Organization of Instructional Units

For conveniences of administration, the instructional units—colleges, schools, departments, academic faculties, and divisions—of the University are grouped as follows:

Undergraduate Colleges

COLLEGE OF ADMINISTRATIVE SCIENCE

SCHOOL
Social Work

ACADEMIC FACULTIES
Accounting
Finance
Management Science
Marketing

DIVISION
Public Administration

COLLEGE OF AGRICULTURE AND HOME ECONOMICS

SCHOOLS
Home Economics
Natural Resources

DEPARTMENTS
Agricultural Economics and Rural Sociology
Agricultural Education
Agricultural Engineering
Agronomy
Animal Science
Dairy Science
Food Science and Nutrition
Horticulture
Plant Pathology
Poultry Science

INSTITUTE
Agricultural Technical Institute (Wooster)

COLLEGES OF THE ARTS AND SCIENCES

(See listings for the following Colleges.)

COLLEGE OF THE ARTS
COLLEGE OF BIOLOGICAL SCIENCES
COLLEGE OF HUMANITIES
COLLEGE OF MATHEMATICS AND PHYSICAL SCIENCES
COLLEGE OF SOCIAL AND BEHAVIORAL SCIENCES

COLLEGE OF THE ARTS

SCHOOL
Music

DEPARTMENTS
Dance
Industrial Design
Theatre

DIVISIONS
Art
Art Education
History of Art

COLLEGE OF BIOLOGICAL SCIENCES

DEPARTMENTS
Biochemistry
Biophysics
Botany
Entomology
Genetics
Microbiology
Zoology

COLLEGE OF HUMANITIES

DEPARTMENTS
Black Studies
Classics
East Asian Languages and Literatures
English
German
History
Linguistics
Philosophy
Romance Languages and Literatures
Slavic Languages and Literatures

DIVISION
Comparative Literature and Languages

COLLEGE OF MATHEMATICS AND PHYSICAL SCIENCES

DEPARTMENTS
Astronomy
Chemistry
Geodetic Science
Geology and Mineralogy
Mathematics
Physics

DIVISION
Statistics
COLLEGE OF SOCIAL AND BEHAVIORAL SCIENCES

SCHOOL
Journalism

DEPARTMENTS
Anthropology
Economics
Geography
Political Science
Psychology
Sociology
Speech Communication

COLLEGE OF EDUCATION

SCHOOL
Health, Physical Education, and Recreation

ACADEMIC FACULTIES
Arts in Education, The
Curriculum and Foundations
Early and Middle Childhood Education
Educational Administration
Educational Development
Exceptional Children
Humanities Education
Industrial Technology
Science-Mathematics Education
Special Services
Vocational-Technical Education

COLLEGE OF ENGINEERING

SCHOOL
Architecture

DEPARTMENTS
Aeronautical and Astronautical Engineering
Aviation
Ceramic Engineering
Chemical Engineering
Civil Engineering
Computer and Information Science
Electrical Engineering
Engineering Graphics
Engineering Mechanics
Industrial and Systems Engineering
Mechanical Engineering
Metallurgical Engineering
Photography and Cinema
Welding Engineering

COLLEGE OF PHARMACY

UNIVERSITY COLLEGE

OTHER DEPARTMENTS
Air Force Aerospace Studies
Military Science
Naval Science

Professional Colleges

COLLEGE OF DENTISTRY

DIVISION
Dental Hygiene

COLLEGE OF LAW

COLLEGE OF MEDICINE

SCHOOLS
Allied Medical Professions
Nursing

DEPARTMENTS
Anatomy
Anesthesiology
Medical Microbiology
Medicine
Obstetrics and Gynecology
Ophthalmology
Otolaryngology
Pathology
Pediatrics
Pharmacology
Physical Medicine
Physiological Chemistry
Psychology
Preventive Medicine
Psychiatry
Radiology
Surgery

COLLEGE OF OPTOMETRY

COLLEGE OF VETERINARY MEDICINE

DEPARTMENTS
Veterinary Anatomy
Veterinary Clinical Sciences
Veterinary Pathobiology
Veterinary Physiology and Pharmacology
Veterinary Preventive Medicine

Graduate School
University Academic Requirements

STUDENT RESPONSIBILITY

The student is responsible for knowing his own standing scholastically in reference to the published regulations and standards of the University and of his college.

THE MARKING AND THE POINT SYSTEM

The grade marks given in all colleges of the University are as follows:

A Highest quality of passing work; for each credit hour, 4 credit points shall be allowed.

B Second quality of passing work; for each credit hour, 3 credit points shall be allowed.

C Third quality of passing work; for each credit hour, 2 credit points shall be allowed.

D Lowest quality of passing work; for each credit hour, 1 credit point shall be allowed.

E Failed. This mark indicates (1) that the student has done failing work or (2) that he was absent from the final examination without excuse and his work in the course did not justify a passing mark. Credit for a course in which the Mark E (Failed) has been received can be obtained only by repeating and passing the work in class. (Faculty Rule 37.09.)

EM Examination

Section 1. This mark indicates credit given to students registered in the University on the basis of examinations taken prior to or after admission to the University. The level of achievement that the student must demonstrate on these examinations in order to receive EM credit shall be determined by the department or school offering the course. This credit, up to a maximum of 45 quarter credit hours, or of 70 quarter credit hours in the case of students registered in the School of Nursing who have completed diploma nursing programs and are licensed registered nurses, shall be assigned only upon authorization of the chairman of such department or the director of such school and with the approval of the executive committee of the college in which the student is registered. Additional examination quarter credit hours may be assigned in the same manner but only with the prior approval of the Council on Academic Affairs.

Section 2. Examination credit shall not be given to a student for a course in which he has received a mark at this university. No credit points are allowed for courses in which a mark of EM is given.

H Honors. This mark shall be used only by the College of Medicine for a student enrolled in the curriculum leading to the degree Doctor of Medicine, when that student has completed a course in that curriculum with an exceptionally high degree of academic performance. H (Honors) credit shall be counted as hours only and shall not be considered in determining a student's point-hour ratio under Faculty Rule 37.05.

I Incomplete

Section 1. An I (Incomplete) indicates (1) that the work of the student in the course is qualitatively satisfactory, but that for legitimate reasons a small fraction remains to be completed; or (2) that the record of the student in the course justifies the expectation that he will obtain a passing mark, but he has been unavoidably absent from the final examination.

Section 2. The Mark I shall be reported on the grade card together with the mark which the Registrar is authorized to enter on the student's official record if the work is not completed, and a different mark reported to the Registrar in the manner and within the time hereinafter provided. The instructor shall also furnish the chairman of the department or the director of the school with a statement of the work required to be completed.
Section 3. The student must complete the work and the instructor must report the final mark at the earliest possible time, but not later than six weeks following the quarter in which the I was received. Upon the petition of the student within the six weeks' period, the executive committee of the college in which the student is enrolled (or, if not enrolled, of the college of last enrollment) may for good reason allow a student additional time in which to complete the work. Generally, this shall not be longer than the end of the quarter following the quarter in which the I was received. Any decision of the executive committee extending the period shall set forth the time in which the student shall complete the work, and a copy of the decision shall be forwarded to the Registrar.

Section 4. As soon as the incomplete work has been made up, the instructor, or in the case of his absence from the University, the department chairman or the director of the school, shall file the proper mark in the Registrar's Office. Until such time as the final mark is recorded, the credit hours in the incomplete course shall not be counted or considered for any purpose except that of men's intercollegiate athletic eligibility.

Section 5. In no case shall a student who has received the mark I be permitted to repeat the course in which such mark was received until such time as the I has been removed in the manner hereinbefore provided, and then only in such cases as fall within Rule 37.09.

K Credit. This mark shall be used for work credited from other institutions and service schools and by the Director of Admissions only. K credit shall be counted as hours only and shall not be considered in determining a student's point-hour ratio under Rule 37.05. Credits accepted from another institution are recorded on the student's permanent academic record, but grades are not transferred to this record. Only courses completed at The Ohio State University are included in the cumulative point-hour ratio.

NP Non-Pass. No credit shall be given for work marked NP. This grade shall not be considered in determining a student's point-hour ratio under Rule 37.05.

P Progress. This mark may be used to indicate that the student has shown satisfactory progress in courses other than individual studies courses that extend over more than one quarter. Until such time as a final mark is recorded, the credit hours in a P course shall not be counted for any purpose. When a final mark is recorded, all previous P hours shall assume the value of the final mark.

PA Pass. PA credit shall be counted as hours only and shall not be considered in determining a student's point-hour ratio under Rule 37.05.

R Audit. This mark indicates that the student has registered to audit the course. No credit hours shall be awarded for this mark. (Faculty Rule 37.11.)

S Satisfactory
The mark S may be used to record either satisfactory progress in or completion of work, provided that the course has been approved for this mark by the dean of the college offering the course, and in the case of courses carrying graduate credit, by the Graduate Council. It shall be used as an alternative to U or I in individual-studies courses numbered 593, 603, 793, 993, 998, and 999, and on satisfactory completion by a graduate student of a literature review course or seminar designated by the Dean of the Graduate School as qualifying for the mark of S. S credit shall be counted as hours only and shall not be considered in determining a student's point-hour ratio under Rule 37.05.

T Temporarily excused. This mark applies only to University-required courses in military science, air force aerospace studies, naval science, or physical education. No credit hours shall be awarded for a course in which a student received a T mark.

U Unsatisfactory
The mark U shall be used for unsatisfactory work in courses in which
a student would be entitled to the mark of S if his work had been satisfactory. No credit shall be given for work marked U. This grade shall not be considered in determining a student’s point-hour ratio under Rule 37.05.

WF Withdrawed failing.

WP Withdrawed passing.

X Permanently excused. This mark applies only to University-required courses in military science, air force aerospace studies, naval science, or physical education. No credit hours shall be awarded for a course in which a student received an X mark.

PASS/NON-PASS OPTION PROCEDURES AND POLICIES

Pass/non-pass is an option under which an undergraduate student may take a portion of his course work without receiving the usual letter grades (A, B, C, D, and E). Instead, he receives PA if he passed or NP if he failed. PA credit counts toward graduation.

The following is taken from the section of Faculty Rule 35.07 that applies to pass/non-pass policies.

Section 1. This grading pattern may be chosen by undergraduates or continuing education students for a maximum of 30 credit hours.

Section 2. Among these 30 hours, an undergraduate student may elect pass/non-pass grading for any or all University required courses in physical education and the National Defense Option or its alternatives (12 credit hours of courses not otherwise specified in the degree requirements of the student’s selected curriculum).

An undergraduate student who has accumulated a point-hour ratio of 2.0 or higher may elect courses for pass/non-pass that are not required or designated as required electives in the curriculum leading to the degree for which the student is a candidate.

A student registered in the Division of Continuing Education who has an accumulated point-hour ratio of 2.0 or higher may elect courses for pass/non-pass for a maximum of 30 hours.

Section 3. Hours graded PA count toward the degree. Pass/non-pass marks are not computed in the point-hour average of the student.

Section 4. On or before noon of the sixth Saturday of a quarter, or the third Saturday of a term, a student must have declared his intention to take a course on the pass/non-pass basis by filing the appropriate forms with the dean of his college or the dean’s authorized representative (students in physical education, military science, air force aerospace studies, and naval science file the forms in those departmental offices). A student may not change to or from the pass/non-pass option after noon of the sixth Saturday of a quarter, or the third Saturday of a term.

Section 5. The instructor will submit PA or NP marks to the Registrar for those students selecting the grading pattern.

Section 6. The grade PA is the equivalent of the grades A, B, C, D, and the grade NP is the equivalent of the grade E.

CANCELLATION

Cancellation of the pass/non-pass option is permitted until noon of the sixth Saturday of the quarter or third Saturday of the term. The student should request a cancellation form from a counselor in his college office or, if he is in University College, from his academic adviser.

WITHDRAWAL PROCEDURES AND POLICIES

Withdrawal procedures and policies are currently under revision. Contact the college office for procedures.

COMPULSORY COURSE WITHDRAWAL

An enrollee of any undergraduate college who fails to attend a scheduled course before Saturday noon of the first week of classes, may, at the option of the department, be disenrolled immediately from that course. In the event a department chooses to take such action, it will be the responsibility of the department chairman to notify the student’s college office. A change ticket removing the course from the student’s schedule will be prepared in the college office, and a copy shall be forwarded to the Office of the Registrar (Faculty Rule 41.07).

A student delayed in reporting to classes may reserve class space for a period of time up to two calendar days by notifying in writing the department of each course for which he is scheduled, giving his name and college, the course name, number, and
time he is scheduled to attend, when he will report to classes, and the reasons for his delay.

**REPETITION OF COURSES**

A student who has received a mark of E or NP in a required course at this university may repeat the course for credit only as provided in Faculty Rule 37.07. A student who has received a mark of E or NP in any other course at this university may repeat the course for credit at his option.

An undergraduate or professional student who has received a grade of D (lowest quality of passing work) in a course at this university may repeat the course for credit only upon the recommendation of the executive committee and with the approval of the dean of his college. A graduate student, as defined in Faculty Rule 41.03, may, when approval is given by an adviser, repeat for credit any course in which he has received a grade of D.

An undergraduate or professional student, as defined in Rule 41.03, who has received a grade of A, B, C, or PA in a course taken at this university or elsewhere, may repeat the course only as an auditor, upon receipt of permission of the chairman of the department or director of the school and the dean of his college. A graduate student, as defined in Rule 41.03, may, after a period of five years, and when approval is given by the graduate committee of his department and Dean of the Graduate School, repeat for credit a course in which he has received a mark of A, B, or C.

A student who has audited a course may subsequently repeat the course for credit with the permission of the executive committee of his college.

The credit hours for a repeated course shall in no case be counted more than once in meeting graduation requirements.

**REMOVAL OF FAILURE IN A REQUIRED COURSE**

A student is responsible for repeating in class, at his first opportunity, a required course in which he has failed, unless the executive committee of the college authorizes a substitute course.

**ALTERATION OF MARKS**

At the close of each quarter, the Registrar's Office notifies each student by mail of the marks earned during the quarter. These marks become a part of the official record of the student and are not subject to change except upon official authorization of the chairman of the department or director of the school and the dean of the college. Such changes shall be made only when a clerical error has been discovered.

**THE POINT-HOUR RATIO**

A student's academic standing for a quarter is expressed by his point-hour ratio. This ratio is determined by dividing the total number of points earned by the total number of credit hours scheduled or undertaken. Courses in which the marks EM, H, I, K, NP, P, PA, R, S, T, U, X, WF, or WP are given are not included in the computations. Courses in which the marks A, B, C, D, or E are given are computed according to the scale: A = 4.0, B = 3.0, C = 2.0, D = 1.0, and E = 0. The following example shows how a point-hour ratio is determined:

| Course No. 1 | 5 | A | 20 |
| Course No. 2 | 3 | C | 6  |
| Course No. 3 | (3) | I |    |
| Course No. 4 | 3 | E | 0  |
| Course No. 5 | (3) | PA |    |
|                   | 11 |    | 26 |

Point-hour ratio: 2.36

When the final grade on Course No. 3 is recorded, the points and hours will be included in the computation of the student's point-hour ratio. When a student has a record for two or more quarters, he will have a cumulative point-hour ratio determined by dividing the total points earned by the total hours undertaken.

**UNIVERSITY CLASS RANKING SYSTEM**

Student rank in all the undergraduate colleges is based on total credit hours completed and recorded.

<table>
<thead>
<tr>
<th>RANK</th>
<th>REQUIRED CREDIT HOURS</th>
<th>CODE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-48</td>
<td>1</td>
</tr>
<tr>
<td>Sophomore</td>
<td>49-97</td>
<td>2</td>
</tr>
<tr>
<td>Junior</td>
<td>98-146</td>
<td>3</td>
</tr>
<tr>
<td>Senior</td>
<td>147-195</td>
<td>4</td>
</tr>
<tr>
<td>Fifth Year</td>
<td>196 and more</td>
<td>5</td>
</tr>
</tbody>
</table>

Students enrolled in the professional divisions or colleges of Allied Medical Professions, Dentistry, Education-Professional,
Law, Medicine, Nursing, Optometry, Pharmacy, and Veterinary Medicine begin their rank over again, as follows:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Year</td>
<td>1</td>
</tr>
<tr>
<td>Second Year</td>
<td>2</td>
</tr>
<tr>
<td>Third Year</td>
<td>3</td>
</tr>
<tr>
<td>Fourth Year</td>
<td>4</td>
</tr>
</tbody>
</table>

Should there be any doubt in a student's mind concerning the correctness of his rank in the professional divisions and colleges, he should consult with the division or college concerned.

Students enrolled in the Graduate School receive the rank of either M (Master's) or P (Ph.D.).

**WARNING, PROBATION, AND DISMISSAL: MINIMUM SCHOLASTIC REQUIREMENTS**

These requirements shall apply only to undergraduate students. The academic standards controlling warning, probation, and dismissal of professional and graduate students shall be established by rule by the faculties of the colleges in which the professional students are registered, or of the Graduate School if the student is a graduate student.

The promulgation of these rules, and their amendment or repeal, shall be subject to the approval of the Board of Trustees.

A transfer student from another university who is admitted to advance standing in this University shall have his point-hour ratio and deficiency points computed only upon work done at this University.

In order to be in good academic standing at this University, a student must carry a cumulative point-hour ratio of 2.00 or better. A student whose point-hour ratio is less than 2.00 will be subject to warning, probation, or dismissal based upon his previous record and the number of deficiency points he possesses.

Deficiency points are defined as the number of points a student would need in order to raise his cumulative point-hour ratio to 2.00. (See previous section on point-hour ratio). A student with a point-hour ratio greater than 2.00 is said to have no deficiency points. Deficiency points may be calculated by subtracting the number of points earned from twice the number of credit hours attempted for the grades A, B, C, D, or E.

A student who has between one and fourteen deficiency points will be warned by his college office that he is in academic difficulty.

A student who has 15 or more deficiency points is subject to academic dismissal from the University or to probation. A student will be placed on probation after the first quarter in which he accumulates 15 or more deficiency points; and the college in which he is registered will indicate to him what conditions he must meet in order to continue to enroll at the University. At the end of each succeeding quarter the college will review his record and will take appropriate action to restore him to good standing, to place him on warning, continue him on probation, or dismiss him as the facts of his case may dictate. A student who has been dismissed will not be permitted to enroll for any courses at the University until he has been reinstated by his college or school.

If at any time the preparation, progress, or success of a student in his assigned work is determined to be unsatisfactory, the executive committee of the college or school in which he is registered shall be empowered to place him on probation.

Notice of dismissal or probation from the University shall be sent by the dean of the college or school in which the student is registered to the student and to the student's parents or guardian, unless the student is 21 years or older or married and has notified the Registrar's Office not to send the grade report to his parents or guardian.

A student who is dismissed from the University may petition his college or school for later reinstatement in the University. Policies regarding reinstatement are developed by each college or school. A student who is reinstated following an academic dismissal shall be subject to any special requirements which may be determined appropriate by the executive committee of the college.

In colleges or schools which require a point-hour ratio higher than 2.00 to remain in good standing a student may not be permitted to enroll in that college even though his point-hour ratio is above 2.00 and he is in good standing with the University. Such students are encouraged to reconsider their academic plans and transfer to another college or school of the University.
Graduation
Requirements

REQUIREMENTS FOR AN
UNDERGRADUATE DEGREE
(Faculty Rule 49.03)

To obtain an undergraduate degree from this University an undergraduate student must:

a. Have been enrolled in the college, the Colleges of the Arts and Sciences, or the school recommending that degree during the last two quarters of work necessary to complete the degree requirements. The executive committee of the college, the Colleges of the Arts and Sciences, or the school recommending the degree may waive this requirement to the extent of not more than one quarter’s enrollment if the student has six quarters in full-time residence (to be in full-time residence in any quarter a student must be enrolled in courses carrying twelve or more quarter hours credit) at this University, including a minimum of forty-five quarter credit hours earned through regular course enrollment at this University during the junior and senior years.

b. Have earned through regular course enrollment a minimum of forty-five quarter hours credit from this University.

c. Have satisfactorily completed the number of credit hours required for the curriculum he is pursuing. The minimum number of credit hours required in each curriculum shall include the credit hours required under Rules 31.0701 and 31.0703; however, excuses granted under Rule 31.0705 shall not reduce the stated minimum number of credit hours required in the curriculum for a degree or a certificate. Credit hours are considered as “satisfactorily completed” only if the student has received, at this University, the mark A, B, C, D, EM, K, S, or PA in those hours (Rule 35.07).

d. Have earned credit points (Rule 37.03) totaling at least twice the number of credit hours attempted at this University for which calculable grades (A, B, C, D, or E) were given.

e. Have satisfactorily met all additional college and curricular requirements for the degree involved.

f. Have filed an application for the degree in accordance with rules prescribed by the college or school.

g. Waiver of any part of this Rule (49.03) in the case of individual students may be made only by the Council on Academic Affairs following prior approval by the executive committee of the college. The Provost and Vice President for Academic Affairs shall transmit all affirmative actions of the Council on Academic Affairs under this section to the secretary of the student’s college and to the Registrar for notation on the student’s permanent record.

REQUIREMENTS FOR A GRADUATE
OR PROFESSIONAL DEGREE
(Faculty Rules 49.05 and 49.07)

To obtain a graduate or professional degree from this University, the graduate or professional student must have met the minimum requirements established by the graduate council or the college recommending the degree and approved by the Board of Trustees.

DEGREES AND CERTIFICATES

Degrees and certificates are awarded by the Board of Trustees upon the recommendation of the college faculties, or the Graduate Council, and the Faculty Council, as transmitted to the Board by the President.

COLLEGE REQUIREMENTS

Each college has certain requirements which must be met by every student seeking to earn a degree in that college. The specific course requirements for the curriculum administered by a given college can be found in the catalog for that college. In addition to these, the University has established certain requirements outlined below.

UNIVERSITY REQUIRED COURSES

BASIC EDUCATION REQUIREMENTS

Every curriculum in the undergraduate colleges includes a body of courses from which 45 credit hours must be selected to
ensure that each student is given the opportunity to become acquainted with the three basic areas of academic study—the humanities, the social sciences, and the natural sciences—by selecting 15 credit hours in each of these three areas. These courses are specifically stated in the individual college catalogs under the heading Academic Requirements.

Students transferring from other colleges or universities can meet part or all of the following requirements with approximately equivalent courses. Credits for each transfer student shall be reviewed by the Director of Admissions and the appropriate college administrators, and credit in all courses which meet the spirit of these Basic Education Requirements shall be accepted.

The objectives of this part of the curriculum, as set forth by the University faculty, are as follows:

**Humanities (15 credit hours)**
The objectives are to introduce the student to his possibilities for continuing growth as a thoughtful and reasoning person, sensitive to the aspirations and attainments of others; to acquaint him to at least some degree with the treasures of human thought and expressions at his command; and to develop in him a continuing desire to have his full share of the legacy of all creative efforts.

**Social Sciences (15 credit hours)**
The objectives are to make sure that the student has at least a basic understanding of the fundamental ideas upon which our society has been built, the social institutions through which these ideas have been given effective meaning, and the never-ending process of development through free choice limited only by concern for the rights and well-being of others. Emphasis will be put upon the values of a free society and the responsibility of the individual for participating actively in the issues and decisions of the day.

**Natural Sciences (15 credit hours)**
The objectives are to acquaint the student with the kinds of problems which lend themselves to possible solutions through the use of science, to introduce him to differing scientific techniques through significant illustrative experience, to give him a sense of perspective in the development of science, and to develop in him an understanding of the basic community of all scientific disciplines.

**NATIONAL DEFENSE OPTION**
In addition to the above requirements, all students enrolled in these colleges will select one of the following:

*Either*

1. Twelve credit hours of courses in military science, air force aerospace studies, or naval science, which offer the freshman an excellent opportunity to learn more about defense problems and the military service so that he can make an informed decision to continue his military training or to terminate it at the end of two years.

*Or*

2. Twelve credit hours of courses not otherwise specified in the degree requirements of the selected curriculum.

**PHYSICAL EDUCATION REQUIREMENT**
All students entering any of the undergraduate colleges, schools, or divisions, including Allied Medical Professions, Nursing, and Dental Hygiene, are required to schedule one hour of physical education each quarter offered until a total of three quarters of credit has been earned.

Transfer to other colleges of this University shall not constitute a waiver of unfulfilled requirements of this rule.

**EXCUSES FROM REQUIRED COURSES**
The college in which a student is enrolled may excuse a student from course requirements imposed by that college.

The requirement of physical education is a University requirement. The President and the departments of instruction directly concerned may grant by faculty regulation excuses from these courses.

**RETROACTIVE GRADUATE CREDIT**
Students registered in an undergraduate college, the Division of Continuing Education, or a professional college cannot receive graduate credit for courses taken when the student is not enrolled in the Graduate School. (See the following for exceptions.)
GRADUATE CREDIT FOR UNDERGRADUATES

An undergraduate student with graduate student potential who does not need to register full-time in order to complete his baccalaureate degree may petition to take certain courses for graduate credit, provided that:

1. The credit for the course is not needed to meet his baccalaureate degree requirements.
2. His cumulative point-hour ratio is 3.0 or above.
3. He secures permission before registering for the courses from:
   a) The instructor in charge of the course.
   b) The secretary of his college.
   c) The chairman of the graduate committee of the department in which the courses are to be taken.
   d) The Graduate School.

The senior petition form for obtaining the necessary approvals is available in the Graduate School Office.

He must achieve a grade of B or better in such courses in order to obtain graduate credit. A student cannot use these courses for graduate credit until he is admitted to the Graduate School and until the department in which he wishes to specialize accepts the work for graduate credit. Not more than 15 quarter hours of such work may be counted toward the student's advanced degree.
Courses of Instruction

The following pages describe courses of instruction offered by the University at undergraduate, graduate, and professional levels. These descriptions are accurate as of October 1, 1972. Courses and programs are continually being improved, but Bulletin deadlines preclude the insertion of more recent changes. The most current information regarding credit hours, sections, days, times, buildings, rooms, and instructors may be found in the quarterly Master Schedule of Classes.

A sample course listing is provided below.

EXPLANATION OF COURSE LISTINGS

A The course number: 631 (An "H" prefix indicates the course is open only to students enrolled in college Honors Programs, and others as designated by departments.)

Note—The University's Classification and Course Numbering System appears in detail in the following section.

A dagger (†) denotes that the course will not be offered this year

An asterisk (*) indicates that the course is offered every other year

The instructional level: U G

U = Undergraduate
UG = Advanced Undergraduate and Graduate
G = Graduate
P = Professional (for professional students enrolled in that particular college)

Credit hours: 5

The course title: Structural Design V

B Quarters of Offerings:

SU = Summer
A = Autumn
SP = Spring
W = Winter

Summer Quarter is further divided into 1st Term and 2nd Term. See the University Calendar in any catalog for dates. Lack of staff or low student enrollment may preclude offering a course, particularly at the advanced level, every quarter for which it is authorized.

Classroom and laboratory hours: 3 cl., 2 2-hr. labs. In the sample provided, the 5 hours of credit are earned through satisfactory completion of course work which involves attending class three days a week and attending two 2-hour laboratory periods each week.

Prerequisites: 673, Engr. Mech. 605, or 3rd yr. standing. The course number(s) or other information indicates the preparation or classification required to enroll in the course. If no department name is listed, the course number refers to the specific course within the same department. If a class standing such as "3rd-year standing" is listed, only students with that or higher class level are eligible for enrollment. The school, department, or college office should be consulted in cases of question as to eligibility for taking the course.

The number of the course implies the prerequisites listed in the University Classification and Course Numbering System shown in the following section.

Additional information affecting a student's enrollment in a course: Not for credit to students majoring in Civil Engineering.

Repeatability Clause: The repeatability clause indicates the maximum number of hours a course may be repeated for credit.

A brief description of the course:
Basic theory and design of reinforced concrete structures.

Instructor's name: Tilton.

C The decimal subdivisions:
The numbers 631.01 and 631.02 indicate subdivisions of the generic number, 631. Whenever decimals appear, a student should register for the entire number (including the desired decimal subdivision) rather than the generic number alone.
UNIVERSITY CLASSIFICATION AND COURSE NUMBERING SYSTEM

Established 1967-68, the system of numbering courses offered by the University is as follows:

<table>
<thead>
<tr>
<th>NUMBERS</th>
<th>COURSES</th>
<th>PREREQUISITES</th>
</tr>
</thead>
<tbody>
<tr>
<td>000-099</td>
<td>Non-Credit Courses (except certain seminars and colloquia)</td>
<td>None</td>
</tr>
<tr>
<td></td>
<td>Orientation courses;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Remedial courses;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Experience courses with student not under direct supervision of faculty;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Courses with credit added to graduation requirements.</td>
<td></td>
</tr>
<tr>
<td>100-299</td>
<td>Courses Providing Undergraduate Credit Only</td>
<td>None, or specified course(s) numbered 100-199.</td>
</tr>
<tr>
<td>100-199</td>
<td>Basic courses providing undergraduate credit, but not to be counted on a major or field of specialization in any department;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Beginning courses, required or elective courses which may be prerequisite to other courses.</td>
<td></td>
</tr>
<tr>
<td>200-299</td>
<td>Basic courses providing undergraduate credit which may be counted on a major or field of specialization (in your and/or other departments).</td>
<td>45 qtr. hrs. in collegiate courses, exclusive of ROTC and physical education; or Specified course(s) numbered 100-199; or Satisfactory placement on entrance examinations when applicable.</td>
</tr>
<tr>
<td>300-499</td>
<td>Courses Providing Undergraduate Credit or Professional Credit</td>
<td>90 qtr. hrs. in collegiate courses, exclusive of ROTC and physical education; or Specified course(s) numbered 100-399.</td>
</tr>
<tr>
<td></td>

Accounting

Office: 459 Hagerty Hall, 1775 College Road

Professors Fertig (Chairman), Burns, A. Gordon (Emeritus), Greenball, Heckert (Emeritus), Kindig, Kollaritsch, Livestone, McCallough, McCoy, and Stanley, Associate Professors Baumler, Brush, Burnham, Johnson, Kinard, and Northrup; Assistant Professors Bartos, Borton (Emeritus), K. Gordon, Krasiewski, Li, Pack, and Scott.

201 U 5
Outline of Accounting
A, Sp. 5 cr.
Not open to students with credit for 211 or equiv.
Survey of accounting in modern business; intended for students whose major is in fields other than business.

211 U 5
Introduction to Accounting
Su, A, W, Sp. 5 cr.
H211 (honors) may be available to students enrolled in a college honors program or by permission of faculty.
Prereq.: Econ. 200, 201, or equiv.
Not open to students with credit for 201 or equiv.
The uses of accounting reports in management decisions and in control of business enterprises.

212 U 5
Introduction to Accounting
Su, A, W, Sp. 5 cr.
H212 (honors) may be available to students enrolled in a college honors program or by permission of faculty.
Prereq.: Econ. 200, 201, or equiv.
Not open to students with credit for 201 or equiv.
The accrual interpretation of transactions and fundamentals of income determination, uses of financial statements by persons outside the firm.

221 U 5
Accounting Methods
Su, A, W, Sp. 5 cr.
Prereq.: 212 or equiv.
The application of accounting techniques to recording and reporting financial information; special emphasis given to accounting systems and the use of working papers.

415 U 5
Factory Costs
5 cr.
Prereq.: 212 or equiv.
Not open to majors in Acc.
Survey of industrial cost accounting for the student whose major interest is in fields other than accounting.

493 U 2-5
Individual Studies
Prereq.: Written permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Individual study projects in selected areas in accounting.

494 U 2-5
Group Studies
Prereq.: Written permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Group study projects in selected areas in accounting.

523 U 4
Financial Accounting I
Su, A, W, Sp. 4 cr.
Prereq.: 221 or equiv.
Not for graduate credit for majors in Acc.
Analysis and interpretation of financial statements, advanced study of concepts of asset valuation and income determination.

524 U 4
Financial Accounting II
Su, A, W, Sp. 4 cr.
Prereq.: 523 or equiv.
A continuation of 523 with special emphasis on the accounting entity and business combinations.

525 U 4
Cost Accounting
Su, A, W, Sp. 4 cr.
Prereq.: 221 or equiv.
Not open to students with credit for 415 or equiv.
Not for graduate credit for majors in Acc.
Basic concepts and techniques of industrial accounting; historical and standard costs; budgeting; management use of cost accounting information.

535 U 4
Advanced Cost Accounting
Sp. 4 cr.
Prereq.: 525 or equiv.
Advanced study of selected applications of cost accounting concepts to management problems involving performance measures with emphasis on budgetary control and standard costing.

626 U 4
Tax Accounting I
Su, A, W, Sp. 4 cr.
Prereq.: 201 or 212 or equiv.
Not for graduate credit for majors in Acc.
Fundamentals of federal, state, and local taxation, with major emphasis upon the federal income tax provisions having common application to all types of taxpayers.

627 U 4
Auditing Principles and Procedures
Su, A, W, Sp. 5 cr.
Prereq.: 524 and 525 or equiv.
Basic concepts and standards of auditing; audit procedures and working papers; internal and external audit reports.

628 U 4
Accounting Practice
Su, A, W, Sp. 4 cr.
Prereq.: 524 and 525 or equiv.
A study of the accounting concepts and standards underlying corporate and non-corporate financial statements, including consideration of typical accounting problems.
631 U G 5
Computer Accounting in Business
Su, A, W, Sp. 2 1-hr. lec., 1 2-hr. case discussion per week.
Prereq.: 221, Compu. and Info. Sc. 211 or 241, and Econ. 442.
The principles and analytical methods used in business data processing systems; file design and data organization in processing activities; practice problems in functional business areas.

636 U G 3
Tax Accounting II
Sp. 3 cl.
Prereq.: 221 and 326 or equiv.
Advanced study of complex problem areas in taxation confronting the professional tax advisor, emphasizing the structure of tax provisions and opportunities for planning and control.

689 U G 15
Field Work in Accounting
Open only to students who hold internships with public accounting firms or with industrial concerns, for which advance approval has been given by the department. 15 cr. hrs. and one qtr. of residence added to graduation requirements for students in this course.

693 U G 2-5
Individual Studies
Prereq.: Written permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Individual reports on selected accounting problems in the following fields of accounting; registration for this course number to be followed by the letter designating the field of study.
 a. Auditing
 b. Budgeting
 c. Cost Accounting
 d. Systems
 e. Taxes
 f. Theory

694 U G 2-5
Group Studies
Prereq.: Written permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Registration to be followed by the letter designating the field of study.
 a. Auditing
 b. Budgeting
 c. Cost Accounting
 d. Systems
 e. Taxes
 f. Theory

711 U G 5
Introduction to Management Accounting
A, Sp. 3 cl. and conf.
Prereq.: Stat. 505.
A survey of accounting principles from the viewpoint of management; income measurement; analysis and interpretation of accounting data, internal reports.

712† U G 3
Introduction to Management Accounting
3 cl. and conf.
Prereq.: Approval of the Office of Graduate Business Programs.
Continuation of 711.

811 G 3
Business Controls
Prereq.: 711 or equiv.; and Bus. Adm. 801.01.
Not for graduate credit for majors in Acc.
Examination of business planning and the controls over operations and property; the use of accounting data in the management enterprise.

831 G 3
Accounting Systems
Sp. 3 cl.
Prereq.: 811 or written permission of instructor.
The principles underlying the design and installation of accounting systems.

844 G 5
Theory and Practice
A. 3 cl.
Prereq.: 524 or equiv.
Readings, reports, and advanced problems in accounting.

845 G 3
Controllership
W. 3 cl.
Prereq.: 811 or written permission of instructor.
The accounting executive's role in the management of an enterprise; accounting data for planning, coordination, control, and protection.

846 G 4
Advanced Tax Accounting
W. 3 cl.
Prereq.: 526 or equiv.
Tax alternatives and tax planning; tax research; postfiling problems and procedures.

847 G 5
Advanced Auditing
Sp. 3 cl.
Prereq.: 627 or equiv.
Growth of the auditor's liability and its effects on auditing procedures; advanced auditing problems; discussion of current material affecting the auditing profession.

851† G 3
Accounting Problems of Financial Institutions and Fiduciaries
W. 3 cl.
Prereq.: 30 cr. hrs. in Acc. or equiv.
Accounting principles and problems peculiar to banks, insurance companies, brokerage and investment houses, receivers, executors, and trustees.
4821
Governmental Accounting
Sp. 3 cl.
Prereq.: 30 cr. hrs. in Acc., or equiv.
The application of accounting principles to government; problems relating to funds, appropriations, and allotments.

483
Accounting Policies of Regulatory Agencies
Sp. 3 cl.
Prereq.: 30 cr. hrs. in Acc., or equiv.

484
Accounting Aspects of Business Policy
W. 3 cl.
Prereq.: 811 or written permission of instructor.
Case studies with particular attention to accounting analysis and application thereof to business problems.

4861
Seminar in Accounting
Repeatable to a maximum of 9 cr. hrs.

998
Research in Accounting: Thesis
Research for thesis purposes only.

999
Research in Accounting: Dissertation
Research for dissertation purposes only.

Administrative Science

H101
Business and Society
A, W, Sp. 3-5 cl.
Prereq.: Fresh. or soph. standing, and approved application for Administrative Science Honors Program. Repeatable to a maximum of 15 cr. hrs.
A critical examination of the socioeconomic framework of business; seminar discussion of selected readings.

301
College Seminar
Su, A, W, Sp. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

Aeronautical and Astronautical Engineering

Office: 328 Civil and Aeronautical Engineering Building, 2036 Neil Avenue
Professors Von Eschen (Chairman), Bailey, Burggraf, Edsa, Gatewood, Lee, Li, Norem, Petrie, and Stewartson (Visiting); Associate Professors Gregorek and Mallett; Assistant Professors Foster and Young.

200
Elements of Aeronautics and Astronautics
A. 3 cl., 1 2-hr. lab.
Not open to students with credit for 400.
An introduction to the aerodynamics, propulsion, structural design, stability, and control of flight vehicles; emphasis on the mechanics of fluids.

201
Elements of Aeronautics and Astronautics
W. 3 cl., 1 2-hr. lab.
Prereq.: 200 or 400.
Not open to students with credit for 401.
A continuation of 200 with emphasis on aircraft propulsion, flight performance, static stability, and control.

202
Elements of Aeronautics and Astronautics
Sp. 3 cl., 1 2-hr. lab.
A continuation of 201 with emphasis on the structural loads imposed on flight vehicles and the resulting stresses.

405
Thermodynamics
A. 4 cl.
Prereq.: 201 and Math. 413.
Introduction to the properties and behavior of aerodynamic fluids from microscopic and macroscopic points of view.

440
Flight Vehicle Structures I
A. 4 cl.
Load distributions, temperature distributions, and allowable stresses for flight vehicle structures; derivations of basic equations for analysis of flight vehicle structural components.

460
One-Dimensional Gasdynamics
W. 4 cl.
Prereq.: 405 and Math. 415.
One dimensional compressible flow including chemical reactions.

480
Mathematical Methods in Aeronautical and Astronautical Engineering
W. 4 cl.
Prereq.: Math. 415 and 416.
Application of selected topics in mathematics to analysis in the field of aeronautical and astronautical engineering.

510 U G 4
Aeronautical Laboratory
W, Sp. 2 cl., 2 3-hr. lab.
Prereq.: 540 and 550.
Laboratory demonstrations and experiments in aerodynamics, aeroelasticity, propulsion, and structures of flight vehicles.

515 U G 4
Preliminary Design of Vehicles
Sp. 2 cl., 2 3-hr. lab.
Prereq.: 520, 541, and 550.

520 U G 4
Flight Vehicle Dynamics
W. 4 cl.
Prereq.: 201 and 480.
Introduction to the concept of dynamic stability and to the dynamics of rigid aircraft and satellite vehicles.

540 U G 4
Flight Vehicle Structures II
W. 4 cl.
Stress analysis of flight vehicle structures.

541 U G 4
Structural Design of Flight Vehicle Components
A. 2 cl., 2 3-hr. labs.
Prereq.: 540.
Design of joints; tension, bending, shear, and compression members; diagonal tension field beams, box beams, and pressure structures.

550 U G 4
Principles of Flight Vehicle Propulsion
Sp. 4 cl.
Prereq. or concur.: 561.
Functional characteristics and performance of rocket, ramjet, turbojet, turbo-propeller, pulse jet, and hybrid engines.

560 U G 4
Classical Aerodynamics
Sp. 4 cl.
Prereq.: 201, and Math. 415 and 416.
Fundamentals of steady incompressible, non-viscous aerodynamic flows with applications to airfoils and finite wings.

561 U G 4
Compressible Aerodynamics
A. 4 cl.
Prereq.: 460, 480, and 550.
The fundamentals of the aerodynamics of compressible fluids.

570 U G 4
Viscous Flow and Heat Transfer
A. 4 cl.
Prereq.: 460.
Fundamentals of viscous flow, laminar and turbulent boundary layers, aerodynamic heating, effects of body forces and acceleration, elements of radiative transfer.

594 U 3-5
Group Studies in Aeronautical and Astronautical Engineering
A, W, Sp. 3-5 cl.
Prereq.: Permission of dept.
Repeatable to a maximum of 15 cr. hrs.
Special studies in aeronautical and astronautical engineering are undertaken to satisfy various nonrecurring needs for aeronautical and astronautical subject matter outside of the normal course structure of the department.

673 U G 4
Biological Fluid Mechanics for the Engineer
Sp. 4 rec.
Prereq.: Elec. E. 679 and Math. 415; or permission of instructor.
Study of pulsatile flows, low Reynolds number flows, turbulence, and separated flow phenomena as they pertain to biological systems and biomedical engineering applications.

693 U G 2-10
Individual Studies in Advanced Aeronautical and Astronautical Engineering
Prereq.: Written permission of dept.
Repeatable to a maximum of 15 cr. hrs.
Special advanced topics in aeronautical and astronautical engineering in one or more areas, including aircraft structures, aerodynamics, propulsion, flutter and vibration, and stability and control.

694 U G 2-10
Group Studies in Aeronautical and Astronautical Engineering
Prereq.: Written permission of dept.
Repeatable to a maximum of 15 cr. hrs.
Special advanced topics in aeronautical and astronautical engineering with the specific area under consideration announced.

695 U 1
Senior Seminar
A. 1 cl.
Prereq.: Aero-Astro. E. senior standing.

711 U G 2-4
Advanced Aeronautical Laboratory
W, Sp. 4-8 lab. hrs.
Prereq.: 540 and 550.
The solution of problems in aero-space engineering by experimental methods.
720† Stability and Control of Flight Vehicles
Sp. 4 cl.
Prereq.: 520.
To alternate with 726.

725 Analytical Dynamics of Astronautics
W. 4 cl.
Prereq.: 520 or equiv.
Satellite orbit analysis and multi-staging of rockets.

726† Perturbation of Satellite Orbits
Sp. 4 cl.
Prereq.: 520 or equiv.
To alternate with 720.
General analysis of satellite orbit perturbations; application to several specific cases.

740† Thermal Stresses in Aircraft and Missiles
Sp. 4 cl.
Prereq.: 540.
To alternate with 746.
Theory of thermal stresses, aerodynamic heating and structural effects due to heating.

745 Aeroelasticity I
W. 4 cl.
Prereq.: 540 and 560.
To alternate with 740.
Dynamic loads analysis of elastic flight vehicles subjected to unsteady airloads.

746* Aeroelasticity II
Sp. 4 cl.
Prereq.: 745.
To alternate with 740.
Continuation of 745.

751 Advanced Propulsion
A. 4 cl.
Prereq.: 550.
Characteristics and performance of air breathing flight vehicle power plants and their components (inlets, turbo-machinery, combustors, and expansion nozzles).

760 Advanced Compressible Flow
W. 4 cl.
Prereq.: 561 or equiv.
Two-dimensional supersonic flow theories.

761 Advanced Aerodynamics
Sp. 4 cl.
Prereq.: 760.
Predictions of pressure distributions, forces, and moments of lifting configurations.

765 Fundamentals of Atmospheric Fluid Dynamics
W. 4 cl.
Prereq.: 570 or permission of instructor.
Advanced level of treatment of basic topics in the dynamics and thermodynamics of atmospheric motion.

767 Selected Problems in Oceanic Circulation
A. 4 cl.
Prereq.: 570 or permission of instructor.
First course for advanced students interested in the application of fluid mechanical principles to oceanic circulations.

771 Aerodynamics of Viscous Compressible Flows
Sp. 4 cl.
Prereq.: 460 and 570.
Analysis of laminar and turbulent boundary layers in high speed flows.

775 Hypersonic Flows I
W. 4 cl.
Prereq.: 561 or 661.
Introduction to the analysis of inviscid hypersonic flow fields.

800 Theory of Deformation and Flow
W. 4 cl.
Prereq.: 460, 540, and 570 or equiv.
Required of all first year graduate students.
General treatment of the basic principles underlying the mechanics of deformable media from both macroscopic and microscopic points of view. Burggraf and Gatewood.

802 Analytical Methods in Engineering I
Sp. 4 cl.
Prereq.: 480, and 561 or equiv.
Advanced methods for solution of partial differential equations with applications to fluid dynamics; topics include Green's functions, method of characteristics, numerical methods, and asymptotic solutions. Burggraf, Gatewood, Li, and Mallett.

803 Analytical Methods in Engineering II
A. 3 cl.
Prereq.: 802.
Continuation of 802 with emphasis on the solution of singular perturbation problems as they arise in fluid mechanics. Burggraf, Gatewood, Li, and Mallett.

805 Aerodynamics of Chemically Reacting Fluids
A. 3 cl.
Prereq.: 405 or equiv.
The aerodynamics of one-dimensional compressible flow with chemical reactions and wave propagation. Edse.
810  G 3
Flight Vehicle Performance Analysis
A. 3 cl.
Prereq.: 550 and 761.

815  G 4
Experimental Methods in Aerodynamics
W. 8 lab.
Prereq.: 510 or permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Experimental approach to aerodynamics; similarity concepts, facilities, design of experiments, and interpretation of measurements.

820  G 3
Advanced Flight Vehicle Stability and Control
A. 3 cl.
Prereq.: 726.
Advanced studies in stability and control of non-linear systems. Liapunov method, dynamics in extra-terrestrial atmospheres, new control methods. Mallett.

825  G 3
Advanced Analytical Dynamics of Astronautics
W. 3 cl.
Prereq.: 726.
Advanced study in transfer orbits, satellite rendezvous, satellite attitude control, and lunar and planetary missions. Mallett.

840  G 3
Inelastic Structural Analysis
A. 3 cl.
Prereq.: 540 or equiv.
The analysis of inelastic space structures and structural components subjected to thermal, uniaxial, and biaxial loads. Bailey and Gatewood.

841  G 3
Advanced Aeroelasticity
W. 3 cl.
Prereq.: 746.
The effects of compressibility, three-dimensional flow, and structural heating on the static and dynamic response of elastic and inelastic flight vehicles subjected to steady and unsteady loads. Bailey and Gatewood.

842  G 3
Advanced Structures for Flight Vehicles
Sp. 3 cl.
Prereq.: 540 or equiv.
Advanced analysis and design of aircraft structures and/or structural components including thermal, inelastic, and buckling effects. Bailey and Gatewood.

850  G 3
Non-Equilibrium Flow Dynamics
A. 3 cl.
Prereq.: 460 or equiv.
Relaxation, dissociation, waves (sound, shock) nozzle flow and design collisional energy transfer in gases. Edse, Li, and Petrie.

851  G 3
Advanced Propulsion Problems
W. 3 cl.
Prereq.: 751.
Combustion instability, free radicals as energy source, space propulsion problems, noise of exhaust jets, energy conversion, solid propellants, heat transfer in rocket engines, and cascade theory. Edse.

852  G 3
Supersonic Combustion
Sp. 3 cl.
Prereq.: 750.
Supersonic and hypersonic ramjets, hybrid engines, detonation waves, flame propagation, flame temperature, and combustion kinetics. Edse.

860  G 3
Advanced High Speed Aerodynamics
A. 3 cl.
Prereq.: 761.
Supersonic and hypersonic aerodynamics, unsteady aerodynamics, transonic flows, transient wave phenomena, non-equilibrium gas dynamics. Burggraf, Lee, Li, Nerem, Petrie, and Von Eschen.

861  G 4
Advanced Boundary Layer and Heat Transfer Theory
W. 4 cl.
Prereq.: 771 and 800; or permission of instructor.
Advanced topics in the areas of boundary layer and heat transfer phenomena. Burggraf, Lee, Li, and Nerem.

865  G 4
Advanced Viscous Flow Theory
A. 4 cl.
Prereq.: 771 and 800.
Three-dimensional viscous flow at low and high Reynolds number; stability theory; statistical theories of turbulence. Burggraf, Lee, Li, and Nerem.

868  G 3
Molecular Theory of Gas Flows
Sp. 3 cl.
Prereq.: 405, and 800 or equiv.

870*  G 3
Aerodynamics of Plasmas
W. 3 cl.
Prereq.: 460, and Elec. E. 810 or equiv.
The governing equations of magnetofuidmecanics, similarity laws, and applications to continuum plasma problems of interest in aerodynamics. Petrie.

871*  G 3
Aerodynamics of Plasmas
Sp. 3 cl.
Prereq.: 870.
Hypersonic Flows II
Sp. 4 cl.
Prereq.: 771, 775, and permission of instructor. Introduction to the study of real gas effects in hypersonics. Lee and Li.

Seminar
Su, A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 15 cr. hrs. Read. of all grad. students in Aero-Astro. E. each qtr.

Advanced Topics in Aeronautical and Astronautical Engineering
Prereq.: Permission of dept.
Repeatable to a maximum of 15 cr. hrs.

Research in Aeronautical and Astronautical Engineering
Research for thesis or dissertation purposes only.

Agricultural Economics
Office: 103 Agricultural Administration Building, 2120 Ffnye Road

Professors Boyne (Chairman), McCormick (Associate Chairman), Phillips (Associate Chairman), Adams, R. H., Baker, R. L. Baker, Barr, Baumer, Cravens, Dougan, Ezzell, Hadley, Ingraham, Jacobson, Jones, Mitchell, Moore, Shaudys, Sitterley, Smith, Stout, Walker, and Weyt; Associate Professors Bauman, Bowen, Darrow, Erven, Hahn, Himes, Hushak, Marion, McDonald, Rask, Simonds, Taylor, P. R. Thomas, Vandemark, and Wessel; Assistant Professors Duvick, Francis, Glover, Henderson, Hitzhusen, Larson, Lee, Meyer, Napier, Singh, D. W. Thomas, and Watkins; Instructors Pierce, Pugh, and Tucker.

Principles of Agricultural Economics
A, W, Sp. 5 cl.
Not open to students with credit for Econ. 200. A study of economic principles and their application to problems of agricultural production, demand and supply, marketing systems, consumption, and income distribution in rural economies.

Socio-Economic Systems in Rural America
A, W, Sp. 5 cl.
(Crosslisted in the Dept. of Rural Soc.) A study of our rural socio-economic systems, the individual's interaction within these systems, and the impact of societal decisions on resource use and control. Hitzhusen, Shaudys, and Thomas.

Agricultural Economics in a Changing World
Sp. 5 cl.
Prereq.: Membership in a College honors program or eligibility for membership with permission of instructor. Not open to students with credit for 100 or Econ. 200. A study of basic economic principles as applied to agricultural production, consumption, and marketing problems in a changing world. McCormick.

Computers in Agricultural Decisions
W. 3 1-hr. cl.
Prereq.: 100. Survey of agricultural problem solving, computing systems fundamentals, and the use of computer systems as aids in agricultural decision making. Taylor.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-199.

Management of Agricultural Firms
A, W, Sp. 5 1-hr. cl.
Prereq.: 100 or equiv. Organization and operation of farm and agribusiness firms; economic and management principles in decision making; financial statements, budgeting, firm organization and operation, financial and labor management.

Farm Records and Analysis
A, W. 2 1½-hr. cl.
Prereq.: 100 or equiv. Nature and need for farm business records and analysis and interpretation of essential records from farm manager viewpoint; their use in income tax reporting. Baker.

Marketing in Agricultural Industries
A, W, Sp. 5 cl., 1 1-day field trip.
Prereq.: 100. The study and analysis of the theory of markets and the market processes and institutions important in the agricultural-related sectors of the U. S. economy. R. L. Baker, Henderson, and Simonds.

Agricultural Finance
A, Sp. 4 cl., 1 1-day field trip.
Prereq.: 310.01 or 310.02 or equiv. Financial management of farms and small agribusiness firms; sources of capital, credit institutions, leasing, capital budgeting, leverage, legal aspects, insurance, and financial markets. Lee.
418 U 3
Farm Appraisal
Sp. 3 cl., 3 3-hr. field trips during qtr.
Prereq.: 310.01 or 310.02 or equiv.
Farm real estate appraisal with emphasis on methods, procedure, and reporting; factors influencing land value and fluctuation in land prices. R. H. Baker.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 10 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

502 U G 3
Prices of Farm Products
W, Sp. 3 cl.
Characteristics of agricultural price, movement, measurement, seasonality, cycles, and forecasting, including analysis of price formation elasticity, parity, and other price statistics. Himes.

507 U G 5
Agricultural Economics Analysis
W. 3 1-hr. cl.
Prereq.: Econ. 442 or Stat. 125.
Application of the scientific method and statistical analysis to problems in Agricultural Economics. Hushak.

522 U G 3
Livestock Marketing
W. 3 cl.
Prereq.: 320.
(Offered in cooperation with the Dept. of Animal Sc.) Selling methods, basis of sale, agencies involved, organization of markets, transportation, financing, marketing costs, prices, when to market, grade differentials, government regulation. Stout.

523 U G 3
Grain Marketing
Su, A. 3 cl.
Prereq.: 320.
Principles and practices involved in grain and feed marketing and the theory of grain pricing; economics of grain marketing.

526 U G 3
Marketing Dairy Products
W. 3 cl.
Prereq.: 320.
(Offered in cooperation with the Depts. of Dairy Sc. and Food Sc. and Nutrition.) A study of the principles of assembling, transporting, selling, pricing, distribution, marketing costs, and margin for dairy products. Jacobson.

528 U G 3
Marketing Fruits and Vegetables
Sp. 3 cl. 1 2-day field trip.
Prereq.: 320.
Principles involved in the marketing of fruits and vegetables and the agencies concerned. Cravens.

530 U G 5
Agricultural Policy
A, W. 5 cl.
Not open to Juniors.
Characteristics and problems of agriculture; description and analysis of programs and policies designed to assist agriculture and alternative proposals for the future. Glover and Stout.

531 U G 3
Land Economics
W, Sp. 3 cl.
Land resources and requirements; economic principles involved in land use; major land use problems; ways of achieving better land use; public's interest in land policy. Wayt and Glover.

532 U G 3
The Development of Rural Economic Systems
A. 3 cl.
Comparison and analysis of systems, problems, and methods of transforming rural structures in less developed and developed countries; implications of international issues for rural development. Wessel.

534 U G 3
Food Economics
Sp. 3 cl.
Economic aspects of the production, distribution, and consumption of foods. Simonds.

H539 U G 5
U.S. Agricultural Price and Income Policy
W. 5 cl.
Prereq.: Jr. standing and membership in a College honors program or eligibility for membership with permission of instructor.
Not open to students with credit for 530.
A description, analysis, and evaluation of the United States agricultural price and income programs past, present, and proposals for the future. McCormick.

541 U G 5
Cooperation in Agriculture
A, Sp. 5 cl.
Basic principles of cooperatives including types of organizations, legal aspects, membership relations, financing, organizational and intercooperative problems, and distribution of savings. Ingraham.

593 U G 2-5
Individual Studies
H593 (honors) may be available to students enrolled in a college honors program or eligible for enrollment. Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Planning, conducting, and reporting a special problem in agricultural economics to meet the needs of the student.

593.01 Agribusiness Management
593.02 Agricultural Marketing
593.03 Agricultural Policy
593.04 Foreign Agricultural Development
593.05 Resource Economics
593.06 Community Resource Development
593.07 Agricultural Economic Theory
The role of agriculture in economic development, characteristics of traditional agriculture, and the techniques used to modernize agriculture. Adams.

Groups

594 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Reporting of selected topics in agricultural economics to further acquaint the student with current conditions.
594.01 Agribusiness Management
594.02 Agricultural Marketing
594.03 Agricultural Policy
594.04 Foreign Agricultural Development
594.05 Resource Economics
594.06 Community Resource Development
594.07 Agricultural Economic Theory
594.08 Quantitative Methods and Research Methodology in Agricultural Economics
594.09 Unclassified

595 U 1
Senior Seminar in Agricultural Economics
A, W, Sp. 1 cr.
Prereq.: Senior standing.
An analysis of social and economic problems encountered by the college graduate in a dynamic world. McCormick.

GENERAL PREREQUISITES FOR COURSES NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in a specified allied discipline.

610 U G 5
Farm Organization
A. 4 cr., 1 2-hr. lab. and 1 field trip during qtr.
Prereq.: 310.01 or 410, 312 or 412; Animal Sc. 200, and Agron. 411 or 412.
Detailed application of production economics, management principles, and decision making techniques to the organization, operation, and administration of farms; farm plans developed. Shau dys.

620 U G 4
Agri-Industry Organization and Public Policy
Sp. 2 2-hr. cr.
Prereq.: 20 hrs. in Agr. Ed. and/or Econ. at the 300 level and above.
Analysis of socioeconomic performance in agricultural industries, including the study of interrelationships among market structure, firm conduct, public policy, consumer behavior and performance in the private enterprise sector of the agricultural economy. Baumer, Henderson, and Marion.

632 U G 3
Economic Techniques for Foreign Agricultural Development
A. 3 cr.
Prereq.: 532 or permission of instructor.

The role of agriculture in economic development, characteristics of traditional agriculture, and the techniques used to modernize agriculture. Adams.

640 U G 5
Strategy in Agribusiness
W. 1 1-hr. cr., 2 2-hr. cr.
Prereq.: 320 and 416 or equiv.
Analysis of important management problems confronting agricultural marketing and farm supply firms, including interpreting and responding to industry and socio-economic trends and change forces. Marion.

693 U G 2-5
Individual Studies
H693 (honors) may be available to students enrolled in a college honors program or enrolled for enrollment.
Repeatable to a maximum of 10 cr. hrs.
Planning, conducting, and reporting a special problem in agricultural economics.
693.01 Agribusiness Management
693.02 Agricultural Marketing
693.03 Agricultural Policy
693.04 Foreign Agricultural Development
693.05 Resource Economics
693.06 Community Resource Development
693.07 Agricultural Economic Theory
693.08 Quantitative Methods and Research Methodology in Agricultural Economics
693.09 Unclassified

694 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Selected topics in agricultural economics to acquaint students with current economic conditions.
694.01 Agribusiness Management
694.02 Agricultural Marketing
694.03 Agricultural Policy
694.04 Foreign Agricultural Development
694.05 Resource Economics
694.06 Community Resource Development
694.07 Agricultural Economic Theory
694.08 Quantitative Methods and Research Methodology in Agricultural Economics
694.09 Unclassified

695 U G 3
Seminar in Agricultural Business Management
A. 3 cr.
Application of business management concepts to agriculture. Lehnn and Ingram.

GENERAL PREREQUISITES FOR COURSES NUMBERED 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr. hrs. in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

705 U G 3
Economics of Agricultural Production
W. 3 cr.
Prereq.: Economics 501 or 705.
Not open to students with credit for 895.
A critical consideration of economic principles as they apply to production problems in agriculture. Hushak and Walker.

716 U G 3
Agri-cultural Finance
Sp. 3 cl.
Prereq.: 416 or 516 and Bus. Admin. 620.
Analysis of capital budgeting and cash flow techniques as related to agricultural finance; evaluation of selected procedures for estimating the repayment capacity. Lee.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800- and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

800 G 3
Research Methods in Agricultural Economics
Sp. 3 cl.
Prereq.: Econ. 805, 5 cr. hrs. Math., and 4 cr. hrs. statistics.
Principles of scientific method in agricultural economics. Hahn, Henderson, Marion, Sharp, Simonds, and Stout.

801 G 3
Seminar in Problems in Agricultural Economics Statistics
A. 3 cl.
Prereq.: Econ. 641.
Application of statistics to problems in agricultural economics. Hushak.

802 G 3
Quantitative Methods in Agricultural Economics
W. 3 cl.
Prereq.: 600, Econ. 641, and differential calculus.
Applications of analytical models to problems in agricultural economics research. Walker.

803 G 2
Seminar in Linear Programming
Sp. 2 cl.
Prereq.: 800.
Application of linear programming to agriculture. R. H. Beker.

804 G 3
Seminar in Agricultural Price Analysis
Sp. 3 cl.
Prereq.: 800.
Intensive consideration given to theory and analysis of agricultural prices. Himes.

806 G 4
Economics of Agricultural Production
Sp. 3 cl.
Prereq.: 705 or 805 and Econ. 705.
A further consideration of economic principles as they apply to production problems in agriculture. Walker and Hushak.

807 G 2-4
Seminar in Agricultural Economic Theory
Sp.
Prereq.: 705, 800, and permission of instructor.
Repeatable to a maximum of 8 cr. hrs.

810 G 3
Farm Organization and Resource Management
W. 3 cl.
Prereq.: 610.
Designed to integrate resource use and the human factor under dynamic conditions of risk and uncertainty with a goal of economic progress. Erven and Shaudys.

811 G 24
Seminar in Farm Organization and Management
W.
Application of micro-theory to farm organization and management.

816 G 2-4
Seminar in Agricultural Finance
A.
Repeatable to a maximum of 8 cr. hrs.
Intensive consideration is given to current theories and future problems in agricultural finance.

820 G 3
Agricultural Marketing
W. 3 cl.
Prereq.: 620, Econ. 805, and 806.
Study of the major problems in agricultural marketing and relevant research findings. R. L. Baker, Cravens, Hahn, Henderson, Marion, Sharp, Simonds, and Stout.

821 G 2-4
Seminar in Agricultural Marketing
A.
Repeatable to a maximum of 8 cr. hrs.
Critical analysis of major problems in agricultural marketing.

830 G 4
Agricultural Policy
A. 4 cl.
Prereq.: 320 or 420, 530, Econ. 805, and 806.
Examination of values of American society concerning agriculture, reasons for these values, and alternatives for achieving various goals for U.S. agriculture. Glover and Stout.

831 G 3
Land Economics
Sp. 3 cl.
Prereq.: 531 and 765.
Examination of current problems in land resource use, allocation, conservation, and control. Glover and Wayt.

832 G 3
Seminar in Economic Development of Foreign Agriculture
Sp.
Prereq.: 632
Repeatable to a maximum of 8 cr. hrs.
Agricultural Economics

Characteristic problems of developing countries, identification and analysis of limiting factors in underdevelopment, and techniques for stimulating economic development through growth in agriculture. Adams.

833 G 2-4 Seminar in Land Tenure, Agrarian Reform, and Agricultural Development
A. Repeatable to a maximum of 8 cr. hrs. Evaluation of land reform, agrarian reform, and land tenure systems; emphasis on parcelization, colonization, parcel consolidation, and taxation. Wayt.

834 G 2-4 Seminar in Food Economics
A. An examination of the economic relationship of food production to population and region of the world and areas within countries. Simonds.

897 G 1 Interdepartmental Seminar in Natural Resources
A, W, Sp. (See under Interdepartmental Seminars.)

899 G 1-5 Interdepartmental Seminars
A, W, Sp. (See under Interdepartmental Seminars.)

993 G 2-5 Individual Studies
Su, A, W, Sp. Prereq.: Permission of instructor. Repeatable to a maximum of 10 cr. hrs. Planning, conducting, and reporting a special problem in agricultural economics fitting the needs of the student, under the guidance of an instructor.

993.01 Agribusiness Management
993.02 Agricultural Marketing
993.03 Agricultural Policy
993.04 Foreign Agricultural Development
993.05 Resource Economics
993.06 Community Resource Development
993.07 Agricultural Economic Theory
993.08 Quantitative Methods and Research Methodology in Agricultural Economics
993.09 Unclassified

995 G 2 or 4 Seminar
A, W, Sp. Repeatable to a maximum of 10 cr. hrs.

999 G Arr. Research in Agricultural Economics

Agricultural Education

Office: 208 Agricultural Administration Building, 2120 Pyffer Road.

Professors Bender (Chairman), Boucher, Cunningham, Gehres, Guiler, Halterman, Johnson, McCormick, Ritchie, Taylor, Warmbrod, Watson, Wilson, Wolf, and Woodin; Associate Professors Bruni, Garrison, Hull, Jenkins, Magios, Robinson, Schroeder, and Starling; Assistant Professors Budke, Goyer, Gray, Kohle, Lau, Leidhaisner, Lifer, McCaslin, McCracken, Norton, Oren, Walliser, C. Young, and R. Young; Instructors Archer and Pulse.

200 U 3 Introduction to Agricultural Education
A, W, Sp. 3 cr. Importance and purpose of agricultural education with emphasis on nature of programs, career opportunities, and qualifications of personnel as related to school and society. Boucher.

280 U 2-5 Experience in Agricultural Education
Prereq.: 200. Not open to students with credit for 380. Repeatable to a maximum of 30 cr. hrs. Supervised field experience in:

280.01 Teaching of Agriculture
A (During Sept.), W, Sp. Participation in professional activities relating to problems, methods, and skills basic to agricultural education. Wilson and Boucher.

280.02 Cooperative Extension

280.03 Specialty Programmed Experience
Su, A, W, Sp. Participation in programmed experience involving vocational agriculture or other appropriate areas of agricultural education.

290 U 3 Communication of Agricultural Concepts
A, W, Sp. 2 1/2-hr. cr. Prereq.: Engl. 100. Procedures and practice in developing, interpreting, and communicating agricultural and natural resources concepts with emphasis upon the use of visual materials and effective presentation.

330 U 5 Methods in Teaching Vocational Agriculture
A, W, Sp. 4 cr., 4 lab. hrs. Prereq.: 200 and 280.01. Not open to students with credit for 230. Principles of teaching and the learning process with application to teaching vocational agriculture including laboratory study in selected schools. Wolf.
420 U 3
Program Development in Cooperative Extension
Sp. 3 cr.
Prereq.: 300.
Principles and procedures in developing extension programs in agriculture and home economics, with emphasis on program determination, teaching methods, and relationships with other groups. Jenkins.

GENERAL PREREQUISITES FOR COURSES NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 10 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines; or baccalaureate degree.

581 U 5
Student Teaching in Agriculture
Prereq.: 330 and completion of departmental requirements for admission to the professional program; concur. 582 and 583.
Supervised participation in teaching and other professional responsibilities of teachers of agriculture including clinical analysis in conferences and seminars. Wilson and Boucher.

582 U 5
Student Teaching in Agriculture
Concur.: 581 and 583.
Supervised participation in teaching and other professional responsibilities of teachers of agriculture including clinical analysis in conferences and seminars. Wilson and Young.

583 U 5
Student Teaching in Agriculture
Concur.: 581 and 582.
Supervised participation in teaching and other professional responsibilities of teachers of agriculture including clinical analysis in conferences and seminars. Boucher.

GENERAL PREREQUISITES FOR COURSES NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline; plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

621 U G 3
Curriculum Development
Su (1st term). 3 2-hr. cl.
Prereq.: 581, 582, and 583.
Principles and practices used in developing courses of study in agriculture for high school and post-high school programs. Guiler.

622 U G 3
Continuing Education in Agriculture
Sp. 1 3-hr. cl.
Prereq.: 581, 582, and 583.
Principles and practices involved in developing vocational, technical, and extension programs for out-of-school youth and adults. Bender and Boucher.

631 U G 3
Methods in Teaching Agriculture
Su (1st term). W. 2 1-hr. cl. cl.
Prereq.: 581, 582, and 583.
Theory, principles, and procedures associated with effective instruction in agriculture at the secondary, technical, and college levels. Bender.

640 U G 3
Instructional Media in Teaching Agriculture
Su, Sp. 1 3-hr. cl.
Prereq.: 581, 582, and 583.
Theory and practice in developing and using instructional media and equipment at the secondary, technical, and college levels. Guiler and Woodin.

641 U G 3
Occupational Experience in Agricultural Education
A, Sp. 1 3-hr. cl.
Prereq.: 581, 582, and 583.
Principles and procedures used in selecting, planning, conducting, and evaluating occupational experience programs for students. Guiler and Woodin.

642 U G 3
Youth Organizations
Sp. 1 3-hr. cl.
Prereq.: 581, 582, and 583.
An analysis of youth organizations in vocational and extension education with emphasis on planning and conducting such programs. Bender and Boucher.

684 U G 3-15
Internship in Agricultural Education
Prereq.: 581, 582, and 583.
Repeatable to a maximum of 15 cr. hrs.
Guided participation to further enhance professional and/or technical competency in selected areas. Guiler.

684.10 Vocational Agriculture

684.20 Cooperative Extension Education

684.30 Technical

684.40 Specialized Agriculture

693 U G 2-5
Individual Studies
H693 (honors) may be available to students enrolled in a college honors program or eligible for enrollment.
Planning, conducting, and reporting a special study appropriate to the needs of the student.
GENERAL PREREQUISITES FOR COURSES
NUMBERED 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr. hrs. in courses in the same discipline numbered 600 or higher, plus additional specified course(s) numbered 600 or higher.

743   U G 3
Practicum in Teaching Agricultural Mechanics
W. 1 4-hr. cl.
Prereq.: 621, 631, or 684.
Selection and use of subject matter, resources, and methods of teaching agricultural mechanics. Johnson.

744   U G 3
Practicum in Teaching Farm Business Planning
A. 1 3-hr. cl.
Prereq.: 621, 631, or 684.
Methods of teaching farm business planning, including the selection of subject matter and use of resources, with application to high school and continuing education programs. Starling.

770   U G 3
Evaluation
Sp. 1 3-hr. cl.
Prereq.: 621, 631, or 684.
Evaluation principles and procedures used in developing vocational, technical, and extension programs. Woodin.

790   U G 3-5
Workshops in Agricultural Education
Minimum of 3 wks.
Prereq.: Teaching or extension experience and permission of instructor.
A maximum of 10 cr. hrs. may be earned in any one decimal subdivision; or 15 cr. hrs. in any combination of decimal subdivisions.
Intensive study of selected areas of agricultural education with emphasis on the application of principles and methods in attaining desired objectives.

790.10 General

GENERAL PREREQUISITES FOR COURSES
NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

810   G 3
Principles of Vocational-Technical Education
A. 1 3-hr. cl.
Prereq.: Professional experience in vocational education;
An analysis of evolving concepts of vocational and technical education with emphasis upon principles underlying organization and practice. Woodin.

811   G 3
Administration and Supervision
Su (2nd term), A. 1 3-hr. cl.
Prereq.: Experience in Agr. Ed.
Principles in developing and administering programs in vocational, technical, and extension education with attention to federal-state-local relationships, in-service education, and supervisory procedures. McCormick and Taylor.

812   G 3
Teacher Education
Su (2nd term). 5 cl.
Prereq.: Experience in Agr. Ed.

823 G 3
Program Planning and Development
Su (1st term), W. 1 3-hr. cl.
Prereq.: Experience in Agr. Ed.
Principles, theory, and practice in developing state and local programs of vocational, technical, and extension education. Cunningham, Taylor, and Woodin.

885 G 3
Research Methods
Su (1st term), 5 cl.; W. 1 3-hr. cl.
Prereq.: 6 cr. hrs. grad. courses.
Principles and techniques of research appropriate for planning, conducting, and reporting research in vocational, technical, and extension education. Warmbord.

886 G 3
Research Design
Sp. 2 1/2-hr. cl.
Prereq.: 885 and a course in Statistics.
Development of effective design for research problems in vocational, technical, and extension education, including theory, models, and sampling.

887 G 3
Analysis and Interpretation of Data
A. 1 1/2-hr. cl.
Prereq.: 886 or permission of instructor.
Application and interpretation of descriptive and inferential statistics for research in vocational, technical, and extension education, including the use of the computer. Cunningham and Warmbord.

889 G 3
Advanced Studies
Prereq.: 885.
Individual field study in partial fulfillment of needs for research experience.

899 G 2 or 3
Interdepartmental Seminar
W, Sp. 1 or 2 cl.
Investigation and analysis of current problems and issues in cooperation with other appropriate departments.

95 G 1-3
Seminar in Research
Su. 1 3-hr. cl.
Prereq.: 886.
Repeatable to a maximum of 3 cr. hrs.
Further development and direction of individual studies and programs of research. Warmbord and Young.

999 G Arr.
Research
Research for thesis or dissertation purposes only.

Agricultural Engineering

Office: 105 Ives Hall, 2073 Neil Avenue

Professors Nelson (Chairman), Roller (Associate Chairman, Wooster), Barre, Blickle, Bondaren, Brazee, Byg, Curry, Harrold, Herum, Huber, Johnson, Palmer, Reeve, Schwab, Stucky, and Tainanides; Associate Professors Blaisdell, Drew, Gill, Handy, Miller, and Schnug; Assistant Professors Belt, Fox, Henry, Nolte, Short, Stombaugh, White, and Witz; Instructors Fausey, Harkness, Keener, and Walker.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in college courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-199.

210 U 5
Engineering in Agriculture
A, W, Sp. 4 cl., 1 2-hr. lab.
Basic concepts of engineering and technology essential to the development and function of improved systems for fulfilling our food and agricultural environment needs. Harkness.

220 U 3
Buildings and Equipment for Farmstead Operations
A, Sp. 2 cl., 2 lab. hrs.
Prereq.: Math. 117, 121, or 130.
Functional requirements and planning of buildings and facilities for livestock production and for conditioning and storage of crops; environmental control; building construction. Barre.

221 U 3
Agricultural Materials Handling Systems
W. 2 cl., 2 lab. hrs.
Prereq.: Math. 117, 121, or 130.
Principles, functional analysis and design of agricultural materials handling systems from harvest to utilization. Herum.

223 U 2
Introduction to Agricultural Engineering Design
A. 1 3-hr., 1 2-hr. lab.
Prereq.: Physics 132.
Open only to Agr. E. majors.
Principles of engineering design, emphasizing biological concepts of importance in agricultural production and processing. Harkness.

230 U 3
Power for Agricultural Operations
A, W, Sp. 2 cl., 2 lab. hrs.
Prereq.: Math. 117, 121, or 150.
A study of power in agriculture with primary emphasis upon power needs for field operations, characteristics of available power sources, selection, and use of power units. Huber.
231 U 3
Electric Power for Agricultural Operations
W. 2 cl., 2 lab. hrs.
Prereq.: Matht. 111, 121, or 150.
Functional analysis of systems and components essential for distribution and control of electricity for
tower, heat, and illumination applications in
agriculture. Harkness.

240 U 3
Teaching of Agricultural
Construction and Maintenance
A, W, Sp. 2 cl., 6 lab. hrs.
Prereq. or concur.: Agr. Ed. 230 or 330.
Principles and methods of teaching selection, use, and
care of hand and power tools, materials for wood and
metal construction based upon farm needs. C. Johnson.

250 U 3
Machines for Agricultural Operations
A, Sp. 2 cl., 2 lab. hrs.
Prereq.: Matht. 117, 121, or 150.
Analysis of field machine operations with emphasis on
recognition and quantitative solution of problems in
selection and use of machines for optimum economic
performance. Harkness.

270 U 3
Engineering Methods
in Soil and Water Conservation
A, Sp. 2 cl., 3 lab. hrs.
Prereq.: Matht. 117, 121, or 150, and Agron. 240,
instrument surveying, aerial and topographic maps,
rainfall and runoff, and engineering applications of
soil and water management on farms and on
recreational areas. Schwab and Tzanakides.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300
and 400-level courses are 90 cr. hrs. in collegiate
courses, exclusive of ROTC and Phys. Ed.; or specified
course(s) numbered 100-399.

305 U 3
Rural Housing Technology
A, Sp. 3 cl.
Prereq.: 3rd yr. standing or permission of instructor.
Basic technological factors of rural housing: site
selection, drainage, water supply, waste disposal,
utilities, and basic construction methods. Miller.

310 U 5
Fundamentals of Food Engineering
A. 3 cl., 2 2-hr. lab.
Prereq.: 10 cr. hrs. in Math., 10 cr. hrs. in Chem.,
and 5 cr. hrs. in Physics.
(Offered in cooperation with the Dept. of Food Science
and Nutrition.)
Introduction to heat transfer, fluid flow, and
thermodynamics in food processes. Blaisdell.

411 U 5
Refrigeration Engineering in the Food Industry
Sp. 3 cl., 2 2-hr. lab.
Prereq.: 310.
(Offered in cooperation with the Dept. of Food Science
and Nutrition.)
Transient heat transfer, thermodynamics of
refrigeration systems, and applications of refrigeration
in food processing. Blaisdell.

425 U 3
Engineering Properties of Biological Materials
A. 2 cl., 1 2-hr. lab.
Prereq.: Chem. 204 and Engr. Mech. 420, or permission
of instructor.
Identification and measurement of the physical
properties of agricultural materials relevant to the
engineering of systems for their production, harvesting,
handling, and classification. Blaisdell and Herum.

433 U 3
Analysis of Elementary
Biological-Physical Systems
W. 3 cl., 1 1-hr. lab.
Mathematical model formulation and analysis
techniques developed and applied to elementary
biological and physical systems. Hamdy.

434 U 3
Biometeorology of Plant and Animal Systems
W. 3 cl.
Prereq.: 222.
Study of the micro- and macro-environmental variables
in nature as they relate to engineering of plant and
animal production systems. Schwab.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 500
Unless otherwise indicated, the prerequisites for
500-level courses are 15 cr. hrs. in courses in the same
discipline numbered 200 or higher, or 10 cr. hrs. in
courses numbered 200 or higher in the same discipline,
plus 10 cr. hrs. in courses numbered 200 or higher in
specified allied disciplines; or baccalaureate degree.

500 U G 1
Farm and Home Safety
Sp. 1 cl.
Causes of accidents; methods for conducting farm and
home safety programs; for students interested in
vocational agriculture, extension, and farm organization
work.

535 U G 4
Utilization of Energy in Agriculture
Sp. 3 cl., 1 2-hr. lab.
Study of motive and stationary power needs of
agriculture, mechanics of traction, characteristics of
power sources, morphology of off-the-road vehicle
design. Huber.

543 U G 5
Engineering Soil-Water Management
A. 3 cl., 2 3-hr. lab.
Prereq.: 434, Agron. 671, and Civil E. 413, or equiv.
Engineering design of drainage, irrigation, and erosion
control systems for optimum crop growth, environment,
and related water storage structures. Schwab.
AGRICULTURAL ENGINEERING  33

544  U G 4
Engineering Agricultural Machines
A.  3 cl., 1 3-hr. lab.
Prereq.: 555 and mech. c. 556.
Design of agricultural machines; recognition of the
economic, political, and social context in which the
machinery is designed, built, distributed, and used.

550  U G 3
Pollution Control and Waste Utilization
Su, W, Sp.  3 cl.
Prereq.: Upper division or grad. standing.
Not open for graduate credit to students majoring in Agr. E.
Management and utilization of animal wastes,
fertilizers, pesticides, crop residues, milk and food
processing and farmstead and urban solid wastes to
abate environmental pollution at the urban-rural
interface. Taigenides and White.

551  U G 3
Advanced Farm Power and Field Machinery
A.  2 cl., 1 3-hr. lab.
Prereq.: 9 cr. hrs. Agr. E., 8 cr. hrs. Agron., or
baccalaureate degree.
An advanced study of harvesting machines and power
units from the mechanical, operational, and economic
standpoint; emphasis is given to the development of
optimum harvest systems.

570  U G 3
Agricultural and Forest Hydrology
A. W.  3 cl.
Prereq.: 4th yr. standing and permission of instructor.
Not open for credit to students majoring in Agr. E.
Hydrology of small watersheds as influenced by
watershed management practices; water resource
development; control of sediment and floods; and
water quality and conversation. Bondurant and Schwab.

591  U G 3
Workshop
Su (1st term).  First 3 wks.—full time.
Prereq.: 9 cr. hrs. Agr. E. and permission of instructor.
Principles, objectives, methods, and equipment in the
organization and management of a program for
teaching agricultural mechanics; students will plan,
present, and evaluate units of instruction.

593  U G 3-5
Individual Studies
H593 (honors) may be available to students enrolled in
a college honors program or eligible for enrollment.
Prereq.: Permission of instructor.
Advanced study of problems not included in regular
courses of this department.

594  U G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to maximum of 16 cr. hrs.
Intensive study of selected areas in agricultural
engineering not provided in other courses and
appropriate to the needs of the students.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600

Unless otherwise indicated, the prerequisites for
600-level courses are 15 cr. hrs. in courses in the same
discipline numbered 300 or higher, or 10 cr. hrs. in
courses numbered 300 or higher in the same discipline,
plus 10 cr. hrs. in courses numbered 300 or higher in
specified allied disciplines.

611*  U G 5
Food Engineering Design and Control
W.  3 cl., 2 2-hr. lab.
Prereq.: 310, 411, and Animal Sc. 650 or Food Science
and Nutrition 637 or Home Ec. 615 or Hort. 441.
(Of offered in cooperation with the Dept. of Food Science
and Nutrition.)
Integration of economic principles, food sciences, and
engineering in optimum design and control of
processing systems. Blaisdell.

645  U G 4
Environmental Engineering
of Agricultural Structures
W.  4 cl.
Prereq.: 434.
Functional requirements and principles involved in
housing animals and crops; analysis of factors and
properties affecting energy exchanges with the
environment. Barre.

646  U G 4
Engineering Agricultural Processing Systems
W.  3 cl., 1 3-hr. lab.
Design of systems for processing agricultural food, feed,
and fiber; utilizing principles of biodynamics, transient
diffusion, turbulent and non-ideal transport, and
particulate handling. Blaisdell and Herum.

647  U G 4
Engineering Agricultural Systems
Sp.  4 cl.
Prereq.: 543, 544, 645, 646, and Genetics 650; or equiv.
Integration of engineering and biological principles in
agriculture to optimize complete operational production
systems; application of relevant theory to present and
future systems. Barre.

657*  U G 4
Soil Machine Dynamics in Plant Environment
Sp.  3 cl., 1 3-hr. lab.
Prereq.: Agron. 240 or 671, Bot. 430, Eng. Mech. 410 or
permission of instructor.
Soil dynamics in relation to plant environment and
agricultural machine design.

681  U G 5
Analog Simulation
A.  3 cl., 2 2-hr. lab.
Prereq.: 433 or equiv.
Principles of analog and hybrid simulation developed
and applied to engineering problems in agricultural
systems. Hamdy.
683 U G 3 or 5
Individual Studies
Prereq.: 15 cr. hrs. of 300-level or higher Agr. E. courses and permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Work on problems that are not included in regular courses; practice in development, organization, solution, and report on problems of student's choosing.

694 U G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Advanced studies in agricultural engineering with principal emphasis on design; work may be elected in the following general areas:
   a. Machinery
   b. Light Structures
   c. Processing
   d. Soil-Water Management

695 U G 1
Professional Development
W. 1 cr.
Prereq.: 3rd yr. standing in Agr. E.
Needs and programs for professional development in engineering related to food and agriculture; opportunities for professional advancement, engineering ethics, and responsibilities to society. Nelson.

714 U G 5
Environmental Pollution Abatement
W. 5 cr.
Prereq.: Senior or grad. majors in engineering or sciences.
(Cross-Listed in Civil E., Chem. E., Met. E.)
Problems, philosophies, principles, and methods of pollution abatement in the total environment; quantitative approaches to waste management in air, water, and land systems. Talganides.

750 U G 3
Design of Waste Management Systems
Sp. 2 cr., 1 3-hr. lab.
Prereq.: Senior standing in engineering, or 714, or permission of instructor.
Application of bioengineering principles of pollution control to the design of management systems for wastes from food and fiber production, storage, and processing operations. Talganides and White.

794 U G 3
Group Studies
Su, A, W, Sp. 3 cr.
Prereq.: 15 cr. hrs. of 400 level or higher Agr. E. courses and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Advanced subjects in agricultural engineering; course content to be announced in previous quarter.
   a. Farm Structures
   Sp. Power and machinery.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

8081* G 3
Measurement in Agricultural Engineering
W. 3 cr.
Prereq.: 681, Math. 512, and permission of instructor.
Theory and principles involved in measurement and control of biophysical processes in agricultural engineering. Drew.

850 G 1
Seminar
A, W, Sp. 1 cr.
Repeatable to a maximum of 6 cr. hrs.
Schwab.

858* G 5
Turbulent Diffusion of Aerosols
A. 5 cr.
Prereq.: Math. 704 and permission of instructor.
Dispersion of particles in turbulence; introduction of statistical theory of turbulence; measurement of fluid flow and turbulence; applications. Brazee.

8771* G 3
Advanced Agricultural Drainage
W. 3 cr.
Prereq.: 543 and Math. 512.
Theory of agricultural drainage, both tile and surface methods; measurements of drainage and frequency analysis; hydrologic characteristics of drainage systems; drainage requirements of crops. Schwab.

897 G 1
Interdepartmental Seminar in Natural Resources
(See under Interdepartmental Seminars)

999 G Arr.
Research
Research for thesis and dissertation purposes only.
Agriculture

101 U 1
Agriculture College Orientation
A, W. 1 cr.
Not open to students with credit for UVC 100.
Orientation to the University and College; exploration of curricula, opportunities, and services. Ritchie.

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-399.

351 U 1
Agricultural Employment
A, W. 1 cr.
Discussion conducted by outside speakers and instructor related to career opportunities; recruitment-placement techniques, interviews, job offers, and transition from campus. Darrow.

H590 U 2
Agriculture Honors Colloquium
A, W. 2 cr.
Prereq.: Enrollment in Agriculture Honors Program.
Repeatable to a maximum of 4 cr. hrs.
The relationships of technology, science, and economics in agriculture to society; discussions are led by faculty members or outside speakers. Ritchie.

695 U G 2-5
Seminar
Su, W.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
The underlying philosophy and principles for developing, organizing, and administering land-grant type institutions and related agencies of Agriculture, Home Economics, and Natural Resources. Smith and Parsons.

Agronomy

GENERAL PREREQUISITES FOR COURSES NUMBERED 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-199.

200 U 5
Plant Science in Agriculture
Su, A, W, Sp. 5 cr.
Prereq.: Biol. 100.
(Offered in cooperation with the Dept. of Hort.)
Study of environment and genetic factors that influence plant growth, and how man can alter these factors to produce plants which more adequately meet his needs. Albion, Geismar, Hartman, and Herr.

240 U 5
Soil Science
Su, A, W, Sp. 3 cr., 2 2-hr. lab.
Prereq.: Chem. 101 and 102, or 121 and 122, or equiv.
Introduction to the genetic, physical, chemical, and biological properties influencing soil productivity; laboratory exercises include observation and quantitative determination of certain of these soil properties. Himes.

Plants and Man
(See Horticulture H299)
(Offered in cooperation with the Department of Horticulture.)

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-399.

411 U 4
Grain Crops
A, W. 3 cr., 1 2-hr. lab.
Prereq.: 200 or junior standing.
A study of the grain crops, their classification, geographic distribution, culture, varieties, improvement, seed production, harvesting, handling, recognition, grading, and utilization. Ray.

412 U 4
Forage Crops
A, W, Sp. 3 cr., 1 2-hr. lab.
Prereq.: 200 or junior standing.
Principles underlying characteristics, tolerances, requirements, uses; production of forage plants for hay, pasture, silage, soilage, and cover.

413 U 4
Principles of Turfgrass Selection and Management
Sp. 4 cr.
Prereq.: 200 or 240.
Adaptation, identification, uses, growth characteristics, growth responses, and fundamental principles essential to the production of quality turf. Miller.
422 U 4
Weed Control
A, Sp. 3 cl., 1 2-hr. lab.
Prereq.: 200.
A study of weeds, their identification, reproduction, and methods of control; emphasis on various aspects of chemical control measures. Herr.

441 U 4
Soil Erosion and Its Control
A. 3 cl., 1 3-hr. lab.
Prereq.: 240.
A study of the mechanics of soil erosion and its control; field trips to observe erosion and conservation practices are included. Hoff.

442 U 3
Soil Management
A. 3 cl.
Prereq.: 240.
An integrated study of fertility, tillage, erosion control, and water management in maintaining soil productivity. Hoff.

GENERAL PREREQUISITES FOR COURSES NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 10 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 200 or higher in specified allied disciplines, or baccalaureate degree.

510 U G 5
Crop Production in Developing Countries
W. 5 cl.
Prereq.: 200, 240 or equiv.
Fundamental studies of field and plantation crops in tropical and subtropical countries with emphasis on means and techniques for obtaining production increases. Arscott.

520 U G 4
Field Crop Breeding
W. 3 cl., 1 2-hr. lab.
Prereq.: 200, 411 or 412, and Genetics 500, or equiv.
Principles of genetics and methods of plant breeding applied to the improvement of field crops and the ultimate development of superior varieties. Smith.

550 U G 5
Pedology and Edaphology
Sp. 3 cl., 1 4-hr. lab. and field trips.
Prereq.: 200, 240 and 411 or 441.
A comprehensive study of soil with respect to its components, morphology, and genesis and how morphological influences soil behavior especially as it pertains to Ohio conditions. Hall.

591 U G 5
Field Work
Su. 3-week field trip.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
A field trip to the major crop, soil, and climatic regions east or west of the Mississippi River in the U.S. and to the major industries that utilize crops.

593 U G 3 or 5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Students may select special agronomic problems, not included in regular courses and involving library, laboratory, or field studies.

594 U G 3 or 5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Discussion of selected topics in crop science and/or soil science.

595 U 2
Undergraduate Seminar
A, W, Sp. 2 cl.
Prereq.: 15 cr. hrs. in Agron. and 3rd or 4th yr. standing in Agron.
Review and interpretation of research publications and study of functions of agronomic industries.

GENERAL PREREQUISITES FOR COURSES NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

602 U G 3
Field Crop Ecology
Sp. 3 cl.
Prereq.: 10 cr. hrs. of crops courses and 5 cr. hrs. of soils courses at the 300 level or higher.

612 U G 4
Principles of Grassland Management
Sp. 4 cl., 1 4-day field trip.
Plant-animal requirements and correlations in the maintenance, management, and utilization of meadows, pastures, and ranges.

621 U G 3
Crop Physiology and Production
A, W. 3 cl.
Prereq.: Bot. 430 and 431, or equiv.
A study of the physiological aspects of crop growth and how they relate to various cultural practices; main emphasis will be on corn and soybeans. Henderlong.

623 U G 4
Principles of Turfgrass Management
Sp. 4 cl.
Prereq.: 413, Bot. 430 and 431.
A study of the relationship between basic factors influencing turfgrass growth and the practical execution of maintenance practices which affect the production of quality turf. Miller.
640 Agroclimatology
Sp. 3 cl.
Prereq.: 16 cr. hrs. of Agron., Bot., Hort., or equiv. at the 300 level or above or permission of instructor.
A study of the radiation regime of the atmosphere in relation to the thermal and water regimes of soils and their interrelationships in crop production.

643 Tropical and Subtropical Soils
A. 3 cl.
Prereq.: 15 cr. hrs. of agron., numbered 300 or higher or permission of instructor.
Not open to students with credit for 543.
A study of the physical, chemical, and biological properties and the fertilization, physical, and water management of tropical and subtropical soils; crop adaptation, plantation, and subsistence farming. Arscott.

650 Advanced Soil Classification Morphology and Genesis
W. 4 cl., 1 2-hr. lab, 3 1-day field trips.
Prereq.: 550, 10 cr. hrs. from the following: 442, 621, Bot. 620, Geol. 550.
Theory and principles of soil classification schemes emphasizing the 7th Approximation; classification and genesis of major soils of the world; methods to establish parent material homogeneity and indices of soil weathering. Wilding.

660 Soil Microbiology
Sp. 3 cl., 2 2-hr. labs.
Prereq.: 411 or 442, Microbiol. 509, and Chem. 241.
A study of the morphology and physiology of soil microorganisms and their biochemical transformations of inorganic and organic materials in relation to soil fertility. Miller.

670 Soil Fertility
A. 3 cl.
Prereq.: 411 or 442.
A study of the factors affecting soil productivity and the practices needed in good soil management; fertilizer properties and practices. Arscott.

671 Soil Physics
A. 3 cl., 2 2-hr. labs.
Prereq.: 411 or 442, Physics 131 and Math. 151.
A study of the physical makeup and properties of soil, including structure, thermal relationships, consistency, plasticity, water, and their relationships. Taylor.

672 Chemistry of Soils and Fertilizers
W. 3 cl., 2 2-hr. labs.
Prereq.: 550, 670, Chem. 211 and 9 additional cr. hrs. in Agron. and/or Chem. at the 300 level or higher.
A study of the chemical properties of soils and fertilizers affecting plant growth and composition including modern laboratory analysis of soil, fertilizer, and plant tissue. McLean.

693 Individual Studies
Hrs. (honors) may be available to students enrolled in a college honors program or eligible for enrollment.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Students may select special agronomic problems, not included in regular courses and involving library, laboratory, or field studies.

694 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Discussion of selected topics in crop science and/or soil science.

695 Organic Soils
W. 3 cl., 1 1-day field trip.
Prereq.: 550, Geol. 101, and 25 cr. hrs. from Bot. or Chem.
A comprehensive study of organic soils, their formation, chemical and physical characteristics, classification and management. Everett.

GENERAL PREREQUISITES FOR COURSES NUMBERED 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr. hrs. in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

750 Methods of Soil Mineralogical Investigations
Sp. 2 cl., 2 2-hr. labs.
Prereq.: 15 cr. hrs. selected from the following: 500, 671, 672, Geol. 602, Mineral. 621, 654, Chem. 521, 621, and 676.
Theory, interpretation, and application of mineralogical tools for soil matrices including X-ray diffraction, X-ray spectroscopy, microscopy, thin section and thermal techniques. Wilding.

786 Radioactive Tracers in Plant and Soil Research
W. 2 lec., 3 2-hr. lab.
Prereq.: 672 or Chem. 211 and 15 cr. hrs. in biological sciences at the 400 level or higher.
Radiochemical principles and techniques used in soil and plant research; designed to prepare the student to conduct radio-tracer experiments. Franklin.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

822 Physiological and Biochemical Aspects of Herbicides
W. 4 cl., 1 2-hr. lab.
Herbicide absorption, course, fate, and mode of action in plants; persistence and fate in soils. Bengiven.
Advanced Field Crop Breeding
W. 3 cl., 1 2-hr. lab.
Prereq.: Genetics 350, and 15 additional cr. hrs. in Agron. A detailed study of the genetic fundamentals and modern procedures used in the development of plant breeding programs for the improvement of agronomic crops. Rey.

Soils of the Cold Regions
Sp. 3 cl.
Prereq.: 30 cr. hrs. of Agron. or 30 cr. hrs. of Geog. and and Geol. and Ecology. A study of the morphological, physical, chemical, and biological properties of the soils and environmental features of the polar and alpine regions. Everett.

Chemistry of Soil Organic Matter
Sp. 3 cl.

Soil-Plant Relationships
Su (1st term). 3 cl.
Prereq.: 20 cr. hrs. of soil and/or plant sciences and 10 cr. hrs. of plant physiology. Discussion of recent literature pertaining to growth response curves, nutrient uptake, movement of nutrients in the soil, and measurement of availability of nutrients to plants. McLean and Himes.

Advanced Soil Physics
W. 3 cl.
Prereq.: 671 and permission of instructor. Moisture, gaseous, and thermal processes and regimes in vegetated soils and their influences on plant growth. Taylor.

Physical Chemistry of Soils
W. 3 cl., 2 3-hr. labs.
Prereq.: 671, 672, Chem. 521 or 532, and 15 additional cr. hrs. in Agron. or Biol. A study of the physicochemical properties of soil including methods of characterizing clay minerals, soil acidity, ionic absorption and release, and plant nutrient uptake. McLean.

Seminar
Repeatable to a maximum of 12 cr. hrs. Discussion of current problems in agronomy. Bendixen.

Research Principles and Techniques
A. 1 cl.
The philosophy of graduate education and the description of the techniques and special equipment most useful for conducting research in crops and soils science. McLean.

Techniques of Experimental Design
W. 5 cl.
Prereq.: Genetios 660, 681, and 10 cr. hrs. of Agron., or related subjects at the 400 level or above. A study of experimental designs and their application to agricultural research. Smith.

Interdepartmental Seminar in Polar and Alpine Studies
Sp. (See under Interdepartmental Seminars.)

Interdepartmental Seminar in Natural Resources
A, W, Sp. (See under Interdepartmental Seminars.)

Individual Studies
Prereq.: Permission of instructor. Repeatable to a maximum of 10 cr. hrs. Students may select special agronomic problems not included in regular courses.

Group Studies
Prereq.: Permission of instructor. Repeatable to a maximum of 12 cr. hrs.
  b. Herbicides and Plant Growth Regulators.

Research
Research for thesis or dissertation purposes only.

Air Force Aerospace Studies
Office: 353 ROTC Building, 2121 Tuttle Park Place
Air Force Reserve Officer Training Corps
Colonel Moody and Staff.

GENERAL MILITARY COURSE
(Freshmen and Sophomores)

The USAF and Strategic Offensive Forces
A. 2 cl., 1 lab. hr.
An Introduction to the doctrine, organization, and mission of the USAF, and an examination of the strategic offensive forces of the U.S. Military Establishment—from the standpoints of theory and hardware. Special attention is given to SAC and its retaliatory capability.
102 U 2 Strategic Defensive Forces
W. 1 cl., 1 lab. hr.
Prereq.: 101 or permission of Professor of A. F. Aero. S.
Examination of strategic Defensive Forces of the U.S.;
analysis of concepts of defense against both manned
and unmanned weapons system.

103 U 2 Tactical Air, General Purpose Forces,
and Other Supporting Functions
Sp. 2 cl., 1 lab. hr.
Prereq.: 102 or permission of Professor of A. F. Aero. S.
Study of tactical airpower with emphasis on hardware;
docrine of General Purpose Forces, USAF's supporting
commands and agencies.

201 U 2 National Power and the Nature
and Principles of War
A. 2 cl., 1 lab. hr.
Prereq.: 103 or permission of Professor of A. F. Aero. S.
An introduction to the nature and principles of war;
overview of the changing role of the military in the
achievement of national objectives.

202 U 2 General War & Sino-Soviet
Military/Defense Policies
W. 1 cl., 1 lab. hr.
Prereq.: 201 or permission of Prof. of A. F. Aero. S.
An introduction to theories on general war; overview of
military and defense policies of the U.S.S.R. and the
People's Republic of China.

203 U 2 Foreign Policy, Defense Policy,
and the Search for Peace
Sp. 2 cl., 1 lab. hr.
Prereq.: 202 or permission of Prof. of A. F. Aero. S.
A survey of U.S. foreign policy to U.N. and NATO;
evolution and functions of Defense Department;
problems in the search for peace since World War II.

PROFESSIONAL OFFICER COURSE
(Juniors, Seniors, and Graduate Students)

301 U 3 History of Aerospace Power
A. 3 cl., 1 lab.
Prereq.: Completion of General Military Course;
completion of Air Force ROTC Two-Year Field Training;
or permission of Professor of A. F. Aero. S.
A study of the history of the Air Force and the growth
and development of aerospace power.

302 U 3 Aerospace Power Today and Tomorrow
W. 3 cl., 1 lab.
Prereq.: 301 or permission of Professor of A. F. Aero. S.
An investigation of the fundamental concepts and
docline underlying aerospace forces; current and
future employment of manned aircraft; introduction to
aeronautics and space operations.

303 U 3 Astronautics and Space Operations
Sp. 3 cl., 1 lab.
Prereq.: 302 or permission of Professor of A. F. Aero. S.
A study of aerospace technology; current and future
space operations and their relationship to national
security.

401 U 3 Leadership and the Military Justice System
A. 3 cl., 1 lab.
Prereq.: 303 or permission of Professor of A. F. Aero. S.
An analysis of the theories and techniques of
leadership; study and practical applications of human
relations and behavior; and an introduction to the
uniform code of military justice.

402 U 3 Leadership and Management of Aerospace Forces
W. 3 cl., 1 lab.
Prereq.: 401 or permission of Prof. of A. F. Aero. S.
A study of the variables affecting leadership and the
pre-execution phase of military management: planning,
organizing, and coordinating.

403 U 3 Management of Aerospace Forces
and Preparation for Active Duty
Sp. 3 cl., 1 lab.
Prereq.: 402 or permission of Prof. of A. F. Aero. S.
A study of the execution phase of military management:
directing and controlling, team and individual
presentations which prepare the cadet for active duty
as an Air Force Officer.

411 U 2 Flight Instruction Program
A, W, Sp. 4 cl. first 6 wks. of qtr.
Prereq.: 303 or permission of Professor of A. F. Aero. S.
Flight training fundamentals of Federal Aviation
Regulations, aerial navigation and radio procedures,
meteorology and flight planning; preparation of student
pilots in the Air Force Flight Instruction Program to
meet FAA standards.

Allied Medicine
(School of Allied Medical Professions)

Office: 127 School of Allied Medical Professions
Building, 1863 Perry Street
Professors Atwell and Schoen; Associate Professor
Burnett; Assistant Professors Allen, Harper, and
Swihart.

101 Introduction to the Health Professions
An examination of the professions involved in health
care.

101.01 Survey of Health Professions U 2
2 cl.
Not open to students with credit for 101.
A survey of each health profession having an
academic program at The Ohio State University.
101.02 Health Professions and Their Dynamics  U 3
3 cl.
Not open to students with credit for 101 or 101.01.
Two lecture hours with 101.01 discussions centering on
dynamics of health care comprise the third
hour.

425  U 3
Critical Phases in Life I
W, Sp.  3 cl.
Prereq.: Biol. 100 and 5 hrs. Psych.
An examination of man's development from conception
to death and factors critical to his continuing health.

520  U G 2
Musculoskeletal Disease
Sp.  2 cl.
Prereq.: Admission to the School of Allied Medical
Professions or permission of instructor.
Not open to students with credit for Phys. Ther. 520.
Principles, clinical aspects, and therapeutic procedures
to diseases of the musculoskeletal system.

530  U G 3
Neuromuscular Disease
W.  3 cl.
Prereq.: Anet. 201 or permission of instructor.
Not open to students with credit for Phys. Ther. 530.
Survey of injury and disease of the central, peripheral,
and autonomic nervous systems; presentation of
clinical material.

591  U P G 3
Health Care Organization
Sp.  2 1/2-1 hr. cl.
Prereq.: Enrollment in School of Allied Medical
Professions or School of Nursing or permission of
instructor.
An examination of the roles of public and private
organizations in planning and supporting health care,
including study of health trends, social legislation,
and current professional issues.

592  U P 2
Interdisciplinary Health Care—Field Study
A.  4 cl.
Prereq.: Enrollment in School of Allied Medical
Professions or School of Nursing or permission of
instructor.
Selected patient care experiences that will develop
the concept of the Health Care Team.

610  U G 3
The Hospital as an Educational Institution
W.  3 cl.
Prereq.: Permission of instructor.
Hospital as a clinical learning environment for medical
and allied medical professionals; in-service education;
patient and community health education; continuing
education.

625  U G 3
Critical Phases in Life II
Su, A, Sp.  3 cl.
Prereq.: 425 and Physiol, or permission of instructor.
The application of developmental concepts as
reference for evaluation, management, and health care
of individuals within their environment.

630  U P G 3
Management of Hospital Departments
A, Sp.  3 cl.
Prereq.: Enrollment in School of Allied Medical
Professions or permission of instructor.
An analysis of the management process and its
application to the hospital setting.

650  U G 3
Automated Systems in Health Care
Sp.  2 cl., 1 2-hr. lab.
Prereq.: Permission of instructor.
Not open to students with credit for 550.
Concepts of electronic data processing and automated
systems applied to health care; implications and
planning requirements for present and future systems.

693  U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Guided study of selected topics.

694  U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to maximum of 15 cr. hrs.
Supervised group studies of special topics within the
various professions of the allied health field.

694.01 Circulation Technology
694.02 Hospital and Health Services Administration
694.03 Medical Communications
694.04 Medical Dietetics
694.05 Medical Illustration
694.06 Medical Record Administration
694.07 Medical Technology
694.08 Occupational Therapy
694.09 Physical Therapy
694.10 Radiologic Technology
694.11 Respiratory Technology

695  U G 1-6
Seminar
Prereq.: Permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Conferences and group discussions of selected topics.

797  U P G 1-5
Interdepartmental Seminars
Prereq.: Permission of instructor.
Repeatable by permission of Associate Director of the
School.
(See under Interdepartmental Seminars, Course
Offerings catalog.)

999  G Arr.
Research
Repeatable to a maximum of 6 cr. hrs.
Research for thesis purposes only.
Anatomy

Office: 4072 Graves Hall, 333 West 10th Avenue

Professors St. Pierre (Chairman), Ackerman, Baker (Emeritus), J. Egilits, J. Egilits, Gaughran, and Palmer (Emeritus); Associate Professors Delphia, Garsten (Emeritus), Hayes, Humbertson, King, Martin, Russell, Trezibatski, Vernall, and Wixmar; Assistant Professors Beran, Boston, Christopher, Clark, Dom, Hairston, Hostettler, Martinek, Negulesco, and Sucheston; Instructors Bowman, Camiscione, Hines, Mell, and Mihailoff.

For related courses see Biology and Zoology.

200 U 6
Introductory Anatomy
Prereq.: Enrollment in School of Nursing, Division of Dental Hygiene, School of Allied Medical Professions, College of Pharmacy, or Pre-Pharmacy, or permission of instructor.
Fundamental principles of human anatomy, supplemented by demonstrations of human material. Negulesco.

201 U 5
Neuromuscular Anatomy
A. 2 cr., 2 3-hr. labs.
Prereq.: Enrollment in School of Allied Medical Professions or permission of instructor.
Neuromuscular anatomy of the human body. Mihailoff.

627 P G 2
Clinical Anatomy
W, Sp.
Prereq.: Permission of instructor.
A study of selected anatomical regions correlated with clinical diagnostic methods. Hines and Staff.

637 P 3
Essentials of Embryonic Development
A. 2 cr., 1 3-hr. lab.
Prereq.: Dent. 1st yr. standing.
The early embryology and organogenesis of man; emphasizing the pig embryo supplemented by human material. Delphia and Clark.

638 P G 5
Human Anatomy
W, Sp. 3 cr., 2 3-hr. lab.
Prereq.: Dent. 1st yr. standing.
Gross anatomy of the abdomen and limbs. J. Egilits.

639 P G 7
Human Anatomy
W, Sp. 4 cr., 3 3-hr. lab.
Prereq.: Dent. 1st yr. standing.
Gross anatomy of the head, neck, and thorax. Gaughran, Boston, and Lauer.

640 P G 6
Histology
A. 3 cr., 3 3-hr. lab.
Prereq.: Dent. 1st yr. standing.
General histology of the tissues and special histology of the organ systems. Vernall, J. Egilits, Hayes, and Martinak.

641 P G 1
Applied Anatomy
A. 1 cr.
Prereq.: Dent. 3rd yr. standing.
Anatomy of the head and neck as applied to clinical dentistry. Russell.

693 U G 2-5, P 6, 12, 18
Individual Studies in Anatomy
Su, A, W, Sp. 1 month, offered all months.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Designed to enable the student to pursue a minor investigation in some anatomical field of his choice.

700 U G 6
Mammalian Histology
Sp. 3 cr., 3 2-hr. labs.
Prereq.: Enrollment in School of Allied Medical Professions or permission of instructor.
A microscopic study of mammalian cells, tissues, and organs with particular emphasis on human and other selected vertebrates; consideration of the comparative aspect of microscopic structure in relation to function for the various organ systems. Hayes.

701 U G 6
Human Gross Anatomy
W. 3 cr., 3 3-hr. labs.
Prereq.: Permission of instructor.
Regional dissections of upper limb, head, neck and thorax with a study of cross sections and normal x-rays. Gaughran.

702 U G 4
Human Gross Anatomy
Sp. 2 cr., 2 3-hr. labs.
Prereq.: Permission of instructor.
Regional dissection of abdomen, pelvis, and lower limb with a study of cross sections and normal x-rays. Gaughran.

703 U G 4
Human Developmental Anatomy
W. 1 cr., 1 2-hr. lab., 1 to 2 hrs. recitation.
Prereq.: Permission of instructor.
Detailed analysis of the growth and differentiation of individual organ systems; role of growth factors in differentiation of these systems; common anomalies; discussions of contemporary research methods and innovative teaching techniques. Delphia and Clark.
704 UG 6
Human Neuroanatomy
A. 3 cl., 3 2-hr. labs.
Prereq.: Permission of instructor.
Functional anatomy of the central nervous system and
its pathways, cross sections of the brain and spinal
cord will be utilized. Humbertson, Clark, Dom, King,
and Martin.

735 PG 5
Anatomy of the Visual System
Sp. 2 cl., 2 3-hr. labs.
Prereq.: 553, 663, 673, 683, or equiv., and permission
of instructor; resident standing in Ophthal.
The gross anatomy, histology, neuromatomy, and
embryology of the human visual apparatus; its
structure, function, and some clinical applications.
J. Egilits.

740 PG 3
Medical Education
A, Sp. 3 cl.
Prereq.: Permission of instructor.
Introductory experiences in administrative and
functional aspects of all phases of medical education,
including observation of methods, evaluation,
curriculum design, student selection, and educational
research. Trzebiatowski.

797 UPG 1-5
Interdepartmental Seminar
A, W, Sp. (See under Interdepartmental Seminars,
Course Offerings catalog.)

805 G 5
Anatomical Techniques
A, Arr.
Prereq.: Permission of instructor.
Open only to grad. students in Anat.
The preparation of biological materials for light and
electron microscopy, Wismar and Hostetler.

850 G 1
Seminar in Anatomy
W, Sp.
Repeatable to a maximum of 20 cr. hrs.
Discussions of research progress and reports from
the literature of current anatomical problems.

911 G 3 or 5
Advanced Studies in Anatomy
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

911.01 Blood and Hemopoiesis
Morphology of normal and abnormal human blood
and bone marrow; development of hemopoiesis and
the immune response in various animals.
Ackerman and St. Pierre.

911.02 Connective Tissue and Bone
Activities of fibrous connective tissues emphasizing
formation and maintenance of fibers and ground
substance; dynamics of the structure, chemistry,
and metabolism of bone. J. Egilits, Meffit, and
Wismar.

911.03 Embryology
Mammalian embryological development emphasizing
descriptive or experimental approach; metabolic
aspects of development including enzymatic
changes, hormonal effects, environmental factors,
and teratogenic agents. Delphi, Clark, Hayes,
Sucheston, Vernall, and Wismar.

911.04 Microscopic Anatomy
Advanced studies in selected areas of microscopic
anatomy. Ackerman, J. Egilits, Hayes, Hostetler,
Martinek, St. Pierre, Vernall, and Wismar.

911.05 Neuroanatomy
Advanced study of a particular system or systems in
the central nervous system, including literature
perusal. Martin, Humbertson, Clark, Dom, and King.

911.06 Epithelium
Covering, lining, and glandular divisions; functional
significance of exocrine and endocrine glands. J.
Egilits.

911.07 Ultrastructure of the Central Nervous System
Ultrastructure of neuron, neuroglia, and the neuropil
of the mammalian central nervous system. Hostetler
and King.

911.08 Electron-Microscopy
Examination of specific tissues or cellular
populations using electron micrographs; no actual
use of the electron microscope. Ackerman, Hostetler,
King, and Martinek.

911.09 Instrumentation and Techniques in
Experimental Neuroanatomy
Practical experience in learning techniques utilized
in neuroanatomical research problems. Martin,
Clark, Dom, Humbertson, and King.

911.10 Principles of Human Cyogenetics
Human cyogenetics as related to autosomal and
sex chromosomes; technic of tissue culture for
study of human chromosome(s) and karyotype
analysis. Hayes.

911.11 Design of Computer Teaching Programs
Methods and logic of writing subject oriented
computer assisted instruction (CAI) programs.
Wismar and Christopher.

911.12 Anatomy of Newborn
Gross anatomy of the newborn correlated with
prenatal and postnatal development; dissection
and section study. Gaughran and J. Egilits.

911.13 Topographical Anatomy
Study of unmounted serial cross sections of selected
regions of the human body emphasizing the
relationship of structures to one another in a
three-dimensional perspective. Gaughran, I. Egilits,
and Russell.

911.14 Advanced Regional Dissections
Careful dissection of one or more regions of the
body supplemented with literature research.
Gaughran, I. Egilits, and Russell.

911.15 Human Anatomy: Radiological Manifestations
Methods of routine projections and interpretations
for best visualizing anatomical structures.

999 G Arr.
Research in Anatomy
Research for thesis or dissertation purposes only.
Anesthesiology

Office: 632 University Hospital, 410 West 10th Avenue

Professor Hamelberg (Chairman); Associate Professors Collins, Garvin, and Kenahan; Assistant Professors Anderson, Best, DeLeo, Franklin, Gauthier, Imboden, Kniesly, LeVere, Prince, Reier, Siddal, Stone, E. Warner, and Welch.

737
Clinical Anesthesiology

16 cl. hrs.
Prereq.: Med. 4th yr. standing; concur. 5 or 11 cr. hrs. Surg. 736. (Offered concur. with Surg. 736.)
Didactic instruction, demonstration, and clinical observation of anesthetic agents and techniques, covering fundamentals of cardiopulmonary resuscitation, use of local anesthetic agents, inhalation therapy, premedication, and anesthetic agents and techniques. Hamelberg and Staff.

793
Individual Studies in Anesthesia

1, 2, 3, or 4 months; offered all months. P 6, 12, 18
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cl. hrs. for professional credit; repeatable to a maximum of 15 cl. hrs. for graduate credit.
Designed to offer to medical and graduate students an opportunity to pursue research related to anesthesia in either basic science or clinical science. Hamelberg and Staff.

794
Group Studies in Anesthesia

1 month, offered all months.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cl. hrs.
Course designed to give medical students clinical experience in the administration of anesthesia. Hamelberg and Staff.

850
Seminar in Anesthesiology

Prereq.: Permission of instructor.
Group and individual discussions of current problems in anesthesiology and their management; discussions of basic and applied topics.

999
Research in Anesthesiology

Research for thesis purposes only.

Animal Science

Office: 110 Animal Science Building, 2029 Fyffe Road

Professors Johnson (Chairman), Cahill, Cline, Dehoriety, Grimshaw, Harvey, Klotzerman, (Associate Chairman, Wooster), Kottman, Ludwig, Moxon, Newland, Ockerman, Parker, Preston, Reed, Swiger, Tynick, VanStavern, Yenke, G. R. Wilson, and R. F. Wilson; Associate Professors Barnes, Judy, and Plimpton; Assistant Professors Althouse, Bishop, Boyes, Grifo, Hutton, Isler, Mahan, McClure, Potter, Smith, and Wharton.

100
Domestic Animals in the Service of Man

A, W, Sp. 5 cl.
(Offered in cooperation with the Depts. of Dairy Sc. and Poul. Sc.)
The role of the animal industry in the world and the importance of the application of science in meeting the needs in the production, distribution, and utilization of animal products. Plimpton, Stephens, and McGrew.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-199.

200
Introductory Animal Science

A, W, Sp. 3 cl. 2 2-hr. lab.
Introduction to selection, breeding, feeding, management, marketing, and utilization of beef cattle, swine, and sheep; a limited discussion of the horse is included. Plimpton, Judy, and R. Wilson.

250
Meat Selection and Identification

A, W, Sp. 3 2-hr. lab.
The structure and composition of beef, pork, veal, and lamb are used to distinguish grades and usefulness of meat products for domestic and institutional purposes. Kunkle.

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400

Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-399.

420
Principles of Animal Improvement

A, W, Sp. 5 cl.
Prereq.: 100, Math. 150 or equiv., and Genetics 140 or 314.
Not open to students with credit for Dairy Sc. 420 or Poul. Sc. 420. (Cross-listed in the Depts. of Dairy Sc. and Poul. Sc.)
An introduction to the methods available for bringing about genetic change in farm animals. Fecherheimer, Jaap, and Swiger.
430 U 5
Principles of Animal Nutrition
Su (1st term). A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: Chem. 102 or 122 and Math. 150 or equiv.
Not open to students with credit for Dairy Sc. 430 or Poul. Sc. 430.
(Cross-listed in the Depts. of Dairy Sc. and Poul. Sc.)
A study of the fundamental principles of nutrition in mammals and birds. Cline, Latshaw, and Tyznik.

440 U 5
Livestock Management
W. 3 cl., 2 2-hr. lab.
Prereq.: 200 and 430.
Not recommended for animal science majors.
Feeding, breeding, and managing of beef, sheep, and swine; laboratory exercises are concerned with major management problems. G. Wilson.

452 U 3
Meat and Meat Products
A, W, Sp. 3 cl.
Prereq.: 5 credit hrs. animal sc.
Not open to students with credit for Animal Sc. 450.
Analysis of the interdependent factors of meat animals, meat and meat products, processing and merchandising in their relationship to man as producer, processor, and consumer.

453 U 3
Meat and Meat Products Laboratory
A, W, Sp. 2 3-hr. lab.
Prereq. or concur.: 452.
Conversion of meat animals to the variety of consumer products; slaughter, cutting, curing, preservation, and other processing; product evaluation related to animal value and consumer needs.

500 U 5
Livestock Selection
Sp. 5 2-hr. lab-discussions.
Prereq.: 200, 430, and 5 additional cr. hrs. in 541, 562, 543, or 544.
Laboratory exercises employing current standards of animal excellence including carcass value for the selection and improvement of farm livestock. G. R. Wilson.

Livestock Marketing
(See Agr. Econ. 522.)
(Offered in cooperation with the Dept. of Agr. Econ.)

541 U G 5
Horse Production and Management
A. 3 cl., 2 2-hr. lab.
Prereq.: 200, 430, and 5 additional cr. hrs. in Animal Sc., or Dairy Sc.
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of horses. Hutton.

542 U G 5
Beef Cattle Production and Management
A, Sp. 3 cl., 2 2-hr. lab.
Prereq.: 200, 430, and 5 additional cr. hrs. in Animal Sc., Dairy Sc., or Poul. Sc.
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of beef cattle. G. R. Wilson.

543 U G 5
Swine Production and Management
W, Sp. 3 cl., 2 2-hr. lab.
Prereq.: 200, 430, and 5 additional cr. hrs. in Animal Sc., Dairy Sc., or Poul. Sc.
Selection of breeding stock, reproduction, feeding, management, and sale of commercial and breeding swine; swine herds, markets, and research stations are visited. R. F. Wilson.

544 U G 5
Sheep Production and Management
W, Sp. 3 cl., 2 2-hr. lab.
Prereq.: 200, 430, and 5 additional cr. hrs. in Animal Sc., Dairy Sc., or Poul. Sc.
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of sheep. Judy.

550 U G 3
Meat Processing
A. 2 cl., 1 2-hr. lab.
Prereq.: 450 or 452.
Fundamental changes in soft animal tissue resulting from commination and application of chemicals and heat. Cahill.

593 U G 2-5
Individual Studies
H993 (honors) may be available to students enrolled in a college honors program or eligible for enrollment. Prereq.: Junior or senior standing and permission of instructor.
Special assignments and elementary research; problems assigned after consultation with instructor in charge.

594 U G 2-5
Group Studies
Prereq.: Junior or senior standing and permission of instructor.
Special assignments and elementary research; problems assigned after consultation with instructor in charge.
GENERAL PREREQUISITES FOR COURSES NUMBERED 600

Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

610 U G 3
Physiology of Lactation
A. 2 2-hr. cl.
Prereq.: Physiol. 211 and 20 cr. hrs. of Dairy Sc., Animal Sc., or vertebrate biology.
Not open to students with credit for Dairy Sc. 610.
(Cross-listed in the Dept. of Dairy Sc.)
The physiological, endocrine, nutritional, and environmental factors influencing the synthesis and ejection of milk. Bar and Porter.

612 U G 3
Physiology of Reproduction and Growth
Sp. 3 1-hr. lec.
Prereq.: Physiol. 211 and 20 cr. hrs. of Dairy Sc., Animal Sc., or vertebrate biology.
Not open to students with credit for Dairy Sc. 612.
(Cross-listed in the Dept. of Dairy Sc.)
Physiology of the reproductive system and of growth and development in farm animals; factors influencing reproductive performance. Ludwick.

613 U G 3
Laboratory in Reproductive Physiology and Artificial Insemination
Sp. 2 2-hr. lab.
Prereq.: or concurs.: 612.
Not open to students with credit for Dairy Sc. 613.
(Cross-listed in the Dept. of Dairy Sc.)
Comparative anatomy and physiology of reproduction of farm animals; physiological bases for the use of artificial insemination in research laboratory and in the field. Ludwick.

630 U G 5
Nutrition and Feeding of Monogastric Animals
Su, A, W, Sp. 4 cr., 1 2-hr. lab.
Prereq.: 430 or equiv.
Not open to students with credit for Poul. Sc. 630.
(Cross-listed in the Dept. of Poul. Sc.)
The nutrition of swine, poultry, and laboratory animals; principles and practice. Latshaw and Mahan.

631 U G 5
Nutrition and Feeding of Ruminant Animals
Su, A, W, Sp. 4 cr., 1 2-hr. lab.
Prereq.: 430 or equiv.
Not open to students with credit for Dairy Sc. 631.
(Cross-listed in the Dept. of Dairy Sc.)
The nutrition of dairy cattle, beef cattle, and sheep; principles and practice. Cine, Staubus, and Tyznik.

550 U G 3
Advanced Meat Technology
Sp. 2 cl., 2 1-hr. lab.
Evaluation of scientific contribution to meat products and processing. Cahill and Ockerman.

651 U G 5
Laboratory Analysis of Meat Products
W. 2 cl., 2 1-hr. lab., 4 hrs. arr.
Prereq.: 450 or 452. 453: 10 cr. hrs. Chem., and 5 cr. hrs. Microbiol.
Analysis of meat products by physical, chemical, and microbiological techniques. Borton and Ockerman.

693 U G 3-5
Individual Studies
H693 (honors) may be available to students enrolled in a college honors program or eligible for enrollment.
Prereq.: Permission of instructor.
Special assignments and advanced research; problems assigned after consultation with the instructor in charge.

694 U G 3-5
Group Studies
Prereq.: Permission of instructor.
Special assignments and advanced research; problems assigned after consultation with the instructor in charge.

GENERAL PREREQUISITES FOR COURSES NUMBERED 700

Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr. hrs. in courses in the same discipline numbered 600 or higher, plus additional specified course(s) numbered 600 or higher.

710† U G 3 or 5
Advanced Reproductive Physiology
Sp. 2 2-hr. cl.
Prereq.: 612 and acceptable courses in Physiol., Anat., and Biochem.
Not open to students with credit for Dairy Sc. 710.
(Cross-listed in the Dept. of Dairy Sc.)
Recent advances in research in mammalian reproduction; optional individual research experience in reproductive problems with small and large mammals for additional credit. Gomes and Van DenMark.

720 U G 5
Genetics of Animal Populations
W. 5 cl.
Prereq.: 420 or Genetics 630, and 10 cr. hrs. Math.
Not open to students with credit for Dairy Sc. 720 or Poul Sc. 720.
(Cross-listed in the Depts. of Dairy Sc. and Poul. Sc.)
Theory and practice of analyzing and altering the genetic composition of animal populations. Swiger.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900

Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

800 G 1
Seminar
Prereq.: Animal Sc. grad. standing.
Discussions of current animal science research.
G 3
Advances in Physiology of Domestic Animals
A, W, Sp. 4 hr. cl.
Prereq.: Permission of instructor and acceptable courses in Physiol., Anat., and Biochem.
Not open to students with credit for Dairy Sc. 810 or Poul. Sc. 810.
(Cross-listed in the Depts. of Dairy Sc. and Poul. Sc.)
810.01* Adrenal Function
A. Brown and Gomes.
810.02* Endocrinology of Reproduction
W. Gomes.
810.03* Immunology and Immunogenetics
810.04* Thyroid and Parathyroid Function
A. Hibbs.
810.05* Mammalian Germ Cells
W. VanDemark.
810.06* Biometry and Animal Performance
Sp. Ludwig.

G 3
Current Topics in Animal Genetics
3 cr.
Prereq.: Acceptable courses in Animal Genetics, Math., and Statistics.
Not open to students with credit for Dairy Sc. 820 or Poul. Sc. 820.
Repeatable to a maximum of 12 cr. hrs.
(Cross-listed in the Depts. of Dairy Sc. and Poul. Sc.)
820.01* Selection Index Theory
Sp. Harvey.
820.02* Non-additive Genetic Variance
W. Harvey and Swiger.
820.03* Polymorphic Systems
W. Fechheimer.
820.04* Simulation of Genetic Systems
W. Harvey.
820.05* Cytogenetics of Animal Populations
W. Fechheimer.
820.06* Physiological Indices in Animal Breeding
A. Fechheimer and Jaap.

G 3
Advanced Studies in Nutrition
Su, A, W, Sp. 3 or 4 cr.
Prereq.: Permission of instructor.
Not open to students with credit for Dairy Sc. 830 or Poul. Sc. 830.
(Cross-listed in the Depts. of Dairy Sc. and Poul. Sc.)
830.01* Energy
A. Conrad.
830.02* Minerals
W. Cline.
830.03* Proteins and Amino Acids
Sp. Mahan, Naber, and Vivian.
830.04* Vitamins
A. Naber and Tyznik.
830.05* Lipids
W. Palmquist.
830.06* Laboratory Methods in Nutrition
Sp. Allred, Mahan, and Vivian.
830.07* Rumen Microbiology
Su. Dehority.

G 1
Interdepartmental Seminar
in Nutrition and Food Technology
(See Interdepartmental Seminars.)

G Arr.
Research
Research for thesis or dissertation purposes only.

Anthropology
Office: 13 Page Hall, 65 South Oval Drive
Professors Bourguignon (Chairman), Estel (Emeritus), Lehiste, Messenger, and Williams; Adjunct Professor Baby; Associate Professors Arewa, Callaghan, Hughes, and Poirier; Assistant Professors Chen, Dancey, Fiedl, Post, Schwartz, and Sumner.

U 5
Introduction to Physical Anthropology
Su, A, W, Sp. 5 cr.
Prereq.: 2nd yr. standing.
Not open to students with credit for 251.
A survey of man as a biological and cultural organism; evolutionary theory, primate evolution from living and fossil evidence; contemporary human population adaptability. Poirier, Post, and Staff.

U 5
Introduction to Prehistory
Su, A, W, Sp. 5 cr.
Prereq.: 2nd yr. standing.
Not open to students with credit for 261.
A survey of world archaeology; the origin and development of human culture as illustrated by selected examples. Dancey and Sumner.
202 U 5
Introduction to Cultural Anthropology
Su, A, W, Sp. 5 cl.
HONR (Honors) may be available to students enrolled in a college Honors Program or by permission of dept.
Prereq.: 2nd yr. standing.
Not open to students with credit for 210.
Comparative survey of tribal and peasant peoples in the several world culture regions; culture concepts; study of selected topics. Messenger and Staff.

412 U 4
Indians of the Americas
W, Sp. 4 cl.
Prereq.: 5 cr. hrs. anthro., or equiv. or permission of instructor.
American Indian cultures of the time of European conquest.

414 U 4
Ethnology of Asia
W. 4 cl.
Prereq.: 5 cr. hrs. of anthro., or equiv. or permission of instructor.
A survey of the peoples of Asia; high civilizations and tribal cultures; prehistoric origins of Asian cultures; the distribution of physical types; languages; social customs.

415 U 4
Ethnology of Africa
A, W. 4 cl.
Prereq.: 5 cr. hrs. of anthro., or equiv. or permission of instructor.
The peoples of Africa south of the Sahara; distribution of physical types; languages; cultural areas; West Coast kingdoms as source of the American Negro. Arewa.

416 U 3
Peoples and Cultures of Latin America
W. 3 cl.
Prereq.: 5 cr. hrs. of anthro., or equiv. or permission of instructor.
The pre-Columbian background; contemporary races, cultures, and social organization; the emergence of Latin America as a distinct culture area in the modern world. Schwarz.

500 U 3
Dynamics of American Culture
A. 3 cl.
Prereq.: 5 cr. hrs. of anthro., or equiv. or permission of instructor.
Not open to students with credit for 401.
A review of American customs, institutions, social systems, and ideas, with emphasis on recent cultural anthropological studies. Hughes.

505 U 4
Social Relations in Folk Societies
A, Sp. 4 cl.
Prereq.: 5 cr. hrs. of anthro., or equiv., or permission of instructor.
Not open to students with credit for 410.
Forms of social organization in simpler societies; dynamics of social relations in such societies; a comparison of simpler forms of social structure with complex forms. Schwarz.

510 U 4
Culture Contact and Technological Change
Sp. 4 cl.
Prereq.: 202 and Soc. 101 or 201 or equiv. or permission of instructor.
Consequences for folk societies of the diffusion of Euro-American culture; introduction of advanced technology to underdeveloped areas; cultural aspects of colonialism and military government. Hughes.

515 U 4
Religion in Folk Societies
W. 4 cl.
Prereq.: 5 cr. hrs. of anthro., or equiv. or permission of instructor.
Not open to students with credit for 610.
World views in folk societies, emphasizing religion and sacred beliefs; integration of these beliefs with social organization and the arts. Bourguignon and Messenger.

520 U G 3
Culture Patterns and Personality
Sp. 3 cl.
Prereq.: Soc. 470 or equiv. or Psych. 320 or equiv. or permission of instructor.
Not open to students with credit for 509.
Anthropological contributions to the field of social psychology; variations in personality as associated with variations in culture; the range of personality differences within various cultures. Bourguignon and Messenger.

525 U 4
Theory and Problems of Cultural Anthropology
W. 4 cl.
Prereq.: 20 cr. hrs. in allied subjects or permission of instructor.
Not open to students with credit for 507.
Major theoretical viewpoints in cultural anthropology; significance of the cultural approach; applied anthropology in psychology and other social sciences. Schwarz.

530 U 4
Fossil Man
W. 4 cl.
Prereq.: 200 or equiv. or 15 cr. hrs. in Biological Sciences or Geol. or permission of instructor.
Not open to students with credit for 450.
A comprehensive study of the fossil hominids; fossils of Homo sapiens and their relation to other fossil hominids. Polier.

535 U 4
Physical Variability of Modern Man
Sp. 4 cl.
Prereq.: 200 or equiv., or 15 cr. hrs. in biological sciences, including genetics, or permission of instructor.
Not open to students with credit for 452.
The racial classification of man on a biological basis; the evolution of Homo sapiens and the development of human variability; racial differences and mixtures. Post.
540 U 2
Osteometry
W. 1 hr. lec., 3-hr. lab.
Prereq. or concur.: 535 or equiv., or permission of instructor.
Not open to students with credit for 454.
Laboratory measurements of human skeletons.

544 U 2
Anthropometry
Sp. 1 hr. lec., 3-hr. lab.
Prereq. or concur.: 535 or equiv., or permission of instructor.
Not open to students with credit for 456.
Laboratory measurements of living human beings.

545 U 3
Research Methods in Physical Anthropology
A. 3 cl.
Prereq.: 15 cr. hrs. of anthro. or 10 cr. hrs. of anthro. and 10 cr. hrs. of closely related work, or permission of instructor.
Not open to students with credit for 450.
Methods used in the analysis and classification of man in both comparative and evolutionary approaches. Poirier and Post.

551 U 4
Regional Survey in Prehistory
A, Sp. 4 cl.
Prereq.: 201 or equiv., or permission of instructor.
Repeateable to a maximum of 20 cr. hrs.
Survey of prehistory of selected region from earliest times until rise of literate civilization; emphasis on current research and problems of general anthropological interest.
   a. North America
   b. Mesoamerica
   c. Middle East

555 U 4
Principles of Research in Archaeology
Sp.
Prereq.: 201 or equiv., plus 5 additional cr. hrs. of anthro. or 10 cr. hrs. of work closely related to archaeological field research, and permission of instructor.
Not open to students with credit for 652.
Instruction in basic methods of archaeological analysis, including artifact typology and cultural classification; methods of excavation and recording; one-day or weekend field sessions. Baby.

565 U 8-16
Archaeological Training Expedition
Su. 8 cr. hrs. for either term.
(Full time in excavation camps.)
Prereq.: 555 or equiv., or 10 cr. hrs. of work closely related to archaeological field research, and permission of instructor.
Not open to students with credit for 664.
Joint expedition of The Ohio State University Department of Anthropology, and the Ohio State Museum, engaged in excavating prehistoric sites in Ohio; experience in archaeological field work. Baby and Staff.

675 U G 4
Introduction to Anthropological Linguistics
W. 4 cl.
Prereq.: 10 cr. hrs. of anthro. or permission of instructor.
Not open to students with credit for 574.
Relations of language to social organization, world view, socialization, and cultural analysis. Callaghan.

693 U 1-4
Individual Studies
Prereq.: 30 cr. hrs. of anthro. or permission of instructor.
Repeateable to a maximum of 18 cr. hrs. for each decimal subdivision.
693.01 Theory
693.02 History
693.03 Anthropological Linguistics
693.04 Research Methodology
693.05 Prehistory
693.06 Ethnography
693.07 Physical Anthropology
693.08 Unclassified

894 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeateable to a maximum of 20 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered.

H703 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the anthro. courses and an average of B in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 2 qtrs. are required of candidates for the degree Bachelor of Arts with distinction in anthro. Failure to receive a mark of S in this course is a disqualification for special honors.
Repeateable to a maximum of 15 cr. hrs.

803 G 5
Seminars in Anthropology
Repeateable to a maximum of 35 cr. hrs. not more than 5 of which shall be in any one of the following topics:
   a. Theory
   b. History
   c. Anthropological Linguistics
   d. Prehistory
   e. Ethnology
   f. Physical Anthropology
   g. Cultural Anthropology
   h. Unclassified
Seminars in Ethnology
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 30 cr. hrs., not more than 5 of which shall be in any one of the following topics.
   a. North America
   b. South America
   c. East Asia
   d. Southeast Asia
   e. Oceania
   f. South Asia
   g. Middle East
   h. Africa
   i. Europe
   j. Circumpolar

Seminars in Cultural Anthropology
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 30 cr. hrs., not more than 5 of which shall be in any one of the following topics.
   a. Nature of Culture
   b. Acculturation, Change, and Stability
   c. Culture and Personality
   d. Enculturation
   e. Social Organization
   f. Religious Behavior
   g. Field Methods in the Study of Culture
   h. Theory and Problems in Cultural Anthropology
   i. Peasant Cultures
   j. Cultural Evolution
   k. Human Ecology

Seminars in Physical Anthropology
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 30 hrs., not more than 5 of which shall be in any one of the following topics.
   a. Theory and Method in Physical Anthropology
   b. Serology
   c. Primate Structure and Behavior
   d. Fossil Man
   e. Osteometry
   f. Anthropometry
   g. Physical Variability of Man
   h. The Physical Anthropology of Selected World Culture Regions

Seminars in Prehistory
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 30 cr. hrs., not more than 5 of which shall be in any one of the following topics.
   a. Method and Theory in Archaeology
   b. North American Archaeology
   c. South American Archaeology
   d. European Archaeology
   e. Asian Archaeology
   f. African Archaeology
   g. Oceanic Archaeology
   h. Archaeology of High Civilizations
   i. Special Problems in Archaeology

Seminars in Anthropological Linguistics
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 30 cr. hrs., not more than 5 of which shall be in any one of the following topics.
   a. Animal Communication and Human Language
   b. Social Structure and Language
   c. Enculturation and Language
   d. Languages and Cultural Structuring of Perceptual Patterns
   e. Ethnography of Language
   f. Language as a Research Tool in Ethnography, Ethnology, and Cultural Anthropology

Seminars in Museology
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 9 cr. hrs., not more than 3 of which shall be in any one of the following topics.
   a. Introduction
   b. Problems
   c. Research Methods

Interdepartmental Seminar in Polar and Alpine Studies
Sp.
(See under Interdepartmental Seminars.)

Interdepartmental Seminar
(See under Interdepartmental Seminars.)

Individual Studies
Repeatable to a maximum of 18 cr. hrs., not more than 6 of which shall be in any one of the following topics.
   a. Theory
   b. History
   c. Anthropological Linguistics
   d. Research Methods
   e. Prehistory
   f. Ethnology
   g. Physical Anthropology
   h. Cultural Anthropology
   i. Unclassified

Group Studies
A, W, Sp. 1 2-hr. cl.
Repeatable to a maximum of 12 cr. hrs.; topics may not be repeated.
   a. Theory
   b. History
   c. Anthropological Linguistics
   d. Research Methods
   e. Prehistory
   f. Ethnology
   g. Physical Anthropology
   h. Cultural Anthropology
   i. Unclassified
Arabic

Office: 248 Dieter Cunz Hall of Languages, 1841 Millikin Road
Professor Griffin (Chairman); Associate Professor Cadoro; Assistant Professor Zwettler

101  U 5
Introduction to Modern Literary Arabic
A.  5 cl.
Sound and writing systems, morphological patterns, basic sentences with brief dialogues.

102  U 5
Introduction to Modern Literary Arabic
W.  5 cl.
Prereq.: 101.
Continuation of morphological patterns and basic syntactic structures, with long dialogues and simple pieces of expository prose.

106  U 3
Basic Colloquial Arabic
A.  3 cl.
Introduction to the phonology and grammar of the spoken language of educated urbanites of the Eastern Arab world.

107  U 3
Basic Colloquial Arabic
W.  3 cl.
Prereq.: 106 or permission of instructor.
Continuation of 106; analysis of and drill in morphological and syntactic patterns; expansion of vocabulary; practice in conversation.

110  U 5, 10
Intensive Elementary Arabic
Su, A, W, Sp.  10 cl.
Prereq.: Permission of dept.
Not open to students with credit for 102. Students with credit for 101 or equiv. may not register for more than 5 cr. hrs.
Elementary Arabic for students wishing to acquire the basic skills in one quarter; intensive drill in forms, syntax, vocabulary, and idioms; equivalent to 101 and 102.

112  U 5, 10, 15
Intensive Modern Literary Arabic
Su.  15 cl. Enrollment limited to 25 students.
Prereq.: Permission of chairman.
Full time of student and full fees required.
Equiv. of 101, 102, and 601. Students with credit for 101 or the equiv. may not register for more than 10 hrs. Students with credit for 101 and 102 or the equiv. may not register for more than 5 hrs. Students with credit for 601 or the equiv. may not register for credit.
Elementary and intermediate literary Arabic; intensive drill in forms, syntax, vocabulary and idioms; reading of selected material in modern Arabic.

193  U 1-15
Individual Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

194  U 1-15
Group Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

271  U 3
Introduction to Arabic Literature in Translation
A.  3 cl.
Prereq.: Engl. 100 or equiv.
A general survey of classical Arabic literature in its historical and cultural context.

272  U 3
Medieval Arabic Literature in Translation
W.  3 cl.
Prereq.: Engl. 100 or equiv.
A general survey of the major genres, movements, and masterpieces of medieval Arabic literature; literary interrelationships in the west.

273  U 3
Modern Arabic Literature in Translation
Sp.  3 cl.
Prereq.: Engl. 100 or equiv.
A general survey of modern Arabic literature, emphasizing the impact of western literary concepts.

274  U 3
Hispano-Arabic Literature in English Translation
A.  3 cl.
Prereq.: Engl. 100 or equiv.
A general survey of Hispano-Arabic literature and culture; their relationship to the intellectual life in medieval Europe.

401  U 5
Intermediate Colloquial Arabic
Sp.  5 cl.
Prereq.: 107.
Intensive practice in speaking Arabic with emphasis on various cultural aspects of Arab life.
Modern Literary Arabic I
Sp. 5 cl.
Prereq.: 102.
Presentation of complex morphological forms and reintroduction and expansion of the basic syntactic structures of modern literary Arabic with readings on various aspects of Arabic culture.

Modern Literary Arabic II
A. 5 cl.
Prereq.: 601.
Review of morphology and introduction of complex syntactic structures found in journalistic and formal expository writings.

Modern Literary Arabic III
W. 5 cl.
Prereq.: 602.
Selected readings on a wide range of topics in a variety of genres and styles; practice in oral comprehension; conversation; and controlled composition.

Modern Literary Arabic IV
Sp. 5 cl.
Prereq.: 603.
Continuation of Arabic 603.

Modern Literary Arabic V
A. 5 cl.
Prereq.: 604.
Selected readings on social, political, economic, and intellectual aspects of Arab life; oral and written compositions on selected topics.

Classical Arabic I
Sp. 5 cl.
Prereq.: 102.
Elements of Classical and Medieval Literary Arabic grammar; selected readings from Eastern Arabic literary works.

Classical Arabic II
A. 5 cl.
Prereq.: 608.
Selected readings from Western (especially Spanish) Arabic literary works.

Introduction to the History of the Arabic Language
W. 3 cl.
Prereq.: Permission of instructor.
A non-technical survey of the Arabic language in its social and historical setting. Cadora.

Contemporary Arabic Readings
W. 5 cl.
Prereq.: 603.
Reading of contemporary expository prose selections on a variety of technical subjects such as politics, anthropology, religion, literature, language, and social mores. Cadora.

Contemporary Arabic Short Stories
Sp. 5 cl.
Prereq.: 603.
Reading of a selection of modern short stories by some of the representative writers in the Arab world. Cadora.

Contemporary Arabic Poetry
Sp. 5 cl.
Prereq.: 603.
Cadora.

Introduction to the Qur'an
W. 5 cl.
Prereq.: 609.
A linguistic and cultural analysis of selected chapters from the Qur'an. Zwettler.

Classical Arabic Poetry
Sp. 5 cl.
Prereq.: 609.
Selected readings from classical and medieval Arabic poetry; Arabic metrics and literary theory. Zwettler.

Classical Arabic Prose
W. 5 cl.
Prereq.: 609.
Selected readings reflecting the evolution of Arabic prose literature from its origins to the Abbasid period. Zwettler.

The Koran in Translation
A.
An introduction, in English, to the literary, religious, and cultural implications of the fundamental Book of Arabic literature and of Islamic civilization.

Group Studies in Arabic
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

Honors Course
Prereq.: 4th yr. standing with a grade of A ir at least half of the Arabic courses and an average of B in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
At least 2 qtrs. are required of candidates for the degree Bachelor of Arts with distinction in Arabic. Failure to receive a mark of S in this course is a disqualification for special honors. Offers undergraduate with special aptitudes a greater opportunity to do independent study and research than is possible in normal course work.

783
UG 1-5
Individual Studies in Arabic
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

784
UG 1-15
Group Studies in Arabic
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

Architecture

Office: 171 Brown Hall, 190 West 17th Avenue
Professors Borchers, Clark, Coddington, Korda, Philpian, Ronan (Emeritus), Tilley, Whitaker, and Wilson (Emeritus); Associate Professors Bowser, Brinkers, Dipner, Pasto, and Young (Chairman); Assistant Professors Crane, Lee, Markwood, and Marzuki.

221
U 3
Architectural Graphics
A. 3 cr.
Open only to students enrolled in the School of Architecture.
Descriptive geometry and related applications of orthographic projection in architecture; lettering; perspective; shades and shadows. Markwood.

222
U 3
Construction Materials
W. 3 cr.
Open only to students enrolled in the School of Architecture.
Basic properties and production of architectural building materials; theory of working drawings and dimensioning; calculations and drawings of site work. Markwood.

223
U 3
Construction Methods
Sp. 3 cr.
Prereq.: 222.
Detailing of building sections, simple enclosures, and structural assemblies; analysis of acoustics. Markwood.

241
U 5
Architectural Design
A. 2 cr., 13 lab. hrs.
Open only to students enrolled in the School of Architecture. Not open to students with credit for 111.
Principles of perception, graphic communication, and form organization; composition in two and three dimensions.

242
U 5
Architectural Design
W. 2 cr., 13 lab. hrs.
Prereq.: 291 and 241.
Not open to students with credit for 112.
Use of color in graphic communication and form organization; functional and aesthetic arrangement of physical objects.

243
U 5
Architectural Design
Sp. 2 cr., 13 lab. hrs.
Prereq.: 242.
Not open to students with credit for 113.
Function and scale as factors in architectural design; expression and organization of spaces for human occupancy.

271
U 3
Drawing Studio for Architects and Landscape Architects
A. 5 lab. hrs.
Open only to students enrolled in the School of Architecture.
Intensive drawing experience with basic forms and simple media; development of sensitivity to visual.

272
U 3
Drawing Studio for Architects and Landscape Architects
W. 5 lab. hrs.
Prereq.: 271.
Continued intensive drawing experience; problems of increasing complexity; introduction of color, and of drawing the human figure. Crane.

273
U 3
Drawing Studio for Architects and Landscape Architects
Sp. 5 lab. hrs.
Prereq.: 272.
Continued intensive drawing experience; advanced drawing problems incorporating techniques and materials appropiate to professional study of architecture and landscape architecture. Crane.

321
U 3
Wood and Masonry Construction
A. 3 cr.
Not open to students with credit for 521.
Building loads; wood structural elements and their connections; masonry construction principles and procedures; foundations and footings; exercises in structural detailing and computations. Dipner.

322
U 3
Steel and Concrete Construction
W. 3 cr.
Prereq.: 321.
Not open to students with credit for 522.
Steel structural elements and their connections; trusses; reinforced concrete structural elements; exercises in structural detailing and computations. Dipner.
Design of a major building emphasizing the integration of the functional, technical, and aesthetic aspects of design with particular attention to structure, environmental control, and mechanical circulation.

Architectural Design

- **443**
  - **U 5**
  - **Architectural Design**
  - **Sp.** 2 cl., 13 lab. hrs.
  - Prereq.: 442; prereq. or concur. 323.
  - Not open to students with credit for 513.
  - Recognition of community forces affecting architectural form; expression of social and cultural values; integration of new buildings with existing neighborhoods; selection among competing design values.

History of Ancient Architecture

- **601**
  - **U 3**
  - Analysis of primitive structures and ancient architecture before the Christian era to illustrate basic principles of shelter, natural building techniques, and organization of space. Borchers.

History of Medieval and Renaissance Architecture

- **602**
  - **U 3**
  - Analysis of architecture from the early Christian era through the Baroque, related to the spirit of the age, social organization, and increasing structural knowledge. Borchers.

History of Contemporary Architecture

- **603**
  - **U 3**
  - Analysis of architecture from the Industrial Revolution to the present, reflecting changes of society, fashion and architectural practice; new materials and structural techniques. Borchers.

Lighting and Electrical Equipment in Architecture

- **661**
  - **U 3**
  - Lighting fundamentals; light sources and their characteristics; lighting applications; electricity and electrical circuits; electrical materials and installation methods; exercises in design of electrical wiring. Passe.

Space Conditioning in Architecture

- **662**
  - **U 3**
  - Environmental comfort; heat loss and gain; principles of heating and cooling; space conditioning; heating by electricity. Passe.

Mechanical Systems in Architecture

- **663**
  - **U 3**
  - Air handling systems; direct space conditioning; fire protection; water and plumbing systems; principles of storm and sanitary drainage; waste treatment; cleaning ad disposal systems. Passe.
689 U 2
Inspection Trip
Sp.
Prereq.: Arch., or Land. Arch., 3rd or 4th yr. standing.
Taken between Winter and Spring Quarters; trip to inspect architects' offices and buildings in Ohio and neighboring states; written report required.

693 U G 1-5
Individual Studies in Architecture
Prereq.: Permission of School.
Repeatable to a maximum of 15 cr. hrs.
For students majoring in Arch. desiring to pursue special studies not offered in the fixed curriculum.

694 U 1-5
Group Studies in Architecture
Prereq.: Permission of School.
Repeatable to a maximum of 15 cr. hrs.
For students majoring in Arch. desiring to pursue special studies not offered in the fixed curriculum.

700 U G 3
Allied Arts
A. 3 cr.
Prereq.: Arch. 4th yr. standing or admission to grad. curriculum in Arch. or permission of instructor.
Analysis of arts related to architecture and the expression of the nature of materials in architectural ornament, furniture and furnishings, and the garden. Borchers.

724 U G 5
Structural Design in Architecture
W. 5 cr.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
Steel structural systems; analysis and design of components by current specifications; inelastic behavior of continuous frames; connections and fabrication limitations. Korda.

725 U G 5
Structural Design in Architecture
Sp. 5 cr.
Prereq.: 724.
Reinforced concrete structural systems analysis and design of continuous frameworks by ultimate strength specifications, including deformations; prestressed concrete systems. Korda.

751 U G 3
Practice of the Design Professions
A. 3 cr.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
History of professions and their clients; the professional's interaction with society and government; substantive aspects of practice, including organization and communication; legal aspects of construction. Clark.

752 U G 3
Practice of the Design Professions
W. 3 cr.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
Management of construction contracts; bonds and insurance; operational procedures during negotiation and construction phases; arbitration; office and project case studies. Clark.

801 G 2
Seminar
A. 2 cr.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
Seminars and related research on contemporary problems, issues, and concerns in architectural theory and practice.

802 G 2
Seminar
W. 2 cr.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
Continuation of 801.

803 G 2
Seminar
Sp. 2 cr.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
Continuation of 802.

831 G 5
Construction Systems Design
A, W, Sp. 3 cr., 10 lab hrs.
Prereq.: Admission to grad. curriculum in Arch. or permission of instructor.
Comparative study of systems of construction; properties and specifications of systems materials; interface consequences of complex assemblies; industrialized buildings. Clark.

832 G 5
Construction Systems Design
A, W, Sp. 3 cr., 10 lab hrs.
Prereq.: 831.
Methodology of design programming; processes for solving complex functional relationships; design decision-making and management tools; network planning and scheduling; communication.

833 G 5
Construction Systems Design
A, W, Sp. 3 cr., 10 lab hrs.
Prereq.: 831.
Systems product and component development; dynamic, major institutional or industrial project; structural modeling.

834 G 5
Advanced Construction Systems Design
A, W, Sp. 3 cr., 10 lab hrs.
Prereq.: 833.
Sub-systems design at building scale; detailed behavior considerations of structure, enclosure, comfort and safety sub-systems.
Advanced Construction Systems Design
A, W, Sp. 3 cl., 10 lab. hrs.
Prereq.: 833.
Production as design feedback, materials handling, processing, assembly, distribution and installation; macroeconomic systems, utilities, transportation.

Advanced Construction Systems Design
A, W, Sp. 3 cl., 10 lab. hrs.
Prereq.: 833.
Obligations to systems users, society and the environment; optimization, economic justification; summary project of urban proportions.

Advanced Architectural Design
A, W, Sp. 15 lab. hrs.
Prereq.: Admission to grad. curriculum in Arch. or permission of Graduate Committee.
Not open to students with credit for 811.
Studies in design methods stressing coordination and expression of technical requirements, human needs and values, and aesthetic qualities; application in architectural projects of considerable complexity and scope.

Advanced Architectural Design
A, W, Sp. 15 lab. hrs.
Prereq.: 841.
Not open to students with credit for 812.
Continuation of 841: development of projects requiring a high level of aesthetic attainment.

Advanced Architectural Design
A, W, Sp. 15 lab. hrs.
Prereq.: 842.
Not open to students with credit for 813.
Continuation of 842: design of projects requiring integration with other disciplines.

Advanced Architectural Design
A, W, Sp. 15 lab. hrs.
Prereq.: 15 cr. hrs. in grad. arch. design.
Repeatable to a maximum of 15 cr. hrs.
Advanced studies and individual research; development of independent design projects.

Interdepartmental Seminar
(See under Interdepartmental Seminars.)

Individual Studies in Architecture
Prereq.: Grad. standing.
Repeatable to a maximum of 15 cr. hrs.
993.01 Environmental Design
993.02 Construction Systems and Technology
993.03 Architectural History and Criticism
993.04 Management and Professional Practice
993.05 Architectural Photogrammetry
993.06 Architectural Education
993.07 Otherwise Unclassified

Group Studies in Architecture
Prereq.: Grad. standing.
Repeatable to a maximum of 15 cr. hrs.
994.01 Environmental Design
994.02 Construction Systems and Technology
994.03 Architectural History and Criticism
994.04 Management and Professional Practice
994.05 Architectural Photogrammetry
994.06 Architectural Education
994.07 Otherwise Unclassified

Research in Architecture
Research for thesis purposes only.

Art
Office: 146 Hopkins Hall, 128 North Oval Drive
Professors Ruzicka (Chairman), Baughman, Black, Chalems, Csuri, Freeman, Friley, R. Gatrell, Hall, King, and Sherman; Associate Professors Mistick, M. Gatrell, Heuber, Krueger, Krumm, and Wynne; Assistant Professors Hentze, Katz, Schwartz, and Wright; Instructors Camp, Chipperfield, Farley, Gunderson, Kolbenschlag, Lawson, Raabe, Sacco, Shineman, and Tomlinson.

Studio Art I
A, Sp. 5 2-hr. labs., 1 lec.
Open only to majors in the Divisions of Art, Art Education, Design, and History of Art, and to majors in Medical Illustration, except by permission of the Division of Art chairman.
An introductory studio experience relating to visual fundamentals; lectures, discussions, demonstrations, and field trips.

Studio Art II
A, W. 5 2-hr. labs.
Prereq.: 170 or permission of instructor.
Continued studio experience of the underlying principles utilized in 170; lectures, discussions, demonstrations, and field trips.
175 U 5
Studio Art III
W, Sp. 5 2-hr. labs.
Prereq.: 171.
Continued studio experience emphasizing visual fundamentals utilized in 170 and 171 as applied to diverse art forms; lectures, discussions, demonstrations, and field trips.

180 U 5
Sculpture
Prereq.: 170.
Open only to majors in the Divisions of Art, Art Education, Design, and History of Art, and to majors in Medical Illustration, except by permission of the Division of Art chairman.
Not open to students with credit for 581.
An introduction to the principles of sculpture, emphasizing basic forming processes and materials.

190 U 3
Introduction to Fine Art Activities
Not open to candidates for the degrees B.F.A. and B.S. in Ed. with Art, Design, or Hist. of Art as a major, nor to students with credit for 170 or 290, or Fine Arts 170, 190, or 290.
An investigation of visual form, its perception, development, and use through studio experience.

240 U 3
Elementary Ceramic Art
Su, A, W, Sp. 1 cl., 6 lab. hrs.
Introduction to the art phases of the ceramic field; laboratory practice in the hand forming process.

242 U 3
Introduction to Ceramic Art
Su, A, W, Sp. 1 cl., 6 lab. hrs.
Prereq.: 240 or majors in Art, Art Ed., Design, or Hist. of Art.
Introduction to the Ceramic Arts through the use of the potter's wheel with lectures covering a broad survey of the field of ceramics.

244 U 3
Ceramic Art Laboratory I
Su, A, W, Sp. 9 lab. hrs.
Prereq.: 242 or permission of instructor.
Laboratory practice utilizing the potter's wheel as a basis for more involved forming processes.

245 U 5
Ceramic Art Laboratory II
A, W, Sp. 15 lab. hrs.
Prereq.: 244 or permission of instructor.
Not open to students with credit for Fine Arts 245.
Laboratory practice in designing ceramic wares with emphasis on the hand forming processes.

246 U 3
Ceramic Art Laboratory III
Su, A, W, Sp. 9 lab. hrs.
Prereq.: 243 or permission of instructor.
Not open to students with credit for Fine Arts 246.

272 U 5
Life Drawing I
Su, A, W, Sp. 5 3-hr. labs.
Prereq.: 175 and 180.
Drawing from the human figure; discussion of drawing as related to significant traditions; lectures, demonstrations.

273 U 5
Painting I
Su, A, W, Sp. 5 3-hr. labs.
Prereq.: 175 and 180.
Special problems in painting on intermediate level of visual experience, related to current and traditional directions, styles, techniques, and media; lectures, discussions, demonstrations, and field trips.

274 U 5
Studio Art IV
Sp. 5 3-hr. labs.
Prereq.: 272.
An intermediate level drawing-color experience exploring a variety of media and directions; lectures, discussions, demonstrations.

276 U 5
Introduction to Printmaking
Su, A, W, Sp. 5 2-hr. labs.
Prereq.: 171.
The basic tools, methods, and materials of printmaking; study and examination of original prints.

280 U 5
Construction Sculpture
A, W, Sp. 3 3-hr. labs., 6 hrs. arr.
Prereq.: 175 and 180.
Study of three-dimensional form through the use of power and hand tools.

281 U 5
Modeling and Carving
Sp. 3 3-hr. labs., 6 hrs. arr.
Prereq.: 175 and 180.
An intermediate studio course dealing with modeled and carved sculpture in media such as clay, wax, wood, plaster, and stone.

282 U 5
Life Sculpture
A, W. 3 3-hr. labs., 6 hrs. arr.
Prereq.: 175, 180, and 272.
Aspects of the human form studied in relation to the materials of sculpture; experimentation in a choice of materials: clay, wax, cement, plaster, and metal.

290 U 5
Fundamentals of Art
Su, A, W, Sp. 5 2-hr. labs.
Not open to majors in Art, Art Educ., Design, or Hist. of Art.
An introduction to art through studio experience, exploring two-dimensional and three-dimensional media, by an analysis of form, and expression.

294 U 5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

295† U 3
Drawing
A. 6-hr. lab.
Prereq.: Arch. 2nd yr. standing.
Visual fundamentals as expressed through drawings; emphasis upon configuration and visual relationships.

296† U 3
Drawing from Life
W. 6-hr. lab.
Prereq.: Arch. 2nd yr. standing and 295.
Drawing from the human figure, study of gesture and planar relationships in two and three dimensional space.

297† U P 3
Form Organization
A, Sp. 3 2-hr. labs.
Prereq.: Dent. 1st yr. standing or Arch. 2nd yr. standing.
Drawing and sculpture, with emphasis on visual organization.

376 U 5
Beginning Relief Printmaking
A, W. 5 2-hr. cl., 5 yrs. arr.
Prereq.: 276.
Introduction to the practice and examination of several modes of artistic expression in the relief processes of printmaking.

377 U 5
Beginning Serigraphy
A, W. 5 2-hr. cl., 5 hrs. arr.
Prereq.: 276.
Open only to Art and Art Educ. majors or by permission of Division Chairman.
Introduction to the practice and examination of several modes of artistic expression in the serigraphic processes of printmaking.

378 U 5
Beginning Intaglio Printmaking
A, W. 5 2-hr. cl., 5 hrs. arr.
Prereq.: 276.
Open only to Art or Art Educ. majors or by permission of Division Chairman.
Introduction to practice and examination of several modes of artistic expression in the intaglio processes of printmaking.

379 U 5
Beginning Lithography
A, W. 5 2-hr. cl., 5 hrs. arr.
Prereq.: 276.
Open only to Art or Art Educ. majors or by permission of Division Chairman.
Introduction to the practice and examination of several modes of artistic expression in the lithographic processes of printmaking.

411 U 3
Ceramic Composition
A. 2 cl., 2 2-hr. labs.
Ceramic computations course for art students; methods of representing ceramic composition; laboratory study and discussion of raw materials and their uses in bodies and glazes.

441 U 3
Ceramic Composition
W. 2 cl., 2 2-hr. labs.
Prereq.: 441.
Laboratory practice in development of the aesthetic aspects of ceramic glazes and bodies; methods of presenting their fired composition and correction faults.

442 U 3
Ceramic Composition
W. 2 cl., 2 2-hr. labs.
Prereq.: 442.
Laboratory study and development of individual projects leading to creation of ceramic compositions of aesthetic merit; further studies in texture and color.

468 U 5
Elements of Weaving
A, W, Sp. 5 2-hr. labs.
Prereq.: 290 or Design 251 or permission of instructor.
An introduction to the creative and functional aspects of handweaving; experience in the construction, warping, threading, and the manipulation of both standard and modern design techniques.

469† U 3
Weaving
A, W, Sp. 3 2-hr. labs.
Prereq.: 468.
The use of weaving materials and equipment, with an emphasis on creative design of functional and decorative fabrics.
Development of Interior Design I
A. 3 cl.
Prereq.: History of Art 210, 211, and 212.
A survey of European interiors from 1300 to 1850, followed by a study of French design from Louis XIII through the Empire period.

Development of Interior Design II
W. 3 cl.
Prereq.: 550.
A study of the Tudor, Jacobean, Carolean, Georgian, and Regency Periods—considering the aesthetic, political, and economic implications.

Development of Interior Design III
Sp. 3 cl.
Prereq.: 551.
A survey of American interiors since 1650, followed by a study of the development of interior design in the western world since 1880; field trips.

Life Drawing II
Su, A, W, Sp. 5 3-hr. labs.
Prereq.: 272.
Development of a comprehensive understanding and use of the human figure as an element related to pictorial organization; discussions, lectures, demonstrations, and field trips.

Painting II
Su, A, W, Sp. 5 3-hr. labs.
Prereq.: 272 and 273.
Advanced problems in painting with emphasis upon exploring diverse media and directions; lectures, discussions, demonstrations, and field trips.

Ceramic Sculpture
W. 3 3-hr. labs., 6 hrs. arr.
Prereq.: 281.
An advanced level studio course dealing with various methods of building and firing clay sculpture; emphasis on clay's unique structural and forming possibilities.

Welded and Forged Sculpture
Sp. 3 3-hr. labs., 6 hrs. arr.
Prereq.: 280 and 281.
An introduction to metal construction in sculpture by oxyacetylene welding, arc welding, and forming methods with forge and hammer.

Sculpture Foundry
A. 3 3-hr. labs., 6 hrs. arr.
Prereq.: 260, 291, and 292.
An introduction to traditional and experimental methods used in the development and casting of sculpture; experience in the operation of foundry material and equipment.

Studio Practice I
Prereq.: Permission of instructor.
The following decimal subdivisions, with the exception of 591.12, are open only to juniors and seniors majoring in Art.
Each decimal subdivision repeatable to a maximum of 20 cr. hrs.
Intermediate studio practice, following and continuing the basic program of courses undertaken in the first two years.

Studio Kilns and Firing Practices
Sp. 15 lab. hrs.
Prereq.: Permission of instructor.
The design, construction, and use of simple gas and electric ceramic studio kilns; practice in the various types and methods of firing.

Ceramic Reproduction Processes
W. 15 lab. hrs.
Prereq.: Permission of instructor.
Studies in the designing, fabrication, and uses of models and molds in such multiple ceramic production processes as casting, jiggering, and pressing.

Advanced Ceramic Laboratory
A. 15 lab. hrs.
Prereq.: Permission of instructor.
Design and construction of large ceramic art forms.

Survey of Ceramic Form and Technique
Sp. 3 cl.
Prereq.: Permission of instructor.
Slide lectures; designed specifically to give the student potter an understanding of historical forms and technical progresses; presented in chronological sequence.
670 U G 5
Comprehensive Drawing
A, Sp. 5 3-hr. labs.
Prereq.: 676.
Special problems in drawing with an emphasis upon exploring diverse directions, utilizing a variety of media, materials, and techniques; lectures, discussions, and demonstrations.

676 U G 5
Advanced Relief Printmaking
Sp. 5 3-hr. cl.
Prereq.: 376.
Open only to Art or Art Educ. majors or by permission of Division Chairman.
An intensive exploration of the relief processes as a means for individual expression.

677 U G 5
Advanced Serigraphy
W. 3 3-hr. labs, 6 hrs. arr.
Prereq.: 377 or permission of Division Chairman.
Open to grad. students with 15 cr. hrs. in drawing and painting.
An intensive exploration of the serigraphic processes as a means for individual expression.

678 U G 5
Advanced Intaglio
A. 3 3-hr. labs, 6 hrs. arr.
Prereq.: 378 or permission of Division Chairman.
Open to grad. students with 15 cr. hrs. in drawing and painting.
An intensive exploration of the intaglio process as a means for individual expression.

679 U G 5
Advanced Lithography
Sp. 5 3-hr. cl.
Prereq.: 379 or permission of Division Chairman.
An intensive exploration of the lithographic processes as a means for individual expression.

680 U G 5
Large Sculpture Projects
Sp. 5 3-hr. labs.
Prereq.: 280 and 281.
An advanced level studio course dealing with large-scale sculpture constructed in relation to architecture.

681 U G 5
Advanced Figurative Sculpture
A, W. 3 3-hr. labs, 6 hrs. arr.
Prereq.: 281 and 282.
An advanced level studio course dealing with individual study of the relationship of sculpture to the model; various media.

681 U G 2-5
Professional Problems and Issues for Studio Artists I
A. 1 2-hr. cl.
A seminar dealing with teaching disciplines and research specializations of studio faculty and faculty from related areas of study.

691 U G 2-5
Studio Practice II
Prereq.: Permission of instructor.
The following decimal subdivisions, with the exception of 691.12, are open only to grad. students or seniors majoring in Art.
Each decimal subdivision repeatable to a maximum of 20 cr. hrs.
Advanced studio practice beyond 691.
691.03 Ceramics
691.06 Graphics
691.07 Weaving
691.09 Drawing
691.10 Painting
691.11 Sculpture
691.13 Interior Design
691.12 Expanded Arts

693 U G 2-5
Individual Studies
Prereq.: Permission of instructor.
Each decimal subdivision repeatable to a maximum of 45 cr. hrs.
Advanced study for students in specialized programs.
693.03 Ceramics
693.06 Graphics
693.07 Weaving
693.09 Drawing
693.10 Painting
693.11 Sculpture
693.12 Expanded Arts

694 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.
694.03 Ceramics
694.06 Graphics
694.07 Weaving
694.09 Drawing
694.10 Painting
694.11 Sculpture
694.12 Expanded Arts
686  U  G 2
Professional Problems and Issues for Studio Artists II
Sp.  1-2 hr. cr.
Current events, directions, and movements in art.

689  U  G 5-15
Study Tour in Art
Prereq.: 175 and 180 or permission of instructor.
First hand investigation of source material to be found abroad; including meetings and discussions with international members of the art community.

879  G 2
Perception-Art Form Seminar
W.  2 cr.
Seminar utilizing the Ames Visual Demonstration Center as a basis for discussion of perception and aesthetic form. Sherman.

881  G 3-5
Advanced Sculpture
A.
Advanced sculpture with a wide range of choice in media.

885  G 3-5
Advanced Sculpture
W.
Prereq.: 881.
Continuation of 881.

887  G 3-5
Advanced Sculpture
Sp.
Prereq.: 885.
Continuation of 885.

891  G 2-5
Studio Practice III
Prereq.: Grad. standing in Art or permission of instructor.
Each decimal subdivision repeatable to a maximum of 45 cr. hrs.
Graduate-level studio practice.
891.03 Ceramics
891.06 Graphics
891.09 Drawing
891.10 Painting
891.11 Sculpture
891.12 Expanded Arts

900  G 3-5
Research Problems in Printmaking
Repeatable to a maximum of 45 cr. hrs.

901  G 2-5
Studio Practice IV
Prereq.: Grad. standing in Art or permission of instructor.
Each decimal subdivision repeatable to a maximum of 45 cr. hrs.
Advanced graduate studio practice.
911.03 Ceramics
911.06 Graphics
911.09 Drawing
911.10 Painting
911.11 Sculpture
911.12 Expanded Arts

933  G 1-5
Individual Studies
Each decimal subdivision repeatable to a maximum of 45 cr. hrs.
933.03 Ceramics
933.06 Graphics
933.10 Painting
933.11 Sculpture
933.12 Expanded Arts

994  G 1-5
Group Studies
Prereq.: Permission of instructor.
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.
994.03 Ceramics
994.06 Graphics
994.10 Painting
994.11 Sculpture
994.12 Expanded Arts

999  G Arr.
Research in Art
Research for thesis and dissertation purposes only.
Art Education

Office: 340 Hopkins Hall, 128 North Oval Drive
Associate Professor Marantz (Chairman); Professors Elland and Severino; Associate Professors Duncan, Kern, and Orr; Assistant Professors Arnold, Cardinale, Clark, and Norris; Instructors Barrett and Linehan.

160 U 5
The Arts in Contemporary America
A, W, Sp. 4 cl., 1 lab. hr.
(Cross-listed in the Div. of Dance and the School of Music.)
A study of the role of the arts in American society based on live, recorded and filmed performances and exhibitions.

200 U 4
Orientation to Art Education
A, W, Sp. 2 cl., 2 hr. labs.
Prereq.: 2nd yr. standing.
Not open to students with credit for Fine Arts 200.

210 U 5
Beginning Jewelry and Metalsmithing
A, W, Sp. 5 2-hr. cl., 5 hrs. arr.
Prereq.: 15 cr. hrs. in Art studio courses or permission of instructor.
Fundamental knowledge of and processes for manipulating metals for the design and creation of jewelry and metalwork.

401 U 5
Laboratory and Field Experience in Art Education
A, W. 5 3-hr. cl., 5 hrs. arr.
Prereq.: 200, Ed. P. standing, and successful completion of 5 studio courses.
Not open to students with credit for Fine Arts 401.
Laboratory problems for the teaching of art study criticism and history; supervised field experience as teacher aide in an elementary school.

402 U 5
Laboratory and Field Experience in Art Education
W, Sp. 5 3-hr. labs.
Prereq.: 401.
Not open to students with credit for Fine Arts 402.
Laboratory problems for teaching of art study criticism and history; supervised field experience in recreation centers or settlement houses.

500 U 3
Art for Elementary Teachers
Su, A, W, Sp. 3 2-hr. labs.
Prereq.: Art 290 or Fine Arts 290.
Not open to students with credit for Fine Arts 500.
Problems of teaching in terms of personal knowledge about art, insight into children's art work, and understanding of elementary school curriculum.

501 U G 4
Art Workshop for Elementary Teachers
Su.
Prereq.: Elem. Ed. 4th yr. standing.
Full time of student for 3 wks.

Not open to students with credit for Fine Arts 501.
Laboratory experiences with art media toward understanding the visual arts; study of children's art expression; problems of teaching the arts in the elementary school program.

586 U 3-8
Student Teaching in Art in Elementary Schools
Repeatable to a maximum of 10 cr. hrs.
Practical and theoretical study in educational settings working with elementary school-age children and cooperating teachers.

587 U 3-8
Student Teaching in Art in Secondary Schools
Repeatable to a maximum of 10 cr. hrs.
Practical and theoretical study in educational settings working with secondary school-age students and cooperating teachers.

594 U G 1-5
Group Studies
Prereq.: 200 or permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies in professional areas of specified content.

603 U G 4
Theory of Art Education
A, W, Sp. 5 cl.
Not open to students with credit for Fine Arts 603.
A consideration of the formal and informal theories in art education, with emphasis on building a theoretical basis for education in the arts.

604 U G 3-5
Multi-Media Materials Development for Art Education
Development and presentation of instructional packages for art education; practical audio-visual instruction and theory of teaching materials development in the context of a multi-media laboratory.

610 U G 5
Advanced Jewelry and Metalsmithing
W, Sp. 5 2-hr. cl., 5 hrs. arr.
Prereq.: 210 or permission of instructor.
Extends the skills in manipulating metals and the concepts of designing and executing jewelry and metalwork.

691 U G 2-5
Applied Research in Art Education
Repeatable to a maximum of 10 cr. hrs.
Studies in empirical, philosophical, curriculum or studio problems in Art Education.

693 U G 2-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 45 cr. hrs.
Advanced study for students in specialize programs.
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

Issues in Art Education
A.
An introduction to alternative conceptions of the functions of art education within the content of general education and the contemporary culture milieu.

Empirical Problems in Art Education
W.
An introduction to the language, methodology, and application of empirical research in art education; the identification and isolation of appropriate empirical problems in the field.

Philosophical Problems in Art Education
W.
A study of the conceptual difficulties encountered when initiating and carrying out philosophical investigations in the field of art education.

Curriculum Problems in Art Education
Sp.
An examination of the functions of curricular plans as tools for transforming selected conceptions of art education into teacher and student activities in the classroom.

Research Problems in Art Education
Repeatable to a maximum of 45 cr. hrs.

Individual Studies
Repeatable to a maximum of 45 cr. hrs.

Group Studies
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

Research in Art Education: Thesis
Research for thesis purposes only.

Research in Art Education: Dissertation
Research for dissertation purposes only.

Arts and Sciences

Interdisciplinary Group Studies
H294 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept.
Prereq.: Open to students who meet instructor's stated prerequisites.
Repeatable to a maximum of 15 cr. hrs.
Study of special or interdisciplinary topics at an introductory level.

Interdisciplinary Group Studies
H594 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept.
Prereq.: Open to students who meet instructor's stated prerequisites.
Repeatable to a maximum of 15 cr. hrs.
Study of special or interdisciplinary topics at an intermediate level.

Foundations of Contemporary Civilization
A.
A study of the major movements of thought in science, social philosophy, the humanities, and religion in the development of Western civilization. Brown.

Development of Modern Science
Su. 5 cr.
Prereq.: 4th yr. standing.
The nature of science and its place in human culture as revealed by detailed sequences of discovery from the history of its development. Laffoouque.

Arts and Sciences—Graduate Course
Prereq.: Sr. standing and admission to the Arts and Sciences—Graduate Combined Program.
Repeatable to a maximum of 75 cr. hrs.
A progress grade will be given at the end of each quarter. At the conclusion of the program, course credits and final grades will be assigned.
Registration in this course constitutes full-time enrollment, unless otherwise specified.
A program leading to the simultaneous award of the Bachelor of Arts and Master of Arts degrees.
Astronomy

Offices: 560 Smith Laboratory of Physics, 174 West 18th Avenue; Perkins Observatory, Delaware, Ohio

Professors Stetsonak (Chairman), Bobrovnikoff (Emeritus), Capriotti, Collins, Czyzak, Keenan, Keller, Ko, Kraus, Mitchell, and Protheroe; Associate Professors Roark, and Wing; Assistant Professors Byard, Ehman, and Newsom.

150 U 5
Descriptive Astronomy
Not open to students with credits for 101, 102, 191 or 192.
An introductory course emphasizing the place of astronomy in man's cultural and scientific development.

191 U 5
General Astronomy I
A. Lec./Lab.
Prereq. or concur.: Math. 150 or equiv. or permission of instructor.
Not open to students with credit for 101 or 150.
Astronomy 191 and 192 form a comprehensive introduction to modern astronomy; 191 deals with the solar system and the earth as an astronomical body.

192 U 5
General Astronomy II
W. Lec./Lab.
Prereq.: Either 101, 191 or permission of instructor.
Not open to students with credit for 102 or 150.
A continuation of 191 with emphasis on the stellar universe and physical astronomy.

300 U 3
Spherical Astronomy
W.
Prereq.: Either 101, 150, 191, or equiv.; Math. 254; and Physics 112 or 131, or 231; or permission of instructor.
Not open to students with credit for 611.
The application of spherical trigonometry to stellar positions and motions; stellar coordinate systems; time; fundamental measurements of star positions.

301 U 3
Observational Astronomy
Sp. Lec./Lab.
Prereq.: 102 or 192 or written permission of instructor.
Selected intermediate level experiments and observations for the obtaining and treatment of astronomical data.

605 U 3
Introduction to Celestial Mechanics
W.
Prereq.: Math. 255 or 596; and Physics 520; or permission of instructor.
Application of the laws of motion to planes, satellites, and stars; the two-, three-, and N-body problems; introduction to orbit and perturbation theory.

650 U 4
Stellar Astronomy
A.
Prereq.: Either 102, 192, or 150; Math 254; Physics 232 and 233 or 132 and 133; or permission of instructor.
Distances, motions, luminosities, and masses of stars; the motions and distribution of stars and interstellar matter; star clusters and galaxies.

651 U 4
Introduction to Astrophysics
W.
Prereq.: Math. 255 or 566; prereq. or concur. Physics 580.01 or 705; or equiv.; or permission of instructor.
Study of radiation from stars and nebulae to determine the composition and physical conditions of matter in and between the stars; stellar nuclear energy sources.

652 U 4
Solar System
Sp.
Prereq.: 101 or 191 or 150 and 651; or permission of instructor.
The physical nature of the solar surface, planets, satellites, comets, asteroids, meteors, and diffuse matter in the solar system; cosmogony of the solar system.

689 U 3
Astronomical Uses of Applied Mathematics
A.
Prereq.: Math. 255 or permission of instructor.
Application of numerical methods for solution of integral, differential, and linear equations of particular interest to astronomy; treatment of aspects of statistics of particular relevance to astronomy.

693 U G 1-15
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 40 cr. hrs.
Independent library or laboratory work on a special problem in observational or theoretical astronomy.

694 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
H783 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the Astronomy courses taken, with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs. are required of candidates for the degree B.A. or B.S. with distinction in Astronomy. Failure to receive a mark of S in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
A program of study arranged for each student, with individual conferences, reports, and Honors thesis.

785 U G 3
Observational Techniques I
A.
Prereq.: 300 or 511, and 651, Physics 657, and 705; or permission of instructor.
Astronomical spectroscopy, astrometry, photographic and photoelectric photometry.

786 U G 3
Observational Techniques II
W.
Prereq.: 785.
Continuation of 785.

787 U G 3
Observational Techniques III
Sp.
Prereq.: 786.
Continuation of 786.

801 G 1
Astronomy Seminar I
A.
Prereq.: 10 cr. hrs. each in 600-level courses or higher in Astron., Physics, and Math., or permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Seminars conducted on astronomical topics of current interest; students will participate actively in the presentation and discussion of materials.

802 G 1
Astronomy Seminar II
W.
Prereq.: 801.
Repeatable to a maximum of 8 cr. hrs.
Continuation of 801.

803 G 1
Astronomy Seminar III
Sp.
Prereq.: 802.
Repeatable to a maximum of 8 cr. hrs.
Continuation of 802.

831 G 5
Single Stars I
A.
Prereq.: 651, Physics 500.01 or 707, Math. 551, and 200 or 556; or permission of instructor.
Not open to students with credit for 821, 822, 823, 851, or 852.
Radio and optical observational and theoretical aspects of the atmospheres, interiors and evolution of single stars including the quiet and active sun.

832 G 5
Single Stars II
W.
Prereq.: 831 or permission of instructor.
Not open to students with credit for 821, 822, 823, 851, or 852.
Continuation of 831.

833 G 5
Single Stars III
Sp.
Prereq.: 832 or permission of instructor.
Not open to students with credit for 821, 822, 823, 851, or 852.
Continuation of 832.

850 G 1-5
Current Topics in Astronomy
Prereq.: 10 cr. hrs. in 600-level courses or higher in each of Astron., Physics, and Math., or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Staff members and visiting lecturers will present material on their current research problems.

862 G 3
Radio Astronomy I
W. 3 cl.
Prereq.: 651 and Physics 656 or Elec. E 810 or permission of instructor.
Fundamental theory of radio astronomy and interpretation of basic radio observations; given in collaboration with the Department of Electrical Engineering.

863 G 3
Radio Astronomy II
Sp. 3 cl.
Prereq.: 862 or permission of instructor.
Advanced theory of generation, propagation and absorption of cosmic radio waves; given in collaboration with the Department of Electrical Engineering.

871 G 5
Stellar Systems and Interstellar Matter I
A.
Prereq.: 651, Physics 656 or Elec. E 810, Statist. 521 or Physics 780.20, Math. 551, and 255 or 556; or permission of instructor.
Not open to students with credit for 841, 842, 843, 853, or 863.
Radio and optical observational and theoretical aspects of multiple star system dynamics, structure and statistics; interstellar gas and dust; external systems and cosmology.
872 G 5
Stellar Systems and Interstellar Matter II
W.
Prereq.: 871 or permission of instructor.
Not open to students with credit for 841, 842, 843, 853, or 863.
Continuation of 871.

873 G 5
Stellar Systems and Interstellar Matter III
Sp.
Prereq.: 872 or permission of instructor.
Not open to students with credit for 841, 842, 843, 853, or 863.
Continuation of 872.

895 G 1-5
Interdepartmental Seminar in Radio-Astronomy
(See under Interdepartmental Seminars.)

999 G Arr.
Research in Astronomy and Astrophysics
Research for thesis or dissertation purposes only.

Aviation

Office: Ohio State University Airport, 3160 Case Road

Professor Eggspuehler (Chairman); Associate Professor Billing; Assistant Professors Chapman, Easter, Gerke, Gibson, Hubbard, Taylor, and Weislogel.

111 U 3
Introduction to Aviation
W, Sp. 3 cl.
A comprehensive study of the nation's air transportation system.

201 U 1
Primary Flight
Su, A, W, Sp. 5 lab.
Prereq. or concur.: 211 and secure equipment usage charge and permission slip at University Airport prior to scheduling.
A laboratory course provided for students to achieve greater understanding of 211.

211 U 4
Elements of Aviation
Su, A, W, Sp. 3 cl., 2 lab.
Prereq.: Math. 116 and Physics 111; or equiv.
Problems in fundamentals of flight and aircraft operation; objective studies of aviation laws and regulations.

401 U 1-4
Advanced Flight
Su, A, W, Sp. 5 lab.
Prereq.: 201 and secure equipment usage charge and permission slip at University Airport prior to scheduling.
The student must register for specific studies in areas indicated below, and may register for more than one at a time.
Repeatable to a maximum of 16 cr. hrs.; subdivisions repeatable.

401.01 Precision Flight Maneuvers
401.02 Flight Navigational Procedures
401.03 Performance Evaluation
401.04 Flight Safety

411 U 3
Aircraft Performance
A. 3 cl.
Prereq.: 211.
Studies of airframe components, performance and design characteristics, power plants, and federal certification of aircraft equipment.

415 U 3
Air Traffic Control and Flight Meteorology
A, W, Sp. 3 cl.
Prereq.: 211.
Precision navigational techniques for position control, flight planning and cruise control, aids to navigation, fundamentals of meteorological analysis, and effects of weather on flight.

419 U 3
Analysis of Problems in Aviation Safety
Sp. 3 cl.
Prereq.: 411 and 415.
Detailed analysis of standard and proposed procedures relating to safety, studies in pilot behavior, accident investigation, and safety programs.

493 U 2-5
Individual Studies in Aviation
Prereq.: 3rd yr. standing and written permission of instructor.
Repeatable to a maximum of 10 cr. hrs.

494 U 2-5
Group Studies in Aviation
Prereq.: 3rd yr. standing and written permission of instructor.
Repeatable to a maximum of 10 cr. hrs.

593 U G 2-5
Individual Studies in Aviation
Prereq.: Written permission of dept.
Repeatable to a maximum of 10 cr. hrs.
Biochemistry

Office: 780 Biological Sciences Building, 484 West 12th Avenue.

Professors: Serf (Chairman), Barber, Behrman, Bulen, Deatherage, Duschkot, Harper, Ives, Moore, Snell, and Van Winkle; Associate Professors: Marzluff, Molec, and Scott; Assistant Professors: Aune, Gross, and Royer.

294 U 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for different subject matter only.

511 U G 4
Introduction to Biological Chemistry
Su, A, W, Sp. 3 cr.
Prereq.: Chem. 235 or 241, and 2 qtrs. of biological sciences; or permission of instructor.
An introductory course in biochemistry dealing with the molecular basis of structure and metabolism of plants, animals, and microorganisms.

512 U G 4
Biochemistry of Physiological Processes
Sp. 3 cr.
Prereq.: 511 or 514; a course in Physiology recommended.
The biochemical basis for physiological processes in higher animals; topics will include digestion and absorption, respiration, blood function, kidney function and endocrine control.

513 U G 4
Biochemistry and Molecular Biology
W. 3 cr.
Prereq.: Chem. 242 or 253; 2 qtrs. of biological sciences.
Not open to students with credit for 511 without permission of instructor.
An introductory course in biochemistry and molecular biology dealing with the molecular basis of structure and function of life forms.

514 U G 4
Biochemistry and Molecular Biology
Sp. 3 cr.
Prereq.: 513.
Not open to students with credit for 511 without permission of instructor.
Continuation of 513.

521 U G 5
Introduction to Biological Chemistry: Laboratory
Su, A, W, Sp. 2 cr., 2 3-hr. labs.
Prereq. or concurr.: 511, 513, or 514.
Laboratory work to accompany 511, 513, or 514; assay techniques for chemical constituents and metabolic reactions of living cells.

551 U G 5
Chemistry of Foods and Food Processing
W. 3 cr., 2 3-hr. labs.
Prereq.: Chem. 211 and 235 or equiv.
The chemical, physical, and biological nature of foods in relation to handling, processing, packaging, quality, and consumer acceptance.

611 U G 5
Molecular Genetics
Sp. 5 cr.
Prereq.: One course in Biochem. and background in one or more of the following areas: Genetics, Microbiol., Developmental Biol.; or permission of instructor.
Not open to students with credit for Genetics 611.
(Cross-listed in the Dept. of Genetics.)
Molecular mechanisms of DNA replication, mutation, recombination, and repair; analysis of gene structure; metabolic and genetic control mechanisms; prokaryotic and eucaryotic systems are analyzed.

Biochemistry
(See Chem. 661.01 and 661.02.)
(Offered in cooperation with Chem., Biochem., and Phys.
Chem.)

693 U 2-5 G 2-10
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for undergraduate credit and to a maximum of 40 cr. hrs. for graduate credit.

694 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

705 U G 5
General Biological Chemistry
A. 3 cr.
Prereq.: Chem. 242, 244 or 253, 254; Physical Chem. background of Kinetics and Thermodynamics or permission of instructor.
Not open to students with credit for Biochem. 611, 612, 613, or Physiol. Chem. 705.
(Cross-listed in the Dept. of Physiol. Chem.)
An intensive treatment of modern biochemistry; protein structure, enzyme catalyzed reactions, chemistry and metabolism and carbohydrates.

706 U G 5
General Biological Chemistry Laboratory
A. 2 4-hr. labs.
Prereq. or concurr.: 705; 706, 708, and 710 should be taken in sequence.
Laboratory to accompany 705.

707 U G 5
General Biological Chemistry
W. 3 cr.
Prereq.: 705 or Physiol. Chem. 705.
Not open to students with credit for Physiol. Chem. 707.
(Cross-listed in the Dept. of Physiol. Chem.)
An intensive treatment of modern biochemistry; energy utilization and electron transport, photosynthesis, membranes and lipid metabolism.

708 U G 5
General Biological Chemistry Laboratory
W., 2 4-hr. labs.
Prereq.: 706.
Laboratory to accompany 707.

709 U G 5
General Biological Chemistry
Sp., 3 cl.
Prereq.: 707 or Physiol. Chem. 707.
Not open to students with credit for Physiol. Chem. 709.
(Cross-listed in the Dept. of Physiol. Chem.)
An intensive treatment of modern biochemistry; intermediary metabolism of amino acids, proteins, and nucleic acids.

710 U G 5
General Biological Chemistry Laboratory
Sp., 2 4-hr. labs.
Prereq.: 708.
Laboratory to accompany 709.

721 U G 5
Physical Biochemistry
A., W., 5 cl.
Prereq.: Chem. 253 and 533, or permission of instructor.

721.01* Physical Biochemistry I
Introduction of equilibrium chemical thermodynamics for students of biochemistry, with emphasis on applications of the laws of thermodynamics to systems of biological interest.

721.02* Physical Biochemistry II
Study of the characterization of proteins including a discussion of optical and hydrodynamic properties and their relationship to protein structure.

721.03* Physical Biochemistry III
Basic introduction to nonequilibrium thermodynamics and its applications to macromolecular diffusion, sedimentation in the ultracentrifuge, electrophoresis and viscosity.

721.04* Physical Biochemistry IV
Enzyme kinetics, chemical catalysis, determination of groups at the active site, mechanism of specific enzymes and theories on enzyme efficiency and specificity.

731 U G 5
Molecular Photobiology
A., 3 cl.
Prereq.: 511 or 514, Chem. 253 and 521, Physics 113 and Math. 133.

731.01* Molecular Photobiology I
A comprehensive study of the photosynthetic process and photobiological origins of life.

731.02* Molecular Photobiology II
A molecular approach to contemporary photobiological reactions excluding photosynthesis.

H783 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the courses in Biological Sciences and an average of B in the remainder; permission of instructor under whose supervision the work to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs. are required of candidates for the degree Bachelor of Science or Bachelor of Arts with distinction in Biochemistry. Failure to receive a mark of S in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
A program of reading and research for each student with individual conferences, reports, and Honors thesis.

785 U 2-5 G 2-10
Research Principles and Techniques
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for undergrad. credit and to a maximum of 40 cr. hrs. for grad. credit.

811* G 3
Advanced Topics in Molecular Genetics
A., 1 2-hr. cl.
Prereq.: 611 or Genetics 611.
Not open to students with credit for Genetics 811.
(Cross-listed in the Dept. of Genetics.)
An examination of the current research in molecular genetics by selective reading assignments and critical analysis during class discussion periods.

821* G 3
Enzymes
W., 3 cl.
Prereq.: 709 or equiv.
Advanced studies of enzymes and the mechanism of enzyme action.

831* G 3
Carbohydrates
Sp., 3 cl.
Prereq.: 709, Chem. 635 recommended.
Advanced study of the metabolism of the carbohydrates.

850 G 2
Seminar in Biological Chemistry
A., W, Sp., 1 or 2 cl.
Repeatable to a maximum of 40 cr. hrs.

851* G 2
Special Topics in Food Chemistry
W., 2 cl.
Prereq.: 551; Chem. 243, 531, 532, or equiv.
Advanced study of the chemistry of foods. Deatherage.

898 G 1
Interdepartmental Seminar in Nutrition and Food Technology
Sp., 1 cl.
(See under Interdepartmental Seminars.)
Biophysics

Office: 980 Biological Sciences Building, 484 West 12th Avenue

Professors Lipetz (Chairman), Blackwell, Corson, Hill, Hollander, Rothstein, Smith, Snell, Stow, and Van Winkle; Associate Professors Blersdorf, Cassin, Gilbert, Hart, Inging, Kornacker, and Ross.

500 U 5 Introduction to Biophysics
A, Sp. 5 cl.
Prereq.: Phys 111 and 112, Chem. 121 and 122, Biol. 100, and Math. 117 or equiv.
An introduction to the attitudes and principles which characterize the physico-chemical understanding of biological systems; examples of current biophysical research. Lipetz, Ross, Cassin, and Kornacker.

610 U G 5 Introductory Photobiology
Sp. 5 cl.
Prereq.: Chem. 123 or equiv., 1 course in organic chem., and permission of instructor.
The physico-chemical processes underlying various photobiological phenomena, with emphasis on those underlying vision.

641* U G 5 Introduction to Molecular Biophysics
A. 5 cl.
Prereq.: Math. 153 and Chem. 521 or Physics 251; or permission of instructor.
An introduction to applications of modern physics to problems in molecular biology; conceptual rather than mathematical aspects are stressed. Cassin.

642 U G 5 Bioenergetics
A. 5 cl.

694 U 2-5 G 2-10 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for undergraduate credit and to a maximum of 35 cr. hrs. for graduate credit.
Some of the areas of faculty specialization available for group studies in Biology are shown in the Biological Sciences section of the Arts and Sciences Catalog.

698† U G 1-15 Study Tours
Sp. Classwork at OSU. Arr., travel and study abroad.
Prereq.: Permission of tour leader/instructor.
Repeatable for different-titled Study Tour only.
Study tours for the biological sciences.

Environmental Pollution Abatement
(See Civil E. 714.)
700 U G 1
Seminar in Biophysics
Prereq.: Permission of instructor.
Repeatable to a maximum of 9 cr. hrs.

702 U G 1-3
Advanced Experimental Methods in Biophysics
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.

705 U G 5
Psychophysical Measurement
A. 4 cl., 1 2-hr. lab.
Prereq.: Psych. 100 or permission of instructor.
Analysis and evaluation of theories and methods of psychophysical measurement: general measurement theory; signal detection theory; scaling procedures. Smith.

710 U G 5
Sensory Psychophysics
W. 4 cl., 1 2-hr. lab.
Prereq.: 705 or permission of instructor.
Survey of psychophysical studies of sensory systems; variations in input energy and relationships between input and output under different operating conditions. Smith.

714 U G 5
Biophysics of Cell Membranes
A. 2 2-hr. cl.
Prereq.: 500 or permission of instructor.

715 U G 5
Sensory Neurophysiology
W. 2 2-hr. cl.
Prereq.: 714 or permission of instructor.

720 U G 5
Biocytogenetics
Sp. 5 cl.
Prereq.: Math. 255, Physics 133, and permission of instructor.
Physical models or organisms: mass, energy and information flow; non-linear oscillators; linear and non-linear control systems; adaptive systems; control system analysis for biologists. Lipetz.

741 U G 5
Molecular Biophysics 1
A. 4 cl.
Prereq.: Chem. 532 or equiv.
The chemical physics approach to the study of macromolecules as applied to important biological problems; for students in all biological disciplines. Cassim.

742 U G 5
Molecular Biophysics II
W. 4 cl.
Prereq.: 741.
Continuation of 741. Cassim.

743 U G 5
Nonequilibrium Thermodynamics
Sp. 5 cl.
Prereq.: 642 or Chem. 521 or 532; Math. 254.
A coordinated theory of the thermodynamics of irreversible processes is presented; applications of the theory are made to biological transport processes. Ross.

750 F
Molecular Basis of Motility
W. 5 cl.
Prereq.: Chem 123 or equiv., Physics 133 or equiv., Math. 153 or equiv., and one course in Biol., Biochem., or permission of instructor.
Biological contractile systems—structure and function with emphasis on the molecular level. Cassim.

760 U G 5
Mechanisms of Psychobiological Integration
W. 1 2-hr. cl., 6 lab. hrs.
Prereq.: Permission of instructor and 1 course in advanced vertebrate or mammalian physiology or physiological psychology. 822, Physiol. 601-602 or 825-826 recommended.
Survey of how psychologic factors modulate psychologic and behavioral parameters, and lead to adaptive and maladaptive responses to specific sensory stimuli and to the total environment. Corson.

771 U G 3
Physical Analysis of Organized Systems in Biology
Sp. 3 cl.
Prereq.: 500 or permission of instructor.

H783 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the courses taken in the student's major program, with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed; the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs. At least 8 cr. hours are required of candidates for the degree Bachelor of Science or Bachelor of Arts with distinction in Biophysics. Failure to receive a mark of S in this course is disqualification for special honors. A program of study arranged for each student, with individual conferences, reports and Honors thesis.
793  U  G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

797  U  P  G 1-5
Interdepartmental Seminars
(See under Interdepartmental Seminars.)
a. New Developments in Concepts and Techniques of
Neuroscience.

805  G 5
Sensory Biophysics I
W. 4 cl., 1 2-hr. lab.
Prereq.: 705 and Physiol. Opt. 820, or permission of
instructor.
Integration of psychophysical, electrophysiological, and
anatomical data in the study of sensory systems; the
visual system is used as a example. Ingling.

806  G 5
Sensory Biophysics II
Sp. 4 cl., 1 2-hr. lab.
Prereq.: 805.
Continuation of 805. Ingling.

810*  G 5
Principles of Nervous System Integration
A. 5 cl.
Prereq.: 715 and Math. 152.
The principles of organization of neurons into
networks supplying the information handling and
control functions needed for the integration and
survival of the animal. Lipetz.

811†  G 3
Neural Integration of Multiple Sensory Inputs
Sp. 1 3-hr. cl.
Prereq.: Mammalian Physiol.
Differential coding, gating, selective habituation and
dishabituation by integrative centers of the nervous
system which mediate auditory, tactile, visual, and
kinesthetic stimuli. Hill.

818  G 5
Functional Study of Sensory Abnormality
A. 4 cl., 1 2-hr. lab.
Prereq.: 805 or permission of instructor.
Study of sensory abnormalities by electrophysiological
and psychophysical methods to reveal anatomical and
neural correlates of sensory function; examples drawn
from the visual system. Blackwell and Biersdorf.

841*  G 5
Quantum Biology
Sp. 4 cl.
Prereq.: 742, or Chem. 943 or Chem. 973, or permission
of instructor.
Quantum mechanics of excited states of conjugated
systems of polypeptides and polynucleotides; dynamics
of molecular processes involving energy and
momentum storage and transfer. Cassim.

Bioelectric Potentials
(See Pharmacol. 845.)

809  G 2
Interdepartmental Seminar in Developmental Biology
A, W, Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Students will present oral reports and lead discussion
on research progress in specific areas of developmental
biology.

994  G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

999  G Arr.
Research in Biophysics
Research for thesis and dissertation purposes only.

Biostatistics
Office: 128 Cockins Hall, 1958 Neil Avenue
Professors Harvey, Keller, Rustagi, and Whitney;
Associate Professor Srivastava; Assistant Professor
Alaire.

601†  U  G 3
Stochastic Processes in the Biological Sciences
A. 3 cl.
Prereq.: Statist. 520 and at least 10 cr. hrs. in Biol.
Introduction to discrete stochastic processes, random
walk, Markov Chains, birth and death processes,
epidemic process, processes for competing among
species, diffusion processes, and applications.

605  U  G 3
Population Dynamics
W. 3 cl.
Prereq.: Statist. 521.
Study of birth, death, and growth process, use of rates
and ratios, force of mortality, competing risks, and
selected epidemiological problems.

841*  G 5
Biostatistics Laboratory
Su, Sp.
Prereq.: Grad. standing in Statist. or Biostat., or
permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Experience in statistical design and analysis of
biomedical studies through individual association
with active research workers in medicine.
**Black Studies**

Office: 232 Dieter Cunz Hall, 1841 Millikin Road

Associate Professor Nelson (Chairman); Professor Dathorne Associate Professors McCray, Stull, and Thornton; Assistant Professors Barber, Davis, Ekanem, Elango, Hansen, Nestblt, Njoroge, Van Horne, and Williams; Instructors Esipiku and Moreland; Visiting Instructor Colston; Lecturer James.

101 | U 5 | Introduction to Black Studies
Su, A, W. 3 cl., 2 1-hr. labs.

An introduction to the goals, purposes, and basic preparation necessary for other black studies courses.

130 | U 5 | Africa and The World
130.01 African History
A, W. 5 cl.

Not open to students with credit for Hist. 130.01.
(Cross-listed in the Dept. of Hist.)

A general introduction to the history of Africa from prehistoric to recent times.

201 | U 5 | Elementary Swahili
Su, A, W, Sp. 5 cl.

Pronunciation relationships between vowels and consonants, practice of conversation in relation to names of things, greetings, songs, etc.

202 | U 5 | Elementary Swahili
Su, A, W, Sp. 5 cl.

Prereq.: 201 or permission of instructor.
Continuation of elementary Swahili with an emphasis on grammar.

**Social Trends and Problems**
(See Sociology 202.)
(Offered in cooperation with the Black Studies Division.)

203 | U 5 | Intermediate Swahili
A, W, Sp. 5 cl.

Prereq.: 202 or permission of instructor.
Continuation of Swahili with emphasis on reading and writing; translation of simple sentences or words from Swahili to English, English to Swahili.

204 | U 5 | Intermediate Swahili
A, W, Sp. 5 cl.

Prereq.: 203 or permission of instructor.
Intermediate grammar, sentence analysis with reference to parts of speech.

220 | U 5 | An Introduction to African Education Planning and Administration: A Comparative Analysis
W, Sp. 5 cl.

Policy making and control in African education.
230 U 3
The Black Woman: Her Role in the Liberation Struggle
Sp. 3 cl.
The political role of the black woman in the struggle for black freedom; examination of changing laws and customs affecting the status of black women.

244 U 3
Survey of African and African-Derived Music in the Western World
Sp. 3 cl.
Not open to students with credit for Music 244. (Cross-listed in the School of Music.)
An introduction to traditional African music and its role in the history and development of Afro-American music with its concomitant socio-political milieu.

247 U 5
Africa in the 19th Century
W. 5 cl.
Not open to students with credit for History 247. (Cross-listed in the Dept. of Hist.) Emphasis on African societies during the century of the European scramble for colonies.

248 U 5
Leadership and Mass Movements in Contemporary Africa
Su, W. 5 cl.
Not open to students with credit for History 248. (Cross-listed in the Dept. of Hist.) A survey of modern African leaders, their philosophies and methods, and a study of the historical, geographical, economical, and political factors that gave rise to the drive for national independence after 1945.

251 U 5
Introduction to African Literature
A. 5 cl.
An assessment of the oral prose tradition and written prose of African literature; specific emphasis placed on student reading from primary sources.

American Minority Relations
(See Sociology 280.)
(Offered in cooperation with the Black Studies Division.)

Introduction to Afro-American Literature
(See English 281.)
(Offered in cooperation with the Black Studies Division.)

294 U 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Groups of students are given an opportunity to pursue special studies not otherwise offered.

325 U 5
Freedom Versus Equality: Blacks and the Political Order
W. 5 cl.
A systematic analysis of the impact of the simultaneous quest for equality and freedom by blacks and other minorities upon the social and political order.

326 U 5
Black Americans and the Legal System
Sp. 5 cl.
An examination of the role of the legal system in the social and political dynamics of blacks in American society.

327 U 5
Introduction to African Politics
A, W. 5 cl.
Examination of dynamics of nation-building in African countries in transition from colonial dependencies to modern nation-states.

338 U 5
African Territories as Nation-States: Selected Case Studies
W. 5 cl.
Case studies of selected African territories gaining independence in the aftermath of the second World War.

351 U 5
Caribbean Literature in English
Sp. 5 cl.
A consideration of prose, poetry, and drama written by Caribbean authors focusing on Caribbean literature in English within the framework of black literature.

352 U 5
The Afro-American Cultural and Intellectual Tradition
Sp. 5 cl.
Salient themes in the experience of the black man in America including slavery and bondage, emancipation, integration, and revolt.

401 U 5
Advanced Swahili Grammar
Sp. 5 cl.
Prereq.: 204 or permission of instructor.
Review of fundamental principles of grammar and syntax; exercises in Swahili.

402 U 3
Advanced Swahili, Grammar and Composition
W. 5 cl.
Prereq.: 401 or permission of instructor.
Introduction to advanced Swahili composition and grammar.

Ethnology of Africa
(See Anthropology 415.)
(Offered in cooperation with the Black Studies Division.)

450 U 5
The History of Malawi
A. 5 cl.
A detailed study of human events in Malawi from early times to the colonial period focussing on iron-age state systems.
The Black Experience in Caribbean, African, and Afro-American Literatures
W. 5 cl.
Prereq.: Junior or senior standing.
Exploration of themes, attitudes, and parallels in black literatures of Africa, the United States, and the Caribbean; particularly stressed will be negritude and Pan-Africanism.

Comparative Race Relations
(See Sociology 480.)
(Offered in cooperation with the Black Studies Division.)

Economics of the Ghetto
(See Economics 490.)
(Offered in cooperation with the Black Studies Division.)

Contemporary African Thinkers
W. 5 cl.
Prereq.: 101 or permission of instructor.
A study of the writings and achievements of contemporary African thinkers.

Black Politics
A. 5 cl.
Not open to students with credit for Pol. Sc. 208 or 504.
(Cross-listed in the Dept of Pol. Sc.)
Economic, political, and social constraints on the development of black political power; the efforts made by black people in recent times to organize for effective political action.

Social Relations in Folk Societies
(See Anthropology 505.)
(Offered in cooperation with the Black Studies Division.)

Kwame Nkrumah
Sp. 5 cl.
Prereq.: 101 or permission of instructor.
A study of the life, writings, and work of Kwame Nkrumah.

Divergence in Educational Development: The Case of Kenya, Uganda, and Tanzania
A. Sp. 5 cl.
A comparison of educational policies in three East African nations before and after independence.

European Colonial Politics in Africa
W. 5 cl.
An examination of the social, economic, and political impact of policies pursued by major European colonial powers toward Africa and African people.

Pan-Africanism and Nationalism
A. 5 cl.
Pan-Africanism and nationalism in the development of Africa.

African Political Systems: A Comparative Analysis
Sp. 5 cl.
A comparative examination of problems of nation-building and national integration faced by selected African nations in the postcolonial period.

Order and Disorder: Blacks in Quest of Social Justice
W. 5 cl.
Comparison of significant black and white thinkers on the concept of order in social and political life.

The History of Rhodesia
W. 5 cl.
Prereq.: Permission of instructor.
An examination of Zimbabwe (Rhodesia) focussing on Ndebele and Shona reactions to British incursions.

History of Southern Africa
Sp. 5 cl.
Not open to students with credit for History 537.
(Cross-listed in the Department of History.)
A study of the processes and patterns of social change from early times to the present.

West African History
W. 5 cl.
Not open to students with credit for History 538.
(Cross-listed in the Department of History.)
An examination of the processes of state formation, trade, and civilization in Africa's Sudanese and Guinean regions.

Early Afro-American Thinkers
Su. W. 5 cl.
Prereq.: 101 or permission of instructor.
A study of the writings and achievements of early Afro-American thinkers.

Human Migration in Southern Africa
W. 5 cl.
Prereq.: Permission of Instructor.
A survey of the complex patterns of human movements in southern Africa from prehistoric to modern times, with emphasis on environmental incentives and constraints.

Selected Topics in Afro-American and Related Literature
Sp. 5 cl.
Prereq.: 251 or 351.
Topics selected will relate to specific interests of enrolled students, who will develop an intensive analysis of the topic of their choice.
552 U G 5
Contemporary Afro-American Culture
W. 5 cl.
Afro-American culture in 20th century America.

590 U 5
Contemporary Afro-American Leaders
Su. A. 5 cl.
The evolution of black leadership after World War II, from non-violence to black nationalism.

581 U 5
Philosophy in Contemporary African Literature
Sp. 5 cl.
Discussion of African social and political thought as presented by selected African novelists.

594 U 3-5
Group Studies
Prereq.: 101 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
The investigation of particular problems in various areas of black studies.

636 U G 5
Seminar on Central African History
Sp. 5 cl.
Prereq.: Permission of Instructor.
Specific themes in central African history.

Racial and Ethnic Differentiation
(See Sociology 780.)
(Offered in cooperation with the Black Studies Division.)

105 U 5
Fundamental Concepts in General Botany
Su, A, W, Sp. 3 cl., 2 2-hr. labs.
Prereq.: Biol. 100.
Not open to students with credit for 102 or 500.
An introduction to the broad concepts in Botany.

202 U 5
Plant Development
W. 3 cl., 2 2-hr. labs.
Prereq.: 102.
Not open to students with credit for Biol. 202.
An introductory course in plant development at the organismic level, emphasizing physiology, morphology, and anatomy. Raghavan.

H206 U 3
Rationale of Experimental Botany
Sp. 2 1/2-hr. cl.
Prereq.: 10 cr. hrs. in Biol., Sciences and permission of instructor.
An analysis of the rationale and epistemological bases of several paradigm programs of botanical research. Platt.

210 U 5
Local Flora
Su, Sp. 4 2-hr cl.; several Sat. field trips.
Prereq.: 101 or 102 or 506 or permission of instructor.
Not open to students with credit for 430.
A laboratory, field and discussion course in identifying common Ohio plants, emphasis on taxonomic principles, use of keys and manuals, and field recognition of plants. Stucy and Stuessy.

260 U 5
Fungi and Man
A. 5 cl.
Prereq.: 102 or permission of instructor.
The interrelationships of fungi and man, as exemplified by those activities beneficial or detrimental to mankind. Schmitt.

294 U 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs. for different topics only.
Group study of topics in botany.

General Plant Pathology
(See Plant Pathology 401.)

430 U 3 or 5
Introductory Plant Physiology
Su, A, Sp. 3 cl., or 3 cl., 2 2-hr. labs.
Prereq.: 101 or 102 or 500; 10 cr. hrs. in Chem., or permission of instructor.
Laboratory optional.
Topics in plant physiology at introductory level; solutions, diffusion, osmosis, transpiration, absorption and translocation of water, metabolism, enzymes, respiration, carbohydrate and lipid metabolism. Cline, Evans, and Fratianne.

Botany

Office: 108 Botany and Zoology Building, 1735 Neil Avenue

Professors Schmitt (Chairman), Bendixen, Bohning, Ellert, Janson, Paddock, Partyka, Popham, Rudolph, Schopf, Swanson, and Taft; Associate Professors Bradtke, Garraway, Giesy, Gilbert, Johnson, and Stucy; Assistant Professors Bart, Cline, Evans, Fretruste, Hafler, Huettmer, Larson, Platt, Racine, Raghavan, Seymoure, Snyder, Stuessy, and Yoder; Instructor Sister.
431 U 3 or 5
Introductory Plant Physiology
W. 3 cl., or 3 cl., 2 2-hr. labs.
Prereq.: 101 or 102 or 500; 10 cr. hrs. in Chem., or
permission of instructor.
Laboratory optional.
Topics in plant physiology at introductory level;
pigments, photosynthesis, protein metabolism,
absorption and utilization of mineral salts, solute
translocation, hormones, plant growth and
development. Cline, Evans, and Fratianni.

440 U 5
The Plant Kingdom
A. 3 cl., 2 2-hr. labs.
Prereq.: 102 or 500 or permission of instructor.
Evolutionary sequences in living representatives of the
great plant groups; emphasis on forms especially
significant to man. Johnson.

500 U G 5
Basic Concepts in Botany
A. W.
Prereq.: 10 cr. hrs. Chem.
Not open to students with credit for 100 or 102.
A course in the basic concepts of botany for advanced
students with a fundamental knowledge of chemistry.
Tat t.

General Genetics
(See Genetics 500.)

601 U G 5
History of Biology
Sp. 5 cl.
Prereq.: 15 cr. hrs. in Biological Sciences at the 400
level or above, or permission of instructor.
Not open to students with credit for Biology 610.
Origin and development of important biological
approaches, concepts, and theories including those of
the contemporary period. Rudolph.

610 U G 4
Field Botany
Su (1st term).
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in
Biological Sciences or permission of instructor.
Given only at Franz Theodore Stone Laboratory.
Collection, preservation, field and laboratory
identification, and local distribution of plants of the
major groups.

611 U G 4 or 5
Higher Aquatic Plants
Su. A.
a. Su. (4 cr. hrs.) Given only at Franz Theodore Stone
Laboratory, 3 all-day cl.
b. A. (5 cr. hrs.) Given only on Columbus campus. 2
cl., 1 4-hr. lab., several Sat. field trips.
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in
Biological Sciences.
Aquatic plants, other than the algae of Great Lakes
region; field and laboratory work on their identification,
and ecological and geographical relations. Stuckey.

612* U G 5
Taxonomy of Vascular Plants
A. 3 cl., 2 2-hr. lab. Several Sat. field trips.
Prereq.: 210 or 610, and 10 additional cr. hrs. in
biological sciences or permission of instructor.
A laboratory, field, and discussion course concerning
the classification of vascular plants; emphasis on
taxonomic principles, systems of classification, family
characteristics and relationships. Stuckey and Stuey.

620 U G 5
Basic Principles of Plant Ecology
A, Sp. 3 cl., 1 3-hr. lab., several Sat. field trips, 1 3-day
field trip.
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in
Biological Sciences.
The establishment, development, succession, and
dynamics of plant communities and their interrelations
with historic, climatic, soil, and biotic factors. Gilbert
and Racine.

621 U G 4
Field Plant Ecology
Su (2nd term).
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in
Biological Sciences.
Given only at Franz Theodore Stone Laboratory.
Principles of plant ecology as exemplified by the study
of aquatic and terrestrial habitats; emphasis on field
work with supplementary lectures and laboratory work.

630 U G 3
Plant Physiology
A, Sp. 3 cl.
Prereq.: 101 or 102 or 500, plus Chem. 242 or 252 or
Biochem. 511, or permission of instructor.
An advanced course in plant physiology; solutions,
diffusion, osmotic quantities, transpiration,
absorption and translocation of water, protein
metabolism, enzymes, and respiration. Cline,
Evans, Fratianni, Platt, and Swanson.

631 U G 3
Plant Physiology
Su, W. 3 cl.
Prereq.: 101 or 102 or 500, plus Chem. 242 or 252 or
Biochem. 511, or permission of instructor.
An advanced course in plant physiology; pigments,
photosynthesis, carbohydrate and fat metabolism,
absorption of mineral salts, translocation of solutes,
regulation of plant growth and development. Cline,
Evans, Fratianni, Platt, and Swanson.

The Cytological Basis of Genetics
(See Genetics 631.)

632 U G 4
Physiology of Aquatic Plants
Su (2nd term).
Prereq.: 101 or 102 or 500 or equiv. and 20 cr. hrs. in
Chem.
Given only at Franz Theodore Stone Laboratory.
Lectures, discussions, laboratory and field work on
basic topics in the physiology of aquatic plants.

Plant Genetics
(See Genetics 632.)
633 U G 3
Plant Physiology Laboratory
A, Sp. 2 3-hr. labs.
Prereq. or concur.: 630 or permission of instructor.
An experimental approach to the topics listed under 630: Cline, Evans, Fratianne, Platt, and Swanson.

634 U G 3
Plant Physiology Laboratory
Su, W. 2 3-hr. labs.
Prereq. or concur.: 631 or permission of instructor.
An experimental approach to the topics listed under 631: Cline, Evans, Fratianne, Platt, and Swanson.

640 U G 5
Morphology of the Bryophytes and Pteridophytes
Sp. 4 2-hr. labs.
Prereq.: 210 or 440 or permission of instructor.
An advanced course in plant morphology, emphasis on variation in the reproductive process, vegetative structure, evolution, and economic importance of liverworts, mosses, and ferns. Glassy.

641 U G 5
Morphology of the Seed Plants
A. 4 2-hr. cl.
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in Biological Sciences.
Reproductive mechanisms and processes in angiosperms and gymnosperms. Ragavan.

642 U G 5
Plant Microtechnic
W. 4 2-hr. lec./labs.
Prereq.: 102 or 500 or Biol. 100, or permission of instructor.
Principles and methods of preparing permanent plant tissue microscopic preparations; student has opportunity to prepare a personal slide collection suitable for teaching or research. Johnson.

643 U G 5
Developmental Plant Anatomy
Su, W, Sp. 4 2-hr. cl.
Prereq.: 10 cr. hrs. in Biological Sciences or permission of instructor.
An observation-discussion course concerning three-dimensional, chronological, and causal dynamics of origin, differentiation, and development of tissues and organs of vascular plants. Popham.

644 U G 4 or 5
Algae
Sp. 4 2-hr. cl.
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in Biological Sciences or permission of instructor.
In Summer Qtr. given only at Franz Theodore Stone Laboratory.
A general course covering identification, growth, reproduction, evolution, distribution and economic importance of the algae. Tatt.

645 U G 5
Experimental Phycology
A. 4 2-hr. cl.
Prereq.: 644 or permission of instructor.
Isolation, purification, growth, and identification of algae in culture; experimental methods of studying structure, ecology, physiology, and life histories of selected species. Hostetter.

646 U G 5
Diatom Ecology and Systematics
W. 4 2-hr. cl.
Prereq.: Permission of instructor.
Ecology and systematics of freshwater diatoms including some special techniques, e.g., critical microscopy, photomicrography, and community analysis are covered; collection is required.

650 U G 5
Mycology
A. 3 cl., 2 2-hr. lab.
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in Biological Sciences.

662 Medical Mycology
The fungi pathogenic to man, their structure and distribution, and the importance of human mycotic diseases. Schmitt.

662.01 Lecture and Laboratory U G 5
W. 3 cl., 2 2-hr. lab.
Prereq.: Microbiol. 509 or 607 or Med. Microb. 625, and 10 cr. hrs. in Biological Sciences.

663 U G 4 or 5
Aquatic Mycology
Su, Sp.
a. Su. (4 cr. hrs.) Given only at Franz Theodore Stone Laboratory during odd numbered yrs. 3 all-day cl.
b. Sp. (5 cr. hrs.) Given only on Columbus campus during even numbered yrs. 3 cl., 2 2-hr. lab.
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in Biological Sciences.
A lecture, laboratory, and field course designed to acquaint the student with the fungi found in aquatic habitats including soil water. Seymour.

Cytologic Preparations in Electron Microscopy
(See Microbiology 670.)

833 U G 1-5
Individual Studies
Prereq.: 101 or 102 or 500, and 15 additional cr. hrs. in Biological Sciences.
No more than 5 cr. hrs. may be counted toward an undergraduate major in Botany.
Repeatable to a maximum of 15 cr. hrs. for undergraduates.
Problems may be selected in the fields of taxonomy, morphology, anatomy, phycology, physiology, ecology, genetics, cytology, mycology, or ichnology.

834 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Group study of special topics in botany.
709  U  G 1
Botanical Colloquium
Repeatable to a maximum of 15 cr. hrs.
A series of lectures, given by off-campus authorities, on currently important subjects.

740*  U  G 5
Plant Morphogenesis
Sp. 3 cr., 2 2-hr. labs.
Prereq.: 430 and 431 or 630 and 631; 643; or permission of instructor.
Factors of growth, organization, and differentiation in plants with emphasis on modern experimental approaches to the understanding of the integrated control of plant growth. Raghavan.

H783  U  3-5
Honors Course
Prereq.: 4th year standing, a grade of A in at least half of the Botany courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Failure to receive a mark of S in this course is a disqualification for graduation with distinction.
Repeatable to a maximum of 15 cr. hrs.
Problems may be selected in the fields of taxonomy, morphology, morphogenesis, anatomy, physiology, ecology, mycology, and ichnology.

810*  G 5
Experimental Taxonomy
A. 3 cr., 2 2-hr. lab., several Sat. field trips.
Prereq.: 210 or 610, and Genetics 500 or permission of instructor.
Biostatistical categories, population analysis of mass collections, individual variations, hybridization, and introgression are studied in relation to the methods and materials of experimental taxonomic research. Stueyssy.

819  G 2
Seminar in Plant Taxonomy
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Stueyssy and Stueyssy.

829  G 2
Seminar in Plant Ecology
Prereq.: 620 and permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Gilbert and Racine.

832*  G 3
Advanced Plant Physiology: Metabolism
A. 3 cr.
Prereq.: 631, Biochem. 521, or Chem. 532.
Advanced study of selected topics, mainly respiration, metabolic synthesis, absorption, and utilization of mineral salts, metabolism of growth substances, photosynthesis, and translocation. Platt.

833  G 3
Advanced Plant Physiology: Growth
W. 3 cr.
Prereq.: 630, 631, and 10 additional cr. hrs. in biol. sciences; or permission of instructor.
The physiology of growth and reproduction; special attention given to the interrelated effects of internal and external factors on these processes. Cline, Evans, and Fratianne.

834  G 3
Advanced Plant Physiology: Water and Solute Relations
Sp. 3 cr.
Prereq.: 630, 631, and 10 additional cr. hrs. in biol. sciences; or permission of instructor.
Osmotic relations, mechanisms of water and solute uptake and transport; salt metabolism, drought and salt tolerance. Swanson.

839  G 1
Seminar in Plant Physiology
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Cline, Evans, Fratianne, Platt, and Swanson.

848  G 1
Seminar in Plant Anatomy and Morphology
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Discussions of theoretical and most current concepts in anatomy and morphology. Johnson, Posham, and Raghavan.

8601*  G 3
Advanced Mycology
Sp. 3 2-hr. lab.
Prereq.: 660.
Advanced detailed study of specific groups of fungi, with emphasis on their morphology, cytology, and genetics. Rudolph, Schmitt, and Seymour.

861*  G 5
Physiology of Fungi
W. 3 cr., 2 2-hr. lab.
Prereq.: 630, 631, 660, or permission of instructor.
The physiology of the nutrition, growth, and reproduction of fungi. Garraway and Larsen.

869  G 2
Seminar in Cryptogamic Botany
A, W, Sp. 1 2-hr. cl. arr.
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Hostetler, Rudolph, Schmitt, Seymour, and Taft.

890  G 2
Interdepartmental Seminar in Developmental Biology
A, W, Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology.
891  G 2  
Interdepartmental Seminar in Environmental Biology  
Su, A, W, Sp.  1 hr. cl.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 24 cr. hrs.  
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities.

896  G 1-3  
Interdepartmental Seminar in Polar and Alpine Studies  
Sp.  
(See under Interdepartmental Seminars.)

897  G 1  
Interdepartmental Seminar in Natural Resources  
(See under Interdepartmental Seminars.)

898  G 1  
Interdepartmental Seminar in Nutrition and Food Technology  
Sp.  
(See under Interdepartmental Seminars.)

999  G Arr.  
Research in Botany  
Research for thesis and dissertation purposes only.

---

**Business Administration**

Offices of Academic Faculties: 1775 College Road  
Accounting: 452 Hagerty Hall; Chairman—Paul E. Fertig  
Finance (including Business Law, Insurance and Risk, and Real Estate): 308D Hagerty Hall; Chairman—David W. Cole.  
Management Sciences (including Adaptive Systems, Manpower and Industrial Relations, Organizational Behavior, Production and Operations Management, and Quantitative and Research Methods): 414 Hagerty Hall; Chairman—Robert C. Miljus.  

*Professors Bartels, Beckman (Emeritus), Behling, Bickelhaupt, Blythe, Burns, Cole, Craig (Emeritus), Cullinan, J. Davis, R. Davis (Emeritus), Donaldson (Emeritus). Fertig, Foster, A. Gordon (Emeritus), Greenall, Gibson, Heckert (Emeritus), Hicks, Hoagland (Emeritus), Howland, Jucius (Emeritus), Kane (Everett D. Reese Professor), Kinding, Kollarsch, Lalonde (J. R. Riley Professor), Livingstone, McCollough, McCoy, Miljus, Powell, Rapp, Stanley, Stern, Stodgill, Stone, and Sturdivant (Mishka Riklis Professor); Associate Professors Baumler, Blackwell, Bobbitt, Brush, Burnham, Close, Cordell (Emeritus), Dunfee, Grabner, Hardy, Harvey, Howell, Johnson, Kinard, Krajewski, McNaul, Mullins, Northrup, Racster, Ritzman, Robeson, Talarzyk, Vitt, and Yamey; Assistant Professors Bartos, Bolon (Emeritus), Campagna, Deutscher, Edwards, Georges, Gintner, Goodman, K. Gordon, Kerr, Krasniewski, Krousie, Li, Murphy, Pack, Ricks, Scott, and Sushaire.*

Groups of courses in Business Administration are:  
Accounting, see page 18.  
Adaptive Systems 802.01, 802.02, 802.03  
Business Law 510, 611, 612, 613, 810, 811  
Business Policy and Special Studies 493, 494, 496, 693, 694, 799, 809, 899, 998, 999  
Finance 220, 620, 720, 721, 722, 723, 724, 725, 726, 727, 728, 820, 821, 822, 823, 826, 920, 929  
Insurance and Risk 640, 741, 743, 749, 840, 841, 843  
International Business 757, 856, 857  
Management Processes 700, 701  
Manpower and Industrial Relations 660, 761, 762, 769, 860, 861, 862, 960, 961  
Marketing 650, 750, 751, 752, 753, 754, 755, 756, 758, 850, 852, 854, 950, 951, 955, 959  
Organizational Behavior 500, 703, 706, 803, 804, 805, 911, 912, 913, 914, 915, 917, 918, 919  
Production and Operations Management 630, 730, 731, 732, 734, 739, 830, 832, 834, 835, 930, 931  
Quantitative and Research Methods in Business 490, 601, 801.01, 801.02, 801.03, 807  
Real Estate 670, 771, 772, 773, 870, 871, 873  
Transportation and Logistics 780, 781, 880, 889

220  U 3  
Personal Finance  
A, W, Sp.  3 cl.  
Prereq.: 2nd yr. standing.  
Not open to students in College of Administrative Science majoring in either Acc. or Finance.  
Budgeting, credit, borrowing money, bank relationships, savings, insurance, real estate, stocks and bonds, income taxes, social security, annuities, wills, trusts, estates, and taxes. Donaldson and Staff.

460  U 3  
Industrial Statistics  
Su, A, W, Sp.  3 cl.  
Prereq.: Econ. 442 or equiv.  
The application of statistical methods to the design and analysis of experiments, with a view to planning, organizing, and controlling the output of industry. Gordon and Pack.

493  U 1-10  
Individual Studies  
Prereq.: Written permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.  
Individual study projects in selected areas in business administration.

494  U 1-10  
Group Studies  
Prereq.: Written permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.  
Group study projects in selected areas in business administration.

496  U 3  
Black Business Studies  
W.  1 2-hr. cl., 1 hr. arr.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 9 cr. hrs.
Methods of securing improved buying and employment opportunities for black people in small and large marketing institutions; guest speakers from the black community. Blackwell.

500  U G 3  Principles of Management
Su, A, W, Sp.  3 cl.
Prereq.: Econ. 200, 201, 400, 402, or equiv.
An intensive examination of the basic fundamentals of organization and management underlying the solution of management problems.

510  U 4  Legal Environment of Business
Su, A, W, Sp.  4 cl.
Prereq.: 3rd yr. standing.
American legal institutions and sources of law; analysis of basic contractual concepts; and an introduction to government regulation. Howell, Gibson, and Dunfee.

601  U G 2-5  Business Statistics
Su, A, W, Sp.  5 cl.
Prereq.: Econ. 442 or equiv. or Soc. Work 380 or equiv.
Price and production indexes; analysis of time series; linear correlation applied to economic and business problems. Bartos and Pack.

611  U G 3  Regulatory Environment of the Business Firm
W.  3 cl.
Prereq.: 3rd year standing.
Analysis of the legal basis of government regulation, and a survey of the principal federal regulatory and antitrust statutes with emphasis on current application.

612  U G 3  Legal Aspects of the Distributive Processes
W, Sp.  3 cl.
Prereq.: 510 or equiv.
Problems arising out of the distribution of consumer goods; obligations of sellers, including product liability; analysis of selected pricing, consumer protection, and commercial paper statutes. Howell and Squire.

613  U G 3  Legal Environment of Institutional Management
A, W, Sp.  3 cl.
Prereq.: 510 or equiv.
Examination of business associations, emphasizing the legal aspects of the management process and the societal influence and responsibilities of the corporation. Dunfee and Gibson.

620  U G 4  Corporate Finance
Su, A, W, Sp.  2-2 hr. cl.
H520 (honors) may be available to students enrolled in a college Honors Program or by permission of faculty.
Prereq.: Econ. 200, 201, 400, 402, or equiv.; and Acc. 201, 212, or equiv.
Forms of business organization; corporate securities, financing through securities; sources and management of working capital; administration of income; expansion and combination; reorganization, receivership, and dissolution. Cole, Foster, and Staff.

630  U G 4  Introduction to Production and Operations Management
Su, A, W, Sp.  4 cl.
H630 (honors) may be available to students enrolled in a college honors program or by permission of faculty.
Prereq.: 490 or equiv.
Topics and problems in managing and controlling systems including demand-capacity relationships, product factors, physical factors, process factors, and system maintenance. Hardy.

640  U G 4  Insurance and Risk
A, W, Sp.  2-2 hr. cl.
Prereq.: Econ. 200, 201, 400, 402, or equiv.
Principles and practices of insurance and risk management, including personal, business, and social viewpoints in regard to insurance for life, health, property, and liability risks. Bickelhaupt and Close.

650  U G 4  Marketing
Su, A, W, Sp.  4 cl.
H650 (Honors) may be available to students enrolled in a college Honors Program or by permission of faculty.
Prereq.: Econ. 200, 201, 400, 402, or equiv.
Critical survey of field of marketing: structure, functions, policies, costs, and problems analyzed from consumer and other viewpoints; emphasis on principles, trends, and quantitative expression. Davidson and Staff.

660  U G 3  Introduction to Manpower and Industrial Relations
Su, A, W, Sp.  3 cl.
H660 (Honors) may be available to students enrolled in a college Honors Program or by permission of faculty.
Prereq.: Econ. 400, 402, or equiv.
Principles and practices of recruiting, selecting, developing, collective bargaining, compensating, and utilizing effective manpower resources. Campagna.

670  U G 4  Real Estate and Urban Land Economics
A, W, Sp.  2-2 hr. cl.
Prereq.: Econ. 200, 201, 400, 402, or equiv.
Introduction to investment decision making in land resource utilization; consideration of factors such as real estate markets, public influence, legal principles, financing, and administration. Racster and Smith.

693  U G 2-5  Individual Studies
Prereq.: Written permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Individual study projects in related areas in business administration.

694  U G 2-5  Group Studies
Prereq.: Written permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group study projects in selected areas in business administration.

700 U G 5
Management Processes: Planning and Controlling
Su, A, W, Sp. 5 cl.
Prereq.: 490, 620, 630, 650 or equiv.
Business goals and policies; phases of decision making; analysis of alternatives; establishing, evaluating, and controlling plans of action. Krajewski and Goodman.

701 U G 5
Management Processes: Organizing
Su, A, W, Sp. 5 cl.
Prereq.: 490, 620, 630, 650 or equiv.
Establishing, maintaining, and controlling resources to accomplish business objectives; authority and responsibility relationships; formal and informal organizational arrangements; structure of business systems and procedures. Hicks and Murphy.

703 U G 3
Measurement and Change of Organizational Climate
W. 3 cl.
Prereq.: 700 and 701.
Examination of organization climate as a variable; methods of measurement, and managerial approaches to altering it. Kerr.

708 U G 3
Introduction to Administrative Behavior
Su, A, W, Sp. 2 1/2-hr. cl.
Prereq.: Permission of instructor.
Open only to students preparing for grad. work in administration.
Introduction to behavioral concepts of concern to management. Kerr and Murphy.

720 U G 3
Corporation Finance
A, W, Sp. 2 1/2-hr. cl.
Prereq.: Acc. 711 or equiv.; and Econ. 200, 201, 400, 402, or equiv.
Open only to students preparing for grad. work in business.
A critical study of the field of corporation finance from an economic point of view. Mullins, Ricks, and Staff.

721 U G 3
Managerial Finance
A, W, Sp. 3 cl.
Prereq.: 620 or equiv.
Financial management of business units with emphasis on finance organization structure, collecting and using financial data, judging profitability, liquidity, sources of capital, internal financial operations. Foster, Mullins, and Staff.

722 U G 3
Investment Management
Su, A, W, Sp. 3 cl.
Prereq.: 620 or equiv.
Investment objectives; types of investments and their relative merits; security prices and yields; investment programs; and taxes. Stone, Harvey, and Staff.

723 U G 3
Investment Analysis
W, Sp. 3 cl.
Prereq.: 722 or equiv.
Methods of investment analysis; analysis of investment data; principles and standards for selection of specific investments; portfolio management. Harvey and Stone.

724 U G 3
The Stock Market
A, Sp. 3 cl.
Prereq.: 620 or equiv.
Practices, procedures, and regulations relating to listing and to buying and selling securities in the organized security markets. Donaldson.

725 U G 3
International Finance
A. 2 1/2-hr. cl.
Prereq.: 620 or equiv.
The international financial environment; management of financial risks inherent with international business; problems of implementing corporate finance principles overseas; financial aspects of parent-subsidiary relationships. Hicks.

726 U G 3
Financial Institutions
A, W, Sp. 3 cl.
Prereq.: 620 and Econ. 520 or equiv.
Structure, operations, regulation, and economic significance of financial institutions with emphasis on savings, trust, mortgage lending, consumer lending, regulatory, and investment banking institutions. Rapp, Cole, and Staff.

727 U G 3
Management of Financial Institutions
Sp. 2 1/2-hr. cl.
Prereq.: 726 or equiv.
Examination of the objectives, functions, policies, organization, practices, and procedures of financial institutions from the viewpoint of the institutional management. Cole and Rapp.

729 U G 3
Cases in Managerial Finance
A, W, Sp. 2 1/2-hr. cl.
Prereq.: 721 or equiv.
Analysis of qualitative and quantitative financial factors involved in managerial decisions in actual business cases. Rapp, Cole, and Staff.

730 U G 3
Fundamentals of Production and Operations Management
A, Sp. 2 1/2-hr. cl.
Prereq.: 490 or equiv. or permission of instructor.
Open only to students preparing for grad. work in business.
Topics and problems in managing the production and operational systems in various types of organizations; consideration of managerial and economic implications. Krajewski and Hardy.
731  U G 4  
Production and Operations Management I  
Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: 730, or permission of instructor.  
Analysis of capacity related problems, including forecasting, capital investments, product selection and design, maintenance, plant location, materials handling, and facilities design. Hardy and Ritzman.

732  U G 4  
Production and Operations Management II  
Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: 731 or permission of instructor.  
Analysis of operating and control problems, including aggregate planning, scheduling, inventory control, quality assurance, work measurement, and cost analysis. Vitt and Ritzman.

734  U G 3  
Analysis and Design of Operating Systems  
W.  3 cl.  
Prereq.: A course in computer programming or permission of instructor.  
Analysis and design of modern production planning and control systems, including model building and computer simulation. Vitt and Goodman.

739  U G 3  
Problems in Production and Operations Management  
A, Sp.  2 2½-hr. cl.  
Prereq.: 731, 732, or permission of instructor.  
Case study approach to problem-solving and decision-making for production and operations management. Vitt.

741  U G 4  
Personal Insurance Planning  
A.  2 2-hr. cl.  
Prereq.: 640 or equiv.  
Analysis of personal consumer needs for life, health, property, and liability insurance; development of contracts, legal aspects, rates, and the technique of estate programming. Bickelhaupt and Clore.

743  U G 4  
Insurance Operations and Regulations  
W.  2 2-hr. cl.  
Prereq.: 640 or equiv.  
Examination of the major functions of insurers of all types; product development, underwriting, rating, reinsurance, marketing systems, loss payment, financial analysis, management, and regulation. Bickelhaupt.

745  P 4  
Social Insurance  
A.  2 2-hr. cl.  
Study of social insurance systems including Social Security, Unemployment Compensation, Workmen's Compensation, proposed National Health Insurance and their effects on the American economy and society. Bickelhaupt and Clore.

749  U G 4  
Business Risk Management  
Sp.  2 2-hr. cl.  
Prereq.: 640 or equiv.  
Development of insurance and risk management programs for business consumers; risk identification, evaluation and treatment; all lines, including group insurance, business life insurance and pensions. Bickelhaupt.

750  U G 3  
Marketing  
Su.  A, W.  3 cl.  
Prereq.: Permission of instructor.  
Open only to students preparing for graduate work in business.  
A critical study of the field of marketing institutions and functions primarily from a social point of view. Doody, Grabner, and Lalonde.

751  U G 4  
Managerial Marketing  
Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: 700 and 701 or equiv.  
Marketing policies and strategy; organization, demand analysis, product planning, pricing, physical distribution, and promotion from a managerial viewpoint. Davis, Stern, and Talarzyk.

752  U G 4  
Cases in Managerial Marketing  
Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: 751.  
Analysis of marketing policies and strategy, with emphasis on actual business cases. Grabner, Robeson, and Stern.

753  U G 4  
Retailing  
A, W, Sp.  4 cl.  
Prereq.: 650 or equiv.  
Principles and methods of management as applied to retailing, including location, organization, personnel, buying, inventory control, selling and advertising, services, expenses, and profits. Robeson and Staff.

754  U G 4  
Wholesaling  
A, Sp.  4 cl.  
Prereq.: 650 or equiv.  
Nature, history, institutional compositions, competitive factors, economic and government aspects, scientific management of wholesale establishments, including functions of sales, internal operations, and operating expense control. Davis.

755  U G 4  
Promotional Strategy  
A, W, Sp.  2 2-hr. cl.  
Prereq.: 650 or equiv.  
Consumer behavior, fundamentals of communication, setting goals and objectives, creative strategy, media strategy, social and economic issues. Talarzyk and Staff.
756 Credit Administration
A, W. 2 2-hr. cl.
Prereq.: 650 or equiv.
Nature of credit; social and economic aspects of its use; management strategies in mercantile and consumer credit administration; competitive and legal constraints. Bartels.

757 Environment for International Business
A, Sp. 4 cl.
Prereq.: 650 or equiv.
International, foreign, and United States environments for global business; trade systems of different nations; management implications of cultural, social, and economic aspects of the environment. Bartels, Cullman, and Ricks.

758 Marketing Research
A, Sp. 4 cl.
Prereq.: 650 and Econ. 442 or equiv.
The role of research in the solution of marketing problems; emphasis on available data analysis and methods of the field of investigation. Blackwell, Talarzyk, and Staff.

759 Industrial Relations Administration
A, W. 3 cl.
Prereq.: 650 or 701, or permission of instructor.
Examination of the process of accommodation and rule-making among management, employees, and government relative to their respective goals and strategies, and pertinent legislation and environmental constraints. Miligos and Yaney.

760 Compensation Administration
W, Sp. 3 cl.
Prereq.: 650 or 701, or permission of instructor.
Managerial aspects of motivation and compensation principles and practices for administrative, operative, research, and professional employees in private and public organizations. Yaney and Campagna.

761 Problems in Manpower and Industrial Relations
A, Sp. 2 1½-hr. cl.
Prereq.: 760, 762, or permission of instructor.
Problems and case histories are utilized to develop proficiency in applying principles and developing decision-making powers in regard to manpower and human relations areas. Yaney and Campagna.

771 Real Estate Administration
Sp. 2 1½-hr. cl.
Prereq.: 670 or equiv.
Administration of real estate business in the performance of economic functions; the managerial aspects of brokerage, development, construction, property management, and financial firms. Racster.

772 Real Estate Finance
A. 2 1½-hr. cl.
Prereq.: BUI or equiv.
Sources and methods of obtaining funds for real estate investment; financial institutions, legal considerations, the construction industry and cycles, and financing policies, practices and experiences. Racster.

773 Real Estate Valuation
W. 2 1½-hr. cl.
Prereq.: 670 or equiv.
Professional valuation as a guide to business decisions; valuation theory and procedures; factors influencing real estate values, and the selection and analysis of data. Racster.

780 Micro-Logistics
A. 4 cl.
Prereq.: 700.
Management of logistics activities of the firm from the viewpoint of both the provider and user of logistics system components. Grabner and Robeson.

781 Analysis and Design of Logistics Systems
Sp. 2 2-hr. cl.
Prereq.: 780 and Econ. 576.
Analysis of internal and environmental factors affecting logistics systems and the effect of such factors on the development and implementation of integrated logistics systems. Robeson and Grabner.

789 Business Policy
Su, A, W, Sp. 4 cl.
Prereq.: Approved application for B. S. in Business Administration.
Analysis of major policy decisions in the context of the entire philosophical framework of business; emphasis on consideration of interrelationships of major functions of business. Foster and Staff.

801 Quantitative Methods in Business
Su, A, W, Sp. 2 1½-hr. cl.
Prereq.: Math 123 or equiv. and Econ. 442 or equiv.
Derivation and application of analytical, mathematical, and statistical techniques to the solution of recurring management problems.

801.01 Deterministic
Harvey, Ritzman, and Pack

801.02 Stochastic
Bartos and Gordon.

801.03 Advanced Quantitative Methods
Sp.
Bartos.
802 G 3  
Systems Research Organization and Methodology  
A, W, Sp.  1 hr. cl.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 12 cr. hrs.; subdivision not repeatable.  
Selection, definition, organization, development, and presentation of a system research project. Howard.  
802.01 Introduction to Management Systems Research  
A.  
802.02 Approaches to Systems Management  
W.  
802.03 Cybemetic Modeling of Adaptive Management Systems  
Sp.  

803 G 3  
Formal Organization Theory  
Su, A, W, Sp.  2 1/2-hr. cl.  
Prereq.: 708 or placement examination.  
An introduction to the various sociological and psychological theories which underlie the concept of the formal organization. McNall, Kerr, and Staff.  

804 G 3  
Advanced Topics in Organization Theory  
W.  2 1/2-hr. cl.  
Prereq.: 803 or permission of instructor.  
A continuation of 803 designed for students interested in treating organization concepts in more depth as they pertain to modern business groups. Bobbitt.  

805 G 3  
Introduction to Administrative Systems  
Sp.  2 1/2-hr. cl.  
Prereq.: 803 or permission of instructor.  
The organization of an administrative system; types of systems and the problems involved. Behling, Hicks, and Staff.  

807 G 3  
Principles and Techniques of Research  
A, Sp.  
Prereq.: 801.02  
Not open to students with credit for 800.  
Principles of research methods in business and the use of research by management; scientific method in business, sampling theory, variable analysis, research cases. Blackwell and Talarzyk.  

809 G 5  
Business Policy  
Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: Final qtr. of M.B.A. studies or permission of graduate committee.  
Examination of fundamental factors in organization and management; analysis of major policy decisions; effects of policy decisions on sales, production, personnel, and finances. Gullman and Staff.  

810 G 3  
Government Regulation and Business Decisions  
Sp.  2 1/2-hr. cl.  
Prereq.: 510 or equiv.  
Analysis of methods utilized by government to regulate business and maintain competition, emphasizing the impact of administrative and judicial interpretation upon managerial decisions. Howell, Gibson, and Dunfee.  

811 G 3  
The Legal Environment of the Business Firm  
A.  2 1/2-hr. cl.  
Systems view of interaction of business firm and the legal structure; regulation of form and functional processes; integration of legal advice into the management process. Gibson and Dunfee.  

820 G 3  
Advanced Finance  
Su, W, Sp.  2 1/2-hr. cl.  
Prereq.: 720, Acc. 711 or permission of instructor.  
A critical study of internal financial management of business enterprises, based primarily on comprehensive case analyses. Foster, Mullins, and Staff.  

821 G 3  
Seminar in Corporate Financial Analysis  
W.  2 1/2-hr. cl.  
Prereq.: 820 or permission of instructor.  
Critical study of the growing number of analytical techniques and research findings that lie between present practices and the frontiers of financial research. Mullins and Foster.  

822 G 3  
The Security Market  
Su.  2 1/2-hr. cl.  
Prereq.: Permission of instructor.  
A critical study of the markets for listed and unlisted securities and the factors influencing security prices. Stone.  

823 G 3  
Quantitative Methods in Investment Management  
A.  2 1/2-hr. cl.  
Prereq.: 722 or 822 and 801.02 or equiv. or permission of instructor.  
Recent developments in quantitative methods applied to investment analysis and portfolio management including the Markowitz portfolio model, random walk hypothesis, utility in risk analysis and valuation models. Harvey.  

826 G 3  
Seminar in Financial Institutions  
Sp.  2 1/2-hr. cl.  
Prereq.: 726 and 801 or permission of instructor.  
Review, analysis, and evaluation of pertinent literature and research findings related to financial institutions. Cole and Rapp.  

830 G 3  
Advanced Operations Management  
Su, W, Sp.  
Prereq.: 730 or equiv., and 801.01.  
A critical survey and examination of the current trends and advanced problems in production and operations management, including analysis and policy formulation. Ritzman and Vitt.  

Design of Operating Systems
Sp.
Prereq.: 830 or permission of instructor.
A study of problems in the development of production and operation management, systems design, and operational control processes. Vitt.

Advanced Topics In Capacity Planning
Sp. 2 1½-hr. cl.
Prereq.: 830.
A study of current research and mathematical models for selected capacity topics which may include capital input selection, capacity maintenance, facility design, or location assignments. Ritzman.

Advanced Topics In Operations Analysis
A. 2 1½-hr. cl.
Prereq.: 830.
Extensive applications of management science techniques for selected topics which may include aggregate planning, production sequencing, inventory theory, or cost analysis. Krajewski and Hardy.

Seminar in Life and Health Insurance
A. 1 2-hr. cl.
Prereq.: Permission of instructor.
Critical consideration of current topics of significance in the field of life and health insurance through class discussions and individual research reports. Bickelhaupt and Close.

Seminar in Property and Liability Insurance
W. 1 2-hr. cl.
Prereq.: Permission of instructor.
Investigation through class discussion and reports of the current literature on significant topics in property and liability insurance. Bickelhaupt and Close.

Risk Analysis and Administration
Sp. 2 1½-hr. cl.
Prereq.: Permission of instructor.
A comprehensive view of general nonspeculative risk problems as well as specific problems in the students' areas of concentration with emphasis on insurance as a tool. Bickelhaupt and Close.

Advanced Marketing
Su, A. W.
Prereq.: 750.
A critical study of management of marketing activities in business enterprises, based primarily on comprehensive case analyses. Davis and Stern.

Seminar in Specialized Areas of Marketing
Prereq.: 650 or equiv.
Repeatable.

Regular class meetings and group discussions of the subject matter embodied by one of the following areas in the field of marketing:
Include decimal with number on schedule card.

852.01 Advertising
852.02 Credits and Collections
852.03 Marketing Research
852.04 Retailing
852.05 Sales Management
852.06 Channels of Distribution
852.07 Marketing Theory
852.08 Logistics
852.09 Consumer Research

Consumer Behavior
A, W. 2 1½-hr. cl.
Prereq.: 850 or permission of instructor.

Multinational Business Administration
Su, A, W. Sp. 2 1½-hr. cl.
Prereq.: 757.
Bases of management strategies in multinational companies, including legal forms, organizations, personnel, financing, pricing, antitrust, and risk. Bartels and Ricks.

Problems in International Business Administration
W. 2 1½-hr. cl.
Prereq.: 856.
Management decision-making in business enterprises operating in and between many nations. Bartels and Ricks.

Administration of Interpersonal Behavior
Prereq.: 708 or placement examination.
Analysis of interpersonal relations, manpower programs and policies, communication practices, and morale factors relative to the effect upon productivity, organizational effectiveness, and personal systems. Miljus, Behling, and Staff.

Seminar in Industrial Relations Administration
Su, W. 1 2-hr. cl.
Prereq.: 860 or equiv., or permission of instructor.
Interaction and accommodation processes between institutionalized collective groups of employees and managers of goal oriented organizations located in both the private and public sectors of society. Campagna and Miljus.

Problems in Manpower Administration
W. 2 1½-hr. cl.
Prereq.: 860 or equiv., or permission of instructor.
Theory and problems involved in selecting, developing, retaining, motivating, utilizing, and allocating manpower resources within complex organizations. Yaney and Campagna.
870 G 3
Seminar in Real Estate
W. 1 3-hr. cl.
Prereq.: 670 plus one of the following: 771, 772, 773, or equiv.
Issues and problems in the economics and administration of real estate resources critically examined through an intensive investigation of the literature. Racster.

871 G 3
The Urban Environment
Su. 1 3-hr. cl.
Prereq.: Permission of instructor.
Urban problems and the business man's role in solving them through study of the history of urbanization, functions of urban areas, and community involvement by private and public agencies. Hunker and Racster.

873 G 3
Urban Real Estate Analysis
A. 1 3-hr. cl.
Prereq.: Permission of instructor.
The process of analysis and the tools employed in making decisions about the planning, financing, marketing, rehabilitation, and production of real estate resources. Smith and Racster.

880 G 3
Physical Distribution Management
A.
Prereq.: 630, 650, Econ. 442 or equiv.
Management of movement services and coordination of demand and supply patterns for optimization of physical systems in terms of cost and customer service. Grabner and Lalonde.

889 G 3
Theory of Business Logistics
Sp.
Prereq.: Permission of instructor.
Critical examination of various theories of the structure and operation of logistics systems; research methodology for testing logistics theory and the application of logistics theory to contemporary logistics problems. Lalonde.

899 G 1-5
Interdepartmental Seminar
(See under Interdepartmental Seminars.)

911 G 3
Concepts In Organization and Management
A, W, Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Research and theoretical advances in various aspects of social organization and behavior as they relate to the management of the complex organization. McNaul and Behling.

912 G 3
Analysis of Organization Theory
Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Not open to students with credit for 903.
Analysis and comparison of recent theories of organization; their integration with older theories. Stogdill.

913 G 3
Advanced Topics In the Management of Individual Behavior in Formal Organizations
A. 1 2-hr. cl.
Prereq.: Permission of instructor.
Treats constructs and results drawn from disciplines including psychology, anthropology, information science, and behavioral ecology as applied to motivation and decision-making in formal organizations. Behling.

914 G 3
Work Groups In the Organizational Setting
W. 1 2-hr. cl.
Prereq.: Permission of instructor.
Theory and research on formal and informal structures in work groups and their influence on productivity and management. Stogdill and Kerr.

915 G 3
Management of Formal Organizations
Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Theory and research on the structural characteristics of formal organizations with particular emphasis on the management of the organization as a dynamic system. McNaul.

917 G 3
Seminar In Integrative Management Theory
A. 1 2-hr. cl.
Prereq.: Permission of instructor.
The administrative process and the factors and forces within an organization which impinge upon it and affect decision-making. Bobbitt.

918 G 3
Seminar in Integrative Management Research
W. 1 2-hr. cl.
Prereq.: Permission of instructor.
A continuation of the general subject matter of 917, focusing upon the manner in which socio-cultural milieu influences organization action. Powell.

919 G 3
History of Management Thought
Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Seminar in the historical evolution of fundamental concepts underlying the theory and practice of modern management; discussion of pioneers in the management fields. Bobbitt.

920 G 3
Seminar in Finance
W. 1 2-hr. cl.
Prereq.: 820 or equiv.
A critical study of current practices, trends, and problems in the field of finance. Foster.

929 G 3
Industrial Consolidations and Mergers
Sp. 1 2-hr. cl.
Prereq.: 620 or equiv.
Historical and analytical study of industrial consolidation and mergers. Stone.
930  G 3
Seminar in Production and Operations Management
A  1 2-hr. cl.
Prereq.: Permission of instructor.
A critical analysis of research and emerging theories in the field with emphasis on their social, economic, and physical implications. Ritzman and Vitt.

931  G 3
Seminar in Production and Operations Management
W  1 2-hr. cl.
Prereq.: Permission of instructor.
A continuation of 930 including research methodology and the development of a research proposal. Krajewski and Ritzman.

950  G 3
Seminar in General Marketing
A
Prereq.: 650 or equiv.
A critical study of fundamental principles of marketing; special emphasis on the historical, macro, social, and theoretical aspects of the subject. Cullman and Stern.

951  G 3
Seminar in General Marketing
W
Prereq.: 950 or equiv.
Continuation of 950. Cullman and Davis.

955  G 3
Seminar in Contemporary Marketing Problems
Sp.
Prereq.: 650 or equiv.
Repeatable to a maximum of 6 cr. hrs.
Review of current periodical literature and individual investigation by each student of a selected marketing problem of contemporary significance for seminar discussion and written report. Davis and Stern.

959  G 3
History of Marketing Thought
A
Prereq.: 650 or equiv. and permission of instructor.
Evolution of marketing, concepts, terminology, principles, and theory; environmental and personal influences; analysis of marketing literature; marketing thought related to other social sciences. Bartels.

960  G 3
Seminar In Manpower and Industrial Relations Thought
A  1 2-hr. cl.
Prereq.: Permission of instructor.
A consideration of manpower and industrial relations thought in terms of its historical and theoretical evolution in private and public sectors. Miljus and Yaney.

961  G 3
Seminar In Manpower and Industrial Relations Research
W  1 2-hr. cl.
Prereq.: Permission of instructor.
A consideration of relevant manpower research and methodology, and individual development of research projects in private public sectors. Miljus and Campagna.

998  G Arr.
Research in Business Administration: Thesis
Research for thesis purposes only.

999  G Arr.
Research in Business Administration: Dissertation
Research for dissertation purposes only.

Ceramic Engineering

Office: 177 Watts Hall, 2041 College Road

Professors Blau (Emeritus), Everhart, R. King (Emeritus), Koenig, Metzger, and Russell;
Associate Professors Campbell, B. King (Emeritus), and Shook (Chairman); Adjunct Associate Professor Alexander.

201  U 3
Introduction to Ceramic Engineering
A, W, Sp.  3 cl.
Introductory course for ceramic engineering students and a survey of ceramic products, their testing, and their uses for students in disciplines other than ceramic engineering.

423  U 3
Fundamentals of Ceramic Engineering I: Materials
W  3 cl.
Ceramic raw materials, including their geology, processing, physical and thermal behaviors, and industrial applications; introduction to mineral concepts, and to the glassy and crystalline states. Russell.

424  U 3
Fundamentals of Ceramic Engineering II: Processing
Sp.  2 cl., 1 3-hr. lab.
Prereq.: 201.
Preparation of ceramic materials and measurement and control of the principal process parameters, with emphasis on the relationship between structure, properties, and production economics. Shook.

425  U 3
Heat Processes I
A  3 cl.
Prereq.: 424.
Fuel sources and economy in ceramic drying, firing, or melting; heat release and utilization, temperature measurements and control. Shook.
Seminar in Production
and Operations Management
A. 1 2-hr. cl.
Prereq.: Permission of instructor.
A critical analysis of research and emerging theories in the field with emphasis on their social, economic, and physical implications. Ritzman and Vitt.

Seminar in Production
and Operations Management
W. 1 2-hr. cl.
Prereq.: Permission of instructor.
A continuation of 930 including research methodology and the development of a research proposal. Krajewski and Ritzman.

Seminar in General Marketing
A. Prereq.: 650 or equiv.
A critical study of fundamental principles of marketing; special emphasis on the historical, macro, social, and theoretical aspects of the subject. Cullman and Stern.

Seminar in General Marketing
W. Prereq.: 950 or equiv.
Continuation of 950. Cullman and Davis.

Seminar in Contemporary Marketing Problems
Sp. Prereq.: 650 or equiv.
Review of current periodical literature and individual investigation by each student of a selected marketing problem of contemporary significance for seminar discussion and written report. Davis and Stern.

History of Marketing Thought
A. Prereq.: 650 or equiv. and permission of instructor.
Evolution of marketing, concepts, terminology, principles, and theory; environmental and personal influences; analysis of marketing literature; marketing thought related to other social sciences. Barteis.

Seminar in Manpower
and Industrial Relations Thought
A. 1 2-hr. cl.
Prereq.: Permission of instructor.
A consideration of manpower and industrial relations thought in terms of its historical and theoretical evolution in private and public sectors. Miljus and Yaney.

Seminar in Manpower
and Industrial Relations Research
W. 1 2-hr. cl.
Prereq.: Permission of instructor.
A consideration of relevant manpower research and methodology, and individual development of research projects in private public sectors. Miljus and Campagna.

Research in Business Administration: Thesis
Research for thesis purposes only.

Research in Business Administration: Dissertation
Research for dissertation purposes only.

Ceramic Engineering
Office: 177 Watts Hall, 2011 College Road
Professors Blau (Emeritus), Everhart, R. King (Emeritus), Koenig, Metzger, and Russell; Associate Professors Campbell, B. King (Emeritus), and Shook (Chairman); Adjunct Associate Professor Alexander.

Introduction to Ceramic Engineering
A, W, Sp. 3 cl.
Introductory course for ceramic engineering students and a survey of ceramic products, their testing, and their uses for students in disciplines other than ceramic engineering.

Fundamentals of Ceramic Engineering I: Materials
W. 3 cl.
Ceramic raw materials, including their geology, processing, physical and thermal behaviors, and industrial applications; introduction to mineral concepts, and to the glassy and crystalline states. Russell.

Fundamentals of Ceramic Engineering II: Processing
Sp. 2 cl., 1-3-hr. lab. Prereq.: 401.
Preparation of ceramic materials and measurement and control of the principal process parameters, with emphasis on the relationship between structure, properties, and production economics. Shook.

Heat Processes 1
A. 3 cl.
Prereq.: 424.
Fuel sources and economy in ceramic drying, firing, or melting; heat release and utilization, temperature measurements and control. Shook.
426  U 4
Heat Processes II
Sp.  3 cl., 1 3-hr. lab.
Prereq.: 425; concur. 552.
Pyrometry in drying operations and dryer calculations; reactions of ceramic products during drying and firing; melting and crystallization control. Shook.

489  U 2
Inspection Trip
Su, A, W, Sp.  6 approved plant visits.
Visits to a variety of modern ceramic operations as arranged by the department throughout the academic year.

510  U G 3
Thermodynamics of Ceramic Materials
A.  3 cl.
Prereq.: Chem. 521 or 533.
Applications of thermodynamics to ceramic systems, including non-stoichiometry and interfacial relationships. Alexander.

511  U G 3
Ceramic Rate Processes
W.  3 cl.
Prereq.: 510 or equiv., and Chem. 521.
Introduction to chemical kinetics and rate processes of ceramic materials with emphasis on interrelation of heat transfer and reaction rate. Campbell.

512  U G 4
Ceramic Materials Science I
W.  4 cl.
Prereq.: Chem. 521 or 533.
Not open to students with credit for 611.
Structure of crystals, crystal chemistry and physics, chemical bonds and atomic coordination in inorganic, non-metallic materials; silicate and defect structures emphasized.

513  U G 4
Ceramic Materials Science II
A.  4 cl.
Prereq.: 512.
Not open to students with credit for 612 or 613.
Structural imperfections and atomic mobility at high temperatures; development of ceramic microstructure; mechanical, optical, and electrical properties with heat treatment. Shook.

529  U 4
Ceramic Process and Product Control
W.  4 cl.
Prereq.: 4th yr. standing or permission of instructor.
The application of control methods for processes and products. Everhart.

531  U G 4
Glass Science and Technology
Sp.  3 cl., 1 3-hr. lab.
Prereq.: 512.
Not open to students with credit in 631.
Structure and properties of glasses considered as undercooled liquids with emphasis on commercially important compositions. Hicks.

551  U G 4
Ceramic Characterization I
W.  4 cl.
Prereq.: 510.
Application of analytical techniques and concepts including the analysis of structures, phases, and particulate matter by microscopic, diffractive, spectroscopic, chemical, and other approaches. Alexander.

552  U G 3
Ceramic Characterization II
Sp.  3 cl.
Concur.: 426.
Analytical measurements of ceramic material thermal responses, including adiabatic and dynamic calorimetry, thermogravimetric analysis, effluent gas measurements and conventional DTA. Campbell.

589  U 5
Industrial Experience
Repeatable to a maximum of 10 cr. hrs.
Ten weeks practical experience or its equivalent, including written report, in approved factory manufacturing ceramic wares.

612  U G 4
Advanced Ceramic Materials Science I
A.  4 cl.
Prereq. or concur.: 510 or equiv.
Materials science in the areas of crystal and surface chemistry, colloids, rheology of plastic and solid states, and thermal and optical properties.

613  U G 4
Advanced Ceramic Materials Science II
W.  4 cl.
Prereq.: 510 or equiv.
Materials science in areas of defect structures and atomic mobility, sintering and vitrification kinetics; development of ceramic microstructure, dielectric, ferroelectric, magnetic, and mechanical properties. Shook.

621*  U G 5
Ceramic Plant Design
Sp.  4 cl., 1 2-hr. lab.
The concepts of ceramic plant layout with regard to processing equipment; project planning and updating techniques. Shook.

632  U G 4
Ceramic Technology
W.  2 cl., 2 3-hr. lab.
The technology of porcelain enamels and surface coatings for metals. Koenig.

633  U G 4
Ceramic Technology
Sp.  2 cl., 2 3-hr. lab.
The technology of refractories, structural clay products, and abrasives. Metzger.
634  U G 4
Ceramic Technology
A.  2 cl., 2 3-hr. lab.
The technology of fine-grained ceramics, including
traditional white wares, electronic and technical
ceramic materials, and glazes. Russell.

671  U G 3
Bioceramics
A, W, Sp.  2 cl., 1 3-hr. lab.
Prereq.: Elec. E. 670 or permission of instructor.
Evaluation and characterization of ceramic materials
for medical applications. Campbell.

693  U G 1-7
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Ceramic investigations in areas of advanced non-thesis
research.

694  U G 1-6
Group Studies in Ceramic Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

711†  U G 4
Ceramic Materials Science II
W.  4 cl.
Prereq.: 512.
Combinations of the glassy and crystalline states;
heterogeneous crystal systems; interfacial conditions;
internal stress states, interstate bonds, and micro and
macro structure. Shook.

712†  U G 4
Advanced Ceramic Materials Science I
A.  4 cl.
Prereq.: 711 or permission of instructor.
Materials science in the areas of crystal chemistry,
colloids, surface phenomena, and rheology of plastic
and solid states; thermal and optical properties.

713†  U G 4
Advanced Ceramic Materials Science II
A.  4 cl.
Prereq.: 711.
Defect structures, diffusion, and electrical conductivity;
solid state reactions, nucleation and growth in ceramic
systems; ceramic microstructures. Shook.

715  U G 3
Thermoanalytical Techniques
A.  2 cl., 1 3-hr. lab.
Prereq.: Permission of instructor.
Differential thermal analysis, thermogravimetric
analysis and dynamic differential calorimetry of
changes of state and reactions including mathematical
and graphical data reduction. Campbell.

741  U G 3
The Chemistry and Chemical
Processes of Glass Technology
A.  3 cl.
Prereq.: 512 and 531.
The practical processes and equipment for producing
commercial molten glasses, including the selection and
handling of materials, charging, processes in the
furnace, types of furnaces, furnace design, and
operation. Koenig.

742  U G 4
Glass Technology
A.  4 cl.
Prereq.: 741 or permission of instructor.
Machine processes for forming pressed, blown, and
flatware; annealing, tempering and decorating; plant
visits to observe current commercial practice. Hicks.

785  U G 3
Ceramic Research Methods
A.  1 cl., 6 lab. hrs.
Prereq.: 711.
Introduction to research experience; organization and
planning; initiating specific research, designed in
combination with 786 to give experience in individual
and group research. Campbell and Staff.

786  U G 3
Ceramic Research Methods
W.  9 lab. hrs.
Prereq.: 785.
Continuation of 785 with accent on the conduct of
specific research problems.

790  U G 3
Ceramic Case Histories
Sp.  3 cl.
The study of selected case histories in ceramic
technological and industrial problems; designed to
give experience in individual and group thinking in
problem solution. Everhart.

791  U G 3
Ceramic Case Histories
Sp.  3 cl.
Individual and group consideration of ceramic problems
having technological, industrial, and/or professional
significance. Russell.

852  G 3
Advanced Physics and Chemistry of Glasses
Sp.  2 cl.
Prereq.: 631, or permission of instructor.
Glass structure related to composition and liquid
structure, equilibrium atomic configurations, energy
relationships, kinetics of crystallization, and controlled
development in theory and in practice.
Chemical Engineering

Office: 121 Chemical Engineering Building, 140 West 19th Avenue

Professors Syverson (Chairman), Brodkey, Freeh, Geankoplis, Kay, Kofolt, and Smith; Associate Professors Hershey, Lynn (Alcoa), Sheets, Shumate, Slider, Svanks, and Sweeney; Adjunct Associate Professors Bates, Eckert, Lemmon, and Martin; Assistant Professors Haering and Heibel.

200 U 3 Chemical Engineering and Process Calculations
A, W. 2 cl., 2 comp. lab. hrs.
Prereq. or concurr.: Physics 131, Math. 152, and Chem. 122 or 205 or equiv.; or permission of instructor.
Not open to students with credit for 400.
The application of physico-chemical principles to problems of the chemical industry; emphasis on graphical method, stoichiometry, heat, and material balances. Geankoplis, Heibel, Hershey, and Smith.

201 U 3 Chemical Engineering and Process Calculations
W, Sp. 2 cl., 2 comp. lab. hrs.
Prereq.: 200.
Not open to students with credit for 401.
Continuation of 200.

420 U 3 Elements of Chemical Engineering—
Transport Phenomena I
Sp. 2 cl., 2 comp. lab. hrs.
Prereq. or concurr.: 201, Math. 255, and Physics 132; or permission of instructor.
Introduction to momentum, mass, and heat transfer with emphasis on the analogies between the transports; numerous computation problems illustrate applications to chemical engineering practice. Brodkey.

442 U 3 Petroleum Geophysical and Drilling Methods
W. 3 cl.
Prereq.: Engr. 3rd yr. standing or Geol. 4th yr. standing.
Not open to students with credit in Petr. E 442.
Selected engineering problems associated with drilling oil and gas wells; geophysical exploration concepts; emphasis on drilling mud control and directional drilling analysis. Slider.

485 U 2 Inspection Trip
Not open to students with more than 2 cr. hrs. for 685.
Repeatable to a maximum of 4 cr. hrs.
These trips will give some practical knowledge of the magnitude of modern chemical engineering operations from a selected variety of industry; the total cost will average about $90. Syverson.

489 U 5 Chemical Engineering Practice Work
A. 10 weeks approved work experience.
Prereq.: Chem. E. 3rd yr. standing.
The equivalent of ten weeks spent in a factory, or the engineering department of an industrial plant, or organized industrial work between 3rd and 4th year in chemical engineering. Syverson.

494  U 1-5  
Group Studies  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 5 cr. hrs.  
Group study in selected areas of chemical engineering.

508  U G 3  
Chemical Engineering Thermodynamics  
A. 2 cr., 2 comp. lab. hrs.  
Prereq.: 201.  
Not open to students with credit for 608.  
Application of the fundamental concepts and laws of thermodynamics to problems of the chemical industry; stress on computational problem work.

509  U G 3  
Chemical Engineering Thermodynamics  
W. 2 cr., 2 comp. lab. hrs.  
Prereq.: 508.  
Not open to students with credit for 609.  
Continuation of 508.

520  U G 3  
Transport Phenomena  
A, Sp. 2 cr., 2 comp. lab. hrs.  
Prereq.: Math. 255.  
Not open to students with credit for 420.  
Momentum, mass, and heat transfer with emphasis on the analogies between the transports; numerous computation problems illustrate applications to engineering practice. Brodkey.

521  U G 3  
Elements of Chemical Engineering—Transport Phenomena II  
A. 2 cr., 2 comp. lab. hrs.  
Prereq.: 520 or 520, Math. 255, and concurr. Math. 512; or permission of instructor.  
Continuation of transport theory and introduction to radiation as applied to heat transfer; basic principles developed and illustrated with problems from chemical engineering practice. Hershey and Sweeney.

522  U G 3  
Elements of Chemical Engineering— 
Transport Phenomena III  
W. 2 cr., 2 comp. lab. hrs.  
Prereq.: 521 or equiv., or permission of instructor.  
Not open to students with credit for 511.  
Continuation of the study of transport theory; emphasis on mass transfer and stagewise operations with applied computational problems. Geankoplis and Hershey.

523  U G 4  
Chemical Engineering Operations  
Sp. 3 cr., 2 comp. lab. hrs.  
Prereq. or concurr.: 522, Chem. 532, or permission of instructor.  
Not open to students with credit for 512.

The application of the transport phenomena as fluids, heat, and mass transfer to the chemical engineering operations of evaporation, distillation, drying, etc. Haering.

542  U G 3  
Drilling Fluids  
W. 1 cr., 2 3-hr. lab.  
Prereq.: 442.  
Not open to students with credit in Petr. E. 542.  
Significance and control of drilling fluid qualities; commercial drilling fluids analyzed in the laboratory and the control of their properties demonstrated. Slider.

543  U G 2  
Physical Analysis of Petroleum Reservoirs  
W. 1 cr., 1 4-hr. lab.  
Prereq.: 442 or permission of instructor.  
Not open to students with credit in Petr. E. 543.  
Quantitative study of the physical nature of a petroleum reservoir; includes laboratory analysis of porosity, permeability, saturation, capillary pressure, and multiphase characteristics of reservoir rocks. Slider.

570  U G 3  
Fundamentals of Mass Transport and Diffusion  
Sp. 2 cr., 2 comp. lab. hrs.  
Prereq.: 8 cr. hrs. of Chem., 10 cr. hrs. of Physics, and Math. 254 or 221 or equiv. or permission of instructor.  
Fundamental study of mass transport and diffusion in gases, liquids, and solids with applications in physical sciences; primarily for students in physical, biological, and engineering sciences. Geankoplis.

571  U G 3  
Air Pollution  
Sp. 3 cr.  
Prereq.: Permission of instructor.  
Intended for students not enrolled in College of Engineering.  
Sources and dispersion of air pollutants, air pollution control, air quality criteria, emission standards and regulations. Sweeney.

610  U G 3  
Chemical Engineering Kinetics  
A. 2 cr., 2 comp. lab. hrs.  
Prereq.: 509, 523, and Chem. 533.  
Chemical and engineering principles for the design and operation of chemical reactors; kinetics of simple homogeneous systems and introduction to heterogeneous catalysis. Syverson.

625  U G 3  
Chemical Process Dynamics and Control I  
Sp. 4 cr., 4 lab. hrs.  
Prereq.: 523 or equiv. or permission of instructor; for other than Chem. E. students, permission of instructor.  
Not open to students with credit for 725.  
Study of the dynamics and control of chemical processes; mathematical models of simple processes (including control) are derived and simulated using computers. Freh.
530 U G 4-8
Chemical Engineering Operations Laboratory
Su. 5 cr., 7-10 lab. hrs.
Prereq.: 523 and 625, or permission of instructor. Not open to students with credit for 730. The fundamental laboratory course in the chemical engineering operations; laboratory investigation of the operating characteristics and efficiency of chemical engineering equipment as distillation, drying, filtration, etc. Haering.

640 U G 5
Determination of Reservoir Parameters and Material Balance
Sp. 5 cr.
Prereq.: Engr. 3rd yr. standing; Geol. 4th yr. standing and permission of instructor. Not open to students with credit for Petr. E. 544 and 641, or Chem. E. 544 and 641. Determination of petroleum subsurface reservoir thickness, porosity, and saturation from core analysis and logs; the prediction of reservoir behavior by material balance. Slider.

643 U G 5
Flow of Gas and Oil in Subsurface Reservoirs
A. 5 cr.
Prereq.: Engr. 4th yr. standing; Geol. 4th yr. standing and permission of instructor. Not open to students with credit for Petr. E. 642 or Chem. E. 642. Fundamentals of oil and gas flow in porous media under steady state and unsteady state conditions; application of these fundamentals to well problems. Slider.

671 U G 3
Environmental and Technological Regulation
A. 3 cr.
Prereq.: Senior standing in College of Engineering or in science or permission of instructor. The regulation of technology, especially of the environment and the workplace, from the viewpoint of the engineer and scientist working in an industrial or consulting situation. Sweeney.

683 U G 2-8
Individual Studies in Chemical Engineering
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

694 U G 2-6
Group Studies in Chemical Engineering
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

714 U G 5
Environmental Pollution Abatement
W. 5 cr.
Prereq.: Senior or grad. majors in engineering or sciences. Not open to students with credit for Agr. E. 714, Civil E. 714, and Met. E. 714. (Cross-listed in the Depts. of Agr. E., Civil E., and Met. E.) Problems, philosophies, principles, and methods of pollution abatement in the total environment; quantitative approaches to waste management in air, water, and land systems.

728 U G 3
Chemical Process Dynamics and Control II
A. 3 cr.
Prereq.: 625 or permission of instructor. Further development of process dynamics and control topics begun in 625. Freh. 

743 U G 1-10
Petroleum Production Investigations
A, W, Sp. Library, conf., and lab. work. Pre req.: 643. Not open to students with credit in Petr. E. 743. Repeatable to a maximum of 10 cr. hrs. for the course; either subdivision repeatable to a maximum of 10 cr. hrs.

743.01 Engineering Problems of Petroleum and Natural Gas Exploration, Production, and Transportation. Slider.

743.02 Design or Planning of Petroleum Field Development. Slider.

750 U G 1
The Profession of Chemical Engineering
A. 1 cr.
Prereq.: Chem. E. senior standing. The code of ethics of the chemical engineer, professional registration, responsibilities to the societies of the profession, to management, to labor, and as an administrator. Syverson.

760 U G 3
Chemical Engineering Economy
A. 2 cr., 2 comp. lab. hrs. Prereq.: 630 or permission of instructor. Economic considerations in research development, design, and manufacturing in the chemical process industry; cost estimation and economic optimization of chemical engineering operations and chemical processes. Freh, Lynn, and Syverson.

761 U G 3
Chemical Engineering Processes
A. 2 cr., 2 comp. lab. hrs. Prereq.: 509 and 523; concur: 610 and 760; or permission of instructor. Integration of fundamentals of chemistry, chemical engineering operations, thermodynamics, reaction kinetics, and economics for optimum design and operation of chemical process plants. Hershey and Lynn.

762 U G 4
Chemical Engineering Process Development
W. 1 cr., 11 lab. hrs. Prereq.: 630, 760, and 761; or equiv. Library, laboratory, and pilot plant research and development of chemical processes of industrial potential justified by preliminary economic studies; preparation of optimum process flow sheets; plant design studies. Heibel, Lynn, and Sweeney.
Analysis and Organization of Special Project Problem Investigations
W. 6 hrs conf. and lab.
Prereq.: Chem. E. 5th yr. standing.
Analysis of definite problems having the theoretical and practical application to the chemical industry; individual effort guided by a chemical engineering staff member. Syverson.

Chemical Engineering Process Design
Sp. 3 cl., 2 4-hr. lab.
Prereq.: 762.
Process design studies on selected chemical processes encompassing a broad spectrum of fundamental engineering principles; optimization studies utilizing economic and technical simulation. Haering, Helbel, and Syverson.

Applied Electrochemistry
W. 2 cl., 4 lab. hrs.
Prereq.: Chem. 533 or permission of instructor.
The relationship between electrical and chemical energy as applied to chemical industries, discussed and illustrated by laboratory work. Lynn.

Air Pollution
Sp. 3 cl.
Prereq.: Senior standing in the College of Engineering or permission of instructor.
Sources of air pollutants, properties of small particles, chemistry of air pollution, dispersion and deposition of air pollutants, and air pollution control. Sweeney.

Introduction to High Polymer Engineering
A. 3 cl.
Prereq.: 610 and Organic Chem. or permission of instructor.
Engineering of polymerization and polymer forming processes based upon thermodynamics, transport phenomena, and reaction kinetics; relationship of engineering properties of high polymers to molecular characteristics. Lynn.

Rheology of Fluids
W. 3 cl.
Prereq.: 420; permission of instructor for students not majoring in Chem. E.
Principles of rheology including the characteristics of non-newtonian materials, measurements, rheological equations of state, viscometric flows, and applications to the flow of industrial materials. Brodkey.

Principles of Polymer Conversion Operations
Sp. 3 cl.
Prereq.: 773 and 775; or permission of instructor.
Principles of thermodynamics, transport phenomena, polymer chemistry and physics will be related to polymer processing (converting high polymers) through application of mathematical and analytical approaches. Lynn.

Nuclear Chemical Engineering
W. 3 cl.
Prereq.: Nuclear E. 763 or permission of instructor.
A study of physical, chemical, and economic principles applied to the processing of reactor fuels; examination of the separation requirements in relation to different fuel cycles. Smith.

Chemical Engineering Experimental Design
A. 3 cl.
Prereq.: Engr. Gr. 200 or equiv., or permission of instructor.
Industrial and research experiments designed with special emphasis on reducing the number of experiments, interpreting final results, and ensuring against unknown factors. Hershey.

Chemical Engineering Optimization
Sp. 3 cl.
Prereq.: Engr. Gr. 200 or equiv., or permission of instructor.
Description, analysis, and comparison of the techniques now in use in unimodel optimization; linear programming; geometric programming. Hershey.

Special Project Problem Investigations
Su, A, W, Sp. 15 hrs. conf. and lab.
Prereq.: 763 or permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Solution of study problems, either new or continued from 763, extensive theoretical and/or experimental work followed by a comprehensive report.

Process Modeling and Simulation
Sp. 3 cl.
Prereq.: Permission of instructor.
Application of basic chemical engineering principles to construct mathematical models of industrial processes and the simulation thereof by digital and analog techniques. Freeh.

Advanced Petroleum Engineering Technology
Sp. 2 cl.
Prereq.: 643.
Not open to students with credit in Petr. E. 796 (765).
Library research and seminar discussions of the most recent technical developments in petroleum engineering. Silver.

Advanced Special Problems in Chemical Engineering
Su, A, W, Sp. Conf., library and/or lab.
Prereq.: Satisfactory courses in field of problem undertaken and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A minor problems course covering the chemical engineering operation, instrumentation, thermodynamics, kinetics, the transport fields, and chemical technology.
808  G 3
Advanced Chemical Engineering Thermodynamics
A.  3 cl.
Prereq.: 509 and 523; or permission of instructor.
Detailed discussion of the thermodynamic properties of pure compounds and mixtures; computational problem work emphasizes the application of thermodynamics in industrial problems.

809  G 3
Advanced Chemical Engineering Thermodynamics
W.  3 cl.
Prereq.: 808.
Continuation of 808.

812  G 3
Advanced Chemical Engineering Kinetics
W.  3 cl.
Prereq.: 523 and 610; or permission of instructor.
Chemical engineering kinetics from the viewpoint of industrial chemical processes. Haering.

813  G 3
Advanced Chemical Engineering Kinetics
Sp.  3 cl.
Prereq.: 812.
Continuation of 812. Haering.

815  G 3
Advanced Chemical Engineering Science and Applications
A, W, Sp.  3 cl.
Prereq.: Chem. Engr. grad. standing or permission of instructor.
Repeatable to a maximum of 45 cr. hrs.; subdivision not repeatable.
This series of courses presents advanced concepts of science and engineering as applied to the chemical engineering field under various topics.
815.01 Advanced Mass Transfer—I
815.02 Advanced Mass Transfer—II
815.03 Advanced Distillation and Stage Processes
815.04 Extraction, Azeotropic, and Extractive Distillation
815.05 Advanced Heat Transfer—I
Conduction, radiation and convection.
815.06 Advanced Heat Transfer—II
Condensation, boiling, design applications.
815.07 Drying, Humidification, and Dehumidification
815.08 Advanced Momentum Transfer—I
Basic theory, laminar flow, and phenomenological turbulence.
815.09 Advanced Momentum Transfer—II
Statistical turbulence and mixing.
815.10 Advanced Momentum Transfer—III
Two-phase phenomena.
815.11 Advanced Combustion Principles
815.12 Advanced Instrumentation and Process Control of Chemical Plants
815.13 Design of Experiments
Data handling and analysis, quality control, linear programming.
815.14 Advanced Process and Plant Design
815.15 New or Unusual Chemical Engineering Operations
Examples: adsorption, atomysis, dialysis exclusion, sublimation.

830  G 2-6
Advanced Chemical Engineering Operations Laboratory
Su, A, W, Sp.  1 cont., 5-17 lab. hrs.
Prereq.: 509 and 523; prereq. or concur. 63b; or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Chemical engineering fundamentals and operations. Haering.

842  G 3-10
Petroleum Production and Oil Field Development and Operational Problems
Sp.
Prereq.: Permission of instructor.
Not open to students with credit in Petr. E. 842.
Examination and testing of petroleum and petroleum bearing rocks; economic interpretation and application to problems of primary and secondary recovery. Slider.

862  G 5
Advanced Chemical Engineering Process Development
W.  1 cl., 14 lab. hrs.
Prereq.: 610, 760, and 830.
Original work on development of a new process; basic data for process design and preliminary cost estimate required. Heibel, Lynn, and Sweeney.

873  G 3
Advanced High Polymer Engineering
Sp.  3 cl.
Prereq.: 773 or permission of instructor.
Fundamental studies of polymer properties as related to and controlled by polymer structure; engineering of polymerization process to control polymer structure. Lynn.

881  G 2
Seminar in Chemical Engineering
Prereq.: Grad. standing in Chem. E.
Repeatable to a maximum of 12 cr. hrs.
Formal reports, lectures, and discussions of fundamentals and new developments in science and technology as related to chemical engineering.

999  G Arr.
Research in Chemical Engineering
Research for thesis or dissertation purposes only.
Chemistry

Office: 120 McPherson Chemical Laboratory, 140 West 18th Avenue; General Chemistry Office: 115 McPherson Chemical Laboratory, 140 West 18th Avenue.

Professors Dorman (Chairman), Bowerman, (Administrative Vice Chairman), Busch, Caley (Emeritus), Calvert, Firestone, Fraenkel, Garrett (Emeritus), Gassman, Harris (Emeritus), Haskins (Emeritus), Hine, Horton, Kuwana, Leussing, Levine (Batelle Professor), Lippincott, Meek, Newman (Regents Professor), Ouellette, Paquette, Rubin, Schechter, Shore, Swed, Taylor, Van Winkle, Verhoeck, Watts, and Wojcicki; Adjunct Professors Kern (Academic Vice Chairman) and Shavitt; Associate Professors Anderson, Gerkin, Klapper, Kuratov (Emeritus), MacWood, Mathews, Pitzer, Schram, and Swent; Assistant Professors Berliner, Corfield, Frey, Kluge, Mayer, and Parson.

101 U 5
Elementary Chemistry
A, W, Sp. 4 cr., 3 lab. hrs.
Prereq.: Eligibility to enroll in Math. 116.
Not open to students with credit for 111, 121, H201, or 204.
A course in the principles of chemistry; the chemistry of the more important elements and compounds.

102 U 5
Elementary Chemistry
A, W, Sp. 4 cr., 3 lab. hrs.
Prereq.: 101.
Not open to students with credit for 112, 122, H202, or 205.
Continuation of 101; a terminal sequence in chemistry for students requiring only two courses in chemistry; special attention is given to the compounds of carbon.

121 U 5
General Chemistry
Su, A, W, Sp. 3 cr., 3 lab. hrs.
Prereq.: One unit of high school Chem., and eligibility to enroll in Math. 150.
Not open to students with credit for 102, 111, H201, or 204.
A general course in fundamental chemical principles.

122 U 5
General Chemistry
Su, A, W, Sp. 3 cr., 3 lab. hrs.
Prereq.: 121; or completion of 101 with a grade of A or B and eligibility to enroll in Math. 150.
Not open to students with credit for 112, H202, or 205.
Continuation of 121; the chemistry of the most important non-metals and of chemical reactions in solutions.

123 U 5
General Chemistry
Su, A, W, Sp. 3 cr., 6 lab. hrs.
Prereq.: 122.
Not open to students with credit for 113.
Continuation of 122; the chemistry of the metals including introductory quantitative analysis.

194 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Designed to give students an opportunity to pursue special studies in chemistry.

H201 U 5
General Chemistry
A. 3 cr., 4 lab. hrs.
Prereq.: Superior performance on placement examination and Math. 151 or equiv.
Not open to students with credit for 101, 111 or 121.
The principles of chemical measurement for selected students.

H202 U 5
General Chemistry
W. 3 cr., 4 lab. hrs.
Prereq.: 201.
Continuation of 201; the properties of matter and quantitative analysis.

H203 U 5
General Chemistry
Sp. 3 cr., 4 lab. hrs.
Prereq.: 202.
Continuation of 202; systematic chemistry of the elements.

204 U 4
Principles of Chemistry
A, W, Sp. 3 cr., 1 3-hr. lab.
Prereq.: Engr. 1st or 2nd yr. curriculum; 1 unit of high school Chem.; prereq. or concur. Math. 153 and Physics 133.
Fundamental principles of chemistry for engineering students with at least two quarters of college physics and of college mathematics.

205 U 4
Principles of Chemistry
W, Sp. 3 cr., 1 3-hr. lab.
Prereq.: 204.
Continuation of 204.

211 U 3
Quantitative Analysis
Su, A, W, Sp. 2 cr., 5-8 lab hrs.
Prereq.: 113, or 123, or equiv.
A general course in quantitative analysis: gravimetric, volumetric, and instrumental analysis; primarily for those students with interest in biological and medical sciences.

212 U 3
Quantitative Analysis
Su, W, Sp. 2 cr., 5-8 lab hrs.
Prereq.: 211.
Continuation of 211.
221 U 5
Quantitative Analysis
A, Sp. 3 cl., 6 lab. hrs.
H291 (honors) may be available to students enrolled in a
college honors program; others with permission of
dept. Prereq.: 123 or equiv.
The fundamental course in quantitative chemical
analysis for students majoring in chemistry.

235 U 5
Survey of Organic Chemistry
Sp. 4 cl., 1 4-hr. lab.
Prereq.: 102 or 122.
Not open to students with credit for 231, 241, 243, 245,
or 251.
Terminal course covering the fundamental aspects of
aliphatic and aromatic chemistry.

241 U 3
Organic Chemistry
A, W, Sp. 3 cl.
Prereq.: 123.
Not open to students with credit for 231, 235, or 251.
The first half of a two-quarter course in fundamental
organic chemistry designed for non-majors in chemistry
or in preparation for high school teaching.

242 U 3
Organic Chemistry
Su, W, Sp. 3 cl.
Prereq.: 241.
Not open to students with credit for 232, 235, or 252.
Continuation of 241.

243 U 3
Organic Chemistry Laboratory
Su, A, W, Sp. 9 lab. hrs.
Prereq. or concur.: 241.
Not open to students with credit for 231, 235, 245, or
254.
A preparation of a series of typical organic compounds,
such as are studied in 241-242, their purification, and
a study of their properties.

244 U 3
Organic Chemistry Laboratory
Su, W, Sp. 9 lab. hrs.
Prereq.: 243; prereq. or concur. 242.
Not open to students with credit for 232, 235, 246, or
255.
Continuation of 243.

245 U 2
Organic Chemistry Laboratory
A, W, Sp. 6 lab. hrs.
Prereq. or concur.: 241.
Not open to students with credit for 231, 235, 243, or
254.
A preparation of a series of typical compounds, such as
those studied in 241 and 242, and a study of their
properties.

246 U 2
Organic Chemistry Laboratory
Su, W, Sp. 6 lab. hrs.
Prereq.: 245; prereq. or concur. 242.
Not open to students with credit for 232, 233, 244, or
255.
Continuation of 245.

251 U 3
Organic Chemistry
A. 3 cl.
Prereq.: 123.
Not open to students with credit for 231 or 241.
A fundamental course in chemistry designed for
chemistry majors and chemical engineers.

252 U 3
Organic Chemistry
W. 3 cl.
Prereq.: 251.
Not open to students with credit for 232 or 242.
Continuation of 251.

253 U 3
Organic Chemistry
Sp. 3 cl.
Prereq.: 252.
Continuation of 252.

254 U 3
Organic Chemistry Laboratory
W. 6 or 9 lab. hrs.
H254 (honors) may be available to students enrolled in a
college honors program; others with permission of
dept. Prereq. or concur.: 251.
Not open to students with credit for 243-244.
The preparation, purification, characterization, and
study of the properties of typical organic compounds.
Fee.

255 U 3
Organic Chemistry Laboratory
Sp. 6 or 9 lab. hrs.
H255 (honors) may be available to students enrolled in a
college honors program; others with permission of
dept. Prereq.: 254 or concur. 252.
Continuation of 254.

294 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Designed to give students an opportunity to pursue
special studies in chemistry.

501 U G 5
Recent Advances in Chemistry
Su, A. 5 cl.
Prereq.: Academic Year Science Institute students
only; 30 cr. hrs. of Chem.
Not for graduate credit to students majoring in Chem.
Designed for high school science teachers; recent developments in the theory of valence, particle nature of matter, colloids, high polymers, nuclear chemistry, fuels and photosynthesis.

502    U  G  3
Radiochemistry
Su. Summer Institute only, 4 cl. each week.
Prereq.: Academic Year Science Institute students only; 1 yr. college Math., 1 yr. college Chem., and 1 yr. college Physics.
Not for credit to students majoring in Chem.
The properties of the nucleus, selection, and preparation of radioactive isotopes for tracer work, the application of radioactivity to chemical problems.

521    U  G  5
Physical Chemistry
Sp.  5 cl.
Prereq.: 242-244 or 252-255, or equiv., Math. 151, and Physics 113.
Not for graduate credit to students majoring in Chem.
A study of the fundamental principles of physical chemistry arranged for students in the biological sciences.

531    U  G  3
Physical Chemistry
A.  3 cl.
H531 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 212 or 221 or equiv., Physics 113 or 133 and Math. 254; prereq. or concur. Math. 255; concur. 551 recommended for Chem. majors.
Not for graduate credit to students majoring in Chem.
The fundamental course in physical chemistry.

532    U  G  3
Physical Chemistry
W.  3 cl.
H532 (honors) may be available to student enrolled in a college honors program; others with permission of dept.
Prereq.: 531; concur. 552 recommended for Chem. majors.
Not for graduate credit to students majoring in Chem. Continuation of 531.

533    U  G  3
Physical Chemistry
Sp.  3 cl.
H533 (honors) may be available to students enrolled in a college Honors Program; others with permission of dept.
Prereq.: 532.
Not for graduate credit to students majoring in Chem. Continuation of 532.

541    U  G  3
Physical Chemistry Laboratory
A, Sp.  1 cl., 8 lab. hrs.
Prereq. or concur.: Chem E. 3rd yr. standing, 521 or 533 or equiv.

551    U  G  2
Physical Chemistry Laboratory
A, W, Sp.  6 lab. hrs.
Prereq. or concur. 531.
Quantitative measurements of phenomena of chemical interest and the application of chemical principles to their interpretation.

552    U  G  2
Physical Chemistry Laboratory
A, W, Sp.  6 lab. hrs.
Prereq.: 551; prereq. or concur. 532.
Continuation of 551.

587    U  G  5
Principles of Instrumental Analysis
Sp.  3 cl., 6 lab. hrs.
Prereq.: 532, 552, and prereq. or concur. 533.
Application of physical-chemical principles to problems of chemical analysis; laboratory practice in basic instrumental techniques.

594    U  G  3
Group Studies
A, W, Sp.  3 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Designed to give students an opportunity to pursue special studies in chemistry.

601    U  G  1
Chemical Information Science
A.  1 cl.
Prereq.: 212 or 242 or 255, or equiv.
Chemical library usage for information retrieval and introduction to modern methods of chemical information handling.

602    U  G  2
History of Chemistry
W.  2 cl.
Prereq.: 212 or 242 or 255, or equiv.
A general course in the history of chemistry with special reference to the development of the theories of the science.

616    U  G  4
Organic and Inorganic Micro Quantitative Analysis
Sp.  1 cl., 9 lab. hrs.
Prereq.: 221, 242-244, or 252-255, or equiv.
Application of various micro chemical techniques for solving problems in organic and inorganic chemistry.

621    U  G  4
Chemical Spectrophotometry
W.  2 cl., 6 lab. hrs.
Prereq. or concur.: 531.
Application of infrared, visible, ultraviolet spectrophotometers, atomic emission and absorption spectographs to problems involving inorganic and organic molecular structure, analysis, equilibria, and reaction rates.
631 U G 3
Structure Determination and Identification of Organic Compounds
A. 1 hr. lec., 9 lab. hrs.
Prereq.: 253 or equiv.
Application of chemical and physical methods in structure determination of organic compounds.

632 U G 3
Physical Methods in Organic Chemistry
Sp. 3 cl.
Prereq.: 253 and 533 or equiv.
Selected topics in bonding, molecular orientation, and reactivity of organic compounds and metastable intermediates with emphasis on physical methods of approach.

635* U G 3
Chemistry of the Carbohydrates
A. 3 cl.
Prereq.: 242 or 252 or equiv.
Repeatable to a maximum of 6 cr. hrs., with permission of instructor.
(a) Monosaccharides
(b) Oligosaccharides and polysaccharides
(a) is given in even-numbered years and (b) in odd-numbered years.

651 U G 2
Advanced Inorganic Chemistry I
Su, A. 3 cl.
Prereq.: 533 or permission of instructor.
An introduction to the concepts and chemical systems of inorganic chemistry, including atomic structure, the periodic table, molecular structure and bonding, ionic crystals, defect solid state and electron deficient compounds.

652 U G 3
Advanced Inorganic Chemistry II
W. 3 cl.
Prereq.: 651.
The chemistry of the transition elements; coordination compounds, organometallics, noble gases, representative elements, and lower boron hydrides; acid-base theories.

653 U G 3
Advanced Inorganic Chemistry III
Sp. 3 cl.
Prereq.: 652.
A discussion of special topics in modern inorganic chemistry, correlating the group relationships among the non-metallic elements, polyhedral anions and carborane structures.

655 U G 3
Inorganic Chemistry Laboratory
Sp. 9 lab. hrs.
Prereq.: 533 or equiv.
Preparative techniques of inorganic chemistry including the use of liquefied gases, aqueous and non-aqueous solutions, anhydrous and oxygen-free systems, fusion reactions, etc.

661 Biochemistry
Prereq.: 251, 252, 253 or equiv, with grade of A or B; 531, 532, 533 or equiv, with grade of A or B. A survey of biochemistry for the superior advanced undergraduate or the beginning graduate student who does not necessarily plan to do graduate research in biochemistry.

671 Nuclear, Radio, and Radiation Chemistry
A. 3 cl.
Prereq.: 533 or equiv.
Nuclear properties, nature of radioactivity, radioactive decay and growth, interactions of radiation with matter, applications.

672 Nuclear Chemistry Laboratory
W. 6 lab. hrs.
Prereq.: 671.
Techniques in handling radioactive tracers, the detection and measurement of different types of radiation, neutron activations, and other related laboratory techniques.

675 X-Rays and Crystal Structure
A. 3 cl., 3 lab. hrs.
Prereq.: Math. 255, Physics 113 or 132, 133, or equiv.
An introduction to the methods of X-ray crystal analysis; theory of symmetry of crystals and of diffraction will be discussed and applied.

676 Colloid Chemistry
W. 3 cl.
Prereq.: 533.
Modern theories of colloidal behavior; absorption and surface phenomena; physical-chemical methods for the characterization of proteins, high polymers, and inorganic colloids.

678 Chemistry of the Urban Atmosphere
Sp. 3 cl.
Prereq.: 532.
Study of the chemistry of urban atmospheres applying kinetic and thermodynamic principles; prediction of the rates and mechanisms of transformation, and the control of atmospheric pollutants.

693 Individual Studies
Prereq.: Satisfactory courses in field of the problem and permission of instructor.
Repeatable to a maximum of 60 cr. hrs.
A qualified student may conduct a minor investigation in chemistry.
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Designed for students to pursue advanced special studies in chemistry.

The Chemistry of Bio-Organic Catalysts
W. 3 cl.
Prereq.: 253 or 631; concur. 533.
Structure of organic catalysts and the mechanism of their reactions.

Advanced Analytical Chemistry
A. 3 cl.
Prereq.: 533, 631; or permission of instructor.
Advanced level discussion of electrochemical principles and mass transport processes; discussion of applications to organic and inorganic systems.

Advanced Analytical Chemistry
W. 3 cl.
Prereq.: 821 or permission of instructor.
Kinetic and thermodynamic processes of fundamental importance in the characterization of chemical species.

Advanced Analytical Chemistry
Sp. 3 cl.
Prereq.: 822 or permission of instructor.
Advanced course in the principles of measurement of the interaction of electromagnetic radiation with matter.

Advanced Organic Chemistry
A. 3 cl.
831-632-833 to be taken in sequence.
An advanced course in the fundamental principles of chemistry covering aliphatic hydrocarbons and their derivatives.

Advanced Organic Chemistry
W. 3 cl.
Prereq.: 831.
An advanced course in the fundamental principles of chemistry covering aliphatic, hydroaromatic, and aromatic compounds.

Advanced Organic Chemistry
Sp. 3 cl.
Prereq.: 832.
An advanced course in the fundamental principles of chemistry covering a survey of heterocyclic compounds, carbohydrates, proteins, and enzymes.

Advanced Organic Chemistry Laboratory
Su, W. 9 lab. hrs.
Prereq.: Permission of student's graduate adviser.
An advanced course in fundamental reactions and procedures with emphasis on recent advances in technique.

Advanced Organic Chemistry Laboratory
Su, Sp. 9 lab. hrs.
Prereq.: Permission of student's graduate adviser.
Continuation of 835.

Advanced Inorganic Chemistry
A. 3 cl.
Prereq.: 533, 652, or permission of instructor.
A survey of modern theories of valence and their application to the problems of structural inorganic chemistry.

Advanced Inorganic Chemistry
W. 3 cl.
Prereq.: 851 or permission of instructor.
A detailed treatment of the chemistry of the transition elements from the standpoint of molecular and atomic structure, electronic spectra, magnetism, and ligand-field theory.

Advanced Inorganic Chemistry Laboratory
Su. 1 cl., 8 lab. hrs.
Prereq.: 551; 552, 651 or permission of instructor.
Advanced methods for the synthesis, purification, identification, and characterization of inorganic substances.

Quantum Chemistry I
A. 3 cl.
Prereq.: 533, Physics 133, Math. 255 or 415 or equiv.
Not open to students with credit for 971.
Basic quantum mechanics as a foundation for quantum chemistry; postulates, operators, eigenfunctions, eigenvalues, and Schrödinger wave equations; onedimensional problems including the harmonic oscillator.

Quantum Chemistry II
W. 3 cl.
Prereq.: 861 or equiv.
Not open to students with credit for 972.
Angular momentum; matrix elements and representations; the hydrogenic atom; perturbation and variation methods, electron spin, and the helium atom; atomic structure and multiplet theory.

Quantum Chemistry III
Sp. 3 cl.
Prereq.: 862.
Not open to students with credit for 973.
Electronic structure of molecules; hydrogen molecule and ion, methane, ethylene, benzene, etc.; molecular orbital, valence bond, and self-consistent field methods.
Research Instrumentation
Sp. 9 lab. hrs.
Prereq.: 533; Physics 132, 133, Math. 255 or equiv.
Background theory and laboratory applications in the use of electrical and electronic instruments in chemical research.

High Polymers
Su, Sp.
Prereq.: 533.
A course in the physical chemistry of macromolecules and their solutions, including the kinetics of polymerization reactions.

X-Rays and Electron Diffraction
W. 3 cl.
Prereq.: 675.
An advanced consideration of the theory of X-rays and electron diffraction and their applications including Fourier methods of parameter determination in crystals, etc.

Chemical Kinetics I
A. 3 cl.
Prereq.: 533.
Fundamentals of chemical kinetics in homogeneous liquid and gaseous systems.

Chemical Kinetics II
W. 3 cl.
Prereq.: 875.
Continuation of 875; elementary reactions; chain reactions; fast reaction methods; reaction rates in heterogeneous systems.

Radiation and Photochemical Kinetics
Sp. 3 cl.
Prereq.: 875.
The physical and chemical effects of the absorption of radiant energy, with emphasis on kinetics and mechanism.

Thermodynamics
W. 3 cl.
Prereq.: 875 or equiv.
Introduction to thermodynamics; emphasis on training in the use of thermodynamics as a tool for solving chemical problems.

Statistical Thermodynamics
Sp. 3 cl.
Prereq.: 881.
An introduction to statistical thermodynamics, including quantum statistics, entropy and the third law, statistical-spectroscopic calculation of thermodynamic functions of gases, chemical equilibria, and vapor pressure.
992  G 3
Seminar in Organic Chemistry
A, W, Sp.  3 cl.
Prereq.: Chem. 2nd yr. grad. standing and 831, 832 or equiv. and permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Topic to be announced.

994  G 3-4
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Provides an opportunity for innovation and experimentation on new problems in chemistry.

995  G 2 or 3
Seminar in Inorganic Chemistry
A.  2 cl.
Prereq.: 651 and 652 or equiv. and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Topic to be announced.

996  G 3
Seminar in Theoretical Chemistry
Su, A, W, Sp.  3 cl.
Prereq.: 861, 862, 863; or equiv.
Repeatable to a maximum of 9 cr. hrs.
Advanced topics in theoretical chemistry including quantum mechanics of molecular wave functions, energies, and rate processes, and quantum and statistical mechanics of condensed phases.

997  G 3
Seminar in Physical Chemistry
Su, A, W, Sp.  3 cl.
Prereq.: At least a 2nd yr. grad. standing in Physical Chem.
Repeatable to a maximum of 9 cr. hrs. with permission of instructor.
Topic to be announced.

999  G Arr.
Research in Chemistry
Research for thesis or dissertation purposes only.

102  U 5
Elementary Modern Chinese
W.  5 cl.
Prereq.: 101.
Continuation of 101. N. Ching.

103  U 5
Elementary Modern Chinese
Sp.  5 cl.
Prereq.: 102 or 110.
Continuation of 102. N. Ching.

104  U 5
Intermediate Modern Chinese
W.  5 cl.
Prereq.: 103 or permission of instructor.
Four hundred additional characters, further combination of characters in three quarters; complex sentence structure; readings adapted from modern Chinese literature. Lee.

105  U 5
Intermediate Modern Chinese
W.  5 cl.
Prereq.: 104 or permission of instructor.
Not open to students with credit for 405.
Continuation of 104. Lee.

106  U 5
Intermediate Modern Chinese
Sp.  5 cl.
Prereq.: 105 or permission of instructor.
Not open to students with credit for 406.
Continuation of 105. Lee.

110  U 5 or 10
Intensive Chinese
A.  10 cl.
Prereq.: Permission of dept.
Students with credit for 101 or the equiv. may not register for more than 5 cr. hrs.; not open to students with credit for 102.
Accelerated course covering what is done in 101-102; for students desiring two quarters of language work in one quarter. E. Ching and Staff.

111  U 5 or 10
Intensive Chinese
W.  10 cl.
Prereq.: 102, 110, or permission of instructor.
Students with credit for 103 or the equiv. may not register for more than 5 cr. hrs.; not open to students with credit for 104.
Accelerated course covering what is done in 103-104; for students desiring two quarters of language work in one quarter. E. Ching and Staff.

112  U 5, 10, 15
Intensive Chinese
Su.  15 cl.
Prereq.: Permission of dept.
Full time of student and full fees required.
Students with credit for 101 or the equiv. may not register for more than 10 cr. hrs. Students with credit for 101 and 102 or equiv. may not register for more than 5 cr. hrs. Not open to students with credit for 103 or 111. No audit.
Elementary modern Chinese (Mandarin) for students desiring comprehensive knowledge and skills of Chinese in shortest possible time.

113  U 5 or 10
Intensive Chinese
Sp. 10 cl.
Prereq.: 104, 111, or permission of instructor.
Students with credit for 105 or the equiv. may not register for more than 5 cr. hrs.; not open to students with credit for 106.
Accelerated course covering what is done in 105-106; for students desiring two quarters of language work in one quarter. E. Ching and Staff.

114  U 3
Elementary Chinese Conversation and Composition
Sp. 3 cl.
Prereq.: 102, 110, or permission of instructor.
Oral drills and sentence-making exercises based upon the vocabulary and sentence patterns acquired in 101 and 102, and concurrently in 103; conducted predominantly in Chinese. E. Ching and Staff.

214  U 3
Intermediate Chinese Conversation and Composition
Sp. 3 cl.
Prereq.: 105 and 114, or permission of instructor.
Exercises in conversation and composition based upon materials used in 101 and 105, and concurrently in 106; conducted predominantly in Chinese. E. Ching and Staff.

231  U 5
Elements of Chinese Culture
A. 5 cl.
Taught in English.
Not open to students with credit for 271.
Survey of the major philosophical trends of Confucianism and Taoism in China; discussion of Chinese mythology, religion, art, and literature. Lao.

251  U 3
Chinese Literature in Translation: Early Period
W. 3 cl.
Historical, philosophical, and poetical classics of China. Chan.

252  U 3
Chinese Literature in Translation: Middle and Modern Periods
Sp. 3 cl.
Masterpieces of late classical poetry and the vernacular novel; representative works of modern fiction, poetry, and drama. Chan.

501  U 5
Classical Chinese I
A. 5 cl.
Prereq.: 106 or permission of instructor.
Not open to students with credit for 501 or 651.
Selected readings from representative authors of classical times. Chan.

502  U 5
Classical Chinese II
W. 5 cl.
Prereq.: 501 or permission of instructor.
Not open to students with credit for 502 or 652.
Continuation of 501. Chan.

503  U 5
Classical Chinese III
Sp. 5 cl.
Prereq.: 502 or permission of instructor.
Not open to students with credit for 653 or 654.
Continuation of 502. Chan.

507  U 5
Advanced Modern Chinese I
A. 5 cl.
Prereq.: 106 or permission of instructor.
Reading of contemporary prose and verse, presentation of oral and written reports, drill in tone and intonation, practice in translation. Hsueh and Staff.

508  U 5
Advanced Modern Chinese II
W. 5 cl.
Prereq.: 507 or permission of instructor.
Not open to students with credit for 610.
Continuation of 507. Hsueh and Staff.

509  U 5
Advanced Modern Chinese III
Sp. 5 cl.
Prereq.: 508 or permission of instructor.
Not open to students with credit for 611.
Continuation of 508. Hsueh and Staff.

514  U 3
Advanced Chinese Conversation and Composition
Sp. 3 cl.
Prereq.: 214 and 508, or permission of instructor.
Practice of conversation, discussion, oral report, and short speech at an advanced level; use of various taped materials; theme-writing exercises; conducted entirely in Chinese. E. Ching and staff.

641  U 3
History of Chinese Thought
Sp. 3 cl.
Prereq.: 231 or permission of instructor.
Not open to students with credit for 671.
Detailed examination of the major Chinese philosophies; readings from selected Chinese texts. Chang.

654  U 3
History of Chinese Literature I
A. 2 cl.
Prereq.: 503 and 509, or permission of instructor.
Not open to students with credit for 694.
Chinese literature from the earliest times to the end of Han (early 3rd century); investigation of various aspects of the classical tradition. Li.
655 U G 3
History of Chinese Literature II
W. 2 cl.
Prereq.: 503 and 509, or permission of instructor.
Not open to students with credit for 605.
Chinese literature from Wei (3rd century) to the end of
Sung (12th century); literary trends and achievements
of the Six Dynasties and the Yang-Sung period. Ch'en

656 U G 3
History of Chinese Literature III
Sp. 2 cl.
Prereq.: 503 and 509, or permission of instructor.
Not open to students with credit for 606.
Chinese literature from Yuan (13th century) to the
present; rise of drama and the novel; modern writers
from the Literary Revolution on. Li.

680 U G 3
Introduction to Chinese Linguistics
A. 3 cl.
Prereq.: 103 and Ling. 601, or permission of instructor.
A general investigation of the history, phonology,
morphology, syntax, and lexicology of the Chinese
language. Hseuh.

681* U G 3
History of The Chinese Language
W. 3 cl.
Prereq.: 103 and Ling. 601, or permission of instructor.
Not open to students with credit for 627.
An investigation of the relations between modern
Chinese and its earlier stages, ancient and archaic
Chinese. Hseuh.

683 U G 3
Study of the Chinese Writing System
A. 3 cl.
Prereq.: 103 or permission of instructor.
Not open to students with credit for 620 or 684.
A critical study of the origin, classification,
composition, and development of the Chinese writing
system, including problems in simplification and
alphabetization. Ching.

680 U G 3
Chinese Translation Workshop
Sp. 2 cl.
Prereq.: 503 and 509, or permission of instructor.
Investigation of problems and techniques of translating
Chinese into English and English into Chinese:
practice of translation of selected passages; individual
assignments and group discussion.

693 U G 1-5
Individual Studies
Prereq.: 503 and 509, and permission of chairman.
Repeatable to a maximum of 15 cr. hrs.
Directed study to meet individual research needs of
students in area studies and East Asian programs;
not a substitute for regular language courses.

694 U G 1-5
Group Studies
Prereq.: 503 and 509, or permission of chairman.
Repeatable to a maximum of 15 cr. hrs.
Investigation of minor problems in Chinese language
and literature; not a substitute for regular language
courses.

698* U G 15
Study Tour of Taiwan
Sp. 15 cl., 2 wks. at OSU, 8 wks. in Taiwan.
Prereq.: 25 cr. hrs. of Chin., or permission of
instructor.
Advanced work in conversation and reading in order to
prepare for the tour; in Taiwan only Chinese will be
spoken; some formal instruction given daily by the
tour leaders.

751 U G 3
Selected Readings in Scholarly Chinese Texts I
A. 3 cl.
Prereq.: 509 or permission of instructor.
Academic writings in the humanities and social
sciences by modern Chinese scholars in both the
wen-yen and pai-hueh styles. Lao.

752 U G 3
Selected Readings in Scholarly Chinese Texts II
W. 3 cl.
Prereq.: 751 or permission of instructor.
Continuation of 751. Lao.

753 U G 3
Selected Readings in Scholarly Chinese Texts III
Sp. 3 cl.
Prereq.: 752 or permission of instructor.
Continuation of 752. Lao.

761* U G 3
Modern Chinese Poetry
A. 3 cl.
Prereq.: 656 or permission of instructor.
Not open to students with credit for 764.
Lectures and readings covering major poets since 1919.
Ch'en.

762* U G 3
Modern Chinese Prose
W. 3 cl.
Prereq.: 656 or permission of instructor.
Not open to students with credit for 765.
Studies of various types of prose literature of the
May Fourth Movement and the Communist period. Lao.

763* U G 3
Modern Chinese Fiction
W. 3 cl.
Prereq.: 656 or permission of instructor.
Not open to students with credit for 766.
Works by major authors before and after 1949.
Li.
764*  U G 3  
Modern Chinese Drama  
Sp.  3 cl.  
Prereq.: 654 and 655, or permission of instructor.  
Lectures on and readings in works by major 20th century playwrights including Hung Shen and Ts'ao Yu. Ch'en.

771†  U G 3  
Traditional Chinese Poetry  
A.  3 cl.  
Prereq.: 654 and 655, or permission of instructor.  
Not open to students with credit for 703.  
Lectures and readings from ancient odes and songs and the later shih and ts'ou poetry. Ch'en.

772*  U G 3  
Traditional Chinese Prose  
W.  3 cl.  
Prereq.: 654 and 655, or permission of instructor.  
Lectures on and readings in various types of non-fiction prose in ku-wen and yu-lu-ti's styles of early times. Lao.

773†  U G 3  
Traditional Chinese Fiction  
W.  3 cl.  
Prereq.: 654 and 655, or permission of instructor.  
Not open to students with credit for 701.  
Lectures and readings in classical and vernacular fiction. Li.

774†  U G 3  
Traditional Chinese Drama  
Sp.  3 cl.  
Prereq.: 654 and 655, or permission of instructor.  
Not open to students with credit for 702.  
A lecture and reading course in Yuan, Ming, and Ch'ing drama. Ch'en.

782  U G 3  
Chinese Phonology  
Sp.  3 cl.  
Prereq.: 680 or 681 or permission of instructor.  
Not open to students with credit for 624.  
A detailed analysis of the phonological structure of Mandarin Chinese. Hsueh.

H783†  U 3-5  
Honors Course  
Prereq.: 4th yr. standing; a record of A in at least half of the Chinese courses taken and an average of B in the remainder; permission of instructor who supervises the work.  
Failure to receive a mark of S in this course is a disqualification for special honors.  
Open only to candidates for B.A. in Chinese.  
A program of reading arranged for each student, with individual conferences, reports and Honor thesis.

784  U G 3  
Chinese Syntax  
Sp.  3 cl.  
Prereq.: 680 or 681 or permission of instructor.  
Not open to students with credit for 626.  

785†  U G 3  
Chinese Dialectology  
W.  3 cl.  
Prereq.: 680 or permission of instructor.  
A comparative study of Chinese dialects and a detailed analysis of one or two particular dialects.

800  G 3  
Chinese Bibliography and Research Methods  
Sp.  3 cl.  
Prereq.: 503 and 509 or permission of instructor.  
Not open to students with credit for 707.  
An introduction to bibliographies and reference works; general and specific problems for research. Lao.

804  G 3  
Advanced Classical Chinese I  
A.  3 cl.  
Prereq.: 503 or permission of instructor.  
Designed for further study of the syntax and vocabulary of classical Chinese; texts are selected from literature, history, and philosophy. Hsueh.

805  G 3  
Advanced Classical Chinese II  
W.  3 cl.  
Prereq.: 804.  
Continuation of 805. Hsueh.

806  G 3  
Advanced Classical Chinese III  
Sp.  3 cl.  
Prereq.: 805.  
Continuation of 805. Hsueh.

867*  G 3-5  
Topics and Problems in Modern Chinese Literature  
Prereq.: Permission of instructor.  
Intensive exploration of a specific topic or a major problem.

869  G 3-5  
Seminar in Modern Chinese Literature  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.  
An intensive reading course in modern Chinese literature with a selected topic for each offering and research projects for individual students; topic to be announced.
Chines Literat Criticism
W, 2 cl.
Prereq., 3 Chun literature courses at the 700 level or permission of instructor.
The historical development of critical theories, with concentration on major critics. Ch'en.

Chinese Poetics
W, 2 cl.
Prereq. 761 and 771, or permission of instructor.
An intensive study of Chinese poetic theories, traditional and modern, in relation to the creative process, consideration of several non-Chinese theories of poetry. Ch'en.

Topics and Problems in Traditional Chinese Literature
Prereq. Permission of instructor.
Intensive exploration of a specific topic or a major problem.

Seminar in Traditional Chinese Literature
Prereq. Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
An intensive reading course in traditional Chinese literature with a selected topic for each offering and research projects for individual students; topics to be announced.

Studies in Chinese Historical Phonology
Sp 3 cl.
Prereq. 782 or permission of instructor.
Critical study of the rhyming dictionaries, the reconstruction of the phonology of old Chinese and its relations to modern Chinese dialects. Hsu

Chinese Paleography
W 3 cl.
Prereq. 683 or permission of instructor.
Study of oracle bone and bronze inscriptions and their development into the modern Chinese writing system. Ching.

Studies in Chinese Historical Syntax
W 3 cl.
Prereq. 784 or permission of instructor.
Problems of Chinese historical syntax: grammatical structures of classical Chinese; syntactic rules found in selected texts from various ancient writings. Ching.

Seminar in Chinese Linguistics
Prereq. Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

Topics include the history of Chinese linguistics, Chinese linguistics and related areas, specific studies in Chinese dialects, etc.

Research in Chinese: Thesis
Research for thesis purposes only.

Research in Chinese: Dissertation
Research for dissertation purposes only.

Circulation Technology
(School of Allied Medical Professions)
Office: 443 School of Allied Medical Professions Building, 1583 Perry Street
Associate Professor Vasko (Division Director);
Instructors Deering (Associate Division Director)
Jurus, and Toth.

The Aseptic Environment
W 2 cl., 2 3-hr. lab.
Prereq. Permission of instructor.
An introduction to the aseptic environment with emphasis on the student's function within this environment as a member of the medical-surgical team. Deering and Staff.

Applied Circulation Technology
Sp 3 cl., 2 4-hr. lab., 2 2-hr. conf.
Prereq. Permission of instructor.
The application of anatomic and physiologic principles in the use of various perfusion devices. Deering and Staff.

Circulation Technology Instrumentation
Sp 3 cl., 2 2-hr. lab.
Prereq. Permission of instructor.
The application or mechanical and electronic principles to the instrumentation unique to circulation technology with emphasis on design and selection of equipment. Toth.

Research Methodology
A, W, Sp 5 2-hr. cl.
Prereq. 410 and 420, or permission of instructor; concur. 551.
Lectures and demonstrations relating circulation technology to research methodology with emphasis on new developments in this area. Toth.
551 U 8
Research Methodology Laboratory
A, W, Sp. 5 4-hr. clinical experiences.
Prereq.: 410 and 420, or permission of instructor; concur. 550.
Application of circulation technology methods to the solution of research problems. Toth.

560 U 7
Life Support Systems
Su, A, W, Sp. 5 2-hr. cl.
Prereq.: 410 and 420, or permission of instructor; concur. 561.
Lectures and demonstrations relating circulation technology to various life support systems including dialysis and hyperbaric oxygenation. Dearing and Staff.

561 U 8
Life Support Systems Clinical Experience
Su, A, W, Sp. 20 hrs. clinical experience per wk.
Prereq.: 410 and 420, or permission of instructor; concur. 560.
Clinical experience in the application of circulation technology methods to dialysis and other support systems. Dearing and Staff.

570 U 7
Surgical Support Systems
Su, A, W, Sp. 5 2-hr. cl.
Prereq.: 410 and 420, or permission of instructor; concur. 571.
Lectures and demonstrations relating circulation technology to the clinical use of extracorporeal circulation devices and monitoring instrumentation in surgery. Dearing and Staff.

571 U 8
Surgical Support Systems Clinical Experience
Su, A, W, Sp. 20 hrs. clinical experience per wk.
Prereq.: 410 and 420, or permission of instructor; concur. 570.
Clinical experience in the preparation and operation of extracorporeal circulation devices and monitoring instrumentation in support of surgery. Dearing and Staff.

701 U G 3
Introduction to Urban Planning Practice
A. 3 cl.
Review of urban planning as practiced by local governments today, including plan-making and plan-implementation phases.

731 U G 3
Outlines of Urban Design
Sp. 3 cl.
Prereq.: Grad. standing in C & R Plan. or Arch., or senior standing in Arch. or Land. Arch., or permission of instructor.
Urban design as an area of specialization in urban planning: theories and processes in urban design; evaluation of criteria. Marzek.

742 U G 3
History of City Planning to 1900
W. 2 cl.
History of city planning from the earliest discovered settlements to the beginning of contemporary planning. Gerckens.

743 U G 4
American City Planning Since 1900
Su, A, Sp. 3 cl.
Prereq.: 3rd yr. standing or permission of instructor.
Not open to students with credit for C & R Plan. 200 or 911. Evolution of American city planning practices since 1900; investigation of selected theoretical works in urban planning written since 1960. Gerckens.

751 U G 5
Metropolitan Transportation Studies for Urban Planners
A. 4 cl.
Prereq.: Grad. standing or permission of instructor.
Methods and models used in metropolitan transportation studies with emphasis on land-use forecasting, evaluation of alternative plans, and citizen reaction. Mills.

783 U G 1-5
Individual Studies in Urban Planning
Prereq.: Permission of instructor. Each subdivision repeatable to a maximum of 20 cr. hrs.

783.13 Urban Planning Theory
783.14 Urban Planning Analysis
783.15 Urban Planning Design
783.16 Urban Planning Implementation Programs
783.17 Unclassified

784 U G 1-5
Group Studies in Urban Planning
Prereq.: Permission of instructor. Each subdivision repeatable to a maximum of 20 cr. hrs.

784.13 Urban Planning Theory
784.14 Urban Planning Analysis
784.15 Urban Planning Design
784.16 Urban Planning Implementation Programs
784.17 Unclassified

City and Regional Planning

Office: 279 Brown Hall, 190 West 17th Avenue

Professors Voss (Chairman), Gerckens (Director, School of Architecture), and Rosner; Adjunct Professor Simmons; Associate Professors Anderton and Mills; Assistant Professors Fisch and Hanson.

300 U 3
Outlines of City Planning
A, Sp. 2 cl.
Not open to students with credit for Arch. (709). Introduction to American city planning processes; development of urban problems and related urban planning systems since 1900. Gerckens.

Civil Engineering

Office: N470 Hitchcock Hall, 2070 Neil Avenue
Professors Jones (Chairman), Chen, Gray, Karrer, Large (Emeritus), Majdzadeh, Moultin, Gjelvo, Smith, Treiterer, Vandegeit (Emeritus), Washington, Whitehurst, and Wu; Associate Professors Bishara, Bitzier, Haw, Minton, Moore, Purtz, Ricca, Rubin, Sandhu, Schumate, and Stiefel; Assistant Professors Godfrey, Hughes, Nemeth, Sykes, and Whittach; Adjunct Assistant Professor Hooper.

202 U 4
Elements of Surveying
A, W. 3 cl., 1 3-hr. lab.
Prereq.: Physics 131.

402 U 4
Photogrammetry
W. 3 cl., 1 3-hr. lab.
Prereq.: 202 or 401.
Fundamental geometry and photogrammetric applications to engineering. Mintzer.

404 U 3
City Surveying
Sp. 2 cl., 1 3-hr. lab.
Prereq.: 403.
City control surveys, coordinates of lot and block corners; measurement of details, computation of areas; setting out city plans.

405 U 4
Observational Analysis
W, Sp. 4 cl.
Prereq.: 202 and Math. 254.
Theory and application of observational analysis. Purtz.

406 U 4
Fundamentals of Civil Engineering Analysis
A, Sp. 4 cl.
Application of numerical methods to problems in civil engineering. Sandhu.

410 U 3
Environmental Pollution Control
W. 3 cl.
Prereq.: Chem. 101 or equiv.
Not open to students majoring in Civil E.
A study of the human environment from a health engineering point of view, with emphasis on those facets of the health picture that are controllable by engineering developments. Rubin.

413 U 4
Fluid Mechanics
A, Sp. 3 cl., 1 2-hr. lab.
Not open to students with credit for 514.
Fluid properties; fluid statics; flow concepts; continuity, energy, and momentum equations; dimensional analysis and dynamic similarity; viscous effects; drag; basic pipe flow; laboratory demonstrations. Ricca and Stiefel.

431 U 4
Structural Engineering Principles
A, W. 4 cl.
Design planning, structural forms, analysis of statically determinate structures, approximate analysis of statically indeterminate structures.

451 U 4
Civil Engineering Materials
A, Sp. 3 cl., 1 3-hr. lab.
Composition and structure of civil engineering materials; elastic, plastic and viscous behavior under various environmental and loading conditions. Majdzadeh.

470 U 4
Transportation Engineering
A, W. 3 cl., 1 3-hr. lab.
Elements of transportation systems including physical controls and criteria.

504 U G 4
Route Geometrics and Design
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 470.
Horizontal and vertical alignment, sight distances, superelevation, earthwork, construction surveys. Purtz.

510* U G 3
Principles of Hydraulics
A. 3 cl.
Prereq.: Math. 151 and Physics 111 or 131.
Not open to students majoring in Civil E.
Fluid properties; hydrostatics; flow concepts; continuity, energy, and momentum equations and applications; flow measurements, pipe and channel flow; selected topics in groundwater flow. Ricca.

515 U G 4
Water Resources Engineering
W, Sp. 4 cl.
Prereq.: 405, 413, and Engr. Gr. 200.
Not open to students with credit for 517.
Pipe systems, introduction to open channel flow, basic hydrometry, demographic studies, water supply, and wastewater flows. Ricca and Stiefel.

518 U G 4
Environmental Quality
Sp. 4 cl.
Prereq.: 516.
Not open to students with credit for 617.
Introduction to environmental quality; air pollution; solid waste disposal; water quality and treatment; wastewater characteristics and treatment. Stiefel and Sykes.
519 U G 3
Applied Hydraulics
Sp. 3 cl.
Prereq.: 516.
Not open to students with credit for 515. Civil engineering applications of fundamental fluid mechanics principles including drag, closed and open conduit flow, flow measuring devices; and water hammer; laboratory demonstrations. Ricca and Stiefel.

521† U G 3
Water Distribution and Wastewater Collection
A. 2 cl., 1 3-hr. lab.
Prereq.: 519.
Not open to students with credit for 617.
Design of water supply collection, transmission and distribution systems; design of sewage and storm water collection and disposal systems. Ricca, Stiefel, and Sykes.

522 U G 4
Design of Treatment Facilities
W. 3 cl., 1 3-hr. lab.
Prereq.: 521.
Not open to students with credit for 726 or 727.
Hydraulic and process considerations in the design of water treatment and municipal wastewater treatment facilities. Stiefel and Sykes.

530 U G 3
Elementary Structural Engineering
Sp. 3 cl.
Not open to students majoring in Civil E.
Structural analysis of simple structures; introduction to reinforced concrete. Ojalvo.

531 U G 4
Structural Analysis II
Sp. 4 cl.
Prereq.: 430 or 530, and Engr. Mech. 420.
Deflections in trusses, beams, and frames; solution of indeterminate structures by methods of consistent deformations, and moment distribution. Chen, Ojalvo, and Smith.

532 U G 4
Structural Steel Design
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 531.
Not open to students with credit for 631.
Design of steel structures. Ojalvo and Smith.

534 U G 4
Structural Engineering Behavior
W, Sp. 3 cl., 1 2-hr. lab.
Prereq.: 431.
Mechanics of beams, shear center, unsymmetrical bending, columns, plastic bending, limit loads, properties of structural metals, proportioning beams for flexure.

540 U G 4
Civil Engineering Systems
A, W. 4 cl.
Prereq.: 406.
Basic concepts and methods of systems engineering and applications to civil engineering problems in transportation and water resources planning, structural design, and construction management.

551 U 4
Soil Mechanics I
A. 3 cl., 1 3-hr. lab.
Prereq. or concur.: Engr. Mech. 420.
Basic and engineering soil properties; fluid flow through soils; compaction, effective stresses and compression. Gray.

552 U G 4
Construction Materials
W. 3 cl., 1 3-hr. lab.
Prereq.: 451.
Composition, properties, and production of portland cement concrete, bituminous materials, and bituminous mixtures. Majidzadeh.

553 U G 3
Soil and Structural Mechanics
W. 3 cl.
Properties of soils and structural materials and their application to analysis of stresses and displacements in soil masses and structural members. Wu, Ojalvo, and Sandhu.

554 U G 4
Geotechnical Engineering
W, Sp. 4 cl.
Properties of natural soil deposits and subsoil exploration; engineering solutions to problems of slope stability, foundation settlement and earth pressure. Wu.

576 U G 4
Civil Engineering Economics and Planning
W, Sp. 4 cl.
Prereq.: 470 and 540.
Engineering economics applied to public works, analysis and planning of transportation systems; discussion of system models with regard to demand distribution and assignment of traffic. Hawnn and Treiterer.

577 U G 4
Transportation Analysis and Operation
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 576.
Analysis of factors affecting operation and control of transportation systems and evaluation of performance, efficiency, and safety.

582† U 3
Mining Systems Engineering
A. 3 cl.
Prereq.: 552 and Geol. 100.
Fundamentals of mining systems for bedded, massive, vein, and surface deposits.
602 U G 4
Applications of Photo Interpretation in Land Use Planning
A. 3 cl., 1 3-hr. lab., 2 half day field trips.
Prereq.: Advanced or grad. standing in City-Reg. Plan., Agr. Econ., Agr., Geog. and related areas.
Not open for credit to students majoring in Civil E. The nature, scope, principles, and methodology of, and techniques of photo interpretation and their applications in the analysis of land use. Mintzer.

603 U G 4
Remote Sensing of Environment
A. 3 cl., 1 3-hr. lab.
An introductory overview of current remote sensing systems concerning energy regime that can be measured to monitor the environment. Mintzer.

610 U G 4
Analysis of Natural and Polluted Waters
A. 3 cl., 1 3-hr. lab.
Prereq.: 518 or grad. standing.
A laboratory study of the measurement and interpretation of water quality indices and pollution parameters including BOD, COD, alkalinity, nutrients, pH, and heavy metals. Rubin.

613 U G 4
Applied Hydrology
A. 4 cl.
Prereq.: 510 or 519 or equiv.
Hydrologic cycle, meteorology, streamflow, evapotranspiration, hydrographs, runoff relations, runoff hydrographs, groundwater, unit hydrographs, flood routing, frequency and duration studies, and application of hydrologic techniques. Ricca.

614 U G 3
Intermediate Fluid Mechanics
W. 2 cl., 1 3-hr. lab.
Prereq.: 406 and 413.
Ideal fluid, irrotationality, equations of motion, velocity potential, Laplace equation, Bernoulli equation, stream functions, flow patterns; flow nets and numerical solutions; experimental analogies; turbulent flow equations. Ricca.

617 U G 4
Water Resources Engineering Principles II
A. 4 cl.
Prereq.: 517 or 611.
Not open to students with credit for 612.
Not open for grad. credit to students majoring in Civil E.
Unit operations in wastewater supply and wastewater recovery including selection, treatment methods and equipment, and quality criteria. Rubin and Stiefel.

632 U G 5
Reinforced Concrete Design I
A. 5 cl.
Prereq.: 531 and 552.
Not open for grad. credit to students majoring in Civil E.

651 U G 5
Soil Mechanics
A. 4 cl., 1 3-hr. lab.
Prereq.: 552.
Not open for grad. credit to students majoring in Civil E.
Stress distribution, shear phenomena, lateral earth pressure, settlement, and soil stability. Moore and Wu.

653 U G 4
Principles of Rock Mechanics
Sp. 4 cl.
Prereq.: 651.
Not open to students with credit for 581.
Fundamental rock properties and their measurement; analysis of rock masses; design and stabilization of underground openings and slopes.

672 U G 3
Fundamentals in Traffic Engineering
A. 2 cl., 1 3-hr. lab.
Prereq.: 572.
An introduction to traffic characteristics, measurements, controls, and regulations; elements in traffic operation, design, and planning. Treiterer.

673 U G 3
Highway Location and Design
W. 2 cl., 1 3-hr. lab.
Prereq.: 572.
Geometric design of roads and streets; determination of alignment, grade, intersections, and traffic capacity of rural roads. Nemet.

674 U G 4
Airport Design and Operation
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 572.
Airport configuration, design, and capacity; development of the terminal area; operational aspect of air traffic and the terminal area; design and operation of helipads. Treiterer.

676 U G 3
Economic Analysis of Civil Engineering Projects
A. W. 3 cl.
Prereq.: 576.
Principles of engineering economic analysis with emphasis on public investment in civil engineering projects and alternative designs and construction methods. Nemet.

683 U G 3
Construction Methods and Equipment
A. 2 cl., 1 3-hr. lab.
Prereq.: 572 or 671.
Not open to students with credit for 771.
Selection and management of construction equipment in building of highways, dams, airports, bridges, and structures.

684 U G 4
Management of Engineering Construction
W, Sp. 2 cl., 2 2-hr. lab.
Prereq.: 781.
Not open to students with credit for 773.
Planning, scheduling, and supervision of engineering construction projects; use of Critical Path Method, bar charts, and other techniques.

685 U G 3
Estimating Construction Projects
Sp. 3 cl.
Prereq.: 684.
Role of the estimator in the construction industry; mechanics of formulating a detailed cost estimate including direct and indirect costs; bidding techniques.

686 U G 3
Construction Contracts
W. 3 cl.
Prereq.: 683.
Formulation of contracts, offer and acceptance, breach, damages: analysis of the engineer's responsibilities and liabilities determined by the contract documents of a construction contract.

693 U G 3-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Individual conferences, assigned readings and reports on minor investigations.

701 U G 4
Civil Engineering Applications of Photo-Interpretation
Sp. 2 cl., 2 2-hr. lab.
Prereq.: 402, 572, and 1 course in geol.
Principles of photo-interpretation, geology, and geomorphology applied to construction, transportation, and hydraulic problems; studies of air-photo indices of soils and aggregate sources; and construction problems. Mintzer.

713 U G 4
Environmental Engineering Measurements
W. 3 cl., 1 3-hr. lab.
Prereq.: 610 or permission of instructor.
The application of advanced physical and chemical measurements to environmental engineering problems; instrumentation involving spectrophotometric, chromatographic, respirometer, and radiation measurement techniques. Rubin.

714 U G 5
Environmental Pollution Abatement
W. 5 cl.
Prereq.: Senior or grad. majors in engineering or sciences.
Not open to students with credit for Agr. E. 714, Chem. E. 714, and Met. E. 714.
(Cross-listed in the Depts. of Agr. E., Chem. E., and Met. E.)
Problems, philosophies, principles, and methods of pollution abatement in the total environment; quantitative approaches to waste management in air, water, and land systems.

717 U G 3
Industrial and Municipal Solid Waste Disposal
W. 3 cl.
Prereq.: 518.
Characterization and sources of solid wastes; solid waste management; collection systems; processing; disposal; and recycle.

719 U G 3
Stream Sanitation
A. 3 cl.
Prereq.: 519; prereq. or concur. 610.
A study of stream quality standards; effluent standards; and the assimilative capacity of natural water bodies. Stiefel.

721 U G 4
Design of Hydraulic Structures
W. 4 cl.
Prereq.: 517 or 611.
Basic engineering economic studies, water law, design concepts, reservoir engineering, river hydraulics, spillways and energy dissipators, and wave motion and forces. Ricca.

722 U G 4
Open Channel Hydraulics
Sp. 4 cl.
Prereq.: 517 or 611.
Flow classifications, channel properties, energy and momentum principles, critical flow, uniform flow formulas, erodible and nonerodible channel design, and gradually varied flow profile computations. Ricca.

731 U G 4
Reinforced Concrete Design II
W. 4 cl.
Prereq.: 632.
Analysis and design of reinforced concrete systems. Bishara and Chen.

732 U G 3
Timber Design
W. 3 cl.
Prereq.: 532.
Basic properties of and design practice for timber when used as a construction material in engineering structures. Smith.

734 U G 3
Design of Arch Structures
Sp. 3 cl.
Prereq.: 531, 532, and 632.
The analysis and design of arch structures. Smith.

735 U G 5
Matrix Structural Analysis
Sp. 5 cl.
Prereq.: 531 or equiv.; or permission of instructor.
Not open to students with credit for 835.
Analysis of skeletal structures by force and displacement methods using matrices. Chen.
736 U 4 Bridge Engineering Projects
W. 4 cr.
Prereq.: 731.
Integrated student projects involving applications of principles and methods used in the design and construction of bridge structures. Smith.

737 U 4 3 Prestressed and Precast Concrete Structures
W. 3 cr.
Prereq.: 632.
Structural analysis and proportioning of prestressed concrete members and of precast structural concrete systems. Bishara.

738 U 4 5 Plastic Analysis and Design
A. 5 cr.
Prereq.: 532.
Not open to students with credit for 832.
Structural behavior in the inelastic range; prediction of collapse loads; structural design according to the plastic methods. Ojavo.

739 U 4 5 Advanced Structural Engineering
A. 5 cr.
Prereq.: 532.
Not open to students with credit for 830.
Analysis and design of statically indeterminate beams, frames, and trusses, using classical methods of analysis. Smith.

751 U 4 5 Principles of Foundation Analysis and Design
W. 4 cr.
Prereq.: 651.
Subsurface exploration; shallow foundations; piles and caissons; embankments and excavations. Gray, Moore, and Wu.

752 U 4 4 Soil Stabilization and Earthwork Design
Sp. 3 cr., 1 3-hr. lab.
Prereq.: 551 or 651.
Properties of compacted soils; principle of soil stabilization and earthwork design. Gray.

753 U 4 4 Pavement Design and Materials
W. 3 cr., 1 3-hr. lab.
Prereq.: 552.
Not open to students with credit for 772.
Properties of paving mixtures, cementing binder and mixtures, and principles of pavement design and performance evaluation. Majidzadeh.

754 U 4 4 Mechanical Properties of Engineering Materials
W. 4 cr.
Prereq.: 451.
Elasticity; plasticity, viscoelasticity, fatigue, and fracture phenomena in civil engineering materials. Jones.

774 U 5 5 Traffic Engineering I
A. 4 cr., 1 3-hr. lab.
Prereq.: 572; prereq. or concur. 406 or Statist. 320.
Not open to students with credit for 871.
Traffic characteristics and studies: theory of traffic flow, dynamics of traffic movement, intersection performance, capacity, parking, accidents, origin-destination. Treiterer.

775 U 4 4 Transportation Systems
A. 3 cr., 1 3-hr. lab.
Prereq.: 540.
An introductory course on techniques of analysis, planning and prediction for transportation systems, principally urban. Godfrey.

794 U 3-5 Group Studies in Civil Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs., not more than 10 of which shall be in any one of the following fields.
The student must register for particular topics from fields of civil engineering listed below; the topics, cr. hrs. and instructors will be announced in quarter previous to the quarter offered:

795 U 1 Seminar in Environmental Science and Engineering
A, Sp. 1 2-hr. cr.
Prereq.: Grad. standing or permission of instructor.
Repeatable to a maximum of 4 cr. hrs.
Lectures and discussions by faculty and guest speakers of topics relating to environmental pollution and its control. Term paper required. Rubin.

796 U 1 5 Interdepartmental Seminar in Urban Transportation
(See under Interdepartmental Seminars)

797 U 1 5 Interdepartmental Seminars
Prereq.: Permission of instructor.
Repeatable to a maximum of 5 cr. hrs.
(See under Interdepartmental Seminars)

810 U 3 Physical Water and Wastewater Treatment Processes
A. 3 cr.
Prereq.: 518; prereq. or concur. 610.
Principles and design of physical processes for water and wastewater treatment including screening, sedimentation, mixing, flotation, and filtration. Stiefel.

811  G 4
Biological Wastewater Treatment Processes
W.  4 cl.
Prereq.: 810 or permission of instructor.
Principles and design of biological processes for wastewater treatment. Sykes.

812  G 5
Chemical and Advanced Wastewater Treatment Processes
Sp.  4 cl., 1 3-hr. lab.
Prereq.: 811 or permission of instructor.
Principles of physical-chemical treatment processes for water and wastewater, including coagulation, softening, absorption, nutrient removal and disinfection. Rubin.

813  G 3
Physical and Biological Unit Operations
W.  1 cl., 2 3-hr. lab.
Prereq.: 810; prereq. or concur. 811.
Unit operations laboratory for the physical and biological processes of water and wastewater treatment. Stiefel and Sykes.

814  G 3
Industrial Wastewater Treatment
Sp.  3 cl.
Prereq.: 811; prereq. or concur. 812.
Principles of industrial wastewater treatment including wastewater surveys; flow reduction, and segregation and equalization; batch and continuous treatment; instrumentation; and treatment processes. Stiefel and Sykes.

831  G 5
Advanced Reinforced Concrete
A.  5 cl.
Prereq.: 731 and 737.
Concrete structural analysis and design; special structural systems and elements. Bishara.

833  G 5
Concrete Shell Structures
Sp.  5 cl.
Prereq.: 632 and Math. 512.
Analysis and design of folded plate, barrel, and other prismatic structures; domes, hyperbolic and elliptical paraboloids. Ojafvo.

834  G 5
Structural Analysis and Design for Dynamic Disturbances
W.  5 cl.
Prereq.: 532, 731, and Engr. Mech. 410; or equiv.; or permission of instructor.
Structural dynamics; principles and practice of dynamic design; numerical and graphical methods. Chen.

836  G 3
Advanced Matrix Analysis of Structures
A.  3 cl.
Prereq.: 736.
Comprehensive presentation of principles of structural analysis in matrix algebra language; efficient methods of analysis of complex structures; finite element method in structural analysis. Sandhu.

837  G 4
Advanced Structural Dynamics
W.  4 cl.
Prereq.: 834 or Engr. Mech. 731.
Stresses and deflections in structures under dynamic loads; response of large structural systems to earthquake, wind, moving loads; approximate and exact solution techniques. Sandhu.

838  G 4
Two-Dimensional Problems in Linear Solids
Sp.  4 cl.
Prereq.: 856; and Engr. Mech. 740 and 754.
Formulation of two-dimensional boundary value and initial boundary value problems for linear solids; geometric nonlinearities; refined theories; variational principles; approximate and exact solution techniques. Sandhu.

850  G 4
Seepage in Permeable Materials
A.  4 cl.
Prereq.: 651.
Analysis of seepage volume and stresses in connection with excavation, dams, wells, slopes, and subsurface drainage; electro-osmosis. Gray and Wu.

851  G 5
Advanced Soil Properties
W.  3 cl., 6 lab. hrs.
Prereq.: 651.
Detailed study and analysis of the mechanical properties of soils, with applications to foundation behavior. Gray, Moore, and Wu.

852  G 5
Structural Pavements and Earth Materials
W.  5 cl.
Prereq.: 851 and 856.
Analysis and design of materials for pavements and other civil engineering projects; properties considered include fracture, fatigue, and physical-chemical composition. Majidzadeh.

853  G 4
Advanced Soil Mechanics
Sp.  4 cl.
Prereq.: 851.
Plastic equilibrium of soil masses; stability of slopes and embankments; bearing capacity of shallow and deep foundations.

854## G 3
Theoretical Soil Mechanics
W.  3 cl.
Prereq.: 850 and 851.
Use of mathematical and numerical methods in solution of soil mechanics problems; stress and displacements in soil masses and slopes, earthquake stresses, consolidation and frost penetration. Gray, Sandhu, and Wu.

855* G 4
Soil-Structure Interaction
Sp. 4 cl.
Prereq.: 853.
Interactions between soil and various structures, walls, bulkheads, foundations, and piles.

856 G 5
Viscoelasticity
Sp. 5 cl.
Prereq.: 652 and Math. 532.
Viscoelastic materials and their characteristics, discrete element models, spectral representation, creep and relaxation functions, and dynamics of viscoelastic behavior. Majidzadeh.

858* G 3
Soil Dynamics
A. 3 cl.
Prereq.: 851 and Engr. Mech. 731, or permission of instructor.
Stress waves in soils and vibration in soil masses; soil behavior under impact and repeated loading; design problems including vibrating foundations, blast pressures, and seismic stability. Wu.

870 G 5
Highway Administration
Sp. 5 cl.
Prereq.: 672.
A study of organization for planning, constructing, maintaining, and operating systems of roads and streets. Hawini.

872 G 5
Traffic Engineering II
W. 4 cl., 1 3-hr. lab.
Prereq.: 871 or equiv.
Principles of traffic operations in rural and urban areas; traffic laws, regulations, control and administration; street lighting, bus operation, parking, and terminal operations. Terlinder.

873 G 5
Traffic Engineering III
Sp. 4 cl., 1 3-hr. lab.
Prereq.: 872 or equiv.
Urban transportation: principles of trip generation, forecasting distribution and assignment, network analysis, mass transportation planning, terminal location, evaluating alternative urban transportation systems, and trends in urban technology. Terlinder and Nemeth.

885 G 3-5
Advanced Civil Engineering
Prereq.: Permission of dept. chairman.
Repeatable to a maximum of 20 cr. hrs., not more than 10 of which shall be in any one of the fields listed below.

This course is intended to give the advanced students opportunity to pursue advanced study; work undertaken may be elected in the following fields of civil engineering.

- Structural Engineering.
- Soil Mechanics and Foundations.
- Sanitary Engineering.
- Highway and Transportation Engineering.
- Geodetic and Photogrammetric Engineering.
- Construction.
- Materials.
- Hydraulics and Hydrology.

896 G 1-3
Interdepartmental Seminar in Polar and Alpine Studies
Sp.
(See under Interdepartmental Seminars.)

999 G Arr.
Research in Civil Engineering
Research for thesis or dissertation purposes only.

Classics
Office: 217 Derby Hall, 154 North Oval Drive

Professors Morford (Chairman), Abbott, Babcock, Lenardon, and Forbes (Emeritus); Associate Professors Davis, Hahn, and Schlam; Assistant Professors Kratz, Shumaker, Snyder, and Tracy; Instructor Sweet.

See also Greek and Latin and Medieval and Renaissance Studies.

120 U 3
Aspects of Greek Civilization
A.
Not open to students with credit for 124, 125, 220, 221, 222, 224, or 225.
Introductory studies concentrating on one area such as: The Bronze Age; Fifth Century Greece; The Age of Alexander.

121 U 3
Aspects of Roman Civilization
W.
Not open to students with credit for 124, 125, 220, 221, 222, 224, or 225.
Introductory studies concentrating on one area such as: The Republic; The Augustan Age; The Empire.

122 U 3
Aspects of Classical Religion and Mythology
Su, Sp.
Not open to students with credit for 124, 125, 220, 221, 222, 224, or 225.
Introductory studies concentrating on one area such as: Sagas; the Gods—Myth and Ritual; Roman Religion and Mythology.
H124
The Greeks
A. 3 hr. cl.
Prereq.: Open only to freshmen scholarle and freshmen enrolled in the Honors Program of a college; permission of Dept.
Discussion of the Greek achievement in literature, history, art, and archaeology. Tracy.

H125
The Romans
Sp. 2 2-hr. cl.
Prereq.: Open only to freshman scholars and freshmen enrolled in the Honors Program of a college; permission of Dept.
Discussion of the Roman achievement in politics, literature, architecture, law, and education.

210
Classical Background of Scientific Terminology
A, W, Sp. 3 cl.
Study of technical and scientific terms from Greek and Latin sources; roots, word elements, word formation, analysis; helpful in medical, biological, and kindred studies.

220
Greek Literature in Translation
A, W, Sp. 5 cl.

221
Latin Literature in Translation
A, W, Sp. 5 cl.

222
Classical Mythology
A, W, Sp. 5 cl.
Not open to students with credit for 122.

224
Classical Civilization: Greece
Su, A, Sp. 5 cl.
Not open to students with credit for 120.
A survey of ancient Greek civilization, concentrating upon important facets of literature, history, art, and archaeology.

225
Classical Civilization: Rome
W. 5 cl.
Not open to students with credit for 121.
A survey of the civilization of ancient Rome, concentrating upon important facets of literature, history, art, and archaeology.

501*
Studies in Ancient Tragedy
A. 3 cl.
Prereq.: One of the following: 120, 121, 122, H124, H125, 220, 221, 222, 224, 225; Comp. Lit. 101, 102, 103; Engl. 220, 262; Hist. 601, 602, 603, 604; Thire. 165.
Studies in the form, content, and subsequent literary influence of Greek and Latin tragedy, based on readings of English translations.

502*
The Comic Spirit in Antiquity
Sp. 3 cl.
Prereq.: One of the following: 190, 191, 192, 193, 194, 195, 220, 221, 222, 224, 225; Comp. Lit. 101, 102, 103; Engl. 220, 262; Hist. 601, 602, 603, 604; Thire. 165.

503*
Studies in Greek and Roman Epic
Sp. 3 cl.
Prereq.: One of the following: 120, 121, 122, H124, H125, 220, 221, 222, 224, 225; Comp. Lit. 101, 102, 103; Engl. 220, 262; Hist. 601, 602, 603, 604; Thire. 165.
Studies in the form, content, and subsequent literary influence of Greek and Latin epic, based on readings of English translations. Davis.

504*
Religious Thought and Institutions in the Greco-Roman World
A. 3 cl.
Prereq.: One of the following: 120, 121, 122, H124, H125, 220, 221, 222, 224, 225; Anthro. 515; Hist. 601, 602, 603, 604; Philos. 210, 270, 511; Pol. Sc. 365.
Selected topics from the history of Greek and Roman religion, based on readings in ancient and secondary sources. Hahn.

505*
Political Thought and Institutions in the Greco-Roman World
Sp. 3 cl.
Prereq.: One of the following: 120, 121, 122, H124, H125, 220, 221, 222, 224, 225; Anthro. 515; Hist. 601, 602, 603, 604; Philos. 210, 270, 511; Pol. Sc. 365.
Selected topics concerning the development of ancient political theory. Babcock.

506*
Greek and Roman Science and Technology
A. 3 cl.
Prereq.: One of the following: 120, 121, 122, H124, H125, 220, 221, 222, 224, 225; Anthro. 515; Hist. 601, 602, 603, 604; Philos. 210, 270, 511; Pol. Sc. 365.
The origins and achievements of Greek and Roman science and technology. Hahn.

694
Group Studies
W.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Investigation of particular problems in various areas of classical studies.

699
Senior Tutorial and Essay
Open only to seniors majoring in Classics.
Individual work leading to the writing of a final paper that will integrate the experience of earlier courses in classics.
Comparative Literature and Languages

Office: 227 Derby Hall, 354 North Oval Drive

Mr. Lawson (Chairman); Professors Haber (Emeritus) and Rodgers (Emeritus); Assistant Professors Boyer, Brooks, Burkmann, Callander, and Wehner; Instructor Rodriguez.

101 U 5
Man Views Himself Through Literature: Social and Individual Man
H101 (Honors) may be available to students enrolled in a college Honors Program.
1st or 2nd yr. standing only.
101, 102, and 103 provide a sequence but may be taken independently.
Literary examples of the conflict between man's existence as social being and the urge to maintain authenticity of his inner life; Iliad to Kafka.

102 U 5
Man Views Himself Through Literature: Religious and Secular Man
1st or 2nd yr. standing only.
H102 (Honors) may be available to students enrolled in a college Honors Program.
101, 102, and 103 provide a sequence but may be taken independently.
Man's attempt to cope with ultimate problems of existence lead to variety of responses; Divine Order (Dante) to universe without any discernible order (Beckett).

103 U 5
Man Views Himself Through Literature: Rational and Passionate Man
1st or 2nd yr. standing only.
H103 (Honors) may be available to students enrolled in a college Honors Program.
101, 102, and 103 provide a sequence but may be taken independently.
Development of rational and passionate in human nature; Lucretius to Heller show man's attempt to reconcile, ignore, or suppress one at expense of the other.

201 U 5
Absurdist Drama and Theory
A, W, Sp. 5 cl.
Prereq.: 3 cr. hrs. in literature.
Study of absurdist authors; several critical-theoretical works about contemporary comedy and the study of comic antecedents.

202 U 5
The Picaresque Tradition
A, W, Sp. 5 cl.
Prereq.: 3 cr. hrs. in literature.
Concentrating exclusively on the picaro and picaresque tradition in European and American literature from origins in the 16th century to counterparts in present.

203 U 5
Shorter Prose Forms
A, W, Sp. 5 cl.
Prereq.: 3 cr. hrs. in literature.
Systematic study of the essay: its development as a genre; various forms and styles; broad selection for comparative purposes of famous essays.

301 U 5
Concepts of Love in European Literature
A. 5 cl.
Prereq.: 5 cr. hrs. in literature and jr. standing.
Study of various concepts of love as they appear in and influence European literature from ancient authors to Shaw.

302 U 5
Women Prose Writers of the 19th and 20th Centuries
W. 5 cl.
Prereq.: 5 cr. hrs. in literature and jr. standing.
An evaluation of women as creators and subjects of literature.

303 U 5
Confessional Literature of Continental Europe: The Self Revealed
Sp. 5 cl.
Prereq.: 5 cr. hrs. in literature and jr. standing.
Study of the individual as revealed in personal literature: memoirs, confessions, autobiographies, and novels containing substantial portions of autobiographical material.

501 U 5
Myth and Ritual in Dramatic Literature
W, Sp. 5 cl.
Prereq.: 10 cr. hrs. in literature and jr. standing.
Investigation of ways in which dramatic art is built upon mythical and ritual patterns; exploration of the common concerns of ritual, myth, dramatic structure.

502 U 5
Archetypal Patterns in the Novel
A. 5 cl.
Prereq.: 10 cr. hrs. in literature and jr. standing.
Theories applicable to archetypes and primitive ritual in the novel.
503  U  5
Satire: The Artist’s Critique of His World
Sp.  5 cl.
Prereq.: 10 cr. hrs. in literature and jr. standing.
Evolution of the satiric mode; forms, aims, moral implications; stylistic and aesthetic qualities of each
individual work will be examined.

594  U  1-5
Group Studies
Prereq.: Permission of instructor.
Not open to freshmen or sophomores.
Repeatable to a maximum of 10 cr. hrs.
Designed to give groups of able students an opportunity to pursue special studies not otherwise
offered.

693  U  5-10
Individual Studies
Prereq.: Jr. standing and permission of chairman.
Not open to freshmen or sophomores.
Repeatable to a maximum of 10 cr. hrs.
Designed to give able students an opportunity to pursue special studies not otherwise offered.

H783  U  5-10
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the Comp. Lit. courses taken and an average of
8 in the remainder; permission of the instructor under whose supervision the work is to be completed and
the Arts and Sciences Honors Committee.
Repeatable to a maximum of 10 cr. hrs.
Failure to receive a mark of S in this course is a disqualification for special honors.
Senior Honors course leading to graduation with distinction; independent study for the student with special aptitude.

Computer and Information Science
Office: 103 Caldwell Laboratory, 2024 Neil Avenue
Professors Yowitz (Chairman), Bojnic, Hang, Koarns, LaRue, McGhee, Pepinsky, Reeves, Rothstein, and
Saltzer; Associate Professors Breeding, Chandrasekaran, Ernst, Foulk, Hsiao, Kerr, Lazorkic, Liu, Petracca, Randels, Rush, and White; Adjunct
Associate Professor Wigington; Assistant Professors Biermann, Buttelmann, DeLutris, Koeln, Mathis, and Reeker; Adjunct Assistant Professor Wagner.

201  U  3
Elementary Digital Computer Programming
Su, A, W, Sp.  3 cl.
Not open to students with credit for 211, 221, 240, 241, or Engr. Gr. 200.

Introduction to programming; laboratory experience
with computers; emphasis on social science
applications. Not recommended for students who plan
to continue Computer and Information Science courses.

211  U  3
Computer Data Processing I
Su, A, W, Sp.  3 cl.
Prereq.: Math. 116, 121, or 130.
Not open to students with credit for 201, 221, 240, 241,
or Engr. Gr. 200.
Introduction to electronic computers, computer
programming, and sequential data processing concepts;
laboratory work emphasizes business-oriented
applications.

212  U  4
Computer Data Processing II
Su, A, W, Sp.  4 cl.
Prereq.: 211, 221, 240, 241, or Engr. Gr. 200.
Not open to students with credit for 440.
Business data processing principles and programming;
topics include external sorting techniques, characteristics of direct access storage devices,
concepts of multiple program systems.

221  U  3
Programming and Algorithms I
Su, A, W, Sp.  3 cl.
Prereq.: Math. 152.
Not open to students with credit for 201, 211, 240, 241,
or Engr. Gr. 200.
Algorithms, programs and computers; basic
programming and program structure; emphasis on
scientific computing.

222  U  3
Programming and Algorithms II
Su, A, W, Sp.  3 cl.
Prereq.: 211, 221, or Engr. Gr. 200.
Not open to students with credit for 241.
Algorithms, programs and computers; basic data
structures; survey of computers; emphasis on
non-numerical computing.

294  U  1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Students are given an opportunity to pursue special
studies not otherwise offered.

311  U  4
Introduction to File Design and Analysis
A.  4 cl.
Prereq.: 212, 222, or permission of instructor.
Principles of secondary storage data organization and
maintenance; examination of sequential and direct
file structures on tape and direct access devices.

411  U  4
Design of On-Line Systems
W.  4 cl.
Prereq.: 212, 222, or permission of instructor.
Introduction to environment and processing
requirements for on-line systems; emphasis on both
hardware and software components, and on evaluation
procedures for such systems.
422 U 5
Topics in Computing for Engineers
Su, A, W, Sp. 5 cl.
Prereq.: 201, 211, 291, or Engr. Gr. 200.
Not open to Computer and Information Science majors.
A second course in computing for engineering students,
but not confined to engineering problems; computer
problem solving; computer systems, processing of
business and numerical data.

484 U 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Designed to give the student an opportunity to pursue
special studies not otherwise offered.

505 U G 5
Fundamental Concepts of Computer and
Information Science
A, W. 5 cl.
Prereq.: 211, 221, or Engr. Gr. 200.
Introduction to the fundamental concepts of
computer and information science with a survey of the
principal areas of activity in the discipline.

509 U G 5
Survey of Computer and Information Science for
High School Teachers
Su. 5 cl.
Prereq.: Permission of instructor.
Open only to NSF Summer Institute participants.
An introduction to the nonprogramming areas of
computer and information science, including language
and communication, information theory, artificial
intelligence, and computer assisted instruction.

541 U G 5
Survey of Numerical Methods
Su, A, W, Sp. 5 cl.
Prereq.: 240, 241, or Engr. Gr. 200; concur. Math. 255
or 556.
Not open to students with credit for 640.
Basic techniques of numerical analysis; finite
differences, interpolation, solution of equations,
numerical integration and differentiation; engineering
and scientific applications; laboratory use of
computers.

542 U G 3
Introduction to Computing in the Humanities
A, W, Sp. 3 cl.
Prereq.: Jr. standing.
Use of non-numerical programming language for
efficient and effective text, for forming indices and
concordances, and for studies of style, attribution,
and literary influence.

543 U G 5
Intermediate Digital Computer Programming
Su, A, W, Sp. 5 cl.
Prereq.: 212 or 222.
Introduction to symbolic assembler language, program
linkage, input-output instructions, and machine
organization; laboratory use of computers.

548 U G 5
Digital Computer Programming
for High School Teachers
Su. 5 cl.
Prereq.: Permission of Instructor.
Open only to NSF Summer Institute participants.
A basic course in the history, organization, use and
programming of computers; laboratory experience
with computers.

549 U G 3
Numerical Analysis for High School Teachers
Su. 3 cl.
Prereq.: Permission of instructor.
Open only to NSF Summer Institute participants.
Basic techniques of numerical analysis; finite
differences, interpolation, solution of equations,
integration; laboratory use of computers.

550 U G 5
Introduction to Information
Storage and Retrieval
A, W, Sp. 5 cl.
Prereq.: 211, 221, or Engr. Gr. 200.
Introduction to fundamental concepts of information
storage and retrieval; discussion of existing systems
and their shortcomings; emphasis on current
research and new developments.

555 U G 5
Survey of Programming Languages
Su, W, Sp. 5 cl.
Prereq.: 543.
Survey of programming languages for digital
computers, comparison of various procedure-oriented
languages; implementation techniques.

594 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Designed to give the student an opportunity to pursue
special studies not otherwise offered.

Human Performance
(See under Psych. 620.)

610 U G 5
Principles of Man-Machine Interaction
W, Sp. 5 cl.
Prereq.: Grad. standing or permission of instructor.
Not open to students with credit for Psych. 620.
Systems concepts, their measurement and modeling;
behavioral processes: sensing, learning, memory;
complex information processing, and decision making;
interface theory and interactive systems.

640 U G 5
Numerical Analysis
A, Sp. 5 cl.
Prereq.: 212, 222, or Engr. Gr. 200; Math. 255 or 556,
and Math. 590 or grad. standing and permission
of instructor.
Mathematical analysis of standard numerical methods for interpolation, approximation, and quadrature; numerical solution of nonlinear equations and ordinary differential equations.

641 U G 5
Computer Systems Programming I
Su, A, W, Sp. 5 cl.
Prereq.: 543 or permission of instructor.
Usage of symbolic assembler language and macro assembler programming; introduction to assemblers, compilers, data structures, operating systems, and machine architecture.

642 U G 5
Numerical Linear Algebra
W. 5 cl.
Prereq.: 541 or 640, and Math. 571 or 601.

643 U G 5
Linear Optimization Techniques in Information Processing
A. 5 cl.
Prereq.: 222, and Math. 571 or 601.
Theory of linear programming and duality methods; design and use of computer solutions; post-optimal analysis; computer economics; integer programming.

644 U G 5
Advanced Computer Programming
A, W. 5 cl.
Prereq.: Grad. standing in Comp. and Info. Sc. or permission of instructor.
Not open to students with credit for 641.
Introduction to symbolic assembler language, data structures, and macros; advanced computer programming techniques and application.

652 U G 3
Modeling of Information Systems
A. 3 cl.
Prereq.: Statist. 426 or 521.
Construction of models of information systems; information system components; waiting line models; simulation models; applications of modeling and simulation of information systems.

675 U G 5
Digital Computer Organization
Su, W. 5 cl.
Prereq.: 543 and Math. 577, or grad. standing in Compu. and Info. Sc.
Not open to students with credit for Elec. E. 760.
Simulation of switching circuits, memory elements, design of arithmetic units and control units, error-correcting codes.

680 U G 5
Data Structures
Sp. 5 cl.
Prereq.: 641 or 644, and Math. 577; or grad. standing.
Data structure configurations; stacks, linked lists, and trees; dynamic storage allocation; searching and sorting techniques.

693 U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Students are given an opportunity to pursue special studies not otherwise offered.

694 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Students are given an opportunity to pursue special studies not otherwise offered.

705 U G 5
Mathematical Foundations of Computer and Information Science
A, Sp. 5 cl.
Prereq.: Grad. standing in Compu. and Info. Sc. or permission of instructor.
Concepts of system theory, formal logic; models of computation; Shannon theory of information for discrete systems; concepts of message, symbols, coding.

706 U G 3-5
Information Theory in Behavioral Science
A. 3 cl.
Prereq.: Permission of instructor.
Communication-theoretic models of human information processing; uncertainty and structure as unifying concepts in behavioral science; information-theoretic measures applied to variables affecting human performance.

712* U G 5
Man-Machine Interface
W. 5 cl.
Prereq.: Math. 254 and Psychol. 620.
Information continuity and system operation; information display and regulation; role and usage of operator in information acquisition and transmission, automation, machine augmentation of operator function.

720 U G 5
Introduction to Linguistic Analysis
Su, W. 5 cl.
Prereq.: Permission of instructor.
Introduction to language structure; grammatical description of language; mathematical properties of language representative of information in sentences.

726 U G 3
Theory of Finite Automata
A. 3 cl.
Prereq.: 720 or permission of instructor.
Introduction to the mathematical theory of automata; mathematical background, various types of abstract machines, and decomposition theory of finite automata.
727 U G 3
Turing Machines and Computability
W. 3 cl.
Prereq.: 705 or 720 or permission of instructor.
Turing machines and equivalent models of effective
computability; universality and undecidability; recursive
functions, recursive and recursively enumerable sets;
complexity of computation.

728 U G 3
Topics in Theory of Computing
Sp. 3 cl.
Prereq.: 726 or 727.
Further topics in theory of computing: automata,
computability, and formal languages.

730 U G 5
Basic Concepts in Artificial Intelligence
W. 5 cl.
Prereq.: 705, prereq., or concur.: Statist. 521.
Basic concepts of artificial learning and intelligent
systems; theories, contemporary models;
implementation by hardware and computer simulation.

735 U G 3
Statistical Methods in Pattern Recognition
Sp. 3 cl.
Prereq.: 705 and Statist. 520, or permission of
instructor.
Decision theory models in pattern recognition;
parametric and nonparametric methods; linear
machines; supervised and unsupervised learning;
interactive clustering methods; feature selection;
applications.

740 U G 5
Computer Systems Programming II
Sp. 5 cl.
Prereq.: 641 or 644.
Introduction to job, task, and data management,
memory management, and system macro-instructions;
expert use of job control language.

Mathematical Foundations of the Design
and Use of Automatic Systems I, II, III
(See Math. 741, 742, and 743.)

741 U G 3
Comparative Operating Systems
Su. 3 cl.
Prereq.: 641 or 644.
A careful examination of a number of representative
computer operating systems.

745 U G 5
Numerical Solution of Ordinary
Differential Equations
Sp. 5 cl.
Prereq.: 640, or 541 and permission of instructor.
Not open to students with credit for 645.
Ordinary differential equations; Milne's method,
Simpson's method, Runge-Kutta methods; two-point
boundary value problems; experiments using
computers.

746 U G 5
Advanced Numerical Analysis
Sp. 5 cl.
Prereq.: 642 and 745, or permission of instructor.
A careful treatment of some of the principal numerical
algorithms; complete error analysis; emphasis on
recent developments.

750 U G 5
Modern Methods of Information
Storage and Retrieval
A, Sp. 5 cl.
Prereq.: 550, or grad. standing and permission of
instructor.
Fundamental and modern concepts of storing and
retrieving information; current problems and problem
solutions.

751 U G 3
Fundamentals of Document-Handling
Information Systems
W. 3 cl.
Prereq.: 750.
Fundamentals of information systems: types of
systems; design principles; inputs; storage and
maintenance; outputs; vocabulary control; monitoring
and management; performance evaluation.

752 U G 3
Techniques for Simulation
of Information Systems
W. 3 cl.
Prereq.: Statist. 426 or 521.
Introduction to the methodology and techniques of the
design of computer simulation of information systems.

753 U G 5
Theory of Indexing
W. 5 cl.
Prereq.: 750.
Purposes of indexes; ordering methods; types of
indexes; human and automatic indexing; vocabulary
control; coding of information; reliability; compilation
and evaluation.

754 U G 3
Language Processing for Information
Storage and Retrieval
Sp. 3 cl.
Prereq.: 720 and 750.
Aspects of natural and artificial language processing
and its interaction with information storage and
retrieval; emphasis on the current state of the art.

755 U G 5
Programming Languages
W. 5 cl.
Prereq.: 641 or 644.
Theory and design of assemblers, compilers, and
translators for digital computers; comparison of
various procedure-oriented languages; implementation
techniques.
756 U G 4
Compiler Design and Implementation
A. 3 cl.
Prereq.: 720 and 641 or 644.
Analysis of source language and generation of efficient object code, operator and operand stacks, subroutine and function compilation, and optimization techniques; students will write a simple compiler.

760 U G 3
Selected Topics in the Mathematics of Information Handling
Sp. 3 cl.
Prereq. or concurs.: Statist. 521 and Math. 571.
Repeatable to a maximum of 6 cr. hrs.
Elements of mathematical theories underlying deterministic and stochastic information systems along with associated mathematical techniques.

765 U G 5
Theory of Management Information Systems
Sp. 5 cl.
Prereq.: 705, Psych. 620, and Statist. 520; or permission of instructor.
A study of the role of the information system, its components, and its relationship with information theory, decision theory, and organization theory.

775 U G 3
Advanced Computer Organization
A, Sp. 3 cl.
Prereq.: 675, and 641 or 644.
Specification of microprograms; number representation and arithmetic operations; computer organization and input-output organization.

780 U G 4
File Structures
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 543 and 750.
Introduction to the methodology and techniques of file design, and description of techniques that have been used to implement these designs in automated information systems.

781 U G 3
Aspects of Computer Graphics Systems
Sp. 1 2-hr. cl.
Prereq.: 543; and 675, 712, or permission of instructor.
Discussion of hardware and software techniques involved in the field of computer graphics. The history of the techniques, the present technological status, and principles of importance in designing systems employing graphics consoles will be covered.

788 U G 1-5
Intermediate Studies in Computer and Information Science
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.; subdivisions repeatable.
Intermediate work in one of the specialized areas of computer and information science is offered.

788.01 Theory of Information
788.02 Information Storage and Retrieval
788.03 Theory of Automata
788.04 Artificial Intelligence
788.05 Pattern Recognition
788.06 Computer Systems Programming
788.07 Programming Languages
788.08 Computer organization
788.09 Numerical Analysis
788.10 Man-Machine Interaction
788.11 Formal Languages
788.12 Management Information Systems
788.13 Biological Information Processing
788.14 Socio-Psychological Aspects of Information Processing

793 U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
The individual student is given an opportunity to pursue special studies not otherwise offered.

794 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Students are given an opportunity to pursue special studies not otherwise offered.

797 U G 1-5
Interdepartmental Seminar
Repeatable to a maximum of 6 cr. hrs.
(See under interdepartmental Seminars.)

805 G 3-5
Information Theory in Physical Science
W. 3-5 cl.
Prereq.: 705 or permission of instructor.
Logical structure of measurement and communication, resulting common areas of information theory and physical science; informational nature of organization; informational generalization of physical entropy, applications.

806 G 3-5
Cellular Automata and Models of Complex Systems
Sp. 3-5 cl.
Prereq.: 705 or permission of instructor.
Cellular automata and formal languages applied to problems of modeling complex systems, possible physical and biological realizations; techniques.

812 G 5
Computer and Information Science Research Methods
Sp. 4 cl., 1 2-hr. lab.
Prereq.: Statist. 521 and 523.
Research strategy, statistical evaluation, design, analysis, and interpretation of data obtained from information systems experimentation.

Human Performance Theory
(See under Psych. 816.)
820  G 3
Computational Linguistics
Sp.  3 cl.
Prereq.: 212, 222, or 542; and 720 or Ling. 601.
Repeatable to a maximum of 6 cr. hrs.
Computational techniques in the study of language; contributions of linguistic theory and computer science to language data processing. Students will undertake a project in the area.

835  G 3
Special Topics in Pattern Recognition
A.  3 cl.
Prereq.: 735 and Statist. 521, or permission of instructor.
Image processing, scene analysis techniques, formal grammars and structural methods in pattern description, patterns and algorithms, character recognition, bio-medical, and other applications.

840  G 3
Operating System Implementation
A.  3 cl.
Prereq.: 740.
Advanced concepts in job, task, data, and memory management; multiprogramming and multiprocessing; implementation on a typical computer.

845  G 5
Numerical Solution of Partial Differential Equations
A.  5 cl.
Prereq.: 642 and 745.
Numerical solution of partial differential equations by finite-difference methods; treatment of parabolic, hyperbolic, and elliptic equations; consistency, convergence, and stability considerations.

850  G 3
Theory of Information Retrieval I
W.  3 cl.
Prereq.: 543 and 753.
Correlation of information retrieval theory and practice into a unified theory of information retrieval; existing and proposed retrieval systems will be examined and evaluated.

851  G 3
Theory of Information Retrieval II
Sp.  2 cl., 1-2-hr. lab.
Prereq.: 850.
Data processing techniques, modelling of retrieval systems, and feedback mechanisms; algorithms, system models, and computer programs will be prepared to demonstrate the information retrieval process.

852  G 3
Design and Analysis of Information Systems Simulations
Sp.  3 cl.
Prereq.: 652 or 752.
Consideration of the strategic and tactical problems of planning information systems simulation; analysis of the results of information systems simulation experiments; studies of significant information systems simulations.

855  G 3
Formal Theory of Programming Languages
W.  3 cl.
Prereq.: 726, 727, or 728.
Formal systems underlying various programming languages. Formal descriptions of semantics and syntax of programming languages and computer programs.

865  G 3
Seminar on Socio-Psychological Aspects of the Information Sciences
W.  3 cl
Prereq.: Permission of instructor.
Ecological, organizational, interpersonal, and intrapersonal aspects of information, production, exchange, and use.

880  G 3
Advanced Theory of Computability
A.  3 cl.
Prereq.: 727 or permission of instructor.
Machine-independent recursive function theory; enumeration, iteration, and recursion theorems; creative and productive sets; strong and weak reducibilities; degrees of unsolvability.

888  G 1-5
Advanced Studies in Computer and Information Science
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.; subdivisions repeatable.
Advanced work in one of the specialized areas of computer and information science is offered.

888.01 Theory of Information
888.02 Information Storage and Retrieval
888.03 Theory of Automata
888.04 Artificial Intelligence
888.05 Pattern Recognition
888.06 Computer Systems Programming
888.07 Programming Languages
888.08 Computer Organization
888.09 Numerical Analysis
888.10 Man-Machine Interaction
888.11 Formal Languages
888.12 Management Information Systems
888.13 Biological Information Processing
888.14 Socio-Psychological Aspects of Information Processing

889  G 1-5
Advanced Seminar in Computer and Information Science
Prereq.: 2nd qtr. grad. standing in Compu. and Info. Sc. or permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Selected topics of particular current interest in both the research and applications of computer and information science are considered.
Dairy Science

Office: 116 Plumb Hall, 625 Stadium Drive

Professors: VanDemark (Chairman), Barr, Brakel, Conrad, Fechheimer, Gomes, Harvey, Hibbs (Associate Chairman, Wooster), Ludwick, Porter, Porterfield, and Stauber; Associate Professors: Alaire, Mines, Kaeser, and Taylor; Assistant Professors: Palmquist, Pritchard, Schaubach, Smith, and Willett; Instructors: Fuller, Neuhaus, and Rader.

Domestic Animals in the Service of Man
(See Animal Sc. 100.)
(Offered in cooperation with Depts. of Dairy Sc. and Poul. Sc.)

GENERAL PREREQUISITES FOR COURSES
NUMBERED 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-199.

201 U 5
Fundamentals of Dairy Science
A, W. 3 cl., 2 2-hr. lab.
Prereq.: Biol. 100.
The production phases of the dairy industry and the physiological systems of dairy animals. Brakel.

207 U 3
Dairy Cattle Type Evaluation
Sp. 1 2-hr. lab., 1 4-hr. lab.
Prereq.: 201 and 15 cr. hrs. in Biological Sciences. Dairy breed type standards and their application to herd improvement. Kaeser.

340 U 5
Dairy Herd Management
W. 3 cl., 2 2-hr. lab.
Prereq.: 201 and 430.
Problems and practices concerned with efficient production of milk and successful operation of a dairy herd. Kaefer.

420 U 5
Principles of Animal Improvement
A, W, Sp. 5 cl.
Prereq.: Animal Sci. 100, Math. 150 or equiv. and Genetics 140 or 314.
Not open to students with credit for Animal Sc. 420 or Poul. Sc. 420.
(Cross-listed in the Depts. of Animal Sc. and Poul. Sc.)
An introduction to the methods available for bringing about genetic change in farm animals. Fechheimer, Jaap, and Swiger.

430 U 5
Principles of Animal Nutrition
Su (1st term), A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: Chem. 102 or 122 and Math. 150 or equiv.
Not open to students with credit for Animal Sc. 430 or Poul. Sc. 430.
(Cross-listed in the Depts. of Animal Sc. and Poul. Sc.)
A study of fundamental principles of nutrition in mammals and birds. Cline, Latshaw, and Tyznik.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 10 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

Marketing Dairy Products
(See Agr. Econ. 526.)
(Offered in cooperation with the Dep. of Dairy Sc.)

593 U 3 or 5
Individual Studies
H593 (Honors) may be available to students enrolled in a college Honors Program or eligible for enrollment. Prereq.: Permission of instructor.
Special assignments and elementary research; students elect problems after conference with the instructor in charge.
GENERAL PREREQUISITES FOR COURSES NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 20 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

610  U  G  3
Physiology of Lactation
A. 2 2-hr. cl.
Prereq.: Vet. Physiol. 211 and 20 cr. hrs. of Dairy Sc., Animal Sc., or vertebrate biology.
Not open to students with credit for Animal Sc. 610. (Cross-listed in the Dept. of Animal Sc.)
The physiological, endocrine, nutritional, and environmental factors influencing the synthesis and ejection of milk. Porter.

612  U  G  3
Physiology of Reproduction and Growth
Sp. 3 1-hr. lec.
Prereq.: Vet. Physiol. 211 and 20 cr. hrs. of Dairy Sc., Animal Sc., or vertebrate biology.
Not open to students with credit for Animal Sc. 612. (Cross-listed in the Dept. of Animal Sc.)
Physiology of the reproductive system and of growth and development in farm animals; factors influencing reproductive performance. Ludwig.

613  U  G  3
Laboratory in Reproductive Physiology and Artificial Insemination
Sp. 2 2-hr. lab.
Prereq. or concurs.: 612.
Not open to students with credit for Animal Sc. 613. (Cross-listed in the Dept. of Animal Sc.)
Comparative anatomy and physiology of reproduction of farm animals; physiological bases for the use of artificial insemination in the research laboratory and in the field. Ludwig.

631  U  G  5
Nutrition and Feeding of Ruminant Animals
A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: 430 or equiv.
Not open to students with credit for Animal Sc. 631. (Cross-listed in the Dept. of Animal Sc.)
The nutrition of dairy cattle, beef cattle and sheep; principles and practices. Cline, Staubus, and Tyszniak.

640  U  G  5
Evaluation and Integration of Research for Dairy Operations
Sp. 5 cl.
Prereq.: 201, 340, 420, 430, Agr. Econ. 310.01, or 310.02, 5 cr. hrs. Physiol.
The integration of scientific principles to maximize efficiency in dairy operations. Brakel.

694  U  G  3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.

Special assignments and advanced research for groups; problems assigned after consultation with the instructor in charge.

GENERAL PREREQUISITES FOR COURSES NUMBERED 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr. hrs. in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

710  U  G  3 or 5
Advanced Reproductive Physiology
Sp. 2 2-hr. cl.
Prereq.: 612 and acceptable courses in Physiol., Anat., and Biochem.
Not open to students with credit for Animal Sc. 710. (Cross-listed in the Dept. of Animal Sc.)
Recent advances in research in mammalian reproduction; optional individual research experience in reproductive problems with small and large mammals for additional credit. Gomes and VanDemark.

729  U  G  5
Genetics of Animal Populations
W. 5 cl.
Prereq.: 420 or Genetics 630 and 10 cr. hrs. in Math.
Not open to students with credit for Animal Sc. 729 or Poull Sc. 729.
(Cross-listed in the Depts. of Animal Sc. and Poull Sc.)
Theory and practice of analyzing and altering the genetic composition of animal populations. Swiger.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

880  G  1
Seminar

810  G  3
Advances in Physiology of Domestic Animals
A, W, Sp. 4-hr. cl.
Prereq.: Permission of instructor and acceptable courses in Physiol., Anat., and Biochem.
Not open to students with credit for Animal Sc. 810 or Poull Sc. 810.
(Cross-listed in the Depts. of Animal Sc. and Poull Sc.)
810.01* Adrenal Function
A. Brown and Gomes.
810.02* Endocrinology of Reproduction
W. Gomes.
810.03* Immunology and Immunogenetics
810.04* Thyroid and Parathyroid Function
A. Hibbs.
820  G 3
Current Topics in Animal Genetics
3 cr.
Prereq.: Acceptable courses in Animal Genetics, Math., and Statistics. 
Repeatable to a maximum of 12 cr. hrs.
Not open to students with credit for Animal Sc. 820 or 
Poul. Sc. 820.
(Cross-listed in the Depts. of Animal Sc. and Poul. Sc.)
820.01  Selection Index Theory
Sp.
Alaire and Harvey.
820.02*  Non-additive Genetic Variance
W.
Harvey and Swiger.
820.03*  Polymorphic Systems
W.
Fechheimer.
820.04*  Simulation of Genetic Systems
W.
Harvey.
820.05*  Cytogenetics of Animal Populations
W.
Fechheimer.
820.06*  Physiological Indices in Animal Breeding
A.
Jaap.

830  G 3
Advanced Studies in Nutrition
A, W, Sp.  3 or 4 cr.
Prereq.: Permission of instructor.
Not open to students with credit for Animal Sc. 830 or 
Poul. Sc. 830.
(Cross-listed in the Depts. of Animal Sc. and Poul. Sc.)
830.01*  Energy
A.
Conrad.
830.02*  Minerals
W.
Cline.
830.03*  Proteins and Amino Acids
Sp.
Mahan, Naber, and Vivian.
830.04*  Vitamins
A.
Naber and Tynkik.
830.05*  Lipids
W.
Palmquist.
830.06*  Laboratory Methods in Nutrition
Sp.
Allred, Mahan, and Vivian.
830.07*  Rumen Microbiology
Su.
Dehority.

885  G 5
Research Principles and Methods
Su, Sp.  3 cr., 1.4-hr. lab.
Prereq.: Genetics 650, 8 cr. hrs. in Math., and 2 qtrs. 
grad. study.
Survey and analysis of research in dairy and animal 
science, literature reviews, collection of data, 
preparation of bibliographies, and presentation of 
reports. Gilmore and VanDemark.

398  G 1
Interdepartmental Seminar
in Nutrition and Food Technology
Sp.
(See under Interdepartmental Seminars.)

993  G 3 or 5
Individual Studies
Exploratory research and advanced assignments; 
students elect problems after conference with the 
instructor in charge.

999  G Arr.
Research
Research for thesis or dissertation purposes only.

Dance

Office: 2043 Milikin Road

Professor Alkire (Chairman); Associate Professors
Blaine, Currier, Lilly, Venable, and S. Wynne;
Assistant Professors Blum and Saul; Instructors
Kimble, Kinney, Phillips, and D. Wynne.

111  U 3
Techniques and Materials of Dance
A.  11 lab. hrs.
Prereq.: Admission by qualifying audition and 
permission of Division Chairman.
Required of majors in Dance.
Technique: modern dance and ballet; improvisation.

112  U 3
Techniques and Materials of Dance
W.  11 lab. hrs.
Prereq.: 111 or equiv.
Required of majors in Dance.
Continuation of 111.

113  U 3
Techniques and Materials of Dance
Sp.  11 lab. hrs.
Prereq.: 112 or equiv.
Required of majors in Dance.
Continuation of 112.

160  U 5
The Arts in Contemporary America
A, W, Sp.  4 cr., 1 lab. hr.
(Cross-listed in the Div. of Art Education and the 
School of Music.)
A study of the role of the arts in American society based on live, recorded, and filmed performances and exhibitions.

190 Ethnic Dance Forms
A. 2 1-hr. lec., 4 1-hr. lab.
Prereq.: 112.
Folk forms as practiced by ethnic groups in selected cultures.

198 Dance Workshop
Required of all majors in Dance.
Repeatable to a maximum of 15 cr. hrs.
Performance and production activities.

200 Dance in the 20th Century
A, W, Sp. 4 cl.
Not open to students with credit for 138.
Dance as a performing art in Europe and America; a survey of major stylistic trends, principal artists and their works.

214 Techniques and Beginning Composition
A. 12 lab. hrs.
Required of majors in Dance.
Techniques: modern dance and ballet; composition.

215 Techniques and Beginning Composition
W. 12 lab. hrs.
Required of majors in Dance.
Continuation of 214.

216 Techniques and Beginning Composition
Sp. 12 lab. hrs.
Required of majors in Dance.
Continuation of 215.

248 Reconstruction, Analysis, and Teaching of Folk Dance Forms
A, Sp. 1 cl., 2 2-hr. lab.
Prereq.: 2 qtrs. of modern dance or equiv.
Movement techniques and styles inherent in folk dance forms with application to teaching.

283 Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Individual studies of specified problems in the field of dance.

294 Group Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 25 cr. hrs.

299 The University Dance Company
A, W, Sp. 3 or more hrs. of rehearsal.
Prereq.: Admission by audition to students enrolled in Dance Major Curriculum.
Repeatable to a maximum of 12 cr. hrs.
Performance opportunities; repertory includes works by resident and visiting choreographers and dances mounted through the use of Labanotation scores.

438 Dance Notation I
A, W. 2 cl., 2 1-hr. lab.
Basic principles of Labanotation; work in theory, reading, and writing.

439 Dance Notation II
W, Sp. 2 cl., 2 1-hr. lab.
Prereq.: 438 or permission of instructor.
Continuation of 438.

531 Theory and Practice of Modern Dance
Sp. 2 cl., 3 lab. hrs.
Prereq.: Permission of instructor.
Foundations for teaching; laboratory problems, lectures, readings, and discussions.

532 Intermediate Dance Composition
A. 6 lab. hrs.
Prereq.: Permission of instructor.
Problems in extended solos; duets.

533 Dance Production
A, W, Sp. 2 1-hr. cl., 10 lab. hrs.
Prereq.: Permission of instructor.
A study of the production problems in staging dance for the theatre; lectures, readings, and discussions.

534 Dance Techniques and Repertory I
A. 15 lab. hrs.
Prereq.: 216 or equiv.
Technique: modern dance and ballet; repertory: learning a dance work scored in Labanotation.

535 Dance Techniques and Repertory II
W. 15 lab. hrs.
Prereq.: 534.
Continuation of 534.

536 Dance Techniques and Repertory III
Sp. 15 lab. hrs.
Prereq.: 439 and 535.
Technique: modern dance and ballet; repertory: reading a dance work from a Labanotation score.
537 U G 3
Music for Choreography
A. 3 1-hr. lec., 1 2-hr. lab.
Prereq.: 531 or equiv.
Study of music suitable for choreographic purposes
and the various approaches to the use of music in
dance composition.

537 U 3-15
Student Teaching in Dance in Secondary Schools
Prereq.: Education 4th yr. standing.
Repeatable to a maximum of 15 cr. hrs.
Observation, participation, and teaching in a public
school; individual and group conferences or seminars.

539 U 2
Directed Teaching Experience in Dance
A, W, Sp. 1 4-hr. lab.
Prereq.: Permission of departmental adviser.
Repeatable to a maximum of 6 cr. hrs.

594 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies of specified problems in the field of
dance.

600 U G 3
Advanced Notation
A. 2 cl., 1 2-hr. lab.
Prereq.: 439 or equiv.
Repeatable to a maximum of 9 cr. hrs.
Advanced Labanotation.

637 U G 2-6
Dance Technique and Repertory IV
A. Arr.
Prereq.: 536 or equiv.
Technique: modern and ballet; repertory: new or
repertory works; related units of study.

638 U G 2-6
Dance Technique and Repertory V
W. Arr.
Prereq.: 637 or equiv.
Continuation of 637.

639 U G 2-6
Dance Technique and Repertory VI
Sp. Arr.
Prereq.: 638 or equiv.
Continuation of 638.

650 U G 4
Advanced Dance Composition
A, Sp. 9 lab. hrs.
Prereq.: 439, 532 or equiv.
Choreographing a group dance; experience in casting
and directing.

657 U G 3
History of Dance I
A. 4 cl.
Survey of dance as a communal activity, functioning
as ritual, art, and play, with particular emphasis on
dance in tribal cultures and in the Greek Theatre.
Wynne.

658 U G 3
History of Dance II
W. 4 cl.
Survey of dance from medieval times to the late
18th century, with particular emphasis on dance styles
of the 19th through the 18th centuries. Wynne.

659 U G 3
History of Dance III
Sp. 4 cl.
Survey of dance in Europe and the United States from
the end of the 18th century to the present with
emphasis on ballet and modern dance. Wynne.

660 U G 3
The Romantic Ballet
A. 3 cl.
Prereq.: Grad. or senior standing and permission of
adviser.
The ballet in France, Russia, and other influential
centers from Neo-Classicism to the end of the 19th
century.

693 U G 1-5
Individual Studies in Dance
Prereq.: Grad. or sr. standing and permission of adviser.
Repeatable to a maximum of 20 cr. hrs. for
undergraduate credit and to a maximum of 30 cr. hrs.
for graduate credit.
Investigation of selected professional problems.

694 U G 1-5
Group Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 25 cr. hrs.

801 G 1-5
Seminar in Dance
Repeatable to a maximum of 15 cr. hrs.

802 G 3-5
Choreographic Projects
Prereq.: 650 or equiv.
Repeatable to a maximum of 25 cr. hrs.
Advanced choreographic projects.

994 G 3
Problems in Dance
Advanced problems in dance, individual or group
participation.
Dental Hygiene

Office: 3070 Dentistry Building, 305 West 12th Avenue
Nancy M. Reynolds, Chairman and Director

Professors J. R. Wilson (Dean), App, Blazis, Brooks, Bruce, Cavalier, Clarke, Conroy, Cushman, Dew, Heinrich, King, Kuhn, Long, Permar, W. Postle, Reynolds, S. Wallace, W. Wallace, Williams, and Woelfel;
Associate Professors Beckwith, Foreman, Hall, Huffman, Porter, H. Postle, and Tripp; Assistant Professors Herr, Mole, Murphy, Pappas, Snyder, and Whitacre;

201  U 3
Dental Anatomy
A.  1 cl., 6 lab. hrs.
Prereq.: Dent. Hyg. 1st yr. standing.
The morphology of human teeth and surrounding structures. Permar.

203  U 2
Dental Anatomy
W.  1 cl., 2 lab. hrs.
Prereq.: Dent. Hyg. 1st yr. standing.
A continuation of 201; the physiology of human teeth and surrounding structures. Permar.

223  U 3
Dental Prophylaxis
W.  1 cl., 6 lab. hrs.
Prereq.: Dent. Hyg. 1st yr. standing.
The demonstration of and the application of technical procedures for the removal of hard and soft deposits from the surfaces of the teeth. Reynolds.

224  U 2
Dental Prophylaxis
Sp.  1 cl., 3 clinic hrs.
Prereq.: Dent. Hyg. 1st yr. standing.
Clinical application of the principles and technical procedures taught in Dental Prophylaxis 223. Reynolds.

233  U 2
Oral Histology and Embryology
W.  2 cl.
Prereq.: Dent. Hyg. 1st yr. standing.
A study of the microscopic anatomy of the teeth and surrounding structures; the development of the teeth, oral cavity, and face. Permar.

236  U 3
Chemistry for Dental Hygienists
Sp.  3 cl.
Prereq.: Dent. Hyg. 1st year standing.
Not open to students with credit for 335.
A survey of general chemical principles and an introduction to fundamental physiological applications of organic chemistry for dental hygiene students. Foreman.

263  U 1 or 2
Oral Radiography
Sp.  2 cl., or 6 lab. hrs.
Prereq.: Dent. Hyg. 1st yr. standing or sr. standing in radiologic technology.
Not open to students with credit for 361.
The theory and technical procedures of oral radiography. Pappas.

273  U 3
Dental Materials
Sp.  1 cl., 6 lab. hrs.
Prereq.: Dent. Hyg. 1st yr. standing.
Not open to students with credit for 372.
A study of the composition, chemical and physical properties, manipulation, and uses of various materials employed in the practice of dentistry. Woelfel.

283  U 1
Periodontology
Sp.  1 cl.
Prereq.: Dent. Hyg. 1st yr. standing.
A study of the formation of deposits on teeth, the maintenance of good oral hygiene, and the prevention of periodontal disease. App.

295  U 1
Survey of Dental Hygiene
A.  1 cl.
Prereq.: Dent. Hyg. 1st yr. standing.
The historical, professional, legal, ethical, and preventive aspects of dental hygiene. Reynolds.

301  U 1
Pain Control
W.  1 cl. or 3 lab. hrs.
Prereq.: Dent. Hyg. 2nd yr. standing.
The role of the dental hygienist as an assistant in anesthesia; premedication; physiological responses to and pharmacological actions of anesthetic agents; emergency treatment. Snyder.

311  U 2
Dental Nursing
A.  2 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
A discussion of ways in which the dental hygienist may assist the general practitioner of dentistry or one specializing in any field of dentistry. Reynolds.

312  U 2
Dental Nursing
W.  2 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
Problems which students encounter in the dental hygiene clinic; practical experience in dental assisting. Reynolds.
Dental Hygiene

313 U 1
Dental Nursing
Sp. 1 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
A continuation of 312. The dental hygienist's responsibilities to her profession. Reynolds.

321 U 4
Clinical Dental Prophylaxis
A. 12 clinic hrs.
Prereq.: Dent. Hyg. 2nd yr. standing.
Clinical application of principles taught in 223. Reynolds.

322 U 5
Clinical Dental Prophylaxis
W. 14 clinic hrs.
Prereq.: Dent. Hyg. 2nd yr. standing.
A continuation of 321. Reynolds.

323 U 4
Clinical Dental Prophylaxis
Sp. 12 clinic hrs.
Prereq.: Dent. Hyg. 2nd yr. standing.
A continuation of 322. Reynolds.

331 U 1
Pharmacology
A. 1 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
A study of drugs commonly used in dental practice and correct methods for their use. Reynolds.

334 U 2
Chemistry for Dental Hygienists
A. 2 cl.
Prereq.: 236.
Not open to students with credit for 335. Application of the principles of biological chemistry to the practice of dental hygiene. Foreman.

341 U 3
Introduction to General and Oral Pathology
A. 1 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
Basic principles of pathology; interpretation of the patient's medical history, pathogenesis and symptomatology of oral disease. Bruce and Cavalaris.

381 U 1
Community Dental Health
A. 1 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
An introduction to community dental health and the planning and initiation of community dental health projects. Lucks.

382 U 2
Oral Hygiene in the Schools
W. 2 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
The principles involved in effective dental health education of the general public, especially school children. Penland.

383 U 1
Community Dental Health
Sp. 1 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
A continuation of 381. An application of the principles learned in 381, the continuation and evaluation of community dental health projects. Lucks.

393 U 2
Office Practices and Economics
Sp. 2 cl.
Prereq.: Dent. Hyg. 2nd yr. standing.
The role of the dental hygienist in dental practice and the economics involved. Trippy.

693 U G 1-5
Individual Studies in Dental Hygiene
Prereq.: Written permission.
Repeatable to a maximum of 15 cr. hrs.
Advanced studies in any relevant area of dental hygiene. Reynolds.

694 U G 1-5
Group Studies in Dental Hygiene
Prereq.: Written permission.
Repeatable to a maximum of 15 cr. hrs.
Group studies in special dental hygiene areas. Reynolds.

Dentistry

Office: 1159 Dentistry Building, 305 West 12th Avenue

305 P 1
Dental Materials
Su. 1 cl.
Prereq.: Dent. 1st yr. standing.
A review of physical properties of materials; a study of dental impression materials, cast materials, and denture base resins. Woelfel and Dew.
306 P 1  Dental Materials  
Sp. 1 cl.  
Prereq.: Dent. soph. standing.  
Materials used in the restoration of carious teeth, including dental cements, waxes, plastics, amalgams, gold foil, and casting gold alloys. Chandler.

307 P 4  Dental Morphology and Occlusion  
Su. 3 cl., 3 lab. hrs.  
Prereq.: Dent. fresh. standing.  
The structure and function of the teeth and their contiguous parts, particularly mastication through occlusion.

308 P 5  Dental Morphology and Occlusion  
A. 3 cl., 2-3 hr. labs.  
Prereq.: Dent. fresh. standing.  
A continuation of 307.

309 P 4  Dental Morphology and Occlusion  
W. 3 cl., 3 lab. hrs.  
Prereq.: Dent. fresh. standing.  
A continuation of 308.

320 P 1  Orientation and History of Dentistry  
Su. 1 cl.  
Prereq.: Dent. 1st yr. standing.  
The evaluation of dentistry from the ancient period through the medieval, colonial, early American, and modern periods. Wilson.

324 P 1  Dental Ecology  
Su. 1 cl.  
Prereq.: Dent. fresh. standing.  
Basic concepts in disease control principles of epidemiology, review of dental indices of disease, and a study of dental disease in a community; prevalence, increment and distribution.

325 P 1  Dental Epidemiology I  
A. 1 cl.  
Prereq.: Dent. 1st yr. standing.  

326 P 1  Preventive Dentistry  
W. 1 cl.  
Prereq.: fresh. standing.  
Preventive dentistry: etiology of dental disease; clinical signs and symptoms; disease control; therapeutic and preventive agents, materials and techniques; and actualizing the potential in private practice.

361 P 2  Preventive Periodontics  
Su. 2 cl. or 2 lab. hrs.  
Prereq.: Dent. 1st yr. standing.  
Preventive periodontics includes periodontal morphology, incidence of periodontal disease, clinical gingival health and disease, and etiology and prevention of disease. App.

381 P 4  Complete Prosthodontics  
Su. 1 cl., 6 lab. hrs.  
Prereq.: Dent. 1st yr. standing.  
The elemental principles of impressions and jaw relations and procedures used in the construction of complete dentures. Shannon.

382 P 4  Complete Prosthodontics  
A. 1 cl., 8 lab. hrs.  
Prereq.: Dent. 1st yr. standing.  
The principles and practices of arranging artificial teeth and processing and finishing complete dentures. Shannon.

389 P 5  Removable Partial Prosthodontics  
W. 1 cl., 8 lab. hrs.  
Prereq.: Dent. 1st yr. standing.  
An introduction to the principles of design and construction of removable partial dentures. Heintz.

403 P 1  Local Anesthesia  
W. 1 cl.  
Prereq.: Dent. 2nd yr. standing.  
The theory, chemistry, and technique of local anesthesia for dental procedures. Hlatt.

404 P 1  Dental Materials  
Su, Sp. 1 cl.  
Prereq.: Dent. 2nd yr. standing.  

407 P 2  Occlusion  
Sp. 1 cl., 3 lab. hrs.  
Prereq.: Dent. soph. standing.  
A study of the changes in the masticatory systems which cause an unhealthy occlusion. Melfi.

413 P 1  Endodontics  
W. 1 cl.  
Prereq.: Dent. soph. standing.  
Basic techniques and procedures used in the treatment of pulpless teeth. Brilliant.
431 P 2
Operative Dentistry
Su, Sp. 1 cl., 3 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
An introduction to the principles of operative dentistry; the theory and techniques for simple cavity preparations. H. Postle and Huffman.

432 P 3
Operative Dentistry
A. 1 cl., 6 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
The theory and technical procedures for the preparation of compound and complex cavities and the use of amalgams and silicate as restorative materials. H. Postle and Huffman.

433 P 3
Operative Dentistry
W. 1 cl., 6 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
The theory and technical procedures for the use of gold inlays and gold as restorative materials; preparation for the clinical aspects of operative dentistry. H. Postle and Huffman.

451 P 1
Pedodontics
Sp. 1 cl.
Prereq.: Dent. soph. standing.
Orientation in pedodontics; patient management, and methods of prevention and control of dental caries. Hall.

452 P 3
Pedodontics
A. 1 cl., 2 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
Orientation in pedodontics preparatory for clinical assignments; patient management, modified operative procedures in cavity preparation, pulp management, the manipulation of prefabricated materials, and methods of prevention and control of dental caries. Hall.

453 P 2
Pedodontics and Interceptive Orthodontics
W. 1 cl., 3 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
Preparation of study casts; construction of orthodontic bands, using different materials and techniques; designing appliances for prevention, interception, or correction of incipient malocclusion. Hall and Williams.

461 P 2
Periodontal Pathology and Clinical Diagnosis
Sp. 2 cl., or 2 lab. hrs.
Prereq.: Dent. soph. standing.
Periodontal pathology and clinical diagnosis includes the microscopic, radiographic, and clinical study of all parts of the periodontium in health and disease.

462 P 1
Periodontics
A. 1 cl.
Prereq.: Dent. 2nd yr. standing.
The etiology, pathology, and diagnosis of periodontal disease. App.

463 P 1
Periodontics
W. 1 cl.
Prereq.: Dent. 2nd yr. standing.

482 P 2
Complete Prosthodontics
A. 1 cl., 3 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
The principles and practices of the construction of immediate dentures, and of making esthetic denture restorations. Larrimer.

483 P 3
Complete Prosthodontics
W. 1 cl., 6 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
The principles and practices of impression making as related to the anatomic, histologic, and physiologic considerations. Larrimer.

484 P 2
Fixed Partial Prosthodontics
Su, Sp. 1 cl., 3 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
Principles and technical procedures; complete and partial crowns; preparation, fabrication, and casting in gold. Downes.

485 P 3
Fixed Partial Prosthodontics
A. 1 cl., 6 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
Construction of fixed partial restorations utilizing basic types of retainers, fixed and semi-movable connectors, gold and acrylic pontics. Downes.

486 P 3
Fixed Partial Prosthodontics
W. 1 cl., 6 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
Construction of fixed partial restoration with basic retainers and connectors and glazed porcelain pontic; fabrication of acrylic jacket crown. Downes.

487 P 3
Removable Partial Prosthodontics
Su, Sp. 1 cl., 6 lab. hrs.
Prereq.: Dent. 2nd yr. standing.
The relation of the diagnostic aspects of removable partial dentures to their design and construction. Heintz.

489 P 1
Removable Partial Prosthodontics
W. 1 cl.
Prereq.: Dent. 2nd yr. standing.
The advanced principles and design of removable partial dentures and their clinical applications. Heintz.

501 P 1
Local Anesthesia and Oral Surgery
Su, Sp. 1 cl.
Prereq.: Dent. 3rd. yr. standing.
The chemistry and pharmacology of local anesthesia and an introduction to the basic principles of oral surgery. Hiatt and Snyder.

502 P 1
Oral Surgery
A. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The theory and technique of basic exodontia and minor oral surgery; postoperative complications and treatment. Hiatt and Snyder.

511 P 1
Endodontics
A. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The rationale and prognosis for endodontic procedures; application of clinical treatment techniques peculiar to endodontics including radiography, intra canal preparations, and root fillings. Brilliant.

513 P 2
Endodontics
W. 1 cl., 2 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Diagnostic procedures and the differential diagnosis of endodontic problems; systemic and local use of analgesic and antibiotic drugs; traumatic injuries and surgical procedures. Brilliant.

528 P 1
Community Dentistry
W. 1 cl.
Prereq.: Dent. 3rd yr. standing.
An introduction to, philosophy of, equipment for, and problems encountered in the treatment of dental needs of the handicapped homedown patient. Lotz.

531 P 4
Operative Dentistry
Su, Sp. 1 cl., 6 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Clinical diagnosis of pulp disease; protection and conservative treatment of the vital pulp; factors influencing the success or failure of restorative materials in clinical practice. Beckwith.

532 P 4
Operative Dentistry
A. 1 cl., 6 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Detailed study of restorative materials; indications and contraindications for each; their manipulation and individual requirements in cavity preparation. Beckwith.

533 P 4
Operative Dentistry
W. 1 cl., 6 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Clinical application of the theories and techniques of restoring carious and defective teeth. Beckwith.

540 P 4
Oral Histology and Embryology
Su, Sp. 2 cl., 6 lab. hrs.
Prereq.: Anat. 640; Dent. 2nd yr. standing.
Embryology and histology of teeth and surrounding structures and their correlation to the practice of dentistry. Melfi.

541 P 4
Oral Pathology
Su, Sp. 3 cl., 2 lab. hrs.
Prereq.: Dent. 3rd yr. standing, 540 and Path. 655.
The histopathologic and clinical study of oral disease processes that are chiefly of local origin. Cavalaris.

542 P 4
Oral Pathology
A. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The histopathologic and clinical study of oral disease processes that are associated with systemic disease or diseases of specific organ systems. Cavalaris.

544 P 1
Oral and Physical Diagnosis
Sp. 1 cl.
Prereq.: Dent. soph. standing.
The principles and methods of diagnosis, with emphasis on the dental and medical history of the patient.

545 P 1
Oral Diagnosis and Treatment Planning
A. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The principles and methods of oral diagnosis, with emphasis on the medical and dental history of the patient. Bizios.

546 P 1
Oral Diagnosis and Treatment Planning
W. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The interpretation of signs and symptoms, medical laboratory tests, and treatment planning for the patient. Bizios.

547 P 1
Oral Radiography
Su, Sp. 1 cl.
Prereq.: Dent. soph. standing.
The theory and operation of radiographic equipment; darkroom procedures; discussion of anatomical landmarks as seen radiographically; introduction of intraoral radiographic techniques. O'Brien.

548 P 1
Oral Radiography
A. 1 cl.
Prereq.: Dent. 3rd yr. standing.
Bisection of the angle and long cone techniques used in intraoral radiography; extraoral radiographic techniques. O'Brien.

549 P 1
Oral Radiography
W. 1 cl.
Prereq.: Dent. 3rd yr. standing.
Interpretation of radiographic evidence of pathosis; hazards of ionizing radiation. O'Brien.
551 P 1
Pedodontics
Su, Sp. 1 cl.
Prereq.: Dent. 2nd yr. standing.
Detailed study of materials presented in 452; restorative materials used in pedodontics; the use of X-Ray in pedodontic practice. Hall.

552 P 1
Clinical Pedodontics
A. 2 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Hall.

553 P 1
Clinical Pedodontics
W. 2 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Continuation of 552. Hall.

555 P 1
Orthodontics
A. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The etiology and classification of malocclusion, physiology of tooth movement, character of tissues involved. Williams.

556 P 2
Orthodontics
W. 2 cl.
Prereq.: Dent. 3rd yr. standing.
Methods and appliances for the correction of malposed teeth. Williams.

560 P 1
Periodontics
Su, Sp. 1 cl.
Prereq.: Dent. 3rd yr. standing.

561 P 1
Clinical Periodontics
Su, Sp. 3 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Continuation of 560. App.

562 P 1
Clinical Periodontics
A. 3 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Continuation of 561. App.

563 P 1
Clinical Periodontics
W. 3 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Continuation of 562. App.

572 P 1
Pharmacology
A. 1 cl.
Prereq.: Dent. soph. standing.
General pharmacology including the origin and methods of development of drugs; basic pharmacy involving prescription writing, the metric and apothecary systems, drug standards, and federal drug legislation and regulation. Hiatt.

573 P 1
Pharmacology
W. 1 cl.
Prereq.: Dent. 3rd yr. standing.
The pharmacology of drugs with possible applications to dentistry, including premedications, postmedications, and drugs affecting the autonomic nervous system. Hiatt.

581 P 2
Complete Prosthodontics
Su, Sp. 1 cl., 2 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
The principles and practices of maxillomandibular relation records, articulating instruments and occlusion. Porter.

582 P 3
Complete Prosthodontics
A. 1 cl., 4 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
The principles and clinical practice in the restoration of esthetics and facial expression by artificial dentures. Porter.

583 P 3
Complete Prosthodontics
W. 1 cl., 4 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
The clinical practice of the complete denture service, including the care of patients after dentures have been inserted. Porter.

584 P 1
Fixed Partial Prosthodontics
Su, Sp. 1 cl.
Prereq.: Dent. 3rd yr. standing.
Veneer crowns, dowel and core, temporary coverage; diagnosis and treatment planning; electroplating; clinical applications and practice. Long.

585 P 2
Fixed Partial Prosthodontics
A. 1 cl., 3 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Elastic impression materials and related technics including use of gypsum products, waxes, tissue retraction, and sectioning methods; clinical applications and practice. Long.

586 P 3
Fixed Partial Prosthodontics
W. 1 cl., 6 clinic hrs.
Prereq.: Dent. 3rd yr. standing.
Selection of abutments and retainers, connectors and pontics; additional types of bridgework procedures; clinical applications and practice. Long.

587 P 1
Removable Partial Prosthodontics
Su, Sp. 1 cl.
Prereq.: Dent. 3rd yr. standing.
Complex problems of removable partial dentures and their clinical application. Heintz.

593 P 1-15
Individual Studies
Individual studies in any of the recognized fields of dentistry.

594 P 1-6
Group Studies in Dentistry
Prereq.: Dent. 1st or 2nd yr. standing.
Repeatable.
Group studies in special dental topics.

601 P 2
Physical Diagnosis
Su, Sp. 1 cl, 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
History taking; physical evaluation techniques; common laboratory analyses; nose, throat, and mouth examinations; physiology of normal and pathologic respiration, heart functions and circulation of blood. Allison, Gaston, and Wallace.

602 P 2
Physical Diagnosis and Anesthesia
A. 1 cl, 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Oxygen and carbon dioxide transport; electrolyte and fluid balance; pharmacologic action of sedatives, hypnotics, analgesics, narcotics, intravenous barbiturates, muscle relaxants, inhalation anesthetic agents. Allison, Gaston, and Wallace.

603 P 2
Anesthesia
W. 1 cl, 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Laryngoscopy, endotracheal intubation, maintenance of anesthesia and management during recovery; management of emergencies; use of fluids, drugs, open and closed cardiac massage techniques, and analeptics. Allison, Gaston, and Wallace.

604 P 2
Oral Surgery
Su, Sp. 1 cl, 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Wound healing, inflammation, infection, their mechanism, diagnosis, and treatment; surgical management of exodontics, hyperplasia, and surgical preparation of the mouth for prosthodontics. Allison, Gaston, and Wallace.

605 P 2
Oral Surgery
A. 1 cl, 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Diagnosis and surgical treatment plan for unerupted teeth; incisions, methods for removal of bone, protection for adjacent teeth; hemostatic agents, antibiotics, sutures and suturing. Allison, Gaston, and Wallace.

606 P 2
Oral Surgery
W. 1 cl, 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 605. Diagnosis, surgical treatment, and prognosis for pathologic conditions of the mouth and jaws, of the salivary glands and their ducts, and biopsy for lesions. Allison, Gaston, Wallace, Ford, Russell, and Snyder.

612 P 2
Clinical Endodontics
A. 4 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Brilliant.

613 P 1
Clinical Endodontics
W. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 612. Brilliant.

621 P 1
Dental Practice Administration
Su, Sp. 1 cl.
Prereq.: Dent. 4th yr. standing.
Dental jurisprudence; ethics and legal aspects of the practice of dentistry. Trippy, W. Postle, and Wilson.

622 P 1
Dental Practice Administration
A. 1 cl.
Prereq.: Dent. 4th yr. standing.
Dental economics, records, tax liability. Trippy, W. Postle, and Wilson.

623 P 1
Dental Practice Administration
W. 1 cl.
Prereq.: Dent. 4th yr. standing.
The social aspects of the practice of dentistry. Trippy, W. Postle, and Wilson.

631 P 3
Clinical Operative Dentistry
Su, Sp. 6 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Review of the basic principles of operative dentistry and their clinical application to special problems. Beckwith and Huffman.

632 P 3
Clinical Operative Dentistry
A. 6 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Introduction of special technical applications in operative dentistry and their clinical applications. Beckwith and Huffman.

633 P 3
Clinical Operative Dentistry
W. 6 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 632. Advanced theories, technical procedures, and materials in Operative Dentistry; their value, limitations, and clinical application. Beckwith and Huffman.
641 P G 1
Advanced Oncology
Su, Sp. 1 cl.
Prereq.: Dent. 4th yr. standing.
Dental aspects of oncology including the oral surgical, periodontic, and prosthodontic management of patients with oral neoplastic disease and post-treatment morbidity. Cavalaris.

642 P G 1
Advanced Oncology
A. 1 cl.
Prereq.: Dent. 4th yr. standing.
Medical aspects of oncology including the diagnosis, treatment and prognosis of cancerous problems and discussion of recent advances in cancer research and etiology. Cavalaris.

643 P G 1
Advanced Oncology
W. 1 cl.
Prereq.: Dent. 4th yr. standing.
Clinico-pathologic conference pertaining chiefly to neoplastic disease, particularly in the head and neck regions. Cavalaris.

645 P 1
Clinical Oral Diagnosis and Treatment Planning
A. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Blozis.

646 P 1
Clinical Oral Diagnosis and Treatment Planning
W. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 645. Blozis.

647 P 1
Clinical Oral Radiography
Su, Sp. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
O'Brien.

648 P 1
Clinical Oral Radiography
A. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 647. O'Brien.

649 P 1
Clinical Oral Radiography
W. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 648. O'Brien.

651 P 2
Pedodontics
Su, Sp. 1 cl., 3 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Diagnosis of pulp conditions of primary and young permanent teeth; techniques for treatment; growth and development pertaining to pedodontics; care of handicapped patients. Hall.

652 P 1
Clinical Pedodontics
A. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Hall.

653 P 1
Clinical Pedodontics
W. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 652. Hall.

661 P 1
Clinical Periodontics
Su, Sp. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
App.

662 P 1
Clinical Periodontics
A. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 661. App.

663 P 1
Clinical Periodontics
W. 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 662. App.

672 P 2
Pharmacology
Su, Sp. 1 cl., 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
The chemistry of tranquilizers; indications for their use and their actions; a review of prescription writing. Wallace.

673 P 2
Pharmacology
A. 1 cl., 2 clinic hrs.
Prereq.: Dent. 4th yr. standing.
The clinical practice of special occlusal problems, temporomandibular joint disturbances, cleft palate and surgical prosthesis. Porter.

682 P 2
Clinical Removable Prosthodontics
Su, Sp. 4 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Porter, Heintz.

683 P 2
Clinical Removable Prosthodontics
A. 4 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 682. Porter, Heintz.
Clinical Fixed Partial Prosthodontics
Su, Sp. 4 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Long.

Clinical Fixed Partial Prosthodontics
A. 4 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 684. Long.

Clinical Fixed Partial Prosthodontics
W. 4 clinic hrs.
Prereq.: Dent. 4th yr. standing.
Continuation of 685. Long.

Individual Studies in Dentistry
Prereq.: Dent. 3rd yr. standing.
Repeatable.
Advanced studies in any of the recognized fields of dentistry.

Group Studies in Dentistry
Prereq.: Dent. 3rd or 4th yr. standing.
Repeatable.
Group studies in special dental topics.

Special Problems
Prereq.: Dent. postgrad. or grad. standing.
Repeatable.

Advanced Oral Surgery and Anesthesia
Diagnosis and treatment of surgical conditions of the teeth and contiguous structures; advanced techniques in surgery and local and general anesthesia. Allison and Wallace.

Advanced Orthodontics
Applied osteology and myology in cephalometric roentgenographic interpretations; review of cephalic growth and development factors in normal occlusion; correction of malocclusions and dento-facial malformations. Williams and Wade.

Advanced Periodontics
Diagnosis and treatment of periodontal disease; correlation between the disease of the periodontium and probable systemic diseases, and management of diseases of a purely dental origin. App, Solt.

Advanced Prosthodontics
The diagnosis, treatment, and replacement of missing or lost teeth and parts of the mouth by prosthetic appliances; complete removable partial, or fixed restorations. Boucher, Heintz, Long, and Woelfel.

Advanced Oral Pathology and Diagnosis
The interrelationships of gross microscopic, and clinical pathology; current advances in the field of oral pathology and diagnosis. Cavelaris, Blozis.

Advanced Endodontics
The diagnosis of pulp and perialpal diseases and their treatment by surgical and non-surgical techniques.

Advanced Pedodontics
Lectures, seminars and clinical practice encompassing all phases of pedodontics and interceptive orthodontics.

Advanced Dental Materials
The science of dental materials. McConnell.

Advanced Oral Histology and Embryology
The principles of histology and embryology applied to the structures in the oral region—their development, morphology, functions, and clinical relationships. Melfi.

Advanced Operative Dentistry
Clinical problems in operative dentistry and their correlation with problems in related fields of dentistry; special emphasis on preventive dentistry. Wilson.

Histologic Laboratory Technique
Prereq.: Permission of instructor.
The preparation of oral and dental tissues for microscopic study. Permar.

Research Methods in Dentistry
Prereq.: Permission of instructor.
Repeatable.
A discussion on conceptual, methodological, and technical problems encountered in development of dental research projects.

Special Lectures in Dentistry
Prereq.: Permission of instructor.
Repeatable.
Lectures in special phases in dentistry.
Individual Studies
Prereq.: Permission of instructor.
Repeatable.
Individual assignments in each specialty of dentistry; students will elect to work in desired subjects after a conference with the instructor in charge.
793.01 Oral Surgery and Anesthesia
793.02 Orthodontics
793.03 Periodontics
793.04 Prosthodontics
793.05 Oral Pathology
793.06 Endodontics
793.07 Pedodontics
793.08 Operative Dentistry
793.09 Oral Diagnosis
793.10 Fixed Partial Prosthodontics
793.11 Oral Radiography

Group Studies
Prereq.: Permission of instructor.
Repeatable.
Group studies on special problems in each specialty of dentistry.
794.01 Oral Surgery and Anesthesia
794.02 Orthodontics
794.03 Periodontics
794.04 Prosthodontics
794.05 Oral Pathology
794.06 Endodontics
794.07 Pedodontics
794.08 Operative Dentistry
794.09 Oral Diagnosis
794.10 Fixed Partial Prosthodontics
794.11 Oral Radiography

Seminar in Dentistry
Prereq.: Dent. grad. standing.
A discussion of recent advances in all branches of dental science, review of original literature. Conroy, Foreman, and Mehl.

Specialty Seminars in Dentistry
Prereq.: Permission of instructor.
Repeatable.
Seminars in each of the specialty areas of dentistry, for discussion of pertinent literature, presentation, and discussion of research work, and demonstration of advanced techniques.
795.01 Oral Surgery and Anesthesia
796.02 Orthodontics
796.03 Periodontics
796.04 Prosthodontics
796.05 Oral Pathology
796.06 Endodontics
796.07 Pedodontics
796.08 Operative Dentistry
796.09 Oral Diagnosis
796.10 Fixed Partial Prosthodontics
796.11 Oral Radiography

Advanced Clinical Practice in Dentistry
Prereq.: Permission of instructor.
Repeatable to maximum of 120 cr. hrs.
Broad exposure to advanced principles and practices in each specialty of dentistry.
798.01 Oral Surgery and Anesthesia
798.02 Orthodontics
798.03 Periodontics
798.04 Prosthodontics
798.05 Oral Pathology
798.06 Endodontics
798.07 Pedodontics
798.08 Operative Dentistry
798.09 Oral Diagnosis
798.10 Fixed Partial Prosthodontics
798.11 Oral Radiography

Individual Studies
Prereq.: Permission of instructor.
Repeatable.
Advanced individual studies in dentistry.

Group Studies
Prereq.: Permission of instructor.
Repeatable.
Advanced group studies in dentistry.

Research in Dentistry
Research for thesis purposes only.

Design
Office: 374 Hopkins Hall, 128 North Oval Drive
Professors Wallschlaeger (Chairman), Wooc, and Zimmer
Associate Professor Butler; Assistant Professors Bonner, Gysler, Jones, Lineback, Megert, and Rheinfrank.

Introduction to Industrial Design
A, W, Sp. 3 cl.
Prereq.: Permission of Chairman.
Not open to juniors or seniors in industrial design.
Introduction to the rationale of design and systematic design processes; an overview of the profession of industrial design; an introduction to the Division's educational program.
250 U 3
Studies in Industrial Design
A. 3 2-hr. labs.
Prereq.: Permission of instructor.
Studies in specified areas in the field of industrial design, with emphasis on particular aspects of product, visual communication, and space and enclosure design problems.

251 U 5
Industrial Design I
A. 5 3-hr. labs.
Prereq.: Design majors.
Introduction to the theories, methods, and practices of industrial design with primary emphasis on basic visual language and visual encoding practices.

252 U 5
Industrial Design I
W. 5 3-hr. labs.
Prereq.: 251.
A continuation of 251; primary emphasis on the planning practices of problem delineation and preliminary designing; secondary emphasis on researching and encoding.

253 Industrial Design I
253.01 Industrial Design Theory U 3
Sp. 9 lab. hrs.
Prereq.: 252; concur. 253.03.
Not open to students with credit for 253.
A history of industrial design and a survey of manufacturing practices as they influence the industrial design profession.
253.03 Industrial Design Practices U 2
Sp. 6 lab. hrs.
Prereq.: 252; concur. 253.01.
Not open to students with credit for 253.
Application of photographic knowledge, skills, and techniques as utilized by the industrial designer in various stages of design.

258 U 3
Typography
A, W, Sp. 3 2-hr. labs.
Open only to majors in industrial design and art education or by permission of instructor.
Introduction to the knowledge and skills of typographical design and its corresponding aesthetic, functional, and technological applications and utilizations.

294 U 1-5
Group Studies
A, W, Sp. Lec./lab.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Group studies for special topics in industrial design.

450 U 5
Industrial Design II
A. 5 2-hr. labs.
450.02 Visual Communication Design
Prereq.: 253.01, 253.03 or permission of instructor; concur. 460.02.
Not open to students with credit for 450.
Visual communication practices with primary emphasis on problem delineation, information and data collection, analysis, synthesis, and evaluation.
450.04 Product Design
Prereq.: 253.01, 253.03 or permission of instructor; concur. 460.04.
Not open to students with credit for 450.
Study of the systems and factors of product design, including materials and human factors; emphasis on problem delineation, preliminary design, data and information collection and analysis.
450.08 Space and Enclosure Design
Prereq.: 253.01, 253.03 or permission of instructor; concur. 460.08.
Not open to students with credit for 450.
Introduction to advanced methods of design inquiry organization, information analysis, and decision-making techniques, including general systems theory as utilized to design enclosed spatial systems.

451 U 5
Industrial Design II
W. 5 2-hr. labs.
451.02 Visual Communication Design
Prereq.: 450.02, 460.02; concur. 461.02.
Not open to students with credit for 451.
Study and practice of processing information and data with primary emphasis on encoding, detail designing, and specifying the design production.
451.04 Product Design
Prereq.: 450.04, 460.04; concur. 461.04.
Not open to students with credit for 451.
Study of the materials and production processes of product design, with emphasis on information and data analysis, performance specification, and preliminary design.
451.08 Space and Enclosure Design
Prereq.: 450.08, 460.08; concur. 461.08.
Not open to students with credit for 451.
Study of material manufacturing processes, and material technology as utilized in the fabrication of mass-produced spatial enclosures.

452 U 5
Industrial Design II
Sp. 5 2-hr. labs.
452.02 Visual Communication Design
Prereq.: 451.02, 461.02; concur. 452.02.
Not open to students with credit for 452.
Study of visual communication practices with primary emphasis on decoding, production methods, techniques, and their applications.
452.04 Product Design
Prereq.: 451.04, 461.04; concur. 461.04.
Not open to students with credit for 452.
Study of human factors involved in product design and evaluation; continued study of design processes, with secondary emphasis on detail design and production specification.
452.08 Space and Enclosure Design
Prereq.: 451.08, 461.08; concur. 452.08.
Not open to students with credit for 452.
Introduction to the principles of structural design and analysis as applicable to the forms and shapes utilized to create spatial compartments and aggregations of compartments.
Industrial Design II
A. 5 2-hr. labs.

460.02 Visual Communication Design
Prereq.: 253.01, 253.04; concur. 450.02.
Not open to students with credit for 460.
Application of, and experimentation with, a variety of materials, processes, and techniques (as directed in 450.02) available for use by the visual communicator.

460.04 Product Design
Prereq.: 253.01, 253.03; concur. 450.04.
Not open to students with credit for 460.
Study of product design planning and information and data processing techniques; primary emphasis on visualization, communication techniques, and encoding.

460.08 Space and Enclosure Design
Prereq.: 253.01, 253.03 and Compu. and Info. Sc. 240 or 241 or Engr. Graphics 200.
Not open to students with credit for 461.
Application of research, planning, and decision-making techniques for the design of space enclosure systems; utilization of computer applications available to the designer.

Industrial Design II
W. 5 2-hr. labs.

461.02 Visual Communication Design
Prereq.: 450.02, 460.02; concur. 451.02.
Not open to students with credit for 461.
Study of selected practices in encoding and transmitting the communicative act or product (as directed in 451.02).

461.04 Product Design
Prereq.: 450.04, 460.04; concur. 451.04.
Not open to students with credit for 461.
Application of the knowledge of materials and production processes to product design, with primary emphasis on performance specifications and preliminary design techniques.

461.08 Space and Enclosure Design
Prereq.: 450.08, 460.08; concur. 451.08.
Not open to students with credit for 461.
Introduction to the fundamental principles of designing interior environments and equipment: lighting, power distribution, heating and cooling systems, interior transport, acoustics, and sound systems.

Industrial Design II
Sp. 5 2-hr. labs.

462.02 Visual Communication Design
Prereq.: 451.02, 461.02; concur. 452.02.
Not open to students with credit for 462.
Study and simulation of the interaction of management, personnel, and production practices as employed in the development of a communication product.

462.04 Product Design
Prereq.: 451.04, 461.04; concur. 452.04.
Not open to students with credit for 462.
Application of preliminary and detailed design procedures and production specification, with primary emphasis on an integration of materials and human factors.

462.08 Space and Enclosure Design
Sp. 5 2-hr. labs.
Prereq.: 451.08 and 461.08; concur. 452.08.
Study of the principles of space lattice development and packing cell geometry applicable to space and enclosure systems.

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Group studies for special topics in industrial design.

Space Enclosure Systems
Sp. 1 cr., 3 lab. hrs.
Prereq.: Senior or grad. standing, permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Studies in space lattice development and variables of form and proportion of packaging cells directed toward application in packaging, space frames, partitioning, and compartment design.

Industrial Design III

660.02 Visual Communication Design
A. 5 2-hr. labs.
Prereq.: 452.02 or 462.02; concur. 694.02 for 5 cr. hrs.
Not open to students with credit for 665.
Advanced study of the encoding, transmitting, production, and diffusion practices of visual communication design.

660.04 Product Design
A. 5 2-hr. labs.
Prereq.: 452.04 and 462.04; concur.: 694.04 for 4 cr. hrs.
Not open to students with credit for 660.
Application of advanced decision-making techniques to complex product systems with consideration of factor areas in technology and human engineering.

660.08 Space and Enclosure Design
A. 5 2-hr. labs.
Prereq.: 452.08 and 462.08; concur. 694.08 for 4 cr. hrs.
Application of space organization planning and advanced decision-making techniques to the design of enclosed spaces and mass-produced enclosure systems with emphasis on available computer software.

Industrial Design III

661.02 Visual Communication Design
W. 5 2-hr. labs.
Prereq.: 660.02; concur. 694.02 for 5 cr. hrs.
Not open to students with credit for 666.
An in-depth study of selected visual communication design concepts and practices as applied to the development of communication products and product systems.

661.04 Product Design
W. 5 2-hr. labs.
Prereq.: 660.04; concur. 694.04 for 4 cr. hrs.
Not open to students with credit for 661.
The extended application of product system design concepts, emphasizing detail design, managed production systems, and design solution diffusion.
661.08  Space and Enclosure Design  
W.  5 2-hr. labs.  
Prereq.: 660.08 conc. 694.08 for 4 cr. hrs. or permission of instructor.  
Study of advanced manufacturing and environmental principles utilized in mass-produced enclosure systems and system interfaces.

662  U G 5  
Industrial Design III  
662.02  Visual Communication Design  
Sp.  5 2-hr. labs.  
Prereq.: 661.02; concur. 694.02 for 5 cr. hrs.  
Not open to students with credit for 667.  
Continuation of applied practice in professional visual communication emphasizing communication, systematic planning, and manufacturing.

662.04  Product Design  
Sp.  5 2-hr. labs.  
Prereq.: 661.04; concur. 694.04 for 4 cr. hrs.  
Not open to students with credit for 662.  
Continuation of applied practice in professional product design problems, emphasizing communication, systematic planning, and manufacturing.

662.08  Space and Enclosure Design  
Sp.  5 2-hr. labs.  
Prereq.: 661.08; concur. 694.08 for 4 cr. hrs.  
Intensive application of space enclosure design methods and techniques applied to a complex simulated professional problem; seminars investigating aspects of the industrial design professional practice.

693  U G 2-5  
Individual Studies  
Prereq.: Permission of instructor.  
Each decimal subdivision repeatable to a maximum of 45 cr. hrs.  
Advanced study for students in specialized programs.

693.02  Visual Communication Design  

693.04  Design  

693.08  Space and Enclosure Design  

694  U G 2-5  
Group Studies  
Prereq.: Permission of instructor.  
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.  
Group studies for students in specialized programs.

694.02  Visual Communication Design  
694.04  Design  
694.08  Space and Enclosure Design

698  U G 5-15  
Study Tour in Design  
Su, Sp.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 15 cr. hrs.  
First-hand knowledge of design practice, designers and cultural environment abroad with meetings, discussion, observations, documentation concerning aspects of international product and visual communication design.

794  U G 1-5  
Group Studies  
Lec./lab.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 30 cr. hrs.  
Group studies for special topics in industrial design.

797  U G 1-5  
Interdepartmental Seminar  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.  
Interdisciplinary knowledge and problems examined and discussed in the context of shared concerns.

899  G 1-5  
Interdepartmental Seminar  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.  
Interdisciplinary knowledge and problems examined and discussed in the context of shared concerns.

950  G 3-5  
Research Problems in Design  
Repeatable to maximum of 45 cr. hrs.

993  G 1-5  
Individual Studies  
Repeatable to a maximum of 45 cr. hrs.

994  G 1-5  
Group Studies  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 15 cr. hrs.  
Group studies for students in specialized programs.

998  G Arr.  
Research in Design: Thesis  
Research for thesis purposes only.

Developmental Biology

999  G Arr.  
Research in Developmental Biology  
Research for thesis and dissertation purposes only.
Economics

Office: 229 Hagarty Hall, 175 College Road

Professors: Cumynogun (Chairman), Craig, Dewald, Eason, Fleisher, Hogan, Kane, Kelley, L'Esperance, Lynn, Oakland, Oster, Parhas, Quantius, Sandberg, Sherman, Stocker, Swam, and Tybout; Associate Professors: Battenperger, Boyd, Bristo, Kilzumi, Kumar, McCallum, Michael, and Weicher; Assistant Professors Adams, Baack, Barnekov, Borukov, Brada, Caswell, Cox, Darby, Finn, Mattila, Parsons, Ray, Shapiro, Sharma, Singh, Tarr, and Wipf; Lecturer Parsons.

The Department of Economics offers opportunities for special study in the following fields:
Economic Theory and History of Thought
Economic History
Money, Banking, and Monetary Policy
Government Finance and Expenditure
Econometrics
Economic Development and Development Planning
International Economics
Structure and Regulation of Industry
Labor Economics
National Security Economics
Soviet Economy
Mathematical Economics

200 U 5
Principles of Economics I
Su, A, W, Sp. 5 cl.
H200 (Honors) may be available to students enrolled in a College Honors Program or by permission of dept.
Recommended first course for students who plan to take more than one course in economics.
Not open to students with credit for 201 or 402.
Introduction to economic theory: supply and demand for goods and services; market structure; the distribution of income.

201 U 5
The Economic System
Su, A, W, Sp. 5 cl.
Not recommended for students who plan to take more than one course in economics.
Not open to students with credit for 200 or 400.
Study of basic characteristics, processes, and institutions of the economic system; significant problems arising in its operations; proposed solutions.

400 U 5
Principles of Economics II
Su, A, W, Sp. 5 cl.
H400 (Honors) may be available to students enrolled in a College Honors Program or by permission of dept.
Prereq.: 200.
Not open to students with credit for 201 or 402.
Continuation of 200; theory of national income determination; economic fluctuations; money; government policy; international economics.

402 U 5
Introduction to Economic Theory
A, W, Sp. 5 cl.
Prereq.: 201 or equiv.
Not open to students with credit for 200 or 400.
Introduction to economic analysis, including the theory of the market; supply, demand, and price determination; income distribution; aggregate income and employment determination.

442 U 5
Elementary Economic Statistics
Su, A, W, Sp. 4 cl., 2 1-hr. lab.
Prereq.: Completion of Math. requirement in college of student's registration, or Math. 116 and 117 where there is no college Math. requirement.
Discrete frequency distributions; probability and probability distributions; statistical inference including the Bayesian approach; estimation; one-way analysis of variance; simple linear regression and correlation; index numbers.

490 U 4
Economics of the Ghetto
W. 4 cl.
Prereq.: 200 or 201.
Interaction between economic problems and race problems in urban areas. Weicher.

494 U 5
Group Studies
Su, A, W, Sp. 5 cl.
Prereq.: 201 or equiv.
Repeatable to a maximum of 15 cr. hrs.
Application of economic analysis of scarcity and choice to special topics of current policy significance.

500 U G 4
Evolution of Economic Thought
Sp. 4 cl.
Prereq.: Either 400, 402 or equiv.
Critical analysis of ideas of great economists, factors which influenced those ideas; their impact upon social and economic development of the modern world. Michael.

501 U G 4
Intermediate Micro-Economic Theory
Su, A, W, Sp. 4 cl.
Prereq.: Either 400, 402 or equiv.
Theory of consumer behavior; theory of the firm; costs and production; factor price determination; general equilibrium.

502 U G 4
Intermediate Macro-Economic Theory
Su, A, W, Sp. 4 cl.
Prereq.: Either 400, 402 or equiv.; 501 recommended.
Analysis of the determinants of national output, income and employment levels; theory of economic growth and progressive equilibrium in an economy.

506 U G 3
Current Economic Problems
W. 3 cl.
Prereq.: Either 400, 402 or equiv.
Not open to undergrad. and grad. students majoring in Econ.
Examination of current problems; optimum levels of employment; conditions underlying consumer expenditures; savings, investments; inflation, deflation; agriculture, public works, housing, regional development.
Regional analysis of economic conditions in Latin America and prospects for accelerated economic growth; evaluation of national development strategies and current programs of inter-regional cooperation. Finn and Kelley.

559 U G 4
Economic Development of the Soviet Union and Eastern Europe
Sp. 4 cl.
Prereq.: Either 400, 402, 508, or 550 recommended.
Not recommended for students planning to take 608.
Measurement and interpretation of economic performance in the Soviet Union and Eastern Europe; resource development and utilization; international economic relations; strategy for economic growth. Brada and Eason.

560 U G 4
International Economic Relations
W, Sp. 4 cl.
Prereq.: Either 400, 402 or equiv.
Not recommended for students who plan to take 663 and 666.
Survey of international economic relations; the basis of world trade; commercial and financial policy, particularly of the United States; and recent international economic organization. Michael and Wipf.

563 U G 4
Economic Problems of Western Europe
A. 4 cl.
Prereq.: Either 400, 402 or equiv.
Analysis of fiscal institutions and decision making in the public sector of the American economy; budget planning and execution; taxation, debt, fiscal policy.

570 U G 4
Government and Business
Su, A, Sp. 4 cl.
Prereq.: Either 400, 402 or equiv.

576 U G 4
Transportation Economics
W. 4 cl.
Prereq: Either 400, 402 or equiv.
Not open to students with credit for 676.
Study of general economic characteristics and government regulation of rail, motor, water, air, and pipeline carriers; consideration of competitive relations between modes of transportation. Barnekov and Boyd.

577 U G 4
Transportation Planning and Coordination
Sp. 4 cl.
Prereq: 576 or permission of instructor.
Not open to students with credit for 677.
Transportation, local development, and industrial location; criteria for public investment in highway, airport, and other transportation facilities. Boyd and Tybout.
Labor Economics and Industrial Relations
Su, A, W, Sp. 4 cl.
Prereq.: H580 (Honors) may be available to students enrolled in a College Honors Program or by permission of dept. Not open to graduate students in Econ.
Survey of the field of labor economics; trade unionism, collective bargaining, wage determination, employment, unemployment, labor legislation.

Economics of the Labor Market
Sp. 4 cl.
Prereq.: H580 or equiv.
Materials and methods of labor market analysis; the measurement and behavior of unemployment, employers' and employees' labor market behavior; wage determination and labor allocation. Parnes.

Honors Course
Open only to students enrolled in the Honors Program of the Colleges of the Arts and Sciences or the College of Administrative Science. Repeatable to a maximum of 15 cr. hrs., but must be taken for at least 2 atms. Program of readings, conferences, and reports arranged for the student who is a candidate for "Degree with Distinction" in Economics.

Applications of Mathematics in Economic Analysis
A, W, Sp. 5 cl.
Prereq.: Math. 152 or equiv. and permission of instructor.
Coverage of the most common applications of mathematics to economic analysis and econometrics; the necessary tools from matrix algebra and calculus are provided.

Economics of Socialism
A. 4 cl.
Prereq.: 501 and 502 or equiv.
Survey of socialist thought and movements; relations of socialist thought to the theory and practice of socialist economics; planning, allocation, pricing, and controls. Brada and Eason.

Economic Analysis of the Soviet Union and Eastern Europe
Sp. 4 cl.
Prereq.: 501 and 502 or equiv.
Not open to students with credit for 698. Analysis of the pattern of economic growth and theory, and practice of economic planning in the Soviet Union and Eastern Europe; comparison with Communist China. Eason.

Economic History of the United States
W. 4 cl.
Prereq.: 501, 502, and 512.
General survey from discovery of America to present; European economic background; westward movement and its effects; development of economic institutions in the U. S. Baack.

Economic History of Western Europe
A. 4 cl.
Prereq.: 501 and 502.
Survey from 1750 through the post-World War II period; coverage will go from Britain in the West to Russia in the East. Sandburg.

National and International Money Markets
A. 4 cl.
Prereq.: 501 and 520.
Organization, functions, and control of money markets and their submarkets; flow of funds in these markets and investment policies of market participants. Baltensperger and Quantius.

Federal Finance and Fiscal Policy
A. 4 cl.
Prereq.: 501, 502, and 530; or grad. standing in Econ. Not open to students with credit for 630.
The economics of government spending and taxation; analysis of the fiscal role and instruments of government and their effects on the economy. Lynn.

Government Budgeting and Expenditure Criteria
W. 4 cl.
Prereq.: 501, 502, and 530; or grad. standing in Econ.
Analyses of various economic criteria for efficient decision making in the budgeting process; the various types of budgets and their relationship to efficient expenditure policy. Tybout.

State-Local Government Finance
Sp. 4 cl.
Prereq.: 501, 502, and 530; or grad. standing in Econ.
Economic analysis of revenues and expenditures of state and local governments; vertical and horizontal relationships between agencies and units; specific problems in these areas. Stocker.

Probability and Statistical Decision Theory
Su, W. 4 cl.
Prereq.: 400 or 402, and 442 or equiv.
Theory of probability and stochastic processes; statistical inference, tests of significance and analysis of variance; statistical decision theory. Cunymgham, Kane, L'Esperance, and Swamy.

Applied Regression and Correlation Analysis
The general linear regression model; matrix algebra; multiple correlation, analysis of variance and tests of significance; specification errors. Cunymgham, L'Esperance, Kane, and Swamy.

Regression Analysis I
A, Sp. 4 cl.
Prereq.: 400 or 402, and 442 or equiv.
Not open to students with credit for 641 or 641.02.
Regression Analysis II
Sp.  4 cl.
Prereq.: 600 and 640.
Not open to students with credit for 641 or 641.01.

Linear Programming and Economic Analysis
W.  4 cl.
Prereq.: 501 and 600.
Techniques of linear programming and input-output analysis applied to economic problems of allocation and valuation within the firm and the economy.

Development Planning
W.  4 cl.
Prereq.: 502 and 550.
Analysis of the economics of planning and its major applications to private and public planning; procedures and techniques of development planning. Kelley, Michael, and Singh.

International Trade and Finance
W.  5 cl.
Prereq.: 501 or 502, and 520.
Specialized production, comparative cost and advantages, and the gains from trade; international payments and receipts, possible equilibrium balance-of-payments adjustments under different monetary systems; reforms. Wipf.

International Commercial Policy
Sp.  3 cl.
Prereq.: 665.
Tariffs and other trade restrictions; economic effects of protective tariffs; regional economic integration; U. S. commercial policies; multilateral tariff reductions of America and Common Market. Wipf.

Competition and Public Policy
W.  4 cl.
Prereq.: 501 and 570.
Nature, role, and regulation of competition; market structure and social performance; antitrust laws; current economic, legal, and policy problems in the antitrust area. Parsons.

Unions and Collective Bargaining
A.  4 cl.
Prereq.: 580 plus 1 other 500-level course in Econ. Development of unions in the United States, structure and government of contemporary labor organizations; collective bargaining; settlement of labor-management disputes. Parnes.

Labor and the Government
W.  4 cl.
Prereq.: 580 plus 1 other 500-level course in Econ. Public policy with respect to labor problems and industrial relations; role of legislative, judicial, and executive branches of state and federal governments. Shapiro.

Urban Economics
Sp.  4 cl.
Prereq.: 501 and 530.
Application of economic theory to urban problems; topics include slums, residential segregation, intractability of economic activity, urban renewal, urban sprawl, transportation, and governmental organization. Borukhov and Weicher.

Individual Studies
Advanced readings in Econ. and related fields. Juniors registered for 693 must have an average of B or better in all Econ. courses; and a cumulative point-hour ratio of 3.0 or better. Repeatable to a maximum of 15 cr. hrs. in any combination of decimal subdivisions.

Economic Theory and History of Thought
Economic History
Money, Banking, and Monetary Policy
Government Finance and Expenditure
Econometrics
Economic Development and Development Planning
International Economics
Structure and Regulation of Industry
Labor Economics
National Security Economics
Soviet Economy
Mathematical Economics

Group Studies
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.
Advanced courses in economics and related fields.
Economic Theory and History of Thought
Economic History
Money, Banking, and Monetary Policy
Government Finance and Expenditure
Econometrics
Economic Development and Development Planning
International Economics
Structure and Regulation of Industry
Labor Economics
National Security Economics
Soviet Economy
Mathematical Economics

Economics of National Security
A.  4 cl.
Not open to students with credit for 679.
Analysis of economics problems arising from defense and war, emphasis on implication of defense and war economy and on economic theory and institutions. Sherman.

Introduction to National Security
(See Nat. Sec. Pol. S. 702.)
705  U  G  4
Micro-Economic Theory Survey
A.  4 cl.
Prereq.: Grad. standing or permission of instructor.
May be available to students enrolled in a College Honors Program.
Not open to students with credit for 501.
Theory of consumer behavior; theory of the firm; costs and production; factor price determination; general equilibrium.

706  U  G  4
Macro-Economic Theory Survey
W.  4 cl.
Prereq.: Grad. standing or permission of instructor.
May be available to students enrolled in a College Honors Program.
Not open to students with credit for 502.
Analysis of the determinants of the national output; income and employment levels; theory of economic growth and progressive equilibrium in an economy.

742  U  G  4
Econometrics
A.  4 cl.
Prereq.: 641 or equiv.
Review of the general linear model; identification; estimating criteria; single and simultaneous equation estimation; econometric application. Cunnyngham, L’Esperance, and Swamy.

Research Principles and Techniques in National Security
(See Nat. Sec. Pol. S. 785.)

800  G  3
Research Methods in Economics
A.
Methods of economic research, choice of research topics, and presentation and evaluation of results obtained. Cunnyngham.

Seminar in National Security Research
(See Nat. Sec. Pol. S. 801.)

802  G  4
History of Economic Thought
Sp.
A survey of economic thought with emphasis on the period from Adam Smith to the present. Lynn.

805  G  5
Micro-Economic Theory
Prereq.: 501 or concur. 600.
Nature of economic analysis; theory of demand, costs, and prices; factor price determination and functional income distribution; competition, oligopoly, monopoly, and monopsony.

806  G  5
Macro-Economic Theory
Prereq.: 502 or prereq. or concur. 600.
Theory of income and employment; Keynesian aggregate supply and demand; consumption, saving, and the multiplier; determinants of investment and the accelerator; government's role.

808  G  5
Advanced Micro-Economic Theory
Sp.
Prereq.: 600, 805, and 806.
Koizumi and Tarr.

809  G  5
Advanced Macro-Economic Theory
W.
Prereq.: 600, 805, and 806.
Baltensperger and Brito.

815  G  4
Mathematical Economics I
A.
Prereq.: 645, 808, and permission of instructor.
Mathematical analysis of microeconomic problems including consumer and production theory and general equilibrium. Koizumi.

816  G  4
Mathematical Economics II
W.
Prereq.: 645, 809, and permission of instructor.
Mathematical analysis of macro-economic problems including static and dynamic systems and optimal control. Tarr.

820  G  4
Monetary Theory
Su, W.
Prereq.: 520, 805, and 806 or equiv.
Role of money in theoretical analysis of forces determining and influencing level of income, employment, and prices. Dewald and Kane.

821  G  4
Bank Structure and Regulation
Sp.
Prereq.: 520, 805, and 806 or equiv.
Relation of bank regulation and supervision to composition of banking industry; impact of differing banking structures on economic growth and stability; proposals for structural changes. Baltensperger.

831  G  3
Legal and Economic Problems in Taxation
Sp.
Legal, economic, and administrative problems in taxation. Lynn.

842  G  4
Advanced Econometrics
W.
Prereq.: 742.
Theory and application of advanced quantitative research methods; computerized application of econometric methods developed in 742 Cunnyngham, L’Esperance, and Swamy.
843 G 3
General Business Conditions Analysis
Prereq.: 402 and enrollment in the MBA program.
Theoretical and applied analysis of general economic conditions and their relation to decisions of the firm. Brada, Hogan, Kopecky, and L’Esperance.

844 G 3
Managerial Economics
Prereq.: 402, Math. 122, and enrollment in the MBA program.
MBA core course in micro-economics; production and consumer theory, market forms, welfare, distribution, general equilibrium, and capital theory. Brada, Hogan, and Tarr.

850 G 4
Advanced Economic Development I
W.
Prereq. or concur.: 805 and 806.
Not open to students with 6 cr. hrs. in 810.
A survey of the problems of economic development with emphasis on theoretical understanding of underdevelopment and its causes. Singh.

851 G 4
Advanced Economic Development II
Sp.
Prereq.: 805, 806, and 850.
The problems of measurement and estimation in underdeveloped economies with special reference to policy issues and development planning. Michael.

861 G 4
Advanced Micro-Economic Trade Theory
A.
4 cr.
Prereq.: 805.
Advanced nonmonetary international trade theory; analysis of the effect of trade and commercial policies on the allocation of resources, income distribution, and growth. Ray and Wipf.

862 G 4
Advanced Macro-Economic Trade Theory
W.
Prereq.: 805 and 806; 861 recommended.
Advanced monetary international trade theory; analysis of payments adjustments under alternative international monetary institutions. Ray and Wipf.

872 G 4
Industrial Organization
Sp.
Prereq.: 670 and 805.

884 G 4
Advanced Economics of the Labor Market
Sp.
Prereq.: 805 and 806.
Economic theory and empirical evidence relating to labor allocation and wage determination. Fleisher and Parnes.

889 G 1-5
Interdepartmental Seminars
(See under Interdepartmental Seminars.)

900 G 5
Seminar in Teaching Methods
Prereq.: 805 and 806.
Open only to departmental teaching associates. Repeatable to a maximum of 25 cr. hrs.
Seminar in teaching methods and contents of undergraduate courses in economics for students pursuing the Doctor of Arts degree.

911 G 4
Seminar in Economic History,
American and European
Sp.
Prereq.: 613 and 614 or equiv. or permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Selected research topics in economic history. Sandberg.

915 G 4
Seminar in Price Theory
Su, W.
Prereq.: 808 and 809.
Repeatable to a maximum of 8 cr. hrs.
Special topics in economic theory. Koizumi.

918 G 4
Seminar in Economic Problems of the
Soviet Union and Eastern Europe
A.
Prereq.: 607 and 608.
Repeatable to a maximum of 8 cr. hrs.
Selected research topics. Brada and Eason.

920 G 4
Seminar in Monetary Policy
Sp.
Prereq.: 820 and 821.
Repeatable to a maximum of 8 cr. hrs.
Application of monetary theory to issues of public policy in banking and monetary affairs; examination of public hearings and policy literature. Blattensperger, Darby, Dewald, and Kane.

930 (830) G 4
Seminar in Government Finance
W.
Prereq.: 631 and 632.
Repeatable to a maximum of 8 cr. hrs.
Analysis of theoretical and applied aspects of fiscal economics in the American and foreign economies; selected topics of current and permanent importance. Koizumi and Oakland.
Seminar in Econometrics
Sp.
Prereq.: 742 and 842 or equiv. or permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Examination of economic problems whose solutions may advantageously be sought by use of the methods of mathematics and mathematical statistics. Cunningham, L’Esperance, and Swamy.

Seminar in Economic Development and Planning
Sp.
Prereq.: 652 and 850, or permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Selected topics in the process of economic development and in planning for development; analysis and evaluation of planning methodologies, strategies, and systems. Kelley, Michael, and Singh.

Seminar in International Economic Problems
Su.
Prereq.: 861.
Repeatable to a maximum of 8 cr. hrs.
Seminar in analytical problems, theoretical and applied, of international economic adjustments, development of techniques for implementation of policies. Ray and Wipf.

Seminar in Structure and Regulation of Industry
W.
Prereq.: 872.
Repeatable to a maximum of 8 cr. hrs.

Seminar in Industrial Relations
W.
Prereq.: 683 or equiv. or permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Selected topics and issues in contemporary trade unionism and collective bargaining.

Seminar in the Economics of the Labor Market
Sp.
Prereq.: 882.
Repeatable to a maximum of 8 cr. hrs.
Selected topics and issues in wage determination, employment and unemployment. Kelley, Fleisher, and Parnes.

Problems in National Security Economics
W.
Prereq.: 695 or equiv., or permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Seminar designed to analyze in depth selected economic problems of national defense and defense-related activities. Sherman.

Group Studies
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.

Research Seminars
Each decimal subdivision repeatable to a maximum of 30 cr. hrs.

Research in Economics: Thesis
Research for thesis purposes only.

Research in Economics: Dissertation
Research for dissertation purposes only.
Education

289 U 2-5
Field Experience
Su, A. W. Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Professional service with children or youth in some school or community agency.
289.13 Experience in Urban Schools

284 U 3-5
Group Studies
Su, A. W. Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.
284.13 Experience in Urban Schools

594 U 3-5
Group Studies
Su, A. W. Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.
594.13 Experience in Urban Schools

694 U G 3-5
Group Studies
Su, A. W. Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.
694.13 Experience in Urban Schools

994† G 3-5
Group Studies
Su, A. W. Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.
994.13 Experience in Urban Schools

Educational Administration

Office: 310 Ramseyer Hall, 29 West Woodruff Avenue

Professors Nystrand (Chairman), Anderson, Campbell, Conrad, Cunningham, Hack, Larmer, Laughlin, Moore, Staub, and Wothers; Associate Professor Wagstaff; Assistant Professors Farrar, Nygren, and Spillman.

Abbreviations: Educational Administration = Ed Admin
Education: Curriculum and Foundations = Ed: C & F
Education: Early and Middle Childhood = Ed: E & MC

199† U 3
The Student and University Policy Development
2 1½-hr. cl.
Prereq.: Permission of instructor.
Social, political, legal, and financial factors operating in the development of policy at The Ohio State University; emphasis on role of students in the process.

H599 U 3-5
Honors Course
Su, A. W. Sp.
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study for students with special aptitudes.

690 U G 3
Practicum in Problems of Public Education
3 cl.
Prereq.: Ed: C & F 435; E & MC 461, or equiv., and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Open to experienced teachers and administrators; groups are organized around specific problems; requests must be received by department chairman in time to allow for planning.

692 U G 3, 4, 6, or 8
Workshops
Su, 6 cr. hrs., for 3-wk. workshops,
6 cr. hrs., for 4½-wk. workshops,
8 cr. hrs., for 6-wk. workshops.
Prereq.: Teaching experience, and permission of workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.
692.35 Higher Education
692.44 Educational Administration

693 U G 1-4
Individual Studies
Su, A. W. Sp.
Prereq.: Ed: C & F 435 or Ed: E & MC 461, and permission of instructor.
A total of not more than 30 cr. hrs. of Individual Study (any 693) will apply toward graduation for undergraduates, or 45 cr. hrs. for grad. students.
693.25 Higher Education
693.44 Educational Administration

694 U G 3-5
Group Studies
Prereq.: Permission of instructor.
Group studies on special problems in education.
694.35 Higher Education
694.44 Educational Administration

H799 U G 3-5
Honors Course
Su, A. W. Sp.
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for students with special aptitudes.
Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional administrative experience in a public school or other educational agency under supervision.

Higher Education
Introduction to the organizational setting of the school, the nature of administration, and organizational theory.

Educational Administration
Human Relations in Educational Administration
Prereq.: 946.
Interpersonal behavior in educational organizations with emphasis on such topics as goal-setting, decision-making, communicating, conflict management, and evaluation. Anderson, Nystrand, Spillman, and Wagstaff.

Interdepartmental Seminar
(See under Interdepartmental Seminars.)
The Elementary School Principalship
Su, A, W.
1 2½-hr. cl.
Prereq.: 946.
Emphasis is given to the elementary school principal's role in providing leadership in policy-making, personnel matters, public relations, research, and business management. Staub.

Administration of Secondary Schools
Su, W, Sp.
1 3-hr. cl.
Prereq.: 946.
A study of educational administration in the secondary school with emphasis on problems and issues in organization, personnel, public relations, instructional leadership, and management. Wagstaff.

Problems of Beginning Superintendents
Su.
1 2½-hr. cl.
Prereq.: 946.
Definition of the superintendent's role, and the roles of the board of education, school staff, and community; examination of problems indigenous to conflict among roles. Larmee.

Administrative Problems of the City School System
Su, A, Sp.
1 3-hr. cl.
Prereq.: 946.
A study of problems of educational administration in the complex city school system with emphasis on solution of educational problems caused by the unique demographic characteristics of the city. Moore and Spillman.

Legal Aspects of School Administration
Su, A, Sp.
1 2½-hr. cl.
Prereq.: 946, or equiv.
A study of statutory and case law, legal principles and provisions relevant to educational administration, particularly in the areas of personnel, finance, curriculum, contracts, property, liability, and organization. Staub.

School Community Relations
Su, W, Sp.
1 2½-hr. cl.
Prereq.: 946, or equiv.
Principles and practice in developing and maintaining appropriate school community relationships; opinion analysis; communication processes; decision-making patterns. Nystrand and Staub.
955 G 3
Staff Personnel Administration
Su, A, Sp.
Prereq.: 946.
Study of personnel administration in educational institutions; theory, principles and practices as they relate to personnel policy, recruitment, selection, orientation, appraisal, in-service education, promotion, collective negotiations, general welfare. Larmee.

956 G 3
School Finance
Su, A, Sp. 1 3-hr. cl.
Prereq.: 946.
Examination of the theory and economics of financing public education; emphasis on sources of revenue, variations in ability and effort, state-local plans, and the federal role. Hack.

957 G 3
Business Administration of Schools
Su, W. 1 3-hr. cl.
Prereq.: 946.
Function and role of business administrators in schools; emphasis on budgeting, payroll and accounting; purchasing; planning, constructing, operating, and maintaining the school plant. Hack.

958 G 3
School Plant Planning
Su, A. 1 2-hr. cl.
Prereq.: 946, or equiv.
Problems and techniques in determining educational facility needs, evaluating facilities, planning for new construction and remodeling, utilizing specialized personnel; related legal and financial aspects. Conrad.

959 G 4
Doctoral Core in Educational Administration I
A. 1 cl., lab. arr.
Prereq.: 946, master's degree, 2 yrs. teaching experience or equiv., and permission of instructor. Analysis of significant research in educational administration. Wagstaff and Laughlin.

960 G 4
Doctoral Core in Educational Administration II
W. 1 cl., lab. arr.
Prereq.: 959. Advanced study of administrative problems and organizational behavior from an interdisciplinary perspective. Larmee and Moore.

961 G 4
Doctoral Core in Educational Administration III
Sp. 1 cl., lab. arr.

999 G Arr.
Research
Refer to decimal subdivisions under 925. Research for thesis or dissertation purposes only.

Educational Development
Office: 221 Ramseyer Hall, 29 West Woocruff Avenue

Professors Wayson (Chairman), Anderson, Blanke, Cook, Giatti, Mooney, Roaunden, D. Sanders, Sewerino, and Snyder. Associate Professors Bargar, Buchanan, Gunnell, Hudspeth, Kennedy, Merriam, Nowak, and Trzebiatowski; Assistant Professors Lang and J. Sanders.

Abbreviations: Educational Development = Ed Devel
Education: Curriculum and Foundations = Ed: C & F
Education: Early and Middle Childhood = Ed: E & MC

294 U 3-5
Special Group Studies
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. Group studies for students in specialized programs.

294.48 Educational Development
294.50 Educational Change

541 U 3
Empirical Methods in Educational Development
A, W, Sp. 1 2-hr. cl., 1 2-hr. lab. Prereq.: Permission of instructor. Repeatable to a maximum of 9 cr. hrs. A study of empirical methods as they apply in educational research, development, and evaluation settings. Bargar.

544 U 3
Seminar in Empirical Methods
A, W, Sp. 1 2-hr. cl., 1 hr. arr. Repeatable to a maximum of 9 cr. hrs. Seminar in empirical methods in educational research, development, and evaluation; emphasis on application of techniques to educational problems. Bargar.

594 U 3-5
Group Studies
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. Group studies for students in specialized programs.

594.48 Educational Development
594.50 Educational Change
H590 U G 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study for students with special aptitudes.

680 U G 1
Advanced Seminar in Empirical Methods
A, W. 1 2-hr. cl. every other wk.
Prereq.: 541, 544, or permission of instructor.
Repeatable to a maximum of 2 cr. hrs.
Discussion of advanced methodological concepts as they apply to educational research, development, and evaluation. Bargar.

689 U G 5-15
Study Tours of Foreign Schools and Culture
Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 25 cr. hrs. when different areas of topics are studied.
Five weeks intensive study of educational and cultural topics fundamental to central purpose of tour, then equal period of supervised observation of schools and related cultural factors in one or more foreign countries; specific emphasis of separate tours to be announced.

690 U G 3
Practicum in Problems of Public Education
3 cl.
Prereq.: Ed: C & F 435, Ed: E & MC 461, or equiv., and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Open to experienced teachers and administrators; groups are organized around specific problems; requests must be received by department chairman in time to allow for planning.

692 U G 4, 6, or 8
Workshops
Su. 4 cr. hrs. for 3-wk. workshops.
6 cr. hrs. for 4½-wk. workshops.
8 cr. hrs. for 5-wk. workshops.
Prereq.: Teaching experience, and permission of workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.

693 U G 1-4
Individual Studies
Prereq.: Ed: C & F 435, Ed: E & MC 460, and permission of instructor.
A total of not more than 30 cr. hrs. of individual Study (any 693) will apply toward graduation for undergrad. students, or 45 cr. hrs. for grad. students.

694 U G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.

725 U G 3
Education and National Development
Sp. 1 3-hr. cl.
Roles of education in national economic and social development: includes strategies for educational development and introduction to educational planning. Sanders.

750 (967) U G 3
Program/Project Management
Sp. 1 2½-hr. cl.
Prereq.: 788.
The use of management information systems in the planning and controlling of educational research and development projects, with particular emphasis on network planning techniques. Cook.

784 U G 3-12
Internship in Educational Development
Prereq.: 541 and 544, or permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Internship experiences in research, development, or evaluation settings. Bargar.

785 U G 3
Introduction to Inquiry, Principles, Strategies, and Techniques
Su, A, W, Sp. 2 2-hr. cl.
Prereq.: Permission of instructor.
Introduction to inquiry strategies and their role in educational development; emphasis is on the conceptualization of educational problems. Bargar, Kennedy, and Gunnell.

786 U G 3
Introduction to Inquiry: Quantitative Methods
Su, A, W, Sp. 2 2-hr. cl.
Prereq.: 785 or equiv., or permission of instructor.
An introduction to quantitative techniques, with emphasis on application in educational settings. Bargar, Kennedy, and Gunnell.

787 U G 3
Classroom Test Construction
1 1-hr. cl.
Prereq.: 4th yr. or grad. standing.
General principles and techniques for construction and utilization of classroom tests for assessment of student achievement. Stufflebeam.

788 U G 4
Systems Concept in Education
Su, A, Sp. 2 2-hr. cl.
Prereq.: 4th yr. or grad. standing.
Introduction to general systems theory and an overview of its utilization and application in the field of education. Cook and Trzebiatowski.
Population Analysis and Educational Planning
W. 1 2½-hr. cl.
Prereq.: 785 or equiv., and Soc. 751 or 754.
Repeatable to a maximum of 6 cr. hrs.
A seminar designed to study population trends, movements, and distributions as they relate to more effective planning for school systems. Glatt.

Problems and Processes in School Desegregation
A, Sp. 1 2½-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
A seminar designed to study major problems related to school desegregation and processes of solving those problems. Glatt.

Information Processing in Education
W. 1 2½-hr. cl., 1 hr. lab arr.
Major emphases are placed on current applications, limitations, problems, and potential of data processing, information system, and computer technology in education. Novak.

Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for students with special aptitudes.

Experimental Design in Education I
W. 2 2½-hr. cl.
Prereq.: 785, or equiv.
An examination of logical and quantitative principles, especially the analysis of variance, underlying basic experimental designs employed in educational research. Kennedy.

Experimental Design in Education II
Sp. 2 1½-hr. cl.
Prereq.: 808, or equiv.
An examination of intermediate quantitative principles underlying experimental design in education, such as repeated measures designs, hierarchical designs, and the analysis of covariance. Kennedy.

Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.

Educational Development
Educational Change

Interdepartmental Seminar
(See under Interdepartmental Seminars.)

Seminars
Prereq.: Permission of instructor.

Students with permission of advisers may register for more than one section of 925, or for the same section two or more times.
Research problems in:

Educational Development
Educational Change
Su, W.

Evaluation Functions and Methodology in Education
A, Sp. 3 cr.
Prereq.: Psych. 510, or equiv.
The functions and methodology of evaluation relative to planned educational change, with emphasis on the relationships between data collection, analysis, reporting, and relevant decision processes. Lange.

Research Process: Practicum in Educational Research
3 cr.
Prereq.: Previous courses in the basic sequence in educational research methodology, or permission of instructor.
The utilization of research strategies in the pursuit of educational problems, with emphasis upon the development, conduct, and completion of individual projects.

Problems in the Development of Research Projects
A. 3 cr.
Prereq.: 765, Psych. 510, or equiv.
A discussion of conceptual, methodological, and communication problems encountered in the development of research projects; faculty members engaged in project development are invited to participate. Novak.

Planning-Programming-Budgeting System in Education
W. 1 3-hr. cl.
Prereq.: 786.
Principles and problems associated with utilization of planning-programming-budgeting system as for educational decision-making and resource allocation. Cook.

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.

Educational Development
Educational Change

Research
Research for thesis or dissertation purposes only.

Education: Early and Middle Childhood = Ed: E & MC

289  
Field Experience  
Prereq.: Permission of instructor.  
Professional service with children or youth in some school or community agency.

289.01 Introductory Experience  
in a School System  
U 5  
Repeatable to a maximum of 10 cr. hrs., with special permission when unusual circumstances warrant.

289.02 Experience in a Community Agency  
U 2-5  
Repeatable to a maximum of 20 cr. hrs.

289.37 Tutoring  
U 2-5  
Repeatable to a maximum of 20 cr. hrs.

294  
Group Studies  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 15 cr. hrs.

294.01 Evaluation of Field Experiences  
294.32 Adult Education

H599  
Honors Course  
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.  
Repeatable to a maximum of 15 cr. hrs.  
A program of accelerated study for students with special aptitudes.

672  
Introduction to Adult Education  
Prereq.: 4th yr. standing; for Ed. majors; Ed: C & F 435 or Ed: E & MC 461.

673  
Parent Education  
Su, W. 1 1/2- hr. cl.  
Prereq.: 4th yr. standing; for Ed. majors; Ed: E & MC 461 or Ed: C & F 435.

Workshops  
Su. 4 cr. hrs. for 3-wk. workshops.  
6 cr. hrs. for 4½-wk. workshops.  
8 cr. hrs. for 6-wk. workshops.

Prereq.: Teaching experience, and permission of workshop director.  
Repeatable to a maximum of 16 cr. hrs.

692  
Student Personnel Work  
692.32 Student Personnel Work  
692.33 Adult Education  
692.34 Guidance and Counseling

693  
Individual Studies  
Prereq.: Ed: C & F 435 or Ed: E & MC 461, and permission of instructor.  
A total of not more than 30 cr. hrs. of Individual Study (any 693) will apply toward graduation for undergrad. students, or 45 cr. hrs. for grad. students.

693.32 Student Personnel Work  
693.33 Adult Education  
693.34 Guidance and Counseling

694  
Group Studies  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.

700  
Introduction to Student Personnel Work  
Su. 2 1/2-hr. cl.  
The nature of and the issues involved in student personnel work in higher education.

780  
The Academic Advising Process  
W. 2 cl.  
Prereq.: Permission of instructor.

781  
The Practice of College Student Personnel Work  
A. 2 1 1/2-hr. cl.  
Prereq.: Permission of instructor.  
First practical course in professional sequence; prerequisite to field work practicum; major services are examined and discussed; outstanding practitioners consult on their work.
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for students with special aptitudes.

Introduction to Guidance Services
Prereq.: Ed. C & F 435.
Background and purposes of guidance services; techniques used in studying the individual; informational services; counseling service; placement and follow-up; developing a guidance program.

Group Processes
Su, A, W, Sp. 1 1/2-hr. cl.
Prereq.: Permission of instructor.
Theories, issues, trends, and supervised practice.

Organization and Administration of Guidance Services
Su, A, W. 3 cl.
Prereq.: 874, or equiv.
The selection, organization, and presentation of guidance materials, including analysis of types of organization, methods of initiating a guidance program, and types of in-service programs.

Guidance Appraisal Techniques
Su, A, Sp. 1 1/2-hr. cl.
Prereq.: 874.
Basic concepts and techniques in the appraisal of the individual nonstandardized methods.

Guidance Appraisal Techniques
Su, A, W. 1 1/2-hr. cl.
Prereq.: 874.
Basic concepts and techniques in the appraisal of the individual standardized methods.

Educational and Vocational Guidance
Su, A, W, Sp. 1 1/2-hr. cl., 1 2-hr. lab.
Prereq.: 874, 878 and permission of instructor.
Theories, instruments, resources for educational and vocational guidance of elementary and secondary students including an analysis of post-secondary school educational opportunities.

Guidance Practices in the Elementary School
Su, A, Sp. 1 1/2-hr. cl.
Prereq.: 874.
The application of guidance concepts and services to the elementary school situation.

Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.
884.32 Student Personnel Work
884.33 Adult Education
884.34 Guidance and Counseling

Student Personnel Programs for the Culturally Different
Su, A. 1 1/2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
A survey of collegiate experimental programs and practices, their philosophies, organization, administration, educational audiences, etc., for the culturally different with emphasis on black Americans.

Interpersonal Relations in Student Personnel Work
W, Sp. 1 1/2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Emphasis on laboratory learning process for interpersonal growth; treatment of group theory, processes, and dynamics.

Seminars
Prereq.: Permission of instructor.
Students with permission of advisers may register for more than one section of 925 or for the same section two or more times.
Research problems in:
925.32 Student Personnel Work
925.33 Adult Education
925.34 Guidance and Counseling

Student Personnel Work as a Professional Field
Sp. 2 1/2-hr. cl.
Prereq.: Permission of instructor.
The principal objective is to provide an opportunity, by a study of current, historical, and philosophical materials, for the formulation of a sound intellectual basis for professional practice in student personnel work.

Internship in College Student Personnel Work
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
The student is assigned as a participant-observer in a work situation closely approximating a vocational goal, under the supervision of a qualified practitioner; full-time commitment is normally expected.
931 G 3
General Methods in Adult Education
Su, W. 1 2½-hr. cl.
Prereq.: Permission of instructor.
The psychological and sociological factors affecting adults as learners; the uses and adaptations of various methods and techniques for teaching adults.

932 G 3
Discussion Methods in Adult Education
Su, Sp. 1 2½-hr. cl.
Prereq.: 672, and permission of instructor.
The roundtable, forum, panel symposium, and other forms of discussion as applied to adult groups; laboratory practice; clinical analysis of individual difficulties.

933 G 9
Internship in Adult Education
Prereq.: 672, and 12 cr. hrs. of grad. work in adult education.
Repeatable to a maximum of 18 cr. hrs.
Limited to Ph.D. majors in adult education and selected master's candidates with major in adult education.

934 G 3
Organization and Administration of Adult Education Programs
A, Sp. 1 2½-hr. cl.
Prereq.: 672, and permission of instructor.
Methods of determining needs, developing programs, staffing, financing, evaluating, and improving adult education programs in colleges and universities, public schools, and other agencies.

938† G 3
Instruction in Higher Education
3 cl.
A study of the teaching-learning environment in college, including student culture, learning theory and classroom procedure, examinations, and evaluation.

943 G 3
Interaction of the Student and the College Environment
Sp. 2 1½-hr. cl.
A focus on the nature of the college environment, entering student, academic procedures, student performance, and student culture for those planning careers in college student personnel work.

945 G 5
Practicum in Student Personnel Work
Su, W, Sp. 1 1½ hr. cl., 6 hrs. lab. in personnel agency arr.
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
Supervised practicum in campus student personnel agencies such as admissions, dean of students, housing, international students, student financial aids, student union, and undergraduate college offices.

954 G 3
Theory and Practice of Student Personnel Administration
Su, W. 1 3-hr. cl.
The organization and administration of student personnel services. Organizational theory and approaches to organizational development, in the interest of institutional renewal, are considered.

973 G 3
Introduction to Counseling
Su, A, W, Sp. 2 1½-hr. cl.
Prereq.: 874.
Emphasis on theoretical bases of counseling and on the counseling relationship.

974 G 3
Supervised Practice in Individual Counseling: Children
Su, A, Sp. 1 2½-hr. cl.
Prereq.: 874, 973 or Psych. 882, and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Emphasis on counseling techniques unique to elementary-age children including play media and conceptualizing the environmental press on the child.

975 G 3
Supervised Practice in Group Counseling: Children
W. 1 2½-hr. cl.
Prereq.: 874, 973 or Psych. 882, and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Supervision of each enrollee who counsels with a group of children of elementary age in a school or other institutional setting.

976 G 3
Supervised Practicum in Individual Counseling: Adolescent and Adult
Su, A, W, Sp. 1 2½-hr. cl.
Prereq.: 874, 973 or Psych. 882, and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Supervised practice in counseling individual clients of adolescent or adult age; emphasis on developing counseling skills, including: counseling relationship; conceptualizing clients; self-understanding.

977 G 3
Supervised Practice in Group Counseling: Adolescents and Adults
Su, A, Sp. 1 2½-hr. cl.
Prereq.: 874, 973 or Psych. 882, and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Supervision of each enrollee who counsels with a group of adolescents or adults in a school or other institutional setting.

978 G 3
Supervised Field Experience in Counseling
Su, A, W, Sp. 1 2½-hr. cl.
Prereq.: 874, 973 or Psych. 882, and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Supervised practice in guidance and counseling activities in the work setting; emphasis on the range of activities performed by guidance workers in school and related settings.
Education: Curriculum and Foundations

Office: 121 Ramsey Hall, 29 West Woodruff Avenue

Professors: Frymier (Chairman), Alberty, Cruickshank, Duncan, Galloway, Hough, Klohr, Mehli, Reagan, Sutton, and Tyler; Associate Professors: Beiland, Pratt, and Williams; Assistant Professor: Smith.

Educational Communications: 294.43, 294.46, 594.43, 594.46, 675, 677, 678, 679, 692.43, 693.43, 693.46, 694.43, 694.46, 826, 884.43, 884.46, 889, 925.43, 925.46, 994.43, 994.46, 999.43, 999.46.

Philosophy of Education: 294.41, 594.41, 640.73, 641.75, 641.76, 642.73, 693.41, 694.41, 884.41, 911, 912, 913, 914, 915, 916, 917, 925.41, 994.41, 999.41.

Sociology of Education: 640.74, 641.74, 862.

Abbreviations: Education: Curriculum and Foundations = Ed: C & F Education: Early and Middle Childhood = Ed.: E & MC

108 U 3
Introduction to the Study of Education
3 cl.
An introductory study of cultural factors that affect education, with students helped to understand through an examination of their own lives.

294 U 3-5
Special Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

294.40 History of Education and Comparative Education
294.41 Philosophy of Education
294.43 Radio and Television Education
294.46 Audiovisual Materials of Instruction
294.49 Curriculum and Supervision

435 U 5
Theory and Practice in Secondary Education
Su, A, W, Sp. 4 2-hr. cl.
A laboratory field experience course introducing topics, problems, and skills common to prospective secondary school teachers.

594 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

594.40 History of Education and Comparative Education
594.41 Philosophy of Education
594.43 Radio and Television Education
594.46 Audiovisual Materials of Instruction
594.49 Curriculum and Supervision

640 U G 3
Foundations of Education I
Prereq.: 3rd yr. standing.

640.71 Social Criticism in American Education
1 2½-hr. cl.
Not open to students with credit for 636.
An analysis of the major critical stances taken in the history of American education. Mehli.

640.72 History of Modern Education
3 cl.
Not open to students with credit for 622.
Education and schools as factors in the development of the modern world: theories, practice, relations with other social institutions and forces, especially in Europe and America. Sutton.

640.73 Introduction to Philosophy of Education
3 cl.
Not open to students with credit for 637.
Application of the methods and techniques of philosophical analysis to educational problems. Pratt, Reagan, and Smith.

640.74 Introduction to Sociology of Education
3 cl.
An application of sociological theories, methods, and data to the analysis of educational practices and problems.

641 U G 3
Foundations of Education II

641.71 People, Politics, and Schools
1 2½-hr. cl.
Prereq.: 3rd yr. standing.
An analysis of the political forces and ideological positions in American life since the Civil War and their effects on American education. Mehli.
641.72 Education in Earlier Times
3 cl.
Prereq.: 3rd yr. standing.
Not open to students with credit for 632.
Schools and educational ideals in ancient and
medieval societies; education before the rise of
modern nation states; influence on contemporary
practice and thinking. Sutton.
641.74 Advanced Sociology of Education
3 cl.
Prereq.: 3rd yr. standing and 640.74.
Continuation of 640.74.
641.75 Logic in Teaching
2 1/2-hr. cl.
Prereq.: 640.73, and 4th yr. standing.
Study of the logical aspects of teaching; includes
attention to definitions, arguments, explanations,
questions, and value judgments. Reagan.
641.76 Educational Theory
3 cl.
Prereq.: 640.71 or 640.72 or 640.73, and 4th yr.
standing.
To assist pre-service teachers in securing perspective
with reference to the various movements and
practices that are embodied in contemporary
theories of education. Pratte.
641.77 Comparative Education
1 1/2-hr. cl.
Prereq.: 640.71 or 640.72 or 640.73, and 4th yr.
standing.
Not open to students with credit for 723.
Social and cultural factors influencing the
differential development of educational institutions
and organization. Sutton.
641.78 History of Black Education in America
3 cl.
Not open to students with credit for Ed. 638.
Traces the historical development of the black
American's experience and response to schools and
other social institutions which exert educational
influence. Simmons.

642† U G 3
Foundations of Education III
Sp. 3 cl.
642.72 Special Topics in History of Education
Prereq.: 640.71 or 640.72, and permission of instructor.
Develops and examines a selected topic in history
of education.
642.73 Special Topics in Philosophy of Education
Prereq.: 640.73, and permission of instructor.
Develops and examines a selected topic in
philosophy of education; among possible topics are
ethnicity, aesthetics, and existentialism.

675 U G 4
Audiovisual Materials of Instruction
Su, A, W, Sp. 2 cl., 2 2-hr. lab.
Prereq.: 4th yr. standing.
The contribution of audiovisual materials to
educational objectives emphasizing the classroom use
of such materials, utilization practices, basic sources
of information, selection, and evaluation of film and
records. Eboch.

677 U G 3
Radio and Television in Education
Su, A, W. 2 2-hr. cl.
Prereq.: 4th yr. standing.
The varied types of educational broadcasting in
relation to objectives, planning, production, utilization,
and evaluation. Tyler.

678 U G 2
Design of Instructional Materials
W, Sp. 2-qtr. sequence; W. 1 2-hr. cl.; Sp. 1 cl.,
1 2-hr. lab.; credit given on completion of 4 cr. hrs.
Must enroll to a maximum of 4 cr. hrs.
Prereq.: 675, or equiv., and permission of instructor.
Design, development, and production of instructional
materials components for specific existing educational
media subsystems in educational agencies. Eboch.

679 U G 3
Development and Management
of Instructional Systems
A, Sp. 1 3-hr. cl.
Prereq.: 675, or equiv.
Functions and operations of educational media
subsystems for varying instructional strategies;
emphasis on development and management of
comprehensive services for educational agencies.

682 and 684, now in Education: Early and Middle
Childhood, will be transferred to Education: Curriculum
and Foundations by Summer Quarter.

689 U G 5-15
Study Tour of Foreign Schools and Culture
Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 25 cr. hrs. when different
areas or topics are studied.
Five weeks intensive study of educational and cultural
topics fundamental to the development of the United
States; cross-cultural studies; attendance at weekly
strategies; emphasis on development and management of
comprehensive services for educational agencies.

689 U G 5-15
Study Tour of Foreign Schools and Culture
Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 25 cr. hrs. when different
areas or topics are studied.
Five weeks intensive study of educational and cultural
topics fundamental to the development of the United
States; cross-cultural studies; attendance at weekly
strategies; emphasis on development and management of
comprehensive services for educational agencies.

682.43 Modern Media and Materials
682.49 Curriculum and Instruction

692 U G 4, 6, or 8
Workshops
Su. 4 cr. hrs. for 3-wk. workshops.
6 cr. hrs. for 4-wk. workshops.
8 cr. hrs. for 6-wk. workshops.
Prereq.: Teaching experience, and permission of
workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the
participants for the purpose of developing sound
principles and practices relating to it.

692.43 Modern Media and Materials
692.49 Curriculum and Instruction

693 U G 1-4
Individual Studies
Prereq.: 435 or Ed: E & MC 460, and permission of
instructor.
A total of not more than 30 cr. hrs. of Individual Study
(any 693) will apply toward graduation for undergrad.
students, or 45 cr. hrs. for grad. students.

693.36 Teacher Education and Instruction
693.40 History of Education and Comparative
Education
693.41 Philosophy of Education
693.43 Radio and Television Education
693.46 Audiovisual Materials of Instruction
693.49 Curriculum and Supervision
Group Studies
Prerequisite: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.
694.36 Teacher Education and Instruction
694.40 History of Education and Comparative Education
694.41 Philosophy of Education
694.43 Radio and Television Education
694.46 Audiovisual Materials of Instruction
694.49 Curriculum and Supervision

722 U G 3
The School in American Culture
A. 1 cr., 1 3-hr. lab. Field trips arr.
Prerequisite: One or more courses from 640 series, or equiv.
Open only to new international students.
An orientation to the contemporary American school by direct observation correlated with study of major historical forces affecting education. Sutton.

724 U G 3
Historical and Cultural Factors in the Evolution of Educational Systems
W. 1 2/3-hr. cl.
Prerequisite: One or more courses from 640 series or equiv.
Social and historical factors affecting stability and effectiveness of educational institutions and organizations in countries where programs of universal education are of recent origin. Sutton.

788 U G 3
Directing Student Teachers
Su, A, Sp. 1 2/3-hr. cl.
Prerequisite: Bachelor's degree, teacher's certificate, and teaching experience.
Course will be transferred to Education: Early and Middle Childhood by Summer Quarter.
Principles and techniques for directing the laboratory experiences of student teachers and other teacher education students. Kerber.

806 G 3
Fundamentals of Instructional Materials and Media
Su. 1 3-hr. cl.
Prerequisite: 675, or practical experience in using educational media in school settings.
Not open to students with credit for 676.
Theory in educational media applied to the process of instructional development. Belland.

822 G 3
Simulation and Gaming in Education
Su, A. 1 3-hr. cl.
Intended to familiarize participants with the potential of simulation, gaming, and other synthetic experiences as methodologies for pre- and in-service education. Cruickshank.

857 G 3
Individualizing Instruction
Su, W. 1 2/3-hr. cl.
A study of the theory, practice, and materials related to individualizing instruction. Frymier.

859 G 3
The Junior High School Curriculum
A. 1 2/3-hr. cl.
Prerequisite: 435, or equiv.
A study of the various types of junior high school programs, with special emphasis upon teaching-learning procedures as they apply to the early adolescent years. Albery.

860 G 3
Fundamentals of Curriculum
Su, A, W, Sp. 1 2/3-hr. cl.
Not open to students with credit for 868.
A beginning course in curriculum designed to serve as an overview of the field of curriculum and instruction; kindergarten through 12th grade. Klohr, Tyler, and Albery.

861 G 3
Fundamentals of Supervision
Su, A, W, Sp. 1 2/3-hr. cl.
A beginning course in supervision of instruction emphasizing general principles and practices in elementary and secondary schools. Frymier.

862 G 3
The Role of the School in the Social Order
Su, A, W, Sp. 1 2/3-hr. cl.
Prerequisite: Ed: E & MC 585 or Secondary (367) student teaching, or equiv.
An orientation course for teachers and administrators which deals with the basic purposes of secondary education in relation to major issues and current trends.

863 G 3
Evaluation in Secondary Schools
Su, A, Sp. 1 2/3-hr. cl.
Prerequisite: Ed: E & MC 585 or Secondary (367) student teaching, or equiv.
Study of techniques of evaluation in secondary schools; attention is given to current evaluation practices with emphasis on procedures appropriate to Ohio schools. Duncan.

864 G 3
Fundamentals of Instruction
Su, A, W, Sp. 1 2/3-hr. cl.
Prerequisite: Ed: E & MC 585 or Secondary (367) student teaching, or equiv.
Survey of instructional theory and related behavioral science disciplines; emphasis is on application of principles of instructional theory to classroom teaching. Duncan and Hough.

865 G 3
Curriculum Theory
Su, W, Sp. 2 1/3-hr. cl.
Prerequisite: 860, or equiv.
An advanced course in curriculum: kindergarten through the 12th grade. Klohr.

866 G 3
Supervision Theory
Su, A, Sp. 2 1/3-hr. cl.
Prerequisite: 861, or equiv.
An advanced course in supervision of instruction; kindergarten through the 12th grade. Galloway.
887 G 2-5
Educational Experimentation
Su, W. 1 2-hr. lab., conf. arr.
Prereq.: 785 or equiv., and 15 cr. hrs. of grad. work in Ed.
Repeatable to a maximum of 5 cr. hrs.
Analysis of contribution of selected experiments to elementary, secondary, and higher education; design of experimental method for attacking educational problems. Duncan.

888 G 3
Laboratory in Curriculum Development in Secondary Schools
Sp. 1 1/2-hr. cl.
Prereq.: 862, or equiv.
An advanced course in techniques of curriculum development and organization; study of specific problems in curriculum development which are of concern to the students enrolled. Alberthy.

889 G 3
Instructional Theory
Su, W. 1 2-1/2-hr. cl.
Prereq.: 862 and 864.
An advanced course dealing with theoretical conceptions, basic principles, and generalized techniques involved in developing, executing, and evaluating instructional activities. Galloway.

890 G 3
Practicum in Curriculum, Instruction, and Supervision
A. 1 cl., lab. arr.
Prereq.: Master's degree and 861.
Not open to students with credit for 868.
A study of the literature and methods of curriculum, instruction, and supervision in a field setting, with emphasis on instruction. Hough.

891 G 3
Practicum in Curriculum, Instruction, and Supervision
W. 1 cl., lab. arr.
Prereq.: Master's degree, 860 or 861 or 864.
A study of the literature and methods of curriculum, instruction, and supervision in a field setting, with emphasis on supervision.

892 G 3
Practicum in Curriculum, Instruction, and Supervision
Sp. 1 cl., lab. arr.
Prereq.: Master's degree, 860 or 861, or equiv.
A study of the literature and methods of curriculum, instruction, and supervision in a field setting, with emphasis on curriculum. Klohr.

893 G 3
Problems of Secondary School Supervision and Curriculum Development
Su, A. 1 2-1/2-hr. cl.
Prereq.: 860.
Not open to students with credit for 868.
An advanced course in supervision and curriculum development emphasizing problems involved in initiating and conducting change in the secondary school curriculum. Alberthy.

894 G 3-15
Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.

896 G 3-15
Teacher Education and Instruction
884.30 History of Education and Comparative Education
884.41 Philosophy of Education
884.43 Radio and Television Education
884.46 Audiovisual Communication
884.49 Curriculum and Instruction

899 G 3-5
Practicum in Educational Communication
W. 2 cl., 3-9 hrs. arr.
Repeatable to a maximum of 10 cr. hrs.
Observation, limited participation and functional analysis of production, distribution, and management operations in selected media centers, and broadcast facilities or film agencies. Tyler and Belland.

911 G 3
Conceptions of Mind in Educational Theory
A. 1 1/2-hr. cl.
Prereq.: 640.73, or equiv.
A philosophical study of psychological concepts used to describe mental phenomena. Special attention is given to their use in the formation of educational theory. Smith.

912 G 3
Epistemology and Education
Su. 1 2-1/2-hr. cl.
Prereq.: 640.73, or equiv.
A study of selected epistemological problems related to educational theory and practice. Reagan.

913 G 3
Modern Trends in Educational Philosophy
Su, A, W, Sp. 1 2-1/2-hr. cl.
Prereq.: 640.73, or equiv.

914 G 3
Religion and Public Education
Su, Sp. 1 2-1/2-hr. cl.
Prereq.: 640.73, or equiv.
Alternative conceptions or teaching sectarian religion in the public schools; present educational practices, court decisions and controversial proposals. Smith.

915 G 3
Social Philosophies and Their Educational Bearings
Su, W. 1 2-1/2-hr. cl.
Prereq.: 640.73.
A study of social philosophies in terms of their significance for educational procedures and programs. Pratte.
The Educational Philosophy of John Dewey
Su, Sp. 1 2 1⁄2-hr. cl.
Prereq.: 912, or equiv.
A systematic study of the writings of John Dewey in their bearing upon educational theory and practice. Pratte.

Comparative Philosophy of Education
1 2 1⁄2-hr. cl.
Prereq.: 912, 913, or equiv.
A study of alternative philosophies of education and the speculative development of their implications for educational practice. Mehl.

Problems in Curriculum and Instruction in Inner-City Schools
3 cl.
Prereq.: 860, 861, or equiv.
An analysis of current problems and examination of related research in the field of curriculum and instruction in inner-city elementary and secondary schools.

Seminars
Prereq.: Permission of instructor.
Students with permission of advisers may register for more than one section of 925 or for the same section two or more times.
Research problems in:
925.36 Teacher Education and Instruction
Su, Sp.
Cruckshank and Hough.
925.49 History of Education and Comparative Education
Mehl and Sutton.
925.41 Philosophy of Education
Pratte, Reagan, and Smith.
925.43 Radio and Television Education
Su, A, W.
Tyler.
925.46 Audiovisual Communication
W, Sp.
Belland.
925.49 Curriculum and Supervision
Duncan, Frymier, Klohr, and Galloway.

History of the Universities
Su, W. 2 1 1⁄2-hr. cl.
The university as an institution through 10 centuries; patterns of development in different countries; German, English, American contributions to the idea of the American university. Sutton.

The History of Educational Thought: Ancient and Medieval
A. 1 2 1⁄2-hr. cl.
Prereq.: 640.72, or 640.71.
Study and analysis of the major educational theories of the ancient and medieval periods including the educational writings of Plato, Aristotle, and St. Augustine. Mehl.

The History of Educational Thought: Modern
Sp. 1 2 1⁄2-hr. cl.
Prereq.: 640.72, or 640.71.
Study of the major educational theories since 1500 including Montaigne, Milton, Locke, and Rousseau and their influence on contemporary educational theory and practice. Mehl.

Direct Experiences in Teacher Education
Su, W. 3 cl.
Prereq.: Master's degree, college supervision of student teachers, or permission of instructor.
An analysis of student teaching and related direct experiences in teacher education with special emphasis on the theoretical basis, purposes, organization, curriculum patterns, evaluation, administration, and problems in the design of experiences. Cruickshank and Hough.

Theories and Curricula of Higher Education
Su, A. 2 2-hr. cl., 1 hr. arr.
A study of current theories of general education of representative and experimental college programs in the United States.

Curriculum in Teacher Education
Su, W. 2 2-hr. cl., 1 hr. arr.
Prereq.: 860, or permission of instructor.
Bases and development of curriculum in teacher education (process and product); comparative study of programs for the preparation of teachers; analysis of the implications of current research for programs of teacher education. Cruickshank.

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.

Teacher Education and Instruction
994.36 History of Education and Comparative Education
994.41 Philosophy of Education
994.43 Radio and Television Education
994.46 Audiovisual Materials of Instruction
994.49 Curriculum and Supervision

Research
Research for thesis or dissertation purposes only.
Education: Early and Middle Childhood

Office: 202 Arts Hall, 1943 North High Street

Professors (Chairman), Burr, Frazier, Harding, Huck, King, Liguori, and Tomlinson; Associate Professors Bozeman, Cunningham, DeStefano, Kerber, Kost, Miller, Orr, Rentel, Schatz, Stull, Tewksbury, and Utterback; Assistant Professors Anderson, Fox, Gress, Haefele, Holt, O'Brien, Prescott, Rolfe, Smith, Tutolo, and Williams; Instructors Styer and Tribble.

Child Development and Guidance: 460, 815, 821.

Children's Literature: 467, 817.

Early Childhood Education: 289.70, 294.70, 501, 594.70, 674, 692.70, 693.70, 694.70, 824, 825, 826, 884.70, 925.70, 994.70, 995.70.

Language Arts: 503, 507, 813.

Science: 504, 511, 811, 920.

Social Studies: 505, 508, 814.

Abbreviations:
- Educational Development = Ed Devel
- Educational Special Services = Ed Sp Sv
- Education: Curriculum and Foundations = Ed: C & F
- Education: Early and Middle Childhood = E & MC

289 Field Experience

Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Professional service with children or youth in some school or community agency.

289.02 Experience in a Community Agency U 2-5
289.70 Early Childhood Education U 2-3

294 U 3-5 Special Group Studies

Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

294.10 Elementary Education
294.56 Reading
294.70 Early Childhood Education

460 U 4 Elementary Education: Child Guidance

Prereq.: Psych. 230, or equiv., 461.
Not open in Su to elementary majors who lack teaching experience.
Lab. time is spent in observation-participation in an elementary school classroom.
To develop an understanding of child growth and development principles in relation to instruction.

461 U 3 Elementary Education: Conceptions of Teaching

Prereq. or concur.: 460.
Not open in Su to elementary education majors who lack teaching experience.
The lab, for 461 also serves 460. (Students who enroll only in 461 because of previous credit for 460 will be assigned to an elementary classroom for observation and participation at the same time as the 460 lab.)
Designed to acquaint students with certain aspects of elementary school programs which cut across separate subject areas, and to acquaint students with certain teaching behaviors.

467 U 3 Introduction to Children's Literature

Prereq. or concur.: 461.
Study of literature for children with emphasis on standards for selecting materials with reference to the interests, needs, and abilities at different age levels.

501 U 3 Kindergarten and Preschool Teaching

Prereq.: 460; permission of instructor required for home economics majors.
Recent development in the education of young children and its influence on the selection and guidance of appropriate activities.

502 U 3 Elementary Education: Arithmetic

Prereq.: 461; Math. 105, and 106 or 107.
A study of the methods and materials used in arithmetic instruction; includes development of functional relationships with other curriculum areas, diagnostic procedures, and remedial work.

503 U 4 Concepts of Teaching: The Child and His Language

A, W. Field exp. arr.
Prereq.: Psych. 230, or equiv.
Not open to students with credit for Education 460, 461, 467, 502, 507, 508, 511, or 513. May not be taken concurrently with 504 or 505.
Focuses upon relating children's growth and acquisition or oral and written language to the school. Presentation of major concepts of language arts, reading, and children's literature.

504 U 4 Concepts of Teaching: The Child and His Physical Environment

A, Sp. Field exp. arr.
Prereq.: Psych. 230, or equiv.; 15 cr. hrs. of science; and Math. 105 and Math 106 or Math. 107, and 10 cr. hrs. of college-level math. are acceptable as a substitute for Math. 105.
Not open to students with credit for Education 460, 461, 467, 502, 507, 508, 511, or 513. May not be taken concurrently with 503 or 505.
Focuses upon relating child development principals to the physical environment of the child. Presentation of the major concepts of science and mathematics education.
Conducts of Teaching:
The Child and His Social Environment
A. Field exp. arr.
Prereq.: Psych. 230, or equiv.
Not open to students with credit for Education 460, 461, 467, 502, 507, 508, 511, or 513. May not be taken concurrently with 503 or 504.
Examines the school in society. Emphasis is upon the classroom as an environment for social interaction. Focus on major concepts of social studies.

Elementary Education: The Language Arts
Prereq.: 461.
Consideration given to the teaching of language arts, including listening, oral, and written communications.

Elementary Education: The Social Studies
Prereq.: 461; conc. 513 should be scheduled on the same day of the week and at consecutive a.m. and p.m. hours just prior to student teaching.
Not open in Su, to elementary majors who lack teaching experience.
Lab. time is spent in participation in an elementary school.
Students may not schedule more than 20 cr. hrs. while taking this course.
Sequential arrangement of the elementary education curriculum. Particular emphasis is placed on social studies in the elementary school program.

Elementary Education: Science
Prereq.: 461, and 15 cr. hrs. of science. (The University Basic Education Requirement in science may be used.)
Consideration is given to the role of science in childhood education and to the study of content, methods, materials, and equipment appropriate for this program.

Elementary Education: Reading
Prereq.: 461; conc. 508 should be scheduled on the same day of the week and at consecutive a.m. and p.m. hours just prior to student teaching.
Not open in Su, to elementary majors who lack teaching experience.
Lab. time is spent in participation in an elementary school.
Students may not schedule more than 20 cr. hrs. while taking this course.
A study of various methods and materials used in the teaching of reading in the elementary school today.

Elementary Education Student Teaching
Prereq.: Ed 4th yr. standing.
For additional information, see College of Education catalog.
Observation, participation, and responsible teaching in a public school in the Greater Columbus area; individual and group conferences or seminars.
(Maximum transfer credit accepted is 6 cr. hrs.)
585.10 Standard Elementary Student Teaching U 5, 10, or 15
For students in the regular elementary education degree program. All students must enroll for 15 hours unless they have transfer credit for part of this requirement.
585.11 In-Service Student Teaching U 6 or 9
For approved students with 3 or more years of successful teaching experience.
585.12 Postdegree Elementary Student Teaching U 12-15
For students in the program for graduates with Bachelor of Arts or comparable degrees.

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

Elementary Education U 3-5
594.10 Elementary Education
594.50 Reading
594.70 Early Childhood Education

Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A programmed study of special aptitudes.

Family Participation in Early Childhood School Programs
Sp.
Prereq.: Ed Sp Sv 673, or permission of instructor.
Focuses upon the purposes and importance of family involvement in early childhood school programs; types of programs, resources, methods, and curricula.

Problems of Teachers in the Elementary School
Su.
Prereq.: 585, or permission of instructor.
Course will be transferred to Education Curriculum and Foundations by Summer Quarter.
To acquaint participants with the most frequent-severe problems reported by teachers; the role of a teacher is assumed in a classroom simulation.

Problems of Teachers in the Inner-City Elementary School
Prereq.: 585, or permission of instructor.
Course will be transferred to Education Curriculum and Foundations by Summer Quarter.
To acquaint participants with the most frequent-severe problems reported by teachers; the role of a teacher is assumed in a classroom simulation.
Practicum in Problems of Public Education
Su, A, W, Sp. 3 cr.
Prereq.: 461 or equiv., Ed C & F 435, and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Open to experienced teachers and administrators; groups are organized around specific problems; requests must be received by department chairman in time to allow for planning.

Workshops
Su. 4 cr. hrs. for 3-wk. workshops.
6 cr. hrs. for 4½-wk. workshops.
8 cr. hrs. for 6-wk. workshops.
Prereq.: Teaching experience, and permission of workshop director.
Repeatable to a maximum of 15 cr. hrs.
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.

Elementary Education
692.10 Reading
692.70 Early Childhood Education

Individual Studies
Prereq.: 460 or Ed C & F 435, and permission of instructor.
A total of not more than 30 cr. hrs. of Individual Study (any 693) will apply toward graduation for undergraduates, or 45 cr. hrs. for grad. students.

Elementary Education
693.10 Reading
693.70 Early Childhood Education

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.

Elementary Education
694.10 Reading
694.70 Early Childhood Education

Corrective Reading
Su, A.
Prereq.: 513 or Ed C & F 435, and Psych 230.
Diagnostic techniques and instructional methods and materials useful to the elementary and secondary classroom teacher in helping individuals and small groups of problem readers.

Reading in the Secondary School
Su, W, Sp.
Prereq.: Student teaching or permission of instructor.
Not open to students with credit for 853.
Critical study of objectives, content, and organization of teaching programs in secondary schools.

Guidance Problems in the Elementary School
Su, A, Sp.
Prereq.: 585 or Secondary (587) student teaching.
Selected problems which the elementary teacher faces in providing individual, small-group, and large-group guidance.

Advanced Course in Children's Literature
Prereq.: 467, or 813.
An evaluation of the changing role and increased importance of literature in the education of children and youth today.
Foundations of Elementary Education
Su, A, Sp.
Utilization of research in the basic sciences in developing background and understanding of present trends in elementary education; critical examination of current theories.

The Changing American Elementary School
Su, A, W.
Prereq.: 585, or Secondary (587) student teaching, or 3 yrs. teaching experience.
Involves investigation of objectives, issues, and curriculum organization of the modern elementary school program.

Evaluation in Elementary Schools
Su, Sp.
Prereq.: 585, or Secondary (587) student teaching, or 3 yrs. teaching experience.
Appraisal of materials and methods in terms of educational aims and research findings; consideration of instruments and procedures for comparing achievements with established objectives.

School Problems in Child Development
Su, W, Sp.
An advanced course based upon research in education and related fields which aids the teacher in guiding developmental activities of children in the elementary school.

Creative Experiences in the Elementary School Curriculum
Su, A, Sp.
Study of the nature of creativity and aesthetics as related to the elementary school curriculum.

Designing School Programs for Children Age Two to Six
Su, A.
A study of the characteristics and needs of children two to six years of age as they are related to the development of educational programs.

Methods of Developing Language and Cognition in Early Childhood
W.
Prereq.: 824, or permission of instructor.
Curriculum methods and materials in developing language and cognition in school programs for children ages three to eight, based upon research findings.

Research in Early Childhood Education
Sp.
Prereq.: Ed Devel 785 and 786, or permission of instructor.
Exploration of research methods and techniques related to early childhood school programs; review of research in the field; in-depth investigation of interest area.

Advanced Study in the Teaching of Developmental Reading
Su, A, W.
Designed to provide experienced teachers the opportunity to extend and update their knowledge of the reading process and the principles underlying effective reading instruction.

Trends and Issues in Teaching Reading in the Elementary School
Su, A, Sp.
Prereq.: 813, or permission of instructor.
Designed for experienced teachers and curriculum workers; current developments, trends, and issues critically analyzed according to available research evidence.

Problems in Elementary School Curriculum and Supervision
Su, A, Sp.
Prereq.: 819 and Ed: C & F 861.
An analysis of the programs and practices involved in facing major curriculum problems in the elementary schools; supervision and curriculum will be synthesized.

Reading in Its Social Setting
Sp.
The influence of culture on the nature quality, and quantity of reading development; the relationship of reading to language development and mass media.

Practicum in Reading
Sp. Lab, arr.
Prereq.: Permission of instructor.
Application of research, diagnostic, prognostic, and program development methodology in field settings.

Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.

Advanced Concepts in Elementary School Science Education
W.
Prereq.: 811, or permission of instructor.
Emphasis on functions of leadership personnel in developing and improving elementary school science programs and on evaluation of current developments and research.
921 G 3
A Guided Survey of Research in Reading
Sp.
Prereq.: 6 cr. hrs. in grad. reading courses.
Repeatable to a maximum of 6 cr. hrs.
Provides acquaintance with scientific studies relating to reading, methods used, results attained, including implications and limitations, and the problems meriting further investigation.

923 G 3
Developing the Curriculum in Elementary Teacher Education
Lab. arr.
Prereq.: Ph.D. standing, or permission of instructor.
To acquaint teachers of elementary teachers with processes of curriculum development in elementary teacher education, to permit them to consider models for preparation of elementary teachers.

925 G 2-5
Seminars
Prereq.: Permission of instructor.
Students with permission of advisers may register for more than one section of 925 or for the same section two or more times.
925.10 Elementary Education
925.56 Reading
925.70 Early Childhood Education

994 G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.
994.10 Elementary Education
994.56 Reading
994.70 Early Childhood Education

999 G Arr.

Refer to decimal subdivisions under 925.
Research for thesis or dissertation purposes only.

Education for Exceptional Children

Office: 371 Arps Hall, 1945 North High Street

Professors Stephens (Chairman) and Huelsman; Associate Professors Beeber, Benson, Brittin, Cavin, Cotter, Collins, and Lema; Assistant Professors Anderson, Cooper, Engin, Hubbard, K. Hunt, Looney, Parks, and Umsted; Instructors Burns and Crawford.

Visually Handicapped: 588.52, 666, 667, 668, 669, 692.52, 693.52, 694.52, 717, 719, 884.52, 885.52, 925.52, 994.52, 999.52.
Child Study: 693.61, 694.61, 884.61, 925.61, 916, 987, 988, 989, 990, 991, 992, 994.61, 999.61.
Deaf and Hard of Hearing: 659, 660, 661, 693.55, 712, 713, 714, 884.55, 885.55, 925.55, 994.55, 999.55.
Educational Disability: 651, 670, 671, 693.64, 884.64, 925.64, 999.64.
Gifted: 884.66, 925.66.
Mental Retardation: 588.54, 652, 653, 654, 655, 656, 657, 692.54, 693.54, 694.54, 773, 774, 775, 884.54, 885.54, 925.54, 994.54, 999.54; Psych 857.
Physically Handicapped: 588.60, 715, 999.60.
Speech and Hearing Therapy: 289.04, 588.04, 662, 663, 693.04, 776.

Abbreviations: Education: Curriculum and Foundations = Ed: C & F
Education: Early and Middle Childhood = Ed: E & MC
Education for Exceptional Children = Ed Excep

289
Field Experience
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Professional service with children or youth in some school or community agency.
289.02 Experience in a Community Agency U 2-5
289.04 Speech and Hearing Therapy U 3
For students in the speech and hearing therapy curriculum.

588 U 3-15
Student Teaching in Special Fields
Prereq.: Ed. 4th yr. standing.
A minimum of 12 cr. hrs. in student teaching is required.
For additional information, see College of Education catalog.
588.04 Speech and Hearing Therapy
588.47 Exceptional Children
588.52 Blind and Partially Seeing
588.54 Educable Mentally Retarded
588.60 Physically Handicapped

594 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

H599 U 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study for students with special aptitudes.
651 U G 3
Introduction to Exceptional Children
Su, A, W, Sp.  1 2/3-hr. cl.
Prereq.: Permission of instructor.
Not open to students with credit for Psych. 570.
Exceptional children and their problems, including the
intellectual deviant, visually handicapped, deaf and
hard of hearing, children with speech problems,
physically handicapped, and emotionally disturbed.
Anderson.

652 U G 3
The Educable Mentally Retarded: Introduction
Su, A, W, Sp.  1 2/3-hr. cl.
Prereq.: 651 or Psych. 570.
Study of causal factors, evaluation, learning potential,
and general characteristics of the retarded child.
Anderson.

653 U G 3
Educational Planning for Mentally Retarded Children and Youth
Prereq.: 652.
A basic course for teachers and administrators which
deals with curriculum goals and related educational
planning for mentally retarded children and youth.
Anderson, Beaber, and Lema.

654 U G 3
Practicum in Educational Planning for Mentally Retarded Children: Communicative Arts
Su, A, W, Sp.  1 2/3-hr. cl.
Prereq.: 652 and 653.
A practicum on content, educational techniques, and
methodology of teaching the communicative arts to the
mentally retarded. Beaber.

655 U G 3
Practicum in Education Planning for Mentally Retarded Children: Arithmetic
Su, A, W, Sp.  1 2/3-hr. cl.
Prereq.: 653.
A practicum on content, educational techniques, and
methodology of teaching arithmetic to the mentally
retarded. Beaber.

656 U G 3
Practicum in Educational Planning for Mentally Retarded Children: Natural and Social Science
Su, A, W, Sp.  1 2/3-hr. cl.
Prereq.: 653.
A practicum on content, educational techniques, and
methodology of teaching the natural and social
sciences for the mentally retarded. Lema.

657 U G 3
Curriculum Planning for Occupational Training of the Mentally Retarded
Su, A, W, Sp.  3 cl.
Prereq.: 653.
A curriculum planning course studying the purpose,
organization and administration of sheltered workshops
and other work experience programs for the mentally
retarded. Calvin and Swassing.

658 U G 3
Education for the Slow Learner
A. 3 cl.
Prereq.: 15 hrs. in elementary or secondary education.
A critical examination of the educational problems of
the slow learner with recommendations for organization
of curriculum and programs to meet their needs.

659 U G 3
Techniques of Teaching Speech to the Deaf
W.  1 2/3-hr. cl.
Study and practice in developing speech in the deaf.
Looney.

660 U G 3
Techniques of Developing Language in the Deaf
A. 1 2/3-hr. cl.
Prereq.: 651 or Psych. 570.
A study of the techniques and procedures for
developing elementary vocabulary and syntax for deaf
children. Looney.

661 U G 3
Techniques of Developing Advanced Language in the Deaf
W.  1 2/3-hr. cl.
Prereq.: 660.
Study of techniques and procedures for developing
advanced vocabulary and syntax with deaf students.
Collins.

662 U G 3
Methods in School Speech and Hearing Therapy
A, Sp.  1 3-hr. cl.
Prereq.: 289.04.
Organizing speech and hearing therapy programs in
schools; state programs; professional relationships;
procedures and materials for screening, scheduling,
lesson planning, and evaluation.

663 U G 3
Advanced Methods in School Speech and Hearing Therapy
A, W.  1 3-hr. cl.
Prereq.: 662.
Advanced therapy methods and techniques for the
treatment of complex speech, language, and hearing
problems encountered by the school speech and
hearing therapist.

665 U G 3
Instructional Programs for Exceptional Children
W.  1 2/3-hr. cl.
Prereq.: Practice Teaching.
Problems, evaluation, and adjustments related to the
participation of exceptional children in the regular
classroom, grades one through 12. Lema.

666 U G 3
Principles and Methods of Teaching Braille: Beginning
Su, A.  3 cl.
Theory and practice in learning and teaching braille
reading and writing, including the alphabet, numerals,
twenty-six one-cell whole-word signs and seventeen
dot-five compound contractions. Hett.
667  U G 3
Principles and Methods of Teaching Braille: Advanced
Su, W.  1 2½-hr. cl.
Prereq.: 666.
Theory and practice in learning and teaching braille reading and writing with emphasis on contractions, punctuation, and manuscript writing; preparation for certification in braille writing. Hott.

668  U G 3
Principles and Methods in the Education of Partially Seeing Children
Su, W.  1 2½-hr. cl.
Prereq.: 717.
Identification of types and patterns of visual impairments; educational placement, facilities, and programs for the partially seeing; impact of visual environment on sight; use of special equipment for partial seeing.

669  U G 3
Practicum in Educational Planning for Partially Seeing Children
Su, Sp.  1 2½-hr. cl.
Prereq.: 668.
Adaptations of curriculum for the partially seeing—methods and techniques; planning educational experiences; counseling and guidance for the partially seeing; observation and participation required.

670  U G 3
Educational Disability
Su, A.  1 2½-hr. cl.
Prereq.: Ed: E & MC 507, or permission of instructor.
Not open to students with credit for Psych. 681.
An overview of theory and practice, including causes, diagnostic procedures, remediation, and instructional materials. Huelman.

671  U G 3
Psycho-Educational Diagnostic Teaching
Su, W, Sp.  1 2-hr. cl., 3 1-hr. lab. arr.
Prereq.: Permission of instructor.
Not open to students with more than 6 cr. hrs. of Psych. 683.
Repeatable to a maximum of 8 cr. hrs.
Using test materials in the diagnosis of special disabilities in school work; practice with remedial procedures. Huelman.

692  U G 4, 6, or 8
Workshops
Su, W, Th, 4 cr. hrs. for 3 wk. workshops,
6 cr. hrs. for 4½-wk. workshops,
8 cr. hrs. for 6-wk. workshops.
Prereq.: Teaching experience, and permission of workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it. 692.47 Exceptional Children
692.52 Blind and Partially Seeing
692.54 Educable Mentally Retarded
692.62 Learning and Behavioral Disorders

693  U G 1-4
Individual Studies
Prereq.: Ed: C & M 435 or Ed: E & MC 460, and permission of instructor.
A total of not more than 30 cr. hrs. of Individual Study (any 693) will apply toward graduation for undergrad. students, or 45 cr. hrs. for grad. students.
693.04 Speech and Hearing Therapy
693.47 Exceptional Children
693.52 Blind and Partially Seeing
693.54 Educable Mentally Retarded
693.55 Deaf and Hard of Hearing
693.61 Child Study
693.62 Learning and Behavioral Disorders
693.64 Educational Disability

694  U G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education. 694.47 Exceptional Children
694.52 Blind and Partially Seeing
694.54 Educable Mentally Retarded
694.61 Child Study
694.62 Learning and Behavioral Disorders

712  U G 3
Evolution of Instruction and Guidance of the Deaf
W.  1 2½-hr. cl.
Prereq.: 651, or Psych. 570.
Evolution of the oral and manual approaches of instruction of the deaf and their implication for the life adjustment problems of the deaf. Collin and Looney.

713  U G 4
Teaching Reading and Arithmetic to the Deaf
W.  4 cl.
Prereq.: 660.
Developing skills in reading and arithmetic in the deaf. Looney.

714  U G 3
Teaching Social Studies and Science to the Deaf
Sp.  3 cl.
Prereq.: 713.
Teaching skills in academic subjects to the deaf on the intermediate and high school levels. Collins.

715  U G 3
Education of Multihandicapped Children
Prereq.: 651, or Psych. 570.
Differential diagnosis, classification, educational placement, and adjustment of multihandicapped children Benson.

717  U G 3
Educational Implication of Visual Impairments
Su, A.  1 2½-hr. cl.
Prereq.: 651, or Psych. 570.
A course for school personnel, including a survey of the structure, function, and hygiene of the eyes with emphasis on educational implications of visual disabilities of blind and partially seeing children.
718 U G 3
Introduction to Socially and Emotionally Handicapped
Su, A, W, Sp.  1 2½-hr. cl.
Prereq.: Permission of instructor.
Identification, overview of educational treatments, social behavior problems in the school, educational placements, certification, funding, and trends. K. Hunt.

719 U G 3
Theory and Practice in the Education of the Blind Children
Su, Sp.  1 2½-hr. cl.
Prereq.: 717.
Current theories and techniques in the education of blind children; adapting general curriculum, specialized content, materials, and equipment for the blind child.

720 U G 3
Introduction to Learning Disabilities
Su, A, W, Sp.  1 2½-hr. cl.
Prereq.: Permission of instructor.
Education treatments, social problems in schools, overview of educational treatments, educational placements, certification, funding and trends. Hubbard and Parks.

771 U G 6
Exceptional Children: Assessment and Instruction
A, W, Sp.  3 cl., 3 lab.
Prereq.: 718 or 770, and 772; permission of instructor.

772 U G 3
Applying Behavioral Approaches in the Classroom
Su, A, W, Sp.  1 2½-hr. cl.
Prereq.: 718 or 770, and permission of instructor.
Classroom management problems, classroom engineering, assessment for teaching and roles of key people in a behavioral model designed for children with learning and behavior disorders. K. Hunt.

773 U G 3
Directive Teaching of Exceptional Children
Prereq.: 718 or 770, and permission of instructor.
Principles of behavior and their application. Cooper.

774 U G 3
Applied Behavioral Analysis of Exceptional Children
Prereq.: 718 or 770, 773, and permission of instructor.
Designed to help students develop skills in directive teaching with exceptional children. Cooper.

775 U G 3
Observation Study of Exceptional Children
W.
Prereq.: 718 or 770, 773, and permission of instructor.
Measurement and evaluation techniques, research designs, geared to teacher application in the classroom. Cooper.

776 U G 3
Language Learning Disorders
A, Sp.  3 cl.
Prereq.: 651, or permission of instructor.
Language learning disorders of neurologically impaired children; differential diagnosis of these communicative disorders; educational methods and materials for language development. Brittin.

H799 U G 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for students with special aptitudes.

846 G 3
Behavioral Approaches in Schools
W, Sp.  1 ½-hr. cl., lab, arr.
Prereq.: 771, and permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
Focuses on consulting with teachers of learning and behaviorally handicapped children; a systems approach is stressed; students devise and monitor instructional systems which are implemented with groups of children.

847 G 3
Preparation of Handicapped Children for Post-School Adjustment
W.  1 ½-hr. cl.
Prereq.: 651, or Psych, 570.
Study of the roles of education, guidance, work experience, placement, and follow-up service in helping handicapped children adjust to employment, family, and community life. Swassig.

848 G 3
Organization of Programs for Exceptional Children
A, W, Sp.  2 ½-hr. cl.
Prereq.: 651 and permission of instructor.
Major trends and issues in the organization and management of programs for exceptional children.

884 G 3-15
Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.
885 G 3-6
Supervised Teaching in Special Education
Prereq.: Permission of instructor.
Not open to students with credit for 910.
Repeatable to a maximum of 12 cr. hrs.
Student teaching for qualified students in the area of special education.
885.52 Blind and Partially Seeing
Hunt.
885.54 Educable Mentally Retarded
885.55 Deaf and Hard of Hearing
885.62 Learning and Behavioral Disorders

925 G 2-5
Seminars
Prereq.: Permission of instructor.
Students with permission of adviser may register for more than one section of 925 or for the same section two or more times.
Research problems in:
925.47 Exceptional Children
925.52 Blind and Partially Seeing
925.54 Educable Mentally Retarded
925.55 Deaf and Hard of Hearing
A, Sp.
925.61 Child Study
925.62 Learning and Behavioral Disorders
925.64 Educational Disability
925.66 Gifted

986 G 3
Developmental Assessment I
A. 1 3-hr. cl.
Prereq.: Permission of instructor.
Use of testing and observational techniques in developmental assessment with major emphasis on collecting and evaluating data related to global cognitive and affective functioning. Engin.

987 G 3
Developmental Assessment II
W. 1 3-hr. cl.
Prereq.: Permission of instructor.
Continuation of 986, with emphasis on the techniques developed to assess specific abilities and disabilities for educational planning. Engin.

988 G 3
Developmental Assessment III
Sp. 1 3-hr. cl.
Prereq.: Permission of instructor.
Continuation of 987, with emphasis on the analysis, synthesis, and interpretation of data. Engin.

989 G 3
Developmental Assessment IV
Su. 1 3-hr. cl.
Prereq.: Permission of instructor.
Continuation of 988, with emphasis on intervention and the evaluation of intervention techniques. Engin.

990 G 2
Supervised Practice in Developmental Assessment
Prereq.: Permission of instructor, must be taken concurrently with one of the following: 986, 987, 988, or 986.
Repeatable to a maximum of 10 cr. hrs.
Within a school setting, under close supervision, students assess limited numbers of children, emphasizing global techniques, specific techniques, educational planning, and counseling with children, teachers, and parents.

991 G 3
The School Psychologist in American Schools
Su. 1 3-hr. cl.
Prereq.: Permission of instructor.
Overview of trends and issues confronting the professional school psychologist; establishing and maintaining a program of school psychological services. Engin.

992 G 3, 6, 9, or 12
Internship in Child Study
Prereq.: Permission of instructor.
Repeatable to a maximum of 36 cr. hrs.
Limited to selected Ph.D. and post-master's students majoring in school psychology. The student, staff member, and local school supervisor plan these professional experiences. Engin and Hueliman.

994 G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.
994.47 Exceptional Children
994.52 Blind and Partially Seeing
994.54 Educable Mentally Retarded
994.55 Deaf and Hard of Hearing
994.61 Child Study
994.62 Learning and Behavioral Disorders

999 G Arr.
Research
Refer to decimal subdivisions under 925.

Education: Humanities

Office: 238 Arps Hall, 1945 North High Street

Professors Jewett (Chairman), Allen, Gilliom, Lewis, Muesing, Otto, and Zideros; Associate Professors Bateman, Stewart, and Woodruff; Assistant Professors Jarvis and Mertz.
Speech Education: 289.09, 289.09, 294.09, 442, 556, 587.09, 588, 589.09, 599.09, 631, 692.09, 693.09, 694.09, 695.09, 697.09, 884.09, 925.09, 994.09, 999.09.

289 U 2-5
Field Experience
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Professional service with children or youth in some school or community agency.

289.02 Experience in a Community Agency
289.09 Speech and Radio-Speech
For students in the curricula Speech and Radio-Speech.

294 U 3-5
Special Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

294.08 Speech Education
294.25 Teaching of English
294.28 Teaching of Social Studies
294.45 Teaching of Foreign Languages

442 U 3
Creative Dramatics
Su, A, W, Sp. 3 cr. and lab.
Prereq.: Psych. 230, or equiv.
Philosophy, materials, methods, and evaluation of dramatic improvisation in developing creative artistic expression and problem solving.

526 U 4
Teaching of Secondary Social Studies
Su, A, W, Sp. 2 hr. cl.
Prereq.: Ed. C & F 435.
Theory and practice in secondary social studies concerned with objectives, content, methods, materials, evaluation, and the utilization of history and the social sciences in the secondary school. Recent trends in the field.

540 U 4
The Teaching of Modern Foreign Language I
A, Sp. 2 hr. cl.
Prereq.: Ed. C & F 435, and permission of instructor.
Repeatable to a maximum of 8 cr. hrs.; subdivisions not repeatable.

Study of the preparation and use of new instructional materials for beginning foreign language classes; the teaching of language skills and culture; evaluation.

556 U 4
The Teaching of Speech in Secondary Schools
Su, A, Sp. 4 cr.
The relationship of speech to the total school program with special emphasis on fundamental processes and forensic activities.

560 U 4
Teaching the Reading of Literature
Su, A, W, Sp. 4 cr.
Prereq.: Ed. C & F 435.
The objectives of the literature program and technique for developing appreciation and improving skills in the reading of various types of prose and poetry.

561 U 4
Teaching Language and Composition in Secondary Schools
Su, A, W, Sp. 4 cr.
Prereq.: Ed. C & F 435.
The role of grammar and linguistics in the English program and techniques for the teaching of oral and written expression in high school.

586 U 3-7
Elementary School Student Teaching in Foreign Languages

587 U 3-15
Student Teaching in Secondary Schools
Prereq.: Ed. 4th yr. standing.
A minimum of 15 cr. hrs. is required.
For additional information, see College of Education catalog.
Observation, participation, and responsible teaching in a public school in the Greater Columbus area; individual and group conferences or seminars. Students desiring teaching in more than one area should indicate accurately both section numbers and hours in each.

587.09 Speech Education
556 is prereq. for 587.09.

587.25 English

587.28 Social Studies

587.45 Foreign Languages
a. French
b. Spanish
c. German
d. Russian
e. Latin
f. English

588 U 3-15
Student Teaching in Radio-Speech Education
Prereq.: 556 and 4th yr. standing in Ed.
A minimum of 15 cr. hrs. (9 hrs. in 587.09 and 6 hrs. in 588) in student teaching is required.
For additional information, see College of Education catalog.

Workshops
Su. 4 cr. hrs. for 3-wk. workshops.
6 cr. hrs. for 4-1/2-wk. workshops.
8 cr. hrs. for 6-wk. workshops.
Prereq.: Teaching experience and permission of workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.
682.09 Speech
682.28 Social Studies
682.45 Foreign Language Education

693 U G 1-4
Individual Studies
Prereq.: Ed C & F 435 or Ed E & MC 460, and permission of instructor.
A total of not more than 30 cr. hrs. of Individual Study (any 093) will apply toward graduation for undergrad.
students, or 45 cr. hrs. for grad. students.
693.09 Speech Education
693.25 Teaching of English
693.28 Teaching of Social Studies
693.45 Teaching of Foreign Languages

694 U G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.
694.09 Speech Education
694.25 Teaching of English
694.28 Teaching of Social Studies
694.45 Teaching of Foreign Languages

H799 U G 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for students with special aptitudes.

839 G 3
Applied Linguistics
in the Teaching of Foreign Languages
W, Sp. 2 1/2-hr. cl.
Prereq.: 15 cr. hrs. in Ed., and at least one French or Spanish course on the 600 level.
Analysis of research in applied linguistics; construction of drills, laboratory exercises, and tests; lexical items and structural inventory of French or Spanish.
a. W. French
b. Sp. Spanish

882+ G 3
Materials and Methods in the Social Studies
W. 1 2 1/2-hr. cl.
Study of recent innovations in teaching methodology in the social studies; review and evaluation of recently published teaching materials.

883 G 5
Organization and Teaching of Social Studies
A. 2 cl. and 2 2-hr. lab.
Prereq.: Ph.D. standing in College of Education.
Study of problems encountered in conceptualization, planning, and teaching of the secondary social studies methods course.

884 G 3-15
Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.
884.09 Speech Education
884.25 Teaching of English
884.28 Teaching of Social Studies
884.45 Teaching of Foreign Languages

925 G 2-5
Seminars
Prereq.: Permission of instructor.
Students with permission of advisers may register for more than one section of 925 or for the same section two or more times.
Research problems in:
925.09 Speech Education
W. Theory and Practice in Forensics.
A. The Basic College Speech Course, Makay.
W. Creative Drama and Children's Theatre, Lewis.
Sp. Speech Facilities and Resources, Lewis.
925.25 Teaching of English
Su, A.
925.28 Teaching of Social Studies
925.45 Teaching of Foreign Languages
Su, A, Sp.
Otto and Jarvis.

932 G 4
Seminar in Foreign Language Education
Sp. 1 3-hr cl.; 1 lab. arr.
Prereq.: Permission of instructor.
Analysis of major research studies and projects in the teaching and learning of foreign languages; evaluation and implications of findings.
Allen and Otto.

963 G 4
Foreign Language Testing
Su, W. 2 2-hr. cl.
Prereq.: Permission of instructor.
Theory and practice of foreign language test construction including item writing, item analysis, reliability, validity, scoring, and interpretation.
Jarvis.

970 G 3
The English Curriculum:
Language and Composition
Su, W. 3 cl.
Prereq.: 20 cr. hrs. in Ed., and 25 cr. hrs. in English.
An evaluation of current trends and developments in linguistics and composition instruction and their relevance for the English curriculum.

**971 G 3**

### The English Curriculum: Literature
Su, Sp. 1 2½-hr. cl.
Prereq.: 20 cr. hrs. in Ed., and 25 cr. hrs. in English.
Critical examination of trends in the secondary school literature program, including programs for the able and the disadvantaged student, basic objectives, types of organization, technique of developing literary appreciation.

**972 G 3**

### The English Curriculum: Studies in the Teaching of Literature
Su, W. 1 2½-hr. cl.
Prereq.: 20 cr. hrs. in Ed., and 25 cr. hrs. in English; familiarity with contemporary critical thought.
Role of literary theory and aesthetics in English curriculum development; study of the relation of literature to the other arts. Stewart.

**982 G 3**

### Evaluation in Secondary Social Studies Education
A. 1 2½-hr. cl.
Prereq.: Certification in secondary social studies. Admission to grad. program in secondary social studies.
A seminar concerned with testing, measurement, and evaluation in secondary social studies; treatment of teacher-made standardized tests; discussion of reporting practices. Muessig.

**983 G 3**

### Research in Secondary Social Studies Education
1 2½-hr. cl.
Prereq.: Certification in secondary social studies. Admission to doctoral program in secondary social studies.
A seminar devoted to research needs, problems, procedures, and findings in secondary social studies; designed to aid doctoral candidates with the selection and implementation of their studies. Muessig.

**984 G 3**

### Curriculum Theory and Development in Secondary Social Studies Education
Su, W. 1 2½-hr. cl.
Prereq.: Certification in secondary social studies. Admission to grad. program (master's or doctoral) in secondary social studies. Seminar devoted to curriculum theory and development in secondary social studies education; simulation experience where participants build a secondary social studies program. Muessig.

**985 G 3**

### Theories of Secondary Social Studies Education
Sp. 1 2½-hr. cl.
Prereq.: Certification in secondary social studies. Admission to doctoral program in secondary social studies.
A seminar devoted to basic theories of secondary social studies education; discussion of subject-centered, emergent needs, citizenship, reflective, and discipline-oriented approaches. Muessig.

**984 G 3-5**

### Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.

**984.09 Speech Education**

**984.25 Teaching of English**

**984.28 Teaching of Social Studies**

**984.45 Teaching of Foreign Languages**

**Education: Industrial Technology**

Office: 202 Oxley Hall, 1712 Neil Avenue

Professors: Lux (Chairman), Buffar, and Ray; Assistant Professors Blankenbaker, Hoffman, Fratznir, and Umstätt.

Courses:

Abbreviations:
- Ed: Curriculum and Foundations = Ed: C & F
- Ed: Educational Development = Ed Devel
- Ed: Early and Middle Childhood = Ed: E & MC
- Ed: Industrial Technology = Ed: Intech

**120 U 4**

### Industrial Practices and the School
A, W, Sp. 5 2-hr. cl. and lab.
A study of the history and role of industrial technology and its relation to the school through experiences in planning, organizing, and controlling a managed production system.

**220 U 3**

### Design of Constructed and Manufactured Goods
A, W, Sp. 2 2-hr. cl. and lab.
Prereq.: Engr. Gr. 121.
A study of historical and contemporary design technology as it is applied in the construction and manufacturing industries.

**221 U 4**

### Manufacturing Practices I
A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 120 and 220.
A study of basic concepts of manufacturing technology through experiences in forming, separating, combining, and assembling materials used in the production of manufactured goods.
Manufacturing Practices II
A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 221.
A study of manufacturing management technology, manufacturing production technology, and manufacturing personnel technology through experiences in planning, engineering, and production of selected manufactured goods.

Mechanical Systems and Servicing
Su, A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 120.
A study of the fundamental knowledge of techniques necessary for the application of mechanical power systems to industrial activities and the practices of servicing mechanical power systems.

Transmitting and Utilizing Mechanical Power
Su, A, W. 5 2-hr. cl. and lab.
Prereq.: 224.
A study of the selection, installation, operation, and maintenance of mechanical power transmission systems for industrial and transportation activity.

Electrical Systems and Servicing
Su, A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 120.
A study of the fundamental knowledge of techniques necessary for the application of electricity to industrial activities and the practices utilized in fabricating and servicing of electrical systems.

Electronic Systems and Servicing
Su, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 227.
A study of the fundamental knowledge of techniques necessary for the application of electronics to industrial activities and the practices utilized in fabricating and servicing electronic systems.

Construction Practices I
A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 120 and 220.
A study of basic concepts of construction technology through experiences in forming, separating, and combining materials used in the production of constructed goods.

Construction Practices II
A, Sp. 5 2-hr. cl. and lab.
Prereq.: 231.
A study of construction management, production, and personnel technologies through real and simulated experiences in the production of constructed goods.

Graphic Reproduction Practices
Su, A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 120 and 220.
An examination of graphic reproduction processes, manipulative skills necessary to teach graphic reproduction processes, and administrative procedures required to operate a graphic arts program.

Printing and Publishing Practices
A, Sp. 5 2-hr. cl. and lab.
Prereq.: 235.
An examination of the managed production system utilized in the printing and publishing industry.

Elementary School Industrial Arts Activities
Su, A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: Major standing in elementary or special ed. Laboratory experiences involving the use of tools, materials, processes, and products through which society supplies its need for food, clothing, shelter, tools, machines, records, utensils, and transportation.

Work Experience in Industry
Su, A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
A firsthand study of working conditions, methods, and processes of industry, and their implication for the teaching of industrial arts.

The Handicrafts
A, W, Sp. 5 2-hr. cl. and lab.
Open only to Occupational Therapy, Physical Education, and Public Recreation majors.
Repeatable to a maximum of 12 cr. hrs.
Designed to develop skills and knowledge in the use of the common areas of handicrafts such as leather, metals, plastics, wood, and the graphic arts.

Field Experience in a Community Agency
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Professional service with children or youth in some school or community agency.

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

Custom Production of Industrial Goods
Su, A, W, Sp. 5 2-hr. cl. and lab.
Prereq.: 3rd yr. standing in major.
Not open to students with credit for 235.
A study of custom production planning and custom production processing of industrial goods through experiences in the custom production of selected manufactured goods.
436  U 3
The Teaching of Driver Education
Su, A, W, Sp.  1 2-hr. cl., 1 2-hr. lab.
Prereq.: Ed: C & F 435 and valid driver's license.
Not open to students with credit for Ed. 433.
Graduates of the College of Education who complete
436, 437, and 438, or Ed. 433, will be eligible for
certification to teach driver training courses in the
secondary schools of Ohio.
Designed to prepare teachers to organize and conduct
driver training classes in the secondary schools,
including methods of teaching, scheduling, and other
pertinent details.

437  U 3
Advanced Course in the Teaching of
Driver Education
Su, A, Sp.  3 cl.
Prereq.: 436.
Organization and administrative aspects of driver and
traffic safety education plus orientation in the use of
driving simulators and driving ranges. Hoffman.

438  U 3
Personality and Behavioral Factors
in Driver and Traffic Safety Education
Su, W.  3 cl.
Prereq.: 436; can be taken concur. with 437.
Study of human behavior with emphasis on attitudes,
motivation, and adjustment, and their relationship to
safe driving.

532  U 3
The Teaching of Industrial Arts I
A.  1 2½-hr. cl.
Prereq.: Ed: C & F 435.
A critical study of objectives, methods of presentation,
evaluation, class and laboratory procedures, and
professional problems.

533  U 3
The Teaching of Industrial Arts II
W.  1 2½-hr. cl.
Prereq.: 532.
Examinations and evaluation textbooks, industrial
publications, and audio-visual materials suitable for the
various grade levels; research and development; and
special consideration for exceptional pupils.

534  U 3
The Teaching of Industrial Arts III
Sp.  1 2½-hr. cl.
Prereq.: 532 and 533.
Problem design and presentation; planning secondary
school courses; methods of student evaluation; and
correlation with other subject fields; industrial practice.

587  U 3-15
Student Teaching in Secondary Schools
Prereq.: Ed. 4th yr. standing.
A minimum of 15 cr. hrs. is required.
For additional information, see College of Education
catalog.

Observation, participation, and responsible teaching
in a public school in the Greater Columbus area;
individual and group conferences of seminars.
Students desiring teaching in more than one area
should indicate accurately both section numbers and
hours in each.

594  U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

6099  U 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement
Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study for students with
special aptitudes.

610  U G 3
History of Practical Arts
and Vocational Education
Su, W.  3 cl.
History of those vocational and nonvocational phases
of agriculture, business, industry, and homemaking
which concern education. Lux.

692  U G 4, 6, or 8
Workshops
Su.  4 cr. hrs. for 3-wk. workshops.
6 cr. hrs. for 4½-wk. workshops.
8 cr. hrs. for 6-wk. workshops.
Prereq.: Teaching experience, and permission of
workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the
participants for the purpose of developing sound
principles and practices relating to it.

693  U G 1-4
Individual Studies
Prereq.: Permission of instructor.
A total of not more than 30 cr. hrs. of Individual Study
(any 693) will apply toward graduation for undergrad.
students, or 45 cr. hrs. for grad. students.

694  U G 3-5
Group Studies
W, Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.

H799  U G 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement
Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for
students with special aptitudes.
Students with permission of advisers may register for more than one section of 925 or for the same section two or more times. Research problems in Industrial Arts Education.

994  G 3-S
Group Studies
1 2 1/2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.

999  G Arr.
Research
Research for thesis or dissertation purposes only.

Education: Science and Mathematics

Office: 244 Arps Hall, 1450 North High Street

Professors Howe (Chairman), Coon, Crosswhite, and Trimbile; Associate Professors Helgeson, Mayer, Osborne Roth, Shumway, and White; Assistant Professors Brosser, Dinsinger, Higgins, Steiner, and Thomson.

Science Education: 294.27, 551, 587.27, 594.27, H599, 627, 693.27, 694.27, H799, 849, 850, 851, 884.27, 925.27, 994.27, 999.27.

Abbreviations: Education = Ed; C & F = Foundations; Early and Middle Childhood = E & MC; Science and Mathematics = Sc & Ma

294  U 3-S
Special Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

294.26 Teaching of Mathematics

294.27 Teaching of Science

546  U 4
Teaching Mathematics in Secondary Schools I
A, W. 4 cr.
Prereq.: Ed. C & F 435, and 20 cr. hrs. in Math.
Mathematical concepts, objectives, and classroom procedures appropriate for secondary schools; selection, preparation, and use of teaching materials including lesson plans, study guides, textbooks, and multisensory aids.
587 U 3-15
Student Teaching in Secondary Schools
W, Sp.
Prereq.: Ed. 4th yr. standing.
A minimum of 15 cr. hrs. is required.
For additional information, see College of Education catalog.
Observation, participation, and responsible teaching in a public school in the Greater Columbus area;
individual and group conferences or seminars. Students desiring teaching in more than one area
should indicate accurately both section numbers and hours in each.
587.26 Mathematics
587.27 Science

594 U 3-5
Group Studies

Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.
594.26 Teaching of Mathematics
594.27 Teaching of Science

H599 U 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study for students with special aptitudes.

621 U G 4
Teaching Mathematics in Secondary Schools II
A, W, 4 cr.
Prereq.: 546, and 25 cr. hrs. in Math.
Selected problems in curriculum; evaluation, materials of instruction, and the teaching of specific topics in
arithmetic, algebra, and geometry.

622 U G 3
Laboratory Methods and Materials in School Mathematics
Su, Sp. 1 1/2-hr. cl.
Prereq.: 521 or equiv., and a major or minor in Math.
The laboratory teaching of mathematics; experience in the preparation and use of teaching materials.

627 U G 3
Practicum in Science for Teachers
A, W. 3 2-hr. cl.
Prereq.: Permission of Faculty Chairman or instructor.
Use and design of apparatus, demonstrations, and experiments for general science, chemistry, biology, and
physics, with special emphasis on modern secondary school instructional materials in the sciences.

693 U G 1-4
Individual Studies
Prereq.: Ed. C & F 435 or Ed. E & MC 460, and
permission of instructor.
A total of not more than 30 cr. hrs. of Individual Study
(any 693) will apply toward graduation for undergrad.
students, or 45 cr. hrs. for grad. students.
693.26 Teaching of Mathematics
693.27 Teaching of Science

694 U G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.
694.26 Teaching of Mathematics
694.27 Teaching of Science

H799 U G 3-5
Honors Course
Prereq.: Enrollment in the Honors Achievement Program and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A program of accelerated study and research for students with special aptitudes.

841 G 3
The Use of Certain Concepts of Philosophy
and Logic in the Teaching of Mathematics
Sp. 3 cl.
Prereq.: Permission of instructor.
A study of the role of physical materials and certain concepts of philosophy and logic in the teaching of
arithmetic, algebra, and geometry.

842 G 3
Number Concepts in School Mathematics
Su. A. 2 1/2-hr. cl.
Prereq.: Permission of instructor.
The concept of number systems from the point of view of a teacher who plans to introduce them to
students in grades kindergarten through 12.

843 G 3
Algebraic Concepts in School Mathematics
Su, Sp. 2 1/2-hr. cl.
Prereq.: Permission of instructor.
Such concepts as algebraic structures, order structures, and relation and function as unifying themes for
school mathematics.

844 G 4
Geometric Concepts in School Mathematics
W, Sp. 4 1-hr. or 2 2-hr. cl.
Prereq.: Permission of instructor.
The historical and contemporary role of geometry in school mathematics; review of research, analysis of
current programs and the teaching of selected concepts.

845 G 4
Curriculum and Supervision in School Mathematics
Sp.
4 cl. plus observation and participation in selected
schools.
Prereq.: Permission of instructor.
The role of state and local supervisors in the design, implementation, and supervision of school mathematics programs (kindergarten through 12) with analysis of contemporary programs and materials of instruction.

849  G 4
The Supervision of School Science Programs
4 cl.
Prereq.: Permission of instructor.
For those concerned with supervision of teacher education programs in science; objectives, curricula, recent trends, classroom management, evaluation of teaching, professional literature.

850  G 4
Science in the School Curriculum
Su. 2 2-hr. cl.
Prereq.: Permission of instructor.
Foundations for science curriculum, current development, planning and evaluation procedures, research.

851  G 4
Science Education in Higher Education
2 2-hr. cl.
Prereq.: Permission of instructor.
Course and curricula for teacher preparation programs in science, clinical experience including student teaching, facilities, evaluation, research, and the role of science education centers.

884  G 3-15
Planned Field Experience
Prereq.: Permission of area advisor.
Planned professional teaching experience in a public school or other educational agency under supervision.

899  G 2-4
Interdepartmental Seminar in Teaching College Mathematics
Sp. 1 3-hr. cl.
Prereq.: Permission of instructor.
Discussion of problems raised by courses for liberal or general education, service courses, or special education courses commonly offered in college mathematics; given cooperatively by the Department of Mathematics and Education: Science and Humanities. Trimble and Riner.

925  G 2-5
Seminars
Prereq.: Permission or instructor.
Students with permission of advisors may register for more than one section of 925 or for the same section two or more times.
Research problems in:

925.26 Teaching of Mathematics
925.27 Teaching of Science

994  G 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

Advanced group studies on special problems in education.

994.26 Teaching of Mathematics
994.27 Teaching of Science

999  G Arr.
Research
Research for thesis or dissertation purposes only.

999.26 Teaching of Mathematics
999.27 Teaching of Science

Education:
Vocational-Technical

Office: 122 Townshend Hall, 1885 Neil Avenue

Professors Reese (Chairman), Hanna, Hillestad, Vivian, and Wells; Instructors Densmore, Hephner, Provost, Riley, and Santos.

Distributive Education: 289, 294.29, 529, 587.29, 594.29, 601, 605, 606, 608, 692.29, 693.29, 694.29, 884.29, 925.29, 994.29, 999.29.

Abbreviations: Education: Curriculum and Foundations = Ed: C & F
Education: Early and Middle Childhood = Ed: E & MC
Education: Vocational-Technical = Ed: VocTec

251  U 3-6
Work Experience in Private Enterprise
Prereq.: Major standing in chosen area and permission of instructor.
Repeatable to a maximum of 18 cr. hrs.

Occupational competency credit in subject matter field established by comprehensive examination.

260  U 2
Typewriting I
A, W 1 1-hr. lab.
Open only to business education majors and minors, or by permission of the instructor; not open to students with credit for Ed. 266.
Required in the 2nd yr. of students majoring in business education who lack proficiency required for admission to 266.
(Placement tests for students having had previous training in typewriting will be given during the first class meeting of 260, 261, and 262; student reporting for placement tests not be registered in this course.)
Development of skill in the operation of the typewriter, in producing copy, and in concomitant learning; the place of typewriting in business.
Theory and practice of office fundamentals; duties, responsibilities, procedures, and techniques of office work.

280 U 2 5
Field Experience in a Community Agency
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Professional service with children or youth in some school or community agency.

294 U 3-5
Group Studies
Prereq.: Permission of instructor.
Group studies for students in specialized programs.
294.22 Trade and Industrial Education
294.23 Business Education
294.29 Distributive Education
294.30 Vocational-Technical Education

520 U 2
Teaching Typewriting and Office Practice
W. 2 cr.
Prereq.: 262 or equiv.; Ed. C & F 435, and 4th yr. standing.
Objectives, methods, classroom procedures, and materials for teaching typewriting and clerical practice.

521 U 2
Teaching Shorthand and Transcription
W. 2 cr.
Prereq.: 265 or equiv.; Ed. C & F 435, and 4th yr. standing.
Objectives, methods, classroom procedures, materials, and evaluation for teaching shorthand, transcription, and business English.

523 U 3
Teaching Bookkeeping and Office Machines
A. 3 cl.
Prereq.: Acc. 221 and senior standing.
The objectives, methods, classroom procedures, and materials for teaching bookkeeping and accounting, office machines, and business arithmetic.

524 U 3
Methods of Teaching Basic Business Subjects
W. 3 cl.
Objectives, methods, classroom procedures, and materials for teaching general business, business law, consumer economics, and business organization in the high school.

529 U 3
Methods of Teaching Distributive Education
Su, A, W.
Prereq.: Ed. C & F 435.
The organization and preparation of teaching plans for distributive education classes; analysis of current on-the-job training methods in business establishments.
575 U 3-6
Vocational Trade, Industrial, and Technical Teaching
Prereq.: One year vocational teaching certificate in a skilled or technical occupation, or eligibility for such certificate and permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Provides teaching methods, techniques, and vocational course organization.

587 U 3-15
Student Teaching in Secondary Schools
Prereq.: Ed. 4th yr. standing.
A minimum of 15 cr. hrs. is required.
For additional information, see College of Education catalog.
Observation, participation, and responsible teaching in a public school in the Greater Columbus area; individual and group conferences or seminars. Students desiring teaching in more than one area should indicate accurately both section numbers and hours in each.

587.22 Trade and Industrial Education
587.23 Business Education
587.29 Distributive Education

594 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

594.22 Trade and Industrial Education
594.23 Business Education
594.29 Distributive Education
594.30 Vocational-Technical Education

601 U G 2
Business and Office Education Programs
Su, A. 2 cr.
Prereq. or concur.: 520, or 521, or 523, or equiv.
Organization, implementation, evaluation, and improvement of vocational office education programs on the secondary school level; required of all business education majors. Hanna.

602 U G 3
Cooperative Office Education
Su, W. 3 cr.
Prereq.: 520, or 521, or 523, or equiv.
A study of new approaches to organization, operation, and supervision of the Cooperative Office Education Program and the understanding and evaluation of the recent thrust in vocational education and work-study programs.

605 U G 3
Curriculum Content for Distributive Occupational Subjects
Sp. 3 cr.
Prereq.: 529.
Securing, evaluating, and organizing instructional material and experiences for distributive cooperative education and adult extension courses. Vivian.

606 U G 3
Operation of Distributive Education Programs
Su, W. 1 2/3 hr. cl.
Prereq.: Ed. C & F 435.
A practical study of the development and operation of a distributive education program. Vivian.

608 U G 2-3
Practicum in Distributive Education
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
Directed employment in a retail, wholesale, or service business previously approved by the student's adviser. Vivian.

609 U G 3
Evolution of Vocational Education
Su, A, W. 1 2/3 hr. cl.
Prereq.: Permission of instructor.
Introduction to the development of vocational education including consideration of influences affecting legislation, federal acts, and basic concepts which have evolved.

646 U G 3
Coordination of Cooperative Vocational-Technical Education Programs
Su, Sp. 1 2/3 hr. cl.
Prereq.: Ed. C & F 435, or equiv.
Designed to develop the knowledges, attitudes, and competencies to operate effectively a cooperative vocational-technical education program. Vivian.

649 U G 3
Vocational-Technical Education for Out-of-School Youth and Adults
A. 1 2/3 hr. cl.
Prereq.: 575 or equiv., and permission of instructor. Teaching or supervising experience required for graduate credit.
Philosophy, facilities, subject matter, instructional methods, teacher education, supervision, coordination, records and reports, types of programs and relationships. Reese.

692 U G 4, 6, or 8
Workshops
Su. 4 cr. hrs. for 3-wk. workshops.
6 cr. hrs. for 4½-wk. workshops.
8 cr. hrs. for 6-wk. workshops.
Prereq.: Teaching experience, and permission of workshop director.
Repeatable to a maximum of 16 cr. hrs.
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.

692.22 Trade and Industrial Education
692.23 Business Education
692.29 Distributive Education
692.30 Vocational-Technical Education
Individual Studies
Su., A., W., Sp.
Prereq.: Ed. C & F 435 or Ed. E & MC 460, and permission of instructor.
A total of not more than 30 cr. hrs. in Individual Study (any 693) will apply toward graduation for undergrad.
students, or 45 cr. hrs. for grad. students.
693.22  Trade and Industrial Education
693.23  Business Education
693.29  Distributive Education
693.30  Vocational-Technical Education

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in education.
694.22  Trade and Industrial Education
694.23  Business Education
694.29  Distributive Education
694.30  Vocational-Technical Education

Principles in Business Education
Su., A.  1 2/3-3 hr. cl.
Open only to grad, students majoring in business education, distributive education, or vocational education.
Meant to bridge and purpose, and scope of the business education program; analysis of principles and fundamental \(\text{issues.}\) Hanna.

Organization and Teaching of Office Practice
Su.  3 cl.
Prereq.: 270, or equiv.
The purposes, content, organization, materials, and methods of evaluation for an office practice course.
Office practice as a part of an intensive vocational curriculum. Wells.

Administration and Supervision of Business Education
Su.  1 2/3-3 hr. cl.
Prereq.: Grad, status in business or vocational education.
Administrative problems in business education related to program, facilities, placement and follow-up
of graduates, public relations, and federal-state reimbursement.

Improvement of Instruction in Basic Business Subjects
3 cl.
Prereq.: 524, or equiv.
A study of objectives, methods, materials, and methods of evaluation for courses such as general business,
consumer education, and business law. Wells.

Improvement of Instruction in Bookkeeping and Data Processing
Su., Sp.
Prereq.: 523, or equiv.
Evaluation of the content, materials, and methods of teaching bookkeeping, accounting, and data processing
on the secondary and postsecondary school levels. Hanna.

Improvement of Instruction in Secretarial Subjects
Su.  2 cl.
Prereq.: 520 and 521, or equiv.
Teaching procedures basic to the development of vocational proficiency in typewriting, shorthand, and
transcription; available instructional materials, evaluation, standards of achievement. Wells.

Survey of Vocational Education
Su., A.  1 2/3-3 hr. cl.
Prereq.: Ed. C & F 435, or equiv.
Open to vocational educators, school administrators, and other graduate students who desire information
about vocational education.

Planned Field Experience
Prereq.: Permission of area adviser.
Planned professional teaching experience in a public school or other educational agency under supervision.

Seminars
Su., A., W., Sp.
Prereq.: Permission of instructor.
Students with permission of advisers may register for more than one section of 925 or for the same section
2 or more times.

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Advanced group studies on special problems in education.
Electrical Engineering

Office: 205 Electronics Laboratories, 201 Neil Avenue

Professors: Thurston (Chairman), Anderson, Ayres (Emeritus), Bacon, Ballin, Boone, Collins, Cornetet, Cowan, Davis, D. Davis, Dreese (Emeritus), Goggling, Hsu, Kenmough, Ko, Kooyrmiian, Kraus, Kienzi, Lewis, Long, Mathis, McGhee, McMaster (Regents), Middleton, Peake, Peters, Richmond, Smith, Walter, Warren, Weed, Weiner, and Yovits; Adjunct Professors: Beer and Warfield; Associate Professors: Battocletti, Blake, Breeding, Compton, Damon, DeVore, Fenton, Hemami, Higgy (Emeritus), Hodges, Koozemanen, Lackey, Meadors, Ruddock, Sebo, Seliga, and Swartz; Assistant Professors: Campbell, Ehrman, Erdman, Garbach, Hanson, Huff, Lawrence (Emeritus), Mayhan, Moffatt, Noyes, Olson, Pimmel, Thiele, and White.

201 U 3 or 4
Circuit Analysis I
A, W, Sp. 3 or 4 cl.
Prereq.: Math. 153 and Physics 133.
Resistance networks; independent and dependent sources; R, L, C terminal relations; transient response; operational impedance and transfer functions.

202 U 3 or 4
Circuit Analysis II
A, W, Sp. 3 or 4 cl.
Prereq.: 201.
Operational methods; sinusoidal and exponential excitation; phasors; power and energy; polyphase circuits; resonance; poles and zeros; mutual coupling.

203 U 3 or 4
Circuit Analysis III
A, W, Sp. 3 or 4 cl.
Prereq.: 202.
Coupled circuits and transformers; two-ports; Fourier series; Fourier integral; Laplace transform, impulse response and convolution; applications.

207 U 2
Circuits Laboratory I
A, W, Sp. 3 cl., 1 3-hr. lab.
Concur.: 202.
Basic electrical measuring instruments, investigation of various waveforms in R, L, C circuits, transient response, frequency response, polyphase circuits.

208 U 2
Circuits Laboratory II
A, W, Sp. 1 cl., 1 3-hr. lab.
Prereq.: 207.
Investigation of properties of the basic circuit elements; periodic non-sinusoidal waveforms, harmonic analysis, nonlinear circuits.

292 U 1-15
Individual Studies in Electrical Engineering
Repeatable to a maximum of 15 cr. hrs.

294 U 1-15
Group Studies in Electrical Engineering
Repeatable to a maximum of 15 cr. hrs.

347 U 1
Electrical Engineering Laboratory
A, W, Sp. 3-hr. lab.
Concur.: 540.
Laboratory to accompany 540.

400 U 5
Basic Electronics
W. 3 cl., 2 2-hr. lab.
Prereq.: Math. 150, Physics 112, and permission of instructor.
Not open to students in Engineering.
Introduction to circuits, devices, and instrumentation with emphasis on practical applications.

417 U 1
Electromagnetics Laboratory
A, Sp. 1 3-hr. lab.
Concur.: 512.
Transmission line parameters; attenuation, magnitude and phase of voltage and current on lines; reflected waves; waveguide characteristics and techniques; antenna patterns and impedances.

427 U 1
Electronic Devices and Circuits Laboratory I
W, Sp. 1 3-hr. lab.
Prereq. or concur.: 522.
PN junction diode characteristics and circuits; transistor characteristics and the Ebers-Moll model; small-signal parameters of the transistor; bias and amplifier circuits; emitter-coupled difference amplifier.

428 U 1
Electronic Devices and Circuits Laboratory II
A, W. 1 3-hr. lab.
Prereq.: 523.
Power amplifiers, performance of linear integrated circuit operational amplifiers; oscillators; voltage regulators, logic circuits; multivibrators; waveform generators.

447 U 1
Electrical Energy Conversion Laboratory I
W, Sp. 1 3-hr. lab.
Concur.: 541.
Characteristics of general magnetic networks and transformers; linear and rotary electromechanical devices; transient and steady state; magnetic fields in rotating machines.
448 U 1
Electrical Energy Conversion Laboratory II
A, Sp. 1 hr-lab.
Prereq.: 447.
Continuation of 447 and inspection of electric power
distribution systems.

457 U 1
Signals and Systems Laboratory
A, W, Sp. 3 hr-lab.
Concur.: 550.
Laboratory study of signal processing, control systems
and their components, operational amplifiers, and
analog computers.

500 U 4
Electrical Engineering
Su, A, W, Sp. 3 cl., 3-hr. lab.
Prereq.: Physics 133, and Math. 254.
Introduction to circuit analysis; circuit analysis
concepts and their extension to mechanical and
thermal systems by analogy; electrical instruments
and measurements.

510 U G 3 or 4
Field Theory I
A, W. 3 or 4 cl.
Prereq.: Physics 133 and Math. 416.
Vector relations, static electric fields, dielectric
materials, boundary conditions, boundary value
problems, field mapping, steady electric currents and
their magnetic fields, and ferromagnetic materials.

511 U G 3 or 4
Field Theory II
W, Sp. 3 or 4 cl.
Prereq.: 510.
Time changing electric and magnetic fields, Maxwell's
equations, relations between field and circuit theory,
plane waves, Poynting vector, energy relations,
and polarization.

512 U G 3 or 4
Transmission and Radiation
A, Sp. 3 or 4 cl.
Prereq.: 511.
General transmission theory, infinite line, terminated
line, impedance transformation, rectangular
waveguides, group and phase velocity, impedance of
waveguides, wave propagation, and radiation.

520 U 4
Electron Devices and Controls
Su, A, W, Sp. 3 cl., 3-hr. lab.
Prereq.: 500.
Theory and applications of semiconductors, transistors,
photovoltaic, vacuum and gas filled tubes. Study of
circuit control circuits, feedback, amplifiers, oscillators,
filters, magnetic amplifiers, and instrumentation.

521 U G 3 or 4
Electronic Devices and Circuits I
A, W. 3 or 4 cl.
First of a sequence of four electronics courses
including: introduction to electronic circuit devices
and models; conduction mechanisms of
semiconductors; junction diode models and circuits.

522 U G 3 or 4
Electronic Devices and Circuits II
W, Sp. 3 or 4 cl.
Prereq.: 521.
Physical electronics of bipolar and field effect
transistors; small-signal models of transistors;
transistor bias circuit design; low and high frequency
response of single-stage amplifiers.

523 U G 3 or 4
Electronic Devices and Circuits III
A, Sp. 3 or 4 cl.
Prereq.: 522.
Multistage amplifier analysis, tuned circuits, and
feedback amplifier analysis.

540 U 3
Electrical Engineering
A, W, Sp. 3 cl.
Prereq.: 500 or equiv.
Electromechanical devices; an introduction to the
basic principles of analysis of electromechanical
devices; the approach is organized to extend the
circuit concepts and dynamic analysis introduced in
the preceding course.

541 U G 4
Electrical Energy Conversion I
W, Sp. 3 cl.
Prereq.: 203; prereq. or concur. 510 and 550.
Magnetic circuits, transformers; electromechanical
energy conversion principles; basic concepts of rotating
machines; engineering considerations of rotating
machines; direct current machines, synchronous
machines, induction machines.

542 U G 4
Electrical Energy Conversion II
A, Sp. 4 cl.
Prereq.: 540 or 541; prereq. or concur.: 512.
Electric power systems; power system elements;
power-frequency control, control of voltage and reactive
power; load flows; fault analysis; stability; underground
energy transmission; HVDC; direct energy conversion.

550 U G 3 or 4
Introduction to Signals and Systems
A, W, Sp. 3 or 4 cl.
Prereq.: 203.
Fourier and Laplace transforms, impulse, convolution;
feedback systems, block diagrams, signal-flow graphs,
stability, frequency response, pole-zero analysis, and
application to computers and control.

570 U G 3
Bio-Medical Engineering Analysis
for Non-Engineers
A. 5 cl.
Prereq.: Math. 123 or 150 or equiv.
Not open to students in College of Engineering.
Basic concepts and techniques used in analyzing
physical and bio-medical systems. Pimmel.
571 U G 3
Bio-Medical Engineering Electronics
for Non-Engineers
Sp. 6 cl.
Prereq.: 500 or 570.
Not open to students in College of Engineering.
Fundamentals of solid state electronics; applications
to the life science field with emphasis on limitations
and laboratory uses. Pimmel.

572 U G 3
Bio-Medical Engineering Systems
for Non-Engineers
W. 5 cl.
Prereq.: 570 or equiv.
Not open to students in College of Engineering.
Continuation of 570; techniques for modeling and
analyzing bio-medical systems, including control
systems. Pimmel.

580 U 1
Professional Aspects of Electrical Engineering
A. 1 cl.
Employment problems of graduating seniors,
professional aspects of engineering and professional
societies and ethics; discussion of employment
practices.

601 U G 3
Communication Theory
A, W. 3 cl.
Prereq.: 523 or 622.
Theory of communication, information content,
frequency spectra, noise, methods of modulation,
modulators, and demodulators.

607 U G 2
Electrical Laboratory
A, W, Sp. 1 cl., 1 3-hr. lab.
Concur.: 601, 623, and 660.
Laboratory in the areas of logic circuits, communication
theory, and active circuits.

610 U G 3
Applied Electromagnetics I
A, W. 3 cl.
Prereq.: 512.
Rectangular and cylindrical waveguides; waveguide
devices; radiation and antenna parameters; array
theory. Hodge.

611 U G 3
Applied Electromagnetics II
W, Sp. 3 cl.
Prereq.: 610.
Continuation of 610; aperture radiation; geometrical
optics; Babinet's principle; antenna impedance;
frequency independent antennas. Peters.

612 U G 3
Applied Electromagnetics III
Sp. 3 cl.
Prereq.: 611.
Continuation of 611; radio astronomy, brightness
temperature, noise, radio telescopes, radio sources,
tropospheric propagation, magnetoionic theory,
ionospheric propagation, millimeter wave and optical
propagation. Levis.

617 U G 1
Applied Electromagnetics Laboratory
W. 1 3-hr. lab.
Prereq.: 417; prereq. or concur. 611.
Electromagnetic measurement techniques; microwave
sources and detectors; waveguides and waveguide
devices; antenna patterns and impedance. Thiele.

623 U G 3 or 4
Electronic Devices and Circuits IV
A, W. 3 or 4 cl.
Prereq.: 523.
Continuation of the electronics sequence; physical
electronics of solid-state devices, and application to
logic and wave generation circuits.

631 U G 3 or 4
Electron Device Physical Theory I
W. 3 or 4 cl.
Prereq.: 522 and Physics 580.01; or equiv.
Structure of the solid state; junction diode and
transistor theory, and models.

632 U G 3 or 4
Electron Device Physical Theory II
Sp. 3 or 4 cl.
Prereq.: 631.
Thermionic emission, photoeffects, transport properties,
dielectrics, piezoelectrics, ferroelectrics, theory and
applications of magnetic materials.

660 U G 3
Switching Circuit Theory I
Su, A, W, Sp. 3 cl.
Prereq.: 520 or 523, or permission of instructor.
Introduction to combinational switching theory,
Boolean algebra, and clocked sequential networks.

670 U G 3
Introduction to Bio-Medical Engineering
A. 2 cl., 1 3-hr. lab.
Prereq.: 4th yr. Engr. or permission of instructor.
Introduction to the engineering aspects of life science
utilizing lectures from physiology, biophysics,
pharmacology, medicine, and psychiatry to introduce
subjects discussed in engineering terms. Campbell
and Weed.

693 U G 1-18
Individual Studies in Electrical Engineering
Repeatable to a maximum of 18 cr. hrs.

694 U G 1-18
Group Studies in Electrical Engineering
Repeatable to a maximum of 18 cr. hrs.
Advanced Circuits  
W.  3 cl.  
Prereq.: 522 or 621.  
Introduction to network synthesis. W. Davis.

Communications Systems  
W, Sp.  3 cl.  
Prereq.: 601.  
A study of the synthesis of amplitude and frequency modulated communication systems, with emphasis on transmitters and receivers. W. Davis.

Space Communications  
Sp.  3 cl.  
Prereq.: 601.  
A study of space communication systems; long-distance transmission, wave propagation, and system considerations. D. Davis and Peake.

Radar Systems  
A.  3 cl.  
Prereq.: 601.  
A study of radar systems including applications of modulation and detection theory; includes ranging, tracking, mapping, and guidance and navigation systems. D. Davis.

Communications Laboratory I  
W.  1 cl., 1 3-hr. lab.  
Prereq.: 523 or 622, 428 or 628, and 601.  
Theory and laboratory study of non-linear amplifiers and oscillators, modulators, and detectors. D. Davis.

Communications Laboratory II  
Sp.  1 cl., 1 3-hr. lab.  
Prereq.: 607.  
Laboratory study of communications systems. D. Davis.

Microwave Circuits  
A.  3 cl.  
Prereq.: 719.  
Not open to students with credit for 610.  
Advanced waveguides, waveguide devices, amplifiers, generators and detection devices; special microwave techniques. Peake.

Radiation from Antennas  
W.  3 cl.  
Prereq.: 719.  
Not open to students with credit for 611.  
Dipole, loop, aperture, reflector, lens, surface wave, and other antennas; array theory; radiation resistance, directivity, and input impedance. Kraus.

Microwave Optics  
A.  3 cl.  
Prereq.: 719.  
Geometrical optics, physical optics, aperture radiation integrals, minimum range requirements, stationary phase, sidelobes, backlobes, aperture blocking, radar echo area, geometrical theory of diffraction, and gyrotropic media. Peters.

Elements of Radio Wave Propagation  
Sp.  3 cl.  
Prereq.: 719.  
Not open to students with credit for 612.  
Practical calculations and procedures for predicting refraction and reflection by a plane or spherical earth; tropospheric, ionospheric, and scatter propagation. Lewis.

Microwave Electronics  
Sp.  3 cl.  
Prereq.: 512 and 522.  
Vacuum and solid state microwave devices and applications; klystrons, traveling wave tubs, magnetrons, impact diodes, transferred electron and LSA devices. Cornetet.

Electromagnetic Theory of Optical Devices  
Sp.  3 cl.  
Prereq.: 203 and 719.  
Derivation of geometrical optics from Maxwells equations, diffraction theory, optical spatial filtering, holography, optical resonators, and propagation through a turbulent atmosphere. Collins.

Electromagnetic Field Theory I  
Su, A, W.  3 cl.  
Prereq.: 512 or equiv.  
Fundamental laws of electrodynamics; dielectric, magnetic, and conductive media; energy, force, and momentum; radiation, scattering, and dispersion; interior boundary value problems. Ko.

Circuit Theory of Solid State Devices  
W.  
Prereq.: 523.  

Advanced Electronic Circuits  
Sp.  
Prereq.: 623.  
Integrating and differentiating circuits; counting circuits; timing circuits; pulse circuits; wave-forming and wave-shaping circuits. W. Davis.

Active Network and Logic Circuit Design by Digital Computer  
A, Sp.  3 cl.  
Prereq. or concur.: 623 or permission of instructor.
Study of computer aided network design programs, topological matrices; active device modeling, linear and nonlinear solutions; logic circuit analysis and design by digital computer. Battocletti.

727 U G 2
Solid State Device Laboratory
W. 3 cr. 1 3-hr. lab.
Prereq.: 428; prereq. or concur. 720.
Laboratory study of solid-state devices. Battocletti.

728 U G 2
Advanced Electronic Circuits Laboratory
Sp.
Prereq.: 428; prereq. or concur. 721.
Laboratory study of integrating and differentiating circuits; counting circuits; timing circuits; pulse circuits; wave-forming and wave-shaping circuits. Cornetet.

732 U G 4
Quantum Electron Devices
Sp. 4 cr.
Prereq.: Math. 415 and 416; or equiv.
Electronic energy levels in quantum electron devices; application to energy transitions in crystalline and gaseous media; applications to semiconductors, masers, and lasers. Hsu.

733 U G 3
Parametric Electronics and Nonlinear Optics
W. 3 cr.
Prereq.: 512; Math. 415 and 416; or equiv.
Coupled mode theory of lumped circuit and traveling wave parametric interaction, Hamiltonian treatment of nonlinear interactions, nonlinear optics, simulated Raman and Brillouin scatterings, and phonon-phonon interactions. Hsu.

734 U G 3
Solid State Electronics Design and Technology I
W. 3 cr.
Prereq. or concur.: 522 or permission of instructor.
Discrete and planar electronic device design and associated silicon and germanium technology; semiconductor crystal growth; liquid-solid transformations; epitaxy, oxidation, diffusion, p-n junctions, planar diodes, and transistors. Middleton.

735 U G 3
Solid State Electronics Design and Technology II
Sp. 3 cr.
Prereq.: 734.
Si junction and surface FET, MOS devices; integrated active and passive device design; integrated circuit design and fabrication; photolithography; water processing and control testing; assembly; packaging. Middleton.

737 U G 3
Solid State Electronics Design and Technology Laboratory
A, W, Sp. 2 3-hr. lab.
Prereq.: 521 or permission of instructor. Repeatable to a maximum of 9 cr. hrs.
Fundamental experiments in solid state semiconductor and energy conversion electronics; conductivity, Hall coefficient; magneto-resistance; drift mobility; diffusion; lifetime; p-n junctions; crystal growth; thermoelectric and optical properties. Middleton.

740 U G 3
Electric Power Systems I
A. 3 cr.
Prereq.: 542.
A study of steady state operation of electric power systems; network concepts, power network representations; network solutions with matrix methods; asymmetrical systems; control of voltages, watts and vars; load-flows; economic dispatch. Sebo and Smith.

741 U G 3
Electric Power Systems II
W. 3 cr.
Prereq.: 542.
The methods and devices used in systems protection; protection systems, relay types, pilot wire and carrier systems, relay response; protection of machines, transformers, buses, and lines; instrument transformers; modern trends in protection. Sebo and Smith.

742 U G 3
Electric Power Systems III
Sp. 3 cr.
Prereq.: 542.

743 U G 3
Advanced Theory of Electrical Machines
Sp. 3 cr.
Prereq.: 542.
Matrix representation, steady-state and transient analysis of transformers; d-c, induction, synchronous, and special machines. Mathis.

747 U G 2
High Voltage Laboratory I
A. 1 cr. 1 3-hr. lab.
Prereq.: 542.
A laboratory study of high-voltage insulation. Sebo and Smith.

748 U G 2
Power System Laboratory
Sp. 1 cr. 1 3-hr. lab.
Prereq.: 740 or 741.
A laboratory study of power system engineering problems. Sebo and Smith.

749 U G 2
High Voltage Laboratory II
W. 1 cr. 1 3-hr. lab.
Prereq.: 747
Laboratory study of high voltage impulse testing techniques. Smith.

750 U G 3
Linear System Theory
Su, A, W. 3 cr.
Prereq.: 550.
Not open to students with credit for 800.
Writing system equations for electrical, mechanical, and mixed systems with lumped parameters; solution by means of transform methods and numerical methods. McGhee.

751  U G 3
Open Cycle Control and Instrumentation
W.  3 cl.
Prereq.: 541 or 641, and concur. 550 or 650; or 520 and 540 with permission of instructor.
Engineering analysis and design applied to selected practical problems in the fields of sensors, measurement, signal handling, and systems as parts of overall control problems. Weed.

752  U G 3
Feedback Control Systems I
A.  3 cl.
Prereq.: 550.
Application of feedback principles to control systems, system equations; performance criteria; compensation, carrier systems, multivariable systems. Weiner.

753†  U G 3
Magnetic Amplifiers
Sp.  3 cl.
Prereq.: 542 or 642, and 550 or 650; or 520 and 540, with permission of instructor.

754  U G 3
Feedback Control Systems II
Sp.  3 cl.
Prereq.: 550.
Analysis of nonlinear control systems; computer simulation, numerical methods, phase-plane techniques, describing functions, and switched systems. Fenton.

755  U G 3
Digital Control Systems
W.  3 cl.
Prereq.: 550.
Difference equations, z-transforms, digital filtering, sampling quantization, analog-digital conversion; block diagramming to model digital and hybrid control systems. Fenton.

757  U G 2
Control Systems Laboratory I
W.  1 cl., 1 3-hr. lab.
Concur.: 751 or 752.
Experiments chosen by student interest from the course content of open cycle and instrumentation and feedback control systems. Bacon.

758  U G 2
Control Systems Laboratory II
Sp.  1 cl., 1 3-hr. lab.
Concur.: 753, 754, or 755.
May be taken without 757.
Experiments chosen by student interest from the course content of magnetic amplifiers, feedback control systems, and digital control systems.

760  U G 3
Theory and Design of Digital Computers
A, W, Sp.  3 cl.
Prereq.: 660.
Number systems, introduction to computer programming, design of arithmetic and control units for general purpose digital computers, and interrelation of hardware and software system design. Breedon.

761  U G 3
Switching Circuit Theory II
W, Sp.  3 cl.
Prereq.: 660.
State minimization, asynchronous sequential machines, the state assignment problem, transient analysis of combinational switching networks, linear sequential networks, and threshold logic. McGhee.

762  U G 3
Information Theory
W.  3 cl.
Prereq.: 660 or 550 or permission of instructor.
Introduction to information theory; codes, sources, and transmission over noisy channels. Davis and Lackey.

763  U G 3
Hybrid Computation
A.  3 cl.
Prereq.: 550 and Compu. and Info. Sc. 241 or equiv.
Introduction to combined analog-digital techniques; hybrid system components; error analysis; hardware and software. Lackey.

764  U G 3
Digital Signal Processing
Sp.  3 cl.
Prereq.: 550.
Transmission of information, conversion to digital form, and conventional analysis methods; processing techniques including complex exponentials and Walsh/Haar Transform theory; generalized Fourier Transform. Lackey.

767  U G 2
Digital Computer Laboratory
A, W, Sp.  1 cl., 1 3-hr. lab.
Concur.: 760.
Laboratory study of counting, arithmetic, and digital circuits. Olson.

770  U G 3
Biological Control Systems
W.  2 cl., 1 3-hr. lab.
Prereq.: 550 or equiv.; 670 and permission of instructor or Physiol. 600.
Application of electrical engineering to the analysis of biological control systems such as visual, muscular, thermal, and cardiovascular; receptor, nerve axon, and muscle transfer characteristics. Campbell.

771  U G 3
Bio-Medical Instrumentation
Sp.  2 cl., 1 3-hr. lab.
Prereq.: 520 or 522; 670 and permission of instructor or Physiol. 600.
Application of electrical engineering to instrumentation, monitoring, and signal and data handling in bio-electrical measurements; consideration of implants, heart pacers, electrocardiograms and electroencephalographs, and speech analysis. Campbell.

772 U G 3 Advanced Bio-Medical Instrumentation
A. 2 cl., 1 3-hr. lb.
Prereq.: 520 or 522; 670 and permission of instructor or Physiol. 660.
Classroom and laboratory investigation of some of the advanced instrumentation problems in EEG, EKG, catheter measurements, spectral analysis, correlation, cell potential, and ion evaluation. Campbell.

793 U G 1-18 Individual Studies in Electrical Engineering
Repeatable to a maximum of 18 cr. hrs.

794 U G 1-18 Group Studies in Electrical Engineering
Repeatable to a maximum of 18 cr. hrs.

801† G 3 State Variable Methods in Linear Systems
A. W. 3 cl.
Prereq.: 550.
Elements of linear transformation and matrix theory; state equations and vectors; differential time-invariant and time-variable systems; discrete systems; observability and stability. Hemami.

802 G 3 Network Synthesis I
Sp. 3 cl.
Prereq.: 750 and Math. 552.
Modern theory of network synthesis with applications to advanced design of filters, equalizers, and compensators. W. Davis and Warren.

803 G 3 Network Synthesis II
A. 3 cl.
Prereq.: 802.
Continuation of 802. W. Davis and Warren.

804 G 3 Communication Theory I
A. W. 3 cl.
Prereq.: 504, 550, or permission of instructor.
The application of Fourier series and Fourier integral methods of the design and analysis of communication circuits and signals. W. Davis and Warren.

805 G 3 Communication Theory II
W. Sp. 3 cl.
Prereq.: 804 and Statist. 520.
The application of statistical methods to problems in communication systems including signal representation, modulation, detection, and filtering. W. Davis and Warren.

806 G 3 or 4 Communication Theory III
Sp. 3 or 4 cl.
Prereq.: 805.
Topics selected from the communication applications of statistical decision-theory, signal representation, optimal filtering, and other matters of current interest. Warren.

808† G 3 Theory and Analysis of Magnetic Amplifiers
W. 3 cl.
Prereq.: 523 or 622, and 806; or equiv.
Theory of magnetic materials; steady state and transient analysis of magnetic amplifiers; suppressed and free harmonics; power gain; resistive, inductive, and capacitive load. Weed.

810 G 3 Electromagnetic Field Theory II
W. 3 cl.
Prereq.: 719.
Solution of Maxwell's equations in time and frequency domains; field theorems; integral representations; eigenfunction solutions; fields of moving charges. Kouyoumjian.

811 G 3 Waveguides and Resonators
W. 3 cl.
Prereq.: 810, and 610 or 710.
General theory of waveguides, modes, discontinuities, losses, cavities, and power considerations. Peake.

814 G 3 Advanced Antenna Theory I
Su. 3 cl.
Prereq.: 810, and 611 or 711.
Field theorems; boundary-value problems; solution of the integral equations for scattering problems; radiation integrals; far-field criteria; antenna theorems; mathematical and numerical techniques. Richmond.

815 G 3 Advanced Antenna Theory II
Sp. 3 cl.
Prereq.: 810, and 611 or 711.
Analysis and synthesis of linear and planar radiating systems; excitation and propagation of surface and leaky waves; modulated traveling-wave structures; backward-wave antennas. Wafyer.

816 G 3 Propagation of Electromagnetic Waves
A. 3 cl.
Prereq.: 810, and 612 or 713.
Advanced study of transmission and reception of radio waves in the presence of the earth and its atmosphere; tropospheric, ionospheric, and scatter propagation. Levis.

817 G 3 Advanced Electromagnetic Theory I
A. 3 cl.
Prereq.: 810 or equiv.
Representation of fields by vector wave functions and dyadic Green's functions; Huygen's principle for electromagnetic waves; application to antenna and scattering problems. Kouyoumjian.

818  G 3
Advanced Electromagnetic Theory II
W.  3 cl.
Prereq.: 817, or 712 and 810.
Asymptotic methods and the geometrical theory of diffraction; integral equations and variational methods; propagation through inhomogenous media and anisotropic media; surface waves. Kouyoumjian.

819  G 3
Advanced Electromagnetic Theory III
Sp.  3 cl.
Prereq.: 818, or 712 and 810.
Application of saddle-point methods to electromagnetic problems; Fock theory for currents on curved surfaces; application of variational and perturbation techniques to electromagnetic problems. Kouyoumjian.

820†  G 3
Methods of Analysis of Interaction Between Electrons and Fields
A.  3 cl.
Prereq.: 631 and 810 or permission of instructor.
Electron beams; energy transfer; induced current; space charge waves; traveling and backward wave interactions; coupled-mode analysis; crossed-field interactions. Cornetet.

821†  G 3
Theory of Electron Guns and Electron Beams
W.  3 cl.
Prereq.: 522 and 810.
Electron optical principles; effect of thermal velocities; effect of space charge; electron guns; periodic focusing. Cornetet.

829  G 3
Plasma Dynamics
Sp.  3 cl.
Prereq.: 810.
Motion of ions and electrons, ionization processes, electromagnetic phenomena in plasma, electron beams in plasma. Ko and Peters.

830  G 3
Solid State Electron Devices I
A.  3 cl.
Prereq.: 631, 732, or equiv.
Physical properties of solids, crystal symmetry, lattice vibrations, electrons in a periodic lattice; the effective mass theorem. Swartz.

831  G 3
Solid State Electron Devices II
W.  3 cl.
Prereq.: 830.
Irreversible thermodynamics and the Onsager relation; the Boltzman transport equation, lattice and impurity scattering, conductivity and related phenomena; optical properties of semiconductors. Swartz.

832  G 3
Solid State Electron Devices III
Sp.  3 cl.
Prereq.: 831.
Semiconductors and metals in strong electric and magnetic fields; theory of negative resistance devices, microwave devices, and related topics. Swartz.

833  G 3
Theory of Semiconductor Junction Devices I
A.  3 cl.
Prereq.: 522.
Low and high level injection in p-n junctions; recombination statistics; the bipolar transistor, static and switching characteristics, low and high frequency equivalent circuits, and thermal effects. Boone and Swartz.

834†  G 3
Quantum Electron Devices
A.  3 cl.
Prereq.: 732 and 810.
Analysis of energy of atomic gases as applied to gas lasers; crystal structure of solid-state maser and laser materials.

837  G 3
Dielectric and Magnetic Electronics
W.  3 cl.
Prereq.: 522 and 631, or equiv.
Application of dielectric and magnetic effects to electron devices; dipoles; local fields; electromechanical interactions; spontaneous polarization, domain structure, and switching. Goutling.

838  G 3
Semi-Insulator Electronics
Sp.  3 cl.
Prereq.: 522 and 631, or equiv.
Conduction effects in low conductivity materials applied in electron devices; space-charge limited currents; tunneling devices; Schotky barrier effects; thin film electronics. Goutling.

839  G 3
Theory of Semiconductor Junction Devices II
W.  3 cl.
Prereq.: 833.
Continuation of 833; theory of the unipolar transistor, the MOS capacitor and transistor. Boone and Swartz.

840  G 3
Electromechanical Systems
A.  3 cl.
Prereq. or concur.: 750.
Application of the methods of electric circuit analysis to mechanical, acoustical, electromechanical, and electroacoustical systems. Cowan.

841  G 3
Computer Methods in Power System Analysis
W.  3 cl.
Prereq.: 740; prereq. or concur. Comp. and Info. Sc. 541.
Network matrices, algorithms for formation of network matrices, three-phase network matrices; short circuit studies; iterative solutions of algebraic and differential equations; load flow and transient stability studies of large systems. Sebo and Smith.

842  G 3
Economic Operation and Control of Electric Power Systems
A.  3 cl.
Concur.: 740.
Principles of economic operation and control of isolated or interconnected electric power systems, including effects of power losses in transmission lines. Smith.

843  G 3
Advanced Power System Analysis
Sp.  3 cl.
Prereq.: 841 or 842.
High voltage direct current systems; converter operation, control; harmonics, filters, reactive power requirements; reliability applications in power systems; Markov processes, combinatorial reliability; power system reliability evaluation. Sebo.

850  G 3
Theory and Design of Feedback Control Systems
W.  3 cl.
Prereq.: 750 and 752.
Linear feedback theory, signal-flow graphs, return difference, stability studies with parameter variation, independent control of transmission and sensitivity functions, multi-variable systems, and approximation methods. Weimer.

851  G 3
Synthesis of Linear Feedback Control Systems
Sp.  3 cl.
Prereq.: 755 and 850.
Sampled-data systems, the Z-transform, digital compensation; synthesis of systems with statistical inputs and constraints; advanced topics. Weimer.

853  G 3
Analysis of Non-Linear Systems
A.  3 cl.
Prereq.: 754, and 702 or 851 or Statist. 520 or permission of instructor.
An advanced study of non-linear systems and methods of analysis; stability studies with Liapunov functions and functional analysis; applications from electric circuits and control systems. Fenton.

854  G 3
Optimal Control Theory I
W.  3 cl.
Prereq.: 752, and 750 or 801.
Optimal control by dynamic programming; Pontryagin’s maximum principle, and variational methods; minimum time, energy, and fuel problems for linear continuous and discrete systems. Hemami.

880  G 1-18
Advanced Studies in Electrical Engineering
Repeatable to a maximum of 18 cr. hrs.
881 G 1-3
Seminar in Electrical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.

895 G 1-5
Interdepartmental Seminar in Radio Astronomy
(See under Interdepartmental Seminars.)

899 G 1-5
Interdepartmental Seminar
(See under Interdepartmental Seminars.)

910 G 3
Advanced Antenna Theory III
W.  3 cl.
Prereq.: 810, 804, and 611 or 711.
Time modulated antennas, synthetic aperture antennas, logic switching antennas, nonlinear processing antennas, and correlation arrays; the effects of signal-processing on bandwidth, gain, and multiple-target response. Ko and Walter.

933 G 1-18
Individual Studies in Electrical Engineering
Repeatable to a maximum of 18 cr. hrs.

999 G Arr.
Research in Electrical Engineering
Research for thesis or dissertation purposes only.

Engineering Graphics
Office: 240 Hitchcock Hall, 2070 Neil Avenue

134 U 5
Environmental Science and Technology
W.  5 cl.
Prereq.: Chem. 101 or equiv.
Principles and application of sciences and technology in the abatement of pollution of soil, air, water, and biomass from agricultural, municipal, industrial, and nuclear wastes. Carey, Sykes, Sweeney, and Taitanides.

150 U 5
Nature of the Digital Computer
Sp.  5 cl.
Not open to students in the College of Engineering.
An overview of the history, logical design, and organization of the digital computer; development of basic logical components and the overall organization of these machines. Pimmel.

210 U 5
Technology and Society I
A, Sp.  5 cl.
Prereq.: One year of high school algebra.
Not open to students in the College of Engineering.
Basic concepts and modes of thinking of our technological age; emphasis on the decision process and modeling. Pimmel.

211 U 5
Technology and Society II
W.  5 cl.
Not open to students in the College of Engineering.
Continuation of 210 with emphasis on dynamic systems including the concepts of feedback and stability. Pimmel.

220 U 3
Understanding Systems
Sp.  3 cl.
Prereq.: Permission of instructor.
Discussions of historical, philosophic, and sociologic antecedents to the development of a science of systems; students draw upon their individual experiences with real systems to formulate a science of systems. Smith.

Engineering Graphics

Office: 240 Hitchcock Hall, 2070 Neil Avenue

Professors Parkinson (Acting Chairman), Hwang, Kearns, LaRue, Paffenbarger (Emeritus), Reed, Romeo, Shupe, Watkins, and Yarrington; Associate Professor Smith; Assistant Professors Baldwin and Kennedy.

110 U 5
General Engineering Graphics
A, W, Sp.  5 2-hr. cl. and lab.
Prereq. or concur.: Math. 150.
Not open to students with credit for 112.
Graphic language of engineering and its application to the analysis, development, representation, and communication of engineering concepts. Watkins.

121 U 3
Graphic Presentation I
A, W, Sp.  3 2-hr. cl. and lab.
Representation of three-dimensional subjects by precise graphics; orthographic and pictorial. Parkinson.

122 U 3
Graphic Presentation II
A, W, Sp.  3 2-hr. cl. and lab.
Prereq.: 121.
Continuation of 121; elements of descriptive geometry, intersections and development of surfaces, shade and shadow, size description; selected design problems. Reed.
123 U 3
Graphical Methods
A, W, Sp. 3 2-hr. cl. and lab.
Prereq.: 122.
Graphical aids for representing and interpreting technical data, and solving management problems; includes logic diagrams, network diagrams, and flow, scheduling, and break-even charts. Romeo.

H190 U 4
General Engineering Graphics
A, W. 4 2-hr. cl. and lab.
Prereq.: Honors admission to College of Engineering; graphic language of engineering and its application to the analysis, development, representation, and communication of engineering concepts; intensified coverage of selected topics. Romeo.

194 U 1-5
Special Problems in Engineering Graphics
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Selected problems of an experimental nature stressing the systematic approach to engineering graphics problems and embracing appropriate modes of attack.

200 U 3
Computer Utilization with Introduction to Engineering Analysis
Su, A, W, Sp. 3 cl. and lab. hr.
Prereq.: Math. 152.
Application of the digital computer to engineering analysis. Use of algebraic programming languages; Computer Center facilities and procedures. Kennedy.

202 U 4
Space Geometry
W, Sp. 4 2-hr. cl. and lab.
Prereq.: 122.
Not open to students with credit in 102.
Theory and application of descriptive geometry in the solution of technical problems; includes axonometric projection, perspective, topographic drawing, shade, and shadow. Romeo.

204 U 4
Technical Drawing
A. 4 2-hr. cl. and lab.
Prereq.: 102, 122, or permission of instructor.
Commercial drawing practice; size specification, tolerance, and fits; technical sketching and layout of machine parts and assemblies; drawing symbols and schematic diagrams; drafting room procedures. Watkins.

206 U 4
Graphical Representation of Sheltering Structures
W. 4 2-hr. cl. and lab.
Prereq.: 102, 122, or permission of instructor.
Preparation of drawings of wood-framed and steel-framed residential and light commercial buildings; terminology; permit and code requirements. Romeo.

208 U 4
Production Illustration
Sp. 4 2-hr. cl. and lab.
Prereq.: 102, 122, or permission of instructor.
Pictorial representations in commercial and industrial usage; technical illustration techniques; templates and commercial aids digital plotter drafting procedures. Baldwin.

237 U 5
Engineering Graphics for Interior Designers
Sp. 5 2-hr. cl. and lab.
Representation of three-dimensional subjects by precise graphics; orthographic and pictorial; shade and shadows; applications to interior design. Parkinson.

400 U 3
Advanced Engineering Computation
Sp. 3 1-hr. cl.
Prereq.: 200 or Compu. and Info. Sc. 24; and Math. 152.
An advanced course in numerical and computational methods with emphasis on the application of the digital computer to the solution of engineering problems. Kearns.

410 U 3
Computer Graphics
Sp. 3 1-hr. cl.
An advanced course in graphics with emphasis on the application of computer-generated graphics to the solution of engineering problems. Latkoc.

593 U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Opportunity to pursue special-interest topics not otherwise offered.

Engineering Mechanics
Office: 209 Boyd Laboratory, 155 West Woodruff Avenue

Professors Graff (Chairman), Folk (Emeritus), Graham, Leissa, Ott (Emeritus), Poplar, Powell (Emeritus), Stevens, and West; Associate Professors Clausen, Fu, and Wu; Assistant Professors Engin, Tuschak, and Wells.

204 U 3
Applied Mechanics
A. 3 cl.
Prereq.: Math. 152.
Not open to students with credit for 201.
Statics of force systems by analytical and graphical means; introduction to response of deformable bodies to axial, bending, and torsional loads; area-moment methods.
205  U 3
Applied Mechanics
W.  3 cl.
Prereq.: 204.
Not open to students with credit for 202.
Continuation of 204.

206  U 3
Applied Mechanics
Sp.  3 cl.
Prereq.: 205.
Not open to students with credit for 202.
Continuation of 205.

210  U 4
Statics
Su, A, W, Sp.  3 cl., 2 1-hr. lab.
Prereq.: Physics 131; prereq. or concur. Math. 254.
Resultant and equilibrium of coplanar and noncoplanar force systems; trusses, frames, and connected bodies; friction; centroids and moment of inertia of masses and areas.

215  U 5
Statics and Strength of Materials
A, W, Sp.  5 cl.
Prereq.: Physics 131; prereq. or concur. Math. 254.
Resultant and equilibrium of isolated and connected body force systems; introduction to response of deformable bodies to action of axial, and bending and torsional loads.

410  U 4
Dynamics
A, W, Sp.  4 cl.
Prereq.: 210 or 215.
Not open to students with credit for 415 or 510.
Linear and angular motion from constant and variable forces; connected bodies; impulses; momentum; energy.

415  U 4
Dynamics
Su, A, Sp.  4 cl.
H415 (honors) may be available to students enrolled in a college honors program.
Prereq.: 210 or 215; Math. 255 or 415.
Not open to students with credit for 510.
Dynamics of particles and rigid bodies; impulses, momentum, work, and energy; three dimensional vector acceleration; conservative systems; single degree of freedom vibration analysis.

420  U 4
Strength of Materials
Su, A, W, Sp.  4 cl.
H420 (honors) may be available to students enrolled in a college honors program.
Normal and shearing stress and strain; energy; torsion; flexural stress; beam deflections; combined stress, theories of failure; columns.

427  U 1
Strength of Materials Laboratory
A, Sp.  1 2-hr. lab.
Prereq. or concur.: 420.
Experimental study of response of deformable bodies to loads using mechanical and electrical gages and methods of photoelasticity.

594  U G 2-5
Group Studies in Engineering Mechanics
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

622  U G 4
Advanced Strength of Materials
A, Sp.  4 cl.
Prereq.: 420 and Math. 255.
Not open to students with credit for 521 or 522.
Mohr's Circle for strain; failure theories; curved beams; bending of non-symmetrical sections; non-circular torsion; beams on elastic foundations; load-deflection relations by energy methods.

627  U G 3
Experimental Methods in Mechanics
A, Sp.  2 cl., 2 lab. hrs.
Prereq.: 420.
Static and dynamic strain analysis by electrical gages; grid techniques; brittle coatings; analogies; reflective photoelasticity in normal and oblique incidence; motion measurements.

660  U G 5
Fluid Dynamics
A.  5 cl.
Prereq.: 410 and Math. 514.
Basic equations and concepts of fluid flow; two and three dimensional incompressible flow problems; conformal transformations; vortex motion; viscous flow; boundary layer effects; compressible flow.

711  U G 3
Advanced Engineering Dynamics
W.  3 cl.
Prereq.: 410 and Math. 235 or 356.
Three-dimensional vector statics, kinematics and kinetics of particles and rigid bodies; energy, momentum, and stability; application of Lagrange's equations to machinery, vehicles, and ballistics; gyroscope.

731  U G 3
Vibrations of Discrete Systems
A.  3 cl.
Prereq.: 410 and Math. 235 or 356.
Free and forced vibrations of mechanical systems having lumped mass and elasticity, normal coordinates; dissipative system; stability; simple engineering applications.

732  U G 3
Non-Linear Vibrations
Sp.  3 cl.
Prereq.: 731 and Math. 552 or equiv.
Vibrations of damped and undamped systems with non-linear restoring forces; self-sustained oscillations; application of Hill's equation of stability of non-linear oscillations.
Applied Elasticity I
A. 3 cl.
Prereq.: 622 and Math. 512, or equiv.
Classical problems in elasticity; St-Venant torsion and bending theory; plane problems in rectangular and polar coordinates; axisymmetric problems; thermoelasticity.

Applied Elasticity II
W. 3 cl.
A continuation of 740.

Photoelasticity
W. 2 cl., 2 lab. hrs.
Prereq. or concur.: 741.
Stress analysis using polarized light techniques; polariscope optics; photoelastic materials and models; two and three dimensional problems; dynamics photoelasticity, photoplasticity, and thermal studies.

Theory of Elastic Stability
A. 3 cl.
Prereq.: 622, and Math. 255 or 556, or equiv.
Buckling of struts, rings, arches, and plates; torsional instability; stability criteria, exact and approximate methods.

Theory of Dynamic Stability
Sp. 3 cl.
Prereq.: 731.
Study of the criteria for dynamic stability; methods of stabilizing critical mechanical systems; applications to space mechanics, structures, and vehicles.

Theory of Thin Elastic Plates
W. 3 cl.
Prereq.: 622 and Math. 512, or equiv.
Derivation of the basic equations; classical solutions for rectangular and polar coordinates; approximate methods.

Individual Studies in Engineering Mechanics
Prereq.: 711, 731, 741, and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
See 794 for topics.

Group Studies in Engineering Mechanics
Prereq.: 711, 731, 741, and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
The student must register for specific problems in the areas indicated below, and may register for more than one at a time.
a. Experimental Stress Analysis.
b. Dynamics.
c. Fluid Mechanics.
d. Applied Elasticity.
e. Strength of Materials.
f. Vibration.
g. Plasticity.
h. Plates and Shells.
i. Continuous Media.
k. Biomechanics.

Methods of Engineering Analysis
A. 3 cl.
Prereq.: 10 cr. hrs. of 700-level courses in Engr. Mech.; Math. 512 or equiv.
Not open to students with credit for 760.
Solution of boundary value, eigenvalue, and initial value problems arising in mechanics by approximate methods; weighted residual and stationary functional methods.

Analytical Dynamics
Sp. 3 cl.
Prereq.: 711.
Lagrange's equations of motion for particles and rigid bodies; impulse; small oscillations, non-holonomic and dissipative systems; Hamiltonian systems; applications to intricate engineering problems.

Energy Principles in Mechanics
A. 3 cl.
Prereq.: 622 and Math. 255, or equiv.
Theoretical development of energy principles in mechanics; strain energy and complementary energy with related minimal principles; applications to problems in elasticity, dynamics, and vibrations.

Vibrations of Continuous Systems
W. 3 cl.
Prereq.: 731; prerequisite or concur. Math. 512 or 557.
Equations of motion for strings, membranes, prismatical bars, and plates for various boundary conditions; approximate methods for complicated shapes; wave propagation in elastic media.

Vibrations Laboratory
Sp. 2 2-hr. lab.
Prereq.: 831.
Experiments in vibrations of discrete systems, beams, plates, and shells; propagation of stress waves; material properties by dynamic measurements.

Elastic Wave Propagation
Sp. 3 cl.
Prereq.: 740 and 831.
Dispersion and group velocity; waves in extended media; propagation and reflection in half space; Lamb problem; waves in plates and rods by exact theory; scattering of waves.
839† Random Vibrations
A. 3 cl.
Prereqs.: 833.
Description of random processes; statistical properties of the response of mechanical systems; optimization of systems subjected to random inputs; instrumentation.

840 G 3 Theory of Continuous Media
A. 3 cl.
Prereq.: 740.
Equilibrium, compatibility, and strain displacement relationships for a general continuum; constitutive equations for problems of elasticity, fluid dynamics, and inelasticity.

843† Advanced Elasticity
A. 3 cl.
Prereq.: 741.
Complex variable methods; anisotropic elasticity; three-dimensional elasticity; mixed boundary value problems; thermoelasticity.

847 G 3 Theory of Plasticity
Sp. 2 cl.
Prereqs.: 740 and Math. 512.
Plastic range stress-strain relations; elasto-plastic behavior of beams and trusses; torsion of prismatic bars; plane stress; shear lines; limit analysis.

854† G 3 Plates and Shallow Shells
Sp. 3 cl.
Prereq.: 754.
Advanced methods for the analysis of bending in thin, elastic plates having arbitrary shapes, loading, and boundary conditions; bending theory of shallow shells, and problem solutions.

855 G 3 Theory of Thin Elastic Shells
W. 3 cl.
Prereq.: 754.
Differential geometry of surface; general equations for an arbitrary shell; membrane theory; shells of revolution.

860† Classical Hydrodynamics
Sp. 3 cl.
Prereqs.: 711, Math. 512, 513, and 514, or equiv.
Basic equations and concepts of inviscid fluid flow, solutions to two- and three-dimensional problems; conformal transformations; approximate methods.

864 G 3 Theory of Viscoelasticity
W. 3 cl.
Prereq.: 740.
Basic concepts of time dependent inelastic behavior; viscoelastic constitutive laws; correspondence principles; quasi-static and dynamic problems.

889 G 1 Seminar in Engineering Mechanics
W, Sp. 1 cl.
Repeatable to a maximum of 6 cr. hrs.
Lectures and discussions covering a wide range of topics, presented by staff, graduate students, and guest speakers.

993 G 2-5 Individual Studies in Engineering Mechanics
Prereq.: Evidence of sufficient background in area of study chosen, and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
See 994 for topics.

994 G 2-5 Group Studies in Engineering Mechanics
Prereq.: Evidence of sufficient background in area of study chosen and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
The student must register for specific subject in the areas indicated below and may register for more than one at a time.

999 G Arr. Research in Engineering Mechanics
Research for thesis or dissertation purposes only.

English

Office: 421 Denney Hall, 164 West 17th Avenue

Professors: Gabel (Chairman), Muste (Vice Chairman), Altick (Regents), Beja, Canzoneri, Corbett, Jathorne, Derby (Emeritus), Estrich (Emeritus), Fullington (Emeritus), Hughey (Emeritus), Kahri, Kincaid, Kuhn, Logan (Emeritus), Markels, Marshall, Maurer, Percival (Emeritus), Robbins, Soellner, Utley, Wailey (Emeritus), Wheeler, and Wilson (Emeritus); Associate Professors: Battenby, Blickle, Brown, Cov, Ferguson, Good, Grigsby, Haskell, Jones, Lockridge, Martin, Mullen, Scheps, Sena, Shapiro, Snow (Emeritus), Varadyan, and Woodson; Assistant Professors: Adams, W. Andrews, Auburn, Baillie, Barnes, Cooley, Craig (Emeritus), Dasher, Doss, Dorsey (Emeritus), Dumble (Emeritus), England, Frantz, Fullmer, Kebalo (Emeritus), Kane (Emeritus), Libby, Longenacker, Mitchell, Munday, O'Sullivan, Passa, Rudensky, Saxetman, Vroonland, Weatherford, J. Williams, and Zacher; Instructors: Andrews, Augsburger, Brosch, Canary, Carpenter, Carter, Connor (Emeritus), Davis, Diskin, Edwards (Emeritus), E. Falor, R. Falor, Haber (Emeritus), Hoch, Jerman, Moots, Nyenhuis, Overmyer, Upjohn, Schorr, Tucker, Vogel (Emeritus), and D. Williams.
ENGLISH FOR FOREIGN STUDENTS
Course credit may not be counted toward graduation.

071 U 5
General English for Foreign Students
Review of English structure for foreign students; proceeds from basic oral-aural patterns to their application in writing. Hoch, Director.

072 U 5
Advanced English for Foreign Students
Develops academic and social effectiveness in the use of advanced patterns in written and spoken English. Hoch, Director.

073 U 3
Special Problems in English for Foreign Students
Attention given to special academic problems of foreign students; concentrated work on idiomatic structure and diction in writing reports, themes, examinations, and theses. Hoch, Director.

ENGLISH COMPOSITION
No prerequisite except when testing determines 071, 072, or 073 to be required.

100 U 5
Freshman English Composition
Not open to students with credit for 102, 103, 104, 105, H195, or 301.
Training in the fundamentals of expository writing, as illustrated in the student's own writing and in the essays of professional writers. Good, Director.

160 U 3
Introduction to Literature
Open only to freshmen.
An introduction to selected works of major British and American writers, designed to stimulate and train the reader's appreciation of literature.

193 U 3-5
Individual Studies
Prereq.: Freshman standing and permission of Director of Freshman English.
Repeatable to a maximum of 10 cr. hrs.

194 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Designed to give groups of students an opportunity to pursue studies not otherwise offered in English.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200
Unless otherwise indicated, the prerequisites for 200-level courses are English 100, 103, 115, or H195.

220 U 5
Introduction to Shakespeare
Students working toward the B.A. in English should elect 320 instead of 220.
Intensive study of selected plays of Shakespeare designed to give an understanding of drama as theatrical art and as an interpretation of fundamental human experience.

260 U 5
Introduction to Poetry
Designed to help students understand and appreciate poetry through intensive study of a representative group of poems.

261 U 5
Introduction to Fiction
Intensive study of a number of short stories and novels to acquaint the general student with some of the important themes and techniques of fiction.

262 U 5
Introduction to Drama
A critical analysis of selected dramatic masterpieces from Greek antiquity to the present, designed to clarify the nature and major achievements of western dramatic art.

265 U 5
The Writing of Fiction I
Prereq.: Permission of director.
Practice in the writing of fiction; analysis and discussion of student work, with some attention to general methods of fiction and the publishing situation. Canzoneri, Director.

266 U 5
The Writing of Poetry I
Prereq.: Permission of director.
Practice in the writing of poetry; emphasis on the students' own work, with reference to established poetic patterns and established poetry. Canzoneri, Director.

270 U 5
Introduction to Folklore
A general study of the field of folklore including basic approaches and a survey of primary folk materials: folktales, legends, folksongs, ballads, and folk beliefs.

280 U 5
The English Bible
A study of the Bible, in English translation, with respect to literary questions, historical development, and religious concepts.

281 U 5
Introduction to Afro-American Literature
(Offered in cooperation with the Black Studies Division.)
A survey (1760 to present) of significant major and minor literary works written by blacks about the black experience in American life.

283 U 5
Masterpieces of English Literature
A, Sp.
Not open to students with credit for 293.
Introduction to medieval and renaissance narrative poetry, beginning with Beowulf and including major works of Chaucer, Spenser, and Milton.

284 U 5
Masterpieces of English Literature
Su, W, Sp.
Not open to students with credit for 294.
The neo-classical and romantic periods; major works by such authors as Pope, Swift, Dryden, Johnson, Wordsworth, Coleridge, and Keats.

285 U 5
Masterpieces of English Literature
Not open to students with credit for 240 or 295.
The Victorian and early modern periods with major works by such authors as Tennyson, Browning, Arnold, Shaw, Conrad, Lawrence, Joyce, and Yeats.

290 U 5
Masterpieces of American Literature
Not open to students with credit for 551, 552, 553.
A critical study of some major American writers chosen from among the following: Poe, Hawthorne, Emerson, Thoreau, Melville, Whitman, Dickinson, Twain, James, Frost, Eliot, Faulkner, and Hemingway.

H296 U 5
Sophomore Honors Seminar
A, W.
Prereq.: Cumulative point-hour ratio of 3.0 or better, with 3.5 or better in Engl., and permission of dept.
Studies in the relationship of works of literature to their general intellectual contexts, involving such topics as Deism, Marxism, Primitivism, Freudian psychology; topic varies quarterly. Jones, Director.

H299 U 5
English Honors Pro-seminar
Sp.
Prereq.: Cumulative point-hour ratio of 3.0 or better, with 3.5 or better in Engl. and permission of dept.
An introduction to the materials and methods of literary study through intensive reading in one major English or American author; topic varies quarterly. Jones, Director.

301 U 5
Informative Writing
Prereq.: 3rd yr. standing and 100 or equiv.
Not open to students with credit for 303.
Intensive advanced training in the art of informative writing.

302 U 5
Critical Writing
Prereq.: 100 or equiv.; Engl. majors only.
Not open to students with credit for 301.
Intensive practice in writing various kinds of analyses of literary texts.

305 U 3
Technical Writing
Su, A, W, Sp. 2 cl., 1 hr. conf.
Prereq.: 3rd yr. standing in the B.S. curricula.
Training in practical writing for industry, business, and research, with emphasis on the special requirements and techniques for the professional report. Blickle, Director.

GENERAL PREREQUISITES FOR COURSES NUMBERED 500
These courses may provide graduate credit only in departments other than English. Prerequisites: 15 hrs. of courses in English on the 200 level, or 13 hrs. in English and 10 in specified allied departments.

513 U G 5
Introduction to Medieval Literature
Sp.
The study of masterpieces from the Middle Ages, chosen for their values in interpreting medieval culture as well as for their independent literary worth.

520 U G 5
Shakespeare
A critical consideration of the art, personality, and achievement of Shakespeare in the light of Renaissance and modern significance.

521 U G 5
The English Renaissance
Sp.
Not open to students with credit for 621.
A study of Tudor prose and poetry as they exemplify literary art and as they reflect the creative and inquiring temper of the age.

522 U G 5
Early 17th Century Literature
Sp.
A study of the poetry and prose of 1600-1660, excluding the major works of Milton.

530 U G 5
Milton
W.
A study of the major poetry and prose, with emphasis on Paradise Lost, Paradise Regained, and Samson Agonistes.
531 U G 5
The Age of Wit and Satire
A.
The skeptical mind of the Early Enlightenment as shown in lyric and satiric verse, essays, and drama, from Dryden to Pope.

535 U G 5
Literature of the 18th Century
W.
The ideas and artistry of the Age of Reason as reflected in the work of major figures: Swift, Pope, Fielding, Sterne, Boswell, Johnson, and Blake.

540 U G 5
Romantic Poetry
English literary and intellectual romanticism as seen in the poetry of Wordsworth, Coleridge, Byron, Shelley, and Keats, and selected critical documents of the period.

541 U G 5
Victorian Poetry
Su, W.
Readings in the poetry of Tennyson, Browning, Arnold, Swinburne, Rossetti, Meredith, Hopkins, and Hardy, as seen against the background of Victorian ideas and literary taste.

542 U G 5
The 19th Century English Novel
A, Sp.
Not open to students with credit for 641.
Readings in a group of major novelists, such as Austen, Dickens, Thackeray, and others, with special emphasis upon social and humanistic values.

543 U G 5
20th Century British Fiction
Not open to students with credit for 643.
A study of the development of British fiction after 1900, with emphasis on such major novelists as Conrad, Joyce, Lawrence, and Woolf.

547 U G 5
20th Century Poetry
A study of 20th century American and British poetry, with emphasis on such major figures as Frost, Yeats, Stevens, Eliot, Williams, and Auden.

551 U G 5
The American Renaissance in Literature
The readings of this course do not duplicate those of 290.
An introduction to the major American writers of the mid-19th century: Poe, Hawthorne, Melville, Emerson, Thoreau, and Whitman.

552 U G 5
American Literature, 1865-1914
Studies in fiction and poetry emphasizing such major figures as Twain, Howells, James, Dickinson, Robinson, Crane, Dreiser, and Willa Cather.

553 U G 5
20th Century American Fiction
A study of American fiction after 1914, with emphasis on the work of such major figures as Hemingway, Fitzgerald, and Faulkner.

570 U G 5
English Style and Usage
Variety in style and use in written and spoken English.

580 U G 5
Afro-American Language
W.
A lexical, phonological, and grammatical examination of Afro-American language as used in back literature, the blues, street-corner dialogues, and in other social and cultural situations.

581 U G 5
Afro-American Folklore
A, Sp.
A study of the oral traditions of black American culture including folk tales and other narrative lore, folksongs, blues, spirituals, and work songs.

H590 U 5
Junior Honors Seminar
Prereq.: Cumulative point-hour ratio of 3.0 or better, with a 3.5 or better in Engl. and permission of dept.
Intensive study of one of the major periods of English and American literature; periods vary quarterly.

H590.01 The Middle Ages
H590.02 The Renaissance
H590.03 Neo-Classicism
H590.04 Romanticism
H590.05 The Later 19th Century
H590.06 The Modern Period

594 U G 5
Group Studies
Repeatable to a maximum of 30 cr. hrs.
Topic varies from quarter to quarter on subjects not otherwise covered by English courses.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600
These courses may provide graduate credit in all departments. Prerequisites: 15 hrs. of courses in English on the 300 level, or 10 hrs. in English and 10 hrs. on the 300-500 level in specified allied departments.

615 U G 5
Introduction to Chaucer
A.
A close study of Troilus and Criseyde and The Canterbury Tales as introduction to the artist and his period.

624 U G 5
English Drama: Medieval and Renaissance
W.
Prereq.: 220, 262, or equiv.
A study of English popular drama from its origin to
1642, with special emphasis upon the evolution of
dramatic concepts and theatrical art.

634 U G 5
English Drama: Restoration
and 18th Century
Sp.
Prereq.: 220, 262, or equiv.
A study of English drama from 1660 to 1800;
Restoration heroic drama and wit comedy, 18th
century sentimental drama, the comedy of Goldsmith
and Sheridan.

642 U G 5
18th Century Prose
A.
Selections from the principal romantic and Victorian
non-fictional prose writers, read both as literary art
and as documents of contemporary thought.

648 U G 5
Contemporary Literature
Su. W.
A study of the development of contemporary American
and British fiction and poetry, concentrating upon
representative works of major authors from 1945 to
the present.

649 U G 5
Modern Drama
Sp.
An historical and critical examination of the major
developments, personalities, and achievements in the
drama of Europe and America since the advent of
Ibsen.

665 U G 5
The Writing of Fiction II
Prereq.: 265 or equiv. and permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Practice in the writing of fiction; continuation of 265 at
an advanced level.

666 U G 5
The Writing of Poetry II
W.
Prereq.: 266 or equiv. and permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Practice in the writing of poetry; continuation of 266 at
an advanced level.

667 Playwriting
U G 5

W.
Prereq.: Permission of instructor.
Practice in the writing of plays; analysis and discussion
of student work, with some attention to general
dramatic methods.

669 U G 5
Applied English Phonology
W.
A study of English phonology and its application to a
variety of literary and non-literary resources.

670 U G 5
American Folklore
Sp.
A study of the major forms of American folklore with
emphasis on folktales, legends, folksongs, and talltales.

671 U G 5
Introduction to English Grammar
Su. A.
A study of various systems of English grammar, with
emphasis on their application to writing and teaching.

672 U G 5
Introduction to the History of English
Sp.
A study of the historical development of the English
language, with emphasis on its outer history, and on
the history of words and sentences.

676† U G 5
History of Literary Criticism
W.
Intensive study of the basic texts in literary criticism
from Plato to T. S. Eliot.

680 U G 5
Literary and Cultural Heritage of the Middle East
W.
An introduction to Assyro-Babylonian, Arabic, and
Persian literature in their historical and cultural
settings.

693 U G 1-5
Individual Studies in English
Prereq.: Senior standing and permission of instructor
and of Dept. Undergrad. or Grad. Committee.
Repeatable to a maximum of 10 cr. hrs.
Students may register for individual directed study
under this number for work not normally offered in
courses.

695 U 5
Senior Honors Seminar
W.
Prereq.: Cumulative point-hour ratio of 3.0 or better,
with a 3.5 or better in Engl. and permission of dept.
Selected problems (themes, movements, genres, and
styles) emphasizing continuity and development in
English and American literary and linguistics history;
topic varies quarterly.

699 U 5
Senior Seminar and Tutorial
Prereq.: Engl. majors in their last qtr.
A reading course designed to unify the student's
knowledge of English and American literature and to
clarify his understanding of problems of interpretation
and criticism.

H783 U G 3-5
Honors Essay
Prereq.: 4th yr. standing; the record of A in at least
half his Engl. courses and an average of B in all of
his courses; the permission of professor under whose
supervision the work is to be completed.
Open only to candidates for distinction in Engl. who have in their junior year completed with high grades a program approved by the Committee on Honors. Repeatable to a maximum of 30 cr. hrs. A program of reading arranged for each student, with individual conferences, reports, and honors thesis. Jones, Director.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800
Prerequisites: 30 hrs. of courses in English or 20 hrs. in English and 25 hrs. in specified allied disciplines.

800  G 2
Introduction to Graduate Study
A.
Open only to M.A. candidates.
Required of all M.A. candidates.
An introduction to the methods and tools of graduate study in English and American literature.

810  G 5
Introduction to Old English Language and Literature
A.
The reading of Old English prose with special attention to the language and to cultural background.

812  G 5
Beowulf
W.
Prereq.: 810 or equiv.
A close study of the text of Beowulf and its background.

813  G 5
Middle English
Sp.
Prereq.: 810 or permission of instructor.
A study concentrating on 12th to 14th century English language and literature.

814  G 5
Studies in Early English Literature
A.
Prereq.: Either 615, 810, 813, or equiv.
A detailed and critical study of a medieval author or topic, exclusive of Chaucer.

815  G 5
Studies in Chaucer
Sp.
A critical study of some aspect of Chaucer's work in depth.

816  G 5
The Middle Ages
W.
A lecture-survey of Late Middle English literature concentrating on the period 1300-1500.

820  G 5
Shakespeare
A.
An intensive consideration of selected problems in the scholarly study of Shakespeare.

821  G 5
Studies in Renaissance Prose
W.
The evolution of literary prose from More to Milton as seen in representative works which are related critically to rhetorical theory and significant cultural forces.

822  G 5
Studies in Renaissance and Early 17th Century Poetry
A.
A close study of significant verse of late 16th and early 17th centuries.

823  G 5
Spenser
W.
A study of Spenser's poetry, its literary significance and its relation to foreign, classical, and native English poetic traditions.

824  G 5
Studies in Renaissance Drama
Su. Sp.
A critical study of significant trends in English drama between 1500 and 1642, excluding Shakespeare.

826  G 5
The Renaissance
Sp.
A lecture-survey of literature of the English Renaissance, 1500-1660.

830  G 5
Milton
Sp.
A critical study of the poetry and prose of John Milton, viewed against his social and literary background.

831  G 5
The Age of Dryden
Su.
A detailed study of Dryden and his contemporaries.

832  G 5
The Age of Pope and Swift
Sp.
A detailed study of Pope, Swift, and their contemporaries.

833  G 5
The Age of Johnson
A.
A detailed study of Johnson, Boswell, and their contemporaries.

834†  G 5
Studies in the 18th Century English Novel
Su.
Intensive study of a selected critical or historical problem in English prose fiction from 1668 to 1800.
836† G 5
The Restoration and 18th Century
W.
A lecture-survey of English literature between 1660-1798.

840 G 5
Studies in Romantic Poetry and Poetics
W.
Literary romanticism, as represented by one or more of the poets (Blake, Coleridge, Wordsworth, Byron, Shelley, and Keats), in relation to contemporary intellectual and political movements; topic varies year to year.

841 G 5
Studies in Victorian Poetry
Sp.
The artistic values of the poetry, its place in the romantic tradition, its reflection of the contemporary intellectual and social milieu; topic varies each year.

842† G 5
Studies in 19th Century Prose
A.
Selected non-fictional prose, read as examples of literary art and as documents of the age's religious, political, social, and aesthetic thought; topic varies from year to year.

843 G 5
Studies in the 19th Century English Novel
Su, W.
Intensive study of some aspect of the novel in the period from Jane Austen to Thomas Hardy; topic varies from year to year.

846 G 5
The 19th Century
A.

847 G 5
20th Century Poetry
Su, W.
Prereq.: Acquaintance with the major poets studied in 847 is assumed.
An intensive study of a representative body of modern poetry, with emphasis on several major poets of England and America.

848 G 5
Studies in 20th Century British Fiction
A. Sp.
Prereq.: Acquaintance with modern continental novelists is recommended.
Tendencies in modern British fiction as seen in the works of such major figures as Conrad, Forster, Joyce, Virginia Woolf, and D. H. Lawrence.

849† G 5
Studies in Major 20th Century Writers
W.
An intensive study of the works of one or two major poets, novelists, or dramatists, such as Conrad, Shaw, O'Neill, Eliot, Stevens, Joyce, Faulkner, or Hemingway.

851 G 5
Studies in the American Renaissance
A. Sp.
Prereq.: 551 or equiv.
An intensive study of several authors drawn from the following list: Cooper, Poe, Hawthorne, Melville, Emerson, Thoreau, and Whitman.

852 G 5
Studies in American Literature, 1865-1914
Su, W.
Prereq.: 552 or equiv.
An intensive study of several major authors of the period, including Twain and James.

853 G 5
Studies in Individual American Writers, 1800-1900
Sp.
An intensive study of the works of a single major American author of the 19th century; author varies yearly.

855 G 5
Studies in 20th Century American Fiction
Sp.
An examination of the development of 20th century American fiction as seen in the works of several central novelists such as Faulkner, Fitzgerald, and Hemingway.

856† G 5
American Literature
Sp.
A lecture-survey of American literature between 1820 and 1900.

870 G 5
Studies in Folklore
W.
Intensive study of some particular aspect of folklore.

871† G 3
Principles and Methods of Linguistic Analysis
Su.
Prereq.: Permission of director.
The study of the principal methods of the analysis of the English language.

872 G 3
Structural Analysis of English Expository Prose
A.
Prereq.: Permission of director.

873 G 3
Principles and Methods of Literary Analysis
W.
Prereq.: Permission of director.
Principles and methods of the study of English poetry, drama, and prose fiction.

876 G 5
Studies in Critical Theory
Sp.
A review of theory and practice in some of the principal forms of literary analysis.
877  G 5  
Advanced English Grammar  
W.  
Prereq.: Grad. standing and one of the following: 600, 671, 672, Ling. 600, 601, Speech 852, or equiv.  
An advanced approach to the grammar and the grammars of English and to their application to teaching and writing.

878  G 5  
History of the English Language  
Sp.  
Prereq.: Grad. standing, and one of the following: 669, 671, 672, Ling. 600, 601, Speech 852, or equiv.  
An advanced approach to the history of English, with emphasis on inner history as well as its outer matrix, and its place among the world's languages.

880  G 5  
Studies in English or American Literature  
Su, A, W.  
Prereq.: Permission of Dept. Grad. Committee Chairman.  
Offered occasionally as an intensive course on some phase of English or American literature.

Medieval and Renaissance Culture  
(See Medieval and Renaissance Studies 888.)

Medieval and Renaissance Literature  
(See Medieval and Renaissance Studies 889.)

GENERAL PREREQUISITES FOR COURSES NUMBERED 900  
Prerequisites: 15 hrs. of English on the 800 level.

910†+  G 5  
Studies in the Medieval Period  
W, Sp.  
Individual research in a major aspect of Old and Middle English literature.

911†+  G 5  
Studies in the Medieval Period  
Su.  
Prereq.: 910.  
Continuation of 910.

912†+  G 5  
Research in Chaucer  
W.  
Individual research in various aspects of medieval literature, with Chaucer as center.

913†+  G 5  
Research in Chaucer  
Sp.  
Prereq.: 912.  
A continuation of 912.

920†+  G 5  
The English Renaissance  
W.  
Reading and research in non-dramatic literature of the English Renaissance; topics may vary from year to year.

921†+  G 5  
The English Renaissance  
Sp.  
Prereq.: 920.  
A continuation of 920.

922*  G 5  
Studies in the Age of Shakespeare  
W.  
Exploration of the problems, materials, and methods relevant to a scholarly study of Shakespeare's work and cultural environment, culminating in individual research.

923*  G 5  
Studies in the Age of Shakespeare  
Sp.  
Prereq.: 922.  
Continuation of 922.

933†+  G 5  
Research in the Restoration Period  
A.  
Individual research in Restoration literature, Dryden to Pope; oral and written reports.

934†+  G 5  
Research in the Restoration Period  
W.  
Prereq.: 933.  
Continuation of 933.

935*  G 5  
Studies in 18th Century Literature  
A.  
Problems in the literature and ideas of the Age of Reason.

936*  G 5  
Studies in 18th Century Literature  
W.  
Prereq.: 935.  
Continuation of 935.

940†+  G 5  
Studies in 19th Century Literature  
A.  
Reading and research in the literary production of the century and its intellectual and social backgrounds; topic varies from year to year.

941†+  G 5  
Studies in 19th Century Literature  
W.  
Prereq.: 940.  
Continuation of 940.

947  G 5  
Studies in 20th Century Literature and Cultural History I  
Sp.  
Individual research in British and American literature of the 20th century.
Entomology

Office: 103 Botany and Zoology Building, 1735 Neil Avenue

Professors Goleman (Chairman), Blair, Borror, Briggs, Britt, Fisk, Holdsworth, Johnston, Niemczyk, Rings, Rothenbuhler, Shambaugh, Sleeman, Stairs, Treece, Triplehorn, and Wharton; Associate Professors Barry, Collins, Goonewardene, Hink, Horn, King, Knoke, Krueger, Ladd, Miller, Musick, Nault, and Waldron; Assistant Professors Connor, Foster, Hall, Lindquist, Lyon, Neilsen, and Williams.

200
General Entomology
The biology of insects; form, function, classification, behavior, and ecological relations, including effect on man. Johnston, Stairs, and Triplehorn.

200.01 General Entomology: Lecture
A, W, Sp. 3 cl.
Prereq.: Biol. 100, or Zool. 201, or equiv.
Not open to students with credit for 200.

200.02 General Entomology Laboratory
A, W, Sp. 2-2 hr. labs.
Prereq.: or concur.: 200.01.
Not open to students with credit for 200.

361
Agriculture
Agriculture
Sp. 3 cl., 2-2 hr. labs.
The principles of management of honeybees in the production of honey, wax, package-bees, and queens and in pollinating crops of economic importance.

460
Economic Entomology
A, W, Sp. 5 cl.
Prereq.: Biol. 100 and Zool. 201, or equiv.
Survey of insects and close relatives that affect public health crops, livestock, and the home; control methods, including the safe use of insecticides with environmental considerations. Holdsworth and Horn.

500
Entomology for Biology Majors
Su. 3 cl., 2-2 hr. labs.
Not open to students with credit for 200, 200.01, or 200.02.
The biology, morphology, metamorphosis and habits of insects; methods of collecting, preserving, culturing and identifying the more important families. Hink.

561
Horticultural Entomology
Sp. 3 cl.
Prereq.: 460 and 10 additional cr. hrs. 200 level or above in Entom. or Hort.
A detailed study of insects and mites attacking horticultural crops. Holdsworth.

602
Biology of the Honey Bee
Sp. 3 cl.
Prereq.: 200.01 and Genetics 140 or equiv
The behavior, social organization, morphology, physiology, reproduction, diseases, and genetics of the honey bee studied from a comparative and evolutionary viewpoint. Rothenbuhler.
611 U G 4
Field Entomology
Su (1st Term). 3 all-day cl.
Given only at the Franz Theodore Stone laboratory.
Deals primarily with collecting, identification, and field methods; field trips are made to various islands of
Lake Erie and the mainland.

612 U G 4 or 5
Aquatic Entomology
Sp.
a. Su. (4 cr. hrs.) Given only at Franz Theodore Stone
Laboratory. 3 all-day cl.
b. Sp. (5 cr. hrs.) Given only on Columbus campus.
4 2-hr. cl.
Prereq.: 200.01 or 611 or equiv.
Designed for preparation in the teaching of biology
or for research on aquatic resources; taxonomy and
ecology of immature and adult aquatic insects are
emphasized. Britt.

621 U G 5
External Morphology of Insects
A. 2 cl., 6 hrs. lab.
Prereq.: 200.01 and 200.02, or equiv.
A study of the comparative external morphology of
insects with special emphasis on evolutionary trends
and on taxonomic application of morphology. Borror.

631 U G 5
Insect Physiology
A. 3 cl., 2 2-hr. labs.
Prereq.: 200.01 or equiv. and Chem. 235 or 241 and 243,
or equiv.
The general physiology of insects and other
arthropods; the laboratory will stress the use of
insects to demonstrate fundamental physiological
processes. Fisk.

660 U G 5
Advanced Economic Entomology
A. 3 cl., 2 2-hr. labs.
Prereq.: 460 or equiv.
The principles of insect control; field and laboratory
studies will be made of major insect control problems.
Horn.

661 U G 5
Medical Entomology
Sp. 3 cl., 2 2-hr. labs.
Prereq.: Microbiol. 607 or Zool. 610 or equiv.
A consideration of the recognition characteristics,
biology, and control of insects and other arthropods
of importance to the health of man, livestock, and
wildlife. Foster.

662 U G 5
Principles of Insect Toxicology
W. 3 cl., 2 2-hr. labs.
Prereq.: 631 or equiv. or permission of instructor.
The properties of insecticides, modes of action,
metabolism, toxicity factors, joint action, resistance,
experimental procedures and interpretation of data.
Collins.

670 U G 4
General Acarology
Su. 1 cl., 4-hr. lab.
An introduction to the morphology, development, and
general biology of mites; laboratory consists of a

693 U 2-5 G 2-10
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs. for
undergraduates and to a maximum of 30 cr. hrs. for
graduates.
No more than 5 cr. hrs. may be counted toward an
undergraduate Entomology major.
Individual work in the field of the chosen problems.

694 U 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs. for
undergraduates and to a maximum of 25 cr. hrs. for
graduates.
Group work in the field of the chosen problems.

741 U G 5
Insect Pathology
Sp. 3 cl., 2 2-hr. labs.
Prereq.: Microbiol. 607 or equiv.
Diseases of insects, both infectious and non-infectious,
and the resulting pathologies; the epizootiology of
diseases and use of microorganisms for insect
population management. Hink.

751+ U G 5
Systematic Entomology
W. 2 cl., 6 lab. hrs.
Prereq.: 621.
A survey of all orders except Diptera, Lepidoptera, and
Hymenoptera, with emphasis on the determination of
insects to family and beyond; collecting and preserving
insects. Borror.

752+ U G 5
Systematic Entomology
W. 2 cl., 6 lab. hrs.
Prereq.: 621.
Continuation of 751, covering the Diptera, Lepidoptera,
and Hymenoptera. Borror.

7531+ U G 5
Immature Insects
W. 1 cl., 4 2-hr. lab.
Prereq.: 751 and 752 or equiv. and permission of
instructor.
A survey of immature stages of insects with emphasis
on the anatomy and taxonomy of holometabolous
larvae. Holdsworth.

H783 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the courses in Biol. Sci. and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 2 qtrs. are required of candidates for the degree Bachelor of Science or Bachelor of Arts with distinction in Entomology. Failure to receive a mark of S in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
A program of reading and research for each student with individual conferences, reports, and Honors thesis.

800  G 1
Entomology Seminar
A, W, Sp.  1 1½-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Faculty, graduate students, and outside speakers will participate; topics: recent advance in various entomological fields.

802*  G 5
Research Methods: Living Insects
Sp.  3 cl., 2 2-hr. labs.
Prereq.: Permission of instructor.
Current field and laboratory research methods of trapping, sampling, handling, and rearing insects; conducting life history studies; and measuring environmental factors. Fisk.

821*  G 5
Internal Morphology of Insects
Sp.  2 cl., 3 2-hr. labs.
Prereq.: 621.
Internal structures of insects, including anatomy, function, histology, embryology, and metamorphosis; laboratory includes preparation of permanent microscopic slides of insect tissues. Fisk.

831*  G 5
Advanced Insect Physiology
W.  2 cl., 2 3-hr. labs.
Prereq.: 631 or Zool. 432, or equiv.
Topics include insect integument, water balance, excretion, digestion, nutrition, respiration, growth and metamorphosis; the project type laboratory provides experience in techniques of insect physiology. Fisk.

841  G 5
Biological Control
W.  3 cl., 2-hr. lab.
Prereq.: Permission of instructor.
The principles of biological control with particular reference to insects. Briggs and Stairs.

870  G 4
Medical-Veterinary Acarology
Su.  1 cl., 4-hr. lab.
3 hrs. cl.-lab daily (Su. 3 wks.).
The mites associated with man, domestic animals, and wildlife, stressing their ecology and behavior in relation to transmission of viral, rickettsial, bacterial, and protozoan diseases. Johnston.

871  G 4
Agricultural Acarology
Su.  1 cl., 4-hr. lab.
8 hrs. cl.-lab. daily (Su. 3 wks.).
An intensive review of the mites associated with crops, ornamental plants, and stored food products with emphasis on taxonomy and ecology of these animals. Johnston.

891  G 2
Interdepartmental Seminar in Environmental Biology
Su, A, W, Sp.  1 2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities.

999  G Arr.
Research in Entomology
Research for thesis and dissertation purposes only.

Environmental Biology

999  G Arr.
Research in Environmental Biology
Research for thesis or dissertation purposes.

Food Science and Nutrition

Office: 122 Vivian Hall, 2121 Fyffe Road
Professors Kristoffersen (Chairman), Harpe, and Slatter, Associate Professors Alfred, Blaisdel, Hassen, and Mikolajcik; Assistant Professors Josephson and Kenyon; Instructor Lindamood.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in college courses, exclusive of ROTC and Phys. Ed., or specified course(s) numbered 100-199.

202  U 5
Food and Mankind
Sp.  5 cl.
Food in modern civilization; role of science, industry, and government in meeting domestic and world needs; elements of food acceptance, quality, processing, and protection. Lindamood.
289  U 3
Food Industries Field Experience
Su, A. W. Sp.
Open only to students majoring in food science and
nutrition.
Ten weeks practical experience or equivalent in an
approved food plant or laboratory; written report
required. Kristoffersen.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300
and 400-level courses are 50 cr. hrs. in collegiate
courses, exclusive of ROTC and Phys. Ed.; or specified
course(s) numbered 100-399.

Fundamentals of Food Engineering
(See Agr. E. 310.)
(Offered in cooperation with the Dept. of Food Science
and Nutrition.)

Refrigeration Engineering in the Food Industry
(See Agr. E. 411.)
(Offered in cooperation with the Dept. of Food Science
and Nutrition.)

493  U 3-5
Individual Studies
Su, A. W. Sp. 9-, 12-, or 15-hr. lab.
H493 (honors) may be available to students enrolled
in a college honors program or eligible for enrollment.
Prereq.: Junior standing.
Individual study course to permit undergraduate
students to explore in depth selected areas of dairy
technology.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 500
Unless otherwise indicated, the prerequisites for
500-level courses are 15 cr. hrs. in courses in the same
discipline numbered 200 or higher or 10 cr. hrs. in
courses numbered 200 or higher in the same discipline,
plus 10 cr. hrs. in courses numbered 200 or higher in
specified allied disciplines; or baccalaureate degree.

521  U 3
Food Components and Analysis
A. 3 cr.
Prereq.: Chem. 235 or 242.
Composition and chemical properties of foods and
food components; evaluation and utilization of
analytical methods; effect of processing; regulations,
laws, and agencies. Josephson.

522  U 3
Food Components and Analysis: Laboratory
A. 1 cr., 2 3-hr. lab.
Prereq. or concur.: 521.
Application of modern analytical methods to foods and
food components; determination of chemical
phenomena and properties of foods; project studies,
data interpretation and report writing. Josephson.

Marketing Dairy Products
(See Agr. Econ. 526.)
(Offered in cooperation with the Dept. of Food Science
and Nutrition.)

531  U G 3
Sensory Properties of Foods
W. 1 cr., 2 2-hr. lab.
Prereq.: 521 or equiv.
Not open to students with credit for 411.
Fundamentals of sensory perception, taste and odor
classification and threshold values; subjective and
objective evaluation of foods; panel selection and
interpretation of results; industrial applications.
Josephson.

541  U G 3
Physical Properties of Foods
Sp. 2 cr., 1 2-hr. lab.
Prereq.: 521; Physics 112.
Elements of identification and measurement of
physical properties of foods and application to food
systems. Blaisdell.

551*  U G 5
Technologies of Dairy Foods
Sp. 3 cr., 2 2-hr. lab.
Prereq.: 521, 522; Microbiol. 509 or 607; or permission
of instructor.
Not open the students with credit for 631, 632, 633, 634.
Scope, trends, and practices of industrial dairying;
dairy foods formulation and processing; composition,
qualify, and materials control; distribution; health and
nutritional aspects.

584  U 3-5
Group Studies
Prereq.: Jr. standing.
Repeatable to a maximum of 10 cr. hrs.
Intensive study of selected areas in dairy technology
not provided in other courses and appropriate to the
needs of the students.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600
Unless otherwise indicated, the prerequisites for
600-level courses are 15 cr. hrs. in courses in the same
discipline numbered 300 or higher, or 10 cr. hrs. in
courses numbered 300 or higher in the same discipline,
plus 10 cr. hrs. in courses numbered 300 or higher in
specified allied disciplines.

Food Engineering Design and Control
(See Agr. E. 611.)
(Offered in cooperation with the Dept. of Food Science
and Nutrition.)

621*  U G 3
Food Additives
Sp. 3 cr.
Prereq.: 15 cr. hrs. in Food Science or related area.
Chemical and physical nature of food additives;
functions and effects on chemical, rheological,
microbiological, and nutritional properties of foods.
Harper.
622 U G 5

Food Sanitation
W. 4 cl., 1 3-hr. lab.
Prereq.: Microbiol. 369 or 667.
Principles of sanitation applicable in the production,
processing, distribution, and handling of food;
relationship to food quality and safety. Lindamood.

631* U G 3

Food Systems I: Fluid Foods
W. 3 cl.
Prereq.: 541, Agr. E. 310, or permission of instructor.
Integration of science and engineering principles to
fluid foods and their unit operations, with emphasis on

633* U G 3

Food Systems II: Concentrated and Frozen Foods
Sp. 3 cl.
Prereq.: 631 or permission of instructor.
Not open to students with credit for 636.
Principles of science and engineering of concentrated
and frozen foods and their unit operations.

634† U G 3

Food Systems III: Fermented and Lipid Foods
W. 3 cl.
Prereq.: 521, Microbiol. 509 or 607, or permission of instructor.
Chemical, physical, and microbiological phenomena of
fermented and lipid foods as related to
manufacturing and storage practices and products
characteristics. Kristoffersen.

637† U G 3

Food Systems IV: Laboratory
A, W. 1 cl., 2 3-hr. labs.
Prereq.: 631, 633 or 634 or concur.
Not open to students with credit for 632.
Repeatable to a maximum of 6 cr. hrs.
Unit processes in fundamentals of food systems and
food fabrication and development; equipment use;
chemical, physical, and microbiological measurements
of product control and storage changes.

693 U G 3-5

Individual Studies
Su, A, W, Sp. 9-, 12-, or 15-hr. lab.
H693 (honors) may be available to students enrolled
in a college honors program or eligible for enrollment.
Prereq.: Food science and nutrition 4th yr. standing
and permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Individual project studies of current problems;
planning, conducting, and reporting research.

695 U G 3

Seminar
A. 3 cl.
Prereq.: Food science and nutrition 4th yr. standing.
Not open for grad. credit to majors in food science and
nutrition.
Analysis of technical problems in food science;
refining of creative thinking to the approach and
solution of problems; preparation and oral presentation
of papers. Harper.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 700

Unless otherwise indicated, the prerequisites for
700-level courses are 15 cr. hrs. in courses in the same
discipline numbered 600 or higher, plus additional
specified course(s) numbered 600 or higher.

701* U G 4

Food Contaminants and Toxicants
W. 4 cl.
Prereq.: Microbiol. 509 or 607.
Biological and chemical contaminants and naturally
occurring toxicants of foods; public health significance;
protection of foods. Mikolajcik.

723† U G 5

Food Structure and Interactions
W. 3 cl., 2 3-hr. labs.
Prereq.: 15 cr. hrs. in Food Science or related areas.
Microstructure and texture of foods; relationship to
food components and interactions, and physical
properties of foods; application of light and electron
microscopy. Hansen.

731* U G 3

Food Processing Wastes:
Treatment and Utilization
A. 3 cl.
Prereq.: Biochem. 511, Microbiol. 509 or 607.
Chemical, physical, and biological composition of food
plant wastes, principles of waste treatment, alternative
processes and comparative efficiencies; utilization of

741* U G 3

Food Thermodynamics
W. 3 cl.
Prereq.: 723, Biophys. 642, Chem. 521 or permission of
instructor.
Thermodynamic, kinetic, and transport phenomena in
food systems. Blasdel.

761 U G 5

Advanced Nutrient Utilization I
W. 5 cl.
Prereq.: Biochem. 511 or equiv. and Home Ec. 310 or
Animal, Dairy, Poultry Sc. 430 or equiv.
In-depth treatment of digestion, absorption, transport,
and utilization of proteins, amino acids, and vitamins
in man and other higher animals; energy reactions
and requirements. Alford.

762 U G 5

Advanced Nutrient Utilization II
Sp. 5 cl.
Prereq.: 761.
In-depth treatment of digestion, absorption, transport,
and utilization of proteins, amino acids, and vitamins
in man and other higher animals; energy reactions
and requirements. Alford.

794 U G 3-5

Group Studies
Repeatable to a maximum of 10 cr. hrs.
Intensive study of selected areas of dairy food science
not provided in other courses and appropriate to the
needs of the students.
GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900

Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

801* G 5
Spore-Forming Bacteria in Food
Su. 3 cl., 2-3 hr. lab.
Prereq.: Microbiol. 636.
Not open to students with credit for 830.01.
Aerobic and anaerobic spore-forming bacteria in food; fundamentals of sporulation and germination processes; significance to food industry; control. Mikolajczik.

803++ G 5
Food Fermentations
Su. 3 cl., 2-3 hr. lab.
Prereq.: 631, 633 or permission of instructor.
Not open to students with credit for 830.04.
Principles of food fermentations; pathways and kinetics of microbial reactions; design and control of fermentation reactors. Blaisdell and Harper.

821+ G 3
Food Lipids
A. 3 cl.
Prereq.: 633, 723 or permission of instructor.
Not open to students with credit for 830.03.
Chemical, physical and biological properties of food lipids. Kristoffersen.

822+ G 3
Food Proteins
Sp. 3 cl.
Prereq.: 723 or permission of instructor.
Not open to students with credit for 830.02.
Sources of chemical, physical, and biological properties of food proteins; effect of food composition, handling and processing on protein characteristics and functionalities. Josephson.

833 G 5
Research Methods in Food Science
Su. 3 cl., 2-3 hr. lab.
Prereq.: Permission of instructor.
Not open to students with credit for 830.05.
Principles and application of selected instrumental methods of analysis of food systems; visual, ultraviolet, infrared spectroscopy, partition, absorption, gel permeation, gas liquid chromatography, electrophoresis, radioisotopes. Harper.

850 G 1
Seminar
Graduate student-staff participation in a study of teaching and research trends and opportunities; critical analysis of research approaches, findings, and publications.
850.01 Food Science
850.02 Nutrition

898 G 1
Interdepartmental Seminar
in Nutrition and Food Technology
Sp.
(See under Interdepartmental Seminars.)

998 G Arr.
Research: Thesis
Research for thesis purposes only.

999 G Arr.
Research: Dissertation
Research for dissertation purposes only.

Forestry
(SCHOOL OF NATURAL RESOURCES)

Office: 140 Howlett Hall, 2001 Fyffe Court
Professors Gatherum (Chairman), Cowen, Kriebel, Larson, and Touse; Associate Professors Brown, Vimmerstedt, Vogt (Associate Chairman, Wooster), and Whitmore; Assistant Professor Houston.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-199.

221 U 5
Coniferous Dendrology
A. 3 cl., 2-3 hr. labs.
Prereq.: Bot. 102.
A study of the principal species of Gymnosperms in the United States with emphasis on identification, range, and silvical characteristics. Cowen.

222 U 5
Hardwood Dendrology
Sp. 3 cl., 2-3 hr. labs.
Prereq.: Bot. 102.
A study of the principal species of Angiosperms in the United States with emphasis on identification, range, and silvical characteristics. Cowen.

223 U 5
Silvics
W. 5 cl.
Prereq.: Bot. 102.
The effect of site factors on forest vegetation and action of forest cover on the site; characteristics of individual trees and forest stands. Brown, Gatherum, Houston, Larson, Vimmerstedt, and Vogt.
GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400

Unless otherwise indicated, the prerequisites for 300- and 400-level courses are 90 cr. hrs. in collegiate classes, exclusive of NOLS and Phys. Ed., or specified course(s) numbered 100-399.

310     U 5
Principles of Forestry
A. 3 cr., 2 2-hr. lab.
History of American forests, their character and occurrence; underlying fundamentals of silviculture and forest management; introduction to forest management and protection. Touse.

321     U 5
Silviculture
A. 5 cr.
Prereq.: 221, 222, and 223.
A study of the methods of handling the forest on a permanent basis to assure the reproduction and proper growth of tree crops. Cowen.

323     U 5
Forest Mensuration
W. 5 cr.
Prereq.: 221, 222, and 223.
The measurement of the forest and forest products. Touse and Whitmore.

325     U 5
Forest Management
Sp. 5 cr.
Prereq.: 321 and 323.
The practical problems of managing woodland property, both from the technical and the financial standpoint.

341     U 5
Wood Structure and Properties
A. 5 cr.
Prereq.: 221 and 222.
The classification and identification of the important timber species based upon wood structure and properties; defects in wood; moisture relationships; physical and chemical properties. Touse and Whitmore.

342     U 5
Manufacturing Forest Products
W. 5 cr.
Intensive study of the manufacturing industries based on wood products or products derived from wood by chemical and other means. Touse.

343     U 5
Analysis of Forest Industry Management
Sp. 5 cr.
Prereq.: 431 and 432.
A survey of the common problems encountered by managers of the wood-using industries; emphasis on sources of information and methods of solution. Touse.

393     U G 2-5
Individual Studies
Prereq.: Permission of instructor.
Note: Honors may be available to students enrolled in a college honors program or eligible for enrollment.
Special problems in the field of forestry and forest products.

999     G Arr.
Research in Forestry
Research for thesis and dissertation purposes only.

French

Office: 248 Dieter Cunz Hall of Languages, 1841 Millikin Road

Professors Griffin (Chairman), Astier, Bulaskin, Carlut, Cottrell, Demorest (Emeritus), Havens (Emeritus), Keller, and Meiden; Assistant Professors Ames, Bonin, Corbin, Williams, and Winthrop.

101     U 5
Elementary French
Su, A, W, Sp. 5 cr.
Elements of French grammar, with oral and written exercises; attention to ear training and oral practice; elementary reading based on French geography, history, and customs.

102     U 5
Elementary French
Su, A, W, Sp. 5 cr.
Prereq.: 101.
The elements of French grammar with abundant oral and written exercises; development of conversational skill; reading, vocabulary building, attention to French idioms.

103     U 5
Intermediate French
Su, A, W, Sp. 5 cr.
Prereq.: 102.
Course conducted in French.
Review of salient points of elementary grammar, attention to French idioms; reading of short stories, plays, and novels.
104  U 5
Intermediate French
Prereq: 103 or 112.
The following courses are not open to students with credit for 104, and only one of the decimal subdivisions may be taken for credit.

104.01 Basic Course
Su, A, W, Sp.  5 cl.
Required of French majors and recommended for students who intend to continue in French.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Reading of French short stories, plays, and novels with attention to literary appreciation; development of basic language skills; course conducted in French.
Students not planning to continue in French may substitute any one of the following decimal subdivisions for 104.01.

104.02 Conversation
A, Sp.  5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Emphasis on speaking and aural comprehension with special attention to practical situations.

104.03 The French Now
A.  5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Readings in current periodicals, newspapers, and other primary sources; texts in French, discussion in French and English.

104.04 Civilization
W.  5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Aspects of French civilization: geography, history, social developments, and the arts; readings and discussion in French.

104.05 French Attitudes Toward Science and Philosophy
Sp.  5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Readings in science, philosophy, and literature; texts in French, discussion in French and English.

104.06 Scientific Reading
W.  5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Intensive reading of scientific materials from current French journals in the physical and biological sciences.

105  U 5
Elementary French Conversation and Composition
Su, A, W, Sp.  5 cl.
Prereq: 104.
Course conducted in French.
Intensive practice in oral and written French, based on texts and periodicals concerned with French life of today; grammar and idiom review.

110  U 5, 10
Intensive Elementary French
A, W, Sp.  10 cl.
Prereq: Permission of dept.

Not open to students with credit for 102. Students with credit for 101 or equiv. may not register for more than 5 cr. hrs.
Elementary French for students wishing to acquire the basic skills in one semester: Intensive drill in form, syntax, vocabulary, and idiom; equivalent to 101 and 102.

112  U 5, 10, 15
Intensive French
Su.  15 cl. Enrollment limited to 25 students.
Prereq.: Permission of chairman.
Full time of student and full fees required. Equiv. of 101, 102, 103. Students with credit for 101 or the equiv. may not register for more than 10 cr. hrs. Students with credit for 101 and 102 or the equiv. may not register for more than 5 cr. hrs. Students with credit for 103 or the equiv. may not register for credit.
Elementary and intermediate French; intensive drill in form, syntax, vocabulary, and idiom; reading of short stories, novels, and plays.

162  U 5
Elementary-Intermediate French for Selected Students
W.  5 cl.
Prereq.: Grade of A in 101 and permission of dept.
Successful completion of 101-162-163 fulfills language requirements and satisfies prereq. for 400-level literature courses.

163  U 5
Elementary-Intermediate French for Selected Students
Sp.  5 cl.
Prereq.: 162.
Successful completion of 101-162-163 fulfills language requirements and satisfies prereq. for 400-level literature courses.

193  U 1-15
Individual Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

194  U 1-15
Group Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

271  U 3
French Classics in Translation: The Middle Ages to the Mid-Eighteenth Century
Su.  3 cl.
Prereq.: Engl. 100 or equiv.
Does not count toward a French major.
Reading, analysis, and discussion of major French works in translation, beginning with the Song of Roland and continuing with authors such as Montaigne, Pascal, Moliere, Voltaire, Rousseau.
272 U 3 French Literature in Translation
Su, W. 3 cl.
Prereq.: Engl. 100 or equiv.
Does not count toward a French major.
Readings of the late 18th and 19th centuries;
treatment of the Confessions of Rousseau, novels by
Balzac, Stendhal, and Flaubert.

273 U 3 Modern French Literature in Translation
Su, Sp. 3 cl.
Prereq.: Engl. 100 or equiv.
Does not count toward a French major.
Discussion of readings in English of 20th century
French masterpieces; treatment of the French novelists
and dramatists, Proust, Gide, Malraux, Sartre, and
Camus.

401 U 3 Review Grammar and Composition
Su, A, W, Sp. 3 cl.
Prereq.: 105.
Review of French grammar; composition on assigned
topics and practice in translation.

402 U 3 Intermediate French Conversation
and Composition
A, Sp. 3 cl.
Prereq.: 105.
Vocabulary building, practice in speaking French,
conversation, and composition dealing with social and
economic aspects of French life.

403 U 3 Intermediate French Conversation
and Composition
Su, W. 3 cl.
Prereq.: 105.
Vocabulary building, practice in speaking French,
conversation, and composition dealing with intellectual
and artistic aspects of French life.

404 U 5 French Pronunciation
Su, A, W, Sp. 5 cl.
Prereq.: 105.
Not open to students with credit for (632).
Formation of French sounds, rules of pronunciation
diction; lectures and practical exercises; use of
phonetic symbols.

421 U 5Introduction to Modern French Literature
Su, A, W, Sp. 5 cl.
Prereq.: 104.
Not open to students with credit for (417).
Rapid reading and discussion of French literary
movements and masterpieces of the 19th century and
their relation to modern France.

422 U 5 Masterpieces of French Literature: Middle
Ages and Renaissance
A, Sp. 5 cl.
Prereq.: 421.

423 U 5 Masterpieces of French Literature:
17th and 18th Centuries
A, W, Sp. 5 cl.
Prereq.: 421.

571 G 5 Basic French for Graduate Students
Su, A, W, Sp. 5 cl.
Prereq.: Graduate standing.
Credit does not apply to the minimum number of hours
required for the master's or doctoral degrees. No
audit. Designed primarily for students who have no formal
preparation in French; covers basic grammar and
vocabulary.

572 G 3 French for Research I
Su, A, W, Sp. 3 cl.
Prereq.: Grade of C or above in 571, or equiv.
preparation demonstrated by a placement test.
Credit does not apply to the minimum number of hours
required for the master's or doctoral degrees. No audit.
Repeatable twice.
Satisfactory completion of this course (grade of A or
B) may be accepted by the student's dept. as evidence of
a dictionary reading knowledge in fulfillment of Ph.D.
language requirement.

573 G 3 French for Research II
Su, W. 3 cl.
Prereq.: Grade of A or B in 572, or equiv. preparation
demonstrated by a placement test.
Credit does not apply to the minimum number of hours
required for the master's or doctoral degrees. No audit.
Repeatable twice.
Satisfactory completion of this course (grade of A or
B) may be accepted by the student's dept. as evidence of
a dictionary reading knowledge in fulfillment of Ph.D.
language requirement.

601 U G 5 Modern French Syntax
Su, A, W, Sp. 5 cl.
Prereq.: 401.
Systematic review of French grammar with composition
and other exercises, based on contemporary authors;
modern tendencies in syntactic analysis. Meiden.

602 U G 3 French Translating
Su, A, W, Sp. 3 cl.
Prereq.: 601 or equiv.
Translation from French to English and English to
French.

603 U G 3 Advanced Spoken and Written French
Sp. 3 cl.
Prereq.: 402, 403, and 601 or equiv.
Intensive practice in speaking and writing French;
based on contemporary usage. Carlut.
604 U G 3 Advanced French Pronunciation and Phonostylistics
W, F cl., 1 lab. Inv.
Prereq.: 404 or permission of instructor.
Training in auditory and oral aspects of French pronunciation; special emphasis on analysis of different types of spoken French.

621 U G 5 French Literature of the Renaissance
W, 5 cl.
Prereq.: 421 or 422 or 423.
Selections from Marot, Rabelais, the Pleiade and Montaigne as they reflect the age of humanism and illustrate the transition from medieval to modern forms and ideas. Cottrell.

622 U G 5 French Classicism, 1600-1715
Sp, 5 cl.
Prereq.: 421 or 422 or 423.
The formation of the classic spirit; the perfection of dramatic form and the 17th century portrait of man. Williams.

623 U G 5 French Literature of the Enlightenment
A, 5 cl.
Prereq.: 421 or 422 or 423.
A study of the ideas of the eighteenth century in their relation to modern times; special emphasis on Montesquieu, Voltaire, Diderot, and Rousseau. Williams.

624 U G 5 The Romantic Period in French Literature, 1800-1850
W, 5 cl.
Prereq.: 421 or 422 or 423.
The development of romanticism and rise of realism in the first half of the 19th century in the novel, poetry, and drama. Carlu.

625 U G 5 French Literary Currents 1850-1914
Sp, 5 cl.
Prereq.: 421 or 422 or 423.
Realism, naturalism, symbolism, and the movements of reaction in the novel and in literary criticism. Cottrell.

626 U G 5 Contemporary French Literature
Sp, 5 cl.
Prereq.: 421 or 422 or 423.
20th century literary currents, and their significance, with special attention given to the novel; Proust, Gide, Malraux, Mauriac, Bernanos, Saint-Exupery, Camus, Sartre, and others. Ames.

627 U G 3 Contemporary French Drama
Su, W, 3 cl.
Prereq.: 421 or 422 or 423.
Plays of Lenormand, Romaine, Claudel, Giraudoux, Cocteau, Montherlant, Anouilh, Sartre, Camus, and Ionesco; the different theatres and directors from Copeau to the present day. Ames and Astier.

628 U G 3 Modern French Poetry
A, 3 cl.
Prereq.: 421 or 422 or 423.
Source and processes of poetic creations as exemplified in selected works of French poets from Baudelaire to the present time. Ames and Astier.

629 U G 3 Explication de textes
W, Sp, 3 cl.
Prereq.: 421 or 422 or 423.
Repeatable to a maximum of 6 cr. hrs.
Intensive linguistic and literary exploration of representative passages from modern French authors.

631 U G 2-5 French Literature
Su, 3 cl.
Prereq.: 421 or 422 or 423.
Repeatable to a maximum of 15 cr. hrs.

6401* U G 5 Les origines de la civilisation francaise
W, 5 cl.
Prereq.: 401 and 402 or 403.
Course conducted in French.
Major developments of French culture and civilization from its beginning to 1900.

641 U G 3 La civilisation francaise contemporaine
A, 3 cl.
Prereq.: 401 and 402 or 403.
Course conducted in French.
Life, institutions, and culture of contemporary France. Carlu.

693 U G 1-15 Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

694 U G 1-15 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

702 U G 3 Advanced Translation and Comparative Stylistics
A, 3 cl.
Prereq.: 602 or permission of instructor.
A comparative study, through intensive translation, of the stylistic resources of French and English. Astier.
H783 U 3-5
Honors Course in French
Prereq.: 4th yr. standing with a grade of A in at least half of the French courses and an average of B in the remainder permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr. hrs.
Offers undergraduates with special aptitudes a greater opportunity to do independent study than is possible in the ordinary course; work in conference, library, or phonetics laboratory.

811 G 3
The French Language: Introduction
A. 3 cr.
Prereq.: M. A. Candidates in French; others by permission of instructor.
A brief external history of the language along with an introduction to linguistic concepts based on modern French materials. Winthrop.

815* G 5
History of the Provençal Language
A. 5 cr.
Prereq.: 811 and a knowledge of Latin or permission of instructor.
The major factors of change in the evolution of the Provençal language from Roman times to the present. Keller.

816 G 3
Modern French and its Historical Background
A. 3 cr.
Prereq.: 811 or permission of instructor.
Examination of recent developments, pronunciation, word-formation, and sentence structure. Keller.

817 G 3
Old French and its Historical Background
W. 3 cr.
Prereq.: 816.
Using materials from the 12th and 13th centuries, the structure of Old French will be described from the point of view of phonology, morphology, and syntax. Winthrop.

818 G 3
The French Language in the Renaissance and Classical Periods
Sp. 3 cr.
Prereq.: 817.
A study of modern French from the formative period in the late Middle Ages in its subsequent development up to 1827. Keller.

819 G 3
Historical Grammar of French
Sp. 3 cr.
Prereq.: 817 and permission of instructor.
A diachronic study of the internal development of French from the Vulgar Latin to the modern period. Winthrop.

821 G 3
Old French Literature
W. 3 cr.
Main currents of Old French Literature to 1300; reading of the Chanson de Roland; Yvain of Chrétien de Troyes, Beroul’s Tristan, representative lyrics. Bulatkin.

822 G 3
Middle French Literature
Sp. 3 cr.
Prereq.: 821.
Survey from about 1300 to 1465, Machaut, Froissart, Deschamps, Christine de Pisan, Charles d’Orléans, Villon, Anglo-French literary relations, with special reference to Chaucer. Keller.

823* G 3
Topics and Problems in 16th Century French Literature
Sp. 3 cr.
Prereq.: 821 or permission of instructor.
Intensive exploration of a special topic or problem, with readings in literary works and in relevant criticism and scholarship. Gottrell.

824 G 3
Topics and Problems in 17th Century French Literature
A. 3 cr.
Prereq.: 822 or permission of instructor.
Intensive exploration of a special topic or problem, with readings in literary works and in relevant criticism and scholarship. Williams.

825* G 3
Topic and Problems in 18th Century French Literature
A. 3 cr.
Prereq.: 823 or permission of instructor.
Intensive exploration of a special topic or problem, with readings in literary works and in relevant criticism and scholarship.

826 G 3
Topics and Problems in 19th Century French Literature
Sp. 3 cr.
Prereq.: 824, 825, or permission of instructor.
Intensive exploration of special topics or problems with readings in literature works in relevant criticism and scholarship. Carlisle.

827 G 3
Topics and Problems in 20th Century French Literature
Sp. 3 cr.
Prereq.: 826 or equiv.
Intensive study of a specific topic or problem with readings of selected literary and critical works. Astier and Amos.

9281* G 5
Old Provençal
A. 5 cr.
Prereq.: 813 or Span. 813.
Origin of the troubadour lyric; its history, as to form and content, in the 11th and 12th centuries; elements of phonology and morphology. Bulatkin.

820* G 5
Old Provençal
W. 5 cr.
Prereq.: 828.
Troubadour lyric in the 13th century; increased attention to non-lyric genres, and to prose; continuation of linguistics, with greater emphasis on semantic problems. Bulatkin.

831 G 2-5
Seminar in French Literature
Su (2-3 cr. hrs.), A, Sp. (3-5 cr. hrs.).
Prereq.: Permission of instructor.

832 G 2-5
Seminar in French Literature
Su (2-3 cr. hrs.), W. Sp. (3-5 cr. hrs.).
Prereq.: Permission of instructor.

833 G 3-5
Seminar in French Literature
Sp.
Prereq.: Permission of instructor.

8421* G 5
Topics and Problems in Provençal Literature from the 16th to the 20th Century
Sp. 5 cr.
Prereq.: 821 or 822 or permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Intensive exploration of a special topic or problem, with readings in literary works from selected periods of Provençal literature.

8431* G 3
Major Authors of the 16th Century
Sp. 3 cr.
Prereq.: 821 or permission of instructor.
Intensive exploration of the works of outstanding authors of the period. Cottrell.

844 G 3
Major Authors of the 17th Century
W. 3 cr.
Prereq.: 822 or permission of instructor.
Intensive exploration of representative works. Williams.

885 G 5
Introduction to Methods in the History and Criticism of Literature
A. 4 or 5 cr.
Selected readings in basic literary history, criticism, and theory, with practice in the use of standard bibliographical aids to scholarship. Williams.

886* G 3
Bibliography and Method
Sp. 3 cr.
A course to acquaint graduate students with tools, problems, and methods of linguistic and literary research.

Genetics
Office: 105 Botany and Zoology Building, 1735 Neil Avenue

Professors Griffing (Chairman), Fechheimer, Harvey, House, Jaap, Kriebel, Paddock, Plaine, Rottenbucher, Weaver, and Young; Associate Professors Birky, Suiger, and Skavaril; Assistant Professors Allaire and Perlman; Instructor Essman.

140 U 5
Introduction to Genetics
A, W. Sp. 5 cr.
Prereq.: Biol. 100.
Not open to students with credit for 314.
An introductory course emphasizing applied aspects of genetics, primarily for students outside the College of Biological Sciences. Essman.

500 U G 5
General Genetics
A, W. Sp. 5 cr.
Prereq.: Biol. 100 plus 5 additional cr. hrs. in Biol. Sciences and Math. 150 or equiv.
Not open to students with credit for 314, 630 or Biol. 314 or 630.
The principles of genetics, including molecular genetics, transmission genetics of prokaryotes and eukaryotes, developmental and non-chromosomal genetics, and the genetics and evolution of populations. Birky and House.
600  U G 3
Genetics Laboratory
A, Sp. 3 2-hr. labs.
Prereq.: 500 and permission of instructor.
A laboratory approach to fundamental genetics; concepts and techniques involved in collection and
analysis of data from exercises utilizing Drosophila, Marmosella, Sardaria, and Neussepara. Essman.

History of Biology
(See Botany 601.)

611  U G 5
Molecular Genetics
Sp. 5 cl.
Prereq.: One course in Biochem. and background in one or more of the following areas: Genetics, Microbiol., Developmental Biol.; or permission of instructor.
Not open to students with credit for Biochem. 611.
(Cross-listed in the Dept. of Biochem.)
Molecular mechanisms of DNA replication, mutation, recombination, and repair; analysis of gene structure; metabolic and genetic control mechanisms; prokaryotic and eucaryotic systems are analyzed. Marzluf and Perlmman.

631  U G 5
The Cytological Basis of Genetics
W. 2 cl., 3 2-hr. labs.
Prereq.: 500 or equiv.
Not open to students with credit for Biol. 631.
Documentation of the correlation between genetic principles and chromosomes behavior by studying the mitotic and meiotic cells of several organisms with oil immersion microscopy. Paddock.

632  U G 5
Plant Genetics
A. 3 cl., 2 2-hr. labs.
Prereq.: 500, Bot. 101 or 102 or 500, and 10 additional cr. hrs. in Biological Sciences.
Not open to students with credit for Bot. 650.
Effects of lethals, linkage, heterogyony, introgression, polyplody, self-incompatibility, and cytoplasm;
Laboratory experience with aceto-carmine smears, colchicine, progeny tests, random number tables, and herbarium specimens. Paddock.

650  U G 5
Analysis and Interpretation of Biological Data I
A, Sp. 4 cl., 1 2-hr. lab.
Prereq.: Math. 150 or equiv. and 15 cr. hrs. of courses at the 300- level or higher in a dept. of the College of Agriculture and Home Economics or in the College of Biological Sciences.
Not open to students with credit for Biol. 650.
Methods of analyzing biological data including: sampling, descriptive statistics, distributions, group comparisons, statistical inference, one-way and nested analysis of variance and linear regression and correlation. Skavaril.

651  U G 5
Analysis and Interpretation of Biological Data II
Su, W. 5 cl.
(Given in Su. Qtr. at Wooster only)
Prereq.: 650 or Biol. 650.
Not open to students with credit for Biol. 651.
Methods used in analyzing data classified in two or more ways: Latin-square, split-plot and factorial designs, analysis of covariance, data transformations, multiple regression and least-squares. Harvey and Weaver.

660*  U G 5
Computer Applications in Genetics
W. 4 cl., 1 2-hr. lab.
Prereq.: 500 or equiv., 650 or equiv., and Compu. and Info. Sc. 241 or equiv.
Simulation techniques and applications of modern computer methodology to problems in genetics. Skavaril.

693  U 2-5 G 2-10
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for undergraduate credit and to a maximum of 35 cr. hrs.
for graduate credit.
Individual work in the field of the chosen problems.
b. Physiological and developmental genetics. House.
c. Mathematical and population genetics. Allaire, Griffing, Harvey, Jaap, Kriebel, Skavaril, Swiger,
and Young.

704  U 2-5 G 2-10
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for undergraduate credit and to a maximum of 35 cr. hrs.
for graduate credit.
Group work in the field of the chosen program.
(See areas in 693.)

720  U G 5
Genetics and Biogenesis of Cell Organelles
W. 5 cl.
Prereq.: Background in Genetics, cell Biol., and Biochem., or permission of instructor.
Basic concepts and current literature on the biogenesis of prokaryotic and eukaryotic organelles and the role of nonchromosomal information in organelar, cellular, and organismal heredity. Birky and Perlmman.

Genetics of Animal Populations
(See Animal Science 720, Dairy Science 720, and Poultry Science 720.)

730*  U G 3 or 5
Cytogenetics
Sp. 3 cl., 2 2-hr. labs.
Prereq.: 500 and 631 or Biol. 630 and 631.
Not open to students with credit for Biol. 730.
Origin, transmissibility, and effects of chromosomal aberrations; their usefulness in practical breeding
and in attacks on fundamental cytogenetic problems. Paddock.
H783 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the courses in Biol. Sci. and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtr. are required of candidates for the degree Bachelor of Science or Bachelor of Arts with distinction in Genetics. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr. hrs.
A program of reading and research for each student with individual conferences, reports, and Honors thesis.

800 G 1
Genetic Seminar
A, W, Sp. 1 1½-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Faculty, graduate students, and outside speakers will participate. Young.

811* G 3
Advanced Topics in Molecular Genetics
A. 1 2-hr. cl.
Prereq.: 611 or Biochem. 611.
Not open to students with credit for Biochem. 811.
(Cross-listed in the Dept. of Biochem.)
An examination of the current research in molecular genetics by selective reading assignments and critical analysis during class discussion periods. Merzljak and Perlman.

Current Topics in Animal Genetics
(See Animal Science 820, Dairy Science 820, and Poultry Science 820.)

831* G 5
The Nature of Gene Action
Sp. 5 cl.
Prereq.: 1 qtr. each of Physiol., Embryol., and Biochem.
Not open to students with credit for Biol. 821.
A study of the action of genes at all levels of expression with special emphasis on the role of genes in developmental processes. House.

832 G 5
Mathematical Genetics
Sp. 5 cl.
Prereq.: 30 cr. hrs. in Genetics, Math., and Statistics. Not open to students with credit for Biol. 822 or 814.
The construction of mathematical models, use of path coefficients, generation matrices, least-squares and maximum likelihood methods for estimating genetic parameters and breeding values in quantitative genetics. Harvey.

8401* G 3
Transmission Genetics Theory
W. 3 cl.
Prereq.: 500 or equiv.; Statist. 520 and 521, or equiv., and permission of instructor.
The mathematical basis of transmission genetics to include any level of polygenic inheritance. Griffing.

841* G 3
Quantitative Genetics and Selection Theory
A. 3 cl.
Prereq.: 500 or equiv.; Statist. 520 and 521, or equiv., and permission of instructor.
The genetical basis for complexly inherited, quantitative, biological variables and the theory of truncation selection as it pertains to such variables. Griffing.

Behavior Genetics
(See Zoology 840.)

859 G 5
Theoretical and Experimental Population Genetics
W. 5 cl.
Prereq.: 12 cr. hrs. of college level Math.; 5 cr. hrs. of applied or mathematical statistics; 1 course in general genetics.
Discussion of mathematical theories in population genetics and experimental works on natural and laboratory populations. Young.

890 G 2
Interdepartmental Seminar in Developmental Biology
A, W, Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology.

999 G Arr.
Research in Genetics
Research for thesis and dissertation purposes only.

Geodetic Science
Office: Cockins Hall, 1958 Neil Avenue
Professors Uotila (Chairman), Moritz (adjunct), Mueller, and Rapp; Associate Professors Ghosh and Merchant; Assistant Professors Buckner and Steward.

GENERAL PREREQUISITES FOR ALL 500-LEVEL COURSES
Prerequisite for all 500-level courses in Math. 151.

512 U 5
Field and Land Surveying
Sp. 4 cl., 1 3-hr. lab.
Basic plane surveying techniques for geodetic science students.
515 U G 5
Fundamentals of Geodetic Surveying
A. 4 cl., 1 3-hr. lab.
Prereq.: 312 or equiv., or permission of instructor.
Principles of establishment and extension of major control; principles of construction and use of angular, distance, elevation difference, and gravity measuring devices.

525 U G 4
Fundamentals of Photogrammetry
A. 3 cl., 1 3-hr. lab.
Prereq.: Physics 131.
History, major problems in photogrammetry; scope of applications; geometric optics, photography, metric cameras; physical photographic distortions; stereoscopy; comparators; stereoscopic plotters.

GENERAL PREREQUISITES FOR ALL 600-LEVEL COURSES
Prerequisites for all 600-level courses include Math. 254 and Physics 131.

613 U G 5
Introduction to Advanced Geodesy
Sp. 5 cl.
Prereq.: 515, 646, and 650; or equiv.
Not open for graduate credit to students registering for 658, 776, or 777.
Determination of geodetic reference surfaces by geometric, gravimetric, and celestial methods; establishing horizontal and vertical and three dimensional control.

624 U G 4
Instrumentation in Photogrammetry
W. 2 cl., 2 3-hr. lab.
Prereq.: 525 or equiv.
Introduction to instruments used in photogrammetry; single, double, and multi-image types; stereoplotter, comparators, and analytical plotters; evaluation, testing, and adjustment of instruments.

625 U G 4
Photo Interpretation
A. 3 cl. 1 3-hr. lab.
Prereq. or concur.: 525 or permission of instructor.
Principles of reading, analysis and interpretation of photographs, application of photographs in geological, forest, agricultural, geographical, etc., interpretations; using the techniques of non-mapping problems.

626 U G 4
Metric Photography
A. 3 cl., 1 3-hr. lab.
Prereq.: 525 or equiv.
Properties, design and calibration of various photogrammetric cameras; physical characteristics and quality control of photography; photogrammetric airplanes and auxiliary devices; image evaluation.

627 U G 5
Introduction to Advanced Photogrammetry
Sp. 4 cl., 1 3-hr. lab.
Prereq.: 525 and 651; or equiv.
Not open for graduate credit to students registering for 660, 778, 779.
Coordinate transformation in photogrammetry and their differential forms; space resection and orientation, intersection, critical geometry; photogrammetric mapping; photogrammetric surveying; spatial triangulation.

645 U G 3
Applied Mathematical Methods in Geodetic Science I
A. 3 cl.
Mathematical techniques used in geodetic science; Taylor series; vector analysis; matrix computations; elements of differential geometry.

646 U G 3
Applied Mathematical Methods in Geodetic Science II
W. 3 cl.
Prereq.: 645 or equiv.
Continuation of 645: complex variables, analytic functions; and conformal mapping; use of divided differences; spherical harmonics.

650 U G 3
Adjustment Computations I
A. 2 cl., 1 3-hr. lab.
Prereq. or concur.: 645 or equiv.
Classification of errors, measures of dispersion, variance, covariance, propagation of errors, weights, observation, condition and normal equations, examples.

651 U G 4
Adjustment Computations II
W. 3 cl., 1 3-hr. lab.
Prereq.: 650 or equiv.
A posteriori variances, representation of residuals, combination of observation and condition equations, generalized minimum variance solution for hybrid measuring systems, statistical tests, empirical fitting of polynomials.

658 U G 4
Geometric Geodesy
W. 4 cl.
Prereq.: 650 or equiv.
Historical development; geometry of the reference ellipsoid; reductions and use of ellipsoid as a reference surface; organization of major geodetic control; introduction to advanced geometric geodesy problems.

660 U G 3
Geometric Photogrammetry
W. 2 cl., 1 3-hr. lab.
Prereq.: 525 and 645; or equiv.
Interior, exterior orientation; space resection and intersection; coordinate transformations, affine, isogonal, (Helmert), projective (collinearity), direction cosines, gimbal, and their differential forms, critical geometry.

664 U G 3
Geodetic Astronomy
W. 3 cl.
Prereq.: 645 or equiv.
Stellar coordinate systems; stellar positions and motions; time; star catalogues; principles of position determination.
665  U G 2
Observational Geodetic Astronomy
Sp. 1 cl., 1 3-hr. lab.
Prereq.: 650 and 664; or equiv.
Instrumentation; timekeeping and dissemination; determination of astronomic latitude, longitude, and azimuth.

666  U G 4
Elements of Cartography and Map Projections
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 645 and 658; or concur.: 613; or equiv.
Projections of the sphere; the mathematics of the principal map projections used for major map series; cartographic processes and developments.

686  U G 5
Field Work in Geodesy
Su (1st term). 1 cl., 5 4-hr. labs.
Prereq.: 515.

687  U G 5
Field Work in Geodetic Astronomy
Su (2nd term). 1 cl., 5 4-hr. labs
Prereq.: 664.

688  U G 5
Field Work in Photogrammetry
Su (2nd term), 4 cl., 5 4-hr. labs.
Prereq.: 512 and 526.

593  U G 2-9
Individual Studies in Geodetic Science
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Assigned reading laboratory or field work, under the guidance of a staff member, arranged to meet the requirements of individual students.

594  U G 2-9
Group Studies in Geodetic Science
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

760  U G 4
Advanced Geometric Geodesy
A. 4 cl.
Prereq.: 658 or equiv.
Solution of long line problems on the ellipsoid, datum transformations; determination of the size and shape of the reference ellipsoid; fundamentals of three-dimensional geodesy.

761  U G 5
Mathematical Projections in Geodesy
Sp. 4 cl., 1 3-hr. lab.
Prereq.: 666 or equiv.
Use of analytic functions; representation of the ellipsoid on a sphere; geometry of the projected geodesic; Mercator, Transverse Mercator, Oblique Mercator, Conformal Conic projections.

762  U G 4
Advanced Adjustment Computations
A. 3 cl., 1 3-hr. lab.
Prereq.: 651 or equiv.
Analyses of mathematic models; systematic errors, correlations, inner adjustment, multivariate statistical analysis; generalized matrices in adjustment.

763  U G 3
Navigation
Sp. 3 cl.
Prereq.: 664 or equiv.
Sea, air, and space navigation, analysis of instruments, environmental factors, and geometric aspects.

776  U G 4
Gravimetric Geodesy
Sp. 4 cl.
Prereq.: 646, 651, and 658; or equiv.
The gravity and its potential; the disturbing potential and its representation; applications and current methods.

777  U G 3
Satellite Geodesy
A. 3 cl.
Prereq.: 651, 658, and 664; or equiv.
Geometric and dynamic applications of artificial satellites in geodesy; determination of station positions and the gravity field of the earth.

778  U G 5
Analog Photogrammetry
Sp. 4 cl., 1 3-hr. lab.
Prereq.: 650 and 660; or equiv.
Geometric concepts in models, strips, and blocks, without and with auxiliary information; use of analog photogrammetry in large, medium, and small scale mapping.

779  U G 4
Computational Photogrammetry
A. 3 cl., 1 3-hr. lab.
Prereq.: 651 and 660; or equiv.
Correction for refraction, distortion; procedures in resection, orientation, intersection; observations on exterior orientation, on survey coordinates; numerical spatial triangulation; system calibration; error estimates; engineering applications.

794  U G 4
Group Studies
Prereq.: Permission of instructor.
794.01 Non-Convention Photogrammetry
A.
Studies in strip, panoramic, and weather satellite photography systems; Ranger, Surveyor, and Lunar Orbiter and Mariners systems; electron microscopy and hologrammetry.

794.02 Advanced Geodetic Astronomy
A.
Prereq.: 664 and 665.
Star catalogues and their relationships; time and latitude determinations in observatories; coordinated timekeeping and dissemination; eclipses and occultations; modern astronomical techniques.
794.03* Geodetic Applications of Digital Computers
W.
Advanced programming techniques; computer developments and use in geodesy, photogrammetry, and cartography.

802 G 4
Advanced Computational Photogrammetry
W. 3 cl., 1 3-hr. lab.
Prereq.: 778 and 779; or equiv.
Weight constraints, method of independent bases; functional constraints, surface geometry enforcement; dynamic aerial calibration; close range calibration; application; Reysu photography and specialized comparator techniques.

805* G 4
Advanced Stereophotogrammetry
W. 3 cl., 1 3-hr. lab.
Prereq.: 778 and 779; or equiv.
Differential formulas, parallax formulas; relative and absolute orientation; model errors; quality control in model orientations; critical surface; convergent photography.

822 G 4
Photogrammetry in Practice
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 778 and 779; or equiv.
Planning for aerial, terrestrial, and close-range photogrammetry jobs; ground control and signalization; map compilation, efficiency assessment; economic considerations; technical writing; various applications of photogrammetry.

826* G 4
Photo-Triangulation
W. 3 cl., 1 3-hr. lab.
Prereq.: 778 and 779; or equiv.
Spatial photo-triangulation, analytical and analytical; strip and block triangulations; error propagation; use of auxiliary data; independent geodetic control; partial control extension; accuracy and economy considerations.

871* G 4
Advanced Gravimetric Geodesy
A. 4 cl.
Prereq.: 776 and 777; or equiv.
Boundary-value problem; use of spherical harmonics; statistical application; appropriate representations; computations in space; combination of gravimetric and satellite data; interpretation of the gravity field.

872* G 3
Selenodesy and Lunar Mapping
W. 3 cl.
Prereq.: 777 or equiv.
Dynamics of the earth-moon system; instrumentation in selenodesy; analysis of the gravity field of the moon; position determination of the moon, lunar mapping.

873* G 4
Advanced Satellite Geodesy
W. 3 cl., 1 3-hr. lab.
Prereq.: 777 or equiv.
Dynamics of earth orbiting satellites; equations of motion and their solutions; advanced data acquisition method; analysis for the gravity field and station positions.

874* G 3
Map Projection Analysis
A. 3 cl.
Prereq.: 761 or equiv.
Discussion of geodetic and non-geodetic map projections with emphasis on projection characteristics; mathematics of choosing a suitable map projection.

885 G 2-9
Research Principles and Techniques
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

887 G 1-5
Seminar
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

994 G 2-9
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

998 G Arr.
Research in Geodetic Science: Thesis
Prereq.: Permission of instructor.
Research for thesis purposes only.

999 G Arr.
Research in Geodetic Science: Dissertation
Research for dissertation purposes only.

Geography
Office: 156 Hagerly Hall, 1775 College Road
Professors Taaffe (Chairman), L. Brown, S. E. Brown, Carlson (Emeritus), Casetti, Cox, Demko, Gauthier, Guilevitch, Hunkler, Petten, Randall, Rayner, Smith (Emeritus), and Van Cleef (Emeritus); Assistant Professors Colombini and Semple; Associate Professors Colombini and Semple; Instructor: Dinardo (Marion). Herman, Klangensmith (Newark), O'Leary, and Zum Brunnen.

200 U 5
World Regional Geography
Su, A, W, Sp. 5 cl.
A comparative study of representative regions of the world; an examination of the cultural, social, economic, and political developments in relation to the geographical conditions.
220  U 5
Introduction to Physical Geography
Su, A, W, Sp.  5 cl.
H220 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
The elements and processes of the natural environment, their characteristics, distribution, and implications in the human habitat.

240  U 5
Economic and Social Geography
Su, A, W, Sp.  5 cl.
H240 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Not open to students with credit for 340.
Introduction to geography as a social science; location theory, urban growth processes, spatial diffusion, and behavioral models; their applications to selected regional and urban problems.

294  U 3-5
Group Studies
Repeatable to a maximum of 10 cr. hrs.
Students are given the opportunity to pursue special studies not otherwise offered.

400  U 3
Geography of United States and Canada
Sp.  3 cl.
Prereq.: Either 200, 220, 240, or equiv.
A geographical analysis of the United States and Canada; the correlation of their natural resources and other environmental factors with their economic and cultural development.

401  U 3
Geography of Ohio
Sp.  3 cl.
Prereq.: Either 200, 220, 240, or equiv.
An appraisal of geographic factors in the development of Ohio's natural resources, agriculture, manufacturing, and commerce; historical development of the major economic factors.

505  U 4
Geography of Latin America
A, W, Sp.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 405.
Geographic analysis of Middle and South America emphasizing the interrelationships of the resource base, cultural characteristics, and outside influences upon economic development.

508  U 4
Geography of Africa
W.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 408.
The African environment and the development of culture and economic life; impact of alien culture in Africa; Islamic and western influences in creating geographic regions.

510  U 4
Geography of Western Europe
Sp.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 410.
Geographic factors in the economic, social, and political progress of the nations of Western Europe; major problems of the area in the light of their geographic background.

511  U 4
Geography of Eastern Europe
W.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 411.
Resources, their assessment, and development, and related problems in Eastern Europe; the geographic significance of each state to the Communist bloc and to the West.

512  U 4
Geography of the Soviet Union
A.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 412.
The major regional divisions of the Soviet Union; the resource base in relation to the economic and political aims of the Soviet State.

515  U 4
Geography of the Middle East
Sp.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 415.
The Middle East and its natural regions in relation to local and international problems; physical and cultural patterns in relation to the current economies.

516†  U 4
Geography of the Far East
Sp.  3 cl.
Prereq.: Either 200, 220, 240, or equiv., or permission of instructor.
Not open to students with credit for 416.
The geographic divisions of southern, southeastern, and eastern Asia; the major activities of the people in the regions of densest population and greatest economic importance.
520 U G 4
Climatology
A. W.  3 cl.
The elements and the controls of climate; types of climate and their distribution; climates and their effects on the economic and other activities of man.

530 U G 4
Conservation of Natural Resources
A. W.  3 cl.
Philosophy of resource use; appraisal of resource base; costs of resource development and conservation; resource perception, utilization and alternatives.

545 U G 4
Geography of Transportation
W.  3 cl.
Relation between transportation and spatial organization; selected analytical models dealing with traffic demand, network configuration and allocation of transport facilities; application to selected problems.

560 U G 4
Political Geography
A.  3 cl.
Prereq.: Permission of instructor.
Examination of contemporary problems in the political geography of public cost and benefit at international, interregional and urban scales.

580 U G 4
Elements of Cartography
A.  2 cl., 2 3-hr. labs.
A study of cartographic techniques of map compilation and presentation including generalization, symbolization, reproduction, and simple computer mapping.

605 U G 5
Special Problems in the Geography of Latin America
Sp.  3 cl.
Prereq.: 505 or permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
The analysis of selected topical problems in Latin American geography; typical problem areas are urbanization, industrialization, transportation, agricultural development, and regional development.

612 U G 5
Special Problems in the Geography of the U.S.S.R.
Sp.  4 cl.
Prereq.: 512 or permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Spatial analysis of selected topical problems in Soviet geography.

620 U G 5
Intermediate Climatology
W.  4 cl., 1 1-hr. lab.
Prereq.: 520 or equiv. and permission of instructor.
Detailed analysis of atmospheric processes as a basis for the discussion of macro-, meso-, or micro-climates.

640 U G 5
Location of Manufacturing
A.  3 cl.
Prereq.: Permission of instructor.
The changing character and concentration of industrial districts; representative industries in relation to labor supply, sources of raw material and power, transportation, and markets.

642 U G 5
Geography of Development
W.  3 cl.
Prereq.: Permission of instructor.
Spatial aspects of economic development; spatial analysis of traditional economics, industrial regions, transport linkages and migration patterns in developing countries.

647 U G 5
Locational Analysis
W.  3 cl.
Prereq.: Permission of instructor.
Historical review of major location theories and evaluation of application of such theories to geographic problems.

650 U G 5
Urban Geography
A, W, Sp.  3 cl.
Prereq.: Permission of instructor.
Origin and growth of cities; structure and function of urban centers, their areal expansion, and intertrade center relations, each examined in relation to city planning.

660 U G 5
Intermediate Political Geography
W.  3 cl.
Prereq.: 560 or equiv. and permission of instructor.
Examination of models of spatial organization of political systems and of spatial allocation of social cost and benefit.

670 U G 5
Population Geography
W.  3 cl.
Prereq.: 240.
Analysis of population distributions, locational arrangements of growth, densities, and migration flows; spatial relationships between population variables and social, economic, and environmental factors.

675 U G 5
Cultural Geography
A.  3 cl.
Prereq.: Permission of instructor.
Examination of cultural factors in organization of space; cultural groups as spatial systems; effects of cultural homogeneity, conflict, and change on spatial interaction.

Natural Resources Problems, Programs, and Policies
(See Agr. Econ. 680.)
681  U G 5
Cartography
W.  2 cl., 2 2-hr. labs.
Prereq.: 280 or permission of instructor.
The inception, conceptualization, execution, and
presentation of thematic statistical maps are studied;
emphasis on cartographic design.

682  U G 3-5
Individual Studies in Cartography
Prereq.: Permission of instructor.
Individual study of cartographic subjects; map
compilation, cartographic classification, regionalization,
and multi-dimensional representation, computer
mapping and real-time computer cartographics.

693  U G 1-15
Individual Studies
Prereq.: Permission of instructor.
Repeatable with permission of instructor.
Individual study of a special problem or of a particular
region.

694  U G 3-5
Group Studies
W, Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group study of special topics in various fields of
geography.

695  U 5
Undergraduate Seminar in Applied Geography
Sp.  2 2-hr. cl.
Prereq.: 20 cr. hrs. in Geog.
The practical application of theoretical geographical
concepts to problems in the local area.

Introduction to National Security
(See Nat. Sec. Pol. S. 702.)

740  U G 5
Advanced Locational Analysis
Sp.  2 2-hr. cl.
Prereq.: 647 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Discussion of advanced problems in locational and
regional analysis; application of programming
techniques, the transportation model, spatial
equilibrium analysis, multiregional activity analysis,
and regional growth models.

Research Principles and Techniques
in National Security
(See Nat. Sec. Pol. S. 785.)

800  G 3-5
Seminars in Regional Geography
Sp.  2 cl.
Repeatable to a maximum of 20 cr. hrs.
Geographical investigation of a selected area; the
region under study will be announced.

Seminar in National Security Research
(See Nat. Sec. Pol. S. 801.)

820  G 3-5
Seminars in Physical Geography
A, W, Sp.  2 cl.
Each decimal subdivision repeatable to a maximum of
20 cr. hrs.
820.01 Problems in Climatology
820.02 Problems in Soils Geography
820.03 Special Problems

821  G 5
Dynamic Climatology
W.  2 2-hr. cl.
Prereq.: 620 or permission of instructor.
Dynamics, thermodynamics, energy conservation, flows,
conversion processes; large scale circulation patterns
with particular emphasis upon turbulence at the
synoptic scale; weather processes, and regional
climates.

822  G 5
Microclimatology
Sp.  2 2-hr. cl.
Prereq.: 620 or permission of instructor.
Radiation and turbulence processes, conduction;
variation in wind, temperature, humidity, soil
moisture, evaporation, soil temperature; influence of
vegetation and artificial structures.

823†  G 5
Applied Climatology
Sp.  2 2-hr. cl.
Prereq.: 620 or permission of instructor
Effects of climate upon plants and animals
(bioclimatology), upon industrial processes and
structures, and upon landforms; forecasting; climate
modification.

830  G 3-5
Seminars in Resource Analysis
Each decimal subdivision repeatable to a maximum of
30 cr. hrs.
The development of theory in resource analysis and
its application to selected problems.
830.01 Theory of Resource Analysis
830.02 Problems of Resource Analysis

840  G 3-5
Seminars in Economic Geography
A, W, Sp.  2 cl.
Readings and research in specific aspects of economic
geography.
Each decimal subdivision repeatable to a maximum of
20 cr. hrs.
840.01 Location Theory
840.02 Special Topics

845  G 3-5
Seminars in Transportation Geography
Each decimal subdivision repeatable to a maximum of
30 cr. hrs.
The development of theory in transportation geography and its application to selected problems.
845.01 Theory of Transportation Geography
845.02 Problems in Transportation Geography

850 G 3-5
Seminars in Urban Geography
A, W, Sp. 2 cl.
The development of theory in urban geography and its application to selected problems.
Each decimal subdivision repeatable to a maximum of 20 cr. hrs.
850.01 Theory of Urban Geography
850.02 Problems in Urban Geography

860 G 3-5
Seminars in Political Geography
Sp.
Prereq.: 660 or permission of instructor.
Each decimal subdivision repeatable to a maximum of 30 cr. hrs.
The development of theory in political geography and its application to selected problems.
860.01 Theory of Political Geography
860.02 Problems in Political Geography

870 G 3-5
Seminars in Population and Social Geography
Each decimal subdivision repeatable to a maximum of 30 cr. hrs.
The development of theory in population and social geography and its application to selected problems.
870.01 Theory of Population and Social Geography
870.02 Problems in Population and Social Geography

880† G 3-5
Seminars in Cartography
Sp.
Repeatable to a maximum of 20 cr. hrs.
Readings and research in cartography.

882 G 4
Development of Geographic Thought
A. 3 cl.
The evolution of concepts concerning the nature, scope, and methodology of geography; present focus and trends as reflected in current literature.

883 G 4
Application of Quantitative Methods in Geography
A, W. 2 cl., 2 lab.
Prereq.: Course in introductory statistics and permission of instructor.
Application of quantitative methods to geographic problems; spatial statistics, area sampling, maps of residuals, regionalization methods, and simulation maps.
To be taken in sequence:
883.01 Applications I
883.02 Applications II

885† G 4
Field Work in Geography
Sp. 2 cl., Sat. lab.
The practice of field observation and geographic mapping.

889 G 3-5
Seminars in Geography
Repeatable to a maximum of 20 cr. hrs.
Topics to be announced each quarter.

896† G 1-3
Interdepartmental Seminar in Polar and Alpine Studies
Sp.
(See under Interdepartmental Seminars.)

897 G 1
Interdepartmental Seminar in Natural Resources
(See under Interdepartmental Seminars.)

899 G 1-5
Interdepartmental Seminar
W.
Topics to be announced each quarter.

903 G 5
Special Topics in Quantitative Geography
A, W, Sp. 1 3-hr. cl.
Prereq.: 883.01 and 883.02.
Repeatable to a maximum of 15 cr. hrs.
Applications of advanced mathematical and statistical models to problems in geographical analysis.

998 G Arr.
Research in Geography: Thesis
Research for thesis purposes only.

999 G Arr.
Research in Geography: Dissertation
Research for dissertation purposes only.

Geology and Mineralogy

Office: 107 Mendenhall Laboratory, 125 South Oval Drive

Professors Corbato (Chairman), Bates, Bergstrom, Bull, Ehlers, Faure, Foster, Goldthwait, Lamrey (Emeritus), La Rocque, McConnell, McLachlan, Moore, Pettyjohn, Schopf, Spiekor (Emeritus), Summerson, Sweet, Wenden, and White; Adjunct Professor Anderson; Associate Professors Grant (Emeritus), Collinson, Elliot, Mayer (Sc.Ed.), Nollmier, Tenenhoust, and Urgard; Adjunct Associate Professors Cameron and Gealy; Assistant Professors Kendall, McKenzie, and Sutter.

100 U 5
Introduction to Geology
Su, A, W, Sp. 4 cl., 1-hr lab. arr., 1 half-day field trip.
Not open to students with credit for 101 or 102.
Recommended for nonscience majors.
The materials of the earth's crust, the processes that produce and modify them, and the development of the earth and its life forms through time.

101 Physical Geology
A, W, Sp. 4 cl., 1 2-hr. lab., 1 half-day field trip.
H101 (honors) may be available to students enrolled in a college honors program or by permission of dept.
Recommended first course in Geol. and Mineral. for science majors or those with substantial background in science.
Minerals and rocks and their origin; land forms and how they are produced; structural features of the earth's crust.

102 Historical Geology
A, W, Sp. 4 cl., 1 2-hr. lab., 1 half-day field trip.
H102 (honors) may be available to students enrolled in a college honors program or by permission of dept.
Recommended second course in Geol. and Mineral. for science majors or those with substantial background in science.
The history of the earth and its inhabitants through geologic time.

103 Geology and the Environment
Sp. 4 cl., 1 2-hr. lab.
Prereq.: 100 or 101.
Application of basic geologic knowledge to problems resulting from man's use of the earth and its resources.

194 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group study of special topics in various fields of geology and mineralogy.

201 Introduction to Paleontology
Sp. 4 cl., 1 2-hr. lab.
Prereq.: 100 or 101.
An introduction to animal and plant groups significant in the geologic record. Sweet.

204 Water Resources
W. 5 cl., 2 ½-day field trips.
Prereq.: 100 or 101.
Occurrence, movement and behavior of water in the hydrologic cycle with reference to scientific and technological problems relating to water-resources development and conservation. Pettyjohn.

206 Oceanography and Marine Geology
A, Sp. 3 cl.
Prereq.: 100 or 101.
Not open to students with credit for 632.
The origin, development, and structure of ocean basins and their contents; contemporary oceanic processes of geologic significance. Anderson.

212 The Common Minerals and Rocks
W. 3 2-hr. labs.
Prereq.: 101 and Chem. 121.
Not open to Geol. and Mineral. majors or students with credit for 220, 203, or 223.
A study of the common minerals and rocks, their associations, occurrences, identifying properties, and origin. Moore.

214 Principles of Mineralogy
A. 3 cl., 2 2-hr. labs.
Prereq.: Chem. 122, Math. 117 or 150.
Not open to students with credit for 221 or Mineral. 414 or 421.
An introductory course, emphasizing principles and illustrating the internal structure of solids and relationship of structure and chemical composition to properties, applications, and external features. Tettenhorst.

221 Elementary Mineralogy and Crystallography
A, W. 3 2-hr. labs.
Prereq.: Chem. 122.
Not open to students with credit for 221 or Mineral. 414 or 421.
Crystal systems, symmetry, common forms and cleavage of crystals; chemical bonding and mineral structures; selected phase diagrams; rigid identification of about 80 common minerals using physical and chemical properties. Wenden.

222 Elementary Optical Mineralogy
W, Sp. 3 2-hr. labs.
Prereq.: 221 or Mineral. 421.
Elements of optical mineralogy; minerals properties in plane and cross-polarized light; mineral identification in powders and thin-sections; X-ray diffraction in mineral identification and mineral-mixture analysis. Wenden.

223 The Common Rocks
A, Sp. 2 cl., 3 2-hr. labs.
Prereq.: 101 and 222.
Not open to students with credit for 203, 203, or 212.
Origin, occurrence, association, and mineral composition of the common rocks; laboratory includes work by megascopic and microscopic methods. Moore.

225 Quantitative Methods in Geology
A, Sp. 2 cl., 1 2-hr. lab.
Prereq.: 101; prerequisite or concurrent courses: 102 and Math. 151; or permission of instructor.
Not open to students with credit for 205.
Introduction to quantitative methods and techniques, both graphic and mathematical, and their application in the analysis of geologic data.

294 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group study of special topics in various fields of geology and mineralogy.
502 U G 5
Stratigraphy and Paleontology
A, Sp. 6 days in field in late Su. or just preceding A. or Sp.; 2-3 hr. labs. and field trips in A. or Sp.
Prereq.: 202, 223, 225, and 10 cr. hrs. in biological Sciences.
Principles of, and procedures in, lithostratigraphy and biostratigraphy, illustrated by field and laboratory
studies of sedimentary rocks and fossils. Bates, Bergstrom, Collinson, Kendall, and Sweet.

530 U G 5
Structural Geology and Geophysics
W. 4 cr., 1 2-hr. lab.
Prereq.: 225 and Physics 132 or 133.
A study of the principal kinds of geologic structures
and their interpretation; an introduction to geophysical exploration of subsurface structures. Moore.

550 U G 5
Geomorphology
A, Sp. 4 cr., 1 2-hr. lab., field trips.
Prereq.: 101, 102, and Chem. 122; or permission of instructor.
Detailed study of processes that shape the land surface and the forms produced under diverse climates.
White.

570 U G 1
Senior Thesis
Prereq.: Sr. standing in Geol. and permission of instructor.
To be taken during the qtr. the student intends to
hand in his thesis.
The preparation of a report of professional quality,
based on a research project.

580 U G 5
Field Work in Earth Science
Sp. Requires full time of student for 5 wks.
Prereq.: 30 qtr. hrs. in Geol. and Mineral., Geog., Astron., or Meteor., with a minimum of 15 qtr. hrs. in Geol.
and Mineral.; Ed. 531 and permission of instructor; Geol. and Mineral. 201, 217, and 590 recommended.
Not open to Geol. majors.
Essentials of field observation, mapping and data accumulation in the solution of earth-sciences problems; the work is done in selected off-campus field localities. Mayer, McKenzie, and Utgard.

581 U G 4
Field Geology I
Su (1st term). Requires full time of student.
Prereq.: 223, 225, and permission of instructor; 530 recommended.
Concentrated training in the basic essentials of field observation and mapping; the work is done in central
Utah, with headquarters in Ephraim. Collinson and Elliot.

582 U G 6
Field Geology II
Su (2nd term). Requires full time of student.
Prereq.: 581.
Continuation of 581.

583 U G 3
Field Geology for Science Teachers
Sp. 5-day period during recess between W. and Sp.; pre-trip meeting and post-trip report.
Prereq.: 100 or equiv. and permission of instructor.
Intended primarily for in-service teachers.
Not open to Geol. majors.
Application of geological principles in the field; interpretation of earth features observable on a
traverse crossing the Appalachian Mountain system. Bates, Mayer, McKenzie, and Utgard.

594 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to maximum of 15 cr. hrs.
Group study of special topics in various fields
of geology and mineralogy.

600 U G 5
Sedimentation and Sedimentary Rocks
A. 2 2-hr. cr., 1 3-hr. lab.
Prereq.: 502.
Source, dispersal, and accumulation of sediments; the
interpretation of the environmental distribution of
sedimentary rocks. Summerson.

601 U G 5
Sedimentary Petrology
Prereq.: 600 or permission of instructor.
Identification and interpretation of sedimentary rocks
based on mineralogic and textural study of thin
sections and hand specimens. Kendall.
601.01 Sedimentary Petrology Sandstones
W. 3 cr., 2 2-hr. labs.
Not open to students with credit for 601.
601.02 Sedimentary Petrology of Carbonate Rocks
and Shales
Sp. 3 cr., 2 2-hr. labs.
Not open to students with credit for 601.

603 U G 5
Stratigraphy
W. 3 cr., 2 2-hr. labs.
Prereq.: 502.
Advanced study of the principles and procedures of
stratigraphic nomenclature, subdivision, correlation,
and interpretation, with examples from the international stratigraphic record. Bates, Bergstrom,
Collinson, and Sweet.

614 U G 5
Paleobiology
A, W. 2 cr., 3 2-hr. labs.
Prereq.: 201 or 502.
Repeatable to a maximum of 10 cr. hrs.
Advanced consideration of the preservation, morphology, development, interrelations, and
paleoecologic significance of fossil animals and plants.
Bergstrom, La Rocque, Schoof, and Sweet.

620 U G 5
Introduction to Isotope Geology
W. 5 cr.
Prereq.: Sr. standing in Geol. or related fields.
Theory of natural isotope abundance variations and applications to problems in the earth sciences. Faure and Sutter.

621 U G 5
Introduction to Geochemistry
A. 5 cl.
Prereq.: Sr. standing in Geol. or related fields.
Chem. 124 or permission of instructor.
Applications of the law of mass action and chemical thermodynamics to mineral equilibria of geological and geochemical interest. Faure.

622 U G 5
Applied Geochemistry
W. 5 cl.
Prereq.: 621.
Geological applications to geology including oxidation-reduction reactions, chemical equilibria in the ocean, and geochemical prospecting. Faure.

623 U G 5
Microscopic Mineralogy
A, W. 2 cl., 3 2-hr. labs.
A. Open only to Geol. & Mineral. graduates;
W. Open only to Cer. E. majors.
Prereq.: 214 or 222, and Physics 112 or equiv.
Not open to students with credit for Mineral. 621.
Theory and use of polarizing microscope; determination of optical constants and identity of minerals. Ehlers.
A. Emphasis on mineral powders.
W. Emphasis on powders and thin-sections of minerals and synthetic products.

624 U G 3
Microscopy of Opaque Minerals
Sp. 3 2-hr. labs.
Prereq.: 623 or equiv.
Not open to students with credit for Mineral. 624.
Application of the petrographic microscope to the study of opaque minerals and ores, their identification, textures, and paragenesis; polished section preparation, etch tests, and micro-chemical tests. Wenden.

625 U G 5
Igneous Petrology
W. 3 cl., 2 2-hr. labs.
Prereq.: 223 and permission of instructor, or 623.
Not open to students with credit for Mineral. 722.
Petrography, petrogenesis, and occurrence of igneous rocks, with special emphasis on phase equilibria; macroscopic and microscopic examination of igneous and petrographic suites in the laboratory. Ehlers and Elliot.

626 U G 5
Metamorphic Petrology
Sp. 3 cl., 2 2-hr. labs.
Prereq.: 223 and permission of instructor, or 623.
Petrography, petrogenesis, and occurrence of metamorphic rocks; macroscopic and microscopic examination of metamorphic rocks and selected petrographic suites in the laboratory. Ehlers and Elliot.

627 U G 5
Thermochemical Mineralogy
A. 5 cl.
Prereq.: Chem. 533 or equiv., or permission of instructor.
Not open to students with credit for Mineral. 665.
Thermal properties of minerals; application of high temperature equilibrium to problems of petrology and technology, using phase diagrams. Foster.

628 U G 3
Advanced Thermochemical Mineralogy
Sp. 3 cl.
Prereq.: 627.
Not open to students with credit for Mineral. 706.
Derivation and interpretation of phase diagrams of ternary and quaternary systems of importance in petrology and technology. Foster.

631 U G 3
Extraterrestrial Mineralogy
W. 3 cl.
Prereq.: 222 or Sr. standing in Geol. and Mineral., Astron., or related fields.
Not open to students with credit for Mineral. 666.
Mineralogy of meteorites, tektites, and lunar-samples as a basis of study of their composition, age, and origin, and those of the earth and solar system. Foster.

635 U G 5
Advanced Crystallography
A. 3 cl., 2 2-hr. labs.
Prereq.: 214, 221, or equiv.
Not open to students with credit for Mineral. 645.
Principles of crystallography; morphology, structure and habit in crystals; twinning; two-circle goniometer measurement and drawing of crystals; crystallographic calculations; investigations with precession X-ray camera. Wenden.

636 U G 3 or 5
Advanced Mineralogy
W. 3 cl. or 3 cl., 2 2-hr. labs. (Laboratory optional.)
Prereq.: 214, 221, or equiv.
Not open to students with credit for Mineral. 646 or 665.
Mineral stoichiometry and calculations; application of instrumental methods to mineral identification and the study of mineral suites from selected localities; physical and chemical properties, and paragenesis of minerals on crystal chemical principles. Wenden.

637 U G 5
X-Ray Powder Diffraction
W. 3 cl., 2 3-hr. labs.
Not open to students with credit for Mineral. 650.
Emphasis on diffractometry; evaluation of instrumental, geometrical, and other factors affecting intensity and position of diffraction maxima; qualitative and quantitative analysis, particle size, and other applications. Tettenhorst.

638 U G 5
X-Ray Crystallography
Sp. 3 cl., 2 3-hr. labs.
Prereq.: 214, 221, or equiv.
Not open to students with credit for Mineral. 654.
Principles of X-ray crystal analysis; phase identification by powder film and diffractometer methods; X-ray fluorescent analysis; particle size determination; unit cell and space group by rotation and Weissenberg methods.

639 U G 3
Clay Mineralogy
Sp. 3 cl.
Prereq.: 637 or permission of instructor.
Not open to students with credit for Mineral. 730.
Relationship of structures and chemical composition of clay minerals to properties, origin, occurrence, and applications; evaluation of X-ray, differential thermal, infrared, and electron microscope data. Tettenhorst.

640 U G 5
Fundamentals of Geophysics
A. 4 cl., 1 2-hr. lab.
Prereq.: 530.

643 U G 3
Geophysics Gravimetry
A. 3 cl.
Prereq.: 4th yr. standing in Geol.; or 4th yr. standing in Geol. Sci., Physics, Civil E., and 100 or 101.

645 U G 5
Advanced Structural Geology
Sp. 4 cl., 1 2-hr. lab.
Prereq.: 530.
Not open to students with credit for 633.
Rock mechanics, mechanisms of deformation, geotectonics, and structural analysis; solution of structural problems. Sutter.

650 U G 5
Glacial and Pleistocene Geology
Sp. 5 cl., field trips.
Prereq.: 550.
The features produced by glaciers, present and past, and the history of glaciation during the Pleistocene. Goldthwait.

651 U G 5
Hydrogeology
Sp. 5 cl., 2 ½-day field trips.
Prereq.: Senior standing in Geol.; or 4th yr. standing in Engr. and 101; or 101 and 204.
Geologic and hydrologic factors controlling the occurrence and behavior of ground water. Pettyjohn.

660 U G 5
Geology of Mineral Deposits
W. 4 cl., 1 2-hr. lab.
Prereq.: 223.
660.01* Geology of Metallic Deposits
The occurrence, origin, distribution, properties, and uses of the metallic minerals. Fausett.

661 U G 5
Petroleum Geology
W. 3 cl., 2 2-hr. labs.
Prereq.: 502 and 530.
A study of the principles of petroleum geology. Bates.

670 U G 5
General and Economic Geology of Selected Areas
A. 10-day field trip preceding A. qtr. Post-trip readings and report.
Prereq.: 502, 530, and 550, or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Concentrated field study of the stratigraphy, structural geology, tectonics, petrology, and geomorphology of a selected region, with special attention to the economic utilization of earth materials. Bates, Bergstrom, Collin, Kendall, Summerson, and Swee.

683 U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 45 cr. hrs. in any combination of decimal subdivisions. Special problems in any branch of geology and mineralogy for which the student has the proper qualifications.

693.01 Economic Geology
693.02 Engineering Geology
693.03 Extraterrestrial Studies
693.04 Field Geology
693.05 Geochemistry
693.06 Geomorphology
693.07 Geophysics
693.08 Glaciology and Glacial Geology
693.09 History of Geology and Mineralogy
693.10 Hydrogeology
693.11 Marine Geology, Limnology, and Oceanography
693.12 Paleontology
693.13 Petrology and Petrography
693.14 Photogeology
693.15 Sedimentation
693.16 Stratigraphy
693.17 Structural Geology
693.18 Earth Science Education
693.19 Unspecified
693.20 Thermochromatic Mineralogy
693.21 Crystallochemical Mineralogy
693.22 X-Ray Mineralogy
693.23 Clay Mineralogy
693.24 Physical Properties of Crystals

694 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group study of special topics in various fields of geology and mineralogy.

German

Office: 314 Dieter Cunz Hall of Languages, 1841 Millikin Road

Professors Hoffman (Chairman), Bekker, Fleischhauer, Seidlin (Emeritus), and Wittkowski; Associate Professors Belkin, Gottwald, W. Haas, Miles, Schmidt, and Vitt; Assistant Professors Cotter, Edse, Goodman, Gundel, Langguth, Lee, Nelson, Riechel, and Vredeveld; Instructors U. Haas, Kuehn, and Petrich.

PLACEMENT AND PROFICIENCY EXAMINATIONS

Students with two years of high school German register for German 103, however, in order to insure proper registration, placement tests are required of all students who continue their study of German in the department after beginning their language in high school. Such tests are given on the first day of instruction in each quarter. Consult the Humanities section of the Colleges of the Arts and Sciences catalog.

Students who are given advanced standing in the department as a result of the placement and proficiency examination become eligible for University credit.

EXCESS ENTRANCE CREDITS IN GERMAN

Freshmen who have excess credits in foreign language are eligible for examination for advanced standing. The examination is given at the same time as the placement tests mentioned above.

101 U 5
Elementary German
Su, A, W, Sp. 5 cl.

102 U 5
Elementary German
Su, A, W, Sp. 5 cl.
Prereq.: 101 or equiv.

103 U 5
Intermediate German
Su, A, W, Sp. 5 cl.
Prereq.: 102 or 110 or equiv.
Reading; oral and written practice; grammar review; students may select from among the following subdivisions which emphasize specific skills and subject matter.

103.01 Basic
Not open to students with credit for 103.
Balanced use of the basic language skills: reading, aural comprehension, speaking, and writing.

103.02 Conversation
Not open to students with credit for 103.
Emphasis on speaking and aural comprehension.

103.03 Humanities and Civilization
Not open to students with credit for 103.
Emphasis on reading in the humanities and in German culture and civilization.

103.04 Literature
Not open to students with credit for 103.
Emphasis on the reading of German literary texts.

103.05 Science
Not open to students with credit for 103 or 113.
Introductory readings in scientific German.

104 U 5
Intermediate German
Su, A, W, Sp. 5 cl.
Prereq.: 103 or 112 or 113.
Reading; oral and written practice; vocabulary building; students may select from among the following subdivisions which emphasize specific skills and subject matter.

104.01 Basic
Not open to students with credit for 104.
Balanced use of the basic language skills: reading, aural comprehension, speaking, and writing.

104.02 Conversation
Not open to students with credit for 104.
Emphasis on speaking and aural comprehension.

104.03 Humanities and Civilization
Not open to students with credit for 104.
Emphasis on reading in the humanities and in German culture and civilization.

104.04 Literature
Not open to students with credit for 104.
Emphasis on the reading of German literary texts and topics.

104.05 Science
Not open to students with credit for 104 or 114.
Advanced readings in scientific German.

109 U 3
Elementary German Conversation
Su, A, W, Sp. 3 cl.
Prereq.: 102 or 110; also open to students with grade of A in 101. No audit.

110 U 5, 10
Intensive Elementary German
A, W, Sp. 10 cl.
Prereq.: Permission of dept.
Not open to students with credit for 102. Students with credit for 101 or the equiv. may not register for more than 5 cr. hrs.
Elementary German for students who wish to acquire the basic language skills in one quarter; equivalent to 101 and 102.

112 U 5, 10, 15
Intensive German
Su. Enrollment limited to 20 students.
Prereq.: Permission of dept.
Full time of student and full fees required.
Students with credit for 101 or the equiv. may not register for more than 10 cr. hrs. Students with credit for 101 and 102 or the equiv. may not register for more than 5 cr. hrs. Students with credit for 103 or the equiv. may not register for credit. Register before May 11. No audit.
Elementary and intermediate German for students desiring comprehensive knowledge of German in the shortest possible time; students will devote their entire time to this course.

162 U 5
Elementary-Intermediate German for Selected Students
W. 5 cl.
Prereq.: Grade of A in 101.
Not open to students with credit for 117.
163  U  5
Elementary-Intermediate German for Selected Students
Sn.  5 cl.
Prereq.: 162.
Not open to students with credit for 118.
Successful completion of the sequence 101-162-163 fulfills language requirements and provides eligibility for 200-level courses.
Continuation of 162.

203  U  3
Intermediate German Conversation
A, W, Sp.  3 cl.
Prereq.: 104.02, any other 104 course and 109 with a minimum grade of C, or permission of instructor. 203 may be taken concur. with 204. No audit.
Practice in spoken everyday idiomatic German, based on texts concerning German life today.

204  U  2
German Composition I
A, W, Sp.  2 cl.
Prereq.: 104.02, any other 104 course and 109 with a minimum grade of C, or permission of instructor. 204 may be taken concur. with 203. No audit.
Practice in simple writing with some conversation.

205  U  2
German Composition II
W, Sp.  2 cl.
Prereq.: 204.
Themes, reports, and translations of difficult texts.

221  U  5
Introduction to German Literature: The 20th Century
A, W, Sp.  5 cl.
Prereq.: Either 104, 163, or equiv.
Students are advised to register also for 203 and 204.
Not open to students with credit for 227.
Readings from representative authors such as Mann, Schnitzler, Duerrenmatt.

222  U  5
Introduction to German Literature: The 19th Century
A, W, Sp.  5 cl.
Prereq.: Either 104, 163, or equiv.
Students are advised to register also for 203 or 204.
Not open to students with credit for 226.
Readings from Brentano, Hoffmann, Storm, and Keller.

223  U  5
Introduction to German Literature: The Classical Period
W, Sp.  5 cl.
Prereq.: Either 221, 222, or equiv.
Students are advised to register also for 203 and 204.
Not open to students with credit for 225.
Readings from Goethe and Schiller.

260  U  3
Early German Literature in Translation
A.  3 cl.
Credit does not apply toward a major in German.
Trends in German literature of the Middle Ages, the Renaissance and the Reformation as reflected in representative literary monuments. Bekker.

261  U  3
German Classics in Translation
W.  3 cl.
Credit does not apply toward a major in German.
Social and intellectual forces in Germany as reflected in German literature from the Enlightenment to the middle of the 19th century; masterpieces from Goethe to Gottfried Keler.

262  U  3
Modern German Literature in Translation
Sp.  3 cl.
Credit does not apply toward a major in German.
Intellectual forces and literary trends in German literature from the end of the 19th century to the present; masterpieces from Gerhart Hauptmann to Bertolt Brecht.

361*  U  3
German Civilization I
A.  3 cl.
Taught in Eng.
The cultural heritage of the German people from the beginning to about 1500; institutions, phases of civilization, interrelationship of social and literary history. Haas.

382*  U  3
German Civilization II
W.  3 cl.
Taught in Eng.
German civilization from Luther to the Age of Goethe; cultural trends, social changes, historical development to the end of the Holy Roman Empire.

409  U  3
Advanced German Conversation
W.  3 cl.
Prereq.: 203.

410  U  3
Advanced German Composition
A.  3 cl.
Prereq.: 203 and 205 or permission of instructor.
Not open to students with credit for 410.
Writing and discussion of compositions, practical review of grammar in context, and practice in translation.

453*  U  3
German Civilization III
Sp.  3 cl.
Prereq.: 10 cr. hrs. in 200-level courses is German with the exception of 260, 261, and 262.
Taught in German.
Intellectual, artistic, and social trends in the German speaking countries from 1815 to the present. Haas.
571  G 5
Basic German for Graduate Students
Su, A, W, Sp.  5 cl.
Prereq.: Grad. standing.
Credit does not apply to the minimum hours required for the Master's or doctoral degrees. No audit.
The fundamentals of German grammar, as required for the reading of German texts in the sciences and humanities.

572  G 3
German for Research I
Su, A, W, Sp.  3 cl.
Prereq.: Grade of C or above in 571 or equiv. preparation demonstrated by a placement test.
Open only to graduate students. Credit does not apply to the minimum hours required for the Master's or doctoral degrees. No audit.
Repeatable twice.
Satisfactory completion of this course (grade of A or B) may be accepted by the student's dept. as evidence of a dictionary reading knowledge in fulfillment of Ph.D. language requirement.

573  G 3
German for Research II
Su, W, Sp.  3 cl.
Prereq.: Grade of A or B in 572, or equiv. preparation demonstrated by a placement test and permission of instructor.
Open only to graduate students. Credit does not apply to the minimum hours required for the Master's or doctoral degrees. No audit.
Repeatable twice.
Reading of difficult material at a reasonable rate of speed and with only infrequent use of dictionaries.
Completion of this course with a grade of A or B may be accepted by the student's dept. as evidence of a thorough reading knowledge of German.

GENERAL PREREQUISITES FOR COURSES NUMBERED 593, 594, AND ALL 600-LEVEL COURSES
Unless otherwise indicated, the prerequisites for 593, 594, and all 600-level courses are: a minimum of 10 hours of 221, 222, 223, plus a minimum of 5 hours of 203, 204, 205, 409, 410. Exceptions may be allowed by instructors for students with special qualifications.

593  U 2-5
Individual Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 10 cr. hrs.
Individual investigation of minor problems in German language and literature.

594†  U 2-5
Group Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 10 cr. hrs.
Investigation of minor problems in German literature and language.

605†  U G 3
Introduction to the Study of Language
Sp.  3 cl.
Elements of linguistics with emphasis on the historical study of languages and on semantics; the position of Germanic in the Indo-European family of languages.

606  U G 3
Introduction to the Historical Study of German
Sp.  3 cl.
The historical development of the German language, with a short survey of the Germanic languages; internal and external influences which have determined its characteristics (phonology, morphology, and vocabulary). Belkin.

611  U G 3
Medieval German Literature
A.  3 cl.
Survey of German literature from the 8th century to the end of the Middle Ages.

612  U G 3
Literature of Humanism, Reformation, and Baroque
W.  3 cl.
Survey of German literature from 1400 to 1730. Bekker.

621  U G 3
The German "Novelle"
A.  3 cl.
Reading and analysis of masterpieces of the 19th and 20th centuries: Kleist, Eichendorff, Stifter, Keller, and Thomas Mann.

622  U G 3
The German Drama
W.  3 cl.
Reading and analysis of masterpieces of the 19th and 20th centuries: Schiller, Kleist, Grillparzer, Hebbel, and Brecht. Wittkowski.

623  U G 3
German Lyrics
Sp.  3 cl.
Analysis of German lyrics from 1200 to the present; study of specific forms: Volkslied, ballad, sonnet, and individual great lyricists. Hoffmann.

630  U G 3
Introduction to Stylistics
W, Sp.  3 cl.
Prereq.: 205 or 410 or permission of instructor.
Composition on assigned topics, intensive translation, and comparative study of usage designed to develop a sophisticated expository style in the writing of German. Gottwald and Haas.

635  U G 3
Practical German Pronunciation
Sp.  2 2-hr. cl.
Prereq.: Permission of instructor.
Standard German pronunciation; oral and written drill. Fleischhauer.

650  U G 1 or 3
Preseminar
Su, Sp.  3 cl., 3 cr. hrs.
Su (1st term).  3 cl., 1 cr. hr.
Prereq.: Permission of chairman.
Repeatable to a maximum of 24 cr. hrs.
660†
Masterpieces of German Literature
Su. 3 cl.
Prereq.: Permission of chairman.
Repeatable to a maximum of 18 cr. hrs.
Selections from works of major German writers; topic varies each year.

693
Individual Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 30 cr. hrs.
Investigation of minor problems in the various fields of German literature and philology. Bekker, Belkin, Fleischhauer, Miles, Schmidt, Viit, and Wittkowski.

694†
Group Studies
Sp.
Prereq.: Permission of chairman.
Repeatable to a maximum of 30 cr. hrs.
Investigation of minor problems in the various fields of German literature and philology.

698
Study Tour of Germany
Sp.
Prereq.: Minimum of 25 cr. hrs. in German or equiv., and permission of department chairman.
The first five weeks will be devoted to intensive study on this university campus; the remainder of the course will be spent in travel in Germany; in Germany only German will be spoken and formal instruction will be given daily by the tour leader.

GENERAL PREREQUISITES FOR COURSES NUMBERED 700
Prerequisites for 700-level courses are graduate standing, or 4th yr. standing with 9 cr. hrs. in German at the 600-level, and permission of chairman.

700
College Teaching of German
A. 2 cl.
Methods and techniques for teaching German at the college level.

721†
German Literature of the 18th Century
A. 4 cl.
The literature of the Enlightenment and Storm and Stress; Lessing, Klopstock, Wieland.

722†
German Classical Literature
722.01 Goethe and Schiller I
W. 4 cl.
Young Goethe and Schiller, their development and early works.
722.02 Goethe and Schiller II
Sp. 4 cl.
Goethe's and Schiller's major later works and their significance for modern times.

723†
Goethe's Faust
Sp. 3 cl.
History of the Faust legend from the 16th century to Goethe; reading and discussion of the play. Wittkowski.

724†
German Romanticism
A. 4 cl.

725†
German Literature of the 19th Century
W. 4 cl.
Literary forces and trends from Goethe's death to the founding of the German Reich (Grillparzer, Buechner, Hebbel, Raimund, Moerike, Stifter, Keller, and Meyer). Wittkowski.

728†
Modern German Literature
Sp. 4 cl.
Main currents of German thought and literature from Nietzsche to the present; Hauptmann, Schnitzler, Mann, Rilke, George, Hofmannsthal, Kafka, and Brecht.

730
Advanced Stylistics
W. 3 cl.
Prereq.: Grade of A in 630, or permission of instructor.
Stylistic analysis on advanced level of German prose; compositions, reports, and discussion. Viit.

777
Colloquium in German Literature
Prereq.: Permission of Chairman.
Repeatable to a maximum of 30 cr. hrs.
Selected topics, problems, and works in the various fields of German literature.

H783
Honors Course
W, Sp. 2 1/2 hr. cl.
Prereq.: 4th yr. standing with a grade of A in at least half of the German courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
Offers undergraduates with special aptitudes a greater opportunity to do independent study than is possible in the ordinary course.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800
Prerequisites for 800-level courses are graduate standing and permission of chairman.

800
Bibliography and Method
A. 2 cl.
Required of all candidates for grad. degrees.
The tools, problems, and methods of literary research. Schmidt.
801 G 4
Middle High German
A. 4 cl.
Middle High German texts; methods of textual criticism.
Fleischhauer.

802* G 4
Old Saxon and Old High German
W. 4 cl.
Readings from the Helian and selected Old High German texts. Fleischhauer.

803* G 3
Gothic
Sp. 3 cl.
Readings from the Bible; Gothic as a basis for the comparative study of the Germanic languages and
historical German phonology and morphology. Fleischhauer.

806* G 3
History of the German Language
W. 3 cl.
Prereq.: 801.
Basic concepts of historical linguistics; the major factors of change in the history of German from
Proto-Germanic to the present. Fleischhauer.

821† G 3
History of German Literature Until 1700
A. 3 cl.
Readings from the earliest period to the end of the 17th century. Belkin.

822* G 3
History of German Literature Until 1700
W. 3 cl.
Continuation of 821. Bekker.

823† G 3
History of German Literature Until 1700
Sp. 3 cl.
Continuation of 822. Bekker.

860 G 5
Seminar in German Literature
Selected topics from German Literature after 1500; problems of methods and interpretation.

870 G 3
Seminar in German Linguistics
A, W. 2 cl.
Selected topics from medieval literature, word history, stylistics, and psychology of language.

Medieval and Renaissance Culture
(See Medieval and Renaissance Studies 888.)

Medieval and Renaissance Literature
(See Medieval and Renaissance Studies 889.)

993 G 1-5
Individual Studies
Prereq.: Permission of Chairman.
Repeatable to a maximum of 15 cr. hrs.
With the approval of department chairman, doctoral students may register for individual study in areas
normally not covered by courses. Bekker, Belkin,
Fleischhauer, Miles, Schmidt, Vitt, and Wittkowski.

998 G Arr.
Research in German: Thesis
Repeatable to a maximum of 20 cr. hrs.
Research for Master's thesis.

999 G Arr.
Research in German: Dissertation
Research for dissertation purposes only.
Belkin, Fleischhauer, Hofmann, Miles,
Schmidt, Vitt, and Wittkowski.

Graduate School Course

801 G 2
College Teaching
W, Sp. 2 cl.
Designed to acquaint prospective college teachers with
the major problems involved in college teaching.

Greek
Office: 217 Derby Hall, 154 North Oval Drive
Professors Morford (Chairman), Abbott, Babcock,
Forbes (Emeritus), and Lenardon; Associate Professors
Davis, Hahn, and Schlarm; Assistant Professors Kratz,
Shumaker, Snyder, Sweet, and Tracy; Adjunct Assistant
Professor Drachman.

See Classics also.

101 U 5
Elementary Greek
A. 5 cl.
Snyder and Tracy.

102 U 5
Elementary Greek
W. 5 cl.
Prereq.: 101.
Snyder and Tracy.
103 U 5
Intermediate Greek Reading
Sp. 5 cl.
Prereq.: 102
Shumaker.

112 U 5, 10, 15
Intensive Introduction to Greek
Su, W. 10 cl. and 10 or more hrs. of supervised study.
Full time of student and full fees required.
Equiv. of 101, 102 and 103. Students with credit for 101
or the equiv. may not register for more than 10 cr. hrs.
Students with credit for 101 and 102 or the equiv. may
not register for more than 5 cr. hrs. Students with
credit for 103 or the equiv. may not register for credit.

221 U 5
Attic Prose
A. 5 cl.
Prereq.: 103 or 112.
Babcock.

222 U 3
Euripides
W. 3 cl.
Prereq.: 210 or 221.
Not open to students with credit for 202.
Schlam.

823† G 3
Homer
Sp. 3 cl.
Prereq.: 210 or 221.
Not open to students with credit for 200.
Kratz.

604 U G 3
Herodotus
W. 3 cl.
Prereq.: 2 courses at 200 level.
Not open to students with credit for 201 except by
permission of chairman.
Tracy.

606 U G 3
Sophocles
Sp. 3 cl.
Prereq.: 2 courses at 200 level.
Mortord.

609 U G 3
Plato
A. 3 cl.
Prereq.: 2 courses at 200 level.
Sweet.

612† U G 3
Greek Prose Composition
W.
Prereq.: At least 1 course at 500 level.
Hahm.

645† U G 3
Koine to Modern Greek
Sp.
Prereq.: 2 courses at 200 level.
Historical survey of the post-classical development of
the Greek language, with representative texts from
different periods.

693 U G 1-6
Individual Studies
Prereq.: 2 courses at 600 level, or permission of
instructor.
Repeatable to a maximum of 15 cr. hrs.
Passages for reading and topics for investigation will
be selected to meet the needs of individual students.

694 U G 1-6
Group Studies
W.
Prereq.: 4 courses more advanced than 104, or
permission of chairman.
Repeatable to a maximum of 20 cr. hrs.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 800 AND ABOVE
Prerequisites for admission to courses numbered 800
and above are graduate standing and permission of
the Chairman.

800† G 3
Proseminar
A.
Required of all graduate students. Students may not
receive credit for both Latin 800 and Greek 800.
An introduction to the materials and methods of
research; the history of classical scholarship;
individual assignments in bibliographical problems.
Abbott.

803† G 4
Sophocles
Su.

805† G 4
Lyric Poetry
W.

807† G 4
Euripides
W.

810† G 3
Structure of the Greek Language
A. 3 cl.
Drachman.

811† G 4
Greek Dialects
A.
Drachman.

813† G 4
Demosthenes
Sp.
815† G 4
Aristophanes
W.

816† G 4
Thucydides
Sp.
Lenardon.

831 G 4
Homer and the Homeric Language
A.

832† G 4
Hesiod
A.
Lenardon.

833† G 4
Pindar
Sp.
Shumaker.

834† G 4
Aeschylus
Sp.
Lenardon.

835 G 4
Aristotle
Sp.
Hahm.

836 G 4
Hellenistic Poetry
W.
Shumaker.

850† G 4
History of Greek Literature
A.
Lectures and assigned reading on the development of Greek literature; required and suggested passages for translation in each author studied.

851† G 4
History of Greek Literature
W.
Continuation of 850.

852† G 4
History of Greek Literature
Sp.
Continuation of 851. Shumaker.

860† G 3
Greek Palaeography
W. 3 cl.
Prereq.: Advanced reading ability in Greek and permission of instructor.

861† G 3
Textual Criticism
Sp. 3 cl.
Prereq.: 860.

Medieval and Renaissance Culture
(See Medieval and Renaissance Studies 881.)

Medieval and Renaissance Literature
(See Medieval and Renaissance Studies 880.)

993 G 1-4
Individual Studies
Repeatable to a maximum of 20 cr. hrs.
Assigned readings; individual research in disciplines such as epigraphy, topography, papyrology, linguistics, etc.

994† G 1-6
Group Studies
Su, W.
Repeatable to a maximum of 20 cr. hrs.

995 G 5
Seminar
A.
Repeatable to a maximum of 20 cr. hrs.
Credit in this course will be granted only with the completion of 996.
The seminar will normally consist of a two-term sequence (A-W, W-Sp); an intensive study of an author or a genre, e.g., Aeschylus, Thucydides, Hellenistic poetry.

996 G 5
Seminar
W.
Prereq.: 995.
Repeatable to a maximum of 20 cr. hrs.
Continuation of 995.

999 G Arr.
Research
Research for thesis and dissertation purposes only.

Health Education

Lewis A. Hess, Director of School
Office: 215 Pomerene Hall, 1760 Neil Avenue

Professors Cushman (Chairman), Beyer, and Kapias;
Assistant Professors Beitham and Grosshans, Meeks
and Windsor; Instructors Downey, Johnson, and Vitello.

101 U 1
Hygiene
A. W, Sp. 1 cl., 1 1ab. hr.
Elective for all freshmen except those who take 103 or
200.
Not open to majors or minors in Phys. Ed., and Dent.
Hyg. Ed.
Designed to influence knowledge, attitudes, and
behavior related to individual health.
102 U 2
First Aid
Su, A, W, Sp. 2 cl., lab.
A consideration of first aid practices to the injured; completion leads to Red Cross certificates in first aid.

103 U 3
Health for the College Student
A, W, Sp. 3 cl.
Not open to students with credit for 101 or 200.
A study of student health problems; designed to foster understandings and attitudes needed for intelligent decision-making related to present and future health needs.

200 U 5
Hygiene
Su, A, W, Sp. 5 cl.
Not open to students with credit for 103.
Open only to students in Dent. Hyg. Ed., Health Ed., and Pub. Recreation curricula, or by permission of instructor.
Designed to establish a basis for positive health and efficiency through a consideration of various conditions and factors which affect health.

201 U 3
Current Concepts in Community Health
W, Sp. 3 cl.
A study of community health programs, the need for them, the problems and issues involved, and how these problems can be solved.

289 U 2-5
Field Experience
For students in Health Education curriculum.
Repeatable to a maximum of 5 cr. hrs.
Professional service with children or youth in some school or community agency.

300 U 3
Health Education for Elementary Teachers
Su, A, W, Sp. 3 cl.
Prereq.: 101 or equiv., and Psychol. 230.
Not open to undergraduate minors or majors in Phys. Ed., or Health Ed.
The teacher's responsibility for health of school child; screening, referral, vision and hearing, nutritional problems, instructional programs, emergency care, teacher's health.

301 U 3
Health Education for Secondary Teachers
Su, A, W, Sp. 3 cl.
Prereq.: 101 or equiv., and Psych. 230.
Not open to students preparing for secondary school teaching of Health Ed. or Phys. Ed.
A study of health problems as they relate to the individual secondary school students; emphasis on the role of the teacher in the secondary school health program.

402 U 3
Safety Education
W, Sp. 3 cl.
Prereq.: 102 and permission of instructor.

The study of epidemiology of accidents development of preventive programs and safety consciousness; the teaching of first aid to meet Red Cross instructor's certification. Windsor.

501 U 3
The School Health Program
A, W, Sp. 3 cl.
Prereq.: 200.
For physical education students not in Health Education major or minor.
A consideration of the total school health program, including healthful school living, health services, and the teaching of health.

587 U 3-15
Student Teaching in Secondary Schools
Prereq.: 4th yr. standing.
A minimum of 15 cr. hrs. is required.
For additional information, see College of Education catalog.
Observation, participation, and responsible teaching in a public school in the Greater Columbus area; individual and group conferences or seminars.

602 U G 3
Personal Health Problems
Su, A, W. 3 cl.
An advanced course in personal health problems; extensive reading and reporting in selected health areas. Cushman and Beyrer.

603 U G 2
Current Progress in Disease Control
Sp. 2 cl.
Prereq.: 4th yr. grad. standing in a health science area.
Authorities in medicine and health sciences will interpret how current findings may affect disease prevention and control; newer knowledge of cancer, dental caries, etc., will be discussed. Cushman and Beetham.

604 U G 3
Education for Human Sexuality
Su, W, Sp. 3 cl.
Prereq.: 200, 622 or equiv., Sociol. 330, and permission of instructor.
Review of current information on health and sexuality by educators and school personnel; consideration of the sex education curriculum, teaching methods, materials, and controversial issues. Kaplan.

621 U G 3
School Health Services
Su, A, W, Sp. 3 cl.
Prereq.: 200 or equiv.
Consideration of healthful school living and health services, including health appraisal, counseling, educational adjustments, communicable diseases, and emergency programs. Cushman.

622 U G 5
The Teaching of Health
Su, W, Sp. 5 cl.
Prereq.: 621.
Not open to students with credit for 610.
Principles, methods, materials, and resources involved in teaching health; direct, correlated, and integrated curriculum patterns; individual teaching experience. Cushman, Beyrer, and Kaplan.

623 U G 3 Organizational Relationships in School Health Education
Su, A, W, Sp. 3 cl.
Prereq.: 622.
Not open to students with credit for 620.
The relation of the school health program to the total community health program; official and non-official health agencies are studied. Beyrer.

680 U G 4 School Health Education Workshop
Su. 3 wk. workshop.
Prereq.: Permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
A team approach to school health education with emphasis on instruction, health services, environment, methods, materials, resources, evaluation, interrelationships, etc.; individual and group study. Beetham.

693 U G 1-4 Individual Studies
Prereq.: 4th yr. or grad. standing and permission of adviser.
Investigation of selected professional problems.

701 U G 3 Comparative Study of World Health Problems
W. 3 cl.
Prereq.: 103, or equiv.
A study of world health problems, their influences on all people, the variety and magnitude of problems, and the methods being used to solve them. Kaplan.

994 G 3 Group Studies in School Health Education
Advanced problems in school health education; individual or group participation.

994.01 Curriculum in Health Education
A. Beyrer.

994.02 Survey of Research in Health Education
W. Beyrer.

994.03 Evaluation in Health Education
Sp. Windsor.

995 G 2 Seminar in School Health Education
A. 2 cl.
Beyrer and Cushman.

999 G Arr.
Research
Research for thesis and dissertation purposes only.

Hebrew
Office: 248 Dieter Cunz Hall of Languages, 1841 Millikan Road
Professor Griffin (Chairman); Associate Professor Hayon; Assistant Professor Mashiah.

101 U 5 Elementary Hebrew
A, W, Sp. 5 cl.
Conversation, reading, writing, vocabulary building, phonetics, and grammar.

102 U 5 Elementary Hebrew
A, W, Sp. 5 cl.
Prereq.: 101.
Reading of modified passages from modern Hebrew literature supplemented with additional study of grammar.

103 U 5 Intermediate Hebrew
A, W, Sp. 5 cl.
Prereq.: 102 or 110.
Reading of passages from various periods of Hebrew literature; review of salient points of elementary grammar and introduction to elements of classical Hebrew.

104 U 5 Intermediate Hebrew
A, W, Sp. 5 cl.
Prereq.: 103.
Reading of modern Hebrew short stories, poems, and essays; special emphasis on oral practice and Hebrew idioms.

110 U 5, 10 Intensive Elementary Hebrew
A, Sp. 10 cl.
Prereq.: Permission of dept.

Elementary Hebrew for students wishing to acquire the basic language skills in one quarter; intensive drill in form, syntax, vocabulary, and idiom; equivalent to 101 and 102.

112 U 5, 10, 15 Intensive Modern Hebrew
Su. 15 cl. Enrollment limited to 25 students.
Prereq.: Permission of chairman.
Full time of student and full fees required.
Equiv. of 101, 102, 103. Students with credit for 101 or the equiv. may not register for more than 10 hrs.
Students with credit for 101 and 102 or the equiv. may not register for more than 5 hrs. Students with credit for 103 or the equiv. may not register for credit.

193 U 1-15 Individual Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.
Group Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

241 U 3
The Culture of Contemporary Israel
W, Sp. 3 cl.
Survey and analysis of the socio-cultural phenomena and problems in modern day Israel; taught in English. Hayon.

271 U 3
Introduction to Modern Hebrew Literature in English
A, W, Sp. 3 cl.
Prereq.: Engl. 100 or equiv.
Modern Hebrew literature: works of major writers from the middle of the 18th century to the present; emphasis on European literary influences. Mashiah.

272 U 3
Hebrew Literature in English Translation: Ancient and Medieval Times
A. 3 cl.
Prereq.: Engl. 100 or equiv.
Hebrew literature from its beginnings to the middle of the 18th century. Lesley.

401 U 5
Review Grammar and Composition
W. 5 cl.
Prereq.: 104.

402 U 5
Intermediate Hebrew Conversation and Composition
Sp. 5 cl.
Prereq.: 401 or permission of instructor.
Vocabulary building, practice in speaking Hebrew, conversation and composition dealing with social and everyday aspects of Israeli life. Hayon.

403 U 3
Hebrew Syntax
A. 3 cl.
Prereq.: 402 or permission of instructor.
Parts of speech, types of sentences, word order, and syntactic analysis. Hayon.

421 U 3
The Modern Hebrew Short Story
A. 3 cl.
Prereq.: 104.
Reading and discussion of masterpieces of modern Hebrew short stories in the 19th and 20th centuries. Mashiah.

422 U 3
Modern Hebrew Poetry
W. 3 cl.
Prereq.: 421 or permission of instructor.
Reading and discussion of masterpieces of modern Hebrew poetry in the 19th and 20th centuries. Mashiah.

604 U G 3
Hebrew Phonetics and Vocalization
A. 3 cl.
Prereq.: 104 or permission of instructor.
Rules of Hebrew phonetics and vocalization; lectures and abundant practical exercises. Hayon.

605 U G 5
Hebrew Morphology
W. 5 cl.
Prereq.: 604 or permission of instructor.
The morphological system of Hebrew; the interrelations between roots and forms. Hayon.

611 U G 3
Introduction to the History of the Hebrew Language
Sp. 3 cl.
Prereq.: Permission of instructor.
Genealogical and typological relations within the Semitic family, a survey of Biblical, Mishnaic, and Modern Hebrew. Hayon.

621* U G 3
The Bible as Literature: Selected Readings
W. 3 cl.
Prereq.: 421 or 422 or 423.
Lesley.

623* U G 3
Medieval Hebrew Poetry: Secular and Liturgical
Sp. 3 cl.
Prereq.: 421 or 422 or 423.

6241* U G 3
Hebrew Literature of Early Modern Times: From the Haskala Period until 1900
Sp. 3 cl.
Prereq.: 421 or 422 or 423.
Literary works of the Haskala period and of the 19th century. Mashiah.

625* U G 3
Readings in H. N. Bialik
Sp. 3 cl.
Prereq.: 421 or 422 or 423.
Poetry and prose of H. N. Bialik. Mashiah.

694 U G 1-15
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
793 U G 1-5 Individual Studies in Hebrew
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

H783 U 3-5 Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the Hebrew courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
Offers graduates with special aptitudes a greater opportunity to do independent study than is possible in the regular course; work in conference, library, or phonetics laboratory.

794 U G 1-15 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

Perceptions and Roles of Women in the West,
17th Century to the Present
Sp. 5 cl.
A continuation of 281. Mate and Rose.

285 U 3
Great Issues in American Constitutional History
W. 3 cl.
A study of selected issues that have influenced the
development of the federal constitution. Benedict and
Chapin.

290 U 5
Survey of American Intellectual History
W. 5 cl.
Not open to students with credit for 690.01.
American thought from the colonial period to the present
with emphasis on the relation between dominant ideas
and the behavior and beliefs of the population. Hoffer.

294 U 3-5
Special Topics in History
Prerequisite to a maximum of 15 cr. hrs.
Groups of students are given an opportunity to pursue
special studies not otherwise offered.

301 U 3
Major Influences in the History
of Western Civilization
Sp. 2 cl.
Offered by senior members of the staff and designed
to acquaint the student with problems in the
interpretation of the history of western civilization.
Rule.

537 U G 5
History of Southern Africa
A. 5 cl.
Not open to students with credit for Black Studies 537.
(Cross-listed in the Black Studies Division.)
A study of the processes and patterns of social change
from early times to the present. Elango.

538 U G 5
West African History
Sp. 5 cl.
Not open to students with credit for Black Studies 538.
(Cross-listed in the Black Studies Division.)
An examination of the processes of state formation,
trade, and civilization in Africa's Sudanese and
Guinean regions. Elango.

565 U G 5
The United States in the 20th Century, 1900-1933
A, Sp. 5 cl.
Prereq.: 104, 123, or 150.02.
An intensive study of the United States during the
progressive era and after; the adjustment of
institutions to industrialism. Kerr and Reichard.

566 U G 5
The United States in the 20th Century,
1933 to Present
A, W, Sp. 5 cl.
Prereq.: 104 or 123.
An intensive study of contemporary America in
depression, war, and prosperity. Kerr and Reichard.

581 U 5
Women in Social Movements
in Europe and America
Sp. 5 cl.
The roles of women in social reform movements,
particularly feminist movements, during the 19th and
20th centuries. Rose.

H599 U 3
Honors Proseminar in History

Sp. 5 cl.
Historians, as representatives and observers of their times, from Cotton Mather to the New Left. Hoffer.

693 U G 1-3
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Individual study in some field of historical development; designed to allow the student to work on a problem in which he is particularly interested.

694 U G 1-5
Group Studies
Repeatable to a maximum of 30 cr. hrs.
The investigation of particular problems in various fields of history.

695 U G 5
Classical China, 1400 B.C. to 220 A.D.
A. 5 cl.
Prereq.: 265 or permission of instructor.
The political, economic, and cultural life of ancient China from the Shang dynasty to the end of the Han dynasty. Chang and Chu.

696 U G 5
Traditional China, 220 A.D. to 1800 A.D.
W. 5 cl.
Prereq.: 265 or permission of instructor.
The political, economic, and cultural life of Medieval China from the Age of Disunity to 1800 A.D. Chang and Chu.
697 U G 5
Modern China, 1800 to 1949
Sp. 5 cr.
Prereq.: 255 or permission of instructor.
History of modern China with emphasis on cultural contact between China and the West. Chang.

706† U G 3
Studies in Medieval History
A. 1 2-hr. cl.
Prereq.: Grad. standing or permission of instructor.
Advanced reading course in sources and monographs on the principal issues and problems in medieval history, with a stress on bibliography. Gregory, Lynch, and Pigues.

708† U G 3
Studies in Ancient History
A,W, Sp. 1 2-hr. cl.
Prereq.: Grad. standing or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
An intensive study of selected problems and sources in ancient history (Near Eastern, Greek and/or Roman); readings in the primary and secondary materials. Balzer and St. Clair.

710† U G 3
Studies in Reformation History
Sp. 1 2-hr. cl.
Prereq.: Grad. standing or permission of instructor.
An advanced course that treats the principal issues in the history of the Reformation on the basis of the most important literature. Kittelson.

712 U G 3
Studies in the Age of Louis XIV
W.
Prereq.: 612 or permission of instructor.
Open only to grad. students and by permission to seniors majoring in Hist.
Lectures, reading, and discussion of selected topics. Rule and Snider.

714 U G 3
Studies in French History Since 1815
A.
Prereq.: Grad. standing or by permission to seniors majoring in Hist.
Repeatable to a maximum of 6 cr. hrs.
An intensive study, through reading and discussion of standard works and recent scholarship, of the chief interpretative problems of modern French history. Rothney.

728 U G 3
Studies in Jewish History
A.
Prereq.: Grad. standing or by permission to seniors majoring in Hist.
An intensive study of selected issues in Jewish history; emphasis on problems posed by available source material and by current research in the area. Chazan and Raphael.

730† U G 3
Studies in European History, 1815 to 1914
W.
Open only to grad. students and by permission to seniors majoring in Hist.
Political and social impact of industrial Revolution; authoritarianism vs. liberalism; Church vs. State; nationalism; imperialism; emphasis on methods of historical research and documentary analysis. Dorpelen.

731 U G 3
Studies in European History, 1914 to Present
A.
Open only to grad. students and by permission to seniors majoring in Hist.
Political, social, and economic developments: World Wars I and II; Communism, Nazism; present-day Europe; emphasis on methods of historical research and documentary analysis. Dorpelen.

732 U G 3
Studies in German History
W.
Prereq.: 618 or equiv.
Open only to grad. students and by permission to seniors majoring in Hist.
Exploration of selected topics of 19th and 20th century German history; emphasis on methods of historical research and documentary analysis. Dorpelen.

733† U G 3
Studies in German Social and Economic History
Sp. 1 cl.
Prereq.: 618 or 624, or permission of instructor.
Open only to grad. students and by permission to seniors majoring in Hist.
Exploration of selected problems in the modernization of German society and the German economy since the late 18th century. Gates.

738 U G 3
Studies in British History
W.
Prereq.: 632 or 633.
Open only to grad. students and by permission to seniors majoring in Hist.
Selected problems in British history since 1760; emphasis on different schools and interpretations; on methods of research, and on analysis of documents. Poirier.

740 U G 3
Studies in Russian History: Catherine the Great Through the Crimean War, 1762-1855
A.
Prereq.: 6 cr. hrs. of Russ. history or permission of instructor.
An intensive study of problems in selected periods of Russian history. Curran and Morley.

741† U G 3
Studies in Russian History: Alexander II through the Bolshevik Revolution, 1855-1917
Sp.
Prereq.: 5 cr. hrs. of Russ. history or permission of instructor.
An intensive study of problems in selected periods of Russian history. Curran and Morley.

751\textsuperscript{†}  U G 3

Studies in Latin American History
W. 1 2-hr. cl.
Prereq.: Grad. standing or permission of instructor for seniors majoring in Hist. or a cognate Latin American field.
Repeatable to a maximum of 6 cr. hrs.
An intensive study of problems in selected periods of Latin American history. Cooper and Stoan.

761\textsuperscript{†}  U G 3

Studies in Mid-19th Century American History
W.
Prereq.: Grad. standing or by permission to seniors majoring in hist.
Repeatable to a maximum of 6 cr. hrs.
An intensive study of selected topics with emphasis on historiography and bibliography. Dillon.

768  U G 3

Studies in Military Thought and Strategy
W.
Prereq.: 668 or equiv.
Analysis and comparison of the most influential writers on the theory and practice of warfare including Machiavelli, Clausewitz, Mahan, Bloch, and Douhet. Millett.

770  U G 3

Studies in American Foreign Policy, 1775 to 1914
W.
Prereq.: 670.
Studies in the main problems of American foreign policy with primary emphasis on basic literatures and selected primary materials. Zehniser and Eckes.

771  U G 3

Studies in American Foreign Policy, 1914 to Present
Sp.
Prereq.: 671.
Studies in the main problems of American foreign policy with primary emphasis on basic literature and selected primary materials. Eckes and Zehniser.

777  U G 3

Su. 1 2-hr. cl.
Prereq.: 677 or permission of instructor.
Documentary and monographic readings on the history of American philanthropy and social welfare.

781\textsuperscript{†}  U G 3

Studies in the History of Women
A. 1 2-hr. cl.
An intensive study of selected issues in the history of women with emphasis on historiography and bibliography. Rose and Van Tine.

H783  U 3-5

Honors Course
Prereq.: 4th yr. standing and 40 cr. hrs. in hist. courses with a grade of A in at least half of the hist. courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 2 qtrs. are required of candidates for the degree Bachelor of Arts with distinction in hist.
Failure to receive a mark of 5 in this course is a disqualification for special honors.

Sp. 5 cl.
Prereq.: Jr. standing.
A study of the major artists of the High Renaissance and Mannerist periods in Italy. Melnikas.

631 U G 5
Art of the 17th Century in Europe
A. 5 cl.
Prereq.: Jr. standing.
Baroque Art in Italy, France, Spain, and the Lowlands— with emphasis on the major artists.

634 U G 5
The Art of the 18th Century in Europe
W. 5 cl.
Prereq.: 212.
The development of architecture, painting, and sculpture from the late Baroque and Rococo to Historicism. Kunin.

635 U G 5
Nineteenth Century European Art
W. 5 cl.
Prereq.: 212 or permission of instructor.
A study of European art from NeoClassicism through Post Impressionism; emphasizing the study of the works of the major painters. Keyes and Kunin.

636 U G 5
Twentieth Century European Art
Su, A, Sp. 5 cl.
Prereq.: 212 or permission of instructor.
A study of the major achievements in painting, sculpture, and architecture since 1900.

637 U G 5
American Art to 1900
Sp. 5 cl.
Prereq.: 212 or permission of instructor.
A study of the history of art in America from Colonial times to the end of the 19th century. Keyes.

638 U G 3
Twentieth Century American Art
Sp. 3 cl.
Prereq.: 212 or permission of instructor.
A study of significant developments in 20th century American architecture, painting, and sculpture. Keyes.

670 U G 5
Buddhist Art: Theory and History
A. 5 cl.
Prereq.: 213 or permission of instructor.
An analysis of Buddhism and its bearing on the art of India, Nepal, Tibet, China, and Japan, and an opportunity to examine actual objects. J. Huntington.

671† U G 5
The Art of India I
A. 5 cl.
Prereq.: 213 or 9 cr. hrs. Hist. of Art.
A cultural art history of India through classical times, ca. 650 A.D., in terms of monuments, people, and religious philosophies. S. Huntington.

672* U G 5
The Art of India II
W. 5 cl.
Prereq.: 671.
A cultural art history of post-classical India, Ceylon, Central Asia, Indonesia, and Indo-China. S. Huntington.

673* U G 5
Art of Central Asia
W. 5 cl.
Prereq.: 213 or permission of instructor.
An analysis of the cross currents of style and iconography that constitute the pre-Muslim art of Central Asia. J. Huntington.

674 U G 5
Art of Nepal and Tibet
Sp. 5 cl.
Prereq.: 213 or 671 or permission of instructor.
A study and analysis of the major aspects of style, iconography, and historical sequence as found in the arts of Nepal and Tibet. J. Huntington.

675† U G 5
Art of India III
Sp.
Prereq.: 213 or permission of instructor.
A survey of architecture and painting after the Muslim conquest with emphasis on intermixture of indigenous and foreign styles.

677 U G 5
Chinese Art: Buddhist and Pre-Buddhist
A. 5 cl.
Prereq.: 213 or permission of instructor.
An analytical study of the Pre-Buddhist and Buddhist art of China documenting both Trans-Asian influences and internal contributions. J. Huntington.
678 U G 5
Chinese Art: Painting
W. 5 cl.
Prereq.: 213 or permission of instructor.
An analytical study of the traditional schools of
Chinese painting with regard to style, formal
development, Chinese aesthetics and intellectual
history. J. Huntington.

680† U G 3
The Art of Japan
Sp. 3 cl.
Prereq.: 213 or 9 cr. hrs. in Hist. of Art.
Not open to students with credit for 619.
A cultural art history of Japan in terms of monuments,
people, and beliefs. J. Huntington.

693 U G 2-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Advanced study for students in specialized programs.

694 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group studies for students in specialized programs.

704 U G 3
Studies in African Art and Archaeology
A. 3 cl.
Prereq.: 610 or 611.
Repeatable to a maximum of 15 cr. hrs.
Studies in African art emphasizing problem
identification, concept organization, library research,
and individual criticism. Odaia.

710 U G 3
Studies in Art Theory and Criticism
Su, W.
Not open to students with credit for 639.
Repeatable to a maximum of 9 cr. hrs.
Investigations of theories of art and their applications.

715 U G 3
Research Methods in Art History
A.
Prereq.: 20 cr. hrs. in hist. of art.
Investigations of source materials, bibliography,
concepts, and techniques of research.

718 U G 5
Studies in Italian Renaissance Art
A. 5 cl.
Prereq.: 515 or 629 or 630, or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Selected problems in painting, sculpture, and
architecture of Italy in the 14th, 15th, and 16th
centuries. Melnikas.

722 U G 3
Studies in Ancient Greek and Roman Art
A, Sp. 3 cl.
Prereq.: 627 or 629 or permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Selected problems in the art of Ancient Greece and
Rome, 11th century B.C. to 4th century A.D.

724 U G 3
Studies in Northern Baroque Art
Sp. 3 cl.
Prereq.: 631 or Fine Arts 631.
Repeatable to a maximum of 9 cr. hrs.
Selected problems in the painting, sculpture, and
architecture of Belgium, Holland, Germany, and
France in the 17th and 18th centuries. Herzog.

725 U G 3
Studies in Italian Baroque Art
Sp. 3 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Selected problems in the painting, sculpture, and
architecture of the 17th century.

726† U G 3
Studies in Spanish Art
W. 3 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
A selective study of the architecture, sculpture,
painting, and minor arts of Spain.

737 U G 3
Studies in Modern Art
Su, A. 3 cl.
Prereq.: Either 635, 636, 637, 638, or permission of
instructor.
Repeatable to a maximum of 9 cr. hrs.
Selected studies in the art of the United States or
modern Europe.

747 U G 3
Studies in Northern Renaissance Art
A. 3 cl.
Prereq.: 627 or permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Selected problems in the art of the Low Countries,
Germany, and France from the 14th through the 16th
centuries.

770 U G 5
Studies in Asian Art
A, W, Sp. 5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Introduction to major research problems in Asian art
history; specialized bibliography and research
directions as applied to selected topics. Huntington.
H783  
Honors Course  
Prereq.: 4th yr standing with a grade of A in at least half of the Hist. of Art courses taken with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs. are required of candidates for the degree B.A. or B.F.A. with distinction in Hist. of Art. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr. hrs. A program of study arranged for each student, with individual conferences, reports, and Honors thesis.

793  
Individual Studies  
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. Advanced study for students in specialized programs.

804  
Problems in the History of African Art  
Sp.  
Prereq.: Permission of instructor. Research techniques with emphasis on scholarly methods involving extensive research for available source materials on African art. Odita.

810†  
Problems in Art Theory and Criticism  
Sp.  
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. Ludden.

816  
Museum Problems  
Sp.  
Repeatable to a maximum of 15 cr. hrs. An introduction to professional work in museums.

832  
Problems in American Art  
W.  
Prereq.: Permission of instructor. Not open to students with a maximum of 15 cr. hrs. in 932. Repeatable to a maximum of 15 cr. hrs.

870†  
Problems in Asian Art  
W.  
Prereq.: 2 courses in Asian art at the 600 level or permission of instructor. Repeatable to a maximum of 15 cr. hrs. Advanced study and specialized research on major topical problems in Asian art.

Medieval and Renaissance Culture

Medieval and Renaissance Literature  
(See Medieval and Renaissance Studies 889.)
Home Economics

Office: 229 Campbell Hall, 1787 Neil Avenue

Professors N. McCormick (Acting Director), Dickey (Acting Associate Director), Dalrymple, Deacon, Dirks, Firebaugh, Gorman, Heye, Hubbard, Lapitsky, A. McCormick, Sarbaugh, and Taylor; Associate Professors Alexander (Assistant Director), Bailey, Bardwell, Bloom, Coveyens, Dickerscheid, Everhart, Gritzmaker, Hunt, Meacham, Millican, and Tapscoot; Assistant Professors Andrian, Bowers, Butler, Chipley, Cremer, Herr, Hock, Honeycutt, Marshall, Mortvedt, Mote, and Roush; Instructors Ames, Barber, Crosby, Davies, K. C. Davis, K. S. Davis, Hegland, Henderson, Linit, Mitchell, Okos, Strom, and White.

The courses in Home Economics may be grouped as follows:

- Food and Nutrition—110, 310, 313, 314, 413, 589.01, 589.02, 593.01, 593.02, 594.01, 594.02, 596, 610, 612, 615, 616, 690.01, 690.02, 711, 793.01, 793.02, 794.01, 794.02, 797, 802, 810, 813, 816, 993.02, 998, 999.
- Home Economics Education—341, 441, 442, 444, 445, 589.09, 589.11, 593.09, 593.11, 594.09, 594.11, 690.09, 690.11, 744, 749.09, 793.11, 794.09, 797, 840, 841, 852, 843, 845, 846, 942, 946, 953.09, 998, 999.
- Management Housing and Equipment—228, 320, 322, 326, 327, 328, 427, 589.05, 589.06, 589.07, 593.05, 593.06, 593.07, 594.06, 594.07, 622, 623, 624, 628, 690.05, 690.06, 690.07, 793.05, 793.06, 793.07, 794.05, 794.06, 794.07, 797, 822, 825, 826, 827, 993.05, 993.06, 993.07, 998, 999.
- Food Service—230, 430, 431, 435, 589.08, 593.08, 594.08, 594.09, 630, 632, 633, 634, 635, 690.08, 793.08, 794.08, 797, 830, 832, 993.08, 998, 999.
- Textiles and Clothing—270, 274, 371, 374, 470, 471, 589.03, 589.04, 593.03, 593.04, 594.03, 594.04, 595, 671, 672, 673, 674, 690.03, 690.04, 793.03, 793.04, 794.03, 794.04, 797, 870, 872, 993.03, 993.04, 998, 999.
- General Courses—290, 596
- Extension—593.11, 594.11, 690.11, 793.11, 794.11

110 Elements of Nutrition
A, W, Sp. 5 cl.
Not open to students majoring in home ec. nor students with more than 10 cr. hrs. of chem.
Nutritional needs throughout the life cycle. Herr.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200

- Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed., or specified course(s) numbered 100-199.

228 Home Furnishings: Furniture
A. 2 2-hr. cl., 1 2-hr. lab.
Economic factors and trends in materials, construction and finishes; some experience in reconditioning and other techniques. Everhart.

230 Introduction to Food Service Management
W. 2 cl.
Orientation to field of food service management. Cremer and Hubbard.

270 Clothing Selection and Costume Design
A, W, Sp. 2 cl., 1 2-hr. lab.
Prereq.: Art 290 or equiv.
An introduction to costume design with application of aesthetic principles. Strom.

274 Clothing: Construction Techniques and Needlecrafts
W. 2 cl., 3 2-hr. lab.
Prereq.: Major standing in Oc. Ther.
Not open to majors in Home Ec.
Experience in activities of needlecraft and clothing construction which may have therapeutic value. Marshall.

290 Home Economics as a Profession
A, W, Sp. 2 cl.
The nature and status of home economics as a field of study and as a profession. Alexander.

294 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.

294.01 Food
294.02 Nutrition
294.03 Textiles
294.04 Clothing
294.05 Home Furnishings and Housing
294.06 Household Equipment
294.07 Home Management and Family Economics
294.08 Food Service
294.09 Home Economics Education
294.10 Family and Child Development
294.11 Home Economics Extension
294.12 Mental Retardation

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400

Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified courses numbered 100-399.

310 Fundamentals of Nutrition
A, W, Sp. 5 cl.
Prereq.: Chem. 101 and 102 or equiv.
Not open to students with credit for 110 nor to students with 45 cr. hrs. or less.
Basic information in the science of nutrition as applied to man. Mitchell.

313 Food in Different Cultures
A. 3 cl.
Prereq.: 313 or equiv. recommended; 10 cr. hrs. of social science.
Food practices of selected peoples of the world with consideration of the existing social, cultural, and economic conditions. Roul.
314 U 5
Food
A, W, Sp.  2 cr., 3 2-hr. lab.
Prereq.: 10 cr. hrs. of chem. and soph. standing.
Application of chemical and physical principles to food preparation and use.

320 U 3
Housing
Su, A, W, Sp.  3 cl.
Prereq.: 360 or 10 cr. hrs in social science.
Housing as it affects family living and is in turn affected by family needs, social and economic trends and the physical environment. Coveney and Everhart.

322 U 5
Household Equipment: Introduction
Su, A, W, Sp.  4 cl., 1 2-hr. lab.
Prereq.: 10 cr. hrs. of natural science.
Principles involved in the selection, construction, operation, and care of household equipment and their relation to the well-being of the family. Bloom and Coveney.

326 U 3
The Consumer and the Market
Su, A, W, Sp.  3 cl.
Prereq.: Econ. 201, and 10 cr. hrs. of social science.
The market from the consumer point of view; relationships of consumption to environmental quality.

327 U 5
Home Management
Su, A, W, Sp.  5 cl.
Prereq.: 3rd yr. standing and Econ. 201 or equiv.
Management process of utilizing specific resources for family's well-being. Bowers and Crosby.

328 U 5
Home Furnishings: Principles
A, W, Sp.  3 cl., 2 2-hr. lab.
Prereq.: Art 190, 290, or equiv.
Application of art principles to furnishing a home with consideration of aesthetic, economic, and social factors affecting choice. Everhart.

341 U 3
Introduction to Home Economics Teaching
A, W, Sp.  2 cl., 1 2-hr. lab.
Prereq.: 225 cumulative point-hour ratio; Psych. 230.
Observation in a variety of programs and at different levels. Exploratory teaching experience to determine professional interest and aptitude. Parallel seminar.

360 U 5
Family Development
A, W, Sp.  4 cl., 1 1-hr. arr.
Prereq.: 10 cr. hrs. of social science.
The dynamics of family interaction at each stage of the life cycle; emphasis on developmental tasks, socioeconomic and cultural influences and other family differences. Taylor.

362 U 4
Introduction to Child Development
Su, A, W, Sp.  3 cl., 2 consec. hrs. arr. for nursery school observation.
Prereq.: Psychol. 100 or equiv. recommended. Home Ec. major; non-majors with permission only.
Open only to Home Economics majors of sophomore standing or above.
Study of the nature, nurture, and development of children with emphasis on the preschool years. Blauser and Mote.

363 U 5
Child Development
Su, A, W, Sp.  5 cl.
Not open to students with credit for 362.
Developmental patterns of children with emphasis on physical, social, and emotional maturation, especially during the formative years; environmental influences and appropriate guidance. Hegland and Hock.

371 U 5
Textiles
A, W, Sp.  4 cl., 1 2-hr. lab.
Prereq.: 10 cr. hrs. of chem. and soph. standing.
Study of the physical and chemical properties of textiles and their components as they relate to care, performance and consumer satisfaction. Butler and Tapscott.

374 U 5
Clothing: Design Analysis
A, W, Sp.  2 cl., 6 hrs. lab.
Prereq.: 270, 371, and skill in the basic construction processes.
Adaptation of standard patterns to individual proportions, flat pattern designing, and application of principles of design and construction in making garments. Marshall.

413 U 4
Foods: Meal Management
A, W, Sp.  2 cl., 2 2-hr. lab.
Prereq.: 310 and 314.
Nutritional, aesthetic, and social aspects of planning, purchasing, preparing, and serving food to family groups at different income levels. Roush.

427 U 4
Home Management
Su, A, W, Sp.  3 cl., lab. hrs. arr.
Prereq.: 327 and senior standing in Home Ec.
Report to Room 166, Campbell Hall, to make application and to check for eligibility at least two qtrs. in advance.
Application and integration of management principles in varying household situations. Crosby.

430 U 3
Menu Planning for Food Service Establishments
A.  3 cl.
Prereq.: 230 and 413.
Principles and practices of menu planning for school, industrial, and commercial food units; menus planned for each type of institution.
431 U 5
Quantity Food Production and Service
A, Sp. 2 cl., 6 hrs. lab., 2 hrs. arr.
Prereq.: 230, 310, and 314.
Individual experience in application of food
preparation principles to quantity production; use and
care of large equipment; standardized formulas and
costs; service to the public. Cremer.

435 U 4
Principles of Teaching Applied
to Food Service Management
W. 2 2-hr. cl.
Prereq.: 431, Psychol. 100, and permission of instructor.
Principles of education for students whose professional
work will require knowledge of techniques for teaching
others in non-school situations.

441 U 5
Principles and Methods of Teaching Applied
to Home Economics
A, W, Sp. 3 cl., 1/2 day arr.
Prereq.: 441, and 55 cr. hrs. in Home Ec.
Consideration of curriculum, methods of teaching,
management, and other problems of the home
economics teacher.

442 U 15
Supervised Home Economics Teaching
A, W, Sp. Full time for 1 qtr. for 15 cr. hrs.
Prereq.: 441, and 55 cr. hrs. in Home Ec. and 2.25
cumulative point-hour ratio 2 qtrs. immediately
preceding.
For vocational certification, students must do their
teaching in a vocational center.
Registration with the Teacher Placement Service of
the College of Education.
Not open to students with credit for 443.
Guided participation in the responsibilities and
activities of the Home Economics teacher in the
regular day school and extended school program.

443† U 3
School-Community Problems
of the Home Economics Teachers
Su. 3 cl., arr. hrs. for observation and participation.
Prereq.: 441, 442, and permission of instructor.
For vocational certification only.
Not open to students with credit for 442.
Responsibilities and activities of the home economics
teacher in the extended school program with emphasis
on adult education; home experience, related home
economics teacher activities. Dirks.

445† U 15
Supervised Teaching in Home Economics
Related Occupations
A, W, Sp. Full time for one quarter.
Prereq.: 341, 45 quarter-hour credits in an area of
specialization; 2.25 cumulative point-hour ratio two
quarters immediately preceding.
Supervised student teaching in a vocational job
training program in the student's area of specialization.

462 U 3
Nursery School Activities
Su, A, W, Sp. 3 cl.
Prereq.: 362 or 363; concur. 463.
Application of principles of development to program
planning; modification of activities for age level,
ability, experience, group and individual needs.
Dickerscheid and Davis.

463 U 2
Nursery School Practicum
Su, A, W, Sp. 1 conf. hr., 2 2-hr. lab.
Prereq.: 362 and 462.
Repeatable to a maximum of 6 cr. hrs.
Participation in the nursery school as a student
teacher apply theory covered in 462. Davis and Mote.

470 U 3
Clothing: Fashion and the Ready-to-Wear Market
A, Sp. 5 cl.
Prereq.: 371 and 3rd yr. standing.
Fashion, the ready-to-wear market and current
developments in the field of textiles and clothing and
their relation to satisfying consumer needs. Marshall
and Millican.

471 U 5
Advanced Textiles
A, Sp. 4 cl., 1 3-hr. lab.
Prereq.: 371 and 3rd yr. standing.
Not open to students with credit for 571.
Advanced study of chemical and physical textile
properties; new developments; standards and testing
procedures used in evaluation of textiles. Butler and
Lapitsky.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 500
Unless otherwise indicated, the prerequisites for
500-level courses are 15 cr. hrs. in courses in the same
discipline numbered 200 or higher, or 12 cr. hrs. in
courses numbered 200 or higher in the same discipline,
plus 10 cr. hrs. in courses numbered 200 or higher in
specified allied disciplines; or baccalaureate degree.

589 U 3, 5 or 15
Field Work in Home Economics
Prereq.: Senior standing in Home Ec., 2.25 cumulative
point-hour ratio, and permission of instructor.
Registration 2 qtrs. before scheduling.
Limited to 5 cr. hrs., except in qtrs. and areas
indicated below.
589.01 Foods
589.02 Nutrition
589.03 Textiles
589.04 Clothing
589.05 Home Furnishings and Housing
589.06 Household Equipment
589.07 Home Management
and Family Economics
589.08 Food Service
589.09 Home Economics Education
589.10 Family and Child Development
589.11 Home Economics Extension
589.12 Mental Retardation
H590 U 3
Home Economics Colloquia
A. 3 cl.
Prereq.: Eligibility for Honors Program in Home Ec. Repeatable to a maximum of 9 cr. hrs.
Subjects will be oriented in different quarters to natural science, social science, and general home economics topics.

593 U 2, 3 or 5
Individual Studies
Su, A, W, Sp. 1 or more conf.
H593 (Honors) may be available to students enrolled in a College Honors Program or eligible for enrollment.
Prereq.: Minimum of 6 cr. hrs. in subject matter of problem with cumulative point-hour ratio of 2.7 in Home Ec. subjects and permission of instructor. Repeatable to a maximum of 10 cr. hrs.
593.01 Food
593.02 Nutrition
593.03 Textiles
593.04 Clothing
593.05 Home Furnishings and Housing
593.06 Household Equipment
593.07 Home Management and Family Economics
593.08 Food Service
593.09 Home Economics Education
593.10 Family and Child Development
593.11 Home Economics Extension

594 U 2, 3, or 5
Group Studies
Su, A, W, Sp. 3 cl.
Repeatable to a maximum of 10 cr. hrs.
594.01 Food
594.02 Nutrition
594.03 Textiles
594.04 Clothing
594.05 Home Furnishings and Housing
594.06 Household Equipment
594.07 Home Management and Family Economics
594.08 Food Service
594.09 Home Economics Education
594.10 Family and Child Development
594.11 Home Economics Extension
594.12 Mental Retardation

595 U 2
Textiles and Clothing Seminar
W, Sp. 2 cl.
Prereq.: 4th yr. standing, and major in textiles and clothing.
Special reports and readings in textiles and clothing which contribute to professional effectiveness and promote integration of information in the two fields.

596 U 2
Food and Nutrition Seminar
Sp. 2 cl.
Prereq.: 4th yr. standing, and major in food and nutrition.
Reports based on current research, recent summaries and articles which give perspective in food and nutrition.

598 U 2
Seminar in Child Development
W. 1 cl.
Prereq.: 360 and 362.
Review, interpretation, and evaluation of current literature and research in defined areas, with emphasis on recommended professional standards in group care of children.

GENERAL PREREQUISITES FOR COURSES NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

610 U G 5
Nutrition
W. 5 cl.
Prereq.: 310, Zool. 232, and Biochem. 511.
Modern concepts of normal nutrition.

612 U G 3
Nutrition: Diet Therapy
Sp. 3 cl., other hrs. arr.
Prereq.: 610 or equiv.
Modern concepts of clinical nutrition and abnormalities treated by modification of the diet.

615 U G 5
Experimental Work in Food Preparation
A, Sp. 3 cl., 2 3-hr. lab.
Prereq.: 314, and Chem. 231 or Biochem. 511.
Application of experimental methods to problems involved in preparation of foods.

616 U G 3
Nutrition of Infants and Children
Sp. 3 cl.
Prereq.: 610.
Needs of children for good nutrition from the embryonic stage through adolescence.

622 U G 5
Household Equipment: Performance Testing
A, W. 2 cl., 3 2-hr. lab.
Prereq.: 314 and 322.
Experimental problems on the performance of the major types of household equipment used in the preparation of food. Hunt.

623 U G 5
Household Equipment: Performance Testing
A. 4 cl., 4-hr. lab. arr.
Prereq.: 322, 371, or equiv., 4th yr. standing, and permission of instructor.
Experience in the techniques and reporting of experimental investigations dealing with household equipment used in laundering and other cleaning processes. Coveney.
624 U G 5
Household Equipment:
The Home Economist in Business
Sp. 2 cl., 3 2-hr. lab.
Prereq.: 622, 5 cr. hrs. in speech communication.
Demonstrations and evaluations of procedures;
qualifications for meeting professional requirements of
the home economist in business related to
household equipment. Bloom.

628 U G 3
Selection of Furnishings for the Home
Sp. 2 cl., 1 2-hr. lab. Field trips arr.
Prereq.: 327, 328, and 371.
Influences on today's homes of American, English, and
French interiors, including furniture, backgrounds, and
accessories.

630 U G 5
Selection of Food and Equipment for Institutions
W. 5 cl.
Prereq.: 431 or concur. and Econ. 201.
Principles and standards for selection of food,
equipment, and furnishings in institution food service,
arrangement and layout. Cremer.

632 U G 5
Institution Organization and Management
Sp. 3 cl., 6 hrs. lab. arr.
Prereq.: 431, 630 and Bus. Admin. 500.
Principles of business organization and management
and principles of learning applied to the management
of food service operations; supervised experience in
meal management.

635 U G 3
Food Cost Analysis for Institutions
A. 2 2-hr. cl.
Prereq.: 431 and Bus. Admin. 500.
Factors and procedures involved in controlling food
and house department costs; evaluation of data from
records and reports.

662 U G 3
Child Development
Su. W. 2 cl., 2 hrs. arr.
Prereq.: 362, Psychol. 550, and Soc. 434.
Growth and development of children from six through
toadescence with emphasis on maturation patterns
and individual differences.

663 U G 3
Infant Guidance and Care
A. Sp. 2 cl., 1 2-hr. lab. arr.
Prereq.: 362, Psychol. 550, and Soc. 434.
Pattern of development during infancy and the second
year of life, and responsibilities of adults for providing
a home environment favoring optimum development.
Dickerscheid and Hock.

667 U G 3
Administration of Day Care Centers
Su. A. 3 cl.
Prereq.: 462, 463, or equiv., and permission of
instructor.
Program planning to meet developmental level and
needs of young children; minimum and recommended
standards. Heyes.

671 U G 3
Textiles: Technology
Su. W. 1 cl., 2 2-hr. lab.
Prereq.: 471.
Experience in planning and conducting textile tests
and in evaluating resulting data; development, present
status, and importance of textile testing. Butler.

672 U G 5
History of Costume and Textiles
A. W. 5 cl.
Prereq.: 471.
A chronological study of costume and textiles from
ancient civilization to modern times, with consideration
of cultural forces that affected the development.
Millican.

673 U G 5
Clothing
Su. A. W. Sp. 2 cl., 6 hrs. lab.
Prereq.: 374.
Not open to students with credit for 574.
Evaluation and application of design and fashion
principles in relation to tailored garments; quality-
price relationship; optimum utilization of materials
and resources. Millican.

674 U G 5
Clothing: Advanced Design Analysis
Su. A. W. Sp. 2 cl., 3 2-hr. lab.
Prereq.: 374 or equiv.
Creative interpretation of dress design terminating in
finished garments developed through the media of
flat pattern and draping.

690 U G 4
Home Economics Workshop
Su. Full time for 3 wks.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Workshops in the following phases:

690.01 Foods
690.02 Nutrition
690.03 Textiles
690.04 Clothing
690.05 Home Furnishings and Housing
690.06 Household Equipment
690.07 Home Management and Family Economics
690.08 Food Service
690.09 Home Economics Education
690.10 Family and Child Development
690.11 Home Economics Extension

GENERAL PREREQUISITES FOR COURSES
NUMBERED 700
Unless otherwise indicated, the prerequisites for
700-level courses are 15 cr. hrs. in courses in the same
discipline numbered 400 or higher, plus additional
specified courses numbered 600 or higher.

711 U G 3
Nutrition: History
W. 3 cl.
Prereq.: 610 and permission of instructor.
Persons, discoveries, and methods in the evolution of
nutrition as a science and a factor in the control of
human welfare. Vivian.
744 U G 3
Evaluation in Home Economics
Sp. 3 cl.
Not open to students with credit for 844.
Procedure for appraising student progress in the attainment of objectives, construction of evaluation instruments, analysis, and interpretation of data from evaluation programs.

793 U G 2, 3, or 5
Individual Studies
Su, A, W, Sp. One or more confs.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
793.01 Food
793.02 Nutrition and Dietetics
793.03 Textiles
793.04 Clothing
793.05 Home Furnishings and Housing
793.06 Household Equipment
793.07 Home Management and Family Economics
793.08 Food Service
793.09 Home Economics Education
793.10 Family and Child Development
793.11 Home Economics Extension

794 U G 2, 3 or 5
Group Studies
Su, A, W, Sp. 3 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
794.01 Food
794.02 Nutrition
794.03 Textiles
794.04 Clothing
794.05 Home Furnishings and Housing
794.06 Household Equipment
794.07 Home Management and Family Economics
794.08 Food Service
794.09 Home Economics Education
794.10 Family and Child Development
794.11 Home Economics Extension

797 U G 2-4
Interdepartmental Seminar
Repeatable to a maximum of 6 cr. hrs.
(See under Interdepartmental Seminars.)
  a. Interdisciplinary approach to mental retardation.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

802 G 3 or 5
Seminar in Foods and Nutrition
Prereq.: 610 or 615 and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
  a. Research Methods in Food and Nutrition—Su.
  b. Energy Metabolism—Su.
    Hubbard and Vivian.

810 G 3
Research Methods in Nutrition
A. 3 cl.
Organization, methods, analysis of data and reporting projects in nutrition research. Vivian.

813† G 3
Introductory Food Research
Su, Sp. 1 cl., 2 3-hr. lab.
Prereq.: 615 and Biochem. 511 or equiv.
Individual investigations in food preparation, processing in the home and food storage carried out in laboratory, analyzed and reported.

816† G 3
Recent Developments in Food and Nutrition Research
Sp. 3 cl.
Prereq.: Biochem. 511 or equiv.
Brief survey of recent research.

822 G 3 or 5
Seminar in Management, Housing, and Equipment
Sp. 3 cl.
Prereq.: 90 cr. hrs. in Home Ec., including 622 or 623 or 825 or 826 depending on emphasis of topic, and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
  a. Home furnishings and Housing.
  b. Home Management.
  c. Household Equipment.
  d. Consumer and Market.
    Deacon.

825 G 3
Home Management: Activity Analysis
Sp. 2 cl.
Prereq.: 10 cr. hrs. in home management and household equipment or equiv.
Advanced study in application of work principles to design of appliances, work space areas, and methods of work in the home. Firebaugh.

826 G 3
Family Economic Resources and Functions
W. 3 cl.
Prereq.: 326 or equiv.
Principles, major problems, and trends in the economics of the family. Deacon.

827 G 3
Home Management: Development and Theory
A. 3 cl.
Prereq.: 327.
Historical development and present trends in home management with emphasis on theory and practices. Deacon.

830 G 3 or 5
Trends in Food Service Management
W. 3 cl.
Prereq.: 20 cr. hrs. in quantity food production, organization and management, experience in food service management or administrative dietetics.
Interpretation of principles and current research in relation to management of food service organizations at the policy-making level. Hubbard.
Seminar in Food Service Management
Su. 1-2 cl.
Prereq.: Graduate standing in Home Ed and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Topics to be announced.
Hubbard.

Research Methods in Home Economics
Su, A. 3 cl.
Prereq.: Master’s degree in home ec.
Nature of research in various areas of the field; criteria for setting up a research problem; techniques for collecting and analyzing data. Dalrymple.

Home Economics in American Education
A. 3 cl.
Prereq.: 441 or equiv. and permission of instructor.
An overview of home economics at the elementary, secondary, higher education and adult levels; general trends in enrollment, curriculum and guidance, supervision, administration and research.

Home Economics in Higher Education
W. 3 cl.
Prereq.: 841 or equiv.
Present status and function of home economics at the college level; problems in curriculum development; criteria for effective teaching, guidance, and testing procedures.

Seminar in Home Economics Education
W. 1-2 cl.
Prereq.: Grad. standing in Home Ec. and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
   b. Administration in Home Economics. Sp.*

Supervision of Home Economics Teaching
Su, A. 3 cl.
Prereq.: 846.
For experienced teachers of home economics who are interested in supervising student teachers or in working with home economics teachers in service.

The Teaching of Home Economics
Sp. 3 cl.
Prereq.: 841 or equiv. and permission of instructor.
Home economics in integrated, core, experimental, and other special types of programs.

The Family: The Early Years
Su, A. 2 1/2-hr. cl.
Prereq.: 25 cr. hrs. in social. and psychol., or equiv.
Relationships and adjustments in family living with emphasis on the early and expanding stages of the family life cycle. Taylor.

The Family: Middle and Later Years
Su, Sp. 3 cl.
Prereq.: 860.
The interrelationship and adjustment of families with emphasis on the middle and later years of the life cycle. Taylor.

Seminar in Family and Child Development
Prereq.: Grad. standing in Home Ec. and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
   a. Parent-Child Relationships. W.*
   b. Learning, Theory and Its Relationship to Nursery Education. Sp.

Clothing: Fashion
Su, Sp. 3 cl plus independent study.
Prereq.: 672 and 25 cr. hrs. in courses in Social., Psychol., Econ., or Bus. Admin.
Fashion as a social and economic force—its influence on production, distribution, and consumption of textiles and clothing. Dickey.

Seminar in Textiles and Clothing
Prereq.: 672 and 670 or 671, or 842 and Ec. 845, depending on emphasis of topic and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
   a. Economics of Textiles. W.
   b. Social-Psychological Aspect of Clothing. Su.
   Dickey, Lapitsky, and Meacham.

Interdepartmental Seminar in Nutrition and Food Technology
Sp.
(See under Interdepartmental Seminars.)

Interdepartmental Seminar
(See under Interdepartmental Seminars.)

Administration in Home Economics
Sp. 3 cl.
Prereq.: M.S. degree in Home Ec.
Principles, trends, problems, and evaluative criteria related to home economics units in higher education administrative structure; functions, responsibilities, qualifications of home economics administrative personnel. Dalrymple.

Program Analysis and Design in Home Economics
Su. 3 cl.
Prereq.: 846 or permission of instructor.
Theoretical approach to program development; innovation and experimentation in program design in home economics at different levels; analysis and restructuring of existing programs; climate and strategies for change. Dirks.

993 G 2, 3 or 5
Individual Studies
Su, A, W, Sp. 1 or more crs.
Repeattble to a maximum of 15 cr. hrs.
Prereq.: Permission of instructor.
Problems in various phases of home economics chosen for individual study.
993.01 Food
993.02 Nutrition and Dietetics
993.03 Textiles
993.04 Clothing
993.05 Home Furnishings and Housing
993.06 Household Equipment
993.07 Home Management and Family Economics
993.08 Food Service
993.09 Home Economics Education
993.10 Family and Child Development

998 G Arr.
Research: Thesis
Research for master's thesis.

999 G Arr.
Research: Dissertation
Research for thesis or dissertation purposes only.

Horticulture
Office: 152 Howlett Hall, 2001 Fyffe Court
Professors Rollins (Chairman), Alban, Beettle, Cahoon, Caldwell, Gallander, Geisman, Gould, Hartman, Hill (Associate Chairman, Wooster), Kawase, Kiplinger, Kretchman, Reisch, Tsayama, and Wittmeyer; Associate Professors Berry, Brooks, George, Kozel, and Peng; Assistant Professors Crean, D. Ferree, M. Ferree, Fretz, McDowell, Mosley, Smith, Staby, Sydnor, and Utzinger.

111 U 3
Introduction to Landscape Horticulture
A. Sp. 2 cr., 1-hr. lab.
Value of landscape horticulture to the individual and community including culture, identification, and use of plants in planting design. Kozel.

GENERAL PREREQUISITES FOR COURSES NUMBERED 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.

Plant Science in Agriculture
(See Agron. 200)
(Offered in cooperation with the Dept. of Hort.)

202 U 3
Fruits and Vegetables for Man
A. 3 1-hr. cl.
Introductory course emphasizing application and appreciation of fruits and vegetables, including origins, pruning and training, and growing practices with commercial systems contrasted with backyard gardening. George.

203 U 3
Horticultural Morphology
A, Sp. 3 cr.
A study of horticultural plant materials emphasizing the interpretation of gross plant structures and their development in relation to cultural practices and the environment. Hartman.

231 U 3
Landscape Plants I
A. 2 1-hr. cl., 1 2-hr. lab.
Prereq.: Bot. 102.
Not open to Landscape Horticulture majors.
A laboratory, field, and discussion course studying trees, shrubs, vines, and ground covers used in landscape plantings.

232 U 3
Landscape Maintenance
W. 3 1-hr. cl.
Prereq.: 231.
Not open to Landscape Horticulture majors.
Management of landscape plantings with special emphasis on transplanting, mulching, nutrition, pest control, pruning, physiological disorders, and diagnosing plant problems.

233 U 3
Landscape Plants II
Sp. 2 1-hr. cl., 1 2-hr. lab.
Prereq.: 232.
Not open to Landscape Horticulture majors.
Landscape characteristics and qualities of selected woody plants, their use, seasonal interest, and environmental suitability.

241 U 3
Food Preservation
Sp. 3 cr.
Introduction to the food processing industry; principles involved in the modern methods of assembling, processing, and distribution of food. Gutic.

293 U 2, 3, or 5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.

Individual studies in areas of fruit, vegetable, and florist crops; landscape horticulture; and processing and technology.

294 U 2, 3, or 5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Special group studies in areas of fruit, vegetable, and florist crops; landscape horticulture; processing and technology.

H299 U 5
Plants and Man
W. 4 cr., assigned reading 1 hr.
Prereq.: 5 cr. hrs., Biological Sciences and membership in a College Honors Program or eligibility for membership in a College Honors Program.
Not open to students with credit for Agron. 200.
The influence and interaction of limiting factors on plant growth with emphasis on principles utilized by man to increase productivity and value of plant products. Geilsman and Herr.

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in college courses, exclusive of ROTC and Phys. Ed.; or specified courses numbered 100-399.

431 U 5
Landscape Horticulture I—Herbaceous Plants
Sp. 3 cr., 2 2-hr. lab.
Prereq.: 203 and Bot. 102.
The identification, culture and landscape use of bulbs, annuals, herbaceous perennials, and garden roses; identification of lawn grasses and turf management are also covered. Mc Dowell.

432 U 5
Landscape Horticulture II—Woody Deciduous Plants
A, Sp. 3 cr., 2 2-hr. lab.
Prereq.: 203 and Bot. 102.
A detailed study of deciduous trees, shrubs and vines, their identification, growth habits, culture, adaptation to environmental conditions, uses, combinations, and management in landscape plantings. Kozel.

433 U 5
Landscape Horticulture III—Woody Evergreen Plants
A, W. 3 cr., 2 2-hr. labs.
Prereq.: 432.
Detailed study of narrow and broadleaf evergreens, their identification, growth habits, culture, uses, and management in landscape plantings; winter characteristics of deciduous plants reviewed. Kozel.

434 U 5
Landscape Horticulture IV—Woody Plants
Sp. 3 cr., 2 2-hr. labs.
Prereq.: 432 and 433.
Woody plant use for specific landscape function and unusual environment situations; aesthetic features of plants are studied in detail with emphasis on selected major genera. Kozel.

441 U 5
Processing of Fruit and Vegetable Products
W. 3 cr., 2 2-hr. labs.
Prereq.: Chem. 102 or 122.

442 U 5
Quality Attributes of Fruits, Vegetables, and Related Foods
Sp. 3 cr., 2 2-hr. labs.
Prereq.: Chem. 102 or 122.
Identifying, evaluating, and controlling quality attributes of fresh and processed fruits, vegetables, and related products as to consumer acceptance, nutrition, and use. Gould.

450 U 5
Principles of Vegetable Crop Production
W. 4 cr., 2-hr. lab.
Prereq.: 203.
The production and utilization of vegetable crops, including potatoes, with emphasis on environmental factors which influence growth and handling of these crops. Alban.

461 U 5
Principles of Tree Fruit Production
A, Sp. 4 cr. 2-hr. lab.
Prereq.: 203 or equiv.
A study of the fundamental principles of stone and pome fruit production with emphasis on recognition and solution of problems according to modern scientific concepts. Hartman.

462 U 5
Principles of Small Fruit Production
W. 4 cr. 2-hr. lab.
Prereq.: 203.
A study of small fruit production with emphasis on the recent biological advances from which this technology has evolved. Hartman.

489 U 2
Horticultural Industries Experience
Prereq.: Major standing in Hort.
Repeatable to a maximum of 4 cr. hrs.
Required for two qtrs. for students majoring in Land. Hort. under Agr. Ind. degree program.
Ten weeks of planned and supervised practical experience in an approved horticultural enterprise, including completion of a special problem with a written report.

GENERAL PREREQUISITES FOR COURSES NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 10 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

515 U 5
Plant Propagation
Sp. 4 cr., 1 2-hr. lab.
Prereq.: 203, 431, 432, and Bot. 102.
Not open to students with credit for 415.
Study of the principles and commercial practices involved in the sexual and asexual propagation of horticultural plants; facilities, equipment, and pathogen-free stock are considered. Mcdowell.
Individual Studies
Su, A. W., Sp.
Prereq.: Senior standing in Hort.
Special studies in the fields of fruit crops, vegetable crops, florist crops, landscape horticulture, and processing and technology of fruits, vegetables, and related crops.

Group Studies
Su, A. W., Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Special group studies in the fields of fruit, vegetable and florist crops; landscape horticulture; and processing and technology.

Honors Course
A. W., Sp.
Prereq.: Honors Program.
Special studies in the fields of fruit crops, vegetable crops, florist crops, landscape horticulture, and processing and technology of fruits, vegetables, and related products.

GENERAL PREREQUISITES FOR COURSES NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

Horticultural Plant Breeding
W. 2 cl., 1 2-hr. lab.
Prereq.: 450, 461, or 621, and Biol. 100.
Plant breeding methods and genetic principles applied to horticultural plant improvement, including fundamentals of seed production, variety evaluation, certification, and maintenance. George.

The Post-Harvest Physiology of Horticultural Crops
A. 3 lec., 2-hr. lab., 1-hr. assigned reading.
Prereq.: Bot. 431.
The basic principles of post-harvest physiology, handling, and storage, of fruits, vegetables, ornamentals, and flowers are stressed along with operation techniques of modern storages. Kretchman.

Weed Control in Horticultural Crops
Sp. 3 cl.
Prereq.: 15 cr. hr. Hort. and 10 cr. hrs. Bot.
A study of environmental and cultural factors which influence weed development in horticultural crops and a review of the principles of chemical and mechanical weed control. Alban.

Tropical and Subtropical Fruit and Vegetable Production
A. 4 cl., 2-hr. lab.
Prereq.: Senior or graduate standing, minimum of 20 cr. hrs. Biological Sciences, and Agron. 543.
A study of important tropical and subtropical fruits and vegetables, with emphasis on latest technological advances to achieve optimum quantitative and qualitative yields. Hartman and Alban.

Greenhouse Environment Control
A. 4 cl., 1 3-hr. lab.
Prereq.: 515; Prereq. or concur. Bot. 430.
Not open to students with credit for 422.
Principles and practices of greenhouse and growth chamber operation including construction, heating, cooling, light, photoperiodism, temperature, humidity, ventilation, moisture, soils, nutrition, and pests. Kiplinger.

Commercial Floriculture I—Potted Plants
W. 4 cl., 1 3-hr. lab.
Prereq.: 621 and Bot. 430; prereq. or concur. Bot. 431.
Physiological principles and environmental factors in production of azaleas, begonias, bulbs, chrysanthemums, cyclamen, geraniums, hydrangeas, poinsettias, roses, saintpaulias, and other potted flowering and foliage plants. Kiplinger.

Commercial Floriculture II—Cut Flowers
Sp. 4 cl., 1 3-hr. lab.
Prereq.: 621 and Bot. 430; prereq. or concur. Bot. 431.
Physiological principles and environmental factors in production of asters, carnations, chrysanthemums, orchids, roses, snapdragons and other cut flower crops; analysis of production costs of crops. Kiplinger.

Commercial Floriculture III—Design and Marketing
Sp. 3 cl., 2 2-hr. labs.
Prereq.: 621 and Econ. 201.
Fundamentals of commercial floral design, flower shop management; principles and practices in handling, packaging, and selling florists' crops and supplies through wholesale and retail outlets. Kiplinger.

Unit Operations in Processing Fruits, Vegetables, and Related Foods I
Su. 3 cl., 2 3-hr. labs.
Prereq.: 441.
Unit processes of handling, grading, cleaning, sorting, peeling, pumping, change in form, and filling as related to commercial processing of fruits, vegetables, and related products. Gould.

Unit Operations in Processing Fruits, Vegetables, and Related Foods II
A. 3 cl., 2 2-hr. labs.
Prereq.: 441.
Unit processes of extracting, filtering, and emulsifying, carbonating, gassing, enrobing, compounding, forming, and fortifying as related to food manufacture. Crean.

Unit Operation in Processing Fruits, Vegetables, and Related Foods III
Sp. 3 cl., 2 2-hr. lab.
Prereq.: 441.
Unit processes of milling, grinding, toasting, extruding, frying, and formulating as related to the commercial processing of potatoes, cereal strains, and related foods. Peng.

644 U G 5
Analysis of Fruits, Vegetables and Related Products
Sp. 2 1-ht. cl., 2 2-ht. lab.
Prereq.: 442 and Chem. 102.
Fundamental principles and techniques of chemical analysis of fruits, vegetables, and products derived from them. Cream.

650 U G 5
Greenhouse Vegetable Crops
A. 3 cl., 1 lab. hrs.
Prereq.: 621.
A study of the origin and development of the vegetable forcing industry and present-day cultural practices with reference to the more important greenhouse vegetable crops. Alban.

652 U G 5
Advanced Vegetable Crops
Sp. 4 cl., 1 2-ht. lab.
Prereq.: 450.
The culture of the principal vegetable crops, including history, plant characteristics, physiology, propagation, climatic and edaphic adaptations, and specialized production technology.

680 U G 2
Colloquia
Prereq.: Senior standing.
Topic to be announced.

694 U G 2, 3 or 5
Group Studies
Prereq.: Senior or grad. standing.
Special group studies in the fields of fruit crops, vegetable crops, florist crops, landscape horticulture, and processing technology.

699 U G 2
Junior Seminar
Review and interpretation of research literature.

GENERAL PREREQUISITES FOR COURSES NUMBERED 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr. hrs. in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

733 U G 5
Management of Nursery and Garden Store Operations
Sp. 4 cl., 3-ht. lab.
Prereq.: 433, 621, and Agron. 240.
Detailed consideration of factors involved in site selection and operation of commercial nurseries and garden centers; production and marketing of ornamental plants and related products.

734 U G 5
Physiology of Ornamental Plants
W. 4 cl., 3-ht. lab.
Prereq.: 733 and Bot. 431 or permission of instructor.
Influence and interaction of endogenous and exogenous factors on growth and development of ornamental plants. Kozel.

741 U G 5
Food Regulations and Product Examination
W. 3 cl., 2 2-ht. labs.
Prereq.: 241 and 442.
Food laws, regulations, grade standards, and the technical control of processed foods; interpretation of laboratory analysis for control of product quality. Gould.

784 U G 2
Group Studies in the Processing of Fruits, Vegetables, and Related Food Products
Prereq.: 641, 642, and 741.
Repeatable by undergraduates to a maximum of 8 cr. hrs.
 b. Processing Methodology. A. Peng.
 c. Packaging Materials and Methodology. W. Geisman.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

801 G 2 or 3
Advanced Studies in Horticultural Science
Prereq.: Permission of instructor.
 b. Morphological and anatomical studies of vegetative plant parts as influenced by environment. W. Hartman.
 c. Post-harvest physiology of horticultural crops and plants. A. Kretchnman.
 d. Advanced vegetable physiology. A. Alban.
 f. Fruit and vegetable processing and specialty products. A. Gould.
 h. Physiological studies in floriculture crops. A. Kiplinger.
Hospital Administration

(School of Allied Medical Professions)
Office: 543 School of Allied Medical Professions
Building, 1583 Perry Street

Assistant Professors Johnson (Division Director) and
Loeb (Associate Director); Professors Keller and
Mealing; Clinical Associate Professor Lentz; Assistant
Professors Caswell and Westra; Clinical Assistant
Professor Hughes; Instructors Butts, Howe, Lash,
Rosenberg, and Sims; Clinical Instructors Andrews,
Ayers, Carson, Channing, Farrington, Gemma, Housley,
Kline, Kreshock, Mansfield, Newkirk, Pierson, Saathoff,
and Turner.

800 G 3
Medical Care Organization I
A. 3 cl.
Prereq.: Permission of instructor.
Analysis of arrangements for the organization,
financing, and delivery of medical care services.
Loeb.

801 G 3
Medical Care Organization II
W. 3 cl.
Prereq.: 800.
Issues and problems in medical care organization,
with special emphasis on the social, economic, and
political environment of the health care delivery
system. Loeb.

802 G 3
Economic Analysis of Health Services
W. 3 cl.
Prereq.: Permission of instructor.
Not open to students with credit for 828.
Applications of economic analysis to health services,
with emphasis on the microeconomic behavior of
decision units in the health sector. Caswell.

810 G 3
Hospital Organization and Management
3 cl.
Not open to students with credit for 829.
Application of organizational theory to health
institutions; examination and analysis of the hospital
organization in its various forms; consideration of
management problems involving departmentalization.
Price.

810.01 The Hospital Management Process
A.
Prereq.: Permission of instructor.
Johnson.

810.02 Analysis and Control
W.
Prereq.: 810.01.
Johnson.

811 G 3
Legal Environment of Health Care
W. 3 cl.
Prereq.: Permission of instructor.
Legal environment of health care, including hospital-patient-doctor relationships; labor law and collective bargaining; constitutional law and administrative regulations pertaining to prepaid and planning. Hughes.

812 G 3
Field Study in Health Services Management
Sp.
Prereq.: 6 cr. hrs. in Hosp. Admin. and permission of instructor.
Methods of management decision making, with externship in a local hospital or health agency for intensive study of a management problem. Johnson and Staff.

820 G 3
Hospital Financial Management
W. 3 cr.
Prereq.: Acc. 711 or equiv. and permission of instructor. Not open to students with credit for 827. Specialized techniques and problems of financial management in the health service enterprise. Loeb.

821 G 3
Systems Analysis of Health Services
A. 3 cr.
Prereq.: 800 or permission of instructor. Applications of systems techniques to health services; forecasting, quality measurement and control, methods improvement, and decision making under conditions of uncertainty.

831 G 3
Planning for Health Services
W. 3 cr.
Prereq.: Permission of instructor. Not open to students with credit for 826. Analysis of hospital planning environment; interrelationships of government, consumers, and providers; public policy issues and legal implications; development of hospital services plan. Caswell.

832 G 3
Planning for Health Facilities
Sp. 3 cr.
Prereq.: 831 or permission of instructor. Review of trends in planning, design, construction, and financing of hospitals and other health facilities. Lash.

850 G 3
Seminar in Hospital Policy and Decision Making
W, Sp. 3 cr.
Prereq.: 18 cr. hrs. in Hosp. Admin. or permission of director. Not open to students with credit for 840. Repeatable to a maximum of 6 cr. hrs. Policy process and methods of decision making; assignment and solution of managerial problems; case studies, with emphasis on strategy and implementation. Johnson.

---

Humanities

280 U 5
City and Country in America, 1620-1830
A. 5 cr.
Prereq.: Permission of Dean.
Study of the interrelationships of European ideas and American environment and the development of city-country tensions in the colonial and early national periods.

281 U 5
City and Country in America, 1830-1920
W. 5 cr.
Prereq.: Permission of Dean.
Study of the transformation of American life associated with industrialization and urbanization and the resulting distinction of city and country life.

282 U 5
City and Country in America, 1920-1970
Sp. 5 cr.
Prereq.: Permission of Dean.
Study of the effects of national urbanization on life styles and values in contemporary American culture.

284 U 1-6
Group Studies
Prereq.: Permission of Dean. Repeatable to a maximum of 18 cr. hrs. Interdisciplinary course under the direct auspices of the College of Humanities involving materials of an interdepartmental or intercollegiate type.

684 U G 1-6
Group Studies
Prereq.: Permission of Dean. Repeatable to a maximum of 18 cr. hrs. Interdisciplinary course under the direct auspices of the College of Humanities involving materials of an interdepartmental or intercollegiate type.

---

Industrial and Systems Engineering

Professors: Morris (Chairman), Bishop, Gifford, Lehoczky (Emeritus), Moore, Pepper, and Rockwell; Associate Professors: Bond, Clark, Kibbey, Neuhardt, and Smith; Assistant Professors: Miller, Swain, Wendell, and Wilhelm; Instructor Tait.

201 U 3
Foundry Practice
A. Sp. 2 cr., 4 lab. hrs.
Prereq.: Ed. 2nd yr. standing or permission of chairman. Not open to students in College of Engineering. (Safety glasses must be worn in laboratory.)
Lecture and laboratory coverage of casting technology; bench and machine molding, core making, pouring, cleaning, and surface finishing of castings.

202 U 5 Machine Shop Practice
A, Sp. 10 cl. and lab. hrs.
Prereq.: Engr. Cr. 100 or equiv., Ed. 2nd yr. standing or permission of chairman.
Not open to students in College of Engineering.
(Safety glasses must be worn in laboratory.)
Laboratory practice on basic machine tools; course objective is to develop skills and knowledge that are essential for the industrial arts teacher at the secondary level.

234 U 1-5 Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Students are given an opportunity to pursue special studies not otherwise offered.

300 U 4 Industrial and Systems Engineering I
A, Sp. 4 cl.
Prereq.: Statist. 425; prereq. or concur. Statist. 426.
The application of fundamental methods in industrial and systems engineering with emphasis on management systems and operations research.

301 U 4 Manufacturing Engineering I
A, W, Sp. 2 cl., 6 lab. hrs.
Prereq.: Engr. 3rd qtr., 2nd yr. standing and permission of chairman; Division of Design, permission of chairman.
(Safety glasses must be worn in laboratory.)
Fundamentals and interrelationships of the principal manufacturing processes; laboratory work in the areas of foundry, machine tools, heat treating, and welding.

302 U 4 Manufacturing Engineering II
W, Sp. 3 cl., 4 lab. hrs.
Prereq.: 301 and permission of chairman.
Aspects of manufacturing engineering; emphasis on economics of process choice, production planning, estimating, inspection, and scheduling in metal fabrication and assembly.

303 U 4 Industrial and Systems Engineering II
A, Sp. 4 cl.
Prereq.: Statist. 425; prereq. or concur. Statist. 426.
The application of fundamental methods in industrial and systems methods in industrial and systems engineering with emphasis on manufacturing and man-machine systems.

369 U 2 Junior Inspection Trip
Sp. 1 wk. at end of W. qtr.
Prereq.: Major standing in Indus. E.
A group visit to various industrial plants; students must register for the course and pay the laboratory fee at the beginning of the Spring Quarter.

406 U 4 Industrial Quality Control
A, W. 4 cl.
Prereq.: 300 and Statist. 426.
The application of probability theory, statistics, and control theory to problems in product inspection and process control; economic evaluation of quality control techniques. Neuartt.

485 U 4 Practical Experience in an Industrial Organization
A, 10 wks. during Su. between 3rd and 4th yrs.
To be obtained in some engineering or industrial organization; the student shall present a satisfactory report upon the work done.

501 U G 4 Man-Machine Systems I
A, W. cl., 1 2-hr. lab.
Prereq.: 406.
Analysis and measurement of man-machine systems.

502 U G 4 Man-Machine Systems II
W, Sp. 3 cl., 1 2-hr. lab.
Prereq.: 501.
Principles of experimental evaluation and prediction of production systems.

503 U G 4 Man-Machine Systems Design
A, Sp. 3 cl., 1 2-hr. lab.
Prereq.: 502.
Workplace, control and display design; integrating models of man in man-machine systems through design problems.

504 U G 4 Engineering Economic Analysis
W, Sp. 4 cl.
Prereq.: Acc. 212 and Statist. 426.
Economic analysis of engineering projects and methods of operation; introduction to the analysis of engineering decisions.

505 U G 4 Production Engineering
A, 2 cl., 6 lab. hrs.
Prereq.: 302.
Fundamentals of production tooling and correlating with design and specifications of the product. Kibbey.

506 U 5 Design of Production Systems
A, Sp. 3 cl., 2 2-hr. lab.
Prereq.: 501; concur. 502.
Integration of the methods and analytical techniques of industrial engineering into the design of a complete production system.

1 Prescription lenses may be ordered through the Optometry Clinic, Optometry Building, or through any registered optometrist.
507 U G 4
Production Programming
W.  4 cl.
Prereq.: Math. 571.
Not open to students with credit for 602.
Mathematical formulation and solution of problems of
scheduling, inventory control, logistics, etc.; course
covers various linear models. Bishop.

531 U 3
Tool Engineering
A.  2 cl., 4 lab. hrs.
Prereq.: 301.
The design of tools, jigs, and fixtures; the basic
elements of fixture design, such as form, locating
points, clamping devices, and the use of standardized
parts.

532 U 3
Motion and Time Study
W.  2 cl., 1 2-hr. lab.
Prereq.: Bus. Adm. 300 and 630, and Econ. 442.
Not open to students in College of Engineering.
The objectives, scope, and techniques of time study
and methods analysis are considered from the
standpoint of the factory and office supervisor.

534 U G 4
Principles of Industrial Engineering
A, W, Sp.  4 cl.
Prereq.: 3rd yr. standing in Engr.
A survey of the industrial engineering phase of
manufacturing with emphasis on principles and
problem solving methods.

649 U G 5
Quantitative Design Methods
in Systems Engineering I
A, W.  5 cl.
Prereq.: 300.
Model formulation and solution methods for systems
design problems based on concepts from linear
algebra, vector spaces, and differential equations.

650 U G 3
Quantitative Design Methods
in Systems Engineering II
W, Sp.  3 cl.
Prereq.: Statist. 426 or equiv.
Use of mathematical techniques; including finite
calculus, Fourier analysis, and assorted transforms in
the analysis of industrial engineering systems. Giffin.

651 U G 4
Optimization for Industrial
and Systems Engineers
A, Sp.  4 cl.
Prereq.: 507.
Not open to students with credit for 750.06.
Techniques for formulation and solution of single-stage
and sequential constrained optimization problems,
including substitution, Lagrange multipliers,
Kuhn-Tucker theory, quadratic forms, global extrema,
and dynamic programming. Bishop.

652 U G 3
Analysis of Inventory Systems
A, Sp.  3 cl.
Prereq.: Statist. 626 or equiv.
Mathematical analysis applied to single stage
inventory systems using both deterministic and
proportional models. Giffin.

653 U G 3
Engineering Data Analysis
W.  3 cl.
Prereq.: 406.
Graphical and other special techniques for estimating
parameters and testing goodness of fit of non-normal
distributions to engineering data. Bond.

654 U G 4
System Simulation with Discrete-State Models
A.  3 cl., 2 lab. hrs.
Prereq.: Statist. 426, Engr. Gr. 200, or Comp. and
Info. Sci. 240 or 261; or permission of instructor.
Analysis of system design problems via discrete-state
computer simulation models; generation of random
variables; design and programming of simulation
models; simulation experimental procedures. Clark.

655 U G 3
System Reliability and Availability
Sp.  3 cl.
Prereq.: Statist. 426 or permission of instructor.
The prediction of system reliability and availability is
studied; introduction of methods for analyzing system
design conpects from the viewpoints of reliability and
availability. Clark.

653 U G 1-6
Individual Studies in Industrial Engineering
Su, A, W.  5p.
Prereq.: 4th yr. standing and permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
This course is intended to give the advanced student
an opportunity to pursue special studies not offered
in fixed curricula.

694 U G 1-6
Group Studies in Industrial Engineering
Su, A, W.  5p.
Prereq.: 4th yr. standing and permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Advanced topics in the various phases of industrial
engineering.

710 U G 3
Optimization in Operations Research
A.  3 cl.
Prereq.: 750.06 or permission of instructor.
Creation and application of nonlinear programming
models. Wendell.

750 U G 3-18
Advanced Studies in Industrial Engineering
A, W.  5.
Prereq.: 4th yr. standing and permission of instructor.
Repeatable to a maximum of 24 cr. hrs.; subdivisions
not repeatable.
The student must register for specific classes in areas as indicated below, and may register for more than one at a time.

750.01 Job Evaluation and Systems Performance Measurement
750.02 Organized Labor and Industrial Methodology
750.03 Industrial Applications for Statistics
750.04 Discrete-System Analysis and Control
750.05 Decision Theory
750.06 System Programming and Optimization
750.07 Contemporary Problems in Plant Layout and Design
750.08 Simulation of Complex Systems with Continuous-State Models
750.09 Forecasting and Estimating
750.10 Human Factors in System Design
750.11 Organization of Industrial Engineering Functions
750.12 Production Engineering
750.13 Environmental Stress Problems

796 U G 1-5
Interdepartmental Seminar on Urban Transportation
(See under interdepartmental Seminars)

811 G 3-12
Methods Engineering
Prereq.: 501 and 502.
Advanced work in one or more special phases of time study, motion study, job evaluation, wage analysis and payment systems, and speed and effort rating; the viewpoint of unions, and problems arising from labor-management relationships.

812 G 3
Advanced Systems Design
Su.
Prereq.: 650 and 652, or permission of instructor.
Advanced work in the analysis and design of production and logistic systems. Giffin.

813 G 3
Advanced Queuing Theory
A. 3 cl.
Prereq.: 650 and 643.
Mathematical analysis and design of waiting line systems emphasizing transient solutions, general arrival and service distributions, and priority queues and networks of queues. Giffin.

814 G 3
Stochastic Processes Used in Systems Engineering
A. 3 cl.
Prereq.: 650 or equiv. and Statist. 520.

815 G 3
Estimation of System Parameters from Time Series Data
W. 3 cl.
Prereq.: Statist. 521 or permission of instructor.
Estimation of parameter values for stochastic process models used in systems engineering, analysis of trends and spectral analysis of times series data, computer methods. Clark.

821 G 3-12
Problems in Production Engineering
Prereq.: 505.
Advanced work in one or more phases of production engineering involving problems in production design, equipment planning, tool design, and quantity and quality control. Kibbey.

828 G 3-12
Advanced Studies in Plant Design and Materials Handling
Prereq.: 506.
Advanced work in one or more special phases of plant design and materials handling.

830 G 3
Mathematical Programming: Linear
A. 3 cl.
Prereq.: 571 or equiv. or permission of instructor.
Convex and concave problems, global solutions, extreme point solutions, degeneracy, the Simplex methods, duality, complementary slackness, sensitivity analysis, parametric programming, and applications.

831 G 3
Mathematical Programming: Nonlinear
W. 3 cl.
Prereq.: 830, or Math. 571 and permission of instructor.
Convex sets, convex functions, saddle point optimality criteria, the Fritz John and Kuhn-Tucker conditions, sensitivity and parametric results, applications, and an introduction to algorithms.

832 G 3
Mathematical Programming: Advanced Nonlinear
Sp. 3 cl.
Prereq.: 831.
Wolfe/Falk duality, conjugate/geometric duality, applications of quality (e.g., geometric programming, quadratic programming, location problems, decomposition).

835 G 3
Product Development Experimentation I
A. 3 cl.
Prereq.: 942 and Statist. 641 or Statist. 645 or equiv.
Application of linear statistical models to industrial engineering experimentation with emphasis on resource constrained investigations. Neuhardt.
836  G 3
Product Development Experimentation II
Sp.  3 cl.
Prereq.: 935.
Continuation of 835; emphasis of heavily constrained experimentation in production engineering and quality control problems. Neuhartd.

842  G 3
Operations Research I
A, W.  3 cl.
Prereq.: Calculus, probability theory and statistical methods, and permission of instructor.
Introduction to the nature and problems of operations research and the study of actual case histories in the field.

843  G 3
Operations Research II
W, Sp.  3 cl.
Prereq.: 842.
The position of the model in operations research and the study of the important techniques and formal approaches to research problems.

844  G 3
Operations Research III
Sp.  3 cl.
Prereq.: 843.
Consideration of topics in operations research including research methodology in the various sciences, and the conduct of actual operations research investigations.

845  G 3
Design of Decision Networks
Sp.  3 cl.
Prereq.: 750.05.
Design of networks involving multiple, interacting decision makers including problems of complementarity, coordination, learning, and decenterlization. Morris.

851  G 3-12
Personnel Research in Engineering Industries
Prereq.: 750.01 and 750.11.
Advanced work in one of the several phases of personnel management in engineering industries.

861  G 3-12
Research in Decision Processes
Prereq.: 504 and 507.
Advanced work in decision theory and processes including criterion research, decision making under uncertainty and in conflict situations, and gaming techniques. Morris.

862  G 3
Decision Theory
W.
Prereq.: 750.05 or equiv.
Introduction to normative decision models and their applications. Morris.

863  G 3
Dynamic Programming
W.
Prereq.: 750.06 or equiv.
Theory, methodology, and application of dynamic programming. Bishop.

864  G 3
Optimization of Dynamic Systems
Sp.  3 cl.
Prereq.: 750.04 and 863 or equiv.
Study of theory and methodology for optimum control of dynamic systems (sequential decision systems); included are calculus of variations, Pontryagin Maximum Principle, and associated approaches. Bishop.

866  G 3-12
Programming and Control Research
Prereq.: 831 or 863.
Advanced work in the several phases of programming and control theory; consists primarily of application of mathematical methods to the formulation and solution of process programming and control problems. Bishop.

871  G 3-12
Man-Machine Systems Research
Prereq.: 750.10 and 750.13.
Advanced work in special research topics in man-machine systems. Rockwell and Smith.

875  G 3
Human Factors Engineering in Vehicular Control
Sp.
Prereq.: 750.10.
Characteristic and limitations of the human controller of air craft or surface vehicles, design and evaluation of control aids, and human adaptation to control dynamic changes. Rockwell.

881  G 2
Seminar in Industrial Engineering
Repeatable to a maximum of 6 cr. hrs.

999  G 1-5
Interdepartmental Seminar
(See under Interdepartmental Seminars.)

999  G Arr.
Research in Industrial Engineering
Research for thesis or dissertation purposes only.

Industrial Technology
(See Education: Industrial Technology)
Interdepartmental Seminars

796  U  G  1-5  
Interdepartmental Seminar in Urban Transportation  
Prereq.: Sr. standing or permission of instructor.  
Repeatable to a maximum of 6 cr. hrs.  
Lectures and discussions by faculty and guest speakers on topics related to urban transportation problems, issues, and new approaches to solutions. Term paper required. Given cooperatively by the Departments of Civil Engineering and Industrial and Systems Engineering, Clark, Godfrey, and Nemeth.

797  U  G P  1-5  
Interdepartmental Seminars  
Repeatable by permission.  
Two or more departments may collaborate in presenting seminars in subjects of mutual interest; topics to be announced.

880  G  2  
Interdepartmental Seminar in Developmental Biology  
A, W, Sp.  1 2-hr. cl.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 12 credit hours.  
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology, given cooperatively by the Departments of Botany, Biophysics, Genetics, Microbiology, and Zoology.

881  G  2  
Interdepartmental Seminar in Environmental Biology  
Su, A, W, Sp.  1 2-hr. cl.  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 24 cr. hrs.  
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities; given cooperatively by the Departments of Botany, Entomology, Microbiology, and Zoology.

885  G  1-5  
Interdepartmental Seminar in Radio Astronomy  
Techniques of radio-astronomy; present state of knowledge of the universe as determined by radio-astronomy; given cooperatively by the Departments of Astronomy and Electrical Engineering.

896  G  1-3  
Interdepartmental Seminar in Polar and Alpine Studies  
Sp.  1-3 hr. cl.  
Permission of instructor.  
Repeatable to a maximum of 9 cr. hrs.  
A seminar on selected topics involving anthropology, biology, climatology, exploration, geology, glaciology, microbiology, and soils; given cooperatively by the Institute of Polar Studies, Biological Sciences, and the following departments: Agronomy, Anthropology, Civil Engineering, and Geography.

897  G  1  
Interdepartmental Seminar in Natural Resources  
Repeatable to a maximum of 9 cr. hrs.  
A seminar in natural resources conservation; given cooperatively by the School of Natural Resources and the following departments: Agronomy, Agricultural Economics and Rural Sociology, Agricultural Engineering, Geography, Horticulture, and Plant Pathology.

898  G  1  
Interdepartmental Seminar in Nutrition and Food Technology  
Sp.  
A seminar in nutrition and in related fields of food technology; given cooperatively by the following departments: Animal Science, Dairy Science, Food Science and Nutrition, Horticulture, Physiological Chemistry, Plant Pathology, Poultry Science, and Preventive Medicine, and the School of Home Economics.

899  G  1-5  
Interdepartmental Seminars  
Repeatable by permission.  
Two or more departments may collaborate in presenting seminars on subjects of mutual interest; topics to be announced.

International Studies

Office: 210 Welding Engineering Laboratories, 190 West 19th Avenue  
Center for Undergraduate International Studies

Jan S. Adams (Director); Advisory Committee: A. E. Adams (Humanities), Burgess (Political Science), Chu (History), Hayon (Romance Languages), Kilpatrick (Social and Behavioral Sciences), McCoy (Political Science), Nemzer (Political Science), Smallwood (International Programs), and Tvarog (Slavic Languages).

230  U  5  
Introduction to the Soviet Union  
Su, A, W, Sp.  5 cl.  
A survey of the land, people, history, politics, social institutions, literature, and arts of the Soviet Union, conducted by members of several departments.  
Adams.

231  U  5  
Introduction to Eastern Europe Since World War II  
W.  5 cl.  
Survey of the land, people, history, politics, social institutions, literature, and the arts of Eastern Europe since World War II.  
Rogol.

235  U  5  
Introduction to China and Japan  
Sp.  5 cl.
Italian

Office: 248 Dieter Eucent Hall of Languages. 1841

Professors Griffin (Chairman), Keller, and Mancini;
Assistant Professors Alessia and Mattei.

101  U  5

Elementary Italian
Su, A, W, Sp.  5 cl.
Elements of Italian grammar with oral and written exercises; attention to ear training and oral practice; elementary reading based on Italian geography, history, and customs.

102  U  5

Elementary Italian
Su, A, W, Sp.  5 cl.
Prereq.: 101.
The elements of Italian grammar with abundant oral and written exercises; development of conversational skill; reading, vocabulary building, attention to Italian idioms; modern Italian prose.

103  U  5

Intermediate Italian
Su, A, W, Sp.  5 cl.
Prereq.: 102 or 110.
Review of Italian grammar; reading of short stories and plays; increased attention to development of oral and written proficiency.

104  U  5

Intermediate Italian
Prereq.: 103 or 112.
The following courses are not open to students with credit for 104, and only one of the decimal subdivisions may be taken for credit.

104.01 Basic Course
Su, A, W, Sp.  5 cl.
Required of Italian majors and recommended for students who intend to continue in Italian.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Intensive practice in oral and written Italian; reading of Italian short stories; grammar and idiom review; course conducted in Italian.
Students not planning to continue in Italian may substitute the following decimal subdivision for 104.01.

104.02 Civilization
W.  5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Aspects of Italian civilization; geography, history, social development, and the arts; readings and discussion in Italian.

110  U  5, 10

Intensive Elementary Italian
A, W, Sp.  10 cl.
Prereq.: Permission of dept.
Not open to students with credit for 102. Students with credit for 101 or equiv. may not register for more than 5 cr. hrs.

Interdepartmental survey of contemporary Asian civilization; geographic and racial background, historical and cultural heritage, social organizations, economic and political problems, and international relations. Bartholomew.

240  U  5

Introduction to Latin America
Sp.  5 cl.
Interdepartmental survey of Latin American societies, anthropology, economics, history, literature, geography, and agriculture. McCoy.

245  U  5

Introduction to the Modern Middle East
A.  5 cl.
Interdepartmental survey of the land, people, history, politics, religions, philosophy, social institutions, economic development, and literature and the arts conducted by members of several departments. Findley.

250  U  5

Introduction to Africa
W.  5 cl.
Interdepartmental survey of the land, people, history, politics, social institutions, economic development, literature and the arts conducted by members of several departments. Areewa.

2841  U  3-5

Group Studies
Prereq.: Permission of instructor.
Groups of students are offered the opportunity to pursue the interdepartmental study of special topics.

501  U  G  5

Selected Problems in International Studies
W.  2 cl.
Open only to internat. S. majors or students with equiv. preparation.
Panel discussions, informal conferences, and a reading and research program arranged to meet the special needs of those enrolled. Stewart.

5041  U  3-5

Group Studies
Prereq.: Permission of instructor.
Designed to give groups of able students an opportunity to pursue special studies not otherwise offered.

H783

Honors Course
Prereq.: Senior standing and 40 cr. hrs. in the social sciences including 15 cr. hrs. in courses acceptable for a major in Internat., S., with a grade of A in at least half of these major courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
Informal conferences to allow full scope of the initiative of the student. A special topic is assigned to each student. The results are tested by conferences and special reports.
Failure to receive a mark of S in this course is a disqualification for special honors.
Elementary Italian for students wishing to acquire the basic skills in one quarter; intensive drill in form, syntax, vocabulary, and idiom; equivalent to 101 and 102.

112 U 5, 10, 15
Intensive Italian
Su. 15 cl. Enrollment limited to 20 students.
Prereq.: Permission of chairmain.
Full time of student and full fees required.
Equiv. of 101, 102, and 103.
Students with credit for 101 or the equiv. may not register for more than 10 cr. hrs. Students with credit for 101 and 102 or the equiv. may not register for more than 5 cr. hrs. Students with credit for 103 or the equiv. may not register for credit.
Elementary and intermediate Italian; intensive drill in forms, syntax, vocabulary, and idiom; reading of short stories and plays in Italian.

193 U 1-15
Individual Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

194 U 1-15
Group Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

202 U 5
Italian Conversation and Composition
Sp. 5 cl.
Prereq.: 104 or permission of instructor.

271 U 3

Elementary Modern Japanese
W. 5 cr.
Prereq.: 101.
Continuation of 101. Quackenbush and Staff.

103 U 5
Elementary Modern Japanese
Sp. 5 cr.
Prereq.: 102 or 110
Continuation of 102. Quackenbush and Staff.

104 U 5
Intermediate Modern Japanese
A. 5 cr.
Prereq.: 103 or permission of instructor.
Elements of Japanese grammar; intensive practice in
oral and written Japanese; reading of texts and

105 U 5
Intermediate Modern Japanese
W. 5 cr.
Prereq.: 104 or permission of instructor.
Not open to students with credit for 405.
Continuation of 104. Quackenbush and Staff.

106 U 5
Intermediate Modern Japanese
Sp. 5 cr.
Prereq.: 105 or permission of instructor.
Not open to students with credit for 406.
Continuation of 105. Quackenbush and Staff.

110† U 5 or 10
Intensive Japanese
A. 10 cr.
Prereq.: Permission of dept.
Students with credit for 101 or the equiv. may not
register for more than 5 cr. hrs. Not open to students
with credit for 102.
An accelerated one-quarter course equivalent to 101
and 102.

111† U 5 or 10
Intensive Japanese
W. 10 cr.
Prereq.: 102, 110, or permission of instructor.
Students with credit for 103 or the equiv. may not
register for more than 5 cr. hrs. Not open to students
with credit for 104.
An accelerated one-quarter course equivalent to 103
and 104.

112 U 5, 10, 15
Intensive Japanese
Su.
Prereq.: Permission of dept.
Full time of student and full fees required.
Students with credit for 101 or the equiv. may not
register for more than 10 cr. hrs. Students with credit
for 101 and 102 or the equiv. may not register for more
than 5 cr. hrs.
Not open to students with credit for 103 or 111. No
audit.
An introductory course with emphasis on basic
structure taught through oral-aural drill, hiragana,
katakana, and a limited number of Japanese
characters; equivalent to 101, 102, and 103.

113† U 5 or 10
Intensive Japanese
Sp. 10 cr.
Prereq.: 104, 111, or permission of instructor.
Students with credit for 105 or the equiv. may not
register for more than 5 cr. hrs. Not open to students
with credit for 106.
An accelerated one-quarter course equivalent to 105
and 106.

114† U 3
Elementary Japanese Conversation
and Composition
Sp. 3 cr.
Prereq.: 102, 110, or permission of instructor.
Exercises in pronunciation, vocabulary and sentence patterns studied in 101 and 102, and the materials learned concurrently in 103; conducted predominantly in Japanese.

214† U 3
Intermediate Japanese Conversation and Composition
Sp. 3 cl.
Prereq.: 105 and 114, or permission of instructor. Exercises in oral expression and composition; drill, discussion, and tape-listening using various materials at the second year level; conducted predominantly in Japanese.

231 U 5
Elements of Japanese Culture
Su, A. 5 cl.
Taught in English. Not open to students with credit for 271. A survey of literature, art, religion, philosophy, and social institutions of the Japanese people from the earliest to the most recent times. Wright.

251 U 5
Classical Japanese Literature in Translation
W. 5 cl.
A lecture and reading course in masterpieces of Japanese literature from the 8th to the 19th century. McElrath.

252 U 5
Modern Japanese Literature in Translation
Sp. 5 cl.
Japanese literature from early 19th century Western influences to present day; emphasis on the novel from Futabasei Shimel to Mishima Yukio; modern poetry and drama. Morita.

501 U 3
Classical Japanese I
A. 3 cl.
Prereq.: 106 or permission of instructor. Not open to students with credit for 651. A reading of classical literary works such as Hojoki, Uji Shii Monogatari, as well as waka poetry McElrath and Staff.

502 U 3
Classical Japanese II
W. 3 cl.
Prereq.: 501 or permission of instructor. Continuation of 501. McElrath.

503 U 3
Classical Japanese III
Sp. 3 cl.
Prereq.: 502 or permission of instructor. Continuation of 502. McElrath.

507 U G 5
Advanced Modern Japanese I
A. 5 cl.
Prereq.: 106 or permission of instructor. Not open to students with credit for 609.

Readings in modern Japanese aiming at acquisition of control of the 1850 characters in common use; translation, composition, character drill. Morita and Staff.

508 U G 5
Advanced Modern Japanese II
W. 5 cl.
Prereq.: 507 or permission of instructor. Not open to students with credit for 610. Continuation of 507. Morita and Staff.

509 U G 5
Advanced Modern Japanese III
Sp. 5 cl.
Prereq.: 508 or permission of instructor. Not open to students with credit for 611. Continuation of 508; supplementary readings in modern Japanese, including an introduction to basic Japanese dictionaries, encyclopedias, and other standard reference works. McElrath and Staff.

514 U 3
Advanced Japanese Conversation and Composition
W. 3 cl.
Prereq.: 214 and 508, or permission of instructor. Lectures, discussion, reports; extensive use of taped materials including news broadcasts, drama, interviews, informal conversations; conducted entirely in Japanese.

621 U G 3
Social Science Readings in Japanese I
A. 3 cl.
Prereq.: 509 or permission of instructor. Graded readings in Japanese social science subject matter, including materials from newspapers, periodicals, and learned journals; essentially a language course intended to improve fluency. McElrath and Staff.

622 U G 3
Social Science Readings in Japanese II
W. 3 cl.
Prereq.: 621 or permission of instructor. Continuation of 621. Morita and Staff.

623 U G 3
Social Science Readings in Japanese III
Sp. 3 cl.
Prereq.: 622 or permission of instructor. Continuation of 622. McElrath and Staff.

661 U G 3
Readings in Modern Japanese Literature I
A. 3 cl.
Prereq.: 509 or permission of instructor. Selected readings in modern Japanese fiction, poetry, drama, literary history, and criticism; essentially a language course intended to improve fluency. Morita.
662  U  G  3  
Readings in Modern Japanese Literature II  
W.  3 cl.  
Prereq.: 661 or permission of instructor.  
Continuation of 661. Morita.

663  U  G  3  
Readings in Modern Japanese Literature III  
Sp.  3 cl.  
Prereq.: 662 or permission of instructor.  
Continuation of 662. Morita.

680+  U  G  3  
Introduction to Japanese Linguistics  
W.  3 cl.  
Prereq.: 103 and Ling. 601, or permission of instructor.  
An introduction to the phonology, syntax, and lexicon of the Japanese language. Quackenbush.

681+  U  G  3  
History of the Japanese Language  
W.  3 cl.  
Prereq.: 103 and Ling. 601, or permission of instructor.  
A survey of the development of the Japanese language from early times to the present. Quackenbush.

693  U  G  1-5  
Individual Studies  
Prereq.: 503 and 509, and permission of chairman.  
Repeatable to a maximum of 15 cr. hrs.  
Not a substitute for regular language courses.  
Meets individual research needs of students in area studies and East Asian programs.

694  U  G  1-5  
Group Studies  
Prereq.: 503 and 509, and permission of chairman.  
Repeatable to a maximum of 15 cr. hrs.  
Not a substitute for regular language courses.  
Investigation of minor problems in Japanese language and literature.

699*  U  G  15  
Study Tour of Japan  
Sp.  15 cl., 2 wks. at OSU; 8 wks. in Japan.  
Prereq.: 25 cr. hrs. of Japanese or permission of instructor.  
Advanced work in conversation and reading in order to prepare for the tour. In Japan only Japanese will be spoken; some formal instruction will be given daily by the tour leaders.

782*  U  G  3  
Japanese Phonology  
Sp.  3 cl.  
Prereq.: 680, 681, or permission of instructor.  
Not open to students with credit for 624.  
An analysis of the phonological structure of present-day Japanese with a critical examination of traditional and contemporary works on Japanese phonology. Quackenbush.

783  U  3-5  
Honors Course  
Prereq.: 4th year standing; a record of A in at least half of the Japanese courses taken and an average of B in all courses; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.  
Open only to candidates for B.A. in Japanese.  
Repeatable to a maximum of 15 cr. hrs.  
A program of reading arranged for each student, with individual conference, reports, and honor thesis.

784*  U  G  3  
Japanese Syntax  
Sp.  3 cl.  
Prereq.: 680, 681, or permission of instructor.  
Not open to students with credit for 626.  
A survey of the grammatical structures of present-day Japanese; presentation of syntactic rules within the model of transformational grammar. Akatsu.

---

Journalism

Office: 156 Rightmire Hall, 1060 Carmack Road  
Professors Hall (Director), Maguire, Peterson, Pollard (Emeritus), Rarick, and Seifert; Associate Professors Clarke, Gaumer, Holsinger, MacDonald, Toran, and Underwood; Assistant Professors Bostwick (Emeritus), Brian, Collins, Drennen, Hartless, Hudson, and Schaefer; Instructors Jones, D. Tillinghast, and W. Tillinghast.

101  U  3  
Introduction to Mass Communication  
Su, A, W, Sp.  3 cl.  
Prereq.: Engl. 100.  
Introduction to the mass media in America, especially newspapers and broadcasting; analysis of forces and institutions affecting media behavior, and the resulting quality of performance.

201  U  5  
The Art of Communication  
A, W, Sp.  5 hr., lec./labs.

Reporting and editing news primarily for broadcast news programs produced by the School of Journalism.

422.01 Radio

422.02 Television

555  U G 3
Factual Writing
Prereq.: Engl. 100 or equiv.
Not open to students majoring in Jour.
Gathering and writing factual material; research interviewing, critical analysis, and rewriting are stressed.

555.01 Agriculture
555.02 Home Economics
555.03 Nursing
555.04 Dental-Medical
555.05 General

571  G 5
Basic Journalism for Beginning Graduate Students
Su, A, W, Sp.  3 cl., 2 hr. lab.
Prereq.: Grad. standing and permission of instructor.
Credit does not apply to the minimum hours required for graduate study in Journalism.
Introduction to the literature of journalism, reporting and news writing, editing of copy for mass media, elements of photojournalism and basic typographic and production processes.

602  U G 3
Magazine Writing
A, W, Sp.  3 cl.
Prereq.: 202 or permission of instructor.
Non-fiction writing for publication in general, professional, trade, or Sunday magazines with emphasis on the full-length magazine article.

605  U G 4
The Development of the Mass Media in America
A, W, Sp.  4 cl.
Prereq.: Junior, senior, or grad. standing.
Major currents and trends basic in the shaping of the mass media; famous personalities, foundations, and evolution of a free, responsible press.

607  U G 4
Law of the Press, Radio, and Television
A, W, Sp.  4 cl.
Prereq.: Junior, senior, or grad. standing.
History, principles, and provisions of the law of libel, slander, copyright, and other statutes affecting newspapers, other publications, and broadcasting.

612  U G 3
Special Radio and Television News Programs
W. 2 hr. lab., labs.
Prereq.: 422.01 and 422.02.
Planning and production of special news programs; such as the sportscast, the interview, special events, and documentaries.

The Supervision of Journalism in Secondary Schools
(See Ed Hums 614)

623  U G 3
The Writing of Reviews and Criticisms
Prereq.: Junior, senior, or grad. standing or permission of instructor.
Study of the work of the dramatic and literary critic, especially on newspapers and magazines; practice in writing reviews and criticisms.

624  U G 3
The Editorial Page
A, Sp.  3 cl.
Prereq.: Jour. 4th yr. standing or permission of instructor.
Study of the purpose, form, style, and spirit of the editorial; consideration of current events, practice in news interpretation, and other editorial writing.
625 UG 3
Investigative Reporting
W, Sp. 1 3-hr. cl., conf. arr.
Prereq.: Jour. 4th yr. standing or permission of instructor.
Intensive reporting and writing.

626 UG 5
Newspaper Management,
Circulation, and Advertising
Sp. 4 cl., 3-hr. lab.
Prereq.: Jour. 4th yr. standing or permission of instructor.
Consideration of the tasks and problems of newspaper management with emphasis on circulation policies and methods and those affecting advertising.

627 UG 3
Advanced Editing
A, W, Sp. 1 lec., 2 2-hr. labs.
Prereq.: Jour. 3rd yr. standing or permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Advanced theory and practice in news selection, preparation and display for newspaper, magazine, broadcast and photo-journalism media; emphasis on the responsibility of the journalist.

627.01 News-Editorial
627.02 Radio-Television
627.03 Photojournalism
627.04 Magazine

The World Press
A, W, Sp. 3 cl., conf. arr.
Prereq.: Junior, senior or grad. standing, or permission of instructor.
An analysis of newspapers, news agencies, and broadcast news outlets and their roles in the political, economic and cultural development of their nation states.

651 UG 4
Mass Media Research and Theory
Su, A, W. 4 cl.
Prereq.: Junior, senior or grad. standing, or permission of instructor.
Theories of mass communication, including models based on information theory, learning theory, attitude theory, and sociocultural theory; field studies, experiments, and content analysis.

693 UG 1-5
Individual Studies
Prereq.: Jour. 4th yr. or grad. standing and permission of instructor.
No more than 5 cr. hrs. for undergrad. and 6 cr. hrs. for grad. students may be earned in any combination of decimal subdivisions.
Students make extensive and significant studies in the field of journalism.

693.01 News-Editorial
693.02 Radio and Television
693.03 Photojournalism
693.04 Magazines
693.15 Public Relations

694 UG 1-15
Group Studies
Repeatable to a maximum of 25 cr. hrs.
Regular class meetings and group discussions of specified problems.

a. Mass Media and Black America.
b. International Journalism Tour.
c. Critical Writing—Theatre, Cinema.
d. Intensified Study of Journalism.
e. Reporting Public Affairs at the Federal Level.
(Enrollment limited to graduate students in the Kiplinger program.)
f. Reporting Public Affairs at the State and Local Levels. (Enrollment limited to graduate students in the Kiplinger program.)
g. Field Practice in Public Affairs Reporting.
(Enrollment limited to graduate students in the Kiplinger program.)
H783  U  3-5
Honors Course
Prereq.: Sr. standing, a grade of A in half of the major courses and a B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
A program for students who are candidates for a degree with distinction in journalism.

801  G  4
Seminar in Journalism
Repeatable to a maximum of 12 cr. hrs.
Integrated reading and research in the fields of journalism.
  c. Content Analysis in Mass Communication.
  d. Theories of Mass Communication.

802  G  4
Seminar in Journalism
Repeatable to a maximum of 12 cr. hrs.
Integrated reading and research in the fields of journalism.
  b. History of Mass Media.
  c. Legal Problems in Communication.
  d. Literature and Journalism.

803  G  4
Seminar in Journalism
Repeatable to a maximum of 12 cr. hrs.
Integrated reading and research in the fields of journalism.
  b. Problems in Radio-Television Journalism.
  c. Problems in Photojournalism.
  d. Problems in Magazine Journalism.
  e. Problems in Public Relations.

813  G  5
Foreign Correspondence
Sp.  2 2/3-hr. seminars.
Research for thesis purposes only.
Prereq.: Grad. standing and permission of Director of the School of Journalism and fluency in at least one foreign language spoken in student’s area of specialization.
Analysis of international developments as reported in world press media as to their origins, issues, and likely evolution.

899  G  1-5
Interdepartmental Seminar
(See under Interdepartmental Seminars.)

911  G  5
Foreign Internship
Prereq.: 811, 812, 813, and permission of Director of the School of Journalism.
Repeatable to a maximum of 20 cr. hrs.
Students will spend from two to four quarters abroad, associated with newspapers, news agencies, broadcast outlets, news magazines, or universities.

999  G Arr.
Research in Journalism

Landscape Architecture

(School of Architecture)
Office: 189C Brown Hall, 190 West 17th Avenue
Professor Tobey; Associate Professor Carpenter;
Assistant Professor Kobayashi.

200  U  5
Design of Gardens and Small Properties
A, W.  2 cr., 9 lab. hrs.
Landscape design for nonprofessional students, emphasizing design process, graphic presentation, and use of plant materials as design elements in solving microscale problems.

201  U  3
History of Landscape Architecture
A.  3 cr.
A critical and historical analysis of the organization of outdoor space from earliest times to the Italian Renaissance; emphasis on physical forms resulting from social, cultural, and technological forces.

202  U  3
History of Landscape Architecture
W.  3 cr.
A critical and historical analysis of the organization of outdoor space from the French Renaissance to 1900 A.D.; emphasis on physical forms resulting from social, cultural, and technological forces.
203 U 3
History of Landscape Architecture
Sp. 3 cl.
A critical and comparative analysis of the organization of outdoor space since 1900 A.D.; emphasis on physical forms resulting from social, cultural, and technological forces.

241 U 5
Landscape Architectural Design
A. 1 cl., 14 lab. hrs.
Prereq.: Open only to students enrolled in School of Architecture.
Not open to students with credit for Arch. 111 or Arch. 241.
Study of existing outdoor spaces via graphics and models; design principles, elements and spatial organization.

242 U 5
Landscape Architectural Design
W. 1 cl., 14 lab. hrs.
Prereq.: 241 and Arch. 221.
Not open to students with credit for Arch. 112 or Arch. 242.
Development of landscape design skills in abstract and real forms; color and complex spatial organization.

243 U 5
Landscape Architectural Design
Sp. 1 cl., 14 lab. hrs.
Prereq.: 242.
Not open to students with credit for Arch. 113 or Arch. 243.
Landscape design and programming processes; integration of these processes with previously developed skills.

300 U 3
Outlines of Landscape Architecture
A, W, Sp. 3 cl.
Not open to candidates for the Bachelor of Land. Arch. degree. Landscape architecture and environment; relations with other disciplines. Carpenter.

321 U 4
Landscape Construction: Site Systems
A. 2 cl., 4 lab. hrs.
Prereq.: Math. 150 and Arch. 221.
Not open to students with credit for 221.
Study of land development techniques essential to the horizontal development of site development schemes.

322 U 4
Landscape Construction: Site Systems
W. 2 cl., 4 lab. hrs.
Prereq.: 321.
Not open to students with credit for 222.
Study of land development techniques essential to the vertical development of site development schemes; emphasis on drainage, grading, and soils.

323 U 4
Landscape Construction: Site Systems
Sp. 2 cl., 4 lab. hrs.
Prereq.: 322.
Not open to students with credit for 223.
Integration of site systems; application of site technology to preparation of fully developed site layout and grading construction drawings.

341 U 5
Landscape Architectural Design
A. 1 cl., 14 lab. hrs.
Not open to students with credit for 241.
The landscape design process applied to site analysis, circulation, spatial structure, and design detailing.

342 U 5
Landscape Architectural Design
W. 1 cl., 14 lab. hrs.
Prereq.: 341.
Not open to students with credit for 242.
The landscape design process with emphasis on plant materials as major site design materials.

343 U 5
Landscape Architectural Design
Sp. 1 cl., 14 lab. hrs.
Prereq.: 342.
Not open to students with credit for 243.
Social science inputs in landscape design at site planning scale; use of plant materials in spatial form development.

421 U 4
Landscape Construction: Materials I
W. 2 cl., 4 lab. hrs.
Prereq.: 323.
Not open to students with credit for 521.
Properties and production of man-made landscape building materials; material performance in exterior application; construction detailing with emphasis on wood and masonry assemblies.

422 U 4
Landscape Construction: Materials II
Sp. 2 cl., 4 lab. hrs.
Prereq.: 421.
Not open to students with credit for 522.
Application of man-made landscape building materials to construction problems; emphasis on metals, ceramics, concrete, asphalt, and plastic materials.

441 U 5
Landscape Architectural Design
A. 1 cl., 14 lab. hrs.
Prereq.: 343.
Not open to students with credit for 511.
Application of landscape design technology; case studies at project scale.

442 U 5
Landscape Architectural Design
W. 1 cl., 14 lab. hrs.
Prereq.: 441.
Not open to students with credit for 512.
Macro scale site planning; environmental criteria as bases for design decision making.
443   U  5
Landscape Architectural Design
Sp.  1 cr., 14 lab. hrs.
Prereq.: 442.
Not open to students with credit for 513.
Macroscopic environmental planning; emphasis on
disciplinary approaches to landscape design.

451   U  4
Landscape Architecture Seminar
A.  4 cr.
Prereq.: 323.
Not open to students with credit for 401 or 501.
Research, discussion, and exercises pertinent to
landscape architecture and related fields.

693   U  G 2-5
Individual Studies in Landscape Architecture
Prereq.: 32h yr. standing or permission of division.
Repeatable to a maximum of 20 cr. hrs.
For students in the Graduate School and those who
wish to pursue special studies in landscape
architecture.

694   U  G 2-5
Group Studies in Landscape Architecture
Prereq.: Permission of the division.
Repeatable to a maximum of 15 cr. hrs.
For students majoring in Landscape Architecture
desiring to pursue special studies not offered in the
fixed curriculum.

Latin

Office: 217 Derby Hall, 154 North Oval Drive

Professors Morford (Chairman), Abbott, Babcock,
Forbes (Emeritus), Gordon, and Lenardon; Associate
Professors Davis, Hahn, and Schlamp; Assistant
Professors Kratz, Shumaker, Snyder, Sweet, and Tracy.

Also see Classics.

Students with two years of high school Latin should
enroll in Latin 101; with three years of high school
Latin, including Cicero, in Latin 104; with three years
of high school Latin, including Vergil, in 103 and 201.
Latin majors should consult the departmental statement
in the College of Humanities section of the Colleges of
the Arts and Sciences catalog. Placement tests are
required for all matriculating (including transfer) students
who continue the study of Latin in the
University in courses 100, 101, 102, 103, 104, 200, 201,
and 202. A placement test will be given on the first
day of the quarter. For details see the departmental
secretary in 217 Derby Hall.

100   U  5
Latin Review
A.  5 cr.
Prereq.: Placement test.
For those students whose elementary Latin will begin
with a review and continue as a preparation for Latin
103.

101   U  5
Elementary Latin
A, W.  5 cr.

102   U  5
Elementary Latin
W, Sp.  5 cr.
Prereq.: 101.

103   U  5
Intermediate Latin
A, W, Sp.  5 cr.
Prereq.: 2 yrs. of secondary school Latin, or 102, or 050.
Intermediate readings with emphasis on prose authors
on the 1st century B.C.

104   U  5
Intermediate Latin
Su, A, W, Sp.  5 cr.
Prereq.: 2 yrs. of secondary school Latin, or 103, or 112.
Intermediate readings with emphasis on the poetry of
the Augustan Age.

112   U  5, 10, 15
Intensive Introduction to Latin
A.  10 cr. and 10 or more hrs. of supervised study.
Full time of student and full fees required. Equiv. of
101, 102, and 103. Students with credit for 101 or the
equiv. may not register for more than 10 cr. hrs.
Students with credit for 101 and 102 or the equiv.
may not register for more than 5 cr. hrs. Students with
credit for 103 or the equiv. may not register for credit.

2001*   U  5
Latin Lyric
W.  5 cr.
Prereq.: 104 or equiv. in secondary school Latin.
Selections from the lyric poetry of Catullus and Horace.
Babcock.

2001**  U  5
Republican Prose
A.  5 cr.
Prereq.: 104 or equiv. in secondary school Latin.
Selections from the works of one or more of the
following authors: Cicero, Caesar, Sallust, Nepos.

2002*   U  5
Latin Comedy
Sp.  5 cr.
Prereq.: 104 or equiv. in secondary school Latin.
Selected plays of Plautus and Terence.

2003*   U  5
Prose of the Empire
Sp.  5 cr.
Prereq.: 104 or equiv. in secondary school Latin.
Selections from the works of one or more of the
following authors: Livy, Pliny, Seneca, Suetonius.
Abbott.

Law
Office: 112 Law Building, 1659 North High Street
Professors Kirby (Dean), Bernstein, Caravoti, Lainanan, Clovis, Day, Fink, Herman, Kindred, Kozyris, Laughlin, R. Lynn, Miller, Murphy, Nordstrom, Rose, Rosen, Rutledge, Schwarz, Shipman, Simmons, Slagle, Stein, and Wills; Associate Professors Geltner and Jacob; Assistant Professors Champlin, Lawson, Quigley, and Spitz; Adjunct Professors Alton, Bowen, Cavendish, Elam, Glander, Holschuh, Knepfer, Ladd, A. Lynn, Mayer, Moots, and Platt.

502 P 1-0
Appellate Practice I
A. W. Sp. 3-qttr. sequence; 1 cr. hr. assigned A, and 0 cr. hr. assigned W, and Sp. S or U grade given on completion of 3-qttr. program. Procedural and substantive aspects of appellate practice; the student prepares a brief and presents an oral argument on the basis of assigned research materials. Herman and Moot Court Governing Board.

503 P 3
Contracts
A. W. Sp. 3 cl.; 3-qttr. sequence; credit given on completion of 3 cr. hrs. Remedies for breach; offer and acceptance; consideration; third party beneficiaries; assignment of rights and delegation of duties; conditions; impossibility and frustration; statute of frauds. Clovis and Nordstrom.

504 P 2-4
Torts
A. 2 cl., W. Sp. 3 cl. or A. W. or W. Sp. 4 cl., 3 or 2-qttr. sequence; credit given on completion of 8 cr. hrs. Trespass to person; negligence; misrepresentation; nuisance, strict liability; liability insurance; alternatives to the fault system; and federal and state regulation of traffic safety. Geltner and Miller.

505 P 3
Property I
A. W. 3 cl.; 2-qttr. sequence; credit given on completion of 6 cr. hrs. Incidents of ownership as applied to both real and personal property; possessory interests; concurrent interests; marital interests; future interests; contractual modification of these interests. Callahan, R. Lynn, and Simmons.

506 P 3
Property II
Sp. 3 cl.
Acquisition and transfer of ownership; adverse possession; conveyances (deeds, mortgages, and leases); intestacy; wills; the recording systems; title registration. Callahan and R. Lynn.

507 P 3
Civil Procedure
A. W. Sp. 3 cl.; 3 qrtr. sequence; credit given on completion of 9 cr. hrs. Civil procedure in state and federal courts; development of equity; abolition of common law forms of action; merger of law and equity; jurisdiction; venue. Fink, Slagle, and Wills.
510 P 3
Constitutional Law
W, Sp. 3 cl.; 2-qtr. sequence; credit given on completion of 5 cr. hrs.
Functional study of the major substantive, methodological, and federalistic limitations upon governmental power obtaining under practice of judicial review. Lauglin, Rosen, and Schwarz.

511 P 2
Legal Research
A.
Use of law books, both English and American; problems in the use of reports, statutes, selected annotated cases, texts, encyclopedias, digests, dictionaries, periodicals, and citation books.

512 P 3
Introduction to Federal Income Taxation
A. 3 cl.
Basic topics in federal income taxation under Internal Revenue Code, income Tax Regulations, administrative rulings, and cases including research problems, and consideration of tax policies. Rose, Shipman, and Slain.

600 P 1 or 2
Appellate Practice II
W, Sp. 1 or 2 cr. hrs. by arrangement with instructor. Repeatable to a maximum of 2 cr. hrs. with permission of the instructor.
S or U grade given on completion of second-year Moot Court Program.
Preparation of a brief and presentation of several oral arguments; participation by second-year students as advisers in first-year Moot Court Program. Herman and Moot Court Governing Board.

602 P 3 or 4
Legal Process
W. 3 or 4 cl.
Comparative evaluation of law-making by private parties, courts, legislatures, and administrative agencies; retroactivity; adherence to precedent; purposes of legislation; statutory interpretation.

603 P 3
Evidence
A, W. 3 cl. or W, Sp. 3 cl.; 2-qtr. sequence; credit given on completion of 5 cr. hrs.
Survey of rules of evidence; particularly demonstrative, testimonial, and circumstantial proof; qualification and examination of witnesses; privilege; relevancy; documents; hearsay rule and its exceptions. Callahan, Rutledge, and Slagle.

604 P 3
Pleading
A, Sp. 3 cl.
Pleading under codes and Federal Rules of Civil Procedure; requirements of pleadings; variance and amendments; defenses; denial and new matter; counterclaims; reply; demurrers; motions; interrogatories; joinder. Knepper, Stagle, and Wills.

605 P 3
Commercial Paper
W. 3 cl.
Types of commercial or negotiable paper; transfer; purchase and payment in due course, discount and security. Clovis and Nordstrom.

606 Federal Income Taxation
Study of federal income tax; concept of taxable gross income; deductions; reporting methods; capital gains and losses; treatment of corporations and shareholders, partnerships, and trusts.

606.01 Federal Income Taxation P 4
A. 4 cl.
Not open to students with credit for 606.02.
Traditional federal income taxation course with class time limited to one quarter. Rose.

606.02 Federal Income Taxation P 3
A, W. and W, Sp. 3 cl.; 2-qtr. sequence; credit given on completion of 6 cr. hrs.
Not open to students with credit for 606.01.
Consideration of the basic material covered in 606.01 with extended coverage in certain areas, including practice and procedure, partnerships and corporations. Rose, Shipman, and Slain.

607 Business Associations
Forms of business organizations; planning corporate and other relationships for commercial and industrial purposes.

607.01 Business Associations P 2-5
A, W. or W, Sp. 2-5 cl.; 2-qtr. sequence; credit given on completion of 7 cr. hrs.
Not open to students with credit for 607.02, 607.03 or 632.
Formation, financing, and governance of corporations, partnerships, and other business organizations; problems of federal corporation law; corporate acquisitions and divestitures. Schwarz, Shipman, and Slain.

607.02 Business Associations I P 2-3
A, W. 2-3 cl.; 2-qtr. sequence; credit given on completion of 5 cr. hrs.
Not open to students with credit for 607.01 or 632.

607.03 Business Associations II P 3
Sp. 3 cl.
Prereq.: 607.02.
Not open to students with credit for 607.01 or 632.
Problems of the large, publicly-held corporation; federal corporate law; corporate consolidations and distributions. Kozyris.

609 P 3
Sales
A. 3 cl.

610 P 3
Secured Transactions
Sp. 3 cl.
Emphasis on the Uniform Commercial Code; financing sale of goods, intangibles, and proceeds; validity of and perfecting security interests; priorities and remedies. Clovis, Lawson, and Nordstrom.
Administration of Criminal Justice
W.  Sp.  4 cl.
Not open to students with credit for 610 or 611.
Processes of criminal justice from arrest to parole and
probation; impact upon traditional practices and
procedures resulting from major decisions of the
Supreme Court of the United States. Herman.

Admiralty Law
Su.  3 cl.
Admiralty jurisdiction; injuries to seamen and maritime
workers; bills of lading; charter parties; salvage;
general average; limitation of liability.

Labor Law
A. W.  4 cl.
Not open to students with credit for 630.
Collective bargaining processes and duty to bargain;
grievance arbitration; legal limitation on economic
pressures, including interference with bargaining,
strikes, picketing, and boycotts. Rutledge.

Comparative Law—Western Europe
W.  3 cl.
Substantive and procedural aspects of foreign legal
systems in comparison with American law. Kindred.

Comparative Law—Latin America
W.  3 cl.
A comparative study of selected aspects of

Estate-Gift Taxation
W.  Sp.  3 cl.
Not open to students with credit for 631.02.
Federal gift and estate taxation; federal tax practice;
interrelationships of death and gift taxes with federal
income taxes. Glander and R. Lynn.

Insurance
A.  3 cl.
Insurance law and practice with particular reference to
fire, life, and automobile insurance; insurable interest;
waivers and representations; waiver and estoppel;
construction standard policies. Callahan.

International Law
A. or A. W.  1 or 2-qr. sequence for the minimum of 3
cr. hrs. and the maximum of 6 cr. hrs. depending on
course offering.
Current problems in international law; international
agreements; status of states and individuals;
recognition, jurisdiction and procedural prerequisites
to assertion of international claims. Quigley.

Jurisprudence
Sp.  3 cl.
Jurisprudential thought as represented by general
theories of or about law; assessment of leading juris-
dictories; relationship to social control policy and to
legal precepts. Caldwell.

Real Property Mortgages
W.  3 cl.
Mortgages and their use as a security device in real
property transactions; common mortgage provisions;
methods of enforcement of rights; "equitable"
mortgages. Lawson.

State and Local Taxation
Sp.  3 cl.
Legal problems arising in property, excise, income, and
estate-inheritance taxation; tax administration and
procedure. Glander.

Federal Antitrust Law
Prohibition of monopoly and restraint of trade by
Sherman and Clayton Antitrust Acts, Federal Trade
Commission Act and related statutes.

Federal Antitrust Law—Monopolies and Mergers
W.  3 cl.
Not open to students with credit for 623.02 or 623.03.
Condensed and basic coverage of federal antitrust
law with class time limited to one quarter. Day.

Federal Antitrust Law—Restraint of Trade
A.  3 cl.
Not open to students with credit for 623.01.
Contracts, combinations, and conspiracies in
restraint of trade under the Sherman, Clayton, and
Day.

Taxation of Foreign Income
Sp.  3 cl.
Taxation of individuals and business operating in
United States and abroad; jurisdiction. Income source,
foreign tax credits; treaty structure; special statutory
titules for foreign trade.

Copyright Law
A.  3 cl.
Protection of literary, musical, artistic, and commercial
property under common law; the federal copyright
statute and related legislation. Day.

Law and the United Nations
Sp.  3 cl.
Establishment of the United Nations, conditions of
access, and performance of various functions in the
decision process by Security Council, General Assembly
and International Court. Quigley.
627† P 3
American Legal History
Sp. 3 cl.
Studies in history of American law and exploration of relationship between development of the legal system and rise of an industrial society. Simmons.

628 P 3
Legal Problems of Financial Information
A. 3 cl.
Substantive law problems involving financial information in the basic context of partnership and corporation law and the Internal Revenue Code. Rose and Shipman.

629 P 3
Legislation
A, Sp. 3 cl.
Roles of the lawyer in the legislative process; legislative organization, jurisdiction, and procedure; formation of legislative policy; legislative drafting; statutory interpretation. Caldwell.

630 P 1-5
Labor Law and Practice
A, or A, W. 1-5 cl.; 1 or 2-qtr. sequence; credit given on completion of 5 cr. hrs.
Not open to students with credit for 613.
Law and practice in labor-management and union-employee relations; self-organization; unfair labor practices; arbitration; emergency disputes; public employment and union internal affairs. Bernstein.

631 P 3
Estate Planning
Functional integration of the legal concepts concerning transmission of individual and family wealth.

631.01 Estate Planning
A, W, or W, Sp. 3 cl., 2-qtr. sequence; credit given on completion of 6 cr. hrs.
Not open to students with credit for 631.02.
Trusts, future interests, gifts, powers of appointment, rule against perpetuities, and related rules with limited reference to tax aspects of estate planning. Lynn.

631.02 Estate Planning
A, W, or W, Sp. 3 cl., 2-qtr. sequence; credit given on completion of 6 cr. hrs.
Not open to students with credit for 617 or 631.01.
Intestacy succession, wills, trusts, gifts, future interests, and life insurance in estate planning with intensive analysis of federal estate gift taxation. Rose.

632† P 3
Corporations
A, W, or W, Sp. 3 cl., 2-qtr. sequence; credit given on completion of 6 cr. hrs.
Not open to students with credit for 607.
Formation; rights and duties of directors, officers, and shareholders; derivative suits; issuance and transfer of securities. Kozyris and Spitz.

633 P 3
Criminal Law
A, W, or W, Sp. 3 cl., 2-qtr. sequence; credit given on completion of 6 cr. hrs.
Not open to students with credit for 509.
Criminal laws as means of attaining socially desirable ends, stressing criminal behavior and handling of those who engage in that behavior. Gettner, Herman, and Quigley.

634 P 3
Family Law I
A. 3 cl.
The law applicable to children, including a study of agency and juvenile court treatment of dependent, neglected, abused, unruly, and delinquent children. Kindred.

635 P 3
Family Law II
W. 3 cl.
Problems of the marriage relationship, including marriage, annulment, divorce, custody, intra-family relationships, and relation of family members with others. Kindred.

637 P 3
Legal History
W. 3 cl.
Comparative studies in history of law and exploration of relationship between development of legal systems and societal structures. Murphy.

638 P 3
Legal Problems in Real Estate Financing
A. 3 cl.
Not open to students with credit for 621.
Mortgages and their use as security devices in real property transactions; emphasis upon various devices for financing real estate acquisitions and developments. Lawson and Murphy.

639 P 3
Urban Housing
A. 3 cl.
Housing needs of the urban poor considered in the light of the rights, remedies, and resources of the legal system. Simmons.

640 P 3
Criminal Justice I
A. W. 3 cl.
Not open to students with credit for 611.
Police practices including search, seizure, arrest, interrogation, line-ups, and entrapment. Herman and Jacob.

641 P 3
Criminal Justice II
Sp. 3 cl.
Study of proceedings in felonies from preliminary hearing through post-conviction remedies; double jeopardy. Herman and Rosenn.
Legal Problems of the Poor
Study of law, legal institutions, and policy issues of particular relevance to selected problems of the poor.

Legal Problems of the Poor: Civil
A, W. 3 cl.
Examination of the causes and effects of poverty in relation to the law, legal institutions, and public policy. Champlin.

Legal Problems of the Poor: Corrections
A, A, Sp, Su. 3 cl.
Examination of the correctional process, including sentencing, prison administration, and the parole system. Jacob.

Legal Problems of the Poor: Crime and Delinquency
A, W. 3 cl.
Examination of the causes and effects of crime and delinquency as they relate to criminal law processes. Jacob.

Injunctions
Sp. 3 cl.
Not open to students with credit for 642.02 and 643.02. Requirements and uses of injunctions and other equitable remedies to redress violations of constitutional, statutory, and common law rights. Champlin.

Agency and Employment
Sp. 3 cl.
A systematic descriptive approach to the common incidents of employment, partnership, and other agencies. Slain.

Urban Development
Sp. 3 cl.
Not open to students with credit for 648 or 649. The inner city and regional planning through zoning, condemnation, and other legal devices. Fink and Simmons.

Dignitary Torts
A. 3 cl.
Legal rights and remedies developed to protect interests in reputation, privacy, and other aspects of human dignity. Gellner and Miller.

Sex-Based Discrimination and the Law
Sp. 3 cl.
Law, legal institutions, and policy issues relevant to the redress of sex-based discrimination. Constitutional, legislative, executive, and judicial avenues of redress.

Land Use Planning I
W. 3 cl.
Not open to students with credit for 645. Techniques and consequences of limitations imposed upon use of private land by private covenant and public action; nuisance; covenants; zoning, and subdivision controls. Simmons.

Land Use Planning II
Sp. 3 cl.
Prereq.: 645 or 648.
Study of public regulatory devices for land use and development; eminent domain; planned unit development; urban renewal; official maps; new towns; open space. Simmons.

Local Government Law
W. 3 cl.
Types and organizations of local government units; intergovernmental relations; "home rule" power of Ohio municipalities; personnel; lawmakers; community planning; taxing and finance; contracts; legal liability. Fink and Simmons.

Group Studies
Repeatable to a maximum of 20 cr. hrs.
Group study in selected areas of the law.

Advanced Legal Research
Research techniques providing basic experience in analyzing legal questions, using appropriate publications, and in reaching competent solutions to legal problems.

Restitution
Sp. 3 or 4 cl.
Restitutionary remedies available for tort, misrepresentation, breach of contract, and for benefits conferred voluntarily, under duress or mistake, or in partial performance of contract. Murphy, Nerdstrom, and Spitz.

Trial Practice
Prereq.: 603 and 604.
State and federal procedures in civil or criminal causes; individual student practice in the trial to a jury of a civil or criminal case. Alton, Elam, Knepper, Rutledge, and Stagle.

Bankruptcy
A. 3 cl.
Methods used for the liquidation of debtors' estates, emphasizing first seven chapters of the Bankruptcy Act. Cavendish and Shipman.

Conflict of Laws
A. 3 or 4 cl.
Private law pertaining to judicial relations containing one or more foreign elements; jurisdiction; foreign judgments; domicile; choice of law; torts; workmen's compensation acts; contracts; property; family law; decedents' estates. Kozyris and Miller.

Administration of Decedents' Estates
W. 3 cl.
Probate and contests of wills; jurisdiction; effect and necessity of administration; inventory and assets; contracts; sales and investments by personal representatives; claims; accounting and distribution. Wills.

708 P 4
Arbitration Law and Practice
A. 4 cl.
Commercial and labor arbitration under Ohio and federal arbitration statutes; drafting arbitration clauses; conduct of proceedings; arbitrable issues; court enforcement or impeachment of awards. Bernstein.

709 P 3
Regulation of Security Distributions
A. 3 cl.
Prereq.: 697 or 632.
Analysis of Security Act of 1933 and pervasive effects upon issuance of securities and transfers; study of exemptions and restrictions on transfer and value. Shipman and Slain.

710 P 3 or 4
Federal Courts
A. 3 or 4 cl.
The Federal judicial system; jurisdiction of the district courts, courts of appeals, and United States Supreme Court. Fink.

713 P 1-4
Appellate Practice IV
A, W, Sp. 1 to 4 cr. hrs. by arrangement with instructor.
Repeatable to a maximum of 4 cr. hrs. with permission of the instructor.
S or U grade given on completion of third-year Moot Court Program. Procedural and substantive aspects of appellate practice; perfection of appeals; preparation of briefs and oral argument; participation by third-year students in various aspects of Moot Court Program. Herman.

714 P 3
Receivership and Reorganization
W. 3 cl.
Prereq.: 607 or 632.
Equity receivership and corporate reorganization under Chapter X of the Bankruptcy Act; arrangements under Chapter XI of the Act. Kozyris and Shipman.

715 P 3
Advanced Federal Income Taxation
Sp. 3 cl.
Prereq.: 666.01 or 666.02.
Advanced study of federal income taxation dealing with corporations and shareholders. Rose.

716 P 3
International Trade Regulation
Sp. 3 cl.
Prereq.: 623.01, 623.02, or 623.03.
Extraterritorial application of United States trade regulation law, international treaties, and conventions, and trade regulation in European Common Market. Day.

718 P 3
Unfair Trade Practice
A. 3 cl.
Protection of consumers from unfair, deceptive, or unconscionable acts or practices under common law and federal and state statutes. Day.

719 P 4
Natural Resources
A. 4 cl.
The nature and incidents of public and private interests in water, minerals, oil and gas; conveyancing of natural resources, and mineral, oil, and gas leasing. Murphy.

720 P 4
Social Legislation
Sp. 4 cl.
Characteristics of statutory devices and their utility in effectuating social policy with emphasis upon acts and bills dealing with employment, but including related private plans and nonemployment programs. Bernstein.

722 P 3
The Federal System
W. 3 cl.
Allocation of authority between federal and state law and courts; congressional power over the jurisdiction of courts; litigation involving the government or its agents.

723 P 3
Food and Drug Law
W. 3 cl.
Study of the development, administration and application of federal and state laws which regulate the manufacture, advertising, and sale of food, drugs, and cosmetics. Caldwell and Day.

724 P 3
Comparative Criminal Law and Procedure
Sp. 3 cl.
Comparison of U.S. and Soviet criminal procedures, codes and case law, and resulting criminal justice. Quigley.

727 P 4
Regulated Industries
Sp. 4 cl.
Explanation of legal principles relevant to the rate regulation process and an analysis of other regulatory problems in the television, transportation, and atomic industries. Kozyris and Schwarz.

728 P 3 or 4
International Transactions
Sp. 3 or 4 cl.
Legal problems in transnational context arising from doing business abroad; investments; establishment; exchange controls; trade, licensing; extraterritoriality of regulatory legislation; international agreements; European Common Market. Kozyris and Rceen.

729 P 4
Administrative Practice
A. 4 cl.
Types of action before administrative boards and commissions, primary jurisdiction defining policy, judicial jurisdiction, right to trial hearing, obtaining judicial review, scope of review, evidence, decision-making. Intrade.

731 Business Planning
A, W, or W, Sp. 3 cr. 2-qtr. sequence; credit given on completion of 6 cr. hrs.
Prereq.: 607 or 632, 606.01 or 606.02; 628 recommended.
Advanced study in corporations and taxation of corporations and shareholders. Shipman.

732 Conservation Law
W. 3 cr.
Legal problems relating to the living environment; legal problems of conservation of resources such as forest, wildlife, soil, and parks. Murphy.

733 Political and Civil Rights I
A. 3 cr.
Advanced study of constitutional guarantees in contemporary social milieu; freedom of expression, association; academic freedom; advocacy and symbolic expression. Laughlin.

734 Political and Civil Rights II
W. 3 cr.
Advanced study of civil rights and legal problems of race relations in contemporary social milieu; segregation, discrimination, equal protection, separatism. Laughlin.

735 Law Journal
Prereq.: Selection for Law Journal by editors and faculty.
Three cr. hrs. counted toward graduation requirement, but no grade awarded.
Special studies covering diverse subjects of a legal nature participated in by the group selected for work on the Law Journal. Slein.

736 Legal Profession
A, Sp. 3 or 4 cr.
Legal and ethical problems of the legal profession and the practicing lawyer, including: unauthorized practice, bar admission, group legal services, malpractice, professional organization, and discipline. Kirby.

737 Patent Law
Sp. 3 cr.
Fundamentals of substantive patent law relating to standards of patentability, patent claim interpretation, licensing, and enforcement presented in reference to patent litigation. Ladd.

738 Study and Practicums in Legal Problems of the Poor
P or S
W, Sp, Su. 3 or 6 cr. 1- or 2-qtr. sequence; S or U grade given on completion of 6 cr. hrs.
Prereq. or concur.: 603 plus one or more of the following: 642.04, 642.03, 633, 640, 641, or with permission of instructor.
May not be taken simultaneously with any other practicum except 738.03.
Development of the basic knowledge and skills of criminal law practice. Jacob.

738.01 Criminal Law Practicum
W, Sp, Su. 3 or 6 cr. 1- or 2-qtr. sequence; S or U grade given on completion of 6 cr. hrs.
Prereq. or concur.: 642.01.
May not be taken simultaneously with any other practicum except 738.03.
Development of the basic knowledge and skills of civil law practice on behalf of the poor. Champlin.

738.02 Civil Law Practicum
W, Sp, Su. 3 or 6 cr. 1- or 2-qtr. sequence; S or U grade given on completion of 6 cr. hrs.
Prereq. or concur.: 642.01.
May not be taken simultaneously with any other practicum except 738.03.
Development of the basic knowledge and skills of civil law practice on behalf of the poor. Champlin.

738.03 Welfare Law Practicum
Sp. 2 cr. S or U grade given on completion of 2 cr. hrs.
Prereq. or concur.: 796.29.
Repeatable to a maximum of 4 cr. hrs. with permission of instructor.
Supervised clinical study of welfare problems. Champlin.

738.04 Juvenile Law Practicum
W, Sp. 2-4 cr. 1- or 2-qtr. sequence; S or U grade given on completion of 4 cr. hrs.
Prereq.: None; Recommended 634, 640 and/ or 641.
Study of the intricacies of the juvenile intake process, difficulties of dealing with a total family situation involving child neglect or juvenile delinquency, and substantive legal problems of the juvenile area.

738.05 Criminal Appeals and Postconviction Remedies Practicum
A. 3 cr. S or U grade given on completion of the course.
Prereq. or concur.: 603 plus one or more of the following 642.04, 642.03, 633, 640, 641, or with permission of instructor.
Opened principally to students who intend to enroll in 738.01.
Supervised clinical course emphasizing the knowledge and skills needed in the criminal appellate and postconviction processes.

738.06 Consumer Protection Law Practicum
Su. 5 cr. S or U grade given on completion of the course.
Prereq.: 718.
Study of specific problems of consumer fraud and deception, and participation in the investigation and prosecution of selected civil and criminal cases. Day.

739 African Law
Sp. 3 cr.
Study of selected fundamental problems of legal development in context of evolving African countries, relationship between legal change and policies of social and economic development. Kindred.

793  P 1-6

**Individual Studies**

By special arrangement with the Dean's office, special problems or projects may be taken for credit under the supervision of members of the faculty. The credit granted varies in proportion to the magnitude of the project. In general, assignment of special problems will be limited to instances of exceptional student specialization, scheduling difficulties, and curricular irregularity.

794  P 1-6

**Group Studies**

Repeatable to a maximum of 20 cr. hrs.
Group study in selected areas of the law.

796  P 1-4

**Seminars**

A, W, Sp. 1-4 cr.; 1 or 2 qtr. sequence; for sequence seminar, credit given on completion of total cr. hrs. assigned.
Small group study and training in legal and non-legal research, expository writing, and various litigious and non-litigious functions of the practicing lawyer.

796.01 **Antitrust Law and Economics**
Prereq.: 623.
Evaluation of domestic antitrust law on the basis of current economic theories. (Interdepartmental Seminar of the Department of Economics and the College of Law.)

796.02 **Antitrust Law and International Cartelization**
Prereq.: 623.
Application of domestic antitrust policy to foreign operations of American corporations.

796.03 **Constitutional Problems**
Advanced constitutional questions, involved in evolution of judicial review, intergovernmental relationships, protection of civil liberties, special problems under Ohio Constitution.

796.04 **Social Legislation**
Federal wage and hour legislation, including: nature of employment relation; Fair Labor Standards Act; exemptions; compensable time; overtime on fluctuating workweek; child labor.

796.05 **Legal Problems of Foreign Trade and Investment**
Problems encountered by American business enterprises engaged in foreign trade or investment.

796.06 **Legal Regulation of Business Practice**
Regulation of competitive practices through legislative, administrative, and judicial action; equality of opportunity for small business; the Robinson-Patman Act.

796.07 **Legal Regulation of Devolution of Property**
Socio-legal problems raised by devolution of wealth through such arrangements as public welfare programs, union welfare funds, insurance, foundations, charitable trusts, and pension trusts.

796.08 **Problems in the Law of Evidence**
Prereq.: 603.
Advanced evidentiary questions involved in preparation for and trial of cases.

796.09 **Problems in Local Government Finance**
Taxes and financing of local governmental units, including power of and procedure for taxing, expending funds, financing improvements or services.

796.10 **Problems in Public Contracts**
Types of government contracts; governmental authority to make contracts; limitations, advertising; bids and awards; formal requisites; standard clauses; contractors' bonds; performance and termination; liabilities.

796.11 **The Functional Approach to Law**
Analysis of certain rules and situations to which they relate; evaluation of rules and of assumptions of cause and effect made as to those rules.

796.12 **Legal and Economic Problems in State and Local Taxation**
Prereq.: 623.
State taxation and intergovernmental tax relations in terms of law and fiscal economics. (Offered in cooperation with the Department of Economics.)

796.13 **Medical-Legal Problems**
Conflict in concept between disciplines of law and medicine in matters of causation, injury, disability, prognosis, aggravation and re-injury related to their use in proof of such elements in litigation.

796.14 **The Individual and His Government**
Government powers in democratic and totalitarian countries; relation of power to will of people; justice and fair hearing; personal freedoms surviving legislative and executive encroachments.

796.15 **Comparative Labor Law**
Prereq.: 613 or 630.
Problems in American labor law viewed from the standpoint of both American and foreign law; collective bargaining; the use of economic force; internal and inter-union affairs.

796.16 **Right of Privacy**
Individual's interests in freedom from publicity and in physical seclusion; particularly legal response to social and technological changes which threaten these interests.

796.17 **Regulated Industries**
Principal regulatory agencies, both federal and state, with respect to licensing, rate-making, mergers, and general supervision of business practices.

796.18 **International Law of Shares and Strategic Resources**
Processes of interaction, claim, and decision with respect to resources largely open to use by all states, including the ocean, “outer” space, air space, international rivers, canals, and polar areas.

796.19 **Selected Problems in Criminal Law and Procedure**
Purposes and effects of punishment; wiretapping; Uniform Arrest Act; right to counsel; habeas corpus and other postconviction remedies; treatment of criminal cases by mass communications.

796.20 **Research Seminar in Law**
Repeatable to a maximum of 6 cr. hrs.
Topics will change as specially scheduled in any quarter.

796.21 **Legal Controls of the Economy**
Study of State and Federal legislation affecting economic activity, including employment acts, antipoverty legislation, tariffs, financing laws, and legal basis of the Federal Reserve System.

796.22 **The Legal Implementation of Social Policy**
Interdisciplinary research and field work in institutions protective of children.
786.23 Jurisprudential Approaches to Decision Making
Considerations of conceptions of the role of law and lawyers in decision processes, with emphasis upon communication or goal values, drawing on contemporary behavioral and communications sciences, in order to develop problem-solving tools and procedures.

786.24 Syntactic Analysis and Other Tools in Statutory Drafting and Interpretation
A study of the role of the legislature in authoritative law-making with emphasis upon the need for a contextual approach to problems of interpretation, and the consideration of modern syntactic analysis in statutory drafting and interpretation.

786.25 Problems of Administration Law
Prereq.: 729 recommended.
An examination in detail of some of the more troublesome aspects of contemporary executive and administrative operations at federal and state levels.

786.26 Jury Trial
An examination of the role of juries including jury selection, standard instructions, special verdicts, law and fact, myths of jury trial and powers of juries vis-a-vis powers of administrative bodies.

786.27 International Criminal Law
Jurisdiction of tribunals over individuals committing acts considered criminal under international law but not local law; defenses urged; examination of piracy and war crimes.

786.28 Socio-Economic Environment of Law
An examination of selected aspects of the socio-economic environment which affect the scope, content, and effectiveness of legal practice, rules and institutions.

786.29 Welfare Law
Legal and policy problems of welfare law and welfare administration.

786.30 Urban Studies
Legal problems confronting inhabitants of major urban cities; effect on urban redevelopment; legal rights of services for poor.

786.31 Housing and Urban Development
Operation of and legal problems confronting governmental agencies concerned with housing and urban development in local communities.

786.32 Insurance
Organization and regulation of insurance carriers and marketing arrangements; rate-making; investment practices; reinsurance; solvency, rehabilitation and liquidation of companies.

786.33 Jurimetrics
Study of the use of mathematical techniques and computer systems in legal analysis, legal research, and judicial administration.

786.34 International Legal Problems of Community Health
Prereq.: 630 or 635.
Policy alternatives of United States and/or international organizations for the solution of selected health problems, e.g. population explosion, famine, medical brain drain, and environmental pollution.

786.35 Law and Economic Development
Study of the relationship between legal institutions and economic development; comparison of economic growth of the United States and developing nations.

786.36 Institutions of Legal Change
Examination and analysis of public and private institutions which play significant role in change of law in United States.

786.38 Legal Aspects of Totalitarian Government
Study of restrictions and impact of citizens' human, civil, political rights in totalitarian regimes; comparison with U.S. theory and practice; analysis of international agreements, policy.

786.39 Business Planning
Planning and drafting in field of business association; principally concerned with problems in general and limited partnerships, business trusts, and closely held corporations.

786.40 Estate Planning
Planning an effective and economical gift distribution of property interests; consideration of techniques and restrictions suggested by law of property, wills, future interests, insurance, and taxation.

786.41 Federal Tax Planning
Prereq.: 606.
Tax problems in business organizations, corporations, partnerships, and individual estates.

786.42 General Legal Planning
Representative types of personal and business transactions which confront general practitioner, including contracts, partnership agreements, purchase agreements, sales agreements, deeds, wills, and trusts.

786.43 Planning Through Negotiation
Planning negotiations; weighing legal, economic, and social factors and use of techniques for attainment of objectives.

786.44 Legislative Planning
Prereq.: 609.
Repeatable to a maximum of 6 cr. hrs.
Role of lawyer in advocating or opposing state and federal legislation; problems selected from past and current proposals before legislature.

786.45 Planning Seminar in Law
Repeatable to a maximum of 6 cr. hrs.
Topics will change as specially scheduled in any quarter.

786.46 Legal Administration of Natural Resources
Prereq.: 719 or 732 recommended.
Study of administration techniques for control and conservation of natural resources; consideration of problems of regulation, finance, management, and taxation.

786.47 Securities Regulation
Must enroll to a maximum of 4 cr. hrs.
Prereq.: 709.
Study of recent legal developments affecting security trading market, brokers, exchanges and NASD, investment companies, and other institutional investors.

786.48 Trade Regulation
Must enroll to a maximum of 6 cr. hrs.
Prereq.: By designation of instructor.
Study of current problems of trade regulations, e.g. antitrust, unfair trade practices, patents, food and drug law.

786.49 Problems in Torts and Other Deprivations
Must enroll to a maximum of 6 cr. hrs.
Study in frontier areas of torts (no-fault compensation plans) and related areas of remedies for deprivations of well-being and respect.

786.50 Legal Profession
Selected topics on the study of the legal profession with emphasis on behavioral sciences approaches including comparisons with other occupations and professions.

**Linguistics**

Office: 256 Dieter Cunz Hall of Languages, 1841 Millikin Road

Associate Professor Geis (Chairman); Professors Lehiste and Zwicky; Associate Professors Callaghan, Drachman, and Stampe; Assistant Professors Dowty and Jeffers.

See also the course listings in English, the foreign languages, Romance Linguistics.

<tbody>
<tr>
<td>201 U 5</td>
<td></td>
<td>Introduction to Language</td>
<td>A, W, Sp. 5 cl. A general survey of language and languages, and the ways available to study them, with English as the focal language.</td>
</tr>
<tr>
<td>221 U 5</td>
<td></td>
<td>Elementary Hindi</td>
<td>A. 5 cl., 3 tab. hrs. Sound and writing systems, morphological patterns, basic sentences with brief dialogues and texts.</td>
</tr>
<tr>
<td>222 U 5</td>
<td></td>
<td>Elementary Hindi</td>
<td>W. 5 cl., 3 lab. hrs. Prereq.: 221. Continuation of 221; reading of simple materials.</td>
</tr>
<tr>
<td>224 U 5</td>
<td></td>
<td>Intermediate Hindi</td>
<td>A. 5 cl. Prereq.: 223 or one yr. of elementary Hindi. Oral and written practice; continuation of Hindi grammar and reading of contemporary literary texts.</td>
</tr>
<tr>
<td>271 U 5</td>
<td></td>
<td>Elements of Psycholinguistics</td>
<td>W. 5 cl. Prereq.: 201. Linguistics and the structure, acquisition, function, and malfunction of language.</td>
</tr>
<tr>
<td>285 U 5</td>
<td></td>
<td>Language Change and Development</td>
<td>Sp. 5 cl. Prereq.: 201. Survey of the kinds of linguistic change; discussion of the external influences (social, cultural, political, etc.) that affect the historical development of languages.</td>
</tr>
<tr>
<td>600 U G 5</td>
<td></td>
<td>Phonetics</td>
<td>A. 5 cl. Prereq.: 601, concur. registration in 601, or an equiv. course in linguistics or phonetics. Principles of articulatory phonetics, with some discussion of acoustic phonetics; practice in the production, recognition, and transcription of sounds in various languages of the world.</td>
</tr>
<tr>
<td>602 U G 4</td>
<td></td>
<td>Introduction to Syntax</td>
<td>W, Sp. 3 cl., 2 lab. hrs. Theories of Syntax; principles of syntactic description.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Introduction to Syntax I</td>
<td>W. Prereq.: 601. 602.02 Introduction to Syntax II 602.02 Sp. Prereq.: 602.01.</td>
</tr>
<tr>
<td>603 U G 4</td>
<td></td>
<td>Introduction to Phonology</td>
<td>W, Sp. 3 cl., 2 lab. hrs. Introduction to phonological analysis and the principles governing the structure, acquisition, and change of phonological systems; survey of major phonological theories.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Introduction to Phonology I</td>
<td>W. Prereq.: 600 and 601.</td>
</tr>
</tbody>
</table>
603.02 Introduction to Phonology II
Sp.
Prereq.: 603.01.

609 U G 3
Morphology
A. 3 cl.
Prereq. or concur.: 601 or permission of instructor. Designed to give students a structural approach to grammatical analysis, and to delineate the evolution from structural to transformational analysis.

611 U G 5
Introduction to Historical Linguistics
Sp.
Prereq.: 601.
Introduction to the methods and principles of historical linguistics.

621* U G 5
Elementary Sanskrit
A.
Prereq.: 601 and permission of instructor.
Introduction to Indo-European, Indic, and Sanskrit; reading of introductory texts.

622* U G 5
Classical Sanskrit
W.
Prereq.: 621 or permission of instructor.
Reading of classical Sanskrit texts.

623* U G 5
Topics in Indic Linguistics
Sp.
Prereq.: 622 or permission of instructor. Repeatable to a maximum of 15 cr. hrs. Possible topics include advanced classical Sanskrit, introductory Vedic Sanskrit, Indo-Iranian or Indo-Aryan linguistics, or studies in the ancient Indian grammarians.

650 U G 4
Field Methods in Linguistics
650.01 Field Methods I
W. 4 cl.
Prereq.: 600 or permission of instructor. Methodology for determining the phonological system of a previously unknown language through the use of a native informant.

650.02 Field Methods II
Sp. 3 cl.
Prereq.: 650.01.
Methodology for determining the morphological system of a previously unknown language through the use of a native informant.

671† U G 5
Psycholinguistics
Sp. 4 cl.
Prereq.: 603.02.
The contribution of linguistic theory to the study of the acquisition, maturation, and functioning of language skills. Brachman.

672 U G 3-5
Language Description
A, W, Sp. 3-5 cr.
Prereq.: 601.
Repeatable to a maximum of 30 cr. hrs. Informant techniques and (if available) textbooks and published linguistic analyses are employed in analyzing and describing a language.

673 U G 5
History of Linguistics
Sp. 5 cl.
Prereq.: 601.
Historical survey of views on language; examination of linguistic thought in historical periods, or of writings on single topics in diverse periods and traditions.

681† U G 5
Algebraic Linguistics
W. 5 cr.
Prereq.: 601 and permission of instructor.
Formal properties of grammar and automata; relations between linear, context-free and context-sensitive grammars and finite, pushdown-storage and linear-bound automata; properties of transformational grammars. Reckers.

685 U G 3
Languages in Contact
W. 3 cr.
Prereq.: 601.
Study of the effects of language contact on the structure of the involved languages; of the characteristics of the individuals and communities involved in language contact.

683 U G 1-5
Individual Studies
Prereq. or concur.: 601 or permission of instructor. Repeatable to a maximum of 40 cr. hrs.

684 U G 1-5
Group Studies
Prereq.: 601.
Repeatable to a maximum of 30 cr. hrs. Study of topics not regularly scheduled for seminars in linguistics, under the direction of a staff member.

695 U G 5
Seminar in Anthropological Linguistics
Sp.
Prereq.: Anthro. 575 or permission of instructor. Repeatable to a maximum of 20 cr. hrs. Callaghan.

702 U G 5
Practicum in Syntax
A. 5 cr.
Prereq.: 602.02.
Argumentation and methodology in syntax; extensive critical reading accompanied by grammar construction and problem solving.
H783  U  3-5
Honors Course
Prereq.: 4th yr. standing and the completion of departmental Honors requirements with a grade of A in at least half of the Linguistics courses, including approved related courses; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 2 quarters are required of candidates for the degree Bachelor of Arts with distinction in Linguistics. Repeatable to a maximum of 15 cr. hrs.
Informal conferences to allow full scope to the initiative of the student, who will prepare an Honors thesis in consultation with the instructor.

795  U G 3-5
Seminar in Linguistics
A, W, Sp.  3-5 cl.
Prereq.: 602 and 603 or permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
A selected group study, with emphasis on individual writing and presentation.

801  G 5
Historical Linguistics I
A.  5 cl.
Prereq.: 601.
An introduction to the methods, conventions, and literature of comparative-historical linguistics with primary attention to the comparison and reconstruction of Indo-European phonological systems.

802  G 5
Historical Linguistics II
W.  5 cl.
Prereq.: 801.
Advanced work in the comparison and reconstruction of morphological, and syntactic systems, primarily Indo-European; detailed examination of some of the results of past and current scholarship.

803  G 5
Topics in Indo-European
A, W, Sp.  5 cl.
Prereq.: 802.
Repeatable to a maximum of 30 cr. hrs.
Study of various Indo-European languages and language families and exploration in depth of specific problems in Indo-European grammar.

812  G 5
Seminar in Semantics
Sp.  5 cl.
Prereq.: 602.02; a course in symbolic logic recommended.
Accounts of semantic judgments in languages, especially within the theory of generative grammar; relationships between syntax, semantics, and language use.

820  G 5
Seminar in Syntax
W.
Prereq.: 602.02.
Repeatable to a maximum of 15 cr. hrs.
Advanced topics in syntactic analysis.

821  G 5
Seminar in Phonology
W.
Prereq.: 603.02.
Repeatable to a maximum of 15 cr. hrs.
Advanced topics in phonological analysis.

822  G 5
Seminar in Historical Linguistics
A.
Prereq.: 802 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Advanced topics in methods and principles of diachronic analysis.

825  G 5
Seminar in Advanced Phonetics
W.  3 cl., 2 lab. hrs.
Prereq.: 600, 601, and permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Study of specific problems in articulatory and acoustic phonetics at an advanced level.

993  G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Assigned reading and individual research.

999  G Arr.
Research in Linguistics
Research for thesis purposes only.

Mathematics
Office: 150 Mathematics Building, 231 West 18th Avenue

101  Basic Mathematics
Not open to students with credit for any Math. course except 180.
101.01 Basic Mathematics I  U 3
Su, A, Sp.
Prereq.: Placement on basis of OSU Math. Placement Test.
A review of the elements of basic high school algebra using programmed materials; topics include sets, fundamental properties of numbers, graphing, equations, functions, factoring polynomials.

101.02 Basic Mathematics II
Prereq.: 101.01.
A review of the elements of basic high school algebra using programmed materials; topics include rational expressions, quadratic equations, inverse functions, exponential and logarithmic function.

105 Principles of Mathematics I
Su, W, Sp. 5 cl.
Development of basic ideas on arithmetic, algebra, and geometry through a study of the structure of selected mathematical systems.

106 Principles of Mathematics II
A, Sp. 5 cl.
Prereq.: 105 or permission of dept.
Continuation of 105.

107 Geometry for Elementary Teachers
Su, A. 5 cl.
Prereq.: 105 or permission of department.
Selected topics in geometry appropriate for prospective elementary school teachers.

108 Introduction to Mathematics I
A. 5 cl.
Prereq.: Open to freshmen who qualify for Level I in English Placement, but who do not qualify for Math.
151 or higher on the basis of the OSU Math. test.
Exceptions may be made by special permission of the Department of Mathematics.
Introduction to basic ideas of mathematics for students in humanities, life, and social sciences.

109 Introduction to Mathematics II
W. 5 cl.
Prereq.: 108.

110 Introduction to Mathematics III
Sp. 5 cl.
Prereq.: 109.

115 Mathematics for the Behavioral, Economic, and Social Sciences
Topics in mathematics with applications to the non-physical sciences, including analytic geometry, calculus, linear algebra, and linear programming; applications.

115.01 Algebra
Prereq.: At least Level 2 placement on CSU Math. Test or at least a grade of C in 101, or permission of instructor.
Not open to students with credit for 116, 120.01, 120.02, 121, 150, 159.01, or 159.02.
Basic properties of real numbers, graphing, functions, and relations.

115.02 Elementary Linear Algebra
Prereq., or concur.: 115.01, 120.01 or 159.01, or permission of instructor.
Not open to students with credit for 116.
Basic topics from linear algebra and linear programming.

115.03 Calculus with Economic Applications I
Prereq.: 115.02 or permission of instructor.
Not open to students with credit for 117.
The derivative, economic applications of the derivative.

115.04 Calculus with Economic Applications II
Prereq.: 115.03 or permission of instructor.
Not open to students with credit for 117.
Logarithmic and exponential functions, the integral, economic applications of the integral.

116 Mathematics for the Behavioral, Economic, and Social Sciences I
Su, A, W, Sp. 5 cl.
Prereq.: 101 or satisfactory score on OSU Math. test.
Not open to students with credit for 115.01, 115.02, 121, or 150, or Math. courses having these as prereq.
The sequence 116, 117 treats topics in mathematics with applications to the non-physical sciences. Topics will include analytic geometry, calculus, linear algebra, linear programming, and graph theory; applications.

117 Mathematics for the Behavioral, Economic, and Social Sciences II
Su, A, W, Sp. 5 cl.
Prereq.: 116, 121, 150, 115.01, 120.01, or 159.01 or equiv.
Not open to students with credit for 115.03 or 115.04.
A continuation of 116.

118 Mathematics for the Behavioral, Economic, and Social Sciences III
Sp.
Prereq.: 117 and permission of instructor.
Continuation of 117.

120 Mathematics for the Business, Social, and Biological Sciences
Introduction to calculus, probability, and statistics.

120.01 Algebra
Prereq.: At least Level 2 placement on CSU Math. Test or at least a grade of C in 101, or permission of instructor.
Not open to students with credit for 115.01, 121, or 159.01.
Basic properties of real numbers, graphing, functions, and relations.
120.02 Calculus I
Prereq. or concur.: 115.01, 120.01, or 159.01, or permission of instructor.
Not open to students with credit for 121.
Introductory differential calculus.

120.03 Calculus II
Prereq.: 120.02 or permission of instructor.
Not open to students with credit for 122.
Differential calculus, series.

120.04 Calculus III
Prereq.: 120.03 or permission of instructor.
Not open to students with credit for 122.
Integral calculus.

120.05 Descriptive Statistics
and Finite Probability
Prereq.: 120.04 or permission of instructor.
Not open to students with credit for 123.
Descriptive statistics, random variables, and probability in the discrete case.

120.06 Probability and Statistics
Prereq.: 120.05 or permission of instructor.
Not open to students with credit for 123.
Probability, random variables, distribution functions, estimation of parameters, tests of hypotheses and nonparametric statistical inference.

121 U 5
Mathematics for the Business, Social, and Biological Sciences I
Su, A, W, Sp.  5 cl.
Prereq.: Satisfactory score on OSU Placement Test or at least a C in Math. 101.
Not open to students with credit for 115.01, 116, 120.01, 120.02, or 150 or Math. courses having these as prereqs.
Algebra, introductory differential calculus.

122 U 5
Mathematics for the Business, Social, and Biological Sciences II
Su, A, W, Sp.  5 cl.
Prereq.: 121.
Not open to students with credit for 120.03 or 120.04.
Differential and integral calculus, series.

150 U 5
Algebra and Trigonometry
Su, A, W, Sp.  5 cl.
Prereq.: 101 or satisfactory score on OSU Math. test.
Not open to students with credit for 115.01, 116, 121, 159.01, or 159.02 or Math. courses having these as prereqs.
Inequalities, functions, graphs, exponential, logarithmic and trigonometric functions and their graphs, complex numbers, inverse functions.

151 U 5
Calculus and Analytic Geometry
Su, A, W, Sp.  5 cl.
H151 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 150 or Level I Placement on OSU Math. test.
Not open to students with credit for 159.03 or 159.04.
Lines, slopes, derivatives, limits, differentiation, rules, mean-value theorem, applications of derivatives to: curve sketching, maxima and minima, linear motion, related rates, approximations, conics.

152 U 5
Calculus and Analytic Geometry
Su, A, W, Sp.  5 cl.
H152 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 151.
Continuation of 151. Approximating areas, the integral, integration, formulas, applications of integration, inverse functions, logarithmic and exponential functions, hyperbolic functions, and integration techniques.

153 U 5
Calculus and Analytic Geometry
Su, A, W, Sp.  5 cl.
Prereq.: 152.
Continuation of 152. Polar coordinates, relation of axes, vectors, velocity, acceleration, space vectors and three dimensional analytic, geometry, cylindrical, and spherical coordinates; linear systems, matrices, and characteristic values.

159 U 5
Calculus and Analytic Geometry
Topics include functions, limits, differential calculus, conics and integral calculus; applications.

159.01 Algebra
Prereq.: 101 or Level 2 placement on OSU Math. Test or permission of instructor.
Not open to students with credit for 115.01, 120.01 or 150.
Basic properties of real numbers, graphing, functions, and relations.

159.02 Elementary Functions
Prereq. or concur.: 115.01, 120.01 or 159.01, or permission of instructor.
Not open to students with credit for 150.
Exponential, logarithmic, trigonometric and inverse trigonometric functions, and complex numbers.

159.03 Calculus and Analytic Geometry I
Prereq.: 159.02 or permission of instructor.
Not open to students with credit for 151.
Limits and continuity and the derivative.

159.04 Calculus and Analytic Geometry II
Prereq.: 159.03 or permission of instructor.
Not open to students with credit for 151.
Basic properties of differentiable functions and applications of the derivative.

159.05 Calculus and Analytic Geometry III
Prereq.: 159.04 or permission of instructor.
Not open to students with credit for 152.
Approximating areas, the integral, integration, applications of the integral, and exponential and logarithmic functions.

159.06 Calculus and Analytic Geometry IV
Prereq.: 159.05 or permission of instructor.
Not open to students with credit for 152.
Inverse trigonometric functions, hyperbolic functions, and techniques of integration.

H163 U 5
Calculus
Sp.
Prereq.: 152 and permission of dept.
163, 264, 265, substitute for 153, 254, 550, and 551.
A rigorous treatment of vector spaces and limits, continuity and differentiability of multi-variable functions.

180 U 5
Insights into Mathematics
A, W, Sp. 5 cl.
Prereq.: Permission of dept.
Not open to students who need mathematics as a tool.
This is a liberal arts course intended to involve students with mathematics; topics covered will vary with the instructor.

180 U 5
Elementary Analysis I
A. 5 cl.
Prereq.: Permission of dept.
This sequence substitutes for Math. 151, 152, 153, and 156.
Special course sequence for superior students.

181 U 5
Elementary Analysis II
W. 5 cl.
Prereq.: Permission of dept.
Continuation of 180.

182 U 5
Elementary Analysis III
Sp. 5 cl.
Prereq.: Permission of dept.
Continuation of 181.

184 U 2-5
Special Topics in Mathematics
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.

205 (545) U 5
Applications of Mathematics
W, Sp. 5 cl.
Prereq.: Ed. standing and 152 or Statistics 421.
Approximately half of the course will be devoted to a study of probability and statistics; other topics will be chosen to illustrate applications of mathematics.

221 U 5
Mathematics for the Business, Social, and Biological Sciences IV
A.
Prereq.: Permission of instructor.
Continuation of 223.

254 U 5
Calculus and Analytic Geometry
Su, A, W, Sp. 5 cl.
Prereq.: 153.
Continuation of 153. Partial derivatives, multiple integrals, infinite series.

255 U 5
Differential Equations and Their Applications
Su, A, W, Sp. 5 cl.
Prereq.: 264.
Not open to students with credit for 556.
Ordinary differential equations with particular emphasis on linear differential equations, systems of differential equations, applications to electrical, mechanical, and chemical systems.

H264 U 5
Calculus
A.
Prereq.: 163.
A rigorous treatment of differentials, Jacobians, line integrals, multiple integrals, and Fubini's theorem.

H265 U 5
Calculus
W.
Prereq.: 264.
Stokes' theorem, Green's theorem, changes of variables, implicit and inverse function theorems.

H280 U 5
Linear Algebra
A, Sp. 5 cl.
Prereq.: 192.

H281 U 5
Functions of Several Variables I
W. 5 cl.
Prereq.: 290 and permission of dept.
Topology of n-space; convexity, differentiation, maxima and minima, inverse and implicit function theorems.

H282 U 5
Functions of Several Variables II
Sp. 5 cl.
Prereq.: 291 and permission of dept.
Lebesgue integral; manifolds and forms in n-space; integration on manifolds; stokes and divergence theorem.

294 U 2-5
Special Topics in Mathematics
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Designed to give groups of able students an opportunity to pursue special studies not otherwise offered.

415 U 5
Ordinary and Partial Differential Equations
W, Sp. 5 cl.
Prereq.: 254.
Ordinary, partial, linear, and non-linear differential equations, fourier series, boundary value problems, eigen-value theory, and bessel functions.
Vector Analysis and Complex Variables
A, Sp. 5 cl.
Prereq.: 254.
Vector algebra and vector operators, line integrals, analytic functions, complex integral theorems, power series, residues, and conformal mapping.

Intermediate Analysis
A, Sp. 5 cl.
Prereq.: 254.
Open only to students enrolled in secondary education.
Introduction to analysis; development of the real numbers, limits, sequences and series, derivatives, integrals.

Matrices and Linear Algebra
W, Sp. 4 cl.
Prereq.: 153.
Not open to students with credit for M290 or 571.
Matrices, systems of equations, \( R^n \), determinants, vector spaces; applications.

Fundamentals of Mathematics I
A. 4 cl.
Prereq.: Permission of instructor.
Not open for graduate credit to majors in Math.
Emphasis on fundamentals of mathematics and designed for advanced students from areas not requiring intensive mathematical training. Topics include algebra, the number system, induction, theory of equations, progressions, combinations, and permutations, probability, determinants and matrices, inequalities, analytic geometry, differential and integral calculus.

Fundamentals of Mathematics II
W. 4 cl.
Prereq.: 501.
A continuation of 501.

Fundamentals of Mathematics III
Sp. 4 cl.
Prereq.: 502.
A continuation of 502.

History of Mathematics
A, W. 5 cl.
Prereq.: Ed. standing and 505 or 507 or permission of instructor.
Development of mathematics from primitive origins to present form; topics include: development of arithmetic, algebra, geometry, trigonometry, and calculus.

Elementary Linear Algebra for Secondary School Teachers
A, W. 5 cl.
Prereq.: Ed. standing and 254.
Fundamentals of linear algebra with emphasis on matrix algebra determinants, systems of linear equations, rank, vector spaces, and linear transformations.

Elementary Abstract Algebra for Secondary School Teachers
W, Sp. 5 cl.
Prereq.: 505.
An introduction to abstract algebra with topics from number theory; elementary ring, field, and group theory.

Advanced Geometry I
A, W. 5 cl.
Prereq.: 152.
Advanced topics from Euclidean Geometry.

Partial Differential Equations and Boundary Value Problems
A, W. 3 cl.
Prereq.: 255 or 556.
Not open to students with credit for 412 or 557.
Among the topics considered are: Fourier series, orthogonal relations, vibrating string, steady state heat, Laplace transform, and applications.

Vector Analysis for Engineers
A, W. 3 cl.
Prereq.: 255 or 556.
Not open to students with credit for 413 or 551.
Vector algebra, vector operators, line integrals, vector integral theorems, curvilinear coordinates; applications.

Complex Variables for Engineers
W, Sp. 3 cl.
Prereq.: 513 or prereq. or concur. Elec. E. 510.
Not open to students with credit for 414.
Introduction to complex variables, analytic functions, complex integral theorems, power series, residues, conformal mapping.

Probability I
A. 5 cl.
Prereq.: 254.
Combinatorial probability, examples of distributions, expectation, variances, generating functions, laws of large numbers, central limit theorem.

Probability II
W. 5 cl.
Prereq.: 530.
Continuation of 530; markov chains, stochastic processes.
545 U G 5
Mathematical Logic I
W. 5 cl.
Prereq.: 153 or permission of instructor.
A first course in the study of formal logical systems and
their applications to the foundations of
mathematics; topics include: definition of
mathematical proof; number theory, set theory, and
analysis formalized within the predicate calculus;
theorems of Gödel and Church; recursive function
theory and idealized digital computers.

546 U G 5
Mathematical Logic II
Sp. 5 cl.
Prereq.: 545.
A continuation of 545.

550 U G 5
Advanced Calculus I
Su, A, W, Sp. 5 cl.
Prereq.: 254 or permission of chairman.
A rigorous presentation of limits, derivatives, mean
value theorems, definite integrals, sequences, and
series.

551 U G 5
Calculus of Several Variables
551.01 Vector Analysis
A, Sp. 5 cl.
Prereq.: 254.
Not open to students with credit for 416, 513, 551, or
551.02.
Not recommended for Math. majors.
Vector operations in three dimensions, vector
operators, surface area, the theorem of Green and
Stokes, the divergence theorem; applications.

551.02 Advanced Calculus II
Su, A, W, Sp. 5 cl.
Prereq.: 550.
Not open to students with credit for 513 or 551.
A continuation of 550 for functions of several
variables and vector analysis.

552 U G 5
Introduction to the Theory of Functions
of a Complex Variable I
Su, W. 5 cl.
552.01 Complex Variable I
H552.01 (Honors) may be available to students
enrolled in a college Honors program; others by
permission of dept.
Prereq.: 254.
Not open to students with credit for 416, 514, 552, or
552.02.
Not recommended for Math. majors.
Topics discussed include power series expansions,
the formula of Cauchy, residues, conformal
mappings, and elementary functions in the complex
domain.

552.02 Complex Variable I
H552.02 (Honors) may be available to students
enrolled in a college Honors program; others by
permission of dept.
Prereq.: 550.
Not open to students with credit for 552 or 552.01.
The Cauchy integral theorem and its consequences,
elementary functions and mappings, representation
theorems, residue theory.

553 U G 5
Introduction to the Theory of Functions
of a Complex Variable II
Su. 5 cl.
Prereq.: 552.
A continuation of 552.

556 U G 5
Differential Equations
A, W. 5 cl.
556.01 Differential Equations
H556.01 (Honors) may be available to students
enrolled in a college Honors program; others by
permission of dept.
Prereq.: 254.
Not open to students with credit for 255, 415, or
556.02.
Equations of first order and second order, linear
equations, series solutions, approximate solutions,
systems of ordinary equations; Legendre and Bessel
equations.

556.02 Differential Equations
H556.02 (Honors) may be available to students
enrolled in a college Honors program; others by
permission of dept.
Prereq.: 254 and 571.
Not open to students with credit for 556.01.
First order equations, first order linear systems,
functions of matrices, series solutions, existence and
uniqueness theorems.

557 U G 5
Orthogonal Systems and Differential Equations
W, Sp. 5 cl.
Prereq.: 556.01 or 556.02, or 255 and permission of
instructor.
Fourier series, orthogonal systems; Sturm-Liouville
problems; integral transforms, generalized functions;
aplications to ordinary and partial differential
equations.

560 U G 5
Topology
Sp. 5 cl.
Prereq.: 254 or permission of chairman.
Sets and functions, metric spaces, completeness,
Baire's Theorem, continuous mappings, Euclidean
spaces, compactness, connectedness, topological
spaces.

570 U G 5
Elementary Modern Algebra
W, Sp. 5 cl.
Prereq.: 571 and 573.
An introduction to abstract algebra with topics from
elementary ring, field, and group theories; special
emphasis on ring of integers, congruences, polynomial
domains, permutation groups.

571 U G 5
Introduction to Linear Algebra
Su, W, Sp. 5 cl.
H571 (Honors) may be available to students enrolled
in a college honors program; others with permission
of dept.
Prereq.: 153 or permission of chairman.
Not open to students with credit for H590 or 471.
Vector spaces, linear maps, matrices, inner product spaces, systems of equations, determinants, and spectral theory.

573 U G 5
Elementary Number Theory
A, W. 5 cl.
Prereq.: 153 or permission of chairman.
Utilization of concrete examples to introduce concepts of modern algebra; prime numbers, congruences, Diophantine equations, elementary combinatorial analysis.

574 U G 5
Geometry
Sp. 5 cl.
Prereq.: 570 and 571.
Euclidean and non-Euclidean geometry, emphasizing algebraic connections; affine and projective planes, duality. Topics from: geometry of groups, finite planes, Hilbert's postulates, n-dimensional spaces, continuous geometry.

575 U G 5
Combinatorial Mathematics and Graph Theory
Sp.
Prereq.: 571 or permission of instructor.
Some classical puzzles of recreational mathematics; matching theory, graph theory, network flows, and optimization; enumeration techniques; combinatorial designs and coding theory.

577 U G 5
Discrete Algebraic Structures
A, Sp. 5 cl.
Prereq.: 571.
Not open to students with credit for Math. 570.
An introduction to discrete and finite algebraic structures with applications to computer and information science.

590 U 5
Algebra I
A. 5 cl.
Prereq.: 254 and permission of instructor.
Not open to students with credit for 570.
The sequence 580, 581, 582 is an alternative to 570, 571, 573; an integrated sequence of topics from elementary number theory and algebraic structures.

591 U 5
Algebra II
W. 5 cl.
Prereq.: 580.
Not open to students with credit for 570.
Continuation of 580.

592 U 5
Algebraic Structures III
Sp. 5 cl.
Prereq.: 591.
Continuation of 591; further topics in group and field theory, and their interrelation; Galois theory.

593 U 2-5
Individual Studies in Mathematics
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

594 U 2-5
Group Studies in Mathematics
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

601 U 5
Mathematical Methods in Science I
A. 5 cl.
Prereq.: 15 cr. hrs. of Math, at the 400-500 level or permission of instructor. The recommended preliminary courses are 500, 551, 552.
Theory of determinants and matrices, real quadratic and Hermitian forms, groups and vector spaces, applications to physics and engineering.

602 U 5
Mathematical Methods in Science II
W. 5 cl.
Prereq.: 601.
Linear differential equations, solutions about singular points; Fourier series; Sturm-Liouville problems; Bessel functions and Legendre polynomials; boundary value problems associated with Laplace's equation.

603 U 3
Stability Problems in Differential Equations
Sp. 3 cl.
Prereq.: 255 or 556.
Existence and uniqueness of solutions; initial conditions; periodic solutions; Krylov-Bogoliuboff method; graphical and numerical methods; applications to vibrational problems, relaxation theory, and nonlinear mechanics.
608 U G 5
Advanced Geometry II
Sp. 5 cl.
Prereq.: 507 and permission of instructor.
Continuation of 507; selected topics.

611 U G 5
Principles of Mathematics for Science and Mathematics Teachers
Su. 5 cl.
Prereq.: Permission of instructor.
(NSF students only).
Introduction to modern mathematics, sets, functions, topology.

612 U G 5
Modern Geometry for High School Teachers
Su. 5 cl.
(NSF students only).
Coordinate geometry, use of vectors in geometry, matrix operations, characteristic values, diagonalization of quadratic forms.

613 U G 5
Modern Algebra for High School Teachers
Su. 5 cl.
(NSF students only).
A basic modern algebra course for teachers of algebra; topics will include groups, rings, integral domains, fields, an axiomatic approach to high school algebra.

614 U G 5
Analysis for High School Teachers
Su. 5 cl.
(NSF students only).
Extension of the rational number concept to the real number concept; functions, limit concept, sequences, continuity, functions, derivative, integral series, applications of the calculus.

635 U G 3
Game Theory
Sp. 3 cl.
Prereq.: 571 or permission of instructor.
Concept of a game, minimax theorem; linear programming.

651 U G 4
Introduction to Real Analysis I
A. 4 cl.
H651 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: Permission of instructor.
Real numbers, infinite sequences and series.

652 U G 4
Introduction to Real Analysis II
W. 4 cl.
H652 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 651.
Classes of functions, Riemann-Stieltjes integral.

653 U G 4
Introduction to Real Analysis III
Sp. 4 cl.
H653 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 652.
Measurable sets and functions, elementary theory of the Lebesque integral.

654 U G 3
Complex Variables
A. 3 cl.
Prereq.: Permission of instructor.
Recommended primarily for graduate students in science and engineering.
Not open to students with credit for 514 or 552.
Complex arithmetic, geometry, conformal mapping, analytic functions, and residues.

655 U G 3
Elementary Topology I
A. 3 cl.
Prereq.: Permission of dept.
Continuity, compactness, connectedness in metric and topological spaces; fundamental group and covering spaces.

656 U G 3
Elementary Topology II
W. 3 cl.
Prereq.: 655.
Continuation of 655.

657 U G 3
Elementary Topology III
Sp. 3 cl.
Prereq.: 656.
Continuation of 655.

662 U G 5
Calculus of Variations
A. 5 cl.
Prereq.: 255 or 556; 551.
Variation of a functional; Euler-Lagrange equations; Hamilton-Jacobi theory; second variation; Theory of field; Noether theorem; direct methods; applications to geometry and physics.

670 U G 4
Algebra I
A. 4 cl.
H670 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: Permission of instructor.
Elementary number theory, polynomials, Euclidean domains; elementary theory of groups and fields; vector spaces and modules over a ring; linear transformations, determinants, normal form of matrices, quadratic forms.
671 UG 4
Algebra II
W. 4 cl.
H671 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 670.
Continuation of 670.

672 UG 4
Algebra III
Sp. 4 cl.
H672 (honors) may be available to students enrolled in a college honors program; others with permission of dept.
Prereq.: 671.
Continuation of 671.

674 UG 5
Topics in Combinatorial Mathematics
A. 5 cl.
Prereq.: 672 or permission of instructor.
Permutations, combinations, partitions, Latin squares, finite geometries.

680 UG 5
Projective Geometry
Su, A. 5 cl.
Prereq.: 672.
The combinatorial and algebraic aspects of projective geometry, including non-Desarguesian and finite projective planes, coordination, the theory of collineations, incidence matrices, Latin squares.

693 UG 1-5
Individual Studies
Individual conferences, assigned readings, and reports on minor investigations.

694 UG 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.

701 UG 5
Mathematical Methods in Science III
Sp. 5 cl.
Prereq.: 591, 601, or permission of instructor.
Introduction to tensor analysis with applications to geometry; elements of the calculus of variations with applications to physical problems.

702 UG 3
Integral Equations and Eigenvalue Problems I
A. 3 cl.
Prereq.: 601 and 602.
Orthogonal functions, linear, integral equations of first and second kinds, relations to ordinary differential equations, Volterra's equation, boundary value problems, practical methods of solution.

703 UG 3
Integral Equations and Eigenvalue Problems II
W. 3 cl.
Prereq.: 702.
Distribution of eigenvalues, self-adjointness, definiteness, Green's functions, minimal properties, approximation of eigenvalues, eigenfunction expansions, Ritz method, iteration method, matrix eigenvalue problems, finite differences.

704* UG 3
Operational Calculus
Sp. 3 cl.
Prereq.: 601 and 602.
Laplace transformation in real domain, applications in physics and engineering; differential equations; Laplace transformation in complex domain, application to partial differential equations; Fourier transform, applications.

705 UG 3
Special Functions
W. 3 cl.
Prereq.: 601 and 602.
Power series developments, asymptotic expansion, gamma functions, cylindrical functions, spherical harmonics, orthogonal polynomials, hypergeometric functions, theta functions, elliptic functions and integrals, numerical techniques.

706 UG 5
Applied Complex Analysis
Sp. 5 cl.
Prereq.: 414, or 552 and 556. Students are urged to fulfill the prereq. with 552.
Basic facts of complex analysis; conformal mapping; properties of elementary functions, Schwartz-Christoffel formula; distortion theorems; uniformization; applications to electromagnetic fields, fluid dynamics, heat flow.

710 UG 5
Projective Geometry I
A. 5 cl.
Prereq.: Permission of instructor.
Desarguesian spaces; lattice-theoretic characterization; introduction of coordinates; fundamental theorem on collineations; correlations.

711 UG 5
Projective Geometry II
W. 5 cl.
Prereq.: 710 or permission of instructor.
Non-Desarguesian planes; collineations; coordinates; Lenz-Barlotti theorem; Bruck-Ryser theorem; existence and non-existence results; selection of related topics.

722 UG 4
Theory of Probability I
A. 3 cl., 1 lab. hr.
Prereq.: 653.
Fundamentals of measure theory, general probability distributions, Lebesgue integral, and conditional expectations.
723 U G 4
Theory of Probability II
W. 3 cl., 1 lab. hr.
Prereq.: 722.
Characteristic functions, limit theorems, Markov processes, and stationary processes.

724 U G 4
Theory of Probability III
Sp. 3 cl., 1 lab. hr.
Prereq.: 723.
Continuation of 723.

730 U G 4
Mathematical Foundations of Probability Theory
A. 3 cl., 1 lab. hr.
Prereq.: 724 or permission of instructor.
Martingales; selected topics from stochastic processes.

737 U G 3
Mathematical Information Theory I
W. 3 cl.
Prereq.: Either 522, 722, 830, or permission of instructor.
Probabilistic coding theory and coding theorems.

738 U G 3
Mathematical Information Theory II
Sp. 3 cl.
Prereq.: 670, and 522 or 722 or 830.
Algebraic coding theory; group codes.

741 U G 3
Mathematical Foundations of the Design and Use of Automatic Systems I
A. 3 cl.
Prereq.: Grad. standing or permission of instructor.
Boolean operations; reduction of systems of Boolean functions; turing machines and general recursive functions; application to problems relating to design and use of automatic systems.

742 U G 3
Mathematical Foundations of the Design and Use of Automatic Systems II
W. 3 cl.
Prereq.: 741 and grad. standing or permission of instructor.
Continuation of 741.

743 U G 3
Mathematical Foundations of the Design and Use of Automatic Systems III
Sp. 3 cl.
Prereq.: 742 and grad. standing or permission of instructor.
Continuation of 742.

7491 U G 5
Advanced Mathematical Logic I
A. 5 cl.
Prereq.: 545 or 670.
A study of the axiomatic method; the classical theorems of Skolem and Gödel; some modern results about modelclasses and the theory of definability; axiomatic number-theory and set-theory.

750 U G 5
Real Analysis I
Su. A. 5 cl.
Prereq.: 653.
Relative extremes in partial orders; additive and countable additive set functions; extensions of set functions; integration differentiation, applications.

751 U G 5
Real Analysis II
W. 5 cl.
Prereq.: 750.
Continuation of 750.

752 U G 5
Real Analysis III
Sp. 5 cl.
Prereq.: 751.
Continuation of 751.

753 U G 5
Introduction to Complex Analysis I
A. 5 cl.
Prereq.: 653.
Families of holomorphic and meromorphic functions, geometrical methods of the theory of functions, conformal transformations; including the Cauchy integral theorem, Runge's theorem, Riemann mapping theorem.

754 U G 5
Introduction to Complex Analysis II
W. 5 cl.
Prereq.: 753.
Analytic continuation, general analytic functions, algebraic, entire, elliptic, the gamma and zeta function, Dirichlet's series, Picard's theorems, Mittag-Leffler's theorem, Stirling's formula.

755 U G 5
Introduction to Point Set Topology I
A. 5 cl.
Prereq.: 653.
Topographical spaces, convergence; metric, complete, compact, connected, uniform, and function spaces.

756 U G 5
Introduction to Point Set Topology II
W. 5 cl.
Prereq.: 755.
Continuation of 755.

758 U G 5
Graduate General Analysis I
A. 5 cl.
Prereq.: Grad. standing or permission of instructor.
Integrated examination, from an advanced standpoint, of fundamentals of pure and applied analysis; topics may include: several variable calculus, complex variables, measure and integration theory.

759 U G 5
Graduate General Analysis II
W. 5 cl.
Prereq.: 758.
Continuation of 758.
760* U G 3
Ordinary Differential Equations I
A. 3 cl.
Prereq.: 371 and 553.
Introduction to theory of linear and non-linear ordinary
differential equations; equations with singular points;
stability theory, boundary value problems.

761* U G 3
Ordinary Differential Equations II
W. 3 cl.
Prereq.: 760.
Continuation of 760.

762* U G 3
Ordinary Differential Equations III
Sp. 3 cl.
Prereq.: 761.
Continuation of 761.

763† U G 3
Partial Differential Equations
and Their Applications I
A. 3 cl.
Prereq.: 653.
First order partial differential equations, theory of
characteristics; second order partial differential
equations: elliptic, parabolic, hyperbolic equations;
standard method of solution, Green's function; integral
equations.

764† U G 3
Partial Differential Equations
and Their Applications II
W. 3 cl.
Prereq.: 763.
Continuation of 763.

767 U G 5
Introduction to the Theory of Approximation I
A. 5 cl.
Prereq.: 653.
Approximation by polynomials and trigonometric
polynomials, Chebyshev's theory of best approximation
and its generalizations; interpolation processes and
mechanical quadrature; orthogonal polynomials and
elements of harmonic analysis.

768 U G 5
Introduction to the Theory of Approximation II
W. 5 cl.
Prereq.: 550 and 767.
A continuation of 767.

770 U G 5
Higher Algebra I
Su, A. 5 cl.
Prereq.: 672.
Fields, extensions, normal extension, algebraic closure,
Galois group of a polynomial, theory of equations,
topics in ideal and valuation theory, rings with
minimum conditions crossed products.

771† U G 5
Higher Algebra II
W. 5 cl.
Prereq.: 770.
A continuation of 770.

772† U G 5
Higher Algebra III
Sp. 5 cl.
Prereq.: 771.
A continuation of 771.

775 U G 5
Combinatorial Analysis and Graph Theory I
A.
Prereq.: 672.
Ramsey's theorem, systems of distinct representatives,
zero-one matrices, orthogonal Latin squares,
combinatorial designs, and difference sets.

776 U G 5
Combinatorial Analysis and Graph Theory II
W.
Prereq.: 775.
Mobius inversion principle, Polya theory of counting,
planar graphs, connectivity, coloring min cut max
flow, integer programming and combinatorial extrema,
graphs and adjacency matrices.

777 U G 5
Combinatorial Analysis and Graph Theory III
Sp.
Prereq.: 776.
Totally unimodular matrices, matroids, combinatorial
problems of coding theory, probabilistic fluctuation
theory, and other selected topics.

779 U G 2-5
Experimental Number Theory
A, W, Sp. 3 cl., 2 labs.
Prereq.: Permission of instructor.
Topics from elementary and/or algebraic number
theory; number theoretical explorations utilizing
high-speed digital computers.

780 U G 5
Number Theory I
A. 3 lec., 2 seminars.
Prereq.: 672.
Diophantine equations, Congruences, p-adic numbers,
algebraic number theory, class numbers, distribution
of primes, continued fractions.

781 U G 5
Number Theory II
W. 3 lec., 2 seminars.
Prereq.: 780.
Continuation of 780.

782 U G 5
Number Theory III
Sp. 3 lec., 2 seminars.
Prereq.: 781.
Continuation of 781.
794 U G 2-5
Group Studies
Prereq.: permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
When students' need is sufficient, the Department will
offer under this number a course on some phase of
mathematics not covered in its regular offerings.

830 G 3-5
Advanced Probability I
A. 3 cl., 1 lab. hr.
Prereq.: 751 and permission of instructor.
Selected topics from foundations, martingales
stochastic processes.

831 G 3-5
Advanced Probability II
W. 3 cl., 1 lab. hr.
Prereq.: 830.
Continuation of 830.

832 G 3-5
Advanced Probability III
Sp. 3 cl., 1 lab. hr.
Prereq.: 831.
Continuation of 831.

844 G 5
Advanced Mathematical Logic II
W. 5 cl.
Prereq.: 749.
Continuation of 749.

846 G 2-5
Topics in Discrete Mathematics
W. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

847† G 5
Transfinite Arithmetic I
A.
Prereq.: 750 and 770.
Axiomatic Set Theory: ordinal numbers and Transfinite
functions; polynomial representation; normal forms;
cardinal numbers; inequalities of cardinal numbers;
consequences of the continuum hypothesis; inaccessible
numbers.

848† G 5
Transfinite Arithmetic II
W.
Prereq.: 847.
Continuation of 847.

851 G 3
Differential Geometry I
A. 3 cl.
Prereq.: 751, 756, and 771.
Curves, surfaces, fundamental forms, tensors, and
connections.

852 G 3
Differential Geometry II
W. 3 cl.
Prereq.: 851.
Continuation of 851.

854 G 5
Differentiable Manifolds and Lie Groups I
W. 5 cl.
Prereq.: 751, 756, and 771.
Tensors, exterior differential forms, connections; Lie
Groups.

855 G 5
Differentiable Manifolds and Lie Groups II
Sp. 5 cl.
Prereq.: 854.
Continuation of 854.

857 G 3
Introduction to Functional Analysis I
A. 3 cl.
Prereq.: 552 and 751.
Linear topological spaces, normed spaces, Hilbert
spaces, convex sets, integration of vector-valued
functions.

858 G 3
Introduction to Functional Analysis II
W. 3 cl.
Prereq.: 857.
Continuation of 857.

859 G 3
Introduction to Functional Analysis III
Sp. 3 cl.
Prereq.: 857 and 858.
Banach Algebras, spectral theory, harmonic analysis,
fixed-point theorems; applications to analysis.

860 G 3
Algebraic Topology I
A. 3 cl.
Prereq.: 751, 756, and 771.
Metric space topology, complexes in Euclidean spaces;
singular homology theory.

861 G 3
Algebraic Topology II
W. 3 cl.
Prereq.: 860.
Continuation of 860.

862 G 3
Algebraic Topology III
Sp. 3 cl.
Prereq.: 861.
Continuation of 860 and 861.

863* G 3
Potential Theory I
A.
Prereq.: 552 and permission of instructor.
Newtonian Potentials, Boundary Value Problems;
Logarithmic Potential, Elliptic Partial Differential
Equations.
964* G 3
Potential Theory II
W.
Prereq.: 863
Continuation of 863.

865 G 2-5
Topics in Mathematical Physics
Su, A. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

866 G 2-5
Mathematical Problems in Engineering
Sp. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

867 G 5
Dimension Theory
Sp. 5 cl.
Prereq.: 751, 756, and 771.
Dimension in separable metric spaces with application of Euclidean spaces; covering theorems, imbedding theorems, and approximation theorems; relationships between the concept of dimension and measure.

869 G 2-5
Mathematical Theory of Communication and Control
Sp. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

870 G 2-5
Topics in Graph Theory
Prereq.: 777 and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Topics of current research interest.

873 G 5
Group Theory I
A. 5 cl.
Prereq.: 771.
Properties of groups, extensions, transfer, generators and defining relations.

874 G 5
Group Theory II
W. 5 cl.
Prereq.: 873.
Continuation of 873.

876 G 5
Analytic Number Theory
A, W. 5 cl.
Prereq.: Permission of instructor.
The distribution of prime numbers; Waring's problems, and selected topics.

877 G 5
Theory of Algebraic Numbers
A, W, Sp. 5 cl.
Prereq.: Permission of instructor.
Ideals in algebraic number fields, unique decomposition theorem, different, discriminant, ideal classes, applications of Galois theory and analytical methods.

931 G 3
Ergodic Theory I
A. 3 cl.
Prereq.: 751.
Measureable transformations, mixing and ergodicity, existence of invariant measures, contraction operations on function spaces, ergodic theorems.

932 G 3
Ergodic Theory II
W. 3 cl.
Prereq.: 931.
Continuation of 931.

933 G 3
Sums of Independent Random Variables I
A. 3 cl.
Prereq.: 830 or 722 and 751.
Limit theorems for sums of independent random variables, infinitely divisible distributions, stable laws.

934 G 3
Sums of Independent Random Variables II
W. 3 cl.
Prereq.: 933.
Continuation of 933.

935 G 3
Random Walks and Brownian Motion I
W. 3 cl.
Prereq.: 830 or 722 and 751.
Recurrence, periodicity, hitting probabilities, potential theory, recurrent and transient random walks, Brownian motion.

936 G 3
Random Walks and Brownian Motion II
Sp. 3 cl.
Prereq.: 935.
Continuation of 935.

937 G 3
Semi Groups and Markov Processes I
W. 3 cl.
Prereq.: 751.
Sample functions and semi groups generated by Markov processes; general potential theory including Green's Function and generalized capacity.

938 G 3
Semi Groups and Markov Processes II
Sp. 3 cl.
Prereq.: 937.
Continuation of 937.
939 G 2-5
Topics in Probability Theory
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Various advanced topics in probability theory.

949 G 2-5
Seminar in Logic
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

950 G 2-5
Topics in Real Analysis
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

951 G 2-5
Topics in Complex Analysis
Su, A, W, Sp. 2-5 cl.
Prereq.: 754.
Repeatable to a maximum of 20 cr. hrs.

953 G 2-5
Topics in Topology
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

954 G 2-5
Topics in Algebraic Topology
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

957 G 2-5
Topics in Differential Geometry
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

959 G 4
Measure and Integration I
A. 4 cl.
Prereq.: 751.
Topics will be chosen from current research papers.

960 G 4
Measure and Integration II
W. 4 cl.
Prereq.: 959.
Continuation of 959.

961 G 2-5
Topics in Functional Analysis
Su, A, W, Sp. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Topics to be chosen from current research papers.

970 G 5
Representation Theory I
A. 5 cl.
Prereq.: Permission of instructor.
Topics to be chosen from current research papers.

971 G 5
Representation Theory II
W. 5 cl.
Prereq.: 970.
Continuation of 970.

972 G 2-5
Combinatorial Analysis
Sp. 2-5 cl.
Prereq.: 771.
Repeatable to a maximum of 20 cr. hrs.
Topics selected from current research papers.

973 G 5
Homological Algebra I
A. 5 cl.
Prereq.: 772.
Introduction into the basic concepts of homological algebra.

974 G 5
Homological Algebra II
W. 5 cl.
Prereq.: 973 or permission of instructor.
Continuation of 973.

975 G 2-5
Topics in Geometry
Su, A, W, Sp. 2-5 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Topics to be chosen from current research papers.

978 G 2-5
Theory of Rings
Su, A, W, Sp. 2-5 cl.
Prereq.: 772.
Repeatable to a maximum of 20 cr. hrs.
Topics selected from current research papers.

979 G 2-5
Theory of Matrices
Su, A, W, Sp. 2-5 cl.
Prereq.: 771.
Repeatable to a maximum of 20 cr. hrs.
Topics selected from current research papers.

980 G 2-5
Lattice Theory
Su, A, W, Sp. 2-5 cl.
Prereq.: 771.
Repeatable to a maximum of 20 cr. hrs.
Topics selected from current research papers.

Mechanical Engineering

Office: 2075 Robinson Laboratory, 206 West 18th Avenue

Professors Glower (Chairman), Bealer (Emeritus), Bolz, Doebelin, Hsu, Jones, Marco, Moffat (Emeritus), Redmond, Sepsy, Smith, Starkey, Stinson (Emeritus), Veikoff, and Zimmerman; Associate Professors Buxton, Engelman, Foster, and Moran; Adjunct Associate Professor Epstein; Assistant Professors Bridge, Davidson, Faulkner, Houser, Jordan, Korpela, Kulacki, Miller, Nakamura, and Schlosser.

281 U 4
System Dynamics
A, Sp. 3 cl., 1 2-hr. lab.
Theoretical and experimental study of the dynamics of linear, lumped-parameter models of mechanical, electrical, fluid, thermal, and mixed systems. Doebelin.

308 U 3
Thermodynamics
Sp. 3 cl.
Prereq.: Math. 254 and Physics 133.
Not open to students majoring in Mech. E.
Not open to students with credit for 307.
A study of engineering thermodynamics. Bridge.

309 U 3
Thermodynamics
A, W, Sp. 3 cl.
Prereq.: Math. 415 and Physics 133.
Not open to students majoring in Mech. E.
Not open to students with credit for 307.
Study of macroscopic and microscopic thermodynamics. Bridge.

311 U 3
Heat Transfer and Fluid Flow
A, W, Sp. 3 cl.
Prereq.: 309.
Not open to students majoring in Mech. E.
Not open to students with credit for 311.
Study of the fundamental principles of heat transfer and fluid flow with applications to electrical machinery and apparatus. Jones.

350 U 5
Machine Design
Sp. 5 cl.
Not open to students majoring in Mech. E.
Not open to students with credit for 550.
A study of the application of the general principles and empiricisms of mechanics of solids to the creative design of mechanical equipment. Starkey.

382 U 4
Mechanical Engineering Analysis
A, W. 2 cl., 1 2-hr. lab.
Prereq.: 281.
Continuation of 281 with additional analytical techniques of general usefulness in mechanical engineering. Doebelin.

501 U G 4
Thermodynamics I
A, W. 4 cl.
Prereq.: Chem. 295 and Math. 254.
A study of basic engineering thermodynamics. Moran.

502 U G 4
Thermodynamics II
W, Sp. 4 cl.
Prereq.: 501, or permission of instructor.
Continuation of 501. Moran.

503 U G 4
Fluid Dynamics I
W, Sp. 4 cl.
Prereq.: 501.
A study of the basic concepts, fundamental equations, and applications of fluid mechanics to engineering problems. Han.

504 U G 4
Fluid Dynamics II
A, W. 4 cl.
Prereq.: 502 and 503.
Continuation of 503. Han.

510 U G 4
Heat Transfer
A, Sp. 4 cl.
Prereq.: 503.
Not open to students with credit for 611.
A study of the fundamental laws of heat conduction, radiation, and convection, including an introduction to transient conduction. Jones.

526 U G 3
Energy Release and Conversion Processes
A, W. 3 cl.
Prereq.: 504; concur. 510.
Not open to students with credit for 520.

527 U G 3
Energy Conversion in Turbomachinery
A, W. 3 cl.
Prereq.: 526.
Not open to students with credit for 524.
Energy conversion in power-producing, absorbing, and transmitting turbomachinery. Jones.

528 U G 3
Energy Conversion in Positive Displacement Machinery
W, Sp. 3 cl.
Prereq.: 527.
Not open to students with credit for 521.
Energy conversion in power-producing, absorbing, and transmitting positive displacement machinery. Jones.

553 U G 5
Kinematics and Dynamics of Machinery
A, W. 5 cl.
Prereq. or concur.: 281.
Not open to students with credit for 551-552.
Motion and force analysis in mechanisms such as plane linkages, cams, and gears; introduction to the synthesis of plane linkages and simple cam systems. Davidson.

561 U G 4 Principles of Mechanical Design
W, Sp. 4 cl.
Not open to students with credit for 661.
A study of the application of the general principles and empirics of mechanics of solids to the creative design of mechanical equipment. Starkey.

562 U G 4 Principles of Mechanical Design
A, Sp. 4 cl.
Prereq.: 561 or 661.
Not open to students with credit for 662.
Continuation of 561. Starkey.

563 U G 4 Principles of Mechanical Design
A, W. 4 cl.
Prereq.: 561 or 661.
Not open to students with credit for 663.
Continuation of 561. Starkey.

564 U G 3 Mechanical Engineering Design I
W, Sp. 3 2-hr. lab.
Prereq.: 561 and 562.
Not open to students with credit for 761.
The methodology of intermediate design and practice in the design of a specific system which may utilize principles of any or all mechanical engineering disciplines. Foster.

570 U G 3 Mechanical Engineering Measurements
A, W. 1 cl., 1 4-hr. lab.
Prereq. or concur. 510, and 552 or 553.
Not open to students with credit for 670.
A theoretical and experimental study of the principles of operation and performance characteristics of measuring instruments used in mechanical engineering. Doebelin.

571 U G 4 Principles of Automatic Control
W, Sp. 3 cl., 1 2-hr. lab.
Prereq.: 510, 552 or 553, and 570 or 670; or permission of instructor.
Not open to students with credit for 771.
A theoretical and experimental study of the principles of operation of feedback control systems, including servomechanisms and process control. Doebelin.

581 U G 3 Mechanical Engineering Laboratory
W, Sp. 2 2-hr. lab. and 5 hrs. lab. planning and report writing.
Prereq.: 570 or 670.
Not open to students with credit for 781.
The study and application of methods of experimental analysis. Buxton.

588 U 1 Professional Aspects of Mechanical Engineering
A. 1 cl.
Prereq.: 3rd yr. standing in Mech. E.
A study of the code of ethics, licensing law, responsibilities to professional societies, and the relationships to labor and management of the professional engineer. Glower.

593 U G 1-5 Individual Studies in Mechanical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Provides the opportunity to pursue special studies in mechanical engineering not otherwise covered.

594 U G 1-5 Group Studies in Mechanical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Special topics in Mechanical Engineering; the particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course will be offered.

612 U G 3 Principles of Heat Exchangers
A. 3 cl.
Prereq.: 510.
A study of principles of heat and mass transfer as applied to the design of heat exchangers. Jones.

613 U G 3 Cryogenic Systems
Sp. 3 cl.
Prereq.: 311, 503, and 510.
Study of low-temperature processes and equipment; physical properties at low temperatures; practical application of low-temperature techniques and processes in engineering systems. Jones.

625 U G 3 Vapor Power Cycles
A. 3 cl.
Prereq. or concur. 510 and 526.
A descriptive and analytical study of elementary and advanced power plant cycles. Buxton.

630 U G 3 Internal Combustion Engines
A. 3 cl.
Prereq. or concur.: 526 or permission of instructor.
Not open to students with credit for 720.

631 U G 3 Internal Combustion Engines
W. 3 cl.
Prereq. or concur.: 526 or permission of instructor.
Not open to students with credit for 721.
Force analysis as related to the design of engine components such as pistons, bearings, valve springs, and crankshafts. Engelman.
632 U G 3
Diesel Engines
Sp. 3 cl.
Prereq.: or concur.: 526 or permission of instructor.
Not open to students with credit for 722.
An advanced study of Diesel engine operation, and
economics. Engelman.

634 U G 3
Gas Turbine Power Plants
W. 3 cl.
Prereq. or concur.: 526 and 527; or permission of
instructor.
Not open to students with credit for 724.
A study of the principles, performance, and design of
gas turbine power plants. Engelman.

636 U G 3
Nuclear Power Plants
Sp. 3 cl.
Prereq.: 510 or permission of instructor.
Not open to students with credit for 726.
A study of the thermal and mechanical design aspects
of nuclear power plants and processes. Glower.

640 U G 3
Principles of Environmental Control
A, Sp. 3 cl.
Prereq.: 502.
A study of the principles of the control of environments
for human occupation, occupation by other living
beings, the operations of mechanical and electrical
equipment, and for the storage and processing of
materials. Sepsy.

641 U G 4
Heating, Ventilating, and Air Conditioning
A. 4 cl.
Prereq.: 510.
Not open to students with credit for 741.
A study of practices, components, and systems for
conventional and unique air conditioning equipment
used to control the environment for human occupancy,
storage, and industrial processes. Sepsy.

642 U G 3
Refrigeration and Air Conditioning
W. 3 cl.
Prereq.: 502.
Not open to students with credit for 742.
A study of fundamentals, processes, and equipment
associated with refrigeration systems using vapor
compression, air cycle, absorption, magnetic, and
thermo-electric cooling. Sepsy.

650 U G 4
Machinery Dynamics
A. 3 cl., 1 2-hr. lab.
Prereq.: 553 and Math. 255; or permission of instructor.
A study of the interrelationships among forces, motions,
and masses as related to rigid or elastic machine
members, including force analysis, vibration, impact,
and balancing. Faulkner.

664 U G 3
Mechanical Engineering Design II
Sp. 3 2-hr. lab.
Prereq.: 564.
Not open to students with credit for 762.
The methodology and practice in the preliminary
design of an optimum system to fulfill a specified
need utilizing principles of several mechanical
ingineering disciplines. Foster.

665 U G 3
Lubrication and Bearing Design
A. 3 cl.
Prereq.: 504 or permission of instructor.
Analysis and design of hydrodynamic and hydrostatic
bearings using liquid or gas lubricants. Foster.

666 U G 3
Acoustic Problems in Engineering
W. 3 cl.
Prereq.: 503 or 504, 552 or 553, and 562; or permission
of instructor.
Preparation for design problems involving noise
sources in mechanical systems. Marco.

671 U G 4
Measurement System Application and Design
W. 3 cl., 1 2-hr. lab.
Prereq.: 570 or equiv.
Not open to students with credit for 770.
A theoretical and experimental study of measurement
instrumentation; emphasis on both principles of
operation and analysis and design techniques for
measurement systems of a mechanical and
electromechanical nature. Doebelin.

672 U G 4
Control Systems Design
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 571 or permission of instructor.
Not open to students with credit for 772.
A study of the theoretical and experimental procedures
involved in the design of feedback control systems
including servomechanisms and process control.
Doebelin.

682 U G 3
Mechanical Engineering Laboratory
Sp. 2 2-hr. lab. and 5 hrs. lab. planning and report
writing.
Prereq.: 581.
Not open to students with credit for 782.
Continuation of 581. Buxton.

687 U G 3
Introduction to Design in Biomedical Engineering
W. 3 cl.
Prereq.: Permission of instructor.
Introduction of engineering students to design
problems in biomedical engineering; analysis in
biomechanics, bio-fluid mechanics, diffusion, and
elementary physiology. Bridge.
693  UG 2-10
Individual Studies in Mechanical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs, with a
maximum of 10 cr. hrs. in any one topic.
This course is intended to give the advanced student
opportunity to pursue special studies not otherwise
offered; work undertaken will be selected from
automotive and internal combustion machinery,
combustion and fuels, heat transfer, heating,
ventilating, air conditioning, industrial hydraulics,
machine design, refrigeration, steam power plants, and
thermodynamics.

700  UG 3
Transport Processes
Su, A.  3 cl.
Prereq.: 510 and Math. 255; or equiv.
A parallel, systematic study of the three transport
processes of mass, momentum, and energy from the
continuum viewpoint. Moran.

751  UG 3
Kinematic Synthesis and Analysis
A.  3 cl.
Prereq.: 51 or 553, and 350 or 561.
Not open to students with credit for 851.
A study of fundamental methods for the synthesis and
analysis of motions in mechanical systems. Davidson.

766  UG 3
Engineering Acoustics
Sp.  3 cl.
Prereq.: 666 or permission of instructor.
A course in engineering acoustics covering the
phenomenon by which acoustic energy is generated
and transmitted, with applications to mechanical
machinery. Faulkner.

794  UG 3-5
Group Studies in Mechanical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Advanced topics in the various phases of mechanical
engineering; the particular topics, the number of credit
hours, and the instructor will be announced in the
quarter previous to the one in which the course is
offered.

801  G 3
Gas Dynamics
Sp.  3 cl.
Prereq.: 504 and Math. 255, or equiv.
An analytical study of one and two dimensional steady
flow and one dimensional unsteady flow. Jones.

802  G 3
Fundamentals of Thermodynamics I
W.  3 cl.
Prereq.: 502 and Math. 255, or equiv.
A study of thermodynamics fundamentals from the
classical viewpoint. Moran.

803*  G 3
Fundamentals of Thermodynamics II
Sp.  3 cl.
Prereq.: 802 and Statist. 421, or equiv.
Introduction to the fundamentals of thermodynamics
from the microscopic viewpoint. Moran.

804**  G 3
Advanced Applied Thermodynamics
Sp.  3 cl.
Prereq.: 700 and 802.
A study of thermodynamics as applied to property
interrelationships and to irreversible phenomena.
Moran.

807  G 3
Advanced Heat Transfer
W.  3 cl.
Prereq.: 510; and 881 or Math. 512 or 557.
A study of the general heat transfer equations and
their applications to heat transfer in solids and
through fluids the use of numerical and graphical
analysis will be included. Han.

809**  G 3
Advanced Heat Transfer
A.  3 cl.
Prereq.: Math. 255 or equiv.
A study of phase change and radiative heat transfer
processes. Han.

810  G 3
Dynamics in Inviscid Fluids
A.  3 cl.
Prereq.: 503, prereq. or concur. 881 or Math. 512, or
equiv.
Three-dimensional, compressible, and incompressible
inviscid flows, including irrotational and rotational
motion with and without flow discontinuities. Han.

811  G 5
Laminar Flow and Heat Transfer
W.  5 cl.
Prereq.: 510 and 810.
Laminar boundary layers and fluid flow with and
without heat transfer, fully established entrance flows,
tree convection, and extensions to compressible flows.
Han.

812  G 5
Turbulent Flow and Heat Transfer
Sp.  5 cl.
Prereq.: 811.
Turbulent boundary layers and flows with and without
heat transfer for internal and external flows including
laminar instability, Reynolds stresses, and mixing
length theory. Bridge.

820*  G 3
Internal Combustion Power Plants
W.  3 cl.
Prereq.: 502 or equiv.
An advanced study of reciprocating internal combustion
power plants. Engelman.
Advanced Principles of Energy Conversion in Turbomachinery
Sp. 3 cl.
Prereq.: 527 or equiv.
An advanced study of power-absorbing, generating, and transmitting turbomachinery. Jones.

Preliminary Design of Power Systems
Prereq.: Permission of instructor.
Repeatability to a maximum of 18 cr. hrs.
Preliminary design and evaluation of novel systems including analysis, synthesis, and possible experimental verification. Jones.

Advanced Steam Power Cycle and Turbine Analysis
W. 3 cl.
Prereq.: 503, 510, and 527.
An advanced study of steam power cycles and design of steam turbine nozzles and blading. Buxton.

Advanced Combined Vapor Power Cycle Analysis
Sp. 3 cl.
Prereq.: 823 or permission of instructor.

Advanced Vapor Power Cycle and Component Studies
Prereq.: 823 or 824, or permission of instructor.
Repeatability to a maximum of 18 cr. hrs.
Courses to be conducted on a conference basis with problems assigned to each student based on his needs and area of interest. Buxton.

Combustion
Sp. 3 cl.
Prereq.: 700 or permission of instructor.
A study of chemical thermodynamics and kinetics, the basic equations of change, and application of fundamentals to combustion in engineering systems. McDonald. Jones.

Introduction of Electro and Magneto Fluid Mechanics
W. 3 cl.
Prereq.: 510 and Math. 513, or permission of instructor.
A study of the interactions of electric and magnetic fields with liquids and gases. Veiloff.

Advanced Environmental Control Refrigeration
W. 3 cl.
Prereq.: 641 or equiv.
Advanced study of conventional and novel processes including thermoelectric, magnetic, and gas systems. Sepset.

Advanced Environmental Control
Sp. 3 cl.
Prereq.: 640 or equiv.
An advanced study of conventional and unique systems used to control the environment for occupancy by people, equipment, and material. Sepset.

Advanced Environmental Control Problems
Prereq.: Permission of instructor.
Repeatability to a maximum of 18 cr. hrs.
A study of methods of synthesis and analysis pertaining to the creative design of environmental control systems, involving conferences and theoretical and/or experimental investigations. Sepset.

Dynamics of High Speed Machinery
W. 3 cl.
Prereq.: 650 and 880, or equiv.
An advanced study of the interrelationships among forces, motions, and masses as related to rigid or elastic machine members. Faulkner.

Advanced Mechanical Design
A. 3 cl.
Prereq.: 561 and Math. 255, or equiv.
A study of concepts, principles, and phenomenological theories related to the failure-prevention aspect of mechanical design. Starkey.

Stress Analysis of Machinery
Sp. 3 cl.
Prereq.: 350, 562, and 563; 881, or Math. 512, or equiv.
A study of concepts, principles, and procedures related to the analysis of stresses and strains in machine parts. Starkey.

Modeling of Dynamic Systems
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 880 or permission of instructor.
A study of theoretical, experimental, and computer methods for characterizing the dynamic behavior of complex systems. Doeblein.

Lumped Parameter System Analysis
A. 3 cl.
Prereq.: Math. 255 or equiv. or permission of instructor.
Lumped parameter system analysis of mechanical, thermal, hydraulic, pneumatic, and electromechanical systems; system response to periodic, transient, and random excitation; computer and physical system demonstrations. Doeblein.
881 G 3
Distributed Parameter Systems
A: 3 cl.
Prereq.: 310 and Math. 252, or equiv.
Not open to students with credit for 807.
Numerical and analytical methods for obtaining
solutions to engineering problems in heat transfer,
fluids mechanics, and other field problems. Bridge.

888 G 1
Mechanical Engineering Seminar
Prereq.: Mech. E. grad. standing.
Repeatable to a maximum of 3 cr. hrs. for M.S. degree
and 3 additional cr. hrs. for Ph.D. degree.
Lecture and discussion of current topics related to
mechanical engineering presented by graduate
students, staff, and guest speakers. Glower.

993 G 1-5
Advanced Problems in Mechanical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Provides the opportunity to pursue special problems
in mechanical engineering not otherwise covered.

994 G 1-5
Group Studies in Mechanical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Advanced topics in mechanical engineering; the topic,
credit hours, and the instructor will be announced in
the quarter previous to the one in which the course
will be offered.

999 G Arr.
Research in Mechanical Engineering
Research for thesis or dissertation purposes only.

Medical Communications

(School of Allied Medical Professions)
Office: 416 School of Allied Medical Professions
Building, 1583 Perry Street

Assistant Professors Burke (Division Director) and
Schweikart; Instructors Hawes and Potts.

550 U 8
Medical Communications Media I
W. 5 1-1/2 hr. cl., 3 2-hr. clinical experience.
Prereq.: Senior standing in Med. Comm. and
permission of instructor.
Study and application of educational uses of
communication processes and media in a health
setting. Hawes and Staff.

560 U 8
Medical Communications Media II
Sp. 3 1-hr. cl., 5 2-hr. clinical experience.
Prereq.: 880.
Diagnosis and planning for communication services
in various health environments. Burke and Staff.

Medical Dietetics

(School of Allied Medical Professions)
Office: 516 School of Allied Medical Professions
Building, 1583 Perry Street

Associate Professor Anderson (Acting Division Director);
Professors Lewis (Emeritus) and Moleros; Associate
Professors Allred, Casbergue, and Scobie (Emeritus);
Assistant Professors Breese, Calvert, Ebro, Greissen,
Herrick, Johnson, Seubert, and Sharp; Instructors
Gordon, Kram, and J. White; Clinical Instructors Behn,
Betheall, Brantford, Cox, Gernies, Hutter, Joses, Pyles,
and S. White.

201 U 1
Introduction to Medical Dietetics
Sp. 2 cl.
Basic knowledge and experience in functional and
sociological aspects of responsibilities of the medical
dietitian. Anderson and Staff.

410 U 6
Introduction to Patient Dietary Care
A. 4 cl., 6-hr. clinical study.
Prereq.: Home Ec. 310.
Not open to students with credit for 310.
Principles and practice in the dietary care of the
hospital patient. J. White and Staff.

411 U 1
Electronic Data Processing in Dietetics
A. 1 cl., clinical experience.
Prereq.: Enrollment in Med. Diet. or permission of
instructor.
Introduction to basic computer concepts and the
application of these concepts to dietetic systems.
Casbergue.

421 U 8
Management in Dietetics
A. 4 cl.; 1 4-hr. lab.
Prereq.: Home Ec. 314.
Management in food service systems emphasizing
quality of food, production planning, work organization,
financial controls in quantity food preparation for
regular and modified diets. Casbergue and Ebro.

422 U 8
Management in Dietetics
Sp. 3 cl., 3 3-hr. lab.
Prereq.: 421.
Principles and recent trends in menu planning and food
procurement in food service systems; responsibility
for writing and implementing menus in hospital food
services. Casbergue and Ebro.
521 U 6 Nutrition and Human Metabolism
W. 4 cl., 5-hr. clinical study.
Prereq.: Home Ec. 310, Physiol. Chem. 312 or concur., Physiol. 312 or equiv.; Junior standing or permission of instructor.
Metabolism of essential nutrients at cellular and intact levels of the body; causes, results, and dietary management of alterations in metabolism of these nutrients. Seubert and J. White.

522 U 6 Nutrition and Human Metabolism
Sp. 4 cl., 5-hr. clinical study.
A continuation of 521.
Seubert and J. White.

523 U 6 Nutrition and Human Metabolism
Su. 4 cl., 5-hr. clinical study.
Prereq.: 522.
Continuation of 522.
Seubert and J. White.

636 U 3 Dietitian as a Teacher
Su. 2 cl., 3-hr. clinical study.
Prereq.: Med. Diet. senior standing.
Educational principles and practices as applied to the teaching responsibilities of the dietitian. Johnson.

637 U 5 Community Nutrition
A, W. 2 cl., 6-hr. clinical study.
Prereq.: Med. Diet. senior standing or permission of instructor.
Public health nutrition programs and their services to the community, with particular reference to nutrition problems of special groups of the population. Calvert.

638 U G 5 Pediatric Nutrition
A, W. 3 cl., 4-hr. clinical study.
Prereq.: Grad. or senior standing in Med. Diet. and permission of instructor.
The nutrition of children; the influence of physical, psychological, and social growth and development from infancy through adolescence. Anderson and Pediatric Staff.

645 U 10 Advanced Medical Dietetics I
A, W. 4 cl., 2-hr. conf., 20-hr. clinical study.
Prereq.: Senior standing and permission of instructor.
Advanced study and evaluation of disturbed metabolic processes affecting human nutrition and solution of the complex dietetic problems accompanying them. Breese and Staff.

646 U G 10 Advanced Medical Dietetics II
Sp. 4 cl., 2-hr. conf., 20-hr. clinical study.
Prereq.: 645, senior or grad. standing and permission of instructor.
Continuation of 645. Breese and Staff.

693 U G 1-5 Individual Studies in Nutrition or Dietetics
A continuation of 692.
Prereq.: Grad. or senior standing in Med. Diet. and permission of instructor.
Problems in various phases of nutrition or medical dietetics not included in current course offerings. Molleson and Staff.

800* G 3 World Nutrition
Su. 2 ½-hr. cl.
Prereq.: Permission of instructor.
Not open to students with credit for Prev. Med. 830.
A multidisciplinary approach to the study of nutrition in developing countries; emphasis on food supply, nutritional status, infant and child malnutrition and nutrition survey methods. Molleson.

856 G 3 Nutrition in Systemic Disease
Sp. 2 ½-hr. cl.
Prereq.: Permission of instructor.
Not open to students with credit for Prev. Med. 856.
The physio-pathological background of systemic disease and the rationale of specific diets in their prevention and treatment. Molleson and Medical Staff.

858† G 3 Community Nutrition
Sp. 2 ½-hr. cl.
Prereq.: 638 and 856, or permission of instructor.
Not open to students with credit for Prev. Med. 858.
Methods of discovering problems in public health nutrition and practical application of nutrition information for improvement of nutritional status at various age levels. Anderson.

898 G 1 Interdepartmental Seminar in Nutrition and Food Technology
(See under Interdepartmental Seminars, Course Offerings catalog.)

Medical Illustration

(School of Allied Medical Professions)
Office: 306 School of Allied Medical Professions Building, 5183 Perry Street
Instructor Kreutzfeld (Division Director); Assistant Professors Shepard (Emeritus) and Toole; Instructors Keating, Ollila, and Prosser; Clinical Instructor Kramer.

100 U 0 Medical Illustration Field Experience
Prereq.: Permission of instructor.
Practical application of medical illustration techniques in a functioning hospital department of medical illustration.
Medical Microbiology

Office: 5072 Graves Hall, 333 West 10th Avenue

Professors Cramblett (Chairman), Bowman, Hamparian, Kapral, Lang, Macpherson, Saslaw, and Somerson; Associate Professors Haynes, Otolenghi, Perkins, and Pollack; Assistant Professors Azimi, Fass, and Thomas; Instructor Durham.

624 P G 3
Medical Microbiology
A. 3 2-hr. lab.
Prereq.: Permission of instructor.
Morphologic, physiologic, and serologic characteristics of pathogenic microorganisms; the epidemiology and pathogenesis of infectious diseases; methods of diagnosis, prevention, and treatment.

625 P G 4
Medical Microbiology
W. 40-hr. lec. during 7 wks.
Prereq.: 624.
Continuation of 624. Staff.

626 P G 5
Medical Microbiology
Sp. 20-hr. lec., 70-hr. discussion and lab. during 7 wks.
Prereq.: 625 or permission of instructor.
A more extensive and intensive application of basic principles of medical microbiology to infectious diseases.

701 P G 3
Fundamentals of Medical Immunology
A. 3 cl.
Prereq.: Permission of instructor.
Fundamentals of immunologic phenomena in the normal and diseased state, with primary emphasis on application of immunology in medicine. Lang.
793.07 Diagnostic and Clinical Microbiology
1, 2, 3, or 4 months (full time)
Prereq.: 626 and permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Experience in isolation and identification of microorganisms from clinical specimens.

Clinical Microbiology
(See Path. 793.07)

Infectious Diseases
(See Ped. 793.03)

794 Group Studies
1 month, offered all months. P 3 or 6
Prereq.: 624 or 625, or equiv.; permission of instructor.
(When registration is for 3 professional cr. hrs., an additional 3 hr. professional course must be taken.)

794.01 Immunological Diseases
Directed reading and discussion of human diseases with immunological features; primary attention is directed toward the immunological phenomena underlying connective tissue and specific organ diseases. Lang.

814 G 1 Seminar in Medical Microbiology
Prereq.: Med. Microbiol, grad. standing or permission of instructor.
Repeatable with permission of instructor to a maximum of 9 cr. hrs.

824 G 3 Medical Parasitology
Sp., 2 1-hr. lec., 1 3-hr. lab.
Prereq.: 626 and permission of instructor.
Discussion of structure, growth, development, epidemiology, and pathogenesis of animal parasites infectious for man, together with practical experience in identification.

834* G 5 Experimental Medical Microbiology
Sp., 2 cl., 2 4-hr. lab.
Prereq.: 624, 625, and permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

844* G 2 Mycoplasma, Rickettsiae, and Chlamydiae
A., 2 1-hr. lec.
Prereq.: 625 or Microbiol. 607.
Mycoplasmas and L-forms, members of the Bedsoniae group, Rickettsiae and Trachoma agents. Somerson and Pollack.

854†* G 3 Molecular Basis of Antibiotic and Chemotherapeutic Action
Sp., 3 1-hr. lec.
Prereq.: 625; Physiol. Chem. 612; or Biochem. 612 or 707 and 622 or 708; or Microbiol. 761; or permission of instructor.
Action of antibiotic and chemotherapeutic agents on specific sites in the metabolism and/or structures of cells stressing the comparative biochemistry of bacterial and animal cells. Ottolenghi and Azimi.

864 G 3 Dynamic Aspects of Bacterial Infections
A., 3 1-hr. lec.
Prereq.: 625 or Microbiol. 625 or equiv. or permission of instructor.
An analysis of the dynamic interrelationships between the host’s and parasite’s inherent physiological capabilities and how these expressions (other than specific immunity) are mutually modified. Kapral and Ottolenghi.

994 G 2-6 Group Studies in Medical Microbiology
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Investigation of special areas of medical microbiology.

999 G Arr.
Research in Medical Microbiology
Research for thesis or dissertation purposes only.

Medical Record Administration
(School of Allied Medical Professions)
Office: 231 School of Allied Medical Professions Building, 1583 Perry Street
Instructor Thomson (Division Director.)

501 U 5 Medical Record Science I
A., 5 cl.
Prereq.: Permission of instructor.
An orientation to medical records including a history of medical records, uses, types, component parts of the record, numbering and filing systems, and the responsibilities of the medical record administrator.

502 U 5 Medical Record Science II
W., 4 cl., 1 3-hr. lab.
Prereq.: 501.
Classification, coding, and indexing of diseases and surgical procedures; orientation and development of indexes in the medical record department.
MEDICAL TECHNOLOGY  321

503  U 5
Medical Record Science III
Sp. 4 cr., 1 3-hr. lab.
Prereq.: 302.
The medical library in the hospital; microfilming
techniques and procedures; statistics; research; and
automatic data processing in medical records.

510  U 3
Legal Aspects of Medical Records
W. 3 cr.
Prereq.: 501 or permission of instructor.
A detailed analysis of the medicolegal aspects of
medical records.

525  U 2
Medical Record Organization
and Administration I
Thur. 2 cr.
Prereq.: Permission of instructor.
Orientation to organization and administration of a
medical record department; hospital and medical staff
organization; and hospital committees.

526  U 2
Medical Record Organization
and Administration II
W. 2 cr.
Prereq.: 525.
Medical record department organization; the typing
pool; other departments within the hospital and how
they relate to the medical record department.

527  U 2
Medical Record Organization
and Administration III
Sp. 2 cr.
Prereq.: 526.
The preparation of office manuals; office planning and
layout; budgets, reports, and correspondence.

Medical Technology
(School of Allied Medical Professions)

Office, 535 School of Allied Medical Professions
Building, 1563 Perry Street
Professor Mooshorson (Division Director); Associate
Professor Sutton (Assistant Division Director); Professor
Stevenson; Assistant Professors Anderson, Grannis,
Gregory, and Lott; Instructors Ayers, Lewis, North, and
Wilson; Clinical Instructors Aron, Bitzer, Kasper, Kern,
Rohyans, and Sherman.

For related courses see Pathology.

480  U 5
Introduction to Medical Technology
W, Sp. 3 cr., 6 lab. hrs.
Prereq.: 15 cr. hrs. in biological sciences, Chem. 211,
and admission to the Med. Tech. division; or
permission of instructor.

Introduction to the medical laboratory, its organization,
functions, responsibilities, opportunities, instruments,
and methods. Anderson and North.

598  U 3
Medical Technology Laboratory
Su. 2 cr., 1 3-hr. lab.
Prereq.: Admission to Med. Tech. and permission of
instructor.
Laboratory techniques in parasitology. Wilson.

511  U 9
Medical Technology Laboratory
Prereq.: Admission to Med. Tech. and permission of
instructor.
Prereq.: Admission to Med. Tech.
Laboratory techniques in hematology, coagulation, and

512  U 9
Medical Technology Laboratory
A. 27 lab. hrs.
Prereq.: Admission to Med. Tech. and permission of
instructor.
Laboratory techniques in clinical bacteriology and
mycology. Anderson and Wilson.

513  U 9
Medical Technology Laboratory
W. 27 lab. hrs.
Prereq.: Admission to Med. Tech. and permission of
instructor.
Laboratory techniques in clinical immunology and

514  U 9
Medical Technology Laboratory
Sp. 27 lab. hrs.
Prereq.: Admission to Med. Tech. and permission of
instructor.
Laboratory techniques in clinical chemistry. Anderson.

515  U 10
Clinical Practice in Medical Technology
Su, A, W, Sp. 5 8-hr. labs.
Prereq.: 511, 512, 513, and 514 and permission of
instructor.
Application of medical laboratory techniques under
supervision in the clinical laboratories of University
Hospital. Mooshorson and Staff.
Medicine

Office: N-1013 University Hospital, 410 West 10th Avenue

661 P 2
Principles of Medicine
Sp. 2 cl.
Prereq.: Dent. 3rd yr. standing.
A survey course in medicine to dental students considering the infectious, deficiency, and systemic diseases; representative diseases are selected for detailed consideration and demonstrations.

714 P 6
Ward Clinics in Infectious Diseases
1 month, offered all months except June.
Prereq.: Permission of instructor.
(Daily formal instruction from 8 a.m. to 6 p.m.; student on call throughout 24 hours daily.) Clerkship and seminars on common and unusual infectious diseases. Saslaw.

716 P 6
Ward Clinics in Pulmonary Disease
1 month, offered all months except June.
Prereq.: Permission of instructor.
(Daily formal instruction from 8 a.m. to 6 p.m.; student on call throughout 24 hours daily.) Clerkship and seminars on pulmonary diseases.

740 P 6, 12, 18
Ambulatory Clinics in Medicine
1 month, offered all months except June.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
The diagnosis and treatment of ambulatory patients with general and special medical problems.

751 P 5, 6, 12, 18
Medical Clerkships
1 month, offered all months except June.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
(Daily formal instruction from 8 a.m. to 6 p.m.; student on call throughout 24 hours daily.) Ward clerkship in the following subspecialties of medicine, with bedside, didactic, and seminar instruction.

751.01 Allergy
751.02 Cardiology
751.03 Dermatology
751.04 Endocrinology
751.05 Gastroenterology
751.06 Genetics
751.07 Hematology
751.08 Neurology
751.09 Renal Diseases
751.10 Rheumatology
751.11 Advanced Clinical Clerkships

770 P 3
Basic Science Review
1 month, May.
Prereq.: Permission of instructor.
Didactic review of new basic science developments; practice in electrocardiographic and phoro-electrocardiographic interpretation; elements of office practice and community relations.

793 P 6, 12, 18 G 1-5
Individual Studies in Medicine
All months, 1 or more months to be elected.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Research on a minor problem under faculty supervision in the following specialties:

793.01 Allergy
793.02 Cardiology
793.03 Dermatology
793.04 Endocrinology
793.05 Gastroenterology
793.06 Genetics
793.07 Hematology
793.08 Infectious Diseases
793.09 Neurology
793.10 Pulmonary Diseases
793.11 Renal Diseases
793.12 Rheumatology

794 P 6, 12, 18
Group Studies in Medicine
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Group studies of special topics in medicine.
794.01 Developmental Disabilities (Mental Retardation)
Full time—5 days a week
Interdisciplinary comprehensive exposure to medical, clinical medical, epidemiological, psychological, social, sociological, educational, and legal aspects and problems of mental retardation with a community health orientation.

797 UPG 1-5
Interdepartmental Seminar
(See under Interdepartmental Seminars.)

a. Neuroscience

798 P 18
Internship in Medicine
12 months full time, beginning July 1.
Prereq.: Appointment as intern, University Hospital. Repeatable to a maximum of 256 cr. hrs.
Rotation through medical ward services and hospital emergency room; primary responsibility for patient care; attending and work rounds; staff conferences.

799 P 18
Residency in Medicine
12 months full time, beginning July 1.
Prereq.: Appointment as Resident, University Hospital. Repeatable to a maximum of 216 cr. hrs.
Rotation through medical subspecialty, clinical, and outpatient services; consultative activities, supervisory and teaching responsibilities in patient-care team; rounds; conferences.

850 G 1-3
Seminar in Medicine
Prereq.: Permission of instructor.
Discussion of pertinent literature and research projects in various subspecialty areas with emphasis on basic science concepts. Warren and Staff.

850.01 Allergy
850.02 Cardiology
850.03 Dermatology
850.04 Endocrinology
850.05 Gastroenterology
850.06 General Medicine
850.07 Genetics
850.08 Hematology
850.09 Infectious Diseases
850.10 Neurology
850.11 Pulmonary Diseases
850.12 Renal Diseases
850.13 Rheumatology

999 G Arr.
Research in Medicine
Research for thesis or dissertation purposes only.

Medicine, College of
Office: 209 College of Medicine Administration Center, 370 West 9th Avenue

611 P 1
The Development of Medicine and the Medical Profession
A, W, Sp. 10 cr.
Prereq.: Enrollment in the College of Medicine.
The evolution of the theory and practice of medicine and of the social role of the physician from the earliest times. Burnham.

651 P 6
Introduction to Medicine
Prereq.: Enrollment in the College of Medicine.
Repeatable to a maximum of 12 cr. hrs.
Introducing basic concepts of major disease mechanisms, with patient-centered learning; study of the health care delivery systems and the resources of medical informational Services.

652 P 6, 12
Nature of Life Processes in Medicine I
Concur.: 653.
Repeatable to a maximum of 24 cr. hrs.
Macrostructure, microstructure, and function of the human body including biochemical reactions and normal defense mechanisms; study of human behavior, growth, and development; introduction to the tools of physical diagnosis.

653 P 6, 12, 18
Nature of Life Processes in Medicine II
Prereq.: 652.
Repeatable to a maximum of 36 cr. hrs.
Continuation of 652.

654 P 6, 12, 18
The Pathophysiology and Manifestation of Disease I
Prereq.: 653.
Repeatable to a maximum of 36 cr. hrs.
Multidisciplinary presentation of disease mechanisms and pharmacodynamics, correlating structure and function with its cardinal manifestations; elective experience in basic science fields; clinical learning in outpatient setting.

655 P 6, 12, 18
The Pathophysiology and Manifestation of Disease II
Prereq.: 654.
Repeatable to a maximum of 36 cr. hrs.
Continuation of 654.
Medieval and Renaissance Studies

Office: 320 Main Library, 1858 Neil Avenue

Professor Kahrl (Director); Advisory Committee, Professors Hoppin (Music), Keller (Romance Languages), and Utley (English); Associate Professors Matejic (Slavic Languages) and Morrow (Theatre); Assistant Professors Frantz (English), Kratz (Classics), Lynch (History), Machamer (Philosophy), Mealy (History of Art), and Vredevol (German).

210 U 5
The Court of Charlemagne
A. 3 cl., 2 hr. arr.
The Carolingian Renaissance: a unified interpretation of a crucial period in the transition of Europe from the classical age to the early Middle Ages.

211 U 5
Idealism and Scepticism in the 12th and 14th Centuries
W. 3 cl., 2 hr. arr.
Characteristic expressions of idealism in the art, literature, and philosophy of 12th century Europe contrasted to the scepticism of the later medieval period.

212 U 5
The Culture of a City State in the Renaissance
Sp. 3 cl., 2 hr. arr.
Florence, 1200-1550; the study of an Italian Renaissance city-state with attention to its political social, and economic structure; its religious, intellectual and artistic activity.

213 U 5
Medieval Slavic Civilization
W. 4 cl., 1 hr. arr.
Interpretative and analytical study of the major social, religious, ethical, and literary ideas and events of medieval Slavic civilization.

214 U 5
The Golden Age of Islamic Civilization
Sp. 4 cl., 1 hr. arr.
The Baghdad Caliphate of Harun ar-Rashid from 786 to 861 A.D.

594 U G 5
Group Studies
W.
Prereq.: 10 cr. hrs. in Med. & Ren. Studies at the 200 level. Repeatable to a maximum of 15 cr. hrs.
Interdisciplinary group studies of selected topics in Medieval and Renaissance culture and civilization.

H783 U 3-5
Honors Course
Su, A.W. Sp.
Prereq.: 4th yr. standing with a grade of A in at least half of the courses in the student's major area of study and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 24 crs. are required of candidates for the Bachelor of Arts degree with distinction in Medieval and Renaissance Studies.

Failure to receive a mark of C in this course is disqualification for special honors.

Repeatable to a maximum of 15 cr. hrs.

A program of study will be arranged for each student, with individual conferences, reports, and Honors thesis.

888  G 5
Medieval and Renaissance Culture
W.  4 cl.
Prereq.: One or more 600-level courses or equiv. in subject offered, appropriate to student's field of specialization, or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Selected topics in medieval culture and civilization, offered cooperatively by two or more departments in the Colleges of the Arts and Sciences.

889  G 5
Medieval and Renaissance Literature
Sp.  4 cl.
Prereq.: One or more 600-level courses or equiv. in subject offered, appropriate to student's field of specialization, or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Interdisciplinary seminar directed by two or more teachers from separate departments. Topic to be announced.

Metallurgical Engineering

Office: 141A Metallurgical Engineering Building, 116 West 19th Avenue

Regents Professor Fontana (Chairman), Professors Beck, Hirth, Meyrick, Powell, Rapp, Spelser, Spretnak, St. Pierre, Staeble, and Williams; Associate Professors Boorstein and Rigney; Battelle Visiting Professor

200  U 3
Introduction to Metallurgical Engineering
A.  3 cl.
Prereq.: 2nd yr. standing in Met. E.
Substantive survey of the profession of metallurgy and metallurgical engineering; science versus engineering; the design function and professional responsibilities; historical heritage of metallurgical engineering. Rapp.

201  U 3
Principles of Materials
W.  3 cl.
Prereq.: Math. 153, Physics 133, Chem. 204; or equiv.
An introductory development of the chemical and physical properties of materials. St. Pierre.

300  U 4
Materials Science
Sp.  4 cl.
Prereq.: Chem. 204.

301  U 3
Materials Science
A, W, Sp.  3 cl.
Prereq.: Chem. 204.
The atomic and microscopic structure of materials and the control of structure to affect the physical and mechanical properties. Beck, Boorstein and Rigney.

330  U 4
Thermodynamics of Materials
Sp.  4 cl.
Prereq.: Chem. 205.
Fundamental concepts of thermodynamics and their application to engineering materials and systems; introduction to the laws of thermodynamics, principles, of chemical equilibrium, and solution behavior. St. Pierre.

430  U 4
Chemical Metallurgy I
A.  3 cl., 1 3-hr. lab.
Prereq.: 330 or equiv.
Metallurgical calculations; energy and mass balances; analysis of steady and non-steady state processes; heat and mass transfer applied to metallurgical processes. Boorstein.

431  U 4
Chemical Metallurgy II
W.  3 cl., 1 3-hr. lab.
Prereq.: 430.
Graphical representation of phase equilibria including important M-O-C and M-O-S systems; treatment of gas-solid reaction kinetics including oxidation, reduction, evaporation, retorting, etc.; electrochemical metallurgy processes. Rapp.

440  U 3
Physical Metallurgy I
Sp.  3 cl.
Crystallography; bonding; physical properties of single crystals, polycrystals; defects in crystals; diffusion; recovery and recrystallization. Rigney.

450  U 3
Physical Metallurgy II
A.  3 cl.
Prereq.: 440; concur. 480a.
Grain growth; partitioning of solute to defects and grain boundaries, nucleation theory; phase diagrams. Powell.

480  U 1
Physical Metallurgy Laboratories
A, W, Sp.  1 3-hr. lab.
Prereq. or concur.: 450 and permission of instructor.
Repeatable to a maximum of 4 cr. hrs.
The student must register for specific studies in the areas indicated below, and may not register for more than one at a time. Courses must be scheduled in the order listed:

a. Furnace design and temperature measurement. Meyrick.
c. Isothermal transformation, quenching and tempering, and hardenability. Powell.

489  U 2
Industrial Experience
A. 2 cr. hrs. for each summer's work.
Repeatable to a maximum of 4 cr. hrs.
Register for course and submit report on experience during the Autumn Quarter following the summer in which industrial experience is obtained; one summer or 10 weeks of approved work in metallurgical industries. Williams.

502*  U 3
Advanced Structure of Materials
W. 3 cl.
Prereq.: 300, 301, or equiv.
Not open to students majoring in Met. E.
Means of obtaining and controlling microstructure; relationship of structure to properties; survey of alloy systems; environmental limitations of materials. Meyrick.

510  U 4
Foundry Technology
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 450 or permission of instructor.
Industrial-type safety glasses must be worn in laboratory. No contact lenses permitted.
Introduction to the manufacture of engineering components by metal casting processes involving molding, gating, risering, melting, and solidification. Williams.

520  U 4
Chemical Metallurgy III
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 431 or permission of instructor.
Structure and properties of liquid metals and alloys; thermodynamics of liquid metallic solutions; liquid metal-gas and slag reactions; solidification and zone refining. Boorstein.

550  U 3
Physical Metallurgy III
W. 3 cl.
Prereq.: 450; concur. 480b.
Principles of phase transformations in the solid state. Powell.

551  U 3
Physical Metallurgy IV
Sp. 3 cl.
Prereq.: 550.
Physical metallurgy of plain-carbon and alloy steels. Powell.

553  U G 3
Physical Metallurgy V
A. 3 cl.
Prereq.: 551.
Relationships between the microstructure and the mechanical properties of metals and alloys. Rigney.

560  U G 3
Mechanical Metallurgy
A. 3 cl.
Behavior of metals under simple and combined stress systems; elements of elastic theory, plastic deformation, dislocation theory, strength theories, and fracture. Spretnak.

589  U 2
Inspection Trip
Sp. Taken between W. and Sp. Qtrs.
One week trip to visit industrial plants and laboratories; report required; maximum expense, $90.00. Williams.

610  U G 3
Foundry Molding Materials
A. 3 cl.
Prereq.: 510.
A study of materials used in compounding of sand mixtures and the effect of thermal shock upon the properties of molded masses. Williams.

611  U G 3
Foundry Molding Methods, Gating, and Risering
W. 3 cl.
Prereq.: 510.
The manufacture of sand molds by various methods; gating and risering—a study of fluid flow and solidification to produce sound castings. Williams.

615  U G 4
Mechanical Forming of Metals
W. 3 cl., 1 3-hr. lab.
Prereq.: 560 or equiv.
Elements of plasticity theory. Fundamental aspects of forming metals by forging, wire drawing, rolling, and extrusion. Spretnak.

620  U G 3
Process Metallurgy
A. 3 cl.
Prereq.: 520 or equiv.

635  U G 3
Corrosion
A. Sp. 2 cl., 1 2-hr. lab.
Prereq.: Engr. 4th yr. standing.
Fontana.

670  U G 3
Engineering Metallurgy I
W. 3 cl.
Prereq.: 551.
Basic properties of metals and alloys, cost structure, design factors, specifications, and statistical methods; selection of metals and alloys, service failures. Staehle.
671 U G 3
Engineering Metallurgy II
Sp. 3 cl.
Prereq.: 670.
Continuation of 670. Staehle.

675† U G 3
Materials of Nuclear Technology
A. 3 cl.
Prereq.: 300, 301, or equiv.
The physical metallurgy of reactor materials; the
effects of reactor environment on the structure, and
on the physical and mechanical properties of these
materials. Staehle.

683 U G 1-6
Individual Studies in Metallurgical Engineering
Prereq.: Permission of dept.
Repeatable to a maximum of 9 cr. hrs.
All studies (library and/or research investigations) are
under the close direction of instructors; comprehensive
report required.
a. The properties of metals and alloys.
b. Production and refining of metals.
c. Metallurgical equilibria.
d. Corrosion engineering.
e. Cast metals.

684 U G 2-6
Group Studies in Metallurgical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.

710 U G 3
Casting Control
Sp. 3 cl.
Prereq.: 610 or 611.
A study of the factors involved in the elimination of
defective products. Williams.

714 U G 5
Environmental Pollution Abatement
W. 5 cl.
Prereq.: Senior or grad. majors in engineering or
sciences.
Not open to students with credit for Agr. E. 714, Chem.
E. 714, and Civil E. 714.
(Cross-listed in the Dept. of Agr. E., Chem. E., and
Civil E.)
Problems, philosophies, principles, and methods of
pollution abatement in the total environment;
quantitative approaches to waste management in air,
water and land systems. Rigney.

730 U G 3
Thermodynamics of Alloys
A. 3 cl.
Prereq.: 520 and 550, or equiv.
Thermodynamics of liquid and solid alloy systems;

735 U G 3
Advanced Corrosion
W. 3 cl.
Prereq.: 626.
Theories and mechanisms of corrosion. Staehle.

736 U G 3
The Behavior of Materials
at Elevated Temperatures
Sp. 3 cl.
Prereq.: 330.
The mechanical and chemical properties of materials
at elevated temperatures; creep, superalloys, dispersion
strengthening, composites, and oxidation. Rapp.

740 U G 3
Theory and Properties of Metals
A. 3 cl.
Prereq.: 551; Chem. 521 and Math. 415; or permission
of instructor.
Dependence of physical properties on structure;
regularities in the structure of alloy systems; stability
of alloy system; transplast phenomena in metals and
alloys; magnetic phenomena. Speiser.

745 U G 3
Advanced Physical Metallurgy I
A. 3 cl.
Prereq.: 551.
Diffusion in metals. Powell.

750 U G 3
Advanced Physical Metallurgy II
W. 3 cl.
Prereq.: 745.
Nucleation theory in phase transitions, formal
nucleation and growth theory, recovery,
recrystallization and grain growth, allotropic phase
transitions, early stages of precipitation from solid
solution. Meyrick.

793 U G 2-6
Individual Studies in Metallurgical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.

794 U G 2-6
Groups Studies in Metallurgical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.

800 G 3
Theoretical Metallurgy
A. 3 cl.
Prereq.: Met. E. grad, standing or permission of
instructor.
Repeatable to a maximum of 9 cr. hrs.
Current topics in the field of specialization of the
Visiting Battelle Professor of Metallurgy.
801  G 3
Theoretical Metallurgy
W. 3 cl.
Prereq.: 800.
Continuation of 800.
Visiting Battelle Professor of Metallurgy.

802  G 3
Theoretical Metallurgy
Sp. 3 cl.
Prereq.: 801.
Continuation of 801.
Visiting Battelle Professor of Metallurgy.

820  G 3
Theory of Metal Refining
Sp. 3 cl.
Prereq.: 730.
Mechanisms of reactions in liquid alloys; applications of
thermodynamics and kinetics to the analysis of

831  G 3
Advanced Metallurgical Thermodynamics II
W. 3 cl.
Prereq.: 730.
Continuation of 730; thermodynamics of metallurgical
systems. Speiser.

832  G 3
Advanced Metallurgical Thermodynamics III
A. 3 cl.
Prereq.: 730.
Continuation of 831; irreversible phenomena;
metallurgical kinetics; application of rate theory to
transport phenomena in metals and to metallurgical
reactions. Rapp.

835*  G 3
Point Defects in Crystalline Materials
W. 3 cl.
Prereq.: 730 or permission of instructor.
A thermodynamic and electrochemical treatment of the
formation, concentrations, mobilities, and interactions
of atomic, ionic, and electronic point defects in materials
at high temperatures. Rapp.

841  G 3
Theory and Properties of Metals
W. 3 cl.
Prereq.: 740.
Continuation of 740. Speiser.

842  G 3
Theory and Properties of Metals
Sp. 3 cl.
Prereq.: 841.
Continuation of 841. Speiser.

851  G 3
Advanced Physical Metallurgy III
Sp. 3 cl.
Prereq.: 745 and 750.
Classification of phase transformations, continuous and
discontinuous precipitation from solid solution,
eutectoidal transformations, massive and martensitic
transformations, order-disorder changes. Meyrick.

852  G 3
Advanced Physical Metallurgy IV
W. 3 cl.
Prereq.: 851.
Relation of properties to microstructure. Hirth.

855  G 3
Structures of Metals and Alloys
Sp. 3 cl.
Prereq.: 480, 551, and Math. 415; or permission of
instructor.
Application of X-ray diffraction and electron diffraction
to the study of the structure of metals and
alloys. Ripley.

860  G 3
Quantitative Dislocation Theory
A. 3 cl.
Prereq.: Math. 255 or permission of instructor.
Mathematical treatment of dislocation theory and its
application to flow and fracture phenomena in solids.
Hirth.

861  G 3
Advanced Mechanical Metallurgy
Sp. 3 cl.
Prereq.: 560 or equiv.
Mechanics of deformable bodies, advanced topics in
elasticity, tensile deformation, mechanics of fracture,
plastic instability and its role in notch ductility and
fracture. Spretnak.

881  G 1
Graduate Seminar
Repeatable to a maximum of 12 cr. hrs.
Discussion of current thesis problems and outstanding
current literature in metallurgical engineering; round
table discussion of selected metallurgical topics.

994  G 2
Group Studies in Metallurgical Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Pertinent topics to be announced.

999  G Arr.
Research in Metallurgy
Research for thesis or dissertation purposes only.
Microbiology

Office: 368 Biological Sciences Building, 484 West 12th Avenue

Professors Pfister (Chairman), Banwart, Birkeland (Emeritus), S. Bohr, Dodd, Dugan, Ferguson, Hudson (Emeritus), Kreier, Macpherson, Miller, Randles, Rheins, Rosen, Sastaw, Snell, Stahlby (Emeritus); Wilson, Woolpert (Emeritus), and Yohn; Associate Professors Byers, Chorpenning, Copeland, Frea, Kolodziej, St. Pierre, Sue, and Wolf; Assistant Professors Krueger, Mote, and Sharp; Adjunct Assistant Professor Barker; Instructor Ackermann.

For related courses see Biology.

211† U 5
General Microbiology
A. 3 cl., 4 lab. hrs.
Prereq.: Superior performance in Biol., chem., and math. in high school and permission of instructor.
A special course for first year college students; morphologic and physiologic characteristics of microorganisms. Frea, Kolodziej, and Pfister.

212† U 5
General Microbiology
W. 3 cl., 6 lab. hrs.
Prereq.: Superior performance in Biol., chem., and math. in high school and permission of instructor.
A special course for first year college students; genetics and ecology of microorganisms. Frea, Dugan, and Randles.

301 U 2
The Biology of Pollution
A. 2 cl.
Credit does not count toward a major in Microbiology.
A general consideration of the interactions of environmental pollutants and biological systems. Dugan.

509 U 5
Microbiology in Relation to Man
Su, A, W, Sp. 3 cl., 2 2-hr. labs.
Prereq.: Biol. 100 or equiv.; Biol. 101 recommended.
Not open to students with credit for 600-level courses in Microbiol.
Not to be taken concur. with Microbiol. 507.
Not for students who intend to take other courses in Microbiol.
Designed to give the student an understanding of microorganisms which have a bearing on the physical and economic well-being of man. Ackermann, Mote, and Randles.

592 U 2
Independent Study of Practical Microbiology
Prereq.: 4th yr. microbiol. major and permission of coordinating adviser.
Students will work with course instructor, teaching assistants and associates. They examine preparation and presentation of material, and gain experience working with students and faculty.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600 AND 700
Unless otherwise indicated the prerequisites for 600 and 700-level courses are 15 hours of chemistry and 10 hours of biological sciences.

605† U 5
Basic Microbiology for Science Teachers
Su. 3 cl., 3 2-hr. labs.
Prereq.: Biological science majors in the College of Education, or students in the Academic Year Institute, or grad. teachers of Biological Sciences.
Biology and physiology of bacteria; their applications to foods, soil, fertility, sanitation, and disease; laboratory exercises include those designed for limited equipment in high schools.

607 U 5
General Microbiology
A, W, Sp. 3 cl., 2 2-hr. lab.
Prereq.: 10 cr. hrs. in Biol. Sci. and 15 cr. hrs. in Chem.
May not be taken concur. with 509.
Fundamental principles of microbiology and of the characteristics of microorganisms emphasizing their morphology, classification, visualization, isolation, cultivation and maintenance, growth and death. Kolodziej and Kreier.

609 U 5
General Microbiology
A, W. 3 cl., 2 2-hr. labs.
Prereq.: 607.
Fundamental principles of microbiology emphasizing the physiology, ecology, and genetics of microorganisms. Copeland, Dugan, and Frea.

622 U 5
Principle of Infection and Resistance
W, Sp. 3 cl., 2 2-hr. labs.
Prereq.: 607 or equiv.
A study of host-parasite relationships, with emphasis on pathogenicity and immunity. Dodd.

Medical Microbiology
(See Med. Micro. 624 and 625.)

624 U 5
Microbial Parasitism
A, Sp. 3 cl., 2 2-hr. labs.
Prereq.: 622.
Overview of parasitic relationships with emphasis on host response as influenced by route of contact, nature of etiologic agent(s), host species, and environmental influences. Rheins.

625† U 5
Pathogenesis and Immunology of Infectious Diseases
A, Sp. 3 cl., 2 2-hr. labs.
Prereq.: 622.
A consideration of the microbiological and immunological aspects of representative types of infectious diseases.
627 P 6
Microbiology for Optometry Students
Sp. 3 cr., 2 2-1/2 hr. labs.
Prereq.: Enrollment in the College of Optometry.
A specialized course in microbiology designed for professional students in Optometry which will deal with principles of infection, resistance, and related topics as they relate to the eye. Rheins.

629 U G 4
Pathogenic Protozoology
Sp. 3 cr., 2 2-1/2 hr. lab.
Prereq.: Permission of instructor.
Not open to students with credit for 725.
Pathogenic protozoa of animals are considered; emphasis on host-parasite relationships, pathogenesis of diseases, structural characteristics of parasites; ab, fresh, and preserved material. Kreier.

632 U G 5
Cellular Aspects of the Immune Response
A, Sp. 3 cr., 2 3-1/2 hr. labs.
Prereq.: 622 or equiv.
Cellular and molecular mechanisms of the immune response; characterization of cell products elaborated subsequent to antigenic stimulation; significance of these products in immunologic disease.

634 U G 5
Water Microbiology
W. 2 cr., 2 2-1/2 hr. labs.
Prereq. or concur.: 607, and Chem. 243 or equiv.
The course introduces the relationships and influence of aquatic environments on microorganisms and the effect of microbial metabolic processes on the quality of water. Dungan.

636 U G 5
Food Microbiology
A, Sp. 3 cr., 2 2-1/2 hr. labs.
Prereq.: 509, 607 or equiv.
The role of microorganisms in food preservation and processing with related sanitation and public health problems. Banwart.

639** U G 4
Aquatic Microbiology
Su (2nd term). 3 all-day cl. per wk.
Prereq.: 20 cr. hrs. of biological sciences, including Microbiol. 607 or equiv., and Chem. 243 or equiv.
Given only at the Franz Theodore Stone Laboratory. The nature and activities of bacteria in the aquatic environment, with emphasis on the different physiological types found in the Lake Erie region. Randles.

640 U G 5
General Cellular Biology
A, W. 4 cr., 1 4-hr. lab.
Prereq.: 10 cr. hrs. in biology, sciences and Chem. 242 and 244 or equiv.
Not open to students with credit for Biol. 312 or 640.
A introduction to cell structure and function with emphasis on integration of cytological, biochemical, genetical, and developmental perspectives. Byers, Parrish, and Sharp.

642 U G 5
Cell Differentiation
Sp. 3 cr., 1 1-hr. rec.
Prereq.: 610 or equiv. or permission of instructor.
A study of cell differentiation including cyclic and non-cyclic change in macromolecules and organelles in cell populations. Sharp.

652 P G 4
General and Pathogenic Microbiology for Dental Students
W. 3 cr., 2 1 hr. labs.
Prereq.: Dent. 2nd yr. standing.
A survey of the principles of microbiology emphasizing sterilization, infectious processes and immunity. Choy, Perriennet and Rosen.

653 P G 3
Oral Microbiology
W. 2 cr., 1 1-hr. lab.
Prereq.: 652 or permission of instructor.
A study of the oral flora and the oral diseases having a microbial etiology. Rosen.

Soil Microbiology
(See Agron. 665.)

670 U G 5
Cytologic Preparations in Electron Microscopy
A, W. 3 cr., 2 3-1/2 hr. labs.
Prereq.: 10 cr. hrs. in biological sciences and Chem. 264 or equiv. and permission of instructor.
Basic principles of electron microscopy, preparation, examination, and interpretation of biological specimens. Pfister.

693 U G 1-5
Individual Studies in Microbiology
Prereq.: Microbiol. 4th yr. major or grad. standing and permission of instructor.
No more than 5 cr. hrs. can be counted toward an undergraduate microbiol. major.
Repeatable only by undergraduates to a maximum of 15 cr. hrs.
Outlined by instructor to meet individual student's needs.

694 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group work on special topics in microbial or cellular biology.

710† U G 3
History of Microbiology and Allied Fields
Sp. Lect., conf., and library work.
Prereq.: Microbiol. advanced graduate standing and permission of instructor.
The historical development of bacteriology, immunology, and allied fields.
723 U G 5
Immunology and Immunochemistry
Su. 3 cr., 2 3-hr. labs.
Prereq.: 622 and permission of instructor.
A thorough treatment of the basic phenomena involving antigens and antibodies, their physico-chemical natures, and immunological reactions. Chorpenning.

725 U G 5
Bacterial Pathogens
W. 3 cr., 2 3-hr. labs.
Prereq.: 624.
Emphasis on the nature of representative bacterial disease agents. Rheins.

736 U G 5
Advanced Food Microbiology
W. 2 cr., 2 3-hr. labs.
Prereq.: 636 and permission of instructor.
Advanced studies of the microorganisms involved in the preservation and processing of food products using rapid analytical procedures. Banwart.

740 U G 5
Basic Virology
A, W. 3 cr., 2 3-hr. labs.
Prereq.: 609 and Biochem. or Physiol. Chem. and permission of instructor.
The basic physical, chemical, and biological properties of animal and bacterial viruses including intracellular replication and subcellular responses to virus infection. Wolff.

760 U G 5
Physiology of Bacteria
Sp. 3 cr., 2 3-hr. labs.
Prereq.: 609.
Nutritional requirements of bacteria, mechanisms of anaerobic dissimilation of carbon compounds, and industrial fermentation. Kolodziej and Randles.

761 U G 5
Physiology of Bacteria
Sp. 3 cr., 2 3-hr. labs.
Prereq.: 760.
Bacterial enzymes, mechanisms and energy relationships in respiration, nitrogen metabolism, and bacterial syntheses. Kolodziej.

765 U G 5
Applied Microbiology
A. 3 cr., 2 3-hr. labs.
Prereq.: 761 and permission of instructor.
A study of the metabolic activities of microorganisms exploited to produce useful chemical reactions or commercial products.

770 U G 5
Microbial Cytology
Sp. 3 cr., 2 3-hr. labs.
Prereq.: 609 and permission of instructor.
A thorough study of morphology, fine structure and composition of microorganisms, and the relation of these to cell function. Pfister.

775 U G 4
Protozoan Growth and Reproduction
Sp. 2 1/2-hr. cl.
Prereq.: 640, Biochem. 311 or equiv., and permission of instructor.
A consideration of factors regulating the growth and multiplication of selected protozoans with emphasis on the roles of environment and genome and on molecular mechanisms. Byers.

780 U G 5
Microbial Genetics
Sp. 3 cr., 2 3-hr. labs.
Prereq.: 609 and permission of instructor.
A thorough study of microbial genetics with emphasis on bacteria and viruses. Copeland.

781 U G 5
Special Groups of Microorganisms
Su. 3 cr., 2 3-hr. labs.
Prereq.: 609 and permission of instructor.
A study of the morphology, physiology, and ecology of "non-typical" bacteria, actinomycetes, mycobacteria, spirochaetes, filamentous S bacteria, and others. Frea.

783 U 3-5
Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the courses in Microbiology and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 2 qtrs. are required of candidates for the degrees Bachelor of Science or Bachelor of Arts with distinction in Microbiology. Failure to receive a mark of 5 in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
A program of reading and research for each student with individual conferences, reports, and Honors thesis.

799 U G 1
Microbiology Colloquium
A, W, Sp. 1 cr.
Repeatable to a maximum of 15 cr. hrs.

820 G 5
Advanced Virology
Sp. 2 cr., 2 3-hr. labs.
Prereq.: 740 and permission of instructor.
Laboratory study of viruses and some of the virus diseases of animals and man; methods of isolation, propagation, identification, diagnosis, and control are considered. Wolff.

822 U G 3
Advanced Immunology
Sp.
Prereq.: Permission of instructor.
Advanced studies of immunological phenomena, with emphasis on the physical and chemical aspects of antigens and antibodies. Dodd.
824* G 5
Isospondins of Man and Animals
Sp. 3 cl., 2 3-hr. labs.
Prereq.: 733 or equiv. and permission of instructor.
Advanced genetic, chemical, and immunological studies of isospondins, including those in erythrocytes, leukocytes, platelets, body fluids, and tissues; implications in transplantation and immunological diseases. Chopped.

860* G 5
Advanced Topics in Bacterial Physiology
A. 3 cl., 2 3-hr. labs.
Prereq.: 760 and permission of instructor.
Laboratory study of bacterial physiology by a variety of techniques. Dugan, Frea, and Randels.

880 G 1-3
Seminar in Microbiology
Repeatable by permission of instructor only.

890 G 2
Interdepartmental Seminar in Developmental Biology
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology.

891 G 2
Interdepartmental Seminar in Environmental Biology
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities.

896 G 1-3
Interdepartmental Seminar in Polar and Alpine Studies
Sp.
(See under Interdepartmental Seminars.)

897 G 1
Interdepartmental Seminar in Natural Resources
Repeatable to a maximum of 9 cr. hrs. with permission of the dept. of enrollment.
(See under Interdepartmental Seminars.)

898 G 1
Interdepartmental Seminar in Nutrition and Food Technology
Sp.
(See under Interdepartmental Seminars.)

994 G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Group work on special topics in microbial or cellular biology.

999 G Arr.
Research in Microbiology
Research for thesis or dissertation purposes only.

Military Science
Office: 253 Military Science Building, 212: Tuttle Park Place.

Army Reserve Officers Training Corps.

Professor Col. Cota (Chairman); Assistants Professors

Basic Military Science

111 U 2
U. S. Defense Establishment and National Security
A. 2 1-hr. cl., 1 lab.
Nature of war, power, national security; proper functions of armed forces; evolution of military professionalism; missions and organization of U. S. Defense Establishment; collective security arrangements.

112 U 2
Development of Basic Weaponry
W. 1 2-hr. cl., 1 lab.
Prereq.: 111, or permission of Prof. of Mil. Sc.
Examination and application of fundamentals of weaponry and marksmanship, including; evolution of the rifle; mechanics and functioning of standard military rifles and .22 caliber target rifle; weapons safety.

113 U 2
Map Reading
Sp. 2 1-hr. cl., 1 lab.
Interpretation of topographic maps, emphasizing terrain evaluation, including; symbology, grid and polar coordinates, elevation and relief, scale and distance, azimuth, intersection, resection, and aerial photographs.

211 U 2
History of the Military Art
A. 1 2-hr. cl., 1 lab.
Prereq.: Completion of 111, 112, and 113.
Introduction to development of tactics and strategy, development of military art/science from ancient times until post-Napoleonic era; illustrated by selected campaigns and battles.

212 U 2
History of the Military Art II
W. 2 2-hr. cl., 1 lab.
Prereq.: 211, or permission of Prof. of Mil. Sci.
Development of U.S. military professionalism; military history from 1845 to 1939 with special emphasis on organization, tactics, technology, campaigns, battles, and commanders of the U.S. Army.

213 U 2
History of the Military Art III
Sp. 2 2-hr. cl., 1 lab.
Prereq.: 212 or permission of Prof. of Mil. Sci.
Recent military history, strategy, and tactics, with special emphasis on developments, campaigns, battles, and commanders of U.S. Army since WWII.

Advanced Military Science

301 U 3
Military Leadership Case Studies
A. 2 2-hr. cl., 1 hr. leadership lab.
Prereq.: 101 through 203 or equiv.
Study of behavioral patterns and managerial methods applied to the military environment.

302 U 3
Small Unit Tactics
Su, W. 2 2-hr. cl., 1 hr. leadership lab.
Prereq.: 203 or 301 or permission of Professor of Mil. Sci.
Organization, mission, characteristics, and capabilities of the infantry squad, platoon, company, and battalion; review of rifle squad and weapons squad tactics; study of platoon tactics, troop leading procedures; preparation of estimates and orders; company tactics to include attack, defense, and retrograde operations; infantry tank-team techniques; leadership laboratory.

303 U 3
Principles of Military Teaching
Sp. 2 2-hr. cl., 1 hr. leadership lab.
Prereq.: 302 or permission of Professor of Mil. Sci.
An introduction to the branches of the Army and study of fundamentals of instruction in the military educational environment.

401 U 3
Military Operations
Su, A. 2 2-hr. cl., 1 hr. leadership lab.
Prereq.: 303 or permission of Professor of Mil. Sci.
The study of Army organizations and operations to include managerial aspects of command and staff; emphasizes support of combat operations in various environmental situations; guest speakers program sponsored by National Strategy Information Center, Subject: World Change and Military Implications; leadership laboratory.

402 U 3
Logistics and Administration
W. 2 2-hr. cl., 1 hr. leadership lab.
Prereq.: 401 or permission of Professor of Mil. Sci.
Study of logistics to include management of combat and garrison supply, equipment maintenance, transportation and troop movement; training management to include staff scheduling principles and the design and execution of training exercises; Army administration to include medical services, military publications, standard forms, and the supervision of administrative requirements; guest speaker program sponsored by National Strategy Information Center, Subject: World Change and Military Implications; leadership laboratory.

403 U 3
Military Justice and Preparation for Service
Sp. 2 2-hr. cl., 1 hr. leadership lab.
Prereq.: 402 or permission of Professor of Mil. Sci.
Study of military justice; review of map reading; civic action, internal defense and development of Southeast Asian nations; and service orientation.

Mineralogy

(See courses in Geology and Mineralogy.)

Music

Office: 105 Hughes Hall, 1819 College Road

Professors Luce (Director), Barnes, Casey, Haddad, Hardesty, Held, Hoppin, Kuehnehus, Livingston, Main, McGinnis, Phelps, Poland, Ramsey, Staiger (Visiting), Tetley-Kardos, and Tolbert; Associate Professors Barnes, Cassey, Cooper, Hickfanz, Hightshoe, Huff, Kimber, Mathis, McClure, Meeker, Mixer, Muschick, Sexton, Titus, Vedder, and Wilson; Assistant Professors Alch, Baker, Barber, Battenberg, Bonney, Burkart, Cooper, Corlible, Costanza, Culver, Drost, Fligel, Gano, Green, Juskovic, Jones LeBlanc, Levey, Lowder, Maas, Moore, Platt, Ramsier, Swank, Thompson, Whallon, Wink, and Zimmerman; Instructors Harrman, Hurn, Maggi, Price, Sedoris, Santier, Stevens, Tice, Turley, and Von Gruenigen.

Preceding the class sessions of Music 221 and Music 201, placement tests will be given to determine the ability of students in these subjects. (See School of Music for details of time and place.)

100 U 1
Concert Attendance
A, W, Sp. Attendance at 9 concerts or recitals.
Prereq.: Attendance at 45 concerts and recitals.

141 U 5
Introduction to Music
Su, A, W, Sp. 3 cl., 2 hrs. arr.
Not for credit to Mus. majors.
A musical background is not required.
A consideration of the materials of music and important styles, forms, and composers from the Baroque to the present. Gano.
142  U 3
Introduction to the History of Western Music I
A, W, Sp.  3 cl.
Prereq.: 141.
Not for credit to Mus. majors.
An historical survey of music from classical antiquity
to about 1750.

143  U 3
Introduction to the History of Western Music II
Su, A, W, Sp.  3 cl.
Prereq.: 141.
Not for credit to Mus. majors.
An historical survey of music from 1750 to the present.

CAMPUS MUSIC ORGANIZATIONS
University Campus Music Organizations are open to
all students in the University who may receive full
credit according to regulations of the college in which
they are enrolled.

160  U 5
The Arts in Contemporary America
A, W, Sp.  4 cl., 1 lab. hr.
(Cross-listed in the Div. of Art Education and the
Dept. of Dance.)
A study of the role of the arts in American society
based on live, recorded, and filmed performances and
exhibitions.

180  U 1
University Chorus
Su (1st term), A, W, Sp.  3 or more hrs. rehearsal each
week.
Prereq.: Admission by audition only.
Repeatable to a maximum of 24 cr. hrs.
Oratorio and large choral works are studied and
performed. Casey.

181  U 2
Symphonic Choir
A, W, Sp.  6 or more hrs. rehearsal each week.
Prereq.: Admission by audition only.
Repeatable to a maximum of 24 cr. hrs.
Symphonic Choir is a concert organization singing a
variety of literature. Casey.

182  U 1
Women's Glee Club
A, W, Sp.  3 or more hrs. rehearsal each week.
Prereq.: Auditions are held at stated periods, and
vacancies in the club are filled with the best available
voices. Admission by audition and permission of
director.
Repeatable to a maximum of 12 cr. hrs.
[Membership in this concert group is open to all
women students in the University by audition.]
Study and performance of choral literature for women's
voices. Turley.

183  U 1
Men's Glee Club
A, W, Sp.  3 or more hrs. rehearsal each week.
Prereq.: Auditions are held at stated periods, and
vacancies in the club are filled with the best available
voices. Admission by audition and permission of
director.
Repeatable to a maximum of 12 cr. hrs.

[Membership in this concert group is open to all
men students in the University by audition only.]
Study and performance of choral literature for men's
voices. Staiger.

184  U 2
University Symphony Orchestra
Su (1st term), A, W, Sp.  6 or more hrs. rehearsal
each week.
Prereq.: Admission by audition and permission of
director.
Repeatable to a maximum of 24 cr. hrs.
[Membership is open to all University students by
audition.]
The University Orchestra is an 85-piece orchestra of
full instrumentation devoted to the preparation of
standard and modern literature; the group gives at
least three concerts each year. Gerle.

185  U 1
Chamber Orchestra
A, W, Sp.  3 or more hrs. rehearsal each week.
Prereq.: Admission by audition.
Repeatable to a maximum of 12 cr. hrs.
A selected group giving public and broadcast
performances; professional orchestral techniques are
emphasized.

186  U 2
University Football Marching Band
A, 6 or more hrs. rehearsal each week.
Prereq.: Admission by audition and permission of
director.
Repeatable to a maximum of 12 cr. hrs.
The University Marching Band is a selected group of
brass and percussion players which performs at
football games and rallies during Autumn Quarter.
Droste.

187  U 1
ROTC Band (Air-Army)
W, Sp.  3 or more hrs. rehearsal each week.
Prereq.: Admission by audition and permission of
director.
Open to men and women students.
Repeatable to a maximum of 30 cr. hrs.
Droste.

188  U 2
The University Concert Band
A, W, Sp.  6 or more hrs. rehearsal each week.
Prereq.: Admission by audition and permission of
director.
Repeatable to a maximum of 24 cr. hrs.
A selected group of limited membership devoted to the
preparation and performance of the best band
literature; gives public concerts and performs for
University functions. McGinnis.

189  U 1
The University Buckeye Bands
Su (1st term), A, W, Sp.  3 or more hrs. rehearsal each
week.
Prereq.: Admission by audition and permission of
director.
Repeatable to a maximum of 12 cr. hrs.
Provide concert band participation for students not
enrolled in the University Concert Band; perform for
University functions and give public concerts. Droste,
Le Blanc, and Meeker.
190† U 1

Opera Chorus
Su (1st term), A, W, Sp. 2 or more hrs. rehearsal each wk.
Prereq.: Admission by audition and permission of instructor.
Not open to juniors and seniors in opera program.
Repeatable to a maximum of 12 cr. hrs.
Hickfang.

191 U 2

Chorale
A, W, Sp. 6 or more hrs. rehearsal each week.
Prereq.: Admission by audition and permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
A selected group of mixed voices which performs an extensive repertoire in concerts both on and off campus. Casey.

194 U 1

Brass Choir
A, W, Sp. 2 or more hrs. rehearsal each week.
Prereq.: Admission by audition and permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
A selected group of brass and percussion students which gives public performances both on and off campus. Burkart.

195 U 1

University Percussion Ensemble
A, W, Sp. 2 or more hrs. rehearsal each wk.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
A laboratory and performance musical ensemble whose literature consists of original and transcribed works for percussion instruments alone or with percussion as a dominant feature. Moore.

196 U 1

Jazz Ensembles
A, W, Sp. 2 or more hrs. rehearsal each wk.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
A selected group devoted to playing, arranging, and rehearsing contemporary jazz and stage band literature. Battenberg.

197 U 1

Music Education Laboratory Ensemble
A, W, Sp. 2 or more hrs. rehearsal each wk.
Prereq.: Permission of instructor.
Repeatable to a maximum of 1 cr. hrs.
Laboratory ensembles which provide performance experience on secondary instruments.

199 U 1

Small Ensembles
Su, A, W, Sp. 2 or more hrs. rehearsal each week.
Prereq.: Admission by audition and permission of instructor.
Each decimal subdivision repeatable to a maximum of 12 cr. hrs.
199.01 Piano
199.02 Voice

200 U 1-2

Applied Music (Secondary)
Su, A, W, Sp. 1 ½-hr. lesson, studio classes and recital attendance arr.
Prereq.: Music major or permission of the Director of the School of Music.
Repeatable to a maximum of 12 cr. hrs. for each decimal subdivision.
Fundamental applied music instruction in areas other than a student's major or principal area.
200.01 Piano
200.02 Voice
200.03 Strings
Su (1st term), A, W, Sp.
200.04 Woodwinds
Su (1st term), A, W, Sp.
200.05 Brass
Su (1st term), A, W, Sp.
200.06 Organ
Su (1st term), A, W, Sp.
200.07 Percussion
200.08 Harpsichord
200.09 Harp

201 U 1-2

Applied Music (Principal)
1 1-hr. lesson, studio classes and recital attendance arr.
Prereq.: Passing of placement test.
Required of students in all music curricula to a minimum of 6 qtr. hrs.
Open to other qualified students within the limits of instructional facilities by permission of Director of the School of Music.
Repeatable to a maximum of 10 cr. hrs. for each decimal subdivision.
Instruction in applied music to develop musicianship, performance, and a wide reading knowledge of music literature.
201.01 Piano
Haddad, Mathis, Mooney, Telfey-Kardos, and Platt.
201.02 Voice
Alch, Cooper, Hickfang, Kiesgen, Meiher, and Muschick.
201.03 Strings
Su (1st term), A, W, Sp.
Conable, Culver, Kimber, Hardesty, and McClure.

212  
Diction for Singers (Italian)  
A. 3 cl.  
Prereq.: A minimum of 6 cr. hrs. of applied study in voice or permission of instructor.  
Fundamentals of phonetics and sound production as applied to singing in Italian. Atch.  

213  
Diction for Singers (German)  
W. 3 cl.  
Prereq.: A minimum of 6 cr. hrs. of applied study in voice or permission of instructor, and 212.  
Fundamentals of phonetics and sound production as applied to singing in German. Cooper.  

214  
Diction for Singers (French)  
Sp. 3 cl.  
Prereq.: A minimum of 6 cr. hrs. of applied voice or permission of instructor, and 212.  
Fundamentals of phonetics and sound production as applied to singing in French. Muschick.  

221  
Music Theory I  
A, W. 3 cl.  
Prereq.: Passing of placement tests.  
Detailed study of basic theoretical concepts, the elements of music, and musical notation, including elementary written and keyboard harmony, melody writing, analysis, and creative work.  

222  
Music Theory II  
W, Sp. 3 cl.  
Prereq.: 221.  
Study of the principles of diatonic harmony, non-chordal tones, and secondary dominants, including two, three, and four-part writing, analysis, keyboard harmony, and creative work.  

223  
Music Theory III  
Su, Sp. 3 cl.  
Prereq.: 222.  
A survey of chromatic harmony, seventh and ninth chords and modulation, with continuing emphasis on written and keyboard application, analysis, and original composition.  

224  
Sight Singing and Dictation I  
A. 3 lab. hrs.  
Singing and writing of major and minor scales, intervals, triads, tonal and rhythmic groups, tonal melodies, and canons.  

225  
Sight Singing and Dictation II  
W, Sp. 3 lab. hrs.  
Prereq.: 224.  
Singing and writing of chromatic scales, seventh chord outlines, tonal and rhythmic groups, more difficult tonal melodies, and two-part work.  

226  
Sight Singing and Dictation III  
Su, Sp. 3 lab. hrs.  
Prereq.: 225.  
Singing and writing of synthetic scales, seventh and ninth chord outlines, tonal melodies and harmonic progressions with modulations, syncopated rhythmic figures, and two-part work.  

241  
Music History I  
A. 3 cl., 2 lab. hrs.  
Prereq.: 223.  
The development of music from the earliest times through the sixteenth century. Maas.  

242  
Music History II  
W. 3 cl., 2 lab. hrs.  
Prereq.: 241.  
The development of music in the 17th and 18th centuries. Maas.  

243  
Music History III  
Sp. 3 cl., 2 lab. hrs.  
Prereq.: 242.  
The development of music in the 19th and 20th centuries. Maas.  

244  
Survey of African and African-Derived Music in the Western World  
A, Sp. 3 cl.  
Not open to students with credit for Black Studies 244.  
(Cross-listed in the Black Studies Division.)  
An introduction to traditional African music and its role in the history and development of Afro-American music with its concomitant socio-political milieu. Barber.
261 U 1 or 2
Applied Music Methods and Materials I
261.01 Piano
A, W, Sp. 4 cl.
Lowder.
261.02 Voice
A, W, Sp. 4 cl.
Swank.
261.03 Strings
A. 4 cl.
Culver.
261.04 Woodwinds
A, W. 4 cl.
Von Gruenigen.
261.05 Brass
W. 4 cl.
261.07 Percussion
A, W, Sp. 4 cl.
Moore.

262 U 2
Applied Music Methods and Materials II
Prereq.: 261 or equiv.
262.01 Piano
A, W, Sp. 4 cl.
262.02 Voice
W, Sp. 4 cl.
262.03 Strings
W. 4 cl.
262.04 Woodwinds
W, Sp. 4 cl.
262.05 Brass
Sp. 4 cl.

263 U 2
Applied Music Methods and Materials III
Prereq.: 262 or equiv.
263.01 Piano
W, Sp. 4 cl.
263.02 Voice
Sp. 4 cl.

264 U 2
Applied Music Methods and Materials IV
Prereq.: 263 or equiv.
264.01 Piano
A, Sp. 4 cl.
264.02 Voice
A. 4 cl.

265 U 2
Music for Group Recreation
A, Sp. 3 cl.
Preparation and participation in folk singing and
dancing; experience in group leadership designed for
recreation and camp leaders, social workers, teachers
of music, and classroom teachers. Sexton.

270 U 3
Basic Experiences in Music: Fundamentals
Su, A, W, Sp. 5 cl.
Ear-training, music reading, creative writing, voice
production, and some instrumental experience as
applied to the music program in the elementary school.
Sexton.

271 U 2
Basic Experiences in Music:
Literature and Listening
Su, A, W, Sp. 4 cl.
The elements involved in active, intelligent listening,
understanding, and appreciation of representative
works of music as applied to the music program in
the elementary school. Sexton and Turley.

290 U 2
Introduction to Music Teaching
A, W. 2 cl.
The initial course of the program leading to the
Bachelor of Music Education degree; school
experiences in music teaching and career guidance
are provided.

312 U 2
Opera Performance
A, W, Sp. 4 lab. hrs.
Prereq.: Junior or senior standing and permission of
instructor.
Repeatable to a maximum of 10 cr. hrs.
Instruction and experience in preparation for open
performance, including study of operatic literature and
casting of operatic roles. Hickfang.

370 U 3
Music for Elementary Teachers
Su, A, W, Sp. 5 cl.
Prereq.: 270, 271, and professional standing.
Music literature and teaching aids for children,
including singing, rhythmic, creative, and listening
experiences, and their presentation. Sexton, Bonney,
and Thompson.

401 U 1-2
Applied Music (Principal)
1 1-hr. lesson, studio classes and recital attendance arr.
Prereq.: 201 and permission of applied area faculty.
Open to other qualified students within the limits of
instructional facilities by permission of the Director of
the School of Music.
Repeatable to a maximum of 8 cr. hrs. for each
decimal subdivision.
Applied music instruction required in the B.M.E.
curriculum to develop musicianship, performance, and
a wide reading knowledge of music literature.
401.01 Piano
401.02 Voice
401.03 Strings
Su (1st term), A, W, Sp.
401.04 Woodwinds
Su (1st term), A, W, Sp.
401.05 Brass
Su (1st term), A, W, Sp.
401.06 Organ
Su (1st term), A, W, Sp.

401.07 Percussion

401.08 Harpsichord

401.09 Harp

402 U 2 or 4
Applied Music (Major)
1 1-hr. lesson, studio classes and recital attendance arr.
Prereq.: 201 and permission of applied area faculty.
Repeatable to a maximum of 16 cr. hrs. for each
decimal subdivision.
Instruction required in B.M. curricula in performance
to develop professional qualities of musicianship,
technique, and knowledge of music literature.

402.01 Piano

402.02 Voice

402.03 Strings
Su (1st term), A, W, Sp.

402.04 Woodwinds
Su (1st term), A, W, Sp.

402.05 Brass
Su (1st term), A, W, Sp.

402.06 Organ
Su (1st term), A, W, Sp.

402.07 Percussion

402.08 Harpsichord

402.09 Harp

421 U 3
Music Theory IV
A, 3 cl.
Prereq.: 223.
Critical study of chromatic harmony of the 18th and
19th centuries including modulatory methods and
devices; current musical practice and relationships to
traditional composition.

422 U 3
Music Theory V
W, 3 cl.
Prereq.: 421.
Techniques of impressionism, and investigation of
20th century analytical methods for tonal music, and
an introduction to twelve-tone compositional methods.

423 U 3
Music Theory VI
Sp, 3 cl.
Prereq.: 422.
Analytical study of recent compositional techniques
and devices and investigation of serial, aleatory, and
electronic practices; creative work in contemporary
styles.

424 U 2
Ear-Training I
A, 4 lab. hrs.
Prereq.: 226.
Sight-singing, dictation, and keyboard harmony.

425 U 2
Ear-Training II
W, 4 lab. hrs.
Prereq.: 424.
Intermediate sight-singing, dictation, and keyboard
harmony.

426 U 2
Ear-Training III
Sp, 4 lab. hrs.
Prereq.: 425.
Advanced sight-singing, dictation, and keyboard
harmony.

427 U 2
Keyboard Harmony I
A, 2 cl.
Prereq.: 261.01, 262.01, and 263.01 (6 cr. hrs),
201.01 (6 cr. hrs.), or equiv.
Systematic review and utilization of basic harmonic
materials at the keyboard.

428 U 2
Keyboard Harmony II
W, 2 cl.
Prereq.: 427.
An introduction to score reading at the keyboard.

429 U 2
Keyboard Harmony III
Sp, 2 cl.
Prereq.: 428.
Score reading at the keyboard.

501 U 1-2
Applied Music (Principal)
1 1-hr. lesson, studio classes arr.
Prereq.: 401 and permission of applied area faculty.
Open to other qualified students within the limits of
instructional facilities by permission of the Director
of School of Music.
Repeatable to a maximum of 8 cr. hrs. for each
decimal subdivision.
Applied music instruction required in the B.M.E.
curriculum to develop musicianship, performance, and
a wide reading knowledge of music literature.

501.01 Piano

501.02 Voice

501.03 Strings
Su (1st term), A, W, Sp.

501.04 Woodwinds
Su (1st term), A, W, Sp.

501.05 Brass
Su (1st term), A, W, Sp.
501.06 Organ
Su (1st term), A, W, Sp.

501.07 Percussion

501.08 Harpsichord

501.09 Harp

502 U 2 or 4
Applied Music (Major)
1 hr. lesson, studio classes and recital attendance arr.
Prereq.: 402 and permission of applied area faculty.
Repeatable to a maximum of 16 cr. hrs. for each
decimal subdivision.
Instruction required in B.M. curricula in performance
to develop professional qualities of musicianship,
technique, and knowledge of music literature; half
recital required in junior year.

502.01 Piano

502.02 Voice

502.03 Strings
Su (1st term), A, W, Sp.

502.04 Woodwinds
Su (1st term), A, W, Sp.

502.05 Brass
Su (1st term), A, W, Sp.

502.06 Organ
Su (1st term), A, W, Sp.

502.07 Percussion

502.08 Harpsichord

502.09 Harp

511 U 2
Jazz Improvisation
A. 2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 4 cr. hrs.
Analytical techniques for listening, melodic elaboration
techniques, and techniques for creating new melodies
with regard to relevant styles, phrasing, coherence, and
current trends. Levey.

521 U 3
Form and Analysis
Su, A. 3 cl.
Prereq.: 423.
Introduction to the study of the formal structure of
music.

524 U 3
Instrumentation
W, Sp. 3 cl.
Prereq.: 423.
An elementary course in scoring for the instruments
of the orchestra and the band. McClure.

531 U 3
Counterpoint
A. 3 cl.
Prereq.: 423.
A fundamental course in counterpoint including
species counterpoint, double counterpoint, imitation,
and two-voice canon.

535 U 3
Composition
W, Sp. 3 cl.
Prereq.: 423.
Creative writing in the small forms.

560 U 3
Beginning Conducting
A, W. 3 cl.
Prereq.: 421.
The basic technique of the baton; a syllabus of
selected literature and reading assignments will be
used as a basis for study. Hardesty and Barber.
574  U 3  
Choral Music in the Schools:  
Basic Teaching Practices  
w  9 cl., 9 lab. hrs.  
Prereq.: Enrollment in the College of Education.  
Not open to students with credit for 564.  
Factors relating to organizing and teaching choral music in elementary, middle, and junior high schools.

575  U 3  
Choral Music in Senior High Schools  
Sp.  2 cl., 2 lab. hrs.  
Prereq.: Enrollment in the College of Education.  
Not open to students with credit for 564.  
Rehearsal procedures, choral techniques, materials, and literature suited to various choral organizations of senior high schools.

576  U 3  
Instrumental Music in Elementary Schools  
A, Sp.  3 cl., 1 1-hr. lab.  
Prereq.: 6 cr. hrs. in Music 261.03, 261.04, 261.05, or 261.07 and enrollment in the College of Education.  
Not open to students with credit for 563.  
The role of instrumental music instruction in public education, techniques of teaching instrumental music, study of music appropriate to musical organizations in elementary schools.

577  U 3  
Instrumental Music in Secondary Schools  
A, W.  3 cl., 1 1-hr. lab.  
Prereq.: Enrollment in the College of Education.  
Not open to students with credit for 563.  
The role of instrumental music instruction in public education, techniques of teaching instrumental music, study of music appropriate to musical organizations in secondary schools.

578  U 3  
The Music Education Curriculum  
W, Sp.  3 cl.  
Prereq.: Enrollment in the College of Education.  
A study of the musical and learning processes involved in the music education curriculum from kindergarten through high school.

586  U 3-8  
Student Teaching in Music in Elementary Schools  
Repeatable to a maximum of 8 cr. hrs.  
Assignment to area elementary schools for observation and teaching experiences with groups of students and cooperating teachers; students attend weekly seminars with University supervisors.

587  U 3-8  
Student Teaching in Music in Secondary Schools  
Repeatable to a maximum of 8 cr. hrs.  
Assignment to area secondary schools for observation and teaching experiences with groups of students and cooperating teachers; students attend weekly seminars with University supervisors.

593  U G 1-5  
Individual Studies  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 9 cr. hrs.  
Individual studies in specified problems in the field of music.

594  U 1-5  
Group Studies  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 9 cr. hrs.  
Supervised group studies of special problems.

601  U 1-2  
Applied Music (Principal)  
1 1-hr. lesson, studio classes arr.  
Prereq.: 501 and permission of applied area faculty.  
Open to other qualified students within the limits of instructional facilities by permission of Director of School of Music.  
Repeatable to a maximum of 8 cr. hrs. for each decimal subdivision.  
Elective applied music instruction at the senior level for students in the B.M.E. curriculum; continuation of study of literature, technique, and musicianship.

601.01  Piano  

601.02  Voice  

601.03  Strings  
Su (1st term), A, W, Sp.

601.04  Woodwinds  
Su (1st term), A, W, Sp.

601.05  Brass  
Su (1st term), A, W, Sp.

601.06  Organ  
Su (1st term), A, W, Sp.

601.07  Percussion  

601.08  Harpsichord  

601.09  Harp  

602  U 3 or 6  
Applied Music (Major)  
1 1-hr. lesson, studio classes arr.  
Prereq.: 302 and permission of applied area faculty.  
Repeatable to a maximum of 18 cr. hrs. for each decimal subdivision.  
Applied music instruction required in BM curricula in performance to develop professional qualities of musicianship; full recital required in senior year.

602.01  Piano  

602.02  Voice  

602.03  Strings  
Su (1st term), A, W, Sp.
602.04 Woodwinds
Su (1st term), A, W, Sp.
602.05 Brass
Su (1st term), A, W, Sp.
602.06 Organ
Su (1st term), A, W, Sp.
602.07 Percussion
602.08 Harpsichord
602.09 Harp

611 U 3
Introduction to Piano Pedagogy
Sp. 3 cl.
Prereq.: 6 cr. hrs. in 501.01 or permission of instructor.
A critical analysis of various methods and principles of piano instruction, and of literature for the beginning and intermediate performer.

612 U G 3
Piano Pedagogy: Group Instruction
Su (1st term), A. 3 cl.
Prereq.: 6 cr. hrs. in 501.01 or permission of instructor.
Concepts of group piano instruction, techniques for development of keyboard musicianship, and knowledge of appropriate literature and materials. Lowder.

613f U G 3
Piano Pedagogy: Practicum
Su, A, W, Sp. 3 cl.
Prereq.: 611 or 612 or permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
To provide supervised experience in piano instruction and guidance in the development of sequences of instruction and in the treatment of specific teaching problems.

615 U G 3
Structure and Function of the Singing Mechanism
Su, W. 3 cl.
Prereq.: Permission of instructor.
The structure and function of the singing and breathing mechanisms as they relate to developmental teaching of voice in the formative years.

621* U G 3
Analysis: The Classic Period
Su, W. 3 cl.
Prereq.: 521 or 243.
An analytical study of representative works from Classic literature.

621* U G 3
Analysis: The Romantic Period
Su, W. 3 cl.
Prereq.: 521 and 243.
An analytical study of representative works from Romantic literature. Barnes and Vedder.

624 U G 3
Band Scoring
A. 3 cl.
Prereq.: 524.
Scoring for the concert band.

625f* U G 3
Orchestra Scoring
A. 3 cl.
Prereq.: 524.
Scoring for the orchestra.

627 U G 3
Advanced Keyboard Harmony
Su (1st term), A. 3 cl.
Prereq.: 423.
Practice in harmonizing melodies, realizing figured bass, improvisation, and modulation at the keyboard.

631 U G 3
Counterpoint I
W. 3 cl.
Prereq.: 531.
Studies in imitation and invertible counterpoint, applied in the writing of two- and three-part inventions.

633 U G 3
Gregorian Chant
A. 3 cl.
A study of the historical background and characteristics of plain-song, including the technical aspects of notation, modes, rhythm, and chironomy. Kuehefuhs.

634 U G 3
Modal Counterpoint I
W. 3 cl.
Prereq.: 242 and 521.
Counterpoint based on the vocal polyphonic style of the 16th century; analysis of representative works and practice in motet writing. Kuehefuhs.

635 U G 3-5
Composition
Su, A, W, Sp. 3 cl.
Prereq.: 535.
Repeatable to a maximum of 9 cr. hrs.
Creative writing; analysis, discussion, employment of devices used in contemporary music. Barnes, Huff, and Levey.

636 U G 3
Musical Uses of Electronic Devices
A. 3 cl.
Prereq.: Permission of instructor.
Characteristics and uses of electronic devices for compositional, analytic, and experimental purposes in music.

637 U G 3
Electronic Composition
A, W, Sp. 3 cl.
Prereq.: 535 and 636.
Repeatable to a maximum of 6 cr. hrs.
Creative writing employing electronic sound sources. Ramsier.
640*  U G 3
Music in the Middle Ages
Su. 3 cl.
Prereq.: 521 or 531, and 243.
The development of western music through the
14th century.

641*  U G 3
Music in the Renaissance
W. 3 cl.
Prereq.: 521 or 531, and 243.
The development of musical styles from Dufay
through Palestrina and Lassus.

642*  U G 3
Music in the Baroque Period
Sp. 3 cl.
Prereq.: 521 or 531, and 243.
The development of musical styles from Monteverdi
through Bach.

643*  U G 3
Music in the Classic Period
A. 3 cl.
Prereq.: 521 or 531, and 243.
Vocal and instrumental music of the middle and
late 18th century.

644*  U G 3
Music in the Romantic Period
Su, W. 3 cl.
Prereq.: 521 or 531, and 243.
The music of the Romantic period in Germany and
France.

645  U G 3
Modern Music
Su, Sp. 3 cl.
Prereq.: 521 or 531, and 243.
Major trends in the development of music since 1900.

646*  U G 3
The History of Music in the United States
Su. 3 cl.
Prereq.: Junior or senior standing.
A survey of music in the United States from colonial
times until the present.

647†  U G 3
Individual Composers: Their Lives and Works
W. 3 cl.
Prereq.: 521 or 531, and 243.
A comprehensive study of the works of an individual
composer; topic varies from year to year.

648*  U G 3
Chamber Music Literature
Su, A. 3 cl.
Prereq.: 521 or 531, and 243.
A survey of chamber music of the Classic and
Romantic periods.

649*  U G 3
Symphonic Literature
W. 3 cl.
Prereq.: 521 or 531, and 243.
A survey of orchestral music from the Classic
period to the present.

650†  U G 3
Choral Literature
A. 3 cl.
Prereq.: 521 or 531, and 243.
A survey of choral music from the Renaissance to
the present.

651*  U G 3
Opera Literature
Sp. 3 cl.
Prereq.: 521 or 531, and 243.
A survey of the antecedents of opera and a study of
representative works from each of the major periods
in the history of opera.

652  U G 3
Song Literature
A. 3 cl.
The study of song literature including historical and
philosophical backgrounds selected to meet the
needs of the student, artist, or teacher; program
building.

653*  U G 3
Piano Literature
Sp. 3 cl.
Prereq.: 521 or 531, and 243.
A study of the piano sonata and other characteristic
forms from the pre-piano period to the present time.
Haddad and Tetley-Kardos.

654*  U G 3
Organ Literature
Sp. 3 cl.
Prereq.: 521 or 531, and 243.
A comprehensive survey from the earliest compositions
to the works of present-day composers. Held.

660  U G 3
Advanced Conducting (Instrumental)
Su (1st term), A, W, Sp. 3 cl.
Prereq.: 521 and 560.
An attempt to develop the power to interpret the larger
forms of instrumental literature and to read from full
score, McGinnis.

661  U G 3
Advanced Conducting (Vocal)
Su (1st term), W, Sp. 3 cl.
Prereq.: 521 and 560.
Development of power to interpret the larger forms of
choral literature and to read from full score. Casey.

662  U G 2
Choral Repertoire
Su, A. 1 cl., 1-2 hr. lab.
Repeatable to a maximum of 6 cr. hrs.
Reading and study of sacred and secular choral
literature. Casey.
665 U G 3
Marching Band Techniques
Sp. 2 1/2-hr. cl.
Not open to freshmen. Open to non-music majors with permission of instructor.
A study of the modern marching band including laboratory work in marching techniques, arranging techniques, and show planning.

670 U G 3
Medieval, Renaissance, and Baroque Musical Instruments
Sp. 3 cl.
A study of the early development of musical instruments and their use; introduction to instrumental techniques and performance practices in these periods. Maas.

680 U G 2
Collegium Musicum
A, W, Sp. 2 hr. rehearsal, 1 cl. (alternate weeks).
Prereq. 670.
Repeatable to a maximum of 6 cr. hrs.
Study and performance of music from the medieval, Renaissance, and baroque periods. Maas.

681 U G 3
Liturgies
W. 3 cl.
Historic liturgies of the church as a background for the work of the church musician; contemporary movements in liturgical practice. Held.

682 U G 3
Hymnology
A. 3 cl.
Prereq. 423 or permission of instructor.
An historical survey of Christian hymnody, consideration of criteria for judging texts and tunes with regard to artistic quality and Liturgical suitability. Held.

683 U G 3
Techniques and Materials for Church Choirs
Sp. 3 cl.
A study of anthem materials, chants and propers, with consideration of programming and performance. Held.

684 U 2
Field Experience in Church Music
Prereq.: 560 and 683, or concur. 683.
Repeatable to a maximum of 6 cr. hrs.
Supervised experience in the actual church situation. Held.

693 U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Individual studies in specified problems in the field of music.

694 U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Supervised group studies of special problems in the field of music.

700 U G 1-2
Applied Music (Secondary)
1 1-hr. lesson, studio classes arr.
Prereq.: Grad. standing in music or permission of the Director of the School of Music.
Repeatable to a maximum of 12 cr. hrs. for each decimal subdivision.
Applied music study in areas other than a student's major or principal area.

700.01 Piano
700.02 Voice
700.03 Strings
Su (1st term), A, W, Sp.
700.04 Woodwinds
Su (1st term), A, W, Sp.
700.05 Brass
Su (1st term), A, W, Sp.
700.06 Organ
Su (1st term), A, W, Sp.
700.07 Percussion
700.08 Harpsichord
700.09 Harp

701 U G 1-2
Applied Music (Principal)
1 1-hr. lesson, studio classes arr.
Prereq.: Placement exam. or permission of applied area faculty.
Repeatable to a maximum of 12 cr. hrs. for each decimal subdivision.
Applied music study with special emphasis on literature and performance practices.

701.01 Piano
701.02 Voice
701.03 Strings
Su (1st term), A, W, Sp.
701.04 Woodwinds
Su (1st term), A, W, Sp.
701.05 Brass
Su (1st term), A, W, Sp.
701.06 Organ
Su (1st term), A, W, Sp.
701.07 Percussion
701.01 Harpsichord
701.09 Harp

711 U G 3
Theory Pedagogy
Su. 5 cl.
Prereq.: Mus. 4th yr. standing.
The teaching of music theory in colleges and secondary schools.

732* U G 3
Fugue
Sp. 3 cl.
Prereq.: 631.
Detailed study of the fugue; writing of three- and four-voiced fugues.

752 U G 3
Performance Literature
Su, A, W, Sp. 3 cl.
Prereq.: M.A. in M.M. or permission of instructor.
Repeatable to a maximum of 4 cr. hrs. for each decimal subdivision.
Intensive study of representative literature for the instrument from each period.

752.01 Piano
752.02 Voice
752.03 Strings
752.04 Woodwinds
752.05 Brass
752.06 Organ
752.07 Percussion

760 U G 3
Basic Concepts in Music Education
Su, A. 3 cl.
Prereq.: 566 or 587 or equiv.
The principles of music education and of the educational and cultural objectives derived from related disciplines which give direction and purpose to the music education program. Cady and Tolbert.

761 U G 3
Principles of Music Learning
Sp. 3 cl.
Prereq.: 566 or 587 or equiv.
Analysis of the learning process in music as related to problems of music instruction to the public school. Costanza.

762* U G 3
Principles and Practices in Elementary School Music
Su (1st term). 3 cl.
Prereq.: 571 or equiv.
Analysis and appraisal of the music program in elementary schools including the relationship of music to the total school program. Tolbert.

763* U G 3
Literature of Elementary School Music
Su (1st term). 3 cl.
Prereq.: 571 or equiv.
A critical study of folk and art music of various cultures and historic periods for the general vocal and listening activities of the integrated curriculum. Tolbert.

764* U G 3
Principles and Practices in Vocal Music Education
Su (1st term). 3 cl.
Prereq.: 575 or equiv.
Analysis and appraisal of the organization, purpose, and development of the vocal music program in secondary schools.

765* U G 3
Literature for Vocal Music Education
Su (2nd term). 3 cl.
Prereq.: 575 or equiv.
A study of vocal literature of various cultures and historic periods for use with chorus groups in the secondary music program.

766* U G 3
Teaching Practices in General Music
Su (2nd term). 3 cl.
Prereq.: 573 or equiv.
Study of current concepts in organizing and teaching general music in the secondary school. Ramsey.

767* U G 3
Curricular Trends in General Music
Su (1st term). 3 cl.
Prereq.: Permission of instructor.
Analysis and development of programs in general music in which music is taught with reference to other art forms. Meeker and Tolbert.

768* U G 3
Principles and Practices in Instrumental Music Education
Su (1st term). 3 cl.
Prereq.: 577 or equiv.
Role of instrumental music in the public schools; relationship to society and the total music program, historical development, evaluation, and future trends. Meeker.

769* U G 3
Literature for Instrumental Music Education
Su (1st term). 3 cl.
Prereq.: 577 or equiv.
Relationship of teaching materials and performance repertoire to education objectives; selection of literature, interpretation, rehearsal procedures, conducting problems, attainment of musical understanding through literature. Meeker.
770         U G 3
Introduction to Research in Music Education
Su (1st term).  3 cl.
Prereq.: 586 or 587 or equiv.
A study of methods of research as applied to problems in school music. Costanza and Meeker.

771†*        U G 5
Supervision of Music Education Programs
Su.  3 cl.
Prereq.: Permission of instructor.
A study of specific problems of music supervision with special attention to music program evaluation and curriculum development. Ramsey.

786         U G 3
Introduction to Bibliographic Method
Su, A.  3 cl
Prereq.: 521 or 531, and 243.
The collection, examination, and documentation of information about music, including general as well as music library materials. Mixter.

790         U G 1-5
Problems in Vocal Music Education
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Study of problems encountered in the teaching and supervising of vocal music.

791         U G 1-5
Problems in Instrumental Music Education
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Study of problems encountered in teaching, supervising, and organization of the instrumental music program.

792         U G 1-5
Choral Problems
Su (1st term), A, W, Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Study of the problems encountered in developing choruses and church choirs. Casey.

793         U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Individual studies in specified problems in the field of music.

794         U G 1-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Supervised group studies of special problems in the field of music.

801         G 1, 2, or 4
Applied Music (Principal)
1 1-hr. lesson, studio classes arr.
Prereq.: Placement exam or permission of applied area faculty.
Open to other qualified students within the limits of instructional facilities by permission of Director of School of Music.
Repeatable to a maximum of 16 cr. hrs for each decimal subdivision.
Advanced applied music study with emphasis on musicianship, pedagogical techniques, and literature.

801.01 Piano

801.02 Voice

801.03 Strings
Su (1st term), A, W, Sp.

801.04 Woodwinds
Su (1st term), A, W, Sp.

801.05 Brass
Su (1st term), A, W, Sp.

801.06 Organ
Su (1st term), A, W, Sp.

801.07 Percussion

801.08 Harpsichord

801.09 Harp

802         G 2 or 4
Applied Music (Major)
1 1-hr. lesson, studio classes arr.
Prereq.: Placement exam.
Repeatable to a maximum of 16 cr. hrs for each decimal subdivision.
A specialized and intensive study of literature and techniques of performance.

802.01 Piano

802.02 Voice

802.03 Strings
Su (1st term), A, W, Sp.

802.04 Woodwinds
Su (1st term), A, W, Sp.

802.05 Brass
Su (1st term), A, W, Sp.

802.06 Organ
Su (1st term), A, W, Sp.

802.07 Percussion

802.08 Harpsichord

802.09 Harp
803  G 4
Conducting
Su, A, W, Sp. 3 cr., 1 1-hr. lab.
Prereq.: Placement examination.
Open only to conducting majors in the M.M. curriculum.
Repeatable to a maximum of 12 cr. hrs. for each decimal subdivision.
A specialized and intense study of conducting techniques.
803.01 Choral

811†  G 3
Piano Pedagogy
Su (1st term). 5 cr.
Prereq.: 611 or equiv. and admission to M.M. or M.A.
programs in piano.
A critical analysis of various methods and principles of
piano instruction, and of literature for beginning
and intermediate performers.

812*  G 3
Vocal Pedagogy
W. 5 cr.
Prereq.: Mus. grad. standing and minimum of 6 cr. hrs.
of applied study in voice.
An analysis of the principles and practices current
in the teaching of voice.

813†*  G 3
String Instrument Pedagogy
Su (1st term). 5 cr.
Prereq.: Mus. grad. standing and minimum of 6 cr. hrs.
of applied study in string instruments.
An analysis of the principles and practices current
in the teaching of strings.

814*  G 3
Woodwind Instrument Pedagogy
Su (1st term). 5 cr.
Prereq.: Mus. grad. standing and minimum of 6 cr. hrs.
of applied study in woodwind instruments.
An analysis of the principles and practices current
in the teaching of woodwinds, Titus.

815†*  G 3
Brass Instrument Pedagogy
Su (1st term). 5 cr.
Prereq.: Mus. grad. standing and minimum of 6 cr. hrs.
of applied study in brass instruments.
An analysis of the principles and practices current
in the teaching of brass instruments.

821  G 5
Advanced Analysis: The Classic Period
A. 3 cr.
Prereq.: 621 or 622.
An analytical study of selected major works from
the classic literature.

822  G 5
Advanced Analysis: The Romantic Period
Su, W. 3 cr.
Prereq.: 2 of the following courses: 621, 622, or 821.
An analytical study of selected major works from
the romantic literature. Poland.

823  G 5
Advanced Analysis: Post-Romantic
to Modern Music
Sp. 3 cr.
Prereq.: 821 or 822.
Analysis of selected works reflecting the evolution
from the post-romantic period to contemporary
styles. Poland.

826  G 5
Development of Music Theory I
A. 3 cr.
A study of the principal treatises on music theory
before 1400. Phelps.

827  G 5
Development of Music Theory II
Su, W. 3 cr.
A study of the principal treatises on music theory
from 1400 to 1700. Phelps.

828  G 5
Development of Music Theory III
Sp. 3 cr.
Critical study of music and theory texts from 1700
to 1900. Phelps.

829  G 5
Contemporary Theories of Music
Sp. 3 cr.
Prereq.: Mus. grad. standing.
Fundamental concepts of theory construction and
experimental verification of contemporary theories
of music. Poland.

831*  G 3
Contrapuntal Techniques
Sp. 3 cr.
Prereq.: 631.
Analysis and stylistic writing of canons, invertible
counterpoint, and variations.

833  G 3
Contrapuntal Techniques
A.
Prereq.: Permission of instructor.
Contrapuntal techniques in the works of 20th-century
composers.

834  G 3
Modal Counterpoint II
Sp. 3 cr.
Prereq.: 634.
Advanced counterpoint based on the vocal polyphonic
style of the 16th century. Kuehfeuhs.

835  G 3-5
Advanced Composition
Prereq.: 2 qtrs. of 635 or equiv.
Repeatable to a maximum of 15 cr. hrs.
Creative writing in the large forms at an advanced
level. Barnes.
837  Advanced Electronic Composition
W, Sp.  3 cl.
Prereq.: 637.
Repeatable to a maximum of 6 cr. hrs.
Creative writing at an advanced level employing
electronic sound sources.

838  Seminar in Experimental Music
A, W, Sp.  3 cl.
Prereq.: 636.
The application of electronic devices to analytical
and experimental problems in music.

841*  Studies in Medieval Music
A, Sp.  3-5 cl.
Problems and research in music before 1400. Hoppin.

842*  Studies in Renaissance Music
W.  3-5 cl.
Problems and research in music between 1400
and 1600. Mixter.

843*  Studies in Baroque Music
A.  3-5 cl.
Problems and research in music between 1600
and 1750. Livingston.

844*  Studies in Classic Music
A.  3-5 cl.
Problems and research in music of the late
18th century. Livingston.

845*  Studies in Romantic Music
Su.  3-5 cl.
Problems and research in music of the 19th century.
Livingston.

846*  Studies in Modern Music
Su, Sp.  3-5 cl.
Problems and research in music of the 20th century.
Hoppin.

847†  Development of Notation: 600-1600
A.  3 cl.
Prereq. or concur.: 640.
A survey of notational principles from Gregorian
neumes through the mensural system of the
Renaissance, with exercises in transcription.

850**  The History of Performance Practices
A, Sp.  3 cl.
A study of primary sources pertaining to contemporary
attitudes and practices in the performance of music
from the Middle Ages to the present. Livingston.

851**  Musical Sources and Historiography
Sp.  3 cl.
Prereq.: 786.
A study of music historiography, supplemented by
the examination of musical documents from each
of the periods of music history. Mixter.

852  Performance Literature
Su, A, W, Sp.  3 cl.
Prereq.: 752 and admission to D.M.A. program.
Repeatable to a maximum of 18 cr. hrs.
Concentrated study of representative literature from
each style period.
852.01 Piano
852.02 Voice
852.03 Violin
852.06 Organ

872†  Administration in Music Education
Sp.  3 cl.
Prereq.: Permission of instructor.
Seminar.

873†  Seminar: Comparative Music Education
Su.  3-5 cl.
Prereq.: Permission of instructor.
An analysis and comparison of music education
programs in other countries including the study
of curriculum, teaching procedures, and programs
of teacher preparation. Tolbert.

874  Seminar: The Development of Music Education
Su.  3-5 cl.
Prereq.: Permission of instructor.
The development of music education from the
early Greek society to the present day tracing
major trends and the influence of certain persons.
Cady.

875  Seminar: Psychological Factors
in Music Education
A.  3-5 cl.
Prereq.: 761.
A study of the psychological factors, theory, and
research in the musical development of children and
adolescents with implications for school music
education programs. Costanza.

876  Seminar: Evaluation and Measurement
in Music Education
Sp.  3-5 cl.
Prereq.: 761 and Psych. 510.
A study of the theory, principles, and techniques of evaluation and measurement in music education. Costanza.

879 G 5 Seminar: Music in Higher Education A. 3-5 cl. The role of music in higher education historically and in contemporary education, including its philosophical bases, degree programs, and organization. Cady.

882.01 Piano
882.02 Voice
882.03 Violin
882.06 Organ

Medieval and Renaissance Culture
(See Medieval and Renaissance Studies 888.)

Medieval and Renaissance Literature
(See Medieval and Renaissance Studies 889.)

902 G 2 or 4 Applied Music (Major) Su, A, W, Sp. 1-2 1-hr. lessons, studio classes arr. Prereq.: Placement exam. Open only to students admitted to D.M.A. program. Repeatable to a maximum of 12 cr. hrs in each decimal subdivision. Advanced study of music literature in performance including concert recital presentation.

902.01 Piano
902.02 Voice
902.03 Violin
902.06 Organ

993 G 1-5 Individual Studies Su, A, W, Sp. Repeatable to a maximum of 15 cr. hrs. Individual research projects not connected with the dissertation.

994.01 Seminar in Music Theory Barnes, Phelps, and Poland.
994.02 Seminar in Music Education Cady and Costanza.
994.03 Seminar in Music History Livingston and Hoppin.

995 G 1-5 Advanced Research Practicum Su, A, W, Sp. Prereq.: 45 grad. cr. hrs. and permission of instructor. Repeatable to a maximum of 10 cr. hrs. Utilization of research processes and creative techniques appropriate to the field of inquiry—analysis, survey, experimentation, historiography, philosophy.

National Security Policy Studies
Office: 199 West 10th Avenue
Mershon Center for Education in National Security, Richard C. Snyder (Director), Charles F. Hermann, (Associate Director).

200 U 5 National Security Policy and Policymaking W. Survey and policies affecting the security of the United States and of the processes by which such policies are formulated, executed, and appraised.

Introduction to National Security
A. 1 cl.
Prereq.: Permission of instructor.
Examination of approaches taken by various social science disciplines to field of national security; survey of literature in field; identification of major problem areas.

Research Principles and Techniques in Leadership and Public Policy
W. 1 cl.
Prereq.: Permission of instructor.
Repeatable with permission of instructor to a maximum of 10 cr. hrs.
Examination of leadership and policy problems and the application thereto of social science analytical techniques and findings.

Seminar On Social Science Relationships to Public Policy
A. W, Sp. 1 cl.
Prereq.: Permission of instructor.
Repeatable with permission of instructor to a maximum of 10 cr. hrs.
Examination of the contribution of the social and behavioral sciences to specific public policy issues; between and within national societies.

Natural Resources
Office: School of Natural Resources, 246 Lord Hall, 124 West 17th Avenue
Professors: Teeter (Director), Bookhout, Cowen, Gatherum, Good, Johnson, Kriedel, Larson, Murphy, Pettyjohn, Schick, Schwab, Taft, Touise, and Tubb.
Associate Professors: Brown, Mornot, Roth, Stockdale, Vimmerstedt, Vogt, and Whitmore; Assistant Professors: Andrew, Clark, Curnow, Disinger, Hackney, Houston, Townshend, Weidensaul, and Wheatley; Instructor: Pierce.

Introduction to Conservation of Natural Resources
A. Sp. 3 cl., 2 1-day field trips.
Not open to students with credit for Conserv. 201. Nature and scope of conservation problems; technical and socio-economic aspects of the solution of conservation problems. Roth.

Conservation Agencies
W. 3 cl.
Prereq.: 201 or Geog. 530.
Not open to students with credit for Conserv. 202. History and responsibilities of governmental agencies and some private organizations for natural resources management; representatives of conservation agencies present programs and problems. Johnson.

Work Experience in Natural Resources
Prereq.: Permission of major adviser.
Not open to students with credit for Conserv. 489. Repeatable to a maximum of 6 cr. hrs.
The student must secure approval of adviser prior to employment, and submit a final written report by fourth week of first quarter in school following the work.

Natural History of Ohio
Su, Sp. 3 cl. and arr. field trip.
Cannot be taken concur. with Bot. 210 or Zool. 220.
Geology and soils, vegetation types and regions; major wildlife; field work on ecology, observation techniques, and identification skills.

Principles of Park and Recreation Management
A. 3 cl.
Prereq.: 201, or equiv. with permission of instructor.
Policies, rules and regulations, boards and commission agendas, land acquisition procedures, basic maintenance and operation of park systems; management of marinas and reservoirs. Schick.

Natural Resources Problems, Programs, and Policies
W. 2 2-hr. cl.
Prereq.: 201 or Geog. 530.
Not open to students with credit for Agr. Econ. 660 or Nat. Res., 640.
Analytical study of contemporary and future problems of natural resources conservation and programs and policies related to their solution. Johnson.

Interactions in Natural Resources Management
A. 2 2-hr. cl.
Prereq.: Permission of instructor.
Impact of man's activity on natural resources; interrelationships between resources and physical and social environment and prospects for effective resources management. Disinger.

Interpretive Work
Su, Sp. 2 2-hr. cl. and arr. field trips.
Prereq.: Biol. 313 or equiv., Bot. 210 or Forest. 222, Geol. 102, and 5 cr. hrs. Psychol. or equiv.
Professional course for park naturalists, teachers, and outdoor education workers; history of interpretive work; philosophy and objectives; case studies of programs; interpretive techniques and evaluation. Johnson.

Field Course in Conservation and Outdoor Education
Su (1st term). Concur.: 694.01 for 3 cr. hrs., and permission of instructor.
Study and field work in natural history, resources management, and conservation and outdoor education. Roth.

Interdepartmental Seminar in Natural Resources
(See under Interdepartmental Seminars.)

Research
Research for thesis or dissertation purposes only.

Naval Science
Office: 179 Physical Education Building, 337 West 17th Avenue
Captain J. M. Mason, USN, and Staff.

The sequence of courses is the same for all officer candidate students for the first two years. At the end of the second year, students may apply for the Marine Corps Option, in which case there is a variation in course presentation. All candidates are required to complete a course in American Military Affairs, in National Security Policy, and in Computer Science by the end of the third year in the NROTC Program. Additional courses in mathematics and physical sciences must be completed by the end of the second year. Descriptions of these course requirements, for each category of candidate, are available from the department office.

Candidates should consult the appropriate Naval Science Department instructor when preparing class schedules. Naval science courses are open to a limited number of civilian students with permission of the Professor of Naval Science.

Normal sequence of Naval Science courses is as follows:
First Year: All candidates—154, 152, 153.
Second Year: All candidates—261, 262, 263.
Third Year: Navy candidates—342, 343, 341.
Marine candidates—351, 352, 353.
Fourth Year: Navy candidates—475, 476, 477.
Marine Candidates—451, 452, 453

Naval Administration and Introduction to Naval Ships Systems
W. 3 cl., 1 2-hr. lab.
Prereq.: 154.
Continuation of naval organization and management practices and a familiarization of types, structure, and purpose of ships.

Naval Ships Systems I
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 152.
Study of ships compartmentation, propulsion systems, auxiliary power systems, ship design, stability, and safety.

Survey of Naval Science
A. 3 cl., 1 2-hr. lab.
Prereq.: Enrollment in NROTC Unit or permission of professor.
An introduction to and survey of disciplines peculiar to naval science including a discussion of naval tasks and missions, regulations, customs, traditions, and organizational relationships.

Naval Weapons Systems II
A. 3 cl., 1 2-hr. lab.
Prereq.: 153 or permission of instructor.
Investigation of concept and technique of weapons systems, linear analysis of ballistics, and the dynamics of the basic components of weapons control systems.

Naval Weapons Systems III
W. 3 cl., 1 2-hr. lab.
Prereq.: 261.
Further development of the basic principles of naval weapons.

Principles of Naval Organization and Administration
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 262.
Introduction to the structure and principles of naval organization and management.

Naval Operations
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 343.
A study of fleet operations, including tactics, tactical communications; rules of the Nautical Road, and the principles of relative motion.

Naval Operations and Introduction to Navigation
A. 3 cl., 1 2-hr. lab.
Prereq.: 263.
A study of the Naval Communications system, shipboard organization and administration, and the electronic and dead reckoning methods of marine navigation.

Celestial Navigation
W. 3 cl., 1 2-hr. lab.
Prereq.: 342.
The determination of position by celestial methods of navigation.

Evolution of the Art of War, Part I
A. 3 cl., 1 2-hr. lab.
Prereq.: 253 or completion of summer camp.
A study of the evolution of weapons and tactics, illustrating the principles and variables of war used in certain battles from Alexander through the Mexican War.
352**  U 3
Evolution of the Art of War, Part II
W.  3 cl., 1 2-hr. lab.
Prereq.: 351.
A continuation of the study of evolution of the art of war from the beginning of the Civil War to the end of World War II.

353**  U 1
Modern Basic Military Strategy and Tactics
Sp.  1 2-hr. Sem.
Prereq.: 352.
A survey of modern strategical and tactical principles, and current military developments.

451*  U 3
Amphibious Warfare, Part I
A.  3 cl., 1 2-hr. lab.
The history of amphibious warfare and its development from Gallipoli through Korea.

452*  U 3
Amphibious Warfare, Part II
W.  3 cl., 1 2-hr. lab.
A study of the doctrinal techniques and present concepts of amphibious warfare, including the planning phase.

453*  U 1
Leadership and the Uniform Code of Military Justice
Sp.  1 2-hr. Sem.
Survey of the UCMI and a study of the psychology of human relationships and techniques of leadership as applied by Marines.

474†  U 3
Naval Engineering
Sp.  3 1-hr. cl., 1 2-hr. lab.
Prereq.: Permission of instructor.
Not open to students with credit for 152 or 153.
Ship stability and buoyancy applications in shipboard damage control; theory of design, construction, and operation of modern naval steam engineering plants; shipboard organization and administration.

475  U 2
Seapower and Maritime Affairs I
A.  2 2-hr. Sem.
Prereq.: 343.
An analysis of seapower and maritime affairs as related to the naval forces of the United States.

476  U 2
Seapower and Maritime Affairs II
W.  2 2-hr. Sem.
Prereq.: 475.
A continuation of 475.

477  U 2
Naval Leadership
Sp.  2 2-hr. Sem.
Prereq.: 476.
A seminar study of the human relations, leadership problems, and decisions which confront the naval officer today.

Nuclear Engineering
Office: 2075 Robinson Laboratory, 206 West 18th Avenue

Professors Redmond (Chairman), Glower, and Nicholson; Associate Professors Buxton and Carey; Adjunct Associate Professor Epstein; Assistant Professors Miller, Nakamura, and Schlosser.

505  U 3
Introduction to Nuclear Science and Engineering
Su, W.  3 cl.
Prereq.: Math. 255 and Physics 133, or permission of instructor.
Discussion of nuclear energy and nuclear radiation; sources, methods of utilization, and projections for future engineering uses.

606  U 3
Radiological Safety
A.  2 cl., 1 2-hr. lab.
Prereq.: Permission of instructor.
General principles of radiation, radioactivity, and protection methodology with emphasis on approved operating, handling and waste disposal procedures and regulations, and biological interactions.

610  U 3
Uses of Nuclear Radiations
A, Sp.  3 cl.
Prereq.: Physics 580.01 and Math 255, or permission of instructor.
Not open to students with credit for 710.
Industrial and nuclear applications of radioactive isotopes; thickness and density, food irradiation, direct energy conversion, activation analysis, radioactive tracers, and topics in bioengineering.

626  U 3
Introduction to Nuclear Power
Su, W.  3 cl.
Prereq.: Physics 580.01 and Math. 255, or permission of instructor.
Nuclear power reactors; the economic and technical aspects of the nuclear power industry.

Corrosion
(See under Met. E. 635.)

660  U 5
Introduction to Nuclear Reactor Theory
A.  5 cl.
Prereq.: Math. 255 and Physics 580.01, or permission of instructor.
Introduction to the concepts of radioactive decay, cross-sections, the multiplication constant and neutron flux and to slowing-down theory, diffusion theory, Fermi-age theory, reactor kinetics, and reactor shielding.

Materials of Nuclear Technology
(See under Met. E. 675.)
712 **UG 3**
Introduction to the Production, Interaction, and Detection of Nuclear Radiations
A. 2 cl.
Prereq. or concur.: Physics 580.01.
Nuclear structure, stability, reactions, and decay; interactions of electromagnetic and charged particle radiation with matter, scattering theory, and bremsstrahlung; basic processes in radiation measurements and radiation damage.

716 **UG 3**
Nuclear Plant Safety
Sp. 3 cl.
Prereq.: 660 and Chem. E. 778.
Modeling theory developed and applied to nuclear systems to facilitate analysis of possible nuclear accidents; nuclear incidents, accident description criteria for evaluation, nuclear plant siting and operational procedures.

720 **UG 3**
Reactor Dynamics and Control
Sp. 3 cl.
Prereq.: 660 and Ecel. E. 520 or permission of instructor.
Not open to students with credit for 820.
Nuclear reactor and nuclear reactor system operation; control system performance requirements and control mechanisms; automatic control systems and their performance with transient and with steady state operation.

**Nuclear Power Plants**
(See under Mech. E. 636.)

743 **UG 3**
Nuclear Engineering Laboratory I
Su, A, W, Sp. 2 3-hr. lab.
Prereq.: Physics 580.01 or equiv., and Math. 255.
Experimental investigations of nuclear radiation interactions with matter; a discussion and experimental verification of radiation detection and shielding principles.

744 **UG 3**
Nuclear Engineering Laboratory II
Su, A, W, Sp. 2 3-hr. lab.
Prereq.: 660 and 743.
Experimental nuclear reactor analysis; understanding of the basic nuclear and reactor parameters and utilizing these fundamental concepts in an economical engineering design.

747 **UG 3**
Nuclear Instrumentation
Su, A, W, Sp. 2 cl., 1 3-hr. lab.
Prereq.: 743, Ecel. E. 520 or equiv., and Physics 580.05; or permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
A study of radiation detectors, measuring instruments, block diagrams and circuits; discussion of applications to nuclear research and applied measurement systems.

755 **UG 3**
Analysis of Neutron Chain Reactions
W. 3 cl.
Prereq.: 660 and Math. 512; concur. Physics 580.04; or permission of instructor.
The neutron distributions in infinite and finite media are analyzed with particular emphasis placed upon asymptotic solutions, space dependent slowing down theory, multigroup slowing down theory, and transport theory.

766 **UG 4**
Nuclear Reactor Analysis
Sp. 3 cl., 1 2-hr. lab.
Prereq.: 765.
Not open to students with credit for 763.
Reactor theory, probability concepts and nuclear cross sections, the multiplication constant and neutron flux, neutron slowing down process, diffusion theory, Fermi Age Theory, homogeneous reactors, heterogeneous reactors, and reactor kinetics.

767 **UG 3**
Numerical Methods in Reactor Analysis
Su. 3 cl.
Prereq.: 766, Math. 514, and Engr. Gr. 200 or equiv.
The calculations of nuclear reactor properties using matrix methods and iterative procedures; primary emphasis on the age-diffusion theory multigroup methods.

770 **UG 3**
Plasmas and Controlled Fusion
W. 3 cl.
Prereq.: Physics 580.05; and Mech. E. 511. or permission of instructor.
The Thermonuclear problem; approaches to a stable and sufficiently hot plasma; nuclear reactions, plasma kinetics, diagnostic devices, and engineering problems in research, development, and power production.

**Nuclear Chemical Engineering**
(See under Chem. E. 778.)

793 **UG 1-10**
Individual Studies in Nuclear Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Affords the qualified student the opportunity for independent reading, study, or laboratory work in a specialized field of interest.

794 **UG 1-10**
Group Studies in Nuclear Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Special group studies of a selected area of nuclear engineering not provided in other courses.

845 **G 1-8**
Advanced Laboratory Studies
Prereq.: 743 or 744, and permission of instructor.
Experimental treatment of advanced nuclear engineering concepts.
880 G 3
Advanced Topics
Su, A, W, Sp. 3 cr.
Prereq.: Permission of instructor.
Each subdivision repeatable to a maximum of 12 cr. hrs.
An advanced course of study for special topics in nuclear engineering; topics will be announced each quarter.

880.01 Reactor Physics
880.02 Reactor Kinetics
880.03 Reactor Design
880.04 Fuel Management
880.05 Radiation Effects
880.06 Radiation Transport and Shielding
880.07 Plasmas and Controlled Fusion
880.08 Nuclear Instrumentation
880.20 Special Topics

881 G 1
Nuclear Engineering Seminar
A, W, Sp. 1 cr.
Prereq.: Grad. standing in Nuclear E.
Repeatable to a maximum of 4 cr. hrs.
Current topics in nuclear engineering.

999 G Arr.
Research in Nuclear Engineering
Research for thesis or dissertation purposes only.

503 P 15
Pediatric Anesthesia
Prereq.: 502.
Advanced study of introductory and clinical anesthesia as applicable to pediatric anesthesia; training is received at the affiliated Children's Hospital. Jones and Lang.

504 P 15
Advanced Anesthesia I
Prereq.: 503.
Repeatable to a maximum of 45 cr. hrs.
Emphasis of study will be on more difficult anesthetic procedures and in patients with difficult disease processes. Jones and Lang.

505 P 15
Advanced Anesthesia II
Prereq.: 504.

506 P 15
Advanced Anesthesia III
Prereq.: 505.

Nurse Anesthesiology
(School of Allied Medical Professions)
Office: 435 School of Allied Medical Professions
Building, 1583 Perry Street
Instructor Lang (Division Director); Professor
Hamelberg; Clinical Assistant Professors Anderson,
Dolo, Prince, Reier, and Stone; Instructor Jones;
Clinical Instructors Beach, Burchfield, LeVere, Marshall,
McCullough, and Yutzy.

501 P 15
Introduction to Anesthesia
Prereq.: Graduation from an accredited school of nursing.
Education and training of nurses in the field of anesthesia; management of technical aspects of anesthesia under physician supervision. Jones and Lang.

502 P 15
Clinical Anesthesia
Prereq.: 501.
Advanced study of anesthetic agents, techniques, pharmacology, and physiology with clinical applications. Jones and Lang.

Nursing
Office: 145 School of Nursing Building, 1585 Neil Avenue
Professor Sills; Associate Professors Bellam,
Buckeridge, Clark, Harvey, Kalafatsich, Kruse, Leazenbee
(Emeritus), Lewis (Emeritus), Pease, Ryan, Stevenson,
and Thomas; Assistant Professors Daubenmire, Keith,
Kim, Martin, Mourad, Polcyn, Schoenlaub, Schwartz,
Shaw, Steiner, Wallace, and Williams.

303 U 2-3
Basic Concepts and Skills in Patient Care
A. 2 cr., 2-hr. lab.
Prereq.: Enrolled in a dental hygiene or allied medical professions clinical course.
Not open to students in nursing.
A study of selected concepts and skills in patient care used by health professionals.
Open only to students registered in the School of Nursing.

305 U 5
Introduction to Theory and Nursing Process
A. 3 cr., 2 2-hr. labs.
Prereq.: 1st yr. standing in Nursing.
Study of nature of theory; nursing process; experiences in observation, data collection in health and illness basic to nursing.
### 306 U 5
**Introduction to Theory and Nursing Process**
W. 3 cl., 2 hr. labs.<br>Prereq.: 1st yr. standing in Nursing.<br>Continuation of 305.

### 307 U 5
**Introduction to Theory and Nursing Process**
Sp. 3 cl., 2 hr. labs.<br>Prereq.: 1st yr. standing in Nursing.<br>Continuation of 306 and 306.

### 315 U 5
**Process of Human Adaptation**
A. 4 cl., 1 hr. lab.<br>Prereq.: Sophomore standing.<br>Study of man's adaptive processes as they relate to the individual maturing in a family within a society.

### 316 U 5
**Process of Human Adaptation**
W. 4 cl., 1 hr. lab.<br>Prereq.: Sophomore standing.<br>Continuation of 315.

### 317 U 5
**Process of Human Adaptation**
Sp. 4 cl., 1 hr. lab.<br>Prereq.: Sophomore standing.<br>Continuation of 315 and 316.

### 405 U 5
**Health Directed Nursing Interactions in Health Care Systems I**
A. 2 cl., 9 hr. lab.<br>Prereq.: 307, 317, Anatomy 200, Physiology 312, and 2nd yr. Nursing.<br>Study of needs and interactions with individuals in health care facilities who are experiencing alterations in normal growth, development, and performance. Kisker and Staff.

### 406 U 5
**Health Directed Nursing Interactions in Health Care Systems II**
W. 2 cl., 9 hr. lab.<br>Prereq.: 405 and 2nd yr. Nursing.<br>Study of needs and interactions with individuals in normal growth, development, and performance. Kisker and Staff.

### 407 U 5
**Health Directed Nursing Interactions in Health Care Systems III**
Sp. 2 cl., 9 hrs. lab.<br>Prereq.: 406 and 2nd yr. Nursing.<br>Study of needs and interactions with individuals in health care facilities who are experiencing alterations in normal growth, development, and performance. Kisker and Staff.

### 505 U 5
**Nursing Transactions with Patients and Families in Crisis**
A. 2 cl., 9 hrs. lab.<br>Prereq.: 407, Home Ec. 310, Microbiol. 509, Pharm. 470 and 3rd yr. Nursing.<br>Study and implementation of nursing transactions with patients experiencing acute episodical illness, psychological and physiological stress.

### 506 U 5
**Nursing Transactions with Patients and Families in Recurring Crises**
W. 2 cl., 8 hrs. lab.<br>Prereq.: 505.<br>Study and implementation of nursing transactions with patients and families experiencing long term illness with the goal of reaching the individual's maximum potential.

### 507 U 5
**Nursing Process with Groups of Patients**
Sp. 2 cl., 9 hrs. lab.<br>Prereq.: 506.<br>Study and application of methodologies of organizing and delivering health care to groups of patients in complex health care systems.

### 531 U 8
**Community Health Nursing**

### 540 U 8
**Nursing Study of the Psychiatric Patient**
Su. A. 4 cl. and average of 16 hrs. clinica study per wk.<br>Prereq.: 410, 411, 420, and 421.<br>Nursing study of the psychiatric patient as an interpersonal, problem-solving process; (conferences, discussions, and clinical practice).

### 552 U 8
**The Nursing Process with Groups of Patients**
Su. A. 4 cl., 16 hrs. clinical study.<br>Prereq.: Nurs. 4th yr. standing; concur. 553.<br>Not open to students with credit for 300.<br>Study and application of decision-making and concepts of management related to nursing process with groups of patients in the team leader/member role. Polcyn and Staff.

### 553 U 7
**Care of the Critically Ill Patient**
Su. A. 4 cl., 12 hrs. clinical study.<br>Intensive study of the nursing care of critically ill patients with emphasis on synthesis of information to produce a plan that will have desired effects. Buckeridge and Staff.
560 U 4
History, Trends, and Issues in Nursing
Su, A, W, Sp. 4 cl.
Prereq.: Nurs 301 or 4th yr. standing.
Consideration of social, economic, and cultural forces influencing nursing and nursing education in the United States, 1870 to present with emphasis on 1930 to present; responsibilities and opportunities of the profession.

593 U 1-8
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 16 cr. hrs.
Study of selected problems in nursing.

594 U 1-8
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 16 cr. hrs.
Group study of selected problems in nursing.

685 U G 4-7
Field Instruction in Nursing
Su, A, W. 2 cl., 4 hrs. clinical experience per cr. hr.
Prereq.: Permission of instructor.
The first qtr. of registration in this course must be for 4 cr. hrs.
Application of scientific method of study to selected nursing and teaching problems; includes observation and participation in clinical situation, conferences, library study, field trips, and written reports.
685.03 Supervision and Administration.
685.04 Teaching. Pease.

793 U G 1-5
Individual Studies in Nursing
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Reading, conferences, and minor investigation by an individual student who wishes to study a particular nursing problem intensively.

794 U G 2-5
Group Studies in Nursing
Prereq.: 4th year Nursing or graduate student.
Repeatable to a maximum of 15 cr. hrs.
Group studies of special problems in nursing; topics vary for quarters.

797 U G 1-5
Interdepartmental Seminars
Repeatable by permission of School Secretary.
(See under Interdepartmental Seminars, Course Offerings catalog.)

801 G 3-6
Concept and Theory Development
A, Sp. 3 cl.
Repeatable to a maximum of 6 cr. hrs.
Study of concept development and theories and their usefulness for nursing as a practice discipline. King.

802 G 3
Research in Nursing
Su, A. 1-3 cl., or up to 4 hr. lab.
Prereq.: Course in basic statistical methods.
Research in nursing and its role in developing nursing; application in nursing of various methodologies and techniques and particular problems of design are considered.

802.01 Non-experimental Designs
Su, A. 2 cl., 2 hr. lab.
Prereq. or concur.: Course in basic statistics methods.
Application in nursing of non-experimental approaches of research, pertinent data collection techniques and tools, problems most frequently encountered in designing and conducting non-experimental studies.

802.02 Inquiry in Nursing
Su, A. 2 cl., 1 hr. arr.
Prereq. or concur.: Statistics course and/or concurrent 801.
Components of fulfilling man's urge to explain including the scientific method and the ways of testing reality appropriate in the discipline of nursing.

803 G 3
Nursing of Individuals
Su, A. 3 cl.
Prereq.: Permission of instructor.
Study of the common core of knowledge in nursing with respect to the personal systems of clients and health care workers; application of this knowledge through the human process. Sills and Staff.

804 G 3
Nursing of Groups
A, W. 3 cl.
Prereq.: Permission of instructor.
Study of common core of knowledge in nursing with respect to the interpersonal systems inherent in health care institutions; application to human process. Sills and Staff.

805 G 3
Nursing Within Communities
Sp. 3 cl.
Prereq.: Permission of instructor.
Study of the common core of knowledge in nursing with respect to social systems as might be applied in health care systems. Sills and Stevensen.

806 G 2-10
Nursing Practice Problems
Su, A, W. 2 cl., lab. arr.
Prereq.: Permission of instructor and current Ohio license; concur. 803, 804, and 805.
Each decimal subdivision repeatable to 10 cr. hrs.
Studies of nursing care problems pertaining to a variety of client groups; may register for more than one section concurrently.
080.01 Family Health Care
Prereq.: Permission of instructor.
Study of the family and the role of the nurse with healthy families. Ryan.

080.02 Children
Prereq.: 806.01.
Application of theoretical, conceptual, and affective components needed to conduct inquiry and to practice nursing with children (newborn to six years) and their families. Bellam.

080.03 Schoolagers and Adolescents
Prereq.: 806.01.
Application of theoretical, conceptual, and affective components needed to conduct inquiry and to practice nursing with children (schoolage and adolescent) and their families. Kalafatch.

080.04 Adults
Prereq.: Permission of instructor.
Study of health problems of adults. Stevenson.

080.05 Aged
Prereq.: Permission of instructor.
Study of health problems of the aged. Ryan and Stevenson.

080.06 Acute Health Crises
Prereq.: Permission of instructor.
Studies of crisis and crisis intervention with respect to the health illness continuum. Sills and Staff.

080.07 Chronic Health Problems
Prereq. or concur.: 801 and 803.
Studies of chronicity, disability, impairment, and rehabilitation in long-term problems.

080.08 Community Health Problems
Prereq. or concur.: 805.
Studies of community, community health problems, and nursing role in identifying and studying these problems. Sills and Staff.

860 G 3
Theoretical Bases for Leadership Roles in Nursing I
Su., W., 3 cr. hrs.
Prereq.: 801, 803, 804, 805.
A study of theoretical bases for administrative, teaching, and practice roles in Nursing.

860 G 3
Theoretical Bases for Leadership Roles in Nursing II
A., Sp., 3 cr. hrs.
Prereq.: 860.
Continuation of 860.

862 G 10
Practicum in Nursing
Su., A., W., Sp.
Prereq.: Permission of instructor.
Supervised experiences which permit in depth study of the roles and relationships in administration, practice, or teaching of nursing.

862.01 Administration
Su., A., W., Sp., 2 hr. sem.; field work.
Study of administrative position with opportunity to test theoretical knowledge in a health care system.

862.02 Primary Care Practitioner
Su., A., 2 hr. cl.; lab.
Supervised experimental component which permits in-depth study of the roles and relationships in the primary care area of practice.

862.03 Acute Care Practitioner
A., W., 2 hr. cl., lab.
Supervised experimental component which permits in-depth study of the roles and relationships in the acute care area of practice.

862.04 Long-Term Care Practitioner
A., Sp., 2 hr. cl., lab.
Supervised experimental component which permits in-depth study of the roles and relationships in the long-term area of practice.

862.05 Teaching in a Baccalaureate Program in Nursing
Su., A., W., Sp., 2 hr. sem.; field.
Supervised experimental component of preparation to teach nursing in a baccalaureate program.

880 G 2.5
Seminar
A., W., Sp.
Repeatable to a maximum of 30 cr. hrs.
Discussion of issues, trends, and problems in nursing; topics to be announced.

994 G 2.5
Group Studies in Nursing
Su., A., W., Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 5 cr. hrs.
Reading and group conferences for graduate students who desire to study a particular trend in nursing or nursing education.

999 G Arr.
Research in Nursing
Su., A., W., Sp.
Research for thesis purposes only.

Obstetrics and Gynecology
Office: N-635 University Hospital, 410 West 10th Avenue
Professors Copeland (Acting Chairman), Brutsells, Hollebeck, Holzaepfel, Herling, Tetens, and Williams; Associate Professors Rigsby, Ruppersberg, and Stevens; Assistant Professors Essig, Lewis, Villalon, Witmer, and Zartman.

737 P 6 or 12
Clinical Obstetrics and Gynecology
2 months, offered July, Sept., Nov., Jan., Mar., or May.
Prereq.: Med. 3rd yr. standing.
Must repeat to 12 cr. hrs.
Normal and abnormal obstetrics and diseases of the female generative tract; management and philosophy of current therapy; supervised inpatient and outpatient experience.
Fetus and Newborn
1 month, offered Aug., Dec., and May.
Prereq.: permission of instructor.
Reproduction biology and human development; the fetal-maternal axis and the product of conception; supervised clinical training and service.

Reproduction Endocrinology and Infertility
1 month, offered Sept. and Mar.
Prereq.: Permission of instructor.
Selective endocrinologic aspects of the specialty; correlation of biochemical, histochemical and cytologic aspects with clinical problems.

Obstetric and Gynecologic Specialties
1 month, offered all months.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Instruction in the newer and more advanced techniques of diagnosis and therapy which would have been neither feasible nor possible on the wards nor in the clinics.

Obstetric Specialties
Gynecologic Specialties

Individual Studies in Obstetrics and Gynecology
1 month, offered all months.
Prereq.: Permission of chairman.
Repeatable to a maximum of 18 cr. hrs. for professional credit.
Clinical, laboratory, conference, and library work in Obstetrics and/or Gynecology.

Obstetric and Gynecologic Pathology
Prereq.: Permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Laboratory, conference, and library work; study of current pathological specimens with emphasis upon special investigation. Meining, Hollenbeck, Holzepfel, Williams, and Boutselis.

Research in Obstetrics and Gynecology
Research for thesis purposes only.

Occupational Therapy
(School of Allied Medical Professions)
Office: 406 School of Allied Medical Professions
Building, 1583 Perry Street
Instructor Grant (Division Director); Professor Locher;
Associate Professor Pennucci; Assistant Professors
Adanson and Allen; Instructors Hartsock and Page;
Clinical Instructors Cameron, Caprio, Clingar, Dixon,
Gill, Hines, Jones, Marco, Sandmann, Saphris, Shoop,
and Snyder.

Occupational Therapy Orientation
Su, A. 2 cr.
Prereq.: Registration in Oc. Ther. curriculum.
Not open to students with credit for 311.
The scope of occupational therapy is presented with its relationship to broad fields of education and medicine and to other allied health professions. Johnson, Page, and Grant.

Occupational Therapy Orientation
Su, W. 1 cr., 2-hr. lab.
Prereq.: 311.
Not open to students with credit for 312.
Continuation of 311. Johnson.

Occupational Therapy Orientation
Su, Sp. 1 cr., 2-hr. lab.
Prereq.: 312.
Not open to students with credit for 313.
Continuation of 312. Page.

Occupational Therapy
Su, A, W, Sp. 2-hr. lab.
Prereq.: Admission to Oc. Ther.
Not open to students with 4 cr. hrs. for 314.
Repeatable to a maximum of 4 cr. hrs.
Additional preclinical experiences. Locher.

Departmental Organization
A. 2 cr.
Prereq.: Registration in Oc. Ther. curriculum.
Not open to students with credit for 411.
Occupational therapy relationships within the institution and community; a study in program planning based on treatment methods including budgets, equipment, supplies, records, and staffing implications. Adamson.

Occupational Therapy
W. 5 cr., 3 2-hr. lab.
Prereq.: 311, 312, 313, 314, Psych. 330 or 331 or 332, or 333, and admission to Oc. Ther.
Not open to students with credit for 411.
Information, discussion, and demonstration of medical problems, and use of activities, self, and groups in the total treatment program of neuropsychiatric and mentally deficient patients. Page and Psychiatric Staff.
504 U 5
Occupational Therapy
Sp. 2 cl., 3 2-hr. labs.
Not open to students with credit for 403.
Evaluation and treatment principles and methods through activity in cases of loss of muscle power, limited joint motion, and amputation. Grant and Staff.

505 U 1
Occupational Therapy Seminar
A. 1 cl.
Prereq.: Admission to Oc. Ther.
Not open to students with credit for 415.
Discussion and demonstration of current methods and problems in occupational therapy. Adamson.

506 U 1
Occupational Therapy Seminar
W. 1 cl.
Prereq.: 415 or 595.
Not open to students with credit for 416.
Continuation of 595. Grant.

625 U 5
Occupational Therapy
A. 2 cl., 3 2-hr. labs.
Prereq.: 504.
Not open to students with credit for 405 or 505.
Principles and methods of treatment in cases of lack of coordination; adaptation of equipment to meet activity needs of the individuals so involved. Grant and Staff.

626 U 2
Occupational Therapy
A. 2 cl.
Prereq.: 503.
Not open to students with credit for 406 or 506.
Advanced evaluation and treatment procedures of occupational therapy in psychiatry. Page.

627 U 8
Occupational Therapy
A. 5 cl., 3 2-hr. labs.
Prereq.: 503 and 504.
Not open to students with credit for 407 or 507.
Medical information correlated with evaluation and treatment procedures for various ages with acute and chronic medical and surgical conditions in the hospital and community setting. Johnson and Medical Staff.

630 U 6
Clinical Practice in Occupational Therapy
Prereq.: An average point-hour ratio of 2.5 in all professional courses and permission of division director.
Not open to students with 18 cr. hrs. for 420, 520, or 630.
Repeatable to a maximum of 18 cr. hrs.
(Initial registration in this course may come in the su. following the completion of the 6th qtr. of the professional program and may be either for one term or the qtr.
A practical experience in application of the principles and functions of occupational therapy in selected hospitals, rehabilitation centers, day care facilities, and convalescent homes. Adamson.

Ophthalmology

Office: 403 Means Hall, 466 West 10th Avenue

Professors Havener (Chairman), Blackwell, Keates, Magnuson, Makley, and Perry (Emeritus); Associate Professors Andrew, Battles, Biersdorf, Bitonte, Bredemeyer, Kapetansky, Moses, Quinn, Suei, and Wachtel; Assistant Professors Barton, Bentley, Burns, Craig, Davidorf, de la Mote, Higbee, Letson, Lubow, O'dear, Olson, Sage, Simmons, and Stine.

751 P 1
Group Studies in Ophthalmology
1 month, offered Oct. and Feb.
Prereq.: Enrollment in College of Medicine for a Doctor of Medicine degree.
Fundamentals of ophthalmology applicable in general practice and in other medical specialties. Makley.

793 P 6, 12, 18 G 1-5
Individual Studies in Ophthalmology
1, 2 or 3 months; offered all months.
Prereq.: Permission of chairman.
Repeatable to a maximum of 18 cr. hrs.
Research in the area of:

793.01 Ophthalmic Microbiology
793.02 Ophthalmic Immunology
793.03 Ophthalmic Pathology
793.04 Retinal Diseases

794 P 6, 12, 18
Group Studies in Ophthalmology
1 month, offered all months except July.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Clinical experience in basic ophthalmology to include rotations through the outpatient service and eye ward, conferences, and rounds.
Optometry

Office: 111 Optometry Building, 338 West 10th Avenue

Professors: Hebbard (Dean), Fry, and Hill; Associate Professors: Bailey and Moir; Assistant Professors: Albright, Ballie, Brannock, Carifa, Fugate, Goldschmidt, Haines (Emeritus), Jones, V. King, Lowther, Saladin, Schoessler, and Zinner; Instructors: Augsburger, Beller, Bowers, George, Hicks, Lee, Michaels, Polasky, Pratte, Quellette, Reardon, Runyan, C. Unlacke, N. Unlacke, and Walby.

Survey of Optometry

A. 1 cl.
Prereq.: Optom. 1st ystem.
Development of optometry and optometric education; scope of optometric services: sources of vision information; kinds of current vision research.

Intermediate Geometric Optics

Sp. 3 cl.
Prereq.: Optom. 1st year standing and Physics 435. Thick-lens optics; image evaluation; application to optometric systems.

Ophthalmic Optics I

W. 4 cl., 1 2-hr. lab.
Prereq.: Optom. 2nd yr. standing and 411.
Ophthalmic optics of single-vision and multifocal spectacle lenses; measurement and inspection of spectacle lenses; manufacturing processes.

Ophthalmic Optics II

Sp. 4 cl., 1 2-hr. lab.
Prereq.: 431.
Ophthalmic lens design; minimizing lens aberrations; theory and practice in fitting and adjusting spectacles.

Ophthalmic Optics III

A. 3 cl., 1 2-hr. lab.
Prereq.: 432.
The optics of corneal and scleral contact lenses; laboratory exercises in inspecting, measuring, edging, surfacing, and modifying contact lenses.

Practical Optometry I

A. 3 cl., 1 3-hr. lab.
Prereq.: Optom. 2nd yr. standing, Phys. 112, and Math. 150.
Theory and techniques of keratometry, skiametry, objective and subjective tests of refraction, accommodation, and functions of the extra-ocular muscles.

Practical Optometry II

W. 3 cl., 1 3-hr. lab.
Prereq.: 441.
Correlation and analysis of data; systematic determination of the etiology of anomalies and sources of visual discomfort and inefficiency; corrective procedures and prescription writing.

Practical Optometry III

Sp. 3 cl., 1 3-hr. lab.
Prereq.: 442.
Ophthalmoscopy and examination of the external parts and media of the eye; case histories; techniques of investigating special types of anomalies; corrective procedures.

Clinical Practice in Optometry I

Su, A, W, Sp. 2 cl., 3 3-hr. lab.
Prereq.: 443.
Clinical practice in examining eyes and carrying out corrective procedures; the conference periods are devoted to the discussion of problems encountered during the clinic periods.

Clinical Practice in Optometry II

Su, A, W, Sp. 2 cl., 3 3-hr. lab.
Prereq.: 641.
Continuation of 641.

Clinical Practice in Optometry III

Su, A, W, Sp. 2 cl., 3 3-hr. lab.
Prereq.: 642.
Continuation of 642.

Orthoptics

W. 3 cl., 1 2-hr. lab.
Prereq.: Optom. 3rd yr. standing and 443
Definitions, characteristics, incidence, and phenomenology of visual problems producing loss or inefficiency of binocular vision; diagnosis, prognosis, and orthoptic treatment of such problems.

Aniseikonia and Low Vision

Sp. 3 cl., 1 2-hr. lab.
Prereq.: Optom. 3rd yr. standing and 443.
Etiology; clinical methods of evaluating aniseikonia and low vision; design of optical aids for such conditions; environmental aids and agencies available to the visually handicapped.

653  P 4
Contact Lenses I
W. 3 cl., 1 2-hr. lab.
Prereq.: Optom. 3rd yr. standing and 443.
The uses of contact lenses; theory and methods of fitting; specification and verification; post-fitting care; contact lens solutions.

654  P 4
Contact Lenses II
Sp. 3 cl., 1 2-hr. lab.
Prereq.: Optom. 653.
Theory and clinical methods involving meridional and bifocal contact lenses; fitting astigmatic corneas and aphakic eyes; haptic and keratoconic lenses; cosmetic shells and prosthetic eyes.

660  P 5
Ophthalmic Pathology
A. 3 cl., 6 lab. hrs.
Prereq.: Optom. 2nd yr. standing, Path. 650.
Gross and microscopic pathology of the eye, including diseases of the conjunctiva, orbital cavity, and pertinent pathology of the central nervous system.

701  P 4
Applied Pathology of the Eye I
Sp. 3 cl., 1 2-hr. lab.
Advanced ophthalmoscopy, slit lamp microscopy, tonometry, and other methods of detecting pathological conditions; systematic study of ocular diseases; artificial eyes and other prosthetic devices.

702  P 4
Applied Pathology of the Eye II
A. 3 cl., 1 2-hr. lab.
Prereq.: 701.
Motor disturbances of eyes, paralytic strabismus, peripheral fixation anomalies, nystagmus, ptosis, prisms, crutches, anomalous accommodative and pupillary responses.

703  P 4
Applied Pathology of the Eye III
A. 3 cl., 1 2-hr. lab.
Prereq.: 702.
Visual fields, acuometry; subnormal central vision involving pathology; telescopic lenses and aids for subnormal vision; theory and practice in the use of contact lenses.

721  P 3
Optometric Economics and Jurisprudence
W. 3 cl.
Prereq.: 643.
Historical background; legal status; practice building techniques; office accounting and general practice management; representative organization in optometry; professional ethics.

722  P 3
Civic and National Problems in Eye Care
Sp. 3 cl.
Prereq.: 721.
Number, distribution, supply interrelationships, and roles of the various ophthalmic groups; prevalence of visual anomalies; governmental and public-health aspects of vision care.

741  P 8
Advanced Clinical Practice in Optometry I
A, W, Sp. 2 cl., 18 hrs. lab.
Prereq.: 643.
Advanced clinical practice; the conference periods are devoted to the discussion of problems and cases encountered during the clinical periods.

742  P 8
Advanced Clinical Practice in Optometry II
A, W, Sp. 2 cl., 18 hrs. lab.
Prereq.: Optom. 4th yr. standing and 741.
Continuation of 741.

743  P 8
Advanced Clinical Practice in Optometry III
A, W, Sp. 2 cl., 18 hrs. lab.
Prereq.: Optom. 4th yr. standing and 742.
Continuation of 742.

745  P 3-5
Special Clinical Practice
Su, A, W, Sp. 1 cl., 2-4 3-hr. lab.
Prereq.: 443; concur. 641 and permission of instructor. Repeatable to a maximum of 15 cr. hrs.
Clinical experience in specialized phases of optometric practice, (a) subnormal vision, (b) aniseikonia, (c) vision in schools and industry, (d) orthoptics; and (e) contact lenses.

Otolaryngology

Office: N-820 University Hospital, 410 West 10th Avenue
Professors Saunders (Chairman) and Birck; Associate Professors Arthur, Lim, Melnick, Miller, and Smith; Assistant Professors Kelly, Lowery, Miglets, Nilo, Stockwell, VerMeulen, and Wagenbrenner.

720  P G 3
Otolaryngology-Surgical Aspects of the Anatomy of the Head and Neck I
A. 3 cl.
Prereq.: Permission of instructor.
Not open to students with 6 cr. hrs. for 820. Must repeat to 6 cr. hrs.
Dissection of the head and neck with lectures and demonstrations of anatomical aspects especially of surgical interest to the otolaryngologist. Saunders and Birck.
Pathology

Office: 4170 Graves Hall, 333 West 10th Avenue

Professors Macpherson (Acting Chairman), Cose, Luer, Holaday, Koestner, Liss, Newton, Stevenson, and Von Haam; Associate Professors Assor, Baba, Davis, Gramm, Gruemer, Hurt, Johansmann, Lott, Lowy, Miller, Newman, Old, Reiner, and Smetters; Assistant Professors Ayers, Bishop, Cavalaris, Clausen, Craig, Davidson, Cogate, Hamoudi, Hansh, Kirkham, Murthy, Pailleo, Roth, Sharma, Thorne, von der Hœven, and Vaughn.

501
Medical Technology
Su. 3 cl.
Prereq.: Admission to Med. Tech. or permission of instructor.
Clinical hematology, including coagulation; urinalysis. Stevenson.

502
Medical Technology
A. 3 cl.
Prereq.: Admission to Med. Tech. or permission of instructor.
Clinical microbiology, including mycology. Ayers.

503
Medical Technology
W. 3 cl.
Prereq.: Admission to Med. Tech. or permission of instructor.
Immunology; immunohematology. Macpherson.

504
Medical Technology
Sp. 5 cl.
Prereq.: Admission to Med. Tech. or permission of instructor.
Clinical blood and tissue chemistry; modes of investigating diseases by biochemical methods, and their interpretation. Gruemer and Staff.

505
Fundamentals of Disease
A. 3 cl.
Prereq.: Admission to School of Allied Medical Professions or permission of instructor.
The nature of disease, mechanisms involved in the disease process, and use of the laboratory in defining the mechanisms of disease. Macpherson and Staff.

603
Clinical Pathology
W. 4 cl., 2 2-hr. lab. P 6
W. 4 cl. G 4
Prereq.: For professional credit, Med. 2nd yr. standing; for grad. credit, permission of instructor.
A study of the changes in the blood, urine, feces, sputum, spinal fluid, and gastric contents brought about by disease. Macpherson and Stevenson.
624†  P G 7
General Pathology
A. 5 cl., 3 2-hr. lab.
Prereq.: For professional credit, enrollment in College of Medicine for a Doctor of Medicine degree, for grad credit, permission of instructor.
Degenerative, circulatory, inflammatory, and neoplastic lesions; reactions to injury; pathology of infectious diseases.

625†  P G 4
Special Pathology
W. 2 cl., 2 2-hr. lab.
Prereq.: 624.
The pathology of the heart and blood vessels; the respiratory tract; the bone marrow, spleen, and lymph nodes; the gastrointestinal tract; the liver, biliary tract, and pancreas.

626†  P G 4
Special Pathology
Sp. 2 cl., 2 2-hr. lab.
Prereq.: 624.
Pathology of the urinary tract; the male and female genital organs; the endocrine glands, the central nervous system; the bones, muscles, and skin.

640  P G 3
Pathobiology
A. 3 cl.
Prereq.: Permission of instructor.
(Cross-listed in the Dept. of Vet. Path.)
Seminars on topics in comparative cellular pathology.

650  P G 5
Pathology
A. 3 cl., 6 lab. hrs.
Prereq.: Optom. 2nd yr. standing or permission of instructor.
General pathology including the etiology of infectious disease, disturbances of nutrition, inflammation, and neoplasia, with special reference to the influence upon ophthalmic pathology; selected chapters of Special Pathology; histologic and gross demonstrations.

655  P 5
General Pathology
Sp. 3 cl., 2 3-hr. lab.
Prereq.: Dent. 2nd yr. standing.
General pathology, including the etiology of diseases, disturbances of nutrition, inflammation, regeneration, and tumors.

793  P G 3-6, 12, 18
Individual Studies in Pathology
1, 2, or 3 months; offered all months.
Prereq.: Med. Phase IV standing, or graduate standing; permission of instructor.
(When registration is for 3 professional credit hours, an additional 3 hr. professional course must be taken.)

793.01  Pathologic Anatomy
May repeat to 18 cr. hrs.

793.02  Principles of Clinical Cytology
May repeat to 18 cr. hrs.

793.04  Clinical Chemistry
May repeat to 18 cr. hrs.
Gruemer.

793.05  Neuropathology
May repeat to 18 cr. hrs.
Liss.

793.06  Immunohematology
May repeat to 18 cr. hrs.
Macpherson.

793.07  Clinical Microbiology
May repeat to 18 cr. hrs.
Ayers.

793.08  Pediatric Pathology
May repeat to 18 cr. hrs.
Newton.

793.09  Surgical Pathology I
May repeat to 18 cr. hrs.
Holiday.
793.10 Surgical Pathology II
May repeat to 18 cr. hrs.
Holaday.

793.11 Special Topics in Pathologic Anatomy
May repeat to 18 cr. hrs.

793.12 Ultrastructure of Cells in Disease
May repeat to 18 cr. hrs.

793.13 Laboratory Medicine—the Erythrocyte
May repeat to 18 cr. hrs.
Stevenson.

793.14 Problems in Experimental Pathology
May repeat to 18 cr. hrs.
von Haam.

793.15 Problems in Pathology and Clinical Pathology
May repeat to 18 cr. hrs.

850 G 2
Seminar in Pathology and Clinical Pathology
Su, A, W, Sp. 1 2-hr. cl.
Prereq.: Grad. standing in Path.
Discussion of pertinent literature, presentation and discussion of research work, and demonstration of fresh specimens and slides.

999 G Arr.
Research in Pathology
Research for thesis or dissertation purposes only.

Pediatrics

Offices: Children's Hospital, 561 South 17th Street and N-115 University Hospital, 410 West 10th Avenue

Professors Graham (Chairman), Allen, Ambiel, Coddington, Cramblett, Hamparian, Hosier, Kontras, Meites, Newton, Owen, Rie, Shaffer, Sheard, Somerson, Sotos, and Turner; Associate Professors Addanki, Cordero, Eaton, E. Eretl, P. Eretl, Haynes, Helper, Naylor, Paulson, Reiner, and Ruppert; Assistant Professors Arnold, Azimi, Burton, Craenen, Hock, Leaverton, Pollack, Ramele, Sommer, Thomas, Wehe, Woo-Ming, and Young; Instructors Frene, Garry, Gellner, Hauge.

715 P 6 or 12
Clinical Pediatrics
2 months.
Prereq.: Med. 3rd yr. standing.
Must repeat to 12 cr. hrs.
Didactic and clinical instruction in pediatrics; presentation of health care of sick and well children.

793 Individual Studies in Pediatrics
1, 2, 3, or 4 months.
Prereq.: Permission of instructor.

793.01 Advanced Pediatrics
P 6, 12, 18
1, 2, 3, or 4 months; offered all months except June.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Graham.

793.02 Genetics
P 6, 12, 18
1, 2, or 3 months; offered all months.
Repeatable to a maximum of 18 cr. hrs. for professional credit.
Kontras.

793.03 Infectious Diseases
P 6, 12, 18
1, 2, 3, or 4 months; offered all months except Jan., Feb., and Mar.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Cramblett.

793.04 Pediatric Cardiology
P 6, 12, 18
G 1-5
1, 2, or 3 months; offered all months except June and Dec.
Repeatable to a maximum of 18 cr. hrs. for professional credit.
Hosier.

793.05 Child Development
P 6, 12, 18
G 1-5
2, 3, or 4 months; offered all months except June.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Students will undertake investigative study of normal and abnormal development in children and will conduct, under faculty supervision, a research problem; developmental theory and techniques for diagnosis of neuropsychological development in infancy. Wehe.

793.06 Blood Diseases of Infants and Children
P 6
G 1-5
1 month, offered all months except June.
Newton.

793.07 Neonatal Research
P 6, 12, 18
G 1-5
1, 2, 3, or 4 months; offered all months except June.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Cordero.

793.08 Adolescent Medicine
P 6, 12, 18
G 1-5
1, 2, or 3 months; offered all months.
Repeatable to a maximum of 18 cr. hrs. for professional credit.
Shaffer.

793.09 Pediatric Endocrinology
P 6, 12, 18
G 1-5
2-4 mos.; offered all months except July and August.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Sotos.

793.10 Pulmonary Diseases
P 6, 12, 18
G 1-5
1, 2 or 3 months; offered all months except June.
Repeatable to a maximum of 24 cr. hrs. for professional credit.
Young.
Group Studies in Pediatrics
1, 2, 3, or 4 months.

794.01 Advanced Pediatric Problems P 6, 12, 18
1, 2, or 3 months; offered all months except June.
Prereq.: 715.
Repeatable to a maximum of 18 cr. hrs.
Graham.

794.02 Ambulatory Pediatrics P 6, 12, 18
1, 2, 3, or 4 months; offered all months except June.
Prereq.: 3rd or 4th yr. standing.
Repeatable to a maximum of 24 cr. hrs.
Ambuel.

794.03 Inpatient Pediatrics P 6, 12, 18
1, 2, 3, or 4 months; offered all months except June.
Prereq.: 3rd or 4th yr. standing.
Repeatable to a maximum of 24 cr. hrs.
Graham and Staff.

794.04 Pediatric Cardiology P 6
1 month; offered all months except June and Dec.
Prereq.: 3rd or 4th yr. standing.
Hosier.

794.05 Pediatric Endocrinology and Metabolism P 6, 12, 18
1, 2, 3, or 4 months; offered all months except July and Aug.
Prereq.: 3rd or 4th yr. standing.
Repeatable to a maximum of 24 cr. hrs.
Sotos.

794.06 Pediatric Hematology P 6
1 month; offered all months except June.
Prereq.: 3rd or 4th yr. standing.
Newton.

794.07 Adolescent Medicine P 6, 12, 18
1, 2, 3, or 4 months; offered all months.
Prereq.: 715.
Repeatable to a maximum of 24 cr. hrs.
Shaffer.

794.08 Rheumatology and Handicapped Child P 6, 12, 18
1, 2, 3, or 4 months; offered all months.
Prereq.: 3rd or 4th yr. standing.
Repeatable to a maximum of 24 cr. hrs.
Bass.

Interdisciplinary Seminars in Family-Social Medicine
Su, A, W, Sp. Seminars—50%; Family Contact—50%.
Prereq.: Student registered in College of Medicine and
permission of instructor.
Limited to 30 students.
Repeatable to a maximum of 6 cr. hrs.

830 Pediatrics for Dental Graduates
2 months; offered Mar. and Apr.
Prereq.: Grad. standing.
Part of the graduate program in pedodontics; includes
general clinical pediatrics presented by lectures,
clinical conferences, case presentations, and seminars.
Petroleum Engineering

(See Chemical Engineering)

Office: 335 Chemical Engineering Building, 140 West 19th Avenue.

Associate Professor Slider.

Pharmacology

Office: 5086 Graves Hall, 333 West 10th Avenue

Professors Marks (Chairman), Goldman, Hollander, O'Neill, and Truitt; Associate Professors Couri, Dutta, and Fischer; Assistant Professors Engelman, Knowlton, and Lindower; Instructors Tesi, Walker, Tjoe, and Sakai.

General Pharmacology
Sp. 2 cl., 1 3-hr. lab.
Prereq.: Physiol. Chem. 611, Physiol. 601, or permission of instructor.
Introduction to the general principles of pharmacology, drug classification, and the sites and mechanisms of drug action. Dutta.

Toxicology and Drug Identification
W. 1 cl., 2 3-hr. lab.
Prereq.: 600.

Medical and Mammalian Pharmacology
W. 4 cl.
Prereq.: 600 or permission of instructor.
General principles of pharmacology; drugs used for diagnosis, prevention or eradication of the cause of disease, including endocrine products and chemotherapeutic agents. Marks.

Medical and Mammalian Pharmacology
Sp. 4 cl., 3 lab. hrs.
Prereq.: 700.
Continuation of 700.

Practice of Pharmacology
Sp.
Prereq. or concur.: 701.
Performance and application of specialized pharmacological techniques and methods in evaluation of pharmacodynamic and pharmacokinetic activity of chemical substances.

Clinical Pharmacology and Therapeutics
May.
Prereq.: Permission of instructor.
Application of clinical pharmacologic principles to the treatment of disease states. Tesi and Engelman.

Individual Studies in Pharmacology
1, 2, 3, months; offered all months except June.
Prereq.: Permission of instructor.
Repeatably to a maximum of 30 cr. hrs.
Cardiac arrhythmias; digitalis pharmacodynamics; neuropharmacology; endocrine pharmacology; advanced cardiovascular pharmacology; autonomic pharmacology.

Interdepartmental Seminar
(See under Interdepartmental Seminars.)
a. Neuroscience.

Autonomic Pharmacology
A. 2 cl., lab. arr.
Prereq.: 701 or permission of instructor.
Not open to students with credit for 720.
Comprehensive review of drugs that mimic or affect the actions of autonomic neurones with emphasis on biochemical and cellular analysis of autonomic drug action. Marks.

Neuroendocrine Pharmacology
Sp. 2 cl., lab. arr.
Prereq.: 600 or 701.
Not open to students with credit for 722.
Levels of interaction of the nervous and endocrine systems. Goldman.
823 G 3-15
Pharmacology Related to Anesthesia
Su. 2 cl., lab. arr.
Prereq.: 701 or permission of instructor.
Not open to students with credit for 723.
The pharmacodynamics of anesthetic agents and of
other drugs which modify the state of surgical
anesthesia. Gardier.

824* G 3
Psychopharmacology
W. 2 cl. arr.
Prereq.: 600, 701, or permission of instructor.
Psychotropic drug-induced changes in central nervous
system activity in relation to the varieties of
perceptual-behavioral interpretations of that activity by
self-referential systems, i.e. men.

845 G 5-15
Bioelectric Potentials
W. 5 cl., lab. arr.
Prereq.: Physiol. 601, 602 or equiv. or permission
of instructor.
Not open to students with credit for 745.
Methods of recording transmembrane potentials from
cells; interpretation of cell potentials; effects of
drugs on transmembrane potentials. Hollander.

850 G 2
Seminar in Pharmacology
Prereq.: Permission of instructor.
Conferences on selected topics in pharmacology.

851* G 3-15
Steroid Pharmacology
Sp. 2 cl., lab. arr.
Prereq.: 701 or permission of instructor.
Pharmacology of steroids which affect special
tissues, organs, or systems.

852* G 3
Drug Metabolism
A. 2 cl. arr.
Prereq.: 600 or 701 or permission of instructor.
Not open to students with credit for 752.
Discussions of mechanisms of biotransformation of
drugs by enzymes, pharmacologic characteristics of
their systems, and techniques for the study of
drug metabolism. Couri.

999 G Arr.
Research in Pharmacology
Research for thesis or dissertation purposes only.

Pharmacy

Office: 217 College of Pharmacy Building 500 West 12th Avenue

Professors Parks (Dean), Beal, Bope, Burkman,
Doskotch, LaFidus, Malaspia, Mitscher, Nelson, Notari,
Patil, Rucker, Witlak, and Wolf; Associate Professors
Hudspeth, Latiolais, Olson, Salisbury, Sokołowski, and
Visconti; Assistant Professors Anderson, Baldwin,
Boxenbaum, Buerki, Feller, Frank, Gerald, Hensel,
Krautheim, Lewis, D. Miller, W. Miller, Rishwan,
Reunig, Schwerian, and Shaver; Instructors Bonacci,
Burt, R. Fudge, Huffman, Krause, Mitchell, Prisco,
Rifea, Sagraves, and Umstead; Clinical Instructors
Bystrom, K. Fudge, Hipple, Schneider, and Sherrin.

The areas of instruction and the courses in the College of Pharmacy comprising these areas are
listed below:

ADMINISTRATIVE AND SOCIAL SCIENCES IN
PHARMACY—200, 400, 511, 512, 520, 523, 524, 525, 614,
625, 693, 694, 695, 820, 825, 826, 850, 993, 994, 999.

CLINICAL PHARMACY AND PROFESSIONAL PRACTICE—
475, 515, 610, 611, 615, 693, 694, 695, 705, 715, 717, 816,
817, 850, 993, 994, 999.

MEDICINAL CHEMISTRY—433, 434, 435, 436, 670, 673,
676, 679, 693, 694, 737, 835, 836, 845, 850, 993, 994, 999.

PHARMACOCEUTICS AND PHARMACEUTICAL
CHEMISTRY—401, 402, 503, 504, 505, 507, 508, 509, 601,
606, 609, 693, 694, 695, 700, 705, 710, 805, 806, 809, 811,
812, 850, 993, 994, 999.

PHARMACOGNOSY AND NATURAL PRODUCTS
CHEMISTRY—435, 450, 451, 553, 577, 693, 694, 754, 789,
850, 851, 852, 855, 993, 994, 999.

PHARMACOLOGY—270, 470, 613, 670, 673, 676, 677, 679,
680, 681, 693, 694, 850, 870, 871, 872, 880, 881, 993, 994,
999.

200 U 3
The Rational and Irrational Use of Drugs
Su, A, W, Sp. 3 cl.
Not open for credit to students in the College
of Pharmacy.
Survey of the fundamentals of drug action with
special emphasis on drugs of abuse; discussion of
medical, social, legal, and educational aspects of

270 U 5
Introduction to Drug Action
W. 3 1½-hr. cl.
Prereq.: Biol. 101 or Zool. 101.
Not open for credit to students in the College of
Pharmacy or the School of Nursing.
An introduction to drug action in the treatment of
disease; commonly used and abused prescription
and non-prescription products will be discussed. Gerald.

400 P 3
Introduction to Pharmacy
A. 4 cl.
A survey of the profession of pharmacy dealing with
pharmacy's place in the health care system, its
history, educational requirements, organization,
regulation, and current development.
401 P 5
Pharmaceutics I
W. 3 cl., 2 hrs. rec., 1 3-hr. lab.
Prereq.: Chem. 242 and 246 or equiv.
The application of physical chemical principles to
pharmaceutics: a fundamental introduction to solid
and liquid dosage forms. Malspeis, Boxenbaum, and
Sokoloski.

402 P 5
Pharmaceutics II
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 401.
The application of physical chemical principles to
pharmaceutics: properties of solutions of
pharmaceutical and medicinal compounds. Reuning
and Sokoloski.

433 P 3
Medicinal Chemistry
A, Sp. 3 cl., 1 hr. rec.
Prereq.: Chem. 242 or equiv.
An introduction to the chemistry of biologically active
organic compounds; discussion of the synthesis,
chemical properties and stereochemistry of compounds
in major therapeutic classes. Lapidus, Lewis, Miller,
and Wiltak.

434 P 5
Introductory Pharmaceutical Analysis
A. 3 cl., 2 3-hr. lab.
Prereq.: Chem. 242 and 246 or equiv.
An introduction to the quantitative chemical analysis
of pharmaceuticals. Olson.

435 P 5
Bio-Pharmacy
Sp. 4 cl., 1-hr. rec., 1 3-hr. lab.
Prereq.: Chem. 242 and 246 or equiv.
A study of pharmaceutical agents important in
biochemical processes. Bope, Doskotch, and Mitscher.

436 P 3
Advanced Pharmaceutical Analysis
W. 1 cl., 2 3-hr. lab.
Prereq.: 434 or equiv.
An introduction to selected instrumental methods of
pharmaceutical analysis. Olson.

450 P 4
Pharmacognosy
W. 4 cl.
Prereq.: Chem. 242 and 246 or equiv.
a study of the history, source, identification,
constituents, and medicinal preparations of some
of the more important drugs of biological origin.
Beal, Doskotch, and Mitscher.

451 P 5
Pharmacognosy
A. 4 cl., 1 3-hr. lab.
Prereq.: Chem. 242 and 246 or equiv.
A continuation of 450. Mitscher, Doskotch, and Beal.

470 P 4
Pharmacology for Nurses
A, Sp. 4 cl.
Prereq.: Chem. 102 or 122, and Physiol. 312.
Open only to students registered in School of Nursing.
A survey of the important drugs used in medicine
and a consideration of their therapeutic applications.
Wolf and Rahwan.

475 P 5
Introduction to Disease
Sp. 5 cl.
Prereq.: Anat. 209 and Physiol. 312.
A study of the nature and mechanisms of disease
relative to the understanding of the action of drugs.
Shaver and Visconti.

503 P 5
Pharmaceutics III
A. 3 cl., 1 3-hr. lab.
Prereq.: 402.
The application of physical chemical principles to
pharmaceutics: solubility and mixed solvents,
complexation, redox systems in pharmacy. Sokoloski,
Frank, and Reuning.

504 P 5
Pharmaceutics IV
W. 3 cl., 1 3-hr. lab.
Prereq.: 503.
The application of physical chemical principles to
pharmaceutics: heterogeneous systems, emulsions,
suspensions, gels, and magmas. Frank, Sokoloski, and
Reuning.

505 P 5
Pharmaceutics V
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 504.
The formulation of compounded prescriptions and
other dosage forms, with emphasis on drug
availability, physiological requirements, incompatibility,
prediction of stability and clinical effectiveness.
Notari, Boxenbaum, Frank, Sokoloski, and Anderson.

507 P 3
Manufacturing Pharmacy
A. 1 cl., 2 3-hr. lab.
Prereq.: 402.
Formulation and mechanical fabrication of a wide
variety of pharmaceutical dosage forms. Frank.

508 P 3
Manufacturing Pharmacy
W. 1 cl., 2 3-hr. lab.
Prereq.: 402.
A continuation of 507. Frank and Notari.

509 P 3
Manufacturing Pharmacy
Sp. 1 cl., 2 3-hr. lab.
Prereq.: 402.
A continuation of 507. Frank.
511 P 2
History of Pharmacy I
A. 2 cl.
Prereq.: 400.
A course designed to give the pharmacy student a
deeper appreciation of the background of pharmacy
and its development through the years. Buerki.

512 P 2
History of Pharmacy II
W. 2 cl.
Prereq.: 400.
A continuation of 511; emphasis on the development
of the profession of pharmacy in Great Britain and
the United States. Buerki.

515 P 3
Hospital Pharmacy
A, W, Sp. 1 cl., 2 3-hr. lab.
Prereq.: 402.
Repeatable to a maximum of 9 cr. hrs.
Introduction to and clinical experience in hospital
pharmacy under the supervision of a registered
pharmacist in University Hospital or Grant Hospital,
Latolas and Anderson.

520 P 4
Pharmaceutical Marketing
A. 3 75-min. cl.
Prereq.: Econ. 201.
A study of the pharmaceutical industry and the
distribution of drug products and pharmaceutical
services. Baldwin and Rucker.

523 P 3
Pharmaceutical Record Keeping,
Information Systems, and Control
A. 3 cl.
Prereq.: Econ. 201.
Deals with the professional and business records
used in pharmacy practice; emphasis on the
understanding of principles through case studies.
Baldwin and Rucker.

524 P 4
Pharmacy Management
W. 3 cl., 1 2-hr. lab.
Prereq.: 520 and 523 or Acc. 201.
A study of fundamental problems associated with
planning, organizing, and controlling a community
pharmacy emphasizing case problems to illustrate
the practical application of management principles.
Baldwin and Rucker.

525 P 3
Pharmacy Management
Sp. 2 cl., 1 2-hr. lab.
Prereq.: 524.
A continuation of 524. Baldwin and Rucker.

533 P 3
Microscopical Pharmacognosy
W, Sp. 3 2-hr. lab.
Prereq.: 451 or equiv.
A course embodying the principles of the microscope
and the application of microchemical and specialized
techniques in the detection, separation, and
identification of drugs. Beal.

577 P 3
Biological Products
Sp. 3 cl.
Prereq.: Microbiol. 509.
U.S.P. standards and legal requirements governing
manufacture, standardization, storage and distribution
of toxins, antitoxins, sera, and vaccines. Beal and
Mitscher.

601 P 3
Cosmetology
Sp. 1 cl., 2 2-hr. lab.
Prereq.: Senior standing or permission of instructor.
A study of the physical, chemical and physiological
aspects of materials and products comprising the
area of cosmetics with particular emphasis on
allergenic properties and formulation. Frank and
Sokoloski.

606 P 5
Pharmaceutics VI
A. 3 cl., 1 3-hr. lab.
Prereq.: 505.
A continuation of 505 with emphasis on the physical
chemical properties of drugs and dosage forms and
the nature and intensity of biological action. Notari,
Malspeis, Boxenbaum, Sokoloski, and Anderson.

609 P 3
The Pharmacy of Metabolic Agents
Sp. 3 cl.
Prereq.: Senior standing.
A study of the pharmacy of medicinal products used
in the treatment of deficiency diseases, malnutrition,
and convalescence.

610 P 3
Professional Practice I
W. 3 2-hr. cl.
Prereq.: 606; concur. 679.
A clinical practice course designed to place the
student in situations of the sort arising in professional
community, hospital and nursing home practice.
Salisbury, Anderson, Bonacci, and Sherrin.

611 P 4
Professional Practice II
Sp. 4 2-hr. cl.
Prereq.: 606 and 679.
A continuation of 610. Salisbury, Anderson, Bonacci,
and Sherrin.

613 P 3
New and Non-Official Drugs
Sp. 3 cl.
Prereq.: Senior standing.
The pharmacy of the more commonly used new and
non-official medicinals. Nelson.
614 P 2  Professional Ethics
Sp. 1 2-hr. cl.
Prereq.: 512 or permission of instructor
The conceptual basis and content of pharmaceutical ethics; significance of codified ethics, interprofessionally considered; differences of view underlying ethical issues; methods of encouraging compliance. Buerki.

615 P 3  Sterile Products
W. 2 cl., 1 3-hr. lab.
Prereq.: 504 or equiv.
Formulation, preparation, and testing of sterile products including injections, bulk solutions, and nasal and ophthalmic preparations. Latibias.

625 P 3  Pharmaceutical Jurisprudence
Sp. 3 cl.
A study of the laws and regulations relating to the practice of pharmacy with emphasis on cases and court decisions illustrating the pharmacist's responsibilities. Salisbury.

670 P G 6  Chemical Pharmacology I
W. 5 cl., 1 3-hr. lab.
Prereq.: 433, 435, and 475.
An interdisciplinary approach to the fundamental chemical and pharmaceutical principles of drugs relative to their biochemistry, absorption, metabolic fate, pharmacodynamics and therapeutic applications. Feller, Gerald, Lewis, Miller, Patlil, and Witlak.

673 P G 6  Chemical Pharmacology II
Sp. 5 cl., 1 3-hr. lab.
Prereq.: 670.

676 P G 6  Chemical Pharmacology III
A. 5 cl., 1 3-hr. lab.
Prereq.: 673.

677 U P G 3  Toxicology
W. 3 cl.
Prereq.: 676 or permission of instructor.
Fundamentals of modern and environmental toxicology with emphasis on preclinical and clinical testing of new drugs, principles of teratology, carcinogenicity and mutagenicity, and drug interactions. Rahwan.

679 P G 6  Chemical Pharmacology IV
W. 5 cl., 1 3-hr. lab.
Prereq.: 676.
A continuation of 676. Burkman, Lewis, Miller, Mitscher, Nelson, and Witlak.

680 P 3  Pharmacology of Newer Products
Sp. 3 cl.
Concur.: 679.
Pharmacology of the more recent drugs and preparations and their therapeutic application. Nelson.

681 P 3  Ocular Pharmacology
Sp. 3 cl.
Prereq.: Optometry, 3rd yr. standing.
Open only to students registered in College of Optometry.
A survey of the general principles of drug action and the properties of drugs affecting ocular structure and function. Burkman.

693 P 1-5  Individual Studies in the Pharmaceutical Sciences
Prereq.: Junior standing, cumulative point-hour ratio of 2.5, and permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Laboratory and library work designed to give the qualified student an opportunity to complete an original investigation or pursue an interest in a special problem.

694 P 1-5  Group Studies in Pharmacy
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Group studies of selected topics in various fields of pharmacy.

695 P 2  Seminar
A, W, Sp. 2 cl.
Prereq.: Senior standing or permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
Problems arising out of professional relations of the pharmacist with the physician, medical interns, nurses, laboratory technicians, and the laity.

700 P G 5  Radioisotope Tracer Techniques and Radiopharmaceuticals
A. 3 cl., 2 3-hr. lab.
Prereq.: Permission of instructor.
A survey of the properties of radioisotopes and radiation; radioisotope tracer methods and applications to pharmaceutical sciences; the preparation, standardization, and handling of radiopharmaceuticals. Malspeis and Feller.

705 P G 3  Individualization of Drug Dosage
W, Sp. 3 cl.
Prereq.: 606, and 676 or permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
A problem-oriented course designed to provide experience in recognition and solving of patient cases where drug dosage regimen must be modified to optimize therapy. Reuning and Visconti.
710 Biopharmaceutics
W. 3 cr.
Prereq.: Senior standing or permission of instructor.
Interrelationships of absorption, distribution, metabolism, storage, and excretion of drugs with the physical-chemical and biological properties of body tissues, drugs and drug dosage forms. Reuning, Boxenbaum, and Notari.

715 Hospital Pharmacy and the Hospital Organization
A. 3 cr.
Prereq.: Senior standing, 515 or equiv., and permission of instructor.
Hospital organization and the relationship of the departmental components to the pharmacy. Latilolas and Visconti.

717 Drug Therapy in Clinical Practice
Prereq.: 676 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
A clinical program involving didactic, seminar, and clinical instruction in patient drug therapy using facilities of University, Children's, Grant, and Riverside Hospitals. Visconti, Burkman, Miller, and Staff.

737 Advanced Pharmaceutical Analysis
Sp. 3 cr., 2 3-hr. lab.
Prereq.: 436 or permission of instructor.
The use of specialized instruments in the assay and control methods of drugs and drug preparations. Olson.

754 Microscopical Pharmacognosy
Sp. 1 cr., 2 2-hr. lab.
Prereq.: 553 or equiv.
Pharmaceutical applications of specialized microscopic instruments. Beal.

789 Isolation Techniques in Research
W. 3 cr., 2 3-hr. lab.
Prereq.: Chem. 242 and 246 or equiv. or permission of instructor.
A study and application of selected isolation techniques for the purification of natural products or other organic mixtures. Doskotch.

805 Technology
W. 1 cr., 2 3-hr. lab.
Prereq.: 596 or equiv.
Principles and practice in processing pharmaceutical dosage forms by the use of machines; emphasis is on fundamentals of unit processes in pharmaceutical manufacture.

806 Advanced Technology
Sp. 6-9 hrs. lab.
Prereq.: 606 or equiv.
Repeatable to a maximum of 9 cr. hrs.

A laboratory course designed to permit study of a variety of problems in pharmaceutical production, with the ultimate aim of pilot plant scale production.

809 Product Development
Su. 1 cr., 2 3-hr. lab.
Prereq.: 606 or equiv.
Study of problems involved in formulation of suitable dosage forms and the relationship of physical, chemical, therapeutic, and organoleptic properties of medicaments to principles of formulation.

811 Advanced Pharmacy
W. 3 cr.
Prereq.: Chem. 521 or 533, and permission of instructor.
A study of the application of physical chemical principles to the design and development of fluid pharmaceutical dosage forms. Sokoloski, Maispeis, Notari, Reuning, Frank, and Boxenbaum.

812 Advanced Pharmacy
Sp. 3 cr.
Prereq.: Chem. 521 or 533, and permission of instructor.
A study of the methods used to predict, determine, and improve the stability characteristics of medicinal agents in dosage form. Notari, Frank, Maispeis, Reuning, and Sokoloski.

816 Principles of Hospital Pharmacy
W. 3 cr.
Prereq.: 715.
Administrative and professional principles and concepts of, and trends affecting, hospital pharmacy. Latilolas and Visconti.

817 Principles of Hospital Pharmacy
Sp. 3 cr.
Prereq.: 816.
A continuation of 816. Latilolas and Visconti.

820 Social Aspects of Drug Use
W. 3 cr.
Prereq.: Permission of instructor.
A study of the social aspects of drug use with emphasis on reviewing pertinent research and developing new research approaches to existing problems. Baldwin and Rucker.

825 Advanced Pharmaceutical Marketing
W. 3 cr.
Prereq.: 500, and Bus. Admin. 650 or equiv.
Theoretical aspects of drug marketing with emphasis on policies and practices of the pharmaceutical manufacturer. Baldwin and Rucker.
826  G 3
Advanced Pharmacy Administration
Su. A.  3 cl.
Prereq.: 825 and Euc. Admin. 500 or equiv.
Repeatable to a maximum of 6 cr. hrs.
Investigation and analysis of selected areas of
pharmacy administration for group discussion and
written report; case problems, review of current
literature, and research. Baldwin and Rucker.

835  G 3
Advanced Medicinal Chemistry
W.  3 cl.
Prereq.: 679 or equiv., and Chem. 833, or permission
of instructor.
Chemistry of autonomic receptor sites; recent
literature references on the biological, chemical,
and stereochemical requirements for adrenergic
and cholinergic stimulation and blockade. Lewis,
Miller, and Witak.

836  G 3
Advanced Medicinal Chemistry
Sp.  3 cl.
Prereq.: 679 or equiv., and Chem. 833, or permission
of instructor.
Selected topics in medicinal chemistry, the subject
matter being drawn from the current literature. Lewis,
Miller, and Witak.

845  G 3
Advanced Medicinal Chemistry
W.  3 cl.
Prereq.: 679 or equiv., and Chem. 833, or permission
of instructor.
Concepts of conformational analysis; recent selected
literature references on the subject; the application
of this science to the design and synthesis of
biologically active molecules. LaPidos, Lewis, Miller,
and Witak.

846  G 3
Advanced Medicinal Chemistry
A.  3 cl.
Prereq.: Chem. 833.
Repeatable to a maximum of 6 cr. hrs.
Synthesis of selected natural products; course content
to change every two years; topics examples: steroids,
alkaloids, heterocyclic compounds, tropolones and
aromatic systems, vitamins, etc. Lewis, Miller, and
Witak.

850  G 1
Seminar
Repeatable to a maximum of 30 cr. hrs.
Round-table discussion, oral and written reports dealing
with recent advances in the pharmaceutical sciences.

851  G 3
Advanced Pharmacognosy
Sp.  3 cl.
Prereq.: Biochem. 707 or Bot. 631 or permission of
instructor.
A study of research involving biosynthesis of plant
constituents of pharmacological interest. Doskotch,
Mitscher, and Beal.

852  G 3
Medicinal Plant Propagation and Cultivation
Su.  3 cl.
Prereq.: Bot. 631 or permission of instructor.
A study of the methods employed and problems
involved in the propagation, cultivation, harvesting, and
evaluation of medicinal plants. Beal.

Drug Metabolism
(See Pharmacol. 852.)
(Offered in cooperation with Dept. of Pharmacol.)
(Discussions of mechanisms of biotransformation of
drugs by enzymes, pharmacologic characteristics of
these systems, and techniques for the study of drug
metabolism.)

855  G 3
Plant Drug Constituents
W.  2 cl., 1 3-hr. lab.
Prereq.: Permission of instructor.
A study of the more important classes of constituents
obtained from plants, including methods of isolation,
purification, and identification. Mitscher, Doskotch, and
Beal.

870  G 3
Theories in Pharmacology
A.  3 cl.
Prereq.: 679 or equiv.
Orientation to graduate pharmacology; an introduction
into theories of pharmacology and the research
approach in pharmacology. Burkman.

871  G 3
Screening Methods in Pharmacology
W.  1 cl., 2 3-hr. lab.
Prereq.: 870 or equiv., Genetics 650 or equiv.,
and permission of instructor.
Qualitative pharmacology covering the standard
laboratory procedures and methods used in routine
screening and laboratory evaluation of new drugs. Wolf.

872  G 3
Advanced Methods in Pharmacology
Sp.  1 cl., 2 3-hr. lab.
Prereq.: 871 and permission of instructor.
Theory and techniques involving spinal cat, tissue
derivation, perfused heart aortic strips, calculation of
pA2 and pD2, receptor protection experiments; biogenic
amine fluorescence microscopy, etc. Patil.

880  G 3
Biological Standardization
Su.  1 cl., 2 3-hr. lab.
Prereq.: 871 and permission of instructor.
Quantitative pharmacology covering principles of
bioassay design and interpretation; laboratory consists
of the performance of standard bioassays.

881  G 3
Advanced Topics in Pharmacology
Su, A, W, Sp.  3 cl.
Prereq.: 871 and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
A study of current advanced theories of
pharmacodynamics.
PHILOSOPHY 373

993 G 1-5
Individual Studies in the Pharmaceutical Sciences
Repeatable to a maximum of 30 cr. hrs.
Individual investigation of problems in one of the areas below:
   a. Administrative and Social Sciences in Pharmacy.
   b. Clinical Pharmacy and Professional Practice.
   c. Medicinal Chemistry.
   d. Pharmacetics and Pharmaceutical Chemistry.
   e. Pharmacognosy and Natural Products Chemistry.
   f. Pharmacology.

994 G 1-5
Group Studies in the Pharmaceutical Sciences
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Group studies of selected topics in various fields of the pharmaceutical sciences.

999 G Arr.
Research in the Pharmaceutical Sciences
Research for thesis or dissertation purposes only.

101 U 5
Introduction to Philosophy
H101 (Honors) may be available to students enrolled in a College Honors Program or by permission of dept. Not open to students with credit for 100.
Examination of major problems, such as the nature of reality, knowledge, truth, morality, and of the relation of philosophy to science and religion.

130 U 5
Introduction to Ethics
H130 (Honors) may be available to students enrolled in a College Honors Program or by permission of dept. The nature of right and wrong, good and evil; the grounds of moral choice and decision; the resolution of moral conflicts.

150 U 5
Introduction to Logic
H150 (Honors) may be available to students enrolled in a College Honors Program or by permission of dept. Deduction and induction: principles of clear statement and valid reasoning; fallacies; and the methods by which theories and laws are established.

210 U 5
Philosophical Bases of Western Culture
A, W.
Prereq.: Sophomore standing.
Major themes in philosophy in the context of the development of western culture.

230 U 5
Political and Social Philosophy
Philosophical bases of social and political institutions and practices; analysis of such fundamental conceptions as rights, justice, equality, political obligation, and civil disobedience.

240 U 5
Esthetics
Principal systems of esthetics; interpretation of the creative activity of the artist, the work of art, and the contemplation and criticism of art objects.

250 U 5
Symbolic Logic
A formal presentation of the elements of modern and classical deductive logic; decision and proof procedures in sentential logic, functional logic, and Aristotelian logic.

270 U 3
Introduction to Philosophy of Religion
Su.
Not open to students with credit for 170.
A philosophical analysis of the nature of religion and the foundations of religious belief.

511 U G 5
History of Ancient and Hellenistic Philosophy
A.

512 U G 5
History of Philosophy from Bacon to Hume
W.

513 U G 5
History of Philosophy from Kant Through the 19th Century
Sp.

520 U G 3
American Philosophy
Sp.
Not open to students with credit for 613.
The development of American philosophy: puritanism, deism, transcendentalism, and pragmatism.
525 U G 3
Russian Philosophy
A.
Prereq.: one course in the history of philosophy, permission of instructor.
Selected topics in the history of Russian philosophy: Western influences; Slavophilism and Russian religious thought; philosophy of Dostoevsky and Tolstoy; Russian emigre philosophy.

560 U G 5
History of Jewish Philosophy I
A.
History of Jewish thought in antiquity and the Middle Ages; emphasis on Philo, Saadia, Judah Halevi in the context of their Greek and Arabic backgrounds.

561 U G 5
History of Jewish Philosophy II
W.
Jewish thought from the 12th through the 19th century; Maimonides and his successors, Gersonides, Crescas, Albo; Moses Mendelssohn and the development of modern Jewish thought.

H570 U G 3-5
Junior-Senior Proseminar
W.
Prereq.: 11 hrs. of philos., and either 3.25 or better cumulative point-hour ratio with 3.5 or better in philos., or permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Topics vary; emphasis on recent philosophical writing in some specific area or on some specific problem.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600 AND 700
Not open to freshmen or sophomores. Unless otherwise indicated the prerequisites for 600 and 700-level courses are 10 hours in philosophy.

611† U G 5
Contemporary Philosophy
W.
Examination of the doctrines of such philosophers as Bergson, Santayana, Whitehead, Russell, and Dewey.

614 U G 5
Medieval Philosophy
Sp.
Prereq.: 10 cr. hrs. of philos. including 511, or 712 and 713.
Not open to students with credit for 614.
An examination of the main trends in the thought of the Middle Ages, based on a study of characteristic works of some of the most important medieval philosophers.

615* U G 5
Pragmatism
A.
An examination of the main themes of pragmatism: pragmatic theories of truth, reality, nature of physical objects, knowledge of reality, and normative matters.

617 U G 5
Existentialism
W.
Introduction to the major doctrines of existentialism through writings of representative existentialists, such as Kierkegaard, Sartre, Jaspers, and Heidegger.

620* U G 3
Philosophy of Maimonides
Sp.
An intensive study of the structure and argument of Maimonides' Guide to the Perplexed; relevant materials from his other writings will also be examined.

625† U G 3
Marxist Philosophy
Sp.
Prereq.: one course in the history of philosophy, or permission of instructor.
Classical (traditional) Marxism; dialectical materialism as elaborated in the USSR; recent development in humanistic Marxism deriving from Marx's early philosophical writings.

630 U G 5
Advanced Political and Social Philosophy
Sp.
Prereq.: 230 or permission of instructor.
An intensive examination of issues in political and social philosophy, including democracy, civil disobedience, anarchism, totalitarianism, nature of the state, etc.

631 U G 5
Advanced Ethical Theory
A.
Prereq.: 130.
An intensive examination of representative ethical systems such as egoism, hedonism, intuitionism, and utilitarianism.

641 U G 5
Advanced Esthetic Theory
W.
Selected issues in philosophy of art, e.g., truth in art, the function of criticism; concentrated study of problems dealing with a particular genre.

650 U G 5
Advanced Symbolic Logic
W.
Prereq.: 250.
Advanced techniques in functional logic and proof procedures; the axiomatization of sentential logic and the lower functional calculus; introduction to the higher functional calculus.

652 U G 5
Nonclassical Logic
W.
Prereq.: 650.
Repeatable to a maximum of 10 cr. hrs.
Philosophical study of selected systems of nonclassical logic, such as entailment systems, modal, many valued, epistemic, deontic, imperative erotetic, tense, and free logics.
653* U G 5
Inductive Logic and Probability
A.
Prereq.: 150 or permission of instructor.
Analysis of types of empirical inference; natural law and confirmation theory; calculus and nature of probability; philosophic presuppositions of inductive inference.

660 U G 5
Theory of Knowledge I
A.
Prereq.: 250 or permission of instructor.
A survey of major epistemological problems: the possibility, origin, foundation, structure, methods, limits, types, and validity of knowledge.

663 U G 5
Metaphysics I
Sp.
Prereq.: 250 or permission of instructor.
A survey of major metaphysical problems: categories, universals, substance and process, causality and law, space and time, metaphysical presuppositions of knowledge.

668 U G 5
Philosophy of Law
A.
3 cr.
An examination of the nature and function of law and of such problems as the relation of law to morality and the justification of punishment.

671* U G 3
Philosophy of History
Sp.
An essay of representative speculative theories of history; analysis of critical problems arising in the pursuit of historical knowledge.

672 U G 5
Philosophy in Literature
A.
Philosophical problems as reflected in classics of literature, such as the Greek dramatists, Shakespeare, Voltaire, T. S. Eliot, Proust, and Tolstoy.

673 U G 5
Philosophy of Language
Sp.
Prereq.: 150, or permission of instructor.
Semantics and language analysis; functions of language; modes of meaning, relation of linguistic structure to metaphysics.

674 U G 5
Philosophy of Logic and Mathematics
W.
Prereq.: 651.
Analysis of basic concepts used in logic and in philosophical claims about logic and mathematics, such as: proposition, logical truth, mathematics objects, and necessity.

675 U G 5
Philosophy of Religion
W.
A study of religious concepts and problems; the idea and nature of God, of man, their relation to the world and human destiny.

676 U G 3
Philosophy of Science
A.
A study of the nature and structure of scientific concepts, laws, and theories; appraisal of methodologies, presuppositions, and frames of reference in science.

677 U G 3
Conceptions and Methods of the Social Sciences
W.
Philosophic assumptions of social science; nature of explanation (methodological individualism, holism, functionalism); methods in natural and behavioral science; fact and value in social inquiry.

693 U G 2-10
Individual Studies
Prereq.: Permission of department chairman.
Students ordinarily earn from 2 to 5 cr. hrs., but Honors students may earn up to 10 cr. hrs.

694 U G 2-15
Group Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 30 cr. hrs.

712+ U G 5
Philosophy of Plato
A.
Prereq.: 10 cr. hrs. of philos. including 511.

713* U G 5
Philosophy of Aristotle
W.
Prereq.: 10 cr. hrs. of philos. including 511.

715 U G 5
Selected Topics in Medieval Philosophy
Sp.
Prereq.: 10 cr. hrs. of philos. including 511.
Not open to students with credit for 714.
Repeatable to a maximum of 21 cr. hrs.

716 U G 5
Philosophy of Berkeley
A.
Prereq.: 10 cr. hrs. of philos. including 512.

717* U G 5
Philosophy of Descartes
Sp.
Prereq.: 10 cr. hrs. of philos. including 512.
718* Philosophy of Locke
A.
Prereq.: 10 cr. hrs. of philos. including 512.

719† Philosophy of Spinoza
W.
Prereq.: 10 cr. hrs. of philos. including 512.

720 Philosophy of Leibniz
W.
Prereq.: 10 cr. hrs. of philos. including 512.

721 Philosophy of Hume
Sp.
Prereq.: 10 cr. hrs. of philos. including 512.

722* Kant: Critique of Pure Reason
W.
Prereq.: 10 cr. hrs. of philos. including 513.

723* Kant: Critique of Practical Reason and Critique of Judgment
Sp.
Prereq.: 722.

724* Philosophy of Hegel
Sp.
Prereq.: 10 cr. hrs. of philos. including 513.

728† History of Logic
Sp.
Prereq.: 651 or permission of instructor.
A history of logic from ancient Greek times to the present.

750 Advanced Logical Theory
Sp. 3 cr.
Prereq.: 250 and 650.
Repeatable to a maximum of 15 cr. hrs.
Topics include Goderis incompleteness and completeness proofs, Church's theorem, Russell's theories of description, relations, classes arithmetic, logical truth, logical paradoxes; topics vary yearly.

761 Theory of Knowledge II
Sp.
Prereq.: 660 or permission of instructor.
An intensive study of a systematic epistemological treatise, such as Blanchard's Nature of Thought, Lewis' Mind and the World Order, or Lovejoy's Revolt Against Dualism.

764† Metaphysics II
W.
Prereq.: 663 or permission of instructor.
An intensive study of a systematic metaphysical treatise.

767 Philosophy of Mind
A.
Classical and contemporary approaches to the nature of mind, mind-body, other minds, intentionality, and other problems.

770 Advanced Studies in Philosophy
Prereq.: Permission of instructor.
Repeatable to a maximum of 21 cr. hrs.

771 Selected Topics in Analytic Philosophy
Prereq.: 150 and 611.
Repeatable to a maximum of 21 cr. hrs.

776* Problems in Philosophy of Science
Sp.
Prereq.: 250 or permission of instructor.
Detailed and critical examination of significant contributions to the traditional and contemporary philosophical literature on the philosophy of science.

H783 Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the Philos. courses taken with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 quarters are required of candidates for the B.A. with distinction in Philos. Failure to receive a mark of 5 in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
A program of reading arranged for each student, with individual conferences, reports and papers.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated the prerequisites for 800 and 900-level courses are acceptable foundation courses either in general philosophy, logic and ethics, or history of philosophy, and in some cases in all these subjects.

800† Current Philosophical Literature
Repeatable to a maximum of 6 cr. hrs.
Current philosophical journal articles will be read and discussed.

811 Seminar in the History of Philosophy
A.
Repeatable to a maximum of 15 cr. hrs.
Photography and Cinema

Office: 204 Haskell Hall, 156 West 19th Avenue.

Professors Wagner (Chairman), Clarke, and Davis (Emeritus); Associate Professors Binau, Craig, Drvota, Elgabi, and Longshore; Adjunct Associate Professor Trestel; Assistant Professors Ball, Dilley, Platt, Schuth, and Vibberts; Instructors.

201 U 3 Photography
Su, A, W. 2 cl., 2 2-hr. lab.
Prereq.: 2nd year standing.
Fundamentals of photography, including cameras, emulsion characteristics, processing, filters, chemistry, and optics. Binau, Craig, Dilley, and Vibberts.

203 U 3 Photography and Design
Sp. 2 cl., 2 2-hr. lab.
Prereq.: 10 hrs. of design courses or permission of instructor.
Not open to students with credit for 201 or 594.
The fundamentals of photography with emphasis on camera technique, processing and printing as utilized in graphics and design. Binau and Vibberts.

502 U G 3 The History of Photography
Su, A. 3 1-hr. cl. and lab.
Prereq.: Grad. or 4th yr. standing.
Study of the history of photography and its contribution to the arts and sciences; the critical and aesthetic considerations of the photographic image. Craig.
503 U G 3
The History of Cinema
Su, W. 2 2-hr. cl. and lab.
Prereq.: Grad. or 4th yr. standing.
History of the motion picture and critique at the contextual, artistic, technical, and information levels; evaluative study of selective films. Schuth.

504 U G 3
Photography: The Early Years
W. 3 1-hr. cl.
A study of the discovery of photography and its early history, with its contribution to the arts, sciences, and society in the 19th century. Craig.

505 U G 3
Film Theory and Criticism
A, Sp. 2 2-hr. cl.
Prereq.: Grad. or 4th yr. standing and permission of instructor.
Study of the development of the film theory and its relationship to the other arts; aesthetic of the medium and the modes of film communication as created, viewed, and analyzed. Schuth.

506 U G 3
Photographic Communications
A, W, Sp. 2 2-hr. cl.
Prereq.: Grad. or 4th yr. standing and permission of instructor.
Study of the photographic image in relation to communication theory; development of photographic and motion picture systems in educational and information programs. Silverman and Wagner.

509 U G 3
The Photographic Process
W. 3 cl.
Prereq.: 201 or 551.
The principles and theories in the photographic process, including optics, chemistry, sensitometry, and nonconventional processes. Craig.

510 U G 3
The Silent Cinema
W. 2 2-hr. cl.
Repeatable to a maximum of 3 cr. hrs.
An intensive study of the silent film, its growth and development of film as an international medium. Drvota.

521 U G 5
Advanced Photography I
Su, A, W, Sp. 2 cl., 2 2-hr. lab.
Prereq.: 201 or 594, and permission of instructor.
Not open to students with credit for 501.
Advanced techniques related to specific topics with emphasis on creative photography. Binau, Craig, Dickey, and Vibberts.

522 U G 5
Advanced Photography II
Su, A, Sp. 2 cl., 2 2-hr. lab.
Prereq.: 501 or 521, and permission of instructor.
Continuation of 501 or 521; emphasis on photographic theory. Dickey and Vibberts.

531 U G 5
Color Photography I
A, Sp. 2 cl., 2 2-hr. lab.
Prereq.: 521 or 552, and permission of instructor.
Principles of color photography including color theory, lighting, and recent color processes. Craig and Vibberts.

532 U G 5
Color Photography II
W. 2 cl., 2 2-hr. lab.
Prereq.: 531 and permission of instructor.
Continuation of 531 with emphasis on color printing; consideration of the relationship of color theory and problems to motion pictures, television, and other creative and technical media. Craig and Vibberts.

551 U G 3
Motion Picture Production I
Su, A, W, Sp. 2 2-hr. cl. and lab.
Prereq.: Permission of instructor.
Not open to students with credit for 507 or 508.
Principles and procedures in motion picture production including camera, metering, laboratory, editing, and projection systems; emphasis on the silent film as a form of visual expression. Elgabridi, Schuth, and Staff.

552 U G 5
Motion Picture Production II
A, W, Sp. 2 2-hr. cl. and lab.
Prereq.: 551 and permission of instructor.
Not open to students with credit for 507.
Intermediate motion picture production with emphasis on scripting, camera, and sound; examination of editorial process, relationships between film and television, and animation. Elgabridi, Schuth, and Staff.

553 U G 5
Motion Picture Production III
A, Sp. 2 2-hr. cl. and lab.
Prereq.: 552 and permission of instructor.
Not open to students with credit for 508.
Advanced motion picture production; emphasis on production planning and management, screen directing, color, widescreen, multiple-screen, and other contemporary forms. Elgabridi, Schuth, and Staff.

558 U G 3
Advanced Cinematography
A, W. 2 2-hr. cl.
Prereq.: 551.
The study of the principles of motion picture lighting and the analysis of the psychological and aesthetic impact of lighting designs and camera work on audiences. Elgabridi and Sims.

574 U G 5
Photography for Science Students
Su, W. 3 cl., 2 2-hr. lab.
Prereq.: Science major with 3rd yr. standing.
Not open to students with credit for 521.
For students in physical and biological science who need a knowledge of photography as an aid to their scientific work; application of photography to science. Binau.
575  U G 3
Photography for Architecture Students
A. 2 cl., 2 2-hr. lab.
Prereq.: 15 hrs. of Art, or permission of instructor.
Not open to students having credit for 201, 203, or 594.
The fundamentals of photography for students majoring in architecture. Camera techniques, darkroom techniques, perspective control, three-dimensional photography. Vibeerts.

594†  U G 5
Scientific Photography
Su, W. 3 cl., 2 2-hr. lab.
Prereq.: Science major, or 201 and 521.
Not repeatable.
For students in physical and biological science who need a knowledge of photography as an aid to their scientific work; application of photography to science. Binau and Craig.

608  U G 5
The Reality Image I
A. 5 cl.
Prereq.: 502, 503, 504, or 506.
The photographic and motion picture as images of reality, form, styles; social functions; evidential, critical, creative, and humanistic issues involved in developing documentary imagery. Wagner and Staff.

609  U G 5
The Reality Image II
W. 5 cl.
Prereq.: 608.
The photographic and motion picture as images of reality, a continuation of Photography and Cinema 608. Wagner and Staff.

666  U G 5
Advanced Motion Picture Direction
W. Approx. 6 arr. hrs. per wk.
Prereq.: 553 and permission of instructor.
A study of theoretical and documentary film direction with emphasis on the director's role in relation to performance and camera direction. Elgabri.

693  U G 3-5
Individual Studies in Photography
Su, A, W, Sp. 4-8 lab. hrs.
Prereq.: 9 cr. hrs. in photog. and cinema. and permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Use of departmental facilities for adding to the student's knowledge of a specially selected photographic problem pertaining to his major field.

694  U G 3-5
Group Studies in Photography and Cinema
Su, A, W, Sp. 2 2-hr. cl.
Prereq.: Written permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
 a. Script writing for film.
b. Film animation.
c. Elements of sound.
d. The editorial process.
e. Design and production of educational films.
f. Contemporary photography.

794  U G 3-5
Group Studies in Photography
Prereq.: 15 cr. hrs. in photog. and cinema.
Repeatable to a maximum of 18 cr. hrs.
Specialized problems, processes, and theories designed for students concentrating on the advanced study of photography and cinema at the M.A. and Ph.D. levels.
 a. Screen Directing.
b. The Photographic Image and Society.
c. Contemporary Cinema.
d. Motion Picture Production Management.

Physical Education
Lewis A. Hess, Director of School
Office: 215 Pomerene Hall, 1760 Neil Avenue
Naomi Allenbaugh, Assistant Director of School
Office: 215 Pomerene Hall, 1760 Neil Avenue

Professors Mand (Chairman), Allenbaugh, Bartels, Bennett, Hayes, Hess, Kleinman, Mathews, Mordy, Rupert, and Yost; Associate Professors Bailey, Coates, Erving, Fox, Harper, Hendrix, Hewlett, Kerow, Montonaro, Morris, Nelson, Schroeder, Stedantop, Stevens, Sweeney, and Wheeler; Assistant Professors Beekman, Breiner, Fredericks, Gilliom, House, Hull, C. O'Brien, Oyster, Sarkkainen, Simonian, and Taylor; Instructors Althoff, Bruce, Burschfield, Campbell, Daly, Grine, Hinton, Myers, R. O'Brien, Patterson, Raysa, Ruggieri, Servedio, Wardwell, and Zubovich.

101  U 1
Physical Education (Men)
Required of all freshman men; not open to Phys. Ed. majors and minors.
Instructions in the techniques of play, rules, strategies, and the social behavior involved in sports and dance activities.

102  U 1
Physical Education (Men)
Required of all freshman men; not open to phys. ed. majors and minors.
Continuation of 101.

103  U 1
Physical Education (Men)
Required of all freshman men; not open to phys. ed. majors and minors.
Continuation of 102.

104  U 1
Physical Education (Women)
Required of all freshman women; not open to phys. ed. majors and minors.
Instructions in the techniques, rules, strategy, and social behaviors of a sport or dance activity selected by the student from a wide range of offerings.
105  U 1
Physical Education (Women)
Required of all freshman women; not open to phys. ed.
majors and minors.
Continuation of 104.

106  U 1
Physical Education (Women)
Required of all freshman women; not open to phys. ed.
majors and minors.
Continuation of 105.

107  U 1
Physical Education
Su, A, W, Sp.  2 lab. hrs.
Not open to phys. ed. majors.
Cannot be repeated for credit.
  a. Men.
     A continuation of 103.
  b. Women.
     A continuation of 106.

108  U 1
Physical Education
Su, A, W, Sp.  2 lab. hrs.
Continuation of 107.
  a. Men.
  b. Women.

109  U 1
Physical Education
Su, A, W, Sp.  2 lab. hrs.
Continuation of 108.
  a. Men.
  b. Women.

111  U 1
Physical Education (Men)
A.  3 lab. hrs.
Open only to men Phys. Ed. majors or minors.
Instructions in the techniques, rules, strategy, and
social behaviors of a sport or dance activity selected
by the student from a wide range of offerings.

115  U 1
Physical Education (Women)
W.  3 lab. hrs.
Open only to women Phys. Ed. majors and minors.
Continuation of 114.

116  U 1
Physical Education (Women)
Sp.  3 lab. hrs.
Open only to women Phys. Ed. majors and minors.
Continuation of 115.

131  U 2
Physical Education Activities
A.  5 2-hr. labs.
Prereq.: Permission of chairman.
Required of phys. ed. majors.
These courses aim to develop knowledge
understandings, and skills in the basic activities
appropriate to the teacher of physical education.
  a. Men.
  b. Women.

132  U 2
Physical Education Activities
W.  5 2-hr. labs.
Prereq.: Permission of chairman.
Required of phys. ed. majors.
Continuation of 131.
  a. Men.
  b. Women.

133  U 2
Physical Education Activities
Sp.  5 2-hr. labs.
Prereq.: Permission of chairman.
Required of phys. ed. majors.
Continuation of 132.
  a. Men.
  b. Women.

208  U 2
Orientation to Physical Education
A, W, Sp.  1 cl., 2 hrs. arr.
Consideration of personal competencies essential for
effective teaching, research, recreation, coaching,
investigation of areas of concentration; relationships to
other disciplines.

221  U 2
Sports Officiating
3 cl., 2 lab. hrs.
Prereq.: Satisfactory evidence of playing skill in the
elected athletic sport.
Repeatable to a maximum of 6 cr. hrs., subdivision not
repeatable.
Study of playing rules, rule interpretation, techniques
and mechanics of officiating various interscholastic and
intercollegiate athletic sports.

221.01 Baseball
Sp.
221.02 Basketball
A, W.
Not open to students with credit for 222.
(Students completing the course are eligible for certification to officiate in Ohio schools.)

221.04 Football
A.
Not open to students with credit for 221.
(Students completing the course are eligible for certification to officiate in Ohio schools.)

221.05 Gymnastics
W.
221.08 Field Sports
A.
221.12 Wrestling
W.
(Students completing the course are eligible for certification to officiate in Ohio schools.)

221.14 Volleyball
A.
221.15 Softball
Sp.

230 U 5
Nature of Human Movement
A, W, Sp. 2 2-hr. cl., 1 2-hr. lab.
The study of human movement, including its organization, significance and cultural implications.
Kleinman and Wardwell.

231 U 1
Physical Education Activities
A, W, Sp. 3 1-hr. labs.
Required of phys. ed. majors.
Cannot be repeated for credit.
These courses aim to develop knowledge, understandings, and skills in the basic activities appropriate to the teacher of physical education.

a. Men.
b. Women.

232 U 1
Physical Education Activities
A, W, Sp. 3 1-hr. labs.
Required of phys. ed. majors.
Cannot be repeated for credit.
Continuation of 231.

a. Men.
b. Women.

233 U 1
Physical Education Activities
A, W, Sp. 3 1-hr. labs.
Required of phys. ed. majors.
Cannot be repeated for credit.
Continuation of 232.

a. Men.
b. Women.

235 U 3
Sport Notation
Sp. 2 cl., 1 2-hr. lab.
Theory and techniques of Labanotation for the purpose of recording the movement in specialized sport skills.

270 U 2
Supervision of Playground and Community Recreation Activities
Sp. 2 2-hr. labs.
Programming of recreational activities relative to community conditions; overview of activities desirable for a broad, comprehensive program.

271 U 3
Camp Counseling
A. 2 cl., 7-day Sept. workshop
Sp. 2 2-hr. cl.
Prereq.: Phys. ed. major and minor students shall have completed the Sept. workshop immediately preceding the qtr. of enrollment.
(Spring qtr. section is open to all University students.)
Investigation of the responsibilities and duties of the counselor in various types of camps; practical experience in basic craft skills.

289 U 2-5
Directed Field Experience
Prereq.: Permission of division adviser.
Repeatable to a maximum of 20 cr. hrs.

289.01 Introductory Experiences in a School System
For students seeking admission to professional status in physical education.

289.05 Public Recreation
For students in public recreation curriculum.

289.07 Experience with Secondary School Programs

289.08 Experience with Elementary School Programs

289.09 Experience in Teaching of Sport and Dance in College Programs

323 U 3
Creative Physical Education for Elementary Teachers
Su, A, W, Sp. 2 2-hr. labs.
Not open to students with credit for 541.
Theory of physical activities as a medium for creative self-expression; exploration of rhythmical, individual and group activities and their relation to development of children. Allenbaugh and Staff.

360 U 5
Kinesiology
A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: Zool. 231, 232.
Not open to students with credit for 660.

414 U 5
The Science of Development Through Activity
A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: 360, and Zool. 232.
Not open to students with credit for 214.
A systematic study of factors in human movement which affect the physiological development of the organism. Bartels and Fox.
420  The Teaching of Athletic Sports
A, W, Sp.  2 cl., 2 lab. hrs.
Prereq.: Satisfactory evidence of playing skill in the
elected athletic sport.
Repeatable to a maximum of 9 cr. hrs.; subdivision not
repeatable.
Study in the theory strategy and mechanics of
coaching various interscholastic, intercollegiate
athletic sports.

420.01 Baseball
   a. Men.
   b. Women.
   Not open to students with credit for 547.

420.02 Basketball
   a. Men.
   b. Women.
   Not open to students with credit for 519.

420.03 Fencing
   a. Men.
   b. Women.

420.04 Football
   a. Men.
   Not open to students with credit for 546.

420.05 Gymnastics
   a. Men.
   b. Women.

420.06 Golf
   a. Men.
   b. Women.

420.07 Lacrosse
   a. Men.
   b. Women.

420.08 Soccer
   a. Men.
   b. Women.

420.09 Swimming
   a. Men.
   b. Women.
   Not open to students with credit for 549.

420.10 Tennis
   a. Men.
   b. Women.

420.11 Track and Field
   a. Men.
   b. Women.
   Not open to students with credit for 544.

420.12 Wrestling
   a. Men.

420.13 Ice Hockey
   a. Men.

420.14 Volleyball
   a. Men.

430  Basic Movement
   U 2
Sp.  1 cl., 1 2-hr. lab.
Prereq.: 230.
The study and practice of basic movement as a
category of activity in the physical education
instructional program. Sledenlop.

441  Motor Learning
   U 5
A, W, Sp.  3 2-hr. cl.
Prereq.: Recommended 360, Psychol. 230, and Zool. 232.
Study of major variables affecting the learning process
as related to the acquisition of motor skills; major
attention given to factors in the educational
environment which teachers may control.

460  Kinesiology for Dancers
   U 5
Sp.  4 cl., 1 2-hr. lab.
Prereq.: 10 cr. hrs. in biological sciences.
Scientific study of dance movements, including analysis
of joints; physiological basis of conditioning; common
injuries; maturation and technical development;
equilibrium; control of force and speed. Oyster.

530  The Administration of Interschool Athletics
   U 2
A, Sp.  2 cl.
An introductory course in athletic administration,
including scheduling contests, records, eligibility,
contest management, facilities and equipment, budgets
and finance, public relations, and awards. Coates.

540  Historical Foundations
   U 5
of American Physical Education
   A.  5 cl.
An historical survey of the origins and development of
modern physical education in America, including
individual leaders and contributing factors. B. Bennett.

541  Physical Education
   U 5
for the Elementary School Child
A, W, Sp.  2 cl., 3 2-hr. labs.
Prereq.: 230, and Psychol. 230.
The study of content, program design and teaching
strategies appropriate to the elementary school child.
Allenbaugh, Breiner, and Hewlett.

586  Physical Education (Men)
   U 6-9
Elementary School Student Teaching
Prereq.: 4th yr. standing.
A minimum of 15 cr. hrs. required in student teaching
586 and/or 587.
Observation, participation, and responsible teaching
in a public school; individual and group conferences
or seminars.

586.07 Physical Education (Men)

586.08 Physical Education (Women)

587  Physical Education in Secondary Schools
   U 6-15
Prereq.: 4th yr. standing.
A minimum of 15 cr. hrs. required in student teaching
586 and/or 587.
Observation, participation, and responsible teaching
in a public school; individual and group conferences
or seminars.
Students desiring teaching in more than one area should indicate accurately both section numbers and hours in each.

597.07 Physical Education (Men)
597.08 Physical Education (Women)

594 U 2
Group Studies in Physical Education
A, W, Sp. 2 cl.
Prereq. or concur.: 586 or 587.
Consideration of present and changing concepts of physical education.

594.30 Application of Science to Physical Education
A.

594.31 Elementary School Physical Education
Sp.

594.32 Secondary School Physical Education
A, Sp.

621 U G 5
Principles of Physical Education
Su, A, W, Sp. 5 cl.
Prereq.: Major or minor in phys. ed., or permission of instructor.
Origins and nature of modern physical education as developmental experience and medium of education; contributions to organic growth, personal resources, and growth in social relationships. Mand and Nelson.

630 U G 2
Problems in Intramural Sports
Su, A, Sp. 2 cl.
A critical analysis of intramural sports programs; problems of policy and administration of programs on the elementary, secondary and college levels will be studied. Beekman.

631 U G 2
Advanced Skill Techniques
4 1-hr. labs.
Prereq.: Placement examination by auditors, and permission of instructor.
Repeatability to a maximum of 10 cr. hrs. Subdivisions may not be repeated.
Advanced techniques of performance and a specialized and intense study of appropriate technical literature.

631.01 Baseball
Sp.
631.02 Basketball
A.
631.05 Gymnastics
A, W.
631.06 Golf
A.
631.08 Field Sports
Sp.
631.09 Swimming and Scuba
A, W.
631.10 Tennis
A, Sp.
631.14 Volleyball
Sp.
631.15 Softball
A.

631.16 Advanced Recreational Dance
W.
631.17 Squash and Badminton
Sp.

640 U G 3
History of Health Education and Physical Education
Su, W. 3 cl.
An historical survey of physical and health education beginning with ancient Greece and with special emphasis on recent and contemporary developments in Europe and America. Bennett.

642 U G 3
Organization and Administration of Physical Education
Su, A, W. 3 cl.
Prereq.: 621, or equiv.
Study of policies and procedures in the organization and administration of the physical education program. Brainer.

647 U G 3
Physical Education for Secondary School Youth
Prereq.: Satisfactory proficiency in 231-233 inclusive, or equiv.
Emphasis on the study of needs, interests, and abilities of secondary school youth, and methods and materials for the conduct of appropriate sports activities. Bennett and Hendrix.

648 U G 3
Physical Education for Senior High School Youth
Su, A, Sp. 3 2-hr. cl.
Prereq.: 231-233 inclusive, or equiv.
Continuation of 647 with emphasis on the characteristics of the middle adolescent as they affect the selection and conduct of physical education activities. Nelson.

650 U G 3
Evaluation in Physical Education
Su, A, W, Sp. 2 cl., 1 2-hr. lab.
A critical study of methods in evaluating biological, social, and psychological outcomes for physical education. Matthews and Morris.

661 U G 5
First Aid and Care of Injuries
Su, A, W, Sp. 3 cl., 2 2-hr. labs.
Prereq.: 360, or equiv.
Students completing this course are eligible for Red Cross standard or advanced certification in first aid.
A consideration of the methods of prevention and care of injuries, conditioning of athletes and safety provisions for the conduct of physical education. Hart.
662 U G 3
Adapted Physical Education
Su, A, W, Sp. 2 cl., 1 3-hr. lab.
Prereq.: 360, 511, and 477.
The organization and administration of individual physical education for typical and atypical students including the child with a physical or learning disability; laboratory experience with the atypical. Ersing and Wheeler.

690 U G 4
Physical Education Workshop
Su. 3-wk. workshop.
Prereq.: Teaching experience or senior standing in Phys. Ed., and permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
A team approach to activity teaching in physical education with emphasis on instruction, methods, materials, resources, evaluation, inter-relationships, and others.

693 U G 1-4
Individual Studies in Physical Education
Prereq.: Grad. or senior standing, and permission of adviser.
Investigation of selected professional problems.

694 U G 1-5
Group Studies in Physical Education
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Group studies on special problems in Physical Education.

731 U G 3
Concepts of the Body in Physical Education
Su, W. 3 cl.
Study of the conceptions of the body that have influenced contemporary views of physical education and its practice. Kleinman.

751 U G 3
Physical Growth and Motor Development
Su. 3 cl.
Prereq.: Grad. standing, or permission of instructor.
Study of growth in phylogenetic and ontogenetic sequence; motor development; critical analysis of research in motor ability, fitness, and athletics, as related to growth and development. Mordy.

760 U G 3
Mechanical Analysis of Motor Skills
A. 3 cl.
Prereq.: 360 or equiv., and Physics 111, or permission of instructor.
The application of mechanical laws, principles, and formulae to motor skills. Simonian and Bartels.

770 U G 3
Outdoor Education and Camp Administration
A, Sp.
Prereq.: 271, or permission of instructor.
Introduction to the principles, status, and administration of outdoor education and camping. Mand.

771 U G 3
Public Recreation: Its Organization and Administration
A, W, Sp. 3 cl.
Prereq.: Soc. 465, or equiv.
Consideration of common patterns of organization of community recreation found in American cities, large and small, under municipal, school, and other auspices.

820† G 3
Principles of Football Coaching and Management
Su. 3 cl.
Prereq.: Grad. standing, and coaching experience.
A course for advanced students of football considering the principles of various types of strategy; the designing of plays, methods of teaching and controlling players, and special problems of management. Hayes.

830 G 3
Problems in Interscholastic and Intercollegiate Athletics
Su, W. 3 cl.
The relation of athletics to education; problems of athletic organization; eligibility; finance, current trends and developments in management and purpose; public relations. Mordy.

831 G 3
Professional Preparation of Teachers in Physical and Health Education
Su, Sp. 3 cl.
Principles underlying professional preparation of teachers in physical and health education; curriculum construction; selection of candidates; supervised teaching; staff personnel; problems pertaining to professional students. Hess.

832 G 3
Human Movement Theory in Physical Education
Su, Sp. 3 cl.
A study of the several theoretical conceptions of human movement and their implications for physical education and dance. Kleinman.

840 G 3
Comparative Physical Education and International Sport
Su, Sp. 3 cl.
A survey of contemporary physical education in selected countries with some attention given to international competition in sports. B. Bennett.

841 G 3
Physical Education in School and College
Su, A. 3 cl.
Kleinman.

842 G 3
Seminar in the Role of Sports in Society
Su, Sp. 3 cl.
Prereq.: Soc. 465, or equiv.
Study of the significance of sports in society; and examination of the extent to which sports contribute to human welfare. Mordy.
845  G 3  Statistics for Physical Education and Health Education  
Su, A, W 3 cl.  
Prereq.: 650; Math. 116, 121, or 125; and permission of instructor.  
A study of techniques for interpreting research publications in the field, and of statistical procedures useful in analyzing data. Fox and Mathews.

850  G 3  Survey of Research in Physical Education  
Su, Sp. 3 cl.  
Prereq.: 885, or equiv.  
Mathews and Morris.

851  G 3  Motor Learning  
Su, W. 2 1/2-hr. cl.  
Prereq.: 441 or equiv., Psych. 600, or permission of instructor.  
Critical consideration of research and theory in the acquisition of skill. Special attention is given to major trends in the field. Siedentop.

860  G 5  Organic Science as Applied to Physical Education and Health Education  
Su, Sp.  
Prereq.: 10 cr. hrs. physiol., 10 cr. hrs. chem., and 10 cr. hrs. biol., or equiv.  
A study of the integration of chemistry, biology, anatomy, physiology to the field of physical education and health education.

880  G 3  Supervision of Physical and School Health Education  
Su, A. 3 cl.  
A study of the responsibilities and functions of the supervisor in city, county, and state school systems.

881  G 3  Areas and Facilities in Physical Education  
Su, A. 3 cl.  
Principles and techniques in determining facility needs, evaluating facilities, planning for new construction and remodeling the areas and facilities for physical education and recreation. Hess and Coates.

885  G 3  Methods of Research in Health Education and Physical Education  
Su, W, Sp. 3 cl.  
Prereq.: 845.  
To develop some competency in professional writing and in the use of various research methods applied to health education and physical education. Fox, Mathews, and Morris.

994  G 3  Problems in Physical Education  
Advanced problems in physical education, individual or group participation.  
994.01 Recreation  
A.
Physical Therapy

(School of Allied Medical Professions)
Office: 306 School of Allied Medical Professions Building, 1583 Perry Street
Associate Professor Woods (Division Director); Professor E. Johnson; Associate Professors Burnett, Chase, and Downer; Assistant Professors Chidley and Pierson; Instructors Allen and Starks; Clinical Instructors Cotzin, Holland, D. Johnson, Tootle, and Trostmler.

480 U 3
Procedures I
A, W. 3 cl., 1 3-hr. lab.
Prereq.: Admission to Phys. Ther.
Not open to students with credit for 301 and 302.
Professional orientation; introduction to the hospital setting and patient care; principles and techniques of basic body mechanics; bandaging and therapeutic massage. Woods.

481 U 5
Procedures II
A, W. 4 cl., 2 2-hr. lab.
Prereq.: 480, or 301 and 302.
Not open to students with credit for 402 and 416.
Agents used in physical therapy: mechanical and physical properties; therapeutic applications and physiological effects related to patients. Downer.

482 U 3
Procedures III
Sp. 1 cl., 2 2-hr. lab.
Prereq.: 481, or 402 and 416 or admission to Oc. Ther.
Not open to students with credit for 303.
Evaluation techniques and their usage in physical therapy, posture evaluation, goniometric range of motion recordings, manual muscle testing, functional tests and measurements. Downer.

495 U 3
Medical Kinesiology
W. 2 cl., 1 2-hr. lab.
Prereq.: Admission to School of Allied Medical Professions and permission of instructor.
Not open to students with credit for 303 or 304.
Biomechanics and pathomechanics in the analysis of human motion; emphasis on clinical relationships. Burnett.

521 U 2 or 3
Medical Science I
A. 2 or 3 cl.
Prereq.: Admission to School of Allied Medical Professions.
Principles, clinical aspects, and therapeutic procedures related to selected medical specialties.

522 U 2 or 3
Medical Science II
W. 2 or 3 cl.
Prereq.: Admission to School of Allied Medical Professions.
Lectures and clinical presentations giving an orientation to signs, symptoms, and therapeutic management of patients in related medical science fields. Chidley.
541 U 4
Therapeutic Exercise I
A. 3 cl., 2 2-hr. lab.
Prereq.: Admission to Phys. Ther.
Not open to students with credit for 310.
Basic principles and techniques of therapeutic exercise related to physical and medical sciences.

542 U 4
Therapeutic Exercise II
W. 3 cl., 2 2-hr. lab.
Prereq.: Permission of instructor.
Not open to students with credit for 407.
Rehabilitation procedures for maximum restoration of the disabled; functional relationships and principles associated with functional exercise and specialized equipment. Pierson.

543 U 4
Therapeutic Exercise III
Sp. 3 cl., 2 2-hr. lab.
Prereq.: Permission of instructor.
Not open to students with credit for 405.
Theory and technique of exercise for the neurologically handicapped with carry-over into all areas of disability; integration and correlation of therapeutic exercise approaches. Chidley.

558 U 3
Physical Therapy Clinical Coordination
W. 2 cl., 2 2-hr. lab.
Prereq.: 542 or 407.
Not open to students with credit for 485.
Coordination and summary practice of all physical therapy procedures, being determined by the patient diagnosis and medical prescriptions; treatment, records, charts, methods of evaluating and reporting, and clinical affiliation planning. Pierson.

588 U 5
Professional Administration in Physical Therapy
Sp. 3 cl., 2 2-hr. lab.
Prereq.: Permission of instructor.
Integration of theory and professional practice involving administration and supervision skills including interpersonal relationship concepts, oral and written communication analysis, and professional responsibilities and introductory research. Woods.

595 U 1-3
Seminar
Prereq.: Permission of instructor.
Not open to students with credit for 485.
Repeatable to a maximum of 9 cr. hrs.
Conference, group discussions, and presentations of selected topics. Staff.

597 U 6
Clinical Education
Su, A, W, Sp. 8 hrs. per day; 5 days per wk. for 3 months.
Prereq.: Permission of instructor and completion of all required physical therapy professional courses in the curriculum.
Clinical experience in the application of physical therapy techniques under supervision of physical therapists in hospital, community, and other selected facilities. Pierson.

Physics
Office: 1012 Alpheus Smith Laboratory of Physics, 174 West 10th Avenue
Professors Jossem (Chairman), Årns, Bell, Brown, Dickey, Edwards, Gaines, Hausman, Heer, Jastram, Korringa, Lande (Emeritus), Mills, Nelson, Nielsen, Pool (Emeritus), Prebus, Rao, Reibel, Seamanowski, Shaffer, Shaw, Tanaka, Wada, Wigen, and Yaqub; Associate Professors Blatt, Donoghue, Erickson, Harris, Kim, Kurbatov (Emeritus), Mulligan, Ptcouge, Reay, Riley, Seyler, Tough, and Yang; Assistant Professors Brim (Lima), Ebner, Garland, Hopps, Palmer, Plummer (Newark), Saam, Schwartz, Scott (Mansfield), Stanton, and Stroud.

100 U 5
Physics and Man
Repeatable to a maximum of 10 cr. hrs. with permission of Department.
An introduction to the physics of the world of everyday experience through the study of selected topics.

101 U 5
Nature of the Physical World
A, Sp. 4 cl., 1 2-hr. lab.
An elementary description of the physical world emphasizing scientific method and contemporary viewpoints; laboratory work and demonstrations.

102 U 5
Nature of the Physical World
W. 4 cl., 1 2-hr. lab.
Prereq.: 101.
Continuation of 101.

111 U 5
General Physics: Mechanics and Heat
Su, A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: Eligibility for Math. 150.

112 U 5
General Physics: Electricity, Magnetism, and Light
Su, A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: 111.

113 U 5
General Physics: Modern Physics
Su, A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: 112.

131 U 5
Introductory Physics: Particles, Motion
A, W, Sp. 5 cl., 1 2-hr. lab.
H131 (Honors) may be available to students enrolled in a college Honors Program or by permission of Dept.
Prereq.: 1 entrance unit of physics or chem.; Prereq. or concur. Math. 151.
Not open to students with credit for 231.
A presentation of the major concepts of physics from a contemporary point of view, for students majoring in physical sciences, mathematics, or engineering.
132 U 5
Introductory Physics: Waves, Quanta
Su, A, W, Sp. 5 cl., 1 2-hr. lab.
H132 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept.
Prereq.: 131 and Math. 151; prereq. or concur. Math 152.
Not open to students with credit for 232.
Continuation of 131.

133 U 5
Introductory Physics: Particle Systems, Electrodynamics
Su, A, W, Sp. 5 cl., 1 2-hr. lab.
H133 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept.
Prereq.: 132 and Math. 152; prereq. or concur. Math. 153, or permission of instructor.
Not open to students with credit for 233.
Continuation of 132.

194 U 1-6
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Course designed to permit groups of students the opportunity to pursue special studies not otherwise offered.

241 U 3
Physical Phenomena
A, Sp. 3 cl.
Prereq.: 133 or equiv.; Math. 153; prereq. or concur. Math. 254.
Not open to students with credit for 541.
A study of gases, liquids, and solids illustrating the connection between measurements (mechanical, macroscopic) and models (statistical, microscopic) of the properties of matter in bulk.

251 U 3
The Development of Quantum Physics
Su, A, W, Sp. 3 cl.
Prereq.: 133 or equiv.; Math. 153; prereq. or concur. Math. 254.
Not open to students with credit for 551 or 580.01.
Quantum physics, introduced through a study, in historical perspective, of the crucial ideas and experiments that led to the modern conception of the atom.

435 U 3
Intermediate Geometrical Optics
W. 3 cl.
For optometry students.
Ray optics of thick lenses, mirrors, prisms, and their combination; apertures and aberrations.

436 U 3
Intermediate Physical Optics
Sp. 3 cl.
For optometry students.
Wave theory of optical phenomena; applications.

437 U 2
Geometrical Optics Laboratory
W. 1 4-hr. lab.
Prereq. or concur.: 435 or 535.
For optometry students.
Selected experiments in geometrical optics.

438 U 2
Physical Optics Laboratory
Sp. 1 4-hr. lab.
Prereq. or concur.: 436 or 636.
For optometry students.
Selected experiments in physical optics.

501 U G 3
Descriptive Acoustics
A. 3 cl.
Prereq.: Junior standing in music, speech communication, science education or permission of instructor.
Not open to physics majors.
Descriptive non-mathematical treatment of acoustics with applications to music and speech including sources, propagation, reception, characteristics of sound; room acoustics; hearing; apparatus.

503 U G 5
General Meteorology
Sp.
Prereq.: Either 111, 131, or permission of instructor.
Not open to students with credit for 120.
A description of weather phenomena and the physical processes underlying them; intended primarily for nonphysics majors.

516 U G 4
Intermediate Physics Laboratory
Su, A, W, Sp. 2 3-hr. labs.
Prereq.: 113 or 133 or permission of instructor.
Not open for grad. credit to students majoring in physics.
Repeatable to a maximum of 12 cr. hrs.
Selected intermediate level experiments from basic areas of physics.

525 U G 4
Dynamical Models I
Su, A. Sp. 4 cl.
Prereq.: 133 and Math. 255 or equiv.
Not open to students with credit for 521.
Dynamical models of particle motion; behavior of linear systems; periodic and transient phenomena in mechanical and electrical systems; central force problems; frames of reference.

555 U G 4
Fields and Waves I
W. 4 cl.
Prereq.: 525 or equiv. prereq. or concur. Math. 551.
Not open to students with credit for 531.
Introduction to the description of electrostatic fields; dielectrics; boundary-value problems.
580 U G 3
Topics in Physics
Su, A, W, Sp. 3 cl.
Prereq.: 525 or permission of instructor.
Introductory treatment of phenomena and elementary theory of contemporary areas of physics.

580.01 Introduction to Modern Physics
A, Sp.
Not open to students with credit for 251, 472, 551, or 705.

580.05 Introduction to Nuclear Physics
A, Sp.
Prereq.: 580.01 or permission of instructor. Not open to students with credit for 571.

580.06 Introduction to Solid State Physics
Sp.
Prereq.: 580.01 or permission of instructor. Not open to students with credit for 661.

590.11 Physics of the Upper Atmosphere
A.
Prereq: 580.01 or permission of instructor. Not open to students with credit for 651.

590.20 Special Topics
Prereq.: 580.01 or permission of instructor. Repeatable to a maximum of 9 cr. hrs.

593 U G 2-5
Individual Studies in Physics
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.
Independent reading, study, or laboratory work at an intermediate level.

594 U G 1-6
Group Studies
Prereq.: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.
Intermediate level group studies on special topics.

595 U 1
Seminar
Prereq.: 131, 132, 133, and Math. 254 or equiv.
Discussion of special topics with student participation in the presentation of material.

616 U G 4
Advanced Physics Laboratory
Su, A, W, Sp. 2 3-hr., labs.
Prereq.: 241, 251, 525, 555; or permission of instructor. Repeatable to a maximum of 24 cr. hrs.
Experiments selected from all areas of physics; independent work emphasized.

617 U G 5
Electronics for Physicists
A, W, Sp. 2 cl., 2 3-hr. labs.
Prereq.: 525.
An intensive introduction to electronic circuits, devices, and instrumentation with emphasis on laboratory experience.

626 U G 4
Dynamical Models II
Su, W. 4 cl.
Prereq.: 526; permission or concurrent Math. 551.
Not open to students with credit for 621.
Continuation of 526 with development of generalized coordinate representations and equations of motion; systems of particles; coupled systems; wave dynamics.

627 U G 4
Dynamical Models III
Sp. 4 cl.
Prereq.: 626 and Math. 551.
Continuation of 626 with emphasis on systems of particles; classical statistical mechanics and kinetic theory.

656 U G 4
Fields and Waves II
Sp. 4 cl.
Prereq.: 555 or equiv.
Continuation of 555; magnetic fields of steady currents; induction; Maxwell’s equations; plane waves; special relativity.

657 U G 4
Fields and Waves III
A. 4 cl.
Prereq.: 656 or equiv.
Not open to students with credit for 636.
Continuation of 656; plane waves in matter; physical optics; coherence, interference, diffraction, and dispersion.

670 U G 1-15
Physics for In-Service Teachers
Prereq.: 15 cr. hrs. of Physics and teaching experience; permission of instructor.
Intended for secondary school science teachers.
Repeatable to a maximum of 30 cr. hrs.
A course to deepen teachers' understanding of basic physical concepts and methods of treatment of selected topics; includes lectures, discussions, demonstrations, and individualized laboratory work.

693 U G 1-15
Individual Studies
Prereq.: Satisfactory advanced courses in experimental and theoretical physics and permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
A course designed to give a properly qualified student opportunity for independent reading, study, or laboratory work in a specialized field of interest.

694 U G 1-6
Group Studies
Prereq.: Satisfactory advanced courses in experimental and theoretical physics and permission of instructor.
Repeatable to a maximum 15 cr. hrs.
Gives groups of students an opportunity to pursue special studies not otherwise offered.
705 U G 4 Structure of Matter I
Su, A. 4 cl.
Prereq.: 251, 626, 656, or equiv. and Math. 256 and 263, or equiv.
Not open to students with credit for 727.
Quantum phenomenology; Schrodinger formulation of quantum mechanics; applications to simple systems; one-electron atoms.

706 U G 4 Structure of Matter II
W. 4 cl.
Prereq.: 705 or equiv.
Not open to students with credit for 726.
Continuation of 705: magnetic moments and spin; identical particles; many-electron atoms; molecular structure and spectra.

707 U G 4 Structure of Matter III
Sp. 4 cl.
Prereq.: 706 or equiv.
Continuation of 706: quantum statistics; band theory of solids; interaction of radiation with matter; nuclear and elementary-particle physics.

735 U G 3 Electromagnetic Theory of Light
Sp. 3 cl.
Prereq.: Permission of instructor.
Mathematical treatment of physical optics.

743 U G 4 Thermodynamics
A. 4 cl.
Prereq.: 241 and 627 or equiv.
Modern treatment of topics in physical thermodynamics including entropy, specific heats, third law, and change of phase.

780 U G 3 Topics in Contemporary Physics
Su, A, W, Sp. 3 cl.
Prereq.: 705 or permission of instructor.
Experimental and theoretical aspects of areas of current interest in physics.

780.01 Atomic Spectra and Structure
Not open to students with credit for 751.

780.02 Elementary Particles
Sp.

780.03 Low-Temperature Physics
Not open to students with credit for 744.

780.04 Molecular Spectra and Structure
W.
Not open to students with credit for 757.

780.05 Nuclear Physics
Sp.
Not open to students with credit for 771.

780.06 Solid State
A.
Not open to students with credit for 761.

780.07 Plasma Physics
A.
Not open to students with credit for 775.

780.09† X-ray Physics
Not open to students with credit for 753.

780.20† Special Topics

785 U G 1 Special Topics Seminar
A, W.
Prereq. or concur.: 705.
Repeatable to a maximum of 3 cr. hrs.
A survey of current research problems in physics.

801 G 1 Seminar in Physics
Prereq.: Acceptable specialized courses and permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Seminars will be conducted by various members of the staff on topics of current interest in their fields of specialization; students will participate in the presentation and discussion of material.

816 G 3-6 Topics in Physics
Prereq.: 616 or equiv. and permission of instructor.
Laboratory and/or theoretical work on an individual basis on topics of current interest.

821 G 4 Advanced Dynamics I
A. 4 cl.
Prereq.: 626 or permission of instructor.
Generalized coordinates, Lagrange's equations, variational principles, linear transformation theory, normal coordinates, small oscillations, Hamilton's equations, and canonical transformations.

822 G 4 Advanced Dynamics II
W. 4 cl.
Prereq.: 821.
Hamilton-Jacobi theory, tensor algebra and analysis, dynamics of classical fields, elasticity, and hydrodynamics.

827 G 5 Quantum Mechanics I
A. 5 cl.
Prereq.: 706 or permission of instructor.
Systematic treatment of wave mechanics; symmetries and conservation laws, eigenvalues and eigenfunctions of linear operators, separation of variables: soluble examples, central field problem, angular momentum.

828 G 5 Quantum Mechanics II
W. 5 cl.
Prereq.: 827.
Theory of scattering, Born approximation; stationary state perturbation theory, WKB approximation, variational method and applications; linear vector spaces, transformations, symmetries.

828 G 5
Quantum Mechanics III
Sp. 5 cl.
Prereq.: 828.
Time dependent perturbations; applications to scattering and electromagnetic transitions; Pauli spin theory; applications to hydrogen; addition of angular momenta; reflections in space and time.

830 G 4
Quantum Mechanics IV
A. 4 cl.
Prereq.: 830.
Systems with several electrons, exclusion principle; applications to atoms and molecules, and to scattering; Hartree-Fock approximation; Dirac equation for free electrons and for hydrogen.

831 G 4
Advanced Quantum Mechanics
W. 4 cl.
Prereq.: 830.
Symmetry groups; Lorentz transformations; field quantization; S-matrix theory; general perturbation theory.

834 G 4
Electromagnetic Field Theory I
A. 4 cl.
Prereq.: 656 or equiv.
Static electric fields, static and stationary magnetic fields, dielectrics, magnetized bodies; boundary value problems, vector and scalar potential functions; and energy in electric and magnetic fields.

835 G 4
Electromagnetic Field Theory II
W. 4 cl.
Prereq.: 834 or permission of instructor.
Maxwell's equations, gauge transformations; superposition, polarization, dispersion and refraction of plane electromagnetic waves; special relativity, covariant formulation of particles and fields, and conservation laws.

836 G 4
Electromagnetic Field Theory III
Sp. 4 cl.
Prereq.: 835 or permission of instructor.
Radiating systems and diffraction; radiation by moving charges, bremstrahlung; multipole fields, radiation damping, and scattering and absorption of charged particles.

847 G 4
Statistical Mechanics I
W. 4 cl.
Prereq.: 743, 767 or 828 or permission of instructor.
Ensembles in classical and quantum statistical mechanics; density matrix, degenerate Fermi gas; Debye theory of specific heat; black-body radiation; Bose-Einstein condensation.

848 G 4
Statistical Mechanics II
Sp. 4 cl.
Prereq.: 847.
Cluster and virial expansions; phase transitions; Boltzmann equation and H theorem; transport coefficients; fluctuations and Brownian motion; Onsager relations.

880 G 3
Advanced Topics
A, W, Sp. 3 cl.
Prereq.: 828 or permission of instructor.
Repeatable to a maximum of 9 cr. hrs. in each decimal subdivision.
A systematic advanced treatment of areas of current interest in physics; topics will be announced each quarter.

999 G Arr.
Research in Physics
Research for thesis or dissertation purposes only.

Physiological Chemistry

Office: 5170 Graves Hall, 333 West 10th Avenue

Professors Cornwell (Chairman), Allen, Brierley, Devor, Frajola, Kruger, Morral, Richardson, Sprecher, and Wikoff (Emeritus); Associate Professors Alben, Gruener, Horrocks, Newman, Nuenke, Rieske, and Webb; Assistant Professors Addanl, Boggs, Clendenon, Eyring, Griesen, Klapper, Matthews, Mayer, Mekhijian, Och, Pangaramals, and Scott.

311 U 4
Physiological Chemistry
A. 4 cl.
Prereq.: Chem. 102 or 122 and enrollment or intended enrollment in a program of the School of Allied Medical Professions.
Human biochemistry with emphasis on metabolism and applications to clinical chemistry and human nutrition; pertinent organic chemistry will be included. Devor and Staff.

312 U 4
Physiological Chemistry
W. 4 cl.
Prereq.: 311.
A continuation of 311. Devor and Staff.
611 U G 3
Physiological Chemistry
W. 3 cl.
Prereq.: Chem. 242, 244, or 253, 254 or equiv. Open to undergraduates with permission of instructor. (Course designed primarily for grad. students in medical and biological sciences.) Chemistry and metabolism of carbohydrates, proteins, lipids, and nucleic acids; basic principles of enzymes, control mechanisms, digestion and absorption. Merola, Sprecher, and Staff.

612 U G 3
Physiological Chemistry
Sp. 3 cl.
Prereq.: 611. Merola, Sprecher, and Staff.

613 U G 3
Physiological Chemistry Laboratory
Sp. 1 cl., 2 3-hr. lab.
Prereq.: One ctr. of general biochem. or physiol. chem. Laboratory experiments illustrating principles of biochemistry and acquainting the students with the major experimental techniques of current biochemistry. Rieske and Staff.

636 U G 3
Quantitative Problems in Biochemistry
W. 3 cl.
Prereq.: Elementary physical chemistry and biochemistry, or permission of instructor. Application of elementary physical chemical concepts to the quantitative analysis of biochemical data. Rieske.

641 P 4
Dental Biochemistry
Su. 3 cl., 1 conf.
Prereq.: Enrollment in the College of Dentistry, Chem. 241, 244, and either Chem. 243, 244, or Chem. 245, 246. Chemistry and metabolism of carbohydrates, lipids, and proteins; digestion and absorption; elements of nutrition as they relate to dentistry, especially mineral and bone metabolism. Scott and Staff.

642 P 4
Dental Biochemistry
A. 3 cl., 1 conf.
Prereq.: 641 and enrollment in the College of Dentistry. Continuation of 641. Scott and Staff.

701 P 6
A Biochemical Approach to the Study of Disease
1 month, offered Jan. and May.
Prereq.: Permission of instructor. Subcellular organization, model systems in disease, injury and inflammation, toxic agents, deficiency states, genes, enzymes and disease, biochemical changes in growth.

705 U G 5
General Biological Chemistry
A. 3 cl.
Prereq.: Chem. 246, 244 or 253, 254 or equiv. Physical chem. background of kinetics and thermodynamics, or permission of instructor. Not open to students with credit for Biochem. 611 or 705. (Cross-listed in Biochemistry and Molecular Biology as Biochem. 705.) An intensive treatment of modern biochemistry; protein structure, enzyme catalyzed reactions, chemistry and metabolism of carbohydrates. Cornwell, Serif, and Interdepartmental Staff.

707 U G 5
General Biological Chemistry
W. 3 cl.
Prereq.: 705 or Biochem. 705.
Not open to students with credit for Biochem. 707. (Cross-listed in Biochemistry and Molecular Biology as Biochem. 707.) An intensive treatment of modern biochemistry; energy utilization and electron transport, photosynthesis, membranes and lipid metabolism. Cornwell, Serif, and Interdepartmental Staff.

709 U G 5
General Biological Chemistry
Sp. 3 cl.
Prereq.: 707 or Biochem. 707.
Not open to students with credit for Biochem. 709. (Cross-listed in Biochemistry and Molecular Biology as Biochem. 709.) An intensive treatment of modern biochemistry; intermediary metabolism of amino acids, proteins, and nucleic acids. Cornwell, Serif, and Interdepartmental Staff.

793 P 6, 12, or 18 G 2-15
Individual Studies in Physiological Chemistry
3 or 4 months; offered all months.
Prereq.: 612 or equiv. and permission of instructor, instructor.
Repeatable to a maximum of 15 cr. hrs. for grad credit; must repeat to 18 or 24 cr. hrs. for professional credit. Qualified students may avail themselves of the facilities of the department for conducting a minor investigation under the direction of a senior staff member.

821+ G 3
Physical Biochemistry of Proteins
A. 3 cl.
Prereq.: 709 or equiv., or permission of instructor. Protein structure (primary, secondary, tertiary, and quaternary) in the crystal state and in solution and their relationship to function. Alben.

821* G 3
Bioenergetics
W. 3 cl.
Prereq.: 709 or equiv., or permission of instructor. Flow of energy in biological systems, photosynthesis, oxidative phosphorylation, methods of studying mitochondria, chloroplasts, and other organelles. Brierey.
823*  G 3
Metabolic Control Mechanisms
A.  3 cl.
Prereq.: 709 or equiv., or permission of instructor.
Biochemistry of nucleic acids and the genetic code; protein biosynthesis and its control; control of
enzymatic reactions and metabolic pathways. Webb.

824*  G 3
Enzymology
Sp.  3 cl.
Prereq.: 709 or equiv., or permission of instructor.
Selected topics in structure/function relationships,
mechanisms of catalysis, kinetics, and metabolic
inter-relations of enzyme systems. Richardson.

825*  G 3
Neurochemistry
W.  3 cl.
Prereq.: 709 or equiv., or permission of instructor.
Biochemistry and metabolism of the nervous system
with discussion of synapnic transmission, memory
theories, genetic defects, and associated diseases.
Horrocks.

826*  G 3
Membranes and Membrane Models
Sp.  3 cl.
Prereq.: 709 or equiv., or permission of instructor.
Discussion of the composition, biosynthesis, structure,
function, and turnover of membranes, emphasizing the
role which lipids play in maintaining membrane
function. Cornwell.

830  G 3
Physical Methods in Biochemistry
W.  2 cl., 1 3-hr. lab.
Prereq.: 821, physical chemistry, or permission of
instructor.
A practical and theoretical introduction to the use of
the analytical ultracentrifuge, Tiselius electrophoresis,
spectroscopy, chromatography and radioisotopes.
Alben.

835  G 3
Biochemical Preparations and Techniques
A.  9 hrs. cont. and lab.
Prereq.: 821; prereq. or concur. 822.
Advanced course in biochemical preparations and
laboratory techniques; isolation of carbohydrates,
lipids, proteins, enzymes, and hormones.

850  G 1
Seminar
Prereq. or concur.: 611, or equiv.
Repeatable to a maximum of 9 cr. hrs.
Required of all grad. students majoring in physiol.
chem.
Cornwell and Staff.

855  G 2
Seminar in Physiological Chemistry
Repeatable to a maximum of 8 cr. hrs.
Topic to be announced.

898  G 1
Interdepartmental Seminar in Nutrition
and Food Technology
Sp.
(See Interdepartmental Seminars, Course Offerings catalog.)

999  G Arr.
Research in Physiological Chemistry
Research for thesis or dissertation purposes only.

Physiological Optics
Office: 111 Optometry Building, 338 West 30th Avenue
Professors Hebbard (Chairman), Blackwell, Fry, and
Hill; Associate Professors Bailey, J. King, Mote, and
Smith; Assistant Professors Carife, Fugate, Haines
(Emeritus), Ingling, Jones, V. King, Lowther, Saladin,
Schoessler, and Zinner; Instructors Augsburger,
Polasky, Reardon, N. Un汚ecke, and Young.

511  U P G 5
Introduction to Physiological Optics I
Sp.  4 cl., 1 2-hr. lab.
Not for grad. credit to students majoring in Physiol.
Opt. The eye as an optical instrument; the refracting
mechanism; the mechanism of accommodation
and pupillary contraction; blur of the retinal image;
stray light in the eye.

512  U P G 5
Introduction to Physiological Optics II
A.  4 cl., 1 2-hr. lab.
Prereq.: 511.
Not for grad. credit to students majoring in physiol.
opt. The motility of the eye; the structure and innervation
of the extraocular muscles; the center of rotation;
and analysis and description of eye movements.

520  U P G 4
Measurement and Specification of Visual Stimuli
A.  3 cl., 1 2-hr. lab.
Not for grad. credit to students majoring in physiol.
opt. Light sources; diffusely transmitting and reflecting
surfaces and scattering of light by a medium;
principles of photometry and colorimetry as applied
to visual stimuli.

531  U P 5
Basic Human Anatomy
A.  3 cl., 2 2-hr. lab.
Prereq.: Optom. 1st yr. standing or major in physiol.
opt. Basic human developmental, neural, and gross
anatomy, using models and films, supplemented with
animal demonstrations.
Microscopic Anatomy
W. 3 cl., 2 2-hr. lab.
Prereq.: Optom 1st yr. standing or major in physiol. opt.
Microscopic anatomy of cells and tissues, and special histology of the organ systems.

Anatomy of the Eye
Sp. 3 cl., 2 2-hr. lab.
Prereq.: 1st yr. Optom. or Zool. 530 and permission of instructor.
Human gross anatomy of the head and neck with special emphasis on the eye and orbit; histology and embryology of the eye and associated structures.

Intermediate Physiological Optics I
W. 4 cl., 1 2-hr. lab.
Prereq.: 512.
Monocular sensory mechanisms of vision; analysis and specification of visual stimuli; photoreception and retinocortical transmission; adaptation of photoreceptors; flicker; brightness discrimination; and color-vision.

Intermediate Physiological Optics II
W. 3 cl.
Prereq.: 512.
Circulation and metabolism of the eye; intra-ocular pressure; lacrimal system; movements and functions of the eyelids.

Intermediate Studies in Physiological Optics
Prereq.: Permission of dept. chairman.
Repeatable to a maximum of 15 cr. hrs.
A properly qualified student may perform a minor investigation or add to his knowledge and technique.

Intermediate Physiological Optics III
Sp. 4 cl., 1 2-hr. lab.
Prereq.: Optom. 2nd yr. standing and 613.
Projection of visual impressions; the horopter, retinal correspondence; binocular integration of hue and brilliance.

Intermediate Physiological Optics IV
W. 3 cl., 1 2-hr. lab.
Prereq.: 715.
Visual perception of color, illumination, figure-ground relations, size, shape, direction, distance, motion, time, and complex patterns.

Principles of Lighting
W. 4 cl., 1 2-hr. lab.
Prereq.: 716.
The effect of the distribution of light in a given environment upon efficiency, comfort, and safety; selection and arrangement of sources and light control.

Vision in Industry
Sp. 5 cl.
Prereq.: 730.
Visual testing in industry; relation of vision to performing a task; visual requirements for licenses; eye hazards and protection; compensation for loss of vision.

Vision in Schools
A. 3 cl., 6 hr. lab.
Prereq.: 730.
Visual survey methods; the prevalence of visual anomalies and eye diseases in children; basic visual skills required in school and methods for their improvement.

Seminar
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
A series of seminars dealing with new developments in the various phases of physiological optics.

Advanced Physiological Optics I
A. 3 cl., 2 2-hr. lab.
Prereq.: 801.
The ocular image-forming mechanism; accommodation and pupil contraction, aberrations, stray light antoptic phenomena; shape, size, distortion; retinal illuminance and blur.

Advanced Physiological Optics II
W. 3 cl., 2 2-hr. lab.
Prereq.: 801.
Fixation disparity; photochemistry and electrophysiology of photo-receptors; luminosity; color-mixture; retinal-cortical transmission; simultaneous contrast; visibility; adaptation; after images.

Advanced Physiological Optics III
Sp. 3 cl., 2 2-hr. lab.
Prereq.: 802.
Binocular integration of hue and brilliance, fusional movements, fixation, retinal correspondence, visual perception of figure-ground relations, light, color, illumination, size, shape, direction, distance, and motion.

Image Evaluation
A. 5 cl.
Prereq.: 613, Physics 435, and 436.
An analysis of the causes of image impairment in the human eye and other optical systems; objective methods of assessing aberrations and blur; methods of image enhancement.

Mechanisms Subserving Color Vision
W. 5 cl.
Prereq.: 613
Theoretical basis for chromatic adaptation, chromatic contrast and induction, color blindness, and other color phenomena; theory of the laws of color mixture.

812  G 5
Advanced Neurophysiology of the Visual System
A. 4 cl., 1 2-hr. lab.
Prereq.: 613, 614, 715, and 716.
The coding and transmission of visual information in the direct and accessory pathways of vertebrates and invertebrates.

813  G 5
Advanced Physiology of the Eye
A. 4 cl., 1 2-hr. lab.
Prereq.: 613 and 614.
Recent developments in the respiration, metabolism, and mechanics of ocular tissues, and the aqueous dynamics of the eye.

815  G 5
Binocular Vision and Perception
W. 3 cl., 1 2-hr. lab.
Prereq.: 803.
Visual perception: direction, space, motion; perceptual adaptation; binocular vision and fusion.

829  G 5
Specification of Visual Stimuli
Su. 3 cl., 4 hr. lab.
Prereq.: 801 or permission of instructor.
Study of visual stimuli and apparatus to control parameters such as intensity, spectral composition, retinal location, and pupil size and location; calibration and practical application.

999  G Arr.
Research in Physiological Optics
Research for thesis or dissertation purposes only.

First of a two-quarter sequence covering the following areas of physiology: neuromuscular, heart and circulation, endocrine, brain and special senses, body fluids and kidney, respiration, digestion, temperature control, and metabolism.

312  U 5
Principles of Human Physiology II
Sp, W. 4 cl., 1 2-hr. lab.
Prereq.: 311 or permission of instructor.
Continuation of 311.

600  U G 4
Human Physiology for Bio-Medical Engineers
A. 4 cl.
Prereq.: Grad. standing in Bio-Medical Engineering; Open to selected 4th yr. Engr. students by permission of instructor.
An introduction to the functions of the major human organ systems and the medical aspects of engineering problems for bio-medical engineers.

601  U P G 5
Advanced Mammalian Physiology I
A. 4 cl., 1 lab.
Prereq.: Inorganic and organic chem., Physics 111, 112, 113 or equiv., and 1 yr. biological sciences, and permission of instructor for undergraduates.
Credit for 601 not given without 602; not for grad. credit to students majoring in physiol.; not open to students with credit for 516 or 517.
First of a two-quarter sequence presenting the following areas of physiology: neuromuscular, heart and circulation, endocrine, brain and special senses, body fluids and kidney, respiration, digestion, temperature control, and metabolism.

602  U P G 5
Advanced Mammalian Physiology II
W. 4 cl., 1 lab.
Prereq.: 601.
Not for grad. credit to students majoring in physiol.; not open to students with credit for 517.
Continuation of 601.

604  P G 6
Advanced Physiology
A. 5 cl., 1 3-hr. lab.
Prereq.: Dent. 2nd yr. standing.
The cardiovascular system including blood, neuromuscular system, body fluids, and excretion.

605  P G 5
Advanced Physiology
W. 5 cl., 1 lab.
Prereq.: Dent. 2nd yr. standing and 604 or equiv.
The central nervous system and special senses, respiration, digestion, metabolism, endocrinology, and reproduction; continuation of 604.

723  P G 5
Cellular and Comparative Physiology
A. 4 cl., 1 lab.
Prereq.: 1 yr. each of biol., physics, and organic chem., and permission of instructor.
Not open to students with credit for 623 or 823.
Interaction between cells and their environment at the microscopic, submicroscopic, and molecular levels; regulation and control of protoplasmic functions.
Lesser.

Physiology
Office: 4196 Graves Hall, 333 West 10th Avenue
Professors Little (Chairman), Angerer, Bozler (Emeritus), Brownell (Emeritus), Grubbs, Hiatt, LeBrie, Lesser, Myers, Nishikawa, Pieper, Smith, Stow, and Weiss; Associate Professors Beman, Billings, Grossie, Harrison, Furt, Lipetz, Lipsky, Matthews, Michal, and Pauli; Assistant Professors Allison, Blair, Delahayes, Hendrich, Holt, Noyes, and Yarpe.
For related courses see Biology.

311  U 5
Principles of Human Physiology I
A, W. 4 cl., 1 2-hr. lab.
Prereq.: 2 qtrs. Chem., Anat. 200 or equiv.; or permission of instructor.
Open only to students in College of Medicine or College of Pharmacy.
Credit not given for 311 without 312.
Advanced Cellular and General Physiology
Sp. 4 cl., Arr.
Prereq.: Biol. 101 or equiv., Physics 119 or equiv., 2 qtrs. Chem. 232 or equiv., Chem. 531 or equiv., permission of instructor.
Not open to students with credit for 628 or 828.
Current concepts of ultrastructures and their function in various protoplasmic systems: membrane phenomena; excitatory process; energy utilization in various kinds of cells. Angerer.

Advanced Cellular and General Physiology Laboratory
Sp. 2-3 hr. lab. arr.
Prereq. or concur.: 728.
Not open to students with credit for 628 or 828.
Techniques for the study and measurements of phenomena of cellular and general physiological interest and the application of physical and chemical principles to their interpretation. Angerer.

Endocrinology
Sp. 4 cl., 1 lab.
Prereq.: 311 and 312, organic chem. and permission of instructor.
Not open to students with credit for 630 and 830.
A study of functions of the thyroid, parathyroid, pituitary, adrenal, pancreas, gonads, and other organs with possible endocrine functions. Brownell, Nishikawa, and Staff.

Radiation Biophysics
A. 5 cl.
Prereq.: 1 yr. each of college biol., math., physics, and physiol. and Physiol. Chem. 601, 602 or 611, 612 or equiv., and permission of instructor.
Not open to students with credit for 646 or 846.
Stable and radioactive isotopes; biological effects of ionizing radiation. Myers.

Physical Instrumentation for Biologists
A. 1 cl., 2 3-hr. lab.
Prereq.: 1 yr. college biology and physics or permission of instructor.
Not open to students with credit for 848.
Basic concepts in semiconductor electronics; representative small signal; digital, and integrated circuits, input and output transducers, recording, storage and elementary information processing techniques are studied in the laboratory; emphasis is on representative examples rather than on a comprehensive survey of instruments. Stow.

Individual Studies in Physiology
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Reading, conferences, laboratory work by individual arrangement with qualified students who desire more intensive and specialized study than is available in other courses.

Topics in Physiological Research
A. 2 cl.
Prereq.: Grad 1st yr. standing in physiol. or permission of instructor.
Formal lectures and demonstrations from the graduate faculty of Physiology describing their areas of research interest, explaining the relationship of these areas to the subject matter of physiology and pointing out their pertinence to current frontiers in physiology.

Advanced Physiology of Organ Systems I
A. 4 cl., 1 lab.
Prereq.: Inorganic and organic chem., Physics 111, 112, 113 or equiv., 1 yr. of biological sciences, or permission of dept. chairman.
Not open to students with credit for 601-602, or 825-826.
First of a three-quarter sequence presenting an intensive treatment of mammalian organ systems: the cell, the membrane, neuromuscular system, central nervous system, and sense organs.

Advanced Physiology of Organ Systems II
W. 4 cl., 1 lab.
Prereq.: 835.
Not open to students with credit for 601-602, or 825-826.
Continuation of 835: blood, cardiovascular system, fluid compartments, kidney, and temperature regulation.

Advanced Physiology of Organ Systems III
Sp. 4 cl., 1 lab.
Prereq.: 836.
Not open to students with credit for 601-602, or 825-826.
Continuation of 836: respiration, acid-base balance, digestion, metabolism, endocrines, and reproduction.
Plant Pathology

Office: 210 Botany and Zoology Building, 1735 Neil Avenue

Professors: Deep (Chairman), Ellett, Janson, Leben, Parryka, Schmittthenner, Williams (Associate Chairman, Wooster), and Wilson; Associate Professors Bradfute, Garraway, Gordon, Herr, Holtink, Louie, Porter, and Troxel; Assistant Professors Farney, Gingerly, Jones, Larsen, Miller, Muse, Powell, Riedel, and Weidensaul.

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400

Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 50 cr. hrs. in college courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-399.

401 U 5

General Plant Pathology

A, Sp. 3 cr., 2 2-hr. lab.
Prereq.: Bot. 102.

Not open to students with credit for 401. An introduction to diseases of plants. Deep, Larsen, and Troxel.

GENERAL PREREQUISITES FOR COURSES NUMBERED 600

Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher, in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

610 U G 3

Diseases of Ornamentals

W. 1 1-hr. cl., 2 2-hr. lab.
Prereq.: 401.

Not open to students with credit for 471. A detailed study of important diseases of floral and woody ornamental plants; their cause, distribution, severity, importance, and specific control measure. Ellett.

615 U G 3

Economic Plant Pathology

A. 2 2-hr. cl.
Prereq.: 401 or equiv.

Not open to students with credit for 671, 672, or 675. Major diseases of field, fruit, and vegetable crops with emphasis on etiology, epidemiology, and control. Riedel.

615.01+ Fruit and Vegetable Crop Diseases
615.02+ Field Crop Diseases

685 U G 2

Field Plant Pathology

Su. 1 4-hr. cl. arr.
Prereq.: 401 or 615, and permission of instructor.

Study of plant diseases in the field with emphasis on diagnosis and epidemiology; supplementary laboratory work. Ellett.
Individual Studies
Su, A. W., Sp.
H693 may be available to students enrolled in a college Honors Program or eligible for enrollment.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Problems may be selected in the various areas of plant pathology.

Group Studies
Su, A. W., Sp.
Prereq.: Senior or grad. standing.
Repeatable to a maximum of 10 cr. hrs.
Special group studies of a selected area in plant pathology not provided in other courses.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

Principles: Bacterial, Fungal, and Nematode Diseases
A. 3 cl
Prereq.: 401 or 615, Bot. 660, and Microbiol. 607.
Principles of plant pathology based on an understanding of pathogen structure, growth, and reproduction. Ellert.

Principles: Epidemiology and Control
W. 3 cl.
Prereq.: 401 or 615, Bot. 660, and Microbiol. 607.
Influence of environment on plant disease; principles of plant disease control. Larsen.

Principles: Virology, Physiology of Parasitism
Sp. 3 cl, 2 2-hr. lab.
Prereq.: 401 or 615, Bot. 631, and 10 cr. hrs. organic chem. or biochem.
Principles of plant virology; physiological interactions between the host plant and pathogen. Garraway.

Philosophy of Plant Pathology
W. 2 2-hr. cl.
Prereq.: 821, 822, and 823.
Not open to students with credit for 871.
Philosophy and principles which underlie the study of plant disease with reference to the basic factors governing initiation and development of disease and host-parasite relationships. Allison.

Physiology of Parasitism
W. 3 cl, 2 2-hr. lab.
Prereq.: 823, Bot. 634, and Biochem. 511 and 521.
Analysis of physiological and biochemical processes associated with penetration, development of host-parasite relations, and disease development; molecular basis for disease resistance. Garraway.

Bacterial Plant Pathogens
Sp. 2 cl, 1 2-hr. lab.
Prereq.: 401, Microbiol. 607, and 25 additional cr. hrs. biological sciences.
Not open to students with credit for 872.
Representative types of bacterial plant diseases and factors affecting their control, severity, distribution, and economic importance; methods used in studying plant pathogenic bacteria. Larsen.

Plant Virology
Sp. 2 cl, 1 2-hr. lab.
Prereq.: 821 and 822.
Not open to students with credit for 873.
Biology and chemistry of plant viruses; epidemiology and host-virus-vector interactions; methods used in studying plant viruses. Gordon and Troxel.

Plant Nematology
A. 2 cl, 2 2-hr. lab., several field trips.
Prereq.: 821 and 822.
Not open to students with credit for 874.
Bionomics and taxonomy of nematodes which cause plant diseases; host-parasite interactions; methods used in studying plant parasitic nematodes. Riedel.

Physiology of Fungi
(See Botany 861.)
(Offered in cooperation with the Department of Botany)

Interdepartmental Seminar in Natural Sciences
Repeatable to a maximum of 9 cr. hrs.
(See under Interdepartmental Seminars.)

Interdepartmental Seminar in Nutrition and Food Technology
Sp.
Repeatable to a maximum of 9 cr. hrs.
(See under Interdepartmental Seminars.)

Seminar
Prereq.: Permission of instructor.
Repeatable.
Deep.

Research
Su, A. W. Sp.
Research for thesis or dissertation purposes only.
Polish

Office: 204 Dieter Cunz Hall of Languages, 1841 Millikin Road

Associate Professor Krzyzanowski.

601†*  U  G  4
Polish
A.  3 cl., 2 hr. arr.
Prereq.: Russ. 103, or 112, or permission of instructor.

602†*  U  G  4
Polish
W.  3 cl., 2 hr. arr.
Prereq.: 601.

603†*  U  G  4
Polish
Sp.  3 cl., 2 hr. arr.
Prereq.: 602.

604†  U  G  3
Intermediate Polish
A.  3 cl.
Prereq.: 603 or equiv.

605*  U  G  3
Intermediate Polish
W.  3 cl.
Prereq.: 604 or permission of instructor.
Reading texts of moderate difficulty, conversation, and simple compositions.

606*  U  G  3
Intermediate Polish
Sp.  3 cl.
Prereq.: 605 or permission of instructor.
Reading from modern Polish literature, practice in writing and speaking.

620*  U  G  5
Polish Literature in English Translation
A.  3 cl.
Polish literature from the Medieval Period to 1864; the Medieval period, Renaissance, Baroque; Classicism, Romanticism; emphasis on Kochanowski, Mickiewicz, Slowacki, Krasiński, and Norwed. Krzyzanowski.

621*  U  G  5
Polish Literature in English Translation
W.  3 cl.
Modern Polish literature from 1864 to the present; emphasis on Positivism, Realism, and Symbolism; novels of Prus, Sienkiewicz, Zeromski, and Reymont. Krzyzanowski.

693  U  G  2-10
Individual Studies
Prereq.: Permission of dept. chairman.
Each decimal subdivision repeatable to a maximum of 20 cr. hrs.
693.01 Literature to 1820
693.02 Literature 1820-1860
693.03 Literature after 1860
693.04 Morphology
693.05 Phonology
693.06 Dialectology
693.07 Old Polish
693.08 Unspecified

694  U  G  2-10
Group Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 15 cr. hrs.

722*  U  G  5
Contemporary Polish Literature
Sp.  3 cl.
Prose and poetry since 1945; emphasis on Borowski, Brandys, Slonimski, Andrzejewski, Dąbrowska, Hlasko, Iwaszkiewicz, Stawiński, and Rozewicz.

821†  G  5
The Structure of Polish
Sp.  3 cl.
Prereq.: 606 or permission of instructor.
Analysis and description of the phonological and morphological systems of contemporary standard Polish.

830†  G  5
Mickiewicz and Romanticism
A.  3 cl.
Prereq.: 606 and 621, or permission of instructor.
Critical analysis of the major works of Polish Romantic poetry and drama; emphasis on Mickiewicz’s poems, dramas, and criticism.

831†  G  5
The Age of Realism
W.  3 cl.
Prereq.: 606 and 621, or permission of instructor.
Fiction of the second half of the 19th century; emphasis on Sienkiewicz and Prus; intellectual and literary development.

832†  G  5
Twentieth Century Polish Writers to 1939
Sp.  3 cl.
Prereq.: 606 and 621, or permission of instructor.
Fiction, poetry, and drama, from the Neo-Romantic period to World War II; emphasis on Zeremski, Reymont, and Wyspiański.

850*  G  5
Seminar in Polish Literature to 1820
A.  2 cl.
Prereq.: 722 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
851* G 5
Seminar in Polish Literature 1820-1860
W. 2 cl.
Prereq.: 722 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

852 G 5
Seminar in Polish Literature after 1860
Sp. 2 cl.
Prereq.: 722 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

993 G 2-10
Individual Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 40 cr. hrs. in any combination of decimal subdivisions.
993.01 Literature to 1820
993.02 Literature 1820-1860
993.03 Literature after 1860
993.04 Morphology
993.05 Phenology
993.06 Dialectology
993.07 Old Polish
993.08 Unspecified

994 G 2-10
Group Studies
Prereq.: Permission of chairman.
Repeatable to a maximum of 15 cr. hrs.

201 U 5
The Individual in Politics
A, W, Sp. 5 cl.
H201 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept. Focus on concepts, such as role, attitude, and communication, used for analysis of politics at the individual or group level.

202 U 5
Political Behavior of Collectivities
A, W, Sp. 5 cl.
H202 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept. Focus on concepts, such as system, process, structure, and social accounting, used for the analysis of more complex entities such as a national or international system.

203 U 5
Political Analysis
A, W, Sp. 5 cl.
H203 (Honors) may be available to students enrolled in a college Honors Program or by permission of dept. Introduction to problems of construction and analysis of empirical and ethical theories of politics.

294 U 5
Group Studies
Repeatable to a maximum of 10 cr. hrs.

300 U 5
Introduction to American Politics
Su, A, W, Sp. 5 cl.
Not open to students with credit for 108.
An examination of American political institutions and processes with emphasis on the national government.

325 U 5
Introduction to Comparative Politics
A, W, Sp. 5 cl.
An introduction to basic theories, approaches, and methods of analysis in comparative politics; substantive discussion of selected topics.

345 U 5
Introduction to International Systems
Su, A, W, Sp. 5 cl.
Not open to students with credit for 545.
Political relations among states; methods and goals of diplomacy; current problems in major areas of tension; tendencies toward administrative, judicial, and legislative world organization.

365 U 5
Introduction to Political Theory
Su. 5 cl.
Not open to students with credit for 565.
An introduction to the major works and problems of political theory, with emphasis on the nature of political theory.
501 U G 5
The American Presidency
A. 5 cl.
Not open to students with credit for 601.
An examination of the American presidency emphasizing the contemporary role of the president, the institutionalized presidency, and theories of presidential behavior.

502† U G 5
Campaign Politics
A. 5 cl.
The organization and strategy of American political campaigns; practical politics seen in the light of knowledge about political behavior and public opinion.

504 U 5
Black Politics
A. 5 cl.
Not open to students with credit for 208 or Black Studies 504.
(Cross-listed in the Black Studies Division.)
Economic, political, and social constraints on the development of black political power; the efforts made by black people in recent times to organize for effective political action.

505 U G 5
Urban Government
A, W. 5 cl.
Introduction to the governance of urban communities in the United States.

506† U G 5
Ohio Politics
Sp. 5 cl.
Examination of state politics with special reference to Ohio.

516 U G 5
Judicial Politics
Sp. 5 cl.
Analysis of the roles of judges and lawyers as participants in the American political process; analysis of courts as political institutions.

541 U G 5
Government and Politics of the New States
W. 5 cl.
A general introduction to the theoretical and substantive literature dealing with the historical development and contemporary characteristics of the new states of Asia and Africa.

542 U G 5
Topics in Cross-National Analysis
Sp. 5 cl.
Repeatable to a maximum of 10 cr. hrs.
Topics in cross-national analysis such as elites, public opinion, political parties will be addressed.

560† U G 5
Regional Patterns in International Politics
A. 5 cl.
Repeatable to a maximum of 15 cr. hrs.
Examination of ideological, institutional, and foreign political patterns in particularized regions, such as Sub-Sahara Africa, Arab Middle East, Southeast Asia.

562 U G 5
Regional Patterns in International Politics: Latin America
W. 5 cl.
Basic power concepts, political institutions, and international relations of Latin America.

570 U G 5
Political Theories of Change and Models of the Future
W. 5 cl.
An examination of models of the role of the scientist in dealing with the future or futurology.

571† U G 5
Political Theories of Democracy
A. 5 cl.
A critical examination of political theories of democracy, with attention to both descriptive and evaluative aspects, in context of purportedly democratic politics.

573† U G 5
American Political Ideas
W. 5 cl.
An analysis of American ideas on law and government, authority and liberty, oligarchy and democracy.

577† U G 5
Political Decision-Making
A. 3 cl., 1 lab.
Not open to students with credit for 378.
Explores application of economic, bureaucratic, and organizational behavior models of political decision-making; includes topics on social forecasting and simulation, program budgeting, and social indicators.

585 U 5
Techniques of Political Analysis
W. 5 cl.
Introduction to research design, nature of data, its generation and machine analysis; analysis of political variables.

593 U G 1-15
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Students will devote their time to special projects including papers, exams, and practical political experience.

594 U 5
Contemporary Political Problems
A, W, Sp. 5 cl.
Repeatable to a maximum of 30 cr. hrs.
GENERAL PREREQUISITES FOR COURSES
NUMBERED 600 AND 700
Unless otherwise indicated the prerequisites for 600 and 700-level courses are two courses in political science, or a declared major in another social science, or the consent of the instructor, or the history and social science requirements of the B.A. curriculum.

602 U G 5
Public Opinion and Political Behavior: Psychological Foundations
A. 5 cl.
Not open to students with credit for 676.
The formation, organization, and change of attitudes about American politics; methods of survey design and analysis including computer adaptations.

603 U G 5
Public Opinion and Political Behavior: Sociological Foundations
W. 5 cl.
Prereq.: 602.
Not open to students with credit for 678.
Influences of political culture, social class, primary and secondary groups, the media, minority status, and social change on public opinion are covered.

604 U G 5
American State Politics
A. 5 cl.
Not open to students with credit for 605.
Comparative analysis of politics in the American states.

608 U G 5
Ethnic Politics in the American Cities
W. 5 cl.
Group conflict along ethnic lines in major American cities; factors contributing to group cohesion in politics; strategies and resources for exercising power through collective political action.

610 U G 5
Executive and Bureaucratic Politics
Sp. 5 cl.
Introduction to the roles and behavior of executives and bureaucrats in the formulation and implementation of public policy in the United States.

614 U G 5
Urban Politics
W. 5 cl.
The study of political problems facing the cities; including community power, poverty, welfare, urban renewal, urban education, law enforcement, and violence.

617 U G 5
Legislative Politics and Policy-Making
A, W. 5 cl.
Not open to students with credit for 677.
Studies of legislative organization, practices, and recruitment, and their relation to the policy outputs; relationships of the legislature to other elements of the American political system.

628 U G 5
British Government and Politics
W. 5 cl.
An analysis of the nature of politics and the conduct of government in contemporary Britain, including the making of foreign policy.

627 U G 5
Government of Western Europe
A. 5 cl.
An examination of the political institutions and processes of France, West Germany, and the European integration movement.

630 U G 5
The Soviet Union
A, Sp. 5 cl.
A general study of the Soviet Union: governmental and party institutions; ideology and methods; problems of communist dictatorship.

631† U G 5
Survey of the Social Sciences in the USSR
W. 3 cl.
Prereq.: 4th yr. standing or grad. standing or enrollment in Certificate Program for Translators.
An introduction to bibliography and methodology of the social sciences in the USSR.

635 U G 5
Government and Politics of Japan
Sp. 5 cl.
The government and politics of Japan, with special emphasis being given to the impact of cultural and social patterns on the processes of government with imported political institutions.

636 U G 5
Southeast Asia
A. 5 cl.
Governments and politics of the Philippines, Indonesia, Indo-China, Malaya, Thailand, and Burma; contemporary problems of this region in relation to world politics.

637 U G 5
The Government and Politics of China
A. 5 cl.
Prereq.: 225 or 525 recommended.
A study of the contemporary political process of Communist China; considerable time will be spent on an analysis of recent political change in China and the process of revolution.

640 U G 5
Latin American Government and Politics
A. 5 cl.
Not open to students with credit for 640.
A study of political processes, institutions, and groups in Latin America, with emphasis on constitutional, geographical, social, and economic environment in which they operate.
650† U G 5
International Law
Sp. 5 cl.
A study of the principles of international law.

651 U G 5
International Organization and Administration
A. 5 cl.
An examination of the current system of international organization and its administrative aspects, with emphasis on the operations of the United Nations agencies.

655 U G 5
Soviet Foreign Policy
W. 5 cl.
Basic concepts about, and choices in, Soviet foreign policy; development and present patterns of Soviet relations with key nations; major problems in future relationships.

656 U G 5
The United States in World Affairs
W, Sp. 5 cl.
Domestic factors and agencies influencing American foreign policy; basic patterns of recent American relations, especially with the Soviet bloc, Western Europe, and the Middle East.

658† U G 5
International Relations of the Far East
Sp. 5 cl.
The Far East in contemporary world politics; factors underlying the foreign policies of the nations concerned with this region.

665† U G 5
Contemporary Political Theorizing I: Empirical
A. 5 cl.
Introduction to problems of forming and justifying "explanatory" theories; topics include "science", "truth", "explanation", "observation", and "value" in context of contemporary theories of political action.

666 U G 5
Contemporary Political Theorizing II: Analytic
W. 5 cl.
An introduction to formal analytic approaches to theorizing about ethical, descriptive, and predictive dimensions of political life.

667 U G 5
Contemporary Political Theorizing III: Conceptual
A. 5 cl.
Introduction to the analysis of language, concepts, and vocabulary used in political theorizing; attention on relations among concepts, statements, explanation, and justification.

670 U G 5
History of Political Theory I: Ancient and Medieval
A. 5 cl.
The study of major works by political theorists, including Plato, Aristotle, Cicero, Augustine, Aquinas, and others, in ancient and medieval times.

671 U G 5
History of Political Theory II: Machiavelli to Rousseau
W. 5 cl.
The study of major works by political theorists, including Machiavelli, Hobbes, Locke, Hume, Montesquieu, Rousseau, and others, from the Renaissance into the 18th century.

672 U G 5
History of Political Theory III: Bentham to the Present
Sp. 5 cl.
The study of major works by political theorists, including Bentham, Kant, Hegel, Marx, Mill, Weber, and others, since the French Revolution.

674 U G 5
Political Participation and Voting Behavior
A. 5 cl.
A study of political participation and its correlates, determinants of the vote decision analysis of recent American elections.

675 U G 5
American Political Parties
A, W. 5 cl.
Not open to students with credit for 575. Theories of political parties, party organization, individual voting behavior, nomination and electoral politics, the party in government.

679 U G 5
Policy Analysis
W. 5 cl.
Not open to students with credit for 620. An analysis of the policy process emphasizing the determinants of public policy, theories of public choice, and the implementation, impact, and evaluation of policy decisions.

685 U G 5
Methods of Quantitative Analysis: Elementary
W. 5 cl.
Explication, interpretation, and application of techniques for quantitative analysis of political data; descriptive and inferential statistics, with emphasis on bivariate analysis.

686 U G 5
Methods of Quantitative Analysis: Intermediate
Sp. 5 cl.
Prereq.: 685. Descriptive and inferential statistics with emphasis on multivariate analysis; additional topics offered as desired and possible: scaling, index construction, sampling, measurement reliability.

683 U G 1-5
Individual Studies
Prereq.: 4th yr. standing and 40 cr. hrs. in social sciences, including 15 cr. hrs. in Pol. Sc.
Repeatable to a maximum of 20 cr. hrs.
A special topic is assigned to each student and results are tested by papers and special examinations.
700 UG 5
Basic Theories in the Study of American Politics
A. 2 2-hr. cl.
Repeatable to a maximum of 10 cr. hrs.
Examination of basic concepts and approaches; consideration of methodological and substantive problems encountered at various levels of analysis.

Introduction to National Security
(See Nat. Sec. Pol. S. 702.)

703† UG 5
Readings in Individual Political Behavior
A. 2 2-hr. cl.
Prereq.: 602 or 603 or equiv.
Repeatable to a maximum of 10 cr. hrs.
Intensive analysis of literature on selected topics such as socialization, cognition, groups, and attitudes.

704† UG 5
Readings in State and Local Politics
A. 2 2-hr. cl.
Prereq.: 604 or 614 or equiv.
Intensive review of selected aspects of the literature on state and local politics in the United States.

713 UG 5
Readings in Executive and Bureaucratic Politics
Su. 2 2-hr. cl.
Prereq.: 610 or equiv.
Intensive examination of literature with emphasis on the role of executives and bureaucrats in the formulation and implementation of public policy.

717† UG 5
Readings in Legislative Politics and Policy-Making
W. 2 2-hr. cl.
Prereq.: 617 or equiv.
A theoretical-empirical analysis of the functioning and policy product of American legislatures; intensive reviews of selected aspects of the legislative literature to be conducted.

725 UG 5
Basic Theories in the Study of Comparative Government
A. Sp. 3 cl.
Repeatable to a maximum of 15 cr. hrs.
Examination of such concepts and theories as structural-functional analysis; general systems theory; and sociocultural systems as determinants of governmental structures.

727 UG 5
Problems in Western European Politics
W. 1 2-hr. cl.
Prereq.: 626 or 627 or permission of instructor.
Intensive study of selected problems.

731 UG 5
Problems in Soviet Politics
W. 3 cl.
Prereq.: 630 or 635.
An intensive examination of selected problems such as crises of succession, conflicts of pressure groups, Soviet policies in the United States, Sino-Soviet relations.

734 UG 5
Problems in Asian Politics
W. 1 2-hr. cl.
Prereq.: 635 or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
An advanced seminar for the purpose of structured reading of advanced scholarly materials and limited research experimentation in East and Southeast Asian topics.

740† UG 5
Problems in Latin American Politics
Sp. 1 3-hr. cl.
Prereq.: 562 or 640 or permission of instructor.
An advanced seminar devoted to a structured examination of the major theories, concepts, and approaches used in the analyses of Latin American politics.

741 UG 5
Political Development
Sp. 3 cl.
Prereq.: 541 or 636 or 640 or permission of instructor.
Theories, approaches, and methodology in the analysis of political life in the new states of Asia and Africa; discussion of selected case and cross-national studies with theoretical relevance.

745 UG 5
Basic Theories in the Study of International Relations
A. W. 3 cl.
Repeatable to a maximum of 15 cr. hrs.
Examination of such basic concepts and theories as equilibrium models, balance of power, rational interest, geopolitical configurations.

749 UG 5
Topics in Cross-National Policy Analysis
W. 3 cl.
Prereq.: 745.
A comparative examination of substantive cross-national policy issues such as welfare, security, economic development, etc.

757* UG 5
Comparative Foreign Policies
W. 5 cl.
Prereq.: 655 or 656 or permission of instructor.
Examines comparatively the sources and classes of behavior of territorial actors in the international political system.
758  U G 5
Regional Integration
W. 3 cl.
Prereq.: 650 or 651 or permission of instructor.
Political trends in and consequences of regional organization.

759  U G 5
International Systems
A. 2 2-hr. cl.
Prereq.: 745.
Examines the influence of (1) the power distribution among nations; (2) alliance configurations within the international system; and (3) events external to nations upon inter-nation behavior.

765  U G 5
Basic Theories in the Study of Politics
Sp. 3 cl.
Examination of the diverse works and strategies that purport to be political theory, with emphasis on the unity of theory as an intellectual enterprise.

760  U G 5
Selected Topics in Political Theory
W. 1 2-hr. cl.
Prereq.: Grad. standing or permission of instructor. Repeatable to a maximum of 15 cr. hrs.
Intensive joint readings and discussions concentrating upon one of the major themes, problems, or movements in political theory; topic information available from instructor.

767  U G 5
Explanation and Evaluation
Sp. 2 2-hr. cl.
Prereq.: 790 or equiv.
Critical inquiry into the role of political theories in explanation and evaluation of political life.

768  U G 5
Political Theory and Conceptual Analysis
A. 2 2-hr. cl.
Prereq.: 790 or equiv.
Critical examination of the contribution of conceptual analysis to the understanding of existing theories and the creation of new ones.

774  U G 5
Readings in Political Participation
and Voting Behavior
W. 2 2-hr. cl.
Prereq.: 674 or equiv.
Intensive examination of literature on selected topics in the area of participation and voting behavior in the United States.

775  U G 5
Readings in American Political Parties
Sp. 3 cl.
Intensive study of literature or selected aspects of American political parties.

776  U G 5
Comparative Political Institutions
W. 3 cl.
Study of comparative political institutions (executives, legislatures, bureaucracies, constitutions) utilizing a broad cross-national perspective.

777  U G 5
Comparative Political Behavior
A. 3 cl.
A cross-national examination of political behavior, including such topics as socialization, participation, voting, elite behavior, mass-elite linkages.

778  U G 5
Comparative Political Parties and Interest Groups
A. 3 cl.
Comparative analysis of the nature and role of political parties and interest groups in contemporary societies.

779  U G 5
Readings on the Policy Process
Sp. 2 2-hr. cl.
Consideration of the basic theories, concepts, and techniques used in policy analysis; the determinants of public policy; and the impact and evaluation of public policy.

H783  U 3-5
Honors Course
Prereq.: 4th yr. standing and 40 cr. hrs. in social sciences, including 15 cr. hrs. in Pol. Sc., with a record of A in at least half of the Pol. Sc. courses and an average of B in the remainder. Permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least two qtrs. are required of candidates for the degree of Bachelor of Arts with distinction in Pol. Sc. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr. hrs.
A special topic is assigned to each student and results are tested by the requirement of papers and special examinations.

Research Principles and Techniques in National Security
(See Nat. Sec. Pol. S. 785.)

786  U G 5
Causal Analysis
Sp. 2 2-hr. cl.
Prereq.: 685 and 686.
Analysis of casual models by Simon-Blalock techniques, recursive and nonrecursive path estimation; special topics include measurement error, standardization, and ordinal data.

787  U G 5
Dimensional Analysis
Sp. 2 2-hr. cl.
Prereq.: 685 and 686.
Topics include measurement and data theory, unfolding, proximity and dominance (Guttman) scaling, multidimensional scaling, and factor analysis.
Mathematical Theories of Politics
A. 2 hr. cl.
Prereq.: 790 or equiv.
Introduction to various major mathematical theories of political phenomena and the role of formal analysis in political science.

Scope and Methods of Political Science
A. 1 2-hr. cl., 1 hr. lab.
Prereq.: 4th yr. standing and 15 cr. hrs. in pol. sc.
The materials of political science; history of procedure in political science research; research technique; presentation of results of research.

Problems in Research Design and Execution
W. 4 cl., 1 hr. lab.
Prereq.: Grad. standing or permission of instructor.
Examines the Methodological problems of research designs for the acquisition and analysis of data with special attention to the methods of cross-national research.

Contemporary Political Problems
W, Sp. 2 3-hr. cl.
Prereq.: Senior standing and 15 cr. hrs. in Pol. Sc.
Repeatable to a maximum of 30 cr. hrs.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
A general foundation in undergraduate courses in history and the social sciences is assumed. Any of the 800-level courses listed may be repeated provided that no student shall earn more than 10 hours of credit in any single course.

Seminar in National Security Research
(See Nat. Sec. Pol. S. 801.)

Research in Public Opinion
Sp. 1 2-hr. cl.
Prereq.: 602 and 603 or permission of instructor.
Development and execution of a research design focusing on a problem in American public opinion; consultation on substantive and methodological problems offered by instructor.

Research on State and Local Politics
A. 1 2-hr. cl.
Development and execution of a research design on a selected topic in American state or local politics; consultation on substantive and methodological problems offered by instructor.

Research on Executive and Bureaucratic Politics
W. 1 2-hr. cl.
Development and execution of a research design focusing on a problem in American executive and bureaucratic politics; consultation with instructor on substantive and methodological problems.

Research in Legislative Politics and Policy-Making
Sp. 1 2-hr. cl.
Prereq.: 717 or equiv.
Development and execution of a research design focusing on a particular problem in American legislative research; consultation on substantive and methodological problems offered by instructor.

Comparative Government
W, Sp. 1 2-hr. cl.
Prereq.: 2 pol. sc. courses in foreign governments at 600 level or above, or equiv.
Repeatable to a maximum of 15 cr. hrs.
Seminar in the governments of foreign countries.

International Relations
A, W, Sp. 1 2-hr. cl.
Prereq.: 651 or 656 or 545 or equiv.
Repeatable to a maximum of 15 cr. hrs.
Seminar in international relations.

Topics in Political Theory
W. 1 2-hr. cl.
Repeatable to a maximum of 10 cr. hrs.
Intensive treatment of selected topics and texts in political theory and theory construction.

Research in Political Participation and Voting Behavior
Sp. 1 2-hr. cl.
Prereq.: 774 or equiv.
Development and execution of a research design focusing on a problem in electoral research; extensive consultation with instructor on substantive and methodological aspects of problem.

Research on American Political Parties
Su, Sp. 1 2-hr. cl.
Development and execution of a research design focusing on a problem relating to American political parties; consultation on substantive and methodological problems offered by instructor.

Research on Policy-Making
A. 1 2-hr. cl.
Research into the process of policy-making and the substance of public policy; consultation on substantive and methodological problems offered by instructor.

Interdepartmental Seminar
(See under Interdepartmental Seminars.)

Research in Political Science
Research for thesis or dissertation purposes only.
Portuguese

Office: 248 Dieter Cunz Hall of Languages, 1841 Millikin Road
Professor Griffin (Chairman); Assistant Professor Tolman.

101 U 5
Elementary Portuguese
A. 5 cl.
Elements of Portuguese grammar, with oral and written exercises; attention to ear training and oral practice; and customs.

102 U 5
Elementary Portuguese
W. 5 cl.
Prereq.: 101.
The elements of Portuguese grammar with abundant oral and written exercises; development of conversational skill; reading, vocabulary building.

103 U 5
Intermediate Portuguese
Sp. 5 cl.
Prereq.: 102 or 110.
Continuation of Portuguese grammar; reading of short stories, plays, and novels; increased attention to development of oral proficiency.

104 U 5
Intermediate Portuguese
A. 5 cl.
Prereq.: 103 or 112.
Reading of Portuguese plays, short stories, and novels; emphasis on oral practice; non-fiction of cultural and historical significance.

110 U 5, 10
Intensive Elementary Portuguese
A. W, Sp. 10 cl.
Prereq.: Permission of dept.
Not open to students with credit for 102. Students with credit for 102 or equiv. may not register for more than 5 cr. hrs.
Elementary Portuguese for students wishing to acquire the basic skills in one quarter; intensive drill in form, syntax, vocabulary, and idiom; equivalent to 101 and 102.

112 U 5, 10, 15
Intensive Portuguese
Su. 15 cl. Enrollment limited to 20 students.
Full time of student and full fees required.
Prereq.: Permission of chairman.
Equivalent of 101, 102, and 103. Students with credit for 101 or the equiv. may not register for more than 10 hrs. Students with credit for 101 and 102 or the equiv. may not register for more than 5 cr. hrs. Students with credit for 103 or the equiv. may not register for credit.
Elementary and intermediate Portuguese; intensive drill in forms, syntax, vocabulary, and idiom; reading of short stories and plays in Portuguese.

193 U 1-15
Individual Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

194 U 1-15
Group Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

202† U 5
Portuguese Conversation and Composition
W. 5 cl.
Prereq.: 104 or permission of instructor.
Intensive practice in conversation and composition based on materials concerning current life in Brazil and Portugal, with thorough review of grammar.

401† U 3
Review Grammar and Composition
Sp. 3 cl.
Prereq.: 104.
Review of Portuguese grammar; compositions based on readings.

404* U 5
Portuguese Pronunciation
W. 5 cl.
Prereq.: 104.
Practice with corrective exercises to continue development of aural-oral skills.

421 U 5
Introduction to Modern Luso-Brazilian Literature
A. 5 cl.
Prereq.: 104.
Reading and discussion of important modern Portuguese and Brazilian literary works.

422† U 5
Modern Prose Fiction
W.
Prereq.: 421 or permission of instructor.
Representative readings of modern Portuguese and Brazilian novels and short stories.

423† U 5
Modern Poetry and Drama
Sp.
Prereq.: 421 or permission of instructor.
Representative readings from modern Luso-Brazilian poetry and drama; lectures, discussions, and reports.

520†* U G 5
Main Currents in the Development of Portuguese Literature
A. 5 cl.
Prereq.: 421, and 422 or 423, or permission of instructor.
Portuguese literature from the Middle Ages to the present with emphasis on the evolution of major movements.
621*  U G  5
Main Currents in the Development of Brazilian Literature
A.  5 cl.
Prereq.: 421, and 422 or 423, or permission of instructor.
Brazillian literature, including the Portuguese colonial literature, from the 16th century to the present.

623†  U G  5
Luis de Camoes
W.  5 cl.
Prereq.: 421, or 422 and 423, or permission of instructor.
An intensive study of Os Lusiadas.

623†  U G  5
The Modern Brazilian Novel
W.  5 cl.
Prereq.: 421, or 422 or 423, or permission of instructor.
The Brazilian novel from the 1930's to the 1960's.

693    U G 1-15
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

694    U G 1-15
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

993    G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

994    G 1-15
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Investigation of minor problems in the various fields of Portuguese literature and language.

Poultry Science
Office: 108 Poultry Administration Building, 674 West Lane Avenue.

Professors Naber (Chairman), Baker, Bohl, Brown, Clayton, Harvey, Jaap, Marsh, and Touchburn
(Associate Chairman, Wooster); Associate Professors Allred, Nestor, and Stephens; Assistant Professors Bacon, Chipley, Latshaw, and Saif.

Domestic Animals in the Service of Man
(See Animal Sc. 100)
(Offered in cooperation with the Depts. of Dairy Sc. and Poul. Sc.)

GENERAL PREREQUISITES FOR COURSES NUMBERED 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified courses numbered 100-199.

200    U  5
Fundamentals of Poultry Science
A, Sp.  4 cl., 1 2-hr. lab.
Prereq.: Biol. 100 or Animal Sc. 100.
Application of science and technology in the poultry and related industries. Marsh.

GENERAL PREREQUISITES FOR COURSES NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified courses numbered 100-399.

420    U  5
Principles of Animal Improvement
A, W, Sp.  5 cl.
Prereq.: Animal Science 100, Math. 150 or equiv., and Genetics 140 or 314.
Not open to students with credit for Animal Sc. 420 or Dairy Sc. 420.
(Cross-listed in the Depts. of Animal Sc. and Dairy Sc.)
An introduction to the methods available for bringing about genetic change in farm animals. Fecheimer, Jaap, and Swiger.

430    U  5
Principles of Animal Nutrition
Su (1st term), A, W, Sp.  4 cl., 1 2-hr. lab.
Prereq.: Chem. 102 or 122, and Math. 130 or equiv.
Not open to students with credit for Animal Sc. 430 or Dairy Sc. 430.
(Cross-listed in the Depts. of Animal Sc. and Dairy Sc.)
A study of the fundamental principles of nutrition in mammals and birds. Cline, Latshaw, Mahan, and Tynick.

GENERAL PREREQUISITES FOR COURSES NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 30 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 30 cr. hrs. in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

Poultry Marketing
(See Agr. Ec. 521.)
(Offered in cooperation with the Dept. of Ag. Econ.)

589    U  5
Poultry Science Experience
Prereq.: Junior standing or higher and permission of instructor.
Practical experience, including completion of outlined program and written report, in an approved poultry establishment.

(continued on next page)
593 U 2, 3 or 5
Individual Studies
H593 (Honors) may be available to students enrolled
in a college Honors Program or eligible for enrollment.
Prereq.: 15 cr. hrs. 200-level courses or higher in
Poul. Sc., Animal Sc., or Dairy Sc. and permission of
instructor.

594 U G 2, 3, or 5
Group Studies
Su, A, W, Sp. 2 2-hr. cl.
Repeatable to a maximum of 10 cr. hrs.
Intensive study of selected areas of poultry science
appropriate to the group and not provided in other
courses.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600
Unless otherwise indicated, the prerequisites for
600-level courses are 15 cr. hrs. in courses in the same
discipline numbered 300 or higher, or 10 cr. hrs. in
courses numbered 300 or higher in the same discipline,
plus 10 cr. hrs. in courses numbered 300 or higher in
specified allied disciplines.

610+ U G 5
Avian Growth and Meat Production
Sp. 5 cl.
Prereq.: 200 and 430 or Zool. 220.
Not open to students with credit for 310.
Physiology of growth and development in avian species;
environmental factors influencing growth. Jaap.

611+ U G 5
Avian Reproduction and Egg Production
Sp. 5 cl.
Prereq.: 200 and 430 or Zool. 220.
Not open to students with credit for 311.
Physiology of avian reproduction and egg production
as affected by circadian rhythms, social stress,
neuroendocrine mechanisms, ambient environment
and immunological competence. Jaap.

Physiology of Reproduction and Growth
(See Dairy Sc. 612.)
(Offered in cooperation with the Depts. of Animal Sc.
and Dairy Sc.)

Laboratory in Reproductive Physiology
and Artificial Insemination
(See Dairy Sc. 612.)
(Offered in cooperation with the Depts. of Animal Sc.
and Dairy Sc.)

630 U G 5
Nutrition and Feeding of Monogastric Animals
A, W, Sp. 4 cl., 1 2-hr. lab.
Prereq.: 430 or equiv.
Not open to students with credit for Animal Sc. 630.
(Cross-listed in the Dept. of Animal Sc.)
The nutrition of swine, poultry, and laboratory animals;
principles and practice. Cline, Latshaw, Mahan, and
Naber.

640 U G 5
Prevention and Control of Avian Diseases
W. 3 cl., 2 2-hr. lab.
Prereq.: Chem. 102 or 122 and Microbiol. 509 or 607.
The etiology, recognition, prevention, and control of the
important diseases of poultry and related birds. Marsh.

650 U G 5
Egg and Poultry Products Technology
A. 4 lec., 1 2-hr. lab.
Prereq.: Chem. 102 or 122 and Microbiol. 509 or 607.
Quality identification and maintenance; processing;
physical, chemical, microbiological and nutrient
properties; preservation and utilization of egg and
poultry products. Chipley.

695 U G 1-2
Seminar
Naber.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 700
Unless otherwise indicated, the prerequisites for
700-level courses are 15 cr. hrs. in courses in the same
discipline numbered 400 or higher, plus additional
specified courses numbered 600 or higher.

Advanced Reproductive Physiology
(See Dairy Sc. 710.)
(Offered in cooperation with the Depts. of Animal Sc.
and Dairy Sc.)

720 U G 5
Genetics of Animal Populations
W. 5 cl.
Prereq.: 420 or Genetics 630, and 10 cr. hrs. in math.
Not open to students with credit for Animal Sc. 720 or
Dairy Sc. 720.
(Cross-listed in the Depts. of Animal Sc. and Dairy Sc.)
Theory and practice of analyzing and altering the
 genetic composition of animal populations. Swiger.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800
and 900-level courses are 30 cr. hrs. in courses in the
same discipline, or 20 cr. hrs. in the same discipline,
plus 25 cr. hrs. in specified allied disciplines.

810 G 3
Advances in Physiology of Domestic Animals
A, W, Sp. 4-hr. cl.
Prereq.: Acceptable courses in physiol., anat., biochem.,
and permission of instructor.
Not open to students with credit for Animal Sc. 810 or
Dairy Sc. 810.
(Cross-listed in the Depts. of Animal Sc. and Dairy Sc.)

810.01* Adreanal Function
A.
Brown and Gomes.

810.02* Endocrinology of Reproduction
W.
Gomes.

810.03* Immunology and Immunogenetics
Sp.
Hines.
810.04† Thyroid and Parathyroid Function
A.
Hibbs.
810.05† Mammanlian Germ Cells
W.
VanDemark.
810.06† Biometry and Animal Performance
Sp.
Ludwick.

820 G 3
Current Topics in Animal Genetics
3 cr.
Prereq.: Acceptable courses in animal genetics, mathematics, and statistics.
Repeatable to a maximum of 12 cr. hrs.
Not open to students with credit for Animal Sc. 820 or Dairy Sc. 820.
(Cross-listed in the Depts. of Animal Sc. and Dairy Sc.)

820.01 Selection Index Theory
Sp.
Aulaine and Harvey.
820.02 Nonadditive Genetic Variance
W.
Harvey and Swiger.
820.03 Polymorphic Systems
W.
Fecheheimer.
820.04 Simulation of Genetic Systems
W.
Harvey.
820.05 Cytogenetics of Animal Populations
W.
Fecheheimer.
820.06 Physiological Indices in Animal Breeding
A.
Jaap.

830 G 3
Advanced Studies in Nutrition
Su, A, W. 3 or 4 cr.
Prereq.: Permission of instructor.
Not open to students with credit for Animal Sc. 830 or Dairy Sc. 830.
(Cross-listed in the Depts. of Animal Sc. and Dairy Sc.)

830.01 Energy
A.
Conrad.
830.02 Minerals
W.
Cline.
830.03 Proteins and Amino Acids
Sp.
Naber and Vivian.
830.04 Vitamins
A.
Naber and Tzyznik.
830.05 Lipids
W.
Palmquist.
830.06 Laboratory Methods in Nutrition
Sp.
Allred, Mahan, and Vivian.

898 G 1
Interdepartmental Seminar
in Nutrition and Food Technology
Sp.
(See under Interdepartmental Seminars.)

993 G 2, 3, or 5
Individual Studies
Prereq.: 15 cr. hrs. of 300-level courses or higher in poul. sc., animal sc., or dairy sc. and permission of instructor.

999 G Arr.
Research
Research for thesis or dissertation purposes only.

Preventive Medicine

Office: B-107 Starling-Loving Hall, 330 West 10th Avenue

Professors Ellingson (Chairman), Ambuel, Ayres, Billings, Fancher (Emeritus), Keller, Lewis (Emeritus), Palchak (Emeritus), Petersen, Rustagi, Shaffer, Shillito (Emeritus), and Tomashafsky; Associate Professors Anderson, Bashe, Berry, Lanese, Goodwin, van Ginkel, Webb, and Wick; Assistant Professors Ackerman, Banks, Bason, Bunner, Briggs, Campbell, Clarks, Davis, Ertel, Garnier, Heggen, Heil, Lentz, Masters, McLemore, Milliken, Morley, Nick, Scobie, Shadle, Sharp, Spears, Stinson, Taylor, Thomas, Turner, Washam, Weir, and Westrach; Instructors Beyer, Brander, Brown, Burrier, Chase, Couler, Dierker, Dillahunt, Downey, Ervin, Foster, Garman, Girardo, Good, Hall, Hambrook, Hamori, Heffelfinger, Heilman, Herbig, Holbrook, Hoyt, Hughes, Laurs, Lowery, Maggied, Marsicano, Mauler, McElrath, Mezger, Millay, Myers, C. Paul, W. Paul, Pultz, Rudy, Saathoff, Samlowski, Sivinski, Smith, Jr., Sorgen, Weddington, Weir, Wettiner, White, Williams, Wyns, yantes, and Young.

485 U 4
Medical Factors in the Work Environment
A, W. 3 1-hr. cl., 1 2-hr. lab.
Study of human responses and adaptation to work under different environmental stresses in the industrial setting. Bason.

585 U 3
Epidemiology
A. 2 cr.
Prereq.: Microbiol. 210 or 509.

823 U P 2
Critical Reading of Scientific Literature
Sp. 1 2-hr. cl.
Prereq.: Permission of instructor.
Description of the basic principles of experimental design and statistics necessary for critical reading of the scientific literature which is used as illustrative material. Billings and Bason.

685 P 6, 12, 18 G 6-12
Field Experience in Comprehensive Health Planning
Su, A, W, Sp. Field time assigned for medical students 1, 2, or 3 months and grad. students ½ or entire Summer Quarter.
Prereq.: Permission of instructor.
Full time assignment to a state or local health planning agency, to work on a specific project in community health under the guidance of a selected faculty adviser. Campbell.

730 P G 3
Principles of Environmental Health I
A. 2 2-hr. cl.
Prereq.: Permission of instructor.
Basic aspects of man as a consumer of environmental resources and producer of pollutants; man's responses to stresses in his physical environment; his ranges of tolerance for environmental extremes. Billings.

731 P G 3
Principles of Environmental Health II
W. 2 2-hr. cl.
Prereq.: 730 or permission of instructor.
Man's responses to environmental contaminants in air, water and food; his tolerance limits for toxic substances and pollutants. Billings.

732 P G 3
Principles of Environmental Health III
Sp. 2 2-hr. cl.
Prereq.: 730 and 731, or permission of instructor.
Man's responses to his biological environment; his tolerance limits for microbiological stress; modes of adaptation and mal-adaptation; alteration of man's ecosystem; the consequences of such alterations. Billings.

740 P G 3
Population and Health I
A. 2 cl. and 1 conf.
Prereq.: Permission of instructor.
Introduces students in preventive medicine to the concepts, data, and analytical tools of demography as they relate to health problems and planning. Petersen.

741 P G 3
Population and Health II
W. 2 cl. and 1 conf.
Prereq.: 740 and permission of instructor.
Continuation of 740; applications of demography to health-care programs. Petersen.

742 U P G 3
Culture and Health
Sp. 2 1½-hr. cl.
Prereq.: Permission of instructor.
A cross-cultural analysis of the effects on health and mortality of such factors as diet, addictions, family structure, race or ethnicity, beliefs and superstitions. Petersen.

753 P 6
Principles of Public Health Administration
1 month, offered all months except June.
Prereq.: Permission of instructor.
Administration, organization, and function of public health agencies; principles of sanitation, food inspection, immunization, and school health. Keller and Bashe.

763* P G 1
Medicolegal Problems in Industry
A. 1 1-hr. cl.
Prereq.: Grad. standing in Prev. Med., or permission of instructor.
Legal relationships among employers, physicians, and employees; liability in case of injury; evaluation of disability; workmen's compensation; malpractice. Nick.

764 P G 3
Design of Biomedical Investigations
A. 2 2-hr. cl.
Prereq.: Permission of instructor.
Design of studies in biomedical area; formulation of hypotheses; sampling; planning observations and measurements; selection of statistical techniques; testing of hypotheses. Heggen.

770 P G 3
Health Survey Methods
W. 1 2-hr. cl. and 1 1-hr. conf.
Prereq.: Grad. or professional standing and permission of instructor.
An introduction to health survey methods; lectures, readings, classroom and community exercises; consideration of health planning and epidemiological applications. Lanese, Keller, and Petersen.

771 P G 3
Health Data: Sources and Uses
Sp. 3 1-hr. cl.
Prereq.: 770, or permission of instructor.
Examination of past and current health data accumulations, discussion of their uses and shortcomings, and experience in the acquisition and analysis of health-related information Keller, Lanese, and Petersen.

780 P G 2
Current Health Problems: Maternal and Child Health
W. 1 2-hr. cl.
Prereq.: Grad. or professional standing and permission of instructor.
The epidemiology of major causes of death and disability among mothers and children; community programs for prevention, detection, and treatment; current status of control. Bashe.

781 P G 2
Current Health Problems: Adult Health
Sp. 1 2-hr. cl.
Prereq.: Grad. or professional standing and permission of instructor.
The epidemiology of major causes of death and disability among adults; community programs for prevention, detection, and treatment; current status of control on local, state, national, and international levels. Keller.
785 P G 3
Biostatistics and Computers in Medical Research
W. 1 2-hr. cl. and 1 2-hr. lab.
Prereq.: Permission of instructor.
Review of the fundamental concepts of biostatistics, including more complex analysis of variance designs, integrated with application of the electronic computer. Heggen, Keller, and Chase.

786 P G 3
Biometrics Laboratory
A, W. Sp. 2 1-hr. lab. and 2 1-hr. conf.
Prereq.: 764 or 785.
Repeatable to a maximum of 6 cr. hrs.
Participation in consultations offered to biomedical researchers, combined with individualized faculty guidance. Keller, Lanese, Heggen, and Chase.

787 P G 3
Health Data Processing
Sp. 2 1/2-hr. cl.
Prereq.: 764 or equiv. and permission of instructor.
Forms design and techniques for the acquisition and manipulation of biomedical data sets, including some fundamentals of electronic data processing. Heggen and Chase.

783 P 5, 12, 18 G 2-5
Individual Studies in Preventive Medicine
1, 2, 3, or 4 months; offered all months except June.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs. for professional credit and 15 cr. hrs. for grad. credit.

783.01 Aerospace Medicine
Wick.

783.02 Biometrics
Lanese.

783.03 Clinical Environmental Medicine
Billings.

783.04 Environmental Health
Weir.

783.05 Epidemiology
Keller.

783.06 Nutrition
Anderson.

783.07 Occupational Medicine
Billings.

783.08 Community Health
Keller.

783.09 Comprehensive Health Planning
Chirikos.

783.10 Health Agency Administration
Banks.

783.11 Behavioral Science Studies in Health
Lanese.

784 P 6, 12, 18 G 2-5
Group Studies in Preventive Medicine
1, 2, 3, or 4 months; offered all months except June.
Prereq.: Permission of instructor.

794.01 Biometrics
Lanese and Keller.

794.02 Environmental Health
Ellingson.

794.03 Epidemiology
Keller, Lanese, and Banks.

794.04 Community Health
Banks, Chirikos, and Campbell.

810 G 2
Principles of Aerospace Medicine
A. 1 2-hr. cl.
Prereq.: Permission of instructor.
History and background of aerospace medicine; government regulatory agencies (FAA and NTSB); civilian and military aerospace medical administration, research and practice; field trips to aerospace facilities. Wick.

811 G 2
Principles of Occupational Medicine
W. 1 2-hr. cl., field trips arr.
Prereq.: Permission of instructor.
Intramurial and extramural relationships of the physician in industry; physical facilities, personnel, and equipment of industrial medical departments; departmental budgeting; employee examinations, health maintenance programs; safety programs. Billings.

812 G 3
Public Health Organization
Sp. 1 2-hr. cl. and 1 1-hr. conf.
Prereq.: Permission of instructor.
History and development of public health agencies; legal bases of public health law; administrative structure of official and voluntary agencies and their relationships to the complex of health and medical services in the community. Keller and Campbell.

820 G 3
Environmental Toxicology I
A. 3 1-hr. cl.
Prereq.: Permission of instructor.
Effect of the environmental toxins upon the organism; evaluation of testing methods, study of intermediary metabolism and detoxification; and introduction to chemically induced teratology and carcigenesis. Weir.

821 G 3
Environmental Toxicology II
W. 3 1-hr. cl.
Prereq.: 820 or equiv., or permission of instructor.
Evaluation of the effects of environmental pollution on the organism; including noxious gases, vapors, and particulates. Weir.

822 G 3
Environmental Toxicology III
Sp. 3 1-hr. cl.
Prereq.: 821 or equiv., or permission of instructor.
Continuation of 821 covering the effects of metals and their compounds, pesticides, plastics, and plasticizers, and the problem involved with cosmetics, food additives, and residues. Weir.
823 G 3
Principles of Hyperbaric Medicine
Sp. 1 3-hr. cl.
Prereq.: Permission of instructor.
Basic considerations of the etiology, diagnosis, prevention, and treatment of hyperbaric illnesses including caisson disease, air embolism, nitrogen narcosis, and oxygen poisoning.

840 G 3
Clinical Aerospace and Occupational Medicine I
Su. 2 1½-hr. cl.
Prereq.: Permission of instructor.
Medical qualification for employment or for flying, from viewpoints of major clinical specialties; general aerospace and industrial medical problems; aerospace and ground safety programs. Wick and Staff.

841 G 3
Clinical Aerospace and Occupational Medicine II
Su. 2 1½-hr. cl.
Prereq.: 840 or permission of instructor.
Continuation of 840. Wick and Staff.

845 G 3
Medical Aspects of Human Engineering
Sp. 2 1½-hr. cl.
Prereq.: 820, Physiol. 840, or permission of instructor.
Consideration of interfaces between medicine, physiology, psychology, and engineering in the design of complex systems operated by man; organization and administration of human factors groups. Wick and Staff.

849 G 2-3
Pro-Seminar in Community Health Development
A, W, Sp. 1 2-hr. session per wk., and additional conferences.
Prereq.: Grad. standing in Prev. Med. or permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Each week a basic area of community health development is presented by a specialist; the students prepare by reading assigned literature in this area, respond to questions raised during each session, and prepare reviews of the key issues. Staff.

850 G 1-3
Seminar in Preventive Medicine
Prereq.: Permission of instructor.
Repeatable to a maximum of 8 cr. hrs.

850.01 Selected Topics in Occupational or Aerospace Medicine G 1-3
Ellington and Staff.

850.03 Selected Topics in Community Health G 2-3
Keller and Staff.

851 G 3
Epidemiologic Methods
A. 2 2-hr. cl.
Prereq.: Permission of instructor.
Principles of epidemiology with special emphasis on methods employed in current epidemiologic studies of chronic diseases. Bashe and Keller.

852 G 3
Comprehensive Health Planning
W. 1 2-hr. session plus 1 1-hr. conference per wk.
Prereq.: Grad. standing in Prev. Med. or permission of instructor.
Study of comprehensive health planning concepts and techniques; with emphasis on topics relating to the design of health plans at the community level. Chirikos.

853 G 3
Behavioral Epidemiology
A. 2 1½-hr. cl.
Prereq.: Permission of instructor.
A review of the epidemiological literature that examines the relationship between behavioral factors, theories of stress, and disease processes. Lanese and Banks.

854 G 3
Economics of Community Health
A. 1 2-hr. cl. and 1 1-hr. cl.
Prereq.: Econ. 402 or permission of instructor.
Survey of the application of economic analysis to community health problems; emphasis on topics relating to the allocation of health resources and health manpower. Chirikos.

855 G 3
Community Health Development
A. 2 1½-hr. conf.
Prereq.: Permission of instructor.
A study of the nature of community development, its operational principles, and successful techniques, as they may be applied to the health field. Keller and Campbell.

857 G 3-5
Health Planning Laboratory
Sp. 2 2½-hr. conf.
Prereq.: 852 or permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Practicum in the application of planning techniques to current health problems and policy issues. Chirikos and Staff.

860 G 3
Epidemiology and Public Health
W. 2 2-hr. conf.
Prereq.: 851 or equiv., or permission of instructor.
Principles of public health, vital statistics, epidemiology, environmental sanitation, and communicable disease control on local, national, and global bases. Keller and Staff.

861 G 3
Industrial Hygiene
Su. 2 1½-hr. conf.
Prereq.: Permission of instructor.
Engineering appraisal of environmental health hazards, sampling techniques, instrumentation, and analytical methods; the industrial hygiene survey. Heir and Staff.
Psychiatry

Office: 071 Upham Hall, 473 West 12th Avenue

Professors: Gregory (Chairman), Coddington, Corson,
Goldman, Green, G. Harding, Jr., G. Harding, Sr.
(Emeritus), Kaelbling, W. Knopp, Liss, Marks, Michael,
(Emeritus), Palmer (Emeritus), H. Pariser, Pine, and
Siegel; Associate Professors: Brandeis, Corts, Fox,
Gardner, Gwynne, Haas, Kangas, Learmont, Lohrman,
McGough, Missildine, Monroe, Morgenstern, Ristine
(Emeritus), Stevenson, Todd, Veczoles, Weaver, and
Whieldon; Assistant Professors: Altman, Arnold, Borelli,
D. Brown, Burk, Burnes, Carlton, Cantrell, Goold, Cove,
A. Hall, C. Hall, C. Harding, H. Harding, Hubbard,
Hundziak, Johnston, King, E. Knopp, Koch, Leaverton,
Lee, Leuchter, Lindner, Litvak, D. Martin, G. Martin,
Pinta, Podobnikar, Pugliese, Rowe, Schmidt, Sikkings,
Smeltzer, Smith, Smith-e-incas, Stinson, Strayer, Stroz,
Wells, Welty, and Worst; Instructors: Bellini, Blocher,
Chrisman, Christopher, Collins, Desgranges, Dixon,
Duncan, Feo, Hothon, Huestis, Hutzler, H. Johnson,
Jones, Kasper, Kirby, Lalonde, Lenz, Lokenberger,
Luidens, Marx, May, McIntyre, Mezzich, Miller, Mitsak,
Oppenheimer, Peterson M. Pugliese, Radolph, Resor,
Rice, Shalvoy, Sherron, Simmons, and Simpson.

Psychopathology I
A. 1 cl.
Prereq.: Permission of chairman.
A sequence course in Autumn, Winter, and Spring
Quarters reviewing the clinical, etiological, and
psychodynamic aspects of the common psychiatric
disorders.

Environmental Control
Su. Conf. and field exercises.
Prereq.: Permission of instructor.
Principles of substitution, enclosure, isolation of
hazardous operations; local exhaust ventilations;
general ventilation-air conditioning; noise control,
radiant energy; ionizing radiation; personal protective
equipment; medical supervision of persons exposed to
conditions of special hazards. Weir and Staff.

Analysis of Health Care Organizations
W. 2 1/2-hr. cl.
Prereq.: Permission of instructor.
Acquaint student with concepts and techniques of
analysis of the structures and actions of health
organizations. Keller and Campbell.

Behavioral Responses in Disease Prevention
Sp. 1 2-hr. cl. and 1 1-hr. conf.
Prereq.: Permission of instructor.
A survey of behavioral science literature concerning
health behavior, illness behavior, and sick-role and
their impact upon programs for prevention, early
detection, and amelioration of disease. Banks.

Interdepartmental Seminar
in Industrial Engineering
W.
Prereq.: Permission of instructor.
The Departments of Industrial Engineering and
Preventive Medicine conduct a seminar annually with
industrial psychologists in an area of common interest;
topic to be announced.

Research in Preventive Medicine
Research for thesis purposes only.

Psychopathology II
W. 1 cl.
Prereq.: 708 or equiv.
Continuation of 708.

Psychopathology III
Sp. 1 cl.
Prereq.: 708 and 709, or equiv.
Continuation of 709.

Introduction to Group Psychotherapy
Sp. 1 cl.
Prereq.: Permission of instructor.
Rationale for the use of group psychotherapy and
fundamental techniques needed in starting and
conducting a psychotherapeutic group.

Advanced Psychotherapy and Family Therapy I
A. 1 2-hr. cl.
Prereq.: 740 and 741 or equiv.
Family therapy, communication systems, family rules
and structure; analysis of therapist-patient
relationships.

Advanced Psychotherapy and Family Therapy II
W. 1 2-hr. cl.
Prereq.: 712 or equiv.
Continuation of 712.

Behavioral Science I
Sp. 1 cl.
Prereq.: Permission of chairman.
Intensive coverage of scientific research procedures in
the behavioral sciences, including the nature of the
hypothesis, experimental designs, techniques of
controls, and some basic parametric and
nonparametric statistics.
715*  P G 1
Behavioral Science II
Su, A. W. Sp., 1 cl.
Prereq.: 714
Continuation of 714.

717+  P G 2
Neuropathological Basis of Mental Disorders
Sp., 2 cl.
Prereq.: Permission of chairman.
Emphasis on new trends in neuropathology as illustrated by results of recent research; considered as a reevaluation of established and hypothetical etiologic mechanism of diseases affecting the nervous system.

718  P G 1
Psychiatric Theory I
A., 1 cl.
Prereq.: Permission of chairman.
Psychiatric theories of personality, nature and etiology of psychopathology and psychotherapy, plus relevant historical material; emphasizes Freudian psychoanalytic theory and its precursors.

719  P G 1
Psychiatric Theory II
W., 1 cl.
Prereq.: 718 or equiv. and permission of chairman.
Continuation of 718.

720  P G 1
Psychiatric Theory III
Sp., 1 cl.
Prereq.: 719 or equiv. and permission of chairman.
Psychiatric theories of personality, nature and etiology of psychopathology and psychotherapy, plus relevant historical material; emphasizes other major theorists neither classical, psychoanalytic, nor Neo-Freudian.

721+  P G 1
Neuroendocrine Bases of Behavior
A., 1 cl.
Prereq.: Permission of chairman.
Normal and pathologic operation of selected biologic control systems examined in terms of cybernetics, relating anatomy, physiology, and pharmacology to overt behavior.

722*  P G 1
Forensic Psychiatry
Sp., 1 cl.
Prereq.: M.D. degree and permission of chairman.
Psychiatric testimony in criminal and civil legal procedures; determination of competency and indications for involuntary commitment; legal responsibilities of the psychiatrist.

723+  P G 2
Community Psychiatry
Su., 2 cl.
Prereq.: Permission of chairman.
A review of the recent growth, development, and expanding programs in the field of community psychiatry.

724  P G 1-2
Psychiatric Applications of Psychological Tests
Su., 1 cl.; or Su (2nd term), 2 cl., 2 lab. hrs. optional.
Prereq.: Permission of instructor.
Psychological testing procedures and their use in clinical psychiatry (intelligence testing, personality evaluation, and neuropsychological assessment).

740  P G 1
Basic Psychotherapy I
A., 1 cl.
Prereq.: Permission of chairman.
Basic concepts of psychotherapy, theory, and technique, with review of the development and structure of the personality.

741  P G 1
Basic Psychotherapy II
W., 1 cl.
Prereq.: 740 or equiv.
Continuation of 740; a study of basic concepts of psychotherapy, theory, and technique, with review of the development and structure of the personality.

742  P G 2
Child Psychiatry
Su., 1-2 hr. cl.
Prereq.: Permission of instructor.
Diagnosis and therapy in child psychiatry; etiologic forces that contribute to the development of mental illness in children and their families.

745+  P G 1
History of Psychiatry I
A., 1 cl.
Prereq.: Permission of chairman.
The development of psychiatric concepts and practices through the ages; study of biographical sources and significant writings.

746+  P G 1
History of Psychiatry II
W., 1 cl.
Prereq.: 745 or equiv. and permission of chairman.
Continuation of 745.

750+  P G 1-2
Psychiatric Aspects of Mental Retardation
Su., 1 cl., (2 lab. hrs., optional).
Prereq.: Permission of chairman.
Theoretical and clinical aspects of mental retardation as related to psychiatry.

751+  P G 1
Anatomical Substrates of Behavior
A., 1 cl.
Prereq.: Adequate knowledge of neuroanatomy and permission of instructor.
A review of topography and discussions of the nervous system as a substrate of higher nervous functions and seat of mental disturbances.
760 P G 1-3
Clinical Hypnosis and Hypnotherapy
Su, A, W, Sp. 1 cl., 4-hr. lab. optional.
Prereq.: 710 or equiv. and permission of instructor.
Theoretical and clinical aspects of hypnosis, with experience in techniques and applications in psychotherapy. Gwynne.

793
Individual Studies in Psychiatry
P 6, 12, 18
Offered all months.
Prereq.: Adequate clinical training in psychiatry and permission of instructor. Repeatable to maximum of 18 cr. hrs.
A supervised, scholarly investigation of some aspects of psychiatry in which there is interest by the student and expertise by the faculty.

801 G 2-3
Scientific Basis of Clinical Psychiatry
Su (2nd term). 6 cl. (4 lab. hrs. optional).
Prereq.: M.D. and permission of instructor.
Principles of case study, interviewing, history-taking, and diagnosis; rationale, indications, contra-indications, and precautions for physiological and psychological treatment. G. Harding, Jr.

850 G 1-6
Seminars in Psychiatry
Prereq.: Permission of chairman and instructor.
Repeatable to a maximum of 12 cr. hrs.
   a. Clinical Psychiatry
   b. Group Therapy
   c. Psychotherapy
   d. Psychiatric Literature
   e. Child Psychiatry

980 G 5
Advanced Clinical Training in Psychology
Su, A, W, Sp. Full-time (40 hrs. plus)
Prereq.: Two yrs. graduate study in clinical psychology and approval of staff.
Repeatable to a maximum of 30 cr. hrs.
Provides supervised basic, theoretical, and applied experience in the practice of clinical psychology.

999 G Arr.
Psychiatry Research
Prereq.: M.D. and residency in Psychiatry.
Research for thesis purposes only.

Psychology
Office: 321 Arps Hall, 1945 North High Street
Professors Wallace (Chairman), Angeline, Briggs, Brock, Clark, Cook, Erickson, Fletcher, Greenwald, Horrocks, Huelstman, Johnson, Kaswan, Kilpatrick, Latane, Leal, Marks, D. Meyer, Ospow, Ostrom, Peginsky, Re, Schmidt, Siegal, Stewart, Stogdill, Thompson, Wener, Wherry, and Wickens; Adjunct Professor P. Meyer; Associate Professors Brittin, Campbell, Dakarin, Ernst, Fox, Gardner, A. Gross (Visiting), Hakel, Helper, Hothersall, Isaac, Jones, Kangas, Mirels, Monroe, Nolan, Owen, Shuman, and Walsh; Assistant Professors Bruce, Delli, Edmonson, Engin, Field, Gilson, Glass, Greth, S. Gross (Visiting), Handley, Jackson, Kau, Klomonski, Marsh, Sandman, Schwebel, Shaw, Spitzner, Staats, Timms, Tzeng, Winer, Wise, and Wood; Adjunct Assistant Professors Archibald, Watson, and Weaver; Instructors Compton, Moyer, and Scott.

100 U 5
General Psychology
Su, A, W, Sp. 5 cl.
Introductory psychology, a prerequisite to advanced courses; the application of the scientific method to behavior; topics include learning, motivation, perception, personality, physiological basis of behavior.

101 U 5
General Psychology
Su, A, W, Sp. 5 cl.
Prereq.: 100.
Continuation of 100 with further emphasis on the development of a scientific attitude toward personal psychological problems in the fields of learning, thinking, intelligence, and personality.

120 U 3
Psychology of Personal Effectiveness
Su, A, W, Sp. 2 cl., 1 1/2-hr. lab.
A survey of theories and practices designed to improve higher level skills in reading, perception, learning, and adjustments.

130 U 1-4
Advising College Students
Sp.
Prereq.: Third qtr. freshman or above and permission of instructor.
Repeatable to a maximum of 4 cr. hrs.
Selected students will study the dynamics of and have experiences in advising students concerning their scholastic, social, and personal development.

210 U 5
Educational Psychology for Medical Personnel
Sp. 5 cl.
Prereq.: 100.
Not open to students with credit for 230.
Consideration of human capacities, abilities, interests, individual differences, and overall development; aspects of learning, personality, and physiological correlates of psychological phenomena of interest to medical personnel.
220 U 3
Quantitative and Statistical Methods in Psychology I
Su, A, W, Sp. 3 cl.
Prereq.: 100 or 300; and Math. 116 and 117, or equiv.
Elementary presentation of probability, descriptive, and
inferential statistics and methods of measurements
relevant to contemporary psychology.

221 U 3
Quantitative and Statistical Methods
in Psychology II
A, W, Sp. 2 cl., 1 2-hr. lab.
Prereq.: 220.
Not open to students with less than a grade of C in
220.
A concentrated examination of the applications of
statistical tools in inference and theory construction in
contemporary psychology.

230 U 5
Introduction to Educational Psychology
Su, A, W, Sp. 5 cl.
Prereq.: 100.
Not open to freshmen or to students with credit for
210.
Facts and principles of human development and
learning are applied to the problems of education;
scientific evidence in the solution of educational
problems is stressed. Angelino and Staff.

284† U 1-6
Group Studies
Prereq.: 100 and 101.
Not open to freshmen.
Repeatable to a maximum of 6 cr. hrs.
Reading and/or research projects by special agreement
between instructor and students; topics to be
announced.

300 U 5
Introductory Psychology
A, W. 5 cl.
Prereq.: 220.
Not open to students with credit for 100.
An introduction to psychology for students with
science background; topics covered similar to 100.

310 U 3
Basic Psychology: Perception
Su, A, W, Sp. 3 cl.
Prereq.: 220.
Theory, methods, and physiological correlates of
sensory and perceptual processes; emphasis on the
relation of behavior to stimulus variation. Isaac and
Owen.

311 U 3
General Psychology: Motivation and Action
A, W. 3 cl.
Prereq. or concur.: 220.
A behavioristic presentation of experimental work on
learning and motivation. Spitzner.

312 U 4
General Psychology: Learning and Thinking
W, Sp. 3 cl.
Prereq.: 220.
An introduction to the experimental study of human
memory, verbal learning, and cognition.

320 U 3
Social Psychology
Su, A, W, Sp. 3 cl.
Prereq.: 5 cr. hrs. in psych.
The influence of group processes, organizational
variables, and culture upon the social modification of
basic drives, attitudes, and language. Brock, Greenwald,
Latane, and Otrem.

321 U 3
Applications of Psychology
A, Sp. 3 cl.
Prereq.: 101.
Not open to students with credit for 100.
Drawing on general psychology, evaluation of
individual and group performance in relation to social
problems is emphasized; examples are drawn from
industry, education, and government. Hekel and
Wallace.

330‡ U 3
Psychology of Abnormal Behavior
Su. 3 cl.
Prereq.: 5 cr. hrs. in psych.
A consideration of the symptomologies, etiologies and
therapies of the major neuroses and psychoses with
special emphasis on psychoanalytic theories and
methods.

331 U 3
Psychopathology and Psychotherapy I
A, Sp.
Prereq.: 5 cr. hrs. in psych.
Examination and comparisons of current theories of
the nature of psychological disturbances and their
treatment; emphasis on recent conceptualizations and
treatment approaches. Weaver.

332 U 3
Psychopathology and Psychotherapy II
W.
Prereq.: 10 cr. hrs. in psych.
Continuation of 331.

333 U 3
Human Behavior Problems
Su, A.
Prereq.: 5 cr. hrs. in psych.
Analysis of behavior patterns which are often
considered undesirable or otherwise problematic;
emphasis on behavioral definitions and analyses of
problems, and on behavioral interventions. Nolan.

340 U 3
Genetic Psychology
A, W. 3 cl.
Prereq.: 9 cr. hrs. in psych.
A survey of developmental psychology including some
phylogenetic perspective.
500 U 3
Experimental Psychology
A, W, Sp.  2 cl., 2 lab. hrs. arr.
Prereq.: 310 and 312 or permission of instructor. 
Open only to Psych. majors.
The experiments are selected both for general and cultural values and for preparation for technical research in experimental psychology. Spitzner.

501 U G 3
Physiological Psychology
W.  3 cl.
Prereq.: 101 or 300.
Some physiological correlates of psychological phenomena; the properties of integrated organ systems, with emphasis upon the characteristics of their elements; consideration of psychosomatic abnormalities.

502 U G 3
Advanced Physiological Psychology
Sp.  3 cl.
Prereq.: 501.
Further physiological correlates of psychological phenomena; sensory and motor processes will be special topics.

504 U G 3
Psychology of Music
W.  3 cl.
Prereq.: Permission of instructor.
Psychological factors in musical learning, memorization, rhythm, harmony, form, tone color, interpretation, dictation, and music talent. Poland.

505 U G 3
Contemporary Viewpoints in Psychology
W.  3 cl.
Prereq.: 16 cr. hrs. in psych.
A consideration of the development of modern scientific psychology from its roots in the school of the 19th century to its contemporary status. Mothersill.

506 U 3
Advanced Experimental Psychology
Sp.  2 cl., 2 lab. hrs.
Prereq.: 506.
A continuation of 500 in which the student conducts additional experiments including an experiment of his own design.

511 U G 3
Psychological Testing
Su, A, W.  2 cl., 1 lab. hr.
Prereq.: 10 cr. hrs. in psych.
An overview of theoretical and practical aspects of the assessment and prediction of human behavior; topics include achievement, intelligence, personality, attitudes, interests, and interpersonal relations. Damarin.

520 U 4
Experimental Social Psychology
A, Sp.  2 cl., 4 lab. hrs.
Prereq.: 221, 320, and permission of instructor.
Open only to Psych. majors. Repeatable to a maximum of 12 cr. hrs.

Typical experiments in such social psychological areas as attitude change, group processes, and group influences upon the individual. Ostrom.

521 U G 3
Personnel and Organizational Psychology
A, Sp.  3 cl.
Prereq.: 220 or permission of instructor.
Influence of individual and organizational factors on performance of complex tasks; effects of task involvement on the individual; relationships between organizations and their clients. Kilmoski.

522 U 3
Laboratory in Personnel and Organizational Psychology
A, Sp.  1 cl., 4 lab. hrs.
Prereq. or concur.: 521 and permission of instructor.
Open only to Psych. majors.
Measurement of individual abilities and traits, group parameters, characteristics of tasks, and individual and group performance.

530 U G 3
Psychology of Personality
Su, A, W, Sp.  3 cl.
Prereq.: 10 cr. hrs. in Psych.
Consideration of major theoretical orientations in the study of personality; emphasis on empirical investigation of selected personality dimensions.

531 U 3 or 5
Clinical Psychology
Su, A, W.  3 cl., 2 optional lab.
Prereq.: 15 cr. hrs. in psych.
Open only to Psych. majors.
Introduction to clinical psychology through lectures, small group discussions, tapes, and films; emphasis on research and professional problems and methods which deal with these problems. Schwebel.

539 U G 3
Mental Hygiene for Professional Workers
Su, A, W, Sp.  3 cl.
Prereq.: 10 cr. hrs. in psych.
Not open to students with credit for 640.
The determinants of maladjustment and principles used in the prevention of maladjustment for teachers, personnel workers, social workers, psychologists, occupational therapists, and other professional groups. Fletcher and Kaufl.

540 U G 3
Counseling Psychology: An Introduction
Su, A, W, Sp.  3 cl.
Prereq.: 10 cr. hrs. in psych.
For students interested in counseling and personnel work; discussion of counseling psychology, counseling, and testing. Walsh and Kaufl.

541 U G 3
Educational and Vocational Appraisal
Su, A, W.  3 cl.
Prereq.: 10 cr. hrs. in psych.
Theory and techniques of appraisal of individual characteristics as related to the formulation of future educational and vocational plans. Walsh.
542 U G 3
Vocational Psychology
Su, A, Sp. 3 cl.
Prereq.: 10 cr. hrs. in psych.
Survey of the psychological aspects of work and their implication for vocational development; the use of labor force and occupational information in vocational choice. Campbell.

550 U G 3
Psychology of Childhood
Su, A, W, Sp. 3 cl.
Prereq.: 10 cr. hrs. in psych.
Presentation of psychological aspects of growth and development in middle childhood.

551 U G 3
Adolescence
Su, A, W, Sp. 3 cl.
Prereq.: 10 cr. hrs. in psych.
A study of the outstanding characteristics of the adolescent, the educational and social problems arising at this period, and means for dealing with the problem. Angelino, Horrocks, and Jackson.

560 U G 3
Educational Psychology
Su. 3 cl.
Prereq.: 10 cr. hrs. in psych.
Critical appraisal of the implications for education of modern psychological findings in advanced educational psychology.

571 U G 3
Psychology of Developmental Disability
A, W. 3 cl.
Prereq.: 30 cr. hrs. in psych, or permission of instructor.
The psychological problems of exceptional children including learning disorders, sensory defects, physically handicapped, emotionally disturbed, and other developmental disabilities. Edmonson.

599 Honors Course
A, W, Sp. 3 cl.
Prereq.: Permission of departmental Undergraduate Program Committee.
Repeatable to a maximum of 9 cr. hrs.
A program of readings, conferences, and reports selected to provide maximum individual development and preparation for graduate study in the field. Owen, Erickson, and Shulman.

600 U G 4
Psychology of Learning
Su. 4 cl.
Prereq.: 101 or equiv.
The principles that underlie the discovery, fixation, and retention of new modes of human behavior; emphasis on theoretical formulation of the necessary conditions of learning and forgetting. Johnson and Wickens.

601 U G 3
Comparative Psychology
A. 2 cl., 1 2-hr. lab.
Prereq.: 20 cr. hrs. in psych. or permission of instructor.
Principles of animal behavior, with emphasis upon the contributions of zoology and B. F. Skinner. Hothersall.

603 U G 3
Visual Perception
W. 3 cl.
Prereq.: 310 or permission of instructor.
Not open to students with credit for 503.
Phenomena, theory, and methods in the study of vision and visual perception as a model for sensory and perceptual processes. Owen.

604 U G 4
Psychology of Language
W. 2 2-hr. cl.
Prereq.: 100.
Introductory survey of the psychological research on language behavior; emphasis on understanding both language processes in the adult speaker and a child's acquisition of language.

609 U G 3
Introduction to Markov Learning Models
A. 2 1/2-hr. cl.
Prereq.: 220 and 221.
An introductory review of model building in psychology with special emphasis on Markovian mathematical techniques; detailed examination of two or three Markovian learning models. Erickson.

610 U G 3
Introduction to Quantitative Learning Models
W. 3 cl.
Prereq.: 609.
A continuation of 609; emphasis on non-Markovian models.

611 U G 3
Educational Testing
Su. 3 cl.
Prereq.: 15 cr. hrs. in psych.
A service course for those majoring in elementary and secondary education, guidance, school psychology, and school administration; stress on use of measurements in school.

615 U G 3
Introduction to Mathematical Psychology
A. 3 cl.
Prereq.: 510 or equiv.
Survey of current topics in mathematical psychology; topics include measurement and scaling, decision theory, signal detection theory, information theory, and mathematical learning theory.

620 U G 5
Human Performance
A, Sp. 5 cl.
Prereq.: 220 and 12 cr. hrs. of Psychol. beyond the introductory level.
Information processing in human behavior; topics include signal detection, attention, memory, and models of cognitive processes.
Psychology of Individual Effectiveness
W. 3 cr.
Prereq. 351 or grad standing.
Description, prediction, and control of individual, social, and task-related determinants of individual behavior and effectiveness.

Psychology of Organizational Effectiveness
Sp. 3 cr.
Preprq. 321 or graduate standing.
Central concepts of organization, and analysis of underlying behavioral assumptions; social processes as constraints on organizations; measurement of organizational outcomes; theory of organizational processes. Wood.

Human Motivation
W. 3 cr.
Preprq. 220 or permission of instructor.
Overview of theory and research in the explanation of the direction and level of human behavior in real life settings. Wood.

Psychology of Public Attitudes
A. 3 cr.
Preprq. 320 and 220 or equiv.
Attitude organization and change; study of the determinants of attitude. Ostrom.

Prejudice and Personality
A. 3 cr.
Preprq. 220.
Social psychological theories of group conflict; personality dynamics in prejudice; approaches to the reduction of intergroup hostility.

Psychology in Eastern Europe
W. 3-3 hr. cr.
Preprq. 30 cr. hrs. in psych. or grad standing or permission of instructor.
A survey of the approaches and bibliography of the psychology of human behavior with emphasis on the USSR. Breck.

Psychology of the Adult Years
W. 3 cr.
Preprq. 15 cr. hrs. in psych.
Study of theory, methodology and research related to psychological changes through adulthood and old age, focusing on developmental changes through the adult life span.

Psychology of Creativity
A. 3 cr.
Preprq. 15 cr. hrs. in psych. or permission of instructor.
A critical examination of conceptural, theoretical, and methodological problems related to the systematic study of creativity; special attention to background factors related to creative behavior. Clark.

Principles and Economy of Learning
Su, Sp. 3 cr.
Preprq. Grad. standing or 16 cr. hrs. psych.
Principles involved in the control of learning in school with emphasis upon educational technology.

The Intellectual Deviate
Su, Sp. 3 cr.
Preprq. Permission of instructor.
Theory and concepts of mental retardation, slow learner, causation, diagnosis, and treatment of social, personal, and educational problems of persons so labeled.

Principles of Treating the Problem Child
W. 3 cr.
Preprq. 15 cr. hrs. in psych.
Methods used in dealing with behavior and personality problems of children.

Defilquent Behavior
A. Sp. 3 cr.
Preprq. 15 cr. hrs. in psych.
The meaning and significance of delinquency in a cultural context; its psychological basis from a theoretical and empirical framework; present modes of detection and treatment. Angelino.

Individual Studies
Preprq. 16 cr. hrs. in psych. and permission of instructor.
Repeatable to a maximum of 30 cr. hrs. for undergraduates and to a maximum of 45 cr. hrs. for graduates in any combination of decimal subdivisions. Individual reading or research projects by special agreement between instructor and student.

Clinical Psychology
689.01 Clinical Psychology
689.02 Counseling Psychology
689.03 Developmental Psychology
689.04 Experimental Psychology
689.05 Industrial Psychology
689.06 Quantitative Psychology
689.07 Social Psychology

Honors Seminar in Clinical/Counseling Psychology
Preprq. Junior or senior standing and permission of instructor.
Repeatable to a maximum of 9 cr. hrs. for each decimal subdivision. Designed to give advanced undergraduate Psychology majors an opportunity to gain academic and practical knowledge about clinical/counseling psychology.

Problems and Issues
A, W, Sp. 3 cr. and/or 3 lab hrs.

Field Experience
A, W, Sp. 1 cr. and/or 9 lab hrs.
Faculty supervised experience in field research and practice.
Orientation of New Psychology Majors
W. 1 cr. and/or 9 lab. hrs.
Supervised experience in orienting new Psychology majors.

Introduction to National Security
(See Nat. Sec. Pol. S. 702.)

731 U G 3
Individual Differences
Sp. 3 cr.
Prereq.: 220 or 510; 340 and 550 or 551.
Review of major dimensions of individual differences, their developmental history, and significance for psychological generalizations and for the design of educational curricula.

763† U G 3
Hereditary Components of Human Behavior
Sp. 3 cr.
Prereq.: Graduate standing or 20 cr. hrs. in psych. and permission of instructor.
Emergence and elaboration of awareness over the evolutionary span; analyses of mind as a psychological construct.

Research Principles and Techniques in National Security
(See Nat. Sec. Pol. S. 765.)

788 U G 3
Laboratory in Industrial Psychology
1 cr., 4 lab. hrs.
Prereq.: 510 or equiv. and permission of instructor.
Repeatable in different sections to a maximum of 12 cr. hrs.

788.01† Attitude and Morale Scales
W.
Wood.

788.02 Measurement of Individual Effectiveness
Sp.
Wallace.

788.03 Measurement of Organizational Effectiveness
A.
Wood.

788.04 Merit Rating
W.
Wherry.

794 U G 3
Group Studies
Su, A, W, Sp. 3 cr.
Prereq.: 15 cr. hrs. in psych. at 500 level or above and permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
The topics vary from quarter to quarter and will be announced at least one month in advance.

800 G 3-15
Advanced Experimental Laboratory
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Advanced training in the experimental and quantitative methods in the several areas of general experimental psychology and comparative psychology.

Seminar in National Security Research
(See Nat. Sec. Pol. S. 801.)

801 G 4
Advanced Theoretical Psychology
Sp. 4 cr.
A description and evaluation of the major advanced psychological behavior theories. Wickens.

802 G 3
Advanced Psychology of Motivation
Sp. 3 cr.
Prereq.: 20 cr. hrs. in psych., including 311 or 600 or permission of instructor.
An evaluation of the experimental and theoretical material on: physiological drives; development and maintenance of secondary motives; perception and motivation, conflict. Spitzner.

803 G 3
Theories of Perception
Sp. 3 cr.
Prereq.: 310 and 501 or permission of instructor.
Theoretical interpretations of the phenomena, problems, and experimental data of perception, including influences of development and learning. Owen.

804 G 3
Advanced Comparative Psychology
Sp. 3 cr.
Prereq.: 601.
Contemporary literature in comparative psychology. Hetherington.

805 G 3
Psychophysics of the Special Senses
Su. 3 cr.
Prereq.: 502 or 503 or permission of instructor.
A survey of the basic physiology of the senses and the peripheral nervous system; emphasis on receptor mechanisms and neural coding processes.

806 G 3
Neuropsychology I
A. 3 cr.
An introduction to the principles governing neural integrative mechanisms; morphology of nervous systems of the vertebrates; transmission in individual neurons; properties of junctions in integrative networks; elementary laws or reflex action. Meyer.

807 G 3
Neuropsychology II
W. 3 cr.
Prereq.: 806.
Functional differentiation of the nervous systems of vertebrates; properties of principle division of the brain; organizations of the forebrain; mechanisms of sleep and waking rhythm; mechanisms of perception. Meyer.

808 G 3
Neuropsychology III
Sp. 3 cr.
Prereq.: 807.
Neural mechanisms of motivation and behavioral plasticity; control of major cyclical phenomena, including hunger, thirst, and reproduction; reactions to aperiodic and continued stresses; mechanisms of the learning process. Meyer.

809  G 3
History and Systems of Psychology
Su, A.  3 cl.
Prereq.: 16 cr. hrs. in psych.
Development of psychology from the philosophical antecedents to its present status as a science and a profession; assignments in original sources as far as possible. Hothsall.

810†  G 5
Methodological Foundations of Experimental Psychology
W.  5 cl.
Problems of definition of psychological concepts, formulation and testing of hypotheses, theory, construction, and formulation of empirical generalization with reference to design of psychological experiments. Johnson.

811  G 2
Seminar in Experimental Psychology
A, W, Sp.  2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

812†  G 1
Contemporary Psychological Literature
Sp.  1 cl.
Briggs.

813  G 3
Psychology as Science and Profession
A.  3 cl.
Open only to graduate students in Psych.
Orientation for incoming graduate students, including the roles and responsibilities of psychologists, a departmental history, and a sampling of current substantive interests and research methodologies.

814†  G 3
Psychophysiology of Behavior Disorders
W, Sp.  3 cl.
Prereq.: 502 or 806 or permission of instructor.
An examination of current experimental research on the neuro-electrical, neuro-chemical, CNS structural correlates of behavior disorders.

815  G 3
Decision Processes
A.  3 cl.
Prereq.: Grad. standing in Psych., undergrad.
Introductory course in the application of statistical decision theory as a normative model and analytic technique in the experimental study of cognitive processes.

816  G 3
Human Performance Theory
W.  3 cl.
Prereq.: 629 or permission of instructor.
Research and theory on the discrete and on the continuous cases of human information processing topics include input processes, central processing functions, and output processes. Briggs.

817  G 3
Seminar in Human Performance
W, Sp.  3 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
Briggs, Shulman, and Wise.

819  G 2
Seminars in Industrial Psychology
2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
  a.† Psychology of Individual Effectiveness.
     Sp.
     Klimoski.
  b. Psychology of Organizational Effectiveness.
     Sp.
     Wood.
  c. Human Motivation.
     A.
     Wood.
  d.† Theoretical Developments and Issues.
     A.
     Klimoski.
     Su, W.
     Wood.

821  G 2
Research Seminar in Industrial Psychology
A, W, Sp.  2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Advanced training in the psychology of individual and organizational effectiveness, emphasizing quantitative and experimental methods. Hakele, Klimoski, and Wood.

822  G 3
Psychological Assessment
A.  3 cl.
Prereq.: 510.
A critical survey and evaluation of concepts and techniques of assessment of intelligence, special aptitudes, and personality. Damarin.

823  G 3
Theory of Test Construction
W.  3 cl.
Prereq.: 511 or 611 or equiv.
Review of major approaches including traditional mental test theory, assessment theory, and decision theory in relation to constructing and use of various types of tests. Damarin.
Seminar in Psychological Measurement

Prereq.: Permission of instructor
Repeatable to a maximum of 10 cr. hrs. in any combination of decimal subdivisions.

Models for Psychophysics
W.
Isaac.

Models for Psychological Scaling
Sp.
Isaac.

Models for Psychological Testing
Damarin.

Models for Interpersonal Analysis
A.
Ostrom.

Statistics in Psychology I
A. 3 cr., 2 lab. hrs.
Prereq.: Grad. standing in Psych.
First of a two-quarter sequence in inferential statistics; basic concepts of sets, probability, distributions, and foundations of inference and estimation; special applications to psychology. Isaac.

Statistics in Psychology II
W. 3 cr., 2 lab. hrs.
Prereq.: S25 or equiv.
Continuation of S25; theoretical justification and uses of various inferential techniques; topics: t, X², F distributions, correlation and regression, non-parametric techniques. Briggs.

Analysis of Variance
Sp. 4 cr.
Prereq.: S25 and S26, or equiv.
A coverage of statistical inference in analysis of variance designs; analysis of variance designs include randomized blocks, repeated measures, mixed models, and related contract tests.

Correlational Analysis
A. 4 cr.
Prereq.: S10 or permission of instructor.
Techniques and rationale of using quantitative and qualitative data for prediction; test and battery analysis and validation. Wherry.

Quantitative Foundations of Psychological Statistics
W. 4 cr.
Prereq.: S10 or equiv.
Principles and techniques for deriving statistical equations; their modification to handle special cases; clarifying assumptions and their application. Erickson.

Machine Programming for Psychological Research
Su, Sp. 3 cr.
Prereq.: S28, Math 211, and permission of instructor.
An introduction to mnemonic symbolic language and loop theory; applications to the more common psychological statistical problems will be stressed. Wherry.

Seminars in Psychological Statistics
2 cr.
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.

a. Analysis of Variance.
A.
Briggs.

b. Experimental Design.
W.
Isaac.

c. Factor Analysis.
Su. W.
Wherry.

d. Mathematical Models and Theory.
Su.
Erickson.

e. Non-Parametric Statistics.
Su, Sp.
Wherry.

f. Advanced Experimental Design.
g. Advanced Multivariate Analysis.
h. Computer Simulation Research.
Su.
Isaac.

Statistical Problems in Developmental Psychology
W. 3 cr.
Prereq.: S25 and S27 or S28; and permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
A bridge from formal statistics to current research in developmental and educational psychology with repeated measure, time series data, indices of change, etc.

Psychology of Infancy
A. 3 cr.
Prereq.: S37 or permission of instructor.
Not open to students with credit for S50.
Psychological development during the first four years of life with particular reference to neonatal period and research methodology in studies involving infants. Wener.

Child Development
A. 3 cr.
Prereq.: S37 or permission of instructor.
Major developmental aspects of childhood; review of theory, methodology, research studies, and historical and contemporary writings about children; consideration of interdisciplinary approaches. Thompson.
836  G 3
Adolescent Development
Sp.  3 cl.
Prereq.: 837 or permission of instructor.
Major developmental aspects of adolescence; review of
theory, methodology, research studies, and historical
and contemporary writing about adolescents;
consideration of interdisciplinary approaches.
Horrocks.

837  G 3
Nature and Direction of Human Development
A.  3 cl.
Critical consideration of human development, selected
theories and methods of investigation including units
of measurement; emergence of mind considered
through the phylogenetic and ontogenetic sequence.
Horrocks.

838  G 2
Interaction of Developmental Learning Functions
W.  2 cl.
Prereq.: 550 or 835 and 600 or 671 or equiv.
Relation of empirical data on imprinting, sensory and
motor deprivation, and environmental extensions upon
theoretical construction designed to integrate such
data. Thompson.

839†  G 3
Comparative Child Rearing Practices
A.  3 cl.
Prereq.: 835 and 836 or equiv., and Anthro. 520 and
permission of instructor.
Comparative survey of familial and community
childrearing practices in modern and primitive
cultures; psychological and theoretical implications of
various practices; review of research methodology.
Angeline.

840  G 3-9
Practicum in Developmental Psychology
Prereq.: 2nd yr. grad. standing in Psychol., 837, 838 and
permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Observation of children in a representative variety of
clinical settings with particular reference to
developmental phenomena of growth and behavior;
application of research, diagnostic and intervention
methodology. Helper, Leland, and Wenar.

841  G 1
Symposium in Developmental Literature
Prereq.: Permission of instructor.
Critical review of current research literature in
developmental psychology. Horrocks.

842  G 3
Seminar in Developmental Psychology
2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
  Horrocks.
b. Development of Dimensions of Cognitive
  Functions.
  A, Sp.
  Thompson.
c. Development of Social Attitudes and Values.
  A, Sp.
  Helper.
d. Cultural Influences in Human Development.
  Sp.
  Clark.
e. Psychological Variables in Growth.
  A.
  Wenar.
f. Development of Creative Behavior.
  A.
  Clark.
g. Deviate Behavior in Childhood and Adolescence.
  A.
  Horrocks.
h. Phylogensis.
i. Aging and Senescence.
j. Sequential Phenomena of Growth and
  Degeneration.
  Su.
  Damarin.
k. Developmental Aspects of Language.

843  G 3
Theories of Human Development
3 cl.
Prereq.: 837.
Comparative presentation of significant major
historical and modern developmental theories with
specific evaluation of their relevance in the formulation
of a comprehensive psychological theory. Horrocks.
843.01 Analytic and Social Learning Theories
W.
843.02 Cognitive, Organic and Structural Theories
Sp.

844  G 2
Psychopathology of Childhood
W.  2 cl.
Prereq.: 837 and permission of instructor.
A study of psychopathological conditions of childhood,
such as autism, schizophrenia, neurosis, acting out,
and behavior problems from a developmental point of
view. Wenar.

845  G 3
Child Psychotherapies
W.  1 2½-hr. cl.
Prereq.: 844 or equiv. and permission of instructor.
Study of several major modes of psychotherapy with
children; consideration of theoretic foundations,
principal techniques, range of applicability, and
presumed means of effecting change. Rie.

846  G 3
Advanced Educational Psychology
Sp.  3 cl.
Prereq.: Permission of instructor.
Critical consideration of research and theory in
developmental learning and measurement as relevant
to education; special attention to historical positions,
assumptions, and current literature. Clark.
847† G 2
Psychological Problems in Higher Education
Sp. 2 cl.
Designed to give graduate students preparing for college teaching positions context with current educational research regarding the psychological problems they will encounter. Horrocks.

848 G 2
Seminar in the College Teaching of Educational Psychology
A, W, Sp. 2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
The objectives of educational psychology in teacher education; a presentation of practical problems in organization, development, and evaluation of undergraduate courses in educational psychology. Angelino and Kaul.

849 G 2
Seminar in Educational Psychology
A, W, Sp. 2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs. Angelino and Clark.

850 G 3
Adaptive Behavior and Developmental Disability
Sp. 3 cl.
Prereq.: 857 or permission of instructor.
Overview of the psychology of adaptation and its relationship to the classification, assessment, and modification of mental retardation and developmental disability. Leland.

852† G 3
Behavioral Change Techniques with Children
W, Sp. 1 cl., 4 lab. hrs.
Prereq.: 571 or equiv., 600 and permission of instructor.
Research and theory on behavior change methodology; practice with behavior change techniques.

852.01 Behavior Modification
Theory and practice of behavior modification; emphasis on experience with individual children and consultation within the school setting.

852.02 Group Behavior Modification
Theory and practice of group behavior modification, with an emphasis on the management of classroom behavior.

853 G 3
Psychology of the Exceptional Child and Adult
Su. 3 cl.
Prereq.: 571 and permission of instructor.
Review and evaluation of theoretical and research literature concerning exceptional children and adults. Leland and Edmonson.

855† G 3
Child Behavior Assessment and Consultation
1 cl., 4 lab. hrs.
Prereq.: Permission of instructor.
Theory of psychological assessment and consultation; practice in observation, interviewing, testing, documentation of behavior, writing reports and consulting on the learning and behavioral problems of children.

855.01 Assessment of Intelligence
Theories of cognitive functioning; practice with individual intelligence tests.

855.02 Assessment of Personality and Behavioral Disorders in Children
Cognitive, psychodynamic and phenomenological approaches to the assessment of personality in children, including practice with projective and self-report techniques.

857 G 4
Psychological Problems in Mental Retardation
A. 4 cl.
Prereq.: Permission of instructor.
Advanced study of psychological aspects of mental retardation; topics include theories of mental retardation, studies of sensory and perceptual processes, cognitive chronically ill and neurologically impaired. Leland.

859† G 4
Psychological Problems in Physical Disability
Sp. 4 cl.
Prereq.: Permission of instructor.
Advanced study of cognitive and non-cognitive functioning in those with motor and sensory disabilities, and the chronically ill and neurologically impaired.

859 G 2
Seminars in the Psychology of Exceptional Children and Adults
W. 2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs.
Advanced topics in research strategies and methodology; specialized topics on the growing edge of the psychology of exceptional children and adults. Angelino and Leland.

860† G 3
Theories of Personality
A. 3 cl.
Prereq.: Advanced work in personality and social psych. and permission of instructor.
A critical consideration of the theories of personality structure and origin. Mirels.

861 G 3
Clinical Psychology
Prereq.: Permission of instructor.
Introduction to the theory and use of clinical methods in psychology, designed for first-year graduate students in clinical psychology. Kaswan.

861.01 Lecture
A. 3 cl.
Repeatable to a maximum of 9 cr. hrs.

861.02 Seminar and Practicum
A. 1 or 2 cl. and/or 2-4 lab hrs.
Repeatable to a maximum of 6 cr. hrs.
862
Problems of Human Behavior
Prereq.: Permission of instructor.
Introduction to the study of human behavior problems; practicum involves observation and participation in field settings. Kaswan.

862.01 Lecture
W. 2 cl.
Repeatable to a maximum of 6 cr. hrs.

862.02 Practicum
W. 2-4 lab. hrs.
Repeatable to a maximum of 6 cr. hrs.

G 1 or 2

863
Psychological Dynamics
Prereq.: Permission of instructor.
Special topics in the study of behavior.

863.01 Lecture
Sp. 3 cl.
Repeatable to a maximum of 9 cr. hrs.

863.02 Practicum
Sp. 2-4 lab. hrs.
Repeatable to a maximum of 6 cr. hrs.

G 3

864
Psychological Appraisal
Prereq.: Permission of instructor.
Courses (except 864.01) ordinarily involve both classroom and practicum experiences.
Concepts and procedures for appraising human behavior.

864.01 Lecture
Sp. 3 cl.
Theories and methods of psychological appraisal; integration of different theories and approaches.

864.02 Cognitive Appraisal
Sp. 1-4 cl. and/or 2-6 lab. hrs.
Repeatable to a maximum of 8 cr. hrs.

864.03 Projective Appraisal
W. 1-4 cl. and/or 2-8 lab. hrs.
Repeatable to a maximum of 8 cr. hrs.

864.04 Actuarial Appraisal
W. 1-4 cl. and/or 2-8 lab. hrs.
Repeatable to a maximum of 8 cr. hrs.

864.05 Behavior Analysis
A. 1-4 cl. and/or 2-8 lab. hrs.
Repeatable to a maximum of 8 cr. hrs.

864.06 Special Topics
Su. 1-4 cl. and/or 2-8 lab. hrs.
Repeatable to a maximum of 8 cr. hrs.

G 1-4

865
Group Interventions
A. W, Sp. 1-5 cl. and/or 2-10 lab. hrs.
Prereq.: Permission of instructor.
Courses ordinarily involve both classroom and practicum experience.
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.

G 1-5

865.01 Group Psychotherapy

865.02 Family Therapy

865.03 Interventions in Organized Groups

865.04 Encounter Group Processes

865.05 Novel and Experimental Group Processes

G 1-5

866
Interventions with Individuals
A, W, Sp. 1-5 cl. and/or 2-10 lab. hrs.
Prereq.: Permission of instructor.
Courses ordinarily involve both classroom and practicum experience.
Each decimal subdivision repeatable to a maximum of 15 cr. hrs.

G 2 or 4

866.01 Individual Psychotherapy

866.02 Behavior Modification

866.03 Existential and Humanistic Approaches

866.04 Novel and Experimental Approaches

867 Seminar in Clinical Abnormal Psychology
A, W, Sp. 2 cl.
Prereq.: Permission of instructor.
Two sections may be offered in any one qtr.

G 5

868
Community Psychology
A, W, Sp. 2 cl. and 6 lab. hrs.
Prereq.: 2nd yr. of grad. study; permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

G 2

869 Research Methodology
A, W, Sp. 2 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Discussion of conceptual and methodological issues related to the ongoing work of graduate students and faculty.

870 Advanced Social Psychology
A. 3 cl.
Prereq.: 25 cr. hrs. in psych. including 820 and 822 or 500 or equiv.
Problems of learning and perception relative to the social environment, the influence of culture in the development of individual behavior patterns, and related topics. Brock.

G 3

871 Counseling and Therapy as a Social Institution
A. 3 cl.
A review of diverse helping practices as belief and ritual, with emphasis upon their functions in American society.
Social Psychology Laboratory
A, W, Sp. 2 cl., 2 lab. hrs. for each additional cr. hr.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Advanced training in methods and data collection in the areas of social psychology, laboratory, and field experience. Brock, Greenwald, Latane, and Ostrom.

Seminar in Social Psychology
3 cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 18 cr. hrs.
- Contemporary Attitude Theory and Research.
- Social Structure and Personality.
- Systematic Theory in Social Psychology.
- The Psychology of Social Movements.
- Current Research Trends.
- Group Processes.

Cognitive Processes
Su, Sp. 3 cl.
Prereq.: 20 cr. hrs. in psych. or permission of instructor.
Theories of complex information processing functions and their acquisition; special attention to the role of language in complex perceptual and motor performances. Greenwald.

Practicum in Social Psychology
A, W, Sp. 2 cl., 2 lab. hrs.
Prereq.: Grad. standing in Psych. or permission of instructor.
Survey and supervised experience in using the technique and research designs of social psychology. Brock.

Human Learning II: Memory
W. 2 2-hr. cl.
Theoretical issues and experimental research on the basis of human memory.

Human Learning III: Cognitive Processes
Sp. 2 2-hr. cl.
Theoretical and experimental research in several areas of cognition including concept learning, problem solving, and reasoning.

Administrative Leadership in Counseling and Personnel
Sp. 2 cl.
Prereq.: Permission of instructor.
Advanced graduate students relate organizational theory and concepts of interpersonal relations to administrative practice in educational and community settings. Stewart.

Psychology of Counseling
Prereq.: 13 cr. hrs. in psych., and (for the practicum) permission of instructor.
Assumptions and facts fundamental to counseling; factors in the interview situation; nature of counseling techniques; resources in counseling; relation of counseling to other personnel procedures.

Practicum
A, W. 4 lab. hrs.

Counseling Diagnostics
Prereq.: 510 or equiv., 511 or equiv., and (for lab.) permission of instructor.
Theory and application of interview data, observed behavior, test results, and biographical information as a basis for diagnostics in counseling and evaluation.

Psychology of Career Development
Sp. 3 cl.
A survey and critical analysis of literature and research regarding effects of sequence of work activity, vocational exploration, and career development. Osipow.

Laboratory
Sp. 1 2-hr. lab.
Prereq.: 882 or equiv. and permission of instructor.
A series of practical exercises designed to apply the principles of the psychology of career development. Osipow.
885  G 3  
Beginning Practicum in Counseling  
Su, A, Sp.  1 cl., 4 lab. hrs.  
Prereq.: 883 and permission of instructor.  
Repeatable to a maximum of 6 cr. hrs. 
Supervised practice in assisting college students in 
their adjustment to college; emphasis on diagnosis and 
treatment; special help given to interviewing 
procedures. Stewart and Walsh.

886  G 2-3  
Advanced Practicum in Counseling  
A, W, Sp.  1 cl., 2 lab. hrs. for each hr. of 
additional cr. 
Prereq.: 885 and permission of instructor.  
Repeatable to a maximum of 9 cr. hrs. 
Supervised practice in (a) assisting college students 
and adults with problems of personality adjustments 
or (b) supervising techniques through observation and 
discussion of work with other counselors.

887  G 2  
Seminar in Counseling Psychology  
Prereq.: Permission of instructor.  
Repeatable to a maximum of 20 cr. hrs.

888  G 3  
Psychological Study of Individuals and Groups  
W.  3 cl. 
Prereq.: Permission of instructor.  
Not open to students with 6 cr. hrs. in 650. 
Basic concepts and techniques of student personnel 
work. Rodgers.

889  G 1-5  
Interdepartmental Seminar  
Sp.  
(See under Interdepartmental Seminars.)

900  G 3  
Legal Environment of Public Administration  
W.  1 3-hr. cl. 
An examination and analysis of the constraints 
imposed upon public administrative processes by the 
legal environment including judicial policy-making and 
the evolving legal order. Lynn.

901  G 3  
Introductions of Public Administration  
A.  1 3-hr. cl. 
Critical analysis of the environmental constraints upon 
the problem-solving role of the administrator in the 
public sector environment; examination of structure, 
processes, and problems. Craig and Rettig.

902  G 3  
Seminar on Public Policy Formulation  
Sp.  1 3-hr. cl. 
Prereq.: 801 and 802. 
Study of the policy formulation process in a political 
setting emphasizing the management or resolution of 
conflicts within a public bureaucracy; selected cases. 
Lundstedt.

903  G 3  
Seminar on Governmental Information 
Systems Administration  
A.  2 1-1/2-hr. cl. 
Prereq.: Acc. 712 or equiv. or permission of instructor. 
Critical study of the administration and design of 
management information systems for public agencies; 
selected case studies. Lundstedt.

904  G 3  
Seminar on Systems Analysis 
for Public Policy Decisions  
W.  2 1-1/2-hr. cl. 
Prereq.: 801, 802, 803, 804, Econ. 501, and Bus. Admin. 
801.02 or permission of instructor. 
Studies in the application of systems analysis to 
administrative and policy problems in the public 
sector; selected case studies and problems. Mullins.
G 3
Seminar on Planning and Program Budgeting
Sp. 2 1/2 hr. cl.
Prereq.: 804 or equiv. and Econ. 501 or equiv. or permission of instructor.
Critical analysis of the administration and design of a planning, programming, and budgeting system; examination of case studies emphasizing applied and theoretical problems. Craig and Stanley.

G 3
Policy Problem Seminar I
W.
Prereq.: Permission of instructor.
Multidisciplinary seminar integrated with field experience in the solution of actual public administrative and policy problems; organized around problem areas.

G 3
Policy Problem Seminar II
Sp.
Prereq.: 850.
Continuation of 850.

G. Arr.
Seminar on Advanced Problems in Public Administration
Prereq.: Permission of instructor.
Repeatable to a maximum of 6 cr. hrs. in any one subdivision.
Special studies of selected problems which may include readings, case studies, internships, field investigations, simulation, systems analysis, role playing, team teaching, and other experimental techniques.

860.01 Comparative Administration
860.02 Correctional Administration
860.03 Defense Policy Administration
860.04 Development Administration
860.05 Fiscal Administration
860.06 Health Services Administration
860.07 Information Systems Administration
860.08 Municipal Administration
860.09 Natural Resources Administration
860.10 Personnel and Labor Relations Administration
860.11 Planning Administration
860.12 Research Administration
860.13 Urban Affairs Administration
860.14 Welfare Administration
860.99 Special

G Arr.
Research in Public Administration: Thesis
Repeatable to a maximum of 6 cr. hrs.
Research for thesis purposes only.

G Arr.
Research in Public Administration: Dissertation
Repeatable to a maximum of 45 cr. hrs.
Research for dissertation purposes only.

U 2
Introduction to Radiologic Technology
Su. 2 cl.
Prereq.: Permission of instructor.
An orientation to radiologic technology including the history of the profession, responsibilities of the technologist, professional development, radiation protection, areas of specialization, and hospital organization.

U 9
Radiographic Procedures I
Su. 2 cl., 1 2-hr. lab., 24 hrs. clinical experience.
Prereq.: Permission of instructor.
Analysis of theory in radiography of the chest, the abdomen, and its contents with application of theory in the laboratory and clinical facilities. Dings.

U 9
Radiographic Procedures II
A. 2 cl., 1 2-hr. lab., 24 hrs. clinical experience.
Prereq.: Permission of instructor.
Continuation of 411 emphasizing the appendicular skeleton and bony thorax. Ballinger.

U 9
Radiographic Procedures III
W. 2 cl., 1 2-hr. lab., 24 hrs. clinical experience.
Prereq.: 412 or permission of instructor.
A continuation of 412 emphasizing the vertebral column, pelvis, and skull. Ballinger and Dings.

U 3
Radiographic Processing
Su. 2 cl., 1 2-hr. lab.
Prereq.: Permission of instructor.
A study of the photographic process, including processing methodology and the effects of the chemical components on the radiographic film. Ballinger.

U 3
Radiographic Exposure
Su. 2 cl., 1 2-hr. lab.
Prereq.: Permission of instructor.
Presents theory to establish radiographic exposure values while emphasizing radiographic quality and the accessory equipment used in the production of a satisfactory radiograph. Dings.

U 3
Radiologic Physics I
A. 2 cl., 1 2-hr. lab.
Prereq.: Physics 112 or permission of instructor.
An analysis of the production of X rays including X-ray circuitry. Dare.
Radiology

Office: N-212 University Hospital, 410 West 10th Avenue

Professors Nelson (Chairman), Detley, Christoforidis, Molnar, and Myers; Associate Professors Riccobono and Stockum; Assistant Professors Ehlers, Fulmer, Goldstein, Hart, Hodgson, Johnson, Kartha, Klosterman, and Paul.

530 U 3
Advanced Radiographic Exposure
A 2 cl., 1 2-hr. lab.
Prereq.: Permission of instructor.
In-depth study in establishing radiographic exposure values in new installations or when equipment is changed. Dings.

540 U 6
Clinical Experience in Radiologic Technology
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs
Clinical application of radiographic technics in the Radiology Department of The Ohio State University Hospitals, Builock and Staff.

555 U 5
Nuclear Medicine Technology
Sp. 1 cl., 12 hrs. clinical experience.
Prereq.: Permission of instructor.
Identification of radioactive pharmaceuticals and a study of their use in patient diagnosis with application of theory in the nuclear medicine laboratories.

556 U 5
Pediatric Radiography
Sp. 1 cl., 12 hrs. clinical experience.
Prereq.: Permission of instructor.
Analysis of theory in pediatric radiography with application in the clinical facilities of Children's Hospital, Gabbard and Groff.

557 U 5
Radiation Therapy Technology
Sp. 1 cl., 12 hrs. clinical experience.
Prereq.: Permission of instructor.

565 U 2
Departmental Operation
W. 1 2-hr. cl.
Prereq.: Permission of instructor.
A study of the structure and operation of departments of radiology.

590 U 4
Special Radiographic Procedures
W. 2 cl., 8 hrs. clinical experience.
Prereq.: Permission of instructor.
Theory and clinical experience in cardiovascular, neurological, and other specialized radiographic procedures.

670 U P G 2
Medical Radiation Physics
Sp. 2 cl.
Prereq.: Permission of instructor.
Ionizing radiations, their production, properties and interaction with materials of medical interest; physical principles of radiation therapy, radiation dosimetry, and radiation protection.

680 U P G 2
Radiation Biology
A. 2 cl.
Prereq.: Permission of instructor.
Effect of ionizing radiation in biological systems at the molecular, cellular, organ, organism, and community levels with special emphasis on medical implications and radiation safety.

740 P 6, 12, 18
Clinical Radiology
1, 2, 3, or 4 months; offered all months except June, July, Aug.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Participation in special seminars and clinics; optional research project.
   a. Radiologic diagnosis.
   b. Radiation therapy.

750 P 1
Advanced Radiology
1 month, offered Oct. and Feb.
Prereq.: Med. 4th yr. standing.
Clinical clerkship in the Department of Radiology, University Hospital; instruction in radiation therapy and film reading techniques.

793 P 6, 12, 18
Individual Studies
1, 2, 3, or 4 months; offered all months except June, July, and Aug.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Graduated participation in diagnostic and therapeutic radiology; optional research project after 6 credit hours in 793.

999 G Arr.
Research in Radiology
Research for thesis purposes only.
Respiratory Technology

(School of Allied Medical Professions)

Office: 431 School of Allied Medical Professions
Building, 1383 Perry Street

Assistant Professor Morgan (Division Director);
Instructor Plibeam; Clinical Instructors Conkle and
Hannam.

480
Respiratory Technology
Prereq.: Permission of instructor.

480.05 Components of Respiratory Health
Repealable to a maximum of 3 cr. hrs.
Survey of normal respiratory mechanisms, the
respirable environment, and the role of the
technologist. Morgan and Staff.

480.10 Basic Respiratory Technology
Repealable to a maximum of 3 cr. hrs.
Administration of therapeutic gases and aerosol
agents. Morgan and Staff.

480.20 Respiratory Mechanisms
Repealable to a maximum of 3 cr. hrs.
Consideration of ventilatory dynamics, pulmonary
circulation, and respirable gas exchange. Morgan
and Staff.

480.30 Advanced Respiratory Technology
Repealable to a maximum of 3 cr. hrs.
Consideration of design and application of
mechanical ventilators. Morgan and Staff.

480.40 Interrelated Therapeutics
Repealable to a maximum of 6 cr. hrs.
Study of mechanisms of specific disorders, as they
relate to various therapeutic measures. Morgan and
Staff.

480.50 Selected Studies in Respiratory
Technology
Repealable to a maximum of 5 cr. hrs.
Consideration of selected problems and procedures
in respiratory technology. Morgan and Staff.

489
Clinical Experience in Respiratory Technology
Su, A, W, Sp. 6-30 hr. field experience a wk.
Prereq.: Permission of instructor.
Repealable to a maximum of 34 cr. hrs.
Field experience in clinical respiratory technology
and related areas. Morgan and Staff.

Romance Linguistics

Office: 248 Dieter Cunz Hall of Languages, 1841 Millikin Road

Professors Griffin (Chairman) and Keller.

811 G 5
Romance Linguistics I
A. 5 cr.
Prereq.: Permission of instructor.

A general survey of the development of the Romance
languages and an introduction to the basic materials
and techniques of investigation. Keller.

812 G 5
Romance Linguistics II W. 5 cr.
Prereq.: 811 or permission of instructor.
Topics and problems, both synchronic and diachronic;
special attention to the minor Romance languages.
Keller.

831* G 3-5
Seminar in Romance Linguistics
A, Sp.
Prereq.: Permission of instructor.
Griffin and Keller.

993 G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repealable to a maximum of 15 cr. hrs.

994 G 1-15
Group Studies
Prereq.: Permission of instructor.
Repealable to a maximum of 30 cr. hrs.
Investigation of minor problems in the various fields
of Romance Linguistics.

Rural Sociology

Office: 103 Agricultural Administration Building, 2120 Fyffe Road

Professors Boyne (Chairman), McCormick (Associate
Chairman), Phillips (Associate Chairman), Adams, R. H.
Baker, R. L., Baker, Barr, Baumer, Cravens, Dougan,
Ezell, Hadley, Ingraham, Jacobson, Jones, Mitchell,
Moore, Sharp, Shaudys, Sitterley, Smith, Stout, Walker,
and Way; Associate Professors Bauman, Bowen,
Darrow, Erven, Hahn, Himes, Huskali, Marion,
McDonald, Rask, Simonds, Taylor, P. R., Thomas,
Vandemark, and Nessel; Assistant Professors Duvick,
Francis, Glover, Henderson, Hitzhusen, Larson, Lee,
Meyer, Napier, Singh, D. W., Thomas, and Watkins;
Instructors Pierce, Pugh, and Tucker.

105 U 5
Introduction to Rural Sociology
A, W, Sp. 5 cr.
Not open to students with credit for Soc. 101 or 201.
Principles of society, major social institutions and
social change; emphasizes social changes in rural
life, rural organizations, population, and family living.
Francis, Mitchell, Napier, Phillips, and Thomas.

110 U 5
Socio-Economic Systems in Rural America
A, W, Sp. 5 cr.
(Cross-listed with the Dept. of Agr. Econ.)
A study of our rural socio-economic systems, the
individual's interaction within these systems, and the
impact of societal decisions on resource use and
control. Hitzhusen, Shaudys, and Thomas.
205 U 3
Our Changing Rural Society
W. 3 1-hr. cl.
Prereq.: 105 or Soc. 101.
An examination of factors contributing to the maintenance of rural social systems and the conditions that facilitate change. Napier.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 300 AND 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr. hrs. in collegiate courses, exclusive of ROTC and Phys. Ed.; or specified course(s) numbered 100-299.

320 U 5
The Rural Family
A. 5 cl.
Prereq.: 105, Soc. 101, or 201.
Not open to students with credit for 310. Structure and functions of rural families in changing societies. Phillips.

342 U 3
Rural Leadership
Su, Sp. 1 2-hr. cl., 1 2-hr. lab.
Prereq.: 105, Soc. 101, or 201.
Not open to students with credit for 317. Basic principles and practices in the development of effective leadership in organization and community action programs; power structures and levels of leadership are examined.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr. hrs. in courses in the same discipline numbered 200 or higher, or 10 cr. hrs. in courses numbered 200 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

542 U 5
Rural Social Organization
A. 4 cl., 1 2-hr. lab.
Not open to students with credit for 315. Elements of social organization, functions of formal and informal social systems, process of making decisions in communities; analysis of actual rural community.

562 U 3
Diffusion of Information on Agricultural Technology
Sp. 3 cl.
Not open to students with credit for 421. The process by which new ideas diffuse to the farmer and homemaker; emphasis on the role of group influences, professional agricultural workers, and adoption leaders. Francis.

593 U G 2-5
Individual Studies
H593 (honors) may be available to students enrolled in a college honors program or eligible for enrollment. Prereq.: Permission of instructor.
Each decimal subdivision repeatable to a maximum of 8 cr. hrs.

593.01 U G 2-5
Human Population Problems
593.02 U G 2-5
Rural Family
593.03 U G 2-5
Rural Health
593.04 U G 2-5
Rural Leadership
593.05 U G 2-5
Rural Community and Institutions
593.06 U G 2-5
Community Development
593.07 U G 2-5
Diffusion of Technology
593.08 U G 2-5
Research Methods in Rural Sociology
593.09 U G 2-5
Social Organization and Administrative Problems
593.10 U G 2-5
Sociology of Foreign Areas
593.11 U G 2-5
Rural Church
593.12 U G 2-5
Farmer Organizations
593.13 U G 2-5
General Rural Sociology
593.14 U G 2-5
Rural Social Problems

GENERAL PREREQUISITES FOR COURSES
NUMBERED 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr. hrs. in courses in the same discipline numbered 300 or higher, or 10 cr. hrs. in courses numbered 300 or higher in the same discipline, plus 10 cr. hrs. in courses numbered 300 or higher in specified allied disciplines.

642 U G 5
Advanced Rural Sociology
W. 5 cl.
Prereq.: 15 cr. hrs. in Rur. Soc. and/or Soc. at the 300 level or higher.
Not open to students with credit for 608. An advanced course on rural society dealing with fundamentals in rural social institutions and organizations, rural social change and nature of rural social systems. Napier.

662 U G 3
Rural Sociology of Developing Societies
W. 3 cl.
Prereq.: 105, Soc. 101, or 201.
Not open to students with credit for 422. Sociological principles applied to analysis of present social systems and institutions of developing nations for students preparing for foreign service with rural societies. Francis.

693 U G 2-5
Individual Studies
H693 (honors) may be available to students enrolled in a college honors program or eligible for enrollment. Prereq.: Permission of instructor.
Each decimal subdivision repeatable to a maximum of 8 cr. hrs.

693.01 U G 2-5
Human Population Problems
693.02 U G 2-5
Rural Family

796.11 Rural Church
796.12 Farmer Organizations
796.13 General Rural Sociology
796.14 Rural Social Problems

GENERAL PREREQUISITES FOR COURSES NUMBERED 800 AND 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr. hrs. in courses in the same discipline, or 20 cr. hrs. in the same discipline, plus 25 cr. hrs. in specified allied disciplines.

888

G 3

Social Action in Community Development
W. Arr.
An analysis of the steps and conceptual areas in the social action process and its application to rural community development. Phillips.

897

G 1

Interdepartmental Seminar in Natural Resources
Repeatable to a maximum of 9 cr. hrs.
(See under Interdepartmental Seminars.)

999

G Arr.

Research
Research for thesis and dissertation purposes only.

Russian
Office: 204 Dieter Cunz Hall of Languages, 1841 Millikin Road
Professors Silbajoris (Acting Chairman), Krayzjanowski, Oulanoff, and Twarog; Adjunct Professor Grulio; Associate Professors Matejc, Naylor, Robinson, and Smith; Adjunct Associate Professor Ehlers; Assistant Professors Bolen, Daniels, Kolodziez, and Kragalott.

101

UG 5

Elementary Russian
Su, A, W, Sp. 5 cr.

102

UG 5

Elementary Russian
Su, A, W, Sp. 5 cr.
Prereq.: 101.

103

UG 5

Intermediate Russian
Su, A, W, Sp. 5 cr.
Prereq.: 102.
Reading of prose and poetry; oral and written practice; grammar review.

104

UG 5

Intermediate Russian
Su, A, W, Sp. 5 cr.
Prereq.: 103 or 112.
107, 108, and 109 may be taken in lieu of 104.
Reading of prose and poetry; oral and written practice; vocabulary building.
107 U 2
Scientific Russian Reading
A. 2 cl.
Prereq.: 103 or 112.
107, 108, and 109 may be taken in lieu of 104.
Concentration on material of general interest to all sciences.

108 U 2
Scientific Russian Reading
W. 2 cl.
Prereq.: 107 or permission of instructor.
107, 108, and 109 may be taken in lieu of 104.
Reading of unedited texts from current Soviet publications.

109 U 2
Scientific Russian Reading
Sp. 2 cl.
Prereq.: 108 or permission of instructor.
107, 108, and 109 may be taken in lieu of 104.
Specialized reading and translation of a major contribution in one of the sciences.

112 U 5, 10, 15
Intensive Russian
Su. A. 15 cl.
Full time of student and full fees required.
Prereq.: Permission of chairman.
Students with credit for 101 or the equiv. may not register for more than 10 cr. hrs. Students with credit for 101 and 102 or the equiv. may not register for more than 5 cr. hrs. Students with credit for 103 or the equiv. may not register for credit.
Registration limited. Early enrollment advised.
Elementary and intermediate Russian for students desiring comprehensive knowledge of Russian in the shortest possible time.

162 U 5
Elementary-Intermediate Russian for Selected Students
W. 5 cl.
Prereq.: Grade of A in 101.
Not open to students with credit for 103.

163 U 5
Elementary-Intermediate Russian for Selected Students
Sp. 5 cl.
Prereq.: 161.
Not open to students with credit for 131.
Successful completion of the sequence 101-162-163 fulfills language requirements and provides eligibility for 400-level courses.

220 U 5
Russian Literature in English Translation:
From Pushkin to Turgenev
Su. A. 4 cl., 1 hr. arr.
Not open to students with credit for 420.
An introduction to the Russian novel, drama, and poetry, major contributions of Pushkin, Lermontov, Gogol, Ostrovsky, Goncharov, and Turgenev.

221 U 5
Russian Literature in English Translation:
From Dostoevsky to Blok

571 G 5
Basic Russian for Graduate Students
Su (1st term), A.  W.  5 cl.
Prereq.: Grad. standing.
Credit does not apply to the minimum hours required for the master's or doctoral degrees.
Basic elements of Russian grammar.

572 G 5
Russian for Research
Su (2nd term), W, Sp.  5 cl.
Prereq.: Grade of C or above in 571 or equiv.
Credit does not apply to the minimum hours required for the master's or doctoral degrees.
Repeatable twice.
Satisfactory completion of this course (grade A or B) may be accepted by the student's dept. as evidence of a dictionary reading knowledge in fulfillment of Ph.D. language requirement.

608 U G 5
Review of Grammar
A.  4 cl.
Concur.: 513.
Open only to students in the Certificate Program.
Review of grammar with emphasis on those elements of special value to translators of factual material.

609 U G 4
Advanced Reading, Conversation, and Composition I
A.  3 cl., 2 hr. arr.
Prereq.: 45 cr. hrs. in Russian or permission of instructor.
Reading of contemporary prose and verse, presentation of oral and written reports, drill in intonation patterns, translation from English into Russian.

610 U G 4
Advanced Reading, Conversation, and Composition II
W.  3 cl., 2 hr. arr.
Prereq.: 409 or permission of instructor.

611 U G 4
Advanced Reading, Conversation, and Composition III
Sp.  3 cl., 2 hr. arr.
Prereq.: 610 or permission of instructor.

613 U G 5
Translation Techniques I
A.  5 cl.
Prereq.: 45 cr. hrs. in Russian or permission of instructor.
Not open to students with credit for 513.
Translation of material from the social sciences; discussion of techniques, procedures, methodology, and the art of translation. Ehlers.

614 U G 5
Translation Techniques II
W.  5 cl.
Prereq.: 613 or equiv. or permission of instructor.
Not open to students with credit for 514.
Continuation of 613; work with progressively more difficult passages. Ehlers.

615 U G 5
Translation Techniques III
Sp.  5 cl.
Prereq.: 614 or equiv. or permission of instructor.
Translation of modern fiction; comparative and contrastive analysis of problems encountered in translating fiction and factual material. Ehlers.

630 U G 5
Applied Linguistics for the Russian Major
A.  3 cl.
Prereq.: 45 cr. hrs. in Russian or permission of instructor.
Introduction to the categories and techniques of applied linguistics, especially phonemic and morphemic analysis; all examples drawn from Russian and English. Daniels.

635 U G 5
Practical Russian Pronunciation
W.  3 cl., 2 labs.
Prereq.: 45 cr. hrs. in Russian or permission of instructor.
Lectures and practical exercises; use of phonetic symbols; corrective exercises; problems of teaching pronunciation. Daniels.

640 U G 5
Contrastive Structures of Russian and English
Su, Sp.  3 cl.
Prereq.: 45 cr. hrs. in Russian or permission of instructor.
Comparison of the structures of the Russian and English languages stressing practical difficulties in pronunciation and grammar. Robinson.

GENERAL REQUIREMENTS FOR 600 LEVEL COURSES IN LITERATURE
Nine credit hours in Russian Literature courses 400 level or above.

645* U G 5
Survey of Russian Poetry
W. 3 cl.
Prereq.: 551, 552, and 553, or permission of instructor.
Development of poetry from the 18th century to the present; readings from major periods and movements.

650†+ U G 5
Dostoevsky
A. 3 cl.
Prereq.: 9 cr. hrs. in literature courses at the 400 level or above.
Given in English but undergraduate majors in Slavic will do prescribed portions of the reading in the original; grad. students in Slavic must read in the original items starred on the departmental M.A. Reading List.

693.01 Literature to 1820
693.02 Literature 1820-1917
693.03 Literature since 1917
693.04 Morphology
693.05 Phonology
693.06 Dialectology
693.07 Old Russian
693.08 Unspecified

694 U G 2-10
Group Studies
Prereq.: Permission of dept. chairman.
Repeatable to a maximum of 15 cr. hrs.

698 U G 15
Study Tour of the USSR
Sp.
Prereq.: Minimum of 25 hrs. of Russ. or equiv. and permission of dept. chairman.
At The Ohio State University students will be given advanced work in conversation and reading in order to prepare for the tour; in the USSR only Russian will be spoken; some formal instruction will be given daily by the tour leaders, Smith.

801 G 3
College Teaching of Russian I
A. 3 cl., 2 lab. hrs.
Prereq.: 611 or equiv., or permission of instructor.
Methods and techniques for teaching Russian at the College level; selection and preparation of teaching and testing materials; the language laboratory and other aids, Smith.
802  G 2  
College Teaching of Russian II  
W.  2 cl., 1 lab. hr.  
Prereq.: 801 or permission of instructor.  
Continuation of 801; development of advanced instructional and testing materials; selection of readings and cultural materials; planning undergraduate Russian language programs; research on language teaching. Smith.

810  G 5  
Old Church Slavonic  
A.  5 cl.  
Study of the earliest recorded Slavic language, reading and linguistic interpretation of original documents.

812†*  G 5  
Readings in Old Church Slavonic Texts  
W.  3 cl.  
Prereq.: 810 or permission of instructor.  
Reading and analysis of Church Slavonic texts of the later period.

813†*  G 5  
Readings in Old Russian  
Sp.  3 cl.  
Prereq.: 810 or permission of instructor.  
Reading and analysis of Old Russian texts.

820  G 3  
History of the Russian Language  
W.  3 cl.  
A survey of phonetic, morphological, and syntactical changes from the period of Common Slavic to the present; the formation of the Russian literary language.

823*  G 5  
Development of the Russian Literary Language  
A.  3 cl.  
Prereq.: 820 or permission of instructor.  
The formation of Russian as a literary language; the role of Church Slavonic elements in its formation and Western influences on Russian.

826*  G 5  
Structure of Russian: Morphology  
W.  3 cl.  
Prereq.: 640 or permission of instructor.  
Analysis and description of the morphological system of contemporary standard Russian.

827*  G 5  
History of Russian: Morphology  
Sp.  3 cl.  
Prereq.: 820 or permission of instructor.  
Development of Russian morphology from Common Slavic to contemporary Russian with consideration of the place of Russian within East Slavic.

828†*  G 5  
Structure of Russian: Phonology  
W.  3 cl.  
Prereq.: 640 or permission of instructor.  
Description and analysis of the phonological system of contemporary standard Russian.

829†*  G 5  
History of Russian: Phonology  
Sp.  3 cl.  
Prereq.: 820 or permission of instructor.  
Development of Russian phonology from Common Slavic to contemporary standard Russian with consideration of the place of Russian within East Slavic.

830*  G 5  
Russian Literature to 1650  
W.  3 cl.  
Emphasis on literature of the Kievan period. Sibajoris.

831†*  G 5  
Russian Literature 1650-1800  
Sp.  3 cl.  
The baroque period, classicism, and sentimentalism; emphasis on the classical period of the 18th century. Sibajoris.

832†*  G 5  
History of Russian Literary Criticism I  
A.  3 cl.  
Prereq.: 2nd yr. grad. standing or permission of instructor.  
From the 17th century to 1890; reading and discussion of Prokopenkov, Trediakovsky, Sumarev, Karamzin, Belinsky, Chernyshevsky, Pisarev, Dobroliubov, Mikhailovsky, Grigor'ev, and Leont'ev.

833†*  G 5  
History of Russian Literary Criticism II  
Sp.  3 cl.  
Prereq.: 2nd yr. grad. standing or permission of instructor.  
From 1890 to the present; decadents, modernists, and symbolists to 1920; Leo Tolstoy; formalism and the sociological method in the 1920's; socialist realism.

H783 U 3-5
Honors Course
Prereq.: 4th yr. standing; a grade of A in at least half
of the Slavic courses taken and an average of B in the
remainder, permission of instructor under whose
supervision the work is to be completed and the Arts
and Sciences Honors Committee. Failure to receive a
mark of S in this course is a disqualification for
special honors.
Repeateable to a maximum of 15 cr. hrs.

794 U 2-10
Group Studies
Prereq.: Permission of chairman.
Repeateable to a maximum of 10 cr. hrs.

Slavic Languages
and Literatures

Office: 204 Dieter Cunz Hall of Languages, 1841 Millikin
Road

Professors Krzyzanowski and Twarog; Associate
Professors Naylor and Robinson; Assistant Professor
Kraglott.

219 U 5
Slavic Literature in English Translation
from the Beginning to the Present
Sp., 4 cr., 1 hr. arr.
Not open to students with credit for 519.
Emphasis on masterpieces of non-Russian Slavic
literatures; epic tradition, Kochanowski, Cornelius,
Obrovic, Mickiewicz, Shevchenko, Macha,
Sienkiewicz, Reymont, Frank, Ukrainka, Vazov, Capek,
Hasek, and Andric.
Bibliography and Method
A. 2 cl.
Not open to students with credit for 880.
Required of all candidates for grad. degrees to acquaint grad. students with the tools, problems, and methods of linguistic and literary research.

An Introduction to the Slavic Languages
W. 3 cl.
A general survey of all the Slavic languages and their common features. Robinson.

History of South Slavic Languages
A. 3 cl.
Prereq.: Good command of Russ. and acquaintance with a second Slavic language or permission of instructor. Bulgarian, Macedonian, Serbo-Croatian, and Slovenian, with emphasis on Serbo-Croatian and its relation to the other South Slavic Languages. Naylor.

History of the West Slavic Languages
A. 3 cl.
Prereq.: Good command of Russ. and acquaintance with a second Slavic language or permission of instructor. Polish, Czech, Slovak, Polabian, Kashub, and Sorbian, with special emphasis on Polish and its relation to the other West Slavic languages. Robinson.

Comparative Slavic Grammar
Sp. 3 cl.
Prereq.: 860 or permission of instructor. Development of Indo-European phonology and morphology into Common Slavic, and the developments in contemporary Slavic languages.

Seminar in Slavic Philology
A. 2 cl.
Historical and comparative studies in the Slavic languages and related language families, including Baltic and Finno-Ugric.

Seminar in Slavic Linguistics
Su, Sp. 2 cl.
Descriptive and transformational studies in Russian and the other Slavic languages.

Seminar in Slavic Literature
A. 2 cl.
Selected topics from medieval and modern literature.

Social Work
Office: 300 Stillman Hall, 1947 College Rd.
Professors: Medhurst (Director), Batchelor (Emeritus), Cornell, Hoffer (Visiting), Livingston, Mark (Emeritus), Nichols (Emeritus), Parricky, Rosner, L. Schneiderman, and Shimp (Emeritus); Associate Professors, Allen (Adjunct), Bailey, Behling, Bendekovic, Billups, Blackburn (Emeritus), D'Angelo, Daykin, Decker, Dixon, Hamilton, Longo, McMillin, Pillow, Ross, Ryan, H. Schneiderman, and Sze; Assistant Professors, Ain, Blumenstein, Curtis, Foster, Dietert, Good, Gregory, Hopp, Jones, Keller, Pantaleo, Price, Rindfleisch, Schildhouse (Visiting), and Van der Does; Instructors Russell and Dutton.

Problems, Policies, and Programs in Social Welfare I
W, Sp. 2 2-hr. cl.
Prereq.: Social Welfare major; non-majors with permission only. An introduction to the values, value conflicts, and major goals in the American social welfare system.
Problems, Policies, and Programs in Social Welfare II
A, W, Sp. 2 2-hr. cl.
Prereq.: 323; Social Welfare major; non-majors with permission only.
Examination of the interrelationships among various social problems, social welfare programs, policy issues, and the role of social work in terms of the American social welfare system.

Introduction to Research Methods in Social Work
A, W, Sp. 3 cl., 1 2-hr. lab.
Prereq.: Stat. 125 or equiv.
Science and society; research design; measuring variables; data collection, processing and analysis; participation in a research project is required.

Introduction to Field Practice
W, Sp. 2-hr. seminar.
Prereq.: Social Welfare major and permission of the B.S. in Social Welfare Program Coordinator.
Small group seminar designed to prepare students for a subsequent one-quarter practicum in a social welfare organization; focus on field trips, class discussion.

Field Practice
Su, Sp. Social agency assignments.
Prereq.: Social Welfare major, 414, and permission of the B.S. in Social Welfare Program Coordinator.
Placement in a social welfare organization used by the school as a teaching center; student expected to assume service provision role in a progressively responsible manner.

Determinants of Social Functioning I
A, W. 2 2-hr. cl.
Prereq.: Social Welfare major; non-majors with permission only.
Introduction to individual, group, organizational, and community determinants of social functioning with attention to stress and sub-cultural processes and conditions.

Determinants of Social Functioning II
W, Sp. 2 1/2-hr. cl.
Prereq.: 431, Social Welfare major; non-majors with permission only.
Introduction to the basic determinants of individual and family social functioning, using a life cycle approach from marriage through children's latency.

Determinants of Social Functioning III
A, W, Sp. 2 1/2-hr. cl.
Prereq.: 432, Social Welfare major; non-majors with permission only.
Introduction to the basic determinants of individual and family functioning, using a life cycle approach, from children's latency through aging years of parents.

Social Work Practice I
A, W. 2 1/2-hr. cl.
Prereq.: Social Welfare major; non-majors with permission only.
The structure of social work, its dimensions, parameters, and functions.

Social Work Practice II
W, Sp. 2 1/2-hr. cl.
Prereq.: 443, Social Welfare major; non-majors with permission only.
Social worker roles, activities, and responsibilities.

Social Work Practice III
A, W, Sp. 2 1/2-hr. cl.
Prereq.: 445, Social Welfare major; non-majors with permission only.
Development of a conceptual framework for social work practice.

Juvenile Delinquency: Its Treatment and Prevention
A, W, Sp. 2 1/2-hr. cl.
Prereq.: 3rd or 4th year standing.
Juvenile delinquency as a social problem; methods of treatment and prevention, including juvenile courts, clinics, probation, parole, correctional institutions, child placement, and recreational programs.

Social Implications in Rehabilitation
A, Sp. 3 cl.
Prereq.: 3rd or 4th yr. standing or permission of instructor.
Not for grad. credit to students in Soc. Work.
The significance of disability and employment in their social, medical, and industrial application; rehabilitation as a process; current concepts.

Social Work and Health Services
W. 3 cl.
Prereq.: 4th yr. standing or permission of instructor.
The nature, organization, and function of programs, facilities in the health practice field; the social and economic implication of chronic disease.

Legal Aspects of Social Work
A, W, Sp. 3 cl.
Prereq.: 3rd or 4th yr. standing or permission of instructor.
Not for grad. credit to students in Soc. Work.
Law as a means of social control; study of case, statute, and constitutional law most frequently involved in social work practice; legal aid.

Individual Studies
Prereq.: 12 cr. hrs. in Social Work courses, approval of instructor, and review by sequence chairman.
Repeatable to a maximum of 10 cr. hrs.
Individual study projects on problems and services in selected areas of social welfare; report required.
584  U  1-5
Group Studies
Su, A. W., Sp.
Prereq.: 15 cr. hrs. in Social Work courses, approval of instructor, and review by sequence chairman.
Repeatable to a maximum of 10 cr. hrs.
Group study projects on problems and services in selected areas of social welfare; report required.

615  P  G  3-8
Field Practice I
Prereq.: Soc. Work 1st yr. grad. standing.
Arranged by the student's faculty adviser.
Repeatable to a maximum of 18 cr. hrs.
Planned visits to social agencies, group analysis of observation, followed by assignment to specific agencies for beginning responsibilities with recipients of agency service.

620  P  G  4
Social Welfare Policies and Programs I
A.  2 2-hr. cl.
Historical and comparative analysis of social welfare systems; their relationship to change in the basic social institutions of family, church, government, and economic institutions.

621  P  G  4
Social Welfare Policies and Programs II
W.  2 2-hr. cl.
Prereq.: 620 or equiv.
The development of a conceptual model for social welfare policy and program analysis.

631  P  G  4
Dynamics of Social Functioning I
A.  2 2-hr. cl.
Prereq.: Grad. standing and permission of instructor.
Dynamics of social functioning examined at the individual, group, and community levels of analysis, with attention to stress, subcultural, and socio-economic processes and conditions.

632  P  G  3
Dynamics of Social Functioning II
W.  2 1½-hr. cl.
Prereq.: 631 or permission of instructor.
Dynamics of individual and family social functioning as typically experienced and as occurs in response to stress, from conception through latency.

633  P  G  3
Dynamics of Social Functioning III
Sp.  2 1½-hr. cl.
Prereq.: 632 or permission of instructor.
Dynamics of individual and family social functioning as typically experienced and as occurs in response to stress, from adolescence through aging years of parents.

641  P  G  3
Social Work Practice Theory I
A.  2 1½-hr. cl.
Prereq.: Soc. Work grad. standing; concur. 615.
Fundamentals of social work practice; practice components, interactional processes, units of attention, and framework of practice.

642  P  G  3
Social Work Practice Theory II
W.  2 1½-hr. cl.
Prereq.: Soc. Work grad. standing and 641; concur. 615.
Strategies for intervention; differential modes of practice to affect functioning and development of individuals and groups.

643  P  G  3
Social Work Practice Theory III
Sp.  2 1½-hr. cl.
Prereq.: Soc. Work grad. standing and 642; concur. 615.
Analysis of practice concepts; formulation and operationalization of conceptual hypotheses.

680  P  G  3-6
Research Methods in Social Work
W, Sp.  1 2-hr. cl., 1 lab.
Prereq.: Soc. Work grad. standing, 380 or equiv.
Formulating researchable questions and hypothetical answers for testing, measurement, research design, data collection and processing, statistical analysis, and reporting results.

698  U  G  1-15
Student Study Tour

703  P  G  2
Seminars in Social Welfare Policy and Program Analysis
A, W, Sp.  1 2-hr. cl.
Prereq.: 621 or equiv. and permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
a. Aging
b. Family Planning
c. Health Care
d. Housing and Urban Development
e. Income Maintenance
f. International Social Welfare
g. Mental Retardation
h. Other

715  P  G  5-15
Field Practice II
Prereq.: Soc. Work 2nd yr. grad. standing and 615 or equiv.
Repeatable to maximum of 26 cr. hrs.
Application of social work theory in selected social agency settings; joint direction and evaluation by agency staff and faculty.

730  P  G  3-5
Seminars in Social Functioning
A, W, Sp.  2 1½-hr. cl.
Prereq.: Soc. Work grad. standing, 633 or equiv.
Repeatable to a maximum of 9 cr. hrs.
Presentation and critical examination of personality, interactional, small group, organizational and community concepts and approaches used in analyzing social dysfunctioning.
732 P G 3
Seminars in Application of Personality Theory to Social Work Practice
Sp. 1 3-hr. cl.
Prereq.: Soc. Wk. grad. standing and 633 or equiv.
Assessment of the utility and applicability of personality theories to social work practice.

741 P G 3-9
Seminars in Clinical Aspects of Social Work Practice
A, W, Sp. 2 ½-hr. cl.
Prereq.: Soc. Wk. grad. standing and 643.
Repeatable to a maximum of 9 cr. hrs.
Concepts and strategies for enhancing social functioning and human realization of individuals, families, and groups; subjects ranging from clinical practice formulations through treatment milieus.

742 P G 3-9
Seminars in Administrative Aspects of Social Work Practice
A, W, Sp. 2 ½-hr. cl.
Prereq.: Soc. Wk. grad. standing and 643.
Repeatable to a maximum of 9 cr. hrs.
Concepts and strategies for transforming organizational resources into effective delivery of services; topics include administrative, supervisory, consultative, and inter-organizational practitioner roles.

743 P G 3-9
Seminars in Social Change Aspects of Social Work Practice
A, W, Sp. 2 ½-hr. cl.
Prereq.: Soc. Wk. grad. standing and 643.
Repeatable to a maximum of 9 cr. hrs.
Concepts and strategies for affecting institutional functioning and development at local, regional, national, or international levels; subjects range from community development formations through social planning and deployment of resources to political and para-political activities.

746 P G 3
Seminar in Social Work Practice Issues
Sp. 1 cl.
Prereq.: Soc. Wk. grad. standing and 643.
Identification, critical examination, and development of a point of view concerning selected issues arising in or impacting upon social work.

755 P G 1-6
Seminar in Social Work Research Critique
Prereq.: Soc. Wk. grad. standing, 680 or equiv.
Repeatable to a maximum of 6 cr. hrs.
Evaluation of selected research reports with reference to their relevance to social work and soundness of methodology; written and oral presentation required.

786 P G 1-6
Group Research Project
Prereq.: Soc. Wk. grad. standing, 680 or equiv.
Repeatable to a maximum of 6 cr. hrs.
Student and faculty participation in the development of a research project at the School or a teaching center; jointly authored research report required.

787 P G 3
Seminar on the Application of Experimental Designs to Social Work Research
Sp. 1 3-hr. cl.
Prereq.: 680 or equiv.
Evaluating the plausibility of findings from research using experimental designs as compared with the plausibility of findings from other designs when an experimental design was not feasible.

788 U P G 2-5
Seminar on Mental Retardation: Interdisciplinary Aspects
Su., A, W, Sp. Seminars—50%; Family Contact—50%.
Prereq.: Permission of instructor.
An interdisciplinary approach to mental retardation.

793 P G 1-5
Individual Studies
Prereq.: Soc. Wk. grad. standing, permission of instructor, and review by sequence chairman.
Repeatable to a maximum of 15 cr. hrs.
Directed readings and tutorials related to specific problems in the following areas:
  c. Social Welfare Policy and Programs.
  d. Social Functioning.
  e. Research.
  f. Other.

794 P G 1-4
Group Studies
Prereq.: Soc. Wk. 2nd yr. grad. standing, approval of instructor, and review by sequence chairman.
Repeatable to a maximum of 15 cr. hrs.
Group seminars in areas of curriculum as follows:
  c. Social Welfare Policy and Programs.
  d. Social Functioning.
  e. Research.
  f. Other.

797 P G 2-5
Interdisciplinary Seminars in Family-Social Medicine
Prereq.: Permission of instructor.
Limited to 30 students.
Students assigned in interdisciplinary pairs or groups to families with complex medical/social problems with resource faculty.

802 G 3
Seminar in Social Work Education
Sp. 3 cl.
Prereq.: M.S.W. or permission of instructor.
Development of social work education in North America; problems and issues in curriculum building, teaching methods, and class and field instruction.
Seminar in Social Welfare Policies and Programs I
A. 3 cl.
Prereq.: M.S.W. or permission of instructor.
Historical view of policy formation as influenced by political, economic, and social conditions; analysis and evaluation of processes involved in major developments.

Seminar in Social Welfare Policies and Programs II
W. 2 cl.
Prereq.: 820 or permission of instructor.
Analysis of demographic, political, economic, and other influences upon social policy planning; evaluation of policy planning effectiveness.

Seminar in Social Welfare Policies and Programs III
Sp. 3 cl.
Prereq.: 821 or permission of instructor.
Critical analysis of selected current issues in social policy such as population control, income maintenance, federal, state, and local role in comprehensive social service programs.

Seminar in Social Functioning I
W. 3 cl.
Prereq.: M.S.W. or permission of instructor.
Critical examination of selected biological, psychological, and social determinants of social functioning and dyadic, small group, organizational, and community levels of analysis.

Seminar in Social Functioning II
Sp. 3 cl.
Prereq.: 830 or permission of instructor.
Problems in knowledge selection and conceptualization as related to social work practice and the biological, behavioral, and social sciences.

Seminar in Social Work Practice I
W. 3 cl.
Prereq.: M.S.W. or permission of instructor.
Examination of the nature of social work practice; critical analysis of the underlying assumptions and theoretical base of social work methods.

Seminar in Social Work Practice II
Sp. 3 cl.
Prereq.: 840 or permission of instructor.
Comparative analysis of social work methods; selected problems and issues.

Seminar in Social Work Research I
A.
Prereq.: Soc. Work grad. standing, 880 or equiv., and permission of instructor.
Advanced research design and analysis appropriate for testing hypotheses relevant to social welfare knowledge.

Seminar in Social Work Research II
W.
Prereq.: Soc. Work grad. standing, 880 or equiv., and permission of instructor.
Evaluation of selected research reports with reference to their relevance to social welfare and soundness of methodology.

Seminar in Social Work Research III
W.
Prereq.: Soc. Work grad. standing, 881 or equiv., and permission of instructor.
Planning research designs and feasible administrative procedures for testing hypotheses relevant to social welfare knowledge.

Interdepartmental Seminar
(See under Interdepartmental Seminars.)

Individual Studies
Prereq.: M.S.W. or permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Directed readings and tutorials related to specific problems and issues in following areas:
  b. Social Welfare Policy.
  c. Dynamics of Social Functioning.
  d. Social Work Research
  e. Social Work Education.
  f. Other.

Group Studies
Prereq.: M.S.W. or equiv.
Repeatable to a maximum of 20 cr. hrs., not more than 10 of which shall be in any one of the following areas:
  b. Social Welfare Policy.
  c. Dynamics of Social Functioning.
  d. Other.

Research in Social Work: Thesis
Research for thesis purposes only.

Research in Social Work: Dissertation
Research for dissertation purposes only.
Sociology

Office: 112 Hazerly Hall, 1775 College Road

Professors McDonagh (Chairman), Berry (Emeritus), Bullock, Clarke, Corwin, Cuber, Dinitz, Dynes, Helfrich, R. Hinkle, Jonassen, Mangus (Emeritus), Nagi, Oyler (Emeritus), Petersen, Quarantelli, Reckless (Emeritus), Schwirian, Sletto, H. Y. Tien, and VanderZanden; Adjunct Professors Conrad and Folkman; Associate Professors Franklin, Nissen (Emeritus), and Li; Assistant Professors Clatworthy, Curry, Jiobu, Kerr, Scott, Seidler, and Walum; Instructors Aveni and Himmelfarb; Lecturers G. Hinkle and C. Tien.

101 U 5
Introductory Sociology
Su, A, W, Sp. 5 cl.
Not open to students with credit for 201 or equiv. or Rur. Soc. 105 or equiv.
Fundamental concepts of sociology and an introduction to the analysis of social problems. Cuber and Staff.

201 U 5
Fundamentals of Sociology
A, W, Sp. 5 cl.
Not open to students with credit for 101 or equiv.
Nature of society and the factors affecting its development, culture, personality; groups and institutions; selected social problems. Vander Zanden and Staff.

202 U 5
Social Trends and Problems
Su, A, W, Sp. 5 cl.
Prereq.: 101 or 201.
Analysis of recent social trends and contemporary social problems. Dinitz and Staff.

206 U 3
Social Implications of Low Income
Sp. 3 cl.
Prereq.: 5 cr. hrs. in Soc. or equiv. with permission of instructor.
A study of low-income peoples, especially concerning the effect of low-income on them, and their consequent social participation. Clatworthy.

208 U 3
Contemporary Social Criticism
W. 3 cl.
Prereq.: 101 or 201 or equiv.
A critical analysis of intellectual controversies and issues underlying a variety of contemporary movements and ideologies.

220 U 4
Sociology of Education
Su, A, Sp. 4 cl.
Prereq.: 5 cr. hrs. in Soc.
Current social trends as they affect education; backgrounds of school children, social status of teachers, role of power and bureaucracy. Corwin and Himmelfarb.

250 U 5
Types of Sociological Inquiry
A, W, Sp. 3 cl, 2 2-1/2 hr. lab.
Prereq.: 5 cr. hrs. in Soc. or equiv. with permission of instructor.
Introduction to sociological research techniques, methodological approaches, and relevant quantitative procedures. Aveni, Bullock, Himmelfarb, Li, Kerr, and C. Tien.

280 U 4
American Minority Relations
A, Sp. 4 cl.
Prereq.: 101 or equiv., and permission of instructor.
Not open to students with credit for 408 or equiv.
Survey of the attitudes and relationships arising from the contacts of various racial and ethnic groups in the United States. VanderZanden.

284 U 3-5
Group Studies
A.
Prereq.: 101.
Repeatable to a maximum of 10 cr. hrs.
Topics vary each quarter offered.

330 U 3
Varieties of Modern Marriage
Su, A, W, Sp. 3 cl.
Examination of sociological and social-psychological research describing and interpreting emerging pluralistic patterns of man-woman and parent-child relationships. Cuber and Clatworthy.

405 U 5
Collective Behavior and Social Movements
A, Sp. 5 cl.
Prereq.: 5 cr. hrs. in Soc. or equiv. and permission of instructor.
Examination of the dynamic social processes characteristic of mass societies through an analysis of crowds, mobs, cults, publics, and the initial stages of social movements. Aveni and Quarantelli.

407 U 5
Social Change
A, W. 5 cl.
Prereq.: 5 cr. hrs. in Soc. or equiv. with permission of instructor.
Not open to students with credit for 207.
Recent social changes, especially in Western civilization and the United States; types of societies in historical perspective; requirements of a good society. Aveni.

410 U 5
Criminology
Su (1st term), A, W, Sp. 5 cl.
Prereq.: 202.
The nature, variation, and causes of crime and delinquency; studies of criminal liability, criminal careers, and organized racketeering. Dinitz, Friday, and Scott.

430 U 4
Sociology of the Family
A, Sp. 4 cl.
Analysis of relationships between the family and the larger society including male selection, status of women, and patterns of husband-wife and parent-child relationships. Clarke and Cuber.

The Child and Society
W. 4 cl.
Prereq.: 101 or 201.
A study of the ways in which society socializes children; current breakdown in the socializing processes and implications for the school and other educational agencies. Clarke and G. Hinkle.

Sociology of Women
Sp. 5 cl.
Prereq.: 10 cr. hrs. in Soc.
Analysis of sex-roles and social structure with emphasis on modern social movements concerned with redefining sex-role relationships. Walum.

Sociology of Organizations
W. 3 cl.
Prereq.: 10 cr. hrs. in Soc. or permission of instructor.
Functioning of large complex social groupings; goals, structures, coordination, dispersion, survival, change as seen in various organizations: e.g.—governmental, educational, religious, business, and occupational organizations. Corwin and Kerr.

Social Stratification
Su (1st term), A, W, Sp. 4 cl.
Prereq.: 101 or 201, and 250.
Class distinction as a phase of social differentiation; origin and characteristics of social class; significance for modern society of class consciousness, class struggle, and social mobility. Kerr, Dynes, and McDonagh.

Human Relationships in Industry
W. Sp. 3 cl.
Social processes and problems associated with contemporary industry including growth of formal and informal organizational structure, communication processes, attitude problems, and morale. Helfrich.

Work and Leisure in Mass Society
Sp. 4 cl.
An analysis of current relationships between work and leisure, emphasizing social implications of increased leisure time and changing conceptions of work and leisure. Clarke.

Religious Institutions in Modern Society
W, Sp. 3 cl.
Prereq.: 101 or 201.
The social role of religious institutions and beliefs, with particular reference to the United States; the relation between religion and other aspects of society. Dynes and Seidler.

Social Factors in Personality
W, Sp. 5 cl.
Prereq.: 101 or 201, and 250.
Analysis of relationships between social structure and personality; language; its consequences for social behavior; socialization: learning of motives and social roles; personality: development, organization, and disorganization. Franklin and G. Hinkle.

Comparative Race Relations
A, W. 3 cl.
Prereq.: Junior standing and 101.

Development of Sociological Thought
A, W, Sp. 5 cl.
Prereq.: 15 cr. hrs. in Soc.
A survey of major concerns and concepts in sociology in relation to their social-historical setting from 1800 to the present time. Walum, Hinkle, and Seidler.

The Sociology of Urban Life
A, Sp. 4 cl., 1-2 hr. lab.
Prereq.: 10 cr. hrs. in Soc.
Not open to students with credit for 405.
The place of the city in social organization; the emergence, nature, and problems of modern urbanism; projects based on census and field data. Jenness, Schwirian, and Jibou.

Contemporary Soviet Society
Sp. 5 cl.
Prereq.: 10 cr. hrs. in Soc. and 15 cr. hrs. in other social sciences, or permission of instructor.
Not open to students with credit for 405.
Organization, development, and problems of the Communist Party, the collective farm, the school, professional occupations, economic planning, and other contemporary Soviet institutions.

Culture Patterns and Personality
(See Anthro. 520.)

American Society
W. 5 cl.
H545 (honors) may be available to students enrolled in a College Honors Program or by permission of dept.
Prereq.: Junior standing with a cumulative point-hour ratio of at least 3.0.
An exposition of the structural patterns of American society, using sociological theories and data but integrating them into a general view. Li and Walum.

Introductory Human Population
W. 3 cl.
Prereq.: 15 cr. hrs. in Soc. or grad. standing.
A general, mainly non-technical, introduction to population studies; the social determinants and consequences of fertility, mortality, and migration. Li and Tien.

551 U G 3
Intermediate Human Population
Sp. 3 cl.
Prereq.: 550.
A continuation of 550. Schriawan.

560 U G 5
Comparative Social Organizations
A. 4 cl.
A comparative analysis of organizational characteristics and functioning in different cultural settings. Dyens.

590 U G 5
The Community
W. 4 cl.
Prereq.: 10 cr. hrs. in Soc.
Development of the modern community; approaches to the study of communities; significance of processes and value systems for community organization and disorganization. Joubi, Jonassen, and Schriawan.

592 U G 5
The School and the Community
W. 3 cl.
Not open to students with credit for 492.
The school as a social institution in the American community; the sociological importance of community structures, processes and problems in determining school-community relationships. Himmelgab.

601 U G 5
Comparative Family Organization
W. 4 cl.
Prereq.: Junior standing and 101.
Analysis of family organizations in various societies, emphasizing the impact of changing world conditions on family and kinship structures. Clarke and Cufer.

608 U G 5
Sociological Aspects of Mass Communication
W. 5 cl.
Prereq.: 20 cr. hrs. in Soc. or related fields.
Examination of structure and functions of mass communication systems in contemporary mass societies, including the relationship between mass media organizations and other institutions.

610 U G 5
Sociology of Deviant Behavior
Sp. 5 cl.
Prereq.: 410 and 488.
An examination of the nature, types, and societal reactions to deviant behavior; special emphasis on the process of stigmatization and the emergence of deviant subcultures. Dinitz and Scott.

611 U G 5
Penology
A, Sp. 5 cl.
Prereq.: 610 and senior standing.
Not open to students with credit for 411.

The treatment of adult offenders in detention and incarcerations; short and long term institutions; field trips required. Scott.

612 U G 5
The Sociology of Economic Life
A. 3 cl., 2 hrs. arr.
Study of the relationship between economic and noneconomic aspects of life; theory will be supplemented by related research. Helfrich.

615 U G 5
Control and Prevention of Crime and Delinquency
A. 1-2 hr. cl. One field project.
Prereq.: 610 and senior standing.
Analysis of the operational effectiveness of special measures and programs pointed toward the control and prevention of crime and delinquency. Dinitz.

623 U G 5
Advanced Sociology of Education
W. 5 cl.
Not open to students with credit for 523.
Comparisons of the structures and functions of educational systems, elementary through university; recruitment and allocation of personnel and resources; power, conflict, and boundary maintenance. Corwin.

650 U G 5
Introduction to Quantitative Research Techniques in Sociology
A, W. 3 cl.
An introduction to the analysis of sociological data; measurement theory and techniques of interpretation; sampling procedures in sociological research and implications for inference and generalization. Li, Schriawan, Sletto, and C. Tien.

551 U G 5
Approaches to Sociological Inquiry
A, W. 3 cl., project.
Theory and practice in essentials of the research process: comparison of alternative approaches and design models; questionnaire construction, interview techniques, and related problems. Bullock and Li.

666 U G 5
Political Sociology
Sp. 3 cl.
Examination of structural and cultural factors as related to the nature of political systems; consideration of the organization and roles of political and para-political groups.

593 U G 1-5
Individual Studies
Prereq.: Sociol. majors and permission of instructor.
Repeatable to a maximum of 15 cr. hrs. for each decimal subdivision:

693.01 Sociological Theory
693.02 Social Organization and Planning
693.03 Medical Sociology
693.04 Criminology and Penology
693.05 Sociology of Education
693.06 Race Relations
693.07 Social Psychology
693.08 The Family
693.09 Research Methodology
697.10 Urban Sociology
697.11 Undergraduate Seminar on Contemporary Sociological Issues
697.12 Unclassified
697.13 Population

694 U G 3-5
Group Studies
Repeatable to a maximum of 15 cr. hrs. for each
decimal subdivision.
Topics vary each quarter offered.
694.01 Sociological Theory
694.02 Social Organization
694.03 Medical Sociology
694.04 Criminology and Penology
694.05 Sociology of Education
694.06 Race Relations
694.07 Social Psychology
694.08 The Family
694.09 Research Methodology
694.10 Urban Sociology
694.11 Contemporary Sociological Issues
694.12 Unclassified
694.13 Population

695 U G 5
Seminar in Sociological Perspectives
on Modern Education
A. 3 cr.
Repeatable to a maximum of 9 cr. hrs.
A seminar involving survey and analysis of sociological
literature and research regarding the structure,
function, personnel and performance of the
educational institution in modern society.

GENERAL PREREQUISITES FOR COURSES
NUMBERED 700
Unless otherwise indicated, the prerequisites for
700-level courses are 30 qtr. hrs. in the same discipline
numbered 400 or higher of which 15 hrs. must be at
the 600 level.

Introduction to National Security
(See Nat. Sec. Pol. S. 702.)

704 U G 5
Problems in the Design of Sociological Research
A, W, Sp. 3 cr., project.
Prereq.: 250 or equiv.
Repeatable to a maximum of 10 cr. hrs.
Bullock.

705 U G 5
Construction and Verification of Theory
A. 3 cr., project.
Prereq.: 250 or equiv.
Not open to students with credit for 704.01.
Repeatable to a maximum of 10 cr. hrs.
The actual practice of theory construction and its
underlying logic. Bullock.

706 U G 5
Experimental Research Methods
W. 3 cr., project.
Prereq.: 250 or equiv.
Not open to students with credit for 704.02.
Repeatable to a maximum of 10 cr. hrs.
Survey and analysis of research designs and statistical
techniques permitting control and/or assessment of
error variance in sociological research by experimental
method. Bullock.

707 U G 5
Problems in Quantitative Analysis
Sp. 5 cr.
Prereq.: 250 or equiv.
Not open to students with credit for 704.03.
Repeatable to a maximum of 10 cr. hrs.
A survey of advanced problems in the multivariate
analysis of sociological data; topics covered include
elaboration and specification, causal inference in
nonexperimental research and path analysis.
Schwirian and Bullock.

708 U G 5
Problems in Qualitative Analysis
Sp. 5 cr.
Problems and techniques of non-quantitative data
analysis including case studies, participant observation,
field diary, autobiography, and historical records.
Dynes and Quarantelli.

730 U G 5
Medical Sociology
W. 5 cr.
Prereq.: 25 cr. hrs. in Soc. or permission of instructor.
Not open to students with credit for 440.
Sociological analysis of health and illness behavior,
the social ecology of illness, health organization, and
the health professions. Kerr.

751 U G 4
Introduction to Human Population Studies
A. 4 cr.
Not open to students with credit for 550 or equiv.
A more intensive introduction to demography parallel
to 550-551; mainly for graduate students in Sociology
who lack undergraduate training in the field and want
to continue in it.

752 U G 5
Principles and Techniques of Scale Construction
W. 3 cr., project.
Prereq.: 650 or equiv., or Soc. Work 540.
Approaches and techniques in the development and
testing of social measurement instruments. Bullock
and Sletto.

753 U G 4
General Human Population Studies
W. 4 cr.
Prereq.: 551 or 751.
A continuation of 751 with an introduction to migration
analysis and historical demography; more intensive
study of basic population processes.
754 U G 5
Demographic Analysis
W. 5 cl.
Prereq.: 1 source in general statistics.
Not open to students with credits for 619.
An exposition of census data and vital statistics, demographic rates, life tables, cohort analysis, and similar elementary techniques and data sources in demography. Li and Y. Tien.

755 U G 4
The Social Context of Human Fertility
A. 4 cl.
Prereq., or concur.: 561 or 751, and 754, or equiv.
A critical and methodological analysis of fertility, with special emphasis on the social context of reproductive behavior in American society. Y. Tien.

756 U G 4
Internal Human Migration
A. 3 cl., 1 lab. hr.
Prereq., or concur.: 561 or 751, and 754, or equiv.
Theories and models of internal migration, based on data in various types of societies.

770 U G 5
Individual in Society
W. 5 cl.
Analysis and synthesis of the major theories and findings of social psychology. Franklin and G. Hinkle.

772 U G 5
Small Groups
A. 5 cl.
Not open to students with credits for 661.
Analysis of group structure and process; examination of roles, interpersonal structure, leadership; observation of groups in laboratory and non-laboratory settings. Curry.

780 U G 5
Racial and Ethnic Differentiation
A. 3 cl.
An analysis of the origin, persistence, adaptation and change of systems and racial and ethnic differentiation. VanderZanden.

781 U G 5
The Traditions of Social Thought and Research
A. 2 2-hr. cl.
The history of Sociology with special emphasis on ideas relevant to current theoretical issues and research methods. Walum.

782 U G 5
Contemporary Theoretical Orientations in Sociology
W. 2 2-hr. cl.
Not open to students with credits for 891.
Analysis of current schools, outlooks, and issues. Hinkle and Walum.

Research Principles and Techniques in National Security
(See Nat. Sec. Pol. S. 785.)

790 U G 5
Social Organization of the Community
A. 3 cl.

791 U G 5
Sociological Methods of Community Analysis
Sp. 3 cl.
Prereq.: 490 or 590 or equiv., and permission of instructor.
Not open to students with credits for 864.
Methods, techniques, sources of data, and objectives of community analysis. Jonassen and Schwirian.

792 U G 5
Structural Sociology
A. 5 cl.
Prereq.: Grad. standing in Soc.
Key concepts, issues, recent trends in the study of social structure with special emphasis on formal social organizations, social stratification, comparative social systems, groups and research methods. Corwin and Dyne.

GENERAL PREREQUISITES FOR COURSES NUMBERED 800
Unless otherwise indicated, the prerequisites for 800-level courses are 30 qtr. hrs. in the same discipline at the 600-level or higher, of which 15 hrs. must be at the 700-level.

800 G 2
Pre-seminar in Sociology
A. 2 cl.
Open only to 1st year grad. students in Soc.
Each week an area of specialization within sociology will be discussed by a professor whose major interest is in that area; provides an overview of special topics and current issues. Dyne and McDonagh.

801* G 5
Seminars in the Comparative Study of Society: Latin America
Sp. 3 cl.
Selected problems in the changing interrelationships among social institutions in Latin American countries: politics, economy, education, religion, kinship, and mass media.

802* G 5
Seminars in the Comparative Study of Society: The Middle East
Sp. 3 cl.
Selected problems in the changing interrelationships among social institutions in the Middle Eastern Countries: politics, economy, education, religion, kinship, and mass media. Nagi.

803* G 5
Seminars in the Comparative Study of Society: The Slavic Countries
A. 3 cl.
Selected problems in the changing interrelationships among social institutions in the Slavic Countries: politics, economy, education, religion, kinship, and mass media.
804**  G 5
Seminar in the Comparative Study of Society: Advanced Societies
W.  3 cr.
Analysis of emerging problems in the social order of advanced societies, with special emphasis on the Atlantic Community

805  G 5
Social Movements
Sp.  5 cr.
An examination of theories and research on non-traditional group efforts to change social systems and institutions; emphasis on contemporary societies and movements. Quantrell.

811  G 1-5
Seminar in Industrial Sociology
A.
Repeatable to a maximum of 3 cr. hrs.
Selected topics in sociology of industrial and work relations; organizational types, change, effectiveness, management, control, administration, leadership, occupations; theoretical approaches to study of industrial relations. Bullock and Heftich.

818  G 5
Advanced Criminology
Sp.
Prereq.: 410 or equiv.
A critical study of the most important aspects of criminology. Dinitz.

820  G 5
Seminar in the Sociology of Education
Sp.  3 cr.
Repeatable to a maximum of 3 cr. hrs.
Special problems will be considered in different quarters, including urban education, student movements, bureaucratic-professional problems, school-community relations, and innovation. Corwin.

825*  G 5
Seminar in the Sociology of Science
Sp.  3 cr.
Selected problems in the study of science as a changing social institution including its relations to other institutional realms viewed in a cross-national context. Corwin and Nagi.

830*  G 5
Seminar in Medical Sociology: Problems in the Sociology of Health Organization
Sp.  3 cr.
Prereq.: 730 or permission of instructor.
Analysis of theory and research bearing upon the role of medicine in society and the health organizations on national, community, and institutional levels. Nagi and Petersen.

831**  G 5
Seminar in Medical Sociology: Problems in the Sociology of Mental Illness
W.  3 cr.
Prereq.: 730 or permission of instructor.
Analysis of the sociological concepts of mental illness, the socio-cultural factors in these disorders, and the structure of mental care institutions. Nagi.

832**  G 5
Seminar in Medical Sociology: Problems in the Social Ecology of Illness
Sp.  3 cr.
Prereq.: 730 or permission of instructor.
Analysis of current research and literature about socio-cultural factors in disease and illness; emphasis placed upon methodological problems. Nagi.

833**  G 5
Seminar in Medical Sociology: Problems in Social Gerontology
A.  3 cr.
Prereq.: 730 or permission of instructor.
Analysis of the social processes and demographic changes associated with aging, and the place of the aged in the social structure. Nagi.

836*  G 5
Seminar in the Professions
W.  3 cr.
Advanced comparative analysis of various professions in the United States and other societies; professionalization and the organization and influence of professions. Clarke, Corwin, and McDonagh.

837  G 5
Seminar in Public Opinion and Political Sociology
A.  5 cr.
Prereq.: Permission of instructor.
Selected problems in the study of opinions and opinion climates, with special emphasis on their relation to elections and political institutions in a cross-national context.

840*  G 5
Social and Cultural Foundations of Cities and Urbanization
W.  5 cr.
An examination of cultural, material, social, organizational, and political and psychological factors associated with the genesis and nature of urbanization. Jonassen, Jiobu, and Schwirian.

841**  G 5
Sociology of Urban Sub-Communities
W.  5 cr.
Examination of society and culture of sub-communities such as ethnic and racial ghettos, suburbia; generalizations about the pattern of integration with larger systems. Jonassen, Jiobu, and Schwirian.

842  G 5
Human Ecology
A.  5 cr.
Repeatable to a maximum of 10 cr. hrs.
Selected problems of urban structure from the ecological perspective. Schwirian.

846  G 5
Seminar in the Demography of Urbanization
Sp.  5 cr.
Prereq.: Grad. standing in Soc. or related discipline; 1 course in population or urban sociology recommended.
An analysis of urban phenomena using demographic data and techniques; an analysis of the effect of urbanization on demographic processes. W. Petersen.

855 G 5
Area Training in Population
A, Sp.
Prereq.: 753 or permission of instructor.

855.01* G 5
The Population of China
An assessment of the size, growth, diversity, and distribution of the Chinese population, including some analysis of Chinese populations outside mainland China. Y. Tien.

855.02* G 5
The Population of Latin America
Comparative analysis of components of demographic structure and change in Latin America; stress on institutional context of fertility, mortality, and migration.

859 G 1-15
Practicum in Sociological Research
W, Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Supervised practical experience in the independent execution of sociological research, the application of appropriate analytical techniques, and preparation of research reports.

851 G 4
Population for Non-Demographers
W, Sp.
Prereq.: One course in population.

851.01* G 5
Population Theories
An analysis in depth of major population theories, including Malthus, Marxist, and exponents of the transition theory.

851.02* G 5
Comparative Population Policy
Analysis of the sociopolitical, political, economic, and ideological factors affecting demographic decisions of selected countries, including the control of size, distribution, and composition of population. Y. Tien.

853 G 5
Formal Demography
Sp. 5 cr.
Prereq.: 754.

853.01 Advanced Demographic Analysis
An exposition of advanced applications of the life table, stable population models, estimates from incomplete data, projections and interpolations, and similar demographic techniques. Li.

862 G 5
Seminar in Complex Organizations
A. 3 cr.
Analysis of bureaucratization, structure, boundary problems, resource allocation, organizational change and conflict. Corwin and Dyne.

854 G 5
Professional Population Training
W, Sp.

854.01 Comparative Sociology of Fertility
Prereq. or concur.: 551 or 751, and 754, or equiv.
Comparative analysis of fertility in different societies at different historical periods; analysis of sources of human reproduction in institutional, interactional, and developmental perspectives; data and techniques of fertility analysis. Y. Tien.

854.02 International Migration
Prereq.: 756.
Analysis in historical depth of international migration, its statistics, its effects on the two countries and the migrants, and policies to inhibit or encourage international movements. Y. Tien.

854.03 Mortality and Morbidity
Prereq. or concur.: 551 or 751, and 853.01, or equiv.
Advanced sociological analysis of mortality and morbidity in global perspective, emphasizing the determinants and consequences of illness and mortality trends and theories of mortality differentials; statistical techniques are stressed. Schwirian.

863 G 5
Seminar in Small Groups
Sp.
A critical examination of theoretical and methodological issues in research on small groups; focus on sociological contributions.

871 G 5
Symbolic Interaction
A. 5 cr.
Analysis of the relationship between the individual and the social structure; particular reference paid to the symbolic interaction orientation. Franklin and G. Hinkie.

872 G 5
Social Psychology in a Comparative Sociological Perspective
W. 4 cr.
Contemporary social psychological research in other nations; major consideration of the value and normative structures which help to explain discrepant findings.
873  G 5  
Current Research in Social Psychology of Relevance to Sociology  
Su.  4 cl.  
Analysis of theoretical developments, methodological approaches and empirical findings on special recent topics.

880*  G 5  
Seminar in Contemporary Issues in American Race Relations  
A, Sp.  5 cl.  
Prereq.: 780.  
Repeatable to a maximum of 10 cr. hrs.  
Issues in contemporary American race relations are examined to facilitate theoretical clarification; specific seminar topics vary from quarter to quarter.  
Vander Zanden.

881†  G 5  
Seminar in Theoretical Issues in Comparative Race Relations  
Sp.  5 cl.  
Prereq.: 780.  
Repeatable to a maximum of 10 cr. hrs.  
Cross-cultural examination of stability and change in patterns of race and ethnic relations; specific seminar topics vary from quarter to quarter.

882  G 5  
Systematic Social Theory in Progress  
Sp.  2 hr. cl.  
Examination of the logical structure and empirical status of current and emerging theories. Hinkle.

883  G 5  
Seminar in Classical Sociological Theory  
W.  2 hr. cl.  
Prereq.: Permission of instructor.  
Discussion of ten classical works in sociological theory. Hinkle.

884  G 1-5  
Seminars in Sociology  
Repeatable to a maximum of 15 cr. hrs. for each decimal subdivision.

884.1 Sociological Theory  
884.2 Social Organization and Planning  
884.3 Medical Sociology  
884.4 Criminology and Penology  
884.5 Sociology of Education  
884.6 Race Relations  
884.7 Social Psychology  
884.8 The Family  
884.9 Research Methodology  
884.10 Urban Sociology  
884.11 Graduate Seminar on Contemporary Sociological Issues  
884.12 Unclassified  
884.13 Population  
884.14 Collective Behavior

885  G 5  
Seminar in Comparative Family Structures  
Sp.  5 cl.  
Examination of problems, issues and trends in family organization in different societies; emphasis on present knowledge and the development of new hypotheses and research designs. Clarke and Cuber.

888*  G 1-5  
Seminar in the American Family  
A.  5 cl.  
An examination of relevant issues, trends, and problems with emphasis on theoretical orientations and research findings. Clarke and Cuber.

999  G 5  
Interdepartmental Seminar  
(See under Interdepartmental Seminars.)

998  G Arr.  
Research in Sociology: Thesis  
Research for thesis purposes only.

999  G Arr.  
Research in Sociology: Dissertation  
Research for dissertation purposes only.

Spanish

Office: 248 Dieter Cunz Hall of Languages, 1841 Millikin Road

Professors Griffin (Chairman), Armitage, Babcock, Frosh, and Rogers (Emeritus); Associate Professors Garcia, Levisi, and Pardo; Assistant Professors Angelo, Bennett, Egea, and Iglesias.

101  U 5  
Elementary Spanish  
Su, A, W, Sp.  5 cl.  
Elements of Spanish grammar, with oral and written exercises; attention to ear training and oral practice; elementary reading based on Spanish geography, history, and customs.

102  U 5  
Elementary Spanish  
Su, A, W, Sp.  5 cl.  
Prereq.: 101.  
The elements of Spanish grammar with abundant oral and written exercises; development of conversational skill; reading vocabulary building; attention to Spanish idioms.
103 U 5
Intermediate Spanish
Su, A, W, Sp. 5 cl.
Prereq.: 102 or 110.
Course conducted in Spanish.
Continuation of Spanish grammar; attention to idioms; reading of short stories, plays, and novels.

104 U 5
Intermediate Spanish
Prereq.: 103 or 112.
The following courses are not open to students with credit for 104, and only one of the decimal subdivisions may be taken for credit.

104.01 Basic Course
Su, A, W, Sp. 5 cl.
Required of Spanish majors and recommended for students who intend to continue in Spanish.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Reading of Spanish short stories, plays, and novels with attention to literary appreciation; development of basic language skills; course conducted in Spanish.
Students not planning to continue in Spanish may substitute any one of the following decimal subdivisions for 104.01.

104.02 Conversation
A, W, Sp. 5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Emphasis on speaking and aural comprehension; conversation materials and current newspapers.

104.03 Culture and Civilization
A, W, Sp. 5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Aspects of Spanish civilization; geography, history, social developments, and the arts; readings and discussion in Spanish.

104.04 Social and Political Thought
A, W, Sp. 5 cl.
Not open to students with credit for 104 or any other 104 decimal subdivision.
Readings on the evolution of social and political ideas in Spanish America; texts in Spanish; discussion in Spanish and English.

105 U 5
Elementary Spanish Conversation and Composition
Su, A, W, Sp. 5 cl.
Prereq.: 104.
Course conducted in Span.
Intensive practice in oral and written Spanish, based on texts and periodicals concerned with contemporary Spain and Spanish America; grammar and idiom review.

110 U 5, 10
Intensive Elementary Spanish
A, W, Sp. 10 cl.
Prereq.: Permission of dept.
Not open to students with credit for 102. Students with credit for 101 or equiv. may not register for more than 5 cr. hrs.
Elementary Spanish for students wishing to acquire the basic skills in one quarter; intensive drill in form, syntax, vocabulary, and idiom; equivalent to 101 and 102.

112 U 5, 10, 15
Intensive Spanish
Su. 15 cl. Enrollment limited to 25 students.
Full time of student and full fees required.
Prereq.: Permission of dept. chairman.
Equiv. of 101, 102, and 103.
Students with credit for 101 or the equiv. may not register for more than 10 cr. hrs. Students with credit for 102 or the equiv. may not register for more than 5 cr. hrs. Students with credit for 103 or the equiv. may not register for credit.
Elementary and intermediate Spanish; intensive drill in forms, syntax, vocabulary, and idiom; reading of short stories and plays in Spanish.

162 U 5
Elementary-Intermediate Spanish for Selected Students
W. 5 cl.
Prereq.: Grade of A in 101 and permission of dept. Successful completion of 101-162-163 fulfills language requirements and satisfies prereq. for 400-level literature courses.

163 U 5
Elementary-Intermediate Spanish for Selected Students
Sp. 5 cl.
Prereq.: 162.
Successful completion of 101-162-163 fulfills language requirements and satisfies prereq. for 400-level literature courses.
Continuation of 162.

193 U 1-15
Individual Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

194 U 1-15
Group Studies
Prereq.: Permission of dept.
Repeatable to a maximum of 30 cr. hrs.

271 U 3
Spanish Literature in Translation: Medieval and Golden Age
A. 3 cl.
Prereq.: Engl. 100 or equiv.
Not open to Span. majors.
Selection of major works in Spanish literature from the medieval period through the Golden Age in translation.

272 U 3
Contemporary Spanish Literature in Translation
W. 3 cl.
Prereq.: English 100 or equiv.
Not open to Spanish majors.
Selection of major works in Spanish literature from the 19th and 20th centuries in translation.
273  U 3
Spanish-American Literature in Translation
Sp.  3 cl.
Prereq.: English 100 or equiv.
Not open to Spanish majors.
Selection of major works in Spanish-American literature in translation.

401  U 3
Review Grammar and Composition
Su, A, W, Sp.  3 cl.
Prereq.: 105.
Review of Spanish grammar; composition on assigned topics and practice in translation.

402  U 3
Intermediate Spanish Conversation and Composition
A, Sp.  3 cl.
Prereq.: 105.
Vocabulary building, practice in speaking Spanish, conversation and composition dealing with aspects of Spanish life.

403  U 3
Intermediate Spanish Conversation and Composition
Su (1st term), W.  3 cl.
Prereq.: 105.
Vocabulary building, practice in speaking Spanish, conversation and composition dealing with aspects of Spanish and Spanish American life.

404  U 5
Spanish Pronunciation
Su, A, W, Sp.  5 cl.
Prereq.: 105.
Abundant practice with corrective exercises; some attention to problems of teaching pronunciation.

421  U 5
Introduction to Modern Spanish Literature
Su, A, W, Sp.  5 cl.
Prereq.: 104.
Spanish literature and literary movements of the 19th and 20th centuries and their relation to modern Spain.

571  G 5
Basic Spanish for Graduate Students
A.  5 cl.
Prereq.: Grad. standing.
Credit does not apply to the minimum number of hours required for the master's or doctoral degree. No audit.
Designed primarily for students who have no formal preparation in Spanish covering basic grammar and vocabulary.

572  G 3
Spanish for Research I
W.  3 cl.
Prereq.: Grade of C or above in 571, or equiv. preparation demonstrated by a placement test.
Credit does not apply to the minimum number of hours required for the master's or doctoral degree. No audit.
Repeatable twice.
Satisfactory completion of this course (grade of A or B) may be accepted by the student's dept. as evidence of a thorough reading knowledge in fulfillment of Ph.D. language requirement.

573  G 3
Spanish for Research II
Sp.  3 cl.
Prereq.: Grade of A or B in 572, or equiv. preparation demonstrated by a placement test.
Credit does not apply to the minimum number of hours required for the master's or doctoral degree. No audit.
Repeatable twice.
Satisfactory completion of this course (grade of A or B) may be accepted by the student's dept. as evidence of a thorough reading knowledge in fulfillment of Ph.D. language requirement.

605  U G 3
Advanced Composition and Conversation
Su (2nd term), A, W, Sp.  3 cl.
Prereq.: 401 and 402 or 403.
Conducted in Spanish. History, customs, and manners of Spain and Spanish America. Iglesias.

607  U G 5
Modern Spanish Syntax
Su, A, W, Sp.  5 cl.
Prereq.: 421, 401, and 402 or 403.
Systematic study of Spanish grammar with composition and other exercises based on contemporary authors; modern tendencies in syntactic analysis. Egea and Iglesias.

608  U G 3
Spanish Translating
W.  3 cl.
Prereq.: 607 or equiv.
Translation from Spanish to English and from English to Spanish. Bennett.

609  U G 5
Spanish Phonetics
A, Sp.  4 cl., 1 hr. lab.
Prereq.: 404 or permission of instructor.
A detailed analysis of the phonological structure of Spanish and a contrastive comparison with English; practical problems of pronunciation and of teaching are stressed. Egea and Pardo.
610 U G 5
The Contrastive Structures of Spanish and English
A. 5 cl.
Prereq.: 401, 402 or 403, 404, and 421.
Phonetics, phonemics, morphology, and syntax of Spanish contrasted with English. Egea.

621 U G 5
Cervantes
A, Sp. 4 or 5 cl.
Prereq.: 421, and 422 or 423.
An intensive study of Don Quixote. Levisi.

622* U G 3
Romanticism in the Hispanic World
W. 3 cl.
Prereq.: 421, and 422 or 423.
A study of dramatists, poets, novelists, and essayists designed to bring out the literary unity of the Hispanic world in the Romantic period.

623†* U G 5
The Spanish Novel of the 19th Century
W. 4 or 5 cl.
Prereq.: 421, and 422 or 423.
A study of the development of the modern Spanish novel with particular attention to the works of Perez Galdos.

624* U G 3
Contemporary Spanish Fiction
A. 3 cl.
Prereq.: 421, and 422 or 423.
The development of narrative prose in Spanish American from the second World War to the present. Frosch.

625* U G 3
Modern Drama
A. 3 cl.
Prereq.: 421, and 422 or 423.
A survey of European drama at the beginning of the century and a detailed study of the Spanish dramatists from Benavente to Alfonso Sastre. Frosch.

626* U G 5
Spanish American Literature Through Romanticism
W. 5 cl.
Prereq.: 10 cr. hrs. in Span. literature at the 400 level. A study of the chronicles and main trends in colonial Spanish American literature; works of the Inca Garcilaso, Sor Juana and Alarcon will be included. Bennett and Frosch.

627* U G 5
Spanish American Literature Since Romanticism
Sp. 5 cl.
Prereq.: 10 cr. hrs. in Span. literature at the 400 level. The advent of "americanismo literario": a study of the romantics and the schools that followed up to "modernismo." Frosch.

628†* U G 3
Contemporary Spanish American Fiction
W. 3 cl.
Prereq.: 421, and 422 or 423.
The development of narrative prose in Spanish American from the second World War to the present. Frosch.

629 U G 3
The Generation of 1888
Sp. 3 cl.
Prereq.: 421, and 422 or 423.
Readings in fiction, poetry, and the essay from such authors as Unamuno, Azorin, Valle-Inclan, Baroja, A. Machado, and J. R. Jimenez Garcia.

630† U G 5
Contemporary Hispanic Poetry
A. 5 cl.
Prereq.: 421, and 422 or 423.
Currents of Spanish and Spanish American poetry from Ruben Dario to the present time. Bennett.

631 U G 2-5
Spanish Literature
Su. 5 cl.
Prereq.: 421, and 422 or 423.
Repeatable to a maximum of 15 cr. hrs.

632† U G 3
Early Spanish American Fiction
Sp. 3 cl.
Prereq.: 421, and 422 or 423.
The origin and development of the Spanish American novel to the 1930's. Frosch.

693 U G 1-15
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

694 U G 1-15
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.

698† U G 15
Study Tour of Hispanic America
Sp.
Prereq.: Minimum of 25 cr. hrs. in Span. and permission of dept. chairman.
Not open for grad. credit to majors in Span. The first five weeks will be devoted to intensive study of Spanish on this University campus; the remainder of the course will be spent in travel in South America; while traveling, formal language instruction will be given by the tour leader; in South America, only Spanish will be spoken.
721* UG 5
Drama of the 16th and 17th Centuries
Sp. 5 cl.
Prereq.: 421, and 422 or 423.
An intensive study of a limited number of plays of the representative dramatists of the 16th and 17th centuries. Leviisi.

722* UG 5
Poetry of the 16th and 17th Centuries
W. 5 cl.
Prereq.: 10 cr. hrs. in Span. literature at the 400 level.
Major poets and movements of the 16th and 17th centuries. Leviisi.

723†* UG 5
Prose of the 16th and 17th Centuries
W. 4 or 5 cl.
Prereq.: 421, and 422 or 423.
Selected prose works by major Renaissance and Baroque authors. Leviisi.

H783 UG 3-5
Honors Course in Spanish
Conference, library or phonetics laboratory arr.
Prereq.: 4th yr. standing with a record of A in at least half of the Span. courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
This course offers undergraduates with special aptitudes a greater opportunity to do independent study than is possible in the ordinary course. Bennett.

811 G 3
History of the Spanish Language
A. 3 cl.
Prereq.: M.A. candidacy or permission of instructor.
Basic concepts of historical linguistics; the major factors of change in the history of the Spanish language from Roman times to the present. Griffin.

812 G 3
Old Spanish I
W. 3 cl.
Prereq.: 811 or permission of instructor.
The development of Old Spanish phonology and morphology with an introduction to the reading of Old Spanish texts. Griffin.

813 G 3
Old Spanish II
Sp. 3 cl.
Prereq.: 812.
A continuation of Old Spanish I, with attention to syntax, vocabulary, and dialectology. Griffin.

814† G 5
The Structure of the Spanish Language
A. 5 cl.
Prereq.: 610 or permission of instructor.
Examination of the structure of Spanish; the contributions of statistics, computer and generative (transformational) grammar to the study of language. Egea.

815† G 3-5
Spanish Language in America
W.
Prereq.: 620 or permission of instructor.
A linguistic approach to the theoretical and practical problems of Spanish-American dialectology. Egea.

820 G 3
Introduction to Medieval Literature
Sp. 3 cl.
Prereq.: M.A. candidacy or permission of instructor.
Selected readings in Spanish poetry and prose from the beginning to the end of the 15th century, partly in modernized versions. Pardo.

821 G 3
Old Spanish Literature
A. 3 cl.
A literary approach to medieval poetry and prose. Pardo.

822† G 5
Topics and Problems in Spanish Literature: Golden Age
A. 3 cl.
Prereq.: 20 cr. hrs. of Span. literature at the grad. level. Qualified M.A. candidates may register with permission of instructor.
Intensive exploration of a special topic or problem. Leviisi.

823* G 5
Topics and Problems in Spanish Literature: 19th Century
Sp. 3 cl.
Prereq.: 20 cr. hrs. of Span. literature at the grad. level. Qualified M.A. candidates may register with permission of instructor.
Intensive exploration of a special topic or problem. Garcia.

824† G 5
Topics and Problems in Spanish Literature: 20th Century
Sp. 3 cl.
Prereq.: 20 cr. hrs. of Span. literature at the grad. level. Qualified M.A. candidates may register with permission of instructor.
Intensive exploration of a special topic or problem.

825* G 5
Topics and Problems in Spanish Literature: Spanish American Literature
W. 3 cl.
Prereq.: 20 cr. hrs. of Span. literature at the grad. level. Qualified M.A. candidates may register with permission of instructor.
Intensive exploration of a special topic or problem. Bennett.

831 G 3-5
Seminar in Spanish Literature
Su (1st term). A.
Prereq.: Permission of instructor. Leviisi.
Speech Communication

Office: 205 Derby Hall, 154 North Oval Drive
Professors Brooks (Chairman), Bergquist, Black (Requisites), Bonner, Douglas, Emery, Fatherringham, Golden, Hale, Hull, Irwin, Knowler (Emeritus), Lewis, Mall, Monaghan, Moser (Emeritus), Riley (Emeritus), Schoen, Smallwood, Summers (Emeritus), Wagner, Wiley (Emeritus), and Yeager (Emeritus); Adjunct Professor Abernathy; Associate Professors Brittin, Brown, Elgabili, Ewing, Goff, Melnick, Smith, and Takefuta; Assistant Professors Burke, Cegala, Deal, Dorrell, Foley, Hairston, Hawes, Lowe, MacDonald, Makay, Nata, Niswander, Nofsinger, Powers, Reynolds, Schweikart, Wall, and Wilcoxon.

035 U 5 American Speech for International Students
A. 5 cl.
5 cr. hrs. will be added to graduation requirements. Often taken in conjunction with Engl. 001.
Assignment to both English and the appropriate speech communication course is made on the basis of examinations given at the beginning of each quarter to all new students whose native language is not English. Goff.

040 U 0 or 3 Personal Speech and Hearing Rehabilitation
A, W, Sp. 5 cl.
Credit shall not count toward graduation.
For students with speech or hearing disorders.
Repeatable.
Personal speech and hearing rehabilitation for individuals with articulation, voice, or stuttering problems of speech or with impaired hearing. Goff.

105 U 5 The Communication of Ideas and Attitudes
Su, A, W, Sp. 5 cl.
The analysis, formulation, organization, development, and delivery of ideas and attitudes within contemporary issues by means of audience analysis and dialogue. Makay.

110 U 5 Group Discussion
Su, A, W, Sp. 5 cl.
Designed to develop the attitudes, skills, and knowledge of methods favorable to effective participation in discussion by conferences, committees, and other small groups. Hunt.

115 U 3 Broadcasting in America
A, W, Sp. 3 cl.
The process of mass communication; the effects of mass media on society, and the structures society imposes on the media.

125 U 3 Parliamentary Law
W. 3 cl.
135 U 3 Voice and Diction
   A, W, Sp.  3 cl.
   Not open to students with credit for 120.
   Introductory study of the principles of a satisfactory
   speaking voice; designed for the student concerned
   about the adequacy of his speech. Goff.

201 U 5 Introduction to Speech Communication
   A, W, Sp.  5 cl.
   Designed for students who wish to have a broad
   overview and understanding of the field of speech
   communication. Brooks.

205 U 1 Communication Co-Curricular Activities
   Each category repeatable to a maximum of 6 cr. hrs.
   Prereq.: Permission of instructor.
   Participation in specialized activities.
   b. Forensics.
   c. Oral Interpretation.
   d. Television and Radio Broadcasting.

209 U 3 Communication Theories and Models
   A, W, Sp.  3 cl.
   Communication model characteristics; structure and
   function, general principles; basic processes and major
   types of activities; receivers and effects; motivations,
   value systems, and norms. Cegala and Wall.

210 U 3 Introduction to Telecommunication Production
   A, W, Sp.  3 cl.
   Not open to students with credit for 229.
   Assets and liabilities of the telecommunication media;
   basic principles, procedures, techniques, and costs
   involved in telecommunication production. Foley.

213 U 5 Rhetoric in Western Thought
   A, W, Sp.  5 cl.
   Rhetorical theories as they reflected and affected
   society from Greece to modern times; relations to logic,
   ethics and poetics; the classical tradition versus
   sophistical concepts. Berquist and Golden.

215 U 3 Elements of Telecommunication
   Su, A, W, Sp.  3 cl.
   Prereq.: Speech Communication majors or permission
   of instructor.
   Not open to students with credit for 115.
   Introduction to the evolution and operation of the
   telecommunication media; the structures of media
   programming; basic processes of the media. Foley.

217 U 5 Rhetoric of American Issues
   A, W.  5 cl.
   A study of selected American orators, their speeches,
   and the audience reactions on significant issues during

221 U 5 Fundamentals of Oral Interpretation
   A, W, Sp.  5 cl.
   Introductory course to develop understanding and
   appreciation of literature through the oral interpretation
   of literary materials and critical listening. Brooks.

225 U 5 Persuasive Communication
   Su, A, W, Sp.  5 cl.
   Analysis of persuasive communication as a form of
   influence; the process and functions involved; its
   potential and limitation for individuals and
   organizations. Cegala.

235 U 3 Speech Functions and Responsibilities
   of the Teacher
   Su, A, W, Sp.  3 cl.
   A study of speech and hearing deviations commonly
   found in the classroom and of the role of the teacher.
   Oeal, Powers, and Wilcox.

240 U 3 Bases of Oral Communication
   Su, A, W, Sp.  3 cl.
   A study of the theories of the production and
   perception of speech. Powers and Takeuchi.

250 U 3 The Development of Speech and Language in Children
   A, W, Sp.  3 cl.
   The growth of speech and language in children;
   theories of speech and language development; causes
   of speech and language deviations. Goff.

305 U 5 Argumentation and Debate
   A, W, Sp.  5 cl.
   Principles of reasoned discourse and their application
   to controversial issues.

315 U 3 Informative Communication
   A, W.  3 cl.
   Analysis of potentials and limitations of informative
   communications for individuals and groups as
   communicates or communicators; processes and
   functions of informative communications in diverse
   situations. Douglas.

325 U 3 Communications and Society
   A, W, Sp.  3 cl.
   Communications and the role of government, pressure
   groups, and other segments of society; the impact
   of communication on individual and collective behavior.
   Emery.

330 U 3 Rhetoric of Black Americans
   W, Sp.  3 cl.
   Examination of the rhetoric of Black Americans in
   connection with such strategies as assimilation,
   separation, and revolution, to establish a role or
410 U 4
Program Processes in Radio
A, W, Sp. 3 cr.
The program functions in radio communication including the planning, production, and direction of programs.

420 U 3
Symbol Systems and Communication Behavior
A, Sp. 3 cr.
Study of the nature and forms of symbolic behavior; the human uses of symbols, particularly in communication. Fotheringham.

440 U 5
Anatomy and Physiology of the Ear and Vocal Mechanisms
A, W. 5 cr.
Prereq.: 240.
A study of the organs and systems of the body related to the processes of speech and hearing. Deal.

505 U G 5
Forms of Public Address
Su, A, W, Sp. 5 cr.
The organization, style, and delivery of speeches for special occasions. Bergquist, Makay, and Wall.

510 U G 5
Program Processes in Television
A, W, Sp. 5 cr.
Creating, planning, producing, and directing of the television program; development of program forms, program sources, programming organization, and program evaluation. Lowe.

515 U G 3
Organizational Communication
W, Sp. 3 cr.
A study of the communicator and communication systems in organizations with emphasis on theory, relationships, and objectives. Hawes and Hunt.

520 U G 3
Communication and Social Behavior
W, Sp. 3 cr.
Communication processes underlying social and cultural pressures on the individual; communication analysis of behavior; techniques of inquiry into forms of symbolic influence. Douglas.

525 U G 4
Broadcasting and Written Messages
W. 3 cr.
Analysis of program types in relation to writing effectiveness; communication significance of content and style elements in television and radio. Monaghan.

530 U G 5
Communication and the Task-Oriented Group
W. 5 cr.
Prereq.: 110 or equiv.
Information gathering, processing, and communicating phases of small group communication with emphasis on recent, socially significant task forces and on group reports generated in class. Wall.

540 U G 5
Introduction to Audiology
A, Sp. 5 cr.
Prereq.: 240; concur. 440.
The study of hearing, both normal and abnormal, with information on the nature, causes, identification, and rehabilitative treatment of persons with hearing disorders.

545 U G 3
Principles of Phonetics
A, W, Sp. 3 cr.
Prereq.: 240 recommended.
The available descriptions of the sounds of speech and a comparative study of the systems of representing the sounds. Black and Takefuta.

550 U G 3
Introduction to Speech Pathology
A, W, Sp. 3 cr.
Prereq.: 240, 245, and 250.
A study of disorders of speech; information on prevalence, causes, types, and effects. Golf and Powers.

555 U G 3
International Broadcasting
Su, Sp. 3 cr.
Dimensions of national and international broadcasting; satellite communication, types of programming; problems of effective transmission and reception of foreign broadcasts—organizational, cultural, political, and economic. Emery.

The Teaching of Speech in Secondary Schools
See Ed Hums 556

611 U G 3
Advanced Oral Interpretation
W. Sp. 3 cr.
Prereq.: 221 or grad. standing.
A study of programming non-dramatic literature for communication by groups; novel, short story, and verse stressed; laboratory experiences in Readers Theatre and Chamber Theatre. Brown.

616 U G 5
Communication in Decision-Making
W. 5 cr.
Decision-making as a process; comparisons between interpersonal, bargaining-negotiation contexts, and groups and organizations; descriptive and prescriptive models of decision-making in small groups and organizations. Hawes.

621 U G 5
Theories of Rhetoric
W. 5 cr.
Reading and detailed study of the theories of principal rhetoricians from ancient to modern times. Golden.
626 U G 5
Broadcast Audience Analysis
W, Sp. 4 cl.
Introduction to various inquiry methods which may be used for understanding and developing communication processes involving the media producer and his intended audiences. Foley and Monaghan.

630 U G 3
Creative Processes in Telecommunication
A. 3 cl.
Aesthetic and creative processes in program creation and evaluation; analysis of the influences of style, content, and treatment. Foley.

Teaching Dramatics and Oral Interpretation in Secondary Schools
(See Ed Hums 631)

632 U G 3
Theories of Auditory Rehabilitation
Su, A, W, Sp. 3 cl., 2 1-hr. labs.
Prereq.: 540.
A study of the major theories and procedures for teaching speech reading and auditory training. Wilcox.

633 U G 2
Psychology of the Audience
A.
Prereq.: 10 cr. hrs. in speech communication or permission of instructor.
Not open to students with credit for Psych 633.
Descriptive and experimental studies of audience behavior; dimensions and patterns of audience stimulation; measurements of affects of communication, communication analysis; listening. Wall.

636 U G 3
Principles of Audiometry
W, Sp. 3 cl.
Prereq.: 540.
A study of the techniques of hearing assessment in clinical, educational, industrial, and medical settings.

640 U G 5
Speech Pathology: Disorders Associated with Physical Anomalies
Su, W. 5 cl.
Prereq.: 440 and 550.
Consideration of theories, principles, and procedures for appraisal and treatment of deviant voice and articulation that accompanies cleft palate, cerebral palsy, maxillofacial injuries, and other physical disabilities. Deaf.

644 U G 3
Theories of Language Development of the Deaf
A. 3 cl.
Prereq.: 250 and Ed Excep 651.
Study of the communicative processes of acoustically handicapped individuals: symbolization, meaning, syntax. Wilcox.

648† U G 3
The Pre-School Deaf Child
Su. 3 cl.
Prereq.: 250 and Ed Excep 659, 660.
Study of the problems of communication of the deaf child. Wilcox.

652 U G 5
Stuttering: Theories and Therapies
W, Sp. 5 cl.
Prereq.: 550 and 10 cr. hrs. in psychol.
Theories, principles, and procedures for the appraisal and treatment of persons with dysfluencies in speech. Irwin and Powers. Fee.

655 U G 3
Speech Pathology: Appraisal
Su, W. 2 cl., 2 lab. hrs.
Prereq.: 550 and 9 cr. hrs. in psych.
Not open to students with credit for 656.
Basic principles, procedures, and techniques in interviewing and the evaluation of articulation, voice, language, rhythm; experience in appraisal and writing examination reports. Irwin.

660 U G 5
Speech Pathology: Articulation and Voice
Su, W. 5 cl.
Prereq.: 135 and 550.
Not open to students with credit for 656.
Principles and procedures and techniques for the treatment of speech disorders with emphasis on vocal and articulatory deviations not associated with physical disabilities. Irwin.

Advanced Methods in School Speech and Hearing Therapy
(See Ed Excep 663)

670 U G 3
Analysis of Language and Communication
Sp.
Prereq.: 10 cr. hrs. in psych. and 10 cr. hrs. in speech communication.
Not open to students with credit for Psych 670.
Descriptive and experimental studies of speech and language processes; learning, vocal and visible symbolism, language and thought, information processing, communication behavior patterns. Nofsinger.

693 U G 1-5
Individual Studies
Prereq.: Permission of Instructor.
Repeatable to a maximum of 15 cr. hrs.
Conference, library, and laboratory work.

688 U G 6-15
International Study Tour
Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Intensive five-week study on campus followed by six-week study abroad; topics to be announced.
701 UG 4
Research Methodologies in Speech Communication
Predominant research methodologies in the field of speech communication.
701.01 Statistical Concepts and Logic
A, W.
Prereqs.: Permission of instructor.
Fotheringham.
701.02 Measurement of Communication Variables
Sp.
Prereq.: 701.01.
Fotheringham.
701.03 Experimental Design
A.
Prereq.: Permission of instructor.
Cegala.
701.04 Humanistic Communication Analysis
A.
Prereq.: Permission of instructor.
Monaghan.
701.05 Content and Interaction Analysis
W.
Prereq.: 701.01 or equiv.
Hawes.
701.06 Computer Applications
Sp.
Prereq.: Permission of instructor.
Foley.
701.07 Field Study and Participant Observation
W.
Prereq.: Permission of instructor.
Nofinger.
701.08 Historical Analysis
W.
Prereq.: Permission of instructor.
Berquist.
701.09 Rhetorical Analysis and Criticism
Sp.
Prereq.: Permission of instructor.
Brown.
701.10 Legal Research
A.
Prereq.: Permission of instructor.
Emery.

703 UG 3
Attitude Theories and Communication
A. 3 cl.
Consistency, stimulus-response, functional, social judgment, and dissonance theories of attitude are examined in relation to communication theory, research, and measurement. Wall.

704 UG 5
Practicum in Organizational Communication
Sp. 1 2-hr. cl., 1 3-hr. lab.
Prereq.: 515 or equiv. and permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Class discussion and first-hand observation of communication systems in organizations with emphasis on student exposure to the daily routine activities of selected organizations. Hunt.

705 UG 3
Principles of Rhetorical Criticism
Sp. 3 cl.
Principles, functions, and methods of rhetorical criticism as they relate to public address. Makey.

715 UG 3
Broadcasting and the Public Interest
Su, W, Sp. 3 cl.
Communication significance of "public interest" concept in broadcasting; effect on program standards, self-regulation, government regulation. Emery.

735† UG 3
Hearing Aids and Auditory Training
Su. 3 cl.
Prereq.: 540 and 636.
Operational principles of individual and group amplification systems for those with hearing impairments.

745 UG 3
Theories of Speech Development of the Deaf
W. 3 cl.
Prereq.: 240, 545, and 644.
Study of the development of speech under conditions of minimum auditory stimulation and acoustic feedback. Wilcox.

752 UG 3
American Dialects
A. 3 cl.
Prereq.: 545.
Comparative phonetics and lexical usages with an emphasis on social dialects in American speech.

755 UG 3
Beginning Practicum in Speech and Hearing
A, W, Sp. 2 cl., 7 1-hr. labs.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Supervised practice in appraisal and treatment.
  a. Speech Pathology
  b. Vocal and articulatory disorders.
  c. Audiology
  Hearing disabilities.

777† UG 3
Teaching of American Speech to Speakers of Other Languages I
W. 3 cl., 2 lab. hrs.
Concur.: Engl. 777.
Approaches to teaching American speech and special study of the perception and motor production of the acoustic patterns of English (TESOL Program). Goff.

778† UG 3
Teaching of American Speech to Speakers of Other Languages II
Sp. 1 cl., 4 lab. hrs.
Prereq.: 777; concur. Engl. 778.
Techniques for improving listening and speaking skills of speakers of other languages learning American English; development of materials and use of audio laboratories (TESOL Program). Goff.
H783 U 3.15
Honors Course
Prereq.: 4th yr. standing, with a grade of A in at least half of the speech communication courses and an average of B in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Repeatable to a maximum of 15 cr. hrs.
A program of independent study for the student with special aptitudes; individual conferences and reports.

794 U G 3
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

797 U P G 3
Interdepartmental Seminars
W, Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
   a. Language Disorders in Children. W. MacDonald.
   b. Audiometric Assessment in Mental Retardation. W. Niswander.
   c. Language Therapy in Mental Retardation. Sp. MacDonald.
(See under Interdepartmental Seminars.)

802 G 3
Communication Theories and Models
A. 3 3-hr. cl.
The formal principles of theory and model construction function as criteria for examining the strengths and weaknesses of four classes of interpersonal communication models. Nofzinger.

803 G 3
Contemporary Persuasion Theory
W. 3 cl.
Study of the viewpoints and theoretical explanations of persuasive effects found among major contemporary authors in the field. Fotheringham.

806 G 3
Advanced Studies in Television and Radio
W, Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

811 G 3
Seminars in History and Criticism of Public Address
Su. A.
Prereq.: Permission of instructor.
Repeatable to a maximum of 40 cr. hrs.

816 G 3
Seminars in Rhetorical Theory
Prereq.: Permission of instructor.
Repeatable to a maximum of 25 cr. hrs.
   c. Attitude Change and Rhetorical Theory. W. Brown.

821 G 3
Seminars in Television and Radio
Prereq.: Permission of instructor.
Repeatable to a maximum of 40 cr. hrs.
   a. Media Technology and Developing Countries. Su. Emery.

826 G 3
Seminars in Communication Behavior
Prereq.: Permission of instructor.
Repeatable to a maximum of 40 cr. hrs.
   b. Human Resources and Communication Behavior Organizations. A. Hunt.

832 G 5
Experimental Phonetics
Sp. 3 cl., 2 3-hr. labs.
Prereq.: 545, #66, or permission of instructor.
A study of experimental investigations of acoustic, physiological, and psychological aspects of speech and related laboratory experiments. Black.

836 G 5
Disorders of Communication Associated with Neuropathologies
Su. 5 cl.
Study of the nature, diagnosis, prognosis, and treatment of speech manifestation in dysarthria and aphasia. Deal.
844  G 1-10
Advanced Practicum in Speech and Hearing
W. 1 cl., 3 clinical hrs. for each hour of credit per week.
Prereq.: Permission of instructor.
Repeatable to a maximum of 45 cr. hrs.
Advanced practicum in speech, hearing, and language.

848  G 3
Interdisciplinary Functioning in Disorders of Oral Communication
W. 4 cl.
Prereq.: 616, 836, and 944.
The diagnosis and treatment of profound speech and hearing disorders and the joint rehabilitation treatment accorded pathological ear and vocal mechanisms by ancillary disciplines. Grimm.

856  G 3
Speech and Hearing
W. 3 cl.
Prereq.: 540 or equiv. and Physics 501.
Repeatable to a maximum of 6 cr. hrs.
Theoretical concepts and physiological and psychophysical data relative to hearing with particular reference to the perception of speech. Black.

Seminars in Education
(See Ed Hums 925.09)

899  G 3
Interdepartmental Seminar
Prereq.: Permission of instructor.
(See Interdepartmental Seminars.)

940  G 3
Advanced Studies in Speech and Hearing Science
Prereq.: Permission of instructor.
Repeatable to a maximum of 45 cr. hrs.
a. Design of Experiments in Speech and Hearing. A. Black.
b. Interpreting Audiometric Results. W. Nilo.
c. Instrumentation in Speech and Hearing. A. Takefuta.
f. Disorders of Voice. A. Deal.

950  G 3
Seminar in Speech and Hearing Science
Prereq.: Permission of instructor.
Repeatable to a maximum of 45 cr. hrs.
c. Management and Supervision. A. Goff.
e. Supervision and Counseling. Irwin.
d. Pediatric Audiometry. A. Niswander.

990  G 3
Areas and Techniques of Research in Speech Communication
Su, A. 3 cl.
Prereq.: 25 cr. hrs. in speech communication.
A review and critical commentary on typical methods of research in each of the principal areas of graduate research in speech; research reports. Douglas.

994  G 3
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

998  G Arr.
Research in Speech Communication: Thesis
Repeatable to a maximum of 5 cr. hrs.
Research for thesis purposes only.

999  G Arr.
Research in Speech Communication: Dissertation
Research for dissertation purposes only.

Statistics

Office: 128 Cockins Hall, 1968 Neil Avenue

Professors Whitney (Chairman), Rustagi, and Willke; Associate Professors Dudewicz and Srivastava; Assistant Professors Anderson, Archambault, Singh, and Wolfe.

123  U 5
Statistics for the Business, Social, Biological Sciences
Su, A, W, Sp. 5 cl.
Prereq.: Math. 122.
Not open to students with credit for Math. 123, or 120.05 or 120.06.
Introduction to the basic concepts of probability and statistics; sample statistics, discrete and continuous probability distributions; confidence intervals, estimation, tests of hypotheses.

125  U 5
Elementary Mathematical Statistics
Su, A, W, Sp. 5 cl.
Prereq.: Satisfactory score on O.S.U. Math. Placement Test (Level 3).
Not open to students with credit for Econ. 442, Ed. 786, Genetics 650, Pol. Sci. 685, Psychol. 220, 510, or Soc. 360.
Elementary principles of probability and introduction to the use of the binomial and normal distributions.
180 U 5
Choice and Chance
A, Sp. 5 cr.
Prereq.: Level 3 placement on O.S.U. Math. Placement Test and permission of Dept. or permission of instructor.
Not open to students with credit for any Statistics course.
A liberal arts course presenting the concepts of probability, statistical uncertainty, and decision-making, and their role in society and science.

194 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.

223 U 5
Elementary Decision Theory
Su, W. 5 cr.
Prereq.: Math. 116, 121 or 150.
Descriptive statistics, probability, utility, Bayes strategies, minimax strategies, and statistical inference.

421 U 3
Introduction to Statistics
W.
Prereq.: Math. 254 or permission of chairman.
Combinatorial probability, fundamental concepts of probability distributions, sample statistics, estimation and testing hypotheses, roots of statistical theory.

425 U 5
Probability and Statistics I
Prereq.: Math. 254 or permission of chairman.
Elements of discrete and continuous probability; introduction to estimation and testing of hypotheses.

426 U 5
Probability and Statistics II
Prereq.: 425 or Math. 425.
Continuation of 425.

494 U 3-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.

505 U G 5
Introduction to Analysis, Probability, and Statistics I
A. 5 cr.
Prereq.: Permission of instructor or graduate standing in M.B.A. or M.P.A. programs and previous training in calculus.
Not open to students with credit for Math. 123 or any higher level mathematics or statistics course.
Mathematical methods and concepts related to applications in the business and social sciences.

506 U G 5
Introduction to Analysis, Probability, and Statistics II
W. 5 cr.
Prereq.: 505.
Not open to students with credit for Math. 123.
Continuation of 505.

518 U G 3
Statistical Theory in Medical Research I
A. 3 cr.
Prereq.: Permission of instructor, special grad. students in medical sciences.
Fundamental concepts of probability, random variables, statistical inference, regression and correlation analysis; topics selected from bioassay, life table techniques, computers in medicine.

519 U G 3
Statistical Theory in Medical Research II
W. 3 cr.
Prereq.: 518 or Math. 528.
Continuation of 518.

520 U G 5
Mathematical Statistics I
Su, A, W. 5 cr.
Prereq.: Math. 254 or permission of chairman.
Permutations, combinations, probability, discrete and continuous distributions; Binomial, Poisson, normal chi-square, t, F distributions; limit theorems of probability.

521 U G 5
Mathematical Statistics II
Su, W, Sp. 5 cr.
Prereq.: 520 or Math. 520.
Testing simple hypotheses; applications of t test, chi-square tests, F tests, nonparametric tests; confidence intervals.

525 U G 5
Statistical Methods
A.
Prereq.: Math. 254 or equiv. and permission of instructor; or Math. 254 or equiv. and grad. standing.
Basic concepts of probability and statistical inference; application to models involving binomial, Poisson, and normal distributions, and linear regression.
528  U G 3
Data Analysis I
Su, A. 2 cl., lab. hrs. arr.
Prereq.: Permission of instructor or grad. standing.
Not open to students with more than 3 cr. hrs. in Statistics.
Non-calculus treatment of descriptive statistics, statistical inference, goodness of fit, use of t, F, X2 in one sample situation.

529  U G 3
Data Analysis II
Su, W. 2 cl., lab. hrs. arr.
Prereq.: 528.
Two sample tests, non-parametric one and two sample procedures, regression analysis, one and two way analysis of variance.

532†  U G 3
Discrete Probability
W. 3 cl.
Prereq.: 426 or 520.
Discrete probability spaces, random walk, Markov chains, stochastic processes, strong laws of probability.

593  U G 2-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

594  U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

600  U G 1-5
Statistics Laboratory
Prereq.: Permission of instructor.
Repeatable to a maximum of 10 cr. hrs.
Experience is given the student in working with real data through association with current projects in the Statistics Laboratory.

623  U G 3
Mathematical Statistics Supplement
A. 3 cl.
Prereq.: 426 or equiv. and permission of instructor.
Not open to students with credit for 521.
Distributions of sample statistics, order statistics, limit theorems, sufficient and efficient estimates, likelihood ratio tests.

632  U G 3
Applied Stochastic Processes
A. 3 cl.
Prereq.: 520 or Math. 520.
Normal processes and covariance stationary processes, counting processes and Poisson processes, renewal processes.

635  U G 3
Statistical Analysis of Time Series
Sp.
Prereq.: 521 or 623 or permission of instructor.
Time series models, estimation and the spectral density function; transformations of time series; prediction theory, applications.

641  U G 3
Linear Models
W. 3 cl.
Prereq.: 426 or 521, and an elementary knowledge of matrix theory and notation.
The general linear model for regression and experimental designs; properties of least square estimates; distribution of quadratic forms and the analysis of variance table.

645  U G 5
Design of Experiments
Su, A, Sp.
Prereq.: 426 or 521 or 525.
Polynomial and multiple regression; factorial balanced incomplete block, nested designs and others; analysis of covariance; prepared computer programs used on sample data in laboratory periods.

651  U G 3
Survey and Sampling Theory
Su. 3 cl.
Prereq.: 521 or 623 or permission of instructor.
Sampling from finite populations, multistage sampling, stratification, regression and ratio estimates, non-sampling errors, applications to large scale sample surveys.

661  U G 5
Applied Nonparametric Statistics
Su, W, Sp.
Prereq.: 426 or 521 or 529 or equiv.
Non-calculus treatment of nonparametric tests, confidence intervals, estimation; topics include one- and two-sample problems, one- and two-way analysis of variance, multiple comparisons, correlation.

693  U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Individual conferences, assigned readings, and reports on minor investigations.

694  U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
725* U G 3
Sequential Procedures in Statistics
A. 3 cl.
Prereq.: 521 or 623, and Math. 550.
Sequential tests of hypotheses and their operating
classifications, Wald's SPRT tests, sequential
estimation, sequential designs and multiple decision
procedures.

742 U G 3
Analysis of Variance
A. 3 cl.
Prereq.: 521 or 623; Math. 550; and Math. 471 or 571 or
601.
Theory of the general linear model; least square
estimates and properties, especially in non-full rank
models; analysis of variance technique; factorial
designs.

746 U G 3
Design and Analysis of Experiments
W. 3 cl.
Prereq.: 742 or Math. 720.
A continuation of 742; various experimental designs;
analysis of covariance, mixed and random models.

755 U G 3
Multivariate Analysis I
W. 3 cl.
Prereq.: 521 or 623; Math. 471 or 571 or 601; and Math.
551.02 or 623.
Multivariate normal distribution, Wishart distribution,
Hotelling's T² multivariate analysis of variance,
multiple correlation, roots of determinant equations,
discriminant functions, and applications.

756 U G 3
Multivariate Analysis II
Sp. 3 cl.
Prereq.: 755 or Math. 726.
Continuation of 755.

761 U G 3
Order Statistics
A. 3 cl.
Prereq.: 521 or 623, and Math. 551.02 or 653.
Exact and asymptotic distributions and moments of
order statistics, estimating parameters and testing
hypotheses using order statistics, confidence intervals,
and tolerance regions.

763 U G 3
Nonparametric Statistics
Sp. 3 cl.
Prereq.: 761 or Math. 728.
Theory of testing hypotheses, single, double and k
sample problems, rank orders, measures of correlation,
and large sample properties.

777† U G 3
Optimizing Methods in Statistics
Sp. 3 cl.
Prereq.: Permission of instructor.
Survey of classical optimizing techniques with
applications in statistics, mathematical programming
and constrained estimation, variational methods and
dynamic programming applied to statistical problems,
miscellaneous applications.

794 U G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

821 G 3
Statistical Inference I
W. 3 cl.
Prereq.: 521 or 623, and Math. 722.
Classical and modern statistical inference from
advanced point of view, estimation, principles of
maximum likelihood, Asymptotic theory, completeness,
sufficiency and invariance.

822 G 3
Statistical Inference II
Sp. 3 cl.
Prereq.: 821 or Math. 824.

824 G 3
Statistical Decision Theory I
A. 3 cl.
Prereq.: Permission of instructor.
Introduction to the theory of games, statistical games,
admissibility and completeness, complete class
theorem, principles of sufficiency and invariance,
and sequential games.

825 G 3
Statistical Decision Theory II
W. 3 cl.
Prereq.: 824 or Math. 826.
Continuation of 824.

828* G 3
Statistical Multiple Decision Procedures
Sp. 3 cl.
Prereq.: Permission of instructor.
Comparisons with a standard, the ranking of
parameters different formulations, same multivariate
and non-parametric problems of ranking and selection.

832†* G 3
Applied Probability Models
A. 3 cl.
Prereq.: Math. 722.
Birth and death processes, Queueing Theory, Branching
processes and other applied probability models.

834† G 3
Statistical Inference for Stochastic Models
W. 3 cl.
Prereq.: 832.
Theory of statistical inference for Markov Chains and
other applied probability models.

847* G 3
Advanced Design of Experiments
Sp.
Prereq.: 746 or Math. 721.
Partially balanced designs, factorial experiments,
confounding and factorial replications, response
surface designs.
881  G 3
Advanced Topics in Mathematical Statistics I
Su. 3 cl.
Prereq.: Permission of instructor.
Topics to be taken from the following: multivariate analysis, stochastic processes, analysis of variance, components of variance models, advanced test design.

882  G 3
Advanced Topics in Mathematical Statistics II
Su. 3 cl.
Prereq.: 881 or Math. 925.
Continuation of 881.

888*  G 3
Large Sample Theory
A. 3 cl.
Prereq.: 822.
Mann-Wald theory of stochastic order relationships; asymptotic distribution of maximum likelihood estimates and likelihood ratio statistic, large deviation theory, asymptotic theory of well known statistics.

999  G Arr.
Research
Research for thesis or dissertation purposes only.

Surgery

Office: N-747 University Hospital, 410 West 10th Avenue

Professors: Robert Zollinger (Chairman), Boles, Clatworthy, Curtiss, Hardymon, Hunt, James, Keith, Klassen, Pace, Patton, Wittberger, Winter, and Richard Zollinger; Associate Professors Berggren, Bingham, Cerilli, Coleman, Duran, Evans, Funke, Heydinger, B. Smith Kent, Kilman, Lacey, Maegher, McKestrough, Miller, Morse, Nick, Sayers, Stoner, Taylor, Tetrillo, Thomford, Vasko, and Yashon; Assistant Professors Arnold, Barnes, Bonta, Cogbill, Eyring, Fusco, Iretton, Kirk, Lewis, Minton, Pugel, Rauch, J. Roberts, F. Smith, J. Smith, Stewart, Williams, Wise, and Zox.

715  P 6 or 12
Clinical Surgery
Offered all months.
Prereq.: Med. 3rd yr. standing.
Must repeat to 12 cr. hrs.
The student serves as clinical clerk both in inpatient and outpatient departments on the General Surgical Services, with instruction in total patient care.

736  P 5, 6, or 11
Clinical Surgery
Offered all months.
Prereq.: Med. 4th yr. standing; concur. Anes. 737 when registration is for 5 or 11 cr. hrs.
Must repeat to 11 cr. hrs.
Total inpatient and outpatient management of surgical disease; emergency room, orthopaedics, neurosurgery, thoracic surgery, plastic surgery, urology, pediatric general surgery, and general surgery.

793
Individual Studies in Surgery
1, 2, 3, or 4 months.
G 3-5
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs. for grad. credit.

793.02 General Surgery
P 6, 12
1 or 2 months; offered all months.
Repeatable to a maximum of 12 cr. hrs. for professional credit.

793.03 Neurological Surgery
P 6, 12, 18
1, 2, or 3 months; offered all months.
Repeatable to a maximum of 18 cr. hrs. for professional credit.

793.04 Orthopaedic Research
P 6, 12, 18
2, 3, or 4 months; offered all months.
Must repeat to a minimum of 12 cr. hrs.
May repeat to a maximum of 24 cr. hrs. for professional credit.

793.05 Pediatric Surgery
P 6, 12
1 or 2 months; offered all months.
Repeatable to a maximum of 12 cr. hrs. for professional credit.

793.06 Urology
P 6, 12
1, 2, or 3 months; offered all months.
Repeatable to a maximum of 12 cr. hrs. for professional credit.

793.08 Plastic and Reconstructive Surgery
P 6, 12, 18
1, 2, 3, or 4 months; offered all months.
Repeatable to a maximum of 24 cr. hrs. for professional credit.

793.09 Thoracic Surgery
P 6, 12, 18
1, 2, or 3 months; offered all months.
Repeatable to a maximum of 18 cr. hrs. for professional credit.

793.10 Peripheral Vascular Surgery
P 6, 12, 18
1, 2, or 3 months.
Prereq.: Completion of Med. Coll. 656 or equiv.
Limit: 2 students in any 1 month.
Repeatable to a maximum of 18 cr. hrs. for professional credit.
Clinical clerkship in peripheral vascular surgery.

794
Group Studies in Surgery
Prereq.: Permission of instructor.

P 6
1 month, offered all months.

794.05 Neurological Surgery
P 6, 12, 18
1, 2, or 3 months; offered all months except June.
Repeatable to a maximum of 18 cr. hrs.
Theatre

Office: Drake Union, 1849 Cannon Drive
Professors Walker (Chairman), Bowen, Cepeau, Lewis, McDowell, and Ritter; Associate Professors Kabatchnik, McCray, Morrow, and Schrock (Emeritus); Assistant Professors Ayers, Glancy, Guillot, Hastings, and Kirk; Instructor Bergman.

100 U 5
Introduction to Theatre
Not open to students with credit for 165.
A study of the theatre with emphasis upon its cultural and social influences in our society.

101 U 3
Principles and Techniques of the Theatre Arts I
A. 1 2-hr. cl., 2 2-hr. labs.
Prereq.: Permission of Chairman.
Repeatable to a maximum of 6 cr. hrs.
Basic principles and elementary techniques of theatrical performance.

102 U 3
Principles and Techniques of the Theatre Arts II
W. 1 2-hr. cl., 2 2-hr. labs.
Prereq.: 101.
Continuation of 101.

103 U 3
Principles and Techniques of the Theatre Arts III
Sp. 1 2-hr. cl., 2 2-hr. labs.
Prereq.: 102.
Continuation of 102.

200 U 3
Fundamentals of Theatre Practice
Su, A, W, Sp. 3 cl.
Not open to students with credit for 279.
Nature of modern theatre art and principles of play production; survey of contemporary theatre and career opportunities.

205 U 1
Theatre Practicum
Prereq.: Written permission of instructor.
Repeatable to a maximum of 6 cr. hrs, including credit in 265.
Provides experience in theatrical performance and production activities.
205.01 Stage Direction/Management
205.02 Technical Production/Lighting
205.04 Stage Design
205.05 Costuming/Makeup
205.08 Acting
205.09 Theatre Management
<table>
<thead>
<tr>

</table>
Prereq.: 200.  
Not open to students with credit for 270.  
Basic aspects of scenery construction, rigging, stage lighting, and sound effects, and their integration.                                                                                                                                                                                                                       |
| 271         | U 5     | Great Ages of the Theatre                          | Su, A, W, Sp.  5 cl.  
Not open to students with credit for 285.  
Concepts and characteristics of the great periods of the theatre of the Western World.                                                                                                                                                                                                                                             |
| 280         | U 3     | Acting Fundamentals I                              | Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: 200.  
The actor’s resources and methods, basic body movement, and vocal interpretation.                                                                                                                                                                                                                                                       |

Prereq.: 280 or equiv.  
Not open to students with credit for 365.  
Scene study and development of technical acting skills.                                                                                                                                                                                                                                                                  |
| 325         | U 3     | Stage Lighting I                                   | A.  3 cl.  
Prereq.: 220 or equiv.  
Not open to students with credit for 330.  
Study of electrical, mechanical, and electronic elements of lighting for the stage as prerequisite for the study of stage lighting design.                                                                                                                                                                                  |
| 341         | U 3     | Stage Design Drafting                              | A.  2 2-hr. labs.  
Prereq.: 220.  
Not open to students with credit for 340 or 540.  
Principles of mechanical drawing and scale model building as applied to the problems of theatrical scene design.                                                                                                                                                                                                                       |
| 350         | U 2     | Introduction to Stage Makeup                       | Su, A, W, Sp.  2 cl.  
Prereq.: 200 or permission of instructor.  
Practical application of the theories and techniques of theatrical makeup.                                                                                                                                                                                                                                                        |
| 351         | U 3     | Stage Costuming I                                  | A, Sp.  3 cl.  
Prereq.: 200.  
Not open to students with credit for 366.  
Basic principles and techniques of stage costume design and construction.                                                                                                                                                                                                                                                 |
| 380         | U 3     | Intermediate Acting I                             | Su, A, W.  2 2-hr. cl.  
Prereq.: 281 or equiv. and written permission of instructor.                                                                                                                                                                                                                                                                 |
| 381         | U 3     | Intermediate Acting II                            | Su, A, W, Sp.  2 2-hr. cl.  
Prereq.: 380 and written permission of instructor.                                                                                                                                                                                                                                                                 |
Prereq.: Written permission of instructor.  
Repeatable to a maximum of 18 cr. hrs. in any combination of decimal subdivisions.  
Provides experience in theatrical performance and production activities at an intermediate level.                                                                                                                                                                                                                     |
| 405.01      |         | Stage Direction/Management                        |                                                                                         |
| 405.02      |         | Technical Production/ Lighting                     |                                                                                         |
| 405.04      |         | Stage Design                                      |                                                                                         |
| 405.05      |         | Costuming/Makeup                                  |                                                                                         |
| 405.08      |         | Acting                                            |                                                                                         |

501 U G 5
Children's Theatre: Production and Direction
Su, A, W, Sp. 5 cl.
Prereq.: 220.
Not open to students with credit for 565.
Selection, production, and direction of plays for children.

510 U G 5
Stage Directing II
W. 4 cl.
Prereq.: 310.
Analysis of staging problems in scenes from selected modern dramas; techniques for staging.

520 U G 3
Technical Production II
W. 3 cl.
Prereq.: 320 and 341.
Staging methods in non-typical scenic styles and periods for dramatic and musical productions.

531 U G 3
Theatre Repertory I
A. 3 cl.
Not open to students with credit for 571.
Survey of representative realistic plays in the repertory of modern Western theatre.

532 U G 3
Theatre Repertory II
W. 3 cl.
Not open to students with credit for 572.
Survey of representative non-realistic plays in the repertory of modern Western theatre.

533 U G 3
Theatre Repertory III
Sp. 3 cl.
Not open to students with credit for 573.
Survey of representative classical and romantic works in the repertory of the Western theatre.

545 U G 3
Introduction to Stage Design
W. 3 cl.
Prereq.: 341.
Not open to students with credit for 540.
Fundamental principles and techniques of stage design; experience in designing projects.

601 U G 3
Theatre Management
A.
Prereq.: 330 or permission of instructor.
Consideration of principles of management as applied to theatre production, preparation, and performance.

610 U G 5
Advanced Stage Directing
A. 3 2-hr. cl.
Prereq.: 510 or permission of instructor.
Not open to students with credit for 665.
Principles, techniques, and practice of advanced direction and integration of technical elements in theatrical production.

620 U G 3
Technical Production III
Sp.
Prereq.: 520 or equiv.
Consideration and application of methods and materials for construction of properties and special effects for the stage.

625 U G 3
Stage Lighting II
W.
Prereq.: 325 or equiv.
Study of light as a design medium for the stage; preparation of lighting designs for various stages.

626 U G 2
Theatre Sound Techniques
Sp.
Prereq.: 625.
A survey of equipment and operational techniques used to provide sound support for theatrical productions.

640 U G 3
Decorative Arts for Theatre
A.
Prereq.: 545 or equiv.
Condensed survey of decorative arts, ancient to modern; emphasis on interiors, furniture, textiles, and colors and their adaptation to stage use.

641 U G 3
Stage Design Media
W.
Prereq.: 545 or equiv.
Techniques of rendering for stage design in various media.

642 U G 3
Scene Painting and Watercolor
Sp.
Prereq.: 545.
Repeatable to a maximum of 6 cr. hrs.
Techniques used in scene painting and watercolor; mixing and matching colors, rendering texture and form, enlarging painter's elevations; types of paints used in scene painting.

645 U G 3
Modern Stage Design Styles
Sp. 3 cl.
Prereq.: 540 or permission of instructor.
Study of the application of major stylistic trends in scenic design to modern theatrical productions through lecture-discussion and specific design projects.

650 U G 2
Advanced Stage Makeup
W. 2 cl.
Prereq.: 350.
Advanced theories and techniques of theatrical makeup with emphasis on problems in modern theatre styles.
651 U G 3
Stage Costuming II
W.
Prereq.: 351 or equiv.
Principles and methods of pattern drafting, cutting, draping, and construction of stage costume.

655 U G 5
History of Stage Costume
A. 3 cl.
Comprehensive survey of western dress from Egyptian to modern, with emphasis on construction details and theatrical application.

660 U G 5
Playwriting I
W.
Prereq.: Basic knowledge of dramatic literature and permission of instructor.
Repeatable to a maximum of 10 cr. hrs. including credit for Engl. 667.
Laboratory course in playwriting; student plays developed from original idea through scenario to final production script with limited production of selected works.

671 U G 3
History of the Theatre I
A. 3 cl.
Greek, Roman, Medieval, and Commedia dell’arte theatre.

672 U G 3
History of the Theatre II
Su, W. 3 cl.
Renaissance, Elizabethan, and Restoration theatre.

673 U G 3
History of the Theatre III
Sp. 3 cl.
18th and 19th century Continental, English, and American theatre.

674 U G 3
History of the Theatre IV
A.
20th century Continental, English, and American theatre.

675 U G 5
American Theatre History
W. 5 cl.
Prereq.: Permission of instructor.
Development of the American theatre from 1752 to the present; consideration of principal actors, managers, playwrights, directors, and designers.

680 U G 3
Acting in Period Drama I
W. 2 2-hr. cl.
Prereq.: 381 or equiv.
Not open to students with credit for 482.
Textual and character analysis, vocal and physical skills requisite for the acting of selected period drama.

681 U G 3
Acting in Period Drama II
Sp.
Prereq.: 680.
Continuation of 680.

688 U G 2
Stage Movement II
Prereq.: Permission of instructor.
Not open to students with credit for 284.
Repeatable to a maximum of 6 cr. hrs.
The LeCog technique of movement training; physical conditioning, kinesthetic awareness, stage combat, mask technique, improvisations and scene work.

693 U G 1-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Conference, library, and laboratory work.

694 U G 3 or 5
Group Studies
Prereq.: Permission of Instructor.
Repeatable to a maximum of 20 cr. hrs.

698† U G 3-15
Study Tour
Su, A.
Prereq.: Permission of instructor.

711 U G 5
Comparative Study in Film and Theatre Directing
A. 2 2-hr. cl.
Prereq.: 310, 510 and Photog. and Cinma. 505 and 551.
An analytical and descriptive study of the nature and differences of film and theatre directing.

745 U G 3
Advanced Scene Design
A. W, Sp.
Prereq.: 445 or equiv. and permission of instructor.
Repeatable to a maximum of 9 cr. hrs.
Study of historic and modern scene design and application to modern theatrical stage practices; experience in executing creative and interpretive project designs.

751 U G 3
Stage Costuming Accessories
Sp.
Prereq.: 651 or equiv.
Methods of design and construction for costume foundations (corsets, hoops, padding, etc.), headgear, hats, footwear, jewelry, and armor.

755  U G 3
Stage Costume Design
W.  3 cr.
Prereq.: 651 and 655 or equiv.
Theory, methods, and materials of costume design with emphasis on design problems for the stage. Chappell.

760  U G 3
Theatre Styles
A.  3 cr.
Prereq.: 519 or permission of instructor.
Not open to students with credit for 770.
Study and analysis of significant styles of production in the theatre.

761  U G 5
Theatrical Criticism
A.  5 cr.
Prereq.: Grad. standing or permission of instructor.
Not open to students with credit for 875.
Critical theories from the Greek to the modern period with particular reference to the influence of the theorists, church, state, and press.

771+  U G 3
Greek and Roman Theatre
A.
Prereq.: 671 or equiv.
Advanced study and research in Greek and Roman theatre and drama.

772+  U G 3
European Renaissance Theatre
W.
Prereq.: 671 and 672 or equivs.
Advanced study and research in Renaissance theatre and drama of the continent.

773+  U G 3
English Renaissance Theatre
Sp.
Prereq.: 671, 672, and 673, or equivs.
Examination of theatre history and drama of 16th- and 17th-century England up to 1642.

774  U G 3
Restoration and 18th-Century Theatre
W.
Prereq.: 671, 672, and 673, or equivs.
Advanced study and research in English theatre and drama of the Restoration and 18th century.

775+  U G 3
European Baroque Theatre
W.
Prereq.: 671, 672, and 673 or equivs.
Advanced study and research in Baroque theatre and drama in Europe.

776+  U G 3
Nineteenth Century European Theatre
Sp.
Prereq.: 671, 672, and 673 or equivs.
Analysis of the rise of naturalism and realism in the drama and theatre of England and the continent during the 19th century.

780  U G 3
Advanced Acting Theory
A.
Prereq.: Permission of instructor.
A study of the major theories of the art of acting and their application.

781  U 3-5
Honors Course
Prereq.: 4th yr. standing; a grade of A in at least half of the Thtr. courses taken and an average of B in the remainder; permission of instructor; under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
Failure to receive a mark of 5 in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
An individual program of study, with conferences, reports, and Honors thesis.

786  U G 2
Stage Speech II
A, W, Sp.  4 1-hr. labs.
Repeatable to a maximum of 6 cr. hrs.
Advanced study of voice; phonetics; development of special vocal techniques required for stage performance.

789  U G 2
Advanced Acting Studio
Repeatable to a maximum of 12 cr. hrs.

800  G 3 or 5
Advanced Studies in Theatre
Repeatable to a maximum of 40 cr. hrs. including cr. hrs. earned in 880.
800.01 Stage Direction/Management
800.02 Technical Production/Lighting
800.03 Dramatic Literature
800.04 Stage Design
800.05 Costuming/Makeup
800.06 Criticism, Theory, Playwriting
800.07 History
800.08 Acting
800.09 Theatre Management

801  G 5
Research Methods
A.  2 2-hr. cl., lab. arr.
Not open to students with credit for 870.
Methods and tools of research in all areas of theatre.
802  G 2-5
Seminars in Theatre
Repeatable to a maximum of 40 cr. hrs. in any combination of decimal subdivisions including cr. hrs. earned in 970.
802.01 Stage Direction/Management
802.02 Technical Production/Lighting
802.03 Dramatic Literature
802.04 Stage Design
802.05 Costuming/Makeup
802.06 Criticism, Theory, Playwriting
802.07 History
802.08 Acting
802.09 Theatre Management

805  G 1-5
Graduate Theatre Practicum
Prereq.: Permission of adviser.
Repeatable to a maximum of 40 cr. hrs. in any combination of decimal subdivisions including cr. hrs. earned in 880p.
Individual theatrical performance and production activities at an advanced level under faculty supervision.
805.01 Stage Direction/Management
805.02 Technical Production/Lighting
805.04 Stage Design
805.05 Costuming/Makeup
805.06 Acting
805.09 Theatre Management

810  G 3
Directing Period Drama
W.
Prereq.: 671, 672, 673, and 760 or equivs.; 680 and 681 recommended.
Advanced problems in directing premodern drama.

811  G 3
Directing in Modern Theatre Styles
Sp.
Prereq.: 610, 674, and 760 or equivs.
Advanced problems in directing modern nonrealistic styles of drama.

830  G 3
Comparative Comedy
A. 3 cr.
Prereq.: 531, 532, and 533 or equivs.
Not open to students with credit for 685.
Variation in the form of the comic genre from Greek farce to contemporary comedy.

831  G 3
Comparative Tragedy
Sp. 3 cr.
Prereq.: 531, 532, and 533 or equivs.
Not open to students with credit for 686.
Variations in the form of the tragic genre from Aeschylus to the present.

832†  G 3
Comparative Melodrama
Sp. 3 cr.
Prereq.: 531, 532, and 533 or equivs.
Variations in the melodramatic form from Euripides to the present.

833  G 5
Seminal Modern Drama
A. 5 cr.
Not open to students with credit for 671.
Consideration of modern dramatists who have most influenced the content and the technique of contemporary drama.

834  G 5
Contemporary Drama
W. 5 cr.
Consideration of the most significant post-World War II dramatists.

860  G 5
Classical Critical Theories of the Theatre
W. 5 cr.
Prereq.: 761 or permission of instructor.
Not open to students with credit for 876.
Detailed analysis of the classical sources of critical theory of the theatre.

861  G 5
Modern Critical Theories of the Theatre
Sp. 2-2 hr. cr.
Prereq.: 761 or permission of instructor.
Not open to students with credit for 377.
Concentrated analysis and discussion of recent critical theories of the theatre, especially since 1945; examination of pivotal books in the field.

990†  G 3-15
International Theatre Research
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Individual research in drama and theatre on campus and abroad.

993  G 3-5
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

998  G 1-6
Research in Theatre: Thesis
Repeatable to a maximum of 6 cr. hrs.
Research for thesis purposes only.

999  G, Arr.
Research in Theatre: Dissertation
Research for dissertation purposes only.
University College

100  U 1
Freshman Survey
Su, A, W, Sp. 2 1-hr. cl.
Prereq.: Enrollment in University College.
Academic requirements and organization of the University, nature of scholarly study, characteristics of academically successful students, study techniques, selection of degree programs, academic coping skills.
(Students schedule a section of Freshman Survey corresponding to their curricular academic program.)
100.01 Administrative Science Survey
100.03 Agriculture Survey
100.05 Allied Medical Professions Survey
100.07 Architecture Survey
100.09 Art Survey
100.11 Arts and Sciences Survey
100.13 Dentistry Survey
100.15 Dental Hygiene Survey
100.17 Education Survey
100.19 Engineering Survey
100.21 General Baccalaureate Survey
100.23 Home Economics Survey
100.25 Medicine Survey
100.27 Music Survey
100.29 Nursing Survey
100.31 Optometry Survey
100.33 Pharmacy Survey
100.35 Social Work Survey
100.37 Veterinary Medicine Survey

693  P 2-5
Individual Studies
Repeatable to a maximum of 18 cr. hrs.
Training in laboratory investigation of special problems. Venzke, Diesem, and deWet.

700  P 6
Comparative Functional Neuroanatomy
Su, A, W, Sp. 3 cl., 6 lab. hrs.
A detailed comparative gross and microscopic study of the external and internal structure of the central nervous systems and sense and effector organs and their organization into functional divisions in infra-primates (domestic mammals and fowl) and primates. deWet.

784  P 2-6
Group Studies in Veterinary Anatomy
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs. for prof. cr. and 28 cr. hrs. for grad. cr.
Provides flexibility in the veterinary professional program by offering selected topics in Veterinary Anatomy.

794.01 Equine Surgical Anatomy
Emphasis on blood and nerve supply to common surgical sites; special emphasis involving methods of anesthetizing selected surgical areas and areas useful in diagnostic procedures for lameness. Diesem.

794.02 Ophthalmic Anatomy
The comparative anatomy, histology, neuroanatomy, and embryology of the orbit and its contents in mammals, birds, and reptiles. Diesem.

794.03 Gross Anatomy, Birds, and Rodents
Gross anatomical dissection of common birds and rodents. Diesem and Venzke.

794.04 Comparative Developmental Anatomy
Stresses the comparative development of the embryos of domestic animals, the fetal membranes and anomalies. Venzke.

794.05 Microscopic Anatomy
Comprehensive investigation of basic tissue groups; involving the light microscopic examination of tissues within the selected group; and current literature reviews, in addition to lectures, demonstrations, and discussion. Rowland.

794.06 Histology
Comprehensive investigation of selected areas of histology of particular interest to the student, involving laboratory work, lectures, and discussions. Rowland.

794.07 General Histopathology Techniques
Gives the student a basic understanding of the preparation of biological material for light microscopy; laboratory experience includes the standard techniques of fixation, embedding, sectioning, staining, mounting, and viewing of biological material. Rowland.

794.08 General Embryological Techniques
Provides a basic understanding of the methods of preparation of embryos for investigations in developmental anatomy and teratology. Laboratory experience will be required in all phases of preparations including fixation, embedding, sectioning, and staining. Venzke.

Veterinary Anatomy

Office: 102-A Sisson Hall, 1900 Coffey Road
Professors Venzke (Chairman), deWet, Diesem, and Horowitz: Associate Professor Scottorn; Assistant Professors Hunter and Rowland.

100  U 5
Veterinary Anatomy
A. 5 cr.
Prereq.: Zool. 201 or equiv.
Lectures and demonstrations on specimens from the various anatomical systems of domestic animals.

601  P 3-5
Veterinary Endocrinology
Su, A, W, Sp. 3 cl., 4 lab. hrs.
Prereq.: Vet. Med., Coll. of 604 or equiv.
Special consideration is given to correlation of endocrine control of cellular metabolism. Venzke.
794.09 Ultrastructural Anatomy
Provides a basic understanding of the cell and its organelles as they relate to function and permits experience in the preparation of biological materials for electron microscopy; limited use of the electron microscope. Rowland.

801 G 2.5
Anatomical Techniques
Su. 1 cl., 6-15 lab. hrs.
Prereq.: Vet. Med., Coll. of 521, 531 or equiv. and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Theory and practice of macroscopic and microscopic methods, including specimen preparation for dissection, fixing, embedding, sectioning, mounting, and staining of animal tissue. Diesem, Venzke, and deWet.

810 G 3.5
Anatomy of Laboratory Animals
Su. 3-5 cl., 2 hrs. each.
Open by special permission to students who have not specialized in Vet. Med.
Anatomy of laboratory animals, including primates, rodents, and avian species; emphasis on application of anatomy to surgical procedures and research techniques. Diesem.

999 G Arr.
Research in Veterinary Anatomy
Research for thesis or dissertation purposes only.

Veterinary Clinical Sciences
Office: 1099 Veterinary Clinic, 2578 Kenny Road

Professors: Murdock (Acting Chairman), Krill (Emeritus), Andreas, Dennis, Donham, Donovan, Gabel, Johnson, Rhein, Rudy, Tharp, Venzke, Weary, Wilson, and Whiteus; Associate Professors Capen, Fetzer, Gardner, Heider, Hohn, Ray, and Wyman; Assistant Professors Bell, Burt, Carlson, Hathaway, Hillwig, Hoffius, Kobila, Stimson, and Wilson; Instructors Chrisman, Doherty, Miller, Paull, Wallace, Webster, Wighton, and Wright.

670 P G 5
Laboratory Animal Medicine
A. 3 cl., 3 2-hr. lab.
Prereq.: D.V.M. or permission of instructor.
Not open to students with credit for Vet. Med. 620.
A study of the diseases of laboratory animals with emphasis on colony management, diagnosis, and treatment. Webster and Stimson.

671 P G 5
Laboratory Animal Medicine
W. 3 cl., 3 2-hr. lab.
Prereq.: 670, D.V.M., or permission of instructor.
Not open to students with credit for Vet. Med. 621.

A study of the diseases of laboratory animals (primates, rabbits) with emphasis on management, diagnosis, and treatment. Webster and Stimson.

710 P 4
Applied Veterinary Medicine Options
Prereq.: Vet. Med. 4th yr. standing.
Repeatable to a maximum of 8 cr. hrs.
A series of clinical studies offered as electives for 4th year Vet. Med. students to arrange into an elective program in conjunction with a faculty adviser.

710.01 Receiving/Out-Patient Clinic
Clinical instruction designed to improve the student's proficiency in client relations, diagnosis, treatment, and prevention of diseases in out-patients.

710.02 Companion Animal Medicine
The application to companion animal patients of the latest knowledge concerning diagnosis, treatment, and prevention of diseases.

710.03 Small Animal Surgery
The application of principles of surgery to treatment of diseases of companion animals.

710.04 Large Animal Medicine
Clinical instruction and experience in the diagnosis, treatment, and prevention of diseases of horses, cattle, swine, and sheep.

710.05 Large Animal Surgery
The application of principles of surgery to treatment of diseases of farm and other large species of animals.

710.06 Ambulatory Clinic
The application of the principles of management, diagnosis, treatment, and prevention of disease in farm and exotic animals in the environment in which they are produced.

710.07 Veterinary Clinical Radiology
Diagnostic and therapeutic techniques that will broaden the student's knowledge in clinical diagnosis and treatment.

750 P 3
Veterinary Practice and Hospital Management
Prereq.: Vet. Med. 3rd or 4th yr. standing.
Basic principles of hospital and practice management including insurance, partnerships, corporations, accounting, taxes, employees, and general management procedures. Whiteus.

760 P G 3
Comparative Ophthalmology
Sp.
Prereq.: Permission of Instructor
The comprehensive consideration of comparative ophthalmology in which differences and similarities of eyes in domestic animals will be presented.

793 P G 2-8
Individual Studies
Prereq.: Vet. Med. 4th yr. standing, adequate clinical training and permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
A supervised critical investigation of some aspects of animal disease about which there is a mutual curiosity on the part of both the student and faculty.
Group Studies in Veterinary Clinical Sciences
Prereq.: Vet. Med. 3rd or 4th yr. standing or permission of instructor.
Repeatability to a maximum of 30 cr. hrs.

794.01 Advanced Canine and Feline Medicine
Special consideration will be given to applying the knowledge gained in the core curriculum to special diseases of the organ systems of the dog and cat.

794.02 Advanced Canine and Feline General Surgery
Designed to increase the student's knowledge and skills necessary for the diagnosis and surgical treatment of diseases of dogs and cats.

794.03 Equine Medicine and Surgery
Current concepts of diagnosis, treatment, and prevention of diseases of horses presented in conferences and demonstrations.

794.04 Bovine and Ovine Medicine Surgery
Current concepts of diagnosis, treatment, and prevention of diseases of ruminants presented in conferences and demonstrations.

794.05 Swine Medicine and Surgery
Current concepts of diagnosis, treatment, and prevention of important diseases of swine presented in conferences and demonstrations.

794.06 Avian Diseases
Prevention, diagnosis, and treatment of diseases of poultry, game birds, and caged pet birds or zoologic specimens.

794.07 Laboratory Medicine
Assignment of patients for in-depth independent study of diagnosis and disease course with emphasis on the laboratory parameters, their selection and interpretation.

794.08 Clinical Microbiology
Assignment of patients for in-depth study of diagnosis and course of disease with emphasis on selection and interpretation of laboratory parameters.

794.09 Special Diagnostic Radiography
Special techniques including contrast studies, fluoroscopy, catheterization procedures, and special positioning techniques.

794.10 Therapeutic Radiology
Dosimetry, tissue susceptibility, and reactions to radiation applied to clinical patients with neoplasia or chronic inflammation.

794.11 Advanced Nuclear Medicine
Application of radionuclides in diagnostic or therapeutic procedures.

794.12 Veterinary Ophthalmology—Disease of the Eye
Discussion of disease recognition, pathophysiology, diagnosis, and therapy, both medical and surgical; laboratory for surgical procedures will be conducted.

794.13 Advanced Physiology of Reproduction and Diseases of the Reproductive System
The advanced study of all aspects of mammalian reproduction.

794.14 Advanced Cardiology
Advanced study of the diagnosis, treatment, and prevention of diseases of the cardiovascular system.

794.15 Advanced Thoracic Surgery
Consideration of advanced surgical techniques for treatment of diseases of the thorax requiring surgery.

794.16 Advanced Neurology
Advanced study of diagnosis, treatment, and prevention of diseases affecting the nervous system.

794.17 Advanced Neurosurgery
Practical application of advanced surgical techniques for treatment of diseases of the nervous system requiring surgery.

794.18 Advanced Orthopedic Surgery of Companion Animals
Practical application of advanced surgical techniques for treatment of disease of the skeletal system requiring surgery.

794.19 Advanced Orthopedic Surgery of Equine
Practical application of advanced surgical techniques for treatment of diseases of the skeletal system requiring surgery.

794.20 Advanced Equine Lameness
Study of the methods used for diagnosis and treatment of diseases causing lameness in horses; includes radiographic and surgical techniques.

794.21 Diseases of Hemic and Lymphatic Systems
Clinical care and laboratory studies of patients with hematologic disorders.

794.22 Advanced Dermatology
Studies of diagnosis, treatment, and prevention of diseases of the skin; emphasis on definitive diagnostic techniques, therapy, and patient care.

794.23 Advanced Gastroenterology
Study of diagnosis, treatment, and prevention of diseases of the gastrointestinal system.

794.24 Advanced Urology
Study of diagnosis, treatment, and prevention of disease of the urinary system.

794.25 Advanced Study of Diseases of the Respiratory System
Study of diagnosis, treatment, and prevention of diseases of the respiratory system.

794.26 Advanced Study of Diseases of the Endocrine System and Metabolic Diseases
Study of diagnosis, treatment, and prevention of diseases of the endocrine system and metabolic diseases.

794.27 Advanced Clinical Pharmacology and Toxicology
Conferences, demonstrations, and clinical patients will be used to study basic and applied pharmacology; study of the action, metabolism, and excretion of drugs.

794.28 Physiological Basis of Clinical Dietetics
Composition and energy content of feedstuffs, respiratory quotient, calorigraphic measurement, BMR and effect of age, species, sex, body weight, body size, and specific dynamic action of feedstuffs.

794.29 Nutritional Requirements and Modern Nutritional Practice in Domestic Animals
Nutritional requirements and practices in the dog, cat, equine, dairy cow, beef cow, swine, poultry, and laboratory and exotic animals.

794.30 General Medical Considerations in Clinical Dietetics
Calories, nutrition and infection, inherited metabolic deficiencies, food intolerances among species, parenteral nutrition in surgical and medical diseases, the role of prescription diets in the prevention and treatment of disease.

794.31 Laboratory Animal Medicine
Presentation of the basic principles of care and biology of rodents, rabbits, and other exotic pets and the prevention, recognition, and treatment of diseases.
794.32 Primatology
The basic principles of the care and biology of nonhuman primates and the prevention, recognition, and treatment of their common diseases.

798 P 18
Residency in Veterinary Clinical Sciences
12 months full-time, beginning July 1.
Prereq.: Appointment as Resident, University Veterinary Hospital.
Repeatable to a maximum of 216 cr. hrs.

798.01 Residency in Veterinary Surgery
Rotation through general surgery and sub-specialties; rounds, conferences, and seminars.

798.02 Residency in Veterinary Radiology
General diagnostic radiology, radiation therapy, nuclear medicine, special diagnostic and therapeutic procedures, conferences, and seminars.

798.03 Residency in Veterinary Ophthalmology
Rotation through medicine and surgery of the eye and adenexa of all animal species; rounds, seminars, conferences, and didactic programs.

798.04 Residency in Veterinary Medicine
Rotation through general medicine and medical sub-specialties; rounds, conferences, seminars, and didactic programs.

999 G Arr.
Research in Veterinary Clinical Sciences
Research for thesis or dissertation purposes only.

530 P 5
Comparative Structure and Function of Tissues
A.
Prereq.: Vet. Med. 1st yr. standing.
The interdisciplinary study of tissue structure and development of the four tissue classes, involving concepts of embryology, histology, endocrinology, and physiology. Venzke.

531 P 3
Comparative Structure and Function of Tissues
W.
Prereq.: Vet. Med. 1st yr. standing.
Continuation of 530. Rowland.

540 P 4
Comparative Cellular Biology
A.
Prereq.: Vet. Med. 1st yr. standing.
Introduction to principles of structure, function, and malfunction at the cellular level, including enzymes, energetics, metabolism, and growth. Nagode.

550 P 11
Comparative Biology of Disease
W.
Prereq.: Vet. Med. 1st yr. standing.
An interdisciplinary study of the interactions between disease producing agents, body systems, tissues, cells, subcellular units, and selected drugs. Shadduck.

560 P 2
Basic Elements of Veterinary Medical Practice and Hospital Orientation I
A.
Prereq.: Vet. Med. 1st yr. standing.
The identification of disease via history, physical, and laboratory examinations and special diagnostic techniques and orientation in therapeutic procedures in a hospital environment.

561 P 3
Basic Elements of Veterinary Medical Practice and Hospital Orientation II
W.
Prereq.: Vet. Med. 1st yr. standing.
Continuation of 560.

562 P 2
Basic Elements of Veterinary Medical Practice and Hospital Orientation III
Sp.
Prereq.: Vet. Med. 1st yr. standing.
Continuation of 561.

563 P 2
Basic Elements of Veterinary Medical Practice and Hospital Orientation IV
A.
Prereq.: Vet. Med. 2nd yr. standing.
Continuation of 562.

Veterinary Medicine, College of
Office: 101A Slisson Hall, 1900 Coffey Road

510 P 4
Animals and Their Environments
A.
Prereq.: Vet. Med. 1st yr. standing.
Consideration of the composition of the whole animal body, the internal and external environments, homeostasis, biological variation and measurement, and animal behavior. Powers.

520 P 6
Comparative Topographic Anatomy
A.
Prereq.: Vet. Med. 1st yr. standing.
The dynamic comparative study of the form, relationship, and mechanical functioning of component body parts as they relate to modern veterinary medicine. Diesem.

521 P 4
Comparative Topographic Anatomy
W.
Prereq.: Vet. Med. 1st yr. standing.
Continuation of 520. Diesem.
564 P 2
Basic Elements of Veterinary Medical Practice and Hospital Orientation V
W.
Prereq.: Vet. Med. 2nd yr. standing.
Continuation of 563.

600 P 6
The Cardiovascular System
A.
Prereq.: Vet. Med. 2nd yr. standing.
A comparative study of the structure, function, and dysfunction of the cardiovascular system including arrhythmias, abnormal flow, congenital disease, etiologic agents, diagnostic methods, and therapeutic approaches. Bishop.

601 P 6
The Respiratory System
A.
Prereq.: Vet. Med. 2nd yr. standing.
A comparative study of the structure, function, and dysfunction of the respiratory system including reaction to injury, ventilation defects, pneumonias, neoplastic disease, radiological diagnosis, and therapeutic approaches. Farrell.

602 P 6
The Urinary System
A.
Prereq.: Vet. Med. 2nd yr. standing.
A comparative study of the structure, function, and dysfunction of the urinary system including diseases of the kidney, bladder, and urethra, and their diagnosis and treatment. Powers.

603 P 12
The Nervous System
Sp.
Prereq.: Vet. Med. 1st yr. standing.
A comparative study of the structure, function, and dysfunction of the nervous system including the pathogenesis, pathophysiology, diagnosis, prevention, and treatment of nervous system diseases. Koestner.

604 P 5
The Endocrine System
Sp.
Prereq.: Vet. Med. 1st yr. standing.
A comparative study of the structures, function and dysfunction of the endocrine system including diseases of each endocrine organ and their relationships to whole body functions. Capen.

605 P 11
The Reproductive System
W.
Prereq.: Vet. Med. 2nd yr. standing.
A comparative study of the structure, function, and dysfunction of the reproductive system including etiologic, pathogenic, pathophysiological, therapeutic, and preventive aspects of reproductive diseases. Murdick.

606 P 7
The Integumentary System
Sp.
Prereq.: Vet. Med. 3rd yr. standing.
A comparative study of the structure, function, and dysfunction of the integumentary system including important infectious and parasitic diseases, diagnosis, treatment, and prevention. Wilson.

607 P 10
The Musculoskeletal System
Sp.
Prereq.: Vet. Med. 2nd yr. standing.
A comparative study of the structure, function, and dysfunction of the musculoskeletal system including congenital and acquired diseases, their radiographic diagnosis, treatment, and prevention. Hohn.

608 P 3
The Hemic-Lymphatic System
Sp.
Prereq.: Vet. Med. 1st yr. standing.
A study of basic principles of the hemic-lymphatic system with emphasis on structure and function.

609 P 10
Digestive System
Sp.
Prereq.: Vet. Med. 2nd yr. standing.
A comparative study of the structure, function, and dysfunction of the digestive system including relevant physiology, pathology, pharmacology, microbiology, parasitology, medicine, surgery, and preventive medicine. Smith.

611 P 5
Preventive Medicine and Public Health
A.
Prereq.: Vet. Med. 3rd yr. standing.
The structure of public programs and the role of comparative medicine in health maintenance and disease prevention in animals, including man.

618 P 5
The Hemic-Lymphatic System
W.
Prereq.: Vet. Med. 608 and 2nd yr. standing.
A comparative study of the hemic-lymphatic system with emphasis on dysfunction immunologic diseases diagnosis, treatment and prevention of hemopoietic disease; continuation of 608.

619 P 6
Applied Veterinary Medicine (Clinical Experience)
Su. 7 days 24-hr. lab, duty, 1 cl.
Intense training in clinical work for one term.

620 P 10
Applied Veterinary Medicine—Surgery
Prereq.: Vet. Med. 3rd yr. standing.
Clinical instruction in each of the surgery services with emphasis on practical experiences.
Veterinary Pathobiology

Office: 207 Veterinary Pathobiology, 1925 Coffey Road
Professors Koestner (Acting Chairman), Capen, Cole (Regents), Farrel, Groves, Liss, Marsh, and Yohn; Associate Professors Fetter, Kerr, Long, and Shadduck; Assistant Professors Davis, Hoover, Kain, Milo, Nagode, and Olsen. Instructor Chatfield.

621  P 10
Applied Veterinary Medicine—Medicine
Prereq.: Vet. Med. 3rd yr. standing.
Clinical instruction in each of the medical and preventive medicine services with emphasis on practical experiences.

622  P 10
Applied Veterinary Medicine—Diagnostic Laboratory Medicine
Prereq.: Vet. Med. 3rd yr. standing.
Clinical instruction in each of the diagnostic laboratory services with emphasis on practical experiences.

700  P 4
Applied Veterinary Medicine
Prereq.: Vet. Med. 4th yr. standing
Repeatable to a maximum of 32 cr. hrs.
A series of clinical studies offered fourth-year veterinary medical students as part of the core curriculum.

700.01 Receiving/Out-Patient Clinic
Clinical instruction in client relations, diagnosis, treatment, and prevention of diseases in out-patients.

700.02 Small Animal Medicine
The application to small animal patients of the latest knowledge concerning diagnosis, treatment, and prevention of diseases.

700.03 Small Animal Surgery
The application of principles of surgery to treatment of diseases of companion small animals.

700.04 Large Animal Medicine
Clinical instruction and experience in the diagnosis, treatment, and prevention of diseases of horses, cattle, swine, and sheep.

700.05 Large Animal Surgery
The application of principles of surgery to treatment of diseases of farm and other large species of animals.

700.06 Ambulatory Clinics
The application of the principles of management, diagnosis, treatment, and prevention of disease in farm and exotic animals in the environment in which they are produced.

700.07 Diagnostic Laboratory Medicine
Application of radiological principles to diagnosis and development of techniques and interpretations in clinical pathology.

700.08 Applied Preventive Medicine
Intensive practical training; Public Health and Food Hygiene, meat inspection, Federal and State Disease Control Programs, and Herd Disease Management.

704  P 1-15
Group Studies in Veterinary Medicine
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Group studies in selected areas of veterinary medicine.

610  P G 2-5
Advance Veterinary Parasitology
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

625  P G 2-10
Pathology Techniques
Prereq.: Permission of instructor.
Theory and application of technical methods employed in modern animal disease research; coordinated approach to animal disease investigation, including functional, chemical, gross, and histopathology. Farrell, Yohn, and Olsen.

640  P G 3
Pathobiology
A.
Prereq.: Permission of instructor.
(Required in co-operation with the Department of Pathology.)
Presentation of up-to-date seminars on topics in comparative cellular pathology by faculty in the College of Veterinary Medicine and Medicine. Bishop.

693  P G 1-10
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Laboratory, library, conference, and reports concerning animal disease problems. Cole, Koestner, Capen, Groves, and Yohn.

709  P 4
Advanced Applied Pathology
Prereq.: Vet. Med. 4th yr. standing.
Repeatable to a maximum of 8 cr. hrs.
Laboratory, library, conference, and reports concerning animal disease problems. Cole, Koestner, Capen, Groves, and Yohn.

711  P 4
Advanced Applied Veterinary Microbiology
Prereq.: Permission of instructor.
Repeatable to a maximum of 8 cr. hrs.
Advanced training in the causes of infectious diseases of animals.
715 P G 2-10
Veterinary Surgical Pathology
Sp.
Prereq.: Permission of instructor.
Biopsy methods and diagnosis; surgical specimens are studied, and emphasis is placed upon the correlation of lesions and functional pathology. Koestner, Long, and Davis.

720 P G 2-10
Comparative Oncology
A.
Prereq.: Permission of instructor.
A comparative study of the basic mechanisms of oncogenesis in man and animals.

794 P G 1-8
Group Studies in Veterinary Pathobiology
Repeatable to a maximum of 24 cr. hrs.

794.01 Applied Pathology
Correlation of functional morphological, and chemical abnormalities in disease of domestic and companion animals.

794.02 Comparative Pathology
The comparative response of animal species to injury caused by toxic and radioactive materials, nutritional, and metabolic disturbances, and infectious agents.

794.03 Applied Veterinary Immunology and Immunopathology
Prereq.: Permission of instructor.
Discussion of the basic principles and theories of immunity and immunological disease as they apply to veterinary medicine.

794.04 Applied Veterinary Parasitology
Prereq.: Permission of instructor.
Emphasis on the identification of the major parasitic pathogens of domestic animals.

794.05 Applied Veterinary Microbiology
Prereq.: Permission of instructor.
Emphasis on the identification of the major bacterial and mycological pathogens of domestic animals.

794.06 Applied Veterinary Virology
Prereq.: Permission of instructor.
Major viral pathogens of domestic animals are discussed and illustrated. Principles of virology applicable to the recognition, differentiation, and prevention of diseases of animals are presented.

794.07 Diseases of Poultry and Game Birds
Prereq.: Permission of instructor.
A study of the etiology, recognition, prevention and control of the important diseases of poultry and related game birds.

810 G 2-10
Advanced Systemic Pathology
Prereq.: Permission of instructor.
An advanced study of animal diseases as they affect all organ systems of the body. Shadduck, Capen, and Farrell.

850 G 1
Seminar in Veterinary Pathobiology
Repeatable to a maximum of 16 cr. hrs.

999 G Arr.
Research in Veterinary Pathobiology
Research for thesis or dissertation purposes only.

Veterinary Physiology and Pharmacology

Office: 351 Sisson Hall, 1900 Coffey Road
Professors Smith (Acting Chairman), Hamlin, Smith, and Yearly; Assistant Professors Hensel, Cliver, and Saiduddin; Instructor Wright.

210 U 5
Animal Physiology
A. 5 cr.
Prereq.: Chem. 102 or 122.
Consideration of concepts and principles involved in the function of various body systems and principles of growth and aging.

211 U 5
Animal Physiology
W. 5 cr.
Prereq.: Chem. 102 or 122.
Comparative study of physiological concepts and principles involved in reproduction and metabolism in various species of domestic animals.

640 P G 3
Design and Analysis of Comparative Biomedical Research I
A.
Prereq.: Permission of instructor.
Theory and application of basic statistical concepts as they affect design, analysis, and interpretation of veterinary medical research. Hensel, Powers, and Hamlin.

641 P G 3
Design and Analysis of Comparative Biomedical Research II
W.
Prereq.: Permission of instructor.
Theory and application of basic statistical concepts as they affect design, analysis, and interpretation of veterinary medical research. Hensel, Powers, and Hamlin.
VETERINARY PREVENTIVE MEDICINE 481

693 P G 3-15
Individual Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Laboratory and library investigations concerning
animal physiology and pharmacology problems.
Smith, Powers, Hamlin, and Yeary.

694 P G 2-5
Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

740 P G 3
Analysis of Physiological Systems I
Sp.
2 cl., 1 3-hr. lab.
Prereq.: Permission of instructor.
Several physiological systems will be analyzed in detail
using a combination of classical mathematical
analysis, model building, and newer analog and digital

741 P G 3
Analysis of Physiological Systems II
Su.
2 cl., 1 3-hr. lab.
Prereq.: Permission of instructor.
Several physiological systems will be analyzed in detail
using a combination of classical mathematical
analysis, model building, and newer analog and digital
techniques. Hensel, Powers, and Hamlin.

779 P G 5
Comparative Mammalian Toxicology
Sp. 4 cl., 2-hr. lab.
Principles of comparative mammalian toxicology and
their relationships to the safety evaluation of chemical
substances. Yeary.

780 P G 3
Antimicrobial Therapy in Veterinary Medicine
Sp. 3 cl.
Prereq.: Permission of instructor.
A detailed study of the basic principles and clinical
application of antimicrobial drugs in veterinary
medicine. Powers.

790 P G 3
Veterinary Physiology
A. 2 cl., 2 lab. hrs.
Prereq.: Permission of instructor.
Comparative electrocardiography. Hamlin and Smith.

781 P G 3
Veterinary Physiology
W. 2 cl., 2 lab. hrs.
Prereq.: 790 or permission of instructor.
Comparative hemodynamics and cardiovascular sound.
Hamlin and Smith.

792 P G 3
Veterinary Physiology
Sp. 2 cl., 2 lab. hrs.
Prereq.: 791 or permission of instructor.
Advanced comparative cardiovascular physiology with
emphasis upon circulatory response to stress of various
genital and acquired cardiovascular defects.
Hamlin and Smith.

794 P G 1-6
Group Studies
Prereq.: Professional or graduate student status.
Group studies courses in areas of comparative
physiology and pharmacology.

795 P G 3-5
Advanced Comparative Electrocardiography
A.
Prereq.: 790 or permission of instructor.
Cellular and cardiac electrophysiologic and clinical
features of complex cardiac arrhythmias and
conduction disturbances. Hamlin.

799 P G 2
Seminar
A, W, Sp. 1 2-hr. conf. and lec.
Prereq.: Permission of instructor.
Repeatable to a maximum of 30 cr. hrs.
Lectures and conferences on selectec topics in
veterinary physiology and pharmacology.

998 G Arr.
Research in Veterinary Physiology
and Pharmacology
Research for thesis or dissertation purposes only.

Veterinary Preventive Medicine

Office: 252 Sisson Hall, 1900 Coffey Road
Professors Helwig (Chairman), Bohl, Ferguson, Jones,
and Tyznik; Associate Professor Kreier; Assistant
Professors Buller, Robinson, and Wittich.

200 U 3
Basic Animal Hygiene
A. 3 cl.
Courses of disease and the relationship of these causes
to the animal's environment. Helwig.

201 U 3
Applied Animal Hygiene
W. 3 cl.
Prereq.: 200 or equiv.
Various common diseases responsible for losses to the
livestock industry, with emphasis on control. Helwig
and Robinson.
Germfree and Gnotobiotic Animals

W, Sp. 3 2-hr. cl. and lab.
Prereq.: Advanced standing in Biological Sciences, Microbiol. 607, or equiv., and permission of instructor.
The instrumentation of biological research through application of germfree and gnotobiotic animals.

Individual Studies

Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.
Laboratory and library investigations of animal disease problems involving Veterinary Preventive Medicine. Helwig and Jones.

Biological Research Techniques

A, W, Sp. 2 2-hr. cl. and lab.
Prereq.: Advanced standing in Biological Sciences, Microbiol. 607, or equiv., and permission of instructor.
The more common laboratory animals used in biological research and testing will be dealt with as they relate to research purposes, design, and application.

Group Studies

Prereq.: Vet. Med. 3rd or 4th year standing.
Repeatable to a maximum of 30 cr. hrs.
A course providing small group instruction in the topics designated.

Public Health—Organization and Administration

Philosophy and application of public health principles and practices, exposure to various health agencies with public health responsibilities; coverage of general organizations, administration, disease reporting, vital statistics and health education.

Prevention of Communicable Diseases

Fundamental approaches used by State and Federal Animal Health Agencies for prevention, control, and eradication of diseases.

Food-Borne Illnesses and Human Health

Detailed study of principle zoonotic diseases transmitted by meat foods and food-borne intoxications and infections as related to personal hygiene of food handlers and sanitary food handling practices; the epidemiological approach to problem solving.

Applied Food Hygiene

Ante-mortem and post-mortem inspection procedures; disposition of diseased carcasses and parts—applied pathology as relates to meat inspection. Meat chemistry and processing; environmental sanitation; food microbiology.

Environmental Factors in Animal Health

Discussion of environmental factors such as housing, ventilation, humidity, waste disposal and sanitation, with emphasis on types of systems and their influence on large animal health and production.

Preventive Medicine for Dairy Cattle

Principles and applications of preventive medicine in establishing and maintaining dairy herd health promotion programs.

Welding Engineering

Office: 124 Welding Engineering Laboratories, 150 West 19th Avenue
Professors McCauley (Chairman), R. Green, and McMaster (Regents); Associate Professors Funk and Jackson; Assistant Professor W. Green.

Forging, Heat Treating, and Welding

Su, A, W. 3 cl., 3 1-hr. lab.
Safety glasses must be worn in laboratory.
Welding fundamentals and applications; intended for students not having an engineering background. Laboratory work designed to augment classroom discussions and provide basic welding skills.

Introduction to Welding Engineering

W. 3 cl., 1 3-hr. lab.
Prereq.: Indust. E. 301 or permission of instructor. Safety glasses must be worn in laboratory.
An introduction to welding engineering for undergraduate students to familiarize them with the broad field of welding engineering and particularly welding processes. Jackson.
Welding Science and Its Application
Sp. 3 cl.
Prereq.: 240 or permission of instructor.
Not open to students majoring in Weld. E. Not open to students with credit for 640.
A study of the engineering fundamentals of welding, design, materials, and processes are considered as related to the welding field. Jackson.

Applied Engineering Analysis
Sp. 3 cl., 1 3-hr. lab.
Prereq.: Physics 133 and Math. 255.
The analysis of engineering systems by the application of fundamental principles of conservation of matter and energy, and operational techniques. McMaster.

Welding Engineering Inspection Trip
Safety glasses are required.
A group visit to selected industrial facilities in a localized region of the state or in a single community.

Practical Experience in a Welding Organization
A. 10 wks. during Su.
Prereq.: Permission of chairman.
Experience in an engineering organization and the preparation of an acceptable report on the organization and the work done.

Principles of Welding
A. 3 cl., 1 3-hr. lab.
Prereq.: 302, 430, and Elec. E. 580.
Safety glasses must be worn in laboratory.
Theory, equipment, techniques, and control of fusion welding with electric arc, gas, and other processes; welding codes and specifications; application of electrodes and processes. McMaster.

Principles of Resistance Welding
A. 3 cl., 1 3-hr. lab.
Prereq.: 430 and Elec. E. 520.
Not open to students with credit for 602.
Safety glasses must be worn in laboratory.
Theory and operation of resistance welding equipment, power supplies, electronic controls, welding codes and schedules, and process controls. McMaster.

Physics of Welding
Sp. 3 cl., 1 3-hr. lab.
Not open to students with credit for 610.
Safety glasses must be worn in laboratory.
The application of basic principles in the welding processes. Funk.

Welding Engineering Inspection Trip
Safety glasses are required.
A group visit to various industrial plants; the plants selected are generally grouped in one community; a written report is required.

Practical Experience in Welding Industry
A. 10 wks. during Su.
Prereq.: Permission of chairman.
Experience in an engineering organization and the preparation of an acceptable report on the organization and the work done.

Semi-Automatic Welding Processes
W. 3 cl., 1 3-hr. lab.
Prereq.: 501 and Elec. E. 520.
Laboratory and lecture study of welding power supplies utilized in semi-automatic arc-welding process including metal-inert-gas, tungsten-inert-gas, and submerged-arc process. Jackson.

Theory of Welding
A. 4 cl., 1 3-hr. lab.
Prereq.: 501 and Mat. E. 500.
Safety glasses must be worn in laboratory.
The application of basic metallurgical principles in the welding processes; the weldability of metals is studied; laboratory work involves physical and metallographic examination of welded specimens. Jackson.

Application of Welding Engineering
W. 3 cl., 1 3-hr. lab.
Prereq.: 611.
Safety glasses must be worn in laboratory.
The principles by which manufacturing procedures for materials may be developed; an analysis of processing methods; material, physical and mechanical properties, inspection, and performance and service testing. McCauley.

Analysis of Continuous Systems
Sp. 3 cl.
Prereq.: 430 or permission of instructor.
An energy analysis of analogous one-dimensional linear distributed systems with applications to welding process and control systems. McMaster.

Nondestructive Testing
W. 3 cl., 1 3-hr. lab.
Prereq.: Elec. E. 520.
Safety glasses must be worn in laboratory.
Principles, equipment, techniques, and interpretation of nondestructive tests with X-rays, radiolabeled, magnetic fields, penetrants, ultrasonics, eddy currents, and other probing media. McMaster.
660* U G 1
Continuous Systems Laboratory
Sp. 1 3-hr. lab.
Concur.: 630.
Laboratory exercises in measurement of transients in continuously-distributed linear engineering systems (particularly on advanced welding equipment), and analog computer solutions where feasible.

704* U G 3
Theory of High Energy Density Welding Processes
Sp. 3 cl.
Prereq.: 501, and Elec. E. 520 or equiv., or permission of instructor.
Theory of physical and thermal processes in high-pressure arc, plasma, electron beam, laser, and other high-energy-density welding processes. McMaster.

705* U G 3
Principles of Welding Process Control Systems
Sp. 3 cl.
Prereq.: 430, 501, 502, and Elec. E. 520 and 550; or permission of instructor.

720 U G 4
Welding Design
A. 3 cl., 1 3-hr. lab.
Prereq.: Civil E. 530.
The analysis and design of statically determinate and indeterminate members and structures; a study of welding procedures for shop fabrication and field erection. W. Green.

721 U G 4
Welding Design
W. 3 cl., 1 3-hr. lab.
The analysis and design of machine elements and frames to a given set of shop conditions and facilities; emphasis on cost factor considerations. W. Green.

722 U G 4
Welding Design
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 502 and 721.
The design of resistance welded products; a selection of process and equipment and a study of tooling used in high production work. W. Green.

755* U G 1
Welding Process Control Laboratory
Sp. 1 3-hr. lab.
Concur.: 705.
Laboratory experiments in basic instrumentation and control systems for welding processes such as arc, resistance, electron-beam, and others.

793 U G 1-15
Individual Studies in Welding Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.

794 U G 1-15
Group Studies in Welding Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
The student must register for particular topics from fields of welding engineering listed below; the topics, cr. hrs., and instructors will be announced in quarter previous to the quarter offered:
   a. Welding Refractory Metals.
   c. Manufacturing in the Welding Industry.
   d. Electron Beam Technology.
   e. Plasma Technology.
   g. Welding Discontinuities.
   h. Welding Fluxes and Slags
   i. Welding Discontinuities Evaluation.
   j. Residual Stresses in Welding.
   k. Sonic Power Systems.
   l. Weld Metal Solidification.

799 U 2-15
Thesis
Prereq.: 4th yr. standing and permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Undergraduate research providing an opportunity to publish a report in appropriate technical publications.

884 G 2-9
Advanced Problems in Welding Engineering
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
This course is intended to give the advanced students opportunity to pursue advanced study, work undertaken may be elected from the following fields of welding engineering:
   b. Advanced Welding Processes I.
   c. Advanced Analysis of Welding Connections.
   d. Advanced Welding Metallurgy.
   e. Advanced Analysis of Welding Systems.
   f. Advanced Welding Design.
   g. Weld Bond.

999 G Arr.
Research in Welding Engineering
Research for thesis or dissertation purposes only.
Zoology

Office: 104 Botany and Zoology Building, 1735 Neil Avenue

Professors Peterle (Chairman), Bookhout, Borr, Colinaux, Crites, Giltz, Kostir (Emeritus), D. F. Miller (Emeritus), J. A. Miller (Emeritus), J. N. Miller (Emeritus), Mitchell, Myers, Myser, Price (Emeritus), Putnam, Reese (Emeritus), Rothenbuhler, Stansbery, Tidd, Trautman (Emeritus), and Tubb; Associate Professors Carey, Cavender, Herdendorf, Kessler, Lustick, Miskimen, Momot, Parrish, Stevens, and Valentine; Assistant Professors Berra, Curnow, Gaunt, Greenwald, Hillis-Colinaux, Martin, St. John, K. Smith, and Tassaeva; Instructors Addis, Burnard, Jezerinac, Rennie, and Troutman.

201 U 5
General Zoology
A, W, Sp. 3 cl., 2 2-hr. labs.
Prereq.: Biol. 100.
Not open to students with credit for 101.
A study of the variety of animals with emphasis on organ systems and their functions, the interrelationships with each other, space, and time.

205 U 2
Ecology and Environmental Concern
Sp. 2 cl.
Not open to students with credit for Biol. 205.
An analysis of environmental problems, the facts underlying them, and their implication for the human future as seen by professional ecologists. Colinaux.

211 U 5
Invertebrate Zoology
Sp. 3 cl., 2 2-hr. labs.
Prereq.: 201 or equiv.
Not open to students with credit for 402.
A survey of the invertebrates with emphasis on morphology and relationships of representative types. Mitchell.

220 U 5
Ornithology
Sp. 2 cl., 1 2-hr. lab.
Prereq.: 201 or equiv. and 10 additional cr. hrs. in biological sciences.
A study of the general biology and classification of birds, with emphasis on field identification of local species; field trip each Saturday. Giltz.

231 U 5
Functional Anatomy and Physiology I
A, W. 3 cl., 2 2-hr. labs.
Prereq.: Biol. 100.
The dermal, skeletal, and muscular systems with emphasis on man, Kessler.

232 U 5
Functional Anatomy and Physiology II
W, Sp. 3 cl., 2 2-hr. labs.
Prereq.: 231.
The metabolic systems with emphasis on man, Greenwald.

240 U 4
Introductory Ethology
Sp. 4 cl.
Prereq.: 201.
Observations of animal behaviors, and introductory analysis of their adaptive value, physiological mechanisms, development, and evolution; emphasis on movie presentations, reading, and small-group discussions. Rothenbuhler.

313 U 4
Introduction to Ecology
Prereq.: Biology 101.
An introduction to biotic communities, interrelations of a community with its physical environment, and the application of ecological principles to human affairs.

313.01 Lecture
A, W, Sp. 3 cl.
Not open to students with credit for Biol. 313, 313.01, or 312.02.

313.02 Laboratory
A, W, Sp. 2 lab. hrs.
Prereq. or concurr.: 313.01.
Not open to students with credit for Biol. 313 or 313.01.
Colinaux, Mitchell, and Racine.

320 U 3
Introduction to Biology of the Sea
W. 3 cl.
Prereq.: 313.01 or equiv.
Kinds, distribution, interactions, and physiological problems of marine organisms; the oceanic environment; pollution and productivity of the oceans. Hillis-Colinaux.

420 U 5
Evolution
A, Sp. 5 cl.
Prereq.: 201 and Bot. 100 and 101, or 102.
Not open to students with credit for Biol. 420.
The principles of organic evolution; demonstrations and discussions of the facts and theories underlying the evolution of man and other living things. Tidd.

430 U 5
Vertebrate Embryology
Sp. 3 cl., 2 3-hr. labs.
Prereq.: 434 or equiv.
Not open to students with credit for Anat. 616.
Embryology of representative amphibia, birds, and lower mammals from fertilization through organogenesis. Tassava.

432 U 5
General Physiology
W. 3 cl., 2 3-hr. labs.
Prereq.: Chem. 242 or equiv., Physics 113 or equiv., and 15 cr. hrs. in biological sciences.
A laboratory survey of physiological mechanisms in animals. Lustick.
Problems in Vertebrate Structure
A. W. 3 cl., 2 3-hr. labs.
Prereq.: 5 cr. hrs. in zoology, or Physics 111 or equiv., or permission of instructor.
Not open to students with credit for 231 or 234.
Exploration of interactions of historical, mechanical, and functional factors that have selected for structures of present vertebrates; emphasis on the comparative approach. Gaunt.

Basic Concepts and Recent Advances in Zoology
W. 3 2-hr. cl.
Prereq.: High school teacher status and 15 cr. hrs. natural science at the 200 level.
Animal functions and genetic and environmental interrelationships in time and space as illustrated by selected animal types. Tidd.

General Zoology
W. 3 cl., 2 3-hr. labs.
Prereq.: 434 or equiv.
Not open to students with credit for Anat. 607.
A detailed study of the tissues of vertebrate animals, and a general survey of the microscopic structure of various organs.

Principles of Physiology
Sp. 3 cl., 2 2-hr. labs.
Prereq.: Academic Year Science Institute students only. 15 cr. hrs. Biological Sciences, 15 cr. hrs. Chem., and/or Physics, and permission of instructor.
The nature and behavior of living organisms and their relationship to their environment with special consideration of the functions of vertebrate organ systems. Lustick.

Animal Parasites
A. W. 2 cl., 3 2-hr. labs.
Prereq.: 201 or equiv., Jr. standing or above, and permission of instructor.
The general principles of parasitology, the morphology, life history, and classification of parasites, and their host relationships; recommended for students preparing for medical or zoological work.

Animal Parasitology
Su (2nd term). Franz Theodore Stone Lab., 3 all-day cl. per wk.
Prereq.: 201 or equiv.
Emphasis on the parasites infesting freshwater vertebrates, including field and laboratory experiences, host examination, and techniques dealing with staining, fixing, and mounting of specimens.

Invertebrate Zoology
Su (2nd term). Franz Theodore Stone Lab., 3 all-day cl. per wk.
Prereq.: 201 or equiv.
The collection and identification of invertebrate animals, development of methods of classification, and use of keys.

Zoology of Vertebrates
A. Sp. 3 cl., 2 2-hr. labs.
Prereq.: 201 or equiv.
A study of the various vertebrate groups, emphasizing their origin, phylogeny, classification, life histories, habits, distribution, and economic importance. Downhower.

Ichthyology
Su (1st term). Franz Theodore Stone Lab., 3 all-day cl. per wk.
Prereq.: 201 or equiv.
Study of the distribution and classification of fishes, which includes methods of identification, collection, and preservation.

Herpetology
Su (2nd term). Franz Theodore Stone Lab., 3 all-day cl. per wk.
Prereq.: 201 or equiv.
Local species of reptiles and amphibians, their habits, life histories, ecology, and classification. Britt.

Biology of Birds
Sp. 2 cl., 1 2-hr. lab.
Prereq.: 201 or equiv.
The aspects of anatomy, physiology, taxonomy, and behavior which are pertinent to the study of birds. Putnam.

Advanced Ornithology
Su (1st term). Franz Theodore Stone Lab., 3 all-day cl. per wk.
Prereq.: 201 or equiv.
Topics include instinctive behavior in the life of birds, the breeding cycle, social relations, territory, ecology, characteristics of population, and techniques in field study of birds. Putnam.

Mammalogy
W. 3 cl., 2 2-hr. labs.
Prereq.: 201 or equiv.
The comparative morphology, taxonomy, life histories, distribution, and importance of the mammals.

Biology of Fishes
Sp. 3 cl., 1 3-hr. lab.
Prereq.: 201, 15 cr. hrs. in biological sciences, and permission of instructor.
The laboratory emphasizes ecological and systematic ichthyology; lectures emphasize the behavior, migration, distribution, and evolution of fishes. Caverder.

Comparative Embryology
W. 3 cl., 2 2-hr. labs.
Prereq.: 201 or equiv.
A survey of various modes of embryonic development, illustrated with both invertebrate and vertebrate type material with emphasis on fundamental aspects and processes. Tassava.
A study of the physical, chemical, and biological factors influencing the biological productivity of inland waters and of techniques and equipment used in evaluating them. Britt and Tubb.

660  U  G  5  
Fisheries Biology  
A.  3 cl., 2 2-hr. labs.  
Prereq.: 313.01 and 313.02 or equiv.  
The productivity of fish populations and the ecological relationships between fishes and other aquatic organisms. Momot.

661  U  G  5  
Wildlife Biology  
A.  3 cl., 2 2-hr. labs.  
Prereq.: 15 cr. hrs. in Zool., above the 200 level, including 313.01 and 313.02.  
An introductory course in the biology and importance of wildlife; emphasis on biological principles as they relate to birds and mammals.

662  U  G  5  
Wildlife Biology Techniques  
W.  3 cl., 2 2-hr. labs., Sat. field trips.  
Prereq.: 661 or equiv., Genetics 650 or equiv., and permission of instructor.  
Techniques employed in the field of wildlife biology, with emphasis on game birds and mammals; designed for zoology majors specializing in wildlife biology. Booklist.

670†  U  G  5  
Radiation Biology  
Su.  
Prereq.: High school teacher status and Zool. 201 or equiv., Physics 515 or concur., and 10 cr. hrs. in general Chem. and Physics.  
(N.S.F. Summer Institute students only)  
Not open to students with credit for Biol. 670.  
A study of the principles of radiation biology and their application to high school and college teaching.

693  U  2-5  G  2-10  
Individual Studies  
Prereq.: Permission of instructor.  
No more than 5 cr. hrs. may be counted toward an undergraduate zoology major.  
Repeatable to a maximum of 15 cr. hrs. for undergraduates.  
Individual work in the field of the chosen problem.

a. Anatomy.  
   Gaunt.  
b. Animal Behavior.  
   Putnam, Rothenbuhler, and Gaunt.  
   Peterle, Stansbery, Giliz, Collinvaux, Downhower, Mitchell, Monot, and Berra.  
d. Embryology and Vertebrate Zoology.  
   Downhower and Tassava.  
e. Invertebrate Zoology.  
   Crits, Mitchell, Tidd, and Tubb.  
f. Ornithology.  
   Borror, Gaunt, Lustick, Miskimen, Putnam, and Kessler.
g. Parasitology.
   Crites, Martin, Tidd, and Mitchell.

h. Wildlife Biology.
   Bookhout, Curnow, and Peterne.

i. General Limnology.
   Brit, Colinaux, Hills-Colinaux, Momot, Smith, and Tubb.

j. Comparative Physiology.
   Lustwick, Greenwald, and Tassava.

k. Electron Microscopy.
   Parrish.

   C. Colinaux, Downhower, Peterle, and Mitchell.

m. Systematics.
   Borr, Berra, Cavender, Gaunt, Valentine, Mitchell and Stanberry.

n. Ichthyology.
   Berra, Cavender, Momot, and Trautman.

o. Fisheries Biology.
   Berra, Cavender, Momot, Trautman, and Tubb.

694 U G 2.5

Group Studies
Prereq.: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs. for undergraduates and to a maximum of 35 cr. hrs. for graduates.
Group work in the field of the chosen problem (see topics in 693).

700 U G 5

Principles of Biogeography
Sp. 5 cr.
Prereq.: Permission of instructor.
Principles and patterns of animal and plant distribution over the world, using historical, geographic, and biological approaches. Valentine.

710* U G 5

Fish and Wildlife Parasitology
Sp. 3 cr., 2 2-hr. labs.
Prereq.: Permission of instructor.
Emphasis on parasites infesting fish and wild animals, on life histories, ecology, host-parasite relationships, pathology and control, field and laboratory experience; host examination techniques. Crites.

H783 U 3-5

Honors Course
Prereq.: 4th yr. standing with a grade of A in at least half of the courses in Biol. Sci. and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee.
At least 2 qtrs. are required of candidates for the degree Bachelor of Science or Bachelor of Arts with distinction in Zoology. Failure to receive a mark of S in this course is a disqualification for special honors.
Repeatable to a maximum of 15 cr. hrs.
A program of reading and research for each student with individual conferences, reports, and Honors thesis.

800 G 3

Zoological Literature and Preparation of Manuscripts
W. 2 cl., 1 2-hr. lab.
Prereq.: 15 cr. hrs. of biol., entom., or zool. at the 600 level or above.
A study of library organization bibliographies, and guides to zoological literature; the preparation of scientific papers for publication.

810 G 8

Ecological Investigations of Biotic Areas of North America
A. Pre-field trip from Sept. 1-30; 1, 2-hr. seminar on campus during A. Quarter.
Prereq.: Bot. 620 or Zool. 650 or 661, 20 additional graduate cr. hrs. in Biological Sciences and permission of instructor.
Fee of $145 for travel and subsistence.
Not open to students with credit for Biol. 810.
Full time of the student will be required traveling and living away from the campus; intensive field work in a variety of environments will involve both supervised and independent study.

811* G 5

Advanced Zoology of Invertebrates
Sp. 3 cr., 2 2-hr. labs. Field trips including a 1 wk. optional trip to a marine lab.
Prereq.: 211 or equiv. and permission of instructor.
A study of the morphology, physiology, life histories, and classification of the invertebrate pseudocelomate invertebrates and the annelid worms. Crites.

8121* G 5

Advanced Zoology of Invertebrates
Sp. 3 cr., 2 2-hr. labs. Field trips including 1 wk. optional trip to a marine lab.
Prereq.: 211 or equiv. and permission of instructor.
A study of the morphology, physiology, life histories, and classification of the eucelomate invertebrates exclusive of annelid worms. Crites.

820 G 5

Biological Effects of Ionizing Radiation
Sp. 2 cr., 2 2-hr. labs.
Prereq.: Permission of instructor.
A course in the theory, use, and analysis of the effects of ionizing radiation on living organisms. Myser.

821* G 5

Helminthology
W. 3 cr., 2 2-hr. labs.
Prereq.: 610 or 611 or equiv. and permission of instructor.
A study of the morphology, physiology, life histories, epidemiology, and pathology of parasitic acelomate helminths. Crites.

822* G 5

Helminthology
W. 3 cr., 2 2-hr. labs.
Prereq.: 610 or 611 or equiv. and permission of instructor.
A study of the morphology, physiology, life histories, epidemiology, and pathology of the parasitic pseudocelomate helminths. Crites.
840  G 5
Behavior Genetics
W.  3 1½-hr. cl.
Prereq.: Genetics 500 or equiv.; and Zool. 640 or
Psych. 300 or equiv.
Development of ethological theory, genetic bases of
behavioral differences, and evolution of behavior in
laboratory, wild, and domestic species of both
vertebrates and invertebrates. Rothenbuhler.

841  G 3
Bioacoustics
Sp.  1 cl., 2-hr. lab. and field trip.
Prereq.: Permission of instructor.
A study of the nature and biological significance of
animal sounds. Borror.

851  G 5
Population Ecology
W.  5 cl.
Prereq.: 313.01, 313.02, and 650.
Interactions of animal populations considered from the
environmental, physiological, and biometrical aspects.
Petersen.

860  G 2-5
Seminar on Historical Ecology
Sp.
Prereq.: Permission of instructor.
Repeatable to a maximum of 15 cr. hrs.
Study of developing ecosystems through long spans of
time through reconstructions of past communities
from fossil evidence. Colinaux.

861  G 3
Principles of Systematics
A.  2 cl., 2 hr. lab.
Prereq.: 15 cr. hrs. of Zool. or Entom. at the 600 level
or above.
Not open to students with credit for Biol. 860.
A study of the principles and techniques used in the
identification, classification, and nomenclature of
organisms. Valentine.

880  G 2
Seminar
A.  1 cl.
Required of all graduate majors in zoology during the
first Autumn Quarter of registration.

881  G 1-3
Seminar
Repeatable to a maximum of 10 cr. hrs.
Selected topics to be announced.

890  G 2
Interdepartmental Seminar
in Developmental Biology
A, W, Sp.  1 2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 12 cr. hrs.
Students will present oral reports and lead discussion
on research progress in specific areas of developmental
biology.

891  G 2
Interdepartmental Seminar
in Environmental Biology
Su, A, W, Sp.  1 2-hr. cl.
Prereq.: Permission of instructor.
Repeatable to a maximum of 24 cr. hrs.
Selected topics treating the environmental aspects of
organisms, populations, and ecosystems as they may
relate to time, space, and human activities.

896  G 1-3
Interdepartmental Seminar
in Polar and Alpine Studies
Sp.
(See under Interdepartmental Seminars.)

897  G 1
Interdepartmental Seminar
in Natural Resources
(See under Interdepartmental Seminars.)

999  G Arr.
Research in Zoology
Research for thesis and dissertation purposes only.
# University Calendar for 1973-74

## Summer Quarter 1973
- **June 10**: Quarter and First Term classes begin, 8:00 a.m. (Tues.)
- **July 4**: Legal holiday—Independence Day—No classes, offices closed (Wed.)
- **July 22-24**: Final examinations for First Term courses only (at regular class hours) (Mon. and Tues.)
- **July 24**: First Term ends, midnight (Tues.)
- **July 25**: Second Term classes begin, 8:00 a.m. (Wed.)
- **August 27-28**: Final examinations for Second Term courses only (at regular class hours) (Mon. and Tues.)
- **August 28**: Last day of regularly scheduled classes (Tues.)
- **August 29-31**: Final examinations for Quarter courses (Wed.-Fri.)
- **August 31**: Summer Commencement, 9:00 a.m., St. John Arena (Fri.)
- **August 31**: Summer Quarter ends, midnight (Fri.)

### Spring Quarter 1974

**March 26**  
Classes begin, 8:00 a.m. (Tues.)

**May 10**  
Free day—No undergraduate classes, offices open (Fri.)

**May 27**  
Legal holiday—Memorial Day—No classes, offices closed (Mon.)

**May 31**  
Last day of regularly scheduled classes (Fri.)

**June 3-7**  
Final examinations (Mon.-Fri.)

**June 7**  
Spring Commencement, 9:00 a.m., Ohio Stadium (Fri.)

**Spring Quarter ends, midnight (Fri.)**

* Individual college calendars, last days to file applications for admission, and registration dates may vary for the professional colleges of Dentistry, Law, Medicine, Optometry, Pharmacy, and Veterinary Medicine. Consult the appropriate college offices or catalog for these dates.

** New students required to participate in the Undergraduate Orientation Program will receive registration materials when they attend the program.

** All dates are subject to change.

INSTRUCTIONS for Adviser Approval Form

The Adviser Approval Form is provided for use by students whose colleges require adviser approval of academic programs. Since Autumn Quarter Registration Forms must be returned in August, this form is to be used in obtaining approval of programs prior to the summer vacation period when the student and/or his adviser may not be on campus. Only one form need be used unless the adviser or college requests two.

The student should meet with his adviser to decide on an instructional program, complete the form in ink, and have his adviser sign where indicated. The student will keep the completed Adviser Approval Form and include it with his Autumn Quarter Registration Form available after July 23.

Students having questions concerning the form or its use should check with their adviser or college office.

Do not send the Adviser Approval Form in advance of the Registration Form.

Admissions Office
102 Administration Building
190 North Oval Drive
Columbus, Ohio 43210

The Course Offerings catalog is distributed to admitted applicants and former students concurrently with registration materials. When requesting application forms through the mail, applicants should specify their previous educational background and proposed program of study.

Newly enrolled students and former students will automatically receive their appropriate college catalogs and the Course Offerings catalog concurrently with registration materials. Additional or replacement copies can be purchased from the University Bookstores on all campuses.

Within Ohio, complete sets of the series are available for examination in offices and libraries of colleges and universities and in guidance libraries of high schools. Copies also are available for examination in public libraries, U.S. government offices, major state of Ohio government offices in Columbus, Cooperative Extension offices in each of the state's 88 counties, area extension offices, and in administrative offices of the University, as well as in many libraries and colleges outside Ohio.
