The Recipients of Honors

The 1976 Joseph Sullivant Medal
Melvin S. Newman

Professor Melvin Newman, a member of the Ohio State University faculty since 1936, is a Guggenheim fellow, a member of the National Academy of Sciences, the recipient of the American Chemical Society Award for Creative Research in Organic Chemistry, and numerous other honors. No elementary textbook in chemistry would be complete without reference to his research. Perhaps his most important achievement has been the young men and women he has taught. More than 150 students have been graduated from this University with Ph.D. and Masters degrees, under his dedicated guidance. It is an honor for The Ohio State University to present to Professor Melvin S. Newman the 1976 Joseph Sullivant Medal in recognition of his outstanding contributions to chemistry and education.

To Our New Alumni:

You may not notice the difference. But today, along with hundreds of your colleagues, you've become an alumnus. You don't look different, but right now you may be experiencing a feeling of excitement, anticipation, and a great desire to celebrate. For you, one era has passed; another is about to begin.

From the six alumni who experienced the first Commencement in 1878 to the thousands who make up today's Ohio State University Alumni Association, our organized efforts have galvanized energies, ideas, and enthusiasm into greater good for Alma Mater.

As an alumnus, you are a member of the Buckeye family and a partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

Today, and later, you may ask what you can do for the University. There seems to be general agreement on four areas where alumni can provide significant assistance: recruiting of new and highly qualified students; representing Ohio State well through personal and occupational achievements; participating financially through the Development Fund; and working in an advisory capacity with the University to improve itself and its programs to better prepare today's students for tomorrow's citizenship.

The University extends to you a graduation gift of a year's free membership in the Alumni Association which includes a year's subscription to the MONTHLY. Devoted to the task of helping you keep in touch with our exciting pursuit of human excellence, the alumni magazine will also help you maintain an update on your friends and colleagues.

To you, your families, friends, and those others who helped you arrive here today, go our congratulations. You are joining a great family of Ohio State alumni working together to make a difference.

Cordially,

Summer's heat or winter's cold
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship—Ohio.
The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics as well, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings made caps and floor-length capes with attached hoods a necessity for warmth. Probably because of the costumes religious heritage, they remained drab until the universities gradually began to pass from the control of the Church, whereupon some aspects of the costumes took on brighter hues. However, old prints and engravings reveal a strong similarity between the regalia worn in early universities and the academic costume worn today.

In light of our nation's strong English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity with regard to the practice, an intercollegiate commission was formed which prepared a code for caps, gowns, and hoods which has been adopted by all institutions. Originally round, the shape of the cap is now the more familiar mortboard square—a shape which ballad folklore suggests resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress which might indicate rank or social strata. The hood, reserved at The Ohio State University for those receiving doctor's degrees, not only indicates the type of degree, but also is lined with the official colors of the University.

The Gown

Bachelor  Black, full cut with long pointed sleeves.

Master  Black, long or short sleeves with arch-shaped panel extended for each sleeve.

Doctor  Black, with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor  Three feet in length with a two-inch-wide velvet.*

Master  Three and one-half feet in length with a three-inch-wide velvet.*

Doctor  Four feet in length with a five-inch-wide velvet and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution from which the degree was received. The color of the velvet indicates the field in which the doctoral was granted:

- Dentistry  Lilac
- Law  Purple
- Medical  Green
- Musical Arts  Pink
- Optometry  Sea-foam Green
- Philosophy  Dark Blue
- Veterinary Medicine  Gray

*Not usually worn by candidates for a degree.

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel the color of which is distinctive of the degree being received. The tassel colors are as follows:

- Graduate School  Black
- College of The Arts (B.F.A.)  White
- College of Music  Pink
- College of Biological Sciences  White
- College of Humanities  White
- College of Mathematics and Physical Sciences  White
- College of Social and Behavioral Sciences  White
- School of Journalism  Crimson

College of Administrative Science  Drab
School of Public Administration  Peacock Blue
School of Social Work  Citron
College of Agriculture and Home Economics  Maize
School of Home Economics  Maroon
School of Natural Resources  Maize
College of Dentistry  Lilac
College of Education  Light Blue
School of Health, Physical Education, and Recreation  Sage Green
College of Engineering  Orange
School of Architecture  Orange
College of Law  Purple
College of Medicine  Green
School of Allied Medical Professions  Green
School of Nursing  Apricot
College of Optometry  Sea-foam Green
College of Pharmacy  Olive Green
College of Veterinary Medicine  Gray

The gold tassel is worn frequently by those holding the doctoral degree and by college and university administrative officers.

Photographs

As a courtesy to those persons receiving degrees today, please remain seated in the stands until the graduates have received their diplomas and have moved south past center field. Photographs may be taken from the stands at any time during the ceremony. However, only press photographers will be permitted on the field.

Complimentary Programs

A limited number of programs listing the names of all graduates is available on a first-come, first-served basis. Requests should be sent to the Office of Special Events, 10 Administration Building, 190 North Oval Mall, Columbus, Ohio 43210.
University Hall

Amid hammering and shouting, 24 students assembled in an incomplete University Hall and watched their professor improvise a lecture table with a carpenter's bench and conduct a physics demonstration with a dinner pail. It was the first day of classes at Ohio State University, known then as the Ohio Agricultural and Mechanical College.

That was back in 1873. During the next 100 years, Ohio State remained true to and expanded upon its original objectives: "to furnish a good general education by which the youth of Ohio shall be fitted for the several pursuits and professions of life . . . to produce opportunities for those who wish to pursue special studies."

To those ends, the University offers 250 academic programs to more than 54,000 students on six campuses. Ohio State is the headquarters for two unique research groups: the Institute of Polar Studies, the only multidisciplinary bi-polar institute in the nation, and the Disaster Research Center, the only such center in the world performing sociological research on reactions of groups and organizations in community-wide emergencies, particularly natural disasters.

Surrounded by the vigorous expansion of the last decade, a replica of University Hall stands on the original site. A testimony to past dedication and present commitment, University Hall once again honors Ohio State's pledge of quality education and public service.
