Alma Mater—Carmen Ohio
Graduates and guests led by
Robert E. Potts

Oh! come let’s sing Ohio’s praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer’s heat or Winter’s cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm they friendship—Ohio.

Excerpts from the commencement ceremony will be broadcast on WOSU-TV, Channel 34, at 5:30 p.m. today.
Commencement Speaker

Jay R. Smith

Jay R. Smith is publisher of The Atlanta Journal and The Atlanta Constitution. Prior to his appointment in Atlanta, he was publisher of the Austin-American Statesman.

He began his career in journalism at 17, when he was hired as a reporter at The Cincinnati Post. While a student at Ohio State, he worked on the national copy desk of The Wall Street Journal as a summer job.

Other newspaper positions Smith has held include president of the Dayton Daily News and Journal Herald; reporter, assistant city editor and assistant managing editor for the Dayton Daily News; and business manager of Dayton Newspapers, Inc., which published the two papers.

Smith is a native of Cincinnati and a 1971 graduate of Ohio State's School of Journalism. He earned a master's degree in public administration from the University of Dayton in 1975 and is a member of the Ohio State Alumni Advisory Board.

In 1986, Texas Business Magazine named Smith one of ten "rising stars" under the age of 40 in the state. His civic and professional affiliations include the board of directors of the Atlanta Chamber of Commerce; the Metro-Atlanta advisory board of directors of the Salvation Army; and chairman of the minority affairs committee of the American Newspaper Publishers Association.

Smith is serving as chairman of Camp Best Friends, a summer day-camp program for 13,000 Atlanta children; chairs the Atlanta United Way's strategic marketing committee; and serves on the boards of Central Atlanta Progress, Inc. and the Commerce Club in Atlanta. Smith chairs the United Negro College Fund drive in Atlanta this year and he served as the major gifts campaign chairman for ZOO Atlanta.

In 1987, the University awarded him the President's 300th Commencement Award, which was given to outstanding alumni for representing excellence in the enduring mission of Ohio State. We welcome him as speaker for today's commencement ceremony.
Recipients of Honors

Gertrude B. Elion
Doctor of Science

Gertrude Elion, a leader in biochemical research, was one of the three 1988 recipients of the Nobel Prize in Physiology or Medicine. She won the award for her dedication to and accomplishment in the development of therapeutic drugs.

Her work in the 1950s led to an important breakthrough in the treatment of leukemia, and she has made invaluable contributions to the development of drugs to treat a variety of diseases, including gout, malaria, herpes infections, rheumatoid arthritis, cancer, and more recently, AIDS. She is a scientist emeritus at Wellcome Research Laboratories (WRL) in Research Triangle Park, North Carolina.

In 1937, Elion graduate Phi Beta Kappa and summa cum laude from Hunter College in New York and earned a master's degree from New York University in 1941. Despite her emeritus status, she remains active in research, teaching, advising, and in professional organizations.

Among her many honors and awards are honorary degrees from the University of Michigan, Brown University, and George Washington University. Her lengthy list of professional activities includes several terms as associate editor of the prestigious journal, Cancer Research; membership on the National Cancer Advisory Board; and a position on the board of directors of the American Association for Cancer Research. In those roles she has been a vocal proponent of basic research and has fought for the preservation of basic research support in the face of dwindling resources. She is also greatly concerned with the quality of science education in the United States. Her contribution to science has been profound, and Ohio State is deeply honored to present her with an honorary degree.
Recipients of Honors

Dale T. Friday
Distinguished Service Award

Dale T. Friday was the first general manager of Ohio State’s Farm Science Review, a position he held from 1963 until his retirement in 1981. Under his guidance, the event became nationally recognized as the premier showcase of the best in agricultural automation, farming practices, crop varieties, and livestock breeds.

Friday, who also served as professor of agronomy, pioneered research on forestry fertilization by airplane and originated the first aerial application of dry fertilizer during his tenure as county extension agent in Putnam County, Ohio. Friday also supervised the application of the first carloads of liquid nitrogen fertilizer ever used in the United States. He conducted some of the earliest research and demonstration work on no-till crop production in Ohio and supervised use of the first no-till corn planter utilized in Ohio.

Friday was among the founders and organizers of the North American Farm Show Council and has served as president, vice president, and treasurer of that organization. He is currently executive coordinator and in that role effected a 50 percent growth in membership of the council.

During the last decade, he has held leadership positions with the Ohio Vegetable and Potato Growers’ Association, the Ohio Agro-Expo Agribusiness Trade Show, and the Ohio Association of Vocational Agriculture.

As an active community leader, he is involved in numerous organizations in the Columbus area and has participated in People-to-People Goodwill missions to China, Hong Kong, Korea, and Japan, as well as to Australia and New Zealand. Friday received both his bachelor’s and master’s degrees in agricultural education from Ohio State. His service to Ohio State and to the field of agriculture has been invaluable, and it is with great pleasure we award him this Distinguished Service Award.

Thomas B. Smith
Distinguished Service Award

As a former associate vice president for physical facilities, Thomas B. Smith was responsible for construction, renovation, maintenance, utilities, and landscaping services for the hundreds of buildings and thousands of acres that compose the Ohio State campuses. He retired in 1986 as an associate vice president emeritus after 39 years at the University. During his tenure, he directed the unprecedented growth in the University’s physical plant that made it a model for institutional facilities management.

Smith came to Ohio State in 1946 to teach engineering while studying for his degree in electrical engineering. He graduated in 1949 and began work as an engineer in the University Architects Office, where he served until he was named assistant director of the physical plant in 1956.

He was responsible for construction planning during a period of explosive growth at Ohio State. As assistant and then associate director of the physical plant between 1956 and 1970, he oversaw more than 300 major construction projects such as the entire North Campus residential and dining facilities, Baker Systems Engineering Building, and St. John Arena. During his tenure in the Department of Physical Facilities, nearly 78 percent of the University’s buildings were constructed.

Smith used aggressive and innovative strategies to combat the energy crisis in the 1970s. While he served as associate vice president, his energy management measures saved more than $100 million, and they will continue to provide savings to the University for years to come. Consequently, other universities have looked upon Ohio State as a leader in energy management.

A member of the Association of Physical Plant Administrators since 1963, he served as the 1981-82 president and received its Meritorious Service Award—the association’s highest recognition. We, too, recognize him for his outstanding achievement and are proud to present him with this Distinguished Service Award.
Congratulations and Welcome to the Alumni Association

Congratulations on receiving your degree. You may not notice the difference, but today, along with hundreds of your colleagues, you’ve become an alumnus. For you, one era has passed, another is about to begin.

You are a member of the Buckeye family and partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

You can assist the University in many ways. You can recruit new and highly qualified students. You can represent Ohio State well through personal and occupational achievements. You can participate financially through the Development Fund. And you can work in an advisory capacity with the University to improve itself and its programs to better prepare today’s students for tomorrow’s citizenship.

We extend to you a year’s complimentary membership in the Alumni Association. Included is a year’s subscription to the Ohio State Alumni Magazine, which will keep you informed of the University’s continuing pursuit of excellence and help you keep in touch with your friends and classmates.

To you, your family, friends, and those others who helped you arrive here today go our best wishes. You are joining a great family of Ohio State alumni working together to make a difference around the world.

Cordially,

James W. Phillips

Graduates with Honors
Criteria for graduating with honors are as follows:

Summa Cum Laude designates those graduating in the top 3% of the class.

Cum Laude designates those graduating in the top 10% of the class.

With Distinction requires successful completion of a Senior Honors Thesis, oral examination, and graduation in the top 25% of the class.

With Honors in the Liberal Arts requires successful completion of the Arts and Sciences Honors Contract and graduation in the top 25% of the class.

With University Honors designates those graduating with circullar distinction and dedication to high educational goals.

Summa Cum Laude with Honors in the Liberal Arts and with Distinction in Political Science

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of graduates’ names, or may result in use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student’s academic or degree status. The University’s official registry for conferral of degrees is the student’s permanent academic record, kept by the Office of The University Registrar, 202 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210.

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In the light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral degrees, not only indicates the type of degree, but also is lined with the official colors of the University.

The Gown

Bachelor. Black, full cut with long pointed sleeves.

Master. Black, long or short sleeves with a re-shaped panel extended for each sleeve.

Doctor. Black with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor. Three feet long with a two-inch-wide velvet edging.*

Master. Three and one-half feet long with a three-inch-wide velvet edging.*

Doctor. Four feet in length with a five-inch-wide velvet edging and panel at the sides.

* Not usually worn by candidates for a degree.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study:

- Dentistry: Lilac
- Law: Purple
- Medicine: Green
- Musical Arts: Pink
- Optometry: Sea-foam Green
- Pharmacy: Olive Green
- Philosophy: Dark Blue
- Veterinary Medicine: Gray
