

Second majors that can cross college boundaries

The following is a list of the majors that have been approved as “donated” 2nd majors; i.e. majors that can be added as “M2” plan types to a primary program offered outside the college of the second major. All colleges have agreed to accept these majors independently of the degrees to which they normally attach. When students complete a major in this way, the major will be transcribed with the undergraduate degree they have earned; students will only be awarded an additional degree if they complete the major and all requirements for a second degree (including a residency requirement) in the college of the major. Students who wish to do so can still complete a second undergraduate degree for these programs, and advisors should be careful to inform students about their options.

The five colleges offering plans that can be completed as second majors outside the college of offering are the College of Arts and Sciences, the College of Education and Human Ecology, the College of Food, Agricultural, and Environmental Sciences, the John Glenn College of Public Affairs, and the Knowlton School of Architecture. Not all majors in ASC, EHE, FAES, JGS, and AHR are available as M2 majors; only the plans on this list can be added as a second major when a student’s program is outside the college that offers the additional major.

Students completing a second major should declare the major in the department of the major, where they should also seek advice on the prerequisites, the requirements of the major, and appropriate, optimal selection of major electives. To qualify for a second major, students must complete both the major itself and all required prerequisite and supplementary course work. An honors student pursuing a second major outside of the student’s primary college is not required to complete an honors version of the second major.

Donated 2nd majors

Actuarial Science ⁵	Biochemistry ⁵
African American and African Studies	Biology ⁵
Air Transportation	Chemistry ⁵
Ancient History and Classics	Chinese
Anthropological Sciences	City and Regional Planning
Anthropology	Classics
Arabic	Communication ²
Art ¹	Community Leadership
Arts Management	<input type="checkbox"/> Community and Extension Education ³
Astronomy and Astrophysics	<input type="checkbox"/> Leadership ³

Comparative Studies
Consumer and Family Financial Services
Criminology and Criminal Justice
Data Analytics
Earth Sciences⁵
Economics⁵

- Agroecology³
- Agronomy³
- Horticulture³
- Plant Biosciences³
- Turfgrass Science³

Technical Education and Training

Theatre

Women's, Gender and Sexuality Studies

World Literatures

World Politics

Zoology⁵

-
- ¹ Only the BA version of the major (not the Bachelor of Fine Arts degree) can be completed as a second major.
² Students must apply for acceptance to the Communication major after completing prerequisite course work.
³ As a second major, this plan is only open to students pursuing the Bachelor of Science degree.
⁴ Students completing the International Studies major must also complete a minor (a foreign language minor for the BA; a minor selected from a specified list of choices for the BS).
⁵ Where both a BA and a BS are listed for the same major, there are different versions of the major available, one normally associated with the BA, the other with the BS. The distinction will not appear on the student's transcript, but the alternatives will involve differing requirements and prerequisites.
⁶ Only the BA and BS versions of the major (not the Bachelor of Music or Bachelor of Music Education) can be completed as a second major.

Requirements for Double Majors (on one degree)

- The student must meet the requirements for each major as set by the department offering the major.
- Each major must contain a minimum of 18 hours not contained in the other.
- Overlap with General Education may be permitted where appropriate.
