of human development, motivation and learning. Planning of instruction, teaching strategies, assessment and classroom management are examined. Authentic pedagogical practices are used to gain an understanding of the teaching and learning process. Prereq: Not open to students with credit for EduPL 309.			
<b>5193</b>	<b>Individual Studies: Educational Psychology</b>	<b>U G</b>	<b>0 - 15</b>
Individual study projects. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies: Educational Psychology</b>	<b>U G</b>	<b>1 - 15</b>
Group study projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>5401</b>	<b>Adolescent Learning and Development in School Contexts</b>	<b>U G</b>	<b>3</b>
Provides students with an introduction to the field of adolescent development and psychology and applications to education. Teacher education licensure course.			

## Educational Studies: Educational Psychology 159

<b>5892</b>	<b>Workshops: Educational Psychology</b>	<b>U G</b>	<b>1 - 8</b>
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>7401</b>	<b>Controversies, Myths, and Dilemmas in Education</b>	<b>G</b>	<b>3</b>
This course examines research on classroom learning and teaching and educational policy, and considers the implications of this research for teaching practice. Course will examine the research evidence behind school- and classroom-level practices, particularly focusing on issues on which opinion is sometimes sharply divided. Prereq: Not open to students with credit for EduPL 803.			
<b>7402</b>	<b>Educational Psychology: Cognition, Learning, and Instruction</b>	<b>G</b>	<b>3</b>
Examination of theory and research about cognitive perspectives on classroom learning and instruction, particularly research on the teaching and learning of school subjects. Prereq: Not open to students with credit for EduPL 880.			
<b>7403</b>	<b>Motivation in Learning and Teaching</b>	<b>G</b>	<b>3</b>
Examines research and theory about motivation to learn in academic settings, including studies of goal theory, social cognitive approaches, and teaching practices. Prereq: Not open to students with credit for EduPL 801.			
<b>7404</b>	<b>College Teaching</b>	<b>G</b>	<b>3</b>
Designed as initial preparation for instruction at the college level; focuses on the generic skills, strategies, and issues common to university teaching. Open to grad students committed to teaching in any area or discipline at the college level.			
<b>7405</b>	<b>Cooperative Learning: Research and Practice</b>	<b>G</b>	<b>3</b>
Examines research, theory, and practice related to cooperative and collaborative learning, including teacher's role, strategies and structures, and assessment of outcomes. Prereq: Not open to students with credit for EduPL 797.			
<b>7406</b>	<b>Social Basis of Behavior in Education</b>	<b>G</b>	<b>3</b>
Focuses on the role of behavior in schools as social contexts, social perception, social influence, and social relations from a psychological perspective. The emphasis in this course is on understanding and mastery of conceptual, theoretical, and practical issues in social behavior in educational settings.			
<b>7434</b>	<b>Professional Development Around Teaching in Higher Education</b>	<b>G</b>	<b>3</b>
Study aspects of teaching and teaching support at the university level, and examine models for university teaching preparation and support programs. Prereq: Permission of instructor.			
<b>7999</b>	<b>Thesis Research: Educational Psychology</b>	<b>G</b>	<b>1 - 18</b>
Research for master's thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8193</b>	<b>Advanced Individual Studies: Educational Psychology</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Educational Psychology</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8402</b>	<b>Classroom Research on Student Motivation</b>	<b>G</b>	<b>3</b>
In depth study of theories and research that address the development and support of students' motivation to achieve in classroom settings. Prereq: Not open to students with credit for EduPL 944.			
<b>8403</b>	<b>Advanced Seminar in Educational Psychology</b>	<b>G</b>	<b>3</b>
Advanced seminar in educational psychology for doctoral students. Current trends in theory and research will be critically examined.			
<b>8404</b>	<b>Academic Writing in Education: Reviewing the Literature</b>	<b>G</b>	<b>3</b>
The class will focus primarily on systematic work on students' individual literature reviews. Topics covered will include the writing process in general, including developing personal writing habits; strategies for locating and evaluating existing research literature; structuring literature reviews for different purposes and building a logical rationale; and APA format and style. This course is graded S/U.			
<b>8405</b>	<b>Classroom Learning and Instruction</b>	<b>G</b>	<b>3</b>
This advanced seminar is designed to guide students through contemporary issues in classroom learning and instruction. Students will critically review classroom-based research on how students learn and how to help students learn in various subject areas and with a variety of learners, including K-16 students and adult learners.			

<b>8406</b>	<b>Self-regulated Learning</b>	<b>G</b>	<b>3</b>
This class will critically examine major constructs and relations proposed by different models. We will analyze and discuss empirical research designed to investigate students' self-regulated learning, including its assessment. We also will evaluate how self-regulated learning can be fostered through instructional interventions.			
<b>8407</b>	<b>Self-efficacy</b>	<b>G</b>	<b>3</b>
This course explores the concept of collective efficacy, especially as media. The issue of self-efficacy in the social world and Bandura's theories will also be discussed.			
<b>8408</b>	<b>Race, Ethnicity, &amp; Multiculturalism in Education &amp; Psychology</b>	<b>G</b>	<b>3</b>
This seminar is designed to discuss current conceptual, theoretical, and methodological work in education and psychology and consider the role of race and ethnicity in students' school experiences, academic achievement, and development in multicultural settings.			
<b>8895</b>	<b>Seminars: Educational Psychology</b>	<b>G</b>	<b>2 - 5</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions.			
<b>8999</b>	<b>Dissertation or Thesis Research: Educational Psychology</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

## Educational Studies: Higher Educ & Student Affairs

<b>2239</b>	<b>Land-Grant Universities: Mission and Leadership</b>	<b>U</b>	<b>3</b>
This course provides students with the opportunity to learn about land-grant institutions and their place in the American higher education system, including the evolving nature of the land-grant mission in 21st century America, as well as how higher education leaders are reconfiguring our nation's preeminent public institutions to meet the needs of the communities they were designed to serve. Cross-listed in HDF5.			
<b>2570</b>	<b>Team and Organizational Leadership</b>	<b>U</b>	<b>3</b>
Overview of the theory and skills necessary for the practice of effective leadership in team and organizational settings. Leadership is explored as an integral component of a student's career and life plan. Repeatable to a maximum of 12 cr hrs.			
<b>2571S</b>	<b>Leadership in Community Service</b>	<b>U</b>	<b>3</b>
Introduction to the knowledge, skills, and competencies for responsible service and leadership in diverse communities. Preparation for engaged, responsible, and active community involvement and leadership. Please note: Although this course is repeatable in special circumstances (study abroad requirement, for example), only one iteration will count for GE credit. Repeatable to a maximum of 12 cr hrs. GE service learning course.			
<b>2572</b>	<b>Introduction to Leadership Development in Learning Organizations</b>	<b>U</b>	<b>3</b>
Concepts and strategies that are necessary to be an effective leader. Through a variety of leadership assessments, students will learn about their leadership styles and preferences. Repeatable to a maximum of 12 cr hrs.			
<b>2575</b>	<b>Student Organization Leadership Training</b>	<b>U</b>	<b>3</b>
Overview of the theory and skills necessary for the practice of effective leadership in student organization settings. Leadership is explored as an integral component of a student's activity in Ohio State student organizations. Repeatable to a maximum of 12 cr hrs.			
<b>2576</b>	<b>Leadership for Resident Advisors</b>	<b>U</b>	<b>1 - 3</b>
Provides an overview of the theory and skills necessary for the practice of effective leadership in team and organizational settings. Leadership is explored as an integral component of a student's role as a Resident Advisor. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>2577</b>	<b>Diversity and Social Justice in Leadership</b>	<b>U</b>	<b>3</b>
Builds on intellectual and experiential engagement with issues of difference, diversity, social justice, and alliance building. GE diversity soc div in the US course.			
<b>2578</b>	<b>Leadership for Residence Managers</b>	<b>U</b>	<b>1 - 3</b>
Provides an overview of the theory and skills necessary for the practice of effective leadership in team and organizational settings. Leadership is explored as an integral component of a student's role as a Resident Manager. Repeatable to a maximum of 12 cr hrs or 4 completions.			
<b>3200</b>	<b>So You Want to Work with College Students? Intro to Student Affairs</b>	<b>U</b>	<b>3</b>
Course focuses on the role of student development theory and its use in helping students examine how they grow as a result of the college experience.			
<b>3202</b>	<b>International Student Experience</b>	<b>U</b>	<b>3</b>
Course examines two aspects of internationalization on American college campuses: American students studying abroad and international students studying in the US.			

## 160 Educational Studies: Higher Educ & Student Affairs

**3221 Innovation and Leadership** U 3

This course is built on intellectual and experiential engagement with innovative leadership. Students are challenged to develop better problem solving skills in a team-oriented atmosphere, and through the use of creativity, learn to view challenges from new and different perspectives.  
Cross-listed in BusMHR.

**3573 Theories of Leadership in Learning Organizations** U 3

A focus on the particular opportunities and challenges that exist in understanding the theories related to leadership development in a complex and changing world.  
Repeatable to a maximum of 12 cr hrs.

**4201 The Asian American Student Experience** U 3

Course examines the histories and contemporary issues affecting Asian American students from the perspectives of educational history and policies from K-12 through higher education.

**4202 The Latinx Student Experience** U 3

Course examines the educational experiences and outcomes of Latinx students throughout the P-20 pipeline.

**4239 Leadership for Social Change** U 3

This course provides an opportunity for students to explore leadership theory and practice through a critical lens. By applying concepts and critiques from critical theory to well-known theories and models of leadership, this course will help students gain important skills in critical thinking and analysis and learn to deconstruct dominant ideologies and understandings of leadership.

**5193 Individual Studies: Higher Education and Student Affairs** U G 1 - 15

Individual study projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions.  
This course is graded S/U.

**5194 Group Studies: Higher Education and Student Affairs** U G 1 - 15

Group study projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.  
This course is graded S/U.

**7239 Land-Grant Universities: Mission and Leadership** G 3

This course provides students with the opportunity to learn about land-grant institutions and their place in the American higher education system, including the evolving nature of the land-grant mission in 21st century America, as well as how higher education leaders are reconfiguring our nation's preeminent public institutions to meet the needs of the communities they were designed to serve.

**7256 Qualitative Research in Higher Education Settings** G 3

This course provides an introduction to the philosophical and epistemological foundations that guide qualitative inquiry, and an overview of the methodologies and methods associated with qualitative research designs appropriate in higher education and student affairs settings.  
Cross-listed in ESQual.

**7500 Introduction to the Profession of Student Affairs** G 3

Overview of history of higher education and student affairs, the philosophical and theoretical foundations of the profession, codes of ethics, contemporary issues, and organizational structures.  
Prereq: Not open to students with credit for EduPL 780.

**7510 College Student Development I** G 3

An analysis of psychosocial theories of and research on college student development and their use in the design of educational practice.  
Prereq: Not open to students with credit for EduPL 782.

**7512 Interaction of Students and Environments** G 3

Analysis of components of the college environment and how students interact with it.  
Prereq: Not open to students with credit for EduPL 943.

**7513 Understanding Educational Organizations** G 3

Introduction to organization theory and its application to the study of leadership, culture, adaptation, and change in higher education.  
Prereq: Not open to students with credit for EduPL 813.

**7518 Leadership and Group Facilitation in Higher Education** G 3

Emphasis on group theory, processes, and dynamics and the development of structured learning experiences that facilitate interpersonal growth and group development in educational organizations.  
Prereq: Permission of instructor.

**7520 Diversity in Higher Education** G 3

Examines structural and cultural diversity in higher education in relation to race, ethnicity, gender, socio-economic status, sexual orientation, and religion of college/university constituents.  
Prereq: Not open to students with credit for EduPL 887.

**7530 Practicum in Higher Education and Student Affairs** G 4

Allows students to reflect on internship experiences by offering opportunities to share perspectives about duties and gain appreciation of how theory informs practice.  
Repeatable to a maximum of 12 cr hrs.

**7540 Higher Education Institutions and Core Academic Issues** G 3

Explores different types of institutions, and central issues related to academic quality, through a systems perspective, addressing missions, curriculum, faculty, students and evaluation.  
Prereq: Not open to students with credit for EduPL 806 or 842.

**7545 Case Studies in Higher Education Administration** G 3

Applies theoretical and scholarly research in the field of higher education to the analysis of real-life cases from U.S. colleges and universities.  
Prereq: Not open to students with credit for EduPL 858.

**7550 Women in Higher Education** G 3

Examines current situations of women in higher education; focuses on understanding the diversity of experiences and perspectives relevant to organizational structure, policy development, and curriculum.  
Prereq: Not open to students with credit for EduPL 839.

**7554 Admission and Retention of College Students** G 3

Considers the recruitment, admission, financial aid, advising, student services and retention processes that result in successful students. Social issues and theoretical models are discussed.  
Prereq: Not open to students with credit for EduPL 910.

**7558 Administration of Service-Learning Programs in Higher Education and Student Affairs** G 3

Examines the historical roots, concepts, and principles of service-learning in higher education; develops knowledge about service-learning and competencies for designing service-learning opportunities in higher education.  
Prereq: Not open to students with credit for EduPL 708.

**7562 Broad Access Institutions and Community Colleges** G 3

This course is designed for graduate students who are interested in learning about not-for-profit broad access institutions and community colleges through the lenses of race, ethnicity, and class.

**7564 Finance of Higher Education** G 3

A study of finance of higher education with emphasis on public issues affecting higher education; criteria for identifying and developing resources for higher education institutions; and perceived productivities of departmental and academic units.  
Prereq: Admission to Higher Education Student Affairs program or EducSt-ED program.

**7566 Strategy & University Leadership** G 3

Explores different approaches to developing strategy for colleges and universities. Examines leadership and decision-making broadly. Current special focus on the strategic use of technology in higher education, using the simulation Virtual U.  
Prereq: Not open to students with credit for EduPL 914.

**7570 Internationalizing Colleges and Universities** G 3

Examines the rationale and various strategies for internationalizing colleges & universities.  
Prereq: Not open to students with credit for EduPL 870.

**7574 Curriculum in Higher Education** G 3

An examination of the history, rationales, content, and organization of the curriculum in colleges and universities, with emphasis on the American experience.  
Prereq: Not open to students with credit for EduPL 841.

**7576 Assessment in Higher Education** G 3

An introduction to assessment practices in higher education. Students will consider the impact of assessment on student learning and success in a university environment.

**7750 Facilitating Intergroup Dialogues in Higher Education** G 3

This course is based on the intergroup dialogue model where two facilitators of differing social identities facilitate dialogue about critical issues relating to social identities (e.g., race, class, gender).

**7850 Critical Race Theory in Higher Education** G 3

Critical Race Theory in Higher Education explores the history and development of CRT over time, paying close attention to how CRT can be (and has been) applied and used to address issues of structural injustice and inequality in American society and higher education specifically.

**7854 Activism on College Campuses** G 3

The purpose of this course is to understand student activism as a form of engagement on college campuses, as well as how to support activists in their efforts.

**7897 Special Topics: Higher Education and Student Affairs** G 1 - 5

Special topics for professional educators and graduate students in selected areas; designed to provide the opportunity to update professional skills and review current research developments.  
Prereq: Grad standing, or registration in one of the professional schools. Repeatable to a maximum of 18 cr hrs or 18 completions.

**7999 Thesis Research: Higher Education and Student Affairs** G 1 - 18

Research for master's thesis purposes only.  
Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions.  
This course is graded S/U.

## Educational Studies: Higher Educ & Student Affairs 161

**8191 Professional Internship** G 3 - 12  
Registration for approved Higher Education & Student Affairs professional/academic internships, and approved study abroad collaborative programs.  
Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions.

**8193 Advanced Individual Studies: Higher Education and Student Affairs** G 1 - 15  
Advanced individual projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions.  
This course is graded S/U.

**8194 Advanced Group Studies: Higher Education and Student Affairs** G 1 - 15  
Advanced group projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.  
This course is graded S/U.

**8511 College Student Development II** G 3  
Analysis of theories of reflective judgment and intellectual development of college students and their uses in educational practice.  
Prereq: Not open to students with credit for EduPL 954 and 954A.

**8515 Advanced Seminar in Theories of College Student Development** G 3  
The purpose of this course is to provide an opportunity for in-depth study, dialogue, and reflection about theoretical frameworks for understanding the development of college students. Through guided reading focusing on a variety of theoretical perspectives, class discussions, and analysis of theories students will gain increased understanding about student development. ESHESA 7510 highly recommended but not required.

**8552 The Impact of College on Students** G 3  
Analysis of the philosophical assumptions and statistical evidence about the impact of college on students.  
Prereq: Not open to students with credit for EduPL 912.

**8560 Legal Aspects of Higher Education Administration** G 3  
Statutory, regulatory, and case law are analyzed for the development and maintenance of college and university policy and administrative decision making; recent legal developments in college and university governance patterns.  
Prereq: Not open to students with credit for EduPL 840.

**8850 Intersectionality in Higher Education** G 3  
This course is an essential course for graduate students who will conduct research on individual, social, and organizational diversity in higher education. There is an increasing need for educational research to address the role of multiple social identities simultaneously (for example, gender, race, and class) in affecting equity in educational outcomes.

**8895 Seminars: Higher Education and Student Affairs** G 2 - 5  
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times.  
Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions.

**8999 Dissertation or Thesis Research: Higher Education and Student Affairs** G 1 - 18  
Research for thesis or dissertation purposes only.  
Prereq: Permission of instructor. Repeatable. This course is graded S/U.

### Educational Studies: Learning Technologies

**2011 Keys to Academic Success for Online Learners** U 2  
Introduces essential learning strategies and technologies to guide students to successful online learning experiences and ultimately academic success. This two-credit, seven-week online course is designed for students entering online degree programs or taking online courses.

**2211S Impact of Technology in Learning and Education** U 3  
In this service learning course you will learn about the theories, functions and practices of using technology to teach in formal and informal environments. We will use technology to support the learning goals of a community partner.

**2250 Technology, Equity, and Informal Learning** U 3  
Technology can be a transformative force in addressing social justice. In this class you will harness this potential to design and create informal learning experiences to address issues of technological equity.

**3251 Technology Interventions in Urban Schools and Communities** U 3  
In this course you will develop your media and computer skills to support social justice projects in urban schools and communities. You will then evaluate your projects for effectiveness and responsiveness.

**4270 Technology, Education and Community-based Programming** U 3  
Comprehensive educational programs can meet a variety of learning needs in a community. In this class you will design and develop collaborative community-based educational programming using technology.

**5193 Individual Studies: Educational Technology** U G 1 - 15  
Individual study projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions.  
This course is graded S/U.

**5194 Group Studies: Educational Technology** U G 1 - 15  
Group study projects.  
Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.  
This course is graded S/U.

**5280 Educational Videography** U G 3  
Functions and operations of digital video production and post-production equipment; application of theory and research to the production of video materials for instruction.  
Prereq: Not open to students with credit for EduPL 680.

**5281 Introduction to Developing Educational Web Sites** U G 3  
In this introductory course students will begin to develop the visual, technical, and pedagogical design skills to create educational web sites.

**5286 Enhancing Teaching and Learning with Digital Resources** U G 3  
This course offers students a foundational understanding of the technology integration, instructional design and the evaluation of digital contents. It is intended to help pre-service teachers and in-service teachers to perform effective digital contents evaluation in teaching practice. Students will acquire the key concept and theories of the technology integration and the instructional design model.

**6223 Issues and Practices in Educational Technology** G 3  
Critical examinations of the issues raised by the implementation and use of information and communications technologies (ICTs) in education.  
Prereq: Not open to students with credit for EduPL 823.

**6273 Improving Professional Practice of Teaching with Technology** G 3  
Teachers learn to study the effective use of technology in teaching and learning in their classroom(s).

**6274 Instructional Design for K12 Technology Integration** G 3  
Apply instructional design practices to support the use of technology in teaching at the school and classroom levels. K12 instructional design topics include needs, formative and summative assessments, higher order learning outcomes, and technology-based differentiation.

**6278 Introduction to Instructional Design** G 3  
Paradigms of instructional design; phases of the instructional design process including needs assessment, learner, task, and curriculum analysis, instructional strategies, evaluation, and assessment.

**6282 Introduction to Teaching Online for K-12 Educators** G 3  
Introduction for educators to the methods of teaching K-12 students online.  
Prereq: Not open to students with credit for EduPL 682.

**7277 Computer-Supported Collaborative Learning** G 3  
Explores the ways in which technologies have impacted the research and practice of teaching and learning, especially collaborative learning, in K-12 schools and higher education.  
Prereq: Not open to students with credit for EduPL 677.

**7278 Formative Evaluation of Learning Technologies** G 3  
Theory and practice of developmental testing and field evaluation of learning technologies.

**7289 Practicum in Educational Technology** G 3  
Group observation, limited participation, and functional analysis of technology-enhanced learning environments.  
Prereq: Not open to students with credit for EduPL 889.

**7297 Designing Multimedia for Instruction** G 3  
Introduction to the instructional capabilities and hands-on development of multimedia; topics include relevant learning theories, authoring techniques and design models.  
Prereq: Not open to students with credit for EduPL 897.

**7392 Theories of Learning with Technology** G 3  
Overview of learning theories, and an in depth study of social and cultural influences on student, teacher, and organizational learning in technology-rich education settings.  
Prereq: Not open to students with credit for EduPL 892.

**7897 Special Topics: Educational Technology** G 1 - 5  
Special topics for professional educators and graduate students in selected areas; designed to provide the opportunity to update professional skills and review current research developments.  
Prereq: Grad standing, or registration in one of the professional schools. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.

**7999 Thesis Research: Educational Technology** G 1 - 18  
Research for master's thesis purposes only.  
Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions.  
This course is graded S/U.

## 162 Educational Studies: Learning Technologies

<b>8189</b>	<b>Planned Field Experience: Educational Technology</b>	<b>G</b>	<b>1 - 15</b>
Planned professional teaching experience under supervision in a public school or other educational agency. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
<b>8193</b>	<b>Advanced Individual Studies: Educational Technology</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Educational Technology</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8216</b>	<b>Scholarly Perspectives in Learning Technologies</b>	<b>G</b>	<b>3</b>
Survey of the theories and research within the field of Learning Technologies.			
<b>8226</b>	<b>Methods of Inquiry in Learning Technologies</b>	<b>G</b>	<b>3</b>
This course will introduce research methodologies specifically in technology-supported learning environments, including self-report and experience sampling method, data intensive research, big data movement, learning analytics, data collection issues, data access and privacy, content analysis of online discussions, social network analysis, as well as design based research.			
<b>8295</b>	<b>Applied Instructional Design</b>	<b>G</b>	<b>3</b>
Advanced theories of instructional design applied to the process of instructional development. Prereq: Not open to students with credit for EduPL 895.			
<b>8296</b>	<b>Learning Technologies Diffusion, Innovation, and Change</b>	<b>G</b>	<b>3</b>
The purpose of this course is to introduce you to practices and principles of technology diffusion, innovation, and strategic change in education. Attributes of innovation, the innovation-development and innovation-decision processes, leaders as change agents and strategies on managing change are explored.			
<b>8297</b>	<b>Internship: Learning Technologies</b>	<b>G</b>	<b>0 - 1</b>
The purpose of this course is for students in the Learning Technologies program to have the opportunity to engage in real-work experiences in a variety of workplace settings. These experiences do not require the students' physical presence in the internship site as most of these will be supported by technology and are unpaid. Prereq: A grade of B+ or above in 6278, or permission of instructor. This course is graded S/U.			
<b>8999</b>	<b>Dissertation or Thesis Research: Educational Technology</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

### Educational Studies: Philo & Hist of Education

<b>2241</b>	<b>Integrative Learning: How the Brain Learns</b>	<b>U</b>	<b>3</b>
Current and emerging theoretical and cultural conception of integrative learning based on current brain research. GE soc sci indivs and groups course.			
<b>3200H</b>	<b>Mindful Resilience: Individuals to Organizations</b>	<b>U</b>	<b>3</b>
The overarching framework for the course is a critical exploration of mindfulness practices and their influence on how individuals and groups function. Exploring the physiological impact of mindfulness on the individual, students will then be able to critically examine and apply these practices to communication, implicit bias, awareness of the self and others.			
<b>3206</b>	<b>School and Society</b>	<b>U</b>	<b>3</b>
Use of concepts and methods of history, philosophy and the social sciences to grasp the interrelationship between society and education. Prereq: Not open to students with credit for EduPL 306. GE diversity soc div in the US course.			
<b>3410</b>	<b>Philosophy of Education</b>	<b>U</b>	<b>3</b>
An introduction to key philosophical issues in education, focusing on the questions: Who should be educated? What should be taught? Who gets to decide? Prereq: Not open to students with credit for EduPL 650.01. GE cultures and ideas course.			
<b>4245</b>	<b>Education and Spirituality: Holistic Perspectives</b>	<b>U</b>	<b>3</b>
Cross-disciplinary examination of spirituality from personal and cultural perspectives, including feminist, ecological, and postmodern views, with inquiry into spiritual practices impact on education. Prereq: Not open to students with credit for EduPL 705.			
<b>4280</b>	<b>History of Modern Education</b>	<b>U</b>	<b>3</b>
Development of educational institutions, practices, and theories in the modern world, particularly in U.S., and the social and intellectual movements influencing them.			
<b>4403</b>	<b>Ethics and the Professional Context of Teaching</b>	<b>U</b>	<b>3</b>
Examination of the practice of teaching at national, state and local levels, highlighting the legal, professional, and ethical issues surrounding American schools and teaching.			

<b>5194</b>	<b>Group Studies: Philosophy and History of Education</b>	<b>U G</b>	<b>1 - 15</b>
Group study projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>5440</b>	<b>Philosophical Perspectives on Race, Education, and Citizenship</b>	<b>U G</b>	<b>3</b>
This course allows participants to pursue philosophical questions at the intersection of race, education, and political life. These include: Does education play a very specific role in racialized patterns of benefit/detriment? What role does race play in understandings of educational policy & practice? How does race affect understandings of 'education for citizenship'? Cross-listed in Philos.			
<b>6250</b>	<b>History of Education</b>	<b>G</b>	<b>3</b>
Examines the historical role of educational institutions in the development of nations; theoretical perspectives regarding the purposes of education and teaching practices. Prereq: Not open to students with credit for EduPL 650.02.			
<b>6403</b>	<b>Ethics and the Professional Context of Teaching</b>	<b>G</b>	<b>3</b>
Examines the practice of teaching at national, state, and local levels, highlighting the legal, professional, and ethical issues surrounding American schools and teaching.			
<b>6410</b>	<b>Philosophy of Education</b>	<b>G</b>	<b>3</b>
An introduction to key philosophical issues in education, focusing on the questions: Who should be educated? What should be taught? Who gets to decide? Prereq: Not open to students with credit for EduPL 650.01.			
<b>7222</b>	<b>History of Educational Policy</b>	<b>G</b>	<b>3</b>
Historical analysis of social, economic, and political factors shaping public school policy in the US since 1800. Prereq: Not open to students with credit for EduPL 722.			
<b>7240</b>	<b>Life History Interview Methods in Education</b>	<b>G</b>	<b>3</b>
Explores Life History interview methods in education; provides students opportunity to conduct life history interviews.			
<b>7324</b>	<b>History of Educational Administration</b>	<b>G</b>	<b>3</b>
A historical study of educational administration and leadership with particular attention to developments in the United States. Repeatable to a maximum of 6 cr hrs.			
<b>7410</b>	<b>Modern Trends in Philosophy of Education</b>	<b>G</b>	<b>3</b>
A study of contemporary work in philosophy of education and applications of that work to educational practice. Prereq: Not open to students with credit for EduPL 702.			
<b>7413</b>	<b>Professional Education: Theories and History</b>	<b>G</b>	<b>3</b>
A study of the history, development, organization, and theories of education for the various professions, with particular attention to experience in the United States. Prereq: Not open to students with credit for EduPL 915.			
<b>7414</b>	<b>Examining Knowledge, Truth, and Objectivity: Philosophy of Science for Educational Researchers</b>	<b>G</b>	<b>3</b>
Examines the ongoing controversies in educational research in light of work from the philosophy of science and social science. Prereq: Not open to students with credit for EduPL 882.			
<b>7572</b>	<b>History of Colleges and Universities</b>	<b>G</b>	<b>3</b>
A historical study of higher education with particular attention to the development of colleges and universities in the United States. Prereq: Not open to students with credit for EduPL 927.			
<b>7999</b>	<b>Thesis Research: Philosophy and History of Education</b>	<b>G</b>	<b>1 - 18</b>
Research for master's thesis purposes. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8193</b>	<b>Advanced Individual Studies: Philosophy and History of Education</b>	<b>G</b>	<b>1 - 15</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Philosophy and History of Education</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8201</b>	<b>Social Foundations of Education</b>	<b>G</b>	<b>3</b>
Multiple theoretical perspectives that have shaped discussions regarding the social foundations of education from the 19th century to the present. Prereq: Not open to students with credit for EduPL 906.			

<b>8410</b>	<b>Ethics and Education: Equality, Freedom, and Justice in Schools</b>	<b>G</b>	<b>3</b>
Examines the moral dimensions of educational policy and practice. Topics of consideration will include school choice, educational equality and school funding, civic education, religious and cultural accommodations, and parent and student rights. Prereq: Not open to students with credit for EduPL 828.			
<b>8411</b>	<b>Educational Philosophy of John Dewey</b>	<b>G</b>	<b>3</b>
A systematic study of the writings of John Dewey and their bearings upon educational theory and practice. Prereq: Not open to students with credit for EduPL 902.			
<b>8895</b>	<b>Seminars: Philosophy and History of Education</b>	<b>G</b>	<b>2 - 5</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs or 12 completions.			
<b>8999</b>	<b>Dissertation or Thesis Research: Philosophy and History of Education</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

### Educational Studies: Qualitative Research in Educ

<b>7225</b>	<b>Approaches to Policy Inquiry</b>	<b>G</b>	<b>3</b>
Introduction to guiding principles for policy inquiry and analyses. The focus is on learning analytical vocabularies and approaches distinctive to policy inquiry. Students learn to read and think critically and creatively about public policy problems and solutions through the lens of research. Cross-listed in ESEPol.			
<b>7230</b>	<b>Qualitative Research for Educators</b>	<b>G</b>	<b>3</b>
Introduction to qualitative research at the Master's level and to the history, methods, and substantive topics of educational ethnography. Prereq: Not open to students with credit for EduPL 798.			
<b>7256</b>	<b>Qualitative Research in Higher Education Settings</b>	<b>G</b>	<b>3</b>
This course serves as an introduction to the field of qualitative research in higher education contexts. As such, it provides an introduction to the epistemological, theoretical, and methodological foundations that guide qualitative inquiry. Cross-listed in ESHESA.			
<b>8201</b>	<b>Community-Based Research and Evaluation in Educational Administration</b>	<b>G</b>	<b>3</b>
The course focuses on identifying, understanding and addressing problems of practice at the community level. Through class discussions and assignments, students will become familiar with developing community inquiry that centers on community strengths and issues through problem-mapping, evaluation and community based participatory research (CBR). Prereq: Permission of instructor. Cross-listed in ESEAdm.			
<b>8210</b>	<b>Qualitative Research: The Analysis of Interaction in Educational Settings</b>	<b>G</b>	<b>3</b>
Qualitative research and the analysis of interaction examines the history, conceptualizations and practices of educational ethnography, field work, and naturalistic inquiry. Prereq: Not open to students with credit for EduPL 817.01.			
<b>8211</b>	<b>Analysis of Classroom Discourse</b>	<b>G</b>	<b>3</b>
An introduction to the sequential analysis of classroom discourse structures. This course addresses the face-to-face organizations of classroom order, interaction and instruction. Prereq: 8210 or EduPL 8210, or permission of instructor. Not open to students with credit for EduPL 817.02 or 817.03.			
<b>8280</b>	<b>Qualitative Research in Education: Paradigms, Theories, and Exemplars</b>	<b>G</b>	<b>3</b>
Examination of issues and problems of qualitative research in education research, with emphasis on the connections of theory, methods, politics, design, and practice in the conduct of qualitative research in schools and other educational settings.			
<b>8290</b>	<b>Qualitative Research in Education: Methods and Analysis</b>	<b>G</b>	<b>3</b>
Qualitative research practicum. Students learn to use qualitative methods (including interviewing, observation, participant observation, and document-based research), analysis, and writing by designing and conducting a small-scale study. Prereq: 8280 or EduPL 8280.			
<b>8895</b>	<b>Seminars: Qualitative Research in Education</b>	<b>G</b>	<b>3</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Repeatable to a maximum of 24 or hrs.			

### Educational Studies: Quant Rsrch, Evaltn & Msrmnt

<b>3005</b>	<b>Learner Centered Classroom Assessment</b>	<b>U</b>	<b>3</b>
Offers an in-depth look at classroom assessment that meets the needs of 21st century teaching and learning. During this course, prospective teachers will determine how classroom assessment strategies can benefit their teaching practices and their students learning. They will study how to plan, develop, and manage student-centered assessment.			

<b>5193</b>	<b>Individual Studies: Quantitative Research, Evaluation, and Measurement</b>	<b>U G</b>	<b>1 - 15</b>
Individual study projects. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs or 24 completions. This course is graded S/U.			
<b>5194</b>	<b>Group Studies: Quantitative Research, Evaluation, and Measurement</b>	<b>U G</b>	<b>1 - 15</b>
Group study projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			
<b>5892</b>	<b>Workshops: Quantitative Research, Evaluation, and Measurement</b>	<b>U G</b>	<b>1 - 8</b>
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 9 completions. This course is graded S/U.			
<b>6621</b>	<b>Introduction to Educational Evaluation</b>	<b>G</b>	<b>3</b>
Introduction to educational evaluation, including history, models, theories, politics of evaluation, and ethical standards for evaluators and the conduct of evaluations.			
<b>6625</b>	<b>Introduction to Educational Research</b>	<b>G</b>	<b>3</b>
Designed to acquaint students with the nature of the research process and strategies for conducting studies of various aspects of education and related fields.			
<b>6641</b>	<b>Introduction to Educational Statistics</b>	<b>G</b>	<b>4</b>
An introduction to quantitative techniques, with an emphasis on educational settings. Prereq: Not open to students with credit for EduPL 786.			
<b>6661</b>	<b>Introduction to Educational Measurement</b>	<b>G</b>	<b>3</b>
Provides a general survey of measurement and testing, including test evaluation, basics of test construction, validity and reliability. Prereq: Introductory grad level statistics course (e.g., Stat 6641) or equiv. Not open to students with credit for EduPL 744.			
<b>7627</b>	<b>Sampling Designs and Survey Research Methods</b>	<b>G</b>	<b>3</b>
Comprehensive overview of methodological issues in sampling and survey research, particularly the impact of sources of error in survey research. Prereq: 6641 or equiv.			
<b>7631</b>	<b>Applied Evaluation Design</b>	<b>G</b>	<b>3</b>
Designed to acquaint students with the nature of the evaluation process and strategies for conducting educational and other evaluations, including logic models, methods, management, and cultural competence. Prereq: 6621 or EduPL 6621.			
<b>7635</b>	<b>Advanced Research Methods</b>	<b>G</b>	<b>3</b>
In-depth analysis of threats to causal inferences and methods for developing research designs to address those threats. Experimental, quasi-experimental, and data collection strategies will be discussed. Prereq: 6641 or EduPL 6641, or equiv.			
<b>7643</b>	<b>Categorical Data Analysis</b>	<b>G</b>	<b>3</b>
Introduction to the analysis of categorical outcomes and related models for non-normal response data. Prereq: 6641 or EduPL 6641. Not open to students with credit for EduPL 827.			
<b>7648</b>	<b>GLM I: Introduction to Regression and ANOVA</b>	<b>G</b>	<b>4</b>
Analysis of univariate outcomes via regression and analysis of variance models for experimental and non-experimental research designs. Connections between ANOVA and regression models will be stressed, including analysis of variance, multiple comparison procedures, factorial analysis of variance, regression models and methods of entry, coding for categorical variables, analysis of covariance. Prereq: 6641 or permission of instructor.			
<b>7651</b>	<b>Regression Analysis</b>	<b>G</b>	<b>4</b>
An introduction to the concepts of regression analysis and their application to research in education and the behavioral sciences. Prereq: 6641 or EduPL 6641, or equiv. Not open to students with credit for EduPL 881.			
<b>7658</b>	<b>GLM II: Advanced Regression and ANOVA</b>	<b>G</b>	<b>4</b>
This course covers advanced regression and analysis of variance through the lens of the linear and generalized linear model (GLM). Value of the GLM and its connections between anova and regression models, and treatment of continuous versus discrete outcomes will be stressed. We will cover interactions between categorical and continuous predictors in experimental and non-experimental designs, etc. Students should be comfortable analyzing data in SPSS; lab work will be supplemented with R. Prereq: 7648, or permission of instructor.			
<b>7661</b>	<b>Instrument Construction</b>	<b>G</b>	<b>3</b>
Design of instruments for use in educational research and assessment, including surveys, with emphasis on standards for educational and psychology testing and cultural issues in instrument design. Prereq: 6661 or EduPL 6661, or equiv; or permission of instructor. Repeatable to a maximum of 6 or hrs.			

## 164 Educational Studies: Quant Rsrch, Evaltn & Msrmnt

<b>7663</b>	<b>Test Reliability and Validity</b>	<b>G</b>	<b>3</b>
Conceptual underpinnings of test reliability and validity, historical examination of developments in reliability and validity, classical and modern trends of reliability and validity.			
<b>7667</b>	<b>Authentic Assessment</b>	<b>G</b>	<b>3</b>
Study of authentic assessment techniques including performance-based assessment, and portfolio assessment. Emphasis is on principles, procedures, issues, and innovations in authentic assessment. Prereq: One or more grad level course in assessment or measurement. Not open to students with credit for EduPL 878.			
<b>7897</b>	<b>Special Topics: Quantitative Research, Evaluation, and Measurement</b>	<b>G</b>	<b>1 - 5</b>
Special topics for professional educators and graduate students in selected areas; designed to provide the opportunity to update professional skills and review current research developments. Prereq: Grad standing, or registration in one of the professional schools. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.			
<b>7999</b>	<b>Thesis Research: Quantitative Research, Evaluation, and Measurement</b>	<b>G</b>	<b>1 - 18</b>
Research for master's thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8193</b>	<b>Advanced Individual Studies: Quantitative Research, Evaluation, and Measurement</b>	<b>G</b>	<b>1 - 12</b>
Advanced individual projects. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Quantitative Research, Evaluation, and Measurement</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Students with permission of advisers may register for more than one section or the same section two or more times. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8648</b>	<b>Multivariate Analysis</b>	<b>G</b>	<b>4</b>
Design and analysis issues utilizing multivariate analysis of variance and discriminant analysis. Prereq: 7648 or EduPL 7648, or permission of instructor.			
<b>8658</b>	<b>Applied Multilevel Data Analysis</b>	<b>G</b>	<b>3</b>
Methods for the analysis of multilevel data with an emphasis on impact of intraclass correlation, analysis strategies, estimation, model testing, and interpretation. Prereq: 7651 or EduPL 7651, or equiv. Not open to students with credit for EduPL 938.			
<b>8659</b>	<b>Structural Equation Modeling</b>	<b>G</b>	<b>3</b>
Basic concepts of structural equation modeling, including approaches to regression, path analysis, confirmatory factor analysis, and structural model building, as well as some advanced models. Prereq: Students should have successfully completed several introductory and intermediate level graduate statistics courses. Not open to students with credit for EduPL 883.			
<b>8668</b>	<b>Longitudinal Data Analysis</b>	<b>G</b>	<b>3</b>
This course is designed to teach students the uses of longitudinal data analysis in educational/social science research. We will cover modern methods to analyze longitudinal data mainly under the multilevel modeling framework. The traditional approaches, such as repeated measures of ANOVA and MANOVA, will be briefly discussed. Students are expected to have strong background in regression analysis (ANOVA and Multiple Regression). Prereq: 7651.			
<b>8669</b>	<b>Advanced Structural Equation Modeling</b>	<b>G</b>	<b>3</b>
This course will cover the advanced topics of structural equation models including: structural equation models with categorical observed variables, interaction effects between latent factors, multilevel structural equation models, latent growth models, and growth mixture models. These techniques are useful for both experimental and non-experimental data; for cross-sectional datasets; and others. Prereq: 8659.			
<b>8674</b>	<b>Scaling and Item Response Theory (IRT)</b>	<b>G</b>	<b>3</b>
Models and methods for scaling data, with a focus on various IRT methods including the one-parameter model. Prereq: 6661 or EduPL 6661. Not open to students with credit for EduPL 874.			
<b>8725</b>	<b>Quantitative Methods Capstone Seminar</b>	<b>G</b>	<b>3</b>
This seminar is the capstone experience of the GIS in Quantitative Research Methods. Much of the work will be student-identified and student-led. The course will consist of work in: identification of new or emerging topics or software in quantitative methods; readings and discussion on advanced topics; student-led demonstrations or presentations; and GISQRM paper updates and progress reports. Students entering this course must have completed or nearly completed their GISQRM coursework. See the GISQRM website for details. Cross-listed in HDFS and VetPrev.			

<b>8895</b>	<b>Seminars: Quantitative Research, Evaluation, and Measurement</b>	<b>G</b>	<b>2 - 5</b>
Seminar in topics of special interest. Students with permission of advisers may register for more than one section of 8895, or for the same section two or more times. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions.			
<b>8999</b>	<b>Dissertation or Thesis Research: Quantitative Research, Evaluation, and Measurement</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

## Educational Studies: School Psychology

<b>6189</b>	<b>Field Based Experience in School Psychology</b>	<b>G</b>	<b>3</b>
Practical experience conducting school psychological services in public schools. Repeatable to a maximum of 6 cr hrs.			
<b>7028</b>	<b>Cultural Diversity</b>	<b>G</b>	<b>3</b>
Provide students with the opportunity to develop a multicultural awareness as they explore the impact of an increasingly diverse society in the United States. Prereq: Not open to students with credit for EduPAES 728.			
<b>7029</b>	<b>Urban Issues in Education</b>	<b>G</b>	<b>2</b>
Understanding of the dynamics of urban schools and the relationship between minority status and poverty, and educational achievement in urban schools. Prereq: Not open to students with credit for EduPAES 729.			
<b>7189</b>	<b>Advanced Practicum in School Psychology I</b>	<b>G</b>	<b>3</b>
Advanced practical experiences conducting school psychological services in multiple settings. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>7193</b>	<b>Advanced Individual Studies: School Psychology</b>	<b>G</b>	<b>1 - 12</b>
Advanced individual studies in School Psychology. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>8056</b>	<b>Roles and Function of School Psychologists</b>	<b>G</b>	<b>3</b>
Introduction to the multiple professional roles and functions of school psychologists including professional and ethical principles of professional practice. Prereq: Not open to students with credit for EduPAES 856.			
<b>8057</b>	<b>Cognitive Assessment</b>	<b>G</b>	<b>3</b>
This course trains school psychology student in the scientist-practitioner model of psychological assessment. The course covers theories of intelligence and the administration, scoring, and interpretation of cognitive ability assessments. Use of these assessments in disability determination and consultation in the schools and clinical settings will be stressed. Prereq: Not open to students with credit for EduPAES 857 or 858.			
<b>8058</b>	<b>Assessment of Academic Achievement</b>	<b>G</b>	<b>3</b>
Explores various ways to assess academic achievement for the purposes of diagnosing disability and other learning needs. Students will be exposed to a variety of academic achievement assessments and learn to administer, score, and interpret them. Types of academic achievement assessments will include norm-referenced standardized academic achievement and curriculum-based instruments. Prereq: 8057.			
<b>8060</b>	<b>Linking Academic Assessment to Intervention</b>	<b>G</b>	<b>3</b>
Using curriculum-based assessments to target specific academic skills and appropriate interventions, implementing academic interventions, and evaluating their effectiveness. Prereq: Not open to students with credit for EduPAES 860.			
<b>8077</b>	<b>Mental Health I: Mental Health Issues in the Schools</b>	<b>G</b>	<b>3</b>
Child and adolescent psychopathology, characteristics, etiology, and empirically supported interventions and programming that address these issues. Prereq: Not open to students with credit for EduPAES 877.			
<b>8078</b>	<b>Mental Health II: Counseling in the Schools</b>	<b>G</b>	<b>3</b>
Common social-emotional issues of children and adolescents and how to effectively implement empirically supported interventions to address these issues with a focus on counseling in the schools. Prereq: 8077 or EduPAES 8077, or permission of instructor.			
<b>8079</b>	<b>Mental Health III: Social Emotional Assessment</b>	<b>G</b>	<b>3</b>
Social-Emotional and behavioral assessment of children in the school setting; introduction to linking assessment to intervention; and discussion of developmental, diversity, and urban issues related to assessment with children. Prereq: Not open to students with credit for EduPAES 878.			
<b>8080</b>	<b>Biological Basis of Behavior: Neuropsychology in the Schools</b>	<b>G</b>	<b>3</b>
Discussion of brain development and functioning as it relates to typical and atypical outcomes among children and adolescents; overview of learning and psychological disorders from a school neuropsychological perspective.			

## Educational Studies: School Psychology 165

**8081 Professional Ethics and Supervision in School Psychology** G 3

This course is designed to help students understand and apply professional ethics and supervision skills in the professional practice of school psychology.  
Prereq: 8056.

**8082 School-based Consultation: Implementing Behavioral Interventions** G 4

Development of a conceptual understanding of school-based consultation and its use as the foundation for the implementation of behavioral interventions both individual and group.  
Prereq: Not open to students with credit for EduPAES 882 or 883.

**8097 Psychological Services for Early Childhood Populations** G 3

School psychologists role with early childhood populations including understanding laws, assessments, evaluations, curriculum, instruction associated with early childhood intervention services.

**8189 Advanced Practicum in School Psychology II** G 2

Application of school psychology supervisory and leadership skills.  
Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

**8191.01 EdS Internship: School Psychology** G 3 - 6

Application of school psychologists roles and functions as intern in a public school setting for EdS students.  
Prereq: Majoring in School Psychology. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

**8191.02 Doctoral Internship: School Psychology** G 3 - 6

Application of school psychology roles and functions as intern in a public school setting for PhD students.  
Prereq: Admission to the School Psychology major. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

**8998 Research: School Psychology** G 1 - 12

Conducting dissertation research.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**8999 Dissertation/Thesis Research: School Psychology** G 1 - 12

Conducting thesis or dissertation research in school psychology.  
Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

### Educational Studies: Special Education

**2251 Introduction to the Special Education Profession** U 3

An overview of special education, including individuals with sensory, orthopedic, behavioral, or learning disabilities plus individuals identified as gifted.

**2650 Introduction to Young Children with Exceptionalities** U 3

Intro to Young Children with Exceptionalities is an overview of the education and early care of exceptional learners from birth to the early grades. This course will focus on young children whose attributes/learning abilities differ from the norm to such an extent that an individual family service plan (IFSP) or an individualized program of special education (IEP) is required to meet their needs.

**3189 Field Experience: Special Education** U 1 - 12

Professional service in school or community settings.  
Prereq: Admission to the Special Education program, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**4191.01 Student Teaching in Special Education: Early Childhood** U 12

Student teaching for Special Education students in early childhood intervention.  
Prereq: 5761. This course is graded S/U.

**4191.02 Student Teaching in Special Education: Mild/Moderate** U 12

Student teaching for Special Education students in mild/moderate intervention.  
Prereq: 5735. This course is graded S/U.

**4191.03 Student Teaching in Special Education: Moderate/Intensive** U 12

Student teaching for Special Education students in moderate/intensive intervention.  
Prereq: 5737. This course is graded S/U.

**5189 Field Experience: Special Education** U G 1 - 12

Professional service in school or community settings.  
Prereq: Admission in Special Education program, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**5189.01 Field Experience: Special Education: Early Childhood** U G 1 - 12

Professional service in school or community settings.  
Prereq: Admission in Special Education: Early Childhood program, or permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

**5189.02 Field Experience: Special Education: Mild/Moderate** U G 1 - 12

Professional service in school or community settings.  
Prereq: Admission in Special Education: Mild/Moderate program, or permission of the instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**5189.03 Field Experience: Special Education:** U G 1 - 12

Professional service in school or community settings.  
Prereq: Admission in Special Education: Moderate/Intensive program, or permission of instructor. Repeatable to a maximum of 12 ch hrs or 12 completions. This course is graded S/U.

**5191.01 Supervised Teaching in Special Education: Deaf & Hard of Hearing** U G 8

This course is designed to assist preservice teachers in developing the necessary skills required for beginning level inservice teachers in P-12 settings for d/Deaf and hard of hearing children. Candidates are expected to perform all activities required of a typical classroom teacher.  
Prereq: 5189, Grad standing, and permission of instructor.

**5193 Individual Studies: Special Education** U G 1 - 12

Independent study in Special Education.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**5239 Effective Instruction for Students with Dysgraphia and Other Learning Differences/Disabilities** U G 3

Dysgraphia describes a condition that manifests as fine motor skill difficulties and language processing deficits that make writing tasks more difficult and time-consuming for students with dysgraphia. Enrollees will examine developmental theories and research related to the condition. They will also learn and implement effective instruction for struggling writers.

**5505 Multi-Tiered Systems of Support** U G 3

Introduces students to the concept of multi-tiered systems of support. Emphasis on 1) strategies for assessing and teaching social skills to diverse learners in inclusive classrooms;2) designing and implementing multi-tiered instructions within Response-to-Intervention Model;3) collaborative differentiated instruction for whole class,small group, one-on-one teaching.  
Prereq: 5650 or EduTL 5501. Cross-listed in EduTL.

**5651 Introduction to Exceptional Children** U G 3

Introduction to Exceptional Children is an overview of the education of exceptional learners. This course focuses on students whose attributes/learning abilities differ from the norm to such an extent that an individualized program of special education is required to meet their needs. Enrollees will learn about the categories of special education (and their criteria), prevalence, and demographics.

**5722 Language and Communication Development for Children with Mild to Intensive Disabilities** U G 3

Examines current principles and practices in the development of alternative communication programs for individuals with mild to intensive disabilities.  
Prereq: Admission to special education program, or Grad standing, or permission of instructor.

**5722.01 Language and Communication Development for Children with Mild to Intensive Disabilities: Early Child** U G 3

Examines current principles and practices in the development of alternative communication programs for individuals with moderate to intensive disabilities.  
Prereq: Admission in Special Education: Early Childhood program, or permission of instructor.

**5722.02 Language and Communication Development for Children with Mild to Intensive Disabilities: Mild/Mod** U G 3

Examines current principles and practices in the development of alternative communication programs for individuals with mild to intensive disabilities.  
Prereq: Admission in Special Education: Mild/Moderate program, or permission of instructor.

**5722.03 Language and Communication Development for Children with Mild to Intensive Disabilities: Mod/Int** U G 3

Examines current principles and practices in the development of alternative communication programs for individuals with mild to intensive disabilities.  
Prereq: Admission in Special Education: Moderate-Intensive program, or permission of instructor.

**5722.04 Language and Communication Development for Children with Mild to Intensive Disabilities: HI** U G 3

Examines current principles and practices in the development of alternative communication programs for individuals with mild to intensive disabilities.  
Prereq: Admission to Special Education: Hearing Impairment program, or permission of instructor.

**5734 Methods of Instruction for Elementary Children with Mild/Moderate Disabilities** U G 3

This is a method course with a field placement that will provide students with information and strategies for working with children who have mild disabilities.  
Prereq: 5742 or EduPAES 5742 (742). Open only to special education majors, or by permission of instructor. Not open to students with credit for EduPAES 734.

## 166 Educational Studies: Special Education

### 5734.01 Methods of Instruction for Elementary Children with Mild/Moderate Disabilities: Early Childhood U G 3

This is a method course with a field placement that will provide students with information and strategies for working with children who have mild disabilities.  
Prereq: 5742, or 5742.01, or EduPAES 5742 (742); and enrollment in Special Education: Early Childhood major; or permission of instructor.

### 5734.02 Methods of Instruction for Elementary Children with Mild/Moderate Disabilities: Mild/Moderate U G 3

This is a method course with a field placement that will provide students with information and strategies for working with children who have mild disabilities.  
Prereq: 5742 or 5734.02; and enrollment in Special Education: Mild/Moderate major; or permission of instructor.

### 5735 Methods of Instruction for Secondary Students with Mild/Moderate Disabilities U G 3

Provides advanced training in specialized techniques and advanced teaching strategies for middle and high school students with mild/moderate disabilities.  
Prereq: 5743 or EduPAES 5743, and Special Education major; or permission of instructor. Not open to students with credit for EduPAES 735.

### 5735.02 Methods of Instruction for Secondary Students with Mild/Moderate Disabilities: Mild/Moderate U G 3

Provides advanced training in specialized techniques and advanced teaching strategies for middle and high school students with mild/moderate disabilities.  
Prereq: 5743, or 5743.02, or EduPAES 5743; and enrollment in Special Education: Mild to Moderate major; or permission of instructor.

### 5736 Methods of Instruction I for Students with Moderate/Intensive Disabilities U G 3

Introduction to designing and developing instructional programs for children with moderate to intensive disabilities, provides skills to identify instructional goals and objectives for children using meaningful assessment techniques.  
Prereq: 5742 or EduPAES 5742, and admission to Special Education program; or permission of instructor. Not open to students with credit for EduPAES 736.

### 5736.03 Methods of Instruction I for Students with Moderate/Intensive Disabilities: Moderate/Intensive U G 3

Introduction to designing and developing instructional programs for children with moderate to intensive disabilities, provides skills to identify instructional goals and objectives for children using meaningful assessment techniques.  
Prereq: 5742, or 5742.02, or EduPAES 5742; and admission in Special Education: Moderate to Intensive program; or permission of instructor. Not open to students with credit for EduPAES 736.

### 5737 Methods of Instruction II for Students with Moderate/Intensive Disabilities with practicum U G 3

Provides teacher candidates with the skills to implement and evaluate student performance using systematic data collection so that skill acquisition can be monitored over time.  
Prereq: Open only to special education majors, or by permission of instructor. Not open to students with credit for EduPAES 737.

### 5737.03 Methods of Instruction II for Students with Moderate/Intensive Disabilities with practicum: M/I U G 3

Provides teacher candidates with the skills to implement and evaluate student performance using systematic data collection so that skill acquisition can be monitored over time.  
Prereq: Enrollment in Special Education: Moderate/Intensive majors, or permission of instructor.

### 5738 Reading Instruction for Children with Disabilities or Severe Reading Deficits U G 3

Information on how to effectively instruct reading to children with reading disabilities. Students will be paired with an urban learner who is significantly below basic reading level for his/her grade.  
Prereq: 5734 and 5736, or EduPAES 5734 (734) and 5736 (736), and permission of instructor; or Grad standing, and enrollment in the Special Education Program. Repeatable to a maximum of 6 cr hrs.

### 5738.01 Reading Instruction for Children with Disabilities or Severe Reading Deficits: Early Childhood U G 3

Information on how to effectively instruct reading to children with reading disabilities. Students will be paired with an urban learner whom is significantly below basic reading level for his/her grade.  
Prereq: 5734 or 5734.01, and 5736 or 5736.01; or EduPAES 5734 (734), and 5736 (735); or Grad standing in Special Education: Early Childhood. Coreq: 5189.01. Repeatable to a maximum of 6 ch hrs.

### 5738.02 Reading Instruction for Children with Disabilities or Severe Reading Deficits: Mild/Moderate U G 3

Information on how to effectively instruct reading to children with reading disabilities. Students will be paired with an urban learner whom is significantly below basic reading level for his/her grade.  
Prereq: 5734 or 5734.02, and 5736 or 5736.02; or EduPAES 5734 (734), and 5736 (735); or Grad standing in Special Education: Mild/Moderate. Coreq: 5189.02. Repeatable to a maximum of 6 cr hrs.

### 5738.03 Reading Instruction for Children with Disabilities or Severe Reading Deficits: Moderate/Intensive U G 3

Information on how to effectively instruct reading to children with reading disabilities. Students will be paired with an urban learner who is significantly below basic reading level for his/her grade.  
Prereq: 5734 or 5734.03, and 5736 or 5736.03; or EduPAES 5734 (734), and 5736 (735); or Grad standing in Special Education: Moderate/Intensive. Coreq: 5189.03. Repeatable to a maximum of 6 cr hrs.

### 5742 Applied Behavior Analysis for Teachers U G 3

Study of principles of behavior for the development and maintenance of academic and social behaviors.

### 5743 Educational Assessment of Students With Mild/Moderate Disabilities U G 3

Advanced training and specialized techniques in teaching methods for middle and secondary students with mild disabilities.  
Prereq: 5742; and admission to the Special Education program, or Grad standing; or permission of instructor.

### 5750 Classroom and Behavior Management for Students with Disabilities U G 3

Developing a positive learning environment and understanding definition of social skills; importance of teaching social skills, special social skill needs of individuals with disabilities; how to assess, teach, and evaluate social skill instruction.  
Prereq: Admission to the Special Education program, or permission of instructor.

### 5755 Inclusive Classroom Management U G 3

Students will learn best practice for positive behavior support and inclusion of students with special needs.  
Prereq: 5742.

### 5760 Educational Assessment in Early Childhood Special Education U G 3

Study of the assessment of infants and preschoolers and young children with special needs with particular emphasis placed on measurement for screening and instructional program planning.  
Prereq: Admission to Special Education program, or Grad standing, or permission of instructor.

### 5760.01 Assessment in Early Childhood Special Education U G 3

Study of the assessment of infants and preschoolers and young children with special needs with particular emphasis placed on measurement for screening and instructional program planning. It is recommended to complete ESSpEd 5742 prior to this course, but not required.  
Prereq: Grad standing, or admission in Special Education: Early Childhood program, or permission of instructor.

### 5761 Educational Intervention for Young Children with Disabilities U G 3

Study of instructional programming for language, communication, sensorimotor, cognitive, and social development in early childhood environments.  
Prereq: Admission to Special Education program, or Grad standing, or permission of instructor. Not open to students with credit for EduPAES 761.

### 5761.01 Instructional Programming in Early Childhood Special Education U G 3

Study of instructional programming for language, communication, sensorimotor, cognitive, and social development in early childhood environments.  
Prereq: Grad standing, or admission in Special Education: Early Childhood program, or permission of instructor.

### 5769 Delivering Effective Services to Enhance the Inclusion of Students with Special Needs U G 3

Designed to prepare special education teachers to work with administrators, general education teachers, parents and paraprofessionals to deliver instruction in inclusive settings.  
Prereq: Special Education major, or permission of instructor. Not open to students with credit for EduPAES 769.

### 6556 Reading for Students who are Deaf or Hard of Hearing G 3

Designed to introduce students to selected issues, concerning literacy and deafness: theories of literacy, research, and current practices, reading materials and assessment, and the relationship between reading and writing.

### 6650 Introduction to Exceptional Children G 3

An overview of the education of exceptional learners including a discussion of their characteristics and a review of historical approaches to their education and of contemporary educational practices.

### 7189 Advanced Field Placement in Orientation and Mobility G 1

This course addresses observing and co-teaching a variety of blind/low vision students under the direct supervision of a Certified Orientation and Mobility Specialists (COMS) within a variety of settings. Emphasis is experience working with a diverse group of students, in a variety of settings; moving to reflection on the process and continuity of teaching (a) student(s) over time.  
Prereq: Admission to Orientation and Mobility licensure program. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

## Educational Studies: Special Education 167

<b>7239</b>	<b>Effective Instruction for Students with Dysgraphia and Other Learning Differences/Disabilities</b>	<b>G</b>	<b>3</b>
This course serves as part of a larger study of struggling students with learning and attention issues. In this course, enrollees will examine developmental theories related to dysgraphia. They will also read research that supports the best practices and effective instruction for struggling writers at all age and grade levels and with various learning differences and/or disabilities.			
<b>7550</b>	<b>Advanced Studies in Deafness</b>	<b>G</b>	<b>3</b>
Designed to introduce graduate students to advanced issues concerning the linguistic, cognitive, and psychosocial aspects of students who are deaf and hearing impaired, including educational approaches and bilingualism/second-language. Prereq: Not open to students with credit for EduTL 832.			
<b>7830</b>	<b>Urban Education &amp; Precision Teaching</b>	<b>G</b>	<b>3</b>
Provides information about the challenges in urban education and how Precision Teaching can be used to address these challenges. Prereq: 5742 or EduPAES 5742; Grad standing or admission to the special education program; or permission of instructor.			
<b>7831</b>	<b>High Incidence Disability (HID) Seminar</b>	<b>G</b>	<b>3</b>
This is a doctoral seminar designed to address the critical issues and research in the area of high incidence disabilities (e.g., learning disabilities, behavior disorders, dyslexia, mild cognitive disabilities, attention deficit disorder, etc.). Prereq: Grad standing in ESSpED or related field.			
<b>7833</b>	<b>Severe Disabilities Seminar</b>	<b>G</b>	<b>3</b>
This course will provide graduate students the opportunity to explore current topics and issues specific to people with severe disabilities. In this course, we will explore the evidence-base related to improving outcomes for people with severe disabilities, directions that future researchers might take, and challenges currently faced by the field. Prereq: Grad standing in ESSpED or related field.			
<b>7999</b>	<b>Thesis Research: Special Education</b>	<b>G</b>	<b>1 - 6</b>
Research for master's thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs or 30 completions. This course is graded S/U.			
<b>8189</b>	<b>Field Experience in Special Education</b>	<b>G</b>	<b>1 - 15</b>
Planned counseling, supervisory, assessment, or teaching experience in a public school or other human service setting under supervision. Prereq: Admission to Special Education graduate program or permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions.			
<b>8191</b>	<b>BCBA Supervision</b>	<b>G</b>	<b>3</b>
This course is designed to provide students seeking BCBA certification with the required experiences in applied behavior analysis in school and clinical settings. Prereq: Admission to graduate program in Special Education (either MA or PhD level). Repeatable to a maximum of 12 or hrs. This course is graded S/U.			
<b>8193</b>	<b>Advanced Individual Studies: Special Education</b>	<b>G</b>	<b>1 - 12</b>
Advanced independent study in Special Education. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions. This course is graded S/U.			
<b>8200</b>	<b>Basic Behavior Analysis</b>	<b>G</b>	<b>3</b>
This course provides students with an overview of basic behavioral processes related to human and nonhuman learning. This course focuses on the basic principles of the science of behavior, the direct application of these principles, and the use of data collection procedures for analysis of behavior.			
<b>8300</b>	<b>Behavioral Assessment</b>	<b>G</b>	<b>3</b>
This course will provide an overview of process for determining the function of a behavior and how to align behavioral interventions with the results of functional assessments. Content for this course is based on the BCBA Task List (5th ed.), which sets forth the knowledge and skills that serve as the foundation for BCBA certification. Specifically, this is an application-oriented course. A basic understanding of the principles of applied behavior analysis is required prior to enrollment.			
<b>8400</b>	<b>Behavioral Interventions in Special Education</b>	<b>G</b>	<b>4</b>
The purpose of this course is to equip practitioners with the knowledge and skills needed to effectively and efficiently produce successful outcomes for individuals with disabilities or who struggle with learning. Prereq: 8200, or permission of instructor.			
<b>8500</b>	<b>Personnel Management and Supervision</b>	<b>G</b>	<b>2</b>
Providing supervised field experience is often one of several job responsibilities required of a Board Certified Behavior Analyst (BCBA). Providing BCBA supervision requires the synthesis of interpersonal, management, problem-solving, and mentoring skills as well as a thorough knowledge of the certification board's field experience standards and evidence-based practices. Prereq: 8200, or permission of instructor.			
<b>8832</b>	<b>Advanced Applied Behavior Analysis</b>	<b>G</b>	<b>3</b>
Advanced study of principles of behavior for the development and maintenance of academic and social behaviors.			

<b>8861</b>	<b>Single Case Research Design</b>	<b>G</b>	<b>3</b>
Designing, conducting, and critically evaluating research involving applications of the experimental analysis of behavior to problems and needs of individuals with disabilities in educational, clinical, and community settings.			
<b>8871</b>	<b>Behaviorism: Schedules and Translational Research</b>	<b>G</b>	<b>3</b>
Focuses on schedules of reinforcement and specialized areas of basic research that have influenced application with persons with developmental disabilities. Prereq: 8861 or EduPAES 8861 (861), and major in Special Education; or permission of instructor. Not open to students with credit for EduPAES 861.			
<b>8874</b>	<b>Behavioral Research in Education</b>	<b>G</b>	<b>3</b>
Examines methodological issues, strategies, tactics, advances, and ethical standards in behavioral research. Concepts will be applied in reviews and critiques of research in education. Prereq: 8871 or EduPAES 8871, and major in Special Education; or permission of instructor. Not open to students with credit for EduPAES 874.			
<b>8875</b>	<b>Professional Writing/Publishing in Special Education</b>	<b>G</b>	<b>3</b>
Allows students to acquire skills needed to write for publication in refereed journals. Prereq: Admission to Special Education program, or Grad standing, or permission of instructor. Not open to students with credit for EduPAES 888.			
<b>8891</b>	<b>Contemporary Issues in Special Education</b>	<b>G</b>	<b>3 - 9</b>
Weekly teleconference seminars discussing current issues and research in special education with prominent scholars from other universities and research centers. Prereq: Admission to Grad program in Special Education, or permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions.			
<b>8916</b>	<b>Behaviorism: Applications and Implications of Skinner's Works</b>	<b>G</b>	<b>1½</b>
Students will be introduced to radical behaviorism as the philosophical foundation of behavior analysis and the implications of that philosophy for research and practice in special education. Graduate students preparing for leadership positions in special education should acquire a thorough understanding and appreciation of the philosophical foundations of the science of behavior. Prereq: 5742 or EduPAES 5742 (742), and a major in Special Education; or permission of instructor. Not open to students with credit for EduPAES 917.			
<b>8917</b>	<b>Verbal Behavior</b>	<b>G</b>	<b>1½</b>
Overview along with the implications and applications of Skinner's Verbal Behavior. Empirical and conceptual advances in the analysis of verbal behavior will be reviewed. Prereq: 5742 or EduPAES 5742 (742), and major in Special Education; or permission of instructor. Not open to students with credit for EduPAES 917.			
<b>8921</b>	<b>Ethical Issues in Applied Behavior Analysis</b>	<b>G</b>	<b>3</b>
Allows students to understand and engage in decision-making regarding general and special education practices. Identify critical issues of legal cases and ethical dilemmas. Prereq: Enrollment in special education major, or permission of instructor.			
<b>8922</b>	<b>Topics in Early Childhood Special Education</b>	<b>G</b>	<b>3</b>
Review of evidence based practices in and methodological issues in early childhood special education. Prereq: 5742 and 8871, or EduPAES 5742 (742) and 8871 (861); Grad standing, admission to the special education program, or by permission of instructor. Not open to students who have taken EduPAES 925.23.			
<b>8998</b>	<b>Research: Special Education</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis and dissertation purposes only. Prereq: Grad standing in Special Education, or permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			
<b>8999</b>	<b>Dissertation/Thesis Research: Special Education</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis and dissertation purposes only. Prereq: Major in Special Education, or permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			

## Educational Studies: Teacher Educ Policy & Ldrshp

<b>5194</b>	<b>Group Studies: Teacher Education</b>	<b>U G</b>	<b>1 - 15</b>
Group study projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			
<b>8194</b>	<b>Advanced Group Studies: Teacher Education</b>	<b>G</b>	<b>1 - 15</b>
Advanced group projects. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			

## Educational Studies: Workforce Development & Educ

<b>4998</b>	<b>Research: Workforce Development &amp; Education</b>	<b>U</b>	<b>1 - 3</b>
Independent research on technical education and training content. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			

## 168 Educational Studies: Workforce Development & Educ

<b>5189.01</b>	<b>Career and Technical Education Field Experience I</b>	<b>U G</b>	<b>2</b>	<b>5668</b>	<b>Career and Technical Education Capstone</b>	<b>U G</b>	<b>1</b>
Observation of career and technical education classrooms in a field-based setting. Prereq: Enrollment in EHE major, or Grad standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs.				Development of professional teaching portfolio. Prereq: Standing in EHE, or Grad standing, or permission of instructor. Not open to students with credit for EduPAES 575.06 or 668.06.			
<b>5189.02</b>	<b>Career and Technical Education Field Experience II</b>	<b>U G</b>	<b>2</b>	<b>5672</b>	<b>Lifelong Learning in the Adult Years</b>	<b>U G</b>	<b>3</b>
Supervised clinical teaching in a career and technical education classroom, field-based setting. Prereq: Enrollment in EHE major, or Grad standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs.				Nature, extent and significance of adult in society. History, forms, methodologies, theoretical issues and philosophies. Prereq: Jr standing or above. Not open to students with credit for EduPAES 672.			
<b>5189.03</b>	<b>Career and Technical Education Clinical Field Experience I</b>	<b>U G</b>	<b>2</b>	<b>5677</b>	<b>New Career and Technical Education Teacher Clinic</b>	<b>U G</b>	<b>4</b>
Supervised clinical teaching in a career and technical education setting. Prereq: Grad or EHE standing, or permission of instructor. Not open to students with credit for EduPAES 575.02 or 668.02.				Development of basic cognitive and performance skills for new career and technical education teachers. Prereq: Standing in EHE, or Grad standing, or permission of instructor. Not open to students with credit for EduPAES 668.01. This course is graded S/U.			
<b>5189.04</b>	<b>Career and Technical Education Clinical Field Experience II</b>	<b>U G</b>	<b>2</b>	<b>5680</b>	<b>Introduction to Career Based Intervention</b>	<b>U G</b>	<b>2</b>
Supervised clinical teaching in a career and technical education setting. Prereq: Grad standing, EHE enrollment, or permission of instructor. Not open to students with credit for EduPAES 575.03 or 668.03.				The initial course for adding the Career Based Intervention Endorsement to an existing teaching license. Prereq: Grad standing, or enrollment in EHE major, or permission of instructor. Not open to students with credit for EduPAES 678.			
<b>5193</b>	<b>Individual Studies: Workforce Development &amp; Education</b>	<b>U G</b>	<b>1 - 12</b>	<b>5701</b>	<b>Fundamentals of Teaching Adults Online</b>	<b>U G</b>	<b>3</b>
Independent research on content and issues related to Workforce Development and Education. Prereq: Enrollment in the WDE program or working on a topic relevant to WDE and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded				Apply the concepts of teaching presence, social presence, and cognitive presence to the design and implementation of an online course. Prereq: Jr standing or above. Not open to students with credit for EduPAES 701 or 701D.			
<b>5194</b>	<b>Group Studies: Workforce Development &amp; Education</b>	<b>U G</b>	<b>1 - 3</b>	<b>5784</b>	<b>Student Teaching in Career and Technical Education</b>	<b>U G</b>	<b>12</b>
Group Study on topics related to workforce development and education. Prereq: Jr standing or above, or CED enrollment; and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.				Supervised clinical practice for career and technical education majors in a school setting. Prereq: Major in EHE, or Grad standing; and passage of Business content test; or permission of instructor. Not open to students with credit for EduPAES 784.			
<b>5622</b>	<b>Introduction to Software Applications for Teachers and Trainers</b>	<b>U G</b>	<b>3</b>	<b>6701</b>	<b>Boot Camp for the Beginning Online Instructor</b>	<b>G</b>	<b>1</b>
Foundational understanding and skill development of computer software applications. Prereq: Not open to students with credit for EduPAES 622 or 623.				This course workshop provides the just in time skills needed to begin teaching online and prepares future faculty for first time online teaching assignments. Learners will be able to develop a management plan for teaching online, develop spaces and places for learning, connect with students and design assessments appropriate for online learning environments. This is a self-paced and managed course. Prereq: Not open to students with credit for 5701.			
<b>5623</b>	<b>Advanced Software Applications for Teachers and Trainers</b>	<b>U G</b>	<b>3</b>	<b>7000.01</b>	<b>Contemporary Research in Workforce Development and Education: Career and Technical Education</b>	<b>G</b>	<b>3</b>
Advanced understanding and skill development of computer software applications. Prereq: Not open to students with credit for EduPAES 623 or 632.				This course is designed as an examination of the current research across the workforce development landscape. It will provide the opportunity to explore scholarly work, policy reports, and practitioner-focused reports that support the development of individuals for success in the workforce. It will delve into contemporary issues in WDE with a focus on career and technical education. Repeatable to a maximum of 30 cr hrs.			
<b>5624</b>	<b>Foundations of Workforce Development and Education</b>	<b>U G</b>	<b>3</b>	<b>7289</b>	<b>Practicum in Teaching Adults Online</b>	<b>G</b>	<b>3</b>
Offers economic, social, psychological and educational foundations of the fields in workforce development. Prereq: Not open to students with credit for EduPAES 624.				Course management system and content area. Learners will design and teach a lesson online. Provides an opportunity for students to practice the skills developed in the grad minor. Specialization in teaching in a virtual environment. Prereq: 7701 or EduPAES 7701, and ESWDE 5701 or EduPAES 5701; or ESETec 6282 or EduPL 6282.			
<b>5633</b>	<b>Instructional Strategies for Career Based Intervention Programs</b>	<b>U G</b>	<b>3</b>	<b>7701</b>	<b>Teaching and Learning at a Distance: Foundations of the Virtual Classroom</b>	<b>G</b>	<b>3</b>
Preparation and delivery of lessons, placement and follow-up of students in Career-Based Intervention programs. Prereq: Enrollment in EHE or Grad standing; or permission of instructor. Not open to students with credit for EduPAES 633.				An examination of the socio-cultural, political, economic, and educational trends and issues influencing the development and delivery of distance education. Issues of accessibility, access, affordability, technology, will be discussed.			
<b>5636</b>	<b>School Health Teaching Practices</b>	<b>U G</b>	<b>3</b>	<b>7727</b>	<b>Assuring Quality in Online Course Design: Moving from Face to Face to Online</b>	<b>G</b>	<b>3</b>
Principles and practices for preparing, implementing, and evaluating health instruction. Prereq: Not open to students with credit for EduPAES 636 or 636D.				In this fully online course learners will use the quality matters rubric and supporting documents to inform the design and implementation of instruction specifically for an online teaching/learning environment. The learner will develop and submit for peer review an online course or portion of an online course. Learners will also serve as a peer reviewer using the quality matters standards. Cross-listed in Nursing.			
<b>5649S</b>	<b>Teaching Adults in the Workplace</b>	<b>U G</b>	<b>3</b>	<b>7757</b>	<b>Aspects of Human Resource Development</b>	<b>G</b>	<b>3</b>
Developmental and instructional approaches. Prereq: Jr standing or above. Not open to students with credit for EduPAES 649.				Overview of theories, principles and practices of the human resource development field. Prereq: Not open to students with credit for EduPAES 757.			
<b>5655</b>	<b>Coordination of Work-Based Learning for Career and Technical Education</b>	<b>U G</b>	<b>3</b>	<b>7935.40</b>	<b>Program Planning in Adult Education</b>	<b>G</b>	<b>3</b>
Strategies for the development of work-based learning programs in career and technical education programs. Prereq: Standing in EHE, or Grad standing, or permission of instructor. Not open to students with credit for EduPAES 646.				Examines the political, social and educational and cultural components in planning educational programs for adults. Prereq: Not open to students with credit for EduPAES 934 or 935.			
<b>5656</b>	<b>Foundations of Career and Technical Education Teaching</b>	<b>U G</b>	<b>2</b>	<b>8193</b>	<b>Advanced Individual Studies: Workforce Development &amp; Education</b>	<b>G</b>	<b>1 - 12</b>
A foundational course in career and technical education for previously licensed teachers in other subject areas. Covers lab management, career-technical student organizations, advisory committees, funding, and other specialized topics related to career and technical education. Prereq: Grad standing, or enrollment in EHE major.				Advanced independent research on topics related to workforce development and education. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>5665</b>	<b>Teaching Methods for Career and Technical Education</b>	<b>U G</b>	<b>3</b>				
Instructional concepts for teaching career and technical education, including teaching methods and classroom/lab management. Prereq: Grad standing or enrollment in EHE, or permission of instructor. Not open to students with credit for EduPAES 665.							
<b>5667</b>	<b>Curriculum/Instruction and Assessment in Career and Technical Education</b>	<b>U G</b>	<b>3</b>				
Study of curriculum/instruction and assessment procedures in career and technical education courses and programs. Prereq: Grad standing, or enrollment in EHE, or permission of instructor. Concur: 5189.02. Not open to students with credit for EduPAES 667 or 675.							

**8911 Theoretical and Scholarly Perspectives on Workforce Development and Education** G 3

Provides a framework for examining the theories and concepts in Workforce Development and Education.  
Prereq: Not open to students with credit for EduPAES 911 or 912.

**8932 Adult Learning Theory** G 3

Examination of significant learning theories and their application to adult learning experiences.  
Prereq: Not open to students with credit for EduPAES 932.

**8999 Dissertation/Thesis Research: Workforce Development & Education** G 1 - 3

An individual study course for those graduate students conducting independent research for a thesis or dissertation.  
Prereq: Doctoral standing, and permission of instructor. Repeatable to a maximum of 18 cr hrs or 18 completions with 999.40. This course is graded S/U.

## Electrical and Computer Engineering

**2020 Introduction to Analog Systems and Circuits** U 3

Circuit theory and applications of passive components and Op amps. Introduction to analog systems using differential equations and Laplace transforms.  
Prereq: Engr 1182.01, 1182.02, 1182.03, 1282.01H, 1282.02H, 1282.03H, 1282.04H, or 1186, 1187 and 1188 concurrent; and Math 1152, 1161.01, 1161.02, 1172, or 1181H; and Physics 1250, 1250H, or 1260; and CPHR 2.00 or above. Not open to students with credit for 2100, 2100.02, 2100.06, 2100.07, 2100.08, 2105, 2106, 2110, 2127, 2137, or 2300.

**2021 Introduction to Analog Systems and Circuits for Transfer Students Lecture** U 2½

Lecture-only component of ECE 2020, for transfer students. Circuit theory and applications of passive components and Op amps. Introduction to analog systems using differential equations and Laplace transforms.  
Prereq: Math 1152 or 1161.01 or 1161.02 or 1172 or 1181H, and Physics 1250, 1250H or 1260, and CSE 1222 or 2221 or Engr 1281.01H or 1281.02H or 1222; and Engr 1182.01 or 1182.02 or 1182.03 or 1282.01H or 1282.02H or 1282.03H, or Engr 1186 and 1187 and concur: 1188 concurrent, or 1187 and 1188 and concur: 1186; and CPHR 2.00 or above. Not open to students with credit for 2020, 2100, 2100.02, 2100.06, 2105, 2106, 2110, or 2300.

**2027 Introduction to Analog Systems and Circuits Lab for Transfer Students** U ½

Laboratory-only component of ECE 2020, for transfer students. Laboratory practice with circuit theory, analog systems, and applications of passive components and Op amps.  
Prereq: 2021, and CPHR 2.00 or above. Not open to students with credit for 2020, 2100, 2100.02, 2100.07, 2100.08, 2127, 2137, 209, 292, or 294.03.

**2050 Introduction to Discrete Time Signals & Systems** U 3

Introduction to sampled time signals and linear time invariant sampled time systems.  
Prereq: 2000, or 2060, or 2061 and 2067. Prereq or concur: Math 2174 or 2568. Not open to students with credit for 2100, 2100.01, 2100.04, 2104, or 2110.

**2051 Introduction to Discrete Time Signals & Systems Lecture** U 2½

Introduction to sampled time signals and linear time invariant sampled time systems. Lecture only.  
Prereq: 2000, or 2060, or 2061 and 2067. Prereq or concur: Math 2174 or 2568. Not open to students with credit for ECE 2100, 2100.01, 2100.04, 2104, 2110, or 2050.

**2057 Introduction to Discrete Time Signals & Systems Laboratory** U ½

Introduction to sampled time signals and linear time invariant sampled time systems. Lab only.  
Prereq or concur: 2051. Not open to students with credit for 2100, 2100.01, 2100.04, 2104, 2110, or 2050.

**2060 Introduction to Digital Logic** U 3

Introduction to the theory and practice of combinational and clocked sequential networks.  
Prereq: CSE 1222, 2221, Engr 1222, 1281.01H, or 1281.02H; and Math 1152, 1161.01, 1161.02, 1172, or 1181H; and Physics 1250, 1250H, or 1260; and Engr 1182.01, 1182.02, 1182.03, 1282.01H, 1282.02H, 1282.03H, 1282.04H, or 1186, 1187, and 1188 concurrent, or 1187, 1188, and 1186 concurrent, or major in CIS or CIS-PRE; and CPHR 2.00 or above. Not open to students with credit for 2000, 2000.02, 2000.07, 2001, 2010, or 2017.

**2061 Introduction to Digital Logic for Transfer Students Lecture** U 2½

Lecture-only component of ECE 2060, for transfer students. Introduction to the theory and practice of combinational and clocked sequential networks.  
Prereq: Math 1152 or 1161.01 or 1161.02 or 1172 or 1181H, and Physics 1250, 1250H or 1260, and CSE 1222 or 2221 or Engr 1281.01H or 1281.02H or 1222; and Engr 1182.01 or 1182.02 or 1182.03 or 1282.01H or 1282.02H or 1282.03H, or Engr 1186 and 1187 and concur: 1188 concurrent, or 1187 and 1188 and concur: 1186, or major in CIS or CIS-PRE; and CPHR 2.00 or above. Not open to students with credit for 2000, 2000.02, 2001, 2010, or 2060.

**2067 Introduction to Digital Logic Lab for Transfer Students** U ½

Laboratory-only component of ECE 2060 for transfer students. Laboratory practice with and application of the theory of combinational and clocked sequential networks.  
Prereq: 2061, and CPHR 2.00 or above. Not open to students with credit for 2000, 2000.02, 2000.07, 2017, 2060, 270, 290, or 294.01.

**2193 Individual Studies in Electrical and Computer Engineering** U 0 - 10

Individual studies project.  
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions.  
This course is graded S/U.

**2300 Electrical Circuits and Electronic Devices** U 3

Introduction to circuit analysis; circuit analysis concepts and mechanical systems analogies; theory and applications of electronic devices; operational amplifiers; electrical instruments and measurements.  
Prereq: Physics 1251 or 1261, and Math 1172 or 1544 or 2153 or 2162.01 or 2162.02 or 2182H or 4182H, and CPHR 2.0 or above, and enrollment in College of Engineering. Not open to students majoring in ECE.

**2301 Electrical Circuits and Electronic Devices Lecture** U 2½

Introduction to circuit analysis; circuit analysis concepts and mechanical systems analogies; theory and applications of electronic devices; operational amplifiers; electrical instruments and measurements. Lecture portion only.  
Prereq: Physics 1251 or 1261, and Math 1172 or 1544 or 2153 or 2162.01 or 2162.02 or 2182H or 4182H, and CPHR 2.0 or above, and enrollment in College of Engineering. Not open to students with credit for 2300, or students majoring in ECE.

**2307 Electrical Circuits and Electronic Devices Laboratory** U ½

Introduction to circuit analysis; circuit analysis concepts and mechanical systems analogies; applications of electronic devices; operational amplifiers; electrical instruments and measurements. Lab only.  
Prereq or concur: 2301. Not open to students with credit for 2300, or students majoring in ECE.

**2560 Introduction to Microcontroller-Based Systems** U 2

Hardware and software organization of a typical microcontroller; machine language programming, interfacing peripheral devices, and input-output programming; real-time computer applications.  
Prereq: 2000, 2001, 2060, or 2061 and prereq or concur: 2000.07 or 2017; and CSE 1221, 1222, Engr 1281.01H, 1281.02H, or 1222, and enrollment in ECE, CSE, or EngPhysics major; or prereq or concur: 2010 or 2067, and permission of department. Not open to students with credit for CSE 2421.

**2998.01 Undergraduate Research** U ½ - 3

Supervised undergraduate research in various topics.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.

**2998.02 Undergraduate Research** U ½ - 3

Supervised undergraduate research in various topics.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**3010 Introduction to Radio Frequency and Optical Engineering** U 3

Waves and pulses on transmission lines; charges, fields, and potentials; inductance and capacitance; Faraday's law; Maxwell's Equations; plane wave propagation, polarization, reflection, and transmission.  
Prereq: 2020, 2021, 2100, 2100.02, 2100.06, or 2105; and Physics 1251 or 1261, or both 1240 and 1241; and Math 2415 or 2174; and enrollment in ECE or EngPhysics major; or prereq or concur: 2010 or 2061, and permission of department. Not open to students with credit for 3010.01 or 3010.02.

**3020 Introduction to Electronics** U 3

Electronics: diode and transistor models for amplifiers, switches, and logic gates. Multiple transistor circuit analysis, op amps, and electronic systems.  
Prereq: 2100 or 2020; or 2021 or 2106, and 2027 prereq or concur; and ECE or EngPhys major, or 2110 prereq or concur and permission of department.

**3027 Electronics Laboratory** U 1

Electronic amplification, signal processing, timing, and power regulation circuits. Experiments with electronics evaluation modules and use of an analog system lab kit for electronics testing.  
Prereq: 3020; and ECE or EngPhysics major.

**3030 Semiconductor Electronic Devices** U 3

Semiconductor materials and devices. Crystals; bandstructure; charge carrier statistics; excess carriers, transport; PN junction; Schottky barrier; bipolar and field-effect transistors; optoelectronic devices; nanoscale devices.  
Prereq: 2020, 2021, or 2100; and Physics 1251, 1261, or both 1240 and 1241; and Chem 1210, 1220, or 1250; and enrollment in ECE, MSE, or EngPhysics major. Prereq or concur: Math 2415 or 2174.

**3040 Sustainable Energy and Power Systems I** U 3

Introduction to electrical energy systems: history, current trends, renewable and non-renewable sources, rotating machines and their operation, and smart grid initiatives.  
Prereq: 2100, 2100.02, 2105, 2020, 2021, 205, 292, or 294 (Spring 2011), and enrollment in ECE or EngPhysics major. Not open to students with credit for 341.

**3047 Sustainable Energy and Energy Conversion Lab** U 1

Laboratory introducing basics of energy conversion processes for electrical energy supply systems utilizing conventional rotating machines and hardware-in-the-loop simulation system for sustainable energy systems.  
Prereq: 3040 (341), and enrollment in ECE or EngPhysics major. Not open to students with credit for 447.

## 170 Electrical and Computer Engineering

<b>3050</b>	<b>Signals and Systems</b>	<b>U</b>	<b>3</b>
Linear systems and models in continuous and discrete time; convolution; Fourier series and transform; frequency response; Laplace transform; z-transform; applications. Prereq: 2020, 2050, and 2060; or 2100; and Math 2568 (568) or 571; and prereq or concur Math 2415; and enrollment in ECE or EngPhysics major. Not open to students with credit for 352.			
<b>3080</b>	<b>Ethics and Professionalism</b>	<b>U</b>	<b>1</b>
Professional responsibilities; IEEE code of ethics; social justice; engineering as social experimentation; safety and risk; professional issues in organizations; case studies; global awareness. Prereq: Jr or Sr standing, and enrollment in ECE major. Not open to students with credit for 481. This course is graded S/U.			
<b>3090</b>	<b>Technical Writing and Presentations</b>	<b>U</b>	<b>1</b>
Technical writing and communications skills. Prereq: Credit for a first writing course, and enrollment in ECE major.			
<b>3551</b>	<b>Introduction to Feedback Control Systems</b>	<b>U</b>	<b>3</b>
Provides fundamental concepts in feedback control systems design and analysis. Prereq: 3050 (352). Not open to students with credit for 551.			
<b>3557</b>	<b>Control Systems Laboratory</b>	<b>U</b>	<b>1</b>
Utilization of real-world plants for computer control; use of a commercially available software package (Matlab) for computer-aided analysis and design. Prereq or concur: 3551 (551), and enrollment in ECE or EngPhysics major. Not open to students with credit for 557.			
<b>3561</b>	<b>Advanced Digital Design</b>	<b>U</b>	<b>3</b>
Design and analysis of sequential circuits; digital circuit design using building blocks, programmable logic devices; design of basic computer components such as arithmetic logic units. Prereq: 2000, 2060, 2061, 2010, 2000.02, 290, 294 (Autumn 2010) or 206 and 261. Prereq or concur: 3020 (323), and enrollment in ECE, EngPhys, or CSE majors; or prereq or concur 2010 and permission of department. Not open to students with credit for 561.			
<b>3567</b>	<b>Microcontroller Lab</b>	<b>U</b>	<b>1</b>
Laboratory in which a microcontroller is used to interface real-world hardware to make a functioning system. Prereq: 2560 or CSE 2421, and enrollment in ECE, CSE, or EngPhysics major. Not open to students with credit for 3567.01.			
<b>3900</b>	<b>Capstone Design I</b>	<b>U</b>	<b>1</b>
Fundamentals of the engineering design process. Design principles and methodology. Project management during design. Prereq: Sr standing and enrollment in the ECE major. Prereq or concur: 3090. Not open to students with credit for 4900, 4900H, 4901, Engr 4901, 4903, 5901.01, or 5901.02H.			
<b>3905</b>	<b>Capstone Design I</b>	<b>U</b>	<b>3</b>
Fundamentals of the engineering design process. Application of design principles and methodology to conceptual and detailed technical design. Project management during design. Prereq: Option 1: Prereq or concur: 3080 or Philos 1332, and ECE 2560, 3010, 3020, 3027, 3030, 3040, 3050, and 3090, and Sr standing, and enrollment in Electrical Engineering Program of Study (EES subplan) of the ECE major. Option 2: Prereq or concur: ECE 2050 or 2100, and 3080 or Philos 1332, and ECE 3020, 3027, 3090, 3561, 3567, CSE 2231, and 2451, and Sr standing, and enrollment in Computer Engineering Program of Study (CES subplan). Not open to students with credit for 3900, 4900, 4900H, 4901, Engr 5901.01, 5901.02H, 5902.01, or 5902.02H. This course is progress graded.			
<b>4021</b>	<b>Analog Integrated Circuits I</b>	<b>U</b>	<b>3</b>
Fundamentals of analog integrated circuits. CMOS transistors and diodes large-signal and small-signal operation and modeling. On-chip passive components operation and modeling. Simple and advanced current mirrors, single-ended and differential CMOS amplifiers, CMOS OTAs and Op-Amps. Integrated Circuits Fabrication, Packaging, and Testing. Prereq: 3020. Not open to students with credit for 5021.			
<b>4193</b>	<b>Individual Studies in Electrical and Computer Engineering</b>	<b>U</b>	<b>0 - 12</b>
Individual studies project. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions. This course is graded S/U.			
<b>4567</b>	<b>Design of Mobile Internet-of-Things</b>	<b>U</b>	<b>4</b>
This course focuses on theoretical and practical insights into design of Internet of Things architectures and mobile platforms. Concepts covered in this course include general IoT architectures, sensor, processing, and communication resources, device and cloud connectivity, mobility support. Practical aspects will be studied with lab assignments and the semester-long group projects. Prereq: 2560, 3020, and 3027.			

<b>4900</b>	<b>Capstone Design II</b>	<b>U</b>	<b>3</b>
Application of design principles and methodology to conceptual and detailed technical design, implementation, and testing of a capstone project. Prereq: Option 1: 2560, 3010, 3020, 3027, 3030, 3040, 3050, 3090, and 3900, and Sr standing, and enrollment in Electrical Engineering Program of Study (EES subplan) of the ECE major. Prereq or concur: 3080 or Philos 1332. Option 2: 2050 or 2100; 3020, 3027, 3090, 3561, 3567, 3900, CSE 2231, and 2451, and Sr standing, and enrollment in Computer Engineering Program of Study (CES subplan). Prereq or concur: 3080 or Philos 1332, and ECE 5362. Not open to students with credit for 4900H, 4901, or Engr 4903 or 5902.01.			
<b>4900H</b>	<b>Design II with Honors Thesis Project</b>	<b>U</b>	<b>3</b>
Application of design principles and methodology to conceptual and detailed technical design, implementation and testing, culminating in a capstone design project. Prereq: Honors standing, and permission of department, and: Option 1: 2560, 3010, 3020, 3027, 3030, 3040, 3050, 3090, 3900, and Sr standing, and enrollment in Electrical Engineering Program of Study (EES subplan) of the ECE major. Prereq or concur: 3080 or Philos 1332. Option 2: 2050 or 2100; 3020, 3027, 3090, 3561, 3567, 3900, CSE 2231, and 2451, and Sr standing, and enrollment in Computer Engineering Program of Study (CES subplan). Prereq or concur: 3080 or Philos 1332, and ECE 5362. Not open to students with credit for 4900, 4901, Engr 4903, or 5902.01.			
<b>4901</b>	<b>Capstone Design II Special</b>	<b>U</b>	<b>3</b>
Application of design principles and methodology to conceptual and detailed technical design, implementation, and testing of a capstone design project. Teams of at least three arrange special projects with a faculty member. Prereq: Option 1: 2560, 3010, 3020, 3027, 3030, 3040, 3050, 3090, and 3900, and Sr standing, and enrollment in Electrical Engineering Program of Study (EES subplan) of the ECE major. Prereq or concur: 3080 or Philos 1332. Option 2: 2050 or 2100; 3020, 3027, 3090, 3561, 3567, 3900, CSE 2231, and 2451, and Sr standing, and enrollment in Computer Engineering Program of Study (CES subplan). Prereq or concur: 3080 or Philos 1332, and 5362. Not open to students with credit for 4900H, 4900, or Engr 4903 or 5902.01.			
<b>4905</b>	<b>Capstone Design II</b>	<b>U</b>	<b>3</b>
Application of project management, design principles and methodology to conceptual and detailed technical design, implementation, and testing of a capstone project. Prereq: 3905. Not open to students with credit for 4900, 4900H, 4901, Engr 5901.01, 5901.02H, 5902.01, or 5902.02H.			
<b>4905H</b>	<b>Capstone Design II with Honors Thesis</b>	<b>U</b>	<b>3</b>
Application of design principles and methodology to conceptual and detailed technical design, implementation and testing, culminating in a capstone design project. Prereq: Honors standing, 3905, and permission of department. Not open to students with credit for 4900, 4900H, 4901, Engr 5902.01 or 5902.01H.			
<b>4998.01</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>½ - 3</b>
Supervised undergraduate research in various topics. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs or 6 completions.			
<b>4998.01H</b>	<b>Undergraduate Honors Research</b>	<b>U</b>	<b>½ - 3</b>
Supervised research in various topics for undergraduate honors students. Prereq: Honors standing; or GPA 3.4 or above, and permission of instructor. Repeatable to a maximum of 6 or hrs or 6 completions.			
<b>4998.02</b>	<b>Undergraduate Research</b>	<b>U</b>	<b>½ - 3</b>
Supervised undergraduate research in various topics. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs or 6 completions. This course is graded S/U.			
<b>4999.01</b>	<b>Undergraduate Thesis Research</b>	<b>U</b>	<b>½ - 3</b>
Undergraduate Thesis (Distinction) research on topics in Electrical & Computer Engineering. Prereq: GPA 3.0 or above, and enrollment in ECE major, and approved Thesis (Distinction) project. Repeatable to a maximum of 6 or hrs or 6 completions.			
<b>4999.01H</b>	<b>Undergraduate Honors Thesis Research</b>	<b>U</b>	<b>½ - 3</b>
Undergraduate Honors Thesis (Distinction) research on topics in Electrical & Computer Engineering. Prereq: Honors standing, or GPA 3.4 or above; and enrollment in ECE major; and approved Honors Thesis (Distinction) project. Repeatable to a maximum of 6 or hrs or 6 completions.			
<b>5000</b>	<b>Introduction to Analog and Digital Communications</b>	<b>U G</b>	<b>3</b>
Communications channel modeling, analog communication schemes, digital communication schemes, error rate analysis, and error control coding. Prereq: 3050, and Stat 3470 or Physics 3700; or Grad standing.			
<b>5007</b>	<b>Communications Laboratory</b>	<b>U G</b>	<b>½</b>
A laboratory in digital data communication implementing a software-defined modem: quadrature modulation; phase-shift keyed modulation; inter-symbol interference; timing and frequency recovery. Prereq or concur: 5000 (501), and enrollment in ECE or EngPhysics major; or Grad standing in ECE. Not open to students with credit for 4007 or 508.			
<b>5010</b>	<b>Wireless Propagation and Remote Sensing</b>	<b>U G</b>	<b>3</b>
Practical methods for predicting tropospheric, groundwave, and ionospheric propagation, including refraction, reflection, and extinction effects. Study of remote sensing systems and their applications. Prereq: 3010, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			

<b>5011</b>	<b>Antennas</b>	<b>U G</b>	<b>3</b>
Electromagnetic radiation; fundamental antenna parameters; dipole, loops, patches, broadband and other antennas; array theory; ground plane effects; horn and reflector antennas; pattern synthesis; antenna measurements. Prereq: 3010 (312), or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 711.			
<b>5012</b>	<b>Integrated Optics</b>	<b>U G</b>	<b>3</b>
Fundamentals of planar lightwave circuits and guided wave devices; laser light in anisotropic media; electrooptic and nonlinear optical effects; concepts in telecommunications, RF photonics, nanobiotechnology. Prereq: 3010, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5013</b>	<b>Introduction to Radar Systems</b>	<b>U G</b>	<b>3</b>
Introduces the fundamentals of radar such as the main concepts and techniques used in modern radar systems. The class is a survey course exposing students to a wide range of radar applications and design issues. Prereq: 3050, and 3010 or 3010.01, and Stat 3470; or Grad standing in Engr. Not open to students with credit for 5194.01.			
<b>5017</b>	<b>Microwave Engineering</b>	<b>U G</b>	<b>4</b>
Transmission line theory; multiconductor; S-parameters; transformers, couplers, filters, resonators, circulators; electromagnetic interference and compatibility; computer-aided design; microstrip realization and testing with a network analyzer. Prereq: 3010, and enrollment in ECE major; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5020</b>	<b>Mixed Signal VLSI</b>	<b>U G</b>	<b>3</b>
Design and circuit analysis of basic VLSI structures such as registers, cell libraries, digital and analog I/O. Physical layout, timing analysis, PLLs, design tools. Prereq: 3020, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5021</b>	<b>Analog Integrated Circuits II</b>	<b>U G</b>	<b>3</b>
Advanced analog integrated circuits. Linear feedback networks design and stability analysis, multi-stage CMOS op-amp design and compensation, fully-differential op-amps and common-mode feedback networks, comparators, transconductors, bandgaps, sample and hold circuits, switched-capacitor circuits, noise analysis of CMOS circuits. Prereq: 4021; or Grad standing in Engineering, and permission of instructor.			
<b>5022</b>	<b>Radio Frequency Integrated Circuits</b>	<b>U G</b>	<b>3</b>
Modulation, wireless standards, transceiver architecture, transistor models, passive component models; LNA, VCO, PLL, Mixers, integrated PA, RFIC layout. Prereq or concur: 4021 or 5021, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5023</b>	<b>Introduction to Data Converters and Phase-Locked Loops</b>	<b>U G</b>	<b>3</b>
This course focuses on fundamentals of data converters and timing circuits, including discrete-time analog/mixed signal analysis and signal conditioning for asynchronous and synchronous computing. The topics include analog switches, sampling circuits, switched-capacitor amplifiers and filters, ADCs, DACs, PLLs, DLLs and discrete-time neural networks. Prereq: 4021, or Grad standing in Engr or Physics.			
<b>5025</b>	<b>Power Electronics: Devices, Circuits, and Applications</b>	<b>U G</b>	<b>3</b>
Provides an introduction to power electronic conversion principles. Analytical techniques will be developed through the study of widely used converter circuits. Prereq: 3020 (323), or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 624, 724, or 844.			
<b>5027</b>	<b>Microwave Electronics</b>	<b>U G</b>	<b>4</b>
Design principles of microwave transistor amplifiers and oscillators; low-noise, power and broadband amplifiers; linearization; computer-aided design; microstrip realizations and testing in the laboratory. Prereq: 3020 (323), and enrollment in ECE major; or Grad standing in Engineering, Biological Science, or Math and Physical Sciences. Not open to students with credit for 723.			
<b>5031</b>	<b>Semiconductor Process Technology</b>	<b>U G</b>	<b>3</b>
Discrete and integrated circuit device design, silicon VLSI processing technologies, III-V compound semiconductor device fabrication technologies; epitaxy, doping, bandgap engineering; and device measurements and failure mechanisms. Prereq: 3030, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5033</b>	<b>Surfaces and Interfaces of Electronic Materials</b>	<b>U G</b>	<b>3</b>
Provides the fundamental and practical basis for designing, processing, and characterizing the interfaces controlling the next generations of microelectronic and optoelectronic device structures. Prereq: 3030, and Physics 1250 or 1250H; or Grad standing in Engineering, Biological Science, or Math and Physical Sciences.			

<b>5037</b>	<b>Solid State Electronics and Photonics Laboratory</b>	<b>U G</b>	<b>4</b>
Introduction to laboratory techniques for semiconductor device fabrication including photolithography, oxidation, diffusion, chemical processes, reactive ion etching, and metallization; fabrication and measurements of visible light emitting diodes (LED) and GaN High Electron Mobility Transistor (HEMT). Prereq or concur: 3030, and acceptance in ECE, MSE or EngPhysics major; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5041</b>	<b>Electric Machines</b>	<b>U G</b>	<b>3</b>
Principles of electromechanical energy conversion; basic structures of electric machines; steady state models and performance analysis; advanced topics on AC machine control. Prereq: 3020 (323) and 3040 (341), or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 743.			
<b>5042</b>	<b>Power Systems</b>	<b>U G</b>	<b>3</b>
A power system analysis course presenting power systems loads, modeling of transformers and power system model for voltage calculation and faults. Prereq: 3040, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			
<b>5043</b>	<b>Power Systems - Analysis and Operation</b>	<b>U G</b>	<b>3</b>
Power systems analysis and operations, including steady-state analysis, state estimation, and economic operation. Prereq: 3040, Sr standing, and ECE major; or Sr standing and ISE major; and Math 2568; or Grad standing in engineering or biological sciences or math and physical sciences. Cross-listed in ISE.			
<b>5047</b>	<b>High Voltage Engineering and Laboratory</b>	<b>U G</b>	<b>3</b>
Dielectric strength and breakdown of gases, liquids, and solids, electric field design problems in power system equipment; laboratory study of high voltage insulation. Prereq: 3040 (341), and enrollment in ECE major; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 747.			
<b>5050</b>	<b>Humanitarian Engineering</b>	<b>U G</b>	<b>3</b>
Poverty and underdevelopment. Goal of social justice. Development strategies. Engineering for the poor, weak, and developing communities. Humanitarianism in the university and engineering enterprise. Prereq: 1182 or 1282; or Grad standing; or permission of instructor. Not open to students with credit for Engr 5050.			
<b>5070</b>	<b>Neuroengineering and Neuroprosthetics</b>	<b>U G</b>	<b>3</b>
An overview of the broad field of Neuroengineering for graduate and senior undergraduate students with engineering or neuroscience backgrounds. Focusing on neural interfaces and prostheses, this course covers from basic neurophysiology and computational neuronal models to advanced neural interfaces and prostheses currently being actively developed in the field. Prereq: 3050 or BiomedE 3703 or Neurosc 3010, or Grad standing in Engineering or Neurosc. Not open to students with credit for 5194.03 or Neurosc 5070. Cross-listed in Neurosc.			
<b>5078</b>	<b>Empowering the Entrepreneurial Electrical and Computer Engineer</b>	<b>U G</b>	<b>3</b>
This course will teach entrepreneurial minded engineers the process of value creation from their ECE relevant technology or inventions. Topics covered will include self-assessment as an entrepreneur and innovator, analysis and validation of new venture opportunities, intellectual property creation and assessment new venture planning and project management, leadership and team building. Prereq: 3010, 3020, 3030, 3040, or 3050; or Grad standing in Engr. Not open to students with credit for 5194.13.			
<b>5101</b>	<b>Introduction to Wireless Networking</b>	<b>U G</b>	<b>3</b>
Fundamental concepts in cellular design, Wireless-LANs, MANETs, and sensor networks will be explored. Specific topics will include propagation, fading, cellular-design, power-management, routing, scheduling, and control. Prereq or concur: 3561 (561) or CSE 3461 (677), or Grad standing in Engineering or Math and Physical Sciences. Not open to students with credit for CSE 5463. Cross-listed in CSE 5463.			
<b>5120</b>	<b>Introduction to Integrated Circuits Test and Measurement</b>	<b>U G</b>	<b>3</b>
Parametric testing techniques for analog, digital, mixed and RF ICs, DSP-based testing; noise effects on accuracy; Design-for-Test and Built-in-Self Tests. Prereq: 3020, or 323 and 351, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 625, 694 (Spring 2009), or 694.04.			
<b>5127</b>	<b>Power Electronics Lab</b>	<b>U G</b>	<b>1</b>
Laboratory introducing basic circuits of power electronics, and simulation and control hardware and software for various power and energy applications. Prereq: 3040 (341) and enrollment in ECE major, or Grad standing in Engineering. Not open to students with credit for 628 or 647.			
<b>5131</b>	<b>Lasers</b>	<b>U G</b>	<b>3</b>
Atomic interaction with radiation, cavities with gain, Gaussian beams, light-emitting diodes, and semiconductor lasers. Prereq: 3010 and 3030, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.			

## 172 Electrical and Computer Engineering

**5132 Photonics** U G 3

Fiber optics, optical systems and devices, optical detection, photonic band gaps, holography, and optical data storage.  
Prereq: 3010, 3010.01, or 3010.02, and 3030 or 3030.01; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 5132.01.

**5200 Introduction to Digital Signal Processing** U G 3

Sampling and reconstruction; discrete-time rate conversion; processing of discrete-time signals; design of discrete-time filters, selected topics in adaptive and/or multidimensional signal processing.  
Prereq: 3050, and Stat 3470 or Math 4530; or Grad standing.

**5206 Medical Imaging and Processing** U G 3

Introduction to medical imaging techniques (CT, MRI, PET, ultrasound), including data collection, image reconstruction, physics of tissue interactions, and digital processing of medical images.  
Prereq: 3050 (352). Prereq or concur: 3090 or 582, or Grad standing in ECE, BiomedE, or Biophys. Not open to students with credit for 706.

**5207 Real-Time Digital Signal Processing Laboratory** U G ½

Real-time signal processing of acoustic signals and video images; finite impulse response filters; adaptive filtering; array processing; fast Fourier transform.  
Prereq or concur: 5200, and enrollment in ECE major or Grad standing in ECE. Not open to students with credit for 4207 or 609.

**5227 Fundamentals of Power Management Integrated Circuits for VLSI Systems** U G 4

Theory, design and applications of integrated power management integrated circuits in VLSI systems. This includes: system and circuit architectures, performance metrics, practical implementations, design considerations in VLSI systems in advanced CMOS processes, and design techniques for integrated power regulators and battery chargers. Background in basic analog design is strongly recommended.  
Prereq: 4021, or Grad standing in Engineering or Physics.

**5237 Photovoltaics Laboratory** U G 4

Introduction to laboratory techniques for processing and fabrication of inorganic and organic solar cells, and photovoltaic testing and measurement techniques to characterize solar cells.  
Prereq: 3030 or MatScEn 3271, and enrollment in ECE or MatScEn major; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Cross-listed in MatScEn.

**5244 Si and Wide Band Gap Power Devices** U G 3

Basic design and operation of Si and Wide Band Gap (WBG: SiC, GaN and ultra wide band gap semiconductors) power devices and the applications of commercial devices in power electronics applications. Trade-offs between various devices. Static and dynamic operation. Comparison of Si and SiC devices and design differences.  
Prereq: 3030, or Grad standing in Engr or Physics. Not open to students with credit for 5194.07 or 5234.

**5307 Introduction to Machine Learning for ECE** U G 4

Introduction to Machine Learning. Coverage includes linear regression, linear classification, model and feature selection, neural networks, clustering, and principle components analysis. Python will be used for implementation examples.  
Prereq: CSE 1222 or Engr 1281.xx, and Math 2568 and Stat 3470, and enrollment in ECE major; or Grad standing. Not open to students with credit for 4194.02 (Sp19, Machine Learning), 4300, 5300, or MechEng 5194 (Au19, Applied ML for MAE).

**5362 Computer Architecture and Design** U G 3

Design of general purpose digital computers including arithmetic and control units, input/output, and memory subsystems.  
Prereq: 2560 and 3561, and undergraduate enrollment in ECE, CSE, or EngPhysics major; or Grad standing in Engineering. Not open to students with credit for CSE 3421.

**5400 Instrumentation, Signals, and Control in Transportation Applications** U G 3

Interdisciplinary course bringing together electrical engineering tools and transportation applications. Students gain valuable experience working in teams while learning traffic flow, surveillance and control.  
Prereq: 2020 and 2050, and Math 2415; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for CivilEn 4750 or 6750. Cross-listed in CivilEn 5750.

**5460 Image Processing** U G 3

Fundamentals and research directions in image processing: cameras, geometry, calibration, 2D and 3D image reconstruction, stereo, structure from motion, Radiometry, filtering, motion estimation, and applications.  
Prereq: 5200 (600), and Stat 3470 (427) or Math 530; or Grad standing in Engineering, Biological Sciences, Statistics, Bioinformatics, or Math and Physical Sciences. Not open to students with credit for 707.

**5462 HDL Design and Verification** U G 3

The detailed design and verification of major components of a computer architecture using a standard hardware description language (HDL).  
Prereq: 5362, or 561 and 662, or CSE 675.01 or equiv, or Grad standing in Engineering. Not open to students with credit for 762 or 764.

**5463 Introduction to Real Time Robotics Systems** U G 3

Components of a robot system, robot forward and reverse kinematics; robot dynamics; robot force generation, robot trajectory generation.  
Prereq: Math 2177 or 2174, or 2415 and 2568; and Physics 1250, 1250H, 1260, or 2300; and CSE 1221, 1222, Engr 1181, 1281.01H, 1281.02H, 1221, or 1222; or Grad standing in Engr; or permission of instructor. Not open to students with credit for MechEng 5463 or 7752. Cross-listed in MechEng.

**5465 Advanced Microcomputers** U G 3

An investigation of current microcomputer structures with emphasis on hardware implementation of I/O, direct memory access, interrupts, memory, and microprogramming.  
Prereq: 5362, or 662 and 694A, or Grad standing in Engineering. Not open to students with credit for 765.

**5466 Embedded Computer Systems** U G 3

This course introduces the design principles, analysis methods and case studies of microprocessor-based and time-critical embedded systems, such as sensor and actuator networks, multimedia devices, mobile phones, and avionics. Topics include real-time operating systems, processor scheduling, performance control, resource management, power-aware design, energy optimization, etc.  
Prereq: 5362, or Grad standing in Engr. Not open to students with credit for 8194.03.

**5510 Introduction to Computational Electromagnetics** U G 3

Numerical methods for solving maxwell equations both static and electrodynamics, introduction to finite difference, finite element and integral equation methods, and applied linear algebra.  
Prereq: 3010; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 715 or 813.

**5530 Fundamentals of Semiconductors for Microelectronics and Photonics** U G 3

Crystal structure, semiconductor energy band structure, electron transport and carrier recombination, heterostructures, and optical and dielectric properties.  
Prereq: 3030 (432), or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 730.

**5550 Computational Humanitarianism** U G 3

Computational models of individual and group poverty and underdevelopment; computational social justice; assessing social impact of technology; sensitivity analysis for technology prioritization and design; feedback control for computer automation of helping to meet social justice objectives; social agreement, choice, and allocation.  
Prereq: Jr, Sr or Grad standing in College of Engineering; or permission of instructor. Not open to students with credit for 5194.06.

**5551 State-Space Control Systems** U G 3

Discrete-time state variable representations; pole placement via state-feedback; introduction to realization theory; observer design; introduction to Kalman filtering; linear quadratic regulator theory.  
Prereq: 3050 and Stat 3470; or Grad standing.

**5553 Autonomy in Vehicles** U G 3

Autonomy in the context of modern vehicles; cruise control, anti-lock brake systems (ABS), steering control/lane keeping; introduction to automated highway systems (AHS).  
Prereq: 3551, 5551, or 551, or Grad standing in Engineering. Not open to students with credit for 753.02.

**5554 Powertrain Control Systems** U G 3

Application of digital control system theory, from viewpoints of input-output and state variable representations, to realistic problems in automotive powertrain systems.  
Prereq: 3551 or 5551, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences.

**5555 Securing Autonomous Systems** U G 3

The course covers different security measures for safeguarding against cyberattacks, detecting cyberattacks, and mitigating the effects of cyberattacks on autonomous control systems.  
Prereq: 3050; or Grad standing in Engineering, Math, or Statistics.

**5560 Advanced Hardware Architecture Design Techniques** U G 3

This course introduces highly-practical methodologies and techniques that can be broadly used to improve the efficiency and achieve speed-area-power tradeoffs in the design of application-specific hardware implementation architectures for various algorithms. Efficient implementation architectures of commonly used arithmetic and digital signal processing functional blocks will also be discussed.  
Prereq: 2050, and prereq or concur: 3561 or 3050; or Grad standing in Engr; or permission of instructor. Not open to students with credit for 5194.08.

**5561 Introduction to Cybersecurity** U G 3

Introduction to cybersecurity. Technical fundamentals of data, software, component, network, and system security. Cybersecurity from an organizational and societal view point, including human factors.  
Prereq: Jr, Sr, or Grad standing, or permission of instructor. Not open to students with credit for CSE 5471. Cross-listed in CSE 5471.

## Electrical and Computer Engineering 173

<b>5567.01</b>	<b>Offensive Security</b>	<b>U G</b>	<b>3</b>
This course will give students an overview of existing offensive computing techniques, which include well known attacks that break confidentiality, integrity and availability of computing resources. Attacks targeting on human weaknesses without taking special care to security will also be discussed. Prereq: CSE 2431, 5431, or Grad standing. Not open to students with credit for CSE 5477.01. Cross-listed in CSE 5477.01.			
<b>5567.02</b>	<b>Reverse Engineering and Software Security</b>	<b>U G</b>	<b>3</b>
This course will give students an overview of cutting edge reverse engineering techniques as well as software security and defense practices. Programming experience in C required. Prereq: CSE 1222, or permission of instructor. Prereq or concur: ECE 5561. Not open to students with credit for CSE 5547.02. Cross-listed in CSE 5547.02.			
<b>5570</b>	<b>Antiracist Technology</b>	<b>U G</b>	<b>4</b>
Discrimination against racial and ethnic minorities is prevalent, systemic, and global. Racism and racial justice principles are outlined. Case studies on racist technologies, those that promote or sustain racism, are studied. Engineering design methodology is used to modify or create several new technologies that help the antiracist oppose racism. Prereq: Engr 1182, 1282, Grad standing in Engr, or permission of instructor.			
<b>5759</b>	<b>Optimization for Static and Dynamic Systems</b>	<b>U G</b>	<b>3</b>
Numerical optimization techniques as applied to selected electrical engineering application areas. Prereq: 3050, or Grad standing in Engineering or Math and Physical Sciences.			
<b>5832</b>	<b>Photovoltaics and Energy Conversion</b>	<b>U G</b>	<b>3</b>
Photovoltaic materials and devices; solar cell device physics; solar cell simulation, design and operation; silicon cell technologies; thin film technologies; III-V technologies; nanostructures; terrestrial and space applications. Prereq: 3030, or Grad standing in Engr or Physics.			
<b>5833</b>	<b>Organic and Printed Flexible Electronics</b>	<b>U G</b>	<b>3</b>
Conducting organic small molecules and polymers (structural, optical and electrical properties); printable metal-oxide semiconductors; Printing techniques, organic light emitting diodes; transport and carrier injection; organic transistors; organic lasers. Prereq: 3030, or permission of instructor for non-ECE majors; or Grad standing in engineering, biological sciences, or math and physical sciences. Not open to students with credit for 7833 or 5194.04.			
<b>6001</b>	<b>Probability and Random Variables</b>	<b>G</b>	<b>3</b>
Probability, random variables, and random vectors for analysis and research in electrical engineering. Distribution functions, characteristic functions, functions of random variables and vectors, Markov chains. Prereq: Grad standing. Not open to students with credit for 804 or 805.			
<b>6010</b>	<b>Electromagnetic Field Theory I</b>	<b>G</b>	<b>3</b>
Maxwell's Equations; plane waves; field representations and solutions in unbounded space; waveguides and cavities; elements of Green's Functions; cylindrical and spherical waves; electromagnetic theorems. Prereq: 5010 (713), and 5011 or 613; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 719, 810, or 811.			
<b>6011</b>	<b>Bioelectromagnetics</b>	<b>G</b>	<b>3</b>
This course provides an introduction to the interdisciplinary field of bioelectromagnetics for graduate students. Lectures cover the interaction of electromagnetic fields with biological tissues across the frequency spectrum; bioelectromagnetic dosimetry; and various applications of bioelectromagnetics (medical, consumer, and more). Prereq: Grad standing in Engineering, Biological Sciences, Mathematical and Physical Sciences; or permission of instructor.			
<b>6030</b>	<b>Micro-Electro-Mechanical Systems (MEMS) Design</b>	<b>G</b>	<b>3</b>
The field of micro-electro-mechanical systems (MEMS) is an interdisciplinary area that includes design and fabrication of sensors and actuators (transducers) that are capable of micron-size mechanical movements. Lectures cover a wide range of topics in design & fabrication. Projects include FE simulation of an inertial, optical, RF, or power MEMS devices as an integral part of this course. Prereq: Grad standing in Engineering or Physics, or permission of instructor.			
<b>6070</b>	<b>Project Management in Electrical and Computer Engineering</b>	<b>G</b>	<b>3</b>
Students learn project management principles and apply them to Electrical and Computer Engineering real-world projects. Prereq: Grad standing in ECE. Not open to students with credit for 6194.02.			
<b>6101</b>	<b>Computer Communication Networks</b>	<b>G</b>	<b>3</b>
Foundational understanding of network analysis, error-control, routing, congestion-control, multi-access, and their examples in the context of the existing communication networks. A previous course in statistics is recommended for students taking this course. Prereq: Grad standing in Engr. Not open to students with credit for CSE 6461. Cross-listed in CSE 6461.			
<b>6102</b>	<b>Wireless Networks</b>	<b>G</b>	<b>3</b>
Design principles and communication algorithms for wireless networks with a focus on MAC and routing protocols, scheduling algorithms, power control, and scaling properties.			

<b>6193</b>	<b>Individual Studies in Electrical and Computer Engineering</b>	<b>G</b>	<b>0 - 12</b>
Individual studies project. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>6202</b>	<b>Stochastic Signal Processing</b>	<b>G</b>	<b>3</b>
Spectrum estimation, array processing, and adaptive filtering. Prereq: Not open to students with credit for 800 or 801.01.			
<b>6244</b>	<b>Design and Process Integration for Wide Band Gap Power Devices</b>	<b>G</b>	<b>3</b>
Design and processing of wide band gap power devices (including SiC, GaN and ultra wide band gap semiconductors) and reliability considerations. 2D device simulations, layout considerations for power chip from 600 V to 15 kV. Prereq: Grad standing in Engineering or Physics. Not open to students with credit for 6234.			
<b>6511</b>	<b>Nonlinear Optics</b>	<b>G</b>	<b>3</b>
Nonlinear optics for the generation, propagation, amplification, and control of laser light; all-optical switching and solitons; modern applications in high speed lightwave devices and systems. Prereq: 5012, or Grad standing.			
<b>6531</b>	<b>Fundamentals of Semiconductor Devices</b>	<b>G</b>	<b>3</b>
An overview of the physics, design, and engineering of semiconductor electronic and optoelectronic devices. Applications of silicon, compound semiconductor, and nanotechnology will be covered. Prereq: 5530 (730), or permission of instructor. Not open to students with credit for 5531.			
<b>6532</b>	<b>Nanofabrication and Nanoscale Devices</b>	<b>G</b>	<b>3</b>
Fundamentals of nanostructures and devices; engineering and physics of new devices, confined structures in low dimensions and their effects on traditional devices; nanofabrication and nanomanufacturing. Prereq: 6531, 5531, or 730, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 5532 (835.03).			
<b>6533</b>	<b>Infrared Detectors and Systems</b>	<b>G</b>	<b>3</b>
This course covers the basics of infrared photodetectors and systems. It will include basic geometrical optics, radiometry, figures of merit and types of infrared detectors. Prereq: 5530, or permission of instructor. Not open to students with credit for 5194.10.			
<b>6535</b>	<b>Semiconductor Optoelectronic Devices</b>	<b>G</b>	<b>3</b>
This course will cover the basics and physics of semiconductor optoelectronic devices including light-emitting diodes, semiconductor lasers, photodetectors, and solar cells. Prereq: Grad standing in Engineering or Physics.			
<b>6541</b>	<b>Advanced Topics in Sustainable Energy and Power Systems</b>	<b>G</b>	<b>3</b>
Advanced topics in sustainable energy and power systems; basic issues and solutions to sustainable energy; the concept of smart grid; cyber control and security. Prereq: 5025 (624) or 724. Not open to students with credit for 5541.			
<b>6750</b>	<b>Linear Systems Theory</b>	<b>G</b>	<b>3</b>
In-depth treatment of linear dynamical systems. State equations solution. Controllability and observability. Canonical forms. Internal and external stability. Linear feedback and observer design. Geometric theory. Prereq: Not open to students with credit for 5750 (750).			
<b>6754</b>	<b>Nonlinear Systems Theory</b>	<b>G</b>	<b>3</b>
Provides fundamental mathematical tools for the analysis of nonlinear dynamical systems. Basic techniques for the synthesis of nonlinear control systems are introduced. Prereq: Not open to students with credit for 5754.			
<b>6999</b>	<b>Research for Thesis</b>	<b>G</b>	<b>½ - 15</b>
Research for thesis. Repeatable to a maximum of 15 cr hrs or 30 completions. This course is graded S/U.			
<b>7001</b>	<b>Stochastic Processes, Detection, and Estimation</b>	<b>G</b>	<b>3</b>
Stochastic processes; detection and decision theory; hypothesis testing, parameter estimation; and applications to communications and signal processing. Prereq: 6001 (804). Not open to students with credit for 806.			
<b>7003</b>	<b>Wireless Communication Theory</b>	<b>G</b>	<b>3</b>
Theory and analysis of wireless communication systems. Topics include: multipath fading channels; modulation, equalization, and coding for fading channels; MIMO systems; capacity calculations. Prereq: 6001 (804). Not open to students with credit for 807 or 809.			
<b>7005</b>	<b>Information Theory</b>	<b>G</b>	<b>3</b>
Mathematical models for channels and sources: entropy, information, data compression, channel capacity, Shannon's theorems, rate distortion theory. Prereq: 6001 (804). Not open to students with credit for 801.02.			
<b>7010</b>	<b>Electromagnetic Field Theory II</b>	<b>G</b>	<b>3</b>
Green's functions with applications; spectral representation of sources; sources in layered media and Sommerfeld integrals; time-domain fields, retarded potentials, and transients; periodic structures; integral equations. Prereq: 6010 (719). Not open to students with credit for 810 or 811.			

## 174 Electrical and Computer Engineering

**7011 Computational Electromagnetics** G 3

Advanced topics in numerical methods for solving Maxwell equations, including finite element methods, integral equation methods, and their hybridization.  
Prereq: 5510 (715) or 6010. Not open to students with credit for 813 or 814.

**7020 Advanced Data Converters and Phase-Locked Loops** G 3

A comprehensive overview of the most recent system architectures of data converters and phase-locked loops. Provides a good understanding how performance specifications and process technology limitations lead to implementation decisions. The presented principles are illustrated by examples and real life case studies.  
Prereq: 5021 or 5023, or permission of instructor.

**7022 Advanced RF Integrated Circuits** G 3

Advanced topics on RF and mm-wave circuits. Frequency synthesizers, transmitter linearization techniques (e.g. polar circuits), MIMO and phase array circuits, power D/As.  
Prereq: 5022 (620), or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 694K or 694.02.

**7023 High Speed Interface Circuits and Systems Design** G 3

Analysis and design of link architectures and circuits for wireline communication systems. Emphasis on design intuition, link budgeting and power/performance trade-offs in implementation of data links in advanced CMOS process. Topics include channel characterization, noise analysis, equalization, transmitter and receiver circuits, signaling schemes, clocking, synchronization and timing recovery.  
Prereq or concur: 5020 and 5021, or permission of instructor.

**7027 Advanced Topics in Analog VLSI Design** G 4

Advanced topics in analog VLSI design, such as integrated data converters, or power management integrated circuits, or high-performance analog circuits. This includes: system and circuit architectures, performance metrics, practical implementations, design considerations in advanced semiconductor processes, chip design projects, and lab characterization.  
Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs.

**7032 Physical Electronics of Advanced Semiconductor Devices** G 3

MOSCAPs, Gated Diode, CMOS Bulk/SOI Transistors, Photodiodes, Carrier Transport/Storage, Scaling, Mobility, CCDs, CMOS, EEPROMs, SiGe, SiC, ISFETs, BJTs, Noise and Modeling.  
Prereq: 5530 (730) or 6531. Not open to students with credit for 894 (Sp12, Advanced Semiconductor Devices) or 8194.04.

**7080 Ethics and Professionalism** G 1

Professionalism standards, ethical dilemmas, codes of ethics, moral frameworks and social justice, engineering as social experimentation, safety and risk, workplace rights and responsibilities, professional communications, research integrity, environmental ethics, global issues. Case study based approach.  
Prereq: Grad standing in ECE. This course is graded S/U.

**7100 Network Optimization and Algorithms** G 3

Convex optimization, probabilistic, and algorithmic methods for the design and analysis of efficient and practical algorithms for complex and stochastic communication networks.  
Prereq: Grad standing. Not open to students with credit for 894R.

**7103 Discrete Stochastic Processes** G 3

Stochastic processes in discrete time or space for electrical engineering. Renewal theory, Markov chains and processes, dynamic programming, basic large deviations theory and martingales.  
Prereq: 6001 (804). Not open to students with credit for 894Q or 894.01.

**7200 Signal Processing** G 3

Multi-rate signal processing, filter banks, perfect reconstruction, time-frequency analysis, and wavelets and applications.  
Prereq: Not open to students with credit for 700.

**7202 Reinforcement Learning** G 3

Fundamentals of Markov decision processes and reinforcement learning algorithms.  
Prereq: Grad standing in Engineering or Math. Not open to students with credit for ISE 7202. Cross-listed in ISE.

**7402 Advanced Machine Learning for Remote Sensing Image Interpretation** G 3

Introduces basic high-resolution remote sensing concepts with focus on optical remote sensing, and computational solutions for typical remote sensing problems. Students are assumed to know basic knowledge in statistical estimation, linear algebra and numerical methods for engineering. Students with prior experiences on remote sensing/machine learning/computer vision will find this easier to follow.  
Prereq: Grad standing, or permission of instructor. Not open to students with credit for CivilEn 7421. Cross-listed in CivilEn 7421.

**7531 Epitaxial Heterostructures** G 2

Science and techniques behind thin film growth and engineering for combining different materials, altering chemical composition at the nanometer scale, while controlling defects and strain. Epitaxial crystal growth will be explained. Students will gain an understanding of the kinetics, thermodynamics, and technology involved in epitaxial heterostructures and self-assembled nanostructures.  
Prereq: Grad standing. Not open to students with credit for MSE 7531. Cross-listed in MSE.

**7811 Electromagnetic Interference and Compatibility** G 3

Electromagnetic interference and compatibility, signal integrity in ICs, conducted emissions and electromagnetic radiation susceptibility, and crosstalk and shielding.  
Prereq: 6010 (719). Not open to students with credit for 614.

**7813 Advanced Antenna Theory and Design** G 3

Topics in Advanced Antenna Theory and Design.  
Prereq: 5011 or 613, or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Not open to students with credit for 815.

**7814 Microwave Remote Sensing** G 3

Description of microwave remote sensing systems. Theories of scattering from random media and rough surfaces.  
Prereq: 6010.

**7821 Mixed Signal Verification and CAD Tools** G 3

Principles of combining analog, RF, and digital design, simulation, and verification strategies using modern CAD tools.  
Prereq: 5020, 622, or 720. Not open to students with credit for 894Z or 822.

**7822 Advanced Nonlinear Microwave Circuit Engineering** G 3

Large-signal characterization and modeling of nonlinear RF circuits; power amplifiers; oscillators; modulators; wideband linearization, power efficient design.  
Prereq: 5027 or 723. Not open to students with credit for 694K or 694.02.

**7831 Microwave Semiconductor Devices** G 3

Principles of microwave semiconductor devices; scattering and high-field transport; Gunn effect; FET wave equation, HEMT; HBT; large signal RF modeling and measurements; noise; traps; self-heating.  
Prereq: Grad standing in Engr or Physics.

**7841 Advanced Topics in Power Electronics** G 3

Advanced topics of power electronics, beginning with utility and vehicle applications and evolving into advanced circuit topologies and control.  
Prereq: 5025 (624). Not open to students with credit for 844.

**7842 Advanced Topics in Electric Machines** G 3

Advanced topics of electric machines, beginning with dynamic modeling and principles of vector control and evolving into new design and control of electric machines for advanced traction motors and renewable energy generator systems.  
Prereq: 5541 (643) and 5551 (650). Not open to students with credit for 743, 744, or 845.

**7843 Advanced Topics in Power Systems** G 3

Advanced topics of power system protection, beginning with equipment protection and evolving into system wide protection design and operation to accommodate smart-grid technologies.  
Prereq: 5042 or 740. Not open to students with credit for 741.

**7850 Hybrid Dynamical Systems: Theory and Applications** G 3

Introduction to hybrid systems (continuous dynamics coupled with discrete logic rules). Topics include stability analysis, optimal control, model predictive control, reachability, and state estimation of hybrid systems. Emphasis will be placed on applying existing hybrid systems theories to a wide range of applications in networked control systems, smart grid, power electronics, and robotics.  
Prereq: 6750 or 5750 (750).

**7854 Nonlinear and Adaptive Control** G 3

Advanced analysis of uncertain nonlinear systems. Design methodologies for complex interconnected nonlinear systems. Applications of nonlinear and adaptive control design to aerospace and robotic systems.  
Prereq: 6754 (5754 or 754) and 6750 (5750 or 750). Not open to students with credit for 857.

**7858 Intelligent Control** G 3

Fuzzy control, neural control, genetic algorithms, learning control, and distributed intelligent control.  
Prereq: 5551 (551) or equiv. Not open to students with credit for 858.

**7859 Sliding Mode Control in Electromechanical Systems** G 3

Sliding modes an efficient tool to control high order dynamic plants operating under uncertainty conditions.  
Prereq: 5750 (750) or MechEng 5372. Not open to students with credit for 859 or MechEng 7259 or 859. Cross-listed in MechEng 7259.

**7864 Advanced Computer Design** G 3

Parallel computer architectures, pipeline design, multiprocessor design, interprocessor communication, multi-core architectures, case studies and application examples.  
Prereq: 5362 (662) or Grad standing. Not open to students with credit for 864.

**7866 Computer Vision** G 3

Computer vision systems, image models, feature extraction, shape representation and recognition, object modeling and recognition, matching, probabilistic and statistical modeling, semantic knowledge, and face perception.  
Prereq: 5460 (707). Not open to students with credit for 863.

**7868 Pattern Recognition and Machine Learning** G 3

Fundamentals of pattern recognition techniques and their application to computer and electrical engineering problems, medicine, cognitive science, and bioinformatics.  
Prereq: 6001 (804). Not open to students with credit for both 779 and 874.

## Electrical and Computer Engineering 175

<b>8001</b>	<b>Advanced Topics in Communications</b>	<b>G</b>	<b>3</b>
Current topics in information theory and the practice of digital communications. Prereq: 7001 (806). Repeatable to a maximum of 6 cr hrs.			
<b>8019</b>	<b>Advanced Topics in Electromagnetics and Optics</b>	<b>G</b>	<b>3</b>
Topics are chosen to prepare graduate students for research and application in current problems in electromagnetics and optics. Prereq: 6010 (719). Repeatable to a maximum of 9 cr hrs.			
<b>8101</b>	<b>Advanced Topics in Networking</b>	<b>G</b>	<b>3</b>
Advanced topics and new areas of interest in the theory of networking and networked systems. Prereq: 6001 (804). Repeatable to a maximum of 6 cr hrs.			
<b>8193</b>	<b>Individual Studies in Electrical and Computer Engineering</b>	<b>G</b>	<b>0 - 12</b>
Individual studies project. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>8201</b>	<b>Advanced Topics in Signal Processing</b>	<b>G</b>	<b>3</b>
Current topics in the theory and practice of signal processing. Prereq: 7001 (806). Repeatable to a maximum of 6 cr hrs.			
<b>8250</b>	<b>Continuous Time Optimal Control</b>	<b>G</b>	<b>3</b>
Embraces the three historical trends in dynamic optimization: Calculus of Variations, Pontryagin's Minimum Principle, and Bellman's Principle of Optimality. Not only mathematical aspects of the three principles will be taught, but also their strengths and weaknesses - it is often less important to know how to apply a given principle than to know when. Prereq: 5551 or MechEng 5372, or permission of instructor. Not open to students with credit for MechEng 8220. Cross-listed in MechEng 8220.			
<b>8851</b>	<b>Advanced Topics in Control Theory</b>	<b>G</b>	<b>3</b>
Current topics in control theory, optimization, and decision theory. Prereq: Permission of instructor.			
<b>8862</b>	<b>Special Topics in Advanced Computer Design Methodologies</b>	<b>G</b>	<b>3</b>
Design automation, computer aided design, testing, and design for energy efficiency. Prereq: Grad standing in Engineering. Repeatable to a maximum of 9 cr hrs.			
<b>8891</b>	<b>Seminar in Electrical and Computer Engineering</b>	<b>G</b>	<b>½ - 2</b>
Seminar in Electrical and Computer Engineering. Prereq: Grad standing in ECE. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U.			
<b>8898</b>	<b>Open Graduate Seminar</b>	<b>G</b>	<b>½ - 3</b>
Introduction to potential research areas. Students will attend OSU sponsored talks relevant to topics in Electrical Engineering and critique them through written reports. Prereq: Grad standing in ECE. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
<b>8999</b>	<b>Research for Dissertation</b>	<b>G</b>	<b>½ - 15</b>
Research for dissertation. Repeatable to a maximum of 30 completions. This course is graded S/U.			

### Engineering

<b>1100.01</b>	<b>Introduction to Ohio State and Mechanical and Aerospace Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: strategies for successful transition, academic requirements, university procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in College of Engineering. Not open to students with credit for FAES 1100, ArtsSci 1100, HumanEc 1100, or Exp 1100.			
<b>1100.02</b>	<b>Introduction to Ohio State and Aviation</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.03</b>	<b>Introduction to Ohio State and Biomedical Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.05</b>	<b>Introduction to Ohio State and Civil and Environmental Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			

<b>1100.06</b>	<b>Introduction to Ohio State and Computer Science and Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.07</b>	<b>Introduction to Ohio State and Electrical and Computer Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.08</b>	<b>Introduction to Ohio State and Engineering Physics</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.10</b>	<b>Introduction to Ohio State and Food, Agricultural, and Biological Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.11</b>	<b>Introduction to Ohio State and Industrial and Systems Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.12</b>	<b>Introduction to Ohio State and Materials Science and Welding Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for ArtsCol 1100, ArtsSci 1100, Exp 1100, FAES 1100, or HumanEc 1100.			
<b>1100.13</b>	<b>Introduction to Ohio State and Mechanical Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1100.15</b>	<b>Introduction to Ohio State and Engineering</b>	<b>U</b>	<b>1</b>
Introduction to the University community and College of Engineering: Strategies for successful transition, academic requirements, University procedures, grading system, resources, overview of engineering academic areas of study and services. Prereq: Enrollment in the College of Engineering. Not open to students with credit for FAES 1100, ArtsCol 1100, ArtsSci 1100, HumanEc 1100, and Exp 1100.			
<b>1110.01</b>	<b>Introduction to Ohio State and Aeronautical and Astronautical Engineering I</b>	<b>U</b>	<b>½</b>
Introduction to the University community and College of Engineering: Strategies for successful transition; Academic requirements; University procedures; Grading system; Resources; Overview of engineering academic areas of study and services. Prereq: Enrollment in Engineering. Not open to students with credit for Engr 1100 (Engineer 100), FABEng 1100 (100), ENR 1100 (100), or USAS 1100 (100).			
<b>1110.02</b>	<b>Introduction to Ohio State and Aviation I</b>	<b>U</b>	<b>½</b>
Introduction to the University community and College of Engineering; Strategies for successful transition; Academic requirements; University procedures; Grading system; Resources; Overview of engineering academic areas of study and services. Prereq: Enrollment in Engineering. Not open to students with credit for Engr 1100 (Engineer 100), FABEng 1100 (100), ENR 1100 (100), or USAS 1100 (100).			
<b>1110.03</b>	<b>Introduction to Ohio State and Biomedical Engineering I</b>	<b>U</b>	<b>½</b>
Introduction to the University community and College of Engineering; Strategies for successful transition; Academic requirements; University procedures; Grading system; Resources; Overview of engineering academic areas of study and services. Prereq: Enrollment in Engineering. Not open to students with credit for Engr 1100 (Engineer 100), FABEng 1100 (100), ENR 1100 (100), or USAS 1100 (100).			

**1120.13 Introduction to Ohio State and Mechanical Engineering II** U ½

Assessment of major / academic interests, advanced study skills, campus activities, program enrichment opportunities, engineering services, internships, and development of a personalized four-year curricular plan in an engineering major.  
Prereq or concur: Engr 1110.XX. Not open to students with credit for Engr 1100 (Engineer 100), FABEng 1100 (100), ENR 1100 (100), and USAS 1100 (100).

**1120.14 Introduction to Ohio State and Welding Engineering II** U ½

Assessment of major / academic interests, advanced study skills, campus activities, program enrichment opportunities, engineering services, internships, and development of a personalized four-year curricular plan in an engineering major.  
Prereq or concur: Engr 1110.XX. Not open to students with credit for Engr 1100 (Engineer 100), FABEng 1100 (100), ENR 1100 (100), and USAS 1100 (100).

**1121 Graphic Presentation** U 2

Presentation of three-dimensional subjects by precise graphics: orthographic, sectional, pictorial, and introduction to computer graphics.  
Prereq: Not open to students with credit for EnGraph 121.

**1138 Fundamentals of Mathematics for Engineers** U 4

This application-oriented, hands-on, introduction to engineering mathematics course will provide an overview of the salient math topics most heavily used in beginning engineering courses. All math topics will be presented within the context of an engineering application, and reinforced through extensive examples of their use in the core engineering courses.  
Prereq: Math Placement Level N. Not open to students with credit for Math 1151. Cross-listed in Math.

**1180 Spatial Visualization Practice and Development** U 1

Provide instruction and exercises to develop spatial visualization skills in preparation for Fundamentals of Engineering and advanced coursework.

**1181.01 Fundamentals of Engineering I** U 2

Engineering problem solving utilizing computational tools such as Excel and Matlab; hands-on experimentation; modeling; ethics; teamwork; written, oral and visual communications.  
Prereq or concur: Math 1140 or 1141; or Math 1150 or above. Not open to students with credit for Engineer 183.01, 183.02, Engr 1182.01, 1182.02, 1182.03, 1282.01, 1282.02, 1282.03, 1282.04, 1186.01, 1187, or 1188.

**1181.02 Fundamentals of Engineering I - Scholars** U 2

Engineering problem solving utilizing computational tools such as Excel and Matlab; hands-on experimentation; modeling; ethics; teamwork; written, oral and visual communications.  
Prereq or concur: Math 1140 or 1141; or Math 1150 or above; and Scholar status. Not open to students with credit for Engineer 183.01, 183.02, Engr 1182.01, 1182.02, 1182.03, 1186.01, 1187, or 1188.

**1182.01 Fundamentals of Engineering II** U 2

Introduction to 3D visualization and CAD; engineering design-build process; teamwork; written, oral and visual communications; project management.  
Prereq: 1181.01 or 1181.02 or 1281.01H or 1281.02H or 1281.03H. Prereq or Concur: Math 1141; or Math 1151 or above. Not open to students with credit for Engineer 181.01 or 181.02 or Engr 1186 or 1187 or 1188; not repeatable if credit earned for 1182.01 or 1182.02 or 1182.03 or 1282.01H or 1282.02H or 1282.03H or 1282.04H.

**1182.02 Fundamentals of Engineering II - Scholars** U 2

Introduction to 3D visualization and CAD; engineering design-build process; teamwork; written, oral and visual communications; project management.  
Prereq: 1181.01 or 1181.02 or 1281.01H or 1281.02H or 1281.03H, and Scholars status.  
Prereq or concur: Math 1151 or above. Not open to students with credit for Engineer 181.01 or 181.02 or Engr 1186 or 1187 or 1188; not repeatable if credit earned for 1182.01 or 1182.02 or 1182.03 or 1282.01H or 1282.02H or 1282.03H or 1282.04H.

**1182.03 Fundamentals of Engineering II - Nanotechnology** U 2

Introduction to 3D visualization and CAD; engineering design-build process; teamwork; written, oral and visual communications; project management.  
Prereq: 1181.01 or 1181.02 or 1281.01H or 1281.02H or 1281.03H. Concur: Math 1141; or Math 1151 or above. Not open to students with credit for Engineer 181.01 or 181.02 or Engr 1186 or 1187 or 1188; not repeatable if credit earned for 1182.01 or 1182.02 or 1182.03 or 1282.01H or 1282.02H or 1282.03H or 1282.04H.

**1182.04 Fundamentals of Engineering 2 - Engineering Technology** U 2

Introduction to 3D visualization and CAD; engineering design-build process; teamwork; written, oral and visual communications; project management. Regional campuses and Engineering Technology majors who are concurrently enrolled in EngrTec 2500 Manufacturing Processes II.

**1186.01 Fundamentals of Engineering for Transfer - CAD** U 1½

Introduction to 3D visualization and CAD; written, oral and visual communications.  
Prereq: Not open to students with credit for Engineer 186.

**1187 Fundamentals of Engineering for Transfer - MATLAB** U 1

Engineering problem solving utilizing computational tools such as Matlab.  
Prereq or concur: Math 1150 or above. Not open to students with credit for Engr 1221 or Engineer 187.

**1188 Fundamentals of Engineering for Transfer - Problem Solving and Design** U 1½

Introduction engineering problem solving and design through a hands-on design build project; teamwork; written, oral and visual communications; project management.  
Prereq: Engr 1186 and 1187, or 1187 and 1121. Concur: Math 1151 or above, or equiv. Not open to students with credit for Engineer 185.

**1194 Group Studies in Engineering** U 1 - 4

Special topics of general interest to engineering students.  
Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**1194H Group Studies in Engineering - Honors** U 1 - 4

Special topics of general interest to engineering honors students.  
Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**1195 Women in Engineering Seminar** U 1

Guest speakers share their knowledge and experience about the career options available in engineering; class discussions; activities for building professional awareness.  
Prereq: First-year Women in Engineering learning community students (Autumn semester only). Repeatable to a maximum of 5 cr hrs. This course is graded S/U.

**1195.02 Women in Engineering Second Year Seminar Course** U ½

This Seminar Course will provide 2nd year students in the Women in Engineering Learning Community (LC) with information and content relative to second year engineering students in terms of professional development, undergraduate engineering research opportunities, faculty and professional engineering interactions.  
Prereq: Soph or Jr standing, and enrollment in the College of Engineering. This course is graded S/U.

**1196 Minority Engineering Program Seminar** U 1

Course is designed to assist beginning engineering students in making a smooth and informed transition from high school to college. The goal is to aid each student in making a positive adjustment to his/her new environment while exploring and planning career opportunities in the broad field of engineering along with enhancing their personal growth and development. Repeatable to a maximum of 5 cr hrs. This course is graded S/U.

**1197.01 Green Engineering Scholars Seminar** U 1

Scholars Program academic and co-curricular requirements and expectations; University procedures relative to the Scholars experience; resources and opportunities related to Scholars program theme; students rights, responsibilities, and expectations; overview of relevant major and careers.  
Prereq: Enrollment in Green Engineering Scholars Program, or permission of instructor. Repeatable to a maximum of 2 ch hrs.

**1197.02 Humanitarian Engineering Scholars Seminar** U 1

Scholars Program academic and co-curricular requirements and expectations; University procedures relative to the Scholars experience; resources and opportunities related to Scholars program theme; students rights, responsibilities, and expectations; overview of relevant major and careers.  
Prereq: Enrolled in Humanitarian Engineering Scholars Program, or permission of instructor. Repeatable to a maximum of 2 ch hrs.

**1221 Introduction to Computer Programming in MATLAB for Engineers and Scientists** U 2

Introduction to computer programming and problem solving techniques with MATLAB applications in engineering and the physical sciences; algorithm development; programming lab experience.  
Prereq: Engr 1181.01 or 1181.02 or 1187 or 1281.01H or 1281.02H or 1281.03H. Not open to students with credit for Engineer 167 or CSE 205. This course is available for EM credit. Cross-listed in CSE.

**1259 Fundamentals of Academic Success for Engineering Students** U 3

Teaches time management and study skills to promote academic success. Students learn study skills and practice time management in relation to their engineering coursework.  
Prereq: Enrollment in the College of Engineering.

**1281.01H Fundamentals of Engineering for Honors I** U 5

Engineering problem solving utilizing computational tools such as Excel and MATLAB; algorithm development; introduction to C++ programming for engineering; hands-on experimentation; modeling; ethics; teamwork; written, oral and visual communications.  
Prereq: Honors standing, and enrollment in the College of Engineering; or permission of instructor. Prereq or concur: Math 1151, 1161.02, or 1181H. Not open to students with credit for 1181.01, 1181.02, Engineer 191.01H, 191.02H, or CSE/Engr 1222.

**1281.02H Fundamentals of Engineering for Honors I - Advanced Programming** U 5

Engineering problem solving utilizing computational tools such as Excel and MATLAB; algorithm development; introduction to C++ programming for engineering; hands-on experimentation; modeling; ethics; teamwork; written, oral and visual communications. This variant of the course is intended for students who are advanced in computer programming skills.  
Prereq: Honors standing, and enrollment in the College of Engineering; or permission of instructor. Prereq or concur: Math 1151, or 1161.02, or 1181H. Not open to students with credit for 1181.01, 1181.02, Engineer 191.01H, 191.02H, or CSE/Engr 1222.

## 178 Engineering

<b>1282.01H</b>	<b>Fundamentals of Engineering for Honors II - Robotics</b>	<b>U</b>	<b>3</b>
Introduction to 3D visualization and CAD; engineering design-build process; teamwork; written, oral and visual communications; project management. Standard course incorporating a robot design-build project. Prereq: Honors standing, and 1281.01H or 1281.02H or 1281.03H, and enrollment in the College of Engineering; or permission of instructor. Not open to students with credit for 1182.01, 1182.02, 1182.03, Engineer 193.01H, or 193.02H.			
<b>1282.02H</b>	<b>Fundamentals of Engineering for Honors II - Nanotechnology</b>	<b>U</b>	<b>3</b>
Introduction to 3D visualization and CAD; engineering design process; teamwork; written, oral and visual communications; project management. Alternative course with an emphasis on a nanotechnology research and development project. Prereq: Honors standing, and 1281.01H or 1281.02H or 1281.03H, and enrollment in the College of Engineering; or permission of instructor. Not open to students with credit for 1182.01, 1182.02, 1182.03, Engineer 193.01H, or 193.02H.			
<b>1282.04H</b>	<b>Fundamentals of Engineering for Honors 2 - Integrated Business &amp; Engineering</b>	<b>U</b>	<b>3</b>
Introduction to 3D visualization and CAD; engineering design process; teamwork; written, oral and visual communications; project management. An alternative to the standard 1282.01H course with an emphasis on a product design project within the Integrated Business and Engineering (IBE) Honors program. Prereq: Honors standing, and 1281.01H or 1281.02H or 1281.03H or permission of instructor, and enrollment in Integrated Business and Engineering (IBE) program. Not open to students with credit for 1182.01 or 1182.02 or 1182.03.			
<b>1510</b>	<b>Metacognitive Engineering Problem Solving Strategies</b>	<b>U</b>	<b>1</b>
The course teaches students the concept of metacognition and informs its application to problem solving in engineering courses. Student engage in guided problem solving practice that hones their thinking and helps them make informed decisions about mastering engineering course concepts. Concur: Math 1151, and permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.			
<b>2193</b>	<b>Individual Studies in Engineering</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering students not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies in Engineering</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering students. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
<b>2194H</b>	<b>Group Studies in Engineering</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering honors students not otherwise offered. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
<b>2367</b>	<b>American Attitudes About Technology</b>	<b>U</b>	<b>3</b>
Discussion, analysis, and intensive writing in a technical and professional context based on study of American attitudes about technology. Prereq: English 1110 (110), and Soph standing or above. Not open to students with credit for Engineer 367. GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2367.01H</b>	<b>Honors American Attitudes About Technology</b>	<b>U</b>	<b>3</b>
Discussion, analysis, and intensive writing in a technical and professional context based on study of American attitudes about technology. Prereq: Honors standing; and English 1110.01 (110.01) or 1110.01H (110.01H); and Soph standing or above. Not open to students with credit for Engr 2367 (367). GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2797.01</b>	<b>Engineering Study Abroad in North America</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in North America. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.02</b>	<b>Engineering Study Abroad in Central America</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in Central America. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.03</b>	<b>Engineering Study Abroad in South America</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in South America. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.04</b>	<b>Engineering Study Abroad in East Asia</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in East Asia. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.05</b>	<b>Engineering Study Abroad in South Asia</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in South Asia. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.06</b>	<b>Engineering Study Abroad in Central Asia</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in Central Asia. Repeatable to a maximum of 30 cr hrs or 4 completions.			

<b>2797.07</b>	<b>Engineering Study Abroad in Oceania</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in Oceania. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.08</b>	<b>Engineering Study Abroad in Middle East</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in Middle East. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.09</b>	<b>Engineering Study Abroad in Africa</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in Africa. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.10</b>	<b>Engineering Study Abroad in Europe</b>	<b>U</b>	<b>½ - 12</b>
Study abroad in Europe. Repeatable to a maximum of 30 cr hrs or 4 completions.			
<b>2797.11S</b>	<b>Service Learning Trip to Montana de Luz, Honduras</b>	<b>U</b>	<b>3</b>
Students will take this course and then participate in the in-country field portion of the Engineering Service-Learning/Montana de Luz, Honduras program series. Students will travel to Honduras and implement and evaluate the projects they developed in the Spring Semester. In addition, the students will complete technical documentation and present their projects in a conference-style format. Application required. Repeatable to a maximum of 9 cr hrs.			
<b>3194</b>	<b>Group Studies in Engineering</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering students not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.			
<b>4191</b>	<b>Professional Practice in Engineering</b>	<b>U</b>	<b>0</b>
Students complete a cooperative or internship assignment in private industry or for a government agency; assignments are supervised by the employer and monitored and evaluated by Co-op and Internship Program. Prereq: Permission of instructor. Repeatable to a maximum of 8 completions. This course is progress graded (S/U).			
<b>4193</b>	<b>Individual Studies in Engineering</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering students not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Engineering</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering students not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
<b>4194H</b>	<b>Group Studies in Engineering Honors</b>	<b>U</b>	<b>1 - 4</b>
Special topics of general interest to engineering honors students not otherwise offered. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
<b>4410.01</b>	<b>Computer Graphics Using AutoCad</b>	<b>U</b>	<b>2</b>
An advanced course in graphics with emphasis on the application on computer generated graphics to the solution of engineering problems. AutoCad and Civil 3D to be used. Prereq: Engr 1182, 1185, or 1282. Not open to students with credit for EnGraph 410.			
<b>4410.02</b>	<b>Computer Graphics Using SolidWorks</b>	<b>U</b>	<b>2</b>
An advanced course in graphics with emphasis on the application on computer generated graphics to the solution of engineering problems. SolidWorks to be used. Prereq: Engr 1121 or 1182 or 1185 or 1282. Not open to students with credit for EnGraph 410.			
<b>4692.01S</b>	<b>Service Learning in Engineering</b>	<b>U</b>	<b>1 - 3</b>
Experimental education characterized by participation in an organized service activity connected to specific learning outcomes. Meets community needs and includes student reflection. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions.			
<b>4692.02S</b>	<b>Engineering Service Learning Ghana Preparation</b>	<b>U</b>	<b>3</b>
International Engineering Service Learning Program developed by the College of Engineering, OIA and Knowlton School of Architecture's City and Regional Planning. This IESL Program preparation course teaches the concepts of humanitarian engineering through an authentic real world service learning experience. Prereq: Second writing course, or Grad standing in the College of Engineering; or permission of instructor. Repeatable to a maximum of 9 cr hrs.			
<b>4850S</b>	<b>Translating Engineering Research to K-8 (TEK8)</b>	<b>U</b>	<b>3</b>
Students translate a prior engineering research experience through developing and delivering and documenting mini-design challenges for an underserved K-8 school partner. Prereq: 1182, 1188, or 1282H; and permission of instructor.			
<b>4891</b>	<b>Colloquia, Workshops, and College Seminars</b>	<b>U</b>	<b>1 - 4</b>
Special colloquia, workshops or seminars of general interest to engineering students. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is graded S/U.			

**4891.01 College Seminar - Perspectives on Sustainability U 1**

A broad view of sustainability and the environment, with the opportunity to see sustainability through different perspectives. Speakers from different areas of expertise will present on a variety of sustainability topics so students can better understand why sustainability is both important and complex.

Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

**4891.02 College Seminar - Promoting Creativity and Innovation U 2**

Tools to refine creative motivation and to encourage multidisciplinary innovation. Fostering an appreciation for the processes of innovative design and prototyping by enabling students to explore the concept of creativity through a variety of speaker experiences.

Repeatable to a maximum of 4 cr hrs.

**4910 Tools for Engineering Career Success U 1**

Designed to prepare students for an effective internship/co-op and job search. Covers a range of topics including: self-assessment, goal setting, time management, communication and correspondence, resumes, and interviewing. Course will also feature experienced guest speakers from industry. Must be registered with Engineering Career Services.

Prereq: Enrollment in the College of Engineering. This course is graded S/U.

**4998.01 Undergraduate Research in Engineering Education U 1 - 4**

Opportunity for undergraduates to conduct research in engineering education.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.

**4998.02 Undergraduate Research in Engineering U 1 - 4**

Opportunity for undergraduates to conduct research in engineering.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.

**4999H Engineering Education Research for Thesis U 1 - 5**

Honors program students are offered the opportunity to pursue independent project/research. Student presentation and thesis writing included.

Prereq: Honors standing, and Sr standing, and CPHR 3.4 or above; or permission of instructor. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is graded S/U.

**5081.01 Engineering Capstone Collaboration I U G 3**

Students contract to collaborate with an engineering capstone design team for two semesters and contribute their disciplinary expertise.

Prereq: Permission of instructor. Not open to Engineering Majors.

**5081.02 Engineering Capstone Collaboration II U G 3**

Students contract to collaborate with an engineering capstone design team for second semester and contribute their disciplinary expertise.

Prereq: Permission of instructor. Not open to Engineering Majors.

**5194 Group Studies in Engineering U G 1 - 4**

Special topics of general interest to engineering students not otherwise offered.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**5695 Engineering Teamwork Seminar U G 1**

Interactive training seminar that teaches communications and interpersonal skills vital to success as an engineer in industry. Sponsored by Tau Beta Pi National Engineering Honor Society.

Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

**5710 Engineering Research Communications U G 3**

Engineering technical communications for academic writing and professional presentations, including authoring refereed journal articles and authoring and presenting conference papers in engineering disciplines.

Prereq: Sr or Grad standing.

**5797.01 Engineering Study Abroad in North America U G ½ - 12**

Study abroad in North America.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.02 Engineering Study Abroad in Central America U G ½ - 12**

Study abroad in Central America.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.03 Engineering Study Abroad in South America U G ½ - 12**

Study abroad in South America.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.04 Engineering Study Abroad in East Asia U G ½ - 12**

Study abroad in East Asia.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.05 Engineering Study Abroad in South Asia U G ½ - 12**

Study abroad in South Asia.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.06 Engineering Study Abroad in Central Asia U G ½ - 12**

Study abroad in Central Asia.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.07 Engineering Study Abroad in Oceania U G ½ - 12**

Study abroad in Oceania.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.08 Engineering Study Abroad in Middle East U G ½ - 12**

Study abroad in the Middle East.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.09 Engineering Study Abroad in Africa U G ½ - 12**

Study abroad in Africa.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.10 Engineering Study Abroad in Europe U G ½ - 12**

Study abroad in Europe.

Repeatable to a maximum of 30 cr hrs or 4 completions. This course is graded S/U.

**5797.11S Engineering Service-Learning in Honduras U G 3**

During the Engineering Service-Learning in Honduras program, students will travel to Honduras and implement, test, and evaluate the technologies they developed through Spring Semester. In addition, the students will complete technical documentation and present their projects in a conference-style format once they have returned from spring break travel.

Prereq: Jr, Sr, or Grad standing, or permission of instructor.

**5797.12 Exploring Culture and Engineering in India U G 3**

Students will travel to Jaipur, Agra, and Delhi, India to focus on the culture, history, and religion of India. Students will implement a design project they created in spring semester.

Prereq: 4692.01S in Sp Sem.

**5797.13 Engineering the Castles and Cathedrals of England and Wales U G 3**

A study abroad trip to England and Wales for the purpose of understanding the importance of several iconic castles and cathedrals and the various methods used for their construction. Participants must be physical fit enough to walk an extended length of time, negotiate rough terrain, climb steep steps, and not be afraid of heights.

GE historical study and diversity global studies course.

**5797.14 OSU - Colombia Collaboration U G 3**

This study abroad course is to focus on development of education in Colombia at the K-12 level via STEM education for students and collaborations with teachers to develop materials for students; and at the university level by collaboratively developing low-cost engineering experiments for laboratories, along with on-line instructional materials.

Prereq: 5050 or permission of instructor. Repeatable to a maximum of 15 cr hrs.

**5797.15 Korea Aerospace University International Summer Program U G 3**

This course allows students to enroll in the Korea Aerospace University's International Summer Program and earn credits towards a degree in Aviation.

Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

**5797.16S Solar Engineering Service-Learning U G 3**

During the Solar Engineering Service-Learning program, students will travel abroad and collaborate with partner organizations and communities, to evaluate, assess, design, pilot, and implement various solar technologies. Must be admitted to the program through the Office of International Affairs before enrolling. Students will enroll in ENGR 4692.XXS (1 credit hour) for second session spring term.

Repeatable to a maximum of 9 cr hrs.

**5797.17S Engineering Service-Learning Ghana In Country U G 4**

The Engineering Service-Learning in Ghana course takes place during autumn semester in preparation for winter break travel; Travel and service will be conducted during the break between autumn and spring semesters.

Prereq: Enrollment in the College of Engineering, or permission of instructor. Repeatable to a maximum of 12 cr hrs.

**5797.18 Engineering of Ancient Greece U G 3**

A study abroad trip to Greece for the purpose of understanding the importance of the influences and continuing contributions to society of Ancient Greece's Engineering and Technological advancements. Students will visit various significant engineering marvels and examine the methods used for their formulation and construction.

GE cultures and ideas course.

**5797.19 Design Principles and Biomedical Research at Nanjing University U G 3**

Internationalized medical device design course. Introduction to design principles; needs finding, idea generation, and presentation of projects that focus on helping persons with medical based problems. Documentation and technical skills are developed throughout the course. Activities in team-building, cultural awareness and global engineering are emphasized throughout the course.

Prereq: Math 2177, or 2174, or 2255 and 2568, or 2415 and 2568, or for CSE students 2568; Jr or Sr standing in the College of Engineering; and permission of instructor. Repeatable to a maximum of 6 cr hrs.

## 180 Engineering

**5797.20 Sustainable and Resilient Infrastructure in Italy** U G 3

During pre-travel lectures and assignments and a two-week in country trip, eligible students will compare and contrast differences between Italy and US built infrastructure, explore historical and cultural reasons for differences between the countries, and envision more sustainable and resilient built infrastructure. Application to the College of Engineering Study Abroad Program required.

Prereq: EnvEng 3200 or CivilEn 3310.

**5797.21S Sustainable and Resilient Tanzanian Communities - Engineering** U G 1 - 3

Sustainable and Resilient Communities focuses on applied, service-learning projects around Kilimanjaro, Tanzania. Students will contribute to the sustainability of partnered community's long-term food, water, energy, and health systems. In addition to participating in service in a global context, students will explore the complex challenges and opportunities of sustainable development in rural TZN.

Prereq: CivilEn 4000.01. Concur: CivilEn 4000.02, or permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions.

**5797.22S Guatemala Service-Learning** U G 3

Participating students will: (i) learn about poverty challenges, needs, and potential technical solutions, (ii) complete technical design/evaluation challenges, (iii) learn about Guatemalan history, culture, and current events, and (iv) learn about trip logistics/rules, (v) travel to Guatemala and support group objectives.

Repeatable to a maximum of 6 cr hrs.

**5797.23 Humanitarian Engineering and Culture in Guyana** U G 3

This course offers an opportunity to be engaged in a humanitarian engineering project trip to Georgetown, Guyana to work on solar education projects. Students who are a part of this course will learn about Guyanese history, culture, and current events; energy challenges, needs, and clean energy solutions; solar panel systems; complete technical design/evaluation challenges; and travel to Guyana.

Prereq: Jr, Sr, or Grad standing in Engr, and permission of instructor.

**5797.24 Sustainable Community Development - Honduras** U G 3

The course seeks to provide an opportunity for students to experience application of a broad range of engineering & non-engineering skillsets in a teambased environment working towards sustainable outcomes to humanitarian development challenges. Student teams from OSU & Zamorano University will work collaboratively with nonprofit Heart to Honduras to develop & support community-driven projects.

Prereq: Pre-major, major, or Grad standing in the College of Engineering, AgSysMt, ConSysM, or Industrial Design; and Engr 5050 or FABEng 2200 or international study abroad experience; and permission of instructor.

**5797.25 International Perspectives on Aviation** U G 3

This course will explore the implications of the Aviation Industry on world as a whole. Content will be organized to consider the social, economic and environmental impacts of aviation in a global context. Classroom learning will be reinforced through international travel during the semester.

Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.

**5901.01 Multidisciplinary Engineering Capstone Design Project I** U G 3

A multidisciplinary engineering capstone design experience which will utilize principles of multiple engineering disciplines for sponsored design projects. This course is full semester (14 week) course. Progress graded with Engr 5902.01.

Prereq: Sr or Grad standing, and permission of instructor. Not open to students with credit for 5901.01 and 5902.01. This course is progress graded.

**5901.02H Multidisciplinary Engineering Capstone Design Project II - Honors IBE** U G 3

This course is an honors version of ENGR 5901.01 and is required for the Integrated Business and Engineering (IBE) program. Students in multidisciplinary teams work on realistic and open-ended product development projects in conjunction with an industry sponsor. Teams practice modern development principles applying the concept of design thinking, user-focused design, and minimally viable product.

Prereq: Honors standing, and Sr standing in Engineering or Business, and enrollment in Integrated Business and Engineering (IBE) program; or permission of instructor.

**5902.01 Multidisciplinary Engineering Capstone Design Project II** U G 3

An integrated sequence constituting a multidisciplinary engineering capstone design experience which will utilize principles of multiple engineering disciplines for sponsored design projects. Sequenced with 5901.01.

Prereq: 5901.01, or permission of instructor. This course is progress graded.

**5902.02H Multidisciplinary Engineering Capstone Design Project II - Honors IBE** U G 3

This course is an honors version of ENGR 5902.01 and is required for the Integrated Business and Engineering (IBE) program. Students in multidisciplinary teams work on realistic and open-ended product development projects in conjunction with an industry sponsor. Teams practice modern development principles applying the concept of design thinking, user-focused design, and minimally viable product.

Prereq: 5901.02H, and Honors standing, and Sr standing in Engineering or Business, and enrollment in the Integrated Business and Engineering (IBE) program; or permission of instructor.

**6193 Individual Studies in Engineering** G 1 - 4

Opportunity for students to participate in supervised individual engineering experiences.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**6194 Group Studies in Engineering** G 1 - 4

Special topics of general interest to engineering students not otherwise offered.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**6210 Leadership and Team Effectiveness for Engineers** G 3

Introduction to topics in leadership and team effectiveness with a focus on applications for engineers.

Prereq: Grad standing, and enrollment in MGEL degree program; or permission of instructor.

**6220 Financial and Managerial Accounting for Engineers** G 3

Provides an overview of the basic topics in financial and managerial accounting. The primary focus will be on helping engineering students understand the meaning of the numbers in financial statements, their relationship to one another, and learning how they are used in planning, decision-making and control towards achieving the objectives of an organization.

Prereq: Grad standing, or permission of instructor; and enrollment in MGEL degree program. Not open to students with credit for AcctMIS 5000.

**6230 Technology Strategy & Innovation for Engineers** G 3

How technology strategy may lead to creation/persistence of competitive advantage. In contrast to core strategy course, provides series of strategic frameworks for managing high-tech businesses.

Prereq: Grad standing, and enrollment in MGEL degree program; or permission of instructor.

Not open to student with credit for BusMHR 7461.

**6850S Translating Engineering Research to K-8 (TEK8)** G 3

Guides graduate students through the development of design challenges inspired by prior research experiences. Develops the skills to teach engineering in under-resourced schools & recognize how to relay engineering skills to diverse populations. Design challenges are created to be age-appropriate for middle school, low cost, & facilitated by someone with little technical background in <90 minutes.

**7100 MGEL Integrative Project** G 1 - 5

Non-thesis research investigation; instructor-guided; comprehensive report required. Required course for MGEL program, in final or final two semesters of program. Total credits required: 5. Prereq: Enrollment in the Master Global Engineering Leadership program. Repeatable to a maximum of 5 cr hrs or 2 completions.

**7193 Individual Studies in Engineering** G 1 - 4

Opportunity for students to participate in supervised individual engineering experiences.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**7194 Group Studies in Engineering** G 1 - 4

Special topics of general interest to engineering students.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

**7200 Engineering Ethics and Professionalism** G 1

To learn professionalism and ethical decision-making strategies; topics include codes of ethics, moral frameworks, engineering as social experimentation, assessment of safety and risk, employer and employee rights and responsibilities, confidentiality and conflict of interest, whistle-blowing, research integrity, consulting engineers, expert witnesses. Engineering ethics case studies in detail

**7240 Education Research Methods in Engineering** G 3

Designing engineering educational research projects including authoring proposals for funding agencies.

Prereq: Grad standing.

**7710 Engineering Research Communications** G 3

Students will practice skills related to scholarly and industry communications for engineering. Topics include reading and analyzing scholarly articles; organizing and writing abstracts and research papers; strategies for problem definition, citation conventions, preparing papers for publication, developing and delivering effective presentations appropriate to scholarly and industry audiences.

Prereq: Grad standing in Engineering. Repeatable to a maximum of 6 cr hrs.

**7881 Interdepartmental Seminar** G 1 - 4

Seminars of general interest to engineering students.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**7891 Colloquia, Workshops, and Seminars** G 1 - 4

Special colloquia, workshops or seminars of general interest to engineering students.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**8194 Group Studies in Engineering** G 1 - 4

Special topics of general interest to engineering students.

Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

**8998 Research in Engineering Education** G 1 - 10  
 Opportunity to conduct research in engineering education.  
 Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.  
 This course is graded S/U.

**8999 Research in Engineering Education for Dissertation** G 1 - 10  
 Opportunity to conduct dissertation research in engineering education.  
 Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.  
 This course is graded S/U.

### Engineering Education

**4999 Undergraduate Thesis Research in Engineering Education** U 1 - 5  
 Undergraduate thesis research on topics in Engineering Education. For students pursuing Research Distinction.  
 Prereq: CPHR 3.0 or above, and Sr standing in the College of Engineering, and permission of instructor. Repeatable to a maximum of 5 cr hrs or 5 completions.

**4999H Undergraduate Honors Thesis Research in Engineering Education** U 1 - 5  
 Undergraduate Honors Thesis research on topics of Engineering Education. For student pursuing Honors Research Distinction.  
 Prereq: Honors standing, CPHR 3.4 or above, Sr standing in the College of Engineering, and permission of instructor. Repeatable to a maximum of 5 cr hrs.

**6100 Foundations and the Field of Engineering Education** G 3  
 This course is designed to prepare students for future courses, and careers in engineering education. Students will engage with literature focusing on theories and frameworks which highlight fundamental issues, questions, and approaches in engineering education.  
 Prereq: Enrollment in EngrEdu Grad program, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

**6200 Learning Theory, Pedagogy, and Assessment in Engineering Education** G 3  
 This course is designed to provide foundational understandings of educational learning theory, pedagogy and assessment methods within engineering education. The processes learned will inform research and instructional practice decisions, approaches and analysis.  
 Prereq: Enrollment in EngrEdu Grad program, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

**7189.01 Teaching Preparation and Support** G 2  
 This course supplements teaching content based training by exposing teachers to instructional pedagogies. It is a practical introduction to engineering education for instructors. Topics include using assessment for learning, best practices in instructional methods, techniques for self-reflection, etc. This version of the course is designed for new instructors.  
 Prereq: Grad standing in the College of Engineering.

**7189.02 Professional Development in College Teaching** G 1  
 This course supplements teaching content based training by exposing teachers to instructional pedagogies. It is a practical extension of ENGREDU 7189.01. Topics include developing new teaching modules, creating training materials for fellow instructors, furthering techniques for reflection, etc. This version of the course is designed for experienced instructors.  
 Prereq: Grad standing in the College of Engineering.

**7193 Individual Studies in Engineering Education** G 1 - 4  
 Individual Studies in Engineering Education for graduate students.  
 Prereq: Grad standing in the College of Engineering, and permission of instructor. Repeatable to a maximum of 16 cr hrs or 16 completions.

**7780 Research Design in Engineering Education** G 3  
 This course is designed to prepare students for productive research in engineering education throughout their graduate experience and professional careers. Research methods are highlighted and explored including quantitative, qualitative, and mixed methods.  
 Prereq: Grad standing in the College of Engineering.

**7881 Seminar in Engineering Education** G 1  
 This course is designed to provide students with the ability to maintain contemporary knowledge of the field of engineering education, understand how to communicate within the field, provide exposure to different stakeholders, and build community among engineering educators.  
 Prereq: Grad standing in the College of Engineering. Repeatable to a maximum of 4 cr hrs.

**7900 Career Exploration and Professional Development** G 3  
 This course is designed to prepare students for future careers and professional advancement at universities, colleges, community colleges, and technical colleges (both in tenure-track and clinical faculty appointments), government agencies, private industry, corporate training organizations, non-profits, and high schools challenged with incorporating engineering design into core science standards.  
 Repeatable to a maximum of 6 cr hrs.

**8998 Research in Engineering Education** G 1 - 5  
 This course offers graduate students an opportunity to conduct research in engineering education.  
 Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.  
 This course is graded S/U.

**8999 Research in Engineering Education for Dissertation** G 1 - 18  
 Research in Engineering Education for Dissertation.  
 Prereq: Enrollment in EngrEdu Grad program. Repeatable. This course is graded S/U.

### Engineering Technology

**1201.01T Exploring Engineering Technologies** U ½  
 Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

**1201.02T Exploring Construction Careers and Industry** U ½  
 Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

**1201.03T Exploring Agricultural Systems Management** U ½  
 Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

**2011T Small Engine Basics** U 4  
 A study of the theory of operation, service and maintenance and repair of small off-road gasoline and diesel engines.  
 Prereq: Not open to students with credit for 240T and 247T. This course is available for EM credit.

**2015T Agricultural Equipment Operation and Maintenance** U 2  
 A study of tractors and other agricultural equipment with emphasis on operation, maintenance and adjustment for safe, efficient operation.  
 Prereq: Not open to students with credit for 215.01T or 215.02T. This course is available for EM credit.

**2016T Tillage, Planting, Harvesting, and Storage Equipment** U 3  
 Principles and applications of safely operating, adjusting, and maintaining agricultural equipment and storing crops. Recommended prereq: Completion of tractor/mobile equipment safety certification process.  
 Prereq: Not open to students with credit for 216T, 217T, and 231T. This course is available for EM credit.

**2040T Soil and Water Conservation Systems** U 4  
 Introduction to erosion control, irrigation, drainage, and wetland systems with an emphasis on land surveying and mapping, system selection, and design.  
 Prereq: CrpSoil 2300T and CrpSoil 2301T (221T). Not open to students with credit for 224T. This course is available for EM credit.

**2050T Introduction to Geographic Information Systems** U 3  
 A study of spatial relationships using global positioning and geographic information systems in urban and rural landscapes.  
 Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

**2092T Problem Solving: Career and Society Applications** U 2  
 A multi-discipline, problem-solving course with emphasis on the application of problem solving and related topics in career and society settings.  
 Prereq: Soph standing. Not open to students with credit for 292T. This course is available for EM credit.

**2110T Construction Drawings & Basic Estimating** U 1  
 Reading and interpretation of various types of construction drawings, as well as an introduction to material quantity calculations and estimate development.  
 Prereq: GenMath 1030T or Math placement level S or higher. This course is available for EM credit.

**2120T Building Science: Methods & Materials** U 4  
 A study of materials science and installation methods used in residential and commercial construction. Emphasizes structural and architectural systems, moisture managed designs, air sealing, and thermal design for energy efficient structures.  
 Prereq or concur: English 1110.01; GenMath 1145T or Math 1148 or higher. This course is available for EM credit.

**2121T Drafting & Computer-Aided Design** U 2  
 Principles and applications of technical drawing utilizing proper drafting techniques for creating two dimensional, scaled drawings both by hand and by using current computer-aided design software. Basic computer skills required. Recommended prereq: Previous experience with mechanical drawing, engineering graphics, drafting, or equivalent.  
 This course is available for EM credit.

**2160T Estimating and Scheduling** U 2  
 Estimating complete projects and developing project schedules for standard construction projects in the residential or commercial sectors of the industry.  
 Prereq: 2110T, 2120T, 2440T, and Soph standing. This course is available for EM credit.

**2170T Construction Project Management** U 2  
 Principles and practices of construction project and construction business management.  
 Prereq or concur: 2160T, and Soph standing. This course is available for EM credit.

## 182 Engineering Technology

<b>2191.01T Construction Management Internship</b>	<b>U</b>	<b>2 - 3</b>
Construction Management occupational internship, structured to provide occupational experiences; supervised by an industry employer and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: 2110T and 2120T (253T, 256T, and 257T), and 2600T, and CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.		
<b>2191.02T Hydraulic Power and Motion Control Internship</b>	<b>U</b>	<b>3</b>
Employment in fluid power industries; structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: 2224T (274T), 2226T (271T), and 2322T (202T); CPHR 2.0 or above; permission of instructor. Repeatable to a maximum of 6 cr hrs.		
<b>2191.03T Power Equipment Internship</b>	<b>U</b>	<b>3</b>
Employment in power equipment industries; structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: 2314T (241T), 2322T (202T), and 2324T (245T), and CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs.		
<b>2191.04T Agricultural Systems Technology Internship</b>	<b>U</b>	<b>2</b>
Agricultural Systems Technology occupational internship structured to provide occupational experiences; supervised by an industry employer and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 4 cr hrs.		
<b>2193T Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.		
<b>2194T Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.		
<b>2214T Fundamentals of Fluid Power and Components</b>	<b>U</b>	<b>4</b>
An introduction to the fluid power industry and the principles of fluid power system operation. Characteristics of operation and performance are investigated for pumps, motors, and valves. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. Prereq: GenMath 1030T, or Math placement level S or higher. This course is available for EM credit.		
<b>2221T Component Rebuilding</b>	<b>U</b>	<b>2</b>
Supervised laboratory experience with emphasis on developing and improving hydraulic component service competencies related to classroom and career activities. Prereq: 2214T (262T or 270T). Prereq or concur: 2224T (274T) and 2336T (273T). Not open to students with credit for 289.03T.		
<b>2224T Fluids, Filtration, and Fluid Conveyance</b>	<b>U</b>	<b>2</b>
Characteristics of hydraulic fluids; methods of filtering oils and of conveying pressurized fluids. Prereq: 2214T (262T or 270T). Not open to students with credit for 274T. This course is available for EM credit.		
<b>2226T Components and Hydraulic Circuits</b>	<b>U</b>	<b>2</b>
A study of advanced hydraulic component topics and of how fluid power components are integrated into a complete system, including performance characteristics and energy efficiency. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. Prereq: 2214T. Prereq or concur: GenMath 1145T. This course is available for EM credit.		
<b>2234T Basic Pneumatic Systems</b>	<b>U</b>	<b>2</b>
Principles, operation, maintenance, service, and application of pneumatic components and systems used for control and automation on industrial equipment. Prereq or concur: GenMath 1145T. This course is available for EM credit.		
<b>2238T Electrohydraulics and System Design</b>	<b>U</b>	<b>3</b>
A study of the interface and design applications of electricity and electronics with fluid power components integrated into a complete system, including performance characteristics and energy efficiency. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. Prereq: 2226T (272T). Not open to students with credit for 278T. This course is available for EM credit.		
<b>2240T Welding Technology</b>	<b>U</b>	<b>3</b>
A study of basic welding including materials, equipment, and techniques. Prereq: Not open to students with credit for 250T. This course is available for EM credit.		

<b>2242T Metals and Metal Manufacturing</b>	<b>U</b>	<b>2</b>
Introduction to metals and metal manufacturing; including materials, equipment, processes, and products. Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.		
<b>2248T Instrumentation and Control Systems</b>	<b>U</b>	<b>4</b>
Techniques and equipment used for instrumentation of fluid power systems for the purposes of data acquisition and control. Prereq: 2238T (278T). Not open to students with credit for 279T. This course is available for EM credit.		
<b>2310T Building Science: Electrical and Lighting Systems</b>	<b>U</b>	<b>3</b>
Principles, equipment, and applications of building electrical and lighting systems with emphasis on energy and resource conservation and sustainability. Prereq: TecPhys 1150T. Not open to students with credit for 2150T.		
<b>2312T Engineering Technology Fundamentals</b>	<b>U</b>	<b>3</b>
An introduction to basic scientific and engineering concepts commonly encountered by engineering technicians emphasizing calculations, measurements, and instrumentation. This course is available for EM credit.		
<b>2314T Introduction to Power Equipment</b>	<b>U</b>	<b>3</b>
An introduction to the off-road machinery industries, their past and future, and the application of engineering principles to the associated equipment. Prereq: GenMath 1030T, or Math placement level S or higher. This course is available for EM credit.		
<b>2322T Basic Electricity and Electronics</b>	<b>U</b>	<b>3</b>
Principles of AC and DC electricity and electronics with emphasis on components, operations, and applications. Prereq: GenMath 1040T, Math 1050, or Math placement level R or higher. This course is available for EM credit.		
<b>2324T Engine Diagnosis and Repair</b>	<b>U</b>	<b>3</b>
An advanced study of multiple cylinder diesel engine diagnostic techniques including repair and rebuilding procedures. A grade of C or better required to meet graduation requirements for Power Equipment. Prereq: 2011T (240T) or 2314T (241T). Not open to students with credit for 245T. This course is available for EM credit.		
<b>2325T Analog and Digital Electronics</b>	<b>U</b>	<b>3</b>
An introduction to analog and digital electronics with emphasis on industry applications. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. Prereq: 2322T (202T). Not open to students with credit for 203T. This course is available for EM credit.		
<b>2331T Distributor Management</b>	<b>U</b>	<b>2</b>
Organization and operation of distributor marketing of mobile equipment and fluid power components and systems; emphasis on service and parts distribution. Prereq or concur: BusTec 1151T or AEDEcon 2001. This course is available for EM credit.		
<b>2332T Mobile Heating and Air Conditioning</b>	<b>U</b>	<b>1</b>
Principles, operation, maintenance, service, and repair of mobile heating and air conditioning components and systems. Prereq: GenMath 1030T, or Math placement level S or higher. This course is available for EM credit.		
<b>2334T Vehicle Electrical and Electronic Systems</b>	<b>U</b>	<b>2</b>
A study of electrical and electronic systems utilized in off-road machinery. A grade of C or better required to meet graduation requirements for Power Equipment. Prereq: 2322T. This course is available for EM credit.		
<b>2336T Methods of Power Transmission</b>	<b>U</b>	<b>2</b>
Comparison and evaluation of power transmission by mechanical, electrical, and fluidic means. Prereq: GenMath 1030T, or Math placement level S or higher. Prereq or concur: EngTech 2312T. This course is available for EM credit.		
<b>2338T Diesel Engine Systems</b>	<b>U</b>	<b>3</b>
A study of the principles, operation, and service of diesel engine systems with emphasis on fuel systems and engine controls. Prereq: 2324T. Prereq or concur: 2334T and TecPhys 1150T. This course is available for EM credit.		
<b>2345T Building Science: Mechanical Systems</b>	<b>U</b>	<b>3</b>
Principles, equipment, and applications of building mechanical systems with emphasis on energy and resource conservation and sustainability. Prereq: TecPhys 1150T. Not open to students with credit for 2150T. This course is available for EM credit.		

**2348T Performance of Mobile Power Units U 2**

A study of operator comfort and safety, ballast, traction, stability, hitching, engine power ratings, fuel efficiency and other factors affecting the performance and application of mobile power units. A grade of C or better required to meet graduation requirements for Power Equipment. Prereq: Completion of tractor/mobile equipment safety certification process. Prereq: 2336T (273T), 2338T (248T), TecPhys 1150T (102T). Not open to students with credit for 249T. This course is available for EM credit.

**2440T Site Development and Surveying U 4**

Principles of hydrology, soil mechanics, and surveying as applied to residential and commercial construction. Prereq or concur: 2110T or HortTec 2320T (235T); GenMath 1145T (145T) or Math Placement Level L, M, or N. Not open to students with credit for 253T. This course is available for EM credit.

**2600T Construction Safety & Health U 2**

Health and construction safety awareness; focusing on OSHA 30-hour training and certification, OSHA mandated recordkeeping, and corporate health plan development. Prereq: English 1110.01.

## Engineering Technology (BS)

**1200 Introduction to Engineering Technology U 1**

Introduction to the roles available in engineering technology, professional development planning for students pursuing this degree, and exposure to common elements in engineering technology. Course work will emphasize written and verbal communication skills. Prereq: Enrollment in the BSET program.

**1500 Manufacturing Processes I U 3**

History of manufacturing, tools and machines, and operations of the machine shop equipment. Opportunity to function individually and on teams, and communicate effectively to learn to work in groups to accomplish a task. The skills learned from this class are transferable to all areas of day to day professional life which makes it valuable in other contexts.

**1600 Engineering Graphics U 3**

Develop skills in graphic design and visualization through experience creating and interpreting 2D Computer Aided Drawings in AutoCAD. Explore various forms of technical graphics used in the field of Engineering Technology including facility layouts, piping and instrumentation diagrams, and electric schematics. Emphasis on utilizing technical graphics to solve Engineering Technology problems.

**2300 Electrical Circuits for Engineering Technology U 3**

Fundamentals of electrical circuits, measuring & analyzing data, & troubleshooting those circuits. Analysis of Direct Current (primarily) & Alternating Current circuits (less content) & effects of different components- resistors, capacitors, inductors, and other components in electrical circuits. DC/AC circuit dynamics that will be used in studies of industrial & electronic control applications. Prereq: Math 1155 or 1172, and Physics 1231 or 1251. Not open to students with credit for ECE 2300.

**2500 Manufacturing Processes II U 2**

Modern manufacturing processes. Design, create, and assembly of structure/objects by combining the manufacturing and graphical design knowledge. Opportunity to function individually and on teams and communicate effectively to learn to work in groups to accomplish a task. The skills are transferable to all areas of day-to-day professional life which makes it valuable in other contexts. Prereq: 1500.

**3800 Project Management for Engineering Technology U 3**

Project Management is a course that focuses on waterfall (PMBOK) and Agile methodologies for managing projects in the manufacturing industry. Emphasis is placed on project initiation, planning, executing, monitoring & controlling, and closing processes. This course will provide students with an overview of leadership roles and responsibilities, as well as interpersonal skills, conflict resolution. Prereq: 2500 and ISE 2040, or permission of instructor. Not open to students with credit for ISE 3800.

## English

**1109 Intensive Writing and Reading U 4**

Provides intensive practice in integrating academic reading and writing. Credit may not count toward graduation in some degree programs. Prereq: English Placement Test score of 6. Not open to students with credit for 1110.01 (110.01), 1110.01H (110.01H), 1110.02 (110.02), 1110.02H (110.02H), 052, 060, or 110.03, or equiv.

**1110.01 First-Year English Composition U 3**

Practice in the fundamentals of expository writing, as illustrated in the student's own writing & in the essays of professional writers. May be available as a service learning course with five hours community service required at the Lima campus only. Prereq: EduTL1902 (108.01) or 1902.04 (108.01), or English Placement Level 4. Not open to students with credit for 1109 (109.01 or 109.02), 1110.01 (non-DL version), 1110.01H (110.01H), 1110.02 (110.02), 1110.02H (110.02H), 1110.03 (110.03), 1167H (167H), 110.01. This course is available for EM credit. GE writing and comm course: level 1.

**1110.01H Honors First-Year English Composition U 3**

Provides intensive practice in the fundamentals of expository writing, as illustrated in the student's own writing and in the essays of professional writers. Prereq: Honors standing, and 28 or above on the English section of the ACT or 660 on the verbal section of the SAT; or permission of instructor. Not open to students with credit for 1110.01 (110.01), 1110.02 (110.02), 1110.02H (110.02H), 110.01H, 1110.03 (110.03), or 1167H (167H). This course is available for EM credit. GE writing and comm course: level 1.

**1110.02 First-Year English Composition U 3**

Practice in the fundamentals of expository writing, as illustrated in the student's own writing and in the essays of professional writers. Taught with an emphasis on literary texts. Prereq: EduTL 1902 or 1902.04, or English Placement Level 4. Not open to students with credit for 1109, 1110.01, 1110.01H, 1110.02 (non-DL version), 1110.02H, 1110.03, 1167H, or equiv. This course is available for EM credit. GE writing and comm course: level 1.

**1110.02H Honors First-Year English Composition U 3**

Provides intensive practice in the fundamentals of expository writing, as illustrated in the student's own writing and in the essays of professional writers. Taught with an emphasis on literary texts. Prereq: Honors standing, and 28 or above on the English section of the ACT or 660 on the verbal section of the SAT; or permission of instructor. Not open to students with credit for 1110.01 (110.01), 1110.01H (110.01H), 1110.02 (110.02), 110.02H, 1110.03 (110.03), or 1167H (167H). GE writing and comm course: level 1.

**1110.03 First-Year English Composition U 3**

Intensive practice in fundamentals of expository writing illustrated in the student's own writing and essays of professional writers; offered in a small class setting and linked with an individual tutoring component in its concurrent course, 1193. This course is available for EM credit only through the AP program. Prereq: 1109, or English Placement Level 5 (Placement Level 4 allowed if student requests service). Concur: 1193. Not open to students with credit for 1110.01 (110.01), 1110.01H (110.01H), 1110.02 (110.02), 1110.02H (110.02H), 1167H (167H), or 110.03, or equiv. GE writing and comm course: level 1.

**1167H First-Year Writing Seminar in the Humanities U 3**

Intensive critical reading and writing concerning central issues in the humanities. Prereq: Honors standing, and a 4 or 5 on the Advanced Placement Test; or permission of instructor. Not open to students with credit for 167H. GE cultures and ideas course.

**1193 Individual Studies U 1 - 4**

Intensive practice in the fundamentals of expository writing. Prereq: Permission of Director of First-Year Writing. Concur: 1110.03. Repeatable to a maximum of 6 or hrs or 6 completions. This course is graded S/U.

**2150 Career Preparation for English and Related Majors U 3**

This general elective course helps English majors and students from other Humanities disciplines to explore and prepare for careers after graduation. Students will analyze texts to gain a practical and theoretical understanding of the world of work. They will learn to identify their own strengths and preferences to guide their job activity and career choices.

**2194 Group Studies U 1 - 3**

Topic varies from semester to semester on subjects not otherwise covered by English courses. Prereq: 1110.01 (110.01), or equiv. Not open to students with 30 qtr or hrs for 294. Repeatable to a maximum of 18 or hrs or 18 completions.

**2201 Selected Works of British Literature: Medieval through 1800 U 3**

An introductory critical study of the works of major British writers from 800 to 1800. Prereq: 1110.01, or equiv. Not open to students with credit for 2201H. GE lit and diversity global studies course.

**2201H Selected Works of British Literature: Medieval through 1800 U 3**

An introductory critical study of the words of major British writers from 800 to 1800. Prereq: Honors standing, and 1110.01 (110.01) or equiv. Not open to students with credit for 2201 (201) or 201H. GE lit and diversity global studies course.

**2202 Selected Works of British Literature: 1800 to Present U 3**

An introductory critical study of the works of major British writers of the 19th and 20th centuries. Prereq: 1110 (110.01), or equiv. Not open to students with credit for 2202H (202H) or 202. GE lit and diversity global studies course.

**2202H Selected Works of British Literature: 1800 to Present U 3**

An introductory critical study of works of major British writers of the 19th and 20th centuries. Prereq: Honors standing, and 1110.01 (110.01), or equiv. Not open to students with credit for 2202 (202) or 202H. GE lit and diversity global studies course.

**2220 Introduction to Shakespeare U 3**

Study of selected plays designed to give an understanding of drama as theatrical art and as an interpretation of fundamental human experience. Prereq: 1110.01 (110.01), or equiv. Not open to students with credit for 2220H (220H) or 220. GE lit and diversity global studies course.

## 184 English

<b>2220H</b>	<b>Introduction to Shakespeare</b>	<b>U</b>	<b>3</b>
Study of selected plays designed to give an understanding of drama as theatrical art and as an interpretation of fundamental human experience. Prereq: Honors standing, and 1110.01 (110.01) or equiv. Not open to students with credit for 2220 (220) or 220H. GE lit course and diversity global studies course.			
<b>2260</b>	<b>Introduction to Poetry</b>	<b>U</b>	<b>3</b>
Designed to help students understand and appreciate poetry through an intensive study of a representative group of poems. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 2260H (260H) or 260. GE lit course.			
<b>2260H</b>	<b>Introduction to Poetry</b>	<b>U</b>	<b>3</b>
Designed to help students understand and appreciate poetry through an intensive study of a representative group of poems. Prereq: Honors standing, and 1110.01 (110.01) or equiv. Not open to students with credit for 2260 (260) or 260H. GE lit course.			
<b>2261</b>	<b>Introduction to Fiction</b>	<b>U</b>	<b>3</b>
Examination of the elements of fiction -- plot, character, setting, narrative, perspective, theme, etc. -- and their various interrelations; comparisons with nonfictional narrative may be included. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 2261H (261H) or 261. GE lit course.			
<b>2261H</b>	<b>Introduction to Fiction</b>	<b>U</b>	<b>3</b>
Examination of the elements of fiction -- plot, character, setting, narrative, perspective, theme, etc. -- and their various interrelations; comparisons with nonfictional narrative may be included. Prereq: Honors standing, and 1110.01 (110.01) or equiv. Not open to students with credit for 2261 (261) or 261H. GE lit course.			
<b>2262</b>	<b>Introduction to Drama</b>	<b>U</b>	<b>3</b>
A critical analysis of selected dramatic masterpieces from Greek antiquity to the present, designed to clarify the nature and major achievements of Western dramatic art. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 2262H (262H) or 262. GE lit course.			
<b>2263</b>	<b>Introduction to Film</b>	<b>U</b>	<b>3</b>
Introduction to methods of reading film texts by analyzing cinema as technique, as system, and as cultural product. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 263. GE VPA course.			
<b>2264</b>	<b>Introduction to Popular Culture Studies</b>	<b>U</b>	<b>3</b>
Introduction to the analysis of popular culture texts. Prereq: 1110.01 (110.01). Not open to students with credit for 264 or CompStd 2264 (264). GE cultures and ideas course. Cross-listed in CompStd.			
<b>2265</b>	<b>Introductory Fiction Writing</b>	<b>U</b>	<b>3</b>
An introduction to the fundamentals of technique, craft, and composition; practice in the writing of fiction; and analysis and discussion of student work as well as published stories by masters of the genre. Prereq: 1110.			
<b>2266</b>	<b>Introductory Poetry Writing</b>	<b>U</b>	<b>3</b>
An introduction to the fundamentals of technique, craft, composition, and prosody; practice in the writing of poetry; and analysis and discussion of student work as well as published poems by established poets. Prereq: 1110.			
<b>2267</b>	<b>Introduction to Creative Writing</b>	<b>U</b>	<b>3</b>
An introduction to the writing of fiction, poetry, and creative nonfiction. Analysis and discussion of student work, with reference to the general methods and scope of all three genres. Prereq: 1110.01 or equiv.			
<b>2268</b>	<b>Introductory Creative Nonfiction Writing</b>	<b>U</b>	<b>3</b>
An introduction to the fundamentals of technique, craft, and composition; practice in the writing of creative nonfiction; and analysis and discussion of student work as well as published essays by masters of the many forms of creative nonfiction. Prereq: 1110.			
<b>2269</b>	<b>Digital Media Composing</b>	<b>U</b>	<b>3</b>
A composition course in which students analyze and compose digital media texts while studying complex forms and practices of textual production. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 269. GE VPA course.			
<b>2270</b>	<b>Introduction to Folklore</b>	<b>U</b>	<b>3</b>
Folklore theory and methods explored through engagement with primary sources: folktale, legend, jokes, folksong, festival, belief, art. Folklore Minor course. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 2270H, 270, CompStd 2350, or 2350H. GE cultures and ideas course. Cross-listed in CompStd 2350.			
<b>2270H</b>	<b>Introduction to Folklore</b>	<b>U</b>	<b>3</b>
Folklore theory and methods explored through engagement with primary sources: folktale, legend, jokes, folksong, festival, belief, and art. Folklore Minor course. Prereq: Honors standing, and 1110.01 (110.01), or equiv. Not open to students with credit for 2270 (270), CompStd 2350, or 2350H. GE cultures and ideas course. Cross-listed in CompStd 2350H.			

<b>2275</b>	<b>Thematic Approaches to Literature</b>	<b>U</b>	<b>3</b>
An introduction to literature through the examination of a major theme as treated in different genres and periods; topic varies by semester. Prereq: 1110.01 (110.01) or equiv. Not open to students with 10 qtr or hrs for 275. Repeatable to a maximum of 6 or hrs. GE lit course.			
<b>2276</b>	<b>Arts of Persuasion</b>	<b>U</b>	<b>3</b>
Introduces students to the study and practice of rhetoric and how arguments are shaped by technology, media, and cultural contexts. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 276. GE cultures and ideas course.			
<b>2277</b>	<b>Introduction to Disability Studies</b>	<b>U</b>	<b>3</b>
Foundational concepts and issues in disability studies; introduction to the sociopolitical models of disability. Prereq: 1110.01 or equiv. GE cultures and ideas course.			
<b>2280</b>	<b>The English Bible</b>	<b>U</b>	<b>3</b>
The Bible in English translation, with special attention to its literary qualities, conceptual content, and development within history. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 2280H (280H) or 280. GE lit course.			
<b>2280H</b>	<b>The English Bible</b>	<b>U</b>	<b>3</b>
The Bible in English translation, with special attention to its literary qualities, conceptual content, and development within history. Prereq: Honors standing, and 1110.01 (110.01) or equiv. Not open to students with credit for 2280 (280) or 280H. GE lit course.			
<b>2281</b>	<b>Introduction to African-American Literature</b>	<b>U</b>	<b>3</b>
A study of representative literary works by African-American writers from 1760 to the present. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 281 or AfAmAS 2281 (281). GE lit and diversity soc div in the US course. Cross-listed in AfAmAS.			
<b>2282</b>	<b>Introduction to Queer Studies</b>	<b>U</b>	<b>3</b>
Introduces and problematizes foundational concepts of the interdisciplinary field of queer studies, highlighting the intersections of sexuality with race, class, and nationality. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 282 or WGSS 2282 (282). GE cultures and ideas and diversity soc div in the US course. Cross-listed in WGSS.			
<b>2290</b>	<b>Colonial and U.S. Literature to 1865</b>	<b>U</b>	<b>3</b>
Introductory study of significant works of U.S. literature from its Colonial origins to 1865. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 290. GE lit course.			
<b>2291</b>	<b>U.S. Literature: 1865 to Present</b>	<b>U</b>	<b>3</b>
Introductory study of significant works of U.S. literature from 1865 to the present. Prereq: English 1110.01 (110.01), or equiv. Not open to student with credit for 291. GE lit course.			
<b>2367.01</b>	<b>Language, Identity, and Culture in the U.S. Experience</b>	<b>U</b>	<b>3</b>
Extends & refines expository writing & analytical reading skills, emphasizing recognition of intertextuality & reflection on compositional strategies on topics pertaining to education & pop culture in America. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: 1110.01 (110.01), and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English. Not open to students with credit for 2367.01H (367.01H), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2367.01H</b>	<b>Language, Identity, and Culture in the U.S. Experience</b>	<b>U</b>	<b>3</b>
Extends & refines expository writing & analytical reading skills emphasizing recognition of intertextuality & reflection on compositional strategies on topics pertaining to education & pop culture in America. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: Honors standing; and 1110.01 (110.01), and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English; or permission of instructor. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2367.01S</b>	<b>Language, Identity, and Culture in the U.S. Experience</b>	<b>U</b>	<b>3</b>
Extends & refines expository writing & analytical reading skills emphasizing recognition of intertextuality & reflection on compositional strategies on topics pertaining to education & pop culture in America. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: 1110.01 (110.01), and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and diversity soc div in the US course.			
<b>2367.02</b>	<b>Literature in the U.S. Experience</b>	<b>U</b>	<b>3</b>
Discussion & practice of the conventions, practices, & expectations of scholarly reading of literature & expository writing on issues relating to diversity within the U.S. experience. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and lit (BS only) and diversity soc div in the US course.			

<b>2367.02H Literature in the U.S. Experience</b>	<b>U</b>	<b>3</b>
Discussion & practice of the conventions, practices, & expectations of scholarly reading of literature & expository writing on issues relating to diversity within the U.S. experience. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: Honors standing; and 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English; or permission of instructor. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and lit (BS only) and diversity soc div in the US course.		
<b>2367.03 Documentary in the U.S. Experience</b>	<b>U</b>	<b>3</b>
An intermediate course that extends and refines skills in critical reading and expository writing through analysis of written texts, video, and documentaries. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm course: level 2.		
<b>2367.03H Documentary in the U.S. Experience</b>	<b>U</b>	<b>3</b>
An intermediate course that extends and refines skills in critical reading and expository writing through analysis of written texts, video, and documentaries. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: Honors standing; and 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English; or permission of instructor. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm course: level 2.		
<b>2367.04 Technology and Science in the U.S. Experience</b>	<b>U</b>	<b>3</b>
Explores how technological changes impact our culture & relationships; students build & expand skills in rhetorical analysis & composition through experimentation with new forms of communicating. One 2367 (367) subdivision may be taken for credit. Prereq: 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, 367.04H, or equiv. GE writing and comm course: level 2.		
<b>2367.05 The U.S. Folk Experience</b>	<b>U</b>	<b>3</b>
Concepts of American folklore & ethnography; folk groups, tradition, & fieldwork methodology; how these contribute to the development of critical reading, writing, & thinking skills. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and diversity soc div in the US course.		
<b>2367.05H The U.S. Folk Experience</b>	<b>U</b>	<b>3</b>
Concepts of American folklore & ethnography; folk groups, tradition, & fieldwork methodology; how these contribute to the development of critical reading, writing, & thinking skills. Only one 2367 (367) decimal subdivision may be taken for credit. Prereq: Honors standing; and 1110.01 (110.01) or equiv, and Soph standing; or EM credit for 1110.01 (110.01) or equiv; or a declared major in English; or permission of instructor. Not open to students with credit for 2367.01 (367.01), 210, 267, 267H, 301, 303, or equiv. GE writing and comm: level 2 and diversity soc div in the US course.		
<b>2367.06 Composing Disability in the U.S.</b>	<b>U</b>	<b>3</b>
Extends & refines expository writing & analytical reading skills, emphasizing recognition of intertextuality & reflection on compositional strategies on topics pertaining to education & pop culture in America. Only one decimal subdivision of English 2367 may be taken for credit. Prereq: English 1110; and Soph standing, or a declared major in English. GE writing and comm: level 2 and diversity soc div in the US course.		
<b>2367.07S Literacy Narratives of Black Columbus</b>	<b>U</b>	<b>3</b>
This service-learning course focuses on collecting and preserving literacy narratives of Columbus-area Black communities. Through engagement with community partners, students refine skills in research, analysis, and composition; students synthesize information, create arguments about discursive/visual/cultural artifacts, and reflect on the literacy and life-history narratives of Black Columbus. Prereq: 1110 or equiv.; and Soph standing, or a declared major in English. Not open to students with credit for AiAmASt 2367.07S. GE writing and comm: level 2 and diversity soc div in the US course. Cross-listed in AiAmASt.		
<b>2367.08 The U.S. Experience: Writing About Video Games</b>	<b>U</b>	<b>3</b>
Emphasizes persuasive and researched writing, revision, and composing in various forms and media. Focusing on digital literacy, development of critical thinking skills and skill in producing analytical prose, students explore key conversations in the field of game studies and analyze a variety of types of video game writing. No prior knowledge of video games or game studies is required. Prereq: 1110 or equivalent; and Soph standing, or a declared major in English. GE writing and comm course: level 2.		
<b>2463 Introduction to Video Games Analysis</b>	<b>U</b>	<b>3</b>
An introduction to humanities-based methods of analyzing and interpreting video games in terms of form, genre, style, and theory. No background in video game play is necessary. All students will have regular opportunities for hands-on experience with different game types and genres in both the computer-based classroom and the English Department Video Game Lab. Prereq: English 1110. GE VPA course.		

<b>2464 Introduction to Comics Studies</b>	<b>U</b>	<b>3</b>
Study of sequential comics and graphic narrative and the formal elements of comics, how word and image compete and collaborate in comics to make meaning and how genre is activated and redeployed. Students analyze comics texts, articulate and defend interpretations of meaning and learn about archival research at OSU's Billy Ireland Cartoon Library and Museum. No background in comics is required. Prereq: 1110. GE VPA course.		
<b>3271 Structure of the English Language</b>	<b>U</b>	<b>3</b>
Students learn basic characteristics of English linguistics focusing on the basic building blocks of language; the sounds of English and how they are put together, word formation processes, and rules for combining words into utterances/sentences. Students investigate and explore linguistic variation, accents of American English, and the implications of language evaluation in educational settings. Prereq: 1110.01 (110.01). Not open to students with credit for 4570 (570), 6760 (760), 271, 669, 671, 2271, or Linguist 601. GE cultures and ideas course.		
<b>3273 Modernist Thought &amp; Culture, 1880-1945</b>	<b>U</b>	<b>3</b>
This is a team-taught course that surveys modern Western cultural history and its revolutionary developments in physics, genetics, philosophy, psychiatry, visual art, architecture, music, dance, and literature. The team-teaching format ensures that students will have the opportunity to approach modernist ideas and forms of expression from more than one disciplinary perspective. Prereq: English 1110 and any History 2000-level course, or permission of instructor. Not open to students with credit for History 3273. Cross-listed in History.		
<b>3304 Business and Professional Writing</b>	<b>U</b>	<b>3</b>
The study of principles and practices of business and professional writing. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 304.		
<b>3305 Technical Writing</b>	<b>U</b>	<b>3</b>
Study of principles and practices of technical writing. Emphasis on the style, organization, and conventions of technical and research reports, proposals, memoranda, professional correspondence, etc.. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 305.		
<b>3331 Thinking Theoretically</b>	<b>U</b>	<b>3</b>
Study of fundamental texts and practices informing contemporary understandings of theory in the humanities and social sciences. Prereq: 1110 or equiv. Not open to students with credit for ArtsSci 3331 (331).		
<b>3361 Narrative and Medicine</b>	<b>U</b>	<b>3</b>
Study of fictional and nonfictional narratives offering diverse perspectives on such medical issues as illness, aging, treatment, health and healing, and doctor-patient relationships. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 361. GE lit course.		
<b>3364 Special Topics in Popular Culture</b>	<b>U</b>	<b>3</b>
Focused study in reading popular culture texts, organized around a single theme, period, or medium. Prereq: 1110.01 (110.01) or equiv. Repeatable to a maximum of 6 or hrs. GE cultures and ideas course.		
<b>3372 Special Topics in Science Fiction or Fantasy</b>	<b>U</b>	<b>3</b>
Introduction to the tradition and practice of speculative writing. Provides students the opportunity to examine and compare works of science fiction and/or fantasy. Prereq: 1110. Repeatable to a maximum of 6 or hrs. GE lit course.		
<b>3378 Special Topics in Film and Literature</b>	<b>U</b>	<b>3</b>
Focuses on the relationship between film and literature; topics may include adaptation, cross-media themes and modes, influence of cinema on literature and vice versa. Prereq: 1110. Not open to students with 10 qtr cr hrs for 378. Repeatable to a maximum of 6 or hrs. GE cultures and ideas course.		
<b>3379 Methods for the Study of Writing, Rhetoric and Literacy</b>	<b>U</b>	<b>3</b>
Introduction to the interrelated fields of Writing, Rhetoric, and Literacy, familiarizing students with key concepts that underlie work in these interrelated fields and to the scholarly methods of WRL. Together, this discipline studies the ways people use language and other symbols to convey messages, persuade audiences, and create meaning, and how these practices are learned and taught. Prereq: 1110. Not open to students with credit for 2279.		
<b>3398 Methods for the Study of Literature</b>	<b>U</b>	<b>3</b>
Serves as the "Methods" course for the Literature and Creative Writing concentrations within the English major. Its purpose is to familiarize students with literary studies in such a way as to prepare them for advanced courses in all literary fields and the genres of Creative Writing. Required of English majors. Open to English majors only or others by dept permission. Prereq: 1110.01, and declared major in English. Sr students must have the permission of the Director of Undergraduate Studies. Not open to students with credit for 2298 or 3398H.		
<b>3405 Special Topics in Professional Communication</b>	<b>U</b>	<b>3</b>
Study of principles and practices in technical communication, technical editing, managerial communication, international business communication, visual rhetoric, writing for the web, and scientific writing. Prereq: A 2367 (367) second writing course. Not open to students with 10 qtr cr hrs for 405. Repeatable to a maximum of 6 or hrs.		

## 186 English

<b>3465</b>	<b>Special topics in Intermediate Fiction Writing</b>	<b>U</b>	<b>3</b>
For students who have experience with the basic elements of writing fiction. Special topics focus on particular aspects of the genre; advanced techniques are explored. Prereq: Grade of C or above in 2265. Repeatable to a maximum of 6 cr hrs.			
<b>3466</b>	<b>Special Topics in Intermediate Poetry Writing</b>	<b>U</b>	<b>3</b>
For students who have experience with the basic elements of writing poetry. Special topics focus on particular aspects of the genre; advanced techniques are explored. Prereq: Grade of C or above in 2266. Repeatable to a maximum of 6 cr hrs.			
<b>3467S</b>	<b>Issues and Methods in Tutoring Writing</b>	<b>U</b>	<b>3</b>
Theories and practices in tutoring and writing; explores writing-learning connections and prepares students to work as writing consultants/tutors for individuals and small writing groups. Prereq: 1110.01 (110.01) or equiv. Not open to students with credit for 467 or ArtsSci 3467S (HumCol 467). Cross-listed in ArtsSci.			
<b>3468</b>	<b>Special Topics in Intermediate Creative Nonfiction Writing</b>	<b>U</b>	<b>3</b>
For students who have experience with the basic elements of writing creative nonfiction. Special topics focus on particular aspects of the genre; advanced techniques are explored. Prereq: Grade of C or above in 2268. Repeatable to a maximum of 6 cr hrs.			
<b>3597.03</b>	<b>Environmental Citizenship</b>	<b>U</b>	<b>3</b>
Provides tools for environmental citizenship by teaching interdisciplinary perspectives on biophysical/sociocultural forces that shape environments. Addresses general processes through local case studies. Prereq: Not open to students with credit for 597.03 or Geog 3597.03 (597.03). GE cross-disciplinary seminar course. Cross-listed in Geog.			
<b>3662</b>	<b>An Introduction to Literary Publishing</b>	<b>U</b>	<b>3</b>
An introduction to the theory and practice of editing and publishing literature. Prereq: 2265, 2266, 2267, or 2268. Not open to students with credit for 5662.01 or 662.			
<b>4150</b>	<b>Cultures of Professional Writing</b>	<b>U</b>	<b>3</b>
Examine writing in various workplaces. Analyze writing discourse that shapes professional organizations. Explore ongoing technological and cultural shifts required of workplace writers and the role of digital media. Prereq: 1110 and any 2367. Not open to students with credit for HumCol 450.01, 450.02, 450.03, or CSTW 4150.			
<b>4189</b>	<b>Professional Writing Minor: Capstone Internship</b>	<b>U</b>	<b>3</b>
Students work onsite in an organization doing writing-related work and meet weekly to discuss related topics. Prereq: 4150 or CSTW 4150, and 2 courses in Professional Writing minor. Not open to students with more than 6 cr hrs of CSTW 4191. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>4321</b>	<b>Environmental Literatures, Cultures, and Media</b>	<b>U</b>	<b>3</b>
Examines past and present environmental issues from the perspective of English studies, including literary, rhetorical, and cultural analysis of texts and media. Prereq: 2367, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>4400</b>	<b>Literary Locations</b>	<b>U</b>	<b>3</b>
Study of sites of literary importance, and texts connected with them in the British Isles, Ireland, and elsewhere. Concludes with 10-day visit to location. Taught in conjunction with English 5797. Prereq: Permission of instructor. Concur: 5797. Not open to students with 10 qtr or hrs for 595. Repeatable to a maximum of 6 cr hrs.			
<b>4410</b>	<b>Healthcare Experiences: Observing, Reading, Writing</b>	<b>U</b>	<b>3</b>
An elective for the Medical Humanities Minor, this course combines practical experience in a health care setting via volunteer work or shadowing with formal study of health, illness, and treatment in contemporary culture. It brings academic and practical learning into productive dialogue to illuminate relations between "theory" and "practice" in health care settings. Prereq: Completion of at least 9 credit hours toward the Medical Humanities Minor or permission of instructor.			
<b>4420</b>	<b>Capstone Course for Integrated Major in Mathematics and English</b>	<b>U</b>	<b>3</b>
Students combine the Mathematics and English knowledge and skills they have acquired in the integrated major through a capstone experience. Prereq: Sr standing in Integrated Major in Mathematics and English (IMME) Program, or permission of instructor. Not open to students with credit for Math 4420. Cross-listed in Math.			
<b>4450</b>	<b>Literature and Culture of London</b>	<b>U</b>	<b>3</b>
A month-long Education Abroad course focusing on past and present London as the center of British literature and culture. The course is taught by Ohio State faculty while students are resident in London. Offered in May term. 3 credit hours. Prereq: Permission of instructor.			
<b>4513</b>	<b>Introduction to Medieval Literature</b>	<b>U</b>	<b>3</b>
The study of masterpieces from the Middle Ages, chosen for their values in interpreting medieval culture as well as for their independent literary worth. Prereq: 6 cr hrs in English at 2000-3000 level, or permission of instructor. 5 qtr or hrs of 367 or 6 sem or hrs of 2367 in any subject are acceptable towards the 6 cr hrs. Not open to students with credit for 513.			

<b>4514</b>	<b>Middle English Literature</b>	<b>U</b>	<b>3</b>
A study of non-Chaucerian classics from late medieval England, such as Sir Gawain and the Green Knight, Piers Plowman, and The Book of Margery Kempe. Prereq: 6 cr hrs in English at 2000-3000 level, or permission of instructor. 5 qtr or hrs of 367 or 6 sem or hrs of 2367 in any subject are acceptable towards the 6 cr hrs. Not open to students with credit for 514.			
<b>4515</b>	<b>Chaucer</b>	<b>U</b>	<b>3</b>
A close study of Troilus and Criseyde and The Canterbury Tales as introduction to the artist and his period. Prereq: 6 cr hrs in English at 2000-3000 level, or permission of instructor. 5 qtr or hrs of 367 or 6 sem or hrs of 2367 in any subject are acceptable towards the 6 cr hrs. Not open to students with credit for 515 or 615.			
<b>4520.01</b>	<b>Shakespeare</b>	<b>U</b>	<b>3</b>
Critical examination of the works, life, theater, and contexts of Shakespeare. Prereq: 6 cr hrs in English at 2000-3000 level, or permission of instructor. 5 qtr or hrs of 367 or 6 sem or hrs of 2367 in any subject are acceptable towards the 6 cr hrs. Not open to students with credit for 520 or 520.01.			
<b>4520.02</b>	<b>Special Topics in Shakespeare</b>	<b>U</b>	<b>3</b>
Focused study of the works of Shakespeare in relation to a topic or critical problem. Prereq: 6 credit hours of English at the 2000-3000 level, or permission of instructor. 3 cr hrs for 2367 in any subject is acceptable towards the 6 cr hrs. Repeatable to a maximum of 9 cr hrs.			
<b>4521</b>	<b>Renaissance Drama</b>	<b>U</b>	<b>3</b>
Studies in English drama and theater from the early sixteenth century to 1660. Prereq: 6 credit hours of English at the 2000-3000 level, or permission of instructor. 5 qtr or hrs for 367 or 3 cr hrs for 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 621 or with 15 qtr or hrs of 521. Repeatable to a maximum of 9 cr hrs.			
<b>4522</b>	<b>Renaissance Poetry</b>	<b>U</b>	<b>3</b>
Studies in English poetry from the early sixteenth century to 1660. Prereq: 6 credit hours of English at the 2000-3000 level, or permission of instructor. 5 qtr or hrs for 367 or 3 cr hrs for 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 621 or with 15 qtr or hrs of 522. Repeatable to a maximum of 9 cr hrs.			
<b>4523</b>	<b>Special Topics in Renaissance Literature and Culture</b>	<b>U</b>	<b>3</b>
Study of the topics, themes, and problems in the literature and culture of sixteenth and seventeenth-century England. Prereq: 6 credit hours of English at the 2000-3000 level, or permission of instructor. 5 qtr or hrs for 367 or 3 cr hrs for 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 621 or with 15 qtr or hrs of 523. Repeatable to a maximum of 9 cr hrs.			
<b>4531</b>	<b>Restoration and 18th-Century Literature</b>	<b>U</b>	<b>3</b>
A selective survey of drama, poetry, novels, or other contemporary genres, such as the moral essay or autobiography. Prereq: 6 credit hours of English at the 2000-3000 level, or permission of instructor. 5 qtr or hrs for 367 or 3 cr hrs for 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 531.			
<b>4533</b>	<b>The Early British Novel: Origins to 1830</b>	<b>U</b>	<b>3</b>
Features the variety of novel forms emerging in 1660-1830, as well as relevant historical and contemporary theories of the novel, marketplace, reading, or interpretation. Prereq: 6 credit hours of English at the 2000-3000 level, or permission of instructor. 5 qtr or hrs for 367 or 3 cr hrs for 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 533.			
<b>4535</b>	<b>Special Topics in Restoration and Eighteenth Century British Literature and Culture</b>	<b>U</b>	<b>3</b>
Focused study of a major theme and/or critical problem arising from literature Restoration and/or eighteenth century Britain: race and enlightenment, crime and criminals, sex and the city, the culture of sensibility, transatlantic literary culture. Prereq: 10 qtr or hrs or 6 cr hrs of English at 2000-3000 level, or permission of instructor. 5 qtr or hrs in 367 or 3 cr hrs in 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with 15 qtr or hrs for 535. Repeatable to a maximum of 9 cr hrs.			
<b>4540</b>	<b>Nineteenth-Century British Poetry</b>	<b>U</b>	<b>3</b>
Studies the origins of modern poetry in the years following the French Revolution in 1789 and its development throughout the nineteenth century. Prereq: 10 qtr or hrs or 6 cr hrs of English at 2000-3000 level, or permission of instructor. 5 qtr or hrs in 367 or 3 cr hrs in 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 540.			
<b>4542</b>	<b>The Nineteenth-Century British Novel</b>	<b>U</b>	<b>3</b>
Examines formal and thematic concerns in the novels of the nineteenth century in relation to the historical and cultural issues of the time. Prereq: 10 qtr or hrs or 6 cr hrs of English at 2000-3000 level, or permission of instructor. 5 qtr or hrs in 367 or 3 cr hrs in 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 641 or 542.			
<b>4543</b>	<b>20th-Century British Fiction</b>	<b>U</b>	<b>3</b>
A study of the development of British fiction after 1900, with emphasis on such major novelists as Conrad, Joyce, Lawrence, and Woolf. Prereq: 10 qtr or hrs or 6 cr hrs of English at 2000-3000 level, or permission of instructor. 5 qtr or hrs in 367 or 3 cr hrs in 2367 in any subject is acceptable towards the 6 cr hrs. Not open to students with credit for 643 or 543.			

<b>4547</b>	<b>20th-Century Poetry</b>	<b>U</b>	<b>3</b>
A study of twentieth-century British and American poetry, with emphasis on such major figures as Frost, Yeats, Stevens, Eliot, Williams, Auden, Bishop, and Langston Hughes. <b>5193 Individual Studies</b>	<b>U G</b>	<b>1 - 3</b>
Students may register for individual directed study under this number for work not normally offered in courses. Prereq: Permission of instructor and department undergraduate or graduate committee. Not open to students with 10 qtr cr hrs for 693. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.		
<b>5194 Group Studies</b>	<b>U G</b>	<b>1 - 3</b>
Group studies. Prereq: Permission of instructor. Not open to students with 15 qtr cr hrs for 694 or 9 sem cr hrs for 5194. Repeatable to a maximum of 9 cr hrs or 9 completions.		
<b>5612 The History of the Book in Modernity</b>	<b>U G</b>	<b>3</b>
This course explores books and other printed matter as material objects rather than neutral containers for texts, literally judging books by their covers, examining production, design, and materials as well as the myriad uses to which books been put in the world over the past two centuries. The course is embedded in the collections of OSU's Rare Books and Manuscripts Library.		
<b>5662.02 Literary Publishing</b>	<b>U G</b>	<b>3</b>
Theory and practice of editing and publishing literature. Prereq: 2265 (265), 2266 (266), or 2268 (268), and permission of instructor. Not open to students with credit for 5662 (662). This course is graded S/U.		
<b>5664 Studies in Graphic Narrative</b>	<b>U G</b>	<b>3</b>
Introduction to advanced study in graphic narrative and theory; thematic topics include the contemporary graphic novel, graphic autobiography, the history of comics, and comics journalism. Prereq: 9 cr hrs at the 3000, 4000, or 5000-level in English, or permission of instructor. Repeatable to a maximum of 9 cr hrs.		
<b>5710.01 Introduction to Old English Language and Literature</b>	<b>U G</b>	<b>3</b>
Introduction to Old English language, followed by selected readings in Anglo-Saxon prose and verse texts. Prereq: 9 cr hrs at the 3000, 4000, or 5000 level, or equiv work in allied departments, or permission of instructor. Not open to students with credit for 5710.01 (710) or 5710.02.		
<b>5710.02 Introduction to Old English Language and Literature</b>	<b>U G</b>	<b>3</b>
Introduction to Old English language, followed by selected readings in Anglo-Saxon prose and verse texts. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 5710.01 (710) or 5710.02. This course is graded S/U.		

## 190 English

<b>5720.01</b>	<b>Graduate Studies in Shakespeare</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of Shakespeare. Prereq: 10 qtr cr hrs of 300, 400, or 500 level, or 9 sem cr hrs of 3000, 4000, or 5000 level, or Grad standing, or permission of instructor. Not open to students with 5 qtr cr hrs for 720 or 6 sem cr hrs for 5720.01 or 5720.02. Repeatable to a maximum of 6 cr hrs.			
<b>5720.02</b>	<b>Graduate Studies in Shakespeare</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of Shakespeare. Prereq: 10 qtr cr hrs at the 300, 400, or 500 level, or 9 sem cr hrs at the 3000, 4000, or 5000 level, or Grad standing, or permission of instructor. Not open to students with 5 qtr cr hrs for 720 or 6 sem cr hrs for 5720.01 or 5720.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5721.01</b>	<b>Graduate Studies in Renaissance Drama</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of English drama from the early sixteenth century to 1660. Prereq: 10 qtr cr hrs at 300, 400, or 500 level, or 9 sem cr hrs at 3000, 4000, or 5000 level, or Grad standing, or permission of instructor. Not open to students with more than 5 qtr cr hrs for 720 or 6 sem cr hrs for 5721.01 or 5721.02. Repeatable to a maximum of 6 cr hrs.			
<b>5721.02</b>	<b>Graduate Studies in Renaissance Drama</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of English drama from the early sixteenth century to 1660. Prereq: Grad standing, or permission of instructor. Not open to students with more than 5 qtr cr hrs for 720 or 6 sem cr hrs for 5721.01 or 5721.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5722.01</b>	<b>Graduate Studies in Renaissance Poetry</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of English poetry from the early sixteenth century to 1660. Prereq: 10 qtr cr hrs in English at the 300, 400, or 500 level, or 9 sem cr hrs at the 3000, 4000, or 5000 level, or permission of instructor. Not open to students with 6 sem cr hrs for 5722.01 or 5722.02. Repeatable to a maximum of 6 cr hrs.			
<b>5722.02</b>	<b>Graduate Studies in Renaissance Poetry</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of English poetry from the early sixteenth century to 1660. Prereq: Grad standing, or permission of instructor. Not open to students with 6 cr hrs for 5722.01 or 5722.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5723.01</b>	<b>Graduate Studies in Renaissance Literature and Culture</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of the literature and culture of sixteenth- and seventeenth-century England. Prereq: 10 qtr cr hrs in English at the 300, 400, or 500 level, or 9 sem cr hrs at the 3000, 4000, or 5000 level, or Grad standing, or permission of instructor. Not open to students with 6 qtr cr hrs for 5723.01 or 5723.02. Repeatable to a maximum of 6 cr hrs.			
<b>5723.02</b>	<b>Graduate Studies in Renaissance Literature and Culture</b>	<b>U G</b>	<b>3</b>
Study of topics, themes, and problems in advanced studies of the literature and culture of sixteenth- and seventeenth-century England. Prereq: Grad standing, or permission of instructor. Not open to students with 6 qtr cr hrs for 5723.01 or 5723.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>5797</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 27</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Arranged. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of instructor. Not open to students with 45 qtr cr hrs for 697 or 27 sem cr hrs for 5797. Repeatable to a maximum of 27 cr hrs or 27 completions. This course is progress graded (S/U).			
<b>5804</b>	<b>Analyzing Language in Social Media</b>	<b>U G</b>	<b>3</b>
Course gives students experience analyzing language in social media. It covers theoretical issues arising in digital communication and provides hands-on practice at computational data analysis, applicable across fields. Students gain an understanding of the sociolinguistic dynamics of online communication and the technical skills to conduct research on them. Team-taught w/ faculty in Linguistics. Prereq: Not open to students with credit for Ling 5804. Cross-listed in Ling.			
<b>5892</b>	<b>Workshop</b>	<b>U G</b>	<b>1 - 3</b>
Workshop Prereq: Permission of instructor. Not open to students with 12 cr hrs for 5892 (692). Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Group Studies Prereq: Grad standing, or permission of instructor. Not open to students with 9 sem cr hrs or 15 qtr cr hrs for 6194 (894). Repeatable to a maximum of 9 cr hrs or 9 completions.			
<b>6410</b>	<b>Introduction to Graduate Study in Medical Humanities and Social Sciences</b>	<b>G</b>	<b>3</b>
Study of medicine from the perspective of the humanities and social sciences; emphasis on how these perspectives complicate an understanding of medicine as pure science. Prereq: Grad standing.			

<b>6662</b>	<b>Literary Publishing</b>	<b>G</b>	<b>3</b>
Theory and practice of editing and publishing literature for MFA students in creative writing. Prereq: MFA (Creative Writing) standing, or permission of instructor. Not open to students with credit for 662 or 5662.01.			
<b>6700.01</b>	<b>Introduction to Graduate Study in English</b>	<b>G</b>	<b>3</b>
Introduction to bibliography, research methods, critical theory, and the principles of literary criticism for advanced work in English studies. Required of all English doctoral candidates. Prereq: Permission of Director of Graduate Studies. Not open to students with credit for 6787.02, 700, or 800.			
<b>6700.02</b>	<b>Introduction to Graduate Study in English</b>	<b>G</b>	<b>3</b>
Introduction to bibliography, research methods, critical theory, and the principles of literary criticism for advanced work in English studies. Required of all English doctoral candidates. Prereq: Permission of Director of Graduate Studies. Not open to students with credit for 6787.01, 700, or 800. This course is graded S/U.			
<b>6716.01</b>	<b>Introduction to Graduate Study in the Middle Ages</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in medieval literature, 1300-1500. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6716.01 (716) or 6716.02.			
<b>6716.02</b>	<b>Introduction to Graduate Study in the Middle Ages</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in medieval literature, 1300-1500. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6716.01 (716) or 6716.02. This course is graded S/U.			
<b>6718.01</b>	<b>Introduction to Graduate Study in Chaucer</b>	<b>G</b>	<b>3</b>
Introduction to advanced study in Chaucer, with a focus on The Canterbury Tales and Troilus and Criseyde. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6718.01 (718) or 6718.02.			
<b>6718.02</b>	<b>Introduction to Graduate Study in Chaucer</b>	<b>G</b>	<b>3</b>
Introduction to advanced study in Chaucer, with a focus on The Canterbury Tales and Troilus and Criseyde. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6718.01 (718) or 6718.02. This course is graded S/U.			
<b>6736.01</b>	<b>Introduction to Graduate Study in the Restoration and 18th Century</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in British literature, 1660-1800. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6736.01 (736) or 6736.02.			
<b>6736.02</b>	<b>Introduction to Graduate Study in the Restoration and 18th Century</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in British literature, 1660-1800. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6736.01 (736) or 6736.02. This course is graded S/U.			
<b>6746.01</b>	<b>Introduction to Graduate Study in British Literature of the Romantic Period</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in British literature of the Romantic period. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6746.01 (746) or 6746.02.			
<b>6746.02</b>	<b>Introduction to Graduate Study in British Literature of the Romantic Period</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in British literature of the Romantic period. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6746.01 (746) or 6746.02. This course is graded S/U.			
<b>6747.01</b>	<b>Introduction to Graduate Study in British Literature of the Victorian Period</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in British Victorian literature. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6747.01 (747) or 6747.02.			
<b>6747.02</b>	<b>Introduction to Graduate Study in British Literature of the Victorian Period</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in British Victorian literature. Prereq: Grad standing or permission of instructor. Not open to students with credit for 6747.01 (747) or 6747.02. This course is graded S/U.			
<b>6750.01</b>	<b>Introduction to Graduate Study in Literacy</b>	<b>G</b>	<b>3</b>
Introduction to advanced study of the development of reading and writing, the study of literacy; attention to historical, theoretical, ideological, and technological issues and change. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6750.01 (750) or 6750.02.			

<b>6750.02</b>	<b>Introduction to Graduate Study in Literacy</b>	<b>G</b>	<b>3</b>
Introduction to advanced study of the development of reading and writing, the study of literacy; attention to historical, theoretical, ideological, and technological issues and change. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6750.01 (750) or 6750.02. This course is graded S/U.			
<b>6751.01</b>	<b>Intro to Graduate Study in Folklore I: The Philology of the Vernacular</b>	<b>G</b>	<b>3</b>
Introduction to the canonical folklore genres and the history of folklore as a discipline. Why and how do we examine the vernacular? Folklore GIS course. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6751.11, 770.01, or CompStd 6750.01 (770.01). Cross-listed in CompStd 6750.01.			
<b>6751.02</b>	<b>Intro to Graduate Study in Folklore II: Fieldwork and the Ethnography of Communication</b>	<b>G</b>	<b>3</b>
Intro to fieldwork & ethnology in humanities: interviewing, participant observation, ethics, ethnographic representation. Ethnography of communication as an approach to community-based expressive forms. Folklore GIS course. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 770.02, 770.03, 6751.22, CompStd 770.02, 770.03, or 6750.02. Cross-listed in CompStd 6750.02.			
<b>6751.11</b>	<b>Intro to Graduate Study in Folklore I: The Philology of the Vernacular</b>	<b>G</b>	<b>3</b>
Introduction to the canonical folklore genres and the history of folklore as a discipline. Why and how do we examine the vernacular? Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6751.01 (770.01) or CompStd 6750.01 (770.01). This course is graded S/U.			
<b>6751.22</b>	<b>Intro to Graduate Study in Folklore II: Fieldwork and the Ethnography of Communication</b>	<b>G</b>	<b>3</b>
Introduction to fieldwork and ethnology in the humanities: interviewing, participant observation, ethics, ethnographic representation. The ethnography of communication as an approach to community-based expressive forms. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 770.02, 770.03, 6751.02, CompStd 770.02, 770.03, or 6750.02. This course is graded S/U.			
<b>6755.01</b>	<b>Introduction to Graduate Study in American Literature, Origins to 1840</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in early American literature. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6755.01 (755) or 6755.02.			
<b>6755.02</b>	<b>Introduction to Graduate Study in American Literature, Origins to 1840</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in early American literature. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6755.01 (755) or 6755.02. This course is graded S/U.			
<b>6756.01</b>	<b>Introduction to Graduate Study in American Literature, 1840-1914</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in American literature, 1840-1914. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6756.01 (756) or 6756.02.			
<b>6756.02</b>	<b>Introduction to Graduate Study in American Literature, 1840-1914</b>	<b>G</b>	<b>3</b>
Introduction to advanced study and current scholarship and criticism in American literature, 1840-1914. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6756.01 (756) or 6756.02. This course is graded S/U.			
<b>6757.01</b>	<b>Introduction to Graduate Study in African-American Literature, 1746-1900</b>	<b>G</b>	<b>3</b>
A survey of creative texts and critical interpretations representing and reflecting black culture and literary expression in the United States from 1746 to 1900. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6757.11, 757.01, or AfAmAST 6757.01 (757.01). Cross-listed in AfAmAST.			
<b>6757.02</b>	<b>Introduction to Graduate Study in African-American Literature, 1900 to Present</b>	<b>G</b>	<b>3</b>
A survey of creative texts and critical interpretations representing and reflecting black culture and literary expression in the United States from 1900 to the present. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6757.22, 757.02, or AfAmAST 6757.02 (757.02). Cross-listed in AfAmAST.			
<b>6757.11</b>	<b>Introduction to Graduate Study in African-American Literature, 1746-1900</b>	<b>G</b>	<b>3</b>
A survey of creative texts and critical interpretations representing and reflecting black culture and literary expression in the United States from 1746 to 1900. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6757.01 (757.01) or AfAmAST 6757.01 (757.01). This course is graded S/U.			

<b>6757.22</b>	<b>Introduction to Graduate Study in African-American Literature, 1900 to Present</b>	<b>G</b>	<b>3</b>
A survey of creative texts and critical interpretations representing and reflecting black culture and literary expression in the United States from 1900 to the present. A special topics course in the writing of fiction, poetry, and/or creative nonfiction. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr hrs for 769 or equivalent. Repeatable to a maximum of 6 cr hrs.			
<b>6776.02</b>	<b>From 1900 to the Contemporary Period</b>	<b>G</b>	<b>3</b>
A two-course sequence (with English 6776.01) in literary criticism from Plato to contemporary theory. Major texts and issues from 1900 to the present. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 676. 776.02, 6776.02, or 6776.22.			
<b>6776.22</b>	<b>From 1900 to the Contemporary Period</b>	<b>G</b>	<b>3</b>
A two-course sequence in literary criticism from Plato to contemporary theory. Major texts and issues from 1900 to the present. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 676, 776.02, 6776.02, or 6776.22. This course is graded S/U.			
<b>6778.01</b>	<b>Introduction to Graduate Study in Film and Film Theory</b>	<b>G</b>	<b>3</b>
An advanced survey of the methodologies, contexts, and development of film and film theory. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6778.01 (778) or 6778.02.			
<b>6778.02</b>	<b>Introduction to Graduate Study in Film and Film Theory</b>	<b>G</b>	<b>3</b>
An advanced survey of the methodologies, contexts, and development of film and film theory. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6778.01 (778) or 6778.02. This course is graded S/U.			
<b>6779.01</b>	<b>Introduction to Graduate Study in Rhetoric: Classical to Early Renaissance</b>	<b>G</b>	<b>3</b>
Provides foundational study in the history and theory of rhetoric from classical Greece to early modern Europe. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6779.01 (779.01) or 6779.11.			
<b>6779.02</b>	<b>Introduction to Graduate Study in Rhetoric: Renaissance to 20th Century</b>	<b>G</b>	<b>3</b>
Provides foundational study in the history and theory of rhetoric from the Renaissance to the present. 6779.01 (779.01) recommended. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6779.02 (779.02) or 6779.22.			
<b>6779.11</b>	<b>Introduction to Graduate Study in Rhetoric: Classical to Early Renaissance</b>	<b>G</b>	<b>3</b>
Provides foundational study in the history and theory of rhetoric from classical Greece to early modern Europe. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6779.01 (779.01) or 6779.11. This course is graded S/U.			
<b>6779.22</b>	<b>Introduction to Graduate Study in Rhetoric: Renaissance to 20th Century</b>	<b>G</b>	<b>3</b>
Provides foundational study in the history and theory of rhetoric from the Renaissance to the present. 6779.01 (779.01) recommended. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6779.02 (779.02) or 6779.22. This course is graded S/U.			
<b>6780.01</b>	<b>Current Theory and Practice in the Teaching of Writing</b>	<b>G</b>	<b>3</b>
Modern theories of composition; topics include: invention, style, sentence combining, evaluation, and the composing process. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6780.01 (870) or 6780.22.			

<b>6780.02</b>	<b>Current Theory and Practice in the Teaching of Writing</b>	<b>G</b>	<b>3</b>
Modern theories of composition; topics include: invention, style, sentence combining, evaluation, and the composing process. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6780.01 (870) or 6780.22. This course is graded S/U.			
<b>6781</b>	<b>Introduction to the Teaching of First-Year English</b>	<b>G</b>	<b>3</b>
Introduction to the theory and practice of teaching first-year English. Required of new GTA's in English. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 781 or 881.01. This course is graded S/U.			
<b>6788.01</b>	<b>Studies in the Theory and Practice of Imaginative Writing</b>	<b>G</b>	<b>3</b>
Instruction in imaginative writing as a method for studying scholarly issues in English, e.g., disability narratives, ethnicity and literature, gender and genre. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 788, or equiv. Repeatable to a maximum of 6 cr hrs.			
<b>6788.02</b>	<b>Studies in the Theory and Practice of Imaginative Writing</b>	<b>G</b>	<b>3</b>
Instruction in imaginative writing as a method for studying scholarly issues in English, e.g., disability narratives, ethnicity and literature, gender and genre. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 788, or equiv. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>6789.01</b>	<b>Introduction to Graduate Study in Digital Media</b>	<b>G</b>	<b>3</b>
Explores how scholars in English studies use computer technologies and multiple media to make meaning, represent and analyze information, teach, and conduct research. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6789.01 (789) or 6789.02.			
<b>6789.02</b>	<b>Introduction to Graduate Study in Digital Media</b>	<b>G</b>	<b>3</b>
Explores how scholars in English studies use computer technologies and multiple media to make meaning, represent and analyze information, teach, and conduct research. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6789.01 (789) or 6789.02. This course is graded S/U.			
<b>6795.01</b>	<b>Introduction to Research Methods in Rhetoric and Composition</b>	<b>G</b>	<b>3</b>
Introduction to the research methods most widely used in rhetoric, composition, and literacy studies. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 795 or equiv.			
<b>6795.02</b>	<b>Introduction to Research Methods in Rhetoric and Composition</b>	<b>G</b>	<b>3</b>
Introduction to the research methods most widely used in rhetoric, composition, and literacy studies. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 795 or equiv. This course is graded S/U.			
<b>6998</b>	<b>Graduate Research in English</b>	<b>G</b>	<b>1 - 18</b>
Graduate research. Arranged. Prereq: Permission of Director of Grad Studies. Not open to students with 30 qtr or hrs for 6996 or 18 sem cr hrs for 6998. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.			
<b>7350.01</b>	<b>Theorizing Folklore I: Tradition and Transmission</b>	<b>G</b>	<b>3</b>
The transmission of cultural forms through time and space across social networks, with special attention to the dynamics of conservation, and innovation, reflexivity, and habit. Folklore GIS course. Repeatable to a maximum of 9 cr hrs.			
<b>7860.02</b>	<b>Seminar in 20th Century British and/or American Literature</b>	<b>G</b>	<b>3</b>
Problems, forms, and themes in twentieth-century British and/or American literature; study of particular twentieth-century British and/or American writers. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr cr hrs for 860 or 9 sem cr hrs 7860.01 or 7860.02. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>7861.01</b>	<b>Studies in Narrative and Narrative Theory</b>	<b>G</b>	<b>3</b>
Seminar in narrative theory and practice; focus on an approach (e.g., feminist narratology), a problem (ethics), or subcategory of narrative (the graphic novel). Prereq: Grad standing, or permission of instructor. Not open to students with 20 qtr cr hrs for 861 or 12 sem cr hrs for 7861.01 or 7861.02. Repeatable to a maximum of 12 cr hrs.			

## 194 English

<b>7861.02</b>	<b>Studies in Narrative and Narrative Theory</b>	<b>G</b>	<b>3</b>
Seminar in narrative theory and practice; focus on an approach (e.g., feminist narratology), a problem (ethics), or subcategory of narrative (the graphic novel). Prereq: Grad standing, or permission of instructor. Not open to students with 20 qtr or hrs for 861 or 12 sem cr hrs for 7861.01 or 7861.02. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
<b>7864.01</b>	<b>Postcolonial/Transnational Literatures</b>	<b>G</b>	<b>3</b>
Topics include postcolonial and transnational literature in English; theories of colonial, postcolonial, and transnational literature and culture. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr or hrs for 864 or 9 sem cr hrs for 7864.01 or 7864.02. Repeatable to a maximum of 9 cr hrs.			
<b>7864.02</b>	<b>Postcolonial/Transnational Literatures</b>	<b>G</b>	<b>3</b>
Topics include postcolonial and transnational literature in English; theories of colonial, postcolonial, and transnational literature and culture. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr or hrs for 864 or 9 sem cr hrs for 7864.01 or 7864.02. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>7871.01</b>	<b>Seminar in the Forms of Literature</b>	<b>G</b>	<b>3</b>
A graduate seminar in the forms of poetry, fiction, and/or creative nonfiction. Prereq: Grad standing, or permission of instructor. Not open to students with 20 qtr or hrs for 781, or equiv. Repeatable to a maximum of 12 cr hrs.			
<b>7871.02</b>	<b>Seminar in the Forms of Literature</b>	<b>G</b>	<b>3</b>
A graduate seminar in the forms of poetry, fiction, and/or creative nonfiction. Prereq: Grad standing, or permission of instructor. Not open to students with 20 qtr or hrs for 871 or equiv. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
<b>7872.01</b>	<b>Studies in the English Language</b>	<b>G</b>	<b>3</b>
Advanced English language study; topics vary. Prereq: Not open to students with 6 sem cr hrs for 7872.01 or 7872.02. Repeatable to a maximum of 6 cr hrs.			
<b>7872.02</b>	<b>Studies in the English Language</b>	<b>G</b>	<b>3</b>
Advanced English language study; topics vary. Prereq: Not open to students with 6 sem cr hrs for 7872.01 or 7872.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>7876.01</b>	<b>Seminar in Critical Theory</b>	<b>G</b>	<b>3</b>
A review of theory and practice in some of the principal forms of literary analysis; focus on a single theoretical movement or a single critical problem. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 876 or 6 sem cr hrs for 7876.01 or 7876.02. Repeatable to a maximum of 6 cr hrs.			
<b>7876.02</b>	<b>Seminar in Critical Theory</b>	<b>G</b>	<b>3</b>
A review of theory and practice in some of the principal forms of literary analysis; focus on a single theoretical movement or a single critical problem. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 876 or 6 sem cr hrs for 7876.01 or 7876.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>7878.01</b>	<b>Seminar in Film &amp; Media Studies</b>	<b>G</b>	<b>3</b>
An intensive study of selected issues, themes, and forms in Film & Media Studies. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 878 or 6 sem cr hrs for 7878.01 or 7878.02. Repeatable to a maximum of 6 cr hrs.			
<b>7878.02</b>	<b>Seminar in Film &amp; Media Studies</b>	<b>G</b>	<b>3</b>
An intensive study of selected issues, themes, and forms in Film & Media Studies. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 878 or 6 sem cr hrs for 7878.01 or 7878.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>7879.01</b>	<b>Seminar in Rhetoric</b>	<b>G</b>	<b>3</b>
Rhetoric of a particular period; major figures in rhetoric, rhetorical analysis of literature. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 879 or 6 sem cr hrs for 7879.01 or 7879.02. Repeatable to a maximum of 6 cr hrs.			
<b>7879.02</b>	<b>Seminar in Rhetoric</b>	<b>G</b>	<b>3</b>
Rhetoric of a particular period; major figures in rhetoric, rhetorical analysis of literature. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 879 or 6 sem cr hrs for 7879.01 or 7879.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>7880.01</b>	<b>Seminar in Composition</b>	<b>G</b>	<b>3</b>
Invention; the composing process and revision; evaluating and responding to writing; discourse analysis. Prereq: Grad standing or permission of instructor. Not open to students with 10 qtr or hrs for 880 or 6 sem cr hrs for 7880.01 or 7880.02. Repeatable to a maximum of 6 cr hrs.			
<b>7880.02</b>	<b>Seminar in Composition</b>	<b>G</b>	<b>3</b>
Invention; the composing process and revision; evaluating and responding to writing; discourse analysis. Prereq: Grad standing or permission of instructor. Not open to students with 10 qtr or hrs for 880 or 6 sem cr hrs for 7880.01 or 7880.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			

<b>7881.02</b>	<b>Teaching Basic Writing</b>	<b>G</b>	<b>3</b>
Theory and practice in the teaching of basic writing. Prereq: 781 or equiv, or permission of instructor. Not open to students with credit for 881.02, 7881.02 or equiv. Repeatable to a maximum of 9 cr hrs.			
<b>7881.04</b>	<b>Teaching Business and Professional Communication</b>	<b>G</b>	<b>3</b>
Theoretical foundations of and teaching techniques for major units in business communication, designed to prepare graduate students to do research in and to teach business and professional writing. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 881.04, 7881.44 or equiv.			
<b>7881.22</b>	<b>Teaching Basic Writing</b>	<b>G</b>	<b>3</b>
Theory and practice in the teaching of basic writing. Prereq: 6781 or equiv., or permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>7881.44</b>	<b>Teaching Business and Professional Communication</b>	<b>G</b>	<b>3</b>
Theoretical foundations of and teaching techniques for major units in business communication, designed to prepare graduate students to do research in and to teach business and professional writing. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 7881.44 (881.04) or equiv. This course is graded S/U.			
<b>7883.01</b>	<b>Seminar in Literacy Studies</b>	<b>G</b>	<b>3</b>
Study of a special topic in literacy studies; topics vary, but may include race, popular culture, gender, technology, or globalization. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr or hrs for 883 or 9 sem cr hrs for 7883.01 or 7883.02. Repeatable to a maximum of 9 cr hrs.			
<b>7883.02</b>	<b>Seminar in Literacy Studies</b>	<b>G</b>	<b>3</b>
Study of a special topic in literacy studies; topics vary, but may include race, popular culture, gender, technology, or globalization. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr or hrs for 883 or 9 sem cr hrs for 7883.01 or 7883.02. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>7884.01</b>	<b>History of Literacy/Literacy Past and Present</b>	<b>G</b>	<b>3</b>
Advanced exploration of the history of literacy; its relationship to societies, cultures, and change; the acquisition, practice, and impacts of literacy in historical contexts. Prereq: Grad standing, or permission of instructor. Not open to students with 6 sem hrs for 7884.01 or 7884.02, or 10 qtr hrs of 884 or History 775. Repeatable to a maximum of 9 cr hrs. Cross-listed in History 7884 and CompStd 7884.			
<b>7884.02</b>	<b>History of Literacy/Literacy Past and Present</b>	<b>G</b>	<b>3</b>
Advanced exploration of the history of literacy; its relationship to societies, cultures, and change; the acquisition, practice, and impacts of literacy in historical contexts. Prereq: Grad standing, or permission of instructor. Not open to students with 6 sem hrs for 7884.01 or 7884.02, or 10 qtr hrs of 884 or History 775. Repeatable to a maximum of 9 cr hrs. This course is graded S/U. Cross-listed in History 7884 and CompStd 7884.			
<b>7888.01</b>	<b>Interdepartmental Studies in the Humanities</b>	<b>G</b>	<b>1 - 3</b>
Two or more departments present colloquia on subjects of mutual interest; topics to be announced. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr or hrs for 792 or 9 sem cr hrs for 7888.01 or 7888.02 or equiv. Repeatable to a maximum of 9 cr hrs or 9 completions. Cross-listed in AfAmASt, Clas, English, French, German, NELC, Spanish and WGSST.			
<b>7888.02</b>	<b>Interdepartmental Studies in the Humanities</b>	<b>G</b>	<b>1 - 3</b>
Two or more departments present colloquia on subjects of mutual interest; topics to be announced. Prereq: Grad standing, or permission of instructor. Not open to students with 15 qtr or hrs for 792 or 9 sem cr hrs for 7888.01 or 7888.02 or equiv. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U. Cross-listed in AfAmASt, Clas, English, French, German NELC, Spanish or WGSST.			
<b>7889.01</b>	<b>Seminar on Digital Media Studies</b>	<b>G</b>	<b>3</b>
Advanced theoretical and practical approaches to digital media in English studies. Examines such intellectual questions as authorship, narrative, argument, and the nature of texts. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr or hrs for 889 or 6 sem cr hrs for 7889.01 or 7889.02. Repeatable to a maximum of 6 cr hrs.			
<b>7889.02</b>	<b>Seminar on Digital Media Studies</b>	<b>G</b>	<b>3</b>
Advanced theoretical and practical approaches to digital media in English studies. Examines such intellectual questions as authorship, narrative, argument, and the nature of texts. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 10 qtr or hrs for 889 or 6 sem cr hrs for 7889.01 or 7889.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>7890.01</b>	<b>Seminar in Feminist Studies in Literature and Culture</b>	<b>G</b>	<b>3</b>
Analysis of literary and cultural texts through feminist methodologies. Time, period, and topic vary. Prereq: Grad standing, or permission of instructor. Not open to students with 20 qtr or hrs for 892 or 12 sem cr hrs for 7890.01 or 7890.02. Repeatable to a maximum of 12 cr hrs.			

<b>7890.02</b>	<b>Seminar in Feminist Studies in Literature and Culture</b>	<b>G</b>	<b>3</b>
Analysis of literary and cultural texts through feminist methodologies. Time, period, and topic vary. Prereq: Grad standing, or permission of instructor. Not open to students with 20 qtr cr hrs for 892 or 12 sem cr hrs for 7890.01 or 7890.02. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
<b>7891.01</b>	<b>Seminar in Disability Studies Theory</b>	<b>G</b>	<b>3</b>
Intensive study of disability-studies theory, with focus on a specific topic such as 'Disability and Materiality' or 'Mind and Brain.' Prereq: Grad standing, or permission of instructor. Not open to students with 12-semester credits for 7891.01 or 7891.02. Repeatable to a maximum of 12 cr hrs.			
<b>7891.02</b>	<b>Seminar in Disability Studies Theory</b>	<b>G</b>	<b>3</b>
Intensive study of disability-studies theory, with focus on a specific topic such as 'Disability and Materiality' or 'Mind and Brain.' Prereq: Grad standing, or permission of instructor. Not open to students with 12-semester credits for 7891.01 or 7891.02. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
<b>7895.01</b>	<b>Seminar in Research Methods in Rhetoric and Composition</b>	<b>G</b>	<b>3</b>
Advanced study in a specific quantitative or qualitative research method in rhetoric and composition. Prereq: 6795 (795), or permission of instructor. Not open to students with 10 qtr cr hrs for 895 or 6 sem cr hrs for 7895.01 or 7895.02. Repeatable to a maximum of 6 cr hrs.			
<b>7895.02</b>	<b>Seminar in Research Methods in Rhetoric and Composition</b>	<b>G</b>	<b>3</b>
Advanced study in a specific quantitative or qualitative research method in rhetoric and composition. Prereq: Grad standing, or permission of instructor. Not open to students with 10 qtr cr hrs for 895 or 6 sem cr hrs for 7895.01 or 7895.02. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
<b>8193</b>	<b>Individual Studies</b>	<b>G</b>	<b>1 - 9</b>
Doctoral students may register for individual study in areas not normally covered by courses. Prereq: Permission of grad committee. Not open to students with 30 qtr cr hrs for 993 or 18 sem cr hrs 8193. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.			
<b>8858.01</b>	<b>Seminar in Folklore</b>	<b>G</b>	<b>3</b>
Advanced seminar on current or specialized topics in folklore studies. Prereq: Grad standing, or permission of instructor. Not open to students with 9 sem cr hrs of English 8858.01 (can include equiv qtr cr hrs for 870), English 8858.02, or CompStd 8858. Repeatable to a maximum of 9 cr hrs. Cross-listed in CompStd 8858.			
<b>8858.02</b>	<b>Seminar in Folklore</b>	<b>G</b>	<b>3</b>
Advanced seminar on current or specialized topics in folklore studies. Prereq: Grad standing, or permission of instructor. Not open to students with 9 sem cr hrs of 8858.01 (can include equiv qtr cr hrs for 870), 8858.02, or CompStd 8858. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
<b>8903</b>	<b>Teaching College English</b>	<b>G</b>	<b>1 - 3</b>
Students work as apprentices to faculty members in the planning and execution of an undergraduate English course; 8903 (903) must be taken prior to the candidacy exam. Not open to ABD students. Prereq: 8903 (903). Not open to students with 15 qtr cr hrs for 903 or 9 sem cr hrs for 8903. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>8904</b>	<b>Writing for Publication</b>	<b>G</b>	<b>1 - 3</b>
Assists students in English in learning to write publishable critical essays and in becoming familiar with publishing protocols. Prereq: Not open to students with credit for 904, except by permission of director of Graduate Studies. Repeatable with permission of director of Graduate Studies. This course is graded S/U.			
<b>8982.01</b>	<b>Textual Criticism and Editing</b>	<b>G</b>	<b>1 - 3</b>
Evaluation of literary editorial methods, past and present; training in skills requisite to the textual critic and scholarly editor; practice in textual editing. Prereq: 8980 (980) or equiv. Not open to students with credit for 982, 8982.01, or 8982.02.			
<b>8982.02</b>	<b>Textual Criticism and Editing</b>	<b>G</b>	<b>1 - 3</b>
Evaluation of literary editorial methods, past and present; training in skills requisite to the textual critic and scholarly editor; practice in textual editing. Prereq: 8980 (980) or equiv. Not open to students with credit for 982, 8982.01, or 8982.02. This course is graded S/U.			
<b>8996</b>	<b>Research in English: Candidacy Examination</b>	<b>G</b>	<b>1 - 18</b>
Research in preparation for PhD exams; arranged. Prereq: Permission of director of Grad studies. Not open to students with 30 qtr cr hrs for 996 or 18 sem cr hrs for 8996. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.			

<b>8997</b>	<b>The Dissertation Seminar</b>	<b>G</b>	<b>1 - 3</b>
Doctoral candidates present their research-in-progress to faculty and each other. Prereq: Successful completion of candidacy exam. Not open to students with 15 qtr cr hrs for 997 or 9 sem cr hrs for 8997. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
<b>8998</b>	<b>Research in English</b>	<b>G</b>	<b>1 - 18</b>
Research in English. Prereq: Not open to students with credit for 998. Repeatable. This course is graded S/U.			
<b>8999</b>	<b>Research in English: Dissertation</b>	<b>G</b>	<b>1 - 18</b>
Research for dissertation purposes only. Prereq: Not open to students with credit for 999. Repeatable. This course is graded S/U.			
Entomology			
<b>1100</b>	<b>Exploring Entomology</b>	<b>U</b>	<b>½</b>
Basic understanding of the global trends within entomology, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development.			
<b>1101</b>	<b>Insect Biology</b>	<b>U</b>	<b>4</b>
Acquaints people with the incredible biological diversity represented by the largest group of living animals, the insects. Insects will be used to illustrate important biological principles and functions as well as the scientific process. Prereq: Not open to students with credit for 1111, 3000, 4000, or 4600. GE nat sci bio course.			
<b>1111</b>	<b>Biology of Insects, Animals &amp; Fungi Affecting Buildings</b>	<b>U</b>	<b>4</b>
Acquaint construction engineers with the incredible biological diversity found on Planet Earth using insects as examples and biological models. Management of building attacking and inhabiting insects, animals and fungi will be covered. Prereq: Not open to students with credit for 1101 (101), 3000 (500), 4000 (500), or 4600. GE nat sci bio course.			
<b>1260</b>	<b>Introductory Insect Field Biology</b>	<b>U</b>	<b>2</b>
Biology of insects and their relatives, with emphasis on behavior, ecology, and diversity; collection is required. Offered as one week summer course at Stone Lab. Prereq: Course in high school biology. Not open to students with credit for Entomol 126.			
<b>1350</b>	<b>The Biology of Hope and Belief</b>	<b>U</b>	<b>3</b>
The underlying premise of this course is that the human mind and human behaviors have been shaped by the force of natural selection. Some of these behaviors are complex, longstanding and present in every human culture ever studied. This course explores the biological basis for two of them: the human capacity for hope and the human desire to believe in a supernatural deity. Prereq: Not open to students with credit for Biology 1350. GE nat sci bio course.			
<b>2101</b>	<b>Insects and Human Affairs: Pests, Plagues, Poisons and Politics</b>	<b>U</b>	<b>3</b>
Insects are a daily fact of life, exerting major influence on human affairs over the course of history. The course analyses the extensive and sometimes uncomfortable relationships between insects and humans, including historical roots of insect/human interactions, impact of insects on development of scientific thought, use of insects as experimental models in drug design and military applications. Prereq: Not open to students with credit for 102. GE nat sci bio course.			
<b>2200</b>	<b>Beekeeping</b>	<b>U</b>	<b>3</b>
This class presents general information on the biology, behavior and management of honey bee colonies, including pollination behavior and simple honey processing.			
<b>2400H</b>	<b>Evaluating Evidence in Biology &amp; Medicine</b>	<b>U</b>	<b>3</b>
Explores information and scientific literacies in biology and medicine, with emphasis on science as reported in the media and the use of insects and other organisms as model systems. We use evolutionary theory as the unifying framework for all life on earth. The ability to scrutinize science as reported in popular sources and to procure additional, credible information is emphasized. Prereq: Honors standing. GE nat sci bio course.			
<b>3330</b>	<b>Social Insects</b>	<b>U</b>	<b>3</b>
Three hour general education course. Exploration of biological factors that permit ants, bees, wasps, and termites to maintain large and complex societies. Includes lecture and recitation. Prereq: Entm1gy 1101 (101) or Biology 1101 (101), or equiv. Not open to students with credit for Entm1gy 4440H (Entomol 444H) or Entomol 333. GE nat sci bio course.			
<b>3797.01E</b>	<b>Evolution in Darwin's World and Ours: Context</b>	<b>U</b>	<b>2</b>
Practice historical thinking and research skills while exploring Darwin's life, intellectual development, and theory of species origin in broad historical context. Discussions will include modern evolutionary theory and its broad applications in biology, medicine, and other human endeavors. These themes will be explored during travels abroad in the post-requisite course Entm1gy 3797.02E. Prereq: Fresh standing or above. Not open to students with credit for 3790H or 3797H. GE historical study course.			

## 196 Entomology

**3797.02E Evolution in Darwin's World and Ours: Abroad** U 1

Building on the context of the development of evolutionary theory explored during Entmlyg 3797.01E, we will visit key museums and sights in London, Cambridge, and the village of Downe, England. Special visits with archivists, historians, scientists, and certified guides augment course readings and discussion.  
Prereq: 3797.01E. Not open to students with credit for 3790H or 3797H. GE historical study course.

**4000 General Entomology Lecture** U 3

The course serves both as a single, concise exposure to the subject and as a foundation for advanced work in entomology (systematics, evolution, ecology, management). Lectures cover all fundamental aspects but emphasize basic biological phenomena, including diversity, evolution, classification, structure, function, development, reproduction, behavior, and ecology.  
Prereq: Biology 1113, 1113H, 1114, or 1114H. Not open to students with credit for 3000.

**4001 General Entomology Laboratory** U 1

Laboratories will introduce the major patterns of diversity among insects and will provide experience and develop abilities in the identification of insects. We will explore insect and other arthropod diversity and evolution by collecting, identifying and curating invertebrate specimens. A personally collected and identified insect collection is a major component of the laboratory grade.  
Prereq: Biology 1113, 1113H, 1114, or 1114H. Prereq or concur: Entmlyg 4000. Not open to students with credit for 3000.

**4191 Internship Experiences in Entomology** U 1 - 2

Ten or more weeks of an individualized experiential learning opportunity designed to link theoretical classroom knowledge with practical field application or research experience in an ongoing research environment.  
Prereq: 3000 (500) or 4000 (500), and an additional Entmlyg course at the 3000 (300) level or above, and Soph standing or above, and permission of advisor. Repeatable to a maximum of 4 or hrs or 2 completions. This course is graded S/U.

**4193 Individual Studies** U 1 - 3

Individual work in the field of entomology, involving laboratory, field, or library studies, appropriate for the student's needs.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**4194 Group Studies** U 1 - 3

Special group study of a selected area in the field of entomology not provided in other courses. Repeatable to a maximum of 9 cr hrs or 9 completions.

**4440H Honors Social Insects** U 3

Exploration of biological factors that allow ants, bees, wasps, and termites to maintain large complex societies.  
Prereq: Honors standing, and Entmlyg 1101 (Entomol 101) or Biology 1101 (101), or equiv. Not open to students with credit for Entmlyg 3330 (Entomol 333) or 444H.

**4600 Introduction to Insect Science** U 1

This digital course provides basic information on insects to students intending to take additional coursework in entomology.  
Prereq: Biology 1101 (101), 1113 (113), or 1115H (115H), or equiv. Not open to students with credit for 1101 (101), 1111, 3000 (500), 4000 (500), 460, or 462.

**4601 General Insect Pest Management** U 2

Exploration of insect pests that affect crops, landscapes, public health, and domestic animals, and the biological, cultural, and chemical tactics used to manage them.  
Prereq: 1101, 1111, 3000, 4000, or 4600.

**4602 Urban Landscape and Greenhouse Entomology** U 2

An economic entomology course covering the insect and mite pests of ornamental plants, turfgrass and greenhouse crops. Major pest groups are covered and control of the pests using Integrated Pest Management is emphasized.  
Prereq: 1101 (101), 1111, 3000 (500), 4000 (500) or 4600. Not open to students with credit for 462.

**4603 Agricultural Entomology** U 2

An exploration of insect pests that affect grain, forage, vegetable, and fruit crops, and the biological, cultural, and chemical tactics used to manage them.  
Prereq: 1101, 1111, 3000, 4000 or 4600. Not open to students with credit for Entomol 460.

**4607 Veterinary Entomology** U 2

The goal of this on-line course is to introduce students to the fascinating world of arthropod pests that impact the health and well-being of domesticated animals. The course will place an emphasis on understanding the remarkable biology of blood-feeding arthropods and the diseases that they transmit to companion and livestock animals.

**4998 Undergraduate Research in Entomology** U 1 - 3

Undergraduate experience in entomological research in variable topics.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**4999 Research with Distinction** U 1 - 5

Conducting and reporting research with distinction.  
Prereq: GPA 3.0 or above overall, GPA 3.0 or above in the major, and permission of project supervisor. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman University Undergraduate Research Forum. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**4999H Honors Research with Distinction** U 1 - 5

Conducting and reporting Honors research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the University's Denman Undergraduate Research Forum. Completion of online Honors Research Workshop required prior to enrollment.  
Prereq: Honors standing, and CPHR 3.40 or above, and GPA 3.40 or above in major, and permission of honors project supervisor. This course is graded S/U.

**5001 Entomological and Environmental Approaches to Fly Fishing** U G 3

Students will study the life histories and behaviors of the most common aquatic insects that serve as a primary food source for rainbow, brown and steelhead trout in Ohio streams. To enhance student success and enjoyment of fly fishing, the course content will include stream ecology, hydrology, and hydrodynamics, water quality, how to sample and identify macroinvertebrates, and fly-tying.  
This course is grades S/U.

**5060 Practical Experiences in Plant Health: Insects & Diseases of Plants** U G 2

Plants are attacked by a multitude of pathogens and insects. Each plant in a production region has documented pests that can negatively impact plant health. Environment and production practices can influence the outcome of interactions between pathogens and pests. This is a beginning course for students to learn how to recognize signs and symptoms of economically important pathogens and insects.  
Prereq: 5600 or PlntPth 5603, or permission of instructor. Not open to students with credit for PlntPth 5060. Cross-listed in PlntPth.

**5110 Ecology and Management of Pathogens and Insects Affecting Trees in Forest and Urban Environments** U G 3

Overview of major pathogens and insects affecting health of forest and shade trees with emphasis on diagnosis, ecology, and management. Video-linked to Wooster.  
Sp Sem. Prereq: Not open to students with credit for Entomol 461 or PlntPth 610. Cross-listed in PlntPth.

**5350.01 Taxonomy and Behavior of Aquatic Invertebrates** U G 3

Taxonomy and behavior of the major groups of aquatic invertebrates, with an emphasis on North American freshwater macroinvertebrates. 1-2 required field trips.  
Prereq or concur: ENR 5280, or permission of instructor. Not open to students with credit for ENR 5350.01. Cross-listed in ENR.

**5490 Insect Behavior: Mechanisms and Function** U G 3

The behavior of insects mediates all aspects of their ecological interactions and evolution. This course describes the multitude of behaviors expressed by insects and explores how behavior determines survivorship and fitness. We will discuss selective forces and constraints driving evolution of behaviors and mechanisms that make possible complex expression within simple insect nervous systems.  
Prereq: Jr standing or above. Not open to students with credit for 5420. Cross-listed in EEOB.

**5500 Biological Control of Arthropod Pests** U G 3

Covers philosophy, science, and application of biological control. Biology, mass-production, formulation, and application of various parasites, predators, and pathogens of pests will be discussed.  
Prereq: Jr standing or above. Not open to students with credit for 650.

**5600 Principles and Applications of Integrated Pest Management** U G 3

Overview of the principles of integrated pest management (IPM) of arthropod pests using an ecological approach, including examining how various management tactics can be used in an integrated manner.  
Prereq: Jr standing or above. Not open to students with credit for 660.

**5604 Capstone Course: Problem-Based Studies in Plant Health** U G 2

Students will be presented with a current plant health problem from the industry. They will gather diverse information from consultants, synthesize novel solutions, and develop implementation plans.  
Prereq: Jr, Sr, or Grad standing in Entmlyg, PlntPth, or Plant Hlth Mgmt. Not open to students with credit for PlntPth 5604. Cross-listed in PlntPth.

**5605 Vector Biology and Vector Borne Diseases** U G 3

An overview of the insect vectors that pose the greatest threats to human health. Learn about their basic ecology and behavior, the pathogens they transmit, the diseases caused by those pathogens, and the fascinating biology behind these vector-pathogen-host interactions. Learn also about current methods being implemented around the globe to control vector borne disease transmission.  
Prereq: Biology 1101, 1113, or 1113H, or equiv.; or Grad standing.

**5608 Turfgrass Insect and Mite Pests - Identification, Biology, and Management U G 2**

This course provides information on the insect groups that attack managed turfgrass (lawns, grounds, sport fields, and golf courses) in such a manner that participants will learn how to diagnose and identify common pests, and be able to select appropriate methods of managing these pests.  
Prereq: 1101 (101), 1111, 3000, 4000 (500), or 4600.

**5609 Landscape Ornamental Plant Insect and Mite Pests - Identification, Biology and Management U G 3**

This course covers insects and mites that attack landscape ornamental plants (trees, shrubs, perennials, annuals). Students learn to diagnose and identify common pests, and select appropriate management methods. Management strategies include monitoring techniques, pesticides, biocontrol, resistance, cultural/mechanical controls, in an Integrated Pest Management (IPM) approach.  
Prereq: 1101, 1111, 3000, 4000, or 4600.

**5610 Greenhouse Plant Health and Pest Management U G 3**

Overview of the principles of plant health and pest management applied to the production of plants and other commodities in controlled environments, including greenhouses, urban vertical agriculture, high tunnels, hydroponic systems, and interiorscapes.  
Prereq: Sr standing or above.

**5797 Emerging Arthropods, Pathogens, and Challenges in Vector Biology U G 3**

Provides students with immersive field and lab experiences that span the entire spectrum of vector biology. The course consists of a study abroad component in Xalapa, Mexico (INECOL) focused on the collection and identification of arthropod vectors (e.g., mosquitoes) in the field, and a local component in Wooster, OH (OARDC) focused on molecular approaches used in vector biology. A prior introductory course in entomology or public health/infectious diseases is highly encouraged. Familiarity with the Spanish language is highly recommended for OSU students, and English is needed for INECOL students.  
Prereq: Jr or Grad standing.

**5800 Pesticide Science U G 3**

Exploration of pesticide toxicology and practical use; modes of action in target organisms, regulations, application methods, environmental fate, resistance management, and use in integrated pest management programs.  
Prereq: Jr standing or above.

**6193 Individual Studies G 1 - 6**

Individual work in the field of entomology, involving laboratory, field, or library studies, appropriate for the student's needs.  
Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

**6194 Group Studies G 1 - 3**

Special group study of a selected area in the field of entomology not provided in other courses. Repeatable to a maximum of 9 cr hrs or 9 completions.

**6210 Evolution and Diversity of Insects G 4**

The scope of this course extends from the molecular to at least the community and ecosystem levels. Elucidation of the pattern of insect evolution builds upon molecular, anatomical, and behavioral data. Students will study and learn about the evolutionary and developmental origins of anatomical structures and understand how those structures interact and function.  
Prereq: 3000 or 4000 (500), or equivalent, or permission of instructor.

**6310 Insect Physiology and Molecular Biology G 3**

Explores physiological and molecular mechanisms that regulate insect development and function.  
Prereq: Credit for one Entmlgy course, and Grad standing; or permission of instructor. Not open to students with credit for 631.

**6320 Experimental Insect Physiology and Molecular Biology G 1**

This laboratory course uses both classical and cutting-edge experimental techniques to uncover aspects of insect biology. We will conduct a series of novel experiments on diapausing and non-diapausing model insects to show physiological and molecular mechanisms used to survive winter. The course goal is to create a student co-authored manuscript to submit to the Journal of Insect Physiology.  
Prereq or concur: 6310.

**6410 Insect Ecology and Evolutionary Processes G 3**

Overview of abiotic and biotic factors influencing the diversity, distribution, and abundance of insects with a focus on general ecological and evolutionary principles.  
Prereq: Grad standing, or permission of instructor.

**6501 Mentored Teaching in Entomology G 1 - 3**

Students will work with faculty members to gain intensive hands-on mentored experiences focused on direct interaction with students and on the scholarly aspects of effective teaching.  
Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**6502 Mentored Extension Experience in Entomology G 1 - 3**

Students will work with faculty members to gain intensive hands-on mentored experiences focused on direct interaction with community stakeholders and on various aspects of extension work.  
Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

**6703 Molecular Techniques and Data Analysis G 2**

Deals with basic molecular biology techniques required to conduct genomics, proteomics and metabolomic studies. Hands-on experience in bioinformatics, functional genomics and metabolite analysis will be emphasized.

**7300 Plant Health Management Seminar G 1**

This course is designed to cover current topics in plant health management for students in the Master in Plant Health Management program. Topics and guest speakers may differ from semester to semester and will depend on student interest.  
Repeatable to a maximum of 6 cr hrs. This course is graded S/U. Cross-listed in PlntPth.

**7890 Special Topics in Entomology G 1 - 3**

Seminar on publications, current research, or research techniques.  
Repeatable to a maximum of 6 cr hrs or 6 completions.

**7910 The Nature and Practice of Science G 2**

Analysis and application of logic underlying scientific reasoning, theory, hypothesis, and their integration with experimental design, discovery, ethics, and science as a human endeavor.  
Prereq: Not open to students with credit for Entomol 790.

**7920 Presentation Skills for Scientists G 2**

Professional development course for graduate students who are interested in developing and improving their presentation skills for communicating with peer scientists and the public, using a variety of media.

**7930 Scientific Writing & Grant Proposal Development G 2**

For graduate students who wish to develop and improve their written skills for communicating with technical and nontechnical audiences.

**7999 Research in Entomology, MS G 1 - 16**

Research for thesis purposes only. Research may take place in laboratory, greenhouse, and/or field resources at The Ohio State University in Columbus, Wooster and other associated research areas as determined by student and instructor. Research may include experimental studies, revisional studies, or studies that create original data or technology that contributes to the discipline.  
Prereq: Grad standing in Entomology. Repeatable. This course is graded S/U.

**8000 Entomology Seminar G 1**

Weekly departmental seminars given by experts in the field are used to give students insight into current trends in entomological research.  
Prereq: Grad standing in Entmlgy. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

**8800 Research and Training Seminar G 1**

Presentation of procedures, resources, and faculty research in the Department of Entomology. Required of all graduate majors during the first year of registration.  
Prereq: First year Grad standing in Entmlgy. Not open to students with credit for Entomol 880. This course is graded S/U.

**8998 Research in Entomology, PhD Pre-Candidacy G 1 - 16**

Research for dissertation purposes only. Research may take place in laboratory, greenhouse, and/or field resources at The Ohio State University in Columbus, Wooster and other associated research areas as determined by student and instructor. Research may include experimental studies, revisional studies, or other studies that create original data or technology that contributes to the discipline.  
Prereq: PhD Grad student standing in Entomology without completion of a candidacy exam. Repeatable. This course is graded S/U.

**8999 Research in Entomology, PhD Post-Candidacy G 1 - 16**

Research for dissertation purposes only. Research may take place in laboratory, greenhouse, and/or field resources at The Ohio State University in Columbus, Wooster and other associated research areas as determined by student and instructor. Research may include experimental studies, revisional studies, or other studies that create original data or technology that contributes to the discipline.  
Prereq: PhD Grad student standing in Entomology having completed the candidacy exam. Repeatable. This course is graded S/U.

Environment and Natural Resources

**1100 Environment and Natural Resources Survey U 1**

Survey course for ENR students. Covers academic requirements; university procedures, grading system, resources; student rights and responsibilities; overview of academic areas of study. Also covers career opportunities in Env't and Nat Res.  
Prereq: Not open to students with credit for 119 or FAES 100.

**1100H Environment and Natural Resources Survey - Honors Section U 1**

Survey course for ENR Honors students. Covers academic requirements; university procedures, grading system, resources; student rights and responsibilities; overview of academic areas of study. Also covers career opportunities in Env't and Nat Res.  
Prereq: Honors standing. Not open to students with credit for 119 or FAES 100H.

**1150 ENR Scholars Seminar U 1**

Designed for first year Environment and Natural Resources Scholars students to explore personal interests, interdisciplinary opportunities, campus and local community resources, and issues and activities related to Environment and Natural Resources.  
Prereq: Must be an ENR Scholar. Repeatable to a maximum of 2 cr hrs.

## 198 Environment and Natural Resources

**1200 Exploring Sustainability: SUSTAINS LC Seminar** U 1

This seminar course is designed for SUSTAINS Learning Community students to explore their interests within sustainability, learn about opportunities to be involved in campus and local community sustainability efforts, and connect with campus partners and faculty working and researching in the field. Students must be a part of the SUSTAINS Learning Community in order to take this seminar.

Prereq: Must be in the SUSTAINS Learning Community. Repeatable to a maximum of 2 cr hrs. This course is graded S/U. Cross-listed in AEDEcon.

**1500 Career Development and Success** U 1

Professional development course for SENR majors. The purpose of the course is to help students explore career options and next steps, develop career-specific skills such as interviewing, networking, and resume development, and to connect students with professionals in the field.

Prereq: Soph standing or above, and enrollment in ENR major.

**2000 Natural Resources Data Analysis** U 3

Introductory data analysis course that focuses on understanding and applying basic statistical concepts, problem solving, and interpreting the results of statistical analysis.

Au, Sp Sems. GE data anly course.

**2100 Introduction to Environmental Science** U 3

Introduction to environmental science, the ecological foundation of environmental systems, the ecological impacts of environmental degradation by humans, and strategies for sustainable management of environment and natural resources.

This course is available for EM credit. GE nat sci bio course.

**2155 Energy and Environment** U 3

This course introduces and examines the fundamentals of energy sources, energy use, energy efficiency, and resulting environmental implications of the various energy supplies.

Sp Sem. Prereq: Not open to students with credit for 155 or EarthSc 2155 (EarthSci 155). GE nat sci phys course. Cross-listed in EarthSc.

**2191 Part-time Professional Practice in Environment and Natural Resources** U 1

Part-time practical professional experience in an environmental/natural resources field.

Prereq or concur: 3191. Repeatable to a maximum of 4 cr hrs. This course is progress graded (S/U).

**2300 Society and Natural Resources** U 3

Introduction to interactions between humans, natural resources, and ecosystems from a social science perspective.

Au, Sp, Su Sems. Prereq: Not open to students with credit for 203. GE soc sci human, nat, and econ resources course.

**2360 Ecology and Conservation of Birds** U 2 - 3

Introduction to the ecology and conservation of birds, with special emphasis on field ornithology and student research projects. Course integrates many concepts to build understanding of how research and management can support bird conservation.

Prereq: Not open to students with credit for 230 or 231.

**2367 Communicating Environmental and Natural Resources Information** U 3

Concepts, skills development, and practice in accessing and communicating information about the environment and natural resources to varied audiences; emphasis on written and oral communication.

Prereq: English 1110, and Soph standing or above. GE writing and comm course: level 2.

**2500 Introduction to Sustainability** U 3

Introduces students to principles from various disciplines related to social, economic and environmental sustainability. Students will evaluate key concepts and examine tradeoffs that are a part of sustainability action using case studies representing diverse perspectives.

Prereq: Soph standing, or permission of instructor. Not open to students with credit for AEDEcon 2500. Cross-listed in AEDEcon.

**3000 Soil Science** U 3

Introduction to soil physical, chemical, and biological properties related to land use, environmental quality, and crop production.

Au, Sp Sems. Prereq: Not open to students with credit for 300.01. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.

**3001 Soil Science Laboratory** U 1

Observation and quantitative determination of soil properties.

Prereq or concur: 3000. GE nat sci phys course.

**3005 Soil and Site Evaluation for Onsite Wastewater Treatment** U 3

This is a hybrid course (online & field labs) in assessing sites and soils for designing environmentally responsible on-site wastewater treatment systems. It covers assessing soil conditions, description of soil horizons and properties, identification of limiting conditions, mapping methods to develop site plans, and understanding of soil hydrology relevant to onsite wastewater treatment.

**3100 Introduction to Sustainable Agriculture** U 3

This course is an introduction to the issues, concepts and practices associated with sustainable agriculture. Since agriculture is a complex social-ecological system which integrates a wide range of economic, environmental and social aspects, this course uses a multidisciplinary approach to enable students to assess the sustainability of agricultural systems.

**3191 Conducting Your Internship in the School of Environment and Natural Resources** U 0

SENR strives to provide opportunities for students to develop the critical competencies and technical knowledge and skills that employers demand in the job market and that are necessary for student success in their chosen field. This class provides students the structure to complete the initial requirements of their internship experience and begin reflecting on that experience.

Prereq: Internship approval, and permission of instructor. Repeatable to a maximum of 4 completions. This course is graded S/U.

**3200 Environmental and Natural Resources Policy** U 3

This course covers topics such as the constitutional foundations of environmental policy, the role of congress and the executive branch in designing policy and bureaucratic agencies in implementing them, and the courts system as the final arbiter for environmental disputes. It also covers some of the foundational legislation in the U.S. to protect the environment and natural resources.

Prereq: 2100 and 2300. Not open to students with credit for 4000. GE soc sci orgs and polities course.

**3280 Water Quality Management** U 2

Causes, consequences, and solutions of pollution in lakes, rivers, wetlands, and groundwater; analysis of the physical, chemical, and biological indicators of water quality.

**3300 Introduction to Forestry, Fisheries, and Wildlife** U 3

This course is an introduction to the basic elements of forestry, fisheries, and wildlife (FFW) ecology and management for majors in environment and natural resources. This course has also been organized to provide an introduction to non-majors who may not have the opportunity to take further courses in these fields.

Prereq: 2100 or EEOB 3410. Not open to students with credit for 3300E.

**3300E Introduction to Forestry, Fisheries, and Wildlife** U 3

This course is an introduction to the basic elements of forestry, fisheries, and wildlife (FFW) ecology and management for majors in environment and natural resources. This course has also been organized to provide an introduction to non-majors who may not have the opportunity to take further courses in these fields.

Prereq: Honors standing, and 2100 or EEOB 3410. Not open to students with credit for 3300.

**3321 Biology and Identification of Woody Forest Plants** U 3

Field identification of trees, shrubs, and vines in temperate forest ecosystems; basic biological principles of morphology, reproduction, growth, genetics, and taxonomy of major woody species.

Au Sem. Prereq: Not open to students with credit for 221.

**3322 Forest Ecosystems** U 3

Structure and function of temperate forest ecosystems; field-oriented study of the relationships among ecosystem components, and of the composition and successional dynamics of forest communities. One or more all-day field trips.

Au Sem. Prereq or concur: 2100 (210), 2300 (203), and 3321 (221), or permission of instructor. Not open to students with credit for 322.

**3323 Forest Biometrics** U 3

A study of the quantitative decision tools necessary to measure the forest resource; confidence and probability measures of land area, timber, water, wildlife, and recreation.

Sp Sem. Prereq: 2000 (222), Stat 1450 (145), HCS 2260 (260), or AnimSci 2260 (260). Not open to students with credit for 323.

**3333 Silviculture** U 3

Ecological principles and practical applications of methods for controlling forest ecosystem structure and function; prescription of silvicultural practices in the field. One or more all-day field trips.

Sp Sem. Prereq or concur: 2100 (201), 2300 (203), and 3321 (221), or permission of instructor. Not open to students with credit for 333.

**3335.01 Introduction to Wildland Fire Management** U 2

Wildland fire behavior, fire safety, control of wildland fires, and the use of prescribed fire in management objectives. Meets S-100 and S-190 requirements for wildland firefighter certification.

Au Sem. Prereq: Not open to students with credit for 350.01.

**3335.02 Wildland Fire Management Laboratory** U 1

Teaches wildland firefighter skills and safety, and provides familiarity with tools and apparatus. Meets S-130 requirements for wildland firefighter certification. One weekend field work required.

Au Sem. Prereq or concur: 3335.01. Not open to students with credit for 350.02.

**3400 Psychology of Environmental Problems** U 3

The theory and psychology behind individual and group behavior as it relates to environmental problems.

Au Sem. Prereq: 2300 (203) or Psych 1100 (100). Not open to students with credit for 615.

## Environment and Natural Resources 199

**3470 Religion and Environmental Values in America** U 3

Examines development & influence of religious environmental values & their impact on environmental citizenship in America; Jewish, Muslim, Buddhist & Christian environmental perspectives; stewardship, eco-justice & creation spirituality.  
Sp Sem. Prereq: Not open to students with credit for 347. GE cultures and ideas course.

**3470E Religion and Environmental Values in America** U 3

Examines development & influence of religious environmental values & their impact on environmental citizenship in America; Jewish, Muslim, Buddhist & Christian environmental perspectives; stewardship, eco-justice & creation spirituality.  
Prereq: Honors standing. Not open to students with credit for 3470. GE cultures and ideas course.

**3500 Community, Environment and Development** U 3

Social change related to natural resource and environmental issues. Includes a focus on community-level initiatives, environmental social movements, and issues of environmental justice.  
Sp Sem. Prereq: 2300 (203), RurlSoc 1500 (105), or Sociol 1101 (101).

**3530 Women, Environment and Development** U 3

Interdisciplinary study of women's roles as environmental stewards and in resource-based development in global context. Attention given to gender differences in environmental and rural development practices.  
Cross-listed in WGSSt.

**3600 Management of Public Lands** U 3

Examination of parks and recreation concepts including development, rationale, and frameworks for park and recreation systems in the United States.  
Prereq or concur: 2100 and 2300.

**3611 Foundations for Environmental Communications, Education and Interpretation** U 2

Foundational course that prepares students for understanding the theoretical bases that relate to and differentiate between environmental communications, education, and interpretation. Course includes required field trips.  
Au Sem. Prereq: Not open to students with credit for 311.

**3700 Introduction to Spatial Information for Environment and Natural Resources** U 3

Introduction to methods of collecting and utilizing spatial information (GIS, RS and GPS) for Environmental and Natural Resources management.  
Prereq: Not open to students with credit for 3750 or 324.

**3800 Principles and Tools of Ecosystem Restoration** U 2

The new Anthropocene era brings with it mass extinctions, climate change, and ecosystem degradation. Restoration provides us with hope for the future. We will examine the philosophical and practical basis for restoration, reviewing how decisions are made and implemented.  
Prereq: 2100 or Biology 1114, or permission of instructor. Not open to students with credit for 5560.

**3900 Sustainability Metrics** U 4

Addresses the use of metrics, data, and indicators to measure sustainability and track progress. The course will survey a broad range of environmental challenges and evaluate the choices confronting public and private groups. Students will use software tools to quantify sustainability measures.  
Prereq: 2000 or AEDEcon 2005, or other GE Data Analysis course.

**4191 Professional Practice in Environment and Natural Resources** U 2

Full-time practical professional experience in an environmental/natural resources field.  
Prereq or concur: 3191. Not open to students with 4 cr hrs of 4191. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

**4193 Individual Studies in Environment and Natural Resources** U 1 - 3

Individual Studies in Environment and Natural Resources.  
Au, Sp Sems. May Term. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

**4260 Soil Resource Management** U 3

Degradation of the soil by erosion, compaction and salinity. Methods of preventing degradation and remediating existing problems. Special emphasis on conservation tillage, crop rotations, and irrigation management.  
Prereq: 3000 (300.01), or permission of instructor. Not open to students with credit for 442.

**4285 Watershed Hydrology** U 3

Covers hydrologic processes in watersheds, including precipitation, evapotranspiration, infiltration, runoff, and streamflow. We will evaluate how watershed characteristics, climate, and land use control these processes. In addition, we will discuss and practice current physical, chemical, and computational techniques for characterizing the hydrologic functioning of watersheds.  
Prereq: Chem 1210, and Math 1151 or 1156.

**4320 Sustainable Forest Products** U 3

Study of forest operations & environmental effects, including timber harvesting & transport from forest to the mill. Uses of wood, fiber products, & wood waste, including solid wood products, wood composites, biomass energy, & biofuel.  
Sp Sem. Prereq: 2100 (201) and 2300 (203), or permission of instructor. Not open to students with credit for 432.

**4342 Freshwater Fisheries Management** U 3

Ecological principles applied to conservation and management of aquatic vertebrates. Principles of fisheries management including social and economic factors.  
Prereq: 3300, or permission of instructor.

**4345 Methods in Aquatic Ecology** U 4

Introduction to experimental designs, field and laboratory techniques, and statistical methods commonly used to study aquatic ecosystems.  
Prereq: 2000, Stat 1450, or other GE Data Analysis course, or permission of instructor. Not open to students with credit for 5345.

**4360 Zoo Science and Management** U 2

Introduces students to zoo science and management through combination of formal course work and experience with zoo/aquarium professionals.  
Sp Sem. Prereq: 3300 (319), 3600 (340), or 3611 (311), or permission of instructor. Not open to students with credit for 415.

**4400 Law and Legal Process** U 3

Introduction to American law and legal process. Addresses law, science, and administrative process esp. in regard to planning and management of land, natural resources, and the environment; examines related cases, statutes, rules, permits.  
Prereq: Not open to students with credit for 694.

**4450 Climate Change Policy** U 3

Climate change adaptation and mitigation policy instruments and governance processes; theoretical frameworks for analysis of climate change governance.

**4567 Assessing Sustainability: Project Experience** U 3

Students gain experience in sustainability assessment by applying concepts and quantitative methods to evaluate environmental, economic, social, & technical sustainability of specific projects. EEDS major capstone. Co-taught by ENR/AEDE/FABE faculty.  
Prereq: 2500 or AEDEcon 2500, and Sr standing; or permission of instructor. Not open to students with credit for AEDEcon 4567. Cross-listed in AEDEcon.

**4610 Natural History of Ohio** U 3

Field course emphasizing inter-relationship among physical and biological factors in various ecological settings; field techniques and identification skills used for research paper. Sat field trip.  
Sp Sem. Prereq: Not open to students with credit for 510.

**4611 Environmental Interpretation and Visitor Services** U 3

Principles and practice in communicating with visitors in leisure and non-formal education settings.  
Sp Sem. Prereq: Not open to students with credit for 410.

**4648 Environment and Natural Resources Law Enforcement** U 3

An examination of the law enforcement function in environment and natural resources and recreation management. Prerequisite for acceptance to the Natural Resources Ranger Academy program.  
Sp Sem. Prereq: Not open to students with credit for 448.

**4800 Practical Skills for Terrestrial Ecosystem Restoration** U 2

This course develops practical skills in restoration ecology and gives the ability to implement restoration management plans. This includes invasive species control, planting native species, seed collection, soil seedbank assays, plant propagation, and ground preparation.  
Prereq: 3800.

**4890H Honors Colloquium** U 1

Instruction in the preparation of research proposals and discussion of current research in natural resources. Required of all ENR honors students.  
Prereq: Honors standing, and Jr standing in ENR. Not open to students with credit for 590H. This course is graded S/U.

**4900.01 Environment and Natural Resources Management** U 3

Integration of technical knowledge with social and institutional constraints as they relate to professions in ENR management.  
Prereq: Sr standing in ENR.

**4900.02 Environment and Natural Resources Management for Forestry Fisheries and Wildlife** U 3

Application and integration of technical knowledge and methodologies in the forestry, fisheries, and wildlife sciences to planning, problem-solving, and decision-making in environment and natural resources.  
May Term. Prereq: Jr or Sr standing in ENR. Not open to students with credit for 606.02.

## 200 Environment and Natural Resources

**4950 Wilderness Leadership Education** U 3

Affiliate program with the North Carolina Outward Bound School (NCOBS). Field studies and practice of wilderness expedition skills, leadership, group dynamics, safety, judgment, and environmental studies. Approval of NCOBS application required. Specific content, location, semester(s) of offering and prerequisites vary. Students will pay OSU fees and any fees in excess of OSU tuition, incl. travel.  
Prereq: Permission of instructor.

**4998 Undergraduate Research** U 1 - 6

Conducting and reporting undergraduate research.  
Prereq: Permission of research project supervisor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

**4999 Research with Distinction** U 1 - 6

Conducting and reporting undergraduate research. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman Undergraduate Research Forum.  
Prereq: 3.0 CPHR or above, and permission of project supervisor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

**4999H Honors Research With Distinction** U 1 - 6

Conducting and reporting honors research with distinction.  
Prereq: Honors standing, and CPHR 3.4 or above, and permission of instructor. Repeatable to a maximum of 6 or hrs or 3 completions. This course is graded S/U.

**5194 Group Studies** U G 1 - 3

Group studies on the nature and management of environmental and natural resources encompassed in various developing and special topics.  
Au, Sp Sems. Prereq: Permission of instructor. Not open to students with maximum qtr or hrs for 694. Repeatable to a maximum of 6 or hrs or 2 completions.

**5210 US Environmental Impact Assessment** U G 3

Study of impact of human activity in natural resources through evaluation of environmental impact.  
Prereq: Jr, Sr, or Grad standing.

**5211 International Environmental Impact Assessment** U G 3

Fundamental concepts of international environmental impact assessment including the legal and institutional frameworks, practice and performance, and social and cultural contexts that shape EIA's implementation worldwide.  
Prereq: Jr, Sr, or Grad standing, or permission of instructor.

**5250.01 Wetland Ecology and Restoration** U G 3

Wetland hydrology, biogeochemistry, vegetation, biotic adaptations. Ecosystem services, classification, and management of wetlands. Fundamental concepts of ecological engineering applied to wetland creation and restoration and river restoration.  
Prereq: EEOB 503.01 or Grad standing. Not open to students with credit for 725 or 726.

**5250.02 Wetland Field Laboratory** U G 1

Laboratory on wetland hydrology, vegetation, water quality, soils, and aquatic biota.  
Prereq: Concur: 5250.01. Not open to students with credit for 725 or 726.

**5260 Soil Landscapes: Morphology, Genesis and Classification** U G 3

Course in soil genesis, classification and mapping.  
Au Sem. Prereq: 3000 (300.01) and 3001 (300.02); or Grad standing; or permission of instructor. Not open to students with credit for 650.

**5261 Environmental Soil Physics** U G 3

Principally involves the state and transport of water, heat and gas within soil, and the associated soil physical properties.  
Sp Sem. Prereq: Not open to students with credit for 655 or 671.

**5262 Environmental Soil Chemistry and Remediation** U G 3

Environmental soil chemistry relevant to soil and contaminant remediation. Excessive phosphorus fertilizer, degraded coal mineland soils; salt degradation; heavy metal contamination; urban soils. Socioeconomic considerations including cost and community/regulatory agency acceptance. Laboratory focuses on hands-on soil investigation/problem solving using soil geochemical computer models.  
Prereq: One semester of Chemistry, or Grad standing.

**5263 Biology of Soil Ecosystems** U G 3

A comprehensive study of microbial communities and their role in providing ecosystems services.  
Prereq: 3000, or Grad standing.

**5265 Field Investigations: Microbial Ecology Methods for Environmental and Agricultural Applications** U G 2

Field soil observations; sampling across the landscape; GPS and GIS data acquisition systems and spatial statistical analysis; soil physical and water measurements in the field.  
Prereq: 3000 and 3001; or Grad standing.

**5266 Field Soil Investigation: Soil Chemistry, Fertility and Biology** U G 3

A comprehensive overview of theory, principles and techniques of laboratory methods used for chemical analysis of soil, plant material, and environmental samples.  
Sp Sem. Prereq: Not open to students with credit for 740.

**5268 Soils and Climate Change** U G 3

This course is designed for students interested in learning basic soil and geologic processes as they impact climate change and are impacted by it. Topics covered include soil processes, abrupt climate change, trace gases and their properties, global C cycle, gaseous emissions, C-neutral fuels, carbon sequestration, Kyoto Treaty, and trading of C credits.  
Prereq: Not open to students with credit for EarthSc 5268. Cross-listed in EarthSc.

**5270 Soil Fertility** U G 3

Provides a broad overview of the principles of soil fertility, plant nutrition, & nutrient management in managed ecosystems. Covers foundational information on the cycling of individual nutrients in soil, including the biotic and abiotic factors that influence these dynamics. Exposure to many contemporary issues around nutrient management and basic practical skills for managing nutrients.  
Prereq: 3000, or Grad standing, or permission of instructor.

**5271 Soils of Forest Ecosystems** U G 3

Characteristics and processes of soils in natural and managed forests; interactions of forest communities and soils; mgmt of soils in forest ecosystems. Designed for all students & practicing professionals in forestry & soil science.  
Au Sem. Prereq: 3000 (300.01), or Grad standing, or permission of instructor. Not open to students with credit for 630.

**5272 Turfgrass Soils** U G 2

Soil properties and processes of specifically designed and constructed soils meeting the agronomic and playability requirements of golf course and athletic field venues.  
Sp Sem. Prereq: 3000 (300.01); or Grad standing; or permission of instructor. Not open to students with credit for 540.

**5273 Environmental Fate and Impact of Contaminants in Soil and Water** U G 3

An overview of contaminant sources, transport through soil and water, and environmental fate and impact to human and ecosystem receptors.  
Sp Sem. Prereq: Grad standing or two semesters of chemistry. Not open to students with credit for 675.

**5274 Ecosystems Simulation** U G 3

A laboratory course in conducting computer simulations of agricultural, forest and aquatic ecosystems addressing both production and environmental protection issues.  
Prereq: 3000 (300.01) and 3001 (300.02), or Grad standing. Not open to students with credit for 730.

**5279 Urban Soils and Ecosystem Services: Assessment and Restoration** U G 3

A comprehensive study focused on assessment and restoration of urban soil to provide essential ecosystem services. Urban soil laboratory provides hands-on experience with soil assessment and restoration.

**5280 Stream Ecology** U G 4

Structure, function, and biota of streams and rivers. Emphasis on ecosystem processes and community dynamics over space and time. Conservation, restoration, water policy, and environment-justice issues are also addressed.  
Prereq: 3300, or Grad standing, or permission of instructor.

**5310 Ecological Engineering and Science** U G 4

Definition, classification, and practice of Ecological Engineering. Course explores ecological ecosystems, ecosystem restoration, and the utilization of natural processes to provide societal services and benefits to nature.  
Prereq: One course in Biology, Ecology, Engineering, or Geology, and Jr standing or above. Not open to students with credit for EnvEng 5310 or FABEng 5310. Cross-listed in EnvEng and FABEng.

**5320 Forest Management** U G 3

Application of biological, economic, and planning principles to address the sustainable management of forest resources with emphasis of the timber resource and associated products.  
Sp Sem. Prereq: 3323 (323) and 3333 (333), or Grad standing, or permission of instructor. Not open to students with credit for 635.

**5325 Forest and Public Lands Policy** U G 3

Explores important, relevant and leading-edge concepts in U.S. forest and public lands policy. Emphasizes political, legal, and administrative issues of federal and state lands, including forests, parks, rangelands, and wildlife refuges. Moderate proficiency with GIS expected.  
Prereq: 3200, or Grad standing.

**5340 Forest Ecosystem Management** U G 3

Concepts and methods applied to managing forests across broad landscapes for biodiversity, multiple uses, and ecosystem integrity within the context of traditional forest management.  
Au Sem. 2 1.5-hr cl. Prereq: Sr or grad standing, and permission of instructor. Not open to students with credit for 734.

**5348 Aquatic Population Ecology & Management** U G 3

Applies concepts and principles from the fields of population ecology, demography and population genetics to current conservation and management problems facing populations of aquatic organisms.  
Prereq: 3300 or EEOB 3410, or Grad standing, or permission of instructor.

## Environment and Natural Resources 201

<b>5350.01</b>	<b>Taxonomy and Behavior of Aquatic Invertebrates</b>	<b>U G</b>	<b>3</b>
Taxonomy and behavior of the major groups of aquatic invertebrates, with an emphasis on North American freshwater macroinvertebrates. 1-2 required field trips. Prereq or concur: 5280, or permission of instructor. Not open to students with credit for Entmly 5350.01. Cross-listed in Entmly.			
<b>5350.02</b>	<b>Taxonomy and Behavior of Fishes</b>	<b>U G</b>	<b>3</b>
Taxonomy and behavior of the major groups of fishes, with an emphasis on North American freshwater fishes.			
<b>5355</b>	<b>Aquaculture</b>	<b>U G</b>	<b>3</b>
Overview of physical, biological, and economical factors influencing fish culture systems. World fish production practice comparisons. Emphasis on propagation and conservation efforts. 3 cl, 1 4-hr lab, 2 hatchery trips. Prereq: 2000, and 3300 or BIOCHEM 4511, and CHEM 1210, or grad standing. Not open to students with credit for 628.			
<b>5358</b>	<b>Applied Vertebrate Physiological Ecology</b>	<b>U G</b>	<b>3</b>
An examination of the physiological responses of vertebrate animals to human-induced environmental change, and the consequences of these responses for individuals and populations. This will be accomplished by an exploration of the current primary literature. SP semester only. Prereq: EEOB 3410 or permission of instructor.			
<b>5360</b>	<b>Principles of Wildlife Ecology and Management</b>	<b>U G</b>	<b>3</b>
Principles of population and community ecology applied to conservation and mgmt of terrestrial vertebrates. Principles of wildlife management including social and economic factors. Au Sem. Prereq: Not open to students with credit for 623.			
<b>5362</b>	<b>Wildlife Ecology Methods</b>	<b>U G</b>	<b>3</b>
Methods used by wildlife ecologists to measure population characteristics and habitat quality for wild terrestrial vertebrates. 1-2 Sat and 1 full weekend field trips required. Au Sem. Prereq: 2000, 3300, Stat 1450, or Grad standing. Not open to students with credit for 662.			
<b>5364.01</b>	<b>Mammalian Wildlife Biology and Management</b>	<b>U G</b>	<b>3</b>
Identification, ecology, and population management of North American mammals. 1-2 Sat field trips required. Au Sem. Prereq: 3300 (319) or equiv, or Grad standing, or permission of instructor. Not open to students with credit for 624.			
<b>5364.02</b>	<b>Avian Wildlife Biology and Management</b>	<b>U G</b>	<b>3</b>
Identification, ecology, and population management of North American birds. 1-2 Sat field trips required. Sp Sem. Prereq: 3300 (319) or equiv, or Grad standing, or permission of instructor. Not open to students with credit for 624.			
<b>5370</b>	<b>Management of Wildlife Habitat</b>	<b>U G</b>	<b>3</b>
Introduction to the principles of wildlife-habitat relationships, natural history of major North American ecosystems with an Ohio focus, and the conservation and management of wildlife habitats within those ecosystems. Prereq: 3300, or Grad standing.			
<b>5374</b>	<b>Landscape Ecology for Natural Resource Management</b>	<b>U G</b>	<b>3</b>
In this course, students will gain a practical working understanding of landscape ecology, with the goals of understanding how landscape processes operate at different scales, knowing how to assess spatial patterns and processes, and understanding how landscape ecology principles and theory apply to natural resource assessment and management. Prereq: Grad standing, or permission of instructor.			
<b>5400</b>	<b>Interventions to Promote Pro-environmental Behavior</b>	<b>U G</b>	<b>3</b>
This course focuses on using psychology to change human behavior in service of sustainability. We will explore a variety of approaches for promoting pro-environmental behavior. You will learn how to design and evaluate behavioral intervention programs. Prereq: 3400 or Psych 1100, or permission of instructor.			
<b>5451</b>	<b>Water Policy and Governance</b>	<b>U G</b>	<b>3</b>
This class examines institutions to manage water effectively at a variety of levels -state, federal, and international- and analyzes how they affect water access and use in different areas (agriculture, energy, etc.). Students in the class will also engage in a careful examination of the sources of conflict and cooperation among water stakeholders on a regional and global scale. Prereq: 3200 or 4000, or Grad standing.			
<b>5480</b>	<b>Local Peoples and International Conservation</b>	<b>U G</b>	<b>3</b>
Uses interdisciplinary thinking to explore the global environmental crises and the conflicts between indigenous/local peoples, conservationists, and policy makers regarding natural resource use. The course examines biodiversity conservation, protected areas, community-based conservation, global inequities, environmental history and politics, and sustainable development.			
<b>5560</b>	<b>The Dynamics of Ecosystem Restoration</b>	<b>U G</b>	<b>3</b>
Ecosystems undergoing restoration are dynamic and witness major changes in their species diversity, composition, and ecosystem function. This course develops an understanding of how biotic and abiotic conditions interact with management to influence ecosystems' development. EEOB 3410 is recommended for success in this course. Prereq: 3800 and 4800; or Grad standing; or permission of instructor.			

<b>5600</b>	<b>Sustainable Agriculture and Food Systems</b>	<b>U G</b>	<b>3</b>
Integrative look at the social, economic, and production/environmental dimensions of sustainable agriculture and food systems. Particular attention to sociological, soil science and related disciplinary perspectives. Prereq: 3000 (300.01) and 3500, or grad standing.			
<b>5640</b>	<b>Natural Resources Program Planning</b>	<b>U G</b>	<b>3</b>
Inventory and evaluation of natural resources for program planning with consideration of goals, objectives and actions, budgeting, and planning documents. Prereq: 3600. Prereq or concur: 3200 and 3700; or Grad standing.			
<b>5642</b>	<b>Environment and Natural Resources Administration</b>	<b>U G</b>	<b>3</b>
Organization and administration of environment and natural resource agencies and non-governmental organizations. Sp Sem. Prereq: 4000 (400), or grad standing, or permission of instructor. Not open to students with credit for 642.			
<b>5649</b>	<b>Wildlife Conservation Policy</b>	<b>U G</b>	<b>3</b>
Overview of fish and wildlife policy in the US and key issues affecting wildlife conservation in North America. Sp Sem. Prereq: 4000 (400), or Grad standing. Not open to students with credit for 649.			
<b>5690</b>	<b>Workshop in Environmental Education</b>	<b>U G</b>	<b>2</b>
Problems of instruction in environmental education with consideration of both traditional approaches and current developments in content and methodology. Taught at F.T. Stone Lab. Su Sem. Prereq: Jr standing or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs.			
<b>5790.06</b>	<b>Iceland Education Abroad Seminar</b>	<b>U G</b>	<b>1</b>
Pre-departure preparation for Iceland Study Abroad. Provides a general introduction to the country so that learning opportunities in-country will be maximized. Prereq: Accepted and committed to participate in the SENR Study Abroad Program in Iceland.			
<b>5790.07</b>	<b>Dominican Republic Study Abroad Seminar</b>	<b>U G</b>	<b>1</b>
Pre-departure preparation for Dominican Republic Study Abroad. Prereq: Accepted and committed to participate in the SENR Study Abroad Program in Dominican Republic.			
<b>5790.08</b>	<b>China Research Abroad Seminar</b>	<b>U G</b>	<b>1</b>
Pre-departure seminar for students participating in the China Research Abroad trip. Students will develop a research project during this course with the guidance from the instructor, creating the protocols necessary to execute the project in China. Prereq: Students must be participating in the China Research Study Abroad program. This course is graded S/U.			
<b>5790.10</b>	<b>Antarctica Study Abroad Seminar</b>	<b>U G</b>	<b>1</b>
Pre-departure preparation for Antarctica study abroad. Provides general introduction to the country so that learning opportunities in-country will be maximized. Prereq: Acceptance into the Antarctica Study Abroad. Not open to students with credit for EarthSc 5790.10. Cross-listed in EarthSc.			
<b>5790.11</b>	<b>Tanzania Study Abroad Seminar</b>	<b>U G</b>	<b>3</b>
Pre-departure preparation for Tanzania Study Abroad. Prereq: Acceptance into the Tanzania Study Abroad program.			
<b>5797.01</b>	<b>Study at a Foreign Institution: Australia</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Au, Sp, Su Sems. Prereq: Permission of dept chairperson. Not open to students with 30 cr hrs or 2 completions of 5797 (697). Repeatable to a maximum of 30 cr hrs or 2 completions. This course is progress graded.			
<b>5797.02</b>	<b>Study at a Foreign Institution: Australia</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of resident director. Not open to students with 2 completions or 30 cr hrs of 5797 (697). This course is progress graded.			
<b>5797.03</b>	<b>Study at a Foreign Institution: New Zealand</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of resident director. Not open to students with 30 cr hrs or 2 completions of 5797 (697). This course is progress graded.			
<b>5797.04</b>	<b>Study at a Foreign Institution: New Zealand</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of resident director. Not open to students with 30 cr hrs or 2 completions of 5797 (697). This course is progress graded.			
<b>5797.05</b>	<b>Study at a Foreign Institution: Fiji</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of resident director. Not open to students with 2 completions of 5797 (697). This course is progress graded.			

## 202 Environment and Natural Resources

<b>5797.06</b>	<b>Study at a Foreign Institution: Iceland</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of dept chairperson.			
<b>5797.07</b>	<b>Study at a Foreign Institution: Dominican Republic</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of the resident director. Not open to students with 2 completions of 5797 (697). This course is progress graded.			
<b>5797.08</b>	<b>Study at a Foreign Institution: China Research</b>	<b>U G</b>	<b>3</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of resident director. Not open to students with 2 completions of 5797 (697). This course is progress graded.			
<b>5797.09</b>	<b>Study at a Foreign Institution</b>	<b>U G</b>	<b>1 - 15</b>
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students pay OSU and other fees. Prereq: Permission of department chairperson. Not open to students with 2 completions or 30 or hrs of 5797 (697). Repeatable to a maximum of 30 cr hrs or 2 completions. This course is progress graded.			
<b>5797.10</b>	<b>Study at a Foreign Institution: Antarctica</b>	<b>U G</b>	<b>3</b>
Two weeks of field studies in Antarctica and Ushuaia, Argentina. This course is a collaborative effort between Ohio State, American Universities International Programs, University of Canterbury, New Zealand, and Gateway Antarctica: Centre for Antarctic Studies and Research. Prereq: Acceptance into the Antarctica Study Abroad program. Concur: 5790.10. Not open to students with credit for EarthSc 5797.10. Cross-listed in EarthSc.			
<b>5797.11</b>	<b>Study at a Foreign Institution: Tanzania</b>	<b>U G</b>	<b>3</b>
Three weeks of field studies in Tanzania. Prereq: 5790.11.			
<b>6000</b>	<b>Research in Environment and Natural Resources</b>	<b>G</b>	<b>2</b>
The use of science and research to address natural resource problems; development of a thesis proposal. Au Sem. Prereq: Grad standing. Not open to students with credit for 800. This course is graded S/U.			
<b>6100</b>	<b>Advanced Principles in Environmental Science</b>	<b>G</b>	<b>3</b>
This course will cover principal concepts of environmental science including global environmental challenges. A major focus of the course will be to understand different global nutrient cycles and their linkages to pressing environmental issues. A special emphasis will be placed on the ecological and social science frameworks required to manage critical air, soil, and water resources.			
<b>6193</b>	<b>Individual Studies in Environment and Natural Resources</b>	<b>G</b>	<b>1 - 3</b>
Individual Studies in Environment and Natural Resources. Au, Sp, Su Sems. May Term. Prereq: Permission of instructor. Not open to students with 9 cr hrs for 6193 (693). Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>6194</b>	<b>Advanced Group Studies</b>	<b>G</b>	<b>1 - 3</b>
Group studies on the science and discipline of environmental and natural resources encompassed in various developing and special topics. Au, Sp Sems. Prereq: Permission of instructor. Not open to students with 6 cr hrs or 2 completions for 894. Repeatable to a maximum of 6 cr hrs or 2 completions.			
<b>6400</b>	<b>Theories in Environmental Social Sciences</b>	<b>G</b>	<b>3</b>
This course provides a broad, interdisciplinary overview of theories and frameworks for understanding and addressing environmental and natural resource management dilemmas. The primary goals of this course are to introduce graduate students to (1) theories that explain why/how human beings impact their environment, and (2) interdisciplinary frameworks for addressing environmental problems.			
<b>6510</b>	<b>Research Design for the Environmental Social Sciences</b>	<b>G</b>	<b>3</b>
Introduction to designing research for building and testing theory in environmental social science disciplines. Bridges qualitative and quantitative research approaches. Prereq: 6000, or permission of instructor. Not open to students with credit for 8510.			
<b>7004</b>	<b>Social-Ecological Systems</b>	<b>G</b>	<b>3</b>
This course provides an overview of frameworks, theories and methods used in the interdisciplinary study of social-ecological systems, including complex adaptive systems, resilience, institutional analysis, cultural evolution, ecosystem services, and coupled human and natural systems. Students will also learn how to effectively collaborate in interdisciplinary studies of social-ecological systems. Prereq: Grad standing. Not open to students with credit for Anthropol 7004. Cross-listed in Anthropol.			
<b>7150</b>	<b>Environment, Risk, and Decision Making</b>	<b>G</b>	<b>3</b>
Theory of individual and participatory decision making processes under risk and uncertainty and applications to improve decision making in environmental risk management contexts. Prereq: Not open to students with credit for 8150.			

<b>7191</b>	<b>MENR Internship</b>	<b>G</b>	<b>3</b>
Internship experience for Master of Environment and Natural Resources (MENR) program. Prereq: Enrollment in the Master of Environment and Natural Resources program.			
<b>7333</b>	<b>Successional Dynamics of Forests</b>	<b>G</b>	<b>3</b>
Analysis of past development of forest stands; examination of major processes causing changes over time in communities of trees. One or more all-day field trips. * Sp Sem (odd yrs). Prereq: Grad standing, and permission of instructor. Not open to students with credit for 733.			
<b>7380</b>	<b>Climate and Society</b>	<b>G</b>	<b>3</b>
Examines links between climatic changes and human societies and examines social influences on our current state of knowledge, impacts, and potential responses. Au Sem. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 738.			
<b>7400</b>	<b>Communicating Environmental Risk</b>	<b>G</b>	<b>3</b>
Introduction to the design and implementation of public-focused risk communication as it relates to environmental, agricultural and public health contexts. Sp Sem. Prereq: Grad standing, or permission of instructor.			
<b>7425</b>	<b>Collective Action in Environmental Governance</b>	<b>G</b>	<b>3</b>
Introduction to the theories and methods for evaluating collective action in environmental governance contexts. Prereq: Grad standing.			
<b>7430</b>	<b>Sustainability Psychology</b>	<b>G</b>	<b>3</b>
This course helps students expand their understanding of the psychological bases of environmental problems. It focuses on leveraging psychological tools to address such problems. Students learn about theories and methods relevant to behavior change, explore the applicability of these approaches to changing environmental behaviors, and gain practical experience doing this with real-world problems. Prereq: 3400, 5400, or Psych 1100, or permission of instructor.			
<b>7450</b>	<b>Frameworks and Theories of Environmental Policy</b>	<b>G</b>	<b>3</b>
This course provides students with an in-depth look at the theories and frameworks that explain how governance systems in complex social-ecological systems (and the institutions that shape them) can successfully tackle environmental problems at the local, national, and international levels.			
<b>7480</b>	<b>Human Values and Nature Conservation</b>	<b>G</b>	<b>3</b>
This course makes a cross-disciplinary examination of theories of human values and related phenomena (e.g., value orientations, worldviews, moral foundations), explores their use in explaining conservation-related judgments, decisions, and behaviors, and discusses their implications for sustainability.			
<b>7520</b>	<b>Environmental Science and Law</b>	<b>G</b>	<b>3</b>
This course introduces students to the laws and legal systems that address environmental issues, with an emphasis on the significance of science and technology. Interdisciplinary case-studies will complement the coursework. Prereq: 4000, or Grad standing, or permission of instructor.			
<b>7530</b>	<b>Soils and Carbon: Stabilization and Permanence</b>	<b>G</b>	<b>3</b>
Soil carbon, globally, is larger than both atmospheric and terrestrial biomass carbon stocks, but how permanent is soil carbon and in what forms? Minerals play an important role in carbon stability and permanence. Students gain experience on methods to investigate soil carbon stabilization, mineralogy and soil carbon permanence, and mechanistic understanding of organo-mineral interactions.			
<b>7580</b>	<b>Root and Rhizosphere Ecology</b>	<b>G</b>	<b>2</b>
The rhizosphere mediates plant nutrient acquisition, sustains microbial communities, contributes to disease suppression, and regulates global nutrient cycles, directly impacting crop production and ecosystem services. This course will provide an overview of root morphology, root production and turnover, rhizosphere communities, nutrient cycling and rhizosphere responses to climate change.			
<b>7650</b>	<b>Applied Bayesian Hierarchical Models in Natural Resources</b>	<b>G</b>	<b>3</b>
This is an applied graduate-level course that will provide students with the skills to implement, diagnose, and interpret hierarchical models fit in a Bayesian framework.			
<b>7888</b>	<b>MENR Project</b>	<b>G</b>	<b>1 - 3</b>
Conducting and reporting MENR applied science project. Prereq: Grad standing, and permission of advisor. Not open to students with 9 cr hrs for 7888 (893). Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
<b>7981</b>	<b>MENR Seminar</b>	<b>G</b>	<b>1</b>
Environmental professional practice-oriented seminars and forums. Prereq: Enrollment in the Master of Environment and Natural Resources (MENR) program. This course is graded S/U. Repeatable to a maximum of 4 cr hrs.			
<b>8375</b>	<b>Design of Natural Resource Studies</b>	<b>G</b>	<b>3</b>
This is a discussion-driven course that will emphasize student understanding of different types of study design, critical considerations when designing studies, and appropriate analytical approaches and inferential frameworks. The course is practical in that students can use this course as an opportunity to develop or flesh out the design of a study relevant to their graduate research.			

<b>8600</b>	<b>Introduction to R for Environmental Sciences</b>	<b>G</b>	<b>2</b>
Hands-on course intended to give students a broad overview and introduction to R, a language and environment for statistical computing and graphics.			
<b>8780</b>	<b>Quantitative Methods for Environment and Natural Resources</b>	<b>G</b>	<b>3</b>
Multivariate statistical methods used by natural resource scientists to study environmental relationships of plants and animals. Analytical methods are explained with real Forestry, Fisheries, and Wildlife data sets. * Sp Sem (even years). Prereq: Stat 5302 (530) or equiv, and Grad standing; or permission of instructor. Not open to students with credit for 822.			
<b>8785</b>	<b>Research Paradigms</b>	<b>G</b>	<b>3</b>
An examination of research paradigms and techniques used in the disciplines involved in natural resource science and management. * Sp Sem (odd years). Prereq: Doct standing, or permission of instructor. Not open to students with credit for 985.			
<b>8890.01</b>	<b>Fisheries and Wildlife Science Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in fisheries and wildlife science in environment and natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8890.02</b>	<b>Ecological Restoration Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in ecological restoration in environment and natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8890.03</b>	<b>Ecosystem Science Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in ecosystem science in environment and natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8890.04</b>	<b>Soil Science Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in soil science in environment and natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8890.05</b>	<b>Forest Science Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in forest science in environment natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8890.06</b>	<b>Environmental Social Sciences Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in environmental social sciences in environment and natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8890.07</b>	<b>Rural Sociology Seminar</b>	<b>G</b>	<b>1 - 12</b>
Seminar on special topics in rural sociology in environment and natural resources. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 96 cr hrs or 8 completions.			
<b>8897</b>	<b>Research Proposal Symposium</b>	<b>G</b>	<b>1</b>
A symposium for graduate students to present thesis and dissertation proposals. Arr. Sp Sem. Prereq: Grad standing. Not open to students with 2 cr hrs or 2 completions for 897. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
<b>8980</b>	<b>Environment and Natural Resources Seminar</b>	<b>G</b>	<b>1</b>
Required seminar for all MS and PhD graduate students in environment and natural resources. Au, Sp Sems. Prereq: Grad standing. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
<b>8998</b>	<b>Research</b>	<b>G</b>	<b>1 - 18</b>
Research for thesis or dissertation purposes only. Prereq: Grad standing. Repeatable. This course is graded S/U.			

## Environmental Engineering

<b>2100</b>	<b>Environmental Engineering Analytical Methods</b>	<b>U</b>	<b>3</b>
Application of analytical methods to calculate, measure and interpret chemical characteristics of water, soil, and air. Prereq: Chem 1220 (122) or 1250 (125), and enrollment in CivilEn major or EnvEng major or minor. Not open to students with credit for 610.			
<b>2193</b>	<b>Individual Studies in Environmental Engineering</b>	<b>U</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>2194</b>	<b>Group Studies in Environmental Engineering</b>	<b>U</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			

<b>3200</b>	<b>Fundamentals of Environmental Engineering</b>	<b>U</b>	<b>3</b>
Quantitative assessment of water quality, air quality, and solid/hazardous waste management, with an emphasis on minimizing human health and environmental impacts through sustainable design. Prereq: Chem 1210 or 1250, and CivilEn or EnvEng major or EnvEng minor. Not open to students with credit for 6200.			
<b>3210</b>	<b>Environmental Engineering Unit Operations</b>	<b>U</b>	<b>3</b>
Selection and Design of Unit Operations and Processes used in Environmental Engineering. Prereq: 413 or CivilEn 3130 (413), and Chem 1220 (122) or 1250 (125), or permission of instructor. Not open to students with credit for 520 or CivilEn 520.			
<b>4090</b>	<b>Environmental Engineering Capstone Design</b>	<b>U</b>	<b>3</b>
Culminating design course for the Environmental Engineering program. Must be taken as close to graduation as possible. Prereq: Sr standing. Not open to students with credit for 619.			
<b>4193</b>	<b>Individual Studies in Environmental Engineering</b>	<b>U</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4194</b>	<b>Group Studies in Environmental Engineering</b>	<b>U</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>4200</b>	<b>Environmental Engineering Unit Operations Lab</b>	<b>U</b>	<b>1</b>
Laboratory measurements and analysis of environmental engineering treatment processes. Prereq: 2100 (610) or CivilEn 610, and EnvEng 3210 (520) or CivilEn 520. Concur: 5110 (711). Not open to students with credit for 620.			
<b>4218</b>	<b>Measurement and Modeling of Climate Change</b>	<b>U</b>	<b>3</b>
A study of the atmospheric boundary layer, its interaction with the land surface and vegetation in particular, and hand-on experience with micrometeorological and eddy-covariance instrumentation and data analysis. Prereq: CivilEn 2060, or permission of instructor.			
<b>4400</b>	<b>Integrated Environmental Chemical Fate and Transport</b>	<b>U</b>	<b>3</b>
Fate and transport of pollutants within and between air, water, and soil. This requires an understanding of thermodynamics and mass transfer concepts related to environmental engineering, which is the focus of the first portion of the course. In the second portion, students apply these concepts to develop predictive fate and transport models. Prereq: 3200 and CivilEn 3130, or permission of instructor.			
<b>4600</b>	<b>Assessment for Human Rights and Sustainability</b>	<b>U</b>	<b>3</b>
Foundational concepts of human rights and environmental impacts pertaining to global supply chains. Regulations and voluntary standards in engineering-intensive sectors, including infrastructure, biofuels, electronics. Case study analysis of corporate assessment practices for labor rights protection and environmental impacts.			
<b>4998</b>	<b>Undergraduate Research in Environmental Engineering</b>	<b>U</b>	<b>1 - 5</b>
Opportunity for undergraduate students to conduct research in Civil and Environmental Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4998H</b>	<b>Undergraduate Research in Environmental Engineering</b>	<b>U</b>	<b>1 - 5</b>
Supervised undergraduate honors research on various topics in Environmental Engineering. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>4999</b>	<b>Environmental Engineering Research for Thesis</b>	<b>U</b>	<b>1 - 5</b>
Supervised research and project work. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is progress graded (S/U).			
<b>4999H</b>	<b>Environmental Engineering Research for Thesis</b>	<b>U</b>	<b>1 - 5</b>
Supervised research and project work arranged individually for honors students. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is progress graded (S/U).			
<b>5110</b>	<b>Environmental Engineering Bioprocesses</b>	<b>U G</b>	<b>3</b>
Principles and design of biological processes in environmental engineering. Prereq: 3200 (511), or Grad standing. Not open to students with credit for 711.			
<b>5120</b>	<b>Bioremediation of Groundwater and Soil</b>	<b>U G</b>	<b>3</b>
An overview of biotechnology methods for remediation of groundwater and soils. Overview of theory and bio-remediation component design. Includes a study of the role of key microbial groups capable of transforming common contaminants in subsurface media with a particular emphasis on molecular genetic biotechnology methods to identify and document their ecology and metabolic condition. Prereq: A course in Micrbio; or Grad standing; or permission of instructor. Not open to students with credit for CivilEn 818.			

## 204 Environmental Engineering

<b>5140</b>	<b>Air Quality Engineering</b>	<b>U G</b>	<b>3</b>
This course introduces several concepts which will provide students with a basic knowledge of several air quality issues. We will first discuss sources and classifications of air pollutants, followed by a brief primer on relevant atmospheric science. Following this, we will focus on two aspects related to atmospheric chemistry: tropospheric ozone formation and secondary aerosol production. Prereq: Chem 1220,1250, or equiv, and Math 2177, 2174, or 2415, and enrollment in CivilEn or EnvEng major; or Grad standing; or permission of instructor.			
<b>5170</b>	<b>Sustainability and Pollution Prevention Practices</b>	<b>U G</b>	<b>3</b>
An introduction to concepts of sustainability and pollution prevention with particular application to solid waste generation, disposal and management. Prereq: 3200 (511), or Grad standing, or permission of instructor. Not open to students with credit for 717.			
<b>5194</b>	<b>Group Studies in Environmental Engineering</b>	<b>U G</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>5195</b>	<b>Engineering Design for Environmental Health</b>	<b>U G</b>	<b>3</b>
Students in this course will learn how to incorporate health information into the engineering design process. This material complements risk assessment by focusing on the design of engineering systems. Course will discuss balancing financial, health, performance, and other considerations. Quantitative analysis will be conducted in soil, water, air, buildings, and occupational health scenarios. Prereq: Math 1151,1161.01, or 1161.02, and Chem 1210 or 1250, and enrollment in the CivilEn, EnvEng, or PubHEHS major program; or grad standing; or permission of instructor.			
<b>5210</b>	<b>Advanced Physical Chemical Treatment Processes</b>	<b>U G</b>	<b>3</b>
Principles and design of physical and chemical processes for water and wastewater treatment including mixing, mass transfer, chemical kinetics, oxidation-reduction, disinfection, emerging contaminants, and water reuse. Prereq: 3210 (520) or CivilEn 520, or Grad standing in Engineering or EarthSc, or permission of instructor. Not open to students with credit for CivilEn 810.			
<b>5217</b>	<b>Applied Mathematical Ecology</b>	<b>U G</b>	<b>3</b>
Description and application of basic methods to model population, communities and the interactions between ecosystems and the earth system. Prereq: CivilEn 2060 (406) or equivalent, and Engr 1221 or CSE 1221, and enrollment in CivilEn or EnvEng major; or Grad standing; or permission of instructor. Not open to students with credit for CivilEn 817.			
<b>5410</b>	<b>Hazardous Waste Management and Remediation</b>	<b>U G</b>	<b>2</b>
Environmental regulations; handling of hazardous wastes; risk assessment; site remediation processes; remedial alternatives; implementation; case studies. Prereq: 3200 and CivilEn 3130, or Grad standing; or permission of instructor. Not open to students with credit for 714.			
<b>5600</b>	<b>Science, Engineering, and Public Policy</b>	<b>U G</b>	<b>3</b>
Presents a history of the interactions between science, engineering, and public policy in the United States and in the context of global concerns (e.g. climate change, competitiveness), inquire into how various federal government, universities, & corporations conduct & fund science and engineering & explore how public sector interests & processes influence sci, engr & public policy. Prereq: Jr, Sr, or Grad standing; or permission of instructor. Cross-listed in PubAfrs.			
<b>5718</b>	<b>Aquatic Chemistry</b>	<b>U G</b>	<b>3</b>
Examination of the processes that control chemical equilibria in natural waters: acid/base reactions, metal complexation/speciation and oxidation-reduction processes. Intended for students in EarthSci, CivilEn, and the Grad EnvSci program. Prereq: Chem 1220 or above, and Math 1151 or above; or equivalents. Not open to students with credit for EarthSc 5718. Cross-listed in EarthSc.			
<b>5719</b>	<b>Environmental Organic Chemistry</b>	<b>U G</b>	<b>3</b>
Fate and distribution of organic pollutants in the environment including aqueous solubility, vapor pressure, environmental partition coefficients, and transformation reactions. Intended for students in EarthSc, CivilEn, and the Grad EnvSci program. Prereq: 5718 and Chem 4200, or permission of instructor. Not open to students with credit for EarthSc 5719. Cross-listed in EarthSc.			
<b>5760</b>	<b>Design of Urban Stormwater Control Measures</b>	<b>U G</b>	<b>3</b>
Modification of hydrologic methods for urban systems, urban pollutants of concern, stormwater regulations, low impact development, green infrastructure, design of stormwater control measures [(SCMs), also known as Best Management Practices (BMPs)], and discussions of stormwater control performance. Design focused projects that offer real world challenges, diverse set of method and tools. Prereq: CivilEn 3160 or FABEng 2720, or Grad standing in Engineering, or permission of instructor. Not open to students with credit for FABEng 5760. Cross-listed in FABEng.			
<b>5850</b>	<b>Advanced Topics in Environmental Engineering</b>	<b>U G</b>	<b>1 - 3</b>
Exploration of advanced topics in Environmental Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			

<b>5880</b>	<b>Environmental Engineering Seminar</b>	<b>U G</b>	<b>1</b>
Seminar course which presents current research findings on Environmental Engineering and science. Prereq: Jr, Sr, or Grad standing in Environmental Engineering, and permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
<b>6020</b>	<b>Foundations of Data-Driven Sustainable Energy Systems</b>	<b>G</b>	<b>3</b>
Introduction to issues impacting sustainable energy systems across technology, law and policy, business models, resilience, data, geospatial, and decision sciences. Prereq: Enrollment in Data-Driven Sustainable Energy Systems Graduate Interdisciplinary Specialization, or permission of instructor. Not open to students with credit for AEDEcon 6500, FABEng 6020, Geog 6020, ISE 6020, or PubAfrs 6020. Cross-listed in AEDEcon 6500, FABEng 6020, Geog 6020, ISE 6020, and PubAfrs 6020.			
<b>6100</b>	<b>Environmental Engineering Analytical Methods</b>	<b>G</b>	<b>3</b>
Application of analytical methods to calculate, measure and interpret chemical characteristics of water, soil, and air. Prereq: Chem 1220 (122) or 1250 (125), or Grad standing. Not open to students with credit for 2100 (610) or CivilEn 610.			
<b>6193</b>	<b>Individual Studies in Environmental Engineering</b>	<b>G</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies in Environmental Engineering</b>	<b>G</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>6200</b>	<b>Fundamentals of Environmental Engineering</b>	<b>G</b>	<b>3</b>
Quantitative assessment of water quality, air quality, and solid/hazardous waste management, with an emphasis on minimizing human health and environmental impacts through sustainable design. Prereq: Chem 1220 (122) or 1250 (125), or Grad standing, or permission of instructor. Not open to students with credit for 3200 (511) or CivilEn 511.			
<b>6210</b>	<b>Environmental Engineering Unit Operations</b>	<b>G</b>	<b>3</b>
Selection and Design of Unit Operations and Processes used in Environmental Engineering. Prereq: 413 or CivilEn 3130 (413), and Chem 1220 (122) or 1250 (125); or Grad standing; or permission of instructor. Not open to students with credit for 3210 (520) or CivilEn 520.			
<b>6218</b>	<b>Measurement and Modeling of Climate Change for Graduate Students</b>	<b>G</b>	<b>3</b>
The course will focus on the science behind climate change, and specifically on physical processes at the earth surface, and the interactions between the ecosystem, human activities and climate change. Design of data analysis research project, testing hypotheses regarding climate change and its effects using observational data, hands-on climate data analysis experience through personal project. Prereq: Grad standing in CivilEn or EnvEng, or permission of instructor.			
<b>6220</b>	<b>Data Analysis in Environmental Engineering</b>	<b>G</b>	<b>3</b>
Application of programming and statistical methods for engineering data analysis. Will explore distribution, variance, and multivariate methods. Will provide a deeper understanding of analysis theories in the space, time, and spectral domain. Students will develop computer programming toolboxes and theoretical skills for analyzing and modeling data in their own research. Prereq: Stat 3450, 3460, 3470, or CivilEn 2050, or equiv; and Grad standing in the Civil Engineering or Environmental Science Graduate programs.			
<b>6400</b>	<b>Integrated Environmental Chemical Fate and Transport for Graduate Students</b>	<b>G</b>	<b>3</b>
Fate and transport of pollutants within and between air, water, and soil. Understanding this fate and transport requires an understanding of thermodynamics and mass transfer concepts related to environmental engineering, which is the focus of the first portion of the course. In the second portion, students apply these concepts to develop predictive fate and transport models. Prereq: Grad standing in Engr, or permission of instructor.			
<b>6600</b>	<b>Assessment for Human Rights and Sustainability</b>	<b>G</b>	<b>3</b>
Foundational concepts of human rights and environmental impacts pertaining to global supply chains. Regulations and voluntary standards in engineering-intensive sectors, including infrastructure, biofuels, electronics. Case study analysis of corporate assessment practices for labor rights protection and environmental impacts. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4600.			
<b>6610</b>	<b>Analytic Frameworks for Analysis of Science, Engineering, and Policy</b>	<b>G</b>	<b>3</b>
Introduces a number of analytic frameworks and tools that are used to address issues where science and engineering are important considerations for public policy. Complements EnvEng/PubAfrs 5600 'Science, Engineering, and Public Policy', which is a survey of the interconnectedness of science, engineering, and public policy. Prereq: Grad standing, or permission of instructor.			
<b>6999</b>	<b>Environmental Engineering Research Thesis</b>	<b>G</b>	<b>1 - 15</b>
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is progress graded (S/U).			

## Environmental Engineering 205

<b>7220</b>	<b>Colloidal and Interfacial Processes in Aquatic Systems</b>	<b>G</b>	<b>3</b>
Fundamental concepts of the chemistry of the solid-water interface, adsorption/desorption, coagulation, and deposition in natural and engineered systems. Prereq: 2100 (610), or Grad standing, or permission of instructor. Not open to students with credit for both CivilEn 819 and 822.			
<b>8193</b>	<b>Individual Studies in Environmental Engineering</b>	<b>G</b>	<b>1 - 5</b>
Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
<b>8194</b>	<b>Group Studies in Environmental Engineering</b>	<b>G</b>	<b>1 - 5</b>
Provides groups of students opportunities to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
<b>8998</b>	<b>Graduate Research in Environmental Engineering</b>	<b>G</b>	<b>1 - 15</b>
Opportunity for graduate students to conduct research in Environmental Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
<b>8999</b>	<b>Environmental Engineering Research Dissertation</b>	<b>G</b>	<b>1 - 15</b>
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is progress graded (S/U).			

### Environmental Science

<b>6193</b>	<b>Individual Studies in Environmental Sciences</b>	<b>G</b>	<b>1 - 12</b>
Afford the qualified student the opportunity for independent reading, study, practical experience, or laboratory work in specialized field of interest. Au, Sp, Su Sems. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
<b>6194</b>	<b>Group Studies</b>	<b>G</b>	<b>1 - 5</b>
Group studies in environmental sciences. Au, Sp, Su Sems. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.			
<b>7899</b>	<b>Current Issues in Environmental Sciences</b>	<b>G</b>	<b>1</b>
Graduate seminar where faculty from within and outside the University and graduating students will present their research. Au, Sp Sems. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.			

### Environmental Sciences Technology

<b>1201T</b>	<b>Exploring Environmental Sciences</b>	<b>U</b>	<b>½</b>
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			

### Evolution, Ecology and Organismal Biology

<b>1910</b>	<b>Introduction to Biological Studies- Local Plants (Stone Lab)</b>	<b>U</b>	<b>2</b>
Structures, processes, and stages of the plant life cycle; common families of flowering plants; plant geography, ecology, and conservation; and uses of plants. 1-wk course available summer session at Stone Lab. Prereq: Completion of high school Biology course. Not open to students with credit for 110.			
<b>1911</b>	<b>Climate Change: Mechanisms, Impacts, and Mitigation</b>	<b>U</b>	<b>4</b>
Examination of the basic science of climate change, of the ability to make accurate predictions of future climate, and of the implications for global sustainability by combining perspectives from the physical sciences, the biological sciences, and historical study. Team-taught with faculty members in EarthSc and History. Prereq: Not open to students with credit for History 1911 or EarthSc 1911. GE historical study and nat sci bio and nat sci phys course. Cross-listed in EarthSc and History.			
<b>1920</b>	<b>Introduction to Biological Studies - Birds (Stone Lab)</b>	<b>U</b>	<b>2</b>
An introductory course for students interested in ornithology including bird identification, behavior, and ecology, with an emphasis on field and laboratory techniques. 1-wk course available summer session at Stone Lab. Prereq: Completion of high school Biology course. Not open to students with credit for 126.			
<b>1930</b>	<b>Introduction to Biological Studies - Aquatic Biology (Stone Lab)</b>	<b>U</b>	<b>2</b>
An introduction to the organisms of the ecosystem in freshwater aquatic environments. 1-wk course available summer session at Stone Lab. Prereq: Completion of high school Biology course. Not open to students with credit for 125.			
<b>2210</b>	<b>Biodiversity of Ohio - Plants</b>	<b>U</b>	<b>2</b>
A lecture and field course in identifying common Ohio plants; emphasis on taxonomic principles, use of keys and manuals, and field recognition of plants; includes some Saturday field trips. Prereq: 4 sem cr hrs in Biological Sciences. Not open to students with credit for 210. NS Admis Cond course.			

<b>2220</b>	<b>Biodiversity of Ohio - Birds</b>	<b>U</b>	<b>2</b>
The general biology of birds with emphasis on their natural histories and field identification of local species. Prereq: 4 sem cr hrs in Biological Sciences. Not open to students with credit for 322.			
<b>2250</b>	<b>Dynamics of Dinosaurs</b>	<b>U</b>	<b>2</b>
A review of current information on dinosaur biology, emphasizing scientific approaches to reconstructing dinosaurs as living, dynamic animals. Prereq: 4 sem cr hrs in Biological Sciences or Historical Geology.			
<b>2270</b>	<b>Parasites and Evolution: How Worms, Mosquitoes, etc. Manage Their/Our World</b>	<b>U</b>	<b>2</b>
Introduction to life history of and pathology caused by a number of parasites of invertebrates and vertebrates (including humans). Parasites and disease vectors are used to illustrate broad evolutionary and ecological concepts. Prereq: 4 sem cr hrs in Biological Sciences.			
<b>2410</b>	<b>Biological Invasions: The Ecology and Evolution of Species Introductions</b>	<b>U</b>	<b>3</b>
Invasion ecology is the study of introduced, non-native species and the factors that sometimes lead to their population explosions and negative ecological impacts in the new region. This course will make explicit connections between fundamental concepts in ecology and evolutionary biology, topics specific to invasion ecology, and the idiosyncratic details surrounding particular invasive species. Prereq: One course in Life Sciences (or a related field), or permission of instructor.			
<b>2510</b>	<b>Human Anatomy</b>	<b>U</b>	<b>3</b>
An introduction to human anatomy; small mammal dissection. Prereq: 3 sem cr hrs in Biological Sciences. Not open to students with credit for 235. GE nat sci bio course. NS Admis Cond course.			
<b>2520</b>	<b>Human Physiology</b>	<b>U</b>	<b>3</b>
A survey of the human nervous system, sense organs, muscle function, circulation, respiration, digestion, metabolism, kidney function, and reproduction. Prereq: 3 sem cr hrs in Biological Sciences. Not open to students with credit for 232. GE nat sci bio course. NS Admis Cond course.			
<b>3189</b>	<b>Undergraduate Field Experience or Work</b>	<b>U</b>	<b>1 - 3</b>
Field work or experience. Prereq: 8 cr hrs in Biological Sciences. Repeatable to a maximum of 12 cr hrs or 5 completions. This course is progress graded (S/U).			
<b>3191</b>	<b>Undergraduate Internship</b>	<b>U</b>	<b>1 - 3</b>
Internship held as undergraduate for credit. Prereq: 8 cr hrs in Biological Sciences, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 5 completions. This course is graded S/U.			
<b>3193</b>	<b>Undergraduate Individual Studies</b>	<b>U</b>	<b>1 - 3</b>
Individual work in the field of the chosen problem. Prereq: 8 cr hrs in Biological Sciences. Repeatable to a maximum of 12 cr hrs or 5 completions. This course is graded S/U.			
<b>3194</b>	<b>Undergraduate Group Studies</b>	<b>U</b>	<b>1 - 3</b>
Study of selected topics in evolution, ecology and organismal biology. Prereq: 8 cr hrs in Biological Sciences. Repeatable to a maximum of 12 cr hrs or 3 completions.			
<b>3270</b>	<b>Infectious Disease Ecology, Evolution, and Transmission</b>	<b>U</b>	<b>3</b>
This course will focus on innate and adaptive immunity, host-pathogen evolution, phenotypic plasticity, host jump, wild life ecology, the role of social behavior, diet, habitat, geography, and life history in disease transmission in human and nonhuman animals. It will also cover research methods, common statistical and geospatial analyses in investigations of infectious diseases. Prereq: Soph standing or above.			
<b>3310.01</b>	<b>Evolution</b>	<b>U</b>	<b>4</b>
Basic conceptual issues and processes in evolution with an emphasis on the ecological basis of adaptation and consequences of natural selection. Also available summer term at Stone Lab. Prereq: Biology 1114 or 1114H, or permission of instructor. Not open to students with credit for 3310 or 3310.02.			
<b>3310.02</b>	<b>Evolution (Hybrid Online)</b>	<b>U</b>	<b>4</b>
This course surveys the many processes that underlie biological evolution and illustrates the patterns they generate, with a focus on adaptation, types of selection, population genetics, species interactions and biodiversity. This course is presented in a hybrid online format. Prereq: Biology 1114 or 1114H, or permission of instructor. Not open to students with credit for 3310 or 3310.01.			
<b>3320</b>	<b>Organismal Diversity</b>	<b>U</b>	<b>3</b>
A survey of organismal diversity and the evolutionary relationships between and within major groups of organisms. Class is laboratory based. Prereq: 3310. Not open to students with credit for 405.01 and 405.02.			

## 206 Evolution, Ecology and Organismal Biology

<b>3410</b>	<b>Ecology</b>	<b>U</b>	<b>4</b>
Distribution and abundance of species, population dynamics, community ecology, ecosystem dynamics, and applied perspectives. Also available summer term at Stone Lab. Prereq: Biology 1114 or 1114H, or permission of instructor. Not open to students with credit for 503.01, 503.02, and 503.03.			
<b>3420</b>	<b>Behavioral Ecology</b>	<b>U</b>	<b>4</b>
Comparative study of animal behaviors, and analysis of their adaptive value, physiological mechanisms, development, and evolution, within their ecological and social context. Also available summer session at Stone Lab. Prereq: Biology 1114 or 1114H, or permission of instructor. Not open to students with credit for 440, 620, 730, or 740.			
<b>3420E</b>	<b>Behavioral Ecology (Honors Embedded)</b>	<b>U</b>	<b>4</b>
Comparative study of animal behaviors, and analysis of their adaptive value, physiological mechanisms, development, and evolution, within their ecological and social context. Prereq: Biology 1114 or 1114H, or permission of instructor. Not open to students with credit for 440, 620, 730, or 740.			
<b>3494</b>	<b>Entering Independent Research</b>	<b>U</b>	<b>3</b>
Designed to equip students in the Natural and Mathematical Sciences with necessary skills to become independent researchers. The main emphasis is given to experimental methods, experimental and quasi-experimental design, hypothesis testing, sampling, research ethics, basic statistics, and presentation of data.			
<b>3498</b>	<b>Undergraduate Research in Behavioral Ecology</b>	<b>U</b>	<b>4</b>
Supervised independent research opportunities in behavioral ecology for undergraduates considering careers in basic scientific research, secondary education, or graduate research programs in biological and behavioral sciences. Formal instruction on experimental research design, literature review, research ethics, and elementary statistical analyses. Prereq: Biology 1113, 1113H, 1114, 1114H, or Soph standing or above; or permission of instructor.			
<b>3510</b>	<b>Cellular and Developmental Biology</b>	<b>U</b>	<b>3</b>
Introduction to the structure and function of animal cells, and to patterns of early development in vertebrates and invertebrates. Prereq: 3310, and Biology 1113 or 1113H. Not open to students with credit for 415 and MolGen 5602.			
<b>3520</b>	<b>Microscopic Anatomy</b>	<b>U</b>	<b>3</b>
Examination and analysis of the functional morphology of cells and tissues of vertebrate animals, with emphasis on mammalian histology. Prereq: Biology 1113 (113), 1114 (114), 1113H (115H), or 1114H (116H).			
<b>3798</b>	<b>Undergraduate Study Tour</b>	<b>U</b>	<b>1 - 12</b>
Undergraduate study tour. Prereq: 8 sem cr hrs in Biological Sciences, and permission of instructor. Not open to students with credit for 698. This course is graded S/U.			
<b>4210</b>	<b>Focused Study of Ecology and Evolution - Vertebrates</b>	<b>U</b>	<b>2</b>
Analysis of the anatomical, physiological, behavioral, and ecological characteristics of the major vertebrate groups. Prereq: 3410. Not open to students with credit for 470.			
<b>4220</b>	<b>Focused Study of Ecology and Evolution - Mammals</b>	<b>U</b>	<b>3</b>
Mammals of the world, their natural history, distribution, taxonomy, and major anatomical and physiological adaptations; study of local species emphasized in lab. Prereq: 3310.			
<b>4230</b>	<b>Focused Study of Ecology and Evolution - Invertebrates</b>	<b>U</b>	<b>2</b>
Analysis of the anatomical, physiological, behavioral and ecological characteristics of the major invertebrate groups. Prereq: 3310.			
<b>4240</b>	<b>Focused Study of Ecology and Evolution - Plants and People</b>	<b>U</b>	<b>3</b>
Overview of the importance of plants to humans. Students will gain an understanding of the interrelations between humans and plants, including plant domestication, history and uses of spices and flavorings derived from plants, as well as non-food uses of plants. Recommended prereq: previous or concurrent enrollment in EEOB 2210. Prereq: 1 course in Biological Sciences (Plant Biology Preferred). Not open to students with credit for 502.			
<b>4410</b>	<b>Conservation Biology</b>	<b>U</b>	<b>3</b>
Application of ecology, population genetics, and biogeography to the study and conservation of biodiversity, threatened communities, and endangered species. Prereq: 3310 and 3410, or permission of instructor. Not open to students with credit for 661.			
<b>4420H</b>	<b>Tropical Field Studies</b>	<b>U</b>	<b>3</b>
This course will give students first-hand knowledge of tropical biology with an emphasis on evolutionary and behavioral ecology. This is an intensive foreign study tour in Panama, a country renowned for its biological diversity. The course includes travel to several tropical habitats and experiences with common field methods in ecology and animal behavior. Prereq: Honors standing, and 3310 or 3410; or permission of instructor.			
<b>4430</b>	<b>Ecological Methods I</b>	<b>U</b>	<b>2</b>
Hands-on course for learning basic field and quantitative methods for ecological studies. Prereq: Biology 1114 or 1114H. Repeatable to a maximum of 8 cr hrs or 4 completions.			

<b>4510</b>	<b>Comparative Vertebrate Anatomy</b>	<b>U</b>	<b>3</b>
Evolutionary trends within vertebrates will be revealed through a study of anatomical homology across representative taxa. Concepts will be expanded upon as students explore the hands-on methods of comparative anatomical study, including dissection and skeletal staining. Prereq: 2 courses in Biological Sciences.			
<b>4520</b>	<b>Comparative Physiology</b>	<b>U</b>	<b>3</b>
Functional systems in invertebrates and vertebrates: respiration, circulation, water, ion, and energy balance; communication; locomotion; and reproduction. Prereq: Biology 1114 or 1114H, and 1 additional course in Biological Sciences. Not open to students with credit for 410.			
<b>4550</b>	<b>Neurobiology of Behavior</b>	<b>U</b>	<b>3</b>
