Alma Mater—Carmen Ohio
Graduates and guests led by
Scarlett M. Grassel

Oh! come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat or Winter's cold,
The seasons pass, the years will roll:
Time and change will surely show
How firm thy friendship—Ohio.

Awarding of Diplomas

Recessional

President Gee looks forward to personally congratulating you and your graduate immediately following the ceremony in French Field House.

Excerpts from the commencement ceremony will be broadcast on WOSU-TV, Channel 34, at 5:30 p.m. today.
Commencement Address

Thomas J. Dougherty
The Joseph Sullivant Medal

Thomas J. Dougherty, a world-renowned cancer researcher, has been president and research director of The Oncologic Foundation of Buffalo since 1981. He has a joint appointment as cancer research scientist, Department of Radiation Biology, in the Divisions of Medicine and Surgery at Roswell Park Cancer Institute in Buffalo, New York. In addition, he is Research Professor in Biophysics at the State University of New York at Buffalo and Research Professor of Radiation Oncology at SUNY School of Medicine and Biomedical Sciences.

A graduate of Canisius College in Buffalo, Dr. Dougherty received his doctorate in physical and organic chemistry in 1959 from Ohio State, where he was a National Science Foundation Fellow. Following graduation, he began his research career in photochemistry at E. I. duPont de Nemours in Grand Island, N.Y. In 1970, he joined Roswell Park as a research associate. He was named principal cancer research scientist and head of the Department of Radiation Biology in 1975. At Roswell Park, he began his pioneering research on photodynamic therapy (PDT), studying how the responses of chemicals to light can be used in the treatment of human disease. The potential of new photochemical cancer treatment has proven to be enormous, and the research accomplishments of Dr. Dougherty have resulted in new and effective cancer treatments. More than 100 major hospitals now have clinical programs in photochemical oncology, and thousands of patients throughout the world have been treated with PDT.

Dr. Dougherty is internationally recognized as the originator and foremost developer of the experimental aspects, theory, and clinical utility of PDT, and has authored or co-authored nearly 200 publications on the subject. He is the recipient of numerous honors, including the A. Ward Ford Medal from the American Society for Laser Medicine and Surgery, the American Society for Photobiology Research Award, the American Chemical Society’s Schoelkopf Award, and the Leon Goldman Medical Excellence Award from the Laser Centers of America.

Ohio State proudly awards this eminent researcher and accomplished alumnus its most distinguished honor, the Joseph Sullivant Medal, and welcomes him as our commencement speaker.
Recipients of Honors

Daniel Hillel
Doctor of Science

Daniel Hillel, professor of soil physics at the University of Massachusetts, Amherst, has been a leading force in the ecological development of Israel through his expertise in soil science and arid land management.

A native of California, Dr. Hillel moved as a young child to Palestine where he grew up in pioneering settlements in the Jezreel and Jordan valleys. He returned to the United States after World War II to continue his education, receiving a bachelor's degree in soil science from the University of Georgia in 1950 and a master of science degree from Rutgers University in 1951. Returning to Israel, he conducted studies of desert ecology and hydrology and, in 1958, received the first doctorate in soil physics awarded by the Hebrew University in Jerusalem.

Following two years of postdoctoral study at the University of California, Dr. Hillel was appointed head of the Soil and Water Institute of Israel's Agricultural Research Service, where he was instrumental in developing more efficient methods of irrigation and land management. In 1966, he joined the faculty of Hebrew University as professor and head of the Department of Soil and Water Sciences, serving there until 1974. He joined the University of Massachusetts faculty in 1977. He is an adjunct professor at Haifa University's Environmental Research Center.

An active participant in the development of international cooperation on soil and water management issues, Dr. Hillel has served as a consultant in more than 30 countries.

Dr. Hillel had authored or edited 16 books, including Out of the Earth: Civilization and the Life of the Soil, which won first place award from the American Association of Publishers for excellence in earth sciences and geography, and Rivers of Eden: The Struggle for Water and the Quest for Peace in the Middle East, which was nominated for a Pulitzer Prize.

His many honors include fellowship in the American Society of Agronomy, the Soil Science Society of America, and the American Association for the Advancement of Science. He is a National Lecturer for the Sigma Xi Science Honor Society.

Ohio State is proud to recognize this distinguished scholar, researcher, author, and educator.

Jeanne Bonnet McCoy
Doctor of Humane Letters

A deeply held appreciation for education and its benefits has marked the life of Jeanne Bonnet McCoy.

The Columbus native earned her bachelor's degree in English from Ohio State in 1937, following in the steps of her parents, Florence and Frank Bonnet, who graduated in 1909.

The McCoy family has maintained close ties to Ohio State, supporting a wide variety of programs, including medicine, the James Cancer Hospital, and the Historic Costume and Textiles Collection. In 1993, Mrs. McCoy established The Jeanne Bonnet McCoy Presidential Scholars Fund to support exceptional students over their four years at Ohio State. Her gift will allow the university eventually to support a total of eight students and will aid immeasurably in attracting top students to Ohio State. In addition, Mrs. McCoy is serving as co-chair for Ohio State's National Merit Scholarship Initiative during the current five-year fund-raising campaign. She appears in the university campaign video with the first two McCoy Scholars.

Mrs. McCoy has long been a leader in Central Ohio's arts community, ensuring that the cultural life of the area can be enjoyed by all. A charter member of the Women's Board of the Columbus Museum of Art, she and her husband, John G. McCoy, were instrumental in raising the funds to acquire the Stak Collection for the museum. The McCoys recently donated a landscape by renowned American artist Childe Hassam to the museum. The couple was honored this fall by the museum for their many years of service and support.

An avid gardener, Mrs. McCoy was a longtime member of the Inniswood Garden Society Board, and she remains involved with the park. In recognition of her role in the development and funding of the park's herb garden, the garden's gazebo is named in her honor. Last year she was made an honorary life member of the Inniswood board, and she is one of a select few to be presented with the Inniswood hosta, a highly prized plant patented by Inniswood Gardens.

Ohio State proudly recognizes the commitment to education and quality of life embodied in this enthusiastic and dedicated community leader.
Recipients of Honors

Charles Y. Lazarus
Distinguished Service Award

Charles Y. Lazarus, chairman emeritus of F&R Lazarus Company, has long been a loyal and devoted friend of The Ohio State University. He is a charter member of the Presidents Club, the University Hospitals Board, and the James Cancer Hospital Foundation Board.

Before his 1981 retirement, Lazarus served as chairman and chief executive officer of F&R Lazarus, the Columbus retail giant founded by his great-grandfather, Simon Lazarus, in 1851. He began his career in the family business as a salesperson in bedding and linens in 1936, working his way up the retail ladder as a department manager and division manager before being named executive vice president in 1950. He became president in 1959 and chairman and CEO in 1969.

Lazarus attended Ohio State and Williams College, graduating in 1936 from Yale University with a bachelor of arts degree. He holds honorary degrees from Capital University and Ohio Dominican College.

His involvement with Ohio State dates from 1968 when he became a director of the Alumni Advisory Board. He has served as both a director and chairman of the Ohio State Development Fund Board and the University Hospitals Board, where he was a champion for quality patient care and services. He served on the James Cancer Hospital Board from 1977 to 1989, actively helping to procure public and private funds for the facility and for research. His generosity to the university has encompassed a wide variety of programs, including athletics, medicine, human ecology, social and behavioral sciences, academic affairs, WOSU, and the libraries. He is a lifetime member of the Alumni Association.

He has served as a director or trustee of the Ameritrust Corporation, Midland Mutual Life Insurance Company, Huntington National Bank, and Federated Department Stores. He has been a tireless supporter of the Columbus community, serving as honorary chair of the United Way, general chairman of the United Appeal, president of Community Chest, and member of the Community Emergency Assistance Coalition.

Ohio State gratefully acknowledges its debt to this dynamic and distinguished business and community leader for his many contributions to the university.

Colleen Clemens McMurray
Distinguished Service Award

As a concerned and dedicated alumna, Colleen Clemens McMurray has been a leader in the recruitment and retention of African-American students at Ohio State.

A 1951 graduate of the College of Social Administration (now Social Work), Mrs. McMurray is retired from a long career as a social worker, during which she worked with the Franklin County Juvenile Court, Boys Industrial Correctional Institution, Franklin County Children's Services, Orient State Institution, Franklin County Welfare Department, and the State of Ohio Department of Human Services.

An energetic and committed community member, she has served on the U.S. Governors’ Council on Health, the Coordinating Committee of the Franklin County Mental Health and Retardation Board Advisory Committee, the Franklin County Children Services Black Family Advisory Board, and the American Red Cross Auxiliary Board.

She was the first African-American appointed to the Altrusa International Board of Trustees and currently serves as board chair of the women’s service organization, which represents more than 18 countries.

Mrs. McMurray has maintained close ties to the College of Social Work, serving two three-year terms as the college’s representative to the university’s Alumni Advisory Council, where she serves on the steering committee. She served on the university’s Student Loan Association Board of Trustees for six years. In 1989 she was the Alumni Association’s representative on the Alumni Distinguished Teaching Award Committee, and she has also served on the Alumni Association’s Awards Selection Committee.

As the College of Social Work representative to the Alumni Advisory Council, she is a strong advocate for a curriculum relevant to the 21st century social worker, and she has worked tirelessly to raise funds for college programs.

Perhaps her greatest contribution to the university lies in her effective leadership in recruiting minority students and her willingness to serve as an unofficial mentor and counselor to them, enabling many to overcome the difficulties of a new situation and remain in school.

Ohio State recognizes with gratitude the many contributions made to the university by this gracious and caring alumna.
Most of us measure our lives in year-long cycles, beginning in January and ending in December. But those of us in education observe a different calendar—one in which the year-end celebration is a graduation, and the days are counted in quarters or semesters.

For college students, the cycle begins that first autumn when they arrive on campus and advances through classes and exams, vacations and summer jobs, until commencement day finally arrives. And that day comes once four times a year when students from Ohio State graduate to the cheers of proud relatives and friends.

Now, these newly minted alumni will look back briefly and move on, shifting into the day-to-day rhythms of hoped-for employment. They will leave behind late nights filled with cold pizza and hot debate. No more 7:30 in the morning classes, but instead a 7:30 commute to the office. No more papers due for class, but reports due for work. They will trade their backpacks for briefcases, their ball caps for business suits.

There is no doubt that they have been changed by their college experience. Those years spent at a major research university represent not only a growth in knowledge, but a growth in wisdom and common sense—a maturing process that prepares a student for life in the “real world.” And that world does not stand still.

We need only look at the capitals of the world and the corporations of America to realize that powerful forces have been at work. During the time it has taken this most recent crop of graduates to complete their educations, the Soviet Union has come apart, Germany has come together, ethnic warfare has erupted, trade barriers have fallen, and once-mighty businesses have been brought to their knees by economic forces.

Today’s graduates are being launched into a world made smaller by the media and larger by the scope of our global dilemmas: the environment, ethics, illiteracy, racism, sexism, revolution, protest, famine, and poverty.

The world is crying for the compassion and creativity of our graduates. And we need their considerable energy and ingenuity to resolve conflicts, regain civility, and restore our spirits.

That is why, for all of us, graduation is a time that renews our hope in the future. As I preside over Ohio State’s commencement, I am impressed by the intelligence, dedication, and vigor of our new college graduates, young and not so young. And I feel an old, familiar feeling: optimism. Optimism about the actions our industries are taking to regain a competitive edge. Optimism about the adjustments education is making in response to a changing society. And, most of all, optimism about and faith in this new generation that is about to take its place in our society.

Today, as many of them leave school behind, their memories are bittersweet. One of Ohio State’s engineering graduates sent me a letter that, I believe, captures the great joy we share in this special rite of passage and the strength of the educational process. She wrote, “There will be at least one chemical engineer with a tear in her eye as the national anthem is played, a lump in her throat as her college is introduced, a smile on her face as she gets her diploma, and a cry of joy as her father hugs her and says, ‘I am so proud of you!’”

It is a pride in which we can all share. I thank this graduate, and thousands like her, for all they will bring to our society. They are very bright. They work very hard. They have learned to live without security, but they continue to seek it. They are ready not only to cope with change, but to create change. And they have turned away from “me-ism” and are again seeking ways to help their fellow human beings.

I am confident that when this generation assumes leadership, America will be in very good hands.
Congratulations and Welcome to the Alumni Association

Congratulations on receiving your degree. You may not notice the difference, but today, along with hundreds of your colleagues, you’ve become an alumnus. For you, one era has passed, and another is about to begin.

You are a member of the Buckeye family and partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

You can assist the university in many ways. You can recruit new and highly qualified students. You can represent Ohio State well through personal and occupational achievements. You can participate financially through the Development Fund. And you can work in an advisory capacity with the university to improve itself and its programs to better prepare today’s students for tomorrow’s citizenship.

We extend to you a year’s complimentary membership in the Alumni Association. Included is a year’s subscription to the Ohio State Alumni Magazine, which will keep you informed of the university’s continuing pursuit of excellence and help you keep in touch with your friends and classmates.

To you, your family, friends, and those others who helped you arrive here today go our best wishes. You are joining a great family of Ohio State alumni working together to make a difference around the world.

Cordially,

This program is not an official graduation list.

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of graduates' names, or may result in use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of The University Registrar, 202 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210.

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In the light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral degrees, not only indicates the type of degree, but also is lined with the official colors of the university.

The Gown

Bachelor. Black, full cut with long pointed sleeves.
Master. Black, long or short sleeves with a re-shaped panel extended for each sleeve.
Doctor. Black with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor. Three feet long with a two-inch-wide velvet edging.*
Master. Three and one-half feet long with a three-inch-wide velvet edging.*
Doctor. Four feet in length with a five-inch-wide velvet edging and panel at the sides.

* Not usually worn by candidates for a degree.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study:
