Second majors that can cross college boundaries

The following is a list of the majors that have been approved as “donated" 2nd majors; i.e. majors that can be added as “M2” plan types to a primary program offered outside the college of the second major. All colleges have agreed to accept these majors independently of the degrees to which they normally attach. When students complete a major in this way, the major will be transcripted with the undergraduate degree they have earned; students will only be awarded an additional degree if they complete the major and all requirements for a second degree (including a residency requirement) in the college of the major. Students who wish to do so can still complete a second undergraduate degree for these programs, and advisors should be careful to inform students about their options.

The five colleges offering plans that can be completed as second majors outside the college of offering are the College of Arts and Sciences, the College of Education and Human Ecology, the College of Food, Agricultural, and Environmental Sciences, the John Glenn College of Public Affairs, and the Knowlton School of Architecture. Not all majors in ASC, EHE, FAES, JGS, and AHR are available as M2 majors; only the plans on this list can be added as a second major when a student’s program is outside the college that offers the additional major.

Students completing a second major should declare the major in the department of the major, where they should also seek advice on the prerequisites, the requirements of the major, and appropriate, optimal selection of major electives. To qualify for a second major, students must complete both the major itself and all required prerequisite and supplementary course work. An honors student pursuing a second major outside of the student’s primary college is not required to complete an honors version of the second major.

**Donated 2nd majors**

- Actuarial Science
- African American and African Studies
- Air Transportation
- Ancient History and Classics
- Anthropological Sciences
- Anthropology
- Arabic
- Art
- Arts Management
- Astronomy and Astrophysics
- Biochemistry
- Biology
- Chemistry
- Chinese
- City and Regional Planning
- Classics
- Communication
- Community Leadership
- Community and Extension Education
- Leadership

Sustainable Plant Systems
  □ Agroecology
  □ Agronomy
  □ Horticulture
  □ Plant Biosciences
  □ Turfgrass Science
Technical Education and Training
Theatre
Women’s, Gender and Sexuality Studies
World Literatures
World Politics
Zoology

---

1 Only the BA version of the major (not the Bachelor of Fine Arts degree) can be completed as a second major.
2 Students must apply for acceptance to the Communication major after completing prerequisite course work.
3 As a second major, this plan is only open to students pursuing the Bachelor of Science degree.
4 Students completing the International Studies major must also complete a minor (a foreign language minor for the BA; a minor selected from a specified list of choices for the BS).
5 Where both a BA and a BS are listed for the same major, there are different versions of the major available, one normally associated with the BA, the other with the BS. The distinction will not appear on the student’s transcript, but the alternatives will involve differing requirements and prerequisites.
6 Only the BA and BS versions of the major (not the Bachelor of Music or Bachelor of Music Education) can be completed as a second major.

Requirements for Double Majors (on one degree)

- The student must meet the requirements for each major as set by the department offering the major.
- Each major must contain a minimum of 18 hours not contained in the other.
- Overlap with General Education may be permitted where appropriate.
