Alma Mater — Carmen Ohio
Graduates and guests led by
Robert E. Potts
Assistant Professor
Division of Biomedical Communications
Oh! come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat and Winter's cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship — Ohio.

Commencement Speaker

Grace Murray Hopper
Commencement Speaker

Grace Murray Hopper is one of the pioneers of the computer industry. After earning a bachelor’s degree from Vassar and master’s and Ph.D. degrees from Yale University, Hopper taught mathematics for several years at Vassar. In 1943, she entered the United States Naval Reserve and attended midshipman’s school. After graduation, she was commissioned lieutenant (JG) and ordered to the Bureau of Ordnance Computation Project at Harvard. She learned to program the first large-scale digital computer, Mark I, at Harvard. She went to work on successors to that computer for the Navy, then transferred her efforts to the UNIVAC project for what would become the Sperry Rand Corporation. Hopper retired in 1971.

She has published more than 50 papers and articles on software and programming languages. She has been a visiting faculty member in engineering at the University of Pennsylvania and a professional lecturer in management science at George Washington University. Hopper is a fellow of the Institute of Electrical and Electronic Engineers, the American Association for the Advancement of Science, and the Association of Computer Programmers and Analysts. She is a recipient of numerous awards, honorary degrees, and other recognitions including, most recently, the Living Legacy Award from the Women’s International Center, San Diego, and the Woman of the Year Award from the YWCA of the National Capital Area. She remains on active duty with the U.S. Naval Reserve and was promoted to the rank of commodore in 1983.
Recipients of Honors

Joseph McVicker Hunt
Doctor of Science

Joseph McVicker Hunt is a scientist and scholar who has made an enormous contribution to the fields of psychology and education during the past several decades. His research on the effects of environment on the development and education of young children has had a strong influence on educational research and social policy. His 1941 work, *Personality and Behavior Disorders*, has been a standard reference for students of clinical psychology for many years. His book, *Intelligence and Experience*, published in 1961, inspired Project Head Start, one of the most successful and far-reaching social programs of this century. In 1966, he chaired the White House Task Force on Early Childhood Education.

A graduate of the University of Nebraska where he received his B.A. and M.A., and Cornell University where he obtained his Ph.D., Hunt spent most of his professional career on the faculties of Brown University and the University of Illinois. He retired from the University of Illinois as professor emeritus of psychology in 1974. He is a past president of the American Psychological Association and the American Psychological Foundation; a fellow of the American Association for the Advancement of Science and the American Academy of Psychotherapists; and the recipient of major awards from the American Psychological Association, the National Institute of Mental Health, the American Psychological Foundation, and the Society for the Psychological Study of Social Issues. In pursuit of his work on behalf of the human race, he has challenged students, colleagues, and professional peers throughout the world. Ohio State is proud to award him this honorary degree.

Abba G. Lichtenstein
Doctor of Engineering

After earning a bachelor of civil engineering degree from Ohio State in 1948, Abba G. Lichtenstein went on to achieve international recognition for his work on the design and historic preservation of bridges. As principal or partner in several engineering firms in New Jersey and New York, Lichtenstein developed methods that have gained widespread use in evaluating and rehabilitating historic bridges for continued productive use. His work included an evaluation of the oldest suspension bridge in the United States at the request of the National Park Service. He also was involved in developing national standards for bridge inspection, investigated several notable bridge collapses, and served as an expert witness in resulting legal proceedings.

Lichtenstein is a fellow of the American Society of Civil Engineers and a member of the National Society of Professional Engineers, the International Association for Bridge and Structural Engineering, and a number of other professional organizations. He has presented more than 50 short courses and seminars as a visiting professor and has given more than 30 papers and lectures on bridge renovation and preservation. He has received numerous recognitions for his work, including the Distinguished Alumnus Award from Ohio State’s College of Engineering. Lichtenstein is commended by colleagues in academia and his profession for his engineering skills, imagination, and dedication to the protection of this nation’s engineering heritage. The University is proud to honor this distinguished alumnus.
Distinguished Service Awards

W. Arthur Cullman
Distinguished Service Award

During his 35 years as a faculty member in the College of Administrative Science at Ohio State, W. Arthur Cullman gained an international reputation as a specialist in strategy, policy, and advertising. He began his career with a bachelor’s degree from Yale University and an M.B.A. from Harvard Business School. Cullman worked in various sales capacities for Philip Morris and was executive vice president of Benson and Hedges before joining the marketing faculty at Ohio State in 1947. He earned his Ph.D. here in 1951. At Ohio State, Cullman served as director of graduate programs in business and as chairperson of the marketing faculty. In 1953 he was named professor of the year by the students in the college, and in 1955 he received the Alfred J. Wright Award for service to Ohio State students.

Cullman has been an active business consultant and has served on the faculties of workshops and institutes, including the Graduate School of Credit and Financial Management at Dartmouth College and the Graduate School of Sales Management and Marketing at Rutgers and Syracuse Universities. He taught at a management development institute in Lausanne, Switzerland, in 1969-70 and has lectured around the world. Cullman retired in 1982 as professor emeritus of marketing. He has been president of the American Marketing Association and is active on the boards of several corporations and cultural and service organizations. Cullman was honored with the creation of two University endowed funds in his name when he retired. Ohio State is pleased to recognize him for his achievements and service to this University.

Stanley Earl Harrison
Distinguished Service Award

A native of Gallipolis, Ohio, and an honors graduate of Ohio State with a degree in electrical engineering, Stanley Earl Harrison provides a stellar example of cooperation between industry and academia in the pursuit of excellence. Professionally, he has conducted highly regarded work in engineering and technological development with Battelle Columbus Laboratories, Sandia Laboratories, Martin-Marietta Corporation, and BDM Corporation. Harrison is now president and chief operating officer of BDM Corporation as well as executive vice president and a director of BDM International, Inc. He is active in numerous professional societies and national committees. He received the Benjamin G. Lamme Meritorious Achievement Medal, the highest honor granted by Ohio State’s College of Engineering, in 1980.

Harrison was the first chairperson of the Committee for Tomorrow, directing efforts of distinguished business leaders in supporting the College of Engineering. He was the primary driving force in developing and implementing the goals and objectives of the Alliance with Industry Program and helped to develop advisory committees for each department in the college. Harrison devoted boundless energy to the completion of a $15-million campaign to provide the College of Engineering with endowed chairs, equipment, program support, and scholarships. He is a member of the Presidents Club and personally supports an annual faculty award for excellence in engineering education. The University deeply appreciates his dedication.
Distinguished Service Awards

L. Neal Smith

Distinguished Service Award

L. Neal Smith retired in 1982 after 21 years on the staff of the Center for Textual Studies in Ohio State’s Department of English. He was overall supervisor of the work at the center and chief textual researcher involved in producing the center’s monumental edition, *The Centenary Edition of the Works of Nathaniel Hawthorne*. The Hawthorne project is an immense scholarly achievement that has brought the University immeasurable praise during the past two decades. One of a series of similar projects begun at major universities in 1960, the Hawthorne project set textual standards and defined editorial practices that became the norm for all later projects.

While many other individuals were involved in the project and, on occasion, received greater public credit, Smith was the researcher who ferreted out the elusive facts about stop-press corrections, hidden impressions, surreptitious foreign printings, and other little known details involved in the textual criticism of so prolific and popular an author as Hawthorne. Smith is a nationally recognized and frequently consulted expert on the deciphering of Hawthorne’s difficult handwriting, and he probably knows more about this author’s work habits and his dealings with publishers than any other scholar in the world. After more than 20 years devoted to bringing this important work to a conclusion, Smith retired with the basic textual work completed on all of Hawthorne’s writings. The University is proud to recognize his tireless efforts with this award.
Congratulations on receiving your degree. You may not notice the difference, but today, along with hundreds of your colleagues, you’ve become an alumnus. For you, one era has passed; another is about to begin.

You are a member of the Buckeye family and partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

You can assist the University in many ways. You can recruit new and highly qualified students. You can represent Ohio State well through personal and occupational achievements. You can participate financially through the Development Fund. And you can work in an advisory capacity with the University to improve itself and its programs to better prepare today’s students for tomorrow’s citizenship.

We extend a year’s complimentary membership in the Alumni Association. Included is a year’s subscription to the OSU/Alumni Magazine, which will keep you informed of the University’s continuing pursuit of excellence and help you keep in touch with your friends and classmates.

To you, your family, friends, and those others who helped you arrive here today go our best wishes. You are joining a great family of Ohio State alumni working together to make a difference around the world.

Cordially,

This program is not an official graduation list.

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of graduates’ names, or may result in use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student’s academic or degree status. The University’s official registry for conferral of degrees is the student’s permanent academic record, kept by the Office of the University Registrar, 202 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210.

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral degrees, not only indicates the type of degree, but also is lined with the official colors of the University.

The Gown

Bachelor. Black, full cut with long pointed sleeves.
Master. Black, long or short sleeves with arc-shaped panel extended for each sleeve.
Doctor. Black with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor. Three feet long with a two-inch-wide velvet edging.
Master. Three and one-half feet long with a three-inch-wide velvet edging.
Doctor. Four feet in length with a five-inch-wide velvet edging and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study:

- Dentistry: Lilac
- Law: Purple
- Medicine: Green
- Musical Arts: Pink
- Optometry: Sea-foam Green
- Pharmacy: Olive Green
- Philosophy: Dark Blue
- Veterinary Medicine: Gray

Not usually worn by candidates for a degree.

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

- Graduate School: Black
- Colleges of the Arts and Sciences:
  - College of the Arts (B.A., B.S.I.D.): White
  - (Others): Brown
- School of Music (B.A.):
  - (Others): Pink
- College of Biological Sciences: White
- College of Humanities: White
- College of Mathematical and Physical Sciences: White
- College of Social and Behavioral Sciences: White
- School of Journalism: Crimson
- College of Administrative Science: Drab
- School of Public Administration: Peacock Blue
- College of Agriculture: Maize
- School of Natural Resources: Maize
- College of Dentistry: Lilac
- College of Education:
  - School of Health, Physical Education, and Recreation: Light Blue
- College of Engineering:
  - School of Architecture: Sage Green
- College of Home Economics: Orange
- College of Law: Blue-violet
- College of Medicine:
  - School of Allied Medical Professions: Maroon
- College of Nursing: Purple
- College of Optometry: Green
- College of Pharmacy: Apricot
- College of Social Work: Sea-foam Green
- College of Veterinary Medicine: Olive Green
- College of Veterinary Medicine: Citron
- College of Veterinary Medicine: Gray

The gold tassel is worn frequently by those holding the doctoral degree and by college and University administrative officers.
