The Spring at Mirror Lake

The spring at Mirror Lake is a beloved campus landmark which dates back to the University's founding. The present modern spring basin is situated close to its original location. In fact, the existence of a source of pure, icy water was one of the primary factors for the selection of the old Neil Farm as the site of the Ohio Agricultural and Mechanical College, later to become The Ohio State University. The spring remained the main source of pure drinking water for the surrounding area for many years. Water from the lake ran the sawmill which produced materials for construction of the first campus buildings.

As early as 1909, the University's Trustees expressed concern that the informal aspect and pastoral surroundings of the spring and lake be preserved for the enjoyment of all. The physical configuration of the area has undergone considerable change during this century. The lake's basin has been enlarged several times and in the 1930s was lined with brick as part of a WPA project. Installation of a city sewer system in the 1920s caused the spring to dry up. Water has been pumped mechanically into the lake since that time. However, the water is no longer potable because of its sulphur content. In 1978, a recirculating fountain was installed in the center of the lake, and the surrounding area renovated with new walkways and plantings.

Mirror Lake and adjacent Browning Amphitheater are a traditional focal point for class honor society ceremonies and, more recently, a number of weddings. Students relax beside the lake, feed the ducks who make their home there, and in general enjoy the peaceful atmosphere year round. Through time and change, Mirror Lake and its spring remain as nostalgic reminders of an earlier time.

The sketch shown on the front cover of the program was done by Paul Morrill, retired associate University architect. It is used with the courtesy of the artist.

Alma Mater—Carmen Ohio
Graduates and Guests led by
Laura Hewitt
Class of 1980

Oh! come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat or Winter's cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship — Ohio.

Recipients of Honors

John E. Corbally
Doctor of Laws

From professor and provost to chancellor and president, John Corbally has served with great distinction as a public diplomat in the cause of higher education. The imprint of his skilled administrative touch has been left upon every institution with which he has been associated. His adroit handling of issues, his unstinting devotion to excellence, his firm commitment to effective academic governance helped guide three universities through some of the most turbulent years in American history. The Ohio State University is privileged to honor him for his eminent career as teacher, scholar, and leader of the academy.

Laurence M. Gould
Doctor of Science

Outstanding international scientist-statesman, Laurence M. Gould is widely acknowledged as the person in this country who contributed most to the establishment of a strong scientific research program in Antarctica. He played the central role in guaranteeing that there would be full active scientific cooperation among all the nations engaged in Antarctic research. He was instrumental in assuring that university scientists and university-based programs would play a major part in the United States effort. The Ohio State University is honored to honor Laurence M. Gould for his long and illustrious career as scientist, explorer, scholar, and educator.

Edgar Dale
Doctor of Humane Letters

Internationally respected scholar and innovative teacher, Edgar Dale pioneered the use of audiovisual materials and brought a new dimension to learning. His seminal studies of vocabulary and clear expression opened the door to understanding for countless readers. As mentor and friend, he involved himself in the personal and professional welfare of his students. He gave that extra measure that marks the great teacher. Few have touched the lives of so many in so lasting a way as he has done. Through those who have been privileged to be his students and colleagues, Edgar Dale’s influence continues across the world, in eloquent testimony to a full and productive life.

John G. Wagner
Doctor of Science

Recognized world leader in pharmaceutical research, distinguished alumnus of this University, John G. Wagner’s entire career reflects a fundamental concern for the health and well-being of his fellow man. His contributions to the pharmaceutical development of drugs are widely acknowledged. Numerous patents and professional publications reflect the significance and scope of his studies. As author of the authoritative textbook in his field, he has provided a scholarly benchmark for training and research. National and international honors have followed, attesting to a career of unusual distinction. They stand as persuasive evidence that John G. Wagner has earned the highest accolade of all, the esteem of his professional peers.

This program is an unofficial graduation list.
While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of graduates' names, or may result in use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of Registration, Records, and Scheduling, 320 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210.

Welcome to new Alumni Association members

We extend to you a congratulatory year's free membership in the Alumni Association. Included is a year's subscription to our alumni magazine, The Monthly. Devoted to the task of helping you keep in touch with our exciting pursuit of human excellence, the alumni magazine will also help you maintain an update on your friends and colleagues.

You may not notice the difference. But today, along with hundreds of your colleagues, you've become an alumnus. You don't look different, but right now you may be experiencing a feeling of excitement, anticipation, and a great desire to celebrate. For you, one era has passed; another is about to begin.

From the six alumni who experienced the first Commencement in 1878 to the thousands who make up today's Ohio State University Alumni Association, our organized efforts have galvanized energies, ideas, and enthusiasm into greater good for Alma Mater.

As an alumnus, you are a member of the Buckeye family and a partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

Today, and later, you may ask what you can do for the University. There seems to be general agreement on four areas where alumni can provide significant assistance: recruiting of new and highly qualified students; representing Ohio State well through personal and occupational achievements; participating financially through the Development Fund; and working in an advisory capacity with the University to improve itself and its programs to better prepare today's students for tomorrow's citizenship.

To you, your families, friends, and those others who helped you arrive here today go our congratulations. You are joining a great family of Ohio State alumni working together to make a difference.

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics as well, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings made caps and floor-length capes with attached hoods a necessity for warmth. Probably because of the costumes' religious heritage, they remained drab until the universities gradually began to pass from the control of the Church, whereupon some aspects of the costumes took on brighter hues. However, old prints and engravings reveal a strong similarity between the regalia worn in early universities and the academic costume worn today.

In light of our nation's strong English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity with regard to the practice, an intercollegiate commission was formed which prepared a code for caps, gowns, and hoods which has been adopted by all institutions. Originally round, the shape of the cap is now the more familiar mortarboard square — a shape which ballad folklore suggests resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress which might indicate rank or social strata. The hood, reserved at The Ohio State University for those receiving doctor's degrees, not only indicates the type of degree, but also is lined with the official colors of the University.

The Gown

Bachelor  Black, full cut with long pointed sleeves.
Master  Black, long or short sleeves with arc-shaped panel extended for each sleeve.
Doctor  Black, with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor  Three feet in length with a two-inch-wide velvet.*
Master  Three and one-half feet in length with a three-inch-wide velvet.*
Doctor  Four feet in length with a five-inch-wide velvet and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution from which the degree was received. The color of the velvet indicates the field in which the doctoral was granted:

Dentistry  Lilac
Law  Purple
Medicine  Green
Musical Arts  Pink
Optometry  Sea-Foam Green
Philosophy  Dark Blue
Veterinary Medicine  Gray

* Not usually worn by candidates for a degree.

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel the color of which is distinctive of the degree being received. The tassel colors are as follows:

Graduate School  Black
College of the Arts  White
(B.F.A.)  Brown
School of Music  Pink
College of Biological Sciences  White
College of Humanities  White
College of Mathematical and Physical Sciences  White
College of Social and Behavioral Sciences  White
School of Journalism  Crimson
Photographs

As a courtesy to those persons receiving degrees today, please remain seated in the stands until the graduates have received their diplomas and have moved past the stadium gates. Photographs may be taken from the stands at any time during the ceremony. However, only press photographers will be permitted on the field.

Complimentary Programs

A limited number of programs are available on a first-come, first-served basis. Requests should be sent to the Office of Special Events, 1120 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210.
