The Ohio State University

Ohio State is the major comprehensive University in the state of Ohio. Through its central campus in Columbus, four regional campuses, Agricultural Technical Institute, educational telecommunications programs, cooperative extension service, and health care programs, the University serves the entire state. As a major land grant university Ohio State is also a national resource. Its fundamental purpose—in teaching, research, and public service—is to enhance the quality of human life through developing the individual capacity for enlightened understanding, thinking, and acting. Through the dissemination of knowledge, the University not only serves the individual but acts as a force to shape society for the common good. As such, it is also a significant international resource.

Ohio State offers degree programs in a variety of disciplines, including baccalaureate and graduate programs in the liberal arts and sciences, in agriculture, in the various professional areas, and in the health sciences. As the major graduate institution of the state, The Ohio State University plays an important role in the generation of new knowledge through research and other creative work, and in the preparation of mature scholars. The University provides the only programs in Ohio in graduate study in agriculture, in certain of the allied medical professions, in optometry, and in veterinary medicine. The quality and diversity of its instructional programs and resources afford students the opportunity to elect programs of unusual strength in the traditional university disciplines, as well as interdisciplinary programs which reflect new ways of organizing knowledge and new approaches to contemporary problems.

Equality of opportunity is a basic philosophy of Ohio State. Mindful of the need for all persons to adapt to the changing roles and needs of society, the University also provides evening programs and continuing education opportunities to serve a wide spectrum of lifelong learning needs. In the exploration of new ideas and in the preparation of citizens for their roles in a changing society, the University represents a human commitment—an expression of the aspiration of people to better themselves and the world in which they live.

The Ohio State University Bulletin

Volume 88, No. 8, April 3, 1984

The Ohio State University Bulletin (USPS 405-220) is published 23 times during the year: once in May, three times in August, once in October, once in January, and 17 times in April by The Ohio State University Office of Academic Affairs, 190 North Oval Mall, Columbus, Ohio 43210-1359. Second class postage paid at Columbus, Ohio. POSTMASTER: Send address changes to The Ohio State University Bulletin, 1110 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210-1230.

Copies of the University's bulletins are available within Ohio in high school guidance libraries, in college and university libraries, in major state government offices, and in Cooperative Extension Service offices. The Bulletin Series contains:

1. General Information and Applications
2. Graduate School
3. Course Offerings
4. College of Administrative Science
5. College of Agriculture
6. Colleges of the Arts and Sciences
7. College of Dentistry
8. College of Education
9. College of Engineering
10. College of Home Economics
11. College of Law
12. College of Medicine
13. College of Nursing
14. College of Optometry
15. College of Pharmacy
16. College of Social Work
17. College of Veterinary Medicine
18. Agricultural Technical Institute
19. Continuing Education Opportunities

Admission application forms and college bulletins are available from the Admissions Office, The Ohio State University, Third Floor Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210-1230.

While every effort is made to provide accurate and up-to-date information, the University reserves the right to change without notice statements in The Ohio State University Bulletin series concerning rules, policies, fees, curricula, courses, or other matters. Courses may be closed because of limited resources or facilities, or canceled because of unavailability of faculty or insufficient enrollment.

In this bulletin, the masculine gender has been used for the sake of convenience. Unless specifically noted, it is to be considered as including the feminine gender in each instance.

Student Responsibility

The student is responsible for knowing his own standing scholastically in reference to the published regulations and standards of the University and of his college or school.

Examinations and Marks

Course Examinations (Faculty Rule 3335-7-19)

At the close of each course, an examination will be given on the student’s capabilities relative to the stated course objectives, the method of examining to be determined by the instructor or supervisor of the course. Examinations in laboratory and seminar courses shall be optional with the instructor concerned. Examinations for graduating students shall be given at a time near the end of each course, preferably during the last week of classes.

Schedules for Final Examinations (Faculty Rule 3335-7-20)

Examinations for classes taught on the regional campuses and for classes whose enrollment is exclusively of students registered in the Colleges of Dentistry, Law, Medicine, Optometry, Pharmacy, and Veterinary Medicine will be scheduled by the offices of the regional campuses and of the colleges respectively. All examination schedules prepared outside the Office of the University Registrar shall, before publication, be cleared with the Office of the University Registrar which shall have the power to resolve all conflicts.

Examinations for graduating students shall be arranged by individual instructors so that final grades for the affected students may be submitted to the Office of the University Registrar by the deadlines established by that office.

All other final examinations shall be centrally scheduled by the Office of the University Registrar. The official examination schedules shall be strictly adhered to by all instructors. Any deviation must first be approved by the appropriate university official (department chairman, regional campus dean and director, or college dean) in consultation with the Office of the University Registrar, which shall have the power to resolve all conflicts.

In performing its scheduling function the Office of the University Registrar shall limit individual examinations to two-hour duration and the total examination period to no more than five days.

Marks (Faculty Rule 3335-7-21)

The official marks of the University are as follows:

A, A— The instructor judged the student to have satisfied the stated objectives of the course in an excellent manner. The student’s performance was judged to be in this range of high quality based upon a comparison with other students in the course, and/or with students who have taken the course previously, and/or the instructor’s personal expectations relative to the stated objectives of the course, based on his experience and expertise.

B+, B, B— The instructor judged the student to have satisfied the stated objectives of the course in an above average manner. The student’s performance was judged to be in this range of above average quality based upon a comparison with other students in the course, and/or with students who have taken the course previously, and/or the instructor’s personal expectations relative to the stated objectives of the course, based on his experience and expertise.

C+, C, C— The instructor judged the student to have satisfied the stated objectives of the course in an average manner. The student’s performance was judged to be in this range of average quality based upon a comparison with other students in the course, and/or students who have taken the course previously, and/or the instructor’s personal expectations relative to the stated objectives of the course, based on his experience and expertise.

D+, D— The instructor judged the student to have satisfied the stated objectives of the course in a low but acceptable manner. The student’s performance was judged to be in this range of below average but acceptable quality based upon a comparison with other students in the course, and/or with students who have taken the course previously, and/or the instructor’s personal expectations relative to the stated objectives of the course, based on his experience and expertise.

E The instructor judged the student not to have satisfied the stated objectives of the course. Credit for a course in which the mark E has been received can be obtained only by repeating and passing the course in class. (See Faculty Rules 3335-7-23 to 3335-7-26).
EM Examination

This mark indicates credit given to students registered in the University on the basis of examinations taken prior to or after admission to the University. The level of achievement which must be demonstrated by the student on these examinations in order to receive EM credit shall be determined by the department or school in which the course is offered for credit, in accord with the criteria for the award of letter grades. This credit, up to a maximum of 45 credit hours, shall be assigned only upon the authorization of the chairman of the department or the director of the school and with the approval of the authorized representative of the dean or director of the student’s enrollment unit. Additional examination credit hours may be assigned specific curricular programs with the prior approval of the Council on Academic Affairs.

Examination credit shall not be given to a student for a course in which he has received a mark at this University or for which he has transfer credit from some other college or university. Conversely, no course for which EM credit has been received can be taken later for a grade or credit. No credit points are allowed for courses in which a mark of EM is given.

I Incomplete

An I indicates that the student has completed a major portion of the work in the course in a satisfactory manner, but for reasons judged by the instructor to be legitimate, a portion of the course requirements remains to be completed.

The mark I shall be reported to the Office of the University Registrar together with the mark which the registrar is authorized to enter on the student’s official permanent record unless a different mark is reported to the Office of the University Registrar in the manner and within the time described below.

The student must complete the work so that the instructor of the course may report the final mark at the earliest possible time, but not later than noon of the sixth Saturday of the quarter following the quarter in which the I was received. For legitimate reason, the instructor may establish a deadline for the completion of the work which is within the maximum time permitted. Upon petition of the student within this period, the authorized representative of the dean or director of the enrollment unit in which the student was last enrolled after consultation with the instructor of the course, or, if the instructor is unavailable, the chairman of the department involved, may for good reason allow a student additional time in which to complete the work. Generally, this shall not be longer than the end of the quarter following the quarter in which the I was received. Any decision extending the period shall set forth the time in which the student shall complete the work and a copy of the decision shall be forwarded to the Office of the University Registrar.

As soon as the incomplete work has been made up, the instructor, or in the case of his absence from the University, the department chairman or the director of the school, shall file the proper mark in the Office of the University Registrar. Until such time as a final mark is recorded the credit for the mark I shall be counted as hours only, and shall not be considered in determining a student’s point-hour ratio under Faculty Rule 3335-7-26 (page 7).

In no case shall a student who has received the mark I be permitted to repeat the course in which such mark was received until such time as the I has been removed and then only in such cases as fall within Faculty Rule 3335-7-28 (page 8).

K Credit

This mark shall be used for work credited from other institutions by the director of admissions only. K credit shall be counted as hours only and shall not be considered in determining a student’s point-hour ratio under Faculty Rule 3335-7-26 (page 7).

P Progress

This mark is used to indicate that the student has shown satisfactory progress in a series or sequence of courses where the mark is not recorded until the final quarter of the series or sequence is completed. Until such time as a final mark is recorded the mark of P shall be given and the credit shall be counted as hours only, and shall not be considered in determining a student’s point-hour ratio under Faculty Rule 3335-7-26 (page 7). When a final mark is submitted by the instructor, all previous P marks shall assume and be recorded with the value of the final mark.

P mark is not to be used for any course approved for the S/U mark.

PA/NP Pass/Non-Pass

This mark may be used at the option of the student.

This grading pattern may be chosen by undergraduates or Continuing Education students for a maximum of 30 credit hours. Among these 30 credit hours, an undergraduate student may elect Pass/Non-Pass grading for courses in fulfillment of the curricular requirements (free electives) of Faculty Rule 3335-7-06 (page 14).
An undergraduate student who has accumulated a point-hour ratio of 2.00 or higher may elect courses for Pass/Non-Pass that are not required or designated as required electives in the curriculum leading to the degree for which the student is a candidate.

A student registered in Continuing Education who has an accumulated point-hour ratio of 2.00 or higher may elect courses for Pass/Non-Pass for a maximum of 30 credit hours.

Hours graded Pass (PA) count toward the degree. Pass/Non-Pass marks (PA/NP) are not computed in the point-hour average of the student.

Before 5:00 p.m. of the third Friday of a quarter or the second Friday of a term, a student must have declared his intention to take a course on the Pass/Non-Pass basis by filing the appropriate form with the dean or director of his enrollment unit. A student may not change to or from the Pass/Non-Pass Option after 5:00 p.m. of the third Friday of a quarter or the second Friday of a term.

The grade Pass (PA) is the equivalent of the grades A, A−, B+, B, B−, C+, C, C−, D+, D, and the grade Non-Pass (NP) is the equivalent of the grade E.

R Registered to Audit
This mark indicates that the student has registered to audit the course and has met the conditions established for audit enrollment in the course (page 9). No credit hours shall be awarded for this mark.

S/U Satisfactory/Unsatisfactory
The mark S may be used to record either satisfactory progress in or completion of work, provided that the course has been approved for this mark by the dean of the college offering the course, and in the case of courses carrying graduate credit, by the dean of the Graduate School. It shall be used as an alternative to U or I in all individual studies courses whatever their number. S credit shall be counted as hours only, and shall not be considered in determining a student’s point-hour ratio.

The mark U shall be used for unsatisfactory work in courses in which a student would be entitled to the mark of S if his work has been satisfactory. No credit shall be given for work marked U. This mark shall not be considered in determining a student’s point-hour ratio.

W Withdrawn
This mark is used for students withdrawing from one or more courses or from the University. See Withdrawal from Courses or from the University on page 9 for procedures and provisions governing withdrawals.

Report of Marks (Faculty Rule 3335-7-22)
Upon completion of the course requirements, marks for every student shall be reported to the Office of the University Registrar in accordance with deadlines listed in the quarterly Master Schedule of Classes Bulletin. This office maintains the student’s official permanent record and is responsible for issuing a quarterly grade report to each student.

Alteration of Marks (Faculty Rule 3335-7-23)
A mark filed in the Office of the University Registrar is a part of the official records of the University. It is subject to change only when a procedural error has been discovered in evaluation or recording of a grade. Action to change a grade must be initiated before the end of the second succeeding quarter. In no case will a grade be revised in accordance with criteria other than those applied to all students in the class. If the instructor agrees that an error in the mark was made, the mark will be changed upon the written authorization of: the instructor of the course; the instructor’s department chairman; the director of the instructor’s school, if applicable; the dean of the instructor’s college; and the authorized representative of the dean or director of the student’s enrollment unit.

If a student believes that a procedural error in grading was made, the student should meet with the instructor. If the instructor does not agree that a procedural error was made, the student may meet with the department chairman to discuss the grade grievance. The chairman shall respond to the student no later than 30 days after the student has requested a review by the chairman. Upon receipt of the chairman’s response, if the issue is not resolved to the satisfaction of the student, the student may within two weeks request in writing by duplicate submission to the dean or director of the instructional unit and the department chairman, the procedures in the following section. Unresolved cases of grade grievance due to grading procedures are subject to Section A; unresolved cases of grade grievance due to course content are not subject to Section A.

A. Unresolved cases of grade grievances due to grading procedures shall be reviewed by a faculty departmental committee appointed by the department chairman.

- In cases of instructors still affiliated with the University, the review committee shall consult both the student and the instructor and shall determine the validity of the grade grievance.
due to grading procedures. The review committee shall make its findings known in writing to both the student and the instructor within 30 days of the student's request to the chairman. If the committee finds that a procedural error has occurred and if the instructor declines to accept the findings of the review committee, the committee shall consider the reasons for not authorizing a grade change given by the instructor and may, upon consideration of these reasons, authorize in writing a grade change to be instituted by the department chairman.

• In cases of instructors no longer affiliated with the University, the findings of the committee shall be reported to both the student and the instructor. If the instructor chooses not to respond, the judgment of the committee shall prevail. If the instructor responds and declines to accept the findings of the committee that a procedural error has occurred, the committee shall consider the reasons for not authorizing a change given by the instructor. In either case, the committee may, upon due consideration, authorize in writing a grade change (if such can be determined) to be instituted by the department chairman.

If a department committee can find no academic basis upon which to recommend an appropriate grade for the course, the student shall be given the option of having the course stricken from the student's record and, if so desired, to retake that course without prejudice or penalty.

B. If charges of grave academic misconduct against an instructor are made and substantiated under Faculty Rule 3335.5-04, the department chairman shall be authorized to appoint a department grade grievance committee to consider grading errors that are alleged to be related to the misconduct. The committee shall consider all evidence and present, in writing, a report to the chairman indicating any recommended grade changes. The department chairman shall be authorized to institute grade changes in accordance with the recommendations of the committee.

If a department committee can find no academic basis upon which to recommend an appropriate grade for the course, the student shall be given the option of having the course stricken from the student's record and, if so desired, to retake that course without prejudice or penalty.

The Graduate School and graduate professional colleges may formulate appropriate modifications of this rule, subject to the approval of the Council on Academic Affairs, and publish the rule in their bulletins.
Course Credit

Credit Hours (Faculty Rule 3335-7-24)

All courses shall be assigned a number of credit hours. This may be any number from zero on up; however, in determining the credit hours assigned, the department, school, college and Council on Academic Affairs should use as a guide the following suggested standards:

- One credit hour shall be assigned for each three hours per week of the average student’s time, including class hours, required to earn the average grade of C in this course.
- One credit hour shall be assigned for each two consecutive hours of practical or experimental work per week in any department or school.
- One credit hour shall be assigned for each three hours of laboratory work per week, when no additional outside work is required. When outside work is required, then the first standard listed above shall be applied.

In determining the hours per week required by the course or work, the Council on Academic Affairs may, in appropriate cases, consider the average weekly hours spent during the quarter on the course or work. It should be remembered that the above are guides only and may be deviated from for good cause.

Credit Points and Point-hour Ratio (Faculty Rules 3335-7-25 and 3335-7-26)

A student’s academic standing for a quarter is expressed by the point-hour ratio. This ratio is found by dividing the total number of points earned by the total number of credit hours scheduled or undertaken. Courses in which the marks EM, I, K, NP, P, PA, R, S, U, or W are given are not included in the computations. Courses in which the marks A, A−, B+, B, B−, C+, C, C−, D+, D, or E are given are computed according to the scale: A=4.0, A−=3.7, B+=3.3, B=3.0, B−=2.7, C+=2.3, C=2.0, C−=1.7, D+=1.3, D=1.0, and E=0.0. The following example shows how a point-hour ratio is determined.

Point-hour ratio: 2.44

When the final grade on Course No. 3 is recorded, the points and hours will be included in the computation of the student’s point-hour ratio. When a student has a record for two or more quarters, he will have a cumulative point-hour ratio determined by dividing the total points earned by the total hours undertaken.

The point-hour ratio begins anew when a student enrolls in Dentistry, Law, Medicine, Optometry, Pharmacy, Veterinary Medicine, or the Agricultural Technical Institute.

When determining the point-hour ratio of a student:

- For a quarter, the applicable number of credit hours shall be the student’s scheduled credit hours in that quarter.
- For the student’s work in the University, the applicable number of credit hours shall be the total number of credit hours undertaken in the University except as modified by Faculty Rule 3335-7-271 (page 8).
- For the student’s work in the Graduate School, the applicable number of credit hours shall be the total number of graduate credit hours undertaken while enrolled in the Graduate School. For the student’s work in a professional college or school or professional division of a college, the applicable number of credit hours shall be the total number of credit hours undertaken while enrolled in the professional college or school or professional division of a college.
- For the student’s work in the major field of interest, the applicable number of credit hours shall be the total number of credit hours undertaken in courses approved for the major program.

No College of Medicine point-hour average shall be computed for a student enrolled in the College of Medicine in a curriculum leading to the degree, Doctor of Medicine, when that student has received only the marks of H, S, or E in the College of Medicine.

Recalculation of Cumulative Point-hour Ratio—Fresh Start Rule (Faculty Rule 3335-7-261)

An undergraduate student who re-enrolls in the University after an absence of five or more years may petition the dean or director of his enrollment unit to recalculate the cumulative point-hour ratio of his previous residency. If the petition is approved, all courses taken will remain on the permanent record. Those with marks of A, A−, B+, B, B−, C+, C, C−, EM, K, PA, or S, will be counted for credit only. No other marks will be counted for credit.
If the petition is approved, the student resumes his academic program with no cumulative point-hour ratio, and thereafter is subject to the conditions of warning, probation, and dismissal that govern all students (see Faculty Rules 3335-9:24 to 3335-9:28, pages 11-12).

Under the provisions of this rule a student, before graduation, must be re-enrolled for a minimum of 45 quarter credit hours and three academic quarters.

All courses ever taken at the University will be used in the calculation of the cumulative point-hour ratio required for the purposes of graduation with honors.

The Graduate School and graduate professional colleges may formulate appropriate modifications of this rule, subject to the approval of the Council on Academic Affairs, and publish the rule in their bulletins.

Failure in a Required Course (Faculty Rule 3335-7:27)

An undergraduate or professional student who has not been dismissed from the University must repeat in a regularly scheduled class, at the first opportunity, a required course in which a mark of E has been received, unless an equivalent course is recommended and approved by the authorized representative of the dean or director of the enrollment unit.

A graduate student who has not been dismissed from the University must repeat in a regularly scheduled class a required course in which a mark of E has been received only if this is required by the student’s adviser.

Student Substitution of Marks—Forgiveness Rule (Faculty Rule 3335-7:271)

An undergraduate student who has received a grade of D+, D or E in a course or courses taken during his freshman year (the period during which the student accumulates the first 44 credit hours on his official permanent record) may repeat or substitute up to 15 credit hours of such courses subject to the following regulations:

- The course serving as a repetition or substitute for a course in which a grade of D+, D or E was received must be recommended by the student’s adviser and have the approval of the authorized representative of the dean or director of the student’s enrollment unit, before noon of the third Saturday of the quarter in which the substitute course is taken.

- The mark received in the repeated or substitute course shall be entered on the student’s permanent record and count toward his cumulative point-hour average and credit hours toward graduation. The original course and mark shall remain on the student’s permanent record but will not count on his cumulative point-hour ratio or credit hours toward graduation.

- Courses repeated or substituted according to this rule shall be completed no later than the end of the quarter during which the student will have accumulated a total of 89 credit hours.

The Graduate School and graduate professional colleges may formulate appropriate modifications of this rule, subject to the approval of the Council on Academic Affairs, and publish the rule in their respective bulletins.

Repetition of Courses (Faculty Rule 3335-7:28)

Except as specified by Faculty Rule 3335-7:27 (page 8), undergraduate students who have received a mark of E or NP in a course at this university may repeat the course for credit at their option.

Undergraduate or professional students, as defined in Faculty Rule 3335-9:01 (page 10), who have received a mark of D+ or D in a course at this university may repeat the course for credit only upon the recommendation of the authorized representative of the dean or director of their enrollment unit.

Undergraduate or professional students, as defined in Faculty Rule 3335-9:01 (page 10), who have received a mark of A, A−, B+, B, B−, C+, C−, or Pass in a course at this university or elsewhere may repeat the course only as auditors, in accordance with Faculty Rule 3335-7:29 (page 9).

A graduate student, as defined in Faculty Rule 3335-9:01 (page 10), may repeat for credit any course when approval is given by the student’s adviser.

A student who has audited a course may subsequently repeat the course for credit with permission of the authorized representative of the dean or director of his enrollment unit.

The credit hours for a repeated course shall in no case be counted more than once in meeting graduation requirements.

When a student repeats a course, both grades appear on the student’s record and both are used in computing the point-hour ratio, except as modified by Faculty Rule 3335-7:271 (page 8).
Admission to Courses as an Auditor (Faculty Rule 3335-7-29)

An undergraduate or professional student may audit a course upon the approval of the professor in charge of the course and the dean of the college, or designee, in which the student is registered. (For repetition of courses, see Faculty Rule 3335-7-28, page 9.) A graduate student may audit a course upon the approval of the professor in charge of the course and the student’s advisor.

Rescheduled Courses (Faculty Rule 3335-7-30)

Each department or school is authorized to administer placement examinations to students enrolling for the first time in a course offered by that department or school. Following such placement examinations, a department or school may instruct the secretary of the college or school in which the student is registered to change such student’s enrollment either to a more elementary or to a more advanced course.

If, within the first four weeks of a quarter, a student’s previous preparation is demonstrably inadequate for a course in which he originally enrolled, the department or school concerned is empowered to instruct the college or school in which the student is registered to remove the course from the student’s schedule and to replace it with a more suitable one.

Credit for Rescheduled Courses (Faculty Rule 3335-7-31)

Credit for all rescheduled courses resulting from action under Faculty Rule 3335-7-30 shall count toward the fulfillment of graduation requirements unless: the student has previously earned university or college credit in a course having substantially the same subject matter content; or the substituted course is one which the department or school, with the approval of the Council on Academic Affairs, has established for students with inadequate preparation for college-level courses of that department or school.

Withdrawal from Courses or from the University (Faculty Rule 3335-7-32)

Withdrawal from the University during a quarter constitutes withdrawal from all courses in which a student is enrolled during that quarter. Upon official notification of the student’s withdrawal from the University, the registrar is authorized to enter the dated notation withdrew on the student’s official permanent record.

To withdraw from any or all courses, a student must file the appropriate form with the authorized representative of the dean or director of the student’s enrollment unit.

Until 5:00 p.m. of the third Friday of a quarter or the second Friday of a summer term, a student may withdraw from any or all courses which began in the same quarter (or term), and no record for the course(s) will be entered on the student’s official permanent record.

After 5:00 p.m. of the third Friday of a quarter and until 5:00 p.m. of the seventh Friday of a quarter, if a student withdraws from any or all courses which began in the same quarter, the registrar is authorized to enter the mark W on the student’s official permanent record for the courses withdrawn.

After 5 p.m. of the seventh Friday of the quarter or the second Friday of a summer term, a student who because of circumstances beyond his control finds it necessary to withdraw from any or all courses, must file the appropriate petition with the authorized representative of the dean or director of the enrollment unit. Reasons not acceptable include (but are not limited to) the student’s performance in the course(s), lack of preparation for the course(s), or dissatisfaction with the subject matter offered in the course(s).

If the petition is approved, a copy will be filed with the registrar who is then authorized to enter the mark W on the student’s official permanent record and the instructor(s) of the course(s) will be so notified. If the petition is not approved, the student continues to be enrolled in the course(s) and a final mark must be submitted by the instructor(s). Withdrawal from any and all courses shall not be permitted after the last day of regularly scheduled classes except when the student experiences a genuine emergency after the regularly scheduled classes and and prior to sitting for the final examination in a given course or courses.

Withdrawal from any or all courses shall not be permitted after the final examination in that course has been given.

A student who stops attending a course (or courses) and does not officially withdraw from it (them) shall have the appropriate mark as submitted by the instructor entered on the student’s official permanent record for the course(s). Such a mark shall be based on the grading criteria used to evaluate all students in the course.

Graduate professional colleges shall formulate rules to govern withdrawal of their students from courses in their respective curricula, subject to the approval of the Council on Academic Affairs, and publish these rules in their respective bulletins.

For provision regarding return of fees, when applicable, see the quarterly Master Schedule of Classes Bulletin.
Conditions for Continued Enrollment in a Course (Faculty Rule 3335-7-33)

A. After consultation with the instructor, the chairperson of the instructor's department (or other appropriate administrative official) may dis enroll a student from a course if:

1. By the third instructional day of the quarter or the second scheduled class session of the course, whichever occurs later, the student fails to attend the scheduled course without giving prior notification to his instructor. In such cases the chairperson (or other appropriate administrative official) shall notify the student's college office. A change ticket removing the course from the student's schedule shall be prepared and copies forwarded to the student and to the Office of University Registrar. The student is not relieved of the responsibility for dropping such course in the customary way.

2. The student enrolls to audit a course without the instructor's approval, or fails to meet the prerequisites of the course, or fails to demonstrate adequate preparation as provided in Faculty Rule 3335-7-30, page 9. Disenrollment procedures shall be the same as in the preceding paragraph of this rule.

3. The student fails to meet the prerequisites of the course or fails to demonstrate adequate preparation as provided in Faculty Rule 3335-7-30, page 9. Disenrollment procedures shall be the same as in first paragraph of this rule.

B. After consultation with the instructor, students in the class, and the student in question, the chairperson (or other appropriate administrative official) may disenroll a student from a course if the student presents a clear and present threat of bodily harm or injury to the instructor or fellow students, or after warning continues to engage in disruptive conduct, either of which results in impairment of teaching or learning processes:

1. If, after attempting to resolve the difficulty by informal means, the department chairperson (or other appropriate administrative official) deems disenrollment necessary, the affected student shall be notified in writing. The notice shall be delivered by hand or sent through ordinary mail to the student at the last address supplied pursuant to Faculty Rule 3335-9-09. Copies of the disenrollment action shall be sent to the dean of the instructional college, the dean of the student's college, the Office of the University Registrar, and the Office of Student Affairs.

2. The student may appeal to the vice president for academic affairs and provost or designee for waiver of disenrollment, provided the appeal is filed within 10 days of the disenrollment action. The vice president for academic affairs and provost shall make final determination on the appeal within seven days.

3. Disenrollment is effective upon the action of the department chairperson (or other appropriate administrative official), unless reversed by the vice president for academic affairs and provost, or designee.

C. For disenrollment, exclusive of audit, the registrar shall enter on the student's official permanent record:

1. No mark, if the disenrollment occurs before five p.m. of the third Friday of a quarter (second Friday of the relevant term for summer term courses), or

2. The mark, W, if the disenrollment occurs after five p.m. of the third Friday of a quarter (second Friday of the relevant term for summer term courses).

D. If a student who has enrolled to audit a course fails to complete the requirements for audit specified by the instructor and also fails to withdraw from the course, the instructor shall so inform the Office of the University Registrar when all marks are reported for the quarter. That office will then disenroll the student from the course, removing the course from the student's permanent record, and will notify the student and the student's college of the action taken.

Classification of Students for Admission (Faculty Rule 3335-9-01)

Students shall be classified as:

- Undergraduate students: regular or special. This shall include students registered in the Colleges of Administrative Science, Agriculture, Arts, Biological Sciences, Home Economics, Humanities, Mathematical and Physical Sciences, Social and Behavioral Sciences, the University College, the division of pre-professional education of the College of Education, the pre-engineering division of the College of Engineering, and Continuing Education.

- Graduate students: regular, special, graduate nondegree, conditional, or transient. The provisional classification is used in conjunction with the regular, special, and conditional classifications.
Warning and Dismissal

Minimum Scholastic Requirements
(Faculty Rule 3335-9-23)

These requirements shall apply only to
undergraduate students. The academic
standards controlling warning, probation, and
dismissal of professional and graduate students
shall be established by rule of the faculties of
the college in which the professional student is
registered, or of the Graduate School if the
student is a graduate student, provided,
however, that an undergraduate professional
student shall not be dismissed from the
University unless he has 15 or more deficiency
points which are computed on the basis of the
entire undergraduate program.

A transfer student from another university who is
admitted to advanced standing in this university
shall have the point-hour ratio and deficiency
points computed only upon work done at this
university.

In order to remain in good academic standing in
the University, a student must maintain a
cumulative point-hour ratio of at least 2.00.
Deficiency points are applied only to the record
of students whose point-hour ratio is below 2.00
and are defined as the number of credit points a
student would have to earn to bring his point-
hour ratio up to that level. Deficiency points may
be calculated by subtracting the number of
credit points earned from twice the total number
of credit hours attempted for which calculable
grades (A, A−, B+, B, B−, C+, C, C−, D+, D, D−, E)
were given.

Academic Warning (Faculty Rule
3335-9-24)

Any student who has never attended another
college or university and who seeks to enroll as
a new freshman in this university shall be placed
on special warning when his application for
admission is received and processed if his
academic credentials indicate the probability of
low achievement. He shall be so informed before
final registration and the payment of fees are
completed, except as provided in Faculty Rule
3335-9-27. The fact that special warning has
been given shall be made known to the office of
the college or school to which he seeks
admission.

If, at the end of any quarter, a student subject
to the provisions of Faculty Rule 3335-9-23 has
accumulated fewer than 15 deficiency points, he
shall receive a warning from the dean of his
college or director of his school, except as
provided in Faculty Rule 3335-9-27.

Improper Registration

Improper Registration (Faculty Rule
3335-9-20)

Admission or registration may be cancelled in
cases of improper registration or when false or
incomplete information is provided on the
application for admission, registration forms, or
other official documents. No credits earned
subsequent to such cancellation and prior to
proper admission or registration shall be entered
upon the permanent record of the student.
Students whose admission or registration is
cancelled are not entitled to any refund of fees.

Absences

Absences (Faculty Rule 3335-9-21)

Each department or school may make its own
rules relative to occasional absences by students
from scheduled activities. If, however, a student
is absent from a course to such an extent as to
imperil his credit, or is notably irregular in
attendance, it shall be the duty of the instructor
conscensed to report the facts promptly to the
dean of the college in which the student is
enrolled. The dean may take such action as he
deems appropriate.

Professional students: regular or special. This
shall include students either regularly or specially
registered in the colleges or divisions of a
college which admit after completion of a pre-
professional curriculum.

Transient students. This shall include regular
enrollees of other institutions who with the
recommendation of their college authorities enter
this university for a brief residence (usually one
quarter) without transfer of credits.

Auditors. This shall include persons who desire
to attend classes without receiving credit for any
courses taken.
Academic Probation (Faculty Rule 3335-9-25)

Any student who has accumulated 15 or more deficiency points shall be placed on probation. The probation shall continue provided the student's college considers his progress to be satisfactory and shall be removed when the deficiency points are fewer than 15. The student shall be notified of probationary status by the dean of the college or the director of the school in which he is registered, except as provided in Faculty Rule 3335-9-27. Such notification shall include a clear statement of what shall be considered to be satisfactory progress.

Probation by special action. If at any time the preparation, progress, or success of a student in an academic program is determined to be unsatisfactory, the college or school in which the student is registered shall be empowered to place the student on academic probation. An undergraduate student admitted with conditions and who has not satisfied the conditions after earning 30 quarter credit hours through regular course enrollment as this university shall be placed on academic probation.

Requirements and definition. In order to remain in good standing in the University a student must maintain a point-hour ratio (see Faculty Rule 3335-7-26, page 7) of at least 2.00. Deficiency points are applied only to the records of students whose point-hour ratio is below 2.00 and are defined as the number of credit points a student would have to earn to bring the student's point-hour ratio up to that level. Deficiency points may be calculated by subtracting the total number of credit points earned from twice the total number of credit hours attempted for which calculable grades (A, A-, B+, B, B-, C+, C, C-, D+, D, or D-) were given.

Academic Dismissal (Faculty Rule 3335-9-26)

If the student's college or school considers a student's progress as unsatisfactory in meeting the conditions placed on his probation, the college or school shall be empowered to dismiss him from the University. An exception to this authority for undergraduate professional students shall be in accordance with Faculty Rule 3335-9-23. Notice of the dismissal shall be sent to the student by the dean of the college or the director of the school in which the student was registered for the quarter, except as provided in Faculty Rule 3335-9-27. No student shall be subject to academic dismissal unless he is currently on probation.

Notice of Dismissal (Faculty Rule 3335-9-27)

Notice of dismissal from the University shall be sent by the dean of the college in which the dismissed student is registered.

Reinstatement after Academic Dismissal (Faculty Rule 3335-9-28)

Any student who may be reinstated by a college or school following academic dismissal shall be subject to such special requirements as may be determined appropriate by the dean of the college or director of the school. If the performance record of any reinstated student does not meet the conditions of probation specified at the time of reinstatement, then the college or school in which he is registered shall determine whether the student is to be dismissed or continued on probation.

College Preparatory High School Curriculum

The Ohio State University's college preparatory high school curriculum policy applies to the admission of undergraduate degree students who enter the University Autumn Quarter 1984 and thereafter. Derived from recommendations made in the Report of the Advisory Commission on Articulation between Secondary Education and Ohio Colleges, this policy reflects Ohio State's concern that students obtain the high school academic background needed to prepare them properly for success in their college-level work.

For unconditional admission as a regular undergraduate student, applicants who graduate from high school on or after April 1, 1984, and who enter the University Autumn Quarter 1984 and thereafter, are required to have at least 15 high school units distributed in accordance with the preparatory curriculum specified here. This policy applies both to new freshmen and to transfer students who will have fewer than 90 transferable quarter credit hours at the time of their first enrollment at Ohio State.

The following college preparatory high school course work is required for unconditional admission:

English  A minimum of four units of high school course work is required in this area, with subjects taken to emphasize the acquisition of writing skills.

Mathematics  A background of not fewer than three units of college preparatory mathematics is required, to include Algebra I, Algebra II, and
geometry. Completion of one (Algebra I) of these three units while enrolled in the eighth grade is acceptable. It is strongly recommended that students schedule one unit of mathematics in their senior year of high school when possible.

Social Sciences At least two units of high school course work are required in this area.

Natural Sciences At least two units of science are required, with significant laboratory experience.

Foreign Languages Two units of course work are required in the same foreign language. Completion of one of these two units while enrolled in the eighth grade is acceptable.

Visual and Performing arts One unit of high school work earned in the visual or performing arts is required. Ohio State will accept art; cinema; clothing design and construction; dance; drafting; drama; mechanical drawing; music; oral interpretation; photography; speech; studio art; survey courses in the arts and humanities; theatre; visual arts; and certain vocational agricultural courses which include preparatory experiences in oral interpretation, speech, wood working, metal working, and design and construction.

Above-Mentioned Subject Areas One additional unit from any of the above-mentioned subject areas is required.

Students are eligible for admission without having followed this curriculum. If you are admitted with deficiencies in one or more areas, however, you will be notified of conditions placed on your enrollment when you receive notice of your admission. You will be required to satisfy the conditions of your enrollment by the time you have completed 30 credit hours at Ohio State (two quarters of full-time study). An academic adviser will help you plan your course work in order to remove any condition within the stated time.

Enrollment conditions will be satisfied by earning college credits in the subject areas of deficiency in high school preparation. Conditions in the areas of mathematics and English will be determined for new freshmen (and transfer students with no transferable credits in these subjects) by placement examinations, which will indicate any additional course work required in these subjects. In other subjects, students will be required to earn five hours of college credit in the same area of study as each college preparatory unit not completed in high school. Such credits may be earned by satisfactory completion of courses at Ohio State, by satisfactory course work at other colleges, or by examination for credit. Credit hours earned to satisfy enrollment conditions are not counted toward the minimum number of credit hours required for the particular degree program the student is pursuing.

Ohio State courses which may be used to fulfill admission conditions in foreign language, the natural sciences, the social sciences, and the visual and performing arts are indicated in the following lists. For specific course descriptions, please see the course offerings listings in this book.

Foreign Languages

Students studying foreign languages at the elementary and intermediate levels typically take the sequence of courses numbered 101-102/103-104 (including the decimal subdivisions such as 101.51, etc.) and then move on to advanced courses. Students who need to satisfy the Arts and Sciences foreign language requirement must demonstrate competence at the 104 level. The courses numbered 100.01-100.02 are for students: 1) who do not intend to take foreign language beyond the level of 100.02; 2) who do not expect to complete more than ten credit hours sequentially; 3) who prefer a slower-paced introduction (also available in 101.51, etc.). Students admitted with a foreign language condition should take the 101-102 sequence if they intend to continue in a language. Those who do not plan to take more than ten credit hours of foreign language study may take the 100.01-100.02 sequence.

100.01, 100.02, 101, 102, and 112 courses (where offered) in the following languages may be used to fulfill foreign language admission conditions:

Natural Sciences
In addition to the courses listed below, any course approved for meeting the natural sciences component of the Basic Education Requirements may be used to fulfill admission conditions.
Agriculture 200, 240, 1299
Anthropology 200
Astronomy 150, 155, 161, 182, 191, 192
Biology 105, 211, 251
Botany 117, 118, 119, 120, 121, 122, 210
Chemistry 101, 102, 121, 122, 123, 124, 125
Entomology 200, 361
Genetics 140, 201
Geography 220
Geology and Mineralogy 100, 106, 121, 122, 203, 204, 206, 210
Microbiology 301, 509
Pharmacy 270
Physics 100, 101, 102, 111, 112, 131, 132
Zoology 201, 220, 232, 235, 313

Social Sciences
In addition to the courses listed below, any course approved for meeting the social sciences component of the Basic Education Requirements may be used to fulfill admission conditions.
Administrative Science H101
Agricultural Economics 100, 110, H199
Anthropology 201, 202
Black Studies 130, 161, 222, 238, 247, 248, 261, 281, 282, 284
Business Administration: Management and Human Resources 211
Communication 115
Criminology and Criminal Justice 209, 210
Economics 100, 200, 205
Geography 200, 240
Home Management and Housing 250, 261
Journalism 101
Landscape Architecture 201
Natural Resources 101, 103, 201
Political Science 101, 105, 165, 201, 202, 210, 215
Psychology 100, 101, 210, 230, 300
Recreation Education 200
Rural Sociology 105, 110
Social Work 220
Sociology 101, 202, 206, 208, 210, 213, 220, 260, 281
Textiles and Clothing 272
Women Studies 202

Visual and Performing Arts
Architecture 200, 201, 202

History of Art 111, 121, 210, 211, 212, 216
Industrial Design 160
Landscape Architecture 200, 202, 204, 271
Music 101, 102, 141, 150, 180, 181, 182, 183, 184, 185, 186, 187, 188, 191, 195, 196, 197, 198, 199, 244
Photography and Cinema 202, 220
Physical Education 150, 151, 152, 163, 181
Speech and Hearing Science 135
Textiles and Clothing 270
Theatre 100, 200, 205, 210, 220, 221, 222, 271, 280

Curricular information

College or School Requirements
Each college or school has certain requirements which must be met by every student seeking to earn a degree in that college or school. The specific course requirements for the curricula administered by a given college or school can be found in the bulletin for that college or school. In addition to these, the University has established certain requirements outlined below.

University Required Courses

Curricular Requirements—Free Electives
(Faculty Rule 3335-7-06)

Every undergraduate curriculum must provide for a minimum of 15 hours of free electives.

Basic Education Requirements—BER
(Faculty Rule 3335-7-07)

Every undergraduate student must complete 45 hours selected to ensure acquaintance with the three basic areas of academic study: the humanities, the social sciences, and the natural sciences. A minimum of 15 hours is required in each of these three areas.

Courses which may be used to meet the BER are so designated throughout this bulletin. Not all BER courses are acceptable in all curricula. Students should consult their specific college or school publications or their advisers before scheduling courses to be applied to this requirement.

The objectives of this part of the curriculum, as set forth by the University faculty, are as follows.
Humanities. The objectives are to introduce the student to his possibilities for continuing growth as a thoughtful and reasoning person, sensitive to the aspirations and attainments of others; to acquaint him at least some degree with the treasures of human thought and expression at his command; and to develop a continuing desire to have his full share of the legacy of all creative efforts.

Natural Sciences. The objectives are to acquaint the student with the kinds of problems which lend themselves to possible solutions through the use of science; to introduce him to different scientific techniques through significant illustrative experiences; to give him a sense of perspective in the development of science; and to develop in him an understanding of the basic community of all scientific disciplines.

Social Sciences. The objectives are to ensure that the student has a basic understanding of the fundamental ideas upon which our society has been built, the social institutions through which these ideas have been given effective meaning, and the never-ending process of development through free choices limited only by concern for the rights and well-being of others. Emphasis is put upon the values of a free society and the responsibility of the individual for participating actively in the issues and decisions of the day.

University Class Ranking System

Student rank in all the undergraduate colleges is based on total credit hours completed and recorded.

Class Standing                  Credit Hours Earned  Rank
Freshman                        0 through 44            1
Sophomore                       45 through 89            2
Junior                          90 through 134           3
Senior                          135 and up              4

Rank begins anew when the student enrolls in Dentistry, Law, Medicine, Optometry, Pharmacy, Veterinary Medicine, or the Agricultural Technical Institute.

Students enrolled in the Graduate School receive the rank of either M-Master’s (0-50 earned hours) or P-PhD (51 or more earned hours or master’s degree).

Should there be any doubt concerning the correctness of one’s rank, the student should consult with the appropriate enrollment unit.

Retroactive Graduate Credit

Students registered in an undergraduate college, in Continuing Education, or in a professional college cannot receive graduate credit for courses taken when the student is not enrolled in the Graduate School.

Graduate Credit for Undergraduates

An undergraduate may petition to take certain courses for graduate credit provided that:

- the student is a senior;
- the credit for the course is not used to meet baccalaureate degree requirements;
- the student’s cumulative point-hour ratio is 3.00 or above;
- the student completes a Senior Petition form and security permission by the end of the first day of classes from: the secretary of the student’s college or school, the instructor in charge of the course, and the Graduate School; and
- the course is offered for graduate credit.

These courses may not be counted toward a graduate degree until the student has been admitted to the Graduate School, and until the Graduate Studies Committee accepts them and notifies the Graduate School. The hours are counted in the student’s graduate earned and cumulative credit hours, and the grades are counted in the student’s graduate cumulative point-hour ratio. Not more than 15 graduate credit hours may be completed under the Senior Petition.

Degrees and Certificates (Faculty Rule 3335-9-29)

Degrees and certificates shall be awarded undergraduate and professional students by the Board of Trustees upon recommendation of the college or school faculties and the University Senate, transmitted to the board by the president.

Degrees and certificates shall be awarded graduate students by the Board of Trustees upon recommendation of the Graduate Council and the University Senate, transmitted to the board by the president.

Requirements for the Associate of Arts Degree

To obtain the Associate of Arts degree, undergraduate students who have attended, or are attending, the Lima, Mansfield, Marion, or Newark campuses must:

- Successfully complete at least 90 quarter credit hours of university credit.

These 90 hours of credit may include a maximum of 12 quarter hours of special technical credit. Remedial courses (English 050, 051, 060, 100.01, 100.02, and 100.03; Math 050, 100, and 102; and courses listed in the Course Offerings Bulletin as not counting toward the baccalaureate degree) may not be applied.
Level IV placement or Course Code S on the Ohio State Math Placement Exam or the completion of Math 950 or 100 is required. University College 100, if required, must be completed before the degree is granted.

- Successfully complete a core of 50 hours of requirements (with no overlap between areas) distributed as follows: English 110 or 111 (5), humanities (10-15), foreign language (0-10), social science (10-15), natural science (10-15), and analytical skills/mathematics (0-10).

Courses used to satisfy the humanities, social science, and natural science components must be chosen from the lists of courses approved for those components of the University Basic Education Requirements. Similarly, courses used to satisfy the foreign language and analytical skills components must be chosen from the list of courses approved for the Liberal Arts Core requirement.

Liberal Arts Requirements of the Colleges of the Arts and Sciences components I, II, and III respectively. If a student should decide to pursue a baccalaureate degree after obtaining the Associate of Arts degree, the student would be required to fulfill the Basic Education Requirements of the degree-granting enrollment unit. In accordance with Faculty Rule 3335-7-21, the Pass/Non-Pass Option may not be used for any of the core courses.

- Maintain a cumulative point-hour ratio of at least 2.00 on all work attempted at Ohio State at the time of, or after the completion of, all other requirements.

- Complete 30 of the last 45 quarter credit hours through regular course enrollment at Ohio State.

- Complete 15 of the required 90 quarter credit hours on a regional campus.

- Complete a minimum of three quarter credit hours in regular course enrollment at Ohio State Summer Quarter 1980 or thereafter.

- Not have received a baccalaureate or a professional degree from an accredited institution.

- Have filed an application for the degree in accordance with rules and procedures prescribed by the Colleges of the Arts and Sciences. Application must be made within four years after the requirements have been completed, assuming no other degrees have been awarded in the interim.

Requirements for an Undergraduate Baccalaureate Degree (Faculty Rule 3335-9-30)

To obtain an undergraduate baccalaureate degree from this university, an undergraduate student must:

- Have earned a minimum of 45 quarter hours credit through regular course enrollment at this university.

- Have been enrolled in the college, the Colleges of the Arts and Sciences, or the school recommending that degree during the last quarter necessary to complete degree requirements. The executive committee of the college, the Colleges of the Arts and Sciences, or the school recommending the degree may, upon petition by the student, waive this requirement.

- Have satisfactorily completed the number of credit hours required for the curriculum being pursued. The minimum number of credit hours required in each curriculum shall include the credit hours required under Faculty Rules 3335-7-06 and 3335-7-07 (page 14). Credit hours required to satisfy admission conditions shall not be used to satisfy the requirements of Faculty Rules 3335-7-06 and 3335-7-07. Credit hours are considered as “satisfactorily completed” only if the student has received, at this university, the mark A, A-, B+, B, B-, C+, C, C-, D+, D, D-, EM, K, PA, or S in those hours.

- Have earned credit points (Faculty Rule 3335-7-25) totaling at least twice the number of credit hours attempted at this university for which calculable grades (A, A-, B+, B, B-, C+, C, C-, D+, D, or E) were given.

- Have satisfactorily met all additional college and curricular requirements for the degree involved.

- Have filed an application for the degree in accordance with rules prescribed by the college or school.

Except as provided in the second paragraph above, waiver of any part of this rule (3335-9-30) in the case of individual students may be made only by the Council on Academic Affairs following prior approval by the appropriate executive committee. The vice president for academic affairs and provost shall transmit all affirmative actions of the Council on Academic Affairs under this section to the secretary of the student’s college and to the University registrar for notation on the student’s permanent record.
Requirements for a Graduate Degree (Faculty Rule 3335-9-31)

To obtain a graduate degree from this university, a graduate student must have met the minimum requirements established by the Graduate Council and approved by the Board of Trustees, and have filed an application for the degree in accordance with rules prescribed by the Graduate Council.

Requirements for a Professional Degree (Faculty Rule 3335-9-32)

To obtain a professional degree from this university, a student must meet the minimum requirements established by the college or school recommending the degree. In establishing such minimum requirements, the college or school shall include or exceed the minimum requirements stipulated by the appropriate accrediting body. Such graduation requirements shall be subject to approval by the Council on Academic Affairs and shall be filed with the secretary of the Board of Trustees.

Waiver of minimum requirements may be made by the faculty of the college or school recommending the degree or by a committee approved by that faculty. Requests for such waiver may be initiated by student petition or by the dean or director. The Council on Academic Affairs shall be notified at least quarterly of each such action.

Requirements for Certificate of Study (Faculty Rule 3335-9-321)

A certificate of study may be awarded concurrent with or following the student's receipt of a baccalaureate degree. Award of such certificates shall attest to demonstrated competence in a coherent academic curriculum, program, or area of study.

To obtain a certificate a student must:

- Have earned the mark of A, A–, B+, B, B–, C+, C, or C– for all courses counted toward completion of the certificate requirements.
- Have attained an undergraduate cumulative grade point average of 2.00 (or a graduate cumulative grade point average of 3.00, as appropriate) in courses used to satisfy the certificate program requirements.
- Have satisfactorily met all additional college or school requirements for the certificate involved.
- Have filed an application for the certificate in accordance with rules prescribed by the college, Colleges of the Arts and Sciences, or school.

Waiver of any part of this rule in the case of individual students may be made only by the Council on Academic Affairs upon recommendation of the executive committee of the college, colleges, or school. The vice president for academic affairs and provost shall transmit all affirmative actions of the Council under this section to the secretary of the student's enrollment unit and to the registrar for notation on the student's permanent record.

The Colleges of Dentistry, Law, Medicine, Optometry, and Veterinary Medicine, and the Graduate School may establish requirements and conditions, rather than those above, for certificates of study. Such requirements must be approved by the Council on Academic Affairs.

Authority for approval of all certificate programs shall rest with the Council on Academic Affairs. Proposals for graduate certificates must also receive the approval of the Graduate Council. The president of the University and the University Senate shall be regularly informed of Council actions in this regard.

Standards for Honors at Graduation (Faculty Rule 3335-9-33)

Degrees Cum laude and Summa cum laude may be granted for exceptional achievement in the curriculum of each enrollment unit as judged by that unit in terms of its own standards providing that the number of students accorded these honors does not exceed 10 per cent, and that the number of students accorded Cum laude does not exceed three per cent, of the graduating classes of the enrollment unit and that eligibility for these honors be based on a minimum of 90 credit hours of work at this University.

Standards for graduation "with distinction in [special subject(s)]" and "with honors in [ ]" shall be as adopted by the Council on Academic Affairs.

Beyond these minimal requirements the enrollment units may establish additional stipulations for graduation Cum laude and Summa cum laude.
Requirements for a Graduate Degree (Faculty Rule 3335-9-31)

To obtain a graduate degree from this university, a graduate student must have met the minimum requirements established by the Graduate Council and approved by the Board of Trustees, and have filed an application for the degree in accordance with rules prescribed by the Graduate Council.

Requirements for a Professional Degree (Faculty Rule 3335-9-32)

To obtain a professional degree from this university, a student must meet the minimum requirements established by the college or school recommending the degree. In establishing such minimum requirements, the college or school shall include or exceed the minimum requirements stipulated by the appropriate accrediting body. Such graduation requirements shall be subject to approval by the Council on Academic Affairs and shall be filed with the secretary of the Board of Trustees.

Waiver of minimum requirements may be made by the faculty of the college or school recommending the degree or by a committee approved by that faculty. Requests for such waiver may be initiated by student petition or by the dean or director. The Council on Academic Affairs shall be notified at least quarterly of each such action.

Requirements for Certificate of Study (Faculty Rule 3335-9-321)

A certificate of study may be awarded concurrent with or following the student's receipt of a baccalaureate degree. Award of such certificates shall attest to demonstrated competence in a coherent academic curriculum, program or area of study.

To obtain a certificate a student must:

- Have been or be enrolled in the University during the last quarter of work necessary to complete the certificate requirement. In addition, the student must meet any residency requirement established by the college, the Colleges of the Arts and Sciences, or the school recommending the certificate.
- Have earned through regular course enrollment a minimum of 45 quarter hours credit in an approved certificate program. No certificate program shall require enrollment in and credit for more than 90 quarter hours. At least one-third of all quarter hours credit earned in a certificate program shall be at the 500-level or above. No more than five credits hours in the certificate program may be counted toward the student's undergraduate major or minor. Credit hours used to fulfill the requirements for one certificate may not be counted toward any other certificate.
- Have earned the mark of A, A−, B+, B, B−, C+, or C− for all courses counted toward completion of the certificate requirements.
- Have attained an undergraduate cumulative grade point average of 2.00 (or a graduate cumulative grade point average of 3.00, as appropriate) in courses used to satisfy the certificate program requirements.
- Have satisfactorily met all additional college or school requirements for the certificate involved.
- Have filed an application for the certificate in accordance with rules prescribed by the college, Colleges of the Arts and Sciences, or school.

Waiver of any part of this rule in the case of individual students may be made only by the Council on Academic Affairs upon recommendation of the executive committee of the college, colleges, or school. The vice president for academic affairs and provost shall transmit all affirmative actions of the Council under this section to the secretary of the student's enrollment unit and to the registrar for notation on the student's permanent record.

The Colleges of Dentistry, Law, Medicine, Optometry, and Veterinary Medicine, and the Graduate School may establish requirements and conditions, rather than those above, for certificates of study. Such requirements must be approved by the Council on Academic Affairs.

Authority for approval of all certificate programs shall rest with the Council on Academic Affairs. Proposals for graduate certificates must also receive the approval of the Graduate Council. The president of the University shall be regularly informed of Council actions in this regard.

Standards for Honors at Graduation (Faculty Rule 3335-9-33)

Degrees cum laude and summa cum laude may be granted for exceptional achievement in the curriculum of each enrollment unit as judged by that unit in terms of its own standards providing that the number of students accorded these honors does not exceed 10 per cent, and that the number of students accorded summa cum laude does not exceed three per cent, of the graduating classes of the enrollment unit and that eligibility for these honors be based on a minimum of 90 credit hours of work at this University.

Standards for graduation “with distinction in [special subject(s)],” and “with honors in [ ]” shall be as adopted by the Council on Academic Affairs.

Beyond these minimal requirements the enrollment units may establish additional stipulations for graduation cum laude and summa cum laude.
Course Offerings

Course information (title, credit hours, level, description, etc.) starts on page 21. The most current information regarding new courses, changes to existing courses, credit hours, sections, days, times, buildings, room, and instructors may be found in the quarterly Master Schedule of Classes Bulletin.

A Sample Course Listing

A  4441+ Principles of Animal Nutrition  U 5

B  A study of fundamental principles of nutrition in mammals and birds.

C  Su (1st term), Au, Wi, Sp Qtrs. 4 cr, 1 2-hr lab. H444 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: Chem 102 or 122 and Math 148 or equiv. Not open to students with credit for Animal Sc 444 or Poultry Sc 444. Open only to majors in animal nutrition. Repeatable to a maximum of 10 cr hrs; subdivisions not repeatable. Crosslisted in Animal Science and Poultry Science. BER course.

D  444.01 Principles of Animal Nutrition I
    444.02 Principles of Animal Nutrition II

Explanation of a Course Listing

A  4441+ Principles of Animal Nutrition  U 5

Course number: 444
A dagger (†) denotes that the course will not be offered this year. An asterisk (*) indicates that the course is offered every other year.
Course title: Principles of Animal Nutrition
Instructor Level: U
U = Undergraduate
UG = Advanced undergraduate and graduate
G = Graduate
P = Professional
Credit hours: 5

B  A study of fundamental principles of nutrition in mammals and birds.

Course description: A study of fundamental principles of nutrition in mammals and birds.

C  Su (1st term), Au, Wi, Sp Qtrs. 4 cr, 1 2-hr lab. H444 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: Chem 102 or 122 and Math 148 or equiv. Not open to students with credit for Animal Sc 444 or Poultry Sc 444. Open only to majors in animal nutrition. Repeatable to a maximum of 10 cr hrs; subdivisions not repeatable. Crosslisted in Animal Science and Poultry Science. BER course.
Quarters of offering: Su (1st term), Au, Wi, Sp
Su = Summer
Au = Autumn
Wi = Winter
Sp = Spring

Classroom and laboratory hours: 4 cl, 1 2-hr lab.
Course credit is earned through satisfactory completion of course work which may involve classroom, laboratory, bio-learning center, computer-assisted instruction, or field trip attendance.

Honors statement: H444 (honors) may be available to students enrolled in an honors program or by permission of dept.

Prerequisite(s): Chem 102 or 122 and Math 148 or equiv.
The course number(s) or other information indicates the preparation or classification required to enroll in the course. If no department name is listed, the number(s) refers to the specific course within the same department. If a class standing (freshmen, sophomore, junior, senior) or rank (1st, 2nd, 3rd, 4th yr standing) is listed, only students with that or higher level are eligible for enrollment. Enrollment in a course requires the successful completion of all prerequisites or their equivalents. The department, school, or college office should be consulted in cases of question of eligibility to take a course.

Additional information affecting enrollment: Not open to students with credit for Animal Sc or Poultry Sc 444. Open only to majors in animal nutrition.

Repeatability clause: Repeatable to a maximum of 10 cr hrs; subdivisions not repeatable.
Indicates the maximum number of hours a course may be repeated for credit.

General information clause: Cross listed in Animal Science and Poultry Science (meaning this same 444 is also listed in these two academic areas).

Gives general information about the course.

BER Courses: Courses which may be used to meet the University's Basic Education Requirement (BER) are so designated throughout this bulletin. Not all BER courses are acceptable in all curricula. Students should consult their specific college or school publications or their advisers before scheduling courses to be applied to this requirement.

FL, NS, SS, and VPA Adm CoC Cond Courses: Courses which may be used to fulfill admission conditions are so designated throughout this bulletin. For additional information, see page 12.
University Classification and Course Numbering System (Faculty Rule 3335-7-05)

Established 1967-68 (revised 1974-75), the system of numbering courses offered by the University is as follows:

000-099  Non-credit courses (except certain seminars and colloquia) for orientation, remedial, or other noncollege-level experiences. These are courses with credit added to graduation requirements.

100-199  Basic courses providing undergraduate credit, but not to be counted on a major or field of specialization in any department. Courses at this level are beginning courses, required or elective courses that may be prerequisite to other courses.

200-299  Basic courses providing undergraduate credit and may be counted on a major or field of specialization.

300-499  Intermediate courses providing undergraduate or basic professional credit that may be counted on a major or field of specialization.

500-599* Intermediate courses providing undergraduate or professional credit that may be counted on a major or field of specialization, and may provide graduate credit only in other departments.

600-699* Courses providing undergraduate or professional credit that may be counted on a major or field of specialization, and may provide graduate credit (in all departments).

700-799* Advanced courses providing undergraduate, graduate, or professional credit.

800-999* Courses providing graduate credit and are open to undergraduates only with the consent of the dean of the Graduate School.

* Courses for which graduate credit is anticipated must be taught by a member of the faculty approved by the graduate committee of the department offering the course. 800- and 900-level courses must be taught by members of the graduate faculty.
Accounting

201 Outline of Accounting U 5
Introduction to accounting in modern business; topics include financial statement development, interpretation and analysis in various decision-making contexts.
Su, Au, Wi, Sp Qtrs. A, N. Not open to students with credit for 211 or equiv. Intended for students whose major is in fields other than business.

211 Introduction to Accounting U 5
The uses of accounting reports for business entities; focus on the uses of accounting for external reporting, emphasizing accounting as a provider of financial information.
Su, Au, Wi, Sp Qtrs. 5 cr. H211 (honors) may be available to students enrolled in an honors program or by permission of faculty. Prereq or cond. Econ 200 or equiv. Not open to students with credit for 201 or equiv. This course is available for EM credit.

212 Introduction to Accounting U 5
The uses of accounting reports in management decisions and in control of business operations.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 25 cr. This course is graded S/J.

493 Individual Studies U 1-10
Individual study projects in selected areas in accounting.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr. This course is graded S/J.

494 Group Studies U 1-10
Group study projects in selected areas in accounting.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr. This course is graded S/J.

H519 Honors Financial Accounting II U 5
Application of accounting techniques and theory to recording and reporting of data in accordance with generally accepted accounting principles.
Sp Qtr. 5 cr. Not open to students with credit for H522.

H520 Honors Financial Accounting III U 5
Principles and procedures of accounting for the assets, liabilities, and shareholder equity of an incorporated business.
Au Qtr. 5 cr. Prereq: H519. Not open to students with credit for 521, 522, 523, and H523.

521 Financial Accounting I U 5
Introduction to financial accounting theory and techniques for professionals; emphasis on determination of income in accordance with generally accepted accounting principles.
Su, Au, Sp Qtrs. 3 cr. Prereq: 521.

522 Financial Accounting II U 5
Application of accounting techniques and theory to recording and reporting of financial data; emphasis on collection, summarization, and reporting of data in accordance with generally accepted accounting principles.
Su, Au, Wi Qtrs. 3 cr. Prereq: 521.

523 Financial Accounting III U 5
Principles and procedures of accounting for the assets, liabilities, and shareholder equity of an incorporated business.
Wi, Sp Qtrs. 3 cr. Prereq: 522.

525 Cost Accounting U 5
Basic concepts and techniques of industrial accounting; historical and standard costs; budgeting; management use of cost accounting information.
Su, Au, Wi, Sp Qtrs. 5 cr. H525 (honors) may be available to students enrolled in an honors program or by permission of faculty. Prereq: 522 or equiv.

531 Computer Accounting in Business U G 5
The design and control of computer based accounting information processing systems.
Su, Au, Wi, Sp Qtrs. 2 hr. H531 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 522 and CPTR/INF 211. Not open to students with credit for 631.

532 Analysis and Design of Accounting Information Systems U G 5
Technical foundation in computer based (accounting) information systems.
Au, Wi, Sp Qtrs. 5 cr. H532 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 212 and CPTR/INF 212. Not open to students with credit for 531.

535 Advanced Cost Accounting U G 4
Advanced study of selected applications of cost accounting concepts to management problems involving performance measure with emphasis on depreciation control and standard costing.
Sp Qtr. 4 cr. Prereq: 525 or equiv.

624 Advanced Accounting U G 4
A continuation of 523 with special emphasis on the accounting entity, business combinations and current accounting controversies.
Su, Au, Wi Qtrs. 4 cr. Prereq: 523 or equiv. Not open to students with credit for 524.

625 Management Consulting U G 4
Examination of the consulting engagement, firm, and profession; emphasis on the format, professional consulting arena.
Wi Qtr. 2 hr. Prereq: Permission of instructor.

626 Tax Accounting I U G 4
Fundamentals of federal, state, and local taxation, with major emphasis upon the federal income tax provisions having common application to all types of taxpayers.
Su, Au, Wi Qtrs. 4 cr. Prereq: 201 or 212 or equiv.

627 Auditing Principles and Procedures U G 4
Basic concepts and standards of auditing; audit procedures and working papers; internal and external audit reports.
Su, Au, Wi, Sp Qtrs. 4 cr. Prereq: 525 or 624 or equiv.

629 Accounting Practice U G 4
A study of the accounting concepts and standards underlying corporate and non-corporate financial statements, including consideration of typical accounting problems.
Au Qtr. 4 cr. Prereq: 525 or equiv.

630 Tax Accounting II U G 3
A study of the accounting concepts and standards underlying corporate and individual income taxation confronting the professional tax adviser, emphasizing the structure of tax provisions and opportunities for planning and control.
3 cr. Prereq: 522 and 626 or equiv.

486 Tax Research Seminar U G 3
Case studies requiring an in-depth examination of the tax aspects of situations frequently encountered by businesses and individuals.
3 cr. Prereq: 528 and permission of instructor.

693 Individual Studies U G 2-5
Individual reports on selected accounting problems in the following fields of accounting; registration for this course number to be followed by the letter designating the field of study.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr. This course is graded S/J.

694 Group Studies U G 2-5
Registration to be followed by the letter designating the field of study.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr. This course is graded S/J.
711 Financial Accounting U G 4
A survey of the principles and methods by which financial information about an organization is prepared and disseminated primarily for external users; analysis and interpretation of financial data.
Au, 16. Sp Qtr's 2 or 3 cl. Prereq: Grad standing or permission of Office of Graduate Business Programs. Not open to students in revised MBA or in Executive MBA.

712 Introduction to Management Accounting U G 3
Continuation of 711.
3 cl. and 3 cr. Prereq: Approval of the Office of Graduate Business Programs.

811 Management Accounting G 3
An examination of the use of accounting information in managing an organization; cost determination and analysis; economic decision-making; business planning and control over operations and property.
Su, Wi Qtr's. 2 1/2-hr cl. Prereq: 711 or equiv. Not open to grad students in acctg.

823 Managerial Accounting for Decision Making G 4
Cost systems with emphasis on the appropriate application of system outputs to management decisions.
Wi Qtr's 2 2-hr cl. Prereq: 811 or MBA 801 or permission of instructor.

824 Corporate Financial Reporting G 4
An examination of major aspects of external financial reporting for corporations required by either generally accepted accounting principles and/or disclosure regulations for traded securities.
Au Qtr's 2 2-hr cl. Prereq: 811 or MBA 801 or permission of instructor.

825 Managerial and Social Role of Auditing G 4
Use of audits and internal accounting controls as tools of management control; the economic and social significance of auditing, how auditors perform their functions.
2 2-hr cl. Prereq: 811, MBA 801, or permission of instructor.

826 Tax Planning for Managerial Decision Making G 4
Examination of the impact of taxes on several important business decisions; recognition of tax problems and planning opportunities.
Au Qtr's 2 2-hr cl. Prereq: 811 or MBA 801 or permission of instructor.

827 Management Control Systems G 4
Focuses on how a chief executive goes about designing, implementing, and revising those ongoing formal systems used to monitor and control the firm's performance.
Sp Qtr's 2 2-hr cl. Prereq: 811 or MBA 801 or permission of instructor.

831 Accounting Systems G 3
The principles underlying the design and installation of accounting systems.
Wi Qtr's 3 cl. Prereq: 811 or written permission of instructor.

8441 Financial Accounting Theory G 3
Intensive study of theories of income measurement and asset valuation.
2 1/2-hr cl. Prereq: 524 or written permission of instructor.

845 Controllership G 3
The accounting executive's role in the management of an enterprise; accounting data for planning, coordination, control, and protection.
Wi Qtr's 3 cl. Prereq: 811 or written permission of instructor.

847 Advanced Auditing G 5
Growth of the auditor's liability and its effects on auditing procedures; advanced auditing problems; discussion of current material affecting the auditing profession.
Sp Qtr's 3 cl. Prereq: 527 or equiv.

848 Financial Accounting Standards G 3
Generally accepted accounting standards and the standard-setting process.
Su Qtr's 1 1/2-hr cl. Prereq: Permission of instructor.

852 Governmental and Non-Profit Accounting G 3
The application of accounting principles to governments and other not-for-profit entities; problems relating to funds, appropriations, and budgetary controls.
Sp Qtr's 3 cl. Prereq: 711 or written permission of instructor.

853 Accounting Policies of Regulatory Agencies G 3
3 cl. Prereq: 30 or hrs in acctg or equiv.

854 Accounting Aspects of Business Policy Determination G 3
Case studies with particular attention to accounting analysis and application thereof to business problems.
3 cl. Prereq: 811 or written permission of instructor.

861 Seminar in Accounting G 3
Su, Au, Wi, Sp Qtr's. Repeatable to a maximum of 9 or hrs.

894 Group Studies G 1-5
Su, Wi, Sp Qtr's. Prereq: Permission of instructor.

998 Research in Accounting: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr's. This course is graded S/U.

999 Research in Accounting: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtr's. This course is graded S/U.

Administrative Science

126 Hagerty Hall, 1775 College Road, 422-2715

H101 Business and Society U 3-5
A critical examination of the socioeconomic framework of business; seminar discussion of selected readings. Georges.
Wi Qtr's 3-5 cl. Prereq: Fresh or soph standing, and approved application for Administrative Science Honors Program. SS Adms Cond course.

501 Business Career Planning U 1
Discussion of business careers, employment trends in business, and conducting an effective employment campaign through resumes, cover letters, and interview techniques.
Au, Wi, Sp Qtr's. 1 cl. Prereq: Jr standing. Not open to students in career interviewing status.

Aeronautical and Astronautical Engineering

328 Civil and Aeronautical Engineering Building, 2036 Neil Avenue Mall, 422-3591

200 Elements of Aeronautics and Astronautics U 4
An introduction to the aerodynamics, propulsion, structural design, stability, and control of flight vehicles; emphasis on the mechanics of fluids.
Au, Wi Qtr's 3 cl. 1 2-hr lab. Prereq or conc: Math 152. Physics 131, and a minimum cumulative pc/hr ratio of 2.0. This course is available for EM credit.
201 Elements of Aeronautics and Aeronautics U 4
A continuation of 200 with emphasis on aircraft propulsion and flight performance.
Wi Qtr. 3 cl, 1 2-hr lab. Prereq. 200 and a minimum cumulative pt-hr ratio of 2.00. This course is available for EM credit.

202 Elements of Aeronautics and Aeronautics U 4
A continuation of 201 with emphasis on static stability and control and airloads. Introduction to astronautics.
Sp Qtr. 3 cl, 1 2-hr lab. Prereq. 201 and a minimum cumulative pt-hr ratio of 2.00. This course is available for EM credit.

416 Design of Flight Vehicles U 3
Continued design work on vehicle developed in 515.
Sp Qtr. 3 2-hr labs. Prereq. 515.

505 Thermodynamics U G 4
Introduction to the properties and behavior of aerodynamic fluids from microscopic and macroscopic points of view.
Au Qtr. 4 cl. Prereq. 201, Math 415, and En Graph 200 or equiv.

510 Aeronautical Laboratory U 4
Laboratory demonstrations and experiments in aerodynamics, aeroelasticity, propulsion, and structures of flight vehicles.
Au, Sp Qtrs. 2 cl, 2 3-hr labs. Prereq. 540; concur 550.

515 Preliminary Design of Flight Vehicles U 4
Wi, Sp Qtrs. 2 cl, 2 3-hr labs. Prereq. 520, 550, and 560.

520 Flight Vehicle Dynamics U G 4
Introduction to the concept of dynamic stability and to the dynamics of rigid aircraft and satellite vehicles.

530 One-Dimensional Gasdynamics U G 4
One dimensional compressible flow including chemical reactions.
Wi Qtr. 4 cl. Prereq. 505.

539 Flight Vehicle Structures I U G 4
Load distributions, temperature distributions, and allowable stresses for flight vehicle structures; derivations of basic equations for analysis of flight vehicle structural components.
Au Qtr. 4 cl. Prereq. 202, En Mech 450, and Math 415.

540 Flight Vehicle Structures II U G 4
Stress analysis of flight vehicle structures.
Wi Qtr. 4 cl. Prereq. 539 and concur. 580 and En Graph 200 or equiv.

541 Structural Design of Flight Vehicle Components U G 4
Design of joints, tension, bending, shear, and compression members; diagonal tension field beams, box beams, and pressure structures.
Wi, Sp Qtrs. 2 cl, 2 3-hr labs. Prereq. 540.

550 Principles of Flight Vehicle Propulsion U G 4
Functional characteristics and performance of rocket, ramjet, turbojet, turbo propeller, pulse jet, and hybrid engines.
Sp Qtr. 4 cl. Prereq. 530.

560 Classical Aerodynamics U G 4
Fundamentals of steady incompressible, non-viscous aerodynamic flows with applications to airfoils and finite wings.
Sp Qtr. 4 cl. Prereq. 530.

561 Compressible Aerodynamics U G 4
The fundamentals of the aerodynamics of compressible fluids.
Au Qtr. 4 cl. Prereq. 530, 550, and 560.

565 Elements of Fluid Dynamics U G 4
Mathematical fluid dynamics including sound waves, kinematics, vorticity, boundary layer theory, turbulence; applications to atmospheric fluid dynamics and other interdisciplinary areas such as atmospheric fluid dynamics and biofluid dynamics.
Au Qtr. Prereq. 505, Math 415 or 255. Not for credit for students majoring in aero eng. Intended for students interested in interdisciplinary areas.

570 Viscous Flow and Heat Transfer U G 4
Fundamentals of viscous flow, laminar and turbulent boundary layers, aerodynamic heating, effects of body forces and elements of radiative transfer.
Au Qtr. 4 cl. Prereq. 530.

580 Mathematical Methods in Aeronautical and Astronautical Engineering U G 4
Application of selected topics in mathematics to analysis in the two of aeronautical and astronautical engineering.
Wi Qtr. 4 cl. Prereq. En Graph 200 or equiv, and Math 415 and 416.

612 Aircraft Flight Test Engineering U G 4
A determination of the performance, stability, controllability, and handling qualities of general aviation aircraft through flight tests.
Sp Qtr. 3 cl, 1 2-hr lab. Prereq. 520 and 560, or equiv with permission of instructor.

615 Computer Aided Airfoil and Wing Design U G 4
Design and analysis of subsonic airfoils and wings utilizing computer aided design techniques.
Sp Qtr. 3 cl, 1 2-hr lab. Prereq. 580 and En Graph 200, or equiv.

620 Aircraft and Spacecraft Automatic Control Systems I U G 4
Control theory as applied to analysis and design of flight control systems; components of automatic flight control systems.
Wi Qtr. 4 cl. Prereq. 520, 540, and Elec Eng 500.

625 Aircraft and Spacecraft Automatic Control Systems II U G 4
Control theory as applied to analysis and design of control systems for complex flight structures; interaction between structural flexibility and control systems.
Sp Qtr. 4 cl. Prereq. 620.

693 Individual Studies in Advanced Aeronautical and Astronautical Engineering U G 2-10
Special studies in aeronautical and astronautical engineering in one or more areas, including aircraft structures, aerodynamics, propulsion, flutter and vibration, and stability and control.
Su, Au, Wi, Sp Qtrs. Prereq. Written permission of dept. Repeatable to a maximum of 15 or hrs. This course is graded S/J/U.

694 Group Studies in Aeronautical and Astronautical Engineering U G 1-15
Su, Au, Wi, Sp Qtrs. Prereq. written permission of dept. Repeatable to a maximum of 15 or hrs.

720 Stability and Control of Flight Vehicles U G 4
Sp Qtr. 4 cl. Prereq. 520.

725 Analytical Dynamics of Astronautics U G 4
Satellite orbit analysis and multi-staging of rockets.
Sp Qtr. 4 cl. Prereq. 650 or En Mech 415 or equiv with written permission of instructor.

745 Aerelasticity I U G 4
Dynamic loads analysis of elastic flight vehicles subjected to unsteady airloads.
Wi Qtr. 4 cl. Prereq. 540 and 560.
751 Advanced Propulsion U G 4
Characteristics and performance of air-breathing flight vehicle power plants and their components (inlets, turbo-machinery, combustors, and expansion nozzles).
Au Qtr. 4 cl. Prereq: 500.

760 Advanced Compressible Flow U G 4
Two-dimensional supersonic flow theories. Wi Qtr. 4 cl. Prereq: 561 or equiv.

761 Advanced Aerodynamics U G 4
Predictions of pressure distributions, forces, and moments of lifting configurations. Sp Qtr. 4 cl. Prereq: 760.

765 Fundamentals of Atmospheric Dynamics U G 4
Advanced level of treatment of basic topics in the dynamics and thermodynamics of atmospheric motion. Wi Qtr. 4 cl. Prereq: 565 or 570.

771 Aerodynamics of Viscous Compressible Flows U G 4
Analysis of laminar and turbulent boundary layers in high speed flows. Wi Qtr. 4 cl. Prereq: 570.

775 Hypersonic Flows I U G 4
Introduction to the analysis of inviscid hypersonic flow fields. Wi Qtr. 4 cl. Prereq: 561.

800 Theory of Deformation and Flow G 4
General treatment of the basic principles underlying the mechanics of deformable media from both macroscopic and microscopic points of view. Burggraf and Foster. Wi Qtr. 4 cl. Prereq: 540, 560, and 570 or equiv. Required of all first yr grad students.

802* Analytical Methods in Engineering I G 4
Advanced methods for solution of partial differential equations with applications to fluid dynamics and heat transfer; topics include Green's function, method of characteristics, and asymptotic solutions. Sp Qtr. 4 cl. Prereq: 560 and 580; or equivs.

803 Analytical Methods in Engineering II G 3
Continuation of 802 with emphasis on the solution of singular perturbation problems as they arise in fluid mechanics. Burggraf and Foster. Au Qtr. 3 cl. Prereq: 802.

805 Aerodynamics of Chemically Reacting Fluids G 3
The aerodynamics of one-dimensional compressible flow with chemical reactions and wave propagation. Edse. Au Qtr. 3 cl. Prereq: 505 or equiv.

810 Flight Vehicle Performance Analysis G 3

820 Advanced Flight Vehicle Stability and Control G 3
Advanced studies in stability of systems, non-linear systems, Liapunov method, dynamics in extra-terrestrial atmospheres, new control methods. Au Qtr. 3 cl. Prereq: 720.

842 Advanced Structures for Flight Vehicles G 3
Advanced analysis and design of aircraft structures and/or structural components including thermal, inertial, and buckling effects. Bailey. Au, Wi, Sp Qtrs. 3 cl. Prereq: 540 or equiv. Repeatable to a maximum of 9 or hrs.

850 Non-Equilibrium Flow Dynamics G 3
Relaxation, dissociation, waves (sound, shock) nozzle flow and design collisional energy transfer in gases. Edse and Petrie. Au Qtr. 3 cl. Prereq: 530 or equiv.

851 Advanced Propulsion Problems G 3
Combustion instability, free radicals as energy source, space propulsion problems, noise of exhaust jets, energy conversion, solid propellants, heat transfer in rocket engines, and cascade theory. Edse. Au, Wi, Sp Qtrs. 3 cl. Prereq: 751. Repeatable to a maximum of 9 or hrs.

860 Advanced High Speed Aerodynamics G 3
Supersonic and hypersonic aerodynamics, unsteady aerodynamics, transonic flows, transient wave phenomena, non-equilibrium gasdynamics. Burggraf, Lee, and Petrie. Au, Wi, Sp Qtrs. 3 cl. Prereq: 761. Repeatable to a maximum of 9 or hrs.

861 Advanced Boundary Layer and Heat Transfer Theory G 4
Advanced topics in the areas of boundary layer and heat transfer phenomena. Burggraf, Foster, and Lee. Wi, Sp Qtrs. 4 cl. Prereq: 771 and 800; or permission of instructor. Repeatable to a maximum of 8 or hrs.

865 Advanced Viscous Flow Theory G 4
Three-dimensional viscous flow at low and high Reynolds number; stability theory; statistical theories of turbulence. Burggraf, Foster, and Lee. Au Qtr. 4 cl. Prereq: 771 and 800.

868 Molecular Theory of Gas Flows G 3

870 Aerodynamics of Plasmas G 3
The governing equations of magnetofluidmechanics, similarity laws, and applications to continuous plasma problems of interest in aerodynamics. Petrie. Wi Qtr. 3 cl. Prereq: 560 and Elec Eng 810 or equiv.

880 Seminar G 1
Su, Au, Wi, Sp Qtrs. 1 2-hr cl. Repeatable to a maximum of 15 or hrs. Required of all grad students in aero eng each qtr.

889 Advanced Topics in Aeronautical and Astronautical Engineering G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 15 or hrs.

894 Group Studies in Aeronautical and Astronautical Engineering G 1-15
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.

999 Research in Aeronautical and Astronautical Engineering G Arr
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Agricultural Economics

103 Agricultural Administration Building, 2120 Fyffe Road, 422-7511

100 Food, Fiber, and Natural Resource Economics U 5
Economic principles applied to production, marketing, and consumption of food, fiber products, and related goods and services; implications for agricultural community, and natural resource management. Adams, Hines, and Wassel. Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for H199 or Econ 200. This course is available for EM credit. BER course. SS Advise Cond course.
110 Socio-Economic Systems in Rural America U 5
A study of our rural socio-economic systems, the individual’s interaction within these systems, and the impact of social decisions on resource use and control. Shaudys, Stout, and Thomas.
Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for Rural Soc 110. Cross-listed in Rural Sociology. This course is available for EM credit. SS Admis Cond course.

H199 Agricultural Economics in a Changing World U 5
A study of basic economic principles as applied to agricultural production, consumption, and marketing problems in a changing world. Wessel.
Sp Qtr. 5 cl. Prereq: Enrollment in an honors program or eligibility for enrollment with permission of instructor. Not open to students with credit for 100 or Econ 200. BER course. SS Admis Cond course.

250 Computers in Agricultural Decisions U 5
Survey of agricultural problem solving, computing systems fundamentals, and the use of computer systems as aids in agricultural decision making. Batte, Flase, and Taylor.
Au, Wi, Sp Qtrs. 3 cl, 1 2 hr lab/discussions. Prereq: 2nd yr standing.

General Prerequisites for Courses
Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 30 or hrs in collegiate courses, exclusive of ROTC and phys ed. or specified course(s) numbered 100-299.

310 Management of Agricultural Firms U 5
Organization and operation of farm and agribusiness firms; economic and management principles in decision making; financial statements, budgeting, firm organization and operation, financial and labor management. 5 cl. Prereq: 100 or equiv.

310.01 Farm Management
Batte, Erven, and Forster.
Au, Wi, Sp Qtrs. Not open to students with credit for 310.02 or 410.

310.02 Agribusiness Firm Management
Hahn and firms.
Au, Sp Qtrs. Not open to students with credit for 310.01 or 346.

320 Marketing in Agricultural Industries U 5
The study and analysis of the theory of markets and the market processes and institutions important in the agricultural-related sectors of the U.S. economy. Fiske, Stout, and Thraen.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 100.

412 Farm Records and Analysis U 4
Nature and need for farm business records and analysis and interpretation of essential records from farm manager viewpoint, their use in income tax reporting. Shaudys.
Au, Wi, Sp Qtrs. 2 2 hr cl. Prereq: 310.01 or 310.02 or equiv. Not open to students with credit for 312.

416 Agricultural Finance U 4
Financial management of farms and small agribusiness firms; sources of capital, credit institutions, leasing, capital budgeting, leverage, legal aspects, insurance, and financial markets. Fiske and Lee.
Au, Wi Qtrs. 4 cl. Prereq: 310.01 or 310.02 or equiv.

418 Farm Appraisal U 3
Farm real estate appraisal with emphasis on methods, procedures, and reporting; factors influencing land value and fluctuation in land prices. Shaudys.
Sp Qtr. 3 cl, 3 3 hr field trips during qtr. Prereq: 310.01 or 310.02 or equiv.

426 Marketing Dairy Products U 3
A study of the principles of assembling, transporting, selling, pricing, distribution, marketing costs, and margin for dairy products. Jacobson.
Au Qtr. 3 cl. Prereq: 100. Offered in cooperation with Dairy Science.

430 World Food Economy: Problems, Prospects, and Policies U 3
Topics include current and future world food supply and demand, alternative economic and humanitarian policies for food population problems, role of U.S. in meeting world food needs. Zuluaf.
Sp Qtr. 2 1 hr cl. Prereq: 100 or Econ 200 or equiv.

450 Computer Applications in Agribusiness Management U 4
A study of existing computer software available to managers and applications of this tool to analyze current agribusiness problems. Forster and Taylor.
Wi, Sp Qtrs. 2 2 hr cl, 2 lab hrs arr. Prereq: 310.01 or 310.02, and 250 or Cpr/Inf 211 or equiv and permission of instructor.

489 Internship in Agricultural Economics U 3-5
Supervised experience with an approved firm or organization; written comprehensive report required.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of major advisor. Repealable to a maximum of 15 or hrs.

General Prerequisites for Courses
Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 45 or hrs in courses in the same discipline numbered 200 or higher, or 10 or hrs in courses numbered 200 or higher in the same discipline, plus 10 or hrs in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

502 Prices of Farm Products U G 3
Characteristics of agricultural price, movement, measurement, seasonality, cycles, and forecasting, including analysis of price formation elasticity, parity, and other price statistics. Thraen.
Wi Qtr. 3 cl.

521 Salesmanship in Agriculture U 4
Principles and techniques of successful selling and commodity merchandising in agricultural industries; emphasis on process of selling to agribusiness buyers and agricultural buyer behavior. Himes.
Au Qtr. 3 cl, 1 2 hr lab/discussion. Prereq: 320 and completion of at least 2 of the required communications courses or permission of instructor.

522 Livestock Marketing U G 5
Selling methods, basis of sales, agencies involved, organization of markets, transportation, financing, marketing costs, prices, when to market, grade differentials, government regulation, stewardship.
Wi Qtr. 5 cl. Prereq: 320. Offered in cooperation with Animal Science.

523 Grain Marketing U G 3
Principles and practices involved in grain and feed marketing and the theory of grain pricing; economics of grain marketing. Larson.
Au Qtr. 3 cl.

530 Agricultural Policy U G 5
Characteristics and problems of agriculture; description and analysis of programs and policies designed to assist agriculture and alternative proposals for the future. Zuluaf.
Au, Sp Qtrs. 5 cl. HS20 (honors) may be available to students enrolled in an honors program of by written permission of dept. Not open to jrs.

531 Natural Resources Economics U G 4
Economic issues in public and private decisions concerning use and conservation of land and other natural resources. Private interests and public policy in resource planning, Kuske, and Stoughton.
Au, Sp Qtrs. 4 cl. Offered in cooperation with Natural Resources.
532 Development of Rural Economic Systems U G 4
Comparison and analysis of systems, problems and methods of transforming rural structures in less developed and developing countries; implications of international issues for rural development. Wessell.
Wi Qtr. 3 cl.

541 Agricultural Cooperatives U G 5
Basic principles of cooperatives including types of organizations, legal aspects, membership relations, financing, organizational and intercooperative problems, and distribution of savings. Jacobsen.
Au, Sp Qtrs. 5 cl.

591 Workshop U G 3
Study of selected current topics in agricultural economics for teachers of vocational agriculture and extension agents.
Su Qtr. 4 hr. cl. At least 5 or hrs of previous course work in ag econ or the equiv. Repeatable, to a maximum of 12 or hrs; decimal subdivisions not repeatable.

591.01 Agricultural Business Management
591.02 Agricultural Marketing
591.03 Financial Management in Agriculture
591.04 Community Resource Development

H599 Honors Course U 2-5
Planning, conducting, and reporting a special problem in agricultural economics.
Su, Au, Wi, Sp Qtrs. Prereq: Enrollment in an honors program or eligibility for enrollment.

General Prerequisites for Courses numbered 600

610 Farm Organization U G 5
Detailed application of production economics, management principles, and decision making techniques to the organization, operation, and administration of farms; farm plans developed. Forster.
Sp Qtr. 5 cl. and field trips during qr. Prereq: 310.01 or 410, 312 or 412, Agric Sc 200 and Agronomy 411 or 412.

520 Agri-Industry Organization and Public Policy U G 4
Analysis of socio-economic performance in agricultural industries, including the study of interrelationships among market structure, firm conduct, public policy, consumer behavior and performance in the private enterprise sector of the agricultural economy. Stout.
Sp Qtr. 2-3 hr. cl. Prereq: 320 and 20 additional cr or hrs in the social sciences.

640 Strategy in Agribusiness U G 5
Analysis of important management problems confronting agricultural marketing and farm supply firms, including interpreting and responding to industry and socio-economic trends and change forces. Holm.
Wi Qtr. 3 1/2 cl. Prereq: 320 and 416 or equiv.

670 Agricultural Law U G 4
Legal concerns of owning and/or managing farm and agribusinesses as related to property ownership, business organization, labor, insurance, family, and estate planning. Wright.
Sp Qtr. 4 cl. Prereq: 412 or equiv and 416 and Bus-Fin 510 or permission of instructor.

693 Individual Studies U G 2-5
Planning, conducting, and reporting a special problem in agricultural economics.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs in any or a combination of decimal subdivisions. These courses are graded S/U.

693.01 Agribusiness Management and Finance
693.02 Agricultural Marketing and Policy
693.03 Foreign Agricultural Development
693.04 Quantitative Methods in Agricultural Economics
693.05 Resource Economics
693.06 General Agricultural Economics

General Prerequisites for Courses numbered 700

Unless otherwise indicated, the prerequisites for 700-level courses are 15 or hrs in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

705 Economics of Agricultural Production U G 3
A critical consideration of economic principles as they apply to production problems in agriculture. Thraen.
Wi Qtr. 2 1/2 hr. cl. Prereq: Economics 501 or 705. Not open to students with credit for 605.

716 Advanced Agricultural Finance U G 3
Capital budgeting, trade credit management, inventory models, resource control and financial analysis with applications in farming and agribusiness firms. Lee.
Sp Qtr. 2-3 hr. cl. Prereq: 416 or 516 or Bus-Fin 620.

General Prerequisites for Courses numbered 800 and 900

Unless otherwise indicated, the prerequisites for 800- and 900-level courses are 30 or hrs in courses in the same discipline, or 20 or hrs in the same discipline, plus 25 or hrs in specified allied disciplines.

600 Research Methods in Agricultural Economics G 3
Principles of scientific method in agricultural economics. Walker.
Sp Qtr. 2 1/2 hr. cl. Prereq: Econ 705, 5 or hrs math, and 4 or hrs stat.

501 Seminar in Problems in Agricultural Economics Statistics G 3
Application of statistics to problems in agricultural economics. Hushak.
Au Qtr. 2 1/2 hr. cl. Prereq: Econ 641.

802 Quantitative Methods in Agricultural Economics G 3
Applications of analytical models to problems in agricultural economics research. Stough.
Wi Qtr. 2 1/2 hr. cl. Prereq: 800, Econ 641, and differential calculus.

806 Economics of Agricultural Production G 4
A further consideration of economic principles as they apply to production problems in agriculture. Walker.
Sp Qtr. 2-3 hr. cl. Prereq: 705 and Econ 805.

807 Theory of Public Choice G 4
Theory of public choice and its application to problems of collective action in agriculture, development, trade, and public services. Hushak and Southgate.
Wi Qtr. 4 cl. Prereq: Econ 805.

810 Agricultural Firm Management G 3
Examination of the operating and strategy problems confronting the managers of farm and nonfarm agribusiness firms, with emphasis on analyzing and integrating management concepts. Hahn.
Au Qtr. 2 1/2 hr. cl. Prereq: Econ 705 and permission of instructor.
Marketing Economics in Agriculture  G 3
A critical study of contemporary problems in agricultural marketing in the U.S. and world economics with emphasis on the theoretical and policy implications. Larson and Zulauf.
Su Qtr. 3 cr. Prereq: 620 and Econ 705 and 706.

Agricultural Policy  G 4
examination of values of American society concerning agriculture, reasons for these values, and alternatives for achieving various goals for U.S. agriculture. Henderson.
Su Qtr. 4 cr. Prereq: 320 or 420, 530 and Econ 805 and 806.

Resource Economics  G 3
Application of economic theory and decision-making frameworks to current issues of resource use, allocation, and control. Hitzhusen.
Sp Qtr. 3 cr. Prereq: Econ 705 and 706.

Seminar in Economic Development of Foreign Agriculture  G 3
Characteristics of problems in developing countries, identification and analysis of limiting factors in underdevelopment, and techniques for stimulating economic development through growth in agriculture. Graham.
Sp Qtr. Prereq: Econ 705. Repeatable to a maximum of 8 cr. hrs.

Individual Studies  G 2-5
Planning, conducting, and reporting a special problem in agricultural economics fitting the needs of the student, under the guidance of an instructor.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs in any or a combination of decimal subdivisions. These courses are graded S/U.

Agricultural Management and Finance  G 3
Agricultural Marketing and Policy  G 3
Foreign Agricultural Development  G 3
Quantitative Methods in Agricultural Economics  G 3
Resource Economics  G 3
General Agricultural Economics  G 3
Seminar  G 2-4
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 cr. hrs.

Research in Agricultural Economics  G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Communication of Agricultural Concepts  G 3
Procedures and practices in developing, interpreting, and communicating agricultural and natural resources concepts with emphasis upon the use of visual materials and effective presentation. Harmon.
Au, Wi, Sp Qtrs. 2 1/2 hr. cr. Prereq: English 110.

Leadership Development in Agriculture  G 3
Designed to develop an understanding of leadership with particular emphasis on theory and practice relative to effective functioning as leaders in an agricultural or agriculturally related setting. Smith.
Sp Qtr. 3 cr.

Program Development in Cooperative Extension  G 3
Principles and procedures in developing extension programs in agriculture and home economics, with emphasis on program determination, teaching methods, and relationships with other groups. Smith and Rohrer.
Au Qtr. 3 cr. Prereq: Permission of instructor.

General Prerequisites for Courses Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr hrs in courses in the same discipline numbered 200 or higher, or 10 cr. hrs in courses numbered 200 or higher in the same discipline, plus 10 cr hrs in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

Methods in Teaching Vocational Agriculture  G 5
An examination of the learning process with emphasis on planning for instruction and the use of teaching skills. Newcomb.
Au, Sp Qtrs. 5 cr. 2 lab hrs, 1 1-day field trip. Prereq: 200 and 280.01. Not open to students with credit for 330.
581 Student Teaching in Agriculture U 5
Supervised participation in teaching and other professional responsibilities of teachers of agriculture including clinical analysis in conferences and seminars. Hedges. Au, Wi Qtrs. Prereq: 330 and completion of departmental requirements for admission to the professional program; concours 582 and 583.

582 Student Teaching in Agriculture U 5
Supervised participation in teaching and other professional responsibilities of teachers of agriculture including clinical analysis in conferences and seminars. Barrick and Burke. Au, Wi Qtrs. Concur: 581 and 583.

583 Student Teaching in Agriculture U 5
Supervised participation in teaching and other professional responsibilities of teachers of agriculture including clinical analysis in conferences and seminars. Burke and McCracken. Au, Wi Qtrs. Concur: 581 and 582.

585 Instructional Program Planning for Vocational Agriculture U 3
Principles and procedures used in planning and evaluating courses of study with some emphasis upon occupational experience programs for high school students. Hedges and McCracken. Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 530 or permission of instructor. Not open to students with credit for 410.

General Prerequisites for Courses Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 or hrs in courses in the same discipline numbered 300 or higher, or 10 or hrs in courses numbered 300 or higher in the same discipline; plus 10 or hrs in courses numbered 300 or higher in specified allied disciplines.

621 Curriculum Development U G 3
Principles and practices used in developing courses of study in agriculture for high school and post-high school programs. Hedges and McCracken. Su (1st term) Qtr. 3 2-hr cl.

622 Continuing Education in Agriculture U G 3
Principles and practices involved in developing vocational, technical, and extension programs for out-of-school youth and adults. L. Miller. Sp Qtr. 2 1½-hr cl.

631 Methods in Teaching Agriculture U G 3
Theory, principles, and procedures associated with effective instruction in agriculture at the secondary, technical, and college levels. Barrick and Newcomb. Su (1st term), Wi Qtrs. 1 2½-hr cl.

640 Instructional Media in Teaching Agriculture U G 3
Theory and practice in developing and using instructional media and equipment at the secondary, technical, and college levels. Au, Sp Qtrs. 1 2½-hr cl.

641 Occupational Experience in Agricultural Education U G 3
Principles and procedures used in selecting, planning, conducting, and evaluating occupational experience programs for students. Barrick. Su Qtr. 1 2½-hr cl.

642 Youth Organizations U G 3
An analysis of youth organizations in vocational and extension education with emphasis on planning and conducting such programs. Knight. Su, Au, Sp Qtrs. 1 2½-hr cl.

643 Youth Program Management in Non-School Settings U G 3
Principles, theories, and practices involved in conducting, supervising, and managing a youth program. Litter. Wi Qtr. 3 cl.

644 Camp Program Development U G 3
Principles, theories, and practices involved in planning, conducting, and evaluating an educational camping program. Sp Qtr. 1½ hr cl. Prereq: Experience in youth agency work or permission of instructor.

684 Internship in Agricultural Education U G 1-15
Guided participation to further enhance professional and/or technical competency in selected areas. Su, Au, Wi, Sp Qtrs. Prereq: 581, 582, and 583. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

684.10 Vocational Agriculture
684.20 Cooperative Extension Education
684.30 Technical Education
684.40 Specialized Agriculture

693 Individual Studies U G 1-5
Planning, conducting, and reporting a special study appropriate to the needs of the student. Su, Au, Wi, Sp Qtrs. 1-9 hrs (honors) may be available to students enrolled in an honors program or eligible for enrollment. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

General Prerequisites for Courses Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 or hrs in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 500 or higher.

741 Practicum in Managing Student Teaching in Agricultural Education U G 3
Principles and practices in the design, conduct, and evaluation of student teaching programs in agricultural education. Su Qtr. 1 2½-hr cl. Prereq: Teaching or extension experience and permission of instructor.

743 Practicum in Teaching Agricultural Mechanics U G 3
Selection and use of subject matter, resources, and methods of teaching agricultural mechanics. Burke and Glenn. Sp Qtr. 1 4-hr cl. Prereq: 621 and 631, or 684.

744 Practicum in Teaching Farm Business Planning U G 3
Methods of teaching farm business planning, including the selection of subject matter and use of resources, with application to high school and continuing education programs. Su Qtr. 1 3-hr cl. Prereq: 621, 631, or 684.

770 Evaluation U G 3
Evaluation principles and procedures used in developing vocational, technical, and extension programs. McCracken. Au Qtr. 1 3-hr cl. Prereq: 621 and 631, or 684.

790 Workshop in Agricultural Education U G 1-5
Intensive study of selected areas of agricultural education with emphasis on the application of principles and methods in attaining desired objectives. Burke. Su, Au, Wi, Sp Qtrs. Minimum of 3 wks. Prereq: Teaching or extension experience and permission of instructor. Repeatable to a maximum of 12 or hrs.

795 Seminar U G 1-3
1- or 2-hr cl. Prereq: Written permission of instructor. A maximum of 15 or hrs may be earned with not more than 5 hours in any one departmental subdivision.

795.01 Contemporary Problems
Au, Wi, Sp Qtrs. This course is graded S/U.

795.02 Problems and Issues
Wi Qtr.

795.03 Leadership Development
Au, Sp Qtrs.

795.04 Program Development
Au Qtr.

795.05 Research and Evaluation
Su, Wi Qtrs.

795.06 Communication
Au, Sp Qtrs.
General Prerequisites for Courses
Numbered 800 and 900

Unless otherwise indicated, the prerequisites for 800 and 800-level courses are 30 or hrs in course(s) in the same discipline, or 20 or hrs in the same discipline, plus 25 or hrs in specified allied disciplines.

810 Principles of Vocational-Technical Education G 3
An analysis of evolving concepts of vocational and technical education with emphasis upon principles underlying organizations and practice. Adams and McCracken.
Wi Qtr 1 3-hr cl. Prereq: Professional experience in vocational education.

811 Administration and Supervision G 3
Principles in developing and administering programs in extension education with attention to federal-state-local relationships, in-service education, and supervisory procedures. Rohrer.
Sp Qtr 1 2½-hr cl. Prereq: Experience in agr educ.

812 Teacher Education G 3
Principles and methods of teacher education in agriculture including selection and guidance of students, curriculum, field experience, placement, in-service education, and research. Newcomb.
Sp Qtr 1 2½-hr cl. Prereq: Experience in agr educ.

821 Administrative Practices in Vocational Education G 3
A study of the concepts of vocational education program administration, including management skills, policy development, staff management, finance, and program evaluation. Adams.
Su, Sp Qtr 1 2½-hr cl. Not open to students with credit for 811 or Ed-Voc 821. Cross-listed in Education: Vocational-Technical.

823 Program Planning and Development G 3
Principles, theory, and practice in developing state and local programs of extension education. Smith.
Wi Qtr 1 2 1½-hr cl.

830 Supervision of Instruction in Vocational Education G 3
A study of the concepts of vocational education supervision including leadership styles, improving instruction, and program and personal evaluation. Barrick and Burke.
Su, Wi Qtr 1 2 1½-hr cl. Not open to students with credit for Ed-Voc 823. Cross-listed in Education: Vocational-Technical.

833 Vocational Education Program Planning G 3
A study of the planning, development, management, and evaluation of instructional systems and vocational education programs. McCracken.
Sp Qtr 1 2 1½-hr cl. Not open to students with credit for 823 or Ed-Voc 833. Cross-listed in Education: Vocational-Technical.

886 Instrumentation and Procedures for Data Collection G 3
Selection, development, and analysis of various types of instruments and procedures for collecting research data. L. Miller.
Su, Sp Qtr 1 1½-hr cl. Prereq: 885 or equiv.

889 Advanced Studies G 3
Individual field study in partial fulfillment of needs for research experience.
Su, Au, Wi, Sp Qtrs. Prereq: 885. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

995 Seminar in Research G 1-3
Further development and direction of individual studies and programs of research. McCracken and Warmbrod.
Su, Au Qtr 1 1½-hr cl. Prereq: 886. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Agricultural Engineering

105 Ives Hall, 2073 Neil Avenue, 422-6131

General Prerequisites for Courses
Numbered 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr hrs in collegiate courses, exclusive of ROTC and phys ed; or specified course(s) numbered 100-199.

223 Introduction to Agricultural Engineering U 2
Principles of engineering measurements, analysis and design with emphasis on both physical and biological concepts of importance in agricultural production and processing.
Wi Qtr 1 cl. 1 3-hr lab, up to 2 full day field trips. Prereq: Soph standing in agr eng.

294 Group Studies U 1-5
Basic studies in agricultural engineering.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs.

General Prerequisites for Courses
Numbered 300 and 400

Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr hrs in collegiate courses, exclusive of ROTC and phys ed; or specified course(s) numbered 100-399.

334 Biometeorology of Plant and Animal Systems U 3
Study of the micro- and macro-environmental variables in nature as they relate to engineering of plant and animal production systems. Stombaugh.
Wi Qtr 1 cl. Prereq: Soph standing in agr eng. Not open to students with credit for 434.

431 Electrical Power Systems for Agriculture U 3
Design and specification of systems and components essential for the distribution of electrical power and for the control of electrical systems for agricultural production units. Herum.
Sp Qtr 2 cl. 1 2-hr lab. Prereq: 433.

433 Analysis of Elementary Biological-Physical Systems U 3
Mathematical model formulation and analysis techniques developed and applied to elementary biological and physical systems. Hamdy.
Wi Qtr 1 cl. 1 1-hr lab. Prereq: Math 255 and Eng Mech 410, or equiv.
489 Professional Practice U 2
Preparation and submission of a comprehensive report, based on a pre-assigned outline, of actual co-op employment in industry. Herum.

General Prerequisites for Courses
Numbered 300
Unless otherwise indicated, the prerequisites for 300-level courses are 15 cr hrs in courses in the same discipline numbered 200 or higher, or 10 cr hrs in courses numbered 200 or higher in the same discipline, plus 10 cr hrs in courses numbered 200 or higher in specified allied disciplines, or baccalaureate degree.

535 Utilization of Energy in Agriculture U G 4
Study of motive and stationary power needs of agriculture, mechanisms of traction, characteristics of power sources, morphology of off-the-road vehicle design. Carpenter.
Sp Qtr. 3 cr, 1-2 hr lab. Prereq: 433 and Mech Eng 501.

543 Engineering Soil-Water Management U G 5
Engineering design of drainage, irrigation, and erosion control systems for optimum crop growth, environment, and related water storage structures. Schwab.
Au Qtr. 3 cr, 2-3 hr labs. Prereq: 424, Agronomy 240, and Civil En 413 or equiv.

544 Engineering Agricultural Machines U G 4
Design of agricultural machines; recognition of the economic, political, and social context in which the machinery is designed, built, distributed, and used. Holmes.
Au Qtr. 3 cr, 1-3 hr lab. Prereq: 535, 545, and Mech Eng 350.

545 Agricultural Structures U G 4
Analysis and design of frames and members for agricultural structures. Brogger.
Au Qtr. 3 cr, 1-2 hr lab. Prereq: Mech Eng 420.

546 Agricultural Process Engineering U G 4
Design of processing systems for agricultural products, including thermal processing, grading, size modification, drying, and transportation of bulk and fluid products. Herum.
Wi Qtr. 3 cr, 2-1 hr lab. Prereq: 434, Mech Eng 420, and Mech Eng 510.

593 Individual Studies U G 1-5
Advanced study of problems not included in regular courses of this department.
Su., Au., Wi., Sp. Qtrs. HS689 (honors) may be available to students enrolled in an honors program or eligible for enrollment. Prereq: Permission of instructor. This course is graded S/U.

General Prerequisites for Courses
Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr hrs in the same discipline numbered 300 or higher, or 10 cr hrs in courses numbered 300 or higher in the same discipline, plus 10 cr hrs in courses numbered 300 or higher in specified allied disciplines.

608* Digital Measurement and Simulation in Agricultural Engineering U G 4
Application of digital measurement systems and dynamic simulation to biological processes and equipment in agricultural engineering. Stombaugh and Hansen.
Sp Qtr. 3 cr, 1-2 hr lab. Prereq: 544 and 645 or equivs, and Engr Graph 200.

545 Environmental Engineering of Agricultural Structures U G 4
Functional requirements and principles involved in housing, animals, and crops; analysis of factors and properties affecting energy exchanges with the environment. Stombaugh.
Wi Qtr. 4 cr. Prereq: 434, Engr Mech 420, and Mech Eng 510.

646 Engineering Agricultural Processing Systems U G 4
Design of systems for processing agricultural food, feed, and fiber, utilizing principles of biodynamics, transient diffusion, turbulent and non-ideal transport, and particulate handing. Blasdel.
Au Qtr. 3 cr, 1-3 hr lab. Prereq: 425, 433, and Mech Eng 510.

650 Design of Waste Management Systems U G 3
Application of bioengineering principles of pollution control in the design of management systems for wastes from food and fiber production, storage, and processing operations. Hansen.
Au Qtr. 2 cr, 1-3 hr lab. Prereq: Sr standing in engineering, or 714 of permission of instructor. Not open to students with credit for 750.

657* Soil Machine Dynamics in Plant Environment U G 4
Soil dynamics in relation to plant environment and agricultural machine design.
Wi Qtr. 3 cr, 1-3 hr lab. Prereq: Agronomy 240 or 671, Botany 430, and Engr Mech 410 or permission of instructor.

681 Analog Simulation U G 5
Principles of analog and hybrid simulation developed and applied to engineering problems in agricultural systems. Hamdy.
Au Qtr. 3 cr, 2-3 hr labs. Prereq: 433 or equiv.

682 Similitude Theory and Applications U G 3
Similitude theory and applications in engineering and bioengineering experimental research and development. Nelson.
Wi Qtr. 3 cr. Prereq: Sr standing in engineering.

684 Advanced Food Process Engineering U G 3
Application of heat and mass transfer, fluid flow, food properties, and food processing constraints in the design and selection of food process equipment. Blasdel.
Sp Qtr. 3 cr. Prereq: Ag M&S 381, Fd Sci&M 541, or permission of instructor. Offered in cooperation with Food Science and Nutrition.

693 Individual Studies U G 1-5
Work on problems that are not included in regular courses; practice in development, organization, solution, and report on problems of student’s choosing.
Su., Au., Wi., Sp. Qtrs. Prereq: 15 cr hrs of 300 level or higher agri eng courses and written permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

694 Group Studies U G 1-5
Advanced studies in agricultural engineering with principal emphasis on design.

695 Professional Development U G 1
Needs and programs for professional development in engineering related to food and agriculture. Opportunities for professional advancement, engineering ethics, and responsibilities to society. Nelson.
Wi Qtr. 1 1 hr lab. Prereq: Sr standing in agri eng.

General Prerequisites for Courses
Numbered 800 and 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr hrs in courses in the same discipline, or 20 cr hrs in courses in specified allied disciplines.

850 Seminar G 1
Hamdy.
Au., Wi., Sp. Qtrs. 1 cr. Repeatable to a maximum of 6 cr hrs.
Agricultural Mechanization and Systems

105 Ives Hall, 2073 Neil Avenue, 422-6131

110 Engineering in Agriculture U 5
Basic concepts of engineering and technology essential to the development and function of improved systems for fulfilling our food and agricultural environment needs. Holmes and Lichtensteiger.
Au, Wi, Sp Qtrs. 4 cr. 1 2-hr lab. Not open to students with credit for 510. This course is available for EM credit.

200 General Prerequisites for Courses Numbered 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 or hrs in college courses, exclusive of ROTC and phys ed. or specified course(s) numbered 100-199.

220 Buildings and Equipment for Farmstead Operations U 3
Functional requirements and planning of buildings and facilities for livestock production and for conditioning and storage of crops; environmental control; building construction. Stonebaugh and Nelson.
Au Qtr. 2 cr. 1 2-hr lab. Prereq: Math 116 or 150.

221 Agricultural Materials Processing Systems U 3
Principles and functional analysis of agricultural processing systems, with special emphasis on crop drying, handling and storage. Nelson and Schrag.
Sp Qtr. 2 cr. 1 2-hr lab. Prereq: Math 116 or 150.

230 Power for Agricultural Operations U 3
A study of power in agriculture with primary emphasis upon power needs for field operations, characteristics of available power sources, selection, and use of power units. Carpenter and Hardmy.
Wi Qtr. 2 cr. 1 2-hr lab. Prereq: Math 116 or 150.

231 Electric Power for Agricultural Operations U 3
Functional analysis of systems and components essential for distribution and control of electricity for power, heat, and illumination applications in agriculture. Herriott and Schrag.
Wi Qtr. 2 cr. 1 2-hr lab. Prereq: Math 116 or 150.

232 Small Air-Cooled Engines U 4
Principles of operation, maintenance, and repair of small air-cooled engines. Glan and Hardmy.
Su, Au, Wi, Sp Qtrs. 2 cr. 2 2-hr labs. Prereq: Soph standing.

240 Fabrication of Metal in Agribusiness and Agricultural Applications U 3
Principles and techniques in the fabrication of metal using welding and other processes needed in agricultural and agribusiness applications. Glan and Paprnan.
Au, Wi, Sp Qtrs. 2 cr. 2 2-hr labs.

241 Building Materials and Construction in Agribusiness U 3
Principles and techniques in the fabrication of wood, concrete, and masonry materials used in agribusiness and agricultural applications. Glan and Paprnan.
Su, Au, Wi, Sp Qtrs. 2 cr. 2 2-hr labs.

250 Machines for Agricultural Operations U 3
Analysis of field machine operations with emphasis on recognition and quantitative solution of problems in selection and use of machines for optimum economic performance. Glan and Holmen.
Sp Qtr. 2 cr. 1 2-hr lab. Prereq: Math 116 or 150.

270 Engineering Methods in Soil and Water Conservation U 3
Instrument surveying, aerial and topographic maps, rainfall and runoff, and engineering applications of soil and water management on farms and in recreational areas. Paprnan and Schwab.
Au, Sp Qtrs. 2 cr. 1 3-hr lab. Prereq: Math 116 or 150.

280 Food Machinery U 3
Functional and energy requirements of food processing machines and systems, alternatives in unit operations, performance characteristics of process machinery and materials performance criteria. Herriott.
Sp Qtr. 2 cr. 1 2-hr lab.

293 Individual Studies U 1-5
Work on problems not in regular courses; practice in development, organization, solution, and reporting on such projects.
Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

294 Group Studies U 1-5
Basic studies in agricultural mechanization and systems. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor.

General Prerequisites for Courses Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr hrs in college courses, exclusive of ROTC and phys ed. or specified course(s) numbered 100-299.

305 Rural Housing Technology U 3
Basic technological factors of rural housing; site selection, drainage, water supply, waste disposal, utilities, and basic construction methods. Miller and Nelson.
Au Qtr. 3 cr.

350 Farm Machinery Management U 3
Techniques for proper selection and management of farm machines for optimum economic return. Glan and Holmen.
Sp Qtr. 3 cr. Prereq: Math 116 or 150.

381 Introduction to Food Process Engineering U 4
Introduction to engineering operations in food processing, emphasizing heat transfer and fluid flow with applications to sterilization, evaporation, drying, refrigeration, and fluid conveying. Blaas and Herriott.
Sp Qtr. 3 cr. 1 2-hr lab. Prereq: Math 151 and Physics 112 or Ag M&Sys 280. Offered in cooperation with Food Science and Nutrition.

General Prerequisites for Courses Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr hrs in courses in the same discipline numbered 200 or higher, or 10 cr hrs in courses numbered 200 or higher in the same discipline, plus 10 cr hrs in courses numbered 200 or higher in specified allied disciplines, or baccalaureate degree.

500 Farm and Home Safety U G 1
Causes of accidents; methods for conducting farm and home safety programs; for students interested in vocational agriculture, extension, and farm organizational work. Pugh.
Sp Qtr. 1 cr.
Hydraulic Power Systems for Agriculture U G 3
A study of the hydraulic principles, system components, and types of circuits commonly used in agricultural hydraulic power systems; circuit trouble-shooting and analysis. Au Qtr. 2 cl, 1 1/2 hr lab. Prereq: 110 and Math 116 or 150, or permission of instructor. Not open to ENG majors.

Pollution Control and Waste Utilization U G 3
Management and utilization of animal wastes, fertilizers, pesticides, crop residue, milk and food processing, and farmstead and urban solid wastes to abate environmental pollution at the urban-rural interface. Hansen and White. Au Qtr. 3 cl. Not open for grad or to students majoring in agr. eng.

Agricultural Pesticide Equipment U G 3
Equipment and physical techniques for applying chemicals used in plant disease, insect and weed control; basic physical principles and calibration of equipment. Carpenter and Holmes. Sp Qtr. 2 cl, 1 1/2 hr lab. Prereq: Sr or grad standing.

Agricultural and Forest Hydrology U G 3
Hydrology of small watersheds as influenced by watershed management practices; water resource development; control of sediment and floods; water quality and conservation. Boudinot and Schwab. Au, Wi, Sp Qtrs. 3 cl. Prereq: 3rd yr standing and Math 116 or 115. Not open for credit to students majoring in agr. eng.

Food Process Controls and Instrumentation U G 3
Concepts, characteristics, and uses of instrumentation and controls in food industries; controller selection, calibration, and adjustment for food processes. Blaisdell and Lichtenstein. Wi Qtr. 2 cl, 1 1/2 hr lab. Prereq: 381 or permission of instructor. Offered in cooperation with Food Science and Nutrition.

Workshop U G 1-5
In-depth study of selected area of agricultural mechanization with emphasis on application of principles, objectives, methods, and equipment to organizations, management, and teaching of agricultural mechanics. Givens and Papitan. Su, Au, Wi, Sp Qtrs. Prereq: Teaching or extension experience or permission of instructor. Repeatable to a maximum of 10 or hrs in any one decimal subdivision or 15 hrs in any combination of decimal subdivisions. 15 contact hrs for each hr of cr offered.

General

Agricultural Construction and Maintenance
Electric Power and Processing
Food Processing
Power and Machinery
Soil and Water Management
Structures and Environment

Individual Studies U G 1-5
Problems not included in regular courses; practice in development, organization, solution, and reporting on such problems. Su, Au, Wi, Sp Qtrs. Prereq: 15 or hrs of 300-level or above in Ag M&S_SYS courses and written permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

Group Studies U G 1-5
Advanced studies in agricultural mechanization and systems. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor.

Agriculture

100 Agricultural Administration Building, 2120 Fyffe Road, 422-6681

100 Agriculture Survey U 1
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of agriculture academic areas of study and services. Biash, Darrow, Pfister, and Walter. Su, Au Wi, Sp Qtrs. 2 cl. Not open to students with credit for 101 or UVC 100.

General Prerequisites for Courses
Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr hrs in collegiate courses, exclusive of ROTC and phys ed; or specified course(s) numbered 100-399.

351 Agricultural Employment U 1
Discussion of personal career objectives in agriculture and conducting an effective employment campaign through resumes, cover letters, interviewing, and job offer evaluation. Miller. Au Wi Qtr. 1 cl.

400 Writing for the Agricultural Media U 2
Writing and editing agricultural news stories and features for newspapers, magazines, and other related media. Su, Au, Wi, Sp Qtrs. Arr. Prereq: Journal 202. Limited to students in agriculture. Repeatable to a maximum of 4 or hrs.

455 Agricultural Advertising U 5
Advertising's role in marketing, advertising media and production, and the future of advertising as related to agriculture; an advertising campaign project is required. Wi Qtr. 1 1-2 hr, 2-2 1/2 cl. Prereq: Journal 211 and Agr Econ 320 or Bus-Mkt 655. Guest speakers from agribusiness, advertising agencies, and media will be used.

489 Agricultural Communications Internship U 2-5
Coordinated and supervised experience in agricultural communications including reporting, writing, editing, graphics, broadcasting, advertising, and public relations. Su, Au, Wi, Sp Qtrs. Arr. Prereq: Journal 202 and permission of instructor. Limited to majors in agricultural communications. Repeatable to a maximum of 10 or hrs. A final written report must be submitted to the instructor. This course is graded S/U.

HS90 Agriculture Honors Colloquium U 1
1 cl. These courses are graded S/U.
HS90.01 Research
Preparation of honors programs, design of honors research projects, and writing of research proposals. Darrow. Au Qtr. 1 cl. Prereq: Enrollment in AGR honors program and jr standing or permission of instructor.

HS90.02 Research Presentation
Preparation, delivery, and evaluation of oral research reports regarding various disciplines within the field of agriculture. Darrow. Wi, Sp Qtr. 1 cl. Prereq: HS90.01.

595 Seminar U 2-5
Current topics of general interest to undergraduate students in agriculture, and natural resources. Relisch. Wi Qtr. Arr. HS90 (honors) may be available to students enrolled in an honors program or eligible for enrollment. Prereq: Jr or sr standing in the college and written permission of instructor. Repeatable to a maximum of 10 or hrs.

695 Seminar: Organization and Administration in Agriculture U G 2-5
The underlying philosophy and principles for developing, organizing, and administering land-grant type institutions and related agencies of agriculture, and natural resources. Su, Wi Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.
Agronomy

202 Kottman Hall, 2021 Coffey Road, 422-2002

General Prerequisites for Courses

Numbered 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 or more hours in college-level courses, exclusive of ROTC and physical education courses numbered 100-199.

200 Plant Science in Agriculture U 5

Study of environmental and genetic factors influencing plant growth and how man can alter these factors to produce economic plants more adequate to his needs. Utzinger and Wiedold

Su, Au, Wi, Sp Qtrs. 5 cr. Prereq: Biology 110. Not open to students with credit for Hort 200. Cross-listed in Horticulture. This course is available for EM credit. NS Adams Cond course.

240 Soil Science U 5

Introduction to the genetic, physical, chemical, and biological properties influencing soil productivity. Laboratory exercises include observation and quantitative determination of certain of these soil properties. Himm

Su, Au, Wi, Sp Qtrs. 3 cr. 2-2 hr labs. Prereq: Chem 101 and 102, or 121 and 122, or equiv. This course is available for EM credit. NS Adams Cond course.

250 Soil Morphology and Classification U 2

Techniques and format employed for writing detailed soil descriptions and experience in the classification of soils according to Soil Taxonomy. Bigham and Smreck.

Sp Qtr. 2 cr. and field trips. Prereq: 240 or permission of instructor.

H299 Plants and Man U 5

The influence and interaction of limiting factors on plant growth with emphasis on principles utilized by man to increase productivity and value of plant products.

Wi Qtr. 4 cr. assigned reading 1 hr. Prereq: 5 cr or more in biological sciences and enrollment in an honors program. Not open to students with credit for 200 or Hort 200 or Hort 299. Cross-listed in Horticulture. NS Adams Cond course.

General Prerequisites for Courses

Numbered 300 and 400

Unless otherwise indicated, the prerequisites for 300- and 400-level courses are 90 cr or more in college-level courses, exclusive of ROTC and physical education courses, numbered 100-399.

411 Grain Crops U 4

A study of the grain crops, their classification, geographic distribution, culture, varieties, improvement, seed production, harvesting, handling, recognition, grading, and utilization.

Au, Wi Qtr. 3 cr. 1-2 hr lab. Prereq: 200 or Jr standing.

412 Forage Crops U 4

Principles underlying characteristics, tolerances, requirements, uses, and production of forage plants for hay, pasture, silage, sodage, and cover. Parsons

Su, Wi, Sp Qtrs. 3 cr. 1-2 hr lab. Prereq: 200 or Hort 200 or Jr standing.

413 Principles of Turfgrass Selection and Management U 4

Adaptation, identification, uses, growth characteristics, growth responses, and fundamental principles essential to the production of quality turf.

Au Qtr. 2 cr. 1-2 hr cr. Prereq: 200 or 240 or Hort 200.

422 Weed Control U 4

A study of weeds, their identification, reproduction and methods of control, emphasis on various aspects of chemical control measures.

Au, Sp Qtrs. 3 cr. 1-2 hr lab. Prereq: 200 or Hort 200.

442 Soil Management U 5

An integrated study of fertility, tillage, erosion control, and water management in maintaining soil productivity and a quality environment.

Wi Qtr. 5 cr. Prereq: 240 or permission of instructor.

487 Field Demonstration Techniques U 3

Planning, utilization, interpretation, and limitation of field demonstrations; procedures, precautions, and interpretation of soil, plant, and water sampling. Henderson

Au Qtr. 2 cr. 1-2 hr lab. Prereq: Jr standing. 10 cr or more in agronomy, hort, or equiv.

489 Agronomic Employment Experience U 3

Su, Au, Wi, Sp Qtrs. Equiv of 10 wkjs employment. Prereq: Written permission of advisor before employment and 10 hrs of agronomy. Repeatable to a maximum of 6 or more. A final written report must be submitted to the advisor.

494 Group Studies U 3 or 5

Selected topics in crop science and/or soil science

Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or more.

General Prerequisites for Courses

Numbered 500

Unless otherwise indicated the prerequisites for 500-level courses are 15 or more hours in courses in the same discipline numbered 200 or higher or 10 or more hours in courses numbered 100 or higher in the same discipline plus 10 or more in specified allied disciplines; or baccalaureate degree.

510 Crop Production in Developing Countries U G 5

Fundamental studies of fixed and plantation crops in tropical and subtropical countries with emphasis on means and techniques for obtaining production increases. Arrsott.

Wi Qtr. 5 cr. Prereq: 200 or Hort 200, and 240 or equiv.

521 Turfgrass Identification, Adaptation, and Use U G 4

Identification, adaptation, and use of turfgrass species essential to the maintenance of quality turf.

Au Qtr. 2 cr. 1-2 hr cr. Prereq: 200 or Hort 200, 240, and Jr standing. Not open to students with credit for 413.

522 Turfgrass Management and Science U G 4

A study of cultural practices and environmental factors affecting the maintenance of quality turf.

Wi Qtr. 2 cr. 1-2 hr cr. Prereq: 521.

523 Turfgrass Operations U G 3

A detailed examination of turfgrass management systems, including golf courses, home lawns, athletic fields, and sod production. Street.

Sp Qtr. 2-4 cr. Prereq: 521 and 522.

550 Pedology and Edaphology U G 5

A comprehensive study of soil with respect to its components, morphology, and genesis; how morphology influences soil behavior especially as it pertains to Ohio conditions. Hall.

Sp Qtr. 3 cr. 1-2 hr lab and field trips. Prereq: 200 or Hort 200, 240, and 442.

570 Soil Chemistry and Fertility U G 5

An introduction to chemical processes in soils and their application in soil testing; soil fertility management in crop production. Logan.

Wi Qtr. 4 cr. 1-2 hr lab. Prereq: 240 or equiv.
591 Workshop in Agronomy U G 3
Study of selected topics in crop and soil science for teachers of vocational agriculture and extension agents.
Su (1st term) Qtr. 4 2-hr lab per week for 3 wks. One selected decimal subdivision offered each yr. Prereq: At least 5 or hrs of previous work in agronomy or the equiv. Repeatable to a maximum of 12 or hrs; decimal subdivisions not repeatable.

591.01 Soil Survey and Land Use
Not open to students with credit for 550.

591.02 Turfgrass Science
Not open to students with credit for 413, 521, 522, or 523.

591.03 Soil Erosion, Conservation and Management

591.04 Weed Control

591.06 Grain Crop Production, Harvesting and Storage

591.08 Soil Fertility and Fertilizers

593 Individual Studies U G 3 or 5
Students may select special agronomic problems, not included in regular courses and involving library, laboratory, or field studies.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

595 Undergraduate Seminar U 2
Review and interpretation of research publications and study of functions of agronomic industries. Parsons.
Au, Wi, Sp Qtrs. 2 cl. Prereq: 15 or hrs in agronomy and 3rd or 4th yr standing in agronomy.

596 Plant Protection Seminar U G 1
Current topics relating to plant pest management research, technology, and employment.
Wi Qtr. Arr. Not open to students with 2 or hrs of 586 in entomol, hort, or plant path. Repeatable to a maximum of 2 or hrs. Cross-listed in Entomology, Horticulture, and Plant Pathology. Course is graded S/U.

General Prerequisites for Courses Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 or hrs in courses in the same discipline numbered 300 or higher, or 10 or hrs in courses numbered 300 or higher in the same discipline, plus 10 or hrs in courses numbered 300 or higher in specified allied disciplines.

602 Field Crop Ecology U G 3
A study of the agroecosystem; the ecology of managed agricultural systems; the interrelationships of climates, soils, and organisms in crop production. Bendixen.
Wi Qtr. 3 cl. Prereq: 10 or hrs of crops courses and 5 or hrs of soils courses at the 300 level or higher.

610 Agrostology U G 3
A laboratory, field, and discussion course concerning the identification of plants of the grass family, grass evolution, and importance of grasses in world agriculture. Parsons.
Au Qtr. 2 3-hr labs. Prereq: 15 or hrs of plant sciences numbered 300 or higher.

612 Principles of Grassland Management U G 5
Plant-animal requirements and correlations in the maintenance, management, and utilization of meadows, pastures, and ranges. Hendelton.
Sp Qtr. 5 cl and 1 field trip arr per qtr.

621 Crop Physiology and Production U G 3
A study of the physiological aspects of crop growth and how they relate to various cultural practices; major emphasis will be on corn and soybeans. McDonald.
Wi Qtr. 3 cl. Prereq: Botany 436 or equiv.

625 Field Crop Breeding U G 4
Principles of genetics and methods of plant breeding applied to the improvement of field crops and the ultimate development of superior varieties. St. Martin.
Wi Qtr. 3 cl, 1 2-hr lab. Prereq: 200 or Hort 200, and Agronomy 411 or 412, and Genetics 140 or 500. Not open to students with credit for 530.

630 Seed Science U G 5
A study of the physiological processes of seed formation, dormancy, and germination; the production and marketing of seed in commerce. McDonald.
Sp Qtr. 4 cl, 1 2-hr lab.

640 Agroclimatology U G 3
A study of the radiation regime of the atmosphere in relation to the thermal and water regimes of soils and their interrelationships in crop production. Hendelton.
Au Qtr. 3 cl. Prereq: 15 or hrs of agronomy, botany, hort, or equiv at the 300 level or above or permission of instructor.

643 Tropical and Subtropical Soils U G 3
A study of the physical, chemical, and biological properties and the fertilization, physical, and water management of tropical and subtropical soils; crop adaptation, plantation, and subsistence farming. Arscott.
Au Qtr. 3 cl. Prereq: 15 or hrs of agronomy, numbered 300 or higher or permission of instructor.

650* Advanced Soil Classification Morphology and Genesis U G 5
Theory and principles of soil classification schemes emphasizing the 7th Approximation; classification and genesis of major soils of the world; methods to establish parent material homogeneity and indices of soil weathering. Hall and Sneed.
Wi Qtr. 4 cl, 1 2-hr lab, and 3 2-hr labs or 1 3-day field trip arr per qtr. Prereq: 550, 10 or hrs from the following: 442, Geol&Misc 550 and 590.

660 Soil Microbiology U G 5
A study of the morphology and physiology of soil microorganisms and their biochemical transformations of inorganic and organic materials in relation to soil fertility.
Sp Qtr. 3 cl, 2 2-hr labs. Prereq: 442, Microbio 559, and Chem 241.

670 Soil Fertility U G 3
A study of the factors affecting soil productivity and the practices needed in good soil management; fertilizer properties and practices. Arscott.
Au, Wi Qtrs. 3 cl. Prereq: 442.

671 Soil Physics U G 5
A study of the physical makeup and properties of soil, including structure, thermal relationships, consistency, plasticity, water, and their relationships. Taylor.
Au Qtr. 3 cl, 2 2-hr labs. Prereq: 442, Physics 131, and Math 151.

693 Individual Studies U G 3 or 5
Students may select special agronomic problems, not included in regular courses and involving library, laboratory, or field studies.
Su, Au, Wi, Sp Qtrs. H858 (honors) may be available to students enrolled in a college honors program or eligible for enrollment. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Discussion of selected topics in crop science and/or soil science.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

695 Organic Soils U G 3
A comprehensive study of organic soils, their formation, chemical and physical characteristics, classification, and management. Everett.
Wi Qtr. 3 cl, 1 1-day field trip. Prereq: Geol&Misc 101 and 25 cr or hrs from Botany or Chem.

General Prerequisites for Courses Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 or hrs in courses in the same discipline numbered 600 or higher, plus additional specified course(s) numbered 600 or higher.
750* Soil Mineralogy G 5
Theory and application of methods for analyzing minerals in soil environments, including X-rays, clay analysis, electron optical, thermal, and wet chemical techniques. Bingham.
Sp Qtr. 3 cl, 2 2-hr labs. Prereq: 15 cr hrs selected from: 550, 571, 772, GeolMn 521, 623, 537, 635, Chem 520, 651, 878.

760 Soil Biochemistry G 3
A study of soil biochemical techniques and the biochemical transformations of carbon, nitrogen, phosphorus, and heavy metal ions. Dick.
Sp Qtr. 2 1½-hr cl. Prereq: 240, Chem 211 and 241, and Biochem 511.

772 Advanced Soil Chemistry G 5
A study of the chemical and physical chemical properties of soils important to plant nutrition and environmental quality, and of the methods used to evaluate them. McLean.
Sp Qtr. 3 cl, 2 2-hr labs. Prereq: 550, 670, Chem 211 and 12 additional cr hrs in agronomy and/or chem at the 300 level or above. Not open to students with credit for 672.

General Prerequisites for Courses
Numbered 800 and 900

Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 20 cr hrs in courses in the same discipline, or 20 cr hrs in the same discipline, plus 25 cr hrs in specified allied disciplines.

822 Physiological and Biochemical Aspects of Herbicides G 5
Herbicide absorption, fate, and mode of action in plants; persistence and fate in soils. Bingham.
Wi Qtr. 4 cl, 1 2-hr lab. Prereq: Botany 631, Chem 242 or 253, and Biochem 511.

825 Advanced Plant Breeding G 3
Sp Qtr. 2 1½-hr cl. Prereq: 625 or Hort 601; and Genetics 655.

860** Chemistry of Soil Organic Matter G 3
A comprehensive study of soil organic matter, including methods of study, theories of synthesis, physical and chemical properties, accumulation and functions of organic matter. McLean.
Sp Qtr. 3 cl. Prereq: 660 and 25 or hrs of agronomy, or 20 or hrs agronomy and 25 cr hrs chem. Biochem, or microbial.

870* Soil-Plant Relationships G 3
Discussion of recent literature pertaining to growth response, nutrient uptake, movement of nutrients in the soil, and measurement of availability of nutrients to plants. McLean and Himel.
Su (2nd term) Qtr. 3 cl. Prereq: 20 cr hrs of soil and/or plant sciences and 10 cr hrs of plant physiology.

871* Advanced Soil Physics G 3
Moisture, gaseous, and thermal processes and regimes in vegetated soils and their influence on plant growth. Taylor.
Wi Qtr. 3 cl. Prereq: 671 and permission of instructor.

872 Physical Chemistry of Soils G 5
A study of the physiochemical properties of soil including methods of characterizing clay minerals, soil acidity, ionic absorption and release, and plant nutrient uptake. McLean.
Wi Qtr. 3 cl, 2 3-hr labs. Prereq: 671, 772, Chem 521 or 532, and 15 additional cr hrs in agronomy or biological sciences.

880 Seminar G 1
Discussion of current problems in agronomy. Smeal.
Su, Au, Wi, Sp Qtr. 1 cl. Repeatable to a maximum of 6 cr hrs.

885 Research Principles and Techniques G 1
The philosophy of graduate education and the description of the techniques and special equipment most useful for conducting research in crop and soil science. McLean.
Au Qtr. 1 cl. This course is graded S/U.

887 Techniques of Experimental Design G 5
A study of experimental designs and their application to agricultural research. St. Martin.
Su (SARSCC, Homan), Wi Qtr. 5 cl. Prereq: Genetics 660 or Stat 529, and 10 cr hrs of agronomy or related subjects at the 400 level or above.

892 Interdepartmental Seminar in Plant Physiology G 1
Students will present seminars on their research or related topics in plant physiology and/or attend seminars by local and visiting researchers. Au, Wi, Sp Qtr. 1 cl. Prereq: Permission of instructor. Not open to students with 12 cr hrs in Biochem 892, Botany 892, Ed 550/650, or Hort 892. Repeatable to a maximum of 12 cr hrs, including cr hrs earned in Biochem 892, Botany 892, Ed 550/650, and Hort 892. Cross-listed in Biochem, Botany, Food Science and Nutrition, and Horticulture. This course is graded S/U.

984 Group Studies G 1-5
Advanced topics in crop science and/or soil science. Prereq: Written permission of instructor. Repeatable to a maximum of 12 cr hrs.

993 Individual Studies G 3 or 5
Students may select special agronomic problems not included in regular courses. Su, Au, Wi, Sp Qtr. Prereq: Written permission of Instructor. Repeatable to a maximum of 10 cr hrs.

993.01 Agronomic Instruction
10 cr hrs lab.

993.02 Unclassified

999 Research G Arr
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtr. This course is graded S/U.

Air Force Aerospace Studies

353 Converse Hall, 2121 Tuttle Park Place, 422-5441
Air Force aerospace studies leading to a commission in the United States Air Force may be pursued on either a four-, three- or two-year basis. The academic requirements in all these programs are essentially identical. Compressed courses are offered at summer encampments to afford cadets the opportunity to obtain course material in which they are deficient. The General Military Course (first two years of enrollment, normally freshman/sophomore) deals with aerospace doctrine and history of military aviation. The Professional Officer Course (last two years of enrollment, normally seniors and junior) deals with communicative skills, leadership and management training, and national defense policy.

Air Force aerospace studies courses are open to a limited number of non-cadet students with the permission of the instructor. Initial enrollment in the ROTC program may be completed by scheduling Av Sci 101 during Autumn Quarter registration. For registration instructions during other academic terms, contact the Department of Air Force Aerospace Studies.

APROTC requires General Military Course scholarship cadets to complete an English composition course [English 110]. All scholarship cadets must complete one quarter of a foreign language (i.e., French 101, Spanish 101, etc.). In addition, all Professional Officer Course cadets must complete one quarter of a mathematical reasoning course (Math 117 or higher; Statistics 125, or computer and Information Science 261, 221, 221, 221) prior to commissioning.

General Military Course Freshmen and Sophomores

101 The USAF and Strategic Offensive Forces U 2
An introduction to the doctrine, organization, and mission of the US Air Force; an examination of strategic offensive forces, Strategic Air Command and its retaliatory capability. Au Qtr. 2 cl, 1 1-hr lab.
750 Soil Mining A G 5
Theory and application of methods for analyzing minerals in soil environments, including X-ray, thin section, electron optical, thermal, and wet chemical techniques. Bigham.
Sp Qtr. 3 cl, 2-2 hr labs. Prereq: 15 or hrs selected from: 555, 671, 772, GenBioMin 621, 623, 637, 639, Chem 520, 561, 676.

760 Soil Biochemistry U G 3
A study of soil biochemical techniques and the biochemical transformations of carbon, nitrogen, phosphorus, and heavy metals in soils. Dick.
Sp Qtr. 2 1/2 hr cl. Prereq: 240, Chem 211 and 241, and Biochem 511.

772 Advanced Soil Chemistry U G 5
A study of the chemical and physical chemical properties of soils important to plant nutrition and environmental quality, and of the methods used to evaluate them. Nolan.
Sp Qtr. 3 cl, 2-2 hr labs. Prereq: 500, 670, Chem 211, and 12 additional cr hrs in agronomy and/ or chem at the 300 level or above. Not open to students with credit for 672.

General Prerequisites for Courses
Numbered 800 and 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 or hrs in courses in the same discipline, or 20 cr hrs in the same discipline, plus 25 cr hrs in specified allied disciplines.

822 Physiological and Biochemical Aspects of Herbicides G 5
Herbicidal absorption, fate, and mode of action in plants; persistence and fate in soils. Benbow.
Wi Qtr. 4 cl, 1-2 hr lab. Prereq: Botany 631, Chem 242 or 253, and Biochem 511.

825 Advanced Plant Breeding G 3
Sp Qtr. 2 1/2 hr cl. Prereq: 625 or Hort 601, and Genetics 650.

8601 Chemistry of Soil Organic Matter G 3
A comprehensive study of soil organic matter including methods of study, theories of synthesis, physical and chemical properties, accumulation and functions of organic matter. Bigham.
Sp Qtr. 3 cl. Prereq: 680 and 25 or hrs of agronomy, or 20 cr hrs agronomy and 25 or hrs chem, biochem, or microbiol.

870 Soil-Plant Relationships G 3
Discussion of recent literature pertaining to growth response curves, nutrient uptake, movement of nutrients in the soil, and measurement of availability of nutrients to plants. McLain and Hines.
Su (2nd term) Qtr. 3 cl. Prereq: 20 or hrs of soil and/ or plant sciences and 10 or hrs of plant physiology.

871 Advanced Soil Physics G 3
Moisture, gasous, and thermal properties and regimes in vegetated soils and their influences on plant growth. Taylor.
Wi Qtr. 3 cl. Prereq: 671 and permission of instructor.

872 Physical Chemistry of Soils G 5
A study of the physicochemical properties of soil including methods of characterizing clay minerals, soil acidity, ionic absorption and release, and plant nutrient uptake. McLain.
Wi Qtr. 3 cl, 2-3 hr labs. Prereq: 671, 772, Chem 521 or 532, and 15 additional cr hrs in agronomy or biological sciences.

880 Seminar G 1
Discussion of current problems in agronomy. Sneed.
Su, Au, Wi, Sp Qtrs. 1 cl. Repeatable to a maximum of 6 or hrs.

885 Research Principles and Techniques G 1
The philosophy of graduate education and the description of the techniques and special equipment most useful for conducting research in crop and soil sciences. McLain.
Au Qtr. 1 cl. This course is graded S/U.

887 Techniques of Experimental Design G 5
A study of experimental designs and their application to agricultural research. St. Martin.
Su (OARDC, Holmes) Qtr. 5 cl. Prereq: Genetics 650 or Stat 529, and 10 or hrs of agronomy or related subjects at the 400 level or above.

892 Interdepartmental Seminar in Plant Physiology G 1
Students will present seminars or discuss research or related topics in plant physiology and/or attend seminars by local and visiting researchers.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Permission of instructor. Not open to students with 12 or hrs in Biochem 892, Botany 892, Fd Sci/Nu 892, or Hort 892. Repeatable to a maximum of 12 cr hrs, including or hrs earned in Biochem 892, Botany 892, Fd Sci/Nu 892, and Hort 892. Cross-listed in Biochemistry, Botany, Food Science and Nutrition, and Horticulture. This course is graded S/U.

894 Group Studies G 1-5
Advanced topics in crop science and/ or soil science.
Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs.

993 Individual Studies G 3 or 5
Students may select special agronomic problems not included in regular courses.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs.

995 Unclassified

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

General Military Course Freshmen and Sophomores

101 The USAF and Strategic Offensive Forces U 2
An introduction to the doctrine, organization, and mission of the US Air Force; an examination of strategic offensive forces, Strategic Air Command and its retaliatory capability.
Au Qtr. 2 cl, 1-1 hr lab.
Aerospace Defense and Tactical Air Operations U 2
The use of satellites, radar systems, and fighter/reconnaissance aircraft by Aerospace Defense Command and Tactical Air Command; new developments in airpower.
Wk Qtr. 1 cl, 1 hr lab.

Transportation, Logistics, and Research in the Air Force U 2
Survey of military airlift; the complex logistical problem of sustaining operational forces in combat; research organizations in the development of new aircraft and weapons.
Sp Qtr. 2 cl, 1 hr lab.

Introduction to the Development of Air Power U 2
A study of the development of air power from mythology through the 1940’s.
Au Qtr. 2 cl, 1 hr lab.

The Growth of Air Power to Prominence U 2
A study of air power during the 1950’s.
Wk Qtr. 1 cl, 1 hr lab.

Concepts and Doctrine Governing the Employment of Air Power U 2
A study of air power and its employment during the 1960’s, 1970’s, and 1980’s.
Sp Qtr. 2 cl, 1 hr lab.

Professional Officer Course Juniors, Seniors, and Graduate Students

Management—Behavior and Decision Making U 3
Management course stressing motivational and behavioral processes in individual/group dynamics; development of oral and written communicative skills with videotape practitioners.
Au Qtr. 3 cl, 1 hr lab. Prereq: Completion of General Military Courses or ARPOTC Six-Week Summer Camp; or permission of instructor.

Leadership and Staff Functions U 3
A study of leadership within administrative and staff functions to provide the junior Air Force officer with planning and management skills.
Wk Qtr. 1 cl, 1 hr lab. Prereq: 301 or permission of instructor.

Management Fundamentals U 3
Knowledge base, process, and reality of managing; introduction to organization structure and technology; in-depth study of planning, organizing, staffing and controlling functions, and the modern manager.
Sp Qtr. 3 cl, 1 hr lab. Prereq: 302 or permission of instructor.

Military Professionalism U 3
A study of the major influences and ideas of the military profession, to include the all-volunteer force.
Au Qtr. 3 cl, 1 hr lab. Prereq: 303 or permission of instructor.

Defense Policy and Decision Making U 3
An investigation into the strategy and management of conflict, the formulation and implementation of US defense policy and the US defense establishment.
Wk Qtr. 3 cl, 1 hr lab. Prereq: 401 or permission of instructor.

Strategic Issues and Preparation for Active Duty U 3
Investigation of current and future strategic issues; arms control; introduction to the military justice system; preparation for active duty as an Air Force officer.
Sp Qtr. 3 cl, 1 hr lab. Prereq: 402 or permission of instructor.

Allied Medicine
School of Allied Medical Professions
127 School of Allied Medical Professions Building, 1583 Perry Street, 422-5818

Introduction to Health Professions U 2
An introduction to the professions, both undergraduate and graduate, that contribute to the delivery of health care in America.
Wk Qtr. 2 cl.

Electronic Principles in Medical Instrumentation U 5
The use of electronic components, circuits, operational amplifiers, and differential amplifiers in medical instrumentation.
Au Qtr. 3 cl, 2 2-hr labs. Prereq: Physics 112, Math 152, and permission of instructor.

Critical Phases in Life I U 3
An examination of man’s development from conception to death and factors critical to his continuing health.
Au, Sp Qtr. 3 cl. Prereq: Biology 110 or equiv., and 5 hrs psych.

Management of the Critically Ill U P 1-2
Instruction in the care of the patient requiring advanced life support techniques.
Sp Qtr. 2 cl. Enrollment in nurse anesthesia or respiratory therapy or permission of instructor. Not open to students with credit for Nurse Anesthesia 450.

Medical Terminology
Terminology pertaining to the treatment of disease, including standard abbreviations, anatomic, diagnostic, symptomatic, etiologic, laboratory, pathologic, radiologic, anesthetic, operative, and drug terms.
Prereq: Admission to the School of Allied Medical Professions or permission of instructor.

Principles of Disease I U 3
Basic pathophysiology and its application to the organ systems.
Au Qtr. 3 cl. Prereq: Admission to the School of Allied Medical Professions and Physiol 312 or Zoology 232; or permission of instructor.

Principles of Disease II U 3
A continuation of 505.
Wk Qtr. 3 cl. Prereq: 505.

Musculoskeletal Disease U G 2-3
Principles, clinical aspects, and therapeutic procedures related to diseases of the musculoskeletal system.
Sp Qtr. 3-3 cl. Prereq: Admission to the School of Allied Medical Professions or written permission of instructor.

Introduction to Neurodevelopmental Handling U G 2
Neurodevelopmental management techniques for infants up to two years; geared to physical handling of motor problems resulting from developmental disabilities.
Au, Wk Qtr. 1 2-hr cl. Prereq: 425 or permission of instructor.

Neuromuscular Disease U G 3
Survey of injury and disease of the central, peripheral, and autonomic nervous systems; presentation of clinical material.
Wk Qtr. 3 cl. Prereq: Anatomy 201 or permission of instructor.
565 Coping with Terminal Illness and Death U 3
An exploration of the psycho-social needs of the dying, alternative approaches to meeting those needs, and the impact of the attitudes of attending health professionals.
Wi Qtr. 1 2½-hr cl. Prereq: Permission of instructor, 4th yr standing, or health profession credential.

591 Health Care Organization U 3
An examination of the roles of public and private organizations in planning and supporting health care, including study of health trends, social legislation, and current professional issues.
Au, Sp Qtr. 3 cl. Prereq: Enrollment in School of Allied Medical Professions or School of Nursing or permission of instructor.

610 The Hospital as an Educational Institution U G 3
Hospital as a clinical learning environment for medical and allied medical professionals; in-service education; patient and community health education; continuing education.
Wi Qtr. 3 cl. Prereq: Permission of instructor.

625 Critical Phases in Life II U G 3
The application of developmental concepts as reference for evaluation, management, and health care of individuals within their environment.
Wi, Sp Qtr. 2 1½-hr cl. Prereq: 425 and physiology, or permission of instructor.

630 Management of Hospital Departments U P G 3
An analysis of the management process and its application to the hospital setting.
Au, Sp Qtr. 3 cl. Prereq: Enrollment in School of Allied Medical Professions or permission of instructor.

650 Application of Computers in Health Sciences U G 3
Basic concepts related to the application, analysis, planning, and use of computers in health care, education, and research.
Au Qtr. 2 2 hr cl.

655 Understanding the Aging Process P G 3
Study of physical and mental health components of normal aging with emphasis on critical components of successful aging, presented as bases for delivery of health services.
Su Qtr. 2 1½-hr cl. Prereq: Permission of instructor or 4th yr standing in a health profession major.

666 Team Approach to Geriatric Health Care U P G 3
Identifying, understanding, and providing for therapeutic needs of aged clients through interdisciplinary team work.
Au Qtr. 2 1 hr cl. 1:2-3 hr clinic; Prereq: Psych 665, Hlth Edu 702 or Allied Med 665; undergrads must have permission of instructor or 4th yr standing.

567 Health Care Systems for the Aging U G 3
A general systems view of the political, social, economic, and educational systems that impact on the manner in which health care services are provided to the aged.
Sp Qtr. 2 1½-hr cl. Prereq: Sr standing and permission of instructor.

692 Workshop U G 1-9
Concentrated examination of problems common to health professionals, identifying principles, and methods of resolution.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs.

693 Individual Studies U G 1-5
Guided study of selected topics.
Su, Au, Wi, Sp Qtr. 1-5 cl. HHS 310 (honors) may be available to students enrolled in an honors program and/or by permission of a division within the school. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Supervised group studies of special topics within the various professions of the allied health field.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

695 Seminar U G 1-6
Conferences and group discussions of selected topics.
Su, Au, Wi, Sp Qtrs. 1-3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs.

700 Interprofessional Education
Focus on ethical issues, changing professional/consumer rights, and interprofessional cooperation.
3 cl. Repeatable to a maximum of 8 or hrs. Limited to students in allied medical professions, education, law, nursing, medicine, social work, and theology (Columbus seminars).
700.01 Interprofessional Care U G 3
Treatment of the whole person through the analysis of the interrelated problems of actual patients/clients.
Wi Qtr.

700.02 Changing Societal Values U G 3
Identification and clarification of values considerations as they relate to professional problems in dealing with consumer/patients.
Au Qtr.

700.03 Ethical Issues U G 3
Ethical issues of concern to the professions and arising out of advanced technology: euthanasia, mind control, malpractice, social responsibility of the professions.
Sp Qtr.

700.04 Interprofessional Practicum in Clinical Settings U G 3 or 5
Interprofessional teamwork in clinical settings.
Wi, Sp Qtrs. Arr. Prereq: Permission of instructor.

795 Seminar U G 1-3
Investigation of current topics of interest to allied health practitioners.
Su, Au, Wi, Sp Qtrs. 1-3 cl. Prereq: Permission of Instructor. Repeatable to a maximum of 9 or hrs.

797 Interdepartmental Seminars U P G 1-5
See Interdepartmental Seminars.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.

850 Issues in Allied Health U G 3
Discussion and critical examination of current issues in the allied health field and their impact on the health professions.
Su, Wi Qtr. 1 2 hr cl. 1 hr arr.

870 Fundamentals of Curriculum in Allied Health Education G 3
Study of curriculum antecedents and issues in allied health; an orientation for health professionals dealing with the major curriculum forces which shape allied health education.
Su Qtr. 3 cl. Prereq: Ed F & R 841.

889 Practicum G 2-5
Practical experience in the educational or administrative setting within the allied health fields.
Su, Au, Wi, Sp Qtrs. 1 1 hr cl. lab arr. Repeatable to a maximum of 10 or hrs.
889.01 Educational
Practical experience in an educational setting within the allied health fields.
Prereq: 3 or hrs in educational methodology.

889.02 Administration
Practical experience in an administrative setting within the allied health fields.
Prereq: HHSA 815 or equiv and written permission of instructor.
999 Research G 1-9
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr's. Repeatable to a maximum of 9 cr or hrs.
This course is graded S/U.

Anatomy
4072 Graves Hall, 333 West 10th Avenue, 422-4831

For related courses see Medicine and Zoology.

200 Introductory Anatomy U 6
Fundamental principles of human anatomy, supplemented by
demonstrations of human material. Guy.
Au, Wi, Sp Qtr's. Prereq: Enrollment in School of Nursing or
Division of Dental Hygiene or School of Allied Medical
Professions or College of Pharmacy or Prepharmacy or
permission of instructor.

201 Neuromuscular Anatomy U 5
Neuromuscular anatomy of the human body. Chidley.
Au Qtr, 2 cr, 2 3-hr labs. Prereq: Enrollment in School of Allied
Medical Professions or permission of instructor.

601 Human Anatomy for Dental Students P G 7
The integrated study of gross, microscopic, neurologic,
and embryonic anatomy of the human body. Verann and staff.
Au Qtr, 6 cr, 1 3-hr lab. Prereq: Dent fresh standing or
permission of instructor.

602 Human Anatomy for Dental Students P G 7
A continuation of 601. Verann and staff.
Wi Qtr, 6 cr, 1 3-hr lab. Prereq: 601 or permission of
instructor.

603 Human Anatomy for Dental Students P G 7
A continuation of 602. Verann and staff.
Sp Qtr, 6 cr, 1 3-hr lab. Prereq: 602 or permission of
instructor.

603 Individual Studies in Anatomy
U G 2-5, P 6, 12, 18
Designed to enable the student to pursue a minor investigation
in some anatomical field of his choice.
Su, Au, Wi, Sp Qtr's. 1 month, offered all months. Prereq:
Permission of instructor. Repeatable to a maximum of 24 cr
hrs for professional credit. This course is graded S/U.

700 Human Histology U G 6
A microscopic study of cells, tissues, and organs with
particular emphasis on human; consideration of microscopic
structure in relation to function of various organ systems.
Hayes.
Sp Qtr, 3 cr, 3 2-hr labs. Prereq: Permission of instructor.

701 Human Gross Anatomy U G 6
Regional dissections of abdomen, pelvis, and lower limb with a
study of cross sections and normal x-rays. Gaughran.
Wi Qtr, 3 cr, 3 3-hr labs. Prereq: Permission of instructor.

702 Human Gross Anatomy U G 4
Regional dissections of upper limb, head, neck, and thorax
with a study of cross sections and normal x-rays. Gaughran.
Au Qtr, 2 cr, 2 3-hr labs. Prereq: Permission of instructor.

703 Human Developmental Anatomy U G 6
Detailed analysis of the growth and differentiation of individual
organ systems; role of growth factors in differentiation of these
systems; common anomalies; and discussions of contemporary
research methods. Delphi.
Sp Qtr, 3 cr, 3 2-hr labs. Prereq: Permission of instructor.

704 Human Neuroanatomy U G 6
Functional anatomy of the central nervous system and its
pathways, cross sections of the brain and spinal cord will be
utilized. Humbertson.
Wi Qtr, 3 cr, 3 2-hr labs. Prereq: Permission of instructor.

710 Embryology I G 3
Designed to acquaint the anatomy graduate student with a
basic knowledge of human embryology. Deppe.
Au Qtr. Arr. Prereq: Permission of instructor. 710 and 711
must be taken in sequence beginning in the Au Qtr.

711 Embryology II G 3
Continuation of 710.
Wi Qtr. Arr. Prereq: 710 and permission of instructor. 710 and
711 must be taken in sequence beginning in the Au Qtr.

712 Gross Anatomy I G 6
Designed to acquaint the anatomy graduate student with a
basic knowledge of human gross anatomy by regional
dissection. Schuchetson.
Au Qtr. Arr. Prereq: Permission of instructor. 712 and 713
must be taken in sequence beginning in the Au Qtr.

713 Gross Anatomy II G 6
Continuation of 712.
Wi Qtr. Arr. Prereq: 712 and permission of instructor. 712 and
713 must be taken in sequence beginning in the Au Qtr.

714 Histology I G 6
Designed to acquaint the anatomy graduate student with a
basic knowledge of human histology. Hayes.
Au Qtr. Arr. Prereq: Permission of instructor. 714 and 715
must be taken in sequence beginning in the Au Qtr.

715 Histology II G 5
Continuation of 714.
Wi Qtr. Arr. Prereq: 714 and permission of instructor. 714 and
715 must be taken in sequence beginning in the Au Qtr.

716 Neuroanatomy G 7
Designed to acquaint the anatomy graduate student with a
basic knowledge of human neuroanatomy. Martin.
Sp Qtr. Arr. Prereq: Permission of instructor.

805 Anatomical Techniques G 5
The preparation of biological materials for light and electron
microscopy. Deppe.
Sp Qtr. Arr. Prereq: Permission of instructor. Open only to
grad students in anatomy.

850 Seminar in Anatomy G 1
Discussions of research in progress and reports from the
literature of current anatomical problems.
Wi, Sp Qtr's. Repeatable to a maximum of 20 cr or hrs.

875 Electron Microscopy Techniques G 5
Theoretical and practical aspects of chemical fixation and
sectioning of biological materials and the operation of the
electron microscope. Bury.
Sp Qtr, 2 1-hr cr, 2 3-hr labs. Prereq: Permission of instructor.
Animal Science

110 Animal Science Building, 2029 Fyffe Road, 422-6401

100 Domestic Animals in the Service of Man U 5

The role of the animal industry in the world and the importance of the application of science in meeting the needs in the production, distribution, and utilization of animal products. Schmit, Pimplton, and Stephens.
Au, Wi, Sp Qtrs. 5 cl. Offered in cooperation with Dairy Science and Poultry Science. This course is available for EM credit.

General Prerequisites for Courses Numbered 200

Unless otherwise indicated, the prerequisites for 200-level courses are 45 or hrs in collegiate courses, exclusive of ROTC and phys ed; or specified course(s) numbered 100-199.

200 Introductory Animal Science U 5

Introduction to selection, breeding, feeding, management, marketing, and utilization of beef cattle, swine, and sheep; limited discussion of the horse, goat, Pimplton, Turner, and R. Wilson.
Au, Wi, Sp Qtrs. 3 cl, 2 2-hr lab. Prereq: 100. This course is available for EM credit.

250 Meat Selection and Identification U 3

Structure and composition of beef, pork, veal, and lamb used to emphasize merchandising for domestic and institutional purposes. Pettit.
Au, Wi Qtrs. 3 2-hr labs. Not open to students with credit for 452.

General Prerequisites for Courses Numbered 300 and 400

Unless otherwise indicated, the prerequisites for 300- and 400-level courses are 50 or hrs in collegiate courses, exclusive of ROTC and phys ed; or specified course(s) numbered 100-399.

420 Principles of Animal Improvement U 5

An introduction to the methods available for bringing about genetic change in farm animals. Davis, Hedges, Irvin, and Traver.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 100, Math 148 or equiv, and Genetics 140. Not open to students with credit for Dairy Sc 420 or Ptry Sc 420. Cross-listed in Dairy Science and Poultry Science.

430 Principles of Animal Nutrition U 5

A study of the fundamental principles of nutrition in mammals and birds. Cline, Latshaw, and Tryon.
Au, Wi, Sp Qtrs. 4 cl, 1 2-hr lab. Prereq: Chem 102 or 103 and Math 148 or equiv. Not open to students with credit for Dairy Sc 430 or Ptry Sc 430. Cross-listed in Dairy Science and Poultry Science.

440 Livestock Management U 5

Feeding, breeding, and managing of beef, sheep, and swine; laboratory exercises focus on major management problems. G. Wilson.
Wi Qtr. 3 cl, 2 2-hr lab. Prereq: 200 and 430. Not recommended for animal science majors.

452 Meat and Meat Products U 3

Analysis of the interdependent factors of meat animals, meat and meat products, processing and merchandising in their relationship to man as producer, processor, and consumer. Cahill and Pimplton.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 5 or hrs animal sc.

453 Meat and Meat Products Laboratory U 3

Conversion of meat animals to the variety of consumer products: slaughter, cutting, curing, preservation, and other processing; product evaluation related to animal value and consumer needs. Cahill, Pettit, and Pimplton.
Au, Wi, Sp Qtrs. 2 3-hr labs. Prereq or concour: 452.

Anesthesiology

N431 University Hospital, 410 West 18th Avenue, 421-8487

The faculty of the Department of Anesthesiology is responsible for the clinical instruction of Med III and Med IV students enrolled in Med Coll 664. The curriculum emphasizes anatomy, applied physiology, and clinical pharmacology as they relate to the discipline of anesthesiology. Additional electives include surgical intensive care and applied or basic research opportunities.
455 Meat Animal and Carcass Evaluation U 3
The factors that influence the value of meat animals, carcasses, and wholesale cuts in accordance with recognized grading standards; laboratory practice. At least one practicum. Wi, Fall, Spring. Prereq: 200.

494 Group Studies U 3-5
Su, Au, Wi. Sp Qtr. Arr. Repeatable to a maximum of 15 or more. Wi, Fall, Spring. Prereq: 200.

General Prerequisites for Courses
Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 or hrs in courses in the same discipline numbered 200 or higher, or 10 or hrs in courses numbered 200 or higher in the same discipline, plus 10 or hrs in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

500 Livestock Selection U G 5
Laboratory exercises employing current standards of animal excellence including carcass value for the selection and improvement of farm livestock, Turner. Wi Qtr. 5 2-hr lab-discussions. Prereq: 200, and 541 or 542 or 543 or 544.

Livestock Marketing
See Agr Econ 522. Offered in cooperation with Agr Econ.

522 Genetic Improvement of Beef Cattle U G 3
Use of genetic principles to develop breeding plans for selection of seedstock herds for economic traits and their utilization in commercial production. Turner. Wi Qtr. 3 or 4, or Dairy Sc 420 or Poultry Sc 420.

523 Genetic Improvement of Swine U G 3
Application of genetic principles for swine improvement; selection, mating, testing for predicting genetic value and use of data in decision-making criteria for economically important characteristics. Lehnhoff. Sp Qtr. 3 or 4, or Dairy Sc 420 or Poultry Sc 420.

541 Horse Production and Management U G 5
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of horses. Kline and Stauffer. Au, Wi Qtr. 3 or 4, or 1 2-hr lab. Prereq: 200, 430, and 5 additional or hrs in animal or dairy or poultry.

542 Beef Cattle Production and Management U G 5
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of beef cattle. G. R. Wilson. Au, Sp Qtr. 3 or 4, or 2 2-hr labs. Prereq: 200, 430, and 5 additional or hrs in animal or dairy or poultry.

543 Swine Production and Management U G 5
Selection of breeding stock and evaluation of market swine; reproduction, feeding, health, and management of swine; visits to swine herds. R. F. Wilt. Wi, Sp Qtr. 3 or 4, or 2 2-hr labs. Prereq: 200, 430, and 5 additional or hrs in animal.

544 Sheep Production and Management U G 5
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of sheep. Wi, Sp Qtr. 3 or 4, or 2 2-hr labs. Prereq: 200, 430, and 5 additional or hrs in animal or dairy or poultry.

550 Meat Processing U G 3
Fundamental changes in soft animal tissues resulting from comminution and application of chemicals and heat. Cahill. Au, Sp Qtr. 2 or 3, 1 2-hr lab. Prereq: 452.

581 Equine Reproduction Management U G 5
Study of equine reproductive management and its use in a breeding and foaling program with emphasis on mare and stallion care for maximum reproductive efficiency. Kline and Stauffer. Sp Qtr. 3 or 4, 2 2-hr labs. Prereq: 541 and Vet Phys 411 or equiv.

591 Animal Science Technology U G 3
Su, Qtr. 3 or 4. Repeatable to a maximum of 12 or hrs.

591.02 Beef
Advanced studies in beef cattle production with a critical analysis of research in nutrition, physiology, and meat.

591.03 Swine
Advanced studies in swine production with a critical analysis of research in management, genetics, nutrition, physiology, and meat.

591.04 Sheep
Advanced studies in sheep production with a critical analysis of research in genetics, nutrition, physiology, and meat.

593 Individual Studies U G 2-5
Special assignments and elementary research problems assigned after consultation with instructor in charge. Su, Au, Wi, Sp Qtr. H103 (honors) may be available to students enrolled in an honors program or eligible for enrollment. Prereq: Jr or Sr standing and permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded SU.

General Prerequisites for Courses
Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 or hrs in courses in the same discipline numbered 300 or higher, or 10 or hrs in courses numbered 300 or higher in the same discipline, plus 10 or hrs in courses numbered 300 or higher in specified allied disciplines.

610 Physiology of Lactation U G 3
The physiological, endocrine, nutritional, and environmental factors influencing the synthesis and ejection of milk. Schmidt. Au Qtr. 2 1-hr cl, 1 1-hr lab. Prereq: Vet Phys 411 and 20 or hrs in animal or dairy or poultry or vertebrate biology. Not open to students with credit for Dairy Sc 610. Cross-listed in Dairy Science.

612 Physiology of Reproduction and Growth U G 3
Physiology of the reproductive system and growth and development in farm animals; factors influencing reproductive performance. Pate. Au, Sp Qtr. 3 or 4, or Vet Phys 411 and 20 or hrs in animal or dairy or poultry or vertebrate biology. Not open to students with credit for Dairy Sc 612. Cross-listed in Dairy Science.

613 Laboratory in Reproductive Physiology and Artificial Insemination U G 3
Comparative anatomy and physiology of reproduction of farm animals; physiological bases for the use of artificial insemination in research laboratory and in the field. Pate. Au, Sp Qtr. 2 2-hr labs. Prereq: or conc. 612 or Dairy Sc 612. Not open to students with credit for Dairy Sc 813. Cross-listed in Dairy Science.

630 Nutrition and Feeding of Nonruminant Animals U G 5
The nutrition of swine, poultry, and laboratory animals; principles and practice. Latshaw. Su, Au, Wi, Sp Qtr. 4 or 5, 1 2-hr lab. Prereq: 430 or Dairy Sc 430 or Poultry Sc 430 or equiv. Not open to students with credit for Poultry Sc 630. Cross-listed in Poultry Science.

631 Nutrition and Feeding of Ruminant Animals U G 5
The nutrition of dairy cattle, beef cattle, and sheep; principles and practice. Cline, Stubbins, and Tyszko. Su, Au, Wi, Sp Qtr. 4 or 5, 1 2-hr lab. Prereq: 430 or Dairy Sc 430 or Poultry Sc 430 or equiv. Not open to students with credit for Dairy Sc 631. Cross-listed in Dairy Science.
632 Equine Nutrition U G 5
Physiology, biochemistry, and practical application of feeding horses. Tyznik.
Sp Qtr. 5 cr. Prereq: 430.

635 Nutrition Applied to Farm Animals U G 3
Application of nutrient requirements, feed formulation, and feed technology to providing adequate nutrition for farm animals. Okhr, Tumlin, Nolen, Newland, Streeter, and Tysnik.
Sp Qtr. 3 cr. Prereq: 630 or 631 or 632 or Dairy Sc 631 or Dairy Sc 630 or Dairy Sc 650. Not open to students with credit for 735, or Dairy Sc 630 or 735, or Dairy Sc 630 or 725.

642 Cattle Feeding Management U G 3
Wi Qtr. 2 2-hr cr. Prereq: 542.

643 Advanced Swine Production U G 3
Recent advances in production practices with swine. R. F. Wilson.
Au Qtr. 2 2-hr cr. Prereq: 543 and 630 or equiv.

650 Advanced Meat Technology U G 3
Evaluation of scientific contribution to meat products and processing. Ockerman.
Sp Qtr. 2 cr. 2 1-hr labs. Prereq: 15 or hrs chem, 5 or hrs microbiol, and 5 or hrs anatomy.

651 Laboratory Analysis of Meat Products U G 5
Analysis of meat products by physical, chemical, and microbiological techniques. Ockerman.
Wi Qtr. 2 cr. 2 1-hr labs, 4 hrs arr. Prereq: 452 and 453 or permission of instructor, 10 or hrs chem, and 5 or hrs microbiol.

654 Quality Control Interpretation U G 3
Sampling, statistical plotting, and chart interpretation using examples drawn from the food area. Ockerman.
Sp Qtr. 3 cr.

693 Individual Studies U G 3-5
Special assignments and advanced research; problems assigned after consultation with the instructor in charge.
Su, Au, Wi, Sp Qtrs. Honors may be available to students enrolled in an honors program or eligible for enrollment. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 3-5
Special assignments and advanced research; problems assigned after consultation with the instructor in charge. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.

General Prerequisites for Courses Numbered 700 and 800
Unless otherwise indicated, the prerequisites for 700-level courses are 15 or hrs in courses in the same discipline numbered 600 or higher, plus additional specified course(s) numbered 600 or higher.

710 Advanced Reproductive Physiology U G 3 or 5
Recent advances in research in mammalian reproduction; optional individual research experience in reproductive problems with small and large mammals for additional credit. Patel.
Wi Qtr. 2 2-hr cr. Prereq: 612 or Dairy Sc 612; and acceptable courses in physiol, anatomy, and biochem. Not open to students with credit for Dairy Sc 710. Cross-listed in Dairy Science.

721 Genetics of Animal Populations I U G 3
Parameters of static populations, genetic arrays and equilibria, and statistical measures; partitioning the phenotypic variance in simple, migration, selection, and chance. Ivins.
Wi Qtr, 3 cr. Prereq: 420 or Genetics 500, and Genetics 650 or equiv. Not open to students with credit for Dairy Sc 630 or Dairy Sc 721. Cross-listed in Dairy Science and Poultry Science.

722 Genetics of Animal Population II U G 3
Selection for polygenic characters, mating systems, and development of breeding plans. Ivins.
Sp Qtr. 3 cr. Prereq: 721 or Dairy Sc 721 or Dairy Sc 721 or Dairy Sc 721 or Dairy Sc 721 or Dairy Sc 721. Cross-listed in Dairy Science and Poultry Science.

733 Nutrition in the Support of Growth U G 5
A functional approach to the study of nutrition for support of growth and maintenance in animals and humans. Mahan.
Au Qtr. 5 cr. Prereq: 630 or 631 or 632 or Dairy Sc 531 or Dairy Sc 530 or Dairy Sc 530 or Dairy Sc 530. Cross-listed in Dairy Science, Food Science and Nutrition, and Poultry Science.

734 Nutrition in the Support of Reproduction U G 3
A functional approach to the study of nutrition for support of reproduction in animals and humans. Lattshaw, Naber, Palmquist, Roehrig, and Stauber.
Wi Qtr. 3 cr. Prereq: 733 or Dairy Sc 733 or Dairy Sc 530 or Dairy Sc 530. Cross-listed in Dairy Science, Food Science and Nutrition, and Poultry Science.

General Prerequisites for Courses Numbered 800 and 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 or hrs in courses in the same discipline, or 20 or hrs in the same discipline, plus 25 or hrs in specified allied disciplines.

800 Seminar G 1
Discussions of current animal science research.
Au, Wi, Sp Qtrs. Prereq: Animal Sci grad standing. This course is graded S/U.
A—Departmental Seminar
B—Swine Nutrition Seminar

810 Advances in Physiology of Domestic Animals U G 3
Au, Wi, Sp Qtrs. 1 1-hr cr. Prereq: Written permission of instructor and acceptable courses in physiol, anatomy, and biochem. Not open to students with credit for Dairy Sc 810 or Dairy Sc 810. Cross-listed in Dairy Science and Poultry Science.

810.01 Additional Poultry Physiology
Bacon.
Au Qtr.

810.02 Endocrinology of Reproduction
Wi Qtr.

810.03 Immunology and Immunogenetics
Hines.
Sp Qtr.

810.05 Mammalian Germ Cells
Murray.
Au Qtr.

820 Current Topics in Animal Genetics G 3
3 cr. Prereq: Acceptable courses in animal genetics, math, and statistics. Not open to students with credit for Dairy Sc 820 or Dairy Sc 820. Repeatable to a maximum of 12 or hrs. Cross-listed in Dairy Science and Poultry Science.

820.01 Selection Index Theory
Allaire.
Au Qtr.

820.02 Non-additive Genetic Variance
Harvey.
Wi Qtr.

820.04 Simulation of Genetic Systems
Allaire and Davis.
Sp Qtr.

820.05 Cytogenetics of Animal Populations
Fecheimer.
Wi Qtr.
830 Advanced Studies in Nutrition G 3
Su, Au, Wi, Sp Qtrs: 3 or 4 cr. Prereq: 530 or 631 or Humn Nr: 610; Fl Sc&Nu 761 and 762; 19 grad or hrs in physiol.
Not open to students with credit for Dairy Sc 830 or Humn Nr 830 or Prrty Sc 830. Cross-listed in Dairy Science, Food Science and Nutrition, Human Nutrition and Food Management, and Poultry Science.

830.01* Energy
Wi UIr.

830.02* Minerals
Cline.
Sp Qtr.

830.03* Proteins and Amino Acids
Naber and Veevan.
Sp Qtr.

830.04* Vitamins
Naber.
Au Qtr.

830.05* Lipids
Patquist.
Wi Qtr.

830.07* Rumen Microbiology
Dekority.
Su Qtr. This course is not available in humn nr or prry sc.

830.08* Food in International Agriculture G 3 or 5
A study of international food production, processing, and utilization. Cookman.
Su Qtr. 5 cr; 1-1 hr lab. Repeatable to a maximum of 6 or 5 cr.

858* Intra- and Interdepartmental Seminar in Nutrition G 1
See Interdepartmental Seminars.
Sp Qtr. This course is graded S/U.

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Anthropology

244 Lord Hall, 124 West 17th Avenue, 422-4149

200 Introduction to Physical Anthropology U 5
A scientific examination of man as a biological and cultural organism based on primate evolution from living and fossil evidence; evolutionary theory and population adaptability. Porier, Scull, and staff.
Su, Au, Wi, Sp Qtrs. 5 cr. Not open to students with credit for 251. BER/LAC/LAR course.

201 Introduction to Prehistory U 5
World prehistory from the origin of human culture through the development of civilization illustrated by selected examples; archaeological field methods; concepts of analysis and interpretation. Dancey and Sumner.
Su, Au, Wi, Sp Qtrs. 5 cr. H201 (honors) may be available to students enrolled in an honors program or by permission of dept. Not open to students with credit for 251. BER/LAC/LAR course. SS Admin Cond course.

202 Introduction to Cultural Anthropology U 5
Comparative survey of tribal and peasant peoples in the several world culture regions; culture concepts; study of selected topics. Arens, Chaliand, and Messenger.
Su, Au, Wi, Sp Qtrs. 5 cr. H202 (honors) may be available to students enrolled in an honors program or by permission of dept. Not open to students with credit for 210. BER/LAC/LAR course. SS Admin Cond course.

294 Group Studies U 2-5
Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 or hrs.

401 Fundamentals of Archaeology U 5
Introduction to basic archaeological theory and practice including fundamental field and laboratory principles; excavation, chronological analysis, typology, and paleoanthropology. Jonczyk and Sumner.
Au Qtr. 4 cr. Prepar: 201 or permission of instructor.

402 Physical Anthropology of Selected World Regions U 5
Description and analysis of simple and complex hereditary characteristics in order to evaluate origin adaptations and affinities of populations in a world region.
5 cr. Prepar: 200 or permission of instructor.

402.01 North American Indians

421 Regional Survey Course in Cultural Anthropology
A survey of the cultures of selected regions.
Au, Wi, Sp Qtrs. 4 or 5 cr. Repeatable to a maximum of 16 or hrs in any combination of decimal subdivisions.

421.01 China U 4
A general survey of the traditional Chinese culture and society; family, kinship, and socio-political organisations; their transformations during the last century. Chen.
Not open to students with credit for 414. BER/LAC/LAR course.

421.02 Southeast Asia U 4
Survey of the peoples of the region and their cultures; prehistoric origins; diversity and similarity; processes of modernization. Chen.
Not open to students with credit for 414.

421.03 Traditional Africa U 4
Traditional cultures of Africa south of the Sahara; distribution of physical types, languages, cultural areas; West Coast kingdoms as a source of the American black. Arewa.
Not open to students with credit for 415. BER/LAC/LAR course.

421.04 Changing Societies in Africa U 5
Study of the ways in which the retention of established customs and the acceptance of innovation have interacted in selected spheres of life in contemporary Africa. Arewa.

421.05 Latin America U 5
The pre-Columbian background; contemporary cultures and social organization; the emergence of Latin America as a distinct culture area in the modern world. Not open to students with credit for 416.

421.06 Ireland U 4
An examination of Irish prehistory and history and of Irish peasant culture and its influence on contemporary esthetics and its diffusion to the Americas. Prereq: 202 or equiv or permission of instructor. Not open to students with credit for 620.09.

421.07 United States U 4
A review of American customs, institutions, social systems, and ideas, with emphasis on recent cultural anthropological studies.
Not open to students with credit for 500. BER course.

421.08 Indians of North America U 4
Development of culture change in North American Indians.
Zahnart.
Not open to students with credit for 412. BER/LAC/LAR course.

525 History of Anthropological Theory U G 4
Major theoretical viewpoints in anthropology seen in their historical context. Messenger.
Wi Qtr. Prepar: 20 cr hrs in allied subjects or written permission of instructor. Not open to students with credit for 570.
5309† Human Origins U G 5
The search for human origins through a reconstruction of the human and non-human primate fossil records of the last 60 million years; emphasis on human skeletal, behavioral, and social patterns. Prereq. 219b or eq or 15 or hrs in biological sciences or geol. Amin or permission of instructor. Not open to students with credit for 450.

535 Modern Human Physical Variation U G 5
The racial classification of man on a biological basis; the evolution of Homo sapiens and the development of human variability; racial differences and mixtures. Scull.
Sp Qtr. 5 cl. Prereq: 200 or equiv or 15 or hrs in biological sciences, including genetics. or permission of instructor. Not open to students with credit for 452.

552 Old World Prehistory
Detailed examination of topics of special interest in current prehistoric research. Summer.
Au, Wi, Sp Qtr. 4 or 5 cl. Prereq: 201 or equiv or written permission of instructor. Not open to students with credit for 551.03 or 551.04.

552.01 Paleolithic U G 4
Paleolithic in Africa, Asia, and Europe; current theory, research, and problems regarding our understanding of the early hunting-gathering way of life.

552.02 Agricultural Origins in Europe and the Near East U G 8
Origin and development of agricultural and animal husbandry in the Near East and Europe; 10,000-4,000 B.C.

552.03 Rise of Civilization in Mesopotamia and Iran U G 4
Background and development of early civilization in Mesopotamia and Iran; 5,000-2,000 B.C.; theoretical emphasis on development of early states, urbanism, writing, and trade.

553 New World Prehistory
Detailed surveys of native American prehistoric in select regions from the earliest evidence of occupation to the intrusion of Old World populations.
Au, Wi, Sp Qtr. Prereq: 201.

553.01 Mesoamerica U G 4
The archaeology and cultural history of Mexico and Guatemala with emphasis on agricultural origins and the development of complex societies. Danziger.
4 cl. Not open to students with credit for 551.02.

553.02 Eastern North America U G 4
Survey of the archaeology and culture history of North America east of the Rocky Mountains.
4 cl. Not open to students with credit for 550, 551, or 551.01.

553.03 Prehistoric Indians of Western North America U G 5
Survey of the archaeology and culture of North America north of Mexico and west of the Rocky Mountains, including the American Southwest. Danziger.
Wi Qtr. 5 cl. Not open to students with credit for 550, 551, or 551.01.

565 Archaeological Training
Expedition U 8-16
Survey and excavation of prehistoric archaeological sites; trains students in methods and techniques of archaeological field research. Cowan and Danziger.
Su Qtr. 8 or hrs for either term. (Full time in expedition camps.) Prereq: 401 or equiv and written permission of instructor. Not open to students with credit for 664.

570 Plants and People: An Introduction to Ethnobotany U G 5
The study of the interrelationships between human and plant populations; focuses on non-Western beliefs, attitudes, and uses of plants. Cowan.
Au, Wi, Sp Qtrs. Prereq: introductory course in anthro (200 or 201 or 202) or Botany 112 or Zoology 201. Not open to students with credit for Botany 570. Cross-listed in Botany.

601 Medical Anthropology U G 5
Deals with biocultural and sociocultural aspects of health in modern and prehistoric populations.
Au, Wi, Sp Qtrs. 5 cl.

601.01 Biocultural Aspects of Health
Biomedical and biocultural influences on problems of human health throughout the world, focusing upon the evolutionary implications of these problems.

601.02 Sociocultural Aspects of Health
Biocultural Adaptations in Prehistory
Effects of culture and biology on adaptations and the evolution of prehistoric populations.

602 Special Topics in Archaeology U G 5
Detailed examination of select topics concerning the recovery and analysis of archaeological data.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 401.

602.01 Strategy of Archaeological Field Research
Design of archaeological data recovery programs and their implementation through survey, excavation, and other methods. Danziger.
Sp Qtr. 5 cl. with 3 field trips arr. Prereq: 401. Not open to students with credit for 555, 556, or 556.02.

602.02 Archaeological Laboratory Methods
Practical experience in the laboratory analysis of archaeological materials with emphasis on stone, bone, and ceramic artifacts; preparation of reports on analytical procedures and results. Danziger and Summer.
Wi Qtr. 5 cl., 6 lab hrs.

602.03 Environmental Archaeology
A survey of the principles, methods, and techniques of prehistoric environmental analysis; emphasis on understanding Pleistocene and Holocene environments as they relate to archaeology.
Au Qtr. 5 cl.

620 Special Topics in Cultural Anthropology
Examines in detail topics of special interest in contemporary cultural anthropology.
Au, Wi, Sp Qtrs. 4 cl. Prereq: 202 or equiv or permission of instructor. Repeatable to a maximum of 16 hrs in any combination of decimal subdivisions.

620.02 The Anthropology of Women U G 5

620.03 Peasant Culture U G 4

620.05 Cultural Ecology U G 4

620.06 Folkloristic Anthropology U G 4

620.07 Anthropology of Education U G 5

620.08 The Anthropology of Sex U G 4

Primate sexual behavior; sex and the origins of society and culture; sexual maturation and sexualization; cross-cultural sexuality; sex in art and folklore; sex research. Sp Qtr. 4 cl.

620.10 Cultural Dimensions of Technological Change U G 5
Consequences for folk societies of the diffusion of Euro-American culture; introduction of advanced technology to underdeveloped areas; cultural aspects of colonialism and military government. Hughes. Not open to students with credit for 510.

620.11 Anthropology of Religion U G 4

World views in tribal and peasant cultures with an emphasis on religion; integration of religion with other aspects of culture. Prereq: 202 or equiv or permission of instructor. Not open to students with credit for 510.

620.12 Psychological Anthropology U G 5
Anthropological contributions to the field of social psychology; variations in personality as associated with variations in culture; the range of personality differences within various cultures. Bourdignon. Not open to students with credit for 600.
620.13 Tribal Society and Culture U G 4
Forms of social organization in simpler societies; dynamics of social relations in such societies; a comparison of simpler forms of social structure with complex forms. Chen.
Sp Qtr. 4 cl. Not open to students with credit for 505.

620.14 Anthropology of the Arts U G 4
Anthropological perspectives on expressive culture: art, music, dance, etc. in tribal and peasant cultures.
Au, Wi, Sp Qtrs. 4 cl. Prereq: 202 or equiv or permission of instructor. Not open to students with credit for 400.

630 Language and Culture in Education U G 5
Examination of the problems of educating children of diverse cultural and linguistic backgrounds in the U.S. school system.
Wi Qtr. 4 cl. Prereq: 202 or equiv or grad standing.

640 Special Topics in Physical Anthropology U G 5
Topics of current concern to physical anthropologists. Poindexter and South.
Au, Wi Qtrs. 5 cl. Prereq: 200 or equiv or permission of instructor.

640.01 Monkeys, Apes, and Humans (Primate Behavior)

640.02 Growth and Development

640.03 Dental Anthropology

655 Issues in Archaeological Theory U G 5
Examination of the assumptions and concepts underlying analysis of archaeological data; methods of reconstructing cultural history, past lifeways, and explaining cultural change. Dancey.
Wi Qtr. 4 cl. Prereq: 401. Not open to students with credit for 555.01.

675 Introduction to Anthropological Linguistics U G 4
Relations of language to social organization, world view, socialization, and cultural analysis. Callaghan.
Wi Qtr. 4 cl. Prereq: 10 cr hrs in anthrop or permission of instructor. Not open to students with credit for 675.

685 Advanced Archaeological Training Expedition U G 8-16
Practical experience in archaeological fieldwork including site survey, excavation, surveying and mapping, preservation, and other related methods and techniques of data recovery. Dancey and Summer.
Su, Au Qtrs. Full time in expedition camp. Prereq: Written permission of instructor. Repeatable to a maximum of 32 cr hrs.

693 Individual Studies U G 1-4
Su, Au, Wi, Sp Qtrs. Prereq: 30 cr hrs in anthrop or written permission of instructor. Repeatable to a maximum of 20 cr hrs, not more than 4 in any one decimal subdivision. These courses are graded S/U.

693.01 Theory

693.02 History

693.03 Anthropological Linguistics

693.04 Research Methodology

693.05 Prehistory

693.06 Ethnography

693.07 Physical Anthropology

594 Group Studies U G 2-15
Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs.

701 Advanced Topics in Physical Anthropology U G 5
Discussion of advanced topics in human variation and hominid evolution; emphasis on critical analysis and evolution of theoretical topics in research design.
4 cl and arr. Prereq: Permission of instructor.

701.01 Modern Human Physical Variation
The racial classification of man on a biological basis: the evolution of Homo sapiens and the development of human variability; racial differences and mixtures. Not open to students with credit for 535 or 803.04.

701.02 Hominid Paleoanthropology
A comprehensive study of the fossil hominids; fossils of Homo sapiens and their relation to other fossil hominids.

702 Theories in Cultural Anthropology U G 4
Deals with the major theoretical orientations in cultural anthropology; traces the developmental histories of the major theoretical schools and examines their respective philosophical foundations.
Au Qtr. 5 cl. Not open to students with credit for 803.01 or 803.02.

703 Culture and Language U G 4
Development and range of anthropological concerns with language; emphasis on utility of linguistic approaches, methods, and theories to other subdisciplines of anthropology.
Wi Qtr. 4 cl. Prereq: 675 or Linguist 681 or equiv and permission of instructor.

710 Field Methods in the Study of Culture U G 5
Theoretical and practical preparation for the field study of cultures.
Au, Wi Qtrs. 5 cl. Prereq: Permission of instructor. Not open to students with credit for 810G.

783 Honors Course U 3-5
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the anthrop courses and an average of B in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA with distinction in anthrop. Failure to receive a mark of S in this course is a disenrollment for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded E/U.

801 Seminars in World Prehistory G 5
Au, Wi, Sp Qtrs. Prereq: Admission to grad program.

801.01 Archaeology of Hunter-gatherer Societies
Advanced study of hunter-gatherer band society from theoretical, ethnographic, and archaeological perspectives.

801.02 Origins of Food Production and Complex Societies
Advanced theoretical and comparative study of the origins of food production and the rise of complex societies in major New World and Old World centers. Not open to students with credit for 803.07.

805 Seminars in Ethnology G 3-5
Su, Au, Wi, Sp Qtrs. 1 2-9 hr cl. Repeatable to a maximum of 30 cr hrs, not more than 10 of which shall be in any one of the following topics.
A—North America
B—South America
C—East Asia
D—Southeast Asia
E—Oceania
F—South Asia
G—Middle East
H—Africa
I—Europe
J—Circumpolar
K—Caribbean
810 Seminars in Cultural Anthropology  G 3-5
Su, Au, Wi, Sp Qtrs. 1 2-hr. cl. Repeatable to a maximum of 36 cr hrs, not more than 10 of which shall be in any one of the following topics.
A— Nature of Culture
B— Acculturation, Change, and Stability
C— Ethnopsychiatry
D— Enculturation
E— Social Organization
F— Religious Behavior
H— Theory and Problems in Cultural Anthropology
I— Recent Cultures
J— Cultural Evolution
K— Human Ecology
L— Anthropology of Political Systems
M— Anthropological Linguistics. Not open to students with credit for 820.06
N— Anthropology of Law
P— Anthropology of Education
Q— Study Design and Data Analysis

820 Seminars in Physical Anthropology  G 3-5
Su, Au, Wi, Sp Qtrs. 1 2-hr. cl. Repeatable to a maximum of 30 cr hrs, not more than 10 of which shall be in any one of the following topics.
A— Evolutionary Theory
B— Quantitative Methods
C— Field and Laboratory Methods
D— Primates of Paleogene
E— Fossil Hominids
F— Non-Human Primate Behavior
G— Population Genetics
H— Human Growth and Development
I— Bio-cultural Adaptation
J— Primate Anatomy
K— Biomedical Anthropology
L— Physiological Anthropology
M— Field Methods in Primate Behavior
N— Special Topics

830 Seminars in Prehistory  G 3-5
Su, Au, Wi, Sp Qtrs. 1 2-hr. cl. Repeatable to a maximum of 30 cr hrs, not more than 10 of which shall be in any one of the following topics.
A— Method and Theory
B— North American Archaeology
C— Middle Eastern Archaeology
D— Archaeology of High Civilizations
E— Special Problems in Archaeology

993 Individual Studies  G 1-5
Su, Au, Wi, Sp Qtrs. 2 cr hrs. Repeatable to a maximum of 20 cr hrs, not more than 10 of which shall be in any one of the following topics. This course is graded S/U.
A— Theory
B— History
C— Anthropological Linguistics
D— Research Methods
E— Prehistory
F— Ethnology
G— Physical Anthropology
H— Cultural Anthropology
I— Undeclassified

998 Research in Anthropology: Thesis  G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Anthropology: Dissertation  G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Arabic

256 Dieter Gunz Hall of Languages, 1841 Millikin Road, 422-9255

101 Elementary Literary Arabic I
Sound and writing systems, morphological patterns, basic sentences with brief dialogues. FL, Admis Cord courses.

101.01 Classroom Track  U 5
Su, Au, Wi, Sp Qtrs. Students register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

101.51 Individualized Track  U 1-5
Su, Au, Wi, Sp Qtrs. Students register for and complete from 1 to 5 cr hrs during the quarter. Students who complete 5 cr hrs before the end of the quarter may proceed to 101.51. Progress is sequential from one cr hr to the next, with proficiency at the level of 80% required for advancement. Not open to students with 5 or cr hrs in 101.03.

102 Elementary Literary Arabic II
Continuation of morphological patterns and basic syntactic structures, with long dialogues and same pieces of expository prose. FL, Admis Cord courses.

102.01 Classroom Track  U 5
Su, Wi Qtr. Prereq: 101.01 or 5 cr hrs of 101.03 or 101.51. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

102.51 Individualized Track  U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Grade of B- or above in 101.01 or 5 cr hrs of 101.03 or 101.51 or permission of instructor. Students may register for 101.51 or 102.51 concurrently with permission of instructor. Students register for and complete from 1 to 5 cr hrs during the quarter. Students who complete 5 cr hrs before the end of the quarter may proceed to 103.51. Progress is sequential from one cr hr to the next with proficiency at the level of 80% required for advancement. Not open to students with 5 or cr hrs in 102.03.

103 Modern Literary Arabic I
Complex morphological forms and syntactic structures; reading, oral and written practice.

103.01 Classroom Track  U 5
Su, Wi Qtr. Prereq: 101.01 or 5 cr hrs of 102.03 or 102.51 or 110. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

103.51 Individualized Track  U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Grade of B- or above in 102.01 or 5 cr hrs of 102.03 or 102.51, or permission of instructor. Students register for and complete from 1 to 5 cr hrs during the quarter. Progress is sequential from one cr hr to the next with proficiency at the level of 80% required for advancement. Not open to students with 5 or cr hrs in 103.03.

104 Modern Literary Arabic II
Emphasis on modern standard literary Arabic reading, writing, speaking, and aural comprehension.

104.01 Classroom Track  U 5
Su Qtr. Prereq: 103.01 or 112. Not open to students with credit for 602. This course is available for EM credit.

104.51 Individualized Track  U 1-5
Su, Au, Wi, Sp Qtrs. Students complete from 1 to 5 cr hrs during the quarter. Progress is sequential from one cr hr to the next with 80% proficiency required for advancement. Grade of B- or above in 102.01 or 5 cr hrs in 103.03 or 103.51 or permission of instructor.

151 Basic Colloquial Arabic I  U 5
Introduction to phonology and grammar of the spoken language of educated urbanites of the Eastern Arab world. Au Qtr. 5 cr. Not open to students with credit for 106 or 201. Does not satisfy ASC foreign language requirement.

152 Basic Colloquial Arabic II  U 5
Continuation of 151; analysis of and drill in morphological and syntactic patterns; expansion of vocabulary; practice in conversation.
Wi-Qtr. 5 cr. Prereq: 151 or permission of instructor. Not open to students with credit for 107 or 202. Does not satisfy ASC foreign language requirement.
153 Intermediate Colloquial Arabic U 5
Intensive practice in speaking Arabic with emphasis on various cultural aspects of Arab life.
Sp Qtr. 5 cl. Prereq: 152 or permission of instructor. Does not satisfy ASC foreign language requirement. Not open to students with credit for 202.

241 Culture of the Contemporary Arab World U 5
A general survey and examination of the socio-cultural structure of the modern Arab world.
Su, Au, Wi, Sp Qtrs. 5 cl. Taught in English. BER/LAC/LAR course.

Masterpieces of Near Eastern Literature in Translation
See Judaic and Near Eastern Languages and Literatures 272.

293 Individual Studies U 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.

294 Group Studies U 1-15
Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 cr hrs.

371 Classical and Medieval Arabic Literature in Translation U 5
Reading and analysis of major works of Arabic literature from the 9th to the 17th centuries including classical poetry, the Qur'an, and the Arabian Nights.
Wi Qtr. 5 cl. Not open to students with credit for 271 and 272.

372 Modern Arabic Literature in Translation U 5
Reading and analysis of representative works of the 19th and 20th centuries; discussion of development of major movements and genres in modern Arabic literature.
Sp Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Not open to students with credit for 273.

402 Review of Arabic Grammar U 5
Review of Arabic grammar; practice in translation; reading on a wide range of topics in a variety of genres and styles.
Sp Qtr. 5 cl. Prereq: 104. Not open to students with credit for 603.

403 Modern Literary Arabic Conversation and Composition I U 5
Practice in aural comprehension; conversation; and controlled compositions on various aspects of Arab culture.
Au Qtr. 5 cl. Prereq: 402. Not open to students with credit for 604.

404* Modern Literary Arabic Conversation and Composition II U 5
Continuation of 403.
Wi Qtr. 5 cl. Prereq: 403. Not open to students with credit for 605.

611* History of the Arabic Language U G 5
Survey of the evolution of the Arabic language in its cultural and historical setting.
Wi Qtr. 5 cl. Prereq: Permission of instructor.

626 Introduction to the Qur'an U G 5
A linguistic, literary, and cultural analysis of selected chapters from the Qur'an.
Au Qtr. 5 cl. Prereq: 402.

627* Classical Arabic Poetry U G 5
Selected readings reflecting the evolution of Arabic prose literature from its origins to the Abbasid period.
Wi Qtr. 5 cl. Prereq: 402.

628* Classical Arabic Prose U G 5
Selected readings reflecting the evolution of Arabic prose literature from its origins to the Abbasid period.
Wi Qtr. 5 cl. Prereq: 402.

651 Contemporary Arabic Prose Fiction U G 5
Reading and analysis of short stories and novels representative of major developments and trends of the 20th century.
Au Qtr. 5 cl. Prereq: 402. Not open to students with credit for 622 or 625.

652 Contemporary Arabic Poetry and Drama U G 5
Reading and analysis of plays and poems representative of major developments and trends of the 20th century.
Sp Qtr. 5 cl. Prereq: 402. Not open to students with credit for 623 or 624.

671 The Qur'an in Translation U G 5
An introduction, in English, to the literary, religious, and cultural implications of the fundamental Book of Arabic literature and of Islamic civilization.
Au Qtr. 5 cl.

680 Basic Bibliographic and Reference Tools in Arabic and Islamic Studies U G 5
Sp Qtr. 5 cl. Prereq: 10 or hrs in Middle Eastern history or literature or equiv.

693 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

694 Group Studies U G 1-15
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs.

721 Studies in Arabic Poetry U G 5
Advanced study of specific poetic periods, figures, and/or topics involving extensive reading and discussion of appropriate primary and secondary source materials.
Su, Au, Wi, Sp Qtrs. 4 or 5 cl. Prereq: 10 or hrs in Arabic literature at the 600 level or equiv. Repeatable to a maximum of 15 or hrs.

722 Studies in Arabic Prose U G 5
Advanced study of specific periods, authors and/or genres of prose writing (literary or non-literary) involving extensive reading and discussion of primary and secondary materials.
Su, Au, Wi, Sp Qtrs. 4 or 5 cl. Prereq: 10 or hrs in Arabic literature at the 600-level or equiv. Repeatable to a maximum of 20 or hrs.

H763 Honors Course U 3-5
Offers undergraduates with special aptitudes a greater opportunity to do independent study and research than is possible in normal course work.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the Arabic courses and an average of B in the remainder; permission of the instructor under whose supervision the work is to be completed; and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr hrs. At least 2 qtrs are required for candidates for the degree BA, with distinction in Arabic. Failure to receive a mark of 6 in this course is a disqualification for special honors. This course is graded 0/U.

811 Seminar in Arabic Studies U G 5
Intensive investigation of a selected topic or problem in Arabic linguistics, phonology, literature, or literary culture.
Su, Au, Wi, Sp Qtrs. 3-5 cl. Prereq: Permission of instructor. Repeatable to a maximum of 10. Preparation of major research paper is required.
Architecture

199 Brown Hall, 190 West 17th Avenue, 422-5567

200 Outlines of Architecture I U 3
Introduction to architecture; emphasis on twentieth century architectural thought, relationship of architecture to other environmental professions.
Au, Wi Ctris. 3 cl. Not open to students with credit for 300. Required for students intending to major in arch. VPA Admis Cond course.

201 Outlines of Architecture II U 3
Introduction to architecture, emphasis on three-dimensional qualities of complex architectural form and space as determined by cultural history.
Au, Wi Ctris. 3 cl. Required for students intending to major in arch. VPA Admis Cond course.

202 Contemporary Architectural Graphic Concepts U 5
Exploration of 20th-century architectural thought and expression; emphasis on relationships between ideas and form of buildings and urban spaces; introduction to architectural graphics.
Su, Au, Wi, Sp Ctris. Not open to students with credit for 221. Required of students intending to major in architecture. VPA Admis Cond course.

241 Architectural Design I U 5
Principles of perception, visual analysis, graphic communication, and form organization in two and three dimensional design.
Au Ctris. 3 cl. 9 lab hrs. Open only to arch majors; others by permission of instructor.

242 Architectural Design II U 5
Principles of perception, visual analysis, graphic communication, program development, and form organization.
Wi Ctris. 3 cl. 9 lab hrs. Prereq: 241 and 271 or permission of instructor.

243 Architectural Design III U 5
Application of perceptual, analytical, developmental, and organizational principles and skills to the expression of architecture.
Sp Ctris. 3 cl. 9 lab hrs. Prereq: 242 and 272 or permission of instructor.

271 Design Communication in Architecture U 3
Fundamental freehand drawing principles necessary to the investigation, visualization, and presentation of architectural design ideas.
Au Ctris. 1 cl. 4 lab hrs. Concur: 241.

272 Design Communication in Architecture II U 3
Physical, diagrammatic, and iconographic modeling for design exploration and presentation.
Wi Ctris. Prereq: 271 or permission of instructor; concur: 242.

273 Design Communication in Architecture III U 3
Principles of and process of communication elemental in the organization, conceptualization, development, and presentation of ideas.
Sp Ctris. 1 cl. 4 lab hrs. Prereq: 272 or permission of instructor; concur: 243.

293 Individual Studies in Architecture U 1-5
Designed for students who desire to pursue, individually, special studies in the discipline.
Su, Au, Wi, Sp Ctris. Prereq: Written permission of dept. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

294 Group Studies in Architecture U 1-5
Designed for students who desire to pursue, in a group, special studies in the discipline.
Su, Au, Wi, Sp Ctris. Prereq: Written permission of dept. Repeatable to a maximum of 15 or hrs.

301 History of Ancient Architecture U 3
Analysis of primitive structures and ancient architecture before the Christian era; illustrates basic principles of shelter, natural building techniques, and organization of space.
Au Ctris. 3 cl. Not open to students with credit for 601.

302 History of Medieval and Renaissance Architecture U 3
Analysis of architecture from the early Christian era through the Baroque, related to the spirit of the age, social organization, and increasing structural knowledge.
Wi Ctris. 3 cl. Not open to students with credit for 602.

303 History of Contemporary Architecture U 3
Analysis of architecture from the Industrial Revolution to the present, reflecting changes of society, fashion, and architectural practice; new materials and structural techniques.
Sp Ctris. 3 cl. Not open to students with credit for 603.

326 Architectural Construction U 3
Basic theory, properties, and production of architectural construction systems and procedures.
Au Ctris. 3 cl. Not open to students with credit for 222. Designed for both arch and non-arch majors.

327 Building Construction I U 3
Detailing of building sections, simple enclosures and structural assemblies emphasizing wood and steel construction.
Wi Ctris. 3 cl. Prereq: 326. Not open to students with credit for 223.

328 Building Construction II U 3
Detailing of building sections, simple enclosures, and structural assemblies emphasizing masonry and concrete construction.
Sp Ctris. 3 cl. Prereq: 327. Not open to students with credit for 223.

334 Architecture Internship U 2
Experience in professional office practice or in special summer courses; practice management.
Su, Au, Wi, Sp Ctris. 8 lab hrs. Open only to arch majors.

341 Architectural Design IV U 5
Design and analysis of the building envelope; integration of interior spaces; exterior form and expression.
Au Ctris. 3 cl. 9 lab hrs. Prereq: 243 and 273.

342 Architectural Design V U 5
Design and analysis of buildings for diverse, complex activities; relation of structure, climate in cultural, natural environmental contexts; expression of function, meaning in buildings.
Wi Ctris. 3 cl. 9 lab hrs. Prereq: 341.

343 Architectural Design VI U 5
Design and analysis of buildings for diverse, complex activities in an urban physical context; relation of structure, climate, technology to design; expression of function, meaning.
Sp Ctris. 3 cl. 9 lab hrs. Prereq: 342.

426 Architectural Structural Behavior U 3
Basic theory, properties, and behavior of architectural structural systems.
Au Ctris. 3 cl. Not open to students with credit for 321. Designed for both arch and non-arch majors.

427 Wood and Steel Structure U 3
Principles, elements, computations, detailing, and connections for structural wood and steel.
Wi Ctris. 3 cl. Prereq: 426; concur: 327. Not open to students with credit for 321 or 325.
428 Masonry and Concrete Structure U 3
Principles, elements, computations, detailing, and connections for structural masonry and concrete.
Sp Qtr. 3 cl. Prereq: 427, concnr: 328. Not open to students with credit for 322 or 325.

441 Architectural Design VII U 5
Environmental, physical, social, political, and economic influences on building form, integration of these concerns in building group design.
Au Qtr. 3 cl. 9 lab hrs. Prereq: 343.

442 Architectural Design VIII U 5
Development of process for recognition, analysis of community forces affecting architectural form; expression of aesthetic, social, cultural values; selection among competing priorities in comprehensive programming.
Wk Qtr. 3 cl. 9 lab hrs. Prereq: 441.

443 Architectural Design IX U 5
Design of a major building or building group emphasizing the environmental, community, technical, and aesthetic aspects of its context as form determinants.
Sp Qtr. 3 cl. 9 lab hrs. Prereq: 442.

604 History and Preservation of Nineteenth and Twentieth Century American Architecture U G 3
Investigation of 19th- and 20th-century American architecture with emphasis upon issues of preservation and conservation.
Au Qtr. 3 cl. Prereq: Grad standing or 4th yr standing in the Department of Architecture or permission of instructor.

605 Research Methods in Architectural History and Preservation U G 3
A survey of literary and physical research techniques in architectural history and preservation; identification and recording of historic buildings; field work in inventory techniques.
Sp Qtr. 3 cl. Prereq: Grad standing or 4th yr standing in the Department of Architecture or permission of instructor.

606 Architectural Preservation: Administration and Practice U G 3
An outline of regulations, laws, economic incentives, funding sources, and technical/design guidelines as they affect architectural preservation.
Wk Qtr. 3 cl. Prereq: 4th yr standing or grad standing in arch or permission of instructor.

607 American Architectural Construction Technology since 1700 U G 3
A survey of American construction technology since 1700 with special emphasis on mid-western United States.
Au Qtr. 3 cl. Prereq: 4th yr standing or grad standing in arch or permission of instructor.

621 Architectural Environmental Simulation U G 3
The study of environmental forms and physical phenomena affecting human comfort, convenience, and safety through the use of simulations.
Sp Qtr. 2 2-1/2 hr.

653 Passive Solar Energy I U G 3
Investigation of the current development of energy conservation aspects in a building design in relation to passive solar energy.
Au Qtr. 3 cl. Prereq: 4th yr or grad standing in arch or permission of instructor.

660 Computer Aided Architectural Design and Graphics U G 4
Usage and development of computer graphics techniques in two and three dimensions as they apply to architectural drafting and design.

660.01 Two-Dimensional Computer Aided Architectural Design and Graphics
Two dimensional vector graphics oriented programming with emphasis on parameterization techniques and transformational operations applicable to architectural design and drafting.
Au Qtr. 2 2-hr cl. Prereq: En Graph 294A or equiv and permission of instructor.

660.02 Three-Dimensional Computer Aided Architectural Design and Graphics
Three dimensional graphics oriented programming with emphasis on parameterization/transformations as they apply to derivation and perspective drafting of architectural compositions.
Wk Qtr. 2 2-hr cl. Prereq: 660.01 or equiv and permission of instructor.

660.03 Integrated Computer Aids for Architectural Design
Color graphics and texture, shaping operators, spatial grammars, and data structures as they apply to architectural design.
Sp Qtr. 2 2-hr cl. Prereq: 660.02 or equiv and permission of instructor.

661 Architectural Environmental Systems U G 3
Basic theory, function, and characteristics of environmental systems for buildings; conservation of energy.
Au Qtr. 3 cl. Prereq: Physics 112 or permission of instructor. Designed for both arch and non-arch majors.

662 Space Conditioning in Architecture U G 3
Principles and application of heating, ventilating, and air conditioning of buildings.
Wk Qtr. 3 cl. Prereq: 561.

663 Mechanical and Electrical Systems in Architecture U G 3
Principles and application of electrical and plumbing systems; fundamentals of lighting and drainage systems for buildings.
Sp Qtr. 3 cl. Prereq: 562.

685 Field Investigations in Architectural Preservation U G 5
Su Qtr. 3 cl. 10 hrs field lab. Prereq: Permission of dept.

685.01 Research Techniques
Architectural preservation research involving primary and secondary source literature and official public records, as well as physical research.

685.02 Planning and Design
Architectural preservation design including programming, design, and detailing in architectural restoration projects.

685.03 Fabric Analysis and Measured Drawings
Analysis of architectural structure and enclosure systems and preparation of measured drawings using photogrametric techniques as well as hand measurements.

685 Individual Studies in Architecture U G 1-5
For students majoring in arch desiring to pursue special studies not offered in the fixed curriculum.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor and completion of dept independent study form. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

684 Group Studies in Architecture U G 1-5
For students majoring in arch desiring to pursue special studies not offered in the fixed curriculum.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor and completion of dept independent study form. Repeatable to a maximum of 15 cr hrs.
700 Allied Arts U G 3
Analysis of arts related to architecture and the expression of the nature of materials in architectural ornament, furniture and furnishings, and the garden.
Sp Qtr. 3 cl. Prereq: Arch 4th yr standing or grad standing in arch or permission of instructor.

701 Theory of Architecture U G 3
Examination of the principles of architectural design as stated by architects and others against the functioning of actual buildings and building groups.
Wi Qtr. 3 cl. Prereq: Grad standing in arch or permission of instructor.

721 Architecture Acoustics U G 3
The geometry of architectural design for good acoustics within auditoria, lecture rooms, music rooms, churches, etc., where hearing is important.
Sp Qtr. 3 cl. Prereq: Grad standing in arch or permission of instructor.

722 Introduction to Architecture Photogrammetry U G 3
An introduction to the geometry of central projection and to methods of gaining architectural manual data for photography.
Sp Qtr. 3 cl. Prereq: Grad standing in arch or permission of instructor.

724 Advanced Structural Design in Architecture I U G 5
Analysis and design of advanced architectural systems.
Wi Qtr. 5 cl. Prereq: Grad standing in arch or permission of instructor.

725 Advanced Structural Design in Architecture II U G 5
Continuation of 724.
Sp Qtr. 5 cl. Prereq: 724 or permission of instructor.

751 Practice of the Design Professions I U G 3
History of professions and their clients; the professional's interaction with society and government; substantive aspects of practice, including organization and communication; legal aspects of construction.
Wi Qtr. 3 cl. Prereq: Grad standing in arch or permission of instructor.

752 Practice of the Design Professions II U G 3
Management of construction contracts; bonds and insurance operational procedures during negotiation and construction phases; arbitration; office and project case studies.
Sp Qtr. 3 cl. Prereq: Grad standing in arch or permission of instructor.

801 Seminar G 1 or 2
Seminars and related research on contemporary problems, issues, and concerns in architectural theory and practice.
Su, Au, Wi, Sp Qtrs. 2 cl.
A—Prereq: 1st yr grad standing in arch or permission of instructor. Repeatable to a maximum of 6 or hrs.
B—Prereq: 2nd yr grad standing in arch or permission of instructor. Repeatable to a maximum of 3 cr hrs.

841 Advanced Architectural Design I G 5
Contextual issues in the program definition, design of buildings, groups; integration of other disciplines; functional, structural, mechanical integration; aesthetic expression of meaning in architecture, as applied in architectural projects.
Au Wi, Sp Qtrs. 15 lab hrs. Prereq: Grad standing in arch.

842 Advanced Architectural Design II G 5
Continuation of 841.
Au, Wi, Sp Qtrs. 15 lab hrs. Prereq: 841.

843 Advanced Architectural Design III G 5
Continuation of 842.
Au, Wi, Sp Qtrs. 15 lab hrs. Prereq: 842.

844 Advanced Architectural Design IV G 5
Advanced studies and individual research; development of independent design projects.
Su, Au, Wi, Sp Qtrs. 15 lab hrs. Prereq: 843, permission of instructor, and completion of dept independent study form. Repeatable to a maximum of 15 or hrs.

893 Individual Studies in Architecture G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing in arch, permission of instructor, and completion of dept independent study form. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894 Group Studies in Architecture G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing in arch, permission of instructor. Repeatable to a maximum of 15 or hrs.

899 Interdepartmental Seminar G 1-15
See Interdepartmental Seminars.
Su, Au, Wi, Sp Qtrs.

999 Research in Architecture G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Architecture, School of

105 Brown Hall, 190 West 17th Avenue, 422-1012

698 Study Tour U 1-15
Studies abroad of man-made environments in their historical, geographical, technological, artistic, philosophical, political, social, cultural, and economic contexts.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. Travel and subsistence costs for the study tour will be borne by the student.

Art

146 Hopkins Hall, 128 North Oval Mall, 422-5072

162 Concepts and Issues in Art U 2
An orientation for new art students and a survey of art making.
Au, Sp Qtrs. 2 cl.

170 Beginning Drawing U 5
An introduction to basic freehand drawing, exploring a wide range of drawing methods, media, concepts; with an emphasis on drawing from observation.
Su, Au, Wi, Sp Qtrs. 1 cl, 5 2-hr labs. This course is available for EM credit. VPA Admis Cond course.

172 Visual Studies: Two Dimensional Art U 5
Basic concepts of two-dimensional art dealing with visual structure, process, content, and invention.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs. This course is available for EM credit. VPA Admis Cond course.
180 Beginning Sculpture U 5
An introduction to the principles of sculpture, emphasizing basic forming processes and materials.
Su, Au, Wi, Sp Qtrs. Not open to students with credit for 581. This course is available for EM credit. VPA Admis Cond course.

182 Visual Studies: Three-Dimensional Art U 5
Basic concepts of three-dimensional art dealing with the organization of space and form, using a variety of materials, processes, tools.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs. Prereq or concwr: 172. This course is available for EM credit.

190 Introduction to Fine Art U 5
An investigation of concepts and themes in visual art through studio experience.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs. Not open to candidates for the degrees BFA and BAE with art, ind designs, or hist art as a major, nor to students with credit for 170. BER course. VPA Admis Cond course.

230 Introduction to Molten Glassworking U 5
Introduction to glass as a fluid material for artistic expression; emphasis on the development of original imagery made from molten glass.
Au, Wi, Sp Qtrs. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equiv with permission of instructor.

231 Beginning Cold Glassworking U 5
Exploration of contemporary possibilities for the visual imagery of preformed glass using traditional techniques as a departure point; emphasis on innovational approaches. VPA Admis Cond course.

240 Fundamentals of Ceramic Art U 3
Introduction to the art phases of the ceramic field; laboratory practice in the hand forming process.
Su, Au, Wi, Sp Qtrs. 1 cl, 6 lab hrs. VPA Admis Cond course.

242 Introduction to Ceramic Art U 3
Introduction to the ceramic arts through the use of the potter’s wheel with lectures covering a broad survey of the field of ceramics.
Su, Au, Wi, Sp Qtrs. 1 cl, 6 lab hrs. VPA Admis Cond course.

244 Ceramic Art Studio I U 3
Intermediate course utilizing potter’s wheel as forming process.
Au, Wi, Sp Qtrs. 9 lab hrs. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equiv with permission of instructor.

245 Ceramic Art Studio II U 3
Studio practice in designing ceramic wares with emphasis on the hand forming processes.
Wi, Au, Sp Qtrs. 3 2-hr studios, 3 hrs arr. Prereq: 244 or permission of instructor.

246 Ceramic Art Studio III U 3
Advance throwing and forming.
Sp Qtr. 9 lab hrs. Prereq: 244 or permission of instructor.

260 Visual Studies: Special Projects Laboratory U 3
Introduction to independent investigation in the arts: research, development, and presentation of solutions.
Au, Wi, Sp Qtrs. 3 2-hr labs. Prereq: 179, 172, and 182.

261 Expanded Arts: An Introduction U 5
Multimedia studio experiences relating to contemporary art problems.
Prereq 170 or 172 or 180 or 182 or permission of instructor.

268 Beginning Fiber Arts U 5
The use of textiles and fibers in the design and construction of contemporary art forms.
Wi, Au, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 172 or 190 or 290.

272 Beginning Life Drawing U 5
Drawing from the human figure; discussion of drawing as related to significant traditions; lectures, and demonstrations.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equiv with permission of instructor. This course is available for EM credit.

273 Beginning Painting U 5
Introductory painting emphasizing fundamentals and their utilization as a basis for individual development; student initially works from still life; supplemental projects increase in complexity.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equiv with permission of instructor.

274 Intermediate Drawing U 5
An intermediate level drawing-color experience exploring a variety of media and directions; lectures, discussions, demonstrations.
Au, Wi, Sp Qtrs. 5 3-hr labs. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equiv with permission of instructor.

280 Construction Sculpture U 5
Study of three-dimensional form through the use of power and hand tools.
Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equivs with permission of instructor.

281 Metal Fabrication U 5
A multimedia introduction to the sculpture process in metal fabrication, casting, forging with related materials; and mold making.
Au, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equivs with permission of instructor.

282 Life Sculpture U 5
Aspects of the human form studied in relation to the materials of sculpture; experimentation in a choice of materials: clay, wax, cement, plaster, and metal.
Au, Wi Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equivs with permission of instructor.

290 Fundamentals of Art U 5
An introduction to art through studio experience, exploring two-dimensional and three-dimensional media, by an analysis of form and expression.
Au, Wi, Sp Qtrs. 5 2-hr labs. Not open to majors in art, art educ, ind designs, or hist art. BER course. VPA Admis Cond course.

293 Individual Studies U 2-5
Preliminary studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs. These courses are graded S/U.

293.09 Drawing
293.10 Painting

294 Group Studies U 1-5
Group studies for students in specialized programs.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

372 Visual Studies: Color U 5
An Introduction to seeing and using color for all disciplines; projects dealing with color organization, phenomena, and interaction.
Au, Wi, Sp Qtrs. 5 2-hr labs. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equivs with permission of instructor.

376 Beginning Relief Printmaking U 5
Introduction to the practice and examination of several modes of artistic expression in the relief processes of printmaking.
Au, Wi Qtrs. 5 2-hr cl, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212; or equivs with permission of instructor.
377 Beginning Serigraphy U 5
Introduction to the practice and examination of several modes of artistic expression in the serigraphic processes of printmaking.
Au, Wi, Sp Qtrs. 5 2-hr cl, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212 or equiv with permission of instructor.

378 Beginning Intaglio Printmaking U 5
Introduction to practice and examination of several modes of artistic expression in the intaglio processes of printmaking.
Au, Wi, Sp Qtrs. 5 2-hr cl, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212 or equiv with permission of instructor.

379 Beginning Lithography U 5
Introduction to the practice and examination of several modes of artistic expression in the lithographic processes of printmaking.
Au, Wi, Sp Qtrs. 5 2-hr cl, 5 hrs arr. Prereq: 162, 170, 172, 182, 260, 272, and Hist Art 210 or 211 or 212 or equiv with permission of instructor.

441 Ceramic Composition U 3
Ceramic compositions course for art students: methods of representing ceramic composition; laboratory study and discussion of raw materials and their uses in bodies and glazes.
Au Qtr. 2 cl, 2 2-hr labs.

442 Ceramic Composition U 3
Laboratory practice in development of the aesthetic aspects of ceramic glazes and bodies: methods of presetting their fired composition and correction faults.
Wi Qtr. 2 cl, 2 2-hr labs. Prereq: 441.

468 Elements of Weaving U 5
An introduction to the creative and functional aspects of handweaving; experience in the construction, warping, threading, and the manipulation of both traditional and modern design techniques.
Au, Wi, Sp Qtrs. 5 2-hr labs. Prereq: 172 or 190 or 290 or permission of instructor.

561 Expanded Arts I U G 5
A creative and conceptual multimedia exploration of the various aspects of the self, time, and movement; introduction of alternatives in medium, technique, and product. Prereq: Jr standing or permission of instructor.

561.01 Aspects of Self
Au Qtr. 6 studio hrs; 4 hrs arr. Prereq: Permission of instructor.

561.02 Aspects of Time
Wi Qtr. 8 studio hrs; 4 hrs arr. Prereq: Permission of instructor.

561.03 Aspects of Movement
Sp Qtr. 6 studio hrs; 4 hrs arr. Prereq: Permission of instructor.

570 Intermediate Life Drawing U 5
Advanced drawing problems utilizing life model, various media; observing and translating figure and environment as related elements in pictorial organization; outside assignments involving figure groups.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs. 5 hrs arr. Prereq: 272.

573 Intermediate Painting U 5
An intermediate painting course; traditional subject matter such as figures, still lifes, and concepts relative to contemporary directions in painting.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 273 and 274.

587 Third Year Sculpture Class U 5
Advanced study of sculptural processes, techniques, and concepts.
Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 280, 281, and 282. Open only to sculpture majors.

587.01 Part 1

587.02 Part 2
Prereq: 587.01.

587.03 Part 3
Prereq: 587.02.

591 Studio Practice I U 2-5
Intermediate studio practice, following and continuing the basic program of courses undertaken in the first two years.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. The following decimal subdivisions, with the exception of 591.12, are open only to jrs and srns majoring in art. Each decimal subdivision repeatable to a maximum of 20 or hrs.

591.03 Ceramics

591.04 Glass

591.06 Printmaking

591.07 Weaving

591.11 Sculpture

591.12 Expanded Arts

630 Intermediate Molten Glassmaking U G 5
Molten glass as an artist's material; emphasis on the evolvement of a personal aesthetic through series studies.

631 Intermediate Cold Glassworking U G 5
Innovational approach in fabricated glass imagery; emphasis on the growth of artistic development through series studies.
Au, Wi, Sp Qtrs. Prereq: 331.

640 Studio Kilns and Firing Practices U G 3
Design, construction, and use of simple gas and electric ceramic studio kilns; practice in the various types and methods of firing.
Sp Qtr. 3 2-hr labs, 3 hrs arr. Prereq: Permission of instructor.

641 Ceramic Reproduction Processes U G 5
Studies in the designing, fabrication, and uses of models and molds in such multiple ceramic production processes as casting, jiggering, and pressing.
Wi Qtr. 5 2-hr labs, 5 hrs arr. Prereq: Permission of instructor.

642 Advanced Ceramic Laboratory U G 3
Design and construction of large ceramic art forms.
Au Qtr. 3 2-hr labs, 3 hrs arr. Prereq: Permission of Instructor.

647 Survey of Ceramic Form and Technique U G 3
Slide lectures; designed specifically to give the student potter an understanding of historical forms and technical processes; presented in chronological sequence.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

661 Expanded Arts II U G 5
A creative and conceptual multimedia exploration of the various aspects of reflection, situation art, and space; introduction of alternatives in medium, technique, and product. Prereq: Jr standing or permission of instructor.

661.01 Aspects of Reflection
Au Qtr. 6 studio hrs; 4 hrs arr.

661.02 Aspects of Situation Art
Wi Qtr. 6 studio hrs; 4 hrs arr.

661.03 Aspects of Space
Sp Qtr. 6 studio hrs; 4 hrs arr.

668 Advanced Weaving U G 3-5
Group investigation of technical aspects of loom weaving with emphasis on individual expression and creativity; basic hand spinning processes explored. Creager.
Au, Wi, Sp Qtrs. 9 to 15 lab hrs arr. Prereq: 468 and written permission of instructor.
670 Advanced Drawing I U G 5
Special problems in drawing, utilizing a wide range of media and methods and exploring a variety of materials in experimental approaches to drawing.
Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 274.

672 Advanced Drawing II U G 5
Problems in drawing from traditional figurative styles and media to examination of current direction, technical studies, and diverse media; emphasis on expanding drawing concepts.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 670 or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

673 Advanced Painting U G 5
Research problems in painting with emphasis upon current directions, new media and techniques; lectures, discussions, and field trips.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs, 5 hrs arr. Prereq: 573 or written permission of instructor. Repeatable to a maximum of 20 cr hrs.

674 Figure Painting U G 5
Figure painting utilizing live and costumed models; advanced problems involving figure groups.
Sp Qtr. 5 2-hr labs, 5 hrs arr. Prereq: 570 and 673 or permission of instructor. Repeatable to a maximum of 15 cr hrs.

675 Photomechanical Printmaking U G 5
Designed to introduce the technology of photomechanical reproduction utilized by the printing industry as a tool to be used by the printmaking student.
Au, Wi, Sp Qtrs. 2 2½-hr labs, 2 1½-hr labs, 7 hrs arr. Prereq: 377 or 378 or 379 and written permission of instructor. Not open to students with 15 or hrs in 686. Repeatable to a maximum of 15 or hrs.

676 Advanced Relief Printmaking U G 5
An intensive exploration of the relief processes as a means for individual expression.
Sp Qtr. 5 2-hr labs, 5 hrs arr. Prereq: 376. Open only to art or art educ majors or by permission of instructor.

677 Advanced Serigraphy U G 5
An intensive exploration of the serigraphic processes as a means for individual expression.
Wi Qtr. 5 2-hr labs, 5 hrs arr. Prereq: 377 or permission of instructor.

678 Advanced Intaglio U G 5
An intensive exploration of the intaglio process as a means for individual expression.
Wi Qtr. 5 2-hr labs, 5 hrs arr. Prereq: 378 or permission of instructor.

679 Advanced Lithography U G 5
An intensive exploration of the lithographic processes as a means for individual expression.
Sp Qtr. 5 2-hr labs, 5 hrs arr. Prereq: 379 or permission of instructor.

680 Fourth Year Sculpture Class U 5
Study of sculptural processes, concepts, and self-analysis as an artist.
Au, Wi, Sp Qtrs. 5 2-hr labs, 6 hrs arr. Prereq: 687.03. Open only to sculpture majors.

681 Studio Practice II U G 2-5
Advanced studio practice beyond 591.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. The following decimal subdivisions, with the exception of 691.12, are open only to grad students or ors majoring in art. Each decimal subdivision repeatable to a maximum of 20 cr hrs.

691.03 Ceramics
691.04 Glass
691.06 Printmaking
691.07 Weaving
691.09 Drawing
Prereq: 570 or equiv experience and permission of instructor.
691.10 Painting
Prereq: 673 or equiv experience and permission of instructor.
691.11 Sculpture
691.12 Expanded Arts

693 Individual Studies U G 2-5
Advanced study for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Each decimal subdivision repeatable to a maximum of 20 or hrs. These courses are graded S/U.

693.07 Weaving
693.10 Painting
693.11 Sculpture
693.12 Expanded Arts

694 Group Studies U G 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Each decimal subdivision repeatable to a maximum of 15 or hrs.

694.01 General
694.03 Ceramics
694.06 Printmaking
694.07 Weaving
694.09 Drawing
694.10 Painting
694.11 Sculpture
694.12 Expanded Arts

891 Studio Practice III G 2-5
Graduate-level studio practice.
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing in art or permission of instructor. Each decimal subdivision repeatable to a maximum of 45 or hrs.

891.03 Ceramics
891.04 Glass Art
891.06 Printmaking
891.07 Weaving
891.09 Drawing
891.10 Painting
891.11 Sculpture
891.12 Expanded Arts

893 Individual Studies G 1-5
Su, Au, Wi, Sp Qtrs. Each decimal subdivision repeatable to a maximum of 20 or hrs. These courses are graded S/U.

893.03 Ceramics
893.06 Printmaking
893.10 Painting
893.11 Sculpture
893.12 Expanded Arts

894 Group Studies G 1-5
Group studies for students in specialized programs.
Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Each decimal subdivision repeatable to a maximum of 15 or hrs.

894.03 Ceramics
894.06 Printmaking
894.10 Painting
894.11 Sculpture
894.12 Expanded Arts
895 Seminar in Studio Art  G 2
Presentations by students, faculty, and visiting artists, with
critical discussion emphasizing contemporary issues.
Au, Wi Qtr. 1-2 hr cl. Prereq: Grad standing. Repeatable to
a maximum of 4 cr hrs.

896 Studio Humanities Teaching Techniques  G 2
Exercises and discussions exploring techniques used in
organizing, presenting, and evaluating materials taught in
studio art classes, with special reference to the studio
humanities program.
Au, Sp Qtr. 1 2-hr cl. Prereq: Permission of instructor and
grad standing in studio art.

911 Studio Practice IV  G 2-5
Advanced graduate studio practice.
Su, Au, Wi, Sp Qtr. Prereq: Grad standing in art or
permission of instructor. Each decimal subdivision repeatable
to a maximum of 45 cr hrs.

911.03 Ceramics

911.04 Glass Art

911.06 Printmaking

911.07 Weaving

911.09 Drawing

911.10 Painting

911.11 Sculpture

911.12 Expanded Arts

999 Research in Art  G Arr
Research for thesis and dissertation purposes only.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

Art Education

340 Hopkins Hall, 128 North Oval Mall, 422-7183

120 Orientation to Art Education  U 3
Career possibilities explored through the history, theory, and
issues of art education.
Au, Wi, Sp Qtr. 3 cl, 2 2-hr labs. Recommended: conc or 189.
Not open to students with credit for 200.

150 Introduction to the Contemporary Arts  U 5
A study of the role of the arts in American society based on
live, recorded, and filmed performances and exhibitions.
Arnold.
Au, Wi, Sp Qtr. 4 cl, 1 hr arr. Not open to students with
credit for Arts Col 160, BHER/LAC/LAR course. VPA Admis
Cond course.

189 Field Experience Survey  U 3
Directed field experience at urban and suburban sites to
discover the range of settings for art education.
Au, Wi, Sp Qtr. 2 cl, 6 hrs field experience. Recommended
conc or 120.

250 Beginning Jewelry and
Metalsmithing  U 3
Fundamental knowledge of the processes for manipulating
metals for design and creation of jewelry and metalwork.
Duncan.
Au, Wi, Sp Qtr. 3 2-hr cl, 3 hrs arr. Not open to students with
credit for 210. Repeatable to a maximum of 3 cr hrs. VPA
Admis Cond course.

289 Field Experience  U 3
Strategies and curricular content for the teaching of art as
related to audience and setting.
Au, Wi Qtr. 2 cl, 6 hrs field experience. Prereq: Sophomore
standing. Repeatable to a maximum of 18 hrs or in any
combination of decimal subdivisions.

289.01 Pre-School

289.02 Elementary

289.03 Secondary

289.04 Adults

289.05 The Exceptional Student

289.10 Civic, Business, and Cultural Settings

360 Criticism of Visual Form  U 3
Looking at and talking about art as a component in art
education through description, interpretation, and evaluation of
visual form.
Au, Sp Qtrs. 3 cl. Prereq: Soph standing and one course in art
or Hist art.

401 Methods in Planning
for Art Education  U 3
Planning for the teaching of art studio, criticism, history, and
the study of art in society for elementary and secondary
schools. Hutchens.
Au, Wi Qtrs. 3 cl. Prereq: 120 and 189; conc or 286; and
successful completion of 25 cr hrs in studio art or Hist art.

408 Planning for Non-Traditional Settings  U 3
Art education curriculum planning for museum patrons, and for
audiences including the elderly, the handicapped, the
incarcerated, and the mentally ill. Boyer.
Su, Wi Qtr. 2 2-hr cl. Prereq: 6 cr hrs in art educ, including
either 189 or 289 or permission of instructor. For art educ or
educ majors.

420 Argument and Personal Theory in Art
Education  U 3
Examination of the nature of argument and selected theories
of art and art education toward refining the student's personal
theoretical positions. Hutchens.
Au Qtr. 2 2-hr cl. Prereq: 120.

430 History of Art Education  U 3
Examination of art education; study of changes in art and art
teaching. Hutchens.
Sp Qtr. 3 cl.

440 Graphic Communication Techniques
for Art Teachers  U 3
Projects, discussions, and readings dealing with the design
and symbolic use of letters and their relationship with other
images toward communicating ideas in an educational context.
Barrett.
Au Qtr. 3 2-hr labs.

445 Teaching of Studio Activities  U 1-3
Exploration of teacher instruction of various art materials
for educational settings.
Su, Au, Wi, Sp Qtr. Prereq: 2 courses in studio art, may
include 500, and permission of instructor. Repeatable to a
maximum of 5 cr hrs.

450 Intermediate Jewelry and
Metalsmithing  U 3
Development of skills in manipulating metals and in using
processes and techniques of metal forming and embellishment
for jewelry and metalwork design and construction. Duncan.
Au, Wi, Sp Qtr. 3 2-hr labs, 3 hrs arr. Prereq: 6 cr hrs of 250
or permission of instructor. Repeatable to a maximum of 9 cr
hrs.

465 Topics in Contemporary Art for Art
Educators  U 3
An undergraduate seminar dealing with aspects of
contemporary art with emphasis on its relationship to art
education theory and practice. Arnold.
Sp Qtr. 3 cl. Prereq: Jr standing in art educ.

489 Laboratory Field Experience  U 3
Strategies and curricular content for teaching art studio, art
criticism, art history, and the study of art in society.
Prereq: 401 or 408, 3 hrs field experience, and written
permission of 489 coordinator. Repeatable to a maximum of 9
cr hrs.

489.01 Pre-School

489.02 Elementary

489.03 Secondary

489.04 Adults
493 Individual Studies U 1-5
Individual studies and project work in specified problems of the field of art education.
Su, Au, Wi, Sp Qtr s. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

494 Group Studies U 1-5
Group studies in professional areas of specified content.
Su, Au, Wi, Sp Qtr s. Prereq: 120 or 200 or written permission of instructor. Repeatable to a maximum of 20 cr hrs.

500 Art for Elementary Teachers U 3
Problems of teaching in terms of personal knowledge about art, insight into children’s art work, and understanding of elementary school curriculum.
Su, Au, Wi, Sp Qtr s. 3 2-hr labs. Prereq: Art 290.

501 Art Workshop for Elementary Teachers U 4
Laboratory experiences with art media toward understanding the visual arts; study of children’s art expression; problems of teaching the arts in the elementary school program.
Su Qtr. Prereq: Elem ed 4th yr standing. Full-time of student for 3 wks.

560 Studio Critique in Teaching Art U 3
Student and teaching discussion as a means toward evaluating art classroom performance. MacGregor.
Wi Qtr. 1 2-hr cr. Prereq: Jr standing and 9 cr hrs in art educ.

586 Student Teaching in Art in Elementary Schools U 3-8
Practical and theoretical study in educational settings working with elementary school-age children and cooperating teachers.
Au, Wi, Sp Qtr s. Individual conferences and a weekly seminar. Prereq: 4th yr standing and written permission of art educ field experience coordinator. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

587 Student Teaching in Art in Secondary Schools U 3-15
Practical and theoretical study in educational settings working with secondary school-age students and cooperating teachers.
Au, Wi, Sp Qtr s. Individual conferences and a weekly seminar. Prereq: 4th yr standing and written permission of art educ field experience coordinator. Repeatable to a maximum of 15 or hrs for 7-12 certification or 8 or hrs for K-12 certification. This course is graded S/U.

595 Seminar on Topical Issues in Art Education 1 U 1-5
Su, Au, Wi, Sp Qtr s. Art. Prereq: 120 or 500. Repeatable to a maximum of 15 cr hrs.

601 Curriculum Design for Art Appreciation U G 3
Examination of art appreciation programs and concepts toward planning curriculum for the study of art history, popular art, art criticism, aesthetics for specific educational settings. MacGregor.
Au, Sp Qtr s. 1 2-hr cr. Prereq: 401 or 408 or 500 or equiv.

610 Planning for the Arts in Education U G 3
Study and development of plans to produce arts advocacy and arts curricula for various educational purposes, needs, and settings. Marantz or MacGregor.
Su, Wi Qtr s. 1 2-hr cr. Prereq: Sr standing.

620 Theory of Art Education U G 3
Development of aesthetic sensibility from the theoretical perspectives offered by philosophy, psychology, and the social sciences with implications for teaching.
Au, Wi, Sp Qtr s. 2 1-hr cr. Prereq: 430 or 430 and Philos 240. Not open to students with credit for 503.

631 Non-Traditional Art Education Settings U G 3
Study of theories of non-traditional art education programs and the corresponding settings. Boyer.
Wi Qtr. 2 1-hr cr. Prereq: Sr standing.

635 Photographic Criticism U G 3
Readings, lectures, and discussions dealing with the study and practice of photographic criticism to facilitate and enrich the understanding of criticism and photography. Barrett.
Su, Au, Wi, Sp Qtr s. 2 2-hr cr. Prereq: 554 or Photog 568 or 521, or permission of instructor. Not open to students with credit for Photog 635. Cross-listed in Photography and Cinema.

638 The Arts in Education U G 3
Examination of ideas about the arts in education through analysis of programs, projects, and political processes that involve the visual arts, dance, music, and theatre. MacGregor.
Su, Sp Qtr s. 1 2-hr cr. Prereq: Sr standing.

650 Advanced Jewelry and Metalsmithing U G 3
Extends the skills in manipulating metals and the concepts of designing and executing jewelry and metalwork. Duncan.
Au, Wi, Sp Qtr s. 3 2-hr cr, 3 hrs arr. Prereq: 6 or hrs of 450 or permission of instructor. Not open to students with credit for 610. Repeatable to a maximum of 9 or hrs.

651 The Role of Newer Media in Art Education U G 3
Study of the role of photographic and electronic arts in art education through an examination of literature, research, and practical applications. Barrett.
Su, Au, Wi, Sp Qtr s. 3 2-hr cr. Prereq: Jr standing.

654 Multi-Media Materials Development for Art Education U G 3
Su, Au, Wi, Sp Qtr s. Prereq: 551. Not open to students with credit for 654.

655 Advanced Multi-Media Materials for Art Education U G 3
Development and presentation of advanced students of instructional packages for art education; emphasis is placed on design and revision of previously designed materials. Barrett.
Wi, Sp Qtr s. Lec/lab. Prereq: 551. Not open to students with credit for 655.

657 Bookmaking U G 3
Concept, design, construction, and criticism of limited edition books as aesthetic objects. Tauber.
Su, Wi, Sp Qtr s. 4 cr. Prereq: Written permission of instructor.

662 Television: An Art Education Perspective U G 3
Application of the television medium in art education curricula and research, examined and developed through criticism and readings.
Au Qtr 1 3-hr cr. Prereq: Jr standing.

691 Applied Research in Art Education U G 2-5
Studies in empirical, philosophical, curriculum, or studio problems in art education.
Au, Wi, Wi. Sp Qtr s. Repeatable to a maximum of 10 or hrs.

693 Individual Studies U G 1-15
Advanced study for students in specialized programs.
Su, Au, Wi, Sp Qtr s. Prereq: Permission of instructor. Repeatable to a maximum of 45 or hrs. This course is graded S/U.
694 Group Studies U G 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrrs. Prereq: Permission of instructor.
Repeatable to a maximum of 15 cr hrs.

720 Philosophy of Art Education Literature Survey U G 3
Writings by art educators, aestheticians, artists, critics, and others are discussed for historical perspective on and to distinguish the nature of philosophy of art education. Lankford.
Wi Qtr 3 cl.

731 Evaluation in Art Education U G 3-5
Su Qtr 2-2 hr cl. Prereq 807 or equiv with written permission of instructor.

732 The Textbook as a Resource in Art Education U G 3-5
Critical examination of art education textbooks currently in use and their impact upon professional practices. Effland.
Su Qtr. Prereq: Written permission of instructor.

760* Art Criticism in Art Education U G 3
An examination of methods of art criticism and the application of these methods to the classroom situation. Arnold.
Sp Qtr. Prereq: 504 or permission of instructor.

765 Contemporary Art and Art Education U G 3
A study of recent developments in contemporary art and the implication of those developments on art education practice and curriculum design. Arnold.
Wi Qtr 4 cl. Prereq: Written permission of Instructor.

776 Workshop in Art Education U G 1-5
Small group demonstrations of trends, processes, and teaching materials for curriculum development in art education; preparation of study materials for teaching art.
Su, Au, Wi, Sp Qtrrs. Prereq: 620 or equiv and permission of instructor. Repeatable to a maximum of 15 cr hrs.

795 Seminar on Topical Issues in Art Education II U G 1-5
Su, Au, Wi, Sp Qtrrs. Arr. Prereq: 15 or hrs in art educ or permission of dept. Repeatable to a maximum of 15 cr hrs.

801 Current Perspectives on Art Education G 2
Repeatable to a maximum of 6 cr hrs in each decimal subdivision.
801.01 Departmental Symposium
Departmental faculty make formal presentations for formal response and general discussion.
Au Qtr.

801.02 Interdisciplinary Seminar
University faculty outside the department make formal presentations for formal response and discussion.
Wi Qtr.

801.03 Visiting Professionals Symposium
Resource persons from the community and professions make formal presentations for formal response and discussion.
Sp Qtr. Prereq: 801.01 or 801.02 or 801.

804 Issues in Art Education G 3-5
An introduction to alternative conceptions of the functions of art education within the context of general education and the contemporary culture milieu.
Su, Au Qtrrs.

805 Empirical Problems in Art Education G 3-5
An introduction to the language, methodology, and application of empirical research in art education; the identification and isolation of appropriate empirical problems in the field. Korosiek.
Wi Qtr.

807 Curriculum Problems in Art Education G 3-5
An examination of the functions of curricular plans as tools for transforming selected conceptions of art education into teacher and student activities in the classroom.
Sp Qtr.

820 Problems in Philosophy of Art Education G 3-5
Sets of readings on instructor-selected topics of historical interest are discussed for the structure of their arguments and their art education practice implications. Lankford.
Sp Qtr. Prereq 720.

889 Internship in Art Teaching G 2-15
Supervised professional teaching experience toward certification for post-degree students and extended field work for graduate students.
Su, Au, Wi, Sp Qtrrs. Prereq: Written permission of instructor.
Repeatable to a maximum of 20 cr hrs.

893 Individual Studies G 1-15
Su, Au, Wi, Sp Qtrrs. Repeatable to a maximum of 45 cr hrs.
This course is graded S/U.

894 Group Studies G 1-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrrs. Repeatable to a maximum of 15 cr hrs.

911 Research Problems in Art Education G 3-5
Su, Au, Wi, Sp Qtrrs. Repeatable to a maximum of 45 cr hrs.

998 Research in Art Education: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrrs. This course is graded S/U.

999 Research in Art Education: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrrs. This course is graded S/U.

Arts and Sciences

141 Denney Hall, 164 W 17th Avenue, 422-7226

100 Arts and Sciences Survey U 1
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of arts and sciences academic areas of study and services.
Su, Au, Wi, Sp Qtrrs. Prereq: Enrollment in the College of the Arts and Sciences. Not open to students with credit for ASC 101 Au 1982 or UVC 100. This course is graded S/U.

101 Freshman Seminar U 1
Seminars on varying topics taught by University faculty.
Prereq: Fr or soph standing or permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

Arts, College of the

304 Mershon Auditorium, 30 West 15th Avenue, 422-5172

100 Arts Survey U 1
Academic requirements; University procedures, grading system and resources; student rights and responsibilities; overview of Arts' academic areas of study and services. Not open to students with credit for Arts&Sci 100 or UVC 100.
These courses are graded S/U. Students should schedule a decimal subdivision corresponding to their specified interest.
100.01 Arts
Prereq: Art or art education or dance or history of art or industrial design or theatre major.
100.02 Music
Prereq: Passing of School of Music entrance audition and Music Achievement Test.

294 Group Studies U 1-5
Interdisciplinary course involving studies in two or more areas of the visual and performing arts.
Prereq: Permission of dean. Repeatable to a maximum of 18 cr. hrs.

494 Group Studies U 1-5
Group studies in selected interdisciplinary areas in the arts.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Jr standing or above and permission of instructor. Repeatable to a maximum of 15 cr. hrs.

693 Individual Studies U G 2-5
Advanced studies for students engaged in interdisciplinary investigations within the College of the Arts.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr. hrs. This course is graded S/U.

694 Group Studies U G 1-5
Interdepartmental course involving studies in two or more areas of the visual and performing arts.
Prereq: Permission of dean. Repeatable to a maximum of 18 cr. hrs.

Astronomy

5040 Smith Laboratory of Physics, 174 West 18th Avenue, 422-1779; Perkins Observatory, Delaware, Ohio

150 Descriptive Astronomy U 5
Man's view of the nature of the universe, the total and in which it moved at that view; telescopes and planetariums may be used.
Su, Au, Wi, Sp Qtrs. Not open to students with credit for 151, 162, 191, or 192. This course is available for EM credit. BER/LAC/LAR course. NS Admin Cond course.
A—Designates a version covering same material and satisfying same university and college requirements, but which makes extensive use of audio-visual presentations.

155 Current Topics in Astronomy U 5
A detailed study of several topics of current interest in the fields of astronomy, astrophysics, and cosmology, presented for non-science majors.
Au, Wi, Sp Qtrs. 5 cr. Prereq: 150 or 192 or 192 or written permission of instructor. Not recommended for students with a grade of B or better in 152. BER/LAC/LAR course. NS Admin Cond course.

161 Introduction to Solar System Astronomy U 5
Motions, evolution, and present physical characteristics of the sun and its family of planets, satellites, comets, and minor bodies.
Au, Wi Qtrs. 5 cr. Prereq: Math 102 or Math Placement Level 1R. Not open to students with credit for 150 or 191. Not intended for BS students. BER/LAC/LAR course. NS Admin Cond course.

162 Introduction to Stellar, Galactic, and Extragalactic Astronomy U 5
Structure, motions, and evolution of stars, interstellar material, galaxies, and the universe as a whole.
Wi, Sp Qtrs. 5 cr. Prereq: 161 or 191. Not open to students with credit for 150 or 155 or 192. Not intended for BS students. BER/LAC/LAR course. NS Admin Cond course.

191 General Astronomy I U 5
Astronomy 191 and 192 form a comprehensive introduction to modern astronomy. 191 deals with the solar system and the earth as an astronomical body.
Au Qtr. Lec/lab. Prereq or concour: Math 150 or equiv or permission of instructor. Not open to students with credit for 150 or 161. This course is available for EM credit. BER/LAC/LAR course. NS Admin Cond course.

192 General Astronomy II U 5
A continuation of 191 with emphasis on the stellar universe and physical astronomy.
Wi Qtr. Lec/lab. Prereq: 191 or permission of instructor. Not open to students with credit for 150 or 162. This course is available for EM credit. BER/LAC/LAR course. NS Admin Cond course.

294 Group Studies U 1-5
Special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.

350 Methods of Astronomical Observation U 5
Introduction to astronomical observational techniques and methods for interpreting observations, including topics from spherical astronomy and practical experience with astronomical instrumentation and data sources.
Sp Qtrs. 3 cr. 1 2-hr lab plus independent observation. Prereq: 150 or 162 or 192, Math 153, and Physics 133. Not open to students with credit for 301.

601* History of Astronomy U G 3
Babylonian, Egyptian, Chinese, and Mayan astronomy; Greco-Roman period and Middle Ages; Renaissance and Reformation; modern trends in astronomy.
Wi Qtr. Prereq: 150 or 161 or 162 or 191 or 192 or permission of instructor.

605* Introduction to Celestial Mechanics U G 3
Application of the laws of motion to planets, satellites, and stars; the n-body problem; introduction to orbit and perturbation theory.
Wi Qtr. Prereq: Math 255 or 556, Physics 261 or 525; or permission of instructor.

650 Stellar Astronomy U G 4
Distances, motions, luminosities, and masses of stars; the motions and distribution of stars and interstellar matter; star clusters and galaxies.
Au Qtr. Prereq: 192 or 150 or 162; Math 254; Physics 133; or permission of instructor.

651 Introduction to Astrophysics U G 4
Study of radiation from stars and nebulae to determine the composition and physical conditions of matter in and between the stars; stellar nuclear energy sources.
Wi Qtr. Prereq: Math 255 or 556, Physics 531; or permission of instructor.

652 Solar System U G 4
The physical nature of the solar surface, planets, satellites, comets, asteroids, meteors, and diffuse matter in the solar system; cosmogony of the solar system.
Sp Qtr. Prereq: 191 or 150 or 162; or 501; or permission of instructor.

689* Astronomical Uses of Applied Mathematics U G 3
Application of numerical methods for solution of integral, differential, and linear equations of particular interest to astronomy; aspects of statistics of particular relevance to astronomy.
Au Qtr. Prereq: Math 255 or permission of instructor.

693 Individual Studies U G 1-15
Independent library or laboratory work on a special problem in observational or theoretical astronomy.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 40 cr. hrs. This course is graded S/U.
871** Stellar Systems and Interstellar Matter I G 5
Radio and optical observational and theoretical aspects of multiple star system dynamics, structure and statistics; interstellar gas and dust; external systems and cosmology.
Au Qtr. Prereq: 651, Physics 656 or Ecol Eng 810, Stat 521 or Physics 780.20, Math 551 and 255 or 556, or permission of instructor.

872** Stellar Systems and Interstellar Matter II G 5
Continuation of 871.
Wi Qtr. Prereq: 871 or permission of instructor.

873** Stellar Systems and Interstellar Matter III G 5
Continuation of 872.
Sp Qtr. Prereq: 872 or permission of instructor.

880 Directed Research G 3
Participation by the student in the research being conducted by a professor.
Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs only under supervision of different faculty members. This course is graded S/U.

999 Research in Astronomy and Astrophysics G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

Atmospheric Sciences

469 Dreese Laboratories, 2015 Neil Avenue, 422-0754

General Meteorology
See Physics 503—A description of weather phenomena and the physical processes underlying them; intended primarily for nonphysics majors.

Climatology
See Geog 520—The elements and the controls of climate; types of climate and their distribution; climates and their effects on the economic and other activities of man.

Microclimatology and Radiation
Climatology Theory
See Geog 622.01—Theory of exchange of energy and mass at the earth-atmosphere interface as it relates to microclimates with particular emphasis on radiation and climate.

Microclimatological Measurements
See Geog 622.02—Practical experience in the fabrication of instruments, deployment of measurement systems in the field and recording of data related to microclimates.

Applied Climatology: Synoptic Analysis and Forecasting
See Geog 623—Theory and practice in synoptic weather analysis and forecasting.

Chemistry of the Earth’s Atmosphere
See Chem 678—Chemistry of the upper and lower atmosphere: application of kinetics and thermodynamic principles to prediction of rates and mechanisms of transformations, and atmospheric pollutant control.

693 Individual Studies in Atmospheric Sciences G 1-5
Independent studies on selected atmospheric sciences-related topics.
Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U.
694 Group Studies in Atmospheric Sciences U G 1-5
Special studies on topics directly related to the atmospheric sciences.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

Elements of Fluid Dynamics
See Aero Eng 466—Mathematical fluid dynamics including sound waves, kinematics, vorticity, boundary layer theory, turbulence; applications to atmospheric fluid dynamics and other interdisciplinary areas such as atmospheric fluid dynamics and biofluid dynamics.

Fundamentals of Atmospheric Dynamics
See Aero Eng 785—Advanced level treatment of basic topics in the dynamics and thermodynamics of atmospheric motion.

Dynamic Climatology
See Geog 821—Dynamics, thermodynamics, energy conservation, flow, conversion processes, large scale circulation patterns with particular emphasis upon turbulence at the mesoscale, weather processes, and regional climates.

Applied Climatology
See Geog 823—Effects of climate upon plants and animals (bioclimatology), upon industrial processes and structures, and upon landforms; forecasting; climatic modification.

881 Atmospheric Sciences Seminar G 2
A multidisciplinary seminar reviewing the state-of-the-art of selected topics in atmospheric sciences-related fields. Seliga.
Su, Au, Wi, Sp Qtrs. 1 2-hr cl. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs.

893 Individual Studies in Atmospheric Sciences G 1-5
Reviews the state-of-the-art of selected topics in the atmospheric sciences-related fields of meteorology and climatology, air environment studies, or aeronomy and solar-terrestrial relations. Seliga.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

894 Group Studies in Atmospheric Sciences G 1-5
Advanced studies on topics directly related to the atmospheric sciences.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

999 Research in Atmospheric Sciences G Arr
Research for thesis or dissertation purpose only.
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing in atmospheric sciences. This course is graded S/U.

Aviation
Ohio State University Airport, 2160 West Case Road, 422-1115

111 Introduction to Aviation U 3
A comprehensive study of the national air transportation system.
Su, Au, Wi, Sp Qtrs. 3 cl.

201 Primary Flight U 4
A laboratory course provided for students to achieve a greater understanding of the fundamentals of flight and aircraft operation.
Su, Au, Wi, Sp Qtrs. 5 lab. Secure equipment usage charge and permission slip at University Airport prior to scheduling. Prereq or concur: 211.

211 Elements of Aviation U 4
Problems in fundamentals of flight and aircraft operation; objective studies of aviation laws and regulations.
Su, Au, Wi, Sp Qtrs. 3 cl, 2 lab. Prereq: Math 116 and Physics 111; or equiv.

284 Group Studies in Aviation U 2-5
Su, Au, Wi, Sp Qtrs. Prereq: 3rd yr standing and written permission of instructor. Repeatable to a maximum of 10 cr hrs.

320 Aviation Weather U 3
Overview of weather theory; identification of aviation weather hazards and of methods for obtaining current weather data.
Wi Qtr. 1 3-hr cl.

401 Advanced Flight
Su, Au, Wi, Sp Qtrs. 5 lab. Prereq: 201 and secure equipment usage charge and permission slip at University Airport prior to scheduling. The student must register for specific studies in areas indicated below, and may register for more than one at a time. Repeatable to a maximum of 24 cr hrs; subdivisions repeatable.

401.01 Precision Flight Maneuvers I U 3
401.02 Precision Flight Maneuvers II U 3
401.03 Precision Flight Maneuvers III U 3
401.04 Flight Navigational Procedures U 4
401.05 Flight Instruction Procedures U 4
401.06 Advanced Performance Evaluation U 2
401.07 Instrument Instruction Procedures U 2

411 Aircraft Performance U 3
Studies of airframe components, performance and design characteristics, power plants, and federal certification of aircraft.
Su, Sp Qtrs. 3 cl. Prereq: 211.

415 Air Traffic Control and Flight Meteorology U 3
Precision navigational techniques for position control, flight planning and cruise control, aids to navigation, fundamentals of meteorological analysis, and effects of weather on flight.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 211.

421 Flight Instruction Methodology U 3
Principles of teaching aeronautical subjects.
Wi Qtr. 1 3-hr cl. Prereq: 411 and 415 or equiv with written permission of instructor.

432 Flight Physiology U 3
An examination of the adverse effects of flight on human physiological functions, perceptions, and performance.
Au Qtr. 1 3-hr cl. Prereq: 211 and Zoology 232 recommended.

451 Instrument Instruction Methodology U 2
Examines the principles of teaching instrument flight theory and requirements.
Sp Qtr. 1 2-hr cl. Prereq: 421.

489 Professional Practice in Industry U 2
Actual employment in a co-op program in the aviation industry and the preparation of a report based on the work experience.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Admission to co-op program in aviation. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

493 Individual Studies in Aviation U 2-5
Su, Au, Wi, Sp Qtrs. Prereq: 3rd yr standing and written permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

519 Analysis of Problems in Aviation Safety U G 3
Detailed analysis of standard and proposed procedures relating to safety, studies in pilot behavior, accident investigation, and safety programs.
Wi Qtr. 1 3-hr cl. Prereq: 411 and 415.
521 Legal Aspects of Aviation U 3
Study of the legal system and the important legal concepts affecting aviation.
Au Qtr. 3 cl. Prereq: 211 and 415.

593 Individual Studies in Aviation U G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

619 Man-Machine Simulation in Training and Engineering U G 3
An analysis of current research and problems in man-machine simulation of complex systems for training and simulation. Sp Qtr. 1-3 hr cl. Prereq: 519 or grad standing with permission of instructor.

694 Group Studies in Aviation U G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs.

Biochemistry

775 Biological Sciences Building, 484 West 12th Avenue, 422, 6771

105 Molecular Basis of Life U 5
Introduction to the molecular processes underlying life, with applications to biological phenomena of social importance. S/N Credit.
Sp Qtr. 5 cl. Not open to students with credit for Biophy 105. Recommended for non-science majors. This course is available for EM credit. BER/LAC/LAR course. NS Adms Cond course.

211 Elements of Biochemistry U 5
A survey of important concepts in biochemistry stressing the qualitative rather than the quantitative view, suitable for students without an organic chemistry background. Snell.
Au, Sp Qtrs. 5 cl. Prereq: Chem 102 or 122. Credit does not count toward a major in biochem. This course is available for EM credit. BER/LAC/LAR course. NS Adms Cond course.

251 Man and His Food U 5
Integrated treatment of the biological, chemical, nutritional, economic, and cultural concepts basic to feeding the populations in developed and underdeveloped countries of the world. Snell.
Au, Sp Qtrs. 5 cl. BER/LAC/LAR course. NS Adms Cond course.

294 Group Studies U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs for different subject matter only.

500 Microcomputers in Biochemistry U G 5
An introduction to data and numerical analysis and computer programming in Basic for students in biochemistry and related fields.
Au Qtr. 3 cl. Prereq: Math 152 and Chem 123.

511 Introduction to Biological Chemistry U G 5
An introductory course in biochemistry dealing with the molecular basis of structure and metabolism of plants, animals, and microorganisms.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: Chem 123 and 235 or 242, and 2 qtrs of biological sciences. This course is available for EM credit.

512 Biochemistry of Physiological Processes U G 4
The biochemical basis for physiological processes in higher animals; topics will include digestion and absorption, respiration, blood function, kidney function, and endocrine control. Moore.
Sp Qtr. 3 cl. Prereq: 511 or equiv; a course in physical recommended.

521 Introduction to Biological Chemistry: Laboratory U G 5
Laboratory work to accompany 511 or 613 or 614; assay techniques for chemical constituents and metabolic reactions of living cells.
Su, Au, Wi, Sp qtrs. 2 cl, 2 3-hr labs. Prereq or concur: 511 or 613 or 614.

611 Molecular Genetics U G 5
Molecular mechanisms of DNA replication, mutation, recombination, and repair; analysis of gene structure; metabolic and genetic control mechanisms; prokaryotic and eukaryotic systems are analyzed. Marzluf and Perlman.
Sp Qtr. 5 cl. Prereq: One course in biochem and background in one or more of the following areas: genetics, microbiol, dev biol, or permission of instructor. Not open to students with credit for Genetics 611. Cross-listed in Genetics.

613 Biochemistry and Molecular Biology U G 4
An introductory course in biochemistry and molecular biology developing in three quarters the molecular basis of structure and function of living cells. Doekchot.
Au Qtr. 4 cl. Prereq: Chem 242 or 263; 2 qtrs of biological sciences. Not open to students with credit for 511 without written permission of instructor. Not open to students with credit for 513. This course is available for EM credit.

614 Biochemistry and Molecular Biology U G 4
Continuation of 613. Barber.
Wi Qtr. 4 cl. Prereq: 613. This course is available for EM credit.

615 Biochemistry and Molecular Biology U G 4
Continuation of 614. Ives.
Sp Qtr. 4 cl. Prereq: 614. This course is available for EM credit.

631 Plant Biochemistry U G 3
The biochemistry of plants, emphasizing the similarities and differences as compared to other life forms. Barber.
Au Qtr. 3 cl. Prereq: 511 or 614.

693 Individual Studies U 2-5 G 2-10
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs for grade credit. This course is graded S/U.

694 Group Studies U G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs.

705 General Biological Chemistry U G 5
An intensive treatment of modern biochemistry; protein structure, enzyme-catalyzed reactions, chemistry and metabolism of carbohydrates. Barber and Means.
Au Qtr. 5 cl. Prereq: 511 or equiv; Chem 242, 244 or 253, 254, physical chem background of kinetics and thermodynamics or written permission of instructor. Not open to students with credit for Physchem 705. Cross-listed in Physiological Chemistry.

706 General Biological Chemistry Laboratory U G 5
Application of spectroscopic techniques to biologically important molecules. Behrman.
Au Qtr. 3-4 hr labs. Prereq: Chem 242 or 253.

707 General Biological Chemistry U G 5
An intensive treatment of modern biochemistry; energy utilization and electron transport, photosynthesis, membranes and lipid metabolism, Briel and Gross, and Panganamala.
Wi Qtr. 5 cl. Prereq: 705 or Physchem 705. Not open to students with credit for Physchem 707. Cross-listed in Physiological Chemistry.
708 General Biological Chemistry Laboratory U G 5
Laboratory to accompany 707. Means.
WI Qtr. 3-4 hr. labs. Prereq: Permission of instructor.

709 General Biological Chemistry U G 5
An intensive treatment of modern biochemistry; intermediary metabolism of amino acids, proteins, and nucleic acids.
Johnson, Richardson, and Webb.
SP Qtr. 5 cl. Prereq: 707 or Physchem 707. Not open to students with credit for Physchem 707. Cross-listed in Physiological Chemistry.

710 General Biological Chemistry Laboratory U G 5
Laboratory to accompany 709.
SP Qtr. 3-4 hr. labs. Prereq: 708.

721 Physical Biochemistry U G 3
721.01 Physical Biochemistry I
Introduction to chemical thermodynamics and statistical mechanics for students of biochemistry with emphasis on applications to systems of biological interest. Scott.
AU Qtr. 3 cl. Prereq: 511 or 614, Math 254, Physics 113 or 133, and Chem 255, or permission of instructor.

721.02 Physical Biochemistry II
A continuation of 721.01. Additional topics in thermodynamics, statistical mechanics, and chemical kinetics, with applications to biochemistry. Scott.
WI Qtr. 3 cl. Prereq: 721.01 or equiv with written permission of instructor.

721.03 Physical Biochemistry III
A continuation of 721.02.
SP Qtr. 3 cl. Prereq: 721.02. Not open to students with credit for 721.01 or 721.02 prior to SP Qtr 1982.

731* Molecular Photobiology U G 5
AU Qtr. 3 cl. Prereq: 511 or 514 or 614, Chem 253 and 521, Physics 113 and Math 153. Not open to students with credit for 731.01.

783 Honors Course U 3-5
A program of reading and research for each student with individual conferences, reports, and honors thesis.
SU, AU, WI, SP Qtr. Arr. Prereq: 4th yr standing with a grade of A in at least half of the courses in biochem and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtr's are required of candidates for the degrees B.A. or B.S. with distinction in biochem. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

785 Research Principles and Techniques U 2-5 G 2-10
SU, AU, WI, SP Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs for undergrad credit and a maximum of 40 cr hrs for grad credit.

795 Seminar in Biophysics U G 1-2
AU, WI, SP Qtr. Arr. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

811 Advanced Topics in Molecular Genetics G 3
An examination of the current research in molecular genetics by selective reading assignments and critical analysis during class discussion periods. Johnson, Manzulli, and Perelman.
AU Qtr. 3 hrs arr. Prereq: 611 or Genetics 611. Not open to students with credit for Genetics 811. Repeatable to a maximum of 6 cr hrs. Cross-listed in Genetics.

821* Enzymes G 3
Advanced studies of enzymes and the mechanism of enzyme action. Rorer.
WI Qtr. 3 cl. Prereq: 709 or equiv.

850 Seminar in Biological Chemistry G 2
AU, WI, SP Qtrs. 1 or 2 cl. Repeatable to a maximum of 40 cr hrs. This course is graded S/U.

890 Interdepartmental Seminar in Molecular, Cellular, and Developmental Biology G 2
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology.
1-2 hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Given cooperatively by Botany, Biochemistry, Genetics, Microbiology, and Zoology. This course is graded S/U.

892 Interdepartmental Seminar in Plant Physiology G 1
Students will present seminars on their research or related topics in plant physiology and/or attend seminars by local and visiting researchers.
AU, WI, SP Qtrs 1 cl. Prereq: Permission of instructor. Not open to students with 12 or hrs in Agronomy 892, Botany 892, Fo So/An 692, or Hort 692. Repeatable to a maximum of 12 cr hrs, including or hrs earned in Agronomy 892, Botany 892, Fo So/An 692, and Hort 692. Cross-listed in Agronomy, Botany, Food Science and Nutrition, and Horticulture. This course is graded S/U.

999 Research in Biochemistry G Arr
Research for thesis or dissertation purposes only.
SU, AU, WI, SP Qtrs. This course is graded S/U.

Biology

112 Rightmire Hall, 1060 Carmack Road, 422-9861
See also courses in Biochemistry, Botany, Entomology, Genetics, Microbiology, and Zoology.

107 Nature of the Biological World I U 5
Elementary description of the biological world, emphasizing principles and contemporary viewpoints.
SU, AU, WI, SP Qtrs. 3 cl, 1-3 hr rec-lab. Prereq: Math 102 or Math Placement Level R. Not open to students with credit for 110 or 113 or H115. Not intended for Bachelor of Science students. This course is available for EM credit. BERLAC/LAR course. NS Admis Cond course.

108 Nature of the Biological World II U 5
Continuation of 107.
SU, AU, WI, SP Qtrs. 3 cl, 1-3 hr rec-lab. Prereq: 107. Not open to students with credit for 113 or 114. Not intended for Bachelor of Science students. BERLAC/LAR course. NS Admis Cond course.

110 General Biology U 5
An introduction to the biological sciences, emphasizing the important concepts and principles which tend to unify the study of life at all levels of organization.
SU, AU, WI, SP Qtrs. 2 cl, 3 bio-learning center hrs. Not open to students with credit for Botany 110 or Zoology 110. This course is available for EM credit. BERLAC/LAR course. NS Admis Cond course.

110 B—Designates a version covering similar material and satisfying same University and college requirements as 110, but which incorporates computer managed instruction into the existing program of individualized instruction. Course makes use of computer terminals for limited repeat testing, storage and retrieval of performance records, and generation of individualized study prescriptions following tests. Opportunities for self-pacing also exist. Enrollment limited.

113 Biological Sciences: Energy Transfer and Development U 5
Exploration of biology and biological principles; topics include cell structure and function, reproduction and development of plants and animals, bioenergetics, genetics and evolution.
SU, AU, WI, SP Qtrs. 4 cl, 1 5-hr lab. Prereq: Math 102 or Math Placement Level R. High school chemistry or Chem 121 recommended. Not open to students with credit for 110 or Botany 110 and Zoology 110. This course and 114 provide a comprehensive two-semester sequence in general biology. This course is available for EM credit. BERLAC/LAR course. NS Admis Cond course.
114 Biological Sciences: Form, Function, Diversity, and Ecology U 5
Continuation of 113; diversity in structure, function, behavior, and ecology among prokaryotes and eukaryotes.
Au, Wi. Sp Qtrs. 4 cr. 1 3 hr lab. Prereq: 113. BER/LAC/LAR course. NS Admis Cond course.

H115 Honors Biology I U 5
Fundamental concepts of modern biology; an in-depth study of the processes with close interaction with research faculty from the College of Biological Sciences and bio-professional fields.
Au, Sp Qtrs. 3 cr. 2 2 hr labs. Prereq: Honors standing and performance on a pre-test with permission of instructor. Not open to students with credit for 110, H116, or 113. Botany 110, H110 or Zoology 110, H110. This course and H116 are a two-quarter sequence in general biology for beginning students. BER/LAC/LAR course. NS Admis Cond course.

H116 Honors Biology II U 5
Continuation of H115.
Wi. Qtr. 3 cr. 2 2 hr labs. Prereq: H115. BER/LAC/LAR course. NS Admis Cond course.

Bio-Medical Engineering

257 Doane Laboratories, 2015 Neil Avenue, 422-6014

Advanced Mammalian Physiology I
See Physiol 601—First of a two-quarter sequence presenting the following areas of physiology: neuromuscular, heart and circulation, endocrine, brain and special senses, body fluids and kidney, respiration, digestion, temperature control, and metabolism.

Introduction to Neuroscience
See Zoology 522—Introduction to the nervous system, emphasizing its system aspects, signal processing in invertebrates and vertebrates is examined in relation to structure and function.

Introduction to Sensory Biophysics
See Sensory Biophysics 601—Anatomy and function of sensory systems, psychophysical research methods, mathematical descriptions of information transfer, biophysical models.

Stochastic Processes in the Biological Sciences
See Biostat 601—Introduction to discrete stochastic processes, random walk, Markov Chains, birth and death processes, epidemic process, processes for competing among species, diffusion processes, and applications.

Advanced Mammalian Physiology II
See Physiol 602—Continuation of 601.

Principles of Man-Machine Interaction
See Contr/Inf 610—Systems concepts, their measurement and modeling; behavioral processes; sensing, learning, memory, complex information processing, and decision making; interface theory and interactive systems.

Introduction to Ultrasonics
See Eng Mech/Weld Eng 634—Ultrasonic waves in solids and fluids; ultrasonic generators and systems; physical ultrasonics; applications of ultrasonics.

Introduction to Bio-Medical Engineering
See Bio Eng 870—Introduction to the engineering aspects of life science, utilizing lectures from engineering, medicine, and life science.

Analogue Simulation
See Agri Eng 681—Principles of analogy and hybrid simulation developed and applied to engineering problems in agricultural systems.

694 Group Studies in Bio-Medical Engineering U G 1-5
Provides groups of students opportunities to pursue special studies not otherwise offered.
Su, Au, Wi. Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

Special Problems: Advanced Dental Materials
See Dentistry 700.08—The science of dental materials.

Radiation Biology
See Radlgy 880—Effect of ionizing radiation in biological systems at the molecular, cellular, organ, organism, and community levels with special emphasis on medical implications and radiation safety.

Design of Bio-Medical Investigations
See Prev Med 764—Design of studies in biomedical area; formulation of hypotheses; sampling; planning observations and measurements; selection of statistical techniques; testing of hypotheses.

Biomechanics
See Eng Mech 770—Discrete mass and continuum mechanics; description of biological materials; biomechanics of limb and gross body motions; various models for injury to head, neck, and torso.

Instrumentation, Neurophysiology, Clinical Aspects of Electromyography
See Phys Med 770—In-depth study of the instrumentation and correlation of neurophysiology and clinical aspects of electromyography. For PhD candidates only.

Biological Control Systems
See Elec Eng 770—Application of control theory to the analysis of biological control systems such as visual, muscular, thermal, and cardiovascular; receptor, nerve axon, and muscle transfer characteristics.

Bio-Medical Instrumentation
See Elec Eng 771—Application of electrical engineering to the instrumentation, monitoring, and signal and data handling in bio-electrical measurements; consideration of implants, heart pacers, electrocardiogram and electroencephalograph, and speech analysis.

Clinical Bio-Medical Instrumentation
See Elec Eng 772—Classroom and hospital investigation of clinical instrumentation problems such as EEG, ENG, catheter measurements, spectral analysis, pacemakers, electrical safety.

Rheology of Fluids
See Chem Eng 775—Principles of theology including the characteristics of non-Newtonian materials, measurements, rheological equations of state, viscometric flows, and applications to the flow of industrial materials.

Veterinary Physiology
See Vet Phys 700—Comparative electrophysiology.

Veterinary Physiology
See Vet Phys 791—Comparative hemodynamics and cardiovascular sound.

Veterinary Physiology
See Vet Phys 792—Advanced comparative cardiovascular physiology with emphasis upon circulatory response to stress of various congenital and acquired cardiovascular defects.

793 Individual Studies in Bio-Medical Engineering U G 1-12
Su, Au, Wi. Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded Su/Ur.

Interdepartmental Seminar—Philosophy of Clinical Practice for Bio-Medical Engineers
See Medicine 797—Introduction to the physicians philosophy and techniques in diagnosing and treating various medical problems.
Biological System Modeling I
See Elec Eng 870—Consideration of current literature in the area of biological system modeling; cardio-vascular and pulmonary systems; computer implementation of models.

Biological System Modeling II
See Elec Eng 871—Modeling of such biological systems as thermoregulatory or renal for parameter identification, digital and analog computer laboratory implementation.

Bio-Medical Systems Modeling of Man-Machines
See Elec Eng 872—Systems theory applied to the engineering aspects of the human eye-hand tracking interface comparing hybrid computer simulation with experimental data.

Clinical Instrumentation and Signal Processing
See Elec Eng 873—Basic principles of information transfer and signal processing as applied to clinical health care delivery, such as remote diagnosis, ECG analysis, and telemetry.

881 Seminar in Bio-Medical Engineering G 1-12
Su, Au, Wi, Sp Qtrns. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.

999 Research in Bio-Medical Engineering G Arr
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtrns. This course is graded S/U.

Biophysics

707 Biological Sciences Building, 484 West 12th Avenue, 422-8803

Introduction to Sensory Biophysics
See Sensory Biophysics 661—Anatomy and function of sensory systems; psychophysical research methods; mathematical description of information transfer; biophysical models.

Introduction to Quantum Biology
See Microbiology 641—An introduction to applications of elementary quantum mechanics to problems in biology; conceptual rather than mathematical aspects are stressed.

702 Advanced Experimental Methods in Biophysics U G 1-3
Su, Au, Wi, Sp Qtrns. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.

793 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtrns. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.

795 Seminar in Biophysics U G 1-2
Au, Wi, Sp Qtrns. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

999 Research in Biophysics G Arr
Research for thesis and dissertation purposes only. Su, Au, Wi, Sp Qtrns. This course is graded S/U.

Biostatistics

113 Cocks Hall, 1958 Neil Avenue, 422-2866

601 Stochastic Processes in the Biological Sciences U G 3
Introduction to discrete stochastic processes, random walk, Markov Chains, birth and death processes, epidemic process, processes for competing among species, diffusion processes, and applications. Wi Qtr 3 cr. Prereq: Stat 426 or 520 and at least 10 cr hrs in biological sciences.

605 Population Dynamics U G 3

610 Statistical Bioassey U G 3
Direct assays, dose-response relationships, parallel line and slope ratio assay, special statistical designs in assay, Bayesian bioassey, examples. Wi Qtr 3 cr. Prereq: Stat 426 or 521, and Pharmac 600; or permission of instructor.

615 Design and Analysis of Clinical Trials U G 3
Design and analysis of clinical trial data within the framework of regulatory considerations, long and short term trials. Au Qtr 3 cr. Prereq: Stat 528 and 529 or equiv.

999 Research in Biostatistics G Arr
Research for dissertation purposes only. Su, Au, Wi, Sp Qtrns. This course is graded S/U.

Black Studies

486 University Hall, 220 North Oval Mall, 422-3700

See courses in Swhahili.

101 Introduction to Black Studies U 5
An introduction to the goals, purposes, and basic preparation necessary for other black studies courses.
Su, Au, Wi, Sp Qtrns. 3 cr, 2-1 hr labs. BER/LAC/LAR course.

130 Africa and The World U 5
130.01 African History
A general introduction to the history of Africa from prehistoric to recent times. Au Qtr 5 cr. SS Admins Cond course.

154 Introduction to Black Literature U 5
Black literature in Africa, the United States, and the Caribbean. Su, Au Qtrns. 5 cr. BER/LAC/LAR course.

161 Black Psychology: New Behavioral Perspectives U 5
Introduction to black psychology, emphasis on origins, developments, and applications of the discipline. Sp Qtr 2 2-hr cr. Prereq: 101, Psych 100, or permission of instructor. SS Admins Cond course.

180 Fundamentals of Black Dance U 5
Fundamentals and techniques of contemporary black dance. Au, Wi, Sp Qtrns. 3 2-hr cr. Prereq: Permission of instructor. VPA Admins Cond course.

Social Problems
See 202. Offered in cooperation with Black Studies.

218 Black Community Development U 5
Problem solving and field work in the local urban black community. Au, Wi, Sp Qtrns. 2 2-hr cr. Repeatable to a maximum of 10 cr hrs.

222 Economic Problems of Black America U 5
Economic problems of black Americans including economic history, job opportunities, income, consumer purchases, housing, business enterprises. Sp Qtr 5 cr. Prereq: 5 cr hrs in econ or permission of instructor. SS Admins Cond course.

230 The Black Woman: Her Role in the Liberation Struggle U 3
The political role of the black woman in the struggle for black freedom; examination of changing laws and customs affecting the status of black women. Wi Qtr 3 cr.
238 Contemporary Afro-American History U 5
Sp Qtr. 5 cl. SS Admis Cond course.

244 Survey of African and African-Derived Music in the Western World U 3
An introduction to traditional African music and its role in the history and development of Afro-American music with its concomitant socio-cultural milieu.
Au, Wi Qtrs. 3 cl. Not open to students with credit for Music 244. Cross-listed in Music. BER/LAC course. VPA Admis Cond course.

247 Africa in the 19th Century U 5
Emphasis on African societies during the century of the European scramble for colonies. Wq Qtr. 5 cl. SS Admis Cond course.

248 Leadership and Mass Movements in Contemporary Africa U 5
A survey of modern African leaders, their philosophies and methods, and a study of the historical, geographical, economical, and political factors that gave rise to the drive for national independence after 1945. Sp Qtr. 5 cl. BER course. SS Admis Cond course.

251 Introduction to African Literature U 5
An assessment of the oral prose tradition and written prose of African literature; specific emphasis placed on student reading from primary sources. Su, Au Qtrs. 5 cr. BER/LAC course.

254 Themes in Afro-American Literature U 5
A thematic study of selected topics in Afro-American and related literature. Sp Qtr. 5 cl.

255 Afro-American Life through Autobiographies U 5
The experiences of black people in America as revealed in autobiographies of Afro-Americans. Wq Qtr. 5 cl. Prereq: 101 or permission of instructor.

261 Black-White Behavior U 5
A survey of the social significance of important behavioral elements affecting black-white relations. Au Qtr. 5 cl. SS Admis Cond course.

270 Basic Musicianship through Black Music U 3
Designed to prepare students with elementary musical knowledge and skills essential for musical literacy with special emphasis on the musical literature of black people. Au, Wi Qtrs. 3 cl. VPA Admis Cond course.

271 Contemporary Black Drama U 5
A literary analysis and discussion of plays by black playwrights in recent times. Au Qtr. 2 1/2-hr cl. Prereq: Permission of instructor. VPA Admis Cond course.

272 Theatre Practice in Black Drama U 5
Local performance of selected black drama. Sp Qtr. 2 1/2-hr cl. Prereq: Permission of instructor. VPA Admis Cond course.

278 Contemporary Black Art U 5
Contemporary black artists and the interrelationship between the social-political and economic environments in which they work. Wi Qtr. 2 1/2-hr cl. VPA Admis Cond course.

American Minority Relations
See Social 290. Offered in cooperation with Black Studies.

Introduction to Afro-American Literature
See English 281. Offered in cooperation with Black Studies.

281 Black Leaders in Search of an Ideology U 5
A survey of 19th and 20th century black leaders in Africa, America, and the Caribbean and their search for a useful ideological perspective. Wi Qtr. 5 cl. SS Admis Cond course.

282 Major Themes in African and Afro-American Cultures and Civilizations U 5
A broad and comprehensive survey of the cultures and heritage of Africans and Afro-Americans. Su, Au, Wi, Sp Qtrs. 5 cl. BER/LAC/LAR course. SS Admis Cond course.

284 Introduction to African and Afro-American Political Thought U 5
Introduction to the thoughts and views of Africans and Afro-Americans on such topics as colonialism, freedom, justice, equality, order, religion, culture, man, society, and development. Sp Qtr. 5 cl. BER/LAC/LAR course. SS Admis Cond course.

290 Workshop in Visual Communication U 5
The study, analysis, and evaluation of the visual environment of the black community. Su, Au, Sp Qtrs. 2 1/2 hr cl. Repeatable to a maximum of 15 cr hrs.

294 Group Studies U 1-5
Groups of students are given an opportunity to pursue special studies not otherwise offered. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

322 Black Consumer Economics U 5
Economic problems faced by black Americans in their purchases of goods and services. Au Qtr. 5 cl. Prereq: 222 or permission of instructor.

325 Freedom Versus Equality: Blacks and the Political Order U 5
A systematic analysis of the impact of the simultaneous quest for equality and freedom by blacks and other minorities upon the social and political order. Wi Qtr. 5 cl.

326 Black Americans and the Legal System U 5
An examination of the role of the legal system in the social and political dynamics of blacks in American society. Au Qtr. 5 cl.

327 Introduction to African Politics U 5
Examination of dynamics of nation-building in African countries in transition from colonial dependencnes to modern nation-states. Au Qtr. 5 cl.

338 African Territories as Nation-States: Selected Case Studies U 5
Case studies of selected African territories gaining independence in the aftermath of the Second World War. Wi Qtr. 5 cl.

345 Afro-American History to the Civil War U 5
Afro-Americans as a people, a culture, and an ethnic group to 1860. Au Qtr. 5 cl. BER/LAC course.

346 Afro-American History: The Civil War to 1914 U 5
The culture and history of blacks in the United States from the Civil War until 1914. Wi Qtr. 5 cl.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>351 Caribbean Literature</td>
<td>in English U 5</td>
<td>A consideration of prose, poetry, and drama written by Caribbean authors focusing on Caribbean literature in English within the framework of black literature. Au, Sp Qtrs. 5 cl.</td>
</tr>
<tr>
<td>352 Afro-American Cultural</td>
<td>and Intellectual Tradition U 5</td>
<td>Salient themes in the experience of the black man in America including slavery and bondage, emancipation, integration, and revolt. Sp Qtr. 5 cl.</td>
</tr>
<tr>
<td>361 Psychology of the Black</td>
<td>Experience U 5</td>
<td>An analysis of personality theories commonly applied to black America and the black experience. Wi Qtr. 5 cl.</td>
</tr>
<tr>
<td>375 Early Black Artists U 5</td>
<td>The work of black artists prior to 1920. Wi Qtr. 2 2-hr cl.</td>
<td></td>

</tr>
<tr>
<td>630 Black Political</td>
<td>Movements and Organizations U G 5</td>
<td>Analysis of black political movements and organizations from slavery to contemporary times. Su Qtr.</td>
</tr>
</tbody>
</table>

**Comparative Race Relations**

See Soc 480. Offered in cooperation with Black Studies.

**Economics of the Ghetto**

See Econ 208. Offered in cooperation with Black Studies.

**Contemporary African Thinkers U 5**

A study of the writings and achievements of contemporary African thinkers. Wi Qtr. 5 cl. Prereq: 101 or permission of instructor.

**Black Politics U 5**

Economic, political, and social constraints on the development of black political power; the efforts made by black people in recent times to organize for effective political action. Au Qtr. 5 cl. Not open to students with credit for Poli Sci 208 or 504. Cross-listed in Political Science.

**Pan-Africanism and Nationalism U G 5**

Pan-Africanism and nationalism in the development of Africa. Au Qtr. 5 cl.

**Special Topics in Cultural Anthropology: Tribal Society and Culture**

See Anthrop 620.13. Offered in cooperation with Black Studies.
633 Black Community Politics: Welfare and Poverty U G 5 Welfare and poverty as social, economic, and political problems of the black community.
Sp Qtr.

Sp Qtr. 6 cr. Prereq. Permission of instructor.

691 Black American Family U G 5 History of the Black American family: origins, myths, and realities.
Au Qtr. 2 2½-hr cr. Prereq: 101 or permission of instructor.

693 Individual Studies U G 1-5 Individual reading or research projects by special agreement between instructor and student.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies U G 1-5 Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

712 Development of the Black Community U G 5 Rural and urban development and their effects on black people in America.
Sp Qtr.

718 Citizen Participation U G 5 To assess and apply techniques of organization and action in the black community.
Au Qtr. Repeatable to a maximum of 15 or hrs.

721 Economics of Discrimination U G 5 The economics of racial discrimination with emphasis on black Americans.
Au Qtr. Prereq: Grad standing or written permission of instructor.

725 Political Development of Sub-Saharan Africa U G 5 The process and problems of political change in Sub-Saharan Africa.
Wi Qtr.

732 Tradition in Black Political Thought U G 5 The concept of tradition in political thought and the significance of various traditions in the development of black political thought.
Wi Qtr. Prereq: Grad standing or written permission of instructor.

735 Methods and Materials of Research in Black History U G 5 Au Qtr. Prereq: Written permission of instructor.

736 Eastern Africa in the 19th Century U G 5 Migration, trade, and state formation in eastern Africa.
Au Qtr.

Sp Qtr.

740 Comparative History of Africa and Black America U G 5 A study in Afro-American history involving beginnings in Africa and the cultural and historical experience of blacks in America.
Sp Qtr.

751 Studies in the African Novel U G 5 Wi Qtr.

Racial and Ethnic Differentiation
See Sociol 780, Offered in cooperation with Black Studies.

762 Mental Health and the Black Community U G 5 Theoretical and practical approaches to the problems of mental health in the black community.
Au Qtr. Prereq: 15 cr hrs in social/behavioral sciences or permission of instructor.

761 Topics in African Political Philosophy U G 5 Post-colonial African conceptions of power, freedom, alienation, and cultural identity.
Sp Qtr. Prereq: Grad standing or written permission of instructor. Repeatable to a maximum of 15 or hrs.

782 Modern Black Political Thought U G 5 The historical development of black political thought from the 19th century to the present.
Sp Qtr. 5 cr.

H783 Honors Course U 3-5 A program of individual study for undergraduate honors students; requires individual conferences, reports, presentations, and oral defense of an honors thesis.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing and a cumulative p-hr ratio of at least 3.5 in all courses in black studies. Open only to candidates for degrees with distinction in black studies. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

789 Studies in Traditional African Political Thought U G 5 A critical analysis and evaluation of the conceptual foundation of pre-colonial African political thought.
Wi Qtr.

792 Interdepartmental Studies in the Humanities U G 3-5 Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

833 Seminar in U.S./African Relations G 5 A critical analysis of selected theories of American foreign policy, with special emphasis on Africa.
Wi, Sp Qtrs. Repeatable to a maximum of 10 or hrs.

Au Qtr.

853 Afro-American Literary Movements: The Harlem Renaissance G 5 Sp Qtr.

854 Seminar in Major Black Authors G 5 Wi Qtr. Prereq. Permission of instructor.

860 Seminar in Black Literature G 5 Topics in African, Afro-American, and Caribbean literature, with emphasis on the role of literature in communal development.
Wi Qtr. Repeatable to a maximum of 10 or hrs.

865 Black Role Models: Racism and Sexism G 5 Effects of racism and sexism on the various role models that are prevalent in the black community emphasizing consequences and alternatives.
Sp Qtr. Prereq: 15 or hrs in social/behavioral sciences or permission of instructor.
899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

998 Research in Black Studies: Thesis G Arr
Research for the thesis.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

Botany

108 Botany and Zoology Building, 1735 Nell Avenue, 422-8552

112 General Botany U 5
A survey of the major groups of plants with emphasis on diversity, modes of reproduction, ecology, and economic importance.
Su, Au, Wi, Sp Qtrs. 3 cl, 1 2-hr lab arr. Prereq: Math 102 or equiv. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

201 Introduction to Plant Evolution U 5
An introductory course in plant evolution emphasizing major events and evolutionary changes that have occurred among plants. Taylor.
Wi Qtr. 3 cl, 1 2-hr lab, 2-hr lab project. Prereq: 112 or Biology 114 or equiv with written permission of instructor. BER/LAC/LAR course. NS Admis Cond course.

202 Plant Development U 5
An introductory course in plant development at the organismic level, emphasizing physiology, morphology, and anatomy. Raghavan.
Au Qtr. 3 cl, 2 2-hr labs. Prereq: 112 or Biology 114. BER/LAC/LAR course. NS Admis Cond course.

210 Local Flora U 5
A lecture, laboratory, and field course in identifying common Ohio plants; emphasis on taxonomic principles, use of keys and manuals, and field recognition of plants. Stueck and Crawford.
Su, Sp Qtrs. 3 cl, 2 2-hr labs, several Sat field trips. Prereq: 112 or Biology 114 or equiv with written permission of instructor. BER/LAC/LAR course. NS Admis Cond course.

260† Fungi and Man U 5
The interrelationships of fungi and man, exemplified by those activities beneficial or detrimental to mankind. Schmitt.
Sp Qtr. 3 1½-hr cl. Prereq: 112 or Biology 114 or equiv with written permission of instructor. NS Admis Cond course.

293 Individual Studies U 1-5
Individual work in the field of the chosen problem.
Su, Au, Wi, Sp Qtrs. Prereq: 112 or Biology 114, and written permission of instructor. Only 5 or hrs may count towards a botany major. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

294 Group Studies U 1-5
Group study of topics in botany.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs for different topics only.

313 Introduction to Ecology U 5
Distribution and abundance of species, population dynamics, the basic energetics of living systems, and evaluation of the ecosystem concept.
Au, Wi Qtrs. 5 cl. Prereq: 112 or Biology 114. Not open to students with credit for 313.01 or 313.02 or Zoology 313 or 313.01 or 313.02. Cross-listed in Zoology. BER/LAC/LAR course. NS Admis Cond course.

General Plant Pathology
See Plnt Path 401.

420 Introduction to Plant Communities U 5
An introduction to the establishment, development, structure and function of natural plant communities. Gilbert.
Sp Qtr. 5 cl, 1 all-day Sat field trip. Prereq: 112 or Biology 114 or H15; and 5 additional cr hrs in biological sciences.

436 Introductory Plant Physiology U 5
Topics in plant physiology at the introductory level: diffusion, transpiration, water stress, translocation, enzyme kinetics, photosynthesis, plant growth hormones, tropisms, flowering, fruit development, Evans, Swanson, and Cline.
Su, Sp Qtrs. 4 cl. Prereq: 112 or Biology 114; 10 cr hrs in chemistry, or equiv with written permission of instructor. Not open to students with credit for 430 or 431.

437* Introductory Plant Physiology Laboratory U 2
An experimental approach to the topics listed under 436. Evans, Swanson, and Cline.
Au, Sp Qtrs. 2 2-hr labs. Prereq or concur: 436. Not open to students with credit for 430 or 434.

General Genetics
See Genetics 500.

570 Plants and People: An Introduction to Ethnobotany U G 5
The study of the interrelationships between human and plant populations; focuses on non-Western beliefs, attitudes, and uses of plants.
Sp Qtr. 5 cl. Prereq: Anthrop 200 or 201 or 202 or Botany 112 or Zoology 201. Not open to students with credit for Anthrop 570. Cross-listed in Anthropology.

601 History of Botany U G 5
Origin and development of important biological approaches, concepts, and theories including those of the contemporary period. Rudolph.
Sp Qtr. 5 cl. Prereq: English 110 or 111 or equiv, and 15 or hrs in biological sciences. Fulfills in part the ASC advanced English composition requirement.

610 Field Botany U G 5
Collection, preservation, field and laboratory identification, and local distribution of plants of the major groups. Stueck.
Su (1st term) Qtr, given only at Franz Theodore Stone Laboratory. Prereq: 112 or Biology 114, and 15 additional cr hrs in biological sciences or written permission of instructor.

611 Higher Aquatic Plants U G 5
Aquatic plants, other than the algae of Great Lakes region; field and laboratory work on their identification and ecological and geographical relations. Stueck.
Su Qtr, given only at Franz Theodore Stone Laboratory. 3 all-day cl. Au Qtr, given only on Columbus campus. 2 cl, 1 4-hr lab, several Sat field trips. Prereq: 112 and 15 additional cr hrs in biological sciences.

612† Taxonomy of Vascular Plants U G 5
A laboratory, field, and discussion course concerning the classification of vascular plants; emphasis on taxonomic principles, systems of classification, family characteristics and relationships. Stuey.
Sp Qtr. 3 cl, 2 2-hr labs, several Sat field trips. Prereq: 210 or 810, and 10 additional cr hrs in biological sciences or permission of instructor.

613* Evolutionary Processes in Flowering Plants U G 5
Origin of variation in plants with emphasis on evolutionary processes unique to the flowering plants. Crawford.
Au Qtr. 5 cl.
620 Community Ecology and Ecosystems U G 5
A quantitative and descriptive approach to the establishment, development, succession, and dynamics of plant communities and their interactions with historic, climatic, soil, and biotic factors. Biocen.
Su Qtr, given at Franz Theodore Stone Laboratory, 3 all-day cl. Au Qtr, given only on Columbus campus, 3 cl, 1 4-hr lab, several field trips. Prereq: 313 or 313.01 or Zoology 313 or 313.01 or equiv. and 16 additional or hrs in biological sciences.

621† Quantitative Plant Ecology U G 5
Quantitative study of plant population processes, community organization, and ecological methods.
Su Qtr, given only at Franz Theodore Stone Laboratory. Au Qtr, given only on Columbus campus, 3 cl, 1 4-hr lab, field trips. Prereq: 315 or jr standing with at least 15 or hrs in biological sciences.

625* Paleobotany U G 5
Structure, phylogeny, and stratigraphic distribution of representative fossil plants. Taylor.
Sp Qtr, 3 3-hr lec/lab, field trips. Prereq: Jr standing with at least 25 or hrs in biological sciences or jr standing in geological sciences or equiv with written permission of instructor.

626† Palynology U G 5
Survey of pollen grains and spores including their identification using diagnostic features, distribution through time, and biological importance. Taylor.
Sp Qtr, 2 cl, 1 3-hr lab, 1 2-hr lab-research project arr. Prereq: Jr standing and 15 or hrs in either biological or geological sciences.

630 Plant Physiology U G 3
Advanced study of plant physiology: solutions, diffusion, osmotic quantities, transpiration, absorption and translocation of water, protein metabolism, enzymes, and respiration. Cline, Evans, and Swanson.
Su, Au Qtrs, 3 cl. Prereq: 112 or Biology 114, Chem 242 or 252 or Biochem 511, or written permission of instructor.

631 Plant Physiology U G 3
Advanced study of plant physiology: pigments, photosynthesis, carbohydrate and fat metabolism, absorption of mineral salts, translocation of solutes, regulation of plant growth, and development. Cline, Evans, and Swanson.
Wi Qtr, 3 cl. Prereq: 112 or Biology 114, Chem 242 or 252 or Biochem 511, or written permission of instructor.

Cytological Basis of Genetics
See Genetics 631.

632† Physiological Ecology of Plants U G 5
Physiological relationships between environmental factors (especially light) and the growth of plants under field conditions.
Su, Wi Qtrs, 3 cl, 2 2-hr labs, several Sat field trips. Prereq: 313 or Zoology 313, and 15 or hrs in the biological sciences.

Plant Genetics
See Genetics 632.

633 Plant Physiology Laboratory U G 3
An experimental approach to the topics listed under 630. Cline, Evans, Platt, and Swanson.
Au Qtr, 2 3-hr labs. Prereq or concur: 630 or permission of instructor.

634 Plant Physiology Laboratory U G 3
An experimental approach to the topics listed under 631. Cline, Evans, Platt, and Swanson.
Wi Qtr, 2 3-hr labs. Prereq or concur: 621 or permission of instructor.

638† Morphology of Vascular Plants U G 5
Morphology, anatomy, and evolution of vascular plants. Raghavan.
Au Qtr, 3 cl, 3 2-hr labs. Prereq: 112 or Biology 114, and 15 additional or hrs in biological sciences.

641† Morphology of Angiosperms U G 5
A lecture-discussion course on reproductive processes and mechanisms in angiosperms with emphasis on floral morphology, embryology, and formation of fruits and seeds. Raghavan.
Sp Qtr, 4 2-hr cl. Prereq: 112 or Biology 114, and 15 additional or hrs in biological sciences.

643 Plant Anatomy U G 5
An anatomy course covering the structure, function, and development of cells, tissues, and organs of vascular plants. Wi Qtr, 2 cl, 2 3-hr labs. Prereq: 112 or Biology 114, and 10 or hrs in biological sciences.

644 Algae U G 5
A general course covering identification, growth, reproduction, evolution, distribution, and economic importance of the algae. Floyd.
Su, Sp Qtrs. Su Qtr given only at Franz Theodore Stone Laboratory, 3 all-day cl. Au Qtr given only on Columbus campus, 2 3-hr cl and 1 2-hr cl. Prereq: 112 or Biology 114, and 15 additional or hrs in biological sciences or written permission of instructor.

647† Plankton U G 5
Identification, quantification, distribution, and control of freshwater plankton. Au Qtr, 4 2-hr cl, several field trips. Prereq: Jr standing with at least 20 or hrs in biological sciences. Not open to students with credit for Zoology 647. Cross-listed in Zoology.

648 Plant Cell Ultrastructure U G 5
Plant cell structure, function, and development as elucidated by electron microscopy. Floyd.
Wi Qtr, 5 cl. Prereq: Jr standing with at least 20 or hrs in biological sciences, a course in plant physiology or equiv recommended.

660 Mycology U G 5
A study of structures, life histories, and classification of the fungi. Seymour.
Au Qtr, 3 cl, 2 2-hr labs. Prereq: 112 or Biology 114, and 15 additional or hrs in biological sciences.

662 Medical Mycology
The fungal pathogenic to man, their structure and distribution, and the importance of human mycotic diseases. Schmitt.

662.01 Lecture U G 3
Au Qtr, 3 cl. Prereq: Microbiol 509 or 602 or 607 or Med Micr 625, and 10 or hrs in biological sciences.

662.02 Laboratory U G 2
Au Qtr, 2 2-hr labs. Prereq or concur: 662.01 for 3 or hrs. Not open to students with credit for 662.01 for 5 or hrs.

Cytological Preparations in Electron Microscopy
See Microbiol 670.

693 Individual Studies U G 1-5
Problems may be selected in the fields of paleobotany, taxonomy, morphology, morphogenesis, anatomy, physiology, ecology, genetics, cytology, mycology, history, or ichnology.
Su, Au, Wi, Sp Qtrs. Prereq: 112 or Biology 114, and 15 additional or hrs in biological sciences. Not more than 5 or hrs may be counted toward an undergraduate major in botany. Repeatable to a maximum of 15 or hrs for undergraduates. This course is graded SU.

694 Group Studies U G 1-5
Group study of special topics in botany.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.
740L Plant Morphogenesis U G 5
Factors of growth, organization, and differentiation in plants with emphasis on modern experimental approaches to the understanding of the integrated control of plant growth. Sp Qtr. 3 cl, 2-3 hr labs. Prereq: 430 and 431, or 630 and 631; 843, or permission of instructor.

760L Lichenology U G 3
The biology of lichens and their symbionts with emphasis on morphology, anatomy, physiology, and systematics. Rudolph. Sp Qtr. 2 cl, 1-2 hr lab. Prereq: 430 or equiv and 644 or 990.

7H73 Honors Course U 3-5
Problems may be selected in the fields of paleobotany, taxonomy, morphogenesis, anatomy, physiology, ecology, and lichenology. Su, Au, Wi, Sp Qtrs. Prereq: 4th year standing, a grade of A in at least half of the botany courses and an average of B in the remainder. Permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Failure to receive a mark of S in this course is a disqualification for graduation with distinction. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

801 Seminar in Systematic and Evolutionary Botany G 2
Discussion of advanced topics in systematic and evolutionary botany. Floyd, Crawford, Rudolph, Seymor, Stuessy, Stuckey, and Taylor. Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 8 or hrs. This course is graded S/U.

802 Seminar in Environmental Botany G 2
Discussion of advanced topics in environmental botany. Boerner, Gilbert, Gross, Platt, Rudolph, Schmitt, Stuckey, and Swanston. Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 8 or hrs. This course is graded S/U.

803 Seminar in Developmental and Regulatory Botany G 1-3
Discussion of advanced topics in developmental and regulatory botany. Cline, Evans, Franss, Platt, Popham, Raghavan, and Swanston. Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 8 or hrs. This course is graded S/U.

810L Experimental Taxonomy G 5
Biocenotic categories, population analysis of mass collections, individual variations, hybridization, and introgression in relation to the methods and materials of experimental taxonomic research. Stuessy. Au Qtr. 3 cl, 2-3 hr labs, several Sat field trips. Prereq: Permission of instructor.

812L Plant Chemosystematics G 5
Examination of the use of chemical data in studying plant relationships and evolution. Independent research. Crawford. Wi Qtr. 3 cl, 2-3 hr lab. Prereq: Introductory course in organic or biochemistry, and 30 or hrs in biological sciences.

815L Botanical Nomenclature G 3
A discussion of the principles, definitions, practical applications, and limitations of the International Code of Botanical Nomenclature. Stuckey. Au Qtr. 3 cl. Prereq: 910 and 612, or 810 or equiv with permission of instructor.

833 Advanced Plant Physiology: Growth G 3
The physiology of growth and reproduction; special attention given to the interrelated effects of internal and external factors on these processes. Cline and Evans. Sp Qtr. 3 cl. Prereq: 630, 631, and 10 additional or hrs in biological sciences, or permission of instructor.

834 Advanced Plant Physiology: Water and Solute Relations G 3
Osmotic relations, mechanisms of water and solute uptake and transport, salt metabolism, drought, and salt tolerance. Swanston. Sp Qtr. 3 cl. Prereq: 630, 631, and 10 additional or hrs in biological sciences; or permission of instructor.

861L Physiology of Fungi G 5
The physiology of the nutrition, growth, and reproduction of fungi. Garraway. Wi Qtr. 3 cl, 2-3 hr labs. Prereq: 630, 831, 860 or written permission of instructor. Not open to students with credit for Plant Phys 881. Cross-listed in Plant Pathology.

890 Interdepartmental Seminar in Molecular, Cellular, and Developmental Biology G 2
Students will present oral reports and lead discussion on research progress in specific areas of molecular, cellular, and developmental biology. Au, Wi, Sp Qtrs. 1-2 hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U. Offered cooperatively by Botany, Genetics, Microbiology, and Zoology.

891 Interdepartmental Seminar in Environmental Biology G 2
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities. Su, Au, Wi, Sp Qtrs. 1-2 hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs. This course is graded S/U. Offered cooperatively by Botany, Entomology, Microbiology, and Zoology.

892 Interdepartmental Seminar in Plant Physiology G 1
Students will present seminars on their research or related topics in plant physiology and/or attend seminars by local and visiting researchers. Au, Wi, Sp Qtrs. 1 cl. Prereq: Permission of instructor. Not open to students with 12 or hrs in Agronomy 892, Biochem 892, Fd Sc&M 892, or Hort 892. Repeatable to a maximum of 12 or hrs, including or hrs earned in Agronomy 892, Biochem 892, Fd Sc&M 892, and Hort 892. Cross-listed in Agronomy 892, Biochemistry, Food Science and Nutrition, and Horticulture. This course is graded S/U.

896 Interdepartmental Seminar in Polar and Alpine Studies G 1-3
See Interdepartmental Seminars.

998 Research in Botany: Thesis G Arr
Research for master’s thesis only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Botany G Arr
Research for dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

---

**Bulgarian**

232 Cunz Hall, 1841 Milton Road, 422-6733

**101† Elementary Bulgarian I U 5**
Development of oral and written language skills. Au Qtr. 5 cl. FL Admins Cond course.

**102† Elementary Bulgarian II U 5**
Development of oral and written language skills. Wi Qtr. 5 cl. Prereq: 101 or equiv. FL Admins Cond course.
111† Intensive Intermediate Bulgarian  U 10  
Readings, oral and written practice, grammar review.  
Sp Qtr. 10 cl. Prereq: 102 or equiv. Equiv to the third and  
fourth courses of the foreign language sequence.

Business Administration:  
Finance

318 Hagerty Hall, 1775 College Road, 422-3028  
220 Personal Finance  U 3  
Budgeting, credit, borrowing money, bank relationships,  
savings, insurance, real estate, stocks and bonds, income  
taxes, social security, annuities, wills, trusts, estates, and  
taxes.  
Au, Wi, Sp Qtrs. 3 cl. Prereq: 2nd yr standing. Not open to  
students in College of Administrative Science mapping in either  
acting or finance.

510 Legal Environment of Business  U 4  
American legal institutions and sources of law and an analysis  
of basic concepts of contract law.  
Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: 3rd yr standing.

511 Introduction to Administrative  
Regulation  U 4  
Examination of the legal background of administrative  
regulation; major federal regulatory statutes; how agencies  
operate; and how firms cope with the regulatory environment.  
Au, Wi, Sp Qtrs. Prereq: 3rd yr standing.

611 Regulatory Environment of the  
Business Firm  U 3  
Analysis of the legal basis of government regulation and a  
survey of the principal federal regulatory and antitrust statutes  
with emphasis on current application.  
Au, Wi, Sp Qtrs. 3 cl. Prereq: 510 or 511 or equiv.

612 Legal Aspects of the Distributive  
Processes  U 4  
Problems arising out of the distribution of consumer goods;  
obligations of sellers, including product liability; analysis of  
selected pricing, consumer-protection, and commercial paper  
statutes.  
Au, Wi, Sp Qtrs. 4 cl. Prereq: 510 or 511 or equiv.

613 Legal Environment of  
Institutional Management  U 3  
Examination of business associations, emphasizing the legal  
aspects of the management process and the societal influence  
and responsibilities of the corporation.  
Au, Wi, Sp Qtrs. 3 cl. Prereq: 510 or 511 or equiv.

620 Business Finance  U 4  
Introduction to financial management of private business firms;  
financial analysis and planning; sources of financing;  
applications of funds; capital budgeting and capital structure.  
Blythe, Cole, and Harvey.  
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. H620 (honors) may be available to  
students enrolled in an honors program or by permission of  
faculty. Prereq: Econ 200 and 400, or equiv; and Accounting  
201 or 212 or equiv. This course is available for EM credit.

640 Insurance and Risk  U 4  
Principles and practices of insurance and risk management,  
including personal, business, and social viewpoints; in regard to  
insurance for life, health, property, and liability risks.  
Bickelhaupt and Smith.  
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: Econ 200 and 400, or  
equiv.

670 Real Estate and Urban Land  
Economics  U 4  
Introduction to urban land economics and real estate markets;  
topics include land use, property taxation, income taxation,  
and property rights. Raschler and Sanders.  
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: Econ 200 and 400, or  
equiv.

720 Corporation Finance  U 4  
A critical study of the field of corporation finance from an  
economic point of view. Blythe.  
Su, Wi Qtrs. 2 2-hr cl. Prereq: Accting 711 or equiv; and Econ  
400 or equiv. Open only to students preparing for grad work in  
business. Not open to students in structured MBA.

721 Managerial Finance  U 4  
Financial management of business units with emphasis on  
finance organization structure, collecting and using financial  
data, judging profitability, liquidity, sources of capital, internal  
financial operations. Harvey.  
Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 620 or equiv.

722 Investment Management  U 4  
Investment objectives: types of investments and their relative  
merits; security prices and yields; investment programs; and  
taxes.  
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 620 or equiv.

723 Investment Analysis  U 4  
Methods of investment analysis; analysis of investment data,  
principles and standards for selection of specific investment;  
portfolio management. Buier and Hess.  
Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 722 or equiv.

724 Stock Market  U 4  
Practices, procedures, and evaluations relating to buying  
and selling securities in the organized security markets.  
Wi Qtr. 2 2-hr cl. Prereq: 620 or equiv. H724 (honors) may be  
available to students enrolled in an honors program or by  
written permission of dept.

725 International Finance  U 4  
The international financial environment; management of  
financial risks inherent with international business; problems  
of implementing corporate finance principles overseas; financial  
aspects of parent-subsidiary relationships.  
Wi, Sp Qtrs. 2 2-hr cl. Prereq: 620 and Bus Adm 555, or  
equiv.

726 Management of Financial  
Institutions  U 4  
Structure, operations, regulations, and economic significance of  
financial institutions with emphasis on savings, trust, mortgage  
lending, consumer lending, regulatory, and investment banking  
institutions. Rapp, Cole, and Blythe.  
Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 620 and Econ 520 or equiv.

728 Quantitative Methods  
in Managerial Finance  U 4  
Application of mathematical and statistical methods in  
formulating and solving problems of financial management.  
Au, Wi Qtrs. 2 2-hr cl. Prereq: 721 or equiv. H728 (honors)  
may be available to students enrolled in an honors program or  
by written permission of dept.

729 Cases in Managerial Finance  U 4  
Analysis of qualitative and quantitative financial factors  
involved in managerial decisions in actual business cases.  
Multin, Blythe, Rapp, and Harvey.  
Wi, Sp Qtrs. 2 2-hr cl. Prereq: 721 or equiv.

741 Personal Insurance Planning  U 4  
Analysis of personal consumer needs for life, health, property,  
and liability insurance; development of contracts, legal aspects,  
rates, and the technique of estate programming. Bickelhaupt.  
Au, Sp Qtrs. 2 2-hr cl. Prereq: 640 or equiv.

743 Insurance Operations  
and Regulations  U 4  
Examination of the major functions of insurers of all types;  
product development, underwriting, rating, reinsurance,  
marketing systems, loss payment, financial analysis,  
management, and regulation. Smith and Bickelhaupt.  
Wi Qtr. 2 2-hr cl. Prereq: 640 or equiv.
745 Social Insurance U G 4
Study of social insurance systems including Social Security, Unemployment Compensation, Worker's Compensation, proposed National Health Insurance and their effects on the American economy and society. Bickelhaupt.
Wi Qtr. 2 3-hr cl.

749 Business Risk Management U G 4
Development of insurance and risk management programs for business consumers; risk identification, evaluation and treatment; all lines, including group insurance, business life insurance, and pensions. Bickelhaupt and Smith.
Sp Qtr. 2 2-hr cl. Prereq: 640 or equiv.

771 Real Estate Investment Analysis U G 4
Feasibility and market analysis with consideration of property and income taxation and urban land developments.
Wi Qtr. 2 2-hr cl. Prereq: 670 or equiv.

772 Real Estate Finance U G 4
Sources and methods of obtaining funds for real estate investment; financial institutions, legal considerations, the construction industry and cycles, and financing policies, practices, and experiences.
Au Qtr. 2 2-hr cl. Prereq: 670 or equiv.

773 Real Estate Valuation U G 4
Professional valuation as a guide to business decisions; valuation theory and procedures; factors influencing real estate values, and the selection and analysis of data. Racster.
Wi Qtr. 2 2-hr cl. Prereq: 670 or equiv.

774 Income Property Valuation U G 4
The value-creating attributes of investment properties; methodologies of income-property valuation and investment analysis. Racster.
Sp Qtr. 2 2-hr cl. Prereq: 670 or equiv.

775 Real Estate Law U G 4
Legal aspects of real estate transactions and documents (deeds, mortgages, and leases) and selected elements of the law of real estate brokerage. Gibson.
Wi, Sp Qtrs. 2 2-hr cr. Prereq: 510 or 511 or equiv or permission of instructor.

810 Government Regulation and Business Decisions G 3
A detailed analysis of the antitrust laws including the Sherman, Clayton, and Federal Trade Commission Acts; emphasis on judicial and administrative interpretations.
Wi Qtr. 2 1½-hr cl.

811 Legal Environment of the Business Firm G 3
Systems view of interaction of business firm and the legal structure; regulation of form and functional processes; integration of legal advice into the management process. Gibson, Blackburn, and Howell.
Au, Sp Qtr. 2 1½-hr cl.

820 Advanced Finance G 4
A comprehensive study of optimal corporate financial policies, based on modern theories regarding the pricing of financial assets; real world decision making; application of theory through the use of case analyses.
Sp Qtr. 2 2-hr cl. Prereq: 720 or Accting 711 or equiv or permission of instructor. Not open to students in Executive MBA or structured MBA.

821 Seminar in Corporate Financial Analysis G 4
Conceptual foundations of corporate financial decisions under conditions of certainty and uncertainty; review and evaluation of selected empirical research in financial economics.
Sp Qtr. 2 2-hr cl. Prereq: 720 or MBA 810 or permission of instructor.

822 Security Markets G 4
A critical study of the markets for listed and unlisted securities and the factors influencing security prices. Busar.
Su, Wi, Sp Qtrs. 2 1½-hr cl. Prereq: Permission of instructor.

823 Special Topics in Investment Management G 4
In-depth analysis of selected investment topics such as options markets, futures markets, convertible securities, effects of taxes and inflation on interest rates, term structure of interest rates, and modern portfolio theory.
Au, Sp Qtrs. 2 2-hr cl. Prereq: 822 or permission of instructor.

826 Seminar in Financial Institutions G 4
Review, analysis, and evaluation of pertinent literature and research findings related to financial institutions. Blythe, Cole, and Rapp.
Au Qtr. 2 2-hr cl. Prereq: MBA 810 and 811 or permission of instructor.

840 Life and Health Insurance G 4
Economic analysis of life and health insurance coverages; conceptual views of life insurance, employee benefit programs; review and evaluation of literature on current problems in life and health insurance.
Wi Qtr. 2 2-hr cl.

841 Property and Liability Insurance G 4
Critical consideration through readings and research from the current literature on the insurance technique, products, and functions as applied in property-liability insurance, including the insurer, consumer, and government viewpoint.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor.

843 Risk Analysis and Administration G 4
Evaluation of risk management and insurance decisions in controlling and financing of pure or non-speculative risks, for both business and nonprofit organizations.
Sp Qtr. 2 2-hr cl. Prereq: Permission of instructor.

845 Problems and Issues in Social Insurance G 4
Examination of the problem areas, trends, and solutions provided by government insurance programs, including Social Security, for old age, death, poor health, unemployment, and other perils.
Au Qtr. 2 2-hr cl. Prereq: Permission of instructor.

868 Contemporary Employment Practices and the Law G 4
Title VII of the 1964 Civil Rights Act, and Equal Pay Act, the Age Discrimination in Employment Act, the Civil Rights Act of 1957, and federal affirmative action program.
Au Qtr. 2 2-hr cl. Prereq: Bus-MHR or LHR 812 or permission of instructor. Not open to students with credit for Bus-Adm 694C or Bus-MHR 856 or LHR 856. Cross-listed in Business Administration: Management and Human Resources.

870 Seminar in Real Estate G 4
Policy emphasis in housing economics, housing finance and mortgage and financial capital markets.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor.

871 Real Property Asset Management G 4
Cases and readings in feasibility and market analyses; deal structuring and current strategies in real estate; corporate real estate management.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor.

872 Real Estate Financing and Development G 3
Cases and readings in real estate development and financing, including real estate investment trusts, syndications, corporations, and joint ventures.
Sp Qtr. 2 2-hr cl. Prereq: 670 or 673 or permission of instructor.
Business Administration: Interdisciplinary

126 Hagerty Hall, 1775 College Road, 422-2715

493 Individual Studies U G 1-10
Individual study projects in selected areas in business administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

454 Group Studies U G 1-10
Group study projects in selected areas in business administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs.

555 Introduction to International Business U G 4
Basic coverage of world trade and investment problems, and introduction to multinational corporation strategies and the various types of environments in which they do business.
Su, Au, Wi, Sp Qtrs. Prereq: Econ 400.

653 Individual Studies U G 1-6
Individual study projects in related areas in business administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

694 Group Studies U G 1-6
Group study projects in selected areas in business administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

698 International Business Study Tour U G 1-15
Five weeks of intensive instruction in international business followed by five weeks travel and practical study of business practices in a relevant foreign area.
Prereq or conc: 555 or equiv with permission of instructor. Repeatable to a maximum of 15 cr hrs. Travel and subsistence cost for the tour will be borne by the student.

769 International Business Policy and Strategy U G 4
Analysis and simulation of major policy decisions in the context of international business; emphasis on consideration of international business. Christofides, Wi, Sp Qtrs 2-2 hr cl. Prereq: Approved application for BSBA in international business, Bus Adm 555, Bus-Fin 725, and Bus-Mktg 727, or written permission of instructor.

799 Business Policy U G 4
Analysis of major policy decisions in the context of the entire philosophical framework of business; emphasis on consideration of interrelationships of major functions of business. Hofscher and staff.
Su, Au, Wi, Sp Qtrs. 4 cr. H799 (honors) may be available to students enrolled in an honors program or by permission of college office. Prereq: Approved application for BS in Business Administration.

808 Business Problems and Cases G 1-5
Integrated analysis of selected problems; effects of policy decisions on market position, personnel, production, finances, and the firm's role in society and the economy.

809 Business Policy G 5
Examination of fundamental factors in organization and management; analysis of major policy decisions; effects of policy decisions on sales, production, personnel, and finances.
Su, Wi Qtrs. 2 2-hr cl. Prereq: Final qtr of MBA studies or permission of graduate committee.

856 Multinational Business Administration G 3
Bases of management strategies in multinational companies, including legal forms, organizations, personnel financing, pricing, and risk.
Su, Au, Wi, Sp Qtrs. Prereq: Econ 400.

857 Problems in International Business Administration G 3
Management decision-making in business enterprises operating in and between many nations. Ajami.
Wi Qtrs. 2 2-hr cl. Prereq: 856.

893 Individual Studies G 1-6
Individual study projects in related areas in business administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

894 Group Studies G 1-6
Group study projects in selected areas in business administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

998 Research in Business Administration: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Business Administration: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Business Administration: Management and Human Resources

358 Hagerty Hall, 1775 College Road, 402-2809
Courses that were listed under Labor and Human Resources:
211, 451, 452, 612, 613, 614, 852, 853, 654, 660, 683, 694, 703, 791, 762, 763, 769, 851, 852, 853, 854, 855, 860, 861, 862, 864, 885, 886, 887, 889, 894, 911, 950.01, 950.02, 951, 961, 961, 991, 998, 999

211 Unionism and Collective Bargaining in the U.S. U 5
Au, Wi, Sp Qtr's 4 1-1/2 hr cl. Not open to students with credit for LHR 211. BER/LAC course. SS Admin Cond course.

Introduction to the dimensions of human resource policy: issues in human resource development, allocation, maintenance, and utilization. Au, Wi, Sp Qtr's 2 1-1/2 hr cl. Prereq: Econ 400 or equiv with written permission of instructor. Not open to students with credit for LHR 451 or 651.

500 Introduction to Administrative Problems U 3
Introduction to techniques of management and supervision and to the conceptual frameworks and research underlying them; methods of improving individual and organizational efficiency and effectiveness; cases and exercises. Su, Au, Wi, Sp Qtr's 3 1/2 hr cl. Not open to students in ADM or to students with credit for Bus-Mgt 500.

612 Law of Industrial Relations U G 4
Law and policy in labor-management and union-member relations; unfair labor practices; union internal affairs. Sandver.
Sp Qtr's 2 1/1-2 hr cl. Prereq: 211 or LHR 211 or equiv with written permission of instructor. Not open to students with credit for LHR 612.

613 Trade Union Administration U G 4
An examination and analysis of the structure and government of American worker organizations as an institutional response to social, political, economic, and legal forces. Stanicka and Blaine.
Sp Qtr's 2 1-1/2 hr cl. Prereq: 211 or LHR 211 or equiv with written permission of instructor. Not open to students with credit for LHR 613.

614 Public Sector Collective Bargaining U G 4
Legislative, judicial, economic, and social factors in public sector bargaining. Survey of practice in federal, state, and local jurisdictions. Au Qtr's 2 1-1/2 hr cl. Prereq: Econ 580 or equiv with written permission of instructor. Not open to students with credit for LHR 614.

652 Human Resource Policy: Legislation and Institutions U G 4
Critical review of current or proposed legislation and institutions relating to human resource development, maintenance, and utilization. Au Qtr's 2 1-1/2 hr cl. Prereq: 451 or LHR 451 or equiv with written permission of instructor. Not open to students with credit for LHR 652.

653† Human Resource Planning U G 4
Survey of concepts and techniques of human resource planning, with special emphasis on projections of human resource requirements. Chirkos and Kiley.
2 1-1/2 hr cl. Prereq: 451 or LHR 451 or equiv with written permission of instructor. Not open to students with credit for LHR 653.

654‡ Social Psychological Aspects of Human Resource Problems U G 4
An application of social-psychological theory and methods to issues in human resources with emphasis on the critical analysis of existing assumptions about human behavior. Ronchi.
2 1-1/2 hr cl. Prereq: 451 or LHR 451 or equiv with written permission of instructor. Not open to students with credit for LHR 654.

660 Introduction to Human Resources Management U 4
Principles and practices of recruiting, selecting, developing, compensating, and utilizing effective human resources.
Su, Au, Wi, Sp Qtr's 2 1-1/2 hr cl. H660 (honors) may be available to students enrolled in an honors program or by permission of faculty. Prereq: Econ 400 or equiv. Not open to students with credit for Bus-Mgt 560 or LHR 660.

701 Introduction to Organizational Behavior U 5
Introduction to individual and group behavior in organizations; procedures for supporting and strengthening emergent behavior; examination of organizational interaction with environments.
Su, Au, Wi, Sp Qtr's 2 2-1/2 hr cl. Not open to students with credit for Bus-Mgt 701.

703 Human Resource Training and Development U G 4
Introduction to behavioral concepts and organization practices related to training and developing human resources and organization development.
Au, Wi, Sp Qtr's 2 1-1/2 hr cl. Prereq: 660 or Bus-Mgt 560 or LHR 660 or permission of instructor. Not open to students with credit for Bus-Mgt 703 or LHR 703.

704 Management Applications in Business U G 3
Application of behavioral science knowledge to managing within the context of business organizations; emphasis on such topics as motivation, supervision, groups, and conflict.
Wi Qtr's 2 1 1-2 hr cl. Prereq: 701 and sr standing in BSB program.

761 Collective Bargaining Administration U G 4
Examination of the process of accommodation and rule-making among management, employees, and government relative to their respective goals and strategies, and pertinent legislation and environmental constraints.
Au, Wi Qtr's 2 1-1/2 hr cl. Prereq: 660 or 701, or Bus-Mgt 660 or 701, or LHR 660, or permission of instructor. Not open to students with credit for Bus-Mgt 761 or LHR 761.

762 Compensation Administration U G 4
Managerial aspects of motivation and compensation principles and practices for administrative, operative, research, and professional employees in private and public organizations.
Au, Wi, Sp Qtr's 2 1-1/2 hr cl. Prereq: 660 or 701, Bus-Mgt 660 or 701, or LHR 660, or permission of instructor. Not open to students with credit for Bus-Mgt 762 or LHR 762.

763 Comparative Labor Movements U G 4
A comparison of industrial relations practices, history and laws, in Western Europe, Canada, Japan, and the United States.
Sp Qtr's 2 1-1/2 hr cl. Prereq: Jr, sr, or grad standing in ADM, ASC, or LAW. Not open to students with credit for LHR 763.

765 Comparative Management Systems and Environments U G 3
A conceptual approach for analyses of cultural norms and values and assessment of their implication for managerial decision-making.
Wi Qtr. 3 cl. Not open to students with credit for Bus-Mgt 765.
759 Cases in Human Resources Management U G 4
Problems and case histories are utilized to develop proficiency in applying principles and developing decision-making abilities in regard to human resources management.
Wi, Sp Qtr. 2 2-hr cl. Prereq: 781 or 762 or permission of instructor. Not open to students with credit for LHR 769.

799 Management of New and Small Enterprise U G 3
Entrepreneurship, managing the small business, planning, marketing, production, finance, organization, personnel, pragmatic issues in real situations.
Su, Au, Wi, Sp Qtrs. 1 3-hr cl. Prereq: So standing in ADM or permission of instructor. Repeatable to a maximum of 9 cr hrs including or hrs in Bus-Mgt 795. Not open to students with 9 or hrs of Bus-Mgt 795.

800 Introduction to Administrative Behavior G 3
Introduction to behavioral concepts of concern to management; individual, group, and organizational behavior. Greene, Interlief, Kim, and Podolskoff.
Su, Au, Wi, Sp Qtrs. 2 1 1/2-hr cl. Not open to students with credit for Bus-Mgt 708 or 800.

803 Formal Organization Theory G 3
An introduction to the various sociological and psychological theories which underlie the concept of the formal organization.
Au, Wi, Sp Qtrs. 2 1 1/2-hr cl. Not open to students in structured MBA or Executive MBA or to students with credit for Bus-Mgt 803.

804 Organizational Development: Strategies for Changing Organizations G 3
An analysis of the strategies and techniques that have been developed and employed in changing organizations.
Wi Qtr. 2 1 1/2-hr cl. Prereq: 803 or Bus-Mgt 803 or permission of instructor. Not open to students with credit for Bus-Mgt 804.

805 Career Development G 3
Study of individual and organizational perspectives of organizational member career dynamics.
Au Qtr. 2 1 1/2-hr cl. Prereq: 803 or Bus-Mgt 803 or 806 or permission of instructor. Not open to students with credit for Bus-Mgt 805.

806 Management and Individual Behavior G 3
Theory and application of the manager's role in dealing with individual employee behavior.
Sp Qtr. 2 1 1/2-hr cl.

851 The Human Resource Paradigm G 4
Appraisal of the conceptual framework for human resource policy.
Au Qtr. 2 2-hr cl. Prereq: 20 or hrs in related social science courses. Not open to students with credit for LHR 651 or 651.

852 Issues in Human Resource Policy G 4
Analysis and evaluation of selected public policies and programs relating to human resource allocation, conservation, and utilization. Chirkos.
Wi Qtr. 2 2-hr cl. Prereq: 851 or LHR 801, or any two of the following: 652 or LHR 652, 653 or LHR 653, or 654 or LHR 654. Not open to students with credit for LHR 852.

853 Seminar in Human Resource Planning G 4
Selected topics related to methodologies for preparing and executing human resource plans. Chirkos and Kelley.
Wi Qtr. 2 2-hr cl. Prereq: 851 or LHR 851, or any of the following: 952 or LHR 652, 653 or LHR 653, or 654 or LHR 654. Not open to students with credit for LHR 853.

854 Evaluating Human Resources Programs G 4
Sp Qtr. 1 1/2-hr cl. Prereq: 851 or LHR 851 or any of two of the following: 652 or LHR 652, 653 or LHR 653, or 654 or LHR 654. Not open to students with credit for LHR 854.

855 Development of Human Resources G 4
Study of the processes of human resource development; the experience of learning and development; processes of training and educating in non-school settings.
Wi Qtr. 2 2-hr cl. Prereq: 20 or hrs in related social science courses. Not open to students with credit for LHR 855.

860 Management of Human Resources G 4
Analysis of human resource practices and policies, value configurations, leadership, job design, motivation, and reward systems and the way these relate to individual performance and organizational effectiveness.
Su, Au, Wi, Sp Qtrs. 2 1 1/2-hr cl. Not open to students with credit for Bus-Mgt 860 or LHR 860 or to students enrolled in structured MBA.

861 Seminar in Union Management Issues G 3
Examination of such issues as bargaining and conflict resolution processes, grievance handling and arbitration, white-collar unionism, productivity, quality of workplace, safety and health, and flexibility.
Su Qtr. 1 2-hr cl. Prereq: 860 or equiv with permission of instructor. Not open to students with credit for Bus-Mgt 861.

862 Seminar in Human Resource Management G 3
Theory and problems involved in selecting, developing, retaining, motivating, utilizing and allocating human resources within complex organizations.
Wi Qtr. 1 2-hr cl. Prereq: 860 or Bus-Mgt 860 or LHR 860 or equiv with permission of instructor. Not open to students with credit for Bus-Mgt 862 or LHR 862.

864 Labor Dispute Settlement G 4
Analysis of the functional role of labor conflict in the industrial relations system; evaluation of institutions for dispute resolution in the public and private sectors.
Sp Qtr. 1 2-hr cl. Prereq: 761 or 861 or LHR 761 or 861, or equiv. Not open to students with credit for LHR 864.

865 Compensation Theory G 4
Selected topics in principles of compensation; behavioral science and economic theory in relation to wage and salary.
Sp Qtr. 1 2-hr cl. Prereq: 762 or LHR 762 or equiv. Not open to students with credit for LHR 865.

866 Seminar in Public Sector Collective Bargaining G 4
Problems and issues relating to the growth and practice of personnel and labor relations administration in the public sector.
Wi Qtr. 1 3-hr cl. Prereq: 781 or 861, or LHR 781 or 861, or Bus-Mgt 761 or 861, or equiv. Not open to students with credit for LHR 866 or Pub Adm 866. Cross-listed in Public Administration.

867 Seminar in Public Sector Human Resources Administration G 4
Analysis of problems in public sector human resource management with emphasis on the nature of the employment relationship, research strategies, and policy evaluation.
Sp Qtr. 2 2-hr cl. Prereq: 860 or Bus-Mgt 860 or LHR 860 or equiv. Not open to students with credit for LHR 867 or Pub Adm 867. Cross-listed in Public Administration.

868 Contemporary Employment Practices and the Law G 4
Title VII of the 1964 Civil Rights Act, The Equal Pay Act, the Age Discrimination in Employment Act, the Civil Rights Act of 1967, and federal affirmative action program are discussed.
Au Qtr. 2 2-hr cl. Prereq: 612 or LHR 612 or permission of instructor. Not open to students with credit for LHR 614 or 616, Bus-Adm 6140, or Bus-Fin 866. Cross-listed in Business Administration: Finance.
905 Development and Management of New Enterprise G 3
Lecture, discussion, and case analysis focused on the concept, development, business analyses, financing and acquisition of new enterprises.
Au, Wi, Sp Ctr. 2 cr. Prereq: Bus Adm 420 and permission of instructor. Not open to students with credit for Bus-Mgt 895.

911 Introduction to Behavioral Research Methods in Business G 3
Introduction to research design and methodology as it relates to the study of business and organizational phenomena.
Au Ctr. 1 3-hr cr. Prereq: Permission of instructor. Not open to students with credit for Bus-Mgt 911.

912 Advanced Analysis of Organizational Research G 3
Analysis and comparison of relevant business and organizational theories through an in-depth consideration of research design, methods, and analysis and the development of student-generated research proposals.
Sp Ctr. 1 3-hr cr. Prereq: Bus-Mgt 911 and permission of instructor. Not open to students with credit for Bus-Mgt 912.

913 Individual Behavior in Formal Organizations G 3
Advanced discussion of theory and research on individual behavior, motivation, decision-making, job design, and reward systems as they relate to individual and organizational performance. Bemert.
Au Ctr. 1 3-hr cr. Prereq: 919 or Bus-Mgt 919, and permission of instructor. Not open to students with credit for Bus-Mgt 913.

914 Work Groups in Formal Organizations G 3
Theory and research on formal and informal structures in work groups and their influence on productivity and management.
Greeneberg.
Wi Ctr. 1 3-hr cr. Prereq: 919 or Bus-Mgt 919, and permission of instructor. Not open to students with credit for Bus-Mgt 914.

915 Advanced Formal Organization Theory G 3
Theory and research on the structural characteristics of formal organizations with particular emphasis on the management of the organization as a dynamic system. Weimer.
Sp Ctr. 1 3-hr cr. Prereq: 919 or Bus-Mgt 919, and permission of instructor. Not open to students with credit for Bus-Mgt 915.

917 Seminar in Organizational Behavior G 3
A critical study of current research problems and trends in organizational behavior; builds on the concepts, models, and perspectives developed in 913, 914, and 915. Podskoff.
Au, Wi Ctr. 1 3-hr cr. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs including cr hrs in Bus-Mgt 917. Not open to students with 9 cr hrs in Bus-Mgt 917.

918 Seminar in Integrative Organizational Behavior Research G 3
Continuing seminar for integration of organizational behavior concepts. Bemert.
Au, Wi, Sp Ctrs. Arr. Prereq: Enrollment in the organizational behavior area of the Bus Adm PhD program. Not open to students with credit for Bus-Mgt 918. This course is graded S/U.

919 History of Thought in Organizational Behavior and Management G 3
Seminar in the historical evolution of concepts, models, and perspectives in organizational behavior and the practice of management. McFillen.
Sp Ctr. 1 3-hr cr. Prereq: Permission of instructor. Not open to students with credit for Bus-Mgt 919.

950 Advanced Experience in Labor and Human Resources G 3
Lecture, discussion, and case analysis focused on the concept, development, business analyses, financing and acquisition of new enterprises.
Au, Wi, Sp Ctrs. 2 cr. Prereq: Bus Adm 420 and permission of instructor. Not open to students with credit for LHR 950.01 or LHR 950.02.

950.01 Internship G 3-6
Supervised practical experience relating to labor and human resources in public or private establishments, Center for Human Resource Research, labor education and research service, or under a faculty member.

950.02 Tutorial G 3-6
Preparation of investigative paper relating course work to specific problem in industrial labor or human resource policy.

951 Advanced Seminar in Human Resource Policy G 4
Selected issues in human resource policy at federal, state, and local government levels.
Sp Ctr. 2 2-hr cr. Prereq: 852 or LHR 852. Not open to students with credit for LHR 951.

960 Seminar in Industrial Relations Thought G 3
A consideration of industrial relations thought in terms of its historical and theoretical evolution in private and public sectors.
Au Ctr. 1 3-hr cr. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs including cr hrs in LHR 960. Not open to students with 6 cr hrs in LHR 960.

961 Seminar in Industrial Relations Research G 3
A consideration of relevant industrial relations research and methodology and individual development of research projects in private and public sectors.
Wi Ctr. 1 2-hr cr. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. Not open to students with credit for LHR 961 or Bus-Mgt 961.

981 Labor and Human Resources Research Seminar G 1-5
Seminar in design, methods, and techniques of research in labor and human resources; participants present a major research proposal.
Arr. Prereq: Grad standing in LHR and permission of instructor. Repeatable to a maximum of 5 cr hrs including cr hrs in LHR 981. Not open to students with 5 cr hrs in LHR 981.

996 Research in Labor and Human Resources: Thesis G 1-7
Research for thesis purposes only.
Su, Au, Wi, Sp Ctrs. Arr. Prereq: 12 cr hrs in BUS-MHR or LHR at 600 level or above. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

999 Research in Labor and Human Resources G 1-15
Research for dissertation purposes only.
Su, Au, Wi, Sp Ctrs. Repeatable. This course is graded S/U.
Business Administration:
Management Sciences

330 Decision Sciences: Statistical Techniques U 9
Examination of the use of statistical techniques in managerial decision making processes; confidence intervals, hypothesis testing, simple and multiple regression, time series analysis, and decision theory.
Su, Au, Wi, Sp Qtr. 3 2-hr cl. Prereq: Cpttr/Inf 211 and Stat 133 or equiv. Not open to students with credit for 491.

331 Decision Sciences: Operations Research Techniques U 4
Examination of the use of operations research techniques in managerial decision making processes; constrained linear optimization, non-linear optimization, network analysis, queuing theory, simulation.
Su, Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: Cpttr/Inf 211 and Stat 133 or equiv. Not open to students with credit for 391.

601 Business Statistics U G 4
Applications of statistical techniques to the analysis of business and economic data. Mitig.
Wi or Sp Qtr. 2 2-hr cl. Prereq: 330 or 491.

530 Introduction to Production and Operations Management U G 4
Topics in project scheduling, layout, forecasting, aggregate planning, work measurement, workforce scheduling, job shop scheduling, economic order quantity models, inventory systems, material requirements planning, productivity and Japanese management.
Su, Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: 330 (or 491), 331 (or 391), 630, Bus-Fin 620, and Bus-Mktg 650, or equiv.

691 Decision Science: Managerial Applications U 3
Building and using mathematical models for planning and control of administrative processes; integrates quantitative tools from 330 and 331 with functional business areas.
Au or Sp Qtr. 2 1-1/2-hr cl. Prereq: 330 (or 491), 331 (or 391), 630, Bus-Fin 620, and Bus-Mktg 650, or equiv.

730 Fundamentals of Production and Operations Management U G 4
Topics and problems managing the production and operational systems in manufacturing and service organizations; consideration of management and economic implications.
Wi, Sp Qtr. 2 2-hr cl. Open only to students preparing for grad work in business.

731 Operations Design U G 4
Analysis of operations planning, including facility location, facility layout, service and queuing theory, quality control, and machine maintenance.
Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: 330 (or 491), 331 (or 391), and 630, or permission of instructor.

732 Materials Management U G 4
Analysis of operations control including short-term demand forecasting, economic order quantity models, inventory systems, aggregate planning, disaggregation, material and capacity requirements planning and materials purchasing.
Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: 330 (or 491), 331 (or 391), and 630, or permission of instructor.

734 Analysis and Design of Operating Systems U G 4
Analysis and design of modern operations, including model building and computer simulation.
2 2-hr cl. Prereq: A course in computer programming or permission of instructor.

739 Operations Strategy U G 4
Strategic planning, production operations and automation strategies, economic analysis of productive systems, flow shop automation, job shop control, numerical control, CAD/CAM, group technology, FMS, and Japanese production systems.
Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: 330 (or 491), 331 (or 391), and 630, or permission of instructor.

801 Quantitative Methods in Business G 3
Derivation and application of analytical, mathematical, and statistical techniques to the solution of recurring management problems.
2 1-1/2-hr cl. Prereq: Stat 133 or equiv or permission of instructor.

801.01 Deterministic
Au Qtr. Not open to students in structured MBA or Executive MBA.

801.02 Stochastic
Wi Qtr. Not open to students in structured MBA.

801.03 Advanced Quantitative Methods
Sp Qtr.

801.04 Simulation in Business G 3
The design of simulation experiments relating to administrative problems and operating systems; topics include simulation design, experimentation, languages, and business games; individual simulation project required.
Sp Qtr. Prereq: 801.01 or permission of instructor.

802 Systems Research Organization and Methodology G 3
Modeling adaptive management systems of complex organizations such as health, business, and education.
1 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs; subdivisions not repeatable.

802.01 Introduction to Management Systems Research
Au Qtr.

802.02 Approaches to Systems Management
Wi Qtr.

802.03 Cybernetic Modeling of Adaptive Management Systems
Sp Qtr.

830 Advanced Operations Management G 3
A critical survey and examination of the current trends and advanced problems in production and operations management, including analysis and policy formulation.
Su, Au, Wi, Sp Qtr. Prereq: 730 or equiv, and 801.01. Not open to students in structured MBA.

832 Design of Operating Systems G 3
A study of problems in the development of production and operations management, systems design, and operational control processes.
Sp Qtr. Not open to students in structured MBA.

834 Advanced Topics in Capacity Planning G 3
A study of current research and mathematical models for selected capacity topics which may include capital input selection, capacity maintenance, facility design, inventory theory, or location assignments.
Au Qtr. 2 1-1/2-hr cl. Prereq: 730 or equiv, and 801.01 or permission of instructor.

835 Advanced Topics in Operations Analysis G 3
Blending of theory and practice for medium to short-range decisions in the areas of aggregate production planning, inventory control of independent and dependent demand systems, and production scheduling.
Wi Qtr. 2 1-1/2-hr cl. Prereq: Written permission of instructor.
Business Administration: Marketing

314 Hagerty Hall, 1775 College Road, 422-8808

650 Marketing U 4
Critical survey of field of marketing: structure, functions, polities, costs, and problems analyzed from consumer and other viewpoints; emphasis on principles, trends, and quantitative expression.
Su, Wi, Sp Qtrs. 2 2-hr cl. Prereq: Econ 400 or equiv.

680 Principles of Transportation U 4
Study of general economic characteristics and government regulation of rail, motor, water, air, and pipeline carriers; consideration of competitive relations between modes of transportation, basic aspects of traffic management.
Au, Wi Qtrs. 2 2-hr cl. Prereq: Econ 400 or equiv.

750 Consumer Behavior U 4
A review and synthesis of behavioral sciences applied to understanding consumer decision process; emphasis on the impact of consumer decisions upon the strategies of business, government, and consumer business cases.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 650 or equiv.

751 Managerial Marketing U 4
Marketing policies and strategy, organization, demand analysis, product planning, pricing, physical distribution, and promotion from a managerial viewpoint.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 650 or equiv.

752 Cases in Managerial Marketing U 4
Analysis of marketing polities and strategy, with emphasis on actual business cases.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 751.

753 Retail Management U 4
Principles and methods of management as applied to retailing, including location, organization, personnel, buying, inventory control, selling and advertising, services, expenses, and profits.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 650 or equiv.

754 Wholesale Management U 4
Nature, history, institutional compositions, competitive factors, economic and government aspects; scientific management of wholesale establishments, including functions of sales, internal operations, and operating expense control.
2 2-hr cl. Prereq: 650 or equiv.

755 Promotional Strategy U 4
Consumer behavior, fundamentals of communication, setting goals and objectives, creative strategy, media strategy, social and economic issues.
Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 650 or equiv.

756 Industrial Marketing Management U 4
Examination of the management of the marketing function in industrial products companies; industrial buyer behavior and personal selling.
Au, Wi Qtrs. 2 2-hr cl. Prereq: 650, 751, 752, and 758.

757 International Marketing U 4
Theory and practice of marketing across national borders, as well as marketing and market research within different foreign environments, including the development of marketing strategies by the international company.
Au, Wi Qtrs. 2 2-hr cl. Prereq: 650 and Bus-Adm 555.

758 Marketing Research U 4
The role of research in the solution of marketing problems; emphasis on available data analysis and methods of the field of investigation.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 650 and Stat 133 or equiv.

759 Sales Management U 4
The sales force and its managerial hierarchy.
Su, Au, Sp Qtrs. 2 2-hr cl. Prereq: 650.

780 Micro-Legistics U 4
Management of logistics activities of the firm from the viewpoint of both the provider and user of logistics system components.
Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: 650 and Bus-Mgt 680 or Bus-MHR 680 or LHR 660.

781 Analysis and Design of Logistics Systems U 4
Analysis of internal and environmental factors affecting logistics systems and the effect of such factors on the development and implementation of integrated logistics systems.
Wi, Sp Qtrs. 2 2-hr cl. Prereq: 680 and 780.

807 Principles and Techniques of Marketing Research U 4
Comprehensive study of marketing research process and value of research to managers; design and execution of industry-sponsored project.
W Qtr. 2 2-hr cl. Prereq: 840.

850 Advanced Marketing U 3
A critical study of management of marketing activities in business enterprises, based primarily on comprehensive case analysis.
Su, Au, Sp Qtrs. Prereq: 850. Not open to students in structured MBA or Executive MBA.

852 Seminar in Specialized Areas of Marketing U G 1-3
Prereq: 650 or equiv. Repeatable. Regular class meetings and group discussions of the subject matter embodied by one of the following areas in the field of marketing:
852.04 Retailing
852.05 Sales Management
852.06 Channels of Distribution
852.07 Marketing Theory
852.08 Logistics
852.09 Consumer Research
A—Research Design in Consumer Behavior. Au Qtr.
B—Consumer Behavior Theory. Wi Qtr.
C—Consumer Decision Making. Sp Qtr.

854 Consumer Behavior U 4
Development of the consumer decision process and its application to marketing strategy decisions.
Su, Au Qtrs. 2 2-hr cl. lab. Prereq: 850 or MBA 840 or permission of instructor.
858 Multivariate Analysis in Business Research G 3
Advanced consideration of correlational data analysis techniques (regression, discriminant analysis, factor analysis, canonical analysis); emphasis on comparison of techniques and underlying theory and assumptions.
Wi Qtr. 1-3 hr cl. Prereq: 801.02 or equiv with written permission of instructor.

880 Physical Distribution Management G 4
Management of movement services and coordination of demand and supply patterns for optimization of physical systems in terms of cost and customer service.
Au, Sp Qtr. 2.2-2 hr cl. Prereq: 650 and Bus-Mgt 530 or equiv.

889 Theory of Business Logistics G 3
Critical examination of theories of the structure and operation of logistics systems; research methodology for testing logistics theory and the application of logistics theory to contemporary logistics problems.
Au Qtr. 1-3 hr cl.

950 Seminar in General Marketing G 3
A critical study of fundamental principles of marketing; special emphasis on the historical, macro, social, and theoretical aspects of the subject.
Au Qtr. Prereq: 650 or equiv.

951 Seminar in General Marketing G 3
Continuation of 950.
Sp Qtr. Prereq: 950 or equiv.

955 Seminar in Contemporary Marketing Problems G 3
Review of current periodical literature and individual investigation by each student of a selected marketing problem of contemporary significance for seminar discussion and written report.
Prereq: 950 or equiv.

959 Seminar in Contemporary Marketing Problems G 3
Evolution of marketing concepts, terminology, principles, and theory; environmental and personal influences; analysis of marketing literature; marketing thought related to other social sciences.
1-2 hr cl. Prereq: 950.

Ceramic Engineering

177 Watts Hall, 2414 College Road, 422-2960

201 Introduction to Ceramic Engineering U 3
Introductory course for ceramic engineering students and a survey of ceramic products, their testing, and their uses for students in disciplines other than ceramic engineering. Faber.
Au Qtr. 3 cl.

202 Materials Engineering U 3
A study of the relationships between processing, microstructure, and properties of ceramics as compared to other materials. Faber.
Wi Qtr. 3 cl. Prereq: Chem 121 or 204.

293 Individual Studies in Ceramic Engineering U 1-5
Individual study in ceramic areas utilizing library and laboratory facilities under the direction of a staff member.
Su, Au, Wi, Sp Qtr. Prereq: 201. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

294 Group Studies in Ceramic Engineering U 1-5
Group study in ceramic areas utilizing library and laboratory facilities under the direction of a staff member.
Su, Au, Wi, Sp Qtrs. Prereq. 201. Repeatable to a maximum of 15 or hrs.

422 Ceramic Phase Equilibria U 3
Basic principles of phase diagrams, the usefulness of equilibrium diagrams in problems relevant to ceramic engineering. Kreider.
Wi Qtr. 3 cl. Prereq: Chem 122 or equiv and a minimum cumulative grade-point ratio of 2.00.

423 Fundamentals of Ceramic Engineering I: Materials U 3
A study of ceramic raw materials covering their importance, processing, characteristics, physical, chemical, and thermal behavior, and industrial applications; basic batch and chemical calculations. Sentler.
Sp Qtr. 3 cl. Prereq 422 and 421 or concur: Chem 121 or equiv., or permission of instructor.

424 Fundamentals of Ceramic Engineering II: Processing U 3
Basic principles of ceramic processing including powder preparation and characterization, dry pressing, cold isostatic pressing, and rheology of suspensions, plastic forming, slip casting, and other fabrication methods. Kreider.
Au Qtr. 3 cl. Prereq: 201.

425 Heat Processes U 3
Ceramic drying and firing processes and equipment, emphasis on fuel requirements and combustion control for efficient, safe ware treatment, pyrometry, energy balances, and heat transfer calculations.
Wi Qtr. 3 cl. Prereq: 422 and En Graph 200 or equiv.

451 Ceramic Laboratory U 1
General laboratory in ceramic process and property measurements.
1-3 hr lab.

451.01 Materials and Processes
Au Qtr. Prereq or concor: 201.

451.02 Microstructure
Wi Qtr. Prereq or concor: 202.

451.03 Materials and Preparation
Sp Qtr. Prereq: 451.01.

451.04 Wet Processing
Au Qtr. Prereq: 451.01.

451.05 Drying and Firing
Wi Qtr. Prereq: 451.01 and 451.02.

451.06 Reactions and Kinetics
Sp Qtr. Prereq: 451.01 and 510.

451.07 Sintering and Vitrification
Au Qtr. Prereq: 451.06.

451.08 Physical Properties
Wi Qtr. Prereq: 451.02.

451.09 Mechanical Properties
Sp Qtr. Prereq: 451.01 and Eng Mech 215 or equiv.

510 Thermodynamics of Ceramic Materials U G 3
Applications of thermodynamics to ceramic systems, including non-stoichiometry and interfacial relationships.

512 Structure of Ceramic Materials U G 4
Structure of crystals, crystal chemistry and physics, chemical bonds and atomic coordination in inorganic, non-metallic materials, silicate and defect structures emphasized. Drummond.
Wi Qtr. 4 cl. Prereq: Geo&Min 214.
529† Ceramic Process and Product Control U 4
The application of control methods for processes and products.
Wi Qtr. 4 cl. Prereq: 424.

531 Glass Science U G 3
The science of glass including glass structure and formation related to composition, kinetics of crystallization, phase separation, glass transition, and viscosity. Drummond.
Sp Qtr. 3 cl. Prereq: 512.

553 Instrumental Characterization of Ceramic Materials U 3
Analysis techniques applied to investigations of the structure and chemistry of ceramic materials, including electron/optical microscopic methods and thermal measurements. Alexander.
Au Qtr. 3 cl. Prereq: ENG or physical sciences 3rd yr standing.

589 Industrial Experience U 2
Ten weeks industrial experience or its equiv in a ceramic manufacturing, research, or development organization; grade determined on written report of experience. Readey.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

613 Ceramic Science: Physical Processes U G 3
Materials science in areas of structural imperfections, surfaces, atomic mobility, phase transformations, reactions, grain growth, sintering, glass formation, and vitrification. Readey.
Au Qtr. 3 cl. Prereq: 512 and Metal Eng 330.

614 Ceramic Science: Physical Properties U G 3
Materials science in areas of thermal, optical, electrical, dielectric, and magnetic properties. Krieter.
Wi Qtr. 3 cl. Prereq: 613.

615 Ceramic Science: Mechanical Properties U G 3
Materials science in areas of brittle behavior, flaw sensitivity, and microstructural influences on mechanical properties. Faber.
Sp Qtr. 3 cl. Prereq: Eng Mech 215.

631 Glass Technology U G 3
Technology of glass manufacturing: raw materials, melting and forming, and annealing properties and application of glasses. Drummond.
Au Qtr. 3 cl. Prereq: 531.

632‡ Ceramic Technology U G 4
The technology of porcelain enamels and surface coatings for metals.
Wi Qtr. 2 cl, 2 3-hr labs.

633 Refractories Technology U G 3
An introduction to refractory raw materials and their formulation as industrial refractories; consideration of applications, testing, engineering, and technical concepts.
Au Qtr. 3 cl. Prereq: 422 or equiv or permission of instructor.

634 Fine-grained Ceramics and Glaze Technology U G 3
The technology of fine-grained ceramics, including traditional white wares, electronic and technical ceramic materials, and glazes.
Sp Qtr. 3 cl. Prereq: 423.

635† Electronic Ceramics U G 3
Ceramic materials and science related to the application of ceramics in electronic and electrical application; emphasis on relationship between the structure, processing, and properties of ceramics. Readey.
Sp Qtr. 3 cl. Prereq: 202, Physics 133, and prereq or concur: Metal Eng 330 or permission of instructor.

636* Ceramics in Energy Technology U G 3
Examination of the U.S. energy supply; principles of new energy technologies; conversion, fusion, fission, solar energy, storage, roles of ceramic materials. Readey.
Au Qtr. 3 cl. Prereq: 202 and prereq or concur: Metal En 330 or permission of instructor.

690 Senior Seminar U 1
Preparation and delivery of technical presentations and participation in departmental seminars.
Wi, Sp Qtrs. 1 cl. Prereq: Sr standing in engr. Repeatable to a maximum of 2 cl hrs.

693 Individual Studies U G 1-7
Ceramic investigations in areas of advanced non-thesis research.
Su, Au, Wi, Sp Qtrs. Conf., library, and lab work. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-6
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

695 Ceramic Plant Practice U 1
Visits from and discussion of a variety of ceramic facilities.
Au Qtr. 1 cl. Prereq: Sr standing in engr. This course is graded S/U.

722 Advanced Phase Equilibria U G 3
Advanced aspects of phase equilibria; thermodynamic foundations, nonequilibrium systems, ternary solid solubility, experimental determination, and calculation of phase diagrams. Krieter.
Sp Qtr. 3 cl. Prereq: 422 or permission of instructor.

731 Physical Properties of Glass U G 3
Viscosity, chemical durability and thermal, electrical, optical, and mechanical properties of commercial glasses, with emphasis on effects of thermal history and composition. Drummond.
Wi Qtr. 3 cl. Prereq: 531.

852* Advanced Physics and Chemistry of Glasses G 3
Glass structure and formation related to composition, kinetics of crystallization, phase separation, glass transition, relation of physical properties such as density, viscosity, and transport properties to glass structure and composition. Drummond.
Au Qtr. 3 cl. Prereq: 531 and 614, or equiv with permission of instructor.

853* Advanced Ceramic Engineering G 3
Quantitative modeling of reaction kinetics including powder preparation, reactions, sintering, drying, and grain growth. Readey.
Wi Qtr. 3 cl. Prereq: 613 or permission of instructor.

854 Advanced Ceramic Physics and Chemistry G 4
Special properties of crystals; organic chemistry, ultrasonics, and thermodynamics applied to ceramics; nonoxide ceramics. Alexander.
Sp Qtr. 4 cl. Prereq: 614 or permission of instructor.

855* Advanced Ceramic Science G 4
Study of ceramic materials for electrical and electronic use with emphasis on structure-property relationships. Readey.
W Qtr. 4 cl or conf. Prereq: 614 or equiv with permission of instructor.

856 Advanced Ceramic Science G 4
Modern engineering materials from the viewpoint of ceramic science; thermal behavior, ceramic-metal systems, sandwich and fiber composites, space material problems, plasma and vapor deposition technology.
Sp Qtr. 4 cl or conf. Prereq: 614 or equiv with permission of instructor.
Chemical Engineering

121 Koffolt Laboratories, 140 West 19th Avenue, 422-5931.

200 Chemical Engineering and Process Calculations U 3
The application of physico-chemical principles to problems of the chemical industry; emphasis on graphical methods, stoichiometry, heat, and material balances. Davis, Knaebel, Smith, and Zakin.
Au, Wi Qtrs. 2 cl, 2 comp lab hrs. Prereq: Chem 123 and a minimum cumulative gpa of 2.30, and prereq or concour: Math 254 and Physics 131.

201 Chemical Engineering and Process Calculations U 3
Continuation of 200.
Wi, Sp Qtrs. 2 cl, 2 comp lab hrs. Prereq: 200 and prereq or concour: Math 253 and Physics 132.

294 Group Studies U 1-6
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.

420 Elements of Chemical Engineering—Transport Phenomena I U 4
Introduction to momentum, mass, and heat transfer with emphasis on the analogies between them; practical applications of momentum transfer (fluid flow). Brodkey.
Au, Wi Qtrs. 3 cl, 2 comp lab hrs. Prereq: 201, Math 255, and Physics 132, or equiv with written permission of instructor.

442 Petroleum Geophysical and Drilling Methods U 3
Selected engineering problems associated with drilling oil and gas wells; geophysical exploration concepts; emphasis on drilling mud control and directional drilling analysis. Slider.
Sp Qtr. 3 cl. Prereq: ENG 3rd yr standing or geology 4th yr standing.

501 Chemical Process Dynamics and Control I U G 3
Study of the dynamics and control of chemical processes; mathematical models of simple processes, including feedback control, are derived, analyzed, and simulated. Davis and W. K. Lee.
Wi Qtr. 2 cl, 3 lab hrs. Prereq: 420, En Graph 143 or 200, and Math 512.

508 Chemical Engineering Thermodynamics I U G 3
Application of the fundamental concepts and laws of thermodynamics to problems of the chemical industry; stress on computational problem work. Hershey.
Au Qtr. 2 cl, 2 comp lab hrs. Prereq: 201 and prereq or concour: 420.

509 Chemical Engineering Thermodynamics II U G 3
Continuation of 508.
Wi Qtr. 2 cl, 2 comp lab hrs. Prereq: 508.

520 Transport Phenomena II U G 3
Momentum, mass, and heat transfer with emphasis on the analogies between them; practical applications of momentum transfer (fluid flow). Brodkey.
Au, Sp Qtrs. 3 cl. Prereq: Math 255. Not open to students with credit for 420.

521 Elements of Chemical Engineering—Transport Phenomena II U G 3
Continuation of transport theory with emphasis on heat transfer and introduction to radiation; basic principles developed and illustrated with problems from chemical engineering practice. Brodkey, Davis, and L.J. Lee.
Au, Wi Qtrs. 2 cl, 2 comp lab hrs. Prereq: 420 or 520, and En Graph 250.

522 Elements of Chemical Engineering—Transport Phenomena III U G 3
Continuation of the study of transport theory; emphasis on mass transfer and stagewise operations with applied computational problems. Knaebel.
Wi Qtr. 2 cl, 2 lab hrs. Prereq: 420 and prereq or concour: 521. Not open to students with credit for 520.

523 Chemical Engineering Operations U G 4
The application of transport phenomena such as fluid, heat, and mass transfer to the chemical engineering operations of evaporation, distillation, drying, etc. Smith.
Sp Qtr. 3 cl, 2 comp lab hrs. Prereq: 521, Chem 532, and prereq or concour: 522 or 570.

543 Physical Analysis of Petroleum Reservoirs U G 2
Quantitative study of the physical nature of a petroleum reservoir; includes laboratory analysis of porosity, permeability, saturation, capillary pressure, and multiphase characteristics of reservoir rocks. Slider.
Sp Qtr. 1 cl, 1 4-hr lab. Prereq: 442 or permission of instructor.

570 Fundamentals of Mass Transport and Diffusion U G 3
Fundamental study of mass transport and diffusion in gases, liquids, and solids with applications in physical and biological sciences; primarily for students in physical, biological, and engineering sciences.
Sp Qtr. 2 cl, 2 comp lab hrs. Prereq: 8 hr of chem, 10 or hrs of physics, and Math 254 or 221 or equiv; or permission of instructor. Not open to students with credit for 522.

571 Air Pollution U G 3
Sources and dispersion of air pollutants, air pollution control, air quality criteria, emission standards and regulations. Sweeney.
Sp Qtr. 3 cl. Prereq: Permission of instructor. Intended for students not enrolled in ENG.

610 Chemical Engineering Kinetics U G 3
Chemical and engineering principles for the design and operation of chemical reactors; kinetics of simple homogeneous systems and introduction to heterogeneous catalysis. Haering.
Sp Qtr. 2 cl, 2 comp lab hrs. Prereq: 500 or Chem 528, and prereq or concour: 522 or 570.

626 Digital Control Techniques in Chemical Engineering U G 3
Study of real-time data acquisition and digital control techniques as applied to chemical processes. W. K. Lee.
Au Qtr. 2 cl, 3 lab hrs. Prereq: 501 and En Graph 200, or permission of instructor.
630 Chemical Engineering Operations Laboratory U G 4-8
The fundamental laboratory course in the chemical engineering operations: laboratory investigation of the operating characteristics and efficiency of chemical engineering equipment such as distillation, drying, filtration, etc. Haering.
Su Qtr. 5 conf. 7-19 lab hrs. Prereq: 523 or equiv with written permission of instructor.

640 Determination of Reservoir Parameters and Material Balance U G 5
Determination of petroleum subsurface reservoir thickness, porosity, and saturation from core analysis and logs; the prediction of reservoir behavior by material balances. Slider.
Sp Qtr. 5 cl. Prereq: ENG 3rd yr standing or geol 4th yr standing and permission of instructor.

643 Flow of Gas and Oil in Subsurface Reservoirs U G 5
Fundamentals of oil and gas flow in porous media under steady state and unsteady state conditions; application of these fundamentals to well problems. Slider.
Sp Qtr. 5 cl. Prereq: ENG 4th yr standing or geol 4th yr standing and permission of instructor.

663 Coal and Mineral Characterization and Preparation U G 3
Schematic and mathematical description of coal and mineral preparation circuits and the design of preparation units for specific minerals or coal aimed at particular markets. Skidmore.
Au Qtr. 3 cl. Prereq: Math 254 or permission of instructor.

666 Principles of Biochemical Engineering U G 3
Fundamental study of transport phenomena and other biochemical engineering principles with applications in processing of biological materials (animal, vegetable, microorganism).
Sp Qtr. 3 cl. Prereq: ENG or science sr or gravid standing.

671 Legal Aspects of Engineering U G 3
Basic legal concepts; the administrative process as exemplified by environmental regulation; patents, trade secrets; selected topics from the viewpoint of the engineer and scientist. Sweeney.
Au Qtr. 3 cl. Prereq: ENG or science or standing or permission of instructor.

693 Individual Studies in Chemical Engineering U G 1-8
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/N.

694 Group Studies in Chemical Engineering U G 1-6
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 cr hrs.

726 Chemical Process Dynamics and Control II U G 3
Further development of process dynamics and control topics begun in 501. W. K. Lee.
Sp Qtr. 3 cl. Prereq: 501 or permission of instructor.

743 Petroleum Production Investigations U G 1-10
Sp Qtr. Library, conf, and lab work. Prereq: 643. Repeatable to a maximum of 10 cr hrs for the course; either subdivision repeatable to a maximum of 10 cr hrs.

743.01 Engineering Problems of Petroleum and Natural Gas Exploration, Production, and Transportation. Slider.

743.02 Design or Planning of Petroleum Field Development. Slider.

750 Profession of Chemical Engineering U G 1
The roles in professional activities performed by chemical engineers, code of ethics, professional registration, professional societies, responsibilities to management and to labor and as an administrator. Haering and Zakin.
Au Qtr. 1 cl. Prereq: Chem eng sr standing.

760 Chemical Engineering Economy U G 3
Economic considerations in research, development, design, and manufacturing in the chemical process industry; cost estimation and economic optimization of chemical engineering operations and chemical processes. Fan.
Au Qtr. 2 cl, 2 comp lab hrs. Prereq: 610 and 630.

761 Chemical Engineering Processes U G 3
Integration of fundamentals of chemistry, chemical engineering operations, thermodynamics, reaction kinetics, and economics for optimum design and operation of chemical process plants. Haering.
Au Qtr. 2 cl, 2 comp lab hrs. Prereq: Sr standing in chem eng or chem.

762 Chemical Engineering Process Development U G 4
Library, laboratory, and pilot plant research and development of chemical processes of industrial potential justified by preliminary economic studies; preparation of optimum process flow sheets; plant design studies. L. J. Lee and Skidmore.
Au, Wi Qtr. 1 cl, 11 lab hrs. Prereq: 610, 630, and prereq or concurr: 760.

763 Special Problems in Process Design U G 2
Analysis of definite problems having theoretical and practical application to the chemical industry; individual effort guided by a chemical engineering staff member.
Wi Qtr. 6 hrs conf. and lab. Prereq or concurr: 760.

764 Chemical Engineering Process Design U G 5
Process design studies on selected chemical processes encompassing a broad spectrum of fundamental engineering principles; optimization studies utilizing economic and technical simulation. Davis, Fan, and Krieger.
Sp Qtr. 3 cl, 2-4 hr labs. Prereq: 762.

767 Coal Liquefaction Processing U G 3
Definition of design features for special operations in coal liquefaction; exposition of structure—reactivity relation and description of competing liquefaction technologies including in-situ coal liquefaction. Skidmore.
Wi Qtr. 3 cl. Prereq: Math 254 or permission of instructor.

769 Coal Gasification Processing U G 3
Description, analysis, and design of important units in coal gasification processes. Skidmore.
Sp Qtr. 3 cl. Prereq: Math 254 or permission of instructor.

770 Applied Electrochemistry U G 3
The relationship between electrical and chemical energy as applied to chemical industries, discussed, and illustrated by laboratory work.
Wi Qtr. 2 cl, 4 lab hrs. Prereq: Chem 532 or equiv with written permission of instructor.

771 Air Pollution U G 3
Sources of air pollutants, properties of small particles, chemistry of air pollution, dispersion and deposition of air pollutants, and air pollution control. Sweaney.
Sp Qtr. 3 cl. Prereq: ENG or standing or permission of instructor.
773 Introduction to High Polymer Engineering U G 3
Engineering of polymerization and polymer forming processes based upon thermodynamics, transport phenomena, and reaction kinetics; relationships of engineering properties of high polymers to molecular characteristics. L. J. Lee.
Au Qtr. 3 cl. Prereq: 610 and organic chem or permission of instructor.

775 Rheology of Fluids U G 3
Principles of rheology including the characteristics of non-Newtonian materials, rheological equations of state, viscometric flows, measurements and applications to the flow of industrial materials. Broeky and Zakin.
Wi Qtr. 3 cl. Prereq: 420 or 520 or equiv with written permission of instructor.

776 Principles of Polymer Conversion Operations U G 3
Principles of thermodynamics, transport phenomena, polymer chemistry and physics will be related to polymer processing (converting high polymers) through application of mathematical and analytical approaches. L. J. Lee.
Sp Qtr. 3 cl. Prereq: 773 and 775 or permission of instructor.

779 Chemical Engineering Experimental Design U G 3
Industrial and research experiments designed with special emphasis on reducing the number of experiments, interpreting final results, and ensuring against unknown factors. Harshay.
Au Qtr. 3 cl. Prereq: En Graph 200 or equiv or permission of instructor.

801 Advanced Special Problems in Chemical Engineering G 1-15
A minor problems course covering the chemical engineering operation, instrumentation, thermodynamics, kinetics, the transport fields, and chemical technology.
Su, Au, Wi, Sp Qtrs. Conf. library, and/or lab. Prereq: Satisfactory courses in field of problem undertaken and permission of instructor. Repeatable to a maximum of 15 or hrs.

806 Advanced Chemical Engineering Thermodynamics I G 3
Detailed discussion of the thermodynamic properties of pure compounds and mixtures; computational problem work emphasizes the application of thermodynamics in industrial problems. Hershey.
Sp Qtr. 3 cl. Prereq: 509 or equiv with written permission of instructor.

809 Advanced Chemical Engineering Thermodynamics II G 3
Continuation of 808. Hershey.
Wi Qtr. 3 cl. Prereq: 808.

812 Advanced Chemical Engineering Kinetics I G 3
Chemical engineering kinetics from the viewpoint of industrial chemical processes. Haeing.
Au Qtr. 3 cl. Prereq: 523 and 810; or permission of instructor.

813 Advanced Chemical Engineering Kinetics II G 3
Continuation of 812. Haeing.
Wi Qtr. 3 cl. Prereq: 812.

815 Advanced Chemical Engineering Science and Applications G 3
Advanced concepts of science and engineering as applied to the chemical engineering field under various topics.
Au, Wi, Sp Qtrs. 3 cl. Prereq: Chem eng grad standing or permission of instructor. Repeatable to a maximum of 45 or hrs; subdivisions not repeatable.

815.01 Advanced Mass Transfer—I
Knabeb.

815.02 Advanced Mass Transfer—II
Knabeb.

815.03 Advanced Distillation and Stage Processes
Knabeb.

815.04 Extraction, Axenotrophic, and Extractive Distillation
Knabeb.

815.05 Advanced Heat Transfer—I

815.06 Advanced Heat Transfer—II
Condensation, boiling, design applications. Davis, L.J. Lee, and Sweeney.

815.08 Advanced Momentum Transfer—I
Basic theory, laminar flow, and phenomenological turbulence. Broeky.

815.09 Advanced Momentum Transfer—II
Turbulence, mixing, and chemical reaction. Broeky.

815.10 Advanced Momentum Transfer—III
Two-phase phenomena. Broeky.

815.11 Advanced Combustion Principles
Smith.

815.12 Advanced Instrumentation and Process Control of Chemical Plants
W.K. Lee.

815.13 Application of Stochastic Processes to Chemical Engineering
Application of stochastic processes in chemical engineering including reactors and other chemical processing units.

815.14 Advanced Process and Plant Design
Knabeb.

815.15 New or Unusual Chemical Engineering Operations
Examples: adsorption, catalysis, dialysis exclusion, sublimation.

873 Advanced High Polymer Engineering G 3
Fundamental studies of polymer properties as related to and controlled by polymer structure: engineering of polymerization processes to control polymer structure. J. J. Lee.
Sp Qtr. 3 cl. Prereq: 773 or permission of instructor.

881 Seminar in Chemical Engineering G 2
Formal reports, lectures, and discussions of fundamentals and new developments in science and technology as related to chemical engineering.
Su, Wi Qtrs. 2 cr. hrs. Prereq: Grad standing in chem eng. Repeatable to a maximum of 12 cr. hrs.
999 Research in Chemical Engineering G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Chemical Physics

210 McPherson Chemical Laboratory, 140 West 18th Avenue, 422-7063

998 Research in Chemical Physics: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Chemical Physics: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Chemistry

General Chemistry Office, 115 McPherson Chemical Laboratory, 140 West 18th Avenue, 422-6008, Office, 120
McPherson Chemical Laboratory, 140 West 18th Avenue, 422-2251

101 Elementary Chemistry U 5
A course in the principles of chemistry; the chemistry of the more important elements and compounds.
Su, Au, Wi, Sp Qtrs. 4 cr, 3 lab hrs. Prereq: Eligibility to enroll in Math 118. Not open to students with credit for 121, H201, or 204. Safety glasses must be worn in lab. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

102 Elementary Chemistry U 5
Continuation of 101; a terminal sequence in chemistry for students requiring only two courses in chemistry; special attention is given to the compounds of carbon.
Au, Wi, Sp Qtrs. 4 cr, 3 lab hrs. Prereq: 101. Not open to students with credit for 122 or H202 or 205. Safety glasses must be worn in lab. BER/LAC/LAR course. NS Admins Cond course.

121 General Chemistry U 5
A general course in fundamental chemical principles.
Su, Au, Wi, Sp Qtrs. 4 cr, 3 lab hrs. Prereq: One unit of high school chem and eligibility to enroll in Math 150. Not open to students with credit for H201 or 204. Safety glasses must be worn in lab. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

122 General Chemistry U 5
Continuation of 121; the chemistry of the most important non-metals and of chemical reactions in solutions.
Su, Au, Wi, Sp Qtrs. 4 cr, 3 lab hrs. Prereq: 121 or completion of 121 with a grade of A or B and eligibility to enroll in Math 150. Not open to students with credit for H202 or 205. Safety glasses must be worn in lab. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

123 General Chemistry U 5
Continuation of 122; the chemistry of the metals including introductory quantitative analysis.
Su, Au, Wi, Sp Qtrs. 4 cr, 3 lab hrs. Prereq: 122. Safety glasses must be worn in lab. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

H201 General Chemistry U 5
Fundamental chemical principles for selected students.
Au Qtr. 4 cr, 3 lab hrs. Prereq or concour: Math 151 and permission of instructor. Not open to students with credit for 121 or 204. Safety glasses must be worn in lab. BER/LAC/LAR course. NS Admins Cond course.

H202 General Chemistry U 5
Continuation of H201; fundamental principles and nonmetal chemistry.
Wi Qtr. 4 cr, 2 lab hrs. Prereq: H201. Safety glasses must be worn in lab. BER/LAC/LAR course. NS Admins Cond course.

H203 General Chemistry U 5
Continuation of H202; fundamental principles and chemistry of metals.
Sp Qtr. 3 cr, 6 lab hrs. Prereq: H202. Safety glasses must be worn in lab. BER/LAC/LAR course.

204 Principles of Chemistry U 4
Fundamental principles of chemistry for engineering students with at least two quarters of college physics and of college mathematics.
Au, Wi, Sp Qtrs. 3 cr, 3-hr lab. Prereq: ENG 1st or 2nd yr standing, 1 unit of high school chem, and prereq or concour Math 153 and Physics 133. Safety glasses must be worn in lab.

205 Principles of Chemistry U 4
Continuation of 204.
Au, Wi, Sp Qtrs. 3 cr, 3-hr lab. Prereq: 204. Safety glasses must be worn in lab.

211 Quantitative Analysis U 3
A general course in quantitative analysis; gravimetric, volumetric, and instrumental analysis; primarily for those students with interest in biological and medical sciences.
Au, Wi Qtrs. 2 cr, 5-8 lab hrs. Prereq: 123 or equiv. Safety glasses must be worn in lab. BER/LAC course.

221 Quantitative Analysis U 5
The fundamental course in quantitative chemical analysis for students majoring in chemistry.
Su, Au, Sp Qtrs. 3 cr, 6 lab hrs. H221 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 123 or equiv. Safety glasses must be worn in lab.

241 Organic Chemistry U 3
The first half of a two-quarter course in fundamental organic chemistry designed for non-majors in chemistry or students in preparation for high school teaching.
Au, Wi, Sp Qtrs. 3 cr. Prereq: 125. Not open to students with credit for 235 or 251.

242 Organic Chemistry U 3
Continuation of 241.
Su, Wi, Sp Qtrs. 3 cr. Prereq: 241. Not open to students with credit for 235 or 252.

243 Organic Chemistry Laboratory U 3
A preparation of a series of typical organic compounds, such as are studied in 241-245, their purification, and a study of their properties.
Su, Au, Wi, Sp Qtrs. 9 lab hrs. Prereq or concour: 241. Not open to students with credit for 235 or 245 or 254. Safety glasses must be worn in lab.

244 Organic Chemistry Laboratory U 3
Continuation of 243.
Su, Wi, Sp Qtrs. 9 lab hrs. Prereq: 243; prereq or concour 242. Not open to students with credit for 235 or 245 or 254. Safety glasses must be worn in lab.

245 Organic Chemistry Laboratory U 2
A preparation of a series of typical compounds, such as those studied in 241 and 242, and a study of their properties.
Su, Wi, Sp Qtrs. 6 lab hrs. Prereq or concour: 241. Not open to students with credit for 235 or 243 or 254. Safety glasses must be worn in lab.

246 Organic Chemistry Laboratory U 2
Continuation of 245.
Su, Wi, Sp Qtrs. 6 lab hrs. Prereq: 245; prereq or concour 242. Not open to students with credit for 235 or 244 or 255. Safety glasses must be worn in lab.
251 Organic Chemistry U 3
A fundamental course in chemistry designed for chemistry majors and chemical engineers.
Au Qtr. 3 cl. Prereq: 123. Not open to students with credit for 241.

252 Organic Chemistry U 3
Continuation of 251.
Wi Qtr. 3 cl. Prereq: 251. Not open to students with credit for 232 or 242.

253 Organic Chemistry U 3
Continuation of 252.
Sp Qtr. 3 cl. Prereq: 252.

254 Organic Chemistry Laboratory U 3
The preparation, purification, characterization, and study of the properties of typical organic compounds.
Wi Qtr. 1 cl. 6 lab hrs. H254 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq or concour: 251. Not open to students with credit for 245-244. Safety glasses must be worn in lab.

255 Organic Chemistry Laboratory U 3
Continuation of 254.
Sp Qtr. 1 cl. 6 lab hrs. H255 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 254 or concour 252. Safety glasses must be worn in lab.

294 Group Studies U 3-5
Special studies in chemistry.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

520 Physical Chemistry U G 3
The principles of physical chemistry for students in the biological sciences and for BA students majoring in chemistry.
Wi Qtr. 3 cl. Prereq: 244 or 255 or equiv, Math 132 or 152 or 502, and Physics 113 or 133. Not open to students with credit for 521 or 531.

521 Physical Chemistry U G 3
A continuation of 520.
Sp Qtr. 3 cl. Prereq: 520. Not open to students with credit for 532.

531 Physical Chemistry U G 3
The fundamental course in physical chemistry.
Au Qtr. 3 cl. Prereq: 212 or 221 in equiv, Physics 113 or 133 and Math 254; prereq or concour Math 255; concour 551 recommended for chem majors.

532 Physical Chemistry U G 3
Continuation of 531.
Wi Qtr. 3 cl. Prereq: 531; concour 552 recommended for chem majors.

533 Physical Chemistry U G 3
Continuation of 532.
Sp Qtr. 3 cl. Prereq: 532.

541 Physical Chemistry Laboratory U G 3
Au, Sp Qtrs. 1 cl. 8 lab hrs. Prereq or concour: Chem eng 3rd yr standing and 521 or 533 or equiv. Protective glasses must be worn.

551 Physical Chemistry Laboratory U G 2
Quantitative measurements of phenomena of chemical interest and the application of chemical principles to their interpretation.
Au, Wi Qtrs. 6 lab hrs. Prereq or concour: 520 or 531. Protective glasses must be worn in lab.

552 Physical Chemistry Laboratory U G 2
Continuation of 551.
Au, Wi Qtrs. 6 lab hrs. Prereq: 551; prereq or concour 532. Protective glasses must be worn in lab.

585 Research Principles in Chemistry U 1-5
Independent chemical investigation under the direction of a faculty member, culminating in written and oral reports.
Su, Au, Wi. Sp Qtrs. Arr. Prereq: 15 or hrs in chem at the 200 level or above and written permission of instructor under whose direction the student will work. Repeatable to a maximum of 20 or hrs.

587 Principles of Instrumental Analysis U G 3
Applications of physico-chemical principles to problems of quantitative analysis.
Sp Qtr. 3 cl. Prereq or concour: 521 or 532, and 551. Safety glasses must be worn in lab.

588 Laboratory Practice in Instrumental Analysis U G 2
Laboratory applications of physico-chemical principles to instrumental analysis.
Sp Qtr. 2 3-hr labs. Prereq or concour: 587 or permission of instructor. Not open to students with credit for 587 prior to Au Qtr 1981.

621† Chemical Spectrophotometry U G 4
Application of infrared, visible, ultraviolet spectrophotometers, atomic emission and absorption spectrophotographs to problems involving inorganic and organic molecular structure, analysis, equilibria, and reaction rates.
Wi Qtr. 2 cl. 6 lab hrs. Prereq or concour: 531. Protective glasses must be worn.

623 Chemical Instrumentation U G 3 or 5
Background theory and laboratory applications in the use of electrical and electronic instruments in chemical research.
Su Qtr. 2 cl. or 15 lab hrs. Prereq: 533, prereq or concour Physics 133, and Math 255 or equiv. Not open to students with credit for 871.

632 Physical Methods in Organic Chemistry U G 3
Selected topics in bonding, molecular orientation, and reactivity of organic compounds and metastable intermediates with emphasis on physical methods of approach.
Sp Qtr. 3 cl. Prereq: 253 and 533, or permission of instructor.

635* Chemistry of the Carbohydrates U G 3
Au Qtr. 3 cl. Prereq: 242 or 525 or equiv. Repeatable to a maximum of 6 or hrs with permission of instructor.
A—Monosaccharides. (Given in even numbered years.)
B—Disaccharides and polysaccharides. (Given in odd-numbered years.)

651 Advanced Inorganic Chemistry I U G 3
An introduction to the concepts and chemical systems of inorganic chemistry, including atomic structure, the periodic table, molecular structure and bonding, ionic crystals, defect solid state, and electron deficient compounds.
Wi Qtr. 3 cl. Prereq: 521 or 532 or permission of instructor. Not open to students with credit for 751.

652 Advanced Inorganic Chemistry II U G 3
The chemistry of the transition elements; coordination compounds, organometallics, noble gases, representative elements, and lower boron hydrides; acid-base theories.
Sp Qtr. 3 cl. Prereq: 651. Not open to students with credit for 752.

661 Biochemistry U G 3
A survey of biochemistry for the superior advanced undergrad or the beginning grad student who does not necessarily plan to do grad research in biochemistry.
Prereq: 242 or 253 and 521 or 532. Not recommended for students with grades of C or below in prerequisite courses.

661.01 Biochemistry
Wi Qtr. 3 cl.

661.02 Biochemistry
Sp Qtr. 3 cl.
671 Nuclear, Radio, and Radiation Chemistry U G 3
Nuclear properties, nature of radioactivity, radioactive decay and growth, interactions of radiation with matter, applications. 
Au Otr. 3 cl. Prereq: 533 or equiv.

675 X-Rays and Crystal Structure U G 4
An introduction to the methods of X-ray crystal analysis; discussion of and application of theory of symmetry of crystals and of diffraction. 
Wi Otr. 3 cl, 3 lab hrs. Prereq: Math 255, Physics 113 or 132, and 133, or equiv.

679† Colloid Chemistry U G 3
Modern theories of colloidal behavior; adsorption and surface phenomena; physical-chemical methods for the characterization of proteins, high polymers, and inorganic colloids. 
Wi Otr. 3 cl. Prereq: 533.

693 Individual Studies U G 1-15
A qualified student may conduct a minor investigation in chemistry. 
Su, Au, Wi, Sp Qtrs. Confl., library, and lab. Prereq: 
Satisfactory course in field of the problem and permission of instructor. Repeatable to a maximum of 60 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Designed for students to pursue advanced special studies in chemistry. 
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

721 Advanced Analytical Chemistry U G 3
Chemical and instrumental aspects of modern methods of analysis, emphasizing commonly used contemporary techniques of value to the research chemist. 
Au Otr. 3 cl. Prereq: 587 or equiv or permission of instructor.

722 Principles of Analytical Processes U G 3
Specialization and multicomponent equilibria, analog versus digital data acquisition, applications of Fourier transforms, modeling chemical systems. 
Wi Otr. 3 cl. Prereq: 531.

731 Advanced Organic Chemistry I U G 3
An advanced course in the fundamental principles of chemistry concerning the aliphatic hydrocarbons and their derivatives. 
Au Otr. 3 cl. Not open to students with credit for 681, 731, 831, and 833. 

733 Chemistry of Bio-Organic Catalysts U G 3
Structure of organic catalysts and the mechanism of their reactions. 
Au Otr. 3 cl. Prereq: 253; concur 533.

751 Advanced Inorganic Chemistry II U G 3
An intermediate treatment of the concepts and chemical systems of inorganic chemistry, including symmetry, correlation of spectra and structure with bonding. 
Au Otr. 3 cl. Prereq: Permission of instructor or an undergrad degree with a major in chem. Not open to students with credit for 651.

752 Advanced Inorganic Chemistry III U G 3
An intermediate discussion of organometallic compounds and low oxidation state metalloids. 
Wi Otr. 3 cl. Prereq: 751. Not open to students with credit for 652.

753 Advanced Inorganic Chemistry IV U G 3
Equilibria and mechanisms of inorganic chemical reactions, including substitution, electron transfer, metal ion promoted processes, and applications to homogenous catalysis. 
Sp Otr. 3 cl. Prereq: 652 or 752. Not open to students with credit for 653.

755 Inorganic Chemistry Laboratory U G 3
Preparative techniques of inorganic chemistry including the use of liquefied gases, aqueous and non-aqueous solutions, Eh-pH diagrams and oxygen-free systems, fusion reactions, etc. 
Sp Otr. 9 lab hrs. Prereq or conc: 533. Safety glasses must be worn in lab. Not open to students with credit for 656.

812 Principles of Separation Processes G 3
Principles and applications of equilibrium and kinetic separation processes such as precipitation, solvent extraction, ion exchange, liquid-liquid chromatography, gas-liquid chromatography, and zone refining. 
Au Otr. 3 cl. Prereq: 821 or permission of instructor.

823 Analytical Spectroscopy G 3
Advanced course in the principles of measurement of the interaction of electromagnetic radiation with matter. 
Sp Qtr. 3 cl. Prereq: 821 or permission of instructor.

832 Advanced Organic Chemistry II G 3
An advanced course in the fundamental principles of chemistry covering aliphatic, hydroaromatic, and aromatic compounds. 
Wi Otr. 3 cl. Prereq: 731.

833 Advanced Organic Chemistry III G 3
An advanced course in the fundamental principles of chemistry covering a survey of heterocyclic compounds, carbohydrates, proteins, and enzymes. 
Sp Qtr. 3 cl. Prereq: 832.

835 Advanced Organic Chemistry Laboratory G 3 or 5
An advanced course in fundamental reactions and procedures with emphasis on recent advances in technique. 
Su Otr. 9 lab hrs. Prereq: Permission of student's grad adviser. Safety glasses must be worn in lab.

836 Advanced Organic Chemistry Laboratory G 3 or 5
Continuation of 835. 
Su Otr. 9 lab hrs. Prereq: Permission of student’s grad adviser. Safety glasses must be worn in lab.

851 Advanced Inorganic Chemistry G 3
A survey of modern theories of valence and their application to the problems of structural inorganic chemistry. 
Au Otr. 3 cl. Prereq: 533 and 652 or 752 or permission of instructor.

852 Advanced Inorganic Chemistry G 3
A detailed treatment of the chemistry of the transition elements from the standpoint of molecular and atomic structure, electronic spectra, magnetism, and ligand-field theory. 
Wi Otr. 3 cl. Prereq: 851 or permission of instructor.
861 Quantum Chemistry I  G 3
Basic quantum mechanics as a foundation for quantum chemistry; postulates, operators, eigenfunctions, eigenvalues, and Schrödinger wave equations; one-dimensional problems including the harmonic oscillator.
Au Qtr. 3 cl. Prereq: 533, Physics 133, and Math 255 or 415 or equiv.

862 Quantum Chemistry II  G 3
Angular momentum; matrix elements and representations; the hydrogen atom; perturbation and variation methods; electron spin, and the helium atom; atomic structure and multiplet theory.
Wi Qtr. 3 cl. Prereq: 861 or equiv.

863 Quantum Chemistry III  G 3
Electronic structure of molecules: hydrogen molecule and ion, methane, ethylene, benzene, etc.; molecular orbital, valence bond, and self-consistent field methods.
Sp Qtr. 3 cl. Prereq: 862.

866 Electronic Spectra and Structure of Molecules  G 3
Application of quantum mechanics to the description and interpretation of molecular spectroscopic data with an emphasis on electronic transitions of polyatomic molecules.
Sp Qtr. 3 cl. Prereq: 863 or equiv and 862 or permission of instructor. Not open to students with credit for 981.

875 Chemical Kinetics I  G 3
Fundamentals of chemical kinetics in homogeneous liquid and gaseous systems.
Au Qtr. 3 cl. Prereq: 533.

876 Chemical Kinetics II  G 3
Continuation of 875; elementary reactions; chain reactions; fast reaction methods; reaction rates in heterogeneous systems.
Wi Qtr. 3 cl. Prereq: 875.

877 Radiation and Photochemical Kinetics  G 3
The physical and chemical effects of the absorption of radiant energy, with emphasis on kinetics and mechanisms.
Wi Qtr. 3 cl. Prereq: 875.

881 Thermodynamics I  G 3
Introduction to thermodynamics; emphasis on training in the use of thermodynamics as a tool for solving chemical problems.
Wi Qtr. 3 cl. Prereq: 875 or equiv.

882 Statistical Thermodynamics  G 3
An introduction to statistical thermodynamics, including quantum statistics, entropy and the third law, statistical-spectroscopic calculation of thermodynamic functions of gases, chemical equilibria, and vapor pressure.
Sp Qtr. 3 cl. Prereq: 881.

885 Colloquium in Chemistry  G 1
A discussion of current research in chemistry; all divisions.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Grad standing in Chem. Required every qtr of all registered grad students in chem. This course is graded S/U.

894 Group Studies G 3 or 4
Provides an opportunity for innovation and experimentation on new problems in chemistry.
Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 8 or hrs.

941 Theoretical Organic Chemistry I  G 3
An advanced course in a special topic in organic chemistry; topic to be announced.
Au Qtr. 3 cl. Prereq: 2nd yr grad standing, 831, and 832, or permission of instructor.

942 Theoretical Organic Chemistry II  G 3
An advanced course in a special topic in organic chemistry; topic to be announced.
Wi Qtr. 3 cl. Prereq: 2nd yr grad standing, 831, and 832, or permission of instructor.

943 Theoretical Organic Chemistry III  G 3
An advanced course in a special topic in organic chemistry; topic to be announced.
Sp Qtr. 3 cl. Prereq: 2nd yr grad standing, 831, and 832, or permission of instructor.

990 Seminar on Topics in Biochemistry  G 3
Advanced topics in the biological aspects of chemistry.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.

991 Seminar in Analytical Chemistry  G 3
Topic to be announced.
Au Qtr. 3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs.

992 Seminar in Organic Chemistry  G 3
Topic to be announced.
Au, Wi, Sp Qtrs. 3 cl. Prereq: Chem 2nd yr grad standing, 831, and 832; or equiv and permission of instructor. Repeatable to a maximum of 12 or hrs.

995 Seminar in Inorganic Chemistry  G 3
Topic to be announced.
Sp Qtr. 3 cl. Prereq: 751 and 752 or equivs and permission of instructor. Repeatable to a maximum of 6 or hrs.

996 Seminar in Theoretical Chemistry  G 3
Advanced topics in theoretical chemistry including quantum mechanics of molecular wave functions, energies, rate processes, and quantum and statistical mechanics of condensed phases.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 861, 862, and 863; or equivs. Repeatable to a maximum of 9 or hrs.

997 Seminar in Physical Chemistry  G 3
Topic to be announced.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 2nd yr grad standing in physics or chem. Repeatable to a maximum of 9 or hrs with permission of instructor.

999 Research in Chemistry  G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Chinese

275 Deter Hall of Languages, 1841 Milton Road, 422-5816

101 Elementary Modern Chinese I
Basic elements of Modern Chinese (Mandarin), the four tones-sentence structure, and Chinese characters (of which 500 will be learned in three qtrs).
FL. Admis Cond course.

101.01 Classroom Track  U 5
Au Qtr. 5 cl. Students register for and complete 5 cr hrs during the qtr. This course is available for EM credit.

101.51 Individualized Track  U 1-5
Su, Au, Wi, Sp Qtrs. Students register for and complete from 1 to 5 cr hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 102.51. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Not open to students with credit for 101 or 101.01.
102 Elementary Modern Chinese II
Continuation of 101.
FLAdmis Cond course.

102.01 Classroom Track U 5
Wi Qtr. 5 cl. Prereq: 101 or 101.01 or 5 or hrs of 101.51.
Students must register for and complete 5 or hrs during the qtr. This course is available for EM credit. Not open to students with credit for 102.

102.51 Individualized Track U 1-5
Su, Au, Wt. Sp Qtr. Prereq: 101 or 101.01 or 5 or hrs of 101.51. Students register for and complete from 1 to 5 or hrs during the qtr. Progress is sequential from one or hr to the next with a demonstrated proficiency at the level of 80% required for advancement.

103 Elementary Modern Chinese III
Continuation of 102.

103.01 Classroom Track U 5
Sp Qtr. 5 cl. Prereq: 102 or 102.01 or 5 or hrs of 102.51. Students must register for and complete 5 or hrs during the qtr. This course is available for EM credit. Not open to students with credit for 103.

103.51 Individualized Track U 1-5
Su, Au, Wt. Sp Qtr. Prereq: 102 or 102.01 or 5 or hrs of 102.51. Students register for and complete from 1 to 5 or hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 104.51 or 104.01. Progress is sequential from one or hr to the next with a demonstrated proficiency of 80% required for advancement to next level.

104 Elementary Modern Chinese IV
Four hundred additional characters, further combination of characters in three quarters: complex sentence structure; readings adapted from modern Chinese literature.

104.01 Classroom Track U 5
Au Qtr. 5 cl. Prereq: 103 or 103.01 or 5 or hrs of 103.51.
Students must register for and complete 5 or hrs during the qtr. This course is available for EM credit. Not open to students with credit for 104.

104.51 Individualized Track U 1-5
Su, Au, Wt. Sp Qtr. Prereq: 103 or 103.01 or 5 or hrs of 103.51. Students register for and complete from 1 to 5 or hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 105.51 or 104.01. Progress is sequential from one or hr to the next with a demonstrated proficiency of 80% required for advancement to next level.

112 Intensive Chinese U 5, 10, 15
Elementary modern Chinese (Mandarin) for students desiring comprehensive knowledge and skills of Chinese in shortest possible time.
Su Qtr. 15 cl. Prereq: Permission of Instructor. Full-time fees required regardless of number of cr or hrs. Equiv of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 103 or equiv may not register for credit. Students with credit for 101 and 102 will enroll for 5 or hrs. Students with credit for 103 only enroll for 10 or hrs. Students with no credit in Chinese will enroll for 15 or hrs. Regardless of cr or hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr or hrs. FL Admis Cond course.

114 Elementary Chinese Conversation and Composition U 3
Oral drills and sentence making exercises based upon the vocabulary and sentence patterns acquired in 101 and 102, and concurrently in 103 conducted predominantly in Chinese.
Sp Qtr. 3 cl. Prereq: 102 or written permission of instructor.

205 Intermediate Modern Chinese U 5
Continuation of 104.
Wi Qtr. 5 cl. Prereq: 104 or written permission of instructor. Not open to students with credit for 105. This course is available for EM credit.

206 Intermediate Modern Chinese U 5
Continuation of 205.
Sp Qtr. 5 cl. Prereq: 205 or written permission of instructor. Not open to students with credit for 106. This course is available for EM credit.

212‡ Intensive Chinese U 5, 10, 15
Continuation of 103 or 112, with a gradual shift in emphasis from the spoken to the written language; selected graded readings, writing, and composition.
Su Qtr. 15 cl. Prereq: 103 or 112 or permission of instructor. Full-time fees required regardless of number of cr or hrs. Equiv of 104, 205, and 206. Students may not register for any other course if they enroll in 212. Students with credit for 104 and 205 will enroll for 5 or hrs. Students with credit for 104 only will enroll for 10 or hrs. Students with credit for 103 or 112 will enroll for 15 or hrs. Regardless of cr or hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr or hrs.

214 Intermediate Chinese Conversation and Composition U 3
Exercises in conversation and composition based upon materials used in 104 and 206, and concurrently in 206, conducted primarily in Chinese.
Wi Qtr. 3 cl. Prereq: 114 and 205, or equiv with written permission of instructor.

231 Traditional Chinese Culture U 5
Chinese institutions, philosophic trends, religion, art, and literature prior to the twentieth century.
Au, Wt. Qtr. 5 cl. Taught in English. BER/LAC/LAR course.

232 Modern Chinese Culture U 5
Modern Chinese culture as reflected in family life, language, literature, art, etc.
Sp Qtr. 5 cl. Taught in English. BER/LAC course.

251 Chinese Literature in Translation U 5
Representative masterpieces from 3,000 years of Chinese literature, fiction, drama, prose, and poetry in English translation.
Au, Wt. Qtrs. 5 cl. BER/LAC course.

252‡ Chinese Literature in Translation: Middle and Modern Periods U 5
Masterpieces of late classical poetry and the vernacular novel, representative works of modern fiction, poetry, and drama.
Sp Qtr. 5 cl.

283 Chinese Calligraphy U 3
Techniques of writing Chinese characters with a brush; practice in different styles from oracle bone to grass.
Wi Qtr. 3 cl. Knowledge of Chinese not required. VPA Admis Cond course.

293 Individual Studies U 1-5
Individual investigation of problems in Chinese culture, language, and literature.
Su, Au, Wt. Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded SU.

294 Group Studies U 1-5
Su, Au, Wt. Sp Qtr. Repeatable to a maximum of 15 or hrs.

507 Advanced Modern Chinese I U 5
Reading of contemporary prose and verse, presentation of oral and written reports, drill in tone and intonation, practice in translation.
Au Qtr. 5 cl. Prereq: 206 or equiv with written permission of instructor. Not open to students with credit for 507.

508 Advanced Modern Chinese II U 5
Continuation of 507.
Wi Qtr. 5 cl. Prereq: 507 or permission of instructor. Not open to students with credit for 610.

509 Advanced Modern Chinese III U 5
Continuation of 508.
Sp Qtr. 5 cl. Prereq: 508 or permission of instructor. Not open to students with credit for 611.
514 Advanced Chinese Conversation
and Composition U G 3
Practice in conversation, discussion, oral reports, and short
speeches at an advanced level; use of various taped materials;
theme-writing exercises; conducted entirely in Chinese.
Au Qtr. 3 cl. Prereq: 214 and 508, or permission of instructor.

601 Classical Chinese I U G 3
Selected readings from representative authors of classical
times.
Au Qtr. 3 cl. Prereq: 206 or equiv with written permission of
instructor. Not open to students with credit for 501.

602 Classical Chinese II U G 3
Continuation of 601.
Wi Qtr. 3 cl. Prereq: 601 or equiv with written permission of
instructor. Not open to students with credit for 502.

603 Classical Chinese III U G 3
Continuation of 602.
Sp Qtr. 3 cl. Prereq: 502 or equiv with written permission of
instructor. Not open to students with credit for 503.

641* History of Chinese Thought U G 5
Detailed examination of the major Chinese philosophies;
readings from selected Chinese texts.
Sp Qtr. 2 2-hr cl. Not open to students with credit for 671.

651 History of Chinese Literature I U G 5
Chinese literature from antiquity to the end of Six Dynasties;
various aspects of the classical tradition and new
developments in the Age of Disunity.
Au Qtr. 2 2-hr cl. Prereq: Written permission of instructor. Not
open to students with credit for 754 or 755. Taught in English.
Partial texts in Chinese optional. Open to nonmajors.

652 History of Chinese Literature II U G 5
Chinese literature from Sui to the present; literary trends and
achievements of the Sung-T’ang period; rise of vernacular
writings; modern literature under western influence.
Wi Qtr. 2 2-hr cl. Prereq: Written permission of Instructor. Not
open to students with credit for 753 or 756. Taught in English.
Partial texts in Chinese optional. Open to nonmajors.

674 Chinese Opera U G 5
An introduction to Chinese (Peking) opera as dramatic
literature and performing art; study of selected plays and
illustrated discussions of various aspects of the theatre.
Sp Qtr. 5 cl.

680 Introduction to Chinese Linguistics U G 3
A general investigation of the history, phonology, morphology,
syntax, and lexis of the Chinese language.
Au Qtr. 3 cl. Prereq: 102 and Linguist 601, or permission of
instructor.

681 History of the Chinese Language U G 3
An investigation of the relations between modern Chinese and
its earlier stages, ancient and archaic Chinese.
Wi Qtr. 3 cl. Prereq: 680 or permission of instructor. Not open
to students with credit for 627.

683* Study of the Chinese Writing System U G 5
A critical study of the origin, classification, composition, and
development of the Chinese writing system, including problems
in simplification and alphabeticization.
Wi Qtr. 3 cl. Prereq: 103 or permission of instructor. Not open
to students with credit for 620 or 684.

690 Chinese Translation Workshop U G 3
Investigations of problems and techniques of translating
Chinese into English and English into Chinese; practice of
translation of selected passages; individual assignments and
group discussion.
Sp Qtr. 2 cl. Prereq: 509 and 603, or equivs with written
permission of instructor.

693 Individual Studies U G 1-5
Directed study to meet individual research needs of students in
certain studies and East Asian programs.
Su, Au, Wi, Sp Qtrs. Prereq: 509 or 603, and written
permission of instructor. Repeatable to a maximum of 15 cr hrs.
Not a substitute for regular language courses. This course is
graded S/U.

694 Group Studies U G 1-5
Investigation of minor problems in Chinese language and
literature.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor.
Repeatable to a maximum of 15 cr hrs. Not a substitute for
regular language courses.

698† Study Tour U G 15
Intensive work in conversation and reading in order to prepare
for the tour; while abroad only Chinese will be spoken; some
formal instruction given daily by the tour leaders.
Su Qtr. 15 cl. 5 wks at OSU, 5 wks abroad. Prereq: 15 cr hrs
in Chinese language or equiv with written permission of
instructor. Travel and subsistence costs for the study tour will
be borne by the student.

751 Selected Readings in Scholarly
Chinese Texts I U G 3
Academic writings in the humanities and social sciences by
modern Chinese scholars in both the wen-yen and pan-hua
styles.
Au Qtr. 3 cl. Prereq: 509 or permission of instructor.

752 Selected Readings in Scholarly
Chinese Texts II U G 3
Continuation of 751.
Wi Qtr. 3 cl. Prereq: 751 or permission of instructor.

753 Selected Readings in Scholarly
Chinese Texts III U G 3
Continuation of 752.
Sp Qtr. 3 cl. Prereq: 752 or permission of instructor.

761* Modern Chinese Poetry U G 3
Lectures and readings covering major poets since 1919.
Au Qtr. 3 cl. Prereq: 652 or permission of instructor. Not open
to students with credit for 754.

762† Modern Chinese Prose U G 3
Studies of various types of literature of the May Fourth
Movement and the Communist period.
Wi Qtr. 3 cl. Prereq: 652 or permission of instructor. Not open
to students with credit for 705.

763† Modern Chinese Fiction U G 3
Works by major authors before and after 1949.
Wi Qtr. 3 cl. Prereq: 652 or permission of instructor. Not open
to students with credit for 706.

764* Modern Chinese Drama U G 3
Lectures on and readings in works by major 20th century
playwrights including Huang Shen and Ts’ao Yong.
Sp Qtr. 3 cl. Prereq: 652 or permission of instructor.

782* Chinese Phonology U G 3
Mandarin phonology and Chinese dialectology.
Sp Qtr. 3 cl. Prereq: 681 or permission of instructor. Not open
to students with credit for 624 and 785.

H783 Honors Course U 3-6
A program of reading arranged for each student, with
individual conferences, reports, and honors thesis.
Au, Wi, Sp Qtrs. Prereq: 4th yr standing; a grade of A in at
least half of Chinese courses taken and an average of B in the
remainder; permission of instructor under whose supervision
the work is to be completed and the Arts and Sciences
Honors Committee. Failure to receive a mark of S in this
course is a disqualification for special honors. Open only to
candidates for BA with a major in Chinese. This course is
graded S/U.
88

784† Chinese Syntax U G 3
An investigation of the syntactic structure of Mandarin Chinese. Sp Qtr. 3 cl. Prereq: 680 or 681 or permission of instructor. Not open to students with credit for 628.

792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced. Su, Au, Wi, Sp Qtrs. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

800 Chinese Bibliography and Research Methods G 3
An introduction to bibliographies and reference works in the Chinese humanities; general and specific problems for research. Au Qtr. 3 cl. Prereq: 509 and 603, or equiv with written permission of instructor. Not open to students with credit for 707.

801 Teaching Chinese at the College Level G 5
Methods and techniques of teaching college-level Chinese; selection and preparation of teaching, testing, and laboratory materials; observation of a variety of language classes. Au Qtr. Two 2 hr intensive workshops previous to qtr followed by a 2 hr weekly cl. Prereq: Permission of instructor. For students enrolled in this course, the minimum number of cr hrs required for graduation is increased by 5 hrs.

804 Advanced Classical Chinese I G 3
Designed for further study of the syntax and vocabulary of classical Chinese; texts are selected from literature, history, and philosophy. Au Qtr. 3 cl. Prereq: 603 or equiv with written permission of instructor.

805 Advanced Classical Chinese II G 3
Continuation of 804. Wi Qtr. 3 cl. Prereq: 804.

806 Advanced Classical Chinese III G 3
Continuation of 805. Sp Qtr. 3 cl. Prereq: 805.

871† Traditional Chinese Poetry G 5
Lectures and readings from ancient odes and songs and the later shih and ts’u poetry. Au Qtr. 2 2-hr cl. Prereq: 651 and 652, or permission of instructor. Not open to students with credit for 703 or 771.

872† Traditional Chinese Prose G 5
Lectures on and readings in various types of non-fiction prose in ku-wen and yu-wen styles of early times. Sp Qtr. 2 2-hr cl. Prereq: 651 and 652, or written permission of instructor.

873† Traditional Chinese Fiction G 5
Lectures and readings in classical and vernacular fiction. Au Qtr. 2 2-hr cl. Prereq: 651 and 652, or permission of instructor.

874† Traditional Chinese Drama G 5
A lecture and reading course in Yuan, Ming, and Ch’ing drama. Sp Qtr. 2 2-hr cl. Prereq: 651 and 652, or permission of instructor.

875† Chinese Literary Criticism G 5
The historical development of critical theories, with concentration on major critics. Sp Qtr. 2 2-hr cl. Prereq: 3 Chinese literature courses at the 700-level or above, or equiv with written permission of instructor.

879 Seminar in Chinese Literature G 3-5
An intensive reading course in Chinese literature with a selected topic for each offering and research projects for individual students; topic to be announced. Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs.

882† Studies in Chinese Historical Phonology G 5
Critical study of the rhyming dictionaries, the reconstruction of the phonology of old Chinese and its relations to modern Chinese dialects. Sp Qtr. 2 2-hr cl. Prereq: 782 or permission of instructor.

884† Studies in Chinese Historical Syntax G 3
Problems of Chinese historical syntax; grammatical structures of classical Chinese; syntactic rules found in selected texts from various ancient writings. Sp Qtr. 3 cl. Prereq: 784 or permission of instructor.

889 Seminar in Chinese Linguistics G 3-5
Topics include the history of Chinese linguistics and related areas, specific studies in Chinese dialects, etc. Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs.

899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced. Su, Au, Wi, Sp Qtrs. Prereq: Permission of Instructor(s). Repeatable to a maximum of 15 cr hrs with permission of Dept.

998 Research in Chinese: Thesis G Arr
Research for thesis purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Chinese: Dissertation G Arr
Research for dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Circulation Technology

School of Allied Medical Professions
443 School of Allied Medical Professions Building, 1583 Perry Street, 422-7261

400 The Aseptic Environment U 5
An introduction to the aseptic environment with emphasis on the student’s function within this environment as a member of the medical-surgical team. Davis. Au Qtr. 2 cl. 2 3-hr labs. Prereq: Permission of instructor.

410 Applied Circulation Technology — Cardiovascular U 5
The presentation of cardiovascular physiology, pathology, and treatment of cardiovascular disease including the use of extracorporeal devices. Beckley. Wi Qtr. 5 cl. Prereq: Written permission of instructor.

411 Applied Circulation Technology — Renal U 5
The presentation of renal physiology, pathology, and treatment of renal disease including the use of extracorporeal devices. Beckley. W Qtr. 5 cl. Prereq: Written permission of instructor.

412 Applied Circulation Technology — In Vitro Lab U 4
The study of various extracorporeal devices and techniques in a controlled in vitro laboratory environment. Beckley. Wi Qtr. 1 6-hr lab, 1 2-hr conf. Prereq: Written permission of instructor.
413 Applied Circulation Technology —
   In Vivo Lab U 4
The study of various extracorporeal devices and techniques in a controlled in vivo laboratory environment. Beckley.
Wi Qtr. 1-6 hr lab, 1-2 hr conf. Prereq: Written permission of instructor.

420 Circulatory Technology instrumentation U 5
The application of mechanical and electronic principles to the instrumentation unique to circulation technology with emphasis on design and selection of equipment. Davis and Kray.
Wi Qtr. 3 cl, 2-3 hr labs. Prereq: Written permission of instructor.

550 Research Methodology U 7
Lectures and demonstrations relating circulation technology to research methodology with emphasis on new developments in this area. Davis.
Sp Qtr. 5 hr cl. Prereq: 420 or permission of instructor; concur 551.

551 Research Methodology Laboratory U 8
Application of circulation technology methods to the solution of research problems. Kray.
Sp Qtr. 5 4-hr clinical experiences. Prereq: 420 or permission of instructor; concur 550.

560 Life Support Systems U 3
Topics of current interest in clinical dialysis with laboratories dealing with techniques and procedures not available or different from those seen clinically. Bennett.
Su, Au Qtrs. 1 2-hr cl, 1 2-hr lab. Prereq: 410 and 420, or written permission of instructor; concur 561.

561 Life Support Systems Clinical Experience U 5
Clinical experience in the application of circulation technology methods to dialysis and other support systems. Bennett.
Su, Au Qtrs. 10 hrs clinical experience per wk. Prereq: 410 and 420, or permission of instructor; concur 560.

570 Surgical Support Systems U 7
Lectures and demonstrations relating circulation technology to the clinical use of extracorporeal circulation devices and monitoring instrumentation in surgery. Beckley.
Wi, Sp Qtrs. 5 2-hr cl. Prereq: 410 and 420, or permission of instructor; concur 571.

571 Surgical Support Systems Clinical Experience U 8
Wi, Sp Qtrs. 20 hrs clinical experience per wk. Prereq: 410 and 420, or permission of instructor; concur 570.

580 Cardiovascular Diagnostic Procedures U 5
Lectures, demonstration, and clinical experience relating to the use of cardiovascular diagnostic instrumentation and the evaluation of patient data. Bennett.
Su, Au Qtrs. 1 3-hr cl, 1 3-hr lab. Prereq: 550, 551, and permission of instructor.

590 Acid Base Physiology U 2
Review and use of the fundamentals of acid base physiology to understand clinical acid base disturbances. Beckley.
Sp Qtr. 2 cl. Prereq: Phys 211 and 910 and written permission of instructor.

593 Individual Studies in Circulation Technology U 1-5
Clinical, laboratory, or research experiences by individual arrangement for qualified students.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

595 Seminar in Circulation Technology U 1
Conferences, group discussions and presentations of selected topics.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Written permission of instructor. Repeatable to a maximum of 6 cr hrs.

City and Regional Planning

289 Brown Hall, 190 West 17th Avenue, 422-8046

240 New Town Planning in Frontier America: 1565-1848 U 5
A survey of new town planning from St. Augustine, Florida, (1565) to Salt Lake City (1848). Gerikens.
Au Qtr. 5 cl. Complements 642, 643; History 588; and Comp St 239.

310 Introduction to City and Regional Planning U 4
Introduction to fundamental concepts, including physical planning, transportation, housing, land use, urban development, and preservation.
Au, Wi, Sp Qtrs. 4 cl.

320 Planning for Housing U 4
An introduction to the American housing system, evolution of housing programs, and selected topics in planning for housing in urban and regional contexts.
Au, Sp Qtrs. 4 cl.

330 Planning and Urban Design U 4
Introduction to the use of concepts related to urban design and to the planning process.
Wi Qtr. 4 cl.

340 Planning the Utopian City U 3
Introduction to utopian city planning: 18th- and 19th-century models and their practical impacts (Ebenzer Howard, Frank Lloyd Wright, Le Corbusier, and others). Gerikens.
Au Qtr. 3 cl. Complements 642, 643; and Comp St 239.

394 Group Studies U 1-5
Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

450 Planning of Human Settlements in an Urbanizing World U 5
Planning response to priority human settlement problem; emphasis on developing countries; policies and plans aimed at improving balance between rural and urban development; improvement of housing and infrastructure.
Sp Qtr. 5 cl.

642 History of City Planning to 1900 A.D. U G 4
Evolution of concepts of planned urban form and structure from the earliest time to 1900 A.D.; complements 643.
Wi Qtr. 3 cl. Not open to students with credit for 301 or 742.

643 American City Planning since 1900 A.D. U G 4
Introduction to current American city planning principles and urban form through historic evolution of urban problems and related urban planning systems since 1900; complements 642. Gerikens.
Au, Sp Qtr. 2 cl, 1 lab hr. Not open to students with credit for 300 or 743 or 811.

694 Group Studies U G 1-5
Arr. Prereq: Written permission of dept chairman. Repeatable to a maximum of 10 cr hrs.
701 Introduction to Urban Planning Practice U G 3
Review of urban planning as practiced by local governments today, including plan-making and plan-implementation phases.
Au Qtr. 3 cl.

702 Urban Planning Graphics U G 2
Rudiments of graphic techniques employed most frequently in practice: basic drafting, pinning processes, report preparation, and related subjects.
Wi Qtr. 1 cl, 2 lab hrs. Prereq: Grad standing in C & R plan or permission of instructor.

710 Introduction to Urban and Regional Planning for Open Space, Recreation, and Conservation U G 3
Review of leisure and recreational activities with associated design criteria, definition of the need for open space, and exploration of workable programs for its preservation and development.
Au Qtr. 2 cl.

712 Theory of City and Regional Planning U G 4
Planning processes; the general plan; formulating goals; land development policies and decisions; alternative urban and regional forms; role and scope of planning.
Sp Qtr. 4 cl. Not open to students with credit for 812.

720 Introduction to Analysis of Energy Factors in City and Regional Planning U G 3
Covers the resource, technological, environmental, economic, and institutional dimensions related to fossil, natural gas, electricity, solar, geothermics, environmental impacts, and energy conservation in cities.
Wi Qtr. 2 cl.

Mathematical models in coal, electricity, energy storage and curtailment, solar energy, energy/environment interactions, and comprehensive urban and regional energy planning.
Au Qtr. 2 cl. Prereq: 770.

722 Introduction to Analysis and Use of Environmental Factors in City and Regional Planning U G 3
Introduction to the application and utilization of environmental considerations in the formulation of land use policy and development plans.
Au Qtr. 2 cl. Prereq: 846 or permission of instructor.

731 Outlines of Urban Design U G 3
Urban design as an area of specialization in urban planning; theories and processes in urban design; evaluation of criteria.
Sp Qtr. 3 cl.

732 Urban Planning and Urban Form: Psychological Functions U G 3
Urban planning for the organization and character of the physical environment as significant variables in psychological processes basic to effective individual functioning; emphasis on implications for urban design.
Au Qtr. 3 cl.

733 Urban Planning and Urban Form: Social Functions U G 3
Urban planning for the organization and character of the physical environment as significant variables in social processes basic to effective individual functioning; emphasis on implications for urban design.
Wi Qtr. 3 cl.

734 Research and Analytic Methods for Urban Designers U G 3
Use of research and analytic methods in assisting the urban designer in problem formulation, search, prediction, evaluation, and choice.
Sp Qtr. 2 cl.

735 Programming Environments for Human Use U G 3
Introduction to user-oriented environment programming for planners and designers; application of several methods for specifying the characteristics required of an environmental setting to support user behavior.
Sp Qtr.

745 Physical Elements of Urban Development U G 5
Physical components of urban areas: residential, commercial, industrial, pedestrian, and vehicular circulation; other community facilities; analysis of design criteria and standards.
Au Qtr. 3 cl, 3 lab hrs. Not open to students with credit for 845.

746 Managing the Urban Spatial Environment: Regulatory Techniques U G 3
Physical planning, environmental and urban design policy design and implementation in central city and suburban settings; emphasis on innovative regulatory approaches.
Wi Qtr. 2 cl.

747 Managing the Spatial Environment: The Metropolitan Region U G 3
Physical planning, environmental and urban design policy design and implementation; effects of key processes on metropolitan regional landscapes; emphasis on U.S. experience.
Sp Qtr. 2 cl.

752 Urban Planning for Housing U G 3
Introduction to urban planning issues related to housing with regard to urban structure, markets, reform, suburbanization, new towns, urban renewal, and rehabilitation.
Au Qtr. 3 cl.

753 Outlines of Regional Planning U G 3
State, national, and regional planning; components of regional development; regional analysis and design.
Au Qtr. 3 cl. Not open to students with credit for 813.

755 State Planning of Regional Growth and Development U G 3
Rationale for state intervention in regional economics, growth centers and neoclassical models, development planning in foreign countries; comparison and evaluation of models and evidence.
Wi Qtr. 3 cl. Prereq: 753 or equiv with written permission of instructor. Not open to students with credit for 820.

761 Land-Use Controls U G 4
Legal basis of land-use controls in the United States, provisions, procedures and issues in zoning, subdivision regulation, urban renewal, building and housing codes, and acquisition of real property for public use.
Wi Qtr. 3 cl. Not open to students with credit for 861.

762 Urban Planning Data and Forecasting U G 5
Sources of information, data handling, forecasting, and basic studies in urban planning.
Sp Qtr. 3 cl, 6 lab hrs. Prereq: 770 or permission of instructor. Not open to students with credit for 832.

763 Consequence Analysis in Urban Planning U G 4
Urban planning studies using cost-benefit, cost-effectiveness, systems analysis, and PPBS approaches.
Au Qtr. 2 cl, 2 lab hrs. Prereq: 770 or permission of instructor.

764 City Planning Administration U G 4
Administration of official urban planning agencies; zoning administration; subdivision review practices; capital improvement programming; budget and work program preparation.
Au Qtr. 4 cl. Not open to students with credit for 862.
765 Social Policy Law U G 4
Studies of law and social policy; topics vary.
Sp Qtr. 4 cl. Not open to students with credit for 865.

766 Environmental Planning Law U G 4
The interaction between law and environmental planning and protection.
Au Qtr. 4 cl. Prereq: 761 or arr. with written permission of instructor. Not open to students with credit for 866.

767 Urban Issues and the Professional Planner U G 3
Examination of alternative conceptions of the urban problems of American society; implications of each conception for the urban planning profession.
Sp Qtr. 3 cl. Not open to students with credit for 867.

770 Introduction to Quantitative Methods in Urban Planning U G 4
Introduction of mathematical models in urban planning, descriptive statistics, probability, decision theory, and use of digital computer.
Au, Wi Qtr. 4 cl. Prereq: Permission of instructor.

771 Applications of Quantitative Methods in Urban Planning U G 4
Applications of statistical analysis in urban planning, hypothesis testing and parameter estimation methods, computer analysis of urban planning data.
Sp Qtr. 4 cl. Prereq: 770.

773 Urban Transportation Planning U G 4
Discussion and examples of urban transportation planning processes, emphasizing quick-response models of locational and travel behavior, development and evaluation of alternatives, policies, and citizen reaction and participation.
Au Qtr. 3 cl. 1 hr. lab. Prereq: Civil En 670 or equiv with written permission of instructor or grad standing in CAR plan. Not open to students with credit for Civil En 775. Cross-listed in Civil Engineering.

778 Transportation System Management U G 3
Description and evaluation of alternative transportation means; how to make better use of existing transportation facilities, consideration of both supply and demand; covers all modes of travel.
Wi Qtr. 2 cl. Prereq: 775 or permission of instructor.

780 Workshop in Urban and Regional Planning Techniques U G 3-5
Techniques in the urban and regional planning process: spatial distribution and management of population and economic growth in the city and the region, stressing the applied aspects of the techniques as used in the profession.
Au, Sp Qtr. Prereq: 770 or permission of instructor.

781 Spatial Models in Urban Planning U G 4
Urban planning applications of theories of spatial equilibrium and rent theory, impacts on spatial distribution of zoning, property taxation, and infrastructural investment.
Wi Qtr. 4 cl. Not open to students with credit for 880.

782 Urban Planning for Public Services and Facilities: Metropolitan Expansions and New Towns U G 3
Urban planning for public services and facilities; public policy issues of investment in, and the economics of, new towns and municipal expansion.
Au Qtr. 3 cl. Prereq: 781. Not open to students with credit for 881.

783 Municipal Functions in City and Regional Planning U G 4
Municipal functions as tools and constraints in city and regional planning efforts during periods of growth and decay.
Au Qtr. Not open to students with credit for 883.

783 Individual Studies in Urban Planning U G 1-5
Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 hrs. This course is graded S/U.

794 Group Studies in Urban Planning U G 1-5
Su, Au, Wi, Sp Qtr. Repeatable to a maximum of 20 or hrs.

815 Case Studies in Urban Planning for Housing G 4
Review of empirical studies in urban planning for housing including aspects of density, spatial production, housing services, and price formation.
Wi Qtr. 2 cl. 2 lab hrs. Prereq: 752 or permission of instructor.

816 Seminar in Urban Planning for Housing G 3
Presentation and discussion of research related to Urban planning for housing, including theoretical studies, modeling, simulation, and statistical testing.
Sp Qtr. 3 cl. Prereq: 752 or permission of instructor.

821 Regional Planning Studio G 5
Application of economic and environmental analysis to regional development projects.
Sp Qtr. 2 cl. 3 lab hrs. Prereq: 753 or 755 or permission of instructor. Repeatable to a maximum of 18 or hrs.

834 Decision Analysis in Urban Planning G 3
Application of decision theory and analysis to case studies in urban planning.
Sp Qtr. 3 cl. Prereq: 770.

835 Land Use, Environmental Quality, and Regional Analysis G 4
Introduction of land use and environmental models as tools in the planning process and as techniques for improving the quality of physical development plans.
Sp Qtr. Prereq: 770 or equiv or permission of instructor.

851 Urban Precinct Planning G 5
Preparation of detailed physical development plans for a small section of a city.
Au Qtr. 3 cl. 6 lab hrs. Prereq: 745 or 762 or permission of instructor.

852 Urban Project and Policy Planning G 5
Identification of options among planning policies and projects; development of analyses to aid in making choices between options in urban development.
Wi, Sp Qtr. 2 cl. 9 lab hrs. Prereq: 745 or 782.

853 The Urban General Plan G 5
Current practice in preparation of the urban general plan; laboratory exercise in the preparation of a general plan for an urban community.
Wi Qtr. 3 cl. 8 lab hrs. Prereq: 745, 782, and 781 or permission of instructor.

864 Urban Planning Theory Seminar G 4
Review of contemporary urban planning programs; analyses of objectives and strategies.
Wi Qtr. 4 cl. Prereq: 754.

867 Land Use Policy G 4
Law and administration in land use planning programs.
Sp Qtr. Prereq: 751 or permission of instructor.

870 Workshop in Quantitative Methods in Urban Planning G 3
Workshop application of quantitative planning methods to an urban or regional planning problem.
Au, Wi, Sp Qtr. 1 cl. 3 lab hrs. Prereq: 770 or permission of instructor. Repeatable to a maximum of 9 or hrs.
Civil Engineering

N470 Hitchcock Hall, 2070 Neil Avenue, 422-2771

202 Surveying for Civil Engineers U 4
An introduction to surveying theory for engineering practice.
Au, Sp Qtrs. 3 cl. 1 3-hr lab. Prereq: Math 152 and a minimum cumulative point-hour ratio of 2.0. Not open to students with credit for Good Sci 202. Cross-listed in Geodetic Science.

294 Group Studies in Civil Engineering U 1-5
Special topics in civil engineering; the particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course will be offered.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 cr hrs.

405 Observational Analysis U 4
Theory and application of observational analysis. Sandhu and Wu.
Wi, Sp Qtrs. 4 cl. Prereq: Math 254 and a minimum cumulative point-hour ratio of 2.0.

406 Fundamentals of Civil Engineering Analysis U 4
Application of numerical methods to problems in civil engineering. Chen and Sandhu.
Au, Sp Qtrs. 4 cl. Prereq: En Grph 200, Math 254, and a minimum cumulative point-hour ratio of 2.0.

410 Environmental Pollution and Control U 3
Environmental pollution: the causes and control of air, water, and land pollution in relation to their effects on health, aesthetics, economics, and ecology. Ruben.
Wi Qtr. 3 cl. Prereq: Chem 101 or equiv with written permission of instructor. Not open to civil en majors or students with credit for 714.

413 Fluid Mechanics U 4
Fluid properties; fluid statics; flow concepts; continuity, energy, and momentum equations; dimensional analysis and dynamic similarity; viscous effects; drag; basic pipe flow; lab demonstrations and experiments. Bedford and Ricas.
Au, Sp Qtrs. 3 cl. 1 3-hr lab. Prereq: Eng Mech 410 and a minimum cumulative point-hour ratio of 2.0.

431 Structural Engineering Principles U 3
Structural forms, analysis of statically determinate structures, approximate analysis of indeterminate structures, and moving loads.
Au, Wi Qtrs. 3 cl. Prereq: Eng Mech 420 and a minimum cumulative point-hour ratio of 2.0.

451 Civil Engineering Materials U 4
Composition and structure of civil engineering materials; chlorides, plastic, and viscous behavior under various environmental and loading conditions. Majidzadeh.
Au, Sp Qtrs. 3 cl. 1 3-hr lab. Prereq: Eng Mech 210, prereq or concour Eng Mech 420, and a minimum cumulative point-hour ratio of 2.0.

460 Professional Aspects of Civil Engineering U 1
Structure of the civil engineering profession; interaction of civil engineers with the education process, their clients, other professions, and the public.
Wi, Sp Qtrs. 1 cl. Prereq: Civil En 3rd yr standing. This course is graded S/U.

470 Transportation Engineering U 4
Objectives and functions of transportation; interaction between land use and travel patterns; service characteristics of transportation modes; selected design topics.
Au, Wi Qtrs. 3 cl. 1 3-hr lab. Prereq: 425, En Grph 200, and Eng Mech 410.

489 Professional Practice U 2
Actual employment in a co-op program job and the preparation of a comprehensive report based on a pre-arranged outline and a pre-assigned topic.
Su, Au, Wi, Sp Qtrs. Prereq: Admission to co-op program in civil en. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.

510 Principles of Hydraulics U G 3
Fluid properties; hydrostatics; flow concepts; continuity, energy, and momentum equations and applications; flow measurements, pipe and channel flow. Ricas.
Au, Sp Qtrs. 3 cl. Prereq: Math 151 and Physics 111 or 131. Not open to students with credit for 413. Majority of course will be conducted using self-paced programmed instruction manual.

516 Water Resources Engineering U G 4
Pipe systems, introduction to open channel flow, basic hydrology, demographic studies, water supply, and wastewater flows. Steitel and Sykes.
Au, Wi Qtrs. 4 cl. Prereq: 405, 413, and En Grph 200.

519 Applied Hydraulics U G 3
Experimental and design laboratory for water supply collection, transmission, distribution and measurement systems, sewage and storm water collection, and disposal and measurement systems. Steitel.
Sp Qtr. 2 cl. 1 3-hr lab. Prereq: 516.

520 Design of Treatment Facilities U G 4
Selection and design of processes for the purification of drinking water and the treatment of waste waters. Sykes.
Wi, Sp Qtrs. 4 cl. Prereq: 413 and Chem 122 or 204.

531 Structural Analysis U G 4
Deflections in trusses, beams, and frames; solution of indeterminate structures by methods of consistent deformations, and moment distribution.
Au Qtr. 4 cl. Prereq: 431 or 530.

532 Structural Steel Design U G 4
Design of steel structures.
Au, Sp Qtrs. 3 cl. 1 3-hr lab. Prereq: 431 and Eng Mech 420 or equiv.

533 Timber Engineering U G 4
Basic properties of and design practice for timber when used as a construction material in engineering structures. Smith.
Au Qtr. 4 cl. Prereq: 532 or 534 or 535. Not open to students with credit for 732.
534 Behavior of Structural Elements U G 4
Mechanics of beams, shear center, unsymmetrical bending, columns, plastic bending, limit loads, properties of structural metals, proportioning beams for fatigue. Sp Qtr. 3 cl. 1.5 hr lab. Preq: 431.

535 Basic Reinforced Concrete Design U G 4

540 Civil Engineering Systems U G 4
Basic concepts and methods of systems engineering and applications to civil engineering problems in transportation and water resources planning, structural design, and construction management. Whittaker. Au, Wi Qtr. 4 cl. Preq: 405 and 406.

551 Elementary Soil Mechanics U G 4
Basic and engineering soil properties; fluid flow through soils; compaction, effective stress, and compression. Au Qtr. 3 cl. 1-3 hr lab. Preq: or concur: Eng Mech 420. Not open to students majoring in civil en.

552 Construction Materials U G 4
Composition, properties, and production of portland cement concrete, bituminous materials, and bituminous mixtures. Majatzadah. Wi Qtr. 3 cl. 1-3 hr lab. Preq: 451.

554 Geotechnical Engineering U G 4

576 Civil Engineering Economics and Planning U G 4
Engineering economics and theories of planning applied to private and public civil works. Wi, Sp Qtr. 4 cl. Preq: 470.

603 Remote Sensing of Environment U G 4
The energies of the natural and cultural environment; current remote sensing systems and case histories of applications in measuring the environment. Wi Qtr. 3 cl. 1-3 hr lab. Preq: 505 or Geo Sci 505 or Survey 414 or equiv with written permission of instructor. Not open to students with credit for Geo Sci 603. Cross-listed in Geodetic Science.

604 Terrain Analysis U G 4
Principles and applications of photo pattern analysis, geologic and geomorphologic patterns, terrain studies, and land use suitability and capability mapping. Au Qtr. 3 cl. 1-3 hr lab. Preq: 505 or Geo Sci 505 or Survey 414, and Geo&Mn 101. Not open to students with credit for Geo Sci 604. Cross-listed in Geodetic Science.

605 Photo-Interpretation for Terrain Analysis U G 5
The use of photo-interpretation techniques in defining the natural and cultural characteristics of the terrain for site planning. Au Qtr. 3 cl. 2-3 hr lab. One day field trip. Preq: Geo&Mn 101, and 3rd yr standing. Not open to students majoring in civil en.

606 Quantitative Remote Sensing U G 4
An introduction to computer processing of digital image data from Landsat satellites; emphasis on concepts, techniques, and statistics important to numerical analysis. Wi Qtr. 3 cl. 1-3 hr lab. Preq: 405 or equiv, 603 or 604 or 606, and En Graph 200 or equiv.

610 Analysis of Natural and Polluted Waters U G 4
A laboratory study of the measurement and interpretation of water quality indices, and pollution parameters including BOD, COD, alkalinity, nutrients, pH, and heavy metals. Ruble. Au Qtr. 3 cl. 1-3 hr lab. Preq: Chem 205 and Math 152 or equiv.

613 Applied Hydrology U G 4
Hydrologic cycle, meteorology, streamflow, evapotranspiration, hydrographs, runoff relations, runoff hydrographs, groundwater, unit hydrographs, flood routing, frequency and duration studies, and application of hydrologic techniques. Rice. Au Qtr. 4 cl. Preq: 510 or 516.

624 Coastal and Ocean Engineering U G 4
Linear and nonlinear waves, water level and wave forecasting, forces on fixed structures: breakwaters, littoral drift and transport, shoreline protection. Bodoff. Wi Qtr. 4 cl. Preq: 516.

651 Soil Mechanics U G 4
Stress distribution; shear phenomena, lateral earth pressure, settlement, and soil stability. Moore. Au Qtr. 3 cl. 1-3 hr lab. Preq: 554.

653 Principles of Rock Mechanics U G 4
Engineering properties of rock and their measurement; in-situ stresses; analysis of rock slopes, tunnels, underground openings, and foundations. Wi Qtr. 3 cl. 1 lab. Preq: 554. Not open to students with credit for Min Engr 653.

670 Urban Public Transportation U G 4
Planning, analysis, and operation of urban public transportation systems: description and analysis of novel systems. Nemeth. Wi Qtr. 3 cl. 1-2 hr lab. Preq: 576 or equiv with written permission of instructor.

672 Traffic Engineering Studies U G 3
Methods of collecting and analyzing traffic flow data, parking, driver and pedestrian behavior; reduction and evaluation of traffic data for applications in traffic engineering. Treiber. Au Qtr. 2 cl. 1-3 hr lab. Preq: 576 or equiv with written permission of instructor.

673 Highway Location and Design U G 4
Methods of highway route location; design standards for highways, intersections, freeways and interchanges; discussion of computer programs for highway design. Treiber. Wi Qtr. 3 cl. 1-3 hr lab. Preq: 576 or equiv with written permission of instructor.

674 Airport Design and Operation U G 4
Airport configuration, design, and capacity development of the terminal area; operational aspect of air traffic and the terminal area; design and operation of heliports. Treiber. Sp Qtr. 3 cl. 1-3 hr lab. Preq: 576 or equiv with written permission of instructor.

677 Noise, Air Pollution and Safety Aspects of Transportation Systems U G 4
Operational aspects of surface transportation systems; environmental impact of noise and air pollution; traffic accident analysis. Treiber. Au Qtr. 3 cl. 1-3 hr lab. Preq: 576 or equiv with written permission of instructor.

683 Construction Methods and Equipment U G 3
Selection and management of construction equipment in building of highways, dams, airports, bridges, and structures. Au Qtr. 2 cl. 1-3 hr lab. Preq: 576.
684 Management of Engineering Construction U G 4
Planning, scheduling, and supervision of engineering construction projects; use of Critical Path Method, bar charts, and other techniques.
Wi Qtr: 2 cr, 2 2-hr lab. Prereq: 683 and 885.

685 Deterministic Construction Estimating and Pricing U G 4
Generally accepted models and methods of estimating and pricing; identification of causes of underestimating and underprice. Lanen.
Wi Qtr: 2 cr, 2 2-hr labs. Prereq or concur: 683.

686 Construction Contracts U G 3
Formulation of contracts, offer and acceptance, breach, damages; analysis of the engineer’s responsibilities and liabilities determined by the contract documents of a construction contract. 
Au Qtr: 3 cr. Prereq: 683 or permission of instructor.

687 Construction Project Administration U G 4
Identification of administrative duties; collecting, storing and retrieving information; document preparation; presentation of proposed administrative procedures which may minimize completion delays and cost overruns.
Sp Qtr: 3 cr, 1 2-hr lab. Prereq: 683 and 686.

693 Individual Studies U G 3-5
Individual conferences, assigned readings, and reports on minor investigations.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. 
Repeatable to a maximum of 10 or hrs. This course is graded S/U.

694 Group Studies in Civil Engineering U G 3-5
The student must register for particular topics from fields of civil engineering listed below: the topics, or hrs, and instructors will be announced in quarter previous to the quarter offered.
Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. 
Repeatable to a maximum of 10 or hrs, not more than 10 of which shall be in any one of the following fields:
A—Structural Engineering
B—Geotechnical Engineering
C—Sanitary Engineering
D—Highway and Transportation Engineering
E—Remote Sensing and Environmental Surveys
F—Construction
G—Materials
H—Hydraulics and Hydrology

698 Study Tour U 4
Prereq: 3rd or 4th yr standing and written permission of instructor.

713 Water Quality and Environmental Measurements U G 4
The application of advanced physical and chemical measurement and calculation techniques to environmental engineering problems. Rubin.
Wi Qtr: 4 cr. Prereq: 610 or permission of instructor.

714I Environmental Pollution Abatement U G 5
Problems, philosophies, principles, and methods of pollution abatement in the total environment, quantitative approaches to environmental problems in air, water, and land systems.
Wi Qtr: 5 cr. Prereq: Sr or grad majors in engineering or sciences. Not open to students with credit for Agri En 714; Chem En 714; Civil En 518, 520, 714; Mech En 618, 714; or Zoology 618, 714. Cross-listed in Mechanical Engineering and Zoology.

715† Water Resource Systems: Water Quantity U G 4
Optimization and simulation techniques applied to reservoir system sizing and operation for single and multiple-purpose use; ground water and conjunctive use; least cost system design. Whitlatch.
Sp Qtr: 4 cr. Prereq: 519 and 540 or permission of instructor.

717† Industrial and Municipal Solid Waste Disposal U G 4
Characterization and sources of solid wastes; solid waste management; collection systems; processing; disposal; and recycle.
Sp Qtr: 4 cr. Prereq: 518 or 520.

719 Stream Sanitation U G 4
A study of stream quality standards; effluent standards; and the assimilative capacity of natural water bodies. Sykes.
Au Qtr: 4 cr. Prereq: 520 or equiv with written permission of instructor.

Water quality planning and management; point and non-point source wastewater allocation in streams, lakes and estuaries; cost-effectiveness studies; water demand and wastewater quantity projection. Whitlatch.
Wi Qtr: 4 cr. Prereq. 540 or written permission of Instructor.

721 Design of Hydraulic Structures U G 4
Basic engineering economic studies, water laws, design concepts, reservoir engineering, river training, spillways and diversions; hydromachinery. Ricco.
Wi Qtr: 4 cr. Prereq: 516.

722 Open Channel Hydraulics U G 4
Flow classifications, channel properties, energy and momentum principles, critical flow, uniform flow formulas, erodible and nonerodible channel design, and gradually varied flow profile computations. Ricco.
Sp Qtr: 4 cr. Prereq: 516.

723 Transport Phenomena in Water Resources Engineering U G 4
Water environment momentum mass energy transport, laminar and turbulent mixing; applications include river and lake pollutant dispersal, heated effluent plumes, eutrophication processes. Bedford.
Au Qtr: 4 cr. Prereq: 516 and Math 415 or equiv. Not open to students with credit for 614.

731 Intermediate Reinforced Concrete Design U G 4
Analysis and design of reinforced concrete structures. Bishara and Chen.
Wi Qtr: 4 cr. Prereq: 535.

735 Matrix Structural Analysis U G 4
Analysis of skeletal structures by force and displacement methods using matrices. Chen and Sandhu.
Wi Qtr: 4 cr. Prereq: 531 or equiv with written permission of Instructor.

736 Bridge Engineering U G 4
Principles and methods used in design and construction of bridge structures. Bishara.
Wi Qtr: 4 cr. Prereq: 531, 532, and 536; or equiv.

737 Prestressed and Precast Concrete Structures U G 4
Structural analysis and proportioning of prestressed concrete members and precast structural concrete systems. Bishara.
Sp Qtr: 4 cr. Prereq: 535.

738 Plastic Analysis and Design U G 5
Structural behavior in the inelastic range; prediction of collapse loads; structural design according to the plastic methods. O'Keefe.
Wi Qtr: 5 cr. Prereq: 531 and 532.

751 Principles of Foundation Analysis and Design U G 4
Subsurface exploration; shallow foundations; piles and caissons; embankments and excavations.
Wi Qtr: 4 cr. Prereq: 651.
752 Soil Stabilization and Earthwork Design U G 4
Properties of compacted soils; principles of soil stabilization and earthwork design. Moore.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 554.

753 Pavement Design and Materials U G 4
Properties of paving mixtures, cementing binder and mixtures, and principles of pavement design and performance evaluation. Majdzadeh.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 552.

754 Civil Mechanical Properties of Engineering Materials U G 4
Elasticity, plasticity, viscoelasticity, fatigue, and fracture phenomena for civil engineering materials.
Au Qtr. 4 cl, Prereq: 451.

755 Solid Waste as a Construction Material U G 3
Solid waste material characteristics, production and availability; physical-chemical nature; application in soil stabilization, embankment construction, asphaltic pavements, and concrete mixtures. Majdzadeh.
Wi Qtr. 2 cl, 1 3-hr lab. Prereq: 451 and 552 or equiv or written permission of instructor.

760* Planning Civil Engineering Public Investments U G 5
Benefit-cost analysis, environmental and economic impacts of civil engineering projects; case examples in water resources and transportation. Whitton.
Au Qtr. 5 cl, Prereq: 576 or equiv or written permission of instructor.

763 Introduction to the Finite Element Method U G 4
Basic concepts, formulation, and application of finite element techniques for numerical solution of problems in structural and continuum mechanics, geotechnical engineering, and water resources engineering.
Wi Qtr. 4 cl, Prereq: En Graph 200 and Civil En 406 or Math 558 or equiv. Not open to students with credit for 761 or Engr Mech 761 or 763. Cross-listed in Engineering Mechanics.

774 Design and Operation of Road Traffic Facilities U G 5
Traffic laws and ordinances; operational design of streets, intersections, parking and terminal facilities; design and operation of traffic control devices. Trieter.
Wi Qtr. 4 cl, 1 3-hr lab. Prereq: 672.

775 Urban Transportation Planning U G 4
Discussion and examples of urban transportation planning processes, emphasizing quick-response models of locational and travel behavior, development and evaluation of alternatives, policies, and citizen reaction and participation. Au Qtr. 3 cl, 1 3-hr lab. Prereq: 670 or equiv or written permission of instructor or grad standing in C&R plan. Not open to students with credit for C&R Plan 751 or 753. Cross-listed in City and Regional Planning.

782 Analysis and Improvement of Construction Operations U G 3
The analysis and improvement of construction operations.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: 683.

784 Interpersonal Skills in Construction Operations U G 3
Theory and practice of motivation, leadership, human relations, communications, problem solving, performance evaluation, and management styles in construction field and office operations. Larew.
Wi Qtr. 1 cl, 2 2-hr labs. Prereq: Sr or grad standing and one of the following: Bus-Mgt 500 or 680 or 701 or 706.

795 Seminar in Civil Engineering U G 1
Lectures and discussions of current topics related to civil engineering presented by faculty, students, and guest speakers; term paper required. Au, Wi. Sp Ctrl. 1 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs.
A—Structural Engineering
B—Geotechnical Engineering
C—Sanitary Engineering
D—Highway and Transportation Engineering
E—Remote Sensing and Environmental Surveys
F—Construction
G—Materials
H—Hydraulics and Hydrology

796 Interdepartmental Seminar
Urban Transportation U G 1-5
Lectures and discussions by faculty and guest speakers on topics related to urban transportation problems, issues, and new approaches to solutions; term paper required. Clark and Nemeth.
Au, Wi. Sp Ctrl. Prereq: Sr standing or permission of instructor. Repeatable to a maximum of 5 cr hrs. Given cooperatively by Civil Engineering and Industrial and System Engineering.

797 Interdepartmental Seminars U G 1-5
Two or more departments may collaborate in presenting seminars in subjects of mutual interest; topics to be announced. Repeatable by permission.

804 Water Resources Engineering Applications of Remote Sensing G 5
Principles and techniques of remote sensing for acquisition of data in water resources engineering projects and water quality investigations.
Sp Qtr. 3 cl, 2 3-hr labs. Prereq: 719 or 820.

810 Physical Water and Wastewater Treatment Processes G 3
Principles and design of physical processes for water and wastewater treatment including screening, sedimentation, mixing, flotation, and filtration. Steifel.
Au Qtr. 3 cl, Prereq: 518 or 520, prereq or concur 610.

811 Biological Wastewater Treatment Processes G 5
Principles and design of biological processes for wastewater treatment. Sykes.
Wi, Qtr. 4 cl, 1 3-hr lab. Prereq: 810 or equiv or written permission of instructor.

812 Chemical and Advanced Wastewater Treatment Processes G 5
Principles of physical-chemical treatment processes for water and wastewater, including coagulation, solidification, nutrient removal, and disinfection. Rubin.
Sp Qtr. 4 cl, 1 3-hr lab. Prereq: 713 or permission of instructor.

814 Industrial Wastewater Treatment G 3
Principles of industrial wastewater treatment including wastewater surveys; flow reduction, and segregation and equalization; batch and continuous treatment; instrumentation; and treatment processes. Filbet.
Sp Qtr. 3 cl, Prereq: 811, prereq or concur 812.

820 Advanced Hydrology G 5
Advanced analysis of classical concepts; study of new techniques and concepts developing in modern hydrology; written and oral presentations of critical reviews of current literature. Rivas.
Wi Qtr. 5 cr. Prereq: 613 or equiv.
8211*  Sediment Transport and Engineering G 4
Sediment properties, fall velocity, entrainment, resuspension, bed features, meanders, channel roughness, suspended and bed load measurement; sedimentation, reservoirs, channel mechanics, bank protection, stabilization. Bedford.
Sp Qtr. 4 cl. Prereq: 614 or 723.

823  Numerical Models in Water Resources Engineering G 5
Lake, river and coastal contaminant or heat numerical transport model formulation; averaging; finite difference; element methods; errors, stability, data requirements, verification procedures. Bedford.
Wi Qtr. 5 dl. Prereq: 614 or 723 or permission of instructor. Not open to students with credit for 889H.

824* Advanced Coastal Engineering G 4
Coastal turbulent transport processes; flow, shoreline processes; sediment transport; harbor oscillations; resonance, and design; erosion processes and protection strategies; topical problems as required. Bedford.
Sp Qtr. 4 cl. Prereq: 624 and 614 or 723.

831  Advanced Reinforced Concrete G 5
Concrete structural analysis and design; special structural systems and elements. Bishara.
Au Qtr. 5 cl. Prereq: 731 and 737.

833  Concrete Shell Structures G 5
Analysis and design of folded plate, cylindrical shell, axisymmetric and doubly curved shell structures including domes, hyperbolic and elliptical paraboloids.
Sp Qtr. 5 dl. Prereq: 735 and Math 612.

834  Structural Analysis and Design for Dynamic Disturbances G 5
Structural dynamics, principles and practice of dynamic design; numerical and graphical methods. Chen.
Sp Qtr. 5 dl. Prereq: 532, 731, and Eng Mech 410, or equiv; or permission of instructor.

836* Advanced Matrix Analysis of Structures G 5
General force methods of analysis; formulation of non-linear behavior of trusses and frames; solution of non-linear structures; analysis of surface structure; application of finite element methods in structural analysis.
Sp Qtr. 5 dl. Prereq: 735.

837  Advanced Structural Dynamics G 5
Stresses and deflections in structures under dynamic loads; response of large structural systems to earthquake, wind, moving loads; approximate and exact solution techniques. Sandhu.
Au Qtr. 5 cl. Prereq: 834 or Eng Mech 751.

839* Two-Dimensional Problems in Linear Solids G 4
Solution of two-dimensional boundary value problem and initial boundary value problem for linear solids; geometric non-linearities, refined theories; variational principles; approximate and exact solution techniques. Sandhu.
Wi Qtr. 4 dl. Prereq: 855, Eng Mech 740, and Eng Mech 754.

839  Finite Element Method in Engineering Science G 5
Approximation of boundary value and initial value problems; variational methods, hybrid and mixed method; convergence and accuracy of finite element approximations; recent developments, advanced applications.
Sp Qtr. 5 cl. Prereq: 763 or Eng Mech 763 and Math 601 or equiv. Not open to students with credit for Eng Mech 639. Cross-listed in Engineering Mechanics.

850  Seepage in Permeable Materials G 4
Analysis of seepage volume and stresses in connection excavation, dams, wells, slopes, and subsurface drainage; electro-osmosis.
Au Qtr. 4 cl. Prereq: 651.

851  Advanced Soil Properties G 5
Detailed study and analysis of the mechanical properties soils, with applications to foundation behavior. Wu.
Wi Qtr. 3 cl. 6 lab hrs. Prereq: 851.

852  Advanced Civil Engineering Materials G 4
Analysis and design of materials for pavements and other civil engineering projects; properties considered include fracture, fatigue, and physical-chemical composition. Majzdaeh.
Wi Qtr. 3 cl. 1-3 hr lab. Prereq: 753 and 754.

853  Advanced Soil Mechanics G 4
Plastic equilibrium of soil masses; stability of slopes and embankments; bearing capacity of shallow and deep foundations.
Sp Qtr. 4 cl. Prereq: 851.

854* Theoretical Soil Mechanics G 3
Use of mathematical and numerical methods in solution of soil mechanics problems; stress and displacements in soil masses and slopes, earthquake stresses, consolidation and frost penetration. Sandhu and Wu.
Wi Qtr. 3 cl. Prereq: 850 and 851.

856* Soil-Structure Interaction G 4
Interactions between soil and various structures, walls, bulkheads, foundations, and piles.
Sp Qtr. 4 cl. Prereq: 851.

856  Viscoelasticity G 4
Viscoelastic materials and their characteristics, discrete element models, spectral representation, creep and relaxation functions, and dynamics of viscoelastic behavior. Majzdaeh.
Wi Qtr. 4 cl. Prereq: 754 and Math 512.

858* Soil Dynamics G 3
Stress waves in soils and vibration in soil masses; soil behavior under impact and repeated loading; design problems including vibrating foundations, blast pressures, and seismic stability. Wu.
Au Qtr. 3 cl. Prereq: 851 and Eng Mech 731, or permission of instructor.

872  Area Traffic Control G 5
Traffic surveys and data needs; applications of statistical methods to develop models of ownership, trip generation, vehicle occupancy and modal choice; disaggregate models.
Wi Qtr. 4 cl. 1-3 hr lab. Prereq: 775 and Stat 525 or equiv with written permission of instructor.

873  Urban Transportation Demand Forecasting G 5
Travel surveys and data needs; applications of statistical methods to develop models of ownership, trip generation, vehicle occupancy and modal choice; disaggregate models.
Wi Qtr. 4 cl. 1-3 hr lab. Prereq: 775 and Stat 525 or equiv with written permission of instructor.

874  Urban Transportation Network Analysis G 5
Network representation methods; minimum-path trees; traffic assignment algorithms and their performance; trip distribution models; new directions.
Sp Qtr. 4 cl. 1-2 hr lab. Prereq: 775 and Stat 525 or equiv with written permission of instructor. Not open to students with credit for Ind Eng 614. Cross-listed in Industrial Engineering.

876  Comparisons of Transport Technologies G 3
Critical analysis of methods for comparing technological alternatives in urban transportation; development of alternative transportation plans; synthesis of evaluation techniques.
Sp Qtr. 3 cl. Prereq: 670 and 671.
882 Stochastic Construction
Estimating and Pricing  G 4
New models and methods of estimating and pricing; the
examination of data from contracting companies; the utility of
percentile distributions, skewness and kurtosis demonstrations.
LAnew.
Wl Qtr. 2 cl. 2 hr lab. Prereq: 685 and Stat 520 or equiv
with written permission of instructor.

896 Advanced Civil Engineering  G 3-5
Opportunity for advanced students to pursue advanced study;
work undertaken may be elected in the fields of civil
engineering listed below.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept chairman.
Repeatable to a maximum of 20 or hrs with not more than 10
in any one of the fields listed below.
A—Structural Engineering
B—Geotechnical Engineering
C—Sanitary Engineering
D—Highway and Transportation Engineering
E—Remote Sensing and Environmental Surveys
F—Construction
G—Materiavs
H—Hydraulics and Hydrology
Specified advanced study areas currently available include:
I—Application of Ecological Theory to Sanitary Engineering
J—Physical-Chemical Principles of Soil Mechanics

894 Group Studies in Civil Engineering  G 3-5
Advanced topics in the various fields of civil engineering; the
particular topics, the number of credit hours, and the instructor
will be announced in the quarter previous to the one in which
the course is offered.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor.
Repeatable to a maximum of 15 or hrs with not more than 10
in any one field of civil engineering.

899 Interdepartmental Seminar  G 1-5
See Interdepartmental Seminars

900 Civil Engineering Practicum  G 1-5
Supervised field experience in civil engineering; analysis and
critique of field experience.
Su, Au, Wi, Sp Qtrs. Prior approval of civil en grad committee
required.

999 Research in Civil Engineering  G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Classics

414 University Hall, 230 North Oval Mall, 422-2744
See also Greek, Latin, and Medieval and
Renaissance Studies.

101 Masterpieces of Greek Literature in
Translation  U 5
Introductory survey of the Greek achievement in literature and its
contribution to Western thought; selected readings in
English translation in major authors from Homer through the
Hellenistic age.
Au, Sp Qtrs. 6 cl. Not open to students with credit for 220.
BER/LAC/LAR course.

102 Masterpieces of Latin Literature in
Translation  U 5
Introductory survey of Roman literature and its importance in the
Western literary tradition; selected readings in English
translation in major authors, including Plautus, Vergil, and
Ovid.
Su, Wi Qtrs. 5 cl. Not open to students with credit for 221.
BER/LAC/LAR course.

150 Latin and Greek Elements in English
Vocabulary  U 3
Study of the flow of Latin and Greek elements into English
vocabulary and of the processes of word formation using
these elements.
W1 Qtr. 3 cl.

210 Classical Background
of Scientific Terminology  U 3
Study of technical and scientific terms from Greek and Latin
sources: roots, word elements, word formation, analysis;
helpful in medical, biological, and kindred studies.
Su, Au, Wi, Sp Qtrs.

222 Classical Mythology  U 5
Origins and attributes of the Greek and Roman gods and
goddesses, their mythology and its influence on Western
culture.
Au, Wi, Sp Qtrs. 5 cl. H222 (honors) may be available to
students enrolled in an honors program or by permission of
department. H222 requires English 110 or 111 or equiv.
Not open to students with credit for H122. H222 fulfills in part the ASC
Advanced English composition requirement. BER/LAC/LAR course.

224 Classical Civilization: Greece  U 5
A survey of ancient Greek civilization, concentrating upon
important facets of literature, history, art, and archaeology.
Au Qtr. 5 cl. H224 (honors) may be available to students
enrolled in an honors program or by permission of department. H224
requires English 110 or 111 or equiv. Not open to students with
credit for H124. H224 fulfills in part the ASC Advanced
English composition requirement. BER/LAC/LAR course.

225 Classical Civilization: Rome  U 5
A survey of the civilization of ancient Rome, concentrating
upon important facets of literature, history, art, and
archaeology.
W1 Qtr. 5 cl. H225 (honors) may be available to students
enrolled in an honors program or by permission of department. H225
requires English 110 or 111 or equiv. Not open to students with
credit for H125. H225 fulfills in part the ASC Advanced
English composition requirement. BER/LAC/LAR course.

284 Group Studies  U 1-5
Topics in classical studies.
H284 (honors) may be available to students enrolled in an
honors program or by permission of department. H284
requires English 110 or 111 or equiv. Not open to students with
credit for H1284. H284 fulfills in part the ASC Advanced
English composition requirement. BER/LAC/LAR course.

301* Greek and Roman Epic  U 5
Study of Greek and Roman epic based on extensive readings
in English translation.
5 cl. Not open to students with credit for 503. BER/LAC/LAR course.

302* Greek and Roman Drama  U 5
Study of Greek and Roman drama based on extensive
readings in English translation.
Sp Qtr. 5 cl. Not open to students with credit for 501. BER/LAC/LAR course.

303* Comic Spirit in Antiquity  U 5
Study of the comic literature of the Graeco-Roman world based
on extensive readings in English translation drawn from epic,
drama, satire, and the novel.
5 cl. Not open to students with credit for 503. BER/LAC/LAR course.

322 The Hero in Classical Mythology  U 5
The development and interpretation of the major cycles of
classical saga based on extensive readings in Greek and
Roman epic and drama.
Sp Qtr. 5 cl. Prereq: 222. Not open to students with credit for
223.

323* Religion in the
Graeco-Roman World  U 5
Study of Greek and Roman religious movements including the
beginnings of Christianity; readings in English translation of the
major primary texts.
W1 Qtr. 5 cl. Not open to students with credit for 504.
Political Thought and Institutions in the Greco-Roman World U G S
Selected topics concerning the development of ancient political theory.
Su Qtr. 5 cl.

Greek and Roman Science and Technology U G S
The origins and achievements of Greek and Roman science and technology.
5 cl.

Roman Law through the Reign of Justinian U G S
Studies in the origins and development of Roman Law based on original sources in translation.
Sp Qtr. 5 cl.

Women in Greece and Rome U G S
Roles of women in ancient society, literature, and art.
5 cl.

Workshop U G 1-6
Su Qtr. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

Group Studies U G 1-5
Investigation of particular problems in various areas of classical studies.
Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

Study Tour U G 5-15
Intensive instruction in the civilizations of ancient Greece or ancient Rome followed by travel to the appropriate parts of the Greek or Roman world; visits to major museums and archaeological sites and daily formal instruction.
Sp Qtr. Prereq: Permission of instructor. Travel and subsistence costs for the study tour will be borne by the student.

Senior Tutorial and Essay U 5
Individual work leading to the writing of a final paper that will integrate the experience of earlier courses in classics.
Su, Au, Wi, Sp Qtrs. Open only to srs majoring in classics.

Honors Course U 3-6
A program of study arranged for each student, with individual conferences, reports, and an honors thesis.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: 4th yr standing with a grade of A in at least half of the classics courses taken and with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 10 cr hrs. This course is graded SU/U.

Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest.
Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 15 cr hrs with permission of dept.

Materials and Methods of Research G 3
The materials, problems, and methods of classical research.
Wi Qtr. 3 cl. Required of all grad students.

Materials and Methods of College Teaching of Classics G 5
Methods and techniques for teaching Latin, Greek, and courses in classical subjects at the college level.
Au Qtr. Two wks intensive workshop previous to the beginning of qtr followed by a 2-hr wkly cl. This course is graded SU/U.

Linguistic Studies in Greek and Latin G 5
Topics may include Greek dialects, Italic dialects, or comparative grammar of Greek and Latin.
2 2-hr cl. Repeatable to a maximum of 15 cr hrs.

Studies in Greek or Latin Epigraphy G 5
2 2-hr cl. Repeatable to a maximum of 10 cr hrs.

Studies in Greek or Latin Paleography and Textual Criticism G 5
A study of Greek or Latin handwriting in ancient documents and later manuscripts and the principles of textual criticism.
2 2-hr cl. Repeatable to a maximum of 10 cr hrs.

Studies in Greek or Roman Topography G 5
The topography and archaeology of ancient Athens, Rome or other sites important to Greco-Roman literature and civilization.
Wi Qtr. 2 2-hr cl. Repeatable to a maximum of 10 cr hrs.

Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

Communication
205 Derby Hall, 154 North Oval Mall, 422-3400
See Speech and Hearing Science.

Communication of Ideas and Attitudes U 5
Analysis, formulation, organization, development, and delivery of ideas and attitudes for speaking with an audience.
Au, Wi, Sp Qtrs. 5 cl. VPA Admis Cond course.

Small Group Communication U 5
Designed to help the student develop the skills necessary for effective communication in the small group by providing task related group activities.
Au, Wi, Sp Qtrs. 5 cl. VPA Admis Cond course.

Mass Media Environment U 3
The process of mass communication; the effects of mass media on society and the structures society imposes on the media.
Au, Wi, Sp Qtrs. 3 cl. SS Admis Cond course.

Communication Co-Curricular Activities U 1-5
Participation in specialized activities.
Au, Wi, Sp Qtrs. Each category repeatable to a maximum of 6 cr hrs. Prereq: Written permission of instructor. This course is graded S/U.

Communication Theories and Models U 3
Communication model characteristics; structure and function, general principles; basic processes and major types of activities; receivers and effects; motivations, value systems, and norms. Sills.
Au, Wi, Sp Qtrs. 3 cl. BERULAC/CLAR course.

Introduction to Telecommunication Production U 3
Asses and liabilities of the telecommunication media; basic principles, procedures, techniques, and costs involved in telecommunications production.
Au, Wi, Sp Qtrs. 3 cl. Not open to students with credit for 229.
213 Rhetoric of Western Thought U 5
Rhetorical theorists as they reflected and affected society from Greece to modern times; relations to logic, ethics and politics; the classical tradition versus sophistical concepts. Berquist and Golden.
Au, Wi, Sp Qtrs. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BERL/LAC course.

219† Elements of Telecommunication U 4
Introduction to the evolution and operation of the telecommunication media; the structures of media programming; basic processes of the media. Foley.
Au, Wi Qtrs. 4 cl. Prereq: Communic major or permission of instructor.

220 Mass Communication Processes and Effects U 4
History and current issues of mass communication theory and research; analysis of media organizations; audience uses and gratifications; media effects on individuals and society. Dinnick.
Au, Sp Qtrs. 4 cl.

221 Fundamentals of Oral Interpretation U 5
Introductory course to develop understanding and appreciation of literature through the oral re-creation of literary materials and critical listening. Brooks.
Au, Wi, Sp Qtrs. 5 cl.

225 Persuasive Communication U 5
Analysis of persuasive communication as a form of social influence in interpersonal and mass audience contexts. Cigalis.
Au, Wi Qtrs. 5 cl. H225 (honors) may be available to students enrolled in an honors program or by permission of dept. BERL/LAC course.

303 Introduction to Business Speaking U 3
Application of theory and practice of extemporaneous speaking to business communication, involving information exchange, problem-solving, and opinion influence.
Au, Wi, Sp Qtrs. 3 cl. Prereq: ADM soph standing.

305 Argumentation and Debate U 5
Principles of reasoned discourse and their application to controversial issues. Makau.
Au, Sp Qtrs. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

313 Public Communication in the Age of Television U 5
The use of the television medium by political, religious, and occasional advocates with emphasis upon the development of critical standards for viewers. Berquist.
Sp Qtr. 3 cl. 2 hrs arr. Prereq: 213 or 217 or 397 or jr standing.

315 Interpersonal Communication U 5
Analysis of dimensions and relationships in interpersonal communication, especially needs, perceptions, orientations, contexts, and barriers; exercises, demonstrations, and applications to students' own experiences. Douglas.
Au, Wi Qtrs. 5 cl.

325 Communication and Society U 3
Communications and the role of government, pressure groups, and other segments of society; the impact of communications on individual and collective behavior. Monaghan.
Au, Wi Qtrs. 3 cl.

330† Rhetoric of Black Americans U 3
Examination of the rhetoric of black Americans in connection with such strategies as assimilation, separation, and revolution, to establish a role or identity in American society. Hale.
3 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BERL/LAC course.

387 The Rhetoric of American Issues U 3
A study of selected political, social, and religious issues and the principal American spokespersons and influences associated with them from 1787 to the present. Golden and Makay.
Au Qtrs. 3 cl. Prereq: Permission of instructor. Not open to students with credit for 217. Repeatable to a maximum of 6 cr hrs.

410 Program Processes in Radio U 4
The program functions in radio communication including the planning, production, and direction of programs.

411 Program Processes in Television U 4
Creating, planning, producing, and directing of the television program; development of program forms, program sources, programming organization, and program evaluation.
Au, Wi, Sp Qtrs. 4 cl. Prereq: 210. Not open to students with credit for 510.

420 Symbol Systems and Communication Behavior U 3
Study of the nature and forms of symbolic behavior; the human uses of symbols, particularly in communication. Ronchi.
Au Qtrs. 3 cl.

470† Language and Communication I U 4
Survey of language characteristics, components, style and choices as variables of human communication.
Sp Qtr. 2 2-hr cl. Prereq: Ling 201 recommended.

494 Group Studies U 1-5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 20 cr hrs.

500† Intercultural Communication and Selected American Minorities U G 5
Human interaction in communication encounters between Americans of European ancestry and those of Afro-American, Chicano, or Puerto Rican background.
Prereq: Jr standing.

505 Presentational Speaking in the Modern Organization U G 5
The theory and practice of planning, preparing, and transmitting formal position statements in settings of organizational decision-making. Makay, Golden, Brown, and Berquist.
Su, Au, Wi, Sp Qtrs. 5 cl.

526 Decision Systems in Broadcasting U G 4
An examination of the program decision-making process in broadcasting organizations employing simulation techniques to illustrate decision-making under uncertainty. Dinnick.
W Qtr. 3-6-hr cl. Prereq: 215. Not open to students with credit for 525.

530 Communication and the Task-Oriented Group U G 5
Information gathering, processing, and communicating phases of small group communication with emphasis on recent, socially significant task forces, and on group reports generated in class. Wall.
Au Qtr. 5 cl. Prereq: 110 or equiv.

555 Communication and Technocracy U G 3
Information overload; media-littered concepts of reality; technological centralization; the function of cultural varieties; levels of freedom in technocracy; technocracy as a communication barrier. Monaghan.
Sp Qtr. 3 cl.

Teaching of Speech in Secondary Schools
See Ed Hum 556.
600 Perspectives on Cross-Cultural Communication U G 5
Challenges and difficulties in human communication which result when representatives of different national cultures interact. Pilots.
Au Qtr. Prereq: Jr standing.

601 Communication, Politics, and Competent Social Interaction U G 5
Analysis of communication breakdown between the political and private spheres; distorted symbolization and effective communication. Pilots.
Wi Qtr. 2 1/2-hr cl. Prereq: 209 or 315 or permission of instructor.

605 Advanced Argumentation U G 4
Intensive argumentative writing and oral defense; discussions of controversial issues provide material for the invention and evaluation of ethical, political, legal, and other practical arguments. Makau.
Wi Qtr. 4 cl. Prereq: 305 or grad standing or permission of instructor; and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

610 Legal Reasoning U G 4
A study of rhetorical strategies used for deliberation, justification, and persuasion in a variety of legal contexts. Makau.
Sp Qtr. 2 2-hr cl. Prereq: 305 or Philos 150 or grad standing or permission of instructor; and English 110 or 111. Fulfills in part the ASC advanced English composition requirement.

611 Advanced Oral Interpretation U G 3
A study of programming nondramatic literature for communication by groups; novel, short story, and verse stressed; laboratory experiences in Readers Theatre and Chamber Theatre. Brooks.
3 cl. Prereq: 221 or grad standing.

612 Communication in Personal Relationships U G 4
Advanced level survey of theory and research concerning the role of communication in the development, maintenance, and decay of interpersonal relationships. Sillars.
Au Qtr. 2 2-hr cl. Prereq: 315 or permission of instructor.

615 Organizational Communication U G 5
A study of the communicator and communication systems in organizations with emphasis on theory, relationships, and objectives. Brooks.
Au, Wi Qtrs. 5 cl. Not open to students with credit for 515.

616 Communication in Decision-Making U G 5
Decision-making as a process; comparisons between interpersonal, bargaining-negotiation contexts, and groups and organizations; descriptive and prescriptive models of decision-making in small groups and organizations. Wall.
Sp Qtr. 5 cl.

617 Rhetoric of Social Intervention U G 5
Selected historical case studies describing communication strategies for intentional change in business, religious, and political institutions. Brown.
Prereq. Jr standing.

618 Principles of Interviewing U G 5
Dyadic communication as it occurs in the interview with special attention devoted to the student's ability to engage in informational, persuasive, and employment interviews. Brooks.
Sp Qtr. 5 cl.

620 Communication Systems and Social Process U G 3
A study of communication and symbolic systems in human groups, organizations and collectives with application to an actual human group by participant observation. Douglas.
Au Qtr. 3 cl. Prereq: 40 qtr hrs in social sciences and permission of instructor. Not open to students with credit for 520.

621 Theories of Rhetoric U G 5
Reading and detailed study of the theories of principal rhetoricians from ancient to modern times. Golden.
Au Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

622 Issues and Images in Political Communication U G 5
Analysis of the roles played by the mass media, public leaders, and accidental circumstances in the development of issues and images in contemporary American political communication. Golden.
Sp Qtr. 2 1/2-hr cl. Prereq: Jr or sr standing.

623 Rhetorical Dialogue U G 5
Theoretical and critical study of the emerging concept of dialogue in contemporary rhetoric, including the scope of rhetoric, public discourse and dialectic vs. monologic communication. Makau.
4 cl.

625 Nonverbal Behavior in Interpersonal Communication U G 4
Study of research and theory on the role of nonverbal behavior in interpersonal communication contexts; topics include synchronization of speech and movement, interpersonal competence, influence, Cegala.
4 cl. Prereq: Grad standing or at least one course in social science methodology or permission of instructor.

626 Broadcast Audience Analysis U G 5
Introduction to various inquiry methods which may be used for understanding and developing communication processes involving the media producer and the intended audiences. McCain.
Au, Sp Qtrs. 4 cl.

630 Creative Processes in Telecommunication U G 3
Aesthetic and creative processes in program creation and evaluation; analysis of the influences of style, content, and treatment.
Au Qtr. 3 cl.

633 Psychology of the Audience U G 4
Descriptive and experimental studies of audience behavior; dimensions of audience participation and effects manifest in concrete situations; work settings, consumerism, classwork, etc. Pilots.
Au Qtr. 2-hr cl. Prereq: 10 or 1 cr hrs in communic or permission of instructor.

650 Developmental Communication U G 3
Extensive study of the growth of children as communicators, focusing on the development of language, cognition, and social competence.
3 cl.

670 Language and Communication II U G 3
Descriptive and experimental studies of speech and language processes; learning, vocal and visuosymbolism, language and thought, information processing; communication behavior patterns.
Prereq: 10 cr hrs in comm communic and 10 cr hrs in psych.

680 Ethics of Communication U G 3
Lectures, discussions, assimilations, and case studies will focus on the nature, roles, and functions of ethics in communication in response to major topics and questions. Makau.
Au Qtr. 3 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

693 Individual Studies U G 1-5
Conference, library, and laboratory work. Su, Au, Wi, Sp Qtrs. Prereq. Permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.
698† International Study Tour U G 6-15
Intensive five-week study on campus followed by six-week study abroad; topics to be announced.
Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr. hrs. Travel and subsistence costs for the study tour will be borne by the student.

701 Research Methodologies in Speech Communication U G 4
Predominant research methodologies in the field of speech communication.

701.01 Statistical Concepts and logic
Acker.
Au, Sp Qtrs. Prereq: Permission of instructor.

701.02 Measurement of Communication Variables
Cegala.
Wi Qtr. Prereq: 701.01.

701.03 Evaluation Research Design
Prereq: Permission of instructor.

701.04 Humanistic Communication Analysis
Monaghan.
Prereq: Permission of instructor.

701.05 Content and Interaction Analysis
Dinnick.
Prereq: 701.01 or equiv.

701.06 Computer Applications
Foley.
Wi Qtr. Prereq: Permission of instructor.

701.07 Field Study and Participant Observation
Pickett.
Sp Qtr. Prereq: Permission of instructor.

701.08 Historical Analysis
Bergquist.
Prereq: Permission of instructor.

701.09 Rhetorical Analysis and Criticism
Makay.
Prereq: Permission of instructor.

704 Practicum in Organizational Communication U G 5
Class discussion and first-hand observation of communication systems in organizations with emphasis on student exposure to the daily routine activities of selected organizations. Brooks.
Wi Qtr. Prereq: 2 cr. 1-3 hr. lab. Prereq: 615 or equiv and permission of instructor. Repeatable to a maximum of 10 cr. hrs.

705 Social Realities in Rhetoric U G 3
Survey of trends in rhetorical criticism since 1925 with reference to figures studied, Derridian criticism, and movement studies. Brown.
Au Qtr. 3 cr.

710 Analysis of Communication Systems in Organizations U G 3
An investigation of human communication systems in organizations with attention given to systems theory, information flow, communication climate, human resources and communication media. Ronchi.
Prereq: 615 or grad standing.

715 Telecommunication Regulation and Public Policy U G 5
Study of U.S. telecommunication regulation, the role of the public and industry; the FCC, Congress, and the courts; emphasizes issues in broadcasting, cable, and satellites. Foley.
Au Qtr. 4 cr.

716 New Communication Technologies U G 3
Media storage, transmission and display systems, including videodisc, satellite, cable, telecommunication-computer linkages, and high-definition TV, impact on society and information industries. Acker.
Au Qtr. 1-3 hr. Prereq: 715 recommended.

759† Honors Course U 3-15
A program of independent study for the student with special aptitudes; individual conferences and reports.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the communic coursework and an average of B in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

794† Group Studies U G 3
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.
Repeatable to a maximum of 20 cr. hrs.

797† Interdepartmental Seminars U P G 3
See Interdepartmental Seminars.
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr. hrs.

800 Introduction to Research in Communication U G 4
Critical review of scholarly method, theory and research in speech communication, including both qualitative and quantitative studies; analysis of graduate thesis requirements and procedures. Berquist.
Au Qtr. 4 cr. Prereq: Grad standing in communic or permission of instructor. Required of all master's level students; open to PhD students wishing to supplement their background in communic research and methodology.

802 Communication Theories and Models U G 3
The formal principles of theory and model construction function as criteria for examining the strengths and weaknesses of four classes of interpersonal communication models. Wall.
Au Qtr. 1 3-hr. cr.

803 Contemporary Persuasion Theory U G 3
Study of the viewpoints and theoretical explanations of persuasive effects found among major contemporary authors in the field. Cegala.
Au Qtr. 3 cr.

806 Advanced Studies in Television and Radio U G 3
Prereq: Permission of instructor. Repeatable to a maximum of 20 cr. hrs.
A—Visual Communication, McCormick.
B—The Media in Democratic Societies, Poole.
C—Communication and Mass Media, Ronchi.
D—Political Communication, Berquist.
E—Communication Principles and Public Policy, Monaghan.
F—Political Communication

811 Seminars in History and Criticism of Public Address U G 3
Prereq: Permission of instructor. Repeatable to a maximum of 40 cr. hrs.
A—Rhetoric in Social Movements, Makay.
B—American Culture and Public Communication, Brown.
C—Communication and Pedagogy, Berquist.

816 Seminars in Rhetorical Theory U G 3
Prereq: Permission of instructor. Repeatable to a maximum of 25 cr. hrs.
D—Rhetoric and Critical Theory, Berquist.
821 Seminars in Television and Radio G 3
Prereq: Permission of instructor. Repeatable to a maximum of 40 cr hrs.
C—Current Research in Mass Communication.
D—Public Broadcasting. Outts.
I—Information Industry Applications of Telecommunication Research.

826 Seminars in Communication Behavior G 3
Prereq: Permission of instructor. Repeatable to a maximum of 40 cr hrs.
B—Communication and Conflict Management. Wall.
D—Language and Perception.
H—Contemporary Phenomenology and Hermeneutics. Pirolla.
I—Topics in Interpersonal Communication Competence. Cegelski.
J—Communication in Families. Sillars.
K—Current Topics in Interpersonal Communication. Sillars.
L—Theory and Epistemology. Sillars.

894† Group Studies G 3
Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs.

899† Interdepartmental Seminar G 3
See Interdepartmental Seminars.

998 Research in Speech Communication: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr. Repeatable to a maximum of 5 or hrs. This course is graded S/U.

999 Research in Speech Communication: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

Comparative Studies in the Humanities

306 Duiles Hall, 230 West 17th Avenue, 422-2659
See also Religious Studies

100 Introduction to the Humanities: Western Tradition U 5
Humanistic achievements of western culture in arts and letters; concepts of human nature and the world as expressed through major works in the humanities; weekly film.
5 cr. Open only to freshmen and sophomores (Rank 1 and 2 students). BER/LAC course.

101 The Individual and Society in Literature U 5
Personal integrity versus social conformity in works by Homer, Plato, Camus, Ibsen, and others.
H101 (honors) may be available to students enrolled in an honors program. 101, 102, and 103 may be taken independently. BER/LAC/LR course.

102 Religious Themes in Literature U 5
The search for God, the nature of divine order; the conflict between faith and skepticism in works from the Bible, Dante, Dostoevsky, Blokevelt, and others.
H102 may be available to students enrolled in an honors program or by permission of director. 101, 102, and 103 may be taken independently. BER/LAC/LR course.

103 Psychological Themes in Literature U 5
Analysis of the depiction of psychological conditions, concepts, and processes in works by Sophocles, Shakespeare, Freud, Bronte, and others.
H103 may be available to students enrolled in an honors program or by permission of director. 101, 102, and 103 may be taken independently. BER/LAC/LR course.

205 The Motif of the Quest U 5
The physical journey as a metaphor for personal transformation and salvation, as undertaken by Gilgamesh, Odysseus, Siddhartha, Jao, and others.
5 cr. Prereq: 5 or hrs in literature and English 110 or 111 or equiv. Not open to students with credit for 210. BER/LAC course. Fulfills in part the ASC advanced English composition requirement.

208 Utopia and Anti-Utopia U 5
Utopia and critiques of utopian thinking. The conflict between utopian planning and individual freedom in works by such authors as Plato, More, Huxley, and Skinner.
5 cr. Prereq: 5 or hrs in literature and English 110 or 111 or equiv. Not open to students with credit for 213. BER/LAC course. Fulfills in part the ASC advanced English composition requirement.

230 American Identity in the World U 5
American culture viewed from inside and from the perspective of foreign cultures, as seen in literature, film, art, music, journalism, folklore, and popular culture.
Su, Au, Wi, Sp Qtr. 5 cr. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LR course.

231 Wilderness Travel and the American Mind U 3
Introduction to American attitudes toward the frontier and wilderness travel as reflected in literature, history, art, and film.
Sp Qtr. 3 cr. Concur: Phys Ed 246.

234 The American Character U 5
Basic interdisciplinary methods in American studies; toward a definition of the concept of a national character.
5 cr. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC course.

239 City and Country in America U 5
Interdisciplinary perspectives on the development, accuracy, and influence of popular images and stereotypes of city and country.
5 cr. Prereq: Soph standing and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC course.

250† Science, Technology, and Human Values: An Introduction U 5
Role of science and technology in the modern world; their relationship to human values; sources of concern about their impact; evaluation of selected issues.
Au, Wi, Sp Qtr. 5 cr. H250 (honors) may be available to students enrolled in an honors program or by permission of instructor. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LR course.
270 Introduction to Comparative Religion U 5
Introduction to the study of religion; comparison among major traditions (Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, Confucianism), through readings in their sacred texts in translation.
Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BCR/LAC requirement.

293 Individual Studies U 2-5
Designed to give students an opportunity for personal study with a member of the faculty.
Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

294 Group Studies U 1-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
Honors (honors) may be available to students enrolled in an honors program or by permission of instructor. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs.

301 Concepts of Love in the Western Tradition U 5
Concepts of love from ancient Greeks to modern feminists; emphasis on mythological and psychological aspects.
Prereq: 5 or hrs in literature and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BCR/LAC requirement.

305 Medicine and the Humanities U 5
Humanistic, scientific, and clinical perspectives on medical issues; literary uses of medical terms; medicine as art and science.
Prereq: Soph standing and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BCR/LAC requirement.

308 Experience of War Interpreted in Classic Examples of Literature U 5
The Western experience of battle, as seen through the eyes of individual combatants, interpreted in classic examples of the literature of war.
Prereq: 3 cl or 1 hr lab. Offered in cooperation with National Security Policy Studies.

315 Women Writers: Feminism and Theology U 5
Modern women writers' search for feminist alternatives to traditional and patriarchal religious beliefs.
Prereq: 5 or hrs in literature or women's studies and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

317 Women and Film U 5
Women as sex objects, starlets, social activists, artists, and militant feminists as perceived in film.
Prereq: Wom Stds 201 recommended.

358 Film and Literature as Narrative Art U 5
Relationships between film and literature, the emergence of cinematic art, and the impact of film on contemporary literature; emphasis on continental material.
Prereq: 5 or hrs in literature.

500 Conceptual Approaches to International Studies U 5
Exploration of classic and contemporary conceptual approaches to international studies used by anthropologists, economists, geographers, historians, political scientists, and psychologists.
Prereq: 5 or hrs of course work in one or more relevant disciplines and permission of instructor. Not open to students with credit for Int Stds 500. Cross listed in International Studies.

504 The Arthurian Legends U 5
The medieval tales of King Arthur's court and the Knights of the Round Table in history, myth, literature, art, and music.
Prereq: 10 or hrs in literature. Not open to students with credit for 510.

541 Myth and Ritual U 5
Myth, ritual, and literature: structural and thematic relationships.
Prereq: 10 or hrs in literature or grad standing. Not open to students with credit for 541 or 541.01 or 541.02.

577 Studies in World Folklore U 5
Study of specific genres of folk literature on an international scale; topic varies: fairy tales and folktales; heroic legends and epics; jokes.

577.01 Themes in World Folklore
Cross-cultural, cross-genre study of patterns and themes in folklore; folk hero, folklore of sex, witchcraft.

577.03 Folk Custom, Art, and Material Culture
Study of folk customs, arts, crafts, and material culture in traditional contexts; topic varies: folk belief; folk architecture; folk medicine.

577.04 Comparative Folk Groups
Comparative study of the folklore of ethnic, regional, occupational, age or sex groups: e.g., women, industrial occupations, children.

693 Individual Studies U 1-10
Designed to give students an opportunity to pursue special studies not otherwise offered.
Prereq: Jr standing and permission of director. Not open to freshmen or sophomores. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U 1-5
Special topics.
Prereq: 10 or hrs in literature. Repeatable to a maximum of 10 or hrs.

H763 Honors Course U 5-10
Senior honors course leading to graduation with distinction; independent study for the student with special aptitude.
Prereq: 4th yr standing with a grade of A in at least half of the comp stds courses taken and an average of 8 in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 10 or hrs. Failure to receive a mark of S in this course is a disqualification for special honors. This course is graded S/U.

752 Interdepartmental Studies in the Humanities U 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs.

Computer and Information Science

228 Civil and Aeronautical Engineering Building
2036 Nell Avenue Mall 422-5812

100 Computers in Society U 3
An introductory course of general interest to all students, treating the actual and potential role of the computer in our society; does not teach or require computer programming.
Prereq: 3 cl. Not open to students majoring in cpr/inf.
201 Elementary Digital Computer Programming U 4
Introduction to computer architecture at the machine language and assembler language level; assembler language programming and lab.
Su, Au, Wi, Sp Qtrs. 3 cl, 1 lab. Prereq: 212 or 222.01 or 222.02, and a minimum cumulative pt-hr ratio of 2.0. Not open to students with credit for 319.

360 Introduction to Computer Systems U 4
Introduction to computer architecture at the machine language and assembler language level; assembler language programming and lab.
Su, Au, Wi, Sp Qtrs. 3 cl, 1 lab. Prereq: 212 or 222.01 or 222.02, and a minimum cumulative pt-hr ratio of 2.0. Not open to students with credit for 543.

411 Design of On-Line Systems U 3
Introduction to environment and processing requirements for on-line systems; emphasis on both hardware and software components, and on evaluation procedures for such systems.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 380 or 570.

489 Professional Practice in Industry U 2
Preparation and submission of a comprehensive report based on actual employment experience in a co-op job in industry.
Su, Au, Wi, Sp Qtrs. Prereq: Admission to co-op program in optrint. Repeatable to a maximum of 8 hrs. Or hrs count as free electives and do not count toward any other degree requirement.

493 Individual Studies U 1-5
Planning, conducting, and reporting a special study appropriate to the needs of the student.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

505 Theoretical Concepts of Computer and Information Science U G 3
Survey of the theoretical concepts of computer and information science: discrete mathematics, machines, languages, computation, and information theory.
Au, Wi Qtrs. 3 cl. Prereq: Math 366.

541 Elementary Numerical Methods U G 3
Survey of basic numerical methods; number systems and errors of finite representation, solution of a single non-linear equation, interpolation, numerical integration, solution of linear systems.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 201 or 211 or 221 or En Graph 200 and Math 254.

548 Computer Science for High School Teachers U G 5
Introduction to computer history, organization, hardware, and software; laboratory experience using batch processing and time-sharing; applications of computers with emphasis on uses in education and business.
Su Qtr. 5 cl. Prereq: Permission of instructor. Open only to high school teachers. Primarily intended for science, math, or business teachers.

557 Minicomputer Programming Systems U G 3
Introduction to minicomputer programming systems; fundamentals of computer organization and the relationship to assembler language, higher level languages, operating systems, and programming systems used for various applications.
Sp Qtrs. 3 cl. Prereq: En Graph 200 and 3rd yr standing in eng, or written permission of instructor. Open only to students in ENG except those majoring in optrint.

560 Elements of Computer Systems Programming U G 4
Software engineering as exemplified by various classical computer systems programs; assemblers, macroprocessors, loaders; group participation in a major software project involving the implementation of various systems programs.
Su, Au, Wi, Sp Qtrs. 3 cl. 3 lab hrs. Prereq: 313 or 321 and 369 or Elect Eng 460.

570 File Design and Analysis U G 3
Random access file processing; file organization and access methods; time and space considerations; Cobol and PL/I are used.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 313 or 321. Not open to students with credit for 380.

607 Mathematical Foundations of Computer and Information Science I U G 3
Topics in mathematics which are foundational to computer and information science and its various applications: logic, set theory, algebra, combinatorics.
Au Qtr. 3 cl. Prereq: Grad standing in optrint or permission of instructor. Not open to students with credit for 705 or students with a bachelor's or higher degree in mathematics.
610† Principles of Man-Machine Interaction U G 5
Systems concepts, their measurement and modeling; behavioral processes; sensing, learning, memory, complex information processing, and decision making; interface theory and interactive systems.
Sp Qtr. 5 cr. Prereq. Grad standing or permission of instructor. Not open to students with credit for Reyhan 620.

640 Numerical Analysis U G 3
Analysis of numerical methods for ordinary differential equations, boundary value, and characteristic value problems; splines, non-linear equations, approximation of functions; standard mathematical software libraries.
Sp Qtr. 3 cr. Prereq. 221 or equiv; Math 255 or 258 or 415; and 541 or grad standing.

642 Numerical Linear Algebra U G 3
Iterative methods for the solution of linear systems, computation of eigenvalues and eigenvectors, linear programming-simplic method, use of standard mathematical software libraries.
Au Qtr. 3 cr. Prereq. 201 or 211 or 221 or En Graph 220, and Math 569.

655 Introduction to the Principles of Programming Languages U G 4
Programming language concepts such as interpretation/compilation, scope rules, abstraction, control, security; using languages such as ADA, PASCAL, and LISP; illustration of concepts in lab.
Su, Au, Sp Qtrs. 3 cr. 1 lab. Prereq. 560. Not open to students with credit for 555.

660 Introduction to Operating Systems U G 3
Operating system concepts: memory management, process management, and file management, sample operating systems.
Su, Au, W. Sp Qtrs. 3 cr. Prereq. 560, 570, 675, and Stat 425 or 520 or 525.

670 Introduction to Database Systems U G 3
Database models; database organization, integrity and security; database systems and their utilization.
Au, W. Sp Qtrs. 3 cr. Prereq. 570 or grad standing. Not open to students with credit for 555.

675 Introduction to Computer Architecture U G 3
Computer system components, hardware programming language, arithmetic and control units, interrupt and I/O systems, introduction to microprogramming.
Su, Au, W. Sp Qtrs. 3 cr. Prereq. 360.

676 Minicomputer and Microcomputer Systems U G 3
A study of current minicomputer and microcomputer systems with emphasis on selection, evaluation and application, case studies.
Au, W. Qtrs. 3 cr. Prereq. 675 or equiv.

677 Computer Networks U G 3
Concepts and goals of computer networking; structures of computer networks; network control, analysis, design, and management, case studies.
Sp Qtr. 3 cr. Prereq. 675 or equiv.

680 Data Structures U G 3
Data abstraction; Introduction to algorithm analysis; data structures and files structures, including lists, trees, and graphs; searching and sorting.
Su, Au, W. Sp Qtrs. 3 cr. Prereq. 560, 570. 607 or Math 366; and Stat 425 or equiv or grad standing.

693 Individual Studies U G 1-5
Designed to give the student an opportunity to pursue special studies not otherwise offered.
Su, Au, W. Sp Qtrs. Arr. Prereq. Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Designed to give the student an opportunity to pursue special studies not otherwise offered.

707 Mathematical Foundations of Computer and Information Science II U G 3
Machine and formal-language based models of computation; finite automata, regular languages; context-free languages, pushdown automata, Turing machines and universal models of computation; Church's thesis, unsolvable problems.
Wi, Sp Qtrs. 3 cr. Prereq. 507 or Math 366 or equiv.

720† Introduction to Linguistic Analysis U G 5
Introduction to language structure; grammatical description of language; mathematical and computational properties of languages and language computing devices. Parsing.
Sp Qtr. 5 cr. Prereq. 705 or 707 or permission of instructor.

726 Introduction to Automata and Language Theory U G 3
Finite state automata, regular expressions, context-free languages, pushdown automata, parsing.
Sp Qtr. 3 cr. Prereq. 506 or 707 or equiv or permission of instructor.

727 Introduction to Theory of Algorithms U G 3
Models of computation; Church-Turing thesis; universal functions; recursive, recursively enumerable, and undecidable sets; axiomatic complexity theory; automata based complexity theory.
Au Qtr. 3 cr. Prereq. 707 and 780.

728 Topics in Theory of Computing U G 3
Further topics in theory of computing: automata, computability, and formal languages.
Sp Qtr. 3 cr. Prereq. 728 or 727.

730 Basic Concepts in Artificial Intelligence U G 5
Basic concepts of artificial intelligence and intelligent systems; theories, contemporary models; implementation by hardware and computer simulation.
Wi Qtr. 5 cr. Prereq. Grad standing in computer science or permission of instructor.

735† Statistical Methods in Pattern Recognition U G 3
Decision theory models in pattern recognition; parametric and nonparametric methods; linear machines; supervised and unsupervised learning, interactive clustering methods; feature selection; applications.
Sp Qtr. 3 cr. Prereq. Stat 520 or equiv or permission of instructor.

741 Comparative Operating Systems U G 3
A careful examination of a number of representative computer operating systems.
Su Qtr. 3 cr. Prereq. 880 or equiv.

750 Modern Methods of Information Storage and Retrieval U G 5
Fundamentals and modern concepts of storing and retrieving information; current problems and problem solutions.
Au Qtr. 5 cr. Prereq. 360 or equiv or grad standing in computer science. Students should already be familiar with the elements of computer systems.

751† Fundamentals of Document-Handling Information Systems U G 3
Fundamentals of information systems: types of systems; design principles; inputs; storage and maintenance; outputs; vocabulary control, monitoring and management; performance evaluation.
Wi Qtr. 3 cr. Prereq. 750.
752 Techniques for Simulation of Information Systems U G 3
Introduction to the methodology and techniques of the design of computer simulation of information systems. Sp Qtr. 3 cl. Prereq: Stat 426 or 521.

755 Programming Languages U G 3
Principles of abstract data structures, state of program execution, control abstraction (non-determinism, concurrency, etc.), operational semantics, denotational semantics, specification, and verification of programs. Su, Wi Qtrs. 3 cl. Prereq: 555.

756 Compiler Design and Implementation U G 4
Syntactic and semantic analysis using formal models, automatic programming, generation of optimal code, synthesis of messages, design of incremental programming environments; students write a simple translator. Sp Qtr. 3 cl. 1 lab. Prereq: 555 or 707, 680, and 755.

757 Software Engineering U G 3
Principles of design, implementation, validation, and management of computer software; emphasis on reading and discussing papers from relevant journals and proceedings; term project required. Au Qtr. 3 cl. Prereq: 560 or equiv and sr or grad standing or permission of instructor.

760 Operating Systems U G 3
Advanced operating system concepts; process and memory management, distributed operating systems, security and access control. Su, Wi, Sp Qtrs. 3 cl. Prereq: 683 or equiv.

761 Introduction to Operating Systems: Laboratory U G 2
Operating systems laboratory problems; sections of a small, hierarchical, sample operating system will be written by each student. Au, Sp Qtrs. 2 cl. Prereq: 560 or equiv.

765 Management Information Systems U G 3
Theory and practice of management information systems from the viewpoint of computer and information science; systems approach to management and organization; significance of information. Wi Qtr. 3 cl. Prereq: Grad standing in opsinf or permission of instructor.

770 Database Systems U G 3
Fundamental design considerations, system principles and architecture of database systems; performance analysis of design alternatives, system configurations and hardware organizations; impact of applications and technology on database systems. Wi Qtr. 3 cl. Prereq: 660 and 670.

775 Computer Architecture U G 3
Microprogramming, cache and virtual memory, advanced I/O concepts, introduction to parallel processing and multiprocessors. Au, Wi Qtrs. 3 cl. Prereq: 660 and 675.

780 Analysis of Algorithms U G 3
Algorithm design paradigms, mathematical analysis of algorithms; NP-completeness. Au, Sp Qtrs. 3 cl. Prereq: 680 or grad standing and equiv of 989. Not open to juniors with credit for 680 prior to Au Qtr 1981.

781 Introduction to Computer Graphics Systems U G 3
Manipulation and display of 2-D and 3-D shapes; controlling position and orientation of simple and hierarchical structures; hardware for line-drawing and raster displays; survey of computer animation and realistic imagery. Au, Sp Qtrs. 3 cl. Prereq: 679 and Math 568.

782 Advanced Computer Graphics U G 3
Advanced topics in computer graphics, interactive graphics, hidden-surface algorithms, shading algorithms, high quality displays, display compensation, aliasing, tricks of the trade. Wi Qtr. 3 cl. Prereq: 781 and permission of instructor.

788 Intermediate Studies in Computer and Information Science U G 1-5
Intermediate work in one of the specialized areas of computer and information science is offered. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs; subdivisions repeatable.

789 Seminar on Research Topics in Computer and Information Science G 1
Lectures on current research by each graduate faculty member in the department. Au Qtr. 2 cl. Prereq: 1 yr grad standing in cptrinf. This course is graded S/U.

875 Advanced Computer Architecture G 3
Advanced topics and case studies in computer architecture, parallel computers, array and pipeline computers, high-speed systems, high-level language machines, associative processors, micro-programmable computers. Sp Qtr. 3 cl. Prereq: 775 or equiv.

885 Seminar on Research Topics in Computer and Information Science G 1
Lectures on current research by each graduate faculty member in the department. Au Qtr. 2 cl. Prereq: 1 yr grad standing in cptrinf. This course is graded S/U.

888 Advanced Studies in Computer and Information Science G 1-5
Advanced work in one of the specialized areas of computer and information science. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs; subdivisions repeatable. These courses are graded S/U.

889 Seminar on Research Topics in Computer and Information Science G 2
Selected topics of particular current interest in both the research and applications of computer and information science are considered. Su, Wi, Sp Qtrs. 1-2 hr cl. Prereq: 2nd qtr grad standing in cptrinf or permission of instructor. This course is graded S/U.
Criminology and Criminal Justice

300 Brixton Hall, 190 North Oval Mall, 422-6681
See also Sociology.

209 Introduction to Criminal Justice U 5
Examination of the development and administration of criminal law and agencies (police, prosecutors, courts); emphasis on criminal proceedings and their justification.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

210 Sociological Aspects of Deviance U 5
Study of the definition, identification, treatment, and control of types of legal, moral, and status deviance, such as crime, mental illness, alcoholism, and other individual pathologies.
Lundman, Parkhurst, and Taylor.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for SocSci 290. SS Admin Cond course.

Types of Sociological Inquiry

309 Fundamentals of Law Enforcement Organization U 5
Fundamentals of law enforcement organization with emphasis on police organizational change consistent with the police role in modern society.
Au Qtr. 5 cl. Prereq: 209.

310 Criminal Investigation U 5
Wi Qtr. 5 cl. Prereq: 209. Not open to students with credit for SocSci 310.

311 Introduction to Forensic Sciences U 5
The scientific approach to recognizing and identifying physical evidence associated with criminal activity; special emphasis on quantitative methods of evidence and lab work. Praru.
Sp Qtr. 3 or 4 cl, 1 or 2 lab hrs. Prereq: 310 and permission of instructor.

319 Introduction to Industrial and Private Security U 5
Examination of world security problems; capabilities and limitations of security systems in the protection of corporate assets.
Wi Qtr. 5 cl. Prereq: 209 and 410 or Social 410.

320 Special Topics in Industrial and Private Security U 5
Examination of major issues in security such as legal actions, monitoring and ancillary systems, computer security.
Sp Qtr. 5 cl. Prereq: 209 and 410 or Social 410; 319 recommended.

410 Criminology U 5
The nature, variation, and causes of crime and delinquency; studies of criminal liability, criminal careers, and organized racketeering. Ditzik, Lundman, Scott, and Longrime.
Su (1st term), Au, Wi, Sp Qtrs. Prereq: 5 or hrs in criminal or social or permission of instructor. Not open to students with credit for Social 410. Cross-listed in Sociology. BER course.

451 Sociology of Law U 5
The relationship between law and social order; evolutionary aspects of law, comparative legal systems, procedural and substantive problems, emerging moral and normative issues. Scott and Longrime.
Au, Wi Qtrs. 5 cl. Prereq: 5 or hrs in criminal or social or permission of instructor. Not open to students with credit for Social 445. Cross-listed in Sociology.

525 Practicum in Criminology and Criminal Justice U 5
Work in a criminal justice agency as a teaching site approved in advance.
Su, Au, Wi, Sp Qtrs. 5 cl. Minimum of 40 or hrs completed in criminology and criminal justice major cumulative pt for ratio of 2.5, and permission of instructor. Repeatable to a maximum of 10 or hrs with permission of director prior to first qtr of enrollment. Only for students placed with specific agencies. This course is graded S/U.

610 Sociology of Deviant Behavior U G 5
An examination of the nature, types, and societal reactions to deviant behavior; special emphasis on the process of stigmatization and the emergence of deviant subcultures. Ditzik, Lundman, and Scott.
Au Qtr. 5 cl. Prereq: 10 or hrs in social and/or criminal. Not open to students with credit for Social 810. Cross-listed in Sociology.

611 Penology U G 5
The treatment of adult offenders in detention and incarceration; short and long term institutions. Ditzik, Lundman, Scott, and Longrime.
Au, Sp Qtrs. 5 cl. Prereq: 410 or Social 410. Not open to students with credit for Social 811. Cross-listed in Sociology.

615 Control and Prevention of Crime and Delinquency U G 5
Analysis of the operational effectiveness of special measures and programs pointed toward the control and prevention of crime and delinquency. Ditzik and Lundman.
Au, Wi Qtrs. 2-3 cr. One field project. Prereq: 810 or Social 810, and at standing. Not open to students with credit for Social 615. Cross-listed in Sociology.

618 Sociology of Police and Policing U G 5
Sociological understanding of the origins of routine police conduct and misconduct; representative topics include police-citizen encounters and police abuse of discretion. Lundman.
Sp Qtr. Prereq: 310 or 410 or grad standing or permission of instructor. Not open to students with credit for Social 618. Cross-listed in Sociology.

Introduction to Quantitative Research Techniques in Sociology
See Social 550.

693 Individual Studies U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U 3-5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.

H783 Honors Course U 3-5
A conference-thesis course on subject matter will vary depending upon the student's topic.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the criminal courses and an average of B in the remainder; permission of instructor. Under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA with distinction in criminal. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 10 or hrs. This course is graded S/U.
**Czech**

232 Curtz Hall of Languages, 1841 Millikin Road, 422-6733

101† Elementary Czech I U 5
Development of oral and written language skills.
Au Qtr. 5 cr. FL Arts Dis. Cond course.

102† Elementary Czech II U 5
Development of oral and written language skills.
Wi Qtr. 5 cr. Prereq: 101 or equiv. FL Arts Cond course.

111† Intensive Intermediate Czech U 10
Readings, oral and written practice, grammar review.
Sp Qtr. 10 cr. Prereq: 102 or equiv. Equiv. to the third and fourth courses of the foreign language sequence.

**Dairy Science**

116 Plumb Hall, 2027 Coffey Road, 422-6851

**Domestic Animals in the Service of Man**
See Anim Sc 100. Offered in cooperation with Dairy Science and Poultry Science.

**General Prerequisites for Courses Numbered 200**
Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr or hrs in college courses, exclusive of ROTC and phys ed, or specified course(s) numbered 100-199.

201 Fundamentals of Dairy Science U 5
The production phases of the dairy industry and the physiological systems of dairy animals. Barr.
Au, Sp Qtrs, 3 cr. 2-2 hr labs. Prereq: Biology 110. This course is available for EM credit.

207 Dairy Cattle Type Evaluation U 3
Dairy breed type standards and their application to herd improvement. Spike.
Sp Qtr. 1-2 hr lab. 1-4 hr lab. Prereq: 201 and 15 cr or hrs in biological sciences.

**General Prerequisites for Courses Numbered 300 and 400**
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr or hrs in college courses, exclusive of ROTC and phys ed, or specified course(s) numbered 100-299.

340 Dairy Herd Management U 5
Problems and practices concerned with efficient production of milk and successful operation of a dairy herd. T. Smith.
Wi Qtr. 3 cr. 2-2 hr labs. Prereq: 201 and 430.

359 Seminar U 1
Wi Qtr. 1 cr. Prereq: Soph standing with at least 10 cr or hrs in dairy sc. Repeatable to a maximum of 2 or hrs. T. Smith.

359.01† Current Topics in Dairy Science
Reading and interpreting current scientific and popular literature in this field.

359.02† Dairy Science Careers
Job requirements and occupational opportunities; discussion conducted by outside speakers from agribusiness.

420 Principles of Animal Improvement U 5
An introduction to the methods available for bringing about genetic change in farm animals. Davis, Fechheimer, Invin, and Turner.
Au, Wi, Sp Qtrs. 5 cr. Prereq: Anim Sc 100, Math 148 or equiv, and Genetics 140. Not open to students with credit for Anim Sc 420 or Ptyp Sc 420. Cross-listed in Animal Science and Poultry Science.

**Marketing Dairy Products**
See Agr Econ 439. Offered in cooperation with Agricultural Economics and Rural Sociology.

430 Principles of Animal Nutrition U 5
A study of fundamental principles of nutrition in mammals and birds. Cline, Latshaw, and Tyznik.
Su, Au, Wi, Sp Qtr. 4 cr. 1-2 hr lab. Prereq: Chem 102 or 122, and Math 148 or equiv. Not open to students with credit for Anim Sc 430 or Ptyp Sc 430. Cross-listed in Animal Science and Poultry Science.

**General Prerequisites for Courses Numbered 500**
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr or hrs in courses in the same discipline numbered 200 or higher, or 10 cr or hrs in courses numbered 200 or higher in the same discipline, plus 10 cr or hrs in courses numbered 200 or higher in specified allied disciplines, or baccalaureate degree.

520 Genetic Improvement of Dairy Cattle U G 3
Selection and mating methods specific for dairy cattle; view of improvement as an integration of genetical, environmental, and management alternatives. Alata.
Wi Qtr. 2-2 hr cl. Prereq: 420 or Anim Sc 420 or Ptyp Sc 420.

540 Computers in Dairy Farm Management U G 4
A study of microcomputer systems with emphasis on evaluating, selecting, and using hardware and software for dairy management applications; lab use of microcomputers. T. Smith.
Sp Qtr. 2-2 hr cl. 2 lab hrs. 1-1 day field trip. Prereq: 340 and Agr Econ 250 or Cpr/Inf 211.

593 Individual Studies U 3-5
Special assignments and elementary research; students elect problems after conference with the instructor in charge.
Su, Au, Wi, Sp Qtrs. H593 (honors) may be available to students enrolled in an honors program or eligible for enrollment. Prereq: Written permission of instructor. This course is graded S/U.

**General Prerequisites for Courses Numbered 600**
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr or hrs in courses in the same discipline numbered 300 or higher, or 10 cr or hrs in courses numbered 300 or higher in the same discipline, plus 10 cr or hrs in courses numbered 300 or higher in specified allied disciplines.

610 Physiology of Lactation U G 3
The physiological, endocrine, nutritional, and environmental factors influencing the synthesis and ejection of milk. Schmidt.
Au Qtr. 2-1 hr cl. 1-2 hr lab. Prereq: Vet Phys 411 and 20 cr hrs in anim sc, dairy sc, or vertebrate biology. Not open to students with credit for Anim Sc 610. Cross-listed in Animal Science.

612 Physiology of Reproduction and Growth U G 3
Physiology of the reproductive system and growth and development in farm animals; factors influencing reproductive performance. Pate.
Au, Sp Qtrs. 3 cr. Prereq: Vet Phys 411 and 20 cr hrs of anim sc, dairy sc, or vertebrate biology. Not open to students with credit for Anim Sc 612. Cross-listed in Animal Science.

613 Laboratory in Reproductive Physiology and Artificial Insemination U G 3
Comparative anatomy and physiology of reproduction of farm animals; physiological bases for the use of artificial insemination in the research laboratory and in the field. Pate.
Au, Sp Qtrs. 2-2 hr lab. Prereq or concdr: 612. Not open to students with credit for Anim Sc 613. Cross-listed in Animal Science.
631 Nutrition and Feeding of Ruminant Animals  U G 5
The nutrition of dairy cattle, beef cattle and sheep; principles and practices. Clint. Staubus, and Tynik.

635 Nutrition Applied to Farm Animals  U G 3
Sp Qtr. Prereq: 631 or Anim Sci 630 or 631 or 632 or Prify Sc 630. Not open to students with credit for 735, or Anim Sci 635 or 735, or Prify Sc 633 or 735. Cross-listed in Animal Science and Poultry Science.

640 Evaluation and Integration of Research for Dairy Horses  U G 5
The integration of scientific principles to maximize efficiency in dairy operations. Pintohard.
Sp Qtr. 5 cl. Prereq: 201. 340. 420. 430. Agr Econ 310.01 or 310.02. and 5 cl. hrs. physiol.

651 Analysis and Interpretation of Biological Data II  U G 5
Methods used in analyzing data classified in two or more ways: Latin-square, split-plot and factorial designs; analysis of covariance, data transformations, multiple regression, and least-squares. Harvey.
Sp Qtr. 5 cl. Prereq: Genetics 650 or equiv. Not open to students with credit for Biology 651 or Genetics 651.

694 Group Studies  U G 3-5
Special assignments and advanced research for groups; problems assigned after consultation with the instructor in charge.

General Prerequisites for Courses Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cl. hrs in courses in the same discipline numbered 400 or higher, plus additional specified courses numbered 600 or higher.

710* Advanced Reproductive Physiology  U G 3 or 5
Recent advances in research in mammalian reproduction; optional individual research experience in reproductive problems with small and large mammals for additional credit. Pate.
Wi Qtr. 2-3 hr. cl. Prereq: 612 and acceptable courses in physiol. anatomy, and biochem. Not open to students with credit for Anim Sci 710. Cross-listed in Animal Science.

721 Genetics of Animal Populations I  U G 3
Parameters of static populations, genetic arrays, and equilibria and statistical measures; partitioning the phenotypic variance mutation, migration, selection, and chance. Ivins.
Wi Qtr. 3 cl. Prereq: 450 or Genetics 500 and Genetics 650 or equiv. Not open to students with credit for Anim Sci or Prify Sc 721. Cross-listed in Animal Science and Poultry Science.

722 Genetics of Animal Populations II  U G 3
Selection for polygenic characters, mating systems, and development of breeding plans. Ivins.
Sp Qtr. 3 cl. Prereq: 721 or Anim Sci or Prify Sci 721 or equiv. Not open to students with credit for Anim Sci or Prify Sc 722. Cross-listed in Animal Science and Poultry Science.

733 Nutrition in the Support of Growth  U G 5
A functional approach to the study of nutrition for support of growth and maintenance in animals and humans. Mahan.
Au Qtr. 5 cl. Prereq: 631 or Anim Sci 630 or 631 or 632 or Prify Sc 630 or Human Ntr 610, and prereq or concord: Biochem 511 or Physiol 511. Not open to students with credit for Anim Sci 733 or Dairy Sc 733 or Food Sci 620 or Food Sci 733 or Prify Sci 733. Cross-listed in Animal Science, Food Science and Nutrition, and Poultry Science.

734 Nutrition in the Support of Reproduction  U G 3
Wi Qtr. 3 cl. Prereq: 733 or Anim Sci 733 or Food Sci 733 or Prify Sci 733. Not open to students with credit for Anim Sci 734 or Food Sci 734 or Prify Sci 734. Cross-listed in Animal Science, Food Science and Nutrition, and Poultry Science.

General Prerequisites for Courses Numbered 800 and 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cl. hrs in courses in the same discipline, or 20 cl. hrs in the same discipline, plus 25 cl. hrs in specified allied disciplines.

800 Seminar G 1
Discussion of current dairy science or related areas.
Au. Wi. Sp Qtrs. 1 cl. This course graded S/U.

810 Advances in Physiology of Domestic Animals  G 3
Au. Wi. Sp Qtrs. 4-6 hr. cl. Prereq: Written permission of Instructor and acceptable courses in physiol. anatomy, and biochem. Not open to students with credit for Anim Sci 810 or Prify Sci 810. Cross-listed in Animal Science and Poultry Science.

810.01* Anterior Pituitary Function
Bacon.
Au Qtr.

810.02* Endocrinology of Reproduction
Wi Qtr.

810.03 Immunology and Immunogenetics
Hines.

810.05* Mammalian Germ Cells
Murray.
Au Qtr.

820 Current Topics in Animal Genetics  G 3

820.01* Selection Index Theory
Ailans.
Au Qtr.

820.02* Non-additive Genetic Variance
Harvey.
Wi Qtr.

820.04* Simulation of Genetic Systems
Ailans. Davis. and Harvey.
Sp Qtr.

820.05* Cytogenetics of Animal Populations
Feichheimer.
Wi Qtr.
830 Advanced Studies in Nutrition G 3
Au, Wi, Sp Qtr. 3 or 4 cl. Prereq: 631 or Anni Sc 630 or Plty Sc 620 or Hum Nutr 610; Fd Sci 761 and 782; and 10 grad cr hrs in physiol. Not open to students with credit for Anni Sc 830, Hum Nutr 830, or Plty Sc 830. Cross-listed in Animal Science, Food Science and Nutrition, Human Nutrition and Food Management, and Poultry Science.
830.01† Energy
Conrad, W. Johnson, Latshaw, Snook.
Wi, Qtr.
830.02* Minerals
Cline.
Sp Qtr.
830.03†* Proteins and Amino Acids
Naber and Vivian.
Sp Qtr.
830.04* Vitamins
Naber.
Au Qtr.
830.05* Lipids
Palmquist.
Wi Qtr.
830.07† Rumen Microbiology
Deholsky.
Su Qtr. This course is not available in Human Nutrition and Food Management or Poultry Science.
830.08† Carbohydrates
Roehe.
Au Qtr.

832 Mathematical Genetics G 5
The construction of mathematical models, use of path coefficients, generation matrices, least-squares, and maximum likelihood methods for estimating genetic parameters and breeding values in quantitative genetics. Harvey.
Wi Qtr. 5 cr. Prereq: 30 cr hrs in genetics, math, and stat.

885† Research Principles and Methods G 5
Survey and analysis of research in dairy and animal science, literature reviews, collection of data, preparation of bibliographies, and presentation of reports. Fechheimer.
Wi Qtr. 3 cl, 1 4-hr lab. Prereq: Genetics 650, 8 cr hrs in math, and 2 qtr. grad study.

894 Group Studies G 1-5
Students are given an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Written permission of instructor.

898 Interdepartmental Seminar in Nutrition G 1
See Interdepartmental Seminars.
Sp Qtr. This course is graded S/U.

993 Individual Studies G 3 or 5
Exploratory research and advanced assignments; students elect problems after conference with the instructor in charge.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

Dance
132 Sullivan Hall, 1813 North High Street, 422-7877

111 Techniques and Materials of Dance I U 1-6
Au Qtr. 11 lab hrs. Open only to dance majors. Each decimal subdivision repeatable to 6 cr hrs.
111.01 Improvisation
Au Qtr. Arr. Prereq: Qualifying audition.
111.02 Dance Fundamentals, Part 1
Wi Qtr. Arr. Prereq. 111.01 or qualifying audition.
111.03 Dance Fundamentals, Part 2
Sp Qtr. Arr. Prereq. 111.01 or qualifying audition.
111.04 Modern Dance Technique, Part 1
Au Qtr. Arr. Prereq: Qualifying audition.
111.05 Ballet Technique, Part 1
Au Qtr. Arr. Prereq: Qualifying audition.
111.06 Modern Dance Technique, Part 2
Wi Qtr. Arr. Prereq. 111.04 or qualifying audition.
111.07 Ballet Technique, Part 2
Wi Qtr. Arr. Prereq. 111.05 or qualifying audition.
111.08 Modern Dance Technique, Part 3
Sp Qtr. Arr. Prereq. 111.06 or qualifying audition.
111.09 Ballet Technique, Part 3
Sp Qtr. Arr. Prereq. 111.07 or qualifying audition.

190 Ethnic Dance Forms U 1
Folk forms as practiced by ethnic groups in selected cultures.
Au Qtr. Arr. Open only to dance majors. Repeatable to maximum of 3 cr hrs.

198 Dance Production U 1-5
Production activities.
Au, Wi, Sp Qtrs. Arr. Open only to dance majors. Repeatable to a maximum of 15 cr hrs.

200 The Development of Western and Classical Dance U 5
Development of dance as a performing art in Europe and the United States from 1581 to the present; a survey of major stylistic trends, principal artists and their works.
Au, Wi, Sp Qtrs. 3 1½-hr cl. This course is available for EM credit. BER/LAC course. VPA Admis Cond course.

201 Introduction to Dance I U 1-6
An introductory course in dance for non-majors.
201.01 Modern Technique
201.02 Ballet Technique
201.03 Jazz
201.04 Other

202 Introduction to Dance II U 1-5
Continuation of 201.
Au, Wi, Sp Qtrs. Not open to dance majors. Each decimal subdivision repeatable to a maximum of 12 cr hrs.
202.01 Modern Technique
Prereq. 201.01 or permission of instructor.
202.02 Ballet Technique
Prereq. 201.02 or permission of instructor.
202.03 Jazz
Prereq. 201.03 or permission of instructor.
203 Introduction to Dance III U 1-5
Continuation of 201 and 202.
Au, Wi, Sp Qtrs. Not open to dance majors. Each decimal subdivision repeatable to a maximum of 12 cr hrs.
203.01 Modern Technique
Prereq: 202.01 or permission of instructor.
203.02 Ballet Technique
Prereq: 202.02 or permission of instructor.
203.03 Jazz
Prereq: 202.03 or permission of instructor.

214 Dance Techniques II U 1-6
Techniques: modern dance and ballet, level II.
Open only to dance majors. Each decimal subdivision repeatable to a maximum of 8 cr hrs.
214.04 Modern, Part 1
Au Qtr. Arr: Prereq: 111.08 or qualifying audition.
214.05 Ballet, Part 1
Au Qtr. Arr: Prereq: 111.09 or qualifying audition.
214.06 Modern, Part 2
Wi Qtr. Arr: Prereq: 214.04 or qualifying audition.
214.07 Ballet, Part 2
Wi Qtr. Arr: Prereq: 214.05 or qualifying audition.
214.08 Modern, Part 3
Sp Qtr. Arr: Prereq: 214.06 or qualifying audition.
214.09 Ballet, Part 3
Sp Qtr. Arr: Prereq: 214.07 or qualifying audition.

289 Field Service Experience U 2-5
Professionals service with children, youth, or adults in the schools or community.
Au, Wi, Sp Qtrs. Prereq: 111.08 or permission of dance education coordinator. Open only to prospective dance majors. Repeatable to a maximum of 20 cr hrs.

293 Individual Studies U 1-5
Individual studies of specified problems in the field of dance.
Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

294 Group Studies U 1-5
Prereq: Permission of chairman. Repeatable to a maximum of 25 cr hrs.

299 Dance Performance U 1-5
Au, Wi, Sp Qtrs. 2 or more hrs rehearsal each week. Open only to dance majors; others by special permission of chairman. Each decimal subdivision repeatable to a maximum of 24 cr hrs.
299.04 Student Choreographic Projects
Prereq: Permission of chairman.
299.06 Workshops
Prereq: Permission of chairman.

534 Dance Techniques III U G 1-6
Techniques: modern dance and ballet, level III.
Open only to dance majors. Each decimal subdivision repeatable to a maximum of 12 cr hrs.
534.04 Modern, Part 1
Au Qtr. Arr: Prereq: 214.08 or qualifying audition.
534.05 Ballet, Part 1
Au Qtr. Arr: Prereq: 214.09 or qualifying audition.
534.06 Modern, Part 2
Wi Qtr. Arr: Prereq: 534.04 or qualifying audition.
534.07 Ballet, Part 2
Wi Qtr. Arr: Prereq: 534.05 or qualifying audition.
534.08 Modern, Part 3
Sp Qtr. Arr: Prereq: 534.06 or qualifying audition.
534.09 Ballet, Part 3
Sp Qtr. Arr: Prereq: 534.07 or qualifying audition.

585 Student Teaching in Dance in Elementary Schools U 3-15
Observation, participation, and teaching in a public school; individual and group conferences or seminars.
Au, Wi, Sp Qtrs. Prereq: EDU 4th yr standing. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

587 Student Teaching in Dance in Secondary Schools U 3-15
Observation, participation, and teaching in a public school; individual and group conferences or seminars.
Au, Wi, Sp Qtrs. Prereq: EDU 4th yr standing. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

601 Supplemental Studies in Dance U G 1-5
Foundations in dance.
Au, Wi, Sp Qtrs. 2 or more hrs lab. Prereq: Permission of chairman. Each decimal subdivision repeatable to a maximum of 12 cr hrs.
601.01 Modern Technique
601.02 Ballet Technique
601.03 Dance Technique for Men
601.04 Tap Dance
601.05 Historical Dance
601.06 Jazz Dance
601.07 Alexander Technique
This course is graded S/U.
601.08 Other

605 Effort I U G 3
Study of the dancer's dynamic energy.
Wi Qtr. 2 1/2 hr cl. Prereq: 645 or permission of instructor. Repeatable to a maximum of 12 cr hrs.

606 Space Harmony U G 3
The study of spatial forms in dance.
Sp Qtr. 2 1/2 hr cl. Prereq: 620 or permission of instructor. Repeatable to a maximum of 12 cr hrs.

620 Dance Notation I U G 3
Basic principles of Labanotation; work in theory, reading, and writing.
Au Qtr. Arr.

621 Dance Notation II U G 3
Continuation of 620.
Wi Qtr. Arr. Prereq: 620 or written permission of instructor.

622 Dance Notation III U G 3
Reading, analyzing, and dancing excerpts from dance scores.
Sp Qtr. Arr. Prereq: 621 or equiv with written permission of instructor.

623 Advanced Notation U G 3
Advanced Labanotation.
Au, Wi, Sp Qtrs. Arr. Prereq: 622 or equiv with written permission of instructor. Repeatable to a maximum of 9 cr hrs.

633 Lighting for Dance U G 3 or 5
A study of stage lighting for dance; lectures, readings, and discussions.
Wi, Sp Qtrs. Arr. Prereq: 198 or equiv.
637 Dance Technique IV  U G 1-5
Technique: modern and ballet, level IV.
Open only to dance majors. Each decimal subdivision
repeatable to a maximum of 12 cr hrs.
637.04 Modern, Part 1
Au Qtr. Arr. Prereq: 534.08 or qualifying audition.
637.05 Ballet, Part 1
Au Qtr. Arr. Prereq: 534.09 or qualifying audition.
637.06 Modern, Part 2
Wi Qtr. Arr. Prereq: 537.04.
637.07 Ballet, Part 2
Wi Qtr. Arr. Prereq: 537.05.
637.08 Modern, Part 3
Sp Qtr. Arr. Prereq: 537.06.
637.09 Ballet, Part 3
Sp Qtr. Arr. Prereq: 537.07.

645 Foundations in Dance Composition I  U G 1-5
Au Qtr. Arr. Prereq: 111.08 or equiv. Open only to dance majors. Repeatable to a maximum of 12 cr hrs.

646 Foundations in Dance Composition II  U G 1-5
Wi Qtr. Arr. Prereq: 545. Open only to dance majors. Repeatable to a maximum of 12 cr hrs.

647 Foundations in Dance Composition III  U G 1-5
Sp Qtr. Arr. Prereq: 546. Open only to dance majors. Repeatable to a maximum of 12 cr hrs.

648 Music and Choreography  U G 3
Study of music suitable for choreographic purposes and the various approaches to the use of music in dance composition.
Au Qtr. Arr. Prereq: 647 or equiv, and Music 141.

649 Intermediate Dance Composition  U G 3
Dance studies for small groups.
Wi Qtr. Arr. Prereq: 547.

650 Advanced Dance Composition  U G 1-4
Choreographing a group dance; experience in casting and directing.
Au, Wi Qtrs. Arr. Prereq: 549 or equiv. Repeatable to a maximum of 13 cr hrs.

651 Repertory  U G 1-5
Experience in learning a dance.
Au, Wi Qtrs. Arr. Prereq: 214.08 or permission of instructor. Open only to dance majors. Repeatable to a maximum of 12 cr hrs for each decimal subdivision.
651.01 Existing Work
651.02 New Work

657 History of Dance I  U G 3
Survey of dance as a communal activity, functioning as ritual, art, and play, with particular emphasis on dance in tribal cultures and in the Greek theatre.
Au Qtr. Arr. This course is available for EM credit.

658 History of Dance II  U G 3
Survey of dance from medieval times to the late 18th century, with particular emphasis on dance styles of the 15th through the 18th centuries.
Wi Qtr. Arr. This course is available for EM credit.

659 History of Dance III  U G 3
Survey of dance in Europe and the United States from the end of the 18th century to the present with emphasis on ballet and modern dance.
Sp Qtr. 4 cl. This course is available for EM credit.

687 Dance for Children  U G 3-5
Foundation for teaching dance to children.
Wi Qtr. Arr. Prereq: 214.08 or permission of instructor.

688 Theory and Practice of Modern Dance  U G 3-5
Foundations for teaching; laboratory problems, lectures, readings, and discussions.
Au Qtr. Arr. Prereq: 214.08 or permission of instructor.

689 Directed Teaching Experience in Dance  U G 2
Au, Wi, Sp Qtrs. 4 hrs; 2 hrs arr. Prereq: Written permission of coordinating adviser. Repeatable to a maximum of 6 cr hrs.

691 Dance Practicum I  U G 1-5
Special applied projects for upper level dance majors.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Repeatable to a maximum of 30 cr hrs.

692 Workshop in Dance  U G 5, 10, 15
Concentrated study of dance and related areas; nature of workshop depends upon selected emphasis.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of workshop director. Repeatable to a maximum of 15 cr hrs.

693 Individual Studies in Dance  U G 1-5
Investigation of selected professional problems.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 20 cr hrs in any combination of decimal subdivisions for undergrad or and to a maximum of 30 cr hrs in any combination of decimal subdivisions for grad cr. These courses are graded SU.
693.01 Choreography
Prereq: 648. Open only to dance majors.
693.02 Notation
Prereq: Written permission of dance adviser or chairman.
693.03 Research
Prereq: Written permission of dance adviser or chairman. Open only to dance majors.
693.04 Production
Prereq: Written permission of dance adviser or chairman. Open only to dance majors.
693.05 Other
Prereq: Permission of chairman.

694 Group Studies  U G 1-5
Prereq: Permission of chairman. Repeatable to a maximum of 25 cr hrs.

699 Dance Performance  U G 1-5
Au, Wi, Sp Qtrs. 2 or more hrs of rehearsal each wk. Open only to dance majors; others by special permission of chairman.
699.01 University Dance Company
Prereq: Admission by audition to students majoring in dance. Repeatable to a maximum of 45 cr hrs.
699.04 Student Choreographic Projects
Prereq: Permission of chairman. Repeatable to a maximum of 24 cr hrs.
699.06 Workshops
Prereq: Permission of chairman. Repeatable to a maximum of 24 cr hrs.

801 Seminar in Dance  U G 1-5
Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 cr hrs.

802 Choreographic Projects  U G 1-5
Advanced choreographic projects.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 25 cr hrs.

803 Elements of Dance  U G 2
Au Qtr.
804 Elements of Dance II G 2
Wi Qtr.

805 Effort II G 3
Continuation of 605.
Sp Qtr. 2 1 ½-hr cl. Prereq: 605 or permission of instructor. Repeatable to a maximum of 12 or hrs.

806 Space Harmony II G 3
Continuation of 606.
Au Qtr. 2 1 ½-hr cl. Prereq: 606 or permission of instructor. Repeatable to a maximum of 12 or hrs.

820 Labananalysis I G 4
Laban’s basic formulations on the body, space, effort (dynamics), and relationship elements of dance are dealt with through performance, observation, score reading, and writing.
Au Qtr. 3 1 ½-hr cl.

821 Labananalysis II G 4
Continuation of 820.
Wi Qtr. 3 1 ½-hr cl. Prereq: 820 or equiv.

822 Labananalysis III G 4
Continuation of 821.
Sp Qtr. 3 1 ½-hr cl. Prereq: 821 or equiv.

823 Labananalysis IV G 3-5
Reading, analysis, and writing of complex movement ideas.
Au, Wi, Sp Qtrs. 2 1 ½-hr cl. Prereq: 822 or equiv. Repeatable to a maximum of 20 or hrs.

894 Group Studies G 1-5
Advanced problems in dance, individual or group participation.
Repeatable to a maximum of 30 or hrs.

970 Master’s Project G 1-18
Research and practical investigation of selected topics for purposes of the Plan B master’s project.
Au, Wi, Sp Qtrs. Arr. Prereq: Evidence of substantial work in proposed area and grad standing in dance. Repeatable to a maximum of 15 or hrs. These courses are graded S/U.

970.01 Choreography and/or Performance
970.02 Reconstruction
970.03 Teaching
970.04 Production
970.05 Other

999 Research in Dance G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Dental Hygiene

3070 Poole Hill, 305 West 12th Avenue, 422-2228

201 Dental Anatomy U 5
The morphology and physiology of human teeth and surrounding structures. Longenecker.
Au Qtr. 2 cl, 6 lab hrs. Prereq: Dent hyg 1st yr standing.

221 Introduction to Clinic U 2
Introduction to the performance of prescribed clinical and oral health education functions as an integral member of the dental health team. Whitacre.
Wi Qtr. 6 hrs clinic. Prereq: 201.

223 Dental Prophylaxis I U 3
The demonstration of and the application of technical procedures for the removal of hard and soft deposits from the surfaces of the teeth. Goodey and Ulrichs.
Wi Qtr. 1 cl, 6 lab hrs. Prereq: 201.

224 Dental Prophylaxis II
Sp Qtr. Prereq: Basic psychology, communications and 224.02 concurrently.

224.01 Lecture U 1
1 cl. Prereq: Basic psych and commuc.

224.02 Clinic U 2 or 3
Clinical application of the principles and technical procedures taught in 224.01.
6 or 9 cl hrs. Prereq: 221, 223, 226, 263, and 283. Dent Hyg-ASC students enroll for 3 or hrs; Dent Hyg-Edu students enroll for 2 or hrs.

233 Oral Histology and Embryology U 2
A study of the microscopic anatomy of the teeth and surrounding structures; the development of the teeth, oral cavity, and face. Meff.
Wi Qtr. 2 cl. Prereq: Dent hyg 1st yr standing and basic biology, and concurs: anatomy.

234 Restorative Dentistry and Expanded Functions for Dental Hygienists U 3
A study of selected materials and techniques used in operative dentistry and prosthodontics which will prepare the student for clinical performance. Wuelser.
Sp Qtr. 1 cl, 6 lab hrs. Prereq: Dent hyg 1st yr standing.

236 Chemistry for Dental Hygienists I U 3
A survey of general chemical principles and an introduction to fundamental physiological applications of organic chemistry for dental hygiene students. Foreman.
Au Qtr. 3 cl. Prereq: Chem 101 or 121, and dent hyg 1st yr standing. Not open to students with credit for 335.

237 Pedodinetics I U 1
Introduction to techniques and procedures through demonstration and application to prepare the dental hygienist to provide care for children. Bowers.
Sp Qtr. Prereq: 236 or Chem 102, and 283.

240 Introduction to General Pathology U 2
An introduction to the basic principles of pathology and mechanisms of disease; the pathophysiology of common problems involving the various organ systems with emphasis on clinical manifestations. Marquard.
Sp Qtr. 2 1-hr cl. Prereq: 223 and prereq or concours: Zoology 232. Not open to students with credit for 341 prior to Sp Qtr 1981.

263 Oral Radiography U 1 or 2
The theory and technical procedures of oral radiography. O’Brien.
Wi Qtr. 2 cl. or 6 lab hrs. Prereq: 201 or cr standing in rad tech. Not open to students with credit for 361.

273 Dental Materials U 4
A study of the composition, chemical and physical properties, manipulation, and use of various materials employed in the practice of dentistry. Woelfel.
Sp Qtr. 2 cl. 6 lab hrs. Prereq: Dent hyg 1st yr standing, and 236 or Chem 102. Not open to students with credit for 372.

283 Periodontology U 1
A study of the formation of deposits on teeth, the maintenance of good oral hygiene, and the prevention of periodontal disease. App.
Wi Qtr. 1 cl. Prereq: 201 and dent hyg 1st yr standing.

295 Survey of Dental Hygiene U 1
The historical, professional, legal, ethical, and preventive aspects of dental hygiene. Goodey and Langhout.
Au Qtr. 1 cl. Prereq: Dent hyg 1st yr standing.
301 Pain Control U 1
The role of the dental hygienist as an assistant in anesthesia: premedication, physiological responses to and pharmacological actions of anesthetic agents; emergency treatment.
Offered at.
Wi Qtr. 1 cl or 3 lab hrs. Prereq: 321, 331, and Anatomy 200 or Zoology 235.

303 Office Practices and Economics U 2
The role of the dental hygienist in dental practice and the economics involved. Hicks.
Sp Qtr. 2 cl. Prereq: Dent hgy 2 nd yr standing.

311 Preventive Dentistry U 2
A study of the principles of prevention of dental disease, including plaque control, diet and nutrition, and fluoride therapy. Gookey and Nordstrom.
Au Qtr. 3 cl. Prereq: 283, Humn Ntr 310, Microbiol 509, and dent hgy 2 nd yr standing.

312 Advanced Dental Hygiene Procedures U 2
A study of techniques and theory which extends beyond the routine practice of dental hygiene and which involves dental practice. Gookey and Hicks.
Wi Qtr. 2 cl. Prereq: 311 and 341.

313 Dental Hygiene Practice U 1
A study of the actual practice in the dental office and of the responsibilities inherent in dental hygiene to the profession and the community. Whitacre.
Sp Qtr. 1 cl. Prereq: Dent hgy 2 nd yr standing.

320 Oral Radiography and Interpretation U 1
Interpretation of radiographic, normal anatomic structures and pathologic entities, radiation hygiene. Farrugia.
Au, Wi, Sp Qtrs. 1 cl. Prereq: 263, dent hgy 2 nd yr standing, and permission of instructor.

321 Clinical Dental Prophylaxis I U 4
Clinical application of principles taught in 223. Gookey, Nordstrom, and staff.
Au Qtr. 12 clinic hrs. Prereq: 224.01, 224.02, 237, 240, and 273.

322 Clinical Dental Prophylaxis II U 2 or 4
A continuation of 312, Gookey, Hicks, and staff.
Wi Qtr. 6 or 12 clinic hrs. Prereq: 321, 331, 341, and Nursing 303. Dent Hgy-ASC students enroll for 4 cr hrs; Dent Hgy-EdU students enroll for 2 cr hrs.

323 Clinical Dental Prophylaxis III U 3-5
A continuation of 322, Gookey, Whitacre, and staff.

331 Pharmacology U 1
A study of drugs commonly used in dental practice and correct methods for their use. Gookey.
Au Qtr. 1 cl. Prereq: 221, 240, and Zoology 232.

334 Chemistry for Dental Hygienists II U 2
Application of the principles of biological chemistry to the practice of dental hygiene. Foreman.
Wi Qtr. 2 cl. Prereq: 336. Not open to students with credit for 335.

338 Pedodontics II U 2
A continuation of 237 with expanded function procedures as applied to the care of children.
Au Qtr. 1 cl, 2 lab hrs. Prereq: 237.

341 Introduction to Oral Diagnosis and Oral Pathology U 2
Introduction to the diagnostic process; pathogenesis, and symptomatology and treatment of oral disease. Bruce.
Au Qtr. 3 cl. Prereq: 221, 240, and 283.

381 Community Dental Health I U 1
An introduction to community dental health; the planning and initiation of community dental health projects. Udriks.
Au Qtr. 1 cl. Prereq: 221, 237, 283, 295, and Humn Ntr 310.

382 Oral Health in the Schools U 1
The principles involved in effective dental health education of the general public, especially school children. Caccamo.

382.01 Dental Health Education I
Current educational concepts, methods, and resources as applied to the teaching of oral health in the schools.
Wi Qtr. 1 cl. Not open to students with credit for 382.

382.02 Dental Health Education II
Continuation of 382.01.
Sp Qtr. 1 cl. Prereq: 382.01. Not open to students with credit for 382.

383 Community Dental Health II U 1
A continuation of 381; an application of the principles learned in 381, the continuation and evaluation of community dental health projects. Solovan.
Wi Qtr. 1 cl. Prereq: Dent hgy 2 nd yr standing.

384 Dental Hygiene Care for the Mentally Retarded and Developmentally Disabled U 1-5
Various handicapping conditions and any oral manifestations; management techniques and practice in a clinical setting; comprehensive on-going follow-up in the group home setting. Wolf.
Au, Wi, Sp Qtrs. 1 cl and arr. Prereq: 223, dent hgy 2 nd yr standing, and permission of instructor.

411 Advanced Prophylaxis Clinic for Dental Hygiene Education I U 5
A continuation of 323 for students dually enrolled in education. Gookey and Solovan.

412 Advanced Prophylaxis Clinic for Dental Hygiene Education II U 3
A continuation of 411. Gookey, Udriks, and Shearer.

488 Case Studies Interpretation for Dental Hygienists U 1
A review of dental topics in a case study format.
Wi Qtr. 1 cl. Prereq: Graduating yr standing.

588 Student Teaching in Dental Hygiene Education U 3-15
Observation, participation, and responsible teaching in a public school in the greater Columbus area; individual and group conferences or seminars. Caccamo.

693 Individual Studies in Dental Hygiene U G 1-15
Advanced studies in any relevant area of dental hygiene.
Au, Wi, Sp Qtrs. Arr. Prereq: Written permission. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

694 Group Studies in Dental Hygiene U G 1-5
Group studies in special dental hygiene areas. Gookey.
Dentistry

1159 Postle Hall, 305 West 12th Avenue, 422-2401

411 Dental Materials I P 1
A review of physical properties of materials; a study of dental impression materials, cast materials, and denture base resins.
Au Qtr. 1 cl. Prereq: Dent fresh standing.

417 Occlusion I P 3
Dental morphology: the structure and function of the teeth and their contiguous parts, particularly mastication through occlusion. Huffman.
Au Qtr. 2 cl. 3 lab hrs. Prereq: Dent fresh standing.

418 Occlusion II P 3
A continuation of 417.
Wi Qtr. 2 cl. 3 lab hrs. Prereq: Dent fresh standing.

419 Occlusion III P 3
A continuation of 418.
Sp Qtr. 2 cl. 3 lab hrs. Prereq: Dent fresh standing.

420 Orientation and History of Dentistry P 1
The evaluation of dentistry from the ancient period through the medieval, colonial, early American, and modern periods.
Au Qtr. 1 cl. Prereq: Dent fresh standing.

421 Community Dentistry I P 1
Newer concepts of dental care which are the result of changes in environment, legislation, and dental delivery systems.
Au Qtr. 1 cl. Prereq: Dent fresh standing.

422 Community Dentistry II P 2
Basic concepts in disease control, principles of epidemiology, dental indices of disease, and bio-statistics; preventive dentistry, ramifications of the etiological factors of dental disease, and patient education in private practice.
Wi Qtr. 2 cl. Prereq: Dent fresh standing. Not open to students with credit for 325, 326, or 423 prior to Au Qtr 1980.

461 Periodontology P 2
Preventive periodонтology including periodontal morphology, incidence of periodontal disease, clinical gingival health and disease, and etiology and prevention of disease. Levy.
Au Qtr. 2 cl. or 2 lab hrs. Prereq: Dent fresh standing.

481 Removable Complete Prosthodontics
Prereq: Dent soph standing.
481.01 Lecture P 1
The elemental principles of impressions and jaw relations.
Au Qtr. 1 cl.

481.02 Laboratory P 2
Au Qtr. 8 lab hrs.

482 Removable Complete Prosthodontics
Prereq: Dent soph standing.
482.01 Lecture P 1
The principles and practices of arranging artificial teeth and processing and finishing complete dentures.
Wi Qtr.

482.02 Laboratory P 2
Wi Qtr. 6 lab hrs.

489 Removable Partial Prosthodontics
Prereq: Dent fresh standing.
489.01 Lecture P 1
An introduction to the principles of design and construction of removable partial dentures.
Wi Qtr. 1 cl.

489.02 Laboratory P 1
Wi Qtr. 4 lab hrs.

505 Fundamental Principles of Oral Surgery P 2
The basic principles of oral surgery; theory and technique of patient evaluation, exodontia, preprosthetic, biopsy and postoperative management.
Sp Qtr. 1 cl. Prereq: Dent jr standing.

511 Dental Materials II P 1
Materials used in the restoration of carious teeth, including dental cements, waxes, plasters, amalgams, gold foil, and casting gold alloys.
Sp Qtr. 1 cl. Prereq: Dent fresh standing.

512 Dental Materials III P 1
A study of dental casting procedures and associated materials, dental gold alloy and base metal wires, chrome-cobalt and steel alloys, heat treatment of metals, welding and soldering procedures, and abrasives and polishing agents.
Au Qtr. 1 cl. Prereq: Dent soph standing.

514 Oral Biology I P G 4
Oral embryology and histology of teeth and surrounding structures and their correlation to the practice of dentistry. Melfi.
Au Qtr. 2 cl. 4 lab hrs. Prereq: Dent soph standing, Anat 603.

518 Occlusion IV P 2
A study in the changes of the stomatognathic system leading to dysfunction and unhealthy occlusion; introduction to the diagnosis and various treatment modalities to correct stomatognathic dysfunction.
Au Qtr. 1 cl. 3 lab hrs. Prereq: Dent soph standing.

519 Occlusion V P 2
A continuation of 518.
Wi Qtr. 1 cl. 3 lab hrs. Prereq: Dent soph standing.

521 Behavioral Factors in Dentistry P 1
Examination of the principles and dynamics of human behavior with emphasis on the psychosocial components of dentist-patient relationships and their consequences for dental practice.
Au Qtr. 1 cl. Prereq: Dent fresh standing.

531 Operative Dentistry I P 2
An introduction to the principles of operative dentistry; the theory and techniques for simple cavity preparations. H. Postle and Huffman.
Au Qtr. 1 cl. 3 lab hrs. Prereq: Dent soph standing.

532 Operative Dentistry II P 3
The theory and technical procedures for the preparation of compound and complex cavities and the use of amalgams and silicate as restorative materials. H. Postle and Huffman.
Wi Qtr. 1 cl. 6 lab hrs. Prereq: Dent soph standing.

533 Operative Dentistry III P 3
The theory and technical procedures for the use of gold inlays and gold as restorative materials; preparation for the clinical aspects of operative dentistry. H. Postle and Huffman.
Sp Qtr. 1 cl. 6 lab hrs. Prereq: Dent soph standing.

543 Oral Pathology I P G 3
The histopathologic and clinical study of oral disease and paraoral disease.
Au Qtr. 3 cl. 2 lab hrs. Prereq: 514, Path 655, and dent jr standing. Not open to students with credit for 541 or 543 prior to Au Qtr 1982.

544 Physical Evaluation I P 2
The principles and methods of diagnosis, with emphasis on the medical history of the patient as it pertains to dental treatment.
Sp Qtr. 1 cl. Prereq: Dent soph standing.

546 Oral and Physical Evaluation P 2
Introduction to the diagnostic process and the techniques of evaluating a patient; the common diseases detected during the evaluation process.
Sp Qtr. 2 cl. Prereq: Dent soph standing.
547 Oral Radiology I P 2
The theory and operation of radiographic equipment; darkroom procedures; discussion of anatomical landmarks as seen radiographically; introduction of intraoral radiographic techniques. O'Brien.
Wi Qtr. 2 cl. Prereq: Dent soph standing.

549 Oral Radiology II P 1
Interpretation of radiographic evidence of pathosis; hazards of ionizing radiation. O'Brien.
Sp Qtr. 1 cl. Prereq: Dent soph standing.

551 Pedodontics I P 1
Su Qtr. 1 cl. Prereq: Dent jr standing.

552 Pedodontics II
552.01 Lecture P 2
Orientation in pedodontics, preparatory for clinical assignments; prevention of dental disease, pulpal therapy, behavior management, diagnosis for the child patient. Bowers.
Au Qtr. 2 cl. Prereq: Dent jr standing Not open to students with credit for 452, 552.01, or 553.01 prior to Au 1985.
552.02 Laboratory P 2
Sp Qtr. 6 lab hrs. Prereq: Dent jr standing. Not open to students with credit for 452, 552.02, or 553.02 prior to Au 1980.

556 Orthodontics P 1
An introductory study of the inherent relationship between the form and function of the orofacial complex, both of which are dictated by developmental forces.
Su Qtr. 1 cl. Prereq: Dent jr standing.

560 Periodontology: Examination, Diagnosis, and Instrumentation of Tissues P 1
Basics of instrumentation including calculus detection, instrument types, and deposit removal; examination including periodontal findings, diagnosis, and treatment planning.
Au Qtr. 8 cl, 6 lab hrs. Prereq: Dent soph standing.

561 Periodontology
561.01 Periodontology P 1
Periodontal pathology and clinical diagnosis including the microscopic, radiographic and clinical evaluation of the periodontal tissues in health and disease. Wi Qtr. 1 cl or 3 lab hrs. Not open to students with credit for 561 prior to Su Qtr 1982.
561.02 Periodontology P 1
Periodontal pathology and clinical diagnosis including the micro-biological, immunologic, and host defense responses in the clinical study and management of the periodontal tissues in health and disease. Sp Qtr. 1 cl or 3 lab hrs. Not open to students with credit for 561 prior to Su Qtr 1982.

562 Periodontology P 1
Basics of periodontal therapy including an introduction to treatment modalities available to the general practitioner for use in management of patients with periodontal disease. Su Qtr. 1 cl. Prereq: Dent jr standing. Not open to students with credit for 452 or 560 prior to Su Qtr 1981.

563 Periodontology P 1
Advanced periodontal therapy including treatment planning and an introduction to advanced treatment modalities with which the general practitioner should be familiar. Au Qtr. 1 cl. Prereq: Dent jr standing. Not open to students with credit for 563 prior to Wi Qtr 1982.

567 Endodontics I P 1
Basic techniques and procedures used in the treatment of pulpless teeth.
Sp Qtr. 1 cl. Prereq: Dent soph standing.

568 Endodontics II P 1
Laboratory experience in endodontics. Su Qtr. 2 lab hrs for 5 wks. Prereq: Dent jr standing.

569 Endodontics III P 1
The rationale and prognosis of endodontic procedures; application of treatment techniques peculiar to endodontics, including radiography, intracanal preparations, and root fillings.
Sp Qtr. 1 cl. Prereq: Dent jr standing.

571 Pharmacology I P 1
General pharmacology including the origin and methods of development of drugs; basic pharmacy involving prescription writing, the metric and apothecary systems, drug standards, and federal drug legislation and regulation.
Au Qtr. 1 cl. Prereq: Dent soph standing.

572 Pharmacology II P 1
The pharmacology of drugs with possible applications to dentistry, including premedication, postmedications, and drugs affecting the autonomic nervous system.
Wi Qtr. 1 cl. Prereq: Dent soph standing.

579 Local Anesthesiology P 1
The theory, chemistry, and technique of local anesthesia for dental procedures.
Sp Qtr. 1 cl. Prereq: Dent soph standing.

582 Removable Complete Prosthodontics
Prereq: Dent fresh standing.
582.01 Lecture P 1
Introduction to the nomenclature equipment, and materials of removable prosthodontics.
Au Qtr. 1 cl.
582.02 Laboratory P 1
Au Qtr. 4 lab hrs.

583 Removable Complete Prosthodontics P 1
The clinical implications of complete denture construction.
Su Qtr. 1 cl. Prereq: Dent jr standing.

584 Fixed Prosthodontics I P 2
Principles and techniques, complete crowns: preparation, fabrication, casting, and cementation.
Au Qtr. 1 cl, 3 lab hrs. Prereq: Dent soph standing.

585 Fixed Prosthodontics II P 3
Principles and technical procedures; fixed bridges utilizing basic types of retainers, rigid and semi-rigid connectors, metal and resin pontics.
Wi Qtr. 1 cl, 6 lab hrs. Prereq: Dent soph standing.

586 Fixed Prosthodontics III P 3
Principles and technical procedures, temporary crowns, porcelain-metal crowns, and fixed bridges. Downes.
Sp Qtr. 1 cl, 6 lab hrs. Prereq: Dent soph standing.

587 Removable Partial Prosthodontics
Prereq: Dent fresh standing.
587.01 Lecture P 1
The relation of the diagnostic aspects of removable partial dentures to their design and construction.
Sp Qtr. 1 cl.
587.02 Laboratory P 1
Sp Qtr. 4 lab hrs.

589 Removable Partial Prosthodontics P 1
The advanced principles and design of removable partial dentures and their clinical applications.
Su Qtr. 1 cl. Prereq: Dent jr standing.

593 Individual Studies P 1-6
Individual studies in any of the recognized fields of dentistry.
Su, Au, Wi, Sp Qtrs. Prereq: Dent fresh or soph standing. Repeatable. This course is graded S/U.
661 Clinical Oral Surgery and Pain Control P 2
Sp Qtr. 4 clin hrs. Prereq: Dent jr standing.

667 Applied Anatomy P G 1
Anatomy of the head and neck as applied to clinical dentistry.
Wi Qtr. 1 cl. Prereq: Dent jr standing.

620 Orientation to Clinical Dentistry P 1-10
Interdisciplinary orientation and direct guidance to clinical practice (including clinical policies; procedures; time, patient, and treatment management through individual conferences, group seminars, and clinical practice).
Su Qtr. Prereq: Dent jr standing. Repeatable to a maximum of 16 cr hrs. This course is graded S/U.

523 Community Dentistry IV P 1
An introduction to, philosophy of, equipment for, and problems encountered in the treatment of dental needs of the handicapped homebound patient. Lotz.
Sp Qtr. 1 cl. Prereq: Dent jr standing.

631 Operative Dentistry IV
Prereq: Dent jr standing.
631.01 Lecture P 1
Clinical diagnosis of pulp disease; protection and conservative treatment of the vital pulp; factors influencing the success or failure of restorative materials in clinical practice. Beckwith.
Su Qtr. 1 cl.
631.02 Clinic P 3
Au Qtr. 6 clin hrs.

632 Operative Dentistry V
Prereq: Dent jr standing. Not open to students with credit for 532 prior to Su Qtr 1977.
632.01 Lecture P 1
Detailed study of restorative materials; indications and contraindications for each; their manipulation and individual requirements in cavity preparation. Beckwith.
Au Qtr. 1 cl.
632.02 Clinic P 3
Wi Qtr. 8 clin hrs.

633 Clinical Operative Dentistry I P 3
Sp Qtr. 6 clin hrs. Prereq: Dent jr standing.

651 Pedodontics III P 1
Detailed study of materials presented in 552, restorative materials used in pedodontics; the use of X-Ray in pedodontic practice.
Wi Qtr. 1 cl. Prereq: Dent jr standing.

652 Clinical Pedodontics I P 1
Wi Qtr. 2 clin hrs. Prereq: Dent jr standing.

653 Clinical Pedodontics II P 1
A continuation of 652.
Sp Qtr. 2 clin hrs. Prereq: Dent jr standing.

654 Orthodontics I P 1
Diagnosis and treatment for the interception of orthodontic problems and beginning studies on development of occlusion.
Au Qtr. 1 cl. Prereq: Dent jr standing.

655 Orthodontics II P 1
Continuation of the study of the development of occlusion, studies on growth and development of the stomatognathic system, and use of roentgenographic cephalograms in orthodontics.
Wi Qtr. 1 cl. Prereq: Dent jr standing.

656 Orthodontics III P 1
Etiology, classification, and treatment of dento-facial malformations, physiology of tooth movement and character of tissues involved.
Sp Qtr. 1 cl. Prereq: Dent jr standing.

661 Clinical Periodontology I P 1
Au Qtr. 3 clin hrs. Prereq: Dent jr standing.

662 Clinical Periodontology II P 1
A continuation of 661.
Wi Qtr. 3 clin hrs. Prereq: Dent jr standing.

663 Clinical Periodontology III P 1
A continuation of 662.
Sp Qtr. 3 clin hrs. Prereq: Dent jr standing.

668 Clinical Endodontics I P 1
Wi Qtr. 2 clin hrs. Prereq: Dent jr standing.

669 Clinical Endodontics II P 2
Sp Qtr. 4 clin hrs. Prereq: Dent jr standing.

672 Pharmacology III P 1
The chemistry, indications, actions, and effects of antibiotics and analgesics.
Au Qtr. 1 cl. Prereq: Dent jr standing.

681 Clinical Removable Prosthodontics I P 2
Au Qtr. 4 clin hrs. Prereq: Dent jr standing.

682 Clinical Removable Prosthodontics II P 3
Wi Qtr. 6 clin hrs. Prereq: Dent jr standing.

683 Clinical Removable Prosthodontics III P 3
Sp Qtr. 6 clin hrs. Prereq: Dent jr standing.

684 Fixed Prosthodontics
684.01 Lecture P 1
Temporary restorations; gingival soft tissue management; removal of crowns and/or bridges; post and core techniques; cements and cementation, clinic and college lab procedures; clinical applications and procedures. Metzler.
Au Qtr. 1 cl. Prereq: Dent jr standing.
684.02 Laboratory P 1
Metal preparation, porcelain application, and metal finishing in fixed prosthodontics.
Su Qtr. 2 lab hr. Prereq: Dent jr standing and permission of instructor. This course is graded S/U.

685 Fixed Prosthodontics V
Prereq: Dent jr standing.
685.01 Lecture P 1
Interocclusal registrations and records; tooth preparation for veneered crowns; porcelain jacket crown; thermo-setting acrylic resin; elastic impression materials; die materials, dies, and transfer coping; connectors, pontics and pontic form, clinical applications and procedures. Metzler.
Wi Qtr. 1 cl.
685.02 Clinic P 1
Au Qtr. 3 clin hrs.

686 Fixed Prosthodontics VI
Prereq: Dent jr standing.
686.01 Lecture P 1
Crowns for removable partial denture retainers, crowns under existing removable partial dentures, crown and bridge repairs; pin retained castings, fixed bridge indications and contra-indications, abutment and retainers selection; bridge patterns and splitting of teeth, clinical applications and procedures. Metzler.
Sp Qtr. 1 cl.
686.02 Clinic P 2
Sp Qtr. 6 clin hrs.

689 Removable Partial Prosthodontics P 1
Complex problems of removable partial dentures and their clinical application. Svensson.
Wi Qtr. 1 cl. Prereq: Dent jr standing.
693 Individual Studies in Dentistry
P G 1-6
Advanced studies in any of the recognized fields of dentistry.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Dent Jr standing. Repeatable. This course is graded S/U.

700 Special Problems P G 1-15

700.01 Advanced Oral Surgery and Anesthesia
Diagnosis and treatment of surgical conditions of the teeth and contiguous structures; advanced techniques in surgery and local and general anesthesia.

700.02 Advanced Orthodontics
Applied osteology and myology in cephalometric roentgenographic interpretations; review of occlusal growth and development factors in normal occlusion; correction of malocclusions and dento-facial malformations. Williams and Wade.

700.03 Advanced Periodontics
Diagnosis and treatment of periodontal disease; correlation between the disease of the periodontal and probable systemic diseases, and management of diseases of a purely dental origin.

700.04 Advanced Prosthodontics
The diagnosis, treatment, and replacement of missing or lost teeth and parts of the mouth by prosthetic appliances; complete removable partial or fixed restorations. Walker.

700.05 Advanced Oral Pathology and Diagnosis
The interrelationships of gross microscopic and clinical pathology; current advances in the field of oral pathology and diagnosis. Cavalaris and Bleitz.

700.06 Advanced Endodontics
The diagnosis of pulp and periapical diseases and their treatment by surgical and non-surgical techniques.

700.07 Advanced Periodontics
Lectures, seminars, and clinical practice encompassing all phases of pedodontics and interceptive orthodontics. Bowers and Kramer.

700.08 Advanced Dental Materials
The science of dental materials. Rieger.

700.09 Advanced Oral Histology and Embryology
The principles of histology and embryology applied to the structures in the oral region— their development, morphology, functions, and clinical relationships. Matt.

700.10 Advanced Operative Dentistry
Clinical problems in operative dentistry and their correlation with problems in related fields of dentistry; special emphasis on preventive dentistry.

701 Advanced Clinical Oral Maxillofacial Surgery P 4
Clinical experience in removal of teeth, biopsy, minor preprosthetic, and post operative patient care.
Su, Au, Wi Qtrs. 1 cl, 4 clinic hrs. Prereq: Dent Jr standing.

704 Advanced Oral and Maxillofacial Surgery P 2
Diagnosis and management of infections, cysts, tumors, deformities, and fractures of the jaws and associated structures.
Au Qtrs. 2 cl. Prereq: Dent Jr standing.

708 Hospital Dentistry
Define the role of the hospital in the treatment of dental patients and provide experience in the hospital so the dentist can contribute to total patient care.

708.01 Lecture P G 1
Hospital dental practice, hospital staff organization, privileges, medical records, patient evaluation, operating room, emergency room protocol, in-patient orders and care.
Wi Qtr. 1 cl. Prereq: Dent Jr standing.

708.02 Clinic: University Hospital P 1
In-patient and out-patient general anesthesia, operating room, emergency room, out-patient dentistry, clinics, hospital pathology service, medicine and surgery conferences, ward rounds, laboratory services, oral surgery rounds.
Su, Au, Wi, Sp Qtrs. 1 4-hr clinic. Prereq: 708.01.

708.03 Clinic: Children's Hospital P 1
Operating room, emergency room, out-patient dentistry, out-patient clinics, observation in general anesthesia, medical and surgical conferences, ward rounds, laboratory services.
Su, Au, Wi, Sp Qtrs. 1 4-hr clinic. Prereq: 708.01.

710 Current Topics in Dental Practice P 2
Lectures updating advances in dentistry; presented by faculty from the disciplines of surgery, orthodontics, endodontics, dental materials, oral diagnosis, pedodontics, pedodontics, and community dentistry.
Sp Qtr. 1 2-hr cl. Prereq: Sr dentistry. This course is graded S/U.

720 Advanced Orientation to Clinical Dentistry P 1-10
Provides interdisciplinary orientation and direct guidance to clinical practice including clinical policies, procedures, time, patient, and treatment management through individual conferences, group meetings, and clinical practice.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Dent Jr standing. Repeatable to a maximum of 18 or hrs. This course is graded S/U.

721 Community Dentistry V P 1
Dental practice administration: dental jurisprudence; ethics and legal aspects of the practice of dentistry. McCuen.
Sp Qtr. 1 cl. Prereq: Dent Jr standing.

722 Community Dentistry VI P 1
Dental practice administration: dental economics, records, tax liability. McCuen.
Su Qtr. 1 cl. Prereq: Dent Jr standing.

723 Community Dentistry VII P 1
Dental practice administration: the social aspects of the practice of dentistry. McCuen.
Au Qtr. 1 cl. Prereq: Dent Jr standing.

731 Clinical Operative Dentistry II P 3
Review of the basic principles of operative dentistry and their clinical application to special problems.
Su Qtr. 6 clinic hrs. Prereq: Dent Jr standing.

732 Clinical Operative Dentistry III P 3
Introduction of special technical applications in operative dentistry and their clinical applications. Beckwith.
Au Qtr. 6 clinic hrs. Prereq: Dent Jr standing.

733 Clinical Operative Dentistry IV P 3
A continuation of 732. Advanced theories, technical procedures, and materials in operative dentistry; their value, limitations, and clinical application. Marquard.
Wi Qtr. 6 clinic hrs. Prereq: Dent Jr standing.

742 Oral Pathology II P G 2
Medical aspects of oncology including the diagnosis, treatment, and prognosis of cancerous problems and discussion of recent advances in cancer research and etiology. Marquard.
Au Qtr. 1 cl. Prereq: Dent Jr standing.
743 Oral Pathology III  P  G 1
Clinico-pathologic conference pertaining chiefly to neoplastic disease, particularly in the head and neck regions. Marquard.
Sp Qtr. 1 cl. Prereq: Dent sr standing.

744 Practical Approach to Oral Disease  P  2
The clinical evaluation and management of patients with common oral lesions. 
Su Qtr. 1 2-hr cl. Prereq: Successful completion of 543, 546, and Pathol 665; or permission of instructor; dent jr standing; Not open to students with credit for 741 prior to Su Qtr 1982.

745 Clinical Oral and Physical Evaluation I  P  1
Wi Qtr. 2 clinic hrs. Prereq: Dent jr standing.

746 Clinical Oral and Physical Evaluation II  P  1
A continuation of 745.
Su Qtr. 2 clinic hrs. Prereq: Dent sr standing.

747 Clinical Oral Radiology I  P  1
O'Brien. 
Wi Qtr. 2 clinic hrs. Prereq: Dent jr standing.

748 Clinical Oral Radiology II  P  1
Sp Qtr. 2 clinic hrs. Prereq: Dent jr standing.

749 Clinical Oral Radiology III  P  1
A continuation of 748. O'Brien.
Su Qtr. 2 clinic hrs. Prereq: Dent sr standing.

751 Clinical Pedodontics III  P  2
Su Qtr. 4 clinic hrs. Prereq: Dent sr standing.

752 Clinical Pedodontics IV  P  2
Wi Qtr. 4 clinic hrs. Prereq: Dent sr standing.

753 Clinical Pedodontics V  P  1-3
An elective course in advanced clinical pedodontics with special emphasis on the developmentally disabled child. Bowers. 
Sp Qtr. 2 clinic hrs. Prereq: Completion of clinical pedodontics sequence 911, 952, 963, 751, 752.

754 Clinical Periodontology IV  P  1
Su Qtr. 2 clinic hrs. Prereq: Dent sr standing.

756 Clinical Periodontology V  P  1
A continuation of 751.
Au Qtr. 2 clinic hrs. Prereq: Dent sr standing.

757 Clinical Periodontology VI  P  1
A continuation of 756. 
Sp Qtr. 2 clinic hrs. Prereq: Dent sr standing.

768 Clinical Endodontics III  P  2
Au Qtr. 4 clinic hrs. Prereq: Dent sr standing.

760 Clinical Endodontics IV  P  1
A continuation of 768. 
Wi Qtr. 2 clinic hrs. Prereq: Dent sr standing.

771 Pharmacology IV  P  1
The chemistry of tranquilizers; indications for their use and their action; a review of prescription writing. 
Su Qtr. 1 cl. Prereq: Dent sr standing.

778 Anxiety and Pain Control  P  1 or 2
Principles of anxiety control by sedative techniques with nitrous oxide and with IV medications; methods of assessment, monitoring, and management of complications. 
Wi Qtr. 2 cl. Prereq: Dent jr standing.

781 Clinical Removable Prosthodontics IV  P  3
Au Qtr. 6 clinic hrs. Prereq: Dent sr standing.

782 Clinical Removable Prosthodontics V  P  2
Walker. 
Au Qtr. 4 clinic hrs. Prereq: Dent sr standing.

783 Clinical Removable Prosthodontics VI  P  2
A continuation of 782. Walker. 
Wi Qtr. 4 clinic hrs. Prereq: Dent sr standing.

784 Clinical Fixed Prosthodontics I  P  3
Au Qtr. 4 clinic hrs. Prereq: Dent sr standing. Not open to students with credit for 784 prior to Au Qtr 1981.

785 Clinical Fixed Prosthodontics II  P  2
A continuation of 784.
Wi Qtr. 4 clinic hrs. Prereq: Dent sr standing.

790 Advanced Dental Topics or Problems  P  1-6
Lectures and discussions of current topics, laboratory or clinical participation in problems or investigation related to dentistry. Presented by faculty, guest lecturers or clinicians. 
Au, Wi, Sp Qtrs. Arr. Prereq: Open only to dent students who meet college stated prereqs and who have permission of the college office and instructor. Maximum number of cr hrs courses may be repeated varies with student's standing and according to criteria established by college. These courses are graded S/U.

790.7 Oral Radiology
790.01 Community Dentistry
790.02 Community Dentistry
790.03 Community Dentistry
790.04 Community Dentistry
790.05 Community Dentistry
790.06 Community Dentistry
790.07 Community Dentistry
790.08 Fixed Prosthodontics
790.09 Fixed Prosthodontics
790.10 Fixed Prosthodontics
790.11 Fixed Prosthodontics
790.12 Fixed Prosthodontics
790.13 Fixed Prosthodontics
790.14 Fixed Prosthodontics
790.15 Endodontics
790.16 Endodontics
790.17 Endodontics
790.18 Endodontics
790.19 Endodontics
790.20 Endodontics

790.28 Operative Dentistry
790.29 Oral Biology
790.30 Oral Biology
790.31 Oral Biology
790.32 Oral Biology
790.33 Oral Biology
790.34 Oral Biology
790.35 Oral Biology
790.36 Oral Diagnosis and Medicine
790.37 Oral Diagnosis and Medicine
790.38 Oral Diagnosis and Medicine
790.39 Oral Diagnosis and Medicine
790.40 Oral Diagnosis and Medicine
790.41 Oral Diagnosis and Medicine
790.42 Oral Diagnosis and Medicine
790.43 Oral Surgery
792.03 Oral Pathology P G 1-5
Systemic disturbances and their oral manifestations.

792.04 Dental Radiology P G 1-5
Radiologic methods and diagnosis.

792.05 Oral Diagnosis P G 1-5
Examination and diagnosis of oral disease.

792.06 Dental Therapeutics P G 1-5
Principles of pharmacology in relation to patient care.

792.07 Physical Diagnosis P G 1-5
Physical evaluation of the dental patient and its correlation with the required treatment.

792.08 Dental Epidemiology P G 1-5
The principles of epidemiology in relation to dental health and disease.

792.12 Errors in Measurement P G 1-5
Discussion of distribution functions as applied to random errors and the propagation of error. Foreman.

792.13 Oral Microbiology P G 1-5
Discussion of oral and systemic diseases with oral manifestation of bacterial, viral, and immunologic etiology. Rosen.

792.14 Behavioral Sciences in Dentistry P G 1-5
A study of the psychological aspects of dental treatment involving the dentist, patients, and dental office staff. Repeatable to a maximum of 5 or hrs.

792.15 Introduction to the Research Process P G 1-5
Familiarization with scientific activity and statistics, examination of literature, library searches, and completion of a research outline.

793 Individual Studies P G 1-5
Individual assignments in each specialty of dentistry; students will elect to work in desired subjects after a conference with the instructor in charge.

793.01 Oral Surgery and Anesthesia

793.02 Orthodontics

793.03 Periodontics

793.04 Prosthodontics

793.05 Oral Pathology

793.06 Endodontics

793.07 Pedodontics

793.08 Operative Dentistry

793.09 Oral Diagnosis

793.10 Fixed Partial Prosthodontics

793.11 Oral Radiography

794 Group Studies P G 3-5
Group studies on special problems in each specialty of dentistry.

794.01 Oral Surgery and Anesthesia

794.02 Orthodontics

794.03 Periodontics

794.04 Prosthodontics

794.05 Oral Pathology

794.06 Endodontics

794.07 Pedodontics

794.08 Operative Dentistry

794.09 Oral Diagnosis

794.10 Fixed Partial Prosthodontics

794.11 Oral Radiography
985 Histologic Laboratory Technique G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Not open to students with maximum allowable credit for 785 prior to Su Qtr 1977.

885 Research Methods in Dentistry G 3-5
A discussion on conceptual, methodological, and technical problems encountered in development of dental research programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Not open to students with maximum allowable credit for 786 prior to Su Qtr 1977. Repeatable.

894 Group Studies G 3-5
Advanced group studies in dentistry.

993 Individual Studies G 3-5
Advanced individual studies in dentistry.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable. This course is graded S/U.

999 Research in Dentistry G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

East Asian Languages and Literatures

276 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-5816

131 East Asian Humanities U 5
Introduction to the contemporary and traditional cultures of China, Korea, and Japan. Taught through readings, films, demonstrations, and discussions.
Su, Au, Wi, Sp Qtrs. 5 cr. BER/LAC/LAR course.

151 Masterpieces of East Asian Literature in Translation U 5
Highlights of Chinese, Japanese, and Korean literature: novels, stories, plays, and poetry from the world's longest continuous cultural tradition.
Su, Wi, Sp Qtrs. 5 cr. BER/LAC/LAR course.

293 Individual Studies U 1-5
Individual investigation of problems in East Asian cultures, languages, and literatures.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

341 Thought in China and Japan U 5
The shaping of two cultures: essentials of the major traditional schools of thought in China and Japan and their impact on society.
Sp Qtr. 5 cr. BER/LAC course.

693 Individual Studies U G 1-5
Individual investigation of East Asian cultures, languages, and literatures.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept chairman. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

697 Study in East Asian Languages and Literatures U G Arr
Study in an approved program in East Asia; an opportunity for students to study in a Japanese- or Chinese-speaking environment and to obtain Ohio State credit for their work.
Prereq: Permission of dept faculty. Repeatable to a maximum of 45 cr. hrs. Travel and subsistence costs to be borne by the student.

701 Pedagogical Syntax for East Asian Languages U G 3
Training in the presentation of grammar in East Asian language classes; special attention given to problems of translating linguistic rules into teachable units.
Su, Au, Wi, Sp Qtrs. 3 cr. Prereq: Permission of instructor.

702 Materials Preparation for East Asian Languages U G 3
Preparation of materials for teaching Chinese, Japanese, and Korean; emphasis on the special problems faced by English-speaking students in learning these languages.
Au, Wi, Sp Qtrs. 3 cr. Prereq: Permission of instructor.
East European Languages and Literatures

224 Dieter Gunz Hall of Languages, 1841 Millikin Road, 422-6033

294 Group Studies U 1-5
Topics related primarily to Albanian, Estonian, Hungarian, Latvian, Lithuanian.
Sp Qtr. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs for each of the languages listed.

671† Grammar of Selected East European Languages U G 5
Fundamentals of grammar as required for reading one of the following: Albanian, Estonian, Hungarian, Latvian, Lithuanian, or Romanian.
Wi Qtr. 6 cl. Prereq: Permission of the instructor. Repeatable to a maximum of 25 or hrs; individual languages not repeatable.

672† Reading of Selected East European Languages U G 5
Reading of elementary and intermediate texts and translating into English one of the following: Albanian, Estonian, Hungarian, Latvian, Lithuanian or Romanian.
Sp Qtr. 6 cl. Prereq: 671 (some language) or equiv and permission of instructor. Repeatable to maximum of 25 or hrs; individual languages not repeatable.

693 Individual Studies U G 1-10
Topics related primarily to Albanian, Estonian, Hungarian, Latvian, Lithuanian, and Romanian.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Permission of chairman. Repeatable to a maximum of 20 or hrs, including cl hrs in 693.40. This course is graded SU.

684 Group Studies U G 1-10
Topics related primarily to Albanian, Estonian, Hungarian, Latvian, Lithuanian, and Romanian.
Wi Qtr. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs for each of the languages noted.

Economics

221 Hagerty Hall, 1775 College Road, 422-6701

100 Introduction to Economics U 5
Study of economic concepts basic to a wide range of social problems; application of these principles to understanding economic activity in firms, households, and the economy.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 200 or Agr Econ 100. Recommended as a foundation for further courses in economics. BER/LAC/CLAR course. SS Admis Cond course.

200 Principles of Economics I U 5
Introduction to economic theory; supply and demand for goods and services; market structure; the distribution of income.
Su, Au, Wi, Sp Qtrs. 5 cl. H200 (honors) may be available to students enrolled in an honors program or by permission of dept. First required course for students planning to take 500- level courses in econ. RFB/LS/ACL/AR course. SS Admis Cond course.

206 Economics of the Ghetto U 5
Interaction between economic problems and race problems in urban areas.
Wi Qtr. 5 cl. Prereq: 100 or equiv. Not open to students with credit for 206.02. BER/LAC/CLAR course. SS Admis Cond course.

294† Group Studies U 1-5
Current problems not covered in other courses; application of economic analysis of scarcity and choice of current policy significance.
Sp Qtr. 5 cl. Prereq: 100 or 200 or equiv. Repeatable to a maximum of 10 or hrs.

400 Principles of Economics II U 5
Construction of 200; theory of national income determination; economic fluctuations; money, government policy; international economics.
Su, Au, Wi, Sp Qtrs. 5 cl. H400 (honors) may be available to students enrolled in an honors program or by permission of dept. Pre req: 200 or permission of instructor. BER/LAC/CLAR course.

442 Elementary Economic Statistics U 5
Descriptive statistics, discrete probability, Bayes law, random variables, sampling distributions.
Au, Wi, Sp Qtrs. 3 clo, 2 1-hr labs. Pre req: 10 or hrs in math above the level of 103.

500 Evolution of Economic Thought U G 5
Critical analysis of ideas of great economists, factors which influenced those ideas; their impact upon social and economic development of the modern world.
Sp Qtr. 4 cl. Prereq: 400 or equiv.

501 Intermediate Micro-Economic Theory U G 5
Theory of consumer behavior; theory of the firm; costs and production; factor price determination; general equilibrium.
Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: 400 or equiv.

502 Intermediate Macro-Economic Theory U G 5
Analysis of the determinants of national output, income and employment levels; theory of economic growth and progressive equilibrium in an economy.
Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: 400 or equiv; 501 recommended.

508 Comparative Economic Systems U G 5
Principles and institutions for economic decision making under capitalism, socialism, communism, and "mixed" systems; comparison of selected countries.
Sp Qtr. 4 cl. Prereq: 400 or equiv. Not open to students with credit for 590.

512 General Economic History U G 5
Evolving institutional changes fundamental to Western development; analysis of the rise of nation-state, commercial and industrial development, and evolution of a market economy.
Au, Wi, Sp Qtrs. 4 cl. Prereq: 400 or equiv.

520 Money and Banking U G 5
Organization, operation, and economic significance of our monetary and banking system; special reference to current conditions and problems.
Su, Au, Wi, Sp Qtrs. 4 cl. H520 (honors) may be available to students enrolled in an honors program or by permission of dept. Pre req: 400 or equiv.

530 Government Finance in the American Economy U G 5
Analysis of fiscal institutions and decision making in the public sector of the American economy; budget planning and execution; taxation; debt, fiscal policy.
Su, Au, Wi, Sp Qtrs. 4 cl. H530 (honors) may be available to students enrolled in an honors program or by permission of dept. Pre req: 400 or equiv.

532 Public Expenditure and Cost-Benefit Analysis U G 5
Economics of public choice, public goods, non-market allocations, collective decision-making, and net-benefit maximization; case studies.
Au Qtr. 4 cl. Prereq: 400 or equiv.
550 Economic Development U G 5
Empirical and theoretical consideration of long-term economic changes, including changes in industrial structure, technology, and level of national product; emphasis on developing economics.
Au Qtr. 4 cl. Prereq: 400 or equiv. Not open to students with credit for 610 or 650.

559 Population U G 5
Techniques of population analysis; the demographic transition and economic theories of population; impact of population change both in the Third World and in industrialized nations.
Sp Qtr. 4 cl. Prereq: 400 or equiv.

558 Area Studies in Economic Development U G 5
Regional analysis of economic conditions; measurement and interpretation of economic growth; national development strategies and resource utilization; inter-regional cooperation and international economic relations.
Au, Sp Qtr. 4 cl. Prereq: 400 or equiv.

558.01 Latin America
Not open to students with credit for 558.

558.04 The Soviet Union and Eastern Europe
Not open to students with credit for 559.

560 International Economic Relations U G 5
Survey of international economic relations; the basis of world trade; commercial and financial policy, particularly of the United States; and recent international economic organization.
Wi, Sp Qtr. 4 cl. Prereq: 400 or equiv. Not recommended for students who plan to take 665 and 666.

570 Government and Business U G 5
Economic and legal aspects of government regulation of business in the United States; philosophies and concepts of public control; contemporary problems.
Su, Au, Wi, Sp Qtr. 4 cl. Prereq: 400 or equiv.

571 Transportation Economics U G 5
Study of general economic characteristics and government regulation of rail, motor, water, air, and pipeline carriers; consideration of competitive relations between modes of transportation.
Wi Qtr. 4 cl. Prereq: 400 or equiv. Not open to students with credit for 676.

580 Labor Economics and Industrial Relations U G 5
Survey of the field of labor economics; trade unionism, collective bargaining; wage determination, employment, unemployment; labor legislation.
Au, Wi, Sp Qtr. 4 cl. H580 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 400 or equiv.

581 Economics of the Labor Market U G 5
Materials and methods of labor market analysis; the measurement and behavior of unemployment; employers' and employees' labor market behavior; wage determination and labor allocation.
Sp Qtr. 4 cl. Prereq: 580 or equiv.

590 Urban Economics U G 5
Analysis of urban spatial structure utilizing the techniques of economics; detailed studies of urban problems concerning housing, congestion, air pollution, local public finance, zoning, and city size.
Sp Qtr. 4 cl. Prereq: 400 or equiv. Not open to students with credit for 608 or 604.07.

591 Economics of Environmental Quality U G 5
Economic analysis of the relationships among natural resources, growth, pollution control, congestion, and social institutions.
Wi Qtr. 4 cl. Prereq: 400 or equiv. Offered in cooperation with Natural Resources.

H596 Honors Seminar in Economics U 2 or 3
Presentations by selected faculty of economic topics and issues of current interest; discussion of research problems and methods.
Wi Qtr. 1 2-hr cl. Prereq: Honors program enrollment or permission of instructor.

600 Applications of Mathematics in Economic Analysis U G 5
Coverage of the most common applications of mathematics to economic analysis and econometrics; the necessary tools from matrix algebra and calculus.
Au Qtr. 5 cl. Prereq: Math 152 or equiv and permission of instructor.

613* Economic History of the United States U G 5
General survey from discovery of America to present; European economic background; westward movement and its effects; development of economic institutions in the United States.
Wi Qtr. 4 cl. Prereq: 501 and 502, or grad standing.

614* Economic History of Western Europe U G 5
Survey from 1750 through the post-World War II period; from Britain in the West to Russia in the East.
Au Qtr. 4 cl. Prereq: 501 and 502, or grad standing.

625 National and International Money Markets U G 5
Organization, functions, and control of money markets and their submarkets; flow of funds in these markets and investment policies of market participants.
Au Qtr. 4 cl. Prereq: 501 and 520.

631 Federal Finance and Fiscal Policy U G 5
The economics of government spending and taxation; analysis of the fiscal role and instruments of government and their effects on the economy.
Au Qtr. 4 cl. Prereq: 10 or hrs in econ at the 500-level or grad standing. Not open to students with credit for 630.

633 State and Local Government Finance U G 5
Economic analysis of revenues and expenditures of state and local governments; vertical and horizontal relationships between agencies and units; specific problems in these areas.
Wi Qtr. 4 cl. Prereq: 10 or hrs in econ at the 500-level or grad standing.

640 Probability and Statistical Decision Theory U G 5
Theory of probability and stochastic processes; statistical inference, tests of significance and analysis of variance; statistical decision theory.
Au Qtr. 4 cl. Prereq: 442 or equiv and Math 152 or equiv.

641 Applied Regression and Correlation Analysis U G 5
The general linear regression model; multiple correlation, path analysis, analysis of variance and tests of significance; specification errors.
Sp Qtr. 4 cl. Prereq: 400 and 442 or equiv.

650 Economic Development: Issues and Policies U G 5
Historical and stage theories of underdevelopment; sources and patterns of growth and development; problems of demography, unbalanced growth, agriculture, and industry; foreign trade and regional development.
Wi Qtr. 4 cl. Prereq: 501 or equiv. Not open to students with credit for 652.
Comparative advantage and the gains from trade; tariffs and other trade restrictions; economic effects of protective policies; U.S. commercial policies; regional economic integration.
Wi Qtr. 4 cr. Prereq: 10 or hrs in econ at the 500-level or grad standing.

666 Financial Aspects of International Trade U G 5
International payments and receipts; foreign exchange markets; balance-of-payments adjustment under different monetary systems; macro-economic policy; international monetary reforms; foreign investments; multinational corporations.
Sp Qtr. 4 cr. Prereq: 10 or hrs in econ at the 500-level or grad standing.

670 Structure of Industry U G 5
Nature, role, and regulation of competition; market structure and social performance; antitrust laws; current economic, legal, and policy problems in the antitrust area.
Wi Qtr. 4 cr. Prereq: 501 or grad standing.

671 Economics of Energy U G 5
Economic analysis of energy resources, demand, and economic growth, with special reference to pricing, industry structure, and public policy.
Au Qtr. 2-3 hr. Prereq: 400 or equiv.

685 Labor Economics U G 5
Labor demand and supply; wages, unemployment, and inflation; economics of the household's allocation of time.
Wi Qtr. 4 cr. Prereq: 501 or equiv.

693 Individual Studies U G 1-5
Advanced readings in economics and related fields.
Su, Au, Wi, Sp Qtr. Prereq for ins: An average of B or better in all econ courses taken and a cumulative GPA of 3.0 or above. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 3-5
Advanced courses in economics and related fields.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.

Alternative Futures and Resource Management
See Nat Res 702. Offered in cooperation with Economics.

Introduction to National Security
See NSP Stud 702.

705 Micro-Economic Theory Survey U G 4
Theory of consumer behavior; theory of the firm; costs and production; factor prices; determinates; general equilibrium.
Au Qtr. 4 cr. Prereq: Grad standing or permission of instructor. Not open to students with credit for 501.

706 Macro-Economic Theory Survey U G 4
Analysis of the determinants of the national output; income and employment levels; theory of economic growth and progressive equilibrium in an economy.
Wi Qtr. 4 cr. H706 honors) may be available to students enrolled in an honors program or by permission of dept.
Prereq: Grad standing or permission of instructor. Not open to students with credit for 502.

717 Economics of Socialism U G 5
Survey of socialist thought and movements; relations of socialist thought to the theory and practice of socialist economics; planning, allocation, pricing, and controls.
Wi Qtr. 4 cr. Prereq: 501 and 502, or 705 and 706, or grad standing.

718* Economic Analysis of the Soviet Union and Eastern Europe U G 5
Analysis of the pattern of economic growth and theory, and practice of economic planning in the Soviet Union and Eastern Europe; comparison with Communist China.
Sp Qtr. 4 cr. Prereq: 501 and 502, or 705 and 706, or grad standing.

730 Public Finance U G 5
Comprehensive survey and analysis of the principal fiscal activities of contemporary governments; logic of public sector activity, taxation principles and practice, intergovernmental relations, current fiscal problems.
Wi Qtr. 4 cr. Prereq: Grad standing and 705, or permission of instructor. Not open to students with credit for 530.

740 Inference and Decision Analysis under Uncertainty U G 5
Distribution theory, point and interval estimation, statistical hypothesis testing, decision analysis under uncertainty.
Wi Qtr. 4 cr. Prereq: 640 or equiv.

741 General Linear Regression Analysis U G 5
Multiple regression analysis; the general linear model; nonlinear and distributed lag models.
Sp Qtr. 4 cr. Prereq: 600 and 740, or Stat 521.

742 Econometrics U G 5
Review of the general linear model; identification; estimating criteria; single and simultaneous equation estimation; econometric application.
Au Qtr. 4 cr. Prereq: 741.

H783 Honors Course U 3-5
A program of study arranged for each student, with individual conferences, reports, and honors thesis.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the econ courses taken and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA with distinction in econ. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

Research Principles and Techniques in Leadership and Public Policy
See NSP Stds 785.

790 Urban Economics U G 5
Application of economic theory to urban problems; topics include slums, residential segregation, intriguing location of economic activity, urban renewal, urban sprawl, transportation, and governmental organization.
Au Qtr. 4 cr. Prereq: 705, Geog 650 and grad standing, or permission of instructor.

802 History of Economic Thought G 5
A survey of economic thought with emphasis on the period from Adam Smith to the present.
Sp Qtr.

804 Price Theory G 5
Applied price theory: pricing of factors of production, distribution theory, consumer theory; pricing of final products, production theory, theory of profits.
Au Qtr. Prereq: 705 or equiv.

805 Micro-Economic Theory G 5
Nature of economic analysis; theory of demand, costs, and prices; factor price determination and functional income distribution; competition, oligopoly, monopoly, and monopsony.
Wi Qtr. Prereq: 600 and 804.
806 Macro-Economic Theory G 5
Theory of income and employment; Keynesian aggregate supply and demand; consumption, saving, and the multiplier; determinants of investment and the accelerator; government's role.
Sp Qtr. Prereq: 600 and 706 or equiv.

808 Advanced Micro-Economic Theory G 5
Wi Qtr. Prereq: 600, 605, and 806.

809 Advanced Macroeconomic Theory G 5
Sp Qtr. Prereq: 600, 605, and 806.

915 Mathematical Economics I G 5
Mathematical analysis of micro-economic problems including consumer and production theory and general equilibrium.
Wi Qtr. Prereq: 808.

916 Mathematical Economics II G 5
Mathematical analysis of macro-economic problems including static and dynamic systems and optimal control.
Sp Qtr. Prereq: 809.

820 Monetary Theory G 5
Role of money in theoretical analysis of forces determining and influencing level of income, employment, and prices.
Wi Qtr. Prereq: 520, 605, and 806 or equiv.

821 Bank Structure and Regulation G 5
Relation of bank regulation and supervision to composition of banking industry; impact of differing banking structures on economic growth and stability; proposals for structural changes.
Au Qtr. Prereq: 520, 605, and 806 or equiv.

830 Advanced Public Finance G 5
A theoretical and empirical investigation of the economic behavior of the public sector; theory of social goods, problems of tax structure, incidence, multi-unit finance.
Au Qtr. Prereq: 805.

831 Legal and Economic Problems in Taxation G 3
Legal, economic, and administrative problems in taxation.
Sp Qtr.

832 Advanced Public Finance II G 5
Continuation of 830; topics include intergovernmental relations, tax incidence and tax reform.
Wi Qtr. Prereq: 830.

842 Advanced Econometrics G 5
Theory and application of advanced quantitative research methods; computerized application of econometric methods developed in 742.
Wi Qtr. Prereq: 742.

843 General Business Conditions Analysis G 3
Theoretical and applied analysis of general economic conditions and their relation to decisions of the firm.
Wi Qtr. Prereq: 400 or equiv and differential and integral calculus. Not open to students in the structured MBA.

844 General Managerial Economics G 3
MBA core course in micro-economics; production and consumer theory, market forms, welfare, distribution, general equilibrium, and capital theory.
Sp Qtr. 2 1/2 hr cl. Prereq: 200 or equiv, and differential and integral calculus. Not open to students in the structured MBA.

850 Advanced Economic Development G 5
Survey of theoretical models and methods used in economic development and planning; theories of dualistic and demographic development; inter-industry and sector models.
Sp Qtr. Prereq: 600, 706, and 798.

861 Advanced Micro-Economic Trade Theory G 5
Advanced nonmonetary international trade theory; analysis of the effect of trade and commercial policies on the allocation of resources, income distribution, and growth.
Au Qtr. 4 cl. Prereq: 805.

862 Advanced Macroeconomic Trade Theory G 5
Advanced monetary international trade theory; analysis of payments adjustments under alternative international monetary institutions.
Wi Qtr. Prereq: 805 and 806; 861 recommended.

872 Industrial Organization G 5
Economic analysis of industry structure, conduct, performance, and related issues of public policy.
Sp Qtr. Prereq: 670 and 805.

884 Advanced Economics of the Labor Market G 5
Economic theory and empirical evidence relating to labor allocation and wage determination.
Sp Qtr. Prereq: 805 and 806.

895 Managerial Economics G 4
Introduction to microeconomic theory of demand and supply, including cost and production functions; applications for management decision making and government regulation.
Wi Qtr. 2 1/2 hr cl. Prereq: Enrollment in structured MBA.

896 Business Conditions Analysis G 4
Analysis of general economic conditions and their relation to decisions of the firm; economic forecasting models and methods for decision support and strategic planning.
Sp Qtr. 2 1/2 hr cl. Prereq: Enrollment in structured MBA.

899 Independent Seminars G 1-5
See Independent Seminars.

915 Seminar in Price Theory G 5
Special topics in economic theory.
Wi Qtr. Prereq: 808 and 809. Repeatable to a maximum of 10 or hrs.

918 Seminar in Economic Problems of the Soviet Union and Eastern Europe G 5
Selected research topics.
Au Qtr. Prereq: 717 and 718. Repeatable to a maximum of 10 or hrs.

920 Seminar in Monetary Policy G 5
Application of monetary theory to issues of public policy in banking and monetary affairs; examination of public hearings and policy literature.
Sp Qtr. Prereq: 820 and 821. Repeatable to a maximum of 10 or hrs.

920* Seminar in Government Finance G 5
Analysis of theoretical and applied aspects of fiscal economics in the American and foreign economies; selected topics of current and permanent importance.
Sp Qtr. Prereq: 631 and 632. Repeatable to a maximum of 10 or hrs.

940 Seminar in Econometrics G 5
Examination of economic problems whose solutions may advantageously be sought by use of the methods of mathematics and mathematical statistics.
Sp Qtr. Prereq: 742 and 842 or equiv or permission of instructor. Repeatable to a maximum of 10 or hrs.

950 Seminar in Economic Development and Planning G 5
Selected topics in the process of economic development and in planning for development; analysis and evaluation of planning methodologies, strategies, and systems.
Au Qtr. Prereq: 852 and 850, or permission of instructor. Repeatable to a maximum of 10 or hrs.
960* Seminar in International Economic Problems G 5
Seminar in analytical problems, theoretical and applied, of international economic adjustments; development of techniques for implementation of policies.
Sp Qtr. Prereq: 861. Repeatable to a maximum of 10 cr or hrs.

970* Seminar in Structure and Regulation of Industry G 5
Economic bases for government participation in business activities: antitrust, regulation, and collective decision making.
Au Qtr. Prereq: 372. Repeatable to a maximum of 10 cr or hrs.

981* Seminar in the Economics of the Labor Market G 5
Selected topics and issues in wage determination, employment and unemployment.
Au Qtr. Prereq: 862. Repeatable to a maximum of 10 cr or hrs.

995 Research Seminars G 3-5
Intensive study of problems in the graduate fields of specialization.
Su, Au, Wi, Sp Qtrs. Prereq: 75 hrs of grad credit; completion of core courses in decimal subdivision or permission of seminar director. Each decimal subdivision repeatable to a maximum of 30 cr or hrs. These courses are graded S/U.

995.01 Economic Theory and Mathematical Economics
995.02 Econometrics
995.03 Money, Banking, and Monetary Policy
995.04 Labor Economics
995.05 Structure and Regulation of Industry
995.06 Government Finance and Expenditure
995.07 Urban Economics
995.08 Transportation Economics
995.09 Economic Development and Development Planning
995.10 Soviet and Eastern European Economy
995.11 International Economics
995.12 Economic History

998 Research in Economics: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Economics: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Educational Policy and Leadership

121 Ramsayer Hall, 29 West Woodruff Avenue, 422-5181
See also Human Services in Education.
The areas of specialization and the courses in the Department of Educational Policy and Leadership comprising these areas of specialization are listed below:

Curriculum, Instruction, and Development
121 Ramsayer Hall, 29 West Woodruff Avenue, 422-5181
108, 494.48, 494.51, 610, 615, 690, 692.48, 692.49, 692.51,
692.48, 693.49, 693.51, 694.46, 694.49, 694.51, 698, 700.01,
700.02, 700.03, 700.04, 723, 724, 725, 755, 786, 789, 790,
800, 825, 841, 851, 857, 859, 860, 861, 862, 864, 865, 866,
868, 869, 870, 871, 872, 873, 894.48, 894.49, 894.51, 894.46,
894.51, 899, 925.36, 925.48, 905.49, 925.51, 966, 999.48,
999.49, 999.51

Educational Administration
301 Ramsayer Hall, 29 West Woodruff Avenue, 422-7700
603, 692.44, 693.35, 693.44, 694.35, 694.44, 726, 810, 820,
830, 840, 846, 847, 848, 849, 846.35, 846.44, 848.49, 899,
925.44, 925.49, 950, 951, 952, 953, 955, 956, 957, 958, 959,
960, 961, 999.35, 999.44, 999.49.

Higher Education, Student Affairs, and Adult Education
301 Ramsayer Hall, 29 West Woodruff Avenue, 422-7700
270.04, 489, 612, 673, 674, 692.32, 692.33, 693.32, 693.33,
693.35, 694.32, 694.33, 694.35, 726, 780, 781, 782, 806, 810,
816, 820, 835, 840, 842, 884.32, 884.35, 887, 888,
894.32, 925.32, 925.35, 926, 930, 931, 932, 933, 934,
935, 938, 943, 945, 954, 990.32, 999.35, 999.55.

Humanistic Foundations
121 Ramsayer Hall, 29 West Woodruff Avenue, 422-5181
650.01, 650.02, 650.03, 650.04, 692.55, 693.40, 693.41,
693.55, 694.40, 694.41, 694.55, 701, 707, 717, 719, 720, 722,
727, 811, 815, 822, 856, 872, 878, 899, 894.55, 901, 902,
903, 925.40, 925.41, 925.55, 927, 928, 929, 999.40, 999.41,
999.55.

Vocational-Technical Education
160 Ramsayer Hall, 29 West Woodruff Avenue, 422-6037
251, 252, 259, 260, 261, 262, 263, 264, 265, 266, 269, 289,
294, 478, 520, 521, 523, 524, 529, 530, 531, 570, 675.01,
575.02, 575.03, 575.04, 575.05, 575.06, 575.22, 587.23, 587.29, 601,
602, 606, 606.23, 606.29, 608.30, 609, 630, 631, 646,
656, 657, 658, 659, 660, 670, 692.22, 692.23, 692.29, 652.30,
692.32, 693.23, 693.29, 693.30, 694.22, 694.23, 694.29,
694.30, 801, 802, 903, 904, 905, 907, 908, 921, 930.22,
830.23, 830.29, 830.30, 833, 884.30, 894.30, 925.22, 925.23,
925.30, 999.22, 999.23, 999.25, 999.30.

108† Introduction to the Study of Education U 3
An introductory study of cultural factors that affect education, with students helped to understanding through an examination of their own lives.
Su, Wi, Su Qtrs. Not open to students with credit for Ed-F & R 108.

251 Evaluation of Occupational Competency U 3-6
Occupational competency credit in subject matter field established by comprehensive examination.
Su, Wi Qtrs. Prereq: 4 yrs occupational experience. Repeatable to a maximum of 24 cr or hrs in Ed-Votee 251. Open only to students majoring in one of the vocational-technical education teaching areas. This course is available for EM credit.

252 Upgrading Experience(s) in Private/Public Enterprises U 1-6
Upgrading of occupational competency through planned experience related to the teaching field of specialization, with 80 hours of experience equaling one credit hour.
Su, Au, Wi, Sp Qtrs. Prereq: 4 yrs occupational experience in area of teaching specialization. Repeatable to a maximum of 12 cr or hrs, including or hrs in Ed-Votee 252. This course is graded S/U.
259 Keyboarding U 1
Focuses on alphabetic keyboard learning, technique development, and keyboarding fluency and speed.
Au. Wi. Sp Qtrs. 2 hr. lab x 3 wk s, 10 hrs lab arr. Open only to business education majors or minors; or by permission of instructor. Not open to students with credit for Ed-Votec 260. This course is available for EM credit. This course is graded S/U.

260 Typewriting I U 2
Development of skill in the operation of the typewriter, in producing copy, and in concomitant learnings.
Au. Qtr. 1 hr. lab. Open only to business education majors and minors, or by permission of instructor. Required by the 2nd yr of students majoring in business education who lack proficiency required for admission to 266. Placement tests for students having had previous training in typewriting will be given during the first class meetings of 260, 261, and 262; students reporting for placement tests need not be registered in this course. Not open to students with credit for Ed-Votec 260. This course is available for EM credit.

261 Typewriting II U 2
Continuation of 260 with emphasis on production typing.
Wi Qtr. 1 hr. lab. Prereq: 260 or Ed-Votec 260. Not open to students with credit for Ed-Votec 261. This course is available for EM credit.

262 Typewriting III U 2
Continuation of 261.
Sp Qtr. 1 hr. lab. Prereq: 261 or Ed-Votec 261. Not open to students with credit for Ed-Votec 262. This course is available for EM credit.

263 Shorthand I U 4
The theory of shorthand, development of good shorthand writing techniques, the ability to take dictation at increasing rates of speed, and the ability to transcribe using correct punctuation and spelling.
Au Qtr. 1 hr. lab. Prereq: 260 or Ed-Votec 260. Required no later than the 2nd yr of students majoring in business education who lack proficiency required for admission to 266. Placement tests for students having had previous training in shorthand will be given during first class meeting of 263, 264, 265 and 266; students reporting for placement tests need not be registered in these courses. Not open to students with credit for Ed-Votec 263. This course is available for EM credit.

264 Shorthand II U 4
Continuation of 263.
Wi Qtr. 4 cl. lab arr. Prereq: 263 or Ed-Votec 263 or equiv. Not open to students with credit for Ed-Votec 264. This course is available for EM credit.

265 Shorthand III U 4
Continuation of 264.
Sp Qtr. 4 cl. lab arr. Prereq: 264 or Ed-Votec 264 or 265. Not open to students with credit for Ed-Votec 265. This course is available for EM credit.

266 Advanced Stenography U 4
Continued development of speed and accuracy in shorthand and transcribing, with major emphasis on transcription of legible letters.
Sp Qtr. 3 cl. 1 2 hr. lab. Prereq: 262 or Ed-Votec 262, and 265 or Ed-Votec 265, or equivs. For placement tests in typewriting and shorthand, see 265 and 266. Not open to students with credit for Ed-Votec 266. This course is available for EM credit.

269 Office Machines U 2
A survey of office machines: calculator, duplicators, transcription machines, word processor, a hands-on application and problems course.
Wi Qtr. Not open to students with credit for Ed-Votec 269.

270 Seminars in Career and Self Development U 3
Examination of self in relation to educational and career goals; self assessment, decision making, identification and use of campus resources, employability, and work adjustment skills.
Su, Au, Wi. Sp Qtrs. 1 1/2 hr. cl. Repeatable to a maximum of 12 cr. hrs, including cr. hrs in Ed-Hr Ser 270.04 and Ed-Sp Su 270, 270.01, 270.02, 270.03, and 270.04, with a maximum of 3 cr. hrs in any decal or subcourse. This course is graded S/U.

270.04 Career Development and Leadership Training in Higher Education
Designed to explore possible careers in higher education and to conduct leadership training in terms of higher educational functions and organizations.
Cross listed in Human Services Education.

288 Field Experience in a Community Agency: Vocational-Technical Education U 2-5
Professional service with children or youth in some school or community agency.
Su, Au, Wi. Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr. hrs, including cr. hrs in Ed-Votec 288.

294 Group Studies in Vocational-Technical Education U 1-5
Group studies for students in specialized programs.
Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr. hrs, including cr. hrs in Ed-Votec 294.

476 Assessing Learning Needs of Employees U 3
Sp Qtr. 1 3 hr. cl. Not open to students with credit for Ed-Votec 476.

494 Group Studies U 1-5
Group studies for students in specialized programs.
Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr. hrs, including cr. hrs in Ed-FAR 494.46 and 494.51

494.48 Educational Development
494.51 Educational Change

520 Teaching Typewriting and Office Practice U 3
Objectives, methods, classroom procedures, and materials for teaching typewriting and clerical practices. Olmstead.
Au Qtr. 2 1/2 hr. cl. Prereq: 262 or Ed-Votec 262, and Educ 451; or equivs. Not open to students with credit for Ed-Votec 520.

521 Teaching Shorthand and Transcription U 3
Objectives, methods, classroom procedures, materials, and evaluation for teaching shorthand, transcription, and business English.
Sp Qtr. 2 1/2 hr. cl. Prereq: 265 or Ed-Votec 265, and Educ 451; or equivs. Not open to students with credit for Ed-Votec 521.

523 Teaching Accounting and Automated Processing U 3
The objectives, methods, classroom procedures, and materials for teaching accounting, business mathematics, and automated processing. Pomeroy.
Wi Qtr. 2 1/2 hr. cl. Prereq: Accept 521 and Educ 451, or equivs. Not open to students with credit for Ed-Votec 523.

524 Teaching Basic Business Subjects U 3
Objectives, methods, classroom, procedures, and materials for teaching general business, business law, consumer economics, and business organization in the high school.
Au Qtr. 2 1/2 hr. cl. Prereq: Educ 451 or equiv, and 25 0 cr. hrs in geo, econ, and bus adm. Not open to students with credit for Ed-Votec 524.
529 Methods of Teaching Distributive Education U G 3
Objectives, methods, classroom procedures, and materials for teaching distributive education classes.
Au Qtr. Prereq: Educ 451 or equiv. Not open to students with credit for Ed-Votec 529.

530 Methods of Teaching Trade and Industrial Subjects U 3
Designed to prepare trade and industrial teachers in the preparation and delivery of lessons for the related technical classes and manipulative operations in the laboratory.
Sp Qtr. 1 2½-hr cl. Prereq. Trade and industrial education major or permission of instructor. Not open to students with credit for Ed-Votec 530.

531 Evaluation of Vocational Student Performance U 3
Designed to prepare trade and industrial teachers for the task of evaluating student performance in a shop or laboratory setting.
Wi Qtr. 1 2½-hr cl. Prereq. Trade and Industrial major or permission of instructor. Not open to students with credit for Ed-Votec 531.

570 Office Procedures U G 5
Theory and practice of office management; duties, responsibilities, procedures, and techniques of office work; office machines and equipment.
Sp Qtr. 1 cl, 3 2-hr labs. Prereq: 282 or Ed-Votec 262, and 3rd yr standing. Not open to students with credit for Ed-Votec 570.

575 Vocational-Technical Teaching
Development of basic cognitive and performance skills required to earn a one-year vocational certificate by nondegree vocational teachers.
575.01 Preservice Program U 8
Su Qtr. 8 hrs/day for 20 days. This course is graded S/U.
575.02 Inservice I U 2
Su, Au, Wi, Sp Qtrs. Prereq: 575.01 or Ed-Votec 575.01.
575.03 Inservice II U 2
Su, Au, Wi, Sp Qtrs. Prereq: 575.02 or Ed-Votec 575.02.
575.04 Inservice III U 2
Su, Au, Wi, Sp Qtrs. Prereq: 575.03 or Ed-Votec 575.03.
575.05 Two Week Followup Program U 4
The refinement of curriculum development leadership and human relations skills required by employed, one-year certified vocational teachers.
Su Qtr. 8 hrs/day for 10 days. Prereq: 575.04 or Ed-Votec 575.04.

587 Student Teaching in Secondary Schools U 3-15
Observation, participation, and responsible teaching in a public school; individual and group conferences or seminars.
Au, Wi, Sp Qtrs. Prereq: Ed 4th yr standing. Students desiring teaching in more than one area should indicate accurately both section numbers and hours in each. Repeatable to the required 15 cr hrs, including or hrs in Ed-Votec 587. For additional information, see College of Education bulletin. These courses are graded S/U.
587.22 Trade and Industrial Education
587.23 Business Education
587.28 Distributive Education
601 Business and Office Education Programs U G 3
Organization, implementation, evaluation, and improvement of vocational office education programs on the secondary school level.
Su Wi Qtrs. 2½-hr cl. Prereq or concur: 520 or Ed-Votec 520, or 521 or Ed-Votec 521, or 523 or Ed-Votec 523, or equiv. Not open to students with credit for Ed-Votec 501. Required of all business education majors.

602 Cooperative Office Education U G 3
A study of new approaches to organization, operation, and supervision of the Cooperative Office Education Program and the understanding and evaluation of the recent thrust in vocational education and work-study programs.
Au Qtr. 2½-hr cl. Prereq: 590 or 593, Ed-Votec 520 or 523, or equiv. Not open to students with credit for Ed-Votec 602.

603 Roles, Rights, and Responsibilities in Public Education U G 3
A study of organizational, professional and legal roles, rights and responsibilities in public education; development of broad understanding of environment in which teachers work.
Au, Sp Qtrs. 3 cl. Not open to students with credit for Ed-Admin 601.

605 Curriculum Content for Distributive Occupational Subjects U G 3
Securing, evaluating, and organizing instructional material and experiences for distributive cooperative education and adult extension courses.
Sp Qtr. 3 cl. Prereq: 529 or Ed-Votec 529. Not open to students with credit for Ed-Votec 605.

606 Function and Structure of Distributive Education Programs U G 3
The organization of high school, postsecondary, and adult distributive education programs and their administration on local, state, and national levels.
Su, Wi Qtr. 1 2½-hr cl. Prereq: Educ 451 or equiv. Not open to students with credit for Ed-Votec 606.

608 Practicum in Vocational Education U G 2-3
Directed employment or supervised practical work experience in a recognized occupation required for vocational teacher certification, or for training vocational-technical personnel in private or public work settings.
Su, Au, Wi, Sp Qtrs. Prereq. Ed-Votec major or permission of instructor, and permission of adviser. Not open to students with 6 cr hrs in Ed-Votec 608.23 or 608.29 or 608.30. Each decimal subdivision repeatable to a maximum of 6 or hrs. These courses are graded S/U.
608.23 Business Education
608.29 Distributive Education
608.30 Vocational-Technical and Adult Education

609 Evolution of Vocational Education U G 3
Introduction to the development of vocational education including consideration of influences affecting legislation, federal acts, and basic concepts which have evolved. Mitte.
Su, Au Qtrs. 1 2½-hr cl. Prereq. Permission of instructor. Not open to students with credit for Ed-Votec 609.

610 Alternative Schooling U G 3
A study of the educational and developmental dynamics of the alternative schools movement as an agent of change; to inquire further regarding educational reforms and options.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Not open to students with credit for Ed-FAR 610.

615 Developing Discipline for Effective Learning U G 3-5
Causes of and procedures for dealing with school discipline problems; focus upon the teacher, student, classroom, and school situations.
Su, Au Qtrs. 1 2½-hr cl., arranged practicum. Prereq: teaching experience or enrolled in student teaching. Not open to students with credit for Ed-FAR 815.

630 Supervision of Student Vocational-Industrial Clubs U 3
Designed to provide student vocational-industrial club coordinators, instructors, and supervisors with leadership competencies for promoting and maintaining local, state, and national activities.
Au, Sp Qtrs. 3 cl. Not open to students with credit for Ed-Votec 630.
659 Laboratory Safety and Accident Prevention for Industrial Teachers U G 3
Designed to develop an awareness of safety as well as the prevention of accidents in industrial shops and laboratories.
Su, Wi Qtrs. 1 hr. Prereq: Trade and industrial major. Not open to students with credit for Ed-Votee 656.

660 Designing Instruction for Business and Industry U 3
A systematic design of instructional programs for business and industry which addresses cost-effective concerns.
Su, Wi Qtrs. 2 cr. 10 hrs practicum. Prereq: Ed-Votee 676 or permission of instructor. Not open to students with credit for Ed-Votee 660.

670 Developing and Packaging Training Materials U G 3
A systematic development and packaging of small group individualized, instructional materials for business and industry training.
Au, Sp Qtrs. 1 cr. 1st time taken, 2 hr/week. Prereq: 675 or permission of instructor. Not open to students with credit for Ed-Votee 670.

672 Introduction to Adult Education U G 3
The nature, extent, and significance of adult education; history and types of adult education; theoretical issues; adult learning and methodology; present trends and future developments. Boggs and Dowling.
Au, Sp Qtrs. 4 hr. Prereq: adult education majors: Edu 451 or Edu-EdMAG 461 or GSP 461. Not open to students with credit for Ed-Votee 672.

676 Parent Education U G 3
Nature, extent, and significance of the parent education movement; home and school relationships; methods and resources; training professionals and lay leaders; local and state programs. Boggs.
Su Qtr. 2 cr. 6 hr. Prereq: Permission of instructor for undergraduates. Not open to students with credit for Ed-Votee 676.

680 Practicum in Problems of Public Education U G 3
Open to experienced teachers and administrators; groups are organized around specific problems; requests must be received by dept chairman in time to allow for planning.
Au, Wi Sp Qtrs. 3 cr. Prereq: Ed-Votee 684 or permission of instructor. Repeatable to a maximum of 9 or hrs, including or hrs in Ed-Votee 684.

692 Workshops U G 1-8
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.
Su, Au, Wi, Sp Qtrs. 1-8 hr. Prereq: Teaching experience and written permission of workshop director. Repeatable with not more than 4 workshops to a maximum of 15 cr. hrs, including or hrs in Ed-Votee 692.

661 Instructional Strategies for Vocational Work Experience Programs U G 3
Preparation and delivery of lessons, placement, and follow-up of students on-the-job.
Su, Wi Qtrs. 1 2½-hr cl. Prereq: Educ 451 or equiv. Not open to students with credit for Ed-Votee 661.

664 Coordination of Cooperative Vocational-Technical Education Programs U G 3
Designed to develop the knowledge, attitudes, and competencies to operate effectively a cooperative vocational-technical education program.
Au, Au Qtrs. 1 2½-hr cl. Prereq: Educ 451 or equiv. Not open to students with credit for Ed-Votee 664.

649 General Methods in Adult Education U G 3
Selection, integration, and evaluation of methods, techniques, and devices to facilitate the learning of adults. Dowling.
Wi Qtr. 1 2½-hr cl. Prereq: Edu 575 or Ed-Votee 575 or equiv. And permission of instructor. Teaching or supervising experience required for grad credit. Not open to students with credit for Ed-Votee 649.

650 Humanistic Foundations of Education U G 3
Au, Wi, Sp Qtrs. 3 cr. Prereq: 3rd yr standing in a recognized university teacher education program, or grad standing, or permission of dept office.

650 Philosophy of Education
Design to provide students with an application of philosophy of education to issues and problems of teaching and living in a culturally diverse society. Not open to students with credit for Ed-FAR 640.73 or 650.01.

650 History of Modern Education
Education and schools as factors in the development of the modern world; theories, practices, relations with other social institutions and forces, especially in Europe and America. Not open to students with credit for Ed-FAR 640.72 or 650.02.

650 Applied Ethics for Teachers
An examination of selected moral/ethical issues which face practicing educators emphasis on developing ethical decision-making skills. Not open to students with credit for Ed-FAR 660.03.

650 Social Criticism in American Education
Analysis and interpretation of critical stances taken by selected major writers on educational topics of current interest. Not open to students with credit for Ed-FAR 640.71 or 650.04.

656 Shop and Laboratory Organization and Management U G 3
Designed to help vocational and technical teachers to plan, organize and manage vocational and technical laboratories used in various educational settings. Riley.
Au Qtr. 1 2½-hr Cl. Not open to students with credit for Ed-Votee 656.

657 Occupational Analysis U G 2
Development and utilization of procedures used in analyzing a technical occupation for teaching content.
Au, Wi, Sp Qtrs. 1 1½-hr cl. Repeatable to a maximum of 4 cr. hrs, including or hrs in Ed-Votee 657.

658 Selection and Organization of a Trade and Industrial Program U G 3
Designed to provide trade and industrial instructors the competencies to prepare and refine a course of study according to state department of education guidelines.
Au Qtr. 1 2½-hr cl. Prereq: Trade and industrial major or permission of instructor. Not open to students with credit for Ed-Votee 658.
693 Individual Studies U G 1-4
Su, Au, Wi, Sp Qtrs. Prereq: Educ 451 or Ed-ESMC 460 or Ed-TAP 460, and written permission of instructor. A total of not more than 30 cr hrs in individual study (any 693) will apply toward graduation for undergrad students, 15 cr hrs for the master’s degree and 30 cr hrs for the doctoral degree. These courses are graded S/U.

693.22 Trade and Industrial Education
693.23 Business Education
693.29 Distributive Education
693.30 Vocational-Technical Education
693.32 Student Personnel Work
693.33 Adult Education
693.35 Higher Education
693.40 History of Education and Comparative Education
693.41 Philosophy of Education
693.44 Educational Administration and Supervision
693.48 Educational Development
693.49 Curriculum and instruction
693.51 Educational Change
693.55 Moral Education

694 Group Studies U G 1-5
Group studies on special problems in education.
Prereq: Written permission of instructor. Repeatability to a maximum of 20 cr hrs, including or hrs in Ed-Admin 694.36 and 694.44; Ed-F&R 694.36, 694.40, 694.41, 694.43, 694.46, 694.48, 694.49, 694.50, 694.51, and 694.55; Ed-Sp Sr 694.32, and Ed-Vocat 694.25, 694.27, 694.33, 694.36, and 694.39.

694.22 Trade and Industrial Education
694.23 Business Education
694.29 Distributive Education
694.30 Vocational-Technical Education
694.32 Student Personnel Work
694.33 Adult Education
694.35 Higher Education
694.40 History of Education and Comparative Education
694.41 Philosophy of Education
694.44 Educational Administration and Supervision
694.48 Educational Development
694.49 Curriculum and instruction
694.51 Educational Change
This course is graded S/U.
694.55 Moral Education

698 Study Tour of Foreign Schools and Culture U G 5-15
Five weeks intensive study of educational and cultural topics fundamental to central purpose of tour, then equal period of supervised observation of schools and related cultural factors in one or more foreign countries; specific emphases of separate tours to be announced.
Su Qtr. Prereq: Written permission of instructor. Repeatability to a maximum of 25 cr hrs (including or hrs in Ed-F&R 698) when different areas or topics are studied. Travel and subsistence costs for the study tour will be borne by the student. For more information, contact the dept office.

700 Interprofessional Education
Focus on ethical issues, changing professional consumer rights, and interprofessional cooperation. Repeatability to a maximum of 6 cr hrs, including or hrs in Ed-F&R 720.01, 720.02, 700.03, and 700.04; subdivisions not repeatable, except 700.04 which is repeatable to a maximum of 10 cr hrs. Limited to students enrolled in allied medical professions, education, law, medicine, nursing, social work, theology.

700.01 Seminar of Interprofessional Care U G 3
Treatment of the whole person through the analysis of the intersected problems of actual cases.
Wi Qtr.

700.02 Changing Societal Values U G 3
Identification and clarification of values considerations as they relate to professional problems in dealing with consumers/clients/patients.
Au Qtr.

700.03 Seminar on Ethical Issues Common to the Helping Professions U G 3
Ethical issues of concern to the professions and arising out of advanced technology: euthanasia, enforced treatment, privacy and confidentiality, malpractice, and the social responsibility of the professions.
Sp Qtr. Arr.

700.04 Interprofessional Practicum in Clinical Settings U G 3, 5
Interprofessional teamwork in clinical settings.
Wi, Sp Qtrs. Arr. Prereq: Permission of instructor.

701 Logic in Teaching U G 3
Study of the logical aspects of teaching includes attention to definitions, arguments, explanations, questions, and value judgments.
Prereq: 2 1/2-hr cl. Prereq: 650.01 or Ed-F&R 650.01, and 4th yr standing. Not open to students with credit for Ed-F&R 641.75 or 701.

717 Comparative Education U G 3
Social and cultural factors influencing the differential development of educational institutions and organization.
Su, Au, Wi Qtrs. 1 1/2-hr cl. Prereq: 4th yr standing. Not open to students with credit for Ed-F&R 641.77 or 717.

719 People, Politics, and Schools U G 3
An analysis of the political forces and ideological positions in American life since the Civil War and their affects on American education.
Prereq: 2 1/2-hr cl. Prereq: 3rd yr standing. Not open to students with credit for Ed-F&R 641.71 or 719.

720 Education in Earlier Times U G 3
Schools and educational ideals in ancient and medieval societies; education before the rise of modern nation states; influence on contemporary practice and thinking.
3 cl. Prereq: 4th yr standing. Not open to students with credit for Ed-F&R 641.72 or 720.

722 The School in American Culture U G 3
An orientation to the contemporary American school by direct observation correlated with study of major historical forces affecting education.
Prereq: One or more courses from 650 series or Ed-F&R 650 series, or equiv. Open only to new international students.

723 Individual Development in Educational Change U G 3
Developmental processes of individuals are examined and related to processes of educational development, with special attention given to the nature of self-development, interpersonal communications and creative behavior.
Prereq: 1 3-hr cl. Not open to students with credit for Ed-F&R 723. This course is graded S/U.
724 Development of Organizations and Organizational Groups U G 3
Dynamics of organizations and organizational groups; functions of communication, planning and evaluation; development of innovative structures or practices.
Sp Qtr. 1 3-hr cl. Prereq: 4th yr or grad standing. Not open to students with credit for Ed-F&R 724.

725 Development of Education and Societal Change U G 3
Examination of developmental processes of educational institutions and programs in context of modernization and social change; attention given to policy planning and institutional development strategies for improving the effectiveness of education.
Sp Qtr. 1 3-hr cl. Not open to students with credit for Ed-F&R 725.

726 Educational Change U G 3 or 5
Commonly used strategies for changing people and organizations are studied. The strategies vary from collaborative problem solving to the coercive use of violence and non-violence.
Su, Wi Qtrs. 1 3-hr cl. Not open to students with credit for Ed-F&R 726.

727 Education in Developing Countries U G 3
Social and historical factors affecting stability and effectiveness of educational institutions and organizations in countries where programs of universal education are of recent origin.
Sp Qtr. 1 2½-hr cl. Prereq: One or more courses from 650 series or Ed-F&R 650 series or equiv. Not open to students with credit for Ed-F&R 727.

756 Teacher Self-Assessment: Developing Evaluation Strategies for Improving Teaching U G 3
With emphasis on developing practical strategies, the objective of this course is to help teachers develop skills for evaluating and improving their own teaching. Barger, Green, and McCutcheon Au, Sp Qtrs. 1-3 hr cl. Not open to students with credit for Ed-F&R 756.

780 Introduction to Student Personnel Work U G 3
The nature of and the issues involved in student personnel work in higher education.
Su, Au. Qtrs. 1 1½-hr cl. Not open to students with credit for Ed-Sp Sv 780.

781 Academic Advising Process U G 2
An overview of the academic advising process including practical and philosophical questions about advisement and the role of the adviser.
Wi Qtr. 2 cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Sp Sv 781.

782 Practice of College Student Personnel Work U G 3
First practical course in professional sequence; prerequisite to field work practice; major services are examined and discussed; outstanding practitioners consult on their work.
Au Qtr. 2 1½-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Sp Sv 782.

789 Population Analysis and Educational Planning U G 3
A seminar designed to study population trends, movements, and distributions as they relate to more effective planning for school systems.
Su, Wi Qtrs. 1 3-hr cl. Prereq: Ed-F&R 785 or Ed-T&P 785 or equiv, and Socol 751 or 754. Repeatable to a maximum of 6 or hrs, including or hrs in Ed-F&R 789.

790 Problems and Processes in School Desegregation U G 3
A seminar designed to study major problems related to school desegregation and processes of solving those problems.
Au, Sp Qtrs. 1 3-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs, including or hrs in Ed-F&R 790.

800 Qualitative Research in Education U G 3
Issues and problems of scientific inquiry in educational research with emphasis on field research. Sanders.
Au, Wi Qtrs. 1 3-hr cl. Not open to students with credit for Ed-F&R 800.

801 Organization and Teaching of Typing and Office Practice U G 3
The purposes, content, organization, materials, and methods of evaluation for typing and office practice courses; office practice as a part of an intensive vocational curriculum.
Sp Qtr. 2½-hr cl. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Votec 801.

802 Administration and Supervision of Business Education U G 3
Administrative problems in business education related to program, facilities, placement and follow-up of graduates, public relations, and federal-state reimbursement.
Au Qtr. 1 2½-hr cl. Prereq: Grad standing in business or vocational education or permission of instructor. Not open to students with credit for Ed-Votec 802.

803 Improvement of Instruction in Basic Business Subjects U G 3
A study of objectives, methods, materials, and methods of evaluation for courses such as general business, consumer education, and business law.
Au Qtr. 2½-hr cl. Prereq: 524 or Ed-Votec 524 or equiv. Not open to students with credit for Ed-Votec 803.

804 Improvement of Instruction in Bookkeeping and Data Processing U G 2
Evaluation of the content, materials, and methods of teaching bookkeeping, accounting, and data processing on the secondary and postsecondary school levels.
Sp Qtrs. 2 hr cl. Prereq: 523 or Ed-Votec 523 or equiv. Not open to students with credit for Ed-Votec 804.

805 Improvement of Instruction in Shorthand U G 2
Teaching procedures basic to the development of vocational proficiency in typewriting, shorthand, and transcription; available instructional materials, evaluation, standards of achievement.
Wi Qtr. 2 cl. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Votec 805.

806 Administration of Higher Education U G 3
Purposes and scope of higher education; governance; problems of administration-student-staff relationships; and administrative organization.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl or 2 1½-hr cl. Not open to students with credit for Ed-Admin 806.

807 Survey of Vocational Education U G 3
A survey of vocational-technical education, vocational guidance, and industrial arts.
Su, Au Qtrs. 1 2½-hr cl. Prereq: Educ 451. Open to vocational educators, school administrators, and other graduate students who desire information about vocational education. Not open to students with credit for Ed-Votec 807.

808 Principles in Business Education U G 3
Meaning, purpose, and scope of the business education program; analysis of principles and fundamental issues.
Sp Qtr. 1 2½-hr cl. Open only to grad students in business education, distributive education, or vocational education, or permission of instructor. Not open to students with credit for Ed-Votec 808.
810 Understanding Educational Organizations: Insights from Organizational Theory  G 3
An introductory survey of the applications of formal organization theory for the purpose of understanding educational organizations.
Su, Wi Qtr., 1 2 1/2-hr cl. Not open to students with credit for Ed-Admin 801.

811 Sources of Progressive Thought in American Education  G 3
An examination of the ideas that provided the philosophical basis for progressive education with an emphasis on the historical context in which these ideas were developed.
Au, Sp Qtr., 1 3-hr cl. Not open to students with credit for Ed-FAR 811.

814 Historical Bases of Curriculum Development  G 3
Intensive analysis of the outstanding contributions made by scholars in the field from 1900 to 1950.
Wi Qtr., Prereq: 860 or Ed-FAR 860. Not open to students with credit for Ed-FAR 815.

815 The Community College  G 3
History of community colleges; evaluation of organization and administration; campus planning; and federal, state, and local governmental relations with these colleges.
Au, Sp Qtr., 1 2-hr cl. Not open to students with credit for Ed-Admin 815.

816 Administration and Governance in the Community College  G 3
Survey of administration and governance in community colleges with emphasis on problems, roles, and practices in such institutions.
Wi Qtr., 1 2 1/2-hr cl. Prereq: 815 or Ed-Admin 815. Not open to students with credit for Ed-Admin 816.

820 Financing Higher Education  G 3
A study of financing higher education with emphasis on issues affecting higher education; criteria for identifying and developing sources of financial support for institutions of higher education.
Wi Qtr., 1 2 1/2-hr cl. or 2 1 1/2-hr cl. Prereq: 806 or 815 or Ed-Admin 806 or 815. Not open to students with credit for Ed-Admin 820.

821 Administrative Practices in Vocational Education  G 3
A study of the concepts of vocational education program administration, including management skills, policy development, staff management, finance, and program evaluation.
Sp Qtr., 1 2 1/2-hr cl. Not open to students with credit for Agr Edu 811 or 821, or Ed-Voc-Tec 821. Cross listed in Agricultural Education.

822 Modern Trends in Educational Philosophy  G 3
A study of contemporary work in philosophy of education and applications of that work to educational practice.
Su, Au, Wi Qtr., 1 2-hr cl. Not open to students with credit for Ed-FAR 801.

825 Theories and Educational Practices of Nonverbal Communication  G 3
Investigation of theoretical and practical consequences of nonverbal communication for teaching and learning; exploration of research possibilities.
Sp Qtr., 1 2 1/2-hr cl. Not open to students with credit for Ed-FAR 825.

826 Comparative Philosophy of Education  G 3
A study of alternative philosophical views of selected educational practices and policy questions.
Wi Qtr., 1 2-hr cl. Prereq: 822 or Ed-FAR 801. Not open to students with credit for Ed-FAR 802.

827 Ideology and Educational Policy  G 3
A study of ideologies in terms of their significance for educational policy.
Su, Wi Qtr., 1 2-hr cl. Prereq: 822 or Ed-FAR 801. Not open to students with credit for Ed-FAR 823.

828 Ethical Problems in Education  G 3
An examination of theories of value in education which focuses on the philosophical problems of formulating and defending moral judgments.
Su, Wi Qtr., 1 2-hr cl. Not open to students with credit for Ed-FAR 804.

829 Moral Education and the Schools  G 3
Explores the moral dimension of teaching and attempts to bridge recent theory and research in this area with classroom practice.
Au, Su, Wi Qtr., 1 2-hr cl. Prereq: Teaching experience. Not open to students with credit for Ed-FAR 805.

830 Supervision of Vocational Instruction  G 3
A study of the concepts of vocational education supervision, including leadership styles, improving instruction, and program and personnel evaluation.
Wi Qtr., 1 2-hr cl. Prereq: 609 or Ed-Voc-Tec 609 or equiv and written permission of instructor. Cross listed in Agricultural Education.

830.22 Trade and Industrial Education
Not open to students with credit for Agr Edu 811 or 830, or Ed-Voc-Tec 700.22 or 830.22.

830.23 Business Education
Not open to students with credit for Agr Edu 811 or 830, or Ed-Voc-Tec 730.23 or 830.23.

830.29 Distributive Education
Not open to students with credit for Agr Edu 811 or 830, or Ed-Voc-Tec 730.29 or 830.29.

830.30 Vocational-Technical Education
Not open to students with credit for Agr Edu 811 or 830, or Ed-Voc-Tec 730.30 or 830.30.

833 Vocational Education Program Planning  G 3
A study of the planning, development, management, and evaluation of instructional systems in vocational education programs.
Au, Sp Qtr., 1 2-hr cl. Not open to students with credit for Agr Edu 821 or 825, or Ed-Voc-Tec 821. Cross listed in Agricultural Education.

835 Personnel Administration in Higher Education  G 3
A study of the staff personnel function in institutions of higher education through a consideration of personnel policies and operating principles.
Sp Qtr., 1 2-hr cl. or 2 1 1/2-hr cl. Prereq: 806 or 814, or Ed-Admin 800 or 815. Not open to students with credit for Ed-Admin 830.

840 Legal Aspects of Higher Education Administration  G 3
Statutory and case law are analyzed for administrative implications. Stressed, too, are college and university governance patterns changing because of legal developments.
Su Qtr., Prereq: 806 or 814, or Ed-Admin 800 or 815. Not open to students with credit for Ed-Admin 840.

841 Curriculum in Higher Education  G 3
A study of representative and experimental college programs in the United States. Alertly.
Su, Au Qtr., 1 2-hr cl. Not open to students with credit for Ed-FAR 841.

842 Administration of Academic Affairs in Higher Education  G 3
Principles and problems of administering academic affairs in light of development, financial considerations, and evaluation.
Au, Sp Qtr., 1 2-hr cl. or 2 1 1/2-hr cl. Prereq: 806 or Ed-Admin 800. Not open to students with credit for Ed-Admin 842.
846 Introduction to Educational Administration G 3
Introduction to the organizational setting of the school, the nature of administration, and organizational theory.
Su, Au, Wi, Sp Qtrs. Not open to students with credit for Ed-Aadmin 846.

847 Human Relations in Educational Administration G 3
Interpersonal behavior in educational organizations with emphasis on such topics as goal-setting, decision-making, communicating, conflict management, and evaluation.
Anderson, Blank, and Wagstaff.
Su, Au, Wi, Sp Qtrs. Prereq: 806, or 846, or Ed-Aadmin 800 or 846. Not open to students with credit for Ed-Aadmin 847.

848 The Principalship G 3
Comprehensive examination of school building management focusing on the role, tasks, and responsibilities associated with the principalship.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 846 or Ed-Aadmin 846 or permission of instructor. Not open to students with credit for Ed-Aadmin 848.

849 Administrative Behaviors in the Principalship G 3
Focus upon the skills requisite to effective functioning as a building and school administrator. Blank, Staub and Wagstaff.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 846, 847, and 848; or Ed-Aadmin 846, 847, and 848; or equivalent permission of instructor. Not open to students with credit for Ed-Aadmin 849.

850 Internship in Educational Development G 3-12
Internship experiences in research, development, or evaluation settings.
Arr. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs, including 3 or hrs in Ed-F&R 850 and Ed-F&R 850.

851 College Teaching G 3
Designed as initial preparation for instruction at the college level; focuses on the generic skills, strategies and issues common to university teaching. Zimpfer.
Su, Au, Sp Qtrs. 1 2½-hr cl. Open to grad students committed to teaching in any area at the college level. Not open to students with credit for Ed-F&R 842. This course is graded S/U.

857 Individualizing Instruction G 3
A study of theory, practice, and materials related to individualizing instruction. Frymier.
Su, Au, Sp Qtrs. 1 2½-hr cl. Not open to students with credit for Ed-F&R 857 or Ed-F&R 857. Cross listed in Educational Theory and Practice.

859 Junior High School Curriculum G 3
A study of various types of junior high school programs, with special emphasis upon teaching-learning procedures as they apply to the early adolescent years. Alberty.
Su, Wi Qtrs. 1 2½-hr cl. Prereq: Educ 491. Not open to students with credit for Ed-F&R 859.

860 Fundamentals of Curriculum G 3
Designed to serve as an overview of the field of curriculum and instruction; kindergarten through 12th grade. Alberty, Gordon, and McCutcheon.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Not open to students with credit for Ed-F&R 860.

861 Fundamentals of Supervision G 3
Supervision of instruction emphasizing general principles and practices in elementary and secondary schools. Bargar, Frymier, and Galloway.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Not open to students with credit for Ed-F&R 861.

862 Role of the School in the Social Order G 3
An orientation for teachers and administrators which deals with the basic purposes of secondary education in relation to major issues and current trends.
Su, Au, Wi Qtrs. 1 2½-hr cl. Prereq: Ed-E&M 585 or Ed-T&P 585 or secondary (587) student teaching or equiv. Not open to students with credit for Ed-F&R 862.

864 Fundamentals of Instruction G 3
Survey of instructional theory and related behavioral science disciplines; emphasis is on application of principles of instructional theory to classroom teaching. Hough and Green.
Au, Sp Qtrs. 1 2½-hr cl. Prereq: Ed-E&M 585 or Ed-T&P 585 or secondary (587) student teaching or equiv. Not open to students with credit for Ed-F&R 864.

865 Curriculum Theory G 3
Advanced study of curriculum; kindergarten through the 12th grade. McCutcheon.
Au, Sp Qtrs. 2 1½-hr cl. Prereq: 860 or Ed-F&R 860 or equiv. Not open to students with credit for Ed-F&R 865.

866 Supervision Theory G 3
Advanced study of supervision of instruction; kindergarten through the 12th grade.
Sp Qtrs. 2 1½-hr cl. Prereq: 861 or Ed-F&R 861 or equiv. Not open to students with credit for Ed-F&R 866.

868 Laboratory in Curriculum Development in Secondary Schools G 3
Advanced study of techniques of curriculum development and organization; specific problems in curriculum development which are of concern to the students enrolled. Frymier and McCutcheon.
Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 862 or Ed-F&R 862 or equiv. Not open to students with credit for Ed-F&R 868.

869 Instructional Theory G 3
Advanced study dealing with theoretical conceptions, basic principles, and generalized techniques involved in developing, executing, and evaluating instructional activities. Hough.
Wi Qtrs. 1 2½-hr cl. Prereq: 862 or Ed-F&R 862 and 864 or Ed-F&R 864. Not open to students with credit for Ed-F&R 869.

870 Practicum in Curriculum, Instruction, and Supervision G 3
A study of the literature and methods of curriculum, instruction, and supervision in a field setting, with emphasis on instruction. Green.
Wi Qtrs. 1 cl, lab arr. Prereq: 861 and 861 or Ed-F&R 861. Not open to students with credit for Ed-F&R 870.

871 Practicum in Curriculum, Instruction, and Supervision G 3
A study of the literature and methods of curriculum, instruction, and supervision in a field setting, with emphasis on supervision. Frymier.
Wi Qtrs. 1 cl, lab arr. Prereq: 860 or 861 or 864, or Ed-F&R 860 or 861 or 864; and master's degree. Not open to students with credit for Ed-F&R 871.

872 Practicum in Curriculum, Instruction, and Supervision G 3
A study of the literature and methods of curriculum, instruction, and supervision in a field setting, with emphasis on curriculum. Alberty, Gordon, and McCutcheon.
Sp Qtrs. 1 cl, lab arr. Prereq: 860 or 861, or Ed-F&R 860 or 861; and master's degree. Not open to students with credit for Ed-F&R 872.

873 Problems of Secondary School Supervision and Curriculum Development G 3
Supervision and curriculum development emphasizing problems involved in instating and changing the secondary school curriculum. Frymier.
Sp Qtrs. 1 2½-hr cl. Prereq: 860 or Ed-F&R 860. Not open to students with credit for Ed-F&R 873.
884 Planned Field Experience G 3-15
Planned professional teaching experience in a public school or other educational agency under supervision.
Prereq: Written permission of area advisor. Repeatable to a maximum of 15 cr hrs, including cr hrs in Ed-Adm 884.35 and 884.44; Ed-F&R 884.38, 884.48, 884.49, 884.51, 884.55; Ed-Sp Sv 884.32; and Ed-Votec 884 and 884.30.
884.30 Vocational-Technical Education
884.32 Student Personnel Work
884.35 Higher Education
Prereq: 693.35 or Ed-Admin 693.35, and permission of area advisor.
884.44 Educational Administration
Prereq: Permission of faculty advisor and screening committee.
884.48 Educational Development
884.49 Curriculum and Instruction
884.51 Educational Change
884.55 Moral Education

887 Student Personnel Programs for the Culturally Different G 3
A survey of collegiate experimental programs and practicees, their philosophies, organization, administration, educational audiences, etc., for the culturally different with emphasis on black Americans.
Au, Sp Qtr. 1 2½-½ hr cr. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs, including cr hrs in Ed-Sp Sv 887.

888 Group Interventions in Student Personnel Work G 3
Emphasis on laboratory learning process for interpersonal growth and organizational dynamics; treatment of group theory, processes, and dynamics.
Au Qtr. 1 3 hr-cr, mandatory weekend lab. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs, including cr hrs in Ed-Sp Sv 888.

894 Group Studies G 1-5
Advanced group studies on special problems in education.
Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs, including cr hrs in Ed-F&R 894.48 and 894.51, Ed-Sp Sv 894.32, and Ed-Votec 894 and 894.39.
894.30 Vocational-Technical Education
894.32 Student Personnel Work
894.48 Educational Development
894.51 Educational Change

899 Interdepartmental Seminar G 1-5
See interdepartmental seminars.

901 Epistemology and Education G 3
A study of selected epistemological problems related to educational theory and practice.
Sp Qtr. 1 2½ hr-cr. Prereq: 882 or Ed-F&R 801 or equiv. Not open to students with credit for Ed-F&R 901.

902 Educational Philosophy of John Dewey G 3
A systematic study of the writings of John Dewey in their bearings upon educational theory and practice.
Sp Qtr. 1 2½ hr-cr. Prereq: 822 or Ed-F&R 801 or equiv. Not open to students with credit for Ed-F&R 902.

903 Conceptions of Mind in Education G 3
A critical study of theories of behavior in education which focuses on the philosophical problems of describing and explaining human action.
Sp Qtr. 1 2½ hr-cr. Prereq: 822 or Ed-F&R 801 or equiv. Not open to students with credit for Ed-F&R 903.

925 Seminars G 2-5
Prereq: Written permission of instructor. Students with permission of advisers may register for more than one section of 925 or for the same section two or more times.
Research problems in:
925.22 Trade and Industrial Education
925.23 Business and Office Education
925.29 Distributive Education
925.30 Vocational-Technical Education
925.32 Student Personnel Work
925.33 Adult Education
925.40 History of Education and Comparative Education
925.41 Philosophy of Education
925.44 Educational Administration and Supervision
925.48 Educational Development
This course is graded S/U.
925.49 Curriculum and Instruction
925.50 Higher Education
925.51 Educational Change
925.55 Moral Education

926 Student Personnel Work as a Professional Field G 3
Designed to provide an opportunity, by a study of current, historical, and philosophical materials, for the formulation of a sound intellectual basis for professional practice in student personnel work.
Sp Qtr. 2 1½ hr-cr. Prereq: Permission of instructor. Not open to students with credit for Ed-Sp Sv 926.

927 History of the Universities G 3
The university as an institution through centuries, patterns of development in different countries; German, English, American contributions to the idea of the American university.
Wi Qtr. 2 1½ hr-cr. Not open to students with credit for Ed-F&R 927.

928 History of Educational Thought: Ancient and Medieval G 3
Study and analysis of the major educational theories of the ancient and medieval periods including the educational writings of Plato, Aristotle, and St. Augustine.
Su, Au Qtrs. 1 2½ hr-cr. Prereq: 850.02 or 850.04, or Ed-F&R 850.02 or 850.04. Not open to students with credit for Ed-F&R 928.

929 History of Educational Thought: Modern G 3
Study of the major educational theories since 1500 including Montaigne, Milton, Locke, and Rousseau and their influence on contemporary educational theory and practice.
Sp Qtr. 1 2½ hr-cr. Prereq: 850.02 or 850.04, or Ed-F&R 850.02 or 850.04. Not open to students with credit for Ed-F&R 929.

930 Internship in College Student Personnel Work G 6-12
The student is assigned as a participant-observer in a work situation closely approximating his vocational goal, under the supervision of a qualified practitioner; full-time commitment is normally expected.
Su, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs, including cr hrs in Ed-Sp Sv 930.

931 Theory and Practice of Discussion in Adult Education G 3
Perspectives of adult learning via discussion; analysis of research on group discussion; principles of discussion oriented adult learning; application of group discussion to problem solving. Dowling.
Sp Qtr. 1 2½ hr-cr. Prereq: Permission of instructor. Not open to students with credit for Ed-Votec 931.

932 Adult Characteristics and Learning Theory G 3
Examination of significant learning theories and their applicability to adult learning experiences. Dowling.
Au, Sp Qtrs. 1 2½ hr-cr. Prereq: 872 or Ed-Votec 872. Not open to students with credit for Ed-Votec 932.
933 Internship in Adult Education G 9
Boggs and Dowling.
Su, Au, Wi, Sp Qtrs. Prereq 672 or Ed-Voc-E 672, and 12 cr hrs of grad work in adult education. Repeatable to a maximum of 18 hrs, including 0 cr hrs in Ed-Voc-E 933. Limited to PhD majors in adult education and selected master's candidates with major in adult education.

934 Organization and Administration of Adult Education Programs G 3
The administrative functions within adult education agencies: decision making, staff development, financing, evaluating, and improving adult education programs. Boggs.
Au Qtr. 1 2½-hr cl. Prereq 672 or Ed-Voc-E 672, and written permission of instructor. Not open to students with credit for Ed-Voc-E 934.

935 Program Planning in Adult Education G 3
Prepares educators to implement components in planning educational programs for adults: assessing needs, setting objectives, selecting and training staff, choosing instructional strategies, promotion, and evaluation. Boggs.
Su, Wi Qtrs. 1 2½-hr cl. Prereq 672 or Ed-Voc-E 672 or equiv. Not open to students with credit for Ed-Voc-E 935.

938† Instruction in Higher Education G 3
A study of the teaching-learning environment in higher education, including student culture, learning theory and classroom procedure, examinations, and evaluation.
3 cr. Not open to students with credit for Ed-Sp Sv 938.

943 Interaction of the Student and the College Environment G 3
A focus on the nature of the college environment, entering student, academic procedures, student performance, and student culture for those planning careers in college student personnel work.
Sp Qtr. 2 1½-hr cl. Not open to students with credit for Ed-Sp Sv 943.

945 Practicum in Student Personnel Work G 5
Supervised practicum in campus student personnel agencies: such as admissions, dean of students, housing, international students, student financial aid, student union, and undergraduate college offices.
Su, Wi, Sp Qtrs. 1 1½-hr cl. 8 hrs lab in personnel agency arr. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs, including 0 cr hrs in Ed-Sp Sv 945.

950 Problems of Beginning Superintendents G 3
Definition of the superintendent's role, and the roles of the board of education, school staff, and community; examination of problems indigenous to conflict among roles.
Sp Qtr. 1 2½-hr cl. Prereq 846 or Ed-Admin 846. Not open to students with credit for Ed-Admin 950.

951 Administrative Problems of the City School System G 3
A study of problems of educational administrative in the complex city school system with emphasis on solution of educational problems caused by the unique demographic characteristics of the city.
Su, Au Qtrs. 1 2½-hr cl. Prereq 846 or Ed-Admin 846. Not open to students with credit for Ed-Admin 951.

952 Legal Aspects of School Administration G 3
A study of statutory and case law, legal principles and provisions relevant to educational administration, particularly in the areas of personnel, finance, curriculum, contracts, property, liability, and organization.
Su, Au, Wi Qtrs. 1 2½-hr cl. Prereq 846 or Ed-Admin 846 or equiv. Not open to students with credit for Ed-Admin 952.

953 School Community Relations G 3
Principles and practice in developing and maintaining appropriate school community relationships; opinion analysis; communication processes; decision-making patterns.
Sp Qtr. 1 2½-hr cl. Prereq 846 or Ed-Admin 846 or equiv. Not open to students with credit for Ed-Admin 953.

954 Theory and Practice of Student Personnel Administration G 3
The organization and administration of student personnel services; organizational theory and approaches to organizational development, in the interest of institutional renewal.
Au, Wi, Qtrs. 1 3-hr cl. Repeatable to a maximum of 6 cr hrs, including 0 cr hrs in Ed-Sp Sv 954.

955 Staff Personnel Administration G 3
Study of personnel administration in educational institutions: theory, principles and practices as they relate to personnel policy, recruitment, selection, orientation, appraisal, in-service education, promotion, collective negotiations, general welfare.
Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq 846 or Ed-Admin 846. Not open to students with credit for Ed-Admin 955.

958 School Finance G 3
Examination of the theory and economics of financing public education; emphasis on sources of revenue, variations in ability and effort, state-local plans, and the federal role.
Su, Au Qtrs. 1 2½-hr cl. Prereq 846 or Ed-Admin 846. Not open to students with credit for Ed-Admin 958.

957 Business Administration of Schools G 3
Function and role of business administrators in schools; emphasis on budgeting; payroll and accounting; purchasing, planning, constructing, operating, and maintaining the school plant.
Su, Sp Qtrs. 1 2½-hr cl. Prereq 846 or Ed-Admin 846. Not open to students with credit for Ed-Admin 957.

958 Educational Facility Planning G 3
Problems and techniques in determining educational facility needs, evaluating facilities, planning for new construction and remodeling, utilizing specialized personnel; related legal and financial aspects.
Su, Au Qtrs. 1 2½-hr cl. Prereq 846 or Ed-Admin 846 or equiv. Not open to students with credit for Ed-Admin 958.

959 Doctoral Core in Educational Administration I G 4
Analysis of significant research in educational administration. Au Qtr. 2 2-hr cl. lab arr. Prereq 846 or Ed-Admin 846, master's degree, 2 yrs teaching experience or equiv, and permission of instructor. Not open to students with credit for Ed-Admin 959.

960 Doctoral Core in Educational Administration II G 4
Advanced study of administrative problems and organizational behavior from an interdisciplinary perspective.
Wi Qtr. 2 2-cl. lab arr. Prereq 959 or Ed-Admin 959. Not open to students with credit for Ed-Admin 960.

961 Doctoral Core in Educational Administration III G 4
Continuation of 960.
Sp Qtr. 2 2-hr cl. lab arr. Prereq 960 or Ed-Admin 960. Not open to students with credit for Ed-Admin 961.

966 Practicum in Educational Research and Evaluation G 3
The utilization of research strategies and evaluation techniques in studying educational problems with emphasis upon the development, conduct and completion of individual projects. McCutcheon and Sanders.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: Previous courses in the basic sequence in educational research or evaluation or permission of instructor. Not open to students with credit for Ed-FAR 956 or Ed-TMP 966. Cross listed in Educational Theory and Practice.
This course is graded S/U.

228 Electronic Systems and Servicing U 4
A study of the fundamental knowledge and techniques necessary for the application of electronics to industrial activities and the practices utilized in installing and servicing electronic systems.
Au. Sp Qtr. 5 2-hr cl and lab. Prereq: 227 or Ed-Intec 227. Not open to students with credit for Ed-Intec 228.

231 Construction Practices I U 5
A study of basic concepts of construction technology through experiences in forming, separating, and combining materials used in the production of residential structures.
Au. Sp Qtrs. 5 2-hr cl and lab. Prereq: 120 or Ed-Intec 120, and 220 or Ed-Intec 220. Not open to students with credit for Ed-Intec 231.

232 Construction Practices II U 5
A study of construction management, production, and personnel technologies involved in real and simulated experiences in the production of constructed goods.
Wi Qtr. 5 2-hr cl and lab. Prereq: 231 or Ed-Intec 231. Not open to students with credit for Ed-Intec 232.

235 Graphic Reproduction Practices U 4
An examination of graphic reproduction processes, manipulative skills necessary to teach graphic reproduction processes, and administrative procedures required to operate a graphic arts program.
Wi Qtr. 5 2-hr cl and lab. Prereq: 120 or Ed-Intec 120, and 220 or Ed-Intec 220. Not open to students with credit for Ed-Intec 235.

239 Printing and Publishing Practices U 4
An examination of the managed production system utilized in the printing and publishing industry.
Au. Sp Qtrs. 5 2-hr cl and lab. Prereq: 235 or Ed-Intec 235. Not open to students with credit for Ed-Intec 239.

243 Elementary School Industrial Arts Activities U 5
Laboratory experiences involving the use of tools, materials, processes, and products through which society supplies its need for food, clothing, shelter, tools, machines, records, utensils, and transportation.
Au, Wi, Sp Qtrs. 5 2-hr cl and lab. Prereq: Major standing in elementary or special education. Not open to students with credit for Ed-Intec 243.

251 Work Experience in Industry U 3-6
A firsthand study of working conditions, methods, and processes of industry, and their implications for the teaching of industrial arts.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs, including or hrs in Ed-Intec 251.

255 Handicrafts U 4
Designed to develop skills and knowledge in the use of the common areas of handicrafts such as leather, metals, plastics, wood, and the graphic arts.
Au, Wi, Sp Qtrs. 5 2-hr cl and lab. Open only to roc their phys ed, and rec educ majors. Repeatable to a maximum of 12 or hrs, including or hrs in Ed-Intec 255.

289 Field Experience in a Community Agency U 2-5
Professional service with children or youth in some school or community agency.
Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs, including or hrs in Ed-E&M C 289.03 and 289.70, Ed-Hums 289.09 and 289.45, and Ed-Intec 289.

289.02 Experience in a Community Agency
The source is graded S/U.

289.09 Speech and Radio-Speech
For students in speech or radio-speech.

289.21 Industrial Technology Education
This course is graded S/U.

289.45 Foreign Languages
This course is graded S/U.

289.70 Early Childhood Education

294 Group Studies U 1-5
Group Studies for students in specialized programs.
Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs, including or hrs in Ed-E&M C 294.10, 294.56, and 294.70, and Ed-Hums 294.

294.09 Speech-Theatre Education

294.10 Elementary Education

294.25 English Education

294.45 Foreign Language Education

294.56 Reading

294.70 Early Childhood Education

355 Custom Production of Industrial Goods U 4
A study of custom production planning and custom production processing of industrial goods through experiences in the custom production of selected manufactured goods.
Au, Sp Qtrs. 5 2-hr cl and lab. Prereq: 3rd yr standing in major. Not open to students with credit for 255 or Ed-Intec 255.

435 Theory and Practicte in Secondary Education U 5
A laboratory field experience course introducing concepts, problems, and skills common to prospective secondary school teachers.
4 2-hr cl. Prereq: Psych 230; students in phys ed: Phys Ed 232 or equiv. Not open to students with credit for Ed-FAR 435.

436 Teaching of Driver Education U 3
Designed to prepare teachers to organize and conduct driver training classes in the secondary schools, including methods of teaching, scheduling, and other pertinent details.
1 2-hr cl. 1 2-hr lab. Prereq: Educ 451 and valid driver’s license. Not open to students with credit for Ed-Intec 436. Graduates of the College of Education who complete 436, 437 and 438, will be eligible for certification to teach driver training courses in the secondary schools of Ohio.

437 Advanced Course in the Teaching of Driver Education U 3
Organization and administrative aspects of driver and traffic safety education plus orientation in the use of driving simulators and driving ranges.
Su, Wi Qtrs. 3 cl. Prereq: 436 or Ed-Intec 436. Not open to students with credit for Ed-Intec 437.

438 Personality and Behavioral Factors in Driver and Traffic Safety Education U 3
Study of human behavior with emphasis on attitudes, motivation, and adjustment, and their relationship to safe driving.
Su, Sp Qtrs. 3 cl. Prereq: 436 or Ed-Intec 436; can be taken concurrently. Not open to students with credit for Ed-Intec 438.

442 Creative Dramatics U 3
Philosophy, materials, methods, and evaluation of dramatic improvisation in developing creative artistic expression and problem solving. 3 cl, lab. Prereq: Educ 451. Not open to students with credit for Ed-Hums 442.

460 Elementary Education: Child Guidance U 4
Designed to develop an understanding of child growth and development principles in relation to instruction.

461 Elementary Education: Conceptions of Teaching U 3
Designed to acquaint students with certain aspects of elementary school programs which cut across separate subject areas, and to acquaint students with certain teaching behaviors.
Prereq: 460 or Ed-E&M C 460. Not open to students with credit for Ed-E&M C 461.
467 Introduction to Children’s Literature U 3
Study of literature for children with emphasis on standards for selecting materials with reference to the interests, needs, and abilities at different age levels.
Su, Au, Wi, Sp Qtrs. Prereq: Educ 451 or permission of instructor. Not open to students with credit for Ed-E&M C 467.

489 Advanced Field Experience in Science and Mathematics Education U 3-5
Directed field experience emphasizing appropriate teaching strategies for different school age children and school settings. 2 hrs field experience/credit hr, 1-2 hr seminar. Prereq: Admission to EDP and to science and mathematics teacher education program. Repeatability to a maximum of 15 or hrs, including or hrs in Ed-E&M C 489.01, 489.02, and 489.03; subdivisions not repeatable.
489.01 Middle School-Jr High School Tutorial
Middle or junior high school science or mathematics program with emphasis on tutoring a student(s) in science or mathematics.
Au, Wi Qtrs.

489.02 Elementary School Program
Planning, preparing, and teaching science or mathematics to elementary school age children.
Au, Wi Qtrs.

489.03 Secondary School Science or Mathematics Classes and Laboratories
Experience in appropriate secondary school science or mathematics classroom and laboratory with emphasis on acquiring skills to develop, prepare, conduct and evaluate laboratory experiences.
Sp Qtr. Prereq: 489.02 or Ed-E&M C 489.02 or permission of instructor: concurrent 551.

494 Special Group Studies U 1-5
Group studies for students in special interest programs.
Prereq: Permission of instructor. Repeatability to a maximum of 15 or hrs, including or hrs in Ed-Intec 494 and Ed-E&M C 494.05 and 494.27.
494.21 Industrial Technology Education
This course is graded S/U.

494.26 Teaching of Mathematics
Teaching of Science

501 Kindergarten and Preschool Teaching U 3
Recent development in the education of young children and its influence on the selection and guidance of appropriate activities.
Prereq: 460 or Ed-E&M C 460. Not open to students with credit for Ed-E&M C 501.

502 Elementary Education: Mathematics U 3
A study of the methods and materials used in arithmetic instruction; includes development of functional relationships with other curriculum areas, diagnostic procedures, and remedial work.
Prereq: 460 or Ed-E&M C 460, and Math 105 and 106. Not open to students with credit for Ed-E&M C 502.

507 Elementary Education: Language Arts U 3
The teaching of language arts, including listening, oral, and written communications.
Prereq: 460 or Ed-E&M C 460. Not open to students with credit for Ed-E&M C 507.

508 Elementary Education: Social Studies U 4
Sequential arrangement of the elementary education curriculum; emphasis on social studies in the elementary school program.
Lab arr. Prereq: 460 or Ed-E&M C 460. Not open to students with credit for Ed-E&M C 508.

511 Elementary Education: Science U 4
The role of science in childhood education; study of content, methods, materials, and equipment.
Lab arr. Prereq: 460 or Ed-E&M C 460, and 15 or hrs of science (natural sciences part of BER may be used). Not open to students with credit for Ed-E&M C 511.

513 Elementary Education: Reading U 4
A study of various methods and materials used in the teaching of reading in the elementary school.
Lab arr. Prereq: 460 or Ed-E&M C 460. Not open to students with credit for Ed-E&M C 513. Students may not schedule more than 20 or hrs while taking this course.

520 Wood Products Manufacturing U G 5
Wood product design; production organization and control; tools and equipment used to perform production practices; wood product production.
Au Qtr. 5-2 hr labs. Prereq: 231 or Ed-Intec 231 or equiv with written permission of the instructor. Not open to students with credit for Ed-Intec 520.

526 Social Studies in the Secondary School U 4
An introduction to the field of secondary social studies education, to basic theories, to representative methods for interpreting history and the social sciences in the classroom, and to the planning process. Museol.

527 Curriculum, Materials, Resources, and Teaching Strategies for Secondary Social Studies U 4
A study of social studies curricula and an analysis of materials, of resources, and teaching strategies for use in secondary social studies. Museol.

532 Teaching of Industrial Arts I U 3
Study of the societal forces and problems attributable to technology, historical, sociological, and psychological bases of industrial arts instruction; development of a philosophy underlying industrial technology education.
Au Qtr. 1 2 hr-cl. Prereq or concur: Educ 451. Not open to students with credit for Ed-Intec 532.

533 Teaching of Industrial Arts II U 3
Analysis of educational ends and means for industrial arts; development of units of study for contemporary industrial arts programs; review of exemplars in curriculum, instruction, and evaluation.
Wi Qtr. 1 2 hr-cl. Prereq: 532 or Ed-Intec 532. Not open to students with credit for Ed-Intec 533.

534 Teaching of Industrial Arts III U 3
Study and application of specific teaching methods including lecture, demonstration, discussion, use of media; problems of classroom management and deviant student behavior; laboratory facilities and safety; professional considerations.
Sp Qtrs. 1 2 hr-cl. Prereq: 533 or Ed-Intec 533. Not open to students with credit for Ed-Intec 534.

535 Fundamentals of Secondary Reading Instruction U 3
3 cl. Not open to students with credit for Ed-Hums 533.

541 Introduction to Educational Research and Evaluation U 3
A study of empirical methods as they apply in educational research, development, and evaluation settings. D. Costa.
1-2 hr-cl. 1-2 hr lab. Repeatable to a maximum of 9 or hrs, including or hrs in Ed-F&P 541.
546 Teaching Mathematics in Secondary Schools U 4
Mathematical concepts, objectives, and classroom procedures appropriate for secondary schools; selection, preparation, and use of teaching materials including lesson plans, study guides, textbooks, and multisensory aids.
Sp Qtr: 4 cr. Prereq: Educ 451 and 20 or hrs in math. Not open to students with credit for Ed-S&A 546.

551 Science in Secondary Schools U 4
Objectives, problems and procedures, preparing teaching plans, use of demonstrations, experiments and projects, science curriculum and evaluation, instruments and procedures, texts and reference materials.
4 cr. Prereq: Permission of program coordinator or instructor. Not open to students with credit for Ed-S&A 551.

556 Teaching of Speech in Secondary Schools U 4
The relationships of speech to the total school program with special emphasis on fundamental processes and forensic activities.
4 cr. Prereq: Comm. 240, 305, and 506; and Educ 451. Not open to students with credit for Ed-Humes 580.

560 Teaching the Reading of Literature U 4
The objectives of the literature program and techniques for developing appreciation and improving skills in the reading of various types of prose and poetry.

561 Teaching Language and Composition in Secondary Schools U 4
The role of grammar and linguistics in the English program and techniques for the teaching of oral and written expression in high school.

585 Elementary Education Student Teaching
Observation, participation, and responsible teaching in a public school; individual and group conferences or seminars.
Au, Wi, Sp Qtrs. Maximum transfer credit accepted is 6 cr hrs. Not open to students with minimum acceptable or hrs in Ed-S&E C 585, 585.10, 585, 585.11, 585.12, and 585.14. For additional information, see College of Education Bulletin. These courses are graded S/U.

585.10 Standard Elementary Student Teaching U 9 or 15
Prereq: Ed 4th yr standing and enrollment in regular elementary education degree program, 15 or hrs required.

585.11 In-Service Student Teaching U 6 or 9
Prereq: 3 or more yrs of successful teaching experience.

585.12 Postdegree Elementary Student Teaching U 15
Prereq: Bachelor’s degree.

585.14 Elementary Student Teaching for Field-Based Programs U 9-15
Students participate in teaching functions and assume major classroom responsibilities on a gradual basis from the beginning of the program.
Prereq: Enrollment in one of the approved elementary and early childhood education field-based programs. Repeatable to 15 or hrs.

586 Elementary School Student Teaching in Foreign Languages U 3
Observation, participation, and responsible teaching of a foreign language in an elementary school; conferences or seminars.
Prereq: Educ 4th yr standing. Repeatable to a maximum of 6 or hrs, including cr hrs in Ed-Humes 588. This course is graded S/U.

587 Student Teaching in Secondary Schools U 3-15
Observation, participation, and responsible teaching in a public school; individual and group conferences or seminars.
Prereq: Educ 4th yr standing and permission of program coordinator. Students desiring teaching in more than one area should indicate accurately both section numbers and hours in each. Repeatable to 15 or hrs. For additional information, see College of Education Bulletin. These courses are graded S/U.

587.09 Speech-Theatre Education
Prereq: 556 or Ed-Humes 556, or 631 or Ed-Humes 631. A minimum of 15 or hrs in student teaching is required (6 or hrs in 587.09 and 6 or hrs in 587.08).

587.21 Industrial Technology Education

587.25 English
Prereq: 550 or Ed-Humes 560, and 561 or Ed-Humes 581.

587.26 Mathematics

587.27 Science

587.28 Social Studies

587.45 Foreign Languages
A—French
B—Spanish
C—German
D—Russian
E—Latin
F—English

589 Laboratory Experiences in English Education U 1-3
A field-based laboratory designed to provide tutoring, materials development, test construction and evaluation, and instructional planning experiences within the English curriculum.
Arr. Prereq: Educ 451. Repeatable to a maximum of 15 or hrs, including or hrs in Ed-Humes 589. May be taken concurrently with one of the following: 533, 560, 561, 512, or 613.

599 Honors Course U 3-5
A program of accelerated study for students with special aptitudes.
Prereq: Enrollment in the Honors Achievement Program and permission of instructor. Repeatable to a maximum of 15 or hrs, including or hrs in Ed-ES&M C 599 and Ed-ES&M C 699.

604 Theories and Practices of Bilingual/Multicultural Education U G 3
Historic, legislative, and judicial background of bilingual/multicultural education as related to program development; examination of research on educational practices in bilingual/multicultural programs.
1 2-1/2 hr cr. Prereq: Educ 451 or equiv or written permission of instructor. Not open to students with credit for ES&M C 604.

605 Reading in the Bilingual/Multicultural Classroom U G 3
Major issues in reading theory and instruction as related to specific needs of children who are learning English as a second language.
1 2-1/2 hr cr. Prereq: Educ 451 or equiv or written permission of instructor. Not open to students with credit for ES&M C 605.

606 Language Arts in the Bilingual/Multicultural Classroom U G 3
Research and theories of first and second language acquisition as related to methods of teaching listening, speaking, reading, and writing in bilingual/multicultural classroom.
1 2-1/2 hr cr. Prereq: Educ 451 or equiv or written permission of instructor. Not open to students with credit for ES&M C 606.
610 History of Practical Arts and Vocational Education U G 3
History of these vocational and non-vocational phases of agriculture, business, industry, and homemaking which concern education. Lect.
Su Qtr. 3 cr. Not open to students with credit for Ed-Integ 610.

612 Linguistic Materials for Teachers U G 3
Study of linguistic systems, language acquisition, and sociolinguistics as they bear on the work of classroom teachers.
Not open to students with credit for Ed-Hums 612.

613 Methods for Conservation Education U G 3
Experience centered course for conservation/natural resources education including objectives, instructional and evaluative procedures appropriate to formal and non-formal settings. Field and laboratory.
Sp Qtr. 2 cr. 1 hr. lab. Prereq: Nat Res 201 or GeoG 330, and Botany/Zoology 313; Forestry 223 or equiv or sr standing. Not open to students with credit for Ed-SciMa 613 or Nat Res 613. Cross-listed in Natural Resources.

614 Marine and Aquatic Education U G e
Overview of coastal and Great Lakes resources, their roles in history, climate, commerce, and culture, examination of teaching materials for formal and informal settings. 1-3 hr. cl, field trips. Prereq: 20 cr hrs of social, physical, and/or biological sciences or teacher certification, and permission of instructor. Not open to students with credit for Ed-SciMa 614 or Nat Res 614. Cross listed in Natural Resources. Travel and subsistence costs for field trips must be borne by students.

615 Teaching of Modern Foreign Language I U G 4
Theory and practice of teaching foreign language in beginning classes; the use and preparation of instructional materials based on research studies from educational psychology and applied linguistics.
Au Qtr. 2 cr. 1 hr. lab. Prereq: 299.45 or Ed-Hums 299.45, Educ 451, and written permission of instructor. Repeatable to a maximum of 8 cr hrs, including 4 cr hrs in Ed-Hums 615.11, 615.12, 615.13, and 615.14. Subdivisions not repeatable.
615.11 French
615.12 Spanish
615.13 German
615.14 Russian

616 Teaching of Modern Foreign Language II U G 4
Study of the use of new instructional materials for intermediate and advanced foreign language classes; teaching of reading, writing, literature, and culture; evaluation.
Wi Qtr. 2 cr. 1 hr. lab. Prereq: 540 or Ed-Hums 540, or 615 or Ed-Hums 615. Repeatable to a maximum of 8 cr hrs, including 4 cr hrs in Ed-Hums 616.11, 616.12, 616.13, and 616.14, and 616.16. subdivisions not repeatable.
616.11 French
616.12 Spanish
616.13 German
616.14 Russian
616.16 French, Spanish, German, Russian

617 Teaching of Foreign Languages in the Elementary School U G 4
Skill development in teaching of spoken and written foreign language at the elementary school level; construction and use of suitable materials; discussion of issues and problems, evaluation.
Prereq: 15 cr hrs of ed and written permission of instructor. Not open to students with credit for Ed-Hums 617.

618 Teaching of Latin U G 4
Values, teachers' equipment, objectives, and methods; classroom procedures; lectures, and assigned readings. 3 cr. lab arr. Prereq or concur: Educ 451, Latin 201 and 202, and an additional 6 cr hrs in Latin. Not open to students with credit for Ed-Hums 618.

619 Foreign Language Education Residence in Europe U G 2-5
Practicum in language, language teaching, history, and culture in a foreign country; each student lives with a family, participates in instruction-related activities and in the study of social and cultural differences.
Prereq: Written permission of instructor; prerequisite Autumn Quarter. Repeatable to a maximum of 30 cr hrs including or hrs in Ed-Hums 619.11 and 619.12.
619.11 France
619.12 Spain

620 Methods and Techniques of Teaching English to Speakers of Other Languages U G 4
Study of the use of new instructional materials for intermediate and advanced TESOL classes; teaching of reading, writing, literature, and culture; evaluation. 2 cr. cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Hums 616.15 or 620.

621 Teaching Mathematics in Secondary Schools II U G 4
Selected problems in curriculum, evaluation, materials of instruction, and the teaching of specific topics in arithmetic, algebra, and geometry.
Au Qtr. 4 cr. Prereq: 546 or Ed-SciMa 546, and 25 cr hrs in math. Not open to students with credit for Ed-SciMa 621.

622 Laboratory Methods and Materials in School Mathematics U G 3
The laboratory teaching of mathematics; experience in the preparation and use of teaching materials. 1 hr. cl. Prereq: Permission of instructor. Not open to students with credit for Ed-SciMa 622.

624 Social Education U G 3
Analyses of social structures and processes in classroom grouping arrangements; teacher social roles, school traditions, ceremonies, clubs, and athletics. 1 hr. cl. Prereq: Educ 451 or permission of instructor or teaching experience. Not open to students with credit for Ed-Hums 624.

627 Practicum in Science for Teachers U G 3
Use and design of apparatus, demonstrations, and experiments for general science, chemistry, biology, and physics, with special emphasis on modern secondary school instructional materials in the sciences.
Au Qtr. 2 cr. Prereq: Permission of program coordinator or instructor. Not open to students with credit for Ed-SciMa 627.

629 Storytelling, Dramatization, and Creativity U G 3
Developing skills in storytelling and dramatization processes; conceptual and theoretical criteria to be developed from laboratory practice; emphasis on developing instrumentation for evaluation. 1 hr. cl. 1-2 hr. lab. Prereq: Experienced teacher or standing with some field experience. Not open to students with credit for Ed-Hums 629.

630 Children's Theatre: Production and Direction U G 5
Selection, production, and direction of plays for children with special focus upon school and recreation problems. Lewis. Prereq: Theatre 220. Not open to students with credit for Ed-Hums 630 or Theatre 555 or 501. Offered in cooperation with Theatre.

631 Teaching Dramatics and Oral Interpretation in Secondary Schools U G 4
The organization and conduct of dramatic classes and extra dramatic activities; resource planning for oral readings, choral speaking, radio-television programming, and theatrical production. Lewis.
4 cr. Prereq: 630 or Ed-Hums 630; Communs 221; Educ 451; and Theatre 220, 271, and 280. Not open to students with credit for Ed-Hums 631.
658 Literature for Adolescents U G 3
Literature for individual, group, and whole-class reading in junior and senior high schools; interest factors, readability, and literary value as criteria for selection; bibliographic aids.
Prereq: Educ 451. Not open to students with credit for Ed-Hums 666.

663 Applied Linguistics for Teachers of Reading/Language Arts U G 3
Structure of language, language acquisition, and language variation applied to language arts teaching principles, methods, and materials. DeStefano.
2 1/2 hr cl. Not open to students with credit for Ed-E&M C 665.

674 Family Participation in Early Childhood School Programs U G 3
The purposes and importance of family involvement in early childhood school programs, types of programs, resources, methods, and curricula.
Prereq: Ed-P&L 673, or Ed-Votec 673, or permission of instructor. Not open to students with credit for Ed-E&M C 674.

675 Audiovisual Materials of Instruction U G 4
Designed to provide basic experience in theory, design, preparation, selection, utilization, and evaluation of materials and equipment available in modern learning environments; emphasis on a final synthesizing project.
2 cl, 2 2-hr lab. Not open to students with credit for Ed-F&R 675.

676 Planning and Preparing Teacher-Made Educational Media U G 3
Demonstration and practice in the preparation of teaching materials; emphasis on techniques for illustrating, preserving, lettering, converting, and duplicating projected and non-projected media.
1 2-hr cl, 1 2-hr lab. Prereq: 4th yr or grad standing. Not open to students with credit for Ed-F&R 674.

677 Educational Telecommunications U G 3
The varied types of educational broadcasting in relation to objectives, planning, production, utilization, and evaluation. Belland.
2 2-hr cl. Prereq: 4th yr standing. Not open to students with credit for Ed-F&R 677.

678 Introduction to Instructional Systems Development U G 3
Paradigms for instructional development; learner, task, and curriculum analysis; prototype development; conlusion of a production proposal/storyboard. Subsequent enrollment in 778 expected.
1 2-hr cl, 1 2-hr lab. Prereq: 675 or Ed-F&R 675. Not open to students with credit for Ed-F&R 678.

679 Development and Management of Educational Media Centers U G 3
Media specialist's responsibilities for the successful operations of a media program; planning, organization, administration, and service functions; emphasis on school library media program.
Prereq: 675 or equiv. Not open to students with credit for Ed-F&R 679.

681 Special Topics in English Education U G 3
Exploration of topics and their interrelationships; integration of pre-requisite and concurrent courses with field experiences.
3-5 hr. Repeatable to a maximum of 18 cr hrs including cr hrs in Ed-Hums 681.01, 681.02, 681.03, 681.04 and 681.05; with more than 6 cr hrs in a single decimal subdivision.

681.01 Consequences of Literacy
An investigation of the relationship between literacy and learning.
Prereq or concur: 533 or Ed-Hums 533, 561 or Ed-Hums 561, Anthrop 630, and permission of instructor.

681.02 Language and Learning
An investigation of the relationship between language and society, language and culture, and language and learning.
Prereq or concur: 599 or Ed-Hums 599, 665 or Ed-E&M C 665, Anthrop 630, and permission of instructor.

681.03 Classroom Community
A study of human relations and community context as related to the English classroom.
Prereq or concur: Anthrop 620.07, Ed-P&L 615 or Ed-F&R 616, and permission of instructor.

681.04 Multicultural Materials for English Teachers
An exploration of the wide range of available literary materials representing cultural diversity, and the various perspectives related to multicultural education.
Prereq or concur: 560 or Ed-Hums 560, Anthrop 630, English 270, and permission of instructor.

681.05 Individualizing and Evaluating Language Arts Instruction
Study of practical methods and structures which relate instruction to individual abilities and interests; overview of the field of evaluation.
Prereq or concur: 561 or Ed-Hums 561, 675 or Ed-F&R 675 or Ed-HumSer 665 or Ed-Its 665, and permission of instructor.

683 Solving Classroom Problems U G 3
Exploration of problem areas of classroom control, student learning, parent relationships, relationships with other teachers and time management. Cruickshank.
1 2-hr cl. Prereq: Student teaching or permission of instructor. Not open to students with credit for Ed-F&R 683.

685 Middle and Senior High School Science or Mathematics Field Experience U G 6
Experience in appropriate school science or mathematics classes with an emphasis on acquiring skills to work with students in a school setting while developing skills in preparing, conducting, and evaluating teaching activities.
Su Qtr. 3 hrs/d/st for 5 days/wk for 8 wks. Prereq: Admission to the post-degree program in science and mathematics education and concur: 551 or 546. Not open to students with credit for Ed-Sc&M 688.

690 Practicum in Problems of Public Education U G 3
Group review of specific problems in public education.
3 cl. Prereq: 481 or Ed-E&M C 481 or equiv., and permission of instructor. Open to experienced teachers and administrations. Request for offer practicum must be received by date in time to allow for planning. Repeatable to a maximum of 9 cr hrs, including cr hrs in Ed-E&M C 690, Ed-F&R 690, and Ed-P&L 690. Cross listed in Educational Policy and Leadership.
700 Interprofessional Education
Focus on ethical issues, changing professional/consumer rights, and interprofessional cooperation.
Repeatable to a maximum of 0 or hrs, including or hrs in Ed-FAR 700.01, 700.02, 700.03, and 700.04: subdivisions not repeatable, except 700.04 which is repeatable to a maximum of 10 or hrs. Limited to students enrolled in allied medical professions, education, law, medicine, nursing, social work, theology. Cross listed in Educational Policy and Leadership.

700.01 Seminar in Interprofessional Care U G 3
Treatment of the whole person through the analysis of the interrelated problems of actual cases.

700.02 Changing Societal Values U G 3
Identification and clarification of values considerations as they relate to professional problems in dealing with consumers/clients/patients.

700.03 Seminar on Ethical Issues Common to the Helping Professions U G 3
Ethical issues of concern to the professions and arising out of advanced technology: euthanasia, enforced treatment, privacy and confidentiality, malpractice, and the social responsibility of the professions.

700.04 Interprofessional Practicum in Clinical Settings U G 3, 6
Interprofessional teamwork in clinical settings.

Prereq: Permission of instructor.

703 Studies in TESOL and Bilingual Education U G 3
Studies of the theories underlying the teaching and learning of English as a second language and bilingual education: analyses of curricular design and innovative programs.
Spr Qtr. 1-3 hr cl. Prereq: Jr standing. Not open to students with credit for Ed-Hums 703.

710 Selecting and Developing Second Language Instructional Materials U G 3
Selection and development of second language instructional materials including theoretical considerations and practical applications; evaluation of instructional materials, creating materials, and adapting materials to student needs.
1 3-hr cl. Prereq: 815 or Ed-Hums 815 or permission of instructor. Not open to students with credit for Ed-Hums 710.

715 Bilingual Education Testing U G 3
General theories of measurement as applied to bilingual education: in-depth discussion of standardized tests that evaluate the language dominance and proficiency of children in bilingual education programs.
2 3-4 hr cl for 5 wks. Prereq: Jr standing or above or permission of instructor. Not open to students with credit for Ed-Hums 715.

721 Logic and Psychology in School Science and Mathematics U G 3
A study of the nature of psychological growth and the development of logical ability in children and the implications for teaching science and mathematics.
3 cl. Prereq: Teaching experience or written permission of instructor. Not open to students with credit for Ed-Hums 721.

722 Literature across the Curriculum U G 3
Non-fiction for ages 4-12 as it contributes to social studies, the sciences, language arts, and the creative arts; emphasis on identifying quality selections and planning related to learning experiences.
1 3-hr cl. Prereq: 467 or Ed-E&M C 467. Not open to students with credit for Ed-E&M C 722.

723 Algebraic Concepts in School Mathematics U G 3
Such concepts as algebraic structures, order structures, and relation and function as unifying themes for school mathematics.
2 1/2-hr cl. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-ScMa 723.
724 Geometric Concepts in School Mathematics U G 3
The historical and contemporary role of geometry in school mathematics; review of research analysis of current programs and the teaching of of selected concepts.
3 hr cr or 2 11/2 hr cr. or 1 3 hr cr. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Sc&M 724.

725 Teaching Advanced Foreign Language Courses U G 3
The teaching of language skills and aesthetic appreciation in advanced foreign language classes; emphasis on teaching interdisciplinary studies: literature, history, fine arts, music, and architecture.
Sp Qtr. 1 1/2 hr cr. Prereq: At least one French or Spanish course at the 600 level.
725.11 French
Not open to students with credit for Ed-Hums 725.11.
725.12 Spanish
Not open to students with credit for Ed-Hums 725.12.

726 Number Concepts in School Mathematics U G 3
The concept of number systems from the point of view of a teacher who plans to introduce them to students in grades kindergarten through 12.
2 1/2 hr cr. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Sc&M 722.

728 Analysis of Teaching Young Children U G 3
Current education and human development theories as they relate to the teaching-learning phenomenon. R. Williams.
1 2/3 hr sem and 1 clinical observation. Prereq: Basic course in child development. Designed for grad students in-service teachers. Not open to students with credit for Ed-E&M C 724.

730 Technological Activities for Teachers of Exceptional Children U G 4
The application of technological practices in developing instructional materials and activities useful in diagnostic and remediation procedures for exceptional learners.
Au Qtr. 3 2 hr cr and lab. Prereq: Ed-Excep 650 or Ed-HuSer 651 or 718 or Ed-HuSer 718, or equiv with written permission of instructor. Repeatable to a maximum of 8 or hrs, including or hrs in Ed-Intec 730.

732 Corrective Reading U G 3
Diagnostic techniques and instructional methods and materials useful to the elementary and secondary classroom teacher in helping individuals and small groups of problem readers. Zehl, Prereq: 513 or Ed-E&M C 513 or Educ 491. Not open to students with credit for Ed-E&M C 732.

734 Evaluation of Reading U G 3
Examination of current measurement techniques in reading from theoretical, technical, and cultural perspectives. Renf. 1 1/2 hr cr. Not open to students with credit for Ed-E&M C 734 or Educ 734.

735 Organization and Administration of Industrial Education U G 3
International and historic background curriculum resources and development, physical organization, administrative organization, supervisory operation, and professional policies. Lixih. Su Qtr. 1 1/2 hr cr. Not open to students with credit for Ed-E&M C 735.

736 Integrating Strategies: Teacher Questioning Behavior U G 3
Designed to analyze and facilitate mastery of question-asking strategies and techniques to improve instruction and the responding patterns of students. Cunningham.
3 cr. Not open to students with credit for Ed-E&M C 736.

742 Supervision of School Science Programs U G 4
For those concerned with supervision of teacher education programs in science; objectives, curricula, recent trends, classroom management, evaluation of teaching, professional literature.
Su Qtr. 4 cr. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Sc&M 742.

752 Science in the School Curriculum U G 4
Foundations for science curriculum; current development, planning and evaluation procedures, research.
2 1/2 hr cr. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Sc&M 752.

760 Management of Educational Research and Development U G 3
An examination of the theory, practice and problems associated with the administration and management of research and development in educational systems and institutions.
1 3 hr cr. Prereq: Bus-Mgt 701 for undergraduates; Bus-Mgt 800 for grad students. Not open to students with credit for Ed-F&R 760.

765 Introduction to Educational Evaluation U G 3
An introduction to educational evaluation including the history of evaluation, types of evaluation, and specialized areas in evaluation, and specialized areas in evaluation (e.g., needs assessment, assessment of professional performance). Atchison.
1 1/2 hr cr. Prereq: 785 or Ed-F&R 785, or 786 or Ed-F&R 786, or permission of instructor. Not open to students with credit for Ed-F&R 765.

766 Directing Student Teachers U G 3
Principles and techniques for directing the laboratory experiences of student teachers and other teacher education students. Cypert and Williams.
1 1/2 hr cr. Prereq: experience. Not open to students with credit for Ed-E&M C 766.

769 Quantitative Techniques for Educational Decisions U G 3
Principles and problems associated with utilization of quantitative techniques and procedures for educational decision making.
1 1/4 hr cr. Prereq: 785 or Ed-F&R 785, and 788 or Ed-F&R 788. Not open to students with credit for Ed-F&R 769.

772 Teaching Science in College U G 4
An examination of college Bachelor's degree, teacher's certificate, and teaching science curricula; teaching methods; student and course evaluation techniques; objectives and rationale for teaching science in general education and teacher education programs.
2 1/2 hr cr. Prereq: Teaching experience or permission of instructor. Not open to students with credit for Ed-Sc&M 772.

778 Developmental Testing and Field Evaluation of Instructional Systems U G 3
Theory and practice of developmental testing and field evaluation of instructional systems.
1 1/2 hr cr, 1 2 hr lab. Prereq: 678 Ed-F&R 678, and course(s) in media production resulting in a prototype instructional system to be submitted to the 778 instructor in advance. Not open to students with credit for Ed-F&R 778.

785 Introduction to Inquiry, Principles, Strategies, and Techniques U G 3
Introduction to inquiry strategies and their role in educational development; emphasis is on the conceptualization of educational problems.
Su, Au, Wk. Su Qtr. 2 1/2 hr cr. Prereq: 4th year or grad standing. Not open to students with credit for Ed-F&R 785.
786 Introduction to Inquiry: Quantitative Methods G 3
An introduction to quantitative techniques, with emphasis on application in educational settings.
Su, Wi, Sp Qtr's 2 2 hr cl per qtr. Prereq: 4th year or grad standing. Not open to students with credit for Ed-F&R 798.

787 Classroom Test Construction G 3
General principles and techniques for construction and utilization of classroom tests for assessment of student achievement.
1 3-hr cl. Prereq: 4th yr or grad standing. Not open to students with credit for Ed-F&R 787.

788 Survey of Computer Uses in Instruction G 3
Applications of computers for improving instruction: computer concepts, concepts of instructional systems development, programming principles and practice, exemplary curricular applications.
1 1½-hr cl, 1 1½-hr arr. Not open to students with credit for Ed-F&R 788.

791 Information Processing in Education G 4
Major emphases are placed on current applications, limitations, problems, and potential of data processing, information system, and computer technology in education.
1 3-hr cl, 1 hr lab arr. Not open to students with credit for Ed-F&R 791.

795 Proposal Development G 3
Principles, processes and research relating to the creation of proposals for developmental and research activities in educational agencies and institutions.
1 2½-hr cl. Prereq: 785 or Ed-F&R 785 or equiv. Not open to students with credit for Ed-F&R 795.

H799 Honors Course 3-5
A program of accelerated study and research for students with special aptitudes.
Prereq: Enrollment in the Honors Achievement Program and permission of instructor. Repeatable to a maximum of 15 or hrs, including or hrs in Ed-E&M C H799 and Ed-Intec H799.

301 Teaching Foreign Language at the College Level G 5
Methods and techniques for teaching foreign language at the college level.
Two wks intensive workshop previous to qtr followed by a 2 hr wkly cl. Prereq: Teaching associate in the Dept of Romance Languages and Literatures or permission of instructor. For students enrolled in these courses, the minimum number of credit hours required for graduation is increased by 5, 10, or 15 hrs.

801.01 French
Not open to students with credit for Ed-Hums 801.01 or French 801. Cross-listed in French as 801.

801.02 Italian
Not open to students with credit for Ed-Hums 801.02 or Italian 801. Cross-listed in Italian as 801.

801.03 Spanish
Not open to students with credit for Ed-Hums 801.03 or Spanish 801. Cross-listed in Spanish as 801.

806 Fundamentals of Instructional Materials and Media G 3
Theory in educational media applied to the process of instructional development.
1 3-hr cl. Prereq: 675 or Ed-F&R 675 or practical experience in using educational media in school settings. Not open to students with credit for Ed-F&R 806.

807 Educational Survey Research Methods G 3
A study of the design principles, sampling and data-gathering methods used in the conduct of educational survey research.
2 1½-hr cl. Prereq: 785 or Ed-F&R 785, and 786 or Ed-F&R 785, or equiv with written permission of instructor. Not open to students with credit for Ed-F&R 807.

808 Experimental Design in Education G 3
An examination of logical and quantitative principles, especially the analysis of variance, underlying basic experimental designs employed in educational research. Kennedy.
Wi, Sp Qtr's 2 1½-hr cl. Prereq: 786 or Ed-F&R 786 or equiv. Not open to students with credit for students with credit for Ed-F&R 816.

809 Experimental Uses in Education II G 3
An examination of intermediate quantitative principles and issues underlying experimental design in education, especially principles and issues associated with factorial designs employing multiple response measures. Kennedy.
Sp Qtr 2 1½-hr cl. Prereq: 808 or Ed-F&R 808 or equiv. Not open to students with credit for Ed-F&R 808.

810 Experimental Design in Education III G 3
Au Qtr 2 1½-hr cl. Prereq: 809 or Ed-F&R 809 or equiv. Not open to students with credit for Ed-F&R 810.

811 Science in Elementary Education G 3
Problems of elementary school science instruction with emphasis on pertinent literature and classroom implementation of current developments in science curriculum and methodology.
Prereq: 585 or Ed-E&M C 585 or secondary (587) student teaching of 3 yrs teaching experience. Not open to students with credit for Ed-E&M C 911.

812 Mathematics in Elementary Schools G 3
Applications of research and theory to improve children's competence and problem solving; organization of Instructional programs and contemporary instructional questions. Stull.
Prereq: 585 or Ed-E & M C 585 or secondary (587) student teaching of 3 yrs teaching experience. Not open to students with credit for Ed-E&M C 812.

814 Social Studies in the Elementary School G 3
The educational values of social studies, reasons for and ways and means of integrating the social sciences with emphasis upon program innovations and research. Tawesbury.
Prereq: 585 or Ed-E&M C 585 or secondary (587) student teaching of 3 yrs teaching experience. Not open to students with credit for Ed-E&M C 814.

815 Guidance Problems in the Elementary School G 3
Selected problems which the elementary teacher faces in providing individual, small-group, and large-group guidance.
Prereq: 585 or Ed-E&M C 585 or secondary (587) student teaching. Not open to students with credit for Ed-E&M C 815.

816 Language Arts in the Elementary School G 3
Problems, research, and current methods of teaching the four major areas of the language arts in the elementary school: listening, speaking, reading, writing. King.
Prereq: 585 or Ed-E&M C 585 or secondary (587) student teaching of 3 yrs teaching experience. Not open to students with credit for Ed-E&M C 813.

817 Advanced Course in Children's Literature G 3
An evaluation of the changing role and increased importance of literature in the education of children and youth. Huck.
Prereq: 467 or Ed-E&M C 467, or 813 or Ed-E&M C 813. Not open to students with credit for Ed-E&M C 817.

818 Foundations of Elementary Education G 3
Utilization of research in the basic sciences in developing background and understanding of present trends in elementary education, critical examination of current theories.
Not open to students with credit for Ed-E&M C 818.
819 The Changing American Elementary School G 3
Investigation of objectives, issues, and curriculum organization of the modern elementary school program.
Prereq: 588 or Ed-E&M C 585 or secondary (587) student teaching or 3 yrs teaching experience. Not open to students with credit for Ed-E&M C 819.

820 Program/Project Management G 3
The use of management information systems in the planning and controlling of educational research and development projects, with particular emphasis on network planning techniques.
1 3-hr cr. Not open to students with credit for Ed-F&R 820.

821 School Problems in Child Development G 3
Advanced study based upon research in education and related fields which aids the teacher in guiding developmental activities of children in the elementary school.
Not open to students with credit for Ed-E&M C 821.

822 Simulation and Games in Education G 3
Intended to familiarize participants with the potential of simulation and games as instructional alternatives.
Crackshank. 1 27-hr cr. Not open to students with credit for Ed-F&R 822.

823 Creative Experiences in the Elementary School Curriculum G 3
Study of the nature of creativity and aesthetics as related to the elementary school curriculum. Koste.
Not open to students with credit for Ed-E&M C 823.

824 Designing School Programs for Children Age Two to Six G 3
A study of the characteristics and needs of children two to six years of age as they relate to the development of educational programs.
Not open to students with credit for Ed-E&M C 824.

825 Methods of Developing Language and Cognition in Early Childhood G 3
Curriculum methods and materials in developing language and cognition in school programs for children ages three to eight, based upon research findings.
Prereq: 824 or Ed-E&M C 824 or permission of instructor. Not open to students with credit for Ed-E&M C 825.

826 Research in Early Childhood Education G 3
Exploration of research methods and techniques related to early childhood school programs; review of research in the field; in-depth investigation of interest area. Haefner.
Prereq: 785 and 786 or Ed-F&R 785 and 786, or permission of instructor. Not open to students with credit for Ed-E&M C 826.

827 Advanced Study in the Teaching of Developmental Reading G 3
Designed to provide experienced teachers the opportunity to extend and update their knowledge of the reading process and the principles underlying effective reading instruction. Kerber.
Not open to students with credit for Ed-E&M C 827.

828 Trends and Issues in Teaching Reading in the Elementary School G 3
Designed for experienced teachers and curriculum workers; current developments, trends, and issues critically analyzed according to available research evidence. Kerber.
Prereq: 813 or Ed-E&M C 813 or permission of instructor. Not open to students with credit for Ed-E&M C 828.

829 Problems in Elementary School Curriculum and Supervision G 3
An analysis of the programs and practices involved in facing major curriculum problems in the elementary schools; synthesis of supervision and curriculum.
Prereq: 819 and Ed-F&R 661 or Ed-PAL 661. Not open to students with credit for Ed-E&M C 829.

830 Early Childhood Education: Multi-Cultural Influences G 3
A study of early childhood curriculum content and teaching methods as influenced by multi-cultural factors.
1 3-hr cr. Prereq: Written permission of instructor. Not open to students with credit for Ed-E&M C 830.

831 Theory and Practice of Cataloging and Classifying Materials for School Media Centers G 3
Principles, problems and methods of descriptive cataloging for print and audiovisual materials.
3 cr. Prereq: 975 or Ed-F&R 675; students without undergraduate course work in cataloging will be required to complete a 1 hr/wk lab during 831. Not open to students with credit for Ed-F&R 831.

832 Reference Services in the School Media Center G 3
Principles, problems and methods of reference services, including organization and administration of key tools (dictionary, directories, and encyclopedias) for both print and audiovisual materials.
3 cr. Prereq: 831 or Ed-F&R 831 or equiv. Not open to students with credit for Ed-F&R 832.

833 Appraisal, Selection and Acquisition of Instructional Materials for School Media Centers G 3
Criteria and strategies for the appraisal, selection, and acquisition of instructional materials related to curricular and personal needs of school media center users.
3 cr. Prereq: 832 or Ed-F&R 832. Not open to students with credit for Ed-F&R 833.

834 Planning Industrial Arts Facilities G 3
Principles of industrial arts and technical laboratory planning including equipment selection for all school levels and meeting all curriculum requirements. Umstattd.
1 27-hr cr. Not open to students with credit for Ed-Insc 834.

835 Practicum in Development and Management of Specialized School Media Services G 3
Organization and administration of specialized media services (e.g., TV photography, CAL graphics) for education — design, needs assessment, personnel, budget, facilities and accountability.
3 d and 3 cr field visits. Prereq: 679 or Ed-F&R 679. Not open to students with credit for Ed-F&R 835. Not appropriate for fulfilling requirements for certification in school administration.

836 Practicum in Industrial Arts Education G 3-5
Derivation of doctrine; formulation, and evaluation of basic programs, curriculum development, organizational implementation, leadership problems, and professional progress, both here and abroad. Ray.
Au Qtr. 3 cr. Prereq: Secondary (587) student teaching or equiv. Not open to students with credit for Ed-Insc 836.

837 Research in Industrial Arts Education G 3
Identification of research problems and needs; review of research exemplars with critical analysis of research design and procedures.
Sp Qtr. 3 cr. Prereq: 785 and 786, or Ed-F & R 785 and 786, or permission of instructor. Not open to students with credit for Ed-Insc 837.

838 Learning Styles G 3
Education dimensions of learning styles in children and adults related to developmental, neurological, social and environmental substrates of learning. Languas.
1 3-hr cr. Prereq: Previous teaching experience or permission of instructor. Not open to students with credit for Ed-E&M C 838. Open to grad students in any field of specialization in education.
839 Evaluation in Elementary Schools  G 3
Appraisal of materials and methods in terms of educational objectives. Emphasis on evaluation findings; consideration of instruments and procedures for comparing achievements with established objectives. 
Prereq: 555 or Ed-E&M C 555 or secondary (587) student teaching or 3 yrs teaching experience. Not open to students with credit for Ed-E&M C 830.
840 Writing in the Elementary School  G 3
Study of implications from recent research and theory in language learning and use in respect to writing, spelling, handwriting, and grammar.
1 2 hr cr. Prereq: 813 or Ed-E&M C 813. Not open to students with credit for Ed-E&M G 840.
841 Poetry for Children  G 3
An in-depth study of poetry for children including children's interest in poetry, forms of poetry, and representative poets. Classroom approaches for encouraging children's involvement and appreciation of poetry.
1 1/2 hr cr. Prereq: 817 or 856 or Ed-E&M C 817 or Ed-Hums 813. Not open to students with credit for Ed-E&M G 841.
843 Literature for Middle Childhood  G 3
Analysis and study of fiction for children ages 8-12; emphasis on literary quality, strategies for classroom use, and related issues.
1 1/2 hr cr. Prereq: 817 or Ed-E&M C 817. Not open to students with credit for Ed-E&M C 822.
844 Vocational Evaluation and Development  G 3
A study of vocational evaluation, development, and job adjustment materials and practices utilized in educational and rehabilitation settings. Scott.
1 1/2 hr cr. Prereq: Ed-Hum 817 or Ed-Hum 827 or Ed-Hum 833 or permission of instructor. Not open to students with credit for Ed-E&M C 828.
845 Work Adjustment and Development  G 3
A study of the principles and procedures of work adjustment and development techniques, methods, and resources utilized in educational and rehabilitation settings.
1 1/2 hr cr. Prereq: 730 or Ed-Intec 730 or permission of instructor. Not open to students with credit for Ed-E&M C 829.
846 Development of Industrial Technology and Prevocational Education Programs for the Educationally Disadvantaged and Handicapped  G 3
Analysis of educational needs of disadvantaged and handicapped learners with a special emphasis on designing, conducting, and evaluating industrial technology and prevocational programs.
1 1/2 hr cr. Prereq: 533 or Ed-E&M C 533 or equiv with written permission of instructor. Not open to students with credit for Ed-E&M C 830.
847 Systems Concept in Education  G 3 or 5
Introduction to general systems theory and an overview of its utilization and application in the field of education.
1 1/2 hr cr. Not open to students with credit for Ed-FAR 830.
848 Understanding Preschool Play  G 3
A study of relevant theories, developmental stages, and research as they relate to developing programs for young children.
1 1/2 hr cr. Prereq: Ed-E&M C 450, G 532 or Ed-E&M C 450 or Ed-E&M C 831 or ed-equivalent with written permission of instructor. Not open to students with credit for Ed-E&M C 831.
849 Observing and Facilitating Preschool Play  G 3
Continuation of 848; extensive analysis of experiences in facilitating preschool play and clinical experience regarding the play of young children.
1 1/2 hr cr. Prereq: 848 or Ed-E&M C 831 or ed-equivalent with written permission of instructor. Not open to students with credit for Ed-E&M C 832.
850 Internship in Educational Research and Development  G 3-12
Internship experiences in research, development, or evaluation settings.
Arr. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs, including credits in Ed-FAR 850 and Ed-E&M C 850.
851 College Teaching G 3
Designed as initial preparation for instruction at the college level; focuses on the general skills, strategies and issues common to university teaching. Cruickshank and Cypher.
1 1/2 hr cr. Open to grad students committed to teaching in any area at the college level. Not open to students with credit for Ed-FAR 842 or Ed-P&P 811. Cross listed in Educational Policy and Leadership. This course is graded S/U.
852 Science and Early Childhood Education G 3
The nature, scope, and role of science experiences in the learning and development of young children; integration and application of current developmental; theory and research in science with early childhood education. Langus.
1 3 hr cr. Prereq: Experience with young children or introductory child development course. Not open to students with credit for Ed-E&M C 830.
853 Critical Reading in the Content Fields G 3
Exploration of the problems of developing critical reading ability in a variety of curricular fields. Rentel.
Prereq: 533 or 827 or Ed-E&M C 827 or Ed-Hums 533 and permission of instructor. Not open to students with credit for Ed-E&M C 833 or Ed-Hums 833.
854 Reading in Its Social Setting G 3
The influence of culture on the nature, quality, and quantity of reading development, the relationship of reading to language development and mass media. Fox.
Not open to students with credit for Ed-E&M C 864.
855 Practicum in Reading G 3
Application of research, diagnostic, prognostic, and program development methodology in field settings. King.
Lab arr. Prereq: Permission of instructor. Not open to students with credit for Ed-E&M C 855.
856 Advanced Literature for Adolescents G 3
An evaluation of literature for adolescents and the role it plays in the education of youth.
1 1/2 hr cr. Prereq: Teaching experience. Not open to students with credit for Ed-Hums 813.
857 Individualizing Instruction G 3
A study of theory, practice, and materials related to individualizing instruction. Belland.
1 1/2 hr cr. Not open to students with credit for Ed-FAR 857 or Ed-P&P 857. Cross listed in Educational Policy and Leadership.
858 Industrial Arts in the Elementary School G 3
Selection, development, and evaluation of typical experience units in both classroom and practical arts laboratory situations at all levels of the elementary schools. Blankenship.
3 cr. Prereq: 243 or Ed-Intec 243 or ed-equ. Not open to students with credit for Ed-Intec 832.
859 Industrial Arts Curriculum Planning G 3
Analysis of curriculum research and development process; review critical analysis of instructional materials; application of industrial arts curriculum, instruction, and evaluation principles to practical arts, career, and vocational education. Ray.
1 1/2 hr cr. Prereq: Secondary (587) student teaching or ed-equivalent. Not open to students with credit for Ed-Intec 833.
860 Language Arts in the Early Childhood Program  G 3
The process of children’s language acquisition leading towards development of reading skills; practical applications from theory and research on language processing. Fox.
1 3-hr cl. Prereq: Experience in working with young children or introductory level child development course. Not open to students with credit for Ed-E&M C 836.

861 Literature in Early Childhood Education  G 3
Study of literature for children ages two through seven; emphasis on the importance of early exposure to literature for language acquisition and for cognitive and affective development. Huck.
1 3/4-hr cl. Prereq: 467 and/or 728, or Ed-E&M C 467 and/or 724. Not open to students with credit for Ed-E&M C 837.

862 Roots of Fantasy for Children  G 3
A study of selected works of fantasy for children (grades 4-9) along with their sources in traditional literature; works based on Arthurian legends, the Welsh Mabinogion, and other folklore from the British isles.
1 3/4-hr cl. Prereq: 817 or 856 or Ed-E&M C 817 or Ed-Hums 815. Not open to students with credit for Ed-E&M C 842.

863 Evaluation Methods  G 3
Review of specialized techniques used by educational evaluators such as needs assessment, field test design, naturalistic methods, assessment of professional personnel and cost benefit analysis. Atchuld.
1 3/4-hr cl. Prereq: 765 or Ed-F&R 863 or permission of instructor. Not open to students with credit for Ed-F&R 863.

867 Educational Experimentation  G 2-5
Analysis of contribution of selected experiments to elementary, secondary, and higher education; design of experimental method for attacking educational problems.
1 3/4-hr lab, conf arr. Prereq: 785 or Ed-F&R 785, and 15 cr hrs of grad work in ed. Repeatable to a maximum of 5 cr hrs, including or hrs in Ed-F&R 867.

873 Popular Culture and the Teaching of English  G 3
Analysis of the role of mass media/popular culture in our society; values and themes in popular culture; development of critical skills to analyze popular culture. Mertz.
Su, Sp Qtrs. 1 3-hr cl. Not open to students with credit for Ed-Hums 873.

882* Materials and Methods in the Social Studies  G 3
Study of recent innovations in teaching methodology in the social studies; review and evaluation of recently published teaching materials. Gilliom.
Wi Qtr. 1 3/4-hr cl. Not open to students with credit for Ed-Hums 882.

883 Organization and Teaching of Social Studies  G 5
Study of problems encountered in the conceptualization, planning, and teaching of the secondary social studies methods course. Gilliom.
Au Qtr. 2 cl, 2 2-hr labs. Prereq: PhG standing in educ. Not open to students with credit for Ed-Hums 883.

884 Planned Field Experience  G 1-15
Planned professional teaching experience in a public school or other educational agency under supervision. Prereq: Written permission of area advisor. Repeatable to a maximum of 15 cr hrs including or hrs in Ed-E&M C 884.10, 884.56, and 884.70; Ed-F&R 884.36, 884.43, 884.46, and 884.50; Ed-Hums 884.09, 884.25, 884.28, and 884.45; Ed-intec 884.1; and Ed-Sc&Ma 884.29 and 884.27.

884.09 Speech Education
884.10 Elementary Education
This course is graded S/U.

884.21 Industrial Technology Education
884.25 Teaching of English
884.26 Teaching of Mathematics
884.27 Teaching of Science
884.28 Teaching of Social Studies
884.36 Teacher Education
884.43 Radio and Television Education
884.45 Teaching of Foreign Languages
884.46 Audiovisual Communication
884.56 Reading
This course is graded S/U.

884.60 Research and Evaluation
884.70 Early Childhood Education
This course is graded S/U.

889 Practicum in Educational Communication  G 3-5
Observation, limited participation and functional analysis of production, distribution, and management operations in selected media centers, and broadcast facilities or film agencies. Defland.
2 cl, 3-9 hrs arr. Repeatable to a maximum of 10 cr hrs, including or hrs in Ed-F&R 889.

894 Group Studies  G 1-5
Advanced group studies on special problems in education. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs, including or hrs in Ed-E&M C 894.10, 894.56, and 894.70, Ed-intec 894.1, and Ed-Sc&Ma 894.10.

894.21 Industrial Technology Education
894.26 Teaching of Mathematics
894.27 Teaching of Science
894.56 Reading
894.70 Early Childhood Education

899 Interdepartmental Seminar in Teaching College Mathematics  G 2-4
Discussion of problems raised by courses for liberal or general education, service courses, or special education courses commonly offered in college mathematics; given cooperatively by Math and Ed-Sc&Ma.
1 3-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Sc&Ma 899. This course is graded S/U.

918 Curriculum and Instruction in Teacher Education  G 6
Study of teacher education curriculum and how instruction is conducted; hands-on experience with newer instructional alternatives, e.g., microteaching, reflective teaching, simulation. Cruikshank.
2 3-hr cl. Not open to students with credit for Ed-F&R 918.

919 Classroom Life and Related Theory  G 3
Identification of events of educational significance for classroom teachers; creation of teaching materials intended to prepare teachers for those events. Cruikshank.
Wi Qtr. 1 3/4-hr cl. Not open to students with credit for Ed-F&R 919.
920 Advanced Concepts in Elementary School Science Education G 3
Emphasis on functions of leadership personnel in developing and improving elementary school science programs and on evaluation of current developments and research.
Prereq: 911 or permission of instructor. Not open to students with credit for Ed-E&M C 929.

921 A Guided Survey of Research in Reading G 3
Designed to provide acquaintance with scientific studies relating to reading, methods used, results attained, including implications and limitations, and the problems meriting further investigation.
Prereq: 6 cr or hrs in grad reading courses. Repeatable to a maximum of 6 cr or hrs, including cr or hrs in Ed-E&M C 921.

922 Inquiry in Teacher Education G 3
Study of a variety of research in teacher education with emphasis on research on teacher effectiveness. Cr/Unsch.
Sp Qtr 1 2-hr cl. Not open to students with credit for Ed-F&R 920.

923 Developing the Curriculum in Teacher Education G 4
To acquaint prospective teachers of teachers with processes for curriculum development in teacher education, to permit them to develop a curriculum for the preparation of teachers. Cr/Unsch.
Su Qtr 1 2-hr cl, 1 2-hr lab. Open only to PhD students. Not open to students with credit for Ed-F&R 921.

925 Seminars G 2-5
Prereq: Permission of instructor. Students with permission of advisors may register for more than one section or for the same section two or more times.
925.09 Speech-Theatre Education
Lewis.
925.10 Elementary Education
This course is graded S/U.
925.21 Industrial Technology Education
925.25 Teaching of English
Bateman, Mertz, and Zidonis.
925.26 Teaching of Mathematics
925.27 Teaching of Science
925.28 Teaching of Social Studies
Gilliom and Muegg.
925.36 Teacher Education
This course is graded S/U.
925.43 Radio and Television Education
925.45 Teaching of Foreign Languages
Allen, Jarvis, and Bernhardt.
925.46 Audiovisual Communication
925.56 Reading
925.60 Research and Evaluation
925.70 Early Childhood Education
This course is graded S/U.

930 Applied Evaluation Design G 3
Techniques for planning, implementing and reporting the evaluation of programs in varied educational settings. At times.
Sp Qtr 1 2-hr cl. Prereq: 725 or Ed-F&R 725. and 725 or Ed-F&R 725. or eqv or permission of instructor. Not open to students with credit for Ed-F&R 930.

937 Roles of Field and Clinical Experiences in Teacher Education G 3
An analysis of student teaching and related direct experiences in teacher education with special emphasis on the theoretical basis, purposes, organization, curriculum patterns, evaluation, administration, and problems in the design of experiences. Cp/Repeat.
3 cr. Prereq: Master's degree, college supervision of student teachers, or permission of instructor. Not open to students with credit for Ed-F&R 937.

962 Seminar in Foreign Language Education G 4
Analysis of major research studies and projects; evaluation and implications of findings; research considerations unique to foreign language education. Jarvis.
Su Qtr 1 2-hr cl; 1 lab arr. Prereq: Written permission of instructor. Not open to students with credit for Ed-Hums 962.

963 Foreign Language Testing G 4
Theory and practice of foreign language test construction including item writing, item analysis, reliability, validity, scoring, and interpretation. Jarvis.
Sp Qtr 2 2-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Hums 963.

966 Practicum in Educational Research and Evaluation G 3
The utilization of research strategies and evaluation techniques in studying educational problems with emphasis upon the development, conduct and completion of individual projects.
3 cr. Prereq: Previous courses in the basic sequence in educational research or evaluation or permission of instructor. Not open to students with credit for Ed-F&R 966 or Ed-P&L 966. Cross listed in Educational Policy and Leadership. This course is graded S/U.

970 English Curriculum: Language and Composition G 3
An evaluation of current trends and developments in linguistics and composition instruction and their relevance for the English curriculum.
Su, Au Qtr. 3 cr. Not open to students with credit for Ed-Hums 970.

971 English Curriculum: Literature G 3
Critical examination of trends in the secondary school literature program.
Su Qtr. Not open to students with credit for Ed-Hums 971.

972 English Curriculum: Studies in the Teaching of Literature G 3
Role of literary theory and aesthetics in English curriculum development; study of the relation of literature to the other arts.
Not open to students with credit for Ed-Hum 972.

982 Evaluation in Secondary Social Studies Education G 3
Testing, measurement, and evaluation in secondary social studies; treatment of teacher-made standardized tests; discussion of reporting practices. Muegg.
Au Qtr 1 2-hr cl. Prereq: Certification in secondary social studies. Admission to grad specialization in secondary social studies. Not open to students with credit for Ed-Hums 982.

985 Theories of Secondary Social Studies Education G 3
Basic theories of secondary social studies education; discussion of subject-centered, emergent needs, citizenship, reflective, and discipline-oriented approaches. Muegg.
Sp Qtr 1 2-hr cl. Prereq: Certification in secondary social studies. Admission to doctoral program in secondary social studies. Not open to students with credit for Ed-Hums 985.
Electrical Engineering

201 Circuit Analysis I U 4
Resistance networks; independent and dependent sources: R, L, C terminal relations; transient response; operational impedance and transfer functions.
Au, Wi, Sp Qtr. 4 cl. Prereq: Physics 133, En Graph 200 or Cprl/Inf 221, and concour: Math 415; a minimum cumulative pt/hr ratio of 2.0; and acceptance as an eng major or written permission of dept.

202 Circuit Analysis II U 4
Operational methods; sinusoidal and exponential excitation; phasors; power and energy; resonance; poles and zeros; mutual coupling; Fourier series.
Au, Wi, Sp Qtr. 4 cl. Prereq: 201, Math 415, and a minimum cumulative pt/hr ratio of 2.0.

206 Switching Circuits Lab U 2
NAND, NOR, XOR gates; combinational circuits: adders, code converters; flip flop: sequential circuits; shift registers, counters.
Au, Wi, Sp Qtr. 1 cl, 1 3-hr lab. Prereq: 260.

207 Circuits Laboratory I U 2
Basic electrical measuring instruments; investigation of various waveforms in R, L, C circuits; transient response, frequency response, polyphase circuits.
Au, Wi, Sp Qtr. 1 cl, 1 3-hr lab. Concour: 202.

208 Circuits Laboratory II U 2
Investigation of properties of the basic circuit elements, periodic non-sinusoidal waveforms, harmonic analysis, operational amplifiers and active circuits.
Au, Wi, Sp Qtr. 1 cl, 1 3-hr lab. Prereq: 207.

250 Introduction to Switching Theory U 3
Introduction to combinational switching theory, Boolean algebra, and clocked sequential networks.
Au, Wi, Sp Qtr. 3 cl. Prereq: Math 153, Physics 133, a minimum cumulative pt/hr ratio of 2.0, and acceptance as an eng major or written permission of dept.

293 Individual Studies in Electrical Engineering U 1-15
Su, Au, Wi, Sp Qtr. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

350 Signals and Systems I U 4
Linear systems and models; convolution and impulse response for discrete and continuous time; state variables; 2 transforms.
Au, Wi, Sp Qtr. 4 cl. Prereq: 202 and Math 415.
520 Electronic Devices and Controls U G 4
Theory and applications of electronic devices; study of control
circuits, feedback, operational amplifiers, and instruments.
Au, Wi, Sp Qtr. 3 cl, 3-hr lab. Prereq: 500 or 202 or Mech Eng 382 or equiv.

521 Electronic Devices and Circuits I U G 4
First of a sequence of two electronics courses including diodes
and transistor electrical characteristics, transistor amplifier
circuits, and operational amplifiers.
Au, Wi, Sp Qtr. 4 cl. Prereq: 202.

522 Electronic Devices and Circuits II U G 4
A continuation of 521 including digital circuits, waveform
generation, and computer-aided design.
Au, Wi, Sp Qtr. 4 cl. Prereq: 521.

540 Electric Machinery U 3
Electromechanical devices; an introduction to the basic
principles of analysis of electromechanical devices; the
approach is organized to extend the circuit concepts and
dynamic analysis introduced in the preceding course.
Au, Wi, Sp Qtr. 4 cl. Prereq: 500 or 202 or Mech Eng 382 or equiv.

541 Energy Conversion and Power Systems U G 4
Three-phase systems, energy conversion principles,
transformers, basic concepts of rotating machines, introduction
to power systems, components, steady-state and transient
operation, insulation, grounding.
Au, Wi, Sp Qtr. 4 cl. Prereq: 202 and 510.

550 Signals and Systems II U G 4
Fourier and Laplace transforms; digital filters; feedback
systems, block diagrams; stability; Routh criteria; Nyquist and
Bode analysis; root locus.
Au, Wi, Sp Qtr. 4 cl. Prereq: 350.

580 Professional Aspects of Electrical Engineering U 1
Employment problems of graduating seniors, professional
aspects of engineering and professional societies and ethics;
discussion of employment practices.
Au Qtr. 1 cl.

601 Communication Theory U G 3
Theory of communication, information content, frequency
spectra, noise, methods of modulation, modulation, and
demodulation.
Au, Wi Qtr. 3 cl. Prereq: 550 and Stat 421.

607 Communication Laboratory U G 2
Laboratory in the areas of logic circuits, communication theory,
and active circuits.
Au, Wi Qtr. 1 cl, 1-3 hr lab. Concur: 801.

621 Electronic Devices and Circuits I U G 3
Intermediate electronics for advanced undergraduate or
graduate students; in depth examination of circuit models,
analysis methods, and design procedures useful for linear and
digital electronics. Gotting.
Au Qtr. 3 cl. Prereq: 522 or equiv with written permission of
instructor.

622 Electronic Devices and Circuits II U G 3
Continuation of 621 with special emphasis on applications of
operational amplifiers, tuned circuits, and logic circuits.
Gotting.
Wi Qtr. 3 cl. Prereq: 521 or equiv with written permission of
instructor.

624 Power Electronic Devices and Circuits U G 3
Power transistors, power amplifiers, push-pull amplifiers, power
regulation, SCR characteristics, and SCR circuits.
Sp Qtr. 3 cl. Prereq: 522 or equiv.

626 Audio Recording Engineering U G 3
Audio recording; microphones and microphone placement;
multiple track recording; mixing; equalization and special
effects.
Wi Qtr. 3 cl. Prereq: 520 or 522 or equiv with written
permission of instructor.

627 Audio Recording Laboratory U G 2
Creating an audio recording; familiarity with the recording
studio and console; use of microphones; multiple track
recording; equalization and special effects; mixing.
Sp Qtr. 1 cl, 1-3 hr lab. Prereq: 520 or equiv with written
permission of instructor. Repeatable to a maximum of 6 or hrs.

628 Electronic Devices and Circuits Laboratory U G 2
Power amplifiers, push-pull amplifiers, power regulation, SCR
characteristics, and SCR circuits.
Sp Qtr. 1 cl, 1-3 hr lab. Prereq: 427, concur: 624.

631 Electron Device Physical Theory I U G 4
Physical electronics principles, statistical distributions,
conduction, diffusion, energy bands in solids, potential
distribution, photoelectric effects, and their application to
electron devices.
Au, Wi, Sp Qtr. 4 cl. Prereq: Chem 205, Math 415, and
prereq or concur: 510.

637 Solid State Microelectronics Laboratory U G 2
Introduction to laboratory techniques including oxidation,
chemical processes, photolithography, diffusion and
metalization; fabrication and measurements of p-n junction
planar diodes.
Au Qtr. 2 cl, 1-4 hr lab. Prereq: 631 or equiv with written
permission of instructor.

638 Solid State Microelectronics Laboratory U G 4
Design and fabrication of solid state devices including light
emitting diodes, solar cells, MIS capacitors, charge-coupled
device, MIS transistors, junction bipolar transistors and small
scale integration techniques.
Wi Qtr. 2 cl, 1-4 hr lab. Prereq: 637.

640 Industrial/Commercial Power Systems U G 3
An introduction to power system design for commercial
buildings and industrial plants; legal and economic
considerations; equipment specifications and ratings, design
practice.
Sp Qtr. 3 cl. Prereq: 540 or 541.

643 Electrical Machines U G 3
Magnetic circuits, transformers, engineering considerations of
rotating machines, direct current machines, alternating current
machines.
Wi Qtr. 3 cl. Prereq: 541.

645 Engineering Economics and Applications to Power Systems U G 3
Basic financial-mathematical concepts, methods of engineering
economics, comparison of alternative plans, economics of
electric power generation, transmission and distribution, case
studies and examples. Seebo.
Au Qtr. 3 cl. Prereq: 541.

647 Electrical Energy Conversion U G 2
Characteristics of general magnetic networks and
transformers; steady-state and transient operation of
electromechanical energy conversion devices, inspection of
electric power systems and machinery facilities.
Wi Qtr. 1 cl, 1-3 hr lab. Prereq or concur: 643 or 740.
651 Switching Circuit Design U G 3
An introduction to digital circuit design using integrated circuit technologies: gates, latches, ALU, shift registers, multiplexers, memories.
Au, Wi, Sp Qtr's 3 cl. Precise: 206 and either 520 or 521.

670 Introduction to Bio-Medical Engineering U G 3
Introduction to the engineering aspects of life science, utilizing lectures from engineering, medical, and life sciences.
Au Qtr 2 cl. 3-hr lab. Precise: 4th yr standing in ENG or permission of instructor.

693 Individual Studies in Electrical Engineering U G 1-18
Su, Au, Wi, Sp Qtr's. Repeatable to a maximum of 18 or hrs. This course is graded S/U.

694 Group Studies in Electrical Engineering U G 1-18
Su, Au, Wi, Sp Qtr's. Repeatable to a maximum of 18 or hrs.

702 Communications Systems U G 3
A study of communications systems with emphasis on signal-to-noise characteristics of various modulation and coding techniques. W. Davis.
Sp Qtr 3 cl. Precise: 601.

703 Space Communications U G 3
A study of space communication systems; long-distance transmission, wave propagation, and system considerations. D. Davis.
Sp Qtr 3 cl. Precise: 601.

704 Radar Systems U G 3
A study of radar systems including applications of modulation and detection theory; includes ranging, tracking, mapping, and guidance and navigation systems.
Au Qtr 3 cl. Precise or concur: 601.

705 Digital Communication Systems U G 3
Principles of digital data communications; baseband signals; optimization and equalization; modulation systems. Ladicky.
Au Qtr 3 cl. Precise: 550 or equiv with written permission of instructor.

710 Microwave Circuits U G 3
Advanced waveguides, waveguide devices, amplifiers, generators and detection devices, special microwave techniques. Pascoe.
Au Qtr 3 cl. Precise: 512 or equiv.

711 Radiation from Antennas U G 3
Dipole, loop, aperture, reflector, lens, surface wave, and other antennas; array theory; radiation resistance, directivity, and input impedance.
Wi Qtr 3 cl. Precise: 512 or equiv.

721 Microwave Optics U G 3
Geometrical optics, physical optics, aperture radiation integrals, minimum range requirements, stationary phase, scatter theory, backscattering, aperture blocking, radar echo area, geometrical theory of diffraction, and gyroscopic media. Petras.
Au Qtr 3 cl. Precise: 719.

713 Elements of Radio Wave Propagation U G 3
Practical calculations and procedures for predicting refraction and reflection by a plane or spherical earth; tropospheric, ionospheric, and scatter propagation. Levits.
Sp Qtr 3 cl. Precise: 512 or equiv.

716† Optics with Laser Light U G 4
Theoretical description of plane, spherical waves; holography; diffraction; Gaussian beams; optical spatial filtering; matrix ray optics; laboratory experience.
Au Qtr 3 cl, 1 3-hr lab. Precise: 512 and 550.

719 Electromagnetic Field Theory I U G 3
Fundamental laws of electrodynamics; dielectric, magnetic, and conductive media; energy, force, and momentum; radiation, scattering, and dispersion; interior boundary value problems.
Su, Au Qtr's 3 cl. Precise: 512 or equiv.

720 Circuit Theory of Solid State Devices U G 3
Wi Qtr 3 cl. Precise: 522.

721 Advanced Electronic Circuits U G 3
Integrating and interfacing circuits, counting circuits, timing circuits, pulse circuits, wave-forming and wave-shaping circuits.
Cornette.
Sp Qtr 3 cl. Precise: 522 and 621 or equiv.

722 Active Network and Logic Circuit Design by Digital Computer U G 3
Study of computer-aided network design programs, topological matrices, active device modeling, linear and non-linear solutions; logic circuit analysis and design by digital computer. Barndottir.
Au Qtr 3 cl. Precise: 522.

732 Quantum Electron Devices U G 4
Sp Qtr 4 cl. Precise: 631 and Math 415, or equivs.

733 Parametric Electronics and Nonlinear Optics U G 3
Coupled mode theory of wave interactions; acousto-optical devices; nonlinear optical phenomena; optical parametric processes; tunable optical oscillators; high power laser interactions. Hsu.
Wi Qtr 3 cl. Precise: 512 and Math 415, or equivs.

734†* Solid State Electronics Design and Technology I U G 3
Discrete and planar electronic device design and associated silicon and germanium technology; semiconductor crystal growth; liquid-liquid transformations; epitaxy, oxidation, diffusion, p-n junctions, planar diodes, and transistors. Middleton.
Wi Qtr 3 cl. Precise: 631 or permission of instructor.

735†* Solid State Electronics Design and Technology II U G 3
Si junction and surface FET, MOS devices; integrated active and passive device design; integrated circuit design and fabrication; photolithography; water processing and control testing; assembly; packaging. Middleton.
Sp Qtr 3 cl. Precise: 734 or permission of instructor.

740 Electric Power Systems I U G 3
A study of steady state operation of electric power systems; network concepts, power network representations; network solutions in matrix methods; asymmetrical systems; control of voltages, watts, and vars; load flows, economic dispatch.
Au Qtr 3 cl. Precise: 541.

741 Electric Power Systems II U G 3
The methods and devices used in systems protection: protection systems, relay types, pilot wire and carrier systems, relay response, protection of machines, transformers, buses, and tie-line, instrument transformers, modern trends in protection.
Wi Qtr 3 cl. Precise: 740.

742 Electric Power Systems III U G 3
A study of transient operation of electric power systems; circuit breakers, circuit interruption, switching transients, traveling waves, insulation coordination, and stability. Sebo.
Sp Qtr 3 cl. Precise: 740.
743 Advanced Theory of Electrical Machines U G 3
Matrix representation, steady-state and transient analysis of transformers; d-c, induction, synchronous, and special machines.
Au Qtr. 3 cl. Prereq: 541.

744 Electrical Machine Design U G 3
Principles and practices of electrical machine design with emphasis on design of windings and magnetic circuits. Math.
Sp Qtr. 3 cl. Prereq: 643.

745 Electric Power System Reliability U G 3
Reliability concepts applied to the performance of power systems; reliability of generation, transmission and distribution; failure, repair, and maintenance processes of power system components.
Wi Qtr. 3 cl. Prereq: 541 and Stat 421. Not open to students with credit for 6948.

746 Power System Control and Stability U G 3
Digital computer modeling, stability, and control representation of excitation and governor systems, analysis of transient stability of multimachine systems. Keyhara
Sp Qtr. 3 cl. Prereq: 643 and 740.

747 High Voltage Engineering and Laboratory I U G 4
Dielectric strength and breakdown of gases, liquids and solids, electric field design problems in power system equipment; laboratory study of high voltage insulation. Sebo.
Au Qtr. 3 cl, 1-2 hr lab. Prereq: 541.

748 Power System Laboratory U G 2
A laboratory study of power system engineering problems.
Sp Qtr. 1 cl, 1-3 hr lab. Prereq: 740.

749 High Voltage and Engineering Laboratory II U G 4
Impulse and switching surge phenomena, lab study of high voltage measurement problems; electric field and insulation design problems in electric power system equipment.
Wi Qtr. 3 cl, 1-2 hr lab. Prereq: 747.

750 Linear System Theory U G 3
Canonical realization of transfer functions; state observability and controllability; state feedback and asymptotic observers; reduced order observers; direct transfer function design.
Su, Au Qtr. 3 cl. Prereq: 550.

751 Analysis of Control and Instrumentation Systems U G 3
Formulation of equations of dynamical lumped systems—electrical, mechanical, electromechanical, thermal and hydraulic; conservation of momentum, charge and flux linkage; energy and state methods.
Sp Qtr. 3 cl. Prereq: 541 and 550, or equivs.

752 Feedback Control Systems I U G 3
Application of feedback principles to control systems, system equations; performance criteria; compensation, carrier systems, multivariable systems.
Au, Wi Qtr. 3 cl. Prereq: 550.

754 Feedback Control Systems II U G 3
Analysis of nonlinear control systems; computer simulation, numerical methods, phase-plane techniques, describing functions, and switched systems.
Sp Qtr. 3 cl. Prereq: 550.

755 Digital Control Systems U G 3
Difference equations, z-transforms, digital filtering, sampling quantization, analog-digital conversion; block diagramming to model digital and hybrid control systems.
Wi Qtr. 3 cl. Prereq: 550.

757 Control Laboratory U G 3
Laboratory study of feedback control systems with experiments analyzing different types of plants, transducers, and control techniques; emphasis on real-time computer control.
Wi, Sp Qtr. 2 cl, 4 lab hrs. Prereq: 360 or 460 or equiv, 457, and preq or concur: 755.

760 Theory and Design of Digital Computers U G 3
Number systems, introduction to computer programming, design of arithmetic and control units for general purpose digital computers, and interrelation of hardware and software system design.
Au, Wi, Sp Qtr. 3 cl. Prereq: 360 or 460, or Cpthrn 360 and Elec Eng 661.

761 Switching Circuit Theory U G 3
State minimization, asynchronous sequential machines, the state assignment problem, transient analysis of combinational switching networks, linear sequential networks, and threshold logic.
Wi, Sp Qtr. 3 cl. Prereq: 760 or Cpthrn 875.

762 Information Theory U G 3
Introduction to information theory, codes, sources, and transmission over noisy channels. Davis.
Wi Qtr. 3 cl. Prereq: 280 or equiv with written permission of instructor.

763 Real Time Analog-Digital Systems U G 3
Introduction to combined analog-digital techniques; hybrid system components; error analysis; hardware and software.
Au Qtr. 3 cl. Prereq: 550 and 460 or equiv.

764 Digital Signal Processing U G 3
Transmission of information, conversion to digital form, and conventional analysis methods; processing techniques including complex exponentials and Walsh/Haar Transform theory; generalized Fourier Transform. Lackey.
Sp Qtr. 3 cl. Prereq: 550.

765 Minicomputer and Microcomputer Structures U G 3
An investigation of current mini- and microcomputer structures with emphasis on hardware implementation of I/O, direct memory access, interrupts, memory, micro programming.
Au, Wi Qtr. 3 cl. Prereq: 760.

767 Digital Logic Laboratory U G 2
A self-paced laboratory involving the design of basic computer components such as registers, arithmetic logic units, counters, and the design of sequential machines.
Au, Wi, Sp Qtrs. 1 cl, 1-3 hr lab. Prereq. 661.

768 Digital Systems Laboratory U G 3
A self-paced, hardware-oriented laboratory in which students design, construct and test interfaces of peripheral devices to a PDP 11-10 minicomputer.
Sp Qtr. 3 cl. Prereq: 763.

769 Microprocessor Laboratory U G 3
Open shop design in which students design, construct, debug, and program microprocessor systems based on currently available microprocessors, memories, I/O devices, etc.
Au, Sp Qtrs. 1 cl, 1-3 hr lab. Prereq: 661 and 765, or equivs with permission of instructor.

770 Biological Control Systems U G 3
Application of control theory to the analysis of biological control systems such as visual, muscular, thermal, and cardiovascular; receptor, nerve, axon, and muscle transfer characteristics. Campbell.
Sp Qtr. 2 cl, 1-3 hr lab. Prereq: 550 or equiv; 670 and permission of instructor or Physiol 600.
771 Bio-Medical Instrumentation U G 3
Application of electrical engineering to instrumenta
The coding problem; linear codes and their implementation; codes. Lackey.
Sp Qtr. 3 cl. Prereq. 782 or equiv with written permission of instructor.
W 3-hr labs, Prereq. 781 or Med. 789 or equiv with
3-hr labs. Prereq. 771 or Med 790 or equiv with
Written permission of instructor.
W 1-18

803 Coding Theory G 3
The coding problem; linear codes and their implementation; cyclic codes. Lackey.
Sp Qtr. 3 cl. Prereq. 782 or equiv with written permission of instructor.
W 3-hr labs. Prereq. 771 or Med 790 or equiv with
Written permission of instructor.
W 1-18

804 Communication Theory I G 3
The application of Fourier series and Fourier integral methods of the design and analysis of communication circuits and signals. Warren.
W Qtr. 3 cl. Prereq. 350 or equiv with written permission of instructor.

805 Communication Theory II G 3
The application of statistical methods to the statistical decision-theory, signal representation, of communication systems including signal representation, modulation, detection, and filtering. Warren.
W Qtr. 3 cl. Prereq. 804 and Stat 520.

806 Communication Theory III G 3
Topics selected from the communication applications of the design and analysis of communication systems including signal representation, modulation, detection, and filtering. Warren.
W Qtr. 3 cl. Prereq. 805.

807* Advanced Communication Theory I G 3
Application of the design and analysis of communication systems including signal representation, modulation, detection, and filtering. Warren.
W Qtr. 3 cl. Prereq. 807.

808* Advanced Communication Theory II G 3
Application of the design and analysis of communication systems including signal representation, modulation, detection, and filtering. Warren.
W Qtr. 3 cl. Prereq. 807.

810 Electromagnetic Field Theory II G 3
Field theories; boundary-value problems; solution of the integral equations for scattering; radiation integrals; far-field criteria; antenna theorems; mathematical and numerical techniques. Richmond.
W Qtr. 3 cl. Prereq. 810 or 711.

815 Advanced Antenna Theory II G 3
Field theories; boundary-value problems; solution of the integral equations for scattering; radiation integrals; far-field criteria; antenna theorems; mathematical and numerical techniques. Richmond.
W Qtr. 3 cl. Prereq. 810 or 711.

816** Propagation of Electromagnetic Waves G 3
Advanced study of transmission and reception of radio waves in the presence of the earth and its atmosphere; tropospheric, ionospheric, and scattering propagation.
W Qtr. 3 cl. Prereq. 715 and 810.

817 Advanced Electromagnetic Theory I G 3
Foundations of the electrodynamics of continuous media; physical implications of the theory; moving sources, boundaries, and media; scalar Green's functions.
W Qtr. 3 cl. Prereq. 810 or 815.

818 Advanced Electromagnetic Theory II G 3
Vector wave functions and dyadic Green's functions; integral equations and their solution by the moment, variational and T-matrix methods; application to antenna and scattering problems.
W Qtr. 3 cl. Prereq. 817.

819 Advanced Electromagnetic Theory III G 3
Use of asymptotic methods to obtain high-frequency solutions; geometrical optics and the propagation through inhomogeneous media; geometrical theory of diffraction and its application to antenna and scattering problems.
W Qtr. 3 cl. Prereq. 818.

820* Solid State Electron Devices I G 3
Physical properties of solids, crystal symmetry, lattice vibrations, electrons in a periodic lattice, the effective mass theorem.
W Qtr. 3 cl. Prereq. 831 or equiv.

831* Solid State Electron Devices II G 3
Infrared thermodynamics and the Onsager relation; the Boltzmann transport equation, lattice and impurity scattering, conductivity and related phenomena; optical properties of semiconductors.
W Qtr. 3 cl. Prereq. 830.

832* Solid State Electron Devices III G 3
Semiconductors and metals in strong electric and magnetic fields; theory of negative resistance devices, microwave devices, and related topics.
W Qtr. 3 cl. Prereq. 831.

841 Computer Methods in Power System Analysis G 3
Performance of large power systems during steady state and transient conditions using power flow, transient stability, and short circuit computer programs; study of network matrices. Sebo.
W Qtr. 3 cl. Prereq. 740.

842 Economic Operation and Control of Electric Power Systems G 3
Principles of economic operation and control of isolated or interconnected electric power systems, including effects of power losses in transmission lines. Smith.
W Qtr. 3 cl. Concur. 740.

843 High Voltage Transmission Systems G 3
An advanced study of high voltage transmission systems; electrical parameters, corona effects, electromagnetic field effects, environmental effects, insulation selection, string and route selection. Sebo.
W Qtr. 3 cl. Prereq. 740 or 747.

850 Theory and Design of Feedback Control Systems G 3
Linear feedback theory, signal-flow graphs, time-domain methods, numerical integration applied to linear and nonlinear systems, multi-variable systems, controllability and observability, pole assignment.
W Qtr. 3 cl. Prereq. 750.
851 Synthesis of Feedback Control Systems G 3
Synthesis of systems, both linear and non-linear, with statistical inputs; Wiener filter; Kalman filter; advanced topics. Wiemer.
Sp Qtr. 3 cl. Prereq: 750.

853* Analysis of Nonlinear Systems
G 3
An advanced study of non-linear systems and methods of analysis, stability studies with Lyapunov functions and functional analysis; applications from electric circuits and control systems.
Au Qtr. 3 cl. Prereq: 754 and 851 or permission of instructor.

854* Optimal Control Theory I G 3
Optimal control by dynamic programming, Pontryagin's maximum principle, and variational methods; minimum time, energy, and fuel problems for linear continuous and discrete systems.
Au Qtr. 3 cl. Prereq: 750 and 752.

861 Advanced Switching Circuit Theory G 3
Contact networks, symmetric functions, threshold functions, fault diagnosis, reliable design, digital sequential machines, formal models for computation. McGhee.
Au Qtr. 3 cl. Prereq or concour: 761.

864 Digital Systems G 3
Digital system hardware and software design alternatives; simulation and emulation of computers; control structure and microprogramming; advanced topics.
Wi. Sp Qtrns. 3 cl. Prereq: 760.

865 Sequential Switching Circuits G 3
State identification and fault detection; finite automata, memory definiteness, and information losslessness; linear sequential machines; finite state recognizers.
Sp Qtr. 3 cl. Prereq: 761 or permission of instructor.

Radio Astronomy Theory I
See Astron 862.

Radio Astronomy Theory II
See Astron 863.

870 Biological Systems Modeling I G 3
Consideration of current literature in the area of biological system modeling; cardio-vascular, and pulmonary systems; computer implementation of models. Weed.
Au Qtr. 2 cl. 1 3-hr lab. Prereq: 550, or concour Physiol 500 or 601.

871 Biological System Modeling II G 3
Modeling of such biological systems as renal or thermoregulatory for paroxetine identification; digital and analog computer laboratory implementation. Weed.
Wi Qtr. 2 cl. 1 3-hr lab. Prereq: 550 and Physiol 600 or 601.

872* Bio-Medical Systems Modeling of Man-Machines G 3
Systems theory applied to the engineering aspects of the human-eye-hand tracking interface comparing hybrid computer simulation with experimental data. Weed.
Sp Qtr. 3 cl. Prereq: 870 or 871.

873* Clinical Instrumentation and Signal Processing G 3
Basic principles of information transfer and signal processing as applied to clinical health care delivery, such as remote diagnosis, ECG analysis, and telemetry. Campbell.
Sp Qtr. 3 cl. Prereq: 601, 771, and Physiol 900 or 601.

880 Advanced Studies in Electrical Engineering G 1-18
Su, Au, Wi, Sp Qtrs. 1-3 cl. Repeatable to a maximum of 18 or hrs.

881 Seminar in Electrical Engineering G 1-3
Su, Au, Wi, Sp Qtrs. 1-3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs.

901* Advanced Antenna Theory III G 3
Time modulated antennas, synthetic aperture antennas, logical switching antennas, nonlinear processing antennas, and correlation arrays; the effects of signal-processing on beamwidth, gain, and multiple-target response. Kistenski.
Wi Qtr. 3 cl. Prereq: 711, 804, and 810.

993 Individual Studies in Electrical Engineering G 1-18
Su, Au, Wi, Sp Qtrs. Individual conf. Repeatable to a maximum of 18 or hrs.

999 Research in Electrical Engineering G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Engineering

122 Hitchcock Hall, 2070 Neil Avenue, 422-2651

100 Engineering Survey U 1
Academic requirements; University procedures, grading system, and resources; overview of engineering academic areas of study and services.
Su, Au, Wi, Sp Qtrs. 2 cl. Prereq: Enrollment in ENGL. Not open to students with credit for VUC 100. This course is graded S/U.

195 Women in Engineering U 1
Discussion of the unique problems facing women engineering students and professionals; resources available to deal with those problems.
Wi. Sp Qtrns. 1 cl. This course is graded S/U.

H298 Engineering Honors Seminar U 1
Undergraduate Research Scholars will present oral reports and lead discussion on their specific research projects. Wright.
Sp Qtr. 1 cl. Prereq: Participation in ENGL Honors Program. Repeatable to a maximum of 2 or hrs. This course is graded S/U.

Engineering Graphics

249 Hitchcock Hall, 2070 Neil Avenue, 422-7923

110 General Engineering Graphics U 5
Graphic language of engineering and its application to the analysis, development, representation, and communication of engineering concepts. Meyers.
Su, Au, Wi, Sp Qtrns. 5 2-hr cl and lab. Prereq or concour: Math 148 or 150. VPA Admis Cond course.

121 Graphic Presentation I U 3
Representation of three-dimensional subjects by precise graphics; orthographic and pictorial. Duff.
Au, Wi. Sp Qtrns. 3 2-hr cl and lab. VPA Admis Cond course.

122 Graphic Presentation II U 3
Continuation of 121; elements of descriptive geometry, intersections, and development of surfaces, shade, and shadow. Kolomytcev.
Au, Wi, Sp Qtrns. 2 2-hr cl and lab. Prereq: 121. VPA Admis Cond course.
141 Engineering Graphics I U 3
Methods of problem solving and algorithm development; introduction to 3-dimensional orthographic and pictorial visualization and presentation. Smith. Su, Au, Wi, Sp Qtrs. 3 2-hr cl and lab. Prereq: or concour. Math 150 or equiv. VPA Admis Cond course.

142 Engineering Graphics II U 3
Graphic problem solving techniques; introduction to computer graphics display methods; development of dimensioning and graphics skills. Kearns. Su, Au, Wi, Sp Qtrs. 3 2-hr cl and lab. Prereq: 141. VPA Admis Cond course.

143 Engineering Graphics III U 3
Intermediate interactive computer graphics techniques and graphics conventions; comprehensive engineering problem solving project. LaRue. Su, Au, Wi, Sp Qtrs. 3 2-hr cl and lab. Prereq: 142.

200 Computer Utilization with Introduction to Engineering Analysis U 3
Application of the digital computer to engineering analysis; use of algebraic programming languages; computer center facilities and procedures. Guane. Su, Au, Wi, Sp Qtrs. 3 cl and lab hr. Prereq or concour: Math 151.

204 Technical Drawing U 3
Various systems of size description, including precision dimensioning, fastener systems; organization and preparation of engineering drawings. Panhoven. Au, Wi, Sp Qtrs. 2 2-hr cl and lab. Prereq: 122 or written permission of instructor.

206 Architectural Drawing for Residential and Light Commercial Buildings U 4
Preparation of drawings of wood-framed and steel-framed residential and light commercial buildings; terminology; permit and code requirements. Frampton. Au Qtr. 4 2-hr cl and lab. Prereq: 122 or written permission of instructor.

207 Group Studies in Engineering Graphics U 1-5
Group studies of specialized topics. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs.

410 Computer Graphics U 3
An advanced course in graphics with emphasis on the application of computer-generated graphics to the solution of engineering problems. Hopkins. Sp Qtr. 3 cl. Prereq: 200 or written permission of instructor.

593 Individual Studies U G 1-5
Opportunity to pursue special-interest topics not otherwise offered. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

Engineering Mechanics

209 Boyd Laboratory, 155 West Woodruff Avenue, 422-2731

210 Statics U 4
Resultant and equilibrium of coplanar and non-coplanar force systems; trusses, frames, and connected bodies; friction; centroids and moment of inertia of masses and areas. Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: Physics 131, prereq or concour Math 254, and a minimum cumulative pt-hr ratio of 2.3 or acceptance as an ENG major or a cumulative pt-hr ratio equal to or greater than that of intended major.

215 Statics and Strength of Materials U 5
Resultant and equilibrium of isolated and connected body force systems; introduction to response of deformable bodies to action of axial, bending, and torsional loads. Au, Wi, Sp Qtrs. 5 cl. Prereq: Physics 131, prereq or concour Math 254, and a minimum cumulative pt-hr ratio of 2.3 or acceptance as an ENG major or a cumulative pt-hr ratio equal to or greater than that of intended major.

304 Statics U 3
Basic principles of structural physics and their application to architecture. Wi Qtr. 3 cl. Prereq: Physics 111. Not open to students with credit for 224.

325 Strength of Materials U 3
Basic properties and performance of architectural materials and products. Sp Qtrs. 3 cl. Prereq: 324. Not open to students with credit for 225.

410 Dynamics U 4
Linear and angular motion from constant and variable forces; connected bodies; impulses; momentum; energy. Au, Wi, Sp Qtrs. 4 cl. Prereq: 210 or 215. Not open to students with credit for 415.

415 Dynamics U 4
Dynamics of particles and rigid bodies; impulses, momentum, work, and energy; three-dimensional vector acceleration; conservative systems; single degree of freedom vibration analysis. Au, Sp Qtrs. 4 cl. Prereq: 210 or 215, and Math 256 or 416.

420 Strength of Materials U 4
Normal and shearing stress and strain; energy; torsion; flexural stress; beam deflections; combined stress, theories of failure; columns. Au, Wi, Sp Qtrs. 4 cl. Prereq: 210.

427 Strength of Materials Laboratory U 1
Experimental study of response of deformable bodies to loads using mechanical and electrical gages and methods of photelasticity. Sp Qtr. 1 2-hr lab. Prereq or concour: 420.

622 Advanced Strength of Materials U G 4
Mohr’s Circle for strain; failure theories; curved beams; bending of non-symmetrical sections; non-circular torsion; beams on elastic foundations; load-deflection relations by energy methods. Au Qtr. 4 cl. Prereq: 215 or 420, and Math 256 or equiv.

627 Experimental Methods in Mechanics U G 3
Stable and dynamic strain analysis by electrical gages; grid techniques; bristle gauges; analogs; reflective photelasticity in normal and oblique incidence; motion measurements. Wi, Sp Qtrs. 2 cl, 2 lab hrs. Prereq: 215 or 420.

633 Vibrations Laboratory U G 3
Experiments in vibrations of discrete systems, beams, plates, and shells; stress wave propagation. Sp Qtr. 2 2-hr labs. Prereq: 410 or 415, and Math 256 or equiv.

634 Introduction to Ultrasonics U G 4
Ultrasonic waves in solids and fluids; Ultrasonic generators and systems; physical ultrasounds; applications of ultrasonics. Au Qtr. 4 cl. Prereq: 215 or 420, and Math 256 or 256 or 416. Not open to students with credit for Weld Eng 634. Cross-listed in Welding Engineering.

644 Engineering Fracture Mechanics U G 3
Fracture and fatigue; stress intensity factors; the stability of cracks; compliance and energy role analysis; plane stress, plane strain, crack propagation and arrest. Wi Qtr. 3 cl. Prereq: 420 and Math 512 or equiv with written permission of instructor.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 crs. The student must register for a specific study area indicated below, and may register for more than one at a time.
A— Experimental Stress Analysis
B— Dynamics
C— Fluid Mechanics
D— Electric
E— Strength of Materials
F— Vibrations
G— Plasticity
H— Plates and Shells
I— Continuous Media
J— Fracture Mechanics
K— Biomechanics
L— Ultrasonics

711 Advanced Engineering Dynamics U G 4
Three-dimensional kinematics and kinetics of particles and rigid bodies; Lagrangian mechanics; Hamiltonian methods; engineering applications.
Sp Qtr. 4 cl. Prereq: 410 or 415, and Math 255 or equiv.

712* Energy Principles in Mechanics U G 3
Theoretical development of energy principles in mechanics; strain energy and complementary energy with related minimal principles; applications to problems in elasticity, dynamics, and vibrations.
Au Qtr. 3 cl. Prereq: 420 and Math 255 or equiv.

731 Vibrations of Discrete Systems U G 4
Free and forced vibrations of mechanical systems having lumped mass and elasticity; multiple degrees of freedom; dissipative systems; random vibrations; engineering applications.
Au Qtr. 4 cl. Prereq: 410 or 415, and Math 255 or equiv.

732* Nonlinear Vibrations U G 3
Vibrations of damped and undamped systems with nonlinear restoring forces; self-sustained oscillations; application of Hill’s equation of stability of non-linear oscillations.
Sp Qtr. 3 cl. Prereq: 731 and Math 255 or equiv.

734 Vibrations of Continuous Systems U G 3
Equations of motion for strings, membranes, prismatical bars, and plates for various boundary conditions; approximate methods for complicated shapes; wave propagation in elastic media.
Wi Qtr. 3 cl. Prereq: 410 or 415, and Math 255.

740 Elasticity U G 4
Classical problems in elasticity; St-Venant torsion and bending theory; plane problems in rectangular and polar coordinates; axisymmetric problems.
Au Qtr. 4 cl. Prereq: 215 or 420, and prereq or concur Math 512.

743 Introduction to Continuum Mechanics U G 4
Continuum mechanics in Cartesian coordinates, analysis of deformation and stress, balance principles, constitutive equations; introductory concepts in viscoelasticity and plasticity.
Sp Qtr. 4 cl. Prereq: 420 and Math 255.

751 Elastic Stability U G 3
Buckling of struts, rings, arches, and plates; torsional instability; stability criteria, exact and approximate methods.
Au Qtr. 3 cl. Prereq: 410 and Math 255 or equiv.

754 Plates and Shells U G 4
Basic equations; classical solutions and approximate methods in the theory of thin plates; membrane theory of shells of revolution.
Wi Qtr. 4 cl. Prereq: 215 or 420, and prereq or concur: Math 512.

762 Mechanics of Composite Materials U G 3
Analysis of composite materials and their use in mechanical design; determination of the properties of composites; matching material systems design needs.
Wi Qtr. 3 cl. Prereq: 622 or Aero Eng 539 or Mech Eng 561. Not open to students with credit for Mech Eng 782. Cross listed in Mechanical Engineering

763 Introduction to the Finite Element Method U G 4
Basic concepts, formulation, and application of finite element techniques for numerical solution of problems in structural and continuum mechanics, geotechnical engineering, and water resources engineering.
Wi Qtr. 4 cl. Prereq: En Gr 200 and Civil En 406 or Math 568 or equiv. Not open to students with credit for 761, Civil En 761, or Civil En 763.

770* Biomechanics U G 3
Discrete mass and continuum mechanics; description of biological materials; biodynamics of limb and gross body motions; various models for injury to head, neck and torso.
Wi Qtr. 3 cl. Prereq: 420 and Math 415 or 512, or permission of instructor.

See 694 for topics.
Su, Au, Wi, Sp Qtrs. Prereq: 711, 731, 740, and permission of instructor. Repeatable to a maximum of 15 crs. This course is graded S/U.

800* Methods of Engineering Analysis U G 3
Solution of boundary value, eigenvalue, and initial value problems arising in mechanics by approximate methods; weighted residual and stationary functional methods.
Au Qtr. 3 cl. Prereq: 10 or hrs of 700-level courses in eng mech and Math 512 or equiv.

833* Elastic Wave Propagation U G 3
Dispersion and group velocity; waves in extended media; propagation and reflection in half space; Lamb problem; waves in plates and rods by exact theory scattering of waves.
Au Qtr. 3 cl. Prereq: 731 or 734.

835* Random Vibrations U G 3
Description of random processes; statistical properties of the response of mechanical systems; optimization of systems subjected to random inputs; instrumentation.
Au Qtr. 3 cl. Prereq: 731.

839 Finite Element Method in Engineering Science U G 5
Approximation of boundary value and initial value problems; variational methods, hybrid and mixed method; convergence and accuracy of finite element approximations; recent developments, advanced applications.
Sp Qtr. 5 cl. Prereq: 763 or Civil En 763, and Math 661 or equiv. Not open to students with credit for Civil En 839.

840* Theory of Continuous Media U G 3
Equilibrium, compatibility, and strain displacement relationships for a general continuum; constitutive equations for problems of elasticity, fluid dynamics, and inelasticity.
Au Qtr. 3 cl. Prereq: 740.

8431* Advanced Elasticity U G 3
Complex variational methods, anisotropic elasticity; three-dimensional elasticity; mixed boundary value problems; variational methods.
Wi Qtr. 3 cl. Prereq: 740.

844 Advanced Fracture Mechanics U G 3
Treatment of advanced topics in fracture mechanics; elastic-plastic fracture, dynamic crack propagation and arrest, time dependent fracture, fracture of composites, fatigue crack growth.
Sp Qtr. 3 cl. Prereq: 644 or permission of instructor.
847* Theory of Plasticity G 3
Plastic range stress-strain relations; elasto-plastic behavior of beams, and structures; torsion of prismatic bars; plane strain; stress analysis. Wi Qtr. 3 dl. Preq: 740 and Math 512.

855† Advanced Shells G 3
Differential geometry of surface; general equations for arbitrary shell; solutions to membrane and bending equations. Sp Qtr. 3 dl. Preq: 754.

862 Advanced Mechanics of Composite Materials G 3
Micromechanics, edge effects and delamination, fatigue, plastic and viscoelastic effects, joint analysis, impact and fracture. Sp Qtr. 3 dl Preq: 762 or Mech Eng 762. Cross listed in Mechanical Engineering.

864* Theory of Viscoelasticity G 3
Basic concepts of time dependent inelastic behavior; viscoelastic constitutive laws; correspondence principles; quasi-static and dynamic problems. Sp Qtr. 3 dl. Preq: 740.

889 Seminar in Engineering Mechanics G 1
Lectures and discussions covering a wide range of topics, presented by staff, graduate students, and guest speakers. Wi, Sp Qtrs. 1 dl. Repeatable to a maximum of 6 cr. hrs.

894 Group Studies in Engineering Mechanics G 2-S
Su, Au, Wi, Sp Qtrs. Preq: Written permission of instructor. Repeatable to a maximum of 15 cr. hrs. The student must register for a specific study area indicated below, and may register for more than one at a time.
A— Experimental Stress Analysis
B— Dynamics
C— Fluid Mechanics
D— Elasticity
E— Strength of Materials
F— Vibrations
G— Plasticity
H— Plates and Shells
I— Continuous Media
J— Fracture Mechanics
K— Biomechanics
L— Ultrasonics

993 Individual Studies in Engineering Mechanics G 2-S
See 894 for topics. Su, Au, Wi, Sp Qtrs. Preq: Evidence of sufficient background in area of study chosen and permission of instructor. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

999 Research in Engineering Mechanics G Arr
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

English

421 Denney Hall, 164 West 17th Avenue, 422-6065

020 Beginning Intensive English as a Second Language G 5
Intensive instruction in English as a second language for students at a beginning level of proficiency; listening, speaking, structure, reading, and writing. Holmesch, Director. Su, Au, Wi, Sp Qtrs. 5-8 hr. Preq: Admission to American Language Program and approval of ALP director. Repeatable for 2 qtrs. This course is graded S/U.

021 Elementary Intensive English as a Second Language G 5
Intensive instruction in English as a second language for students at an elementary level of proficiency; listening, speaking, structure, reading, and writing. Holmesch, Director. Su, Au, Wi, Sp Qtrs. 5-8 hr. Preq: Admission to American Language Program and approval of ALP director. Repeatable for 2 qtrs. This course is graded S/U.

022 Intermediate Intensive English as a Second Language G 5
Intensive instruction in English as a second language for students at an intermediate level of proficiency; listening, speaking, structure, reading, and writing. Holmesch, Director. Su, Au, Wi, Sp Qtrs. 5-8 hr. Preq: Admission to American Language Program, approval of ALP director, and completion of 021 or equiv. Repeatable for 2 qtrs. This course is graded S/U.

023 Advanced Intensive English as a Second Language G 5
Intensive instruction in English as a second language for students with advanced proficiency; listening, speaking, structure, reading, and writing. Holmesch, Director. Su, Au, Wi, Sp Qtrs. 5-8 hr. Preq: Admission to American Language Program, approval of ALP director, and completion of 022 or equiv. Repeatable for 2 qtrs. This course is graded S/U.

040 Basic Reading G 3
Training in reading designed to prepare the student for college-level reading of expository prose. Killian, Director. Au Qtr. 3 dl. Preq: Determined by placement. Students should score 10 or above on both the English and Social Studies sections of the ACT. Credit will not count as graduation in any degree program. This course is graded S/U.

050 Basic Writing I G 3
First course in a two-course sequence providing an introduction to writing and reading skills in preparation for 110 or 111. Helgeson, Director. Su, Au, Wi, Sp Qtrs. Preq: Determined by testing. Not open to students with credit for 051, 060, 100, 100.01, 100.02, 100.03, 110, or 111. Credit will not count toward graduation in any degree program.

051 Basic Writing II G 3
Second course in a two-course sequence in preparation for 110 or 111. Helgeson, Director. Su, Au, Wi, Sp Qtrs. Preq: Successful completion of 050. Not open to students with credit for 060, 100, 100.01, 100.02, 100.03, 110, or 111. Credit will not count toward graduation in any degree program.

080 Basic Writing III G 3
A one-course introduction to writing and reading skills in preparation for 110 or 111 for students who test above 650, but below 110. Helgeson, Director. Su, Au, Wi, Sp Qtrs. Preq: Determined by testing. Not open to students with credit for 060, 061, 100.01, 100.02, 100.03, 110, or 111. Credit will not count toward graduation in any degree program.

106 General English as a Second Language G 3
Review of English structure for non-native speakers of English; major emphasis is on writing, with attention also to development of oral-aural skills. Kantor, Director. Su, Wi, Sp Qtrs. Preq: Placement test or recommendation of director. Not open to students having earned a D or above in 071, 072, or 073.

107 Advanced English as a Second Language G 3
Reviews advanced English patterns with emphasis on their use in writing essays. Kantor, Director. Su, Wi, Sp Qtrs. Preq: Placement test or grade of D or above in 106. Not open to students having earned a D or above in 072 or 073.
108 Academic Writing in English as a Second Language U 3
Attention given to problems of structure and diction appropriate to extended treatment of abstract topics. Kantor, Director.
Prereq: Placement test or grade of D or above in 107. Not open to students having earned D or above in 073.
109.01 Undergraduates
Idiomatic writing of themes, reports, and examinations, intended for undergraduates.
109.02 Advanced Undergraduates and Graduates
Idiomatic writing of reports, examinations, and theses. Intended for advanced undergraduates and graduates.

110 Freshman English Composition U 5
Training in the fundamentals of expository writing, as illustrated in the student's own writing and in the essays of professional writers. O'Hare, Director.
Su, Wi, Sp Qtr s. No prereq except when testing determines 050, 060, 067, 070, or 108.01 to be required. Not open to students with credit for 100, 102, 103, 104, 105, 111, H195, or 301. This course is available for EM credit.

111 Composition and Literature U 5
Fundamentals of expository writing, as illustrated in the student's own writing and in literary models exemplifying clear thinking and writing. O'Hare, Director.
Su, Wi, Sp Qtrs. Prereq: Fp standing only. This course is available for EM credit. BER/LAC course.

150 The Experience of Literature U 5
Reflections of human experience in major works of English and American literature; authors drawn from Shakespeare, Swift, Wordsworth, Austen, Dickens, Hawthorne, Yeats, Faulkner, Frost, Kahrl, Director.
Au, Wi, Sp Qtr s. Prereq: Fp standing only. This course is graded S/U.

General Prerequisites for Courses
Numbered 200 and 300
Unless otherwise indicated, the prerequisite for 200 and 300 level courses is English 110 or 111 or equivalent.

201 Selected Masterpieces of British Literature: Medieval through 18th Century U 5
An introductory critical study of the works of major British writers from 800 to 1800. Kiser, Director.
Au, Wi, Sp Qtr s. 5 cr. Prereq: 110 or 111 or equivalent. Not open to students with credit for 283 or 284. BER/LAC/LAR course.

202 Selected Masterpieces of British Literature: Romantic, Victorian, and Modern U 5
An introductory critical study of works of major British writers of the 19th and 20th centuries. Martin, Director.
Au, Wi, Sp Qtrs. 5 cr. Prereq: 110 or 111 or equivalent. Not open to students with credit for 283 or 284. BER/LAC/LAR course.

210 Intermediate Essay Writing U 5
An intermediate course that extends and refines expository writing and analytic reading skills, with an emphasis on style; an introduction to the uses of expository writing. O'Hare, Director.
Su, Au, Wi, Sp Qts. Prereq: 110 or 111 or equivalent. Not open to students with credit for 301, 302, 303, 304, or 305.

220 Introduction to Shakespeare U 5
Study of selected plays designed to give an understanding of drama as theatrical art and as an interpretation of fundamental human experience. Wong, Director.
Au, Wi, Sp Qtr s. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

260 Introduction to Poetry U 5
Designed to help students understand and appreciate poetry through intensive study of a representative group of poets. Grigoby, Director.
Su, Au, Wi, Sp Qtr s. H280 (honors) may be available to students enrolled in an honors program or by permission of dept. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

261 Introduction to Fiction U 5
Intensive study of a number of short stories and novels to acquaint the general student with some of the important themes and techniques of fiction. Davis, Director.
Au, Wi, Sp Qtr s. H261 (honors) may be available to students enrolled in an honors program or by permission of dept. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

262 Introduction to Drama U 5
A critical analysis of selected dramatic masterpieces from Greek antiquity to the present, designed to clarify the nature and major achievements of western dramatic art. Burkman, Director.
Au, Sp Qtr s. H262 (honors) may be available to students enrolled in an honors program or by permission of dept. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

265 Writing of Fiction I U 5
Practica in the writing of fiction; analysis and discussion of student work, with some attention to general methods of fiction and the publishing situation. Allen, Director.
Au, Wi, Sp Qtr s. Repeatable to a maximum of 10 or hrs.

266 Writing of Poetry I U 5
Practice in the writing of poetry emphasis on the students' own work, with reference to established poetic patterns and established poetry. Allen, Director.
Au, Wi, Sp Qtr s. Repeatable to a maximum of 10 or hrs.

270 Introduction to Folklore U 5
A general survey of the field of folklore including basic approaches and a survey of primary folk materials: folktales, legends, folksongs, ballads, and folk beliefs. Mullen, Director.
Au, Wi, Sp Qtr s. Not open to students with credit for 570, 689, 571, 672, or Ling 201 or 601.

271 Introduction to English Language Study U 5
An introduction to the grammar, history, and social and regional dialects of the English language. Mullen, Director.
Au, Wi, Sp Qtr s. BER/LAC/LAR course.

272 Introduction to Science Fiction U 5
An introduction to science fiction, especially of the 20th century varieties, with equal emphasis on the literature, its origins, and its social ramifications. Brown, Director.
Au, Wi, Sp Qtr s. 4 or 5 cr. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

273 American and English Literature and Film U 5
The interrelationship between literary and cinematic art. Libby, Au, Sp Qtr s. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

275 Thematic Approaches to Literature U 5
An introduction to literature through the examination of a major theme as treated in different genres and periods; topic varies quarterly. Wi Qtr. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

280 The English Bible U 5
The Bible in English translation, with special attention to its literary qualities, conceptual content, and development within history. Shapiro, Director.
Au, Wi, Sp Qtr s. H280 (honors) may be available to students enrolled in an honors program; others by permission of dept. BER/LAC/LAR course.
281 Introduction to Afro-American Literature U G 5
A study of representative literary works by black American writers from 1760 to the present.
Wi Qtr. Offered in cooperation with Black Studies. BER/LAC course.

290 Masterpieces of American Literature U G 5
A critical study of some major American writers drawn from among the following: Poe, Hawthorne, Emerson, Thoreau, Melville, Whitman, Dickinson, Twain, James, Frost, Eliot, Faulkner, and Hemingway. Cooley, Director.
Su, Au, Wi. Sp Qtr. Not open to students with credit for 551, 552, or 533. BER/LAC/ARC course.

294† Group Studies U 3-5
Topic varies from quarter to quarter on subjects not otherwise covered by English courses.
Repeatable to a maximum of 36 cr hrs.

H296 Honors Seminar: Literature and Intellectual Movements U 5
Studies in the relationship of works of literature to their general intellectual contexts, involving such topics as Deism, Marxism, Primitivism, Freudian psychology; topic varies quarterly.
Au, Qtr. Prereq: Cumulative pt-hr ratio of 3.0 or better, with 3.5 or better in English, and permission of dept. BER/LAC course.

301 Informative Writing U 5
Intensive advanced training in the art of informative writing.
Corbett, Director.
Su, Au, Wi. Sp Qtr. Prereq: 3rd yr standing and 110 or 111 or equiv with written permission of instructor.

302 Critical Writing U 5
Intensive practice in writing various kinds of analyses of literary texts.
Wheeler, Director.
Su, Au, Wi, Sp Qtr. Prereq: 110 or 111 or equiv with written permission of instructor.

303 Research and Term Paper Writing U 5
Emphasis in researching, analyzing, and documenting secondary material for the formal essay and term paper assignments incorporate research principles with informative, persuasive, and argumentative writing. O'Hare, Director.
Au, Wi, Sp Qtrs. 3 cr. Prereq: 110 or 111 or equiv, and jr standing; or permission of chairman.

304 Business and Professional Writing U 3
The study of principles and the practice of techniques associated with business and professional writing; emphasis on the style, organization, and conventions appropriate to business letters and reports.
O'Hare, Director.
Au, Wi, Sp Qtrs. 3 cr. Prereq: 110 or 111 or equiv, and jr standing; or permission of chairman.

305 Technical Writing U 3
Training in practical writing for industry, business, and research, with emphasis on the special requirements and techniques for the professional report. Faor, Director.
Su, Au, Wi, Sp Qtrs. 3 cr. 1 hr conf. Prereq: 3rd yr standing in the BS curriculum and 110 or 111 or equiv.

500 level courses may provide graduate credit only in departments other than English.

General Prerequisites for Courses numbered 500
Unless otherwise indicated, the prerequisite for 500-level courses is English 110 or 111 or the equivalent.

501 Expository Writing for Graduate Students U 5
Intensive review of techniques of expository writing, with emphasis on writing research papers.
Wi Qtr. 5 cr. Prereq: Grad standing and permission of instructor on the basis of a diagnostic essay administered on the first day of class. Not a substitute for English 160, 107, or 108. Credit does not apply to the minimum number of cr hrs required for the master's or doctoral degrees.

513 Introduction to Medieval Literature U G 5
The study of masterpieces from the Middle Ages, chosen for their values in interpreting medieval culture as well as for their independent literary worth.
Sp Qtr. Fulfills in part the ASC advanced English composition requirement.

515 Introduction to Chaucer U G 5
A close study of Troilus and Criseyde and The Canterbury Tales as introduction to the art and its period.
Wi Qtr. Not open to students with credit for 516. Fulfills in part the ASC advanced English composition requirement.

520 Shakespeare U G 5
A critical consideration of the art, personality, and achievement of Shakespeare in the light of Renaissance and modern significance.
Au, Sp Qtr. Fulfills in part the ASC advanced English composition requirement.

521 The English Renaissance U G 5
A study of Tudor prose and poetry as they exemplify literary art and as they reflect the creative and inquiring temper of the age.
Au Qtr. Not open to students with credit for 621. Fulfills in part the ASC advanced English composition requirement.

522 Early 17th Century Literature U G 5
A study of the poetry and prose of 1600-1660, including the major works of Milton.
Wi Qtr. Fulfills in part the ASC advanced English composition requirement.

531 Restoration and Early 18th Century Literature U G 5
A study of poetry, prose, and drama from Dryden and the Restoration playwrights to the works of Swift and Pope.
Wi Qtr. Fulfills in part the ASC advanced English composition requirement.

535 Literature of the 18th Century U G 5
A study of the ideas and artistry of the major figures of the 18th century: Swift, Pope, Fielding, Sterne, Boswell, and Johnson.
Sp Qtr. Fulfills in part the ASC advanced English composition requirement.

540 Romantic and Victorian Poetry U G 5
Readings in Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Tennyson, Browning, Arnold, Hopkins, and Hardy as seen against the intellectual background of the 19th century.
Wi Qtr. Fulfills in part the ASC advanced English composition requirement.

542 19th Century English Novel U G 5
Readings in a group of major novelists, such as Austen, Dickens, and Thackeray, with special emphasis upon social and humanistic values.
Au Qtr. Not open to students with credit for 642. Fulfills in part the ASC advanced English composition requirement.

543 20th Century British Fiction U G 5
A study of the development of British fiction after 1900, with emphasis on such major novelists as Conrad, Joyce, Lawrence, and Woolf.
Au, Wi Qtr. Not open to students with credit for 643. Fulfills in part the ASC advanced English composition requirement.

547 20th Century Poetry U G 5
A study of 20th century American and British poetry, with emphasis on such major figures as Frost, Yeats, Stevens, Eliot, Williams, and Auden.
Sp Qtr. Fulfills in part the ASC advanced English composition requirement.

549 Modern Drama U G 5
An historical and critical examination of the major developments, personalities, and achievements in the drama of Europe and America since the advent of Ibsen.
Au Qtr. Not open to students with credit for 649. Fulfills in part the ASC advanced English composition requirement.
551 American Renaissance in Literature U G 5
An introduction to the major American writers of the mid-19th century: Poe, Hawthorne, Melville, Emerson, Thoreau, and Whitman.
Au Qtr. Fulfills in part the ASC advanced English composition requirement.

552 American Literature, 1865-1914 U G 5
Studies in fiction and poetry emphasizing such major figures as Twain, Howells, James, Dickinson, Whitman, Crane, Dreiser, and Willa Cather.
Wi Qtr. Fulfills in part the ASC advanced English composition requirement.

553 20th Century American Fiction U G 5
A study of American fiction after 1914, with emphasis on the work of such major figures as Anderson, Fitzgerald, Hemingway, and Faulkner.
Sp Qtr. Fulfills in part the ASC advanced English composition requirement.

560 Studies in English and American Poetry U G 5
Topic varies. Examples: the dramatic monologue; epic and mock epic; the religious lyric; narrative poetry.
Au Qtr. Repeatable to a maximum of 10 or hrs. Fulfills in part the ASC advanced English composition requirement.

561 Studies in English and American Fiction U G 5
Topic varies. Examples: tragedy and irony in the novel; the novel of initiation; the novel and the city; the modern short story.
Sp Qtr. Repeatable to a maximum of 10 or hrs. Fulfills in part the ASC advanced English composition requirement.

562 Studies in English and American Drama U G 5
Topic varies. Examples: the revenge play; Restoration and eighteenth-century drama; tragedy; the play within the play.
Wi Qtr. Repeatable to a maximum of 10 or hrs. Fulfills in part the ASC advanced English composition requirement.

564 Studies in a Major Author U G 5
Topic varies. Examples: Austen; Faulkner; Joyce; Pope.
Sp Qtr. Repeatable to a maximum of 10 or hrs. Fulfills in part the ASC advanced English composition requirement.

571 Studies in the English Language U G 5
Topic varies. Examples: American English; the sociology of American dialects; language and style.
Wi Qtr. Repeatable to a maximum of 10 or hrs.

572 Traditional Grammar and Usage U G 5
An examination of terminology and structures traditionally associated with the study of English grammar and usage rules, especially problematical ones, governing edited written American English.
Au Qtr.

573 Studies in Literary Forms and Themes U G 5
Topic varies. Examples: heroic forms; the Trojan War in English literature; the hero and anti-hero; pastoralism and romance.
Au Qtr. Repeatable to a maximum of 10 or hrs. Fulfills in part the ASC advanced English composition requirement.

574 Studies in Critical Theory U G 5
Study of selected issues or movements in critical theory, topics vary; for example, intention, structuralism and literature, new criticism and the contemporary scene, language and literature.
Wi Qtr. 5 cr. Prereq: 110 or 111 or equiv. Repeatable to a maximum of 10 or hrs.

577 Studies in Folklore U G 5
Topic varies. Examples: Children's folklore; folklore theory; Appalachian folklore; folk song; native American folklore; folk narrative; folklore and popular culture.
Wi, Sp Qtrs. Repeatable to a maximum of 10 or hrs.

590 Honors Seminar: Major Periods in Literary History U 5
Intensive study of one of the major periods of English and American literature; period(s) vary quarterly.
Au, Wi, Sp Qtrs. Prereq: Cumulative p-ratio of 3.0 or better, with a 3.5 or better in English, and permission of dept.

592 Women in Literature U G 5
Close examination from feminist perspectives of literature by or about women; central topic varies, for example, biography or autobiography, women as artists, images, and stereotypes.
Sp Qtr. Offered in cooperation with Women's Studies. Fulfills in part the ASC advanced English composition requirement.

598 Honors Seminar: Selected Topics in Literature and Literary Interpretation U 5
Selected problems (themes, movements, genres, and styles) emphasizing continuity and development in English and American literary and linguistic history; topic varies quarterly.
Sp Qtr. Prereq: Cumulative p-ratio of 3.0 or better with a 3.5 or better in English, and permission of dept. Not open to students with credit for H595.

600 level courses may provide graduate credit in all departments.

General Prerequisite for Courses Numbered 600
Unless otherwise indicated, the prerequisite for all 600-level courses in English is English 110 or 111 or the equivalent.

664 The Writing of Non-Fiction U G 5
Practice in writing and marketing the contemporary essay, with some attention to writing the non-fiction book.
Wi Qtr. 5 cr. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

665 Writing of Fiction I U G 5
Practice in the writing of fiction; continuation of 265 at an advanced level.
Wi, Sp Qtrs. Prereq: 265 or equiv and permission of instructor. Repeatable to a maximum of 10 or hrs.

666 Writing of Poetry II U G 5
Practice in the writing of poetry; continuation of 266 at an advanced level.
Wi Qtr. Prereq: 266 or equiv and permission of instructor. Repeatable to a maximum of 10 or hrs.

667 Applied English Phonology U G 5
A study of English phonology and its application to a variety of literary and non-literary resources.
Prereq: 271 or Linguist 201 or 601.

671 Introduction to English Grammar U G 5
A study of various systems of English grammar, with emphasis on their application to writing and teaching.
Wi Qtr. Prereq: 271 or Linguist 201 or 601.

672 Introduction to the History of English U G 5
A study of the historical development of the English language, with emphasis on its outer history, and on the history of words and sentences.
Sp Qtr. Prereq: 271 or Linguist 201 or 601.
676 History of Literary Criticism U G 5
Intensive study of the basic texts in literary criticism from Plato to T. S. Eliot.
Au Qtr.

682 Workshop U G 1-5
Arr. Repeatable to a maximum of 12 cr hrs.

693 Individual Studies U G 1-5
Students may register for individual advanced study under this number for work not normally offered in courses.
Su, Au, Wi, Sp Qtr. Prereq: Sr standing and permission of instructor and of dept undergard or grad committee. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

694 Group Studies U G 2-5
Repeatable to a maximum of 15 cr hrs.

710 Introduction to Old English Language and Literature U G 5
The reading of Old English prose with special attention to the language and to cultural background.
Au Qtr.

713 Introduction to Middle English Language U G 5
An intensive study of Middle English phonology, morphology, syntax, and dialectology from 1100-1500, with selected readings in the literature.

716 The Middle Ages U G 5
A lecture-survey of Late Middle English literature concentrating on the period 1300-1500.
Wi Qtr.

726 The Renaissance U G 5
A lecture-survey of literature of the English Renaissance, 1500-1660.

736 The Restoration and 18th Century U G 5
A lecture-survey of English literature between 1660 and 1798.

748 19th-Century English Literature U G 5
Sp Qtr.

756 19th-Century American Literature U G 5
A lecture-survey of American literature between 1820 and 1900.
Wi Qtr.

753 The Writing of Poetry III U G 5
An advanced course in the writing of poetry.
Wi Qtr. 3 cr and individual conferences. Prereq: 696 or equiv and permission of instructor. Repeatable to a maximum of 10 cr hrs.

764 Seminar in the Writing of Non-Fiction U G 5
An advanced course in the writing of non-fiction.
Sp Qtr. 2 hr cr and individual conferences. Prereq: 664 or equiv or doctoral standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs.

765 Writing of Fiction III U G 5
An advanced course in the writing of fiction.
Au Qtr. 3 cr and indiv conf. Prereq: 665 or grad standing, and permission of instructor. Designed for advanced undergrads and grad students. Repeatable to a maximum of 10 cr hrs.

766 20th-Century English and American Literature G 5
A lecture-survey of 20th-century English and American literature.
Au Qtr. 2 hr cr.

770 Approaches and Research Methods in Folklore U G 5
Bibliography, research, and fieldwork methods, and critical approaches for the advanced study of folklore.
Au Qtr. 2 hr cr. Prereq: 15 cr hrs of English courses at the 500 level or 15 hrs in English and 10 cr hrs at the 300-500 level in specified allied dept.

H783 Honors Essay II 3-5
A program of reading arranged for each student, with individual conferences, reports, and honors thesis.
Su, Au, Wi, Sp Qtr. Prereq: 4th yr standing; a grade of A in at least half of the English courses taken and an average of B in the remainder; permission of professor under whose supervision the work is to be completed. Open only to candidates for distinction in English who have in their junior year completed with high grades a program approved by the undergraduate committee. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

General Prerequisites for Courses

Numbered 800
30 hrs of courses in English or 20 hrs in English and 25 hrs in specified allied disciplines. Topics may not be taken which were formerly taken as courses under a different number. Admission to 800-level courses is by permission of a Department of English graduate adviser only.

800 Introduction to Graduate Study

800.01 Methods and Tools of Research G 2
Bibliography and research methods for the advanced study of literature.
Au Qtr. 1 hr cr. Required of all MA candidates.

800.02 Critical Approaches to Literature G 3
Principles and assumptions of critical approaches to literature.
Wi Qtr. 1 hr cr. Required of all MA candidates.

803 Techniques of Literary Discussion G 2 or 3
Practical and theoretical aspects of leading and participating in discussion of literary texts.
Sp Qtr. This course is graded S/U.

817 Studies in Early Medieval English Literature G 5
Topics include: Beowulf and its background; Old English poetry exclusive of Beowulf.
2 hr cr. Prereq: 710 or equiv. Repeatable to a maximum of 10 cr hrs.

818 Studies in Later Medieval English Literature G 5
Topics include: Chaucer; poetry of the allegorical revival; medieval English drama; 15th-century non-dramatic literature.
2 hr cr. Repeatable to a maximum of 20 cr hrs.

820 Studies in Shakespeare G 5
An intensive consideration of selected problems in the scholarly study of Shakespeare.
Repeatable to a maximum of 10 cr hrs.

827 Studies in English Renaissance Literature G 5
Topics include: Renaissance and early 17th century poetry; Spenser; Renaissance drama; Milton; Renaissance prose.
2 hr cr. Repeatable to a maximum of 20 cr hrs.
837 Studies in Restoration and 18th-Century Literature G 5
Topics include: Age of Dryden; Age of Swift and Pope; Age of Johnson; 18th-century novel; Restoration and 18th-century drama.
Au, Wi, Sp Qtrs. 2-2 hr cl. Repeatable to a maximum of 25 cr hrs.

840 Studies in English Romantic Literature G 5
Literary romanticism, as represented by one or more of the poets (Blake, Coleridge, Wordsworth, Byron, Shelley, and Keats), in relation to contemporary intellectual and political movements; topic varies from year to year.
Repeatable to a maximum of 15 cr hrs.

844 Studies in Victorian Literature G 5
Topics include: Victorian poetry; 19th-century non-fictional prose; 19th-century novel.
2 2-hr cl. Repeatable to a maximum of 15 cr hrs.

850 Studies in 19th-Century American Literature G 5
Topics include: American literature 1865-1914; individual American writers, 1800-1906; the American Renaissance.
2 2-hr cl. Repeatable to a maximum of 20 cr hrs.

854 Studies in 20th-Century American Literature G 5
Topics include: 20th-century American fiction; individual 20th-century American writers; 20th-century poetry; 20th-century drama.
2 2-hr cl. Repeatable to a maximum of 20 cr hrs.

858 Studies in 20th-Century British Literature G 5
Topics include: 20th-century British fiction; individual 20th-century British writers; modern drama; 20th-century British poetry.
2 2-hr cl. Repeatable to a maximum of 20 cr hrs.

870 Studies in Folklore G 5
Intensive study of some particular aspect of folklore.
Prereq: 770 or equiv with written permission of instructor.
Repeatable to a maximum of 10 cr hrs.

871 Studies in the Forms of Literature G 5
Problems in the criticism of fiction, poetry, or drama.
2 2-hr cl. Repeatable to a maximum of 20 cr hrs.

873 Principles and Methods of Literary Analysis G 3
Principles and methods of the study of English poetry, drama, and prose fiction.
Prereq: Permission of director.

874 Principles and Methods of Linguistic Analysis I G 5
A study of the phonology, grammar, and history of the English language as they relate to the teaching of composition and literature.

875 Principles and Methods of Linguistic Analysis II G 5
A study of psycholinguistics, sociolinguistics, and stylistics as they relate to the teaching of composition and literature.
Prereq: 874 or equiv.

876 Studies in Critical Theory G 5
A review of theory and practice in some of the principal forms of literary analysis: focus on a single theoretical movement or a single critical problem.
Repeatable to a maximum of 10 cr hrs.

877 Advanced English Grammar G 5
An advanced approach to the grammar and the grammars of English and to their application to teaching and writing.
Prereq: One of the following: 666, 671, 672, Linguist 500, 501, Spi/Hrg 752, or equiv.

878 History of the English Language G 5
An advanced approach to the history of English, with emphasis on inner history as well as its outer matrix, and its place among the world's languages.
Prereq: One of the following: 869, 671, 672; Linguist 600, 601, Spi/Hrg 752, or equiv.

879 Studies in Rhetoric and Composition G 5
History and theory of rhetoric; rhetorical analysis of non-fictional prose; stylistics; reading theory, Corbett and O'Hare.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Repeatable to a maximum of 20 cr hrs.

881 Studies in Teaching of College Composition
881.01 Teaching of Freshman Composition G 3
Theory and practice in the teaching of freshman composition. O'Hare.
Au Qtr. Required of new GTA's in English. This course is graded S/U.

881.02 Teaching of Remedial College Composition G 5
Theory and practice in the teaching of remedial college composition.

881.03 Teaching of College Composition in English as a Second Language G 5
Research in teaching English as a second language at the college level; materials and pedagogical techniques to use in English as a second language courses.
2 2-hr cl and 1 hr tutorial time. Prereq: 671 or Linguist 650.01 or permission of instructor. Not open to students with credit for 894 taken in Sp Qtr 1962 or Wi Qtr 1963.

Medieval and Renaissance Culture
See Medieval 889.

Medieval and Renaissance Literature
See Medieval 889.

894 Group Studies G 2-5
Repeatable to a maximum of 15 cr hrs.

899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Prereq: Permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

General Prerequisites for Courses
Numbered 900
Prerequisites: 15 hrs of English on the 800-level. Topics may not be taken which were formerly taken as courses under a different number. Admission to 900-level courses is by permission of an English department Graduate Adviser only.

900 The Long Seminar: Research in Literary History, Theory, and Forms I G 5
Reading and research in literature, its theory and forms, and its intellectual and social backgrounds.
Prereq: At least 25 cr hrs of grad instruction. Repeatable to a maximum of 10 cr hrs. 900 must be followed by 901.

901 The Long Seminar: Research in Literary History, Theory, and Forms II G 5
Continuation of 900.
2 2-hr cl. Prereq: 900. Repeatable to a maximum of 10 cr hrs.

976 Problems and Methods of Literary Theory G 5
A study of the basic methodologies and theoretical problems involved in the interpretation and evaluation of literature. Davis.
Au Qtr. 2 2-hr cl. Prereq: 800.02.

980 Bibliography and Method G 5
For advanced grad students in the methods and tools of literary research. Gabriel.
Au Qtr.
982 Textual Criticism and Editing G 5
Evaluation of literary editorial methods, past and present; training in skills requisite to the textual critic and scholarly editor; practice in textual editing. Prereq: G 786.

993 Individual Studies G 1-15
Doctoral students may register for individual study in areas not normally covered by courses. Su, Au, Wi, Sp Qtr. Prereq: Permission of dept grad committee. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.

988 Research in English: Thesis G Arr
Research for the master's thesis. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in English: Dissertation G Arr
Research for dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Entomology

103 Botany and Zoology Building. 1735 Neil Avenue, 422-8209

200 Insect Biology U 5
Natural history of insects, emphasizing structure, function, life cycles, behavior, interaction with other organisms, including humans. Primarily for students outside the College of Biological Sciences. Briggs and Foster. Au, Wi, Sp Qtrs. 5 cr hrs. Prereq: Biology 110 or 113 or H115. Not open to students with credit for 200.01 or 200.02. Credit does not count toward a major in entomology. BER/LA/CLAR course. NS Admis Cond course.

284 Group Studies U 1-5
Group studies in the field of the chosen problem. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

330 Ecology for Landscape Architects U 5
An integrated study of natural systems involving environmentally relevant physical, chemical, and biological topics, emphasizing ecological concepts pertinent to sound patterns of landscape design. King. Sp Qtr. 4 cr. 1 3-hr lab. 2 Sat field trips. Prereq: Botany 112 and Geo/Min 100.03, or permission of instructor. Not open to majors in biological sciences. Subsistence costs for the field trips will be borne by the students.

361 Apiiculture U 5
The principles of management of honeybees in the production of honey, wax, package-bees, and queens and in pollinating crops of economic importance. Rothenbuhler. Sp Qtr. 3 cr. 2 2-hr labs. NS Admis Cond course.

460 Economic Entomology and Insect Pest Management

460.01 Lecture U 3
Examination of biotic and abiotic influences on economic entomological orders, and important pest species. Su, Au, Wi, Sp Qtrs. 3 cr hrs. Prereq: Biology 110 or 113 or H115. Not open to students with credit for 460. BER/LA/CLAR course.

460.02 Laboratory, General U 2
Examination of major economic orders, and important pest species. Au, Wi, Sp Qtrs. 2 2-hr labs. Prereq or conc: 460.01. Not open to students with credit for 460. BER/LA/CLAR course.

460.03 Laboratory, Horticultural Insects U 2
Examination of major pest insects of horticultural plants; emphasis on identification and control. Wi Qtr. 2 2-hr labs. Prereq or conc: 460.01 or equiv. with written permission of instructor. Not open to students with credit for 561. BER/LA/CLAR course.

461 Forest Entomology U 3
Insects and other arthropods in the forest as they relate to effective management for maximum production of wood products and sustained preservation of forests and parklands. Stairs. Wi Qtr. 3 cr. Prereq: Biology 110 or 113 or H115 and Botany 112. Forestry 233 recommended.

500 General Entomology U 5
Structure, natural development, ecology and insect-human interactions in an evolutionary context; lab stresses classification and identification of insects; insect collection required. Johnson, Hix, Stairs. Su, Au Qtrs. 3 cr, 2 2-hr labs, field trip. Prereq: 15 cr hrs in biological sciences. For students at the jr-sr level in bio and ag sciences and grad students in bio sciences. BER/LA/CLAR course.

531 Pesticides, The Environment and Society U 3
The chemical, physical, and toxicological properties of pesticides are related to movement in the environment, and to their biological and ecological effects. Fisher. Au Qtr. 3 cr. Prereq: 5 or 10 cr hrs in organic chem and 10 or 15 cr hrs in biological sciences at the 200-level or above.

532 Pesticide Regulations U G 2
Study and discussion of Ohio and U.S. pesticide regulations; relationship of the regulations will be correlated with the biological and environmental effects of pesticides. Goleman. Au Qtr. 2 cr. Prereq or conc: 531.

592 Workshop U G 1-6
Intensive study of a topic in entomology: the format will depend upon the topic. Su, Au, Wi, Sp Qtrs. Arr. Prereq: Written permission of workshop director. Repeatable to a maximum of 6 cr hrs. Lectures, laboratories, or lecture-laboratory format may be used.

596 Plant Protection Seminar U G 1
Current topics related to plant pest management research, technology, and employment. Wi Qtr. Art. Not open to students with 2 or 15 cr hrs of 596 in agronomy or hort or plant path. Repeatable to a maximum of 2 or 15 cr hrs. Cross-listed in Agronomy, Horticulture, and Plant Pathology. This course is graded S/U.

611 Field Entomology U G 5
Emphasis on collection, identification, and field methods; field trips are made to various islands of Lake Erie and the mainland. Su Qtr (1st term), given only at Frantz Theodore Stone Laboratory. 3 all-day cl.

612 Aquatic Entomology U G 5
Designed for preparation in the teaching of biology or for research on aquatic resources, taxonomy and ecology of immature and adult aquatic insects are emphasized. Su Qtr, given only at Frantz Theodore Stone Laboratory, 3 all-day cl. Sp Qtr, given only on Columbus campus, 2 2-hr cl. Prereq: 500 or 511 or equiv.

623 Insect Morphology U G 5
Comparative external and internal anatomy of insects and other arthropods; organ systems in developmental, functional, and evolutionary contexts; individual histological projects. Johnson. Au Qtr. 2 cl. 3 2-hr labs. Prereq: 500 or equiv.

631 Insect Physiology U G 5
The general physiology of insects and other arthropods; the laboratory will stress the use of insects to demonstrate fundamental physiological processes. Denlinger. Au Qtr. 3 cl. 2 2-hr labs. Prereq: 500 or equiv and Chem 230, or 241 and 243, or equiv.
641 Insect Ecology U G 5
The distribution, abundance, population regulation, plant-insect interactions, and species survival patterns of insects are analyzed in relation to microenvironment and ecosystems. Stair.
Sp Qtr. 3-2 hr. lec/lab. Prereq: 500, Zoology 313 or 313.01 or equiv.

660 Advanced Economic Entomology U G 5
Theory and practice of pest population management, emphasizing current research, population modelling, sampling, and data analysis. Hor.
Au Qtr. 3 cl, 2-3 hr. labs, field trips. Prereq: 460.02 and Zoology 313 or 313.01, or equiv with written permission of instructor.

661* Medical Entomology U G 5
Arthropod agents and vectors of vertebrate disease: life cycles, behavior, pathogenesis, identification, control; arthropod-pathogen and arthropod vertebrate relationships; arthropod-borne disease systems. Foster.
Wi Qtr. 3 cl, 2-3 hr. labs. Prereq: 560 and Zoology 610 recommended.

662 Principles of Insect Toxicology U G 5
The properties of insecticides, modes of action, metabolism, toxicity factors, joint action, resistance, experimental procedures and interpretation of data. Fisher.
Wi Qtr. 3 cl, 2-3 hr. labs. Prereq: 651 or equiv or permission of instructor.

663* Integrated Pest Management U G 3
Field studies integrating chemical, biological, and cultural control of insects; estimation of economic thresholds, experimental design, experience with multiple application, computer use. Hor.
Su Qtr (1st or 2nd term). 2 cl, 2-4 hr. labs, field trips. Prereq: 460.02 or 460.03 and Stat 125 or equiv.

670 General Acarology U G 4
An introduction to the morphology, development, and general biology of mites; laboratory consists of a taxonomic review of the families of Acari. Johnston, Needham, and Wrench.
Su Qtr. 1 cl, 4 hr. lab.

693 Individual Studies U 1-5 G 1-10
Individual work in the field of the chosen problems.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs for undergraduates and to a maximum of 30 or hrs for graduates. No more than 3 or hrs may be counted toward an undergraduate entomology major. This course is graded S/U.

694 Group Studies U G 2-5
Group work in the field of the chosen problems.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs for undergraduates and to a maximum of 20 or hrs for graduates.

741* Insect Pathology U G 5
Diseases of insects, both infectious and non-infectious, and the resulting pathologies; the epidemiology of diseases and use of microorganisms for insect population management. Hor.
Sp Qtrs. 3 cl, 2-3 hr. labs. Prereq: Microbiol 601 or equiv.

751* Systematic Entomology U G 5
A survey of all orders except Diptera, Lepidoptera, and Hymenoptera, with emphasis on the determination of insects to family and beyond; collecting and preserving insects. Triplehorn.
Wi Qtr. 2 cl, 8 lab hrs. Prereq: 823.

752* Systematic Entomology U G 5
Continuation of 751, covering the Diptera, Lepidoptera, and Hymenoptera. Triplehorn.
Wi Qtr. 2 cl, 5 lab hrs. Prereq: 823.

753* Immature Insects U G 5
A survey of immature stages of insects with emphasis on the anatomy and taxonomy of holometabolous larvae. Sp Qtr. 1 cl, 4-2 hr. labs. Prereq: 751 and 752 or equiv and permission of instructor.

783 Honors Course U 3-5
A program of reading and research for each student with individual conferences, reports, and Honors thesis.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the courses in biological sciences and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA or BS with distinction in entomol. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

795 Special Topics in Entomology U G 1-3
Seminar on publications, current research or research techniques in the following topics:
A—Acarology
B—Apidulture
C—Behavior
D—Biological control
E—Ecology
F—Economic entomology
G—Genetics
H—Medical entomology
I—Pathology
J—Physiology-toxicology
K—Research methods—data analysis
L—Systematics—evolution
Su, Au, Wi, Sp Qtrs. 1, 2, or 3 cl. Prereq: 25 or hrs in biological sciences at 200-level or above. Repeatable to a maximum of 10 or hrs.

800 Entomology Seminar Q 1
Faculty, graduate students, and outside speakers will participate; topics: recent advances in various entomological fields.
Au, Wi, Sp Qtrs. 1 1/2 hr. cl. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

8311* Advanced Insect Physiology U G 5
Insect biochemistry and recent advances in insect physiology are discussed. Laboratory consists of a term project. Denebger.
Wi Qtr. 2 cl, 2-3 hr. labs. Prereq: 631 or Zoology 452, or equiv.

8411* Biological Control U G 5
Reports and discussions on the predators, parasitoids and microbial pathogens affecting plants and invertebrates, particularly insects. Briggs.
Wi Qtr. 3 cl, 2 hr. lab. Prereq: 631, 641 and 660 recommended.

870 Medical-Veterinary Acarology U G 4
The mites associated with man, domestic animals, and wildlife, stressing their ecology and behavior in relation to transmission of viral, rickettsial, bacterial, and protozoan diseases. Johnston and Needham.
Su Qtr. 1 cl, 4 hr. lab; 3 hrs cl-lab daily for 3 wks.

871 Agricultural Acarology U G 4
An intensive review of the mites associated with crops, ornamental plants, and stored food products with emphasis on taxonomy and ecology of these animals. Johnston.
Su Qtr. 1 cl, 4 hr. lab; 8 hrs cl-lab daily for 3 wks.

891 Interdepartmental Seminar in Environmental Biology U G 2
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities.
Su, Au, Wi Sp Qtrs. 1 2-hr. cl. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs. Given cooperatively by Botany, Entomology, Microbiology, and Zoology. This course is graded S/U.
Environmental Biology
25 Botany and 7mvig Building, 1736 Neil Avenue, 422-0305

999 Research in Entomology G Arr
Research for thesis and dissertation purposes only.
Su, Au, Wi, Sp Qtr s. This course is graded S/U.

Interdepartmental Seminar in Environmental Biology
See Botany, Entomology, Microbiology, and Zoology 891.

999 Research in Environmental Biology G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtr s. This course is graded S/U.

Family Medicine
1114 University Hospital Clinic, 456 Clinic Drive,
421-8007

793 Individual Studies in Family Practice P 4, 8, 16 or 24
Experience with family physician-preceptor or family practice residency programs; student must achieve objectives which fall within the curriculum objectives of the Dept of Family Medicine, Willamette.
Su, Au, Wi, Sp Qtr s, Arr, Prereq Med Coll 663 and written permission of instructor. Repeatable to a maximum of 24 or hrs. This course is graded S/U.

Family Relations and Human Development
315 Campbell Hall, 1787 Neil Avenue, 422-7705

294 Group Studies U 2, 3 or 5
Selected topics in family relations and human development.
Prereq: Open to students who meet dept’s stated prereq. Not open to students with maximum allowable credit for 294.10 or 294.12. Repeatable to a maximum of 10 cr hrs.

360 Family Development U 5
The dynamics of family interaction at each stage of the life cycle; emphasis on developmental tasks, socio-economic and cultural influences and other family differences.
Au, Sp Qtrs, 4 cr, 1 hr arr. Prereq: 10 cr hrs of social science.

361 Introduction to Child Development U 5
Study of the nature, nurture and development of children from conception through the beginning school years. Griffin.
Au, Wi Qtr s, 3 cr, 2 hrs arr. Prereq: Psych 100 or equiv with written permission of instructor and 2nd yr standing. Open only to dept and general home economics majors.

363 Infant Guidance and Care U 4
Considerations in planning for children (conception through age two) at home and in groups. Curriculum content and environment organization to meet developmental needs.
Dickerscheid.
Au Qtr, 2 1/2 hr cr, 2 hrs arr. Prereq: 360 and 361 or 364 or equiv with written permission of instructor.

364 Applied Life Span Analysis U 4
Survey of human development across the life span directed toward an applied understanding of the individual and forces that shape development. Newman.
Au Qtr s, 3 cr, 2 hrs arr. Prereq: Psych 100 or 300, and 2nd yr standing.

461 Guidance of Young Children in Groups U 3
Application of principles of development to guidance of children in groups; modification of experiences for age level, ability, group and individual needs. Bolig.
Au, Wi Qtr s, 3 cr. Prereq: 361 or 364 or Psych 550 or Ed-E&M 460.

464 Curriculum Planning: A Child Development Model U 3
In-depth examination of the child development model and implication for the planning, implementation and evaluation of teacher-directed activities for young children. Staff.
Au, Wi, Sp Qtr s, 3 cr. Prereq: 461; concour 465. Open only to majors in dept and H Ec Edu (child care services option).

485 Nursery School Practicum U 2
Participation in the nursery school as a student teacher. Staff.
Au, Wi, Sp Qtr s, 1 cr, 1 3-hr lab. Prereq: 361 or 364, 461, Ed-H uSer 271 or Ed-Sp S v 271, and Ed-H uSer 289.02 or Ed-Sp S v 289.02 or H Ec Edu 289.

465.01 Preschool/Day Care Practicum
Application of theory included in 461 and 464.
Concur: 464. Open only to FndHdu Dv child development option and H Ec Edu child care services option.

465.02 Group Care Practicum
Application of theory included in 461.
Open only to FndHdu Dv family services option and H Ec Edu options other then child care services.

466 Seminar: Human Service Organizations U 3
Application of principles of family development to program planning; discussion of family needs and design of techniques to assess needs and ways to provide services.
Au Qtr s, 2 cr, 1 hr arr. Prereq: 360; concour 467. Open only to dept majors in family services option.

467 Practicum: Human Service Organizations U 2
Supervised participation in a human service organization with application of principles from 466.
Au Qtr, 1 1/2-day arr. Prereq: 360, Ed-HuSer 271 or Ed-Sp S v 271, and Ed-HuSer 289.02 or Ed-Sp S v 289.02; concour 466. Open only to dept majors in family services option. Pre-registration 1 qtr prior to practicum.

468 Individual and Family Helping Skills U 3
The study of various strategies and techniques used in working with individuals and families in the context of family service organizations.
Wi Qtr s, 1 3-hr cr. Prereq: 466 and 467.

565 Supervised Preschool/Day Care Teaching U 10 or 15
Guided participation of students in the responsibilities and activities of preschool and day care teachers in centers with half day and/or full-day programs. Griffin.
Au, Wi, Sp Qtr s, 1/2 day every day per qtr or 1 day every day per qtr. Prereq: 464 and 465.01, 4th yr standing in dept and 2.25 cumulative gpa ratio. Pre-registration 2 qtrs prior to supervised teaching.

589 Field Work U 5 or 10
Planned professional experience with children, youth or adults in a program or community agency.
Wi, Sp Qtr s. Minimum of 15 hrs per wk plus seminars arr. during qtr. Prereq: 468.02, 468 and 467, 4th yr standing in dept. and 2.25 cumulative gpa ratio. Pre-registration 2 qtrs prior to field work. Not open to students with maximum allowable credit for 588.10 or 589.12. Open only to dept majors in family services option.
593 Individual Studies U 1-5
Problems in various phases of family relations and human development chosen for individual study.
Su, Au, Wi, Sp Qtrs. 1 or more conf. H593 (honors) may be available to students enrolled in school honors program or eligible for enrollment. Prereq: Written permission of instructor and completion of individual study plan form. Not open to students with maximum allowable credit for 593.10. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

598 Seminar in Child and Family Studies U 2
Review, interpretation, and evaluation of current literature and research in defined areas.
Su, Wi, Sp Qtrs. 1 cr. Prereq: 360, 465.01 or 465.02, and sr standing. Repeatable to a maximum of 4 cr hrs.

661* Observing and Recording Child and Family Behavior U G 3
Examination of the value of observation skills and methods of observing and recording child and family behavior.
Sp Qtr. 1 2½-hr cl, 2 hrs lab. Prereq: 361 or 362, or Psych 550, or Ed-E&M 490 or Ed-T&P 490, or equiv with written permission of instructor.

662 Advanced Child Development U G 4
Growth and development of children through adolescence with emphasis on maturation patterns and individual differences. O'Bryant.
Wi Qtr. 1 3-hr cl, 2 hrs lab. Prereq: 360, and 361 or Psych 550, or equiv with written permission of instructor.

663 Infant Development U G 3
Infant development during first two years of life with special consideration of biases of support for provision of effective care.
Hock.
Wi Qtr. 1 2-hr cl, 1 2-hr lab. Prereq: 363, Psych 550, and Soc 434.

665 Parenting U G 3
Identification and examination of the theoretical approaches applicable to child rearing in families; emphasis on developing practical skills for working with parents and children.
Su, Au, Wi Qtrs. 2 1½-hr cl. Prereq: 465.01 or 467 or permission of instructor or grad standing.

666 Families and Children Under Stress U G 3
Examination of normative and developmental stressors and crises that impact on the development of families and children; implications for practitioners drawn from conceptual frameworks and recent research.
Sp Qtr. 2 1½-hr cl. Prereq: 465.01 or 467 or permission of instructor or grad standing.

677 Administration of Day Care Centers U G 3
Study of components of administration of day care centers, such as organizational structure, policies, curriculum, supervision, budget and funding, regulations and standards. Griffling.
Au Qtr. 1 2-hr cl, 1 hr arr. Prereq: 465.01 or 465.02 or equiv and written permission of instructor.

689 Alternative Strategies for Preschool Programs U G 3
Exploration of a variety of philosophies and resultant practices in caring for and educating young children in day care and nursery school situations. Dickerscheid.
Wi Qtr. 2 1½-hr cl. Prereq: 465.01 or 465.02 or equiv with written permission of instructor.

690 Workshop U G 1-5
Intensive study of a topic common to the participants for the purpose of developing related principles and practices. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

694 Group Studies U G 2, 3 or 5
Selected topics in family relations and human development.
Au Qtr. 1 2½-hr cl. Prereq: Ed-E&M 381 or Ed-T&P 381 or EDC 381 or EDC 780 or Ed-T&P 881 or Ed-P&L 881 or Ed-T&P 681; permission of instructor.

760 Family Relations and Human Development Research Process Analysis U G 3
Historical overview of research methods and related conceptual issues relevant to study of family relations and human development. Prereq: Open to students who meet dept's stated prereq. Repeatable to a maximum of 10 cr hrs.

783 Individual Studies U G 1-5
Problems in various phases of family relations and human development.
Su, Au, Wi, Sp Qtrs. 1 or more conf. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

797 Interdepartmental Seminar U G 2-4
See Interdepartmental Seminars.

798 The Family: The Early Years G 3
Relationships and adjustments in family living with emphasis on the early and expanding stages of the family life cycle. McKeen.
Wi Qtr. 1 2½-hr cl. Prereq: 25 cr hrs in social and psych, or equiv with written permission of instructor.

799 The Family: Middle and Later Years G 5
The interrelationship and adjustment of families with emphasis on the middle and later years of the life cycle. McKeen.
Sp Qtr. 2 2-hr cl. Prereq: 360 or equiv with written permission of instructor, and 9 or hrs in research methods, design, or stat.

882 Seminar in Family Relations and Human Development G 3 or 5
Topics to be announced.
Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: Grad standing in home ec and/or written permission of instructor, and 6 cr hrs in research methods, design or stat. Repeatable to a maximum of 15 cr hrs.

883 Infant Caregiving Contexts G 3
Review and critical analysis of recent theoretical and research literature relevant to the design and evaluation of infant care settings. Hock.
Sp Qtr. 1 2½-hr cl. Prereq: 663 or equiv with permission of instructor, and 6 cr hrs in research methods, design, or stat.

884 Contemporary Issues in Group Experiences for Young Children G 3
Identification and examination of current practices in group experiences for children under five; emphasis on current issues, relevant research and theory as related to curriculum design. Dickerscheid.
Sp Qtr. 1 2½-hr cl. Prereq: 15 cr hrs of child development and/or child psychology, supervised student teaching or experience in nursery schools or day care centers, and 3 or hrs in research methods, design, or stat.

885 Seminar in Imagination and Play G 3
Examination of research on imagination and play; topics include development and functions of and training for imagination and play. Griffling.
Su Qtr. 1 2½-hr cl. Prereq: Ed-E&M 831 or Ed-T&P 848 or permission of instructor.

886 Practicum in Supervision of Preschool/Day Care Student Teachers G 3
Guided supervision of graduate student teachers in preschool/day care settings. Griffling.
Sp Qtr. 1 2½-hr cl. Prereq: Grad standing in home ec specializing in FmHlVr Dv: training and experience as a preschool/day care teacher; H Ed Educ 475 or Ed-E&M 798 or Ed-F&R 861 or Ed-P&L 881 or Ed-T&P 881; permission of instructor.
Food Science and Nutrition

122 Vivian Hall, 2121 Fyffe Road, 422-6281

100 Food and Mankind U 5
Food and nutrition in modern civilization; role of science, industry, and government in meeting domestic and world needs; elements of food acceptance, quality, processing and protection. Chem and Manglo. Au, Sp Qtrs. 5 cl.

General Prerequisites for Courses Numbered 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 hrs in college courses, exclusive of ROTC and phys ed.; or specified course(s) numbered 100-199.

289 Food Industries Field Experience U 3
Ten weeks practical experience or equivalent in an approved food plant or laboratory; written report required. Kenyon. Su, Au, Wi, Sp Qtrs. Open only to students majoring in food science and nutrition.

General Prerequisites for Courses Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 cr hrs in college courses, exclusive of ROTC and phys ed.; or specified course(s) numbered 100-399.

Introduction to Food Process Engineering
See Agr M&Sys 381. Offered in cooperation with Agricultural Engineering (Agricultural Mechanization and Systems)

Marketing Dairy Products
See Agr Econ 426. Offered in cooperation with Agricultural Economics.

493 Individual Studies U 3-5
Individual study course to permit undergraduate students to explore in-depth selected areas of food science and nutrition. Su, Au, Wi, Sp Qtrs. 9-, 12-, or 15-hr lab. Prereq. Jr standing in food science and nutrition. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

General Prerequisites for Courses Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr hrs in courses in the same discipline numbered 200 or higher or 10 cr hrs in courses numbered 200 or higher in the same discipline, plus 10 cr hrs in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

521 Food Components and Analysis U Q 4
Composition and chemical properties of foods and food components; evaluation and utilization of analytical methods; effect of processing; regulations, laws, and agencies. Min. Au Qtr. 4 cl. Prereq. Chem 235 or 242.

522 Food Components and Analysis: Laboratory U Q 4
Application of modern analytical methods to foods and food components; determination of chemical phenomena and properties of foods; project studies, data interpretation and report writing. Min. Wi Qtr. 1 cl, 2 3-hr lab 1 conf. Prereq. 521.

531 Sensory Properties of Foods U G 3
Fundamentals of sensory perception, taste and odor classification and threshold values; descriptive and objective evaluation of foods; panel selection and interpretation of results; industrial applications. Lindamood. Sp Qtr. 2 cl, 2-1 hr lab. Prereq. 3-5 cr hrs in organic chemistry and statistics.

557 Laboratory Introduction to Food Systems U G 3
Unit processes in fundamentals of food systems and food fabrication and development; equipment use; chemical, physical, and microbiological measurements of product control and storage changes. Kenyon. Au, Wi Qtrs. 1 cl, 2 3-hr labs. Prereq. 522. Not open to students with credit for 537.

541 Physical Properties of Foods U G 4
Elements of identification and measurement of physical properties of foods and application to food systems. Blechdel. Au Qtr. 2 cl, 2-hr lab. 2-hr workshop. Prereq. Ag M&Sys 381.

551 Technologies of Dairy Foods U G 5
Scope, trends, and practices of dairy food formulation and processing; composition, quality, and materials control; distribution; health and nutritional aspects. Kenyon. Sp Qtr. 3 cl, 2 2-hr lab. Prereq. 5 cr hrs. Microbiol and food processing. Not open to students with credit for 537.

589 Professional Experience U 5
Ten weeks of supervised structured in-depth industrial experience in selected food related subjects. Su, Au, Wi, Sp Qtrs. Arr. Prereq. 30 cr hrs of 500-level courses or above in major field, and permission of instructor. Open only to students majoring in food science and nutrition. Repeatable to a maximum of 10 cr hrs. Experience must be obtained with organization approved by the dept.

Food Process Controls and Instrumentation
See Agr M&Sys 583. Offered in cooperation with Agricultural Engineering (Agricultural Mechanization and Systems).

General Prerequisites for Courses Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr hrs in courses in the same discipline numbered 300 or higher, or 10 cr hrs in courses numbered 300 or higher in the same discipline, plus 10 cr hrs in courses numbered 300 or higher in specified allied disciplines.

621 Food Additives U G 3
Chemical and physical nature of food additives; functions and effects on chemical, rheological, microbiological, and nutritional properties of foods. Chem. Au Qtr. 3 cl. Prereq. 15 cr hrs in food science or related area.

622 Food Sanitation and Protection U G 5
Principles of sanitation applicable in the production, processing, distribution, and handling of food; relationship to food quality and safety. Mckdapsk. Au, Sp Qtrs. 2-3 cl, 2 2-hr lab. Prereq. Morkov 509 or 501,
631 Food Systems I: Fluid Foods U G 3
Integration of science and engineering principles to fluid foods and their unit operations, with emphasis on protein-fluid food systems. Blaisdell.
Wi Qtr. 3 cr. Prereq: One course in each of food analysis, microbiology and food physics or food engineering.

633† Food Systems II: Concentrated and Frozen Foods U G 3
Principles of science and engineering of concentrated and frozen foods and their unit operations. Hansen.
Sp Qtr. 3 cr. Prereq: 631 or permission of instructor.

634* Food Systems III: Fermented and Lipid Foods U G 3
Chemical, physical, and microbiological phenomena of fermented and lipid foods as related to manufacturing and storage practices and product characteristics.
Sp Qtr. 3 cr. Prereq: 521 or equiv. Microbl 509 or 601.

641 Chemical Reactivity of Food Components U G 5
Intensive coverage of the chemical reactions of food components with emphasis on the reaction mechanisms responsible for changes in food products. Mangini.
Sp Qtr. 4 cr, 1 3-hr lab. Prereq: Chem 242, FSN 521, 522 or permission of instructor.

Advanced Food Process Engineering
See Agr Eng 684. Offered in cooperation with Agricultural Engineering.

652 Workshop in Milk and Food Sanitation U G 1-2
Five day in-depth program on fundamentals of milk and food protection. Designed for individuals interested in food processing, distribution, quality control, public health, and regulatory activities. Lindunord.
Sp Qtr. 15 or 30 hrs of contact during the week between winter and spring qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 3 cr hrs.

693 Individual Studies U G 3-5
Individual project studies of current problems; planning, conducting, and reporting research.
Su, Au, Wi, Sp Qtrs. 9-, 12-, or 15-hr lab. Prereq: Food science and nutrition 4th yr standing. Su Qtr. 3 cr. Prereq: Food science and nutrition 4th yr standing.

General Prerequisites for Courses Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr hrs in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

701* Food Contaminants and Toxins U G 4
Biological and chemical contaminants and naturally occurring toxidants in foods of public health significance. Protection of foods. Mikolajczak.
Wi Qtr. 4 cr. Prereq: Microbl 509 or 601.

702† Spore-Forming Bacteria in Food G 5
Aerobic and anaerobic spore-forming bacteria in food; fundamentals of sporulation and germination processes; significance to food industry; control. Mikolajczak.
Wi Qtr. 3 cr, 2 2-hr lab. Prereq: 622 or Microbl 636.

703† Food Fermentations G 3
Principles of food fermentation; pathways and kinetics of microbial reactions; selected food fermentations; design and control of fermentation. Wi Qtr. 3 cr. Prereq: Biochem 511, 5 or hrs microbl. Not open to students with credit for 803.

723 Food Structure and Interactions U G 6
Microstructure and texture of foods; relationship to food components and interactions, and physical properties of foods; application of light and electron microscopy. Hansen.
Wi Qtr. 3 cr, 2 3-hr labs. Prereq: 15 or hrs in food science or related areas.

731† Food Processing Wastes: Treatment and Utilization U G 3
Chemical, physical, and biological composition of food plant wastes; principles of waste treatment; alternative processes and comparative efficiencies; utilization of waste products.
Au, Sp Qtrs. 3 cr. Prereq: 15 or hrs food science or related areas.

733 Nutrition in the Support of Growth U G 5
A functional approach to the study of nutrition for support of growth and maintenance in animals and humans.
Au Qtr. Prereq: Animal Sci 630, 631 or 632 or Dairy Sci 631 or Dairy Sci 530 or Hum Nutr 610 and prereq or concur Biochem 511 or Physiol 617. Not open to students with credit for Animal Sci 733 or Dairy Sci 733 or Dairy Sci 730. Cross-listed in Animal Science, Dairy Science, and Poultry Science.

741† Food Thermodynamics U G 3
Thermodynamic, kinetic, and transport phenomena in food systems. Blaisdell.
Su Qtr. 3 cr. Prereq: 723, Chem 521 or permission of instructor.

761 Advanced Nutrient Utilization I U G 5
In-depth treatment of digestion, absorption, transport, and utilization of dietary carbohydrates and fat for energy production and fat deposition in man and other higher animals. Afford.
Wi Qtr. 5 cr. Prereq: Biochem 511 or equiv and Hum Ntr 310 or Animal, Dairy, Pitty Sc 430 or equiv.

762 Advanced Nutrient Utilization II U G 5
In-depth treatment of digestion, absorption, transport, and utilization of proteins, amino acids, and vitamins in man and other higher animals; energy reactions and requirements. Afford.
Sp Qtr. 5 cr. Prereq: 761.

General Prerequisites for Courses Numbered 800 and 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 or hrs in courses in the same discipline, or 20 or hrs in the same discipline, plus 25 or hrs in specified allied disciplines.

821* Food Lipids G 3
Chemical, physical and biological properties of food lipids. Min.
Au Qtr. 3 cr. Prereq: 634 or permission of instructor.

822* Food Proteins G 3
Sources of chemical, physical, and biological properties of food proteins; effect of food composition, handling and processing of protein characteristics and functionalities. Mangino.
Sp Qtr. 3 cr. Prereq: one course in physical chemistry or permission of instructor.
830 Advanced Studies in Nutrition G 3
Su, Au, Wi, Sp Qtrs. 3 or 4 cr. Prereq: 761, 762; Anth Sc 630 or 631 or Dairy Sc 630 or 631 or Humn 610. 10 grad or hrs in physiology. Not open to students with credit for Anth Sc 830, Dairy Sc 830, Humn Nut 830 or Phy Sc 830. Cross-listed in Animal Science, Dairy Science, Human Nutrition and Food Management, and Poultry Science.
830.01 Energy
830.02 Minerals
830.03 Protein and Amino Acids
830.04 Vitamins
830.05 Lipids
830.07 Rumen Microbiology
830.08 Carbohydrates
833 Research Methods in Food Science G 5
Principles and application of selected instrumental methods of analysis of food systems: visual, ultraviolet, infrared spectroscopy, partition, absorption, gel permeation, gas liquid chromatography, electrophoresis, radioscopics. Chiem. Wi Qtr. 3 cr. 2 3-hr lab. Prereq: Permission of instructor.
850 Seminar G 1
Graduate student-staff participation in a study of teaching and research trends and opportunities; critical analysis of research approaches, findings, and publications. Au, Wi, Sp Qtrs. 1 cr.
850.01 Food Science
850.02 Nutrition
861 Topics in Advanced Nutrition G 3
Systematic treatment and evaluation of areas of publications of current interest in nutrition; topics will be announced quarterly. Allied and related.
Au, Wi, Sp Qtrs. 3 cr. Prereq: 752. Repeatable to a maximum of 9 cr or hrs.
892 Interdepartmental Seminar in Plant Physiology G 1
Students will present seminars on their research or related topics in plant physiology and/or attend seminars by local and visiting researchers. Au, Wi, Sp Qtrs. 12 cr or hrs in Agronomy 892, Biochem 892, Botany 892, or Hort 892. Repeatable to a maximum of 12 cr or hrs, including cr or hrs earned in Agronomy 892, Biochem 892, Botany 892, and Hort 892. Cross-listed in Agronomy, Biochemistry, Botany, and Horticulture. This course is graded S/U.
898 Interdepartmental Seminar in Nutrition G 1
See Interdepartmental Seminars. Sp Qtr. This course is graded S/U.
993 Individual Studies G 1-5
Research experience and preparation of technical paper. Au, Wi, Sp Qtrs. Prereq: 16 cr or hrs of grad level courses in food science or nutrition. For Plan B, MS degree students only. Repeatable to a maximum of 10 cr or hrs. This course is graded S/U.
998 Research: Thesis G Arr
Research for thesis purposes only. Au, Wi, Sp Qtrs. This course is graded S/U.
999 Research: Dissertation G Arr
Research for dissertation purposes only. Au, Wi, Sp Qtrs. This course is graded S/U.

Food Technology
140 Howell Hall, 2001 Fyffe Court, 422-1900
241 Introduction to the Food Industries U 5
Principles and operations involved in the assembling, processing, and distribution of food and food products with emphasis on the role of the food technologist. Bash.
Au, Wi, Sp Qtrs. 5 cr. Not open to students with credit for Hort 241.
469 Food Industries Experience U 1-2
Ten weeks of planned and supervised experience in an approved food industry operation; written report required. Au, Wi, Sp Qtrs. Arr. Prereq: Declared major in food technology and permission of instructor.
599 Seminar U 1
Preparation and oral presentation of papers analyzing technical problems in food technology; emphasis on creative problem solving. Gould.
694 Group Studies G U 1-5
Special group studies in food technology not provided in other courses and appropriate to the needs of students. Au, Wi, Sp Qtrs. Arr. Prereq: SR standing in food area. Repeatable to a maximum of 10 cr or hrs.

Forestry
School of Natural Resources
322 Kottman Hall, 2001 Fyffe Court, 422-2816
General Prerequisites for Courses Numbered 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 cr or hrs in collegiate courses, exclusive of ROTC and phys ed.; or specified course(s) numbered 160-199.
221 Conifer-Hardwood Dendrology U 5
Study of principal forest tree species in the United States with emphasis on identification, range, habitat, reproductive characteristics, silvicultural characteristics and importance. Cowen.
Au Qtr. 3 cr. 2 2-hr labs.
223 Silvics U 4
A study of the individual and interacting effects of genetic and environmental factors on tree and forest structure, composition, and growth. Vogt.
Wi Qtr. 4 cr. Prereq or concour: Botany 112.
General Prerequisites for Courses Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300- and 400-level courses are 90 cr or hrs in collegiate courses, exclusive of ROTC and phys ed.; or specified course(s) numbered 160-299.
310 Introductory Forestry U 5
An introduction to American forestry; the character and occurrence of American forests; forest biology; cultivating and measuring the forest. Touse.
Wi Qtr. 5 cr.
321 Silviculture U 3
A study of the manipulation of the forest ecosystems to assure establishment, growth, composition and quality of forest stands in accordance with ownership objectives. Cowen.
Au Qtr. 3 cr. Prereq or concour: 221 and 223.
323 Forest Biometry U 5
A study of the quantitative decision tools necessary to measure the forest resource, confidence and probability measures of land area, timber, water, wildlife and recreation. Kagle.
Au Qtr. 3 cr. 2 2-hr lab. Prereq: Stat 125 or equiv.
324 Forest Photointerpretation U 3
Principles and methods of mapping, photointerpretation, aerial photography and inventory. Measurement and classification of the forest using maps, photos, and remote sensing data. Kasile.
Au Qtr. 2 cl, 1 hr lab. Prereq: Stat 125 or equiv. Not open to students with credit for 225.

431 Forest Industries I U 5
Identification of the important timber species based upon wood structure and properties; reflects in wood: moisture relationships and drying techniques; the principles of gluing. Touse.
Au Qtr. 5 cl. Prereq: 221.

432 Forest Industries II U 5
A detailed study of the harvesting and manufacturing processes used to produce forest products; laws governing workshop safety and environmental pollution; transportation of forest products. Touse.
Wi Qtr. 5 cl. Prereq: 431.

433 Analysis of Forest Industry Management U 5
A survey of the common problems encountered by managers of the wood-using industries; emphasis on sources of information and methods of solution. Touse.
Sp Qtr. 5 cl. Prereq: 431 and 432.

General Prerequisites for Courses Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 or hrs in courses in the same discipline numbered 200 or higher, or 10 or hrs in courses numbered 200 or higher in the same discipline, plus 10 or hrs in courses numbered 200 or higher in specified allied disciplines; or baccalaureate degree.

525 Forest Economics and Management U G 5
Application of micro-economic theory to management of woodlands and mill development of timber management plans which integrate economic and biological considerations. Heiligman.
Wi Qtr. 2 hr cl. Prereq: 323 and one course in economics, or written permission of instructor. Not open to students with credit for 325.

533 Forest Field Laboratory U 5
An intensive field course stressing compilation, analysis, and interpretation of mensurational and ecological data in the preparation of alternative silvicultural prescriptions for forested areas. Heiligman, Kasle, and Staff.
Au Qtr. Arr. Prereq: 321, 323, and 324. Offered at Barnsley Center between Labor Day and first day of Autumn Quarter classes.

593 Individual Studies U G 2-5
Special problems in the field of forestry and forest products. Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

French

248 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-5842
Students studying foreign languages at the elementary and intermediate levels typically take the sequence of courses numbered 101-102-103-104 (including the decimal subdivisions such as 101.51, etc.) and then move on to advanced courses. Students who need to satisfy the Arts and Sciences foreign language requirement must demonstrate competence at the 104 level. The courses numbered 100.01-100.02 are for students: 1) who do not intend to take foreign language beyond the level of 100.02; 2) who do not expect to complete more than ten credit hours sequentially; 3) who prefer a slower-paced introduction (also available in 101.51, etc.). Students admitted with a foreign language condition should take the 101-102 sequence if they intend to continue in a language. Those who do not plan to take more than ten credit hours of foreign language study should take the 100.01-100.02 sequence.

100 Introduction to the Study of French U 5
Su, Au, Wi, Sp Qtr. 5 cl. Not open to students with credit for 101 or equiv study in high school or college. FL Admis Cond courses.

100.01 Introduction to the Study of French I
Introductory French for students with no previous training in French; emphasis on reading and listening and on study skills; part of a two-qr sequence.

100.02 Introduction to the Study of French II
Continuation of 100.01.
Prereq: 100.01 or equiv or permission of dept.

101 Elementary French I
Introduction to French: development of listening, reading, speaking, and writing skills.
Su, Au, Wi, Sp Qtr. Not open to students with credit for 100.01 or 100.02. FL Admis Cond courses.

101.01 Classroom Track U 5
Students must register for and complete 5 or hrs during the quarter. This course is available for EM credit.

101.51 Individualized Track U 1-5
Students register for and complete from 1 to 5 or hrs during the quarter. Students who complete 5 or hrs before the end of the quarter may proceed to 102.51. Progress is sequential from one or hr to the next, with proficiency at the level of 80% required for advancement. Not open to students with 5 or hrs in 101.07.

102 Elementary French II
Continuation of 101, further development of listening, reading, speaking, and writing skills.
Su, Au, Wi, Sp Qtr. FL Admis Cond courses.

102.01 Classroom Track U 5
Prereq: 100.02 or 101.07 or 101.51 or 5 or hrs of 101.02.
Students must register for and complete 5 or hrs during the quarter. This course is available for EM credit.

102.51 Individualized Track U 1-5
Prereq: Grade of B- or above in 100.02 or 101.01 or 5 or hrs in 101.07 or 101.51 or permission of instructor.
Students may register for 101.51 and 102.51 concurrently with permission of instructor. Students who complete 5 hrs before the end of the quarter may proceed to 103.51. Progress is sequential from one or hr to the next with proficiency at the level of 80% required for advancement. Not open to students with 5 or hrs in 102.07.
103 Intermediate French I
Continued study of French; development of listening, reading, speaking, and writing skills; readings based on contemporary French culture and literature.
Su, Au, Wi, Sp Qtrs.

103.01 Classroom Track U 5
Prereq: 102.01 or 5 or hrs of 102.51 or 110. Students must register for and complete 5 or hrs during the quarter. This course is available for EM credit.

103.51 Individualized Track U 1-5
Prereq: Grade of B- or above in 102.01 or 5 or hrs of 102.07 or 102.51 or permission of instructor. Students may register for 102.51 and 103.51 concurrently with permission of instructor. Students register for and complete from 1 to 5 or hrs during the quarter. Progress is sequential from one cr to the next, with proficiency at the level of 80% required for advancement. Not open to students with 5 or hrs in 102.07.

104 Intermediate French II
Prereq: 103 or 103.01 or 5 or hrs of 103.07 or 103.51 or 112. The following courses are not open to students with credit for 104, and only one of the decimal subdivisions may be taken for credit.

104.01 Basic Course U 5
Reading of French short stories, plays, and novels with attention to literary appreciation; development of basic language skills.
Su, Au, Wi, Sp Qtrs. 5 cl. Students not planning to continue in French may substitute any one of the following decimal subdivisions for 104.01. Not open to students with credit for 104 or any other 104 decimal subdivision. Course conducted in French. This course is available for EM credit.

104.02 Conversation U 5
Emphasis on speaking and aural comprehension with special attention to practical situations.
Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.

104.03 The French Now U 5
Readings in current periodicals, newspapers, and other primary sources in French, discussion in French and English.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.

104.04 Civilization U 5
Aspects of French civilization: geography, history, social developments, and the arts; readings and discussion in French.
Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.

104.06 Scientific Reading U 5
Intensive reading of scientific materials from current French journals in the physical and biological sciences.
Wi Qtr. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.

104.51 Individualized Track U 1-5
Readings from short stories, novels, poetry, drama, and nonfiction; development of speaking and aural comprehension.
Au, Wi, Sp Qtrs. Prereq: Grade of B- or above in 102.01 or 5 or hrs in 102.07, 102.05, or 102.51 or permission of instructor. Not open to students with 5 credit hrs in 102.07. Students register for and complete from 1 to 5 or hrs during the quarter. Proficiency at the level of 80% is required for advancement from 1 or hr to the next.

105 Elementary French Conversation and Composition U 5
Intensive practice in oral and written French, based on texts and periodicals concerned with French life today; grammar and idiom review.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 104. Course conducted in French. This course is available for EM credit.

112 Intensive French U 5, 10, 15
Elementary and intermediate French; intensive drill in form, syntax, vocabulary, and idiom; reading of short stories, novels, and plays.
Su Qtr. 15 cr. Enrollment limited to 22 students. Prereq: Permission of instructor. Full-time basis required regardless of number of cr hrs. Equiv of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 102 or 103 may not register for EM credit. Students with credit for 101 and 102 will enroll for 5 or hrs. Students with credit for 101 only will enroll for 10 or hrs. Students with no credit in French will enroll for 15 cr hrs. Regardless of credit earned a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all or hrs. No audit. FL Admis Cord courses.

150 Introduction to French Culture U 5
Study of the French cultural heritage with special emphasis on the interrelatedness of society, the arts, philosophy, and writings in the social sciences and human sciences.
Wi, Sp Qtrs. 5 cl. Not open to French majors. BER/LAC/LAR course.

151 Masterpieces of French Literature in Translation U 5
Introduction to the French novel, drama, and poetry by major modern writers.
4-5 cr. Not open to students with credit for 273. BER/LAC/LAR course.

162 Elementary-Intermediate French for Selected Students U 5
Wi Qtr. 5 cr. Prereq: Grade of A in 101 and permission of dept. Successful completion of 101-102-103 fulfills the Arts and Sciences foreign language requirement and satisfies prereq for 400-level literature courses.

163 Elementary-Intermediate French for Selected Students U 5
Sp Qtr. 5 cl. Prereq: 102. Successful completion of 101-102-103 fulfills the Arts and Sciences foreign language requirement and satisfies prereq for 400-level literature courses.

206 Introduction to Business French U 5
A preparatory course to the study of business French, focusing on the development of language skills within a business context and specifically designed for non-majors.
Au Qtr. 5 cl. Prereq: 104. Credit does not count toward the minimum number of hours required for the French major.

271 French Classics in Translation: The Middle Ages and the Renaissance U 5
Reading, analysis and discussion of major works from The Song of Roland to those of Renaissance authors such as Rabelais and Montaigne.
Au Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Does not count toward a French major. BER/LAC/LAR course.

293 Individual Studies U 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 or hrs. This course is graded D/JU.

294 Group Studies U 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 or hrs.

401 Review Grammar and Composition U 3
Review of French grammar; composition on assigned topics and practice in translation.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 105.

402 Intermediate French Conversation U 3
Practice in speaking French, building of practical vocabulary; emphasis on comprehension and oral expression. Conducted in French.
Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: 105.
403 Intermediate French Composition U 3
Basic kinds of French prose and techniques of composition; practice in writing letters, essays, descriptive, narrative, and personal compositions. Conducted in French.
Su, Wi Qtr. 4 cl. Prereq: 401.

404 French Pronunciation U 5
Formation of French sounds, rules of pronunciation and diction; lectures and practical exercises; use of phonetic symbols.
Su, Au, Sp Qtrs. 5 cl. Prereq: 105.

406 Business French I U 5
An introduction to business French with emphasis on basic business terminology, commercial correspondence, similarities and differences in business transactions and international procedures. Taught in French.
Wi Qtr. 5 cl. Prereq: 200 or any 400 level course or permission of instructor. Students who successfully complete this course may take the test for the certificat from the Paris Chambre de Commerce.

421 Introduction to Modern French Literature U 5
Reading and analysis of representative works of the 19th and 20th centuries; discussion of major movements of modern French literature.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 104. This course is available for EM credit. BERLAC course.

422 Masterpieces of French Literature: Middle Ages and Renaissance U 5
Au, Wi Qtrs. 5 cl. Prereq: 421. BERLAC course.

423 Masterpieces of French Literature: 17th and 18th Centuries U 5
Au, Sp Qtrs. 5 cl. Prereq: 421. BERLAC course.

486† French Study Tour U 15
Ten weeks of study in a francophone country; language with culture, literature, or special topics; specific content and location vary with instructor: conducted in French.
Su, Au, Wi, Sp Qtrs. 15 cl. Prereq: 104 with a grade of B or better, and permission of instructor. Not open to students with credit for 298 or any 600-level language course. Participants may take no more than two courses from among 401, 402, 403, or 404 either prior to or following the tour. May be counted toward a major or minor in French. Contact dept for details.

571 Basic French for Graduate Students G 5
Designed primarily for students who have no formal preparation in French; covers basic grammar and vocabulary.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: Grad standing. Credit does not apply to the minimum number of hours required for the master's or doctoral degrees. No audit.

572 French for Research I G 3
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: Grade of C or above in 571, or equiv preparation demonstrated by a placement test. Credit does not apply to the minimum number of hours required for the master's or doctoral degrees. No audit. Repeatable twice. Satisfactory completion of this course (grade of A or B) may be accepted by the student's dept as evidence of a dictionary reading knowledge in fulfillment of PhD language requirement.

573 French for Research II G 3
Su, Wi, Sp Qtrs. 3 cl. Prereq: Grade of A or B in 572, or equiv preparation demonstrated by a placement test. Credit does not apply to the minimum number of hours required for the master's or doctoral degrees. No audit. Repeatable twice. Satisfactory completion of this course (grade of A or B) may be accepted by the student's dept as evidence of a dictionary reading knowledge in fulfillment of PhD language requirement.

601 Modern French Syntax U G 5
Systematic review of French grammar with composition and other exercises, based on contemporary authors; modern tendencies in syntactic analysis.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 401.

602 French Translating U G 3
Translation from French to English and English to French.
Au Qtr. 3 cl. Prereq: 501 or equiv.

603 Advanced Spoken and Written French U G 3
Intensive practice in speaking and writing French; based on contemporary usage.
Su, Wi, Sp Qtrs. 3 cl. Prereq: 402, 403, and 501 or equiv.

604† Advanced French Pronunciation and Phonostylistics U G 3
Training in auditory and oral aspects of French pronunciation; special emphasis on analysis of different types of spoken French.
Su, Wi Qtrs. 2 cl. 1 lab hr. Prereq: 404 or permission of instructor.

629 Explication de textes U G 3
Intensive linguistic and literary exploration of representative passages from modern French authors.
Su Qtr. 3 cl. Prereq: 421 and either 422 or 423. Repeatable to a maximum of 6 cr hrs.

631† French Literature U G 2-5
Topic Varies.
Su Qtr. 3 cl. Prereq: 421 and either 422 or 423. Repeatable to a maximum of 15 cr hrs.

640 Les origines de la civilisation francaise U G 5
Major developments of French culture and civilization from its beginning to 1900.
Au Qtr. 4 cl. Prereq: 401 and 402 or 403. Conducted in French.

641 La civilisation francaise contemporaine U G 3
Life, institutions, and culture of contemporary France.
Wi Qtr. 3 cl. Prereq: 401 and 402 or 403. Conducted in French.

651 French Literature of the Renaissance U G 5
Selections from Marot, Rabelais, the Pléiade and Montaigne; the age of humanism and the transition from medieval to modern forms and ideas.
Au Qtr. 5 cl. Prereq: 421 and either 422 or 423. Not open to students with credit for 621.

652 French Classicism, 1600-1715 U G 5
The formation of the classic spirit; the perfection of dramatic form and the 17th-century portrait of human life.
Sp Qtr. 5 cl. Prereq: 421 and either 422 or 423. Not open to students with credit for 622.

653† French Literature of the Enlightenment U G 5
The ideas of the 18th century in their relation to modern times; emphasis on Montesquieu, Voltaire, Diderot, and Rousseau.
Wi Qtr. 5 cl. Prereq: 421 and either 422 or 423. Not open to students with credit for 623.

654† From Romanticism to Naturalism U G 5
The principal currents in French literature from the early 19th to the late 19th century.
Au Qtr. 4 cl. Prereq: 421 and either 422 or 423.

655† From Symbolism to Surrealism U G 5
The symbolist school, its significance, and the reaction to it; the various literary currents that culminated in surrealism.
Sp Qtr. 4 cl. Prereq: 421 and either 422 or 423.

661 The French Theatre U G 5
History and esthetics of the French theatre from the Middle Ages through the 20th century.
Au Qtr. 4 cl. Prereq: 421 and either 422 or 423.

<td>Historical Aspects of the French Language G 5</td>
<td>French</td>
<td>Linguistic study of old, classical, and modern French from the 13th century to the present. Wi Qtr. 3 cl. Prereq: 811 or permission of instructor. Not open to students with credit for 816, 817, or 818.</td>
</tr>
<tr>
<td>821</td>
<td>Medieval French Literature G 5</td>
<td>French</td>
<td>Survey of French literature of the Middle Ages from its conception to Villon, with emphasis on different literary genres (epics, narrative fiction, poetry, theatre). Sp Qtr. 3 cl.</td>
</tr>
<tr>
<td>822†</td>
<td>Topics and Problems in Medieval French Literature G 5</td>
<td>French</td>
<td>Intensive exploration of a special topic or problem, with readings in relevant criticism and scholarship. Sp Qtr. 3 cl. Prereq: 821. Repeatisable to a maximum of 15 or hrs.</td>
</tr>
<tr>
<td>823†</td>
<td>Topics and Problems in 16th-Century French Literature G 5</td>
<td>French</td>

</tbody>
</table>
831 Seminar in French Literature G 2-5
Su (3-6 cr hrs), Wi (3-5 cr hrs) Qtrs. Prereq: Permission of instructor.

832 Seminar in French Literature G 2-5
Su (2-3 cr hrs) Qtr. Prereq: Permission of instructor.

833 Seminar in French Literature G 3-5
Wi Qtr. Prereq: Permission of instructor.

870 Seminar in French Cinema G 3-5
Detailed exploration of particular topics or periods in French cinema with extensive analysis of individual films and readings in relevant theory and criticism. Sp Qtr. 2-4 hr cl. Prereq: 671 or 672 or permission of instructor. PhD candidates may repeat to a maximum of 15 cr hrs.

884 Problems of Textual Analysis G 5
Intensive work in literary and linguistic analysis of texts from various periods and genres.

885 Introduction to Methods in the History and Criticism of Literature G 5
Selected readings in basic literary history, criticism, and theory, with practice in the use of standard bibliographical aids to scholarship. Sp Qtr. 4 or 5 cl.

886* Bibliography and Method G 3
A course to acquaint graduate students with tools, problems, and methods of linguistic and literary research.

899 Research in French Language or Literature G Arr
Research for thesis and dissertation purposes only.

905 Botany and Zoology Building, 1735 Neil Avenue, 422-8684

140 Introduction to Genetics U 5
An introductory course emphasizing applied aspects of genetics primarily for students outside the College of Biological Sciences. Exam.

201 Perspectives in Human Heredity U 5
An introduction to the principles of genetics as they apply to humans; emphasis on topics of concern to individuals and society. Young.

294 Group Studies U 2-5
Group work in the field of the chosen program.

500 General Genetics U G 5
The principles of genetics, including molecular genetics, transmission genetics of prokaryotes and eukaryotes, developmental and non-chromosomal genetics, and the genetics of evolution of populations. Binkly, Falkenthal, and Scholt.

600 Genetics Laboratory U G 3
A laboratory approach to fundamental genetics; concepts and techniques involved in collection and analysis of data from exercises utilizing Drosophila, Mormoniella, Sordinia, and Neurospora. Emmen.

611 Molecular Genetics U G 5
Molecular mechanisms of DNA replication, mutation, recombination, and repair; analysis of gene structure; metabolic and genetic control mechanisms; procaryotic and eucaryotic systems are analyzed. Marzolf and Porthman.

631† The Cytological Basis of Genetics U G 5
Documentation of the correlation between genetic principles and chromosome behavior by studying the mitotic and meiotic cells of several organisms with oil immersion microscopy. Paddock.

632 Plant Genetics U G 5
Effects of lethals, linkage, heterogeneity, introgression, polydody, and cytoplasmic behavior with ameans, progeny tests, random number tables, and herbarium specimens. Scholl.

640 The Genetical Basis of Evolution U G 5
The modern theory of evolution and its underlying genetic basis. Griffing.

650 Analysis and Interpretation of Biological Data I U G 5
Methods of analyzing biological data including: sampling, descriptive statistics, distributions, group comparisons, statistical inference, one-way and nested analysis of variance and linear regression and correlation. Skavard.

Su, Au, Sp Qtrs. 1-2 hr lab, 4 cr (optional after first week). 3-5 hrs computer assisted instruction. Prereq: Math 150 or equiv. and 15 or hrs of courses at the 100 level or higher in a dept of the College of Agr and Home Ec or in the College of Biol Sciences. Not open to students with credit for Biology 650.
560* Computer Applications in Genetics U G S
Simulation techniques and applications of modern computer methodology to problems in genetics. Skavari.
WI Qtr. 4, d, 2-2 hr lab. Prereq: 506, 650, Computer II or completion of the computer assisted instruction course "fortis" or equiv with written permission of the instructor.

693 Individual Studies U 2-5 G 2-10
Individual work in the field of the chosen problems.
Su, Au, Wi, Su Qtrls. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs for undergrad credit and to a maximum of 35 cr hrs for grad credit. This course is graded S/U.
A—Molecular and Cellular Genetics. Birky, Dean, Falkenthal, Fuerst, Marzluff, and Perlman.
C—Developmental Genetics. Falkenthal.
E—Behavior Genetics. Rothenhuhler.

694 Group Studies U 2-5 G 2-10
Group work in the field of the chosen program. See areas in 693.
Su, Au, Wi, Sp Qtrls. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs for undergrad credit and to a maximum of 35 cr hrs for grad credit.

711* Molecular Evolution in Populations U G 5
Characteristics of protein and nucleic acid change during evolutionary process; consideration of population genetic theory and molecular data; use of molecular data for phylogenetic inference. Fuerst.
Sp Qtr. 3 1/2-hr pr. Prereq: 511 or 640; or 500, Biochem 511 and Zoology 420 or Botany 613.

720 Genetics and Biogenesis of Cells U G S
Basic concepts and current literature on the biogenesis of prokaryotic and eukaryotic organelles and the role of nonchromosomal information in organelar cellular, and organismal heredity. Birky and Perlman.
Wi Qtr. 5 cr. Prereq: Background in genetics, cell bio, and biochem, or permission of instructor.

Genetics of Animal Populations
See Anmi Sc 720, Dairy Sc 720, and Phylo Sc 720.

730* Cytogenetics U G 3 or 5
Origin, transmissibility, and effects of chromosomal aberrations; their usefulness in practical breeding and in attacks on fundamental cytogenetic problems. Paddock.
Sp Qtr. 3 cr, 2-2 hr labs. Prereq: 500 or 631 or Biology 630 and 631. Not open to students with credit for Biology 730.

783 Honors Course U 3-5
A program of reading and research for each student with individual conferences, reports, and honors thesis.
Su, Au, Wi, Sp Qtrls. Prereq: 4th yr standing with a grade of A in at least half of the courses in biological sciences and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA or BS with distinction in genetics. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

800 Genetic Seminar G 1-3
Faculty, graduate students, and outside speakers will participate. Bynk.
Au, Wi, Sp Qtrls. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

811 Advanced Topics in Molecular Genetics G 3
An examination of the current research in molecular genetics by selective reading assignments and critical analysis during class discussion periods. Marzluff, Perlman, and Johnson.
Au Qtr. 2 hrs. arr. Prereq: 611 or Biochem 611. Repeatable to a maximum of 6 cr hrs. Not open to students with credit for Biochem 811. Cross-listed in Biochemistry.

Current Topics in Animal Genetics
See Animi Sc 620, Dairy Sc 620, and Phylo Sc 620.

841* Quantitative Genetics and Selection Theory G 3
The genetic basis for complexly inherited, quantitative, biologic variables and the theory of truncation selection as it pertains to such variables. Grifining.
Sp Qtr. 3 cr. Prereq: 500 or equiv; Stat 520 and 521, or equiv, and permission of instructor. This course is graded S/U.

Behavior Genetics
See Zoology 640.

850 Theoretical and Experimental Population Genetics G 5
Discussion of mathematical theories in population genetics and experimental works on natural and laboratory populations. Young.
Wi Qtr. 5 cr. Prereq: 12 cr hrs of college-level math; 5 or hrs of applied or mathematical statistics; one course in general genetics. This course is graded S/U.

890 Interdepartmental Seminar in Molecular, Cellular, and Developmental Biology G 2
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology.
Au, Wi, Sp Qtrls. 1 2-hr cr. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Given cooperatively by Botany, Genetics, Microbiology, and Zoology. This course is graded S/U.

999 Research in Genetics G Arr
Research for thesis and dissertation purposes only.
Su, Au, Wi, Sp Qtrls. This course is graded S/U.

Geodetic Science

440 Cockins Hall, 1958 Neil Avenue, 432-6753

202 Surveying for Civil Engineers U 4
An introduction to surveying theory for engineering practice.
Au, Sp Qtrls. 3 cr, 1-3-hr lab. Prereq: Math 152. Not open to students with credit for Civil En 202. Cross-listed in Civil Engineering.

284 Group Studies U 2-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrls. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

535 Cartography I U G 4
An introduction to basic considerations in cartography with an emphasis on topographic mapping.
Au Qtr. 3 cr, 1-2-hr lab. Prereq: Math 152 and permission of instructor.

General Prerequisites for all 600-Level Courses
Prerequisites for all 600-level courses include Math 153 and Physics 153.

603 Remote Sensing U G 4
The energies of the natural and cultural environment, current remote sensing systems, and case histories of applications in measuring the environment.
Wi Qtr. 3 cr, 1-3-hr lab. Prereq: Survey 506 and equiv with permission of instructor. Not open to students with credit for Civil En 603. Cross-listed in Civil Engineering.

604 Terrain Analysis U G 4
Principles and applications of photo pattern analysis, geologic and geomorphologic patterns, terrain studies, and land use suitability and capability mapping.
Au Qtr. 3 cr, 1-3-hr lab. Prereq: Geol 60-61 and Survey 506. Not open to students with credit for Civil En 504. Cross-listed in Civil Engineering.
623 Introduction to Advanced Photogrammetry U G 5
Techniques, equipment, for mapping and point determination; concept, methods, results of block adjustment; image based maps; computer assisted and controlled data processing; terrestrial and space photogrammetry.
Au Qtr. 4 cl, 1 3-hr lab. Prereq: 651 and Surveying 506; or permission of instructor. Not open to students with credit for 628, 725, 726, 727.

628 Elements of Analytical Photogrammetry U G 4
Basic concept of analytical photogrammetry; resection; intersection; relative, absolute and simultaneous orientations of a stereo-pair; comparators; transfer devices; coordinate refinements.
Wi Qtr. 3 cl, 1 3-hr lab. Prereq: 650 and Surveying 506. Not open to students with credit for 633.

635 Cartography II U G 4
Advanced considerations in basic cartography with particular reference to integrated mapping at national and international levels and the special problems of air and sea charting.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 535 or equiv.

636 Mathematical Cartography U G 4
Common coordinate and reference systems; the principal map projections of the sphere; their properties and usage; introduction to cartometry.
Wi Qtr. 3 cl, 1 3-hr lab.

637 Introduction to Advanced Cartography U G 5
A survey of cartographic fundamentals in the context of contemporary developments.
Au Qtr. 4 cl, 1 3-hr lab. Prereq: 535 or equiv. with written permission of instructor. Not open for grad credit to students with credit for 635 or 725.

650 Adjustment Computations I U G 4
Classification of errors; measures of dispersion; variance; covariance; propagation of errors; weights; observation; condition and normal equations; examples.
Au Qtr. 3 cl, 1 3-hr lab.

651 Adjustment Computations II U G 4
A posteriori variances, representation of residuals; combination of observation and condition equations; generalized minimum variance solution for hybrid measuring systems; statistical tests; empirical fitting of polynomials.
Wi Qtr. 3 cl, 1 3-hr lab. Prereq: 650 or equiv.

658 Geometric Geodesy U G 4
Historical development; geometry of the reference ellipsoid; reductions and use of ellipsoid as a reference surface; organization of major geodetic control; introduction to advanced geometric geodesy problems.
Wi Qtr. 4 cl. Prereq: Survey 511 or equiv.

664 Geodetic Astronomy U G 4
Stellar coordinate systems; stellar positions and motions; time; star catalogues; principles of position determination.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 650 or equiv.

665 Observational Geodetic Astronomy U G 2
Instrumentation; timekeeping and dissemination; determination of astronomic latitude, longitude, and azimuth.
Sp Qtr. 1 cl, 1 3-hr lab. Prereq: 664 or equiv.

687 Field Work in Geodetic Astronomy U G 5
Su (2nd term) Qtr. 1 cl, 5 4-hr labs. Prereq: 664. This course is graded S/U.

693 Individual Studies U G 2-9
Assigned reading laboratory or field work, under the guidance of a staff member, arranged to meet the requirements of individual students.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies U G 2-9
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs.

725 Photogrammetric Triangulation U G 3
Concepts and procedures of triangulation; purpose and preparation; block adjustment with independent models and bundles; matrix structures; self-calibration; auxiliary data.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: 628 and 651. Not open to students with credit for 620 and 724.

726 Photogrammetric Mapping U G 4
Analog, semi-analogue, computer controlled data processing; analog, digital differential rectification; interactive photogrammetric mapping; photogrammetric mapping from space; data acquisition; data processing for terrestrial applications.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 628 or permission of instructor. Not open to students with credit for 725.

727 Analysis of Photogrammetric Positioning U G 3
Precision and reliability structures; data analysis; empirical accuracy tests; deformation measurements; critical surfaces.
Au Qtr. 2 cl, 1 3-hr lab. Prereq: 725 or permission of instructor.

735 Applied Cartography U G 4
Compilation, design, and reproduction in cartography with an emphasis on rationalization of operations and practical work.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 635 or equiv.

760 Advanced Geometric Geodesy U G 4
Solution of long line problems on the ellipsoid; datum transformations; determination of the size and shape of the reference ellipsoid; fundamentals of three-dimensional geodesy.
Au Qtr. 4 cl. Prereq for contour: 658, 776, and 777.

761* Mathematical Projections in Geodesy U G 5
Use of analytic functions; representation of the ellipsoid on a sphere; geometry of the projected geodesic; Mercator, Transverse Mercator, Oblique Mercator, Conformal Conic projections.
Sp Qtr. 4 cl, 1 3-hr lab. Prereq: 636 or equiv.

762 Advanced Adjustment Computations U G 4
Analyses of mathematical models; systematic errors; correlations; inner adjustment; multivariate statistical analysis; generalized matrices in adjustment.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 651 or equiv.

776 Geodetic Geodesy U G 4
The gravity and its potential; the disturbing potential and its representation; applications and current methods.
Sp Qtr. 4 cl. Prereq: 651 and 658; or equiv.

777 Satellite Geodesy U G 4
Geometric and dynamic applications of artificial satellites in geodesy; determination of station positions and the gravity field of the earth.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 664 and 775; or equiv.

781* Advanced Geodetic Astronomy U G 3
Star catalogues and their relationships; time and latitude determinations in observatories; coordinated timekeeping and dissemination; eclipses and occultations; modern astronomical techniques.
Wi Qtr. 3 cl. Prereq: 664.

828 Advanced Photogrammetric Applications U G 4
Design, apply, and analyze advanced analytical photogrammetric techniques to a variety of measurement tasks.
Wi Qtr. 2 cl, 2 3-hr labs. Prereq: 727 or permission of instructor.
835 Advanced Cartography U G 4
A review of current research, development, and thinking in cartography with particular attention to automation, photomapping, and orbital cartography.
Wi Qtr. 3 cr. 1 3-hr lab. Prereq: 735 or permission of instructor.

871 Advanced Geodetic Geodesy G 4
Boundary-value problem; use of spherical harmonics; statistical application; appropriate representations; computations in space; combination of gravimetric and satellite data; interpretation of the gravity field.
Wi Qtr. 4 cr. Prereq: 762 and 777; or equiv.

873 Advanced Satellite Geodesy G 4
Dynamics of earth orbiting satellites; equations of motion and their solutions; advanced data acquisition methods; analysis for the gravity field and station positions.
Wi Qtr. 3 cr. 1 3-hr lab. Prereq: 762 and 777; or equiv.

885 Research Principles and Techniques G 2-8
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

887 Seminar G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs.

894 Group Studies U G 2-9
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 30 or hrs.

899 Interdepartmental Seminar G 1-5
Topics to be announced each quarter offered.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs.

998 Research in Geodetic Science: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. This course is graded S/U.

999 Research in Geodetic Science: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Geography
163 Boicier Hall, 190 North Oval Mall, 422-2514

200 World Regional Geography U G 5
An examination of the human and physical geographic structure of all world regions; defined primarily at the continental scale and classified by their level of development.
Su, Au, Wi, Sp Qtrs. 5 cr. H200 (honors) may be available to students enrolled in an honors program or those approved by the UWC or ASC Honors Offices. BER/LAC/LAR course. SS Admis Cond course.

220 Introduction to Physical Geography U G 5
The elements and processes of the natural environment, their characteristics, distribution, and implications in the human habitat.
Su, Au, Wi, Sp Qtrs. 5 cr. H200 (honors) may be available to students enrolled in an honors program or those approved by permission of dept. BER/LAC/LAR course. SS Admis Cond course.

240 Economic and Social Geography U G 5
Introduction to geographic concepts and theories; their application to the location of human activity, urban trends, world population, and environmental issues.
Su, Au, Wi, Sp Qtrs. 5 cr. H240 (honors) may be available to students enrolled in an honors program; others with permission of dept. BER/LAC/LAR course. SS Admis Cond course.

294 Group Studies U G 3-5
Students are given the opportunity to pursue special studies not otherwise offered.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 cr hrs.

400 Geography of United States and Canada U G 3
A geographical analysis of the United States and Canada; the correlation of their natural resources and other environmental factors with their economic and cultural development.
Au, Wi, Sp Qtrs. 3 cr. Prereq: Either 200, 220, 240 or equiv. BER course.

401 Geography of Ohio U G 3
An appraisal of geographic factors in the development of Ohio's natural resources, agriculture, manufacturing, and commerce; historical development of the major economic factors.
Sp Qtr. 3 cr. Prereq: Either 200, 220, 240, or equiv.

450 World Urbanization U G 5
A consideration of the economic aspects of the urbanization process in the world's major regions; relationships between urbanization and economic development.
Sp Qtr. 2-3 cr. Prereq: History 111 and 112, or 131 and 132, or 151 and 152; and 5 cr hrs in social sciences.

505 Geography of Latin America U G 4
Geographic study of Latin America; emphasis on the characteristics of the resource base, cultural characteristics, and the effects of economic development.
Au, Wi, Sp Qtrs. 3 cr. Prereq: Either 200, 220, 240, or equiv, or permission of instructor. Not open to students with credit for 405.

505.01 Middle America
Au Qtr.
Not open to students with credit for 505.01.

505.02 South America
Wi, Qtr.
Not open to students with credit for 505.02.

508 Geography of Africa U G 4
An examination of the African environment and the development of cultures and economic life; impact of alien culture in Africa; Islamic and western influences in creating geographic regions.
Wi Qtr. 3 cr. Prereq: Either 200, 220, 240, or equiv, or permission of instructor. Not open to students with credit for 408.

510 Geography of Western Europe U G 4
Geographic factors in the economic, social, and political development of nations of Western Europe; major problems of the area in the light of their geographic background.
Sp Qtr. 3 cr. Prereq: Either 200, 220, 240, or equiv, or permission of instructor. Not open to students with credit for 410.

511 Geography of Eastern Europe U G 4
Resources, their assessment, and development; related problems in Eastern Europe; the geographic significance of each state to the Communist bloc and to the West.
Wi Qtr. 3 cr. Prereq: Either 200, 220, 240 or equiv, or permission of instructor. Not open to students with credit for 411.

512 Geography of the Soviet Union U G 4
The major regional divisions of the Soviet Union; the resource base in relation to the economic and political aims of the Soviet State.
Au Qtr. 3 cr. Prereq: Either 200, 220, 240 or equiv, or permission of instructor. Not open to students with credit for 412.

515 Geography of China U G 5
A geographic analysis of China; emphasizing the interrelationships between environmental factors, cultural characteristics, and regional development.
Au Qtr. 4 cr; arr time for project. Prereq: 200 or 220 or 240 or equiv or permission of instructor.
520 Climatology U G 5
The elements and the controls of climate; types of climate and their distribution; climates and their effects on the economic and other activities of man.
Au, Wi Qtr. 5 cl.

530 Conservation of Natural Resources U G 4
Philosophy of resource use; appraisal of resource base; costs of resource development and conservation; resource perception, utilization and alternatives.
Au, Wi Qtr. 2 cl.

560 Political Geography U G 4
Examination of contemporary problems in the political geography of public cost and benefit at international, interregional and urban scales.
Au Qtr. 3 cl. Prereq: Permission of instructor. (208) (209) (210) course.

580 Elements of Cartography U G 5
A study of the cartographic techniques of map compilation and presentation including generalization, symbolization, reproduction, and simple computer mapping.
Au, Sp Qtr. 2 cl, 2 hrs. lab.

605 Special Problems in the Geography of Latin America U G 5
The analysis of selected topical problems in Latin American geography; typical problem areas are urbanization, industrialization, transportation, agricultural development, and regional development.
3 cl. Prereq: 500 or permission of instructor. Repeatable to a maximum of 10 cr. hrs.

612 Special Problems in the Geography of the U.S.S.R. U G 5
Spatial analysis of selected topical problems in Soviet geography.
4 cl. Prereq: 512 or permission of instructor. Repeatable to a maximum of 10 cr. hrs.

622 Microclimatology U G 5
622.01 Microclimatology and Radiation
Climatology Theory
Theory of exchanges of energy and mass at the earth-atmosphere interface as it relates to microclimates with particular emphasis upon radiation and climate.
Wi Qtr. 5 cl. Prereq: 500 or permission of instructor and elementary differential and integral calculus. Not open to students with or for 620.

622.02 Microclimatological Measurements
Practical experience in the fabrication of instruments, deployment of measurement systems in the field and recording of data related to microclimates.
Sp Qtr. 3 cl. 3 hrs. lab. Prereq: 622.01.

623 Applied Climatology: Synoptic Analysis and Forecasting U G 5
Theory and practice in synoptic weather analysis and forecasting.
Wi Qtr. 5 cl. Prereq: 520 or Physics 503.

640 Location of Manufacturing U G 5
Industrial location theory and its application to spatial patterns of manufacturing and to problems of industrial development.
Au Qtr. 3 cl. Prereq: Permission of instructor.

642 Geography of Development U G 5
Spatial aspects of economic development; spatial analysis of traditional economics, industrial regions, transport linkages, and migration patterns in developing countries.
Wi Qtr. 3 cl. Prereq: Permission of instructor.

645 Geography of Transportation U G 5
Relation between transportation and spatial organization; selected analytical models dealing with traffic demand, network configuration and allocation of transport facilities; application to selected problems.
Wi Qtr. 4 cl.

647 Locational Analysis U G 5
Historical review of major location theories and evaluation of application of such theories to geographic problems.
Wi Qtr. 3 cl. Prereq: Permission of instructor.

650 Urban Geography U G 5
Origin and growth of cities; structure and function of urban centers, their area expansion, and interstate center relations; each examined in relation to city planning.
Au, Wi, Sp Qtr. 3 cl. Prereq: Permission of instructor.

660 Urban Political Geography U G 5
Urban political geography; the spatially differentiation role of property markets and policy; the geographic context of public intervention at local and regional levels.
3 cl. Prereq: 560 or equiv and permission of instructor.

670 Population Geography U G 5
Analysis of population distributions, locational arrangements of growth, densities, and migration models; spatial relationships between population variables and social, economic, and environmental factors.
Wi Qtr. 3 cl. Prereq: 240.

Natural Resources Problems, Programs, and Policies
See Agr Econ 580.

680 Numerical Cartography U G 5
An examination of the theory and methods of machine-oriented numerical cartography.
Wi Qtr. 2 2 hrs. Prereq: 580 or equiv, Math 150 or equiv. Not open to students with credit for 681.

682 Individual Studies in Cartography U G 3-5
Individual study of cartographic subjects; map compilation, cartographic classification, regionalization, and multi-dimensional representation, computer mapping and real-time computer cartographies.
Au, Wi, Sp Qtr. Conf. and lab. Prereq: Permission of instructor. This course is graded S/U.

693 Individual Studies U G 1-15
Individual study of a special problem or of a particular region.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable with permission of instructor. This course is graded S/U.

894 Group Studies U G 3-5
Group study of special topics in various fields of geography.
Prereq. Permission of instructor. Repeatable to a maximum of 20 cr. hrs.

895 Undergraduate Seminar in Applied Geography U G 5
The practical application of theoretical geographical concepts to problems in the local area.
Sp Qtr. 2 2 hrs. Prereq: 20 cr. hrs in geog.

Introduction to National Security
See Nat Sec Pol 5 702.

740 Advanced Locational Analysis U G 5
Advanced problems in location analysis, application of programming techniques and spatial equilibrium analysis.
Sp Qtr. 3 cl. Prereq: 647 or permission of instructor.

780 Analytical Cartography
An examination of the theory and methods of analytical cartography.
2 2 hrs. Prereq: 680, 795 or equiv, Math 152 or equiv. Not open to students with credit for 683.
H783 Honors Course U 3-5
A program of individual study arranged for students enrolled in the honors program with individual conferences and reports; requires presentation and oral defense of an honors thesis. Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the geog courses taken and an average of at least B in the remainder; written permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr hrs. At least 2 crs are required of candidates for the degree BA with distinction in geog. Failure to receive a mark of S in this course is a disqualification for special honors. This course is graded S/U.

Research Principles and Techniques in National Security
See NSP Stud 785.

795 Seminar in Geography U G 5
Introduction to research procedures, problem formulation and application of research techniques in geography. Au, Wi, Sp Qtrs. 2-2 hr cl. Repeatable to a maximum of 20 cr hrs.

800 Seminars in Regional Geography G 3-5
The development of theory in regional development and its application to selected problems. Each decimal subdivision repeatable to a maximum of 20 cr hrs.

800.01 Theory of Regional Development
Wi Qtr. 2 cr.

800.02 Problems in Regional Development
Sp Qtr. 2 cr.

Seminar in National Security Research
See NSP Stud 801.

820 Seminars in Physical Geography G 3-5
Au, Wi, Sp Qtrs. 2 cr. Each decimal subdivision repeatable to a maximum of 20 cr hrs.

820.01 Problems in Climatology
820.03 Special Problems

821 Dynamic Climatology G 5
Dynamics, thermodynamics, energy conservation, flows, conversion processes; large scale circulation patterns with particular emphasis upon turbulence at the synoptic scale; weather processes, and regional climates. Wi Qtr. 2-2 hr cl. Prereq: 620 or 622.01 or permission of instructor.

822 Microclimatology G 5
Radiation and turbulence processes, condensation; variation in wind, temperature, humidity, soil moisture, evaporation, soil temperature; influence of vegetation and artificial structures. Sp Qtr. 2-2 hr cl. Prereq: 620 or 622.01 or permission of instructor.

823 Applied Climatology G 5
Effects of climate upon plants and animals (ecoclimatology), upon industrial processes and structures, and upon landforms; forecasting; climate modification. Sp Qtr. 2-2 hr cl. Prereq: 620 or 622.01 or permission of instructor.

830 Theory of Resource Analysis G 3-5
The development of theory in resource analysis and its application to selected problems. Au, Wi, Sp Qtrs. Repeatable to a maximum of 30 or hrs, including or hrs in 830.02.

840 Seminars in Location Analysis G 3-5
The development of theory in location analysis and its application to selected problems. Au, Wi, Sp Qtrs. 2 cr. Each decimal subdivision repeatable to a maximum of 20 cr hrs.

840.01 Location Theory
840.02 Problems

845 Seminars in Transportation Geography G 3-5
The development of theory in transportation geography and its application to selected problems. Au, Wi, Sp Qtrs. Each decimal subdivision repeatable to a maximum of 30 cr hrs.

845.01 Theory of Transportation Geography
845.02 Problems in Transportation Geography

850 Seminars in Urban Geography G 3-5
The development of theory in urban geography and its application to selected problems. Au, Wi, Sp Qtrs. 2 cr. Each decimal subdivision repeatable to a maximum of 10 cr hrs.

850.01 Spatial Organization of the City
Intra-urban analysis, density and land value gradients, residential differentiation, neighborhood and community, and the urban development process.

850.02 Urban Systems Analysis
Inter-urban analysis, theory of the evolution of urban systems, structural characteristics of sets of cities, recent processes of change, notably deconcentration.

850.03 Third World Urbanization
Examination of role of cities in development processes and their characteristics, historical evolution, related policies, and other aspects such as migration, innovation diffusion, and labor markets.

Repeatable to a maximum of 10 cr hrs.

860 Seminars in Political Geography G 3-5
The development of theory in political geography and its application to selected problems. Sp Qtr. Prereq: 660 or permission of instructor. Each decimal subdivision repeatable to a maximum of 30 cr hrs.

860.01 Theory of Political Geography
860.02 Problems in Political Geography

870 Seminars in Population and Social Geography G 3-5
The development of theory in population and social geography and its application to selected problems. Au, Wi, Sp Qtrs. Each decimal subdivision repeatable to a maximum of 30 cr hrs.

870.01 Theory of Population and Social Geography
870.02 Problems in Population and Social Geography

880 Seminars in Cartography G 3-5
Readings and research in cartography. Au Qtr. Repeatable to a maximum of 20 or hrs.

882 Development of Geographic Thought G 4
The evolution of concepts concerning the nature, scope, and methodology of geography; present focus and trends as reflected in current literature. Au Qtr. 3 cr.

883 Application of Quantitative Methods in Geography G 4
Application of quantitative methods to geographic problems; spatial statistics, area sampling, maps of residuals, regionalization methods, and simulation maps. Au, Wi Qtrs. 2 cl. 2 lab hrs. Prereq: Course in introductory stat and permission of instructor. To be taken in sequence:

883.01 Applications I
883.02 Applications II

889 Seminars in Geography G 1-5
Au, Wi, Sp Qtrs. Repeatable to a maximum of 20 cr hrs. Topics to be announced each quarter. This course is graded S/U.

Atmospheric Sciences Seminar
See Atmospheric Sciences 881.
Geology and Mineralogy

107 Mendenhall Laboratory, 125 South Oval Mall, 422-3751

100 Introduction to Geology U 5
An introduction to geology for non-science majors; the earth and how it changes through time; various themes and approaches are used.
Su, Au, Wi, Sp Qtrs. (Not all decimal subdivisions offered every qtr and only one may be taken for credit.) Not open to students with credit for 101, 102, 121 or 122. BER/LAC/LAR courses. NS Admins Cond course.

100.01 General Geology
Geologic principles and processes and the historical development of the earth and its life forms.
4 cr. 1 lab hr ar. 1 half-day field trip. This course is available for EM credit.

100.02 The Changing Earth
Principles and processes of geology learned by working on projects in small groups.
5 cr.

100.03 Face of the Earth
Emphasis on earth surface features; landslides, streams, glaciers, coasts, deserts, and mountains. White.
5 cr. field trips.

100.20 New Approaches to General Geology
An introduction to general geology through contemporary topics.

106 Geology of the Ocean U 5
Introduction to origin, history, and principal features of world’s oceans, including composition of seawater, marine circulation systems, sea/land interface, and resources.
Au, Wi Qtrs. 5 cr. Not open to students with credit for 100.20 Au Qtr 1981 or Sp Qtr 1982. NS Admins Cond course.

121 Physical Geology U 5
Minerals and rocks and their origin; land forms and how they are produced; structural features of the earth's crust.
Au, Wi, Sp Qtrs. 4 cr. 1 2-hr lab. H121 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: Math 102 or Math Placement Level R. Recommended first course in geology for science majors. Not open to students with credit for 101. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

122 Historical Geology U 5
The history of the earth and its inhabitants through geologic time.
Au, Wi, Sp Qtrs. 4 cr. 1 2-hr lab. H122 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 121. Recommended second course in geology for science majors. Not open to students with credit for 102. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

201 Introduction to Paleontology U 5
An introduction to animal and plant groups significant in the geologic record. Bengston and Sweet.
Au, Sp Qtrs. 4 cr, 1 2-hr lab ar. Prereq: 122 and 10 or 12 cr hrs in biological sciences.

203 Geology and the Environment U 5
Application of basic geologic knowledge to problems resulting from man’s use of the earth and its resources. Corbato, Minkelwee, and Ugard.
Au, Wi, Sp Qtrs. 4 cr, 1 2-hr lab. Prereq: 100 or 121. Not open to students with credit for 103. BER/LAC/LAR course. NS Admins Cond course.

204 Water Resources U 5
Occurrence, movement and behavior of water in the hydrologic cycle with reference to scientific and technological problems relating to water-resources development and conservation.
Wi Qtr 5 cr. Prereq: 121. BER/LAC/LAR course. NS Admins Cond course.

206 Physical Oceanography and Marine Geology U 5
The origin, development, and structure of ocean basins and their contents; contemporary oceanic processes of geologic significance. Krilis.
Sp Qtr 4 cr, 1 2-hr lab. Prereq: 100 or 106. BER/LAC/LAR course. NS Admins Cond course.

210 Energy, Mineral Resources, and Man U 5
Geological origin, world distribution, and uses of mineral resources critical to man; topics include mineral and fossil fuels, metallic ores, and industrial minerals. Pride and Ugard.
Wi Qtr 5 cr. Prereq: 100 or 121. Not open to students with credit for 264. Wi Qtr 1982. NS Admins Cond course.

212 Common Minerals and Rocks U 3
A study of the common minerals and rocks, their associations, occurrences, identifying properties, and origin. Moore.
Wi Qtr 3 2-hr labs. Prereq: 121 and Chem 121. Not open to students with credit for 223. BER/LAC/LAR course.

214 Principles of Mineralogy U 5
An introductory course, emphasizing principles and illustrating the internal structure of solids and relationship of structure and chemical composition to properties, applications, and external features. Tettenhorst.
Au Qtr 3 cr, 2 2-hr labs. Prereq: Chem 122, Math 117 or 150. Not open to students with credit for 221.

221 Elementary Mineralogy and Crystallography U 5
Crystal systems, symmetry, common forms and cleavage of crystals; chemical bonding and mineral structures; selected phase diagrams; sight identification of about 80 common minerals using physical and chemical properties. Tettenhorst.
Au, Wi Qtrs. 3 cr, 2 2-hr labs. Prereq: Chem 122. Not open to students with credit for 214.

222 Elementary Optical Mineralogy U 5
Elements of optical mineralogy; mineral properties in plane and cross-polarized light; mineral identification in powders and thin-sections; X-ray diffraction in mineral identification and mineral-mixture analysis. Ehlers.
Wi, Sp Qtrs. 3 cr, 2 2-hr labs. Prereq: 221.

223 Elementary Petrology U 5
Origin, occurrence, association, and mineral composition of the common rocks; laboratory includes work by megascopic and microscopic methods.
Au, Sp Qtrs. 2 cr, 3 2-hr labs. Prereq: 121 and 222. Not open to students with credit for 211.

225 Quantitative Methods in Geology U 3
Introduction to quantitative methods and techniques, both graphic and mathematical, and their application in the analysis of geologic data. Corbato and Tettenhorst.
Au, Sp Qtrs. 2 cr, 1 2-hr lab. Prereq: 121, prereq or concur: 122 and Math 151, or permission of instructor.
293 Individual Studies U 1-3
Special problems in geology and mineralogy.
Su, Au, Wi, Sp Qtrns. Prereq: Permission of instructor.
Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

294 Group Studies U 1-5
Group study of special topics in various fields of geology and mineralogy.
Su, Au, Wi, Sp Qtrns. Prereq: Permission of instructor. 
Repeatable to a maximum of 15 cr hrs.

502 Stratigraphy and Sedimentation U G 5
Principles of, and procedures in, stratigraphy and sedimentation, illustrated by field and laboratory studies of sedimentary rocks. Blodgett, Collinson, and Krissek.
Au, Sp Qtrns. 4 cl, 1 2-hr lab, and weekend field trips. Prereq: 201 and 223.

530 Structural Geology U G 5
A study of the principal kinds of geologic structures and their interpretation.
Wi Qtr. 4 cl, 1 2-hr lab. Prereq: 225 and Physics 132.

550 Geomorphology U G 5
Detailed study of processes that shape the land surface and the forms produced under diverse climates. McKenize.
Au, Sp Qtrns. 4 cl, 1 2-hr lab, field trips. Prereq: 121, 122, and Chem 122; or permission of instructor.

570 Senior Thesis U G 1
The preparation of a report of professional quality, based on a research project.
Su, Au, Wi, Sp Qtrns. Prereq: Sr standing in geol and permission of instructor. To be taken during the qtr the student intends to hand in the thesis.

580* Field Work and Laboratory Work in Earth Science U G 5
Essentials of field and laboratory observation, mapping and data accumulation in the solution of earth-science problems. Mayer and Utgard.
Su Qtr. Prereq: 30 hr hrs in geo, min, geol, astron or meteor, with a minimum of 15 qtr hrs in geol/min, Ed: Soc&Ma 551 and permission of instructor. Geol Min 201, 212, and 550 recommended. Repeatable to a maximum of 10 cr hrs. May not be used to satisfy BS degree requirements in geology.

581 Field Geology I U G 5
Concentrated training in the basic essentials of field observation and mapping; the work is done in central Utah, with headquarters in Ephraim. Collinson, Corbato, Nolthuis, Tettenhorst, and Utgard.
Su (1st term) Qtr. Requires full time of student. Prereq: 223, 225, and permission of instructor, 530 recommended.

582 Field Geology II U G 4
Variation of 581.
Su (2nd term) Qtr. Requires full time of student. Prereq: 581.

583* Field Geology for Science Teachers U G 3
Application of geological principles in the field; interpretation of earth features observable on a traverse crossing the Appalachian Mountain system. McKenize and Utgard.
Sp Qtr. 5-day period during recess between Wi and Sp; pre-trip meeting and post-trip report. Prereq: 100 or equiv and permission of instructor. Intended primarily for in-service teachers. May not be used to satisfy BS degree requirements in geology.

600 Sedimentation and Sedimentary Rocks U G 5
Source, dispersal, and accumulation of sediments; the interpretation of the environmental distribution of sedimentary rocks. Krissek.
Au Qtr. 2 2-hr cl, 1 3-hr lab arr. Prereq: 502.

601 Sedimentary Petrology U G 5
Identification and interpretation of sedimentary rocks based on mineralogic and textural study of thin sections and hand specimens. Blodgett and Collinson.
Prereq: 600 or permission of instructor.

601.01 Sedimentary Petrology of Sandstones
Sp Qtrn. 3 cl, 2 2-hr labs.

601.02 Sedimentary Petrology of Carbonate Rocks and Shales
Wi Qtr. 3 cl, 2 2-hr labs.

603 Stratigraphy U G 5
Advanced study of the principles and procedures of stratigraphic nomenclature, subdivision, correlation, and interpretation, with examples from the international stratigraphic record. Bergstrom and Sweet.
Wi Qtr. 3 cl, 2 2-hr labs. Prereq: 502.

614 Paleobiology U G 5
Advanced consideration of the preservation, morphology, development, interrelations, and paleoecologic significance of fossil animals and plants. Bergstrom and Sweet.
Au, Wi Qtrns. 2 cl, 3 2-hr labs. Prereq: 201 or 502. Repeatable to a maximum of 10 cr hrs.

616 Advanced Physical Geology U G 5
Review of physical geology at an advanced level, including geophysics, structural geology, geochemistry, isotope geology, tectonics and geomorphology. Nolthuis and Williams.
Au Qtr. 5 cl. Prereq: 530 and 550 or permission of instructor.

617 Petrology U G 5
Major rock-forming processes; hand specimen and microscopie examination, distribution, and tectonic significance of igneous, sedimentary, and metamorphic rocks. Blodgett, Ehlers, and Elliott.
Wi Qtr. 3 cl, 2 2-hr labs. Prereq: 223 or 523 or equiv with permission of instructor.

618 Advanced Historical Geology U G 5
Principles of historical analysis, with emphasis on the geologic history of North America in the Paleozoic, Mesozoic, and Cenozoic eras. Colliison, Krissek, and Sweet.
Sp Qtrn. 3 cl, 2 2-hr labs. Prereq: 502 or equiv.

620 Introduction to Isotope Geology U G 5
Theory of natural isotope abundance variations and applications to problems in the earth sciences. Folkland.
Au Qtr. 5 cl. Prereq: Sr standing in geol or related fields.

621 Introduction to Geochemistry U G 5
Applications of the laws of mass action and chemical thermodynamics to mineral equilibria of geological and geochemical interest. Faure.
Wi Qtr. 5 cl. Prereq: Sr standing in geol or related fields; Chem 120 or permission of instructor.

622* Applied Geochemistry U G 5
Geochernical applications to geology including oxidation-reduction reactions, chemical equilibria in the ocean, and geochemical prospecting. Faure.
Sp Qtr. 5 cl. Prereq: 621.

623 Microscopic Mineralogy U G 5
Theory and use of polarizing microscope; determination of optical constants and identity of minerals.
Au Qtr. 2 cl, 3 2-hr labs. Prereq: 214 or 222, and Physics 112 or equiv.

624* Microscopy of Opaque Minerals U G 3
Application of the petrographic microscope to the study of opaque minerals and ores, their identification, textures, and petrogenetic-geologic preparation, etch tests, and micro-geochemical tests. Pride.
Au Qtr. 3 2-hr labs. Prereq: 623 or equiv.
625 Igneous Petrology U G 5
Petrography, petrogenesis, and occurrence of igneous rocks, with special emphasis on phase equilibria; macroscopic and microscopic examination of igneous and petrographic suites in the laboratory. Eff: Sp Qtr. 3 d, 2-2-hr labs. Prereq: 223 and permission of instructor, or 623.

Paleobotany
See Botany 626. Offered in cooperation with Geology and Mineralogy.

626 Metamorphic Petrology U G 5
Petrography, petrogenesis, and occurrence of metamorphic rocks; macroscopic and microscopic examination of metamorphic rocks and selected petrographic suites in the laboratory. Eff: Eff: Wi Qtr. 3 d, 2-2-hr labs. Prereq: 223 and permission of instructor, or 623.

Pahynology
See Botany 626. Offered in cooperation with Geology and Mineralogy.

637 X-Ray Diffraction U G 3
Emphasis on diffraction by crystalline powders; factors affecting the position and intensity of diffraction maxima; applications include qualitative and quantitative analysis. Eff: Teteraers. Wi Qtr. 2 d, 1-2-hr lab. Prereq: 214 and Math 153.

639 Clay Mineralogy U G 3
Relationship of structures and chemical composition of clay minerals to properties, origin, occurrence, and applications; evaluating X-ray, differential thermal, infrared, and electron microscopy data. Eff: Teteraers. Sp Qtr. 3 d. Prereq: 637 or permission of instructor.

640 Fundamentals of Geophysics U G 5

643 Geophysics Gravimetry U G 3
Analytical treatment of concepts and methods of gravimetry; introductory theory of the gravitational potential; geological interpretation of gravity data. Eff: Noltner. Wi Qtr. 3 d. Prereq: 4th yr standing in geod sci, physics, geol, civil eng and 100 or 121.

645 Advanced Structural Geology U G 5
Rock mechanics, mechanisms of deformation, geotectonics, and structural analysis; solution of structural problems. Eff: Corbatto. Sp Qtr. 4 d, 1-2-hr lab. Prereq: 590.

650 Glacial and Pleistocene Geology U G 5
The features produced by glaciers, present and past, and the history of glaciation during the Pleistocene, Williarns. Sp Qtr. 5 d, field trips. Prereq: 590.

651 Hydrogeology U G 5
Geologic and hydrologic factors controlling the occurrence and behavior of ground water. Eff: Sp Qtr. 5 d, 2 all-day field trips. Prereq: 590 or 231; standing in geol, or 4th yr standing in engr and 121; or 121 and 204.

660 Geology of Mineral Deposits U G 5

660.01 Geology of Metallic Deposits
The occurrence, origin, distribution, properties, and uses of the metallic minerals. Eff: Au Qtr. 4 d, 1-2-hr lab. Prereq: 223.

660.02 Geology of Nonmetallic Mineral Deposits
The occurrence, origin, distribution, properties, and uses of the nonmetallic minerals. Eff: Wi Qtr. 4 d, 1-2-hr lab. Prereq: 223.

661 Petroleum Geology U G 5
A study of the principles of petroleum geology. Eff: Sp Qtr. 2 d, 2-2-hr labs. Prereq: 502 and 530.

670 General and Economic Geology of Selected Areas U G 5
Concentrated field study of the stratigraphy, structural geology, tectonics, petrology, and geomorphology of a selected region, with special attention to the economic utilization of earth materials. Eff: Elliott, Phee, Sweet, and Utsadd. Au Qtr., 10-day field trip preceded Au Qtr. Post-trip readings and report. Prereq: 502, 520 and 550, or permission of instructor. Repeatable to a maximum of 15 or hrs.

675 Use of the Scanning Electron Microscope U G 1
Instruction in the use of the scanning electron microscope. Eff: Sweet. Au, Sp Qtr. lab, arr. Prereq: Written permission of instructor. This course is graded S/U.

681 Geophysical Exploration: Gravity and Magnetics U G 3
Gravity and magnetic exploration principles applied to subsurface investigations; field exercises involve computer processing of data collected using professional instruments. Eff: Sp Qtr. 2 d, 1-2-hr lab. Prereq: Math 153 and Physics 133, or permission of instructor.

682 Geophysical Exploration: Seismic Methods U G 3
Seismic reflection and exploration principles applied to subsurface investigations; field exercises involve computer processing of data collected using professional instruments. Eff: Au Qtr. 2 d, 1-2-hr lab, field trip. Prereq: Math 153 and Physics 133, or permission of instructor.

683 Geophysical Exploration: Electrical Methods U G 3
Resistivity, self-potential, telluric, magneto-telluric and induced polarization exploration principles applied to subsurface investigations; field exercises involve computer processing of data collected using professional instruments. Wi Qtr. 2 d, 1-2-hr lab, field trip. Prereq: Math 153 and Physics 133, or permission of instructor.

693 Individual Studies U G 1-5
Special problems in any branch of geology and mineralogy for which the student has the proper qualifications. Eff: Au, Wi, Sp Qtr. Prereq: Permission of Instructor. Repeatable to a maximum of 45 or hrs in any combination of decimal subdivisions. These courses are graded S/U.

693.01 Economic Geology
693.02 Engineering Geology
693.03 Extraterrestrial Studies
693.04 Field Geology
693.05 Geochemistry
693.06 Geomorphology
693.07 Geophysics
693.08 Glaciology and Glacial Geology
693.09 History of Geology and Mineralogy
693.10 Hydrogeology
693.11 Marine Geology, Limnology, and Oceanography
693.12 Paleontology
693.13 Petrology and Petrography
693.14 Photogeology
693.15 Sedimentation
693.16 Stratigraphy
693.17 Structural Geology
693.18 Earth Science Education
693.19 Unspecified
693.20 Thermochemical Mineralogy
693.21 Crystallochemical Mineralogy
693.22 X-Ray Mineralogy
693.23 Clay Mineralogy
693.24 Physical Properties of Crystals
625 Igneous Petrology U G 5
Petrography, petrogenesis, and occurrence of igneous rocks, with special emphasis on phase equilibria; microscopic and petrographic examination of igneous and petrographic suites in the laboratory. Elliot.
Sp Qtr. 3 cl, 2 2-hr labs. Prereq: 223 and permission of instructor, or 623.

Paleobotany
Geol. Botany 626. Offered in cooperation with Geology and Mineralogy.

626 Metamorphic Petrology U G 5
Petrography, petrogenesis, and occurrence of metamorphic rocks; microscopic and petrographic examination of metamorphic rocks and selected petrographic suites in the laboratory. Ehlers.
Wi Qtr. 3 cl, 2 2-hr labs. Prereq: 223 and permission of instructor, or 623.

Palynology
See Botany 626. Offered in cooperation with Geology and Mineralogy.

637 X-Ray Diffraction U G 3
Emphasis on diffraction by crystalline powders; factors affecting the position and intensity of diffraction maxima; applications include qualitative and quantitative analysis. Tetenhorst.
Wi Qtr. 2 cl, 1 3-hr lab. Prereq: 214 and Math 153.

639 Clay Mineralogy U G 3
Relationship of structures and chemical composition of clay minerals to properties, origin, occurrence, and applications; evaluating of X-ray, differential thermal, infrared, and electron microscope data. Tetenhorst.
Sp Qtr. 3 cl. Prereq: 637 or permission of instructor.

640 Fundamentals of Geophysics U G 5
Au Qtr. 4 cl, 1 2-hr lab. Prereq: 530.

643 Geophysics Gravimetry U G 3
Wi Qtr. 3 cl. Prereq: 4th yr standing in good sch. physics, geol., civil en and 100 or 121.

645 Advanced Structural Geology U G 5
Rock mechanics, mechanisms of deformation, geotectonics, and structural analysis; solution of structural problems. Cozato.
Sp Qtr. 4 cl, 1 2-hr lab. Prereq: 530.

650 Glacial and Pleistocene Geology U G 5
The features produced by glaciers, present and past, and the history of glaciation during the Pleistocene. Whittans.
Sp Qtr. 5 cl, field trips. Prereq: 550.

651 Hydrogeology U G 5
Geologic and hydrologic factors controlling the occurrence and behavior of ground water. Sp Qtr. 5 cl, 2 all-day field trips. Prereq: Sr standing in geol. or 4th yr standing in engr and 121, 121 and 204.

660 Geology of Mineral Deposits U G 5
660.01 Geology of Metallic Deposits
The occurrence, origin, distribution, properties, and uses of the metallic minerals. Price.
Au Qtr. 4 cl, 1 2-hr lab. Prereq: 223.

660.021 Geology of Nonmetallic Mineral Deposits
The occurrence, origin, distribution, properties, and uses of the nonmetallic minerals. Utgard.
Wi Qtr. 4 cl, 1 2-hr lab. Prereq: 223.

661 Petroleum Geology U G 5
A study of the principles of petroleum geology. Anderson.
Sp Qtr. 3 cl, 2 2-hr labs. Prereq: 502 and 536.

670 General and Economic Geology of Selected Areas U G 5
Concentrated field study of the stratigraphy, structural geology, tectonics, petrology, and geomorphology of a selected region, with special attention to the economic utilization of earth materials. Elliot, Pride, Sweet, and Utgard.
Au Qtr. 10-day field trip preceding Au Qtr. Post-trip readings and report. Prereq: 502, 530 and 550, or permission of instructor. Repeatable to a maximum of 15 cr hrs.

675 Use of the Scanning Electron Microscope U G 1
Instruction in the use of the scanning electron microscope. Sweet.
Au, Sp Qtr. Lab. arr. Prereq: Written permission of instructor. This course is graded S/U.

681 Geophysical Exploration: Gravity and Magnetics U G 3
Gravity and magnetic exploration principles applied to subsurface investigations; field exercises involve computer processing of data collected using professional instruments. Sp Qtr. 2 cl, 1 2-hr lab, field trip. Prereq: Math 153 and Physics 133, or permission of instructor.

682 Geophysical Exploration: Seismic Methods U G 3
Seismic refraction and reflection exploration principles applied to subsurface investigations; field exercises involve computer processing of data collected using professional instruments. Au Qtr. 2 cl, 1 2-hr lab, field trip. Prereq: Math 153 and Physics 133, or permission of instructor.

683 Geophysical Exploration: Electrical Methods U G 3
Resistivity, self-potential, telluric, magnetoellitic and induced polarization exploration principles applied to subsurface investigations; field exercises involve computer processing of data collected using professional instruments. Wi Qtr. 2 cl, 1 2-hr lab, field trip. Prereq: Math 153 and Physics 133, or permission of instructor.

693 Individual Studies U G 1-5
Special problems in any branch of geology and mineralogy for which the student has the proper qualifications. Au, Wi, Su. Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 45 or hrs in any combination of decimal subdivisions. These courses are graded S/U.

693.01 Economic Geology
693.02 Engineering Geology
693.03 Extraterrestrial Studies
693.04 Field Geology
693.05 Geochemistry
693.06 Geomorphology
693.07 Geophysics
693.08 Glaciology and Glacial Geology
693.09 History of Geology and Mineralogy
693.10 Hydrogeology
693.11 Marine Geology, Limnology, and Oceanography
693.12 Paleontology
693.13 Petrology and Petrography
693.14 Photogeology
693.15 Sedimentation
693.16 Stratigraphy
693.17 Structural Geology
693.18 Earth Science Education
693.19 Unscheduled
693.20 Thermochromatic Mineralogy
693.21 Crystalchemical Mineralogy
693.22 X-Ray Mineralogy
693.23 Clay Mineralogy
693.24 Physical Properties of Crystals
694 Group Studies U G 1-5
Group study of special topics in various fields of geology and mineralogy.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

H783 Honors Course U 3-5
A program of individual study arranged for students enrolled in the honors program, with individual conferences and reports; requires presentation and oral defense of an honors thesis.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the geol & min courses taken and an average of at least B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA or BS with distinction in geol. Failure to receive the mark of S in this course is a disqualification for departmental honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

900 Seminar in Stratigraphy G 3
Consideration of current and classical problems and procedures in biostratigraphic and lithostratigraphic analysis and synthesis. Bergstrom, Collinson, and Sweet.
Au, Wi Qtrs. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

801 Seminar in Sedimentation and Sedimentary Rocks G 3
Consideration of sedimentation, and the structures, petrography, depositional environments, and paleoecologic interpretation of sedimentary rocks. Collinson and Kinsley.
Sp, Wi Qtrs. Sp 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

810 Seminar in Paleobiology G 3
Advanced topics in paleoecologic and paleobotanic morphology, taxonomy, and procedure; current questions in biostratigraphy, paleoecology, and evolutionary development of fossil floras and faunas. Bergstrom, Sweet, and Webb.
Sp Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

821 Seminar in Isotope Geology and Geochemistry G 3
Discussion of selected topics in isotope geology, geochronology, geochemistry, and cosmochemistry. Faure and Foold.
Sp Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

822 Seminar in Petrology and Optical Mineralogy G 3
Selected topics in optical mineralogy and igneous, sedimentary, and metamorphic petrology. Elpers and Elliot.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs.

824 Seminar in Structural Mineralogy G 3
Selected topics in advanced mineral structures, clay mineralogy, crystal growth, and crystal physics. Tettrenhorst.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

840 Seminar in Geophysics and Structural Geology G 3
Selected topics in solid-earth geophysics, glaciology, tectonics, structural analysis, or continental and oceanic basin structure. Bull, Corbato, Notterman, and Von Frese.
Sp Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

850 Seminar in Geomorphology and Quaternary Geology G 3
Current and classical problems in geomorphology and Quaternary geology, such as desert and coastal geomorphology, submarine topography, periglacial and karst morphology, volcanology, and Quaternary geochronology. McKeeve, Whillans, and White.
Au, Wi Qtrs. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

851 Seminar in Hydrogeology and Oceanography G 3
Topics in hydrogeology and oceanography: such as groundwater hydrology and hydraulics, basin management, reef and stoll development, or paleo-oceanography. Kriske.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

860 Seminar in Mineral Deposits and Fossil Fuels G 3
Study of selected deposits of metallic minerals, industrial rocks, and minerals, or fossil fuels. Faure and Pride.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

874 Seminar in the History of Geology and Mineralogy G 3
Discussion of the development of geology and mineralogy, intended to give the student a firm basis for comprehension of the science as it exists today.
Sp Qtr. 3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.

888 Colloquium in Geology G 1
Discussion of current research in the geological sciences.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Grad standing in geology.
Repeatable to a maximum of 8 cr hrs. This course is graded S/U.

896 Interdepartmental Seminar in Polar and Alpine Studies G 1-3
See Interdepartmental Seminars.

999 Research in Geology and Mineralogy G Arr
Research for thesis and dissertation purposes only.
Au, Wi, Wi, Sp Qtrs. This course is graded S/U.

German

314 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-6965

Placement and Proficiency Examinations
In order to insure proper registration, placement tests are required of all students who continue their study of German in the dept after beginning their language in high school. Such tests are given during summer orientation and on the first day of instruction in each quarter. Consult the Humanities section of the Colleges of the Arts and Sciences bulletin for dept.

Excess Entrance Credits in German
Freshmen who have excess credits in a foreign language are eligible for examination for advanced standing. The examination is given at the same time as the placement tests mentioned above.

Students studying foreign languages at the elementary and intermediate levels typically take the sequence of courses numbered 101-102, 103-104 (including the decimal subdivisions such as 101.51, etc.) and then move on to advanced courses. Students who need to satisfy the Arts and Sciences foreign language requirement must demonstrate competence at the 104 level. The courses numbered 102.51-100.02 are for students: 1) who do not intend to take foreign language beyond the level of 100.02; 2) who do not expect to complete more than ten credit hours sequentially, 3) who prefer a slower-paced introduction (also available in 101.51, etc.). Students admitted with a foreign language condition should take the 101-102 sequence if they intend to continue in a language. Those who do not plan to take more than ten credit hours of foreign language study should take the 100.01-100.02 sequence.
100 Introduction to the Study of German U 5
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 101 or equivalency in high school or college. FL. Admis Cond courses.

100.01 Introduction to the Study of German I
Introductory German for students with no previous training in German: emphasis on reading, listening, and on study skills; part of a two-quarter sequence.

100.02 Introduction to the Study of German II
Continuation of 100.01.
Prereq: 100.01 or equiv or permission of instructor.

101 Elementary German I
Development of oral comprehension, speaking, reading, and writing skills.
Not open to students with credit for 100.01 or 100.02. FL. Admis Cond courses.

101.01 Classroom Track U 5
Su, Au, Wi, Sp Qtrs. 5 cl. Students must register for and complete five credit hours during the quarter. This course is available for EM credit.

101.51 Individualized Track U 1-5
Su, Au, Wi, Sp Qtrs. Students register for and complete from one to 5 hrs during the quarter. Students who complete 5 hrs before the end of the quarter may proceed to 102.51. Progress is sequential from one to the next, with proficiency at the level of 80% required for advancement. Not open to students with 5 or more hrs in 101.02.

102 Elementary German II
Development of oral comprehension, speaking, reading, and writing skills.
FL. Admis Cond courses.

102.01 Classroom Track U 5
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 100.02, or 101.01, or 5 or more hrs in 101.51 or 101.02. This course is available for EM credit.

102.51 Individualized Track U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: 100.02, or grade of B- or above in 101.01, or 5 or more hrs in 101.02 or 101.51, or permission of instructor. Students may register for 102.51 and 102.51 concurrently with permission of instructor. Students register for and complete from 1 to 5 hrs during the quarter. Progress is sequential from one to the next, with proficiency at the level of 80% required for advancement. Not open to students with 5 or more hrs in 102.02.

103 Intermediate German I
Reading: oral and written practice; grammar review; students may select from among the following subdivisions which emphasize specific skills and subject matter.
Su, Au, Wi, Sp Qtrs. (Not all decimal subdivisions offered every qtr.) 5 cl. Prereq: 102.01 or 5 or more hrs in 102.51 or 102.02 or 110 or equiv. This course is available for EM credit.

103.01 Basic U 5
Balanced use of the basic language skills: reading, aural comprehension, speaking, and writing.
Not open to students with credit for 103.

103.02 Conversation U 5
Emphasis on speaking and aural comprehension.
Not open to students with credit for 103.

103.03 Readings in the Humanities U 5
Emphasis on readings in German literature, cultural history, and contemporary life.
Not open to students with credit for 103.

103.05 Science U 5
Introductory readings in scientific German.
Not open to students with credit for 103 or 113.

103.06 German for Business and Travel U 5
Introduction to the language of business and travel; readings, translation, grammar practice and review, letter writing, conversation.
Not open to students with credit for 103 or 113.

103.51 Individualized Track U 1-5
Students register for and complete from one to five or more hrs during the qtr. Progress is sequential from one to the next with proficiency at the level of 80% required for advancement.
Su, Au, Wi, Sp Qtrs. Prereq: 102.01, or 5 or more hrs in 102.51, or 110 or equiv. Not open to students with credit for any decimal subdivision of 103.

104 Intermediate German II U 5
Reading: oral and written practice; vocabulary building; students may select from among the following subdivisions which emphasize specific skills and subject matter.
Su, Au, Wi, Sp Qtrs. (Not all decimal subdivisions offered every qtr.) 5 cl. Prereq: 103 or 112. This course is available for EM credit.

104.01 Basic U 5
Balanced use of the basic language skills: reading, aural comprehension, speaking, and writing.
Not open to students with credit for 104.

104.02 Conversation U 5
Emphasis on speaking and aural comprehension.
Not open to students with credit for 104.

104.03 Readings in the Humanities U 5
Emphasis on readings in German literature, cultural history, and contemporary life.
Not open to students with credit for 104.

104.05 Science U 5
Advanced readings in scientific German.
Not open to students with credit for 104 or 114.

104.06 German for Industry, Commerce, and Finance U 5
Exercises in the use of German in industry, commerce, and finance: reading, translation, advanced syntax, composition, conversation.
Not open to students with credit for 104 or 114.

104.51 Individualized Track U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: 103.01 or 5 or more hrs in 103.51. Not open to students with credit for any decimal subdivision of 104. Students register for and complete from 1 to 5 hrs during the qtr. Progress is sequential from one to the next with proficiency at the level of 80% required for advancement.

109 Elementary German Conversation U 3
Su, Wi, Sp Qtrs. 3 cl. Prereq: 102 or 110; also open to students with grade of A in 101. No audit.

110 Intensive Elementary German U 5, 10
Elementary German for students who wish to acquire the basic language skills in one quarter; equivalent to 101 and 102.
Wi, Sp Qtrs. 10 cl. Prereq: Permission of dept. Not open to students with credit for 102. Students with credit for 101 or the equiv may not register for more than 5 or more hrs.

112 Intensive German U 5, 10, 15
Elementary and intermediate German for students desiring comprehensive knowledge of German in the shortest possible time; students will devote their entire time to this course.
Su Qtr. Enrollment limited to 20 students. Prereq: Permission of dept. Full-time fees required regardless of number of cr hrs. Credit for 101 only will not count for any other course if they enroll in 112. Students with credit for 101 or 102 will enroll for 5 or more hrs. Students with credit for 101 only will enroll for 10 or more hrs. Students with no credit in German will enroll for 15 or more hrs. Regardless of cr hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr hrs. No audit. FL. Advanced Cond course.

162 Elementary-Intermediate German for Selected Students U 5
W Qtr. 5 cl. Prereq: Grade of A in 101.

163 Elementary-Intermediate German for Selected Students U 5
Continuation of 162.
Sp Qtr. 5 cl. Prereq: 162. Successful completion of the sequence 101-162 fulfills the Arts and Sciences foreign language requirement and provides eligibility for 200-level courses.

</table>
General Prerequisites for Courses Numbered 600
Unless otherwise indicated, the prerequisites for all 600-level courses are either 221 or 222, either 421 or 422, plus a minimum of 5 or hrs of 200, 204, 409, 410. Exceptions may be allowed by instructors for students with special qualifications.

605 Introduction to the Study of Language U G 3
Elements of linguistics with emphasis on the historical study of languages and on semantics: the position of Germanic in the Indo-European family of languages.
Sp Qtr. 3 cl.

606 Introduction to the Historical Study of German U G 3 or 5
The historical development of the German language; a short survey of the Germanic languages; internal and external influences on phonology, morphology, and vocabulary.
Sp Qtr. 3 or 4 cl.

611 Medieval German Literature U G 3 or 5
Survey of German literature from the 8th century to the end of the Middle Ages.
Au Qtr. 3 or 4 cl.

612 Literature of Humanism, Reformation, and Baroque U G 3 or 5
Survey of German literature from 1400 to 1700.
Wi Qtr. 3 or 4 cl.

621† The German Novelle U G 3 or 5
Reading and analysis of representative Novellen of the 18th and 20th centuries; Goethe, Kleist, von Aynm, Eichendorff, Stifter, Keller, and Thomas Mann.
Au Qtr. 3 or 4 cl.

622* The German Drama U G 3 or 5
Reading and analysis of dramas of the 18th through 20th centuries: Schiller, Kleist, Böckner, Brecht, and others.
Wi Qtr. 3 or 4 cl.

623† German Lyrics U G 3 or 5
Lyrics from 1200 to the present; study of Volkslied, ballad, sonnet; individual lyricists.
Sp Qtr. 3 or 4 cl.

630 Introduction to Stylistics U G 5
Composition of assigned topics, intensive translation, and comparative study of usage designed to develop a sophisticated expository style in the writing of German.
Au, Sp Qtrs. 4 cl. Prereq: 410, or 205 and written permission of instructor.

635 Practical German Pronunciation U G 5
Standard German pronunciation; oral and written drill.
Sp Qtr. 2 or 3 cl. Prereq: Permission of instructor.

650 Proseminar U G 5
Selected topics in German language, literature, and culture.
Su Qtr. 4 cl. Prereq: Permission of chairman. Repeatable to a maximum of 15 or hrs.

660 Masterpieces of German Literature U G 5
Selections from works of major German writers; topic varies each year.
Su Qtr. 4 cl. Prereq: Permission of chairman. Repeatable to a maximum of 15 or hrs.

693 Individual Studies U G 2-5
Investigation of minor problems in the various fields of German literature and philosophy.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies U G 2-15
Investigation of minor problems in the various fields of German literature and philosophy.
Sp Qtr. Prereq: Permission of chairman. Repeatable to a maximum of 30 or hrs.

General Prerequisites for Courses Numbered 700
Prerequisites for 700-level courses are grad standing, or 4th yr standing with 9 or hrs in German at the 600-level, and permission of chairman.

721* German Literature of the 18th Century U G 5
The literature of the Enlightenment and Storm and Stress; Lessing, Klopstock, Wieland, young Goethe, young Schiller.
Au Qtr. 4 cl.

722* German Classical Literature U G 5
722.01 Classical Literature I
The genesis of classicism and the emergence of classical aesthetics; Goethe, Schiller.
Wi Qtr. 4 cl.

722.02 Classical Literature II
The later development and significance of classicism; Schiller, late Goethe, Hölderlin, Kleist.
Sp Qtr. 4 cl.

723* Goethe’s Faust U G 5
History of the Faust legend from the 16th century to Goethe; reading and discussion of the play.
Wi Qtr. 4 cl.

724* German Romanticism U G 5
Ideas, themes, and creative achievements of the Romantic Age as reflected in such authors as Novalis, the Schlegels, Tieck, Brentano, Hoffmann, Eichendorff, Jean Paul.
Au Qtr. 4 cl.

725* German Literature of the 19th Century U G 5
Literary forces and trends from Goethe’s death to the founding of the German Reich (Gripperz, Buechner, Hebbel, Raimund, Moereke, Stifter, Keller, and Meyers).
Wi Qtr. 4 cl.

726* Modern German Literature, 1890-1933 U G 5
Main currents of German literature from Naturalism to the Third Reich; Hauptmann, Schwitzke, Mann, Rilke, George, Hofmannsthal, Kafka, Expressionism.
Sp Qtr. 4 cl.

727 Contemporary German Literature U G 3 or 5
Nazi and Opposition writing, exile literature, postwar German literature; Brecht, Dürrenmatt, Frisch, Grass, Boll, Johnson, Weils, Céline, Bobrowski, Hacks, Christa Wolf.
Au Qtr. 3 or 4 cl.

730 Advanced Stylistics U G 5
Stylistic analysis of German prose on an advanced level; compositions, reports, and discussion.
Wi Qtr. 4 cl. Prereq: Grade of A in 630, or permission of instructor.

777 Colloquium in German Literature U G 2-6
Selected topics, problems, and works in the various fields of German literature.
Su Qtr. Arr. Prereq: Permission of chairman. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

H783 Honors Course U G 3-5
Offers undergraduates with special aptitude a greater opportunity for independent study than is possible in the ordinary course.
Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the German courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 or hrs. This course is graded S/U.
792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtr.s. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of instructor.

General Prerequisites for Courses Numbered 800
Prerequisites for 800-level courses are graduate standing and permission of chairman.

800 Bibliography and Method G 5
The tools, problems, and methods of research in Germanics. Au Qtr. 2 2-hr cl. Required of all candidates for grad degrees.

801* Middle High German G 5
Middle High German texts; methods of textual criticism. Au Qtr. 4 cl.

802* Old Saxon and Old High German G 5
Readings from the Hellesp and selected Old High German texts.
Wi Qtr. 4 cl.

803* Gothic G 5
Gothic as a basis for the comparative study of the Germanic languages and historical German phonology and morphology; readings from the Bible. Sp Qtr. 4 cl.

806 History of the German Language G 5
Basic concepts of Historical linguistics; the major factors of change in the history of German from Proto-Germanic to the present.
Wi Qtr. 4 cl. Prereq: 801.

810 German Literary Criticism and Theory G 5
Historical overview and evaluation of critical methods; introduction to contemporary literary theories; the use-value of literary criticism.
Wi Qtr. 2 2-hr cl.

821* History of German Literature until 1700 G 5
Readings from the earliest period to the end of the 17th century.
Au Qtr. 2 2-hr cl.

822* History of German Literature until 1700 G 5
Continuation of 821.
Wi Qtr. 4 cl.

823* History of German Literature until 1700 G 5
Continuation of 821 and 822.
Sp Qtr. 4 cl.

840 College Teaching of German G 5
Methods and techniques for teaching German at the college level.
Au Qtr. 4 cl. Prereq: Permission of instructor. Intended for grad students in German. Not open to students with credit for 700.

860 Seminar in German Literature G 5
Selected topics from German Literature after 1500; problems of method and interpretation.
Au, Wi, Sp Qtr.s. 2 cl.

870 Seminar in German Linguistics G 5
Selected topics from medieval literature, word history, stylistics, and psychology of language.
Wi, Sp Qtr.s. 2 2-hr cl.

Medieval and Renaissance Culture
See Medieval 888.

Medieval and Renaissance Literature
See Medieval 889.

899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtr.s. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 or hrs.

993 Individual Studies G 1-5
With the approval of the department chairman, doctoral students may register for individual study in areas normally not covered by courses.
Su, Au, Wi, Sp Qtr.s. Prereq: Permission of chairman. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

996 Research in German: Thesis G Arr
Research for Master’s thesis.
Su, Au, Wi, Sp Qtr.s. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

999 Research in German: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtr.s. This course is graded S/U.

Graduate School

247 University Hall, 230 North Oval Mall, 422-6031

999 Research: Interdisciplinary G Arr
Research approved by Graduate School in one-of-a-kind programs.

Greek

History of painting and sculpture in America from colonial times to the end of the 19th century. Grosz. Sec.
Wi Qtr. 5 cl. Prereq: 212 or permission of instructor, and
English 110 or 111 or equiv. Fulfills in part the ASC advanced
English composition requirement.

638 Modern American Painting and Sculpture, 1900-1945 U G 5
American painting and sculpture from 1900 to 1945. Grosz. Sec.
Sp Qtr. 5 cl. Prereq: 212 or permission of instructor, and
English 110 or 111 or equiv. Fulfills in part the ASC advanced
English composition requirement.

640 Contemporary Art Since 1945 U G 5
Visual arts of Europe and the United States from 1945 to the present. Grosz. Sec.
Au Qtr. Prereq: 212 or permission of instructor.

645 Modern Russian Art U G 5
Russian art from the founding of the Imperial Academy (1767) through the avant-garde. Culture. Sec.
Wi Qtr. Prereq: 212 or permission of instructor.

650 Monasteries and Cathedrals in the Middle Ages U G 5
Major buildings of the early Christian, Byzantine, Carolingian, Romanesque, and Gothic periods. J. Morgan. Sec.
Au Qtr. 5 cl. Prereq: 210 or 211 or permission of instructor.

651 Romanesque and Gothic Portals U G 5
Development of church portals in medieval art with emphasis on the changing iconography of portal decoration. Wi Qtr. 5 cl. Prereq: 211 or permission of instructor.

652 Medieval and Renaissance Manuscript Illumination U G 5
A chronological survey of medieval and Renaissance illuminated manuscripts in the West. Met. Sec.
Sp Qtr. 5 cl. Prereq: 210 or 211 or permission of instructor.

661 Art and Archaeology of the Ancient Near East U G 5
A specialized study of the art and archaeology of the ancient Near East focusing on the cultures of the Mesopotamian valley and surrounding areas. Crane. Sec.
5 cl. Prereq: 210 or equiv with permission of instructor.

663 Islamic Art and Architecture U G 5
The art and architecture of Islam within cultural and historical settings emphasizing differences in regional developments, and unity provided by a common culture. Crane. Sec.
5 cl. Prereq: 210 or 215 or equiv with permission of instructor.

670 Buddhist Art: Theory and History U G 5
An analysis of Buddhism and its bearing on the art of India, Nepal, Tibet, China, and Japan. J. Huntington. Sec.
Au Qtr. 5 cl.

671 Art of India I U G 5
Art and architecture of India from prehistoric times through the Gupta period, ca. 500 A.D. stressing relationship to religious and cultural developments. Au Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

672 Art of India II U G 5
Art and architecture of India from the Gupta period, ca. 500 A.D. to the Muslim period stressing relationship to religious and cultural developments. S. Huntington. Wi Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

673 Art of Central Asia U G 5
An analysis of the cross currents of style and iconography that constitute the pre-Muslim art of Central Asia. J. Huntington. Wi Qtr. 5 cl.

674 Art of Nepal and Tibet U G 5
A study and analysis of the major aspects of style, iconography, and historical sequence as found in the arts of Nepal and Tibet. J. Huntington. Sp Qtr. 5 cl.

675 Art of India III U G 5
A survey of architecture and painting after the Muslim conquest with emphasis on interrelation of indigenous and foreign styles. S. Huntington. Sp Qtr. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

676 Hindu Iconography U G 5
A survey of Hindu iconography emphasizing the development and meaning of specific deities. S. Huntington. Wi Qtr. 5 cl.

677 Chinese Art U G 5
5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

677.01 Pre-Buddhist
Examination of archaeological finds in China, ca. 4000 B.C. to the beginning of the 10th century A.D.; emphasis on recent discoveries. J. Huntington. Au Qtr.

677.02 Buddhist
Examination of the Buddhist arts of China; emphasis on religious expression and content. J. Huntington. Wi Qtr.

678 Chinese Art: Painting U G 5
An analytical study of the traditional schools of Chinese painting with regard to style, format development, Chinese aesthetics and intellectual history. J. Huntington. Sp Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

Selected topics in the history of Japanese pictorial art and related subjects. J. Huntington. Sp Qtr. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

690 Selected Topics U G 5
Topics to be announced. Wi Qtr. Each decimal subdivision repeatable to a maximum of 15 or hrs.

690.01 Western Art

690.02 Asian and Non-Western Art

693 Individual Studies U G 2-5
Advanced study for students in specialized programs. Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Group studies for students in specialized programs. Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

698 Study Tour U G 3-15
Five weeks of intensive instruction in the art or architecture of a particular civilization, followed by five weeks travel and study in the relevant country(ies). Su, Au, Wi. Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs.
704 Studies in African Art and Archaeology U G 3-5
Studies in African art emphasizing problem identification, concept organization, literary research, and individual criticism. Credit and no credit. Credit only to a maximum of 15 cr. hrs.
Pre: Qtr. 3:5 cr. Prereq: 610 or 611 or permission of instructor.

710 Studies in Art Theory and Criticism U G 3-5
Investigations of the theories of art and their applications. Ludden. Sp Qtr. Not open to students with credit for 638. Repeatable to a maximum of 15 cr. hrs.

715 Research Methods in Art History U G 3
Investigations of source materials, bibliography, concepts, and techniques of research. Au Qtr. Prereq: 20 cr hrs in hist art.

717 Studies in Medieval Art U G 3-5
Selected problems in architecture, painting, sculpture, and the minor arts from the Early Christian through the Byzantine and Gothic periods. Ludden, Melnikas, A. Morganstern, and J. Morganstern. Wi Qtr. Prereq: 624 or 625 or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

718 Studies in Italian Renaissance Art U G 3-5
Selected problems in painting, sculpture, and architecture of Italy in the 14th, 15th, and 16th centuries. Melnikas and Richardson. Au, Wi Qtrs. 3-5 cr. Prereq: 615 or 629 or 630, or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

720 Studies in Near Eastern Art and Archaeology U G 3-5
Selected problems in the art and archaeology of the Near East. Crane and Fullerton. Sp Qtr. Prereq: 621, 691, or 693, or equiv with permission of instructor. Repeatable to a maximum of 15 cr. hrs.

722 Studies in Ancient Greek and Roman Art U G 3-5
Selected problems in the art of ancient Greece and Rome, 11th century B.C. to 4th century A.D. Fullerton. Au, Wi Qtrs. 3-5 cr. Prereq: 622 or 623 or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

724 Studies in Northern Baroque Art U G 3-5
Selected problems in the painting, sculpture, and architecture of Belgium, Holland, Germany, and France in the 17th and 18th centuries. Haeger. Sp Qtr. 3-5 cr. Prereq: 632. Repeatable to a maximum of 15 cr. hrs.

725 Studies in Italian Baroque Art U G 3-5
Selected problems in the painting, sculpture, and architecture of the 17th century. Richardson. Sp Qtr. 3-5 cr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

726 Studies in Spanish Art U G 3-5
Selected studies in the architecture, sculpture, painting, and minor arts of Spain. Richardson. Wi Qtr. 3-5 cr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

737 Studies in Modern Art U G 3-5
Selected studies in the art of the United States or modern Europe. Herban. Su, Au Qtrs. 3-5 cr. Prereq: 635, 638, 637, 638, or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

745 Studies in Russian Art U G 3-5
Selected problems in the painting, sculpture and architecture of Russia. Czeczowycz. Sp Qtr. Prereq: 545, 645, or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

747 Studies in Late Gothic and Northern Renaissance Art U G 3-5
Selected problems in the art of the Low Countries, Germany, and France from the 14th through the 16th centuries. Morganstern. Au Qtr. 3-5 cr. Prereq: 627 or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

770 Studies in Buddhist Art U G 3-5
Introduction to research in Buddhist art and iconography. Huntington. Au, Wi, Sp Qtrs. 3-5 cr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

771 Studies in the Art of India U G 3-5
Introduction to the art of India at an introductory level. Huntington. Repeatable to a maximum of 15 cr. hrs.

774 Studies in Inner Asian Art U G 3-5
Introduction to the history of Inner Asian art. Huntington. Au Qtr. Prereq: 673 or 674 or 677 or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

776 Studies in Chinese Art U G 3-5
Introduction to research in Chinese art and history. Huntington. Au Qtr. Prereq: 677 or 678 or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

780 Studies in Japanese Art U G 3-5
Introduction to the history of Japanese art and history. Huntington. Au Qtr. Prereq: 681 or 682 or permission of instructor. Repeatable to a maximum of 15 cr. hrs.

H783 Honors Course U G 3-5
A program of study arranged for each student, with individual conferences, reports, and honors thesis. Au, Wi, Wi Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the hist art courses taken and with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA or BFA with distinction in hist art. Failure to receive a mark of S in the course is a disqualification for special honors. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

793 Individual Studies U G 2-5
Advanced study for students in specialized programs. Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

804 Problems in the History of African Art G 5
Research techniques with emphasis on scholarly methods involving extensive search for available source material on African art. Ottoo. Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

816 Museum Problems G 3-5
An introduction to professional work in museums. Sp Qtr. Repeatable to a maximum of 15 cr. hrs.

822 Problems in Ancient Art G 3-5
Advanced study and specialization research on the art of the ancient world. Wi Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

832 Problems in American Art G 2-5
Advanced study of American art focusing on one or more aspects of American art history. Wi Qtr. Prereq: Permission of instructor. Not open to students with a maximum of 15 cr. hrs in 832. Repeatable to a maximum of 15 cr. hrs.
Medieval and Renaissance Culture
See Medieval 888.

Medieval and Renaissance Literature
See Medieval 889.

893 Individual Studies G 1-5
Doctoral students may register for individual study in areas not normally covered by courses.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894 Group Studies G 1-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

917 Seminar in Medieval Art G 2-5
Ludien and J. Morganstern.
Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

920 Seminar in Italian Renaissance Art G 2-5
Melnikas and Richardson.
Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

930 Seminar in Modern Art G 2-5
Herban.
Au Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

970 Seminar in Buddhist Art G 3-5
Advanced research in Buddhist iconographic problems. J. Huntington.
Wi Qtr. Prereq: Two of the following: 670, 671, 673, 677, 681, and 770; or permission of instructor. Repeatable to a maximum of 15 or hrs.

971 Seminar in the Art of India G 2-5
Research problems in the art of India. S. Huntington.
Repeatable to a maximum of 15 or hrs.

976 Seminar in Chinese Art G 3-5
Advanced studies in the history of Chinese art. J. Huntington.
Wi Qtr. Prereq: 677 or 678 or 776 or permission of instructor. Repeatable to a maximum of 15 or hrs.

980 Seminar in Japanese Art G 3-5
Advanced studies in the history of Japanese art. J. Huntington.
Wi Qtr. Prereq: 581 or 682 or 780 or permission of instructor. Repeatable to a maximum of 15 or hrs.

599 Research in History of Art G Arr
Research for thesis and dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Home Economics

201 Campbell Hall, 1787 Neil Avenue, 422-6612

100 Home Economics Survey U 1
Academic requirements: University procedures, grading system, and resources; student rights and responsibilities; overview of home economics academic areas of study and services.
Au, Wi, Sp Qtrs. 2 1-hr cl. Not open to students with credit for UVC 100. This course is graded S/U.

290 Home Economics as a Profession U 2
The scope of home economics as a field of study and as a profession.
Au, Wi, Sp Qtrs. 2 cl. To be scheduled no later than qtr of admission to the School.

HS90 Home Economics Colloquium U 3
Examination of current societal concerns to determine how they affect and are affected by individuals and families.
Sp Qtr. 1 1/2-hr cl. Prereq: Eligibility for honors program in HEC and jr standing. Repeatable to a maximum of 6 or hrs.

595 Home Economics Professional Development U 2
The professional home economist: performance, role in society, position selection, involvement in trends of the field and research. Prereq: 4th year standing in home ec and completion of minimum of 20 cr hrs in major in dept.
Au, Wi, Sp Qtrs. One 1 1/2-hr cl.

595.01 Family Relations and Human Development
595.02 Home Economics Education
595.03 Home Management and Housing
595.04 Human Nutrition and Food Management
595.05 Textiles and Clothing

698 Study Tour U Q 5-15
Intensive study of topics fundamental to central purpose of tour and supervised observation in one or more foreign countries.
Qtrs to be announced. Prereq: Written permission of instructor based on admission requirements established for tour. Repeatable to a maximum of 30 or hrs when different areas or topics are studied. Specific emphasis of tours to be announced.

Home Economics Education

347 Campbell Hall, 1787 Neil Avenue, 422-4487

289 Introductory Field Experience U 1-5
Directed observation-participation experiences in schools, extension, and/or work related to teaching home economics. Redick.
Au, Wi, Sp Qtrs. field exper., arr: Au, Wi Qtrs: 1 hr sem concur or after field exper. Registration one quarter prior to field experience. Open only to students enrolled in home economics teaching major and UVC home economics CAP code. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

294 Group Studies U 2, 3 or 5
Selected topics in home economics education.
Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 or hrs.

340 Educational Process in Home Economics U 3
Planning and organizing instructional materials and experiences for non-formal educational setting. Laster.
Au, Wi, Sp Qtrs. 2 1 1/2-hr cl. Prereq: 3rd yr standing with 10 or hrs in home ec major, Fm&Hu Dv 364 or equiv, H Mgt&Hs 324.01 or equiv, and Psych 100 or 300. Not open to H Ed Edu teaching majors.
341 Introduction to Home Economics
Teaching U 3
Participation in simulated teaching activities with emphasis on planning and on strategies.
Au Qtr. 1.5 hr cl, 1 hr sem. Prereq: Acceptance in H Ec Edu, 3rd yr standing, and preq or concur Psych 230.

440 Vocational Home Economics Programs U 3
Principles and procedures in developing and administering programs in vocational home economics with consideration of federal-state-local relationships. Andrian.
Au Qtr. 3 cl, Prereq: 151 or equiv, 3rd yr standing, and a 2.25 cumulative pt/hr ratio.

444 Program Planning in Secondary Home Economics U 3
Consideration of curriculum, instruction, management, evaluation and other responsibilities of home economics teacher. Dohner.
Wi Qtr. 3 cl, 1/2 day arr. Prereq 440 and a 2.25 cumulative pt/hr ratio.

446 Program Planning in Home Economics Related Occupations U 3
Consideration of curriculum, instruction, evaluation, and other aspects of teaching in home economics related occupations. Anderson.
Au Qtr 1 2/3 hr cl, arr hrs for observation and participation. Prereq: 440 and a 2.25 cumulative pt/hr ratio. For vocational certification only.

589 Field Experience
Application for placement must be filed in dept the qtr preceding registration. Each decimal subdivision repeatable to a maximum of 10 or hrs. Repeatable to a maximum of 10 or hrs.

589.01 Home Economics Education U 1-5
Directed participation in roles and responsibilities of home economics teacher.
Au, Wi, Sp Qtrs: field exper, arr. Au, Wi Qtr: 1 hr sem. Prereq: 341 and 3rd or 4th yr standing in home ec teaching major. This course is graded S/U.

589.02 Home Economics Extension U 1-10
Supervised participation in roles and responsibilities of extension home economist.
Su, Au, Sp Qtrs. Arr. Prereq: 3rd or 4th yr standing in home ec and written permission of instructor.

591 Supervised Home Economics Teaching U 5
Supervised participation in the responsibilities and activities of the home economics teacher in the regular day school and extended school program.
Au, Sp Qtrs. Full time for 1 qtr for 15 or hrs. Prereq: 444 or 446, 589.01, 2.25 cumulative pt/hr ratio, and 4th yr standing.

591.01 Designing Instructional Plans
Concur: 591.02 and 591.03.

591.02 Implementing Instructional Plans
Concur: 591.01 and 591.03.

591.03 Allied Professional Responsibilities
Concur: 591.01 and 591.02.

593 Individual Studies U 1-5
Problems in various phases of home economics education.
Su, Au, Wi, Sp Qtrs. 1 or more conf. H583 (honors) may be available to students enrolled in school honors program or eligible for enrollment. Prereq: Completion of individual study plan form. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

690 Workshop U G 2-5
Intensive study of a topic common to the participants for the purpose of developing related sound principles and practices.
Su Qtr. Hrs arr. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs.

694 Group Studies U G 2, 3 or 5
Selected topics in home economics education.
Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 or hrs.

740 Trends in Home Economics U G 3
An overview of home economics at the elementary, secondary, higher education, and adult levels; general trends in enrollment, curriculum, supervision, administration, and research. Dohner.
Au Qtr 1 2/3 hr cl. Prereq: Bachelor's degree in home ec or written permission of instructor.

743 Research Methods in Home Economics U G 3
Nature of research in various areas of the field; criteria for setting up a research problem; techniques for collecting and analyzing data. Gritzmacher.
Su, Au Qtrs. 1 2/3 hr cl. Prereq: Enrollment in home ec honors program or grad standing. Not open to students with credit for 340.

744 Evaluation in Home Economics U G 3
Principles of evaluation, framework for evaluation, procedures for appraising student progress in the attainment of objectives, construction of evaluation instruments, analysis and interpretation of evaluation data. Gritzmacher.
Sp Qtr. 1 2/3 hr cl. Prereq: Bachelor's degree in home ec or written permission of instructor.

745 Supervision in Home Economics Education U G 3
Principles, models, and processes of supervision in the context of student teaching and other settings where instruction in home economics takes place. Dohner.
Au Qtr. 1 2/3 hr cl. Prereq: Teaching experience in home ec.

793 Individual Studies U G 1-5
Problems in various phases of home economics education.
Su, Au, Wi, Sp Qtrs. 1 or more conf. Prereq: Completion of individual study plan form. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

797 Interdepartmental Seminar U G 2-4
See Interdepartmental Seminars.

842 Home Economics in Higher Education G 3
Present status and function of home economics at the higher education level; faculty involvement within a home economics unit and in the overall institutional setting. Dohner.
Wi Qtr. 1 3-hr cl. Prereq: 740 or equiv with written permission of instructor.

843 Seminar in Home Economics Education G 3 or 5
1 2/3 hr cl. Repeatable to a maximum of 15 or hrs.
B—Topics to be announced.

846 Home Economics Teaching Strategies
and Learning Theory G 3
Innovative use of teaching methods; relationship to learning theory. Laster.
Sp Qtr. 1 2/3 hr cl. Prereq: A course in educational psychology and written permission of instructor.

889 Internship G 1-15
Guided participation to enhance professional competencies in selected areas.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Grad standing in home ec ed and permission of instructor. Repeatable to a maximum of 15 or hrs in any combination of decimal subdivisions. A maximum of 10 or hrs will apply toward master's degree requirements. Registration with dept must be completed in qtr prior to qtr internship is to take place. Travel and subsistence costs must be borne by the student. These courses are graded S/U.

889.01 Instruction

889.02 Extension

889.03 Business, Industry, or Communications

889.04 Administration or Supervision
894 Group Studies G 2, 3 or 5
Selected topics in home economics education.
Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 cr hrs.

899 Interdepartmental Seminar G 1-5
See Interdepartmental Seminars.

942 Administration in Home Economics G 3
Prerequisites: courses, programs, and evaluative criteria related to home economics units in higher education administrative structure; functions, responsibilities, qualifications of home economics administrative personnel. Bailey.
Sp Qtr. 1 3-hr cl. Prereq: MS degree in home ec.

946† Program Analysis and Design in Home Economics G 3
Theoretical approach to program development, innovation and experimentation in program design in home economics at different levels; analysis and restructuring of existing programs; climate and strategies for change. Reddin.
Sp Qtr. 1 2-hr cl. Prereq: 846 or written permission of instructor.

993 Individual Studies G 1-10
Problems in various phases of home economics education chosen for individual study.
Su, Au, Wi, Sp Qtr. 1 or more cr. Prereq: Completion of plan for individual study form. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

998 Research: Thesis G Arr
Research for master's thesis.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research: Dissertation G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Home Management and Housing

174 Campbell Hall, 1787 Neil Avenue, 427-4389

251 Residential Interiors: Market U 3
Economic factors and trends in materials, construction, finishes, and marketing of furniture. Not open to students with credit for 228.
Su, Au Qtrs. 1 2-hr cl, 2 2-hr lab.

260 Family Financial Management U 3
The management of family financial resources with emphasis on the choices faced by families, needs of families and public goods as resources.
Su, Wi, Sp Qtrs. 3 cl. Not open to students with credit for 228. This course is available for EM credit. SS Admins Cond course.

Application of art principles to furnishing a home with consideration of aesthetic, economic, and social factors affecting choice.
Su, Au, Wi Qtrs. 3 cl, 2 hr. lab. Prereq: Art 190 and 290 or equivs with written permission of instructor. Not open to students with credit for 328. This course is available for EM credit.

372 Consumer and the Market U 3
The interrelationships of the consumer with public and private providers of goods and services and with the physical and political systems. Bowes.
Au, Sp Qtrs. 3 cl. Prereq: Econ 100 or 200 and 10 or hrs of social science. Not open to students with credit for 306. This course is available for EM credit.

411 Housing: Social and Economic Environment U 3
Application of selected social science research to individual and family housing needs. Covene.
Su, Au Qtrs. 3 cl. Prereq: 3 or hrs in econ, 3 or hrs in social, and 3 or hrs in psych. Not open to students with credit for 421.

425 Housing: Physical Environment U 3
The physical aspects of both housing and the housing environment of concern for their relationships to individual and family satisfactions with housing choices. Zaworka.
Au, Wi, Sp Qtrs. 2 cl, 2 hr. lab. Prereq: Fm&Hu Dv 360 or 10 or hrs in social science.

451 Residential Interiors: Problems in Conceptual Visualization U 3
Exploration toward the solution of interior, environmental, and spatial problems based on space analysis and planning; emphasis on the functional spatial relationships of residential interior space to furnishings.
Sp Qtr. 5 2-hr labs. Prereq: 228 or 251, and 328 or 351. Not open to students with credit for 429.

551 Residential Interiors: History of Design and Decoration U 3
Analysis of furniture styles from antiquity through the present with emphasis on aesthetic, economic, and social implications as well as influencing philosophies. Wi Qtr. 2 cl, 1 2-hr lab. Field trips arr. Prereq: 351 or written permission of instructor. Not open to students with credit for 528.

589 Field Work U 1-10
Planned professional experience in an area related to student's career goals.
Sp Qtrs. Hrs arr. Prereq: 326, or 372, 3rd or 4th yr standing in home ec, 2.00 cumulative p-hr ratio, and written permission of instructor. Repeatable to a maximum of 10 cr hrs. Registration one qtr before scheduling. This course is graded S/U.

593 Individual Studies U 2-6
Problems in various phases of home management and housing.
Su, Au, Wi, Sp Qtrs. 1 or more cr. HS93 (honors) may be available to students enrolled in school honors program or eligible for enrollment. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.
631 Food Related Home Equipment U G 5
Experimental problems on the performance of the major types of home equipment used in the preparation of food.
Wi Qtr. 4.5 hr cl. Prereq: 322 or 330, and Hum 110 or 314. Not open to students with credit for 622.

632 Home Laundering: Principles and Equipment U G 5
Experience in the techniques and reporting of experimental investigations dealing with home equipment used in laundering and other cleaning processes.
Sp Qtr. 3 cr, 2 hr lab arr. Prereq: 325 or 330, Text & Cl 371 or equiv, 4th yr standing, and written permission of instructor. Not open to students with credit for 633.

641 Home Management Concepts and Their Measurement U G 3
The study of home management theory and related quantitative techniques useful in working with individual families. Staff.
Wi Qtr. 2 1/2 hr cl. Prereq: 324.1 or equiv. Not open to students with credit for 627.

662 Household Economic Status I U G 3
Living arrangements and characteristics of American population, distribution of income, and government policy as determinants of the economic status of households. Rudder.
Au Qtr. 2 1/2 hr cl. Prereq: 326 or 372, and Econ 140. Not open to students with credit for 626.

671 Consumer Choice U G 3
The social, cultural, and psychological factors which underlie the choices made by individuals and groups with respect to consumption and living patterns. Rudder.
Sp Qtr. 2 1/2 hr cl. Prereq: Psych 100 or equiv, Social 101 or equiv, 5 additional cr hrs in social science. Not open to students with credit for 629.

672 Consumer and the Market II U G 3
The effect of consumers on the marketplace and on the demand for resources in the public sector; consumer welfare as affected by human capital, regulation, and voluntary seller activities; consumer sovereignty. Staff.
Wi Qtr. 3 cr. Prereq: 372 and Econ 200 and 400.

690 Workshop U G 1-4
Intensive study of a topic of common concern to participants; may include off-campus study tour within the United States.
Prereq.: Written permission of instructor. Repeatable to a maximum of 12 cr hrs. Travel and subsistence costs for off-campus study tours will be borne by the student.

694 Group Studies U G 2-5
Selected topics in home management and housing.
Prereq.: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 cr hrs.

711 Housing: Social and Economic Aspects for Families U G 3
Review of multidisciplinary literature with emphasis on interaction between users of housing and selected social, psychological, and economic environments. Coveney.
Wi Qtr. 2 1/2 hr cl. Prereq: 411 or 421 or equiv with written permission of instructor. Not open to students with credit for 721.

793 Individual Studies U G 2-5
Problems in various phases of home management and housing chosen for individual study.
Su, Au, Wi, Sp Qtrs. 1 or more cr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

797 Interdepartmental Seminar U G 2-4
See Interdepartmental Seminars.

825* Home Management: Activity Analysis G 3
Advanced study in application of work principles to design of appliances, work space areas, and methods of work in the home. Hunt.
Wi Qtr. 1 1/2 hr cl. Prereq: 10 cr hrs in home management and home equipment or equiv with written permission of instructor.

841* Home Management: Development and Theory G 3
Historical development and present trends in home management with emphasis on theory and practice. Stafford.
Sp Qtr. 1 1/2 hr cl. Prereq: 827 or 641 or equiv or written permission of instructor. Not open to students with credit for 827.

862* Household Economic Status II G 3
Interpretation of theory and research in family income and consumption. Rudder.
Wi Qtr. 1 1/2 hr cl. Prereq: 825 or 866, Econ 705 and 706 or equiv, and 3 or 4 hrs in stat. Not open to students with credit for 826.

872* The Consumer in American Society G 3
Analysis of the elements involved in the consumer interest, interrelationships of the elements, cost effectiveness of these methods and distributional impacts of the alternatives. Bowers.
Au Qtr. 1 1/2 hr cl. Prereq: 820 or 662, Econ 705 and 706 or equiv. Not open to students with credit for 826.

894 Group Studies G 2-5
Selected topics in home management and housing.
Prereq.: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 cr hrs.

895 Seminar in Home Management and Housing G 3 or 5
3 cr. Prereq: 30 cr hrs in home ec, including 622 or 623 or 631 or 632 or 625 or 825 or 826 depending on emphasis of topic, and written permission of instructor. Repeatable to a maximum of 15 cr hrs including or hrs in 622. Not open to students with maximum allowable credit for 822.
A—Home Furnishings and Housing
B—Home Management
C—Home Equipment
D—Consumer and Market

899 Interdepartmental Seminar G 2-5
See Interdepartmental Seminars.

993 Individual Studies G 1-5
Problems in various phases of home management and housing chosen for individual study.
Su, Au, Wi, Sp Qtrs. 1 or more cr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

998 Research: Thesis G Arr
Research for master's thesis.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research: Dissertation G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Honors, University
9 Denney Hall, 164 West 17th Avenue, 422-5104

HS96 University Honors Seminar U 3-5
Designed to foster appreciation, understanding and/or problem-solving skills related to concepts, issues, or problems that transcend the boundaries of a single discipline; topic varies.
Au, Wi, Sp Qtrs. Arr. Prereq: Jr or sr standing in an honors program. Repeatable to a maximum of 15 hrs with permission of University Honors Director.
Horticulture

152 Howlett Hall, 2001 Fyffe Court, 422-1800

111 Introduction to Landscape Horticulture U 3
value of landscape horticulture to the individual and community
including culture, identification, and use of plants in planting design. Synth.
Su, Au, Wi, Sp Qtrs. 3 cl. This course is available for EM credit.

170 Wine in Western Culture U 3
The role of wine in Western culture with emphasis on the
geographic origins, production, and specific uses of wine
types.
Au, Wi, Sp Qtrs. 3 cl.

General Prerequisites for Courses Numbered 200
Unless otherwise indicated, the prerequisites for 200-level
courses are 45 or hrs in collegiate courses, exclusive of ROTC and phys ed.

200 Plant Science in Agriculture U 5
Study of environmental and genetic factors influencing plant
growth, and how man can alter these factors to produce
economic plants more adequate to his needs. Utzinger.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: Biology 110. Not open to
students with credit for Agronomy 200. Cross-listed in
Agronomy.

202 Fruits and Vegetables for Man U 3
Introduction emphasizing application and appreciation of fruits
and vegetables, including origins, pruning and training, and
growing practices with commercial systems contrasted with
backyard gardening.
Su, Au Qtrs. 3 cl.

203 Horticultural Morphology U 3
A study of horticultural plant materials emphasizing the
interpretation of gross plant structures and their development
in relation to cultural practices and the environment.
Wi, Sp Qtrs. 3 cl. This course is available for EM credit.

231 Landscape Plants I U 3
A laboratory, field, and discussion course studying trees,
shrubs, vines, and ground covers used in landscape plantings.
Au Qtr. 2 cl, 1 2-hr lab. Prereq: Botany 112. Not open to
landscape hort majors.

232 Landscape Maintenance U 3
Management of landscape plantings with special emphasis on
transplanting, mulching, nutrition, pest control, pruning,
physiological disorders, and diagnosing plant problems.
Wi Qtr. 3 cl. Prereq: 231. Not open to landscape hort majors.

233 Landscape Plants II U 3
Landscape characteristics and qualities of selected woody
plants, their use, seasonal interest, and environmental
suitability.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq: 232. Not open to landscape
hort majors.

293 Individual Studies U 1-5
Individual studies in areas of fruit, vegetable, and floricultural
plants; landscape horticulture; and processing and technology.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.
Repeatable to a maximum of 10 or hrs. This course is graded
S/U.

294 Group Studies U 1-5
Special group studies in areas of fruit, vegetable, and floricultural
plants; landscape horticulture; processing and technology.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.
Repeatable to a maximum of 10 or hrs.

H990 Plants and Man U 5
The influence and interaction of limiting factors on plant
growth with emphasis on principles utilized by man to increase
productivity and value of plant products.
Wi Qtr. 4 cl, assigned reading 1 hr. Prereq: 5 or hrs biological
sciences and membership in an honors program or eligibility
for membership in a college honors program. Not open to
students with credit for 200 or Agronomy 200 or H990. Cross-
listed in Agronomy.

General Prerequisites for Courses Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300- and 400-
level courses are 90 or hrs in collegiate courses, exclusive of
ROTC and phys ed or specified courses numbered 100-389.

404 Horticultural Therapy Seminar for Exceptional
Children U 1
Special topics on theoretical and practical aspects of
horticultural therapy problems.
Sp Qtr. 1 cl. Prereq: Ed-Except 251 or 651, or Ed-HuSer 251
or 631.

415 Plant Propagation U 5
Study of the principles and commercial practices involved in
the sexual and asexual propagation of horticultural plants;
facilities, equipment, and pathogen-free stock are considered.
Lineberger and Struve.
Au, Sp Qtrs. 4 cl, 1 2-hr lab. Prereq: Agronomy or Hort 200
and Botany 112. Not open to students with credit for 321.
This course is available for EM credit.

424 Commercial Floral Design U 2
Introduction to the principles and mechanics of commercial
floral design. Robertson.
Sp Qtr. 1 4-hr lab. Prereq: Jr or sr standing. Open only to
floriculture majors.

430 Indoor Plants U 3
The identification, maintenance and use of plants for interior
decoration in the home, office, public buildings and related
locations. Tayama.
Wi Qtr. 2 cl, 1 2-hr lab arr. Prereq: 200 or Agronomy 200,
Botany 112.

431 Herbaceous Ornamental Plants U 5
The identification, culture and landscape use of bulbs, annuals,
herbaceous perennials, and garden roses; identification of
weeds and turf management is also covered. Still.
Sp Qtr. 3 cl, 2 2-hr lab. Prereq: Agronomy 240 and Botany
112.

432 Woody Deciduous Plants U 5
A detailed study of deciduous trees, shrubs and vines, their
identification, growth habits, culture, adaptation to
environmental conditions, uses, combinations, and
management in landscape plantings. Still.
Au Qtr. 3 cl, 2 2-hr lab. Prereq: Botany 112.

433 Woody Evergreen Plants U 5
Detailed study of narrow and broadleaf evergreens, their
identification, growth habits, culture, uses, and management in
landscape plantings; winter characteristics of deciduous plants
reviewed. Still.
Wi Qtr. 3 cl, 2 2-hr lab. Prereq: 432.

434 Use of Woody Plants in the Landscape U 5
Woody plant use for specific landscape function and unusual
environment situations; aesthetic features, cultural
characteristics and the landscape use of plants are studied in
detail. Still.
Sp Qtr. 3 cl, 2 2-hr lab. Prereq: 433.

441 Processing of Fruit and Vegetable Products U 5
Fundamentals essential to commercial processing and
utilization of fruits, vegetables, and related food products.
Good.
Au Qtr. 3 cl, 2 2-hr lab. Prereq: Chem 102 or 122.
442 Quality Attributes of Fruits, Vegetables, and Related Foods U G 5
Identifying, evaluating, and controlling quality attributes of fresh and processed fruits, vegetables, and related products to ensure consumer acceptance, nutrition, and use. Gould.
Sp Qtr. 3 cl, 2 2-hr lab. Prereq. Chen 102 or 122.

450 Principles of Vegetable Crop Production U G 5
The production and utilization of vegetable crops with emphasis on environmental factors which influence growing and handling of these crops. Utzinger.
Sp Qtr. 4 cl, 1 2-hr lab.

461 Principles of Pomace Fruit Production U 5
A study of the fundamental principles of pomace fruit production with emphasis on recognition and solution of problems according to modern scientific concepts. 
Au Qtr. 4 cl, 1 2-hr lab. Prereq. 203 or equiv.

462 Principles of Small Fruit Production and Viticulture U 3
A study of small fruit production with emphasis on the recent biological advances from which this technology has evolved. 
Wi Qtr. 2 cl, 1 2-hr lab. Prereq. 203.

463 Principles of Stone Fruit Production U 2
A study of the fundamental principles of stone fruit production with emphasis on recognition and solution of problems according to modern scientific concepts. 
Sp Qtr. 1 cl, 2 2-hr lab. Prereq. 203 and 461.

489 Horticultural Industries Experience U 1-6
Ten weeks of planned and supervised practical experience in an approved horticultural enterprise including a written report. Su, Au, Wi, Sp Qtrs. Prereq. Major standing in hort and permission of instructor. Repeatable to a maximum of 8 cr hrs.

General Prerequisites for Courses Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr hrs in courses in the same discipline numbered 200 or higher, or 10 cr hrs in courses numbered 200 or higher in the same discipline, plus 10 or hrs in courses numbered 200 or higher in specified allied disciplines, or baccalaureate degree.

509 Post-Harvest Physiology of Horticultural Crops U G 3
The principles of post-harvest physiology, handling and storage of fruits, vegetables, flowers and ornamentals. Princes.
Au Qtr. 2 cl, 1 2-hr lab. Prereq. Botany 431 or 438. Not open to students with credit for 609.

521 Greenhouse Environment Control U G 5
Principles and practices of greenhouse operation including construction, heating, cooling, light, temperature, ventilation, moisture, soils and nutrition. Tayama.
Au Qtr. 4 cl, 1 2-hr lab. Prereq. Botany 112 and Hort 415. Not open to students with credit for 621.

522 Commercial Floriculture Production I U G 5
Physiological principles and environmental factors involving photoperiod, thermoperiod, nutrition, moisture, soil, carbon dioxide and chemical growth regulators involved in the commercial production of selected plants. Tayama.
Wi Qtr. 4 cl, 1 2-hr lab. Prereq. 521. Not open to students with credit for 623.

523 Commercial Floriculture Production II U G 5
Physiological principles and environmental factors including photoperiod, thermoperiod, nutrition, moisture, soil, carbon dioxide and chemical growth factors. Tayama.
Sp Qtr. 4 cl, 1 2-hr lab. Prereq. 521. Not open to students with credit for 623.

524 Commercial Floriculture—Marketing and Management U G 4
Fundamentals of retail florist management and principles and practices in the market distribution of horticultural commodities. Sp Qtr. 2 2-hr cl. Prereq: 521 and Actng 211. Not open to students with credit for 624.

525 Garden Center and Landscape Marketing U G 4
Fundamentals of garden center and landscape marketing and management practices for the landscape and nursery industries. Wi Qtr. 2 2-hr cl. Prereq: 432, Ag Econ 316 or equiv, and Ag Econ 320 or equiv.

533 Management of Commercial Nursery Operations U G 5
Detailed consideration of factors involving commercial nursery site selection, production, harvesting and marketing of woody ornamentals and related products. Struve.
Wi Qtr. 4 cl, 3-hr lab. Prereq: 433, Agronomy 240 or permission of instructor. Not open to students with credit for 633. This course is available for EM credit.

546 Beverage and Fruit Drink Processing U G 3
Development, formulation, processing and packaging of beverages and fruit (juice drinks including quality control, composition, cost control, marketing and trends. Gould.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq. 441 and 442. Not open to students with credit for 646.

550 Greenhouse Vegetable Crops U G 3
A study of the origin and development of the vegetable forcing industry and present-day cultural practices with reference to the more important greenhouse vegetable crops. Wi Qtr. 2 cl, 1 2-hr lab. Prereq. 450. Not open to students with credit for 650.

551 Commercial Vegetable Production I U G 3
The culture of the principal vegetable crops used for processing and fresh market; crops covered are vine crops, solanaceous fruits, potatoes and legumes. Gorske.
Au Qtr. 3 cl. Prereq. 450. Not open to students with credit for 652.

552 Commercial Vegetable Production II U G 3
The culture of the principal fresh market vegetable crops: crops covered are legumes, salad, root and bulb crops, perennial crops, sweet corn and sweet potatoes. Gorske.
Wi Qtr. 3 cl. Prereq. 450. Not open to students with credit for 652.

559 Horticultural Industries Study Tour U 2-3
Two to three weeks of planned and supervised exploration of horticultural enterprises within Ohio or out-of-state. Su, Au, Wi, Sp Qtrs. Prereq. Declared major in hort and permission of instructor. Repeatable to a maximum of 6 cr hrs. Offered during between qtr breaks. Travel and subsistence costs will be borne by the student.

593 Individual Studies U 1-5
Special studies in the fields of fruit, vegetable, florist crops, landscape horticulture, and processing and technology of fruits, vegetables, and related crops.
Su, Au, Wi, Sp Qtrs. Prereq: Sr standing in hort. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

596 Plant Protection Seminar U G 1
Current topics relative to plant pest management research, technology, and employment.
Wi Qtr. Arr. Not open to students with 2 or hrs of 596 in: Agronomy, Entomology, or Plant Path. Repeatable to a maximum of 3 cr hrs. Cross-listed in Agronomy, Entomology, and Plant Pathology. This course is graded S/U.
H599 Honors Course U 2, 3 or 5
Special studies in the fields of plant, vegetables, florist crops, landscape horticulture, and processing and technology of fruits, vegetables, and related products.

General Prerequisites for Courses Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr hrs in courses in the same discipline numbered 300 or higher, or 10 cr hrs in courses numbered 300 or higher in the same discipline, plus 10 cr hrs in courses numbered 300 or higher in specified allied disciplines.

601 Horticultural Plant Breeding U G 3
Plant breeding methods and genetics principles applied to horticultural plant improvement, including fundamentals of seed production, variety evaluation, certification, and maintenance. Scott.
Wi. Qtr. 2 cl, 1 2-hr lab. Prereq: Genetics 140 or equiv.

610 Weed Control in Horticultural Crops U G 4
A study of environmental and cultural factors which influence weed development in horticultural crops and a review of the principles of chemical and mechanical weed control. Gorske.
Au. Qtr. 3 cl, 1 5-hr lab. Prereq: 15 or 10 cr hrs or agronomy. Chem 102 or 122 or equiv.

611 Tropical and Subtropical Fruit and Vegetable Production U G 3
A study of important tropical and subtropical fruits and vegetables, with emphasis on latest technological advances to achieve optimum quantitative and qualitative yields.
Au. Qtr. 3 cl. Prereq: Sr or grad standing, minimum of 20 cr hrs biological sciences, and Agronomy 643.

631 Arboriculture U G 5
Environmental factors affecting plant growth and the planting, fertilization, pruning, cabling, and diagnosis of disorders in commercial arboriculture, city, forestry, park, and industrial grounds maintenance. Synder.
Au. Qtr. 4 cl, 1 3-hr lab. Prereq: 433; Botany 431 or 436; Entomol 460; Plant Pathol. 407. Not open to students with credit for 731. This course is available for E&M credit.

640 Food Regulations and Product Examination U G 5
Food laws, regulations, grade standards, and the technical control of processed foods, interpretation of laboratory analysis for control of product quality. Gould.
Au. Qtr. 3 cl, 2 2-hr lab. Prereq: 441 and 442. Not open to students with credit for 741.

641 Horticultural Food Processing and Technology U G 5
Unit processes of handling, grading, cleaning, sorting, peeling, pumping, change in form, and processing as related to commercial processing of fruits, vegetables, and related products. Gould.
Su. Qtr. 3 cl. 2 3-hr lab. Prereq: 441.

645 Fermented Plant Product Technology U G 3
Study of commercial practices in the manufacturing of fermented plant products.
Wi. Qtr. 3 cl. Prereq: 441 or equiv. Microbiol 500 or equiv.

649 Packaging Materials and Methodology U G 3
A discussion of terminology and literature of commercial packaging, principal methods of packaging and principles of selecting packaging materials.
Wi. Qtr. 3 cl. Prereq: 441, 442 and 640 or equiv. Not open to students with credit for 794u.

653 Processing Technology of Cereal Grains and Related Foods U G 3
Unit processes of milling, baking, extruding, formulating, and utilizing cereal grains and related foods as related to the commercial processing. Peng.
Sp. Qtr. 3 cl. Prereq: 441. Not open to students with credit for 543.

670 Enology I—Principles and Wine Technology U G 5
Principles and technology involved in making, table, dessert, and sparkling wines with attention given to must treatments and fermentation practices.
Au Qtr. offered alternate yr beginning Au 1981. 2 cl, 2 2-hr lab. Prereq: 442, Microbiol 500 or 661.

671 Enology II—Wine Quality and Examination U G 4
Principles and methods used to examine various wine components which relate to wine quality.
Sp Qtr. 2 cl, 2 2-hr lab. Prereq: 670.

692 Workshop in Horticulture U G 1-2
An in-depth program on selected areas of horticulture with emphasis on problem solving through the application of principles and related practices.
Su. Au. Wi. Sp Qtrs. 15 or 30 contact hrs during scheduled workshops or short courses. Prereq: 15 or 10 cr hrs of hort and written permission of instructor. Repeatable to a maximum of 8 or hrs in one academic division or 10 or hrs in any combination of academic divisions. Pre-workshop session required.

692.01 Landscape Horticulture
692.02 Floriculture
692.03 Pomology
692.04 Vegetable Crops
692.05 Fruit and Vegetable Processing

694 Group Studies U G 1-5
Special group studies in the fields of plant, vegetable, florist crops, landscape horticulture, and processing and technology.
Au. Wi. Sp Qtrs. Prereq: Sr or grad standing. Repeatable to a maximum of 15 or hrs.

General Prerequisites for Courses Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 or hrs in courses in the same discipline numbered 400 or higher, plus additional specified course(s) numbered 600 or higher.

715 Applications of Plant Cell, Tissue, and Organ Culture to Horticultural Research U G 5
Laboratory methodology and physiological principles concerned with the in vitro culture of plant tissues and organs. Linberger.
Au. Qtr. 2 cl, 1 4-hr lab. Prereq: Botany 630, 643, and permission of instructor.

742 Research and Development Technologies in the Food Industries U G 3
Critical review of trends, changes, research and development methods and literature in food processing and technology. Gould.
Sp. Qtr. 3 cl. Prereq: Sr standing in the food areas.

7441 Thermal Processing of Canned Foods U G 3
Identification and application of various techniques of thermal process calculations for safe canned foods. Peng.
Au. Qtr. 3 cl. Prereq: 441 or equiv.

7441* Technology of Fats and Oils U G 3
Study of the manufacturing, processing, utilization, and quality control of fats, oils, and their products. Peng.
Wi. Qtr. 3 cl. Prereq: FD 593 or 400 or equiv. Not open to students with credit for 641.

748* Technology of Plant Proteins U G 3
Study of the manufacturing and processing of protein foods from plant origin and the problems related to their utilization in human foods. Peng.
Au. Qtr. 3 cl. Prereq: FD 584 or 581 or equiv. Not open to students with credit for 648.
General Prerequisites for Courses Numbered 800 and 900

Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 or hrs in courses in the same discipline, or 20 or hrs in the same discipline, plus 25 or hrs in specified allied disciplines.

803 Research Principles and Techniques in Horticulture G 2
The philosophy and components of graduate education with a development of the techniques useful in conducting research in the field of horticulture.
Au Qtr. 2 cl.

804 Seminar G 1
Au, Wi Sp Qtrs.

806 Morphological and Anatomical Studies of Horticultural Crops G 3
Effects of environmental factors upon the morphological and anatomical characteristics of selected horticultural crops and the relationship to the quality of the product.
Wi Qtr. 2 cl, 1-2 hr lab. Not open to students with credit for 806A and 806B.

813 Plant Nutrition G 5
Effects of plant nutrients on the growth and development of horticultural crops; emphasis will be placed on the physiological, biochemical and anatomical responses of plants. Petrischock.
Wi Qtr. 6 cl. Prereq: Botany 631 or equiv. Not open to students with credit for 811 or 812.

814 Physiology of Horticultural Plants G 5
The application of physiological concepts to horticultural plant situations; review of applicable literature. Kretschmer.
Au Qtr. 5 cl. Prereq: Botany 630 and 631.

815 Post-Harvest Physiology G 3
An in-depth review of the literature pertaining to the physiology and biochemistry of horticultural crops after harvest as influenced by various external and internal factors. Prince.
Sp Qtr. 2 cl, 1-3 hr lab. Prereq: Botany 630, 631 and Biochem 511 or equiv.

841 Advanced Food Processing and Technology G 5
Critical evaluation of new principles and applications of food processing unit operations and technology of food products. Gould.
Au Qtr. 2 cl. Prereq: Grad standing in food areas. Not open to students with credit for 801F or 801G.

892 Interdepartmental Seminar in Plant Physiology G 1
Students will present seminars on their research or related topics in plant physiology and/or attend seminars by local and visiting researchers.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Permission of instructor. Not open to students with 12 cr hrs in Agronomy 892, Biochem 892, Botany 892, or Fd Sci & Nut 882. Repeatable to a maximum of 12 cr hrs, including or hrs earned in Agronomy 892, Biochem 892, Botany 892, and Fd Sci & Nut 882. Cross listed in Agronomy, Biochemistry, Botany, and Food Science and Nutrition. This course is graded S/U.

993 Individual Studies G 1-5
Special studies in the fields of fruit, vegetable, florist crops, landscape horticulture, and processing and technology of fruits, vegetables, and related food products.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

999 Research Thesis or Dissertation G Arr
Research for thesis or dissertation purposes only.
Su,Au, Wi, Sp Qtrs. This course is graded S/U.

Hospital and Health Services Administration

School of Allied Medical Professions
543 School of Allied Medical Professions Building, 1583 Perry Rd., 422-6794

693 Individual Studies U G 1-5
Study of individually designed topics not otherwise available in the curriculum.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Written permission of instructor. Repeatable to a maximum of 8 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Group studies of special topics within hospital and health services administration.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs.

795 Seminar U G 1-3
Investigation of current topics of significance to health services management and policy.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs.

800 Health Care Organization G 4
Analysis of arrangements for the organization, financing, and delivery of health care services. Loeb.
Au Qtr. 2 hr cl. Prereq: Written permission of instructor.

802 Economic Analysis of Health Services G 3
Applications of microeconomic analysis to the health services industry, with emphasis on the market structure and performance. Caswell.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

809 Field Study I: Health Organizations in the Community G 2
Identification and survey of patterns of organization and control of health care institutions; analysis of nature and extent of interrelationships among institutions.
Au Qtr. Prereq: Permission of instructor. This course is graded S/U.

810 Field Study II: Departmental Management G 2
Analysis of departmental and institutional objectives, management functions, interdepartmental relationships, and supervisory styles.
Wi Qtr. Arr. cl, field study in health organizations. Prereq: Permission of instructor. This course is graded S/U.

811 Legal Environment of Health Care G 3
Legal environment of health care, including hospital-patient-doctor relationships; labor law and collective bargaining; constitutional law and administrative regulations pertaining to prepayment and planning.
Sp Qtr. 2 3/4 hr cl. Prereq: Permission of instructor.

812 Field Study III: Management Problem Analysis G 3
Methods of management decision making, with externship in a local hospital or health agency for intensive study of a management problem.
Sp Qtr. Prereq: 6 cr hs in hosp admin and permission of instructor.

815 Organization and Management of Hospitals G 3
Analysis of the organization and management of hospitals with emphasis on administrator, medical staff, and board of trustees relationships.
Au Qtr. 2 3/4 hr cl. Prereq: Permission of instructor.
820  Financing Health Services  G 4
Analysis of the sources of financing, both current and future, for health service organizations. Cleverley.
Sp Qtr. 2 2-hr cl. Prereq: Acctg 711 or equiv and permission of instructor.

822  Financial Management of Health Organizations  G 3
Principles of financial management and management control in health care organizations, including budgeting, capital investment analysis, and working capital management.
Wi Qtr. 3 cl. Prereq: 920 and 10 cr hrs of acctg.

830  Forecasting Methods in Health Services Administration  G 3
Forecasting methods, with special emphasis on topics useful in health services administration, including service area determination, population forecasting, non-historical methods.
Au Qtr. 2 1 1/2-hr cl. Prereq: 6 cr hrs of stat or permission of instructor.

831  Strategic Planning and Program Development  G 3
Description of techniques and methods essential for strategic and project planning with an emphasis on social technical systems and health systems. Nutt.
Au Qtr. 2 1 1/2-hr cl. Prereq: Permission of instructor.

845  Ambulatory and Comprehensive Medical Care Programs  G 3
Analysis of the organization and management of ambulatory and comprehensive medical care programs, including the initiation, administration, staffing, and financing requirements. Loebis.
Sp Qtr. 2 1 1/2-hr cl. Prereq: Permission of instructor.

850  Seminar in Health Service Management and Policy  G 4
Policy process and methods of decision making, assignment and solution of managerial problems; case studies, with emphasis on strategy and implementation.
Wi Qtr. 3 2-hr cl. Prereq: 18 cr hrs in hosp admin or written permission of Director.

855  Health Care Policy and Politics  G 3
Political characteristics of the policies and mechanisms for the provision of personal health services, with emphasis on community, state and federal levels of policy making. Loebis.
Sp Qtr. 2 1 1/2-hr cl.

860  Evaluation G 4
Models of evaluation, including experimental designs, quasi-experimental design and case studies with discussion of barriers to effective use of evaluation results in decision-making. Nutt.
Wi Qtr. 3 1 1/2-hr cl. Prereq: Grad level course in stat or permission of instructor.

861  Behavioral and Normative Decision Approaches G 3
Decisions made by individuals, groups and organizations comprising the health delivery system; examination of decision-making behavior; strategies to improve decisions. Nutt.
Sp Qtr. 2 1 1/2-hr cl. Prereq: 860 or permission of instructor.

870  Advanced Studies in Hospital and Health Services Administration G 3
Seminar in special topics in hospital and health services administration with content varying from quarter to quarter.
Au, Wi, Sp Qtr. Prereq: Permission of Instructor. Repeatable to a maximum of 9 cr hrs.

998  Thesis Research G 1-2
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr. Arr. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

Human Nutrition and Food Management

265 Campbell Hall, 1187 Neil Avenue, 422-4485

110T  Food For Your Nutrition U 5
Food selection for the individual as influenced by nutrient needs and cultural, psychological and economic factors.
Au, Sp Qtrs. 5 cl.

230  Food Service Systems Management: Introduction U 2
Orientation to field of food service management.
Au, Sp Qtr. 2 cl.

294  Group Studies U 2, 3 or 5
Selected topics in human nutrition and food management. Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 cr hrs.

310  Fundamentals of Human Nutrition U 5
Nutrient and food energy needs of the human biological systems throughout the life cycle with consideration of psychological factors.
Au, Wi. Sp Qtrs. 5 cl. Prereq: 5 cr hrs of biological science. This course is available for EM credit.

313  Food in Different Cultures U 3
Food practices of selected peoples of the world with consideration of the existing social, cultural, and economic conditions.
Wi Qtr. 3 cl. Prereq: 10 or hrs of social science.

314  Fundamentals of Food U 5
Application of chemical and physical principles to food preparation and use.
Au, Wi, Sp Qtrs. 2 cl. 3 2-hr lab. Prereq: 10 or hrs of chem. This course is available for EM credit.

406  Nutrition: The Life Cycle U 3
Food and nutrient needs throughout various phases of the life cycle.
Sp Qtr. 3 cl. Prereq: 310. Not open to students with credit for 606.

413  Food Management for Families U 3
Nutritional, aesthetic, economic and social aspects of planning, purchasing, preparing, and serving food in family groups at different income levels.
Wi Qtrs. 2 cl. 1 2-hr lab. Prereq: 310 and 314. This course is available for EM credit.

430  Food Service Systems Management: Menu Planning U 3
The menu as a basis for planning, organizing, and controlling food service systems.
Au, Wi Qtr. 3 cl.

431  Food Service Systems Management: Production U 5
Techniques for food quality and cost control; work planning; individual experience in food production and use of equipment.
Au, Sp Qtrs. 2 cl. 6 hrs lab, 2 hrs arr. Prereq: 314. This course is available for EM credit.

435  Principles of Teaching Applied to Human Nutrition and Food Management U 4
Principles of education for students whose professional work will require knowledge of techniques for teaching others in non-school situations.
Wi Qtr. 2 2-hr cl. Prereq: 431.
589 Field Work U 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Sr standing in home ec; 2.25 cumulative gpa; written permission of instructor; Acctng 211; Econ 200; and 15 crs of required courses in Humn Ntr 314, 430, 431, 630, and 632; prereq or concur: 632. Registration 2 qtrs before scheduling. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

593 Individual Studies U 1-5
Problems in various phases of human nutrition and food management chosen for individual study.
Su, Au, Wi, Sp Qtrs. 1 or more cr. H593 ( honors) may be available to students enrolled in school honors program or eligible for enrollment. Prereq: Minimum of 5 crs hrs in subject matter of problem with cumulative point-hour ratio of 2.5 or written permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

601 Nutritional Concepts in Nursing Practice U G 3
Consideration of role of nutrition in preventive health care and various alterations in health with emphasis on the role of the nurse.
Sp Qtr. 1 3-hr cl. Preq: 310 or equiv and human physiology. Not open to students with credit for 694 Sp Qtr or 612.01 or 612.02.

610 Advanced Human Nutrition U G 5
Interrelationships of nutrition and human biological functions.
Au Qtr. 5 cr. Preq: 310, Zoology 232, and Biochem 211.

612 Nutritional Therapy U G 3
A two qtr sequence in current practices of nutritional therapy with emphasis on the biochemical and physiological rationale for dietary modifications.
Open only to dept majors, except by permission of instructor. Students required to take both 612.01 and 612.02 in sequence. A final grade in 612.01 will not be given until the end of the 2nd qtr.

612.01 Nutritional Therapy I
Wi Qtr. 2 cl, 1 2-hr lab. Preq: 610. A mark of P will be given at the end of qtr.

612.02 Nutritional Therapy II
Sp Qtr. 2 cl, 1 2-hr lab. Preq: 612.01. A final grade for the two-qtr sequence will be given at the end of qtr.

615 Food Theory and Application U G 5
Application of experimental methods to problems involved in preparation of foods.
Au, Wi, Sp Qtrs. 3 cl, 2 3-hr lab. Preq: 314 and Chem 235 or Biochem 211.

630 Food Service Systems Management: Purchasing U G 5
Principles and standards for selection of food, equipment, and furnishings; facility design and equipment layout.
Wi Qtr. 2 cr. Preq, or concur: 431.

632 Food Service Systems Management: Operational Integration U G 5
Integration of operational processes and resources for the management of food service systems.
Sp Qtr. 2 2-hr cl, 1 hr arr. Preq: 431 and Bus-Mgt 500.

690 Workshop U G 4
Full time for 3 wks. Preq: Written permission of instructor. Repeatable to a maximum of 15 or hrs.

694 Group Studies U G 2, 3 or 5
Selected topics in human nutrition and food management.
Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 cr hrs.

710 Physiological Basis for Food Utilization U G 5
Advanced concepts of human nutrition integrating physiological, biochemical, and nutritional functions relevant to food utilization.
Wi Qtr. 3 1/2-hr cl. Preq: 610 or equiv.

711 Nutrition: History U G 3
Persons, discoveries, and methods in the evolution of nutrition as a science and a factor in the control of human welfare.
Au Qtr. 3 cr. Preq: 610.

713 Advanced Food Theory and Application U G 3
Food theories applied to individual investigations in food preparation, preservation, and storage in the home and volume food service.
Su Qtr. 1 2-hr cl, 1 3-hr lab. Preq: 615.

730 Advanced Food Service Systems Management: Operational Integration U G 3
Current practices and research in management of food service systems.
Sp Qtr. 1 2-hr cl. Preq: 632.

793 Individual Studies U G 2, 3 or 5
Problems in various phases of human nutrition and food management chosen for individual study.
Su, Au, Wi, Sp Qtrs. 1 or more cr. Preq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

797 Interdepartmental Seminar U G 2-4
See Interdepartmental Seminars.
Repeatable to a maximum of 6 cr hrs.

802 Seminar in Human Nutrition and Food Management G 3 or 5
Prereq: 610, 615, 632 or equiv with written permission of instructor. Repeatable to a maximum of 15 or hrs.
A—Food Management, Su Qtr.
B—Advanced topics in Human Nutrition and Food Management, Au Qtr.
C—Food, Wi Qtr.
D—Human Nutrition, Sp Qtr.

810 Recent Developments in Human Nutrition G 3
Analysis of selected topics in human nutrition with applications to current issues.
Su Qtr. 3 cr. Preq: 610.

816 Recent Developments in Food G 3
Analysis of selected topics in food with applications to current issues. Cramer and Joseph.
Wi Qtr. 1 2-hr cl. Preq: 615.

830 Advanced Studies in Nutrition G 3
Su, Au, Wi, Sp Qtrs. 3 or 4 cr. Preq: 610 or Amnl Sc 630 or Pitty Sc 630 or Amnl Sc 631 or Dairy Sc 631 or Home Ec 610; Fd SciNu 761 and 762 and 10 grd or hrs in Physiol. Not open to students with credit for Amnl Sc 830, Dairy Sc 830 or Pitty Sc 830. Cross-listed in Animal Science, Dairy Science, Food Science and Nutrition, and Poultry Science.

830.01* Energy
Conrad and Brook.
Wi Qtr.

830.02* Minerals
Cline.
Sp Qtr.

830.03* Proteins and Amino Acids
Naber and Vivian.
Sp Qtr.

830.04* Vitamins
Naber.
Au Qtr.

830.05* Lipids
Palmer.
Wi Qtr.

830.08* Carbohydrates
Roeheflig.
Au Qtr.
8329** Recent Developments in Food Service Systems Management G 3 or 5
Analysis of selected topics in food service systems management with application to current issues.
Su, Qtr. 1-2 hr. cl. Prereq: 632 and experience in food service management. Repeatable to a maximum of 15 or hrs.

894 Group Studies G 2, 3 or 5
Selected topics in human nutrition and food management.
Prereq: Open to students who meet dept’s stated prereq. Repeatable to a maximum of 10 cr. hrs.

998 Interdepartmental Seminar in Nutrition and Food Technology G 1
See Interdepartmental Seminars.

999 Interdepartmental Seminar G 1-5
See Interdepartmental Seminars.

993 Individual Studies G 2, 3 or 5
Problems in various phases of human nutrition and food management chosen for individual study.
Su, Au, Wi, Sp Qtrs. 1 or more cr. conf. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

998 Research: Thesis G Arr
Research for master’s thesis.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research: Dissertation G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Human Services Education

101 Student Services Building, 154 West 12th Avenue, 422-8787
See also Educational Policy and Leadership.
The areas of specialization and the courses in the Department of Human Services Education comprising these areas of specialization are listed below:

Applied Behavior Analysis
693, 722, 771, 772, 787, 788, 884, 925, 999.

Counselor Education
213, 214, 270.01, 270.02, 270.03, 270.04, 271, 289.01,
289.02, 289.37, 294.01, 294.34, 413, 513, 679, 692.34,
693.34, 694.34, 766, 768, 773, 774, 775, 776, 779, 790, 791,
792, 862, 864, 876, 884.34, 894.34, 925.34, 974, 976, 978,
977, 978, 999.34.

Gifted
675, 692.66, 693.66, 805, 884.66, 885.66, 955.66, 999.66.

School Psychology
692.61, 693.61, 694.61, 925.61, 986, 987, 988, 989,
990, 991, 992, 999.61.

Special Education
251, 289.54, 580.54, 588.60, 644, 646, 648, 651, 653, 659,
660, 661, 664, 665, 670, 671, 675, 677, 678, 691, 692, 693,
684, 685, 686, 687.04, 689.47, 692.48, 692.52, 692.54, 692.62,
693.04, 693.47, 693.48, 693.52, 693.54, 693.55, 693.60,
693.62, 693.64, 694.47, 694.48, 694.54, 694.55, 710, 714,
715, 721, 722, 723, 725, 738, 740, 770, 777, 778, 780, 781,
782, 783, 784, 786, 789, 846, 947, 949, 949, 971, 884.47,
884.48, 884.52, 884.54, 884.55, 884.60, 885.48, 885.52,
889.54, 889.60, 889.62, 894.49, 994.55, 995.47, 995.48,
999.47, 999.54, 999.55, 999.60, 999.62, 999.64.

213 Introduction to Urban Education U 5
Examination of the multi-ethnic character of the urban community and the unique educational problems prospective teachers should be conscious of in order to be more effective when working with minorities.
4 cr, 2 hrs field experience arr. Not open to students with credit for Ed-Sp Sv 213.

214† Black Perspectives in Urban Education U 3
Examination of major educational-philosophical hallmarks that affect the education of black Americans focusing on Booker T. Washington, W.E.B. DuBois, Carter G. Woodson and important legislation.
3 cr. Not open to students with credit for Ed-Sp Sv 214.

251 Introduction to Exceptional Children U 3
Examination of the role of education in the habilitation and education of children and youth with learning and/or behavioral handicaps. Hindman.
Au, Wi, Sp Qtrs. 1 2-hr. cl. Prereq: Written permission of instructor. Not open to students with credit for Ed-Excp 251 or 269.02.

270 Seminars in Career and Self Development U 3
Examination of self in relation to educational and career goals; self assessment, decision making, identification and use of campus resources, employability, and work placement skills.
Au, Wi, Sp Qtrs. 1 2-hr. cl. Repeatable to a maximum of 12 cr. hrs, including or hrs in Ed-Sp Sv 270, 270.01, 270.02, 270.03, and 270.04; and Ed-PdL 270.04; with a maximum of 3 cr. hrs in any decimal subdivision. These courses are graded S/U.

270.01 Self-Career Development
Designed to provide opportunities for self-exploration and skill development; exploration of and clarification of vocational and educational interests.

270.02 Personal Growth to Increase Career Competencies
Designed to provide opportunities to assist in self-exploration and self-identification for more effective development beyond the level of average performance.

270.03 Study Skills Related to Career Goals
Designed to assist underscoring students with their efforts to ascertain and resolve the causes of low academic productivity; attitudinal and behavioral skills emphasized.

270.04 Career Development and Leadership Training in Higher Education
Designed to explore possible careers in higher education and to conduct leadership training in terms of higher educational functions and organizations.

271 Seminar in Exploring Helping Relationships: Teaching/Learning U 3
Focus on self development, decision making, world of work for students exploring careers through placement in educational and community agency settings.
Au, Wi, Sp Qtrs. 1 3-hr. cl. Repeatable to a maximum of 6 cr. hrs, including or hrs in Ed-Sp Sv 271, with special written permission, when unusual circumstances warrant. To be taken concurrently with field experience 289.01.

289 Field Experience U 2-5
Professional service with children or youth in some school or community agency.
Prereq: Permission of instructor. These courses are graded S/U.

289.01 Introductory Experience in a School System
Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 cr. hrs, including or hrs in Ed-Sp Sv 289.01, with special permission when unusual circumstances warrant.

289.02 Experience in a Community Agency
Repeatable to a maximum of 20 cr. hrs, including or hrs in Ed-Sp Sv 289.02.

289.37† Tutoring
Repeatable to a maximum of 20 cr. hrs, including or hrs in Ed-Sp Sv 289.37.

289.54 Mental Retardation
Au, Wi, Sp Qtrs 5 hrs practicum. Repeatable to a maximum of 20 or hrs, including or hrs in Ed-Sp Sv 289.54.

294 Group Studies G 1-5
Group studies for students in specialized programs.
Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr. hrs, including or hrs in Ed-Sp Sv 294.01 and 294.34.

294.01 Evaluation of Field Experiences
294.34 Youth-Career Education
413† Experiencing the Urban Community U 3
Provides practicum experiences and discussion designed to bring perspective teachers into direct contact with the life circumstances: street, stores, homes, school, and public agencies of children living in urban areas; emphasis on preschool through 3rd grade.
Su, Wi Qtr's, 2 cl, 4 hrs arr. Not open to students with credit for Ed-SP Sy 413.

513† Cultural Factors Affecting Teachers in Urban Schools U 3
Students examine their own values relative to varying cultural factors: life style, aspirations, language, family, that affect and impede the learning process between teachers and students in urban settings.
5 cl, Not open to students with credit for Ed-SP Sy 513.

588 Student Teaching in Special Fields U 3-15
Hl
Au, Wi, Sp Qtr's. Prereq: Ed 4th year standing and written permission of instructor. A minimum of 15 or hrs in student teaching is required. Repeatable to a maximum of 15 cr, hrs in Ed-Excp 588.54 and 588.60. For additional information see College of Education Bulletin. These courses are graded S/U.

588.54 Educable Mentally Retarded

588.60 Physically Handicapped

644† Functional Behavioral Analysis I U G 3
Designed to develop skills and knowledge in the experimental analysis of behavior with emphasis on mental retardation.
1 2-hr cl, 2-hr practicum. Not open to students with credit for Ed-Excp 644.

646† Functional Behavioral Analysis II U G 3
Designed to develop skills in applying behavioral principles and techniques in field experience with retarded and other handicapped persons.
1 2-hr cl, 3-hr practicum. Prereq: Ed-Excp 644 or Ed-Excp 644 or equiv and written permission of instructor. Not open to students with credit for Ed-Excp 646.

649 Medical Aspects of Mental Retardation U G 2
Designed for non-medical practitioners in the field of mental retardation particularly educators: focus on issues of genetic, nutritional, neurological, psychiatric and pediatric nature; medical terminology. Cavein.
Au, Sp Qtr's. 2 cl, 2 hr arr. Prereq: Permission of instructor and 4th year standing in non-medical programs leading to work with the mentally retarded. Not open to students in health-related disciplines or to students with credit for Ed-Excp 649.

651 Introduction to Exceptional Children U G 3
An overview of the education of exceptional learners including a discussion of their characteristics and a review of historical approaches to their education and of contemporary educational practices. Otansky and Ward.
Su, Au Wi Qtr's. 1 2-hr cl. Not open to students with credit for Ed-Excp 651 or Psych 570.

653 Elementary Physical Education for Special Educators U G 3
Survey of elementary physical education with a focus on handicapped pupils; practice related to theories and research. Jamsma.
Sp Qtr's. 2 cl, 1 2-hr lab. Prereq: Ed-Excp 251 or Ed-Excp 251 or permission of instructor. Students with credit for Phys Ed 323 must obtain permission of instructor. Not open to students with credit for Ed-Excp 653 or Phys Ed 653. Cross listed in Physical Education.

659 Instructional Procedures for Developing Speech with the Hearing Impaired U G 3
Educational assessment of the spoken language of hearing impaired children and provision of individualized programs for speech development.
Sp Qtr's. 1 2-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excp 659.

660 Educational Assessment for Exceptional Children with Language Disorders U G 3
Introduction to a psycholinguistic approach to language acquisition, underlying theories and models of language development, research, assessment techniques, and implications for exceptional children with language disorders.
Au Qtr's. 1 2-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excp 660.

661 Educational Techniques of Developing Language with Children with Language Disorders U G 3
Practical application of educational techniques and procedures in developing comprehension and production of language with youngsters with language disorders. Cockett.
Wi Qtr's. 1 2-hr cl. Prereq: 660 or Ed-Excp 660 or permission of instructor. Not open to students with credit for Ed-Excp 661.

664 Developing Initial Language with Preverbal and Low-Verbal Handicapped Individuals U G 3
Provides information and techniques to educationally intervene at the prelinguistic and initial linguistic levels with preverbal and low-verbal handicapped individuals. Cockett.
Wi Qtr's. 1 2-hr cl. Prereq: 660 or Ed-Excp 660 or permission of instructor. Not open to students with credit for Ed-Excp 664.

665 Mainstreaming: The Exceptional Student in the Regular Classroom U G 3
Rationale, educational programming, and instructional procedures for educating exceptional children in the regular classroom; emphasis on the role of the regular-class teacher. Stephens and Magliocca.
Au, Wi, Sp Qtr's. 1 2-hr cl. Prereq: 651 or Ed-Excp 651 or permission of instructor. Not open to students with credit for Ed-Excp 665.

670 Remedial and Clinical Reading Instruction U G 3
An overview of theory and practice, including causes, diagnostic procedures, remediation, and instructional materials. McCormick.
Au, Wi, Sp Qtr's. 1 2-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excp 670.

671 Clinical Practice in Treating Reading Disabilities U G 3
Use of test materials in the diagnosis of reading disabilities; practice with remedial procedures. McCormick.
Au, Wi Qtr's. 1 2-hr cl, 3-1-hr lab arr. Prereq: Permission of instructor. Not open to students with credit for Ed-Excp 671.

675 Teaching the Gifted—Issues and Problems U G 3
An examination of trends, issues, history, and philosophies for educating gifted persons. Swassing.
Au Qtr's. 1 2-hr cl. Prereq: 651 or Ed-Excp 651 or permission of the instructor. Not open to students with credit for Ed-Excp 675.

676 Programming for Severe Physical Impairments U G 3
Background information and survey of programmatic considerations related to physical, motor, and fitness training of the severely handicapped. Jamsma.
Su, Sp Qtr's. 1 2-hr cl. Prereq: 651 or Ed-Excp 651 or permission of instructor. Not open to students with credit for Ed-Excp 676.
677 The Parent/Professional Partnership U G 3
Described to help educators acquire knowledge and skills necessary to assist parents in facilitating the development, education, and socialization of severely handicapped children. Hillary.

Wi Qtr. 1 2½-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 677.

679 Career Education in the Schools: A Survey U G 3
A survey of career education concepts and programming; the national position, Ohio Career Development Continuum, and local application of several developmental areas of career education; career guidance practices.

3 cl. Prereq: Permission of instructor and student teaching and/or bachelor's degree. Not open to students with credit for Ed-Sp Sy 679.

680 Introduction to Education for Visually Handicapped Children U G 3
Survey of historical, legislative, social, and psychological aspects of blindness; educational and vocational programming, services and resources identified in conjunction with field experiences. Orinsky and Ward.

1 2½-hr cl. Prereq: Ed-Sp 651 or Ed-Excep 651. Not open to students with credit for Ed-Excep 680.

681 Educational Implications of Eye Disorders U G 3
Anatomy and physiology of the eye; causes of impaired vision; educational implications of eye disorders. Ward.

Au Qtr. 1 2½-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 681.

682 Reading and Writing Literacy
Braille U G 3
Development of proficiency in transcribing Grade II Braille; teaching beginning braille reading. Ward.

Au Qtr. 1 2½-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 682.

683 Communication Skills for the Visually Handicapped U G 2
Specialized codes and the use of auditory, visual and tactile mediums and techniques for teaching communication skills to the visually handicapped. Ward.

Wi Qtr. 1 2-hr cl. Prereq: Ed-Excep 682 or Ed-Excep 683. Not open to students with credit for Ed-Excep 683.

684 Curriculum Development and Adaptations for Visually Handicapped Children U G 4
The selection, development, and adaptation of materials and procedures for the education of visually handicapped children of varying levels of ability and need. Ward.

Wi Qtr. 2 2-hr cl. Prereq: Ed-Sp 680 or Ed-Excep 680, 581 or Ed-Excep 581, and 682 or Ed-Excep 682. Not open to students with credit for Ed-Excep 684.

685 Orientation and Mobility for Visually Handicapped Children U G 3
Practical experiences in conjunction with the development of readiness activities, instruction, and assessment of pre-cone orientation and mobility skills for the visually handicapped. Sp Qtr. 1 2½-hr cl. Prereq: Ed-Sp 660 or Ed-Excep 660, and 581 or Ed-Excep 681. Not open to students with credit for Ed-Excep 685.

692 Workshops U G 1-8
Intensive study of a problem common to the participants for the purpose of developing sound principles and practices relating to it.

Cl hrs. arr. Prereq: Teaching experience and written permission of workshop director. Repeatable with not more than 4 workshops to a maximum of 15 cl hrs, including cl hrs in Ed-Excep 682, 47, 682, 48, 682, 49, 682, 54, 682, 61, 682, 65, and 682, 65. Au-Sp Sy 692, 34.

692.04 Speech and Hearing Therapy

692.34 Counselor Education

692.47 Exceptional Children

692.48 Severely/Multiply Handicapped

692.52 Visually Handicapped

692.54 Educable Mentally Retarded

692.61 Child Study

692.62 Learning and Behavioral Disorders

692.66 Gifted

693 Individual Studies U G 1-4
Su, Au, Wi, Sp Qtrs. Prereq: Ed-E&M 460 or Ed-T&P 460, and permission of instructor. A total of not more than 30 or hrs of individual study (any 680) will apply toward graduation for undergraduates, 15 or hrs for the master's degree and 30 or hrs for the doctoral degree. These courses are graded S/U.

693.04 Speech and Hearing Therapy

693.34 Counselor Education

693.47 Exceptional Children

693.48 Severely/Multiply Handicapped

693.52 Visually Handicapped

693.54 Educable Mentally Retarded

693.55 Deaf and Hard of Hearing

693.60 Physically Handicapped

693.61 Child Study

693.62 Learning and Behavioral Disorders

693.64 Educational Disability

693.66 Gifted

694 Group Studies U G 1-5
Group studies on special problems in education.

Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs, including cl hrs in Ed-Excep 694, 47, 694, 48, 694, 54, 694, 55, and Ed-Sp Sy 694, 34.

694.34 Guidance and Counseling

694.47 Exceptional Children

694.48 Severely/Multiply Handicapped

694.54 Educable Mentally Retarded

694.55 Deaf and Hard of Hearing

713 Reading in Perspective for the Hearing Impaired U G 3
Educational assessment of the syntactical, semantic, and developmental reading levels of the hearing impaired student and the development of an individualized reading program.

Wi Qtr. 3 cl. Prereq: Ed-Sp 661 or Ed-Excep 661. Not open to students with credit for Ed-Excep 713.

714 Curriculum Adaptations in Programs for the Hearing Impaired U G 3
Development and adaptation of curriculum, materials, and instructional procedures for teaching special subject areas with hearing impaired students. Connard.

Sp Qtr. 3 cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 714.

715 Education of Severely/Multiply Handicapped Children U G 3
An introduction to the education of severely, profoundly, and multiply handicapped children including deaf-blind, autistic-like, severely retarded, and multiply handicapped. Oriansky.

Au Qtr. 1 2½-hr cl. Prereq: Ed-Sp 651 or Ed-Excep 651 or Psych 570, and permission of instructor. Not open to students with credit for Ed-Excep 715.
721 Introduction to Education of Deaf-Blind and Multiply-Handicapped Children U G 3
Introduction to education of deaf-blind and multiply-handicapped: characteristics, history, legislation, educational assessment, programs, and media for deaf-blind and multiply-handicapped children.
Prereq. Written permission of instructor. Preference given to students who have shown interest and/or commitment to deaf-blind and multiply-handicapped children. Not open to students with credit for Ed-Excep 721.

722 Directive Teaching of Exceptional Children U G 3
Knowledge and principles of behavior and their application in teaching social and academic skills. Cooper, Heron, Jansma, and Porter.
Au, Wi, Sp. Qtrs. Not open to students with credit for Ed-Excep 722.

723 Programming for Low Incidence Handicapped Children U G 3
Survey of major curricular/programming areas and application of procedures to hearing impaired, visually impaired, severely retarded, deaf-blind, and multiply-handicapped children. Cavin.
Wi Qtr., 3 cr. Prereq. 721 or Ed-Excep 721, and/or permission of instructor. Not open to students with credit for Ed-Excep 723.

725 Advanced Educational Procedures and Programming for Moderately, Severely, and Profoundly Handicapped U G 3
Procedures and programming for moderately, severely, and profoundly handicapped children; review of teaching strategies, curriculum and development, and eight major curriculum areas for educational programming. Orleansky.
Sp Qtr. Prereq. 722 or Ed-Excep 722, and 723 or Ed-Excep 723; or written permission of instructor. Repeatable to a maximum of 6 hrs, including 0 or hrs in Ed-Excep 725.

738 Modes of Communication for Teaching Hearing Impaired Children U G 3
Study and practical experience in the use of communication modes utilized by hearing impaired children; emphasis on oral, dactyl, language of signs, and combined modes as applied to schooling.
1.5-hr cl. Prereq. 661 or Ed-Excep 661, and written permission of instructor. Not open to students with credit for Ed-Excep 738.

740 Psychosocial Aspects of Hearing Impairment on School Children U G 3
The effects of hearing impairment on psychological and social development and functioning on school aged youth; emphasis on information gathering and analysis, cognition, communication, socialization, education-vocational considerations, and adjustment in relation to school learning. Collins.
1.5-hr cl. Prereq. Written permission of instructor. Not open to students with credit for Ed-Excep 740.

767 Guidance Appraisal Techniques I U G 3
An introduction to the concepts and techniques in the appraisal of the individual in counseling settings.
Su, Au, Sp Qtr., 1.25-hr cl. Prereq. 773 or Ed-Sp Sv 773 or permission of instructor. Not open to students with credit for Ed-Sp Sv 777.

768 Guidance Appraisal Techniques II U G 3
Intermediate study of concepts and techniques in the appraisal of the individual in counseling settings.
Su, Wi Qtr., 1.25-hr cl. Prereq. 767 or Ed-Sp Sv 777. Not open to students with credit for Ed-Sp Sv 778.

770 Introduction to Educating Mentally Handicapped Children U G 3
Introduction to problems, issues, and practices in educating mildly handicapped children who are educable mentally retarded, learning disabled, and behaviorally disordered. Stephens.
Su, Au, Wi, Sp Qtrs. 1.25-hr cl. Not open to students with credit for Ed-Excep 770.

771 Exceptional Children: Assessment and Instruction U G 6
Academic and social assessment and instruction of children with learning behavioral disorders in a clinical setting. Sutherland.
Au, Wi, Sp Qtrs. 3 cr, 3 lab. Prereq. Permission of instructor. Not open to students with credit for Ed-Excep 771.

772 Applying Behavioral Approaches in the Classroom U G 3
Classroom management problems, classroom engineering, assessment for teaching roles of key people in a behavioral model designed for children with learning and behavior disorders. Heward, Hill, and Porter.
Au, Wi, Sp Qtrs. 1.25-hr cl. Prereq. 722 or Ed-Excep 722. Not open to students with credit for Ed-Excep 772.

773 Introduction to Guidance Services U G 3
Background and purposes of guidance services; techniques used in studying the individual, informational services; counseling service; placement and follow-up; developing a guidance program. Au, Wi, Sp Qtrs. Prereq. Educ 451. Not open to students with credit for Ed-Sp Sv 773.

774 Introduction to Counseling U G 3
Introduction to counseling theories with emphasis on theoretical bases and applications in selected school and community settings. Au, Wi, Sp Qtrs. 2.5-hr cl. Prereq. 773 or Ed-Sp Sv 773. Not open to students with credit for Ed-Sp Sv 774.

775 Group Processes U G 3

776 Guidance Practices in the Elementary School U G 3
The application of guidance concepts and services to the elementary school situation. Au, Wi, Sp Qtrs. 1.25-hr cl. Prereq. 773 or Ed-Sp Sv 773. Not open to students with credit for Ed-Sp Sv 776.

777 Methods and Materials for Teaching Elementary Level Mentally Retarded U G 6
A practicum on content, teaching techniques, instructional strategies, and materials for teaching elementary level students who are mildly or moderately retarded. McCormick.
Au, Wi Qtrs. 6 cr, 10 hrs practicum. Prereq. Written permission of instructor. Not open to students with credit for Ed-Excep 777.

778 Secondary Methods in Teaching the Mentally Retarded U G 6
Presentation of the philosophy, objectives, and techniques for preparing the mentally retarded for occupational, social, and academic competence. Hill.
Au, Wi, Sp Qtrs. 5 cr, 10 hrs practicum. Prereq. Written permission of instructor. Not open to students with credit for Ed-Excep 778.

779 Educational and Vocational Guidance U G 5
Theories, instruments, resources for educational and vocational guidance of elementary and secondary students including an analysis of post-secondary school educational opportunities. Wi, Sp Qtrs. 1.25-hr cl, 1.2-hr lab. Prereq. 768 or Ed-Sp Sv 778, 773 or Ed-Sp Sv 773, and written permission of instructor. Not open to students with credit for Ed-Sp Sv 779.
Leisure Services for Special Populations U G 3
Basic information on recreation services for special populations including role of the recreation practitioner, legal considerations, procedures for planning activities. Porter.
Au Qtr. 1 2½-hr cl. Prereq: Sr standing or above. Not open to students with credit for Ed-SpEx 780 or Rec Educ 780. Cross listed in Recreation Education.

Assessment of Leisure Skills for Special Clients U G 2
Basic information and limited practice in assessment and observation of leisure skills as they relate to leisure services; emphasis on special clients and populations. Porter.
Wi Qtr. 1 2-hr cl. Prereq: 722 or Ed-SpEx 723, and 780 or Ed-SpEx 780, or Rec Educ 780. Not open to students with credit for Ed-SpEx 781 or Rec Educ 781. Cross listed in Recreation Education.

Developing and Implementing Leisure Plans with Special Clients U G 3
Basic information and limited experience in teaming, selecting, and modifying activities; tracking client participation and consultation skills. Porter.
Wi Qtr. 1 2½-hr cl. Prereq: 781 or Ed-SpEx 781 or Rec Educ 781. Not open to students with credit for Ed-SpEx 782 or Rec Educ 782. Cross listed in Recreation Education.

Recreation Program Development and Evaluation for Special Populations U G 4
Basic information and limited experience in program development, modification, utilizing current research, and program evaluation of recreation programs for special groups and individuals. Porter.
Sp Qtr. 1 2½-hr cl. Prereq: 780 or Ed-SpEx 780 or Rec Educ 783. Not open to students with credit for Ed-SpEx 783 or Rec Educ 783. Cross listed in Recreation Education.

Leisure Programming for Children with Severe Behavior Handicaps U G 4
Basic information and experience in programming activities for children with severe behavior handicaps. Porter.
Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: 722 or Ed-SpEx 723 or permission of instructor. Not open to students with credit for Ed-SpEx 784 or Rec Educ 784. Cross listed in Recreation Education.

Trends, Issues and Technological Developments in Teaching the Visually Handicapped U G 3
Study of technological research and vocational implications for visually handicapped; development of basic skills for teaching use of audio, visual, and tactile aids including Optacon. Ward.
Sp Qtr. 1 2½-hr cl. Prereq: 684 or Ed-SpEx 684. Not open to students with credit for Ed-SpEx 786.

Applied Behavioral Analysis of Exceptional Children U G 3
Designed to help students develop skills in direct teaching with exceptional children.
Wi, Sp Qtr. Prereq: 722 or Ed-SpEx 722. Not open to students with credit for Ed-SpEx 774.

Observation Study of Exceptional Children U G 3
Measurement and evaluation techniques, research designs, geared to teacher application in the classroom.
Sp Qtr. Prereq: 722 or Ed-SpEx 722. Not open to students with credit for Ed-SpEx 775.

Educational Assessment and Remediation of Auditory Receptive and Perceptive Disorders U G 3-6
Educational assessment, planning, and implementation of instructional strategies for developing receptive, perceptual skills. Connard.
Wi Qtr. 1 2½-hr cl. Prereq: Written permission of instructor. Not open to students with credit for Ed-SpEx 776.

Rehabilitation Counseling I U G 3
Orientation to the vocational rehabilitation process; a survey of principles, history, philosophies, legislation, and techniques. Au Qtr. 1 2½-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-SpEx 790.

Orientation to Disabling Conditions U G 3
An overview of major disabling conditions focusing on etiology, treatment, and prognosis; physical restoration; the vocational and functional limitations created by the conditions. Au Qtr. 1 2½-hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-SpEx 791.

Job Placement and Community Coordination U G 3
An analysis of the theories and techniques involved in vocational counseling, job restructuring, job development with the disabled worker; an introduction to models of interagency linkage and cooperation.
Wi Qtr. 1 2½-hr cl. Prereq: 796 or Ed-Sp Ex 790, and permission of instructor. Not open to students with credit for Ed-SpEx 793.

Teaching the Gifted: Instructional and Curricular Adaptations G 4
Information and skills for modifying curriculum for gifted presented in a workshop format. Sweasing.
Sp Qtr. 1 2½-hr cl. 2 hrs practical wk. Prereq: 675 or Ed-SpEx 675. Not open to students with credit for Ed-SpEx 805.

Behavioral Approaches in Schools G 3
Focuses on providing behavioral consultation to regular and special education teachers, development, implementation, and evaluation of behavioral programs in school and home settings. Heron.
Au, Sp Qtr. 1 2½-hr cl. 1 1-hr lab arrr. Prereq: 771 or Ed-SpEx 771, and written permission of instructor. Repeatable to a maximum of 6 cr hrs, including cr hrs in Ed-SpEx 846.

Preparation of Handicapped Children for Post-School Adjustment G 3
Study of the roles of education, guidance, work experience, placement, and follow-up services in helping handicapped children adjust to employment, family, and community life. 1 2½-hr cl. Prereq: 651 or Ed-SpEx 651 or Psych 570, and permission of instructor. Not open to students with credit for Ed-SpEx 847.

Management and Administration of Programs for Exceptional Children G 4
A review of technology, trends, and issues basic to the management and operation of a special education program with the intention of preparing leadership personnel. New.
Au, Sp Qtr. 1 2½-hr cl. Prereq: 651 or Ed-SpEx 651, and grad standing in special education; or written permission of instructor. Not open to students with credit for Ed-SpEx 848.

Teaching Students with Severe Behavior Disorders G 3
Introduction to problems, issues, and practices in educating children with severe behavior disorders including identification, assessment, educational programming, legal considerations. Porter.
Wi Qtr. 1 2½-hr cl. Prereq: 651 or Ed-SpEx 651 or permission of instructor. Not open to students with credit for Ed-SpEx 849.

Rehabilitation Counseling II G 3
An in-depth analysis of the vocational rehabilitation topics of case management, agency functioning, and the adaptation of counseling models, and techniques for use with disabled.
Wi Qtr. 1 2½-hr cl. Prereq: 774 or Ed-SpEx 774, and 790 or Ed-Sp Ex 790. Not open to students with credit for Ed-SpEx 862.
864 Reactions and Adjustment to Disability G 3
A study of individual reactions to various disabling conditions, the adjustment process, cultural norms and expectations, and responses to the rehabilitation process. Sp Qtr. 1 2½-hr cl. Not open to students with credit for Ed-Sp Sv 864.

871 Programming for Students with Severe Behavior Disorders G 3
Basic information and experience in assessment and instruction of academic and social skills of school-aged children with severe behavior handicaps. Porter. Sp Qtr. 1 2½-hr cl, 5 hrs practicum. Prereq: 651 or Ed-Excep 651, 722 or Ed-Excep 722, and 849 or Ed-Excep 849; or permission of instructor. Not open to students with credit for Ed-Excep 871.

876 Organization and Administration of Guidance Services G 3
The selection, organization, and presentation of guidance materials, including analysis of types of organization, methods of initiating a guidance program, and types of in-service programs. Wi, Sp Qtrs. 3 cl. Prereq: 773 or Ed-Sp Sv 773 or equiv. Not open to students with credit for Ed-Sp Sv 876.

884 Planned Field Experience G 3-15
Planned professional counseling or teaching experience in a public school or other educational agency under supervision. Prereq: Written permission of area adviser. Repeatable to a maximum of 15 hrs, including cr hrs in Ed-Excep 884.47, 884.48, 884.50, 884.54, 884.55, 884.60, 884.61, and 884.66; and Ed-Sp Sv 884.34.

884.34 Counselor Education
884.47 Exceptional Children
884.48 Severely/Multiply Handicapped
This course is graded S/U.

884.52 Visually Handicapped
This course is graded S/U.

884.54 Educable Mentally Retarded
The grade of "P" (progress) will be issued for the first three quarters of enrollment; a grade will be issued upon completion of the fourth quarter of enrollment.

884.55 Deaf and Hard of Hearing
This course is graded S/U.

884.60 Physically Handicapped
884.61 Child Study
884.66 Gifted

885 Supervised Teaching in Special Education G 3-6
Student teaching for qualified students in the area of special education. Heron. Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs, including or hrs in Ed-Excep 885.48, 885.52, 885.54, 885.55, 885.60, 885.62, and 885.66.

885.48 Severely/Multiply Handicapped
885.52 Visually Handicapped
885.54 Educable Mentally Retarded
885.55 Deaf and Hard of Hearing
885.60 Physically Handicapped
885.62 Learning and Behavioral Disorders
885.66 Gifted

894 Group Studies G 1-5
Advanced group studies on special problems in education. Prereq: Written permission of instructor. Repeatable to a maximum of 20 or hrs, including or hrs in Ed-Excep 894.48, 894.55, and 894.61; and Ed-Sp Sv 894.34.

894.34 Counselor Education
894.48 Severely/Multiply Handicapped
894.55 Deaf and Hard of Hearing
894.61 Child Study

925 Seminars G 2-5
Prereq: Permission of instructor. Students with permission of advisers may register for more than one section of 925 or for the same section two or more times. Research problems in:

925.34 Counselor Education
925.47 Exceptional Children
925.48 Severely/Multiply Handicapped
925.52 Visually Handicapped
925.54 Educable Mentally Retarded
925.55 Deaf and Hard of Hearing
925.61 Child Study
925.62 Learning and Behavioral Disorders
925.66 Gifted

974 Supervised Practice in Individual Counseling: Children G 3
Counseling techniques unique to elementary age children including play media and conceptualizing the environmental press on the child. Wi Qtr. 1 2½-hr cl. Prereq: 773 or Ed-Sp Sv 773, 774 or Ed-Sp Sv 774, 775 or Ed-Sp Sv 775, and written permission of instructor. Repeatable to a maximum of 9 cr hrs, including or hrs in Ed-Sp Sv 974.

975 Supervised Practice in Group Counseling: Children G 3
Supervision of each enrollee who counsels with a group of children of elementary age in a school or other institutional setting. Wi Qtr. 1 2½-hr cl. Prereq: 773 or Ed-Sp Sv 773, 774 or Ed-Sp Sv 774, and written permission of instructor. Repeatable to a maximum of 9 or hrs, including cr hrs in Ed-Sp Sv 975.

976 Supervised Practicum in Individual Counseling: Adolescent, Youth, and Adult G 3
Supervised practice in counseling individual clients of adolescent to adult age; emphasis on developing counseling skills, including: counseling relationship; conceptualizing clients; self-understanding. Au, Sp Qtrs. 1 2½-hr cl. Prereq: 773 or Ed-Sp Sv 773, 774 or Ed-Sp Sv 774; and written permission of instructor. Repeatable to a maximum of 9 or hrs, including cr hrs in Ed-Sp Sv 976.

977 Supervised Practice in Group Counseling: Adolescent, Youth, and Adult G 3
Supervision of each enrollee who counsels with a group of adolescents, youths or adults in a school or other institutional setting. Sp Qtr. 1 2½-hr cl. Prereq: 773 or Ed-Sp Sv 773, 774 or Ed-Sp Sv 774, and written permission of instructor. Repeatable to a maximum of 9 or hrs, including cr hrs in Ed-Sp Sv 977.

978 Supervised Field Experience in Counseling G 3
Supervised practice in guidance and counseling activities in the work setting; emphasis on the range of activities performed by guidance workers in school and related settings. Su, Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 773 or Ed-Sp Sv 773, 774 or Ed-Sp Sv 774; and written permission of instructor. Repeatable to a maximum of 9 or hrs, including cr hrs in Ed-Sp Sv 978.

986 Developmental Assessment I G 3
Use of testing and observational techniques in developmental assessment with major emphasis on collecting and evaluating data related to global cognitive and affective functioning. Genshaft and Naglieri. Au Qtr. 1 3 hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 886.

987 Developmental Assessment II G 3
Continuation of 986, with emphasis on the techniques developed to assess specific abilities and disabilities for educational planning. Genshaft and Naglieri. Au, Wi Qtrs. 1 3 hr cl. Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 887.
988 Developmental Assessment III G 3
Continuation of 987, with emphasis on the analysis, synthesis, and interpretation of data. Gerstau and Naglieri.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 988.

989 Developmental Assessment IV G 3
Continuation of 988, with emphasis on intervention and the evaluation of intervention techniques. Collins.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 989.

990 Supervised Practice in Developmental Assessment G 2
Assessment of limited numbers of children within a school setting and under close supervision, emphasis on global techniques, specific techniques, educational planning, and counseling with children, teachers, and parents. Collins, Gerstau, and Naglieri.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Must be taken concurrently with one of the following: 986, 987, 988, or 989. Repeatable to a maximum of 10 cr. hrs., including cr. hrs. in Ed-Excep 990.

991 School Psychologist in American Schools G 3
Overview of the trends and issues confronting the professional school psychologist; establishing and maintaining a program of school psychological services. Kabler.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 991.

992 Internship in Child Study G 3, 6, 9, or 12
Professional experiences planned by the student, staff member, and local school supervisor. Plan these professional experiences. Collins, Gerstau, and Naglieri.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Limited to select PhD and post-master's students specializing in school psychology. Repeatable to a maximum of 36 cr. hrs., including cr. hrs. in Ed-Excep 992.

999 Research G 5
Research for thesis or dissertation purposes only.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students with credit for Ed-Excep 999.

304 Group Studies U G 1-6
Interdisciplinary study under the direction of the College of Humanities involving materials of an interdepartmental or intercollegiate type.
Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs.

604 Group Studies U G 1-6
Interdisciplinary study under the direct auspices of the College of Humanities involving materials of an interdepartmental or intercollegiate type.
Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs.

Industrial and Systems Engineering

210 Baker Systems Engineering Building, 1971 Neil Avenue, 422-8541

204 Machine Shop Practice U 5
Lecture and laboratory practice on basic machine tools; emphasis on development of skills necessary for the industrial arts teacher at the secondary level.
Prereq: 2 cr. hrs. and 1-3 hr. of Prereq: Permission of instructor. Not open to students in ind eng, not open to students with credit for 202 or 312. Safety glasses must be worn in laboratory.

311 Manufacturing Engineering U 4
Fundamentals and interrelationships of the principal manufacturing processes; principles and characteristics illustrated with related laboratory demonstrations.
Prereq: 2 cr. hrs. and 1-3 hr. of Prereq: Permission of instructor. Not open to students in ind eng, not open to students with credit for 202 or 312. Safety glasses must be worn in laboratory.

312 Manufacturing Laboratory U 3
Hands-on experience in both tool room and production manufacturing operations in casting, heat treating, welding, and machine processes.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students in ind eng, not open to students with credit for 202 or 312. Safety glasses must be worn in laboratory.

435 Introductory Engineering Statistics I U 4
Introduction to discrete and continuous probability models with applications to industrial engineering problems.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students with credit for Stat 425 or 435. Cross-listed in Statistics.

436 Introductory Engineering Statistics II U 3
Elements of estimation, hypothesis testing and linear regression.
Prereq: 1-3 hr. of Prereq: Permission of instructor. Not open to students with credit for Stat 425 or 435. Cross-listed in Statistics.
458 Practical Experience in an Industrial Organization U 2
To be obtained in some engineering or industrial organization; prior advisor approval and final report required.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Majors in ind eng only. Repeatable to a maximum of 8 or hr. This course is graded S/U.

501 Work Systems Analysis and Measurement U G 4
Analysis of work content; measurement of the performance of man-machine systems; establishment of standards for the evaluation of work; techniques of methods engineering; measurement of man-machine performance via charting techniques.
Au, Wi Qtrs. 3 cl, 1 2-hr lab. Prereq: A minimum cumulative pt-hr ratio of 2.3; acceptance as an ind eng major or permission of chairman, and prereq or concnr: Stat 426.

502 Work Systems Planning and Evaluation U G 3
The evaluation and planning of man-machine systems experiments.
Wi, Sp Qtrs. 2 cl, 1 2-hr lab. Prereq: Math 566, Stat 426 or equiv, and jr standing in ind eng; or permission of chairman.

503 Work Physiology and Biomechanics in Work Design U G 3
Investigations of the physiological and biomechanical aspects of work design; anthropometry, biomechanical analysis, physiocontrol models, and work rest cycles applied to the workplace.
Au, Wi, Sp Qtrs. 2 cl, 1 2-hr lab. Prereq: Stat 425 and 426, and jr standing in ind eng; or permission of chairman.

504 Engineering Economic Analysis U G 3
Economic analysis of engineering projects and methods of operation. The analysis of public investments, and introduction to the analysis of engineering decisions.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 3rd yr standing or written permission of instructor; and a minimum cumulative pt-hr ratio of 2.0.

508 Industrial Practice in Systems Design U G 3
An in-depth systems design project for industrial engineering. Prereq: 4th yr standing in ind eng or permission of instructor. 2-ct sequence, grade given on completion of 508:92; courses must be taken in sequence.

508.01 Industrial Practice in Systems Design I
Problem formulation, data collection, and exploration of design alternatives for an actual systems engineering problem.
Au, Wi Qtrs 2 2-hr cl.

508.02 Industrial Practice in Systems Design II
Exploration and selection of design alternatives; justification, recommendation, and written and oral presentation of problems solution.
Wi, Sp Qtrs. 2 2-hr cl. Prereq: 508.01.

513 Applied Waiting Line Analysis U 3
Analysis and design of stationary and non-stationary queueing systems: model formulation, approximation techniques and adaptation of existing solutions.
Au, Wi Qtrs. 3 cl. Prereq: Math 566 or equiv, Stat 425, a minimum cumulative pt-hr ratio of 2.3, and acceptance as an ind eng major or written permission of chairman. Not open to students with credit for 613.

534 Principles of Industrial Engineering U G 4
A survey of operations methods used in industry including optimization, probability and statistics, waiting line models, quality control, simulation models, and scheduling methods.
Au, Wi, Sp Qtrs. 4 cl. Prereq: 3rd yr standing or equiv with written permission of instructor. Not open to students in ind eng.

549 Introduction to Methods for Planning, Design, and Optimization of Industrial Systems U G 3
Computer methods for planning of production and distribution systems; includes techniques for optimal resource allocation. Au, Wi, Sp Qtrs. 3 cl. Prereq: En Graph 143 or equiv, Math 566, a minimum cumulative pt-hr ratio of 2.3, and acceptance as an ind eng major or written permission of chairman and a minimum pt-hr ratio of 2.0.

554 Introduction to Discrete System Simulation U G 3
Introduction to the analysis of systems via discrete computer simulation models, generation of random variables.
Au, Sp Qtrs. 3 cl. Prereq: Cptr/Inf 211 or 221, or En Graph 143 or 200; and Stat 426, or permission of chairman.

605 Machine Tool Control and Programming U G 4
Provides an introduction to numerically controlled machine tools including principles of operation, programming systems, computer assisted programming, performance characteristics and applications. Alhauwala.
Wi Qtrs. 3 cl, 2 2-hr labs. Prereq: 311 and 620.

610 Planning of Engineering Experiments U G 3
Study of the activities involved in the planning of industrial and research experiments; emphasis on strategic questions such as budget, material availability and time constraints. Neuchardt.
Wi Qtrs. 3 cl. Prereq: 436 or Stat 426 or 436 or 525 or 521.

611 Metal Cutting Theory and Practice U G 3
Analysis and application of machining processes; topics include tool wear, cutting mechanics, heat, surface integrity, and properties of materials. Basqvi.
Sp Qtrs. 3 cl, 1 3-hr lab. Prereq: 631 or equiv.

614 Automation U G 3
A survey of mechanization principles and current design practices involved in the automation of manufacturing operations and processes.
Au, Sp Qtrs. Prereq: 311 or equiv.

615 Automation Laboratory U G 1
Application of principles of mechanization to manufacturing operations and processes.
Au, Sp Qtrs. Prereq or concnr: 614.

620 Computer Application in Industrial Process Control U G 3
Provides an introduction to evaluation and design of practical industrial control systems with emphasis on real time computer control of discrete processes. Alhauwala.
Su, Au, Wi, Sp Qtrs. 2 1-hr cl, 1 2-hr lab. Prereq: En Graph 200 or equiv and jr standing in ind eng or permission of instructor.

631 Tool Engineering U G 4
The design of tools, jigs, and fixtures; the basic elements of fixture design, such as form, locating points, clamping device, and the use of standardized parts.
Au Qtrs. 2 cl, 4 lab hrs. Prereq: 311.

640 Analytical Models for Project Planning and Control U G 3
Project planning and control through the use of OR models including network methodologies; project planning under constrained resources, CPM, PERT, Generalized Activity networks including GERT.
Au Qtrs. 3 cl. Prereq: 651 or 656 or equiv with permission of instructor, undergrad courses in probability and stat.

649 Quantitative Design Methods in Systems Engineering U G 3
Model formulation and solution methods for system design problems with emphasis on matrix and vector space methods for static and dynamic systems. Miller.
Au Qtrs. 3 cl. Prereq: Math 471 or equiv and permission of instructor.
650 Quantitative Design Methods in Systems Engineering II U G 3
Use of mathematical techniques, including finite calculus, Fourier analysis, and assorted transforms in the analysis of industrial engineering systems. Griffith.
Sp Qtr. 3 cl. Prereq: 436 or Stat 426 or 426 or equiv.

651 Optimization for Industrial and Systems Engineers U G 3
Techniques for formulation and solution of deterministic optimization problems. Methods include linear programming, non-linear programming and Kuhn-Tucker theory, surface-search techniques, and dynamic programming.
Au Qtr. 4 cl. Prereq: Math 254 or equiv with written permission of instructor. Not open to students with credit for 656 or 710.

652 Analysis of Inventory Systems U G 3
Mathematical analysis applied to single-stage inventory systems using both deterministic and probabilistic models. Griffe.
Au, Wi Qtrs. 3 cl. Prereq: Stat 426 or equiv, and jr standing in ind eng or permission of chairman.

653 Engineering Data Analysis U G 3
Graphical and other special techniques for estimating parameters and testing goodness of fit of non-normal distributions to engineering data. Neuhardt.
Au Qtr. 3 cl. Prereq: Stat 426 or Stat 521 or Stat 525 or equiv with written permission of instructor.

654 Introduction to Discrete System Simulation U G 3
Introduction to the analysis of systems via discrete computer simulation models, generation of random variables, models, etc. Blank.
Sp Qtr. 3 cl. Prereq: 436 or Stat 426, and En Grapb 200 or Cpt/Ifr 211 or 221; permission of instructor.

655 System Reliability and Availability U G 3
Prediction of system reliability and availability, life cycle costing, methods for analyzing system design concepts from the viewpoint of reliability and availability.
Wi Qtr. 3 cl. Prereq: 436 or Stat 426 or 426 or permission of instructor. Offered every other yr in odd yrs.

656 Production Programming U G 4
Mathematical formulation and solution of problems of scheduling, inventory control, and logistics using linear programming methods.
Au, Sp Qtrs. 4 cl. Prereq 549, Math 566 or equiv, and jr standing in ind eng; or permission of chairman. Not open to students with credit for 506.

658 Facilities Design for the Production System of the Future U G 3
Application of analytical techniques in the layout and design of production facilities including flexible manufacturing systems, robots and cellular systems, and automatic storage/retrieval systems.
Au, Wi Qtr. 3 cl. Prereq: 566 and sr standing in ind eng; or permission of chairman. Not open to students with credit for 506.

660 Quantitative Health Systems Management Methods U G 3
A survey of operations research methods applied to health delivery. Includes model design and analysis and application projects in area hospitals.
Wi Qtr. 3 cl. Prereq: 4th yr standing in ind eng or 534 or equiv with written permission of instructor.

662 Introduction to Applied Decision Analysis U G 3
Introduction to decision analysis and its application. Deals with modern utility theory and the application of this theory to engineering decisions under risk. P. Smith.
Au, Sp Qtr. 3 cl. Prereq: 436 or Stat 425 or 436 or equiv with written permission of instructor.

666 Design, Analysis, and Control of Manufacturing Systems U G 3
Applications of mathematical modeling to manufacturing; modeling of the operating characteristics of various production-inventory systems, with emphasis on their relationship to planning and control. Wilhelm.
Wi Qtr. 3 cl. Prereq: Sr standing in ind eng or written permission of instructor.

671 Industrial Accident Prevention and Control U G 3
Industrial safety practices; OSHA; models of accident phenomena; measurement, inspection, and control of unsafe behavior and conditions; design of loss control programs. Student projects. Rockwell.
Au Qtr. 3 cl. Prereq: 501 or equiv with written permission of instructor.

672 Analysis and Design of Workplace Environments U G 4
Measurement of environmental parameters including noise, heat, gases, particulates, and light, and their effect on human productivity; design of engineering controls. Laboratory includes industrial surveys. P. Smith.
Sp Qtr. 3 cl. 1 2-hr lab. Prereq: Stat 425 and 426, and jr standing in ind eng; or written permission of chairman.

673 Cognitive Engineering U G 3
Methodology for design of person-machine systems; psychological aspects of human performance; design of displays and control, human computer interactions, human information processing. P. Smith.
Au, Wi, Sp Qtrs. 2 cl 1 2-hr lab. Prereq: Stat 425 and 426, and jr standing in ind eng; or written permission of chairman.

689 Senior Laboratory U 3
Students pursue independent laboratory projects of up to two quarters duration. Proposals must be approved by a faculty member prior to registration for the course.
Prereq: Sr standing in ind eng. Repeatable to a maximum of 6 or hrs.

693 Individual Studies in Industrial Engineering U G 1-6
Designed to give the advanced students an opportunity to pursue special studies not offered in fixed curricula.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 18 or hrs. This course is graded S/U.

694 Group Studies in Industrial Engineering U G 1-6
Advanced topics in the various phases of industrial engineering.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 23 or hrs.

701 Arbitration of Industrial Engineering Disputes U G 3
Case studies in the arbitration of technical disputes involving incentive standards, job evaluation, crew size, line balancing, etc. G. Smith.
Sp Qtr. 3 cl. Prereq: 501, or 534, or equiv with written permission of instructor.

705 Robotic Applications in Manufacturing U G 3
Aspects of computer based robots; applications of robots in advanced manufacturing systems; use of learning machines in process automation.
Wi Qtr. Prereq: 620 or written permission of instructor.

710 Optimization in Operations Research U G 3
Non-linear programming including Kuhn-Tucker saddle point and stationary point conditions, primal algorithms, penalty and barrier algorithms, elementary non-linear duality, and dynamic programming.
Wi Qtr. 3 cl. Prereq: 566 or equiv with written permission of instructor.
712 Advanced Metal Forming for Production U G 3
Analysis and design of tooling for industrial hot and cold metal forming processes.
Sp Qtr. 3 cl. Prereq: Metal En 615 or equiv.

720 Computer Applications in Manufacturing Systems U G 3
Principles of digital computer utilization for the control of manufacturing processes and the design, planning, and control of manufacturing systems are presented. Miller.
Sp Qtr. 2 cl, 2 lab hrs. Prereq: 620.

750 Advanced Studies in Industrial Engineering U G 3
Au, Wi, Sp Qtrs. Prereq: 4th yr standing and permission of instructor. Repeatable to a maximum of 26 cl hrs; subdivisions not repeatable. The student must register for specific courses in areas as indicated below, and may register for more than one at a time.

750.01 Job Evaluation and Systems Performance Measurement

750.03 Industrial Applications for Statistics

750.04 Discrete-System Analysis and Control

750.06 System Programming and Optimization

750.07 Contemporary Problems in Plant Layout and Design

750.09 Forecasting and Estimating

750.11 Organization of Industrial Engineering Functions

750.12 Production Engineering

754 Simulation of Complex Systems U G 4
Analysis of systems via continuous discrete and combined continuous-discrete simulation; continuous simulation of discrete-event processes; advanced discrete system simulation. Clark.
Sp Qtr. 4 cl. Prereq: 654 or equiv with written permission of instructor.

755 Analysis of Multi-Criteria Decisions U G 3
Multiple criteria decision-making, multi-attribute decision theory, linear multi-objective programming. Clark.
Sp Qtr. 3 cl. Prereq: 656 or 662 or equiv with written permission of instructor.

760 Basic Concepts of Systems Theory U G 3
Study of formal concepts of systems theory including general models of systems, abstract dynamic systems, the concept of state, goal seeking, and decision making systems. Miller.
Wi Qtr. 3 cl. Prereq: 649 or equiv with written permission of instructor.

762 Applied Decision Analysis U G 3
Exploration of strategies for translating decision analyses, staff studies, and engineering decisions into practice; examination of available data in psychology, sociology, and organizational analysis. Smith.
Au Qtr. 3 cl. Prereq: 662, 435 or Stat 425 or 435 or equiv with written permission of instructor.

772 Decision Analysis U G 3
Introduction to Bayesian decision analysis and its applications. Neubert.
Sp Qtr. Prereq: 662. Not open to students with credit for 862.

782 Design of Decision Networks U G 3
Design of networks involving multiple, interacting decision makers including problems of complementarity, coordination, learning, and decentralization.
Sp Qtr. 3 cl. Prereq: 862. Not open to students with credit for 845.

797 Interdepartmental Seminars U G 1-5
See Interdepartmental Seminars.

811 Methods Engineering G 3-12
Advanced work in one or more special phases of time study, motion study, job evaluation, wage analysis and payment systems, and speed and effort rating; the viewpoint of unions, and problems arising from labor-management relationships. Au, Wi, Sp Qtrs. Prereq: 501 and 502 or equiv with written permission of instructor.

813 Advanced Queueing Theory G 3
Mathematical analysis and design of waiting line systems emphasizing transient solutions, general arrival and service distributions, and priority queues and networks of queues. Giffin.
Wi Qtr. 3 cl. Prereq: 650 and 843 or equiv with written permission of instructor.

814 Stochastic Processes Used in Systems Engineering G 3
Application of Markov, renewal, and stationary processes in systems engineering, spectral representations; transform methods; digital computer methods. Clark.
Au Qtr. (offered in odd yrs). 3 cl. Prereq: 650 or 843 or equiv with written permission of instructor.

815 Estimation of System Parameters from Time Series Data G 3
Estimation of parameter values for stochastic process models used in systems engineering, model identification and forecasting; single and multiple time series. Clark.
Wi Qtr. (offered in even yrs.) 3 cl. Prereq: 843 or 814 or equiv with written permission of instructor.

821 Problems in Production Engineering G 3-12
Advanced work in one or more phases of production engineering involving problems in production design, equipment planning, tool design, and quantity and quality control. Au, Wi, Sp Qtrs. Prereq: Written permission of instructor.

824 Sequencing and Scheduling G 3
Au Qtr. Prereq: 842 or permission of instructor.

828 Advanced Studies in Plant Design and Materials Handling G 3-12
Advanced work in one or more special phases of plant design and materials handling, such as group technology and robotics. Au, Wi, Sp Qtrs. Prereq: 505.

830 Mathematical Programming: Linear G 3
Convex and concave problems, global solutions, extreme point solutions, degeneracy, the Simplex methods, duality, complementary slackness, sensitivity analysis, parametric programming, and applications. Au Qtr. 3 cl. Prereq: Linear Algebra or permission of instructor.

831 Mathematical Programming: Nonlinear G 3
Convex sets, convex functions, saddle point optimality criteria, the Fritz John and Kuhn-Tucker conditions, sensitivity and parametric results, applications, and an introduction to algorithms. Wi Qtr. (offered in even yrs). 3 cl. Prereq: 830, and permission of instructor.

832 Mathematical Programming: Advanced Nonlinear G 3
Wolfe/Falk duality, conjugate/dual duality, applications of quality (e.g., geometric programming, quadratic programming, location problems, decomposition). Sp Qtr. (offered in even yrs). 3 cl. Prereq: 831.

830 Optimization Methods for Large Systems G 3
Methods for the solution of large optimization problems including decomposition, generalized linear programs, relaxation methods, and primal and dual hierarchical decompositions. Wi Qtr. (offered in odd yrs only). 3 cl. Prereq: 710 or 831 or equiv with written permission of instructor.
534 Integer Optimization Methods G 3
Methods used in the solution of applied optimization problems which contain integer variables. Content emphasizes general properties and use of common methods.
Sp QR (offered in odd yrs only), 3 cl. Prereq: 856 or 850 or Math 671 or equiv with written permission of instructor.

535 Product Development Experimentation G 3
Application of linear statistical models to industrial engineering experimentation with emphasis on resource constrained investigations. Prerequisite: 533.
Au QR 3 or 3 cr. Prereq: 842 and Stat 645 or equiv with written permission of instructor.

536 Product Development Analysis G 3
Application of multivariate statistics to problems of industrial experimental planning and analysis; multiple responses, product profile analysis, multivariate quality control, Neumann, etc.
Au QR 3 or 3 cl. Prereq: 842 and Stat 525 or equiv with written permission of instructor.

537 Multilevel Systems Theory G 3
Examination of the structure of hierarchical systems including problems of decomposition and co-ordination. Miller.
Sp QR (offered in odd yrs), 3 cl. Prereq: 766 and permission of instructor.

842 Operations Research I G 3
Introduction to the nature and problems of operations research and the study of actual case studies in the field.
Au. Wi QR 3 or 3 cr. Prereq: Calculus, probability theory and statistical methods, and permission of instructor.

843 Operations Research II G 3
Introduction to the role of operations research in the study of the important techniques and formal approaches to research problems.
Au. Wi. Sp QR 3 or 3 cr. Prereq: 842.

844 Operations Research III G 3
Introduction to topics in operations research including research methodology in the various sciences, and the conduct of actual operations research investigations.
Sp QR 3 or 3 cr. Prereq or concurrence: 843 or permission of instructor.

854 Advanced Simulation Design and Experimental Procedure G 3
Experiments and experimental procedures, estimation of the variance at the time series, multiple comparison, and ranking of alternatives, response surface development methods. Clark.
Au QR 3 or 3 cr. Prereq: 654 or equiv with written permission of instructor.

881 Research in Industrial Engineering G 3-12
Research in decision processes. Prereq: Written permission of instructor. This course is graded S/U.

893 Dynamic Programming G 3
Theory, methodology, and application of dynamic programming. Bishop.
So QR 3 or 3 cr. Prereq: 651 or 710 or equiv with permission of instructor.

894 Optimization of Dynamic Systems G 3
Studies of theory and methodology for optimum control of dynamic systems (sequential decision systems) and the calculus of variations, Pontryagin Maximum Principle, and associated approaches. Miller.
Sp QR (offered in odd yrs), 3 or 3 cr. Prereq: 649 or equiv with written permission of instructor.

966 Programming and Control Research G 3-12
Advanced work in the several phases of programming and control theory, consists primarily of application of mathematical methods to the formulation and solution of process programming and control problems. Miller.
Au. Wi. Sp QR 3 or 3 cr. Prereq: Written permission of instructor.

871 Man-Machine Systems Research G 3-12
Advanced work in special research topics in man-machine systems. Rockwell and Smith.
Au. Wi. Sp QR 3 or 3 cr. Prereq: 672 or 673. This course is graded S/U.

875 Human Factors Engineering in Vehicular Control G 3
Characteristics and limitations of the human controller of aircraft, ground vehicles, design and evaluation of control aids, and human adaptation to control changes. Rockwell.
So QR 3 or 3 cr. Prereq: 672 or 673.

876 Advanced Concepts in Soft Automation G 3
Discussion of advanced concepts in the area of soft automation; impact of fifth generation computers, artificial intelligence, and robotics on manufacturing.
Sp QR 3 or 3 cr. Prereq: 820 or written permission of instructor.

878 Seminar in Industrial Engineering G 2
Seminar in Industrial Engineering G 2
Au. Wi. Sp QR 3 or 3 cr. Repeatable to a maximum of 6 or 8 hrs. This course is graded S/U.

984 Group Studies G 3-12
Advanced topics in the various phases of industrial engineering.
Su. Au. Wi. Sp QR 3 or 3 cr. Prereq: Written permission of instructor. Repeatable to a maximum of 18 or 24 hrs.

989 Interdepartmental Seminar G 3-12
See Interdepartmental Seminars.
Su. Au. Wi. Sp QR 3 or 3 cr.

999 Research in Industrial Engineering G 3-12
Research for thesis or dissertation purposes only.
Su. Au. Wi. Sp QR 3 or 3 cr. This course is graded S/U.

Industrial Design

374 Hopkins Hall, 128 North Oval Mall, 422-6746

160 Introduction to Industrial Design U 3
Introduction to the rationale of design and systematic design processes; an overview of the profession of industrial design; an introduction to the department's educational program.
Au. Wi. Sp QR 3 or 3 cr. 1 2-credit hr. Prereq: VPA Admissions.

250| Studies in Industrial Design U 3
Studies in specialized areas in the field of industrial design, with emphasis on particular aspects of product, visual communication, and interior space design problems. Au QR 3 or 3 cr. Prereq: Permission of instructor.

251 Basic Industrial Design I U 5
Introduction to the theories, methods, and practices of industrial design; with primary emphasis on basic visual and visual processing. Au QR 3 or 3 cr. Prereq: Successful completion of English 110 or 111 or equivalent, Math 116, and the qualifying exam; and a cumulative GPA of 2.00.

252 Basic Industrial Design II U 5
Application of two- and three-dimensional organizational principles; introduction to visual logic, freehand perspective sketching systems, and basic three-dimensional modeling techniques and materials. Wi QR 3 or 3 cr. Prereq: 251; or permission of instructor.
253 Basic Industrial Design III  U 3
253.01 Industrial Design Practices
A continuation of 252 with an introduction to three-dimensional structural principles and materials.
Sp Qtr. 3 2-hr labs. Prereq: 252; concour 253.03; or permission of instructor.
253.03 Industrial Design History
A history of industrial design as affected by technology and other factors within the context of our culture.
Sp Qtr. 2 2-hr lab. Prereq: 252; concour 253.01; or permission of instructor.

258 Basic Typography  U 3
Introduction to the knowledge and skills of typographical design and its corresponding aesthetic, functional, and technological applications and utilizations.
Au, W, Sp Qtr. 1 2-hr cl, 2 2-hr labs. Open only to majors in ind degm and art educ or by permission of instructor.

460 Intermediate Industrial Design I  U 5
Au Qtr. 3 3-hr labs. Prereq: 160. En Graph 121, 122; Communc 105 or 110; Math 116 or equiv; Ind Dign 253.01, 253.03, 256; En Graph 204 or 206 (ll & major); Photog 201 or 203; Cplt/Inf 201 or 211 or 221; Stat 125 or Psych 220 or Econ 442, or permission of chairman.

460.02 Visual Communication Design
Design and application of non-verbal elements in production of visual messages using photographic and handgraphic techniques, based upon communication theory and the theory of signs.

460.04 Product Design
Design of simple products as a means of introducing systematic methods, sketching, model making, human factors and presentation.

460.08 Interior Space Design
An introduction to conceptual planning, space organization, space requirements, and human factors, with emphasis on model making and presentation techniques.

461 Intermediate Industrial Design II  U 5
Wi Qtr. 3 3-hr labs.

461.02 Visual Communication Design
Design and application of typographical elements in production of visual messages using photographic and handgraphic techniques, based upon communication theory and the theory of signs.
Prereq: 160. Communc 105 or 110; 8 cr hrs in arch or en graph; Math 116 or equiv; Ind Dign 253.01, 253.03, 256; Photog 201 or 203, Cplt/Inf 201 or 211 or 221; Stat 125 or Psych 220 or Econ 442, or permission of instructor; concour Ind Dign 521, 551.

462 Intermediate Industrial Design III  U 5
Sp Qtr. 3 3-hr labs.

462.02 Visual Communication Design
Verbal and non-verbal graphic signs, integrated in the design and development of three-dimensional communication solutions in such areas as packaging, exhibit design, or sign systems.
Prereq: 461.02; concour 555; or equiv with written permission of instructor.

462.04 Product Design
Developing of specialized problem solving approaches to more complex product designs which emphasize the refinement of solutions in terms of suitable technology and user consideration.
Prereq: 461.04; concour 555 and 501; or equiv with written permission of instructor.

462.08 Interior Space Design
Design of specialized interior spaces, introducing space planning and design methodology, emphasizing user interaction and existing space and furniture system analysis.
Prereq: 461.08; concour 522 and 555.

501 Conceptual Drawing for Industrial Design  U 3
Principles of creative conceptual drawing and sketching methods used in the design process.
Au Qtr. 2 3-hr cl. Prereq: 253.01, 253.03; En Graph 121 and 122; concour 551 and 460.04 or 460.08; or written permission of instructor.

502 Three Dimensional Design Graphics  U 3
Principles of graphic design for product and interior space design.
Sp Qtr. 2 3-hr cl. Prereq: 258; 461.04 or 461.08; 501 and 553 and Photog 203; concour 555 and 462.04 or 462.06; or written permission of instructor.

511 Visual Communication Hand Graphics  U 3
Advanced laboratory practice in communicating with drawn messages; evaluation and selection of appropriate visual treatments and techniques for media of print, film, and television.
Au Qtr. 2 3-hr labs. Prereq: 253.01; concour: 551, 460.02.

512 Film Graphics and Multi-Media Communication  U 3
Planning, use, and application of film, audio/visual presentations and machine graphics for the visual communication designer.
Sp Qtr. 2 3-hr cl. Prereq: 258; 462.02, 511, 553; Photog 201, 551 and 552; concour 551 and 660.02; or written permission of instructor.

521 Interior Drawing  U G 3
Principles and application of conceptual drawing techniques.
Au Qtr. 2 3-hr labs. Prereq: 253.01, En Graph 122 or Arch 271.

522 Interior Graphics  U G 3
Application and meaning of light, color, material structures, and surface textures; principles of spatial order systems, correlations and intercommunication of space components, forms, signs, styles.
Sp Qtr. 2 3-hr labs. Prereq: 253.01.

534 Interior Specification  U G 3
Overview and analysis of interior product systems, furniture line market surveys: interior specification and contracting.
Wi Qtr. 2 3-hr labs. Prereq: 4th yr standing in ind degm.

551 Industrial Design Manufacturing Materials and Processes  U 3
Overview of the properties and fabrication principles for materials used in visual communication, interior space, and product design.
Au Qtr. 2 2-hr cl, 1 2-hr lab. Prereq or concour: 460.02, or 460.04 and 501; or 460.08 and 501; or equiv with written permission of instructor.

552 Industrial Design Communication Practices  U 3
An overview of communication methods, techniques and procedures utilized in the various stages of the design process.
Wi Qtr. 1 2-hr cl, 1 2-hr lab. Prereq: 460.02, 460.04, 460.08,
554 Human and Environmental Systems
Design U G 3
Overview of the social/behavioral/physical nature of man and
his interaction with the environment as interpreted by the
Industrial designer.
Au Qtr. 1 2-hr cl, 1 2-hr lab. Prereq: 462.02, 460.04, 460.08, and
555.
555 Design Methodology U G 3
Introduction to and application of qualitative and quantitaive
methodology useful in a problem solving process.
Sp Qtr. 1 2-hr cl, 1 2-hr lab. Prereq or concour: 462.04 and
502; or 462.06 and 502; or 462.02; or written permission of
instructor.
656 Industrial Design Professional
Practices U G 3
Investigation of the administrative and legal aspects of the
design profession contrasting the private firm with corporate
and free-lance types of practice.
Sp Qtr. 1 2-hr cl, 1 1-hr cl. Prereq: 661.02 or 661.04; or
661.06 or grad standing in ind design program.
660 Advanced Industrial Design I U G 5
Au Qtr. 3 3-hr labs.
660.02 Visual Communication Design
Application of planning and analysis techniques in designing
two- or three dimensional visual communication systems;
encoding, production, and transmitting practices.
Prereq: 511, 512, 551, 552, 555; Photog 551, 552, or 557.
660.04 Product Design
Design of products and product systems for complex
functions; emphasis is on extending design consideration to
include detailing, mock-ups, prototypes, testing and
servicing.
Prereq: 501, 502, 551, 552, 555; English 305; Ind Eng 311
and 312 or Cer Eng 432 or 434.
660.06 Interior Space Design
Design of interior spaces emphasizing
psychological aspects of spatial components, referring to
human performance and behavior, detail development and
specification of space-creating products.
Prereq: 521, 522, 551, 552, 555; English 305; 6 or cr hrs in cer
eng or ind eng.
661 Advanced Industrial Design II U G 5
Wi Qtr. 3 3-hr labs.
661.02 Visual Communication Design
Development and refinement of visual communication
products and systems; emphasis on the application of visual
communication research practices.
Prereq: 660.02; concour 554; or equiv with written permission
of instructor.
661.04 Product Design
Introduction of field research experience and interdisciplinary
expertise to the design of products and product systems.
Prereq: 660.04; concour 554 or equiv with written permission
of instructor.
6570 Portfolio Organization U G 3
Function and value of a professional portfolio: generation of
components for a personal portfolio with emphasis on content,
format, and application.
Wi Qtr. 2 2-hr cl. Prereq: Sr standing in ind design or written
permission of instructor. Repeatable to a maximum of 15 cr hrs.
671 Photo Graphics U G 3
An experimental photo workshop in techniques of manipulating
existing images to create new visual ideas, emphasizing
individual exploration, discussion and critiques.
Wi Qtr. 2 2-hr labs. Prereq: Permission of instructor.
685 Field Work in Industrial Design U G 3-10
Field application of industrial design in a capacity requiring a
close working relationship with a professional environment.
Au, Sp Qtr. Arr. Prereq: Written permission of instructor.
Repeatable to a maximum of 20 cr hrs.
693 Individual Studies U G 2-5
Advanced study for students in specialized programs.
Su, Au, Wi. Sp Qtr. Prereq: Permission of instructor.
Repeatable to a maximum of 45 cr hrs. This course is graded
Su/S.
694 Group Studies U G 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.
Repeatable to a maximum of 15 cr hrs.
769 Departmental Seminar in Industrial Design
Practice U G 3-5
Critical investigation of a current topic of significance in the
field of design practice, through group discussion and
presentation of research findings.
Au, Wi Qtr. Arr. Prereq: Written permission of instructor.
Repeatable to a maximum of 20 cr hrs.
769 Communication Practices Related to Industrial
Design U G 3
An overview perspective of the variable components and
methods related to the study and analysis of the
communication process as applied to Industrial design.
Sp Qtr. 2 2-hr cl.
785 Orientation to Graduate Studies in Industrial
Design U G 3
Overview of current and future trends in industrial design;
professional organizations and publications; faculty interests
and research; available resources; requirements of graduate
level study.
Au Qtr. 1 2-hr cl, 1 1-hr cl.
786 Design Research and Inquiry U G 3
Design as a mode of inquiry, including examination of
traditional and post-traditional approaches and emphasizing
general problem-solving as a goal-directed, value-laden activity.
Wi Qtr. 2 2-hr cl. Prereq: 785.
787 Industrial Design Planning, Development, and
Evaluation U G 3
Preparation for graduate thesis and project courses with
emphasis on concept development, evaluation, and field
research.
Sp Qtr. 2 1-hr cl. Prereq: 786.
796 Departmental Seminar in Industrial Design Research Principles and Techniques U G 3-5
Advanced work in special problems related to methods and procedures of research in industrial design.
Au Qtr. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

797 Interdepartmental Seminar U G 1-5
Interdisciplinary knowledge and problems examined and discussed in the context of shared concerns.
Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 cr hrs.

894 Group Studies G 1-5
Group studies for students in specialized programs.
Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs.

950 Research Problems in Design G 3-5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 45 cr hrs.

996 Research in Design: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

International Studies

308 Dulles Hall, 230 West 17th Avenue. 422-9660

230 Introduction to the Soviet Union U 5
A survey of the land, people, history, politics, social institutions, literature, and arts of the Soviet Union, conducted by members of several departments. Adams.
Au, Wi, Sp Qtrs. 5 cr. BER/ALC/LAR course.

231 Introduction to Eastern Europe since World War II U 5
Survey of the land, people, history, politics, social institutions, literature, and arts of Eastern Europe since World War II. Watters.
Au, Sp Qtrs. 5 cr. BER/ALC/LAR course.

235 Introduction to China and Japan U 5
Lectures and discussions by faculty and guest speakers on topics related to urban transportation problems, issues, and new approaches to solutions. Term paper required. Given cooperatively by Civil Engineering and Industrial and Systems Engineering; Clark, Godfrey, and Remeth.
Au, Wi, Sp Qtrs. Sr standing or permission of instructor. Repeatable to a maximum of 8 cr hrs.

296 Interdepartmental Seminar in Polar and Alpine Studies G 1-3
A seminar on selected topics involving anthroponomy, botany, climatology, geology, glaciology, microbiology, and soils; given cooperatively by the Institute of Polar Studies, Biological Sciences, and the following departments: Agronomy, Anthropology, Botany, Civil Engineering, Entomology, Geography, Geology and Mineralogy, Microbiology, and Zoology.
Sp Qtr. 1-3 cr. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs.

898 Interdepartmental Seminar in Nutrition and Food Technology G 1
A seminar in nutrition and related fields of food technology, given cooperatively by the following departments: Animal Science, Dairy Science, Food Science and Nutrition, Horticulture, Plant Pathology, and Poultry Science.
Sp Qtr.

899 Interdepartmental Seminars G 1-5
Two or more departments may collaborate in presenting seminars on subjects of mutual interest; topics to be announced. Repeatable by permission.
501 Selected Problems in International Studies U G 5
Class discussions, with several guest speakers, informal conferences, and a reading and research program arranged to meet the special needs of those enrolled. Rogel.
Wi, Qtr. 2 cl. Open only to int. stds. majors or students with equiv preparation.

589 Student Intern Program in International Studies U 5-15
Opportunity to gain knowledge of the policy process in an international government agency. Adams.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Jr or sr standing with at least a B average; 25 cr hrs in a foreign language. Repeatable to a maximum of 15 cr hrs. Travel and subsistence costs to be borne by the student. This course is graded S/U.

593 Individual Studies U G 1-10
Designed to give able students an opportunity to pursue a special course of study not otherwise available to them.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 5 cr hrs. The course is graded S/U.

594 Group Studies U G 3-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.

H783 Honors Course U 3-5
Informal conferences to allow full scope of the initiative of the student. A special topic is assigned to each student. The results are tested by papers and a special examination.
Su, Au, Wi, Sp Qtrs. Sr standing and 40 cr hrs in the social sciences including 15 cr hrs in courses acceptable for a major in int. stds, with a grade of A in at least half of these major courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr hrs. Failure to receive a mark of S in this course is a disqualification for special honors. This course is graded S/U.

Italian

248 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-5942

Students studying foreign languages at the elementary and intermediate levels typically take the sequence of courses numbered 101-102-103-104 and then move on to advanced courses. Students who need to satisfy the Arts and Sciences foreign language requirement must demonstrate competence at the 102 level. The courses numbered 100.01-100.02 are for students: 1) who do not intend to take foreign language beyond the level of 102-02; 2) who do not expect to complete more than ten credit hours sequentially; 3) who prefer a slower-paced introduction. Students admitted with a foreign language condition should take the 101-102 sequence if they intend to continue in a language. Those who do not plan to take more than ten credit hours of foreign language study should take the 100.01-100.02 sequence.

100 Introduction to the Study of Italian U 5
Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 101 or equiv study in high school or college.

100.01 Introduction to the Study of Italian I
Introductory Italian for students with no previous training in Italian; emphasis on reading, listening, and on study skills; part of a two-quarter sequence.

100.02 Introduction to the Study of Italian II
Continuation of 100.01.
Prereq: 100.01 or equiv or permission of dept.

101 Elementary Italian U 5
Elements of Italian grammar with oral and written exercises; attention to ear training and oral practice; elementary reading based on Italian geography, history, and customs.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 100.01 or 100.02. FL Admin Cond course.

102 Elementary Italian U 5
The elements of Italian grammar with abundant oral and written exercises; development of conversational skill; reading, vocabulary building, attention to Italian idioms; modern Italian prose.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 101 or 100.02. FL Admin Cond course.

103 Intermediate Italian U 5
Review of Italian grammar; reading of short stories and plays; increased attention to development of oral and written proficiency.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 102.

104 Intermediate Italian U 5
Prereq: 103 or 112. The following courses are not open to students with credit for 104, and only one of the decimal subdivisions may be taken for credit.

104.01 Basic Course
Intensive practice in oral and written Italian; reading of Italian short stories; grammar and idiom review; course conducted in Italian.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.

104.02 Civilization
Aspects of Italian civilization; geography, history, social development, and the arts; readings and discussion in Italian.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.

111 Intensive Intermediate Italian U 5, 10
Intensive course combining content of 103 and 104 to complete the presentation of basic Italian grammar and to provide extensive practice in language skills.
Sp Qtrs. 5-10 cl. Prereq: 102 or equiv. Not open to students with credit for 104 or 104 decimal subdivisions. Students with credit for 103 or 112 may not register for more than 5 cr hrs. Course intended for students who wish to expedite completion of language requirement.

112 Intensive Italian U 5, 10, 15
Elementary and intermediate Italian; intensive drill in forms, syntax, vocabulary, and idiom; reading of short stories and plays in Italian.
Su Qtr. 15 cl. Enrollment limited to 20 students. Prereq: Permission of instructor. Full-time fees required regardless of number of cr hrs. Equal of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 103 or equiv may not register for credit. Students with credit for 101 and 102 will enroll for 5 cr hrs. Students with credit for 101 only will enroll for 10 or 15 hrs. Students with no credit in Italian will enroll for 15 or 30 hrs. Regardless of cr hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr hrs. No audit. FL Admin Cond course.

150 Introduction to Italian Culture and Literature U 5
Introduction to the main currents of Italian culture from the beginning to the present through literature, art, music, film, and folklore.
Wi, Sp Qtrs. 4-5 cl. Not open to students with credit for 272 or 273. BERVLAC/LCL course.

202 Italian Conversation and Composition U 5
Sp Qtrs. 5 cl. Prereq: 104 or permission of instructor.

271 Italian Literature in English Translation: 14th to 19th Century U 5
Reading and interpretation of selections from Dante’s Divine Comedy, Petrarch’s Canzoniere, and Boccaccio’s Decameron; discussion of their relation to the Middle Ages and the Renaissance.
Au Qtr. 4 or 5 cl. Prereq: English 110 or 111 or equiv. BERVLAC/LCL course.

293 Individual Studies U 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.
401+ Review Grammar and Composition U 3
Review of Italian grammar; composition on assigned topics and practice in translation.
Wi Qtr. 3 cl. Prereq: 104 or permission of instructor.

402 Intermediate Italian Conversation and Composition U 5
Vocabulary building, practice in speaking Italian, and composition dealing with various aspects of present-day Italian life.
Au Qtr. 5 cl. Prereq: 104 or permission of instructor.

420 Thematic Approaches to Modern Italian Literature and Culture U 5
Study of a major theme in modern Italian culture through analysis and discussion of literary texts, film, and opera. Conducted in Italian; topic varies.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 104 or equiv. Repeatable to a maximum of 15 hrs.

601+ Modern Italian Syntax U G 5
Farina.
Au Qtr. 5 cl. Prereq: 401 or permission of instructor.

603+ Advanced Italian Conversation and Composition U G 5
Intensive practice in speaking and writing, based on contemporary usage.
Sp Qtr. 5 cl. Prereq: 401 or 402, or permission of instructor.

504+ Italian Phonetics U G 3
Training in auditory and oral aspects of Italian pronunciation; analysis of the phonetic structure of modern Italian.
Au Qtr. 2 cl. 1 hr lab. Prereq: 401 or 402 or permission of instructor.

621+ Dante U G 5
Introduction to the reading of the Divine Comedy; analysis of major episodes.
Wi Qtr. 5 cl. Prereq: 10 or hrs at the 400-level or permission of instructor.

622+ Petrarch and Boccaccio U G 5
Historical and aesthetic analysis of Petrarch’s poetry; Petrarchism as a European phenomenon; literary background of Boccaccio’s prose and verse, reading from the Decameron.
Wi Qtr. 5 cl. Prereq: 10 or hrs at the 400-level or permission of instructor.

624+ Italian Literature of the Renaissance U G 5
Readings in works of representative authors of the 16th and 17th centuries such as Leonardo, Michelangelo, Castiglione, Machiavelli, Ariosto, and Tasso.
Sp Qtr. 4 or 5 cl. Prereq: 10 or hrs in Italian literature at the 400-level or permission of instructor.

625+ Italian Literature of the 17th and 18th Centuries U G 5
Readings in selected works of Campanella, Marino, Giallai, Metastasio, Vico, Goldoni, Parini, and Alfieri.
Sp Qtr. 5 cl. Prereq: 10 or hrs in Italian literature at the 400-level or permission of instructor.

627+ Modern Italian Fiction U G 5
The evolution of modern Italian fiction from 1800 to the present.
Au Qtr. 4 or 5 cl. Prereq: 10 or hrs at the 400-level or permission of instructor.

628+ Modern Italian Poetry and Drama U G 5
The evolution of Italian poetry and drama from 1800 to the present.
Au Qtr. 5 cl. Prereq: 10 or hrs in Italian literature at the 400-level or permission of instructor.

693 Individual Studies U G 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies U G 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs.

172+ Studies in Italian Literature: 14th Century U G 3
Intensive study of a major work, or topic such as La Traviata, or the Vita Nova, or reading in relevant criticism and scholarship.
Sp Qtr. 3 cl. Prereq: Grad students, and by permission of instructor to hrs majoring in Italian with credit for 621, 622, or equiv.

725+ Studies in Italian Literature: 15th and 16th Centuries U G 3
Intensive study of a major work, or topic such as La Traviata, or the Vita Nova, or reading in relevant criticism and scholarship.
Au Qtr. 3 cl. Prereq: Grad students, and by permission of instructor to hrs majoring in Italian with credit for 623 or equiv.

726+ Studies in Italian Literature: 17th and 18th Centuries U G 3
Intensive study of a major work, or topic such as La Traviata, or the Vita Nova, or reading in relevant criticism and scholarship.
Au Qtr. 3 cl. Prereq: Grad students, and by permission of instructor to hrs majoring in Italian with credit for 624 or equiv.

793 Honors Course U G 3-5
A program of individual study for undergraduate honors students; includes individual conferences and reports; requires presentation and oral defense of an honors thesis.
Su, Au, Wi, Sp Qtrs. 4 to 5+ years starting with at least a 3.5 cumulative GPA and credit in Italian; written permission of instructor under whose supervision the work is to be completed, and of the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

792+ Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: grad standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

801 Teaching Italian at the College Level U G 5
Methods and techniques for teaching Italian Language at the college level.
Au Qtr. Two wks intensive workshop; at least 3 wks prior to the beginning of the course. Prereq: Teaching assistant in the Dept of Romance Languages and Literature or permission of instructor. Not open to students with credit for Ed-Hlms 801.01. For students enrolled in this course, the maximum number of credit hours required for graduation is increased by 5 hrs. Cross-listed in Education: Humanities as 801.01.

811+ History of the Italian Language: Introduction G 5
Basic concepts of historical linguistics; the major factors of change in the history of the Italian language from the Roman period to the present.
Wi Qtr. 4-5 cl. Prereq: MA candidates in Italian, others by permission of instructor.

551 Seminar in Italian Literature G 2-5
Au Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

532 Seminar in Italian Literature G 2-5
Wi Qtr. 2 or 5 cl. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.
883 Seminar in Italian Literature G 2-5
Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs.

885* Introduction to Methods in the History and Criticism of Literature G 5
Selected readings in basic literary history, criticism, and theory, with practice in the use of standard bibliographical aids to scholarship.
Au Qtr. 4 or 5 cl.

Medieval and Renaissance Culture
See Medieval 688.

Medieval and Renaissance Literature
See Medieval 689.

893 Individual Studies G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr. hrs. This course is graded S/A/U.

894 Group Studies G 1-15
Investigation of minor problems in the various fields of Italian literature and language.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 30 cr. hrs.

999 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 cr. hrs with permission of dept.

999 Research in Italian Language or Literature G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Japanese

275 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-5816.

101 Elementary Modern Japanese I
Elements of standard colloquial Japanese grammar, with intensive oral and written exercises; introduction to the Japanese writing system (hiragana, katakana, and kanji).
Fl. Admis Cond course.
101.01 Classroom Track U 5
Au Qtr. 5 cr. Students must register for and complete 5 or hrs during the qtr. Not open to students with credit for 101. This course is available for EM credit.
101.51 Individualized Track U 1-5
Su, Au, Wi, Sp Qtrs. Students register for and complete from 1 to 5 cr. hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 102.51. Progress is sequential from one cr to the next with proficiency at the level of 80% required for advancement. Not open to students with credit for 101.

102 Elementary Modern Japanese II U 5
Continuation of 101. Fl. Admis Cond course.
102.01 Classroom Track U 5
Wi Qtr. 5 cr. Prereq: 101 or 101.01 or 5 or hrs of 101.51. Students must register for and complete 5 or hrs during the qtr. Not open to students with credit for 102. This course is available for EM credit.
102.51 Individualized Track U 1-5
Su, Au, Wi, Sp Qtrs. Students register for and complete from 1 to 5 cr. hrs during the qtr. Progress is sequential from one cr to the next with proficiency at the level of 80% required for advancement. Not open to students with credit for 101.

103 Elementary Modern Japanese III U 5
Continuation of 102.
103.51 Classroom Track U 5
Sp Qtr. 5 cr. Prereq: 102 or 102.01 or 5 or hrs of 102.51. Students must register for and complete 5 or hrs during the qtr. Not open to students with credit for 103. This course is available for EM credit.

104 Elementary Modern Japanese IV U 5
Continuation of 103 with supplementary reading of selected graded texts.
Au Qtr. 5 cr. Prereq: 103 or 112 or equiv with written permission of instructor. This course available for EM credit.

112 Intensive Japanese U 5, 10, 15
An introductory course with emphasis on basic structure taught through oral-aural drill; hiragana, katakana, and a limited number of kanji; equivalent to 101, 102, and 103.
Su Qtr. Prereq: Permission of instructor. Full-time fee required regardless of number of cr. hrs. Equiv of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 102 or equiv may not register for credit. Students with credit for 101 and 102 will enroll for 5 or hrs; Students with credit for 101 will enroll for 10 or hrs. Students with no credit in Japanese will enroll for 15 or hrs. Regardless of cr hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr hrs.

205 Intermediate Modern Japanese U 5
Continuation of 104 with a shift in emphasis from the spoken to the written language; reading of selected graded texts, writing, and composition.
Wi Qtr. 5 cr. Prereq: 104 or equiv with written permission of instructor. This course is available for EM credit.

206 Intermediate Modern Japanese U 5
Continuation of 205.
Sp Qtr. 5 cr. Prereq: 205 or equiv with written permission of instructor. This course is available for EM credit.

212* Intensive Japanese U 5, 10, 15
Continuation of 103 or 112 with a gradual shift in emphasis from the spoken to the written language; selected graded readings, writing, and composition.
Su Qtr. 15 cr. Prereq: 103 or 103.01 or 5 or hrs of 103.51 or 112 or permission of instructor. Full-time fee required regardless of number of cr hrs. Equiv of 104, 205, 206. Students may not register for any other course if they enroll in 212. Students with credit for 104 and 205 will enroll for 5 or hrs. Students with credit for 104 only will enroll for 10 or hrs. Students with credit for 103 or 112 will enroll for 15 or hrs. Regardless of cr hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr hrs.

231 Elements of Japanese Culture U 5
A survey of literature, art, religion, philosophy, and social institutions of the Japanese people from the earliest to the most recent times.
Au, Wi, Sp Qtrs. 5 cr. Taught in English. BER/LAC/LAR course.

251 Japanese Literature in Translation U 5
Representative masterpieces from Japanese literature: fiction, drama, poetry, prose. Taught in English.
Sp Qtr. 5 cr. BER/LAC course.

252 Modern Japanese Literature in Translation U 5
Modern Japanese literature from late 19th century Western influences to contemporary writers; selected readings in English translation with emphasis on Tanizaki, Kawabata, and Mishima.
Wi Qtr. 5 cr.
253 Individual Studies U 1-5
Individual investigation of problems in Japanese culture, language, and literature.
Su, Au, Wi, Sp Qtr. Arr. PreReq: Permission of instructor; Repeatable to a maximum of 15 or hrs. This course is graded S/U.

254 Group Studies U 1-5
Su, Au, Wi, Sp Qtr. Repeatable to a maximum of 15 or hrs.

507 Advanced Modern Japanese I U G 5
Readings in modern Japanese aiming at acquisition of control of the 1500 characters in common use: translation, composition, character drill.
Au Qtr. 5 cl. PreReq: 206 or 212 or equiv with written permission of instructor.

508 Advanced Modern Japanese II U G 5
Continuation of 507: supplementary readings in short stories and standard reference works.
Wi Qtr. 5 cl. PreReq: 557 or equiv with written permission of instructor.

509 Advanced Modern Japanese III U G 5
Continuation of 508.
Sp Qtr. 5 cl. PreReq: 508 or equiv with written permission of instructor.

514 Advanced Japanese Conversation U 3
Lectures, discussion, reports: extensive use of taped material including news broadcasts, drama, interviews, informal conversations; conducted entirely in Japanese.
Au, Wi, Sp Qtr. 3 cl. PreReq: 104 or permission of instructor; Repeatable to a maximum of 9 or hrs.

601 Classical Japanese I U G 5
Classical written language with emphasis on its structure; reading and analysis of selected pre-modern literary texts.
Au Qtr. 5 cl. PreReq: 509 or equiv.

602 Classical Japanese II U G 5
Continuation of 601.
Wi Qtr. 5 cl. PreReq: 601 or equiv.

603 Classical Japanese III U G 5
Continuation of 602.
Sp Qtr. 5 cl. PreReq: 602 or equiv.

654 Japanese Literature: Classical Period U G 5
Survey of Japanese literature from the eighth to the mid-fourteenth century: myths, court poetry, tales, fiction, diaries, and miscellaneous.
Au Qtr. 5 cl. PreReq: 251 or 251 or 252, or another Japanese literature course at the 200 level or above. Not open to students with credit for 754.

655 Japanese Literature: Medieval and Edo Periods U G 5
Survey of Japanese literature from the mid-fourteenth to the mid-nineteenth century: popular tales, poetry, drama, and the fiction of the merchant class.
Wi Qtr. 5 cl. PreReq: 251 or 251 or 252, or another Japanese literature course at the 200 level or above. Not open to students with credit for 755.

656 Japanese Literature: Modern Period U G 5
Survey of Japanese poetry, fiction, and drama from the 19th century to the present.
Sp Qtr. 5 cl. PreReq: 251 or 251 or 252, or another Japanese literature course at the 200 level or above. Not open to students with credit for 756.

651 Readings in Modern Japanese I U G 5
Selected readings in modern literary, scholarly, and journalistic Japanese; essentially a language course intended to improve fluency.
Au Qtr. 5 cl. PreReq: 509 or permission of instructor.

652 Readings in Modern Japanese II U G 5
Continuation of 651.
Wi Qtr. 5 cl. PreReq: 661 or permission of instructor.

653 Readings in Modern Japanese III U G 5
Continuation of 652.
Sp Qtr. 5 cl. PreReq: 662 or permission of instructor.

680 Introduction to Japanese Linguistics U G 5
An introduction to the phonology, syntax, and lexicon of the Japanese language.
Au Qtr. 3 1 hr. cl. PreReq: 103 or 103.01 or 5 or hrs of 103.51, and Linguist 601, or permission of instructor.

681 History of the Japanese Language U G 5
A survey of the development of the Japanese language from early times to the present.
Sp Qtr. 3 1 hr. cl. PreReq: 103 or 103.01 or 5 or hrs of 103.51, and Linguist 601 or permission of instructor.

693 Individual Studies U G 1-5
Requires the use of Japanese sources and the completion of a paper reflecting the student's research.
Su, Au, Wi, Sp Qtr. PreReq: 509 or 603, and written permission of instructor; Repeatable to a maximum of 15 or hrs. Not a substitute for regular language courses. This course is graded S/U.

694 Group Studies U G 1-5
Investigations of minor problems in Japanese language and literature.
Su, Au, Wi, Sp Qtr. PreReq: Written permission of instructor.
Repeatable to a maximum of 15 or hrs. Not a substitute for regular language courses.

751* Studies in Japanese Poetry U G 5
Critical studies in Japanese poetry: survey of poetic forms, techniques, and aesthetics; concentration on a specific collection, poet, or cotarle; topic varies.
Au Qtr. 5 cl. PreReq: 601, 654, 655, and 656, or permission of instructor. Repeatable to a maximum of 15 or hrs.

752* Studies in Japanese Prose Literature U G 5
History and critical study of myths, early tales, diaries, chronicles, settsuya, miscellanies, medieval tales, Edo fiction, or the modern novel; topic varies.
Wi Qtr. 5 cl. PreReq: 601, 654, 655, and 656; or permission of Instructor. Repeatable to a maximum of 15 or hrs.

753* Studies in Japanese Drama U G 5
History and texts of Japan's dramatic literature: no, Kyogen, kowada-uta, bunraku, kabuki, shibute-shitoge, shingeki, rakugo; topic varies.
Sp Qtr. 5 cl. PreReq: 601, 654, 655, and 656; or permission of instructor. Repeatable to a maximum of 15 or hrs.

752* Japanese Phonology U G 3
An analysis of the phonological structure of present-day Japanese with a critical examination of traditional and contemporary works on Japanese phonology.
Sp Qtr. 3 cl. PreReq: 650, 681 or permission of instructor. Not open to students with credit for 624.

H793 Honors Course U 3-5
A program of reading arranged for each student, with individual conferences, reports, and honor thesis.
Au, Wi, Sp Qtr. PreReq: 4th year standing; a record of A in at least half of the Japanese courses taken and an average of B in all courses; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Open only to candidates for BA in Japanese. Repeatable to a maximum of 15 or hrs. This course is graded S/U.
Japanese Syntax U G 3
A survey of the grammatical structures of present-day
Japanese; presentation of syntactic rules within the model
of transformational grammar.
Au Qtr. 3 cl Prereq: 680, 681, or permission of Instructor. Not
open to students with credit for 629.

Japanese Dialects U G 3
A survey of current trends and methods in Japanese
dialectology; illustrative material from a variety of dialects
(recordings and maps) will be used.
Wi Qtr. Prereq: 206 and 580, or equiv with written permission
of instructor.

Interdepartmental Studies in the
Humanities U G 3-5
Two or more departments present colloquia on subjects of
mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing or permission of
instructor(s). Repeatable to a maximum of 15 cr hrs with
permission of dept.

Japanese Bibliography and Research
Methods G 3
Problems and procedures in the use of Japanese
bibliographies and other reference materials.
Au Qtr. 3 cl Prereq: 509 or permission of instructor.

Teaching Japanese at the College Level G 5
Methods and techniques of teaching college-level Japanese;
selection and preparation of teaching texts, and laboratory
materials; observation of a variety of language classes.
Au Qtr. Two wks intensive workshop preceded by 2 hr wks cl.
Prereq. Permission of instructor. For students enrolled in
this course, the minimum number of cr hrs required for
graduation is increased by 5 hrs.

Topics and Problems in Japanese
Literature G 3-5
Readings in the major genres of Japanese literature with
emphasis on analysis and critical evaluation.
Sp Qtr. 3 cl Prereq: 663 or 655, and written permission of
instructor. Repeatable to a maximum of 15 or hrs.

Seminar in Japanese Literature G 3-5
Au, Wi, Sp Qtrs. Prereq: 503 or 663, and written permission of
instructor. Repeatable to a maximum of 15 or hrs.

Topics and Problems in Japanese
Linguistics G 3-5
A detailed investigation of specific problems in the
phonological, syntactical, and lexical analysis of the Japanese
language.
Sp Qtr. Prereq: 208 and 680. Repeatable to a maximum of 10 or
hrs.

Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of
mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor(s).
Repeatable to a maximum of 15 or hrs with permission of
dept.

Research in Japanese: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Jewish Studies
339 Dohle Hall, 230 West 17th Avenue,
422-6291

Group Studies U 1-5

294 Introduction to Mass Communication U 3
Introduction to the mass media in America, especially
newspapers and broadcasting; analysis of forces and
institutions affecting media behavior, and the resulting quality
of performance.
Au, Wi, Sp Qtrs. Prereq: English 110 or 111 or equiv.

Basic Techniques of Journalism U 3
Basic newswriting, reporting, editing.
Not open to students with credit for 201.

Basic Reporting and Newswriting U 5
Reporting and writing news and features for the print and
electronic media.
Su, Au, Wi, Sp Qtrs. 5 2-hr labs. Prereq: 101, typing
ability required; SS Admis Consr course.

Advanced Reporting and Newswriting U 3
Continuation of 201 with emphasis on more complicated
reporting and news writing.
Su, Au, Wi, Sp Qtrs. 1 cl, 2 2-hr labs. Prereq: 201.

Photojournalism U 3
Reporting the news with a camera; how to recognize, develop,
and create picture stories; experience in coordinating words
and news pictures; picture editing; layout.
Su, Au, Wi, Sp Qtrs. 2 cl, 1 2-hr lab. Prereq: 202. Not open to
students with credit for 203.

Editing U 3
Editing of copy, headline writing, re-writing, and general copy
desk work.
Su, Au, Wi, Sp Qtrs. 2 cl, 2 2-hr labs. Prereq: 202. Not open to
students with credit for 204.

Graphics of Communication U 4
An introduction to visual and graphic communication in the
print media; involving perception, typograpy, picture editing,
and basic design skills.
Au, Wi, Sp Qtrs. 2 cl, 2 2-hr labs. Prereq: 201 or permission of
instructor. Not open to students with credit for 211.

Methods of Audio-Visual
Communications U 3
Introduction to audio-visual formats in mass media;
emamination of materials and techniques used for mass
audience productions; emphasis on multi-media format.
Au, Wi Qtrs. 1 1-hr cl, 2 2-hr labs. Prereq: 201 or permission
of instructor. Not open to students with credit for 211B.

411 Reporting and Writing Radio News U 4
Audio materials, instruments and techniques used in reporting
news for radio; emphasis on the technical, aesthetic and
ethical problems in broadcast reporting.
Au, Sp Qtrs. 2 cl, 2 2-hr labs. Prereq: 202.
412 Reporting and Writing for Television U 3
Reporting and editing for the news film medium, writing for the news film and newscast; practice in television news production and newscasting.
Au, Wi, Sp Qtrs. 2 2-hr cl, lab hrs arr. Prereq. 411. Not open to students with credit for 612.

421 Journalism Laboratory—News Editorial U 2
Reporting, editing and photojournalism, primarily for the Lansing Press.
Su, Au, Wi, Sp Qtrs. No more than a total of 6 cr hrs may be earned in any combination of decimal subdivisions of 421 and 422.

421.01 Reporting
Prereq. 302.

421.02 Editing
Prereq. 304.

421.03 Photojournalism
Prereq. 203 or 303, and permission of instructor.

422 Radio and Television News Laboratory U 2
Reporting and editing news primarily for radio and television programs.
Su, Au, Wi, Sp Qtrs. Prereq. 411 or permission of instructor. No more than a total of 6 cr hrs may be earned in any combination of decimal subdivisions of 421 and 422.

422.01 Radio
Prereq. 412 or permission of instructor.

422.02 Advanced Radio
Prereq. 422.01.

422.03 Television
Prereq. 422.01.

431 Public Relations Principles U 3
Origin and development of public relations, including ethical standards and functional role in modern society; basic principles of public relations theory, philosophy, and operation.
Au, Wi, Sp Qtrs. 3 cr. Prereq. Jr or sr standing. Not open to students with credit for 631.

432 Case Studies in Public Relations U 3
Specific case studies designed for internal and external audiences; organization, administration of programs and departments; analysis of techniques, channels, media, and applicable research methods.
Au, Wi Qtrs. 3 cr. Prereq. 431 or 631. Not open to students with credit for 632.

433 Public Relations Practice U 3
Application of principles to specific public relations problems.
Au, Wi, Sp Qtrs. Prereq. 431 or 631. Open only to declared sr journalism majors. Not open to students with credit for 533.

481 Principles of Advertising U 3
Advertising in a free market society. Its role, history, legal, and other restraints; social and economic impacts; agency operation and role of the media in advertising.
Au, Sp Qtrs. 2 11/2-hr cl. Prereq. Soph standing. Not open to students with credit for 494A Sp Qtr 1981 or Au Qtr 1982.

489 Broadcast Field Experience U 3
An off-campus field experience for advanced broadcast students.
Su, Au, Wi, Sp Qtrs. Arr. Prereq. Jr or sr standing and permission of instructor. Not open to students with credit for 627.02. This course is graded S/U.

494 Group Studies U 1-5
Regular class meetings and group discussion of specified problems.
Su, Au, Wi, Sp Qtrs. Prereq. Sophomore standing or above. Repeatable to a maximum of 15 cr hrs.

555 Factual Writing U G 3
Gathering and writing factual material; research interviewing, critical analysis, and rewriting are stressed.
Au, Wi, Sp Qtrs. Prereq. English 110 or 111 or equiv. Not open to students majoring in journalism.

555.01 Agriculture
555.02 Home Economics

671 Basic Journalism for Beginning Graduate Students Q 5
Introduction to gathering facts and writing news stories for the media, with attention given to substantive reporting at the local level; libel, and fair play.
Au Qtr. 3 cr, 2 1-hr labs. Prereq. Grad standing and permission of instructor. Credit does not apply to the minimum hrs required for grad study in journalism.

602 Magazine Writing U G 3
Non-fiction writing for magazines, commercial and industrial; emphasis on the non-technical full-length magazine article.
3 cr. Prereq. 202 or permission of Instructor.

Advanced theory and practice in news selection, preparation and display for newspaper, magazine, broadcast and photojournalism media; emphasis on the responsibility of the journalist.
Au, Wi, Sp Qtrs. Prereq: Journ 3rd yr standing and written permission of instructor.
527.01 News-Editorials
527.02 Radio-Television
527.03 Photojournalism
527.04 Magazine

541 Reporting Public Affairs U G 3
Instruction and practice in reporting the news of government, the courts, politics, education, finance, intergovernmental relations, political public opinion, and urban affairs.
Su, Au, Wi, Sp Qtrs. 2 cr, 1 hr lab. Prereq: 421.01 or 422.01 and Jr, Sr, or grad standing in journalism.

542 Mass Media, Society, and Basic Issues U G 4
Analysis of the basic issues affecting news performance, especially ethics, news management, government control, gatekeeping, monopoly, etc.; assessment of the effects of the resulting performance.
Su, Au, Wi, Sp Qtrs. 4 cr. Prereq: Sr or grad standing, or permission of instructor.

543 World Press U G 4
An analysis of newspapers, news agencies, and broadcast news outlets and their roles in the political, economic and cultural development of their nation states.
Au, Wi, Sp Qtrs. 3 cr, coreq. Prereq: Jr, Sr, or grad standing, or permission of instructor.

548 Cartooning in American Journalism U G 3
A study of the history of cartooning and its role in society and American Journalism; an analysis of the power of cartoons as a popular communication medium.
Sp Qtr. 2 hr cr. Prereq: Journ major and permission of instructor. Not open to students with credit for 4840.

551 Mass Media Research and Theory U G 4
An overview of methods and findings of research in mass communications; instruction in the techniques of surveying public opinion, experimentation and content analysis.
Au, Wi Qtrs. 4 cr. Prereq: Jr, Sr, or grad standing, or permission of instructor.

553 Individual Studies U G 1-5
Students make extensive and significant studies in the field of journalism.
Au, Wi, Sp Qtrs. Prereq: Journ 4th yr standing and permission of director or grad standing and permission of instructor. No more than 5 cr hrs for undergrad and 6 cr hrs for grad students may be earned in any combination of departmental substitutions. These courses are graded S/U.
553.01 News-Editorial
553.02 Radio and Television
553.03 Photojournalism
553.04 Magazine
553.05 Public Relations

594 Group Studies U G 1-5
Regular class meetings and group discussions of specified problems.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 25 cr hrs.

711 Electronic Publishing U G 3
Survey of videotex, teletext, and cabletext; emphasis on news services provided by these publishing activities; impact on other media.
Wi Qtr. 1 hr cr.

712 Producing News for Videotex, Teletext, and Cabletext U G 3
Presentation of the techniques of editing, writing, and reporting for electronic publishing.
Sp Qtr. 1 cr, 1 hr lab. Prereq: 201 and 202, or 571, or permission of instructor; 711 recommended.

7783 Honors Course U 3-5
A program for students who are candidates for a degree with distinction in journalism.
Su, Au, Wi, Sp Qtrs. Prereq: Sr standing, a grade of A in half of the major courses and a B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

501 Seminar in Journalism G 4
Integrated reading and research in the fields of journalism.
Su, Au, Wi, Sp Qtrs. Prereq: 651 or equiv. Repeatable to a maximum of 12 cr hrs.
A—Field Studies in Mass Communication
B—Experimental Studies in Mass Communication
C—Content Analysis in Mass Communication
D—Theories of Mass Communication

502 Seminar in Journalism G 4
Integrated reading and research in the fields of journalism.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 12 cr hrs.
A—People, Society, and Mass Media
B—History of Mass Media
C—Legal Problems in Communication
D—Literature and Journalism

503 Seminar in Journalism G 4
Integrated reading and research in the fields of journalism.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 12 cr hrs.
A—Problems in News-Editorial Journalism

505 Seminar in Kiplinger Public Affairs Reporting
Designed to enhance the understanding and public affairs reporting capabilities of persons submitted to the Kiplinger Program.
Au, Wi, Sp Qtrs. Prereq: Admission of the Kiplinger Public Affairs Reporting Program.
805.01 Local, State, and Federal Levels G 3
3 cr. Repeatable to a maximum of 9 cr hrs.
805.02 Field Studies G 6
Arr.

512 International Communications G 5
Practices of journalism throughout the world and their role in hindering or advancing the international dissemination of news; manipulative communication between nations.
Wi Qtr. 2 1/2 hr seminars. Prereq: Grad standing.

813 Foreign Correspondence G 5
Analysis of international developments as reported in world press media as to their origins, issues, and likely evolution.
Sp Qtr. 2 1/2 hr seminars. Prereq: Grad standing.

999 Research in Journalism G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Judaic and Near Eastern Languages and Literatures

236

355 Dieter Cunz Hall of Languages, 1841 Millkin Road, 422-9255

272 Masterpieces of Near Eastern Literatures in Translation U 5
An introduction to major works of the Arabic, Persian, Turkish, and modern Greek literary tradition from the 6th century to the present.
Wi Qtr. 5 cl. Taught in English. BER/LAC/LAR course.

273 Masterpieces of Judaic Literatures in Translation U 5
An introduction to major works of the Judaic literary traditions from earliest times to the present.
Wi Qtr. 5 cl. Taught in English. BER/LAC/LAR course.

294 Group Studies U 1-5
Special topics to be announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

6101* Introduction to Akkadian U G 5
Introduction to the phonology, morphology, and syntax of Akkadian; readings from The Code of Hammurabi, The Annals of Sennacherib, and other texts.
Sp Qtr. 5 cl. Prereq: Permission of instructor.

520* Biblical Aramaic U G 5
Introduction to the language of the Aramaic sections of the books of Daniel and Ezra in the Old Testament.
Wi Qtr. 5 cl. Prereq: Hebrew 104 or permission of instructor.

6301* Introduction to Ugaritic U G 5
Introduction to the language and literature of Ugaritic; readings in the Ugaritic mythological literature.
Sp Qtr. 5 cl. Prereq: Permission of instructor.

693 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs in each decmil subdivision.

693.20 Akkadian
693.20 Biblical Aramaic
693.20 Ugaritic

694 Group Studies U G 1-5
Special topics to be announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Good standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

Korean

276 Dieter Cunz Hall of Languages, 1841 Millkin Road, 422-5816

101 Elementary Modern Korean I U 5
Standard modern Korean: development of listening, speaking skills; basic grammar; reading and writing of the Korean script (hangul).
Su Qtr. 5 cl. Not open to students with credit for Hum Col 294 Au 81. This course is available for EM credit. FL, Admis Cond course.

102 Elementary Modern Korean II U 5
Continuation of 101.
Wi Qtr. 5 cl. Prereq: 101 or equiv. Not open to students with credit for Hum Col 294 Wi 82. This course is available for EM credit. FL, Admis Cond course.

103 Elementary Modern Korean III U 5
Continuation of 102.
Sp Qtr. 5 cl. Prereq: 102 or equiv. Not open to students with credit for Hum Col 294 Sp 82. This course is available for EM credit.

104 Elementary Modern Korean IV U 5
Continuation of 103.
Su, Au, Sp Qtrs. 5 cl. Prereq: 103 or equiv. This course is available for EM credit.

Landscape Architecture

School of Architecture

33 Brown Hall, 190 West 17th Avenue, 422-8263

200 Outlines of Landscape Architecture U 3
Introduction to landscape architecture and the environment; roles of the landscape architect in contemporary society.
Au, Wi, Sp Qtrs. 3 cl. Not open to students with credit for 300. VPA Admis Cond course.

201 History of Landscape Architecture U 3
Critical analysis of man's historical effort to control and shape his environment from earliest times to present.
Au Qtr. 3 cl. 33 Admis Cond course.

202 Shaping the American Landscape U 3
Critical analysis of the shaping of the American landscape.
Wi Qtr. 3 cl. VPA Admis Cond course.

203 History of the Profession of Landscape Architecture U 3
Critical analysis of the historical formulation, growth, and present status of the profession of landscape architecture, concentrating on personalities, concerns, and works by selected landscape architects.
Sp Qtr. 3 cl.

204 Design of Gardens and Small Properties I U 5
Design of small-scale residential projects; master planning, use of plants and architectural materials, graphics.
Au Qtr. 2 cl. 4 lab hrs. VPA Admis Cond course.

205 Design of Gardens and Small Properties II U 5
Continuation of 204.
Wi Qtr. 2 cl. 4 lab hrs. Prereq: 204.

241 Landscape Architectural Design I U 6
Study of existing outdoor spaces via graphics and models; design principles, elements and spatial organization.
Au Qtr. 2 cl. 12 lab hrs.

242 Landscape Architectural Design II U 7
Landscape design as creative problem solving; the establishment of goals and objectives use of spatial data diagramming, the generation and evaluation of alternative design solutions.
Wi Qtr. 2 cl. 12 lab hrs. Prereq: 241.

243 Landscape Architectural Design III U 7
Development of landscape design skills in abstract and real forms; color and spatial organization.
Sp Qtr. 2 cl. 12 lab hrs. Prereq: 205 or 242.
271 Landscape Architectural Graphics I U 3
Basic graphic elements, media and skills used in preparing and delineating hardline drafted plans, sections and base sheets for landscape architecture design and construction.
Au Qtr. 6 lab hrs. VPA Admin Cond course.

272 Landscape Architectural Graphics II U 3
Rearranged graphic elements, media and skills used in preparing and delineating freehand plans, sections, elevations and isometrics essential to landscape architecture presentations.
Wi Qtr. 6 lab hrs.

321 Landscape Construction: Earthwork as Design U 5
Study of techniques essential to the horizontal and vertical development of site designs; emphasis on grading as an artform.
Sp Qtr. 3 cl, 6 lab hrs. Prereq: 205 or 271; Math 148.

322 Landscape Construction: Layout Controls U 5
Study of techniques essential to horizontal and vertical development of site designs; emphasis on layout, and circulation.
Au Qtr. 3 cl, 6 lab hrs. Prereq: 205 or 243; Math 150.

323 Landscape Construction: Water in the Landscape U 5
Integration of site systems; application of landscape construction and landscape materials detailing. Study of surface and subsurface drainage, stormwater management; pools, fountains, and water features in the landscape.
Wi Qtr. 3 cl, 6 lab hrs. Prereq: 205 or 243, and 321.

341 Landscape Architectural Design IV U 7
Social science inputs in landscape design at site planning scale; use of plant materials in spatial form development.
Au Qtr. 2 cl, 12 lab hrs. Prereq: 200, 243, and 321.

342 Landscape Architectural Design V U 7
Study of the factors influencing the design of urban landscapes and the impact of those factors on design process; case studies and project applications.
Wi Qtr. 2 cl, 12 lab hrs. Prereq: 200, 321, and 341.

343 Landscape Architectural Design VI U 7
Study of the factors influencing suburban and rural landscapes and their impact on design process case studies in site planning and design.
Sp Qtr. 2 cl, 12 lab hrs, wrk field trips. Prereq: 200, 323, and 341. Travel and subsistence costs for the field trips will be borne by the student.

373 Advanced Landscape Architectural Graphics U 3
Advanced graphic elements, media and skills used in preparing landscape architecture presentations.
Sp Qtr. 6 lab hrs. Prereq: 271 and 272. Not open to students with credit for 273.

421 Landscape Construction: Materials U 4
Properties and production of man-made landscape building materials; material performance in exterior application; construction detailing with emphasis on wood and masonry assemblies.
Au Qtr. 2 cl, 9 lab hrs. Prereq: 205 or 271; Math 150.

441 Landscape Architectural Design VII U 7
Design of large-scale landscape studies involving urbanization and multi-use management of landscape resources; use of georeferenced data, computer-assisted analysis and display.
Sp Qtr. 2 cl, 12 lab hrs. Prereq: Jr standing, concur: Civil En 505.

442 Landscape Architectural Design VIII U 6
Project scale site planning and design; emphasis on development of landscape architectural skills required to complete the master plan and schematic design phases of landscape design.
Au Qtr. 1 cl, 12 lab hrs. Prereq: 343.

447 Landscape Architectural Design and Construction U 9
Synthesis, refinement and expansion of professional knowledge and skills through design development and contract document phases of project design in landscape architecture.
Wi Qtr. 2 cl, 18 lab hrs. Prereq: 442, 421 and sr standing.

451 Landscape Architecture Seminar U 4
Research, discussion, and exercises pertinent to landscape architecture and related fields.
Sp Qtr. 4 cl. Prereq: 20 or hrs in larch.

520 Landscape Design Implementation I P G 5
Study of design implementation procedures: grading and drainage, earthwork calculations, road alignment, staking and layout, surveying appliances.
Au Qtr. 3 cl, 6 lab hrs. Prereq: Grad standing in larch or permission of grad studies committee.

622 Landscape Design Implementation II P G 5
Study of stormwater management in the treatment of landscape; uses of water in ponds, pools, and fountains; irrigation systems.
Wi Qtr. 3 cl, 6 lab hrs. Prereq: 620 or equiv with permission of grad studies committee.

640 Landscape Architectural Design P G 5
Exploration and application of principles of design, components and characteristics of space, landscape architectural design process and small scale design.
Au Qtr. 2 cl, 12 lab hrs. Prereq: Grad standing in larch or permission of grad studies committee.

642 Urban Landscape Design P G 5
Landscape design in the urban setting; emphasis on design process, spatial structure, and design detailing of urban spaces.
Wi Qtr. 2 cl, 12 lab hrs. Prereq: 640 or permission of grad studies committee.

644 Site Planning and Design P G 5
Investigation of site planning and design at the project scale in the urban fringe or rural setting.
Sp Qtr. 2 cl, 12 lab hrs, wrk field trips. Prereq: 642 or permission of grad studies committee. Travel and subsistence costs for the field trips will be borne by the student.

670 Graphic Techniques in Landscape Architecture P G 3
Graphic media, elements, and skills required in preparation of landscape architectural presentations in plan, section, and elevation.
Au Qtr. Prereq: Grad standing in larch or permission of grad studies committee.

693 Individual Studies U G 2-5
For students in the Graduate School and those who wish to pursue special studies in landscape architecture.
Au, Wi, Sp Qtrs. Prereq: 4th yr standing or permission of dept. Repeatable to a maximum of 50 or hrs. This course is graded S/U.

894 Group Studies U G 2-5
For students majoring in landscape architecture desiring to pursue special studies not offered in the fixed curriculum.
Au, Wi, Sp Qtrs. Prereq: Permission of the dept. Repeatable to a maximum of 15 or hrs.
Research and Documentation in Landscape Architecture P G S

Research in professional practice techniques; emphasizes all phases of design investigation and documentation.
Su, Au, Wi, Sp Qtrls. 1, 4 2-hrs labs. Prereq: Grad standing in larch. Repeatable to a maximum of 15 cr hrs.

Studio in Landscape Architecture P G S

Advanced professional landscape architectural project design techniques; documentation and execution of all phases from programming through detailed design and construction documents.
Su, Au, Wi, Sp Qtrls. 4 4-hr lab. Conc: 740 and grad standing in larch. Repeatable to a maximum of 24 cr hrs.

Evaluation and Criticism in Landscape Architecture P G 2

Seminar in design philosophy and aesthetic evaluation criteria in landscape architecture.
Su, Au, Wi, Sp Qtrls. 2 2-hr seminars. Prereq: Grad standing in larch. Repeatable to a maximum of 6 cr hrs.

Project in Landscape Architecture G Arr

Project scale design research, programming and preparation of design alternatives, scenario, design development and construction documents for a selected project.
Su, Au, Wi, Sp Qtrls. 2-15 hrs arr. Prereq: Grad standing in larch. Repeatable to a maximum of 15 cr hrs.

Latin

414 University Hall, 230 North Oval Mall, 422-2744

Also see Classics.

Latin majors should consult the departmental statement in the College of Humanities section of the College of Arts and Sciences Bulletin. Placement tests are required for all matriculating (including transfer) students who continue the study of Latin in the University in courses 101, 102, 103, 104, and any 200-level course. A placement test will be given on the first day of the quarter. For details see the departmental secretary in 414 University Hall.

Students studying foreign languages at the elementary and intermediate levels typically take the sequence of courses numbered 101-102/103-104 (including the decimal subdivisions such as 101.51, etc.) and then move on to advanced courses. Students who need to satisfy the Arts and Sciences foreign language requirement must demonstrate competence at the 104 level. The courses numbered 100.01-100.02 are for students: 1) who do not intend to take foreign language beyond the level of 100.02; 2) who do not expect to complete more than ten credit hours sequentially; 3) who prefer a slower-paced introduction (also available in 101.51, etc.). Students admitted with a foreign language condition should take the 101-102 sequence if they intend to continue in a language. Those who do not plan to take more than ten credit hours of foreign language study should take the 100.01-100.02 sequence.

101 Introduction to the Study of Latin U 5

5 cr. Not open to students with credit for 101 or equiv study in high school or college.

101.01 Introduction to the Study of Latin I

Introductory Latin for students with no previous training in Latin: emphasis on Latin derivatives and the enhancement of vocabulary.
Au, Wi Qtrls.

100.02 Introduction to the Study of Latin II

Continuation of 100.01.
Wi, Sp Qtrls.

101 Elementary Latin I

Not open to students with credit for 100.01 or 100.02.
Fl, Admis Cord course.

101.01 Classroom Track U 5

Au, Wi, Sp Qtrls. 5 cr. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

101.51 Individualized Track U 1-8

Su, Au, Wi, Sp Qtrls. Students register for and complete from 1 to 8 cr hrs during the quarter. Students who complete 5 hrs before the end of the quarter may proceed to 102.51. In 101.51, 102.51 and 103.51 progress is sequential from one cr hr to the next. Not open to students with 5 or hrs in 101.02.

102 Elementary Latin II

Fl, Admis Cord course.

102.01 Classroom Track U 5

Au, Wi, Sp Qtrls. 5 cr. Prereq: 100.02 or 101.01 or 5 cr hrs of 101.02 or 101.51. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

102.51 Individualized Track U 1-5

Su, Au, Wi, Sp Qtrls. Prereq: 100.02 or 101.01 or 5 cr hrs of 101.02 or 101.51 or permission of instructor. Students may register for 101.51 and 102.51 concurrently with permission of instructor. Progress is sequential from one cr hr to the next. Not open to students with 5 or hrs in 101.02.

103 Intermediate Latin I

Intermediate readings with emphasis on prose authors of the 1st century B.C.

103.01 Classroom Track U 5

Au, Wi, Sp Qtrls. 5 cr. Prereq: 102.02 or 102.01 or 5 cr hrs of 102.02 or 102.51. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

103.51 Individualized Track U 1-5

Su, Au, Wi, Sp Qtrls. Prereq: 102.02 or 102.01 or 5 cr hrs of 102.02 or 102.51 and permission of instructor. Students may register for 102.51 and 103.51 concurrently with permission of instructor. Progress is sequential from one cr hr to the next. Not open to students with 5 or hrs in 103.02.

104 Intermediate Latin II U 5

Intermediate readings with emphasis on the poetry of the Augustan Age.

104.01 Classroom Track U 5

Au, Wi, Sp Qtrls. 5 cr. Prereq: Placement test or 103.01 or 5 cr hrs of 103.02, or 103.51. This course is available for EM credit. EIR course.

121 Cicero U 5

Readings from the Orations. 5 cr. Prereq: 104 or equiv high school Latin. Not open to students with credit for 201.

121 Vergil U 5

Readings from the Aeneid. Sp Qtrls. 5 cr. Prereq: 104 or equiv high school Latin. Not open to students with credit for 205.

122 Roman Historians U 5

Readings from Caesar, Sallust, Livy, and/or Tacitus' Agricola. Wi, Sp Qtrls. 5 cr. Prereq: 104 or equiv high school Latin. Not open to students with credit for 203.

123 Ovid U 5

Readings from the Metamorphoses. 5 cr. Prereq: 104 or equiv high school Latin.

124 Horace U 5

Readings from the Odes and Epistles. Au Qtrls. 5 cr. Prereq: 104 or equiv high school Latin. Not open to students with credit for 200.

293 Individual Studies U 1-3

Intermediate readings in Latin literature.
Su, Au, Wi, Sp Qtrls. Prereq: Latin 101-104 or equiv written permission of department. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

5/1 Fundamentals of Latin I for Graduate Students I G 5

Fundamentals of Latin grammar and syntax for grad students preparing to use Latin for work in non-classical fields.
Su, Au, Wi, Sp Qtrls. 5 cr. Prereq: Grad standing or permission of instructor. Not open to students with credit for 501. Credit does not apply toward minimum hrs required for master's or doctoral degree. No audit.
572 Fundamentals of Latin for Graduate Students II  G 5
A continuation of 571; preparation for reading Latin texts.
Su, Au, Wi, Sp Qtr's. 5 cl. Prereq: Grad standing or permission of instructor. Not open to students with credit for 502. Credit does not apply toward minimum hrs. required for the master's or doctoral degree. No audit.

612† Latin Prose Composition U G 5
Review of elementary syntax leading to composition of sentences and short connected passages; concurrent readings from Caesar or Cicero.
3 cl. 2 hrs. ar. Prereq: 4 courses more advanced than 104 or permission of instructor.

615 Readings in Cicero U G 5
Sp Qtr. 5 cl. Prereq: 4 courses more advanced than 104.

616† Readings in Vergil U G 5
5 cl. Prereq: 4 courses more advanced than 104.

617 Readings in Caesar U G 5
Au Qtr. 5 cl. Prereq: 4 courses more advanced than 104.

618† Readings in Lucretius U G 5
Extensive readings from De Rerum Natura.
5 cl. Prereq: 4 courses more advanced than 104.

619† Readings in Ovid U G 5
5 cl. Prereq: 4 courses more advanced than 104.

620† Readings in Livy U G 5
5 cl. Prereq: 4 courses more advanced than 104.

621† Readings in Roman Comedy U G 5
Extensive readings drawn from the works of Plautus and Terence.
5 cl. Prereq: 4 courses more advanced than 104.

625 Readings in Post Classical Latin U G 5
Extensive readings from texts illustrating the history of Latin language and literature of the medieval and/or Renaissance periods.
Wi Qtr. 5 cl. Prereq: 4 courses more advanced than 104 or permission of instructor. Repeatable to a maximum of 20 or hrs.

660 Special Topics in Latin Literature U G 5
Extensive reading from masterpieces of Latin literature; topic varies.
Su Qtr. 5 cl. Prereq: 4 courses more advanced than 104. Repeatable to a maximum of 20 or hrs.

693 Individual Studies U G 1-6
Passages for reading and topics for investigation will be selected to meet the needs of individual students.
Su, Au, Wi, Sp Qtr's. Prereq: 4 courses more advanced than 104. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-6
Au, Sp Qtr's. Prereq: 4 courses more advanced than 104 or permission of chairman. Repeatable to a maximum of 20 or hrs.

783 Honors Course U 3-5
A program of study arranged for each student with individual conferences, reports, and an honors thesis.
Su, Au, Wi, Sp Qtr's. Prereq: 4th yr standing with a grade of A in at least half of the Latin courses taken and with an average of B in the remainder; written permission of instructor under whose supervision the work is to be completed and ASC Honors Committee. At least 2 qtrs are required of candidates for the degree BA with distinction in Latin. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

792 Indepartmental Studies in the Humanities U G 5
Two or more departments may collaborate in presenting colloquia on studies of mutual interest; topics to be announced.
Au, Wi, Sp Qtr's. 1 or 2 2-hr cl.

General Prerequisites for Courses Numbered 800 and Above
Prerequisites for admission to courses numbered 800 and above are graduate standing and permission of the chairman.

812 Studies in Vergil G 5
Critical study of one or more of the works of Vergil.
Sp Qtr. 2 2-hr cl. Repeatable to a maximum of 15 or hrs.

814† Studies in Cicero G 5
Selected topics in the works of Cicero.
2 2-hr cl. Repeatable to a maximum of 15 or hrs.

830† Studies in Roman Drama G 5
Critical study of one or more of the Roman dramatists: Plautus, Terence, Seneca.
2 2-hr cl. Repeatable to a maximum of 15 or hrs.

831† Studies in the Roman Historians G 5
Selected topics in Roman Historiography: Caesar, Sallust, Livy, Tacitus.
2 2-hr cl. Repeatable to a maximum of 15 or hrs.

832† Studies in Latin Lyric and Elegy G 5
Selected topics: poems of Catullus, the Odes and Epodes of Horace, or the elegies of Propertius, Tibullus, or Ovid.
2 2-hr cl. Repeatable to a maximum of 15 or hrs.

833 Studies in Roman Satire and Novel G 5
Critical study of one or more of the Roman satirists and novelists: Lucretius, Horace, Persius, Petronius, Juvenal, Apuleius.
Au Qtr. 2 2-hr cl. Repeatable to a maximum of 15 or hrs.

835† Studies in Roman Epic G 5
Selected topics in the history of Roman epic exclusive of Vergil: Ennius, Lucretius, Ovid, Lucian.
2 2-hr cl. Repeatable to a maximum of 15 or hrs.

Medieval and Renaissance Culture
See Medieval and Renaissance Literature.

888 Medieval and Renaissance Literature
See Medieval and Renaissance Literature.

894 Group Studies G 1-6
Repeatable to a maximum of 20 or hrs.

993 Individual Studies G 1-4
Assigned reading and individual research.
Su, Au, Wi, Sp Qtr's. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

995† Seminar II G 5
The seminar completes a two-term sequence (Au/Wi, Wi/Sp) begun with an 800-level intensive study of an author or genre; e.g. Cicero, Horace, Apuleius, or comedy. Repeatable to a maximum of 20 or hrs.

996 Seminar II G 5
Continuation of 995.
Wi Qtr. Prereq: 995. Repeatable to a maximum of 20 or hrs.

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtr's. This course is graded S/U.
Law

112 Law Building, 1599 North High Street, 422-2621

Effective with the 1984-85 academic year, the College of Law is converting to a semester calendar. The Fall Semester will begin on August 27 and end on December 22, 1984. The Spring Semester will begin January 9, 1984, and end in early May, 1985. As a result, the courses described below will be converted to either one or two semester terms and the credit hours adjusted accordingly. In addition, several of the courses will be combined or repackaged in new configurations that more easily fit within the semester calendar. Virtually all of the material covered in one of the courses below, however, will continue to be covered in the semester courses. For more detailed information about the courses, please contact the College of Law in May or consult the College of Law Bulletin that will be available on September 4, 1984.

502 Appellate Practice I P
Procedural and substantive aspects of appellate practice; the student prepares a brief and presents an oral argument on the basis of assigned research materials.

503 Contracts P
Remedies for breach; offer and acceptance; consideration; third party beneficiaries; assignment of rights and delegation of duties; conditions; impossibility and frustration; statute of frauds.

504 Torts P
Trespass to person; negligence; misrepresentation; nuisance; strict liability; liability insurance; alternatives to the fault system; and federal and state regulation of traffic safety.

505 Property P
Acquisition, incidents, and transfer of ownership; possession, concurrent, marital, and future interests, and contractual modification of these results.

507 Civil Procedure P
Civil procedure in state and federal courts; development of equity; abolition of common law forms of action; merger of law and equity; jurisdiction; venue.

510 Constitutional Law P
Functional study of the major substantive, methodological, and federalist limits upon governmental power obtaining under practice of judicial review.

511 Legal Research P
Use of law books, both English and American; problems in the use of reports, statutes, selected annotated cases, texts, encyclopedia, digests, dictionaries, periodicals, and citation books.

512 Introduction to Federal Income Taxation P
Basic topics in federal income taxation under Internal Revenue Code, income Tax Regulations, administrative rulings, and cases, including research problems, and consideration of tax policies.

600 Appellate Practice II P
Preparation of a brief and presentation of several oral arguments; participation by second-year students as advisors in First-year Moot Court Program. 1 or 2 cr hrs by arrangement with instructor. Repeatable to a maximum of 2 cr hrs with permission of the instructor. S or U grade given on completion of second-year Moot Court Program.

602 Evidence P
Survey of rules of evidence; particularly demonstrative, testimonial, and circumstantial proof; qualification and examination of witnesses; privilege; relevancy; documents; hearsay rule and its exceptions.

604 Pleading P
Pleading under codes and Federal Rules of Civil Procedure; requirements of pleading; variance and amendments; delinquency; defaults and new matter; counterclaims; reply; demurrer; motions; interrogatories; joinder.

605 Commercial Paper P
Types of commercial or negotiable paper; transfer; purchase and payment in due course; discount and security.

606 Federal Income Taxation P
Trade or business and production of income deductions; income splitting by private arrangement; sales and other dispositions of property; capital gains and losses.

606.01 Federal Income Taxation P
Traditional federal income taxation course with class time limited to one quarter.
Not open to students with credit for 606.02.

606.02 Federal Income Taxation P
Consideration of the basic material covered in 606.01 with extended coverage in certain areas, including practice and procedure, partnerships and corporations.

607 Business Associations P
Forms of business organizations: planning corporate and other relationships for commercial and industrial purposes.

607.01 Business Associations
Formation, financing, and governance of corporations, partnerships, and other business organizations; problems of federal corporation law; corporate acquisitions and divestitures.

607.02 Business Associations I
Formation, financing, governance, and regulation of corporations, partnerships, and other business organizations; problems under the Securities Exchange Act of 1934.

607.03 Business Associations II
Problems of the large, publicly-held corporation; federal corporate law; corporate consolidations and distributions. Prereq: 607.01, 607.02, or 622.

608 Sales P
A study of the Uniform Commercial Code and other statutes bearing on the sale of goods in the American market.

610 Secured Transactions P
Emphasis on the Uniform Commercial Code; financing sale of goods, intangibles, and proceeds; validity of and perfection of security interests; priorities and remedies.

613 Labor Law I P
A study of federal regulation of labor-management relations involving union organization activity, collective bargaining, strikes and boycotts, with primary focus upon the National Labor Relations Act.

615 Insurance P
Insurance law and practice with particular reference to fire, life, and automobile insurance; insurable interests; warranties and representation; waiver and estoppel; construction standards policies.

619 International Law P
Current problems in international law; international agreements; status of states and individuals; recognition; jurisdiction and procedural prerequisites to assertion of international claims.

620 Jurisprudence P
Jurisprudential thought as represented by general theories of law and law of the behavior, operation, and effect of law. Prereq: 622 or 623.

622 State and Local Taxation P
Legal problems arising in property, excise, income, and estate- inheritance taxation; tax administration and procedure.

623 Federal Antitrust Law P

623.01 Federal Antitrust Law P
Contracts, combinations, and conspiracies in restraint of trade; monopolization attempts and conspiracies to monopolize; mergers, patent antitrust problems, and price discrimination under Sherman, Clayton, and Federal Trade Commission and its related statutes.
Not open to students with credit for 623.02, 623.03, or 655.
541 Criminal Procedure: The Pre-trial Process P
Study of proceedings in felonies from preliminary hearing through post-conviction remedies; double jeopardy.

542.01 Legal Problems of the Poor P
Study of law, legal institutions, and policy issues of particular relevance to selected problems of the poor.

542.03 Corrections Examination of the correctional process, including sentencing, prison administration, and the parole system.

544 Agency and Employment P
A system-descriptive approach to the common incidents of employment, partnership, and other agencies.

546 Dignitary Torts P
Legal rights and remedies developed to protect interests in reputation, privacy, and other aspects of human dignity.

547 Sex-Based Discrimination and the Law P
Law, legal institutions, and policy issues relevant to the redress of sex-based discrimination. Constitutional, legislative, executive, and judicial avenues of redress.

548 Land Use Planning I P
Techniques and consequences of limitations imposed upon use of private land by private covenant and public action; nuisance; covenants; zoning, and subdivision controls. Not open to students with credit for 465.

549 Land Use Planning II P
Study of public regulatory devices for land use and development; eminent domain; planned unit development; urban renewal; official maps; new towns; open space. Prereq: 448.

560 Local Government Law P
Types and organizations of local government units; intergovernmental relations; "home rule" power of Ohio municipalities; personnel; lawmaking; community planning; taxing and finance; contracts; legal liability.

562 Banking Law P
Study of development of banking activities, structure, and regulation; emphasis on Federal Reserve System; inter-institutional competition, and administrative, antitrust, and commercial law problems.

566 Gratuities Transfers P
Gifts, wills, intestate succession, protection of spouse and other dependents, fiduciary administration, social security and other employee benefits, life insurance. Not open to students with credit for 506 prior to September 1970.

567 Consumer Law P
In-depth study of consumer rights and remedies as provided by the common law and federal and state statutes, with primary focus on the Federal Truth In Lending Act.

588 Advanced Constitutional Law P
Constitutional theory, with emphasis on competing views of judicial review and the judicial function; the methodologies and processes of constitutional decision making, and criteria for judicial justification.

694 Group Studies P
Group study in selected areas of the law. Repeatable to a maximum of 20 or hrs.

700 Interprofessional Education Focus on ethical issues, changing professional/consumer rights, and interprofessional cooperation. Limited to students in education, law, nursing, medicine, social work, bio-medical sciences and allied health professions. Repeatable to a maximum of 6 or hrs.
709.01 Care of Patient/Client P
Treatment of the whole person through the analysis of the interrelated problems of actual patients/clients.

709.03 Ethical Issues P
Ethical issues of concern to the professions and arising out of advanced technology; euthanasia, mind control, malpractice, social responsibility of the professions.

709.04 Professionalism in Clinical Settings P
Interprofessional teamwork in clinical settings.
Prereq: Permission of instructor.

704 Trial Practice P
Forensic skills developed through actual trial advocacy.

704.03 Trial Practice P
State and federal civil litigation, particularly pleadings, discovery, trial briefs, practical application of selected rules of evidence, and demonstrative evidence.
Prereq: 605 and 664, or written permission of instructor.

705 Debtor and Creditor Law P
Methods used for the liquidation of debtors' estates, emphasizing first seven chapters of the Bankruptcy Act.

706 Conflict of Laws P
Private law pertaining to jurals relations containing one or more foreign elements; jurisdiction; foreign judgments; domicile; choice of law; torts; workmen's compensation acts; contracts; property; family law; decedents' estates.

707 Administration of Decedents' Estates P
Probate and contests of wills; jurisdiction; effect and necessity of administration; inventory and assets, contracts; sales and investments by personal representatives; claims; accounting and distribution.

709 Regulation of Security Distributions P
Analysis of Security Act of 1933 and pervasive effects upon issuance of securities and transfer; study of exemptions and restrictions on transfer and value.

710 Federal Courts P
The Federal judicial system; jurisdiction of the district courts, courts of appeals, and United States Supreme Court.

713 Appellate Practice IV P
Procedural and substantive aspects of appellate practice: perfection of appeals; preparation of briefs and oral argument; participation by third-year students in various aspects of Moot Court Program. 1 to 4 or hrs by arrangement with instructor. Repeatable to a maximum of 4 or hrs with permission of the instructor. S or U grade given on completion of third-year Moot Court Program.

715 Federal Income Taxation of Closely-Held Corporations and Their Shareholders P
Tax aspects of incorporation, dividend distributions, stock redemptions, complete and partial liquidations, collapsible corporations, stock dividends, preferred stock buy-outs, and subchapter S.
Prereq: 605.

718 Unfair Trade Practice P
Competitor, consumer, and administrative remedies for unfair business practices, including trademark infringement, trade secret appropriation, false advertising and disparagement, and copyright infringement.

719 Natural Resources P
The nature and incidents of public and private interests in water, minerals, oil and gas; conveyancing of natural resources, and mineral, oil and gas leases.

727 Government Control of Industry P
Explanation of legal principles relevant to the rate regulation process and an analysis of other regulatory problems in the television, transportation, and atomic industries.

728 International Transactions P
Legal problems in transnational context arising from doing business abroad; investments; establishment; exchange controls; trade, licensing; extraterritoriality of regulation; legislation; international agreements; European Common Market.

729 Administrative Practice P
Types of action before administrative boards and commissions; primary jurisdiction; defining policy; judicial jurisdiction; right to trial hearing; obtaining judicial review; scope of review; evidence; decision-making.

731 Business Planning P
Advanced study in corporations and taxation of corporations and shareholders.
Prereq: 605, 607, or 632; 628 recommended.

732 Environmental Law P
Legal problems relating to the living environment; legal problems of conservation of resources such as forest, wildlife, soil and parks.

733 Political and Civil Rights I P
Advanced study of constitutional guarantees in contemporary social milieu; freedom of expression, association, academic freedom; advocacy and symbolic expression.

734 Political and Civil Rights II P
Advanced study of civil rights and legal problems of race relations in contemporary social milieu; segregation; discrimination; equal protection; separation.

735 Law Journal P
Special studies covering diverse subjects of a legal nature participated in by the group selected for work on the Law Journal.
Prereq: Selection for Law Journal by editors.

736 Legal Profession P
736.01 Legal Profession P
Consideration of the Code of Professional Responsibility. S or U grade on completion. Not open to students with credit for 736.02.

736.02 Legal Profession P
Legal and ethical problems of the legal profession and the practicing lawyer, including: unauthorized practice, bar admission, group legal services, malpractice, professional organization, and discipline.
Not open to students with credit for 736.01.

737 Patent Law P
Fundamentals of substantive patent law relating to standards of patentability, patent claim interpretation, licensing, and enforcement presented in reference to patent litigation.

738 Study and Practicum in Legal Problems P
Pursuant to the New York Court of Appeals Rules for Admission to Practice, students who enroll for more than 12 or hrs may be ineligible for admission to practice in New York. No student may enroll in more than 24 or hrs. Advanced study and training in performance of legal services for the poor under supervision of clinical faculty and staff attorney.

738.01 Criminal Defense Practicum
Development of the basic knowledge and skills of criminal law practice.
Prereq or concur: 603 plus one or more of the following: 642.04, 642.03, 635, 640, 641, or with written permission of instructor.

738.02 Civil Law Practicum
Development of the basic knowledge and skills of civil law practice on behalf of the poor.
Prereq or concur: 642.01. May not be taken simultaneously with any other practicum.
738.041 Juvenile Law Practicum
Study of the intricacies of the juvenile intake process, difficulties of dealing with a total family situation involving child neglect or juvenile delinquency, and substantive legal problems of the juvenile area.
Prereq: None; 531, 640 and/or 541 recommended.

738.07 Civil Liberties Practicum
Supervised clinical course involving study of problems peculiar to civil liberties law practice, including handling of selected cases involving civil liberties.
Prereq: None; 733 and 734 recommended. This course is graded S/U.

738.20 Selected Legal Problems Practicum
Topics will change as specialty scheduled in any quarter. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

742 Estate Planning P
Functional integration of legal concepts concerning transmission of individual and family wealth; advanced consideration of wills, trusts, gifts, future interests, emphasizing tax aspects of estate planning.
Prereq: 656 or 506 prior to September 1975. Not open to students with credit for 617 or 531.

743 Remedies P
An integrated study of remedial theory and devices available in the context of torts, contracts, and property law. Not open to students with credit for 643 or 702.

744 Employment Discrimination Law P
A study of federal and state laws which proscribe employment discrimination based upon race, color, religion, sex, national origin, age, and physical and mental handicap.

745 Taxation and Law of Partnerships P
Federal income taxation of partners in general and limited partnerships and state law aspects of partnerships.
Prereq: 606.01 or 606.02.

793 Individual Studies P
By special arrangement with the dean's office, special problems or projects may be taken for credit under the supervision of members of the faculty. The credit granted varies in proportion to the magnitude of the project. In general, assignment of special problems will be limited to instances of exceptional student specialization, scheduling difficulties, and curricular irregularity. Repeatable to a maximum of 20 or hrs. S or U grade on completion of assigned work.

794 Group Studies P
Group study in selected areas of the law. Repeatable to a maximum of 20 or hrs.

796 Seminars P
Small group study and training in legal and non-legal research, expository writing, and various judicial and non-judicial functions of the practicing lawyer.

796.03 Constitutional Problems
Advanced constitutional questions, including evolution of judicial review, intergovernmental relationships, protection of civil liberties, special problems under Ohio Constitution.

796.07 Legal Regulation of Devolution of Property
Socio-legal problems raised by devolution of wealth through such arrangements as public welfare programs, union welfare funds, insurance, foundations, charitable trusts, and pension trusts.

796.08 Problems in the Law of Evidence
Advanced evidentiary questions involved in preparation for and trial of cases.

796.13 Medical-Legal Problems
Conflict in concept between disciplines of law and medicine in matters of causation, injury, disability, prognosis, aggravation and re-injury related to their use in proof of such elements in litigation.

796.16 Right of Privacy
Individual's interests in freedom from publicity and in physical seclusion; particularly legal response to social and technological changes which threaten these interests.

796.19† Selected Problems in Criminal Law and Procedure
Purposes and effects of punishment: wiretapping; Uniform Arrest Act; right to counsel; habeas corpus and other postconviction remedies; treatment of criminal cases by mass communications.

796.20 Research Seminar in Law
Topics will change as specially scheduled in any quarter. Repeatable to a maximum of 6 or hrs.

796.30 Business Planning
Planning and drafting in field of business association; principally concerned with problems in general and limited partnerships, business trusts, and closely-held corporations.

796.44 Legislative Planning
Role of lawyer in advocating or opposing state and federal legislation; problems selected from past and current proposals before legislature.
Prereq: 629. Repeatable to a maximum of 6 or hrs.

796.47 Securities Regulation
Study of recent legal developments affecting security trading market, brokers, exchanges and NASD, investment companies, and other institutional investors.
Prereq: 706. Must enroll to a maximum of 4 or hrs.

796.48 Trade Regulation
Study of current problems of trade regulations, e.g., antitrust, unfair trade practices, patents, food and drug law.
Prereq: By designation of instructor.

796.511 Social and Environmental Litigation
Study of impact of law on social and environmental problems with emphasis on procedure and choice of remedies.
Prereq: None; 710 and 719 recommended.

796.52 Federal Criminal Law
The relationship of federal and state criminal law; historical role and specialized problems of federal criminal law.

796.55† Consumer Credit
Consumer credit: statutory and judicial regulation, with particular emphasis on the problems of the poor consumer.
Prereq: 603, 605, or 610.

796.58 Law and the Political Process
Exploration of the lawyer's role in the political process; the relationship of political parties to the election process; and the interplay of legal requirements and the campaign and voting procedures.

796.61 Society, Deviance and the Law
How certain members of society are labeled as deviant and how society reacts to that label with legal sanctions and social management techniques.
Prereq: Permission of instructor.

796.62 Commercial Law
In-depth consideration of commercial law, focusing primarily on the Uniform Commercial Code.
Prereq: 605, 605, and 610.

796.63 Problems in Torts
Exploration of current and emerging problems in the law of torts.

797 Interdepartmental Seminars P 1-5
738.04 Juvenile Law Practicum
Study of the intricacies of the juvenile intake process, difficulties of dealing with a total family situation involving child neglect or juvenile delinquency, and substantive legal problems of the juvenile area.
Prereq: None; 634, 640 and/or 641 recommended.
738.07 Civil Liberties Practicum
Supervised clinical course involving study of problems peculiar to civil liberties law practice, including handling of selected cases involving civil liberties.
Prereq: None; 733 and 734 recommended. This course is graded S/U.
738.20 Selected Legal Problems Practicum
Topics will change as specially scheduled in any quarter. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.
742 Estate Planning P
Functional integration of legal concepts concerning transmission of individual and family wealth; advanced consideration of wills, trusts, gifts, future interests, emphasizing law aspects of estate planning.
Prereq: 556 or 506 prior to September 1975. Not open to students with credit for 617 or 631.
743 Remedies P
An integrated study of remedial theory and devices available in the context of torts, contracts, and property law. Not open to students with credit for 643 or 702.
744 Employment Discrimination Law P
A study of federal and state laws which proscribe employment discrimination based upon race, color, religion, sex, national origin, age, and physical and mental handicap.
745 Taxation and Law of Partnerships P
Federal income taxation of partners in general and limited partnerships and state law aspects of partnerships.
Prereq: 606.01 or 606.02.
753 Individual Studies P
By special arrangement with the dean's office, special problems or projects may be taken for credit under the supervision of members of the faculty. The credit granted varies in proportion to the magnitude of the project. In general, assignment of special problems will be limited to instances of exceptional student specialization, scheduling difficulties, and curricular irregularity.
Repeatable to a maximum of 20 or hrs. S or U grade on completion of assigned work.
794 Group Studies P
Group study in selected areas of the law.
Repeatable to a maximum of 20 or hrs.
796 Seminars P
Small group study and training in legal and non-legal research, expository writing, and the various legal and non-legal functions of the practicing lawyer.
796.03 Constitutional Problems
Advanced constitutional questions, including evolution of judicial review, intergovernmental relationships, protection of civil liberties, special problems under Ohio Constitution.
796.07 Legal Regulation of Evolution of Property
Socio-legal problems raised by devolution of wealth through such arrangements as public welfare programs, union welfare funds, insurance, foundations, charitable trusts, and pension trusts.
796.08† Problems in the Law of Evidence
Advanced evidentiary questions involved in preparation for and trial of cases.
796.13 Medical-Legal Problems
Conflict in concept between disciplines of law and medicine in matters of causation, injury, disability, prognosis, aggravation and re-injury related to their use in proof of such elements in litigation.
796.16 Right of Privacy
Individual's interests in freedom from publicity and in physical seclusion; particularly legal response to social and technological changes which threaten these interests.
796.19† Selected Problems in Criminal Law and Procedure
Purposes and effects of punishment; wiretapping; Uniform Arrest Act; right to counsel; habeas corpus and other postconviction remedies; treatment of criminal cases by modern communications.
796.20 Research Seminar in Law
Topics will change as specially scheduled in any quarter. Repeatable to a maximum of 6 or hrs.
796.29 Business Planning
Planning and drafting in field of business association; principally concerned with problems in general and limited partnerships, business trusts, and closely-held corporations.
796.44 Legislative Planning
Role of lawyer in advocating or opposing state and federal legislation; problems selected from past and current proposals before legislature.
Prereq: 625. Repeatable to a maximum of 6 or hrs.
796.47 Securities Regulation
Study of recent legal developments affecting security trading market, brokers, exchanges and NASD, investment companies, and other institutional investors.
Prereq: 701. Must enroll to a maximum of 4 or hrs.
796.48 Trade Regulation
Study of current problems of trade regulations, e.g., antitrust, unfair trade practices, patents, food and drug law.
Prereq: By designation of instructor.
796.49 Social and Environmental Litigation
Study of impact of law on social and environmental problems with emphasis on procedure and choice of remedies.
Prereq: None; 710 and 719 recommended.
796.52 Federal Criminal Law
The relationship of federal and state criminal law; historical role and specialized problems of federal criminal law.
796.55† Consumer Credit
Consumer credit; statutory and judicial regulation, with particular emphasis on the problems of the poor consumer.
Prereq: 605, 609, or 610.
796.58 Law and the Political Process
Exploration of the lawyer's role in the political process; the relationship of political parties to the election process; and the interplay of legal requirements and the campaign and voting procedures.
796.61 Society, Deviance and the Law
How certain members of society are labeled as deviant and how society reacts to that label with legal sanctions and social management techniques.
Prereq: Permission of instructor.
796.62 Commercial Law
In-depth consideration of commercial law, focusing primarily on the Uniform Commercial Code.
Prereq: 605, 609, and 610.
796.63 Problems in Torts
Exploration of current and emerging problems in the law of torts.
797 Interdepartmental Seminars P 1-5
Linguistics

204 Dieter Curz Hall of Languages, 1841 Millikin Road, 422-4052
See also the course listings in English, the foreign languages, Romance Linguistics, and Sanskrit.

201 Introduction to Language U 5
A survey of language as a system of human communication; topics include meaning, language structure, sound systems, language change and acquisition, language in society.
Su, Au, Wi, Sp. Qtr. 5 cl. H201 (honors) may be available to students enrolled in an honors program or by permission of dept. BER/LAC/LAR course.

203 Language Differences and Language Universals U 5
Differences in sound systems, word structure, and grammar; illustrations from foreign accents; language types; universal principles of structure.
Wi Qtr. 5 cl. Prereq: 201 and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC course.

230 Language and the Sexes U 5
Types of sex differentiation in different languages and their social and symbolic consequences.
Sp. Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

265 Language, Thought, and Culture U 5
Investigation of the role of language in social behavior and of the interrelationships among language, culture, and patterns of thought, including Whorf's linguistic relativity hypothesis.
Sp. Qtr. 5 cl. Prereq: English 110 or 111 or equiv. BER/LAC/LAR course.

271 Elements of Psycholinguistics U 5
Linguistics and the structure, acquisition, function, and malfunction of language.
Au. Qtr. 5 cl. Prereq: 201 and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

285 Language Change and Development U 5
Survey of the kinds of linguistic change; discussion of the external influences (social, cultural, political, etc.) that affect the historical development of languages.
Au. Qtr. 5 cl. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

294 Group Studies U 5
Introductory topics in linguistics. Repeatable to a maximum of 10 or hrs.

600 Phonetics U 5
Principles of articulatory phonetics, with some discussion of acoustic phonetics; practice in the production, recognition, and transcription of sounds in various languages of the world.
Au Qtr. 5 cl. Prereq: or concourse 601, or an equiv course in linguistics or phonetics.

601 Introduction to Linguistics U 5
A broad introduction to general linguistics; survey of phonological, morphological, syntactic, and semantic analysis, and of historical and comparative linguistics.
Su, Au, Wi, Sp Qtr. 5 cl. 601.

602 Introduction to Syntax U 5
Theories of syntax; principles of syntactic description.
602.01 Introduction to Syntax I
Au Qtr. 5 cl. Prereq: 601.
602.02 Introduction to Syntax II
Wi Qtr. 5 cl. Prereq: 602.01.

603 Introduction to Phonology U G 5
Introduction to phonological analysis and the principles governing the structure, acquisition, and change of phonological systems; survey of major phonological theories.
603.01 Introduction to Phonology I
Wi Qtr. 5 cl. Prereq: 600 and 601.
603.02 Introduction to Phonology II
Sp Qtr. 5 cl. Prereq: 603.01.

609 Morphology U G 5
The grammatical and phonological analysis of words, and their significance in linguistic structure.
5 cl. Prereq: 601 or permission of instructor.

611 Introduction to Historical Linguistics U G 5
Introduction to the methods and principles of historical linguistics.
Sp Qtr. Prereq: 601 and 603.01 or background in phonology with permission of instructor.

613 Topics in Indic Linguistics U G 5
Possible topics include advanced classical Sanskrit, introductory Vedic Sanskrit, Indo-Iranian or Indo-Aryan linguistics, or studies in the ancient Indian grammarians.
Sp. Qtr. Prereq: 622 or Sanskrit 622 or permission of instructor. Repeatable to a maximum of 15 or hrs.

650 Field Methods in Linguistics U G 5
650.01 Field Methods I
Methodology for determining the phonological system of a previously unknown language through the use of a native informant.
Au Qtr. 5 cl. Prereq: 600 or permission of instructor.
650.02 Field Methods II
Methodology for determining the morphological and syntactic system of a previously unknown language through the use of a native informant.
Wi Qtr. 5 cl. Prereq: 650.01.

661 Sociolinguistics U G 5
Description and explanation of the interaction between linguistic and social factors in language.
Au Qtr. 5 cl. Prereq: 601 or permission of instructor.

671 Psycholinguistics U G 5
The contribution of linguistic theory to the study of the acquisition, maturation, and functioning of language skills.
Wi Qtr. 4 cl. Prereq: 603.02.

672 Language Description U G 3-5
Informed techniques and (if available) textbooks and published linguistic analyses are employed in analyzing and describing a language.
Sp. Qtr. 3-5 cl. Prereq: 601. Repeatable to a maximum of 30 or hrs.

672 History of Linguistics U G 5
Historical survey of views on language; examination of linguistic thought in historical periods, or of writings on single topics in diverse periods and traditions.
Wi Qtr. 5 cl. Prereq: 601.

681 Algebraic Linguistics U G 5
Formal properties of grammar and automata; relations between linear, context-free and context-sensitive grammars and finite, pushdown-storage and linear-bounded automata; properties of transformational grammars.
5 cl. Prereq: 601 and permission of instructor.
Linguistic Semantics U G 5

583.01 Introduction
Problems and methods of analysis in linguistic semantics and pragmatics; use of formal logic and semantic model theory in analyzing natural languages.
Au Qtr. 5 cl. Prereq: 681 or equiv.
Not open to students with credit for 683 prior to Sp Qtr. 1981.

583.02 Montague Grammar
Syntactic and model-theoretic analysis of natural languages as described by Richard Montague in The Proper Treatment of Quantification in Ordinary English.
Wi Qtr. 4 cl. Prereq: 681 or 683.01 or a course in symbolic logic.

6851* Languages in Contact U G 3
Study of the effects of language contact on the structure of the involved languages; the characteristics of the individuals and communities involved in language contact.
Sp Qtr. 3 cl. Prereq: 601.

693 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtr.s. Prereq or concn: 601 or permission of instructor. Repeatable to a maximum of 40 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Study of topics not regularly scheduled for seminars in linguistics, under the direction of a faculty member.
Prereq: 601. Repeatable to a maximum of 30 or hrs.

695* Seminar in Anthropological Linguistics U G 5
Prereq: Anthrop 675 or permission of instructor. Repeatable to a maximum of 20 or hrs.

H783 Honors Course U G 3-5
Informal conferences to allow full scope to the initiative of the student, who will prepare an honors thesis in consultation with the instructor.
Su, Au, Wi, Sp Qtr.s. Prereq: 4th yr standing and the completion of departmental honors requirements with a grade of A in at least half of the linguist courses, including approved related courses; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required of candidates for the degree BA with distinction in linguist. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtr.s. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

795 Seminar in Linguistics U G 3-5
A selected group study, with emphasis on individual writing and presentation.
Au, Sp Qtr.s. 3-5 cl. Prereq: 602 and 603 or permission of instructor. Repeatable to a maximum of 20 or hrs.

800 Proseminar in Linguistics G 3
Introduction to the problems, methods, and tools of linguistic research.
Au Qtr. 2 cl. Recommended for all candidates for grad degrees. This course is graded S/U.

801* Historical Linguistics I G 5
An introduction to the methods, conventions, and literature of comparative-Historical linguistics with primary attention to the comparison and reconstruction of Indo-European phonological systems.
Au Qtr. 5 cl. Prereq: 601, and either 811 or written permission of instructor.

802* Historical Linguistics II G 5
Advanced work in the comparison and reconstruction of morphological, and syntactic systems, primarily Indo-European; detailed examination of some of the results of past and current scholarship.
Wi Qtr. 5 cl. Prereq: 801.

803* Topics in Indo-European G 5
Study of various Indo-European languages and language families and exploration in depth of specific problems in Indo-European grammar.
5 cl. Prereq: 802. Repeatable to a maximum of 30 or hrs.

812 Seminar in Semantics G 5
Accounts of semantic judgments in languages, especially within the theory of generative grammar; relationships between syntax, semantics, and language use.
5 cl. Prereq: 803.02. A course in symbolic logic recommended. Repeatable to a maximum of 15 or hrs.

820 Seminar in Syntax G 5
Advanced topics in syntactic analysis.
Prereq: 802.02. Repeatable to a maximum of 15 or hrs.

821 Seminar in Phonology G 5
Advanced topics in phonological analysis.
Au Qtr. Prereq: 803.02. Repeatable to a maximum of 15 or hrs.

822 Seminar in Historical Linguistics G 5
Advanced topics in methods and principles of diachronic analysis.
Sp Qtr. Prereq: 811 or permission of instructor. Repeatable to a maximum of 15 or hrs.

825* Seminar in Advanced Phonetics G 5
Study of specific problems in articulatory and acoustic phonetics at an advanced level.
Wi Qtr. 3 cl. 2 lab hrs. Prereq: 600, 601, and permission of instructor. Repeatable to a maximum of 20 or hrs.

899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtr.s. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

993 Individual Studies G 1-5
Assigned reading and individual research.
Su, Au, Wi, Sp Qtr.s. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

999 Research in Linguistics G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr.s. This course is graded S/U.

Master of Business Administration

112 Haggerty Hall, 1775 College Road, 422-8511

800 Financial Accounting and Reporting G 4
Mechanics of income statement, balance sheet, and fund flows; accounting policy choices; financial statement analysis using fund flows; ratios; quality of earnings; sustainable growth rates; inflation adjustments.
Au Qtr. 2 2-3 hr cl. Prereq: Enrollment in the structured MBA.

801 Accounting for Decision Making G 4
Cost data for inventory valuation; cost data for decision making (pricing, product-mix, make or buy); cost data for performance evaluation and control.
Au Wi Qtr.s. Prereq: Enrollment in the structured MBA.
806 Financial Accounting and Reporting G 3
Mechanics of income statement, balance sheet and fund flows; accounting policy choices; financial statement analyses using fund flow; ratios, quality of earnings, sustainable growth rates, inflation adjustments.
Au Qtr. 1 3-hr cr. Prereq: Enrollment in Executive MBA.

809 Introduction to Managerial Accounting G 3
Cost behavior analysis, cost-volume-profit relationships, relevant-cost analysis for management decision making, standard costs and variances, budgetary control systems and divisional performance measurement systems.
Wl Qtr. 1 3-hr cr. Prereq: Enrollment in Executive MBA.

310 Financial Management G 4
The development of an understanding of financial terminology, instruments, and transactions; analyzing and dealing with the financial management problems of business enterprises.
Sp Qtr. 2 2-hr cr. Prereq: Enrollment in structured MBA.

311 Financial Decision Making G 4
Analysis of financial management through case study; financial concepts and techniques used to identify problems, feasible alternatives, and recommendations of best course of action.
Au, Wl Qtrs. 2 2-hr cr. Prereq: Enrollment in structured MBA.

319 Management of Financial Resources G 3
Issues and problems in the financial management of business enterprises; planning the availability of funds, raising the necessary funds, and controlling the allocation and expenditure of funds.
Au Qtr. 1 1-hr cr. Prereq: Enrollment in Executive MBA.

320 Management of Human Resources G 4
Study of human resources policies and practices including legal environment, compensation, performance appraisals, and unionism as they relate to individual performance and organizational effectiveness.
Au, Sp Qtrs. 2 2-hr cr. Prereq: Enrollment in the structured MBA.

329 Management of Human Resources G 3
Effective management of human resources within complex organizational structures; recruitment, utilization, performance evaluation, reward systems; conflict resolution, unionism, leadership, and motivation.
Wl Qtr. 1 1-hr cr. Prereq: Enrollment in Executive MBA.

330 Information Processing: Concepts and Technology G 4
An introduction to the fundamental concepts and terminology which a manager needs to personally utilize information processing technology in a variety of decision-making contexts.
Au Qtr. 2 2-hr cr. Prereq: Enrollment in the structured MBA.

331 Information Systems for Management Decision Making G 4
The study of the role of the information systems function in organizations and the role of information in the management decision-making process.
Wl Qtr. 2 2-hr cr. Prereq: Enrollment in structured MBA.

332 Information Systems Support for Group Decision Making G 4
Information systems used in organizations as decision support mechanisms for group decision making.
Wl Qtr. 2 2-hr cr. Prereq: 331.

338 Information Systems for Management Decision Making G 3
The study of the role of the information systems function in organizations and the role of information in the management decision-making process.
Au Qtr. 1 3-hr cr. Prereq: Enrollment in Executive MBA.

340 Marketing Management G 4
Focuses on the interrelated elements of the marketing mix, its relationship with the other functional areas of management, and marketing responses to the external environment.
Sp Qtr. 2 2-hr cr. Prereq: Enrollment in structured MBA.

342 Product Management Strategy G 4
Comprehensive examination of product and communication design decisions facing product managers in consumer and industrial markets; case studies and industry-sponsored projects; new product development and positioning.
Au Qtr. 2 2-hr cr. Prereq: 840 or equivalent enrollment in structured MBA; others with permission of instructor.

343 Sales and Channel Management G 4
Activities and problems of first-line sales managers; organizing the sales force, recruiting, training, compensating, and motivating the sales force, forecasting, and territory design.
Wl Qtr. 2 2-hr cr. Prereq: 840 and Bus-Mgmt 850, or permission of instructor.

344 Applied Marketing Planning G 4
Basic, practical elements of integrated marketing planning, current and future planning techniques.
Sp Qtr. 2 2-hr cr. Prereq: 840, 842, and 843; or permission of instructor.

345 International Marketing Strategy G 4
Analysis of strategic, political, and philosophical issues faced by management and governments involved in international trade; emphasis on case analysis.
Sp Qtr. 2 2-hr cr. Prereq: 840 or Bus-Mgt 850 or permission of instructor; and Bus-Admn 855.

346 Marketing Planning and Strategy G 3
Analysis of the marketing process, the environment in which it operates, the institutions involved, and functions performed, including product planning, pricing, distribution, and promotion.
Au Qtr. 1 5-hr cr. Prereq: Enrollment in Executive MBA.

350 Operations Management G 4
Introduction to basic operations principles; exploration of major operating problems; strategic and tactical decision making; emphasis on determination of policy for managing productive resources; role of operations managers.
Sp, Au Qtrs. 2 2-hr cr. Prereq: Enrollment in structured MBA.

355 Production and Operations Management G 3
Strategy and analysis of the production function for companies manufacturing goods or providing services; productivity, facility design, inventory, scheduling, and quality.
Wl Qtr. 1 1-hr cr. Prereq: Enrollment in Executive MBA.

360 Management and Individual Behavior G 4
An overview of factors that influence individual work performance and techniques to improve it; analytical frameworks for determining effectiveness of given techniques in specific circumstances.
Au, Sp Qtrs. 2 2-hr cr. Prereq: Enrollment in structured MBA.

369 Organization and System Design G 3
The study of alternative structures for work organizations and the conditions under which they have been found to be effective; analysis of the organization's interface with its environment.
Wl Qtr. 1 3-hr cr. Prereq: Enrollment in Executive MBA.

370 Statistical Analysis for Decision Making G 4
Introduction to statistical inference and its use in decision making; major emphasis on achieving an application-oriented understanding of regression analysis.
Au Qtr. 2 2-hr cr. Prereq: Enrollment in structured MBA.

371 Modelling for Decision Making G 4
The use of quantitative techniques in practical decision-making situations; emphasis on concepts with relatively little mathematics utilized to describe the techniques.
Wl Qtr. 2 2-hr cr. Prereq: Enrollment in structured MBA.
Mathematics

150 Mathematics Building, 231 West 18th Avenue, 422-4975

050 Precalculus Mathematics U 5
Arithmetic of fractions and decimals, basic algebra, graphing equations, geometry, exponents, applications of exponents, lines and slopes, area.
Su, Au, Wi, Sp Qtrs. 5 cr. Not open to students with credit for 100. Credit will not count toward graduation in any degree program.

102 Basic College Mathematics U 4
Systems of equations, arithmetic of polynomials, factoring, fractional equations, variation, quadratic equations, functions, graphs, right angle trig.
Su, Au, Wi, Sp Qtrs. 4 cr. Prereq: 100 or 050 or satisfactory score on OSU Math Placement Test. Not open to students with credit for any math course except 050 or 100. Credit may not count toward graduation in some degree programs.

X—Designates a section for students with at least one yr of high school algebra and at least one yr of high school algebra and geometry as appropriate for elementary school teachers.

104 Basic College Mathematics for Science and Engineering U 5
Systems of equations, arithmetic of polynomials, rational expressions, factoring, fractional equations, inequalities, exponents, quadratic equations, absolute values, functions and graphs.
Su, Au, Wi, Sp Qtrs. 5 cr. Prereq: 050 or satisfactory score on OSU Math Placement Test or permission of dept. Not open to students with credit for 116, 150, or 148. Credit may not count toward graduation in some degree programs.

105 Mathematics for Elementary Teachers I U 5
Development of basic ideas of arithmetic, algebra, and geometry as appropriate for elementary school teachers.
Su, Wi, Sp Qtrs. 5 cr. Prereq: 102 or satisfactory score on OSU Math Placement Test.

106 Mathematics for Elementary Teachers II U 5
Continuation of 105.
Su, Au, Sp Qtrs. 5 cr. Prereq: 106 or written permission of dept.

107 Topics in Mathematics for Elementary Teachers U 5
Further topics in mathematics selected by the instructors to broaden the mathematical perspectives of elementary teachers.
Su, Wi Qtr. 5 cr. Prereq: 106 or written permission of dept.

115 Survey of College Algebra U 5
The sequence 115, 117 treats topics applicable to non-physical sciences. Topics in 115 include college algebra, analytic geometry, linear algebra and linear programming.
Su, Au, Wi, Sp Qtrs. 5 cr. Prereq: 102 or satisfactory score on OSU Math Placement Test. Not open to students with credit for 130, 146, 150, or math courses having these as prerequisites. This course is available for EM credit.

117 Survey of Calculus U 5
An introduction to differential and integral calculus.
Su, Au, Wi, Sp Qtrs. 5 cr. Prereq: 116 or 130 or 146 or 150 or equal with written permission of dept. Not open to students with credit for 132 or 151. This course is available for EM credit.

130 Elements of Algebra U 4
Equations, inequalities, absolute value, functions, exponential and logarithmic functions, systems of equations, and matrix algebra.
Su, Au, Wi, Sp Qtrs. 4 cr. Prereq: 102 or satisfactory score on OSU Math Placement Test. Not open to students with credit for 115, 145, 150. This course is available for EM credit.
Mathematics

150 Mathematics Building, 231 West 18th Avenue, 422-4975

050 Precalculus Mathematics U 5
Arithmetic of fractions and decimals, basic algebra, graphing equations, geometry, exponents, applications of exponents, lines and slopes, area.
Su, Au, W, Sp Qtrs. 5 cl. Not open to students with credit for 100. Credit will not count toward graduation in any degree program.

102 Basic College Mathematics U 4
Systems of equations, arithmetic of polynomials, factoring, fractional equations, variation, quadratic equations, functions, graphs, right angle trig.
Su, Au, W, Sp Qtrs. 4 cl. Prereq: 100 or 050 or satisfactory score on OSU Math Placement Test. Not open to students with credit for any math course except 050 or 100. Credit may not count toward graduation in some degree programs.
X—Designates a section for students with at least one yr of high school algebra and out of high school for 5 or more yrs.

104 Basic College Mathematics for Science and Engineering U 5
Systems of equations, arithmetic of polynomials, rational expressions, factoring, fractional equations, inequalities exponents, quadratic equations, absolute values, functions, and graphs.
Su, Au, W, Sp Qtrs. 5 cl. Prereq: 050 or satisfactory score on OSU Math Placement Test or permission of dept. Not open to students with credit for 116, 130, or 148. Credit may not count toward graduation in some degree programs.

105 Mathematics for Elementary Teachers I U 5
Development of basic ideas of arithmetic, algebra, and geometry as appropriate for elementary school teachers.
Su, W, Sp Qtrs. 5 cl. Prereq: 102 or satisfactory score on OSU Math Placement Test.

106 Mathematics for Elementary Teachers II U 5
Continuation of 105.
Su, W, Sp Qtrs. 5 cl. Prereq: 105 or written permission of dept.

107 Topics in Mathematics for Elementary Teachers U 5
Further topics in mathematics selected by the instructors to broaden the mathematical perspectives of elementary teachers.
Au, W, Qtrs. 5 cl. Prereq: 106 or written permission of dept.

118 Survey of College Algebra U 5
The sequence 116, 117 treats topics applicable to non-physical sciences; topics in 116 include college algebra, analytic geometry, linear algebra and linear programming.
Su, Au, W, Sp Qtrs. 5 cl. Prereq: 102 or satisfactory score on OSU Math Placement Test. Not open to students with credit for 120, 146, 150, or math courses having these as prerequisites. This course is available for EM credit.

117 Survey of Calculus U 5
An introduction to differential and integral calculus.
Su, Au, W, Sp Qtrs. 5 cl. Prereq: 116 or 130 or 148 or 150 or equal with written permission of dept. Not open to students with credit for 132 or 151. This course is available for EM credit.

130 Elements of Algebra U 4
Equations, inequalities, absolute value, functions, exponential and logarithmic functions, systems of equations, and matrix algebra.
Su, Au, W, Sp Qtrs. 4 cl. Prereq: 102 or satisfactory score on OSU Math Placement Test. Not open to students with credit for 115, 148, 150. This course is available for EM credit.
131 Elements of Calculus I U 4
Limits, tangent lines, continuity, differentiability, derivatives of the logarithmic and exponential functions, graphing techniques, applications of calculus to business.
Su, Au, Wi, Sp Ctrs 4 cl. Prereq: 130 or 148 or 150 or written permission of department. Not open to students with credit for 151. This course is available for EM credit.

132 Elements of Calculus II U 4
Antidifferentiation, definite integral, integral of the logarithmic and exponential functions, techniques of integration, area, volumes, surface area, work, moments, and polar coordinates.
Su, Au, Wi, Sp Ctrs 4 cl. Prereq: 131 or 151 or written permission of dept. Not open to students with credit for 152. This course is available for EM credit.

133 Elements of Calculus III U 5
Integral and differential calculus of trigonometric functions, advanced techniques of integration, area, volumes, surface area, work, moments, and polar coordinates.
Su, Au, Wi, Sp Ctrs 5 cl. Prereq: 132 or equiv with written permission of instructor. Not recommended for students earning less than a grade of B in 132. Successful completion of 133 enables student to enroll in 153 without taking 120, 151, or 152. Not open to students with credit for 153 or 221.

148 College Algebra U 4
Rational exponents, inequalities, functions, graphs of polynomial and rational functions, conic sections, zeros of polynomials.
Su, Au, Wi, Sp Ctrs 4 cl. Prereq: 104 or satisfactory score on OSU Math Placement Test. Not open to students with credit for 120; or to students who completed 103 between Sept 1979 and Sept 1980. This course is available for EM credit.

150 Elementary Functions U 5
Inverse functions, logarithmic, exponential, and trigonometric functions, and their graphs; complex numbers.
Su, Au, Wi, Sp Ctrs 5 cl. Prereq: 148 or satisfactory score on OSU Math Placement Test or permission of dept. Not open to students with credit for 149. This course is available for EM credit.

151 Calculus and Analytic Geometry U 5
Limits, continuity, derivatives, Mean Value Theorem, extrema, curve sketching, related rates, differentiation of the trig, log, and exponential functions.
Su, Au, Wi, Sp Ctrs 5 cl. H151 (honors) may be available to students enrolled in an honors program; others with written permission of dept. Prereq: 150 or equiv. This course is available for EM credit.

152 Calculus and Analytic Geometry U 5
Limits, continuity, derivatives, Mean Value Theorem, extrema, curve sketching, related rates, differentiation of the trig, log, and exponential functions.
Su, Au, Wi, Sp Ctrs 5 cl. H152 (honors) may be available to students enrolled in an honors program; others with written permission of dept. Prereq: 151. This course is available for EM credit.

153 Calculus and Analytic Geometry U 5
Vectors and analytic geometry in 2 and 3 dimensions; functions of several variables, partial derivatives, directional derivatives, gradients, extrema; multiple integrals; applications; cylindrical and spherical coordinates.
Su, Au, Wi, Sp Ctrs 5 cl. Prereq: 134 or 152. This course is available for EM credit.

158 Insights into Mathematics U 5
A liberal arts course intended to involve students in mathematics; topics chosen by the instructor.
Au, Sp Ctrs 5 cl. Prereq: 102 or equiv or satisfactory score on OSU Math Placement Test.

187 Topics in Mathematics U 2-5
An enrichment course for interested and capable students. Au Qtr. H187 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: Permission of dept. Repeatable to a maximum of 10 cr or hrs. This course is graded SU.

H190 Elementary Analysis I U 5
Special course sequence for superior students.

H191 Elementary Analysis II U 5
Continuation of 190.
Wi Qtr. 5 cl. Prereq: Permission of dept.

254 Calculus and Analytic Geometry U 5
Curves, line integrals, Green's theorem, indeterminate forms, improper integrals, sequences and series.
Su, Au, Wi, Sp Ctrs 5 cl. Prereq: 153. This course is available for EM credit.

255 Differential Equations and Their Applications U 5
Basic concepts and methods in solving ordinary differential equations, first and second order, linear differential equations, series solutions, numerical methods, Laplace transforms, physical applications.
Su, Au, Wi, Sp Ctrs 5 cl. Prereq: 254. Not open to students with credit for 256, 415, or 556.

256 Differential Equations with Applications U 4
First order differential equations, linear equations with constant coefficients, systems of linear equations, applications to vibrations problems, and electrical networks.
Su, Au, Wi, Sp Ctrs 4 cl. Prereq: 254. Not open to students with credit for 255, 415, or 556.

H263 Calculus U 5
Multivariable calculus (vector approach), line and surface integrals, vector differential operators.
Au Qtr. 5 cl. Prereq: H152, H191 or written permission of dept. Substitutes for 254 and 551.

H269 Linear Algebra and Multivariable Calculus I U 5
H269, H291, H292 is an integrated sequence in linear algebra, matrix theory, multivariable calculus, ordinary and partial differential equations, and complex analysis.
Au Qtr. 5 cl. Prereq: H263 or written permission of dept.

H291 Linear Algebra and Multivariable Calculus II U 5
Continuation of H269.
Wi Qtr. 5 cl. Prereq: H290 or equiv with written permission of dept.

H292 Linear Algebra and Multivariable Calculus II U 5
Continuation of H291.
Sp Qtr. 5 cl. Prereq: H291 or equiv with written permission of dept. The sequence H269, H291, H292 substitutes for 256 and 559; 258 or 256 or 415 or 556; 513 or 551; 514 or 416 or 552.

294 Special Topics in Mathematics U 2-5
Designed to give groups of able students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Ctrs. Prereq: Permission of dept. Repeatable to a maximum of 10 cr or hrs.

296 Discrete Mathematical Structures U 3
Mathematical formalization and reasoning, mathematical induction; sets, mappings, binary relations, binary operations; Boolean algebra, logic; elementary counting principles; monoids, groups, graphs.
Au, Wi, Sp Ctrs 3 cl. Prereq: 153 or permission of dept. Not open to students with credit for 576.
415 Ordinary and Partial Differential Equations U G 5
Ordinary, partial, linear, and non-linear differential equations, Fourier series, boundary value problems, eigen-value theory, and Bessel functions.
Su, Au, Wi, Sp Qtr. 5 cl. Prereq: 254. Not open to students with credit for 295, 296, 558.

416 Vector Analysis and Complex Variables U G 5
Vector algebra and vector operators, line integrals, analytic functions, complex integral theorems, power series, residues, and conformal mapping.
Au Qtr. 5 cl. Prereq: 254. Not open to students with credit for 513, 514, 551, or 552.

471 Matrices and Linear Algebra U G 5
Matrices, systems of equations, R, determinants, vector spaces, applications.
Au, Wi Qtrs. 5 cl. Prereq: 153 or equiv with written permission of dept. Not open to students with credit for 578 or 593.

5487 Advanced Problem Solving U 2
An advanced enrichment course for interested and capable students.
Au Qtr. 2 cl. Prereq: Permission of dept. Repeatable to a maximum of 6 or hrs. This course is graded S/U.

501 Fundamentals of Mathematics I U G 4
The integrated sequence 501, 502, and 503 covers the calculus of one and several variables.
Au Qtr. 4 cl. Prereq: Written permission of dept. Not open for grad credit to majors in math. This course is intended for advanced students in areas other than the mathematical and physical sciences.

502 Fundamentals of Mathematics II U G 4
A continuation of 501.
Wi Qtr. 4 cl. Prereq: 501.

503 Fundamentals of Mathematics III U G 4
A continuation of 502.
Sp Qtr. 4 cl. Prereq: 502.

504 History of Mathematics U G 5
Development of mathematics from primitive origins to present form; topics include development of arithmetic, algebra, geometry, trigonometry, and calculus.
Sp Qtr. 5 cl. Prereq: 580 or 588 or 507 or equiv with written permission of dept.

507 Advanced Geometry U G 5
Advanced topics from Euclidean Geometry.
Au, Wi Qtr. 5 cl. Prereq: 152.

509† Mathematics Workshop for Elementary Teachers U G 1 or 2
Intensive study of selected topics related to the mathematics content of grades K-8.
Su, Au, Wi, Sp Qtr. Prereq: Teaching experience at the elementary level or permission of dept. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

510 Topics in Mathematics for Elementary School Teachers U G 2-5
Special topics in mathematics appropriate for teachers in the primary and intermediate grades.
Su, Au, Wi, Sp Qtr. Prereq: 1 yr teaching experience or permission of instructor. Repeatable to a maximum of 10 or hrs for each decimal subdivision with written permission of dept. Designed for in-service teachers.

510.01 Geometry
510.02 Properties of Numbers
510.03 Numerical Methods

512 Partial Differential Equations and Boundary Value Problems U G 3
Among the topics considered are: Fourier series, orthogonality relations, vibrating string, steady state heat, Laplace transform, and applications.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 255 or 525 or 415 or 556 or equiv with written permission of dept. Not open to students with credit for 557.

513 Vector Analysis for Engineers U G 3
Vector algebra, vector operators, line integrals, vector integral theorems, curvilinear coordinate, applications.
Wi Qtr. 3 cl. Prereq: 254. Not open to students with credit for 551.

514 Complex Variables for Engineers U G 3
Introduction to complex variables, analytic functions, complex integral theorems, power series, residues, conformal mapping.
Sp Qtr. 3 cl. Prereq: 513 or equiv with written permission of dept. Not open to students with credit for 416, 550, or 594.

590 Probability I U G 3
Axioms of probability, combinatorial probability, random variables, expectations, variance.
Wi Qtr. 5 cl. Prereq: 254.

591 Probability II U G 3
Continuation of 590; examples of distributions, independence, conditional and marginal distributions, law of large numbers, central limit theorem.
Sp Qtr. 5 cl. Prereq: 530.

547 Introductory Analysis I U G 3
547-548 is an integrated sequence in advanced calculus covering sequences, limits, continuous functions, differentiation, Riemann integral, infinite series, sequences and series of functions, Taylor series, improper integrals.
Su (1st term), Au, Wi Qtrs. 3 cl. Prereq: 254 or equiv with written permission of dept. Not open to students with credit for 615.

548 Introductory Analysis II U G 3
Continuation of 547.
Su (2nd term), Wi, Sp Qtrs. 3 cl. Prereq: 547 or equiv with written permission of dept.

549 Introductory Analysis III U G 3
Continuation of 548; the Riemann-Stieltjes integral; an introduction to the calculus of several variables.
Sp Qtr. 3 cl. Prereq: 548 or equiv with written permission of dept.

551 Vector Analysis U G 5
Vector operations in three dimensions, vector operators, surface area, the theorem of Green and Stokes, the divergence theorem, applications.
Au, Sp Qtrs. 5 cl. Prereq: 254. Not open to students with credit for 416, 513, 551.01, or 551.02.

552 Introduction to the Theory of Functions of a Complex Variable U G 5
Topics discussed include power series expansions, the formula of Cauchy, residues, conformal mappings, and elementary functions in the complex domain.
Su, Wi Qtrs. 5 cl. Prereq: 254. Not open to students with credit for 416, 514, 552.01, or 552.02.

556 Differential Equations I U G 3
First and second order equations; series and approximate solutions of linear equations; existence and uniqueness of solutions.
Au Qtr. 3 cl. Prereq: 254. Not open to students with credit for 556.01 or 556.02.

557 Differential Equations II U G 3
Systems of first order equations; qualitative theory for ordinary differential equations; introduction to partial differential equations and boundary value problems.
Wi Qtr. 3 cl. Prereq: 556.
558 Differential Geometry of Curves and Surfaces U G 3
Introduction to the classical differential geometry of curves and surfaces, both in its local and global aspects.
Wi Qtr. 3 cl. Prereq: H292 or 568, and 547 or 551.

560 Point-set Topology U G 4
Sp Qtr. 4 cl. Prereq: 254 or written permission of dept.

565 Discrete Mathematical Structures II U G 3
Elementary number theory, coding theory, continuation of groups, graphs, and enumeration from 206 with applications to topics in computer science.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 366 or permission of dept. Not open to students with credit for 572.

568 Linear Algebra I U G 3
The space R^n and its subspaces; matrices as mappings; matrix algebra; systems of equations; determinants; dot product in R^n; geometric interpretations.
Su (1st term), Au, Wi, Sp Qtrs. 3 cl. Prereq: 153 or equiv with written permission of dept. Not open to students with credit for 471 or 577.

569 Linear Algebra II U G 3
Vector spaces over R and C; linear transformations; the polynomial ring R[x]; characteristic values and vectors; inner product spaces; quadratic form reduction; principal axe theorem.
Su (2nd term), Wi, Sp Qtrs. 3 cl. Prereq: 568 or equiv with written permission of dept. Not open to students with credit for 471 or 577.

573 Elementary Number Theory U G 5
Utilization of concrete examples to introduce concepts of modern algebra; prime numbers, congruences, Diophantine equations, elementary combinatorial analysis.
Sp (odd-numbered yrs only) Qtr. 5 cl. Prereq: 153 or permission of dept.

574 Geometry U G 5
Euclidean and non-Euclidean geometry, emphasizing algebraic connections: affine and projective planes, quality. Topics from: geometry of groups; finite planes, Hilbert’s postulates, n-dimensional spaces.
Sp (even-numbered yrs only) Qtr. 5 cl. Prereq: 568 or equiv with written permission of dept.

575 Combinatorial Mathematics and Graph Theory U G 5
Some classical puzzles of recreational mathematics; matching theory, graph theory, network flows, and optimization; enumeration techniques; combinatorial designs and coding theory.
Wi, Sp Qtrs. Prereq: 568 or written permission of dept.

578 Discrete Mathematical Models U G 5
Analysis and solution of various applied problems using discrete mathematical models; methods used include graph theory, linear optimization, Markov chains and queues.
Wi Qtr. 5 cl. Prereq: 531 or Stat 425 or equiv, 568, and Cpt/Inf 221.

580 Algebra I U G 3
The integrated algebra sequence 580, 581, and 582 includes elementary number theory, group theory, vector spaces and linear transformations, field theory.
Au Qtr. 3 cl. Prereq or concur: 568 or equiv with written permission of dept. Not open to students with credit for 573, 613, or H590.

581 Algebra II U G 3
Continuation of 580.
Wi Qtr. 3 cl. Prereq: 580.

582 Algebra III U G 3
Continuation of 581.
Sp Qtr. 3 cl. Prereq: 581.

H590 Algebraic Structures I U G 5
Integers, congruence relations, structure preserving maps, topics from groups, rings, modules, vector spaces, fields.
Au Qtr. 2 cl. Prereq: 1850 or equiv with written permission of dept. The sequence H590, H591, H592 substitutes for the sequence 580, 581, and 582.

H591 Algebraic Structures II U G 3
A continuation of H590.
Wi Qtr. 3 cl. Prereq: H590 or equiv with written permission of dept.

H592 Algebraic Structures III U G 3
Continuation of H591; further topics in group and field theory and their interrelation; Galois theory.
Sp Qtr. 3 cl. Prereq: H591 or equiv with written permission of dept.

593 Individual Studies U G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

594 Group Studies U G 2-5
Designed to give groups of advanced undergraduate students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs Prereq: 415 and 568, or H590, or permission of dept. Repeatable to a maximum of 10 or hrs.

601 Mathematical Methods in Science I U G 3
Real and complex vector spaces, inner product spaces, linear operators, matrices, eigenvalue problems, normal operators, real and Hermitian forms, applications to physics and engineering.
Au Qtr. 5 cl. Prereq: 16 or hrs in math at the 400-500 level or permission of dept. The recommended preliminary courses are 514 and 513 or 551.

602 Mathematical Methods in Science II U G 3
Linear differential equations, solutions about singular points; Sturm-Liouville problems; Bessel functions; Legendre functions; Green’s functions; Orthogonal expansions; Laplace’s equation and boundary value problems.
Wi Qtr. 5 cl. Prereq: 601.

604 Introduction to Continuous Applied Mathematics I U G 3
Formulation, solution, and interpretation of selected problems in applied mathematics: equilibrium, stability, and phase plane analysis (mechanics and ecology); method of characteristics (traffic flow).
Au Qtr. 3 cl. Prereq: 255 or 415 or 558 or equiv with written permission of dept.

605 Introduction to Continuous Applied Mathematics II U G 3
Elementary partial differential equations of mathematical physics (heat, wave, and Laplace’s equations); separation of variables, Fourier series, Sturm-Liouville boundary value problems.
Wi Qtr. Prereq: 604 and 651 or written permission of dept.

606 Introduction to Numerical Analysis of Partial Differential Equations U G 3
Finite difference methods for ordinary and partial differential equations, interpolation of data, introduction to finite element methods, stability, convergence, error estimates.
Sp Qtr. Prereq: 598, or equiv, and 602 or 605 or written permission of dept.
Intensive study of selected topics related to the mathematics content of grades 7-12.
Su, Au, Wi, Sp Qtr. Prereq: Teaching experience at the secondary level or permission of dept. Repeatable to a maximum of 12 cr or hrs. Not open to grad students in math. This course is graded S/U.

Special topics in mathematics for teachers at the secondary level.
Su, Au, Wi, Sp Qtrs. Prereq: 1 yr teaching experience or permission of instructor. Each divisional subdivision, except 610.25, repeatable to a maximum of 10 cr or hrs with written permission of dept. Designed for in-service teachers.

Geometry
161.02 Algebra
161.03 Approximation Methods
161.04 Probability
161.25 Special Projects U G 1
Prereq: Enrollment in mathematics MA specialization or written permission of dept. This course is graded S/U.

Two- and three-dimensional binary algebra over the real numbers; geometric interpretations, both Euclidean and affine.
Wi Qtr. 5 cr for 8 wks. Prereq: 558 or equiv with written permission of dept; enrollment in mathematics MA specialization. Recommended for secondary school teachers.

Axiomatic development of elementary geometry of plane and space, introduction to non-Euclidean geometry.
Su Qtr. 5 cr for 8 wks. Prereq: 507 or equiv with written permission of dept; enrollment in mathematics MA specialization. Recommended for secondary teachers.

Arithmetic and order properties of the integers; unique factorization, congruence arithmetic, Chinese Remainder Theorem, unit groups; polynomial algebra, roots of unity; non-unique factorization.
Sp Qtr. 5 cr for 8 wks. Prereq: 580 or equiv with written permission of dept; enrollment in mathematics MA specialization. Not open to students with credit for 579. Recommended for secondary school teachers.

A review of major concepts and theorems of differential and integral calculus using a numerical approach.
Su Qtr. 5 cr for 8 wks. Prereq: 254 or equiv with written permission of dept; enrollment in mathematics MA specialization. Recommended for secondary school teachers.

Real number system, Dedekind cuts, basic set theory, introductory metric topology, connectedness, limits, continuity, the derivative, properties of differentiable functions, Riemann sums, integration.
Au Qtr. 5 cr for 8 wks. Prereq: 614 or equiv with written permission of dept; enrollment in mathematics MA specialization. Not open to students with credit for 651. Recommended for secondary school teachers.

Finite differences, difference operators, interpolation, summation, difference equations; applications to actuarial science and finance.
Au Qtr. 2-2.5 hr cr. Prereq: 254 and 471 or 569; or permission of instructor.

Mathematical techniques of use in analyzing financial transactions involving interest: measurement of interest, force of interest, annuities-certain, applications to actuarial sciences.
Sp Qtr. 2 1/4 hr cr. Prereq: 254 or permission of instructor.

A problem oriented approach to major probability concepts: independence, conditional probabilities, expected values, binomial, normal, and other distributions, law of large numbers.
Su Qtr. 5 cr for 8 wks. Prereq: 254 or equiv with written permission of dept; enrollment in mathematics MA specialization. Recommended for secondary school teachers.

Mortality functions and laws of mortality; continuous and varying annuities; insurance and insurance as integrals; calculation of reserves.
Au Qtr. 2 1/4 hr cr. Prereq: 616, 618, and Stat 520 or equiv, or permission of instructor.

Continuation of 630; stationary population theory, multiple integration and population theory, multi-life contingencies, compound contingencies.
Wi Qtr. 2 1/4 hr cr. Prereq: 630.

Continuation of 631; multiple integration and multiple decrements, associated single decrements, primary and secondary decrements, topics of current interest in life and casualty contingencies.
Sp Qtr. 2 1 1/4 hr cr. Prereq: 631.

Linear equations, inequalities, convex sets, matrix algebra, linear programming, duality; applications of linear mathematical models to business, transportation flow, and the social and behavioral sciences.
Au, Sp Qtr. 4 cr. Prereq: 117 or 131 or 151 or permission of dept.

Concept of a game, minimax theorem; linear programming.
Sp Qtr. 3 cr. Prereq: 568 or equiv or permission of dept.

The topology of the line, plane, Euclidean n-space, and metric spaces; emphasis on elementary ideas in topology.
Su Qtr. 3 cr. Prereq: 254 or equiv. Not open to students with credit for 655.

Set theory and transfinite induction and theory of ordinals, order type characterizations, cardinal arithmetic and structure, principles of choice, fundamental infinite combinatoric principles.
Au Qtr. 4 cr. Prereq: 547 or 580 or equiv with permission of dept.

The syntax and semantics of sentential logic and first order logic; completeness and compactness theorems for first order logic.
Au Qtr. 3 cr.

Continuation of 648; decidability and undecidability of systems and structures for number theory; Gödel's incompleteness theorems and recursive functions; second order logic.
Wi Qtr. 3 cr. Prereq: 648 or permission of instructor.

Real numbers, infinite sequences and series.
Au Qtr. 4 cr.

Continuous functions, differentiable functions and functions of bounded variation; Riemann-Stieltjes integral.
Wi Qtr. 4 cr. Prereq: 651.

Measurable sets and functions, elementary theory of the Lebesgue integral.
Sp Qtr. 4 cr. Prereq: 652.
654 Complex Variables U G 3
Complex arithmetic, geometry, conformal mapping, analytic functions, and residues.
Au Qtr. 3 cl. Prereq: Permission of dept. Recommended primarily for grad students in science and engineering. Not open to students with credit for 514 or 652.

655 Elementary Topology I U G 4
Continuity, compactness, connectedness in metric and general topological spaces, completeness in metric spaces.
Au Qtr. 4 cl. Prereq: Permission of dept.

656 Elementary Topology II U G 4
Continuation of 655; products, quotients, separation axioms, convergence, metrization, and compactifications for general topological spaces.
Wi Qtr. 4 cl. Prereq: 655.

657 Elementary Topology III U G 4
Continuation of 656; fundamental group and covering spaces.
Sp Qtr. 4 cl. Prereq: 656.

658 Calculus of Variations U G 5
Variation of a functional; Euler-Lagrange equations; Hamilton-Jacobi theory; second variation; theory of field; Noether theorem; direct methods; applications to geometry and physics.
Au Qtr. 5 cl. Prereq: 255 or 556; 551.

659 Modern Mathematical Methods in Relativity Theory I U G 4
Geometry in Minkowski space-time; physical interpretations; tensors; exterior calculus; manifolds; Lie derivatives; parallel transport; torsion; curvature; Cartan's two structural equations; Einstein field equations.
Wi Qtr. 4 cl. Prereq: 254 and Physics 133 or equiv with permission of dept.

660 Modern Mathematical Methods in Relativity Theory II U G 4
Fluid dynamics, Hamilton-Jacobi theory in curved geometries; geometry and dynamics of homogeneous cosmologies; black holes; local-global properties; entropy; gravitational collapse; space-time symmetries.
Sp Qtr. 4 cl. Prereq: 555 or equiv with permission of dept.

661 Introduction to Number Theory U G 5
Basic concepts of divisibility, congruence, reciprocity, and primitive roots as introduction to algebra with emphasis on techniques of proof.
Su Qtr. 5 cl. Prereq: 254 or equiv.

670 Algebra I U G 4
Elementary theory of groups, permutation groups, Polya theory of counting, rings and ideals, polynomials.
Au Qtr. 4 cl. Prereq: Permission of dept.

671 Algebra II U G 4
Continuation of 670; vector spaces, linear transformations, canonical forms for matrices, linear programming, orthogonality.
Wi Qtr. 4 cl. Prereq: 670 or permission of dept.

672 Algebra III U G 4
Continuation of 671; quadratic forms, finite fields, various applications.
Sp Qtr. 4 cl. Prereq: 671 or permission of dept.

674 Survey of Combinatorial Mathematics U G 3
Matching and network flows, graph theory, combinatorial designs, and enumeration theory.
Su, Sp Qtr. 3 cl. Prereq: 569 or equiv with permission of dept.

675 Applied Discrete Mathematics I U G 4
Graph theory, trees, cycles, cocycles, electrical networks, network flows, transportation problems, linear programming, integer programming, use of algorithms will be stressed.
Au Qtr. 4 cl. Prereq: 672 or equiv with written permission of dept.

676 Applied Discrete Mathematics II U G 4
Combinatorial designs, applications in experiments, coding theory, computational complexity, enumeration theory with physical applications.
Wi Qtr. 4 cl. Prereq: 675 or equiv with permission of dept.

677 Applied Discrete Mathematics III U G 4
Topics in graph theory, designs, codes, enumeration problems, algorithms and computational complexity.
Sp Qtr. 4 cl. Prereq: 676 or equiv with permission of dept.

683 Individual Studies U G 1-5
Individual conferences, assigned readings, and reports on minor investigations.
Su, Au, Wi, Sp Qtr. This course is graded S/J/U.

694 Group Studies U G 2-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtr. Prereq: Permission of dept. Repeatable to a maximum of 20 or hrs.

701 Mathematical Methods in Science III U G 5
Introduction to tensor analysis with applications to geometry; elements of the calculus of variations with applications to physical problems.
Sp Qtr. 5 cl. Prereq: 601 or equiv or permission of dept.

702 Integral Equations and Eigenvalue Problems I U G 3
Orthogonal functions, linear integral equations of first and second kinds, relations to ordinary differential equations, Voltera's equation, boundary value problems, practical methods of solution.
Au Qtr. 3 cl. Prereq: 601 and 602.

703 Integral Equations and Eigenvalue Problems II U G 3
Distribution of eigenvalues, self-adjointness, definiteness, Green's functions, minimal properties, approximation of eigenvalues, eigenfunction expansions, Ritz method, iteration method, matrix eigenvalue problems, finite differences.
Wi Qtr. 3 cl. Prereq: 702.

7051 Special Functions U G 3
Power series developments, asymptotic expansion, gamma functions, cylindrical functions, spherical harmonics, orthogonal polynomials, hypergeometric functions, theta functions, elliptic functions and integrals, numerical techniques.
Wi Qtr. 3 cl. Prereq: 601 and 602.

707 Theoretical Numerical Analysis I U G 3
Au Qtr. Prereq: 651 and 671, or 602, or equiv, with permission of instructor.

708 Theoretical Numerical Analysis II U G 3
Continuation of 707.
Wi Qtr. Prereq: 707.

709 Theoretical Numerical Analysis III U G 3
Continuation of 708.
Sp Qtr. Prereq: 708.

710 Projective Geometry I U G 4
Desarguesian spaces; lattice-theoretic characterization; introduction of coordinates; fundamental theorem on collineations; correlations.
Su (alternate) Qtr. 4 cl. Prereq: 671 or permission of dept.
723 Theory of Probability I U G 4
Fundamentals of measure theory, general probability
and conditional expectations.
Wi Qtr. 3 cr. 1 lab hr. Prereq: 653.

724 Theory of Probability II U G 4
Characteristic functions, limit theorems, Markov processes,
and stationary processes.
Wi Qtr. 3 cr. 1 lab hr. Prereq: 723.

725 Theory of Probability III U G 4
Continuation of 724.
Sp Qtr. 3 cr. 1 lab hr. Prereq: 723.

741† Mathematical Foundations of the
Design and Use of Automatic
Systems I U G 3
Boolean operations; reduction of systems of Boolean
functions; Turing machines and general recursive functions;
application of problems relating to design and use of automatic
systems.
Au Qtr. 3 cr. Prereq: Grad standing or permission of dept.

742† Mathematical Foundations of the
Design and Use of Automatic
Systems II U G 3
Continuation of 741.
Wi Qtr. 3 cr. Prereq: 742 and grad standing or permission of dept.

750 Real Analysis I U G 5
Relative extremas in partial orders; additive and countable
additive set functions; extensions of set functions; integration;
differentiation, applications.
Su. Au Qtr. 5 cr. Prereq: 653.

751 Real Analysis II U G 5
Continuation of 750.
Wi Qtr. 5 cr. Prereq: 750.

752 Real Analysis III U G 5
Continuation of 751.
Sp Qtr. 5 cr. Prereq: 751.

753 Introduction to Complex
Analysis I U G 5
Families of holomorphic and meromorphic functions,
geometrical methods of the theory of functions, conformal
transformations, including the Cauchy integral theorem,
Runge's theorem, Riemann mapping theorem.
Wi Qtr. 5 cr. Prereq: 653.

754 Introduction to Complex
Analysis II U G 5
Analytic continuation, general analytic functions, algebraic,
entire, elliptic, the gamma and zeta functions, Dirichlet's series,
Picard's theorems, Mitrinovic's theorem, String's formula.
Sp Qtr. 5 cr. Prereq: 753.

760* Ordinary Differential
Equations I U G 3
Introduction to theory of linear and non-linear ordinary
differential equations; equations with singular points; stability
theory, boundary value problems.
Au Qtr. 3 cr. Prereq: 559 and 653.

761† Ordinary Differential
Equations II U G 3
Continuation of 760.
Wi Qtr. 3 cr. Prereq: 760.

763† Partial Differential Equations
and Their Applications I U G 3
First order partial differential equations, theory of characteristics;
second order partial differential equations; elliptic, parabolic,
hyperbolic equations; standard method of solution, Green's function; integral equations.
Au Qtr. 3 cr. Prereq: 652 and permission of dept.

764† Partial Differential Equations
and Their Applications II U G 3
Continuation of 763.
Wi Qtr. 3 cr. Prereq: 763.

767 Introduction to the Theory of
Approximation I U G 4
Approximation by polynomials and trigonometric polynomials.
Weierstrass's theory of best approximation and its
generalizations; interpolation processes and mechanical
quadrature; orthogonal polynomials and elements of harmonic
analysis.
Au Qtr. 4 cr. Prereq: 653 or equiv with permission of dept.

768 Introduction to the Theory of
Approximation II U G 4
A continuation of 767.
Wi Qtr. 4 cr. Prereq: 767 or equiv with permission of dept.

770 Algebra I U G 4
Permutation groups, solvable groups, composition series,
polynomial rings, unique factorization domains, canonical
forms, bilinear forms, free modules, tensor products, Galois
theory, algebraic closure, transcendental extensions.
Au Qtr. 4 cr. Prereq: 672 or equiv with permission of instructor.

771 Algebra II U G 4
A continuation of 770.
Wi Qtr. 4 cr. Prereq: 770 or equiv with permission of dept.

772 Algebra III U G 4
A continuation of 771.
Sp Qtr. 4 cr. Prereq: 771 or equiv with permission of dept.

775 Combinatorics and
Graph Theory I U G 5
Graph theory, network flows, matroids, linear
programming, Ramsey theory.
Au Qtr. Prereq: 672.

776 Combinatorics and
Graph Theory II U G 5
Combinatorial designs and geometries, difference sets,
orthogonal latin squares, coding theory, enumeration theory
including Möbius inversion, Polya theory, and generating
functions.
Wi Qtr. Prereq: 775.

777 Combinatorics and
Graph Theory III U G 5
Planar graphs and embeddings in surfaces, graph connectivity,
algebraic graph theory.
Sp Qtr. Prereq: 776.

780 Number Theory I U G 5
Diophantine equations, congruences, p-adic numbers, algebraic
number theory, class numbers, distribution of primes,
continued fractions.
Au Qtr. 5 cr. Prereq: 672.

781 Number Theory II U G 5
Continuation of 780.
Wi Qtr. 5 cr. Prereq: 780.

782 Number Theory III U G 5
Continuation of 781.
Sp Qtr. 5 cr. Prereq: 781.

846 Topics in Discrete Mathematics
U G 2-5
Wi Qtr. 2-5 cr. Prereq: Permission of dept. Repeatable to a
maximum of 20 cr hrs.

851 Differential Geometry I U G 3
Curves, surfaces, fundamental forms, tensors, and
connections.
Au Qtr. 3 cr. Prereq: 655, 751, and 771.
852 Differential Geometry II G 3
Continuation of 851.
Wi Qtr. 3 cl. Prereq. 851.

854 Lie Groups I G 3
Integration on manifolds, Lie groups, classical groups, homogeneous spaces.
Wi Qtr. 3 cl. Prereq. 651, 751, and 771.

855 Lie Groups II G 3
Continuation of 854.
Sp Qtr. 3 cl. Prereq. 854.

857 Introduction to Functional Analysis I G 3
Au Qtr. 3 cl. Prereq. 552 and 751.

858 Introduction to Functional Analysis II G 3
Continuation of 857.
Wi Qtr. 3 cl. Prereq. 857.

859 Introduction to Functional Analysis III G 3
Banach Algebras, spectral theory, harmonic analysis, fixed-point theorems, applications to analysis.
Sp Qtr. 3 cl. Prereq. 857 and 888.

860 Algebraic Topology I G 3
Singular homology theory.
Au Qtr. 3 cl. Prereq. 857.

861 Algebraic Topology II G 3
Continuation of 860; general cohomology theories.
Wi Qtr. 3 cl. Prereq. 860.

862 Algebraic Topology III G 3
Continuation of 860 and 861; fibrations and homotopy theory.
Sp Qtr. 3 cl. Prereq. 861.

863† Potential Theory I G 3
Newtonian potentials, boundary value problems; logarithmic potentials, elliptic partial differential equations.
Au Qtr. Prereq. 552 and permission of dept.

864† Potential Theory II G 3
Continuation of 863.
Wi Qtr. Prereq. 893.

865† Topics in Applied Mathematics G 2-5
Su, Au Qtr. 2-5 cl. Prereq. Written permission of dept. Repeatable to a maximum of 20 cl hrs.

866† Mathematical Theory of Communication and Control G 2-5
Sp Qtr. 2-5 cl. Prereq. Permission of dept. Repeatable to a maximum of 20 cl hrs.

870 Topics in Graph Theory G 2-5
Topics of current research interest.
Au, Wi, Sp Qtr. Prereq. 777 and permission of dept. Repeatable to a maximum of 15 cl hrs.

872 Group Theory I G 4
Properties of groups, extensions, transfer, generators and defining relations, representation theory, permutation groups.
Au Qtr. 4 cl. Prereq. 712 or 772.

873 Group Theory II G 4
Continuation of 872.
Au Qtr. 4 cl. Prereq. 872.

874 Group Theory III G 4
Continuation of 873.
Wi Qtr. 4 cl. Prereq. 873.

875 Combinatorics Seminar G 2-5
Recent research articles in combinatorics are read and presented by the students.
Au, Wi, Sp Qtr. Prereq. Permission of dept. Repeatable to a maximum of 15 cl hrs.

876 Analytic Number Theory G 4
The distribution of prime numbers; Waring's problems, and selected topics.
Au, Wi Qtr. 4 cl. Prereq. Permission of dept. Repeatable to a maximum of 8 cl hrs.

877 Theory of Algebraic Numbers G 4
Ideals in algebraic number fields, unique decomposition theorem, discriminant, ideal classes, applications of Galois theory and analytical methods.
Au, Wi, Sp Qtr. 4 cl. Prereq. Permission of dept. Repeatable to a maximum of 8 cl hrs.

883 Individual Studies G 1-5
Individual assigned readings and reports on research investigations.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 cl hrs. This course is graded S/U.

884 Group Studies G 1-5
When need is sufficient, the department will offer under this number a course on some phase of mathematics not covered in its regular offerings.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of dept. Repeatable to a maximum of 30 cl hrs.

931 Ergodic Theory I G 3
Measureable transformations, mixing and ergodicity, existence of invariant measures, contraction operations on function spaces, ergodic theorems.
Au Qtr. 3 cl. Prereq. 751.

939 Topics in Probability Theory G 2-5
Various advanced topics in probability theory.

949 Topics in Logic G 2-5

950 Topics in Real Analysis G 2-5

951 Topics in Complex Analysis G 2-5
Su, Au, Wi, Sp Qtrs. 2-5 cl. Prereq. 754, Repeatable to a maximum of 20 cl hrs.

953 Topics in Topology G 2-5
Au, Wi, Sp Qtrs. Prereq. Permission of dept. Repeatable to a maximum of 20 cl hrs.

957 Topics in Differential Geometry G 2-5

961 Topics in Functional Analysis G 2-5
Topics to be chosen from current research papers.
Su, Au, Wi, Sp Qtrs. 2-5 cl. Prereq. Permission of dept. Repeatable to a maximum of 20 cl hrs.

970 Topics in Representation Theory G 2-5
Topics in the representation theory of various algebraic structures.
Au Qtr. 2-5 cl. Prereq. Permission of dept. Repeatable to a maximum of 20 cl hrs.
973 Introduction to Homological Algebra G 4
Categories, functors (esp. tensor products, Hom, Tor, Ext), natural transformations, homology, cohomology, derived functors.
Au Qtr. 4 cl. Prereq: 772 or equiv or permission of dept.

974 Topics in Homological Algebra G 2-5
Topics selected from current research articles.
Wi Qtr. 2-5 cl. Prereq: 973 or permission of dept. Repeatable to a maximum of 20 cr hrs.

975 Topics in Geometry G 2-5
Topics to be chosen from current research papers.
Su, Au, Wi, Sp Qtrs. 2-5 cl. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs.

976 Topics in Combinatorial Theory G 2-5
Advanced topics in combinatorial theory.
Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs.

978 Topics in Ring Theory G 2-5
Topics selected from current research papers.
Su, Au, Wi, Sp Qtrs. 2-5 cl. Prereq: 772. Repeatable to a maximum of 20 cr hrs.

981 Topics in the Theory of Groups G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs.

982 Topics in Algebra G 2-5
Topics selected from current research papers.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs.

983 Topics in Number Theory G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs.

985 Seminar in Group Theory G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

986 Seminar on Algebra G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

987 Seminar on Commutative Algebra G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

988 Seminar on Number Theory G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

989 Seminar on Geometry of Numbers G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

990 Seminar on Geometry G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

991 Seminar in Probability Theory G 2-5
Topics selected from current research papers.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

992 Seminar in Applied Mathematics G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. Including cr hrs earned in 988. This course is graded S/U.

995 Seminar in Ergodic Theory G 2-5
Topics selected from current research papers.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

996 Seminar in Analysis G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

997 Seminar in Topology G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

---

**Mechanical Engineering**

2075 Robinson Laboratory, 206 West 18th Avenue, 422-2289

281 System Dynamics U 4

Theoretical and experimental study of the dynamics of linear, lumped-parameter models of mechanical, electrical, fluid, thermal, and mixed systems. Doebelin.
Su, Au, Wi, Sp Qtrs. 3 cl. 1 2-hr lab. Prereq: Engr Engr 143, or 110 and 200; Eng Mech 410 and Math 255 or 256; or permission of instructor; a minimum cumulative pt/hr ratio of 2.3, and acceptance as a mech eng major or written permission of dept.

294 Group Studies in Mechanical Engineering U 1-6

Special topics in mechanical engineering; the particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course is offered.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor.

309 Thermodynamics U 3

Study of macroscopic and microscopic thermodynamics. Moran.
Au, Wi, Sp Qtrs. 3 cl. Prereq: Math 415 and Physics 133. Not open to students majoring in mech eng.

311 Heat Transfer and Fluid Flow U 3

Study of the fundamental principles of heat transfer and fluid flow with applications to electrical machinery and apparatus.
Jones.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 309. Not open to students majoring in mech eng.

350 Machine Design U 5

A study of the application of the general principles and fundamentals of mechanics of solids to the creative design of mechanical equipment. Collin.
Sp Qtr. 5 cl. Prereq: Eng Mech 420. Not open to students majoring in mech eng.

382 Mechanical Engineering Analysis U 4

Continuation of 281 with additional analytical techniques of general usefulness in mechanical engineering. Houseknecht.
Au, Wi Qtr. 3 cl. 1 2-hr lab. Prereq: 281.

489 Professional Practice in Industry U 2

Actual employment in a co-op program job in industry and the preparation of a comprehensive report based on a pre-assigned outline. Kennedy.
Au, Wi, Sp Qtrs. Prereq: Admission to Co-op Program in mech eng. Repeatable to a maximum of 12 cr hrs.

501 Thermodynamics I U G 4

A study of basic engineering thermodynamics. Moran.
Au, Wi Qtrs. Prereq: 281 and Chem 204. Non-mech eng majors require Chem 204, Eng Mech 410 or 415, and Math 255 or 256, or written permission of instructor.
502 Thermodynamics II U G 4
Continuation of 501. Moran.
Wi, Sp Qtr. 4 cl. Prereq: 501; prerequisite or concurrent: Chem 205 or written permission of instructor.

503 Fluid Dynamics I U G 4
A study of the basic concepts, fundamental equations, and applications of fluid mechanics to engineering problems. Han.
Wi, Sp Qtrs. 4 cl. Prereq: 501.

504 Fluid Dynamics II U G 5
Continuation of 503. Jones.
Au, Sp Qtrs. 4 cl. 1-2 hr lab. Prereq: 502 and 503.

510 Heat Transfer U G 5
A study of the fundamentals of conduction, convection, and thermal radiation energy transfer with engineering applications. Richards.
Au, Sp Qtrs. 4 cl. 1-2 hr lab. Prereq: 503; prerequisite or concurrence: Agr Eng majors only: 501 and Civil Eng 413.

527 Energy Conversion in Turbomachinery U G 4
Energy conversion in power-producing, -absorbing, and -transmitting turbomachinery. Vallcoff.
Wi, Sp Qtrs. 3 cl. 1-2 hr lab. Prereq: 504; prerequisite or concurrence: 510.

528 Energy Conversion in Positive Displacement Machinery U G 3
Energy conversion in power-producing, -absorbing, and -transmitting positive displacement machinery. Jones.
Au, Sp Qtrs. 3 cl. Prereq: 504; prerequisite or concurrence: 510.

553 Kinematics and Dynamics of Machinery U G 4
Motion and force analysis in mechanisms such as plane linkages and geared mechanisms, introduction to the synthesis of plane linkages and simple cam systems. Wadron.
Au, Wi Qtrs. 4 cl. Prereq: 281.

560 Principles of Mechanical Design U G 3
An introduction to the principles of mechanical design, with emphasis on the selection of materials, manufacturing processes, engineering materials, and factors of safety. Gauthier.
Au, Wi Qtrs. 3 cl. Prereq: 281 or equivalent, Ind Eng 311, and Eng Mech 420.

561 Principles of Mechanical Design II U G 4
A study of the application of the general principles and empiricism of mechanical solids to the creative design of mechanical equipment. Busby.
Wi, Sp Qtrs. 3 cl. 1-2 hr lab. Prereq: 560 or permission of instructor, and Eng Mech 420.

562 Principles of Mechanical Design III U G 4
Continuation of 561. Collins.
Au, Sp Qtrs. 4 cl. Prereq: 561.

563 Principles of Mechanical Design IV U G 4
Continuation of 561. Collins.
Au, Wi Qtrs. 4 cl. Prereq: 561.

564 Mechanical Engineering Design I U G 3
The methodology of intermediate design and practice in the design of a specific system which may utilize principles of any mechanical engineering discipline. Foster.
Au, Wi, Sp Qtrs. 3-2 cl. lab. Prereq: 510, 561 and 562. Offered in cooperation with Nuclear Engineering.

570 Mechanical Engineering Measurements U G 3
A theoretical and experimental study of the principles of operation and performance characteristics of measuring instruments used in mechanical engineering. House.
Au, Wi Qtrs. 1 cl. 1-4 hr lab. Prereq: 382, Eng Mech 420 and English 305 and prerequisite or concurrence 510.

571 Principles of Automatic Control U G 4
A theoretical and experimental study of the principles of operation of feedback control systems, including servomechanisms and process control. Dobrescu.
Wi, Sp Qtrs. 3 cl. 1-2 hr lab. Prereq: 570 or permission of instructor.

581 Mechanical Engineering Laboratory U G 3
The study and application of methods of experimental analysis. DurrANCE.
Au, Wi, Sp Qtrs. 2 2-3 cl. lab and 5 hrs planning and report writing. Prereq: 510 and 570; prerequisite or concurrence 563. Offered in cooperation with Nuclear Engineering.

593 Individual Studies in Mechanical Engineering U G 1-5
Provides the opportunity to pursue special studies in mechanical engineering not otherwise covered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded SU/NC.

601 Gas Dynamics U G 3
An analytical study of one and two dimensional steady flow and one dimensional unsteady flow. Han.
Sp Qtr. 3 cl. Prereq: Math 255 or equivalent. Not open to students with credit for 801.

612 Principles of Heat Exchangers U G 3
A study of principles of heat and mass transfer as applied to the design of heat exchangers. Han.
Au Qtr. 3 cl. Prereq: 510.

614 Solar Energy Thermal Systems U G 3
A study of the fundamentals of solar radiation and selected topics in heat transfer with application to solar collectors and solar thermal systems. Clark.
Sp Qtr. 3 cl. Prereq: 510 or equivalent with written permission of instructor.

618 Environmental Pollution Abatement U G 5
Problems, philosophies, principles, and methods of pollution control in the total environment; quantitative approaches to environmental problems in air, water, and land systems. Wi Qtr. 5 cl. Prereq: Sr or grad majors in engineering or sciences. Not open to students with credit for Agr Eng 714; Civil Eng 516, 520, 515, or 714; Chem Eng 714; Mech Eng 714; Metall Eng 714; or Zoology 618 or 714. Cross-listed in Civil Engineering and Zoology.

622 Combined-cycle Power Generation U G 3
An analytical and descriptive study of the vapor power cycles and associated energy transport processes used in the generation of electrical power from fossil fuels. Christensen.
Wi Qtr. 3 cl. Prereq: 502 and 510 or written permission of instructor.

630 Energy Conversion in Internal Combustion Engines U G 4
Au Qtr. 3 cl. Prereq: 502 or permission of instructor.

631 Mechanical Analysis of Internal Combustion Engines U G 4
Force analysis as related to the design of engine components such as pistons, bearings, valve springs, and crankshafts. Engelmaier.
Wi Qtr. 3 cl. Prereq: 560, 563 or permission of instructor.

632 Diesel Engines U G 3
An advanced study of diesel engine operation and economy. Engelmaier.
Sp Qtr. 3 cl. Prereq: 502 and 561 or permission of instructor.

633 Gas Turbine Power Plants U G 3
A study of the principles, performance, and design of gas turbine power plants. Vallcoff.
Wi Qtr. 3 cl. Prereq: 504 and 510.
636 Nuclear Power Plants U G 3
A study of thermal and mechanical design aspects and economics of nuclear power plants and processes. Christensen.
Wi Tr. 3 cl. Prereq: Nuc Eng 505 and 561 or 309 with permission of instructor. Not open to students with credit for Nuc En 636. Cross listed in Nuclear Engineering.

637 Heat Transfer Application in Nuclear Reactor Systems U G 3
The heat transfer applications in nuclear reactor systems include but are not limited to: heat transfer in PWR and BWR fuel rods, coolant and reactor internals. Sp Tr. 3 cl. Prereq: 636 or ECE Eng 636 and Mech Eng 510 or 311 with permission of instructor. Not open to students with credit for Nuc Eng 637. Cross listed in Nuclear Engineering.

640 Principles of Environmental Control U G 3
A study of the principles of the control of environments for human occupation, occupation by other living beings, the operations of mechanical and electrical equipment, and for storage and processing of materials. Sepuy.
Au, Sp Qtr. 3 cl. Prereq: 562.

641 Heating, Ventilating, and Air Conditioning U G 4
A study of practices, components, and systems for conventional and unique air conditioning equipment used to control the environment for human occupancy, storage, and industrial processes. Sepuy.
Au Qtr. 4 cl. Prereq: 510.

642 Refrigeration and Air Conditioning U G 3
A study of fundamentals, processes, and equipment associated with refrigeration systems using vapor compression, air cycle, absorption, magnetic, and thermoelectric cooling. Sepuy.
Wi Qtr. 3 cl. Prereq: 562.

650 Machinery Dynamics U G 4
A study of the interrelationships among forces, motions, and masses as related to rigid or elastic machine members, including force analysis, vibration, impact, and balancing. Houser.
Au Qtr. 3 cl. 1 2-hr lab. Prereq: 553 and Math 255; or permission of instructor.

651 Optimization in Mechanical Design U G 3
Application of analytical optimization methods to the solution of deterministic and probabilistic mechanical design problems; introduction to interactive optimization using ADML computer graphics facilities. Kinzel.
Sp Qtr. 3 cl. Prereq: 562 or 563 or permission of instructor.

664 Mechanical Engineering Computer Aided Design I U G 4
Methodology and practice in computer-aided design of components and systems utilizing principles of several mechanical engineering disciplines. Foster.
Wi Qtr. 3 cl. 1 2-hr lab. Prereq: 510, and 561; Math 255 or 256; and En Graph 200.

665 Lubrication and Bearing Design U G 3
Analysis and design of hydrodynamic and hydrostatic bearings using liquid or gas lubricants. Foster.
Au Qtr. 3 cl. Prereq: 503 and Math 255 or 256; or permission of instructor.

666 Acoustic Problems in Engineering U G 3
A study of the fundamentals of acoustics and noise control including design criteria based on hearing damage and other human responses to sound. Singh.
Wi Qtr. 3 cl. Prereq: 3rd yr standing in science or engineering and written permission of instructor.

671 Measurement System Application and Design U G 4
A theoretical and experimental study of measurement instrumentation, emphasis on both principles of operation and analysis and design techniques for measurement systems of a mechanical and electromechanical nature. Doebelin.
Wi Qtr. 3 cl. 1 2-hr lab. Prereq: 670 or permission of instructor.

672 Control Systems Design U G 4
A study of the theoretical and experimental procedures involved in the design of feedback control systems including servomechanisms and process control. Doebelin. Sp Qtr. 3 cl. 1 2-hr lab. Prereq: 671 or permission of instructor.

673 Applied Digital Control U G 4
Theory and application of digital control system design techniques to the control of physical systems; lab sessions deal with microprocessor implementation controllers. Srinivasan. Sp Qtr. 3 cl. 1 2-hr lab. Prereq: 571 or equiv.

687 Introduction to Design in Biomedical Engineering U G 3
Introduction of engineering students to design problems in biomedical engineering; analysis in bio-mechanics, bio-fluid mechanics, diffusion, and elementary physiology. Bridge.
Wi Qtr. 3 cl. Prereq: Permission of instructor.

693 Individual Studies in Mechanical Engineering U G 2-10
Designed to give the advanced student opportunity to pursue special studies not otherwise offered; work undertaken will be selected from automotive and internal combustion machinery, combustion and fuels, heat transfer, heating, ventilating, air conditioning, industrial hydraulics, machine design, refrigeration, steam power plants, and thermodynamics. Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs with a maximum of 10 cr hrs in any one topic. This course is graded S/U.

700 Group Studies in Mechanical Engineering U G 1-6
Special topics in mechanical engineering. The particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course is offered. Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 12 cr hrs.

700 Transport Processes U G 3
A parallel, systematic study of the three transport processes of mass, momentum, and energy from the continuum viewpoint. Moran.
Su Qtr. 3 cl. Prereq: 510 and Math 255; or equiv.

721* Advanced Principles of Energy Conversion in Turbomachinery U G 3
An advanced study of power-absorbing, generating, and transmitting turbomachinery. Velkoff.
Sp Qtr. 3 cl. Prereq: 527 or equiv. Not open to students with credit for 821.

725* Advanced Steam Power Cycle and Turbine Analysis U G 3
An advanced study of steam power cycles and design of steam turbine nozzles and blades. Christensen.
Sp Qtr. 3 cl. Prereq: 625. Not open to students with credit for 823.

726 Introduction to Combustion U G 3
Introduction to thermodynamics and kinetics of combustion and to the role of diffusion in combustion systems. Applications to evaporation of fuel droplets, catalytic conversion and coal combustion. Eisenbehig.
Au Qtr. Prereq: 504; prerequisite or concourse 510.
740†* Advanced Environmental Control Refrigeration U G 3
Advanced study of conventional and novel processes including thermoelectric, magnetic and gas systems. Sespy. Sp Qtr. (Offered on alternate yr basis with 741.) 3 cl. Prereq: 641 or equiv. Not open to students with credit for 840.

741* Advanced Environmental Control U G 3
An advanced study of conventional and unique systems used to control the environment for occupancy by people, equipment, and material. Sespy. Sp Qtr. (Offered on alternate yr basis with 740.) 3 cl. Prereq: 840 or equiv. Not open to students with credit for 841.

751 Application of Computer Graphics to Kinematic Synthesis and Analysis U G 4
Application of interactive computer graphics to the kinematic synthesis of linkages; extensive use of the ADML computer graphics facilities. Kinzel. Au Qtr. 3 cl., 1 1/2-hr lab. Prereq: 553 and En Graph 200 or equiv. Not open to students with credit for 651.

752 Mechanical Design of Manipulators and Robots U G 3
Principles of hardware and software design of industrial robots and related devices; includes use of actual industrial robot programming procedures. Wi Qtr. 3 cl. Prereq: Mech E 410 or 415, Mech En 571 or Elec Eng 550 or permission of instructor.

752 Mechanics of Composite Materials U G 3
Analysis of composite materials and their use in mechanical design; based on properties of the constituents, the properties of composite are determined, matching material system to design needs. Busby. Wi Qtr. 3 cl. Prereq: 561 or Aero Eng 539 or En Mech 622. Not open to students with credit for En Mech 762. Cross listed in Engineering Mechanics.

766 Engineering Acoustics U G 3
A course in engineering acoustics covering the phenomena by which acoustic energy is generated and transmitted, with applications to mechanical machinery. Singh. Sp Qtr. 3 cl. Prereq: 668 or permission of instructor.

802 Fundamentals of Thermodynamics I G 3
A study of the fundamentals of thermodynamics from the classical viewpoint with emphasis on the use of the first and second laws for the analysis of thermal systems. Moran. Au Qtr. 3 cl. Prereq: 502 and Math 255, or equiv.

803* Fundamentals of Thermodynamics II G 3
Introduction to the fundamentals of thermodynamics from the microscopic viewpoint, Vichai. Wi Qtr. 3 cl. Prereq: 802.

806 Viscous Flow of Fluids G 3
Theory of viscous fluids; exact solutions of the Navier Stokes equations, creeping flows, boundary layers. Han. Au Qtr. 3 cl. Prereq: 504.

807 Conduction Heat Transfer G 3

808 Laminar Convection Heat Transfer G 3
Laminar forced convection in pipes; laminar thermal boundary layers and entrance effects; stagnation point heat transfer; free convection boundary layers and plumes. Korpela. Wi Qtr. 3 cl. Prereq: 806 and 897.

809†* Thermal Radiation Heat Transfer G 3

810 Inviscid Flows G 3
Kinematics of inviscid flows; circulation and vorticity; two-dimensional potential flows, complex potential and complex velocity; introduction to free streamline theory and three-dimensional potential flows. Conillos. Wi Qtr. 3 cl. Prereq: 504.

813 Turbulent Flow and Heat Transfer G 3
Study of turbulent flows, with emphasis on the calculation of heat transfer in turbulent internal and external flows. Korpela. Sp Qtr. 3 cl. Prereq: 806 and 807.

818 Advanced Analytical Methods in Mechanical Engineering G 3
Transform and Green's function methods for solution of problems arising in heat conduction, vibration of continuous bodies and mechanics of fluids; asymptotic evaluation of integral representations of theses solutions. Au Qtr. 3 cl. Prereq: 807 or 850 or equiv. Not open to students with credit for 881.

826† Combustion G 3
A study of chemical thermodynamics and kinetics, the basic equations of change, and application of fundamentals to combustion in engineering systems. Esserigh. Wi Qtr. 3 cl. Prereq: 706 or permission of instructor.

830* Introduction of Electro and Magneto Fluid Mechanics G 3
A study of the interactions of electric and magnetic fields with liquids and gases. Velick. Wi Qtr. 3 cl. Prereq: 510 and Math 513, or permission of instructor.

850 Dynamics of High Speed Machinery G 3
An advanced study of the interrelationships among forces, motions, and masses as related to rigid or elastic machine members. Houser. Wi Qtr. 3 cl. Prereq: 650 and 880; or equiv.

860 Advanced Mechanical Design G 3
A study of concepts, principles, and phenomenological theories related to the failure-prevention aspect of mechanical design. Collins. Au Qtr. 3 cl. Prereq: 561 and Math 255 or equiv.

861 Stress Analysis of Machinery G 3
A study of concepts, principles, and procedures related to the analysis of stresses and strains in machine parts. Kinzel. Sp Qtr. 3 cl. Prereq: 562 and 563, or 350; and 664 or En Mech 763 or equiv.

862 Advanced Mechanics of Composite Materials G 3
Micromechanics, edge effects and delamination, fatigue, plastic and viscoelastic effects, joint analysis, impact and fracture. Sp Qtr. 3 cl. Prereq: 762 or En Mech 762. Not open to students with credit for En Mech 862. Cross listed in Engineering Mechanics.

880 Lump Parameter System Analysis G 3
Lumped parameter system analysis of mechanical, thermal, hydraulic, pneumatic, and electromechanical systems; system response to periodic, transient, and random excitation; computer and physical system demonstrations. Doebelin. Au Qtr. 3 cl. Prereq: Math 255 or 256 or equiv.; permission of instructor.

882 Modeling of Dynamic Systems G 4
A study of theoretical, experimental, and computer methods for characterizing the dynamic behavior of complex systems. Doebelin. Sp Qtr. 3 cl. 1 1/2-hr lab. Prereq: 880 or permission of instructor. Not open to students with credit for 870.
888 Mechanical Engineering Seminar G 1
Lecture and discussion of current topics related to mechanical engineering presented by graduate students, staff, and guest speakers.
Au Qtr. 1 cr. Prereq: Mech Eng grad standing. Repeatable to a maximum of 3 or hrs for MS degree and 3 additional or hrs for PhD degree.

894 Group Studies in Mechanical Engineering G 1-6
Special topics in mechanical engineering. The particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course is offered.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs.

993 Advanced Problems in Mechanical Engineering G 1-5
Provides the opportunity to pursue special problems in mechanical engineering not otherwise covered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

999 Research in Mechanical Engineering G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Medical Communications
School of Allied Medical Professions

206 School of Allied Medical Professions Building, 1583 Perry Street, 422-1044

400 Introduction to Medical Communications U 4
Application of communication theory to the health care system and the role of the Medical Communications specialist. A survey of communication related areas of the health care system.
Au Qtr. 4 cr. Prereq: Admission to the Medical Communications Division or written permission of the instructor.

520 Instructional Product Design in Biomedical Communications U 5
Design and development of instructional products and materials for health related fields. Includes production of student made materials and critical analysis of existing materials. Stein.
3 cr. 1 2-hr lab. Prereq: Admission to the Medical Communications Division or written permission of instructor.

522 Principles of Continuing Health Professional Education U 3
Nature of continuing education for health professionals; history, learner characteristics, needs assessment, program development, evaluation; comparisons between health professions; role of universities, hospitals, professional associations and industry.
Au Qtr. 3 cr.

525 Advanced Production Techniques in Biomedical Communications U 5
Advanced study of television and related media production including the development and maintenance of production facilities in biomedical settings. Potts.
3 cr. 1 2-hr lab. Prereq: Photog 574, Communic 510 or written permission of instructor.

599 Biomedical Communications Practicum U 3
Application of biomedical communications theory and principles to field settings; investigation of specific biomedical communication problems; completion of projects.
Su, Au, Wi, Sp Qtrs. 1, 2, 3 hrs field work. Prereq: 400 and 520. Repeatable to a maximum of 5 or hrs. This course is graded S/U. Travel and subsistence costs for practicum must be borne by student.

595 Seminars in Biomedical Communications U 1-3
Selected studies of theory and practice in biomedical communication with emphasis on the process of development, instruction, evaluation, and change of systems, their objectives and products. Burke and staff.
Wi, Sp Qtrs. 1 3-hr cr. Prereq: 400 and sr standing, or permission of instructor. Repeatable to a maximum of 9 or hrs.

650 Advanced Field Studies in Medical Communications U 1-3
Study and application of educational uses of communication processes and media in a health setting. Stein and staff.
Wi Qtr. 1 2-hr cr. 18 hrs arr. Prereq: Sr standing in med comm and written permission of instructor.

660 Advanced Field Studies in Medical Communications U 1-8
Diagnosis and planning for communication services in various health environments. Burke and staff.
Sp Qtr. 1 2-hr cr. 18 hrs arr. Prereq: 650.

Medical Dietetics
School of Allied Medical Professions

516 School of Allied Medical Professions Building, 1583 Perry Street, 422-0635

201 Introduction to Medical Dietetics U 1
Basic knowledge and experience in functional and sociological aspects of responsibilities of the medical dietitian. Schiller.
Wi Qtr. 2 cr.

410 Introduction to Patient Dietary Care U 6
Principles and practice in the dietary care of the hospital patient. Hurley and Breese.
Au Qtr. 4 cr. 6-hr clinical study. Prereq: Humn Ntr 310 and admission to medical dietetics.

420 Management in Medical Dietetics U 3
Application of management principles to nutritional care of clients in either the preventive or crisis health care setting. Bartlett.
Au Qtr. 2 cr. 3-hr lab. Prereq: Humn Ntr 314; concn Alii Med 630 or Bus-Mgt 500.

421 Management in Medical Dietetics U 3
Continuation of 420. Bartlett.
Wi Qtr. 2 cr. 3-hr lab. Prereq: 420 and Alii Med 630.

422 Management in Medical Dietetics U 3
Continuation of 421. Bartlett.
Sp Qtr. 2 cr. 3-hr lab. Prereq: 421.

521 Nutrition and Human Metabolism U 6
Metabolism of essential nutrients at cellular and intact levels of the body; causes, results, and dietary management of alterations in metabolism of these nutrients. Hurley and Breese.
Wi Qtr. 4 cr. 5-hr clinical study. Prereq: Humn Ntr 310, Physychm 312 or concn, Physychm 312 or equiv; jr standing or permission of instructor.

522 Nutrition and Human Metabolism U 6
A continuation of 521. Hurley and Breese.
Sp Qtr. 4 cr. 5-hr clinical study.

545 Human Nutrition and Dietetics U 5
Integration of principles related to foods, nutrients, physiology and biochemistry as they apply to nutritional care for the promotion of health and prevention of disease. Fatzinger.
Sp Qtr. 4 cr. 3-hr lab. Prereq: 410; Humn Ntr 314; Physychm 311 and 312; and permission of instructor.
Medical Illustration

School of Allied Medical Professions
206 School of Allied Medical Professions Building, 1583 Perry Street, 422-8517

100 Medical Illustration Field Experience U 0
Practical application of medical illustration techniques in a functioning hospital department of medical illustration. Hall.
Su, Au, Wi, Sp Qtr's. Prereq: Permission of instructor.
This course is graded S/U.

655 Biophotographic Illustration U 3
Photography as related to medicine for the medical illustrator including macro and gross specimens, clinical, biomedical, graphic, and reproduction. Keating.
Su, Au, Wi, Sp Qtr's. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.

640 Techniques U 5
Advanced study for students in medical illustration including preparation of charts, graphs, medical and surgical illustrations, exhibits and general work for a medical center. Half and Moon.
Su, Au, Wi, Sp Qtr's. Prereq: Permission of instructor. Repeatable to a maximum of 45 cr hrs.

693 Individual Studies U 1-5
Advanced study in scientific illustration as related to medicine. Hall.
Su, Au, Wi, Sp Qtr's. Prereq: Permission of instructor. Repeatable to a maximum of 45 cr hrs. This course is graded S/U.

Medical Microbiology and Immunology

5072 Graves Hall, 333 West 10th Avenue, 422-5525

625 Medical Microbiology P G 4
Au Qtr. 40 hr lec. Progress (P) grade assigned until completion of 625.

626 Medical Microbiology P G 5
A more extensive and intensive application of basic principles of medical microbiology to infectious diseases. Wi Qtr. 20 hr lec. 70 hr discussion. Prereq: 625 or permission of instructor.

701 Fundamentals of Medical Immunology P G 3
Fundamentals of immunologic phenomena in the normal and diseased state, with primary emphasis on application of immunology in medicine. Lang.
Au Qtr. 3 cr.

7541* Medical Virology P G 5
Primary emphasis on viruses important to man; fundamental properties of viruses, host cell-virus interaction, pathogensis, and immunity. Hamparian, Hughes.
Sp Qtr. 3 hr lec. Prereq: Written permission of instructor.

757* Diagnostic and Clinical Virology P G 5
Laboratory procedures used for the diagnosis of human viral infections. Hughes.
Au, Wi Qtrs. 1 cr. 3 hr lab. Prereq: Enrollment in College of Medicine or written permission of instructor.

764* Bacterial Viruses P G 4
A molecular biological study of bacteriophages emphasizing virulent and lysogenic phage-host systems; lab will demonstrate these infectious processes. Bowman.
Wi Qtr. 2 hr lec. 2 hr lab. Prereq: 625 or permission of instructor.
793 Individual Studies in Medical Microbiology
Preq: Enrollment in College of Medicine or permission of instructor. When registration is for 3 professional cr hrs, an additional 3 hr professional course must be taken. These courses are graded S/U.

793.06 Problems in Medical Microbiology P 6, 12, 18 G 3-15
1, 2, 3, or 4 months; offered all months (prof cr); Su, Au, Wi, Sp Qtrs (grad cr). Repeatable to a maximum of 24 or hrs for professional credit.

793.07 Diagnostic and Clinical Microbiology P G 6-18
Experience in isolation and identification of micro-organisms from clinical specimens.
1, 2, 3, or 4 months (full-time—prof cr); Su, Au, Wi, Sp Qtrs (grad cr); Preq: 526 and permission of instructor. Repeatable to a maximum of 24 cr hrs.

794 Group Studies P G Arr
One month, offered all months (prof cr); Su, Au, Wi, Sp Qtrs (grad cr); Preq: Written permission of instructor. When registration is for 3 professional cr hrs, an additional 3 cr hr professional course must be taken. This course is graded S/U.

8011* Selected Topics in Advanced Immunology G 3
Specific topics will vary from year to year in the general areas of immunocompetence, immune regulation and cellular immunity. Mattingly.
Wi Qtr. 3 cl; Preq: 701 or equiv course in basic immunology or permission of instructor. Repeatable to a maximum of 9 cr hrs. Intended for advanced grad students, medical residents and postdoctoral fellows.

804 Instrumentation and Techniques in Medical Microbiology G 5
Theory and application of techniques used to purify and characterize nucleic acids, lipids, and proteins; theory and operation of equipment and instruments used. Parrish, Ottolenghi, Pollack, and Williams.
Su Qtr. 2 3- to 4-cr cl, 12 lab hrs. Preq: 825, 826; and Phys Chem 811, 812, or equiv, and written permission of instructor.

814 Current Topics in Medical Microbiology G 1
Au, Wi, Sp Qtrs; Preq: Med microbiol grad standing or permission of instructor. Repeatable with permission of instructor to a maximum of 15 cr hrs. This course is graded S/U.

824* Medical Parasitology G 3
Discussion of structure, growth, development, epidemiology, and pathogenicity of animal parasites infectious for man, together with practical experience in identification. Kapral.
Au Qtr. 2 1- to 2-cr lec, 1-3 hr lab. Preq: 626 and permission of instructor.

833* Current Immunological Techniques G 4
Current techniques in cellular and humoral immunology as applicable in research conducted by students. Leund.
Wi Qtr. 2 4- to 6-cr hrs. Preq: 701 or equiv course in basic immunology. Not open to students with credit for Microbiology 833. Cross-listed in Microbiology.

841 Viral Oncology G 3
The immunological, virological, epidemiological, and molecular aspects of DNA and RNA tumor viruses. Shaw.
Sp Qtr. 3 cl; Preq: Phys Chem 612 or 709; Med Micro 754 or Microbiol 649. Not open to students with credit for Microbiol 841, Phys Chem 841, or Vet Path 841. Cross-listed in Microbiology, Physiological Chemistry, and Veterinary Pathobiology.

8441* Mollicutes, Rickettsiae, and Chlamydiaceae G 3
Mycoplasmas and l-forms, members of the Bacteria group, Rickettsiae and Tenericutes. Sommerson and Pollock.
Au Qtr. 2 1- to 2-cr lec, 1-hr conf to be arr. Preq: 625 or Microbiol 607.

850 Advanced Seminar in Medical Microbiology G 3
An advanced course with topics in different areas of medical microbiology in a seminar setting; students will present papers related to these chosen topics. Au Qtr. 3 cl.

854* Molecular Basis of Antibiotic and Chemotherapeutic Action G 3
Action of antibiotic and chemotherapeutic agents on specific sites in the metabolism and/or structures of cells stressing the comparative biochemistry of bacterial and animal cells. Ottolenghi.
Au Qtr. 3 1-hr lec. Preq: 825; or Biochem 513 or equiv; Microbiol 781; or permission of instructor.

854 Dynamic Aspects of Bacterial Infections G 5
An analysis of the dynamic interrelationships between the host's and parasite's inherent physiological capabilities and how these expressions (other than specific immunity) are mutually modified. Kapral and Ottolenghi.
Sp Qtr. 5 cl. Preq: 625 or Microbiol 625 or equiv or permission of instructor.

874 Advanced Topics in Molecular Biology of Eukaryotes G 3
Current information on structure and function of two aspects of molecular biology of eukaryotes; emphasis on experimental rationale and techniques. Williams and Parrish.
Wi Qtr. 1 21-cr hr; Preq: Biochem/Genetcs 611, or Biochem 709, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

999 Research in Medical Microbiology G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs; Preq: Grad standing in med micr. This course is graded S/U.

Medical Record Administration
School of Allied Medical Professions
243 School of Allied Medical Professions Building, 1583 Perry Street, 422-0567

530 Health Information Documentation, Analysis, Storage and Retrieval Systems U 5
Introduction to quantitative and qualitative evaluation of health information records management including methods of information storage and retrieval systems.
Au Qtr. 4 cl, 1 3-hr lab. Preq: Written permission of instructor. Not open to students with credit for 501.

525 Organizational Analysis of Health Care Facilities U 3
Analysis of administration, governing board, medical staff, committees, licensing, accrediting and certifying agencies in relation to health care facilities and health information requirements. Pariser and staff.
Au, Wi Qtr. 3 cl; Preq: Written permission of instructor.

535 Classification, Indexing, Registry Systems in Health Care U 5
Design, implementation and evaluation of disease and operation classification systems; use of manual and computerized medical information indexing and registry systems. Pariser and staff.
Wi Qtr. 4 cl, 1 3-hr lab. Preq: 501 or 520 or written permission of instructor. Not open to students with credit for 502.

540 Health Data Collection and Analysis U 3
Collection, computation, presentation, and analysis of health and administrative statistics which includes definitions, sources and types of reporting systems.
Wi, Sp Qtrs. 2 cl, 1 2-hr lab. Preq: 520 or written permission of instructor. Not open to students with credit for 503.
545 Legal Aspects of Hospital and Medical Record Services U 3
Legal system, hospital and staff liability, privacy, confidentiality and legal requirements affecting the control and release of health information and medical records.
Wi, Sp Qtrs. 3 cl. Prereq: 501 or 520 or written permission of instructor. Not open to students with credit for 541.

589 Clinical Technical Affiliation U 3
On site practical experience in medical record services.
Su, Au, Wi Qtrs. 1 cl, 1 8-hr clinical study. Prereq: 520 or written permission of instructor. Not open to students with credit for 541.

635 Quality Assurance of Health Care Services U 4
Analysis of federal, state, and accrediting agency standards and regulations for quality assurance and utilization review of health care services with emphasis on review procedures and audit methodologies.
Su, Au, Wi, Sp Qtrs. 2 1.5-hr cl. 1 2-hr lab. Prereq: 520 or written permission of instructor. Not open to students with credit for 595B.

640 Planning and Staffing of Medical Record Services U 3
Application of human resource management to medical record services.
Su, Au, Wi Qtrs. 2 cl, 1 3-hr lab. Prereq: 520 or written permission of instructor. Not open to students with credit for 526.

645 Management Control Systems for Medical Record Services U 3
Application of work measurement, work standards, physical and financial resource management for a medical record service.
Su, Au, Wi Qtrs. 2 cl, 1 3-hr lab. Prereq: 520 or written permission of instructor. Not open to students with credit for 526.

687 Information Services in Special Care Facilities U 3
Discussion of record systems in special care facilities with emphasis on health information services.
Su, Au, Wi, Sp Qtrs. 2 cl, 1 6-hr clinical study. Prereq: 520 or written permission of instructor. Not open to students with credit for 541.

689 Clinical Management Affiliation U 1-10
Application of managerial techniques in the organization and administration of health information and record services.
Su, Au, Wi, Sp Qtrs. 32-60 hrs clinical study wks. Prereq: 589 and 687. Not open to students with credit for 542.

695 Seminar U 1-4
A discussion of current trends, topics, procedures, and constraints affecting the medical record profession. Pariser and staff.
Su, Au, Wi, Sp Qtrs. 1-4 cl. Prereq: Admission to med rec. Not open to students with credit for 595.

Medical Technology
School of Allied Medical Professions
555 School of Allied Medical Professions Building, 1583 Perry Street, 422-7303
For related courses see Pathology.

508 Medical Technology Laboratory U 4
Laboratory techniques in parasitology. Wilson.
Au, Sp Qtrs. 2 cl, 2 3-hr lab. Prereq: Zool 232, Microbiol 500, and admission to med tech; concour: 480. This course is graded S/U.

511 Medical Technology Laboratory U 10
Laboratory techniques in hematology, coagulation, and urinalysis. Walzer.
Su Qtr. 27 lab hrs. Prereq: 514 and permission of instructor. This course is graded S/U.

512 Medical Technology Laboratory U 10
Laboratory techniques in clinical bacteriology and mycology. Wilson and Manuselis.
Wi Qtr. 27 lab hrs. Prereq: 480, 508, and permission of instructor. This course is graded S/U.

513 Medical Technology Laboratory U 10
Laboratory techniques in clinical immunology and immunohematology. Rudmann.
Sp Qtr. 27 lab hrs. Prereq: 512 and permission of instructor. This course is graded S/U.

514 Medical Technology Laboratory U 10
Laboratory techniques in clinical chemistry. Wise.
Au Qtr. 27 lab hrs. Prereq: 480, 508, and permission of instructor. This course is graded S/U.

515 Clinical Practice in Medical Technology U 8
Application of medical laboratory techniques under supervision in the clinical laboratories of University Hospital and Snytor.
Su, Au, Wi, Sp Qtrs. 5 5-hr labs. Prereq: 511, 512, 513, and 514 and permission of instructor. This course is graded S/U.

595 Seminar U 1-3
Discussion of issues and trends in laboratory medicine; topics to be announced. Pariser and staff.
Su, Au, Wi, Sp Qtrs. Prereq: Admission to med tech and permission of instructor. Repeatable to a maximum of 6 or hrs. This course is graded S/U.

Medicine
217 Means Hall, 1555 Upshur Drive, 421-8724

681 Principles of Medicine P 2
A survey course in medicine to dental students considering the infectious, deficiency, and systemic diseases; representative diseases are selected for detailed consideration and demonstrations.
Wi Qtr. 2 cl. Prereq: Dent 3rd yr standing. This course is graded S/U.

793 Individual Studies in Medicine P 6, 12, 18 G 1-5
All months, 1 or more months to be elected. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs. These courses are graded S/U.
Research on a minor problem under faculty supervision in the following specialties of medicine:
793.02 Cardiology
793.04 Endocrinology
793.08 Infectious Diseases
793.09 Neurology
793.10 Pulmonary Diseases
793.12 Rheumatology

794 Group Studies in Medicine P 6, 12, 18
Group studies of special topics in medicine. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.
797 Interdepartmental Seminars P G 1-5
Wi Qtr. Prereq: Written permission of instructor. Repeatable by written permission of College Secretary. See Interdepartmental Seminars. This course is graded S/U.
6—The Philosophy of Clinical Practice for Bio-Medical Engineers

850 Seminar in Medicine G 1-3
Discussion of pertinent literature and research projects in various subspecialty areas with emphasis on basic science concepts. Women and staff.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. These courses are graded S/U.
850.01 Allergy
850.02 Cardiology
850.04 Endocrinology

999 Research in Medicine G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

Medicine, College of

209 College of Medicine Administration Center, 370 West 9th Avenue, 422-5674

661 MED I: Behavioral Sciences P 4 or 8
Introducing basic concepts of major disease mechanisms, with patient centered learning, study of the health care delivery systems and the resources of Medical Informational Services.
Au, Wi, Sp Qtr. Prereq: Enrollment in College of Medicine. Repeatable to a maximum of 24 or hrs. Registered medical students only. This course is graded S/U.

662 MED I: Basic Medical Sciences P 4, 6, 8, 15, or 24
Au, Wi, Sp Qtr. Concur: 661. Repeatable to a maximum of 180 or hrs. This course is graded S/U.

663 MED II: Pathophysiology and Manifestation of Disease P 4, 6, 8, 16, or 24
A multidisciplinary presentation of disease mechanisms, correlation of abnormalities of structure and function with cardiac symptoms and manifestations of disease; discussion of differential diagnosis of the most common patient complaints to reinforce the concepts and mechanisms of disease processes.
Au, Wi, Sp Qtrs. Prereq: 662. Repeatable to a maximum of 216 or hrs. This course is graded S/U.

664 MED III and IV: Clinical Medicine P 4, 6, 8, 15, or 24
Didactic and clinical instruction in medicine, obstetrics and gynecology, pediatrics, psychiatry and surgery; experience in outpatient, community and inpatient services.
Su, Au, Wi, Sp Qtrs. Prereq: 663. Repeatable to a maximum of 248 or hrs. Must repeat 152 or hrs. This course is graded S/U.

693 Individual Studies P 4, 6, 16 or 24
Special studies in introduction to medicine; nature of life processes; the pathophysiology and manifestation of disease; and supervised individualized program.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Limited to students working toward the M.D. degree. Repeatable to a maximum of 96 or hrs. This course is graded S/U.

700 Interprofessional Education
Focus on ethical issues, changing professional/consumer rights, and interprofessional cooperation. 3 cr. Repeatable to a maximum of 6 cr. These courses are graded S/U. Limited to students in allied medical professions, education, law, nursing, medicine, social work, and theology (Columbus seminars).

700.01 Interprofessional Care U P G 3
Treatment of the whole person through the analysis of the interrelated problems of actual cases.
Wi Qtr.

700.02 Changing Societal Values U P G 3
Identification and clarification of values considerations as they relate to professional problems in dealing with consumer/clients/patients.
Au Qtr.

700.03 Ethical Issues U P G 3
Ethical issues of concern to the professions and arising out of advanced technology: euthanasia, mind control, malpractice, social responsibility of the professions.
Sp Qtr.

700.04 Interprofessional Practicum in Clinical Settings P 3, 5
Interprofessional teamwork in clinical settings.
Wi, Sp Qtr. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

797 Interdepartmental Seminar P G 1-5
See Interdepartmental Seminars. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. This course is graded S/U.

Medieval and Renaissance Studies

322 Dullas Hall, 230 West 17th Avenue, 422-7485

210 Court of Charlemagne U 5
The Carolingian Renaissance: a unified interpretation of a crucial period in the transition of Europe from the classical age to the early Middle Ages.
Au Qtr. 3 cr. 2 hr arr. BER/LAC/LAR course.

212 Culture of a City-State in the Renaissance U 5
Florence, 1200-1650; the study of an Italian Renaissance city-state with attention to its political, social, and economic structure; its religious, intellectual, and artistic activity.
Sp Qtr. 3 cr. 2 hr arr. BER/LAC/LAR course.

213 Medieval Moscow U 5
The diversity of medieval Russian culture as represented by Moscow: religion, society, politics, art and architecture.
Wi Qtr. 4 cr. 1 hr arr. BER/LAC/LAR course.

214 Golden Age of Islamic Civilization U 5
The Umayyad Caliphate of Harun al-Rashid from 750 to 855.
Sp Qtr. 4 cr. 1 hr arr. BER/LAC/LAR course.

215 Gothic Paris: 1100-1300 U 5
Medieval Paris, its art, music, history, theatre, literature, and important individuals.
Wi Qtr. 5 cr. 2 hrs arr. BER/LAC/LAR course.

693 Individual Studies U 1-5
Students may register for individual directed study under this number for work not normally offered in courses.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Open only to majors in medieval. Repeatable to a maximum of 15 or hrs. This course is graded S/U.
694 Group Studies U G 2-5
Interdisciplinary group studies of selected topics in medieval and Renaissance culture and civilization.
Su, Au, Wi, Sp Qtr's. Prereq: 10 cr hrs in medieval at the 200-level. Repeatable to a maximum of 15 cr hrs.

H783 Honors Course U 3-5
A program of study will be arranged for each student, with individual conferences, reports, and Honours thesis.
Su, Au, Wi, Sp Qtr's. Prereq: 4th yr standing with a grade of A in at least half of the courses in the student's major area of study and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 4 crs are required of candidates for the BA degree; with distinction in medieval. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

792 Interdepartmental Studies in the Humanities U G 5
Two or more departments may collaborate in presenting colloquia on studies of mutual interest; topics to be announced.
Au, Wi, Sp Qtr's. 1 or 2 2-3 hr cl. Repeatable to a maximum of 15 cr hrs.

888 Medieval and Renaissance Culture Q 5
Selected topics in medieval culture and civilization, offered cooperatively by two or more departments in the Colleges of the Arts and Sciences.
Wi Qtr. 4 cr. Prereq: One or more 600-level courses or equiv in subject offered, appropriate to student’s field of specialization, or permission of instructor. Repeatable to a maximum of 15 cr hrs.

889 Medieval and Renaissance Literature Q 5
Interdisciplinary seminar directed by two or more teachers from separate departments. Topics to be announced.
Sp Qtr. 4 cr. Prereq: One or more 600-level courses or equiv in subject offered, appropriate to student’s field of specialization, or permission of instructor. Repeatable to a maximum of 15 cr hrs.

899 Interdepartmental Seminar in the Humanities G 5
See Interdepartmental Seminar.
Au, Wi, Sp Qtr’s. 1 or 2 2-3 hr cl. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 15 cr hrs.

Metallurgical Engineering

141A Mars G. Fontana Laboratories, 115 West 19th Avenue, 422-2491

201 Principles of Materials U 3
An introductory development of the chemical and physical properties of materials.
Au, Wi Qtr’s. 3 cl. Prereq: Math 153, Phys 133, Chem 204; or equiv.

210 Cast Metal Technology U 4
Introduction to metal casting technology, melting materials and methods, gating and risering of castings; solidification, and casting design.
Au Qtr. 3 cl, 1 2-3 hr lab. Industrial type safety glasses must be worn in laboratory. Open to non-engineering students.

203 Individual Studies in Metallurgical Engineering U 2-6
Special topics in metallurgical engineering of individual interest at the undergraduate level, particularly with appeal to non-engineering culture and civilization.
Su, Au, Wi, Sp Qtr’s. Arr. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

300 Materials Engineering U 4
Mechanical behavior of metallic materials under various conditions of stress and environment; study of selected alloy systems; materials selection and failure analysis.
Sp Qtr. 4 cl. Prereq: Chem 204.

301 Materials Engineering U 3
Mechanical behavior of metallic and polymeric materials under various conditions of stress and environment; study of selected materials systems, materials selection and failure analysis.
Au, Wi Qtr’s. 3 cl. Prereq: Chem 205.

330 Thermodynamics of Materials U 4
Fundamental concepts of thermodynamics and their application to engineering materials and systems; introduction to the laws of thermodynamics, principles of chemical equilibrium and solvation behavior.
Wi, Sp Qtr’s. 5 cl. Prereq: Chem 205 and a minimum cumulative pt-hr ratio of 2.0.

430 Chemical Metallurgy I U 4
Transport phenomena in metallurgy: fluid flow and heat transfer as applied to metallurgical processes and metal production.
Au Qtr’s. 3 cl. 1 3-hr lab. Prereq: 330 or equiv, Math 255 and En Graph 200.

431 Chemical Metallurgy II U 3
Metallurgical calculations, energy and mass balances, analysis of chemical equilibrium in metallurgical processes; graphical representation of thermodynamic functions.
Wi Qtr’s. 3 cl. Prereq: 330, 430, En Graph 200, and Math 255.

432 Metallurgical Transport Phenomena Laboratory U 2
Fundamental experiments on fluid flow heat transfer as applied to metallurgical processes; analog and digital computer simulation on topics of extractive and chemical metallurgy.
Wi Qtr. 1 3-hr lab. prereq: 430.

440 Physical Metallurgy I U 3
Crystallography; bonding, physical properties of single crystals, polycrystals, defects in crystals; diffusion.
Sp Qtr. 3 cl. Prereq: A minimum cumulative pt-hr ratio of 2.0.

450 Physical Metallurgy II U 3
Recovery recrystallization and grain growth; binary and ternary phase diagrams.
Au Qtr’s. 3 cl. Prereq: 440, concour 480A.

480 Physical Metallurgy Laboratories U 1 or 2
A—Introduction to metallography and related experimental techniques. Staff. Au Qtr. Prereq or concour: 450.
B—Recrystallization, age hardening, cast and wrought microstructures. Staff. Wi Qtr. Prereq or concour: 450.
C—Isothermal transformation, quenching, tempering, and hardenability. Staff. Sp Qtr. Prereq or concour: 451.
D—Principles of X-ray diffraction and applications to the study of materials. Wi Qtr. Prereq or concour: 451.
Repeatable to a maximum of 4 cr hrs. Courses must be scheduled in the order listed. Not more than one course per quarter permitted.

489 Industrial Experience U 2
Au Qtr. 2 cr hrs for each summer’s work. Repeatable to a maximum of 4 cr hrs. Register for course and submit report on experience during the Autumn Quarter following the summer in which industrial experience was obtained; one summer or 10 weeks of approved work in metallurgical industries. Staff.

520 Chemical Metallurgy III U G 3
Graphic representation of phase equilibria; treatment of gaseous reaction kinetics; reactions between multicomponent metallic solutions and slags; extractive metallurgical principles.
Sp Qtr. 3 cl. Prereq: 431 or permission of instructor.
521 Chemical Metallurgy Laboratory U G 2
Laboratory experiments on rates of metallurgical process reactions, incorporating the use of such instruments as atomic absorption spectro-photometry, SEM-EDAX, and carbon-sulfur analyzer; preparation of written technical reports. Sp Qtr. 1 1/2 hr lab. Preq. or concur: 520.

550 Physical Metallurgy III U G 3
Principal phase transformations in the solid state. Wi Qtr. 3 cr. Preqq: 450; concour 480b.

551 Physical Metallurgy IV U G 3

553 Physical Metallurgy V U G 3
Relationships between the microstructure and the mechanical properties of metals and alloys. Au Qtr. 3 cr. Preqq: 551.

589 Inspection Trip U 2
Trips to visit industrial plants and laboratories, report required; maximum expense, $150.00. Staff.
Sp Qtr. Travel and subsistence costs must be borne by the student.

610 Molding Materials for Cast Metals U G 3
Properties and requirements of mold materials for casting metals. Sp Qtr. 3 cr. Preqq: 210.

615 Mechanical Forming of Metals U G 3
Fundamentals of plastic deformation and analysis of common mechanical forming processes. Wi Qtr. 3 cr. Preqq: 660 or equiv.

620 Process Metallurgy U G 3
Analysis and design of processes for extracting and refining metals. Au Qtr. 3 cr. Preqq: 520 or equiv.

635 Corrosion U G 3
Engineering aspects of corrosion and its control. Forms by which corrosion manifests itself, simplified mechanisms, and methods for combating corrosion. Design and economics. Au, Sp Qtrs. 2 cr. 1 1/2 hr lab. Preqq: Engr 4th yr standing or permission of instructor.

660 Mechanical Metallurgy U G 3
Behavior of metals under simple and combined stress systems; elements of plastic theory, plastic deformation, dislocation theory, strength theories, and fracture. Au Qtr. 3 cr. Preqq: Engr Mech 420.

661 Fracture Mechanics and Its Applications U G 3
Fundamentals of fracture mechanics, metallurgical properties, and failure analysis. Sp Qtr. 3 cr. Preqq: 660 or equiv.

672 Powder Metallurgy U G 3

673* Physical Metallurgy of Nonferrous Alloys U G 3
Physical metallurgy of aluminum, magnesium, titanium, and copper-base alloy systems. Sp Qtr. 3 cr.

680 Mechanical Metallurgy Laboratory U G 1
Selected laboratory experiments on elastic properties, mechanical properties, and modeling of mechanical forming processes. Wi Qtr. 1 1/3 hr lab. Preqq: 660 or equiv.

693 Individual Studies in Metallurgical Engineering U G 1-6
All studies (library and/or research investigations) are under the close direction of instructors. Comprehensive report required. This course is graded S/U.

A—The Properties of Metals and Alloys
B—Production and Refining of Metals
C—Metallurgical Equilibria
D—Corrosion Engineering
E—Cast Metals
Su, Au, Wi, Sp Qtrs. Preqq: Permission of dept. Repeatable to a maximum of 9 or hrs.

694 Group Studies in Metallurgical Engineering U G 2-6
Special topics in metallurgical engineering; the particular topics, the number of credit hours, and the instructor will be announced in the quarter previous to the one in which the course will be offered. Su, Au, Wi, Sp Qtrs. Preqq: Written permission of instructor. Repeatable to a maximum of 12 or hrs.

695 Senior Seminar U 1
Oral presentations of current technical metallurgical problems. Wi, Sp Qtrs. 1 1/2 hr. Preqq: Metal en sr standing.

699 Senior Project U 1-5
Students plan and pursue independent research project of two qtrs duration. Au, Wi Qtrs. Preqq Sr standing in metal en and a cumulative p-hr ratio of 3.4, or permission of instructor. Proposals must be approved by adviser prior to registration. Repeatable to a maximum of 5 or hrs.

710* Casting Defects U G 3
Identification of defects frequently found in castings and welds, discussion of causes and methods for eliminating these defects. Wi Qtr. 3 cr. Preqq: 210 or equiv or permission of instructor.

711 Solidification of Metals and Alloys U G 3
Study of heat and mass transport associated with solidification of alloys; grain morphologies and composite variations in casting and welds are related to solidification mechanisms. Au Qtr. 3 cr. Preqq: 550 or permission of instructor.

715 Introduction to Electron Optical Techniques U G 3
An introduction to the theory and application of important electron optical techniques used in the study of materials. Sp Qtr. 3 cr. Preqq: 440 and Math 253 or equiv.

720 Metals Processing I U G 3
Mechanisms of reactions in liquid alloys; applications of thermodynamics, kinetics, and mass transport in the analysis of metal extraction and refining. Sp Qtr. 3 cr. Preqq: 730. Not open to students with credit for 860.

721* Metallurgical Transport Phenomena U G 3
Momentum, mass, and heat transport as related to metallurgical processing with computer simulation of complex problems. Sp Qtr. 3 cr. Preqq: 431, Engr Graph 200, and Math 255.

730 Advanced Chemical Metallurgy I U G 4
Thermodynamics of mixtures and phase equilibrium relevant to metalurgy and materials science. Au Qtr. 2 2-hr cr. Preqq: 520 and 550 or equiv.

731 Advanced Chemical Metallurgy II U G 4
Statistical mechanics of equilibrium systems: thermodynamics; statistical mechanics; examples; theory and analyses of metallurgical kinetics. Wi Qtr. 2 2-hr cr. Preqq: 730. Not open to students with credit for 831.
735 Advanced Corrosion U G 3
Theories and mechanisms of corrosion. Macdonald. Wt Qtr 3 cl. Prereq: 635.

736 High Temperature Corrosion U G 3

737† Techniques in Corrosion Science U G 3
Presentation of advanced techniques and consideration and analysis of special problems in aqueous and high-temperature corrosion. Au Qtr 3 cl. Prereq: 735 and 736.

738 Experimental Methods in Corrosion Science U G 3
An introduction to the theory and operations of modern instrumentation used in corrosion science and engineering. Sp Qtr 2 1/2-hr cl. Prereq: 635 and 735, or permission of instructor.

745 Advanced Physical Metallurgy I U G 4
Fundamentals of diffusion in solids—mathematics and mechanisms, structure and properties of internal interfaces. Au Qtr 2 2-hr cl. Prereq: 551 or equiv.

750 Advanced Physical Metallurgy II U G 4
A phenomenological and theoretical treatment of solid state transformations; recovery, recrystallization; grain growth, martensite and diffusion-controlled phase transformation. Wt Qtr 2 2-hr cl. Prereq: 745.

760 Elastic Fields of Defects in Solids U G 3
Elastic fields of defects in solids including energy and interactions: dislocations, point defects, inclusions, and cracks. Au Qtr 3 cl. Prereq: Math 255 or permission of instructor. Not open to students with credit for 860.

761 Plastic Response of Metals U G 3
Phenomenological treatment of plastic response of metals, yielding criteria, constitutive relations, tensile deformation, plastic instability, notch ductility. Sp Qtr 3 cl. Prereq: 660 or equiv. Not open to students with credit for 861.

762† Deformation Mechanisms in Crystals U G 2
Deformation of crystals as controlled by crystal defects: slip, twinning, creep, and grain boundary sliding. Wt Qtr 3 cl. Prereq: 761.

763† Mechanisms of Failure U G 2

793 Individual Studies in Metallurgical Engineering U G 2-6
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

795 Graduate Seminar U G 1
Discussion of current thesis problems and outstanding current references in metallurgical engineering; round table discussion of selected metallurgical topics. Au, Wi, Sp Qtrs. Repeatable to a maximum of 12 cr hrs.

832† Metal Processing II U G 2
Application of rate theory of reaction steps and transport phenomena in metallurgical processes. Wt Qtr 3 cl. Prereq: 720 and 731.

835* Point Defects in Crystalline Materials U G 3
A thermodynamic and mathematical treatment of the formation, concentrations, mobilities, and interactions of atomic, ionic, and electronic point defects in materials at high temperatures. Wt Qtr 3 cl. Prereq: 730 or permission of instructor.

841* Advanced Physical Metallurgy III U G 2
Characterization of the structure of metals and alloys by the use of x-ray diffraction, electron emission and ion microscopy. Sp Qtr 3 cl. Prereq: 745.

842† Metal Physics U G 2
Metallurgical application of solid state physics. Sp Qtr 3 cl. Prereq: Physics 780.06.

852† Relations of Properties to Microstructure U G 3
The strength of alloys; effects of solid solutions, precipitates and dispersed second-phase particles. Wt Qtr 3 cl. Prereq: 750.

855† Electron Diffraction U G 2
Application of electron diffraction to the study of the structure of metals and alloys, emphasis on the interpretation of diffraction patterns and image contrast obtained in the transmission electron microscope. Au Qtr 3 cr Prereq: 440, 715; Math 255; or permission of Instructor.

999 Research in Metallurgy U G 3
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Microbiology

376 Biological Sciences Building, 484 West 12th Avenue, 422-2301

294 Group Studies U 1-5

301 The Biology of Pollution U 2
A general consideration of the interactions of environmental pollutants and biological systems. Tu, Th, Cr. 2 cr. Credit does not count toward a major in microbiology. BER/LAC/LAR course. NS Admis Cond course.

509 Microbiology in Relation to Man U G 5
Designed to give the student an understanding of microorganisms which have a bearing on the physical and economic well-being of man. Kolotzek, Ackermann-Brown, and Randles. Su, Au, Wi, Sp Qtrs. 3 cl. 2 2-hr labs. Prereq: Biology 110, or 113 and 114, or H115 and H116. Credit does not count toward a major in microbiology. BER/LAC/LAR course. NS Admis Cond course.

592 Independent Study of Practical Microbiology U 2
Students will work with course instructor, teaching assistants and associates to examine preparation and presentation of material, and gain experience working with students and faculty. Su, Au, Wi, Sp Qtrs. Prereq: 4th yr microbiology major and permission of coordinating advisor. This course is graded S/U.

General Prerequisites for Courses

Numbered 600 and 700

Unless otherwise indicated, the prerequisites for 600 and 700- level courses are 15 hours of organic chemistry and 10 hours of biological sciences.
601 General Microbiology U G 5
Fundamental principles of microbiology and of the characteristics of microorganisms, emphasizing their morphology, classification, visualization, isolation, cultivation and maintenance, growth and death.
Wi, Sp Qtrs. 5 cl. H401 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: Biology 113 and 114, or H115 and H116; and Chem 242. May not be taken concur with 509.

602 General Microbiology Laboratory U G 5
A laboratory course emphasizing fundamental microbiological techniques.
Au, Wi Qtrs. 2 3-hr labs, 2 cl. Prereq or conc: 601. May not be taken concur with 509.

603 Introduction to Biophysics U G 5
Introductory course in the approach to biological phenomena from conceptual viewpoint of physical sciences; molecular to organismic levels of biological hierarchial structure will be explored. Cassim.
Sp Qtr. 5 cl. Prereq: Math 152, Chem 242, 10 cr hrs in biological sciences, Physics 113, or equiv with permission of instructor.

622 Principles of Infection and Resistance U G 5
A study of host-parasite relationships, with emphasis on pathogenicity and immunity. Mortensen.
Wi, Sp Qtrs. 3 cl, 5 2-hr labs, 1 rec. Prereq: 602 for microbiology majors; 509 for non-majors.

624 Microbial Parasitism U G 5
Overview of parasitic relationships with emphasis on host response as influenced by route of contact, nature of etiologic agent(s), host species, and environmental influences. Rheims.
Au, Sp Qtrs. 3 cl, 5 2-hr labs. Prereq: 601 and 622.

627 Microbiology for Optometry Students P 6
A specialized course in microbiology designed for professional students in ophthalmology which will deal with principles of infection, resistance, and related topics as they relate to the eye. Baker.
Sp Qtr. 3 cl, 5 2-hr labs. Prereq: Enrollment in College of Optometry.

628 Pathogenic Protozoology U G 4
Pathogenic protozoa of animals are considered; emphasis on host-parasite relationship, pathogenesis of disease, structural characteristics of parasites, lab. 560H, and preserved material. Kreger.
Sp Qtr. 3 cl, 5 2-hr lab. Prereq: Biology 113 and 114, or equiv.

532 Cellular Aspects of the Immune Response U G 3
Cellular and molecular mechanisms of the immune response; characterization of cell products elaborated subsequent to antigenic stimulation; significance of these products in immunologic disease. Zwiiling.
Au Qtr. 3 cl. Prereq: 622.02 or 622 or equiv with written permission of instructor.

634 Water Microbiology U G 5
A basic study of the relationships and influences of aquatic environments on microorganisms and the effect of microbial metabolic processes on the quality of water. Tuuven.
Wi Qtr. 3 cl, 5 2-hr labs. Prereq: 602.

636 Food Microbiology U G 5
The role of microorganisms in food preservation and processing with related sanitation and public health problems. Blanwart.
Au, Sp Qtrs. 3 cl, 5 2-hr labs. Prereq: 509 or 602.

640 General Cellular Biology U G 5
Introduction to cell structure and function with emphasis on integration of cytological, biochemical, genetic, and developmental perspectives. Byers, Parrish, and Catimain.
Au, Wi Qtrs. 4 cl, 1 4-hr lab. Prereq: 10 or hrs in biological sciences and Chem 242 and 246 or equiv. Not open to students with credit for Biology 312 or 640.

641 Introduction to Quantum Biology U G 5
An introduction to applications of elementary quantum mechanics to problems in biology; conceptual rather than mathematical aspects are stressed. Cassim.
Wi Qtr. 5 cl. Prereq: Math 152, Chem 123, Physics 113, and 10 or hrs in biological sciences.

649 Introductory Virology U P G 5
Basic principles of virology with discussion of structures, virus-host cell interactions, detection, production and control; animal, bacterial, insect and plant viruses used as examples. Muller.
Au Qtr. 5 cl. Prereq: 509 or 662.

650 Molecular and Cellular Bases of Mobility U G 5
Molecular and cellular basis of biological motility is used to demonstrate physical principles and analytical methodologies of molecular and cellular biology.
Wi Qtr. 5 cl. Prereq: 640, Chem 123, Math 151, Physics 113; or equiv with permission of instructor. Not open to students with credit for Biophysics 650.

652 General and Pathogenic Microbiology for Dental Students P G 4
A survey of microbiology emphasizing infectious processes, basic principles, and immunology. Baker and Rosen.
Wi Qtr. 3 cl. 1 1-hr lab. Prereq: Dent 2nd yr standing.

653 Oral Microbiology P G 4
A study of the oral flora and the oral diseases having a microbial etiology. Rosen.
Sp Qtr. 3 cl, 5 1-hr lab. Prereq: 652 or equiv with written permission of instructor.

555 Animal Cell Culture Techniques U G 5
Basic principles of tissue culture and organ culture; application of these procedures to basic and applied research in immunology and virology.
Sp Qtr. 2 3-hr labs, 1 2-hr rec. Prereq: 509 or 622 or equiv; 632 and 649 recommended, but not required.

661 General Microbial Physiology U G 5
Principles of microbial growth and metabolism with emphasis on nutrition, carbon flow, electron flow, macromolecule synthesis, metabolic control mechanisms, and relationship of structure and function. Stronk.
Au Qtr. 4 cl, 1 rec. Prereq: 601, 602, and Biochem 511, or equiv.

662 Physiology and Ecology of Aquatic Microorganisms U G 5
The nature and significance of major physiological processes in aquatic systems, with particular attention to those in planktonic and benthic microorganisms, including effects of pollutants. Randels.
Su (2nd term) Qtr. Franz Theodore Stone Lab. 3 all-day cl per wk. Prereq: Zoology 652, Chem 241, or equiv with written permission of instructor.

670 Cytologic Preparations in Electron Microscopy U G 5
Basic principles of electron microscopy, preparation, examination, and interpretation of biological specimens. Pfister.
Au, Wi Qtrs. 3 cl, 2 3-hr labs. Prereq: 10 or hrs in biological sciences and Chem 246 or equiv and permission of instructor.
675 Microbial Development U G 5
A study of cell differentiation in bacteria, protozoans, single-celled algae, and simple fungi, with emphasis on molecular biology. Byers.
Sp Qtr. 5 cl. Prereq: 602 or 640 or Biochem 511 or equiv with written permission of instructor.

680 Mechanisms of Gene Transfer in Microorganisms U G 3
Molecular basis of transformation, conjugation and transduction in bacteria; biology and environmental significance of plasmids; techniques and results of in vitro gene cloning. Reeser.
Wi Qtr. 3 cl. Prereq: 501 or Genetics 500 or equiv with permission of instructor.

692 Workshop U G 1-6
Intensive study of a topic in microbiology; the format will depend upon the topic.
Arr. Prereq: Written permission of workshop director. Repeatable to a maximum of 8 cr hrs.

693 Individual Studies U G 1-5
Outlined by instructor to meet individual student's needs.
Su, Au, Wi, Sp Qtr's. Prereq: Microbiol 4th yr major or grad standing and permission of instructor. No more than 5 cr hrs can be counted toward an undergrad microbio major. Not open to Plan B MS students. Repeatable only by undergrads to a maximum of 15 cr hrs. Not repeatable by grads, THNs course is graded SU.

694 Group Studies U G 2-5
Group work on special topics in microbial or cellular biology.
Su, Au, Wi, Sp Qtr's. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

723 Immunology and Immunohemistry U G 3
A thorough treatment of the basic phenomena involving antibodies, their physiologically, pathological and immunological reactions. Mortensen.
723.01 Lecture
Su Qtr. 3 cl. Prereq: 622 or equiv with written permission of instructor.

723.02 Laboratory
Su Qtr. 2 4-hr labs. Prereq or concour: 723.01.

730 Immunology of Parasitic Infections U G 2
A discussion of the role of immunity in the production, course, pathogenicity, diagnosis and control of parasitic infections of man and/or domestic animals. Barriga and staff.
Sp Qtr. 2 cl. Prereq: Basic courses in parasitology and immunology; permission of instructor. Repeatable to a maximum of 4 cr hrs. Content varies according to major interests of class. Protozoa-arthropods taught in odd yrs; helminths in even yrs. Not open to students with credit for Vet Path 730. Cross-listed in Veterinary Pathobiology.

736 Advanced Food Microbiology U G 5
Advanced studies of the microorganisms involved in the preservation and processing of food products using rapid analytical procedures. Banwart.
Wi Qtr. 2 cl. 2 3-hr labs. Prereq: 636.

747 Molecular Genetics of Bacterial Viruses 747.01 Lecture U G 3
A molecular biology and genetic approach to bacterial virology, emphasizing replication, gene regulation and genetics of bacteriophage. Deam.
Au Qtr. 3 cl. Prereq: 601 or Genetics 500 or equiv with written permission of instructor.

747.02 Laboratory U G 2
Genetics experiments of the classical T phages and temperate phages. Independent project isolating new mutants and mapping temperate phages.
Au Qtr. 2 3-hr labs. Prereq or concour: 747.01

760 Physiology of Bacteria U G 5
Nutritional requirements of bacteria, mechanisms of anaerobic dissimilation of carbon compounds, and industrial fermentation. Strohl.
Sp Qtr. 3 cl. 2 3-hr labs. Prereq: 602 or 609 and permission of instructor.

770 Microbial Cytology U G 5
A thorough study of morphology, fine structure and composition of microorganisms, and the relation of these to cell function. Pfister.
Sp Qtr. 2 11/2 hr cl. 2 3-hr labs. Prereq: 602 and permission of instructor.

777 Small Animal Preparation and Use in Biological Research U G 3
Teaching the principles of and providing practical experience in animal handling, anesthesia and surgery of small rodents under routine laboratory conditions. Kreiser.
Su Qtr. 1 4-hr lectlab. Prereq: Advanced undergrad or grad standing in biological sciences and permission of instructor. This course is graded SU.

778 Honors Course U G 3
A program of reading and research for each student with individual conferences, reports, and Honors thesis.
Su, Au, Wi, Sp Qtr's. Prereq: 4th yr standing with a grade of A in at least half of the courses in microbial and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required for candidates for the degrees BS or BA with distinction in microbiol. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded SU.

799 Microbiology Colloquium U G 1
Au, Wi, Sp Qtr's. 1 cl. Repeatable to a maximum of 15 cr hrs.
This course is graded SU.

832 Advanced Cellular Immunology G 5
Studies of immunity at the cellular level with emphasis on the induction and effector roles of macrophages and lymphocytes. Zwilling.
Sp Qtr. 3 cl. 2 3-hr labs. Prereq: 632 or equiv with permission of instructor.

833* Current Immunological Techniques G 4
Current techniques in cellular and humoral immunology as applicable in research conducted by students. Hoffmann, Lang, Mattingly, and Prasch.
Wi Qtr. 2 4-hr lab. Prereq: Med Micro 701 or equiv course in basic immunology. Not open to students with credit for Med Mic 833. Cross-listed in Medical Microbiology and Immunology.

841 Viral Oncology G 3
The immunological, virological, epidemiological, and molecular aspects of DNA and RNA tumor viruses. Glaser and staff.
Sp Qtr. 3 cl. Prereq: Physchem 512 or 709; Med Mic 754 or Microbiol 649. Not open to students with credit for Med Mic 841, Physchem 841, or Vet Path 841. Cross-listed in Medical Microbiology and Immunology, Physiological Chemistry, and Veterinary Pathobiology.

880 Seminar in Microbiology G 1-3
Su, Au, Wi, Sp Qtr's. Repeatable by permission of instructor only.

890 Interdepartmental Seminar in Molecular, Cellular, and Developmental Biology G 2
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology. Au, Wi, Sp Qtr's. 1 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Given cooperatively by Botany, Genetics, Microbiology, and Zoology. This course is graded SU.
189 Army Specialty Training

Intensive specialty field training from two to three weeks in duration at an Army Installation Specialty School.
Prep: Contract cadet standing, successful completion of the physical fitness test, medical examination, and selection by a professor of military science. Repeatable to a maximum of 8 or hrs in any combination of decimal subdivisions. These courses are graded S/U.

193.01 Airborne Operations U 2

Three weeks of intensive field training including the study of airborne operating, physical conditioning, and military parachute techniques, and culminating in the awarding of the Airborne Qualification Badge.
Su Qtr. 3 wks. Taught at Ft Benning, GA.

189.02 Armored Operations U 2

Two weeks of intensive field training including the study of armored operations, physical conditioning, and rappelling; culminating with the awarding of the Air Assault Badge.
Su, Sp Qtr. 2 wks. Taught at Ft Campbell, KY.

189.03 Winter Warfare Operations U 3

Three weeks of intensive field training including the study of operations under winter conditions, physical conditioning, mountaineering, and leadership in a hostile environment.
Su Qtr. 3 wks. Taught at Ft Richardson, Alaska.

211 National Security Policy U 2

A study of the U.S. defense structure and its evolution since WWII, with emphasis on the organization, roles, and missions of the U.S. Army.
Au, Wi Qtrs. 2 hr cl, leadership lab. Not open to students with credit for 210 prior to Su Qtr 1982.

212 Introduction to Special Operations U 2

Comprehensive instruction on physical training, rappelling, and special operations techniques; designed to prepare the student for Army Specialty Schools such as Ranger, Airborne, Air Assault, and Northern Warfare.
Au, Wi Qtr. 1 hr cl, leadership lab. Not open to students with credit for 111 prior to Su Qtr 1982.

213 Small Unit Leader U 2

Instruction on advanced land navigation techniques, and tactics at the individual, squad, and platoon level; designed to prepare the student for the AROTC Advanced Program.
Sp Qtr. 2 hr cl, leadership lab.

289 Army ROTC Basic Camp U 6

Six weeks of highly intensive training encompassing basic infantry soldiering and leadership skills designed to prepare the student for the Army ROTC Advanced Program.
Su Qtr. 6 wks. Prep: Successful completion of medical examination. Taught at Ft Knox, KY. This course is graded S/U.

301 Contemporary Military Subjects U 4

An overview of national defense policy, military history, organization, roles, missions, and branches of the U.S. Army, basic weaponry, and land navigation; designed as an orientation to the AROTC Advanced Program.
Au Qtr. 3 credits, 2 hr labs, 1 2-day field training. Prep: Basic AROTC Program or equiv.

302 Military Leadership and Skills U 4

A study of leadership to include trait theory, motivation theory, and contemporary leadership models; instruction on oral and written communication techniques, and basic military skill qualification subjects.
Wi Qtr. 3 credits, 2 hr labs, 1 2-day field training. Prep: 301 or permission of professor of military science.

303 Small Unit Tactics U 4

Study of the organization, mission, characteristics, capabilities and tactics of the infantry squad, platoon, company, and battalion; troop leading procedures, operations orders, offensive, defensive, and patrol operations, and patrolling.
Sp Qtr. 3 credits, 2 hr labs, 1 2-day field training. Prep: 302 or permission of professor of military science.
389 Army ROTC Advanced Camp U 6
Six weeks of intensive education in basic military and leadership subjects; life in a military environment in preparation for a commission.
Su Qtr. 6 wks (June and July). Prereq. 301, 302, 303; or permission of professor of military science. Taught at Ft. Lewis, WA.

401 Military Operations Management U 4
The study of Army organizations and operations to include command and staff branches of the Army, the division base, and a study of managerial methods.
Au Qtr. 3 cl, 2.2-hr labs, 1 2-day field training. Prereq. 301 or permission of professor of military science.

402 Administration and Logistics U 4
Study of logistics to include management of combat and garrison supply equipment maintenance, property accountability, transportation and troop movement, training management to include staff scheduling principles and the design and execution of training exercises; Army administration to include military publications, personnel actions, and the supervision of administrative requirements.
Wi Qtr. 3 cl, 2 2-hr labs, 1 2-day field training. Prereq. 401 or permission of professor of military science.

403 Military Justice and Preparation for Service U 4
Study of military justice, and a military service orientation to include military professionalism, ethics, and counseling.
Sp Qtr. 3 cl, 2 2-hr labs, 1 2-day field training. Prereq. 402 or written permission of professor of military science.

Mining Engineering

235 Koffor Laboratories, 190 West 19th Avenue, 422-3837

200 Introduction to the Mineral Industry U 3
A basic introduction to mineral resources and the mineral resource extractive industries; mineral resource occurrence in nature, extraction technology, industry organization and economics.
Au, Wi Sp Qtrs. 3 cl. Not open to students with credit for 400.

400 Introduction to Mining Methods U 4
Introduction to the field of mining engineering; engineering aspects of exploration, evaluation, development, extraction, beneficiation, and reclamation phases with special emphasis on modern mining methods.
Su, Wi Qtrs. 4 cl. Prereq. 2nd yr standing in ENGR or permission of instructor.

489 Professional Practice in Mining U 1 or 2
Work experience in the mineral industry through the co-op program and preparation of a suitable report for each work period.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of instructor.
Repeatable to a maximum of 8 hrs. This course graded S/U.

551 Mine Bulk Materials Handling Systems U G 4
Principles and techniques of mine bulk materials handling; includes track haulage, conveying, and hoisting design.
Au, Wi Qtrs. 3 cl, 1 3-hr computational lab. Prereq. 400 and Engr Graph 200.

552 Mine Energy Distribution Systems U G 4
Principles and techniques of mine energy distribution; includes compressed air and AC and DC power transmission design.
Au, Sp Qtrs. 4 cl, 1 3-hr computational lab. Prereq. 400 and Elect En 500.

553 Mine Environmental Control Systems U G 4
Principles and techniques of mine environmental control; includes ventilation, air conditioning, and water supply and disposal design.
Su, Wi Qtrs. 3 cl, 1 3-hr computational lab. Prereq. 400 and Civil En 413.

653 Mining Rock Mechanics U G 4
Elasticity, inelasticity, and failure or rock; rock properties; design of underground openings in massive and banded rock.
Au, Wi Qtrs. 4 cl. Prereq. 400, Civil En 554, and Geol & Min 530. Not open to students with credit for Civil En 653.

654 Rock Mechanics Laboratory U G 1
Laboratory and field testing techniques for rock materials; instrumentation, correlation between laboratory and in situ results.
Au, Wi Qtrs. 1 3-hr lab. Prereq. or conc. 553.

660 Explosives Engineering U G 4
Principal types of commercial high explosives and explosive devices; chemical and physical characteristics of explosives; rock breakage mechanisms; design of blasting systems.
Au, Sp Qtrs. 4 cl. Prereq. 3rd yr standing in College of Engineering.

671 Surface Mine Design U G 4
Comprehensive engineering design of a modern surface mining operation.
Au, Sp Qtrs. 3 cl, 1 3-hr computational lab. Prereq. 551, 552, 653, and 660.

672 Underground Coal Mine Design U G 4
Comprehensive engineering and economic design of continuous, longwall and shortwall coal mining operations.
Su, Wi Qtrs. 3 cl, 1 3-hr computational lab. Prereq. 551, 552, 553, and 653.

681 Underground Metal Mine Design U G 4
Application of advanced mining principles and techniques toward the solution of complex designs associated with massive and vein deposits; emphasis on methods and systems.
Au, Sp Qtrs. 4 cl. Prereq. or conc. 672, Stat 525 or equiv, and Math 255.

691 Mine Valuation and Finance U G 4
Modern principles and techniques of mine valuation; financing mines and mineral properties.
Au, Sp Qtrs. 4 cl. Prereq. 400, Econ 200, and Stat 525 or equiv.

693 Individual Studies U 2-5
Individual conferences, assigned readings, and reports on minor investigations.
Su, Au, Wi, Sp Qtrs. Prereq. Written permission of instructor.
Repeatable to a maximum of 10 hrs. Not open to graduate students. This course is graded S/U.

694 Group Studies in Mining Engineering U G 3-5
Special topics in mining engineering; the particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course will be offered.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of Instructor.
Repeatable to a maximum of 12 hrs.

753 Strata Control U G 4
Theory and practice of strata control in underground mining operations; stresses around underground openings, pillar bursts, creep, and subsidence.
Sp Qtr. 4 cl. Prereq. 653.

750 Advanced Mine Ventilation U G 4
Principles of ventilation, including thermodynamics of air flow, flow conditions, mine climate, air conditioning, and cost analysis.
Su, Wi Qtrs. 4 cl. Prereq. 550, Math En 501, and Math 250, or permission of instructor.

760 Advanced Explosives Engineering U G 4
Chemistry of explosive reactions; thermodynamic and hydrodynamic theory; kinetics; equations of state; modeling and design of explosives and blast; control of fragmentation.
Sp Qtr. 4 cl. Prereq. 680 and 4th yr standing in mining engineering.
Drilling and Mechanical Excavation of Coal and Rock U G 4
One-dimensional elastic wave mechanics; percussive and rotary drilling theory; drill bit design; kinematics and energetics of mechanical excavation tools.
Wt Qtr. 4 cl. Prereq: 653 or permission of instructor.

Mine Reclamation and Environmental Control U G 4
Federal, state, and local environmental and reclamation regulations; effects on present and future extraction practices; design of operations to comply with laws.
Sp Qtr. 4 cl. Prereq: 4th year standing in ENG and written permission of instructor.

Transportation and Marketing of Coal U G 4
Markets, grade specifications, reserve requirements, contracts, and schedules; transportation of coal and other bulk minerals to market.
Wt Qtr. 4 cl. Prereq: Written permission of instructor.

Seminar in Mining Engineering U 1
Lectures and discussions of current topics related to mining engineering presented by faculty, students and guest speaker; term paper required.
Au, Wi, Sp Qtrs. 1 2-hr cl. Prereq: Written permission of instructor. Repeatable to a maximum of 3 or hrs. Not open to graduate students.

Advanced Coal Preparation G 4
Application of physical, electrical, and chemical methods to separate coal from impurities; quality control in rendering coal resources suitable for utilization and related problems.
Sp Qtr. 4 cl. Prereq: Chem Eng 693 and Chem Eng 787 or equivalent with permission of instructor.

Advanced Mineral Preparation G 4
Selection and utilization of physical, electrical, and chemical separation processes for non-coal minerals; technical and economic optimization; design of pilot plants.
Sp Qtr. 4 cl. Prereq: Chem Eng 683 and permission of instructor.

Surface Mine Equipment Optimization G 4
Optimization of modern, complex surface mining systems; evaluation and selection of high capacity intermittent and continuous mining equipment; computer simulation.
Au Qtr. 3 cl. 1 2-hr lab. Prereq: 671.

Underground Mine Equipment Optimization G 4
Theoretical and practical methods of interpreting, analyzing, and using data to best select equipment for various mining systems.
Wt Qtr. 4 cl. Prereq: 672, 681, and Cptr/Inf 541, or equivs.

Advanced Studies in Mining Engineering G 3-5
Advanced work in one of the specialized areas of mining engineering.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

Graduate Seminar in Mining Engineering G 1
Lectures and discussion of current topics related to on-going mining engineering research projects; research methodology.
Su, Au, Wi, Sp Qtrs. 1 2-hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs.

Individual Studies in Mining Engineering G 1-4
Individual conferences, special readings, and investigations of unique problem areas.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

Research in Mining Engineering G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Modern Greek

Elementary Modern Greek I U 5
Elements of modern Greek; sound and writing systems; phonology; morphology of noun and verb; written and oral practice.
Au Qtr. 5 cl. This course is available for EM credit. FL. Admis Cond course.

Elementary Modern Greek II U 5
Further study of morphology and syntax with reading of longer texts; extensive written and oral practice.
Wi Qtr. 5 cl. Prereq: 101. This course is available for EM credit. FL Admis Cond course.

Intermediate Modern Greek I U 5
Grammatical review, with attention to variations of morphology and syntax between Demotic and Katharevousa styles; prose reading assignments and written and oral practice.
Sp Qtr. 5 cl. Prereq: 102. This course is available for EM credit.

Intermediate Modern Greek II U 5
Assigned reading from Demotic and Katharevousa sources, including newspaper and periodical articles.
Au Qtr. 5 cl. Prereq: 103. This course is available for EM credit.

Masterpieces of Near Eastern Literatures
See Jacar and Near Eastern Languages (JANELL) 272.

Individual Studies U 1-3
Su, Au, Wi, Sp Qtrs. Prereq: 104 or equiv or permission of instructor. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

Group Studies U 1-5
Topics in modern Greek studies.
Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

Advanced Modern Greek I U 5
Extensive reading from literary prose, with practice in conversation and composition.
Wi Qtr. 5 cl. Prereq: 104.

Advanced Modern Greek II U 5
Reading from prose and poetry, with advanced practice in conversation and composition.
Sp Qtr. 5 cl. Prereq: 401.

Individual Studies U G 1-6
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

Group Studies U G 1-6
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs.
Molecular, Cellular, and Developmental Biology

882 Biological Sciences Building, 484 West 12th Avenue, 422-9471

Interdepartmental Seminar in Molecular, Cellular, and Developmental Biology
See Biochemistry, Botany, Genetics, Microbiology, and Zoology 890.

Research in Developmental Biology G Arr
Research for thesis and dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Music

110 Welge Hall, 1866 College Road, 422-6571

Preceding the class sessions of Music 221 and Music 291, placement tests will be given to determine the ability of students in these subjects. See School of Music for details of time and place.

100 Concert Attendance U 1
Au, Wi, Sp Qtrs. Attendance at 9 concerts or recitals. Prerequisite Attendance at 45 concerts and recitals. Open only to music majors.

101 Applied Music for Non-Majors Group Instruction I U 2
Au, Wi, Sp Qtrs. 2 cl. Open only to non-music majors. VPA Admissions Course.
101.01 Piano
101.02 Voice

102 Applied Music for Non-Majors Group Instruction II U 2
Au, Wi, Sp Qtrs. 2 cl. Open only to non-music majors. VPA Admissions Course.
102.01 Piano
102.02 Voice

110 Introduction to Applied Music U 1
An elementary applied music course for prospective music majors whose audition scores indicate the need for systematic instruction to prepare for 201.
Au, Wi, Sp Qtrs. 1½-yr cl. Studio classes and recital attendance and audition. Prerequisite Audition and approval of the director of the School of Music. Repeatable to a maximum of 2 cr hrs in each academic year. Repeatability is based on a music major.
110.11 Piano
110.12 Organ
110.21 Voice
110.31 Violin
110.32 Viola
110.33 Cello
110.34 Double Bass
110.35 Guitar
110.36 Jazz Bass
110.41 Flute
110.42 Oboe
110.43 Clarinet
110.44 Bass Clarinet
110.45 Saxophone
110.46 Bassoon

115.51 Horn
115.52 Trumpet
115.53 Trombone
115.54 Euphonium
115.55 Tuba
115.71 Percussion
115.91 Harp

141 Introduction to Music U 5
A consideration of the materials of music and important styles, forms, and composers from the Baroque to the present. Gano.
Au, Wi, Sp Qtrs. 5 cl. 2 hrs wrk. Not open for credit to music majors. A musical background is not required. This course is available for EM credit. BERM/LACILAR course. VPA Admissions Course.

150 Introduction to Jazz U 5
A study of the characteristics, styles, and structure of jazz; jazz performers.
Wi, Sp Qtrs. 5 cl. Not open for credit to music majors. VPA Admissions Course.

Campus Music Organizations

University campus music organizations are open to all students in the University who may receive full credit according to regulations of the college in which they are enrolled.

180 University Chorus U 1
On the scene and large choral works are studied and performed. Major.
Au (1st term), Wi, Sp Qtrs. 3 cl. or more hrs rehearsal each wk. Prerequisite Admission by audition only. Repeatable to a maximum of 12 cr hrs. VPA Admissions Course.

181 Symphonic Choir U 1
Symphonic Choir is a concert organization singing a variety of literature. Casey.
Au, Wi, Sp Qtrs. 3 or more hrs rehearsal each wk. Prerequisite Admission by audition only. Repeatable to a maximum of 12 cr hrs. VPA Admissions Course.

182 Women’s Glee Club U 1
Study and performance of choral literature for women’s voices.
Au, Wi, Sp Qtrs. 3 or more hrs rehearsal each wk. Prerequisite Auditions are held at stated periods, and vacancies in the club are filled by the most available voices. Admission by audition and permission of director. Repeatable to a maximum of 12 cr hrs. Membership in this concert group is open to all women students in the University by audition, VPA Admissions Course.

183 Men’s Glee Club U 1
Study and performance of choral literature for men’s voices.
Au, Wi, Sp Qtrs. 3 or more hrs rehearsal each wk. Prerequisite Auditions are held at stated periods, and vacancies in the club are filled by the most available voices. Admission by audition and permission of director. Repeatable to a maximum of 12 cr hrs. Membership in this concert group is open to all men students in the University by audition, VPA Admissions Course.

184 University Symphony Orchestra U 1
The University Orchestra is an 85-piece orchestra of full instrumentation devoted to the preparation of standard and modern literature; the group gives at least three concerts each year. Haddock.
Au, Wi, Sp Qtrs. 6 cl. 3 hrs rehearsal each wk. Prerequisite Admission by audition and permission of director. Repeatable to a maximum of 12 cr hrs. Membership in this concert group is open to all University students by audition. VPA Admissions Course.

185 Chamber Orchestra U 1
A selected group giving public and broadcast performances; professional orchestral techniques are emphasized. Haddock.
Au, Wi, Sp Qtrs. 3 or more hrs rehearsal each wk. Prerequisite Admission by audition. Repeatable to a maximum of 12 cr hrs. VPA Admissions Course.
University Football Marching Band U 2
The University Marching Band is a selected group of diverse percussion and woodwind players which performs at football games and other events. Audition by permission of director. Repeatability: 2 hrs. No audit. VPA Admis Cond course.

ROTC Band (Air-Army) U 1
Audition by permission of director. Open to men and women. VPA Admis Cond course.

University Bands U 1
VPA Admis Cond course.

University Wind Ensemble U 1
A select group of wind and percussion performers who prepare and perform wind literature from the 16th through the 20th century. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.

University Concert Band U 1
Preparation and performance of traditional and contemporary literature for symphonic band. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.

University Symphonic Band U 1
Preparation and performance of traditional and contemporary literature for symphonic band. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.

Chorale U 1
A selected group of mixed voices which performs in concerts both on and off campus. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.

University Percussion Ensemble U 1
A laboratory and performance musical ensemble whose literature consists of original and transcribed works for percussion instruments alone or with percussion as a dominant feature. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.

Jazz Ensembles U 1
VPA Admis Cond course.

University Jazz Ensemble U 1
A selected group devoted to playing, arranging, and rehearsing contemporary jazz literature. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.

Workshop U 1
A selected group devoted to the study and performance of music in various styles of jazz. Prereq: Admission by audition and permission of director. Repeatability: 2 hrs. VPA Admis Cond course.
201 Applied Music (Principal) U 1 or 2
Instruction in applied music to develop musicianship, performance, and a wide reading knowledge of music literature.
Au, Wi, Sp Qtrs (except 201.14). 1 hr-lesson, studio classes and recital attendance are. Prereq: Passing of School of Music entrance audition and test. Required of students in all music curricula, except BA, to a minimum of 6 qtr hrs. Open only to music majors. Repeatable to a maximum of 10 or hrs for each degree subdivision. These courses are available for EM credit.

201.11 Piano
201.12 Jazz Piano
201.13 Organ
201.14 Harpsichord
201.21 Voice
201.31 Violin
201.32 Viola
201.33 Cello
201.34 Double Bass
201.35 Guitar
201.36 Jazz Bass
201.37 Jazz Guitar
201.41 Flute
201.43 Oboe
201.45 Clarinet
201.44 Bass Clarinet
201.45 Saxophone
201.46 Bassoon
201.51 Horn
201.52 Trumpet
201.53 Trombone
201.54 Tubab
201.55 Tuba
201.71 Percussion
201.72 Jazz Percussion
201.91 Harp

209 Jazz Improvisation I U 3
Fundamentals of jazz improvisation; seventh chord structures major, minor, pentatonic and blues scales; jazz patterns and phrasing; analysis and improvisation of blues and ii-vi progressions.
Au, Wi Qtrs. 3 cl. Prereq: 221 and 224. This course is available for EM credit.

210 Jazz Improvisation II U 3
Improvisation techniques utilizing blues and pentatonic scales, elaboration of seventh chord structures; analysis of transcribed solos; improvisation of vertical, horizontal, and combination tones; exploration of bebop and post-bop literature.
Sp Qtr. 3 cl. Prereq: 209. This course is available for EM credit.

211 Jazz Improvisation III U 3
Continuation of 210; technique development utilizing fourth patterns; concepts in modal and linear improvisations: increasing emphasis on post-bop literature; extensive practice in playing changes of bebop tunes.
Au Qtr. 3 cl. Prereq: 210.

212 Diction for Singers I (Italian) U 2
Fundamentals of phonetics and sound production as applied to singing in Italian. Achi.
Wi Qtr. 3 cl. Prereq: Minimum of 6 or hrs of applied study in voice or written permission of instructor.

213 Diction for Singers I (German) U 2
Fundamentals of phonetics and sound production as applied to singing in German.
Au Qtr. 3 cl. Prereq: Minimum of 6 or hrs of applied study in voice or written permission of instructor, and 212.

214 Diction for Singers I (French) U 2
Fundamentals of phonetics and sound production as applied to singing in French.
Au Qtr. 3 cl. Prereq: Minimum of 6 or hrs of applied voice or written permission of instructor, and 212.

221 Music Theory I U 3
Elements of music and musical notation; analytical concepts and terminology; fundamentals of harmony, counterpoint, and melody; extensive practice through written drill and creative projects.
Au, Wi Qtrs. 3 cl. Prereq: Passing of placement tests. This course is available for EM credit.

222 Music Theory II U 3
Principles of diatonic harmony, non-chordal melodic elements, and homophonic phrase structures; extensive practice in part-writing, analysis, and creative application.
Wi, Sp Qtrs. 3 cl. Prereq: 221. This course is available for EM credit.

223 Music Theory III U 3
A continuation of 222, including diatonic modulation and secondary dominant functions; special emphasis on creative projects in traditional styles.
Su, Sp Qtrs. 3 cl. Prereq: 222. This course is available for EM credit.

224 Aural Training I U 1
Training in aural musicianship and music reading; practical application through solfège, dictation, and keyboard drill.
Au, Wi Qtrs. 3 lab hrs. This course is available for EM credit.

225 Aural Training II U 1
Continued aural training; practical application through solfège, dictation, and keyboard drill.
Wi, Sp Qtrs. 3 lab hrs. Prereq: 224. This course is available for EM credit.

226 Aural Training III U 1
A continuation of 225, with attention to harmonic, contrapuntal and rhythm problems.
Su, Sp Qtrs. 3 lab hrs. Prereq: 225. This course is available for EM credit.

231 Jazz Theory U 2
The forms and compositional techniques of jazz, including chord progression formulas, chord alteration, lead-sheet paraphrasing, counterpoint and bass-line construction, and creative application. Levy.
Sp Qtr. 2 cl. Prereq: 222 and 225.

241 Music History I U 3
The development of music from the earliest times through the sixteenth century.
Au Qtr. 3 cl. 2 lab hrs. Prereq: 225. BERILAC course.

242 Music History II U 3
The development of music in the 17th and 18th centuries. Mass.
Wi Qtr. 3 cl. 2 lab hrs. Prereq: 241. BERILAC course.

243 Music History III U 3
The development of music in the 19th and 20th centuries. Gano.
Sp Qtr. 3 cl. 2 lab hrs. Prereq: 242. BERILAC course.

244 Survey of African and African-Derived Music in the Western World U 3
An introduction to traditional African music and its role in the history and development of Afro-American music with its concomitant socio-political milieu. McDaniel.
Au, Sp Qtrs. 3 cl. Not open to students with credit for Black St 244. Cross-listed in Black Studies. BERILAC course, VPA Admis Cond course.
261 Applied Music Methods and Materials I U 2
These courses are available for EM credit.
261.01 Piano
Lowdier.
Au, Wi, Sp Qtrs. 4 cl. Not open to keyboard majors.
261.02 Voice
Swan.
Au, Wi, Sp Qtrs. 4 cl. Not open to voice majors.
261.03 Strings
Gillespie.
Au Qtr. 4 cl.
261.04 Woodwinds
Von Gruenigen.
Au Qtr. 4 cl.
261.05 Brass
Droste.
Wi Qtr. 4 cl. Not open to brass majors.
261.07 Percussion
Moore.
Au, Wi, Sp Qtrs. 4 cl.
261.11 Basic Conducting Laboratory U 2
Basic conducting skill development emphasizing pulse, rhythm and physical coordination.
Au, Wi, Sp Qtrs. 4 cl.
262 Applied Music Methods and Materials II U 2
Prereq: 261 or equiv. These courses are available for EM credit.
262.01 Piano
Au, Wi, Sp Qtrs. 4 cl. Not open to keyboard majors.
262.02 Voice
Wi, Sp Qtrs. 4 cl. Not open to voice majors.
262.03 Strings
Wi Qtr. 4 cl.
262.04 Woodwinds
Wi Qtr. 4 cl.
262.05 Brass
Sp Qtr. 4 cl.
262.11 Conducting (Instrumental)
Conducting instruction applied to band, orchestra and ensemble literature and performance.
Au, Wi, Sp Qtrs. 4 cl.
262.12 Conducting (Choral)
Conducting instruction applied to choral literature and performance problems. Major.
Wi Qtr. 4 cl. Prereq: 261.11.
263 Applied Music Methods and Materials III U 2
Prereq: 262 or equiv. These courses are available for EM credit.
263.01 Piano
Au, Wi, Sp Qtrs. 4 cl.
263.02 Voice
Sp Qtr. 4 cl.
264 Applied Music Methods and Materials IV U 2
Prereq: 263 or equiv. These courses are available for EM credit.
264.01 Piano
Au, Wi, Sp Qtrs. 4 cl.
264.02 Voice
Au, Wi Qtrs. 4 cl.
265 Music for Group Recreation U 2
Preparation and participation in folk singing and dancing; experience in group leadership designed for recreation and camp leaders, social workers, teachers of music, and classroom teachers.
Au, Sp Qtrs. 3 cl.
266 Introduction to Piano Accompanying U 2
Piano accompanying applied to music performance and literature.
Au, Wi, Sp Qtrs. 2 cl. Prereq: Audition or permission of instructor.
268 Instrument Repair U 1
Development of practical skills in identifying and correcting minor repair problems on band and orchestra instruments and their accessories. Spellman.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 265.04, 262.05, and permission of instructor. Repeatable to a maximum of 2 cr hrs.
270 Basic Experiences in Music: Fundamentals U 3
Ear-training, music reading, creative writing, voice production, and some instrumental experience as applied to the music program in the elementary school.
Su, Au, Wi, Sp Qtrs. 5 cl. This course is available for EM credit.
271 Basic Experiences in Music: Literature and Listening U 2
The elements involved in active, intelligent listening, understanding, and appreciation of representative works of music as applied to the music program in the elementary school. Sexton.
Su, Au, Wi, Sp Qtrs. 4 cl. This course is available for EM credit.
293 Individual Studies U 1-3
293.01 Composition
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of division chairman. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.
294 Group Studies U 1-5
Supervised group studies of special problems.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.
312 Opera Performance U 2
Instruction and experience in preparation for opera performance, including study of operatic literature and coaching of operatic roles. Stephens.
Su, Au, Wi, Sp Qtrs. 4 lab hrs. Prereq: Jr or sr standing and permission of instructor. Repeatable to a maximum of 10 cr hrs.
341 Music in the United States U 5
Music by American composers and the place of music in American life from colonial times to the present.
Au Qtr. 4 cl, 1 lab hr. Prereq: English 110 or 111 or equiv, and 141 or permission of instructor. Not open for credit to music majors. Not open to students with credit for 145. Fulfills in part the ASC advanced English composition requirement. BER course.
342 Introduction to Opera U 5
A survey of opera from its beginnings to the present. Main.
Sp Qtr. 4 cl, 1 lab hr. Prereq: English 110 or 111 or equiv, and 141 or permission of instructor. Not open for credit to music majors. Not open to students with credit for 145. Fulfills in part the ASC advanced English composition requirement. BER course.
343 Symphonic Music U 5
The development of the symphony and other types of orchestral music.
Wi Qtr. 4 cl, 1 lab hr. Prereq: English 110 or 111 or equiv, and 141 or permission of instructor. Not open for credit to music majors. Not open to students with credit for 146. Fulfills in part the ASC advanced English composition requirement. BER course.
346 Music of Bach and Handel U 5
The works and styles of the two most eminent composers of the late Baroque period.
Wi Qtr. 4 cl, 1 lab hr. Prereq: English 110 or 111 or equiv, and 141 or permission of instructor. Not open for credit to music majors. Not open to students with credit for 147. Fulfills in part the ASC advanced English composition requirement. BER course.
347 Mozart, Haydn, and Beethoven U 5
The works and styles of the three most eminent composers of the Classic period.
Sp Qtr. 4 cr. 1 lab hr. Prereq: English 110 or 111 or equiv, and
141 or permission of instructor. Not open for credit to music
majors. Not open to students with credit for 148. Fulfills in
part the ASC advanced English composition requirement. BER
course.

349 Twentieth Century Music U 5
The main trends in music from Debussy to the avant garde.
Au Qtr. 4 cr. 1 lab hr. Prereq: English 110 or 111 or equiv, and
141 or permission of instructor. Not open for credit to music
majors. Not open to students with credit for 148. Fulfills in
part the ASC advanced English composition requirement. BER
course.

370 Music for Elementary Teachers U 3
Music literature and teaching aids for children, including
singing, rhythm, creative, and listening experiences, and their
presentation. Lehr and Tolbert.
Su, Au, Wi, Sp Qtr. 5 cr. Prereq: 270, 271, and professional
standing.

373 Music for Special Education Teachers U 3
Music literature and teaching strategies for exceptional
children, including singing, rhythm, creative, and listening
experiences. Lehr.
Wi, Sp Qtr. 5 cr. Prereq: Jr or Sr standing in Ed-Except. Not
open to students with credit for 270A taken prior to Au Qtr
1983.

401 Applied Music (Principal) U 1 or 2
Applied music instruction required in the BME curriculum to
develop musicianship, performance, and a wide reading
knowledge of music literature.
Au, Wi, Sp Qtr. (except 401.14). 1 hr-1 hr lesson, studio classes
and recital attendance are. Prereq: 201 and permission of
applied area faculty. Open to other qualified students within
the limits of instructional facilities by permission of the director
of the School of Music. Repeatable to a maximum of 8 or hrs
for each subdivision.
401.11 Piano
401.12 Jazz Piano
401.13 Organ
401.14 Harpsichord
401.21 Voice
401.31 Violin
401.32 Viola
401.33 Cello
401.34 Double Bass
401.35 Guitar
401.36 Jazz Bass
401.37 Jazz Guitar
401.41 Flute
401.42 Oboe
401.43 Clarinet
401.44 Bass Clarinet
401.45 Saxophone
401.46 Bassoon
401.51 Horn
401.52 Trumpet
401.53 Trombone
401.54 Euphonium
401.55 Tuba
401.71 Percussion
401.72 Jazz Percussion
401.91 Harp

402 Applied Music (Major)
Instruction required in BM curriculum in performance to
develop professional qualities of musicianship, technique, and
knowledge of music literature.
Au, Wi, Sp Qtr. (402.14). 1-1 hr lesson, studio classes and
recital attendance are. Prereq: 201 and written permission of
applied area faculty. Repeatable to a maximum of 16 cr hrs for
each subdivision.
402.11 Piano U 2 or 4
402.13 Organ U 2 or 4
402.14 Harpsichord
402.21 Voice U 3
402.31 Violin U 2 or 4
402.32 Viola U 2 or 4
402.33 Cello U 2 or 4
402.34 Double Bass U 2 or 4
402.41 Flute U 2 or 4
402.42 Oboe U 2 or 4
402.43 Clarinet U 2 or 4
402.44 Bass Clarinet U 2 or 4
402.45 Saxophone U 2 or 4
402.46 Bassoon U 2 or 4
402.51 Horn U 2 or 4
402.52 Trumpet U 2 or 4
402.53 Trombone U 2 or 4
402.54 Euphonium U 2 or 4
402.55 Tuba U 2 or 4
402.71 Percussion U 2 or 4
402.91 Harp U 2 or 4

412 Diction for Singers II (Italian) U 2
Advanced study of phonetics and sound production as applied
to singing in Italian.
Sp Qtr. 3 cr. Prereq: 212.

413 Diction for Singers II (German) U 2
Advanced study of phonetics and sound production as applied
to singing in German.
Wi Qtr. 3 cr. Prereq: 212 and 213.

414 Diction for Singers II (French) U 2
Advanced study of phonetics and sound production as applied
to singing in French.
Wi Qtr. 3 cr. Prereq: 212 and 214.

421 Music Theory IV U 3
Principles of 18th- and 19th-century chromatic harmony and
modulation; extensive practice in part-writing, analysis, and
creative application.
Au Qtr. 3 cr. Prereq: 223.

422 Music Theory V U 3
Compositional techniques in early 20th-century music;
comprehensive practice in written drill, analysis, and creative
projects.
Wi Qtr. 3 cr. Prereq: 421.

423 Music Theory VI U 3
A continuation of 422, focusing on more recent developments
in 20th-century music; special emphasis on creative projects in
contemporary styles.
Sp Qtr. 3 cr. Prereq: 422.

424 Aural Training IV U 2
Intensive training in aural musicianship and music reading;
practical application through college, dictation, and keyboard
drill.
Au Qtr. 4 lab hrs. Prereq: 226. Not open to students with
credit for 430.01.

425 Aural Training V U 2
A continuation of 424 at a more advanced level.
Wi Qtr. 4 lab hrs. Prereq: 454. Not open to students with
credit for 430.02.
426 Aural Training VI U 2
A continuation of 425; aural training at an advanced level.
Sp Qtr. 4 lab hrs. Prereq: 425. Not open to students with credit for 430.03.

427 Keyboard Harmony I U 2
Systematic review and utilization of basic harmonic materials at
the keyboard.
Au Qtr. 2 cl. Prereq: 281.01, 282.01, and 283.01 (6 or hrs),
281.01 (6 hrs or), or equiv.

428 Keyboard Harmony II U 2
Introduction to score reading at the keyboard.
Wi Qtr. 2 cl. Prereq: 427.

429 Keyboard Harmony III U 2
Continued practical experience in score reading at the keyboard.
Sp Qtr. 2 cl. Prereq: 428.

430 Aural Training for Selected Students U 2
Special course sequence for superior students designed to
provide comprehensive training in intonation, dictation and
keyboard drill. This sequence substitutes for 424, 425, 426.

430.01 Comprehensive Aural Training
and Music Reading I
Au Qtr. 4 lab hrs. Prereq: 226 and written permission of
Instructor. Not open to students with credit for 424.

430.02 Comprehensive Aural Training
and Music Reading II
Wi Qtr. 4 lab hrs. Prereq: 430.01 or equiv and written
permission of instructor. Not open to students with credit
for 425.

430.03 Comprehensive Aural Training
and Music Reading III
Sp Qtr. 4 lab hrs. Prereq: 430.02 or equiv and written
permission of instructor. Not open to students with credit
for 426.

433 Scoring for Jazz Ensembles U 3
433.01 Large Jazz Ensembles
Scoring projects for the stage band, with concentration on
voicing, ranges, doublings, balance, and notational
procedures.
Au Qtr. 3 cl. Prereq: 231.

433.02 Small Jazz Ensembles
Scoring projects for jazz combos of various sizes and
instrumentation. Levy.
Wi Qtr. 3 cl. Prereq: 433.01.

446 Survey of Jazz Styles U 3
Stylistic variants of jazz involving technical and structural
aspects so that the student may recognize, play, and score
them authentically. Battenberg and McDaniei.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

451 Advanced Class Piano U 1
Acquisition of practical skills including harmonization,
transposition, sightreading, and improvisation; designed for
music majors with keyboard as their principal or secondary
instrument. Lowder.
Au Qtr. 2 cl. Prereq: 201.11 or 283.01 or permission of
instructors. Open only to keyboard majors.

470 Introduction to Music Education U 4
Professional orientation for prospective school music teachers;
study of musical development, human relations, discipline,
evaluation, philosophy of teaching, and the music curriculum;
comprehensive field experience. Fosythe.
Au, Wi, Qtr. 2 cl. 2 2-hr labs. Prereq: Soph standing in music
educ and Psych 100. Not open to students with credit for 290.

501 Applied Music (Principal) U 1 or 2
Applied music instruction required in the BME curriculum to
develop musicianship, performance, and a wide reading
knowledge of music literature.
Au, Wi, Sp Qtr's (except 501.14). 1 1-hr lesson, studio classes
arr. Prereq: 491 and permission of applied area faculty. Open
to other qualified students within the limits of instructional
facilities by permission of the director of School of Music.
Repeatable to a maximum of 8 or hrs for each decimal
subdivision.

501.11 Piano
501.12 Organ
501.14 Harpsichord
501.21 Voice
501.31 Violin
501.32 Viola
501.33 Cello
501.34 Double Bass
501.35 Guitar
501.41 Flute
501.42 Oboe
501.43 Clarinet
501.44 Bass Clarinet
501.45 Saxophone
501.46 Bassoon
501.51 Horn
501.52 Trumpet
501.53 Trombone
501.54 Euphonium
501.55 Tuba
501.71 Percussion
501.91 Harp

502 Applied Music (Major)
Instruction required in BM curricula in performance to develop
professional qualities of musicianship, technique, and
knowledge of music literature; half credit required in junior
year.
Au, Wi, Sp Qtrs (except 502.14). 1 1-hr lesson, studio classes
and recital attendance arr. Prereq: 492 and written permission
of applied area faculty. Repeatable to a maximum of 16 or hrs
for each decimal subdivision.

502.11 Piano U 2 or 4
502.12 Organ U 2 or 4
502.14 Harpsichord
502.21 Voice U 3
502.31 Violin U 2 or 4
502.32 Viola U 2 or 4
502.33 Cello U 2 or 4
502.34 Double Bass U 2 or 4
502.41 Flute U 2 or 4
502.42 Oboe U 2 or 4
502.43 Clarinet U 2 or 4
502.44 Bass Clarinet U 2 or 4
502.45 Saxophone U 2 or 4
502.46 Bassoon U 2 or 4
502.51 Horn U 2 or 4
502.52 Trumpet U 2 or 4
502.53 Trombone U 2 or 4
502.54 Euphonium U 2 or 4
502.55 Tuba U 2 or 4
502.71 Percussion U 2 or 4
502.91 Harp U 2 or 4

510 Advanced Jazz Improvisation U 3
Advanced techniques of improvisation; the use of modal
devices, complex meters, and innovative forms; concern for
speed, endurance, energy levels, and problems of
unaccompanied performance.
Sp Qtr. 3 cl. Prereq: 211 or permission of instructor.
521 Form and Analysis U 3
Detailed study of the structural principles and forms of
homophonic music.
Su, Au, Sp Qtrs. 3 cl. Prereq: 423.

524 Instrumentation U 3
A fundamental course in scoring for the instruments of
the orchestra and band in transcriptions and arrangements.
Wk, Sp Qtrs. 3 cl. Prereq: 423.

531 Counterpoint U 3
A fundamental course in counterpoint including study of
the basic principles of 16th- and 18th-century polyphony.
Au Qtr. 3 cl. Prereq: 425.

534 Scoring for Studio Orchestra U 3
Scoring projects for the recording studio orchestra with
emphasis on string section utilization. Levey.
Sp Qtr. 3 cl. Prereq: 453.01.

535 Composition I U 3
A fundamental course in composition, with emphasis on
creative writing in the small forms.
Wk. Sp Qtrs. 3 cl. Prereq: 429.

536 Popular Song Composition U 3
Composition and analysis of popular and theatre song forms;
practice in writing scores and lyrics. Levey.
Wk Qtr. 3 cl. Prereq: 433.02.

541 19th-Century Russian Music U G 6
A survey of Russian music from Glazunov to Shostakovich
with emphasis on the social and cultural context.
Au Qtr. 4 cl. 1 hr arr. Prereq: 141 or permission of instructor.

542 20th-Century Russian Music U G 5
A survey of Russian and Soviet music from 1900 to the
present; composers to be considered include Stravinsky,
Prokofiev and Shostakovich.
Wk Qtr. 4 cl. 1 hr arr. Prereq: 141 or permission of instructor.

565 Marching Band Techniques U 5
A study of the modern marching band including laboratory
work in marching techniques, arranging techniques, and show
planning. Drost.
Sp Qtr. 3 1½ hr cl. Not open to freshmen. Open to nonmusic
majors with written permission of instructor.

566 Jazz Ensemble Techniques U 3
The organization and operation of the public school jazz
ensemble. Battenberg.
Wk Qtr. 3 cl. Prereq: Permission of instructor.

570 General Music in Elementary Schools: Basic
Teaching Practices U 3
A study of the role of the music teacher in planning musical
experiences for children with emphasis on child development
and appropriate teaching practices. Tolbert.
Wk, Sp Qtrs. 3 cl. 1 lab hr. Prereq: Enrollment in the College of
Education.

571 General Music in Elementary Schools: Music
Literature for Children U 3
Study and analysis of art, folk, ethnic, and popular music
literature suitable for children in elementary schools. Tolbert.
Au Qtr. 3 cl. 1 lab hr. Prereq: Enrollment in the College of
Education.

572 General Music in Secondary Schools: Middle
and Junior High School General Music U 3
The role of music in adolescents’ general education and the
development of competencies essential to teaching. Lehr and
Ramsay.
Au, Wk Qtrs. 3 cl. 1 lab hr. Prereq: Enrollment in the College of
Education.

574 Choral Music in the Schools: Basic Teaching
Practices U 3
Factors relating to organizing and teaching choral music in
elementary, middle, and junior high schools. Major.
Au Qtr. 2 cl. 2 lab hrs. Prereq: Enrollment in the College of
Education.

575 Choral Music in Senior High Schools U 3
Rehearsal procedures, choral techniques, materials, and
literature suited to various choral organizations of senior high
schools. Major.
Au Qtr. 2 cl. 2 lab hrs. Prereq: 574, and enrollment in the
College of Education.

576 Instrumental Music in Elementary Schools U 3
The role of instrumental music instruction in public education,
techniques of teaching instrumental music, study of music
appropriate to musical organizations in elementary schools.
Von Grueneng and Fosythe.
Au, Sp Qtrs. 3 cl. 1 1-hr lab. Prereq: 261.07, 262.03, 262.04,
262.05, 262.11, and enrollment in the College of Education.

577 Instrumental Music in Secondary Schools U 3
The role of instrumental music instruction in public education,
techniques of teaching instrumental music, study of music
appropriate to musical organizations in secondary schools.
Woods.
Au, Wk Qtrs. 3 cl. 1 1-hr lab. Prereq: 576 and enrollment in the
College of Education.

586 Student Teaching in Music in Elementary
Schools U 3-8
Assignment to area elementary schools for observation and
teaching experiences with groups of students and cooperating
teachers; students attend weekly seminars with University
supervisors.
Au, Wk Sp Qtrs. Repeatable to a maximum of 8 cr hrs.

587 Student Teaching in Music in Secondary
Schools U 3-8
Assignment to area secondary schools for observation and
teaching experiences with groups of students and cooperating
teachers; students attend weekly seminars with University
supervisors.
Au, Wk Sp Qtrs. Repeatable to a maximum of 8 cr hrs.

591 Survey of the Music Industry U 3
Economic aspects of music in America with reference to
recordings, films, TV, radio, music theater, booking,
management, publishing, and manufacturing. Levey.
Au Qtr. 3 cl. Prereq: Sr standing or permission of instructor.

601 Applied Music (Principal) U 1 or 2
Elective applied music instruction at the senior level for
students in the BME curriculum; continuation of study of
literature, technique, and musicianship.
Au, Wk Sp Qtrs. (except 601.14). 1 1-hr liaison, studio classes
arr. Prereq: 501 and permission of applied area faculty. Open
to other qualified students within the limits of instructional
facilities by permission of director of School of Music.
Repeatable to a maximum of 8 cr hrs for each decimal
subdivision.

601.11 Piano
601.13 Organ
601.14 Harpsichord
601.21 Voice
601.31 Violin
601.32 Viola
601.33 Cello
601.34 Double Bass
601.35 Guitar
601.41 Flute
601.42 Oboe
601.43 Clarinet
601.44 Bass Clarinet
601.45 Saxophone
601.46 Bassoon
601.51 Horn
601.62 Trumpet
601.53 Trombone
601.54 Euphonium
601.55 Tuba
601.71 Percussion
601.91 Harp

602 Applied Music (Major)
Applied music instruction required in BM curricula in performance to develop professional qualities of musicianship; full recital required in senior year.
Au, Wi, Sp Qtr. (except 602.14: 1 hr lesson, studio classes only) Prereq: 502 and written permission of applied area faculty. Repeatable to a maximum of 18 or hrs for each departmental subdivision.
602.11 Piano U 2 or 6
602.13 Organ U 3 or 6
602.14 Harpsichord
602.21 Voice U 2 or 4
602.31 Violin U 3 or 6
602.32 Viola U 3 or 6
602.33 Cello U 3 or 6
602.34 Double Bass U 3 or 6
602.41 Flute U 3 or 6
602.42 Oboe U 3 or 6
602.43 Clarinet U 3 or 6
602.44 Bass Clarinet U 3 or 6
602.45 Saxophone U 3 or 6
602.46 Bassoon U 3 or 6
602.51 Horn U 3 or 6
602.52 Trumpet U 3 or 6
602.53 Trombone U 3 or 6
602.54 Euphonium U 3 or 6
602.55 Tuba U 3 or 6
602.71 Percussion U 3 or 6
602.91 Harp U 3 or 6

609 Easy and Intermediate Piano Repertoire U G 2
Survey and performance of piano literature. Baroque through contemporary, suitable for teaching beginning and intermediate students.
Sp Qtr. 2 hr cl. Prereq: 501 or 501.11 or permission of instructor.

610 Alexander Technique U G 1
The relationship of kinesthetic perception and the postural reflexes to physical coordination in performance. Conable.
Au, Wi, Sp Qtr. 2 cl. Repeatable to a maximum of 3 or hrs. This course is graded S/U.

611 Introduction to Piano Pedagogy U G 3
A critical analysis of various methods and principles of piano instruction, and of literature for the beginning and intermediate performer. Lowder.
Au Qtr. 3 cl. Prereq: 501 or 501.11 or permission of instructor.

612 Piano Pedagogy: Group Instruction U G 3
Concepts of group piano instruction, techniques for development of keyboard musicianship, and knowledge of appropriate materials. Lowder.
Wi Qtr. 3 cl. Prereq: 501 or 501.11 or permission of instructor.

613 Piano Pedagogy: Practicum U G 3
To provide supervised experience in piano instruction and guidance in the development of sequences of instruction and in the treatment of specific teaching problems. Lowder.
Sp Qtr. 3 cl. Prereq: 611 or 612 or permission of instructor. Repeatable to a maximum of 6 or hrs.

615 Structure and Function of the Singing Mechanism U G 3
The structure and function of the singing and breathing mechanisms as they relate to developmental teaching of voice in the formative years. Swain.
Wi Qtr. 1 cl. Prereq: 611 or 621 or permission of instructor.

621 Analysis: The Classic Period U G 3
Comprehensive analysis of representative works from the Classic literature.
Wi Qtr. 3 cl. Prereq: 243 or 521 or permission of instructor.

622 Analysis: The Romantic Period U G 3
Comprehensive analysis of representative works from the Romantic literature.
Su, Wi Qtr. 3 cl. Prereq: 243 and 521 or permission of instructor.

623 Analysis: Post Romantic to Modern Music U G 3
Comprehensive analysis of representative works from the latter part of the 19th century to the middle of the 20th century.
Sp Qtr. 3 cl. Prereq: 243 and 521 or permission of instructor.

624* Band Scoring U G 3
Practice in scoring for concert band and wind ensembles, including the use of contemporary instrumental devices.
Au Qtr. 3 cl. Prereq: 524 or permission of instructor.

625* Orchestral Scoring U G 3
Practice in scoring for the symphony and chamber orchestras, including the use of contemporary instrumental devices.
Au Qtr. 3 cl. Prereq: 524 or permission of instructor.

631 Baroque Counterpoint I U G 3
Counterpoint based on the polyphonic style of the 18th century; analysis of representative works and practice in writing two- and three-part inventions.
Wi Qtr. 3 cl. Prereq: 531 or permission of instructor.

633 Gregorian Chant U G 3
A study of the historical background and characteristics of plain-song, including the technical aspects of notation, modes, rhythm, and ornament. Kuenelbusch.
Au Qtr. 3 cl.

634 Modal Counterpoint I U G 3
Counterpoint based on the vocal polyphonic style of the 18th century; analysis of representative works and practice in monophonic writing. Kuenelbusch.
Sp Qtr. 3 cl. Prereq: 531 or permission of instructor.

635 Composition II U G 3-5
Practice in creative writing; analysis; and evaluation; employment of contemporary methods of composition.
Su, Au, Wi, Sp Qtr. 3 cl. Prereq: 533 or permission of instructor. Repeatable to a maximum of 9 or hrs.

636 Introduction to Electronic Music Synthesis U G 3
Techniques of composition with electronic media; history; literature; and criticism; sound preparation; principles of audio engineering; relationships to other communication media. Wells
Au, Sp Qtr. 3 cl. Prereq: 423 and permission of instructor.
637 Composition with Electronic Media 1 U G 3-5
Individual composition projects; further study of sound synthesis techniques, including modification of natural sounds. Wells.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 535, real time electron acoustical modification or equiv and 636. Repeatable to a maximum of 9 or hrs.

6401 Music in the Middle Ages U G 3
The development of western music through the 14th century. Main.
Au Qtr. 3 cl. Prereq: 521 or 531, and 243.

6411 Music in the Renaissance U G 3
The development of musical styles from Dunstable through Palestrina and Lassus. Main.
Wi Qtr. 3 cl. Prereq: 521 or 531, and 243.

6421 Music in the Baroque Period U G 3
The development of musical styles from Monteverdi through Bach. Main.
Sp Qtrs. 3 cl. Prereq: 521 or 531, and 243.

6431 Music in the Classical Period U G 3
Vocal and instrumental music of the middle and late 18th century.
Au Qtr. 3 cl. Prereq: 521 or 531, and 243.

6441 Music in the Romantic Period U G 3
The music of the romantic period in Germany and France.
Su, Wi Qtr. 3 cl. Prereq: 521 or 531, and 243.

6451 Modern Music U G 3
Major trends in the development of music since 1900.
Su Qtr. 3 cl. Prereq: 521 or 531, and 243.

6461 History of Music in the United States U G 3
A survey of music in the United States from colonial times until the present. Livingston.
Su Qtrs. 3 cl. Prereq: Jr or sr standing.

647 Individual Composers: Their Lives and Works U G 3
A comprehensive study of the works of an individual composer; topic varies from year to year.
Wi, Su Qtr. 3 cl. Prereq: 521 or 531, and 243. Repeatable to a maximum of 6 or hrs.

6481 Chamber Music Literature U G 3
A survey of chamber music of the classic and romantic periods.
Au Qtr. 3 cl. Prereq: 521 or 531, and 243.

6491 Symphonic Literature U G 3
A survey of orchestral music from the classic period to the present.
Wi Qtr. 3 cl. Prereq: 521 or 531, and 243.

6501 Choral Literature U G 3
A survey of choral music from the Renaissance to the present.
Sp Qtr. 3 cl. Prereq: 521 or 531, and 243.

6511 Opera Literature U G 3
A survey of the antecedents of opera and a study of representative works from each of the major periods in the history of opera. Main.
Au Qtr. 3 cl. Prereq: 521 or 531, and 243.

652 Song Literature U G 3
The study of song literature, including historical and philosophical backgrounds selected to meet the needs of the student, artist, or teacher; program building.
Sp Qtr. 3 cl.

6531 Piano Literature U G 3
A study of the piano sonatas and other characteristic forms from the pre-piano period to the present time. Tietj-Kardos.
Sp Qtrs. 3 cl. Prereq: 521 or 531, and 243.

6541 Organ Literature U G 3
A comprehensive survey from the earliest compositions to the works of present-day composers.
Rn Qtr. 3 cl. Prereq: 521 or 531, and 243.

660 Advanced Conducting (Instrumental) U G 3
An attempt to develop the power to interpret the larger forms of instrumental literature and to read from full score. Haddock, Konzich.
Su (1st term), Wi, Sp Qtrs. 3 cl. Prereq: 262.11 and 521.

661 Advanced Conducting (Choral) U G 3
Development of power to interpret the larger forms of choral literature and to read from full score. Casey.
Su (1st term) Sp Qtrs. 3 cl. Prereq: 262.12 and 521.

662 Choral Repertoire U G 2
Reading and study of sacred and secular choral literature. Casey.
Su, Au Qtr. 1 cl. 1 2-hr lab. Repeatable to a maximum of 6 or hrs.

6701 Medieval, Renaissance, and Baroque Musical Instruments U G 3
A study of the early development of musical instruments and their uses; introduction to instrumental techniques and performance practices in these periods. Mass.
Sp Qtr. 3 cl.

680 Collegium Musicum U G 2
Study and performance of music from the medieval, Renaissance, and baroque periods. Mass.
Au, Wi, Sp Qtrs. 2 hr rehearsal, 1 cl (alternative wks.) Repeatable to a maximum of 12 or hrs.

681 Liturgies U G 3
Historic liturgies of the church as a background for the work of the church musician; contemporary movements in liturgical practice. Lowder.
Wi Qtr. 3 cl.

682 Hymnology U G 3
An historical survey of Christian hymnody; consideration of criteria for judging texts and tunes with regard to artistic quality and liturgical suitability. Lowder.
Au Qtr. 3 cl. Prereq: 423 or permission of instructor.

683 Techniques and Materials for Church Choirs U G 3
A study of anthem materials, chants and propers, with consideration of programming and performance. Major.
Sp Qtr. 3 cl.

684 Field Experience in Church Music U G 2
Supervised experience in the actual church situation. Lowder and Wilson.
Au, Wi, Sp Qtrs. Prereq: 560 and 683, or concuss 683. Repeatable to a maximum of 6 or hrs.

693 Individual Studies U G 1-5
Individual studies in specified problems in the field of music. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Supervised group studies of special problems in the field of music. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.
721* Fugue U G 3
Detailed study of the fugue; analysis and writing of three- and four-voice fugues.
Sp Qtr. 3 cr. Prereq: 631.

752 Performance Literature U G 3
Intensive study of representative literature for the instrument from each style period.
Su, Au, Wi. Au Qtr. 3 cr. Prereq: Admission to MM curriculum or permission of instructor. Repeatable to a maximum of 6 or 9 crs for each decimal subdivision.

721.01** Piano
Au, Wi Qtrs.
721.02** Voice
Au Qtr.
721.03** Strings
721.04** Woodwinds
Wi Qtr.
721.05** Brass
Wi Qtr.
721.07** Percussion

756 Improvisation with Orff Instruments U G 3 or 5
A study of the development of children’s musical concepts through improvisation experiences and the use of Orff instruments. Tolbert.
Su (2nd term), Sp Qtr. 1 cr. 2 1½-hr. labs. Prereq: 570 or equiv with written permission of instructor.

760 Basic Concepts in Music Education U G 3
The principles of music education and of the educational and cultural objectives derived from related disciplines which give direction and purpose to the music education program. Tolbert.
Su (1st term), Au Qtrs. 3 cr. Prereq: 586 or 587 or equiv.

761 Principles of Music Learning U G 3
Analysis of the learning process in music as related to problems of music instruction to the public school. Costanza.
Su (1st term), Sp Qtrs. 3 cr. Prereq: 586 or 587 or equiv.

764** Principles and Practices in Vocal Music Education U G 3
Analysis and appraisal of the organization, purpose, and development of the vocal music program in secondary schools. Major.
Su Qtr (1st term). 3 cr. Prereq: 571 or equiv.

764** Principles and Practices in Vocal Music Education U G 3
Analysis and appraisal of the organization, purpose, and development of the vocal music program in secondary schools. Major.
Su (1st term). 3 cr. Prereq: 571 or equiv.

765* Literature for Vocal Music Education U G 3
A study of vocal literature of various cultures and historic periods for use with choral groups in the secondary music program. Major.
Su Qtr (1st term). 3 cr. Prereq: 575 or equiv.

768** Teaching Practices in General Music U G 3
Study of current concepts in organizing and teaching general music in the secondary school. Ramsey.
Su Qtr (1st term). 3 cr. Prereq: 573 or equiv.
787* Teaching Music as a Related Art U G 3
Study and preparation for teaching music in a multiple arts or humanities context; emphasis on understandings, organization, and techniques essential for interdisciplinary instruction. Ramsey.
Su (1st term) Wi Qtrs. 3 cl. Prereq: Course work or background of study and knowledge of another art form.

788* Principles and Practices in Instrumental Music Education U G 3
Role of instrumental music in the public schools; relationship to society and the total music program, historical development, evaluation, and future trends. Von Gruenigen.
Su Qtr (1st term), 3 cl. Prereq: 577 or equiv.

7691* Literature for Instrumental Music Education U G 3
Relationship of teaching materials and performance repertoire to education objectives; selection of literature, interpretation, rehearsal procedures, conducting problems, attainment of musical understanding through literature. Von Gruenigen.
Su Qtr (1st term), 3 cl. Prereq: 577 or equiv.

770 Introduction to Research in Music Education U G 3
A study of methods of research as applied to problems in school music. Costanza and Meeker.
Su (1st term), Wi Qtrs. 3 cl. Prereq: 586 or 587 or equiv.

773 Introduction to Music for Exceptional Learners U G 3
Overview of issues, principles, practices, and research related to the music education of exceptional persons. Lehn.
Au Qtr. 1 1/2-hr cl. Prereq: Advanced undergrad standing; permission of instructor.

774 Directive Teaching in Music U G 3
Principles and practices of music classroom management; directive teaching emphasizing clarity of objectives, assessment, and systematic instructional procedures for skill and concept teaching. Forsythe.
Su, Wi Qtrs. 1 1/2-hr cl. Prereq: Advanced undergrad standing; permission of instructor.

775 Teaching Music for Exceptional Learners U G 3
An analysis and concentrated study of materials and practices appropriate to teaching music for exceptional learners. Lehn.
Sp Qtr. Prereq: Advanced undergrad standing; permission of instructor.

777 Practicum in Teaching Music for Handicapped Learners U G 4-10
Assignment to area schools and institutions for observation and music teaching experiences with groups of handicapped learners and cooperating teachers. Forsythe and Lehn.
Su, Au, Wi, Sp Qtrs. 5-15 hrs per wk in schools or institutions. Prereq: Advanced undergrad standing; permission of instructor. Repeatable to a maximum of 10 cr hrs.

778 Curriculum Development in Music Education U G 3
Problems, processes, and trends in music curriculum development; goals and objectives, organization of general music and performance instruction; emphasis on courses of study and evaluation. Su (1st Term) Qtr. 5 cl. Sp Qtr. 1 3/4-hr cl. Prereq: Sr standing in music education. Not open to students with credit for 578 or 664 taken Sn Qtr 1962.

780 Ensembles U G 1-2
Study and performance of literature determined by student's participation in a specific ensemble. Su, Au, Wi, Sp Qtrs. 3 or more hrs rehearsal each wk. Prereq: Admission by audition and permission of instructor. Repeatable to a maximum of 12 cr hrs.

780.01 Choral
Casey.

780.02 Orchestral
Haddock.

780.03 Band
Kitcheloff.

780.04 Chamber and Small Ensembles

780.05 Ensembles: Piano Accompanying Practicum

786 Introduction to Bibliographic Method U G 3
The collection, examination, and documentation of information about music, including general as well as music library materials. Mixter.
Su, Au Qtrs. 3 cl. Prereq: 521 or 531, and 243.

788 Studies in Russian Music U G 5
Selected problems in nineteenth and twentieth century Russian music.
Sp Qtr. 3 cl. Prereq: 541, 542, or permission of instructor. Au Qtrs majors 243, and 521 or 531. Repeatable to a maximum of 15 cr hrs.

790 Problems in Vocal Music Education U G 1-5
Study of problems encountered in the teaching and supervising of vocal music.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

791 Problems in Instrumental Music Education U G 1-5
Study of problems encountered in teaching, supervising, and organizing of the instrumental music program.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

792 Choral Problems U G 1-5
Study of the problems encountered in developing choruses and church choirs. Casey and Major.
Su (1st term), Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

801 Applied Music (Princial) G 1, 2 or 4
Advanced applied music study with emphasis on musicianship, pedagogical techniques, and literature.
1-hr lesson, studio classes arr. Prereq: Placement exam or permission of applied area faculty. Open to other qualified students within the limits of instructional facilities by permission of director of School of Music. Repeatable to a maximum of 10 cr hrs for each decimal subdivision.

801.11 Piano
Su, Au, Wi, Sp Qtrs.

801.13 Organ
Su (1st term), Au, Wi, Sp Qtrs.

801.14 Harpsichord

801.21 Voice
Su, Au, Wi, Sp Qtrs.

801.31 Violin
Su (1st term), Au, Wi, Sp Qtrs.

801.32 Viola
Su (1st term), Au, Wi, Sp Qtrs.

801.33 Cello
Su (1st term), Au, Wi, Sp Qtrs.

801.34 Double Bass
Su (1st term), Au, Wi, Sp Qtrs.

801.41 Flute
Su (1st term), Au, Wi, Sp Qtrs.

801.42 Oboe
Su (1st term), Au, Wi, Sp Qtrs.

801.43 Clarinet
Su (1st term), Au, Wi, Sp Qtrs.

801.44 Bass Clarinet
Su (1st term), Au, Wi, Sp Qtrs.

801.45 Saxophone
Su (1st term), Au, Wi, Sp Qtrs.

801.46 Bassoon
Su (1st term), Au, Wi, Sp Qtrs.
801.51 Horn
Su (1st term), Au, Wi, Sp Qtrs.

801.52 Trumpet
Su (1st term), Au, Wi, Sp Qtrs.

801.53 Trombone
Su (1st term), Au, Wi, Sp Qtrs.

801.54 Euphonium
Su (1st term), Au, Wi, Sp Qtrs.

801.55 Tuba
Su (1st term), Au, Wi, Sp Qtrs.

801.71 Percussion
Au, Wi, Sp Qtrs.

802 Applied Music (Major) G 2 or 4
A specialized and intensive study of literature and techniques of performance.
1 hr lesson, studio classes arr. Prereq: Placement exam. Repeatable to a maximum of 16 or hrs for each decimal subdivision.

802.11 Piano
Su, Au, Wi, Sp Qtrs.

802.12 Organ
Su (1st term), Au, Wi, Sp Qtrs.

802.14 Harpsichord
Su, Au, Wi, Sp Qtrs.

802.21 Voice
Su, Au, Wi, Sp Qtrs.

802.31 Violin
Su (1st term), Au, Wi, Sp Qtrs.

802.33 Viola
Su (1st term), Au, Wi, Sp Qtrs.

802.33 Cello
Su (1st term), Au, Wi, Sp Qtrs.

802.34 Double Bass
Su (1st term), Au, Wi, Sp Qtrs.

802.41 Flute
Su (1st term), Au, Wi, Sp Qtrs.

802.42 Oboe
Su (1st term), Au, Wi, Sp Qtrs.

802.43 Clarinet
Su (1st term), Au, Wi, Sp Qtrs.

802.44 Bass Clarinet
Su (1st term), Au, Wi, Sp Qtrs.

802.46 Bassoon
Su (1st term), Au, Wi, Sp Qtrs.

802.51 Horn
Su (1st term), Au, Wi, Sp Qtrs.

802.52 Trumpet
Su (1st term), Au, Wi, Sp Qtrs.

802.53 Trombone
Su (1st term), Au, Wi, Sp Qtrs.

802.54 Euphonium
Su (1st term), Au, Wi, Sp Qtrs.

802.55 Tuba
Su (1st term), Au, Wi, Sp Qtrs.

802.71 Percussion
Au, Wi, Sp Qtrs.

803 Conducting G 4
A specialized and intense study of conducting techniques.
Su, Au, Wi, Sp Qtrs. 3 cl, 1 hr lab. Prereq: Placement exam. Open only to conducting majors in the MM curriculum. Repeatable to a maximum of 12 or hrs for each decimal subdivision.

803.01 Choral
Casey

803.02 Orchestral
Hadcock

803.03 Band
Kinchhoff

810 Music Pedagogy G 3
A critical analysis of various methods, principles, practices and materials current in teaching applied music.

810.111* Piano
A critical analysis of various methods and principles of piano instruction, and of literature for beginning and intermediate performers. Lowder.
Su (1st term) Qtr. 5 cl. Prereq: 611 or equiv and admission to MM or MA programs in piano.

810.21 Vocal
An analysis of the principles and practices current in the teaching of voice. Swank.
Wi Qtr. 5 cl. Prereq: Music grad standing and minimum of 6 or hrs of applied study in voice.

810.22 Vocal Practicum
Observation of applied voice instruction, participation in and discussion of voice teaching, development of teaching skills and fluency of communications. Swank.
Sp Qtr. 2 hrs arr. Prereq: 615. Repeatable to a maximum of 8 or hrs.

810.301* String Instrument
An analysis of the principles and practices current in the teaching of strings. Gillespie.
Su (1st term) Qtr. 5 cl. Prereq: Music grad standing and minimum of 6 or hrs of applied study in string instruments.

810.404* Woodwind Instrument
An analysis of the principles and practices current in the teaching of woodwinds. Baker.
Su (1st term) Qtr. 5 cl. Prereq: Music grad standing and minimum of 6 or hrs of applied study in woodwind instruments.

810.505* Brass Instrument
An analysis of the principles and practices current in the teaching of brass instruments. Burkhart.
Su (1st term) Qtr. 5 cl. Prereq: Music grad standing and minimum of 6 or hrs of applied study in brass instruments.

810.70 Percussion Instruments
An analysis of principles and practices in the teaching of percussion instruments. Moore.
Su, Sp Qtrs. 3 cl. Prereq: Music grad standing and a minimum of 6 or hrs of applied study in percussion instruments, or permission of instructor.

820 Theory Pedagogy G 3
The teaching of music theory in colleges and secondary schools.
Su, Wi, Qtrs. 3 cl. Prereq: Music grad standing. Not open to students with credit for 711.

821 Seminar in Analysis: The Classic Period G 5
Critical investigation and application of analytical methods appropriate to works from the Classic period.
Au Qtr. 3 cl. Prereq: 621 or permission of instructor.

822 Seminar in Analysis: The Romantic Period G 5
Critical investigation and application of analytical methods appropriate to selected works from the Romantic period.
Wi Qtr. 3 cl. Prereq: 622 or permission of instructor.

823 Seminar in Analysis: Post-Romantic to Modern Music G 5
Critical investigation and application of analytical methods appropriate to selected works from the latter part of the 19th century to the present.
Sp Qtr. 3 cl. Prereq: 623 or permission of instructor.

824 Computer Applications G 3
The use of computers for research in music, including style analysis, thematic indexing, manuscript collating and information retrieval. Blombach.
Au Qtr. 3 cl. Prereq: 621, 622, or 623, or equiv and written permission of instructor. Not open to students with credit for 720.
825 Advanced Computer Applications in Music
Research G 3
The use of advanced computer programming techniques for
research in music. Blombach.
Wi, Sp Qtrs. 2 cl. Prereq: 824 or equiv with written permission of
instructor. Repeatable to a maximum of 6 cr hrs.

826 Development of Music Theory I G 5
A study of the principal treatises on music theory before 1400.
Green.
Au Qtr. 3 cl.

827 Development of Music Theory II G 5
A study of the principal treatises on music theory from 1400 to
1700. Green.
Wi Qtr. 3 cl.

828 Development of Music Theory III G 5
Critical study of music and theory texts from 1700 to 1900.
Green.
Sp Qtr. 3 cl.

829 Contemporary Theories of Music G 5
Major theoretical viewpoints in contemporary music;
fundamental concepts of theory construction and critical
examination of contemporary theories.
Sp Qtr. 3 cl. Prereq: Music grad standing.

831* Baroque Counterpoint II G 3
Advanced counterpoint based on the polyphonic style of the
18th-century; analysis and stylistic writing, including study of
canons and invertible counterpoint.
Sp Qtr. 3 cl. Prereq: 631.

833* Contemporary Contrapuntal Techniques G 3
Contrapuntal techniques in the works of 20th-century
composers; analysis of representative works and practice in
composition.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

834 Modal Counterpoint II G 3
Advanced counterpoint based on the vocal polyphonic style of
the 16th century. Kuehelfuh.
Wi Qtr. 3 cl. Prereq: 634.

835 Composition III G 3-5
Creative writing at an advanced level.
Su, Au, Wi, Sp Qtrs. Prereq: 2 qtr of 635 or equiv.
Repeatable to a maximum of 20 cr hrs.

837 Composition with Electronic Media II G 3-5
Advanced composition using electronically generated sound
material. Wells.
Su, Wi, Sp Qtrs. 15 cl. Prereq: 837. Repeatable to a maximum
of 15 or hrs.

850 Seminar in Music Perception G 3
Investigation and application of experimental techniques for
measuring music perception and musical behavior, including a
critical survey of recent experimental literature. Bueti.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

841* Studies in Medieval Music G 5
Problems and research in music before 1400.
Au Qtr. 3-5 cl.

842* Studies in Renaissance Music G 5
Problems and research in music between 1400 and 1600.
Wi Qtr. 3-5 cl.

843* Studies in Baroque Music G 5
Problems and research in music between 1600 and 1750.
Sp Qtr. 3-5 cl.

844* Studies in Classic Music G 5
Problems and research in music of the late 18th century.
Livingston.
Au Qtr. 3-5 cl.

845* Studies in Romantic Music G 5
Problems and research in music of the 19th century. Main.
Wi Qtr. 3-5 cl.

846* Studies in Modern Music G 5
Problems and research in music of the 20th century.
Sp Qtr. 3-5 cl.

847 Development of Notation: 900-1600 G 4
A survey of notational principles from Gregorian neumes
through the mensural system of the Renaissance, with
exercises in transcription. Livingston.
Wi Qtr. 3 cl. Prereq or concour: 640.

848 Advanced Studies in Notation G 5
An intensive investigation of the problematic aspects of pre-
mensural and mensural notation.
Sp Qtr. 3 cl. Prereq: 847.

850* History of Performance Practices G 5
A study of primary sources pertaining to contemporary
attitudes and practices in the performance of music from the
Middle Ages to the present. Mixter.
Sp Qtr. 3 cl.

851* Musical Sources and Historiography G 5
A study of music historiography, supplemented by the
examination of musical documents from each of the periods of
music history. Mixter.
Sp Qtr. 3 cl. Prereq: 786.

852 Performance Literature G 3
Concentrated study of representative literature from each style
period.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 752 and admission to DMA
program. Repeatable to a maximum of 9 or hrs.

852.01 Piano
Au, Wi, Sp Qtrs.

852.02 Voice

852.03 Strings

852.04 Woodwinds

852.06 Organ

872 Administration in Music Education G 3
Seminar. Meeker.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

873 Seminar: Comparative Music Education G 3 or 5
An analysis and comparison of music education programs in
other countries including the study of curriculum, teaching
procedures, and programs of teacher preparation. Tolbert.
Su (1st term) Qtr. 3 or 5 cl. Prereq: Written permission of
instructor.

874 Seminar: The Development of Music
Education G 3 or 5
The development of music education from the early Greek
society to the present day tracing major trends and the
influence of certain persons. Lehr.
Su (1st term) Qtr. 3 or 5 cl. Prereq: Written permission of
instructor.

875 Seminar: Psychological Factors in Music
Education G 3 or 5
A study of the psychological factors, theory, and research in
the musical development of children and adolescents with
implications for school music education programs. Costanza.
Au Qtr. 3 or 5 cl. Prereq: 781.

876 Seminar: Evaluation and Measurement
in Music Education G 3 or 5
A study of the theory, principles, and techniques of evaluation
and measurement in music education. Costanza.
Sp Qtr. 3 or 5 cl. Prereq: 781 and Psych 510.
National Security Policy Studies

1712 Neil Avenue, 422-8701, Mershon Center for Education in National Security

200 National Security Policy and Policymaking U G 1-5
Survey and policies affecting the security of the United States and of the process by which such policies are formulated, executed, and appraised.
Au, Wi, Sp Qtrs. H200 [honors] may be available to students enrolled in an honors program or by permission of dept.

693 Individual Studies in National Security Policy U G 1-5
A special national security topic is assigned to each student for reading and a report.
Au, Wi, Sp Qtrs.

Experience of War Interpreted in Classic Examples of Literature
See Comp St 308—The Western experience of battle, as seen through the eyes of individual combatants, interpreted in classic examples of the literature of war.
3 cl. 1 hr. lab. Offered in cooperation with National Security Policy Studies.

702 Introduction to National Security U G 5
Examination of various topics in the field of national security; survey of literature in field; identification of major problem areas.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs including credit in History 702. Cross-listed in History. Cross-referenced in Political Science.

Natural Resources

210 Kottman Hall, 2022 Coffey Road, 422-2265

100† Natural Resources Survey U 1
Academic requirements; University procedures, grading system, resources, student rights and responsibilities, overview of natural resources academic areas of study and services.
Au, Wi, Sp Qtrs. 2 1-hr cl. Prereq: Enrollment in the School of Natural Resources. Not open to students with credit for UVC 100. This course is graded S/U.

101 Environmental Issues: Conflicts in Contemporary Society U 3
Consideration and analysis of current environmental issues and problems requiring educated citizen participation in the decision-making process.
Sp Qtrs. 2 cl. 1 hr arr. SS Admis Cond course.

103† Forests and their Resources U 3
The student must secure approval of advisor prior to employment and submit a final written report by fourth week of first quarter of school following the work.
Au, Wi, Sp Qtrs. 5 equivalent of 10 wks employment. Prereq: Permission of major advisor. Repeatable to a maximum of 6 or hrs. This course is graded S/U.

188 Work Experience in Natural Resources U 3
An examination of important trees and forest ecosystems and how they are managed to provide the wide range of products and benefits demanded by contemporary society.
Sp Qtrs. 3 cl. SS Admis Cond course.

201 Introduction to Conservation of Natural Resources U 4
Nature and scope of environmental problems; technical and socio-economic aspects of the solution of such problems.
Au, Sp Qtrs. 3 cl. 1 hr arr. SS Admis Cond course.

877 Seminar: Social Factors in Music Education G 3 or 5
A study of the social influences on music education and their relationship to school music programs and practices. Lehr.
Su (1st term), Wi Qtrs. 3 or 5 cl. Prereq: 780.

879 Seminar: Music in Higher Education G 3 or 5
The role of music in higher education historically and in contemporary times, including its philosophical bases, degree programs, and organizations. Meeker.
Au Qtrs. 5 or 5 cl.

Medieval and Renaissance Culture
See Medieval 888.

Medieval and Renaissance Literature
See Medieval 889.

893 Individual Studies G 1-5
Individual research projects not connected with the dissertation.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894 Group Studies G 3-5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.
894.01 Seminar in Music Theory
894.02 Seminar in Music Education
Costanza and Forsythe.

899 Interdepartmental Seminar G 1-5
See Interdepartmental Seminars.
Au, Wi, Sp Qtrs.

902 Applied Music (Major) G 2 or 4
Advanced study of music literature in performance including concert recital presentation.
Su, Au, Wi, Sp Qtrs. 1 1-hr lesson, studio classes arr. Prereq: Placement exam. Open only to students admitted to DMA program. Repeatable to a maximum of 15 or hrs in each academic subdivision.

902.11 Piano
902.13 Organ
902.21 Voice
902.31 Violin
902.32 Viola
902.33 Cello
902.41 Flute
902.42 Oboe
902.43 Clarinet
902.44 Bass Clarinet
902.45 Saxophone
902.46 Bassoon
902.51 Horn
902.52 Trumpet
902.53 Trombone
902.54 Euphonium
902.55 Tuba

995 Advanced Research Practicum G 1-5
Utilization of research processes and creative techniques appropriate to the field of inquiry—analysis, survey, experimentation, historiography, philosophy.
Su, Au, Wi, Sp Qtrs. Prereq: 45 grad cr hrs and permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

998 Research in Music: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Music: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
202 Conservation Agencies U 3
History and responsibilities of governmental agencies and some private organizations for natural resources management; representatives of conservation agencies present programs and problems. Shepard.
Wi Qtr. 3 cl. Prereq. 201.

204 Outdoor Recreation in the USA U 3
Outdoor recreation in America involving wilderness, national parks, and other public and private recreation areas and its impact on the public. Andrews.
Au Qtr. 3 cl. Not to be used toward specialization requirements for park and recreation majors.

220 Man and Wildlife in a Changing World U 3
An introduction to wildlife as a natural resource—its nature and importance and the impact and consequences of human activities upon wildlife and upon man. Stockdale.
Wi Qtr. 3 cl. Elective credit only for fisheries and wildlife majors.

289 Natural Resources Practicum U 2
Experience in the application of principles and techniques of environmental/natural resources problem solving.
Su, Au, Sp Qtrs. Arr. Prereq. Written permission of division chairman or designee. Each division subdivision repeatable to a maximum of 8 cr hrs. These courses are graded S/U.

289.01 Environmental Education
289.02 Fisheries and Wildlife Management
289.03 Forestry
289.04 Parks and Recreation Administration
289.05 Natural Resources Department

310 Interpretation/Environmental Education For Special Populations U 5
Field experience in planning and implementing natural resources interpretation/environmental education programs for special populations. Bowman.
Sp Qtr. 2-3 hr cl. Prereq. 201.

340 Concepts of Parks and Recreation U 3
Examination of parks and recreation concepts including development, rationale, and frameworks for parks and recreation systems in the United States. Douglass.
Wi, Sp Qtrs. 3 cl.

341 Microcomputer Applications in Parks and Recreation Management U 4
Introduction, discussion, and use of existing microcomputer software programs relating to parks and recreation management. Christensen.
Au Qtr. 2 cl. 6 hrs arr. Prereq. 340 or permission of instructor.

400 Natural Resources Problems and Policies U 4
Historical and conceptual approach to understanding contemporary renewable resources problems and policies in the U.S. Difficulties in formulating and implementing multiple-purpose policies. Vertrees.
Wi, Sp Qtrs. 4 cl. Prereq. 201 or Geog 530, and Econ 200 or equiv. Not open to students with credit for 600.

410 Introduction to Environmental Communications U 3
Fundamentals of communications theory as related to environmental information transmission; surveys various media and methods of reaching the decision-making public on environmental issues. Forman.
Au Qtr. 2 21/2 hr cl.

411 Introduction to Environmental Education U 3
Survey of various local and national programs and methods for implementing environmental education into curricular and other programmatic areas. Shepard.
Wi Qtr. 2 1/2 hr cl. Prereq. 201 or permission of instructor.

421 Introduction to Wildlife Management
Development of basic principles and practices of wild animal and habitat management for persons with a career interest in natural resources management. Townsend.
Wi Qtr. 3 cl. Prereq. 15 or hrs in biological science. Not open to students with credit for 621.

421.01 Lecture U 3
421.02 Laboratory U 1
Prereq or concur: 421.01.

610 Natural History of Ohio U G 5
Field course emphasizing inter-relationship among physical and biological factors in various ecological settings; field techniques and identification skills used for research paper; teacher section offered. Bowman and Shepard.
Su, Au Qtr. 2 2 1/2 hr cl and Sat field trips.

511 Environmental Interpretation Methods U G 5
The concept of the interpreter, basic interpretive principles, visitor characteristics, and the range of interpretive services. Mullins.
Au, Sp Qtrs. 5 cl. Prereq. 15 or hrs of content base in the student's major specialization.

515 Interpretive Planning and Center Design U G 5
Practice in interpretive master planning/center design; case studies of public/private interpretive sites/facilities; considerations include visitor services, visitorship, integration with natural environment. Mullins.
Au Qtr. 2 6 hr cl. Prereq. 511 or equiv with permission of instructor.

516 Interpretive Exhibit Preparation U G 5
Wi Qtr. 2 2 hr cl, 1-2 hr lab. Prereq. 511 or equiv with permission of instructor. Safety glasses must be worn in lab.

517 Interpretive Field Studies U 2-5
A short-course, inter-session course, or study tour which will involve travel to regional or national interpretive facilities. In-depth analysis of each facility.
Su Qtr. 2-5 hrs cl. Prereq. 515 or 516 or equiv with permission of instructor. Repeatable to a maximum of 10 cr hrs.

518 Interpretive Programming U G 5
Case studies of public and private interpretive programs; practice in program presentation and comprehensive program planning. Mullins.
Sp Qtr. 2 2 1/2 hr cl. Prereq. 511 or equiv with permission of instructor.

Natural Resources Economics
See Agr Econ 531. Offered in cooperation with Agricultural Economics.

540 Principles of Park and Recreation Management U G 5
Structure and behavior of outdoor recreation land management concepts for public programs at state, regional and national levels of government. Andrew.
Au, Sp Qtrs. 5 cl. Prereq. 201, or equiv with permission of instructor.

541 Recreation Resources Program Planning U G 5
Analysis of recreation resources, users, and suppliers in establishing goals, objectives, and actions for recreation programs; scheduling and program budgeting for recreation opportunities.
Wi Qtr. 3 cl, 1 3 hr cl and 1 2-day field trip. Prereq. 540.

HS90 Honors Colloquium U 2
Instruction in the preparation of research proposals and discussion of current research in natural resources.
Wi Qtr. 1 2 hr cl. Prereq: Jr standing in NRE honors program. Required of all NRE honors students. This course is graded S/U.
Economics of Environmental Quality
See Econ 591. Offered in concert with Economics.

598 Parks and Recreation Administration Study Tour U 2-5
Analysis and comparative studies of various park and recreation management programs and policies through on-site visits and interaction with professional managers. Au, Sp Qtr. Arr. Prereq: 541 and jr standing with permission of instructor. Repeatable to a maximum of 10 or hrs. Travel and subsistence costs will be borne by the student.

601 Interactions in Natural Resources Management U G 4
Impact of man's activity on natural resources; interrelationships between resources and physical and social environment and prospects for effective resources management. Diseng. Sp Qtr. 2-3 hr. Prereq: 400 or 600 or grad standing with written permission of instructor.

602 Watershed Resource Evaluation U G 5
In-depth field study and evaluation of natural resource parameters and management interactions within a small watershed. Diseng. Su Qtr. 10 day field study between quarters; post-study meetings and group report. Prereq: 601, Geol 204 or Ag M&Sys 570; or equiv with permission of instructor.

612 Environmental Education in the Park Setting U G 3
Use of public park facilities and services in accomplishing environmental education objectives; offered in cooperation with public park agencies. Bowman. Sp Qtr. 1-3 hr.

613 Methods for Conservation Education U G 3
Experience centered course for conservation/natural resources education including objectives, administrative procedures, and evaluative procedures appropriate to formal and informal settings. Roth. Sp Qtr. Prereq: 201; and Foresty 223 or equiv; or sr standing. Not open to students with credit for Ed-ScbMa 613. Cross-listed in Education: Science and Mathematics.

614 Marine and Aquatic Education U G 3
Overview of oceanic and Great Lakes resources, their roles in history, climate, commerce, and culture; examination of teaching materials for formal and informal settings. Su, Wi Qtrs. 1-3 hr. field trips. Prereq: 20 or hrs of social, physical, and/or biological sciences or teacher certification, and permission of instructor. Not open to students with credit for Ed-ScbMa 614. Cross-listed in Education: Science and Mathematics. Travel and subsistence costs for field trips must be borne by students.

615 Skills for Environmental Communications U G 5
Skills development and practice in communicating natural resources/environmental information through written and broadcast media. Porter. Wi Qtr. 2-3 hr. Prereq: 201 or equiv.

620 Management of Fisheries U G 5
Fisheries resources management programs and programs including biological, economic, and social factors of local, national, and international importance. Johnson. Wi Qtr. 5 cl. Prereq: Zoology 313 or equiv.

621 Advanced Wildlife Management U G 5
Detailed examination of current knowledge and theory relating to the effective practice of wildlife management. Townsend. Sp Qtr. 2-3 hr. 1-4 hr. lab, several weekend field trips. Prereq: 421, sr standing in wildlife mgmt, or grad standing with permission of instructor.

628 Field Techniques in Fisheries Management U G 5
Methods of sampling, evaluation and managing freshwater fish populations; techniques are compared and related problems discussed; actual field experience. Johnson. Au Qtr. 3 cl. 4-5 hr. lab 4 overnight field trips. Prereq: 620; Ichth Ed 122 or Arc CPR or concur.

633 Silviculture II U G 4
A detailed examination of selected silvicultural techniques and of silvicultural systems for selected forest types found in the United States. Heiglmann. Sp Qtr. 2 cl. 1-3 hr. lab, 2 all-day field trips. Prereq: Forestry 321 and written permission of instructor.

635 Forest Resource Policy and Management U G 5
A study of forest resource management as a manipulation of forest ecosystems related to socio-economic systems; use of analytic concepts and systems analysis. Sp Qtr. 5 cl. Prereq: 525 or equiv with written permission of instructor.

642 Urban Parks and Recreation Management U G 3
Organization and administration of metropolitan, county, and municipal areas; land acquisition and planning of these facilities. Christensen. Wi, Sp Qtrs. 3 cl. Prereq: 541.

643 Outdoor Recreation and Tourism by the Private Sector U G 4
Factors influencing supply and demand for outdoor recreation and tourism facilities provided by the private sector; the feasibility study: liability, insurance, and other managerial concerns. Vertrees. Au Qtr. 4 cl. Prereq: 540 and Econ 200 or equiv.

644 Park Design U G 5
Interrelationship of facility design and recreation land management, including various types of parks and criteria for their location and design. Heywood. Au, Sp Qtrs. 3 cl. 2 2½-hr lab. Prereq: 541.

647 Wilderness Policy and Management U G 4
Detailed study of policy processes, planning procedures, designation mechanisms, utilization issues, and management programs for wilderness resources. Andrews. Sp Qtr. 4 cl. Prereq: 421 and 540 or 600 or 540 or equiv with permission of instructor.

648 Recreation Law Enforcement U G 4
Examination of recreation law enforcement environmental, social, and institutional settings; crimes, offenses; ranger roles, duties; and crime prevention programs, administration of recreation law enforcement programs. Wi Qtr. 4 cl. Prereq: 201 and 540 or 400 or 600 or 621.

650 Water Resources Institutions and Policies U G 5
Review and advanced analysis of Ohio, interstate, and federal institutions and policies which influence the use and management of water resources. Vertrees. Sp Qtr. 2-3 hr. 1-1 hr. cl. Prereq or concur: 400 or 600 and 501 or permission of instructor.

684 Internships in Natural Resources Professions U G 6
Internship employment for a minimum of three months in natural resources professions arranged with cooperating natural resources or environmental agencies, organizations, or industries. Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of division chairman. Repeatable to a maximum of 12 or hrs. These courses are graded S/U.

694 Environmental Education U G 2
Identification of environmental problems and management alternatives with emphasis on related education and communications techniques; survey of related research; development of applied educational and communications strategies. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 4 or hrs. This course is graded S/U.

694.01 Environmental Education
694.02 Fisheries and Wildlife
694.03 Forestry
694.04 Parks and Recreation Administration
694.05 Resource Development

691 Workshop in Environmental Management Education U G 1-2
692 Workshop in Environmental Education U G 3
Problems of instruction in environmental education with consideration of both traditional approaches and current developments in content and methodology.
Su, Au, Wi, Sp Qtr. 1-3 hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs.

693 Individual Studies in Natural Resources U G 2-5
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. These courses are graded S/U.

693.01 Environmental Education
693.02 Fisheries and Wildlife
693.03 Forestry
693.04 Parks and Recreation
693.05 Resource Development
693.06 Unclassified

694 Group Studies U G 2-5
Group studies on the nature and management of natural resources encompassed in one of the following areas:
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs for each subdivision.

694.01 Environmental Education
694.02 Fisheries and Wildlife
694.03 Forestry
694.04 Parks and Recreation
694.05 Resource Development

700 Natural Resources Policy Analysis U G 5
Frameworks of planning and analyzing contemporary natural resources policies. Instructor and student critiques of legislation, forecasts, plans, and policy analyses. Vertees
Au Qtr. 2.5-3 hr cl. Prereq: 400 or 600 with permission of instructor or grad standing.

730* Forest Tree Growth and Development U G 3
Current physiological and genetic topics that contribute to the improvement of forest tree growth and development. Houston, Kriebel, and Whitmore.
Sp Qtr. 1 cl, 2 hrs arr. Prereq: 788 or Genetics 650 or equiv, Botany 630 and 631, and Genetics 500.

731* Ecological Relationships of Forest Stands U G 3
Ecological and physiological aspects of the forest-soil-site complex as it relates to forest tree establishment and growth. Brown, McClanahan, Larson, and Vinnerstedt.
Sp Qtr. 1 cl, 2 hrs arr. Prereq: 788 or Genetics 650 or equiv, Agronomy 240, Botany 436 or 620, 631; and Forestry 223.

735F* Forest Resource Systems Management U G 4
A study of the management of forest resources based on a general systems approach.
Sp Qtr. 5 cl. Prereq: Forestry 525 or permission of instructor.

745 Recreation Land Site Analysis — Computer Techniques U G 3
Comparative analysis of data systems used to evaluate natural resources data for recreation or other land uses. Christensen.
Wi Qtr. 2.5 hr cl. Prereq: Sr standing with 15 hrs of natural physical sciences, Math 116 or equiv, and Nat Res 540 or equiv with permission of instructor.

785 Research Methods in Natural Resources Management U G 4
Research design, experimental procedures, information-gathering tools, including reporting units for resource-related data, statistical methods, and procedures for analysis of data. Cole.
Au Qtr. 2 hr cl. Prereq: Math 117, 130, or 150; an introductory course in statistics.

786 Applications of Experimental Design and Data Analysis to the Measurement of Natural Resources U G 5
Measures of data bases for natural resources; the theory and techniques of sampling-inventory, experimental design and data analysis. Kasile.
Wi Qtr. 5 cl. Prereq: One course in Statistics.

795 Parks and Recreation Research Seminar II G 2
Presentation, evaluation and discussion of current parks and recreation research and research needs. Christensen.
Wi Qtr. 1-2 hr cl. Prereq: Grad standing or honors students in parks and recreation administration. Repeatable to a maximum of 4 cr hrs.

797 Interdepartmental Seminar U G 1-5
See Interdepartmental Seminars.
Su, Au, Wi, Sp Qtrs. Offered in cooperation with Civil Engineering.

810 Case Studies and Evaluation of Environmental Communication G 3
Case studies in effectiveness of environmental communication and practice in evaluation of various communication techniques associated with a current environmental issue. Portner.
Sp Qtr. 1 3-hr cl. Prereq: Journal 202 and Nat Res 410 or equiv with permission of instructor.

811* Program Development in Environmental Education G 3
Development of environmental education programs with respect to the situations of participants; existing programs are studied as models to aid in development of unique programs. Roth.
Su (1st term). Au Qtrs. 1 3-hr cl. Prereq: 692 or equiv and permission of instructor.

819 Interpretive Research and Theory G 5
Analysis of the theoretical basis for interpretive technique; review of current research in environmental interpretation and exposure to models for evaluation of interpretive services. Mullens.
Wi Qtr. 2.5-3 hr cl. Prereq: 511 or equiv with permission of instructor; introductory statistics course; research methods course.

840 Policies Relating to Governmental Recreation Areas G 3
Organizational policies and structures relating to federal, state, and local governmental agencies. Douglass.
Au Qtr. 3 cl. Prereq: 540, and 642 or 643, or 644, or equiv with permission of instructor.

897 Seminar in Natural Resources G 1
A seminar in natural resources given by the School of Natural Resources; required of all grad students in natural resources. Gatherum.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Naval Science

110 Converse Hall, 2121 Tuttie Park Place, 422-6015

The sequence of naval science courses is the same for all officer candidate students for the first two academic years. Officer candidate students accepted into the Marine Corps Option will have curriculum variations with their third year. Additionally, some candidates may be required to complete courses in American Military Affairs, National Security Policy, mathematics, and/or the physical sciences. Discussions or the course requirements for each candidate classification (scholarship/college programs) may be obtained from the Naval Science Department office.

Naval science courses are open to a limited number of civilian students with permission of the Professor of Naval Science. Initial enrollment in the NROTC Program may be completed by scheduling Naval Science 154 during fall quarter registration. Completion of Naval Science and degree requirements may lead to a commission in the U.S. Navy or the U.S. Marine Corps.

Normal sequence of Naval Science courses is as follows:

First Year: All candidates—154, 155, 156.
Second Year: All candidates—261, 262, 265.
Third Year: Navy candidates—321, 323, 322.
Marine candidates—351, 352, 353.
Fourth Year: Navy candidates 455, 476, 477.
Marine Candidates—451, 452, 453.

154 Survey of Naval Science U 3
An introduction to and survey of disciplines peculiar to naval science including a discussion of naval tasks and missions, regulations, customs, traditions, and organizational relationships.
Au Qtr. 3 cl, 1 2-hr lab. Prereq: Enrollment in NROTC Unit or permission of instructor.

155 Naval Ship Systems U 3
Study of ship design, compartmentation, stability, buoyancy, and damage control.
Wi Qtr. 3 hrs, inc., 1 2-hr lab. Prereq: 154 or written permission of instructor.

155 Naval Ship Systems Engineering U 3
Study of conventional ship propulsion systems, auxiliary power systems, nuclear power, and new innovations in ship propulsion.
Sp Qtr. 3 hrs lecture, 1 2-hr lab. Prereq: 155 or written permission of instructor.

261 Naval Weapons Systems I U 3
Investigation of concept and technique of weapons systems, linear analysis of ballistics, and the dynamics of the basic components of weapons control systems.
Au Qtr. 3 cl, 1 2-hr lab. Prereq: 156 or permission of instructor.

262 Naval Weapons Systems II U 3
Further development of the basic principles of naval weapons.
Wi Qtr. 3 cl, 1 2-hr lab. Prereq: 251 or permission of instructor.

265 Seapower and Maritime Affairs I U 3
An analysis of seapower and maritime affairs as related to the naval forces of the United States.
Sp Qtr. 3 cl, 1 2-hr lab. Prereq: 262 or permission of instructor.

321 Introduction to Navigation U 3
A study of marine navigation, including the determination of position by dead reckoning and electronic methods, and the rules of the nautical road.
Au Qtr. 3 cl, 1 2-hr lab. Prereq: 265 or permission of instructor.

322 Celestial Navigation U 3
The determination of position by celestial methods of navigation.
Wi Qtr. 3 cl, 1 2-hr lab. Prereq: 321 or permission of instructor.

323 Naval Operations U 3
A study of fleet operations, including tactics, the naval communications system and the principles of relative motion.
Sp Qtr. 3 cl, 1 2-hr lab. Prereq: 322.

351 Evolution of the Art of War, Part I U 3
A study of the evolution of weapons and tactics, illustrating the principles and variables of war used in certain battles from Alexander through the Prussian influence.
Au Qtr. 3 cl, 1 2-hr lab. Prereq: 265 or completion of summer camp.

352 Evolution of the Art of War, Part II U 3
A continuation of the study of evolution of the art of war from the age of Mahan through contemporary problems and military possibilities.
Wi Qtr. 3 cl, 1 2-hr lab. Prereq: 351.

353 Modern Basic Military Strategy and Tactics U 1
A survey of modern strategic and tactical principles, and current military developments.
Sp Qtr. 1 2-hr sem. Prereq: 352.

451 Amphibious Warfare, Part I U 3
The history of amphibious warfare and its development from the battle of Marathon through the Marllas Campaign.
Au Qtr. 3 cl, 1 2-hr lab.

452 Amphibious Warfare, Part II U 3
A study of the doctrinal techniques and present concepts of amphibious warfare from the Marllas Campaign through contemporary evolutions.
Wi Qtr. 3 cl, 1 2-hr lab.

453 Leadership and the Uniform Code of Military Justice U 1
Survey of the UCMJ and a study of the psychology of human relationships and techniques of leadership as applied by Marines.
Sp Qtr. 1 2-hr sem.

465 Principles of Naval Organization and Administration U 2
Introduction to the structure and principles of naval organization and management.
Au Qtr. 2 cl, 1 2-hr lab. Prereq: 393.

476 Naval Leadership U 2
A seminar study of management, leadership and human relations problems and decisions which confront the junior Naval officer in today's fleet.
Wi Qtr. 2 cl, 1 2-hr lab.

477 Naval Leadership U 2
A continuation of 476 with emphasis on problem-solving techniques and solutions.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq: 476.
Nuclear Engineering

1133 Robinson Laboratory, 206 West 18th Avenue, 422-8519

294 Group Studies in Nuclear Engineering U 1-5
Special group studies of a selected area of nuclear engineering not provided in other courses.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 cr. hrs.

505 Introduction to Nuclear Science and Engineering U G 3
Discussion of nuclear energy and nuclear radiation; sources, methods of utilization, and projections for future engineering uses. Butler.
Su, Wi, Sp Qtrs. 3 cr. Prereq: Math 255 and Physics 133, or permission of instructor.

606 Radiological Safety U G 3
General principles of radiation, radiotoxicity, and protection methodology with emphasis on approved operating, handling, and waste disposal procedures, also regulations and biological effects. Carr.
Au Qtr. 2 cr, 1.2-hr lab.

Corrosion
See Metal En 635.

636 Nuclear Power Plants U G 3
A study of thermal and mechanical design aspects and economics of nuclear power plants and processes. Christiansen.
Su, Wi Qtrs. 3 cr. Prereq: 505 and Mech En 501 or 502 with permission of instructor. Not open to students with credit for Mech En 636. Cross listed in Mechanical Engineering.

637 Heat Transfer Applications in Nuclear Reactor Systems U G 3
The heat transfer applications in nuclear reactor systems include but are not limited to: heat transfer in PWR and BWR fuel rods, coolant, and reactor internals. Christiansen.
Sp Qtr. 3 cr. Prereq: 636 or Mech En 636, and Mech Eng 510 or 511 with permission of instructor. Not open to students with credit for Mech En 637. Cross listed in Mechanical Engineering.

660 Introduction to Nuclear Reactor Theory U G 5
Introduction to the concepts of radioactive decay, cross-sections, the multiplication constant and neutron flux and to slowing-down theory, diffusion theory, Fermi age, reactor kinetics, and reactor shielding. Bailey.
Au Qtr. 5 cr. Prereq: 525 or equiv, Math 255 or equiv with permission of instructor.

694 Group Studies in Nuclear Engineering U G 1-5
Special group studies of a selected area of nuclear engineering not provided in other courses.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 cr. hrs.

716 Nuclear Plant Safety U G 3
Modeling theory developed and applied to nuclear systems to facilitate analysis of possible nuclear accidents; nuclear incidents, accident description criteria for evaluation, nuclear plant safety and operational procedures. Sp Qtr. 3 cr. Prereq: 660.

720 Reactor Dynamics and Control U G 3
Nuclear reactor and nuclear reactor system operation; control system performance requirements and control mechanisms; automatic control systems and their performance with transient and with steady state operation. Wi Qtr. 3 cr. Prereq: 660.

743 Nuclear Radiations and their Measurements U G 5
A theoretical and experimental study of nuclear radiation sources, interactions with matter, detection, and shielding. Wi Qtr. 3 cr, 1.4-hr lab. Prereq: 606 and 680.

744 Nuclear Reactor Laboratory U G 3
An experimental study of nuclear reactor operating characteristics and fundamental concepts of reactor design. Miller.
Sp Qtr. 1 cr, 1 4-hr lab. Prereq: 660 and 743.

747 Nuclear Instrumentation U G 4
A study of radiation detectors, measuring instruments, block diagrams and circuits, system dynamics, and applications to research, nuclear reactors, and measurement systems. Miller.
Au Qtr. 3 cr, 1.3-hr lab. Prereq: Elec Eng 520. Repeatable to a maximum of 8 cr. hrs.

765 Analysis of Neutron Chain Reactions U G 3
The neutron distributions in infinite and finite mediums are analyzed with particular emphasis placed upon asymptotic solutions, space dependent slowing down theory, multigroup slowing down theory, and transport theory. Alder.
Wi Qtr. 3 cr. Prereq: 660 and Math 512 or equiv with permission of instructor.

766 Nuclear Engineering Design U G 3
Practice in the analysis and design of nuclear systems and the use of nuclear engineering principles.
Sp Qtr. 1 cr, 2.2-hr lab. Prereq: 660 and 743.

757 Numerical Methods in Nuclear Engineering U G 3
Wi Qtr. 3 cr. Prereq: 765, Math 512 and En Graph 200 or equiv.

770 Plasma and Controlled Fusion U G 3
The Thermonuclear problem: approaches to a stable and sufficiently hot plasma; nuclear reactions, plasma kinetics, diagnostic devices, and engineering problems in research, development, and power production. Sw Qtr. 3 cr. Prereq: 660.

776 Nuclear Fuel Cycles U G 3
A study of the production, utilization, waste disposal, safeguards, and economic aspects of nuclear fuel cycles of importance in nuclear power technology. Christiansen.
Au Qtr. 3 cr. Prereq: 505 and 636.

793 Individual Studies in Nuclear Engineering U G 1-10
Arranges for a high grade student, not otherwise eligible for courses, the opportunity to study special nuclear subject matter under the guidance of an instructor. Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr. hrs. This course is graded S/U.

880 Advanced Topics U G 3
An advanced course of study for special topics in nuclear engineering. Topics will be announced each quarter. Su, Au, Wi, Sp Qtrs. 3 cr. Prereq: Permission of instructor. Each subdivision repeatable to a maximum of 12 cr. hrs.

880.01 Reactor Physics
880.02 Reactor Kinetics
880.03 Reactor Design
880.04 Fuel Management
880.05 Radiation Effects
880.06 Radiation Transport and Shielding
880.08 Nuclear Instrumentation

880.20 Special Topics

881 Nuclear Engineering Seminar U G 1
Current topics in nuclear engineering. Bailey.
Au, Wi, Sp Qtrs. 1 cr. Prereq: Grad standing in nuclear engineering. Repeatable to a maximum of 4 cr. hrs.
Nurse Anesthesia

School of Allied Medical Professions

435 School of Allied Medical Professions Building, 1583 Perry Street, 422-0577

300 Dimensions of Anesthesia U P 2
Introduction to the profession of nurse anesthesia emphasizing medical and legal responsibilities of the practitioner.
Au Qtr. 2 cl. Preq: Enrollment in the School of Allied Medical Professions or College of Nursing.

320 Principles of Anesthesia Practice U P 5
Basic introduction to the principles and techniques for the use of anesthesia and related equipment, IV therapy, airway management, and other related procedures.
Au Qtr. 2 2-hr cl, 1 2-hr lab. Preq: Enrollment in Nurse Anesthesia Division.

330 Introduction to Anesthetic Agents U P 5
An introductory course in the pharmacology and use of inhalation anesthetic agents, local anesthetic agents, muscle relaxants, and other adjuvant drugs.
Wi Qtr. 2 2-hr cl. Preq: Enrollment in School of Allied Medical Professions, or the Colleges of Dentistry, Medicine, Nursing, Optometry, or Veterinary Medicine.

340 Applied Science in Anesthesia U P 3
An overview of chemistry and physics related to the administration of anesthesia.
Wi Qtr. 3 cl. Preq: Chem 102 or equiv.

350 Overview of Pulmonary Function and Mechanical Ventilation U P 2
Selection of mechanical ventilators based on determinations of pulmonary function.
Wi Qtr. 2 cl. Preq: 320.

421 Applied Anesthesia: Phase I U P 5
An in-depth study of anesthetic selection and management for patients undergoing general surgery and orthopedic surgery; anesthetic management of the geriatric patient.
Wi Qtr. 2 2-hr cl, 1 2-hr lab. Preq: 320.

422 Applied Anesthesia: Phase II U P 4
An in-depth study of anesthetic selection and management for patients undergoing pediatric and obstetrical surgery; study of selected obstetrical procedures.
Sp Qtr. 3 cl, 1 2-hr cl. Preq: 421.

423 Applied Anesthesia: Phase III U P 4
An in-depth study of anesthetic selection and management for patients undergoing gynecological and genitourinary surgery.
Sp Qtr. 3 cl, 1 2-hr lab. Preq: 422.

431 Anesthesia Practicum I U P 6
Supervised clinical education and experience in the administration of anesthesia in the operating room.

432 Anesthesia Practicum II U P 6
Supervised clinical education and experience in the administration of anesthesia in the operating room; stresses care of the patient presenting problems in anesthetic management.

433 Anesthesia Practicum III U P 10
Supervised clinical education and experience in the administration of anesthesia in the operating room; stresses care of the patient requiring advanced monitoring techniques.

520 Applied Anesthesia: Phase IV U P 4
An in-depth study of anesthetic selection and management for patients undergoing vascular and cardiothoracic surgery, emergency surgery, neurosurgery, and head and neck surgery.
Su Qtr, 2 2-hr cl. Preq: 421, 422, 423, and enrollment in Nurse Anesthesia Division.

531 Anesthesia Practicum IV U P 10
Supervised clinical education and experience with emphasis on more difficult anesthetic procedures and patients with more complex disease processes.

532 Anesthesia Practicum V U P 10
Supervised clinical education and experience with emphasis on more difficult anesthetic procedures and patients with more complex disease processes; stresses post-operative care.

533 Anesthesia Practicum VI U P 10
Supervised clinical education and experience with emphasis on more difficult anesthetic procedures and patients with more complex disease processes; stresses total anesthetic management.

595 Anesthesia Seminar U P 2
Conferences, group discussion; presentations on current issues.
Su, Au, Wi, Sp Qtrs. 1 cl. Preq: Enrollment in School of Allied Medical Professions, or the Colleges of Dentistry, Medicine, Nursing, Optometry, or Veterinary Medicine. Repeatable to a maximum of 8 or hrs.

Nursing

120 Newton Hall, 1585 Neil Avenue, 423-5371

303 Basic Concepts and Skills in Patient Care U 2-3
A study of selected concepts and skills in patient care used by health professionals.
Au Qtr. 2 cl, 2-hr lab. Preq: Enrolled in a dental hygiene or allied medical profession clinical course. Not open to students in nursing.

Open only to students registered in the College of Nursing

305 Introduction to Theory and Nursing Process U 5
Study of nature of theory; nursing process; experiences in observation, data collection in health and illness focus in nursing.
Au Qtr. 3 cl, 2 3-hr labs. Preq: 1st yr standing in nursing.

306 Introduction to Theory and Nursing Process U 5
Continuation of 305.
Wi, Sp Qtrs. 3 cl, 2 3-hr labs. Preq: 305.
307 Introduction to Theory and Nursing Process U 5
Continuation of 305.
Wi, Sp Qtrs. 3 cr. 2.25 hr. labs. Prereq: 305 and Communic 110.

315 Process of Human Adaptation U 3
Study of man's adaptive processes as they relate to the individual maturing in a family within a society.
Au Qtr. 3 cr. Prereq: Sophomore standing.

316 Process of Human Adaptation U 3
Continuation of 315.
Wi Qtr. 3 cr. Prereq: 315 or permission of instructor.

317 Process of Human Adaptation U 3
Continuation of 315 and 316.
Sp Qtr. 3 cr. Prereq: 316 or permission of instructor.

425 Nursing Process with Clients Experiencing Alterations in Health States I U 8
Study of nursing process with individuals of varying ages who are experiencing health alterations with resultant problems of communication and mobility.

426 Nursing Process with Clients Experiencing Alterations in Health States II U 8
Study of nursing process with individuals of varying ages who are experiencing health alterations with resultant problems of ventilation, ingestion, and elimination.
Au, Wi, Sp Qtrs. 4 cr. 12 clinical hrs. Prereq: 307, 317; Anatomy 206; Physiology 312.

427 Nursing Process with Clients Experiencing Alterations in Health States III U 8
Study of nursing process with individuals coping with the stressors of childbearing and with health alterations.

505 Nursing Transactions with Patients and Families in Crisis U 8
Study and implementation of nursing transactions with patients experiencing acute episodic illness, psychological and physiological stress.
Au, Wi, Sp Qtrs. 4 cr. 16 hr. lab. Prereq: Humn Ntr 310, Microbiol 509, Pharmacy 470 and all jr level nursing courses.

506 Nursing Transactions with Patients and Families in Recurring Crises U 8
Study and implementation of nursing transactions with patients and families experiencing long term illness with the goal of reaching the individual's maximum potential.
Au, Wi, Sp Qtrs. 6 cr. 8 hr. lab. Prereq: Humn Ntr 310, Microbiol 509, Pharmacy 470 and all jr level nursing courses.

507 Nursing Process with Groups of Patients U 8
Study and application of methodologies of organizing and delivering health care to groups of patients in complex health care systems.
Au, Wi, Sp Qtrs. 4 cr. 16 hrs. lab. Prereq: Humn Ntr 310, Microbiol 509, Pharmacy 470 and all jr level nursing courses.

560 History, Trends, and Issues in Nursing U 4
Consideration of social, economic, and cultural forces influencing nursing education in the United States, 1870 to present with emphasis on 1920 to present; responsibilities and opportunities of the profession.
Au, Wi Qtrs. 4 cr. Prereq: Humm Ntr 310, Microbiol 509, Pharmacy 470 and all jr level nursing courses.

593 Individual Studies U 1-8
Study of selected problems in nursing.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr. hrs. This course is graded S/U.

694 Group Studies in Nursing U G 2-5
Group studies of special problems in nursing; topics vary for quarters.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr nursing or grad student. Repeatable to a maximum of 15 cr. hrs.

700 Interprofessional Education U G 3
Focus on ethical issues, changing professional/consumer rights, and interprofessional cooperation.
3 cr. Repeatable to a maximum of 6 cr. hrs. Limited to students in allied medical professions, education, law, nursing, medicine, social work, and theology (Columbus campuses).

700.01 Interprofessional Care
Treatment of the whole person through the analysis of the interrelated problems of actual patients/clients.
Wi Qtr.

700.02 Changing Societal Values
Identification and clarification of value considerations as they relate to professional problems in dealing with consumer/clients/patients.
Au Qtr.

700.03 Ethical Issues
Ethical issues of concern to the professions and arising out of the advanced technology: euthanasia, mind control, malpractice, social responsibility of the profession.
Sp Qtr.

700.04 Interprofessional Education: Interprofessional Practicum in Clinical Settings
Wi, Sp Qtrs. Arr. Prereq: Permission of instructor.

753 Assessing the Performance Settings U 3 5
Interprofessional team work in of Nurses U G 3
Focus on strategies and modes of implementation of assessment of performance of nurses in clinical and non-clinical settings.
Sp Qtr. 2 cr. 1 hr. arr. Prereq: Sr standing, or grad standing in.

793 Individual Studies in Nursing U G 1-5
Reading, conferences, and minor investigation by an individual student who wishes to study a particular nursing problem intensively.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr. hrs. This course is graded S/U.

797 Interdepartmental Seminars U G 1-5
See Interdepartmental Seminars.
Au, Wi, Sp Qtrs. Repeatable by permission of School Secretary.

801 Concept and Theory Development G 3-6
Study of concept development and theories and their usefulness for nursing as a practice discipline.
Su, Au, Wi, Sp Qtrs. 3 cr. Repeatable to a maximum of 6 cr. hrs.

802 Research in Nursing G 3
Research in nursing and its role in developing nursing; application in nursing of various methodologies and techniques and particular problems of design are considered.
Su, Au, Wi Qtrs. 1-3 cr. or up to 4 1/2 hr. lab. Prereq: Course in basic statistical methods.

802.01 Non-Experimental Designs
Application in nursing of non-experimental approaches of research, pertinent data collection techniques and tools, problems most frequently encountered in designing and conducting non-experimental studies.
Su, Wi Qtrs. 2 cr. 2 1/2 hr. lab. Prereq or conc. Course in basic statistical methods.

802.02 Inquiry in Nursing
Components of fulfilling man's urge to explain including the scientific method and the ways of testing really appropriate in the discipline of nursing.
Su, Au Qtrs. 2 cr. 1 hr. arr. Prereq or conc. Statistic course and/or concurrent 801.
Nursing of Individuals

803.01 Advanced Theoretical Perspectives in the Study of Health States G 3 or 4
Evaluation of theories and research of health states from a psychosocial-cultural and physiological perspective; development of a multifactoral framework for health assessment of the individual.
Au Qtr. 3 cl, 3 hr lab (optional)

803.02 Advanced Concepts in the Measurement of Health Status Variables G 3 or 4
Identification of psychosocial-cultural and physiological variables affecting the health status of the individual; analysis of health assessment data through a systems approach.
Wi Qtr. 3 cl, 3 hr lab (optional), Prereq: 803.01 and permission of instructor.

803.03 Analysis of Advanced Measurements G 3-6
Analysis and synthesis of variables that impact on the health status of the individual; application of data analysis in a preceptorship and seminar experience.
Sp Qtr. 3 cl; 3 hr lab, 2 hr sem (optional), Prereq: 803.01 and permission of instructor.

Nursing of Groups G 3
Study of common core of knowledge in nursing with respect to the interpersonal systems inherent in health care institutions; applications to human process.
Su, Wi Qtrs. 3 cl; Prereq: Permission of instructor.

Nursing Within Larger Social Systems G 3
Study of the common core of knowledge in nursing with respect to social systems as might be applied in health care systems.
Sp Qtr. 3 cl; Prereq: Permission of instructor.

Nursing Practice Problems G 2-10
Studies of nursing care problems pertaining to a variety of client groups; may register for more than one section concurrently.
Su, Au, Wi, Sp Qtrs. 2 cl, lab arr, Prereq: Permission of instructor and current Ohio license; concur 801. Each decimal subdivision repeatable to 10 cr hrs.

806.01 Family Health Care
Study of the family and the role of the nurse with healthy families.
Prereq: Permission of instructor.

806.02 Children
Application of theoretical, conceptual, and affective components needed to conduct inquiry and to practice nursing with children (newborn to six years) and their families.
Prereq: Permission of instructor.

806.03 Schoolagers and Adolescents
Application of theoretical, conceptual, and affective components needed to conduct inquiry and to practice nursing with children (school age and adolescent) and their families.
Prereq: Permission of instructor.

806.04 Young and Middle Adults
Study of health problems of adults.
Prereq: Permission of instructor.

806.05 Late Adults
Study of health problems of the aged.
Prereq: Permission of instructor.

806.06 Acute Health Crises
Studies of crisis and crisis intervention with respect to the individual, group, and family organization with special emphasis on loss.
Prereq: Permission of instructor.

806.07 Chronic Health Problems
Studies of chronicity, disability, impairment, and rehabilitation in long-term problems.
Prereq: Permission of instructor.

Community Health Problems
Studies of community, community health problems, and nursing role in identifying and studying these problems.
Prereq or concur: 805 or permission of instructor.

Theoretical Bases for Leadership Roles in Nursing I G 3
A study of theoretical bases for administrative, teaching, and practice roles in nursing.
Su, Au, Sp Qtrs. 3 cl hrs, Prereq or concur: 801.

Theoretical Bases for Leadership Roles in Nursing II G 3
A study of concepts basic to administrative, teaching, and practice roles in nursing.
Su, Wi Qtrs. 3 cl hrs, Prereq or concur: 801.

Practicum in Nursing G 2-10
Supervised experiences which permit in-depth study of the roles and relationships in administration, practice, or teaching of nursing.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.

Administration
Study of administrative position with opportunity to test theoretical knowledge in a health care system.
Su, Au Qtrs. 2 hr sem; field work.

Primary Care Practitioner
Supervised experiential component which permits in-depth study of the roles and relationships in the primary care area of practice.
Su, Au Qtrs. 2 2-hr cl, lab.

Acute Care Practitioner
Supervised experiential component which permits in-depth study of the roles and relationships in the acute care area of practice.
Su, Au Qtrs. 2 2-hr cl, lab.

Long-Term Care Practitioner
Supervised experiential component which permits in-depth study of the roles and relationships in the long-term care area of practice.
Su, Au Qtrs. 2 2-hr cl, lab.

Teaching in a Baccalaureate Program in Nursing
Supervised experiential component of preparation to teach nursing in a baccalaureate program.
Su, Au, Sp Qtrs. 3 sem; field work.

Teaching in an Associate Degree Program in Nursing
A supervised experiential component of preparation to teach in a community college nursing program.
Su, Au, Sp Qtrs. 3 sem; field work.

Seminar G 2-5
Discussion of issues, trends, and problems in nursing; topics to be announced.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 30 or hrs.

Group Studies in Nursing G 2-5
Reading and group conferences for graduate students who desire to study a particular trend in nursing or nursing education.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 5 or hrs.

Research in Nursing G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Obstetrics and Gynecology

The faculty of the Department of Obstetrics and Gynecology is responsible for the instruction in the pathophysiology of the reproductive system as part of Med II in the medical curriculum. This instruction is offered under the course number Med Coll 650. The department also offers clinical instruction in obstetrics and gynecology during Med III and IV. The clinical clerkship is designated Med Coll 664. Additional clinical electives are offered in perinatology, reproductive endocrinology and oncology after the required two months Med III and IV clinical rotation. Research electives are available at any time in the curriculum of medical education.

999 Research in Obstetrics and Gynecology G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Occupational Therapy

School of Allied Medical Professions

406 School of Allied Medical Professions Building, 1583 Pery Street, 422-5624

315 An Introduction to the Field of Occupational Therapy U 3
A description and examination of the history, organization, and issues of the profession of occupational therapy.
Au Qtr. 1-3 hr cl. Prereq: Enrollment in School of Allied Medical Professions, Occupational Therapy Division.

435 The Analysis of Human Motion Relative to Occupational Therapy Practice U 4
A study of nerve-muscle-tissue structures as these relate to observing, counting, and measuring overt bodily movement.
Powl.
Sp Qtr. 3-1 hr cl. 1-2 hr lab. Prereq: 540, Anatomy 201, and enrollment in Occupational Therapy Division.

450 Practice of Occupational Therapy in Hospital Settings U 5
The development of observational skills through analysis of health care teams in a hospital setting.
Wi Qtr 2-1 hr cl, 6 clin hrs. Prereq: 315.

451 Directed Practicums U 4
Systematic observation, assessment, and development of treatment plans for selected chronic emotional and physical problems. Page and Nyström.
Au, Sp Qtrs. 1 cl. 6 clin hrs. Prereq: 435, 450, 451, and 452; concur: 561 or 563. Repeatable to a maximum of 10 or hrs.

452 Interpersonal Dynamics and Task Oriented Groups in Occupational Therapy U 3
Identification, examination, and demonstration of factors that facilitate or hinder small primary group functioning in occupational therapy. Page.
Sp Qtr. 1-2 hr cl, 1-2 hr lab. Prereq: Enrollment in Occupational Therapy Division.

522 Studies in Psychopathology U 2
A description of selected psychopathologic disorders, symptoms of behavior, psychiatric treatment procedures and their implications for the practice of occupational therapy.
Wi Qtr. 1 cl, 2 hr lab. Prereq: 3 or hrs of Psych 330, 331, 332, 203, or 540; or permission of instructor.

540 Alternative Theoretical Constructs of Occupational Therapy Practice U 3
An examination of alternative theoretical constructs that characterize occupational therapy practice. Grant.
Au Qtr. 1-3 hr cl. Concur: 315.

541 Occupational Behavior Construct in the Practice of Occupational Therapy U 3
Conversion of selected theoretical propositions in occupational behavior for assessment, planning, and implementing occupational therapy. Nyström.
Wi Qtr. 2 1/2-hr cl. Prereq: 315, 450, and 540.

545 Activity Analysis and Media U 2
Activity analysis in relationship to self-care, work, play.
Adams.
Wi Qtr. 2 2-hr labs. Prereq: 315 and 540.

546 Applied Media: Dysfunction, Equipment, and Graded Activity U 2
Grading activity and adapting selected activities that have an impact on performance in patients with selected dysfunctions. Adams.
Au Qtr. 2 2-hr labs. Prereq: 435 and 545.

550 Neurodevelopmental Constructs in the Practice of Occupational Therapy U 3
An examination of the neurodevelopmental constructs and their application to the practice of occupational therapy.
Powl.
Au Qtr. 2 1 1/2-hr cl. Prereq: 435, Med 425, Anatomy 201, and enrollment in Occupational Therapy Division.

595 Seminar U 1-3
Conferences, group discussions, presentations of selected topics.
Su, Au, Wi, Sp Qtrs. 1-3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs.

651 Occupational Therapy in Mental Health U 5
The application of the neurodevelopmental constructs and their application to the practice of occupational therapy in the treatment of patients with chronic emotional problems. Page.
Au Qtr. 2 2-hr cl, 1-2 hr lab. Prereq: 315, 450, 522, and 540.

662 Application of the Neurodevelopmental Constructs U 4
Analysis of case studies deviations that require application of neurodevelopmental assessment techniques to develop treatment plans. Powl.
Sp Qtr. 3 cl. 1-2 hr lab. Prereq: 435, 450, 545, 546, and 560.

663 Physical Dysfunction and the Practice of Occupational Therapy U 3
The application of assessment techniques to patients with selected physical dysfunction problems for the development of treatment plans. Nyström.
Wi Qtr. 2 2-hr cl, 1-2 hr lab. Prereq: 435, 450, 540, and 546.

664 Advanced Therapeutic Intervention U 3
Principles and methods of evaluation, treatment and prevention for advanced clinical students.
Au, Wi, Sp Qtrs. 3 cl. Prereq: 560, 661, 662, 663 or equiv with written permission of instructor. Repeatable to a maximum of 6 or hrs; subdivisions not repeatable.

664.01 Psycho-Social Intervention
664.02 Sensory Integration Techniques
664.03 Rehabilitation Technique

670 Introduction to Alternative Research Methodologies Used in Occupational Therapy Practice U 3
Historical, theoretical, and descriptive research methodologies applied to the practice of occupational therapy. Grant.
Wi, Sp Qtrs. 2 2 1/2-hr cl. Prereq: 540, 661, and elementary statistics.

675 Developing Plans for Initiating Occupational Therapy Services U 3
Developing and evaluating plans for introducing occupational therapy practice in selected clinical facilities requiring specialized services. Nyström.
Wi, Sp Qtrs. 2 1 1/2-hr cl. Prereq: 2nd yr standing in Occupational Therapy Division.
685 Field Work in Occupational Therapy
A practical experience in application of the principles and functions of occupational therapy in selected hospitals, health care facilities, and community agencies. Prerequisites: 18 credit hours in Allied Health Professions. Field work shall be coordinated by the division director. Repeatable to a maximum of 18 cr. hrs.

685.01 Mental Health U 6
685.02 Physical Dysfunction U 6
685.03 Specialty Area U 2, 4, 6
1, 2 or 3 months, arr. with instructor. Repeatable to a maximum of 6 cr. hrs.

694 Group Studies U G 1-5
Supervised group study of special topics pertinent to the practice of occupational therapy. Prerequisites: Open only to students enrolled in Occupational Therapy Division. Repeatable to a maximum of 15 cr. hrs.

Ophthalmology

5024-B University Hospitals Clinic, 456 Clinic Drive, 421-8159

999 Research in Ophthalmology G Arr
Research for thesis purposes only. Prerequisites: Open only to students enrolled in Ophthalmology Division. Repeatable to a maximum of 15 cr. hrs.

Optometry

A 420 Starling-Loving, 338 West 10th Avenue, 422-2647

401 Survey of Optometry P 1
A survey of optometry and optometric education; scope of optometric services; sources of visual information; kinds of current visual research. Prerequisite: Optometry 1st yr standing.

411 Intermediate Geometric Optics P 3
Study of the principles of geometric optics; application to the design of spectacle systems. Introduction to the instruments used in geometric optics. Prerequisite: Optometry 1st yr standing and Phys Opt 501.

431 Ophthalmic Optics I P 5
Basic principles of ophthalmic optics; design and construction of spectacle lenses. Prerequisite: Optometry 2nd yr standing and 411.

432 Ophthalmic Optics II P 5
Further principles of ophthalmic optics; design and construction of contact lenses. Prerequisite: Optometry 3rd yr standing and 431.

433 Ophthalmic Optics III P 4
Theoretical background of ophthalmic optics; design and construction of contact lenses; laboratory exercises in testing, evaluating, and manufacturing contact lenses. Prerequisite: Optometry 3rd yr standing and 432.

441 Practical Optometry I P 4
Theoretical and practical aspects of ophthalmic optometry; objective and subjective tests of refraction, accommodation, and functions of the extra-ocular muscles. Prerequisite: Optometry 2nd yr standing, Physics 112, and Math 150.

442 Practical Optometry II P 4
Theoretical and practical aspects of ophthalmic optometry; objective and subjective tests of refraction, accommodation, and functions of the extra-ocular muscles. Prerequisite: Optometry 2nd yr standing, Physics 112, and Math 150.

443 Practical Optometry III P 4
Theoretical and practical aspects of ophthalmic optometry; objective and subjective tests of refraction, accommodation, and functions of the extra-ocular muscles. Prerequisite: Optometry 2nd yr standing, Physics 112, and Math 150.

641 Clinical Practice in Optometry I P 5
Clinical practice in examining eyes and carrying out corrective procedures; the conference periods are devoted to the discussion of problems encountered during the clinic period. Prerequisite: Optometry 3rd yr standing and 443.

642 Clinical Practice in Optometry II P 5
Continuation of 641. Prerequisite: Optometry 3rd yr standing and 443.

643 Clinical Practice in Optometry III P 5
Continuation of 642. Prerequisite: Optometry 3rd yr standing and 443.

651 Orthoptics P 4
Prerequisites: Ophthalmic Pathology P 5
A survey of orthoptics; principles of orthoptics; diagnostic techniques; and management of orthoptic problems. Prerequisite: Optometry 3rd yr standing and 443.

652 Aniseikonia and Low Vision P 4
A survey of aniseikonia and low vision; the causes and treatment of low vision; the design of optical aids for such conditions; environmental aids and agencies available to the visually handicapped. Prerequisite: Optometry 3rd yr standing and 443.

653 Contact Lenses I P 4
A survey of contact lenses; theory and methods of fitting; specifications and verifications; post-fitting care; contact lens solutions. Prerequisite: Optometry 3rd yr standing and 443.

654 Contact Lenses II P 4
A survey of contact lenses; theory and methods of fitting; specifications and verifications; post-fitting care; contact lens solutions. Prerequisite: Optometry 3rd yr standing and 443.

660 Ophthalmic Pathology P 5
A survey of the gross and microscopic pathology of the eye, including diseases of the conjunctiva, iris, and other parts of the eye. Prerequisite: Optometry 3rd yr standing and 443.

701 Applied Pathology of the Eye I P 4
A survey of the gross and microscopic pathology of the eye, including diseases of the conjunctiva, iris, and other parts of the eye. Prerequisite: Optometry 3rd yr standing and 443.

702 Applied Pathology of the Eye II P 4
A survey of the gross and microscopic pathology of the eye, including diseases of the conjunctiva, iris, and other parts of the eye. Prerequisite: Optometry 3rd yr standing and 443.
703 Applied Pathology of the Eye III  P 4
Visual fields; scotometry; subnormal central vision involving pathology; telescopic lenses and aids for subnormal vision; theory and practice in the use of contact lenses.
Au Qtr. 3 cl. 1 hr lab. Prereq: 702.

721 Optometric Economics and Jurisprudence  P 3
Historical background; legal status; practice building techniques; office accounting and general practice management; representative organizations in optometry; professional ethics.
Wi Qtr. 3 cl. Prereq: 543.

722 Civic and National Problems in Eye Care  P 3
Number, distribution, supply, interrelationships, and roles of the various ophthalmic groups; prevalence of visual anomalies; governmental and public-health aspects of vision care.
Wi Qtr. 3 cl. Prereq: 721.

741 Advanced Clinical Practice in Optometry I  P 3
Advanced clinical practice; the conference periods are devoted to the discussion of problems and cases encountered during the clinic periods.
Au, Wi, Sp Qtrs. 2 cl., 3 clinic hrs. Prereq: 643.

742 Advanced Clinical Practice in Optometry II  P 3
Continuation of 741.
Au, Wi, Sp Qtrs. 2 cl., 3 clinic hrs. Prereq: Optometry 4th yr standing and 741.

743 Advanced Clinical Practice in Optometry III  P 3
Continuation of 742.
Au, Wi, Sp Qtrs. 2 cl., 3 clinic hrs. Prereq: Optometry 4th yr standing and 742.

745 Special Clinical Practice  P 1-6
Clinical experience in specialized phases of optometric practice.
Su, Au, Wi, Sp Qtrs. 3-18 clinic hrs. Prereq: Optometry 4th yr standing and course indicated in selected subdivision(s). Repeatable to a maximum of 30 cr hrs.

745.01 General Practice
Prereq: 643.

745.02 Contact Lenses
Prereq: 654.

745.03 Strabismus and Orthoptics
Prereq: 651.

745.04 Ocular Pathology
Prereq: 703.

745.05 Aniseikonia
Prereq: 652.

745.06 Low Vision
Prereq: 652.

745.07 Perceptual-Motor Problems
Prereq: 643.

780 Topics in Optometry  P 1-5
Clinical and theoretical aspects of areas of current interest in optometry.
Su, Au, Wi, Sp Qtrs. Prereq: Enrollment in College of Optometry and permission of dean. Repeatable to a maximum of 30 cr hrs. Each subdivision repeatable to a maximum of 5 cr hrs.

780.01 General Optometry

780.02 Contact Lenses

780.03 Strabismus

780.04 Ocular Pathology

780.05 Aniseikonia

780.06 Low Vision

780.07 Visual Development

780.08 Visual Perception

780.09 Visual Performance

780.10 Environmental Vision

780.11 Pediatric Optometry

780.12 Geriatric Optometry

780.13 Ophthalmic Optics

780.14 Special Optical Design

780.15 Optometric Instrumentation

780.16 Public Health Optometry

780.17 Ocular Pharmacology

780.18 Microbiology of the Eye

780.19 Binocular Vision

780.20 Visual Problems of Minorities

780.21 Special

Otolaryngology
4100 University Hospital Clinic, 456 Clinic Drive, 421-8150
The faculty of the Department of Otolaryngology is responsible for instruction in the pathophysiology of disease of the ear, nose, and throat as part of MED II of the medical curriculum. This instruction is offered under the course designated Med Coll 663. The Department also offers clinical instruction in otolaryngology during MED III and MED IV of the medical program designated Med Coll 664. This instruction is offered as a clinical elective period of 1-2 months and as part of the rotation in ambulatory medicine.

794 Group Studies in Otolaryngology  P 6
Clinical application of the principles of otolaryngology with patients in clinic and operating room; at least one hour daily supervised teaching by staff members; instruction by slides, films, seminars, and personal supervision. Saunders and staff.
Su, 1 month, offered all months except June. Prereq: Permission of instructor. This course is graded S/U.

Pathology
4170 Graves Hall, 333 West 10th Avenue, 422-4471

501 Medical Technology U 2
Clinical hematology, including coagulation; urinalysis. Brandt and Stevenson.
Su Qtr. 2 cl. Prereq: Admission to med tech or permission of instructor. This course is graded S/U.

502 Medical Technology U 2
Clinical microbiology, including mycology. Buesching and Ayers.
Wi Qtr. 2 cl. Prereq: Admission to med tech or permission of instructor. This course is graded S/U.

503 Medical Technology U 2
Immunology; immunohematology. Kennedy and Neff.
Sp Qtr. 2 cl. Prereq: 502 and admission to med tech or permission of instructor. This course is graded S/U.

504 Medical Technology U 2
Clinical blood and tissue chemistry; modes of investigating diseases by biochemical methods, and their interpretation. Watters.
Au Qtr. 2 cl. Prereq: Admission to med tech or permission of instructor. This course is graded S/U.
640* Pathobiology P G 3
Seminars on topics in comparative cellular pathology. Barth and Capen.
Au Qtr. (even yrs only). 3 cl. Prereq: Permission of instructor.
Cross-listed in Vet Path.

650 Pathology P G 5
Designed to give optometry and selected graduate students an
understanding of general pathology including cell injury, inflammation, infection, hemodynamic disturbances, neoplasia, basic immunopathology and selected specific diseases, with gross histologic demonstrations.
Au Qtr. 3 cl. 6 lab hrs. Prereq: Optometry 2nd yr standing or
permission of instructor.

655 General Pathology P 4
General pathology, including the etiology of diseases, disturbances of nutrition, inflammation, regeneration, and organ pathology.
Sp Qtr 4 cl. 2-3 hr lab. Prereq: Dent 2nd yr standing.

792 Special Lectures in Pathology P G 3
Lectures in special fields of pathology; one decimal subdivision will be offered each quarter.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: Grad standing; enrollment in College of Medicine for Doctor of Medicine degree. Repeatable to a maximum of 24 or hrs.

792.01 Blood and Bone Marrow
Pathology of the blood and bone marrow with emphasis on the laboratory diagnosis of anemia. Stevenson.

792.02 Lectures in Clinical Chemistry

792.04 Neuropathology
Selected lectures on neuropathology. Liss.

792.05 Immunohematology
Transfusion related clinical and laboratory problems and procedures.

792.08* Cellular Pathology
Cellular pathology with emphasis on ultramicroscopic changes in cell injury. Lucas.
Offered odd yrs only.

792.11 Automation and Instrumentation in Clinical Chemistry
Advanced analytical technique as applied to clinical chemical problems with discussion of the applicable area of chemical pathology. Lott.

793 Individual Studies in Pathology P G 3-6, 12, 18
1, 2, or 3 months; offered all months, (prof cr). Su, Au, Wi, Sp Qtrs (grad cr). Prereq: Med Ill and IV standing, or grad standing; permission of instructor. When registration is for 3 professional or hrs, an additional 3 hr professional course must be taken. Each subdivision repeatable to 18 or hrs. These courses are graded S/U.

793.01 Pathologic Anatomy
Sharma.

793.04 Clinical Chemistry
Lott and Newman.

793.05 Neuropathology
Liss.

793.06 Immunohematology
Kennedy.

793.07 Clinical Microbiology
Ayers.

793.08 Pediatric Pathology
Newton.

793.09 Surgical Pathology
Clausen.

793.11 Special Topics in Pathologic Anatomy
Sharma.

793.12 Ultrastructure of Cells in Disease
Sharma.

793.13 Laboratory Medicine—The Erythrocyte
Stevenson.

793.15 Problems in Pathology and Clinical Pathology

850 Seminar in Pathology and Clinical Pathology G 2
Discussion of pertinent literature, presentation and discussion of research work, and demonstration of three specimens and slides.
Su, Au, Wi, Sp Qtrs. 1-2 hr cl. Prereq: Grad standing inpath.
This course is graded S/U.

851 Neurochemical Pathology G 1
Lecture series on selected topics relevant to biochemical mechanisms of neurological disorders; topics change each qtr.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Grad standing in pathology.
Repeatable to a maximum of 10 or hrs. This course is graded S/U.

999 Research in Pathology G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Pediatrics

Children’s Hospital, 700 Children’s Drive and N-118 Doan Hall, 410 West 10th Avenue, 461-2075

793 Individual Studies in Pediatrics
Su, Au, Wi, Sp Qtrs (grad cr). 1, 2, 3, or 4 months (prof cr).
Prereq: Permitration of instructor. These courses are graded S/U.

793.02 Genetics P 6, 12, 18 G 1-5
Kontras and Sommer.

1, 2, or 3 months; offered all months. Repeatable to a maximum of 18 or hrs for professional credit.

793.03 Infectious Diseases P 6, 12, 18
G 1-5
Powell.

1, 2, 3, or 4 months; offered all months. Repeatable to a maximum of 24 or hrs for professional credit.

793.06 Blood Diseases of Infants
and Children P 6 G 1-6
Ruyman.

1 month, offered all months except June.

Persian

256 Dieterzur Hall of Languages, 1841 Million Road, 422-9255

101* Elementary Persian I U 5
Introduction to Persian; development of listening, reading, speaking, and writing skills.
Au Qtr. 5 cl. This course is available for EM credit. FL Admis Cond course.

102* Elementary Persian II U 5
Further development of listening, reading, speaking, and writing skills.
Wi Qtr. 5 cl. Prereq: 101. This course is available for EM credit. FL Admis Cond course.

103* Intermediate Persian I U 5
Development of listening, reading, speaking, and writing skills; reading of simplified literary texts about Persian culture.
Sp Qtr. 5 cl. Prereq: 102. This course is available for EM credit.
104* Intermediate Persian II U 5
Reading of Persian short stories and poems with attention to literary and cultural appreciation; development of basic language skills.
Au Qtr. 5 cl. Prereq. 103. This course is available for EM credit.

Masterpieces of Near Eastern Literatures
See Judaic and Near Eastern Languages and Literatures (JANELL) 272.

293 Individual Studies U 1-5
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded SU/.

294 Group Studies U 1-5
Special topics to be announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

603 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded SU/.

694 Group Studies U G 1-5
Special topics to be announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

Pharmacology

5086 Graves Hall, 333 West 10th Avenue, 422-8608

400 Pharmacology for Circulation Technologists U 3
A survey of pharmacology emphasizing cardiovascular drugs and agents used in circulation technology and general surgery. Hollander.
3 cl. Prereq: Physiol 311 and 312 and permission of instructor. Open only to students registered in the School of Allied Medical Professions.

600 General Pharmacology U G 3
Introduction to the general principles of pharmacology, drug classification, and the sites and mechanisms of drug action.
Sp Qtr. Prereq: Physiol 611, Physiol 601, or permission of instructor.

609 Molecular Pharmacology U G 4
The interaction of clinical drugs and environmental agents on macromolecules with emphasis on their involvement in aging, mutagenesis, cancer, and arteriosclerosis. D’Ambrosio.
Sp Qtr. 2, 2-3 hr cl. Prereq: Permission of instructor. Cross-referenced in Radiology.

610 Toxicology and Drug Identification U G 3
Wi Qtr. 1 cl, 2-3 hr lab. Prereq: 600.

700 Medical and Mammalian Pharmacology P G 4
General principles of pharmacology; drugs used for diagnosis, prevention or eradication of the causes of disease, including endocrine products and chemotherapeutic agents. Tejwani.
Wi Qtr. 4 cl. Prereq: 600 or permission of instructor.

701 Medical and Mammalian Pharmacology P G 5
Continuation of 700. Tejwani and staff.
Sp Qtr. 4 cl, 3 lab hrs. Prereq: 700.

702 Practice of Pharmacology P G 3
Performance and application of specialized pharmacological techniques and methods in evaluation of pharmacodynamic and pharmacokinetic activity of chemical substances. Tjioe and staff.
Wi Qtr. Prereq or concur: 701.

723 Pharmacology Related to Anesthesia U G 3-15
The pharmacodynamics of anesthetic agents and of other drugs which modify the state of surgical anesthesia. Hollander.
Sp Qtr. 2 cl, lab arr. Prereq: 701 or permission of instructor. Not open to students with credit for 823.

770 Clinical Pharmacology and Therapeutics P 3
May. Prereq: Permission of instructor.

793 Individual Studies in Pharmacology P 6, 12, 18 G 3-15
Digitals pharmacodynamics; neuropharmacology; endocrine pharmacology; cardiovascular pharmacology; autonomic pharmacology; clinical pharmacology; biochemical pharmacology; toxicology. Staff.
1, 2, 3, months; offered all months except June (prof cr). Su, Au, Wi, Sp Qtrs (grad cr). Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded SU.

820 Autonomic Pharmacology G 3
Comprehensive review of drugs that mimic or affect the actions of autonomic neurons with emphasis on biochemical and cellular analysis of autonomic drug action. Tjioe.
Au Qtr. Prereq: 701 or permission of instructor.

821† Cardiovascular Pharmacology G 15
Modern concepts of the action of drugs on the heart and circulation. Hollander.
Sp Qtr. 2 cl, lab arr. Prereq: Permission of instructor.

822 Neuroendocrine Pharmacology G 3-15
Levels of interaction of the nervous and endocrine systems. Fertel.
Sp Qtr. 2 cl, lab arr. Prereq: 600 or 701.

824* Psychopharmacology G 3
Psychotropic drug-induced changes in central nervous system activity in relation to the varieties of perceptual-behavioral interpretations of that activity by self-referential systems, i.e. man.
Wi Qtr. 2 cl arr. Prereq: 600, 701, or permission of instructor.

845 Bioelectric Potentials G 5-15
Methods of recording transmembrane potentials from cells; interpretation of cell potentials; effects of drugs on transmembrane potentials. Hollander.
Au Qtr. 5 cl, lab arr. Prereq: Physiol 601, 602 or equiv or permission of instructor.

850 Seminar in Pharmacology G 2
Conferences on selected topics in pharmacology. Tejwani and Gerber.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor.

852* Drug Metabolism G 3
Discussions of mechanisms of biotransformation of drugs by enzymes, pharmacologic characteristics of these systems, and techniques for the study of drug metabolism. Couri.
Wi Qtr.

860 Biomedical Mass Spectrometry and Chromatography P G 3
Principles and applications of computerized gas chromatograph-mass spectrometry in biomedical research; ancillary chromatographic techniques will also be discussed.
Au Qtr. 2 cl, 1 t-hr lab. Prereq: Chem 211 and 242 or permission of instructor.
984 Group Studies in Pharmacology G 3-5
Designed to allow the introduction of new topics and innovative approaches to the subject.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

999 Research in Pharmacology G Arr
Research for thesis or dissertation purposes only. Au, Wi, Sp Qtr. This course is graded S/U.

Pharmacy

217 Lloyd M. Parks Hall, 560 West 12th Avenue, 422-2266

The divisions of instruction and the classes in the College of Pharmacy comprising these divisions are listed below:

Medicinal Chemistry and Pharmacognosy

Pharmaceutical Administration
400, 513, 520, 521, 522, 523, 523, 614, 615, 616, 620, 693, 694, 715, 723, 814, 816, 821, 821, 824, 825, 826, 827, 850, 884, 894, 970, 993, 999.

Pharmaceutics and Pharmaceutical Chemistry
403, 404, 405, 406, 501, 502, 508, 538, 694, 701, 702, 707, 710, 800, 812, 812, 812, 850, 894, 993, 999.

Pharmacology
200, 270, 470, 471, 672, 674, 677, 681, 693, 694, 775, 850, 870, 871, 872, 881, 894, 993, 999.

Pharmacy Practice

200 The Rational and Irrational Use of Drugs U 3
Survey of the fundamentals of drug action with special emphasis on drugs of abuse; discussion of medical, social, legal, and educational aspects of drug use. Uretsky and Wallace. Au, Wi, Sp Qtr. 3 cr. Not open for credit to students in the College of Pharmacy. NS Admis Cndt course.

270 Introduction to Drug Action U 5
An introduction to drug action in the treatment of disease; commonly used and abused prescription and non-prescription products will be discussed. Gerald. Wt Qtr. 3 Inh cr. Prereq: Biology 106 or 110 or equiv. Not open for credit to students in the College of Pharmacy or the College of Nursing. NE Admis Cndt course.

400 Introduction to Pharmacy P 2
A survey of the profession of pharmacy, dealing with its history, educational requirements, organization, regulation, and current developments. Sfway. Au Qtr. 2 cr. This course is graded S/U.

403 Pharmaceutics I P 3
The application of physical chemical principles to pharmaceutics: a fundamental introduction to solid and liquid dosage forms. Sokolowski. Wt Qtr. 3 cr. Prereq: 433, Chem 242 and 246, and Math 152.

404 Prescription Pharmacy Practice I P 3
The principles and practice of pharmaceutical dispensing: pharmaceutical calculations, simple solutions, syrups, elixirs, diluents, emulsions, and suspensions. Sokolowski and Dankworth. Wt Qtr. 1 3-hr lab; 2 cr. Prereq: Chem 242 and 246, and Math 152. prereq or concur: 103.

405 Pharmaceutics II P 3
The application of physical chemical principles to pharmaceutics and biopharmaceutics: colloids, suspensions, emulsions, solid and topical dosage forms and the formulation factors affecting drug availability. Frank. Sp Qtr. 3 cr, 1 recitation. Prereq: 403.

406 Prescription Pharmacy Practice II P 2
The principles and practice of pharmaceutical dispensing: lotions, ointments, powders and capsules, suppositories. Frank and Dankworth. Sp Qtr. 1 3-hr lab; 1 cr. Prereq: 403 and 404; prereq or concur: 405.

433 Introduction to Medicinal Chemical Principles U P 2
An introduction to heterocycles, acidity and basicity, metabolism, prediction of ionization constants and physico-chemical properties of drugs. Bigge, Miller, and Witsak. Au, Sp Qtr. 2 cr, 1 recitation. Prereq: Chem 242 or equiv. Open to non-pharmacy students by written permission of the College of Pharmacy office only.

434 Pharmaceutical Analysis P 4
An introduction to quantitative analysis of pharmaceuticals. Olson. Au Qtr. 2 cr. 6-hr lab, computer managed instruction. Prereq: Chem 242 and 246, and Math 152.

436 Advanced Pharmaceutical Analysis P 3
An introduction to selected instrumental methods of pharmaceutical analysis. Olson. Wi Qtr. 1 cr, 2 3-hr lab. Prereq: 434 or equiv.

440 Advanced Medicinal Chemistry U P 1
The synthesis and mechanisms of reactions used in the synthesis of drugs will be discussed. Witsak. Au, Wi, Sp Qtr. 1 cr. Prereq: 433 or Chem 253.

441 Medicinal Chemistry I U P 3
Chemical and biochemical principles governing the properties of drugs affecting the peripheral nervous system, cardiovascular drugs, diuretics, coaugulants, sulfonamides and sulfones, and anesthetic agents. Brueggermeier, Miller, and Witsak. Wi Qtr. 3 cr, 1 recitation. Prereq: 433 or Chem 253. Open to non-pharmacy students by written permission of the College of Pharmacy office only.

442 Medicinal Chemistry II U P 3
Chemical and biochemical principles governing the properties of drugs affecting the central nervous system, steroids, carcinogenesis and environmental chemicals, and cancer chemotherapeutic agents. Brueggermeier, Miller, and Witsak. Sp Qtr. 3 cr, 1 recitation. Prereq: 441. Open to non-pharmacy students by written permission of the College of Pharmacy office only.

450 Pharmacognosy P 3
A study of the history, source, identification, constituents, and medicinal preparations of some of the more important drugs of biological origin. Isaal and Robertson. Au Qtr. 3 cr. Prereq: Chem 242 and 246, or equiv.

461 Bio-Pharmacy I P 3

462 Bio-Pharmacy II P 4
A study of biochemical processes pertinent to the status of health and disease and the use of pharmaceutical agents. Doskotch, Williams, and Robertson. Wi Qtr. 4 cr, 1 recitation. Prereq: 461.

465 Pharmacognosy P 4
Basic and clinically useful information concerning the medically important antibiotics, alkaloids, and glycosides. Robertson. Sp Qtr. 4 cr. Prereq: 462; prereq or concur: Microbiol 509.
501 Pharmacology III P 3
The application of biopharmaceutical and pharmacokinetic principles to drug absorption, distribution, and elimination. Staubus.
Au Qtr. 3 cl. Prereq: 405.

502 Prescription Pharmacy Practice III P 2
Principles and practice of pharmaceutical dispensing, instruction and use of aseptic technique and application of pharmaceutical principles and techniques to the solution of prescription problems. Staubus and Dankworth.
Au Qtr. 1 cl, 1 3-hr lab. Prereq: 405 and 406, prereq or concorr: 501.

506 Pharmaceutics IV P 3
The application of biopharmaceutical and pharmacokinetic theory to dosage regimen adjustment, drug and drug product selection, evaluation and use, and optimizing drug therapy. Notari.
Wi Qtr. 3 cl, 1 recitation. Prereq: 501.

513 History of Pharmacy U P 3
Evolution and development of the profession of pharmacy from antiquity to the present, with emphasis on its Anglo-American development since the 18th century. Buerki.
Au Qtr. 3 cl. Prereq: Jr standing or permission of instructor.

516 Fundamentals of Disease P 4
A study of the basic pathological principles and a review of the etiology, pathogenesis, and pathology of common human diseases subject to modification by pharmacotherapy. Dasta and clinical staff.
Au Qtr. 4 cl. Prereq: 462, Anatomy 200, Physiology 312, and Microbiol 509.

517 Pharmacotherapeutics I P 3
The application of the pharmacological and biomedical sciences to the treatment and management of common human diseases. Geracts, Nahata and Dasta.
Wi Qtr. 2 3½-hr cl. Prereq: 442, 516, and 671; prereq or concorr: 506 and 572.

518 Pharmacotherapeutics II P 3
The application of the pharmacological and biomedical sciences to the treatment and management of common human diseases. Nahata and clinical staff.
Sp Qtr. 2 3½-hr cl. Prereq: 517.

519 Institutional Pharmacy Practice P 3
The organization, management and provision of comprehensive pharmacy services in hospitals and other organized health settings. Miele.
Sp Qtr. 3 cl. Prereq: 456 and 460.

520 Pharmaceutical Marketing P 4
A study of the pharmaceutical industry and the distribution of drug products and pharmaceutical services. Pathak.
Wi Qtr. 3 3½-cl. Prereq: Jr standing or permission of instructor.

521 Introduction to Pharmacy Operations P 3
An introductory overview of various activities involved in a pharmacy operation. Pathak, Jacobs.
Au Qtr. 3 cl. Prereq: 520.

522 Pharmacy Management P 4
Theoretical considerations and applied techniques associated with planning, organizing, activating and controlling the resources used in pharmacy practice. Jacobs.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq: Accepting 201 and Jr standing.

523 Pharmaceutical Information Systems P 3
The design and implementation of pharmacy information systems, including prescription and business records, as a basis for decision-making, professional service, and regulatory compliance. Segal.
Au Qtr. 2 cl, 1 2-hr lab. Prereq: Accepting 201 and Jr standing, or permission of instructor.

528 Pharmacy Communications P 3
Communication problems arising out of professional relations of the pharmacist with the physician, medical interns, nurses, laboratory technicians, and especially patients. Buerki.
Wi Qtr. 2 cl, 1 2-hr workshop. Prereq: Jr or Sr standing in pharmacy.

577 Biological Products P 3
USP standards and legal requirements governing manufacture, standardization, storage and distribution of toxins, antitoxins, sera, and vaccines. Robertson.
Au Qtr. 3 cl. Prereq: Microbiol 509.

612 Appliances and Prescription Accessories P 1
Study of conditions requiring a series of orthopedic and surgical appliances, invalid aids and prescription accessories. Marcy.
Wi Qtr. 1 2-hr cl. Prereq: 674.

614 Professional Ethics P 2
The conceptual basis and content of pharmaceutical ethics; significance of codified ethics, interprofessionally considered; differences of view underlying ethical issues; methods of encouraging compliance. Buerki.
Sp Qtr. 1 2-hr cl. Prereq: Jr standing or permission of instructor.

615 Sterile Products P G 3
Formulation, preparation, and testing of sterile products including injections, bulk solutions, and nasal and opthalmic preparations. Hale.
Au Qtr. 2 cl, 1 3-hr lab. Prereq: 502 or equiv.

616 Medical Applications of Radionuclides and Radiopharmaceuticals P G 3
A study of the theoretical and clinical aspects of the preparation, use, control and handling of radionuclides and radiopharmaceuticals used in medicine. Hinkle.
Wi Qtr. 3 cl. Open to students with Jr standing in College of Pharmacy or School of Allied Medical Professions.

619 Nonprescription Drug Products P 3
Didactic and practical experience in appropriate nonprescription drug product selection, monitoring, and patient information. Bennett.
Au, Sp Qtrs. 2 2-hr cl. Prereq: 518 and 674.

625 Pharmaceutical Jurisprudence P 3
A study of the laws and regulations relating to the practice of pharmacy with emphasis on cases and court decisions illustrating the pharmacist's responsibilities. Allen.
Au, Sp Qtrs. 3 cl. Prereq: Jr standing or permission of instructor.

671 Systematic Pharmacology I P G 5
A comprehensive study of the pharmacodynamic, toxicological and therapeutic effects of drugs on living organisms with emphasis on their rational application to the treatment of disease in man. Patil and Wetsky.
Au Qtr. 5 cl. Prereq: 462 and Physiology 312 or equiv.

672 Systematic Pharmacology II P G 5
A comprehensive study of the pharmacodynamic, toxicological and therapeutic effects of drugs on living organisms with emphasis on their rational application to the treatment of disease in man. Gerald and Barkman.
Wi Qtr. 5 cl. Prereq: 671.
674 Systematic Pharmacology III P G 5
A comprehensive study of the pharmacodynamic, toxicological, and therapeutic effects of drugs on living organisms with emphasis on their rational application to the treatment of disease in man. Rahwan, Burkman, and Feller.
Sp Qtr. 5 cl. Prereq: 572.

677 Toxicology U P G 3
Fundamentals of modern and environmental toxicology with emphasis on pathogenesis and clinical testing of new drugs, principles of toxicology, carcinogenicity and Mutagenicity, and drug interactions. Rahwan.
Wi Qtr. 3 cl. Prereq: 674 or permission of instructor.

681 Ocular Pharmacology P 3
A survey of the general principles of drug action and the properties of drugs affecting ocular structure and function. Burkman and Pafl.
Sp Qtr. 3 cl. Prereq: 3rd yr standing in optometry. Open only to students registered in College of Optometry.

685 Community/Clinical Practice Externship P 7
Pharmacy students, under the supervision of college faculty and community pharmacists, gain experience in community pharmacy practice. Sabino and precceptor staff.
Su, Au, Wi, Sp Qtrs. 21 hr practicum. Prereq: 502, 305, 518, 374, and licensure by the Ohio Board of Pharmacy as Pharmacy Intern; concur: 686. This course is graded S/U.

686 Institutional/Clinical Practice Externship P 8
Pharmacy students, under the supervision of college faculty and institutional pharmacists, gain experience in institutional (i.e., hospital, mental health facility) pharmacy practice. Sabino and precceptor staff.
Su, Au, Wi, Sp Qtrs. 24 hr practicum. Prereq: 502, 506, 518, 674, and licensure by the Ohio Board of Pharmacy as Pharmacy Intern; concur: 685. This course is graded S/U.

689 Clinical Practice in Pharmacy P 7-15
A basic clinical clerkship experience in various pharmacotherapeutic and clinical pharmacy practice areas with emphasis on an interdisciplinary health team approach. Muhly, Dista, and Clinical staff.
Su, Au, Wi, Sp Qtrs. 10 wks, minimum of 21 hrs/wk. Prereq: 665 and 685, or permission of instructor. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.

693 Individual Studies in the Pharmaceutical Sciences P 1-5
Laboratory and library work designed to give the qualified student an opportunity to complete an original investigation or pursue an interest in a special problem. Eichhorn, Muhly, Klotz, and Clinical staff.
Su, Au, Wi, Sp Qtrs. 10 wks, minimum of 21 hrs/wk. Prereq: 665 and 685, or permission of instructor. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.

694 Group Studies in Pharmacy P 1-5
Group studies of selected topics in various fields of pharmacy. Eichhorn, Muhly, Klotz, Laboratory staff.
Su, Au, Wi, Sp Qtrs. 1-5 cl. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs.

695 Seminar P 2
Problems arising out of professional relations of the pharmacist with the physician, medical interns, nurses, laboratory technicians, and the laity. McLeod.
Sp Qtr. 2 cl. Prereq: Sr standing or permission of instructor. Repeatable to a maximum of 6 cr hrs.

701 Concepts of Pharmaceutical Research I P G 3
Presentation of some basic principles and techniques used in pharmaceutical research and product development: drug stabilization, solubilization, complexation, and macromolecular interactions. Sokolowski and Frank.
Au Qtr. 3 cl. Prereq: 506 or equiv with written permission of instructor.

702 Concepts of Pharmaceutical Research II P G 3
Presentation of some basic principles and techniques used in pharmaceutical research and product development: interfacial phenomena and drug solutions. Malispeis and Notari.
Sp Qtr. 3 cl. Prereq: 506 or equiv with written permission of instructor.

705 Individualization of Drug Dosage P G 3
A patient-oriented course designed to provide experience in recognition and solving of patient cases where drug dosage regimen must be modified to optimize therapy. Visconti and Reuning.
Sp Qtr. 3 cl. Prereq: 506 and 674 or permission of instructor. Repeatable to a maximum of 6 cr hrs.

707 Industrial Pharmaceutics P G 3
The fundamental concepts and practice of contemporary industrial (manufacturing) pharmacy. Frank.
Wi Qtr. 1 2-hr cl. 1 1-hr cl. Prereq: 405 and 406, or permission of instructor.

710 Biopharmaceutics P G 3
Interrelationships of absorption, distribution, metabolism, storage, and excretion of drugs with the physical-chemical and biological properties of body tissues, drugs and dosage forms. Notari.
Wi Qtr. 3 cl. Prereq: Sr standing or permission of instructor.

712 Clinical Pharmacokinetics I P G 4
Basic concepts of drug disposition, pharmacokinetics and response kinetics, and the application of these concepts to optimizing specific drug therapy. Reuning, Lima, and Macknichan.
Wi Qtr. 3 cl, 1 2-hr nec. Prereq: 506, 518, and 674 or permission of instructor.

713 Advanced Clinical Pharmacokinetics II P G 4
Anatomical and physiological basis of pharmacokinetics; emphasis on the influence of disease states on the pharmacokinetics of drugs, and drug dosage alterations in patients. Lima and Macknichan.
Su, Sp Qtrs. 2 2-hr cl. Prereq: 712 or equiv, and admission to Pharm D program or permission of instructor.

715 Hospital Pharmacy and the Hospital Organization P G 3
Hospital organization and the relationship of the departmental components to the pharmacy. Grauer.
Au Qtr. 3 cl. Prereq: Sr or grad standing. Not open to students with credit for 816.

718 Drug Therapy Selection P G 3
Application of comparative pharmacological and therapeutic data to guide formulation development and selection of drugs of choice among major therapeutic drug groups. McCleod.
Wi Qtr. 3 1-hr cl. Prereq: 518 and 674, or permission of instructor.

719 Drug Literature Evaluation P G 3
Introduction to the fundamentals of drug information storage and retrieval and experiences in evaluating clinical drug studies. Visconti.
Au, Wi Qtrs. 1 3-hr cl. Prereq: 518 and 674, or permission of instructor.

720 Advanced Pharmacotherapeutics P G 5
An advanced course emphasizing therapeutic principles based on medical pathophysiology, pharmacodynamics, and pharmacokinetics. Nahata and Clinical Staff.
Sp Qtr. 3 2-hr cl. Prereq: 712 or equiv, and admission to Pharm D program or permission of instructor.

723 Computer Applications in Pharmacy Practice P G 3
Application of computer technology and a survey and evaluation of the systems characteristics in use in Pharmacy practice. Pathak, Jacobs, and Jagadeesh.
Au Qtr. 2 1-hr cl. Prereq: Sr or grad standing.
737 Advanced Pharmaceutical Analysis  P  G  S
The use of specialized instruments in the assay and control methods of drugs and drug preparations. Olson.
Au Qtr. 3 cl, 2 3-hr lab. Prereq: 436 or permission of instructor.

743 Pathophysiology for Clinical Pharmacists
An independent study program in the pathophysiology of major human diseases associated with various organ systems.
Su, Au, Wi, Sp Qtrs. Prereq: Admission to Pharm D program and permission of the director of the independent study program in the College of Medicine. Repeatable to a maximum of 55 cr hrs. These courses are graded S/U.

743.13 Medical Immunology  P  3
743.14 Behavioral Sciences  P  2
743.15 Epidemiology  P  1
743.16 Pathologic Mechanisms/Genetics  P  5
743.17 Microbial Mechanisms  P  4
743.19 Cardiovascular System  P  7
743.20 Infectious Diseases  P  5
743.21 Respiratory System  P  3
743.22 Hematology System  P  3
743.23 Gastrointestinal System  P  3
743.24 Renal System  P  5
743.25 Central and Peripheral Nervous System  P  7
743.26 Musculoskeletal System  P  2
743.27 Endocrine System  P  2
743.28 Reproductive System  P  2
743.29 Pediatrics  P  1

745 Advanced Clinical Practice in Pharmacy
An advanced clinical experience in various therapeutic and pharmacy practice areas.
Su, Au, Wi, Sp Qtrs. 1 or 2 months (fulltime). Prereq: Admission to Pharm D program or permission of instructor. Repeatable to a maximum of 63 or hrs in any combination of decimal subdivisions. These courses are graded S/U.

745.01 Physical Assessment  P  3
745.02 Drug Information Service  P  5
745.03 Poison Control/Toxicology Service  P  5
745.04 Clinical Pharmacokinetics Laboratory  P  5-10
745.05 Pediatric Clinical Pharmacy  P  5-10
745.06 Cardiovascular Clinical Pharmacy  P  5-15
745.07 Critical Care Pharmacy  P  5-10
745.08 Psychiatric Clinical Pharmacy  P  5
745.09 Oncologic Clinical Pharmacy  P  5
745.10 Renal Clinical Pharmacy  P  5
745.11 Pulmonary Clinical Pharmacy  P  5
745.12 Infectious Disease Clinical Pharmacy  P  5
745.13 Gastroenterology Clinical Pharmacy  P  5
745.14 Parenteral Nutrition  P  5-10
745.15 Medical/Surgical Clinical Pharmacy  P  5-15

775 Cellular Pharmacology  G  3
Cellular mechanisms of drug action as they relate to chemical structure, with discussion of methods of investigating such mechanisms. Rahwan.
Au Qtr. 3 cl, arr. Prereq: Grad standing in pharmacology, medicinal chemistry, or other biological discipline. Pharmacy 433 and 462; Physiol 311 and 312 or equiv with written permission of instructor.

789 Isolation Techniques
789 in Research  P  G  S
A study and application of selected isolation techniques for the purification of natural products or other organic mixtures. Doskotch.
Wi Qtr. 3 cl, 2 3-hr lab. Prereq: Chem 242 and 246, or equiv, or permission of instructor.

794 Group Studies in Clinical Pharmacy  P  1-18
Prereq: Admission to Pharm D program. Repeatable to a maximum of 50 cr hrs.

795 Seminar  P  1
A seminar designed to develop the speaking and scientific presentation abilities of Pharm D students through presentation of therapeutic and research material. Lima.
Au, Wi, Sp Qtrs. 1 1-hr seminar. Prereq: Admission to Pharm D program or permission of instructor. Repeatable to a maximum of 3 or hrs.

800 Radioisotope Tracer Techniques and Radiopharmaceuticals  G  5
A survey of the properties of radioisotopes and radiation; radioisotope tracer methods and applications to pharmaceutical sciences; the preparation, standardization, and handling of radiopharmaceuticals. Malysz, Feller, and Brueggeman.
Au Qtr. 3 cl, 2 3-hr lab. Prereq: Permission of instructor.

802 Pharmacokinetics  G  4
The analysis of the absorption, distribution and elimination of drugs, and the mathematical characterization of these processes, with emphasis on theory and application. Staubus.
Sp Qtr. 2 2-hr cl. Prereq: 674 and Math 150, or equiv with written permission of instructor.

811 Advanced Pharmacy  G  3
A study of the application of physical chemical principles to the design and development of fluid pharmaceutical dosage forms. Frank, Malysz, Notari, Reuning, Sokoloski and Staubus.
Wi Qtr. 3 cl. Prereq: Chem 521 or 533, and permission of instructor.

812 Advanced Pharmacy  G  3
A study of the methods used to predict, determine, and improve the stability characteristics of medicinal agents in dosage form. Notari.
Sp Qtr. 3 cl. Prereq: Chem 521 or 533, and permission of instructor.

814 Issues in Drug Therapy for Pharmacy Administrators  G  3
Principles of drug therapeutics with application to hospital pharmacy departments.
Sp Qtr. 3 cl. Prereq: 712.

816 Principles of Hospital Pharmacy  G  3
Administrative and professional principles and concepts, and trends affecting, hospital pharmacy.
Wi Qtr. 3 cl. Prereq: 715.

817 Principles of Hospital Pharmacy  G  3
A continuation of 816. P. Schneider.
Sp Qtr. 3 cl. Prereq: 816.

820 Drugs, Society, and Human Behavior  G  3
A review of behavioral and administrative science research as applied to drug use in society, emphasizing the impact of drug use decisions on strategic development. Segal.
Wi Qtr. 3 cl. Prereq: Permission of instructor.

821 Research Methodology in Pharmacy Practice  G  3
Investigation of the research principles and methods involved in planning, analysis, and interpretation of studies and projects in pharmacy practice.
Wi Qtr. 2 1½-hr cl. Prereq: Econ 442 or Ed-F & R 786 or equiv.

824 Evaluation of Pharmaceutical Programs  G  3
An overview and appraisal of the state-of-the-art in the evaluation of pharmaceutical programs and services. Segal and Pathak.
Sp Qtr. Prereq: Econ 442 or equiv, and background in stat.

825 Advanced Pharmaceutical Marketing  G  4
Theoretical and practical aspects of pharmaceutical marketing, with emphasis on policies and practices of the pharmaceutical manufacturer. Pathak.
Wi Qtr. 4 cl. Prereq: 520 or Bus-Mkt 650 or equiv.
826 Advanced Pharmacy Administration G 4
Investigation and analysis of strategic decision-making in pharmacy administration. Jacobs.
Su, Au Qtrs. 3 cl. Prereq: 825 and Bus-MHR 500 or equiv. Repeatable to a maximum of 6 or hrs.

827 Principles of Drug Insurance Design G 3
Administrative, economic, medical, political, and therapeutic factors governing the construction and implementation of a large prescription drug insurance program.
Sp Qtr. 3 cl.

835 Advanced Medicinal Chemistry G 3
Chemistry of autonomic receptor sites; recent literature references on the biological, chemical, and stereochemical requirements for adrenergic and cholinergic stimulation and blockade. Miller.
Au Qtr. 3 cl. Prereq: 674 or equiv, and Chem 833; or permission of instructor.

836 Advanced Medicinal Chemistry G 3
Selected topics in medicinal chemistry, the subject matter being drawn from the current literature. Wittak, Rigge, Bruneggmeier, and Robertson.
Wi Qtr. 3 cl. Prereq: 674 or equiv, and Chem 833; or permission of instructor.

846 Advanced Medicinal Chemistry G 3
Synthesis of selected natural products; course content to change every two years; topic examples: steroids, alkaloids, heterocyclic compounds, tropones and aromatous systems, vitamins, etc. Miller, and Wittak.
Au Qtr. 3 cl. Prereq: Chem 833.

850 Seminar G 1
Round-table discussion, oral and written reports dealing with recent advances in the pharmaceutical sciences.
Au, Wi, Sp Qtrs. 1 cl. Repeatable to a maximum of 30 or hrs.

851 Advanced Pharmacognosy G 3
A study of research involving biosynthesis of plant constituents of pharmaceutical interest. Doskotch and Robertson.
Sp Qtr. 3 cl. Prereq: Biochem 707 or Botany 631 or permission of instructor.

852 Medicinal Plant Propagation and Cultivation G 3
A study of the methods employed and problems involved in the propagation, cultivation, harvesting, and evaluation of medicinal plants. Beal.
Su Qtr. 3 cl. Prereq: Botany 631 or permission of instructor.

Drug Metabolism
See Pharmacol 852—Discussions of mechanisms of biotransformation of drugs by enzymes, pharmacologic characteristics of these systems, and techniques for the study of drug metabolism.
Offered in cooperation with Pharmacol.

855 Plant Drug Constituents G 3
A study of the more important classes of constituents obtained from plants, including methods of isolation, purification, and identification. Beal, Doskotch, and Robertson.
Wi Qtr. 2 cl. 1 3-hr lab. Prereq: Permission of instructor.

870 Drug Receptor Theory G 3
A systematic examination of the ideas, notions, hypotheses and theories that led to the development of quantitative models of drug-receptor interaction. Burkman.
Au Qtr. 3 cl. Prereq: Math 152 or equiv and an introductory course in pharmacology, or permission of instructor.

871 Experimental Methods in Pharmacology G 3
Qualitative and quantitative pharmacology covering the standard laboratory methods used in the screening and evaluation of drugs. Patil and Burkman.
Wi Qtr. 1 cl. 2 3-hr lab. Prereq: 870 or equiv, and permission of instructor.

872 Advanced Methods in Pharmacology G 3
Theory and practical application of specialized pharmacological approaches used for the elucidation of mechanisms of drug action. Patil and staff.
Sp Qtr. 1 cl. 2 3-hr lab. Prereq. 871 and permission of instructor.

881 Advanced Topics in Pharmacology G 3
A study of current advance theories of pharmacodynamics. Fefer and Gerald.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 871 and permission of instructor. Repeatable to a maximum of 9 or hrs.

884 Field Experiences in Pharmaceutical Administration G 6
Supervised practicum in an administrative setting within the pharmaceutical industry.
Su, Au, Wi, Sp Qtrs. 50 hrs/wk arr. Prereq: 25 or hrs of course work in pharmacy administration and enrollment in pharmacy administration specialization. This course is graded S/U.

894 Group Studies in Pharmaceutical Sciences G 1-5
Group studies of selected topics in various fields of the pharmaceutical sciences.
Su, Au, Wi, Sp Qtrs. 1-5 cl. opt lab. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs.

970 Supervised Project in Hospital Pharmacy G 3
Investigation of a major problem facing a hospital pharmacy or pharmacy practice.
Au, Wi, Sp Qtrs. Prereq: 2nd yr standing in hospital pharmacy specialization. Repeatable to a maximum of 9 or hrs. Required of all students specializing in hospital pharmacy; must be taken each qtr of 2nd yr. This course is graded S/U.

993 Individual Studies in the Pharmaceutical Sciences G 1-5
Individual investigation of problems in one of the areas below:
A—Pharmaceutical Administration
B—Medical Chemistry and Pharmacognosy
C—Pharmaceutics and Pharmaceutical Chemistry
D—Pharmacology
E—Pharmacy Practice
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 30 or hrs.
This course is graded S/U.

999 Research in the Pharmaceutical Sciences G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Philosophy

350 University Hall, 230 North Oval Mall, 422-7914

101 Introduction to Philosophy U 5
Examination of major problems, such as the nature of man, knowledge, truth, morality, and of the relation of philosophy to science and religion.
Su, Au, Wi, Sp Qtr. H101 (honors) may be available to students enrolled in an honors program or by permission of dept. Not open to students with credit for 100. BER/LAC/LAR course.

130 Introduction to Ethics U 5
The nature of right and wrong, good and evil; the grounds of moral choice and decision; the resolution of moral conflicts.
Su, Au, Wi, Sp Qtrs. H130 (honors) may be available to students enrolled in an honors program or by permission of dept. BER/LAC/LAR course.

150 Introduction to Logic U 5
Deduction and induction: principles of clear statement and valid reasoning; fallacies; and the methods by which theories and laws are established.
Su, Au, Wi, Sp Qtrs. Prereq: Math 102 or equiv. BER course.

210* Philosophical Bases of Western Culture U 5
Major themes in philosophy in the context of the development of western culture.
Sp Qtr. Prereq: Soph standing. BER/LAC course.

215* Asian Philosophies U 5
A survey including at least three of the following major philosophical systems of Asia: Hinduism, Buddhism, Jainism, Zoroastrianism, Taoism, and Confucianism.
Wi Qtr. 5 cl.

217 Fundamental Concepts of Existentialism U 5
Key concepts of the movement: commitment, absurdity, freedom, and death, as expressed in the works of Nietzsche, Sartre, Camus, et al.
Au, Sp Qtrs. 5 cl. Not open to students with credit for 617.

230 Political and Social Philosophy U 5
Philosophical bases of social and political institutions and practices; analysis of such fundamental conceptions as justice, morality, political obligation, and civil disobedience.
Au, Wi, Sp Qtrs. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

240 Aesthetics U 5
Principal systems of aesthetics: interpretation of the creative activity of the artist, the work of art, and the contemplation and criticism of art objects.
Au, Wi, Sp Qtrs. BER/LAC/LAR course.

250 Symbolic Logic U 5
A formal presentation of the elements of modern and classical deductive logic; decision and proof procedures in sentential logic, functional logic, and Aristotelian logic.
Au, Wi, Sp Qtrs. BER course.

255 Introduction to the Philosophy of Science U 5
A survey of the main philosophical problems relating to the natural sciences.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 5 or hrs in logic or math above 104, and 5 or hrs in natural science or permission of instructor. BER/LAC/LAR course.

260* Introduction to Jewish Philosophy U 3
Jewish thought in antiquity and the middle ages; emphasis on Philo, Saadia, Judah Halevi, and Maimonides in the context of their Greek and Arabic background.
Wi Qtr. 3 cl.

261* Introduction to Jewish Philosophy II U 3
Modern Jewish thought, viewed against the background of late medieval and contemporary philosophical movements; emphasis on Moses Mendelssohn, Hermann Cohen, Franz Rosenzweig, and Martin Buber.
Au Qtr.

262* Introduction to Islamic Philosophy U 3
Readings in translation of such major authors as al-Kindi, al-Ghazzali, al-Farabi, Avicenna, and Averroes, with emphasis upon the Greek and Islamic components of their work.
Wi Qtr.

270 Introduction to Philosophy of Religion U 3
A philosophical analysis of the nature of religion and the foundations of religious belief.
Su, Au, Sp Qtrs. Prereq: English 110 or 111 or equiv. Not open to students with credit for 176. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

H276 Freshman-Sophomore Proseminar U 5
Topic varies; emphasis on current philosophical problems.
Au, Wi, Sp Qtrs. Prereq: Freshman-sophomore standing, and either a 3.0 cumulative pt-hr ratio, enrollment in an honors program, or permission of instructor. Not open to students with credit for H270. Repeatable to a maximum of 10 or hrs with written permission of dept adviser.

294 Group Studies U 1-5
Groups of students are given an opportunity to pursue special topics not otherwise offered.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.

350 Jewish Mysticism U 5
Introduction to the study of the Jewish mystical tradition, with emphasis on the Zohar, Kabbalah, Hasidism, and Hassidism.
Sp Qtr. 5 cl.

511 History of Ancient and Hellenistic Philosophy U 5
Au Qtr. BER/LAC course.

512 History of Philosophy from Bacon to Hume U 5
Wi Qtr. BER/LAC course.

513 History of Philosophy from Kant through the 19th Century U 5
Sp Qtr. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

518 Advanced Course U 5
Three or more of the following Anglo-American and European philosophical movements will typically be surveyed: existentialism, philosophical analysis, positivism, marxism, pragmatism, and linguistic philosophy.
Sp Qtr. 5 cl.

520* American Philosophy U 3
Sp Qtr. Not open to students with credit for 613. BER/LAC/LAR course.

525 Russian Philosophy U 3
Selected topics in the history of Russian philosophy: Western influences; stoicism and Russian religious thought; philosophy of Dostoevsky and Tolstoy; Russian emigre philosophy.
Wi Qtr. Prereq: English 110 or 111 or equiv. one course in the history of philos, and permission of instructor. Fulfills in part the ASC advanced English composition requirement.
532 Moral Problems of the Health Professions U G 5
An examination of some moral problems that arise in the health professions, along with the codes, theories, and reasoning involved in their resolution.
Sp Qtr. 5 cl. Prereq.: 130, and Comp St 305, or permission of instructor. Designed for students in medicine, dentistry, and the health professions.

553 Theory of Rational Choice U G 5
Introduction to the principles and methods of the theory of rational choice, with applications in the theory of knowledge; ethics, and social, and political philosophy.
Wi Qtr. 5 cl.

H570 Junior-Senior Proseminar U G 3-5
Topics vary; emphasis on recent philosophical writing in some specific area or on some specific problem.
Au, Wi, Sp Qtr. Prereq.: 11 hrs in philos, and either 3.26 or better cumulative GPA or a ratio of 3.5 or better in philos, or permission of instructor. Repeatable to a maximum of 15 cr hrs with written permission of dept honors adviser.

General Prerequisites for Courses Numbered 600 and 700
Not open to freshmen or sophomores. Unless otherwise indicated the prerequisites for 600 and 700-level courses are 10 hrs in philosophy.

614 Medieval Philosophy U G 5
An examination of the main trends in the thought of the Middle Ages, based on a study of characteristic works of some of the most important medieval philosophers.
Sp Qtr. Prereq.: English 110 or 111 or equiv and 10 cr hrs in philos including 511, or 712 and 713. Not open to students with credit for 714. Fulfills in part the ASC advanced English composition requirement.

619+ Pragmatism U G 5
An examination of the main themes of pragmatism: pragmatic theories of truth, reality, nature of physical objects, knowledge of reality, and normative matters.
Au Qtr.

617 Existentialism U G 5
Introduction to the major doctrines of existentialism through writings of representative existentialists, such as Kierkegaard, Sartre, Jaspers, and Heidegger.
Su Qtr. Prereq.: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

621* Topics in Jewish Philosophy U G 5
The thought of a particular author or school of Jewish philosophy, e.g., Aristotelian, Neoplatonist, or Averroist; topics vary from quarter to quarter.
Wi Qtr. Prereq.: 260 or 261, or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

625 Marxist Philosophy U G 3
Classical (traditional) Marxism; dialectical materialism as elaborated in the USSR; recent development in humanistic Marxism deriving from Marx's early philosophical writings.
Wi Qtr. Prereq.: 1 course in the history of philosophy or permission of instructor.

630 Advanced Political and Social Philosophy U G 5
An intensive examination of issues in political and social philosophy, including democracy, civil disobedience, anarchism, totalitarianism, nature of the state, etc.
Sp Qtr. Prereq.: 200 or permission of instructor, and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

631 Advanced Ethical Theory U G 5
An intensive examination of representative ethical systems such as egoism, hedonism, utilitarianism, and deontology.
Au Qtr. Prereq.: 130.

641* Advanced Esthetic Theory U G 5
Selected issues in philosophy of art, e.g., truth in art, the function of criticism, concentration of study of problems dealing with a particular genre.
Wi Qtr.

650 Advanced Symbolic Logic U G 5
Advanced techniques in functional logic and proof procedures; the axiomatics of sentential logic and the lower functional calculus; introduction to the higher functional calculus.
Wi Qtr. Prereq.: 250.

652* Nonclassical Logic U G 5
Philosophical study of selected systems of nonclassical logic, such as entailment systems, modal, many valued, epistemic, deontic, imperative, tense, and free logics.
Wi Qtr. Prereq.: 650. Repeatable to a maximum of 10 cr hrs.

653* Inductive Logic and Probability U G 5
Analysis of types of empirical inference; natural law and confirmation theory; calculus and nature of probability; philosophic presuppositions of inductive inference.
Sp Qtr. Prereq.: 150 or permission of instructor.

660 Theory of Knowledge I U G 5
A survey of major epistemological problems: the possibility, origins, foundation, structure, methods, limits, types, and validity of knowledge.
Au Qtr. Prereq.: 250 or permission of instructor.

665* Metaphysics I U G 5
A survey of major metaphysical problems: categories, universals, substance and process, causality and law, space and time, metaphysical presuppositions of knowledge.
Wi Qtr. Prereq.: 250 or permission of instructor.

666 Philosophy of Law U G 5
An examination of the nature and function of law and of such problems as the relation of law to morality and the justification of punishment.
Au Qtr. 3 cl. Prereq.: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

671* Philosophy of History U G 3
An essay of representative speculative theories of history; analysis of critical problems arising in the pursuit of historical knowledge.
Sp Qtr.

672* Philosophy in Literature U G 5
Philosophical problems as reflected in classics of literature, such as the Greek dramatists, Shakespeare, Voltaire, T. S. Eliot, Proust, and Tolstoy.
Au Qtr. Prereq.: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement.

673 Philosophy of Language U G 5
Semantics and language analysis; functions of language; modes of meaning, relation of linguistic structure to metaphysics.
Sp Qtr. Prereq.: 150, or permission of instructor.

674* Philosophy of Logic and Mathematics U G 5
Analysis of basic concepts used in logic and in philosophical claims about logic and mathematics, such as: proposition, logical truth, mathematical objects, and necessity.
Wi Qtr. Prereq.: 650.

675* Philosophy of Religion U G 5
A study of religious concepts and problems; the idea and nature of God, of man, their relation to the world and human destiny.
Sp Qtr.

678* Philosophy of Science U G 3
A study of the nature and structure of scientific concepts, laws, and theories; appraisal of methodologies, presuppositions, and frames of reference in science.
Au Qtr.
677* Conceptions and Methods of the Social Sciences U G 3
Philosophic assumptions of social science; nature of explanation (methodological individualism, holism, functionalism); methods in natural and behavioral science; fact and value in social inquiry.
Wi Qtr.

693 Individual Studies U G 1-10
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept chairperson. Students ordinarily earn from 1 to 5 cr hrs, but honors students may earn up to 10 cr hrs. This course is graded S/U.

694 Group Studies U G 1-15
Au, Wi, Sp Qtrs. Prereq: Permission of chairperson. Repeatable to a maximum of 30 cr hrs.

701* Studies in Medieval Philosophy U G 5
An intensive examination of a major philosopher or philosophical problem of the period; topics vary from quarter to quarter.
Wi Qtr. Prereq: 10 cr hrs in philos including 511 or 614; or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

702* Studies in Seventeenth Century Philosophy U G 5
An intensive examination of a major philosopher or philosophical problem of the period; topics vary from quarter to quarter.
Au Qtr. Prereq: 10 cr hrs in philos including 512 or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

703* Studies in Eighteenth Century Philosophy U G 5
An intensive examination of a major philosopher or philosophical problem of the period; topics vary from quarter to quarter.
Wi Qtr. Prereq: 10 cr hrs in philos including 512, or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

704* Studies in Nineteenth Century Philosophy U G 5
An intensive examination of a major philosopher or philosophical problem of the period; topics vary from quarter to quarter.
Sp Qtr. Prereq: 10 cr hrs in philos including 513, or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

712* Philosophy of Plato U G 5
Sp Qtr. Prereq: 10 cr hrs in philos including 511.

713* Philosophy of Aristotle U G 5
Sp Qtr. Prereq: 10 cr hrs in philos including 511.

722* Kant: Critique of Pure Reason U G 5
Wi Qtr. Prereq: 10 cr hrs in philos including 513.

750* Advanced Logical Theory U G 5
Topics include Godel’s incompleteness and completeness proofs, Church’s theorem, Russell’s theories of description, relations, classes, arithmetic, logical truth, logical paradoxes; topics vary yearly.
Sp Qtr. 3 cr. Prereq: 250 and 650. Repeatable to a maximum of 15 cr hrs.

761* Theory of Knowledge II U G 5
An intensive study of a systematic epistemological treatise, such as Blanshard’s Nature of Thought, Lewis’ Mind and the World Order, or Linsky’s Revolt Against Dualism.
Sp Qtr. Prereq: 680 or permission of instructor.

764* Metaphysics II U G 5
An intensive study of a systematic metaphysical treatise.
Wi Qtr. Prereq: 685 or permission of instructor.

767* Philosophy of Mind U G 5
Classical and contemporary approaches to the nature of mind, mind-body, other minds, intentionality, and other problems.
Au Qtr.

770 Advanced Studies in Philosophy U G 3-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 21 cr hrs.

771 Selected Topics in Analytic Philosophy U G 5
Au, Wi, Sp Qtrs. Prereq: 150 and 518. Repeatable to a maximum of 21 cr hrs.

776 Problems in Philosophy of Science U G 5
An intensive examination of a major philosopher or philosophical problem of the period; topics vary from quarter to quarter.
Wi Qtr. Prereq: 10 cr hrs in philos including 512 or equiv with written permission of instructor. Repeatable to a maximum of 15 cr hrs.

7783 Honors Course U 3-5
A program of reading arranged for each student, with individual conferences, reports and papers.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of A in at least half of the philos courses taken with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 crs are required of candidates for the BA with distinction in philos. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

General Prerequisites for Courses Numbered 800 and 900
Unless otherwise indicated the prerequisites for 800 and 900-level courses are acceptable foundation courses either in general philosophy, logic and ethics, or history of philosophy, and in some cases in all these subjects.

8001* Current Philosophical Literature G 1
Current philosophical journal articles will be read and discussed.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 6 cr hrs.

811* Seminar in the History of Philosophy G 5
Au Qtr. Repeatable to a maximum of 15 cr hrs.

830* Seminar in Value Theory G 5
Sp Qtr. Repeatable to a maximum of 15 cr hrs.

850* Seminar in Logic G 5
Sp Qtr. Repeatable to a maximum of 15 cr hrs.

861* Seminar in Theory of Knowledge G 5
Su Qtr. Repeatable to a maximum of 15 cr hrs.

864* Seminar in Metaphysics G 5
Au Qtr. Repeatable to a maximum of 15 cr hrs.

873* Seminar in Philosophy of Language G 5
Wi Qtr. Repeatable to a maximum of 15 cr hrs.

875 Seminar in the Philosophy of Religion G 5
Wi Qtr. Repeatable to a maximum of 15 cr hrs.

877 Seminar in Philosophy of Science G 5
Au Qtr. Repeatable to a maximum of 15 cr hrs.
Medieval and Renaissance Culture
See Medieval 888.

899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

993 Individual Studies G 2-15
Doctoral students may register for individual study in areas not normally covered by courses.
Su, Au, Wi, Sp Qtrs. Prereq: An MA degree or at least 50 or hrs of grad study, and permission of dept chairperson. This course is graded S/U.

999 Research in Philosophy G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Photography and Cinema
205 Haskell Hall, 156 West 19th Avenue, 422-1766

201 Photography U 5
A basic course concerned with taking, printing, and presenting photographs; including technical, social, historical and aesthetic considerations.
Su, Au, Wi, Sp Qtrs. 1 lec; 2 cl; 2-2 hr lab. Not open to students with credit for 203. Students must have adjustable 35 mm camera and light meter. VPA Admis Cond course.

203 Photography for Industrial Design Majors U 3
The fundamentals of photography with emphasis on camera technique, processing and printing as utilized in graphics and design.
Sp Qtr. 2 cl; 2-2 hr lab. Prereq: Ind Dsgn 252. Not open to students with credit for 201.

220 Color Slide Photography U 3
Introduction to the technical and aesthetic foundation of color slide materials; designed for students who desire only one production course.
Su, Au, Wi, Sp Qtrs. 1 lec; 1-2 hr cl. Students should have an adjustable 35 mm camera. VPA Admis Cond course.

500 History and Systems of Film Theory U G 3
Study of historically important theories of film, with emphasis on the way each theorist deals with recurring issues concerning the general nature of the cinema.
Au Qtr. 2-2 hr cl.

502 History of Photography U G 3
Study of the history of photography and its contribution to the arts and sciences; the critical and aesthetic considerations of the photographic image.
Au, Wi Qtrs. 3 cl.

503 History of Cinema U G 3
History of the motion picture and critique at the contextual, artistic, technical, and information levels; evaluative study of selected films.
Au, Sp Qtrs. 2-3 hr cl.

505 Film Theory I U G 3
Study of the development of film theory and its relation to the other arts; aesthetic of the medium and the modes of film communication as created, viewed, and analyzed.
Wi Qtr. 2-2 hr cl. Prereq: 4th yr or grad standing.

509 Photographic Process U G 3
The principles and theories in the photographic process, including optics, chemistry, sensitometry, and nonconventional processes.
Au, Sp Qtrs. 3 cl. Prereq: 201 or 551 or written permission of instructor.

521 Intermediate Photography U G 5
Advanced techniques related to specific topics with emphasis on creative photography.
Au, Wi, Sp Qtrs. 2 cl; 2-2 hr lab. Prereq: 201 or 203.

522 Zone System U G 5
History, theory and mechanics; application of sensitometry to black and white film; its impact on the students' personal work.
Au, Wi, Sp Qtrs. 2 cl; 2-2 hr lab. Prereq: 509 and 521.

523 Lighting for Photography U G 5
Principles and lighting techniques for both objects and people. Selecting, using and maintaining lighting equipment. Examining the role of light and lighting techniques in creative photography.
Au Qtr. 2 cl; 2-2 hr lab. Prereq: 524 and permission of instructor.

524 Large Format Photography U G 5
Mechanics, aesthetics, and psychology of large format photography.
Au, Sp Qtrs. 2 cl; 2-2 hr lab. Prereq: 522 or permission of instructor.

531 Color Photography I U G 5
Principles of color photography including color theory, lighting, and recent color processes.
Au, Sp Qtrs. 2 cl; 2-2 hr lab. Prereq: 509 and 521 or equiv with written permission of instructor.

532 Color Photography II U G 5
Continuation of 531 with emphasis on color printing; consideration of the relationship of color theory and problems to motion pictures, television, and other creative and technical media.
Au, Sp Qtrs. 2 cl; 2-2 hr lab. Prereq: 531 and permission of instructor.

551 Cinema Production I U G 5
Principles and procedures in super 8mm cinema production including camera, scripting, lighting, and sound; emphasis on film as a form of visual expression.
Su, Au, Wi, Sp Qtrs. 1-2 hr cl; 2-2 hr lab. Students must have super 8mm camera.

552 Cinema Production II U G 5
Beginning 16mm film production, nonsynchronous sound.
Au, Wi, Sp Qtrs. 2-2 hr cl. Prereq: 551.

553 Cinema Production III U G 5
Intermediate 16mm film production, introd to sound to synchronous sound.
Sp Qtr. 2-2 hr cl. Prereq: 554, 555, 556, 558, and permission of instructor.

554 Scriptwriting for Film U G 3
Principles of writing fiction and nonfiction scripts; practice in writing scripts for film, video, or other audiovisual presentations; analysis and discussion of student work.
Au, Wi Qtrs. 2-2 hr cl. Prereq: 551.

555 Editorial Process U G 3
Studies for intermediate students in the styles, techniques, processes, and effect of film editing.
Wi Qtr. 2-2 hr cl. Prereq: 551.

556 Elements of Sound U G 3
The role of sound utilization in motion pictures; the recordings, reproduction and mixing of multiple sound tracks.
Wi Qtr. 2-2 hr cl. Prereq: 552.
557 Animation U G 3
Film animation as a unique form of communication and art; the techniques, styles and applications analyzed through screenings, discussions, and short studio problems.
Wi Qtr. 2 hr cl. Prereq: 551.

558 Cinematography U G 3
The study of the principles of motion picture lighting and the analysis of the psychological and aesthetic impact of lighting designs and camera work on audiences.
Wi Qtr. 2 hr cl. Prereq: 552.

574 Photography for Humanities and Science Students U G 5
For all students needing a knowledge of photography as an aid to their work: Application of photography to the humanities and sciences.
3 cl, 2 hr lab. Prereq: 3rd yr or grad standing. Not open to students with credit for 521.

590 BFA Exhibit Presentation U 1
Preparation and presentation of the student's final works in photography and/or cinema in the form of a public showing.
Su, Au, WI, Sp Qtr. Arr. Prereq: Candidacy for a BFA degree in photography and cinema. To be taken the quarter of graduation.

591 Studio Practices I U 3-5
Studio practice following and continuing the basic program of courses undertaken in the first two years.
Su, Au, WI, Sp Qtr, Arr. Prereq: Written permission of instructor and department chairman. Open only to 3rd and 4th majoring in photog. Repeatable to a maximum of 15 cr hrs.

590 Photography: The Early Years U G 3
A study of the discovery of photography and its early history, with its contribution to the arts, sciences, and society in the 19th century.
Au, WI, 2 hr cl. Prereq: 502 or permission of instructor.

601 20th Century Photography to 1940 U G 3
An in-depth survey of 20th century photographic history dealing with pictorialism, the photographic industry, straight photography, and the documentary approach to 1940.
Wi Qtr. 2 hr cl. Prereq: 502 or permission of instructor.

602 History of Photography 1940—Present U G 3
An extensive study of selected topics dealing with contemporary photographic history.
Sp Qtr. 2 hr cl. Prereq: 502 or permission of instructor.

605 Film Theory II U G 3-5
Three approaches to the cinema: dialectical, structuralist, and phenomenological; the three contemporary view-points, their achievements and ideological roots.
Sp Qtr. 2 hr cl. Prereq: 505.

606 Photographic Communication and Expression U G 3
Theoretical introduction to the photographic image and film as realist and formative modes of communication, art, language and reflection of reality.
Au, WI, 2 hr cl. Prereq: 505.

608 Reality Image I U G 5
The photograph and motion picture as images of reality; history of the documentary mode to 1945; styles and social functions.
Au, WI, 2 hr cl, 1 hr arr. Prereq: 502 or 503 or 506.

609 Reality Image II U G 5
The photographs, motion picture and television media as images of reality; history of the documentary mode from 1945 to present; styles and social patterns.
Wi Qtr. 2 hr cl, 1 hr arr. Prereq: 502 or 503 or 506.

610 Silent Cinema U G 3
An intensive study of the silent film, its growth and development of film as an international medium.
Au Qtr. 2 hr cl.

612 Sound Film: 1928-1948 U G 3
Analytical study of the most important trends of sound filmmaking; their relationship to other arts and to social and ideological currents of the period.
Wi Qtr. 3 hr cl.

614 Cinema: 1948—Present U G 3
Analytical study of the most important trends of modern filmmaking; their relationship to other arts and to contemporary social and ideological currents.
Sp Qtr. 2 hr cl.

622 American Film Genres U G 3
Study of several cinema types with uniquely American content: the western, the gangster film, the musical, the screwball comedy as expressions of social reality.
Au Qtr. 2 hr cl.

623 Film Auteurs, Authors, and Collaborators U G 3
Film as an act of directorial authorship; the screenwriter as film author; film as a collaborative art, screening and analysis of selected film examples.
Sp Qtr. 2 hr cl. Prereq: 503 or 610 or 612 or 614 or permission of instructor.

630 Film Criticism U G 5
Theories, major critical methodologies historically and currently applied to film analysis; practicum in which students begin to consciously develop a personal approach to analysis.
Sp Qtr. 2 hr cl. Prereq: Written permission of instructor.

635 Photographic Criticism U G 3
Reading, lectures and discussions dealing with the study and practice of photographic criticism to facilitate and enrich the understanding and criticism of photography.
Wi Qtr. 2 hr cl. Prereq: 506 or 521 or 608 or Art Educ 604 or permission of instructor. Not open to students with cr for Art Educ 635. Cross-listed in Art Education.

659 Cinema Production Management U G 3
Responsibilities and procedures of production management, including budgeting, production breakdown and scheduling, copyrights and clearances, laboratory coordination, and release print distribution.
Wi Qtr. 2-2 hr cl. Prereq: 552.

660 Composition for Video U G 3
Intensive writing course for video dealing with pre-visualization, script composition, dramatic structure, editing processes, and relationship of images, sounds, music, and words.
Su, WI, 2 hr cl. Prereq: 554 or permission of instructor (sample of writing should be submitted). Repeatable to a maximum of 15 cr hrs.

661 Videography U G 5
The application of cinematic aesthetics and techniques to three-quarter inch portable video production.
Au, WI, 3 hr cl. Prereq: 553 or permission of instructor. Designed for advanced cinema or media students with background in montage theory and single camera recording skills.

662 Video Production U G 5
A production team oriented approach to the creation of 20-30 minute projects that further the students' skills in the area of applying cinematic aesthetics and techniques to three-quarter inch portable video production.
Su, Sp Qtr. 3 hr cl. Prereq: 661 and permission of instructor. Repeatable to a maximum of 15 cr hrs.
686 Cinema Direction  U G 5
A study of theoretical and documentary film direction with emphasis on the director's role in relation to performance and camera direction.
Wi Qtr. 2 2-hr cl. 1 hr arr. Prereq: 553.

691 Studio Practices II  U G 3-5
Advanced studio practices beyond 591.
Su, Au, Wi, Sp Qtr. Arr. 3 1-hr cl/4 1/2-hr hr. Prereq: Written permission of instructor and department chairman. Open only to srs and grad students majoring in photog. Repeatable to a maximum of 15 or hrs.

692 Imagemakers’ Workshop I  U G 3-5
Advanced group investigation of aspects of photography and cinema, with emphasis on individual expression and creativity.
Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: Written permission of instructor. Repeatable to a maximum of 20 or hrs. Open only to srs and grad students majoring in photog.

693 Individual Studies in Photography  U G 3-5
Use of departmental facilities for adding to the student's knowledge of a specially selected photographic problem pertaining to his major field.
Su, Au, Wi, Sp Qtr. 4-8 lab hrs. Prereq: 9 or hrs in photog and permission of Instructor. Repeatable to a maximum of 18 or hrs. This course is graded S/U.

694 Group Studies in Photography and Cinema  U G 1-5
Group studies in photography and cinema.
Su, Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: Written permission of instructor. Repeatable to a maximum of 25 or hrs.

695 Topics in Photographic Production  U G 3-5
Exploration of advanced photographic work with an emphasis on production of a cohesive portfolio within the selected topic.
Wi, Sp Qtr. 2 3-hr cl. Prereq: 522 and permission of instructor. Repeatable to a maximum of 25 or hrs.
A—Architecture/Landscape
B—Illustration/Still Life
C—Fashion/Figure/Environmental Portrait
D—Social/Documentary
E—The Simple Camera
F—Polaroid
G—High Contrast Materials
H—Color: Advanced Print and Slide Show Production
I—The Grotesque in Photography

700 Selected Topics in History, Criticism, and Theory of Photography  U G 4
In-depth studies of specific movements, periods, theories, and photographers; topics vary with each offering.
Au, Wi Qtr. 2 2-hr cl. Prereq: 600, 601, and 602; or written permission of instructor. Repeatable to a maximum of 32 or hrs.
A—19th Century Photography
B—1900-1945
C—1945-Present
D—Photography, Unclassified

706 Theories of Photographic Representation and Expression  U G 5
Examination of theories of photographic meaning: the 19th century debates between romanticism and realism; recent models including semiotics, structuralism, communication theory, Marxist sociology of culture.
Sp Qtr. 2 2-hr cl. Prereq: 506 or 606 or permission of instructor.

711 Comparative Study in Film and Theatre Directing  U G 5
An analytical and descriptive study of the nature and difference of film and theatre direction.
Wi Qtr. 2 2-hr cl. Prereq: 506 and 551 and Theatre 310 and 510. Not open to students with or for Theatre 711. Cross-listed in Theatre.

789 Methods and Purposes of Research  U G 3
A study in the methods and purposes of research in the field of photography and cinema.
Au Qtr. 1 3-hr cl. Prereq: Grad standing.

790 Symposium in Photography and Cinema  U G 2
Studies in historical, philosophical, empirical or studio problems in photography and cinema.
Au, Sp Qtr. 1 2-hr cl. Prereq: 789 or equiv with written permission of instructor. Repeatable to a maximum of 6 or hrs.

792 Imagemakers’ Workshop II  U G 3-5
Advanced group investigation of aspects of photography and film, with emphasis on developing individual work.
Au, Wi Qtr. 2 2-hr cl. Prereq: 692 or permission of instructor. Repeatable to a maximum of 18 or hrs.

800 Graduate Internship in Photography and Cinema  U G 5
Planned teaching, curatorial, laboratory or field experience with academic and professional staff under faculty supervision.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Grad standing in photog or equiv with written permission of instructor. Repeatable to a maximum of 10 or hrs. May not be taken simultaneously with a TA or RA appointment.

810 Practicum in Photography and Cinema  U G 3-5
Advanced experience in the design and development of commissioned works related to institutional and community projects and problems.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs.

815 Photographic Image and Society  U G 5
Advanced group study of the nature of the photographic image; the nature of the image maker and image-making; the societal influences on photographic imagery.
2 2-hr cl. Prereq: Grad standing.

825 The Informational Film  U G 5
Design of informational films, objectives, audience analyses, production factors, film research, analysis of contemporary films, studies of film usage in selected informational systems.
Sp Qtr. 2 2-hr cl.

893 Individual Studies  G 3-5
Minor research based on assigned readings and resulting in a paper on cinema and/or photographic history, theory, or criticism.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Grad standing and written permission of Instructor and the chairman. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894 Group Studies in Photography and Cinema  G 3-5
Au, Wi, Sp Qtr. 2 2-hr cl. Prereq: Grad standing and written permission of instructor. Repeatable to a maximum of 20 or hrs.

970 Preparation of Master’s Project—Plan B  G Arr
Preparation of a master’s project for Plan B leading to the MA in photography and cinema.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Grad standing in photog and cinema. Repeatable to a maximum of 10 or hrs.

998 Research in Photography and Cinema  G Arr
Research for thesis purpose only.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Grad standing in photog. Repeatable to a maximum of 10 or hrs. This course is graded S/U.
Physical Education

The areas of specialization in physical education and the courses comprising these areas are listed below:

Exercise Science/Special Populations

129 Larkins Hall, 337 West 17th Avenue, 422-6687

Movement Arts/Outdoor Pursuits

253 Larkins Hall, 337 West 17th Avenue, 422-6787

139.01, 139.03, 139.04-139.13, 140.01-140.06, 146, 150

151.01, 151.02, 152, 154.01-154.04, 159.01, 159.02, 159.04

158.05, 161.01-161.03, 162.01-162.05, 163.01-163.04, 164.01-164.03, 165.01-165.03, 166.01, 166.02, 166, 172, 173, 177.01-177.04, 186.01-186.04, 196.01, 196.02, 197.01, 199, 199.01, 199.02

230, 240, 246, 293, 294, 325; 331.20, 692, 693, 694, 731, 832, 869, 894, 995, 995, 995, 999

Physical Education and Motor Development

309 Pomerene Hall, 1790 Neil Avenue, 422-2255

208, 211, 212, 213, 214, 215, 216, 231, 232, 233, 289.01

323, 441, 489.02, 489.05, 489.07, 489.08, 541, 586, 587, 647, 692, 693, 694, 751, 831, 851, 970, 871, 874, 876, 880, 889, 894, 995, 995, 999

Sport and Leisure Studies

201 Pomerene Hall, 1790 Neil Avenue, 422-4247

137, 139, 142.01, 142.02, 142.03, 143.02, 144A, 144B, 145.01-145.03, 150.01, 150.02, 150.01-156.03, 157.01

157.02, 160.01-160.03, 167.01, 170.01-170.03

171.01, 17.02, 174.01-174.04, 175.01-175.06, 176, 176.01-176.03, 175, 180.01, 180.02, 181.01, 161.02, 182.01-182.04

183, 185.01, 185.02, 187, 188.01-188.04, 185, 191.01, 191.02, 192, 194.01-192, 212, 221.01, 221.02, 221.04, 221.05, 221.09

221.12, 221.14, 221.16, 226, 231, 262A-2, 269.02, 269.03, 293, 294, 489.06, 530, 603.01-603.06, 603.08-603.12, 630.14, 621, 622, 623, 630.02, 631.05, 631.06, 631.09, 631.10, 631.14, 631.17, 632.02, 642, 648, 649, 690, 908, 910, 811, 830, 841, 842, 873, 875, 881.01, 881.02, 889, 894, 995, 995.01, 995; 995

Basic Instruction: 344 Larkins Hall, 337 West 17th Avenue, 423-2504; Professional Preparation: 309 Pomerene, 1780 Neil Avenue, 423-2255; Outdoor Pursuits: 253 Larkins Hall, 337 West 17th Avenue, 422-5787; Graduate Studies: 315 Pomerene Hall, 1790 Neil Avenue, 422-2115

All 100- and 200-level courses are open to all University students with the exception of 211-216, 221-233; 289.01 and 289.06 which are reserved for students intending to major in physical education or recreation education.

The minimal requirement for 600 and 700 level courses is junior standing.

Pre-registration with the dept is required for 139, 140, 151, 289 and 293. Preregistration must be completed before schedule is filed.

Unless otherwise specified all equipment is furnished. Students must provide clothing suitable for the activity and bring it to the first class meeting along with the schedule and I.D. card.

137 Sport for the Spectator U 3

A study of the great American spectator sports including football, basketball, baseball, ice hockey, golf, tennis, and others which meet the interests of the class.

Wi, Sp Qtr. 1 2-hr cl, 2-hr lab

138 National Sports and Games U 2

A study of sports and games such as cricket, lawn bowling, rugby, and sumo, which are popular in other countries.

Sp Qtr. 1 cl, 1 2-hr lab.

139 Introductory Program of Outdoor Pursuits U 1

A study of and participation in the skills and knowledge of various sports and outdoor recreational activities in a natural setting.

Minimum of 6 cl and 24 lab hrs. Arr. Not open to students who have completed a corresponding subdivision of 140. Preregistration with department required. Travel and subsistence costs for activities will be borne by the student. These courses are graded S/U.

129.01 Great II

Introduction to fresh water diving.

Sp Qtr. Prereq: 176 or equiv. Student must provide wetsuit (rentals may be available).

139.03 Backpacking I

Introduction to basic backpacking techniques, equipment, wilderness travel, emergency procedures, and environmental awareness.

Au, Sp Qtrs. Student must provide sleeping bag and hiking boots.

139.04 Cycling I

Introduction to cycle touring with an emphasis on safety, equipment repair, maintenance and trip planning.

Au, Sp Qtrs. Student must provide bicycle and sleeping bag.

139.05 Winter Backpacking

Designed for the experienced backpacker and covers winter camping, clothing, travel techniques, and advanced first aid.

Wi Qtr. Prereq: 139.03 or previous backpacking experience. Student must provide sleeping bag and hiking boots.

139.06 Skiing

Alpine and cross country skiing with instruction appropriate to various ski levels.

Wi Qtr. Prereq: Ski experience desirable. Repeatable to a maximum of 3 or hrs. Student must provide boots, poles and skis (rentals available).

139.07 Experimental Sections

Activities will be announced and publicized whenever an experimental section is deemed worthy of trial.

Au, Wi, Sp Qtrs.

139.08 Canoeing II

Use of canoeing skills on an overnight trip on or several day trips in the area.

Sp Qtr. Prereq: Small craft 177.02 or equiv. Student must provide sleeping bag on overnight trip.

139.09 Cave I

Introduction to basic caving techniques, equipment, trip planning, and safety. Cave related ecology, flora and fauna will also be emphasized.

Au, Wi, Sp Qtrs. Student must provide sleeping bag.

139.10 Lightweight Backpacking

Advanced backpacking activities including navigation, rope handling skills, and survival techniques.

Au, Sp Qtrs. Prereq: 139.03 or previous backpacking experience. Not open to students with credit for 140.03. Student must provide sleeping bag and hiking boots.

139.11 Rock Climbing

Basic rock climbing techniques, rope handling, and safety systems will be covered.

Au, Sp Qtrs. Prereq: Good physical condition. Students must provide sleeping bag, appropriate footwear for the climbing trip and a 20’ length of new 1” nylon webbing.

139.12 Beginning Trap Shooting

An introductory course covering equipment selection and maintenance, shooting techniques, scoring, safety, and the opportunities for lifetime involvement.

Sp Qtr. Cost of ammunition and targets must be borne by the student.

139.13 Orienteering

Introduction to the sport of orienteering involving compass skills, map reading, and cross-country travel; cross-country racing in its competitive form.

Sp qtr. Student must provide compass and bear transportation costs.
Outdoor Pursuits Program U 3
A study of and participation in the skills and knowledge of various sports and outdoor recreational activities in a natural setting.
Minimum of 5 3-hr training sessions; minimum of eight trip days. Repeatable to a maximum of 12 cr hrs; subdivisions may not be repeated. Prereq: Certification with dept is required.

140.01 Scuba Diving III
Introduction to ocean diving with emphasis on related ocean environment. Sp Qtr. Prereq: Scuba certification or 20 or hrs of formal scuba instruction.

140.02 Scuba Diving IV
A continuation of Scuba III with emphasis on advanced diving, regulator and tank valve repair and navigation. Sp Qtr. Prereq: Scuba III or certified diver with ocean experience.

140.03 Backpacking II
Opportunity for practice in advanced camping and outing skills on an extended trip. Sp Qtr. Prereq: Backpacking I or prior backpacking experience.

140.04 Cycling II
For the intermediate cyclist who is interested in cycle touring in all types of terrain; cycle maintenance and safety. Sp Qtr. Prereq: Cycling I or previous cycling experience.

140.05 Wilderness Exploration and Survival Techniques
Study of living in nature under controlled, stress conditions; caving, rappelling, and mountain climbing. Wi, Sp Qtrs.

140.06 Skiing
Alpine and/or cross-country skiing trips with instruction appropriate to individual skill levels. Wi Qtr. Prereq: Ski experience desirable.

140.07 Experimental Sections
Activities deemed worthy of developing on an experimental basis. Activities will be announced and published when course is offered.

Au, Wi, Sp Qtrs.

140.08 Sailing
An introduction to deep water sailing and experience in handling and crewing a large sailing craft. Sp Qtr. Prereq: Ability to swim 100 yards and tread water 5 minutes; previous sailing experience recommended. Student must provide sleeping bag and obtain certified first certificate or passport for trips on international waters. Travel and subsistence costs for activities will be borne by the student.

Adapted Physical Education Activities U 1
Special sections of conditioning and sport activities open only to students with temporary or permanent physical disabilities which would prevent their participation in regular classes.

Au, Wi, Sp Qtrs. 2 lab hrs arr. Repeatable to a maximum of 12 cr hrs. Offerings to be announced quarterly. Students register for desired section using alphabetical designation.

A—Archery
B—Badminton
C—Billiards
D—Bowling
E—Special Conditioning
F—Golf
G—Riflery
H—Basic Swimming
I—Table Tennis
J—Tennis

142 Archery
Repeatable to a maximum of 3 cr hrs; subdivisions not repeatable.

142.01 Archery I U 1
Introductory skills and knowledge essential for target shooting. Au, Sp Qtrs. 2 lab hrs arr.

142.02 Archery II U 2
Intermediate skills essential for target shooting and an introduction to field archery. Sp Qtr. 2-3 hr labs. Prereq: 142.01 or equiv.

142 Badminton U 1
2 lab hrs arr. Repeatable to a maximum of 2 cr hrs; subdivisions not repeatable.

143.01 Badminton I
Beginning skills and knowledge essential for playing badminton. Au, Wi Qtrs.

143.02 Badminton II
Continuation of 143.01, with emphasis on advanced strategy in doubles and singles; intermediate skills. Sp Qtr. 2 lab hrs arr. Prereq: 143.01 or equiv racquet sport experience.

144 Basketball U 1
Skill and strategy necessary for playing basketball. Wi, Sp Qtrs. 2 lab hrs arr. Prereq: Previous playing experience. Those with varsity experience should elect 631.02. Registration must include letter designation.

A—Women
B—Men

145 Bowling U 1
2 lab hrs arr. Repeatable to a maximum of 3 cr hrs; subdivisions not repeatable. Students must provide bowling shoes (rentals available) and have ID card.

145.01 Bowling I
Introductory skills and knowledge essential for bowling. Su, Au, Wi, Sp Qtrs.

145.02 Bowling II
Emphasis on improving the average through increased efficiency in the use of the hook ball and spot bowling. Su, Au, Wi, Sp Qtrs. Prereq: 145.01 or ability to average at least 125.

145.03 Bowling III
Advanced skills necessary for competitive bowling. Au, Sp Qtrs. Prereq: 145.02 or ability to average over 150 with a hook ball.

146 Boxing for Beginners U 1
Fundamentals of boxing.

Au, Wi, Sp Qtrs. 2 lab hrs arr.

147 Conditioning Activities U 2
Lecture material covering principles of conditioning is applied in the activity section which the student elects. Su, Au, Wi, Sp Qtrs. 1 cr, 3-1 hr lab. Register for desired laboratory sections using alphabetical designation.

A—Circuit Training
B—Ice Skating
C—Jogging
D—Nautilus Training
E—Posture and Figure Control
F—Swimming
G—Weight Training
H—Diet and Exercise
I—Prescriptive Exercise
J—Rhythmic Aerobics

148 Lifetime Fitness Programs U 1
Continued application of the principles covered in 147. Su, Au, Wi, Sp Qtrs. 3-1 hr labs. Prereq: 147. Repeatable to a maximum of 2 cr hrs; subdivisions not repeatable. Register for desired laboratory sections using alphabetical designation.

A—Circuit Training
B—Ice Skating
C—Jogging
D—Nautilus Training
E—Posture and Figure Control
F—Swimming
G—Weight Training
H—Diet and Exercise
I—Prescriptive Exercise
J—Rhythmic Aerobics

150 Dance—Folk U 1
Folk dances of selected countries including American folk dances. Wi Qtr. 2 lab hrs arr. Women register for 150A and men for 150B to insure even partner pairings. VPA Admis Cond course.
151 Dance—Social
2 lab hrs arr. Repeatable to a maximum of 3 or hrs; subdivisions not repeatable. Women register for 151A01 or 151A02 and men for 151B01 or 151B02 to insure even partner pairings. VPA Admis Cond courses.

151.01 Social Dance I U 1
An introduction to various social dance styles including waltz, fox trot, rumba, jitterbug, cha-cha, tango, hustle, swing, disco and/or other current dances.
Au, Wi, Sp Qtrs.

151.02 Social Dance II U 2
Advanced skills and techniques of social dance styles including waltz, fox trot, rumba, jitterbug, cha-cha, tango, hustle, swing, disco and/or other current dances.
Wi, Sp Qtrs. Prereq: 151.01 or equiv.

152 Dance—Square U 1
Introductory skills and knowledge essential for performing American square dances.
Wi Qtr. 2 lab hrs. Women register for 152A and men for 152B to insure even partner pairing. VPA Admis Cond course.

154 Fencing
Repeatable to a maximum of 4 or hrs; subdivisions not repeatable.

154.01 Fencing I U 1
Fundamentals of foil fencing.
Au, Wi, Sp Qtrs. 2 lab hrs arr.

154.02 Fencing II U 1
Continuation of 154.01 with emphasis on the bout.
Wi, Sp Qtrs. 2 lab hrs arr. Prereq: 154.01 or equiv.

154.03 Fencing III U 2
Intermediate-advanced skills of foil fencing; introduction to epee and saber; students will begin specializing in one weapon.
Sp Qtr. 4 lab hrs arr. Prereq: 154.02 or 154.04 or equiv.

154.04 Intensive Elementary Fencing U 2
Beginning-elementary fencing for students wishing to acquire the basic skills in one quarter.
Au, Wi Qtrs. 4 lab hrs arr. Not open to students with credit for 154.01, 154.02, or 154.03.

154.05 Stage Fencing U 1
A study of fencing skills to prepare theatre students to play and carry out fight scenes.
Au Qtr. 2 hr labs. Open only to theatre majors.

155 Field Hockey U 1
Au Qtr. 2 lab hrs arr.
Repeatable to a maximum of 2 or hrs; subdivisions not repeatable.

156 Football U 1
Fundamental skills of touch football.
Au Qtr. 2 lab hrs arr.

156.01 Touch Football for Women
Elementary skills and play.

156.02 Touch Football for Men
Elementary-intermediate skills.
Prereq: Previous playing experience presumed. Not open to students with varsity experience.

156.03 Flag Football
Co-ed sections for experienced touch football players.

157 Golf U 1
2 lab hrs. Repeatable to a maximum of 2 or hrs; subdivisions not repeatable.

157.01 Golf I
Introductory skills and knowledge preparatory to course play with emphasis on irons.
Au, Wi, Sp Qtrs.

157.02 Golf II
Continuation of 157.01 with emphasis on woods and on introduction to course play.
Au, Sp Qtrs. Prereq: 157.01 or equiv. Advanced players should elect 631.06.

158 Gymnastic Apparatus U 1
2 lab hrs arr. Repeatable to a maximum of 3 or hrs; subdivisions 158.01 and 158.04 not repeatable.

158.01 Women's Apparatus I
Introduction to the four Olympic gymnastic events for women: floor exercise, vaulting, beam and uneven parallel bars.
Au, Wi, Sp Qtrs.

158.02 Women's Apparatus II
Continuation of 158.01 with emphasis on learning progressively more challenging movement and routines; students begin specializing.
Au, Wi, Sp Qtrs. Prereq: 158.01 or previous experience. Repeatable to a maximum of 2 or hrs. Advanced students should elect 631.05.

158.04 Men's Apparatus I
Introduction to the six Olympic gymnastics events for men: floor exercise, side horse, rings, vaulting, parallel bars, and horizontal bar.
Au, Wi Qtrs.

158.05 Men's Apparatus II
Continuation of 158.04 with emphasis on learning progressively more challenging movement and routines.
Wi, Sp Qtrs. Prereq: 158.04 or previous experience. Repeatable to a maximum of 2 or hrs. Advanced students should elect 631.05.

160 Handball
Repeatable to a maximum of 2 or hrs; subdivisions not repeatable. Student must provide handball glove.

160.01 Handball I U 1
Beginning skills and knowledge necessary for playing handball.
Au, Wi, Sp Qtrs. 2 lab hrs arr.

160.02 Handball II U 1
Continuation of 160.01 with emphasis on the use of strategy in the playing situation.
Sp Qtr. 2 lab hrs arr. Prereq: 160.01 or equiv.

161 Horseback Riding U 1
Au, Wi, Sp Qtrs. 3 lab hrs arr. Repeatable to a maximum of 3 or hrs; subdivisions not repeatable. Travel and stable costs (rental of horse and equipment) for activities must be borne by the student. Offered only when arrangements can be made with local stables. Preregistration with dept required. These courses are graded S/U.

161.01 Horseback Riding I
Fundamental skills and knowledge essential for safe riding.

161.02 Horseback Riding II
Continuation of 161.01 with emphasis on improved form and control of the horse.
Prereq: 161.01 or knowledge of canter leads and ability to post diagonals.

161.03 Horseback Riding III
Introductory skills of jumping with stress on hunt seat and low jumps.
Prereq: 161.02 or equiv.

162 Ice Skating
Basic skills of ice skating.
Repeatable to a maximum of 4 or hrs; subdivisions not repeatable. Students must provide skates (rentals available).

162.01 Ice Skating I U 1
Fundamentals of balance, movement and safety on the ice; forward, backward and stopping. Guidance in choice, use and care of equipment.
Au, Wi, Sp Qtrs. 3 lab hrs arr. Open only to beginners. This course is graded S/U.

162.02 Ice Skating II U 1
Elementary skating with emphasis on correct technique for basic skills.
Au, Wi, Sp Qtrs. 2 lab hrs arr. Prereq: 162.01 or ability to skate forward, backward and stop with no balance problems.
162.03 Ice Skating III U 2
Power skating: designed for persons having had more than 30 hrs on ice and who can execute the basic strokes (including back crossovers) with correct techniques.
Wi, Sp Qtr. 4 lab hrs. Prereq: 162.02 or 162.04 or equiv skill level.

162.04 Intensive Ice Skating U 2
Skills of 162.01 and 162.02 are covered in one quarter.
Wi Qtr. 4 lab hrs. Not open to students with credit for 162.02 and/or 162.03.

162.06 Figure Skating I U 2
Introduction to partner skating; how to lead and partner a variety of stroking patterns to various types of music.
Wi Qtr. 1 2-hr lab. Prereq: 162.01 or equiv. Students must provide skates (rentals available).

163 Figure Skating
Figure skating skills and techniques including the elements of free skating and compulsory figures. Repeatable to a maximum of 5 cr hrs; subdivisions not repeatable. Students must provide figure skates (no rentals available).
VPA Admin Cond courses.

163.01 Figure Skating I U 2
Lectures: survey of figure skating includes history, types of competition, judging, recreational and show skating. Lab: introduction to free skating, compulsory figures and dance skating.
Au, Sp Qtr. 1 cl, 3 lab hrs. Prereq: 163.03 or permission of instructor.

163.02 Figure Skating II U 2
Intermediate and advanced freestyle; Intermediate: all single jumps, basic spins, advanced footwork; advanced jump combinations, spin combinations, double jumps.
Wi Qtr. 3 lab hrs. Prereq: 163.01 or permission of instructor.

163.03 Creative Skating U 2
Skating as a vehicle of movement exploration and artistic expression; performance skating for individuals and groups.
Sp Qtr. 2 2-hr labs. Prereq: Previous instruction in figure skating or permission of instructor.

163.04 Ice Dancing U 2
Introduction to ice dancing; elements of dancing on ice with a partner.
Sp Qtr. 2 2-hr labs. Prereq: 162.05 or 162.03, or equiv. Students must provide skates (rentals available).

164 Ice Hockey U 1
Fundamental skills and knowledges essential for playing ice hockey.
2 lab hrs arr. Repeatable to a maximum of 2 cr hrs; subdivisions not repeatable. Students must provide hockey skates (rentals available).

164.01 Ice Hockey I
Introductory skills and techniques of ice hockey.
Wi, Sp Qtr. Prereq: 162.02 or equiv. Open only to beginners.

164.02 Ice Hockey II for Women
Intermediate-advanced play.
Wi, Sp Qtr. Prereq: 164.01 or previous playing experience.

164.03 Ice Hockey II for Men
Intermediate-advanced play.
Sp Qtr. Prereq: 164.01 or previous playing experience.

165 Judo
2 lab hrs arr. Repeatable to a maximum of 3 cr hrs; subdivisions not repeatable.

165.01 Judo I U 1
Introductory skills and knowledge essential in throwing techniques and mat work of Judo.
Au, Wi, Sp Qtr.

165.02 Judo II U 2
Intermediate skills and techniques of Judo as well as an introduction to the skills involved in competitive Judo.
Wi, Sp Qtr. 2 2-hr labs. Prereq: 165.01 or certified Gokyu by National Collegiate Judo Association.

165.03 Judo III U 2
Advanced skill acquisition in techniques of sport Judo and experience in competitive Judo.
Sp Qtr. 2 2-hr labs. Prereq: 165.02 or certified Yorikyu by National Collegiate Judo Association.

166 Karate
Repeatable to a maximum of 3 cr hrs; subdivisions not repeatable.

166.01 Karate I U 1
Introduction to the fundamental forms and techniques of Karate.
Au, Wi, Sp Qtr. 2 lab hrs.

166.02 Karate II U 2
The refinement of basic forms and techniques and the introduction of advanced forms; more emphasis on free fighting.
Au, Wi, Sp Qtr. 4 lab hrs arr. Prereq: 166.01 or equiv.

167 Lacrosse U 1
Skills and knowledge essential for playing Lacrosse.
Sp Qtr. 2 lab hrs arr.

167.01 Women’s Lacrosse

167.02 Men’s Lacrosse

168 Movement and Self Awareness U 1
Student’s natural movement vocabulary is expanded and extended through movement experiences designed to heighten self and social awareness; creative rather than imitative approach is used.
Wi, Sp Qtr. 2 lab hrs arr.

170 Racquetball
Repeatable to a maximum of 4 cr hrs; subdivisions not repeatable.

170.01 Racquetball I U 1
Beginning skills and knowledge for students with no prior experience in racquetball.
Au, Wi, Sp Qtr. 2 lab hrs arr.

170.02 Racquetball II U 1
Continuation of 170.01 with emphasis on strategy and the playing of singles.
Au, Wi, Sp Qtr. 2 lab hrs arr. Prereq: 170.01 or equiv.

170.03 Racquetball III U 2
Participation in both singles and doubles with emphasis on strategy and competition.
Sp Qtr. 4 lab hrs arr. Prereq: 170.02 or equiv.

171 Riffley U 1
Au, Wi, Sp Qtr. 1 2-hr lab. Repeatable to a maximum of 2 cr hrs; subdivisions not repeatable.

171.01 Riffley I
Introduction to target shooting techniques in the prone and standing positions.

171.02 Riffley II
A continuation of 171.01 stressing the other shooting positions.
Prereq: 171.01 or Wi So 112 or equiv.

172 Self Defense U 1
Skills and understandings essential to defend oneself against an aggressor with emphasis on avoiding attack.
Au, Wi, Sp Qtr. 2 lab hrs arr.

1731 Snow Skiing U 1
Introductory skills and knowledges essential for skiing.
Wi Qtr. 1 2-hr lab. Open only to beginners. See 139 and 140 for additional offerings. This course is graded S/U.

174 Soccer U 1
Techniques and knowledge essential for playing soccer.
Au Qtr. 2 lab hrs arr. Repeatable to a maximum of 2 cr hrs; subdivisions not repeatable.

174.01 Women’s Soccer I

174.02 Women’s Soccer II
Prereq: 174.01 or previous playing experience.
174.03 Men's Soccer I
Open only to men with little or no soccer experience.
Prereq: 174.03 or previous playing experience.

175 Softball U 1
Skills and knowledge necessary for playing softball.
Sp Qtr. 2 lab hrs arr. Repeatable to a maximum of 2 or hrs; subdivisions not repeatable. Advanced students should elect 155.10.

175.01 Women's Slo Pitch I
Not open to students with credit for 175.03. Open only to women with little or no softball experience.

175.02 Women's Slo Pitch II
Prereq: 175.01 or 175.02 or intermediate level skills. Not open to students with credit for 175.04.

175.06 Men's Slo Pitch I
Open only to students with little or no softball/baseball experience.

175.07 Men's Slo Pitch II
Prereq: 175.06 or intermediate skills.

176 Squash U 1
Introductory skills and knowledge essential for playing squash.
Sp Qtr. 2 lab hrs arr.

177 Small Craft Operation
Introduction to the operation of various types of small craft; emphasis on basic skills and safety procedures.
Prereq: Swim a minimum of 100 yards without stopping. Repeatable to a maximum of 4 or hrs; subdivisions not repeatable.

177.02 Canoeing I U 1
Basic paddling skills.
Au, Sp Qtr. 2 lab hrs arr. Open to students with little or no canoeing experience. See 139 and 140 for additional offerings.

177.03 Sailing I U 1
Basic sailing procedure: sailing canoes are used.
Au, Sp Qtr. 2 lab hrs arr.

177.04 Instructorship in Small Craft U 2
Designed to lead to certification with the American Red Cross in canoeing.
Sp Qtr. 4 lab hrs arr. Prereq: 177.02 or equiv.

178 Swimming and Diving U 2
Fundamental swimming and diving skills with emphasis on personal safety.
Au, Wi, Sp Qtrs. 4 lab hrs arr. Repeatable to a maximum of 4 or hrs; subdivisions not repeatable. Student must provide bathing suit. See 147 and 148 for swim conditioning.

178.01 Swimming I
Beginning swimming.
Open only to non-swimmers and students with no deep water experience. This course is graded S/ U.

178.02 Swimming II
Elementary swimming skills for those who can swim in deep water but no farther than 2 pool lengths (50 yards).

178.03 Swimming III
Intermediate skills for those who can swim at least 100 yards using the front crawl and at least 2 other strokes.
Prereq: 178.01 or equiv.

178 Skin and Scuba Diving U 3
Skills and knowledge essential for safe diving and preparation for open water checkout dives.
Au, Wi, Sp Qtrs. 2 cl, 2 lab hrs arr. Prereq: Ability to swim 1/2 mile in 10 min. Student must provide bathing suit and bear cost of required special scuba medical exam. See 139 and 140 for additional offerings.

180 Springboard Diving
Au, Wi, Sp Qtrs. Prereq: 178.02 or equiv. Repeatable to a maximum of 3 or hrs; subdivisions not repeatable. Student must provide bathing suit.

180.01 Springboard Diving I U 1
Fundamentals of diving from the one meter (low) board.
2 lab hrs arr.

180.02 Springboard Diving II U 2
Intermediate diving skills.
4 lab hrs arr. Prereq: 180.01 or the ability to perform the following dives: front, back, inward, 1½ twist, somersaults (front and back).

181 Synchronized Swimming U 1
Wi, Sp Qtrs. 2 lab hrs arr. Prereq: 178.03 or equiv. Repeatable to a maximum of 2 or hrs; subdivisions not repeatable. Student must provide bathing suit. VPA Admis Cond courses.

181.01 Synchronized Swimming I
Skills necessary for basic synchronized swimming.

181.02 Synchronized Swimming II
Intermediate skills of synchronized swimming.
Prereq: 181.01 or previous synchronized experience.

182 Life Saving and Water Safety
Repeatable to a maximum of 9 or hrs; subdivisions not repeatable. Student must provide bathing suit.

182.01 Advanced Swimming and Life Saving U 2
Designed to lead to American Red Cross Advanced Life Saving certification.
Au, Wi, Sp Qtrs. 4 lab hrs arr. Prereq: 178.03 or equiv.

182.02 Water Safety Instructors U 2
Designed to lead to certification as an American Red Cross Water Safety Instructor.
Au, Wi, Sp Qtrs. 4 lab hrs arr. Prereq: Unexpired advanced lifesaving certificate.

182.03 Handicapped Swimming Instructor U 2
Designed to lead to certification as an American Red Cross Handicapped Swimming Instructor.
Sp Qtr. 1 cl, 1 2-hr lab. Prereq: Current ARC Water Safety Instructor's certificate or 662 or permission of the instructor.

182.04 Pool and Beach Operation U 3
Operational aspects including office and personnel, budgeting, public relations, recreation and safety, equipment operation and maintenance, water filtration, recirculation and sanitation.
Sp Qtrs. 3 cl. Prereq: Unexpired ARC Water Safety Instructorship or concurrent registration in 182.02.

183 Water Polo U 2
Introductory skills and knowledge essential in the sport of water polo.
Sp Qtr. 4 lab hrs arr. Prereq: 178.03 or equiv. Student must provide bathing suit.

185 Table Tennis U 1
Au, Wi, Sp Qtrs. 2 lab hrs arr. Repeatable to a maximum of 2 or hrs; subdivisions not repeatable.

185.01 Table Tennis I
Beginning skills and knowledge essential for playing table tennis with emphasis on the use of backspin and topspin in the singles game.

185.02 Table Tennis II
Continuation of 185.01 with emphasis on advanced strokes and their application in the playing of singles and doubles.
Prereq: 185.01 or the ability to do backspin and topspin serves.

186 Martial Art Forms U 1
An exploration and orientation to Eastern movement martial art forms.
Au, Wi, Sp Qtrs. 2 lab hrs arr. Repeatable to a maximum of 4 or hrs; subdivisions not repeatable. For courses in Judo and Karate see 165 and 166.

186.01 Tai Chi Ch'uan
An introduction to Tai Chi Ch'uan with emphasis on an exploration of body/energy awareness.
Not open to students with credit for 186.
188 Tennis
Skills and knowledge essential in playing tennis.
Au, Su Qtrs. Repeatable to a maximum of 4 or hrs.; subdivisions not repeatable. Students must provide racket and 3 balls; advanced students should elect 188.10.
188.01 Tennis I U 1
Beginning skills; tone, hand, backhand and serve—singles play.
2 lab hrs arr.
188.02 Tennis II U 1
Elementary skills; introduction to doubles play.
2 lab hrs arr. Prereq: 188.01 or equiv.
188.03 Tennis III U 2
Continuation of 188.02 with emphasis on playing strategy for both doubles and singles.
4 lab hrs arr. Prereq: 188.02 or 188.04 or equiv.
188.04 Intensive Tennis U 2
188.01 and 188.02 are included in one quarter for students desiring an intensive experience.
4 lab hrs. Not open to students who can qualify for 188.02.
189 Track and Field I U 1
Introductory skills, knowledge and conditioning for various track and field events.
Wi Qtr. 3 lab hrs arr. Not open to students with varsity experience. This course is graded S/U.
190 Acro Sport
Repeatable to a maximum of 4 or hrs.; subdivisions not repeatable.
190.04 Acro Sport I U 1
Basic skills of the areas of trampoline, tumbling, and hand balancing.
Au, Wi Qtrts. 2 lab hrs.
190.05 Acro Sport II U 2
Continuation of 190.04 with emphasis on routine construction for competition or exhibition.
Wi, Sp Qtrts. 4 lab hrs arr. Prereq: 190.04.
191 Volleyball U 2
4 lab hrs arr. Repeatable to a maximum of 4 or hrs.; subdivisions not repeatable. Advanced students should elect 191.14.
191.01 Volleyball I
Introduction to power volleyball.
Au, Wi, Sp Qtrts.
191.02 Volleyball II
Continuation of power volleyball fundamental skill perfection and game strategies woven to produce an intermediate playing experience.
Au, Wi, Sp Qtrts. Prereq: 191.01 or equiv.
192 American Folk-style Wrestling U 1
Skills, techniques and knowledge of American amateur wrestling.
Wi Qtr. Not open to students with credit for 192.01.
195 Yoga U 1
Introduction to fundamental techniques and basic yogic principles of pranayama (breath control), asana (postures), relaxation and meditation. Emphasis on major postures.
Au, Wi, Sp Qtrts. 2 lab hrs arr.
196 Varsity Squads U 2
Participation as a player on a varsity squad.
Au, Wi, Sp Qtrs. 6 lab hrs; Prereq: Admission by tryout. Repeatable to a maximum of 10 or hrs in any combination of decimal subdivisions. These courses are graded S/U.
196.01 Baseball
196.02 Basketball
196.03 Cross Country
196.04 Fencing
196.05 Field Hockey
196.06 Football
196.07 Golf
196.08 Gymnastics
196.09 Ice Hockey
196.10 Lacrosse
196.11 Pistol
196.12 Riffle
196.13 Soccer
196.14 Softball
196.15 Swimming and Diving
196.16 Swimming (Synchroinded)
196.17 Tennis
196.18 Track
196.19 Volleyball
196.20 Wrestling
208 Orientation to Physical Education U 2
Consideration of personal competencies essential for effective teaching, research, recreation, coaching; investigation of areas of concentration; relationships to other disciplines.
Au, Wi Qtrts. 2 cl.
211 Physical Education Activities U 1
Instructions in the techniques of skills, rules, strategies, and the social behavior involved in sports and dance activities.
Au Qtr. 3 lab hrs. Open only to students planning to major in physical education or recreation education. Not open to students with credit for 111 or 114.
212 Physical Education Activities U 1
Continuation of 211.
Wi Qtr. 3 lab hrs. Open only to students planning to major in physical education or recreation education. Not open to students with credit for 112 or 115.
213 Physical Education Activities U 1
Continuation of 212.
Sp Qtr. 3 lab hrs. Open only to students planning to major in physical education or recreation education. Not open to students with credit for 113 or 116.
214 Physical Education Activities U 3
To develop knowledge, understandings, and skills in the basic activities appropriate to the teacher of physical education.
Au Qtr. 5 2-hr. labs. Open only to students planning to major in physical education or recreation education. Not open to students with credit for 131.
215 Physical Education Activities U 3
Continuation of 214.
Wi Qtr. 5 2-hr labs. Open only to students planning to major in physical education or recreation education. Not open to students with credit for 132.
216 Physical Education Activities U 3
Continuation of 215.
Sp Qtr. 5 2-hr. labs. Open only to students planning to major in physical education or recreation education. Not open to students with credit for 133.
221 Sports Officiating U 2
Study of playing rules, rule interpretation, techniques and mechanics of officiating various interscholastic and intercollegiate athletic sports.
2 cl. Prereq. Satisfactory evidence of playing skill in the elected athletic sport. Repeatable to a maximum of 12 cr hrs. subdivisions not repeatable.
221.01 Baseball
Sp Qtr.
221.02 Basketball
Au, Wi Qtr. Students completing the course are eligible for certification to officiate in Ohio schools.
221.04 Football
Au Qtr. Students completing the course are eligible for certification to officiate in Ohio schools.
221.05* Gymnastics
Wi Qtr.
221.06* Aquatics
Wi Qtr.
221.12 Wrestling
Au Qtr. Students completing the course are eligible for certification to officiate in Ohio schools.
221.14 Volleyball
Au Qtr.
221.15 Softball
Sp Qtr.

230 Nature of Human Movement U 3
The study of human movement, including its organization, significance and cultural implications. Kleinman and staff.
Au, Wi, Sp Qtrs. 3 2-hr cl and lab.

231 Physical Education Activities U 1
Designed to develop knowledge, understandings, and skills in the basic activities appropriate to the teacher of physical education.
Au, Wi, Sp Qtrs. 3 1-hr labs. Open only to phys ed and recreation education majors.

232 Physical Education Activities U 1
Continuation of 231.
Au, Wi, Sp Qtrs. 3 1-hr labs. Open only to phys ed and recreation education majors.

233 Physical Education Activities U 1
Continuation of 232.
Au, Wi, Sp Qtrs. 3 1-hr labs. Open only to phys ed and recreation education majors.

240 The Wilderness Traveler U 3
Introduction to wilderness recreation skills and equipment, philosophies of wilderness experience, and wilderness management issues.
Su, Sp Qtrs. 2 1-hr cl, 1 weekend and 1 extended trip. Prereq: Concur registration in Comp St 231. Students must supply hiking boots, sleeping bag, and personal clothing for trips. Travel and subsistence costs must be borne by the student.

260 Sport in Contemporary America U 3
A study of the contemporary sport scene in America; the issues, the controversies confronting the athlete, the coach, the administrator and the general public. Adelman. Wi Qtr. 1 1½-hr cl; 1 1½ hr rec.

261 Perspectives of Sport U 3
Sport as it extends into the areas of history, art, literature, and psychology; its meaning in our lives. Nelson. Sp Qtr. 2 1½-hr cl.

262 Coaching the Young Athlete U 3
Skills and knowledges essential to planning, coaching and supervising competitive sports programs which are consistent with the needs of children.
Au, Wi, Sp Qtrs. 1 2-hr cl and 1 2-hr lab. Not open to physical education majors. Register for desired lab section using alphabetical designation.
A—Baseball/Swimming
B—Basketball
C—Football
D—Swimming
E—Other

264 Feldenkrais Movement Education U 1
AWARENESS THROUGH MOVEMENT: DEVELOPMENTAL MOVEMENT PATTERNS; RELAXATION; CLARITY OF INTENTION; STRUCTURAL SUPPORT; FUNCTIONAL PATTERNS.
Au, Wi, Sp Qtrs. 1 2-hr cl. Repeatable to a maximum of 3 cr hrs.

289 Directed Field Experience U 2-5
Pre-registration with department required. Repeatable to a maximum of 20 cr hrs.

289.01 Introductory Experiences in a School System
For students seeking admission to professional status in physical education.
Au, Wi, Sp Qtrs.

289.02 Coaching the Young Athlete
Au, Wi, Sp Qtrs. Prereq: 262. Not open to students who have been accepted into the physical education major program.

289.03 Teaching Youth Groups
Au, Wi, Sp Qtrs. Prereq: 262 or 182.02 or other appropriate skill/methods courses with permission of instructor. Not open to physical education majors.

293 Individual Studies U 1-4
For individuals not majoring in physical education who wish to pursue special studies in work not normally offered in courses.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

294 Group Studies U 1-5
For groups of students not majoring in physical education who wish to pursue special studies or recreational sports activities.
Au, Wi, Sp Qtrs. Arr. Prereq: Permission of dept required. Repeatable to a maximum of 10 cr hrs.

323 Creative Physical Education for Elementary Teachers U 3
Theory of physical activities as a medium for creative self-expression, exploration of rhythmic, individual and group activities and their relationship to development of children.
Au, Wi, Sp Qtrs. 2 2-hr labs. Not open to students with credit for 241.

360 Kinesiology U 4
Au, Wi, Sp Qtrs. 3 cl, 1 2-hr lab. Prereq: Zoology 235.

414 Science of Development Through Activity U 4
A systematic study of factors in human movement which affect the physiological development of the organism. Bartels and Kirby.
Au, Wi, Sp Qtrs. 3 cl, 1 2-hr lab. Prereq: Zoology 232.

441 Motor Development U 3
Study of the development of fundamental motor skills growth, children's physical fitness and the influence of sociological and psychological factors on the motor behavior of children.
Herrick.
Wi, Sp Qtrs. 3 cl. Prereq: Recommended 360, Educ 451, and Zoology 232.
460 Kinesiology for Dancers U 3
Scientific study of dance movements including functional anatomy, basic mechanics, flexibility and injury prevention. Simonian.
Wi Qtr. 2 1/2-hr cr. Prereq: 10 cr hrs in biological sciences.

489 Advanced Field Experience U 2-5
Directed teaching experience for advanced undergraduate students in physical education. Prereq: Permission of instructor or acceptance into physical education program. Repeatable to a maximum of 20 credit hours.

489.02 Peer Teaching U 2
Designed to provide advanced graduate students with field experience in teaching peers and to assist students in the analysis of their own and other's teaching capabilities.
Au, Wi, Sp Qtrs. 2 c.

489.04 Teaching in Adapted Physical Education U 2
Experience in assessing and programming of gross motor activities with emphasis on teaching experience with handicapped children.
Wi, Sp Qtrs. 1 c, 2 hr arr.

489.05 Interscholastic Coaching U 2-5
Su, Au, Wi, Sp Qtrs.

489.07 Secondary School Programs U 2-5
Au, Wi, Sp Qtrs.

489.08 Elementary School Programs U 2-5
Au, Wi, Sp Qtrs.

489.09 Teaching of Sport and Dance in College Programs U 2-5
Su, Au, Wi, Sp Qtrs.

541 Physical Education and the Elementary School Child U 5
The study of content, program design and teaching techniques appropriate to the elementary school child. Brenner.
Wi, Sp Qtrs. 2 c, 3 2-hr labs. Prereq: 230, 489.02 and Educ 451. 489.08 must be scheduled concur for 2 cr.

588 Student Teaching in Physical Education in Elementary Schools U 7
Observation, participation, and responsible teaching in a public school; individual and group conferences or seminars.
Au, Wi, Sp Qtrs. Prereq: 489.08, 541, and 4th yr standing in education. 15 cr hrs of student teaching is required. Students desiring state certification in grades K-6 must elect 7 cr hrs of 588 and 8 hrs of 587. This course is graded S/U.

587 Student Teaching in Physical Education in Secondary Schools U 8 or 15
Observation, participation, and responsible teaching in a public school; individual and group conferences or seminars.
Au, Wi, Sp Qtrs. Prereq: 230, 489.07 and 4th yr standing in education. 15 cr hrs of student teaching are required. Students desiring state certification in grades 7-12 only may elect all 15 cr hrs in 587; others will combine 8 cr hrs of 587 with 7 cr hrs of 586. This course is graded S/U.

General Prerequisite for Courses Numbered 600 or 700
The minimal requirement for 600 and 700 level courses is junior standing.

620 Coaching of Athletic Sports
Study in the theory, strategy and mechanics of coaching various interscholastic, intercollegiate athletic sports. 2 c, 2 lab hrs. Prereq: Advanced skill level in the selected sport, jr standing and permission of instructor. Repeatable to a maximum of 18 cr hrs; subdivisions not repeatable, except 620.09.

620.01 Baseball U G 3
Wi Qtr.

620.02 Basketball U G 3
Au, Sp Qtrs.

620.03* Fencing U G 2
Wi Qtr.

620.04 Football U G 3
Sp Qtr.

620.05* Gymnastics U G 3
Wi Qtr.

620.06* Golf U G 2
Au Qtr.

620.08* Soccer U G 3
Au Qtr.

620.09 Aquatics U G 3
Sp Qtr.

620.10 Tennis U G 2
Wi Qtr.

620.11 Track and Field U G 3
Wi Qtr.

620.12 Wrestling U G 2
Sp Qtr.

620.14 Volleyball U G 2
Sp Qtr.

621 Principles of Physical Education U G 5
Origins and nature of modern physical education as developmental experience and medium of education; contributions to organic growth, personal resources, and growth in social relationships. Nelson.
Au, Wi, Sp Qtrs. 5 cr. Prereq: Major or minor in phys ed, or permission of instructor.

622 History of Physical Education and Sports from Ancient Times to Nineteenth Century Europe U G 3
A history of physical education and sports which includes primitive societies, Greek and Roman civilizations, the medieval period, and European countries in the 18th and 19th centuries.
Au Qtr. 3 1-hr cl.

623 History of Physical Education and Sports in the United States U G 3
The development of physical education and sports in the United States from colonial times to the present and the factors which have affected their growth.
Wi Qtr. 3 1-hr cl.

625 Movement Awareness, Observation and Description U G 3
The use of effort-shape and its relationship to movement observation, description, and analysis.
Wi Qtr. 1 3-hr cl. Prereq: 230 or equiv. Not open to students with credit for 430.

630 Problems in Intramural Sports U G 2
A critical analysis of intramural sports programs; problems of policy and administration of programs on the elementary, secondary and college level will be studied. Beeckman and Bailey.
Au, Sp Qtrs. 1 2-hr cl.

631 Advanced Skill Techniques U G 2
Advanced techniques of performance and a specialized and intense study of appropriate technical literature.
4 1-hr labs. Prereq: Advanced skill level, jr standing and permission of instructor. Repeatable to a maximum of 10 cr hrs. Subdivisions not repeatable except 631.20.

631.05* Gymnastics
Wi Qtr.

631.06* Golf
Au Qtr.

631.09 Aquatics
Au Qtr.

631.10 Tennis
Au Qtr.
631.14 Volleyball
Wi Qtr.
631.177 Racquetball and Related Racquet Sports
Wi Qtr.
631.35 Special Offerings
Su, Au, Wi, Sp Qtr.

642 Organization and Administration of Physical Education and Athletics U G 3
Study of policies and procedures in the organization and administration of the physical education and athletic programs.
Au, Wi, Sp Qtr. 3 cl.

647 Physical Education for Secondary School Youth U G 3
Emphasis on the study of needs, interests, and abilities of secondary school youth, and methods and materials for the conduct of appropriate sports activities.
Au, Wi, Sp Qtr. 2 cl, field experience, 6 hrs. Prereq: 489.02 or equiv. 489.07 or 489 must be scheduled concurrent for 2 or hrs.

648 The Group and Individual in Sport U G 3
An overview of psycho-social factors as they interact with the sport participation of individuals and groups.
Au Qtr. 2 1½-hr cl.

650 Evaluation in Physical Education U G 3
Au, Wi, Sp Qtr. 2 1½-hr cl.

653 Elementary Physical Education for Special Educators U G 3
Survey of elementary physical education with a focus on handicapped pupils; practice related to theories and research. Sp Qtr. 3 cl, 4 hrs lab. Prereq: Ed-Excep 251 or permission of instructor. Students with credit for 323 must obtain permission of instructor. Cross listed in Education for Exceptional Children. Not open to students with credit for Ed-Excep 653.

651 Care and Prevention of Athletic Injuries U G 5
A consideration of the methods of prevention and care of injuries, conditioning of athletes and safety provisions for the conduct of physical education. Bordner, Daniel, and Hill.
Au, Wi, Sp Qtr. 3 cl, 2 2-hr lab, Prereq: 360 or equiv. Open only to students in phys ed, hth educ, and physical education or permission of instructor.

652 Adapted Physical Education U G 3
The organization and administration of individual physical education for typical and atypical students including the child with a physical or learning disability; laboratory experience with the atypical. Ersing and Jansma.
Au, Wi, Sp Qtr. 2 cl, 1 3-hr lab. Prereq: 360, 541, and 647.

654 Science of Preparing People for Competitive Sports U G 5
Direct application of broad principles of anatomy, physiology, and kinesiology to sports and activities of the individual's interest; emphasis on understanding sports injuries and planning progressive conditioning systems. Bartels.
Wi Qtr. 5 cl, Prereq: 5 hrs in biological sciences. Not open to phys ed majors.

655 Adult Exercise Training and Evaluation U G 4
Study of methods for training and evaluation of health-related fitness parameters; evaluation of various programs and their implementation.
Au Qtr. 3 1-hr cl, 1 2-hr lab. Prereq: 414 or equiv.

976 Programming for Severe Physical Impairments U G 3
Background information and survey of programmatic considerations related to physical, motor, and fitness training of the severely handicapped.
Su, Sp Qtr. 1 2½-hr cl. Prereq: Ed-Excep 651 or permission of instructor. Not open to students with credit for Ed-Excep 678. Cross-listed in Education for Exceptional Children.

692 Workshop U G 1-8
Intensive study of a physical education topic of interest to the participant for the purpose of developing sound principles and practices related to it.
Su, Au Qtr. 3 cl, arr. Prereq: Teaching experience and written permission of workshop director. Repeatable to a maximum of 12 cl hrs with not more than 4 workshops.

693 Individual Studies in Physical Education U G 1-4
Investigation of selected professional problems.
Su, Au, Wi, Sp Qtr. Prereq: Grad or sr standing, and permission of adviser. A total of not more than 30 or hours of individual study (any 689) will apply toward graduation for undergrad students, 15 or hours for the master's degree and 30 or hours for the doctoral degree. This course is graded S/U.

694 Group Studies in Physical Education U G 1-5
Group studies on special problems in physical education.
Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs.

731 Concepts of the Body in Physical Education U G 3
Study of the conceptions of the body that have influenced contemporary views of physical education and its practice. Kleiman.
Wi Qtr. 1 2½-hr cl.

751 Physical Growth and Motor Development U G 3
Study of growth in phylogenetic and ontogenetic sequence; motor development; critical analysis of research in motor ability, fitness, and athletics, as related to growth and development. Herkowitz.
Au Qtr. 3 cl, Prereq: Grad standing, or permission of instructor.

760 Mechanical Analysis of Motor Skills U G 3
The application of mechanical laws, principles, and formulate to motor skills. Simonian.
Au Qtr. 3 cl, Prereq: 360 or equiv, and Physica 111, or permission of instructor.

762 Motor and Physical Assessment of Children with Handicapping Conditions U G 3
Survey of validity data on the most used assessment tools and practices in collecting motor and physical performance data on children with handicapping conditions.
Wi Qtr. 1 3-hr cl. Prereq: 650 and either 662 or Ed-Excep 651.

800 Introduction to Exercise Physiology G 4
Introduction to the field of exercise physiology with emphasis on energy liberation factors affecting performance, health, and fitness and physical training.
Au Qtr. 2 2-hr cl. Prereq: Physiol 602 or equiv.

801 Exercise Physiology: Metabolism, Temperature, Water and Electrolyte Balances G 4
Continuation of 800; discussion of metabolism, adenosine, water, and electrolyte balances during exercise and of the effects of physical training.
Wi Qtr. 2 2-hr cl. Prereq: 800 and permission of instructor.

802 Exercise Physiology: Cardio-respiratory System, Physical Training, Muscular Strength Training G 4
Continuation of 801; discussion of cardio-respiratory system during exercise and effects of physical training.
Sp Qtr. 2 2-hr cl. Prereq: 801 and permission of instructor.

805 Contemporary Issues in Recreational Sports Administration G 3
A study of current issues, management techniques and programming concepts associated with the administration of campus recreation programs.
Wi Qtr. 2 1½-hr cl. Prereq: 830 or equiv.
806 Sport Management and Administration G 3
The various aspects of athletic, intramural, and recreation administration. Coates. 
Sp Qtr. 2 1½-hr cl. Prereq: At least 2 qtrs in sports administration program or psyph ed Ph.D candidate with minor area of athletic administration.

810 Comparative Physical Education G 3
The current status and practice of physical education in a variety of countries throughout the world with emphasis on schools, universities, and sports clubs. 
Sp Qtr. 2 1½-hr cl.

811 International Sport G 3
A study of the content and structure of international sports competition and an analysis of the various factors which affect its development. 
Wi Qtr. 2 1½-hr cl.

830 Problems in Interscholastic and Intercollegiate Athletics G 3
The relation of athletics to education; problems of athletic organization; eligibility; finance, current trends and developments in management and purpose; public relations. Nelson. 
Wi Qtr. 2 1½-hr cl.

831 Instructional Design for Teacher Educators in Physical Education G 3
Classification and analysis of learner outcomes in activity settings; emphasis on empirical methods for analyzing outcomes and alternatives for achieving outcomes in teacher education programs in physical education. Siedentop. 
Sp Qtr. 1 2½-hr cl.

832 Human Movement Theory in Physical Education G 3
A study of a number of theoretical conceptions of human movement and their implications for physical education and dance. Kieferman. 
Sp Qtr. 2 1½-hr cl.

841 Physical Education in School and College G 3
An overview of the contemporary scene in physical education and an analysis of trends and events affecting it. Kleinman. 
Au Qtr. 2 1½-hr cl.

842 Seminar in the Role of Sports in Society G 3
Study of the significance of sports in society; and examination of the extent to which sports contribute to human welfare. Nelson. 
Sp Qtr. 2 1½-hr cl. Prereq: Social 465, or equiv.

845 Statistics for Physical Education and Health Education G 3
A study of techniques for interpreting research publications in the field, and of statistical procedures useful in analyzing data. Bartels. 
Au, Wi Qtrs. 3 cl. Prereq: 650; Math 116, 121, or 125; and permission of instructor.

850 Survey of Research in Physical Education G 3
Sp Qtr. 3 cl. Prereq: 685, or equiv.

851 Motor Learning G 3
Critical consideration of research and theory in the acquisition of skill. Special attention is given to major trends in the field. Herkowitz. 
Wi Qtr. 2 1½-hr cl. Prereq: 441 or equiv. Psych 600, or permission of instructor.

860 Organic Science as Applied to Physical Education and Health Education G 5
A study of the integration of chemistry, biology, anatomy, physiology to the field of physical education and health education. Bartels. 
Sp Qtr. Prereq: 10 or hrs physiol, 10 or hrs chem, and 10 or hrs bio, or equiv.

870 Analysis of Teaching in Physical Education G 3
Analysis of teachers and teaching in physical activity environments; emphasis on critical analysis of research completed and design of future research. 
Au Qtr. 2 1½-hr cl. Prereq: Ed-FAR 864. Not open to students with credit for 894.03 or 594.03.

871 Behavioral Research Methods for Physical Education and Recreation G 3
Methods of individual organism research as applied to behavioral research problems in physical education and recreation; focus on developing observational competencies and research design skills. Siedentop. 
Wi Qtr. 1 2½-hr cl. Prereq: 10 hrs of applied behavior analysis, behavior modification or equiv. with written permission of instructor.

872 Advanced Studies in Adapted Physical Education G 3
Examination and assessment of developmental aspects as they relate to physical and motor performance behavior of children with developmental disabilities, mental retardation and learning disabilities. Jansma. 
Wi Qtr. 2 1½-hr cl. Prereq: 662 or equiv. Not open to students with credit for 894.02 or 694.02.

873 Problems of Physical Education in Higher Education G 3
A study of the philosophy, purposes, organization and scope of the program of physical education in the college instructional program. 
Au Qtr. 2 1½-hr cl. Prereq: BA or BS degree with major or minor in physical education. Designed for students planning to teach physical education in college.

874 Physical Education in Secondary Education G 3
A presentation of new methods and curricula in physical education that are used in exemplary programs at the secondary school level; the process of developing plans and guides in physical education for secondary schools. 
Sp Qtr. 2 1½-hr cl. Prereq: Experience in teaching in school or college.

875 Administrative Problems in Physical Education G 3
A study of administrative problems currently confronting chairpersons, directors, and deans of organizations involving physical education. 
Wi Qtr. 1 2½-hr cl. Prereq: Experience in teaching in school or college.

876 Physical Education in Elementary Education G 3
Study of factors influencing decision making processes in elementary physical education; nature of children, society, knowledge, and learning; roles and responsibilities of teachers; resources and school organization currently available. 
Sp Qtr. 2 1½-hr cl. Prereq: 323 or 541 or permission of instructor.

880 Supervision for Teacher Education in Physical Education G 3
Examines clinical models for supervision in physical education with emphasis on data collection techniques to provide feedback to teaching interns. 
Au Qtr. 1 2½-hr cl. Prereq: 870.

881 Planning Facilities for Athletics, Physical Education, and Recreation G 3
Principles and techniques in determining facility needs, evaluating facilities, planning for new construction and remodeling the areas and facilities for athletics, physical education, and recreation. Coates. 
Au, Sp Qtrs. 2 1½-hr cl, 3 field trips.

881.01 Outdoor Facilities
881.02 Indoor Facilities
885 Methods of Research in Health Education and Physical Education G 3
To develop some competency in professional writing and in the use of various research methods applied to health education and physical education.
Wi, Sp Qtrs. 2 1-2 hr cl. Prereq: 845.

889 Practicum in Physical Education and Recreation G 2-6
Opportunity is provided for putting educational research and theory into practice by teaching, administrative, and agency experience under supervision in university, school, and agency situations.
Au, Wi, Sp Qtrs. 1 enr and 2 hr field experience. Prereq: Permission of instructor and departmental advisor based upon submitted evidence of appropriate knowledge and skill in the selected course. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894 Problems in Physical Education G 1-5
Advanced problems in physical education, individual or group participation.
Prereq: Permission of instructor.

995 Seminar in Physical Education G 2
Au, Wi, Sp Qtrs. 1 2-3 hr cl. Repeatable to a maximum of 12 or hrs.
A—Adapted Physical Education
B—Administration and/or Management
C—Curriculum and/or School Programs
D—Exercise Science
E—Historical and/or Philosophical Foundations
F—Movement Arts
G—Outdoor Pursuits
I—Professional Preparation
J—Psychological/Sociological Aspects
K—Sports, Athletics and/or Intramurals
L—Special Offerings

999 Research in Physical Education G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Physical Sciences, College of Mathematical and

154 Denney Hall, 164 West 17th Avenue, 422-2874

180 Uses of Science in Solving Problems of Society U 5
Using examples, it is shown how the methods of science can be used to analyze problems which are of interest to the general public.
Au, Sp Qtrs. 5 cl. Prereq: Math Placement S or higher; 1 5-hr 100-level course in either astronomy, biological sciences, chemistry, geology, or physics; English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BER/LAC/LAR course.

Physical Medicine

1012 Dodd Hall, 472 West 8th Avenue, 421-3801

736 Clinical and Physiologic Bases of Physical Treatment P G 3
The indications for, and choice of, physical modalities. Johnson and staff.
Au Qtr. Prereq: Written permission of instructor.

745 Biophysical Basis of Physical Treatment P 6, 12, 18
The student will design and complete a laboratory or library research problem involving the biophysical aspects of physical diagnosis or treatment. Johnson and staff.
1, 2, or 3 months; offered all months. Prereq: Permission of instructor. This course is graded S/U.

750 Natural History of Disability P G 3
An analysis of the nature, patterns and evaluation of disability, the processes involved, and the factors influencing its course.
Johnson and staff.
Sp Qtr. (odd yrs). 3 1-1 hr cl. Prereq: Grad or professional registration and written permission of instructor.

770 Instrumentation, Neurophysiology, Clinical Aspects of Electromyography P G 3
In-depth study of the instrumentation and correlation of neurophysiology and clinical aspects of electromyography, including excitable membranes, biological potentials, and nerve stimulation in clinical disorders. Johnson and staff.
Wi Qtr. Prereq: Resident standing or permission of dept chairman.

780 Psychological Aspects of Physical Disability and Its Management by Physicians P G 3
Designed to synthesize and summarize various aspects of advances in the behavioral sciences which have practical application to the rehabilitation of physical disabilities. O'Malley and staff.
Sp Qtr (even-number yrs). 2 1-1/2 hr cl. Prereq: Resident physician or medical student standing or permission of instructor.

993 Individual Studies in Physical Medicine G 3-5
Minor investigations using electrodiagnostic techniques; biophysical, physiologic, and therapeutic effects of physical agents; and other medical rehabilitation techniques. Johnson and staff.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to 15 or hrs. This course is graded S/U.

999 Research in Physical Medicine and Rehabilitation G Arr
Research for thesis purposes only. Johnson and staff.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Physical Therapy

School of Allied Medical Professions
306 School of Allied Medical Professions Building, 1583 Perry Street, 422-5921

480 Procedures I U 5
Professional orientation; introduction to the hospital setting and patient care; principles and techniques of basic body mechanics; bandaging and therapeutic massage.
Au Qtr. 3 cl, 2 2-hr lab. Prereq: Permission of instructor.

481 Procedures II U 6
Agents used in physical therapy: mechanical and physical properties; therapeutic application and physiological effects related to patients.
Wi Qtr. 4 cl, 2 2-hr lab. Prereq: Permission of instructor.

482 Procedures III U 4
Evaluation techniques and their usage in physical therapy; posture evaluation, goniometric range of motion recordings, manual muscle testing, functional tests and measurements.
Sp Qtr. 2 cl, 2 2-hr lab. Prereq: Permission of instructor.

495 Medical Kinesiology U 5
Biomechanics and pathomechanics in the analysis of human motion; emphasis on clinical relationships.
Wi Qtr. 4 cl, 1 2-hr lab. Prereq: Permission of instructor.
541 Therapeutic Exercise I U 6
Basic principles and techniques of therapeutic exercise related to physical and medical sciences. Au Qtr.; 4 cl, 2 2-hr labs. Prereq: Permission of instructor.

542 Therapeutic Exercise II U 6
Rehabilitation procedures for maximum restoration of the disabled: functional relationships and principles associated with functional exercise and specialized equipment. Wi Qtr.; 4 cl, 2 2-hr labs. Prereq: Permission of instructor.

543 Therapeutic Exercise III U 5
Theory and technique of exercise for the neurologically handicapped with carry-over into all areas of disability; integration and correlation of therapeutic exercise approaches. Sp Qtr.; 3 cl, 2 2-hr lab. Prereq: Permission of instructor.

551 Anatomical Clinical Presentations U 2
Integration of anatomical, neuroanatomical and kinesiological information obtained in previous courses to review, discuss and problem solve clinical presentations or case studies. Au, Sp Qtrs.; 3 1-hr cl. Prereq: Sr standing in division and permission of instructor. This course is graded S/U.

560 Aspects of Human Performance and their Management by Physical Therapist U 3
Emphasis on health as a continuum, the physiology and benefits of aerobic exercise, and an introduction to cardiac rehabilitation. Sp Qtr.; 3 cl. Prereq: Permission of instructor.

585 Physical Therapy Clinical Coordination
585.01 Planning and Coordinating Clinical Education U 1-3
Coordination of physical therapy procedures; examination of evaluation and reporting methods; medical-legal and ethical problems; planning for clinical experiences. Au, Wi, Sp Qtrs.; 1-3 cl. Prereq: Admission to Physical Therapy Division. Repeatable to a maximum of 6 cr hrs.

585.02 Clinical Experience in Physical Therapy I U 1 or 2
Supervised experiences in first level physical therapy skills at selected health care facilities. Au, Wi, Sp Qtrs.; 2 hrs of clinical experience. Prereq: Admission to Physical Therapy Division. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

585.03 Clinical Experience in Physical Therapy II U 4
Extended summer experience in affiliated clinical settings, applying principles of physical therapy in the treatment of a variety of cases. Su Qtr.; 6 wks of clinical experience. Prereq: 585.02 and permission of clinical coordinator. This course is graded S/U.

585.04 Clinical Experience in Physical Therapy III U 2-4
Supervised experiences for senior physical therapy students in clinical settings requiring higher level patient evaluation and management skills. Au, Wi, Sp Qtrs.; 4-8 hrs of clinical experience. Prereq: 585.03, Sr standing, and permission of clinical coordinator. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

588 Professional Administration in Physical Therapy U 5
Integration of theory and professional practice involving administration and supervision skills including interpersonal relationship concepts, oral and written communication analysis, and professional responsibilities. Sp Qtr.; 5 cl. Prereq: Permission of instructor.

589 Management of Private Physical Therapy Services U 3
Presentation and discussion of business, administrative, and environmental factors affecting the establishment of a physical therapy practice by self-employed physical therapists. Au, Wi Qtr.; 1 2-1/2-hr cl. Prereq: Sr standing in division and permission of instructor. This course is graded S/U.

595 Seminar U 1-3
Conferences, group discussions, and presentations of selected topics. Su, Au, Wi, Sp Qtrs.; 1-3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.

597 Clinical Education U 6
Clinical experience in the application of physical therapy techniques under supervision of physical therapists in hospital, community, and other selected facilities. Su, Au, Wi, Sp Qtrs.; 9 hrs per day; 5 days per wk for 12 wks. Prereq: Permission of instructor and completion of all required physical therapy professional courses in the curriculum. This course is graded S/U.

Physics

1012 Alpheus Smith Laboratory of Physics, 174 West 18th Avenue, 620-5713

100 Physics and Man U 5
An introduction to the physics of the world of everyday experience through study of selected topics. Su, Au, Wi, Sp Qtrs. BER/LAC/LAR course. NS Admis Cond courses.

100.01 Vibrations and Waves
1 lec; 2 2-hr discussions. Not open to students with credit for the vibrations and waves option of Physics 100.

100.02 Energy
1 lec; 2 2-hr discussions. Not open to students with credit for the energy option of Physics 100.

101 Nature of the Physical World U 5
An elementary description of the physical world emphasizing scientific method and contemporary viewpoints; laboratory work and demonstrations. Au, Wi, Sp Qtrs.; 4 cl, 1 2-hr lab. Prereq: Math 102 or placement in math course code R, BER/LAC/LAR course. NS Admis Cond course.

102 Nature of the Physical World U 5
Continuation of 101. Wi Qtr.; 4 cl, 1 2-hr lab. Prereq: 101. BER/LAC/LAR course. NS Admis Cond course.

111 General Physics: Mechanics and Heat U 5
Su, Au, Wi, Sp Qtrs.; 4 cl, 1 2-hr lab. Prereq: Eligibility for Math 150. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

112 General Physics: Electricity, Magnetism, and Light U 5
Su, Au, Wi, Sp Qtrs.; 4 cl, 1 2-hr lab. Prereq: 111. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

113 General Physics: Modern Physics U 5
Su, Au, Wi, Sp Qtrs.; 4 cl, 1 2-hr lab. Prereq: 112. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

131 Introductory Physics: Particles and Motion U 5
A presentation of the major concepts of physics from a contemporary point of view, for students majoring in physical sciences, mathematics, or engineering. Su, Au, Wi, Sp Qtrs.; 5 cl, 1 2-hr lab. H131 (honors) may be open to students enrolled in an honors program or by written permission of dept. Prereq: 1 entrance unit of physics or chem; prereq or concur Math 151. Not open to students with credit for 231. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.
541 Therapeutic Exercise I U 6
Basic principles and techniques of therapeutic exercise related to physical and medical sciences.
Au Qtr. 4 cr, 2-2 hr labs. Prereq: Permission of instructor.

542 Therapeutic Exercise II U 6
Rehabilitation procedures for maximum restoration of the disabled, functional relationships and principles associated with functional exercise and specialized equipment.
Wi Qtr. 4 cr, 2 2-hr labs. Prereq: Permission of instructor.

543 Therapeutic Exercise III U 5
Theory and technique of exercise for the neurologically handicapped with carry-over into all areas of disability, integration and correlation of therapeutic exercise approaches.
Sp Qtr. 3 cr, 2 2-hr lab. Prereq: Permission of instructor.

551 Anatomical Clinical Presentations U 2
Integration of anatomical, neuromuscular and kinesiological information obtained in previous courses to review, discuss and solve clinical presentations or case studies.
Au, Sp Qtrs. 2 1-hr cl. Prereq: Sr standing in division and permission of instructor. This course is graded S/U.

560 Aspects of Human Performance and their Management by Physical Therapist U 3
Emphasis on health as a continuum, the physiology and benefits of aerobic exercise, and an introduction to cardiac rehabilitation.
Sp Qtr. 3 cr. Prereq: Permission of instructor.

585 Physical Therapy Clinical Coordination
585.01 Planning and Coordinating Clinical Education U 1-3
Coordination of physical therapy procedures; examination of evaluation and reporting methods; medical-legal and ethical problems; planning for clinical experiences.
Au, Wi, Sp Qtrs. 1-3 cr. Prereq: Admission to Physical Therapy Division. Repeatable to a maximum of 6 cr hrs.

585.02 Clinical Experience in Physical Therapy I U 1 or 2
Supervised experiences in first level physical therapy skills at selected health care facilities.
Au, Wi, Sp Qtrs. 2 hrs of clinical experience. Prereq: Admission to Physical Therapy Division. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

585.03 Clinical Experience in Physical Therapy II U 4
Extended summer experience in affiliating clinical settings, applying principles of physical therapy in the treatment of a variety of cases.
Su Qtr. 6 wks of clinical experience. Prereq: 585.02 and permission of clinical coordinator. This course is graded S/U.

585.04 Clinical Experience in Physical Therapy III U 2-4
Supervised experiences for senior physical therapy students in clinical settings requiring higher level patient evaluation and management skills.
Au, Wi, Sp Qtrs. 4-6 hrs of clinical experience. Prereq: 585.03, Sr standing, and permission of clinical coordinator. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

588 Professional Administration in Physical Therapy U 5
Integration of theory and professional practice involving administration and supervision skills including interpersonal relationship concepts, oral and written communication analysis and professional responsibilities.
Sp Qtr. 5 cr. Prereq: Permission of instructor.

589 Management of Private Physical Therapy Services U 3
Presentation and discussion of business, administrative, and environmental factors affecting the establishment of a physical therapy practice by self-employed physical therapists.
Au, Wi Qtrs. 1 2-hr cr. Prereq: Sr standing in division and permission of instructor. This course is graded S/U.

595 Seminar U 1-3
Conferences, group discussions, and presentations of selected topics.
Su, Au, Wi, Sp Qtrs. 1-3 cr. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.

597 Clinical Education U 6
Clinical experience in the application of physical therapy techniques under supervision of physical therapists in Hospital, community, and other selected facilities.
Su, Au, Wi, Sp Qtrs. 8 hrs per day; 5 days per wk for 12 wks. Prereq: Permission of instructor and completion of all required physical therapy professional courses in the curriculum. This course is graded S/U.

Physics

1012 Alpha Smith Laboratory of Physics, 174 West 18th Avenue, 422-5713

100 Physics and Man U 5
An introduction to the physics of the world of everyday experience through study of selected topics.
Su, Au, Wi, Sp Qtrs. BER/LAC/LAR course. NS Admis Cond courses.

100.01 Vibrations and Waves
1 lab; 2 2-hr discussions. Not open to students with credit for the vibrations and waves option of Physics 100.

100.02 Energy
1 lab; 2 2-hr discussions. Not open to students with credit for the energy option of Physics 100.

101 Nature of the Physical World U 5
An introductory description of the physical world emphasizing scientific method and contemporary viewpoints; laboratory work and demonstrations.
Au, Sp Qtrs. 4 cr, 2 2-hr lab. Prereq: Math 102 or placement in math course code R. BER/LAC/LAR course. NS Admis Cond course.

102 Nature of the Physical World U 5
Continuation of 101.
Wi Qtr. 4 cr, 1 2-hr lab. Prereq: 101. BER/LAC/LAR course. NS Admis Cond course.

111 General Physics: Mechanics and Heat U 5
Su, Au, Wi, Sp Qtrs. 4 cr, 1 2-hr lab. Prereq: Eligibility for Math 150. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

112 General Physics: Electricity, Magnetism, and Light U 5
Su, Au, Wi Sp Qtrs. 4 cr, 1 2-hr lab. Prereq: 111. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

113 General Physics: Modern Physics U 5
Su, Au, Wi, Sp Qtrs. 4 cr, 1 2-hr lab. Prereq: 112. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

131 Introductory Physics: Particles and Motion U 5
A presentation of the major concepts of physics from a contemporary point of view for students majoring in physical sciences, mathematics, or engineering.
Au, Wi, Sp Qtrs. 5 cr, 1 2-hr lab. H131 (honors) may be available to students enrolled in an honors program or by written permission of dept. Prereq: 1 entrance unit of physics or chem; prereq or conc 1 Math 151. Not open to students with credit for 231. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.
132 Introductory Physics: Thermal Physics and Electrostatics U 5
Continuation of 131. Su. Au. Wi. Sp Qtrs. 5 cl. 1 2-hr lab. H122 (honors) may be available to students enrolled in honors program or by written permission of dept. Prereq: 131 and Math 151; prereq or concour Math 152. Not open to students with credit for 232. This course is available for EM credit. BER/LAC/LAR course. NS Admins Cond course.

133 Introductory Physics: Electrodynamics and Quanta U 5
Continuation of 132. Su. Au. Wi. Sp Qtrs. 5 cl. 1 2-hr lab. H133 (honors) may be available to students enrolled in an honors program or by written permission of dept. Prereq: 132 and Math 152; prereq or concour Math 153, or written permission of instructor. Not open to students with credit for 233. This course is available for EM credit. BER/LAC/LAR course.

261 Dynamics of Particles and Waves I U 4
Vectors and kinematics; foundations of Newtonian mechanics; momentum, work, and energy; conservative and nonconservative forces; potential; linear motion; rotation about a fixed axis.
Au. Sp Qtrs. 4 cl. Prereq or concour: 132 and Math 152. Not open to students with credit for 525.

262 Dynamics of Particles and Waves II U 4
Rigid body motion; noninertial systems and fictitious forces; central force motion; the special theory of relativity; relativistic kinematics; relativistic momentum and energy.
Su. Wi Qtrs. 4 cl. Prereq: 261; prereq or concour: 132 and Math 153. Not open to students with credit for 252.

263 Dynamics of Particles and Waves III U 4
Free oscillations of simple and complex systems; forced oscillations; travelling waves; pulses and wave packets; phase and group velocities; Fourier analysis.
Au. Sp Qtrs. 4 cl. Prereq: 262; prereq or concour: Math 254.

294 Group Studies U 1-6
Designed to permit groups of students the opportunity to pursue special studies not otherwise offered.

295 Introductory Seminar U 1
Introduction to departmental research programs and to selected topics of interests in contemporary physics.
Au. Wi Qtrs. 1 2-hr cl. Prereq or concour: 131. This course is graded S/U.

501 Descriptive Acoustics U G 3
Descriptive nonmathemathical treatment of acoustics with applications to music and speech including sources, propagation, reception, characteristics of sound; room acoustics; hearing; apparatus.
Au. Gtr. 3 cl. Prereq: Jr standing in music, communic, science education or permission of instructor. Not open to physics majors. BER/LAC/LAR course.

503 General Meteorology U G 5
A description of weather phenomena and the physical processes underlying them; intended primarily for nonphysics majors.
Sp Qtrs. Prereq: Either 111, 131, or permission of instructor. Not open to students with credit for 120. BER/LAC/LAR course.

516 Intermediate Physics Laboratory U G 4
Selected intermediate level experiments from basic areas of physics.
Au. Wi. Sp Qtrs. 2 3-hr labs. Prereq: 113 or 133 or permission of instructor. Not open to graduates majoring in physics. Repeatable to a maximum of 12 cr hrs.

517 Introductory Electronics for Physicists U 4
Intermediate level introduction to electronic circuits, devices, and instrumentation with emphasis on laboratory experience.
Au. Wi. Sp Qtrs. 1 2-hr cl. 2 3-hr labs. Prereq: 133 or permission of instructor. Not open to students with credit for 617; not open to grad students majoring in physics.

525 Dynamical Models U G 4
Dynamical models of particle motion; behavior of linear cyclic systems; periodic and transient phenomena in mechanical and electrical systems; central force problems; frames of reference. Su. Sp Qtrs. 4 cl. Prereq: 133 and Math 255 or equiv. Not open to students with credit for 262.

531 Introduction to Quantum Physics I U G 4
Comprehensive survey of modern physics: Schroedinger wave mechanics, Planck and Bohr postulates, Bohr theory.
Au Gtr. 4 cl. Prereq: 133, and prereq or concour: 291, and Math 254.

532 Introduction to Quantum Physics II U G 4
Comprehensive survey of modern physics: one electron atoms, magnetic dipole moments, spin, multi-electron atoms.
Wi Gtr. 4 cl. Prereq: 531; prereq or concour: 262.

533 Introduction to Quantum Physics III U G 4
Comprehensive survey of modern physics: Molecules nuclear models, nuclear decay and reactions, elementary particles.
Sp Gtr. 4 cl. Prereq: 532; prereq or concour: 263.

555 Fields and Waves I U G 4
Introduction to the description of electrostatic fields: dielectrics; boundary-value problems.
Au Gtr. 4 cl. Prereq: 525 or equiv; prereq or concour Math 551.

593 Individual Studies U G 2-5
Independent reading, study, or laboratory work at an intermediate level.
Su. Au. Wi. Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

595 Seminar U 1
Discussion of special topics with student participation in the presentation of material.

616 Advanced Physics Laboratory U G 4
Experiments selected from all areas of physics; independent work emphasized.
Su. Au. Wi. Sp Qtrs. 2 3-hr labs. Prereq: 262, 531, 555, or permission of instructor. Repeatable to a maximum of 24 cr hrs.

617 Electronics for Physicists U G 5
An intensive introduction to electronic circuits, devices, and instrumentation with emphasis on laboratory experience.
Au. Wi. Sp Qtrs. 1 3-hr cl. 2 3-hr labs. Prereq: 263 or 525.

621 Statistical Physics I U G 4
Thermodynamics and statistical mechanics; applications to non-interacting classical and quantum systems.
Au Gtr. 4 cl. Prereq: 263, 555; Math 255.

622 Statistical Physics II U G 4
Interacting systems; special states of matter; critical phenomena and phase transitions.
Wi Gtr. 4 cl. Prereq: 521 or equiv.

658 Fields and Waves II U G 4
Continuation of 555; magnetic fields of steady currents; induction; Maxwell’s equations; plane waves; special relativity.
Wi Gtr. 4 cl. Prereq: 555 or equiv.
657 Fields and Waves III U G 4
Continuation of 556, plane waves in matter; physical optics; coherence, interference, diffraction, and dispersion.
Sp Ctr. 4 cl. Prereq: 656 or equiv. Not open to students with credit for 636.

664 Theoretical Mechanics U G 4
Development of Lagrangian mechanics, inertia and stress tensors, rigid body rotations and introduction to the mechanics of continuous media.
Sp Ctr. 4 cl. Prereq: 263 and Math 255, or equiv. Math 551. Not open to students with credit for 626.

670 Physics for In-Service Teachers U G 1-15
Designed to deepen teachers' understanding of basic physical concepts and methods of treatment of selected topics; includes lectures, discussions, demonstrations, and individualized laboratory work.
Su, Au, Wi, Sp Qtr. Prereq: 15 or hrs in physics and teaching experience; permission of instructor. Intended for secondary school science teachers. Repeatable to a maximum of 30 or hrs.

693 Individual Studies U G 1-15
Designed to give a properly qualified student opportunity for independent reading, study, or laboratory work in a specialized field of interest.
Su, Au, Wi, Sp Qtr. Prereq: Satisfactory advanced courses in experimental and theoretical physics and permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies U G 1-6
Gives groups of students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtr. Prereq: Satisfactory advanced courses in experimental and theoretical physics and permission of instructor. Repeatable to a maximum of 15 or hrs.

705 Structure of Matter I U G 4
Quantum phenomenology; Schrodinger formulation of quantum mechanics; applications to simple systems.
Su, Au Qtr. 4 cl. Prereq: 263, 532, 656, or equiv and Math 255 and 551.

706 Structure of Matter II U G 4
Continuation of 705, emphasizing the one-electron atom, orbital and spin angular momentum perturbations, and electromagnetic transitions.
Wi Qtr. 4 cl. Prereq: 705 or equiv.

730 Methods of Theoretical Physics U G 5
Use of analytical techniques in the description and analysis of physical phenomena, including formulation and application of differential, integral, and matrix equations in physics.
Su, Au Qtr. 4 cl. Prereq: Math 901, 552, and 701 or equiv.

780 Topics in Contemporary Physics U G 4
Experimental and theoretical aspects of areas of current interest in physics.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq: 705 or equiv.

780.02 Elementary Particle Physics Sp Qtr.

780.04 Atomic and Molecular Physics
Wi Qtr. Not open to students with credit for 751 or 757.

780.05 Nuclear Physics
Wi Qtr. Not open to students with credit for 771.

780.06 Condensed Matter Physics
Sp Qtr. Not open to students with credit for 781.

780.9T Special Topics
Su, Au Qtr. Prereq or concur: 705. Repeatable to a maximum of 3 or hrs. This course is graded S/U.

801 Seminar in Physics G 1
Seminar will be conducted by various members of the staff on topics of current interest in their fields of specialization; students will participate in the presentation and discussion of material.
Su, Au, Wi, Sp Qtr. Prereq: Acceptable specialized courses and permission of instructor. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

816 Topics in Physics G 3-6
Laboratory and/or theoretical work on an individual basis on topics of current interest.
Su, Au, Wi, Sp Qtrs. Prereq: 616 or equiv and permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

821 Classical Dynamics G 4
Lagrangian dynamics, variational principles, Hamilton's equations canonical transformations, symmetries and conservation laws, small oscillations, normal coordinates, and classical fields.
Au Qtr. 4 cl. Prereq: 654 or equiv.

822 Advanced Classical Dynamics G 4
Applications to particle dynamics of tensor algebra and Riemannian spaces; elasticity and hydrodynamics.
Wi Qtr. 4 cl. Prereq: 821.

827 Quantum Mechanics I G 5
Systematic treatment of wave mechanics; symmetries and conservation laws, eigenvalues and eigenfunctions of linear operators, separation of variables, soluble examples, central field problem, angular momentum.
Wi Qtr. 4 cl. Prereq: 706 or equiv.

828 Quantum Mechanics II G 5
Theory of scattering, Born approximation; stationary state perturbation theory, WKB approximation, variational method and applications, linear vector spaces, transformations, symmetries.
Sp Qtr. 4 cl. Prereq: 827.

829 Quantum Mechanics III G 5
Time dependent perturbations; applications to scattering and electromagnetic transitions; Pauli spin theory; applications to hydrogen; addition of angular momenta; reflections in space and time.
Su Qtr. 4 cl. Prereq: 828.

830 Quantum Mechanics IV G 4
Systems with several electrons, exclusion principle; applications to atoms and molecules, and to scattering; Hartree-Fock approximation, Dirac equation for free electrons and for hydrogen.
Wi Qtr. 4 cl. Prereq: 829.

831 Advanced Quantum Mechanics G 4
Symmetry groups; Lorentz transformations; field quantization; S-matrix theory; general perturbation theory.
Sp Qtr. 4 cl. Prereq: 830.

834 Electromagnetic Field Theory I G 4
Static electric fields, static and stationary magnetic fields, dielectrics, magnetized bodies; boundary value problems, vector and scalar potential functions, and energy in electric and magnetic fields.
Au Qtr. 4 cl. Prereq: 656 or equiv.

835 Electromagnetic Field Theory II G 4
Maxwell's equations, gauge transformations; superposition, polarization, dispersion and refraction of plane electromagnetic waves; special relativity, covariant formulation of particles and fields, and conservation laws.
Wi Qtr. 4 cl. Prereq: 804 or permission of instructor.

836 Electromagnetic Field Theory III G 4
Radiating systems and diffraction; radiation by moving charges, bremsstrahlung; multipole fields, radiation damping, and scattering and absorption of charged particles.
Sp Qtr. 4 cl. Prereq: 835 or permission of instructor.
846 Statistical Physics I G 4
Physical thermodynamics and introduction to statistical physics; fundamental postulates, entropy, thermodynamic potentials and changes of phase; microscopic expression for entropy and basis of classical ensemble theory.
Au Qtr. 4 cl. Prereq: 622 and 644 or equiv. Not open to students with credit for 743.

847 Statistical Physics II G 4
Canonical and grand ensembles; Quantum statistical mechanics; density matrices, partition functions, Bose and Fermi gases; Debye specific heat; black-body radiation; Bose-Einstein condensation; Interacting systems.
Wi Qtr. 4 cl. Prereq: 846 and 828.

848 Advanced Statistical Physics G 4
Interacting systems; Ising and Heisenberg models of magnatism, theory of dense gases and liquids, phase transitions and critical phenomena; non-equilibrium statistical physics, Boltzmann equation.
Sp Qtr. 4 cl.

880 Advanced Topics G 3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each quarter.
Au, Wi, Sp Qtr. 3 cl. Prereq: 828 or permission of instructor. Repeatable to a maximum of 9 cr hrs in each decimal subdivision.

880.02 Elementary Particle Physics
880.03 Low-Temperature Physics
880.05 Nuclear Physics
880.06 Condensed Matter Physics
880.08 Theory of Quantized Fields
880.20 Special Topics

999 Research in Physics G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Physiological Chemistry

5170 Graves Hall, 333 West 10th Avenue, 422-5451

311 Physiological Chemistry U 4
Human biochemistry with emphasis on metabolism and applications to clinical chemistry and human nutrition; pertinent organic chemistry will be included. Pyrant.
Au Qtr. 4 cl. Prereq: Chem 102 or 122 and enrollment or intended enrollment in a program of the School of Allied Medical Professions.

312 Physiological Chemistry U 4
A continuation of 311. Pyrant.
Wi Qtr. 4 cl. Prereq: 311.

601 Medical Biochemistry I G 3-5
A three-quarter sequence of basic biochemistry with particular emphasis on application to medicine; biochemical structures, metabolic pathways, and their relationships to metabolic diseases. Merola.
Au Qtr. Arr. Prereq: Chem 242 and 244 or 253 and 254 or equivs, and grad standing in a dept in the College of Medicine and permission of instructor. A total of 12 or hrs will be given for the 601-602-603 sequence with a distribution of 3-5 or hrs each qtr as determined by the instructor.

602 Medical Biochemistry II G 3-5
Continuation of 601. Merola.
Wi Qtr. Arr. Prereq: 601. A total of 12 or hrs will be given for the 601-602-603 sequence with a distribution of 3-5 or hrs each qtr as determined by the instructor.

603 Medical Biochemistry III G 3-5
Continuation of 602. Merola.
Sp Qtr. Arr. Prereq: 602. A total of 12 or hrs will be given for the 601-602-603 sequence with a distribution of 3-5 or hrs each qtr as determined by the instructor.

611 Physiological Chemistry U G 3
Chemistry and metabolism of carbohydrates, proteins, lipids, and nucleic acids; basis of enzymes, control mechanisms, digestion and absorption. Nuerke.
Wi Qtr. 3 cl. Prereq: Chem 242, 244, or 253, 254 or equiv; open to undergrads with permission of instructor. Designed primarily for grad students in medical and biological sciences.

612 Physiological Chemistry U G 3
Continuation of 611. Nuerke.
Sp Qtr. 3 cl. Prereq: 611.

636 Quantitative Problems in Biochemistry U G 3
Application of elementary physical chemical concepts to the quantitative analysis of biochemical data. Rieske.
Wi Qtr. 3 cl. Prereq: Elementary physical chemistry and biochemistry, or permission of instructor.

641 Dental Biochemistry P 4
Chemistry and metabolism of carbohydrates, lipids, and proteins; digestion and absorption; elements of nutrition as they relate to dentistry, especially mineral and bone metabolism. Nuerke and Richardson.
Au Qtr. 3 cl. 1 conf. Prereq: Enrollment in College of Dentistry, Chem 242, and either Chem 244, or 246.

642 Dental Biochemistry P 4
Continuation of 641. Nuerke and Richardson.
Wi Qtr. 3 cl. 1 conf. Prereq: 641 and enrollment in College of Dentistry.

701 Biochemical Approach to the Study of Disease P 6
Subcellular organization, model systems in disease, injury and inflammation, toxic agents, deficiency states, genes, enzymes and disease, biochemical changes in growth. Kruger and staff. 1 month, offered Jan and May. Prereq: Permission of instructor.

705 General Biological Chemistry U G 5
An intensive treatment of modern biochemistry; protein structure, enzyme catalyzed reactions, chemistry and metabolism of carbohydrates, Brierey and interdepartmental staff.
Au Qtr. 3 cl. Prereq: Biochem 511 or equiv. Chem 242, 244, or 253, 254; physical chem background of kinetics and thermodynamics or written permission of instructor. Not open to students with credit for Biochem 705. Cross-listed in Biochemistry.

707 General Biological Chemistry U G 5
An intensive treatment of modern biochemistry; energy utilization and electron transport, photosynthesis, membranes and lipid metabolism. Brierey and interdepartmental staff.
Wi Qtr. 3 cl. Prereq: 705 or Biochem 706. Not open to students with credit for Biochem 707. Cross-listed in Biochemistry.

709 General Biological Chemistry U G 5
An intensive treatment of modern biochemistry; intermediary metabolism of amino acids, proteins, and nucleic acids. Brierey and interdepartmental staff.
Sp Qtr. 3 cl. Prereq: 707 or Biochem 707. Not open to students with credit for Biochem 709. Cross-listed in Biochemistry.

753 Individual Studies in Physiological Chemistry P 8,16, or 24 G 3-15
Qualified students may avail themselves of the facilities of the department for a minor investigation under the direction of a senior staff member.
Su, Au, Wi, Sp Qtr. 1 or more months for professional credit, offered all months. Prereq: 612 or equiv with written permission of instructor. Repeatable to a maximum of 15 or hrs for grad credit or to 24 or hrs for professional credit. This course is graded S/U.
821 Physical Biochemistry of Proteins  G 3
Protein structure (primary, secondary, tertiary, and quaternary) in the crystal state and in solution and their relationship to function. Allen.
Wi Qtr. 3 cl. Prereq: 709 or equiv, or permission of instructor.

822 Bioenergetics  G 3
Flow of energy in biological systems; photosynthesis; oxidative phosphorylation; methods of studying mitochon-dria, ribosomes, and other organelles. Breeney.
Au Qtr. 3 cl. Prereq: 709 or equiv, or permission of instructor.

823‡ Metabolic Control Mechanisms  G 3
Biochemistry of nucleic acids and the genetic code; protein biosynthesis and its control; control of enzymatic reactions and metabolic pathways. Webb.
Au Qtr. 3 cl. Prereq: 709 or equiv, or permission of instructor.

824‡ Enzymology  G 3
Selected topics in structure/function relationships, mechanisms of catalysis, kinetics, and metabolic interrelations of enzyme systems. Richardson.
Sp Qtr. 3 cl. Prereq: 709 or equiv, or permission of instructor.

825‡ Neurochemistry  G 3
Biochemistry and metabolism of the nervous system with discussion of synaptic transmission, memory theories, genetic defects, and associated diseases. Horrocks.
Wi Qtr. 3 cl. Prereq: 709 or equiv, or permission of instructor.

828 Current Topics in Lipid Biochemistry  G 3
Discussion of recent developments in one or more areas of lipid biochemistry: membranes, prostaglandins, and peroxonitrates; topics to be announced. Pangamaila.
Sp Qtr. 3 cl. Prereq: 709 or equiv, or permission of instructor.

827‡ Biochemical Mechanisms of Carcinogenesis  G 3
Mechanisms of carcinogenesis caused by radiation, polycyclic hydrocarbons, halogenated organics, and RNA and DNA viruses. Schlemm and Milb.
Wi Qtr. 3 cl. Prereq: 709 or equiv or permission of instructor.

850 Seminar  G 1
Au, Wi, Sp Qtr. Prereq or concr: 611, or equiv. Repeatable to a maximum of 9 or hrs. This course is graded S/U.

855 Seminar  G 1
Student presentations on current topics in biochemistry. Au, Wi, Sp Qtr. Prereq or concr: 611 or equiv. Repeatable to a maximum of 8 or hrs. Required of all grad students majoring in physchem.

999 Research in Physiological Chemistry  G Arr.
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtr. This course is graded S/U.

Phsiohlogical Optics

A420 Starling Living, 338 West 10th Avenue, 422-2647

501 Geometrical Optics  U P 5
Paraxial optics, primary optical aberrations, thick lens and mirror systems, ray tracing, field and aperture stops, and prisms.
Au Qtr. 3 cl, 1 4-hr lab. Prereq: Optometry 1st yr standing or major in phys opt.

502 Physical Optics  U P 5
Light sources and spectra; light waves and their interference, diffraction, dispersion, and polarization.
Wi Qtr. 3 cl, 1 4-hr lab. Prereq: 501.
730 Principles of Lighting

The effect of the distribution of light in a given environment upon efficiency, comfort, and safety; selection and arrangement of sources and light control.  
Wi Qtr. 3 cl, 1 4-hr lab. Prereq: 716.

731 Vision in Industry

Visual testing in industry; relation of vision to performing a task; visual requirements for licenses; eye hazards and protection; compensation for loss of vision.  
Sp Qtr. 3 cl, 1 4-hr lab. Prereq: 730.

732 Vision in Schools

Visual-survey methods; the prevalence of visual anomalies and eye diseases in children; basic visual skills required in school and methods for their improvement.  
Au Qtr. 3 cl, 1 4-hr lab. Prereq: 730.

780 Topics in Physiological Optics

Experimental and theoretical aspects of areas of current interest in physiological optics.  
Su, Au, Wi, Sp Qtrs. 1-5 cl. Prereq: Enrollment in College of Optometry or grad standing in phys opt and permission of dean. Repeatable to a maximum of 30 or hrs with not more than 5 or hrs in any one subdivision.

780.01 Ocular Anatomy

780.02 Ocular Physiology

780.03 Corneal Physiology

780.04 Microbiology of the Eye

780.05 Experimental Design

780.06 Psychophysics of Vision

780.07 Paradigm of Physiological Optics

780.08 Ocular Biomechanics

780.09 Visual Optics

780.10 Environmental Vision

780.11 Image Evaluation

780.12 Geometrical Optics

780.13 Physical Optics

780.14 Oculomotor Systems

780.15 Binocular Visual Processes

780.16 Monocular Visual Processes

780.17 Photochemistry of Vision

780.18 Color Vision

780.19 Stimulus Specification

780.20 Neurophysiology of Vision

780.21 Visual Electrometrics

780.22 Physiological Optics

795 Seminar

A series of seminars dealing with new developments in the various phases of physiological optics.  
Su, Au, Wi, Sp Qtrs. 1-5 cl. Prereq: Permission of Instructor. Repeatable to a maximum of 30 or hrs.

801 Advanced Physiological Optics I

The ocular image-forming mechanism; accommodation and pupil contraction, aberrations, stray light retinal phenomena; shape, size, distortion; retinal illumination and blur.  
Au Qtr. 3 cl, 2 2-hr lab. Prereq: 716.

802 Advanced Physiological Optics II

Fixation disparity; photochemistry and electrophysiology of photoreceptors; luminosity; color mixture; retinal-cortical transmission; simultaneous contrast; visibility; adaptation; after images.  
Wi Qtr. 3 cl, 2 2-hr lab. Prereq: 801.

803 Advanced Physiological Optics III

Binocular integration of hue and brilliance, fusional movements, fixation, retinal correspondence, visual perception of figure-ground relations, light, color, illumination, size, shape, direction, distance, and motion.  
Sp Qtr. 3 cl, 2 2-hr lab. Prereq: 802.

808 Advanced Functional Neuroanatomy of the Visual System

Intense study of the neuroanatomy of the visual system.  
Sp Qtr. 3 cl and 2 2-hr lab. Prereq: Enrollment in College of Optometry or graduate status in physiological optics and permission of the dean.

810 Image Evaluation

An analysis of the causes of image impairment in the human eye and other optical systems; objective methods of assessing aberrations and blur; methods of image enhancement.  
Au Qtr. 5 cl. Prereq: 502 and 613.

811 Mechanisms Subserving Color Vision

Theoretical basis for chromatic adaptation, chromatic contrast and induction, color blindness, and other color phenomena; theory of the laws of color mixture.  
Wi Qtr. 5 cl. Prereq: 613.

812 Advanced Neurophysiology of the Visual System

The coding and transmission of visual information in the direct and accessory pathways of vertebrates and invertebrates.  
Au Qtr. 4 cl, 1 2-hr lab. Prereq: 613, 614, 715, and 716.

813 Advanced Physiology of the Eye

Recent developments in the respiration, metabolism, and mechanics of ocular tissues, and the aqueous dynamics of the eye.  
Au Qtr. 4 cl, 1 2-hr lab. Prereq: 613 and 614.

815 Binocular Vision and Perception

Visual perception: direction, space, motion; perceptual adaptation; binocular vision and fusion.  
Wi Qtr. 3 cl, 1 2-hr lab. Prereq: 803.

820 Specification of Visual Stimuli

Study of visual stimuli and apparatus to control parameters such as intensity, spectral composition, retinal location, and pupil size and location; calibration and practical application.  
Sp Qtr. 3 cl, 4 hr lab. Prereq: 801 or permission of instructor.

894 Group Studies in Physiological Optics

Group studies on special problems in physiological optics.  
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing in phys opt. Repeatable to a maximum of 30 or hrs.

999 Research in Physiological Optics

Research for thesis on dissertation purposes only.  
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

**Physiology**

4196 Graves Hall, 333 West 10th Avenue, 442 5448

311 Principles of Human Physiology

First of a two-quarter sequence covering the following areas of physiology: neuromuscular, heart and circulation, endocrine, brain and special senses, body fluids and kidney, respiration, digestion, temperature control, and metabolism.  
Au, Wi Qtr. 4 cl, 1 2-hr lab. Prereq: 2 qtrs chem, Anatomy 200 or equiv, or permission of instructor. Open only to students in College of Medicine or College of Nursing or College of Pharmacy or permission of instructor.

312 Principles of Human Physiology II

Continuation of 311.  
Wi, Sp Qtr. 4 cl, 1 2-hr lab. Prereq: 311 or permission of instructor. Open only to students in College of Medicine or College of Nursing or College of Pharmacy or permission of instructor.
801 Organ System Physiology I U P G 5
First of a two-semester sequence presenting the following areas of physiology: neuromuscular, heart and circulation, endocrine, brain and special senses, body fluids and kidney, respiration, digestion, temperature control, and metabolism.
Au Qtr. 5 cl. Prereq: inorganic and organic chem, Physics 111, 112, 113 or equiv, and 1 yr biological sciences, and permission of instructor for undergraduates. May be taken concurrently with 611.

802 Organ System Physiology II U P G 5
Continuation of 801.
Wi Qtr. 5 cl. Prereq: 601. Normally to be taken directly following 601 and concurrently with 812.

604 Advanced Physiology I P 4
First of a 2-semester sequence covering these physiological areas: neuromuscular, central nervous system and special senses, endocrine and reproduction, cardiovascular, digestion, respiration, body fluids and kidney.
Au Qtr. 4 cl. Prereq: Open only to students enrolled in the College of Dentistry.

505 Advanced Physiology II P 4
Continuation of 604.
Wi Qtr. 4 cl. Prereq: 604 or permission of Instructor.

607 Medical Organ System
Physiology I G 4-6
First of a three-semester sequence presenting physiology from an organ system perspective.
Sp Qtr. 4-6 cl. Prereq: Inorganic and organic chemistry, Physics 111, 112, 113 or equiv and 1 yr of biological sciences and grad standing in physiology or grad standing in a dept in College of Medicine and permission of instructor. A total of 15 or hrs will be given for the 607-608-609 sequence with a distribution of 4-6 cr hrs each qtr as determined by the instructor.

608 Medical Organ System
Physiology II G 4-6
Continuation of 607.
Sp Qtr. 4-6 cl. Prereq: 607. Normally to be taken directly following 607.

609 Medical Organ System
Physiology III G 4-6
Continuation of 608.
Sp Qtr. 4-6 cl. Prereq: 608. Normally to be taken directly following 608.

611 Experimental Physiology I U P G 1
First quarter of a two-semester sequence designed to introduce, via laboratory, the tools, techniques, procedures and principles of organ system physiology.
Au Qtr. 1 hr lab. Prereq or conc: 601 or 604 or Med Col 692 or permission of instructor.

612 Experimental Physiology II U P G 1
Second quarter of a two-semester sequence designed to introduce, via the laboratory, the tools, techniques, procedures and principles of organ system physiology.
Wi Qtr. 1 hr lab. Prereq: 601 and 602 or 604 and 605 or Med Col 662 (602, 605 or 662 may be taken concurrently); Physiol 611 or permission of instructor.

723 Cellular and Comparative Physiology P G 5
Interaction between cells and their environment at the microscopic, submicroscopic, and molecular levels; regulation and control of protoplasmic functions.
Au Qtr. 5 cl. Prereq: 1 yr each of biological sciences, physics, and organic chem, and permission of instructor.

729 Advanced Cellular and General
Physiology Laboratory P G 2
Techniques for the study and measurements of phenomena of cellular and general physiological interest and the application of physical and chemical principles of their interpretation.
Au Qtr. 2-3 hr lab. Prereq or conc: 723 or 728.

730† Endocrinology P G 5
A study of functions of the thyroid, parathyroid, pituitary, adrenal, pancreas, gonads, and other organs with possible endocrine functions.
Au Qtr. 4 cl. 1 lab. Prereq: 312 or equiv, organic chem, and permission of instructor. Not open to students with credit for Vet Phys 730. Cross listed in Veterinary Physiology and Pharmacology.

748 Physical Instrumentation
for Biologists U P G 4
Basic concepts in semiconductor electronics; representative small signal, digital, and integrated circuits, input and output transducers, recording, storage and elementary information processing techniques are studied in the laboratory; emphasis is on representative examples rather than on a comprehensive survey of instruments.
Sp Qtr. 1 cl, 2-3 hr lab. Prereq: 1 yr college biological sciences and physics or permission of instructor.

795 Individual Studies in Physiology U P G 2-18
Reading, conferences, laboratory work by individual arrangement with qualified students who desire more intensive and specialized study than is available in other courses.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs. This course is graded S/J.

801 Seminar in Physiological
Research Topics G 1
Formal lectures, seminars and demonstrations by Physiology graduate faculty and visiting scientists, describing and explaining the pertinence of current physiological research.
Au, Wi, Sp Qtrs. Prereq: 601, 602, 611, 607, 608, 609, and 612; or equiv with permission of instructor.

850 Seminar in Physiology G 2
Su, Au, Wi, Sp Qtrs. Repeatable.

865† Topics in Respiratory Physiology G 3
Lectures and discussion of current topics in respiratory physiology; laboratory experience included. Kunitz, Smith, and Weiss.
Au Qtr. 3 cl. Prereq: 601, 602, 611, 607, 608, 609, and 612; or equiv with permission of instructor.

911 Advanced Studies in
Physiology G 3 or 5
Su, Au, Wi, Sp Qtrs. Prereq: 601, 602 or 607, and 608; or equivs with written permission of instructor. Quarter schedule of topics to be announced.

911.01 Physiology of Nerve and Muscle

Grossie.

911.03 Hemodynamics
Pepper and Dujardin.

911.05 Peripheral Circulation
Kanabus.

911.06 Temperature Regulation
Boilant.

911.08 Comparative—Avian
Weiss.

911.15 Gastrointestinal Physiology
Hanson.

911.16 Physiological Control Systems
Kunitz.

911.23 Experimental Neurophysiology
Curry and Stokes.

999 Research in Physiology G Arr
Research for thesis or dissertation purposes only. This course is graded S/J.
Plant Pathology

201 Kottman Hall, 2021 Coffey Road, 422-1075

General Prerequisites for Courses

Numbered 400

Unless otherwise indicated, the prerequisites for 400-level courses are 80 or hrs in college courses, exclusive of ROTC and phy s ed; or specified course(s) numbered 100-399.

401 General Plant Pathology U 5
An introduction to diseases of plants. Rhodes. Au, Sp Qtr s. 3 cl. 2-2 hr lab. Prereq: Botany 112. Not open to students with credit for 470.

489 Work Experience in Plant Pathology U 1-3
Supervised practical experience during employment with an approved organization. Work will deal with certain aspects of plant disease control. A final written report is required. Su, Au, W. Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs.

510 Forest Pathology U G 3
Major types of tree diseases with emphasis on diagnosis, etiology, epidemiology, and control. Rhodes. Sp Qtr. 2 cr. 1-2 hr lab. Prereq: Botany 112.

596 Plant Protection Seminar U G 1
Current topics relative to plant pest management research, technology, and employment. Wt Qtr. Arr. Not open to students with 2 cr hrs of 596 in Agronomy, Entomol, or Hort. Repeatable to a maximum of 2 cr hrs. Cross listed in Agronomy, Entomology, and Horticulture. This course is graded S/U.

General Prerequisites for Courses Numbered 600

Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr hrs in courses in the same discipline numbered 300 or higher, or 10 cr hrs in courses numbered 300 or higher, in the same discipline, plus 10 cr hrs in courses numbered 300 or higher in specified allied disciplines.

601 Advanced Plant Pathology U G 5
An in-depth study of the nature of plant pathogenic fungi and the diseases they cause. Deep. Wt Qtr. 3 cl. 2-2 hr lab. Prereq: 401.

602 Plant Disease Epidemiology U G 3
Disease development in plant populations with emphasis on monitoring, modeling, and predicting rates of development. Sp Qtr. 2-2 hr cl. Prereq: 401, Math 116, and elementary statistics; or permission of instructor.

610 Diseases of Ornamentals U G 3
A detailed study of important diseases of floral and woody ornamental plants; their cause, distribution, severity, importance, and specific control measure. Powell. Sp Qtr. 2-2 hr cl. Prereq: 401. Not open to students with credit for 471.

612 Turfgrass Diseases U G 3
A detailed study of the diseases of turf grasses, factors influencing disease severity, specific measures for disease control. Lawson. Au Qtr. 2-2 hr cl. Prereq: 401.

615 Economic Plant Pathology U G 3
Major diseases of field, fruit, and vegetable crops with emphasis on etiology, epidemiology, and control. 615.01 Fruit and Vegetable Crop Diseases Ellis and Rowe. Wi Qtr. 2-2 hr cl. Prereq: 401 or equiv. Not open to students with credit for 671, 672, or 675.

615.02 Field Crop Diseases Deep.
Au Qtr. 2-2 hr cl. Prereq: 401 or equiv. Not open to students with credit for 671.

6561 Plant Nematology U G 3
Economics and control of plant-parasitic nematodes. Riedel. Au Qtr. 3 cl. Several field trips. Prereq: 401. Not open to students with credit for 838.

638 Plant Virology U G 3
Viruses as agents of plant disease, principles relating to detection, dissemination and control of plant virus diseases. Sp Qtr. 3 cl. Prereq: 401. Not open to students with credit for 672.

685 Field Plant Pathology U G 2
Study of plant diseases with emphasis on diagnosis and epidemiology; supplementary laboratory work. Deep. Su Qtr. 1-4 hr cl arr. Prereq: 401 or 615, and permission of instructor.

693 Individual Studies U G 1-5
Problems may be selected in the various areas of plant pathology. Su, Au, Wt, Sp Qtrs. H653 (honors) may be available to students enrolled in an honors program or eligible for enrollment. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

694 Group Studies U G 2, 3, or 5
Special group studies of a selected area in plant pathology not provided in other courses. Au, Wt, Sp Qtrs. Prereq: Sr or grad standing. Repeatable to a maximum of 10 cr hrs.

General Prerequisites for Courses Numbered 800 and 900

Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 cr hrs in courses in the same discipline, or 20 cr hrs in the same discipline, plus 25 cr hrs in specified allied disciplines.

830 Physiology of Parasitism G 5
Analysis of physiological and biochemical processes associated with penetration and development of host-parasite relations, and disease development; molecular basis for disease resistance. Garraway. Wt Qtr. 3 cl. 2-2 hr lab. Prereq: 601 and Biochem 511.

8321* Bacterial Plant Pathogens G 5
Representative types of bacterial diseases and factors affecting their control, severity, distribution, and economic importance; methods used in studying plant pathogenic bacteria. Coplin. Sp Qtr. 3-2 hr cl. Prereq: 401, Microbiol 601, and 25 additional cr hrs biological sciences. Not open to students with credit for 872.

838 Advanced Plant Virology G 3
An advanced course dealing with plant virus identification, characterization, transmission, and interactions with plant hosts and with epiphytology and control of plant virus diseases. Taught at CARDC Wocote, Ohio. Gordon. Sp Qtr. 1 sem. 2-2 hr labs. Prereq: 638 and permission of instructor.

840 Advanced Nematology G 3
An advanced lab course dealing with techniques for identification, extraction, and use of nematodes in plant pathological research. Riedel. Au Qtr. 2-2 hr cl. Prereq: 601 and 638. Not open to students with credit for 893.

8611* Physiology of Fungi G 5
The physiology of the nutrition, growth, and reproduction of fungi. Garraway. Wt Qtr. 3 cl. 2-2 hr labs. Prereq: Botany 630, 631 and 660. Not open to students with credit for Botany 661. Cross-listed in Botany.

995 Seminar G 1
Au, Wt, Sp Qtr. Prereq: Permission of instructor. Repeatable.

999 Research G Arr
Research for thesis or dissertation purposes only. Su, Au, Wt, Sp Qtrs. This course is graded S/U.
Polish

329 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-6733

101 Elementary Polish I
Introduction to Polish; development of listening, reading, speaking, and writing skills.
Not open to students with credit for 101. FL Admis Cond courses.
101.01 Classroom Track U 5
5 cl. Students must register for and complete 5 or hrs during the qtr.
101.51 Individualized Track U 1-5
Students register for and complete from 1 to 5 cl hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 102.51. Progress is sequential from one cl or hr to the next with proficiency at the level of 80% required for advancement.

102 Elementary Polish II
Continued study of Polish; development of listening, reading, speaking, and writing skills.
Not open to students with credit for 102. FL Admis Cond courses.
102.01 Classroom Track U 5
5 cl. Prereq: 101 or 101.01 or 5 or hrs of 101.51 or permission of instructor. Students must register for and complete 5 or hrs during the qtr.
102.51 Individualized Track U 1-5
Prereq: Grade of B- or above in 101.01 or 5 or hrs of 101.51 or permission of instructor. Students must register for and complete 5 or hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 103.51. Progress is sequential from one cl or hr to the next with proficiency at the level of 80% required for advancement.

103 Intermediate Polish I
Continued study of Polish; development of listening, reading, speaking, and writing skills.
Not open to students with credit for 103.
103.01 Classroom Track U 5
5 cl. Prereq: 102 or 102.01 or 5 or hrs of 102.51 or permission of instructor. Students must register for and complete 5 or hrs during the qtr.
103.51 Individualized Track U 1-5
Prereq: Grade of B- or above in 102.01 or 5 or hrs of 102.51 or permission of instructor. Students must register for and complete 5 or hrs during the qtr. Students who complete 5 or hrs before the end of the qtr may proceed to 104.51. Progress is sequential from one cl or hr to the next with proficiency at the level of 80% required for advancement.

104 Intermediate Polish II
Readings, oral and written practice, and grammar review.
Not open to students with credit for 104.
104.01 Classroom Track U 5
5 cl. Prereq: 103 or 103.01 or 5 or hrs of 103.51 or permission of instructor. Students must register for and complete 5 or hrs during the qtr.
104.51 Individualized Track U 1-5
Prereq: Grade of B- or above in 103.01 or 5 or hrs of 103.51 or permission of instructor. Students must register for and complete 5 or hrs during the qtr. Progress is sequential from one cl or hr to the next with proficiency at the level of 80% required for advancement.

111† Intensive Intermediate Polish
U 5 or 10
An intensive course that combines the content of 103 and 104. Balanced use of the four basic skills: reading, oral comprehension, speaking, and writing.
Sp Qtr. 5 2-hr cl. Prereq: 102. Not open to students with credit for 104. Students with credit for 103 or 112 may not register for more than 5 or hrs, but must complete the entire course. Course intended for students who wish to expedite the completion of the language requirement.

605* Polish Conversation and Composition U G 5
Reading texts of moderate difficulty, conversation, and simple compositions.
Wi Qtr. 5 cl. Prereq: 104 or permission of instructor.

606* Polish Conversation and Composition U G 5
Reading from modern Polish literature, practice in writing and speaking.
Sp Qtr. 5 cl. Prereq: 605 or permission of instructor.

620† Polish Literature to 1684 U G 5
Au Qtr. 3 cl. 1 hr arr. Prereq: 10 hr cl in literature courses at the 200 level or above, or permission of instructor. Given in English, but students majoring in Slavic will do portions of the readings in the original.

621† Modern Polish Literature 1864-1939 U G 5
Emphasis on Positivism, Realism, and Symbolism; novels by such authors as Prus, Sienkiewicz, Zeromski, and Rey. Krzyżanowski.
Wi Qtr. 3 cl. 1 hr arr. Prereq: 10 cl hrs in literature courses at the 200 level or above, or permission of instructor. Given in English, but students majoring in Slavic will do portions of the readings in the original.

622* Contemporary Polish Literature U G 5
Prose and poetry since 1939; emphasis on such authors as Borowski, Brandys, Gończewski, Andrzejewski, Iwaszkiewicz, Sławinska, and Rozewicz. Krzyżanowski.
Sp Qtr. 3 cl. 1 hr arr. Prereq: 10 or hr cl in literature courses at the 200 level or above or permission of instructor. Not open to students with credit for 622. Given in English but students majoring in Slavic will do prescribed portions of the reading in the original.

693 Individual Studies U G 2-10
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept chairman. Repeatable to a maximum of 20 or hrs. 693.40. This course is graded S/U.

694 Group Studies U G 2-10
Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Repeatable to a maximum of 15 or hrs.

993 Individual Studies G 2-10
Su, Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Repeatable to a maximum of 40 or hrs. Including or hrs in 993.20, 993.30, 993.40, and 993.50. These courses are graded S/U.
Political Science

223 Derby Hall, 154 North Oval Mall, 422-2881

101 Introduction to American Politics U G 5
Introduction to American politics, the institutions and processes which create public policy, the strengths and weaknesses of the American political systems. Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 306. BER/LAC/LAR course. SS Admin Cond course.

105 World Problems U 5
Consideration of the major problems facing people, such as poverty, food, war, health, environment, population, human rights, discussion of possible political solutions. Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 306. BER/LAC/LAR course. SS Admin Cond course.

165 Introduction to Politics U 5
Introduction to politics: political issues, political power, democracy, authoritarianism and totalitarianism, basic political institutions, political ideas, and global politics. Su, Au, Wi, Sp Qtrs. 5 cl. Honors (honors) may be available to students enrolled in an honors program or by permission of the department. BER/LAC/LAR course. SS Admin Cond course.

201 The Individual in Politics U 5
Focus on concepts such as attitude, role, and group and their application in such areas as voting behavior and political participation. 5 cl. Honors (honors) may be available to students enrolled in an honors program or by permission of the department. BER/LAC/LAR course. SS Admin Cond course.

202 Politics in Contemporary Societies U 5
The politics of contemporary nations, including such topics as political change, party systems, issues in post-industrial societies, political violence, conflict resolution, and policy-making. 5 cl. Honors (honors) may be available to students enrolled in an honors program or by permission of the department. BER/LAC/LAR course. SS Admin Cond course.

210 Modern Political Ideologies U 5
Introductory survey of modern political ideologies: capitalism, socialism, communism, anarchism, fascism; consideration of both the justifications of ideologies and their implications for political life. 5 cl. BER/LAC/LAR course. SS Admin Cond course.

215 American Foreign Policy U 5
An examination of American foreign policy from World War II to the present; consideration of external and domestic influences on American foreign policy behavior. 5 cl. BER/LAC/LAR course. SS Admin Cond course.

294 Group Studies U 1-5
Su, Au, Wi, Sp Qtrs. 5 cl. Repeatability to a maximum of 10 or hrs. 5 cl. Not open to students with credit for 101. BER/LAC/LAR course.

300 American Politics and Policy-Making U 5
An examination of American political institutions and the policy-making process. 5 cl. Not open to students with credit for 101. BER/LAC/LAR course.

305 Introduction to Public Policy U 5
Introduction to the workings of policy-making processes within governments, and the use of social science reasoning to evaluate and improve the content of policies. 5 cl.

345 Interpreting International Politics U 5
An examination of the nature and determinants of major phenomena in international politics such as crises, alliances, integration, interdependence, subversion, war and conflict resolution processes. 5 cl. BER/LAC/LAR course.
541 Government and Politics of the Third World U G 5
A general introduction to the theoretical and substantive literature dealing with the historical development and contemporary characteristics of the new states of Asia and Africa.
5 cl.

551 The United Nation System in Global Problem Solving U G 5
Activities and potential of the United Nations system in promoting economic well-being, environmental management, resource sharing, social justice, and control of violence.
5 cl.

553 Political Analysis of International Economic Relations U G 5
Examines the relationship between political and economic events in the international system; topics include global interdependence, inequality, scarce resources, periphery nation strategies.
5 cl.

560 Regional Patterns in International Politics U G 5
Examination of ideological, institutional, and foreign political patterns in particularized regions, such as Sub-Saharan Africa, Arab Middle East, Southeast Asia.
5 cl. Repeatable to a maximum of 15 or hrs.

570 Alternative World Futures U G 5
Examines forecasts of the future made by computer simulation, and by philosophers and science fiction writers; discusses ways to change the future through political means.
5 cl.

571 Political Theories of Democracy U G 5
An examination of theories of democracy, focusing on normative and descriptive dilemmas such as participation versus liberty in democratic societies.
5 cl.

573 American Political Ideas U G 5
An analysis of American ideas on law and government, authority and liberty, oligarchy and democracy.
5 cl. BEI course.

575 Political Analysis U G 5
Principles and problems of explaining and evaluating political institutions, policies, and behavior; critical analyses of major theories of political action.
5 cl.

585 Techniques of Political Analysis U 5
Introduction to research design, nature of data, its generation and analyses; analysis of political variables.
5 cl.

589 Student Internship in Politics and Public Policy U G 1-15
Combines experience in political institutions or policy processes with analysis of that experience in light of relevant scholarly literature.
Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs; including cr hrs in 689. Not open to students with 15 or hrs in 689.

590 Topics in Political Science U G 3-5
Selected issues and topics in American, international, or comparative politics; political theory or public policy; topics vary by section and instructor. Repeatable to a maximum of 10 or hrs.

593 Individual Studies U G 1-15
Students will devote their time to special projects including papers, exams, and practical political experience. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

596 Honors Seminar in Political Science U 3-5
Intensive study of selected political science topics and issues in seminar format; topics vary. Prereq: Enrollment in an honors program or permission of instructor. Repeatable to a maximum of 10 or hrs.

General Prerequisites for Courses Numbered 600 and 700
Unless otherwise indicated the prerequisites for 400 and 500-level courses are two courses in political science, or a declared major in another social science, or the consent of the instructor, or the history and social science requirements of the BA curriculum.

604 American State Politics U G 5
Comparative analysis of politics in the American states.
5 cl.

608 Ethnic Politics in the American Cities U G 5
Group conflict along ethnic lines in major American cities: factors contributing to group cohesion in politics; strategies and resources for exercising power through collective political action.
5 cl.

610 Executive and Bureaucratic Politics U G 5
Introduction to the roles and behavior of executives and bureaucrats in the formulation and implementation of public policy in the United States.
5 cl.

614 Urban Politics U G 5
The study of political problems facing the cities: including community power, poverty, welfare, urban renewal, urban education, law enforcement, and violence.
5 cl.

617 Legislative Politics and Policy-Making U G 5
Studies of legislative organization, practices, and recruitment, and their relation to policy output; relationships of the legislature to other elements of the American political system.
Au, Wi Qtrs. 5 cl.

627 Government and Politics of Western Europe U G 5
Systematic comparison of political phenomena and governmental institutions within West European societies.
5 cl. Prereq: Permission of instructor for second 5 or hrs. Repeatable to a maximum of 10 or hrs.

629 Analysis of 20th Century Problems in Cross-National Perspective U G 5
Studies of contemporary political phenomena from a comparative perspective, including stability-instability in parliamentary systems, revolution, urban and local politics, national integration, and other topics. Repeatable to a maximum of 15 or hrs.

630 The Soviet Union U G 5
A general study of the Soviet Union; governmental and party institutions; ideology and methods; problems of communist dictatorships.
5 cl.

635 Government and Politics of Japan U G 5
The government and politics of Japan, with special emphasis being given to the impact of cultural and social patterns on the processes of government with imported political institutions.
5 cl.

638 Southeast Asia U G 5
Governments and politics of the Philippines, Indonesia, Indo-China, Malaysia, Thailand, and Burma; contemporary problems of this region in relation to world politics.
5 cl.
637 Government and Politics of China U G 5
A study of the contemporary political process of Communist China; considerable time will be spent on an analysis of recent political change in China and the process of revolution. 5 cl.

640† Latin American Government and Politics U G 5
A study of political processes, institutions, and groups in Latin America, with emphasis on constitutional, geographical, social, and economic environments in which they operate. 5 cl.

655† Soviet Foreign Policy U G 5
Basic concepts about, and choices in Soviet foreign policy; development and presentation of patterns of Soviet relations with key nations; major problems in future relationships. 5 cl.

658† International Relations of the Far East U G 5
The Far East in contemporary world politics; factors underlying the foreign policies of the nations concerned with this region. 5 cl.

666 Marxist Political Theory U G 5
An advanced introduction to the political theories of Marx and Marxism; special attention to revolution, the state, and the materialist interpretation of history. 2 2-hr cl. Prereq: Permission of instructor for students with credit for 766.

670 History of Political Theory: Plato to Machiavelli U G 5
The study of major works by political theorists, including Plato, Aristotle, Cicero, Augustine, Aquinas, Machiavelli, and others, in ancient and medieval times. 5 cl.

671 History of Political Theory: Machiavelli to Hegel U G 5
The study of major works by political theorists, including Machiavelli, Hobbes, Locke, Hume, Montesquieu, Rousseau, Hegel, and others, from the Renaissance into the 18th century. 5 cl.

672 History of Political Theory: Hegel to the Present U G 5
The study of major works by political theorists, including Bentham, Kant, Hegel, Marx, Mill, Weber, and others, since the French Revolution. 5 cl.

674 Political Participation and Voting Behavior U G 5
A study of political participation and its correlates, determinants of the vote decision, analysis of recent American elections. 5 cl.

675† American Political Parties U G 5
Theories of political parties, party organization, individual voting behavior, nomination and electoral politics, the party in government. 5 cl.

678 Political Decision-Making and Public Policy U G 5
Comparative analysis of decision making processes of contemporary nations considering the welfare, education, economic and environmental policy arenas. 3 cl, 1 lab. Not open to students with credit for 578.

679 Policy Analysis U G 5
An analysis of the policy process emphasizing the determinants of public policy, theories of public choice, and the implementation, impact, and evaluation of policy decisions. 5 cl.

684 Introduction to Political Science Research Methods U G 5
Introduction to political science research with emphasis on survey and experimental designs, data generation techniques, data processing, and computer utilization. 5 cl.

685 Methods of Quantitative Analysis: Elementary U G 5
Explanation, interpretation, and application of techniques for quantitative analysis of political data; descriptive and inferential statistics, with emphasis on bivariate analysis. 5 cl.

686 Methods of Quantitative Analysis: Intermediate U G 5
Descriptive and inferential statistics with emphasis on multivariate analysis; additional topics offered as desired and possible: scaling, index construction, sampling, measurement reliability. 5 cl. Prereq: 685.

694 Contemporary Political Problems U G 3-5
Prereq: Sr standing and 15 cr hrs in polit sci. Repeatable to a maximum of 30 cr hrs.

700† Basic Theories in the Study of American Politics U G 5
Examination of basic concepts and approaches; consideration of methodological and substantive problems encountered at various levels of analysis. 2-2 hr cl. Repeatable to a maximum of 10 cr hrs.

Introduction to National Security
See Nat Sec Pol 702.

702* Public Opinion and Political Behavior: Psychological Foundations U G 5
The formation, organization, and change of attitudes about American politics; methods of survey design and analysis including computer adaptations. 5 cl. Not open to students with credit for 602.

703* Readings in Individual Political Behavior U G 5
Intensive analysis of literature on selected topics such as socialization, cognition, groups, and attitudes. 2-2 hr cl. Repeatable to a maximum of 10 cr hrs.

704 Readings in State and Local Politics U G 5
Intensive review of selected aspects of the literature on state and local politics in the United States. 2-2 hr cl. Prereq: 624 or 614 or equiv. Repeatable to a maximum of 10 cr hrs.

713† Readings in Executive and Bureaucratic Politics U G 5
Intensive examination of literature with emphasis on the role of executives and bureaucrats in the formulation and implementation of public policy. 2-2 hr cl. Prereq: 610 or equiv. Repeatable to a maximum of 10 cr hrs.

716* Readings in Judicial Politics U G 5
Examination of literature concerned with politics of the judicial system in the United States, with emphasis on the courts' roles in public policy-making. 2-2 hr cl. Prereq: See general prereqs for 600- and 700-level courses.

717 Readings in Legislative Politics and Policy-Making U G 5
A theoretical-empirical analysis of the functioning and policy product of American legislatures; intensive reviews of selected aspects of the legislative literature to be conducted. 2-2 hr cl. Prereq: 617 or equiv. Repeatable to a maximum of 10 cr hrs.
725 Basic Theories in the Study of Comparative Politics U G 5
Examination of such concepts and theories as structural-functional analysis; general systems theory; and sociocultural systems as determinants of governmental structures.
3 cl.

727 Problems in Western European Politics U G 5
An intensive study of selected problems.
1 2-hr cl. Prereq: 627 or permission of instructor. Repeatable to a maximum of 10 cr. hrs.

731 Problems in Soviet Politics U G 5
An intensive examination of selected problems such as crises of succession, conflicts of pressure groups, Soviet policies in the United States, Sino-Soviet relations.
3 cl. Prereq: 630 or 655.

734 Problems in Asian Politics U G 5
An advanced seminar for the purpose of structured reading of advanced scholarly materials and limited research experimentation in East and Southeast Asian topics.
1 2-hr cl. Prereq: 635 or 636 or 637 or permission of instructor. Repeatable to a maximum of 15 or hrs.

740 Problems in Latin American Politics U G 5
An advanced seminar devoted to a structured examination of the major theories, concepts, and approaches used in the analysis of Latin American politics.
1 3-hr cl. Prereq: 562 or 640 or permission of instructor.

741 Political Development U G 5
Theories, approaches, and methodology in the analysis of political life in the new states of Asia and Africa; discussion of selected case and cross-national studies with theoretical relevance.
3 cl. Prereq: 541 or 636 or permission of instructor.

745 Basic Theories in the Study of International Politics U G 5
Examination of such basic concepts and theories as equilibrium models, balance of power, national interest, geopolitical configurations.
2 3-hr cl.

746 Synthesizing International Politics Scholarship U G 5
Synthesis of international politics research and writings, intended for advanced graduate students.
1 2-hr cl.

747 Research Methods in International Politics U G 5
Examines a number of research techniques and approaches common in international politics such as content analysis, simulation, mathematical modeling, and factor analysis.
2 2-hr cl.

749 Topics in Cross-National Policy Analysis U G 5
A comparative examination of substantive cross-national policy issues such as welfare, security, economic development, etc.
3 cl.

750 Policy Management in International Politics U G 5
Analyzes such subjects as forecasting, social indicators, social engineering, needs assessment, and goal-setting from the perspective of the strategic and executive functions of policy-making.
2 2-hr cl.

751† Conflict and Peace U G 5
Sources and types of social conflict with special attention to international violence, causes of war, their avoidance and control.
2 2-hr cl.

753 International Political Economy U G 5
Analyzes the interaction of the international political and economic systems; examines topics from the perspective of neo-mercantilism, liberalism, and Marxism.
2 2-hr cl.

755† American Foreign Policy Making U G 5
An examination of various approaches used to explain American foreign policy behavior including the rational actor, policy process, and bureaucratic politics models.
2 2-hr cl.

756 Foreign Policy Design U G 5
Problems of designing foreign policy including organizational, contextual, economic, and public opinion constraints; how to create information retrieval system to aid decision-making.
2 2-hr cl.

757 Comparative Foreign Policies U G 5
Examines comparatively the sources and classes of behavior of territorial actors in the international political system.
2 2-hr cl.

758† Regional Integration U G 5
Political trends in and consequences of regional organization.
2 2-hr cl.

759 International Organization U G 5
Comprehensive view of international governmental, nongovernmental, and business organizations; their roles in solving problems such as poverty, war, pollution; particular attention to the U.N. system.
2 2-hr cl.

760 Transnational Relations U G 5
Comprehensive view of nongovernmental relations (trade, agriculture, science, religion, health, labor) between people in different nation-states with particular attention to opportunities for increased citizen control.
2 2-hr cl.

762 Theory and Explanation in Political Science U G 5
A survey of topics in the methodology and philosophy of social science including: logic, conceptualization, explanation, theory; applications to criticism in political science.
2 2-hr cl.

764 Democratic Theory U G 5
Seminar will consider democratic theorists, classical and contemporary; relations between democratic theory, social choice theories, and empirical studies of modern democracies.
2 2-hr cl.

765 Interpretation of Texts in Political Theory U G 5
Approaches to interpretation of texts of political theory, contemporary as well as classic, grounded in study of selected texts.
2 2-hr cl. Prereq: Grad standing or permission of instructor.

766 Selected Topics in Political Theory U G 5
Intensive joint readings and discussions concentrating upon one of the major themes, problems, or movements in political theory; topic information available from instructor.
1 2-hr cl. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 15 or hrs.

767 Evaluation in Politics U G 5
The nature and foundations of political evaluation; methodological problems and substantive theories for the evaluation of institutions, public policy, and approaches to policy analysis.
2 2-hr cl. Prereq: Grad standing or permission of instructor.
758† Concepts in Contemporary Political Theory U G 5
Critical examination of political concepts from different theoretical traditions; concepts such as power, freedom, equality, obligation, community, and rationality; topics vary. 2-3 hr cl. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

774 Readings in Political Participation and Voting Behavior U G 5
Intensive examination of literature on selected topics in the area of participation and voting behavior in the United States. 2-3 hr cl. Prereq: 674 or equiv. Repeatable to a maximum of 10 cr hrs.

775† Readings in American Political Parties U G 5
Intensive study of literature on selected aspects of American political parties. 3 cr. Repeatable to a maximum of 10 cr hrs.

776 Comparative Political Institutions U G 5
Study of state building process, regime types, and contemporary governmental institutions from a broad cross-national perspective. 3 cr.

777 Comparative Political Behavior U G 5
A cross-national examination of political behavior, including such topics as socialization, participation, voting, elite behavior, mass-elite linkages. 3 cr.

778 Comparative Political Parties and Interest Groups U G 5
Comparative analysis of the nature and role of political parties and interest groups in contemporary societies. 3 cr.

779 Readings on the Policy Process U G 5
Consideration of the basic theories, concepts, and techniques used in policy analysis; the determinants of public policy; and the impact and evaluation of public policy. 2-3 hr cl. Repeatable to a maximum of 10 cr hrs.

783 Honors Course U 3-5
Prereq: 4th yr standing and 40 cr hrs in social sciences, including 15 cr hrs in poli sci with a record of A in the last half of the poli sci courses and an average of B in the remainder. Permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 crs are required; candidates for the degree BA with distinction in polit sci. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. A special topic is assigned to each student and results are tested by the requirement of papers and special examinations. This course is graded S/U.

Research Principles and Techniques in National Security
See Nat Sec Pol S 785.

786* Causal Analysis U G 5
Analysis of causal models by Simon-Black techniques, recursive and nonrecursive path estimation; special topics include measurement error, standardization, and ordinal data. 2-3 hr cl. Prereq: 665 and 666.

787* Dimensional Analysis U G 5
Topics include measurement and data theory, unfolding, proximity and dominance (Guttman) scaling, multidimensional scaling, and factor analysis. 2-3 hr cl. Prereq: 665 and 666.

788† Mathematical Theories of Politics U G 5
Introduction to various major mathematical theories of political phenomena and the role of formal analysis in political science. 2-3 hr cl. Prereq: 760 or equiv.

790 Scope and Methods of Political Science U G 5
An introduction to political science as a scholarly discipline; examination of trends, concepts, and scientific foundations; an overview of theory building and theory testing. 1-2 hr cl. 1-2 hr cl. Prereq: 4th yr standing and 15 cr hrs in polit sci. Repeatable to a maximum of 10 cr hrs.

793 Individual Studies U G 1-5
Individual studies in political science; student work is evaluated by papers and/or special examinations. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 50 cr hrs, in any combination of decimal subdivisions, with not more than 20 cr hrs in a single subdivision. These courses are graded S/U.

793.01 American Politics
793.02 Comparative Politics
793.03 International Politics
793.04 Political Theory
793.05 Public Policy

General Prerequisites for Courses Numbered 800 and 900
A general foundation in undergraduate courses in history and the social sciences is assumed. Any of the 800-level courses listed may be repeated, provided that no student shall earn more than 10 hours of credit in any single course.

Seminar in National Security Research
See Nat Sec Pol S 801.

803† Research in Public Opinion G 5
Development and execution of a research design focusing on a problem in American public opinion; consultation on substantive and methodological problems offered by instructor. 1-2 hr cl. Prereq: 702 or permission of instructor.

804† Research on State and Local Politics G 5
Development and execution of a research design on a selected topic in American state or local politics; consultation on substantive and methodological problems offered by instructor. 1-2 hr cl.

813† Research on Executive and Bureaucratic Politics G 5
Development and execution of a research design focusing on a problem in American executive and bureaucratic politics; consultation with instructor on substantive and methodological problems. 1-2 hr cl.

817† Research in Legislative Politics and Policy-Making G 5
Development and execution of a research design focusing on a particular problem in American legislative research; consultation on substantive and methodological problems offered by instructor. 1-2 hr cl. Prereq: 717 or equiv.

826 Research in Comparative Politics G 3-5
Research seminar on various topics in comparative politics. 1-2 hr cl. Prereq: 2 polit sci courses in foreign governments at 600-level or above, or equiv. Repeatable to a maximum of 15 cr hrs.

846 Research in International Politics G 3-5
Research seminar in international politics. 1-2 hr cl. Repeatable to a maximum of 15 cr hrs.

866 Research in Political Theory G 5
Research seminar in political theory; intensive treatment of selected topics. 1-2 hr cl. Repeatable to a maximum of 10 cr hrs.
867 Research in Mathematical Political Theory G 5
Design and execution of research focusing on a problem in mathematical political theory.
2 2 hr cl. Prereq: 788 or permission of instructor. Repeatable to a maximum of 10 or hrs.

874 Research in Political Participation and Voting Behavior G 5
Development and execution of a research design focusing on a problem in electoral research; extensive consultation with instructor on substantive and methodological aspects of the problem.
1 2 hr cl, Prereq: 774 or equiv.

875† Research on American Political Parties G 5
Development and execution of a research design focusing on a problem relating to American political parties; consultation on substantive and methodological problems offered by instructor.
1 2 hr cl. Repeatable to a maximum of 15 or hrs.

879 Research on Public Policy G 5
Research into the process of policy-making and the substance of public policy; consultation on substantive and methodological problems offered by instructor.
1 2 hr cl. Repeatable to a maximum of 15 or hrs.

889 Internship in Politics and Public Policy G 1-15
Combines experience in political institutions or policy processes with analysis of that experience in light of relevant scholarly literature.
Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894† Group Studies: Contemporary Political Problems G 5
Group studies to examine specific contemporary political problems.
5 cl. Repeatable to a maximum of 30 or hrs.

999 Interdepartmental Seminar G 1-5
See Interdepartmental Seminars.

999 Research in Political Science G Arr
Research for thesis or dissertation purposes only.
This course is graded S/U.

Portuguese

248 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-5842

101 Elementary Portuguese U 5
Elements of Portuguese grammar, with oral and written exercises, attention to ear training and oral practice, and customs.
Su Qtr: 5 cl. FL Admis Cond course.

102 Elementary Portuguese U 5
The elements of Portuguese grammar with abundant oral and written exercises; development of conversational skill; reading, vocabulary building.
Wm Qtr: 5 cl. Prereq: 101. FL Admis Cond course.

103 Intermediate Portuguese U 5
Continuation of Portuguese grammar; reading of short stories, plays, and novels; increased attention to development of oral proficiency.
Sp Qtr: 5 cl. Prereq: 102 or 110.

104 Intermediate Portuguese U 5
Reading of Portuguese plays, short stories, and novels; emphasis on oral practice: non-fiction of cultural and historical significance.
Au Qtr: 5 cl. Prereq: 103 or 112.

112 Intensive Portuguese U 5, 10, 15.
Elementary and intermediate Portuguese; intensive drill in forms, syntax, vocabulary, and idiom; reading of short stories and plays in Portuguese.
Su Qtr: 15 cl. Enrollment limited to 20 students. Prereq: Permission of instructor. Full-time fees required regardless of number of or hrs. Equiv of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 103 or equiv may not register for credit. Students with credit for 101 and 110 will enroll for 5 or hrs. Students with credit for 101 only will enroll for 15 or hrs. Students with no credit in Portuguese will enroll for 10 or hrs. Regardless of or hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all or hrs. No audit. FL Admis Cond course.

202 Portuguese Conversation and Composition U 5
Intensive practice in conversation and composition based on materials concerning current life in Brazil and Portugal, with thorough review of grammar.
Wm Qtr: 5 cl. Prereq: 104 or permission of instructor.

421 Introduction to Modern Luso-Brazilian Literature U 5
Reading and discussion of important modern Portuguese and Brazilian literary works.
Au Qtr: 5 cl. Prereq: 104.

611† The Portuguese Language U G 5
Phonic transcription from tapes of major Continental and Brazilian dialects; the phonological patterns of modern Portuguese; general characteristics of its historical evolution from Hispano-Romance.
Sp Qtr: 4 cl, 1 lab hr. Prereq: 102 and j. standing, or permission of instructor.

620 Main Currents in the Development of Portuguese Literature U G 5
Portuguese literature from the Middle Ages to the present with emphasis on the evolution of major movements.
Wm Qtr: 5 cl. Prereq: 421, and 422 or 423, or permission of instructor.

621† Main Currents in the Development of Brazilian Literature U G 5
Brazilian literature, including the Portuguese colonial literature, from the 16th century to the present.
Wm Qtr: 5 cl. Prereq: 421, and 422 or 423, or permission of instructor.

623† Modern Brazilian Novel U G 5
The Brazilian novel from the 1930’s to the 1960’s.
Sp Qtr: 5 cl. Prereq: 421, and 422 or 423, or permission of instructor.

693 Individual Studies U G 1-15
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies U G 1-15
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

893 Individual Studies G 1-5
Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

894 Group Studies G 1-15
Investigation of minor problems in the various fields of Portuguese literature and language.
Su, Au, Wi, Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 30 or hrs.
Poultry Science

106 Oakes Hall, 674 West Lane Avenue, 422-4821

Domestic Animals in the Service of Man
See Anim Sci 100. Offered in cooperation with Dairy Sciences and Poultry Science.

General Prerequisites for Courses
Numbered 200
Unless otherwise indicated, the prerequisites for 200-level courses are 45 or hrs in college courses, exclusive of ROTC and phys ed, or specified courses numbered 100-199.

200 Fundamentals of Poultry Science U 5
Application of science and technology in the poultry and related industries. Marsh and Stephens.
Au, Wi, Sp Qtrs. 4 cl, 1-2 hr lab. Prereq: Biology 110 or Anim Sci 100. This course is available for EN credit.

General Prerequisites for Courses
Numbered 300 and 400
Unless otherwise indicated, the prerequisites for 300 and 400-level courses are 90 or hrs in college courses, exclusive of ROTC and phys ed, or specified courses numbered 100-399.

420 Principles of Animal Improvement U 5
An introduction to the methods available for bringing about genetic change in farm animals. Davis, Fehringer, Irvin, and Turner.

430 Principles of Animal Nutrition U 5
A study of the fundamental principles of nutrition in mammals and birds. Cline, Lathshaw, and Tyczyn.
Au, Wi, Sp Qtrs. 4 cl, 1-2 hr lab. Prereq: Chem 102 or 122, and Math 148 or equiv. Not open to students with credit for Animal Sci 430 or Dairy Science 430. Cross-listed in Animal Science and Dairy Science.

494 Group Studies U 2, 3 or 5
Intensive study of selected areas of poultry science appropriate to the group and not provided in other courses.

General Prerequisites for Courses
Numbered 500
Unless otherwise indicated, the prerequisites for 500-level courses are 15 cr hrs in the same discipline numbered 200 or higher, 10 cr hrs in courses numbered 200 or higher in the same discipline, plus 10 cr hrs in courses numbered 200 or higher in specified allied disciplines, or baccalaureate degree.

541** Commercial Poultry Management U G 5
A study of commercial poultry management utilizing an enterprise approach. Clayton and Stephens.
Sp Qtr. 4 cl., 1-2 hr. lab. Prereq: 200 and Agr Econ 310.01 or 310.02 or equiv and junior standing.

589 Poultry Science Experience U 2-5
Practical experience, including completion of outlined program and written report, in an approved poultry establishment. Marsh and Stephens.
Su, Au, Wi, Sp Qtrs. Prereq: Jr standing or higher and permission of instructor.

593 Individual Studies U 2, 3 or 5
Su, Au, Wi, Sp Qtrs. HS93 (honors) may be available to students enrolled in an honors program or eligible for enrollment. Repeatable to a maximum of 10 cr hrs. Prereq: 15 cr hrs 200-level courses or higher in poultry sc, animal sc, or dairy sc and permission of instructor. This course is graded S/U.

General Prerequisites for Courses
Numbered 600
Unless otherwise indicated, the prerequisites for 600-level courses are 15 cr hrs in college courses in the same discipline numbered 200 or higher, or 10 or hrs in courses numbered 300 or higher in the same discipline, plus 10 or hrs in courses numbered 300 or higher in specified allied disciplines.

Physiology of Reproduction and Growth
See Dairy Sci 612. Offered in cooperation with Animal Sciences and Dairy Science.

Laboratory in Reproductive Physiology and Artificial Insemination
See Dairy Sci 613. Offered in cooperation with Animal Science and Dairy Science.

614** Poultry Physiology U G 5
An organ system approach to avian physiology with particular emphasis on adaptation to modern production systems, animal care, growth, and reproduction.
Sp Qtr. 4 cl, 1-2 hr. lab. Prereq: Biology 110 or 111 and Vet Phys 410 or 411 or Zoology 432 or Physiol 601. Not open to students with credit for 610 and 611.

630 Nutrition and Feeding of Nonruminant Animals U G 5
The nutrition of swine, poultry, and laboratory animals; principles and practice. Lathshaw.
Su, Au, Wi, Sp Qtrs. 4 cl, 1-2 hr lab. Prereq: 430 or equiv. Not open to students with credit for Anim Sci 630. Cross-listed in Animal Science.

635 Nutrition Applied to Farm Animals U G 3
Application of nutrient requirements, feed formulation, and feed technology to providing adequate nutrition for farm animals. Cline, Lathshaw, Naber, Newland, Staubs, and Tyczyn.
Sp Qtr. 3 cl. Prereq: 620 or Anim Sci 630 or 631 or 632 or Dairy Sci 631. Not open to students with credit for 735, Anim Sci 635 or 735, or Dairy Sci 635 or 735. Cross-listed in Animal Science and Dairy Science.

640 Prevention and Control of Avian Diseases U G 5
The etiology, recognition, prevention, and control of the important diseases of poultry and game birds. Marsh.
Wi Qtr. 3 cl, 2-3 hr labs. Prereq: Chem 102 or 122 and Microbiol 550 or 601.

650 Egg and Poultry Products Technology U G 5
Quality identification and maintenance; processing; physical, chemical, microbiological and nutrient properties; preservation and utilization of egg and poultry products. Stephens.
Au Qtr. 3 cl, 2-3 hr labs. Prereq: Chem 102 or 122 and Microbiol 550 or 501.

695 Seminar U G 1
Clayton.
Au, Wi, Sp Qtrs.

General Prerequisites for Courses
Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 15 cr hrs in courses in the same discipline numbered 400 or higher, plus additional specified courses numbered 500 or higher.

Advanced Reproductive Physiology
See Dairy Science 710. Offered in cooperation with Animal Science and Dairy Science.

721 Genetics of Animal Populations I U G 3
Parameters of static populations, genetic arrays and equilibria and statistical measures. Partitioning the phenotypic variance mutation, migration, selection and chance. Inv.
Wi Qtr. 3 cl, Prereq: 420 or Genetics 500 and Genetics 650 or equiv. Not open to students with credit for Animal or Dairy Sci 721. Cross-listed in Animal Science and Dairy Science.
722 Genetics of Animal Populations II U G 3
Selection of polygenic characters, mating systems, and development of breeding plans. Irreg.
Sp Qtr. 3 cl. Prereq: 721 or Anim Sc 721 or Dairy Sc 721 or equiv. Not open to students with credit for Anim Sc 722. Cross listed in Animal Science and Dairy Science.

733 Nutrition in the Support of Growth U G 5
A functional approach to the study of nutrition for support of growth and maintenance in animals and humans. Mihan. Au Qtr. 5 cl. Prereq: 630 or Anim Sc 630, 632 or 633 or Dairy Sc 631 or Humn Nutr 610 and prereq or concur: Biochem 5111 or equiv. Not open to students with credit for Anim Sc 733 or Dairy Sc 733 or Fd ScNu 733. Cross listed in Animal Science, Dairy Science, and Food Science and Nutrition.

734 Nutrition in the Support of Reproduction U G 3
A functional approach to the study of nutrition for support of reproduction in animals and humans. Latshaw, Naber, Plamquist, Roehrig and Staubus. Wi Qtr. 3 cl. Prereq: 733 or Anim Sc 733 or Dairy Sc 733 or Fd ScNu 733. Not open to students with credit for Anim Sc 734 or Dairy Sc 734 or Fd ScNu 734. Cross listed in Animal Science, Dairy Science, and Food Science and Nutrition.

General Prerequisites for Courses Numbered 800 and 900
Unless otherwise indicated, the prerequisites for 800 and 900-level courses are 30 or hrs in courses in the same discipline, or 20 or hrs in the same discipline, plus 25 or hrs in specified allied disciplines.

800 Seminar G 1
Discussion of poultry science research and research methods. Naber. Au, Wi, Sp Qtrs. 1 cl. Prereq: Grad standing in Pfly Sc.

810 Advances in Physiology of Domestic Animals G 3
Au, Wi, Sp Qtrs. 4-hr cl. Prereq: Acceptable courses in physiology, anatomy, biochem, and written permission of instructor. Not open to students with credit for Anim Sc 810 or Dairy Sc 810. Cross listed in Animal Science and Dairy Science.

810.01* Anterior Pituitary Function
Bacon. Au Qtr.

810.02* Endocrinology of Reproduction
Wi Qtr.

810.03 Immunology and Immunogenetics
Hines. Sp Qtr.

810.05* Mammalian Germ Cells
Murray. Au Qtr.

820 Current Topics in Animal Genetics G 3
3 cl. Prereq: Acceptable courses in animal genetics, mathematics, and statistics. Repeatable to a maximum of 12 or hrs. Not open to students with credit for Anim Sc 820 or Dairy Sc 820. Cross listed in Animal Science and Dairy Science.

820.01* Selection Index Theory
Allaire. Au Qtr.

820.02* Nonadditive Genetic Variance
Harvey. Wi Qtr.

820.04* Simulation of Genetic Systems
Allaire and Davis. Sp Qtr.

820.05* Cytogenetics of Animal Populations
Fechheimer. Wi Qtr.

830 Advanced Studies in Nutrition G 3
Su, Au, Wi, Sp Qtrs. 3 or 4 cl. Prereq: 630 or Anim Sc 630 or Dairy Sc 631 or Humn Nutr 610; Fd ScNu 761 and 762; and 10 grad or hrs in physiol. Not open to students with credit for Anim Sc 930 or Dairy Sc 830 or Humn Ntr 830. Cross listed in Animal Science, Dairy Science, Food Science and Nutrition, and Human Nutrition and Food Management.

830.01* Energy

830.02* Minerals
Cline. Sp Qtr.

830.03* Proteins and Amino Acids
Naber and Vivian. Sp Qtr.

830.04* Vitamins
Naber. Au Qtr.

830.05* Lipids
Palmaquist. Wi Qtr.

830.06* Carbohydrates
Roehrig. Au Qtr.

998 Interdepartmental Seminar in Nutrition G 1
See Interdepartmental Seminars. Sp Qtr. This course is graded S/U.

999 Research G Arr
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Preventive Medicine
B-201 Sterling-Loving Hall, 320 West 10th Avenue, 421-3907

685 Field Experience in Comprehensive Health Planning P 8, 12, 16 G 6-12
Full time assignment to a state or local health planning agency, to work on a specific project in community health under the guidance of a selected faculty advisor.
Su, Au, Wi, Sp Qtrs. Field time assigned for medical students 1, 2, or 3 months and grad students ½ or entire summer quarter. Prereq: Permission of instructor.

700 Current Health Problems P G 3
Descriptive epidemiology and clinical features of major causes of morbidity and mortality, appraisal of current control mechanisms and policy issues. Keller and staff.
Au Qtr. 1 2½-hr cl. Prereq: Grad or professional standing. Not open to students with credit for 795.

730 Principles of Environmental Health P G 3
Survey of major environmental factors affecting human health, including air, water, and land pollution, occupational hazards, trace metals, chemical carcinogens, radiation, and noise. Wilkins. Wi Qtr. 2 ½-hr cl. Prereq: Grad or prof standing.
764 Design and Analysis of Comparative Biomedical Research P G 3
Theory and application of basic statistical concepts as they affect design, analysis, and interpretation of veterinary biomedical research.
Au Qtr. 2 hr cr. Prereq: Vet Med 2nd, 3rd, or 4th yr standing; or permission of instructor. Not open to students with cr or Vet Prev 764 or Vet Phys 764. Cross listed in Veterinary Preventive Medicine and Veterinary Physiology and Pharmacology.

765 Biostatistics and Computers in Medical Research P G 3
Review of the fundamental concepts of biostatistics, including more complex analysis of variance designs, integrated with application of the electronic computer. Moeschberger.
Wi Qtr. 1 2-hr cr and 1 2-hr lab. Prereq: Permission of instructor. Not open to students with cr or for Vet Prev 765 or Vet Prev 765. Cross listed in Veterinary Preventive Medicine.

768 A Problem-Oriented Approach to Biostatistics U G 3
The employment of actual health-related problems to illustrate the use of computers and applied statistical methods important to epidemiologists and other health professionals. Lanese and Moeschberger.
Sp Qtr. 2 1/2-hr cr. Prereq: 764 and 765 or permission of instructor. Not open to students with credit for 794.01 covering this same topic.

770 Health Survey Methods P G 3
An introduction to health survey methods, lectures, readings, and community exercises; consideration of health planning and epidemiological applications. Lanese.
Wi Qtr. 1 1/2-cr and 1 1-hr conf. Prereq: Grad or professional standing and permission of instructor.

786 Biometrics Laboratory P G 3
Participation in consultations offered to biomedical researchers, combined with individualized faculty guidance. Moeschberger.
Au, Wi, Sp Qtrs. 2 1-hr lab and 2 1-hr conf. Prereq: 794 or 794.01 or equiv. Repeatable to a maximum of 6 or hrs.

793 Individual Studies in Preventive Medicine P 6, 12, 18 G 2-5
1, 2, 3, or 4 months; offered all months except June. Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs for professional credit and 15 or hrs for grad credit. These courses are graded S/U.

794 Group Studies in Preventive Medicine P 6, 12, 18 G 2-5
1, 2, 3, or 4 months; offered all months except June (prof cr). Su, Au, Wi, Sp Qtrs (grad cr). Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs for professional credit and 15 or hrs for grad credit.

794.01 Biometrics
Lanese and Moeschberger.

794.02 Environmental Health
Wilkins.

794.03 Epidemiology
Keller, Wilkins, and Moser.

794.04 Community Health
Banks, Chirikos, and Keller.

794.99 General

800 Epidemiology I G 3
Principles of epidemiology with special emphasis on methods employed in current epidemiologic studies. Wilkins, Keller, and Moser.
Au Qtr. 2 1/2-hr cr. Prereq: Grad standing. Not open to students with credit for 851.

801 Epidemiology II G 3
Design of epidemiologic studies of major health problems; review of key studies; application of epidemiologic data to public health programs and medical care delivery. Keller and Wilkins.
Wi Qtr. 2 1/2-hr cr. Prereq: 800 or equiv.

802 Epidemiology in Environmental Health P G 3
Principles and application of epidemiologic methods in the investigation and control of health problems stemming from environmental hazards. Wilkins.
Sp Qtr. 2 1/2-hr cr. Prereq: 730 or equiv.

812 Public Health Organization G 3
History and development of public health agencies; legal bases of public health law; administrative structure of official and voluntary agencies and their relationships to the complex of health and medical services in the community. Keller and Chirikos.
Sp Qtr. 1 2-hr cr and 1 1-hr conf. Prereq: Permission of instructor.

849 Pro-Seminar in Community Health Development G 2-3
Each week a basic area of community health development is presented by a specialist; the students prepare by reading assigned literature in this area, respond to questions raised during each session, and prepare reviews of the key issues. Au, Wi, Sp Qtrs. 1 2-hr session per wk, and additional conferences. Prereq: Grad standing in prev med or permission of instructor. Repeatable to a maximum of 12 or hrs.

850 Seminar in Preventive Medicine G 1-3
Su, Au. Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs.

852 Comprehensive Health Planning G 3
Study of comprehensive health planning concepts and techniques; with emphasis on topics relating to the design of health plans at the community level. Chirikos.
Wi Qtr. 1 2-hr session plus 1 1-hr conference per wk. Prereq: Grad standing in prev med or permission of instructor.

853 Behavioral Epidemiology G 3
A review of the epidemiological literature that examines the relationship between behavioral factors, theories of stress, and disease processes. Lanese and Banks.
Au Qtr. 2 1/2-hr cr. Prereq: Permission of instructor.

854 Economics of Community Health G 3
Survey of the application of economic analysis to community health problems; emphasis on topics relating to the allocation of health resources and health manpower. Chirikos.
Au Qtr. 2 1/2-hr cr. Prereq: Econ 400 or permission of instructor.

857 Health Planning Laboratory G 3
Practicum in the application of planning techniques to current health problems and policy issues. Chirikos.
Sp Qtr. 2 1/2-hr conf. Prereq: 852. Repeatable to a maximum of 8 or hrs.
885 Behavioral Responses in Disease Prevention G 3
A survey of behavioral science literature concerning health behavior, illness behavior, and sick-role and their impact upon programs for prevention, early detection, and amelioration of disease. Banks.
Su Qtr. 2 1 1/2-hr cl. Prereq: Grad standing and permission of instructor.

999 Research in Preventive Medicine G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtr. S. This course is graded S/U.

Psychiatry

071 Upham Hall, 473 West 12th Avenue, 422-8282

760 Clinical Hypnosis and Psychotherapy P G 1-3
Theoretical and clinical aspects of hypnosis, with experience in techniques and applications in psychotherapy. Gwynne.
Sp Qtr. 1 cl, 4-hr lab optional: Prereq: 710 or equiv and permission of instructor.

793 Individual Studies in Psychiatry P 6, 12, 18 G 1-18
A supervised, scholarly investigation of some aspects of psychiatry in which there is interest by the student and expertise by the faculty.
1, 2, or 3 months. Offered all months (prof cr). Su, Au, Wi, Sp Qtr.s (grad cr). Prereq: Adequate clinical training in psychiatry and permission of chairman and instructor. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

850 Seminars in Psychiatry G 1-6
A—Clinical Psychiatry
B—Group Therapy
C—Psychopharmacology
D—Psychiatric Literature
E—Child Psychiatry
Su, Au, Wi, Sp Qtr.s. 1 cl. Prereq: Permission of chairman and instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

999 Psychiatry Research G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr.s. Prereq: MD and residency in psychiatry. This course is graded S/U.

Psychology

411 Arps Hall, 1945 North High Street, 422-8741

100 General Psychology U 5
Introductory psychology, a prerequisite to advanced courses; the application of the scientific method to behavior; topics include learning, motivation, perception, personality, physiological basis of behavior. 100, Au, Wi, Sp Qtr.s. 5 cl. H100 (honors) may be available to students enrolled in an honors program or by permission of dept. This course is available for EM credit. BER/LAC/LAR course. SS Admis Cond course.

101 Advanced General Psychology U 5
Continuation of 100 with further emphasis on the development of a scientific attitude toward personal psychological problems in the fields of learning, thinking, intelligence, and personality. Su, Au, Wi, Sp Qtr.s. 5 cl. H101 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 100. BER/LAC/LAR course. SS Admis Cond course.

120 Psychology of Personal Effectiveness U 3
A survey of theories and practices designed to improve higher level skills in reading, perception, learning, and adjustments.
Su, Au, Wi, Sp Qtr.s. 2 cl, 1 2-hr lab.

130 Advising College Students U 1-4
Selected students will study the dynamics of and learn skills related to the career, scholastic, social, and personal development of college students.
Au Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs.

210 Educational Psychology for Medical Personnel U 5
Consideration of human capacities, abilities, interests, individual differences, and overall development; aspects of learning, personality, and physiological correlates of psychological phenomena of interest to medical personnel.
Su, Au, Wi, Sp Qtr.s. 5 cl. Prereq: 100. Not open to students with credit for 230. BER course. SS Admis Cond course.

220 Quantitative and Statistical Methods in Psychology I U 3
Elementary presentation of probability, descriptive, and inferential statistics and methods of measurements relevant to contemporary psychology.
Su, Au, Wi, Sp Qtr.s. 3 cl. Prereq: 100 or 300; and 5 hrs of math (116 or higher, excluding 180), and completion of the mathematical and logical analysis component of the LAC/LAR. Not open to students with credit for Statistics 125. 220A is designed for students preparing for a bachelor's degree program. 220B is designed for students preparing for a grad or advanced degree program.

221 Quantitative and Statistical Methods in Psychology II U 4
A concentrated examination of applications of statistical tools in inference in contemporary psychology; hypothesis testing, regression, correlation, and analysis of variance.
Au, Wi, Sp Qtr.s. 2 cl, 1 2-hr lab. Prereq: 220. Not open to students with less than a grade of C in 220.

230 Introduction to Educational Psychology U 5
Facts and principles of human development and learning are applied to the problems of education; scientific evidence in the solution of educational problems is stressed.
Au, Wi, Sp Qtr.s. 5 cl. Prereq: 100. Not open to freshmen or to students with credit for 210. SS Admis Cond course.

284 Group Studies U 1-6
Reading and/or research projects by special agreement between instructor and students; topics to be announced.
Au, Wi, Sp Qtr.s. Prereq: 100 and 101. Not open to freshmen. Repeatable to a maximum of 6 cr hrs.

300 Introductory Psychology U 5
An introduction to psychology for students with science background; topics covered similar to 100.
Au Qtr. 5 cl. Prereq: 10 or hrs of science. Not open to students with credit for 100. BER course. SS Admis Cond course.

310 Basic Psychology: Perception U 3
Theory, methods, and physiological correlates of sensory and perceptual processes; emphasis on the relation of behavior to stimulus variation.
Au, Wi, Sp Qtr.s. 3 cl. Prereq: 220.

311 General Psychology: Motivation and Action U 3
A behavorialistic presentation of experimental work on learning and motivation.
Wi Qtr. 3 cl. Prereq or concur: 220.

312 General Psychology: Learning and Thinking U 4
An introduction to experimental study of human memory, learning and cognition.
Su Qtr. 3 cl. Prereq: 220.
320 Social Psychology U 5
Survey of group processes as they affect individual behavior; topics include individual motivation, group behavior, attitudes, and perception of self and others. Su, Wi, Sp Qtrs. 4 cl. H320 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: 5 or hrs in psych and English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. Tech course.

321 Applications of Psychology U 3
Introduction to fields of applied psychology, use of psychological methods and principles in understanding and solving problems in a variety of organizational settings. Au, Wi, Sp Qtrs. 3 cl. Prereq: 100.

330 Psychology of Abnormal Behavior U 3
Prereq: 5 cr hrs in psych. Not open to students with credit for 330.
330.01 Major Psychological Disorders
A consideration of the symptomatologies, etiologies, and therapies of the major neuroses and psychoses. Su, Au, Wi, Sp Qtrs. 3 cl.

330.02 Historical and Philosophical Issues
A sociological and historical examination of the concept of mental disorder. Wt Qtr. 2 1/2 hr cl.

331 Psychopathology and Psychotherapy I U 3
Examination of current problems, issues, theories and approaches to psychological deviance. Au, Wi Qtrs. Prereq: 5 or hrs in psych.

332 Psychopathology and Psychotherapy II U 3
Continuation of 331; focus on psychotherapeutic approaches. Sp Qtr. Prereq: 10 or hrs in psych.

333 Human Behavior Problems U 3
Analyses of behavior patterns which are often considered undesirable or otherwise problematic; emphasis on behavioral definitions and analyses of problems, and on behavioral interventions. 2 1/2 hr cl.; Prereq: 5 or hrs in psych.
333.01 General Survey
Su, Au Qtrs.
333.02 Sexual
Sp Qtr.

335 Psychology of Adjustment U 3
Examination of psychological concepts and theories related to individual adjustment and adaptation. Au, Wi Qtrs. 2 1/2 hr cl.; Prereq: 100. BER course.

340 Introduction to Life Span Developmental Psychology U 3
A survey of developmental psychology including some phylogenetic perspective. Au Qtr. 3 cl. Prereq: 100 or 300.

350 Contemporary Issues in Developmental Psychology U 3
A survey course acquainting students with issues resulting from the social changes of the past decade and from an increased interest in the life span. Au, Sp Qtrs. 3 cl. Prereq: 100.

500 Experimental Psychology U 5
An overview of experimental methodological techniques with experiments selected for cultural value; as preparation for technical study; and to represent paradigms used in human and animal research. Au, Sp Qtrs. 2 cl. 3 lab hrs. Prereq: 220, and 6 or hrs above 300, including at least one of 310, 311 or 312, and English 110 or 111; or equiv., with written permission of instructor. Open only to psy major. Fulfills in part the ASC advanced English composition requirement.

501 Physiological Psychology U G 3
Some physiological correlates of psychological phenomena; the properties of integrated organ systems, with emphasis on the characteristics of their elements; consideration of psychosomatic abnormalities. Wi Qtr. 3 cl. Prereq: 101 or 300.

502 Advanced Physiological Psychology U G 3
Further physiological correlates of psychological phenomena; sensory and motor processes will be special topics. Sp Qtr. 3 cl. Prereq: 501.

503 Experimental Approaches to Cognition U G 4
Cognitive processes are studied from an experimental viewpoint; topics may include attention, pattern recognition, speech perception, memory, processes and others. Wi, Sp Qtrs. 2 1/2 hr cl. Prereq: 220, and 310 or 312.

505 Contemporary Viewpoints in Psychology U G 3
A consideration of the development of modern scientific psychology from its roots in the school of the 19th century to its contemporary status. Sp Qtr. 3 cl. Prereq: 16 or hrs in psych.

511 Psychological Testing U G 3
An overview of theoretical and practical aspects of the assessment and prediction of human behavior; topics include achievement, intelligence, personality, attitudes, interests, and interpersonal relations. Au, Wi, Sp Qtrs. 3 cl. Prereq: 10 or hrs in psych.

520 Experimental Social Psychology U 4
Typical experiments in such social psychological areas as attitude change, group processes, and group influences upon the individual. Au, Wi, Sp Qtrs. 2 cl. 4 lab hrs. Prereq: 221, 320, and permission of instructor. Open only to psy majors. Repeatable to a maximum of 12 or hrs.

521 Introduction to Industrial and Organizational Psychology U G 3
Overview of concerns, methods, practices of psychologists working with organizations; personnel selection, performance evaluation, training, motivation, job satisfaction, leadership, group behavior, organizational design. Su, Au, Wi, Sp Qtrs. 3 cl. H521 (honors) may be available to students enrolled in an honors program or by permission of instructor. Prereq: 220 or written permission of instructor.

530 Psychology of Personality U G 3
Major theoretical and research orientations in the study of personality; consideration of psychological processes involved in the attribution of personality characteristics. Au, Wi, Sp Qtrs. 3 cl. Prereq: 10 or hrs in psych.

531 Clinical Psychology and Alternative Aspects U 3
Prereq: 15 or hrs in psych.
531.01 Community Aspects
Community psychology; the influence of social forces on the behavior of individuals and groups, including attention to problems of psychosocial deviance. Wi Qtr. 3 cl.

531.02 Intervention Aspects
A conceptual analysis of psychotherapy and other approaches to behavior change; emphasizes ways of evaluating interventions, not techniques of traditional classifications of mental disorders. Wi Qtr. 3 cl.

531.03 Medical Aspects
Introduction to medical psychology; physiological approach to cause and treatment of various mental disorders (schizophrenia, affective illness, psycho-physiological disorders); treatment approaches include relaxation, hypnosis, biofeedback. Au Qtr. 2 1/2 hr cl.

531.04 Laboratory Aspects
Au, Wi, Sp Qtrs. 6 lab hrs.
539 Stress, Social Support, and the Professional Helper U G 3
Stress at work and elsewhere; emphasis on treatment through social support.
Su Qtr. 3 cl. Prereq: 10 or hrs in psych. Not open to students with credit for 640. Designed for health professionals, personnel workers, teachers, and related specialists in human services.

540 Counseling Psychology: An Introduction U G 3
For students interested in counseling and personnel work; discussion of counseling psychology, counseling, and testing.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq. 10 or hrs in psych.

541 Educational and Vocational Appraisal U G 4
Theory and techniques of assessment of individual characteristics; assessment techniques used in counseling situations.
Au Qtr. 3 cl. Prereq. 10 or hrs in psych.

542 Vocational Psychology U G 3
Survey of psychological aspects of work and their implication for vocational development; the use of labor force and occupational information in vocational choice.
Sp Qtr. 3 cl. Prereq. 10 or hrs in psych.

543 Psychology of Women U G 4
Exploration of the nature and causes of sex differences in behavior patterns and factors influencing development of women through psychological theory and research.
Wi Qtr. 4 cl. Prereq. 12 or hrs in psych. Not open to psych grad students.

544 Interactional Psychology and Behavior U G 3
Survey of the history, relevant issues, empirical research and theories of person-environment psychology and behavior.
Sp Qtr. 3 cl.

550 Psychology of Childhood U G 3
Presentation of psychological aspects of growth and development in early and middle childhood.
Su, Au, Wi, Sp Qtrs. 3 cl. H550 (honors) may be available to students enrolled in an honors program or by permission of the dept. Prereq. 100 or 300.

551 Adolescence U G 3
A study of the outstanding characteristics of the adolescent, the educational and social problems arising at this period, and means for dealing with these problems.
Su, Au, Wi, Sp Qtrs. 3 cl. Prereq. 100 or 300.

552 Psychology of the Adult Years U G 3
Theory and research related to adulthood as a sequence of psychological stages involving adjustment and coping behaviors; relationship of adulthood to other life-span stages.
Au, Sp Qtrs. 3 cl. Prereq. 100 or 300.

560 Educational Psychology U G 3
Critical appraisal of the implications for education of modern psychological findings in advanced educational psychology.
Su Qtr. 3 cl. Prereq. 10 or hrs in psych.

571 Psychology of Developmental Disability U G 4
Overview of developmental disability including etiology, early identification, treatment, and psychological impact on the family.
Wi, Sp Qtrs. 3 cl. Prereq. 10 or hrs in psych or written permission of instructor.

H599 Honors Course U 3
A program of readings, conferences, and reports selected to aid the student in completing a senior honors thesis.
Au, Wi, Sp Qtrs. 1-3 hr cl. Prereq. Candidate for degree with distinction. Repeatable to a maximum of 9 or hrs.

600 Psychology of Learning U G 4
The study of principles which underlie the discovery, fixation, and retention of behavior; emphasis on theoretical formulation of the conditions necessary for learning and remembering.
Su, Au, Wi Qtrs. 4 cl. Prereq. 101 or equiv.

601 Comparative Psychology U G 3
Research on animal behavior by psychologists and ethologists: studies of the behavior of different species in the lab and in the field.
Wi Qtr. 3 cl. Prereq. 20 or hrs in psych or zoology or permission of instructor.

602 Psychology of Listening and Reading U G 3
Introductory survey of work on reading and the perception of speech; emphasis is on reading with a focus on the underlying perceptual and cognitive processes.
Au Qtr. 2 1-½ hr cl. Prereq. 100.

603 Visual Perception U G 3
Principles, theories, and methods relevant to the study of visual perception; emphasis on the availability and usefulness of visual information.
Au Qtr. 3 cl. Prereq. 310 or permission of instructor.

604 Psychology of Language U G 5
Introductory survey of the psychological research on language behavior; emphasis on understanding both language processes in the adult speaker and a child’s acquisition of language.
Wi Qtr. 2 2-hr cl. Prereq. 100.

605 Psychophysiology of the Special Senses U G 3
A survey of the basic physiology of the senses and the peripheral nervous system; emphasis on receptor mechanisms and neural coding processes.
Sp Qtr. 3 cl. Prereq. 310 or permission of instructor.

606 Psychology of Perception U G 3
Survey of principles of perceptual learning and development, adaptation to distorted stimulation, recognition memory, perceptual set and attention, relation of perception to action and communication.
Wi Qtr. 3 cl. Prereq. 310 or 603 or permission of instructor.

608 Introduction to Mathematical Psychology U G 3
Survey of current topics in mathematical psychology; topics include measurement theory, scaling, utility theory, subjective probability, decision making in uncertain situations, choice theory.
Au Qtr. 3 cl. Prereq. 221 or equiv. or permission of instructor.

609* Introduction to Mathematical Models in Experimental Psychology U G 4
A survey of mathematical models and theories in important areas of experimental psychology; models of perceptual and cognitive processes, memory, and learning.
Wi Qtr. 2 2-hr cl. Prereq. 221 and 608; or grad standing.

610* Contemporary Mathematical Models and Theories in Psychology U G 4
Topics include axiomatic, geometric, conjoint measurement, functional measurement, and artificial intelligence models.
Sp Qtr. Prereq. 221 and 608; or grad standing.

611 Educational Testing U G 3
A service course for those majoring in elementary and secondary education, guidance, school psychology, and school administration; stress on use of measurements in school.
Su Qtr. 3 cl. Prereq. 15 or hrs in psych.

616 Psychological Scaling U G 4
Theory and applications of unidimensional and multidimensional scaling methods for proximity and preference data; multidimensional scaling is emphasized.
Wi Qtr. 2 2-hr cl. Prereq. 608 or grad standing.
619 Visual Information Processing U G 3
Rapid visual decisions: how the visual representation is formed, stored, and interpreted, enabling one to read, drive, and look for and compare visual objects.
Sp Qtr. 3 cl. Prereq: 310 or permission of instructor.

620 Human Performance U G 5
Research and theory on perceptual, cognitive, and motor processes that impact performance. Topics include memory, attention, pattern discrimination, motor control.
Au Qtr. 2 cl. Prereq: 12 or hrs of psych beyond the introductory level (510 or 512 or 500 recommended).

621 Personnel Psychology U G 4
Content and methodology of personnel psychology, including such topics as job analysis, interviewing, test validation, selection and placement systems, performance appraisal, and training.
Au Qtr. 2 2-hr cl. Prereq: 220 or equiv with written permission of instructor, or grad standing.

622 Psychology of Organizational Effectiveness U G 4
Effects of organizations and groups on individual behavior, including interpersonal processes (groups, leadership), structural effects (task, technology, reward systems) and organizational conflict and change.
Au Qtr. 2 2-hr cl. Prereq: 220 or equiv with written permission of instructor, or grad standing.

623 Human Motivation U G 4
Overview of theory and research in the explanation of the direction and level of human behavior in organizational settings.
Au Qtr. 2 2-hr cl. Prereq: 220 or written permission of instructor.

624 Psychology of Monkeys and Apes U G 3
Research about monkeys and apes with emphasis on their learning, arts, memory, curiosity, language, and neurophysiological problems.
Au Qtr. 3 cl. Prereq: 100 or permission of instructor.

625 Introduction to Auditory Perception U G 3
Theory and research in auditory perception, traditional psychoacoustic and new ecological approaches.
Sp Qtr. 3 cl. Prereq: 100, 220, and 310.

630 Psychology of Public Attitudes U G 3
Attitude organization and change; study of the determinants of attitudes.
Au Qtr. 3 cl. Prereq: 320 and 220 or equiv.

645 Psychology in Urban Settings U G 3
An examination of the psychological and social aspects of urban problems in an actual community setting.
Au Qtr. 2 cl. 1 lab hr.

652 Behavior Modification with Children and Youth U G 3
Theory and practice of behavior modification; emphasis on experience with individual children and youth and consultation within applied settings.
Au Qtr. 1 3-hr cl. lab arr. Prereq: 571 or equiv, 600, and permission of instructor. Not open to students with credit for 852 01.

662 Psychology of Creativity U G 3
A critical examination of conceptual, theoretical, and methodological problems related to the systematic study of creativity; special attention to background factors related to creative behavior.
Au Qtr. 3 cl. Prereq: 15 or hrs in psych or permission of instructor.

665 Psychology of the Later Years U G 3
Critical consideration of major gerontological issues facing aged adults; theories, methodologies, and research into human aging process.
Su, Wi, Sp Qtrs. 3 cl.

680 Intellectually Exceptional U G 3
Theory and concepts of mental retardation, slow learners, causation, diagnosis, and treatment of social, personal, and educational problems of persons so labeled.
Prereq. Written permission of instructor.

680.01 Mentally Retarded
Causes and attributes of mental retardation, diagnosis and treatment of social, personal, and educational problems of persons so labeled.
Sp Qtr. 2 1 1/2-hr cl.

680.02 Intellectually Gifted
Theory and concepts of intellectually exceptional individuals, causation, diagnosis and treatment of social, personal and educational problems of persons so labeled.
Wi Qtr. 3 cl.

681 Developmental Psychopathology of Childhood U G 3
The description, etiology, and assessment of childhood psychopathologies such as autism, depression, drug abuse, hyperactivity; developmental approach is used.
Wi Qtr. 3 cl. Prereq: 100 and 250.

682 Principles of Treating the Problem Child U G 3
Approaches to diagnosis and treatment of psychological disorders; survey of and illustration through case studies of developmental problems of infancy and childhood.
Su, Sp Qtrs. 3 cl. Prereq: 550 and 681, or written permission of instructor.

684 Psychology of Delinquency U G 3
Characterization, causation, and treatment; emphasis on current theories and research.
Su, Wi, Qtrs. 3 cl. Prereq: 551 or equiv.

688 Laboratories in Industrial/Organizational Psychology U G 4
Laboratory and field experience in job analysis, selection, validation, measurement, interviewing, training, leadership, and group and organizational processes.
Au, Wi, Sp Qtrs. 4 cl. Prereq: Written permission of instructor. Repeatable to a maximum of 40 cr hrs in any combination of alphabetical subdivisions.

A— Job and Task Analysis
B— Development of Criteria
C— Selection Devices
D— Placement and Classification
E— Validation Procedures
F— Individual Differences Measures
G— Satisfaction Measures
H— Interviewing
I— Training and Development
J— Leadership
K— Group Processes
L— Organizational Processes

693 Individual Studies U G 1-15
Individual reading or research projects by special agreement between instructor and student.
Su, Au, Wi, Sp Qtrs. Prereq: 16 or hrs in psych and permission of instructor. Repeatable to a maximum of 30 cr hrs for undergrads and to a maximum of 45 cr hrs for grad students in any combination of decimal subdivisions. These courses are graded S/U.

693.01 Clinical Psychology
693.02 Counseling Psychology
693.03 Developmental Psychology
693.04 Human Experimental Psychology
693.05 Industrial Psychology
693.06 Quantitative Psychology
693.07 Social Psychology
693.08 Comparative and Physiological Psychology
695 Seminars in Psychology U G 2-5
Su, Au, Wi, Sp Qtr s. Prereq: Written permission of instructor; and either 220 and 17 cr or hrs in psych above the 200-level or grad standing. No more than 9 cr or hrs in any combination of decimal subdivisions may be counted toward the undergrad major.

695.01 Clinical
695.02 Counselling
695.03 Developmental
695.04 Human Experimental
695.05 Industrial/Organizational
695.06 Quantitative
695.07 Social
695.08 Comparative and Physiological

H699 Honors Seminar in Clinical/Counselling Psychology U 3
Written permission of instructor. Repeatable to a maximum of 8 cr hrs.

710 Laboratory in Test Design U G 3
Wi Qtr s. 2 cr. lab hrs. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs.

731 Individual Differences U G 3
Course requires problem solving in psychology, development of individual differences, testing and measurement, and for the design of educational curricula.

788* Laboratory in Attitude Measurement U G 3
Wi Qtr s. 4 cr. lab hrs. Prereq: Written permission of instructor.

794 Group Studies U G 1-5
The topics vary from quarter to quarter and will be announced one month in advance.

800 Advanced Experimental Laboratory G 3-15
Advanced training in the experimental and quantitative methods in the several areas of general experimental psychology and comparative psychology.

801 Advanced Theoretical Psychology G 4
Wi, Sp Qtr s. 4 cr.

802 Advanced Psychology of Motivation G 3
An advanced study of the experimental and theoretical material on: physiological drives; development and maintenance of secondary motives; perception and motivation, conflict.

803 Theories of Perception G 3
Survey of the history of and theories of perception, emphasizing different concepts of stimulation, research methods, and the roles of prior experience, motor performance, and attention. Sp Qtr s. 3 cr.

804 Advanced Comparative Psychology G 3
Contemporary literature in comparative psychology. Sp Qtr s. 3 cr. Prereq: 801.

806 Neuropsychology I G 3
An introduction to the principles governing neural integrative mechanisms; morphology of nervous systems of the vertebrates; transmission in individual neurons; properties of junctions in integrative networks; elementary laws of reflex action.

807 Neuropsychology II G 3
Functional differentiation of the nervous systems of vertebrates; properties of principle division of the brain; organizations of the forebrain; mechanisms of sleep and waking rhythm; mechanisms of perception.

808 Neuropsychology III G 3
Neural mechanisms of motivation and behavioral plasticity; control of major cyclical phenomena, including hunger, thirst, and reproduction; reactions to appetitive and continued stresses; mechanisms of the learning process.

809 History and Systems of Psychology G 3
Development of psychology from the philosophic antecedents to its present status as a science and a profession; assignments in original sources as far as possible.

811 Seminar in Experimental Psychology G 2
Su, Au, Wi, Sp Qtr s. 2 cr. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs.

815 Decision Processes G 4
An introductory course in the application of statistical decision theory as a normative model and analytic technique in the experimental study of cognitive processes.

816 Human Performance Theory G 4
Research and theory on the discrete and on the continuous cases of human information processing; topics include input processes, central processing functions, and output processes.

817 Seminar in Human Performance G 3
Wi Qtr s. 3 cr. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.

819 Seminars in Industrial and Organizational Psychology G 3
2 cr. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs.

820 Fundamentals of Factor Analysis G 3

821 Seminar in Field and Experimental Research Methods G 3
Wi Qtr s. 3 cr. Prereq: Permission of instructor, and 821b for 821a, and 821c for 821a. Repeatable to a maximum of 9 cr hrs.
822 Psychological Assessment G 3
A critical survey and evaluation of concepts and techniques of assessment of intelligence, special aptitudes, and personality.
Au Qtr. 3 cl.

823 Theory of Test Construction G 3
Review of major approaches including traditional mental test theory, assessment theory, and decision theory in relation to constructing and use of various types of tests.
Sp Qtr. 3 cl. Prereq: 511 or 811 or equiv.

824 Seminars in Psychological Measurement G 2-4
Repeatable to a maximum of 10 cr hrs.
A—Models for Psychophysiology
B—Models for Measurement and Scaling
C—Models for Interpersonal Analysis

826 Statistics in Psychology G 4
Basic concepts of descriptive and inferential statistics; includes estimation, hypothesis testing, and introductory treatment of analysis of variance, correlation and regression, and non-parametric techniques.
Au Qtr. 3 of 2 lab hrs. Prereq: 220 or equiv and grad standing in psych, or permission of instructor.

827 Analysis of Variance G 4
Statistical inference in analysis of variance designs; basic concepts and procedures in one-way designs; factorial, repeated measures, randomized blocks, mixed models designs; procedures for planned and post hoc comparisons.
Wi Qtr. 3 cl, 2 lab hrs. Prereq: 826 or equiv.

828 Correlational Analysis G 4
Correlation and regression techniques for quantitative and qualitative data analysis; simple linear regression and correlation, reliability, validity, multiple linear regression, nominal scales, interactions, non-linear relationships.
Sp Qtr. 3 cl, 2 lab hrs. Prereq: 827 or equiv.

831 Seminars in Psychological Statistics G 2-5
2-5 cl. Prereq: Written permission of instructor. Repeatable to a maximum of 18 or hrs. Subdivisions A, D, F, G, H, and I are offered every other year.
A—Analysis of Variance.
B—Experimental Design.
C—Factor Analysis, Sp Qtr.
D—Mathematical Models and Theory.
E—Non-Parametric Statistics.
F—Quasi-Experimental Design
G—Advanced Multivariate Analysis
H—Computer Simulation Research

832 Sociomoral Development G 4
Focus upon recent work stemming from Piagetian and Eriksonian approaches, relation of specific theoretical perspectives to current issues and findings emphasized.
Au, Sp Qtrs. 2 1/2-yr cl.

833 Methodological Problems in Developmental Psychology G 3
A bridge from formal statistics to current research in developmental and educational psychology with repeated measure, time series data, indices of change, etc.
Sp Qtr. 3 cl. Prereq or concur: 826 and 827 or equiv with written permission of instructor. Repeatable to a maximum of 8 cr hrs.

834 Psychology of Infancy G 3
Psychological development during the first four years of life with particular reference to neonatal period and research methodology in studies involving infants.
Au Qtr. 3 cl. Prereq: 837 or permission of instructor. Not open to students with credit for 550.

835 Child Development G 3
Major developmental aspects of childhood; review of theory, methodology, research studies, and historical and contemporary writing about children; consideration of interdisciplinary approaches.
Wi Qtr. 3 cl. Prereq: 837 or permission of instructor.

836 Developmental Psychology G 3
836.01 Adolescence
Comprehensive view of adolescence as a stage in human development; theory, methodology, research and application to family, school and community, relation to other developmental stages.
Sp Qtr. Prereq: Permission of instructor. Not open to students with credit for 851 or 836.
836.02 Maturity and Aging
Survey of psychology of adulthood, normative epipodes, problems of stress, adaptation, social interaction and physical and intellectual functioning; maturity in modern and historical cultures.
Au Qtr. 3 cl. Prereq: Permission of instructor. Not open to students with credit for 552 or 661.

837 Nature and Direction of Human Development G 3
Critical consideration of human development, selected theories and methods of investigation including units of measurement; emergence of mind considered through the phylogenetic and ontogenetic sequence.
Au Qtr. 3 cl.

840 Practicum in Developmental Psychology G 3-9
Observation of children in a representative variety of clinical settings with particular reference to developmental phenomena of growth and behavior; application of research, diagnostic and intervention methodology.
Su, Au, Wi, Sp Qtrs. 1 cl, lab hrs. Prereq: 2nd yr grad standing in Psych; 837, 838 and permission of instructor. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

842 Seminar in Developmental Psychology G 3
2 cl. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs. Selected topics.
B—Development of Dimensions of Cognitive Functions, Sp Qtr.
C—Development of Social Attitudes and Values. Sp Qtr.
D—Cultural Influences on Human Development. Sp Qtr.
E—Psychological Variables in Growth.
F—Development of Creative Behavior.
G—Deviant Behavior in Childhood and Adolescence.
H—Phylogenesis
I—Aging and Senescence. Au Qtr.
J—Sequential Phenomena of Growth and Degeneration
K—Developmental Aspects of Language

843 Theories of Human Development G 3
Comparative presentation of significant major historical and modern developmental theories with specific evaluation of their relevance in the formulation of a comprehensive psychological theory.
3 cl. Prereq: 837 and 2nd yr grad standing.

843.01 Analytic and Social Learning Theory
Wi Qtr.

843.02 Cognitive, Organic and Structural Theories
Sp Qtr.

844 Psychopathology of Childhood G 3
A study of psychopathological conditions of childhood, such as autism, schizophrenia, neuroses, acting out, and behavior problems from a developmental point of view.
Sp Qtr. 3 cl. Prereq: 837 and written permission of instructor.

844.01 Concepts
844.02 Disturbances
845 Child Psychotherapies G 3
Study of several major modes of psychotherapy with children; consideration of theoretical foundations, principal techniques, range of applicability, and presumed means of effecting change.
Au Qtr. 1 2½-hr cl. Prereq: 844 or equiv and permission of instructor.

846 Advanced Educational Psychology G 3
Critical consideration of research and theory in developmental learning and measurement as relevant to education; special attention to historical positions, assumptions, and current literature.
Sp Qtr. 3 cl. Prereq: Permission of instructor.

848 Seminar in the College Teaching of Educational Psychology G 2
The objectives of educational psychology in teacher education; a presentation of practical problems in organization, development, and evaluation of undergraduate courses in educational psychology.
Au, Wi, Sp Qtr. 2 cl. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs.

849 Seminar in Educational Psychology G 3
Sp Qtr. 3 cl. Prereq: Written permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

850 Adaptive Behavior and Developmental Disability G 3
Overview of the psychology of adaptation and its relationship to the classification, assessment, and modification of mental retardation and developmental disability.
Sp Qtr. 3 cl. Prereq: 857 or permission of instructor.

8531 Psychology of the Exceptional Child and Adult G 3
Review and evaluation of theoretical and research literature concerning exceptional children and adults.
Su Qtr. 3 cl. Prereq: 571 and permission of instructor.

855 Child Behavior Assessment and Consultation G 3
Theory of psychological assessment and consultation; practice in observation, interviewing, testing, documentation of behavior, writing reports and consulting on the learning and behavioral problems of children.
855.01 Introduction
Survey of validity data on the most used assessment techniques and practice in combining data for selected clinical cases.
3 cl. Prereq: Permission of instructor.
855.02 Psychodiagnostic Assessment I
Psychodiagnostic assessment with major emphasis on administration, scoring and utilization of the Rorschach psychodiagnostic technique.
Au Qtr. 3 cl. Prereq: 850, 2nd yr grad standing in psych and permission of instructor.
855.05 Psychodiagnostic Assessment II
Psychodiagnostic assessment with major emphasis on the TAT: administration, scoring and utilization.
Wi Qtr. 3 cl. Prereq: 850, 855.02 or permission of instructor. 2nd yr grad standing in psych.
855.06 Psychodiagnostic Assessment III
Psychodiagnostic assessment with major emphasis on the Draw-a-Flower Test, and the Rorschach-Infant Test; administration, scoring and utilization, and relationship to other tests.
Sp Qtr. 3 cl. Prereq: 850, 855.02, 855.05, or permission of instructor. 2nd yr grad standing in psych.

856 Child Behavior Assessment and Therapy G 3
Assessment and treatment approaches for child behavior.
Sp Qtr. 2 1½-hr cl. Prereq: Permission of instructor.

857 Psychological Problems in Mental Retardation G 4
Advanced study of psychological aspects of mental retardation; topics include theories of mental retardation, studies of sensory and perceptual processes, cognitive chronically ill and neurologically impaired.
Au Qtr. 4 cl. Prereq: Permission of instructor.

859 Seminars in the Psychology of Exceptional Children and Adults G 3
Advanced topics in research strategies and methodology; specialized topics on the growing edge of the psychology of exceptional children and adults.
Wi Qtr. 2 cl. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs.

860 Theories of Personality G 3
A critical consideration of the theories of personality structure psychology.
Su Qtr. 3 cl. Prereq: Advanced work in personality and social psych and permission of instructor.

861 Clinical Psychology
Introduction to the theory and use of clinical methods in psychology, designed for first-year graduate students in clinical psychology.
Prereq: Permission of instructor.
861.01 Lecture G 3
Au Qtr. 3 cl. Repeatable to a maximum of 9 or hrs.
861.02 Seminar and Practicum G 2
Au, Qtr. 1 or 2 cl. and/or 2-4 lab hrs. Repeatable to a maximum of 6 or hrs.

862 Problems of Human Behavior
Introduction to the study of human behavior problems; practicum involves observation and participation in field settings.
Prereq: Permission of instructor.
862.01 Lecture G 3
Au Qtr. 2 cl. Repeatable to a maximum of 6 or hrs.
862.02 Practicum G 1 or 2
Wi Qtr. 2-4 lab hrs. Repeatable to a maximum of 6 or hrs.

863 Psychological Dynamics
Special topics in the study of behavior.
Prereq: Permission of instructor.
863.01 Lecture G 3
Au Qtr. 3 cl. Repeatable to a maximum of 9 or hrs.
863.02 Practicum G 2
Sp Qtr. 2-4 lab hrs. Repeatable to a maximum of 6 or hrs.

864 Psychological Appraisal
Concepts and procedures for appraising human behavior.
Prereq: Permission of instructor. Courses (except 864.01) ordinarily involve both classroom and practicum experiences.
864.01 Lecture G 3
Theories and methods of psychological appraisal; integration of different theories and approaches.
Au Qtr. 3 cl.
864.04* Actuarial Appraisal G 1-4
Wi Qtr. 1-4 cl. and/or 2-8 lab hrs. Repeatable to a maximum of 8 or hrs.
864.06* Special Topics G 1-4
Su Qtr. 1-4 cl. and/or 2-8 lab hrs. Repeatable to a maximum of 8 or hrs.

865 Group Interventions G 1-5
Principles and practices of intervention through group processes.
Su, Au, Wi, Sp Qtr. 1-5 cl. and/or 2-10 lab hrs. Prereq: Permission of instructor. Courses ordinarily involve both classroom and practicum experience. Each decimal subdivision repeatable to a maximum of 15 or hrs.
865.01 Group Psychotherapy
865.02 Family Therapy
865.05 Novel and Experimental Group Processes
856.01 Individual Psychotherapy
856.02 Behavior Modification
856.04 Novel and Experimental Approaches

867 Seminar in Clinical Abnormal Psychology
G 2 or 4
Au, Wi, Sp Qtr. 2 cl. Prereq: Permission of instructor. Two sections may be offered in any one qtr.

868 Community Psychology
G 5
Integrate ecological, social and interpersonal variables in the analysis and change of behavior; active involvement in the development of community programs and related research.
Au, Wi, Sp Qtr. 2 cl, 6 lab hrs. Prereq: Written permission of instructor. Repeatable to a maximum of 30 cr hrs. Students are encouraged to enrol for 2 or more quarters.

869 Research Methodology
G 2
Discussion of conceptual and methodological issues related to the ongoing work of graduate students and faculty.
Su, Wi Qtr. 2 cl. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs.

870 Advanced Social Psychology
G 3
Problems of learning and perception relative to the social environment, the influence of culture in the development of individual behavior patterns, and related topics.
Au Qtr. 3 cl. Prereq: 25 cr hrs in psy incl 320 and 862 or 606 or equiv.

871 Professional Altruism and Social Policy
G 3
An examination of the helping specialties in terms of the languages of social policy and professionalism.
Au Qtr. 3 cl.

872 Social Psychology Laboratory
G 3-12
Advanced training in methods and data collection in the areas of social psychology, laboratory, and field experience.
Au, Wi, Sp Qtr. 2 cl, 2 lab hrs. for each additional hr. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.

873 Seminar in Social Psychology
G 3
3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs. Subdivisions B, C, D, and F offered every other year.
A—Contemporary Attitude Theory and Research.
Wi Qtr.
B—Social Structure and Personality. Sp Qtr.
C—Systematic Theory in Social Psychology.
Su Qtr.
D—The Psychology of Social Movements. Wi Qtr.
E—Current Research Trends. Wi Qtr.
F—Group Processes. Au Qtr.

874 Cognitive Psychology
G 4
Survey of paradigms, procedures, theories, and findings of research on human cognitive structures and processes; includes mental representation, attention, categorization, memory.
Wi Qtr. 2-2 hr cl. Prereq: 20 cr hrs in psy or permission of instructor.

875 Practicum in Social Psychology
G 4
Survey and supervised experience in using the techniques and research designs of social psychology.
Au, Wi, Sp Qtr. 2 cl, 2 lab hrs. Prereq: Grad standing in psy or permission of instructor.

876 Human Learning I
G 4
Introduction to the study of the theoretical and empirical issues in human learning: emphasis on the analysis of learning tasks and the conditions under which learning occurs.
Au Qtr. 2-2 hr cl.

877 Human Learning II: Memory
G 4
Theoretical issues and experimental research on the topic of memory.
Wi Qtr. 2-2 hr cl.

878 Human Learning III: Cognitive Processes
G 4
Theoretical and experimental research in several areas of cognition including concept learning, problem solving, and reasoning.
Sp Qtr. 2-2 hr cl.

879 Social Ecology: Implications for Counseling
G 4
Advanced graduate students relate person-environment interaction theory to practice in counseling, educational, and community settings.
Sp Qtr. 2 cl. Prereq: Written permission of instructor.

882 Psychology of Counseling
G 3
Theoretical, research, cultural and professional bases for counseling; fundamentals of interviewing; counseling procedures and techniques.
Su, Au, Wi, Qtrs. 3 cl. Prereq: 13 cr hrs in psy.

883 Counseling Diagnostics
G 3
Theory and application of interview data, observed behavior, test results, and biographical information as a basis for diagnostics in counseling and evaluation.
Wi Qtr. 3 cl. Prereq: 13 cr hrs in psy.

884 Psychology of Career Development
G 4
A survey and critical analysis of literature and research regarding work, work adjustment, career choices and development, vocational exploration, and variables associated with career development.
Sp Qtr. 2-2 hr cl.

885 Beginning Practicum in Counseling
G 4
Supervised practice in assisting college students in their adjustment to college; emphasis on diagnosis and treatment; special help given to interviewing procedures.
Au, Wi, Sp Qtr. 2 cl, 8-10 lab hrs. Prereq: 883 and written permission of instructor. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.

886 Advanced Practicum in Counseling
G 4
Supervised practice in (a) assisting college students and adults with problems of personality adjustments or (b) supervising techniques through observation and discussion of work with other counselors.
Au, Wi, Sp Qtr. 2 cl, 8-10 lab hrs. Prereq: 885 and written permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.
887 Seminar in Counseling Psychology G 3
Su, Au, Wi, Sp Qtrs. 2 cr. Prereq: Written permission of instructor. Repeatable to a maximum of 90 or hrs.

888 Psychological Study of Individuals and Groups G 3
Basic concepts and techniques of student personnel work.
Wi Qtr. 3 cr. Prereq: Permission of instructor. Not open to students with 6 or hrs in 690.

889 Practicum in Clinical Psychology G 1-15
Supervised practice in psychological assessment and intervention in the department's psychoeducational clinic.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor and grad standing in clinical psych. Repeatable to a maximum of 15 or hrs.

980 Supervised Field Experience in Psychology G 1-15
Supervised experience, either research or operational, in any agency doing professional psychological work such as a school system, a psychological clinic, an industrial personnel department, or a counseling center.
Su, Au, Wi, Sp Qtrs. Prereq: Psych 2nd yr standing and approval of local staff of area in which student is specializing. Supervised by member of local staff and some member of the outside agency approved by the Dept of Psych. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

999 Research in Psychology G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Public Administration

202 Hagerty Hall, 1775 College Road, 422-8996

797 Interdepartmental Seminar U G 1-5
Two or more departments may collaborate in presenting seminars in subjects of mutual interest; topics to be announced.
Repeatable by permission.

800 Research Methods in Public Administration G 3
Methods of research in public administration including the design of thesis and dissertation proposals.
Sp Qtr. 1 2-hr cl.

801 Public Policy Formulation and Administration G 5
Analysis of the operating environment of the public administrator; public policy processes, public organization, behavior, and policy formulation in the U.S. federal system.
Au, Sp Qtrs. 2 2-hr cl. Prereq: Pol Sci 300 or equiv.

802 Legal Environment of Public Administration G 3
An examination and analysis of the constraints imposed upon public administrative processes by the legal environment including judicial policy-making and the evolving legal order.
Sp Qtr. 1 3-hr cl.

803 Public Policy Implementation G 4
Policy implementation process in a political setting emphasizing planned changes; organizational design, systems analytic program management and evaluation; conflict management within a public bureaucracy.
Au, Wi Qtrs. 2 2-hr cl. Prereq: 801.

821 Governmental Information Systems Administration G 3
Critical study of the administration and design of management information systems for public agencies; selected case studies.
Wi Qtr. 2 2-hr cl. Prereq: Permission of instructor. Not open to students with credit for 824.

822 Data Analysis in Public Administration G 4
Multivariate model building using theoretical and exploratory data analysis perspectives for use in public sector decision support systems; public sector case studies.
Wi Qtr. 2 2-hr cl. Prereq: 821. Not open to students with credit for 894/599 or 894/609.

823 Systems Analysis for Public Policy Decisions G 3
Studies in the application of systems analysis to administrative and policy problems in the public sector; selected case studies and problems.
Au Qtr. 2 2-hr cl. Prereq: 822. Not open to students with credit for 803.

830 Economics of Public Policy and Management G 4
Economic analysis applied to problems of public policy selection and government management operations; efficiency criteria, market failure, and public choice applied to administrative decision-making.
Au Qtr. 2 2-hr cl. Prereq: Econ 200 or equiv. Not open to students with credit for 800/599.

834 Public Budgeting and Spending Decisions G 3
Budgeting as analysis of resource allocation, planning, evaluation, and control; tools of analysis for program budgeting and measurement of program results; case studies.
Sp Qtr. 2 1 1/2-hr cl. Prereq: Econ 730 or equiv. Not open to students with credit for 808.

850 Policy Problem Seminar I G 3
Multidisciplinary seminar integrated with field experience in the solution of actual public administrative and policy problems, organized around problem areas.
Au Qtr. Prereq: Permission of instructor.

851 Policy Problem Seminar II G 3
Continuation of 850.
Wi Qtr. Prereq: 850.

866 Seminar in Public Sector Collective Bargaining G 4
Problems and issues relating to the growth and practice of personnel and labor relations administration in the public sector.
Wi Qtr. 1 3-hr cl. Prereq: Bus-MHR 761 or 861 or equiv. Not open to students with credit for BUS-MHR 866 or LHR 866. Cross-listed in Business Administration: Management and Human Resources.

867 Seminar in Public Sector Human Resources Administration G 4
Analysis of problems in public sector human resources management with emphasis on the nature of the employment relationship, research strategies, and policy evaluation.
Sp Qtr. Prereq: Bus-MHR 860 or equiv. Not open to students with credit for BUS-MHR 867 or LHR 867. Cross-listed in Business Administration: Management and Human Resources.

880 Seminar on Advanced Problems in Public Policy and Management G 1-6
Special studies of selected problems which may include readings, case studies, internships, field investigations, simulation, system analysis, role playing, team teaching, and other experimental techniques.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs in each individual subdivision including or hrs earned in 880. Not open to students with maximum allowable credit hours of 880.

880.01 Criminal Justice Policy and Management

880.02 Fiscal Policy and Management

880.03 Health Policy and Management

880.04 Human Resources Policy and Management

880.05 Management Information Systems' Administration

880.06 Public Policy and Management

880.07 Regulation Policy and Management

880.08 Urban Policy and Management

880.99 Special
893 Individual Studies G 1-6
Advanced individual studies in public administration.
Su, Au, Wi, Sp QtrS. Arr. Prereq: Grad standing in pub adm and written permission of instructor. Repeatable to a maximum of 15 or hrs including or hrs in decimal subdivisions. This course is graded S/U.

894 Group Studies G 1-6
Advanced group studies in public administration.
Su, Au, Wi, Sp QtrS. Arr. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs including or hrs in decimal subdivisions.

899 Interdepartmental Seminar G 1-5
Two or more departments may collaborate in presenting seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp QtrS. Arr. Repeatable by written permission.

998 Research in Public Administration: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp QtrS. Repeatable to a maximum of 6 cr hrs.

999 Research in Public Administration: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp QtrS. Repeatable to a maximum of 45 or hrs.

Radiologic Technology
School of Allied Medical Professions

340 School of Allied Medical Professions Building, 1583 Perry Street, 422-9971

201 Introduction to Radiologic Technology U 4
An orientation to radiologic technology including responsibilities of the technologist, professional development, radiation protection, and the formation of the radiographic image. Finney.
Su Qtr. 3 cl, 1 2-hr lab. Prereq: Permission of instructor.

310 Patient Care in Radiography U 1
Principles of patient care including analysis of ethical and legal issues pertaining to the delivery of radiological services. Kowalczyk.
Su Qtr. 1 cl. Prereq: Enrollment in Radiologic Technology Division.

411 Radiographic Procedures I U 4
Analysis of theory in radiography of the chest, abdomen and appendicular skeleton with application of theory in the laboratory. Kowalczyk.
Su Qtr. 3 cl, 1 2-hr lab. Prereq: Written permission of instructor; concour: 440.

412 Radiographic Procedures II U 4
Continuation of 411 emphasizing the bony thorax, vertebral column, pelvis, and skull. Kowalczyk.
Au Qtr. 3 cl, 1 2-hr lab. Prereq: Written permission of instructor; concour: 440.

423 Principles of Radiographic Exposure and Processing U 5
Integration of elements of exposure and processing to optimize radiographic quality; sensitometry, processing variables, effects of accessory radiographic equipment on image quality. Wi Qtr. 4 cl, 1 2-hr lab. Prereq: Admission to Radiologic Technology Division.

440 Applied Radiologic Technology I U 1-6
Clinical application of radiographic techniques in the Department of Radiology. Su, Au, Wi, Sp QtrS. 20 or 24 hrs clinical experience. Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs. This course is graded S/U.

471 Radiologic Physics I U 3
An analysis of the production of X-rays including X-ray circuitry. Au Qtr. 2 cl, 1 hr rec. Prereq: Physics 112 or permission of Instructor.

530 Advanced Radiographic Exposure U 3
In-depth study in establishing radiographic exposure values in new installations or when equipment is changed. Finney.
Au Qtr. 2 cl, 1 2-hr lab. Prereq: Permission of instructor.

540 Applied Radiologic Technology II U 1-6
Continuation of 440 emphasizing the more complex radiographic procedures. Su, Au, Wi, Sp QtrS. 20 or 24 hrs clinical experience. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs. This course is graded S/U.

550 Practica U 2
Theory and experience in selected radiology specialties. Prereq: Enrollment in Radiologic Technology Division and permission of instructor. Repeatable to a maximum of 8 or hrs; individual subdivisions not repeatable. 6 or hrs required of radi tech majors.

550.10 Operation of a Medical Imaging Department
Analysis of the structure and operation of a medical imaging department.
Sp Qtr. 1 cl, 1 2-hr cl, field trips.

550.41 Cardiovascular and Interventional Radiologic Procedures
Theory and clinical education in diagnostic and therapeutic radiologic procedures. Wi, Sp QtrS. 8 hrs clinical experience.

550.42 Computed Tomography
Supervised clinical education and instruction in the theory and operation of CT units in different health care facilities. Wi, Sp QtrS. 8 hrs clinical experience.

550.43 Advanced Canal Radiography
Instruction and supervised clinical education in performing radiographic examinations of the human skull. Wi, Sp QtrS. 8 hrs clinical experience.

550.50 Diagnostic Medical Sonography
Instruction and experience in the performance and interpretation of sonographic images. Wi, Sp QtrS. 8 hrs clinical experience.

550.70 Nuclear Medicine
Observation and participation in performing static and dynamic examinations requiring the use of radiopharmaceuticals. Wi, Sp QtrS. 8 hrs clinical experience.

550.80 Principles of Radiation Oncology
Clinical observation and participation involving planning for and administering radiation treatment of disease. Wi, Sp QtrS. 8 hrs clinical experience.

560 Imaging Modalities in Radiologic Technology U 4
Analysis of theory involving medical sonography, nuclear medicine, and radiation oncology; emerging modalities of computed tomography, digital radiography, and nuclear magnetic resonance. Wi Qtr. 4 cl. Prereq: 471 or permission of instructor.

565 Administrative and Educational Aspects of Radiologic Technology U 3
Analysis of radiology department management, evaluation of radiographic equipment, federal equipment specifications, professional education accreditation, licensure and curriculum concerns in radiologic technology education. Ballinger.
Au Qtr. 3 cl. Prereq: Permission of instructor.
587 Student Teaching in Radiologic Technology U 2
Student teaching experience within a radiologic technology instructional setting.
Wi, Sp Qtrs. Arr. Prereq: Educ 400 and permission of instructor. This course is graded S/U.

590 Special Radiographic Procedures and Contrast Media U 4
Emphasis placed on vascular and neurological examinations with an analysis of equipment and contrast agents used.
Sp Qtr. 4 cr. Prereq: Permission of instructor

595 Seminar U 1-3
Conferences, group discussions and presentations of selected topics.
Su, Au, Wi, Sp Qtrs. 1-3 cr. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.

615 Radiographic Clinic Correlations U P G 3
The fundamentals of radiographic diagnosis: emphasis on the correlation of the patient's medical history with the radiographic findings.
Au Qtr. 3 cr. Prereq: Permission of instructor.

660 Quality Assurance in Diagnostic Imaging U 3
Examination and analysis of quality assurance programs for diagnostic imaging facilities to include management, implementation, maintenance, and evaluation aspects.
Wi Qtr. 2 cr, 1 2-hr lab. Prereq: 530 or permission of instructor.

Radiology

5209 Rhodes Hall, 410 West 10th Avenue, 421-5315

609 Molecular Pharmacology U G 4
Interaction of clinical drugs and environmental agents on macromolecules with emphasis on their involvement in aging, mutagenesis, cancer, and arteriosclerosis. Cross referenced in Department of Pharmacology.
Sp Qtr. 2, 2-hr cr. Prereq: Permission of instructor.

670 Medical Radiation Physics U P G 2
Ionizing radiations, their production, properties and interaction with materials of medical interest; physical principles of radiation therapy, radiation dosimetry, and radiation protection.
Wi, Sp Qtrs. 2 cr. Prereq: Permission of Instructor. This course is graded S/U.

680 Radiation Biology U P G 2
Effect of ionizing radiation in biological systems at the molecular, cellular, organ, organism, and community levels with special emphasis on medical implications and radiation safety.
Au Qtr. 2 cr. Prereq: Permission of Instructor.

740 Clinical Radiology P 6, 12, 18
Participation in special seminars and clinics; optional research project.
1, 2, 3, or 4 months; offered all months except June, July, Aug. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs. This course is graded S/U.
A—Radiologic Diagnosis
B—Radiation Therapy

793 Individual Studies
Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs. These courses are graded S/U.
793.02 General U P G 1-6
793.10 Radiation Biology U P G 3-6

850 Seminar G 1
Su, Au, Wi, Sp Qtrs. 1 cr. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of decimal subdivisions. These courses are graded S/U.

850.09 Radiation Oncology
Selected topics of particular current interests in both research and applications of ionizing radiation in the treatment of cancer.

850.10 Radiobiology
Introduction to state of the art developments and innovations resulting from research directed at the study of cellular-molecular-environmental interactions.

850.20 Physics of Imaging
Selected topics of current interests in research, development, and technology in medical physics as applied to medical imaging.

850.26 Physics of Radiation Therapy
Selected topics of interest in research and developments of the methodology and technology of radiation treatment, planning, dosimetry, and equipment.

999 Research in Radiology G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Recreation Education

303 Pomeroine Hall, 1760 Neil Avenue, 422-2705

200 Social Recreation U 2
Age characteristics and developmental levels relative to social activities; techniques, rules, strategy and social behaviors in a range of cultural activities, i.e., social games and pastimes.
Au, Wi, Sp Qtrs. 2 cr. 68 Admis Cond course.

209 Orientation to Recreation and Leisure U 2
Designed to enable the prospective major to understand basic concepts, philosophies, and scopes of the recreation and leisure services field, and to assess individual potential as a recreationist.
Au, Wi, Sp Qtrs. 2 cr, 1 lab.

240 Recreation Leadership U 3
Methods and materials for comprehensive programming with individuals and different groups in a variety of recreation settings.
Au, Wi, Sp Qtrs. 2 1½ cr, Prereq: 209 or Phys Ed 209 or permission of instructor.

270 Supervision of Playground and Community Recreation Activities U 2
Programming of recreational activities relative to community conditions; overview of activities desirable for a broad, comprehensive program.
Au, Sp Qtrs. 2 2-hr labs.

271 Camp Counseling U 3
Investigation of the responsibilities and duties of the counselor in various types of camps; practical experience in basic campcraft skills.
Au, Sp Qtrs. 1 2-hr cr, 1 2-hr lab.

289 Directed Field Experience U 2-5
Professional service in community recreation and leisure service agencies.
Au, Wi, Sp Qtrs. Designed for students in recreation education curriculum.
A—Initial
B—Community
C—Therapeutic
D—Outdoor Programs
440 Recreation for Special Populations U G 3
Introduction to programs of recreation services for the aged, economically disadvantaged, youthful and adult offenders and persons with physical or mental handicaps.
Au, Wi Qtrs. 3 cl. Prereq: Sr or grad standing and permission of instructor. Repeatable to a maximum of 12 or hrs.

589 Practicum in Recreation U 6-15
Opportunity to put professional theory and research into practice by leadership and supervisory experience in an agency setting.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: 280 or Phys Ed 289.06. Repeatable to a maximum of 15 or hrs.

692 Workshop U G 1-8
An intensive study of a recreation education topic of interest to the participants for the purpose of developing sound principles and practices relating to it.
Su Qtr. Arr. Prereq: Practical experience in the field and permission of workshop director. Repeatable to a maximum of 12 or hrs.

693 Individual Studies in Recreation Education U G 1-4
Investigation of selected professional problems.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Sr or grad standing and permission of adviser. Repeatable to not more than 30 or hrs for undergrads and 15 or hrs for master's degree. This course is graded S/U.

694 Group Studies in Recreation Education U G 1-5
A group study on special problems in recreation.
Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs.

760 Outdoor Pursuits for Young Children and Preschoolers U G 3
Examination and implementation of outdoor recreation activities and skills with young children and preschoolers; emphasis on instructional strategies and preparations.
Au, 2 3-hr cl for 5 wks plus weekend. Sp, 1 3-hr cl plus 1 weekend. Prereq: Sr or grad standing.

770 Outdoor Education and Camp Administration U G 3
Introduction to the principles, status, and administration of outdoor education and camping.
Au, Sp Qtrs. Prereq: 271 or permission of instructor.

771 Public Recreation: Its Organization and Administration U G 3
Consideration of common patterns of organization of community recreation found in American cities, large and small, under municipal, school, and other auspices.
Au, Wi, Sp Qtrs. 2 1 1/2-hr cl. Prereq: 209 or permission of instructor.

780 Leisure Services for Special Populations U G 3
Basic information on recreation services for special populations including role of the recreation practitioner, legal considerations, procedures for planning activities.
Au Qtr. 1 2 1/2-hr cl. Prereq: Sr or grad standing. Not open to students with credit for Ed-Excep 780 or Ed-HuServ 780. Cross listed in Human Services Education.

781 Assessment of Leisure Skills for Special Clients U G 2
Basic information and limited practice in assessment and observation of leisure skills as they relate to leisure services; emphasis on special clients and populations. Porter.
Wi Qtr. 1 2-hr cl. Prereq: 780 or Ed-Excep 780 or Ed-HuServ 780; and Ed-Excep 722 or Ed-HuServ 722. Not open to students with credit for Ed-Excep 781. Cross listed in Human Services Education.

782 Developing and Implementing Leisure Plans with Special Clients U G 3
Basic information and limited experience in teaming, selecting, and modifying activities, tracking client participation, and consultation skills. Porter.
Wi, Sp Qtrs. 1 2 1/2-hr cl. Prereq: 781 or Ed-Excep 781 or Ed-HuServ 781. Not open to students with credit for Ed-Excep 782 or Ed-HuServ 782. Cross listed in Human Services Education.

783 Recreation Program Development and Evaluation for Special Populations U G 4
Basic information and limited experience in program development, modification, utilizing current research and program evaluation of recreation programs for special groups/ individuals. Porter.
Su, Sp Qtrs. 1 3-hr cl. Prereq: 780 or Ed-Excep 780 or Ed-HuServ 780. Not open to students with credit for Ed-Excep 783 or Ed-HuServ 783. Cross listed in Human Services Education.

784 Leisure Programming for Children with Severe Behavior Handicaps U G 4
Basic information and experience in programming leisure activities for children with severe behavior handicaps. Porter.
Su, Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: Ed-Excep 722 or Ed-HuServ 722 or permission of instructor. Not open to students with credit for Ed-Excep 784 or Ed-HuServ 784. Cross listed in Human Services Education.

894 Group Studies G 3
Advanced problems in recreation and leisure.

996 Seminar in Recreation U G 2
Su, Au, Wi Qtrs. 1 2-hr cl. Repeatable to a maximum of 12 or hrs.

Religious Studies

306 Dulles Hall, 230 West 17th Avenue, 422-2559

Introduction to Comparative Religion
See Comp Std 270.

History of Religions
See History 270.

Philosophy of Religion
See Philos 270.

Sociology of Religion
See Sociol 467.

294 Group Studies U G 3
Groups of students are given an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 or hrs.

520 Approaches to the Study of Religion U G 5
Survey and comparison of concepts, categories, theories, and methods used by various disciplines in the study of religion.
5 cl. Prereq: Comp Std 270 or History 270 or Philos 270 or Hebrew 273 or English 280 or grad standing or permission of instructor. Comp Std 270 or History 270 recommended. Not open to students with credit for Comp Std 520 or 693 with content of 520.

693 Individual Studies U G 1-5
Students may register for individual directed study in areas not covered in regular course work.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

694 Group Studies U G 3-5
Groups of students are given an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 15 or hrs.
Respiratory Therapy

School of Allied Medical Professions

431 School of Allied Medical Professions Building, 1583 Perry Street, 422-8445

320 Components of Respiratory Health U 5
Survey of normal respiratory mechanisms with specific consideration for the basis of respiratory therapeutics, the respirable environment and the role of the therapist.
Sp Qtr. 5 cr. Prereq: Admission to the Resp Ther Division or permission of instructor.

400 Therapeutics I U 6
Study of theories, procedures, and equipment utilized in delivering, monitoring, and evaluating basic respiratory therapeutics to patients with compromised respiratory function in the hospital setting.
Au Qtr. 2-2 hr cl, 2-2 hr labs. Prereq: 320.

410 Introduction to Clinical Respiratory Care U 3
Clinical application of patient care techniques as related to respiratory care.
Au Qtr. 1 2-hr cl, 1 2-hr lab. Not open to students with credit for 489.01. Assignments may include clinical visits. This course is no longer graded S/U.

420 Therapeutics II U 2
Study of theories, procedures, standards, organizations, and legislation applicable to the delivery of respiratory therapeutics in ambulatory settings.
Sp Qtr. 2 hr cl. Prereq: 400.

430 Pulmonary Function Testing U 3
Study of theories, procedures, standards, and interpretations of pulmonary functions with consideration of mechanical and electronic principles of testing equipment.
Au Qtr. 1 2-hr cl, 1 3-hr lab. Prereq: 320. Not open to students with credit for 460.

440 Continuous Ventilatory Management U 4
Study of ventilatory life-support with emphasis on respiratory techniques, hemodynamic and ventilatory monitoring, and the principles of operation and mechanical characteristics of selected ventilators.
Wi Qtr. 2 cl, 3-3 hr labs. Prereq: 400, 410, and 430.

450 Arterial Blood Gas Analysis U 2
A study of the methods and procedures for obtaining arterial blood, the principles and standards of analysis, and application of the physiologic data.
Wi Qtr. 1 cl, 1 3-hr lab. Prereq: 430. Not open to students with credit for 460.

470 Airway Management U 1
Principles, techniques, procedures, and equipment associated with the insertion and maintenance of artificial airways.
Sp Qtr. 1 cl or 1 2-hr lab. Prereq: 400 and 410.

480 Respiratory Disease I U 2
A study of the etiologies, manifestations, and treatment of respiratory diseases and their clinical courses.
Wi Qtr. 1 2-hr cl. Prereq: 400, 410, and 430.

489 Clinical Experience
Su, Au, Wi, Sp Qtrs. 4-8 hr/wk. Prereq: Admission to the Resp Ther Division. Repeatable to a maximum of 20 cr hrs. These courses are graded S/U.

489.02 Application of Therapeutics I U 1-4
Clinical application and evaluation of basic respiratory therapeutics applied in hospital settings.
Wi, Sp Qtrs. 40 hrs arr for each cr hr. Prereq: 400. Repeatable to a maximum of 4 cr hrs.

489.03 Application of Therapeutics II U 1
Clinical application and evaluation of respiratory therapeutics applied to ambulatory settings.
Su Qtr. 40 hrs arr. Prereq: 420.

489.04 Continuous Ventilation U 1-5
Clinical application of continuous ventilatory management.
Su, Sp Qtrs. 40 hrs arr for each cr hr. Prereq: 440. Repeatable to a maximum of 5 cr hrs.

489.05 Pulmonary Function U 1
Clinical application of various techniques and procedures involved in pulmonary function testing.
Wi Qtr. 40 hrs arr. Prereq: 430.

489.06 Introduction to Clinical Pediatrics U 2
Clinical application of basic neonatal and pediatric respiratory therapy.
Su Qtr. 80 hrs arr. Prereq: 500.

489.07 Intubation and Airway Management U 2
Clinical application of techniques and procedures involved with intubation and airway management.
Su Qtr. 80 hrs arr. Prereq: 470.

489.08 Pulmonary Rounds U 1
Clinical observation and participation in the therapeutic decision-making process and case study presentations of patients receiving respiratory therapy.
Su Qtr. 40 hrs arr. Prereq: 490.

489.10 Arterial Blood Gas Analysis U 1
Clinical application of various techniques and procedures involved in arterial blood gas analysis.
Sp Qtr. 40 hrs arr. Prereq: 450.

490 Respiratory Disease II U 1 or 2
A continuation of the study of respiratory diseases with emphasis on the etiologies, manifestations, and treatments for respiratory failure.
Sp Qtr. 1 2 hr cl. Prereq: 440 and 480; or Nurse Anes 350.

500 Neonatal and Pediatric Respiratory Therapy U 4
Neonatal and pediatric pulmonary pathophysiology with consideration of the necessary adaptations of equipment and therapeutics for application to the pediatric patient.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 440.

520 Administration of Respiratory Therapy Services U 3
An analysis of management processes utilized by respiratory therapy services including organization, communication, quality assurance, audit, budget and regulatory processes, personnel management, and educational functions.
Wi Qtr. Prereq: Alli Med 630.

589 Advanced Clinical Practice U 1-5
Supervised clinical education and experiences in respiratory therapy education, administration of respiratory services and areas of advanced professional practice.
Su, Au, Wi, Sp Qtrs. 8 hrs/wk, 1 cr hr. Prereq: Written permission of instructor and satisfactory completion of all respiratory therapy professional courses. Repeatable to a maximum of 10 or hrs. This course is graded S/U.
955 Seminar U 1-5
Conferences, group discussions, and presentations of selected topics.
Su, Au, Wi, Sp Qtr. Arr. Prereq: Written permission of instructor. This course is graded S/U.

111 Intensive Intermediate
Romanian U 10
An intensive course that combines the content of two quarters of Romanian to complete the presentation of the basic Romanian grammar and readings based on Romanian geography, history, and customs. Botoman.
Sp Qtr. 5 hr cl. Prereq: 102. Equiv to the third and fourth courses of the foreign language sequence. Successful completion of 101-102-111 fulfills the Arts and Sciences foreign language requirement.

112 Intensive Romanian U 5, 10, 15
Elementary and intermediate Romanian for students desiring comprehensive knowledge of Romanian in the shortest possible time.
Su Qtr. 15 cl. Prereq: Permission of instructor. Not open to students with credit for 294 Su Qtr 1982. Full-time fees required regardless of number of cr hrs. Equiv to 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 101 and 102 will enroll for 5 cr hrs. Students with credit for 101 only will enroll for 10 cr hrs. Students with no credit in Romanian will enroll for 15 cr hrs. Regardless of cr hrs enrolled, a student will attend class throughout entire qtr. Withdrawal from the course means forfeiture of all cr hrs. No audit. SS Admis Cond course.

235 Introduction to Romanian Culture U 5
Romanian literature in its cultural context, survey of the relationship of literature, art, cultural traditions from the beginnings to the present.
Wi Qtr. 5 cl. Not open to students with credit for 294 Wi Qtr 1981 or Wi Qtr 1983. Taught in English.

293 Individual Studies U 1-15
Individual studies in Romanian.
Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 15 cr hrs.

294 Group Studies U 1-15
Group studies in Romanian language, literature, and cultural traditions from the beginnings to the present.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of dept. Repeatable to a maximum of 15 cr hrs.

Sensory Biophysics

105 Biological Sciences Building, 484 W 12th Avenue, 422-8777

601 Introduction to Sensory Biophysics U G 5
Anatomy and function of sensory systems; psychophysical research methods; mathematical descriptions of information transfer; biophysical models. Lipetz.
Au Qtr. 5 cl. Prereq: Biology 110 or 113 or H115, Chem 122, Physics 112, and Math 117.

Serbo-Croatian

221 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-6753

101 Elementary Serbo-Croatian U 5
Au Qtr. 5 cl. FL Admis Cond course.

102 Elementary Serbo-Croatian U 5
Wi Qtr. 5 cl. Prereq: 101. FL Admis Cond course.

103 Intermediate Serbo-Croatian U 5
Sp Qtr. 5 cl. Prereq: 102.

104 Intermediate Serbo-Croatian U 5
Reading of simple Serbo-Croatian texts from the 19th century.
Au Qtr. 5 cl. Prereq: 103, 112 or equiv with written permission of instructor.

111 Intensive Intermediate Serbo-Croatian U 5 or 10
An intensive course that combines the content of 103 and 104; balanced use of the four skills: reading, oral comprehension, speaking, and writing. Intended for students who wish to expedite the completion of the language requirement.
Sp Qtr. 5 2vr cl. Prereq: 102. Not open to students with credit for 104. Students with credit for 103 or 112 may not register for more than 5 cr hrs but must complete the entire course.

112 Intensive Serbo-Croatian U 5, 10 or 15
Elementary and intermediate Serbo-Croatian for students desiring a comprehensive knowledge of Serbo-Croatian in the shortest possible time.
Su Qtr. 15 cl. Prereq: permission of instructor. Full-time fees required regardless of number of cr hrs. Equiv of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 103 or equiv may not register for credit. Students with credit for 101 and 102 will enroll for 5 cr hrs. Students with credit for 101 only will enroll for 10 cr hrs. Students with no credit in Serbo-Croatian will enroll for 15 cr hrs. Regardless of cr hrs earned a student will attend class throughout entire quarter. Withdrawal from the course means forfeit of all cr hrs. No audit. FL Admis Cond course.
605* Serbo-Croatian Conversation and Composition U G 5
Reading texts of moderate difficulty, conversation, and simple compositions.
Wi Qtr. 5 cl. Prereq: 104 or permission of instructor.

609* Serbo-Croatian Conversation and Composition U G 5
Reading from modern Serbo-Croatian literature, practice in writing and speaking.
Sp Qtr. 5 cl. Prereq: 905 or permission of instructor.

620* Serbo-Croatian Literature to 1850 U G 5
Historical and aesthetic development of oral and written Serbo-Croatian literature from the medieval period to 1850. Matejic.
Au Qtr. 3 cl. Prereq: 10 or hrs in any literature courses at the 200 level or above. Given in English; some original reading required of undergrads in Serbo-Croatian and Slavic grad students.

621* Serbo-Croatian Literature 1850-1950 U G 5
Major literary orientations and genres; analytic study of major literary works; emphasis on writers such as Andric, Kreza, Vojnovic, and Brili-Mazuranovic.
Wi Qtr. 3 cl. Prereq: 10 or hrs in literature courses at the 200 level or above. Given in English; some original reading required of undergrads in Serbo-Croatian and Slavic grad students.

622* Contemporary Serbo-Croatian Literature U G 5
Prose and poetry since 1950; emphasis on Andric, Cosic, Lacic, Davico, Vlajko Tosic, and other well-known contemporaries.
Sp Qtr. 3 cl. Prereq: 10 or hrs in literature courses at the 200 level or above. Not open to students with credit for 722. Given in English; some original reading required of undergrads in Serbo-Croatian and Slavic grad students.

693 Individual Studies U G 2-10
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of chairman. Each work division repeatable to a maximum of 20 cr hrs. These courses are graded S/U.

693.30 Literature

693.30 Linguistics

693.40 Language

693.50 Unspecified

694 Group Studies U G 2-10
Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Repeatable to a maximum of 15 cr hrs.

699 Individual Studies G 2-10
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of chairman. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

Slavic Languages and Literatures

232 Detlev Clunz Hall of Languages, 1841 Milklin Road, 422-6700

130 Slavic Languages and Cultures U 5
History of the distribution of Slavic peoples, cultural impact of Slavic nations upon each other, their interaction with non-Slavic neighbors, language policies of Slavic nations.
Au Qtr. 4 cl. Taught in English, BER/LAC course.

245 Introduction to Slavic Literature and Culture U 5
Non-Russian Slavic literature in its cultural context; survey of the relationship of literature, art, music, and drama with emphasis on the late 19th-century to the present.
Wi Qtr. 5 cl. Taught in English, BER/LAC/LR course.

294 Group Studies U 1-5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 or hrs including cr hrs in 294.01 through 294.09.

519 Slavic Literature in English Translation from the Beginning to the Present U G 5
Emphasis on masterpieces of non-Russian Slavic literatures, epic tradition, Kochnovnik, Comenius, Obradov, Moklic, Shevchenko, Mace, Shenkin, Raymo, Franko, Ukraina, Rozh, Capek, Hasek, and Andric.
Wi Qtr. 5 cl. Prereq: Permission of instructor. Repeatable to a maximum of 25 cr hrs; individual languages not repeatable. Taught in English.

671 Grammar of Selected Slavic Languages U G 5
Fundamentals of grammar as required for reading any of the Slavic languages including Belorussian, Lusitanian, Macedonian, Slovak, and Slovenian; also Bulgarian, Czech, Polish, Serbo-Croatian, Russian, Ukrainian.
Wi Qtr. 5 cl. Prereq: Permission of instructor. Repeatable to a maximum of 25 cr hrs; individual languages not repeatable. Taught in English.

672 Reading of Selected Slavic Languages U G 5
Reading of elementary and intermediate texts; translation into English, from Belorussian, Lusitanian, Macedonian, Slovak and Slovenian; also Bulgarian, Czech, Polish, Serbo-Croatian, Russian, Ukrainian.
Sp Qtr. 4 cl. Prereq: 671 (same language) or equiv. Repeatable to a maximum of 25 cr hrs; individual languages not repeatable. Taught in English.

693 Individual Studies U G 2-10
Su, Au, Wi, Sp Qtrs. Prereq: Permission of chairman. Each decimal subdivision repeatable to a maximum of 20 cr hrs. These courses are graded S/U.

693.20 Literature

693.30 Linguistics

693.40 Languages

693.50 Unspecified

694 Group Studies U G 1-10
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of chairman. Repeatable to a maximum of 10 or hrs including cr hrs in 694.01 through 694.11.

699 Senior Tutorial and Essay U 5
Individual study which leads to the writing of an essay that will integrate the experience of earlier courses in Slavic.
Wi, Au, Sp, Otcrs. Open only to seniors in Slavic languages.

H782 Honors Course U 2-5
Au, Wi, Sp Qtrs. Prereq: 4th yr standing; a grade of A in at least half of the Slavic courses taken and an average of B in the remaining; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.
792 Interdepartmental Studies in the Humanities U G 3-5
Two or more departments present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtr. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

800 Bibliography G 1
Required of all candidates for graduate degrees; acquaints grad students with bibliographical sources essential for research in Slavic and East European literature, linguistics, and pedagogy. Beynen.
Au Qtr. 6 2-hr cl. Not open to students with credit for 660.

810 Old Church Slavonic G 5
Study of the earliest Slavic language; reading and linguistic interpretation of original documents. Su, Au, Sp Qtr. 5 cl. Not open to students with credit for Russian 810.

812† Readings in Church Slavonic Texts G 5
Reading and analysis of Church Slavonic texts of the later period. Su Qtr. 3 cl. Prereq: 810 or permission of instructor. Not open to students with credit for Russian 812.

814† Slavic Paleography G 5
Fundamentals of Slavic paleography with special reference to the manuscripts on microfilm housed in the Hilland Room of the Main Library.
Su (2nd term) Qtr. 2 cl, 2 labs. Prereq: 810 and 812 or permission of instructor.

821† Structure of Selected Slavic Languages G 5
Structure of any of the following: Belorussian, Bulgarian, Czech, Latvian, Macedonian, Polish, Serbo-Croatian, Slovak, Slovenian, or Ukrainian.
Sp Qtr. 3 cl. Prereq: Permission of instructor. Repeatable to a maximum of 25 or hrs; individual languages not repeatable.

834† Medieval Slavic Literatures 9th-14th Centuries G 5
Emphasizes Eastern and South Slavic literatures.
Au Qtr. 3 cl. Prereq: Permission of instructor.

860 An Introduction to the Slavic Languages G 3
A general survey of all the Slavic languages and their common features. Grubb.
Sp Qtr. 3 cl.

861† History of the South Slavic Languages G 5
Bulgarian, Macedonian, Serbo-Croatian, and Slovenian, with emphasis on Serbo-Croatian and its relation to the other South Slavic Languages. Naylor.
Au Qtr. 3 cl. Prereq: Good command of Russian and acquaintance with a second Slavic language or permission of instructor.

862† History of the West Slavic Languages G 5
Polish, Czech, Slovak, Polishian, Kashubian, and Latvian, with special emphasis on Polish and its relation to the other West Slavic languages. Robinson.
Sp Qtr. 3 cl. Prereq: Good command of Russian, and acquaintance with a second Slavic language or permission of instructor.

864 Comparative Slavic Grammar G 5
Development of Indo-European phonology and morphology into Common Slavic and the development in contemporary Slav languages.
Wi Qtr. 3 cl. Prereq: 860 or permission of instructor.

870† Seminar in Slavic Philology G 3-5
Historical and comparative studies in the Slavic languages and related language families, including Balto and Finno-Ugric.
Sp Qtr. 2 cl. Repeatable to a maximum of 20 or hrs.

871* Seminar in Slavic Linguistics G 3-5
Descriptive and transformational studies in Russian and other Slavic languages.
Sp Qtr. 2 cl. Repeatable to a maximum of 20 or hrs.

875† Seminar in Slavic Literature G 3-5
Selected topics from medieval and modern literature.
Au Qtr. 2 cl. Repeatable to a maximum of 15 or hrs.

Medieval and Renaissance Culture
See Medieval 888.

Medieval and Renaissance Literature
See Medieval 889.

899 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtr. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 or hrs with permission of dept.

903 Individual Studies G 2-10
Su, Au, Wi, Sp Qtr. Prereq: Permission of chairman. Repeatable to a maximum of 40 or hrs in any combination of decimal subdivisions including cr hrs in 903.01 through 903.11. These courses are graded S/U.

903.20 Literature
903.30 Linguistics
903.40 Languages
903.50 Unspecified

999 Research in Slavic G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtr. This course is graded S/U.

Social and Behavioral Sciences, College of

Social Work

300 Stillman Hall, 1497 College Road, 422-6288

220 Introduction to Social Welfare U 3
Exploration of the universality of human needs and the American experience in meeting those needs through the institutional arrangements of church, family, government, and market place.
Su, Au, Wi, Sp Qtrs. 3 cl. Designed primarily for freshmen and sophomores. SS Adams Cond course.

240 Introduction to Social Work Profession and Practice U 3
Social work within society and the community of professions; exploration of purposes, problems and opportunities of practice; observation of, and exposure to, practice in the field.
Su, Au, Wil, Sp Qtrs. 2 1½-hr cl. Designed primarily for freshmen and sophomores.
494 Group Studies U 2-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered in social work.
Su, Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 10 cr. hrs.

503 Juvenile Delinquency: Its Treatment and Prevention U G 5
Juvenile delinquency as a social problem; methods of treatment and prevention, including juvenile courts, clinics, probation, parole, correctional institutions, child placement, and recreational programs.
Au, Wi, Sp Qtrs. 2 2-1/2-hr cl. Prereq: 3rd or 4th year standing.

505 Social Implications in Rehabilitation U G 3
The significance of disability and employment in their social, medical, and industrial application; rehabilitation as a process; current concepts.
Au, Sp Qtrs. 2 2-hr cl. Prereq: 3rd or 4th yr standing.

509 Legal Aspects of Social Work U G 3
Law as a means of social control; study of case, statute, and constitutional law most frequently involved in social work practice; legal aid.
Au, Wi, Sp Qtrs. 2 1-1/2-hr cl. Prereq: 3rd or 4th yr standing or permission of instructor.

511 Interviewing U 3
Social work interviewing; concepts, principles, processes and skills are examined; particular interviewing approaches and techniques are reviewed; simulated interview situations are enacted and analyzed.
Au, Wi, Sp Qtrs. 2 1-1/2-hr cl. Prereq: Jr standing; designed primarily for social work majors.

513 Living and Thinking the Group U 4
Dual focus on knowledge and experiential learning including structures, processes, properties, and goals.
Au, Wi, Sp Qtrs. 2 2-hr cl. Prereq: Jr standing; designed primarily for social work majors.

520 Problems, Policies, and Programs in Social Welfare I U 4
An introduction to historical backgrounds and the utilization of an analytical framework in the study of the American social welfare system.
Au Qtr. 2 2-hr cl. Prereq: Social work major; nonmajors with permission only.

521 Problems, Policies, and Programs in Social Welfare II U 4
Application of an analytical framework to the study of current issues and problems of policies, programs and social welfare services in the perspective of the American welfare system.
Wi Qtr. 2 2-hr cl. Prereq: 520; social work majors only; open to nonmajors by permission only.

533 Determinants of Social Functioning I U 4
Study of life cycle, growth and development from birth through adolescence from bio-psycho-social perspective; selected theories of personality discussed in relationship to growth and development.
Au Qtr. 2 2-hr cl. Prereq: Jr standing in social work.

534 Determinants of Social Functioning II U 4
Study of life cycle from young adulthood through old age including dying and death; discussion of influences on social functioning of group relationships, organizations and institutions.
Wi Qtr. 2 2-hr cl. Prereq: 533.

570 Interpretation of Social Welfare Information U 3
Examination of different kinds of social welfare data with a focus on content analysis; case study and descriptive information with a primary emphasis on interpretation.
Au Qtr. 2 1-1/2-hr cl. Prereq: Math 102.

571 Introduction to Research Methods in Social Work U 5
Science and society; research design; measuring variables; data collection, processing and analysis; participation in a research project is required.
Wi Qtr. 2 1-1/2-hr cl. 1 2-hr lab. Prereq: 570 or permission of instructor.

593 Individual Studies U 1-5
Individual study projects on problems and services in selected areas of social welfare; report required.
Su, Au, Wi, Sp Qtrs. Prereq: 10 cr hrs in soc work or related courses; approval of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

595 Integrative Seminars — Junior Year U 3
Lectures and discussions designed to apply core curriculum content to areas of contemporary concern to social workers; focus on the development of assessment skills.
Sp Qtr. 2 1-1/2-hr cl. Prereq: 531, 534, 571; nonmajors by permission only. Repeatable to a maximum of 5 cr hrs.

595.01 The Aged
595.02 Comprehensive Health Care
595.03 Mental Retardation
595.04 Social Provision for Children's Needs
595.06 Criminal Justice
595.07 Social Ideology
595.08 Community Mental Health
595.09 Women's Issues I
595.10 Public Human Services Integration I
595.12 Organizational Behavior

645 Social Work Practice I U 4
The structure of social work, its dimensions, parameters, and functions.
Au Qtr. 2 2-hr cl. Prereq: Sr standing social work majors only; nonmajors with permission only.

646 Social Work Practice II U 4
Social worker roles, activities, and responsibilities.
Wi Qtr. 2 2-hr cl. Prereq: 645; social work majors only; nonmajors with permission only.

689 Field Practice U 1-18
Placement in a social welfare organization used by the college as a teaching center; student expected to assume a service provision role in a progressively responsible manner.
Au, Wi, Sp Qtrs. Social agency assignments. Prereq: Social work major, and permission of program coordinator. Repeatable to a maximum of 18 cr hrs.

695 Integrative Seminars — Senior Year U 3
Examines the various fields of social work practice; focuses on developing the ability to set practice goals, decide methods of intervention, implement and evaluate consequences.
Sp Qtr. 2 1-1/2-hr cl. Prereq: 646 and 689; nonmajors with permission only. Repeatable to a maximum of 6 cr hrs.

695.01 The Aged
695.02 Health Care
695.04 Mental Retardation
695.05 Child Welfare
695.07 Corrections
695.08 Mental Health
695.09 Alcoholism
695.10 Women's Issues II
695.30 Current Field of Practice, Unspecified
Specific field of practice to be announced for each quarter of offering.

696 Professional Development Seminar U 3
Development of a conceptual framework for social work practice.
Sp Qtr. 2 1-1/2-hr cl. Prereq: 646; social work majors only; nonmajors by permission only.
700 Interprofessional Education U G 3
Focus on ethical issues, changing professional/consumer rights and interprofessional cooperation.
3 hr. cl. Repeatable to a maximum of 8 or hrs. Limited to students in education, law, nursing, medicine, social work, theology, and allied medical professions.

700.01 Seminar on Interprofessional Care
Treatment of the whole person through the analysis of the interrelated problems of actual patients/clients.
Wi Qtr.

700.02 Changing Societal Values
Identification and clarification of values considerations as they relate to professional problems in dealing with consumer/clients/patients.
Au Qtr.

700.03 Ethical Issues
Ethical issues of concern to the professions and arising out of the advanced technology: euthanasia, mind control, medical ethics, social responsibility of the professions.
Sp Qtr.

700.04 Interprofessional Practicum in Clinical Settings U G 3 or 5
Interprofessional teamwork in clinical settings.
Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs.

703 Seminars in Social Welfare Policy and Program Analysis P G 3
Au, Wi, Sp Qtrs. 2 hr. cl. Prereq: 721 or equiv and written permission of instructor. Repeatable to a maximum of 9 or hrs.
A—Community Mental Health
C—Health
D—Law and Social Work
E—International Social Welfare
F—Aging
G—School
K—Child Abuse

710 Women’s Issues in Social Work P G 3
Examination of relevant issues in the professional practice of social work.
Au, Wi Qtrs. 2 1½-hr cl.

720 Social Welfare Policies and Programs I P G 3
Historical and comparative analysis of social welfare systems; their relationship to change in the basic social institutions: family, church, government, economic institutions.
Au Qtr. 2 1½-hr cl. Prereq: Soc work grad standing or permission of instructor. Not open to students with credit for 620.

721 Social Welfare Policies and Programs II P G 3
The development and application of a conceptual model for social welfare policy and program analysis.
Wi Qtr. 2 1½-hr cl. Prereq: Soc work grad standing and 720 or permission of instructor. Not open to students with credit for 621.

730 Seminars in Social Functioning P G 3-5
Presentation and critical examination of personality, interpersonal, small group, organizational and community concepts and approaches used in analyzing social dysfunctioning.
Au, Wi, Sp Qtrs. 2 1½-hr cl. Prereq: Soc work grad standing. Repeatable to a maximum of 9 or hrs.
A—Institutional and Organizational Behavior
B—Psychopathology and Behavior

733 Dynamics of Social Functioning I P G 3
Introduction to selected theories of human behavior with applicability to social work; examines the influences and contributions of cultural and social structure.
Au Qtr. 2 1½-hr cl. Prereq: Soc work grad standing or permission of instructor. Not open to students with credit for 631.

734 Dynamics of Social Functioning II P G 3
Study of human growth and development from conception through old age, includes study of psychosocial skills necessary for satisfactory social functioning.
Wi Qtr. 2 1½-hr cl. Prereq: Soc work grad standing and 733, or permission of instructor. Not open to students with credit for 632.

741 Clinical Practice
Theory and methods of clinical social work practice with individuals, families and groups; social work philosophy and values in the study of assessment, evaluation, and methods of intervention.

741.01 Introduction P G 3
Wi Qtr. 2 1½-hr cl. Prereq: 744, 745, soc work grad standing. Not open to students with credit for 741Q.

741.02 Individuals P G 3
Sp Qtr. 2 1½-hr cl. Prereq: 741.01. Not open to students with credit for 741A.

741.03 Conjoint Marital and Family Therapy P G 3
Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 741.02. Not open to students with credit for 741C.

741.04 Crisis Intervention P G 3
Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 741.02. Not open to students with credit for 741D.

741.05 Groups P G 3
Au, Wi, Sp Qtrs. 1 2½-hr cl. Prereq: 741.02. Not open to students with credit for 741B.

741.06 Special Topics P G 2-5
Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 20 or hrs.

742 Administrative Aspects of Practice in Human Services Organizations
Examinations generic functions and processes of administration in relation to a conceptual framework for the management of human services professionals, based in a social work value orientation; application to public and voluntary social welfare human services organizations.
Prereq: 744, 745, or permission of instructor.

742.01 Introduction P G 3
Wi Qtr. 2 1½-hr cl. Prereq: 744, 745. Not open to students with credit for 742A.

742.02 Staffing P G 3
Sp Qtr. 2 1½-hr cl. Prereq: 742.01; concurrent 742.03. Not open to students with credit for 742Q.

742.03 Institutional and Organizational Behavior P G 3
Sp Qtr. 2 1½-hr cl. Prereq: 742.01. Not open to students with credit for 730A.

742.04 Decision-making P G 3
Au Qtr. 1 2½-hr cl. Prereq: 742.02. Not open to students with credit for 742D.

742.05 Financial Management P G 3
Wi Qtr. 1 2½-hr cl. Prereq: 742.04. Not open to students with credit for 742S.

742.06 Management Information Systems P G 3
Sp Qtr. 1 2½-hr cl. Prereq: 742.04, 742.05, 775.02. Not open to students with credit for 742T.

742.07 Managerial Techniques P G 3
Au Qtr. 1 2½-hr cl. Prereq: 742.01, 742.03. Not open to students with credit for 742B.

742.08 Theories and Methods of Change P G 3
Wi Qtr. 1 2½-hr cl. Prereq: 742.03. Not open to students with credit for 730C.

742.09 Special Topics P G 2-5
Au, Wi, Sp Qtrs. Arr. Prereq: 744, 745. Repeatable to a maximum of 20 or hrs.

742.10 Supervision P G 3
Wi Qtr. 1 2½-hr cl. Prereq: 742.01, 742.03. Not open to students with credit for 742G.

742.12 Consultation P G 3
Wi Qtr. 1 2½-hr cl. Prereq: 742.01, 742.03. Not open to students with credit for 742E.
743 Social Planning Aspects of Practice
Concepts and strategies involved in the design, planning, implementation, monitoring, and evaluation of social delivery.
743.01 Strategies P G 3
Wi Qtr. 2 1.5-hr cl. Prereq: 744, 745. Not open to students with credit for 743A.
743.02 Public Sector P G 3
Sp Qtr. 2 1.5-hr cl. Prereq: 743.01. Not open to students with credit for 743B.
743.03 Neighborhood and Community Development P G 3
Au Qtr. 1 2-hr cl. Prereq: 743.01. Not open to students with credit for 743C.
743.04 Private Sector P G 3
Sp Qtr. 1 2-hr cl. Prereq: 743.01, 743.02. Not open to students with credit for 743D.
743.05 Policy Analysis and Decision Models P G 3
Designed to analyze decisions in social policy formulation and implementation in the human services; examination of policy and decision-making models.
Sp Qtr. 1 3-hr cl. Prereq: 721.
743.09 Special Topics P G 2-5
Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 20 cr hrs.

744 Social Work Practice Lab P G 2
Experiential learning to complement the theoretical constructs studied in 745.
Au Qtr. 1 3-hr cl. Prereq: Soc work grad standing; concour 745. Not open to students with credit for 744Q.

745 Social Work Practice and Profession P G 3
Fundamentals of social work practice; practice components, interpersonal processes, units of attention, and framework of practice.
Au Qtr. 2 1.5-hr cl. Prereq: Soc work grad standing; concour 744. Not open to students with credit for 841.

770 Research Methods in Social Work P G 3
Basic research methodology; the role of research in social work.
Au Qtr. 2 1-hr cl. Prereq: Soc work grad standing or permission of instructor. Not open to students with 6 cr hrs in 680.

771 Data Analysis Designs P G 3
Interpretation of social work data: quantitative techniques; designs of data analysis.
Sp Qtr. 2 1.5-hr cl. Prereq: Soc work grad standing or permission of instructor. Not open to students with 6 cr hrs in 680.

775 Methods and Techniques in Social Work Research
The study of methodological issues in social work research; focus on the various phases of research process.
2 1.5-hr cl. Prereq: 770.
775.01 Needs Assessment in the Human Services P G 3
Wi Qtr. Not open to students with credit for 784A.
775.02 Data Processing Methods P G 3
Au Qtr.
775.09 Special Topics P G 2-5
Arr. Repeatable to a maximum of 20 cr hrs.

789 Field Instruction I P G 1-15
Integration of field practice with social work practice theory.
Su, Au, Wi, Sp Qtrs. Prereq: Soc work 1st yr grad standing; Placement in assigned human service organization 2 days weekly. Normaly scheduled on and Qtr. Arr with student’s faculty adviser. Repeatable to a maximum of 15 or hrs. Not open to students with 15 or hrs of 615.

793 Individual Studies P G 1-5
Directed readings and tutorials related to specific problems.
Su, Au, Wi, Sp Qtrs. Prereq: Soc work grad standing, permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

794 Group Studies U P G 1-4
Group seminars in specialized areas of curriculum.
Su, Au, Wi, Sp Qtrs. Prereq: Soc work grad standing, permission of instructor. Repeatable to a maximum of 15 or hrs.

802 Seminar in Social Work Education G 3
Development of social work education in North America: problems and issues in curriculum building, teaching methods, and class and field instruction.
Sp Qtr. 1 3-hr cl. Prereq: MSW or permission of instructor.

875 Seminars on the Application of Evaluation Designs to Social Work Research
Application of experimental design to the evaluation of outcomes in social work practice; focus on types of design, collection, analysis, and interpretation of data for agency decision-making; practicum and/or evaluation proposals required.
785.01 Single Case Design G 3
Au, Wi, Sp Qtrs. 1 2-hr cl. Prereq: 770. Not open to students with credit for 784G.
785.02 Micro Program Evaluation G 3
Sp Qtr. 1 3-hr cl. Prereq: 770. Not open to students with credit for 787A.
785.03 Macro Program Evaluation G 3
Au, Sp Qtrs. 1 2-hr cl. Prereq: 770. Not open to students with credit for 787B.

876 Seminar in Social Work Research Critique G 1-6
Evaluation of selected research reports with reference to their relevence to social work and soundness of methodology; written and oral presentation required.
Au, Wi, Sp Qtrs. 1 cl. Prereq: Soc work grad standing, 770 or equiv. Repeatable to a maximum of 6 or hrs. Not open to students with 6 or hrs in 785.

889 Field Instruction II 1-15
Designed to permit students to achieve greater autonomy and to maximize skill development in the integration of social work theory and practice.
Placement 3 days weekly Au, Wi, Sp in a human service organization in accordance with student’s primary mode of intervention, Prereq: Soc work grad standing and 789 or equiv. Repeatable to a maximum of 21 or hrs. Not open to students with 21 or hrs of 715.

894 Group Studies G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: MSW or equiv with written permission of instructor. Repeatable to a maximum of 20 or hrs, not more than 10 of which shall be in any one of the following areas.
A—Social Work Practice
B—Social Welfare Policy
C—Dynamics of Social Functioning
D—Other

920 Seminar in Social Welfare Policies and Programs I G 5
Analysis and evaluation of policy formulation and implementation; utilization of an analytical model to study a matrix of conditions and issues in policy development.
Au Qtr. 1 3-hr cl. Prereq: MSW or permission of instructor. Not open to students with credit for 820.

921 Seminar in Social Welfare Policies and Programs II G 5
Analysis of demographic, political, economic, and other influences upon social policy planning; evaluation of policy planning effectiveness.
Sp Qtr. 1 3-hr cl. Prereq: 920 or permission of instructor. Not open to students with credit for 821.

933 Seminar in Social Functioning I G 5
Critical examination of selected biological, psychological, and social determinants of social functioning and dyadic, small group, organizational, and community levels of analysis.
Wi Qtr. 1 3-hr cl. Prereq: MSW or permission of instructor. Not open to students with credit for 830.
934 Seminar in Social Functioning II G 5
Deposition of problems inherent in the selection of knowledge from the social, behavioral, and biological sciences that have applicability and utility for social work practice.
Au Qtr. 1 3-hr cl. Prereq: 933 or permission of instructor. Not open to students with credit for 831.

945 Seminar in Social Work Practice I G 8
Examination of issues and challenges that confront social work as a profession and practice; emphasis on underlying knowledge and values.
Au Qtr. 1 3-hr cl. Prereq: MSW or permission of instructor. Not open to students with credit for 840.

946 Seminar in Social Work Practice II G 5
Comparative analysis of theoretical approaches and models of social work practice; emphasis on development of individual frame of reference.
Sp Qtr. 1 3-hr cl. Prereq: 945 or permission of instructor. Not open to students with credit for 841.

970 Seminar in Social Work Research I G 5
Examination and evaluation of research designs and their purposes; basic methodology, construction of hypothesis, data collection, statistical methods.
Wi Qtr. 1 3-hr cl. Prereq: MSW or permission of instructor. Not open to students with credit for 880.

971 Seminar in Social Work Research II G 5
Continuation of 970 toward the development of a research proposal.
Sp Qtr. 1 3-hr cl. Prereq: 970 or permission of instructor. Not open to students with credit for 882.

993 Individual Studies G 1-5
Directed readings and tutorials related to specific problems and issues in following areas:
A—Social Work Practice
B—Social Welfare Policy
C—Dynamics of Social Functioning
D—Social Work Research
E—Social Work Education
F—Other
Su, Au, Wi, Sp Qtrs. Prereq: MSW or permission of instructor. Repeatable to a maximum of 15 or hrs.

995 Integrative Seminar on Social Issues G 5
Examination of selected social issues relevant to social work with emphasis on synthesis between fields of knowledge.
Sp Qtr. 1 3-hr cl. Prereq: 921, 934, 946, 971.

998 Research in Social Work: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Social Work: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Sociology

300 Brickell Hall, 190 North Oval Mall,
422-6681

See also courses in Criminology and Criminal Justice.

101 Introductory Sociology U 5
Fundamental concepts of sociology and an introduction to the analysis of social problems.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 201 or equiv or Rust Soc. 155 or equiv. H101 honors may be available to students enrolled in an honors program. BER/LAC/LAR course. SS Admis Cond course.

202 Social Problems U 5
Analysis of contemporary social problems.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 5 or hrs in sociol. Not open to students with 15 or hrs or more in sociol; except with written permission of instructor. BER/LAC/LAR course. SS Admis Cond course.

206 Social Implications of Low Income U 3
A study of low-income peoples, especially concerning the effect of low-income on them, and their consequent social participation. Cahen.
Au, Sp Qtrs. 3 cl. Prereq: 5 or hrs in sociol or equiv with permission of instructor. BER course. SS Admis Cond course.

208* Contemporary Social Movements U 3
An analysis of social movements and the issues and ideologies which underlie them.
Au Qtr. 3 cl. Prereq: 101 or 201 or equiv with written permission of instructor. SS Admis Cond course.

210 Sociological Aspects of Deviance U 5
Study of the definition, identification, treatment, and control of types of legal, moral and status deviance, such as crime, mental illness, alcoholism and other individual pathologies. Lundman and Scott.
Su, Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for Criminal 210. Cross-listed in Criminology and Criminal Justice. SS Admis Cond course.

213 Population Problems U 5
A general non-technical introduction to population studies, emphasizing how population growth and structure have caused or aggravated social problems in various countries. Li and Tien.
Sp Qtr. 4 cl, 1 hr arr. SS Admis Cond course.

220 Sociology of Education U 4
Current social trends as they affect education; backgrounds of school children, social status of teachers, role of power and bureaucracy. Himmelstof.
Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: 5 or hrs in sociol. SS Admis Cond course.

250 Types of Sociological Inquiry U 5
Introduction to sociological research techniques, methodological approaches, and relevant quantitative procedures. Himmelstof, Houseknecht, and Merrigan.
Su, Au, Wi, Sp Qtrs. 3 cl, 3 2-hr labs. Prereq: 5 or hrs in sociol or equiv with permission of instructor.

280 American Minority Relations U 3
Survey of the attitudes and relationships arising from the contacts of various racial and ethnic groups in the United States. Vandesande.
Au Qtr. 3 cl. Prereq: 5 or hrs in sociol. Not open to students with credit for 480 or equiv. BER course. SS Admis Cond course.

281* The American Jewish Community U 4
Sp Qtr. 4 cl. SS Admis Cond course.
294 Group Studies U 3-5
Au Qtr. Prereq: 101. Repeatable to a maximum of 10 cr. hrs.
Topics vary each quarter offered.

330 Varieties of Modern Marriage U 3
Examination of sociological and social-psychological research describing and interpreting emerging pluralistic patterns of
man-woman and parent-child relationships. Clatworthy,
Hedrick, and Monaghan.
Su, Au, Wi, Sp Qtr. 3 cr.

405 Collective Behavior U 5
Examination of the dynamic social processes characteristic of
mass societies through an analysis of crowds, mobs, riots,
cults, and publics. Guarnaccia and Seidler.
Wi, Sp Qtr. 5 cr. Prereq: 5 or hrs in sociol. Not open to
students with credit for 605.

407 Social Change U 5
Recent social changes, especially in Western civilization and
the United States; types of societies in historical perspective;
requirements of a good society. R. Hinkke.
Au Qtr. 5 cr. Prereq: 5 or hrs in sociol or equiv with
permission of instructor. Not open to students with credit for 207. BER
LAC/LAR course.

410 Criminology U 5
The nature, variation, and causes of crime and delinquency;
study of criminal liability, criminal careers, and organized
crime; street gangings. Dinitz, Lundman, Scott, and Longmire.
Su, Au, Wi, Sp Qtrs. 5 cr. Prereq: 5 cr or hrs in Criminal or
sociology, or permission of instructor. Not open to students
with credit for Criminal 410. BER course.

430 Sociology of the Family U 4
Analysis of relationships between the family and the larger
society including mate selection, status of women, and
patterns of husband-wife and parent-child relationships.
Clatworthy and Menagh.
Au, Wi, Sp Qtrs. 4 cr. Prereq: 5 or hrs in sociol. BER course.

434 The Child and Society U 4
A study of the ways in which society socializes children;
current breakdown in the socializing processes and
implications for the school and other educational agencies.
G. Hinkke and Menagh.
Au, Sp Qtr. 4 cr. Prereq: 5 or hrs in sociol.

435 Sociology of Women U 5
Analysis of sex-roles and social structure with emphasis on
modern social movements concerned with redefining sex-role
relationships. Richardson and Taylor.
Au, Sp Qtrs. 5 cr. Prereq: 5 or hrs in sociol.

450* Illness and Social Behavior U 5
Study of cultural, social, psychological, and sociological factors
in disease processes, distribution of disease, definition of
illness, organization of health professions and facilities. Alonzo.
Sp Qtr. 5 cr. Prereq: 5 or hrs in sociol.

451 Sociology of Law U 5
The relationship between law and social order; evolutionary
aspects of law, comparative legal systems, procedural and
substantive problems, emerging moral and normative issues.
Longmire.
Au, Wi Qtr. 5 cr. Prereq: 5 or hrs in criminal or
sociol or permission of instructor. Not open to students
with credit for Criminal 451. Cross-listed in Criminology and Criminal Justice.

462 Sociology of Organizations U 4
Functioning of large complex social groupings; goals, structures,
coordination, dispersion, survival, change as seen in
various organizations: e.g., governmental, educational,
religious, business, and occupational organizations. Convin.
Au, Wi Qtrs. 3 cr. Prereq: 5 or hrs in sociol.

463 Social Stratification U 4
Class distinction as a phase of social differentiation; origin and
characteristics of social class; significance for modern society
of class consciousness, class struggle, and social mobility. Li,
Mayer, Tiern, and Wallace.
Su, Au, Sp Qtr. 4 cr. Prereq: 5 or hrs in sociol. BER/LAC/LAR
course.

464 Social Institutions U 4
Social processes and phenomena associated with contemporary
institutions, including growth of formal and informal organizational
structure, communication processes, attitude and
norms. Jobu and Wallace.
Au, Wi, Sp Qtr. 3 cr. Prereq: 5 or hrs in sociol. BER course.

465† Work and Leisure in Mass Society U 4
An analysis of the current relationships between work and leisure,
emphasizing symbolic implications of increased leisure time and
change in perceptions of work and leisure. Clarke.
Au Qtr. 4 cr. Prereq: 5 or hrs in sociol.

467 Sociology of Religion U 5
The nature of religious institutions and beliefs, with
particular reference to the United States; the nature of
religion and other social systems. Seidler.
Au, Sp Qtr. 5 cr. Prereq: 5 or hrs in sociol.

470 Social Factors in Personality U 5
Analysis of relationships between social structure and
personality: language, its consequences for social behavior;
socialization—learning of motives and social roles; personality,
development, organization, and disorganization. Alonzo,
Franklin, and Parcell.
Au, Wi, Sp Qtr. 5 cr. Prereq: 5 or hrs in sociol.

480 Comparative Race Relations U 3
Analysis of variations in patterns of race relations in diverse
institutions and patterns with particular emphasis on Brazil, South
Sp Qtr. 3 cr. Prereq: 5 or hrs in sociol. BER course.

488 Introduction to Sociological Theory U 5
Introductory statement of the nature of sociological theory: its
basic problems, assumptions, major types and orientations,
and principal contributions to the discipline. G. Hinkke, R.
Hinkke, Meyer, and Seidler.
Au, Wi, Sp Qtr. 5 cr. Prereq: 10 or hrs in sociol.

490 Sociology of Urban Life U 5
The place of the city in social organization; the emergence,
nature, and problems of modern urbanism; projects based on
census and field data. Schuler.
Au Qtr. 4 cr. Prereq: 5 or hrs in sociol. Not open to students
with credit for 290. BER course.

503* Contemporary Soviet Society U G 5
Organization, development, and problems of the Communist
Party, the collective farm, the school, professional occupations,
economic planning, and other contemporary Soviet institutions.
Sp Qtr. 5 cr. Prereq: 5 or hrs in sociol. Not open to students
with credit for 403.

508* Sociological Interpretation of Modern Values U G 5
Family, organizational, community, institutional, national and
international value and value conflicts; relationship to the
conflict of values of modern social problems, individual rights,
and responsibilities. Clatworthy.
Au, Sp Qtr. 5 cr. Prereq: 5 or hrs in sociol or permission of
instructor.

545 American Society U G 5
An expanse of the structural patterns of American society,
using sociological theories and data but integrating them into a
general view. Li and Richardson.
Wi Qtr. 5 cr. Hs45 (honors) may be available to students
enrolled in an honors program or by permission of dept.
Prereq: Jr standing with a cumulative point-hour ratio of at
least 3.0. BER/LAC/LAR course.
550 Population and Society U 5
Examination of the components of population growth/decline and how they are related to social changes, community problems, and human resource planning and policies. Lec. Sp Qtr. 3 cl. Preq: 5 cr or hrs in soc.

555 Sociology of Sport U G 4
Sport from a sociological perspective: relationship of sport to social institutions, socialization within sports; sport and small group analysis. Curly. Wi Qtr. 4 cl. Preq: 101 or permission of instructor.

589 Fieldwork in Sociology U 5
Practicum in the collection of sociological data through fieldwork; identification of research problem; development of data collection methods; data processing and analysis. Wi Qtr. 2 cl, 2-1/2 hrs lab. Preq: Jr standing and 5 or cr hrs in soc.

590 The Community U G 5
Development of the modern community: approaches to the study of communities; significance of processes and value systems for community organization and disorganization. Schwirian. Wi Qtr. 4 cl. Preq: 10 cr or hrs in soc. BER course.

601 Comparative Family Organization U G 5
Analysis of family organizations in various societies, emphasizing the impact of changing world conditions on family and kinship structures. Housecraft. Sp Qtr. 4 cl. Preq: 10 cr or hrs in soc. Not open to students with credit for 432.

602 Sociology of Sex Roles U G 5
Sociological aspects of sex differentiation and sex-role behavior, including studies of sexual stratification and division of labor, sex-role socialization, and sex-role performance. Richardson and Taylor. Sp Qtr. 5 cl. Preq: 435 or equiv with permission of instructor.

606* Social Movements and Collective Behavior U G 5
An examination of theories and research on non-traditional group efforts to change social systems and institutions; emphasis on contemporary societies and movements. Quantrelli. Wi Qtr. 10 cr or hrs in soc. Not open to students with credit for 710 or 805.

608* Sociological Aspects of Mass Communication U G 5
Examination of structure and functions of mass communication systems in contemporary mass societies, including the relationship between mass media organizations and other institutions. Sp Qtr. 5 cl. Preq: 10 cr or hrs in soc.

610 Sociology of Deviant Behavior U G 5
An examination of the nature, types, and societal reactions to deviant behavior; special emphasis on the process of stigmatization and the emergence of deviant subcultures. Ditz. Wi Qtr. 5 cl. Preq: 10 cr or hrs in crim or soc. Not open to students with credit for Crim 610. Cross listed in Criminology and Criminal Justice.

611 Penology U G 5
The treatment of adult offenders in detention and incarceration; short and long term institutions. Ditz and Longmire. Au, Sp Qtr. 6 cl. Preq: 410 or Crim 410. Not open to students with credit for Crim 611. Cross listed in Criminology and Criminal Justice.

612 Sociology of Economic Life U G 5
Study of the relationship between economic andnoneconomic aspects of life; theory will be supplemented by related research. Jibou and Wallace. Sp Qtr. 3 cl, 2 hrs arr. Preq: 10 cr or hrs in soc.

615 Control and Prevention of Crime and Delinquency U G 5
Analysis of the operational effectiveness of special measures and programs pointed toward the control and prevention of crime and delinquency. Landman. Au Qtr. 1 2-hr cl. One field project. Preq: 510 or Crim 810, and 5 cr standing. Not open to students with credit for Crim 615. Cross-listed in Criminology and Criminal Justice.

618 Sociology of Police and Policing U G 5
Sociological understanding of the origins of routine police conduct and misconduct; representative topics include police-citizen encounters and police abuse of discretion. Landman. Sp Qtr. Preq: Crim 310 or 410 or grad standing or permission of instructor. Not open to students with credit for Crim 618. Cross-listed in Criminology and Criminal Justice.

Special Topics in Cultural Anthropology: Psychological Anthropology
See Anthropology 620.12.

623 Advanced Sociology of Education U G 5
Comparisons of the structures and functions of educational systems, elementary through university; recruitment and allocation of personnel and resources; power, conflict, and boundary maintenance. Corwin. Wi Qtr. 5 cl. Preq: 10 cr or hrs in soc. Not open to students with credit for 523.

629 Sociology of Health: Mental and Physical Dimensions U G 5
Analysis of sociological and social psychological aspects of mental and physical disorders, and types of illness behavior associated with mental and physical illness. Alcloo. Au Qtr. 5 cl. Preq: 10 cr or hrs in soc or permission of instructor. Not open to students with credit for 631.

630 Medical Sociology U G 5
Sociological analysis of the distribution of disease, and the nature of health care institutions, health professions and the delivery of health care services. Alcloo. Wi Qtr. 5 cl. Preq: 10 cr or hrs in soc. Not open to students with credit for 730.

640 Sociology of Everyday Life U G 5
A basic course in ethnomethodology; a survey of the basic literature; study of the taken-for-granted, verbal and non-verbal features of social interaction; involves making observations and descriptions. G. Hinkle. Sp Qtr. 4 cl. Preq: 10 cr or hrs in soc.

650 Introduction to Quantitative Research Techniques in Sociology U G 5
An introduction to the analysis of sociological data, measurement theory and techniques of interpretation; sampling procedures in sociological research and implications for generalization. Jibou, Li, Merglhan, and Schwiarin. Au, Wi, Sp Qtr. 5 cl.

651 Approaches to Sociological Inquiry U G 5
Theory and practice in essentials of the research process; comparison of alternative approaches and design models: questionnaire construction, interview techniques, and related problems. Jibou, Li, and Parcel. Au Qtr. 3 cl, project.

660† Comparative Social Organization U G 5
A comparative analysis of organizational characteristics and functioning in different cultural settings. Curry. Sp Qtr. 4 cl. Preq: 10 cr or hrs in soc.

662 Small Groups U G 5
Analysis of group structure and processes; examination of roles, interpersonal structure, leadership; observation of groups in laboratory and non-laboratory settings. Curry. Au Qtr. 5 cl. Preq: 10 cr or hrs in soc. Not open to students with credit for 661 or 772.
685* Political Sociology U G 5
Examination of structures, influences, and processes of change of models and social blocks and of social contexts of power and dynamic forces altering political systems. Meyer, Au Qtr. 3 cl. Prereq: 10 cr hrs in soc.

688 Sociology of Changing Life Styles U G 5
An in-depth look at some emerging life style patterns, such as civil union marriages, childless marriages, single-parent families, blended families, singlehood, cohabitation, etc. Hausmann.
Su Qtr. 2 2-hr cl.

682 Earlier Developments in Sociological Theory U G 5
Analysis of classical systems and their representatives, e.g., post-structural social evolutionism (Comite, Spencer, Durkheim), historical materialism (Marx-Engels), and humanistic idealistic reactions (Toennies, Simmel, Weber). R. Hinkle.
Au Qtr. 2 2-hr cl. Prereq: Written permission of instructor.

683 Later Developments in Sociological Theory U G 5
Analysis of systematic orientations, e.g., social action (Znaniecki, Macionis, Parsons), functionalism (Parsons, Merton), conflict (Dahrendorf, Coser), social exchange (Blau), ethnomethodology (Garfinkel), newer structuralism (Lévi-Strauss). R. Hinkle and staff.
Wi Qtr. 2 2-hr cl. Not open to students with credit for 782.

693 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: SocSci majors and permission of instructor. Repeatable to a maximum of 15 cr hrs for each decimal subdivision. These courses are graded S/U.

693.01 Sociological Theory
693.02 Social Organization and Planning
693.03 Medical Sociology
693.04 Criminology and Penology
693.05 Sociology of Education
693.06 Race Relations
693.07 Social Psychology
693.08 The Family
693.09 Research Methodology
693.10 Urban Sociology
693.11 Undergraduate Seminar on Contemporary Sociological Issues
693.12 Unclassified
693.13 Population
693.14 Collective Behavior

694 Group Studies U G 3-5
Au, Wi, Sp Qtrs. Repeatable to a maximum of 15 cr hrs for each decimal subdivision. Topics vary each quarter offered.

694.01 Sociological Theory
694.02 Social Organization
694.03 Medical Sociology
694.04 Criminology and Penology
694.05 Sociology of Education
694.06 Race Relations
694.07 Social Psychology
694.08 The Family
694.09 Research Methodology
694.10 Urban Sociology
694.11 Contemporary Sociological Issues
694.12 Unclassified
694.13 Population
694.14 Collective Behavior

General Prerequisites for Courses Numbered 700
Unless otherwise indicated, the prerequisites for 700-level courses are 30 qtr hrs in the same discipline numbered 400 or higher of which 15 hrs must be at the 600 level.

Introduction to National Security
See Nat Sec Pol 5702.

704 Problems in the Design of Sociological Research U G 5
Quarantelli and Richardson.
Au Qtr. 3 cl. project. Prereq: 250 or equiv. Repeatable to a maximum of 10 cr hrs.

705 Construction and Verification of Theory U G 5
The actual practice of theory construction and its underlying logic. Nagi.
Wi Qtr. 3 cl. project. Prereq: 250 or equiv. Not open to students with credit for 704.01. Repeatable to a maximum of 10 cr hrs.

706 Experimental Research Methods U G 5
Survey and analysis of research designs employing experimental methods to study human relations in various settings (business/industry, sports/recreation, home/family life, etc. Currie.
Wi Qtr. 3 cl. project. Prereq: 5 cr hrs in soc.

707 Problems in Quantitative Analysis U G 5
A survey of advanced problems in the multivariate analysis of sociological data. Topics covered include elaboration and specification, causal inference in nonexperimental research and path analysis. Schwanen.
Sp Qtr. 3 cl. Prereq: 650 or equiv. Not open to students with credit for 704.03. Repeatable to a maximum of 10 cr hrs.

708 Problems in Qualitative Analysis U G 5
Problems and techniques of non-quantitative data analysis including case studies, participant observation, field diary, autobiography, and historical records. Quarantelli and Richardson.
Sp Qtr. 5 cl.

718 Advanced Criminology U G 5
A critical study of the most important aspects of criminology. Dinitz and Scott.
Sp Qtr. Prereq: 410 or equiv.

751 Introduction to Advanced Population Studies U G 4
A more intensive introduction to demography parallel to 550; mainly for graduate students in sociology who lack undergraduate training in the field and want to continue in it. Tien.
Au Qtr. 4 cl. Not open to students with credit for 550 or equiv.

752* Principles and Techniques of Scale Construction U G 5
Approaches and techniques in the development and testing of social measurement instruments. Meyer.
Wi Qtr. 3 cl. project. Prereq: 650 or equiv or Soc Work 540.

754* Demographic Analysis U G 5
An exposition of census data and vital statistics, demographic rates, life tables, cohort analysis, and similar elementary techniques and data sources in demography. Li.
Sp Qtr. 5 cl. Prereq: 1 course in general statistics. Not open to students with credit for 519.

755* The Social Context of Human Fertility U G 4
A critical and methodological analysis of fertility, with special emphasis on the social context of reproductive behavior in American society. Tien.
Su Qtr. 4 cl.

756* Migration and Social Mobility U G 5
Theories and models of population mobility, determinants and consequences of the migration process; policy implications of rural-urban migration.
Sp Qtr. 3 cl, 1 lab hr.
770 Individual in Society U G 5
Analysis and synthesis of the major theories and findings of social psychology. Franklin.
Au Qtr. 5 cl.

780 Racial and Ethnic Differentiation U G 5
An analysis of the origin, persistence, assimilation and reintegration of systems of racial and ethnic differentiation. Himmelblau.
Sp Qtr. 3 cl.

781+* Foundations of Sociological Theory U G 5
Problems of sociological theory such as the nature and construction of social reality, the relationships between theory and research, theory formation, and issues of a value-free sociology. Richardson.
Au Qtr. 2 2-hr cl.

H783 Honors Course U 3-5
A conference-thesis course; subject matter will vary depending upon the student’s topic.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: 4th yr standing with a grade of A in at least half of the social sciences and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 crs are required of candidates for the degree B.A. with distinction in sociology. Failure to receive a mark of 5 in this course is a disqualification for special honors. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

Research Principles and Techniques in National Security
See Nat Sec Pol 5 785.

790 Social Organization of the Community U G 5
An examination of the nature, structures, processes, and trends of social organization of modern communities. Schwind.
Au Qtr. 3 cl.

791 Sociological Methods of Community Analysis U G 5
Methods, techniques, sources of data, and objectives of community analysis. Schwind.
Wi Qtr. 3 cl. Prereq: 490 or 590 or equiv, and permission of instructor. Not open to students with credit for 894.

792* Structural Sociology U G 5
Key concepts, issues, recent trends in the study of social structure with special emphasis on formal social organizations, social stratification, comparative social systems, groups and research methods. Conwin.
Sp Qtr. 5 cl. Prereq: Grad standing in sociol.

General Prerequisites for Courses Numbered 800
Unless otherwise indicated, the prerequisites for 800-level courses are 30 qtr hrs in the same discipline at the 600-level or higher, of which 15 hrs must be at the 700-level.

800 Proseminar in Sociology G 2
Each week an area of specialization within sociology will be discussed by a professor whose major interest is in that area; provides an overview of special topics and current issues.
Au Qtr. 2 cl. Open only to 1st year grad students in sociol. This course is graded S/U.

811 Seminar in Industrial Sociology G 1-5
Selected topics in sociology of industrial and work relations; organizational types, change, effectiveness, industrial relations, control, administration, leadership, occupations; theoretical approaches to study of industrial relations. Jobu.
Su Qtr. Repeatable to a maximum of 10 or hrs.

820* Seminar in the Sociology of Education G 5
Special problems will be considered in different quarters, including urban education, student movements, bureaucratic-professional problems, school-community relations, and innovation. Conwin and Himmelblau.
Wi Qtr. 3 cl. Repeatable to a maximum of 10 or hrs.

830* Seminar in Medical Sociology: Problems in the Sociology of Health Organization G 5
Analysis of theory and research bearing upon the role of medicine in society and the health organizations on national, community and institutional levels. Nagi.
Wi Qtr. 3 cl. Prereq: 730 or permission of instructor.

833 Seminar in Medical Sociology: Problems in Illness Behavior G 5
Analysis of current issues in health behavior, care seeking behavior, and the delivery of health services. Alonso.
Sp Qtr. 3 cl. Prereq: 630.

837* Seminar in Public Opinion and Political Sociology G 5
Selected problems in the study of opinions and opinion climates, with special emphasis on their relation to elections and political institutions in a cross-national context. Meyer.
Sp Qtr. 5 cl. Prereq: Permission of instructor.

842* Human Ecology G 5
Selected problems of urban structure from the ecological perspective. Schwind.
Wi Qtr. 5 cl. Repeatable to a maximum of 10 or hrs.

848* Seminar in the Sociology of Religion G 5
An analysis of selected contemporary problems in the sociology of religion; religious organization and involvement. Seidman.
Au Qtr. 3 cl.

850 Seminar in Sociological Research Methods G 1-5
Special topic seminars in research methodology. Jobu and Meyer.
Au Qtr. Repeatable to a maximum of 30 or hrs.

859* Practicum in Sociological Research G 1-15
Supervised practical experience in the independent execution of sociological research, the application of appropriate analytical techniques, and preparation of research reports. Quarter.
Wi, Sp Qtrs. Prereq: Written permission of instructor.
Repeatable to a maximum of 15 or hrs.

861 Seminar in Social Stratification G 5
Major theoretical approaches, differing bases of stratification and methods of analysis. Tier and Forman.
Wi Qtr. 3 cl. Repeatable to a maximum of 10 or hrs.

862 Seminar in Complex Organizations G 5
Analysis of bureaucratization, structure, boundary problems, resource allocation, organizational change and conflict. Conwin.
Au Qtr. 3 cl.

863* Seminar in Small Groups G 5
A critical examination of theoretical and methodological issues in research on small groups; focus on sociological contributions. Curry.
Sp Qtr.

871* Symbolic Interaction G 5
Analysis of the relationship between the individual and the social structure; particular reference paid to the symbolic interaction orientation. Alzono and G. Henke.
Au Qtr. 5 cl.
882* Systematic Social Theory in Progress  G 5
Examination of the logical structure and empirical status of current and emerging theories. G. Hinkle. Sp Qtr. 2 hr. cr.

884 Seminars in Sociology  G 1-5
Su, Au, Wi, Sp Qtr. Repeatable to a maximum of 15 cr hrs for each decimal subdivision.
884.01 Sociological Theory
884.02 Social Organization and Planning
884.03 Medical Sociology
884.04 Criminology and Penology
884.05 Sociology of Education
884.06 Race Relations
884.07 Social Psychology
884.08 The Family
884.09 Research Methodology
884.10 Urban Sociology
884.11 Graduate Seminar on Contemporary Sociological Issues

884.12 Unclassified
884.13 Population
884.14 Collective Behavior
888* Seminar in the American Family  G 1-5
An examination of relevant issues, trends, and problems with emphasis on theoretical orientations and research findings. Clarke. Au Qtr. 5 cr.

899 Interdepartmental Seminar  G 1-5
See Interdepartmental Seminars.

998 Research in Sociology Thesis  G Arr
Research for thesis purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research in Sociology Dissertation  G Arr
Research for dissertation purposes only. Su, Au, Wi, Sp Qtrs. Refer to 884 for registration in proper decimal subdivision. This course is graded S/U.

Spanish

248 Dieter Cunz Hall of Languages, 1841 Millikin Road, 422-5843
Students studying foreign languages at the elementary and intermediate levels typically take the sequence of courses numbered 101-102-103-104 (including the decimal subdivisions such as 101.51, etc.) and then move on to advanced courses. Students who need to satisfy the Arts and Sciences foreign language requirement must demonstrate competence at the 104 level. The courses numbered 100.01-100.02 are for students: 1) who do not intend to take foreign language beyond the level of 100.02; 2) who do not expect to complete more than ten credit hours sequentially; 3) who prefer a slower-paced introduction (also available in 101.51, etc.). Students admitted with a foreign language condition should take the 101-102 sequence if they intend to continue in a language. Those who do not plan to take more than ten credit hours of foreign language study should take the 100.01-100.02 sequence.

100 Introduction to the Study of Spanish  U 5
Su, Au, Wi, Sp Qtrs. 5 cr. Not open to students with credit for 101 or equiv study in high school or college. Fl. Admis Cond courses.

100.01 Introduction to the Study of Spanish I
Introductory Spanish for students with no previous training in Spanish; emphasis on reading and listening and on study skills part of a two-credit sequence.

100.02 Introduction to the Study of Spanish II
Continuation of 100.01.
Prereq: 100.01 or equiv or permission of dept.

101 Elementary Spanish I
Introduction to Spanish; development of listening, reading, speaking, and writing skills.
Su, Au, Wi, Sp Qtrs. Not open to students with credit for 100.01 or 100.02. Fl. Admis Cond courses.

101.01 Classroom Track  U 5
Students must register for and complete 6 cr hrs during the quarter. This course is available for EM credit.

101.51 Individualized Track  U 1-5
Students register for and complete from 1 to 5 cr hrs during the quarter. Students who complete 5 cr hrs before the end of the quarter may proceed to 102.51. Progress is sequential from one cr hr to the next with proficiency at the level of 85% required for advancement. Not open to students with 5 cr hrs in 101.02.

102 Elementary Spanish II
Continued study of Spanish; development of listening, reading, speaking, and writing skills.
Fl. Admis Cond courses.

102.01 Classroom Track  U 5
Prereq: 100.02 or 101.01 or 5 cr hrs of 101.02 or 101.51. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

102.51 Individualized Track  U 1-5
Prereq: Grade of B- or above in 101.01 or 100.02 or 5 cr hrs of 101.02 or 101.51 or permission of instructor. Students may register for 101.51 and 102.51 concurrently with permission of instructor. Students register for and complete from 1 to 5 cr hrs during the quarter. Students who complete 5 cr hrs before the end of the quarter may proceed to 103.51. Progress is sequential from one cr hr to the next with proficiency at the level of 85% required for advancement. Not open to students with 5 cr hrs in 102.02.

103 Intermediate Spanish I
Continued study of Spanish; development of listening, reading, speaking, and writing skills; readings based on Spanish culture and literature.

103.01 Classroom Track  U 5
Prereq: 102.01 or 5 cr hrs of 102.51 or 110. Students must register for and complete 5 cr hrs during the quarter. This course is available for EM credit.

103.51 Individualized Track  U 1-5
Prereq: Grade of B- or above in 102.01 or students may register for 102.51 and 103.51 concurrently with permission of instructor. Students register for and complete from 1 to 5 cr hrs during the quarter. Progress is sequential from one cr hr to the next with proficiency at the level of 85% required for advancement. Not open to students with 5 cr hrs in 103.02.

104 Intermediate Spanish II  U 5
Prereq: 102.01 or 5 cr hrs of 102.51 or 110. The following courses are not open to students with credit for 104, and only one of the decimal subdivisions may be taken for credit.

104.01 Basic Course
Reading of Spanish short stories, plays, and novels with attention to literary appreciation; development of basic language skills; course conducted in Spanish. This course is available for EM credit.

104.02 Conversation
Emphasis on speaking and aural comprehension; conversations, materials and current newspapers.

104.03 Culture and Civilization
Aspects of Spanish civilization: geography, history, social developments, and the arts; readings and discussion in Spanish.

Au, Wi, Sp Qtrs. 5 cr. Not open to students with credit for 104 or any other 104 decimal subdivision.
104.04 Social and Political Thought
Readings on the evolution of social and political ideas in Spanish America; texts in Spanish; discussion in Spanish and English.
Au, Wi, Sp Qtrs. 5 cl. Not open to students with credit for 104 or any other 104 decimal subdivision.
104.51 Individualized Track U 2-5
Spanish grammar; selected readings; literary passages; oral and written assignments used to develop and assess basic language skills in listening, speaking, reading, and writing. Au Qtr. Arr. Prereq: 103.01 or 5 cr hrs of 103.51. Students register for and complete from 2 to 5 cr hrs during the qtr. Progress is sequential from one hr or the next with proficiency at the level of 80% on oral and written exam required for advancement.
Not open to students with credit for 104 or any 104 decimal subdivision.

105 Elementary Spanish Conversation and Composition U 5
Intensive practice in oral and written Spanish, based on texts and periodicals concerned with contemporary Spain and Spanish America; grammar and idiom review.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 104. Course conducted in Spanish. Not open to students with credit for 105.01 or 105.02. This course is available for EM credit.

110 Intensive Elementary Spanish U 5, 10
Elementary Spanish for students wishing to acquire the basic skills in one quarter; intensive drill in form, syntax, vocabulary, and idiom; equivalent to 101 and 102.
Au, Wi, Sp Qtrs. 10 cl. Prereq: Permission of dept. Not open to students with credit for 102. Students with credit for 101 or the equiv may not register for more than 5 cr hrs.

111* Intensive Intermediate Spanish U 5 or 10
An intensive course that combines the content of 103 and 104.01 to complete the presentation of the basic Spanish grammar and to give extensive practice in the four language skills.
Su, Au, Wi, Sp Qtrs. 5-14 cr. Prereq: 110 or 102 or equiv with written permission of instructor. Not open to students with credit for 104 or 104 decimal subdivisions. Students with credit for 103 or 112 may not register for more than 5 cr hrs. Course intended for students who wish to expedite the completion of the language requirement.

112 Intensive Spanish U 5, 10, 15
Elementary and intermediate Spanish; intensive drill in form, syntax, vocabulary, and idiom; reading of short stories and plays in Spanish.
Su Qtr. 15 cl. Prereq: Permission of instructor. Full-time fees required regardless of number of cr hrs. Equiv of 101, 102, 103. Students may not register for any other course if they enroll in 112. Students with credit for 103 or equiv may not register for credit. Students with credit for 101 and 102 will enroll for 5 cr hrs. Students with credit for 101 only will enroll for 10 cr hrs. Students with no credit in Spanish will enroll for 15 cr hrs. Regardless of cr hrs enrolled a student will attend class throughout entire quarter. Withdrawal from the course means forfeiture of all cr hrs. No audit. Fl. Admis Cond course.

150 Introduction to the Culture and Literature of Spain and Portugal U 5
Introduction to the principal developments of the culture of Spain and of Portugal through literature, art, music, film, and folklore.
Au, Sp Qtrs. 4-6 cl. Not open to students with credit for 271 or 272. BERU/LAC/LAR course.

151 Introduction to Latin American Culture and Literature U 5
Introduction to the culture of Spanish America and Brazil through literature, art, music, film, and folklore.
W Qtr. 4-5 cl. Not open to students with credit for 272. BERU/LAC/LAR course.

162 Elementary-Intermediate Spanish for Selected Students U 5
Wi Qtr. 5 cl. Prereq: Grade of A in 101 and permission of dept. Successful completion of 101-102-163 fulfills the Arts and Sciences foreign language requirement and satisfies prerequisite for 400-level literature courses.

163 Elementary-Intermediate Spanish for Selected Students U 5
Continuation of 162.
Sp Qtrs. 5 cl. Prereq: 162. Successful completion of 161-162-163 fulfills the Arts and Sciences foreign language requirement and satisfies prerequisite for 400-level literature courses.

171 Spanish Literature in Translation: Medieval and Golden Age U 5
Selection of major works in Spanish literature from the medieval period through the Golden Age in translation.
Au Qtrs. 5 cl. Prereq: English 110 or 111 or equiv. Not open to Spanish majors. BERU/LAC course.

293 Individual Studies U 1-15
Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 cr hrs. This course is graded SU/UC.

294 Group Studies U 1-15
Au, Wi, Sp Qtrs. Prereq: Written permission of dept. Repeatable to a maximum of 30 cr hrs.

401 Review Grammar U 5
Review of major grammatical principles, with extensive oral and written practice.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 105.

402 Intermediate Spanish Conversation U 3
Practice in speaking Spanish; vocabulary building; basic syntactic structures, pronunciation.
Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: 401 and 404 or permission of instructor.

403 Intermediate Spanish Composition U 3
Spanish prose forms and practice in writing descriptive, narrative, and personal compositions; letters, essays, and poems.
Su (1st term), Au, Sp Qtrs. 4 cl. Prereq: 401 and 404.

404 Spanish Pronunciation U 3
Practice with corrective exercises; some attention to problems of teaching pronunciation.
Au, Wi, Sp Qtrs. 4 cl. Prereq: 104. Not open to students with native pronunciation.

450 Introduction to the Study of Literature in Spanish U 5
Intensive study of selected prose, poetry, and drama from Spain and Spanish America.
Au, Wi, Sp Qtrs. 5 cl. Prereq: 401. Not open to students with credit for 421 or 422 or 423. Required for Spanish majors. This course is available for EM credit.

498 Hispanic Study Tour U 15
Ten weeks of study in a Spanish speaking country; language with culture, literature, or special topics; specific content and location vary with instructor; conducted in Spanish.
Su, Au, Wi, Sp Qtrs. 15 cl. Prereq: 104 with a grade of B or above, and permission of instructor. Not open to students with credit for 296 or any 500-level language course. Participants may take no more than two courses from among 401, 402, 403, or 404 either prior to or following the tour. May be counted toward a major or minor in Spanish. Contact dept for details.

551 Masterpieces of Spanish Golden Age Literature U 5
Introductory study of major literary works from sixteenth and seventeenth centuries in Spain.
Au Qtr. 5 or 6 cl. Prereq: 450. Not open to students with credit for 422.

552 Masterpieces of Modern Spanish Literature U 5
Introductory study of major literary works from nineteenth and twentieth centuries in Spain.
Wi Qtr. 5 or 6 cl. Prereq: 450. Not open to students with credit for 422.
553 Masterpieces of Modern Spanish American Literature U G 5
Introductory critical study of major literary works from nineteenth and twentieth centuries in Spanish America. 
Sp Qtr. 4 or 5 cl. Prereq: 450. Not open to students with credit for 420.

560 Introduction to Spanish American Culture U G 5
Major elements in the culture of the peoples of Spanish America. 
Wi Qtr. 5 cl. Prereq: 402 or 403. Taught in Spanish. Intended for majors in foreign language educ and Romance languages. 
Not open to students with credit for 460.

561 Introduction to the Culture of Spain U G 5
Major developments in the culture of Spain. 
Sp Qtr. 5 cl. Prereq: 402 or 403. Taught in Spanish. Intended for majors in foreign language educ and Romance languages. 
Not open to students with credit for 641.

571 Basic Spanish for Graduate Students G 5
Designed primarily for students who have no formal preparation in Spanish covering basic grammar and vocabulary. 
Au Qtr. 5 cl. Prereq: Grad standing. Credit does not apply to the minimum number of hrs required for the master’s or doctoral degree. No audit.

572 Spanish for Research I G 3
Wi Qtr, 3 cl. Prereq: Grade of C or above in 571, or equiv preparation demonstrated by a placement test. Credit does not apply to the minimum number of hrs required for the master’s or doctoral degree. No audit. Repeatable to a maximum of 9 hrs. Satisfactory completion of this course (grade of A or B) may be accepted by the student’s dept as evidence of a dictionary reading knowledge in fulfillment of PhD language requirement.

573 Spanish for Research II G 3
Sp Qtr. 3 cl. Prereq: Grade of A or B in 572, or equiv preparation demonstrated by a placement test. Credit does not apply to the minimum number of hrs required for the master’s or doctoral degree. No audit. Repeatable to a maximum of 9 hrs. Satisfactory completion of this course (grade of A or B) may be accepted by the student’s dept as evidence of a thorough reading knowledge in fulfillment of PhD language requirement.

601 Modern Spanish Syntax U G 5
Study of modern Spanish grammar; modern tendencies in syntactic analysis. 
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: 402, 403, and 421.

602 Advanced Spanish Conversation U G 3
Practice in speaking Spanish; building of specialized vocabulary; reinforcement of complex syntactic structures; emphasis on pronunciation. 
Su (2nd term), Wi, Sp Qtrs. 4 cl. Prereq: 402. Conducted in Spanish.

603 Advanced Spanish Composition and Translation U G 3
Translation from Spanish to English and from English to Spanish; analysis of different prose styles; practice in writing fluent Spanish compositions. 
Su (2nd term), Au, Sp Qtrs. 3 cl. Prereq: 501.

604 Spanish Phonetics U G 5
Analysis of the phonological structure of Spanish and a comparison with English; practical problems of teaching pronunciation. 
Au, Sp Qtrs. 4 cl, 1 hr lab. Prereq: 404 or permission of instructor.

610* Contrastive Structures of Spanish and English U G 5
Phonetics, phonemics, morphology, and syntax of Spanish contrasted with English. 
Au Qtr. 5 cl. Prereq: 421, 402, 403, 404, and 450.

631 Spanish Literature U G 2-5
Su Qtr. 5 cl. Prereq: 450. Repeatable to a maximum of 15 cr hrs.

650 Senior Seminar in Spanish or Spanish American Literature U G 5
Intensive study of a major author, literary work, or theme; topic varies, for example: Cervantes, Spanish literature of the Civil War, novels of the Mexican Revolution. 
Au, Wi, Sp Qtrs. 4 or 5 cl. Prereq: Two of the following: 551, 552, 553. Repeatable to a maximum of 15 cr hrs. Required for Spanish majors.

660 Senior Seminar in Hispanic Culture U G 5
Intensive study of a major theme or problem in Hispanic culture; topic varies, for example: Post-Franco Spanish, Spain, American Revolutionary thought. 
Sp Qtr. 4 or 5 cl. Prereq: 550 or 551. Repeatable to a maximum of 15 cr hrs.

693 Individual Studies U G 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs. This course is graded S/U.

694 Group Studies U G 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs.

697 Study Abroad at the International Program in Toledo, Spain U G Arr
One to three qtrs of study at Jose Ortega y Gasset Foundation in Toledo, Spain: courses in language, literature, and culture taught by Spanish faculty. 
Arr. Prereq: Approval of dept chairman. Placement test may be required in Toledo. Toledo courses may not repeat OSU courses taken previously or to be taken on student’s return. Repeatable to a maximum of 45 cr hrs. Travel and subsistence costs to be borne by student. Prospective applicants should inquire at Dept of Romance Langs and Lits. 
This course is graded P.

704 Spanish Phonology U G 5
Application of modern theoretical approaches to the study of the sound system of Spanish. 
Sp Qtr. 4 or 5 cl. Prereq: 604 or permission of instructor.

751 Medieval Spanish Literature U G 5
History of Spanish literature from 1100 to 1500 with emphasis on representative authors and literary works. 
Wi Qtr. 4 or 5 cl. Prereq: 650 or grad standing. Not open to students with credit for 720 or 620.

752* Spanish Golden Age Literature U G 5
History of Spanish literature from 1500 to 1700 with emphasis on representative authors and literary works. 
Au Qtr. 4 or 5 cl. Prereq: 650 or grad standing.

753 Spanish Literature of the 18th and 19th Centuries U G 5
History of Spanish literature from 1700 to 1900 with emphasis on representative authors and literary works. 
Wi Qtr. 4 or 5 cl. Prereq: 650 or grad standing.

754 20th-Century Spanish Literature U G 5
History of Spanish literature from 1800 to the present with emphasis on representative authors and literary works. 
Wi Qtr. 4 or 5 cl. Prereq: 650 or grad standing.

755† Colonial and 19th-Century Spanish American Literature U G 5
History of Spanish American literature from the colonial period to 1900 with emphasis on representative authors and works. 
Sp Qtr. 4 or 5 cl. Prereq: 650 or grad standing.
756 20th-Century Spanish American Literature G 5
History of Spanish American literature from 1900 to the present.
Sp Qtr. 4 or 5 cl. Prereq: 650 or grad standing.

H783 Honors Course in Spanish U 3-5
This course offers undergraduates with special aptitudes a greater opportunity to do independent study than is possible in the ordinary course.
Su, Au, Wi, Sp Qtrs. Conference, library or phonetics laboratory arr. Prereq: 4th yr standing with a record of A in at least half of the Spanish courses and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

792 Interdepartmental Studies in the Humanities UG 3-5
Two or more departmenus present colloquia on subjects of mutual interest; topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Grad standing or permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

801 Teaching Spanish at the College Level G 5
Methods and techniques for teaching Spanish language at the college level.
Au Qtr. Two wks intensive workshop previous to the beginning of qtr followed by a 2 hr wkdly cl. Prereq: Teaching association in the Dept of Romance Languages and Literatures or permission of instructor. Not open to students with credit for Ed-Hums 861.03. For students enrolled in this course, the minimum number of cr hrs required for graduation is increased by 5 hrs. Cross-listed in Education: Humanities as 801.03.

811 History of the Spanish Language G 3
Basic concepts of historical linguistics; the major facets of change in the history of the Spanish language from Roman times to the present.
Wi Qtr. 3 cl. Prereq: MA candidacy or permission of instructor.

812 Old Spanish I G 3
The development of Old Spanish phonology and morphology with an introduction to the reading of Old Spanish texts.
Wi Qtr. 3 cl. Prereq: 811 or permission of instructor.

813 Old Spanish II G 3
A continuation of Old Spanish I, with attention to syntax, vocabulary, and dialectology.
Sp Qtr. 3 cl. Prereq: 812.

814 Structure of the Spanish Language G 5
Examination of the structure of Spanish; the contributions of statistics, computers and generative (transformational) grammar to the study of language.
Sp Qtr. 5 cl. Prereq: 610 or permission of instructor.

851 Studies in Medieval Spanish Literature G 5
Intensive exploration of a special topic or problem; topic varies, for example: medieval epic poetry, medieval lyric poetry.
2-4 hr cl. Prereq: 10 cr hrs in Spanish at the grad level. Repeatable to a maximum of 20 cr hrs.

852 Studies in Spanish Golden Age Literature G 5
Intensive exploration of a special topic or problem; topic varies, for example: Renaissance and Baroque poetry, Micarese novel, Golden Age drama.
2-4 hr cl. Prereq: 10 cr hrs in Spanish at the grad level. Repeatable to a maximum of 20 cr hrs.

853 Studies in Spanish Literature of the 18th and 19th Centuries G 5
Intensive exploration of a special topic or problem; topic varies, for example: literature and society in the 18th century, romantic poetry and drama, realist and naturalist novel.
2-4 hr cl. Prereq: 10 cr hrs in Spanish at the grad level. Repeatable to a maximum of 20 cr hrs.

854 Studies in 20th-Century Spanish Literature G 5
Intensive exploration of a special topic or problem; topic varies, for example: the generation of 1898, contemporary poetry, post-Civil War novel.
2-4 hr cl. Prereq: 10 cr hrs in Spanish at the grad level. Repeatable to a maximum of 20 cr hrs.

856 Studies in 20th-Century Spanish American Literature G 5
Intensive exploration of a special topic or problem; topic varies, for example: 18th century chronicles, romanticism, modernist poetry.
2-4 hr cl. Prereq: 10 cr hrs in Spanish at the grad level. Repeatable to a maximum of 20 cr hrs.

861 Seminar in Spanish Literature G 3-5
Research topic to be announced.
Su (1st term). Au Qtrs. Prereq: Permission of instructor. Not open to students with 20 cr hrs of 831. Repeatable to a maximum of 20 cr hrs.

862 Seminar in Spanish Literature G 2-5
Research topic to be announced.
Su (2nd term). Wi Qtrs. Prereq: Permission of instructor. Not open to students with 20 cr hrs of 832. Repeatable to a maximum of 20 cr hrs.

863 Seminar in Spanish Literature G 3-5
Research topic to be announced.
Sp Qtr. Prereq: Permission of instructor. Not open to students with 20 cr hrs of 833. Repeatable to a maximum of 20 cr hrs including cr hrs in 831, 832, and 833.

865 Introduction to Methods in the History and Criticism of Literature G 5
Selected readings in basic literary history, criticism, and theory, with practice in the use of standard bibliographical aids to scholarship.
Au Qtr. 5 cl.

Medieval and Renaissance Culture
See Medieval 886.
Medieval and Renaissance Literature
See Medieval 889.

893 Individual Studies G 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

894 Group Studies G 1-15
Investigation of minor problems in the various fields of Spanish literature and language.
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 30 cr hrs.

898 Interdepartmental Seminar G 3-5
Two or more departments present seminars on subjects of mutual interest: topics to be announced.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor(s). Repeatable to a maximum of 15 cr hrs with permission of dept.

899 Research in Spanish Language or Literature G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Speech and Hearing Science

324 Derby Hall, 154 North Oval Mall, 422-8207

See also courses in Communication.

035 American Speech for International Students U 5
Assignment to both English and the appropriate speech and hearing science course is made on the basis of examinations given at the beginning of each quarter to all new students whose native language is not English.
Au Qtr. 5 cl. 5 or hrs. will be added to graduation requirements.
Often taken in conjunction with English 106.

040 Personal Speech and Hearing Rehabilitation U 2
Personal speech and hearing rehabilitation for students with articulation, voice, stuttering, language, or hearing problems.
Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Credit shall not count toward graduation. For students with speech or hearing disorders. Repeatable. This course is graded S/U.

135 Voice and Diction U 3
Introductory study of the principles of a satisfactory speaking voice; designed for students concerned about the adequacy of their speech.
Au, Sp Qtrs. 3 cl. VPA Admis Cond course.

230 Introduction to Speech and Hearing Science U 3
Survey of the topics, methodologies, and applications of speech and hearing sciences in normal and aberrant communication: lectures and readings.
Au, Wi, Sp Qtrs. 3 cl.

235 Speech Functions and Responsibilities of the Teacher U 3
A study of speech and hearing deviations commonly found in the classroom and of the role of the teacher.
Au, Wi, Sp Qtrs. 3 cl.

245 Principles of Phonetics U 3
The available descriptions of the sounds of speech and a comparative study of the systems of representing the sounds.
Au Qtr. 3 cl. Prereq or concur: 230.

338 Anatomy and Physiology of the Speech and Voice Mechanism U 4
The speech and voice mechanism, anatomy and physiology of oral, pharyngeal, and respiratory structures involved in sound production for communication.
Au Qtr. 4 cl. Prereq or concur: College level biology, human anatomy, and physiology recommended.

342 Anatomy and Physiology of the Auditory and Vestibular Mechanism U 3
The anatomical properties and physiological processes of the system of hearing and balance in man.
Au Qtr. 3 cl. Prereq or concur: College level biology, human anatomy, and physiology.

430 Normal Development of Communication in Children U 4
Introduction to the development of communication in normal children.
Sp Qtr. 4 cl. Prereq: 230.

454 Speech Science U 3
Normal speech production and perception with emphasis on phonatory and articulatory processes and speech acoustics.
Wi Qtr. 3 cl. Prereq: 245, 338, and Physics 501; or equivs.

456 Hearing Science U 3
The stimulus processing capabilities of the normal auditory system.
Wi Qtr. 3 cl. Prereq: 342 and Physics 501, or equivs.

540 Introduction to Audiology U G 5
The nature, causes, identification, and rehabilitative treatment of persons with hearing disorders.
Sp Qtr. 5 cl. Prereq: 436.

560 Articulation U G 3
Etiology, evaluation, and management of articulation disorders.
Sp Qtr. 3 cl. Prereq: 245 or Linguist 201, and 338 or college-level anatomy.

565 Observation in Communication Disorders U G 2
Observation in appraisal and treatment of communication disorders.
Au, Wi, Sp Qtrs. 1 cl. 2-1 hr lab. Repeatable to a maximum of 6 or hrs in any combination of decimal subdivisions, including or hrs earned in 765.01 and 765.02.

565.01 Speech and Language Pathology
Observation of clinical management of children and adults with speech and language disorders.
Prereq: 565.

565.02 Audiology
Observation of clinical management of children and adults with hearing disorders.
Prereq: 540.

624 Neurology of the Speech and Hearing Mechanism U G 5
The neurological and physiological features involved with human communication.
Wi Qtr. 5 cl. Prereq: Sr standing in speech and hearing science or grad standing.

632 Audiological Habilitation I U G 3
A study of auditory training, speech reading, and the speech and language deficits of the hearing impaired.
Wi Qtr. 3 cl. Prereq: 430 or equiv, and 540.

635 Introductory Instrumentation for Speech and Hearing Science U G 3
Fundamental concepts of electronics with application to instrumentation for speech and hearing.
Au Qtr. 3 hr Prereq: 540.

636 Audiological Evaluation I U G 4
A study of the basic techniques in hearing assessment in clinical practice.
Au Qtr. 3 cl. 1-2 hr lab. Prereq: 540 and prereq or concur 635.

640 Disorders of Communication Associated with Craniofacial Anomalies U G 3
Evaluation and treatment of communication disorders related to craniofacial anomalies, emphasis on research pertaining to cleft palate.
Sp Qtr. 3 cl. Prereq: 624.

642 Audiological Evaluation II U G 3
Detailed treatment of theoretical and practical considerations for assessment of site of auditory lesion.
Wi Qtr. 3 cl. Prereq: 636.

645 Pediatric Audiology I U G 3
Etiology and assessment of hearing loss in children.
Wi Qtr. 3 cl. Prereq: 636.

646 Audiological Habilitation II U G 3
Academic, social, emotional, vocational and adjustment problems associated with hearing loss in children and adults.
Au Qtr. 3 cl. Prereq: 632.
647 Pediatric Audiology U G 3
Specialized assessment techniques appropriate for the difficult-to-test child.
Sp Qtr. 3 cl. Prereq: 645.

652 Stuttering: Theories and Therapies U G 3
Theories, principles, and procedures for the appraisal and treatment of persons with dysfluencies in speech.
Wi Qtr. 3 cl. Prereq: Sr standing in speech and hearing science or grad standing.

653 Prelanguage Development and Intervention U G 3
Behavioral prerequisites to expressive language development and techniques for assessing and training preverbal skills in clinical and environmental settings.
Wi Qtr. 3 cl. Prereq: 430.

655 Speech Pathology: Appraisal U G 3
Basic principles, procedures, and techniques in the evaluation and reporting of speech and language disorders.
Au Qtr. 3 cl. Prereq: Sr standing in speech and hearing science or grad standing.

659 Voice Disorders U G 3
Etiology, evaluation, and management of voice disorders.
Au Qtr. 3 cl. Prereq: Sr standing in speech and hearing science or grad standing.

665 Language Disorders: Early Expressive Development and Intervention U G 3
Semantic, syntactic, and pragmatic approaches to initial language development with emphasis on clinical intervention with children displaying language disorders at the onset of verbal communication.
Au Qtr. 3 cl. Prereq: 430.

666 Language Disorders: Later Development and Intervention U G 3
Approaches to development, assessment, and management of language disorders beyond initial syntax; auditory, cognitive and language processing of children with no significant developmental delay.
Wi Qtr. 3 cl. Prereq: 665.

692 Workshops U G 1-8
Intensive study of a clinical area newly expanded within the field; geared for practising clinicians to update information and increase skill levels.
Su Qtr. Arr. Prereq: Written permission of workshop director. Repeatable to a maximum of 12 cr hrs.

693 Individual Studies U G 1-5
Conference, library, and laboratory work.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

699 International Study Tour U G 6-15
Intensive five-week study on campus followed by six-week study abroad; topics to be announced.
Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs.

714 Non-Verbal Options in Communication Habilitation U G 4
Various non-verbal aids and systems available for use in clinical intervention for the communicatively impaired.
Sp Qtr. 4 cl.

716 English Language Based Sign Systems U G 2
Review of extant systems with concentrated practice with one to achieve fluency.
Su Qtr. 2 cl. Prereq: 714. Repeatable to a maximum of 4 cr hrs.

720 Community and Industrial Audiology U G 3
The effect of noise on hearing, physiological and psychological function, productivity and communication; federal and state regulations reviewed and effects on communities discussed.
Su Qtr. 3 cl. Prereq: 636.

725 Interviewing and Counseling the Severely and Permanently Handicapped U G 3
The structure, function, and importance of the clinical interviewing and counseling process for the speech and language pathologist or audiologist.
Wi Qtr. 3 cl. Prereq: 655 or 692 and 636.

735 Hearing Aids U G 4
Electrical and acoustic characteristics and analysis of hearing aids; hearing aid selection evaluation, procurement, fitting, and orientation.
Au Qtr. 3 cl, 1 hr lab. Prereq: 540.

736 Disorders of Communication Associated with Neuropathologies U G 3
The nature, diagnosis, and treatment of speech and language manifestations of neurological damage.

736.01 Aphasia and Dysarthria
Sp Qtr. 3 cl. Prereq: 624.

736.02 Aphasia Assessment
Wi Qtr. 3 cl. Prereq: 736.01.

736.03 Cerebral Palsy
Au Qtr. 3 cl. Prereq: 560, 624, 659, and 665.

7783 Honors Course U 3-15
A program of independent study for the student with special aptitudes; individual conferences and reports.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing with a grade of at least C in at least half of the sphy/lng courses and an average of in the remainder; permission of the instructor under whose supervision the work is to be completed and the Arts & Sciences Honors Committee. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

794 Group Studies U G 3
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs.

797 Interdepartmental Seminars U P G 3
See Interdepartmental Seminars.
Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.
A—Language Disorders in Children.
B—Auditory Aspects of Mental Retardation.
C—Language Therapy in Mental Retardation.

832* Experimental Phonetics G 5
A study of experimental investigations of acoustic, physiological, and psychological aspects of speech and related laboratory experiments.
Sp Qtr. 3 cl, 2 hr labs.

844 Practicum in Communication Disorders G 1-5
Practicum with children and adults having speech, language, or hearing problems.
Su, Au, Wi, Sp Qtrs. 1 cl, 3 clinical hrs per wk per cr hr. Repeatable to a maximum of 20 cr hrs in any combination of decimal subdivisions.

844.01 Audiological Evaluation Prereq: 636 or permission of instructor.

844.02 Audiological Habilitation Prereq: 636.

844.03 Speech and Language Evaluation Prereq: 655 or permission of instructor.

844.04 Speech and Language Management Prereq: Permission of instructor.
845 Clinical Internship: Speech, Language, and Hearing G 12
Full-time experience in approved clinical setting to partially fulfill requirements for Plan B nonthesis option.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Completion of 45 grad or hrs and 40 hrs of clinical practicum. Prior approval of grad committee required. This course is graded S/U.

848 Interdisciplinary Functioning in Disorders of Oral Communication G 3
The diagnosis and treatment of profound speech and hearing disorders and the joint rehabilitation treatment accorded pathological ear and vocal mechanisms by ancillary disciplines.
Su Qtr. 4 cl. Prereq: at least 3 or hrs in 844, or equiv with written permission of instructor.

857* Physiological Acoustics G 3
Physiological processes associated with human hearing with information on the acoustic, mechanical, technical, and electrophysiological events involved in the processing and coding of auditory stimuli.
Sp Qtr. 3 cl.

858* Psychoacoustics G 5
Theoretical concepts and psychophysical data relative to hearing and related laboratory experiments. Wi Qtr. 3 cl. 2 2-hr labs.

940 Advanced Studies in Speech and Hearing Science G 3
Prereq: Permission of instructor. Repeatable to a maximum of 45 or hrs.

950 Seminar in Speech and Hearing Science G 3
Prereq: Permission of instructor. Repeatable to a maximum of 45 or hrs.

998 Research in Speech and Hearing Science: Thesis G Arr
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 5 or hrs. This course is graded S/U.

999 Research in Speech and Hearing Science: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Statistics

113 Cockins Hall, 1958 Nett Avenue, 422-2666

125 Elementary Mathematical Statistics U 5
Elementary principles of probability and introduction to the use of the binomial and normal distributions.
Su, Au, Wi, Sp Qtrs. 5 cl. Prereq: Placement in math course code R. Not open to students with credit for Econ 442, Est 788, Genetics 660, Poli Sci 685, Psych 220, 510, or Soc Work 570 or 571.

133 Statistics for the Business Sciences U 4
Introduction to the basic concepts of probability and statistics; sample statistics, discrete and continuous probability distributions; confidence intervals; and estimation. Su, Au, Wi, Sp Qtrs. 4 cl. Prereq: Math 102. Not open to students with credit for 123 or Math 123, or 120.05 or 120.06.

223 Elementary Decision Theory U 5
Descriptive statistics, probability, utility, Bayes strategies, minimax strategies, and statistical inference.
Sp Qtr. 5 cl. Prereq: Math 116, or 131, or 150.

421 Introduction to Statistics U 5
Combinatorial probability, fundamental concepts of probability distributions, sample statistics, estimation and testing hypotheses, roots of statistical theory.
Au, Sp Qtrs. Prereq: Math 254 or written permission of chairman.

425 Probability and Statistics U 5
Elements of discrete and continuous probability; introduction to estimation and testing of hypotheses.
Su, Au, Wi, Sp Qtrs. Prereq: Math 254 or permission of chairman.

426 Probability and Statistics U 5
Continuation of 425.

485 Senior Seminar in Statistics U 3
Student presentation of selected topics under the guidance of a faculty member.
Su, Au, Wi, Sp Qtrs. Prereq: Sr undergrad majors in stat or in mathematical sciences, or written permission of instructor.

490 Group Studies U 3-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

510 Statistical Theory in Medical Research I U 3
Fundamental concepts of probability, random variables, statistical inference, regression and correlation analysis; topics selected from bioassay, life table techniques, computers in medicine.
Au Qtr. 3 cl. Prereq: Sr undergrad majors in stat or in statistical sciences, or written permission of instructor.

518 Statistical Theory in Medical Research II U 3
Continuation of 518.
Wi Qtr. 3 cl. Prereq: 518.

520 Mathematical Statistics I U 5
Probability, random variables, discrete and continuous distributions; binomial, Poisson, normal, gamma (chi-square), t, F distributions; change of variable and moment-generating function techniques; order statistics; limit theorems.
Su, Au, Wi Qtrs. 5 cl. Prereq: Math 254 or written permission of chairman. Not open to students with credit for 621.

521 Mathematical Statistics II U 5
Confidence intervals; minimum variance unbiased estimation; maximum likelihood estimation; Neyman-Pearson theorem; uniformly most powerful tests, likelihood ratio tests, chi-square and F tests, nonparametric tests.
Su, Wi, Sp Qtrs. 5 cl. Prereq: 520. Not open to students with credit for 621.

525 Statistical Methods U 5
Basic concepts of probability and statistical inference; application to models involving binomial, Poisson, and normal distributions, and linear regression.
Au, Sp Qtrs. 5 cl. Prereq: Math 254 or equiv and permission of instructor; or Math 254 or equiv and grad standing.

528 Data Analysis I U 3
Non-calculus treatment of descriptive statistics, statistical inference, goodness of fit, use of t, X2 in one sample situation.
Su, Au, Wi Qtrs. 2 cl. lab hrs arr. Prereq: Permission of instructor or grad standing. Not open to students with more than 5 or hrs in stat.

529 Data Analysis II U 3
Two sample tests, non-parametric and two sample procedures, regression analysis, one and two way analysis of variance.
Su, Wi, Sp Qtrs. 2 cl. lab hrs arr. Prereq: 528.
593 Individual Studies U G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs.

600 Statistics Laboratory U G 1-5
Experience is given the student in working with real data through association with current projects in the Statistics Laboratory.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

620 Statistical Theory I U G 4
The first of a three-course sequence covering the theory of statistical inference, probability, random variables, estimation, tests of hypotheses.
Au Qtr. 4 cl. Prereq: Math 548 or 550. Not open to students with credit for 520.

621 Statistical Theory II U G 4
Continuation of 620.
Wi Qtr. 4 cl. Prereq: 620 or written permission of instructor. Not open to students with credit for 521.

622 Statistical Theory III U G 4
Continuation of 621.
Sp Qtr. 4 cl. Prereq: 621. Not open to students with credit for 521.

623 Mathematical Statistics Supplement U G 3
Distributions of sample statistics, order statistics, limit theorems, sufficient and efficient estimates, likelihood ratio tests.
Wi Qtr. 3 cl. Prereq: 425 and 521; or permission of instructor.

632 Applied Stochastic Processes I U G 3
Normal processes and covariance stationary processes, counting processes and Poisson processes, renewal processes.
Wi Qtr. 3 cl. Prereq: 520 or 525 or 620.

633 Applied Stochastic Process II U G 3
Branching process, queueing theory, stationary processes and renewal theory.
Sp Qtr. 3 cl. Prereq: 632.

635 Statistical Analysis of Time Series U G 3
Time series models; estimation of the spectral density function; transformations of time series; prediction theory applications.
Au Qtr. Prereq: 521 or 525 or 623 or permission of instructor.

641 Linear Models U G 3
The general linear model for regression and experimental designs; properties of least square estimates; distribution of quadratic forms and the analysis of variance table.
Wi Qtr. 3 cl. Prereq: 425 or 521, and an elementary knowledge of matrix theory and notation.

645 Applied Regression and Design U G 5
645.01 Applied Regression and Design
Su Qtr. 5 cl. Prereq: Background in stat equiv to 10 or hrs grad standing, or permission of instructor. Not open to students with credit for 645 or 645.02.
645.02 Applied Regression and Design
Au, Sp Qtrs. 5 cl. Prereq: 425 or 521 or 525. Not open to students with credit for 645 or 645.01.

651 Survey Sampling Methods U G 3
Sampling from finite populations, domains of study, stratification, ratio and regression estimates, systematic sampling, one- and two-stage cluster sampling.
Wi Qtr. 3 cl. Prereq: 425 or 521 or permission of instructor.

655 Multivariate Data Analysis U G 5
Graphical analysis of multivariate procedures, clustering and classification procedures, multivariate normal procedures, correlation and regression in multivariate analysis, modern data analytic techniques for multivariate data, applications.
Su Qtr. 5 cl. Prereq: 519, 529, or equiv.

656 Applied Multivariate Analysis U G 5
Multivariate statistical procedures specially related to the normal distribution multivariate analysis of variance, classification; principal components and elements of factor analysis, applications, nonparametric multivariate procedures.
Wi Qtr. 5 cl. Prereq: 645.01 or 645.02 or equiv.

661 Applied Nonparametric Statistics U G 5
Noncalculus treatment of nonparametric tests, confidence intervals, estimation; topics include one- and two-sample problems, one- and two-way analyses of variance, multiple comparisons, correlation.
Su, Sp Qtrs. 5 cl. Prereq: 426 or 521 or 529 or equiv.

663* Statistical Methods in Reliability U G 5
Statistical failure models, estimation techniques for censored samples from reliability distributions, testing reliability hypotheses, Bayesian estimation, accelerated life testing.
Sp Qtr. 3 1/2 hr cl. Prereq: 425 or equiv.

665 Discrete Data Analysis U G 4
Introduces qualitative or categorical data analysis, contingency tables, cross-sectional, prospective, retrospective and controlled comparative trials; sample size determination, combing evidence, and misclassification errors.
Sp Qtr. 4 cl. Prereq: 528 and 529, or permission of instructor.

671* Simulation and Monte Carlo Techniques U G 5
The use of digital computer program in simulating the operating characteristics of a complex system and in approximating solutions by random sampling, programming applications.
Wi Qtr. 5 cl. Prereq: 425 or 520 or 525 or 529 or equiv and some knowledge of computer programming, or permission of instructor. Not open to students with credit for 672 or 673.

672* Simulation Techniques U G 3
This course covers the simulation topics of Stat 671.
Sp Qtr. 3 cl. Prereq: 425 or 520 or 525 or 529 or equiv and some knowledge of computer programming, or permission of instructor. Not open to students with credit for 671.

673 Monte Carlo Techniques U G 3
This course covers the Monte Carlo topics of Stat 671.
Sp Qtr. 3 cl. Prereq: 425 or 520 or 525 or 529 or equiv and some knowledge of computer programming, or permission of instructor. Not open to students with credit for 671.

693 Individual Studies U G 1-5
Individual conferences, assigned readings, and reports on minor investigations.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

694 Group Studies U G 2-5
Designed to give groups of students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs.

720* Distribution Theory U G 3
Important distributions, independent statistics, characterization of distribution by independence, constant regression and other properties, contiguous, infinitely divisible and stable distributions.
Au Qtr. 3 cl. Prereq: 521.

725* Sequential Statistical Methods U G 3
Wald’s SPRT, its characteristics and generalizations; sequential estimates, intervals, designs, and multiple-decisions; nonparametric Bayes, and optimal sequential procedures.
Au Qtr. 3 cl. Prereq: 521 or 623.

742 Analysis of Variance U G 3
Theory of the general linear model, least square estimates and properties, especially in non-full rank models; analysis of variance techniques, factorial designs.
Au Qtr. 3 cl. Prereq: 521 or 623, and Math 471 or 601.
7451* Multiple Comparisons Procedures  U G 3
Tests of homogeneity versus multiple comparisons, all pairwise multiple comparisons, multiple comparisons with a control, multiple comparisons with the best treatment. 
Sp Qtr. 3 cl. Prereq: 742 or permission of instructor.

746* Design and Analysis of Experiments  U G 3
A continuation of 742: various experimental designs; analysis of covariance, mixed and random models. 
Sp Qtr. 3 cl. Prereq: 742.

755 Multivariate Analysis I  U G 3
Multivariate normal distribution, Wishart distribution, Hotelling's T^2, multivariate analysis of variance, multiple correlation, roots of determinant equations, discriminant functions, and applications. 
Wi Qtr. 3 cl. Prereq: 521 or 623, and Math 471 or 661.

756* Multivariate Analysis II  U G 3
Continuation of 755. 
Sp Qtr. 3 cl. Prereq: 755.

761 Nonparametric Statistics I  U G 3
Exact distributions and moments of order statistics, probability integral transformation, coverages, tolerance intervals, empirical distribution function, ranking methods, asymptotic relative efficiency, distribution-free tests. 
Au Qtr. 3 cl. Prereq: 521 or 623.

763 Nonparametric Statistics II  U G 3
Distribution-free tests for a two-sample problem, ANOVA and multiple comparisons, rank correlation, slopes in linear regression, broad distributions, distribution-free confidence intervals, nonparametric point estimation. 
Wi Qtr. 3 cl. Prereq: 761.

764* Order Statistics  U G 4
Distribution theory in continuous and discrete cases, moments, order statistics in statistical inference, asymptotic theory. 
Sp Qtr. 4 cl. Prereq: 622 or permission of instructor.

7771* Optimizing Methods in Statistics  U G 3
Survey of classical optimizing techniques with applications in statistics, mathematical programming and constrained estimation, variational methods and dynamic programming applied to statistical problems, miscellaneous applications. 
Au Qtr. 3 cl. Prereq: Permission of instructor.

821 Statistical Inference I  G 3
Classical and modern statistical inference from advanced point of view, estimation, principles of maximum likelihood, Asymptotic theory; completeness, sufficiency and invariance. 
Wi Qtr. 3 cl. Prereq: 623 and Math 722.

822 Statistical Inference II  G 3
Sp Qtr. 3 cl. Prereq: 821.

824 Statistical Decision Theory I  G 3
Introduction to the theory of games, statistical games, admissibility and completeness, complete class theorem, principles of sufficiency and invariance, sequential games. 
Au Qtr. 3 cl. Prereq: Permission of instructor.

825* Statistical Decision Theory II  G 3
Continuation of 824. 
Wi Qtr. 3 cl. Prereq: 824.

8281* Ranking, Selection, and Multiple-Decision  G 3
Ranking and selection: indifference-zone and subset; multivariate, nonparametric, multivariate nonparametric, multiple-comparisons, and ordered parameters problems; optimality, robustness, efficiency, and applications. 
Sp Qtr. 3 cl. Prereq: Permission of instructor.

832 Applied Probability Models  G 3
Birth and death processes, Queuing Theory, Branching processes and other applied probability models. 
Wi Qtr. 3 cl. Prereq: Math 722.

834* Statistical Inference for Stochastic Models  G 3
Theory of statistical inference for Markov Chains and other applied probability models. 
Sp Qtr. 3 cl. Prereq: 832.

8471* Advanced Design of Experiments  G 3
Partially balanced designs, factorial experiments, confounding and fractional replications, response surface designs. 
Sp Qtr. Prereq: 746.

881 Advanced Topics in Mathematical Statistics I  G 3
Topics to be taken from the following: multivariate analysis, stochastic processes, analysis of variance, components of variance models, advanced test design. 
Su Qtr. 3 cl. Prereq: Permission of instructor.

882 Advanced Topics in Mathematical Statistics II  G 3
Continuation of 881. 
Su Qtr. 3 cl. Prereq: 881.

8881* Large Sample Theory  G 3
Mann-Whitney theory of stochastic order relationships: asymptotic distribution of maximum likelihood estimates and likelihood ratio statistic, large deviation theory, asymptotic theory of well-known statistics. 
Sp Qtr. 3 cl. Prereq: 882.

895 Statistics Seminar  G 1
Topics range over the current research interests of statisticians from around the world; some lectures are of an expository nature. 
Au, Wi, Sp Qtrs. 1 cl. Prereq: Permission of dept. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

999 Research  G Arr
Research for thesis or dissertation purposes only. 
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Surgery
N-747 University Hospital, 410 West 10th Avenue, 421-8701

601 Experimental Surgery  U P 2
Designed to teach and develop basic surgical principles applicable to all physicians; experience with anatomical relationships gained through surgical approaches. 
Au, Wi, Sp Qtrs. 2 3 or 4 hr cl per week for 4 wks. Prereq: Permission of instructor and completion of required surgical rotation.

790 Research Studies in Surgery
1, 2, 3, or 4 months (prof or). Su, Au, Wi, Sp Qtrs (grad or). Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs for grad credit. This course is graded S/U.

790.08 Plastic Surgery  P 6, 12, 18 G 3-5
1, 2, 3, or 4 months; offered all months. Repeatable to a maximum of 24 or hrs for professional credit.

791 Clinical Studies in Surgery
Prereq: Permission of Instructor.

791.07 General Surgery  P 12 or 24
Offered all months. Repeatable to a maximum of 24 or hrs.

791.09 Thoracic Surgery  P 6
1 month, offered all months.
Surveying

440 Cookins Hall, 1958 Ned Avenue, 422-6753

203 Introduction to Surveying U 4
Basic surveying concepts; surveying instrumentation; the art of field data acquisition; planning and execution of field surveys; applications to professional surveying practice, engineering, and other disciplines.
Au Qtr. 3 cl, 1 3-hr lab. Prereq or concour: Math 151. Not open to students with credit for 201 or 202. Intended for surveying majors.

301 Surveying Measurements and Computations U 4
Surveying measurement theory; comprehensive understanding of surveying instrumentation; analysis of errors in measurements; design of measurement systems; plane surveying computational methods; surveying cartographies.
Wi Qtr. 3 cl, 1 3-hr lab. Prereq: 203; prereq or concour: Math 152, En Graph 110 and 200.

403 History of Surveying and Mapping U 3
History of earth measurement and mapping including instrumentation, field methods; historical connections with other related sciences; history of the land survey systems in the U.S.
Au Qtr. 3 cl. Not open to students with credit for 300.

407 Construction Surveying U 5
Route surveying and geometric design; topographic site surveys and mapping; civil engineering and construction surveys; earthwork computations; layout of industrial plants, buildings, cables, pipelines, manufacturing machinery.
Sp Qtr. 3 cl, 2 3-hr labs. Prereq: 301 or Civil En 202 or Geod Sci 202.

450 Surveying Data Adjustment and Analysis U 5
Review of statistical concepts; propagation of variances and covariances; least squares adjustment of problems in surveying; analyses of results from least squares adjustments.
Sp Qtr. 4 cl, 1 3-hr lab. Prereq: 201 and Math 153.

506 Introduction to Photogrammetry U G 4
Basic concepts of photogrammetry; overview of current practices; theory and procedures pertaining to single photo and two photo mapping applications; map compilation using analog stereo-plotters.
Au, Wi Qtr. 3 cl, 1 3-hr lab. Prereq: 301 or Civil En 202 or Geod Sci 202; and prereq or concour: Math 153 and Physics 133 or permission of instructor. Not open to students with credit for 414 or Geod Sci 506.

507 Land Subdivision Analysis U G 3
Process of subdividing and platting land: analysis of soils, topography, terrain, earthwork, geometry, and other variables for land subdivision; plat preparation; layout of development plans.
Sp Qtr. 3 cl. Prereq: 407 and Civil En 510 or equiv.

509 Surveying Astronomy U G 3
Celestial sphere and its coordinate systems; sidereal, universal, and atomic time; time conversions; ephemerides; instrumentation for astronomical observations in surveying; determination of azimuth, latitude, longitude.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: 511.

511 Geodetic Control Surveying I U G 4
Coordinate systems; electromagnetic distance measurement for short range; observations and computations for third-order horizontal and vertical geodetic control, state plane coordinates, transformation of coordinates.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 407 or equiv; and prereq or concour: 450 or Geod Sci 650 or permission of instructor. Not open to students with credit for 506.

512 Geodetic Control Surveying II U G 3
Horizontal and vertical geodetic control networks; electromagnetic distance measurement for medium range; gravity observations and precise leveling; satellite doppler positioning; inertial surveying; special applications.
Wi Qtrs. 3 cl. Prereq: 511 or equiv or permission of instructor.

513 Mining Surveying U G 4
Surveys for exterior, underground, and surface mining including orientation by gyro and other instruments, leveling underground and distance measurements; rock deformation monitoring; tunnel surveying.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: 301 or Civil En 202 or Geod Sci 202.

515 Photogrammetric Mapping and Surveying U G 4
Basic analytical procedures; principles, applications of aerial triangulation; mapping with analog, computer assisted and controlled equipment; image based maps; mapping with space systems; terrestrial photogrammetry.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 450, 506, 511, or permission of instructor. Not open to students with credit for 514.

524 Boundary Location Surveys U G 5
Land surveyor’s role; analysis of evidence and procedures for boundary locations; retracement principles for sequence, simultaneous and public lands surveys; laws on surveying practices; ethics; professionalism.
Wi Qtr. 4 cl, 1 3-hr lab. Prereq: 301 and 453; prereq or concour: Bus-Fin 775. Not open to students with credit for 601 and 602.

525 Cadastral Information Systems U G 3
Land survey and recording systems; concepts for the cadastral; land tenure and registration; multi-purpose land information systems; comprehensive surveying and mapping systems; preserving survey evidence.
Sp Qtr. 3 cl. Prereq: 524 or permission of instructor. Not open to students with credit for 601.

582 Cartography for Surveyors U G 4
Elements of topographic mapping and basic concepts of coordinate transformations with emphasis on general map projections.
Wi Qtr. 3 cl, 1 3-hr lab. Prereq: Geog 580 or equiv and En Graph 200. Not open to geodetic science grad students.

606 Surveying Projects U G 5
Planning, execution, and analysis of surveying projects, integrating background in geodetic, engineering, photogrammetric, cartographic and land surveying; oral, written, and graphical presentation of complete projects.
Su Qtr. 5 4-hr labs. Prereq: 407, 509, 515, and 524.

608 Hydrographic Surveying U G 3
Planning hydrographic surveying operations; position fixing by optical, radio, satellite, other methods; sonar, acoustic, and other underwater sounding methods; hydrographic operations; data processing and presentation.
Wi Qtr. 3 cl. Prereq: 511

612 Fundamentals of Geodesy U G 3
Geometry of the ellipsoid; geodetic coordinates computations for short and medium lines; geodetic datums; earth’s gravity field; artificial geodetic earth satellites; figure of the earth.
Au Qtr. 3 cl. Prereq: 512 or equiv or permission of instructor. Not open to students with credit for Geod Sci 613 or 658 or 776 or 777.
Swahili

486 University Hall, 230 North Oval Mall, 422-3700

101 Elementary Swahili I U 5
Development of basic listening, reading, speaking, and writing skills.
5 cr. Not open to students with credit for Black St 201. FL Admis Cond course.

102 Elementary Swahili II U 5
Continuation of 101.
Au, Wi, Sp Qtrs. 5 cr. Prereq: 101 or equiv. Not open to students with credit for Black St 202. FL Admis Cond course.

103 Intermediate Swahili I U 5
Further development of listening, reading, speaking, and writing skills; readings based on Swahili culture and literature.
Au, Wi, Sp Qtrs. 5 cr. Prereq: 102 or equiv. Not open to students with credit for Black St 203.

104 Intermediate Swahili II U 5
Balanced use of basic language skills; emphasis on speaking and aural comprehension, further exposure to Swahili culture through reading of current newspapers, short stories, plays, and novels.
Au, Wi, Sp Qtrs. 5 cr. Prereq: 103 or equiv. Not open to students with credit for Black St 204.

401† Advanced Swahili Grammar U 5
Review of fundamental principles of grammar and syntax; exercises in Swahili.
Sp Qtr. 5 cr. Prereq: 104 or permission of instructor.

402† Advanced Swahili Grammar and Composition U 3
Introduction to advanced Swahili composition and grammar.
Wi Qtr. 5 cr. Prereq: 401 or permission of instructor.

Textiles and Clothing

262 Campbell Hall, 1787 Nell Avenue, 422-6663

074 Clothing: Technique Studio U 1
Basic construction techniques needed by students for whom 374 is required.
Au, Wi, Sp Qtrs. 1 2-hr lab. Prereq: Clothing Placement Test taken and results received prior to quarter of enrollment. Credit does not apply for graduation.

270 Clothing Selection and Costume Design U 3
An application of design elements and principles to clothing appropriate for personal coloring, figure, personality, and professional orientation.
Au, Wi, Sp Qtrs. 3 cr. 2 2-hr labs, Prereq: Art 190, 290 or Hist Art 111 (or equiv with written permission of instructor). This course is available for EM credit, VPA Admins Cond course.

272 Clothing and Humanity U 3
Emphasis is placed on the significance and use of textiles and clothing to individuals and families in contemporary society.
Au, Sp Qtrs. 3 cr. Prereq: 5 cr hrs of sociol or psych. SS Admis Cond course.

800 Introductory Field Experience U 3 or 5
Ten weeks' practical experience or equivalent in approved retail establishment or other enterprise related to student's major interest.
Su, Au, Wi, Sp Qtrs. Prereq: Minimum of 9 cr hrs in textile and clothing, 2.25 cumulative point-hour ratio and written permission of instructor. This course is graded S/U.

294 Group Studies U 2, 3 or 5
Selected topics in textiles and clothing.
Prereq: Open to students who need dept's stated prereq. Repeatable to a maximum of 10 or hrs.

370 Fashion Design and Illustration U 3
Creative approach to the study of clothing through fashion illustration and costume design. Student will be prepared to communicate fashion ideas in various ways.
Wi, Sp Qtrs. 1 cr. 4 hrs lab. Prereq: 270 or equiv with written permission of instructor: 3rd yr standing.

371 Textiles I U 5
Fiber properties, yarn and fabric construction color, and finishes as they relate to performance, care and consumer satisfaction.
Au, Wi, Sp Qtrs. 4 cr. 1 2-hr lab. Prereq: 2nd yr standing.

374 Clothing I
Prereq: 270 and skill in basic construction; 371 recommended but not required. Students must achieve the minimum score or above on the Clothing Placement Test or complete Technique Studio (674) before enrolling in 374.

374.01 Principles of Fit and Construction U 4
Adaptation of standard patterns and construction of garments for individual proportions. Analysis of fit and construction of ready-to-wear.
Au, Wi Qtrs. 2 cr. 4 hrs lab.

374.02 Flat Pattern Design U 2
Theory and application of flat pattern design principles.
Sp Qtr. 1 cr. 2 hrs lab. 374.01 recommended but not required.

570 Fashion and the Apparel Industry U 5
Fashion, the ready-to-wear market, and current issues and developments in the textile and apparel industries.
Au, Sp Qtrs. 5 cr. Prereq: 3rd yr standing.

574 Clothing: Tailoring U 5
Evaluation and application of design and fashion principles in relation to tailored garments; quality-price relationship; optimum utilization of materials and resources.
Au, Wi Qtrs. 2 cr. 6 hrs lab. Prereq: 374.

576 Textile and Apparel Industries U 3
Forces affecting the textile and apparel industries and their impact on the economy and consumers.
Su, Wi Qtrs. 2 1/2-hr cr. Prereq: 371 and Econ 400 or permission of instructor.

589 Field Work U 15
Cooperative work field experience at the junior executive level; investigation and analysis of assigned problems.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing in fashion merchandising option, 2.25 cumulative point-hour ratio, 16 or hrs in major requirements and 7 or hrs in supporting area; written permission of instructor. No other courses should be taken during yr of field work without written permission of field work supervisor. This course is graded S/U.

593 Individual Studies U 2-5
Problems in various phases of textiles and clothing related to individual's program.
Su, Au, Wi, Sp Qtrs. 1 or more cr. H593 (honors) may be available to students enrolled in school honors program or eligible for enrollment, Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

670 Textiles II U Q 5
Study of physical and chemical properties of fibers, yarn and fabric construction, color and functional finishes; procedures used in textile evaluation.
Au, Sp Qtrs. 4 cr. 1 2-hr lab. Prereq: 371, 10 or hrs of chemistry, and 3rd yr standing.
671 Textile Analysis and Evaluation U G 3
Experience in planning and conducting textile tests and in evaluating resulting data; development, present status, and importance of textile testing.
Wi Qtr. 1 cl, 2 2-hr labs and 1 hr arr. Prereq: 571 or 670, and 4th yr standing.

672 History of Costume and Textiles U G 5
A chronological study of costume and textiles from ancient civilizations to modern times, with consideration of cultural forces that affected the development.
Au, Wi Qtrs. 5 cl. Prereq: 371 and 3rd yr standing.

674 Clothing: Design by Draping U G 5
Techniques of draping applied to basic design cuts and terminating with creative design executed in fashion fabrics.
Su, Wi Qtrs. 2 cl, 3 2-hr lab. Prereq: 374.01 and 374.02: or 374 or equiv with written permission of instructor.

675 Fashion Analysis U G 3
An examination of fashion theories and the evolution of fashion in the 20th century applied to the merchandising of fashion.
Sp Qtr. 3 cl. Prereq: 570 and 672.

678 Preservation and Restoration of Historic Textiles and Apparel U G 3
Study of techniques and procedures to preserve and restore textiles and apparel of historic value.
Su Qtr. 1 2-hr cl, 2 2-hr labs and arr hrs. Prereq: 10 or hrs in 600-level and above textiles and clothing courses or equiv.

690 Workshop
Intensive study of a topic of common concern to the participants for 1 to 3 weeks. May be an off-campus study tour or an on-campus full-time group meeting.
Sp Qtr. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs. Travel and subsistence costs for off-campus workshops will be borne by the student. These courses are graded S/U.

690.01 New York U 2
Concentrated on-site study of the fashion industry and apparel market with tours of laboratories, designer's workrooms, buying offices, and other related apparel/textile organizations.
Sp Qtr. Prereq: 19 or hrs of txtl & cl courses. The workshop will occur during the week preceding the qtr the course is offered. Open only to txtl & cl majors.

690.03 Textiles U G 1-4

694 Group Studies U G 1-5
Selected topics in textiles and clothing.
Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 or hrs.

772 Costume and Culture U G 3
National and regional dress in relation to culture, available resources and technology.
Wi Qtr. 2 1-hr cl. Prereq: 10 hrs at the 600-level and above, or written permission of instructor.

777 Introduction to Textiles and Clothing Research U G 3
An introduction to the literature in textiles and clothing with emphasis on evaluation of research and identification of a research problem.
Au Qtr. 1 2-hr cl. Prereq or concurr: Communic 701.01 and H FIn Fri 744 enr with written permission of instructor. Not open to students with credit for 677.

793 Individual Studies U G 2-5
Problems in various phases of textiles and clothing related to individual's program.
Su, Au, Wi, Sp Qtrs. 1 or more cl. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

797 Interdepartmental Seminar U G 2-4
See Interdepartmental Seminars. Repeatable to a maximum of 6 or hrs.

870* Theories of Fashion U G 3
Theories underlying fashion change, and an analysis of fashion as a social and economic force.
Su, So Qtrs. 2 1/2-hr cl or 1 2 1/2-hr cl. Prereq: Rawlins methods or written permission of instructor; 12 or hrs at the 600-level and above.

873 Educational Trends in Textiles and Clothing U G 3
Issues, methods and concerns related to textiles and clothing programs in higher education, past, present, and future.
Au Qtr. 1 2-hr cl. Prereq: 10 or hrs in 600-level courses or equiv or with written permission of instructor.

875* Social Psychological Aspects of Clothing U G 3
A study of dress and adornment as they relate to human behavior.
Su, Sp Qtrs. 2 1-hr cl or 1 2 1/2-hr cl. Prereq: Research methods, 12 or hrs at the 600-level and above, or written permission of instructor.

876 Textiles and Clothing Industries: Economic Appraisal U G 3
Impact of the textiles and clothing industries on the consumer and the economy.
Wi Qtr. 1 2-hr cl. Prereq: 571 or 670; 5 or hrs in economics; or written permission of instructor.

878 History of Textiles U G 3
The development of textiles in prehistoric, ancient, medieval, and modern history, with special emphasis on Western European textiles.
Sp Qtr. 1 2-hr cl, hrs arr. Prereq: 672 or written permission of instructor. Not open to students with credit for 8720.

879 Current Topics in Textiles and Clothing U G 1-3
Analysis of current developments, issues, and trends in textiles and clothing; topics to be announced.
Su, Wi Qtrs. 1-3 cl. Prereq: 12 or hrs at the 600-level and above, including research methods; or written permission of instructor. Repeatable to a maximum of 9 or hrs.

879.01 Textiles
879.02 Clothing

894 Group Studies U G 2, 3 or 5
Selected topics in textiles and clothing.
Prereq: Open to students who meet dept's stated prereqs. Repeatable to a maximum of 10 or hrs.

993 Individual Studies U G 2-5
Problems in various phases of textiles and clothing related to individual's program.
Su, Au, Wi, Sp Qtrs. 1 or more cl. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. Course is graded S/U.

998 Research: Thesis U G Arr
Research for master's thesis.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

999 Research: Dissertation U G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Theatre

1089 Drake Union, 1849 Cannon Drive, 432-5821

100 Introduction to Theatre U 5
A study of the theatre with emphasis upon its cultural and social influences in our society.
Su, Au, Wi, Sp Qtr.s. H100 (honors) may be available to students enrolled in an honors program or by permission of dept. BERLAC/LAR course. VPA Admis Cond course.

200 Fundamentals of Theatre Practice U 3
Nature of modern theatre art and principles of play production; survey of contemporary theatre and career opportunities.
Au, Wi, Sp Qtr.s. 3 cl. VPA Admis Cond course.

205 Technical Production Practicum U 1
Provides experience in technical production activities.
Au, Wi, Sp Qtr.s. Repeatable to a maximum of 6 or hrs including or hrs earned in decimal subdivisions. This course is graded S/U. VPA Admis Cond course.

210 Script Analysis U 3
Fundamental principles for intensive study of the playscript as the basis of production.
Sp Qtr. VPA Admis Cond course.

220 Technical Production Fundamentals I U 3
Basic aspects of scenery construction; tools, materials, rigging.
Au Qtr. VPA Admis Cond course.

221 Technical Production Fundamentals II U 3
Scenery construction; drafting, color theory, painting, props, lighting, basic electricity/electronics.
Wi Qtr. 4 lab hrs. VPA Admis Cond course.

222 Technical Production Fundamentals III U 3
Basic aspects of costume design and construction; machine skills; makeup fundamentals; and stage and house management.
Sp Qtr. 4 lab hrs. VPA Admis Cond course.

271 Great Ages of the Theatre U 5
Concepts and characteristics of the great periods of the theatre of the western world.
Au, Wi, Sp Qtr.s. H371 (honors) may be available to students enrolled in an honors program or by permission of dept. Prereq: English 110 or 111 or equiv. Fulfills in part the ASC advanced English composition requirement. BERLAC/LAR course. VPA Admis Cond course.

280 Acting Fundamentals I U 3
Basic acting techniques; imagination, concentration, human psychology as applied to creation of character and development of stage presence.
Au, Wi, Sp Qtr.s. 4 lab hrs. Prereq or concur: 200. VPA Admis Cond course.

281 Acting Fundamentals II U 3
Continuation of 280.
Au, Wi, Sp Qtr.s. 4 lab hrs. Prereq: 280 or equiv.

282 Acting Fundamentals III U 3
Continuation of 281.
Au, Wi, Sp Qtr.s. 4 lab hrs. Prereq: 281 or equiv.

283 Stage Movement I U 2
Fundamentals of movement training.
Au Qtr. Prereq: Written permission of instructor. Not open to students with credit for 284.01.

284 Stage Movement II U 2
Continuation of 283.
Wi Qtr. Prereq: 283. Not open to students with credit for 284.02.

285 Stage Movement III U 2
Continuation of 284.
Sp Qtr. Prereq: 284. Not open to students with credit for 284.03.

286 Stage Speech I U 2
Basic training in stage speech and voice production for acting and directing.
Au Qtr. Prereq: Written permission of instructor. Not open to students with credit for 286.01.

287 Stage Speech II U 2
Continuation of 286.
Wi Qtr. Prereq: 286. Not open to students with credit for 286.02.

288 Stage Speech III U 2
Continuation of 287.
Sp Qtr. Prereq: 287. Not open to students with credit for 286.03.

310 Stage Directing U 3
Techniques of play analysis, interpretation, composition, movement, rhythm and tempo; their integration in stage direction.
Au, Wi Qtr.s. 3 2-hr cl. Prereq: 280.

320 Stage Management U 3
Research, discussion, and application of the principles of organizing and managing stage productions; experience in actual performance.
Sp Qtr. 2 cl. 1 lab hr arr. Prereq: 221 or equiv.

325 Stage Lighting I U 3
Study of electrical, mechanical, and electronic elements of lighting for the stage as prerequisite for the study of stage lighting design.
Au Qtr. 3 cl. Prereq: 221 or equiv.

326 Stage Lighting II U 3
Study of stage lighting equipment and the common application in stage lighting; possibilities and problems in relation to theories and methods of stage lighting design.
Wi Qtr. 2 cl. 2 lab hrs. Prereq: 325.

341 Stage Design Drafting U 3
Principles of mechanical drawing and scale model building as applied to theatrical scene design.
Au Qtr. 2 2-hr labs. Prereq: 221.

350 Introduction to Stage Makeup U 2
Practical application of the theories and techniques of theatrical makeup.
Au, Wi, Sp Qtr.s. 2 cl. Prereq: Permission of instructor.

351 Stage Costuming I U 3
Basic principles and techniques of stage costume design and construction.
Au Qtr. 3 cl. 4 lab hrs arr. Prereq: 222.

352 Stage Costuming Survey U 3
Study of historical periods of clothing most often used in play production with particular emphasis on movement problems encountered by actors wearing period costumes.
Au Qtr. 3 cl. Prereq. To meet needs of BFA students other than in design/tech production.

380 Intermediate Acting I U 3
Au Qtr. 3 2-hr cl. Prereq: 282 or equiv and written permission of instructor.

381 Intermediate Acting II U 3
Continuation of 380.
Wi Qtr. 3 2-hr cl. Prereq: 380 and written permission of instructor.
Theatre

1089 Drake Union, 1849 Cannon Drive, 423-5821

100 Introduction to Theatre U 5
A study of the theatre with emphasis upon its cultural and
social influences in our society.
Su, Au, Wi, Sp Qtrs. H100 (honors) may be available to
students enrolled in an honors program or by permission of
department. BERL/AC/LAR course. VPA Admis Cond course.

200 Fundamentals of Theatre Practice U 3
Nature of modern theatre art and principles of play production;
survey of contemporary theatre and career opportunities.
Au, Wi, Sp Qtrs. 3 cl. VPA Admis Cond course.

205 Technical Production Practicum U 1
Provides experience in technical production activities.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 6 hrs or
hrs earned in decimal subdivisions. This course is
graded S/U. VPA Admis Cond course.

210 Script Analysis U 3
Fundamental principles for intensive study of the play script as
the basis of production.
Sp Qtr. VPA Admis Cond course.

220 Technical Production Fundamentals I U 3
Basic aspects of scenery construction; tools, materials, rigging.
Au Qtr. VPA Admis Cond course.

221 Technical Production Fundamentals II U 3
Scenery construction; drafting, color theory, painting, props,
lighting, basic electricity/electronics.
Wi Qtr. 4 lab hrs. VPA Admis Cond course.

222 Technical Production Fundamentals III U 3
Basic aspects of costume design and construction; machine
skills; makeup fundamentals; and stage and house
management.
Sp Qtr. 4 lab hrs. VPA Admis Cond course.

271 Great Ages of the Theatre U 5
Concepts and characteristics of the great periods of the
theatre of the Western world.
Au, Wi, Sp Qtrs. H271 (honors) may be available to students
enrolled in an honors program or by permission of dept.
Prereq: English 110 or 111 or equiv. Fulfills in part the ASC
advanced English composition requirement. BERL/AC/LAR
or VPA Admis Cond course.

280 Acting Fundamentals I U 3
Basic acting techniques: imagination, concentration, human
psychology as applied to creation of character and
development of stage presence.
Au, Wi, Sp Qtrs. 4 lab hrs. Prereq or concur: 200. VPA Admis
Advisory course.

281 Acting Fundamentals II U 3
Continuation of 280.
Au, Wi, Sp Qtrs. 4 lab hrs. Prereq: 280 or equiv.

282 Acting Fundamentals III U 3
Continuation of 281.
Au, Wi, Sp Qtrs. 4 lab hrs. Prereq: 281 or equiv.

283 Stage Movement I U 2
Fundamentals of movement training.
Au Qtr. Prereq: Written permission of instructor. Not open to
students with credit for 284.01.

284 Stage Movement II U 2
Continuation of 283.
Wi Qtr. Prereq: 283. Not open to students with credit for
284.02.

285 Stage Movement III U 2
Continuation of 284.
Sp Qtr. Prereq: 284. Not open to students with credit for
284.03.

286 Stage Speech I U 2
Basic training in stage speech and voice production for acting
and directing.
Au Qtr. Prereq: Written permission of instructor. Not open to
students with credit for 286.01.

287 Stage Speech II U 2
Continuation of 286.
Wi Qtr. Prereq: 286. Not open to students with credit for
286.02.

288 Stage Speech III U 2
Continuation of 287.
Sp Qtr. Prereq: 287. Not open to students with credit for
288.03.

310 Stage Directing U 3
Techniques of play analysis, interpretation, composition,
movement, rhythm and tempo; their integration in stage
direction.
Au, Wi Qtrs. 3-2 hr cl. Prereq: 280.

320 Stage Management U 3
Research, discussion, and application of the principles of
organizing and managing stage productions; experience in
actual performance.
Sp Qtr. 2 cl, 1 lab hr arr. Prereq: 221 or equiv.

325 Stage Lighting I U 3
Study of electrical, mechanical, and electronic elements of
lighting for the stage as prerequisite for the study of stage
lighting design.
Au Qtr. 3 cl. Prereq: 221 or equiv.

326 Stage Lighting II U 3
Study of stage lighting equipment and the common application
in stage lighting, possibilities and problems in relation to
theories and methods of stage lighting design.
Wi Qtr. 2 cl, 2 lab hrs. Prereq: 325.

341 Stage Design Drafting U 3
Principles of mechanical drawing and scale model building as
applied to theatrical scene design.
Au Qtr. 2-2 cl, 2 lab hrs. Prereq: 221.

350 Introduction to Stage Makeup U 2
Practical application of the theories and techniques of
theatrical makeup.
Au, Wi, Sp Qtrs. 2 cl. Prereq: Permission of instructor.

351 Stage Costuming I U 3
Basic principles and techniques of stage costume design and
construction.
Au Qtr. 3 cl, 4 lab hrs arr. Prereq: 222.

352 Stage Costuming Survey U 3
Study of historical periods of clothing most often used in play
production with particular emphasis on movement problems
encountered by actors wearing period costumes.
Au Qtr. 3 cl. Provided to meet needs of BFA students other
than in design/tech production.

380 Intermediate Acting I U 3
Au Qtr. 3-2 cl. Prereq: 282 or equiv and written permission
of instructor.

381 Intermediate Acting II U 3
Continuation of 380.
Wi Qtr. 3 cl. Prereq: 380 and written permission of
instructor.
405 Theatre Practicum II U 1-3
Provides experience in theatrical performance and production activities at an intermediate level.
Su, Au, Wi, Sp Qtr. Prereq. Written permission of instructor. Repeatable to a maximum of 18 cr hrs in any combination of decimal subdivisions. These courses are graded S/U.

405.01 Stage Direction/Management
405.02 Technical Production/Lighting
405.04 Stage Design
405.05 Costuming/Makeup
405.06 Acting
405.09 Theatre Management
405.10 General

494 Group Studies U 1-3
Au, Wi, Sp Qtr. Prereq. Written permission of instructor. Repeatable to a maximum of 9 cr hrs.

501 Children's Theatre: Production and Direction U G 5
Selection, production, and direction of plays for children.
Au, Wi, Sp Qtr. 5 cr. Prereq. 221. Cross-listed in Education: Humanities as 630. Not open to students with credit for 565 or ED-Num as 630.

529 Senior Project in Design or Technical Theatre U 3
Individual project in design or technical theatre.
Su, Au, Wi, Sp Qtr. Arr. Prereq. 4th yr standing in BFA program in theatre. Student assigned design or technical responsibility for major departmental production.

531 Theatre Repertory I U G 3
Survey of representative world drama from classical Greece to the 17th century.
Au Qtr. 3 cr. BER/LAC course.

532 Theatre Repertory II U G 3
Survey of representative western drama from the 17th century through the rise of realism.
Wi Qtr. 3 cr. BER/LAC course.

533 Theatre Repertory III U G 3
Survey of representative western drama since the rise of realism.
Sp Qtr. 3 cr. BER/LAC course.

545 Introduction to Stage Design I U G 3
Fundamentals in mechanical perspective, drawing, and model building for stage design.
Wi Qtr. 2-2 hr cr. Prereq. 341.

546 Introduction to Stage Design II U G 3
Fundamentals of stage design and color rendering techniques.
Sp Qtr. 2-2 hr cr. Prereq. 545.

600 Professional Aspects of Theatre U G 3
Study of the professional theatre as a business; contracts, unions, the theatre marketplace, preparation of resumes, portfolios, audition pieces, interview.
Au Qtr. 3 cr. Prereq. 4th yr standing in theatre or final yr of grad study.

601 Theatre Management U G 3
Survey of theatre management practices, structure, personnel administration, fiscal control, and audience development.
Wi Qtr. Prereq. Sr theatre majors or grad standing.

610 Advanced Stage Directing U G 3
Principles, techniques, and practice of advanced direction and integration of technical elements in theatrical production.
Sp Qtr. 3-2 hr cr. Prereq. 310 and permission of instructor.

621 Advanced Theatre Graphics U G 3
Technical graphics and drafting procedures for production of scenery shop drawings and lighting layouts, students may serve as technical draftsmen for departmental productions.
Au, Wi, Sp Qtr. 1-2 hr cr. Prereq. 325 and 341. Repeatable to a maximum of 9 credit hours.

622 Technical Production II U G 3
Staging methods in non-traditional scenic styles and periods for dramatic and musical productions.
Wi Qtr. 3 cr. Prereq. 222.

623 Technical Production III U G 3
Consideration and application of methods and materials for construction of properties and special effects for the stage.
Sp Qtr. Prereq. 622 or equiv.

624 Technical Direction U G 3
Study of technical direction and production management; budget, personnel, schedule, other logistic problems in technical production.
Wi Qtr. 3 cr. Prereq. 221, 222, and written permission of instructor.

625 Lighting Design I U G 3
Study of light as a design medium for the stage; preparation of lighting designs for various stages.
Au Qtr. Prereq. 326 or equiv.

626 Theatre Sound Techniques U G 3
A survey of equipment and operational techniques used to provide sound support for theatrical productions.
Wi Qtr. 2-2 hr cr. 20 lab hrs arr. Prereq. 221.

640 Decorative Arts for Theatre U G 3
Condensed survey of decorative arts, ancient to modern, emphasis on interiors, furniture, textiles, and colors and their adaptation to stage use.
Wi Qtr. Prereq. 545 or equiv.

641 Stage Design Media U G 3
Techniques of rendering for stage design in various media.
Sp Qtr. Prereq. Permission of instructor.

642 Scene Painting and Watercolor U G 3
Techniques used in scene painting and watercolor; mixing and matching colors, rendering texture and form, enlarging painter’s elevations, types of paints used in scene painting.
Au Qtr. Prereq. 641. Repeatable to a maximum of 6 cr hrs.

643 Intermediate Stage Design I U G 3
Investigation of 20th-century design and rendering techniques and their application to the stage; experience in researching and designing projects.
Au Qtr. 2 cr. indiv conferences. Prereq. 325 and 545 or equiv with written permission of instructor.

644 Intermediate Stage Design II U G 3
Presentation of the design concept in three-dimensional media; emphasis on designing for nonprosaic production.
Wi Qtr. 1-2 hr cr. Prereq. 643 or equiv with written permission of instructor.

645 Modern Stage Design Styles U G 3
Study of the application of major stylistic trends in scenic design to modern theatrical productions through lecture-discussion and specific design projects.
Sp Qtr. Arr. Prereq. 644 or equiv with written permission of instructor.

650 Advanced Stage Makeup U G 2
Advanced theories and techniques of theatrical makeup with emphasis on problems in modern theatre styles.
Sp Qtr. 2 cr. Prereq. 350.

<tr>
<td>698</td>
<td>Study Tour U G 3-15</td>
<td>Su Qtr. Prereq: Permission of instructor.</td>
<td>2</td>
<td></td>
</tr>
<tr>
<td>711</td>
<td>Comparative Study in Film and Theatre Directing U G 5</td>
<td>An analytical and descriptive study of the nature and differences of film and theatre directing.</td>
<td>2</td>
<td>Au Qtr. 2 2-hr cl. Prereq: Written permission of instructor.</td>
</tr>
<tr>
<td>725</td>
<td>Advanced Stage Lighting Design U G 3</td>
<td>Study and analysis of lighting design styles in relation to different forms of theatre arts; emphasis on practical problems.</td>
<td>2</td>
<td>Wi Qtr. 2 2-hr cl, 20 lab hrs arr. Prereq: 625.</td>
</tr>
<tr>
<td>727</td>
<td>Lighting Control Technology U G 3</td>
<td>Comprehensive study of stage lighting control methods, technology of dimming systems, and application to advanced lighting design.</td>
<td>2</td>
<td>Sp Qtr. 2 2-hr cl. Prereq: 625 or equiv.</td>
</tr>
</tbody>
</table>
728* Scenic Projection Techniques U G 3
Scenic projection in stage design through historical development to current practice with consideration to aesthetic principles and practical application.
Wi Qtr. 2 3-hr cl. Prereq: 725 or permission of instructor.

729* Stage Machinery and Planning U G 3
Comparative studies in modern American and European theatre facilities and stage machinery.
Wi Qtr. 2 3-hr cl. Prereq: 226 or permission of instructor.

780 Advanced Acting Theory U G 3
A study of the major theories of the art of acting and their application.
Wi Qtr. Prereq: Permission of instructor.

H783 Honors Course U 3-5
An individual program of study, with conferences, reports, and honors theses.
Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing; a grade of A in at least half of the theatre courses taken and an average of B in the remainder; permission of instructor. Failure to complete the work in the course and receive a mark of B is a disqualification for special honors. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

786 Advanced Stage Speech I U G 2
Advanced study of voice, phonetics; development of special vocal techniques and dialects required for stage performance.
Au Qtr. 3 2-hr cl. Repeatable to a maximum of 4 cr hrs.

787 Advanced Stage Speech II U G 2
Stage dialects continued.
Wi Qtr. 2 cl. Prereq: 786. Repeatable to a maximum of 4 cr hrs.

788 Advanced Stage Speech III U G 2
Continuation of 787.
Sp Qtr. 2 cl. Prereq: 787. Repeatable to a maximum of 4 cr hrs.

789 Acting Studio U G 3
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs.

800 Advanced Studies in Theatre G 3 or 5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 40 cr hrs in any combination of decimal subdivisions.

800.01 Stage Direction/Management
800.02 Technical Production/Lighting
800.03 Dramatic Literature
800.04 Stage Design
800.05 Costuming/Makeup
800.06 Criticism, Theory, Playwriting
800.07 History
800.08 Acting
800.09 Theatre Management

801 Research Methods G 3
Introduction to graduate study: methods and tools of research in all areas of theatre.
Su, Au Qtrs. 2 2-hr cl, lab arr.

802 Seminars in Theatre G 2-5
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 40 cr hrs in any combination of decimal subdivisions.

802.01 Stage Direction/Management
802.02 Technical Production/Lighting
802.03 Dramatic Literature
802.04 Stage Design
802.05 Costuming/Makeup
802.06 Criticism, Theory, Playwriting
802.07 History
802.08 Acting
802.09 Theatre Management

805 Graduate Theatre Practicum G 1-5
Individual theatrical performance and production activities at an advanced level under faculty supervision.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of advisor. Repeatable to a maximum of 40 cr hrs in any combination of decimal subdivisions. These courses are graded S/U.

805.01 Stage Direction/Management
805.02 Technical Production/Lighting
805.04 Stage Design
805.05 Costuming/Makeup
805.08 Acting
805.09 Theatre Management

810 Directing Period Drama G 3
Advanced problems in directing premorden drama.
Wi Qtr. Prereq: 610, 671, 672, 673, and 882 or equiv.

811 Directing in Modern Theatre Styles G 3
Advanced problems in directing modern nonrealistic styles of drama.
Sp Qtr. Prereq: 610, 674, and 882 or equivs.

825 Advanced Stage Lighting Design II G 3
Advanced study of lighting design and its creative application to modern theatre practice.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: 725 or permission of instructor.

830Y Comparative Comedy G 3
Variation in the form of the comic genre from Greek farce to contemporary comedy.
Au Qtr. 3 cl. Prereq: 531, 532, 533, and 860 or equivs.

831Y Comparative Tragedy G 3
Variations in the form of the tragic genre from Aeschylus to the present.
Wi Qtr. 3 cl. Prereq: 531, 532, 533, and 860 or equivs.

832Y Comparative Melodrama G 3
Variations in the melodramatic form from Euripides to the present.
Sp Qtr. 3 cl. Prereq: 531, 532, 533, and 860 or equivs.

833 Seminal Modern Drama G 3
Consideration of modern dramatists who have most influenced the content and the technique of modern drama.
Au Qtr.

834 Contemporary Drama G 3
Consideration of the most significant post-World War II dramatists.
Wi Qtr. 5 cl.

845 Advanced Scene Design G 3
Study of historic and modern scene design and application to modern theatrical stage practices; experience in executing creative and interpretive project designs.
Su, Au, Wi, Sp Qtrs. Prereq: 645 or equiv and permission of instructor. Repeatable to a maximum of 9 cr hrs.

855 Advanced Stage Costume Design G 3
Theory, methods, and materials of costume design with emphasis on design problems for the stage.
Su, Au, Wi, Sp Qtrs. Prereq: 658 or equiv with written permission. Repeatable to a maximum of 9 cr hrs.

860 Classical Critical Theories of the Theatre G 5
Detailed analysis of the classical sources of critical theory of the theatre.
Wi Qtr. 5 cl. Prereq: 661 or permission of instructor.

861 Modern Critical Theories of the Theatre G 5
Concentrated analysis and discussion of recent critical theories of the theatre, especially since 1945: examination of pivotal books in the field.
Sp Qtr. 5 cl. Prereq: 661 or written permission of instructor.
862 Theatre Styles G 3
Study and analysis of significant styles of production in the theatre.
Sp Qtr. 3 cl. Prereq: Permission of instructor. Not open to students with credit for 760.

870* Greek and Roman Theatre G 3
Advanced study and research in Greek and Roman theatre and drama.
Au Qtr. Prereq: 671 or equiv.

872* European Renaissance Theatre G 3
Advanced study and research in Renaissance theatre and drama on the continent.
Wi Qtr. Prereq: 671 and 672 or equivs.

873* English Renaissance Theatre G 3
Examination of theatre history and drama of 16th and 17th century England up to 1642.
Sp Qtr. Prereq: 671, 672 and 673, or equivs.

874* Restoration and 18th Century Theatre G 3
Advanced study and research in English theatre and drama of the Restoration and 18th century.
Au Qtr. Prereq: 671, 672 and 673, or equivs.

878* European Baroque Theatre G 3
Advanced study and research in Baroque theatre and drama in Europe.
Wi Qtr. Prereq: 671, 672, and 673, or equivs.

879* Nineteenth Century European Theatre G 3
Analysis of the rise of naturalism and realism in the drama and theatre of England and the continent during the 19th century.
Sp Qtr. Prereq: 671, 672 and 673, or equivs.

983 Individual Studies G 3-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

990 International Theatre Research G 3-15
Individual research in drama and theatre on campus and abroad.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

998 Research in Theatre: Thesis G 1-6
Research for thesis purposes only.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 6 or hrs. This course is graded S/U.

999 Research in Theatre: Dissertation G Arr
Research for dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

103* Intermediate Turkish I U 5
Development of listening, reading, speaking, and writing skills; reading of simplified literary texts about Turkish culture.
Sp Qtr. 5 cl. Prereq: 102. This course is available for EM credit.

104* Intermediate Turkish II U 5
Reading of Turkish short stories and poems with attention to literary and cultural appreciation; development of basic language skills.
Au Qtr. 5 cl. Prereq: 103. This course is available for EM credit.

Masterpieces of Near Eastern Literatures
See Judaic and Near Eastern Languages and Literatures (JANELL) 272.

293 Individual Studies U 1-5
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

294 Group Studies U 1-5
Special topics announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

693 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

694 Group Studies U G 1-5
Special topics announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

Ukrainian

232 Dieter Cunz Hall of Languages, 1841 Milliken Road, 422-6733

101* Elementary Ukrainian I U 5
Introduction to Ukrainian; development of listening, reading, speaking, and writing skills.
Au Qtr. 5 cl. This course is available for EM credit. Fl Admis Cond course.

102* Elementary Ukrainian II U 5
Development of oral and written language skills.
Wi Qtr. 5 cl. Prereq: 101 or equiv. Fl Admis Cond course.

111* Intensive Intermediate Ukrainian U 10
Readings, oral and written practice, grammar review.
Sp Qtr. 10 cl. Prereq: 102 or equiv. Equiv to the third and fourth courses of the foreign language sequence.

Turkish

256 Dieter Cunz Hall of Languages, 1841 Milliken Road, 422-9255

101* Elementary Turkish I U 5
Introduction to Turkish; development of listening, reading, speaking, and writing skills.
Au Qtr. 5 cl. This course is available for EM credit. Fl Admis Cond course.

102* Elementary Turkish II U 5
Further development of listening, reading, speaking, and writing skills.
Wi Qtr. 5 cl. Prereq: 101. This course is available for EM credit. Fl Admis Cond course.
University College

152 Mount Hall, 1600 Carmack Road, 422-6344

100 University Survey U 1
Academic requirements and options; University rules, policies, and procedures; the Code of Student Conduct; the University grading system; University resources, including an introduction to the University Libraries; study techniques and academic coping skills.
Su, Au, Wi, Sp Qtrs. 2 1-hr cl. H100 (honors) decimal subdivisions may be available to students enrolled in an honors program or by permission of college. Students schedule a section of University Survey corresponding to their curricular academic program. These courses are graded S/U.

100.01 Administrative Science Survey
100.03 Agriculture Survey
100.05 Allied Medical Professions Survey
100.11 Arts and Sciences Survey
100.13 Dentistry Survey
100.15 Dental Hygiene Survey
100.17 Education Survey
100.19 Engineering Survey
100.21 General Baccalaureate Survey
100.23 Home Economics Survey
100.25 Medicine Survey
100.28 Natural Resources Survey
100.29 Nursing Survey
100.31 Optometry Survey
100.33 Pharmacy Survey
100.35 Social Work Survey
100.37 Veterinary Medicine Survey

Veterinary Anatomy

102 Sisson Hall, 1900 Coffey Road, 422-2091

400 Veterinary Anatomy U 5
Lectures and demonstrations in the various anatomical systems of domestic animals. Sisson.
Au Qtr. 5 cl. Prereq: Zoology 201 or equiv. Not open to students with credit for 100.

593 Individual Studies P G 2-5
Training in laboratory investigation of special problems. Graduate faculty.
Su, Au, Wi, Sp Qtrs. 1 cl, 6-15 lab hrs. Prereq: VM Coll 530 and 531. Repeatable to a maximum of 18 cr hrs.

700 Applied Functional Neuroanatomy I P G 3
Study of structure and function of autonomic, peripheral and central nervous systems of infraprimates, with reference to primate. Graduate faculty.
Wi Qtr. 3 cl. Prereq: VM Coll 603, Anatomy 704 or equiv, and permission of dept.

701 Applied Functional Neuroanatomy II P G 3
An application of the structure and function of the central nervous system of the infraprimates, with reference to primates. Graduate faculty.
Sp Qtr. 3 cl. Prereq: VM Coll 603, Anatomy 704 or equiv, and permission of dept.

710 Anatomy of Avian and Sub-Primate Laboratory Animals P G 3
A comparative anatomical study of the various systems of the avian species and common sub-human primates involved in laboratory investigation. Sisson.
Sp Qtr. 2 cl, 1 5-hr lab. Prereq: VM Coll 520 and 521 or equiv course work in anatomy.

760 Specialized Study in Veterinary Medicine P 1-16
Field or lab study encompassing the various areas in the field of veterinary medicine through a direct preceptorship with qualified professionals.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Vet Med 4th yr standing and permission of instructor. To be taken during elective qtr. Cross listed in all veterinary medicine depts. Repeatable to a maximum of 16 cr hrs. The course is graded S/U.

794 Group Studies in Veterinary Anatomy P G 2-6
Provides flexibility in the veterinary professional program by offering selected topics in veterinary anatomy.
Prereq: Permission of instructor. Repeatable to a maximum of 24 hrs for prof cr and 2-6 cr hrs for grad cr.

794.01 Equine Surgical Anatomy P G 3
Emphasis on blood and nerve supply to common surgical sites; special emphasis involving methods of anesthesia in selected surgical areas and areas useful in diagnostic procedures for lameness. Dessem.
Au Qtr. 1 cl, 1 3-hr lab. Prereq: VM Coll 521 or equiv. and permission of instructor.

794.02 Ophthalmic Anatomy P G 2
The comparative anatomy, histology, neuroanatomy, and embryology of the orbit and its contents in mammals, birds, and reptiles.
Dessem. Sp Qtr. Prereq: VM Coll 612 or equiv and permission of instructor.

794.10 Surgical Anatomy of the Dog and Cat P G 4
Surgical and clinical anatomy of the dog and cat as studied by dissection, lecture, prosection, and palpation. Meyer and Wilson.
Au, Sp Qtrs. 2 cl, 2 2-hr labs.

794.11 Bovine Surgical Anatomy P G 3
Lectures, demonstrations and dissection of selected anatomical regions of surgical and clinical importance with emphasis on the abdomen, pelvic organs and limbs. Hunter.
Sp Qtr. 2 cl, 2 2-hr labs. Prereq: VM Coll 531, Vet Med 2nd or 3rd yr standing, and permission of instructor.

799 Seminar in Veterinary Anatomy P G 1 or 2
Presentation of new scientific knowledge in the morphological sciences by faculty and graduate students. W. Anderson and staff.
Su, Au, Wi, Sp Qtrs. Prereq. Grad or professional standing in veterinary anatomy. Repeatable to a maximum of 16 cr hrs.

801 Anatomical Techniques G 2-5
Theory and practice of microscopic, microscopic, and scanning electron microscopy methods. Specimen preparation for microtome technic, fixin, in-bedding, sectioning, mounting, and staining of animal tissue. Special emphasis is placed upon techniques for the preparation of micrococcic casts for SEM study. Graduate faculty.
Su, Au, Wi, Sp Qtrs. 1 cl, 6-15 lab hrs. Prereq: VM Coll 521, 531 or equiv and permission of instructor. Repeatable to a maximum of 15 cr hrs.

802 Advanced Veterinary Anatomy G 3-5
Advanced topographical anatomy of domestic animals studied in the laboratory. Lecture, dissection, and demonstration.
1 cl, 1 hr section, 2-5 lab hrs. Prereq: Vet Med 3rd yr standing, veterinary gross anatomy, and permission of instructor.

802.01 Limbs and Back of Domestic Animals
802.02 Head and Neck of Domestic Animals
802.03 Thorax, Abdomen, and Pelvis of Domestic Animals

999 Research in Veterinary Anatomy G Arr
Research for dissertation or thesis purposes only. W. D. Anderson and graduate faculty.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of instructor. This course is graded S/U.
760 Specialized Study in Veterinary Medicine P 1-16
Field or lab study encompassing the various areas in the field of veterinary medicine through a direct preceptorship with qualified professionals.
Su, Au, Wi, Sp Qtrs. Arr. Preq: Vet Med 4th yr standing and permission of instructor. To be taken during elective qtr. Cross listed in all veterinary medicine schools. Repeatable to a maximum of 16 or hrs. This course is graded SU.

794 Group Studies in Veterinary Anatomy P G 2-6
Provides flexibility in the veterinary professional program by offering selected topics in veterinary anatomy.
Preq: Permission of instructor. Repeatable to a maximum of 24 or hrs for prof or and 2-8 or hrs for grad or.
794.01 Equine Surgical Anatomy P G 3
Emphasis on blood and nerve supply to common surgical sites; special emphasis involving methods of anesthetizing selected surgical areas and areas useful in diagnostic procedures for lameness. Disem.
Au Qtr. 1 cl, 1.3-hr lab. Preq: VM Coll 521 or equiv. and permission of instructor.
794.02 Ophthalmic Anatomy P G 2
The comparative anatomy, histology, neuroanatomy, and embryology of the orbit and its contents in mammals, birds, and reptiles.
Disem. Sp Qtr. Preq: VM Coll 612 or equiv and permission of instructor.
794.10 Surgical Anatomy of the Dog and Cat P G 4
Surgical and clinical anatomy of the dog and cat as studied by dissection, lecture, prossect and palpation. Meyer and Wilson.
Au, Sp Qtrs. 2 cl, 2.2-hr labs.
794.11 Bovine Surgical Anatomy P G 3
Lectures, demonstrations and dissection of selected anatomical regions of surgical and clinical importance with emphasis on the abdomen, pelvic organs and limbs. Hunter.
Sp Qtr. 1 cl, 2.2-hr labs. Preq: VM Coll 531, Vet Med 2nd or 3rd yr standing, and permission of instructor.

798 Seminar in Veterinary Anatomy P G 1 or 2
Presentation of new scientific knowledge in the morphological sciences by faculty and graduate students. W. Anderson and staff.
Su, Au, Wi, Sp Qtrs. Preq: Grad or professional standing in veterinary anatomy. Repeatable to a maximum of 16 or hrs.

801 Anatomical Techniques G 2-5
Theory and practice of macroscopic, microscopic, and scanning electron microscopic methods, including specimen preparation for microradiological studies, fixation, embedding, sectioning, mounting, and staining of animal tissue. Special emphasis is placed upon techniques for the preparation of microradiological casts for SEM study. Graduate faculty.
Su, Au, Wi, Sp Qtrs. 1 cl, 6-15 lab hrs. Preq: VM Coll 521, 531 or equiv and permission of instructor. Repeatable to a maximum of 15 or hrs.

802 Advanced Veterinary Anatomy G 3-5
Advanced topographical anatomy of domestic animals studied by lecture, prospection, and dissection. 1 cl, 1 hr prospection, 2-6 lab hrs. Preq: Vet Med 3rd yr standing, veterinary gross anatomy, and permission of instructor.
802.01 Limbs and Back of Domestic Animals
802.02 Head and Neck of Domestic Animals
802.03 Thorax, Abdomen, and Pelvis of Domestic Animals

999 Research in Veterinary Anatomy G Arr
Research for dissertation or thesis purposes only. W. D. Anderson and graduate faculty.
Su, Au, Wi, Sp Qtrs. Preq: Permission of instructor. This course is graded SU.
Veterinary
Clinical Sciences

1010 Veterinary Hospital, 1935 Coffey Road, 422-7105

650 Introduction to Medical and Scientific Illustration P S
Designed to develop skills and techniques to transcribe factual visual material for publication or visual presentation.

655 Photography in the Practice of Veterinary Medicine P 3
Common medical photography principles applied in such areas as patient documentation, surgery, gross specimen photography, ophthalmology, and radiography reduction.
Au, Sp Qtrs. 3 cl.

694 Group Studies P G 1-4

710 Applied Veterinary Medicine Options
A series of clinical studies offered as electives for 4th year Vet Med students to arrange into an elective program in conjunction with a faculty adviser.

710.01 Receiving/Out-Patient Clinic P 2, 3
Clinical instruction designed to improve the student’s proficiency in client relations, diagnosis, treatment, and prevention of diseases in out-patients.

710.02 Small Animal Medicine P 3
Clinical instruction and experience in the diagnosis, treatment, and prevention of diseases of small animals.

710.03 Small Animal Surgery P 3
The application of principles of surgery to treatment of diseases of companion animals.

710.04 Food Animal Medicine and Surgery P 3
Clinical instruction and experience in the diagnosis, treatment, and prevention of diseases of food animals.

710.05 Equine Medicine and Surgery P 3
Clinical instruction and experience in the diagnosis, treatment, and prevention of diseases of the horse.

710.06 Ambulatory Clinic P 3
The application of the principles of management, diagnosis, treatment, and prevention of disease in farm and exotic animals in the environment in which they are produced.
Field trips to facilities for patient care, case discussions, seminars, and 24 hr patient care responsibilities.

710.07 Veterinary Clinical Radiology P 2, 3
Diagnostic and therapeutic techniques that will broaden the student’s knowledge in clinical diagnosis and treatment.

710.08 Clinical Microbiology P 2, 3
Assignment of patients for in-depth study of diagnosis and course of disease with emphasis on selection and interpretation of laboratory parameters; emphasis on microbiologic and immunologic methods for diagnosis and evaluation of infectious disease.

710.09 Clinical Anesthesiology P 2, 3
The application of principles of anesthesiology.

710.12 Veterinary Clinical Ophthalmology P 2, 3
Application of principles of diagnosis and treatment of diseases of the eye to patients of all species.

710.13 Applied Theriogenology P 3
Application of principles of diagnosis, treatment, and prevention of diseases of the the reproductive system of all species.

721 Advanced Canine and Feline Medicine II P G 3
A continuation of 720 with special reference made to infectious diseases, geriatrics, infertility and diseases of the urinary system.
Au Qtr. Prereq: Vet Med 4th yr standing or permission of instructor.

726 Canine and Feline Dentistry P G 1
Lectures, demonstrations, and laboratories covering prophylactic care, and extraction of teeth, endodontic and orthodontic therapy.
Au, Sp Qtrs. Prereq: Vet Med 3rd or 4th yr standing or permission of instructor.

727 Diseases of Pet Birds, Captive Reptiles and Aquarium Fish P G 2
Covers aspects of pet bird practice including restraint, nutrition, disease problems and therapy, radiology, anesthesia and surgery of budgetgators and other species of pet, caged birds. Management, nutrition and common disease problems of animal species such as snakes, turtles, lizards, and aquarium fish will be discussed. Laboratories utilizing live animals to teach handling and techniques of these species will be incorporated into the course.
Wi Qtr. 2 cl. Prereq: Vet Med 2nd, 3rd, or 4th yr standing or written permission of instructor.

728 Veterinary Anesthesiology Laboratory P G 2
Application of the principles of anesthesiology in the common domestic animals. Sp Qtr. 16 hrs. Prereq: Vet Med 2nd, 3rd and 4th yr standing.

730 Surgical Diseases of Horses P G 3
Current concepts of diagnosis and treatment of diseases of the horse with emphasis on lameness and surgery.
Wi Qtr. 3 cl. Prereq: Vet Med 4th yr standing or written permission of instructor.

731 Medical Diseases of the Horse P G 3
Lectures and discussions of medical diseases of the horse with emphasis on common infectious and non-infectious diseases.
Sp Qtrs. 3 cl. Prereq: Vet Med 3rd or 4th yr standing.

732 Diseases of Cattle P G 3
Current concepts of diagnosis, treatment, and prevention of important diseases; presented in conferences and demonstrations.
Wi Qtr. Prereq: Vet Med 4th yr standing or permission of instructor.

733 Food Animal Surgery P G 3
Discussion of diseases of food animals requiring surgery; demonstration of common surgical procedures.
Au, Sp Qtrs. Prereq: Vet Med 4th yr standing or permission of instructor.

734 Swine Medicine and Surgery P G 3
Current concepts of diagnosis, treatment, and prevention of important diseases; presented in conferences and demonstrations.
Au Qtr. Prereq: Vet Med 4th yr standing or written permission of instructor.

736 Diseases of Sheep P G 2
Current concepts of diagnosis, treatment, and prevention of diseases; presented in conferences and demonstrations.
Sp Qtrs. Prereq: Vet Med 4th yr standing or permission of instructor.

738 Pleasure Horse Medicine P 1
Review of prevention, diagnosis, & treatment of diseases which are common problems of pleasure horses.
Au Qtr. Prereq: Vet Med 2nd, 3rd, or 4th yr standing.
741 Zoo Animal Medicine P 1
Discussion and illustrations covering chemical restraint, maintenance of animal health, disease prevention and treatment, past history discussions, and other duties confronting zoo veterinarians.
Wi Qtr. 1 cl. Prereq: Vet Med 2nd, 3rd, or 4th yr standing.

745 Applications of Microcomputers to Veterinary Medicine P 2
Hardware, software, and applications to veterinary medicine.
Wi Qtr 2 cl. Prereq: Vet Med 4th yr standing.

750 Veterinary Practice and Hospital Management P 3
Basic principles of hospital and practice management including insurance, partnerships, corporations, accounting, taxes, employees, and general management procedures.

760 Specialized Study in Veterinary Medicine P 1-16
Field or lab study encompassing the various areas in the field of veterinary medicine through a direct preceptorship with qualified professionals.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Vet Med 4th yr standing and permission of instructor. To be taken during elective qtr. Cross listed in all veterinary medicine depts. Repeatable to a maximum of 16 or hrs. This course is graded S/U.

762 Clinical Veterinary Ophthalmology P 2
Discussion of disease recognition, pathophysiology, diagnosis, and therapy, both medical and surgical.
Au Qtr. Prereq: Vet Med 4th yr standing or permission of instructor.

767 Advanced Nephrology/Urology P 2
Study of diseases of the upper and lower urinary tracts; emphasis on diagnosis and treatment; clinical cases will be discussed.
Wi Qtr. 1 cl. Prereq: Vet Med 3rd or 4th yr standing.

770 Orthopedic Conference P 2
Practical application of advanced surgical techniques for treatment of diseases of the skeletal system requiring surgery. Sp Qtr: 2 conferences per week. Prereq: Vet Med 4th yr standing or permission of instructor.

780 Diagnostic Contrast Radiology P 1-8
Routine contrast studies of the digestive, urinary and nervous systems, with emphasis on techniques and contrast material. Small groups of students will perform each of the procedures.
Su, Au, Wi, Sp Qtrs. Prereq: Vet Med 4th yr standing or written permission of instructor.

782 Pharmacology of Cardiac Drugs P 3
Clinical evaluation, pharmacokinetics, and pharmacotherapy of cardiac dysrhythmias.
Wi Qtr (even-numbered yrs). 2 cl. Prereq: 3rd or 4th yr or grad standing. Not open to students with credit for Vet Phys 782. Cross listed in Veterinary Physiology and Pharmacology.

790 Advanced Study of Diseases of the Reproductive System P 2
A study of diagnosis, treatment, and prevention of diseases of the reproductive system of domestic animals.
Wi Qtr. Prereq: Vet Med 4th yr standing or permission of instructor. Repeatable to a maximum of 12 or hrs.

791 Reproduction Laboratory, Equine P 2
A laboratory course devoted to physical examination of the reproductive system and artificial insemination.

792 Reproduction Laboratory, Bovine P 2
A laboratory for the application of diagnostic and therapeutic techniques for diseases of the reproductive system of domestic animals.
Su, Au, Wi, Sp Qtrs. Prereq: Vet Med 4th yr standing in elective qtr or permission of instructor.

793 Individual Studies P 1-8
A supervised critical investigation of some aspects of animal disease about which there is a mutual curiosity on the part of both the student and faculty.
Su, Au, Wi, Sp Qtrs. Prereq: Vet Med 3rd or 4th yr standing, adequate clinical training and written permission of instructor. Repeatable to a maximum of 20 or hrs. This course is graded S/U.

794 Group Studies in Veterinary Clinical Sciences P 1-8
Su, Au, Wi, Sp Qtrs. Prereq: Vet Med 4th yr standing or written permission of instructor. Repeatable to a maximum of 30 or hrs.

794.02 Advanced Canine and Feline General Surgery
Designed to increase the student’s knowledge and skills necessary for the diagnosis and surgical treatment of disease of dogs and cats.

794.17 Advanced Topics in Orthopedic Surgery in Companion Animals
Practical application of advanced surgical techniques for treatment of diseases of the musculoskeletal system.

794.19 Advanced Topics in Surgery of Equine
Practical application of advanced surgical techniques for treatment of diseases of horses.

794.20 Advanced Equine Lameness
Study of the methods used for diagnosis and treatment of diseases causing lameness in horses; includes radiographic and surgical techniques.

794.23 Advanced Gastroenterology
Study of diagnosis, treatment, and prevention of diseases of the gastrointestinal system.

850 Seminar in Veterinary Clinical Sciences G 1
Su, Au, Wi, Sp Qtrs. 1 hr per wk in seminar. Prereq: The degree Doctor of Veterinary Medicine. Repeatable to a maximum of 10 or hrs.

999 Research in Veterinary Clinical Sciences G Arr
Research for thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Veterinary Medicine,
College of

101A Sisson Hall, 1900 Coffey Road, 422-1171

510 Principles of Epidemiology P 3
Epidemiologic principles and methodology as applied to infectious and noninfectious diseases; analysis of host, agent, and environmental factors in disease causation; introduction to retrospective and prospective studies used in studying etiologic factors involved in disease occurrence.
Wi Qtr. 3 cl. Prereq: Vet Med 1st yr standing.

520 Topographic Anatomy (Canine) and Radiology P 6
Body and its components as forms, relationships, and mechanical functioning; radiology principles. Au Qtr. Prereq: Vet Med 1st yr standing.

521 Topographic Anatomy (Equine) P 4
Continuation of 520. Wi Qtr. Prereq: Vet Med 1st yr standing.
522 Topographic Anatomy (Food Animals) P 4
Continuation of 521.
Sp Qtr. 2 cl, 2 lab hrs. Prereq: Vet Med 1st yr standing.

530 Microscopic and Developmental
Anatomy I P 5
Study of microscopic and ultrastructural features of cells and tissues, as well as basic fetal development.
Au Qtr. Prereq: Vet Med 1st yr standing.

531 Microscopic and Developmental
Anatomy II P 4
Correlated study of the development, microscopic structure and ultrastructural morphology of organ systems.
Wi Qtr. Prereq: Vet Med 1st yr standing.

540 Structure and Function of Cells P 5
Introduction to structure and function at cellular level including physiological principles of homeostasis, energetics, metabolism, enzymes, nutrition, and growth.
Au Qtr. Prereq: Vet Med 1st yr standing.

550 Comparative Biology of Disease P 5
An interdisciplinary study of the interactions between disease producing agents, body systems, tissues, cells, subcellular units, and selected drugs.
Prereq: Vet Med 1st yr standing.

550.01 Comparative Biology of Disease I
Wi Qtr.

550.02 Comparative Biology of Disease II
Sp Qtr.

560 Introduction to Veterinary Profession: Ethics and Jurisprudence P 1
Problems faced by the practicing veterinarian in relation to the Ohio code, the law, ethics, and communications.
Au Qtr. 1 cl. Prereq: Vet Med 1st yr standing.

561 Pharmacology I P 3
Basic principles of pharmacology and therapeutics.
Wi Qtr. 3 cl. Prereq: Vet Med 1st yr standing.

562 Introduction to Anesthesiology P 2
Introduction to anesthesia.
Wi Qtr. Prereq: Vet Med 2nd yr standing.

563 Introduction to Surgery P 2
Introduction to surgery.
Sp Qtr. 2 cl, or 1 cl and 1 lab. Prereq: Vet Med 2nd yr standing.

564 Pharmacology II P 2
Basic principles of chemotherapy of disease.
Sp Qtr. 2 cl. Prereq: 561 and Vet Med 1st yr standing.

600 Cardiovascular System P 6
A comparative study of the structure, function, and dysfunction of the cardiovascular system including arrhythmias, abnormal flow, congenital disease, etiologic agents, diagnostic methods, and therapeutic approaches.
Au Qtr. Prereq: Vet Med 2nd yr standing.

501 Respiratory System P 5
A comparative study of the structure, function, and dysfunction of the respiratory system including reaction to injury, ventilation defects, pneumonias, neoplastic disease, radiological diagnosis, and therapeutic approaches.
Au Qtr. 5 cl. Prereq: Vet Med 2nd yr standing.

602 Urinary System P 6
A comparative study of the structure, function, and dysfunction of the urinary system including diseases of the kidney, bladder, and urethra, and their diagnosis and treatment.
Wi Qtr. Prereq: Vet Med 2nd yr standing.

603 Neurobiology P 4

603.01 Neurobiology I
Comparative study of structure, stressing functional anatomy, normal physiology, and the examination of the nervous system.
Sp Qtr. 4 cl. Prereq: Vet Med 1st yr standing.

603.02 Neurobiology II
Continuation of 603.01.
Au Qtr. 4 cl. Prereq: Vet Med 2nd yr standing.

604 Endocrine System P 5
A comparative study of the structures, function and dysfunction of the endocrine system including diseases of each endocrine organ and their relationships to whole body functions.
Sp Qtr. 5 cl. Prereq: Vet Med 1st yr standing.

605 Reproductive System P 6
A comparative study of the structure, function, and dysfunction of the reproductive system including etiologic, pathogenic, pathophysiologic, therapeutic, and preventive aspects of reproductive diseases.
Wi Qtr. 5 cl, 2 labs. Prereq: Vet Med 2nd yr standing.

606 Integumentary System P 5
A comparative study of the structure, function, and dysfunction of the integumentary system including important infectious and parasitic diseases, diagnosis, treatment, and prevention.
Sp Qtr. 5 cl, or 4 cl and 2 labs. Prereq: Vet Med 2nd yr standing.

607 Musculoskeletal System P 5
A comparative study of the structure, function, and dysfunction of the musculoskeletal system including congenital, and acquired diseases, their radiographic diagnosis, treatment, and prevention.
Sp Qtr. 5 cl. Prereq: Vet Med 2nd yr standing.

609 Digestive System
Prereq: Vet Med 2nd yr standing.

609.01 Digestive System I P 4
A comprehensive study of the upper gastrointestinal tract of domestic animals including gastrointestinal parasitology.
Wi Qtr. 4 cl or equiv lab hrs.

609.02 Digestive System II P 4
A comprehensive study of the lower gastrointestinal tract including clinical gastroenterology.
Sp Qtr. 4 cl.

611 Veterinary Public Health P 4
Introduction to the epidemiology and importance of the various zoonoses common to both animals and man with emphasis on the role of the veterinarian in the prevention and control of these diseases; food/good hygiene and environmental factors affecting health.
Sp Qtr. 3 cl, 2 lab hrs. Prereq: Vet Med 3rd yr standing.

612 Introduction to Veterinary Ophthalmology P 2
Developmental anatomy, comparative anatomy, histology and physiology of the eye and adherax of domestic animals will be studied.
Sp Qtr. Prereq: Vet Med 2nd yr standing.

618 Hemico-Lymphatic System P 5
A comparative study of the hemico-lymphatic system with emphasis on dysfunction immunologic diseases diagnosis, treatment and prevention of hemopoetic disease.
Au Qtr. Prereq: Vet Med 2nd yr standing.

620 Applied Veterinary Medicine I P 4
Clinical instruction in surgery and medicine; application of surgical techniques to treatment of diseases of small companion animals.
Au, Wi, Qtr. 16 lab hrs/wk. Prereq: Vet Med 3rd yr standing.
621 Applied Veterinary Medicine II P 4
Laboratory instruction in microbiology, parasitology and radiology; instruction and self study in minor techniques for large animals.

622 Applied Veterinary Medicine Clinics P 4
Clinical instruction in each clinical service, patient visits, ward rounds, seminars in each section.
Sp Qtr. 9-noon daily, clinics with patient care responsibility, ward rounds, and conferences. Prereq: Vet Med 3rd yr standing.

624 Small Animal Medicine I P 5
Problem solving approach to the study of principles of diagnosis, treatment, and prevention of disease of small companion animals.
Au Qtr. 5 cl. Prereq: Vet Med 3rd yr standing.

625 Small Animal Medicine II P 5
Continuation of 624.
Wi Qtr. 5 cl. Prereq: Vet Med 3rd yr standing.

628 Small Animal Surgery P 5
Study of the principles of surgery applied to treatment of diseases of small companion animals.
Au Qtr. 5 cl. Prereq: Vet Med 3rd yr standing.

630 Equine Medicine and Surgery I P 4
Problem solving approach to the study of diseases of horses; application of basic principles to the diagnosis, treatment, and prevention of diseases.
Au Qtr. 4 cl. Prereq: Vet Med 3rd yr standing.

631 Equine Medicine and Surgery II P 4
Continuation of 630.
Wi Qtr. 4 cl/week. Prereq: Vet Med 3rd yr standing.

632 Ruminant Medicine and Surgery I P 5
Study of diseases of ruminants; problem solving approach will be used; diagnosis, treatment, and prevention.
Wi Qtr. 5 cl. Prereq: Vet Med 3rd yr standing.

633 Ruminant Medicine and Surgery II P 5
Continuation of 632.
Sp Qtr 5 cl. Prereq: Vet Med 3rd yr standing.

640 Veterinary Toxicology P 2
Study of toxic substances affecting domestic animals including major types of poisons, sources, mechanisms of action, diagnosis, and treatment.
Au Qtr. 2 cl. Prereq: Vet Med 3rd yr standing.

642 Avian Medicine P 2
Study of the diagnosis, treatment, and prevention of diseases of poultry and pet birds.
Wi Qtr. 2 cl. Prereq: Vet Med 3rd yr standing.

644 Diseases of Swine P 3
Problem solving approach to the study of the principles of diagnosis, treatment, and prevention of diseases of swine.
Sp Qtr. 3 cl. Prereq: Vet Med 3rd yr standing.

646 Laboratory Animal Medicine P 2
Study of diseases of laboratory animals with a focus on prevention, control, and eradication.

650 Legal Aspects of Practice Management P 1
Basic concepts of the law as it pertains to the veterinarian to include contracts, applicable statutes and federal laws, malpractice, and liability.
Sp Qtr 1 cl. Prereq: Vet Med 3rd yr standing.

Veterinary Pathobiology

207 Goss Laboratory, 1925 Coffey Road, 402-5651

625 Pathology Techniques P G 2-10
Theory and application of technical methods employed in modern animal disease research; coordinated approach to animal disease investigation, including functional, chemical, gross, and histopathology. Cole and Staff.
Su, Au Qtrs. Prereq: Permission of Instructor.

640 Pathobiology P G 3
Presentation of up-to-date seminars on topics in comparative cellular pathology by faculty in the College of Veterinary Medicine and Medicine. Capen.
Au Qtrs. Prereq: Permission of Instructor. Offered in cooperation with Pathology.

693 Individual Studies P G 1-10
Laboratory, library, conference, and reports concerning animal disease problems. Capen andgraduate faculty.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs. This course is graded S/U.
710 Applied Veterinary Clinical Pathology P 1
Described to familiarize the senior veterinary student with the preparation and cytologic interpretation of blood films, body cavity fluids, and tissue aspirations and imprints. Jacobs. 

720 Comparative Oncology P G 3-5
Hematological manifestations of spontaneous neoplasms in domestic and laboratory animals by major body systems, emphasizing differential microscopic, histopathologic, and ultrastructural characteristics with appropriate clinical and functional correlations. Westbrooke and graduate faculty. 
Au Qtr. Prereq: Permission of instructor.

730 Immunology of Parasitic Infections P G 2
A discussion of the role of immunity in the production, course, pathogenicity, diagnosis and control of parasitic infections of man and/or domestic animals. Barriga and staff. 
Au Qtr: 2 cl. Prereq: Basic course in parasitology and immunology; permission of instructor. Repeatable to a maximum of 4 or hrs. Content varies according to major interests of class. Protozoa-arthropods taught in odd yrs; helminths in even yrs. Not open to students with credit for Microbiol 730. Cross-listed in Microbiology.

740 Laboratory Medicine P G 1-10
Advanced training in veterinary hematology, cytology, and clinical chemistry; independent study of laboratory methods for the characterization of the clinical manifestations in hospitalized patients. Jacobs. 
Au, Wi, Sp Qtrs. Arr. Prereq: DVM degree and grad standing. Repeatable to a maximum of 5 or hrs.

760 Specialized Study in Veterinary Medicine P 1-15
Field or lab study encompassing the various areas in the field of veterinary medicine through a direct preceptorship with qualified professionals. 
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Vet Med 4th yr standing and permission of instructor. To be taken during elective qtr. Cross listed in all veterinary medicine depts. Repeatable to a maximum of 16 or hrs. This course is graded S/U.

794 Group Studies in Veterinary Pathobiology
794.01 Applied Pathology P G 2
Correlation of functional morphological, and chemical abnormalities in disease of domestic and companion animals. Long and Westbrooke. 
Au, Sp Qtrs. Prereq: Permission of instructor.

794.03 Applied Veterinary Immunology and Pathobiology P G 3
Discussion of the basic principles and theories of immunity and immunological disease as they apply to veterinary medicine. Oseen and Krakowska. 
Au Qtr. Prereq: Permission of instructor.

794.04 Applied Veterinary Parasitology P G 2
Emphasis on the biology and control of the major parasitic pathogens of domestic animals. Herdt and staff. 
Sp Qtr. Prereq: Permission of instructor.

794.05 Applied Veterinary Microbiology P G 3
Emphasis on the identification of the major bacterial and mycological pathogens of domestic animals. Blakeslee. 
Sp Qtr. Prereq: Permission of instructor.

794.06 Applied Veterinary Medical Virology P G 3
Major viral pathogens of domestic animals are discussed and illustrated. Principles of virology applicable to the recognition, differentiation, and prevention of diseases of animals are presented. Blakeslee. 
Sp Qtr. Prereq: Permission of instructor.

794.07 Diseases of Poultry and Game Birds P G 3
A study of the etiology, recognition, prevention and control of the important diseases of poultry and related game birds. Marsh. 
Au, Wi Qtrs.

794.08 Current Topics of Veterinary Immunobiology P G 3
Discussion of modern topics in immunobiology as it relates to domestic animals. Olsen. 
Sp Qtr. Prereq: Permission of instructor

794.09 Advanced Gross Pathology P G 1-5
Advanced training in gross dissection and interpretation of gross lesions in animals. Westbrooke, Long and Gould. 

794.10 Basic Histopathology P G 3
Introductory basic pathological changes emphasizing identification, correlation to gross appearance, significance and resolution. Westbrooke. 
Wi Qtr. Prereq: 2nd yr standing. Each student will be provided a microscopic slide study set and a microscope.

795 Seminar in Veterinary Clinical Pathology P G 1-2
Case presentation with emphasis on clinico-pathologic correlations; specimen evaluation, literature searches, preparation of clinico-pathologic case reports, preparation of visual aids. 
Au, Wi, Sp Qtrs. 1 cl. Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs.

810 Advanced Systemic Pathology G 3-5
An advanced study of animal diseases as they affect all organ systems of the body. Capen and staff. 
Wi, Sp Qtrs. Prereq: Permission of instructor.

815 Veterinary Surgical Pathology G 3-5
Biopsy methods and diagnostic; surgical specimens are studied, and emphasis is placed upon the correlation of lesions and functional pathology. Kociba. 
Su, Au, Wi, Sp Qtrs. Prereq: Enrollment in grad program in vet pathology; DVM and experience in basic histopathology; permission of instructor. Not open to students with credit for 715.

850 Seminar in Veterinary Pathobiology G 1
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 16 or hrs. Capen and staff.

999 Research in Veterinary Pathobiology G 1-18
Research for thesis or dissertation purposes only. 
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

VETERINARY PHYSIOLOGY AND PHARMACOLOGY

309 Sisson Hall, 1800 Coffey Road, 422-1391

410 Animal Physiology U 5
Consideration of concepts and principles involved in the function of various body systems in domestic animals. Staff. 
Au, Wi Qtrs. 5 cl. Prereq: Chem 102 or 122.

411 Animal Physiology U 5
Comparative study of physiological concepts and principles involved in endocrinology, metabolism and reproduction in various species of domestic animals. Staff. 
Wi, Sp Qtrs. 5 cl. Prereq: Chem 102 or 122.

599 Humane Preparation of Animals for Physiologic Investigation U G 3
Selection of species, pre-anesthetics, anesthetics, minor surgical procedures, cardiac catheterization, radiography, postmortem examination, and drug therapy as applied to physiologic investigations. Hanlin. 
Sp Qtr. Prereq: Advanced standing in zoology or Physiol 600 or equiv; permission of instructor. Not open to Vet Med students. Offered alternate years (odd years).

</tbody>
</table>
796 Techniques in Comparative Physiology and Pharmacology (P) G 3
Laboratory methods in the study of various phenomena associated with reproduction and pharmacology of sex steroids and gonadotropins. Saudan
Sc Qtr (offered in even-numbered yrs). 3-2 hr labs. Prereq: Vet Med and Med 3rd and 4th yr standing, grad. or permission of instructor.

799 Seminar (P) G 2
Lectures and conferences on selected topics in veterinary physiology and pharmacology. Staff.
Au, Wi, Sp Qtrs. 1-2 hr conf and lab. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs.

999 Research in Veterinary Physiology and Pharmacology (P) G 1-18
Research for thesis or dissertation purposes only. Staff.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

VETERINARY PREVENTIVE MEDICINE

239 Seasons Hall, 1900 Coffey Road, 402-1206

200 Basic Animal Hygiene (U) G 3
Causes of disease and the relationship of these causes to the animal’s environment. Gordon and Hobet.
Au Qtr. 3 cl.

201 Applied Animal Hygiene (U) G 3
Various common diseases responsible for losses to the livestock industry, with emphasis on control. Gordon and Hobet.
Wi Qtr. 3 cl. Prereq: 200 or equiv.

616 Germfree and Gnotobiotic Animals (P) G 5
The instrumentation of biological research through application of germfree and gnotobiotic animals. Kohler.
Au, Wi, Sp Qtrs. 3-2 hr cl and lab. Prereq: Advanced standing in biological sciences, Microbiol 601, 602 or equiv, and permission of instructor.

693 Individual Studies (P) G 2-5
Laboratory and library investigations of animal disease problems involving veterinary preventive medicine. Staff.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 30 or hrs. This course is graded S/U.

694 Group Studies (P) G 2-5
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

711 Applied Veterinary Medicine Options (P) G 3
A series of field studies offered as electives for fourth year veterinary students to arrange into an elective program in conjunction with a faculty adviser.
Su, Au, Wi, Sp Qtrs.

711.01 Herd Health Problems
Field instruction and experience in comprehensive disease prevention, nutritional, reproductive and economic services in modern confinement and conventional livestock production. Hedder.

711.02 Public Service Problems
Instruction and experience in animal and human disease (zoonoses) prevention, control and eradication as provided by public service veterinarians in local, state and national agencies. Nears.

711.03 Laboratory Animal Problems
Instruction and experience in the study of diagnosis and prevention of laboratory animal disease in operating, breeding and experimental colonies of various species. Grayson.

715 Veterinary Public Service (P) G 3
Practice of public service directed at animal and public health in international, national, state, and local agencies with emphasis on planning, decision making, and budgeting; interaction of veterinarian and other health workers. Dom.
Au Qtr.

760 Specialized Study in Veterinary Medicine (P) 1-16
Field or lab study encompassing the various areas in the field of veterinary medicine through a direct preceptorship with qualified professionals.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Vet Med 4th yr standing and permission of instructor. Not open to students with credit for Prev Med 744 or Vet Phys 640 or 746. Cross-listed in all veterinary medicine depts. Repeatable to a maximum of 16 or hrs. This course is graded S/U.

764 Design and Analysis of Comparative Biomedical Research (P) G 3
Theory and application of basic statistical concepts as they affect design, analysis, and interpretation of biomedical research. J. Powers and T. Powers.
Au Qtr. 3 cl. Prereq: Vet Med 2nd, 3rd or 4th yr standing; or permission of instructor. Not open to students with credit for Prev Med 744 or Vet Phys 640 or 746. Cross-listed in Preventive Medicine and Vet Physiology.

765 Biostatistics and Computers in Medical Research (P) G 3
Review of the fundamental concepts of biostatistics, including more complex analysis of variance designs, integrated with application of the electronic computer. J. Powers and T. Powers.
Wi Qtr. 3 cl. Not open to students with credit for Prev Med 765. Cross-listed in Preventive Medicine.

775 Design and Analysis of Comparative Biomedical Research II (P) G 3
Wi Qtr. 3 cl. Prereq: Vet Med 2nd, 3rd, or 4th yr standing or permission of instructor. Not open to students with credit for Vet Phys 641 or 775. Cross-listed in Vet Physiology.

780 Veterinary Epidemiology (P) G 3
The use of descriptive and analytical epidemiologic methods in the solution of infectious and noninfectious disease problems affecting various animal populations. Dom and Beck-Nielsen.
Sp Qtr (offered in odd-numbered yrs). 3 cl. Prereq: 764, Prev Med 600 or equiv, and DVM degree or 2nd, 3rd, or 4th yr standing in vet med.

785 Biological Research Techniques (P) G 3
Lectures and laboratory exercises in laboratory techniques commonly used in biological research. Staff.
Su, Au, Wi, Sp Qtrs. 2-3 hr cl and lab. Prereq: Advanced standing in biological sciences, Microbiol 601, 602, or equiv, and permission of instructor.

794 Group Studies
A course providing small group instruction in the topics designated.
Su, Au, Wi, Sp Qtrs. Repeatable to a maximum of 30 or hrs.

794.01 Public Health-Organization, Environmental Health, Food-Borne Illnesses (P) G 1-8
Deals with the application of public health principles to the solution of community problems. Jones and Monfort.
Wi Qtr. 2 cl. Prereq: Permission of instructor.

794.03 Prevention of Communicable Diseases (P) G 3
Discussion of the epidemiology of communicable diseases of animals and fundamental approaches used by state and federal animal health agencies for prevention, control, and eradication. Donehoo.
Wi Qtr. 3 cl. Prereq: Vet Med 2nd, 3rd or 4th yr standing.
794.04 Food-Borne Illnesses and Human Health P G 2-4
Detailed study of principal zoonotic diseases transmitted by meat foods and food-borne intoxications and infections as related to personal hygiene of food handlers and sanitary food handling practices; the epidemiological approach to problem solving. Gordon.
Wi Qtr. Prereq: Vet Med 3rd or 4th yr standing.

794.05 Applied Food Hygiene P G 2-4
An introduction to post-mortem histopathology and post-mortem examination procedures; disposal of diseased carcasses and parts—applied pathology as relates to meat inspection. Meat chemistry and processing: environmental sanitation; food microbiology. Gordon.
Au Qtr. Prereq: Vet Med 3rd or 4th yr standing.

794.07 Environmental Sanitation P G 3
Students are provided an environmental sanitation book. Discussions related to animal and food hygiene will concentrate on housing, ventilation, waste disposal, soil, water, air, etc. Gordon.
Sp Qtr. Prereq: Vet Med 3rd or 4th yr standing.

794.09 Disease Control in Dairy Cattle P G 4
Principles and applications of preventive medicine in establishing and maintaining dairy herd health programs and laboratory practices in mastitis control. Heider.
Sp Qtr. 2 2-hr cl, 1 2-hr lab. Prereq: Vet Med 3rd or 4th yr standing, and VM Coll 655.

794.10 Zoo Animal Health and Wildlife Medicine P G 4
Discussion of management, care and applied preventive medicine for captive wild animals, considerations of free living wild animal populations, their ecology, major disease problems and their relationship to domestic animal and human health problems. Jones.
Au Qtr. 4 cl and 4-5 1-day field trips. Prereq: Vet Med 2nd, 3rd, 4th or grad standing and students in fisheries and wildlife management and wildlife biology with permission of instructor.

794.11 Laboratory Animal Medicine P G 3
Diseases of sub-human primates, rodents, and exotic animals utilized in biomedical research and teaching; includes preventive medicine and public health as it applies to animal facilities. Grayson.
Wi Qtr. Prereq: Vet Med 3rd, or 4th yr standing.

794.14 Preventive Medicine for Swine Herds P G 2
A discussion of the practical applications of preventive medicine in swine herd health programs with special attention to management, control and treatment. Ingalls.
Sp Qtr. 2 cl. Prereq: Vet Med 3rd or 4th yr standing or DVM.

794.15 Veterinary Health Management Programs for Beef Cattle P G 2
Management, immunization, medication and preventive medical practice to control and prevent common diseases of cattle will be studied. Haas.
Au Qtr. 2 cl. Prereq: Vet Med 3rd or 4th yr standing.

794.16 Veterinary Health Management Programs for Beef Feedlots P G 1
Current knowledge of management, disease control and treatment and preventive medical practice of beef feedlots will be covered. Haas.
Wi Qtr. 1 cl. Prereq: Vet Med 3rd or 4th yr standing.

794.18 Nutrition of Food Producing Animals P G 2
Familiarization with current feeding practices for normal animals. Proper use of feeds-nutrients-additives for maximum economic production and prevention of nutritional and metabolic disease.
Sp Qtr. 2 cl. Prereq: Vet Med 3rd or 4th yr standing.

794.19 Specialized Study in Zoo Animals and Wildlife Medicine P 1-15
Specialized study of zoo animal and wildlife medicine by direct preceptorship with qualified professionals in zoological garden, wildlife disease laboratory or other approved related programs. Donahoe.
Su, Au, Wi, Sp Qtr. Field experience and preceptorship in an approved program. Prereq: Vet Med 4th yr standing and permission of instructor. Student must be on elective quarter.

850 Seminar in Veterinary Preventive Medicine Au, Wi, Sp Qtrs. Repeatable to a maximum of 3 or hrs.

850.01 Seminar in Veterinary Preventive Medicine G 1
This course is graded S/U.

999 Research in Veterinary Preventive Medicine G Arr
Research thesis or dissertation purposes only.
Su, Au, Wi, Sp Qtrs. This course is graded S/U.

Vocational Education, Comprehensive

881 Vocational Education Seminar G 1-3
An interdisciplinary seminar on state-of-the-art, trends, and issues in comprehensive vocational education.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs.

893 Individual Studies in Vocational Education G 1-3
Individual research and study on approved topics in comprehensive vocational education.
Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

894 Group Studies in Vocational Education G 1-3
Selected topics directly related to comprehensive vocational education.
Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs.

999 Research in Vocational Education G Arr
Individual dissertation research on problems of significance in comprehensive vocational education.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of adviser. Repeatable. This course is graded S/U.

Welding Engineering

124 Welding Engineering Laboratories, 190 West 19th Avenue, 422-6641

240 Forging, Heat Treating, and Welding U 4
Welding fundamentals and applications; intended for students not having an engineering background; laboratory work designed to augment classroom discussions and provide basic welding skills. Green.
Au, Sp Qtrs. 3 cl, 3 1-hr lab. Safety glasses must be worn in laboratory.

293 Individual Studies in Welding Engineering U 1-5
Topics in welding engineering of individual interest at the undergraduate level; must be arranged with a member of the department faculty.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

302 Introduction to Welding Engineering U 3
The principles of welding engineering with emphasis on welding processes; welding process demonstrations are included. Green.
Wi Qtr. 3 cl. Prereq: Physics 133 and a minimum cumulative point-hour ratio of 2.0.
303 Introduction to Welding Engineering I  U 3
The principles of welding engineering with emphasis on materials, heat transfer, arc, and safety. Safety glasses must be worn in laboratory.
Sp Qtr. 3 cl. Prereq: 302.

340 Welding Science and Its Application  U 3
A study of the welding fundamentals of design, welds, and processes are considered as related to the welding field.
Sp Qtr. 3 cl. Prereq: 240 or permission of instructor. Not open to students majoring in welding. Safety glasses must be worn in laboratory.

350 Introductory Welding Laboratory I  U 1
Introduction to manual welding processes; student must demonstrate a fundamental knowledge of welding arc and gas tungsten arc welding. Green.
Au, Wi Qtr. 1 3-hr lab. Prereq or concur: 302 or permission of instructor. Safety glasses are required.

351 Introductory Welding Laboratory II  U 1
Introduction to semi-automatic welding processes; student must demonstrate a fundamental working knowledge of flux-cored arc and gas metal arc welding. Green.
Wi, Sp Qtr. 1 3-hr lab. Prereq or concur: 303 or permission of instructor. Safety glasses are required.

489 Practical Experience in a Welding Organization I
Experience in an engineering organization and the preparation of an acceptable report on the organization and the work done.
Au, Wi, Sp Qtr. Prereq: Permission of chair.

501 Principles of Arc Welding Systems  U 4
Study of the system aspects of arc welding processes; includes theory and experimentation with power sources, welding arcs, arc controls and performance characteristics. Richardson.
Au Qtr. 3 cl. 1 3-hr lab. Prereq: 303 and prerequisite or concur: ELEC 000. Safety glasses must be worn in laboratory.

502 Welding Production  U 4
Production consideration with emphasis on jigs, fixtures, and welding equipment; includes product design for resistance and arc welding processes. Green.
Sp Qtr. 3 cl. 1 3-hr lab. Prereq or concur: 605. Safety glasses must be worn in laboratory.

504 Welding and Joining Process Applications  U 3
The fundamentals and applications of high energy density welding, brazing, welding, solid-state welding, and adhesive bonding. Albritt.
Au Qtr. 3 cl. Prereq: 303.

589 Practical Experience in Welding Industry I  U 1
Experience in an engineering organization and the preparation of an acceptable report on the organization and the work done.
Au, Wi, Sp Qtr. Prereq: Permission of chair.

595 Seminar in Welding Engineering I  U 1
Lectures and discussions covering a range of topics presented by faculty, graduate students, and guest speakers; includes visits to selected industrial sites.
Sp Qtr. 1 cl. Prereq: 301 or 302. Written permission of instructor. This course is graded S/U.

601 Arc Welding Process Applications  U 4
Manual, semi-automatic, and automatic arc welding processes with primary emphasis on considerations for various joining applications. Richardson.
Wi Qtr. 3 cl. 1 3-hr lab. Prereq: 501. Safety glasses must be worn in laboratory.

605 Principles of Welding Process Control  U 3
Study of principles and practical application of control systems and control elements of welding processes. Richardson.
Sp Qtr. 3 cl. Prereq: 501 and Mech 415.

610 Physics of Welding  U 4
The application of basic physical and chemical principles in welding processes with emphasis on heat transfer, distortion, residual stress, chemical—metalurgical reactions, and welding methods. Banik.
Au Qtr. 3 cl. 1 3-hr lab. Prereq: 303 and Mech En 560 and Eng Mech 420. Not open to students with credit for 510. Safety glasses must be worn in laboratory.

611 Welding Metallurgy I  U 4
Application of metallurgical principles in welding; weldability of metals with emphasis on carbon and low alloy steels; laboratory involves physical and metallographic examinations of welds. Howlden.
Wi Qtr. 3 cl. 1 3-hr lab. Prereq: 610 and Mech En 551. Safety glasses must be worn in laboratory.

612 Welding Metallurgy II  U 4
The welding metallurgy of non-ferrous alloys, including stainless steels, nickel alloys, and aluminum alloys; welding procedure development. Green.
Sp Qtr. 3 cl. Prereq: 611. Safety glasses must be worn in laboratory.

620 Welding Design I  U 3
Analysis and design of welded structures; interactions of the welds, the structural members and applied loads; development of welding procedures for shop fabrication and field erection. Tsai.
Au Qtr. 3 cl. Prereq: Eng Mech 420. Not open to students with credit for 720.

621 Welding Design II  U 3
Welding design of curved beams, stiffened plates, tubular frames, pressure vessels, torsional and rotating members, and machine bases; redesign of castings and forgings as weldments. Tsai.
Wi Qtr. 3 cl. Prereq: 620 and Mech En 561. Not open to students with credit for 721.

622 Welding Design III  U 3
Toughness, stress, and fatigue strength of weld metal; design of weldments considering heat flow, residual stresses, and distortion. Tsai.
Sp Qtr. 3 cl. Prereq: 621, and Mech En 562. Not open to students with credit for 722.

631 Nondestructive Evaluation  U 4
Principles, equipment, techniques, and interpretation of nondestructive tests with X-rays, radiocines, magnetic fields, penetrants, ultrasonics, eddy currents, and other testing methods. Graff.
Au Qtr. 3 cl. 1 3-hr lab. Prereq: 4th yr standing in ENG or equiv with written permission of instructor. Safety glasses must be worn in laboratory.

634 Introduction to Ultrasonics  U 4
Ultrasonics in solids and fluids; ultrasonic generators and systems; physical acoustics applications of ultrasonics. Adler.

641 Welding Codes, Specifications and Standards  U 3
Consideration of the welding requirements in a variety of industry and government documents including examples from the aircraft, automotive, maritime, piping and pressure vessel fields. Green.
Au Qtr. 3 cl. Prereq: 4th yr standing in ENG or permission of instructor.
656 Robot Programming and Operations U G 1
Types and applications of industrial robot systems; lab experience in robot operation and programming. Richardson. Wi, Sp Qtrs. 1 cl, 1 2-hr lab. Prereq: Permission of instructor.

681 Nondestructive Evaluation Seminar U G 1
Theory and application of nondestructive evaluation as presented in lectures by faculty, staff, graduate students, and guest speakers. Au, Wi, Sp Qtrs. 1 cl. Prereq: 4th yr standing in ENG. Repeatable to a maximum of 6 or hrs. This course is graded S/U.

694 Group Studies in Welding Engineering U G 1-15
The student must register for particular topics from fields of welding engineering: the topics, or hrs, and instructor will be announced in quarter previous to the quarter offered. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs.

695 Seminar in Welding Engineering II U G 1
Lectures and discussions covering a range of topics presented by faculty, graduate students, and guest speakers: Includes visits to selected industrial sites. Wi Qtr. 1 cl. Prereq: 4th yr standing in ENG or equiv with written permission of instructor. This course is graded S/U.

701 Solid State Welding U G 3
The welding and joining of metals in the solid state with emphasis on processes and metallurgical principles. Albright. Au Qtr. 3 cl. Prereq: Metal En 500 or permission of instructor.

703 Brazing and Soldering U G 3
Brazing and soldering processes with emphasis on physical and metallurgical principles, materials, design, and application considerations. Au Qtr. 3 cl. Prereq: 504 or permission of instructor.

704 High Energy Density Welding Processes U G 3
Theory and practices in laser, electron beam, plasma, and other high energy density welding processes; process demonstrations. Albright. Sp Qtr. 3 cl. Prereq: 504.

705 Advanced Welding Process Control Systems U G 3
Principles of continuously variable and digital control systems for manual, mechanized, automatic, and feedback operation of arc, resistance, and advanced welding processes. Richardson. Wi Qtr. 3 cl. Prereq: 605.

714 Weldability U G 3
Weldability of alloy systems—steels, stainless steels, nickel, aluminum, and titanium alloys—with reference to basic metallurgical phenomena, weldability testing, and interpretation; individual projects and presentations. Baetsch. Sp Qtr. 3 cl. Prereq: 611; prereq or concur: 512.

723 Analysis of Welding Systems U G 3
Development of an analytical and empirical basis for the selection of optimum parameters in the design and fabrication of welded structures. Tsai. Au Qtr. 3 cl. Prereq: 522.

732 Ultrasonic Nondestructive Evaluation U G 4
Principles of ultrasonic wave interaction with material structures with emphasis on nondestructive measurement of material discontinuities, properties, and non-uniformities. Adler. Wi Qtr. 3 cl, 1 3-hr lab. Prereq: 631 or permission of instructor, and Math 255 or 256 or 416.

733 Electromagnetic Nondestructive Evaluation U G 4
Fundamentals of electromagnetic fields and waves with emphasis on eddy current NDE methods; electromagnetic generation of ultrasonic waves and optical methods. Adler. Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 631 or permission of instructor, and Math 255 or 256 or 416.

738 Health and Safety U G 3
Major health and safety hazards associated with welding and cutting; radiation, fumes, gases and noises; discussion of hazard origin, technological control, physiological effects, and regulatory control. Howden. Sp Qtr. 3 cl. Prereq: 801 or permission of instructor.

740 Fitness-for-Service of Welded Structures U G 3
The interrelationship of design, fabrication, nondestructive evaluation, fracture mechanics, and reliability concepts in establishing the overall fitness-for-purpose of welded structures. Graft. Sp Qtr. 3 cl. Prereq: 620 or permission of instructor.

755 Welding Process Control Laboratory U G 1
Laboratory experiments in basic instrumentation and control systems for welding processes such as arc, resistance, electron-beam, and others. Richardson. Wi Qtr. 1 3-hr lab. Concur: 705.

793 Individual Studies in Welding Engineering U G 1-15
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

799 Thesis U 2-15
Undergraduate research providing an opportunity to publish a report in appropriate technical publications. Su, Au, Wi, Sp Qtrs. Prereq: 4th yr standing in ENG and permission of instructor. Repeatable to a maximum of 15 or hrs.

801 Welding Arc Physics G 3
Theoretical study of the physics of welding arcs including processes of current maintenance and heat dissipation, arc radiation and spectra, arc stability, magnetic fields and flows. Richardson. Wi Qtr. 3 cl. Prereq: 501.

821 Residual Stresses and Distortion in Weldments G 3
A study of the formation, mechanisms of residual stresses and distortions, mathematical formulations and experimental analysis methods for distortion control. Tsai. Wi Qtr. 3 cl. Prereq: 723.

835 Advanced NDE Methods G 4
Modern physical principles as basis for quantitative nondestructive evaluation techniques; includes wave-matter interaction, ultrasonic interaction with light, optical and acoustical holography. Adler. Au Qtr. 3 cl, 1 3-hr lab. Prereq: 631, 732, and 733, or permission of instructor, and Math 512.

884 Advanced Problems in Welding Engineering G 2-5
Provides the opportunity to pursue special problems in welding engineering not otherwise available. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

894 Group Studies in Welding Engineering G 2-5
Special topics in welding engineering. The particular topic, credit hours, and the instructor will be announced in the quarter previous to the one in which the course is offered. Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 10 or hrs.

999 Research in Welding Engineering G Arr
Research for thesis or dissertation purposes only. Su, Au, Wi, Sp Qtrs. This course is graded S/U.
Women's Studies

201 Introduction to Women's Studies in the Humanities U 5
Examination of the feminist viewpoint through interdisciplinary studies in the humanities; the relationship of feminist concepts, methods, and analyses to traditional, academic disciplines in humanities.
Au, Wi, Sp Qtrs. 5 cr. H201 (honors) may be available to students enrolled in an honors program or by permission of dept. Not open to students with credit for 202. BER/LAC/LAR course.

202 Introduction to Women's Studies in the Social and Behavioral Sciences U 5
Examination of the feminist viewpoint through interdisciplinary studies in the social and behavioral sciences; the relationship of feminist concepts, methods, and analyses to traditional, academic disciplines in the social and behavioral sciences.
Au, Wi, Sp Qtrs. 2 2½-hr cr. Not open to students with credit for 201. BER/LAC/LAR course. 25 Advised Cond course.

215 Women Writers: Text and Context U 5
An interdisciplinary inquiry into the nature of the female literary tradition and its complex relationships to cultural ideology regarding the status of women, past and present.
Au, Wi, Sp Qtrs. 5 cr. Prereq: English 110 or 111 or equiv. Not open to students with credit for Comp Std 215.01 or 215.02. BER/LAC/LAR course. Fulfills in part the ASC advanced English composition requirement.

The Black Woman: Her Role in the Liberation Struggle
See Black St 230.

Language and the Sexes
See Linguist 230.

History of Women in the United States
See History 237.

Women in Ancient Hebrew Literature
See Hebrew 274.

234 Group Studies U 1-5
Special studies not otherwise offered.
5 cr. Repeatable to a maximum of 15 cr hrs.

H296 Topics in Women's Studies U 5
In-depth study in Women's Studies focusing on current issues in feminist analysis.
Repeatable to a maximum of 10 cr hrs.

300 Issues in Women's Health U 5
An interdisciplinary inquiry into the issues affecting women's health and the politics of gender in the medical health care profession.
Wi Qtr. 2 2½-hr cr. Prereq: 201 or 202 recommended.

Women Writers: Feminism and Theology
See Comp Std 315.

Women and Film
See Comp Std 317.

400 American Women's Movement U 5
An interdisciplinary analysis of the American women's movement, including historical, literary, sociological, and theoretical perspectives.
Au Qtr. 2 2½-hr or 5 cr. Prereq: 201 or 202.

Sociology of Women
See Socio 435.
Yiddish

255 Dieter Curz Hall Languages, 1841 Millikin Road, 422-9255

101 Elementary Yiddish I U 5
Introduction to Yiddish; development of listening, reading, speaking and writing skills.
Au Qtr. 5 cl. This course is available for EM credit. FL Admin Cond course.

102 Elementary Yiddish II U 5
Continuation of 101; further development of listening, reading, speaking and writing skills; reading of simplified literary texts about Yiddish culture.
Wi Qtr. 5 cl. Prereq; 101. This course is available for EM credit. FL Admin Cond course.

103 Intermediate Yiddish I U 5
Continued study of Yiddish; development of listening, reading, speaking and writing skills; reading of simplified literary texts about Yiddish culture.
Sp Qtr. 5 cl. Prereq; 102. This course is available for EM credit.

104 Intermediate Yiddish II U 5
Readings of Yiddish short stories and poems with attention to literary and cultural appreciation; development of basic language skills.
Au Qtr. 5 cl. Prereq; 103. This course is available for EM credit.

271 Yiddish Literature in Translation: Prose U 3
Reading, analysis, and discussion of major writers of Yiddish prose including Mendele, Sholem Alekhem, Peretz, and I. B. Singer.
Sp Qtr. 3 cl. Taught in English. BER/LAC course.

272* Yiddish Folklore in Translation: Materials and Methods U 3
An introduction to Yiddish folklore.
Sp Qtr. 3 cl. Taught in English.

Masterpieces of Judaic Literatures
See Jewish and Near Eastern Languages and Literatures (JANEIL) 273.

273* Yiddish Literature in Translation: Modern Poetry and Traditional Folk Song U 5
Survey of modern Yiddish poetry and folk song composed in Europe, the United States, and Israel.
Sp Qtr. 5 cl. Taught in English.

693 Individual Studies U G 1-5
Su, Au, Wi, Sp Qtr. Arr. Prereq; Written permission of instructor. Maximum of 15 cr hrs. This course is graded S/U.

694 Group Studies U G 1-5
Special topics to be announced in the quarter previous to the one in which the course is offered.
Au, Wi, Sp Qtr. Prereq; Permission of instructor. Repeatable to a maximum of 15 cr hrs.

Zoology

104 Botany and Zoology Building, 1735 Neil Avenue, 422-6088

201 General Zoology U 5
A study of the variety of animals, emphasizing organ systems and their functions, and how animals interact with one another and their environment. Fairchild, Myser, and Stein.
Au, Wi, Sp Qtr. 3 cl. 2-2 hr labs. Prereq; Biology 110 or 113 or H115 or Botany 112. This course is available for EM credit. BER/LAC/LAR course. NS Admin Cond course.

213 The Biosphere and Society U 3
An examination of how natural and human ecosystems function with respect to the biosphere and the resources needed for survival.
Sp Qtr. 3 cl. Not intended for majors in biological sciences.

220 Introduction to Field Ornithology U 3
The natural history and classification of birds, with emphasis on the relationships between birds and their habitats and on the field identification of local species.
Sp Qtr. 2 cl. 1-3 hr lab, optional Sat field trips. Prereq; 5 or hrs in introductory biology. NS Admin Cond course.

232 Introductory Physiology U 5
A survey of human reproduction, digestion, metabolism, respiration, circulation, kidney function, nerves, nervous system, sense organs, and muscle function. Greenwald and Lustick.
Wi, Sp Qtr. 5 cl. Prereq; Biology 110 or 113 or H115. Credit does not count toward a major in zoology. BER/LAC/LAR course. NS Admin Cond course.

235 Introductory Vertebrate Anatomy U 5
An introduction to vertebrate anatomy with emphasis on mammalian anatomy. Gaunt, Hetzingerling, and Simpich.
Au, Wi, Sp Qtr. 3 cl. 1-3 hr lab. Prereq; 5 or hrs in general biology. Not open to premedical students. Not open to students with credit for 205. Credit does not count toward a major in zoology. BER/LAC/LAR course. NS Admin Cond course.

293 Individual Studies U 1-5
Individual work in the field of the chosen problem.
Su, Au, Wi, Sp Qtr. Arr. Prereq; 201 and written permission of instructor. Only 5 hrs to count on zoology major. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

294 Group Studies U 1-5
Study of selected topics in zoology.
Prereq; Permission of instructor. Repeatable to a maximum of 10 cr hrs with different topics.

313 Introduction to Ecology U 5
Distribution and abundance of species, population dynamics, the basic energetics of living systems, and evaluation of the ecosystem concept. Collinroax.
Au, Wi Qtr. 5 cl. Prereq; 10 or hrs in biological sciences. Not open to students with credit for 313.01 or 313.02 or Botany 313.01 or 313.02 or 313. Cross listed in Botany. BER/LAC/LAR course. NS Admin Cond course.
Yiddish

256 Dieter Cunz Hall Languages, 1941 Milikin Road, 422-9255

101 Elementary Yiddish I U 5
Introduction to Yiddish: development of listening, reading, speaking and writing skills.
Au Qtr. 5 cl. This course is available for EM credit. FL Admis Cond course.

102 Elementary Yiddish II U 5
Continuation of 101; further development of listening, reading, speaking and writing skills.
Wi Qtr. 5 cl. Prereq: 101. This course is available for EM credit. FL Admis Cond course.

103 Intermediate Yiddish I U 5
Continuation of 101; further development of listening, reading, speaking and writing skills; reading of simplified literary texts about Yiddish culture.
Sp Qtr. 5 cl. Prereq: 102. This course is available for EM credit.

104 Intermediate Yiddish II U 5
Readings of Yiddish short stories and poems with attention to literary and cultural appreciation; development of basic language skills.
Au Qtr. 5 cl. Prereq: 103. This course is available for EM credit.

271 Yiddish Literature in Translation: Prose U 3
Reading, analysis, and discussion of major writers of Yiddish prose including Mendele, Sholem AyeKhnem, Peretz, and I. B. Singer.
Sp Qtr. 3 cl. Taught in English. BER/LAC course.

272* Yiddish Folklore in Translation: Materials and Methods U 3
An introduction to Yiddish folklore.
Sp Qtr. 3 cl. Taught in English.

Masterpieces of Judaic Literatures
See Judaic and Near Eastern Languages and Literatures (JANELL) 273.

273* Yiddish Literature in Translation: Modern Poetry and Traditional Folk Song U 5
Survey of modern Yiddish poetry and folk song composed in Europe, the United States, and Israel.
Sp Qtr. 5 cl. Taught in English.

Individual Studies U 1-5
Su, Au, Wi, Sp Qtrs. Prereq: Written permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

Group Studies U 1-5
Special topics announced in the quarter previous to the one in which the course is offered.
Su, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs.

Zoology

104 Botany and Zoology Building, 1735 Neil Avenue, 422-8088

201 General Zoology U 5
A study of the variety of animals, emphasizing organ systems and their functions, and how animals interact with one another and their environment. Fairchild, Myer, and Stein.
Au, Wi, Sp Qtrs. 3 cl. 2-3 hrs lab. Prereq: Biology 110 or 113 or H115 or Botany 112. This course is available for EM credit. BER/LAC/LAR course. NS Admis Cond course.

213 The Biosphere and Society U 3
An examination of how natural and human ecosystems function with respect to the biosphere and the resources needed for survival.
Sp Qtr. 3 cl. Not intended for majors in biological sciences.

220 Introduction to Field Ornithology U 3
The natural history and classification of birds, with emphasis on the relationships between birds and their habitats and on the field identification of local species.
Sp Qtr. 2 cl. 1-3 hr lab. Prereq: 5 or hrs in introductory biology. NS Admis Cond course.

232 Introductory Physiology U 5
A survey of human reproduction, digestion, metabolism, respiration, circulation, kidney function, nerves, nervous system, sense organs, and muscle function. Greenwald and Lustick.
Wi, Sp Qtrs. 5 cl. Prereq: Biology 110 or 113 or H115. Credit does not count toward a major in zoology. BER/LAC/LAR course. NS Admis Cond course.

235 Introductory Vertebrate Anatomy U 5
An introduction to vertebrate anatomy with emphasis on mammalian anatomy. Gaunt, Hetherington, and Singley.
Au, Wi Qtrs. 3 cl. 1-3 hr lab. Prereq: 5 or hrs in general biology. Not open to premedical students. Not open to students with credit for 335. Credit does not count toward a major in zoology. BER/LAC/LAR course. NS Admis Cond course.

313 Introduction to Ecology U 5
Distribution and abundance of species, population dynamics, the basic energetics of living systems, and evaluation of the ecosystem concept. Collinvaux.
Au, Wi Qtrs. 5 cl. Prereq: 10 or hrs in biological sciences. Not open to students with credit for 313.01 or 313.02 or Botany 313.01 or 313.02 or 313. Cross listed in Botany. BER/LAC/LAR course. NS Admis Cond course.
320 Introduction to Biology of the Sea U 3
Kinds, distribution, interactions, and ecological problems of marine organisms; the oceanic environment; pollution and productivity of the oceans. Hills. Wt Qtr. 3 cl. Prereq: 201 or equiv.

335 Morphology of the Vertebrates U 5
Basic structural characteristics of vertebrates in evolutionary, developmental, and functional contexts. Gaunt, Hetherington, and Singley. Au, Wi Obrs. 4 d. 1 3-hr lab. Prereq: 201. Not open to students with credit for 231, 235, or 434. For pre-medical or science majors.

340 Introductory Ethology U 5
Observations of animal behaviors, and introductory analysis of their adaptive value, physiological mechanisms, development, and evolution; emphasis on movie presentations, reading, and small-group discussions. Ginzb. Sp Qtr. 4 cl. 1 2-hr field work per week. Prereq: 201. Not open to students with credit for 249. BPR/LAC/CLAR course.

420 Evolution U 5
The principles of organic evolution; demonstrations and discussion of the facts and theories underlying the evolution of man and other living things. Mitchell and Valentine. Wi, Sp Qtrs. 5 cl. Prereq: 201. Not open to students with credit for Biology 420.

432 General Physiology U 5
A survey of the physical and chemical bases of physiological mechanisms in animals. Lustick. Wi Qtr. 3 cl. 2 3-hr labs. Prereq: Chem 242 and Physics 112, or equivs. and 15 or hrs in biological sciences.

433 Comparative Embryology and Development U 5
A basic course considering descriptive and experimental work pertaining to developmental processes in unicellular and multicellular animals with emphasis on the vertebrate embryo. Tassava. Wi Qtr. 3 cl. 2 2-hr labs. Prereq: 201 or equiv, or written permission of instructor.

470 Biology of Vertebrates U 5
Analysis of the anatomical, physiological, behavioral and ecological characteristics of the major vertebrate groups. Downhower. Au Qtr. 3 cl. 2 2-hr labs. Prereq: 201.

501 Natural History of Australia U 5
Study of the geography, geology, anthropology, botany, and zoology of the island continent from ecological, evolutionary, and biogeographical perspectives. Mansfield. Au Qtr. 2 2½-hr cl. Prereq: 201 or permission of instructor. Designed for students in geography and the biological sciences who have an interest in biogeography, ecology, and evolution.

505 Oceanography and Marine Biology U 5
Modern concepts in oceanography, including chemical, physical and biological processes of the sea, environmental factors influencing marine life, and man's impact on ocean resources. Herdendorf. Au Qtr. 1 2½-hr cl. Prereq: 20 cl. 20 cl. in natural sciences, to include both biological and physical sciences.

530 General History U 5
A detailed study of the tissues of vertebrate animals, and a general survey of the microscopic structure of various organs. Singley. Sp Qtr. 3 cl. 2 3-hr labs. Prereq: 330 or equiv.

532 Introduction to Neuroscience U 5
An introduction to the nervous system emphasizing its systems aspects: signal processing in invertebrates and vertebrates is examined in relation to structure and function. Lipetz. Sp Qtr. 5 cl. Prereq: 201, 432 is recommended; Chem, 123 and Physics 112. Not repeatable.

540 Sensory Bases of Behavior U G 5
An exploration and analysis of animal sensory mechanisms—ways in which energy and information concerning environmental events are modulated and converted into meaningful biological signals. Jung. Sp Qtr. 5 cl. Prereq: 432.

610 Animal Parasitology U G 5
The general principles of parasitology, emphasizing morphology, the biology of parasites, identification and host relationships of protozoan and metazoan parasites of zooological, medical and veterinary importance. Crites and Poppels. Au, Wi Qtrs. 3 cl. 2 3-hr labs. Prereq: 201 or equiv, jr standing or above.

611* Animal Parasitology U G 5
Emphasis on the parasites infecting freshwater vertebrates, including field and laboratory experiences, host examination, and techniques dealing with staining, fixing, and mounting of specimens of the various vertebrate groups. Crites and Culver. Su Qtr (2nd term), Franz Theodore Stone Lab, 3 all-day cl per wk. Prereq: 201 or equiv.

612 Invertebrate Zoology U G 5
The collection and identification of invertebrate animals, development of methods of classification, and use of keys. Valentine and Culver. Su Qtr (2nd term), Franz Theodore Stone Lab, 3 all-day cl per wk. Prereq: 201 or equiv.

613 Biology of the Invertebrates U G 5
Ecology, evolution, morphology, embryology, and physiology of major invertebrate groups exclusive of insects; labs will illustrate lecture concepts using living and preserved material. Wi Qtr. 3 cl. 2 2-hr labs. Prereq: 201 and 10 additional or hrs in zoology above the 200-level or equiv.

618 Environmental Pollution Abatement U G 5
Problems, philosophies, principles, and methods of pollution abatement in the total environment; quantitative approaches to environmental problems in air, water, and land systems. Carey. Wi Qtr. 5 cl. Prereq: Sr or grad standing in engineering or science. Not open to students with credit for Agri Eng 714, Civil En 518, 520, 518, or 714; Chem Eng 714, Mech Eng 518 or 714; Metal Eng 714; or Zoology 714. Cross listed in Civil Engineering and Mechanical Engineering.

620 Zoology of Vertebrates U G 5
A study of the various vertebrate classes, emphasizing their origin, phylogeny, classification, life histories, habits, distribution, and economic importance. Downhower. Sp Qtr. 3 cl. 1 4-hr lab which may meet on Saturdays. Prereq: 420 or equiv with written permission of instructor.

621 Ichthyology U G 5
Study of the distribution and classification of fishes which includes methods of identification, collection, and preservation. Cavender. Su Qtr (1st term), Franz Theodore Stone Lab, 3 all-day cl per wk. Prereq: 201 or equiv.

622* Herpetology U G 5
Local species of reptiles and amphibians, their habits, life histories, ecology, and classification. Su Qtr (2nd term), Franz Theodore Stone Lab, 3 all-day cl per wk. Sp Qtr on Columbus campus, 4 cl. 1 2-hr lab. Prereq: 201 or equiv.

624* Advanced Ornithology U G 5
Topics include instinctive behavior in the life of birds, the breeding cycle, social relations, territory, ecology, characteristics of population, and techniques in field study of birds. Su Qtr (1st term), Franz Theodore Stone Lab, 3 all-day cl per wk. Prereq: 201 or equiv.

625 Mammalogy U G 5
Mammals of the world, their natural history, distribution, taxonomy, and major anatomical and physiological adaptations; study of local species emphasized in lab. Harder. Wi Qtr. 3 cl. 2 2-hr labs. Prereq: 201 or equiv.
626 Biology of Fishes U G 5
The laboratory emphasizes ecological and systematic ichthyology; lectures emphasize the behavior, migration, distribution, and evolution of fishes. Cavender. Sp Qtr. 3 cl, 1 3-hr lab. Prereq: 201, 15 or hrs in biological sciences, and permission of instructor.

633 Vertebrate Physiology U G 5
The physiology of vertebrates with emphasis on physiological adaptations to climatic problems. Luo or Glinnwalz. Sp Qtr. 3 cl 6 lab hrs arr. Prereq: 432 or equiv. or grade standing.

633* Comparative Chordate Morphology U G 5
Clariﬁcation by demonstration and discussion of the morphological evidences for current theories of chordate evolution and phylogeny; individual projects required. Sp Qtr. 2-3 hr lec/labs. Prereq: 335 or 434 or permission of instructor.

637* Aspects of Vertebrate Functional Anatomy U G 5
Exploration of interactions of historical, mechanical, and functional factors that affect the structure of recent vertebrates. Sp Qtr. 4 cl, 1 3-hr lab. Prereq: 335 or equiv or permission of instructor. Not open to students with credit for 535.

640 Animal Behavior U G 5
An experimental study of the biological basis of animal reactions. Au, Wi Qtrs. 3 cl, 2 2-hr labs. Prereq: 340.

647* Plankton U G 5
Identiﬁcation, quantiﬁcation, distribution and control of freshwater plankton. Culver. Au Qtr. 4 2-hr cl, several field trips. Prereq: Jr standing with 20 or hrs in biological sciences. Not open to students with credit for Botany 947. Cross-listed in Botany.

650 Principles of Animal Ecology U G 5
Principles and methods of animal ecology and their application to other closely related biological sciences. Starinsky. Sp Qtr. 3 cl, 2-3 hr labs. Sat ﬁeld trips. Prereq: 313 or 313.01 and 313.02.

651* Field Zoology U G 5
Field and laboratory identiﬁcation of aquatic and terrestrial vertebrates and invertebrates of the region, in relation to habitats occupied. Valentine. Su Qtr (1st term), Franz Theodore Stone Lab, 3 all-day cl per wk. Prereq: 201 or equiv.

652 Limnology U G 5
Study of physical, geological, chemical, and biological factors inﬂuencing freshwater life; ﬁeld and laboratory techniques for determining lake morphometry, chemistry and biological productivity are emphasized. Herdendorf. Su Qtr (1st term), Franz Theodore Stone Lab, 3 all-day cl per wk. Prereq: 201 or equiv with written permission of instructor. 10 or hrs in chem, 10 or hrs in physics.

653 Fish Ecology U G 5
Field and laboratory studies of the histories and interspeciﬁc relationships of ﬁshes and of the various factors inﬂuencing their abundance. Reuter. Su Qtr (2nd term), Franz Theodore Stone Lab, 3 all-day cl per wk. Over night ﬁeld trips. Prereq: 621 or equiv.

655 Limnology U G 5
A study of the physical, chemical, and biological factors inﬂuencing the biological productivity of inland waters and of techniques and equipment used in evaluating them. Culver. Sp Qtr. 3 cl, 1 4-hr lab, several ﬁeld trips (some Sat). Prereq: 10 or hrs in chem and 20 or hrs in biological sciences.

660* Fisheries Biology U G 5
The productivity of ﬁsh populations and the ecological relationships between ﬁshes and other aquatic organisms. R. Stein. Wi Qtr. 3 cl, 2-2-hr labs. Prereq: 655 or equiv.

661 Wildlife Biology U G 5
Study of the inﬂuence of ecological succession and human land use on wildlife habitat, and an exploration of wildlife population ecology. Hardin. Au Qtr. 3 cl, 2 2-hr labs, occasional ﬁeld trips (some Sat). Prereq: 15 or hrs in biological sciences above the 100-level, including 313 or equiv.

662 Wildlife Biology Techniques U G 5
Techniques employed in the ﬁeld of wildlife biology, with emphasis on game birds and mammals; designed for zoology majors specializing in wildlife biology. Stat. Wi Qtr. 3 cl, 2 2-hr labs, ﬁsh ﬁeld trips. Prereq: 661 or equiv. Genetics 650 or equiv.

665* Research Techniques in Fishery Biology U G 5

692 Workshop U G 1-6
Intensive study of topics in zoology; format will depend upon the topic and time. Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of workshop director. Repeatable to a maximum of 12 or hrs.

693 Individual Studies U 2-5 G 2-10
Individual work in the ﬁeld of the chosen problem. Au, Wi, Sp Qtrs. Prereq: Permission of instructor. No more than 5 cr hrs may be counted toward an undergraduate zoology major. Repeatable to a maximum of 15 or hrs for undergraduates. This course is graded S/U.

A—Anatomy. Gaunt, Hetherington and Singley
C—Animal Ecology. Peterle, Stansberry, Colinvaux, Downhower, Mitchell, Culver, Berra, Bart, Chesson, Fairchild, and Harder
D—Embryology and Vertebrate Zoology. Downhower, Singley, and Tassava
E—Invertebrate Zoology. Critts, Mitchell, Culver, and Valentine
F—Ornithology. Gaunt, Grubb, Lustick, Putnam, and Fairchild
G—Parasitology. Critts, Mitchell, and Pappas
H—Wildlife Biology. Bookhout, Harder, Peterle, and Stat
I—General Limnology. Colinvaux, Culver, Hills, and Herdendorf
J—Comparative Physiology. Lustick and Greenwald
K—Electron Microscopy. Parnell and Singley
N—Ichthyology. Berra, Cavender, and R. Stein
O—Fisheries Biology. Berra, Cavender, R. Stein, Carline, and Margraf

694 Group Studies U 2-5
Group work in the ﬁeld of the chosen problem (see topics in 693).
Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 20 or hrs for undergraduates and to a maximum of 35 or hrs for grad.

698 Study Tours U G 1-15
Study tours in the zoological sciences. Sp Qtrs. Classwork at OSU arr. travel and study abroad. Prereq: Demonstrated interests and/or abilities in subjects pertinent to the study area, by written permission of tour leader/instructor. Repeatable for different titled study tours only.
710 Fish and Wildlife Parasitology U G 5

Emphasis on parasites infesting fish and wild animals, on life histories, ecology, host-parasite relationships, pathogenesis, control, and laboratory experience. Field or laboratory methods and techniques. Cr: 3.
Sp Qtr. 3 cr, 2 hr-lab. Prereq: Permission of instructor.

711 Ecological Investigations of Biotic Areas of North America U G 8

Traveling and living away from the campus is required; intensive field work in a variety of environments will involve both supervised and independent study.
Au Qtr. Field trip during the month preceding the qtr in which this course is offered, 1 weekly 2-hr seminar on campus during the qtr. Prereq: 15 cr hrs in biological sciences at 600-level or above or with written permission of instructor. Repeatable by permission of instructor only. Travel and subsistence costs for the field trip will be borne by the student. For further information contact the dept. office.

713 Theoretical Ecology U G 5

The models, assumptions, and conclusions of the mathematical theory of ecology including stability notions, deterministic and stochastic models, and models for patchy environments. Cr: 3.
Wi Qtr. 5 cr. Prereq: 313 or equiv; differential and integral calculus, and elementary probability and statistics.

721 Marine Biology Seminar U G 3

Detailed study of various aspects of marine environment and marine life. Cr: 3.
Sp Qtr. 3 cr. Prereq: Sr or grad standing; 320 or equiv with written permission of instructor. Repeatable to a maximum of 5 cr hrs.

723 Biology of Birds U G 3

The aspects of anatomy, physiology, taxonomy, and behavior which are pertinent to the study of birds. Cr: 3.
Sp Qtr. 2 cr, 1 hr-sessions. Prereq: 220, 240 or 340 and 432, or written permission of instructor.

730 Mechanics of Animal Development U G 5

An advanced course concerned with elucidating the cellular and molecular interactions involved in developmental processes with emphasis on experimental embryology. Cr: 3.
Sp Qtr. 3 cr, 1 hr-sessions. Lab: 3 cr hrs. Prereq: 433 or equiv, or written permission of instructor.

740 Behavioral Ecology U G 5

Comparative study of mechanisms, ontogeny, function and evolution of behavior in its ecological and social contexts. Cr: 3.
Au Qtr. 3.5 cr. Prereq: Sr standing; 640 or Psych 601 or equiv with written permission of instructor.

741 Animal Communication U G 5

Interdisciplinary examination of how and why animals communicate, including classic and contemporary research, operational definitions, sensory modalities, quantitative measurement and interpretation of "what" is communicated. Cr: 3.
Sp Qtr. 2 hr-lab, 1 hr-sessions. Prereq: 640 or Anthrop 640 or 655 or equiv; 20 additional or hrs in biological and/or social sciences; or written permission of instructor. Designed for advanced students in biology, psychology, and anthropology.

750 Great Lakes Limnology U G 5

Advanced discussion of limnologic processes in large lakes of the world, with emphasis on the Laurentian Great Lakes; comparative study of physical and biotic factors.
Stone Lab. Su (2nd term). Prereq: 652 or 655 or equiv; preparation in limnology or aquatic ecology.

761 Wildlife Toxicology U G 5

A study of the release, transfer, and accumulation of toxic substances into the environment, and their toxic effects on wild animals. Cr: 3.
Au Qtr. 3.5 hr cr. Prereq: 313 or 313.5 or equiv and 20 or hrs in biological sciences above the 200-level.

H783 Honors Course U G 5

A program of reading and research for each student with individual conferences, reports, and Honors thesis.
Au, Wi, Sp Qtr. 4 th yr standing with a grade of A in at least half of the courses in biological sciences and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 2 qtrs are required (for the degree) 650 or BA with distinction in zoology. Failure to receive a mark of S in this course is a disqualification for special honors. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

800 Zoological Literature and Preparation of Manuscripts U G 3

A study of library organization, bibliographies, and guides to zoological literature; the preparation of scientific papers for publication. Cr: 3.
Wi Qtr. 2 cr, 1 hr-sessions. Prereq: 15 cr hrs in entomology or zoology at the 600-level or above.

811 Advanced Zoology of Invertebrates U G 5

A study of the morphology, physiology, life histories, and classification of the acelomate and pseudocelomate invertebrates and the annelid worms. Cr: 3.
Au Qtr. 3 cr, 2 hr-lab. Field trips including a 4 wk optional trip to a marine lab. Prereq: 613 or equiv and permission of instructor.

812 Advanced Zoology of Invertebrates U G 5

A study of the morphology, physiology, life histories, and classification of the eucelomate invertebrates exclusive of annelid worms. Cr: 3.
Au Qtr. 3 cr, 2 hr-lab. Field trips including a 4 wk optional trip to a marine lab. Prereq: 613 or equiv and permission of instructor.

821 Helminthology U G 5

A study of the morphology, physiology, life histories, epidemiology, and pathology of parasitic acelomate helminths. Cr: 3.
Wi Qtr. 3 cr, 2 hr-lab. Prereq: 610 or 611 or equiv and permission of instructor.

822 Helminthology U G 5

A study of the morphology, physiology, life histories, epidemiology, and pathology of the parasitic pseudocelomate helminths. Cr: 3.
Wi Qtr. 3 cr, 2 hr-lab. Prereq: 610 or 611 or equiv and permission of instructor.

835 Seminar in Animal Morphology U G 5

Inspection and discussion of developments in the science of animal morphology from the fine to gross levels of structure. Cr: 3.
Sp Qtr. 1 hr-sessions. Prereq: 211, 420 or 620, 535 or 635, or equiv with written permission of instructor; 10 additional grad or hrs in zoology. Credit for advanced courses in zoology or anthropol may be substituted with written permission of instructor. Repeatable to a maximum of 10 or hrs.

840 Behavior Genetics U G 5

Development of theoretical theory, genetic bases of behavioral differences, and evolution of behavior in laboratory, wild, and domestic species of both vertebrates and invertebrates. Cr: 3.
Wi Qtr. 3.5 hr cr. Prereq: Genetics 500 or equiv; and Zoology 640 or Psych 300 or equiv.
841* Bioacoustics G 3
A study of the nature and biological significance of animal sounds. Fairchild.
Sp Qtr. 1 cl, 2-hr lab and field trip. Prereq: Permission of instructor.

842 Quantitative Ethology G 5
Hands-on approach to acquaint graduate students with the technical methodologies and research tools of ethology, including sampling, data collection devices, and data analysis procedures.
Sp Qtr. 3.5 hr-cl, 2-3 hr-labs. Prereq: 640 or Psych 661 or equiv. Stat 508 or 521 or 525 or 601 or equiv, or permission of instructor. Designed for graduate students in animal behavior (ethology).

851 Population Ecology G 5
Interactions of animal populations considered from the environmental, physiological, and biometrical aspects. Peterie.
Wi Qtr. 5 cl. Prereq: 313 or equiv, and 650.

860 Seminar on Historical Ecology G 2-5
Study of developing ecosystems through long spans of time through reconstructions of past communities from fossil evidence. Colman.
Sp Qtr. Prereq: Permission of instructor. Repeatable to a maximum of 15 hrs.

861* Principles of Systematics G 3
A study of the principles and techniques used in the identification, classification, and nomenclature of organisms. Valentine.
Au Qtr. 2-cl, 2-hr lab. Prereq: 15 or hrs in zoology or entomology at the 600-level or above.

880 Seminar G 1-2
Required of all grad majors in zoology during the first Au Qtr of registration.
Au, Wi, Sp, Su Qtr. 1 cl. This course is graded S/U.

881 Seminar G 1-3
Selected topics to be announced.
Au, Wi, Sp Qtrs. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

890 Interdepartmental Seminar in Developmental Biology G 2
Students will present oral reports and lead discussion on research progress in specific areas of developmental biology.
Au, Wi, Sp Qtrs. 1.5 hr-cl. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs. Given cooperatively by Botany, Genetics, Microbiology, and Zoology. This course is graded S/U.

891 Interdepartmental Seminar in Environmental Biology G 2
Selected topics treating the environmental aspects of organisms, populations, and ecosystems as they may relate to time, space, and human activities.
Su, Au, Wi, Sp Qtrs. 1.5 hr-cl. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs. Given cooperatively by Botany, Entomology, Microbiology, and Zoology. This course is graded S/U.

896 Interdepartmental Seminar in Polar and Alpine Studies G 1-3
See Interdepartmental Seminars.

999 Research in Zoology G Arr
Research for thesis and dissertation purposes only.
Au, Wi, Sp Qtr. This course is graded S/U.

Agricultural Business Technology

085B AT Building

T201 Fundamentals of Information Processing U 3
An introductory study of fundamental concepts and operational principles general to all information processing systems, including experience with latest types of micro computers.
Au, Wi, Sp Qtrs. 3 cl, 1-2 hr rec.

T241 Marketing of Agricultural Products U 3
A study of the agencies, functions, principles, and problems involved in the marketing of agricultural products.
Au, Wi Qtrs. 3 cl. Prereq: S Sc T151 or concur.

T243 Principles of Farm Management U 3
A study of the economic and management principles involved in the buying, financing, organizing, operating, and administering of an agricultural production unit.
Wi, Sp Qtrs. 3 cl. 1-2 hr lab. Prereq: S Sc T151.

T251 Fundamentals of Marketing U 3
A general survey of the field of marketing including functions, policies, problems, structure, and strategies.
Au, Wi, Sp Qtrs. 3 cl. Prereq: S Sc T151 or concur.

T252 Agricultural Merchandising and Selling U 4
A study of the basic principles and concepts of selling and merchandising with emphasis on practical application to agriculture and agribusiness.
Au, Wi, Sp Qtrs. 3 cl, 1-2 hr rec. Prereq: T241 or T251.

T253 Agricultural Business Management U 3
Designed to develop an understanding of basic management principles with emphasis on the managerial functions of planning, organizing, directing, coordinating, and controlling.
Wi, Sp Qtr. 3 cl, 1-2 hr lab. Prereq: S Sc T151.

T263 Dairy Farm Management U 6
Introduction to the application of economic and management principles for acquiring, financing, organizing, operating the feeding, breeding, milking, personnel and marketing of dairy farm business. Stocker and Stock.
Sp Qtr. 5 cl, 1-3 hr lab. Prereq: T241, Anim Tec T201, T203, T204, T251, Bus Tech T102. Not open to students with credit for Agr Bus T243.

T270 Introduction to Supermarket Operations U 3
An introduction to the concepts of modern supermarket operations and the industry required to support it.
Au Qtr. 3 cl.

T271 Basic Grocery Operations & Merchandising U 4
A study of the merchandising of non-perishable products, including buying, ordering, storing, pricing, displaying, profit planning and control.
Wi Qtr. 3 cl, 1-2 hr lab.

T272 Perishable Products Merchandising U 4
An in-depth study of the principles and practices of buying, pricing, displaying & selling of perishable products in modern supermarkets.
Sp Qtr. 3 cl, 1-2 hr lab.

T274 Checkout Management U 4
A detailed study of checkout cost reduction and service improvement through equipment selection, employee selection, training, scheduling, and supervision, and front-end management.
Au Qtr. 3 cl, 1-2 hr lab.
T281 Advertising and Promotion U 4
The theory of retail advertising and its practical application, with emphasis on planning, implementation, control, merchandise promotion, and supportive promotional techniques.
Wi Qtr. 3 cl, 2 2-hr labs.

T283 Geography and Physical Distribution in Food Marketing U 3
A study of the influence of geographic concentration, transportation, and warehousing on food retailing.
Wi Qtr. 3 cl.

T284 Business Law for Agricultural Technicians U 4
A study of legal principles, contracts, negotiable instruments, leases, sales, product liability, and consumer protection.
Au Qtr. 4 cl.

T285 Retail Food Facilities U 4
A study of locating, designing, constructing, equipping, and maintaining a retail food store and its equipment.
Wi Qtr. 3 cl, 1 2-hr lab.

T286 Personnel Management U 5
Principles and practices in the recruiting, selecting, compensating of employees and in labor relations with unions.
Au, Wi, Sp Qtrs. 5 cl.

T287 Supermarket Management U 5
A seminar on management's merchandising and operational roles in the modern supermarket environment.
Sp Qtr. 4 cl, 1 2-hr lab.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs in any combination of technologies. This course is graded S/U.

T294 Group Studies U 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs.

T212 Landscape/Horticulture Power and Equipment U 4
Selection, operation, adjustment, service, maintenance, and repair of machinery and equipment used in landscape and ornamental horticulture field work.
Au, Wi Qtr. 2 cl, 2 2-hr labs. Not open to students with credit for T203.

T214 Mobile Industrial Power and Equipment U 4
Mechanics and operational procedures of tractors, crawlers, and mobile industrial equipment with emphasis on economic selection, efficient operation and preventive maintenance.
Au, Sp Qtr. 2 cl, 2 2-hr labs. Not open to students with credit for T212 or T215.

T215 Tractors and Farm Field Machinery U 5
Mechanics and operational procedures of tractors and farm field machinery with emphasis on economic selection and efficient operation based on the specific tasks to be performed.
Au Qtr. 3 cl, 2 2-hr labs.

T216 Tillage and Planting Equipment U 3
Safety procedures, principles, and methods of adjusting, repairing, and operating machinery for tillage, crop planting, and chemical application. Sp Qtr. 2 cl, 1 3-hr lab. Prereq: T215 or equiv.

T217 Harvesting Equipment U 3
Safety procedures, principles, and methods of adjusting, repairing, and operating machinery used for harvesting agricultural crops.
Au Qtr. 2 cl, 1 3-hr lab. Prereq: T215 or equiv.

T218 Diesel Engines U 3
Principles of diesel engine with emphasis on fuel injection systems.
Wi Qtr. 2 cl, 1 2-hr lab. Prereq: T214 or equiv.

T221 Agricultural Surveying and Mapping U 3
Surveying techniques, procedures and use of equipment for land measurement and mapping as required for proficiency in agricultural surveying and mapping by agricultural technicians.
Au Qtr. 2 cl, 1 3-hr lab. Not open to students with credit for T205.

T222 Irrigation and Drainage for Landscape/Nursery/Turf U 3
Principles of selection, installation, maintenance and operation of equipment and materials used in ornamental horticulture irrigation and drainage systems.
Su, Sp Qtrs. 2 cl, 1 3-hr lab.

T224 Irrigation, Drainage and Erosion Control Structures for Agricultural Lands U 5
Principles of planning, selection, installation, maintenance and operation of materials, structures and equipment used for erosion control, irrigation and drainage of agricultural lands.
Sp Qtr. 3 cl, 2 3-hr labs. Prereq: T221, Pnt Tec T211.

T231 Farmstead Systems for Storage and Processing of Agronomic Crops U 4
A study of practical methods of on-farm handling, processing and storage of cereal, field and forage crops.
Wi Qtr. 2 cl, 2 2-hr labs.

T235 Farmstead Systems for Dairy Production U 4
A study of the functional requirements, design, development, and operation of systems for dairy production.
Wi Qtr. 2 cl, 2 2-hr labs.

T236 Farmstead Systems for Livestock Production U 4
A study of the functional requirements, design, development, and operation of systems for beef, sheep, and swine production.
Sp Qtr. 2 cl, 2 2-hr labs.
Agricultural Products Technology

0869 and 145 AT Building

T201 Wood and Forest Products Industry I U 3
A study of the manufacturing and related industries associated with lumber, wood products, or products derived from wood.
Au Qtr. 2 cl, 1 3-hr lab.

T203 Structure, Properties and Use of Wood I U 3
The classification, identification, and use of wood based upon wood structure and properties, defects in wood, moisture relationship, and physical and mechanical properties.
Sp Qtr. 1 cl, 2 2-hr labs.

T204 Structure, Properties, and Use of Wood II U 3
Continuation of T203 with emphasis on the principles of wood deterioration and physical and mechanical properties which will provide a foundation for courses in wood utilization.
2 cl, 1 3-hr lab. Prereq: T203. Not open to students with credit for T255.

T210 Industrial Wood Processes I U 4
A study of the equipment and procedures for lumber sawing, grading, milling, and machining.
Wi Qtr. 2 cl, 2 2-hr lab. Not open to students with credit for T202.

T216 Industrial Wood Processes II U 4
A study of the principles, procedures, and equipment associated with seasoning, drying, and handling wood.
Au Qtr. 2 cl, 2 2-hr lab.

T207 Industrial Wood Processes III U 4
A study of the principles, procedures, materials, and equipment used in wood preservatives, treatment, and finishing.
Wi Qtr. 2 cl, 2 2-hr lab. Prereq: T205 and T206.

T208 Industrial Wood Processes IV U 4
A study of wood adhesives, laminating, composition boards, and wood joints.
2 cl, 2 2-hr lab. Prereq: T205, T206, and T207.

T311 Introduction to Beekeeping U 3
Fundamental aspects of beekeeping, including introductory elements of bee behavior, social organization, bee morphology, basic beekeeping equipment and the general handling of bees.
Sp Qtr. 2 cl, 1 3-hr lab.

T342 Blueprint Reading and Cost Estimation U 3
The principles and practices of reading construction drawings and making cost estimations for the materials needed to develop a finished product.
Wi Qtr. 2 cl, 1 3-hr lab.

T243 Cabinetmaking U 4
Methods, materials, and cost options for the construction installation, repair, and replacement of storage cabinets used in the agricultural construction industry.
Au Qtr. 2 cl, 2 2-hr labs. Prereq: T242.

T255 Wood Construction Materials and Methods U 4
A study of the materials, principles, and procedures commonly encountered in construction with wood. Emphasis will be on materials used in construction rather than construction technique.
Au Qtr. 2 cl, 2 3-hr lab.
T257 Wood Products and Management I U 3
A study of the organizations, operations, and management of manufacturing plants in the wood products industry.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq: T200, T204 and T205.

T258 Wood Products and Management II U 3
A study of overall marketing concepts in the wood industry and wholesale and retail management principles.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq: T257.

T259L Lumber Manufacture U 4
A study of the principles and practices utilized in the conversion of round wood to board products.
2 cl, 2 2-hr labs.

T261 Production and Processing of Honey U 4
Principles, practices and equipment used in beekeeping for the production and processing of honey, beeswax, and other agriculture products.
Au Qtr. 3 cl, 1 3-hr lab. Prereq: T211.

T262 Queen Rearing U 3
Principles of applied theory and advanced breeding techniques in the rearing of queen bees.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq: T211.

T265 Crop Pollination U 3
Principles and practices of beekeeping for the pollination of crops of economic importance.
Sp Qtr. 2 cl, 1 2-hr lab. Prereq: T261 and Biol Tech T102.

T266 Advanced Agriculture U 5
Organization, operation and management of commercial apiculture and other related bee enterprises.
Au Qtr. 3 cl, 2 2-hr labs. Prereq: T211.

T271 Advanced Agricultural Construction U 4
Methods used to install interior and exterior trim, insulation, drywall, flooring, and siding.
Wi Qtr. 2 cl, 2 2-hr labs. Prereq: T255.

T2721 Agricultural Construction
Development of leadership skills and managerial abilities including scheduling, recordkeeping, cost accounting, and employee training for the agricultural construction industry.
2 cl, 2 2-hr labs. Prereq: Agr Bus T253.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of technologies. This course is graded SU.

T294 Group Studies U 1-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

Agricultural Sciences Technology

T200 Occupational Internship U 1-6
Occupational experience in industry. Integrated with academic instruction. Internship is structured and supervised to insure a variety of experience pertaining to the student's interests and academic needs.

T202 Agricultural Technician Orientation U 2
Introduction of students to the technical educational institutions, occupational goals and objectives, and occupational and technical orientation to a chosen field.
Au, Wi, Sp Qtrs. 2 cl.

T205 Practicum in Agriculture U 1-6
Supervised practical experience for the development and improvement of selected agricultural occupational competencies, highly coordinated and closely articulated with related campus classrooms and laboratory activities.
Su, Au, Wi, Sp Qtrs. Arr. Repeatable to a maximum of 12 cr hrs.

Allied Agricultural Sciences Technology

T201 Agricultural Biochemistry U 3
Fundamental chemistry of carbohydrates, proteins, fats, vitamins, enzymes, and hormones as applied to their function in plant and animal metabolism.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: Chem Tec T102.

T202 Agricultural Microbiology U 4
Fundamental characteristics of micro-organisms and their role in man's environment with special emphasis upon applications in agriculture and natural resources.
Au Qtr. 2 cl, 2 3-hr lab.

T203 Introduction to Agricultural Research and Laboratory Science U 4
Introduction to the principles and concepts underlying the various techniques, methods, procedures, nond одно, and other critical activities used by agricultural research and laboratory science technicians.
Au Qtr. 2 cl, 2 2-hr lab.

T204 Agricultural Research and Laboratory Technologies U 3
Basic techniques, procedures, and methods used by agricultural technicians to develop a high level of competency to perform essential research and laboratory tasks.
Wi Qtr. 1 cl, 2 2-hr lab.

T205 Introduction to Animal Agriculture U 3
A study of the proper techniques of breeding, feeding, and raising animals with special regard to the responsibilities of a laboratory technician.
Au, Wi Qtrs. 2 cl, 1 3-hr lab.

T2051 Statistics for Agricultural Technicians I U 4
Study of elementary statistical methods, techniques and machines used to analyze research data.
3 cl, 1 2-hr lab. Prereq: Tec Math T102.

T251 Statistics for Agricultural Technicians II U 4
A study of the methods and techniques used in the organization and analysis of research data.
Sp Qtr. 3 cl, 1 2-hr lab. Prereq: T 250 and Tec Math T102.

T254 Animal Health and Advanced Laboratory Techniques U 3
A study of the proper techniques of analyzing animal specimens and surrounding environment to aid animal researchers and veterinarians.
Wi Qtr. 2 cl, 1 3-hr lab.

T255 Animal Research Practices U 3
A study of the management and handling of laboratory animals in research programs; nutrition and genetics and their importance to animal agriculture.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: T205.
T265 Horse Management U 3
The management of various horse businesses analyzing profit and loss, establishing budgets and tools used to make key management decisions.
Sp Qtr. 2 d, 1 3-hr lab. Prereq: T211, T214, T283 and Bus Tec T102.

T266 Horse Breeding and Selection U 3
Horse improvement through selective mating based on principles of heredity, pedigree, progency testing, anatomy and physiology of the reproductive system and improved breeding technology.
Wi, Sp Qtrs. 2 d, 1 3-hr lab.

T267 Advanced Horsemanship U 3
Advanced equitation with an emphasis on competitive riding and showing.
Su, Au, Wi, Sp Qtrs. 1 d, 2 3-hr lab. Prereq: T213.

T268 Horse Training U 5
A study of the principles, theory and procedures involved with the training of horses from halter breaking to a finished performer.
Su, Wi Qtrs. 3 d, 2 2-hr labs. Prereq: T211 or T212. Students may enroll in either or both decimal subdivisions.

T269.01 Saddle Horse U 5
T269.02 Race Horse U 5

T274 Beef Production II U 5
Advanced principles of management of a beef breeding and feedlot enterprise, coordinating production programs and evaluating economic performance.
Au Qtr. 4 d, 1 3-hr lab. Prereq: T222.01.

T276 Sheep Production U 5
Study of the management, health, feeding, breeding, housing and marketing of sheep.
Wi Qtr. 4 d, 1 3-hr lab. Prereq: T222.01.

T277 Swine Production II U 5
Advanced principles of management of a swine breeding and feeding enterprise, coordinating production programs and evaluating economic performance.
Wi Qtr. 4 d, 1 3-hr lab. Prereq: T222.02.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of technologies. This course is graded S/U.

T294 Group Studies U 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of technologies. This course is graded S/U.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of technologies. This course is graded S/U.

Business Technology

065B AT Building

T101 Business for Agricultural Technicians I U 5
Study and practice of basic concepts, techniques, procedures, and principles of accounting commonly used by technical workers in agricultural businesses.
Su, Au, Wi, Sp Qtrs. 4 d, 1 2-hr lab. Not open to students with credit for Ag Business T202.

T102 Business for Agricultural Technicians II U 5
A study of basic principles involved in keeping and analyzing farm records from the farm management viewpoint.
Au, Wi Qtrs. 3 d, 1 2-hr lab.

T103 Business for Agricultural Technicians III U 4
Managerial use and interpretation of financial data for the purpose of planning and controlling cost.
Au Qtr. 3 d, 1 2-hr lab. Prereq: T101 and S Sc Tec 151.

T211 Typing for Agricultural Technicians I U 3
Beginning typing with emphasis on accuracy and introduction to the set up of letters, sports and tables used in agricultural businesses.
3 2-hr labs.

T212 Typing for Agricultural Technicians II U 3
Continuation of 211 with emphasis on speed and accuracy in business correspondence, reports and statistical tables; composition at the typewriter; agribusiness office forms.
3 2-hr labs. Prereq: T211.

T215 Secretarial Practices and Office Procedures U 3
A study of the role of the secretary in a modern Agribusiness office including office procedures and the organization and execution of office tasks and assignments.
2 d, 1 2-hr lab. Prereq: T101 and T112.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of technologies. This course is graded S/U.

Chemical Technology

119D AT Building

T101 Introductory Chemical Technology I U 4
Develops the basic concepts of chemistry which pertain to agriculture.
Su, Au, Wi, Sp Qtrs. 3 d, 1 1-hr rec, 1 2-hr lab.

T102 Introductory Chemical Technology II U 4
A continuation of T101 covering solution calculation pH, buffers, redox and those aspects of organic and biochemistry pertaining to agriculture.
Su, Au, Wi, Sp Qtrs. 3 d, 1 1-hr rec, 1 2-hr lab.
Communications Skills Technology

1448 AT Building

T101 Developing Effective Communicative Skills U 3
Practice and instruction in working with the English language intended to develop the student's ability to listen, read, and write.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs in any combination of technologies. This course is graded S/U.

T102 Interpreting and Designing Written Expression U 3
Designed to help the student in developing, writing, and presenting functional compositions to audiences.
Au, Wi, Sp Qtrs. 2 cr, 1 2-hr lab. Prereq: T101.

T111 Developing Written Expression U 3
Designed to develop skillful responses to practical events. The course first strengthens basic skills and then uses these skills in functional academic and vocational situations.
Au, Wi, Sp Qtrs. 3 cr, not open to students with credit for T101 or T102.

T112 Essentials of Oral Communication U 3
Studies the components and functions of oral communication and provides practice in applying effective oral skills to informal and job-related situations.
Su, Au, Wi, Sp Qtrs. 3 cr.

T113 Technical Reporting U 3
Training and practical writing for industry, business and research with an emphasis on specific requirements and techniques for technical reports.
Au, Wi, Sp Qtrs. 3 cr, Prereq: T101 and T102 or T111.

T114 Business Communication U 3
Training and practical skills for business writing with an emphasis on specific requirements and techniques for all occupational communications.
Au, Wi, Sp Qtrs. 3 cr. Prereq: T111 or T101 and T102.

T120 Improving College Reading U 3
Training in the techniques of efficient reading methods designed to improve vocabulary, comprehension, speed, and critical reading skills and to develop the lifetime reading habit.
Wi Qtr. 3 cr.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs in any combination of technologies. This course is graded S/U.

Plant Sciences Technology

085 and 219 AT Building

T202 Forage Crop Production U 3
Adaptation, utilization, and cultivation of those crops grown for hay, pasture, sleage and haylage.
Su, Au, Wi Qtrs. 2 cr, 1 3-hr lab.

T203 Field Crop Production U 3
A study of the economic importance, adaptation, cultural practices, harvesting, and cost analysis for producing the major field crops grown in Ohio.
Wi Qtr. 3 cr, 1 2-hr lab. Prereq: T211.

T205 Commercial Vegetable Production U 4
A study of the basic principles of vegetable propagation, production, and harvesting.
3 cr, 2 2-hr lab. Prereq: Chem Tec T102, Bio Tec T102.

T211 Introduction to Soils and Soil Management U 4
An introduction to soil physical, chemical, biological properties, and plant nutrition with an overview of soil management practices including drainage, irrigation, tillage, and erosion control.
Au, Wi, Sp Qtrs. 3 cr, 1 2-hr lab. Prereq: Chem Tec T101 recommended.

T212 Soil Formation and Application of Soil Classification U 3
A study of soil genesis and soil morphology including land classification and the preparation and interpretation of soil classification maps for appropriate land use.
Su Qtr. 2 cr, 1 3-hr lab. Prereq: T211.

T214 Soil Physics and Engineering U 3
A study of the physical properties of soil along with the agronomic and engineering applications of the soil-water relationship.
Wi Qtr. 2 cr, 1 3-hr lab. Prereq: T211.

T216 General and Applied Entomology U 3
Classification, identification, life cycles, internal structures, and functions of insects; common insect pests and their damage; methods of control emphasizing chemicals and their application.
Au, Wi, Sp Qtrs. 2 cr, 1 3-hr lab.

T218 Use of Fertilizers and Soil Additives U 3
The use of chemicals necessary for plant development and for the aeration of soil properties.
Sp Qtr. 2 cr, 1 3-hr lab. Prereq: T211.

T220 Crop Management and Tillage Systems for Soil Erosion Control U 3
Application of the universal soil-loss equation and the role of crop management practices, tillage, crop residues and mulches in soil erosion and water management.
Au Qtr. 2 cr, 1 3-hr lab. Prereq: T211.

T221 Principles of Landscape Design and Planning U 3
A beginning course in landscape drafting, design and planning emphasizing proper planning procedures and considerations, drafting techniques and design representation, and the functional and aesthetic use of landscape materials to complement the family residence.
Au Qtr. 2 cr, 1 3-hr lab.

T223 Introduction to Turfgrass Management U 3
Principles and practices of turf establishment, maintenance, adaptation, and pest control of grasses and other plants under different areas of use.
Au, Sp Qtrs. 2 cr, 1 3-hr lab. Prereq: T211 and Bio Tec T101 and T102.

Physical Technology

T101 Introductory Technical Physics U 4
The interaction of motion and energy; properties of matter; temperature, heat transfer, and thermodynamics. Sp Qtr. 3 cr, 1 rec, 1 2-hr lab. Prereq: Tech Math T102. Concur: Tech Math T105 recommended.
T224  Garden Center Management  U 3
Basic garden center operation: garden center history, site selection, layout and design, plant selection, displays and merchandising, customer relations, and advertising.
Au Qtr. 2 cl, 1 3-hr lab.

T227  Golf Course Organization and Management  U 3
The organization, design, construction, personnel, equipment, budgeting, and maintenance of the golf course.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: T223, T263, and T216. T264 or T216.

T229  Waste Management and Disposal on Land  U 3
Management of agricultural and non-agricultural wastes emphasizing disposal on land.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: T211.

T230  Survey of Land Use Planning for Soil and Water Conservation Technicians  U 3
Purpose, objectives, scope, rules and regulations, and techniques of land use planning.
Wi Qtr. 3 cl. Prereq: T212.

T231  Greenhouse Environment Control  U 4
Principles and practices of greenhouse operation and management including construction, heating, cooling, watering, fertilization, photoperiodism, soil media, pest control, light, temperature, and growth regulators.
Au, Wi Qtr. 3 cl, 1 3-hr lab.

T232  Propagation of Nursery and Greenhouse Plants  U 4
Principles, techniques, methods, materials, and facilities used by commercial horticulturists to propagate plants with emphasis upon propagation of floral and greenhouse plants.
Wi, Sp Qtrs. 3 cl, 1 3-hr lab. Prereq: Biol Tec T102.

T233  Basic Floral Design  U 4
A basic course dealing with principles of making simple flower arrangements, types of designs, and styles; principles, tools, equipment, materials, foliage, and flower types and color are covered.
Au, Wi Qtr. 2 cl, 2 3-hr lab.

T234  Herbaceous Plants  U 3
The identification, culture, and indoor and outdoor use of bulbs, annuals, herbaceous perennials, garden roses, and foliage plants. Course includes selection, growth habits, pests and diseases and planting techniques.
Su, Sp Qtrs. 2 cl, 1 3-hr lab. Prereq: Biol Tec T102.

T235  Greenhouse Cut Flowers  U 4
Principles and practices of greenhouse cut flower production including chrysanthemums, carnations, snapdragons, roses, orchids, gladiolus, and other cut flower crops.
Su, Au Qtr. 3 cl, 1 3-hr lab. Prereq: T231.

T241  Nursery Management I  U 4
Introduction to the nursery industry including basic elements of materials and equipment used, layout, laws and regulations, cultural practices, and nursery business operations.
Su Qtr. 2 cl, 2 3-hr lab. Prereq: Biol Tec T102.

T242  Nursery Management II  U 3
A continuation of T241 with major emphasis on the production of a wide variety of nursery crops.
Au Qtr. 2 cl, 1 3-hr lab. Prereq: T241.

T243  Landscape Horticulture and Materials I  U 3
Identification, cultural practices and use of woody trees, shrubs, vines, and groundcovers.
Au Qtr. 1 cl, 2 2-hr lab.

T245  Arboriculture  U 3
A detailed course dealing with tree culture, including planting, fertilization, spraying, pruning, cabling, and diagnosis of disorders as pertinent to commercial arboriculture, city forestry and others.
Au Qtr. 2 cl, 1 3-hr lab.

T261  Diseases of Agronomic Crops  U 3
A study of the symptoms, identification, cause, and control for the major agronomic plant diseases.
Au Qtr. 2 cl, 1 3-hr lab.

T263  Turf Practices  U 3
A thorough examination of the construction and design practices available for lawns, golf courses, roadside turf, and other recreational facilities.
Sp Qtr. 2 cl, 1 3-hr lab. Prereq: T211, T223.

T264  Weed Control  U 4
A study of Ohio's major weeds and their biological, chemical, and/or cultural control; herbicide use and pesticide safety.
Au, Sp Qtrs. 3 cl, 1 2-hr lab. Prereq: Chem Tec T102 or equiv; Bio Tec T102 or permission of instructor. Not open to students with credit for T264.

T264.01 Field Crops  U 4
Principles of biological, chemical, and cultural control of weeds in field crops; emphasis on herbicide characteristics.
Not open to students with credit for T264.02

T264.02 Landscape
Identification and control of weeds of lawns, golf courses, ornamental beds, nurseries, and small ponds. Not open to students with credit for T264.01.

T265  Pesticides and Their Use  U 3
A study of the classification of pesticides, their mode of action, physiological effects, persistence in the environment, benefits, hazard, use, performance, and regulation.
Au Qtr. 3 cl. Prereq: Chem Tec T101 or equiv.

T271  Landscape Contracting and Construction I  U 4
The techniques and use of materials for construction and installing various landscape plantings, features and structures such as garden terraces, walls, fences, mounds, pools and streams, irrigation, and outdoor lighting.
Wi Qtr. 2 cl, 2 3-hr lab. Prereq: Tech Math T102.

T272  Advanced Landscape Horticulture and Planning  U 4
An advanced course in landscape drafting, design, and planning emphasizing practice in planning and pricing diversified landscapes.
Wi Qtr. 2 cl, 2 3-hr lab.

T273  Landscape Contracting and Construction II  U 3
The second of a two course sequence dealing with the actual physical construction of selected landscape features studied in T271.
Sp Qtr. 1 cl, 2 2-hr lab. Prereq: T271 and Tech Math T102.

T276  Plant Diseases of Ornamentals and Turf  U 3
Principles and practices in diagnosing and treating plant diseases on woody ornamentals and turf.
Su, Wi Qtrs. 2 cl, 1 3-hr lab. Prereq: T263, Biol Tec T102, or permission of instructor.

T281  Houseplants for Interior Decoration  U 4
Identification, culture and use of tropical plants as houseplants and exotic plants cultivated in botanic gardens and conservatories.
Wi Qtr. 3 cl, 1 3-hr lab.

T282  Commercial Floral Design  U 4
An advanced course in flower design, dealing with more complex designs such as wedding, hospital, church, and funeral work.
Au Qtr. 2 cl, 2 3-hr lab. Prereq: T233.
T283 Greenhouse Pot and Bedding Plants U 4
Principles and practices of greenhouse potted and bedding plant production including azaleas, begonias, spring bulbs, chrysanthemums, cyclamen, geraniums, hydrangeas, poinsettias, foliage plants, and others.
Sp Qtr. 3 cl, 1 3-hr lab. Prereq. T231.

T284 Landscape Horticulture Plants and Materials II U 3
An advanced course concerning the in-depth study of the identification, culture, and use of less common woody, deciduous and evergreen cultivars of ornamental plants.
Wi Qtr. 2 cl, 1 3-hr lab. Prereq. T243.

T285 Retail Flower Shop Operation U 3
Principles and practices in management and operation of the retail flower shop.
Au Qtr. 2 cl, 1 3-hr lab.

T286 Outdoor Gardening U 3
Fundamentals of basic gardening with emphasis on planning, planting, and maintaining decorative utilitarian gardens.
Sp Qtr. 2 cl, 1 3-hr lab.

T292 Individual Studies U 1-5
Designed to give students an opportunity to pursue studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of instructor. Repeatable to a maximum of 10 or hrs in any combination of technologies. This course is graded S/U.

T294 Group Studies U 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Arr. Prereq. Permission of instructor. Repeatable to a maximum of 10 or hrs.

T256 Specific Topics in Social Science U 3
Au, Wi, Sp Qtrs. 3 cl.
T256.01 Marriage and Personal Relationships
Study of personal relationships in marriage: special attention given to pre-marital, husband-wife, parent-child interaction.
Au, Wi, Sp Qtrs. 3 cl.
T256.02 Community Development: Rural and Urban
Study of the principles of community development with special attention given to comparative analysis of urban-rural differences and similarities.
Wi Qtr. 3 cl.
T256.03 Introduction to Cooperatives
Business organizations, role of government in American business: emphasis on history, legal basis, organization, and operation of cooperatives.
3 cl.
T256.04 Human Sexuality
A study of human sexuality from cultural, physiological and mental health perspectives.
Au, Wi, Sp Qtrs. 3 cl.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of instructor. Repeatable to a maximum of 10 or hrs in any combination of technologies. This course is graded S/U.

T294 Group Studies U 2-5
Group studies for students in specialized programs.
Su, Au, Wi, Sp Qtrs. Arr. Prereq. Permission of instructor. Repeatable to 10 or hrs.

Technical Mathematics

T101 Introductory Technical Mathematics U 5
Designed to provide a foundation in mathematics for those students lacking such skills and abilities.
Au, Wi, Sp Qtrs. 3 cl, 2 1-hr rec.

T102 Mathematics for Agricultural Technicians U 5
Mathematical computations, conversions, calculations, and measurements common to the field of agriculture.
Su, Au, Wi, Sp Qtrs. 3 cl, 2 1-hr rec.

T105 Topics in Mathematics for Agricultural Technicians U 5
Techniques and applications of computational methods with ratio, proportion, graphing, simultaneous and quadratic equations, exponents and logarithms, and trigonometry as they apply to agriculture.

T106 Mathematics for Retail Technicians U 4
Mathematics of business and finance, including ratios, discounts, mark-ups, commissions, statistics, graphing, interest, annuities, amortization and sinking funds.
Su, Sp Qtrs. 4 cl. Prereq. T102 or equiv.

T293 Individual Studies U 1-5
Designed to give students an opportunity to pursue special studies not otherwise offered.
Su, Au, Wi, Sp Qtrs. Prereq. Permission of instructor. Repeatable to a maximum of 10 or hrs in any combination of technologies. This course is graded S/U.

T294 Group Studies U 2-5
Group studies in specialized programs.
Su, Au, Wi, Sp Qtrs. Arr. Prereq. Permission of instructor. Repeatable to a maximum of 10 or hrs.
Organization of Instructional Units

Ohio State's instructional units—colleges, schools, departments, academic faculties, divisions, and centers—are grouped as in the following section.

Office of Academic Affairs

Department of Air Force Aerospace Studies
Department of Military Science
Department of Naval Science

College of Administrative Science

Academic Faculty of Accounting
Academic Faculty of Finance
Academic Faculty of Management and Human Resources
Academic Faculty of Management Sciences
Academic Faculty of Marketing

School of Public Administration

College of Agriculture

Department of Agricultural Economics and Rural Sociology
Department of Agricultural Education
Department of Agricultural Engineering
Department of Agronomy
Department of Animal Science
Department of Dairy Science
Department of Food Science and Nutrition
Department of Horticulture
Department of Plant Pathology
Department of Poultry Science

School of Natural Resources

Environmental Education Division
Fisheries and Wildlife Management Division
Forestry Division
Parks and Recreation Administration Division

Agricultural Technical Institute

Division of Agricultural Business Technologies
Division of Agricultural Mechanics Technologies
Division of Animal Industries Technologies
Division of General Studies
Division of Horticulture Industries Technologies
Colleges of the Arts and Sciences

College of the Arts
- Department of Art
- Department of Art Education
- Department of Dance
- Department of History of Art
- Department of Industrial Design
- Department of Theatre
- School of Music

College of Biological Sciences
- Department of Biochemistry
- Department of Botany
- Department of Entomology
- Department of Genetics
- Department of Microbiology
- Department of Zoology
- Division of Sensory Biophysics

College of Humanities
- Department of Black Studies
- Department of Classics
- Department of East Asian Languages and Literatures
- Department of English
- Department of German
- Department of History
- Department of Judaic and Near Eastern Languages and Literatures
- Department of Linguistics
- Department of Philosophy
- Department of Romance Languages and Literatures
- Department of Slavic and East European Languages and Literatures
- Center for Comparative Studies in the Humanities
- Melton Center for Jewish Studies
- Center for Medieval and Renaissance Studies
- Center for Women’s Studies

College of Mathematical and Physical Sciences
- Department of Astronomy
- Department of Chemistry
- Department of Geodetic Science and Surveying
- Department of Geology and Mineralogy
- Department of Mathematics
- Department of Physics
- Department of Statistics

College of Social and Behavioral Sciences
- Department of Anthropology
- Department of Communication
- Department of Economics
- Department of Geography
- Department of Political Science
- Department of Psychology
- Department of Sociology
- University Center for International Studies
- School of Journalism

College of Dentistry
- Division of Dental Hygiene

College of Education
- Department of Educational Policy and Leadership
- Department of Educational Theory and Practice
- Department of Human Services Education
- School of Health, Physical Education, and Recreation

College of Engineering
- Department of Aeronautical and Astronautical Engineering
- Department of Aviation

Development
Manuel Tzagournis, Vice President for Health
Services
Sue L. Mayer, Special Assistant to the
President
Herbert B. Asher, Special Assistant to the
President
Larry R. Thompson, Special Assistant to the
President

Nondiscrimination Policy
The policy of The Ohio State University, both traditionally and currently, is that
discrimination against any individual for reasons of race, color, creed, religion,
national origin, sex, age, handicap, or Vietnam-era veteran status is specifically
prohibited. Title IX of the Education
Amendments of 1972 prohibits sex
discrimination and Section 504 of the
Rehabilitation Act of 1973 prohibits
discrimination on the basis of handicap in
education programs and activities.
Accordingly, equal access to employment
opportunities, admissions, educational
programs, and all other University activities is
extended to all persons, and the University
promotes equal opportunity through a
positive and continuing affirmative action
program.
The University's Office of Affirmative Action,
1100 Lincoln Tower, 1800 Cannon Drive,
Columbus, Ohio 43210-1230, phone
614-422-4207, is responsible for the
coordination of matters relating to equal
opportunity and this nondiscrimination policy.
Information concerning violations of the policy
and inquiries regarding University compliance
with equal opportunity mandates, affirmative
action, the requirements of Title IX of the
Education Amendments of 1972, Section 504
of the Rehabilitation Act of 1973, and other
applicable statutes and regulations pertaining
to equality of opportunity may be addressed
to the director or associate director of
Affirmative Action at the address and
telephone number indicated.

Further policy guidelines pertaining to
affirmative action at The Ohio State
University are detailed in the University
Operating Manual, Section 1.0. Copies of the
Operating Manual are available for reference
in college and department offices throughout
the campus.
