<p>3150 System Dynamics and Electricity U 4</p> <p>Modeling of mechanical, fluid, thermal, electrical, and bio-systems. Analytical, computer simulation and experimental solution methods. 1st and 2nd order systems, frequency response. Electric power distribution, electric motor selection and control. Prereq: Physics 1251 (132), and Math 2174 (415), 2177 (415), 2415 (415), or 2255 (255). Not open to students with credit for 425.</p>	<p>4500 Advanced Biological Engineering U 2</p> <p>An integration of biology, biochemistry and engineering fundamentals for applications in industrial bioprocessing and for analysis and design of biological systems. Prereq: 3120 and 3500.</p>
<p>3170 Computer Graphics Using SolidWorks U 2</p> <p>An advanced course in graphics with emphasis on the application of computer generated graphics using SolidWorks in the solution of engineering problems. Prereq: Engr 1182.01 or 1182.02 or 1182.03 or 1186.01 or 1282.01H or 1282.02H or 1282.03H or 1282.04H.</p>	<p>4567 Assessing Sustainability: Project Experience U 3</p> <p>Students gain experience in sustainability assessment by applying concepts and quantitative methods to evaluate environmental, economic, social, and technical sustainability of specific projects. EEDS major capstone. Prereq: AEDEcon 4330 or ISE 2040, or permission of instructor. Not open to students with credit for ENR 4567 or AEDEcon 4567. Cross-listed in AEDEcon and ENR.</p>
<p>3171 Computer Graphics Using AutoCAD U 2</p> <p>An advanced course in graphics with emphasis on the application of computer generated graphics to the solution of engineering problems using AutoCAD. Prereq: Engr 1182.01 or Engr 1182.02 or Engr 1182.03 or Engr 1186.01 or Engr 1282.01H or Engr 1282.02.H or Engr 1282.03H or Engr 1282.04H.</p>	<p>4900 Capstone Design I U 3</p> <p>Engineering design approach in a team environment; practice in the design and communication of a specific system within the student's area of specialization. Must be taken during last full academic year in FABEng. Prereq: 3150. Not open to students with credit for 725.</p>
<p>3200S Engineering for Community Development in Ohio U 3</p> <p>Service-learning course applying engineering to address contemporary issues related to food security in Central Ohio. In consultation with local social organizations, students will merge best practices for community development with resilient and sustainable design toward a semester long engineering design project that addresses a need or an opportunity to alleviate poverty and hunger. Prereq: Engr 1181.01, 1181.02, 1186.01, 1187, 1188, 1281.01H, 1281.02H, or 1281.03H, or permission of instructor.</p>	<p>4910 Capstone Design II U 3</p> <p>Methodology of design in a team environment; practice in the design and communication of a specific system within the student's area of specialization. Continuation of Capstone Design I. Prereq: 4900. Not open to students with credit for 725.</p>
<p>3210 Introduction to Humanitarian Engineering U 3</p> <p>This course will introduce students to the field of Humanitarian Engineering, cover a variety of potential career paths in this field, explore engineering equations as they apply to problem solving in low-resource settings, introduce students to reflection and communication skills for working as engineers in sustainable development and discuss cultural constraints for engineering problems. GE theme sustainability course.</p>	<p>4998 Undergraduate Research U 1 - 5</p> <p>Individually supervised research and project work. Prereq: 6 cr hrs taken at 3000 level or above in Engineering. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.</p>
<p>3211 Introduction to Humanitarian Engineering Laboratory U 1</p> <p>This course will introduce students to the field of Humanitarian and Development Innovation through experience-based learning. Weekly experiential activities will build context for engineering design and technologies to enhance sustainability in low resource settings as development workers. The overarching goal is to understand limits to human existence that inform humanitarian engineering design. Concur: 3210. GE theme sustainability course.</p>	<p>4998H Honors Undergraduate Research U 1 - 5</p> <p>Honors individually supervised research and project work. Prereq: Honors standing, and 6 sem cr hrs taken at the 3000-level or above in Engineering. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.</p>
	<p>4999 Undergraduate Thesis U 1 - 5</p> <p>Research leading to an undergraduate thesis. Prereq: 6 cr hrs taken at 3000 level or above in Engineering. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.</p>
	<p>4999H Honors Undergraduate Thesis U 1 - 5</p> <p>Honors research leading to an undergraduate thesis. Prereq: Honors standing, and 6 sem cr hrs taken at the 3000-level or above in Engineering, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.</p>

204 Food, Agricultural, and Biological Engineering

5160	Electronics, Measurement and Instrumentation	U G	4		
	Analysis of analog and digital electronic components and circuits. Analysis and design of measurement systems; data acquisition, signal conditioning, error and noise control, sensors and transducers used in food, agricultural and biological systems. Prereq: 3150 or equiv, or Grad standing in Engineering. Not open to students with credit for 605.				
5194	Group Studies	U G	1 - 5		
	Advanced group studies in Food, Agricultural, Biological, and Ecological Engineering with principal emphasis on design. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 4 completions.				
5200	Appropriate Technology for Developing Countries	U G	3		
	Introduction to Appropriate Technology product design and development for people in developing countries and the business related topics necessary for commercialization. The focus will be on market driven solutions that help ensure the long term sustainability of the solutions developed. Prereq: Engr 1182.01, 1182.02, 1182.03, 1282.01H, 1282.02H, 1282.03H, or 1282.04H; or Grad standing; or permission of instructor.				
5260.01	Sustainable Infrastructure for Developing Rural Communities	U G	3		
	Working effectively with developing rural communities to identify and acquire their basic water, sanitation, and hygiene (WaSH) infrastructure needs demands both community development and engineering expertise. This course will provide the engineer with knowledge on how to design in the context of a community's needs and the community development worker with basic WaSH engineering knowledge. Prereq: Permission of instructor. Not open to students with credit for CivilEn 5610.01. Cross-listed in CivilEn 5610.01.				
5260.02	Safe Water on Tap	U G	3		
	This problem-centered design course focuses on major water quality challenges both nationally and internationally. Human and context-driven design principles are applied to drinking water contaminants with global public health impact. We develop design algorithms from first principles whenever possible and explore novel solutions. Prereq: 2110, CivilEn 3130, CBE 2420, or MechEng 3503; and Engr 1221 or CSE 1222; or permission of instructor. Not open to students with credit for CivilEn 5610.02. Cross-listed in CivilEn 5610.02.				
5310	Ecological Engineering and Science	U G	4		
	Definition, classification, and practice of ecological engineering. Course explores ecological ecosystems, ecosystem restoration, and the utilization of natural processes to provide societal services and benefits to nature. Prereq: At least one course in Biology, Ecology, Engineering, or Geology, and Jr standing. Not open to students with credit for EnvEng 5310 or ENR 5310. Cross-listed in EnvEng and ENR.				
5330	Environmental Biophysics	U G	3		
	Environmental Biophysics provides an overview of the interactions between the physical microenvironment and the organisms that reside in that environment. This class will examine the roles of different environmental factors on the functioning of terrestrial vegetation, and scaling the exchange of heat and mass (i.e. water and carbon dioxide) from leaf to canopy scales. Prereq: Engr 1221 or CSE 1222 or 2021, or equiv.; or permission of instructor.				
5335	Advances in High Throughput Phenotyping	U G	3		
	High-Throughput Phenotyping (HTP) is an emerging field that integrates remote sensing and simulation and modeling technologies to advance selection in plant breeding programs. Advances in High Throughput Phenotyping provides an overview of the sensing and modeling tools that are being integrated into modern HTP platforms. Prereq: CSE 1222 or Engr 1221 or 1181.xx or 1281.xx or 1187 or HCS 2260 or AnimSci 2260 or ENR 2000 or AEDecon 2005 or ComLdr 3537 or Stat 1450, and Jr or Sr or Grad standing; or permission of instructor. Cross-listed in HCS.				
5405	Kinetics of Reactions and Reactor Design for Food and Biological Systems	U G	4		
	Basics of reaction kinetics and reactor design. Material balances in a reactor. Applications of kinetic models to describe changes in food quality attributes and food safety as a function of process parameters. Shelf life estimation of foods based on kinetics. Design, selection and sizing of reactors. Prereq: 2110, 3120, and Math 2177.				
5410	Advanced Food Engineering	U G	3		
	Application of heat and mass transfer, fluid flow, food properties, and food processing constraints in the design and selection of food processing equipment. Prereq: 3130 or 4410, or Grad standing.				
5510	Introduction to Polymer Science: A Bio-based Approach	U G	3		
	This course introduces polymer chemistry through polymers found in nature. It is designed as a unique introduction to the subject, which connects natural and synthetic polymers by exploring the chemistry of natural polymers from plants, animals and humans and self-assembled macromolecular structures. Chapters cover the basic concepts of polymer chemistry. Prereq: Chem 2310, or Grad standing, or permission of instructor.				
5520	Phytotechnology and Phytoremediation	U G	3		
	Engineering principles of using plants for remediation of contaminated sites and treating polluted soil and water. Traditional methods as well as new trends and current research in phytoremediation technologies will be presented. Prereq: 3500 or EnvEng 3200, or Grad standing, or permission of instructor.				
5530	Advanced Rubber Technology	U G	3		
	This course will provide an in-depth understanding of rubber technology and rubber products, covering the science and practical topics. Students will learn about the synthesis, characterization, processing, and curing of elastomers and rubber. In addition, biomedical applications of rubber will be covered. Prereq: Chem 2310, or Grad standing, or permission of instructor.				
5540	Biomass Conversion to Bioenergy	U G	3		
	An exploration of the science and technologies used for energy production from bio-based materials, including agricultural biomass and solid waste sources. Prereq: 3130 or equiv.				
5550	Sustainable Waste Management	U G	3		
	A comprehensive examination of waste generation, treatment and reuse including the impacts of pollution on the environment and human health. The focus will be on agricultural residues, manure, domestic wastewater, and municipal solid waste streams. Prereq: Sr or Grad standing in Engineering. Not open to students with credit for 650 or 652.				
5620	Fluid Power Systems	U G	3		
	Analysis and design of fluid power systems used in mobile (off-road) agricultural, maintenance and earth moving equipment. Topics include: positive displacement components, control devices, actuators, fluids and fluid transmission electrohydraulics, system dynamics, and the use of state-of-the-art design and analysis tools. Prereq: 2110 or MechEng 3503; and MechEng 2020 or 2040; or Grad standing in engineering.				
5730	Design of Agricultural Water Management Systems	U G	3		
	Use of soil physics, porous media flow theory, soil-plant interactions, hydrology, and hydraulics to design and manage irrigation and drainage systems. Prereq: 2110 or CivilEn 3130 (413), and 2720 (373) or equiv; or Grad standing. Not open to students with credit for 673.				
5750	Stream Geomorphology and Watershed Hydrology	U G	3		
	Fundamental and advanced topics in stream geomorphology and hydrologic processes. Solving multi-objective engineering problems in a team setting involving protection, enhancement, and restoration of streams, rivers, and watersheds. Prereq: 2110 or CivilEn 3130 (413), and 2720 (373), or equiv; or Grad standing. Not open to students with credit for 773.				
5760	Design of Urban Stormwater Control Measures	U G	3		
	Fundamental and advanced hydrologic and water quality design of stormwater controls for urban areas. Students will be expected to solve multi-objective, real-world engineering problems in a team setting. Prereq: 2720 or CivilEn 3160, or Grad standing, or permission of instructor. Cross-listed in EnvEng.				
5797	Study at a Foreign Institution	U G	1 - 15		
	An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of department chairperson. Repeatable to a maximum of 25 cr hrs or 3 completions. This course is progress graded.				
5820	Environmental Controls and Air Quality	U G	3		
	Heating, ventilation, and air conditioning (HVAC) engineering applied to agricultural, residential, and commercial structures; analysis of factors affecting energy utilization and air quality; green and sustainable HVAC technologies. Prereq: 3130, MechEng 510, or ChBE 521. Not open to students with credit for 645.				
6020	Foundations of Data-Driven Sustainable Energy Systems	G	3		
	Introduction to issues impacting sustainable energy systems across technology, law and policy, business models, resilience, data, geospatial, and decision sciences. Prereq: Enrollment in Data-Driven Sustainable Energy Systems Graduate Interdisciplinary Specialization or permission of instructor. Not open to students with credit for AEDecon 6500, EnvEng 6020, Geog 6020, ISE 6020, or PubAfrs 6020. Cross-listed in AEDEcon 6500, EnvEng 6020, Geog 6020, ISE 6020, and PubAfrs 6020.				
6193	Individual Studies	G	1 - 5		
	Individual study of topics not included in regular courses; practice in development, organization, solution, and reporting on problems of student's choosing with faculty supervision. Prereq: Grad standing in Engineering. Repeatable to a maximum of 10 or hrs or 4 completions. This course is graded S/U.				
6194	Group Studies	G	1 - 5		
	Advanced group studies in Food, Agricultural and Biological Engineering with principal emphasis on design. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.				
6999	Graduate Research in Food, Agricultural and Biological Engineering for Thesis	G	1 - 18		
	Research for thesis. Repeatable. This course is graded S/U.				
7210	Research Methods in Food, Agricultural and Biological Engineering	G	3		
	Historical development of the research process. Problem selection and proposal development. Processes for acquiring funding and conducting quality research. Peer review of proposals and papers. Graduate students taking this course should, at minimum, have decided on a thesis or dissertation topic, and have initiated discussion with their advisors regarding their work. Prereq: Grad standing.				

Food, Agricultural, and Biological Engineering 205

7220	College Teaching in Engineering	G	2
Initial preparation for providing instruction in professional engineering programs at the college level including skills, strategies and issues common to university teaching in general and engineering instruction more specifically. Prereq: Not open to students with credit for 810. This course is graded S/U.			
7230	Probabilistic Methods in Engineering Design	G	3
Application of concepts of probability, random variables, statistical inference, multiple regression, multi-variate analysis, correlation analysis and concepts of Bayesian methodology to make reliable engineering design decisions. Prereq: Stat 3460 (427) or 3470 (427), or permission of instructor. Not open to students with credit for 735.			
7430	Advanced Food Process Design	G	3
An integration of quantitative parameters describing changes in the quality attributes of foods with quantification of the physical changes occurring between the time of raw material harvest or assembly and the point of food consumption. Models to predict changes in quality attributes as a function of process parameters will be developed and demonstrated. Prereq: FdScTe 5400, 5536, 5600, or FABEng 3481 or 4410, or permission of instructor. Not open to students with credit for FdScTe 7430. Cross-listed in FdScTe.			
7725	Research Advances in Food Engineering	G	1
This class is part of a multi-university seminar course organized by USDA Committee NC1023-Engineering for Food Safety and Quality. The course provides a broad perspective of innovation as applied to food engineering. Students learn general overview and case studies of current and emerging research areas in food and agricultural engineering and processing by different research groups in the U.S. Prereq: Grad standing in Food Science and Technology or Food Ag Bio Engineering. This course is graded S/U. Cross-listed in FdScTe.			
7890	Seminar	G	1
Lecture and discussion of current topics related to food, agricultural and biological engineering presented by faculty, staff, graduate students, and guest speakers. Prereq: Grad standing in Engineering. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.			
8193	Individual Studies	G	1 - 5
Advanced individual study of topics not included in regular courses; practice in development, organization, solution, and reporting on problems of student's choosing with faculty supervision. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
8194	Group Studies	G	1 - 5
Advanced group studies in Food, Agricultural and Biological Engineering with principal emphasis on design. Repeatable to a maximum of 10 cr hrs or 4 completions.			
8999	Food, Agricultural and Biological Engineering Research for Dissertation	G	1 - 18
Research for dissertation. Prereq: Doct standing in FABEng. Repeatable. This course is graded S/U.			

Food, Agricultural, and Environmental Sciences

1100	Introduction to Ohio State University and Food, Agricultural and Environmental Sciences	U	½
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of academic areas of study. Prereq: Not open to students with credit for 100, or equiv.			
1100H	Introduction to Ohio State University and Food Agricultural, and Environmental Sciences - Honors	U	½
Academic requirements; University procedures, grading system, resources; student rights and responsibilities; overview of academic areas of study. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 100H, 101, ArtsCol 100, ArtsSci 100, Engineer 100, HomeEc 100, NatRes 100, or UVCSurv 100.			
1200	Kellogg and Moser Food Security and Sustainability Learning Community Seminar	U	1
This course will be for students living in the W.K. Kellogg Foundation and Bobby Moser Food Security and Sustainability Learning Community (LC). Course content will include guest lecturers, field experiences, and the conception of a culminating project surrounding the topics of food security and sustainability. Prereq: Acceptance in W.K. Kellogg Foundation and Bobby Moser Food Security and Sustainability Learning Community, and permission of instructor. This course is graded S/U.			
2193	Individual Studies	U	1 - 3
Planning, conducting, and reporting a special study appropriate to the needs of the student. Prereq: Cumulative GPA 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
2194	Group Studies	U	1 - 3
Group study classes or projects in selected interdisciplinary topics in Agriculture.			

2351	Planning a Career in Food, Agricultural, and Environmental Sciences	U	1
Designed to support students in developing competencies around the topics of career exploration, job search, and creating materials for a successful job search and/or graduate school application. Students will move through career development activities in group and individual settings, will self-reflect on progress made towards post-graduation goals, and create a plan for the future.			
3000	Peer Mentor Leadership	U	1
Peer mentors in this course will learn skills in leadership, student development, academic development, and community building while engaging constructively with aspects of identity and how identity shapes perspective. Prereq: Acceptance into Peer Mentor Program, or permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
3191	Conducting Your Internship in the College of Food, Agricultural, and Environmental Sciences	U	0
The College of Food, Agricultural, and Environmental Sciences strives to provide opportunities for students to develop the critical competencies and technical knowledge and skills that employers demand in the job market and that are necessary for student success in their chosen field. This class provides students the structure to complete the initial requirements of their internship experience. Prereq: Internship approval, and permission of instructor. Repeatable to a maximum of 6 completions. This course is graded S/U.			
3488	Professional Development in the College of Food, Agricultural, and Environmental Sciences	U	0 - 2
Participation in structured co-curricular programs leading to professional development or other structured programs providing experience for professional development. Prereq: CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
3797	Study at a Foreign Institution	U	1 - 10
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition as well as all travel and subsistence costs. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 3 completions.			
3797.03	First Year Experience Study at a Foreign Institution	U	3
This course will provide an opportunity for students to learn about global agricultural and environmental issues in an international context. Prereq: Admission to the FAES First Year Experience Education Abroad program, and permission of instructor.			
3797.05	Panama: Through the Lens of AgriCulture, Diversity and Sustainability	U	4
Provide perspective of agriculture and other economic sectors that influence food, fiber, and fuel. Designed to educate and prepare students to experience various applications of agriculture and production systems within socioeconomic and ethnically diverse contexts. Prereq: Admission to the Panama: Through the Lens of AgriCulture, Sustainability, and Diversity education abroad program and permission of the instructor. GE theme lived environments course.			
4580	CFAES Global Option Capstone	U	1
Synthesis of international experiences completed as part of the CFAES Global Option. Emphasis on learning, practicing, and applying principles and strategies related to the international aspects of the student's major. Prereq: Enrollment in the CFAES Global Option, and permission of instructor.			
4797	Study at a Foreign Institution	U	1 - 15
Study at a foreign institution. Repeatable to a maximum of 30 cr hrs or 15 completions.			
5194	Group Studies	U G	1 - 3
Study in interdisciplinary topics in Agriculture. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
5797	Study at a Foreign Institution	U G	1 - 10
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition as well as all travel and subsistence costs. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 3 completions. This course is progress graded.			

French

1101.01	Beginning French I Classroom	U	4
Introduction to French; development of listening, reading, speaking, and writing skills. Taught in French. Course is not open to native speakers of this language, students with EM credit, or to students with two or more years of study in this language in high school. Prereq: Not open to students with credit for 1101.21, or 4 cr hrs of 1101.51 or 1101.61. This course is available for EM credit. GE for lang course. GE world languages course.			
1101.21	Beginning French I DL	U	4
Distance learning version of introduction to French; development of listening, reading, speaking, and writing skills. Taught in French. Course not open to native speakers, students with EM credit, or to students with two or more years of study in this language in high school. Prereq: Not open to students with credit for 1101.01 or 4 credits of 1101.51 or 1101.61. This course is available for EM credit. GE for lang course. GE world languages course.			

206 French

1101.61 Beginning French I: Individualized DL U 1 - 4

Individualized introduction to French via distance learning; development of listening, reading, speaking, and writing skills. Taught in French. Course not open to native speakers, students with EM credit, or to students with two or more years of study in this language in high school. Prereq: Not open to students with credit for 1101.01, 1101.21, or 4 cr hrs of 1101.51 or 1101.61. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1102.01 Beginning French II Classroom U 4

Continued study of French; development of listening, reading, speaking, and writing skills; readings based on contemporary French Culture and literature. Taught in French. Not open to native speakers of this language or with credit through regular course enrollment, or students with EM credit. Prereq: 1101.01, 1101.21, or 4 cr hrs of 1101.51 or 1101.61, or French Placement Level 8. Not open to students with credit for 1102.21, 1102.30, or 4 cr hrs of 1102.51 or 1102.61. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.

1102.21 Beginning French II DL U 4

Distance learning version of continued introduction to French; development of listening, reading, speaking, and writing skills. Taught in French. Course not open to native speakers, students with EM credit, or to students with two or more years of study in this language in high school. Prereq: 1101.01 or 1101.21, or completion of 4 cr hrs of 1101.51 or 1101.61, or French Placement Level 8. Not open to students with credit for 1102.01 or 4 credits of 1102.51 or 1102.61. This course is available for EM credit. GE for lang course. GE world languages course.

1102.51 Beginning French II Individualized U 1 - 4

Continued study of French; development of listening, reading, speaking, and writing skills; readings based on contemporary French Culture and literature. Taught in French. Closed to native speakers. Prereq: 1101.01, or completion of 4 cr hrs of 1101.51, or French Placement Level 8. Not open to students with EM credit. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1102.61 Beginning French II: Individualized DL U 1 - 4

Continued individualized study of French via distance learning; development of listening, reading, speaking, and writing skills; readings based on contemporary French culture and literature. Taught in French. Prereq: 1101.01, 1101.21, or 4 cr hrs of 1101.51 or 1101.61, or French Placement Level 8. Not open to students with credit for 1102.01, 1102.21, or 4 cr hrs of 1102.51 or 1102.61. Repeatable to a maximum of 4 completions or 4 cr hrs. This course is available for EM credit. GE for lang course. GE world languages course.

1103.01 Beginning French III Conversation and Composition U 4

Continued development of listening, speaking, reading and writing with an emphasis on oral and written skills; focus on functional topics and thematic vocabulary. Taught in French. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, 1102.21, 1155.01, 1155.21, or 4 cr hrs of 1102.51 or 1102.61, or Placement Exam Level 7. Not open to students with credit for 1103.02, 1103.21, or 4 cr hrs of 1103.51 or 1103.61. This course is available for EM credit. GE for lang course. GE world languages course.

1103.21 Beginning French III DL U 4

Distance learning version of continued introduction to French; development of listening, reading, speaking, and writing skills. Taught in French. Course not open to native speakers, students with EM credit, or to students with two or more years of study in this language in high school. Prereq: 1102.01, 1102.21, 1155.01, or 1155.21, or 4 cr hrs of 1102.51 or 1102.61, or French Placement Level 7. Not open to students with credit for 1103.01, 1103.02, or 4 cr hrs of 1103.51 or 1103.61. This course is available for EM credit. GE for lang course. GE world languages course.

1103.51 Beginning French III Individualized U 1 - 4

Continued development of listening, speaking, reading and writing with an emphasis on oral and written skills; focus on functional topics and thematic vocabulary. Taught in French. Prereq: 1101.01 and 1102.01; or completion of 4 cr hrs of both 1101.51 and 1102.51; or French Placement Level 7. Not open to students with credit for 1103.xx; not open to native speakers of this language through regular course enrollment or EM credit. Only one decimal subdivision may be taken for credit. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1103.61 Beginning French III: Individualized DL U 1 - 4

Continued development of listening, speaking, reading and writing with an emphasis on oral and written skills; focus on functional topics and thematic vocabulary. Taught in French via distance learning. Prereq: 1102.01, 1102.21, 1155.01, 1155.21, or 4 cr hrs of 1102.51 or 1102.61, or French Placement Level 7. Not open to students with credit for 1103.01, 1103.02, 1103.21, or 4 cr hrs of 1103.51 or 1103.61. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1155.01 Beginning French Review Classroom U 4

Intensive beginning French. Review of basic structures, vocabulary and skills. Taught in French. Not open to native speakers of this language. Prereq: 2 or more years of high school French, and placement in 1101.01 by EM credit only. Not open to students with credit for 1101.01, 1101.21, 1101.51, 1101.61, 1102.01, 1102.21, 1102.51, 1102.61, 1103.01, 1103.21, 1103.51, 1103.61, or 1155.21. This course is available for EM credit. GE for lang course. GE world languages course.

1155.21 Beginning French Review DL U 4

Distance learning version of intensive beginning French. Review of basic structures, vocabulary and skills. Taught in French. Not open to native speakers of this language. Prereq: 2 or more years of high school French, and placement in 1101 by EM credit only. Not open to students with credit for 1101.01, 1101.21, 1101.51, 1101.61, 1102.01, 1102.21, 1102.51, 1102.61, 1103.01, 1103.21, 1103.51, 1103.61, or 1155.01. This course is available for EM credit. GE for lang course. GE world languages course.

1803.03 Global May Paris U 3

This course is on the cultural history of the city of Paris, it takes places on a study abroad trip to Paris in May. Prereq: Not open to students with credit for 1803.01. GE cultures and ideas course.

This class provides students the structure to complete the initial requirements of their internship experience. Advisor approval required. Prereq: Permission of instructor. This course is graded S/U.</p>			

General Studies: Biology

1200T	General Biology	U	4
<p>A basic course intended to provide a biological foundation, with supporting chemistry concepts, emphasizing principles and applications of biology. Prereq: Not open to students with credit for 120T or Biology 1113 (113). This course is available for EM credit.</p>			
1250T	General Botany with Applications	U	4
<p>Introduction to the fundamental structures and processes of plants, including plant anatomy, physiology, morphology, reproduction, and genetics. Prereq: Not open to students with credit for 125T or HCS 300 or PlntBio 300. This course is available for EM credit.</p>			
2194T	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.</p>			

General Studies: Chemistry

1100T	Introduction to General Chemistry	U	3
<p>Develops the basic concepts of atomic structure, bonding theory, molecular structure, chemical reactions, solutions, equilibrium, and acid-base chemistry. Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. Not open to students with credit for Chem 1110 or 1210. This course is available for EM credit.</p>			
2194T	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.</p>			

General Studies: Communications Skills

1201T	Exploring Agricultural Communication, Education and Leadership	U	½
<p>Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.</p>			
2115T	Technical and Business Writing	U	3
<p>Principles of technical and business communication in the global setting with emphasis on practical applications for professional and business environments involving correct usage and documentation in writing, reading, speaking and listening. Prereq: English 1110.01 or 1110.03. Not open to students with credit for AgrComm 2367. This course is available for EM credit.</p>			
2189.01T	Agricultural Communication Practicum	U	1 - 2
<p>Practicum is an experiential learning class that allows students to gain practical agricultural communication experience in a supervised environment. Emphasis is placed on developing technical communication skills in preparation for careers in the agricultural communication industry. A grade of C or higher required to meet graduation requirements. Prereq: AgrComm 2531. Repeatable to a maximum of 3 cr hrs or 2 completions.</p>			

2189.02T	Community Leadership Practicum	U	1
<p>Practicum is an experiential learning class that allows students to gain practical community leadership experience in a supervised environment. Emphasis is placed on developing technical communication skills in preparation for careers in the community leadership industry. A grade of 'C' or better is required to meet degree requirements. Prereq or concur: ComLdr 2530.</p>			
2194T	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.</p>			

General Studies: Humanities

1190.02T	Humanities as a Window on Cultural Pluralism: Global Arts	U	3
<p>An introduction to specific visual arts and cultural contexts of four societies: Japan, Ghana, France, USA. This course is available for EM credit.</p>			
2193T	Individual Studies	U	1 - 3
<p>Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.</p>			
2194T	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.</p>			

General Studies: Mathematics

1141T	Business Mathematics	U	3
<p>The mathematics of business and finance: ratios, proportions, decimals, percents, markup and discounts, the income statement, simple interest, compound interest, annuities, amortization and sinking funds. Prereq: Math 1050, or Math Placement Level S or higher, or Concur: GenMath 1193T. This course is available for EM credit.</p>			
1145T	Technical Mathematics	U	3
<p>A study of technical applications and computational methods involving variation, systems of equations, quadratic equations, graphical solutions to equations, logarithmic and exponential equations, and trigonometry. Prereq: Math 1050 with a grade of C- or better, or Math Placement Level R or higher, or Concur: GenMath 1193T. This course is available for EM credit.</p>			
1193T	Individual Studies	U	2
<p>This course serves as additional support for students to successfully complete a college level mathematics course. Concur: 1141T or 1145T. This course is graded S/U.</p>			
2194T	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.</p>			

General Studies: Social Science

1181T	Hispanic Culture and Language in the Workplace	U	3
<p>Develop an understanding of how various Latino cultures influence workplace issues in order to improve the working environment and learn a basic workplace Spanish vocabulary. Prereq: Not open to students with credit for 184T. This course is available for EM credit.</p>			
2194T	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.</p>			

Geodetic Sciences

5194	Group Studies	U G	1 - 6
<p>Group studies of a specified topic in geodetic sciences, geodesy, or geodynamics. Prereq: Permission of instructor. Repeatable to a maximum of 40 cr hrs or 20 completions for any combination of 5194 or 694.</p>			
5612	Introduction to Geodesy	U G	3
<p>The figure of the Earth; global geodetic observing system; reference frames and datums; satellite missions for Earth measurements; Earth's gravity field. Prereq: Math 1152 (153) or above, or permission of instructor. Not open to students with credit for 5660 (660), 6776 (776), or 6777 (777).</p>			
5636	Geovisualization Geometry: Map Projections and More	U G	4
<p>Principal map projections of the sphere, their distortions, properties, and usage. Evolution of geospatial visualization methods using computer graphics. Prereq: 2153 (254) or equiv. Not open to students with credit for GeodSciM 636.</p>			

210 Geodetic Sciences

5637	Topics in Mapping	U G	3
A survey of developments in mapping and geographic information science of importance to geodetic scientists specializing in geodesy, geodynamics, spatial data acquisition technology, and mathematical and statistical methods. Prereq: 5636 (636), or permission of instructor. Not open to students with credit for GeodSciM 637.			
5652	Adjustment Computations	U G	5
Classification of errors; measures of dispersion; variance and covariance; propagation of errors; weights, observations, and normal equations; algorithms and examples, weighted and fixed constraints; statistical tests; error ellipses. Prereq: Math 1172, 2153, 2173 or 254 or equiv; and 2568, 4568, or 572 or equiv. Not open to students with credit for GeodSciM 650 or 651.			
5660	Geometric Reference Systems	U G	4
Geodetic and astronomic coordinates; ellipsoidal geometry; geodetic datums; terrestrial and celestial reference systems; reduction of celestial coordinates; polar motion; time systems. Prereq: Math 1172, 2153, 2173, or 254 or equiv; and Math 2568, 4568, or 572 or equiv. Not open to students with credit for 660.			
5781	Geodesy and Geodynamics	U G	3
Crustal motion geodesy, reference frame realization and station trajectory analysis, plate motion and Euler's theorem, earthquake deformation cycle, elastic and viscoelastic responses to surface loading, numerical methods. Prereq: Math 1152 (153), 2174, 2568, or 5601, or Physics 1251; or permission of instructor. Not open to students with credit for GeodSciM 781.			
6193	Individual Studies in Geodetic Sciences	G	1 - 6
Assigned readings, laboratory, or field work, under the guidance of a faculty member, arranged to meet the requirements of individual students. Prereq: Permission of instructor. Repeatable to a maximum of 40 credit hours for any combination of 6193 and 693. This course is graded S/U.			
6776	Physical Geodesy	G	4
The gravity field and its potential; the disturbing potential and its representation; applications and current methods. Prereq: 5660 (660), or permission of instructor. Not open to students with credit for GeodSciM 776.			
6777	Satellite Geodesy	G	3
Geometric and dynamic applications of artificial satellites in geodesy; determination of station positions and the gravity field of the Earth. Prereq or concur: 6776 (776) or equiv. Not open to students with credit for GeodSciM 777.			
6786	Geospatial Data Structures for Computer Mapping and GIS	G	3
Introduction to spatial data structures and algorithms for computer mapping; implementation of algorithms for domain-specific data structures using object-oriented programming languages. Prereq: CSE 2221 (222) or equiv, or permission of instructor. Not open to students with credit for GeodSciM 786.			
7763	Advanced Adjustment Computations	G	4
Large patterned systems, Gauss-Markoff model and mixed models; collocation and its robustification; generalized matrices in geodetic science; sequential algorithms; consistency checks; error ellipsoids; variance component estimation; Kalman filtering. Prereq: 5652 (651) or equiv. Not open to students with credit for GeodSciM 762.			
7875	Spectral Methods in Geodesy	G	3
Spectral analysis theory and techniques in gravimetric geodesy; Fourier, Hankel, and Legendre transforms; convolutions, discrete techniques, correlation and power spectral density estimation and frequency-domain Isc. Prereq: Permission of instructor. Not open to students with credit for GeodSciM 875.			
7998	Research in Geodetic Science	G	1 - 12
Graduate-level research. Prereq: Grad standing in Geodetic or Earth Sciences. Repeatable. This course is graded S/U.			
7999	Research for Thesis in the Geodetic Sciences	G	1 - 12
Graduate-level research for thesis. Prereq: Grad standing in Geodetic or Earth Sciences. Repeatable. This course is graded S/U.			
8785	Research Principles and Techniques	G	2 - 9
Training for research in any area for which the student has appropriate preparation. Prereq: Permission of instructor. Repeatable to a maximum of 60 cr hrs or 20 completions for any combination of 8785 or 885. This course is graded S/U.			
8871	Advanced Physical Geodesy	G	3
Boundary-value problem; use of spherical harmonics; statistical application; appropriate representations; computations in space; combination of gravimetric and satellite data. Prereq: 7763, or 762 and 777 or equiv. Not open to students with credit for GeodSciM 871.			
8873	Advanced Satellite Geodesy	G	3
Dynamics of earth-orbiting satellites; equations of motion and their solutions; advanced data acquisition methods; analysis for the gravity field and station positions. Prereq: 7763 (763) and 6777 (777), or equiv. Not open to students with credit for GeodSciM 873.			
8998	Research in Geodetic Science	G	1 - 12
Graduate-level research. Prereq: Grad standing in Geodetic or Earth Sciences. Repeatable. This course is graded S/U.			

8999	Dissertation Research in Geodetic Science	G	1 - 12
Research for dissertation. Prereq: Grad standing in Geodetic or Earth Sciences. Repeatable. This course is graded S/U.			

Geography

1900	Extreme Weather and Climate	U	4
Surveys characteristics and processes of Earth's atmosphere and how it interacts with the planet's surface, oceans, and human activity. The course focuses on how these interactions work to produce extreme weather events and climate extremes and how they affect people. Prereq: Not open to students with credit for 1900H (120H), 2960 (220), 5900 (520), 120, or AtmosSc 2940 (230). GE nat sci phys course. GE foundation natural sci course.			
1900H	Extreme Weather and Climate	U	4
Surveys characteristics and processes of Earth's atmosphere and how it interacts with the planet's surface, oceans, and human activity. The course focuses on how these interactions work to produce extreme weather events and climate extremes and how they affect people. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 1900 (120), 120H, 2960 (220), 5900 (520), or AtmosSc 2940 (230). GE nat sci phys course. GE foundation natural sci course.			
2100	Human Geography	U	3
Introduces students to the field of human geography; focus on real-world problems, such as migration, war, imperialism, environment, trade, conflict, inequality, and urbanization by applying key human geography concepts, such as place, space, scale, landscape, and territory. GE soc sci indiv and groups course. GE foundation social and behavioral sci course.			
2193	Individual Studies in Geography	U	1 - 9
Independent studies on selected Geography related topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
2194	Group Studies in Geography	U	1 - 3
Special studies on topics directly related to Geography. Repeatable to a maximum of 15 cr hrs or 5 completions.			
2194H	Group Studies in Geography	U	1 - 3
Special studies on topics directly related to Geography. Prereq: Honors standing or permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
2200.01	Mapping Our World	U	3
Introduction to the power of maps, covering spatial representation, visual literacy, and geographic information technology in a global society. Prereq: Not open to students with credit for 2200.02 or 480. GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
2400.01	Economic and Social Geography	U	3
Economic activity is a form of social relationship that connects us to people and places in our community and around the world. Develop a spatial understanding of the economy and society, focusing on issues such as globalization and inequality. Tie these geographic perspectives to your own position in global economies and explore how this poses challenges and opportunities for global citizenship. Prereq: Not open to students with credit for 2400, 2400H, or 2400.02. GE soc sci human, nat, and econ resources and diversity global studies course. GE theme citizenship for div and just wrld course.			
2400.02	Economic and Social Geography: Research-Focused	U	4
Economic activity is a form of social relationship that connects us to people and places in our community and around the world. Develop a spatial understanding of the economy and society, focusing on issues such as globalization and inequality. Do extensive research using these geographic perspectives to explore your own position in global economies and opportunities for global citizenship. Prereq: Not open to students with credit for 2400, 2400H, or 2400.01. GE theme citizenship for div and just wrld course.			
2400H	Economic and Social Geography	U	3
Geographic analysis of relationships between society and economy; focusing on such issues as globalization, production and consumption, inequality and social difference. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 240 or 240H. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course. SS Admis Cond course.			
2500	Cities and their Global Spaces	U	3
Globalization and urbanization; urban economies, spaces, and societies; function, form, and pattern in developed and developing world cities. GE soc sci orgs and polities and diversity global studies course. GE theme lived environments course.			
2750	World Regional Geography	U	3
Develops students' knowledge of world geography through the twin concepts of region and globalization; focuses on culture, society, politics, economy, and interplay between people and environments. Prereq: Not open to students with credit for 200 or 2750H (200H). GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course. SS Admis Cond course.			

2750H	World Regional Geography	U	3
Develops students' knowledge of world geography through the twin concepts of region and globalization; focuses on culture, society, politics, economy, and interplay between people and environments. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 2750 (200) or 200H. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course. SS Admis Cond course.			
2800	Our Global Environment	U	3
Introduction to global environmental issues, including the interaction of physical and social factors in the causes of and strategies for ameliorating environmental problems. Prereq: Not open to students with credit for 1900 (120), 1900H (120H), 2960 (220), 2960H (220H), or 210. GE nat sci phys course.			
2960	Introduction to Physical Geography	U	4
The elements and processes of the natural environment, their characteristics, distribution, and implications in the human habitat. Prereq: Not open to students with credit for 1900 (120), 1900H (120H), 2800 (210), 2960H (220H), or 220. GE nat sci phys course. NS Admis Cond course.			
3300	Transportation Security	U	3
Geographic aspects of transportation security. Spatial analysis of transportation linkages. Relationships between transportation and spatial organization; selected analytical models dealing with threats to transportation security. Prereq: Not open to students with credit for 445.			
3597.01	World Urbanization	U	3
An examination of geographic aspects of the urbanization process in the world's major regions; interrelationships between urbanization and economic development. Prereq: Not open to students with credit for 3701 (450) or 597.01. GE cross-disciplinary seminar course.			
3597.03	Environmental Citizenship	U	3
Provides tools for environmental citizenship by teaching interdisciplinary perspectives on biophysical and sociocultural forces that shape environments. Addresses general processes through local case studies. Prereq: Not open to students with credit for 597 or English 3597 (597.03). GE cross-disciplinary seminar course. Cross-listed in English.			
3600	Space, Power and Political Geography	U	3
Political geographic thought; territory and territoriality; borders and scale; space, power and uneven development; states and statecraft; and the politics of nations, regions and localities. Prereq: Not open to students with credit for 460 or 460H. GE soc sci orgs and politics course. GE foundation social and behavioral sci course.			
3600H	Space, Power and Political Geography	U	3
Political geographic thought; territory and territoriality; borders and scale; space, power and uneven development; states and statecraft; and the politics of nations, regions and localities. Prereq: Honors standing, or permission of instructor. GE soc sci orgs and politics course. GE foundation social and behavioral sci course.			
3701	The Making of the Modern World	U	3
The geographies of modernity and their formation: the world market, the global polity, diasporas and constructing difference, colonialism, the transformation of nature, Eurocentricity, post-modernity. Prereq: Not open to students with credit for 450. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci course.			
3702	Life and Death Geographies: Global Population Dynamics	U	3
Theories of population change; global and national contexts of fertility policy and reproductive health, morbidity and mortality trends; migration; environmental effects of population growth; urbanization. Prereq: Not open to students with credit for 470.			
3750	Geography of North America	U	3
Geographical analysis of North America; spatial patterns and processes associated with culture, politics, economy and social difference at international, national, regional and urban scales. Prereq: Not open to students with credit for 400. GE diversity soc div in the US course.			
3751	Geography of Ohio	U	3
An appraisal of geographic factors in the settlement and development of Ohio; an overview of the evolution of the Ohio economy. Prereq: Not open to students with credit for 401.			
3755	Geography of the European Union and the Challenges of Sustainability	U	4
Education abroad in Cyprus. Focuses on sustainability challenges facing the European Union, using the UN Sustainable Development Goals as a unifying theme. Cyprus' priority Sustainable Development Goals are a case example. Central to the course is the emphasis on the three pillars of sustainability, environmental, social, and economic, and how they impact efforts toward European integration. Prereq: Permission of instructor. Not open to students with credit for 3753, 3753.01, 3753.02, or Nursing 3798. GE theme sustainability course.			
3800	Geographical Perspectives on Environment and Society	U	3
Geographical understanding of interactions between society and environment; how historical and contemporary views of the environment influence people's actions toward the environment and other people. GE soc sci human, nat, and econ resources course. GE theme lived environments course.			
3801	Political Ecology	U	3
Introduces students to a geographical school of nature-society thought. It situates PE in the hundred years of geographic thought on nature-society relations prior to PE's emergence in the 1970s, and follows how the field developed since then. GE theme sustainability course.			

3900.01	Global Climate Change: Causes and Consequences	U	3
An advanced overview of how Earth's climate changes over time and engage the consequences currently facing our planet. Fundamentals of climate dynamics and broader political, economic, and legal dimensions are explained. Students will explore links between climate and society's energy usage, then critically evaluate scale-specific strategies for mitigation and adaptation. Prereq: Not open to students with credit for 3900, 3900.02, 3901H. GE nat sci phys course. GE theme sustainability course.			
3901H	Global Climate and Environmental Change	U	3
Examines both natural and social factors that force changes in our climate and environment and explores strategies for a sustainable environment in the future. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 3900 (420) or 410H. GE nat sci phys and soc sci human, nat, and econ resources course.			
3980	Biogeography: An Introduction to Life on Earth	U	3
The patterns and processes responsible for the global distribution of Earth's flora and fauna; the inter-relationship between biota and soils; climate and topography will be emphasized. Prereq: Not open to students with credit for 490.			
4100	Geographic Inquiry	U	3
History of geographic thought; covers major advances and debates in theory and method, and outlines major contributions of geographic research. This is a capstone course for Geography majors in Environment & Society and Urban, Regional, and Global Studies specializations. Prereq: Not open to students with credit for 600.			
4101	Undergraduate Research and Professionalization Seminar	U	3
Course for geography majors that identifies key skills, concepts, and tools that characterize a geographer's training, and guides students in recognizing and articulating them. Explores trends and issues in the labor market relevant to geography-related careers. Introduces research skills, including generating, analyzing, and presenting geographic information. Prereq: 3 semester hours in Geog.			
4103	Introductory Spatial Data Analysis	U	3
An introduction to spatial data analysis in geography: the fundamental statistical and spatial analysis methods used in quantitative geographic research. Prereq: Math 1116 or 1130 or above, or Math Placement Level M or L, or permission of instructor. Not open to students with credit for 5100.			
4191	Internship in Geography	U	1 - 6
An opportunity to reflect on practical experience and on-the-job learning that connects with classroom training and prepares students for a career. Prereq: 12 cr hrs in major program, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
4193	Individual Studies in Geography	U	1 - 9
Independent studies on selected Geography related topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
4194	Group Studies in Geography	U	1 - 3
Special studies on topics directly related to Geography. Repeatable to a maximum of 15 cr hrs or 5 completions.			
4911	Earth's Climate: Past and Future	U	3
This class will examine the Earth's climate and its natural development as understood from the geologic record spanning the full history of the planet, as well as how the future climate is likely to evolve under ongoing human modifications. Prereq: 3900, 3901H, EarthSc 1911, EEOB 1911, or History 1911. Not open to students with credit for EarthSc 4911. Cross-listed in EarthSc.			
4998	Undergraduate Research in Geography	U	1 - 9
Undergraduate research on topics in Geography. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
4998H	Undergraduate Research in Geography	U	1 - 9
Undergraduate research on topics in Geography Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
4999	Thesis Research	U	1 - 9
A program of research which includes individual conferences and which culminates in a thesis. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
4999H	Honors Thesis Research	U	1 - 9
A program of research which includes individual conferences and which culminates in an honors thesis and an oral defense. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
5101	GIST Professionalism and Ethics	U G	3
For a practitioner in this broad field of geographical information science and technology (GIST), what does "being professional" mean? Is doing your job competently enough to be at your job? What constitutes professional competence in this profession? This course will help students address these questions and find their moral compass in a constantly changing profession.			

212 Geography

5103	Intermediate Spatial Data Analysis	U G	3		
	An intermediate class in spatial data analysis for geography. This course focuses on multivariate model building and evaluation, with a special emphasis on multiple regression models commonly used by geographers: spatial regression, conditional autoregressive, and geographically weighted regression. Prereq: 4103 or introductory statistics course from Geography or other department. Not open to students with credit for 5100.				
5193	Individual Studies in Geography	U G	1 - 15		
	Independent studies on selected Geography related topics. Prereq: Permission of instructor. Repeatable to a maximum of 75 cr hrs or 5 completions. This course is graded S/U.				
5194	Group Studies in Geography	U G	1 - 3		
	Special studies on topics directly related to Geography. Repeatable to a maximum of 15 cr hrs or 5 completions.				
5200	Cartography and Map Design	U G	3		
	A study of the cartographic techniques of map compilation and design including generalization, symbolization, reproduction, and GIS-based mapping with an emphasis on thematic mapping. Prereq: Not open to students with credit for 5200S.				
5201	GeoVisualization	U G	3		
	Examination of issues, techniques and applications of analytic cartography, interactive maps and scientific visualization for exploring geographic data. Prereq: A grade of C- or above in 5200 or 5200S.				
5210	Fundamentals of Geographic Information Systems	U G	3		
	Basic principles of geographic and land information systems and their use in spatial analysis and information management. Prereq: Not open to students with credit for 5220, CRPlan 5001, or CivilEn 5001.				
5212	Geospatial Databases for GIS	U G	3		
	Focuses on designing, implementing, querying and managing spatial databases or persistent data stores where most entities have footprints in geographic space and time. This is critical for designing and implementing GIS for projects and organizations. It is also crucial for moving beyond GIS to the bigger world of geographic information services. Prereq: 5210, or permission of instructor.				
5222	GIS Algorithms and Programming	U G	3		
	The theory and algorithms underpinning today's GIS technology and the development of custom GIS applications using the Python programming language. Prereq: 5210.				
5223	Design and Implementation of GIS	U G	3		
	Practice-oriented development, design, implementation and evaluation of spatial databases, with an emphasis on local problems. Prereq: A grade of C- or above in 5222, or permission of instructor.				
5225	Geographic Applications of Remote Sensing	U G	3		
	Introduction to the fundamental principles, methods, and geographic applications of remote sensing. Prereq: Not open to students with credit for 5270.				
5229	Emerging Topics in GIS	U G	3		
	Examination of major recent developments in the theories, technologies, and/or applications of geographical information science. Prereq: A grade of C- or above in 5210. Not open to students with credit for 5224. Repeatable to a maximum of 15 cr hrs.				
5300	Geography of Transportation	U G	3		
	Relation between transportation and spatial organization; selected analytical models dealing with traffic demand, network configuration, and allocation of transport facilities; application to selected problems. Prereq: Not open to students with credit for 645.				
5301	Sustainable Transportation	U G	3		
	Sustainable transportation generates accessibility while minimizing harm to people and the natural environment. This course examines the problems associated with transportation, including climate change, air quality, non-renewable resources, safety, congestion and social equity. We will also examine solutions to these problems, including pricing, planning, policy and technology.				
5401	Economies, Space, and Society	U G	3		
	A theoretical and substantive examination of economic geography; the interface of the economy with society, politics, and culture; and multiple expressions of capitalism. Prereq: Not open to students with credit for 640.				
5402	Land Use Geography	U G	3		
	Causes and consequences of recent regional and national land-use changes; urban decentralization, suburbanization of jobs and people; changing relationships between economic activity and the environment.				
5501	Urban Spaces in the Global Economy	U G	3		
	An examination of social, economic, cultural and political processes that produce urban space in local, national and global terms. Prereq: Not open to students with credit for 650.				
5502	Data Justice and the Right to the Smart City	U G	3		
	Neoliberal governance of cities affecting cultural, civic, and environmental politics; urban geographies of difference; politics and social economy of global cities; the uneven landscape of access and opportunity; shadow governance; and the built form. GE theme citizenship for div and just wrld course.				
5503	Urban China: Space, Place and Urban Transformation	U G	3		
	Examines geography of China's urban transformations since 1911. Topics include: politics of urban design, political economy of land development, place-making projects, suburbanization, and consumption and spectacle.				
5700	Geography of Development	U G	3		
	Political economy of development; development theory; the historical geography of capitalist development; and contemporary development practices and strategies. Prereq: Not open to students with credit for 642.				
5797	Study at a Foreign Institution	U G	1 - 9		
	An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.				
5801	Environmental Conservation	U G	3		
	Conservation of nature; nature-society theory; conflicts around environmental change and contemporary conservation programs and strategies. Prereq: Not open to students with credit for 630.				
5802	Globalization and Environment	U G	3		
	Transnational dimensions of changes to the natural environment; ways that global economic activity, international institutions, and global environmentalism contribute to environmental problems and solutions. Prereq: Not open to students with credit for 635.				
5803	Sustainable Energy Geographies	U G	3		
	Sustainable development; Energy systems; Energy production, consumption, and conservation; Environmental and societal impacts.				
5900	Weather, Climate, and Global Warming	U G	3		
	An introduction to the fundamental physical and mathematical principles governing both day-to-day weather and the average of weather, or climate. Objectives are to understand the physical processes of the earth-atmosphere system, describe its weather features and climate characteristics today, and outline how they might change in the future as a result of global warming. Prereq: Not open to students with credit for 520 or AtmosSc 2940 (230).				
5921	Microclimatology: Boundary Layer Climatology	U G	3		
	Theory of exchanges of energy and mass at the Earth-atmosphere interface as it relates to microclimates with particular emphasis upon radiation and climate. Prereq: A grade of C- or above in 5900 or AtmosSc 2940, or permission of instructor; and Physics 1250.				
5922	Microclimatology: Microclimatological Measurements	U G	3		
	Practical experience in the fabrication of instruments, deployment of measurement systems in the field, and recording of data related to microclimates. Prereq: A grade of C- or above in 5921.				
5940	Synoptic Meteorology Laboratory	U G	2		
	Introduction to reading and interpretation of synoptic weather maps and diagrams- and data-communications systems. Prereq: 5900 (520) or AtmosSc 230 or 2940 (230) or permission of instructor; and Physics 132 or its successor. Not open to students with credit for 620 or AtmosSc 620 or AtmosSc 5940. Cross-listed in AtmosSc.				
5941	Synoptic Meteorology: Synoptic Analysis and Forecasting	U G	3		
	Physical processes associated with large-scale mid-latitude weather systems and the theory and practice of forecasting their weather and impacts. Prereq: Math 2153, and a grade of C- or above in Geog 5940 or AtmosSc 5940.				
5942	Synoptic Meteorology: Severe Storm Forecasting	U G	3		
	Physical processes associated with mesoscale weather systems from thunderstorms to tornadoes and the theory and practice of forecasting their weather and impacts. Prereq: A grade of C- or above in 5941.				
6020	Foundations of Data-Driven Sustainable Energy Systems	G	3		
	Introduction to issues impacting sustainable energy systems across technology, law and policy, business models, resilience, data, geospatial, and decision sciences. Prereq: Enrollment in Data-Driven Sustainable Energy Systems Graduate Interdisciplinary Specialization, or permission of instructor. Not open to students with credit for AEDEcon 6500, EnvEng 6020, FABEng 6020, ISE 6020, or PubAfrs 6020. Cross-listed in AEDEcon 6500, EnvEng 6020, FABEng 6020, ISE 6020, and PubAfrs 6020.				
6223	Web GIS Development	G	3		
	This course helps students grasp the technology for the design and implementation of web GIS applications. Prereq: 5210 and 5212, or permission of instructor.				
6226	Spatial Simulation and Modeling in GIS	G	3		
	Fundamental modeling and simulation techniques in GIS, including cellular automata, diffusion models, and agent-based models, and their applications in social, environmental, and natural resources research. Prereq: Not open to students with credit for 5221 or 5226.				
6286	GIS in Social and Business Research	G	3		
	This course is designed to help students grasp advanced GIS methods for applications in business and social science using rich geographic and demographic data sets. Prereq: 5210, or permission of instructor.				

6299 GIS Capstone Project G 3

The purpose of this course is for students to showcase the knowledge learned and skills developed in the GIS graduate program.

7101 Research Design G 3

Introduction to research procedures, problem formulation, and application of research techniques in geography. Prereq: Grad standing in Geog, or permission of instructor. Not open to students with credit for 795.

7102 Fieldwork in Human Geography G 3

Methods for generating and interpreting field data; contested history and ethical challenges of fieldwork in human geography. Prereq: Not open to students with credit for 800.01 or 870.01.

7193 Individual Studies in Geography G 1 - 15

Independent studies on selected Geography related topics. Prereq: Permission of instructor. Repeatable to a maximum of 75 cr hrs or 5 completions. This course is graded S/U.

7194 Group Studies in Geography G 1 - 3

Special studies on topics directly related to Geography. Repeatable to a maximum of 15 cr hrs or 5 completions.

7999 Thesis Research G 1 - 9

Thesis Research. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

8100 Development of Geographic Thought G 3

The evolution of concepts concerning the nature, scope, and methodology of geography; present focus and trends as reflected in current literature. Prereq: Not open to students with credit for 882.

8102 Advanced Spatial Data Analysis G 3

Application of quantitative methods to geographic problems; spatial statistics, area sampling, maps of residuals, regionalization methods, and simulation maps. Prereq: 5100. Not open to students with credit for 883.02.

8104 Special Topics in Quantitative Geography G 3

Applications of advanced mathematical and statistical models to problems in geographical analysis. Prereq: 8102 or 883.01 or 883.02. Repeatable to a maximum of 15 cr hrs.

8200 Frontiers in Geographic Information Science G 3

Readings and research in geographic information science. Repeatable to a maximum of 15 cr hrs or 5 completions.

8400 Issues in Critical Human Geography G 3

Course engages a variety of theoretical and epistemological issues in critical human geography. Specific topics vary. Repeatable to a maximum of 15 cr hrs or 5 completions.

8901 Seminar: Problems in Climatology G 3

Problems in climatology. Repeatable to a maximum of 15 cr hrs.

8902 Applied Climatology G 3

Application of climatic data and techniques to solve environmental problems; analytics, modeling, and tools for decision making, adaptation, or mitigation. Repeatable to a maximum of 9 cr hrs.

8960 Seminar: Special Problems in Physical Geography G 3

Special problems in physical geography. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

8999 Research in Geography: Dissertation G 1 - 9

Research for dissertation purposes only. Repeatable to a maximum of 75 cr hrs or 5 completions. This course is graded S/U.

1101.51 German I - Variable-Credit U 1 - 4

German 1101.01 content in variable-credit format for independent learners of German. CEFR Levels A1/A2. Progress is sequential from 1 cr hr to the next, with proficiency at the level of 80% required for advancement. Not open to native speakers of this language through regular course enrollment or EM credit, or to students with 2 or more years of study in high school, except with permission of instructor. Prereq: Not open to students with credit for 1101.01. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1101.61 Beginning German I (Variable-Credit Distance Learning) U 1 - 4

German 1101.61 is an online version of German 1101. This course allows students to work through the first of Ohio State's 3-course introductory German sequence in a variable-credit Distance-Learning format. Students will learn to write, read, listen to and speak German, completing work independently with materials and instructor support. Prereq: Not open to students with credit for 1101.01 or 1101.51. Repeatable to a maximum of 4 cr hrs. This course is available for EM credit. GE for lang course. GE world languages course.

1102.01 German II U 4

Continued development of German-language skills and cultural knowledge for effective communication. Emphasis on more advanced language structures, sustained interactions, reading and writing. CEFR Levels A2/B1. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01, or 4 sem cr hrs of 1101.51, or concur: 1101.01, or 1101.51; or permission of instructor. Not open to students with credit for 1102.51. This course is available for EM credit. GE for lang course. GE world languages course.

1102.02 Beginning German II (Distance Learning) U 4

1102.02 continues to help you learn to communicate in culturally appropriate ways in German. We aim to help you develop balanced skills in speaking, listening, reading, & writing. By semester's end, you should be able to engage in conversations, read & understand texts & write essays & learn about life and culture in German-speaking countries. This course is the online version of 1102.01. Prereq: 4 credit hours of either 1101.01, 1101.51, 1101.61, or 1101.02. Not open to students with credit for 1102.01 or 1102.51 or 1102.61. This course is available for EM credit. GE for lang course. GE world languages course.

1102.51 German II - Variable-Credit U 1 - 4

German 1102.01 content in variable-credit format for independent learners of German. CEFR Levels A2/B1. Progress is sequential from one cr hr to the next, with proficiency at the level of 80% required for advancement. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01, or 4 cr hrs of 1101.51; or concur: 1101.01, or 1101.51; or permission of instructor. Not open to students with credit for 1102.01. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1102.61 Beginning German II (Variable-Credit Distance Learning) U 1 - 4

German 1102.61 is an online version of German 1102. This course allows students to work through the second of Ohio State's 3-course introductory German sequence in a variable-credit Distance-Learning format. Students will learn to write, read, listen to and speak German, completing work independently with materials and instructor support. Prereq: 1101.01, 1101.51, or 1101.61. Not open to students with credit for 1102.01 or 1102.51. Repeatable to a maximum of 4 cr hrs. This course is available for EM credit. GE for lang course. GE world languages course.

1103.01 German III U 4

Development of skills for independent use of German. Discussions, presentations, writing & listening/viewing activities that address topics of the contemporary German-speaking world. CEFR Level B1. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, or 4 sem cr hrs of 1102.51, or 1266, or concur: 1102.01, or 1102.51, or permission of instructor. Not open to students with credit for 1103.51. This course is available for EM credit. GE for lang course. GE world languages course.

1103.02 Beginning German III (Distance Learning) U 4

1103.02 helps you continue to develop balanced skills in speaking, listening, reading, & writing. By semester's end, you should be able to communicate in culturally appropriate ways in German, read & understand texts & write essays & learn about life and culture in German-speaking countries. This course is the online version of 1103.01. Prereq: 4 credit hours of either 1102.01, 1102.51, 1102.61, or 1102.02. Not open to students with credit for 1103.01 or 1103.51 or 1103.61. This course is available for EM credit. GE for lang course. GE world languages course.

1103.51 German III - Variable-Credit U 1 - 4

German 1103.01 content in variable-credit format for independent learners of German. CEFR Level B2. Progress is sequential from one cr hr to the next, with proficiency at the level of 80% required for advancement. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01 or 1266, or 4 cr hrs of 1102.51; or concur: 1102.01, 1102.51, or 1266; or permission of instructor. Not open to students with credit for 1103.01. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1103.61 Beginning German III (Variable-Credit Distance Learning) U 1 - 4

German 1103.61 is an online version of German 1103. This course allows students to work through the third of Ohio State's 3-course introductory German sequence in a variable-credit Distance-Learning format. Students will learn to write, read, listen to and speak German, completing work independently with materials and instructor support. Prereq: 1102.01, 1102.51, or 1102.61. Not open to students with credit for 1103.01 or 1103.51. Repeatable to a maximum of 4 cr hrs. This course is available for EM credit. GE for lang course.

German

1101.01 German I U 4

Introduction to language and culture of the German-speaking world, with emphasis placed on the acquisition of basic communication skills in cultural context. CEFR Levels A1/A2. Not open to native speakers of this language through regular course enrollment or EM credit, or to students with 2 or more years of study in this language in high school, except by permission of instructor. Prereq: Not open to students with credit for 1101.51. This course is available for EM credit. GE for lang course. GE world languages course.

1101.02 Beginning German I (Distance Learning) U 4

1101.02 helps you learn to communicate in culturally appropriate ways in German. We aim to help you develop balanced skills in speaking, listening, reading, & writing. By semester's end, you should be able to engage in simple conversations, read & understand short texts & write short essays & learn about life and culture in German-speaking countries. This course is the online version of 1101.01. Prereq: Not open to students with credit for 1101.01 or 1101.51 or 1101.61. This course is available for EM credit. GE for lang course. GE world languages course.

214 German

1201.01 German on the Ground: Basic Language Skills U 1

This DL course provides students with basic language and vocabulary skills useful for traveling and interacting with people in German-speaking countries. It is intended for students who need basic knowledge for before they travel, study, or complete an internship abroad. Prereq: Not open to German majors or minors, native German speakers, or students with credit for any other German-language course.

1201.02 German on the Ground: Navigating German-speaking Europe U 1

This DL course provides students with basic information about the cultures in the countries of German-speaking Europe, preparing them to navigate a variety of contexts and to interact with the German speakers they encounter. It is intended for students planning to travel, study, or complete an internship abroad. Prereq: Not open to German majors or minors, native German speakers, or students with credit for German 2101 or above.

1201.03 German on the Ground: Navigating the Professional World in German-speaking Europe U 1

This DL course provides students with basic information about professional cultures in the countries of German-speaking Europe, preparing them to navigate a variety of professional contexts and to interact with German-speaking colleagues. It is intended for students planning to complete an internship or research experience. Prereq: Not open to students with credit for 3602 or 4602.

2101 Texts and Contexts I: Contemporary German Language, Culture and Society U 3

Development of communication skills and knowledge about recent social, cultural, and political developments in German speaking countries through texts, media and film; CEFR level A2/B1. Closed to native speakers of this language. Prereq: 1103 or 1103.51, or equiv, or permission of instructor. No audit. FL Admis Cond course.

2102 Texts and Contexts II: 20th-Century German Language, History and Culture U 3

Continued development of communication skills; gain an understanding of major social and cultural developments in 20th century German history through texts, media, film. CEFR level B1. Prereq: 2101 or equiv, or permission of instructor. FL Admis Cond course.

2193 Individual Studies U 1 - 4

Individual investigation of minor problems in German language and literature. Prereq: Permission of Chairperson. Repeatable to a maximum of 16 cr hrs or 4 completions. This course is progress graded (S/U).

2194 Group Studies U 1 - 15

Investigation of minor problems in German literature and language. Prereq: Permission of Chairperson. Repeatable to a maximum of 16 cr hrs or 4 completions.

2250 Berlin: Stories, Languages, and Ideas U 3

The roles Berlin played in Europe's and the world's major upheavals, from the Thirty Years' War to the Fall of the Wall in 1990, and insight into the increasing internationalization of Berlin from three perspectives: stories told by and about Berlin's citizens; philosophical & scientific ideas generated in Berlin; and multilingual dialects and variations. GE lit and diversity global studies course.

2251 German Literature and Popular Culture U 3

Study of popular culture forms in relation to the artistic, intellectual, historic, and literary traditions of the German-speaking world. Taught in English. Repeatable to a maximum of 9 cr hrs. GE lit course. GE foundation lit, vis and performing arts course.

2253 Magic, Murder and Mayhem U 3

Origins and highlights of German culture and life to 1648 as reflected in literary and poetic works, Germanic mythology, religion, and the arts. Prereq: Not open to students with credit for 291. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

2254.01 Grimms' Fairy Tales and their Afterlives U 3

Working to understand the meaning and the enduring appeal of one of Germany's greatest successes in the realm of cultural exportation - the Grimms' fairy tales, a book whose circulation figures are exceeded in Western culture only by those of the Bible. To explore their reach, we will also compare them to their adaptations in literature and film, from dark to Disney. Prereq: Not open to students with credit for 2254 or 2254.02. GE lit course. GE foundation lit, vis and performing arts course.

2254.02 Grimms' Fairy Tales and their Afterlives U 3

Working to understand the meaning and the enduring appeal of one of Germany's greatest successes in the realm of cultural exportation - the Grimms' fairy tales, a book whose circulation figures are exceeded in Western culture only by those of the Bible. To explore their reach, we will also compare them to their adaptations in literature and film, from dark to Disney. (Online version of 2254.01) Prereq: Not open to students with credit for 2254 or 2254.01. GE lit course. GE foundation lit, vis and performing arts course.

2255 Postwar Culture in Germany and Japan U 3

This course will examine postwar culture in Germany and Japan, looking at films, theoretical texts, memoirs, manifestos, and literary works, subjecting our material to cross-cultural analysis that should deepen as our basis for comparison expands. Team-taught with faculty in Japanese. Prereq: Not open to students with credit for Japanese 2255. Cross-listed in Japanese. GE cultures and ideas course.

2256 Fan Fiction: From Homer to Harry Potter U 3

Enthusiastic readers of Harry Potter write sequels, prequels, and spinoffs and post them online every day. But writing fan fiction is far from new. In this course, we will investigate the surprising history of this literary form. We'll analyze works of fan fiction, asking how ideas of originality, authorship, and intellectual property influence art and literature. GE lit course. GE foundation lit, vis and performing arts course.

2310 Nature in Nordic and German Literatures U 3

This course explores how literature and culture are deeply intertwined with our relationship toward nature. The focus of this exploration is the literature, culture, and history of Nordic and German-speaking countries, from the medieval period to the present. Taught in English. Prereq: Not open to students with credit for Scandvn 2310. GE lit course. Cross-listed in Scandvn.

2350 Introduction to German Studies U 3

Overview of the development of German cultures, history, ideas, and art from the Middle Ages to the present in a transnational context. An ideal course for students considering a major or minor in German or for those with a general interest in German culture. Introductions to analytical methods also provide students with tools for analyzing everything from medieval sagas to television shows. GE cultures and ideas course. GE foundation historical and cultural studies course.

2451 Hollywood: Exiles & Emigres U 3

German cinema has played an influential role in the development of international film genres. In this class we look at examples of films made in Hollywood that bear the stamp of German influence. We also look at films made in Germany that show that influence flows in both directions. This course assumes no prior knowledge of German, German films, or film theory in general. Taught in English. Prereq: Not open to students with credit for 671. GE VPA course.

3101 Texts and Contexts III: Historical Perspectives U 3

Development of intermediate/advanced communication skills; broadening of cultural and historical knowledge through interaction with literary and non-literary materials informed by historical perspective; CEFR level B1/B2. Prereq: 2102 or equiv, or permission of instructor. FL Admis Cond course.

3102 News and Views: Conversations about Current Issues in the German-Speaking World U 3

This course will inform students about events, issues, and trends in the German-speaking world today, and improve their German language skills. Students will expand their ability to gather information about current events from German-language sources (print, audio, and video); to summarize and analyze these sources; and to speak and write formally and informally about current events. Prereq: 2102 or equiv., or permission of instructor.

3200 Topics in German Literature, Art and Film U 3

Focused exploration of topics in German literature, art, and film as expressions of culture in a transnational context, aimed at improving students' critical comprehension and communication skills. Prereq: 2102 or equiv, or permission of instructor. Repeatable to a maximum of 6 cr hrs. Admis Cond course.

3252.01 The Holocaust in German Literature and Film U 3

This course will provide an overview of the historical events we call the Holocaust, including their pre-history and their aftermath. This information will provide the necessary background for discussing some of the questions that have occupied the fields of philosophy, literature, aesthetics, and ethics over the last sixty years. Taught in English. Prereq: Not open to students with credit for 3252.02 or Yiddish 3399. GE lit and diversity global studies course. GE theme citizenship for div and just wrld course.

3252.02 The Holocaust in German Literature and Film U 3

German 3252.02 is an online version of German 3252.01. This course will provide an overview of the historical events we call the Holocaust, including their pre-history and aftermath. This information will provide the necessary background for discussing some of the questions that have occupied the fields of philosophy, literature, aesthetics, and ethics over the last sixty years. Taught in English. Prereq: Not open to students with credit for 3252.01 or Yiddish 3399. GE lit and diversity global studies course. GE theme citizenship for div and just wrld course.

3253 The German Experience in North America U 3

Introduction to literature, culture, and history of German immigrants to North America, especially to the Midwest and Ohio, from the seventeenth century into the twenty-first. Prereq: Not open to students with credit for 360. GE cultures and ideas course.

3254H Representations and Memory of the Holocaust in Film U 3

Students will view, discuss, and examine major filmic representations of the Holocaust from several countries from the 1940s through the present. Students will learn how these films have contributed to our understanding of its events, challenged notions of social responsibility and belonging, and coped with the problem of representing something often considered unrepresentable. Taught in English. Prereq: Honors, and Soph, Jr, or Sr standing, or permission of instructor. GE VPA and diversity global studies course. GE theme citizenship for div and just wrld course.

3256 Coming to Terms with the Holocaust and War in Germany: Vergangenheitsbewältigung U 3

Dedicated to examining how postwar Germans came to terms with war and the Holocaust by looking at various responses in several genres, from philosophy and public debates to poems and films. Students will be confronted with difficult historical, aesthetic, and ethical issues in the various German responses to the Holocaust. Taught in English. GE cultures and ideas course.

3300 Topics in German Culture Studies, Social and Intellectual History U 3

Focused exploration of topics in the development of German-language culture and intellectual history. Content geared toward improving students' critical comprehension and communication skills in German. Prereq: 2102 or equiv; or permission of instructor. Repeatable to a maximum of 6 or hrs. Admis Cond course.

3317 Black Identity and Culture in German-Speaking Europe U 3

This course discusses the history of Afro-Germans in Europe & internationally. Conversations and questions thematized pertain to identity formation and erasure; systemic racism; Westernization; xenophobia; and eugenics. German 3317 provides students with the support to identify intersecting social influences & factors that inform (and often reinforce) the categories of race, gender, and ethnicity. GE foundation race, ethnicity and gender div course.

3351 Democracy, Fascism and German Culture U 3

Culture and politics of three periods in German history that are relevant to today's challenges: the Weimar Republic, National Socialism & World War II, and the Cold War. Focus not just on tensions between democratic and anti-democratic political movements, but also on the ways that the opinions of ordinary citizens and ideas spread through media can (de-)stabilize democracy. Taught in English. GE cultures and ideas and diversity global studies course. GE theme citizenship for div and just wrld course.

3352 The Development of Contemporary Dresden U 4

Investigation of German life and culture, past and present, through an exploration of the city of Dresden and surroundings; summer study abroad course with first-hand experience of German culture. Prereq: 1103.01, 1103.02, or four or hrs of 1103.51. Not open to students with credit for 2352. GE cultures and ideas and diversity global studies course. GE theme lived environments course.

3353H German Intellectual History: Marx, Nietzsche, and Freud U 3

Marx, Nietzsche, and Freud are essential for understanding intellectual thought in the late nineteenth and twentieth century. They have retained their importance into the twenty-first century. The focus of the course will be the way in which Marx, Nietzsche, and Freud reconceived the notion of history, historical progress, and historiography. Prereq: Honors standing. GE cultures and ideas course.

3354 From Viking Saga to Climate Fiction: Nature in Nordic and Germanic Literatures U 3

This course explores how sustainable human-nature relationships are conceived, represented, and reflected in the literatures of Nordic and German-speaking countries, from the medieval period to the present - e.g., in Icelandic saga; Gothic Romantic narrative; modern fairy tale; graphic novel; poetry; song; philosophical essay; and climate science-fiction. Prereq: Not open to students with credit for Scandvn 3354, German 2310, Scandvn 2310. GE theme sustainability course. Cross-listed in Scandvn.

3600 Topics in German Linguistics/Language U 3

Understanding the German language in its historical development, standardization and its contemporary manifestations. Systematic overview of German phonetics, phonology, morphology, syntax, and varieties of modern German. Prereq: 2102 or equiv, or permission of instructor. Repeatable to a maximum of 6 or hrs. FL Admis Cond course.

3602 German for the Professions I U 3

Development of cultural knowledge and communication skills for the professions; introduction to the world of German business through audio, video, print materials; CEFR level B1-B2. Prereq: 2102 or equiv, or permission of instructor. Not open to students with credit for 202. No audit. Admis Cond course.

3603 Translation I U 3

German-English/English-German translation; focus on everyday language; emphasis on improvement of grammar and development of vocabulary; discussion of common translation techniques, introduction to theories of translation. Prereq: 2102 or equiv, or permission of instructor. Not open to students with credit for 303. Admis Cond course.

3689 Words Across the World U 3

Language, at the heart of our social life, drives much of what humans do: converse, convey beliefs & views, label, categorize, include & exclude people. We'll critically examine how we use language to interact with our lived environments (LE) & analyze & discover ways in which words are used & manipulated to impact our LE & how changes & developments in our LE can have a direct effect on language. Prereq: Not open to students with credit for NELC 3689 or Spanish 3689. GE theme lived environments course. Cross-listed in NELC and Spanish.

3798.02 Global May Germany U 4

Students will explore and experience the cosmopolitan and increasingly diverse Berlin by learning about some of the most influential or memorable persons who live or have lived in the city-from its establishment as a capital of the Prussian Kingdom in the 18th century to its present role as capital of a reunified, democratic Germany and a center of European and global politics and culture. GE diversity global studies and education abroad course. GE theme citizenship for div and just wrld course.

4191 Internship in German U 3-6

Supervised internship arranged and approved in advance with the faculty advisor. Notify the chair no later than 6 months before the start of the internship. Prereq: 3000-level German course, or permission of instructor. Not open to students with credit for HumCol 489. This course is graded S/U.

4194 Undergraduate Group Studies U 1-4

Investigation of minor problems in the various fields of German literature and philology. Prereq: Permission of chairperson. Repeatable to a maximum of 16 or hrs or 4 completions.

4200 Senior Seminar in German: Literature, Art and Film (German) U 3

Focused exploration of topics in German literature, art, and film as cultural expressions within transnational contexts, to improve students' historical knowledge, skills for exploring cultural and critical-intellectual traditions. Taught in German. Counts toward fulfillment of advanced requirement for the major. Prereq: 3101, and one course at the 3000 level, and Sr standing; or permission of instructor. Repeatable to a maximum of 6 or hrs.

4300 Senior Seminar in German: Culture Studies, Social and Intellectual History (German) U 3

Exploration of topics in German intellectual history and the history and theory of German culture. Taught in German. Counts toward fulfillment of advanced requirement for the major. Prereq: 3101, and one course at the 3000 level, and Sr standing; or permission of instructor. Repeatable to a maximum of 6 or hrs. FL Admis Cond course.

4600 Senior Seminar in German: Linguistics/Language (German) U 3

Seminar on aspects of the German language. Variable topics may include: structure, history, and variation of the German language; studies of German language acquisition; methods of the field of Germanic Linguistics and Philology. Taught in German. Prereq: 3101, 3600, or equiv, and Sr standing, or permission of instructor. Repeatable to a maximum of 6 or hrs. FL Admis Cond course.

4602 German for the Professions II U 3

Continued development of cultural knowledge and communication skills in German; study of business trends, traditions, and structures through audio, video, print materials; CEFR level B1-B2. Prereq: 3602 or equiv, or permission of instructor. Not open to students with credit for 302. FL Admis Cond course.

4603 Translation II U 3

German-English/English-German translation; focus on literary language; emphasis on improvement of style; discussion of major theories of translation. Prereq: 2102 and 3603, or equiv, or permission of instructor. FL Admis Cond course.

4998 Undergraduate Research Projects U 1-3

Investigation of problems in various fields of Germanic studies. Prereq: Permission of adviser or Graduate Studies Committee chair as applicable. Repeatable to a maximum of 9 or hrs or 3 completions. This course is progress graded (S/U).

4998H Honors Undergraduate Research Projects U 1-9

Investigation of problems in various fields of Germanic studies. Prereq: Honors standing and signature of honors advisor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is progress graded (S/U).

4999 Undergraduate Research Thesis U 1-4

Research for undergraduate thesis. Prereq: Permission of undergraduate thesis advisor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

4999H Honors Undergraduate Research Thesis U 1-4

Research for Honors Undergraduate research thesis. Prereq: Honors standing, permission of instructor, and required signature of undergraduate Honors Thesis advisor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

5193 Independent Studies for Advanced Students U G 1-3

Independent investigation of issues in various fields of Germanic Studies. Prereq: Permission of Director of Undergraduate Studies or the Director of Graduate Studies, as applicable. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.

5194 Group Studies U G 1-3

Investigation of minor problems in the various fields of German literature and philology. Prereq: Permission of chairperson. Repeatable to a maximum of 9 or hrs or 3 completions.

5602 German for the Professional World U G 3

This course provides students with intermediate to low-advanced German language skills knowledge about a range of professions/careers, not only in German-speaking countries but also in German companies and government and cultural offices within the United States. Students develop advanced linguistic and cultural competencies. Open to students with a minimum of intermediate-high (B2) level of German language proficiency.

5797 Study at a Foreign Institute U G 1-9

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of chairperson. Repeatable to a maximum of 27 or hrs or 9 completions. This course is progress graded (S/U).

6101 Basic German for Graduate Students G 3

The fundamentals of German grammar, as required for the reading of German texts in the sciences, social sciences, and humanities. No audit. Credit does not apply to the minimum hours required for the master's or doctoral degrees. Prereq: Grad standing. Not open to students with credit for 571.

6193 Independent Studies for Master's Students G 1-8

Independent investigation of issues in German literature, culture, intellectual history, and linguistics. Prereq: Permission of the instructor and Director of Graduate Studies. Repeatable. This course is graded S/U.

216 German

6200	Introduction to German Literary History and Analysis	G	3
Lecture-based introduction to the methodology and tools of literary scholarship and to major contemporary theoretical approaches to literary studies; contextualization of these methodologies and approaches within literary history. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 702.			
6300	Introduction to Intellectual History and Cultural Studies	G	3
Graduate introduction to important figures, topics, and periods within German intellectual history. Interactions with the larger European context of intellectual history and with other cultural spheres in Germany. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 703.			
6400	Introduction to German Film	G	3
Graduate introduction to German arts concentrating on moving images and non-text-based forms. Overview of visual-aesthetic movements and film history since 1900 in context. Fundamentals of analysis for film and visual media. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 672.			
6601	Teaching Practicum	G	1
This course is for GTAs who are teaching a 1000-level German language class. The course provides graduate students with instruction and practice in designing and implementing instructional materials for their undergraduate classes. It offers best practices in creating tests, developing speaking portfolios, designing culture components, and becoming reflective practitioners. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
6700	Introduction to the Language Sciences	G	3
Provides students with a general overview of linguistics and surveys the areas covered by the specialization: Language and Cognition, Language and Brain Function, Language and Society, Language and Technology, and Language Description and Fieldwork. Guest faculty will present in their areas of expertise and students will read and prepare assignments in multiple areas. Prereq: Not open to students with credit for Psych 6700. Cross-listed in Psych.			
6999	Master's Research	G	1 - 6
Research for the Master's Assessment. Prereq: Permission of the master's advisor and Director of Graduate Studies. Repeatable to a maximum of 24 cr hrs or 4 completions. This course is graded S/U.			
7600	Teaching World Languages at the College Level	G	3
This course examines theory & research that underlie contemporary approaches to communicative language teaching & includes work with the development of materials & activities for the classroom. We will consider & discuss a range of aspects of second language acquisition (SLA) theory & research that have implications for the L2 classroom. It will provide a theoretical & practical foundation to you. Prereq: Open to Graduate Teaching Associates enrolled in the Department of Germanic Languages and Literatures; all others by permission of instructor. Not open to students with credit for German 6600, French 7301, Italian 7301, FrIT 7301, or FrIT 7600. Cross-listed in FrIT.			
8193	Independent Studies for Doctoral Students	G	1 - 12
Research for the doctoral candidacy examination. Prereq: Permission of the doctoral advisor and Director of Graduate Studies. Repeatable. This course is graded S/U.			
8200	Seminar in Literature and Literary Culture	G	3
Topics vary in focus and methodology; emphasis may range from individual authors, periods, or themes to theoretical and interdisciplinary issues; research paper. 3-hr cl. Prereq: 6200, or Grad standing, or permission of instructor. Repeatable to a maximum of 30 cr hrs. Admis Cond course.			
8300	Seminar in Intellectual History and Cultural Studies	G	3
Concepts, representations, and institutions of German culture in an international context; German intellectual history; theories of literature, arts, and culture. Prereq: 6200, or Grad standing, or permission of instructor. Repeatable to a maximum of 30 cr hrs. Admis Cond course.			
8400	Seminar in Film, Visual Culture and the Performing Arts	G	3
Advanced graduate seminar allowing students to broaden their engagement with non-literary culture based in German-speaking texts and to conduct research into targeted areas of interest. Prereq: 6200, or Grad standing, or permission of instructor. Repeatable to a maximum of 30 cr hrs. Admis Cond course.			
8500	Doctoral Colloquium	G	1
Regular student-driven discussions of ongoing dissertations, current topics in the professional field, and new research approaches to Germanic Studies. Prereq: Successful completion of Ph.D. candidacy exams, or permission from Director of Graduate Studies and instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U. Admis Cond course.			
8501	Graduate Student Teaching Apprenticeship	G	1 - 3
Opportunity for advanced graduate students to plan and teach in conjunction with faculty member a course at 2000 or higher level. Prereq: Grad standing, and a minimum of one year experience as GTA. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
8600	Seminar in Linguistics and Applied Linguistics	G	3
Explore the structure, historical development, use of German and its social and dialectal variations. Practical application of the knowledge gained to the teaching of German. Prereq: 6600. Repeatable to a maximum of 30 cr hrs. Admis Cond course.			

8999	Dissertation Research	G	1 - 3
-------------	------------------------------	----------	--------------

Research for dissertation purposes. Prereq: Permission of the dissertation advisor and Director of Graduate Studies. Repeatable. This course is graded S/U.

Graduate School

4501	Graduate Study and Academic Careers	U	1 - 4
-------------	--	----------	--------------

Exploration of graduate study and academic careers. Prereq: Not open to students with credit for 501. This course is graded S/U.

6701	Preparing Future Faculty	G	1 - 3
-------------	---------------------------------	----------	--------------

Mentorship and professional development activities in conjunction with partner institutions. Students must successfully complete application process and be admitted. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is graded S/U.

7189	Graduate Research or Field Study	G	0
-------------	---	----------	----------

For graduate students pursuing off-campus field experiences, study or research without using university resources or faculty time. Prereq: Permission of instructor. This course is graded S/U.

8000	Responsible Conduct of Research	G	1
-------------	--	----------	----------

This course is designed to satisfy National Institutes of Health (NIH) and National Science Foundation (NSF) requirements for training in the responsible conduct of research (RCR). The course seeks to provide a practical overview of the rules, regulations, and professional practices that define the responsible conduct of research. This course is graded S/U.

8999	Research: Interdisciplinary	G	1 - 12
-------------	------------------------------------	----------	---------------

Interdisciplinary doctoral dissertation research approved by the Graduate School for One-of-a-Kind programs. Repeatable. This course is progress graded (S/U).

Greek

1101	Elementary Ancient Greek	U	4
-------------	---------------------------------	----------	----------

Introduction to the language of the ancient Greek authors and the New Testament. Not open to students with 3 or more years of study in this language in high school, except by permission of department. Au Sem. This course is available for EM credit. GE for lang course. GE world languages course.

1102	Intermediate Ancient Greek I	U	4
-------------	-------------------------------------	----------	----------

Intermediate Ancient Greek I. Sp Sem. Prereq: 1101. This course is available for EM credit. GE for lang course. GE world languages course.

1103	Intermediate Ancient Greek II	U	3
-------------	--------------------------------------	----------	----------

Intermediate Ancient Greek II. Prereq: 1102 or equiv, or permission of instructor. This course is available for EM credit. GE for lang course. GE world languages course.

2101	Attic Prose	U	3
-------------	--------------------	----------	----------

Readings in Attic prose authors such as Plato, Xenophon or Lysias. Prereq: 1103 or equiv, or permission of instructor. Not open to students with credit for 221.

2102	Homer	U	3
-------------	--------------	----------	----------

Selected readings from the Iliad or Odyssey. Prereq: 1103 or equiv, or permission of instructor. Not open to students with credit for 223.

2103	The Greek Historians	U	3
-------------	-----------------------------	----------	----------

Readings from Herodotus, Thucydides or Xenophon. Prereq: 1103 or equiv, or permission of instructor. Not open to students with credit for 224.

2104	Greek Tragedy	U	3
-------------	----------------------	----------	----------

Readings from the tragedies of Sophocles or Euripides. Prereq: 1103 or equiv, or permission of instructor. Not open to students with credit for 222 and 225.

2110	The Greek New Testament	U	3
-------------	--------------------------------	----------	----------

Studies the language of the Greek New Testament through selected reading passages. Prereq: 1103 or equiv, or permission of instructor. Not open to students with credit for 210.

2193	Individual Studies	U	1 - 9
-------------	---------------------------	----------	--------------

Intermediate readings in Greek literature. Prereq: 1103 or equiv, or permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.

4998	Research	U	1 - 3
-------------	-----------------	----------	--------------

A program of study arranged for each student. Prereq: Sr standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4998H	Honors Research	U	1 - 3
--------------	------------------------	----------	--------------

A program of study arranged for each student. Prereq: Honors standing, and Sr standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4999	Thesis Research	U	1 - 6
-------------	------------------------	----------	--------------

A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in Greek. Prereq: Jr standing or above, and Enrollment in Classics Major; or permission of instructor or department. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.

4999H	Honors Thesis Research	U	1 - 6
A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in Greek. Prereq: Honors standing, Jr standing or above, and Enrollment in Classics Major; or permission of instructor or department. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.			
5011	Greek Epic	U G	3
Readings from Greek epic poets such as Homer, Hesiod, or Apollonius of Rhodes. Prereq: Two courses at the 200 level, or Grad standing, or permission of instructor. Not open to students with credit for 607.			
5012	Greek Lyric, Iambos, Elegy	U G	3
Readings from the works of archaic Greek poets such as Archilochus, Sappho, or Pindar, and from the Homeric Hymns. Prereq: Two courses at the 2000 level, or Grad standing, or permission of instructor. Not open to students with credit for 611.			
5013	Greek Historians	U G	3
Comparative readings from Greek historians such as Herodotus, Thucydides, Xenophon and Plutarch. Prereq: Two courses at 2000 level, or Grad standing, or permission of instructor. Not open to students with credit for 604.			
5014	Greek Drama	U G	3
Readings in Greek drama, from tragedies of Aeschylus, Sophocles and Euripides, and comedies of Aristophanes and Menander. Prereq: Two courses at 2000 level, or Grad standing, or permission of instructor.			
5016	Readings in Greek Philosophy	U G	3
Readings from Greek philosophers, such as Plato or Aristotle, or arranged according a common topic, such as Presocratic philosophy or ethics. Prereq: Two courses at 200 level, or Grad standing, or permission of instructor. Not open to students with credit for 609.			
5017	Later Greek Prose	U G	3
Readings in late antique and Byzantine Greek prose authors. Prereq: Two courses at 2000 level, or Grad standing, or permission of instructor.			
5030	Special Topics in Greek Literature	U G	3 - 9
Study of a topic in Greek literature, with extensive original readings. Prereq: Four courses more advanced than 1103, or Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
5193	Individual Studies	U G	1 - 9
A program of study arranged for each student, with specific passages for reading and topics from Greek literature, culture or religion for investigation. Prereq: Two courses at 2000 level, or Grad standing, or permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 9
A program of study arranged for a small group of students, with specific passages for reading and topics from Greek literature, culture or religion for investigation. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
6891	Greek Survey: Prose	G	5
Survey of Greek prose literature from its beginning to late antiquity focusing on language competence and literary history. Offered Autumn Semester in alternation with Latin 6891. Au Sem. Prereq: Two courses at 2000 level, or Grad standing, or permission of instructor. Not open to students with credit for 701.			
6892	Greek Survey: Poetry	G	5
Survey of Greek Poetry from Homer to late antiquity focusing on language competence and literary history. Offered Spring Semester in alternation with Latin 6892. Sp Sem. Prereq: Two courses at 2000 level, or Grad standing, or permission of instructor. Not open to students with credit for 702.			
7193	Individual Studies	G	1 - 9
Assigned reading of Greek authors or topics of Greek culture to help with language requirements or to prepare for exams. Au, Sp, Su Sems. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
7890	Graduate Seminar on Greek Literature and Culture	G	1 - 3
Graduate research seminar on topics in the study of Greek literature, culture or religion. Prereq: Grad standing. Repeatable to a maximum of 30 cr hrs or 15 completions.			
7891	Graduate Seminar on Greek Linguistics	G	1 - 3
Graduate research seminar on Greek linguistics. Prereq: Grad standing. Repeatable to a maximum of 30 cr hrs or 15 completions.			
8999	Dissertation Research	G	1 - 9
Readings and discussions connected with the writing of a dissertation on a topic of Greek literature and culture. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			

1100.01	Health and Rehabilitation Sciences Survey	U	1
Introduction to the University, the School of Health and Rehabilitation Sciences and its academic programs. Emphasis on strategies for success, resources and procedures. Prereq: Must be enrolled in Pre-HthRhSc. This course is graded S/U.			
1100.01H	Health and Rehabilitation Sciences Honors Survey	U	1
Introduction to the University, the School of Health and Rehabilitation Sciences and its academic programs. Emphasis on strategies for success, resources and procedures. Additional emphasis on requirements for Honors participation. Prereq: Honors standing, and enrollment in Pre-HthRhSc. This course is graded S/U.			
1100.02	Health and Rehabilitation Sciences Survey - Transfer Student	U	1
This course is designed for new transfer students to take in their first semester at Ohio State. Introduce them to the policies and procedures, HRS majors, and to develop an academic plan to be eligible to apply to their intended HRS major. Prereq: Enrollment in Pre-HthRhSc. This course is graded S/U.			
2200	CPR for Healthcare Professionals	U	1
Knowledge, competencies, issues and concerns of health care providers regarding basic life support. Completion of course leads to American Heart Association certification Basic Life Support-Health Care Provider card.			
2500	Medical Terminology for the Health Professions	U	3
Terminology and abbreviations pertaining to anatomy, physiology, pathology, diagnostic processes/procedures and medical/surgical interventions by body system. This course is available for EM credit.			
2530	The Evolving Art and Science of Medicine	U	3
An analysis of the concepts of health and healing, coupled with an examination of historical developments that have impacted the art and science of the practice of medicine. GE cultures and ideas course. GE foundation historical and cultural studies course.			
2530.01	Evolving Art and Science of Medicine	U	3
Students will evaluate works and experiences of art as they reflect on medicine and the science of medicine today and historically. Such studies develop capacities for aesthetic and historical response and judgment; interpretation and evaluation; critical listening, reading, seeing, thinking, and writing. Prereq: Enrollment in online Health Sciences program.			
3000	Introduction to the Health Sciences Major and Career Opportunities	U	1
An introduction to the Health Sciences major, tools for success, and careers in healthcare and health-related services. Prereq: Enrollment in Health Sciences Program. This course is graded S/U.			
3000.01	Introduction to the Health Sciences Major and Career Opportunities	U	1
An introduction to the Health Sciences major, tools for success, and careers in healthcare and health-related services. Prereq: Enrollment in online Health Sciences program. This course is graded S/U.			
3400	Introduction to Health Promotion and Disease Prevention	U	3
An introduction to health promotion with an emphasis on the issues and factors that impact and influence health of individuals, groups and societies demonstrating the role of disciplinary research on identifying and addressing issues of health and health promotion. GE theme health and well-being course.			
3400.01	Health Promotion & Disease Prevention	U	3
Introduction to the concepts and theories involved in health promotion and disease prevention. Prereq: Enrollment in online Health Sciences program.			
3500	Critical Phases in Life	U	3
An examination of humans' development from conception to death and factors critical to continuing health. Prereq: Psych 1100.			
3500.01	Critical Phases in Life	U	3
An examination of humans' development from conception to death and factors critical to continuing health. Prereq: Enrollment in online Health Sciences program.			
3797	Education at a Global Institution	U	1 - 15
An opportunity for students to study at a global (non U.S.) institution and receive Ohio State credit for that work. Students will pay Ohio State fees in excess of Ohio State tuition, as well as travel and subsistence costs. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 2 completions.			
4000	Application of Ethical Decision Making in Health Care	U	3
Participation in this course will include ongoing examination of ethical theories, bioethical principles, personal ethics, and an ethical decision-making process for application in the allied health professions. Ethics as it contributes to the definition of citizenship will be explicitly explored. GE theme citizenship for div and just wrld course.			
4000.01	Ethical Decision Making in Healthcare	U	3
Examination of ethical theories, bioethical principles, personal ethics, and ethical decision making, using a six-step model for application in the allied health professions. Prereq: Enrollment in online Health Sciences program.			

218 Health and Rehabilitation Sciences

4001	General Education Reflection Seminar in Health and Rehabilitation Sciences	U	1	4400	Individual Differences in Patient/Client Populations	U	3
<p>This closing "Reflection" seminar specific to Health and Rehabilitation Sciences provides opportunities for students to document and reflect on their academic and personal growth and allows for synthesis of the interests, interactions, and skills they've attained throughout their professional training course work as well as the GE. Completion of required GE curricula within the two semesters prior to graduation. Final GE coursework can be taken concurrently. Prereq: Enrolled in an HRS undergraduate program, and Sr standing, and completion of GenEd 1201. This course is graded S/U. GE bookend reflection seminar course.</p>				<p>Examination of individual differences in patient/client populations from multiple perspectives of disability, chronic disease, healthcare disparity, culture, and the impact on health and wellness. Prereq: 3400, and admission to the Health Sciences program or the Health Communication Certificate.</p>			
4189	Health Sciences Internship	U	1 - 3	4400.01	Individual Differences in Patient/Client Populations	U	3
<p>Field experience in a health care system highlighting health management, health & wellness, or other health science. More information about the course can be found at u.osu.edu/hrs4189/ Prereq: Enrollment in the Health Sciences program; and permission of instructor. This course is graded S/U.</p>				<p>Examination of individual differences in patient/client populations from multiple perspectives of disability, chronic disease, healthcare disparity, culture and the impact on health and wellness. Prereq: 3400, and enrollment in online Health Sciences program; or permission of instructor.</p>			
4191	CARESTREAM: An Immersive Experience in Healthcare Delivery and Improvement	U	3	4450	Health Promotion in Practice	U	3
<p>This is an experiential learning course that includes two credit hours of coursework and one credit hour of experiential learning at The Ohio State University Wexner Medical Center. Students will receive a combination of coursework and field training to learn about the hospital system, patient interaction, professionalism, and inter-professional care. All students must be in good academic standing. To participate in the experiential learnings, students must comply with all requirements for clinical students as outlined in the Clinical Education Affiliation Agreement between the School of Health & Rehabilitation Sciences and the Ohio State University Wexner Medical Center. This includes providing proof of vaccinations, negative tuberculosis testing, negative drug test, and passing a background check (as part of medical center ID processing). Repeatable to a maximum of 12 cr hrs.</p>				<p>Integration of theory and emergent perspectives and applications in health promotion. Students will demonstrate their understanding and application through development of a grant proposal. Prereq: 3400, and admission to the Health Sciences program.</p>			
4193	Undergraduate Independent Study	U	1 - 3	4450.01	Health Promotion in Practice	U	3
<p>Guided study of selected topics. Repeatable to a maximum of 15 cr hrs or 10 completions. This course is progress graded (S/U).</p>				<p>Integration of theory and emergent perspectives and applications in health promotion. Students will demonstrate their understanding and application through development of a grant proposal. Prereq: 3400, and enrollment in online Health Sciences program.</p>			
4193H	Undergraduate Independent Study	U	1 - 3	4470S	Teamwork and Leadership in Health Sciences	U	3
<p>Guided study of selected topics. Prereq: Honors standing, and enrollment in HthRhSc; or permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is progress graded (S/U).</p>				<p>Gain understanding of leadership and team-building through experience in planned health related activities. Prereq: 3400, and admission to the Health Sciences program, and permission of instructor.</p>			
4200	Analytical Scientific Writing in Health and Rehabilitation Sciences	U	3	4530	Nutrition for Fitness	U	3
<p>This course introduces students to the scientific writing process by exploring data analysis techniques, developing analytical and critical skills to comprehend evidence, synthesizing research design and outcomes, and finally, written communication of the scientific rigor of evidence to advance clinical practice in healthcare. Prereq: Enrollment in the School of Health and Rehabilitation Sciences.</p>				<p>Introduction to the basic principles of nutrition as they relate to exercise performance of athletes and the physically active. Prereq: 3 cr hrs in Biology or Chem, and EEOB 2520 or Physio 3200 or equiv.</p>			
4300	Contemporary Topics in Health and Society	U	3	4530.01	Nutrition for Fitness	U	3
<p>Offers the opportunity to delve into the current issues and factors that are influencing and shaping both society and health systems and to engage in a process of scholarly exchange around the incubation of ideas to address these current issues. Prereq: 3400, 4400, Sr standing, and admission to the Health Sciences program.</p>				<p>Introduction to the basic principles of nutrition as they relate to exercise performance and body composition of athletes and the physically active. Prereq: 3 cr hrs in Biology or Chem; and EEOB 2520 or Physio 3200 or equiv., or permission of instructor; and enrollment in online Health Sciences program.</p>			
4300.01	Contemporary Issues in Health & Society	U	3	4570	The Role of Integrative Medicine	U	3
<p>Offers the opportunity to delve into the current issues and factors that are influencing and shaping both society and health systems and to engage in a process of scholarly exchange around the incubation of ideas to address these current issues. Prereq: 3400, 4400, Sr standing, and enrollment in online Health Sciences program; or permission of instructor.</p>				<p>A research-based analysis of the intersection between evidence-based medicine and complementary and alternative approaches to wellness, as defined by the National Institutes of Health.</p>			
4320	Clinical Interviewing & Risk Assessment in Healthcare	U	3	4570.01	The Role of Integrative Medicine in Society	U	3
<p>Identification and prevalence of health risk behaviors and application of interviewing and counseling techniques designed to affect behavior change incorporating wellness and prevention strategies. Prereq: 3400, Psych 1100, and admission to School of Health and Rehabilitation Sciences.</p>				<p>A research-based analysis of the intersection between evidence-based medicine and complementary and alternative approaches to wellness, as defined by the National Institutes of Health. Prereq: Enrollment in online Health Sciences program.</p>			
4350	Introduction to Legal Concepts in Health Care	U	2	4590	Global Health Inequalities: An Introductory Course	U	3
<p>Overview of legal concepts affecting practice of healthcare professionals including legal system, professional liability, and laws governing appropriate access and disclosure of patient information. Prereq: 5370; or Jr or Sr standing in HRS; or permission of instructor.</p>				<p>The focus of this course is on recognizing health inequalities locally and beyond. Students will examine why communities in both the Global North and South do not have equitable access to high-quality health services and most importantly what can be done to promote equity. GE theme citizenship for div and just wrld course.</p>			
4350.01	Introduction to Legal Concepts in Health Care	U	2	4590.01	Global Health Inequalities: An Introductory Course	U	3
<p>Overview of legal concepts affecting practice of healthcare professionals including legal system, professional liability, and laws governing appropriate access and disclosure of patient information. Prereq: 5370, or Jr or Sr standing in HRS, or permission of instructor; and enrollment in online Health Sciences program.</p>				<p>The focus of this course is on recognizing health inequalities locally and beyond. Students will examine why communities in both the Global North and South do not have equitable access to high-quality health services and most importantly what can be done to promote equity. Prereq: Enrollment in online Health Sciences program.</p>			
4370	Community and Policy Influence in Health Care	U	3	4600S	Health after Mid-Life	U	3
<p>The course covers historical, societal, political, and economic forces influencing the accessibility, cost, quality of personal and public health services. Students are exposed to major U.S. health policy issues concerned with health improvement and protection, and the related financing, organization, and delivery of healthcare. Prereq: 3400, and admission to the Health Sciences program.</p>				<p>Study of physical, psychological, and social components of normal aging and chronic disease for optimal aging; open to students interested in career in aging. Prereq: Not open to students with credit for AllMed 665.</p>			
4370.01	Community and Policy Influence in Health Care	U	3	4700	Global Aging	U	3
<p>The course covers historical, societal, political, and economic forces influencing the accessibility, cost, quality of personal and public health services. Students are exposed to major U.S. health policy issues concerned with health improvement and protection, and the related financing, organization, and delivery of healthcare. Prereq: 3400, or permission of instructor; and enrollment in online Health Sciences program.</p>				<p>Study of health and well-being of older adults in developed and developing countries and immigrant communities with the exploration of impact and requirements within the lived environment. GE theme lived environments course.</p>			
				4700.01	Global Aging	U	3
				<p>Study of health and well-being of older adults in developed and developing countries and immigrant communities in the United States. Prereq: Sr or Grad standing, or permission of instructor; and enrollment in online Health Sciences program.</p>			
				4900	Evidence-Based Practice in Healthcare	U	3
				<p>Overview of evidence-based practice as it applies to health care, including formulating relevant clinical questions, finding and evaluating evidence using effective search techniques, and translating research into practice. Prereq: 3400, and admission to the Health Sciences program or the Health Communication Certificate.</p>			
				4900.01	Evidence-based Research in Health Care	U	3
				<p>Overview of evidence-based practice (EBP) as it applies to health care, including formulating relevant clinical questions, finding and evaluating evidence using effective search techniques, and translating research into practice. Prereq: 3400, and enrollment in online Health Sciences program; or permission of instructor.</p>			

4914 Group Education Process in Healthcare U 3

Health care process: Principles of group education and health counseling as applied to responsibilities of the health care practitioner. Prereq: 3400, and admission to the Health Sciences program.

4950 Program Development and Evaluation for Health Sciences U 3

Exposes the student to practical methods that can be used to develop, and evaluate health services programs in a variety of settings. Prereq: 3400, and admission to the Health Sciences program.

4950.01 Program Development and Evaluation for Health Sciences U 3

Exposes the student to practical methods that can be used to develop, and evaluate health services programs in a variety of settings. Prereq: 3400, or permission of instructor.

4998 Undergraduate Research in Health Science U 1-5

Guided research by undergraduate students. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.

4998H Honors Undergraduate Research in Health Science U 1-5

Guided research by undergraduate honors students. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.

5000 Interdisciplinary Case Management for Working with Underserved Populations U G 2

Provides students the opportunity to collaborate with students from other health care professions including pharmacy, health and rehabilitation sciences, nursing, medicine and social work. The students will use a problem-based learning approach to patient care in community health, focusing on populations, living in poverty, with complex healthcare needs. Prereq: Enrollment in Medical Dietetics, Medical Laboratory Science, or Respiratory Therapy major, or Grad standing in Physical Therapy, Occupational Therapy, AlliMed, or HthRhSc; or permission of instructor. This course is graded S/U. Cross-listed in Nursing, MedColl, Phr, and SocWork.

5100 Introduction to Assistive Technology U G 3

Students learn how to develop and implement assistive technology (AT) devices and services. The course includes information on disability, computer access/technology, alternative and augmentative communication, electronic cognitive devices, driver's rehabilitation, low vision technologies, seating and wheeled mobility, electronic activities of daily living, and home automation.

5200 Assistive Technology for Seating and Mobility U G 3

Students learn how to develop and implement seating and mobility devices and services. The course includes information on mobility devices including canes, crutches, walkers, manual wheelchairs, power wheelchairs, scooters and power add-on devices. The course also includes information on seating systems including seat cushions, back supports, and postural supports. Prereq: 5100.

5300 Management Principles and Human Resources for Health Care Professionals U G 3

An analysis of the management and human resources processes and its application to the health care setting. Prereq: Admission to HRS, or permission of instructor.

5300.01 Management Principles and Human Resources for the Healthcare Professional U G 3

An analysis of the management and human resources processes and its application to the healthcare setting. Prereq: Enrollment in online Health Sciences program.

5350 Case Studies in Health Sciences U G 3

Experience in evaluating and analyzing case studies in health care and health services emphasizing applied critical thinking, problem solving and decision-making approaches in leadership. Prereq: 3400 and 4400, and enrollment in Health Sciences program; or Grad standing; or permission of instructor.

5350.01 Case Studies in Health Sciences U G 3

Experience in evaluating and analyzing case studies in health care and health services emphasizing applied critical thinking, problem solving and decision-making approaches in leadership. Prereq: 3400 and 4400, or permission of instructor; and enrollment in online Health Sciences program.

5370 U.S. Healthcare Policy and Delivery System U G 3

An examination of healthcare delivery and current issues including history, policy, government regulations, legislation, politics, financing, accessibility, workforce and ethics. Prereq: Soph or Jr standing, and admission to HRS; or enrollment in RespThr, RadSci, or HIMS; or permission of instructor.

5370.01 US Healthcare Policy and Delivery U G 3

An examination of healthcare delivery and current issues including history, policy, government regulations, legislation, politics, financing, accessibility, workforce, and ethics. Prereq: Enrollment in online Health Sciences program.

5400 Computer, Communication and Control Technologies for Individuals with Disabilities U G 3

Students learn how to develop and implement assistive technology devices and services which focus on computer, communication and control technologies. The course includes information on communication technologies, control interfaces, electronic aids to daily living, internet of things, zero-effort technologies, educational technologies, and emerging technologies. Prereq: 5100.

5450 Assistive Technology for Sports and Recreation U G 3

Students learn how to develop and implement assistive technology devices and services in adapted sports and recreation. The course includes technology for Paralympic sports, summer sports, winter sports, video games, and recreation. The course will review principles of anthropometrics, biomechanics and ergonomics as it applies to adapted sports and recreation. Prereq: 5100.

5500 Introduction to Pathophysiology U G 4

Fundamental concepts of pathophysiology including etiology, signs, symptoms, diagnosis, treatment, and complications of major body system disorders. Prereq: EEOB 2520, Physio 3102, 3200, or permission of instructor.

5500.01 Introduction to Pathophysiology U G 4

Fundamental concepts of pathophysiology including etiology, signs, symptoms, diagnosis, treatment, and complications of major body system disorders. Prereq: EEOB 2520, Physio 3102, 3200, or permission of instructor; and enrollment in online Health Sciences program.

5510 Pharmacological Aspects of Practice in Health and Rehabilitation Sciences U G 2

Fundamentals of pharmacokinetics, pharmacodynamics, drug law, selected medications and treatment methods utilized by allied health professionals. Prior completion of HthRhSc 5500 is recommended. Prereq: EEOB 2520 or Physio 3200, or Grad standing, or permission of instructor.

5510.01 Pharmacological Aspects of Practice in Health and Rehabilitation Sciences U G 2

Fundamentals of pharmacokinetics, pharmacodynamics, drug law, selected medications and treatment methods utilized by allied health professionals. Prereq: EEOB 2520 or Physio 3200, or permission of instructor; and enrollment in online Health Sciences program, or Grad standing.

5550 Survey of Sports Medicine U G 3

Survey of sports medicine for non-professionals. Topics include the sports medicine team; risk management; and common athletic injuries, their causes, prevention, and immediate care. Prereq: Not open to Athletic Training majors. Not open to students with credit for AthTrng 661, or to students in Athletic Training major.

5608 Skeletal Biology U G 3

This course reviews basic bone biology, and demonstrates how understanding it is essential for our ability to exploit the unique structure of bone, and explore health, disease, and behavior of human populations through the study of skeletal remains. The content of this course is especially applicable to students interested in clinical skeletal biology, forensic science, and bioarchaeology. Cross-listed in Anthrop.

5610 Death, Loss, and Grief in Multiple Perspectives U G 2

Exploration of death, loss and grief from multiple perspectives: patient, family, institutional, community and health care provider. Prereq: Jr standing, or permission of instructor.

5620 Aging, Accessibility, and Design U G 3

Analysis and development of product and residential environment design for an aging population using environmental adjustment theories. Students apply Universal Design principles to home modifications. Prereq: Sr standing, or permission of instructor.

5650 Aging and Public Policy Issues U G 3

Examines major public and social policy issues of aging society, citizen participation in policy process, and analysis of policy decisions for the aging population in the United States.

5660 Long Term Care Services Across the Continuum U G 4

Introduction to long term care continuum, types of services, regulatory requirements, financing, alternatives, and issues of access, housing, challenges to providing quality care. Prereq: 5370 or 5650, or Grad standing in HRS, or permission of instructor.

5700 Multifaceted and Interdisciplinary Perspectives on Adolescent Mental Health U G 2

This course will develop advanced knowledge of the developmental experience of adolescents and their mental health. It will explore a variety of factors that influence mental health and will include interdisciplinary perspectives on approaches that promote positive mental health among typically developing adolescents and those with diagnosed disorders. Prereq: Psych 1100 or equiv.

5860 Augmentative and Alternative Communication for the Multidisciplinary Professional U G 3

This course is designed to provide students with knowledge in augmentative communication/augmentative & alternative communication (AAC) for children and adults. The course will explore the various types of AAC, the procurement process, funding of AAC, and intervention for people with complex communication needs secondary to a variety of diagnoses. Cross-listed in SphHrng.

220 Health and Rehabilitation Sciences

5895 Food Insecurity, and Food Assistance Programming and Policy in the U.S U G 3

Students will explore the complex set of factors that influence food insecurity in the U.S.; current approaches to addressing food insecurity in the U.S. at the local, state, and federal levels; the historical, social, political, and economic roots of current programming efforts; the strengths, limitations, and controversies related to such programming; and the potential for social welfare policy. Cross-listed in PubAfrs.

5900 Health Sciences Research: Interpretation and Applications U G 3

Overview of research in the Health Sciences. This course is intended to prepare students to be educated consumers of research and to enable them to find, understand, interpret, and apply research findings in their professional practice.

5900.01 Health Sciences Research: Interpretation and Applications U G 3

Overview of research in the Health Sciences. This course is intended to prepare students to be educated consumers of research and to enable them to find, understand, interpret, and apply research findings in their professional practice. Prereq: Admission to online Health Sciences program.

5900E Health Sciences Research: Interpretation and Applications U G 3

Overview of research in the Health Sciences. This course is intended to prepare students to be educated consumers of research and to enable them to find, understand, interpret, and apply research findings in their professional practice. Prereq: Honors standing.

6193 Graduate Independent Studies G 1-3

Guided study of select topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

6295 Global Health Disability Seminar G 2

This course will engage students in an in-depth exploration of contemporary issues regarding global health and disability. Students will define disability, understand the different models of disability, study the historical context of disability issues worldwide, and discover how disability issues align with current global health agendas to achieve equity in health for all people. Prereq: Grad standing.

6700 Global Aging G 3

Study of health and well-being of older adults in developed and developing countries and immigrant communities in the United States.

6795 Introduction to Graduate Studies G 1

Introduce new graduate students to the HRS graduate school and program through various means. Prereq: Admission into HRS Grad program.

7100 Introduction to Health & Rehabilitation Science I G 3

Provide students with knowledge concerning rehabilitation concepts relative to integrated healthcare models, physiological concepts of injury and rehabilitation, and neuroscience for health and rehabilitation. Prereq: Admission to Health and Rehabilitation Science PhD program, or permission of instructor.

7150 Introduction to Health & Rehabilitation Science II G 3

Provide students with knowledge of motor control and motor learning, behavioral and cognitive models for health and rehabilitation, explore the interaction of physical, neuroscience, cognitive and behavioral concepts in health and rehabilitation. Prereq: Admission to the Health and Rehabilitation Science Ph.D program, or permission of instructor.

7193 PhD Individual Studies G 1-3

Guided study of select topics. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 15 completions. This course is graded S/U.

7250 Teaching and Curriculum in Health and Rehabilitation Sciences G 3

Provide students with theoretical background and practical training for curriculum planning and teaching in health and rehabilitation sciences; exposure to teaching and curricular policies and procedures will occur. Prereq: Grad standing in HRS, or permission of instructor.

7289 Practicum: Educational G 1-4

Practical experience in an educational setting with the allied health fields. Prereq: 2-4 cr hrs in Education, or permission of instructor. Not open to students with credit for AllMed 889.01. This course is graded S/U.

7300 Leadership: Health and Rehabilitation Sciences G 3

Application of management and leadership principles for the development of administration of allied health departments in the health care system. Prereq: Grad standing.

7350 Issues and Policy in Health Sciences G 3

Allied health professionals must increasingly face many complex issues that affect healthcare. It is crucial that graduate students be able to critically examine a broad range of issues and understand various positions and their implications. Prereq: Admission to Health and Rehabilitation Science Grad program.

7400 Injury Biomechanics: Topics in Mechanisms and Prevention G 3

A seminar course exploring research and methods in injury biomechanics. Topics will focus on mechanisms and prevention of injury and may include human subject testing, sports injury studies along with crash safety evaluation.

7410 Advanced Structure and Function of the Human Body G 5

This course investigates advanced concepts in human functional movement through the application of basic structures and anatomical relationships utilizing an evolutionary and biomechanical perspective as explanatory mechanisms. Prereq: Any undergraduate Anatomy/Physio course including comparative anatomy or evolutionary anatomy, and permission of instructor.

7411 Injury Biomechanics-Foundations and Experience G 4

This course introduces the foundations and experimental techniques of injury biomechanics that investigates human responses. Mechanisms of injury and the injury tolerances due to high energy impacts.

7574 Mixed Methods Approaches for Policy-Related Research G 3

Evaluate the strengths and weaknesses of various mixed method research designs and how to identify a design that is appropriate for your research question. The course will compare different paradigms, sample/case selection logics, and types of evaluation associated with qualitative, quantitative, and mixed methods research. Cross-listed in PubAfrs.

7595 Translational Neuroimmunology G 1

This seminar course is designed for graduate master or doctoral level students involved in basic or translational research in Immunology or Neuroscience. Students develop skills in teaching, analyzing, discussing, synthesizing, and presenting immunology and neuroscience research. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

7650S Interdisciplinary Case Studies in Clinical Gerontology G 2

Interdisciplinary seminar for graduate and professional students using a team approach and case studies to understand aging and work with older adults. Prereq: 7600, or Grad standing, or permission of instructor.

7700S Global Health in the Health Professions G 1-2

Supervised on-site active learning in international health and educational settings focusing on enhancing skills in collaboration, communication, and clinical reasoning. Prereq: Successful completion of all discipline coursework, and submission of an application, and permission of instructor.

7717 Interdisciplinary Perspective on Developmental Disabilities G 3

Provides an introduction to the psychosocial, medical, and educational implications of developmental disabilities. Prereq: Permission of instructor. Not open to students with credit for 717.01 or 717.03. Cross-listed in EducSt, Social Work, Nursing, Psych, and SphHrng.

7718 Interdisciplinary Perspective on Autism Spectrum Disorder G 3

Teaches the analytical skills necessary to comprehend and formulate an interdisciplinary framework relating to major scientific and theoretical perspectives in autism spectrum disorders. Prereq: Permission of instructor. Cross-listed in EducSt, SocWork, Nursing, Psych, and SphHrng.

7883 Responsible Conduct of Research G 3

An exploration of the complications in conducting scientific research. Topics include authorship, human and animal subjects training, data acquisition and ownership and conflicts of interest. Prereq: Admission to Grad programs in Health and Rehabilitation Sciences, or permission of instructor.

7888 Health and Rehabilitation Science Grand Rounds Intro G 1

Students develop skills in analyzing, discussing and synthesizing health and rehabilitation research. Students present their own research and critically appraise faculty research. Discussion and demonstration of leadership will occur. Prereq: Admission to Health and Rehabilitation Sciences PhD program, or permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

7900 Evidence Based Practice I: Critical Analysis of Measurement and Diagnostic Tests G 1

Prepares students for evidence-based practice, emphasizing best practices in clinical measurements and interpretation of diagnostic reliability, validity, prediction and measures of clinically meaningful change. Prereq: Research Methods, Basic Statistics, or permission of instructor.

7910 Evidence Based Practice II: Critical Analysis of Intervention Research and Systematic Review G 1

Prepares students for evidence-based practice, emphasizing the processes of critical inquiry and analysis in a multidisciplinary forum. Scientific literature related to intervention research and systematic reviews will be emphasized. Prereq: Research Methods, Basic Statistics, or permission of instructor.

7990 Non Thesis Research G 1-5

Research for Non-Thesis. Repeatable to a maximum of 30 cr hrs or 15 completions. This course is graded S/U.

7998 Practicum: Research G 1-4

Practical experience in a research setting with the allied health fields. Prereq: 2-4 cr hrs in Research Design, or permission of instructor. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is graded S/U.

7999 Thesis Research G 1-5

Research for thesis. Repeatable to a maximum of 30 cr hrs or 15 completions. This course is graded S/U.

Health and Rehabilitation Sciences 221

8200 Research Dissemination in Health and Rehabilitation G 3

The course will prepare students to disseminate research findings, evaluate the dissemination of research, and provide opportunities for self-reflection, using their own research project. Students will prepare a full-length peer-reviewed manuscript that is suitable for publication, a scientific poster, oral presentation, and lay and scientific abstracts. Prereq: Grad level data analysis course, or permission of instructor. This course is graded S/U.

8250 Advanced Statistical Methods for Health and Rehabilitation Sciences G 3

This course will facilitate skill development in advanced statistical methods commonly used in health and rehabilitation science. Students will be exposed to analytic strategies appropriate for each type of outcome variable (i.e., dichotomous, categorical, ordinal, and continuous variables) as well as various research designs (i.e., repeated measures vs. cross-sectional data). Prereq: Graduate-level data analytics course, or permission of the instructor. Students are expected to have: 1) proficiency with at least one statistical program (e.g., STATA, SPSS, R, SAS, MatLab, etc.); 2) solid foundational understanding of simple and multiple linear regression.

8289 PhD Teaching Practicum G 1

Students gain practical, advanced skills in allied health teaching through structured mentoring experiences. Prereq: Admission to Health and Rehabilitation Sciences PhD program, or permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

8680 Experimental Methods in Biomechanics G 3

The purpose of this Experimental Methods in Biomechanics course is to introduce you to the wide variety of equipment that is used to make biomechanical measurements in clinical and research settings. We will discuss the technology/theory that was used to develop each measurement technique, how it is typically used, and its advantages and limitations.

8888 Health and Rehabilitation Science Grand Rounds Advanced G 1

Students develop skills in analyzing, discussing and synthesizing health and rehabilitation research. Students present their own research and critically appraise faculty research. Prereq: Admission to Health and Rehabilitation Sciences PhD program, or permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

8891 Advanced Skeletal Biology: Clinical Perspectives G 3

This seminar is an investigation into the biological and hierarchical mechanisms underpinning skeletal system response to environmental factors, growth and development, adaptation, injury, healing processes, and rehabilitation. Prereq: Permission of instructor.

8998 Doctoral Research Practicum G 1-3

Students gain practical, advanced skills in health and rehabilitation research through structured research experiences. This course is designed for the student to gain exposure to various research programs or to develop/apply research skills. Prereq: Enrollment in a HRS Doctoral Program, or permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

8999 PhD Research G 1-15

Research for Dissertation. Repeatable to a maximum of 30 completions. This course is graded S/U.

Health and Wellness

1100 Health and Wellness Survey U 1

Introduction to the Health and Wellness degree with emphasis on strategies for success, resources, and procedures. Prereq: Enrollment in Pre-HW. This course is graded S/U.

2102 Optimizing Personal Health, Happiness & Well-being U 3

Application of evidence-based concepts and strategies to manage stress through cognitive-behavioral skills building. Strengthen resiliency, set goals, problem solve and engage in healthy lifestyle behaviors to improve personal health, happiness and well-being. GE theme health and well-being course.

2110 Health Athlete U 1

An overview of four dimensions of personal energy (physical, emotional, mental and spiritual [purpose]) with guidance in developing self-care strategies for each. This course is graded S/U.

2193 Individual Studies U 1-4

Students will gain knowledge and skills within the area of expertise of a faculty mentor. The course will provide individualized learning opportunities. Prereq: Enrollment in HW major or minor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

2200 Introduction to Health Literacy U 3

This course introduces students to health literacy principles, practices and skills. Students will examine the role of health literacy in facilitating effective communication with patients and the public. The course will provide opportunities for students to learn and demonstrate best practices of health literacy to improve the health and well-being of patients and the public. Prereq: Enrollment in HW major or minor, or EHE Physical Education major.

2210 Dimensions of Wellness and Resilience U 3

Overview of science of behavior change, dimensions of wellness, resilience concepts and professional role development. Prereq: Enrollment in HW major or minor, or BSN major, or Exploratory (EXP) student.

2220 Wellness in Chronic Conditions U 4

Introduction to the impact of chronic conditions on the health of individuals and populations. Explores innovative disease prevention programs. Integrates health coaching strategies and health literacy issues in clients with chronic conditions and related, common medications. Prereq: Enrollment in HW major or minor, or BSN major, or in EHE Physical Education major, or Exploratory (EXP) student.

2780 Scholarship for Evidence Based Practice U 3

Introduction to information literacy, research methods and evidence based practice as they relate to health promotion. Prereq: Enrollment in HW major.

3110 Life Enhancement and Personal Wellness U 3

This course is designed to solidify and sustain gains in personal health; explore core principles of health literacy, holistic health and prevention of chronic disease related to self and others. Prereq: Enrollment in the HW major.

3220 Health Promotion Strategies for People with Chronic Conditions U 3

Examines innovative models across the continuum of care designed to positively affect the health of individuals and populations; Evaluates the roles of health coaching and its role in patient care. Prereq: Enrollment in HW major or minor, or BSN major.

3230 Coaching for Health Improvement U 3

Explores relevant theories, typical strategies and coach-client relationship principles defined by the International Coaching Federation and National Board for Health and Wellness Coaching used in health coaching to promote effective and sustainable behavior change. Prereq: Enrollment in HW major or minor, or BSN major.

3240 Health Program Planning and Evaluation U 3

The social, educational and behavioral foundations of health promotion programming and methods for evaluation will be covered. Skills to conduct needs assessment, program planning and implementation, and process, impact and outcome evaluations will be developed. Prereq: 2200, 2210, 2220, and 2780, and enrollment in HW major.

3430 Integrating Culture in Healthcare U 3

Introduction to concepts and techniques for the provision of culturally sensitive care within the U.S. and across global contexts. Prereq: 2200, 2210, 2220, and 2780, and enrollment in HW major.

3490 Technology-Based Health Promotion Strategies U 3

Explore theory underlying selection and use of education technology and pedagogy to engage individuals, families, organizations and communities in health promotion and wellness strategies. Prereq: 2200, 2210, 2220, and 2780, and enrollment in HW major.

4193 Individual Studies U 1-4

Individual study of special topics in health and wellness. Prereq: Enrollment in the Health and Wellness (HW) program, or permission of instructor. This course is graded S/U.

4300.01 HW Practicum I U 5

Experiential practicum course that applies health promotion in a variety of settings. Prereq: 2102, 2200, 2210, 2220, 2780, 3220, 3230, 3240, 3430, and 3490; and HFDS 2400; and PubHHBP 3510 or PubHlth 2010; and HumnNtr 2210 or 2310; and Social 1101 and 3306; and BusMHR 2500; and Psych 2300; and enrollment in HW major.

4300.02 HW Practicum II U 5

Experiential practicum that applies health promotion in a variety of settings. Prereq: 4300.01, and enrollment in HW major.

Health Care Innovation

7193 Individual Studies G 1-4

Individual study of special topics in healthcare innovation. Prereq: Enrollment in the Masters of Healthcare Innovation (MHI) program, or permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

7440 Innovation in High Performing Organizations G 3

Students learn advanced concepts of innovation in a high performing organization and the leadership behaviors that sustain innovation. Students discuss cross-disciplinary theories of innovation for improving health and quality of healthcare. Students are introduced to innovation competencies including positive deviance, complexity leadership, and disruptive innovation. Prereq: Enrollment in the Masters of Healthcare Innovation (MHI) program, Healthcare Leadership & Innovation certificate program, or permission of instructor.

7441 Innovation Leadership: Leading from Within G 3

This course encourages students to discover themselves as leaders to maximize innovation and organizational impact. Students explore their own leadership behaviors to better manage their energy and find balance in order to perform at a peak level and positively impact the advancement of innovation in healthcare. Prereq: Enrollment in the Masters of Healthcare Innovation (MHI) program, Healthcare Leadership & Innovation certificate program, or permission of instructor.

222 Health Care Innovation

7442 Building a Culture of Innovation in Health Systems G 3

This course builds foundational knowledge of complex adaptive system characteristics in healthcare. It will explore complex adaptive system theory, systems thinking and network relationships as the context of leadership action and innovation. This course focuses on healthcare innovation from a systems perspective emphasizing the importance of networks, relationships, culture, and feedback. Prereq: Enrollment in the Masters of Healthcare Innovation (MHI) program, Healthcare Leadership & Innovation certificate program, or permission of instructor.

7460 Enhancing Communication in the Innovation System G 3

This course develops leadership behaviors that facilitate constructive conversations, interactions, and outcomes through communication and coaching techniques. The course explores the role of relationships and communication in healthcare innovation, and challenges the traditionally negative view of conflict, by reframing it as a valuable and normative behavior in high performing organizations. Prereq: Successful completion of 7441, or permission of instructor.

7500 Healthcare Policy and Innovation G 3

This course introduces the foundations of healthcare policy at the local, state, national, and international level and explores the associations between policy and healthcare innovation. Prereq: Enrollment in Masters of Healthcare Innovation program, or permission of instructor.

7520 Utilizing Technology to Measure Outcomes in Health Systems G 3

This course explores strategies for outcome measurement as a strategy for enhancing organizational performance and innovation and how to leverage technology to measure and integrate outcomes into the daily practice in healthcare. The course emphasizes technology's role in the measurement of outcomes at the personal, the professional, the organizational and the system level. Prereq: Enrollment in Masters of Healthcare Innovation program, or permission of instructor.

7521 Best Practices in Organizational Operations G 3

This course explores various elements of organizational operations in order to fully impact the organizations and systems in which they work. This course develops basic skill sets in financial and business operations in healthcare organizations. Students learn specific skills in budgeting, planning, financial analysis, program development and implementation, and resource identification and use. Prereq: Successful completion of 7440 and 7441, or permission of instructor.

7522 Foundations of Innovative Healthcare Design Thinking G 3

This course provides a framework and tools for innovation leaders to address challenges within healthcare systems. Principles of design thinking and design principles of functionality, value, and aesthetics are discussed and applied to analysis of complex healthcare problems. The steps involved in the design process will be applied to a Capstone Project. Prereq: Enrollment in the Masters of Healthcare Innovation (MHI) program, or permission of instructor.

7593 Capstone I G 3

First of two Capstone courses in which students begin the implementation of the Capstone Project that was designed in HCINNOV 7522. Emphasis on the implementation plan and individual and team-based experiential learning. Prereq: 7522, and enrollment in the Masters of Healthcare Innovation (MHI) program; or permission of instructor. Not open to students with credit for 7590, 7591, or 7592. This course is graded S/U.

7594 Capstone II G 3

Second of two Capstone courses in which students complete the Capstone Project that was initiated in HCINNOV 7593 (Capstone 1). Emphasis on implementation and evaluation of the Capstone Project and individual and team-based experiential learning. Prereq: 7593, and enrollment in the Masters of Healthcare Innovation (MHI) program; or permission of instructor. Not open to students with credit for 7590, 7591, or 7592. This course is graded S/U.

7595 Capstone G 3

The Capstone course represents the synthesis of MHI course work into a team innovation project. Utilizing the Business Case for Innovation, Capstone teams will build off of the work started in the Design Thinking course. Students will be required to develop an implementation and evaluation plan for their Capstone idea. Prereq: 7522, enrollment in the Master of Healthcare Innovation (MHI) program, or permission of instructor. This course is graded S/U.

7596 Professional Development Seminar G 1

This course will address individual student professional and career development. Students will develop a roadmap for their professional development and engage in regular discussions with prominent healthcare and innovation leaders. Prereq: 7522, enrollment in the Master of Healthcare Innovation (MHI) program, or permission of instructor. This course is graded S/U.

7780 Evidence-Based Practice for Innovation in Organizations G 3

This course will focus on the use of evidence based practice, clinical decision making, and patient preferences as a core competency of innovation leaders. Prereq: Enrollment in Masters of Healthcare Innovation (MHI) program, or permission of instructor.

Health Information Management And Systems

3520 Fundamentals of Health Information Management U 4

Introduction to the Health Information Management (HIM) profession, medical record/health information content and systems, clinical documentation requirements, storage and retrieval systems, the U.S. healthcare delivery system, accreditation and regulatory standards, the electronic health record, HIM ethical issues, and current HIM topics. Prereq: Enrollment in HIMS, or permission of instructor.

3589 HIM Professional Practice Experience I U 1

Technical practical applications in health information management and informatics to complement HIMS 3520. Prereq: Enrollment in HIMS. Repeatable to a maximum of 3 or hrs.

4645 Management & Professional Development for Health Information Services U 4

Practical aspects of management and supervision; professional self-development. Prereq: Sr standing in HIMS, or permission of instructor.

4685 Certification Review Course U 2

This course will focus on key content areas to prepare students for the RHIA certification examination. Prereq: Sr standing, and enrollment in HIMS.

4689 HIM Professional Practice Experience II U 6

Capstone health information management/informatics practicum in a healthcare or related business environment. Prereq: Sr standing in HIMS, and completion of all coursework required during Jr year of HIMS professional curriculum. Repeatable to a maximum of 12 or hrs. This course is graded S/U.

5193 Individual Studies U G 1 - 5

Study of individual designed topics or problems in health information management not covered in regular course offerings. Prereq: Enrollment in HIMS, grad standing in AMP or permission of instructor. Not open to students with credit for 693. This course is graded S/U.

5535 Clinical Coding Performance and Management U G 4

Study of ICD-10 and ICD-10-PCS coding and clinical classification systems and their application to health information system design, implementation and evaluation; data quality studies; use of secondary data; and business analytics. Introduction to coding management and clinical documentation improvement. Prereq: 3520, HthRhSc 2500 or equiv., Anatomy 2300 or 3300 or EEOB 2510 or equiv., and EEOB 2520 or Physio 3200 or equiv.; or permission of instructor.

5536 Healthcare Revenue Life Cycle Management U G 3

Concepts, principles and applications of managing the healthcare revenue cycle and leadership of processes. Prereq: Anatomy 2300 or 3300 or EEOB 2510 or equiv., and EEOB 2520 or Physio 3200 or equiv., and HthRhSc 2500 or equiv., and enrollment in HIMS; or permission of instructor.

5537 Healthcare Data Trending and Analytics U G 3

Analysis of revenue cycle process performance, quality and productivity, and presentation of findings from analysis of coded data. Evaluation of coding, CDI, compliance and other revenue cycle processes. Prereq: 5535, 5536, and 5620; or permission of instructor.

5540 Healthcare Data Management and Analysis U G 3

Data management and statistical methods for the collection of healthcare data with emphasis on epidemiology, data collection, study design and data analysis. Prereq: 3520.

5545 Fundamentals of Healthcare Law and Ethics in Health Information Management and Informatics U G 3

Fundamentals of healthcare law and ethics including liability theories, evidence, patient consent, risk management, quality improvement, compliance, and requirements affecting the privacy, security, control, and disclosure of health information. Prereq: Enrollment in HIMS program, or permission of instructor.

5550 Human Factors in Healthcare U G 3

Students learn human factors theories and concepts that are used in developing interventions to improve patient safety. Emphasis on formative evaluation methodologies and implementation science theory.

5551 Healthcare Reimbursement for Practitioners U G 3

An introduction for the healthcare practitioner to healthcare reimbursement providing an introduction to medical billing and an overview of payment systems used by both CMS and commercial payers, an overview of CMS oversight of claims payment, the role of auditing plays in the revenue cycle. Prereq: 5610, or enrollment in Medical Coding and Healthcare Data Analytics for Practice Certificate, or permission of instructor.

5575 Project Management U G 1

Creation of project plan for system purchase through installation. Prereq: Enrollment in HIMS, or permission of instructor.

5610 Medical Coding for Clinical Practice U G 3

Introduction to medical code sets. Emphasis on use and understanding of the International Classification of Diseases - 10th edition - Clinical Modification and Procedure Coding System, computerized encoding systems for coding, and data quality.

5620 Healthcare Reimbursement Systems U G 3

In depth analysis of U.S. healthcare payment systems and methodologies including public funded programs, managed care contracting, utilization review and impact on providers, payers, consumers, policy and information systems. Prereq: 3520 or AllMed 5370, or Grad standing in AMP, or permission of instructor. Not open to students with credit for 589, 620, or 660.

Health Information Management And Systems 223

5635 Quality Management and Performance Improvement in Healthcare U G 3

Continuous quality management measures and tools including patient safety and satisfaction, regulatory requirements, benchmarking, causal analysis, outcomes, clinical guidelines and pathways, risk management and utilization review. Prereq: 3520 or 5540, or enrollment in Usability and User Experience in Healthcare (UUEH) Certificate, or Grad standing, or permission of instructor.

5648 Microcomputer Applications in the Health Sciences U G 2

Overview of microcomputer applications in health sciences with practical applications related to discipline specific needs. Prereq: Enrollment in HRS, HIMS, or permission of instructor.

5650 Healthcare Information Systems and Technology U G 3

In depth analysis of patient, administrative and financial information systems and management practices to support systems. Emphasis on government involvement in health information technology and information exchanges. Prereq: 5648 or equiv., or enrollment in Usability and User Experience in Healthcare (UUEH) Certificate, or Grad standing in HRS, or permission of instructor.

5654 Health Information Systems Analysis and Design U G 4

Applied systems planning and analysis techniques including database design and project management for health information systems evaluation, modeling and implementation. Prereq: 3520, 5648, and 5650; or Grad standing in HRS; or permission of instructor.

5655 Healthcare Database Administration U G 3

Database design and maintenance for health data applications including creation of data dictionaries and SQL query language to meet the business needs of healthcare entities. Prereq: 5654, or permission of instructor. Not open to students with credit for 654 or 655.

5656 Healthcare Business Intelligence U G 2

Use case development; dataset integration; data query and analysis; report development and use of visualization tools for business and clinical decision-making. Prereq: 5540, 5654, and 5655; or permission of instructor.

5660 Healthcare Financial Management U G 2

Overview of major financial issues in healthcare delivery including assessment of financial environment, financial statements, ratio analysis, managed care, payment systems, and capital project analysis. Prereq: Grad standing in AMP, and enrollment in HIMS; or permission of instructor.

5661 Applied Healthcare Analytics U G 3

An introduction to healthcare data analytics. The course will discuss how analytics are used in operational performance improvement, quality improvement, productivity assessment, value-based care initiatives and healthcare research. The course requires the use of commonly used statistical methods including both descriptive and inferential statistics as well as creating charts and graphs. Prereq: 5551 and 5610, or enrollment in Medical Coding and Healthcare Data Analytics for Practice Certificate, or permission of instructor.

5700 Project in Health Information Management and Systems U G 3

Students apply theoretical knowledge acquired from the certificate program to a project that closely resembles what would be done in a realistic work environment. During the project, students apply critical thinking skills to solve a real-world problem, from assessing the problem itself to applying suitable and appropriate methods to generate one or more solutions to the problem. Prereq: 5551, 5610, and 5661, and enrollment in Medical Coding and Healthcare Data Analytics for Practice certificate; or 5550, 5635, and 5650, and enrollment in Usability and User Experience in Health Care certificate; or permission of instructor.

5890 Seminar in Health Information Management and Informatics U G 1 - 4

Selected topics in health information management and informatics. Prereq: Grad standing in AMP, and enrollment in HIMS, or permission of instructor. Repeatable to a maximum of 12 or hrs or 4 completions.

Hebrew

1101.01 Elementary Hebrew I U 4

Conversation, reading, writing, vocabulary building, phonetics, and grammar of Hebrew. Closed to native speakers of this language. Prereq: Not open to students with 3 or more years of high school Hebrew through regular course enrollment or EM credit. This course is available for EM credit. GE for lang course. GE world languages course.

1102.01 Elementary Hebrew II U 4

Reading of passages from various periods of Hebrew literature; review of salient points of elementary grammar & introduction to elements of classical Hebrew. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101, or permission of instructor. This course is available for EM credit. GE for lang course. GE world languages course.

1103.01 Intermediate Hebrew I U 4

Reading of Modern Hebrew short stories, poems, and essays; special emphasis on oral practice and Hebrew idioms. Closed to native speakers of this language. Prereq: 1102, or permission of instructor. This course is available for EM credit. GE for lang course. GE world languages course.

2105 Intermediate Hebrew II U 4

Development of communication skills in Modern Hebrew; special emphasis on using new grammatical skills in advanced forms of composition and conversation. Not open to native speakers of this language or students with EM credit. Prereq: 1103, or permission of instructor.

2193 Individual Studies U 1 - 10

Individual studies. Prereq: Permission of instructor or department. Repeatable to a maximum of 10 or hrs or 5 completions. This course is graded S/U.

2194 Group Studies U 1 - 10

Group studies. Prereq: Permission of instructor or department. Repeatable to a maximum of 15 or hrs or 5 completions.

2216 The Medieval Jewish Experience U 3

A survey of ten centuries of medieval Jewish culture from the rise of Islam to the death of Shabbetai Zvi, the false Messiah (1676). Prereq: Not open to students who have taken 216, MedRen 2516 (Medieval 216), or JewshSt 2516. GE cultures and ideas and diversity global studies course. Cross-listed in MedRen 2516 and JewshSt 2516.

2241 Culture of Contemporary Israel U 3

An introduction to the Culture of modern Israel: historical roots, socio-political institutions and developments, and literary and artistic creations reflecting the realities of contemporary Israeli society. Prereq: Not open to students with credit for Hebrew 2241H (241H), 241, JewshSt 2242, or 2242H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in JewshSt 2242.

2241H Culture of Contemporary Israel U 3

An introduction to the culture of modern Israel: historical roots, socio-political institutions and developments, and literary and artistic creations reflecting the realities of contemporary Israeli society. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 2241 (241), 241H, JewshSt 2242, or 2242H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in JewshSt 2242H.

2367.01 Scripture and Script: The Bible in Contemporary Arts, Media, and Literature U 3

The Bible is a foundational text for contemporary art, literature, and political discourse as well as a sacred text in some religious traditions. This course examines Biblical reflections in cultural production, with particular focus on the American experience. It also gives students opportunities to see their own cultural contexts anew, and to explore the Bible's possible relevance to our time. Prereq: English 1110.01 or equiv. GE writing and comm: level 2 and VPA course.

2700 Introduction to the Hebrew Bible/Old Testament U 3

Reading and analysis of selected chapters from the Hebrew scriptures and post-biblical Hebrew writings representative of major historical, cultural, and literary trends. Prereq: English 1110.xx, or GE foundation writing and info literacy course. Not open to students with credit for 2700H, JewshSt 2700, or 2700H. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course. Cross-listed in JewshSt.

2700H Introduction to the Hebrew Bible/Old Testament U 3

Reading and analysis of selected chapters from the Hebrew scriptures and post-biblical Hebrew writings representative of major historical, cultural, and literary trends. Prereq: Honors standing, and English 1110; or permission of instructor. Not open to students with credit for 2700, JewshSt 2700 or 2700H. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course. Cross-listed in JewshSt.

3245 Israeli Film & Society U 3

A survey of Israeli films from 1948 to the present day, tracing the development of film production in Israel as well as the relationship between film and society. Prereq: English 1110. Not open to students with credit for 2245 or JewshSt 2245 or 3245. GE VPA and diversity global studies course. GE theme citizenship for div and just wrld course. Cross-listed in JewshSt.

3703 Prophecy in the Hebrew Bible U 3

An intensive investigation into the dynamics of Israelite prophecy and apocalyptic in the context of ancient Near Eastern culture. Prereq: English 1110. Not open to students with credit for 2703, JewshSt 2703, or 3703. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course. Cross-listed in JewshSt.

3704 Women in the Bible and Beyond U 3

An examination of the social, legal, and religious position of women as they appear in the Hebrew Bible and the ways in which they have been represented and interpreted in later textual, visual, and audio sources. Prereq: English 1110. Not open to students with credit for 2704, JewshSt 2704, or 3704. GE lit and diversity global studies course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course. Cross-listed in JewshSt.

3705 Israeli Society and the Holocaust U 3

The State of Israel was established soon after the Holocaust. This course examines the effects of the Nazi genocide on Israeli society, including political debates, public trials, films, museums and literature, while also reflecting on larger themes of genocide, trauma, memory, and commemoration. Taught in English. Prereq: English 1110. GE cultures and ideas and diversity global studies course. GE theme citizenship for div and just wrld course.

224 Hebrew

3708	Wisdom Literature in the Bible	U	3
An examination of the various ideas, themes, attitudes, implications, and genres of biblical and post-biblical wisdom literature. Prereq: English 1110. Not open to students with credit for 2708, JewshSt 2708, or 3708. GE lit and diversity global studies course. Cross-listed in JewshSt.			
4101	Review of Grammar and Composition	U	4
Review of Hebrew grammar; composition on assigned topics and some practice in translation. Prereq: 1103 (104). Not open to students with credit for 401.			
4102	Hebrew and the Media	U	3
Practice improving Hebrew conversation, comprehension, and writing through an exploration of contemporary Israeli media such as newspapers, internet, television, radio and film. Prereq: 1103 (104), or permission of instructor. Not open to students with credit for 402.			
4601	Modern Hebrew Short Story	U	3
Reading and discussion of masterpieces of modern Hebrew short stories in the 19th and 20th centuries. Prereq: 1103, or permission of instructor. Not open to students with credit for JewshSt 4601.			
4602	Modern Hebrew Poetry	U	3
Reading and discussion of masterpieces of modern Hebrew poetry in the 19th and 20th centuries. Prereq: 1103, or permission of instructor. Not open to students with credit for JewshSt 4602.			
4998	Undergraduate Research in Hebrew	U	1 - 3
Offers undergraduates with special aptitudes a greater opportunity to do more independent study and research than is possible in normal coursework. Prereq: Permission of instructor. Not open to students with credit for 783H. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
4998H	Honors Research in Hebrew	U	1 - 3
Offers undergraduate honors students a greater opportunity to do more independent study than is possible in normal coursework. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
4999	Undergraduate Thesis	U	1 - 3
Offers undergraduates with special aptitudes the opportunity to do independent study leading to a thesis. Prereq: Sr standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
4999H	Undergraduate Honors Thesis	U	1 - 3
Offers undergraduates with advanced aptitudes the opportunity to do independent study leading to an honors thesis. Prereq: Honors standing, and a grade of A in at least half of the Hebrew courses taken and an average grade of B or above in all Hebrew courses, and Sr standing; or permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
5100	Introduction to Biblical Hebrew	U G	3
Introduction of main elements of Biblical Hebrew grammar and syntax, for study of ancient and late antique Mediterranean religion and History, for students in Classics, History, NELC, etc. Requires no previous study of Hebrew language but assumes moderate experience with studying another/non-native language. Prereq: Third-semester level [1103] in any other modern or classical language, or permission of instructor.			
5101	Biblical Hebrew Grammar	U G	3
Introduction to the phonology, morphology, and syntax of the Biblical Hebrew idiom. Prereq: 1103, or permission of instructor. Not open to students with credit for JewshSt 5101.			
5105	History of the Hebrew Language	U G	3
Genealogical and typological relations within the Semitic family; a survey of Biblical, Mishnaic, and Modern Hebrew. Prereq: 1103, or permission or instructor. Not open to students with credit for JewshSt 5105.			
5193	Individual Studies	U G	1 - 10
Individual studies. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 10
Group Studies. Repeatable to a maximum of 20 cr hrs or 5 completions.			
5601	Introduction to Hebrew Literary and Cultural Texts	U G	3
Literary and cultural Hebrew texts from the biblical to the modern period; students will develop the ability to read critically and to build analytical vocabulary. In Hebrew. Prereq: 2105, or permission of instructor. Not open to students with credit for JewshSt 5601.			
5602	The Bible as Literature: Selected Readings	U G	3
Critical study of basic issues in the language and analysis of biblical texts. In Hebrew. Prereq: 2105, or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
5603	Readings in Rabbinic Literature	U G	3
Study of selected texts and issues in Rabbinic literature, and discussions of the methods by which they are studied. In Hebrew. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.			

5691	Topics in Hebrew Literature and Culture	U G	3
This course will explore topics in Hebrew literature and culture in depth, ranging from biblical times to contemporary society. Texts and/or films will be provided in Hebrew, so that students can continue to improve their Hebrew analysis and comprehension skills. Each semester will focus on a different topic, so this course may be repeated for credit towards the Hebrew-Jewish Studies major & minor. Prereq: 1103, or permission of instructor. Repeatable to a maximum of 9 cr hrs.			
5797	Study at a Foreign Institution	U G	1 - 15
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Repeatable to a maximum of 30 cr hrs or 5 completions.			
7602	Studies in Hebrew Prose	G	3
Advanced study of specific periods, authors, and/or topics or prose writing, involving extensive readings and discussions of appropriate primary and secondary materials. Repeatable to a maximum of 9 cr hrs.			
8891	Seminar in Hebrew Studies	G	3
Intensive investigation of a selected topic or problem in Hebrew linguistics, philology, literature, or literary culture. Repeatable to a maximum of 12 cr hrs.			

Hindi

1101	Elementary Hindi I	U	4
Study of Hindi language, with appropriate cultural background; development of listening, reading, speaking, and writing. Closed to native speakers of the language. This course is available for EM credit. GE for lang course. GE world languages course.			
1102	Elementary Hindi II	U	4
Continued study of Hindi language, with appropriate cultural background; development of listening, reading, speaking, and writing. Prereq: 1101. Not open to students with credit for 102. GE for lang course. GE world languages course.			
1103	Intermediate Hindi I	U	4
Continued study of Hindi language, with appropriate cultural background; development of listening, reading, speaking, and writing. Prereq: 1102. This course is available for EM credit. GE for lang course. GE world languages course.			
2104	Intermediate Hindi II	U	3
Continued study of Hindi language, with appropriate cultural background; development of listening, reading, speaking, and writing. Prereq: 1103.			
2194	Group Studies	U	1 - 10
Course topics may vary on subjects not otherwise covered by NELC courses. Prereq: Permission of instructor or department. Repeatable to a maximum of 15 cr hrs or 5 completions.			

History

1102	Latin American History since 1825	U	3
Latin American political, social, economic, and cultural history from independence (1825) to the present focusing on neo-colonialism, instability, underdevelopment, militarism, and minorities. Prereq or concur: English 1110.xx. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
1151	American History to 1877	U	3
The political, constitutional, social, and economic development of the United States from the colonial period through the era of Reconstruction. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1150 or 2001. GE historical study course. GE foundation historical and cultural studies course.			
1152	American History since 1877	U	3
The political, constitutional, social and economic development of the United States from the end of Reconstruction to the present. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1150 or 2002. GE historical study course. GE foundation historical and cultural studies course.			
1194	Introductory Undergraduate Group Studies	U	3
The investigation of particular problems in various fields of history. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx. Repeatable to a maximum of 18 cr hrs.			
1211	European History I	U	3
Ancient civilizations (Near East, Greece, Rome); barbarian invasions; medieval civilizations (Byzantium, Islam, Europe); Renaissance and Reformation. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1210, 2201, 2201H, 2202, 2203, or 2205. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
1212	European History II	U	3
Political, scientific, and industrial revolutions; nationalism; the two World Wars; the decline of empires; the Cold War. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1210, 2203, 2204. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			

1681 World History to 1500 U 3

Comparative survey of the world's major civilizations and their interconnections from the beginnings of human civilization through 1500. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 2641. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.

1682 World History from 1500 to the Present U 3

Survey of the human community, with an emphasis on its increasing global integration, from the first European voyages of exploration through the present. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 2642. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.

2001 Launching America U 3

An intermediate-level approach to American history in its wider Atlantic context from the late Middle Ages to the era of Civil War and Reconstruction. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1151. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2001H Launching America U 3

Studies American society from earliest times to the abandonment of Reconstruction policies in 1877. Students will study the relation of structural changes in American society to the development of radical ideology, political institutions, and culture. Prereq or concur: Honors standing, and English 1110.xx; or permission of instructor. Not open to students with credit for 2001. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2002 Making America Modern U 3

A rigorous, intermediate-level history of modern U.S. in the world from the age of industrialization to the age of globalization. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1152. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2002H Making America Modern U 3

Examines twentieth century American history in a global perspective, with special emphasis on the themes of industrial, military, and global expansion, as well as the expansion of civil and political rights of the American people. Prereq or concur: Honors standing, and English 1110.xx; or permission of instructor. Not open to students with credit for 2002. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2010 History of American Capitalism U 3

Study of the evolution of "American Capitalism" from pre-capitalist economies of the medieval period to the early 21st century. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

2015 History of American Criminal Justice U 3

The history of crime, criminal law, law enforcement, prisons, and juvenile courts. Prereq or concur: English 1110.xx. GE historical study course. GE foundation historical and cultural studies course.

2040 History of Agriculture and Rural America U 3

This course is a broad survey of the economic, social, and political history of agriculture and the countryside from the pre-Columbian period to the present. The course focuses on labor, abundance, political activism, public policy, and technology, and traces their interactions and changes over time. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.

2046 Christianity and Liberation in the USA U 3

The intersection of race, ethnicity, and gender with Christian thought and practice in the USA; the emergence of liberation theologies and movements in the late twentieth century in their historical and social contexts. GE foundation historical and cultural studies and race, ethnicity and gender div course.

2065 Colonialism at the Movies: American History in Film U 3

Explores historical treatment of Native/European contact, colonization, and key events and issues in American history in film. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course.

2066 History of Medicine in Film U 3

Examines portrayals of physicians in American film over the past seventy-five years, giving particular attention to what popular films can say about the cultural images of physicians and medicine in American society. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

2070 Introduction to Native American History U 3

History of Native Americans from pre-contact times to the present. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 368.01. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2071 American Indian History of the U.S. Midwest U 3

Native American history in Great Lakes and Ohio Valley regions from ancient times to the present, including moundbuilders, fur trade, removal, reservations, urbanization, contemporary issues. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2075 Introduction to U.S. Latino/a History U 3

Survey of Latinos/Latinas and their history in the United States from Spanish colonial period to present. Prereq or concur: English 1110.xx. Not open to students with credit for 324. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

GE foundation historical and cultural studies course.

226 History

2125	The History of Latin America Through Film	U	3
Latin American history from the pre-colonial era to the present as depicted in film, including the analysis of colonialism, revolutions, society, women, and current events. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2194	Intermediate Undergraduate Group Studies	U	3
The investigation of particular problems in various fields of history. Prereq or concur: English 1110.xx. Repeatable to a maximum of 18 cr hrs or 6 completions.			
2201	Ancient Greece and Rome	U	3
Comparative historical analysis of ancient Mediterranean civilizations of the Near East, Greece, and Rome from the Bronze Age to Fall of Rome. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1211. GE historical study course. GE foundation historical and cultural studies course.			
2202	Introduction to Medieval History	U	3
Survey of medieval history from the late Roman Empire to the early sixteenth century. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy course, or permission of instructor. Not open to students with credit for 1211. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2203	Introduction to Early Modern Europe	U	3
A survey of European history from the Black Death to the Congress of Vienna. This course examines social, cultural, religious, political and economic developments from the mid fourteenth to the early nineteenth century. Sometimes taught at distance. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 1211 or 1212. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2204	Modern European History	U	3
Examination of selected themes from the history of Modern Europe from the French Revolution to the Present. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 1212. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2204H	Modern European History	U	3
Examination of selected themes from the history of Modern Europe from the French Revolution to the present. Prereq or concur: Honors standing and English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. Not open to students with credit for 2204. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2206	History of Paris, Origins to the Present	U	3
An introductory survey course on the history of Paris from its earliest human settlement to the present day. This course will explore the history of the people and events that have shaped the Paris we know today. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.			
2210	Classical Archaeology	U	3
Introduction to the principles, methods, and history of archaeological investigation in the ancient Greek and Roman world, illustrated through a selection of major classical sites. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for Clas 2301 or HistArt 2301. GE cultures and ideas and historical study and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in Clas 2301 and HistArt 2301.			
2211	The Ancient Near East	U	3
The ancient history of Mesopotamia, Egypt, Anatolia, Persia, Israel, and the Levant to the establishment of the Persian Empire. Prereq or concur: Not open to students with credit for NELC 2211. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in NELC.			
2213	The Ancient Mediterranean City	U	3
Cities in the ancient Near East, Greece, and Rome, with an emphasis on their physical form and historical importance. Prereq or concur: English 1110.xx. Not open to students with credit for 504.02. GE historical study course. GE foundation historical and cultural studies course.			
2220	Introduction to the History of Christianity	U	3
Introduces students to the historical study of Christianity as a religious tradition. Sometimes this course is taught in a distance only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2221	Introduction to the New Testament: History and Literature	U	3
Introductory survey of the New Testament writings in translation, including non-canonical sources of the early Christian movement. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for 2221E, Clas 2221, 2221E, 2401, or 2401E. GE for lit and historical study course. GE foundation lit, vis and performing arts and historical and cultural studies course. Cross-listed in Clas.			

2221E	Introduction to the New Testament: History and Literature	U	3
Introductory survey of the New Testament writings in translation, including non-canonical sources of the early Christian movement. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for History 2221, Clas 2221, 2221E, 2401, or 2401E. GE lit and historical study course. GE foundation lit, vis and performing arts and historical and cultural studies course. Cross-listed in Clas.			
2231	The Crusades	U	3
Examines the various European crusades - in the Holy Land, Spain, Eastern Europe, and southern France - from their origins to the late 15th century. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2240	Elizabethan England	U	3
The social, political, cultural and religious history of England during the reign of Queen Elizabeth I, 1558-1603, including the darker side of the Golden Age. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2250	Empires and Nations in Western Europe, 1500 - Present	U	3
Comparative study of the Modern European Overseas Empires from the "age of discovery" to the postcolonial present. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
2270	Love in the Modern World	U	3
History of love in philosophy, literature, and art, focusing on the 19th and 20th centuries. Not open to students with credit for 3278. GE historical study course. GE foundation lit, vis and performing arts course and historical and cultural studies course.

Explores the changing intellectual, economic, institutional and cultural relationships that have characterized medicine in the Western world from antiquity to the present, and examines individual roles and trends in the education of practitioners, locations of healing, and expectations that people had of medicine as ideas about the body and illness shifted. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

2710 History of the Car U 3

The car has shaped the world we live in today. Ideas of capitalism, technology, and consumerism are inherently linked to its creation and expansion in modern society. This course will examine the development of the car in the 20th century, first in the United States and then how its global expansion has come to define global society today. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study course. GE theme lived environments course.

2711 History of Nuclear Energy U 3

Nuclear energy has been vaunted as a sustainable energy source yet remains a controversial part of the world's energy matrix today. This course will historicize its development from the product of WWII scientific tests to the promise of limitless energy in the 1960s and 1970s, to the infamous catastrophes of Chernobyl and Fukushima, to present day advances and climate change issues. Prereq or concur: English 1110.xx, or permission of instructor. GE theme sustainability course.

2720 Big History U 3

"Big History" attempts to explain history at the very largest scales in the widest perspectives, exploring theories of how the universe, planet, life, and humanity came to be. Students will work to understand the essential state of knowledge about cosmic, earth, evolutionary, and human history. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

2750 Natives and Newcomers: Immigration and Migration in U.S. History U 3

General survey of (im)migration history in the U.S. from precolonial times to the present. Topics include cultural contact, economic relations, citizenship, politics, family, and sexuality. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 2750H, 2750E, WGSSt 2750, or 2750H. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course. Cross-listed in WGSSt.

2750H Natives and Newcomers: Immigration and Migration in U.S. History U 3

General survey of (im)migration history in the U.S. from precolonial times to the present. Topics include cultural contact, economic relations, citizenship, politics, family and sexuality. Prereq: Honors standing, or permission of instructor. Prereq or concur: English 1110.xx. Not open to students with credit for WGSSt 3322H or 2750H. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course. Cross-listed in WGSSt.

2752 Social Reform Movements in U.S. History U 3

Explores organized movements for social change from 1830 to 1970s, including antislavery, women's rights, temperance, utopias, Populists, Progressives, African-American, American Indian and Chicano rights. Sometimes this course offered at distance. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course. GE foundation historical and cultural studies course.

2797.01 Study at a Foreign Institution U 1 - 6

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq or concur: English 1110.xx., or permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions.

2797.02 The Western Tradition and Contemporary Issues: From Ancient Greece to the Global Present U 3

Participating students will have the opportunity to experience, and gain a greater appreciation for, the significance of the Western tradition through Ionian University faculty-led overviews of the various historical eras, beginning with ancient Greece and ending in the modern era, and group excursions to historical sites. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

2798 Study Tour U 1 - 6

Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq or concur: English 1110.xx. Not open to students with credit for 698.01 or 698.02. Repeatable to a maximum of 27 cr hrs or 9 completions.

2800 Introduction to the Discipline of History U 3

Investigation of the methods and analytical approaches historians use to understand the past. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor.

2800E Introduction to the Discipline of History U 3

Investigation of the methods and analytical approaches historians use to understand the past. Prereq: Honors standing, or permission of instructor. Prereq or concur: English 1110.xx. Not open to students with credit for 2800 (398) or 2800H (398H).

2800H Introduction to the Discipline of History U 3

Investigation of the methods and analytical approaches historians use to understand the past. Prereq: Honors standing, or permission of instructor. Prereq or concur: English 1110.xx. Not open to students with credit for 398H.

2911 The Climate Crisis: Mechanisms, Impacts, and Mitigation U 4

Examination of the basic science of climate change, of the ability to make accurate predictions of future climate, and of the implications for global sustainability by combining perspectives from the physical sciences, the biological sciences, and historical study. Team-taught with faculty members in EarthSc and EEOB. Prereq: Not open to students with credit for History 1911, EarthSc 1911, 2911, EEOB 1911, or 2911. GE historical study and nat sci bio and nat sci phys course. GE theme sustainability and lived environments course. Cross-listed in EarthSc and EEOB.

3001 American Political History to 1877 U 3

The origins and development of American politics from early modern origins and national revolution to the era of Civil War and Reconstruction. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course.

3002 U.S. Political History Since 1877 U 3

History of American political institutions, ideas, and culture from Reconstruction to the present. Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course. GE theme citizenship for div and just wrld course.

3003 American Presidential Elections U 3

History of presidential campaigns and elections from Washington to the present. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course.

3005 The United States Constitution and American Society to 1877 U 3

Advanced study of U.S. constitutional history from the colonial charters through Reconstruction after the Civil War. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

3006 The United States Constitution and American Society since 1877 U 3

Advanced study of U.S. constitutional history from Reconstruction to the present. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.

3010 Colonial North American to 1763 U 3

The history of colonial and native societies in North America from first contacts to the eve of the imperial crisis. Prereq or concur: Any 2000-level History course, and English 1110.xx; or permission of instructor. Not open to students with credit for 556. GE historical study course.

3011 The American Revolution and the New Nation U 3

The American Revolution and the New Nation: Analysis of the political, cultural, social, military, and economic changes that led to revolution and creation of the republic. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study course.

3012 Antebellum America U 3

An examination of American history from the nation-building of the age of Jefferson and Jackson to the sectional crisis over slavery. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study course.

3013 Civil War and Reconstruction U 3

The causes, character, and consequences of America's inter-sectional war and the post-war settlement. Prereq: English 1110.xx, or permission of instructor. GE historical study course.

Survey of economic, social, political development of the geographic area that became Ohio from Native Americans to present. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study course.

3032 History of the U.S. West U 3

The social, cultural, and economic development of the U.S. West. Prereq or concur: Any 2000-level History course, and English 1110.xx; or permission of instructor. Not open to students with credit for 560. GE historical study course.

3040 The American City U 3

History of the American city (urban-suburban) from colonial times to the early 21st century. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity soc div in the US course. GE theme lived environments course.

3041 American Labor History U 3

Evolution of working-class life, culture, politics, and trade unionism in America from the late 18th century to the present. Prereq or concur: Any 2000-level History course, and English 1110.xx; or permission of instructor. Not open to students with credit for 569. GE historical study course.

3045 American Religious History U 3

An examination of religious history of the United States from colonial era to the present. Prereq or concur: Any 2000-level History course, and English 1110.xx; or permission of instructor. Not open to students with credit for 578. GE historical study course.

3070 Native American History from European Contact to Removal, 1560-1820 U 3

Major issues and events in Native American history from before the European invasion and colonization through the early 1820s. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE theme migration, mobility, and immobility course.

3071 Native American History from Removal to the Present U 3

Covers major events in American Indian history from 1820s to present, including removal, reservations, cultural adaptation, federal policies, self-determination, activism, and contemporary issues. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity soc diversity in the US course.

3072 The Newark Earthworks, An Interdisciplinary Course U 3

This course is designed to give students an opportunity to learn about the indigenous peoples of ancient Ohio, an amazing complex of earthen mounds they created, and the many ways we can know about and further study them. Prereq: Not open to students with credit for Anthro 3072 or CompStd 3072. GE theme lived environments course. Cross-listed in Anthro and CompSt.

3080 Slavery in the United States U 3

The African American experience in slavery, focusing on the rise of the slave trade, slavery in the colonial and antebellum eras, the Civil War, and abolition. Prereq or concur: English 1110.xx; or permission of instructor. Not open to students with credit for 559 or AfAmAST 3080. GE historical study course. Cross-listed in AfAmAST.

3081 Free Blacks in Antebellum America U 3

Explores the development of free Black communities in the era before the Civil War, focusing on emancipation, fugitive slaves, resistance movements and suffrage. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for AfAmAST 3081. GE historical study and diversity soc div in the US course. Cross-listed in AfAmAST.

3082 Black Americans During the Progressive Era U 3

History and experiences of black Americans during the period best known in American History as the Progressive Era. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for AfAmAST 3082. GE historical study and diversity soc div in the US course. Cross-listed in AfAmAST.

3083 Civil Rights and Black Power Movements U 3

Examines the origins, evolution, and outcomes of the African American freedom struggle, focusing on the Civil Rights and Black Power movements. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for AfAmAST 3083. GE historical study and diversity soc div in the US course. GE theme citizenship for div and just wrld course. Cross-listed in AfAmAST.

3085 African American History Through Contemporary Film U 3

Uses contemporary film to explore the history of African American life, culture, politics, and resistance. Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course.

3086 Black Women in Slavery and Freedom U 3

Traces the experiences and struggles of African American women from slavery through the Civil Rights/Black Power era. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for AfAmAST 3086. GE historical study and diversity soc div in the US course. GE theme migration, mobility, and immobility course. Cross-listed in AfAmAST.

3089 Studies in African American History U 3

Selected topics in African American history from the origins of slavery to the present. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for AfAmAST 3089. Repeatable to a maximum of 12 or hrs. GE historical study course. Cross-listed in AfAmAST.

3090 Comparative Slavery U 3

Different forms of slavery and other forms of unfree labor in different cultures, focusing mainly on Europe, the Americas, and Africa. Prereq: English 1110.xx and any History 2000-level course; or permission of instructor. Not open to students with credit for 588 or AfAmAST 588. GE historical study course.

3100 Colonial Latin America U 3

Mayan, Aztec, and Incan Empires; the Spanish and Portuguese conquests and the transplanting of Iberian institutions; the Baroque period; the Bourbon Century and the Enlightenment. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for 533.01. GE historical study course.

3215	Sex and Gender in the Ancient World	U	3		
	Introductory survey of women, gender, and sexual relations in the ancient Mediterranean world, especially Greece and Rome. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for Clas 3215. GE historical study and diversity global studies course. GE foundation historical and cultural studies and race, ethnicity and gender div course. Cross-listed in Clas.				
3216	War in the Ancient Mediterranean World	U	3		
	A survey of military history from the late Bronze Age to the fall of the Roman Empire in the West. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy course, or permission of instructor. Not open to students with credit for 2212. GE historical study and diversity global studies course.				
3217	Family, household, and kinship in the Ancient World	U	3		
	This upper-level course focuses on the family as a foundational unit of ancient Mediterranean societies. Through a survey of primary and secondary literature, the students will engage with the evolution of familial networks from the Bronze Age to Late Antiquity, with a focus on the Greco-Roman world. Prereq: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for Clas 3217. GE theme traditions, cultures, and transformations course. Cross-listed in Clas.				
3218	Paul & His Influence in Early Christianity	U	3		
	Survey of the life and thought of the apostle Paul in translation, and his influence on the formation of Christianity. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for Clas 3407. GE lit course and historical study course. GE foundation lit, vis and performing arts and historical and cultural studies course.				
3219	Historical Jesus	U	3		
	The purpose of this course is to consider the problem of how historical facts and religious persuasion are related where a religion, such as Christianity, lays claim to historical truth through examination of the figure of Jesus. Students will learn about historical methodology and a major religious figure about which there is considerable academic and theological debate. Prereq: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.				
3220	The Rise of the Roman Republic	U	3		
	An advanced survey of Rome's history from the foundation of the city to the establishment of the Republic's Mediterranean Empire, ca 150 BC. Prereq or concur: English 1110.xx, or GE Foundation Writing and Information Literacy course, or permission of instructor. Not open to students with credit for Clas 3220. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in Clas.				
3221	History of Rome: Republic to Empire	U	3		
	An advanced survey of Rome's history from the late Republic to the early Empire under Augustus and his successors. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy course, or permission of instructor. Not open to students with credit for 2212 or Clas 3221. GE historical study and diversity global studies course. Cross-listed in Clas.				
3222	The Roman Empire, 69-337 CE	U	3		
	An advanced survey of Rome's imperial history from the end of the Julio-Claudian dynasty to the death of Constantine. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. Not open to students with credit for Clas 3222. GE historical study course. GE theme citizenship for div and just wrld course. Cross-listed in Clas.				
3223	The Later Roman Empire	U	3		
	An advanced survey of Rome's history in the fourth, fifth, and sixth centuries with focus on themes of decline, fall, and transformation. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for Clas 3223. GE historical study course. GE theme traditions, cultures, and transformations course. Cross-listed in Clas.				
3225	Early Byzantine Empire	U	3		
	History of Byzantium, 600-1453, with emphasis on internal developments, relations with neighbors, the Crusades, the Fall of the City, and the legacy of Byzantium. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for 505.01. GE historical study course.				
3227	Gnostics and Other Early Christian Heresies	U	3		
	Examines the early Christian philosophical movement known as 'the Gnostics' whose beliefs, based on the stories of the Bible, Platonist philosophy, and the new revelation of Jesus, shocked other Christians. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy course, or permission of instructor. GE historical study and diversity global studies course. GE theme traditions, cultures, and transformations course.				
3229	History of Early Christianity	U	3		
	A survey of the history of Christianity from its Jewish and Greco-Roman roots to the late sixth century. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE theme traditions, cultures, and transformations course.				
3230	Saints and Demons in Medieval Europe	U	3		
	Study of the development of Medieval Christianity from Constantine to the early sixteenth century. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE theme traditions, cultures, and transformations course.				
3231	Creating Medieval Monsters: Constructions of the "Other"	U	3		
	This course examines the development of a persecuting society in medieval Europe and explores the various ways that minorities were demonized (literally turned into "monsters") in the medieval discourse and artwork in order to create a strong sense of unity within Christendom, with a specific focus on Jews, lepers, Muslims, religious non-conformists, sexual nonconformists, and women. GE historical study and diversity global studies course. GE foundation historical and cultural studies and race, ethnicity and gender div course.				
3232	Solving Crime in Medieval Europe	U	3		
	This course explores the interaction between the development of criminal law and social change in the late medieval period from a comparative perspective, examining primarily the English common law, but also the continental courts of law. 3264	19th Century German History	U	3
Exploration from 1806 to 1914 of the cultural, economic, political, and social history of the peoples and territories included in the German Empire after 1871. Prereq or concur: Any 2000-level History course, and English 1110.xx; or permission of instructor. Not open to students with credit for 518.01. GE historical study course.			

3265	20th-Century German History	U	3
Exploration from 1914 to the present of German cultural, economic, political, and social history. Prereq or concur: English 1110.xx; or permission of instructor. GE historical study course. GE theme citizenship for div and just wrld course.			
3269	Eastern Europe in the 20th Century	U	3
Survey of East European history from World War I to the post-communist era. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.			
3270	History of World War I	U	3
Origins, conduct, and consequences of the First World War in global context. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.			
3273	Modernist Thought & Culture, 1880-1945	U	3
This is a team-taught course that surveys modern Western cultural history and its revolutionary developments in physics, genetics, philosophy, psychiatry, visual art, architecture, music, dance, and literature. The team-teaching format ensures that students will have the opportunity to approach modernist ideas and forms of expression from more than one disciplinary perspective. Prereq: English 1110 and any History 2000-level course, or permission of instructor. Not open to students with credit for English 3273. Cross-listed in English.			
3276	European Thought and Culture, 19th Century	U	3
European cultural developments in 19th century: romanticism, realism, existentialism: Shelley, Flaubert, Dostoevsky, Darwin, Marx, Nietzsche. Prereq: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.			
3277	European Thought and Culture, 20th Century	U	3
Major developments in 20th century literature, philosophy, science, and the arts. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 2261. GE historical study course. GE foundation historical and cultural studies course.			
3281	Imperial Russia	U	3
This course examines the history of the Russian empire from the reigns of Peter the Great and Catherine the Great through the fall of the imperial system during the 1917 Revolution, with particular emphasis on the idea of citizenship in the Russian state and empire. GE historical study and diversity global studies course. GE theme citizenship for div and just wrld course.			
3282	History of the Soviet Union	U	3
History of the Soviet Union from the Russian Revolution of 1917 to the collapse of communism in 1991. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
3301	History of Modern West Africa, post 1800	U	3
History of Modern West Africa since 1800; examines West African history from the era of European conquests to the present. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. GE historical study and diversity global studies course.			
3302	Nationalism, Socialism, and Revolution in Africa	U	3
Nationalist and revolutionary movements and governments in Africa 1950s to present. Socialist, revolutionary, and nationalist strategies for state-formation, social reform, and economic development. Sometimes this course is offered in distance only. Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course.			
3304	History of Islam in Africa	U	3
Africa from the emergence of Islam in the 600s to the Present. African contributions to Islam and the impact of Islam on African societies. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for AfAmAST 3304 (541). GE historical study course. Cross-listed in AfAmAST.			
3306	History of African Christianity	U	3
The development of Christianity in Africa from antiquity to the present; Christianity's interaction with Islam and indigenous religions; Mission Christianity and its aftermath. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. GE historical study and diversity global studies course.			
3307	History of African Health and Healing	U	3
African approaches to health and healing; interaction between religion, culture and healing; intersections and contradictions between African and Western concepts of health healing. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course.			
3308	History of US - Africa Relations, 1900 - Present	U	3
History of the United States' relations with Africa since World War I. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. Not open to students with credit for AfAmAST 3308. GE historical study and diversity global studies course. Cross-listed in AfAmAST.			
3310	History of African Cinema	U	3
Emergence and development of African cinema as a film genre and part of material culture. European colonial and ethnographic film to modern African cinema. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for AfAmAST 3320. GE historical study and diversity global studies course. Cross-listed in AfAmAST 3320.			

232 History

3312	Africa & World War II	U	3		3405	Contemporary China 1921-2000	U	3
	This course will focus on the oft-neglected African dimension of WWII. The course will explore the importance of Africans as soldiers and producers; the effects of WWII on class, race, and gender relations within the continent; and the importance of WWII in provoking crises in colonial empires and transforming the nature of political mobilization across the African continent. Prereq: English 1110.xx, or permission of instructor. GE historical study course.					History of Contemporary China from 1921 to 2000; emphasis on Communist Party, state and society (politics, military affairs, economics, social structure, and culture). Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.		
3313	Conflict in the Horn of Africa	U	3		3410	Studies in Chinese History	U	3
	This course will explore conflict in the Horn of Africa, a region that has been embroiled in interlocking civil wars, ethnic and religious conflicts, territorial disputes, and the disintegration of the nation states for many years. It will examine the root causes, the nature, and the impact of these conflicts on local communities as well as their regional and international implications. Prereq: English 1110.xx, or permission of instructor. GE historical study course.					Topics and issues in any period of Chinese history contingent on interests of faculty and students; usually this course emphasizes readings and discussions. Prereq or concur: English 1110.xx, or permission of instructor. Repeatable to a maximum of 9 or hrs. GE historical study and diversity global studies course.		
3314	From Rubber to Coltan: A Long History of Violence and Exploitation in Central Africa	U	3		3411	Gender and Sexuality in China	U	3
	This course will explore how the histories of economic exploitation, political authoritarianism, and the supposedly ethnic conflict in the central Africa region are intertwined, and how seemingly local conflicts have global roots. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course.					Introduction to gender and sexuality in China, including Confucian gender ideology, changes in marriage, family, sexual morality, and work from pre-modern to modern period. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity global studies course.		
3351	Intellectual and Social Movements in the Muslim World	U	3		3425	History of Japan Before 1800	U	3
	Upper-level lecture/discussion course on significant intellectual and social movements in the Middle East and vicinity from the advent of Islam to the present. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE theme citizenship for div and just wrld course.					History of Japan to 19th century; emphasis on religion, politics, economic development, social structure and culture. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.		
3352	Marginal Groups in the Non-Western World	U	3		3426	History of Modern Japan	U	3
	An examination of selected marginal populations, who may include religious and/or ethnic minorities, women, slaves, eunuchs, those with physical disabilities, and geographically isolated groups. Prereq or concur: Any 2000-level History course, and English 1110.xx; or permission of instructor. GE historical study course.					Japanese history since 1800: politics, economics, intellectual change, foreign relations. International scientific, technological and cultural interaction, World War II, Japanese contributions to global culture featured. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.		
3354	Islamic Spain and North Africa	U	3		3436	History of Modern Korea	U	3
	Lecture/discussion course examining Spain and North Africa under Islamic rule, from the Muslim conquests of the early 7th century through the early 19th century. Prereq or concur: English 1110 or equiv, or permission of instructor. GE historical study course.					Modern Korean History, with focus on the legacy of colonialism, the Korean War, the impact of the Cold War, divided Korea, the growth of competing national ideologies and economic systems, and the recent military crises. Sometimes taught at distance. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. GE historical study and diversity global studies course.		
3355	The Early Islamic Conquests (GE 630-750)	U	3		3450	History of Ancient Israel (to 300 BCE)	U	3
	Utilizing new historical methods for reading and interpreting the sparse contemporary and near contemporary testimonies for this historical period, this course explores how these testimonies, both Muslim and non-Muslim, continue to challenge historians to revise the history of the Islamic conquests. In this course a strong focus is placed on reading primary source materials in translation. Prereq: Not open to students with credit for Islam 3355. GE historical study and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in Islam.					Survey of the history and historiography of Israel from its origins to the advent of Hellenism. Prereq: English 1110.xx, and any History 2000-level course; or permission of instructor. Not open to students with credit for 530.01 or JewshSt 3450. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in JewshSt.		
3357	The Middle East in the 19th Century	U	3		3465	American Jewish History	U	3
	Lecture and discussion course examining the transformations wrought by westernizing reforms and European imperialism in the Middle East during the 19th century. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. Not open to students with credit for 3350 or 540.04. GE historical study course.					Study of topics in American Jewish history from the colonial era to the present. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. Not open to students with credit for JewshSt 3465. GE historical study course. GE theme migration, mobility, and immobility course. Cross-listed in JewshSt.		
3365	History of Afghanistan	U	3		3475	History of the Arab-Israeli Conflict	U	3
	This course will address Afghan society, its historical foundations, and the challenges that confront it. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course.					This course follows the history of the Arab-Israeli conflict from its inception in the late 19th century to the early 21st century. Course materials include secondary historical sources, a variety of primary documents, short stories, memoirs and films. These materials will provide students with an in-depth understanding of the history of the conflict from multiple perspectives. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE cultures and ideas and historical study course. GE theme traditions, cultures, and transformations course.		
3375	Mongol World Empire: Central Eurasia, 1000-1500	U	3		3480	Israel/Palestine: History of the Present	U	3
	This course will address the social, cultural, and political history of medieval Central Eurasia, focusing on the Mongol Empire and its legacy. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study and diversity global studies course. GE theme traditions, cultures, and transformations course.					The course will enable students to reflect on the ways in which the past informs interpretations of the present and the ways in which the present informs interpretations of the past. The course will adopt a broad definition of the "present", investigating the Israeli-Palestinian conflict primarily against the background of the collapse of the Oslo peace process in the early 2000s. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for JewshSt 3480. GE theme citizenship for div and just wrld course. Cross-listed with JewshSt.		
3376	The Silk Road: Cross-Cultural Exchanges in Eurasian History	U	3		3500	U.S. Diplomacy from Independence to 1920	U	3
	A study of the commercial and cultural relations among Chinese, Indian, Iranian, and Roman/Islamic civilizations. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study and diversity global studies course. GE theme migration, mobility, and immobility course.					The formulation of U.S. foreign policy and foreign relations around the world from the independence of the republic to the aftermath of World War I. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study course.		
3401	Foundations of Chinese Civilization	U	3		3501	U.S. Diplomacy, 1920-Present	U	3
	Cross-era comparative development of thoughts, beliefs, culture, economy, and political system through the Tang (618-907) that shaped China's later history and role in East Asia. Prereq or concur: English 1110 or equiv, and course work in History at the 2000 level, or permission of instructor. Not open to students with credit for 342. GE historical study course.					The formulation of U.S. foreign policy and foreign relations around the world from the aftermath of World War I to the modern day. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. GE historical study course. GE theme citizenship for div and just wrld course.		
3403	History of Early Modern China: 14th-18th century	U	3					
	Introduction to political, social, cultural, and economic developments from 14th to 18th century, mainly the Ming and early Qing dynasty. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.							
3404	Modern China 1750-1949	U	3					
	History of Modern China, circa 1750 to 1949; emphasis on state and society (politics, military affairs, economics, social structure, and culture). Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.							

3505	U.S. Diplomacy in the Middle East	U	3
Survey of U.S. foreign policy in the Middle East emphasizing the Cold War, Arab-Israeli conflict, Iran, and wars against Iraq. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for JewshSt 3505. GE historical study and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in JewshSt.			
3506	Diplomacy, Congress, and the Imperial Presidency	U	3
This class will explore how the relationship between the branches of government in the United States have evolved over the last 100 years, and how thinking historically can shape contemporary discussions of policy. We'll consider the separation of powers, and how historical precedents have elaborated, challenged, and codified the vague outline defined in the Constitution. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.			
3540	Modern Intelligence History	U	3
This course examines the role of diplomatic and military intelligence in the making of policy in modern history. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.			
3550	War in World History, 500-1650	U	3
Study of the causes, conduct, and consequences of warfare around the world, 500-1650. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study and diversity global studies course.			
3551	War in World History, 1651-1899	U	3
Study of the causes, conduct, and consequences of warfare around the world, 1650-1900. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study course.			
3552	War in World History, 1900 - Present	U	3
Study of the causes, conduct, and consequences of warfare around the world, 1900-present. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for 580.02. GE historical study course.			
3560	American Military History, 1607-1902	U	3
American military history, 1607-1902; emphasis on the formation of national security policy, war-waging, and the reciprocal impact of society and military institutions. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study course.			
3561	Citizenship and American Military History: 1902 to the Present	U	3
This course examines how uniformed service impacted Americans' conception of citizenship from the aftermath of the Spanish-American War through the wars in Afghanistan and Iraq after the terrorist attack on the U.S. homeland on September 11, 2001. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE theme citizenship for div and just world course.			
3570	World War II	U	3
Study of the causes, conduct, and consequences of World War II. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity global studies course. GE foundation historical and cultural studies course.			
3575	The Korean War	U	3
This course will show how the often overlooked Korean War proved to be a critical moment in modern world history. Rooted in themes in Asian and American history from before the 20th century, this course places the Korean War conflict within a longer framework of East Asian struggles against western influence and within a broader international context. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy course, or permission of instructor. GE historical study course. GE foundation historical and cultural studies course.			
3580	The Vietnam War	U	3
Study of the background, causes, conduct, and consequences of the Vietnam War, 1945-1975. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study and diversity global studies course. GE theme traditions, cultures, and transformations course.			
3590	Wars of Empire and Decolonization	U	3
This course examines the means, methods, challenges and results of military encounters between modern imperial powers and indigenous forces they met on the battlefield. Prereq or concur: English 1110.xx, completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE theme citizenship for div and just wrld course.			
3600	Studies in Women's and Gender History	U	3
In-depth analysis of selected topics in American, European, and/or Third World women's history; topic varies by semester. Prereq: English 1110.xx, or permission of instructor. Repeatable to a maximum of 12 or hrs. GE historical study course.			

3612	Asian American Women: Race, Sex, & Representations	U	3
Examines the experiences and cultural representations of Asian American women for insight into race, gender, sexuality, and citizenship in U.S. society. Sometimes this course is offered in a distance-only format. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. GE historical study and diversity soc div in the US course. Cross-listed in WGSSSt 4401.			
3620	Lesbian, Gay, Bisexual, and Transgender History in the United States, 1940-Present	U	3
An overview of LGBT culture and history in the U.S. from 1940 to the present. Students will examine changes in LGBT lives and experiences during the last half of the 20th century and the beginning of the 21st century, as well as the intersections of race, sexuality, and class, and how these categories have affected sexual minority communities and broader US law and culture. Prereq: English 1110.xx, or permission of instructor. GE historical study and diversity soc div in the US course. GE foundation race, ethnicity and gender div course.			
3640	Women: Navigating the Patriarchy in Medieval Europe	U	3
Investigation of the lives and experiences of medieval European women, with special focus on political power, religious life, work, and family life. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE theme traditions, cultures, and transformations course.			
3641	Women and Gender in Early Modern Europe (1450-1750): Diversity in Context	U	3
Investigation of the lives and experiences of early modern European women, with special focus on family life, gender, work, education, religious life, and political power. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE foundation historical and cultural studies and race, ethnicity and gender div course.			
3642	Women and Gender in Modern Europe (1750-1950): Diversity in Context	U	3
An introduction to the history of women and gender in Europe, from approximately 1750 to the 1950s, with a focus on the intersecting categories of race, ethnicity and class. We will explore the ways women have been perceived, defined, and categorized as a gender, and how they have both lived within and rebelled against these societal and cultural norms and restrictions. GE historical study course. GE foundation historical and cultural studies and race, ethnicity and gender div course.			
3650	Families in Historical Perspective	U	3
Comparative and transnational analysis of family history. Focus on questions of gender, sexuality, culture, religion, and economy as they intersect with families and households. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 527. GE historical study course.			
3670	Trans-National History of World War II in Europe	U	3
One of three Spring prerequisite courses to the World War II Study Program's May term in Europe. Only students accepted into the program during the October registration period may enroll. This class will deepen the contextual knowledge of students about the different national histories and the specific sites they will encounter in May. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. Students must be accepted into the WWII Study Abroad program for the upcoming 'May' term. GE historical study course. GE theme citizenship for div and just wrld course.			
3675	How to Stage a Revolution	U	3
Compares revolutionary movements in order to help explain why some fail and some succeed. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity global studies course.			
3676	Leadership in History	U	3
This course employs the lessons, models, and narratives of history to consider different characteristics of leadership and analyze how those qualities might shape students' own vision of what it means to be an informed citizen, leader, and follower. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE theme citizenship for div and just wrld course.			
3680	Religion and Law in Comparative Perspective	U	3
Comparative, interdisciplinary approach to studying religion and law. Drawing on concrete cases, historical studies, and theoretical literature, the course explores how the relationship between religion and law has been configured differently in different liberal democracies, such as the U.S., France, and Israel, and what this might mean for contemporary debates. Prereq: Not open to students with credit for RelStds 3680. GE historical study and diversity global studies course. GE theme citizenship for div and just wrld course. Cross-listed in RelStds.			
3700	American Environmental History	U	3
The history of American ecosystems from the last Ice Age to the present; focuses on historical debates over the causes and consequences of environmental change. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study course.			
3701	History of American Medicine	U	3
Survey of the history of American medicine from the Colonial period through the twentieth century. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy course, or permission of instructor. GE historical study course. GE theme health and well-being course.			

234 History

3702 Digital History U 3

This course is a survey of the ways digital technology is impacting history: from the collection and preservation of primary sources, to the analysis of those documents with the aid of algorithms, to the representation of the past through digital means. Students will read and reflect upon important works in digital history, as well as engage in the process of creating digital history. Prereq: English 1110.xx, or permission of instructor. GE historical studies course. GE foundation historical and cultural studies course.

3704 HIV: From Microbiology to Macrohistory U 4

This course is an interdisciplinary exploration of HIV/AIDS, tracing the evolution of the virus at both the molecular level and within its global historical context. This course is team-taught by a virologist and a historian. Prereq: Not open to students with credit for Micrbio 3704. GE theme origins and evolution course. Cross-listed in Micrbio.

3706 Coca-Cola Globalization: The History of American Business and Global Environmental Change 1800-Today U 3

This course offers an introduction to the fields of environmental history and business history, beginning with the industrial revolution of the early nineteenth century and ending in the twenty-first century. It chronicles the rise of some of America's biggest multinational corporations and examines how these firms, working with governments and other institutions, shaped global change. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study and diversity soc div in the US course. GE theme sustainability course.

3708 Vaccines: A Global History U 4

This course examines the history and biology of vaccines. We explore the discovery and development of vaccines, along with the political and cultural controversies that have surrounded them for centuries. Team-taught course with faculty member in Pharmacy. Prereq: Not open to students with credit for Phr 3708. GE historical study course. GE theme health and well-being course. Cross-listed in Phr.

3711 Science and Society in Europe, from Copernicus to Newton U 3

A survey of the history of science and its place and relationship to European society in the early modern period. Students will understand the various strands that constitute the scientific revolution in early modern Europe, modern intellectual history, how revolutions in thought occur, and will practice analytical and communications skills in working with both secondary and primary sources. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. GE historical study course. GE theme number, nature, mind course.

3712 Science and Society in Europe, from Newton to Hawking U 3

The history of science from the eighteenth through to the late twentieth century. Students will study major developments in the physical, geological, biological and chemical sciences, and the relation of the history of science to social, economic, political and cultural developments in European history. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, or permission of instructor. GE historical study course. GE theme citizenship for div and just wrld course.

3715 Explorations of Science, Technology and the Environment in East Asia U 3

Case studies in the Development of Science, Technology and Environmental Change in the East Asian context, pre-modern to modern times. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. Not open to students with credit for 587.02. GE historical study and diversity global studies course.

3720 The Corrupting Sea: The Environmental History of the Ancient Mediterranean U 3

A historical examination of interactions between the environment and human activity in the ancient Mediterranean. Prereq or concur: English 1110.xx, or GE Foundation Writing and Information Literacy course, or permission of instructor. Not open to students with credit for Clas 3720. GE historical study and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in Clas.

3724 History of the Arctic U 3

This course will introduce students to the history, geography, culture, ethnic diversity, inter-communal relations, economy, and strategic importance of the planet's Arctic regions, from arrival of humans to the region to the present. Prereq or concur: English 1110.xx, or permission of instructor. GE historical study and diversity global studies course.

3797 Study at a Foreign Institution U 1-6

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: English 1110 or equiv, and course work in History at the 2000 level, or permission of instructor. Repeatable to a maximum of 27 cr hrs or 9 completions.

3798.01 Study Tour U 1-6

Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: English 1110.xx and any History 2000-level course, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.

3798.02 The U.S., Europe, and the Second World War: Intersections in 20th Century History U 3

Study Tour in Europe exploring the history of World War II, the United States, and Europe. Prereq: English 1110.xx, History 3015, 3570, 4795, and French 3801; or permission of instructor. GE historical study and diversity global studies and education abroad course.

3798.03 Shanghai, 1750 to 2050: History, Culture, and Language U 3

This is a Study Abroad course offered in the 4-Week May Session that traces the evolution of plural (cultural, religious, political, and national) identities in France and North Africa, focusing on shared histories and tensions between the two countries. GE historical study and diversity global studies course. GE theme traditions, cultures, and transformations course.

4005 Seminar in Early American History U 3

Advanced research and readings on selected topics in Early American History. Prereq or concur: A grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4015 Seminar in Modern U.S. History U 3

Advanced research and writing on selected topics in Modern U.S. History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4015E Embedded Honors Seminar in Modern U.S. History U 3

Advanced research and readings on selected topics in Modern U.S. History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4015H Honors Seminar in Modern U.S. History U 3

Advanced research and readings on selected topics in Modern U.S. History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4085 Seminar in African American History U 3

Advanced research and readings on selected topics in African American History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4085E Embedded Honors Seminar in African American History U 3

Advanced research and readings on selected topics in African American History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4125 Seminar in Latin American History U 3

Advanced research and readings on selected topics in Latin American History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4125E Embedded Honors Seminar in Latin American History U 3

Advanced research and readings on selected topics in Latin American History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.

4193.01 Individual Studies U 1-6

Individual study in some field of historical development; designed to allow the student to work on a problem of particular interest. Prereq: English 1110.xx and any History 3000-level course, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions.

4193.02 Individual Studies U 1-6

Individual study in some field of historical development; designed to allow the student to work on a problem of particular interest. Prereq: English 1110.xx and any History 3000-level course, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.

4194 Advanced Undergraduate Group Studies U 1-6

Advanced Undergraduate Group Studies. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110 or equiv, and course work in History at the 3000 level, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.

4215 Seminar in Greek History	U	3	4475E Embedded Honors Seminar in Jewish History	U	3
Advanced research and readings on selected topics in Greek History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in Jewish History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4216 Seminar in Roman History	U	3	4525 Seminar in International History	U	3
Advanced research and readings on selected topics in Roman History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in International History. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4216E Embedded Honors Seminar in Roman History	U	3	4525E Embedded Honors Seminar in International History	U	3
Advanced research and readings on selected topics in Roman History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in International History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4216H Honors Seminar in Roman History	U	3	4575 Seminar in Military History	U	3
Advanced research and readings on selected topics in Roman History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in Military History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4217 Seminar in Late Antiquity	U	3	4625 Seminar in Women's/Gender History	U	3
Advanced research and readings on selected topics in Late Antiquity. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in Women's/Gender History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4245 Seminar in Early Modern European History	U	3	4625E E Honors Seminar in Women's/Gender History	U	3
Advanced research and readings on selected topics in Early Modern European History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in Women's/Gender History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4255 Seminar in Modern European History	U	3	4625H Honors Seminar in Women's/Gender History	U	3
Advanced research and readings on selected topics in Modern European History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in Women's/Gender History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4255E E Honors Seminar in Modern European History	U	3	4675 Seminar in World/Global/Transnational History	U	3
Advanced research and readings on selected topics in Modern European History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in World/Global/Transnational History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4255H Honors Seminar in Modern European History	U	3	4705 Seminar in the History of Environment, Technology, and Science	U	3
Advanced research and readings on selected topics in Modern European History. Prereq or concur: Honors standing, English 1110.xx, a C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in Environmental History, Technology and Science. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4285 Seminar in Russian, East European and Eurasian History	U	3	4706 Chronic: Illness, Injury, and Disability in Modern History	U	3
Advanced research and readings on selected topics in Russian, E European and Eurasian History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor. GE theme health and well-being course. Cross-listed in Athrop.		
4325 Seminar in African History	U	3	4795 Seminar in History	U	3
Advanced research and readings on selected topics in African History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Advanced research and readings on selected topics in History. Prereq or concur: English 1110.xx or completion of GE Foundation Writing and Information Literacy Course, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.		
4325E Embedded Honors Seminar in African History	U	3	4797 Study at a Foreign Institution	U	1 - 6
Advanced research and readings on selected topics in African History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq or concur: Any 3000-level History course, and English 1110.xx; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.		
4375 Seminar in Islamic History	U	3	4798 Study Tour	U	1 - 6
Advanced research and readings on selected topics in Islamic History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq or concur: Any 3000-level History course, and English 1110.xx; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.		
4410 Seminar in Chinese History	U	3	4870 The Ohio State University: Its History and Its World	U	3
Advanced research and readings on selected topics in Chinese History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			An introduction to the past and present of OSU, its importance, its disciplines, the interrelations of the academic and other components of the institution, and the contributions over the years of OSU to the wider world. Prereq: Not open to students with credit for ArtsSci 4870. GE cultures and ideas course. GE foundation historical and cultural studies course. Cross-listed in ArtsSci.		
4430 Seminar in Japanese History	U	3	4998 Undergraduate Research in History	U	1 - 6
Advanced research and readings on selected topics in Japanese History. Prereq or concur: English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Undergraduate research in history. Prereq or concur: Any 3000-level History course, and English 1110.xx, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.		
4430E Embedded Honors Seminar in Japanese History	U	3	4998E Honors Undergraduate Research in History	U	1 - 6
Advanced research and readings on selected topics in Japanese History. Prereq or concur: Honors standing, English 1110.xx, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.			Honors undergraduate research in History. Prereq or concur: Honors standing, and any 3000-level History course, and English 1110.xx, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.		
4475 Seminar in Jewish History	U	3			
Advanced research and readings on selected topics in Jewish History. Prereq or concur: English 1110.xx, or GE foundation writing and info literacy course, a grade of C or above in History 2800, and any 3000-level History course; or permission of instructor.					

236 History

4998H Honors Undergraduate Research in History U 1 - 6

Honors undergraduate research in History. Prereq or concur: Honors standing, and any 3000-level History course, and English 1110.xx, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

4999 Undergraduate Research Thesis U 1 - 6

Informal conferences to allow full scope to the initiative of the student; a special topic is assigned and results are tested by papers and special examinations. Prereq or concur: Any 3000-level History course, and English 1110.xx, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.

4999H Honors Undergraduate Research Thesis U 1 - 6

Informal conferences to allow full scope to the initiative of the student; a special topic is assigned and results are tested by papers and special examinations. Prereq or concur: Honors standing, and any 3000-level History course, and English 1110.xx; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

5080 Special Topics in African American History U G 3

Advanced course in African American History. Topics Vary. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.

5194 Combined Undergrad and Grad Group Studies U G 1 - 6

The investigation of particular problems in various fields of History. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.

5212 Special Topics in Late Antique History U G 3

Advanced course in Late Antique History. Topics Vary. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs.

5229 Special Topics in Ancient Christianity U G 3

Advanced course in the History of Ancient Christianity. Topics Vary. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs.

Students will pay attention to multiple definitions and changing understandings of Europe, teasing out the evolution in European identities in the last 30 years. Fundamentally, this is a class about what it means to be European, which allows students to learn about the multiple meanings, manifestations, and interpretations of citizenship. Prereq or concur: English 1110.xx, or Grad standing, or permission of instructor. GE theme citizenship for div and just wrld course.

5300 Special Topics in African History U G 3

Advanced course in African History. Topics Vary. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs.

5650 Special Topics in World/Global/Transnational History U G 3

Advanced course in World/Global/Transnational History. Topics Vary. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs.

5700 Special Topics in the History of Environment, Technology, and Science U G 3

Advanced course in the History of Environment, Technology, and Science. Topics Vary. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs.

5710 History of Anatomy U G 3

This course examines the history of anatomy as a way of categorizing and explaining the relationships of parts to wholes in once living creatures, notably human beings. We focus on the history of anatomical observations, education, modes of communication, and professionalization. Team-taught course with faculty member in Anatomy. Prereq: Anatomy 2220, 2300, or 3300; or Grad standing; or permission of both instructors. Cross-listed in Anatomy.

5900 Introduction to Quantitative Methods in History U G 3

Prepares students to use quantitative methods in historical research and to take intermediate courses in statistics and data analysis. Prereq or concur: Any 3000-level History course, and English 1110.xx; or Grad standing; or permission of instructor. Not open to students with credit for 596. GE data analysis course.

6193.01 Independent Study in History G 1 - 6

The investigation of particular problems in various fields of history through graduate-level individual studies. Prereq: Grad standing. Not open to students with credit for 791. Repeatable to a maximum of 15 cr hrs or 5 completions.

6193.02 Independent Study in History G 1 - 6

The investigation of particular problems in various fields of history through graduate-level individual studies. Prereq: Grad standing. Not open to students with credit for 791. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

6194 Graduate Group Studies G 1 - 6

The investigation of particular problems in various fields of history. Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs or 4 completions.

6999 Master's Thesis Research G 1 - 12

Research for Master's thesis. Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs or 3 completions. This course is graded S/U.

7000 Studies in Early American History to 1877 G 1 - 6

Graduate readings in selected topics in Early American history to 1877. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7001 Graduate Readings in Colonial America G 1 - 6

Readings in the historical literatures of Colonial America in its Atlantic World context to 1763. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7011 Historiography of Modern U.S. I G 1 - 6

Readings in Modern US history, 1877-1945. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7012 Historiography of Modern U.S. II G 3

Readings in Modern US history, 1945 to present. Prereqs: Undergrad requires permission of instructor. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.

7014 Studies in American Urban History G 1 - 6

Graduate Reading Seminar in American Urban History. Chronology and Themes will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7080 Studies in African American History G 1 - 6

Readings in black culture, society, politics, and race relations. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in AfAmAST.

7086 The Civil Rights and Black Power Movements G 1 - 6

This course examines the origins, evolution, and outcomes of the African American freedom struggle, focusing on the Civil Rights and Black Power movements. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in AAAS 7086.

7087 Black Women in the United States G 1 - 6

A study of historical and related scholarship on the history and experience of black women in the United States. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in AfAmAST.

7090 Atlantic World History G 1 - 6

Colloquium on Atlantic World History from the 15th century through the early 19th century. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in AAAS 7090.

7100 Studies in Latin American History G 1 - 6

An intensive study of problems in selected periods of Latin American history. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7193.01 Independent Study in History G 1 - 6

The investigation of particular problems in various fields of history through graduate-level individual studies. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7193.02 Independent Study in History G 1 - 6

The investigation of particular problems in various fields of history through graduate-level individual studies. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

7230 Studies in Medieval History G 1 - 6

Advanced reading course in sources and monographs on the principal issues and problems in medieval history, with a stress on bibliography. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7255 Studies in 20th Century European History G 1 - 6

This intensive reading course is designed to give graduate students an introduction to historiographical questions in 20th-century European history. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

7275 Studies in Eastern European History G 1 - 6

Selected topics in Eastern European political, social, cultural, and intellectual history and historiography; theoretical and comparative emphasis. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

Readings course for graduate students focusing on the history of women and gender. The course content will be international, emphasizing cross-cultural comparisons. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7650	Studies in World History	G	1 - 6
Analysis of seminal works and concepts in the development of global-scaled integrative approaches to world history. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7680	Studies in the History of Children, Childhood and Youth	G	3
Readings course focusing on the history of children, childhood and youth. The course content will be international, emphasizing cross-temporal and cross-cultural comparisons. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			
7700	Graduate Readings in Environmental History	G	1 - 6
Graduate level readings course in the historiography and key themes in environmental history. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7705	Graduate Readings in the History of Technology	G	1 - 6
Graduate level readings in the history of technology. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			

7711	Graduate Readings in the History of Medicine and Health	G	3
A graduate readings course that introduces students to the history of medicine and health as a historical field and will explore how work in the history of medicine and health intersects with scholarly insights in other fields. Prereq: Grad standing.			
7725	Graduate Readings In Power, Culture and State	G	1 - 6
Graduate readings in comparative topics in power, culture, and the state. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7750	Comparative Historiographies and Theories in Race, Ethnicity, and Nation	G	3
Graduate reading course that examines the historical scholarship and theories in race, ethnicity, and nation in comparative geographical and chronological contexts. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			
7755	The History of the Idea of Race in Europe	G	1 - 6
Examines the use and abuse of ideas of race in Western Europe from the Enlightenment to the present. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7797	Study at a Foreign Institution	G	1 - 6
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Grad standing, and permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7800	Introduction to Public History	G	1 - 6
Survey of the field of Public History. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7801	Independent Study in Public History	G	1 - 6
Permits individual students, or small groups of students to pursue independent work in public history with a faculty sponsor. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
7900	Colloquium in Historiography and Critical Theory	G	3
Colloquium on the principles of historical thought, historiography, critical theory, and methods of historical research. Prereq: Grad standing.			
7901	Digital History	G	3
Graduate seminar on digital history, focusing on data/text analytics, mapping, network analysis and visualization. Introduces ways in which digital technologies are impacting the history discipline and changing practices, from the collection and preservation of primary sources, to the analysis of those documents with the aid of algorithms, to the representation of the past through digital means. Prereq: Grad standing.			
7902	Graduate Colloquium on Historical Writing	G	1 - 6
Designed to develop skills in historical writing. Prereq: Grad standing.			
7905	Graduate Pedagogy	G	3
Basic ideas and techniques for effective teaching of college history; emphasis on classroom application and teaching in the 21st century. Prereq: Grad standing.			
7906	Professionalization and the Discipline of History	G	3
This courses addresses pedagogical challenges History doctoral students will face in their teaching. The course will provide resources, guidance, and a supportive setting for graduate students to make steady gains in their teaching, and will provide formal teaching preparation for History courses. Prereq: Grad standing.			
7910	Prospectus Writing & Professional Development	G	3
Seminar dedicated to researching and writing Dissertation Prospectus. Also review of professional development skills: grant writing, building a resume and planning a career, how to write and present a conference paper, book reviews. Prereq: Grad standing. This course is graded S/U.			
8000	Seminar in Early American History to 1877	G	3
Graduate Research Seminar in Early American History to 1877. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			
8010	Seminar in Modern U.S. History	G	3
Graduate Research Seminar in Modern U.S. History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			
8100	Seminar in Latin American History	G	3
Graduate Research Seminar in Latin American History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			
8193.01	Independent Study in History	G	1 - 6
The investigation of particular problems in various fields of history through graduate doctoral-level individual studies. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8230	Seminar in Medieval History	G	3
Graduate Research Seminar in Medieval History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			
8250	Seminar in Modern European History	G	3
Graduate Research Seminar in Modern European History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.			

238 History

8280 Seminar in Russian, East European and Eurasian History G 1 - 6

Graduate Research Seminar in Russian, East European, and Eurasian History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8300 Seminar in African History G 1 - 6

Graduate Research Seminar in African History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions. Cross-listed in AAAS 8300.

8400 Seminar in East Asian History G 1 - 6

Graduate Research Seminar in East Asian History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8410 Chinese History Research Methodology G 1 - 6

Introduction to sources and methods in Chinese historical research (pre-modern and modern periods). Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8550 Seminar in Military History G 3

Graduate Research Seminar in Military History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.

8630 Seminar in the history of Sexuality G 1 - 6

Graduate Research Seminar in the History of Sexuality. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8650 Seminar in World/Global/Transnational History G 1 - 6

Graduate Research Seminar in World/Global/Transnational History. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8700 Seminar in Environmental History, Technology and Science G 1 - 6

Graduate Research Seminar in the History of Environment, Technology, and Science. Topics will vary. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8801 Seminar in History G 1 - 6

Graduate Research Seminar in History. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs or 5 completions.

8999 Dissertation Research G 1 - 12

Research for dissertation. Prereq: Grad standing. Repeatable. This course is graded S/U.

History of Art

2001 Western Art I: Ancient and Medieval Worlds U 3

Examination of the history of Western Art from the third millennium BCE to the fifteenth century CE. This course is available for EM credit. GE VPA and historical study and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.

2001H Western Art I: Ancient and Medieval Worlds U 3

Examination of the history of Western Art from the third millennium BCE to the fifteenth century CE. Prereq: Honors standing, or by permission of dept or instructor. Not open to students with credit for 201, 201H, 210, or 210H. This course is available for EM credit. GE VPA and historical study and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course. VSP Admis Cond course.

2002 Western Art II: The Renaissance to the Present U 3

Examination of the history of art in Europe and the United States, from 1400 to the present. This course is available for EM credit. GE VPA and historical study and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.

2002H Western Art II: The Renaissance to the Present U 3

Examination of the history of art in Europe and the United States, from 1400 to the present. Prereq: Honors standing, or by permission of dept or instructor. GE VPA or historical study and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.

2003 The Art and Visual Culture of East Asia U 3

Art of East Asian cultures from ancient through contemporary times. Prereq: Not open to students with credit for 2003H. GE VPA and historical study and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.

2003H The Art and Visual Culture of East Asia U 3

Art of East Asian cultures from ancient through contemporary times. Prereq: Honors standing. Not open to students with credit for 2003 (213). GE VPA and historical study and and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.

2005 History of Latin American Art: Prehispanic and Early Modern U 3

Examines the art of Latin America from about 1500 BC to 1821, surveying both prehispanic civilizations as well as the era of Spanish and Portuguese rule from first encounters in 1492 to the wars of independence in the early nineteenth century. A wide range of objects and images will be discussed, from painting, sculpture, and architecture to ceramics, featherwork, and textiles. GE VPA and historical study course. GE foundation lit, vis and performing arts and historical and cultural studies course.

2101 Introduction to African Art and Archaeology U 3

The Art and Archaeology of Africa with emphasis on the historic cultures of Rock Art (8,000 B.C.), Egypt (3,000 B.C.), Nok (900 B.C.), Igbo-Ukwu (695 A.D.), Ife (1200 A.D.), and Benin (1400-1900 A.D.). Prereq: Not open to students with credit for 216 or AfAmAST 2101. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course. VSP Admis Cond course. Cross-listed in AfAmAST.

2194 Group Studies U 1 - 3

The investigation of particular problems in various fields of the history of art. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.

2301 Classical Archaeology U 3

Introduction to the principles, methods, and history of archaeological investigation in the ancient Greek and Roman world, illustrated through a selection of major classical sites. Prereq: Not open to students with credit for Clas 2301 or History 2210. GE cultures and ideas and historical study and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in Clas 2301 and History 2210.

2901 Introduction to World Cinema U 3

Chronological survey of the most influential and recognized film artists and film movements of the world. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.

3002 The History of Western Architecture U 3

Major buildings of Western Civilization from antiquity to the present in their historical and cultural contexts. Prereq: Not open to students with credit for 250, or 300, or more than one course from 2001-2002 (201-202) or from 210-212 sequences, or Arch 1220 (201), or any course from Arch 5110-5120 (600-602) sequence. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.

3005 Christian Art U 3

An introduction to the wide range of forms and functions of Christian images and spaces from the origin until 1700. Prereq: Soph standing. Not open to students with credit for 301. GE VPA course.

3010 Gender and Sexuality in European Art U 3

This course offers an introduction to the intersectional study of European Art, exploring the intertwining ideologies of gender, sexuality, race, and ethnicity from the Ancient Mediterranean World to the Twentieth Century. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course.

3010H Gender and Sexuality in Western Art U 3

This course offers an introduction to the intersectional study of European Art, exploring the intertwining ideologies of gender, sexuality, race, and ethnicity from the Ancient Mediterranean World to the Twentieth Century. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course.

3102 Arts and Cultures of Africa and the Diaspora U 3

An overview of African and African diaspora cultures from a historical perspective. Cultural media will include art, literature, film, dance and photography. Prereq: Not open to students with credit for AfAmAST 3376. GE VPA and diversity global studies course. GE theme migration, mobility, and immobility course. Cross-listed in AfAmAST 3376.

3205 Art and Judaism U 3

An exploration of the nature and function of art in ancient Judaism from the standpoints of history, cultural history, and material culture. Prereq: GE foundation writing and info literacy course. Not open to students with credit for JewshSt 3205, 2205, Hebrew 3205, or 2205. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course. Cross-listed in JewshSt.

3211 Art and Civilization in Mesopotamia U 3

This course will provide an overview of the major sites, structures, and artifacts throughout the greater Mesopotamian region from the beginning of the Neolithic revolution through the Parthian and Seleucid periods. GE VPA course. GE foundation lit, vis and performing arts course.

3521 Renaissance Art in Italy U 3

Art and society in Renaissance Italy. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.

3603 Introduction to Modern and Contemporary Latin American Art and Culture U 3

Provides students with an overview of the major trends and movements of Latin American art and culture from the late 19th to the 21st centuries. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.

3605 East West Photography U 3

Investigation of social relations and how they are constructed by photographs with a particular focus on interactions between North America, Asia, and Europe. Prereq: Not open to students with credit for 3605H, EthnStd 3605 or EthnStd 3605H. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course. Cross-listed in EthnStd.

3605H Honors East West Photography U 3

Investigation of social relations and how they are constructed by photographs with a particular focus on interactions between North America, Asia, and Europe. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 3605, EthnStd 3605 or EthnStd 3605H. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course.

3611	Impressionism, Then and Now	U	3
An examination of the emergence and evolution of French Impressionism and its impact on subsequent artistic production from the early 20th century to the present. GE VPA course. GE foundation lit, vis and performing arts course.			
3625H	Abstract Art	U	3
A study of abstraction in modern art. Prereq: Honors standing, or permission of instructor. GE foundation lit, vis and performing arts course.			
3901	World Cinema Today	U	3
An introduction to the art of international cinema today, including its forms and varied content. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.			
3905	The Developing World on Screen	U	4
Exploration of the relationships between the lived environments of the developing world and their representations in film. Prereq: Not open to students with credit for IntStds 3905. GE theme lived environments course. Cross-listed in IntStds.			
4001	Writing Seminar in History of Art	U	3
Training in writing a variety of assignments commonly undertaken by art historians. Prereq: History of Art major or minor.			
4005	An Introduction to Artistic Media and Techniques	U	3
A survey of the major historical and contemporary artistic media and techniques. Prereq: History of Art major or minor; or permission of instructor.			
4010	An Introduction to the Methods and Theories of Art History	U	3
An introduction to the fundamental methods and theories of art historical investigation. Prereq: History of Art major or minor, or permission of instructor.			
4016	Senior Research Seminar in History of Art	U	3
A research seminar required of all History of Art majors designed to develop and perfect their research and writing skills. Prereq: 4001 or 4010; or permission of instructor.			
4020	Special Topics in Architecture	U	3
This is a lecture course, the contents of which would change with each offering. Prereq: 2001 (201), or 2002 (202), or permission of instructor. Repeatable to a maximum of 6 or hrs.			
4030	Museum Studies Seminar	U	3
Provide a hands-on exploration of museum exhibitions and how they shape knowledge in the field.			
4191	Internship in Art History	U	1 - 3
A cooperative education or internship assignment conducted under the supervision of a faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs or 2 completions. This course is graded S/U.			
4193	Individual Studies	U	1 - 3
Individual study in some field of historical development; designed to allow the student to work on a problem of particular interest. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			
4212	Egyptian Art and Archaeology	U	3
A specialized study of the architecture, sculpture, painting, and minor arts of ancient Egypt.			
4301	Art of Ancient Greece and Rome	U	3
Explores the art of Ancient Greece and the Roman world from the early Bronze Age (c. 3000 BCE) through the era of Constantine (337 CE). While focusing on sculpture, painting and architecture, the approach in this course will also employ the methods of a wide variety of disciplines, including art history, archaeology, anthropology, history, epigraphy and Classical philology. Prereq: Not open to students with credit for Clas 4301.			
4411	Early Christian and Byzantine Art	U	3
Art and architecture of the early Christian and Byzantine world from the 3rd through the 15th centuries with special emphasis on the Mediterranean region.			
4421	Medieval Art	U	3
Art and architecture of Europe and the Eastern Mediterranean from the 5th to the 15th centuries; focuses on visual culture of monasteries, cathedrals, and castles. Prereq: Soph standing. Not open to students with credit for 603, 625, 651, 525. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.			
4510	Northern Renaissance Art	U	3
Art of Northern Europe from the late 14th to the mid 16th century, with emphasis on the major masters. Prereq: 2001 (201), or 2002 (202), or permission of instructor. Not open to students with credit for 527 or 627.			
4531	17th-Century Art of the Netherlands	U	3
17th Century Dutch and Belgian art: focuses on major artists and various functions of art (propagating religious beliefs, shaping values, defining identities). Prereq: 2001 (201), 2002 (202), or permission of instructor. Not open to students with credit for 533.			
4541	17th-Century Art of Italy and Spain	U	3
17th century Italian and Spanish art and architecture: focuses on major artists and various functions of art and architecture. Prereq: 2001 (201), or 2002 (202), or permission of instructor. Not open to students with credit for 523 or 631.			

4550	18th-Century European Art	U	3
Artistic trends in eighteenth century Venice, Rome, Paris and London.			
4605	Aspects of Modernity	U	3
Explores questions of the distinctively "modern" in relation both to particular works of art and to various explicit reflections on broader cultural notions of modernity. The content will change with each offering. Prereq: English 1110 (110), and Soph standing. Not open to students with credit for 340. GE VPA course. GE foundation lit, vis and performing arts course.			
4620	Twentieth-Century European Art	U	3
Historical/Conceptual survey of European art of the twentieth century. Prereq: 2002 (202) or 4605 (340), or permission of instructor. Not open to students with credit for 540.			
4621	Twentieth-Century Architecture	U	3
A historical and conceptual survey of architecture from the late 19th century to the beginning of the 21st and portions of the late 21st century developments. Prereq: 2002 (202), or permission of instructor. Not open to students with credit for 559.			
4630	American Art	U	3
A study of architecture, painting, and sculpture in America. GE VPA course. GE foundation lit, vis and performing arts course.			
4640	Contemporary Art Since 1945	U	3
Visual arts of Europe and the United States from 1945 to the present.			
4701	An Introduction to Buddhist Art and Iconography	U	3
Examines how Buddhist art conveys the ideal of human perfection as the ultimate attainment of Buddhist practice. GE cultures and ideas course.			
4798.01	Foreign Study in History of Art: Medieval Art in Rome and Florence	U	3
This course traces the development of Christian architecture in Italy from its earliest examples in Rome to the late Middle Ages. We will study examples in Rome, Florence, Pisa, and Siena. The course is organized around intensive reading and instruction in the first week in Columbus, followed by two and a half weeks on-site in Italy looking at these early Christian and medieval buildings. Prereq: Permission of instructor. GE VPA course.			
4798.02	The Arts of Japan	U	3
This study abroad program investigates the art of Japan, with a specific emphasis on art and architecture from the 14th century to the present in Tokyo and Kyoto. Students will spend a week in May on campus doing preparatory coursework, reading and research, and will then travel to Japan for two weeks of intensive study, including seeing artworks, temples, and shrines firsthand. Prereq: Permission of instructor.			
4798.03	Gothic Art, Architecture, and Ecology in Paris	U	3
This course investigates the cathedrals of Gothic Paris and the Ile de France, the most famous monuments of European medieval art. The course explores the history of these buildings in their cultural, political, social, artistic, environmental, and ecological contexts. The course covers medieval buildings but also the sculptures, stained glass, textiles, and precious objects that filled them. This is an education abroad course. Prereq: Permission of instructor. GE theme lived environments course.			
4810	The Arts of China	U	3
An overview of the visual arts of China and their cultural context from prehistoric times to the modern era. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.			
4815	Modern and Contemporary Chinese Art	U	3
Modern Chinese art (late 19th century to today) with emphasis on artists, artworks, and their social, artistic, institutional, and theoretical contexts. Prereq: Soph standing. Not open to students with credit for 679.			
4820	The Arts of Japan	U	3
Major trends in the visual arts of Japan, from prehistory through the 19th century. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.			
4825	From Modernism to Manga: Modern and Contemporary Art in Japan	U	3
Explore the arts of Japan from 1868-present, covering a wide range of materials, including sculpture, performance art, photography, contemporary painting, and manga. We will discuss historical & social contexts and the burst of the economic bubble in the 1990s. We will address issues such as gender and representations of the body, the cult of cuteness, and the dynamics of nationalism since 1945. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.			
4901	Classic Film Theories	U	3
Study of historically important theories of film art. Prereq: Soph standing, or permission of instructor.			
4998	Undergraduate Scholarship: Research and Creative Activity in History of Art	U	1 - 3
Undergraduate research or creative activities in varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 9 or hrs or 9 completions. This course is graded S/U.			
4998H	Undergraduate Research (Honors)	U	1 - 3
Undergraduate research or creative activities in varying topics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 or hrs or 9 completions. This course is graded S/U.			

240 History of Art

4999	Thesis Research	U	1 - 4			
	Undergraduate research, reading, and creative activities arranged for each student with individual conferences, reports, paper and/or thesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.					
4999H	Thesis Research Honors	U	1 - 4			
	Undergraduate research, reading, and/or creative activities arranged for each student for an Honors thesis project. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.					
5001	Topics: Western Art	U G	3			
	Topics to be announced. Repeatable to a maximum of 9 cr hrs.					
5002	Topics in Asian and Non-Western Art	U G	3			
	Topics to be announced. Repeatable to a maximum of 9 cr hrs.					
5312	Art and Archaeology of Ancient Greece	U G	3			
	This course will explore the art history, archaeology, and material culture of Ancient Greece to the end of the Hellenistic Period (c. 3000-31 BCE). Prereq: 2001 or 2002, or Grad standing, or permission of instructor.					
5322	Roman Art and Archaeology	U G	3			
	This course will explore the art history, archaeology, and material culture of the Roman Republic and Empire. Students will be encouraged both to consider the wide range of disciplines that contribute to the field of Classical Archaeology, including such sources of evidence as material remains, inscriptions, and literature, and to apply the methodologies of art history, archaeology, anthropology. Prereq: 2001 or 2002, or Grad standing, or permission of instructor. Not open to students with credit for Clas 5322.					
5422	Medieval and Renaissance Manuscript Illumination	U G	3			
	A chronological survey of Medieval and Renaissance illuminated manuscripts in the West. Prereq: 2001 (201), or Grad standing, or permission of instructor. Not open to students with credit for 652.					
5521	Renaissance Painting in Central Italy	U G	3			
	A history of the arts of Florence and Rome from 1400 to 1600. Prereq: 2002 (202), or Grad standing, or permission of instructor.					
5531	17th-Century Dutch Art	U G	3			
	Major artists, including Rembrandt and Vermeer, and developments of 17th century Dutch art examined with a focus on modes of representation and issues of interpretation. Prereq: 2002 (202), or 4531 (533), or Grad standing, or permission of instructor. Not open to students with credit for 632 or 633 prior to Au Qtr 1998.					
5562	Art and History in Early Modern Latin America, 1492-1820	U G	3			
	Explores the visual culture of early modern Latin America through studies of wide range of objects--from featherwork shields to beadwork "idols" to paintings on paper and canvas--interpreted from a range of disciplinary (art history, anthropology, history) and theoretical perspectives.					
5611	European Art in the Age of Revolution, 1774-1851	U G	3			
	Survey of major trends in European art from the French Revolution until the middle of the 19th Century. Prereq: 2002 (202), or 4610 (535), or Grad Standing, or permission of instructor. Not open to students with credit for 657.					
5612	European Art in the Age of Empire, 1852-1900	U G	3			
	Survey of major trends in European art from 1852 until the end of the 19th Century. Prereq: 2002 (202), or 4610 (535), or Grad standing, or permission of instructor. Not open to students with credit for 658.					
5621	Post-Impressionism to Dada	U G	3			
	Survey of major trends in European art from circa 1880 to the aftermath of World War I. Prereq: 2002 (202), or Grad standing, or permission of instructor. Not open to students with credit for 636.01.					
5622	From Dada to Dictatorship	U G	3			
	European art between the World Wars: Post-Cubism, Dada and Surrealism, Bauhaus and Constructivism, and Abstraction. Prereq: 2002 (202), or Grad standing, or permission of instructor. Not open to students with credit for 636.02.					
5631	American Painting and Sculpture to 1900	U G	3			
	History of painting and sculpture in America from colonial times to the end of the 19th century. Prereq: 2002 (202), or English 1110 (110) or 111 or equiv, or Grad standing, or permission of instructor. Not open to students with credit for 637.					
5632	American Painting, Photography and Sculpture from 1900 to the Present	U G	3			
	American painting, sculpture and photography from 1900 to the present. Prereq: 2002 (202), or English 1110 (110) or 111 or equiv, or Grad standing, or permission of instructor. Not open to students with credit for 638.					
5641	Postmodernism	U G	3			
	Exploration of the central issues in the claim to the emergence of a distinctly "postmodern" art in the last part of the 20th century. Prereq: 4620 (540), or 4640 (541), or Grad standing, or permission of instructor. Not open to students with credit for 641.					
5643	New Media Art and Theory	U G	3			
	An investigation of the art and theory of contemporary new media.					
5645	Video Art	U G	3			
	Introduces students to video as an artistic medium by studying its contentious past, multiple forms, and the trajectories of this expanding field. Prereq: Not open to students with credit for 640.					
5711	Art of India I	U G	3			
	Art and Architecture of India from Pre-Historic Times to circa 1200.					
5815	The Lyric Journey: Chinese Painting of the Tang and Song Periods (618-1279)	U G	3			
	A survey of Chinese painting from the Tang and Song Periods (618-1279), with emphasis on style, subject matter, and cultural context. Prereq: Soph standing. Not open to students with credit for 678.01.					
5816	Images of the Mind: Chinese Painting of the Yuan and Ming Periods (1279-1644)	U G	3			
	A survey of Chinese painting from the Yuan and Ming periods, with emphasis on style, subject matter, and cultural context. Prereq: Soph or Grad standing, or permission of instructor. Not open to students with credit for 678.02					
5901	Silent Cinema, 1895-1927	U G	3			
	A study of the development of silent film as an international art form. Prereq: Soph standing. Not open to students with credit for 647.					
5905	Avant-Garde Cinema	U G	3			
	A survey of significant historical contributions to avant-garde cinema. Prereq: Jr standing. Not open to students with credit for 650.					
5906	Experiments in Film and Media Theory	U G	3			
	Investigation of different approaches to theorizing film and other moving image media, including formalist and realist film theories, as well as theories centered around relationships between screens, perception and the human body. Prereq: Jr standing.					
5910	History of Documentary Cinema	U G	3			
	Historical, chronological survey of significant ideas about and contributions to documentary cinema. Prereq: Jr standing. Not open to students with credit for 653.					
6001	Historical and Conceptual Bases of Art History	G	3			
	Investigation of intellectual and historical foundations of modern art history. Prereq: Grad standing.					
6015	Practicum for Graduate Teaching Associates in the History of Art	G	1			
	A teacher-training and professional development workshop for new Graduate Teaching Associates in Art History. Prereq: Open only to students with a GTA appointment in the department of history of art. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.					
7015	Curatorial Studies: Exhibition Histories	G	4			
	This course examines the art exhibition (from the 19th century to the present) as an exemplary cultural form. It traces the history of modern art through specific exhibitions that have redefined the parameters of art-making, on the one hand, and its reception on the other, defining along the way the terms that inform curatorial practice. Prereq: Grad standing.					
7020	Curatorial Elective	G	4			
	Graduate seminar on curatorial topics in art history. Typically offered in conjunction with a museum exhibition. Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs or 3 completions.					
7189.01	Curatorial Practicum: Exhibition Planning	G	2			
	This course is intended to give students in the Contemporary Art and Curatorial Practices MA program the opportunity to design and prepare an exhibition. Prereq: Students must be in their final year of the MA program in Contemporary Art and Curatorial Practice. This course is graded S/U.					
7189.02	Curatorial Practicum: Exhibition Execution	G	4			
	This course is intended to give students in the Contemporary Art and Curatorial Practices MA program the opportunity to install an exhibition of their own design and to write the accompanying catalog essays. Prereq: 7189.01. This course is graded S/U.					
7191	Curatorial Internship	G	2			
	HA 7191 is a formal independent study undertaken with the support and collaboration of institutions in the Columbus area and beyond. Students receive hands-on, practical training in the operations of the curatorial departments in arts institutions, be they collecting museums, contemporary kunsthalls, independent galleries, or alternative art spaces. The course is administered by a faculty member. Prereq: Permission of instructor. This course is graded S/U.					
8000	Topics in Art History	G	3			
	A graduate-level equivalent of a course being offered at the 500-level. Prereq: Grad standing. Not open to students with credit for 890. Repeatable to a maximum of 6 cr hrs.					
8001	Studies in Art Theory and Criticism	G	4			
	Investigations of theories of art and their applications. Prereq: 5640 (600), or permission of instructor. Not open to students with credit for 839 or 710. Repeatable to a maximum of 12 cr hrs.					

8193	Individual Studies	G	1 - 6
Advanced study for students in specialized programs. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
8401	Studies in Medieval Art	G	4
Selected problems in architecture, painting, sculpture, and the minor arts from the Early Christian through Byzantine and Gothic periods. Repeatable to a maximum of 12 cr hrs.			
8521	Studies in Italian Renaissance Art	G	4
Advanced study and specialized research on topical problems in the painting, sculpture, and architecture of Italy in the 14th, 15th, and 16th centuries. Repeatable to a maximum of 12 cr hrs.			
8561	Studies in Latin American Art	G	4
Advanced study and specialized research on topical issues in Latin American Art. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8601	Studies in Modern Art	G	4
Advanced study and specialized research on topical problems in the art of the United States or modern Europe. Prereq: Grad level course in Modern Art, or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8631	Studies in American Art	G	4
Problems in American art. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8641	Wexner Seminar	G	1 - 4
Graduate seminar offered in conjunction with Wexner exhibitions, performance series, media series, or symposia; may be taught by visiting artists, performers, or critics. Repeatable to a maximum of 12 cr hrs or 12 completions.			
8811	Studies in Chinese Art	G	4
Advanced study and specialized research in the history of Chinese art. Prereq: 5811 (677), 5815 (678), or 5816, or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8821	Studies in Japanese Art	G	4
Advanced study and specialized research in the history of Japanese art. Prereq: 5821 (681), 5822 (682), or 8821 (780), or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8901	Cinema Studies	G	4
Intensive studies of specific movements, artists, periods and theories of cinema. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8999	Dissertation Research in History of Art	G	1 - 12
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			

Honors, University

1891	Eminence First Year Seminar	U	0
This seminar offers new Eminence Fellows a venue to build community and increase resilience in college by providing Eminence specific academic, personal, and life management tools needed to function effectively as a first year Eminence Fellow. Fellows will understand and be able to utilize the Clifton Strengths Assessment as a tool to help develop a team dynamic as well as their own personal path. Prereq: First-year student in the Eminence Fellows Program. This course is graded S/U.			
1892	Eminence Second Year Seminar	U	0
You will actively engage in the development of a personal vision and mission for your future. You will craft a strengths-based, professional mission statement. You will investigate opportunities aimed at polishing your presentation and writing skills, identify best-fit graduate and professional programs, and understand the intricacies of faculty interaction on many levels. Prereq: Second-year student in the Eminence Fellows Program. This course is graded S/U.			
2296H	University Honors Proseminar	U	1 - 3
Designed to foster an understanding of concepts, issues, and problems which transcend the boundaries of a single discipline; topic varies. Prereq: Honors standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
2396H	London Honors	U	3
An introduction to British life and culture. Students study the formation of British rule, political structures, immigration, diversity, global position, art, and literature and how these experiences have shaped the worldviews, beliefs, policies, and practices of English society. At the end of the semester, students participate in a week long study abroad in London/England. Prereq: Honors standing, and enrollment in London Honors program, and permission of department. GE education abroad course.			
2596H	Interdisciplinary and Collaborative Research	U	3
Provides an introduction to and practicum on interdisciplinary and collaborative research and creative activity. Students separate into teams and execute a project of their own, the results of which will be shared in the final weeks of the semester. The students, guided by faculty, will formulate projects that relate specifically to the Ohio State University. Prereq: Honors standing. GE cross-disciplinary seminar.			

3596H	University Honors Seminar	U	1 - 3
University Honors Seminar. Prereq: Honors standing. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

Horticultural Technology

1201T	Exploring Horticulture	U	½
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.			
2110T	Plant Materials I	U	3
Plant identification course to include: trees, shrubs, evergreens, vines, annuals, perennials and tropical plants common to the Midwest covering: identification, morphology, classification, nomenclature and adaptability. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. Prereq: Not open to students with credit for 243T and 244T. This course is available for EM credit.			
2120T	Plant Materials II	U	3
Plant identification including: less common deciduous and evergreen trees, shrubs, vines and herbaceous plants common to the Midwest covering: identification, morphology, classification, nomenclature and adaptability. A grade of C or better is required to meet graduation requirements for Landscape Horticulture. Prereq: Not open to students with credit for 243T and 244T. This course is available for EM credit.			
2189.10T	Practicum in Floral Design	U	1 - 2
Supervised experiences in floral design and flower shop work. A grade of C or better is required to meet graduation requirements. Prereq: 2600T. Repeatable to a maximum of 4 cr hrs or 4 completions.			
2189.21T	Practicum in Greenhouse Management	U	1
Supervised experiences in greenhouse crop production. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.			
2190.10T	Practical Leadership in Floral Design	U	1 - 2
Supervised experiences in flower shop leadership and management. A grade of C or better is required to meet graduation requirements. Prereq: 2189.10T (264T and 268T). Repeatable to a maximum of 2 cr hrs or 2 completions.			
2190.21T	Practical Leadership in Greenhouse Management	U	1
Supervised experiences in greenhouse leadership and management. A grade of C or better is required to meet graduation requirements. Prereq: 2189.21T. Repeatable to a maximum of 2 cr hrs.			
2191.10T	Floral Design and Marketing Internship	U	1 - 2
Employment in the floral industry, structured to provide varied occupational experiences, supervised by an industry employer, and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: 1201T and 2620T (264T). Repeatable to a maximum of 4 cr hrs or 4 completions.			
2191.21T	Greenhouse Management Internship	U	1 - 3
Employment in the greenhouse industry, structured to provide varied occupational experiences, supervised by an industry employer, and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: 1201T, 2189.21T, and 2500T. Repeatable to a maximum of 6 cr hrs or 2 completions.			
2191.23T	Greenhouse Engineering Technology Internship	U	3
Experience of employment in the greenhouse industry, structured to provide varied occupational experiences, supervised by an industry employer, and coordinated by faculty. A grade of 'C' or better required to meet graduation requirements for Greenhouse and Nursery Management Greenhouse Engineering Technology specialization. Prereq: 1201T, 2189.21T, and 2500T. Repeatable to a maximum of 6 cr hrs.			
2191.30T	Landscape Horticulture Internship	U	3
Employment in the landscape industry structured to provide varied occupational experiences. Supervised by an industry employer and coordinated by faculty. A grade of C or better is required to meet graduation requirements. Prereq: 1201T (230T); a grade of C or above in 2110T (244T); GPA 2.0 or above. Repeatable to a maximum of 6 cr hrs.			
2191.50T	Turfgrass Management Internship	U	3
Employment in turfgrass management industry at an approved facility structured to provide varied occupational experiences. Supervised by an industry professional and coordinated by faculty. A grade of C or better required to meet graduation requirements. Prereq: A grade of C or above in 2225T (289.05T and EngTech 219T), 2230T (223T) and 2250T (225T), and CPHR 2.0 or above. Repeatable to a maximum of 6 cr hrs.			
2191.55T	Turfgrass Equipment Manager Internship	U	2
Employment in turfgrass equipment management industry at an approved facility structured to provide varied occupational experiences. Supervised by an industry professional and coordinated by faculty. A grade of C or above required to meet graduation requirements. Prereq: A grade of C or above in 2225T and 2227T.			
2193T	Individual Studies	U	1 - 3
Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			

242 Horticultural Technology

2194T	Group Studies	U	1 - 3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
2225T	Turf Equipment Operation and Maintenance	U	3
Principles and practices of turf facilities organization and management, equipment maintenance, operation, safety and fleet management. A grade of C or better required to meet graduation requirements for Turfgrass Management. Prereq or concur: GenMath 1040T or Math 1050 or math placement level R or higher.			
2227T	Turfgrass Reel Mower Maintenance	U	3
Theory, configuration, and maintenance of turfgrass reel mower cutting units, including a study of the bedknife attitude, spin vs relief grinding, backlapping, bedknife selection.			
2230T	Fundamentals of Turfgrass Science and Management	U	3
Identification, growth and development characteristics and responses, uses, and fundamental practices essential to the production and management of fine quality turf. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. Prereq or concur: GenBiol 1250T and GenMath 1040T or Math 1050 or math placement level R or higher. This course is available for EM credit.			
2240T	Golf Course and Sports Turf Irrigation and Drainage	U	3
Principles of design, selection, installation, maintenance, and operation of equipment and materials used in golf course and sports turfgrass irrigation and drainage systems. A grade of C or better required to meet graduation requirements for Turfgrass Management. Prereq: GenMath 1040T or Math 1050 or math placement level R or higher.			
2250T	Turfgrass Cultural Systems and Practices	U	3
A study of cultural and environmental factors related to maintaining fine turfgrasses with special emphasis on mathematical calculations and materials applications. A grade of C or better required to meet graduation requirements for Turfgrass Management. Prereq: 2225T (EngTech 219T), 2230T (223T). Not open to students with credit for 225T.			
2260T	Sports Turf Operations Organization and Management	U	3
Specialized course in sports turf management including the organization, design, construction, equipment, field surface quality, safety, personnel, finances, renovation, and maintenance of a sports turf facility. A grade of C or better required to meet graduation requirements for Turfgrass Management. Prereq: 2191.50T (290.05T), BioTech 2218T (218T). Prereq or concur: 2880T (272T) or 2890T (274T).			
2270T	Golf Course Organization and Management	U	3
Specialized course in golf course management including the organization, design, construction, equipment, personnel, finances, and maintenance of the golf course. A grade of C or better required to meet graduation requirements for Turfgrass Management. Prereq: 2191.50T (290.05T), BioTech 2218T (218T). Prereq or concur: 2880T (272T) or 2890T (274T). Not open to students with credit for 227T.			
2320T	Landscape Construction	U	3
Techniques for building, pricing, bidding and installing various landscape plantings, features and structures including (but not limited to): pavers, retaining walls and wooden structures. A grade of 'C' or better required to meet graduation requirements for Landscape Horticulture. Prereq: GenMath 1040T or Math 1050 or math placement level R or better. This course is available for EM credit.			
2360T	Landscape Design	U	3
Introduction to landscape drafting, CAD, design and planning emphasizing the design program, form composition, drafting techniques, design representation and 2 and 3-dimensional CAD. A grade of C or better required to meet graduation requirements for Landscape Horticulture. Prereq or concur: 2110T. Not open to students with credit for 231T.			
2500T	Greenhouse Environment Control	U	4
Principles and practices of sustainable greenhouse operation and management. Topics include glazings, frames, heating, cooling, energy conservation, nutrition, irrigation, light, plant growth and operations management. A grade of C or better required to meet graduation requirements in Greenhouse and Nursery Management Nursery Specialization. This course is available for EM credit.			
2520T	Greenhouse Perennial Production	U	3
Principles and practices of greenhouse perennial plant production, including propagation, vernalization, photoperiodic treatments, production techniques, integrated pest and plant health management, and post-harvest marketing. Prereq: 2500T (251T). Not open to students with credit for 255T. This course is available for EM credit.			
2540T	Greenhouse Production of Annuals	U	3
Principles and practices of greenhouse bedding and flowering container plant production, including propagation, transplanting, nutrition, environmental requirements, height control, harvesting, pests, pathogens and post-harvest marketing. Prereq: 2500T.			
2560T	Greenhouse Vegetable Production	U	3
Principles and practices of greenhouse vegetable crop production, including propagation, production systems, nutrition, environmental requirements, management practices, harvesting, pests, pathogens, food safety and post-harvest handling. Prereq: 2500T.			

2600T	Commercial Floral Design	U	4
A basic course introducing the elements and principles of floral design as they relate to the construction of saleable flower arrangements and corsages. Prereq: Not open to students with credit for 262T and 264T. This course is available for EM credit.			
2620T	Retail Flower Shop Operation	U	2
Principles and practices of management and operation of a retail flower shop with emphasis on purchasing, pricing, merchandising, selling, delivery and wire services. Prereq: 2600T. This course is available for EM credit.			
2640T	Flowers for Celebrations	U	4
A specialized course dealing with consulting, planning, organizing and creating floral designs and decor for wedding ceremonies and receptions, parties, and celebrations of life. Prereq: 2600T (262T and 264T). Not open to students with credit for 265T and 269T.			
2660T	Post-Harvest Flower Care	U	2
Principles and practices of post-harvest flower care from producer to consumer with emphasis on identification and proper care and handling at the retail level. Prereq: 2640T. Concur: 2680T. Not open to students with credit for 263T. This course is available for EM credit.			
2680T	Contemporary Floral Design	U	3
An advanced course emphasizing the artistic nature of floral design with a global perspective of contemporary styles, techniques and trends. Prereq: 2640T. Concur: 2660T. Not open to students with credit for 267T.			
2740T	Plant Propagation	U	4
Principles, techniques, skills, materials, and facilities used to propagate herbaceous and woody plants with emphasis on commercial propagation methods. Prereq: GenBiol 1250T or Biology 1113 or HCS 2202.			
2819T	Pesticides and their Use	U	3
A study of the classification of pesticides and their mode of action, physiological effects, persistence in the environment, benefits, hazards, use, performance and regulation. Prereq: Not open to students with credit for BioTech 2219T. This course is available for EM credit.			
2880T	Principles of Weed Science	U	3
A study of weed classification, ecology, plant competition, herbicide formulation, properties and uses of herbicides and weed management in horticultural crops. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. Prereq: GenBiol 1250T (125T). Prereq or concur: GenChem 1100T (131T). Not open to students with credit for 272T or CrpSoil 2422T (266T). This course is available for EM credit.			
2890T	Plant Diseases of Ornamentals and Turf	U	3
Principles and practices in diagnosing and treating plant diseases on woody ornamentals and turf. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. Prereq: 2110T or 2120T or 2230T; GenBiol 1250T. This course is available for EM credit.			
3550T	Components of Greenhouse Technologies	U	3
A study of selected components of modern greenhouse technology, including electric motors, automated material handling and watering controls, pesticide application, and supplemental lighting. Prereq: 2500T; GenMath 1145T; EngTech 2312T and 2322T. This course is available for EM credit.			

Horticulture and Crop Science

1100	Exploring Sustainable Plant Sciences and Prof Golf Mgt	U	½
Basic understanding of the global trends within sustainable plant systems and professional golf management, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development.			
1101	Plant Parenting	U	2
This course demonstrates how propagating, growing, and caring for plants is based on scientific principles that are appreciated by developing skills in plant parenting. By the end of the term, students should be confident in their ability to grow a wide variety of houseplants and some popular garden plants.			
2194	Group Studies	U	1 - 3
Special group studies in the area of horticulture and crop science. Repeatable to a maximum of 6 or hrs or 6 completions.			
2200	The World of Plants	U	3
Study of the cultivation, environmental, genetic, and social/cultural factors which influence the sustainable production of plants for food, fiber, ornamental and recreational uses. This course is available for EM credit. GE nat sci bio course. GE foundation natural sci course.			
2201	Ecology of Managed Plant Systems	U	4
Origin, diversification, and biogeography of plants inhabiting managed landscapes. GE nat sci bio course.			
2201E	Ecology of Managed Plant Systems	U	4
Origin, diversification, and biogeography of plants inhabiting managed landscapes. Prereq: Honors standing. GE nat sci bio course.			

2202 Form and Function in Cultivated Plants U 4

An introduction to plant growth and development with special emphasis on structure function relationships important to productivity and quality in cultivated plants. Prereq: Not open to students with credit for 300, 300E, 310, 315, or PlntBio 300. GE nat sci bio course. GE foundation natural sci course.

2202E Form and Function in Cultivated Plants U 4

An introduction to plant growth and development with special emphasis on structure function relationships important to productivity and quality in cultivated plants. Prereq: Honors standing. Not open to students with credit for 300, 300E, 310, 315, or PlntBio 300. GE nat sci bio course. GE foundation natural sci course.

2204 Ecology of Managed Plant Systems U 3

Origin, diversification, and biogeography of plants inhabiting managed landscapes. Prereq: Not open to students with credit for 2201. GE theme sustainability course.

2205 Ecology of Managed Plant Systems - Laboratory U 1

Origin, diversification, and biogeography of plants inhabiting managed landscapes. Prereq or concur: 2204. Not open to students with credit for 2201.

2206 Introduction to Plant Science Laboratory U 1

Laboratory course designed as an introductory exploration of the world of plant science. Prereq or concur: 2200. GE foundation natural sci course.

2250 Introduction to Professional Golf Management U 2

Acquaints students with the PGM program, including program facilities and resources, components of the PGA/PGM Program, golf history, PGA Constitution, Career Enhancement, Golf Operations, and Customer Relations. Prereq: Not open to students with credit for 250 or 350.04.

2260 Data Analysis and Interpretation for Decision Making U 3

Basic concepts of probability and statistics applied to the interpretation of quantitative data. Prereq: Math1130 or higher. Not open to students with credit for AEDecon 2005, AnimSc 2260, ComLdr 3537, ENR 2000, or Stat 1450. GE data anyl course. GE foundation math and quant reasoning or data anyl course.

2270 Historical Perspectives on Golf Course Design and Management U 2

A historical survey of golf course design and management and its effect on contemporary design and management.

2300 Introduction to Hydroponics U 1

This hands-on intensive course will introduce students to soilless hydroponic crop production. The course will provide basic information on key components of hydroponics, different systems adopted for different crop species, as well as ideas of implementing them in commercial settings, home gardening as well as school science teaching programs.

2305 Organic Gardening U 1

An overview and assessment of organic gardening practices for sustenance and recreation. Prereq: Not open to students with credit for 305.

2306 Sustainable Vegetable Production Practicum: Planning, Growing and Marketing U 3

Provides students with an introduction to small-scale vegetable farm planning and management through consideration of plant growth and production, farm design, farm management and operations, and produce marketing. Prereq: Not open to students with credit for 213.

2307 Sustainable Agriculture Practical Experience U 2

This course will introduce students to basic theory, practical skills, and tools associated with small-scale sustainable agriculture and farm enterprises. Topics will include soil management, tools and infrastructure, crop management, weed and pest management, enterprise management, and teamwork and leadership and will center on small-scale vegetable production. Repeatable to a maximum of 4 cr hrs.

2340.01 Woody Ornamental Plants U 3

A survey of the most important woody ornamentals used in horticulture in the Midwest U.S. Weekly lectures will emphasize ornamental attributes, usage and management. Weekly plant walks (outdoor lecture) will emphasize plant identification. Prereq: Not open to students with credit for 234.

2340.02 Herbaceous Ornamental Plants U 3

A survey of the most important annual and perennial herbaceous ornamentals used in horticulture in the Midwest U.S. Weekly lectures will emphasize ornamental attributes, usage and management. Weekly plant walks (outdoor lectures) will emphasize plant identification.

2401 Sustainable Landscape Design I U 3

An introduction to sustainable landscape design for residential and small scale properties with an emphasis on principles of design and graphic communication. Prereq or concur: 2340.

2501 Basic Golf Club Design and Repair U 1

This course introduces students to the fundamentals of modern golf club design. There is an optional activity at the end of this session where you can build a golf club to take home using the knowledge you learned in the online lectures and demonstration videos. If you choose not to do the optional activity, it does not affect your overall grade. Prereq: Not open to students with credit for 3502 or students enrolled in the Professional Golf Management program, or Pre-PGM.

2502 Understanding the Rules of Golf and Golf Etiquette U 1

The course is designed to provide students the opportunity to learn the rules of golf and etiquette in detail so they can be better educated players and golf spectators.

3100 Introduction to Agronomy U 3

An introductory course of row crop and forage agricultural production (agronomy). This course introduces students to row and forage crop species common in Ohio and surrounding states, and provides fundamental information on how these crops are managed in the region. Management aspects include site preparation, seasonality of management activities, and fundamentals of nutrient and pest management.

3200 Introduction to Horticulture U 3

An introduction to the principles and practices of production and landscape horticultural science and the horticulture industry in Ohio and the USA. Emphasis on the diversity of crops, production systems, diversity of the horticulture industry and an introduction for students to possible careers in horticulture in Ohio and the USA.

3220 Crop Origins and Diversity U 2

A survey of plant taxonomy including principles of nomenclature and classification. Students will learn important botanical characteristics of major plant families. Course emphasis is on plant taxa of economic importance in horticulture and agricultural production.

3310 Crop Responses to the Environment U 3

The physiological basis of crop responses to abiotic and biotic environmental factors. Prereq: 2202 or 2202E, and Biology 1113 or 1113H.

3320 Plant Propagation: The Manipulation of Plant Reproduction U 3

Principles, methods, and facilities involved in the sexual and asexual multiplication of plants. Credit for 2201 highly recommended prior to enrollment. Prereq: 2202. Not open to students with credit for 320.

3370 Sports Turf Management U 2

Issues pertaining to sports field management including playing surface preparation, safety and playing quality, field maintenance and renovation techniques, sports turf IPM practices and administration. This course is available for EM credit.

3380 The Latino Workforce in Land Based Industries U 2

Current issues faced by immigrant workers in agriculture and the cultural, historical and legal context affecting work relations with their American supervisors. Au Sem; even years. Prereq: Not open to students with credit for 380.

3410 Sustainable Landscape Maintenance Practices U 2

An integrated approach to the sustainable maintenance of constructed landscapes - residential, commercial, and institutional, combining research based knowledge with field experience in maintenance practices. Prereq: 2201 or 2202.

3420 Seed Science U 3

A study of the physiological processes of seed formation, dormancy, and germination; the production and marketing of seed in commerce. Prereq: 2201 or 2202, or permission of instructor. Not open to students with credit for 420.

3438 Theme and Specialty Gardens U 2

Study of the principles and techniques of theme and specialty gardening. Prereq: 2201.

3470 Introduction to Turfgrass Management U 3

Adaptation, identification, uses, growth characteristics, growth responses, and fundamental principles essential to the production of quality turf.

3475 Turf Management for Golf Course Managers U 3

Survey of the cultural and management practices important in the daily agronomic operations of a golf course.

3488.01 Professional Development U 1

Participation in structured co-curricular programs leading to professional development. Prereq: GPA 2.00 or above, and permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

3488.02 PGM Player Development U 1

Focus on assisting students who have not passed the PGA of America's Playing Ability Test. Encompasses golf skills evaluation, mental approach, development of a corrective action plan and re-evaluation of skills progress. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

3501 PGM Basic Golf Operations U 2

This course encompasses learning objectives and materials pertaining to Checkpoint 1 of the PGA of America's PGA/PGM program including tournament operations, golf car fleet management, rules of golf and introduction to teaching. Sp Sem. Prereq: 2250. Not open to students with credit for 350.01, 350.02, or 350.03.

3502 PGM Club Design, Performance, Fitting and Repair U 2

This course encompasses learning objectives and work experience-related materials pertaining to Checkpoints 1 and 2 of the PGA of America's PGA/PGM Program including golf club design, performance, fitting and repair. Sp Sem. Prereq: 2250 and 3501. Not open to students with credit for 350.01 and 350.05.

244 Horticulture and Crop Science

3521	Greenhouse Systems and Management	U	2		
	Introduction to greenhouse systems, structural designs, controlled environment technologies, and management practices to commercially grow ornamental and vegetable crops under a controlled environment. Prereq: 2200, 2201, or 2202. Not open to students with credit for 5521.				
4191.01	Sustainable Plant Systems Major Internship	U	2		
	Gives students an overview of the variety of internships available as well as their importance in career selection. Students will rate their internships on their educational value and help comprehend post graduation HCS career options. Prereq or concur: FAES 3191, enrollment in Sustainable Plant Systems major, and permission of instructor.				
4191.02	PGM Internship	U	1		
	Real world job experience at golf courses, clubs, or resorts. Students are mentored by the on-site PGA professional and must complete specified written Work Experience Activities. Must be enrolled while on internship. Repeatable to a maximum of 5 completions.				
4193	Individual Studies	U	1 - 3		
	Special studies in the field of horticulture and crop science. Prereq: GPA 2.50 or above, and permission of instructor. Repeatable to a maximum of 3 or hrs or 3 completions. This course is graded S/U.				
4194	Group Studies	U	1 - 3		
	Special group studies in the area of horticulture and crop science. Repeatable to a maximum of 6 or hrs or 6 completions.				
4300	Hydroponic Crop Production	U	2		
	This course will offer students the foundational understanding of the greenhouse food crop production technologies and practices and introduction to the science behind them. Lectures will overview the history and basic principles of greenhouse crop production using soilless (hydroponics) approach. Students will learn conventional/advanced production technologies and more. Prereq: 2202 or 2202E.				
4301	Hydroponic Crop Production Lab	U	1		
	Greenhouse laboratory course associated with the concurrent lecture course on Hydroponic Crop Production (HCS 4300 In-person or Online) will provide hands-on practices on greenhouse hydroponic crop production - leafy crops, micro-greens, tomato, and more using crop production facilities similar to commercial production settings. Concur: 4300.				
4501.01	PGM Advanced Professional Experience I	U	1		
	Enhances professional development for students intending a career within the golf industry. While on this experience, students will complete specified Advanced Professional Experience activities. Students will learn about career opportunities and better understand the types of tasks/challenges associated with a career in professional golf management. Prereq: 2250, and PGM major or pre-major. Concur: 4191.02. This course is graded S/U.				
4501.02	PGM Advanced Professional Experience II	U	1		
	Enhances professional development for students intending a career within the golf industry. While on this experience, students will complete specified Advanced Professional Experience activities. Students will learn about career opportunities and better understand the types of tasks/challenges associated with a career in professional golf management. Prereq: 4501.01, and PGM major or pre-major. Concur: 4191.02. This course is graded S/U.				
4501.03	PGM Advanced Professional Experience III	U	1		
	Enhance professional development for students intending a career within the golf industry. While on this experience, students will complete specified Advanced Professional Experience activities. Students will learn about career opportunities and better understand the types of tasks/challenges associated with a career in professional golf management. Prereq: 4501.02, and PGM major or pre-major. Concur: 4191.02. This course is graded S/U.				
4501.04	PGM Advanced Professional Experience IV	U	1		
	Enhances professional development for students intending a career within the golf industry. While on this experience, students will complete specified Advanced Professional Experience activities. Students will learn about career opportunities and better understand the types of tasks/challenges associated with a career in professional golf management. Prereq: 4501.03, and PGM major or pre-major. Concur: 4191.02. This course is graded S/U.				
4501.05	PGM Advanced Professional Experience V	U	1		
	Enhances professional development for students intending a career within the golf industry. While on this experience, students will complete specified Advanced Professional Experience activities. Students will learn about career opportunities and better understand the types of tasks/challenges associated with a career in professional golf management. Prereq: 4501.04, and PGM major or pre-major. Concur: 4191.02. This course is graded S/U.				
4503	PGM Advanced Teaching and Swing Analysis	U	2		
	This course encompasses learning objectives and work experience-related materials pertaining to Checkpoints 2 and 3 of the PGA of America's PGA/PGM Program including swing concepts, analysis of the golf swing, and philosophy of teaching. Prereq: 2250, 3501, and 3502.				
4504	Advanced Golf and Turf Operations	U	3		
	Use a golf facility as a "model system" to apply a case study approach to demonstrate that golf professionals and turfgrass specialists must work together to meet the needs of their customers and supervisors. Golf professionals and turfgrass specialists have the common need to prepare integrated business plans. Capstone. Prereq: 3470 or 3475. Not open to students with credit for 350.04 or 350.07.				
4520	Medicinal Plants	U	2		
	The objective of this course is to introduce plants that have medicinal uses, the active constituents in the plants, and their biological effects. This course highlights plants, and their biologically active constituents, that are utilized for ailments in various human body systems and discusses the scientific evidence that supports these functions. Prereq: Biology 1113.				
4570	Turfgrass Management and Science	U	3		
	The course is designed to provide students with the principles based in ecology and plant physiology to manage intensively managed turfgrass systems in a holistic framework. Through the understanding of ecological principles that apply to turfgrass and the understanding of how turfgrass plants grow, the student will be able to develop management practices based on sound scientific grounds. Prereq: 3470 or 3475.				
4998	Undergraduate Research	U	1 - 5		
	Undergraduate research in Horticulture and Crop Science may take place in a laboratory, greenhouse, and/or field setting at The Ohio State University in Columbus, Wooster, and/or outlying branch farms. HCS 4998 should not be taken for Research with Distinction. Prereq: GPA 3.0 or above in major, and permission of instructor. Repeatable to a maximum of 12 or hours or 4 completions. This course is graded S/U.				
4999	Research with Distinction	U	1 - 3		
	Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman University Undergraduate Research Forum. Prereq: CPHR 3.00 or above, and GPA 3.00 or above in major, and permission of project supervisor. Repeatable to a maximum of 6 or hrs or 3 completions. This course is graded S/U.				
4999H	Honors Research with Distinction	U	1 - 3		
	Conducting and reporting research with distinction. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman University Undergraduate Research Forum. Prereq: Honors standing, and FAES 4590.01H (590H), and GPA 3.4 or above. Repeatable to a maximum of 6 or hrs or 3 completions. This course is graded S/U.				
5100	Advanced Cropping Systems	U G	3		
	Students will examine issues related to economic and environmental sustainability, legal and ethical responsibility, and production efficiency to help students transition to being professionals. Students will apply their knowledge regarding row and forage crop management to address production issues. Students will practice communication through enhanced analytical thinking experiences. Prereq: 3100, or Grad standing.				
5194	Group Studies	U G	1 - 3		
	Special group studies in the area of horticulture and crop science.				
5200	Advanced Horticultural Principles and Practices	U G	3		
	This course will prepare students for transition from student to professional by advancing their mastery of edible and ornamental horticultural crop principles and practices as they are driven by the interaction of cultivar genetics, plant physiology, and environmental influences; and by exploring issues of economic and environmental sustainability and production efficiencies on a global scale. Prereq: 3200, or Grad standing.				
5306	Sustainable Vegetable Production Practicum: Planning, Growing and Marketing	U G	3		
	Provides students with an introduction to small-scale vegetable farm planning and management through consideration of plant growth and production, farm design, farm management and operations, and produce marketing. Prereq: 5450 (450), or permission of instructor. Not open to students with credit for 613.				
5325	Plant Genetics	U G	3		
	This course will serve as a general introduction to the basic principles of plant genetics. Specifically, this course focuses on concepts in molecular genetics, transmission genetics, quantitative genetics, and population genetics which can be used to understand the biological processes of plants, our use and improvement of crop plants, and the process of evolution. Prereq: 2202 or MolGen 3300, and Chem 1110 or 1210, and Biology 1101 or 1113 or MolGen 1101; or Grad standing. Not open to students with credit for 4325.				
5335	Advances in High Throughput Phenotyping	U G	3		
	High-Throughput Phenotyping (HTP) is an emerging field that integrates remote sensing and simulation and modeling technologies to advance selection in plant breeding programs. Advances in High Throughput Phenotyping provides an overview of the sensing and modeling tools that are being integrated into modern HTP platforms. Prereq: CSE 1222 or Engr 1221 or 1181.xx or 1281.xx or 1187 or HCS 2260 or AnimSci 2260 or ENR 2000 or AEDEcon 2005 or ComLdr 3537 or Stat 1450, and Jr or Sr or Grad standing; or permission of instructor. Cross-listed in FABEng.				
5411	Domestication and Utilization of Agronomic Crops	U G	3		
	To gain a fundamental understanding of the historical development and scientific principles underlying crop domestication and utilization, and how they impact current and future development and utilization of selected grain, oilseed, and fiber crops. Prereq: 2201, 2201E, 2202, or 2202E, and Biology 1101, 1113, or 1113H. Not open to students with credit for 411.				
5412	Agroecology of Grasslands and Prairies	U G	3		
	Growth characteristics, adaptation and utilization of grassland species for hay/silage, grazing, fuel and conservation. Prereq: 2201, 2201E, 2202, or 2202E, and Biology 1101, 1113, or 1113H; or Grad standing. Not open to students with credit for 412.				

5420	Environmental Impacts of Crop-Livestock Systems	U G	3		5887	Introduction to Experimental Design	U G	3	
Understanding of processes underlying environmental impacts in crop-livestock agroecosystems. The focus will be on specific types of environmental impacts, such as climate change and greenhouse gas emissions, nutrient losses (volatilization and leaching), and soil degradation. This course is focused on agroecosystems and agricultural processes. Prereq: Sr or Grad standing. Not open to students with credit for AnimSci 5420. Cross-listed in AnimSci.					Introduction to experimental design, including selection and layout of plots, data analysis software, and data interpretation. Prereq: 2260 or Stat 1450, or equiv; or Grad standing.				
5422	Biology and Management of Weeds and Invasive Plants	U G	3		5890	Turfgrass Seminar	U G	1	
A study of weeds and invasive plant biology and ecology, and methods of vegetation management. Enrollment in the Masters in Plant Health Management Program required for online offering only. Prereq: 3100, 3200, or 3470, and Biology 1101, 1113, or 1113H; or Grad standing. Not open to students with credit for 422 or 610.					This course uses case studies and discussion to provide students with an appreciation of the process involved in solving turfgrass problems at the managerial level. Using real-life scenarios, students will learn to recognize problems, analyze problems, identify issues that need to be addressed to correct the problems, formulate a set of strategies for solving the problems, and more. Prereq: 4570, or Jr, Sr, or Grad standing.				
5450	Vegetable Crop Production and Physiology	U G	3		7001	Graduate Student Professional Development	G	1	
A physiological and ecological study of the principal vegetable crop species grown for processing and fresh market use. The impacts of integrated crop management and other production systems on vegetable yields and quality are also considered. Prereq: 2200 (200), 2201, 2202, 300 or MolGen 3300 (PlntBio 300); and Chem 1110 (101) or 1210 (121); and Biology 1101 (101), 1113 (113), or MolGen 1101 (PlntBio 101); or Grad standing. Not open to students with credit for 450 or 605.					Introduction to the procedures, resources, and requirements needed to succeed as graduate Horticulture and Crop Science students and in subsequent career(s). This course is graded S/U.				
5460	Fruit Crop Physiology and Production	U G	3		7003.02	Agricultural Genomics: Principles and Applications	G	2	
Sustainable fruit crop production principles/practices and their physiological bases as affected by environmental and economic factors. Prereq: 2201 or 2202, and Biology 1101 or 1113; or Grad standing. Not open to students with credit for 460.					Reviews the principles of most genetic technologies, new developments in the field and emphasizes their application in agriculture. Prereq: MolGen 4500 or Biochem 5613 (613), or permission of instructor. Concur: PlntPth 7003.01. Not open to students with credit for 7003 (703) or PlntPth 7003 (703).				
5601	Digital Portfolio Development	U G	1		7004	Genome Analytics	G	4	
This course will provide an overview of digital portfolio development of prior learning and/or on-going learning. Portfolios may be used to assess and compare learning with contemporary job requirements. Students will learn to select, categorize, and document their achievements and accomplishments for review and assessment, relative to career readiness skills and co-curricular competencies.					The Genome Analytics course will facilitate a hands-on analytical and quantitative approach for graduate students to learn the basic pipelines for analysis of genomic sequences, focusing on incorporating these bioinformatics pipelines into their own research.				
5602	The Ecology of Agriculture	U G	3		7100	Data Visualization in R	G	2	
Examines the key ecological and evolutionary processes at work in agricultural systems and the ways those processes interact with human systems. Prereq: ENR 3000 (300.01), and 6 sem cr hrs of HCS taken at the 3000-level or above; or Grad standing. Not open to students with credit for 602.					This course aims to introduce students to the principles and practice of data visualization. Students will learn fundamental principles of data visualization and create figures that appropriately and ethically represent their data. Data visualizations will be created in the R programming environment using ggplot2. Some working knowledge of R is assumed; contact the instructor if you're unsure.				
5621	Physiology of Cultivated Plants	U G	3		7193	Individual Studies	G	1 - 3	
A study of basic physiological processes in plants and how they impact crop production and productivity. Online section requires enrollment in the Masters of Plant Health Management Program. Prereq: 3310, and Biology 1113 or 1113H, and Chem 1110 or 1210; or Grad standing. Not open to students with credit for 621.					Selected topics not included in regular HCS courses. Prereq: Permission of instructor. This course is graded S/U.				
5622	Biochemical Processes in Cultivated Plants	U G	3		7194	Group Studies	G	1 - 3	
A study of basic biochemical processes in crop plants and how they impact production, productivity, and quality. Prereq: Biology 1113 or 1113H, and Chem 2310 or 2510, and HCS 3310; or Grad standing.					Special group studies in the area of horticulture and crop science.				
5625	Applied Plant Biotechnology	U G	2		7600	Metabolomics, Principles and Practice	G	3	
An introduction to the principles of plant biotechnology. Examining concepts relevant to biotechnology, plant breeding and genetics. The course content will present a broad range of applicable information pertaining to modification and improvement of a wide range of crops, including both agronomic and horticultural crop species important in temperate and tropical areas. Prereq: 4325 or 5325. Not open to students with credit for 7625.					Introduces students to the principles and practice of metabolomics. Metabolomics is the study of the totality of small molecules existing within a system. We will focus here on the application of metabolomics to plant, food, nutrition and health-related research, although concepts are applicable to other disciplines. Prereq: Permission of instructor. Cross-listed in BMI, FdScTe, and HumnNtr.				
5670	Golf Courses and the Environment	U G	2		7625	Plant Breeding and Biotechnology	G	3	
Principles and practices of golf course design for sustainability. Prereq: 2270 (270), or Grad standing. Not open to students with credit for 670.					Introduction to the principles of plant breeding and biotechnology. Prereq: Undergraduate plant breeding or genetics course, or permission of instructor. Not open to students with credit for 625.				
5797.01	Artistry, History and Horticulture of European Gardens	U G	3		7806	Methods in Horticulture and Crop Science	G	1 - 2	
Study of European gardens known for artistry, historical importance, and/or horticultural practices. Prereq: 5097.01, and 2.5 GPA or above. Repeatable to a maximum of 6 cr hrs.					Instruction of a specific method used in the Horticulture and Crop Science professions. Repeatable to a maximum of 12 cr hrs or 6 completions.				
5797.03	Agriculture and Agro-Ecosystems in Chile	U G	3		7821	Environmental Physiology of Managed Plant Systems	G	3	
An eight-day study tour of agriculture industries and agroecosystems in Chile. Prereq: GPA 2.5 or above. Concur: 5097.03.					An advanced study of the interaction of cultivated plants with their environment. Prereq: 5621. Not open to students with credit for 821.				
5797.04	Professional Golf Management: History of Golf Outside the United States - Scotland	U G	3		7830	Phytochemicals in Human Health: Crops to the Clinic	G	3	
Provides undergraduate Professional Golf Management students the opportunity to learn about the rich history of golf in other countries and how the business and game of golf differs globally. Prereq: 5097.04, and 2.5 GPA or above. Not open to students with credit for 697.06.					Covers the function and control of phytochemicals in plants, the function of phytochemicals in human health, delivery of phytochemicals through foods in the diet, strategies when designing studies examining foods for health, and policy and sustainability considerations. Prereq: Biochem 4511 (511) or 5613 (613), or equiv; or permission of instructor. Not open to students with credit for FdScTe 7810. Cross-listed in FdScTe, HumnNtr, BSGP, and PubHEpi.				
5798	Agroecology Field Studies	U G	3		7890	Seminar on HCS Topics	G	1	
This course is a 2-week field study of New Mexico to demonstrate the factors that shape agriculture in the semi-arid southwestern United States and be exposed to Navajo and Pueblo agriculture. Students will learn about the biophysical, climatic, economic, and cultural drivers of agriculture by reading and discussing literature and by visiting farms, research centers, processing plants, and more. Prereq: 2201 or 2201E, and permission of instructor.					Research seminar on varying topics in HCS. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.				
5825	Plant Breeding	U G	2		7999	Graduate Research MS	G	1 - 18	
This course will serve as a general introduction to the principles of plant breeding. Plant breeding is central to anyone who works with plants as most cultivated plants have been impacted using breeding approaches. We will examine concepts relevant to students in plant breeding, genetics, crop sciences, and allied fields of plant pathology and entomology. Prereq: 4325 or 5325. Not open to students with credit for 7625.					Research for thesis purposes for students pursuing a MS degree. MS thesis research in Horticulture and Crop Science may take place in laboratory, greenhouse, and/or field resources at The Ohio State University in Columbus, Wooster, and outlying branch farms. Prereq: MS Grad student standing in Horticulture and Crop Science, or permission of instructor. Repeatable. This course is graded S/U.				
					8825	Advanced Plant Breeding	G	3	
					Advanced Plant Breeding examines theory and methods for improving plant varieties including genetics, breeding designs, tools and techniques, and marker-assisted selection. Sp Sem. Prereq: 7625 (625). Not open to students with credit for 825.				
					8830	Current Topics in Horticulture and Crop Science	G	1	
					Readings from the current literature will be examined in detail for both technical and conceptual content. Repeatable to a maximum of 10 cr hrs.				

246 Horticulture and Crop Science

8887	Techniques of Experimental Design	G	4
Intended to develop student's ability to use appropriate and robust statistical techniques of experimental design in research, with an emphasis on approaches for biological and agricultural sciences. Prereq: 5887, Stat 5301, MolGen 5650, or AnimSci 7000; or permission of instructor.			
8998	Graduate Research Pre-Candidacy PhD	G	1 - 18
Research for dissertation purposes only. Graduate research in Horticulture and Crop Science may take place in laboratory, greenhouse, and/or field resources at The Ohio State University in Columbus, Wooster, and outlying branch farms. Prereq: PhD Grad student standing in Horticulture and Crop Science, or permission of instructor. Repeatable. This course is graded S/U.			
8999	Graduate Research Post-Candidacy PhD	G	1 - 18
Research for dissertation purposes only. Dissertation research in Horticulture and Crop Science may take place in laboratory, greenhouse, and/or field resources at The Ohio State University in Columbus, Wooster, and outlying branch farms. Prereq: PhD Grad student standing in Horticulture and Crop Science and completion of candidacy exam, or permission of instructor. Repeatable. This course is graded S/U.			

Human Development And Family Science

2189	Introduction to Field Work	U	4
Participation in community agency, learning roles and responsibilities, with increasing involvement in program development and evaluation. Department application must be filed one semester in advance. Prereq: 2210, and CPHR 2.5 or above, and permission of instructor. Not open to students with credit for 589.01 and 589.02.			
2200	Family Development	U	3
Dynamics of family interaction over the life cycle; emphasis on developmental, social, and cultural influences on the family experience. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.			
2210	Helping Skills in Context	U	3
The study of various strategies and techniques used to assess and work with individuals and families in the context of family service organizations. Prereq: 2200.			
2239	Land-Grant Universities: Mission and Leadership	U	3
This course provides students with the opportunity to learn about land-grant institutions and their place in the American higher education system, including evolving nature of the land-grant mission in 21st century America, as well as how higher education leaders are reconfiguring our nation's preeminent public institutions to meet the needs of the communities they were designed to serve. Cross-listed in ESHESA.			
2350	Parenting	U	3
Identification and examination of the theoretical approaches applicable to child rearing in families; emphasis on developing practical skills for working with parents and children. Prereq: Not open to students with credit for 665. GE soc sci indivs and groups course.			
2367	American Family Issues	U	3
Development of writing, presentation, and oral discussion skills while critically examining family and related community issues. Prereq: English 1110.01 (110.01), 1110.02 (110.02), or 1110.03 (110.03). Not open to students with credit for 367. GE writing and comm course: level 2.			
2400	Life Span Human Development	U	3
Survey of human development across the life span directed toward an applied understanding of the individual and forces that shape development. This course is available for EM credit. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.			
2410	Child Development	U	3
Study of the nature, nurture, and development of children from conception through the childhood years. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.			
2420	Adolescence and Emerging Adult Development	U	3
Current theory and research on individual development during the adolescent and emerging adulthood years.			
2900	Methods in Human Ecology Research	U	3
Introduction to the fundamental elements of human ecology research, using qualitative, quantitative, and historical perspectives.			
3189.01	Field Work with Targeted Populations: Children	U	1 - 3
Field Work for students who are interested in working with children. Prereq: 2410, and Jr or Sr standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			
3189.06	Field Work with Targeted Populations: Children with Disabilities	U	1 - 3
Field work for students who are interested in working with children with disabilities; promoting independent and productive inclusion in home, school, and community environments. Prereq: 2410, and Jr or Sr standing. Not open to students with credit for 689.02. Repeatable to a maximum of 6 cr hrs or 6 completions.			

3193	Practicum in Human Development and Family Science Research	U	1 - 3
Provides students with opportunity to work individually with faculty member on research project. Arr. Prereq: 2900 or equiv, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
3200	Foundations of Family Science	U	3
Examination of theories and perspectives of family development with an emphasis on the family systems perspective and application.			
3300	Promoting Early Language and Literacy in ECD&E	U	3
This ECDE course focuses on theories of language development, the sequence of speech and language development and differentiating between normal and atypical speech. Emphasis will also be placed on the teacher's role in facilitating communication and literacy skills, on planning and implementing appropriate language and literacy activities, and on selecting & using literature to enhance language.			
3310	Developing Age Appropriate Curriculum for Infants and Toddlers	U	3
This course is an overview of care giving for infants and toddlers in group settings. Developmentally appropriate programming for infants and toddlers is emphasized across developmental areas through routines, environment, and experiences with a focus on language and brain development. The role of staff and parent relationships is explored as is state rules for licensed child care centers.			
3320	Developing Age Appropriate Curriculum in Youth Programs	U	3
This course presents an overview of student engagement in mixed-age Out-of-School Time (OST) youth programs. Developmentally appropriate programming for school-aged children is emphasized across developmental areas through routines, environment, and experiences focusing on academic content, Social Emotional Learning (SEL), and brain development.			
3330	Service Learning and Positive Youth Development for School Age	U	3
This course presents strategies on integrating the principles and opportunities of service learning into your curriculum through projects and reflection, which will develop and refine students' 21st century and character skills. Incorporating voice and choice will be examined as a way to meaningfully engage students. In addition, tools for engaging family and community members will be explored.			
3440	Human Sexuality and Intersectionality Across the Lifespan	U	3
This course will examine, through a multidisciplinary perspective, the ways in which race, ethnicity, and gender diversity influence the lens in which we view, study, and experience human sexuality across the lifespan. GE soc sci indivs and groups course. GE foundation race, ethnicity and gender div course.			
3450	Positive Guidance of Young Children in Group Contexts	U	3
Examines strategies to help promote adaptive behavior in home, school, and community contexts. Students will learn strategies for managing and preventing behavioral problems and develop an understanding of behavior management practices. Prereq: Soph, Jr, or Sr standing; or permission of instructor.			
3800	Professional Development	U	1
The professional: performance, role in society, position securement, involvement in organizations, and continuing development. Students are encouraged to take this course early in the major. Prereq: Not open to students with credit for 595.			
3850	Leading Early Childhood Education, Childcare, and School-Age Programs	U	3
This course provides students with knowledge regarding how to effectively run early childhood education, child care, and school age youth programs. As a result of this course, students will learn practical and evidenced-based leadership strategies for these programs. Prereq: 2410, or equiv.			
4194	Group Studies	U	1 - 3
Selected topics in human development and family science. Prereq: Jr or Sr standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			
4370	Families and Stress	U	3
Examination of normative and developmental stressors and crises that impact on the family; implications for practitioners drawn from conceptual frameworks and recent research. Prereq: 2200, or permission of instructor.			
4998	Undergraduate Research in Human Development and Family Science	U	1 - 10
Undergraduate research in areas of study related to the unit and the instructor's research agenda. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
4998H	Undergraduate Honors Research in Human Development and Family Science	U	1 - 10
Undergraduate honors research in areas of study related to the unit and the instructor's research agenda. Prereq: Honors standing, Jr or Sr standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
5200	Foundations of Couple and Family Therapy	U G	3
Overview and development of key theories of couple and family therapy. Prereq: Jr, Sr, or Grad standing, or by petition. Not open to students with credit for 650.			

Human Development And Family Science 247

5340 Intimate Relationships U G 3

An examination of the individual, couple, and contextual factors that affect the development and maintenance of intimate relationships across the life course. Prereq: 2400, or Grad standing. Not open to students with credit for 670.03.

5350 Families with Adolescents U G 3

This is an upper level advanced course that is designed to provide students with an understanding of theory, research, and application efforts targeting families with adolescents. Prereq: 2200 or 2400, or equiv; or Grad standing.

5440 Human Sexuality in Context U G 3

Examination of issues in human sexuality across the lifespan in the context of peoples' lived experiences within families, communities, and society, using film, texts, and narratives. Prereq: Jr standing or above, and 2400 or 2200 or equiv, or Sexuality Studies major or minor. Not open to students with credit for 370.

5560 Advanced Family Development U G 3

Provides an advanced understanding of theoretical perspectives used to study families, research that generates support for those family theories, and the application of those findings in family-based prevention programs, family intervention, family-oriented policy-making, and family life education efforts. Prereq: 2200 or 2400 or equiv., or Grad standing.

6780 Research Seminar G 1

Expose graduate students to a wide variety of research projects and findings in the field of Human Development and Family Science through weekly seminars presented by various faculty within and outside the department. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 or hrs. This course is graded S/U.

6782 Research Methods G 3

Overview of research methods and related conceptual issues relevant to study of human development and family science; creative approaches to research problems. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 760.

6890 Proseminar G 1

This 1-credit course exposes graduate students to the field of Human Development and Family Science and the current research, teaching and outreach interests of the existing HDFS faculty. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 701.03. This course is progress graded (S/U).

7350 Adolescence and Emerging Adulthood G 3

Theoretical perspectives and empirical studies on adolescent development and emerging adulthood are covered. Focus will be on the reasons for this emerging life stage, recent research, contextual factors, and historical context/cohort differences. Prereq: Grad standing, or permission of instructor.

7765 Advanced Child Development G 3

Growth and development of children with emphasis on maturation patterns and individual differences. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 765.

7770 Professional and Ethical Issues in Couple and Family Therapy G 3

A preclinical introduction to the central issues and resources in professional development, including personal growth, legal responsibilities, regulation, ethics, and special areas of practice. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 770.

7780 Research Methods in Couple and Family Therapy G 3

Explore major design, measurement and analysis strategies for conducting and understanding couple and family therapy research. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 881.

7860 The Art of College Teaching within the Human Sciences G 3

Enhance student preparation to teach UG courses in the human sciences at the college level. You will learn theory-driven, evidence-based pedagogy, teaching skills, apply pedagogical strategies & discover your philosophy of teaching. Topics include: social issues, student learning, backwards course design, mechanics, pedagogical strategies, assessment techniques, reflection, and professional dev. Prereq: Grad standing. Cross-listed in KNPE.

7999 Thesis Research G 1 - 12

Research for masters thesis. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is progress graded (S/U).

8081 Introductory Seminar: Applied Developmental Science in Education G 3

An introductory professional seminar for doctoral students seeking the Interdisciplinary PhD Specialization in Applied Developmental Science in Education (ADS-E). Cross-listed in EduTL and EducSt.

8082 Capstone Seminar: Applied Developmental Science in Education G 3

A capstone professional seminar for doctoral students enrolled in the Interdisciplinary PhD Specialization in Applied Developmental Science in Education (ADS-E). Prereq: 8081 or EduTL 8081 or EducSt 8081. Cross-listed in EduTL and EducSt.

8189 Practicum in Couple and Family Therapy G 1 - 3

Supervised practice in couple and family assessment and intervention in the department's couple and family therapy clinic. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 27 cr hrs or 27 completions. This course is progress graded (S/U).

8189.01 Practicum in Research G 1 - 3

Participation in the research process under the supervision of a faculty member. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 851. This course is progress graded (S/U).

8189.02 Practicum in Teaching G 1 - 3

Supervised college teaching experience for department graduate students. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is progress graded (S/U).

8189.11 Pre Practicum in Couple and Family Therapy G 3

This course is an introduction to the practice of couple and family therapy for masters and Ph.D. students in the Couple and Family Therapy specialization. It will cover such topics as assessment and diagnosis, psychopharmacology, in session interventions, and ethical and legal issues that are commonly observed in couple and family therapy.

8189.12 Practicum in Couple and Family Therapy, Masters G 1 - 9

This course is a practicum course for masters students assigned to see clients in the on-campus Couple and Family Therapy Clinic and/or at placements in the community. Prereq: 8189.11. Repeatable to a maximum of 9 cr hrs or 3 completions.

8189.13 Practicum in Couple and Family Therapy, Masters, Placement G 1 - 6

The practicum course is designed to train Couple and Family Therapy Students in systemic assessment, diagnosis, and treatment planning in order to provide couple and family therapy to a variety of client presentations. Students in the masters program must obtain 500 hours of client contact, with 250 of those hours in relational therapies. Students are required to be supervised during those hours. Prereq: 8189.11 and 8189.12. Repeatable to a maximum of 6 cr hrs or 2 completions.

8189.14 Practicum in Couple and Family Therapy, Doctoral G 1 - 3

This is a practicum course for doctoral students who are assigned to see clients at the on-campus Couple and Family Therapy Clinic and/or provide supervision to trainees at the clinic. Repeatable. This course is graded S/U.

8190 The PhD Job Market G 2

This 2-credit course examines issues related to the job market for Ph.D.s. Both academic and nonacademic jobs are discussed. Application, interviewing, and negotiating techniques are described. Prereq: Doctoral standing. This course is graded S/U.

8193 Independent Studies for Doctoral Students G 1 - 3

Problems in various phases of human development chosen for individual study. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is progress graded (S/U).

8404 Adolescence: Risk in Context G 3

Examines the ways that social relationships and contexts (family, peers, community, etc) shape development, specifically risk and problem behavior during the adolescent period. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 840.04.

8725 Quantitative Methods Capstone Course G 3

This seminar is the capstone experience of the GIS in Quantitative Research Methods. Much of the work will be student-identified and student-led. The course will consist of work in: identification of new or emerging topics or software in quantitative methods: readings and discussion on advanced topics: student-led demonstrations or presentations; and GISQRM paper updates and progress reports. Students entering this course must have completed or nearly completed their GISQRM coursework. See the GISQRM website for details. Cross-listed in ESQREM and VetPrev.

8820 Theoretical Perspectives on the Family G 3

Provides an overview of theoretical perspectives used to study families and family change topics in HDFS from the perspective of psychology, sociology, economics, demography, anthropology, and others. Prereq: Grad standing, or permission of instructor.

8824 General Systems Theory G 3

Doctoral level course designed to provide students with an introduction to foundational ideas concerning general systems theory as applied to children, family, schools, and communities. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 824.

8860 Seminar in Couple and Family Therapy G 3

Seminar in Couple and Family Therapy. Topics to be announced. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 or hrs.

8861 Medical Family Therapy in Couples and Family Therapy G 3

This course is designed to introduce you to the theory, fundamentals, and practical applications of medical family therapy. Students will be able to identify medical specializations, terminology, assessments, collaborative models and case note formats common to medical settings. Application to diverse families in a variety of settings is discussed throughout the course. Prereq: Enrollment in HDFS Grad program, or permission of instructor.

8862 Seminar in Human Development and Family Science G 3

Seminar in Human Development and Family Science, topics to be announced. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs.

248 Human Development And Family Science

8863 Trauma-Informed Therapy in Couples and Family Therapy G 3

This course provides an overview of evidence-based practice for working with survivors of trauma using a systemic and relational lens. In this course, students will explore the nature and meaning of trauma, assessing, and identifying trauma, and effective practices for treating trauma. This will include a focus on clinical assessments for trauma and understanding diagnosis and trauma. Prereq: Enrollment in HDFS Grad program, or permission of instructor.

8864 Substance Use and the Family in Couples and Family Therapy G 3

This graduate level course focuses on the impact of alcohol and drug use on family functioning, process and interaction. Family Systems models for intervening with couples and children are reviewed. Research in this area is critically evaluated and reviewed. Empirically-supported systemic and behavioral models for intervening with both the couple and family are addressed. Prereq: Enrollment in HDFS Grad program, or permission of instructor.

8874 Family Therapy Theory I G 3

An emphasis on the theoretical orientation of the structural, strategic, MRI, and Milan approaches to family therapy. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 874.

8875 Family Therapy Theory II G 3

An emphasis on the theoretical orientation of the intergenerational, behavioral, experimental and solution-focused approaches to family therapy. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 875.

8876 Marital Therapy Theory G 3

An emphasis on theoretical approaches, intervention techniques, and basic issues or problems of application for couple therapy. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 876.

8878 Supervision of Couple and Family Therapy G 3

Preparation of Couple and Family Therapy doctoral students to provide supervision of therapy. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 878.

8879 Advanced Lifespan Human Development G 3

This course will provide an overview of individual and family developmental issues across the lifespan from infancy to old age, as well as the effects of these issues/events upon individuals, couples, and family relationships. The class will focus on theory, research, and application of individual and family developmental theory and related cultural and diversity issues. Prereq: Enrollment in HDFS Grad program, or permission of instructor.

8880 Diversity in Couple and Family Therapy G 3

In this course, we will pursue multicultural perspectives that encourage and affirm respect for the diversity in various relational systems. We will work to construct a broad conceptual framework for viewing diversity and multiculturalism and apply it to our work as couple and family therapists. Prereq: Enrollment in HDFS Grad program, or permission of instructor.

8881 Diagnosis in Couple and Family Therapy G 3

The purpose of this course is to provide students with an overview of mental illness, the DSM-5, and different conceptual frameworks for understanding the etiology, course, and treatment of diagnosable conditions. Students will be trained to use the DSM-5 to diagnose mental disorders and to view DSM-5 disorders from biopsychosocial-spiritual and relational/systemic perspectives. Prereq: Enrollment in HDFS Grad program, or permission of instructor.

8999 Dissertation Research G 1 - 12

Research for thesis or dissertation purposes only. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

Human Nutrition

2193 Individual Studies U 1 - 6

Problems in various phases of human nutrition chosen for Intermediate level undergraduate individual study. Prereq: Written permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

2194 Group Studies U 1 - 3

Selected topics for intermediate undergraduate study in human nutrition. Repeatable to a maximum of 6 cr hrs or 6 completions.

2200 Nutrition for Health Professionals U 2

This course is a foundational nutrition course that introduces the principles and concepts of human nutrition. It emphasizes healthy diets, essential nutrients, and their application to the function and health of the human body. Prereq: Not open to students with credit for 2210, 2310, or 2410.

2295 Careers in Nutrition U 1

Nutrition majors and minors explore the integration of nutrition/dietetics in diverse careers through self-assessment, employer presentations; internship and job search strategies.

2310 Fundamentals of Nutrition U 3

Nutrient and energy needs of the human biological system throughout the life cycle including energy balance with consideration of socio-psychological factors. Prereq: Biology 1113 (113), or 1101 (101), or equiv; and Chem 1210, or 1610, or 1910H; and Chem 1220, or 1620, or 1920H, or 1250. Not open to students with credit for 310. This course is available for EM credit.

2314 Fundamentals of Food U 3

Scientific principles of food components, of major food groups and their interactions, with reference to nutritional properties, food preparation, food chemistry, optimum quality, microbiological safety and preservation of nutrients. Prereq: 2210 or 2310 or 2410, and premajor, major, or minor in the following: Human Nutrition, Animal Science, Medical Dietetics, or Family and Consumer Science Education.

2410 Science of Human Nutrition U 4

Basic principles of biological science, emphasizing the interaction between nutrients and physiological (including cellular) processes. Prereq: Not open to students with credit for 2210. GE nat sci bio course. GE foundation natural sci course.

2450 Foodservice Sanitation and Safety U 1

Organization of a facility to ensure safe and sanitary foodservice program. Includes National Restaurant Association's ServSafe Sanitation Certification program and Ohio Department of Health Certification in Food Protection. Prereq: Not open to students with credit for 450.

3313 Food in Different Cultures U 2

Food practices of selected peoples of the world with consideration of the existing social, cultural, and economic conditions. Class content through lecture, discussion, and guest speakers. Prereq: 2210 or 2310 or 2410; and FCSEd major, Human Nutrition major, Human Nutrition pre-major, or Human Nutrition minor.

3415 Global Nutrition Issues U 2

Topics in global nutrition with critical appraisal of research basis and alternative viewpoints. Current issues include research and evaluation, major global nutrition issues (obesity, food insecurity, malnutrition, bioengineering, vegetarianism). Prereq: 2310; or AnimSci 3130; or HumnNtr 2210 or 2410, and major in FCSEd or minor in Human Nutrition.

3506 Nutrition Across the Life Span U 3

Nutrition issues during major life stages from pre-pregnancy through the dying elderly. Prereq: 2210, 2310, 2410, or AnimSci 3130.

3704 Public Health Nutrition U 2

Review of evidence base for public health nutrition including examination of food assistance and education programs; Description of public health nutrition efforts; Investigation of practices aimed at empowering the public to choose healthy foods. Prereq: 2210, 2310, or 2410.

3780H Research Methods in Nutrition U 1

Development of hypotheses and choosing appropriate methods to test them. Work with advisor to write Honors research proposal. Prereq: Honors standing.

3998 Undergraduate Research in Human Nutrition U ½ - 6

Undergraduate research in areas of study related to human nutrition and the instructor's research agenda. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 12 completions. This course is graded S/U.

3998H Undergraduate Honors Research in Human Nutrition U ½ - 6

Undergraduate honors research in areas of study related to human nutrition and the instructor's research agenda. Prereq: Honors standing and written permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4189 Professional Experience in Human Nutrition U 1 - 3

Supervised pre-planned employment experience with approved biomedical or medical professional. Prereq: Soph standing and HumNtr major. This course is graded S/U.

4193 Individual Studies U 1 - 6

Problems in various phases of human nutrition chosen for advanced undergraduate individual study. Prereq: Permission of instructor. Not open to students with 10 qtr cr hrs for HumNtr 593. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4194 Group Studies U 1 - 3

Selected topics for advanced undergraduate study in human nutrition. Repeatable to a maximum of 6 cr hrs or 6 completions.

4504 Nutrition Education and Behavior Change U 3

Contemporary theories and models of health education and behavior change related to individuals, groups and communities and applied to field of nutrition. Review of effective communication techniques with individuals and groups. Prereq: 2310 or 2410, and HumNtr major or minor, or MedDiet major, or HPNES major.

4596 Dietetics Seminar U 1

Advanced professional development issues in dietetics: Leadership, marketing, research, continuing education, licensure, and preparation for dietetic internship/graduate education. Prereq: 2295; and premajor or major in Dietetics; and Soph standing or above.

4609 Macronutrients U 3

Application of biochemistry and physiology to the regulation of carbohydrate, lipid, and protein during fed, fasted and exercise states; nutrient digestion, absorption, metabolism, excretion, requirements, and interactions. Prereq: C- or above in 2310, or 2410, or AnimSci 3130; and Biochem 2210 and Chem 2310, or Biochem 4511, or BioPhm 3311 and 3312; and prereq or concur EEOB 2520, or Physio 3101 and 3102, or 3200.

4610	Micronutrients and Phytochemicals	U	3
Application of biochemistry and physiology to understanding micronutrients, including structure, digestion, absorption, metabolism, excretion, requirements, sources, and interactions of vitamins, phytochemicals, water, electrolytes, and minerals. Prereq: 4609 and C- or higher in 2310 or 2410; and HumnNtr, MedDiet, AnimSci, or HNPES major.			
5100	Integrating Nutrition into the Contemporary Marketplace	U G	3
This course will provide hands-on activities/real-life case scenarios to master critical thinking skills. It will combine points of view from marketing, econ, science, supply chain, medical/legal affairs, regulatory, sales, & strategy to provide students relevant skills to enter positions in manufacturing, entrepreneurship, restaurant, & contracting services as related to the food/nutr industry. Prereq: 2210, 2310, or 2410, and 2295; or Grad Standing.			
5611	Medical Nutrition Therapy I	U G	3
The role of medical nutrition therapy in the treatment of established chronic diseases with emphasis on the biochemical and physiological rationale for dietary modifications. Prereq: 4609, and Human Nutrition or Medical Dietetics major; or Grad standing. Prereq or concur: MedDiet 4900.			
5612	Medical Nutrition Therapy II	U G	3
The role of medical nutrition therapy in the treatment of established disease with emphasis on the biochemical and physiological rationale for dietary modifications. Prereq: 5611 (611), and Human Nutrition or Medical Dietetics major; or Grad standing. Not open to students with credit for 612.			
5622	Medical Nutrition Therapy I Lab	U G	1
Laboratory and practical application of the nutrition care process through assessment, management and treatment of various disease states. Concur: 5611, and enrollment in DPD.			
5623	Medical Nutrition Therapy II Lab	U G	1
This is a laboratory course focusing on application of medical nutrition therapy to complex disease conditions and the role of the Registered Dietitian Nutritionist (RDN) in the healthcare delivery system, including the role of the RDN in billing and coding for reimbursement of medical nutrition therapy. Prereq: 5611, and admission to the Didactic Program in Dietetics. Concur: 5612.			
5705	Nutrition and Physical Performance	U G	2
Integration of nutrition, exercise physiology, and biochemistry. Use of nutrients as fuel, interaction between nutrients and exercise performance, assessment of energy expenditure and nutritional status, interactions among diet, exercise and health. Prereq: 4609 (610). Not open to students with credit for 705.			
6010	Motivational Interviewing for Behavioral Change	G	1
Students will gain knowledge and skills in promoting nutrition-related behavioral change. The spirit behind motivational interviewing and strategies for promoting change will be presented. Prereq: Grad standing, or permission of instructor.			
7193	Individual Studies	G	1 - 6
Problems in various phases of human nutrition chosen for intermediate level graduate individual study. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
7194	Group Studies	G	1 - 3
Selected topics for intermediate graduate study in human nutrition. Prereq: Open to students who meet department's stated prerequisites. Repeatable to a maximum of 6 cr hrs or 6 completions.			
7200	Personalized Nutrition	G	3
This course provides recent scientific literature regarding the basic concepts of personalized nutrition and modern technologies that facilitate the applications of the individual approach. Prereq: Grad standing.			
7600	Metabolomics, Principles and Practice	G	3
This course aims to introduce students to the principles and practices of metabolomics with a focus on the application of metabolomics to plant, food, nutrition and health-related research. Prereq: Permission of instructor. This course is available for EM credit. Cross-listed in BMI, FdScTe, and HCS.			
7630	Advanced Nutrition and Metabolic Diseases	G	3
Metabolic diseases influence almost every major chronic illness we face today (i.e. cardiovascular disease, cancer, diabetes, Alzheimer, etc.). This course provides an in-depth evaluation of multiple factors in the development of major chronic conditions and identifies the role of personalized nutrition in the prevention and treatment of these conditions. Prereq: 7761, or permission of instructor.			
7761	Macronutrient Metabolism	G	4
In-depth treatment of digestion, absorption, transport, and utilization of dietary carbohydrates and fat for energy production and fat deposition in humans and other higher animals. Prereq: 2310 (310) or AnimSci 3130 (330), and Biochem 4511 (511). Not open to students with credit for 761 and 762, AnimSci 761 and 762, or FdScTe 761 and 762. Cross-listed in AnimSci.			
7762	Vitamin and Mineral Metabolism	G	4
Biochemical functions, absorptions, transport, utilization, interrelationships and nutritional requirements of selective vitamins and minerals in higher vertebrates and humans. Prereq: Credit in Biochem and Physiol. Not open to students with credit for AnimSci, FdScTe, or HumnNtr 763. Cross-listed in AnimSci.			

7789	Nutrition Research Ethics	G	1
Exploring critical aspects in conducting research, including ethical consideration, authorship, conflicts of interests, and intellectual property rights. Prereq: Grad standing. Not open to students with credit for AnimSci 7789. Cross-listed in AnimSci.			
7790	Animal Models and Mechanistic Research Design	G	1
The course will provide fundamental principles in establishing effective research hypothesis, through student evaluation of primary literature and student interactions. Prereq: 7789 or AnimSci 7789. Not open to student with credit for AnimSci 7790. Cross-listed in AnimSci.			
7791	Community and Clinical Nutrition Research Design	G	1
The course will provide fundamental principles in establishing effective research hypotheses and designs to answer specific research questions. A focus on research designs, specifically randomized controlled trials, commonly used in community-based studies and clinical trials will be employed. Prereq: 7789 or AnimSci 7789.			
7804	Advanced Nutrition in a Global Community	G	3
Discussion of the major or emerging global nutrition issues across various populations. The course explores intervention approaches and global action toward these issues. Prereq: Grad standing.			
7806	Behavioral Nutrition: Why People Change	G	3
Evidence-based principles for facilitating nutrition-related behavioral change, including mechanisms of change, will be examined. Health behavior theory will be used to guide the development and evaluation of behavior change programs for the target audience.			
7830	Phytochemicals in Human Health: Crops to the Clinic	G	3
Covers the function and control of phytochemicals in plants, the function of phytochemicals in human health, delivery of phytochemicals through foods in the diet, strategies when designing studies examining foods for health, and policy and sustainability considerations. Prereq: Biochem 4511 or 5613, or equiv; or permission of instructor. Not open to students with credit for FdScTe 7810. Cross-listed in FdScTe, HCS, BSGP, and PubHEpi.			
7899	Oral Research Communication	G	1
Critical analysis of the scientific literature and demonstration of effective oral presentation skills tailored to the target audience with use of information technologies as needed. Prereq: Grad standing. Cross-listed in AnimSci.			
7999	Research: Thesis	G	1 - 16
Research for masters thesis. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 16 completions. This course is graded S/U.			
8193	Individual Studies	G	1 - 6
Problems in various phases of human nutrition chosen for advanced level graduate individual study. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
8194	Group Studies	G	1 - 3
Selected topics for advanced graduate study in human nutrition. Repeatable to a maximum of 6 cr hrs or 6 completions.			
8801	Macronutrients- Lipids and Energy Balance	G	3
Discussion of lipids as storage molecules used for energy and to modulate metabolism and influence energy balance conditions such as obesity, cachexia, weight loss and weight gain. Prereq: 7761 (761), AnimSci 7761 (761), or FdScTe 761. Not open to students with credit for 830.01, AnimSci 830.01, or FdScTe 830.01. Cross-listed in AnimSci.			
8802	Advanced Micronutrient Metabolism	G	3
Comparative study of the regulation of micronutrient status and its influence on physiological and molecular events including nuclear receptor activity and transcription. Prereq: 7761 (761), AnimSci 7761 (761), or FdScTe 761. Not open to students with credit for 830.02, or AnimSci 830.02, or FdScTe 830.02. Cross-listed in AnimSci.			
8833	Diet, Nutrition and Cancer	G	3
Epidemiological, clinical and basic perspective of how diet and nutrition practices. Prereq: 7761 (761), AnimSci 7761 (761), or FdScTe 761. Not open to students with credit for 830.12, AnimSci 830.12, or FdScTe 830.12. Cross-listed in AnimSci.			
8835	Grantsmanship	G	1
Capstone course for the OSUN PhD program will train students on grantsmanship skills. Prereq: Grad standing. Cross-listed in AnimSci.			
8836	Advanced Nutritional Genomics	G	3
The primary goal of the course is to stimulate critical thinking and discussion among graduate students about current research findings in the areas of genomics, proteomics and metabolomics as they apply to studies in the nutritional sciences. Prereq: 7761 or AnimSci or FdScTe 7761, and HumnNtr or AnimSci 7762. Cross-listed in AnimSci.			
8888	OSUN Research Seminar	G	1
Recent advances in nutrition science are presented by locally, nationally and internationally recognized scientists. Prereq: Grad standing. Repeatable to a maximum of 5 cr hrs. This course is graded S/U. Cross-listed in AnimSci.			
8998	Graduate Research	G	1 - 15
Graduate research in areas of study related to human nutrition and the instructor's research agenda. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

250 Human Nutrition

8999 Research: Dissertation G 1 - 15
 Research for dissertation. Prereq: Permission of instructor. Repeatable. This course is graded S/U.

Industrial and Systems Engineering

2040.01 Engineering Economics In-Person U 2
 Economic analysis of engineering project alternatives. Cash flow modeling; time value of money; techniques for comparing project alternatives and making solid business recommendations; influence of financial accounting and cost accounting on cash flow models. Course uses MS Excel as primary business tool for modeling. Prereq: Soph standing in Engineering or BSET program.

2040.02 Engineering Economics - Online U 2
 Economic Analysis of engineering project alternatives. Cash flow modeling; time value of money; techniques for comparing project alternatives and making solid business recommendations; influence of financial accounting and cost accounting on cash flow models. Course uses MS Excel as primary business tool for modeling. Prereq: Soph standing in Engineering.

2194 Group Studies in Integrated Systems Engineering U 1 - 4
 Special topics of general interest to students enrolled in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

2400 Design of Work: Methods and Measurement U 2
 Introduces students to tools and techniques used in work methods design and productivity improvement, including operation analysis, motion study, value engineering, predetermined time systems, time study, line balancing. Prereq: Soph standing, and enrollment in Industrial and Systems Engineering major or Engineering Physics major. Additional prereq for students enrolled in ISE major: a grade of C or above in English 1110, Math 2568, Stat 3470, and CSE 1222 or 1223 or 1224.

2500 Introduction to Manufacturing Engineering U 3
 Fundamentals of common manufacturing processes, materials and tooling; relationship of product design to required processing sequences and steps, attributes of manufacturing systems. Prereq: Not open to students with credit for 350 or IndEng 311.

3194 Group Studies in Integrated Systems Engineering U 1 - 4
 Special topics of general interest to students enrolled in Integrated Systems Engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

3200 Linear and Integer Programming U 3
 Introduction to formulation, solution and analysis of continuous and discrete linear models to optimize the design of production and service systems and other engineering applications. Prereq: Math 2568 or 2174, and CSE 1222 or 1223 or 1224 or Engr 1281.01H or 1281.02H, and enrollment in ISE or Engineering Physics major. Additional prereq for students enrolled in ISE major: CSE 2112. Additional prereq or co-req for students enrolled in ISE major: ISE 2400.

3210 Nonlinear and Dynamic Optimization U 3
 Introduction to nonlinear, dynamic, and network optimization models and solution techniques. Prereq: 3200 and MechEng 2850, and enrollment in ISE or Engineering Physics major.

3230 Systems Modeling and Optimization for Analytics U 3
 Introduction to formulation, solution and analysis of continuous and discrete linear and nonlinear models to optimize systems using data-driven techniques. Prereq: Math 1152, 2568, and CSE 2231. Not open to ISE majors or to students with credit for 3200 or 3210.

3400 Production Planning and Facilities Design U 4
 Introduction to production systems control: deterministic and stochastic, static and dynamic, single-stage and multi-stage inventory control, MRP systems, just-in-time, scheduling. Facility and machine location models, storage models (warehouse, ASRS), simple layout models, systematic layout planning with applications in manufacturing, health care, service and logistics. Prereq: 3200, Stat 3470, and enrollment in ISE or Engineering Physics major. Additional prereq for students enrolled in ISE major: ISE 3600.

3500 Process Engineering for Machining Operations U 3
 Introduction to the machines, tooling, set-ups, processing sequences, processing times, metrology, and safety issues for traditional and selected non-traditional metal cutting operations. Prereq: 2500, and enrollment in ISE major.

3600 Workplace Ergonomics: Analysis and Design of Physical Work Systems U 3
 Explores physiological and biomechanical principles used to analyze and design work systems (tasks, tools, equipment) so people can perform their jobs more effectively and safely. Prereq: 2040 and Stat 3470, and enrollment in ISE or Engineering Physics major; CPHR 3.0 or above for students not enrolled in ISE or Engineering Physics major. Prereq or concur: ISE 2400 and MechEng 2040 for students enrolled in ISE major.

3700 Cognitive Engineering Systems U 3
 Human-centered design of cognitive tools and work systems. Human-computer interaction; decision making; human error; computer-supported distributed work; design of decision support systems. Prereq: 2400, and enrollment in ISE major; or enrollment in Engineering Physics major.

3800 Engineering Project Management U 3
 Project management for engineers, including project life cycle, planning, optimization models, management of change and scheduling and budgeting. Prereq: 2400, and enrollment in ISE major; or enrollment in Engineering Physics major; or permission of ISE Academic Advisor.

4100 Stochastic Modeling and Simulation U 4
 Methods for stochastic process and discrete event simulation modeling and system design and decision-making using simulation tools. Prereq: 2400 and Stat 3470, and enrollment in Industrial & Systems Engineering major; or permission of instructor.

4120 Quality and Reliability Engineering U 3
 Techniques associated with the Total Quality Management and Lean Six Sigma as well as the foundations of reliability engineering. Prereq: Stat 3470, and enrollment in ISE major or EngPhys major. Not open to students with credit for 510 and 610, or IndEng 509 or 610.

4193 Individual Studies in Integrated Systems Engineering U 1 - 4
 Special topics of general interest to undergraduate students in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

4194 Group Studies in Integrated Systems Engineering U 1 - 4
 Special topics of general interest to undergraduate students in Integrated Systems Engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

4500 Manufacturing Process Engineering U 3
 A thorough quantitative understanding of contemporary manufacturing processes; exposure to laboratory exercises and computer simulations in major manufacturing processes; design for manufacturing and assembly. Prereq: Option 1: MechEng 3670. Prereq or concur: MechEng 3503, Or Option 2: MechEng 2020 or 2040, and WeldEng 4201 or MechEng 3500 or MatScEn 3151; or permission of instructor.

4510 Manufacturing Engineering U 3
 This course emphasizes quantitative analysis of manufacturing processes, discusses manufacturing support systems, evaluates interplay between materials and manufacturing, and discusses future manufacturing like automation and data-driven controls. Prereq: 2500, and enrollment in ISE major.

4900 Capstone Design U 4
 In-depth systems design project for industrial engineering. Exploration and selection of design alternatives; justification, recommendation, and presentation of problems and potential solutions. Prereq: 2040, 2400, 2500, 3200, 3210, 3400, 3600, 3700, 3800, 4100, and 4120, and enrollment in ISE major.

4998 Undergraduate Research in Integrated Systems Engineering U 1 - 4
 Opportunity for undergraduates to conduct research in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.

4998H Honors Undergraduate Research in Integrated Systems Engineering U 1 - 4
 Opportunity for undergraduate honors students to conduct research in Integrated Systems Engineering. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.

4999 Undergraduate Research for Thesis U 1 - 4
 Opportunity for undergraduates to conduct research in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.

4999H Honors Undergraduate Research for Thesis U 1 - 4
 Opportunity for Honors undergraduates to conduct research in Integrated Systems Engineering. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions.

5043 Power Systems - Analysis and Operation U G 3
 Power systems analysis and operations, including steady-state analysis, state estimation, and economic operation. Prereq: 3040, and ECE major; or Sr standing and ISE major; and Math 2568; or Grad standing in engineering or biological sciences or math and physical sciences. Cross-listed in ECE.

5110 Design of Engineering Experiments U G 3
 Plan and analyze experiments relevant to system design. Also, students will learn regression and alternative approaches for on-hand data analysis. Prereq: 4210; or Stat 3470 or equiv, and Grad standing. Not open to students with credit for 610 or IndEng 610.

5193 Individual Studies in Integrated Systems Engineering U G 1 - 4
 Special topics of general interest to graduate students in Integrated Systems Engineering. Prereq: Enrollment in department BS/MS program, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

5194 Group Studies in Integrated Systems Engineering U G 1 - 4
 Special topics of general interest to undergraduate and graduate students in Integrated Systems Engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

Industrial and Systems Engineering 251

5200 Linear Optimization U G 3

Introduction to the linear optimization and applications. Topics include model formulation, solution methods, polyhedral and duality theory, sensitivity analysis, and software usage. Prereq: Math 2174, 2415, 2568, or 4568, and permission of instructor; or Grad standing. Not open to students with credit for 720 or IndEng 702.

5201 Theory of Linear Optimization U G 3

Introduction to linear optimization with an emphasis on theory. Topics include model formulation, solution methods, polyhedral and duality theory, sensitivity analysis, and software. Prereq: Math 2174, 2415, 2568, and permission of instructor; or Grad standing. Not open to students with credit for 5200 (720).

5220 Complementarity Theory & Applications U G 3

Describes complementarity models and their solution techniques. It includes optimality conditions, equilibria, mathematical programs with equilibrium constraints and equilibrium problems with equilibrium constraints. Prereq: 3200, or permission of instructor.

5225 Electricity Market Analytics U G 3

This course provides an analysis of decision-making tools for electricity markets, addressing the perspectives of the market operator, producers, retailers, and consumers. Prereq: 3200, or permission of instructor.

5230 Decomposition Techniques in Mathematical Programming U G 3

This course provides a description of decomposition techniques to solve large-scale optimization problems with decomposable structure. Partitioning techniques considered include Dantzig-Wolfe, Benders and Lagrangian decompositions. The considered techniques are illustrated using examples and case studies from the energy sector. Prereq: 3200 and 3210, or Grad standing.

5350 Probabilistic Models and Methods in Operations Research U G 3

Introduces probabilistic modeling techniques in operations research like Markov Chains, Poisson Processes, and Markov Decision Processes. Modeling, theory, and applications are discussed. Prereq: 3200 and Stat 3470; or permission of instructor. Not open to students with credit for 7300.

5410 Quantitative Models in Production and Distribution Logistics U G 3

Introduction to quantitative models in supply chain management and logistics including: location analysis, inventory management, vehicle routing, coordination, risk pooling, reverse logistics. Prereq: 3210 and 3400.

5430 Warehouse and Facility Design U G 3

Broad exposure to facility planning and design, and distribution center layout and operations. Topics include current material handling equipment technology, and warehouse systems and operations. Prereq: Calculus, Linear Algebra, and Linear Programming. Not open to students with credit for 742.

5501 Fundamentals of Solid State Processing U G 3

Application of basic principles of heat transfer, tribology, and elastic/plastic deformation for metallic solids to manufacturing processes. Prereq: MechEng 2010, 2020, and 2040, or equiv, and Sr or Grad standing in Engineering.

5503 Manufacturing Processes and Simulation U G 3

An introduction to theory and simulation of different manufacturing processes. Learn to apply numerical methods to manufacturing processes such as machining, hot embossing, and injection molding. Prereq: Jr or Grad standing in Engineering, or permission of instructor.

5520 Industrial Automation U G 1½

Industrial Automation teaches the design, application, and computer logic and control of various mechanical, pneumatic, electrical, and electronic sensors and actuator devices for industrial systems. Prereq: 2500, or Grad standing in Engineering.

5525 Industrial Robotics U G 1½

Operating principles, selection, use of proximity and optical sensors; switches, relays, actuators; electric motors and controls; electro-pneumatic devices; integration of these for automated industrial systems. Prereq: 2500, or Grad standing in Engineering.

5540 Polymer Processing Fundamentals U G 3

Applies fundamentals of transport phenomena and polymer constitutive equations to the analysis of manufacturing of plastic components. Prereq: MechEng 2020, 2040, or equiv. Prereq or concur: MatScEn 2251, MechEng 4510, or equiv.

5555 Manufacturing Processes and Machine Tools U G 3

Focuses on machining processes: cutting, grinding and milling. It includes descriptive and analytical treatment of machining processes, equipment, computer control and integrated systems. Prereq: Jr, Sr, or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 651.01 or IndEng 611.

5600 Principles of Occupational Biomechanics and Ergonomics U G 3

Introduction to anatomical, physiological, and biomechanical bases of physical ergonomics; workplace assessment techniques; biomechanical modeling; bioinstrumentation; preparation for advanced topics and research. Prereq: Grad standing. Not open to students with credit for 660.

5610 Ergonomics in the Product Design Process U G 3

Provides students with an understanding of where and how ergonomic principles are incorporated into the design and evaluation of consumer products. Prereq: 3600 and 3700 or equiv. Not open to students with credit for 769.

5620 Risk Assessment Tools for Occupational Musculoskeletal Disorders U G 3

Provides students with an understanding and working knowledge of tools used to assess risk of occupationally related musculoskeletal disorders. Prereq: 3600 or equiv. Not open to students with credit for 761.01 or 761.02.

5640 Occupational Safety: Analysis and Design of Work Environments U G 3

Introduction to workplace hazards and controls for engineers and others who design workplaces, equipment, tools, and processes. Prereq: Enrolled in a major in the College of Engineering, or Construction Systems Management; or Grad standing. Not open to students with credit for 664 or 665, or to pre-majors.

5650 Introduction and Practical Experience in Ergonomics Research U G 1 - 3

To provide undergraduate students with the opportunity to engage in applied ergonomics research in a group setting. To provide graduate students the opportunity to engage with undergraduates in a mentoring and collaborative research setting. Prereq: Stat 3470, or equivalent. Coreq or prereq: ISE 3600, or 3700, or permission of instructor. Repeatable to a maximum of 3 cr hrs or 3 completions.

5682.01 Fundamentals of Product Design Engineering U G 3

Lecture covering the fundamentals of the product design process, from concept creation to final implementation, including product architecture and design for manufacture and assembly. An optional, corresponding project-based lab course (ME 5683) offers practical application of this material. Only open to students enrolled in majors in the College of Engineering. Prereq: Jr, Sr, or Grad standing in the College of Engineering, or permission of instructor. Not open to students with credit for 5682, 5682.02, 5560, MechEng 5682, 5682.01, or 5682.02.

5682.02 Product Design Engineering for Entrepreneurs U G 3

Fundamentals of the product design process, from concept creation to final implementation, including product architecture and design for manufacture and assembly. Prereq: Not open to students with credit for 5682, 5682.01, MechEng 5682, 5682.01, or 5194 (Abell - AU15, SP16, AU16). Cross-listed in MechEng.

5700 Introduction to Cognitive Systems Engineering U G 3

Human-centered design of consumer products, web sites and complex sociotechnical systems. Topics include human-computer interaction and the design of decision support and distributed work systems. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 3700 (770).

5710 Behind Human Error: Safety and Complex Systems U G 3

Covers how complex systems fail and the human contribution to success and failure by studying actual disasters in diverse fields. Prereq: Sr or Grad standing, or permission of instructor. Not open to students with credit for 875.

5740 Cognitive Engineering Systems: Human-Centered Automation U G 3

Provides key concepts to make autonomous systems, robots, and artificially intelligent systems team players with responsible people. Prereq: Sr or Grad standing, or permission of instructor. Not open to students with credit for 771.01. Repeatable to a maximum of 8 cr hrs or 4 completions.

5745 Human-Centered Machine Learning U G 3

Design and analysis of ML for human users. Topics include: introductory machine learning; interactive ML; ethics in AI; human-agent interaction; human-subject research. Students not familiar with Python should enroll in an introductory python course as a pre- or co-requisite. Prereq: Sr or Grad standing in Engineering.

5760 Visual Analytics and Sensemaking U G 3

Students learn about information visualization techniques that help people analyze massive amounts of digital data to combat overload and aid sensemaking with applications in retail and financial decision making, logistics, information systems, manufacturing, healthcare, energy and smart grids, cybersecurity and social networks. Prereq: Jr, Sr, or Grad standing. Not open to students with credit for 773.01.

5770 Cognitive Engineering Systems: Design and Evaluation U G 3

Evaluation of product and system design to assess usefulness and usability; advanced design concepts for consumer products, web sites, educational tools and information retrieval systems. Prereq: Sr or Grad standing, or permission of instructor. Not open to students with credit for 772.

5800 Advanced Project Management U G 3

Advanced project management engineering techniques to implement and optimize project-driven change; communication and leadership strategies critical to successful optimization of a firm's processes and systems. Prereq: 3800, or permission of instructor.

5810 Lean Sigma Foundations U G 4

Comprehensive foundation course that is required to complete Green and Black Belt Certification. Prereq: Stat 3470, and permission of instructor.

252 Industrial and Systems Engineering

5811 Lean Sigma Certification Project (Part I) U G 3

Focuses on industry sponsored LeanSigma DMAIC Certification Projects. Project Selection, Definition and Measure are covered in this course. Prereq: 5810, and Sr standing, and enrollment in Industrial and Systems Engineering, and permission of instructor.

5812 LeanSigma Certification Project II U G 3

Focuses on industry sponsored Lean Sigma DMAIC Certification Projects. Improve and Control are the phases covered in this course. Prereq: 5810 and 5811, and permission of instructor.

5813 Integrated Lean Six Sigma Capstone Certification Experience U G 4

Capstone Senior Design alternative focusing on industry sponsored Lean Six Sigma DMAIC Certification Projects. Prereq: 5810 and permission of instructor.

5830 Decision Analysis U G 3

Introduction to decision analysis, modern utility theory and risk modeling, Bayesian inference, value of information, multiattribute decision modeling, and application to engineering decisions under uncertainty. Prereq: 3210 and Stat 3470. Not open to students with credit for 684.

5870 Resilience Engineering U G 3

Provides a comprehensive treatment of Resilience Engineering tools to measure, manage, and design complex systems to be resilient in the face of surprising disrupting events. Prereq: Sr or Grad standing, or permission of instructor.

6020 Foundations of Data-Driven Sustainable Energy Systems G 3

Introduction to issues impacting sustainable energy systems across technology, law and policy, business models, resilience, data, geospatial, and decision sciences. Prereq: Not open to students with credit for AEDEcon 6500, EnvEng 6020, FABEng 6020, Geog 6020, or PubAfrs 6020. Cross-listed in AEDEcon 6500, EnvEng 6020, FABEng 6020, Geog 6020, and PubAfrs 6020.

6120 Quality Improvement and Analytics G 3

Learn skills and concepts associated with Quality Management, Lean Six Sigma, and related research with an awareness of recent research. Prereq: Grad standing in Engr. Not open to students with credit for 4120.

6193 Individual Studies in Integrated Systems Engineering G 1 - 4

Special topics of general interest to graduate students in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

6194 Group Studies in Integrated Systems Engineering G 1 - 4

Special topics of general interest to graduate students in Integrated Systems Engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

6290 Stochastic Optimization G 3

Examines the modeling, theory, and solution algorithms for stochastic optimization problems. Prereq: 5200, and Stat 3470 or ISE 7300; or permission of instructor.

6300 Simulation for System Analytics and Decision-Making G 3

Students learn how to collect data and perform input analysis, model systems using discrete-event simulation, and inform system design decision-making through defensible output analysis. Prereq: Stat 3470 or equiv, and Calculus-based Probability. Not open to students with credit for 730.

6557 Advanced Metallic Materials and Processing G 2

A graduate class in design, processing and simulation of advanced metallic materials including alloys (ferrous and non-ferrous) and metal matrix composites. Prereq: Grad standing in MatScEn, WeldEng, MechEng, AeroEng, NuclrEn, ISE; or permission of instructor. Not open to students with credit for MatScEn 6757. Cross-listed in MatScEn 6757.

6801 Project Management for Engineers G 3

Provides foundational and advanced project management education in an interactive online learning environment as part of the Master of Global Engineering Leadership program. Prereq: Enrollment in Master of Global Engineering Leadership program, and permission of instructor. Not open to students with credit for 3800.

6999 Research for Thesis in Industrial & Systems Engineering G 1 - 15

Research for the Masters Thesis in Industrial and Systems Engineering. Prereq: Grad standing in the M.S. program in Industrial and Systems Engineering. Repeatable to a maximum of 50 cr hrs or 10 completions. This course is graded S/U.

7120 Advanced Quality Control and Improvement G 3

Students learn techniques associated with the Total Quality Management and Lean Sigma and additional advanced quality technology. These techniques facilitate measurements of system quality, data-driven system design, and system control/standardization. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4120 (510), 610, IndEng 509, or 610.

7193 Individual Studies in Integrated Systems Engineering G 1 - 4

Individual studies for advanced graduate students in Integrated Systems Engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

7194 Group Studies in Integrated Systems Engineering G 1 - 4

Special topics of general interest to advanced graduate students in Integrated Systems Engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.

7200 Advanced Nonlinear Optimization G 3

Unconstrained and constrained nonlinear optimization, covering applications, theory dealing with convexity, optimality conditions, duality, and algorithms. Prereq: Calculus, linear algebra, computer programming, and an introductory optimization course, or permission of instructor. Not open to students with credit for both 820 and 821.

7202 Reinforcement Learning G 3

Fundamentals of Markov decision processes and reinforcement learning algorithms. Prereq: Grad standing in Engineering or Math. Cross-listed in ECE.

7210 Large Scale Optimization G 3

Introduction to decomposition-coordination methods. Topics include cutting-stock problems, column and row generation methods, and stochastic programming. Prereq: 5200. Not open to students with credit for 823.

7230 Integer Optimization G 3

Introduction to the theory and solution methods for optimization problems which contain integer variables. Topics include polyhedral theory, cutting planes, branch-and-bound. Prereq: Calculus, Linear Algebra, and Linear Programming. Not open to students with credit for 822.

7250 Operations Research Models and Methods G 3

Examines many basic operations research models from network theory, integer programming, queuing theory, inventory theory and nonlinear programming. Algorithmic concepts are discussed. Prereq: 5200. Not open to students with credit for 881.

7300 Stochastic Processes G 3

Stochastic processes commonly used in Industrial and Systems Engineering, including renewal processes and continuous time Markov chains. Prereq: 6300 or equiv. Not open to students with credit for 830.

7420 Sequencing and Scheduling G 3

Survey of sequencing/scheduling problems encountered in management systems. Emphasis is given to those problems and solution methods found in the literature. Prereq: 5200, Calculus, and Linear Algebra. Not open to students with credit for 841.

7510 Computational Analysis of Manufacturing Processes G 3

This course is designed to teach graduate students about constitutive models used for numerical simulation of the inelastic behavior of bulk and sheet materials. Prereq: Grad standing in ISE, or MechEng, or MatScEn; and knowledge using commercial math software (Matlab, etc.), or ability to write simple codes with Fortran, C++, etc., and knowledge using commercial FEA code (e.g. ABAQUS, LS-Dyna, PAM STAMP, ANSYS, DEFORM, etc.); or permission of instructor.

7610 Advanced Topics in Biomechanics and Musculoskeletal Disorders: Spine Biomechanics G 3

Advanced readings course of papers on occupational epidemiology, physiology, work-related musculoskeletal disorders, pathophysiology, biomechanics, anthropometry, electromyography, imaging, and modeling as related to spine biomechanics. Prereq: 5600 (660), or permission of instructor. Repeatable to a maximum of 9 cr hrs.

7615 Biomechanics Research Practicum: Experience in Spine Biomechanics G 3

Builds upon theoretical information developed in ISE 7610. Provides link between theory and laboratory measurement in assessment of biomechanical issues for occupational low back disorder. Prereq: 7610 or 7620 or 7630 or permission of instructor. Repeatable to a maximum of 9 cr hrs.

7620 Advanced Topics in Biomechanics and Musculoskeletal Disorders: Upper Extremity Biomechanics G 3

Advanced readings course of papers on occupational epidemiology, physiology, work-related musculoskeletal disorders, pathophysiology, biomechanics, anthropometry, electromyography, imaging, and modeling as related to upper extremity biomechanics. Prereq: 5600 (660), or permission of instructor. Repeatable to a maximum of 9 cr hrs.

7625 Biomechanics Research Practicum: Experience in Upper Extremity Biomechanics G 3

Builds upon theoretical information developed in ISE 7620. Provides link between theory and laboratory measurement in assessment of biomechanical issues for occupational upper extremity disorders. Prereq: 7610 or 7620 or 7630 or permission of instructor. Repeatable to a maximum of 9 cr hrs.

7700 Cognitive Systems Engineering: Advanced Topics G 3

Seminar on emerging themes about human-machine systems and how these relate to current societal issues. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs.

7720 Cognitive Systems Engineering: Models and Methods G 3

Covers models of human-machine cognitive systems and methods to study of human-machine cognitive systems in complex work settings. Prereq: Grad standing. Repeatable to a maximum of 9 cr hrs.

7882	Interdepartmental Seminar for MBL program	G	1 - 4
Seminars of general interest to students in the MBL program, Integrated Systems Engineering, and related fields. Prereq: Enrollment in the MBL program, or permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
7883	Department Seminar	G	1
Provided graduate students with a broad exposure to current research within the various branches of Industrial Engineering, including operations research, human factors/ergonomics, and manufacturing. Prereq: Grad standing in ISE. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.			
8194	Group Studies in Integrated Systems Engineering	G	1 - 4
Special topics of general interest to doctoral students in engineering and related fields. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
8299	Special Topics in Optimization	G	1 - 4
Selected topics in optimization, of special interest to advanced graduate students in Industrial and Systems Engineering and related fields. Repeatable to a maximum of 16 cr hrs or 4 completions.			
8850	Practice in Operations Research	G	3
Application of Operations Research methods in manufacturing, financial, governmental, educational, and service organizations. Students work on actual problems of a sponsoring organization and present oral and written reports. Prereq: 881. Not open to students with credit for 885. Repeatable to a maximum of 6 cr hrs.			
8998	Research in Integrated Systems Engineering	G	1 - 15
Opportunity to conduct research in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 50 cr hrs or 10 completions. This course is graded S/U.			
8999	Research in Integrated Systems Engineering for Dissertation	G	1 - 15
Opportunity to conduct dissertation research in Integrated Systems Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 50 cr hrs or 10 completions. This course is graded S/U.			

Internal Medicine

4998	Undergraduate Research Independent Study Course	U	1 - 10
To gain laboratory research experience and knowledge of the cellular, molecular, and immune biology principles fundamental to gastrointestinal research and relate these principles to the normal and diseased gastrointestinal system. Prereq: Permission of instructor. This course is graded S/U.			
4999	Undergraduate Research Independent Study Course	U	1 - 5
Research under the direction of a department of Internal Medicine Faculty member. Prereq: Permission of instructor. This course is graded S/U.			
7000	Foundation in Medicine I	G	2
Normal human systems and pathophysiology needed for the practice of genetic counseling and working with a healthcare team. This course will cover cell biology, tumor biology, metabolism, musculoskeletal, skin, reproductive, and cardiovascular systems. One hour a week of course will include a practice or case-based learning approach in alignment with content delivered in IntMed 7020 & 7040. Repeatable to a maximum of 6 cr hrs.			
7010	Foundations in Medicine II	G	1
Continuation of Fdn Med 1. Normal human systems & pathophysiology for the practice of genetic counseling and working with a healthcare team. Course will cover cell biology, tumor biology, metabolism, musculoskeletal, skin, reproductive and cardiovascular systems. 1 hr/wk of course will include a practice or case-based learning approach which will be in alignment with content delivered in 7030. Prereq: 7000.			
7020	Foundations in Genetics I	G	2
Covers etiology, natural history, and treatment of genetic disorders needed for the practice of genetic counseling and working with a healthcare team. One hour a week of this course will include a practice based or case-based learning approach which will be in alignment with the content delivered in alignment with the content delivered in IntMed 7000.			
7030	Foundations in Genetics II	G	2
Continuation of Fdn Gen 1. It will cover etiology, natural history, and treatment of genetic disorders needed for the practice of genetic counseling and working with a healthcare team. One hour a week of this course will include a practice based or case-based learning approach which will be in alignment with the content delivered in alignment with the content delivered in IntMed 7010. Prereq: 7020.			
7040	Foundations in Genetic Counseling I	G	2
Provides a framework for the evolution and models of genetic counseling practice. An introduction to the fundamental skills, including pedigree taking and analysis, case preparation, obtaining medical and developmental histories, and interview techniques, necessary to practice will be provided.			
7050	Foundations in Genetic Counseling II	G	2
Continuation of Fdn GenCoun1 provides a framework for the evolution and models of genetic counseling practice. An introduction to the fundamental skills, including pedigree taking and analysis, case preparation, obtaining medical and developmental histories, and interview techniques, necessary to practice will be provided. Prereq: 7040.			

7080	Advanced Genetic Counseling I	G	3
Explore psychological impact of genetic conditions on the individual & family; review and application of counseling theory & interview techniques in GC practice. Role-play, case discussion, and interactions with consumers of genetic services will be utilized to achieve the course goals and learning objectives.			
7090	Advanced Genetic Counseling II	G	3
Advanced genetic counseling practice with attention to ethical, legal, social issues. Sessions on professional development topics, such as CV development, employment interview preparation, involvement in professional organizations, and advocacy roles will be addressed. Role-play, case discussion, and interactions with consumers of genetic services will be utilized to achieve goals & objectives. Prereq: 7080.			
7100.01	Advanced Clinical Skills: Reproductive Counseling	G	1
Students will gain skills needed to provide reproductive genetic counseling. Aspects of discipline explored in the context of case preparation, med and fam history analysis, risk assess and counseling, diff diag, offering appropriate testing options, interpreting results, explaining complex genetics concepts to patients, creating visual aids for counseling, and psychosocial assess. & counseling.			
7100.02	Advanced Clinical Skills: Cardiogenetic Counseling	G	1
Students will focus on the skills needed to provide adult genetic counseling services (cardiogenetics, neurogenetics, and medical genetics). Aspects of discipline explored in the context of case preparation, med and fam history analysis, risk assess and counseling, diff diag, offering appropriate testing options, interpreting results, explaining complex genetics concepts to patients, etc.			
7100.03	Advanced Clinical Skills: Pediatric Counseling	G	1
Students will gain skills needed to provide pediatric genetic counseling. Aspects of discipline explored in context of case prep, med and fam hist. analysis, risk assess. and counseling, differential diagnosis, offering appropriate testing options, interpreting results, explaining complex genetics concepts to patients, creating visual aids for counseling, and psychosocial assess. & counseling.			
7100.04	Advanced Clinical Skill: Cancer Counseling	G	1
Students will gain skills needed to provide cancer genetic counseling. Aspects of discipline explored in context of case prep, med and fam hist. analysis, risk assess. and counseling, differential diagnosis, offering appropriate testing options, interpreting results, explaining complex genetics concepts to patients, creating visual aids for counseling, and psychosocial assess. & counseling.			
7100.05	Advanced Clinical Skills - Genetic Counseling Specialties	G	4
This course will focus on skills needed to provide genetic counseling for the main indications in specialty genetic clinics. Genetic counseling will be explored in the context of chart review to establish or validate a phenotype, case preparation, medical and family history analysis, risk assessment and counseling, differential diagnosis, offering appropriate testing options, interpreting results, and psychosocial issues. Prereq: 7000, 7020, and 7040.			
7189.01	Clinical Practicum I	G	3
Students will observe and be introduced to content, skills, and resources utilized in genetic testing laboratories and counseling. Students will be placed in several different genetic testing laboratories and participate in laboratory activities to understand the techniques used in the laboratory setting. Students will participate in a clinical placement in a designated clinic for seven weeks. This course is graded S/U.			
7189.02	Clinical Practicum II	G	1½
Students will observe and begin to participate in clinical care. Placements will be 1-2 days per week. Prereq: 7189.01. This course is graded S/U.			
7189.03	Clinical Practicum III	G	1½
Students will gain practical experience by providing genetic counseling services in a clinical placement 2-3 days per week. They will apply content learned in other courses and will work to achieve goals based on Practiced Based Competencies determined by the American Board of Genetic Counseling. This course is graded S/U.			
7189.04	Summer Clinical Practicum IV	G	5
Students will gain practical experience by providing genetic counseling services in a five day a week, six week long clinical placement. They will apply content learned in other courses and will work to achieve comprehensive cases towards their ABGC clinical log book. This course is graded S/U.			
7189.05	Clinical Practicum V	G	5
Students will gain practical experience by providing genetic counseling services in a five day a week, six week long clinical placement. They will apply content learned in other courses and will work to achieve comprehensive cases towards their ABGC clinical log book. This course is graded S/U.			
7189.06	Clinical Practicum VI	G	2
Students will participate in clinical care. Placements will be 2-3 days per week. This course is graded S/U.			
7189.07	Clinical Practicum VII	G	2
Students will participate in clinical care. Placements will be 2-3 days per week. This course is graded S/U.			

254 Internal Medicine

7189.08	Clinical Practicum VIII	G	2
Students will observe and begin to participate in clinical care. Placements will be 2-3 days per week. This course is graded S/U.			
7189.09	Clinical Practicum IX	G	2
Students will observe and begin to participate in clinical care. Placements will be 2-3 days per week. This course is graded S/U.			
7193.01	Individual Studies: Allergy/Immunology	G	1 - 18
All months, 1 or more months to be elected. Research on a minor problem under faculty supervision in the following specialties of medicine: Allergy/Immunology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7193.02	Individual Studies: Cardiology	G	1 - 18
All months, one or more months to be elected. Research on a minor problem under faculty supervision in the following specialties of medicine: Cardiology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7193.04	Individual Studies: Endocrinology	G	1 - 18
All months, 1 or more months to be elected. Research on a focused problem under faculty supervision in the following specialties of medicine: Endocrinology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7193.05	Individual Studies: Gastroenterology	G	1 - 18
All months, 1 or more months to be elected. Research on a focused problem under faculty supervision in the following specialties of medicine: Gastroenterology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7193.07	Individual Studies: Hematology	G	1 - 18
All months, one or more months to be elected. Research on a minor problem under faculty supervision in the following specialties of medicine: Hematology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7193.09	Individual Studies: Pulmonary Diseases/Allergy/Critical Care and Sleep Medicine	G	1 - 4
All months, 1 or more months to be elected. Research on a minor problem under faculty supervision in the following specialties of medicine: Pulmonary Diseases(PACCS). Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
7193.10	Individual Studies: Renal Disease	G	1 - 18
All months, 1 or more months to be elected. Research on a focused problem under faculty supervision in the following specialties of medicine: Renal Diseases. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7193.11	Individual Studies: Rheumatology	G	1 - 18
All months, one or more months to be elected. Research on a focused problem under faculty supervision in the following specialty of medicine: Rheumatology. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			
7200.01	Genetic Counseling Problem Based Learning I	G	2
This course provides a solid foundation in genetics concepts and their applications. This course will focus on molecular genetics, cytogenetics, and biochemical genetics and will cover etiology, natural history, and treatment of genetic disorders needed for the practice of genetic counseling and working with a healthcare team. Prereq: 7000 and 7020, and enrollment in the Genetic Counseling Graduate Program.			
7200.02	Genetic Counseling Problem Based Learning II	G	2
This course provides a foundation in genetics concepts and their applications. The course will focus on molecular genetics, cytogenetics, and biochemical genetics and cover etiology, natural history, and treatment of genetic disorders needed for the practice of genetic counseling & working with a healthcare team. Prereq: 7200.01.			
7780	Research Methods	G	2
Develop skills to conduct genetic research studies; including choosing research mentors, writing human research protocols, obtaining informed consent, developing research projects, study design, the scientific method, the basics in obtaining research funding, and presentation of research in the form of abstracts and posters.			
7891.01	Genetic Counseling Seminar Series I	G	1
Discussion of pertinent literature, research problems, and clinical cases in various specialties with an emphasis on the application to genetic counseling research and clinical services. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
7891.02	Genetic Counseling Seminar Series II	G	1
Discussion of pertinent literature, research problems, and clinical cases in various subspecialties with an emphasis on the application to genetic counseling research and clinical services. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
7999.01	Thesis I	G	2
Students will implement their IRB-approved graduate level research project developed in IntMed 7998 under the supervision of a thesis advisory committee. Prereq: 7998. This course is graded S/U.			
7999.02	Thesis II	G	2
Students will implement IRB approved graduate level research project developed in IntMed 7998. Prereq: 7998. This course is graded S/U.			

7999.03	Thesis III	G	3
Students complete data collection and data analysis. Manuscript will be prepared and reviewed by thesis committee. This course is graded S/U.			
7999.04	Thesis IV	G	2
Students complete manuscript for approval by thesis committee and oral defense is scheduled. This course is graded S/U.			
8010	The Business of Genetics	G	1
Explore the strategic planning and program development aspects of clinical genetics services and reinforce the communication, administration and analytical skills developed in other areas of coursework. Specific areas: making a business plan, marketing and public relations, government relations, credentialing and licensure will be addressed.			
8050	Current Technologies	G	2
Through clinical cases, laboratory reports, and in-class exercises, we will investigate the techniques used in clinical diagnostic testing and screening to identify alterations in the genome and the bioinformatics resources used to interpret them.			
8999	Research	G	1 - 25
Research for thesis or dissertation purposes only. Repeatable to a maximum of 25 cr hrs or 25 completions. This course is graded S/U.			

International Studies

2050	Introduction to China and Japan	U	3
Multidisciplinary survey of contemporary Asian civilizations: their geographical and racial backgrounds, historical and cultural heritages, social organizations, economic and political problems and international relations. Prereq: Not open to students with credit for 235. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci course.			
2100	Introduction to Latin America	U	3
Interdepartmental survey of Latin American societies, anthropology, economics, history, literature, geography, and agriculture. Prereq: Not open to students with credit for 240. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course.			
2194	Group Studies	U	1 - 3
Groups of students are offered the opportunity to pursue the interdepartmental study of special topics. Prereq: Permission of instructor. Not open to students with 15 qtr cr hrs of 294. Repeatable to a maximum of 9 cr hrs or 9 completions.			
2200	Introduction to the Modern Middle East	U	3
This course presents students with a multidisciplinary analysis of diversity and change in the modern Middle East. The ultimate goal of the course is to provide students with an enlarged perspective of the political, economic, social and theological issues in the Middle East and its diaspora, with close attention to diverse social categories such as race, religion, gender and ethnicity. Prereq: Not open to students with credit for NELC 2200. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci and race, ethnicity and gender div course. Cross-listed in NELC.			
2500	Introduction to Development Studies	U	3
Examines theories of political economy and development, as well as the historical geography of global capitalism and contemporary issues in international economic development. GE soc sci human, nat, and econ resources and diversity global studies. GE foundation social and behavioral sci course.			
2580	Feast or Famine: the Global Business of Food	U	3
Global and regional trends in food consumption and production are surveyed. Trade, technological change, and other responses to food scarcity are analyzed. Prereq: Not open to students with credit for 2580 (280) or AEDEcon 2580 (280) or 335. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course. Cross-listed in AEDEcon 2580.			
2797.01	Study at a Foreign Institution	U	1 - 15
Deals with the history, culture, geography, and society of the country hosting the study abroad program. Repeatable to a maximum of 30 cr hrs or 2 completions.			
2797.02	Study Abroad: Contemporary Uganda	U	3
Enhancing the study of the history, culture, geography and society of Uganda by visiting the country. GE education abroad course.			
2800	Introduction to Peace Studies	U	3
The meanings of peace and peacelessness in today's world, varied approaches to peace, contributions of many disciplines and professionals, and the significance of peoples' movements. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci course.			
3350	Introduction to Western Europe	U	3
Presents an introductory overview of the historical background to modern Western Europe. It surveys the development of society & politics, as well as the evolution of art and music. GE historical study and soc sci human, nat, and econ resources and diversity global studies course. GE theme citizenship for div and just wrld course.			

3400 The Analysis and Display of Data U 3

Introduction to the analysis of data. Topics include sampling, data collection, probability, inference, random variables, display of data, correlation, and analysis of variance. This course does not count toward a course elective for Econ majors. Prereq: Not open to students with credit for Econ 3400, 4400, 5410, 5420, Stat 1430, 1450, 2450 or AEDEcon 2005. GE data any course. GE foundation math and quant reasoning or data anyl course. Cross-listed in Econ.

3450 Human Rights: An Introduction U 3

Provides an interdisciplinary introduction to the conceptual history as well as the practice of human rights and its connection to global and domestic citizenship. It traces the evolution of the concept of rights, which emerges from modern revolutions and expands citizenship rights around the world, and explores how these events are connected with the emergence of global conceptions of rights. GE theme citizenship for div and just wrld course.

3700 Introduction to Intelligence U 3

Comprehensive introduction to the gathering, analysis, and use of military and political intelligence in a number of countries. Prereq: Not open to students with credit for 350.

3701 Introduction to Homeland Security U 3

Comprehensive overview of U.S. homeland security. Threats from natural disasters, terrorism, and other domestic and external sources will be studied, as will programs and technologies involved in disaster prevention and response. Prereq: Soph standing or higher, or permission of instructor. Not open to students with credit for 300.

3702 Herding Cyber Cats: Information Security Management U 3

This hands on course will focus on information security governance tools and processes. Students will learn the basic structures and activities used by Information Security professionals to manage information security and cyber risks which threaten us as individuals and organizations. Prereq: Soph standing or above, or permission of instructor.

3703 Ethical Issues in the Information Age U 3

Understand how different ethical systems shape our values and decision making and how this affects others and the greater public good. Systematically apply ethical thinking to contemporary issues in information technology to maximize benefits and minimize risks to our private lives, national security and our social and economic well-being.

3797 Four week Global May Programs U 1

Course deals with global issues from the perspective of both the host country and the US. Repeatable to a maximum of 2 cr hrs.

3850 Introduction to Globalization U 3

Analysis of globalization in its various aspects, economic, political, environmental and technological, as well as of its extent and desirability. Prereq: Soph standing or above, or permission of instructor. Not open to students with credit for 356. GE soc sci indivs and groups and diversity global studies course. GE foundation social and behavioral sci course.

3905 The Developing World on Screen U 4

Exploration of the relationships between the lived environments of the developing world and their representation in film. Prereq: Not open to students with credit for HistArt 3905. GE theme lived environments course. Cross-listed in HistArt.

4195 Selected Problems in International Studies U 3

Class discussions, with several guest speakers, informal conferences, and a reading and research program arranged to meet the special needs of those enrolled. Repeatable to a maximum of 9 cr hrs.

4242 Incomplete Democracies: the (Un)Rule of Law in Latin America U 3

Explores various forms of violence including electoral violence and political assassination, organized crime, police brutality, and other human rights abuses in Latin America. Prereq: Soph standing or above. Not open to students with credit for 542 or PoliSci 4242. Cross-listed in PoliSci 4242.

4320 Energy, the Environment, and the Economy U 3

Examines the economic implications of climate change and climate change policies for society, including discussion of major state, federal, and international legislation. Prereq: AEDEcon 2001 (200) or Econ 2001 (200). Not open to students with credit for 565, 4320E, or AEDEcon 4320 (565). Cross-listed in AEDEcon.

4320E Energy, the Environment, and the Economy U 3

Understand the role of energy in the economy and the environment. Explore the economics of clean, renewable energy, and understand the different policies for pollution control. Prereq: AEDEcon 2001 (200), or Econ 2001.01, 2001.02 or 2001.03H (200). Not open to students with credit for 4320 (565), AEDEcon 4320 (565) or 4320E. Cross-listed in AEDEcon.

4451 The Immigration Controversy through Film U 3

Examines the controversial phenomenon of immigration through the medium of film. Throughout the semester, we will examine the politics of migration through scholarly materials focusing on concepts like globalization, citizenship, and identity in order and delve into the latest policy developments in the realm of immigration regulation and border enforcement.

4515 Ethnicity, Development, and the State in Sub-Saharan Africa U 3

Takes a theoretical and comparative historical approach to analyzing problems of development and ethnic conflict in Sub-Saharan Africa. Prereq: Soph standing or above. Not open to students with credit for 515 or AfAmAST 4515 (515). Cross-listed in AfAmAST 4515 (515).

4532 Food Security and Globalization U 3

Examination of the causes and solutions for food insecurity. Global and local factors that affect access to food are also considered. Prereq: AEDEcon 2001 (200) or Econ 2001 (200); or permission of instructor. Not open to students with credit for 434 or 532; or AEDEcon 4532 (532) or 434. Cross-listed in AEDEcon 4532.

4535 International Economic Development U 3

Study of the growth and diversification of developing economies and the causes of poverty and inequality. Analyze the impacts of human capital formation, markets and public policy on development. Prereq: AEDEcon 2001 (200) or Econ 2001 (200). Not open to students with credit for 435, 535, PubAfrs 4535, AEDEcon 4535 (535), or 435. Cross-listed in AEDEcon and PubAfrs.

4537 Middle Eastern Economic Development U 3

Introduction to current economic issues facing Middle Eastern countries, and the similarities and differences in their growth, inflation, unemployment, fiscal and monetary policy, imports, exports, foreign debt and exchange rate policies. Prereq: AEDEcon 2001 (200), or Econ 2001 (200) and 2002 (201), or equiv. Not open to students with credit for 437, 537, Econ 4537 (537), AEDEcon 4537 (537), or 437. Cross-listed in AEDEcon and Econ.

4540 International Commerce and the World Economy U 3

Application of trade theory and policies to world trade that impacts global business. Prereq: AEDEcon 2001 (200), 2001H (200H), Econ 2001 (200), or 2001H (200H), or permission of instructor. Not open to students with credit for 540 or AEDEcon 4540 (540). Cross-listed in AEDEcon.

4550 Bioterrorism: An Overview U 3

A broad awareness course on the bioterrorism threat to our food supply, crops, animal and public health, and bioterrorist organizations. Prereq: Jr or Sr standing. Not open to students with credit for 455 or PlntPth 4550 (455). Cross-listed in PlntPth.

4560 Cooperation and Conflict in the Global Economy U 3

The economic, social, and political bases for, and responses to, increasing global economic integration. Prereq: Econ 2001 (200) and 2002 (201), or 400, or equiv. Not open to students with credit for 556 or Econ 4560 (556). Cross-listed in Econ.

4597.01 Food, Population, and the Environment U 3

Issues related to world-wide population increases, food production, and associated environmental stress; policy options for lessening these concerns, especially in low-income countries. Prereq: Jr or Sr standing. Not open to students with credit for 597.01, 4597.01H (597.01H), AEDEcon 4597.01 (597.01), or AEDEcon 4597.01H (597.01H). GE cross-disciplinary seminar course. Cross-listed in AEDEcon.

4700 Terror and Terrorism U 3

Focus on the origins, evolution and place of terrorism in the modern world and the ideology, motivation, and methods of a number of terrorist groups.

4701 The Development and Control of Weapons of Mass Destruction U 3

Offers students an overview of the issues relating to atomic, biological, and chemical weapons, commonly referred to as weapons of mass destruction (WMD). Prereq: Not open to students with credit for 555.

4702 Case Studies in Information Security U 3

This course will provide students who have taken an introductory Information Security course a deeper understanding of the background, terminology and concepts of Information Security. The course will focus heavily of behavioral outcomes, such as developing security requirements from business use-cases, comparing security requirements against implementation reality.

4704 A Global War on Terror? America's Response to the 9/11 Attacks U 3

Explores the domestic and international impacts of the 9/11 terrorist attacks against the United States. Four different but interrelated wars will be studied: the war against the Taliban in Afghanistan and Pakistan, the war in Iraq, the global war on terror, and the war on the home front- curtailment of civil liberties, militarization of U.S. society, domestic terrorism. Prereq: Soph standing or above.

4800 Cultural Diplomacy U 3

Cultural Diplomacy is the exchange of information, ideas and values among nations and peoples. Public and private mechanisms for these exchanges are explored. Prereq: Soph standing or above, or permission of instructor. Not open to students with credit for 550.

4801 Model United Nations U 3

Interactive diplomatic simulation of the political processes of the UN system focusing on selected global problems; involves class discussion, group projects, and significant student participation. Prereq: Not open to students with credit for 552.

4802 Problems and Prospects for Peace U 3

Integrated seminar focusing on problems encountered with peace strategies and both short and long-term prospects for peaceful change. Prereq: Soph standing, or permission of instructor.

4803 Intervening for Peace: Peacekeeping and Collective Security U 3

Exploration of the theory and practice of international peacekeeping and collective security. Prereq: Not open to students with credit for 551.

256 International Studies

4804	Applied Nonviolence I: Methods	U	3
Provides an introduction to the strategies and methods of pursuing peace and social justice through nonviolence. Through a combination of reading, discussion, and practical experiments participants will develop a sound understanding of nonviolence theory and practice. Prereq: 2800.			
4805	Applied Nonviolence II: Experiment	U	3
Applies the knowledge acquired from Applied Nonviolence I and is intended to develop and test the skills necessary to becoming a professional nonviolent activist. Prereq: 4804.			
4806	Intelligence for Diplomacy: Assessing Leadership Style	U	3
The assessment of leadership style is one of several core foci for intelligence analysts. It contributes to predictions of a leader's likely behavior. More importantly, it guides efforts, in particular diplomatic efforts, to influence the decisions of political, economic and military leaders. This course introduces students to key theories and research in the political psychology of leadership. Prereq: Soph standing or higher, or permission of instructor. Not open to students with credit for 5195 (Assessing Leadership Style).			
4850	Understanding the Global Information Society	U	3
Invites students to think critically about the global networks that are shaping the new knowledge creation & sharing processes. To monitor news, investigate web resources & gather information for assignments, report & case study analysis. Prereq: Soph standing, or permission of instructor.			
4852	Research in Globalization	U	3
Explores aspects of globalization through the process of research, hypothesis construction, data gathering and analysis and preparing a finished research product. Prereq: 3850 (356) and CompStd 3360 (357), or permission of instructor. Not open to students with credit for 557.			
4873	Contemporary Religious Movements in Global Context	U	3
Examination of contemporary religious movements within the context of larger political, cultural, and economic processes, including post-colonialism, modernization, and globalization. Prereq: One course in CompStd, RelStds, or IntStds; or Grad standing; or permission of instructor. Not open to students with credit for CompStd 4873 or RelStds 4873. GE theme citizenship for div and just wrld course. Cross-listed in RelStds.			
4998	Undergraduate Research in International Studies	U	1 - 9
Undergraduate research or creative activities in variable topics. Prereq: Regular faculty mentor, and permission of department. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
4999	Thesis Research	U	1 - 3
Informal conferences to maximize the student's initiative and academic maturation; student and faculty advisor choose a research topic; the results are tested by a written thesis and an oral exam. Must receive a mark of S to graduate with Research Distinction. Prereq: GPA 3.4 or above, and Jr or Sr standing; and permission of tenure-track thesis advisor and department. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
4999H	Thesis Research	U	1 - 3
Informal conferences to maximize the student's initiative and academic maturation; student and faculty advisor choose a research topic; the results are tested by a written thesis and an oral examination. Prereq: Good standing in Honors College, tenure-track faculty supervisor, and permission of department. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			
5020	Oligarchs, Penthouses, and Yachts: The Global Lives and Times of Eurasian Elites	U G	3
Who are the rich and powerful people in Russia, China, Middle East, and Central Asia? How do these Eurasian elites live? What enables them to accumulate so much wealth and influence, and what kinds of business and pleasure do they pursue in global arenas? Unlike many courses that study governments, this course focuses on the privileged classes of Russia, China, and the Muslim-majority world. Prereq: Not open to students with credit for NELC 5020 or Slavic 5020. Cross-listed in NELC and Slavic.			
5050	Two Koreas: Political Economy of Regional Rivalry	U G	3
Understanding the Korean peninsula. Course will focus on the nature of North and South Korean regional rivalry and its global impacts. Security issues include North Korean nuclear threat, military alliances, & reunification prospects. Prereq: Soph standing, or permission of instructor.			
5051	East Asia in the Post-Cold War Era: Issues in Regional Security & Economic Development	U G	3
Become familiar with and to analyze East Asian regional security and economic issues in the post-Cold War era. Looking at the region as an international subsystem, the course focuses on the regional level and examines its global consequences. Prereq: Soph standing, or permission of instructor.			
5191	Student Intern Program in International Studies	U G	3 - 9
Opportunity to gain knowledge of the policy process in a local, national, international or government agency. Prereq: GPA 3.0 or above, and Jr, Sr, or Grad standing. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
5193	Individual Studies	U G	1 - 6
Designed to give able students an opportunity to pursue a special course of study not otherwise available to them in course form. Prereq: Permission of instructor. Not open to students with credit for 693. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			

5194	Group Studies	U G	1 - 3
Designed to give groups of students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Not open to students with credit for 694. Repeatable to a maximum of 9 cr hrs or 9 completions.			
5195	Selected Problems in International Studies	U G	3
Class Discussions, with several guest speakers, informal conferences, and a reading and research program arranged to meet the special needs of those enrolled. Counts against credits IntStds major can receive for 419. Prereq: Jr or Sr standing. Repeatable to a maximum of 9 cr hrs.			
5640	Globalization and Latin America: Multi-Disciplinary Approaches	U G	3
Explores current debates on globalization in Latin America and recent and interrelated transformations in the economies, politics, and cultures of the region. Prereq: Jr standing or above. Not open to students with credit for 640 or Spanish 5640 (640). Cross-listed in Spanish.			
5645	Contemporary Issues in the Middle East	U G	3
Intensive examination of contemporary issues in the Middle East by applying an interdisciplinary approach. Prereq: 2200 (245), or Jr standing. Not open to students with credit for 645 or NELC 5645 (645). Cross-listed in NELC.			
5700	Rebuilding Failed and Weak States	U G	3
Tackles the question of how to design policies and programs to rebuild failed and weak states into functioning, if not vibrant democracies. Prereq: Soph standing or above, or permission of instructor. Not open to students with credit for PubAfrs 5700 (670) or PubPolM 670. Cross-listed in PubAfrs.			
5701	Intelligence and National Security in a Changing World	U G	3

Not open to students with credit for History 2453. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in History.				
2454	History of Anti-Semitism	U	3		
	Study of the development of anti-Semitism, the history of anti-Semitic ideologies and practices, and different Jewish responses to anti-Semitism over time. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for History 2454. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in History.				
2455	Jews in American Film	U	3		
	A study of how modern Jews appear in film compared with historical reality. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for History 2455. GE historical study course. GE foundation historical and cultural studies and race, ethnicity and gender div course. Cross-listed in History.				
2475	History of the Holocaust	U	3		
	Study of the state-sponsored murder of millions of Jews and non-Jews by the Nazis and their collaborators during World War II. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for History 2475. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in History.				
2700	Introduction to the Hebrew Bible/Old Testament	U	3		
	Reading and analysis of selected chapters from the Hebrew scriptures and post-biblical Hebrew writings representative of major historical, cultural, and literary trends. Prereq: English 1110.xx, or GE foundation writing and info literacy course. Not open to students with credit for 2700H, Hebrew 2700, or 2700H. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course. Cross-listed in Hebrew.				
2700H	Introduction to the Hebrew Bible/Old Testament	U	3		
	Reading and analysis of selected chapters from the Hebrew scriptures and post-biblical Hebrew writings representative of major historical, cultural, and literary trends. Prereq: Honors standing, and English 1110.xx, or GE foundation writing and info literacy course; or permission of instructor. Not open to students with credit for 2700, Hebrew 2700, or 2700H. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course. Cross-listed in Hebrew.				
2702	Modern Hebrew Literature in Translation	U	3		
	A survey of major themes and topics in Modern Hebrew literature from the middle of the 19th century to the present. Prereq: English 1110 (110). Not open to students with credit for 2702H, Hebrew 2702 (372), or 2702H (372H). GE lit and diversity global studies course. Cross-listed in Hebrew.				
2702H	Modern Hebrew Literature in Translation	U	3		
	A survey of major themes and topics in Modern Hebrew literature from the middle of the 19th century to the present. Prereq: Honors standing, and English 1110 (110); or permission of instructor. Not open to students with credit for JewshSt 2702, Hebrew 2702 (372), or 2702H (372H). GE lit and diversity global studies course. Cross-listed in Hebrew.				
3111	Introduction to Jewish Philosophy	U	3		
	A general introduction to major figures and trends in medieval, modern, and contemporary Jewish philosophy; emphasis on Philo, Saadia, Maimonides, Spinoza, Mendelssohn, and Buber. Prereq: Not open to students with credit for Philos 3111 (321). GE cultures and ideas course. Cross-listed in Philos.				
3205	Art and Judaism	U	3		
	An exploration of the nature and function of art in Judaism from the standpoints of history, cultural history, and material culture. Prereq: GE foundation writing and info literacy course. Not open to students with credit for 2205, Hebrew 2205, 3205, or HistArt 3205. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course. Cross-listed in HistArt.				
3210	Jewish Mysticism and Kabbalah	U	3		
	The history of Jewish mysticism from antiquity to the present, with emphasis on its implications for the comparative study of religious experience. Prereq: English 1110. Not open to students with credit for 2210, 2210H, 3210H, CompStd 2210, 2210H, Hebrew 2210, 3210, 2210H, 3210H, RelStds 2210, 3210, 2210H, or 3210H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in RelStds.				
3210H	Jewish Mysticism and Kabbalah	U	3		
	The history of Jewish mysticism from antiquity to the present, with emphasis on its implications for the comparative study of religious experience. Prereq: Honors standing, and English 1110. Not open to students with credit for 2210, 3210, 2210H, CompStd 2210, 2210H, Hebrew 2210, 3210, 2210H, 3210H, RelStds 2210, 3210, 2210H, or 3210H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in RelStds.				
3245	Israeli Film & Society	U	3		
	A survey of Israeli films from 1948 to the present day, tracing the development of film production in Israel as well as the relationship between film and society. Prereq: English 1110. Not open to students with credit for 2245 or Hebrew 2245 or 3245. GE VPA and diversity global studies course. GE theme citizenship for div and just wrld course. Cross-listed in Hebrew.				
3371	Yiddish Literature in Translation	U	3		
	Reading, analysis, and discussion of representative works and of the development of major movements and genres in Yiddish literature. Prereq: Not open to students with credit for Yiddish 3371 (371). GE lit and diversity global studies. Cross-listed in Yiddish.				
3450	History of Ancient Israel (to 300 BCE)	U	3		
	Survey of the history and historiography of Israel from its origins to the advent of Hellenism. Prereq: English 1110.xx, and any History 2000-level course; or permission of instructor. Not open to students with credit for History 3450 (530.01). GE historical study course. GE foundation historical and cultural studies course. Cross-listed in History.				
3455	Jewish Life from the Renaissance to the Early Enlightenment	U	3		
	Life and thought of European and Mediterranean Jews in the early modern period. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for History 3455. GE historical study course. Cross-listed in History.				
3465	American Jewish History	U	3		
	Study of topics in American Jewish history from the colonial era to the present. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. Not open to students with credit for History 3465. GE historical study course. GE theme migration, mobility, and immobility course. Cross-listed in History.				
3470	Messiahs and Messianism in Jewish History	U	3		
	The history of Jewish messianic ideas and of Jewish messianic leadership from ancient to modern times. Prereq: English 1110.xx, and any History 2000-level course; or permission of instructor. Not open to students with credit for History 3470 (531.01). GE historical study course. Cross-listed in History.				
3480	Israel/Palestine: History of the Present	U	3		
	The course will enable students to reflect on the ways in which the past informs interpretations of the present and the ways in which the present informs interpretations of the past. The course will adopt a broad definition of the "present", investigating the Israeli-Palestinian conflict primarily against the background of the collapse of the Oslo peace process in the early 2000s. Prereq or concur: English 1110.xx, GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for History 3480. GE theme citizenship for div and just wrld course. Cross-listed with History.				
3505	U.S. Diplomacy in the Middle East	U	3		
	Survey of U.S. foreign policy in the Middle East emphasizing the Cold War, Arab-Israeli conflict, Iran, and wars against Iraq. Sometimes this course is offered in a distance-only format. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for History 3505. GE historical study and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in History.				
3636	Jewish Bodies: Health, Gender, & Sex	U	3		
	This course examines how Jewish bodies have been defined, represented, transformed, and challenged from ancient times to the present day. We will explore how pre-modern thinkers conceived of healthy bodies and diseased bodies and contrast their understandings with contemporary approaches to health and well-being. GE theme health and well-being course.				
3703	Prophecy in the Hebrew Bible	U	3		
	An intensive investigation into the dynamics of Israelite prophecy and apocalyptic in the context of ancient Near Eastern culture. Prereq: English 1110. Not open to students with credit for 2703, Hebrew 2703, or 3703. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course. Cross-listed in Hebrew.				
3704	Women in the Bible and Beyond	U	3		
	An examination of the social, legal, and religious position of women as they appear in the Hebrew Bible and the ways in which they have been represented and interpreted in later textual, visual, and audio sources. Prereq: English 1110. Not open to students with credit for 2704, Hebrew 2704, or 3704. GE lit and diversity global studies. GE foundation lit, vis and performing arts and race, ethnicity and gender div course. Cross-listed in Hebrew.				
3708	Wisdom Literature in the Bible	U	3		
	An examination of the various ideas, themes, attitudes, implications, and genres of biblical and post-biblical wisdom literature. Prereq: English 1110. Not open to students with credit for 2708, Hebrew 2708, or 3708. GE lit and diversity global studies. Cross-listed in Hebrew.				
4798	Study Tour	U	1 - 9		
	Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor (prerequisites may vary depending on the nature of the experience). Not open to student with credit for 498. Repeatable to a maximum of 9 or hrs or 3 completions. This course is progress graded (S/U).				

4798.02	History and Culture of Israel: Study Tour	U	3
Introduces the dynamics of the current Middle East peace process against the backdrop of the richness and diversity of contemporary Israeli society and culture. Students will read material pertaining to the Middle East peace process, attend and participate in lectures/discussions with instructors during May semester, and take part in a study tour of Israel through OSU OIA. GE education abroad course.			
4999H	Thesis Research	U	1 - 3
A program of readings and empirical investigation of topics arranged on the basis of individual student interests. The course will entail individual conferences with faculty, reports, and honors thesis. An advanced independent study option. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 3
An investigation of a particular topic in Jewish Studies through readings, discussion and scheduled class meetings. The topic will vary from semester to semester and is based on emerging interests of students and faculty in Jewish Studies Prereq: 2201 or 2194, or permission of instructor. Repeatable to a maximum of 3 or hrs or 3 completions. This course is graded S/U.			
5797	Study at a Foreign Institution	U G	1 - 9
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State University Fees and any fees in excess of Ohio State tuition as well as all travel and subsistence costs. Prereq: Written Permission of Melton Center Director. Repeatable to a maximum of 9 or hrs or 3 completions. This course is progress graded (S/U).			

Kinesiology

2221.01	Sports Officiating: Baseball	U	1
Study of playing rules, rule interpretation, techniques, and mechanics of officiating interscholastic and intercollegiate baseball. Satisfactory evidence of playing skill in the elected athletic sport. Prereq: Not open to students with credit for EduPAES 221.01.			
2221.02	Sport Officiating: Basketball	U	1
Study of playing rules, rule interpretation, techniques, and mechanics of officiating interscholastic and intercollegiate basketball. Satisfactory evidence of playing skill in the elected athletic sport is required. Prereq: Not open to students with credit for EduPAES 221.02.			
4998	Research: Kinesiology	U	1 - 12
Independent study related to research in Kinesiology: Health and Exercise Science, Physical Education, or Sport Industry. Prereq: Open only to Kinesio majors, and permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions. This course is graded S/U.			
4998H	Research: Honors in Kinesiology	U	2 - 3
A program of accelerated study for students with special aptitudes. Prereq: Honors standing and permission of instructor. Repeatable to a maximum of 10 or hrs or 5 completions. This course is graded S/U.			
5194	Group Studies: Kinesiology	U G	1 - 15
Special Topics related to issues in Kinesiology. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions.			
7730	Endocrinology	G	4
Functional principles of the major endocrine systems in vertebrates and preparation for research in this area. Prereq: Biochem 4511 (511), or permission of instructor. Not open to students with credit for VetBios 730. Cross-listed in AnimSci.			
7999	Research: Thesis	G	1 - 6
Provides graduate students with the opportunity to develop and conduct basic and applied kinesiology research required for the completion of a thesis. Prereq: Permission of instructor. Repeatable to a maximum of 6 or hrs or 6 completions. This course is graded S/U.			
8189	Practicum in Kinesiology	G	1 - 6
Practicum study hours in Kinesiology. Prereq: Admission to Kinesiology graduate program, and permission of instructor. Repeatable to a maximum of 6 or hrs or 6 completions. This course is graded S/U.			

Kinesiology: Health and Exercise Science

2360	Introduction to Exercise Science	U	3
An exposure to the wide-range of topics that comprise the exercise science discipline.			
2990	Movement is Medicine: Your Rx to Health	U	3
This course provides an introduction to the powerful and widespread impact of exercise on human health. The design of the course examines the "why, what and how" of exercise and includes a practical and personalized application of the material.			
3193	Independent Study: Health and Exercise Science	U	1 - 12
Independent study in Health and Exercise Science. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions. This course is graded S/U.			

3414	Physiological Systems in Human Performance	U	3
This course will examine the primary human physiological systems, their functions and their responses to acute and chronic exercise stimuli. Prereq: Admission to Exercise Science or Health Promotion, Nutrition, and Exercise Science major. Prereq or concur: Physio 3200 or EEOB 2520.			
3415	Applied Physiology in Human Performance	U	3
This course will examine the application of physiological principles to human performance across the spectrum of exercise training paradigms, nutritional interventions, environmental challenges, and selected clinical exercise interventions. Prereq: 3414.			
4525	Promoting Behavior Change in Sport, Leisure, & Exercise	U	3
This course introduces students to theories, mediators, and behavior change strategies applied to sport, leisure, and exercise settings and provides knowledge and opportunities to develop skills to promote adoption and adherence to physical activity. Prereq: Admission to major in Exercise Science Education; Sport Industry; Human Nutrition; Health Promotion, Nutrition and Exercise Science; or Physical Education, Sport, and Physical Activity. Not open to students with credit for EduPAES 525.			
4998	Research in Kinesiology: Health & Exercise Science	U	1 - 12
Independent study related to research in Kinesiology: Health and Exercise Science. Prereq: Enrollment as KnHES major, and permission of instructor.			
4998H	Research in Kinesiology: Health & Exercise Science	U	1 - 12
Independent study related to research in Kinesiology: Health and Exercise Science. Prereq: Enrollment as KnHES major, and permission of instructor.			
5191	Internship: Health and Exercise Science	U G	1 - 12
Prepares students to assume career-related responsibilities in Health and Exercise Science by providing a practical extended experience under the supervision of an exercise science professional. Prereq: Enrollment in Exercise Science Education major or enrollment in master's program in Kinesiology, Health & Exercise Science concentration. This course is graded S/U.			
5194	Group Studies: Health and Exercise Science	U G	1 - 12
Group study in HES. Prereq: Open only to Exercise Science Education majors; permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions. This course is graded S/U.			
5416	Theory of Strength and Conditioning	U G	3
This online lecture course will examine the fundamental principles and theories that are the basis of strength and conditioning that allow for workout and training program design. The course is designed to give students the scientific and practical basis for developing, designing, evaluating, and implementing resistance training programs. Prereq: 3414, or Grad standing.			
5417	Exercise Techniques and Testing Technology in Strength and Conditioning	U G	3
This course is focused on the practical aspects in the field of strength and conditioning. Students will learn how to teach weight room exercises, conduct individual and team workouts, learn key principles in design and development, how to evaluate testing results, and how to interact with clients and athletes. Prereq: 3414 or equiv., or Grad standing.			
5500	Fundamentals of Exercise Physiology - Theory & Application	U G	4
Examines the primary human physiological systems and their response to acute and chronic exercise stimuli, as well as the effects of training and physical activity on health, fitness and human performance. Prereq: Jr standing or above. Not open to students enrolled in BS Exercise Science Education program.			
5590	Comprehensive Laboratory in Exercise Science	U G	3
This course provides practical experiences in comprehensive fitness testing, fitness evaluation and the development of training programming for the healthy adult and older adult populations. This course will focus on measuring and evaluating components of health related fitness, which include: cardiorespiratory system, body composition, muscular strength, muscular endurance, and flexibility. Prereq: CPR certification. Prereq or concur: 5685, and Jr, Sr, or Grad standing. Repeatable to a maximum of 6 or hrs.			
5651	Health Program Planning	U G	3
The social, epidemiologic, behavioral and educational foundations of health promotion will be reviewed. Skills in: needs assessment, program planning, and program implementation will be developed.			
5652	Worksite Health Promotion	U G	3
Effective health promotion practice at the workplace. Skills: health needs assessment, health program decision-making, reviewing educational / health behavior literature, health behavior program planning, implementation, and evaluation.			
5685	Adult Exercise Programming-Implementation	U G	4
Introduction to adult exercise training and evaluation methods; emphasis on the implementation of programs for the normal healthy adult. Prereq: 3414 or EduPAES 3414. Not open to students with credit for EduPAES 685.			
5703	Health Behavior Theory	U G	3
Critical analysis of Health Behavior Theory. Review of professional literature on development and evaluation of theory based, health behavior change interventions. Prereq: Jr, Sr, or Grad standing.			

264 Kinesiology: Health and Exercise Science

5704 Health Program Evaluation U G 3

Methods for evaluating health behavior interventions. Skills to conduct process, impact and outcome evaluations including data analysis will be developed. The political, educational and theoretical aspects of evaluation practices are covered. Prereq: Jr, Sr, or Grad standing.

5805 Challenging the Conventional Role of Diet & Exercise in Obesity Management U G 3

For decades we have been told to exercise more and eat less (especially fat), but the obesity and diabetes crisis is getting worse. This course will explore potential reasons to explain Why we are getting fatter? and What can be done about it? It will explore why traditional lifestyle treatments (i.e., diet and exercise) have had limited success in curtailing the explosive and continued growth in obesity. Prereq: 3414 or equiv., or Grad standing.

6891 Kinesiology Graduate Core Course I G 3

Introduction to graduate study in Kinesiology with an emphasis on becoming a successful doctoral student and scholar. Prereq: Grad standing in Kinesiology, or permission of instructor.

6892 Foundations of Scientific Writing in Kinesiology G 3

This course will provide an introduction/overview to fundamental aspects of scientific manuscript and grant writing in the field of Kinesiology. This course will focus on learning the primary components of a scientific research manuscript and grant proposal. All students will write an original research manuscript or a grant proposal. Prereq: Grad standing in Kinesiology, or permission of instructor.

7102 Science of Physical Activity and Nutrition for Coaches G 3

Examines the primary human physiological systems and their response to acute and chronic exercise stimuli, as well as the effects of training and physical activity on health, fitness and athletic performance. The role of nutrition in health and various sport types will be examined with a focus on mainstream current recommendations. Prereq: Enrollment in Master of Sports Coaching program.

7486 Ergogenic Aids G 3

Graduate seminar focusing on analyzing/evaluating the role of ergogenic aids designed to increase athletic & sport performance. This seminar will discuss the role & impact of ergogenic aids for sport performance & health, discuss classic & emerging scientific works in these areas, & analyze/evaluate the correct testing & ethical considerations surrounding the practice of ergogenic aids. Students enrolled in this course should have a basic knowledge of exercise physiology, nutrition, biochemistry, and exercise metabolism. Prereq: Grad standing.

7713 Foundations of Physical Activity Behavior G 3

Addresses the basic conceptual, methodological, and applied considerations in physical activity behavior. Prereq: Not open to students with credit for EduPAES 713.

7714 Advanced Physiology of Exercise G 3

Examines the physiological responses and adaptations to the demands and stresses of physical activity and exercise in humans and animals. Prereq: Graduate standing in Exercise Science, or permission of instructor.

7726 Changing Physical Activity Behavior G 3

Introduction to theoretical foundations and research base of physical activity behavior. Demonstration of skills in analyzing and implementing appropriate methodologies for exercise behavior research and interventions for individuals and groups. Prereq: Not open to students with credit for EduPAES 726.

7896 Colloquium: Health and Exercise Science G 1 - 10

A forum for exercise science graduate students to present research proposals and results. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

8193 Advanced Individual Studies: Health and Exercise Science G 1 - 12

Advanced independent study in Health and Exercise Science. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

8803 Seminar in Exercise Metabolism G 3

Graduate seminar focusing on researching in the field of contemporary exercise metabolism. Prereq: Permission of instructor. Not open to students with credit for EduPAES 802.02.

8998 Research: Health and Exercise Science G 1 - 12

Research topics to be determined through discussion with adviser. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

8999 Dissertation/Thesis Research: Health and Exercise Science G 1 - 9

Provides graduate students the opportunity to develop and conduct basic and applied health and exercise science research required for the completion of a thesis or dissertation. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.

Kinesiology: Physical Education

2201 Concepts of Fitness and Wellness U 3

Focuses on teaching physical fitness and wellness concepts to support instruction in schools and other settings such as community health organizations.

2262 Coaching the Young Athlete U 3

Skills and knowledge to coach young athletes.

2301 Teaching Invasion Games U 3

Prepares students to teach invasion games in educational settings. Prereq: Not open to students with credit for EduPAES 301.

2307 Adventure Based Learning U 3

Acquisition of performance skills including philosophy, facilitation techniques, and safety of adventure based learning activities and their roles in different settings. Prereq: Not open to students with credit for EduPAES 307.

2542 Lifespan Motor Development U 3

An overview of the processes involved in motor development and physical growth across the lifespan. Implications of growth and development to teaching, coaching, and clinical settings will be examined. Prereq: Not open to students with credit for EduPAES 542.

2601 Teaching Physical Education, Leisure and Exercise U 3

Designed to teach effective pedagogical and managerial skills for school, recreation and exercise settings. Prereq: Not open to students with credit for EduPAES 601.

2620.04 Coaching: Football U 2

Study in the theory, strategy, and mechanics of coaching interscholastic; intercollegiate football. Advanced skill level in the elected sport. Prereq: Jr standing. Not open to students with credit for EduPAES 620.04.

3189 Field Experience in Elementary Physical Education U 3

This field experience develops knowledge of elementary learners, schools, curriculum, pedagogy, pedagogical content knowledge, and assessment. Concur: 3740. Admission to PETE undergraduate major or permission of the instructor. Not open to students with credit for EduPAES 689.01.

3193 Independent Study: Physical Education, Sport & Physical Activity U 1 - 12

Advanced independent study in physical education. Prereq: Enrollment in Physical Education, Sport & Physical Activity major, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

3302 Teaching Racquet Sports U 3

Prepares students to teach racquet sports in educational settings. Prereq: Admission to the PESPA major, coaching education minor or physical activity specialist minor. Not open to students with credit for EduPAES 302.

3305 Court Sports U 3

Prepares students to instruct techniques and tactics of court sports in sport, recreation and educational settings. Prereq: Pre-major or major in PESPA, and coaching education minor or physical activity specialist minor.

3520 Content in Lower Elementary Physical Education U 3

An in-depth analysis of the content and instruction of a lower elementary school Physical Education curriculum. Students will develop skills and knowledge in developmentally appropriate content in elementary physical education. Prereq: Admission to a Physical Education teacher Education major. Not open to students with credit for EduPAES 520.

3521 Content in Upper Elementary Physical Education U 3

An in-depth analysis of the content and instruction of the upper elementary school physical education curriculum. Students will develop skills and knowledge in developmentally appropriate content in elementary physical education. Prereq: Admission to the PESPA major.

3740 Teaching Physical Education in Elementary Schools U 3

Provides pedagogical content knowledge in physical education at the elementary school level, and provide the opportunity to apply this knowledge in an elementary school environment. Prereq: Admission to PETE undergraduate major, or permission of instructor. Concur: 3189. Not open to students with credit for EduPAES 740.

4189.02 Field Experience in Secondary Physical Education U 3

This field experience develops knowledge of secondary learners, schools, curriculum, pedagogy, pedagogical content knowledge, and assessment. Concur: 4741. Admission to PETE undergraduate major or permission of the instructor. Not open to students with credit for EduPAES 689.02.

4189.30 Practicum in K-12 Health Education U 2

An advanced field experience designed to give practice in teaching K-12 health education in schools. Prereq: 4743 or EduPAES 4743, or permission of instructor.

4191 Sports Coaching and Recreation Internship U 1 - 15

Internship in sports coaching and recreation. Prereq: Enrollment in the Physical Education, Sport, and Physical Activity major and Physical Activity and Coaching Specialist specialization. Repeatable to a maximum of 15 cr hrs.

4191.01 Internship: Elementary Physical Education U 5

Observation, participation, and responsible teaching in an elementary school setting. Prereq: Admitted to PETE undergraduate major, and GPA 2.75 or above. Concur: 4780.

4191.02 Internship: Secondary Physical Education U 5

Observation, analysis, and teaching in a public secondary school; dual and three-way conferences with supervisor and cooperating teacher. Prereq: Admitted to PETE undergraduate major, and GPA 2.75 or above. Concur: 4780.

4741 Teaching Physical Education in Secondary Schools U 3

The purpose of this course is to provide pedagogy and pedagogical content knowledge in physical education at the secondary school. Prereq: Admission to PETE undergrad major or permission of instructor. Not open to students with credit for EduPAES 741.

4743 Teaching Health Education in Elementary, Middle and High Schools U 3

Methods for the teaching of comprehensive school health education (CSHE) in elementary, middle, and high schools. It is required for the teacher licensure program in health education teachers.

4780 Seminar for Student Teaching U 2

Seminar designed to connect students' school-based internship experiences with pedagogical knowledge through discussions and reflections about teaching physical education. Prereq: admission to PETE undergrad major and GPA 2.75 or above. Concur: 4191.01 and 4191.02. Not open to students with credit for EduPAES 780.

5194 Group Studies: Physical Education, Sport & Physical Activity U G 1 - 12

Group study in Physical Education. Prereq: Open only to Physical Education, Sport & Physical Activity majors, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

5521 Skill Analysis U G 3

Provides students with the knowledge and skills required to successfully conduct an analysis of skills and instructional tasks and develop teaching and coaching progressions.

5544 Introduction to Adapted Physical Activity U G 3

Introduction to adapted physical activity across school, community, and clinical settings. Prereq: Major in the College of EHE, or permission of instructor. Not open to students with credit for EduPAES 544.

5643 Coaching Effectiveness U G 3

This course is designed to introduce students to effective coaching strategies and practices. Prereq: Enrollment in undergraduate Physical Activity Specialist Strand of PESPA major or Coaching Education minor. Not open to students with credit for EduPAES 643.

5655 Perspectives on Coaching U G 3

The course is designed to provide students varied perspectives on coaching from youth sports coaching, to high school and club coaching, and to collegiate coaching. The course will examine current trends and issues in athletics, sports and coaching drawing on the expertise of coaches in the community and at The Ohio State University.

5676 Programming for Severe Physical Impairments U G 3

Considerations related to the physical, motor and fitness needs of individuals with severe physical impairments within a physical activity context. Prereq: Ugrd or Grad standing in EHE, or permission of instructor.

5709 Schools, Curriculum and Physical Education U G 3

Examines the role of physical education within the social, historical, and philosophical foundations of education in the United States. We examine curriculum as a mechanism for the operationalization of different educational values and philosophies both as a theoretical exercise and as practice. Prereq: 2601 or EduPAES 2601, or Grad standing.

5795 Sociocultural Issues in Sport, Recreation and Physical Education U G 3

Provides students with knowledge, understanding, and experience related to various sociocultural issues within sport, recreation and physical education settings. Prereq: Enrollment in PESPA major, coaching minor, physical activity specialist minor, PE Grad program, or permission of instructor.

5975 Exploring Japan through Sport, Wellness and Culture U G 3

The Exploring Japan through Sport, Wellness and Culture course is designed to provide students with hands on, experiential activities that will foster an understanding of Japan and Japanese culture. Prior leaving for Japan, students will be exposed to the Japanese language and customs through lectures at Ohio State. Students will then participate in a two-week experience in Japan that will include participating in the Tsukuba Summer Institute (8 days) plus cultural excursions to Tokyo, Tsukuba Shrine, and Nikko. Enrollment preference given to Physical Education, Sport and Physical Activity majors. Repeatable to a maximum of 6 cr hrs.

6100 Race, Gender and Culture in Sports G 3

Provides students with knowledge, understanding, and experiences related to the following topics in sport: ethnicity and race, gender, culture, religion, and language, participation and socialization, social theories, and critical race and social justice theories. Prereq: Enrollment in Master of Sports Coaching program.

6101 Ethics of Coaching G 3

Examines ethical and moral issues that are central to coaching in contemporary sport setting and address the way in which we should treat human beings in sports settings. Issues such as fairness, equality, integrity, and sport's purpose will be discussed and questions of an ethical and moral nature. Prereq: Enrollment in Master of Sports Coaching program.

6222 Recruiting Student-Athletes for College Athletics G 3

Recruiting college student-athletes represents one of the most important tasks that coaches engage in to ensure their success. This course examines the key concepts, knowledge and skills in recruiting student-athletes to college. We examine recruitment from the perspective of the recruiter and the student-athlete.

6642 Sport Skill and Game Analysis G 3

The course is designed to provide students with both the knowledge and skills required to successfully conduct a qualitative analysis of skills and games using technological tools. Integrations of theory and practice are reflected in a variety of assignments, projects, and group discussion of practical issues in coaching. Prereq: Enrollment in Master of Sports Coaching program.

6643 Coaching Effectiveness and Expertise G 3

This class is about developing an understanding the effective coaching behaviors in particular domains; and determining why and what you believe about these effective coaching practices. Prereq: Enrollment in Master of Sports Coaching program.

7100 Mental Preparation and Performance in Sport G 3

Examination of psychological theories and research related to mental preparation and performance in sport. An introduction to the field which will provide broad overview of the major topics in the area. Prereq: Enrollment in Master of Sports Coaching program.

7103 Research on Coaches G 3

Students learn about research methods and design, and develop and conduct mini-action research derived from their practice. Students develop skills in the questions they generate about their professional practice, and to engage in structured inquiry as a strategy for enhancing coaching environments. Prereq: Enrollment in Master of Sports Coaching program.

7104 Proseminar for Coaches G 3

This proseminar focuses on the development of knowledge, abilities, and dispositions necessary for effective, participative, and productive leadership in coaching settings. Topics covered in this course include leadership skills, interpersonal relationships, organizational membership, branding, the relationship between the sporting team and the community. Prereq: Enrollment in Master of Sports Coaching program. Repeatable to a maximum of 6 cr hrs.

7754 Advanced Motor Development and Learning G 3

Physical growth and motor skill acquisition from infancy to adolescence. Principles of motor learning. Application of content to teaching, coaching, and clinical settings. Prereq: Not open to students with credit for EduPAES 754 or 851.

7860 The Art of College Teaching within the Human Sciences G 3

Enhance student preparation to teach UG courses in the human sciences at the college level. You will learn theory-driven, evidence-based pedagogy, teaching skills, apply pedagogical strategies & discover your philosophy of teaching. Topics include: social issues, student learning, backwards course design, mechanics, pedagogical strategies, assessment techniques, reflection, and professional dev. Prereq: Grad standing. Cross-listed in HDFS.

7863 Teaching Health and Fitness Courses at the College Level G 3

Enhances the preparation of students to teach health and fitness courses at the college level. Prereq: Admission to PETE or PA Grad program, or permission of instructor. Not open to students with credit for EduPAES 863.

7868 Research on Teaching in Physical Education G 3

Provides students with a basis for understanding three decades of research in this area. The student will develop competencies as a consumer of educational research and practice and as a teacher educator. Prereq: Admission to PETE or PA Grad program, or permission of instructor. Not open to students with credit for EduPAES 868.

8193 Advanced Individual Studies: Physical Education, Sport & Physical Activity G 1 - 12

Advanced independent study course in physical education or adapted physical education. Prereq: Admission to Kinesiology graduate program, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

8777 Doctoral Seminar for Conceptualizing, Constructing, and Finalizing Your Dissertation G 3

This yearlong seminar is intended for doctoral students (particularly those who are post-candidacy). The purpose is to take students from a point at which they have general ideas about their dissertation topic through the development of a solid structure, research strategy, and drafting of framing chapters. Prereq: Enrollment as Ph.D. or Professional Student. Repeatable to a maximum of 18 cr hrs.

8865 Social Justice in Kinesiology G 3

The purpose of this course is to engage in critical discussion and reflection on social justice issues in the field of Kinesiology. We will examine issues of gender, race, ethnicity, culture, language, socio-economic status, disability, religion, embodiment, LGBTQI+, identity, indigeneity, and intersectionality within the context of Kinesiology. Prereq: Grad standing.

8872 Advanced Study in Adapted Physical Education G 3

Provides students the opportunity to study advanced topics essential to Adapted Physical Education. Prereq: Admission to Grad major in Kinesiology, or permission of instructor. Not open to students with credit for EduPAES 872.

8891 Doctoral Seminar in Physical Education G 3

Seminar that examines the theoretical, methodological, and practical aspects of research in the physical education field. Specific content of the course will vary from semester to semester. Prereq: Enrollment in the Kinesiology Ph.D. program, or permission of instructor. Repeatable to a maximum of 18 cr hrs.

266 Kinesiology: Physical Education

8998 Research: Physical Education, Sport & Physical Activity G 1 - 12

Examines the process product, mediating product, and ecological paradigms in educational research from their beginnings in the 1970's to the present day. Prereq: Grad standing in Physical Education, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

8999 Dissertation/Thesis Research: Physical Education, Sport & Physical Activity G 1 - 6

Dissertation research in physical education or adapted physical education. Prereq: Admission into Kinesiology graduate program, and permission of the instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.

Kinesiology: Sport, Fitness, and Health Program

1102 First Aid and CPR U 2

Necessary skills to sustain life, reduce pain, and minimize consequences of injury/illness during an emergency. Course is designed to lead to Certification. Lab fees required. Prereq: Not open to students with credit for EduPAES 102.

1103 Introduction to Health and Wellness in American Society U 2

A study of student health problems; designed to foster understandings and attitudes needed for intelligent decision-making related to present and future health needs.

1104 Stress Management for the College Student U 3

This course is designed to help students learn to identify, understand, prevent and manage stress as it occurs in everyday life. The course has two components: the lecture component will address the cognitive approach to stress management; the lab portion will allow students to experience the fundamentals of yoga and its role in stress reduction in the physical, psychological & spiritual domains.

1105 Mindful Meditation U 1

Students will learn the practice of meditation, benefits of meditation, proper posture, techniques and the different practices pertaining to mindful meditation. Students will participate in both in-class meditation sessions, as well as practice their skills outside of class. A reflection journal will be utilized to record the student's experiences before, during, and after each session.

1137 Sport for the Spectator U 2

The study of various popular spectator sports including football, basketball, baseball, golf, tennis, ice hockey and others.

1139.02 Introductory Program of Outdoor Pursuits: Whitewater Rafting U 1

Introduction to basic whitewater rafting, including: river reading, paddling techniques, equipment, trip planning, and safety. Student must provide sleeping bag and appropriate clothing for river conditions. Prereq: Permission of instructor. Not open to students with credit for EduPAES 139.02. This course is graded S/U.

1139.03 Introductory Program of Outdoor Pursuits: Backpacking I U 1

Introduction to basic backpacking techniques, equipment, wilderness travel, emergency procedures, and environmental awareness. Travel and subsistence costs for activities will be borne by the student. Student must provide sleeping bag and hiking boots. Prereq: Permission of instructor. Not open to students with credit for EduPAES 139.03. This course is graded S/U.

1139.06 Introductory Program of Outdoor Pursuits: Skiing I U 1

Beginning skills and knowledge needed for outdoor skiing. Students must provide equipment. Prereq: Permission of instructor. This course is graded S/U.

1139.07 Introductory Program of Outdoor Pursuits: Experimental Sections U 1

Activities will be announced and publicized whenever an experimental section is deemed worthy of trial. Prereq: Permission of instructor. Not open to students with credit for EduPAES 139.07. This course is graded S/U.

1139.08 Introductory Program of Outdoor Pursuits: Fly Fishing U 1

Introduction to basic materials and methods of fly fishing including choosing and using proper equipment suited for fly fishing in ponds, lakes and rivers in the Midwest. This course is graded S/U.

1139.09 Introductory Program of Outdoor Pursuits: Caving I U 1

Introduction to basic caving techniques, equipment, trip planning, and safety; cave related ecology, flora, and fauna will also be emphasized. Travel and subsistence costs for activities will be borne by the student. Student must provide sleeping bag. Prereq: Permission of instructor. Not open to students with credit for EduPAES 139.09. This course is graded S/U.

1139.11 Introductory Program of Outdoor Pursuits: Rock Climbing U 1

Basic rock climbing techniques, rope handling, and safety systems will be covered. Must be in good physical condition. Travel and subsistence costs for activities will be borne by the student. Students must provide sleeping bag and climbing equipment. Prereq: Not open to students with credit for EduPAES 139.11. This course is graded S/U.

1139.14 Introductory Program of Outdoor Pursuits: Skydiving U 1

Introduction to skydiving including techniques, safe practice and strategies. Students will have the opportunity to skydive; however, it is not required to pass the course. Prereq: Permission of instructor. Not open to students with credit for EduPAES 139.14. This course is graded S/U.

1139.15 Introduction to Body Flight U 1

The purpose of this class is to introduce students to the concepts of human body flight without vehicle assistance. Instruction will include historical development of body flight, various facility types and the challenges each style presents. Concepts of aeronautics, competition, artistry, leisure, basic flying styles and safe practices will be taught. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

1139.21 Introductory Whitewater Kayaking U 1

The purpose of this course is to provide the student with the beginning level skills and knowledge in whitewater kayaking. As a result the student will improve his/her general physical fitness and skill performance. Principles, techniques, safe practices and strategies of whitewater kayaking will be taught throughout the course. This is an introductory course for beginners.

1139.22 Introductory Sea Kayaking U 1

To provide the student with the beginning level skills and knowledge in sea kayaking. As a result the student will improve his/her general physical fitness and skill performance. Principles, techniques, safe practices and strategies of sea kayaking will be taught throughout the course. This is an introductory course for beginners. This course is graded S/U.

1139.24 Advanced Scuba U 1

Advanced Scuba can be different for each student involved. It consists of the continuing educational system of specialty courses involved in Scuba diving. Available courses include, Ice diving, AOW, Night diving, DPV diving, Deep diving, Nitrox diving, Drift diving, Search & Recovery diving, Drysuit diving, Wreck diving, Cavern diving and Technical diving for those who qualify. Prereq: Successful completion of KnSFHP 1139.01, and certification or certification as an Open Water Diver through a nationally recognized scuba diving organization. Some specialty areas require certification as an Advanced Open Water Diver. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

1140.05 Outdoor Pursuits Program: Lake Erie Sport Fishing U 2

Techniques and equipment used in Lake Erie sport fishing featuring Lake Erie angling trips with lectures that include related aquatic science information. Prereq: Permission of instructor. Not open to students with credit for EduPAES 140.05.

1140.10 Outdoor Pursuits Program: Wilderness First Aid U 1

Will train and certify students to cope with basic wilderness hazards and medical emergencies. Upon successful completion of the course students will receive a SOLO WFA completion card valid for 3 years. Prereq: Not open to students with credit for EduPAES 140.10. This course is graded S/U.

1140.11 Wilderness First Responder U 3

The Wilderness First Responder course will provide students the knowledge and skills needed to respond to backcountry medical and trauma situations. This is an 80-hr intensive course that meets 8-10 consecutive days between semesters or during a 4-week Session. Upon successful completion students will receive a Wilderness First Responder completion card valid for 3 years. Additional fee required.

1141.01 Wall Climbing U 1

Introduction of basic rock wall climbing techniques including rope handling and safety systems.

1141.02 Intermediate Wall Climbing U 1

To provide the student with intermediate techniques, lead climbing and training concepts of wall climbing. Prereq: 1141.01, EduPAES 1141, or equiv.

1143.01 Badminton I U 1

Beginning skills and knowledge essential for playing badminton. Prereq: Not open to students with credit for EduPAES 143.01.

1144.01 Basketball Women U 1

Skill and strategy necessary for playing basketball. Prereq: Limited to women only. Not open to students with credit for EduPAES 144.01.

1144.02 Basketball Men U 1

Skill and strategy necessary for playing basketball. Prereq: Limited to men only. Not open to students with credit for EduPAES 144.02.

1146 Boxing for Beginners U 1

Introductory skills and knowledge necessary for boxing. Light contact sparring only. Students must provide boxing gloves and mouthguard.

1147 Principles of Fitness and Wellness U 2

Course is designed to introduce students to concepts of wellness which include domains of the physical, social, emotional, spiritual, environmental, occupational, intellectual, and financial. The course will emphasize the relationship between wellness and quality of life over the lifespan. Students will develop a personal program that includes exercise, nutrition, and disease prevention.

1148.01 Conditioning Activities: Circuit Training U 1

Students will participate in circuit training which combines strength and cardiovascular endurance activities.

1148.02 Conditioning Activities: Jogging U 1

Students will participate in a progressive jogging program in which they will jog from 1-3.5 miles.

Kinesiology: Sport, Fitness, and Health Program 267

<p>1148.03 Conditioning Activities: Swimming U 1</p> <p>Student will participate in a progressive swim conditioning program that culminates in an end-of-the-semester class swim meet.</p>	<p>1155.02 Physical Fitness Training for the ROTC: Navy U 1</p> <p>Designed to allow ROTC student to demonstrate improvement in overall physical conditioning, body composition, and general health. Prereq: Must be enrolled in Navy ROTC. Repeatable to a maximum of 9 or hrs. This course is graded S/U.</p>
<p>1148.04 Conditioning Activities: Strength Training U 1</p> <p>Students will participate in a progressive strength and endurance training program using weight machines, free weights, and other strength equipment.</p>	<p>1155.03 Physical Fitness Training for the ROTC: Air Force U 1</p> <p>Designed to allow ROTC student to demonstrate improvement in overall physical conditioning, body composition, and general health. Prereq: Enrollment in Air Force ROTC. Repeatable to a maximum of 9 or hrs. This course is graded S/U.</p>
<p>1148.05 Conditioning Activities: Cardio Exercise Training U 1</p> <p>Students will participate in a progressive cardiovascular exercise training program that will utilize popular stationary equipment including treadmills, elliptical machines, cycles, and rowing machines.</p>	<p>1156 Flag Football U 1</p> <p>Fundamental skills of flag football. Prereq: Not open to students with credit for EduPAES 156.03.</p>
<p>1148.06 Conditioning Activities: Group Fitness U 1</p> <p>Students will participate in a progressive aerobics program that will include: step, body sculpting, cardio dance, HITT (high intensity interval training) and boot camp style training.</p>	<p>1157.01 Golf I U 1</p> <p>Introductory skills and knowledge preparatory to course play with emphasis on driving, putting, and chipping. Prereq: Not open to students with credit for EduPAES 157.01.</p>
<p>1148.07 Conditioning Activities: Pilates U 1</p> <p>Students will participate in a progressive exercise program that utilizes pilates.</p>	<p>1157.02 Golf II U 1</p> <p>Continuation of 1157.01 with emphasis on introduction to course play. Prereq: 1157.01, or EduPAES 1157.01 or equiv. Repeatable to a maximum of 3 or hrs.</p>
<p>1148.08 Conditioning Activities: Kickboxing U 1</p> <p>Students will participate in a progressive exercise program that utilizes kickboxing.</p>	<p>1157.03 Golf For Business and Life U 1</p> <p>Provides the student with an introduction to golf skills, golf rules, etiquette and terms, and golf history. The primary instructor, along with scheduled golf professionals and guest speakers will teach this course. Speakers from business will share what part golf played in their success and how golf can help the students in their business and personal life.</p>
<p>1148.09 Indoor Cycling U 1</p> <p>This course is designed for students with little to no experience with indoor cycling, and for those interested in taking a more focused approach to indoor cycling. The class will introduce students to the concept of indoor cycling as a means to increased fitness. Students will complete cycle workouts that focus on cardiovascular training using the indoor cycle.</p>	<p>1158.01 Tumbling I U 1</p> <p>Introduction to basic through advanced-basic tumbling skills. Prereq: Not open to students with credit for EduPAES 158.01.</p>
<p>1148.10 Circuit Cycling U 1</p> <p>This course is designed for students with little to no experience with circuit training utilizing free weight strength equipment and indoor cycles, and for those interested in taking a more focused approach to indoor cycling in the format of circuit training. The class will introduce students to the concept of circuit training on and off the indoor cycle as a means to increased fitness.</p>	<p>1158.02 Tumbling II U 1</p> <p>Introduction to advanced-basic through intermediate tumbling skills. Prereq: 1158.01, or EduPAES 1158.01 or equiv. Repeatable to a maximum of 3 or hrs.</p>
<p>1148.11 Walking for Fitness U 1</p> <p>This course is designed to teach students the proper biomechanics of fitness walking and to develop a personal walking program. The course will also apply the principles of wellness, exercise behavior, and conditioning in an activity setting and will also promote the importance of physical activity when improving an individual's health and quality of life.</p>	<p>1161.01 Horseback Riding: Western Style I U 1</p> <p>Student will safely halter, lead, groom, saddle, bridle, ride at a walk and jog/canter in the Western riding discipline. Go to go.osu.edu/ridingclasses to schedule individual riding times. Prereq: Travel and stable costs are responsibility of the student. Not open to students with credit for EduPAES 161.01. This course is graded S/U.</p>
<p>1150.01 Lifetime Fitness and Wellness Strength Training U 2</p> <p>Online course that promotes principles of fitness and wellness over the lifespan. Prereq: Not open to students with credit for 1147, 1148.04 or 1149.04 1150.02, or EduPAES 1147, 1148.04, 1149.04, 1150.01, or 1150.02.</p>	<p>1161.02 Horseback Riding: Western Style II U 1</p> <p>Student will effectively troubleshoot equipment, walk, jog, or trot without breaking gait, halts on command; learn to canter/lope, and good seat and control. Go to go.osu.edu/ridingclasses to schedule individual riding times. Prereq: 1161.01, EduPAES 1161.01, or prior experience; travel and stable costs (rental of horse and equipment) for activities must be borne by the student. Not open to students with credit for EduPAES 161.02. This course is graded S/U.</p>
<p>1150.02 Lifetime Fitness and Wellness Cardiovascular Exercise Training U 2</p> <p>Online course that promotes principles of fitness and wellness over the lifespan. Prereq: Not open to students with credit for 1147, 1148.05 or 1149.05, 1150.01, or EduPAES 1147, 1148.05, 1149.05, 1150.01, or 1150.01.</p>	<p>1161.03 Horseback Riding: Western Style III U 1</p> <p>Student will refine level I and II skills, effectively execute patterns and transitions; identify and explain bits, clean equipment, identify concentrates and roughages (feeding). Go to go.osu.edu/ridingclasses to schedule individual riding times. Prereq: 1161.02, EduPAES 1161.02, or equiv; travel and stable costs (rental of horse and equipment) for activities must be borne by the student. Repeatable to a maximum of 3 or hrs. This course is graded S/U.</p>
<p>1151 Strength Training II U 1</p> <p>Strength and power training; advanced anaerobic and speed conditioning. Prereq: 1148.04 or 1149.04, or EduPAES 1148.04 or 1149.04, or equiv. Repeatable to a maximum of 2 or hrs or 3 completions.</p>	<p>1161.05 Horseback Riding: English Style I U 1</p> <p>Student will safely halter, lead, groom, saddle, bridle, ride at a walk and jog/canter in the English riding discipline. Go to go.osu.edu/ridingclasses to schedule individual riding times. Prereq: Travel and stable costs are responsibility of the student. Not open to students with credit for EduPAES 161.05. This course is graded S/U.</p>
<p>1152.01 Social Dance I Follow U 1</p> <p>Introduction to basic steps and variations of selected dances such as the foxtrot, waltz, and swing. Prereq: Not open to students with credit for EduPAES 1152.01.</p>	<p>1161.06 Horseback Riding: English Style II U 1</p> <p>Student will effectively access equipment; walk, jog, or trot without breaking gait, halts on command; learn to canter/lope, and good seat and control. Go to go.osu.edu/ridingclasses to schedule individual riding times. Prereq: Travel and stable costs are responsibility of the student. Not open to students with credit for EduPAES 161.06. This course is graded S/U.</p>
<p>1152.02 Social Dance I Lead U 1</p> <p>Introduction to basic steps and variations of selected dances such as the foxtrot, waltz, and swing. Prereq: Not open to students with credit for EduPAES 1152.02.</p>	<p>1161.07 Horseback Riding: English Style III U 1</p> <p>Student will refine level I and II skills, effectively execute patterns and transitions; identify and explain bits, clean equipment, be able to explain feeding basics. Go to go.osu.edu/ridingclasses to schedule individual riding times. Prereq: 1161.06, or EduPAES 1161.06 or equiv; travel and stable costs (rental of horse and equipment) for activities must be borne by the student. Repeatable to a maximum of 3 or hrs. This course is graded S/U.</p>
<p>1152.03 Social Dance II Women U 1</p> <p>Continuation of 1152.01 with emphasis on style and technique; introduction to additional social dance contents. Limited to women only. Prereq: 1152.01 or EduPAES 1152.01 (152.01), or equiv. Not open to students with credit for 1152.04, or EduPAES 1152.04 (152.04). Repeatable to a maximum of 3 or hrs.</p>	<p>1169 Martial Art Mindset U 1</p> <p>The purpose of this lecture course is to allow the student to take an introspective look at who they are, learn the martial way, and apply what is useful to them in their everyday life. This course was designed to be used as a pre-requisite to or in conjunction with all martial art classes within the Sport, Fitness and Health Program (Judo, Boxing, Eskrima, Tae Kwon Do, Tai Chi, and Self Defense).</p>
<p>1152.04 Social Dance II Men U 1</p> <p>Continuation of 1152.02 with emphasis on style and technique; introduction to additional social dance contents. Limited to men only. Prereq: 1152.02, or EduPAES 1152.02, or equiv. Not open to students with credit for 1152.03, or EduPAES 1152.03 (152.03).</p>	<p>1169.02 Martial Arts Forms: Judo I U 1</p> <p>Introductory skills and knowledge essential in throwing techniques and mat work of Judo. Not open to students with credit for 1169.03 or EduPAES 1169.03.</p>
<p>1152.07 Line Dancing U 1</p> <p>To provide the student with basic skill level and knowledge of line dancing. Principles, techniques, safe practices and various types of line dances will be taught throughout the course.</p>	
<p>1154.01 Fencing I U 1</p> <p>Basic skills and knowledge needed for foil fencing.</p>	
<p>1155.01 Physical Fitness Training for the ROTC: Army U 1</p> <p>Designed to allow ROTC student to demonstrate improvement in overall physical conditioning, body composition, and general health. Prereq: Must be enrolled in Army ROTC. Repeatable to a maximum of 9 or hrs. This course is graded S/U.</p>	

268 Kinesiology: Sport, Fitness, and Health Program

1169.04	Martial Arts Forms: Karate I	U	1	1196.01	Varsity Squads: Baseball	U	2
Introduction to the fundamental forms and techniques of Karate.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity baseball squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1169.07	Martial Arts Forms: Tae Kwon Do I	U	1	1196.02	Varsity Squads: Basketball	U	2
Beginning course in the Korean martial art form; includes etiquette, basic blocking, thrusting and kicking techniques, and self defense.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity basketball squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1169.11	Eskrima	U	1	1196.03	Varsity Squads: Cross Country	U	2
Eskrima is a Filipino martial art that utilizes ratan sticks for combat and self-defense. The purpose of this course is to provide the student with beginning level of knowledge and skills in Eskrima. Students will improve his/her general physical fitness and skill performance. Principles, techniques, safe practices and strategies of Eskrima will be taught throughout the course.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity cross country squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1169.12	Qigong	U	1	1196.04	Varsity Squads: Fencing	U	2
The purpose of this course is to provide the student with beginning level of knowledge and skills in Qigong (chi gong), so that the student will be able to successfully participate in this mindful movement practice as a lifelong activity. Principles, techniques and safe practices of Qigong will be taught throughout the class.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity fencing squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1170.01	Racquetball I	U	1	1196.05	Varsity Squads: Field Hockey	U	2
Beginning skills and knowledge for students with no prior experience in racquetball. Prereq: Not open to students with credit for EduPAES 170.01.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity field hockey squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1171	Pickleball	U	1	1196.06	Varsity Squads: Football	U	2
This course is designed to provide students with the fundamental skills to successfully participate in the game of Pickleball. It will provide the knowledge of the history, rules, and strategies of the game, as well as promote physical activity throughout the student's lifespan.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity football squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1172.01	Self Defense Women	U	1	1196.07	Varsity Squads: Golf	U	2
Skills and understandings essential to defend oneself against an aggressor with emphasis on avoiding attack. Enrollment limited to women only.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity golf squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1172.02	Self Defense Men	U	1	1196.08	Varsity Squads: Gymnastics	U	2
Skills and understandings essential to defend oneself against an aggressor with emphasis on avoiding attack. Enrollment limited to men only.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity gymnastics squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1174	Soccer	U	1	1196.09	Varsity Squads: Ice Hockey	U	2
Techniques and knowledge essential for playing soccer. Prereq: Not open to students with credit for EduPAES 174.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity ice hockey squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1178.01	Swimming I	U	1	1196.10	Varsity Squads: Lacrosse	U	2
Beginning swimming. Open only to non-swimmers and students with no deep water experience. Prereq: Students must provide bathing suit. Not open to students with credit for EduPAES 178.01.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity lacrosse squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1178.02	Swimming II	U	1	1196.11	Varsity Squads: Pistol	U	2
Elementary swimming skills for those who can swim in deep water but no farther than 2 pool lengths (50 yards). Repeatable to a maximum of 3 cr hrs.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity pistol squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1179	Skin and Scuba Diving	U	2	1196.12	Varsity Squads: Riflery	U	2
Skills and knowledge essential for safe diving and preparation for open water checkout dives. Student must be able to swim .25-mile in 10 min. Student must provide bathing suit and bear cost of required special scuba medical exam. Prereq: Not open to students with credit for EduPAES 179.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity riflery squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1185.01	Table Tennis I	U	1	1196.13	Varsity Squads: Soccer	U	2
Beginning skills and knowledge essential for playing table tennis with emphasis on the use of backspin and topspin in the singles game. Prereq: Not open to students with credit for EduPAES 185.01.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity soccer squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1188.01	Tennis I	U	1	1196.14	Varsity Squads: Softball	U	2
Skills and knowledge essential in playing tennis. Beginning skills; forehand, backhand, and serve-singles play. Prereq: Student must provide racket and 6 balls. Not open to students with credit for EduPAES 188.01.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity softball squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1191.01	Volleyball I	U	1	1196.15	Varsity Squads: Swimming	U	2
Introduction to power volleyball. Prereq: Not open to students with credit for EduPAES 191.01.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity swimming squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1191.02	Volleyball II	U	1	1196.16	Varsity Squads: Swimming (Synchronized)	U	2
Continuation of power volleyball fundamental skill perfection and game strategies woven to produce an intermediate playing experience. Prereq: 1191.01, or EduPAES 1191.01, or equiv. Repeatable to a maximum of 3 cr hrs.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity swimming (synchronized) squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1195.01	Yoga I	U	1	1196.17	Varsity Squads: Tennis	U	2
Introduction to fundamental techniques and basic yogic principles of pranayama (breath control), asana (posture), relaxation, and meditation; emphasis on major postures. Prereq: Not open to students with credit for EduPAES 195.01.				Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity tennis squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
1195.02	Yoga II	U	1				
Asanas (postures) at the intermediate level of Hatha yoga are introduced; continued development and practice of relaxation and meditative techniques; further exploration of yogic philosophy. Prereq: 1195.01, or EduPAES 1195.01, or equiv. Repeatable to a maximum of 3 cr hrs.							

Kinesiology: Sport, Fitness, and Health Program 269

1196.18 Varsity Squads: Track and Field	U	2	Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity track and field squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.
1196.19 Varsity Squads: Volleyball	U	2	Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity volleyball squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.
1196.20 Varsity Squads: Wrestling	U	2	Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity wrestling squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.
1196.21 Varsity Squads: Rowing	U	2	Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity rowing squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.
1196.22 Varsity Squads: Diving	U	2	Participation as a player on an OSU varsity squad. Prereq: Must be a member of the OSU varsity diving squad. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.
1197 Competitive Club Sports	U	1	Participation as a member of a competitive club sport team. Prereq: Soph standing, and a member of an OSU club sport. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.
2250 Cancer Prevention	U	2	Discussion of the latest findings on avoiding cancer through lifestyle choices and assessment of one's family health history.
3193 Independent Study: Sport, Fitness and Health Program	U	1 - 12	Independent study in Sport, Fitness and Health. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.
3312 Issues in Alcohol/Drug Use and Abuse	U	2	Provides an understanding of the dynamics of substance abuse. Prereq: Not open to students with credit for EduPAES 312.

Kinesiology: Sport Industry, Sport Management

2100 Introduction to Esports and Game Studies	U	3	This course will take a broad look at topics relevant to Esports and game studies such as history, social context, biomedical, physiology, science and technology, player development, humanistic values, translational applications and the management and the business of Esports.
2210 History of Sport in 19th Century America	U	3	Explores intersection between sport and society in 19th century America. Emphasis on modernity; race, class, gender & ethnicity; rise of the city; religious, intellectual and scientific thought. Prereq: Not open to students with credit for EduPAES 210. GE historical study course. GE foundation historical and cultural studies course.
2211 History of Sport in 20th Century America	U	3	Explores intersection between sport and society in 20th century America. Emphasis on consumerism; race, class, gender & ethnicity; mass media; sport in a global world. Prereq: Not open to students with credit for EduPAES 211. GE historical study course. GE foundation historical and cultural studies course.
2250 Name, Image, and Likeness in Intercollegiate Athletes	U	3	Students will be introduced to the everchanging world of name, image, and likeness (NIL) in intercollegiate athletics. In providing a history of the NCAA's control over athletes' NIL, students will study the effectiveness of NIL policies and the advantages/disadvantages for various stakeholders. 3698 Strategic Insights for Sport Organizations in Emerging Markets	U	3	Strategic Insights for Sport Organizations in Emerging Markets is a study abroad program that takes students on a seminar through emerging economies, giving them a unique firsthand experience of the sport industry in these areas. More specifically, the course is designed to introduce students to the sport industry in emerging markets and strategic opportunities and challenges in these countries. Repeatable to a maximum of 9 cr hrs.
3798 The European Model of Sports	U	3	The European Model of Sport is a study abroad program that takes students on a seminar through Europe, giving them a unique firsthand experience in international sports. The course is designed to introduce students to the European model of sport management, marketing, and sports law; and to provide students with an understanding of the changing context for sport in a global society. Scheduling priority given to Sport Industry majors. Repeatable to a maximum of 6 cr hrs.
4191 Internship: Sport Industry	U	6	Directed and supervised experience in a Sport Industry setting. Prereq: 3189 or EduPAES 2189.21. Not open to students with credit for EduPAES 489.05 or 589.03. This course is graded S/U.
4245 Leadership & Programming in Sports Industry	U	3	Methods of leadership and programming in sport industry organizations. Prereq: Major in Sport Industry or minor in Coaching Education.
4411 College Sport	U	3	Historical development of college sport; influence of race, class and gender; mass media; consumer society; place of college sport in American higher education and culture. Prereq: Enrollment in Sport Industry major.
4509 Sport Marketing and Promotion	U	3	Issues related to the marketing and promotion of sport. Prereq: Major in Sport Industry or minor in Coaching Education.
4607 Legal Aspects of Sport	U	3	Introduction to the American legal system and major cases/laws which make up sports law. Prereq: Major in Sport Industry or Coaching Education minor. Not open to students with credit for EduPAES 607.
4615 Sport and Social Values	U	3	Role of social values play in sport, with emphasis on civic virtue; fair play and social justice; violence/abuses in sport. Prereq: Enrollment in Sport Industry major. Not open to students with credit for EduPAES 615.
4900 Researching in Sports Industry	U	3	Upper-level undergraduate class on various aspects of sport industry research methods that gives a general introduction to social research methods and will cover four broad topics: the foundations of sport industry research, research design, data collection, and data analysis. Prereq: Enrollment in Sport Industry program.
5610 Women's Sport History	U G	3	Examines development of women's sport from primitive cultures to contemporary society. Prereq: Jr standing or above. Not open to students with credit for EduPAES 610.
5614 Sport and Sexuality	U G	3	How conceptualization of sexuality shape and are shaped by sport. Prereq: Jr standing or above. Not open to students with credit for EduPAES 614.
5626 Sport and Popular Culture	U G	3	Examines popular culture's influence on sport and sport as expression of popular culture. Prereq: Jr standing or above. Not open to students with credit for both EduPAES 626.01 and 626.02.
5630 Recreational Sport Leadership	U G	3	A study of current issues, management techniques, and programming concepts associated with the administration of campus recreation programs. Prereq: Jr standing or above. Not open to students with credit for EduPAES 630.
6189 Practicum: Sport Management	G	3	Opportunity to put professional theory and research into practice under supervision in University, school and agency settings. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.
6191 Master's Internship/Practicum: Sport Management	G	3 - 8	Full-time professional development experience at an approved sport worksite setting. Opportunity to apply theory and skills learned in class under direction of on-site supervisor. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 2 completions. This course is graded S/U.

270 Kinesiology: Sport Industry, Sport Management

6807	Sport Law	G	3
Study of legal issues affecting the delivery of sport services; focus on liability in sport activities. Prereq: Grad standing. Not open to students with credit for EduPAES 807.			
6808	Management of Sport Delivery Systems	G	3
Application of contemporary management theories and techniques in the structures and processes of sport delivery systems. Prereq: Grad standing.			
6809	Sport Marketing	G	3
Examination and utilization of basic marketing principles in the areas of sport (collegiate and professional) recreation. Prereq: Grad standing. Not open to students with credit for EduPAES 809.			
6837	Event and Facility Management for Sport Managers	G	3
Examines the principles and practices of planning and managing sport events and facilities. Prereq: Not open to students with credit for EduPAES 837.			
6842	Business of College Sports	G	3
Provides business analysis of intercollegiate athletics, including an in depth look at OSU athletic program; develop understanding of college sports administration, educational, business missions. Prereq: Sport Management major, and Grad standing; or permission of instructor. Not open to students with credit for EduPAES 842 or BusMHR 870. Cross-listed in BusMHR 7605.			
7897	Colloquium in Sport Management	G	3
Current research in Sport Management. Prereq: Sport Management major, and Grad standing; or permission of instructor. Repeatable to a maximum of 15 cr hrs.			
7906	Understanding Sport Consumers: Theoretical Perspectives	G	3
Acquaints students with issues related to sport consumers' behaviors by discussing pertinent theories and implications to sport consumer behavior. Prereq: Grad standing, and Sport Management major; or permission of instructor. Not open to students with credit for EduPAES 906.			
8193	Advanced Individual Studies: Sport Management	G	1 - 12
Advanced independent study in Sport Management. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
8194	Advanced Group Studies: Sport Management	G	1 - 5
Advanced group studies in Sports Management. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8951	Theoretical Approaches to Sport Organizations	G	3
Organization and management theory applied to sport organizations. Prereq: Major in Sport Management, and Grad standing; or permission of instructor. Not open to students with credit for EduPAES 951 or 952. Repeatable to a maximum of 6 cr hrs.			
8998	Research: Sport Management	G	1 - 4
Research topics to be determined through discussion with advisor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
8999	Dissertation/Thesis Research: Sport Management	G	1 - 9
Research for thesis or dissertation purposes only. Prereq: Post-candidacy and Doct standing in Sport Management, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			

Knowlton

1100	Knowlton Survey	U	1
Introduction to the University, the Knowlton School of Architecture, and the disciplines of architecture, landscape architecture, and city and regional planning. Prereq: Not open to students with credit for Arch 1100, LArch 1100, CRPlan 1100, or any survey course.			
2300	Outlines of the Built Environment	U	3
Introduction to architecture, landscape architecture, and planning as cultural practices that shape the physical environment. Prereq: Not open to students with credit for Arch 2300, 2300E, LArch 2300, or 2300E. GE cultures and ideas course.			
2310	Seeing and Making	U	4
Introduction to the design of the physical environment through direct experience and practices of making, including urban walks, drawing and physical model making. Prereq: Not open to students with credit for Arch 2310 or LArch 2310. GE theme lived environments course.			
5880	Knowlton Interdisciplinary Seminar	U G	1 - 15
Interdepartmental seminar; topics to be announced. Prereq: Sr or Grad standing. Repeatable to a maximum of 15 cr hrs or 15 completions.			

Korean

1101.01	Level One Korean I: Classroom Track	U	4
Standard modern Korean: development of listening and speaking skills; basic grammar; reading and writing of the Korean script (hangul). Classroom Track. Not open to native speakers or students with 3+ years at high school level. Prereq: Not open to students with credit for 101.01 or 102.01. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			

1101.51	Level One Korean I: Individualized Instruction	U	1 - 4
Standard modern Korean: development of listening and speaking skills; basic grammar; reading and writing of the Korean script (hangul). Individualized Track. Prereq: Not open to students with credit for 101.51, 102.51, or to native speakers of this language through regular course enrollment or EM credit; or to students with 3 or more years of study in this language in high school, except by permission of dept. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1101.61	Level One Korean I: Individualized Instruction-Distance	U	1 - 4
Online Korean individualized instruction courses are designed to help students build communication skills in the Korean language through an integrated approach that incorporates all four language skills and three modes of communication (interpretive, interpersonal, and presentational). Particular emphasis will be placed on the ability to use Korean in a real-life-like situation. Prereq: Not open to students with credit for 1101.01, 1101.02, or 4 cr hrs of 1101.51. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.			
1102.01	Level One Korean II: Classroom Track	U	4
Continuation of 1101. Classroom Track. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01, or 1101.02, or 4 cr hrs of 1101.51, or equivalent, or Korean Placement Level 8. This course is available for EM credit. GE for lang course. GE world languages course.			
1102.51	Level One Korean II: Individualized Instruction	U	1 - 4
Continuation of 1101. Individualized Track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Prereq: 1101.01 or 1101.02, or 4 cr hrs of 1101.51 or equiv. Advancement to the first credit in this course in the same semester as the completion of the 4th credit for 1101.51 requires registration for both courses, with permission of instructor. Not open to students with credit for 102.51, 103.51, or to native speakers of this language through regular course enrollment or EM credit. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1102.61	Level One Korean II: Individualized Instruction-Distance	U	1 - 4
Online Korean individualized instruction courses are designed to help students build communication skills in the Korean language through an integrated approach that incorporates all four language skills and three modes of communication (interpretive, interpersonal, and presentational). Particular emphasis will be placed on the ability to use Korean in a real-life-like situation. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01, 1101.02, 4 cr hrs of 1101.51, or 4 cr hrs of 1101.61, or equiv. Not open to students with credit for 1102.01, 1102.02, or 4 cr hrs of 1102.51. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.			
1103.01	Level Two Korean I: Classroom Track	U	4
Modern Korean intermediate level spoken communication, development of reading skills, and written composition. Classroom Track. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, 1102.02, 1102.03, 1102.05, or 4 sem cr hrs of 1102.51, or equiv., or Korean Placement Level 7. This course is available for EM credit. GE for lang course. GE world languages course.			
1103.51	Level Two Korean I: Individualized Track	U	1 - 4
Modern Korean intermediate level spoken communication, development of reading skills, and written composition. Individualized Track. Prereq: 1102.03, 1102.05, 1102.01, or 1102.02 or 4 cr hrs of 1102.51 or equivalent; and 101.51 and 102.51. Not open to students with credit for 103.51, 104.51, or to native speakers of this language through regular course enrollment or EM credit. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1103.61	Level Two Korean I: Individualized Instruction-Distance	U	1 - 4
Online Korean individualized instruction courses are designed to help students build communication skills in the Korean language through an integrated approach that incorporates all four language skills and three modes of communication (interpretive, interpersonal, and presentational). Particular emphasis will be placed on the ability to use Korean in a real-life-like situation. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, 1102.02, 4 cr hrs of 1102.51, or 4 cr hrs of 1102.61, or equiv. Not open to students with credit for 1103.01, 1103.02, or 4 cr hrs of 1103.51. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.			
2102.01	Level Two Korean II: Classroom Track	U	5
Continuation of 1103.01. Prereq: 1103.01 or 1103.02, or 4 cr hrs of 1103.51 or equivalent. Not open to students with credit for 2102.02, 205, or 206; or native speakers of this language through regular course enrollment or EM credit. This course is available for EM credit.			
2102.51	Level Two Korean II: Individualized Track	U	1 - 5
Continuation of 1103.01/1103.51. Prereq: 1103.01 or 1103.51, or permission of instructor. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit.			

2102.61 Level Two Korean II: Individualized Instruction-Distance U 1 - 5

Online Korean individualized instruction courses are designed to help students build communication skills in the Korean language through an integrated approach that incorporates all four language skills and three modes of communication (interpretive, interpersonal, and presentational). Particular emphasis will be placed on the ability to use Korean in a real-life-like situation. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1103.01, 1103.02, or 4 cr hrs of 1103.51, or 4 cr hrs of 1103.61, or equiv. Not open to students with credit for 2102.01, 2102.02, or 5 cr hrs of 2102.51. Repeatable to a maximum of 5 cr hrs. This course is available for EM credit.

2231 Elements of Korean Culture U 3

A survey of the religion, history, customs, performing arts, fine arts, literature, and social institutions of the Korean people from the earliest era to the present. Taught in English. 2451 Korean Literature in Translation U 3

A close examination of masterpieces in Korean literature across genres for students with no previous academic training in Korean literature. All readings and discussions in English; college-level English reading and writing required. Prereq: English 1110.01 (110), 1110.02, or 1110.03. Not open to students with credit for 251. GE lit or diversity global studies course. GE foundation lit, vis and performing arts course.

2797 Study Abroad in Korea U 3

The Korea Study Abroad Program introduces a dynamic mix of Korea's traditions and modern innovations. The course allows students to explore the country's cities, industries, cultural heritages, environmental policies, and green growth strategies through readings, site visits, and lectures. Students will gain hands-on experience through guided walking tours and excursions. GE foundation historical and cultural studies course.

4101.01 Level Three Korean I: Classroom Track U 5

Expanding oral and written proficiency in Korean; expansion of vocabulary and knowledge of Chinese characters. Classroom Track. Prereq: 2102 or equivalent with permission of instructor. Not open to students with credit for 507.01 or 508.01. This course is available for EM credit.

4101.51 Level Three Korean I: Individualized Track U 1 - 5

Expanding oral and written proficiency in Korean; expansion of vocabulary and knowledge of Chinese characters. Individualized Track. Progress is sequential from one cr hr to the next with a proficiency at the level of 80% required for advancement. Prereq: 2102 or equivalent with permission of instructor. Not open to students with credit for 507.51 or 508.51. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit.

4101.61 Level Three Korean I: Individualized Instruction-Distance U 1 - 5

Online Korean individualized instruction courses are designed to help students build communication skills in the Korean language through an integrated approach that incorporates all four language skills and three modes of communication (interpretive, interpersonal, and presentational). Particular emphasis will be placed on the ability to use Korean in a real-life-like situation. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 2102.01, 5 cr hrs of 2102.51, or 5 cr hrs of 2102.61, or equiv. Not open to students with credit for 4101.01 or 5 cr hrs of 4101.51. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit.

4102.01 Level Three Korean II: Classroom Track U 5

Continuation of 4101. Classroom Track. Prereq: 4101 or equivalent with permission of instructor. Not open to students with credit for 508.01 or 509.01. This course is available for EM credit.

4102.51 Level Three Korean II: Individualized Track U 1 - 5

Continuation of 4101. Individualized Track. Progress is sequential from one cr hr to the next with a demonstrated proficiency at the level of 80% required for advancement. Prereq: 4101 or equivalent with permission of instructor. Advancement to the first credit in this course in the same semester as the completion of the 5th credit for 4102.51 requires registration for both courses, with permission of instructor. Not open to students with credit for 508.51 or 509.51. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit.

4102.61 Level Three Korean II: Individualized Instruction-Distance U 1 - 5

Online Korean individualized instruction courses are designed to help students build communication skills in the Korean language through an integrated approach that incorporates all four language skills and three modes of communication (interpretive, interpersonal, and presentational). Particular emphasis will be placed on the ability to use Korean in a real-life-like situation. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 4101.01, 5 cr hrs of 4101.51, or 5 cr hrs of 4101.61, or equiv. Not open to students with credit for 4102.01 or 5 cr hrs of 4102.51. Repeatable to a maximum of 5 cr hrs or 5 completions. This course is available for EM credit.

4193 Individual Studies U 1 - 3

Directed study to meet individual research needs of students in Korean studies. Not a substitute for regular language courses. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

4194 Group Studies U 1 - 3

Group investigation of issues in Korean studies. Varying topics. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.

4998 Undergraduate Research Project U 3

Focused research toward completion of an original project. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

4998H Honors Undergraduate Research Project U 3

Focused research toward completion of an original project. Prereq: Honors standing and/or permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

4999 Undergraduate Research Thesis U 1 - 4

Focused research toward completion of an original thesis. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 2 completions. This course is graded S/U.

4999H Honors Undergraduate Research Thesis U 3

Focused research toward completion of an original thesis. Prereq: Honors standing and/or permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

5101 Level Four Korean I U G 3

Level Four Korean; development of integrated language skills at an advanced level, formal and informal communication, and discussion of contemporary social issues. Prereq: 4102 or equivalent, or permission of instructor. Not open to students with credit for 610 or 611.

5102 Level Four Korean II U G 3

Continuation of 5101. Prereq: 5101 or equivalent, or permission of instructor. Not open to students with credit for 611 or 612.

5103 Level Five Korean I U G 3

Strengthening communication skills through oral and written reports of social and cultural issues; development of advanced proficiency in a variety of genres. Prereq: 5102 or equivalent, or permission of instructor.

5104 Level Five Korean II U G 3

Continuation of 5103. Prereq: 5103 or equivalent, or permission of instructor.

5256 Interdisciplinary Topics in Korean Politics and Society U G 3

Interdisciplinary Korean studies course in the areas of social science, bridging Korean history, politics, gender, religion, philosophy, education, intercultural communication and international relations, etc. Taught in English. Repeatable to a maximum of 6 cr hrs.

5315 Korean Language: Structure, Culture, and Communication U G 3

A comprehensive survey of structural, cultural, and communicative aspects of the Korean language. Taught in English. Prereq: 1103, or equiv, or permission of instructor.

5380 Korean Linguistics U G 3

Examination of the phonology, syntax, lexicon, and writing system of the Korean language; some topics related to language use and acquisition. Prereq: 1103 or equivalent, or permission of instructor. Not open to students with credit for 680.

5400 Performance Traditions of Korea U G 3

Cross-cultural and interdisciplinary exploration of cultural expressiveness in the context of Korean performance traditions; includes guided research, field work, ethnography and performance workshop. Prereq: 2231 or 2451, or Chinese or Japanese equivalents; or permission of instructor. Repeatable to a maximum of 9 cr hrs.

5405 Korean Dramatic Tradition U G 3

Major works in the Korean dramatic tradition from ancient to contemporary eras. Includes historical and performative discourse, dramatic reading and enactment. Taught bilingually, sometimes in English and sometimes in Korean. Prereq: 2102.01 or 5 cr hrs of 2102.51 (205 and 206), English 1110 (110), or permission of instructor. Repeatable to a maximum of 6 cr hrs.

5455 Interdisciplinary Courses in Korean Art, Music, Film, and Theatre U G 3

Interdisciplinary course in the history and criticism of Korean art, music, theatre, martial art, healing art and film with reference to their implications to humanity. Taught in English. Repeatable to a maximum of 6 cr hrs.

Landscape Architecture

1100 Landscape Architecture Survey U 1

Introduction to the University, the Knowlton School of Architecture and the professions of architecture, city and regional planning and landscape architecture. Prereq: Not open to students with credit for 1100E, 100, Arch 1100 (100), 1100E, 100H, CRPlan 1100 (100), 1100E, or any survey course. Cross-listed in Arch and CRPlan.

2000 Introduction to Landscape Architecture U 1

Introduction to the profession of Landscape Architecture and the breadth of Landscape Architectural projects and practice. This course is graded S/U.

2300E Outlines of the Built Environment U 3

Introduction to the disciplines of architecture and landscape architecture and planning with an emphasis on the physical artifact and its formal and cultural context. Honors Section. Prereq: Honors standing. Not open to students with credit for 200, 1210, 2300, Arch 1210 (200), 2300, or 2300E. GE cultures and ideas course. Cross-listed in Arch.

272 Landscape Architecture

2310	Seeing and Making	U	4		
	Introduction to the design of the physical environment through the exploration of form, space, and order using drawing and modeling techniques. Prereq: Not open to students with credit for 1410, Arch 1410, or Arch 2310. Cross-listed in Arch.				
2367	Making and Meaning of the American Landscape	U	3		
	Overview and interpretation of influential figures, policies, programs, cultural forces, and environmental factors that have shaped the American landscape since the Revolutionary War. Prereq: English 1110, or equiv. GE writing and comm: level 2 and cultures and ideas course. GE foundation historical and cultural studies course.				
2367E	Making and Meaning of the American Landscape	U	3		
	Overview and interpretation of influential figures, policies, programs, cultural forces, and environmental factors that have shaped the American landscape since the Revolutionary War. Prereq: Honors standing, and English 1110, or equiv. GE writing and comm: level 2 and cultures and ideas course. GE foundation historical and cultural studies course.				
2410	Landscape Architecture Media I	U	3		
	This course introduces students to tools for communicating concepts, designs and processes of landscape architecture. Working with both analog and digital methods of representation, students learn to make visible their analyses and solutions. Provides a foundation in fundamental digital tools, hand sketching and hybrid methods of representation that convey temporality and environmental phenomena. Concur: 2920.				
2420	Ecology/Technology I	U	3		
	This course provides an introduction to landscape materials by studying the qualities, characteristics, and dynamic functions of plants, soils, and water. Emphasis is placed on ecological approach to plant communities and landscape ecology. Topics include fundamentals of site grading, stormwater management, and planting design as well as an introduction to site detailing/construction. Concur: 2920.				
2600	Outlines of Landscape Architecture: Visual Literacy in the Built Environment	U	3		
	Overview of patterns and processes of human design on land in relation to environmental, economic, and socio-cultural forces, with an emphasis on interpretation of visual landscape change. GE VPA course. GE foundation lit, vis and performing arts course.				
2600E	Outlines of Landscape Architecture: Visual Literacy in the Built Environment	U	3		
	Overview of patterns and processes of human design on land in relation to environmental, economic, and socio-cultural forces, with an emphasis on interpretation of visual landscape change. Honors section. Prereq: Honors standing. Not open to students with credit for 201. GE VPA course.				
2780	Landscape Architecture Topics Seminar	U	3		
	Discussion-based undergraduate course focusing on topics in contemporary landscape practice and research. Repeatable to a maximum of 6 or hrs.				
2920	Design Studio II: Site Dynamics	U	6		
	Introduction to basic principles and qualities of landscape architectural design, with a focus on the dynamic interaction of environment and people at site scale within the typological framework of gardens and parks. Prereq: Enrollment in LArch major. Not open to students with credit for 252.				
2930	Design Studio III: Social Dynamics	U	6		
	Continuation of the second-year Landscape Architecture design studio sequence, with a focus on urban and suburban sites within the typological framework of campuses, complexes and communities. Prereq: 2920 (252). Not open to students with credit for 254.				
3194	Group Studies in Landscape Architecture	U	1 - 15		
	Group-based study of landscape architecture topics within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions.				
3430	Landscape Architecture Media II	U	3		
	This course reinforces the foundational study of digital landscape representation with an emphasis on mapping and physical modeling. Employing geographic information systems and digital modeling programs, students develop two- and three-dimensional strategies for representing dynamic landscape processes at a range of geospatial scales. Concur: 2930.				
3440	Ecology/Technology II	U	3		
	This course reinforces the foundational study of landscape materials and ecological dynamics with an emphasis on landscapes of the built environment. Specific attention is given to contemporary and sustainable techniques of site construction and landscape detailing. Concur: 2930.				
3940	Design Studio IV: Landscape Ecology & Planning	U	6		
	Synthesis of landscape ecology and urban ecology principles with landscape planning and design at the district, watershed and/or regional scale, with a focus on integration of advanced inventory and analysis methodologies. Prereq: 2930 (254). Not open to students with credit for 633.				
3950	Design Studio V: Design in Detail	U	6		
	Processes and techniques of design development, detailing and documentation, with a focus on sustainable design practices. Prereq: 3940 (633 and 356). Not open to students with credit for 658.				
4193	Independent Studies in Landscape Architecture	U	1 - 6		
	For students who wish to pursue special independent studies in landscape architecture, with the guidance of an advisor/instructor. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs or 8 completions. This course is graded S/U.				
4194	Group Studies in Landscape Architecture	U	1 - 4		
	For group-based study of landscape architecture topics within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs or 8 completions.				
4367	Landscape Architecture Professional Practice	U	3		
	Overview of landscape architectural professional practice principles, standards and codes, with a focus on writing and communication. Prereq: Jr or Sr standing, and enrollment in LArch major. Not open to students with credit for 5367.				
4410	Advanced Landscape Technologies Seminar	U	3		
	Advanced topics in landscape technologies. Repeatable to a maximum of 9 or hrs.				
4450	Advanced Landscape Media Seminar	U	3		
	Advanced topics in landscape media. Repeatable to a maximum of 9 or hrs.				
4780	Undergraduate Research Methods	U	3		
	Quantitative, qualitative and design methods for undergraduate level landscape architectural research. Prereq: Enrollment in major within the Knowlton School of Architecture.				
4780H	Undergraduate Research Methods	U	3		
	Quantitative, qualitative and design methods for undergraduate level landscape architectural research. Honors section. Prereq: Honors standing, and major within the Knowlton School of Architecture. Not open to students with credit for 740.				
4960	Design Studio VI: Urbanism	U	6		
	Advanced landscape design and planning in relation to sustainable urbanism. Prereq: 3950 or 356. Not open to students with credit for 457.				
4999	Design Studio for Thesis	U	6		
	Allows for development of topical research/design projects with an interdisciplinary perspective. Prereq: Permission of instructor.				
4999H	Honors Design Studio	U	6		
	Allows for development of topical research/design projects with an interdisciplinary perspective. Prereq: Honors standing, and major within the Knowlton School of Architecture.				
5191	Professional Experience in Landscape Architecture	U G	0		
	Documentation of work experience in the field of landscape architecture or suitable related areas. Prereq: Permission of instructor. Repeatable to a maximum of 6 completions. This course is graded S/U.				
5194.02	Group Studies in Landscape Architecture	U G	1 - 15		
	For group-based study of landscape architecture topics within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 4 completions.				
5367	Landscape Architecture Professional Practice	U G	3		
	Overview of landscape architectural professional practice principles, standards and codes, with a focus on writing and communication. Prereq: Jr, Sr, or Grad standing, and enrollment in LArch major. Not open to students with credit for 663				
5610	History/Theory I	U G	3		
	This course offers a global survey ranging from prehistoric settlements to the formation of the modern landscape profession in the 19th century. It assembles a foundation for thinking through landscape with approaches from architecture, art history, and archaeology, examining cultural and designed landscapes through common technological and cultural frameworks.				
5610E	History/Theory I	U G	3		
	This course offers a global survey ranging from prehistoric settlements to the formation of the modern landscape profession in the nineteenth century. It assembles a foundation for thinking through landscape with approaches from architecture, art history, and archaeology, examining cultural and designed landscapes through common technological and cultural frameworks. Prereq: Honors standing.				
5620	History/Theory II	U G	3		
	The history and theory sequence engages the disciplines of urban design, planning, and infrastructure, draws on architectural and art history, and discusses the cultural as well as the designed landscape. Landscape History and Theory 2 focuses on the modern period, from the mid 19th-century onward, and the forces that shaped our built environment.				
5620E	History/Theory II	U G	3		
	The history and theory sequence engages the disciplines of urban design, planning, and infrastructure, draws on architectural and art history, and discusses the cultural as well as the designed landscape. Readings and lectures focus on the modern period, from the mid 19th-century onward, and the forces that shaped our built environment. Prereq: Honors standing.				
5630	Advanced Topics in History/Theory	U G	3		
	The final course in the history and theory sequence focuses on specific themes of landscape architecture and planning, both historical and contemporary. Repeatable to a maximum of 9 or hrs.				

Landscape Architecture 273

5630E	Advanced Topics in History/Theory	U G	3
This advanced seminar in landscape history deals with topics in landscape historiography, philosophies of history, major trends in researching and writing about landscapes and environments, and readings and discussions around the current state of the field. Focused topic varies by semester, completion of LARCH 5610 and 5620 strongly recommended prior to enrollment. Prereq: Honors standing. Repeatable to a maximum of 9 cr hrs.			
5798	Study Tour in Landscape Architecture	U G	1 - 15
Program offering opportunity for guided travel, field study and on-site investigation in the United States and abroad. Repeatable to a maximum of 45 cr hrs or 3 completions.			
6194	Group Studies in Landscape Architecture	G	1 - 15
For group-based study of landscape architecture topics within the frame of an instructor guided course. Prereq: Grad standing and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
6367	Landscape Architecture Professional Practice	G	3
Overview of landscape architectural professional practice principles, standards and codes, with a focus on writing and communication. Prereq: Grad standing, and enrollment in LArch major. Not open to students with credit for 5367.			
6410	Landscape Architecture Media I	G	3
This course introduces students to tools for communicating concepts, designs, and processes of landscape architecture. Working with both analog and digital methods of representation, students learn to make visible their analyses and solutions. Provides a foundation in fundamental digital tools, hand sketching, and hybrid methods of representation that convey temporality and environmental phenomena. Prereq: Grad standing. Not open to students with credit for 670.			
6420	Ecology/Technology I	G	3
This course provides an introduction to landscape materials by studying the qualities, characteristics, and dynamic functions of plants, soils, and water. Emphasis is placed on ecological approach to plant communities and landscape ecology. Topics include fundamentals of site grading, stormwater management, and planting design as well as an introduction to site detailing/construction.			
6430	Landscape Architecture Media II	G	3
This course reinforces the foundational study of digital landscape representation with an emphasis on mapping and physical modeling. Employing geographic information systems and digital modeling programs, students develop two- and three-dimensional strategies for representing dynamic landscape processes at a range of geospatial scales. Prereq: 6420, and Grad standing. Not open to students with credit for 620, 622, 626, 670, 672, and 702.			
6440	Ecology/Technology II	G	3
This course reinforces the foundational study of landscape materials and ecological dynamics with an emphasis on landscapes of the built environment. Specific attention is given to contemporary and sustainable techniques of site construction and landscape detailing.			
6600	Outlines of Landscape Architecture: Visual Literacy in the Built Environment	G	3
This lecture course surveys the world of contemporary landscape architecture. Through study of works and texts, as well as design processes, students establish an understanding of landscape architecture as an applied activity and a sphere of research. Prereq: Grad standing, or permission of instructor.			
6667	Making and Meaning of the American Landscape	G	3
Overview and interpretation of influential figures, policies, programs, cultural forces, and environmental factors that have shaped the American landscape since the Revolutionary War. Prereq: Grad standing, or permission of instructor.			
6910	Design Studio I: Site Design	G	6
Introductory design studio with a focus on design process at the site scale. Prereq: Grad standing. Not open to students with credit for 640.			
6920	Design Studio II: Dynamic Systems	G	6
Synthesis of landscape ecology and site planning principles at the community and/or watershed scale, with a focus on integration of advanced inventory and analysis methodologies. Prereq: 6910, and Grad standing. Not open to students with credit for 642 or 644.			
6999	Thesis in Landscape Architecture	G	1 - 8
Individual thesis development under guidance of advisor. Prereq: Permission of instructor. Repeatable. This course is progress graded (S/U).			
7193	Independent Studies in Landscape Architecture	G	1 - 6
For students who wish to pursue independent studies in landscape architecture, with the guidance of an advisor/instructor. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.			
7194	Group Studies in Landscape Architecture	G	1 - 4
For group-based study of landscape architecture topics within the frame of an instructor guided course. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 8 completions.			
7410	Advanced Landscape Technologies Seminar	G	3
Advanced topics in landscape technologies. Repeatable to a maximum of 9 cr hrs.			

7450	Advanced Landscape Media Seminar	G	3
Advanced topics in landscape media. Repeatable to a maximum of 9 cr hrs.			
7630	Advanced Landscape History & Theory Seminar	G	3
Advanced topics in landscape history and theory. Repeatable to a maximum of 9 cr hrs.			
7780	Research Methods in Landscape Architecture	G	3
Quantitative, qualitative and design methods for graduate level landscape architectural research and documentation. Prereq: Grad standing. Not open to students with credit for 740.			
7890	Seminar in Landscape Architecture	G	3
Advanced topics in landscape architectural practice, theory and research. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.			
7930	Design Studio III: Urban Landscape	G	8
Design of the urban environment in relation to sustainable urbanism principles and practices. Prereq: 6920, and Grad standing. Not open to students with credit for 754. Repeatable to a maximum of 16 cr hrs.			
7950	Design Studio V: Design in Detail	G	8
Processes and techniques of landscape architectural design development, detailing and documentation, with a focus on sustainable design practices. Prereq: 7940, and Grad standing. Not open to students with credit for 658. Repeatable to a maximum of 16 cr hrs.			
8990	Research Prep Seminar	G	3
Seminar-based, guided development of individual research projects. Prereq: 7780, and Grad standing.			

Latin

1101.01	Elementary Latin I	U	4
Elementary level introduction to the Latin language; the course begins the study of grammar and vocabulary. Not open to students with 3 or more years of high school study in this language, except by permission of department. This course is available for EM credit. GE for lang course. GE world languages course.			
1102.01	Intermediate Latin I	U	4
Completion of Latin grammar and syntax; introduction to reading of Latin authors. Prereq: 1101 or equiv, or Latin Placement Level 8, or permission of instructor. This course is available for EM credit. GE for lang course. GE world languages course.			
1102.55	Elementary Latin II: Accelerated	U	5
Second part of the accelerated introductory Latin sequence; leads to readings of Latin authors such as Ovid, Caesar, Cicero, or Pliny. Prereq: 1101.55. GE for lang course. GE world languages course. FL Admis Cond course.			
1103	Intermediate Latin II	U	3
Selected readings in Latin literature. Prereq: 1102, or Placement Test, or permission of instructor. GE for lang course. GE world languages course.			
1890	Intensive Latin Workshop I	U	6
Intensive Latin workshop introducing grammar and vocabulary up to reading competence of Latin authors, covering the material offered in Latin 1101-1103. Su Sem. Concur: 1891. GE for lang course. GE world languages course.			
1891	Intensive Latin Workshop II	U	6
Intensive Latin workshop covering the study of Latin authors at the 2000 level. Su Sem. Concur: 1890. Students may not register for any other course if they enroll in Latin 1891.			
2101	Cicero	U	3
Readings from Cicero's works, mainly the orations. Prereq: 1103 or 1890, or permission of instructor. Not open to students with credit for 210.			
2102	Vergil	U	3
Readings from Vergil's poetry. Prereq: 1103 or 1890, or permission of instructor. Not open to students with credit for 211.			
2103	Roman Historians	U	3
Readings from Caesar, Sallust, Livy, and/or Tacitus' Agricola. Prereq: 1103 or 1890, or permission of instructor. Not open to students with credit for 212.			
2104	Ovid	U	3
Readings from Ovid's narrative poetry (Metamorphoses and Fasti). Prereq: 1103 or 1890, or permission of instructor. Not open to students with credit for 213.			
2105	Latin Lyric	U	3
Readings from the poems of Catullus, Horace, Propertius, Tibullus, or the elegiac poems of Ovid. Prereq: 1103 or 1890, or permission of instructor. Not open to students with credit for 214.			
2106	Roman Comedy	U	3
Readings from the comedies of Plautus and Terence. Prereq: 1103 or 1890, or permission of instructor. Not open to students with credit for 206.			
2193	Individual Studies	U	1 - 9
Intermediate readings in Latin literature. Prereq: 1103 or equiv, and permission of department. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			

274 Latin

4998	Research	U	1 - 3
A program of study arranged for each student. Prereq: Sr standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4998H	Honors Research	U	1 - 3
A program of study arranged for each student. Prereq: Honors standing, and Sr standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4999	Thesis Research	U	1 - 6
A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in Latin. Prereq: Jr standing or above, and enrollment in Classics Major; or permission of instructor or department. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.			
4999H	Honors Thesis Research	U	1 - 6
A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in Latin. Prereq: Honors standing, Jr standing or above, and enrollment in Classics Major; or permission of instructor or department. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.			
5012	Roman Lyric and Erotic Poetry	U G	3
Readings from Catullus, Horatius, Propertius, Tibullus and others. Prereq: 2 courses more advanced than 1103, or Grad standing, or permission of instructor. Not open to students with credit for 614.			
5013	Roman Historians	U G	3
Readings from Sallust, Livy, Tacitus and other historians. Prereq: 2 courses more advanced than 1103, or Grad standing, or permission of instructor. Not open to students with credit for 617.			
5014	Roman Drama	U G	3
Readings from Roman comedy and/or tragedy. Prereq: 2 courses more advanced than 1103, or Grad standing, or permission of instructor. Not open to students with credit for 622.			
5017	Roman Satire and Novel	U G	3
Readings from Roman satirical poetry and novels such as texts by Horatius, Juvenal, and Petronius. Prereq: 2 courses more advanced than 1103, or Grad standing, or permission of instructor. Not open to students with credit for 623.			
5018	Post Classical Latin	U G	3
Readings from texts illustrating the history of Latin language and literature in the Middle Ages and the Renaissance. Prereq: 2 courses more advanced than 1103, or Grad standing, or permission of instructor. Not open to students with credit for 625.			
5030	Special Topics in Latin Literature	U G	3 - 9
Study of a topic in Roman literature with extensive original readings. Prereq: 2 courses more advanced than 1103, or Grad standing, or permission of instructor. Not open to students with credit for 660. Repeatable to a maximum of 18 cr hrs or 6 completions.			
5193	Individual Studies	U G	1 - 9
A program of study arranged for each student, with specific passages for reading and topics from Roman literature, culture, or religion for investigation. Prereq: 4 courses more advanced than 1103 or 1890, or Grad standing. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 9
A program of study arranged for a small group of students, with specific passages for reading and topics from Roman literature, culture, or religion for investigation. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
5890	Intensive Latin Workshop I	U G	6
Intensive Latin workshop offered during the first six weeks of the Summer Term (12-wks) introducing grammar and vocabulary up to reading competence of Latin authors, covering the material offered in Latin 1101-1103. Credit will be awarded upon completion of 5891. Concur: 5891. Not open to students with credit for 1101 through 1103. This course is progress graded.			
5891	Intensive Latin Workshop II	U G	6
Intensive Latin workshop offered during the second half of the Summer Term (12-wks) covering the study of Latin authors at the 2000 level. Concur: 5890. Not open to students with credit for 671.			
6891	Latin Survey: Prose	G	5
A survey of Latin Prose Literature from its beginning to late antiquity focusing on language competence and literary history. Au Sem in alternation with Greek 6891. Prereq: 2 courses at the 2000-level, and permission of instructor, or Grad standing. Not open to students with credit for 701.			
6892	Latin Survey: Poetry	G	5
Survey of Latin Poetry from its beginning to late antiquity focusing on language competence and literary history. Sp Sem in alternation with Greek 6892. Prereq: 4 2000-level courses, and permission of instructor, or Grad standing. Not open to students with credit for 702.			
6893	Latin Prose Composition	G	3
Writing Latin prose. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 802.			

6894	Latin Pedagogy	G	1
An introduction to the teaching of Latin, its methods and techniques. Taught Fall Semester when students typically begin their language teaching. Au Sem. Prereq: Grad standing. Not open to students with credit for 801. This course is graded S/U.			
7193	Individual Studies	G	1 - 9
Assigned reading of Latin authors or topics of Roman culture to help with language requirements or to prepare for exams. Au, Sp, Su Sems. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			
7890	Graduate Seminar, Latin	G	1 - 3
Research seminar on a topic of Latin literature and Roman culture. Repeatable to a maximum of 30 cr hrs or 15 completions.			
8999	Research	G	1 - 9
Readings and discussions connected with the writing of a thesis on a topic of Latin literature and culture. Au, Sp, Su Sems. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions. This course is graded S/U.			

Law

4015	Difficult Conversations in Polarized Times	U	1
This course is offered by the Moritz College of Law Program on Dispute Resolution. It enhances students' skills in holding potentially fraught conversations. The course builds on skills used in interest-based negotiations.			
4020	Engaging with Polarized Groups	U	1
This course offers students practice/feedback to build skills that can help them as a participant and peer to bridge polarized conversations occurring in groups.			
4025	Facilitating Potentially Contentious Meetings	U	1
This course introduces students to the skill of facilitating group meetings, in both contentious and other situations.			
4796	Anglo-American Legal System	U	1 - 6
Introduction to the Anglo-American Legal System for undergraduate students, taught summers at the University of Oxford, Oxford, England. You will study the shared foundations of the English and American legal systems, as well as the basic form of legal analysis in the American system. Prereq: Acceptance into Oxford Summer Program. Repeatable to a maximum of 30 cr hrs or 30 completions.			
5797	Study at a Foreign Institution	U L	1 - 18
An opportunity for students to study at a foreign institution and receive OSU credit for work completed there. Student will pay OSU fees and fees in excess of OSU tuition, as well as all travel and subsistence costs. Prereq: Permission of department chairperson. Repeatable to a maximum of 54 cr hrs or 3 completions.			
6000	Tax Policy, Inequality and Distributive Justice	L	2
Tax Policy, Inequality and Distributive Justice studies the intersection of tax policy, the measurement and effects of economic inequality, and different views of distributive justice. This course is progress graded (S/U).			
6025	Native Americans and the Law	L	1 - 2
This course will introduce students to Federal Indian Law, tribal courts, and current legal issues in Indian Country. Students will study Native American law, culture, and history to gain a new perspective. This course is graded S/U.			
6050	U.S. Legal System and Legal Traditions	L	3
Overview of American law and the U.S. legal profession. Introduction to U.S. common law and statutory law. Prereq: Enrollment in LLM program.			
6055	Transactional Practice-LL.M.	L	3
Students will guide a fictitious company through a sophisticated transaction in the United States. During this representation, students will progress towards a procedural and substantive understanding of a U.S. transactional law practice, and the roles transactional lawyers play. This course satisfies component 5 of Moritz's Pathway One (for NY Bar Admission). Prereq: Enrollment in the Law Master of Laws (LL.M.) Program. Not open to students with credit for 7310.			
6060	Analysis of Client Files for LL.M.	L	2
Practice skills through a series of reading/writing based simulations. Each simulation will include a client file and short library of related materials. Students will review the designated materials and then complete an assigned task from a supervising attorney. Prereq: Enrollment in LLM program.			
6075	Loving v. Virginia: Critical Race/Sex Analysis	L	1
This course will provide a race/sex critical perspective of the Supreme Court's decision in Loving v. Virginia. This course is graded S/U.			
6100	Legal Regulation of Cryptotransactions	L	1
A look at the expanding world of cryptoassets and cryptotransactions and how the regulatory regimes of the world's governments are developing in response. This course is graded S/U.			
6101	Legal Analysis, Research and Writing for International Students	L	2
Analysis, research and writing for international students in the LLM program. Prereq: Enrollment in LLM program.			

6103	Legal Analysis and Writing	L	2
Introduces students to legal institutions and processes; methods of legal analysis; research sources and strategies; professionalism issues that confront new lawyers; and effective communication with clients, colleagues, and other audiences. Prereq: Not open to students in the Master in the Study of Law (MSL) program.			
6106	Legal Analysis and Writing II	L	3
Continues the work of Legal Analysis and Writing I using more sophisticated client problems and focusing on teaching students how to write like advocates. Prereq: Not open to students with credit for 511L.			
6109	Torts	L	4
Trespass to person; negligence; misrepresentation; nuisance, strict liability; liability insurance; alternatives to the fault system; and federal and state regulation of traffic safety. Prereq: Not open to students with credit for 504L.			
6112	Property	L	4
Acquisition, incidents, and transfer of ownership; possessory, concurrent, marital, and future interests, and contractual modification of these results. Prereq: Not open to students with credit for 505L.			
6115	Civil Procedure I	L	4
Civil procedure in state and federal courts; development of equity; abolition of common law forms of action; merger of law and equity; jurisdiction; venue. Prereq: Not open to students with credit for 507L.			
6118	Constitutional Law	L	4
Functional study of the major substantive, methodological, and federalistic limitations upon governmental power obtaining under practice of judicial review. Prereq: Not open to students with credit for 510L.			
6121	Contracts I	L	3 - 4
Remedies for breach; offer and acceptance; consideration; third party beneficiaries; assignment of rights and delegation of duties; conditions; impossibility and frustration; statute of frauds.			
6124	Legislation and Regulation	L	3
The lawmaking process; how the legislative process works; process by which statutes are enacted; how judges interpret the legislative product in theory and practice.			
6125	Justice, Democracy, and Law	L	2
An introductory exploration of the way in which the U.S. legal system relates to fundamental political values of fairness and popular sovereignty. This course is graded S/U.			
6127	Criminal Law	L	4
Justifications for regulating behavior through criminal sanctions, how laws are crafted to reach the intended behavior, and issues of culpability, mens rea, and excuses. Prereq: Not open to students with credit for 533L.			
6130	Legal Methods	L	2 - 6
Legal methods. Prereq: Permission of college. Not open to students with credit for 590L.			
6150	Trump and the Law	L	2
An exploration of the extent to which the presidency of Donald Trump poses distinctive challenges to longstanding values underlying America's legal system, including the rule of law itself. This course is graded S/U.			
6175	Law Practice Technology	L	1
This class will introduce students to a number of skills and concepts involved in using technology in practicing law. Prereq: Enrollment as a first-year Law student. This course is graded S/U.			
6200	Counseling Start-Up Companies	L	1
Provides practical skills to prepare students for counseling start-up companies. This course is graded S/U.			
6225	Legal Issues Surrounding the "MeToo" Campaign	L	1
This course will address legal issues involving sexual harassment and other forms of sexual misconduct in the workplace and in academic settings, from the perspective of feminist legal theory. This course is graded S/U.			
6275	Interviewing & Counseling	L	1
This course will introduce students to interviewing and counseling techniques used in the representation of clients. Prereq: 1L student standing, and enrollment in JD program. This course is graded S/U.			
6300	Researching Client Matters	L	1
Students will master research strategies and how to evaluate information and information resources to resolve questions integral to law practice. Prereq: Enrollment as a first-year Law student. This course is graded S/U.			
6315	Introduction to Trial Advocacy	L	1
This course introduces first-year students to the fundamentals of the skills required to take a case to trial. This course is graded S/U.			

6325	Professional Essentials	L	1
This course introduces students to five skills that are essential in law-related careers: strategic planning, interviewing, observing, networking, and communicating professionally. This course is graded S/U.			
6350	Environmental Justice: Legal Theory and Practice	L	2
Environmental Justice explores the intersectionality of environmental law, social justice, and environmental decision-making. This course is graded S/U.			
6375	Dueling Systems of Law	L	1
This course examines sovereignty by asking how law is generated by often competing communities and levels of governance. This course is graded S/U.			
6425	Criminal Law in Practice	L	1
This class will introduce students to a number of skills and policy considerations involved in practicing criminal law as a prosecutor or defense attorney. This course is graded S/U.			
6450	Social Justice and the Law	L	1 - 2
Students will be introduced to ideas about social justice and law, focusing on intersectional questions of race, class, gender, trans*, ethnicity, sexuality, disability, and religion, and the State. This course is graded S/U.			
6475	Contractual Due Diligence	L	1
Students will critically examine a variety of contracts to practice identifying problematic provisions and interpreting complex terms. This course is graded S/U.			
6500	Introductory Accounting for Lawyers	L	1
Students will learn to record basic financial transactions, create basic financial statements, and analyze complex financial statements. Students with more than two prior accounting courses may not take Introductory Accounting for Lawyers. Students who take Introductory Accounting for Lawyers may not later take Accounting and Finance for Lawyers. Prereq: Enrollment in the College of Law. This course is graded S/U.			
6525	The Lawyer as Negotiator	L	1
A lawyer's advocacy skills includes their ability to articulate a client's concerns, communicate their priorities, and creatively develop settlement options. In short, to negotiate. This course is graded S/U.			
6550	Lawyers as Effective Communicators	L	1 - 2
Using exercises based in improvisation, theatre, and active listening, this practical course builds a strong foundation for persuasive oral communication in a variety of legal settings. This course is graded S/U.			
6625	Introduction to Advertising Law	L	2
First-year law students will learn the basics about truth-in-advertising laws, will get to examine litigated advertisements, and will understand the legal issues arising in false advertising lawsuits. This course is graded S/U.			
6650	Reading the Law	L	1
Develop the ability to effectively and efficiently read the various kinds of legal materials that they will encounter during law school and in practice. Read and analyze cases that have been shortened for casebook purposes, as well as cases as they appear in full in legal databases. This course is graded S/U.			
6675	Literature, Rhetoric, and Persuasion	L	1
In this course, students will explore the role of literary devices in the law; the use of rhetoric in the law; and the law as character in persuasive legal writing, judicial writing, and fiction. This course is graded S/U.			
6700	Federal and State Clemency Decision-making	L	1
Introduction to the legal, political and practical considerations influencing clemency decision-making by Governors and Presidents in the U.S. This course is graded S/U.			
6725	Gender, Race and Tort Law	L	2
This course re-examines several prominent areas of tort law to assess whether and how gender and race has permeated various legal doctrines and affected liability and the measure of damages. This course is graded S/U.			
6750	Serial, Season Three: Criminal Law in Action	L	1
Examine issues in the criminal justice that are revealed through the Serial podcast, Season Three. Students will visit the Franklin County Municipal Court and a juvenile detention facility. This course is graded S/U.			
6775	Designing a Deal	L	1
The course focuses on the ways lawyers can design a transaction to promote their clients' interests and how different designs can affect the parties' contractual pie. This course is graded S/U.			
6800	Regulating Workers in the "Gig" Economy	L	2
First-year law students will explore challenges associated with workers in the "gig" economy who are not generally covered as "employees" under federal and state employment laws. This course is graded S/U.			
6825	Law and Political Economy	L	1
This course introduces students to the study of Law and Political Economy - a perspective that situates law as a mechanism for promoting a democratic and egalitarian society. This course is graded S/U.			

276 Law

6850	Opioids & the Law	L	1	This course examine the U.S. opioid crisis largely from a public health law perspective, considering the role that law (and lawyers) have played in both enabling and addressing the crisis. This course is graded S/U.	7110	Difficult Conversations in Polarized Times	L	1	The course will introduce an approach to difficult conversations in contentious contexts, including methods based on analysis of goals and motivations of both persons or 'sides' in the conversation.
6875	Law & Economics	L	2	Law and Economics applies the basic tools of economic reasoning to legal doctrines and provides a set of tools for analyzing laws. Prereq: 6109. Concur: 6112 and 6121. This course is graded S/U.	7111	Engaging with Polarized Groups	L	1	This course offers students practice/feedback to build skills that can help them as a participant and peer bridge polarized conversations occurring in groups.
6900	Access to Civil Justice	L	1	This course introduces students to structural obstacles that inhibit access to the civil justice system and examines the lawyer's role in as well as proposed solutions to civil legal needs. This course is graded S/U.	7112	Dispute Resolution Processes: Theory & Practice	L	3	Survey of dispute resolution processes including negotiation, mediation, arbitration and a variety of court-administered and extra-judicial settlement processes. Prereq: Not open to students with credit for 722L.
6925	Lawyers and Democracy's Defense	L	1	This LP3 course asks how lawyers and courts are important to democracy, what history can tell us about lawyers' role in the maintenance of democracy, and what lawyers can do to sustain democracy. This course is graded S/U.	7113	Dispute Resolution in Employment	L	2	This course offers skills and strategies for effective negotiation and mediation of employment disputes in non-union work environments.
6950	Big Tech and the New Brandeisians	L	1	This course examines how antitrust scholars and policymakers have responded to the unique challenges posed by digital platforms. This course is graded S/U.	7114	Franchise Agreements, Franchisor/Franchisee Relationships and the Growing Field of Franchise Law	L	3	An overview of franchise law from the General Counsel of Red Roof Inn. Learn the ins and outs of franchise agreements, franchisor/franchisee relationships and the associated legal issues.
7000	Land Use Regulation	L	2	The course will acquaint students with the legal basics for land use regulation, and explain the various regulatory tools in common usage.	7116	Dispute Resolution Survey	L	2	A study of process design principles, structural norms, and participant ethical standards shaping non-trial dispute resolution processes of negotiation, mediation, and arbitration and their hybrids.
7001	Basics of Elder Law	L	3	Ethical issues in serving elderly clients, Medicare and Medicaid, Veteran's benefits, advanced directives and guardianship.	7117	Dispute Resolution in a Digital Age	L	3 - 4	This course explores the use of technology to assist the prevention and resolution of disputes.
7002	Legal Analysis Workshop	L	2	The course will address the two components of critical thinking: the cognitive ability and the disposition to exercise that ability. The course will actively engage students in the learning process, teaching them to take responsibility for their own learning and become self-regulated learners. Prereq: Permission of instructor. This course is graded S/U.	7119	Early Dispute Resolution	L	1	This course examines the application of the Early Dispute Resolution Institute Protocols for resolving disputes at their inception. The focus is on the depth psychology underlying the Protocols, the skills required in each step of the process, and on learning these sufficiently to conduct an effective EDR mediation.
7003	Appellate Advocacy	L	2	Procedural and substantive aspects of appellate practice; the student prepares a brief and presents an oral argument on the basis of assigned research materials. Prereq: 6103 and 6106. Not open to students with credit for 600L or 7310.	7120	Mastering Difficult Conversations & Negotiation: Future Lawyers & Business Leaders	L	1	This course is designed to equip law and business students with leadership and negotiation skills, with a particular emphasis on cultural intelligence.
7004	To Be a GC: The Role of the Modern General Counsel	L	2	This 2-credit course will teach law students, in legal and practical terms, what it means to be a General Counsel of an organization: the lead lawyer on the inside of the entity responsible for providing legal advice to the entity itself.	7124	International Dispute Resolution	L	3	Examines procedures for resolving international disputes (negotiation, mediation, arbitration, judicial settlement), how they operate in contemporary disputes, and how law governs their use. Prereq: Not open to students with credit for 7118 or 761L.
7005	Introduction to Legal Operations	L	2	Legal Operations focuses on using people, process, and technology to deliver legal services to corporations with greater predictability, fewer errors, and lower cost.	7126	Digital Dispute Systems	L	2	Digital Dispute Systems is an entry point for students seeking to consider how technology can assist with the resolution of legal and non-legal disputes.
7006	Advanced Legal Writing	L	2 - 3	Training in the preparation of legal documents. Prereq: 6103, 6106, and 7003. Not open to students with credit for 601L.	7127	Designing Forums and Disputing Systems	L	2 - 4	Design new forums for particular disputes and for a series of disputes. Prereq: Not open to students with credit for 772L.
7009	Advanced Legal Research	L	1 - 3	Advanced topics in legal research. Prereq: 6103. Not open to students with credit for 602L. Repeatable to a maximum of 6 cr hrs or 6 completions.	7192	Public Interest and Government Externship	L	2 - 4	Conduct substantive legal work at government and non-profit placements, attend a class designed for externs, and fulfill specific academic requirements. Repeatable to a maximum of 8 cr hrs or 3 completions. This course is graded S/U.
7100	Negotiation and Mediation Advocacy	L	1 - 2	Negotiation and mediation techniques and practices. Prereq: Not open to students with credit for 701L.	7193	Individual Studies	L	1 - 4	By special arrangement with the dean's office, special problems or projects may be taken for credit under the supervision of members of the faculty. The credit granted varies in proportion to the magnitude of the project. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.
7103	Issues in Arbitration	L	2 - 4	An introduction to the arbitration process as well as an identification of controversial legal issues that have arisen in the arbitration context. Prereq: Not open to students with credit for 702L.	7194	Group Studies	L	1 - 6	Group study in selected areas of the law. Repeatable to a maximum of 24 cr hrs or 24 completions.
7104	Arbitration Practice	L	2	Arbitration Practice is designed to introduce law students to arbitration procedures and practice in labor, employment, and commercial arbitration.	7200	Business Associations	L	3 - 6	Formation, financing, governance, and regulation of corporations and partnerships, and including problems under the federal securities laws. Prereq: Not open to students with credit for 7203 (607.02L) or 607.01L.
7105	Facilitating Potentially Contentious Meetings	L	1	This course introduces students to the skill of facilitating group meetings, in both contentious and other situations.	7201	Marketing Law	L	2	This course will prepare students to advise clients on legal and reputational risks associated with marketing assets and agreements tied to marketing transactions.
7106	Legal Negotiation and Settlement	L	2 - 4	Study of the theory, law, and practice of transactional and settlement negotiations through actual negotiations by individual students in a variety of legal negotiation settings. Prereq: Not open to students with credit for 703L.	7205	Business Torts and Unfair Competition	L	3	Business Torts and Unfair Competition is an advanced Torts course examining the role tort doctrine plays in a business or transactional context.
7109	International Commercial Arbitration & Mediation	L	1 - 3	Examines international arbitral procedures through the interaction of private contractual ordering, national law, and international treaties.	7208	Rainmaking: Client Development for the New Lawyer	L	2	Client Development will cover the various facets and best practices inside law firms, for starting new law firms, brand development & rules associated therewith.

7209 Accounting for Lawyers L 2 - 3
 Problems of financial information in the context of business enterprise law and tax law. Prereq: Not open to students with credit for 628L.

7210 Business Bankruptcy L 2 - 3
 Examines issues related to the business bankruptcy process, e.g. Chapter 11 reorganizations; claims and distribution; the automatic stay; adequate protection; setoff; transfers; among other topics.

7212 Banking Law L 2 - 3
 Study of development of banking activities, structure, and regulation; emphasis on state and federal banking laws; interinstitutional competition, and laws relating to geographic and product expansion. Prereq: Not open to students with credit for 652L.

7214 Contracts II L 3
 Covers advanced topics in contract law including pre-contractual negotiation, interpretation, performance, breach, enforcement defenses, third party rights, and transactional drafting. Prereq: 6121, or permission of instructor.

7215 Securities L 2 - 3
 Analysis of Securities Act of 1933 and its pervasive effects on the issuance and transfers of securities. Prereq: Not open to students with credit for 708L.

7218 Small Business and Entrepreneurial Finance L 2 - 3
 The financial problems faced by new and small businesses and how they intersect with the law. Prereq: Not open to students with credit for 718L.

7221 Corporate Finance L 2 - 3
 Capital formation and financial transactions. Prereq: 7200 or 7203, and enrollment in Law; or permission of home academic program leadership and instructor. Not open to students with credit for 719L.

7222 Litigation Finance L 1
 This course addresses the market for legal claims, focusing primarily on the history, mechanics, and ethics of contingency-fee arrangements and third-party litigation funding.

7224 Mergers and Acquisitions L 2 - 4
 Application of state law, federal securities law, accounting principles, tax law, labor law, products liability law, environmental law, ERISA, antitrust law to mergers and acquisitions. Prereq: Not open to students with credit for 721L.

7228 Regulatory Compliance L 2 - 3
 Analyzes the legal, ethical and policy foundations of regulatory compliance: the effort to translate statutory requirements into compliant corporate and individual behavior.

7229 Health Care Compliance G 3
 This course provides a practical approach to understanding the key elements of modern health care compliance programs. Upon completion of this course, students will have developed a practical understanding of how to establish & implement a health care compliance program, including practical skills in developing policies & procedures, providing compliance education & training, & managing audits.

7230 International Business Transactions L 2 - 4
 Legal problems in transnational context arising from doing business abroad; investments; establishment; exchange controls; trade, licensing; extraterritoriality of regulatory legislation; international agreements; European Common Market. Prereq: Not open to students with credit for 728L.

7234 Venture Capital and Entrepreneurial Dealmaking L 2 - 3
 This course examines the law and economics of venture capital and entrepreneurship focusing on the legal, economic and financial issues that legal professionals confront in this area.

7280 Cannabiz: Exploring the "Legalized" Cannabis Industry from a Corporate Transactional Perspective L 2
 This course will be an exploration of the risks inherent in entrepreneurial businesses, and the ways in which entrepreneurs embrace the possibility of failure to pursue opportunity.

7300 Commercial Paper L 2 - 3
 Types of commercial or negotiable paper; liability of parties; transfer and payment. Prereq: Not open to students with credit for 605L.

7306 Sales L 1 - 3
 A study of the Uniform Commercial Code and other statutes bearing on the sale of goods in the American market. Prereq: Not open to students with credit for 609L.

7309 Secured Transactions L 2 - 3
 Creation and perfection of security interests in goods and intangibles under the Uniform Commercial Code; priorities and remedies. Prereq: Not open to students with credit for 7315 or 610L.

7310 Transactional Practice L 2
 Students will explore the procedural and substantive aspects of transactional practice; conduct original research and write a formal report (in multiple drafts); provide a formal oral presentation. Prereq: Not open to students with credit for 7003.

7311 Social Media & Conflict L 1 - 2
 This course will explore social media, and how it can cause and inflame conflict – especially in these turbulent times. The course is uniquely multidisciplinary and interactive.

7312 Debtor and Creditor Law L 2 - 3
 Debtor and creditor rights and remedies; emphasis on the Bankruptcy Code. Prereq: Not open to students with credit for 7315 or 611L.

7321 Consumer Law L 2 - 3
 In-depth study of consumer rights and remedies as provided by the common law and federal and state statutes, with particular emphasis on the Federal Truth In Lending Act. Prereq: Not open to students with credit for 657L.

7400 Advanced Topics on Criminal Law L 2 - 4
 Advanced topics on criminal law. Prereq: Not open to students with credit for 633L. Repeatable to a maximum of 8 or hrs or 4 completions.

7401 Forensic Mental Health Law L 2
 Discusses the civil and criminal aspects of mental health case law including involuntary civil commitment, competence to stand trial, and sanity at the time of the act.

7402 Social Identity, Consciousness, and Law L 2
 This course gives students meaningful experiences exploring, navigating, and operationalizing social identity, social consciousness, and social justice as they consider themselves, and their role as lawyers in our society, and the legal profession. This course is graded S/U.

7403 White Collar Crime L 2 - 3
 Advanced substantive and procedural study of the federal criminal law enforcement system including RICO (Racketeer Influenced and Corrupt Organizations), mail fraud, drug offenses, tax enforcement, bank secrecy, and civil rights. Prereq: Not open to students with credit for 639L.

7405 Jurisprudence of ADR L 3
 An examination of the fundamental normative values, principles and practices that shape the design and implementation of the negotiation, mediation, arbitration and other 'private' dispute resolution.

7406 Criminal Procedure: Investigations L 2 - 4
 Legality of police practices to gather evidence; emphasis on interrogation and search and seizure; some reference to identification procedures and entrapment. Prereq: Not open to students with credit for 640L.

7409 Criminal Procedure: Adjudication L 3
 Study of the criminal justice system emphasizing the right to counsel, bail, preliminary proceedings, grand jury, speedy trial, discovery, and pleas. Prereq: Not open to students with credit for 641L.

7475 After Sentencing L 2
 This course introduce students to legal issues that arise after a criminal defendant has been sentenced, including proportionality review, habeas, prison-conditions litigation, release, and re-entry.

7500 Disability Discrimination L 2 - 4
 Problem-oriented analysis of interaction between law and social science; emphasis on civil commitment, rights of disabled individuals, rights to community services (educational, residential, employment), and guardianship. Prereq: Not open to students with credit for 636L.

7503 First Amendment L 2 - 3
 Advanced study of First Amendment precedent and doctrines governing the press, speech, association, and church-state relations. Prereq: Not open to students with credit for 733L.

7504 14th Amendment L 2 - 3
 This advanced course in constitutional law will examine current, recurrent, and lasting topics of interest under the Fourteenth Amendment.

7507 Black Lives Matter: Law and Culture L 3
 This course examines law as a site that has defined both blackness and humanness in relationship to African Americans. It also explores black culture to understand various responses to injustice. Cross-listed in AfAmAST.

7509 Special Education Advocacy L 2 - 4
 The law of special education as provided in the Individuals with Disabilities Education Act. Prereq: Not open to students with credit for 757L.

7600 Children & the Law L 2 - 4
 The law applicable to children, including a study of agency and juvenile court treatment of dependent, neglected, abused, unruly, and delinquent children. Prereq: Not open to students with credit for 634L.

7601 The Anatomy of a Divorce Trial L 2
 Practical Course on Divorce / Custody Litigation in Ohio. Prereq: 6112 and 6115; Prereq or Coreq: 8200. Not open to First-Year Students (1Ls).

7602 Family & Divorce Mediation L 2
 Students will learn and practice skills and techniques used in family and divorce mediation and examine and apply relevant family law and mediation statutes and cases.

7603 Family Law L 3 - 4
 Legal concerns in marital relationships, including entrance into marriage, spousal relationships during marriage, annulment, divorce, custody, and post-divorce financial arrangements; legal concerns in quasi-marital living arrangements. Prereq: Not open to students with credit for 635L.

278 Law

7606	Adoption Law	L	2 - 3	8005.01	Moot Court Governing Board	L	1 - 5
Examines the adoption laws of the United States through their history and development. Prereq: Not open to students with credit for 638L.				Students may earn credit for their participation in the Lawyering Skills program. Repeatable to a maximum of 5 cr hrs or 4 completions. The course is graded S/U.			
7610	Sex, Sexuality & the Law	L	2 - 3	8005.02	Moot Court Competition	L	1 - 5
Surveys the various legal issues facing gay men, lesbians and bisexuals.				Students may earn credit for their participation in the Lawyering Skills program. Repeatable to a maximum of 5 cr hrs or 4 completions. The course is graded S/U.			
7612	Critical Race Narratives	L	3	8005.03	Mock Trial Competition	L	1 - 5
Focuses on the relationship between narrative and law by using critical race theory to examine how race in America is a narrative of property and power.				Students may earn credit for their participation in the Lawyering Skills program. Repeatable to a maximum of 5 cr hrs or 4 completions. The course is graded S/U.

 Focuses on ethical issues, changing professional/consumer rights, and Interprofessional cooperation; limited to students in education, law, medicine, nursing, social work, bio-medical sciences, and allied health professions. Prereq: Not open to students with credit for 700.01L.

8406 Professional Responsibility L 2
 Legal and ethical problems of the legal profession and the practicing lawyer. Unauthorized practice, bar admission, group legal services, malpractice, professional organization, and discipline. Required course.

8409 Professional Responsibility: Extended L 3
 Legal and ethical problems of the legal profession and the practicing lawyer. A more comprehensive presentation of unauthorized practice, bar admission, group legal services, malpractice, professional organization, and discipline.

8525 Introduction to the US Legal System G 3
 This foundational course in the Master in the Study of Law (MSL) provides an introduction to the US legal system, including legal methodology and reasoning, sources of law, the adversary system, the legal profession, and the court system. Prereq: Not open to students enrolled in JD or LLM programs.

280 Law

8530	Financial Services Compliance	G	2 - 3		
	This course helps students understand the laws, regulations, and policies covering financial services compliance, including money laundering, data protection, SEC filings, and whistleblowing. Prereq or concur: Regulatory Compliance. Not open to students enrolled in JD and LLM programs.				
8535	Introduction to Tech and IP Transactions	G	2		
	This course provides an overview of the types of tech and IP contracts, including basics on copyright, patents, trademark, trade secrets in these contracts, tech and IP issues in mergers and acquisitions, and important contract provisions for the procurement and provision of technology.				
8550	Legal Research and Writing (MSL)	G	3		
	This foundational course in the Master in the Study of Law (MSL) provides an introduction to legal research, legal reasoning, and legal communication for non-lawyers. Prereq: Not open to students enrolled in JD or LLM programs.				
8600	Real Estate Finance	L	2 - 4		
	Introductory study of real estate financing, emphasizing mortgages, deeds of trust, installment land contracts, rights and remedies of borrowers and lenders, and contemporary financing innovations. Prereq: Not open to students with credit for 621L.				
8603	Real Estate Development	L	2 - 4		
	Overview of role that a lawyer plays during the development of a commercial real estate project. Prereq: Not open to students with credit for 645L.				
8609	Commercial Leasing	L	3		
	Business and legal considerations which drive the leasing of a commercial real estate project. Prereq: Not open to students with credit for 764L.				
8700	Federal Income Taxation	L	3 - 5		
	Gross income; deductions; credits; attribution; timing; sales and other dispositions of property; characterization of income and deductions. Prereq: Not open to students with credit for 606L.				
8706	State and Local Taxation	L	2 - 3		
	This course is designed to introduce students to the legal and policy issues relating to state and local taxation. In addition to covering the basic principles of state income, property, and retail sales and use taxation, the course focuses on the economic, administrative, political, and constitutional constraints on state and local taxation.				
8707	State and Local Government Law	L	3		
	State and Local Government addresses major issues facing state and local governments and prepares students to practice law and influence policy at the state and local level. Graduate students in public policy and related fields are welcome to enroll.				
8708	Biotechnology Law and Policy	L	3		
	An interdisciplinary approach to examining many of the legal, business, ethical, and policy issues raised by the biotechnology industry.				
8709	Wills, Trusts, Estates	L	2 - 4		
	Gifts, wills, intestate succession, protection of spouse and other dependents, fiduciary administration, social security and other employee benefits, life insurance. Prereq: Not open to students with credit for 656L.				
8712	Tax of Business Enterprise/Corporate Tax	L	3 - 4		
	Taxation of organizations; operations; sales and liquidations; divisions and reorganizations. Prereq: 8700.				
8715	International Taxation	L	2 - 3		
	United States taxation of transnational transactions, including taxation of foreign entities operating in the United States and taxation of United States entities operating in foreign countries. Prereq: 8700. Not open to students with credit for 716L.				
8796	Study at a Foreign Institution	L	1 - 10		
	An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Written permission of the Dean. Repeatable to a maximum of 30 cr hrs or 4 completions.				
8797	Participation in a Foreign Exchange Program	L	1 - 15		
	By participating in semester exchange programs, students may take up to 15 credits of law courses at partner institutions in Europe, Asia, and Latin America. Topics will vary based on course selection. Written permission of the Law Academic Affairs Committee is required for participation in non-ABA approved exchange programs. Repeatable to a maximum of 29 cr hrs or 4 completions. This course is graded S/U.				
8803	Law and Religion	L	2 - 4		
	Examines the intersections of law and various religious manifestations. Prereq: Not open to students with credit for 642L.				
8804	Health Equity, Policy and Advocacy	L	3		
	Health Equity, Policy, and Advocacy is a service-learning course in which students work with organizations on state and federal health and equity policy initiatives. The class may be taken for one semester, but it is recommended to be taken in sequence followed by its companion class, LAW 8805 Health Equity, Policy, and Advocacy - Advanced, in the spring semester.				
8805	Health Equity, Policy and Advocacy-Advanced	L	3		
	Health Equity, Policy, and Advocacy--Advanced is a service-learning course in which students work with organizations on state and federal health and equity policy initiatives. This course is a continuation of LAW 8804 Health Equity, Policy, and Advocacy. Students may only take this Advanced course if they have completed the prior course in the fall semester. Prereq: 8804.				
8806	Advanced Constitutional Law	L	2 - 3		
	Constitutional theory, with emphasis on competing views of judicial review and the judicial function; the methodologies and processes of constitutional decision making; and criteria for judicial justification. Prereq: Not open to students with credit for 658L.				
8808	Health Care Agreements and Transactions	L	2		
	Health care regulatory and industry features of agreements relating to physician employment, licensing and data management, long-term care residency, joint operating arrangements and joint ventures, mergers and acquisitions. Credit for 7200 preferred prior to enrollment.				
8809	Health Law	L	2 - 4		
	Selected issues in the practice of medicine; medical malpractice, ethical issues, regulation of the health care industry, and use of medical testimony and proof in litigation. Prereq: Not open to students with credit for 711L.				
8810	Public Health Law	L	3		
	Surveys the legal framework of government public health regulations, by examining the sources and limitations of the government's authority to address current policy issues.				
8811	Food and Drug Law	L	3		
	This course explores various FDA law and policy issues related to the regulation of food, drugs, biologics, devices, and tobacco products. Cross-listed in PubHHMP 7612.				
8813	E-Discovery Law and Practice	L	1 - 3		
	Presents an overview of e-discovery law, as well as an examination of its practical implications for modern commercial litigation and other contemporary practices areas.				
8818	Sports Law	L	2 - 4		
	Provides basic knowledge of relevant substantive law as well as appreciation of effect of applying general legal principles to a popular, scrutinized and mythologized subject. Prereq: Not open to students with credit for 758L.				
8821	Nonprofit Law	L	2 - 3		
	Examines the major aspects of governance and tax law issues affecting the nonprofit sector, particularly legal counsel, directors, trustees, employees, or volunteers. Prereq: Not open to students with credit for 766L.				
8827	Law and Economics	L	2 - 3		
	Economic analysis of legal opinions, including a review of how courts use economic analysis. Prereq: Not open to students with credit for 780L.				
8828	Oil and Gas Law	L	2 - 3		
	Studies the law governing oil and gas ownership and development. It will include a study of related property interests in oil and gas, basic leasing concepts and regulatory principles.				
8889	Topics in Law	L	1 - 5		
	Varied topics within the law area. Prereq: Not open to students with credit for 797L. Repeatable to a maximum of 6 cr hrs or 3 completions.				
8896.02	Seminar: Supreme Court Litigation	L	2 - 3		
	The Supreme Court as an institution emphasizing its formal and informal norms and structures, and content of the law the Court makes.				
8896.08	Seminar: Law, History & Philosophy	L	2		
	The history of American law and legal institutions, and their relationship to society, from the Reconstruction era through recent past.				
8896.11	Seminar: Research Seminar in Law	L	2 - 3		
	Topics will change as specially scheduled in any semester. Repeatable to a maximum of 6 cr hrs or 3 completions.				
8896.13	Seminar: Tax Topics	L	2 - 3		
	Variable topics including tax ethics and policy. This seminar requires as a prerequisite Federal Income Tax Law 8700. Prereq: 8700. Not open to students with credit for 796.41L. Repeatable to a maximum of 6 cr hrs or 2 completions.				
8896.17	Seminar: Consumer Law	L	2 - 3		
	Consumer credit; statutory and judicial regulation, with particular emphasis on the problems of the poor consumer. Prereq: Not open to students with credit for 796.55L. Repeatable to a maximum of 6 cr hrs or 2 completions.				
8896.18	Seminar: Topics in Election Law	L	2 - 3		
	Exploration of the lawyer's role in the political process; the relationship of political parties to the election process; and the interplay of legal requirements and the campaign and voting procedures. Prereq: Not open to students with credit for 796.58L. Repeatable to a maximum of 6 cr hrs or 2 completions.				
8896.19	Seminar: Evidence and Trial Practice	L	2		
	A host of evidentiary issues that challenge trial courts and litigants in the course of a trial. Prereq: Not open to students with credit for 796.20L.				

8896.22 Seminar: Sexual Harassment L 2
 Focuses on sexual harassment in the employment setting and in academic settings. Prereq: Not open to students with credit for 796.67L.

8896.26 Seminar: Critical Race Theory L 2 - 3
 Issues surrounding race and gender are critiqued in this course from a sociological, historical, political, economic and legal perspective.

8896.27 Seminar: Middle East Conflict L 2
 The Israeli-Palestinian conflict: legal issues, positions of the parties, relevant treaties, activity of international agencies, procedures for settlement. Prereq: Not open to students with credit for 796.06L.

8896.29 Computer Crime and Surveillance L 2
 The ways in which computers and the internet change the way crime is committed, investigated, and punished.

8896.30 Sem: Advanced Family Law L 2
 Perspectives on the field of Family Law, past, present and future. Prereq: 7603 (635L).

8896.33 Sem: Federal Death Penalty Habeas L 2
 Examines substantive and procedural issues in federal habeas corpus review of death penalty cases. Reviewing doctrine and practice, it tracks the development of the law to its modern form.

8896.34 Sem: Doing Business in China L 2
 Covers basic forms of multinational companies doing business in China, examining foreign investment formations, corporate reorganizations, labor, tax, real estate, and dispute resolution.

8896.36 Sem: Public Utilities L 2
 The course examines the regulation and deregulation of utilities including: competition, trading, consolidations, effects on public service obligations, and municipal power and cooperatives.

8896.38 Sem: Marijuana Law Policy & Reform L 2
 This seminar will examine the social and historical backdrop of intoxicant prohibition, and assess the legal reforms and political debates now surrounding the control and regulation of marijuana use.

8896.39 Sem: Disability Discrimination L 2
 Surveys the employment, public accommodation and public entity provisions of the Americans with Disabilities Act. Students are required to conduct an accessibility negotiation.

8896.40 Sem: Hot Money L 2
 Examines the appropriate regulation of investor funds that chase short-term trading gains in capital markets. Current financial news and events are at the forefront of class discussion.

8896.41 Sem: Civil Rights L 2
 This seminar surveys the history of civil rights laws and issues in part by exploring the development of constitutional doctrines such as anti-discrimination, color blindness, and anti-subordination.

8896.42 Sem: Race & Crime L 2
 This seminar examines questions relating to the myriad ways in which race intersects with the law and with the criminal justice system.

8896.43 Sem: Jurisprudence L 2
 Explores fundamental questions that underlie our legal system by examining various perspectives on law, including natural law, positivism, legal realism, and critical legal perspectives.

8896.44 Seminar: Education Law L 2
 Focuses primarily on K-12 education wherein students examine topics including school safety issues, protection of student privacy and freedom of expression, and the rights of educators.

8896.45 Seminar: The Business of Law L 2
 Explores the business of law. Students will study how law firms historically have been structured and how they have evolved, and review and critique proposals for restructuring.

8896.46 Sem: Lawyering and Social Movements L 2
 Examines the complex and dynamic relationship between law, lawyers, and social movements.

8896.47 Sem: War Crimes Law L 2
 This seminar explores the lack of "rule of law" and its role in the conflicts in the Balkans focusing on the history and studying both international and domestic trials.

8896.50 Sem: Gender and the Law L 2 - 3
 This seminar explores various strands of feminist legal theory as well as the legal significance of gender in a variety of contexts, including family, employment, criminal, civil and family law.

8896.51 Sem: Critical Race Narratives L 2 - 3
 This seminar focuses on the relationship between narrative and law by using critical race theory to examine how race in America is a narrative of property and power.

8896.52 Sem: U.S. Supreme Court Decisionmaking L 2
 The seminar considers theories of statutory and constitutional interpretation from the current court's perspective, examines Supreme Court practice and looks at key cases pending in the current term.

8896.53 Sem: International Intellectual Property L 2
 The seminar will survey key international treaties, including TRIPS, and their implementation into domestic law. It will also examine use of the WTO Dispute Settlement System to resolve IP disputes.

8896.54 Sem: Critical Theory/Critical Lawyering L 2
 This course introduces students to important strands of contemporary legal theory, including Critical Legal Studies, Critical Race, Feminist, Queer, Lat-crit, and Classcrit theories.

8896.55 Sem: Big Data Law and Policy L 2
 The seminar will introduce big data; describe how it generates value; explain how it poses risks to cybersecurity, privacy and equal opportunity; and explore the laws and policies that govern it.

8896.56 Seminar: State Constitutional Law and Local Government Law L 2
 This seminar explores the nature and significance of state constitutional law and local government law. We begin with a brief examination of the nature of our States and the historical role of their constitutions. Then we will consider the rights protected by the state constitutions and compare them to those protected by the federal constitution.

8896.59 Sem: Section 1983: Police Misconduct and Prison Violations L 2
 This course considers the origins, uses, and limits of section 1983 litigation in the contexts of police misconduct and prison violations.

8896.61 Sem: What's International Law For? Purposes and Values of the International Legal Order L 2
 This seminar examines the overarching policy purposes animating and guiding the international legal order.

8896.62 Sem: Prisons, Police, and Borders L 2
 The course will consider the historical, psycho-social, and legal foundations of prison, police, and borders, and the possibilities for reforms and alternatives.

8896.63 SEM: Contract Justice L 2
 Contract Justice studies the relationship between contract law and various strands and theories of justice.

8896.64 Seminar: Disability Accessibility - From Testing to Websites L 2
 This course will give students to an opportunity to learn about a range of accessibility issues including special education, physical accessibility, testing accommodations, website accessibility and arbitration issues under both the Americans with Disabilities Act and the Individuals with Disability Education Act.

8896.65 Jus Ad Bellum: Waging War in International Law L 2
 Jus ad bellum is the sub-field of international law that governs the decision to wage war. It determines the situations in which it is lawful for states to resort to armed force.

8896.66 Seminar: Administrative Law in the Modern Administrative State L 2
 This seminar explores the scholarly literature on advanced topics in administrative and regulatory practice as well as the theories and policies that motivate the modern regulatory state. Prereq: 6124.

8896.67 SEM: Surveillance and Secrecy L 2
 Seminar exploring enduring, current, and emerging issues involving government surveillance and secrecy. Students will write short and/or long papers, and do presentations.

8896.68 Seminar: Labor and the Constitution L 2
 This seminar explores the historical and contemporary constitutional treatment of labor, labor unions, and collective worker activity.

8896.69 Sem: Ethnic Conflict L 2
 This seminar focuses on conflicts between ethnic groups. Emphasis is on legal institutions and other processes that may ameliorate ethnic conflict. A single research paper is required.

8896.70 Sem: Advanced Constitutional Law L 2
 Different ways to read the U.S. Constitution. Readings, drawn from cases, law review articles, and books, offer students an opportunity to engage and analyze these forms of legal authority, while deepening their understanding and thinking about the role of the U.S. Supreme Court, including its powers of judicial review and supremacy, in our national constitutional scheme.

8896.71 Sem: Drug Law Enforcement & Bill of Rights L 2
 We examine how the historical enforcement of U.S. drug laws resulted in significant legal developments concerning defendants' rights, privacy, states' rights, property rights, and religious freedom.

8896.72 Sem: Federal Sentencing Law & Policy L 2
 Traditional theoretical justifications for punishments and examine in depth society's always-developing approach to the sentencing of criminal offenders.

8896.73 Sem: Reimagining Public Safety L 2
 This course will explore shifts in public policy away from carceral responses to social issues and toward building and promoting real public safety.

282 Law

8896.74	Sem: Biotechnology Law & Policy	L	2
This seminar will provide an introduction both to the laws governing biopharmaceutical innovation as well as the problems they generate and possible tools for their resolution. We will consider intellectual property, FDA regulation, insurance reimbursement, and other regimes.			
8896.75	Seminar: Restorative Justice: Principles and Practice	L	2
Students will learn the origins, purposes, practices and critiques of restorative justice against the backdrop of more common American responses to societal and interpersonal harm and wrongdoing.			
8896.76	Seminar: Poverty Law	L	2
A survey course introducing policies/programs impacting those living in poverty. Topics: welfare, the working poor, unemployment insurance, housing, health disparities, access to justice, etc.			
8896.77	The Evolution of Presidential Power in the 21st Century	L	2
The seminar will focus on the evolution of presidential power, with a focus on the 21st century.			
8896.78	Seminar: Race to Risk Assessment	L	2
'Race to Risk Assessment' explores how legal institutions distinguish racial groups and sustain racial hierarchies, with specific focus reserved for algorithmic risk assessment tools, or RATs. Prereq: Completion of the 1L curriculum.			
8896.79	Seminar: Information Governance Colloquium	L	3
In this course, students will learn to engage with legal scholarship both as a consumer and producer of serious academic work. The topical focus of academic scholarship will be information law.			
8896.80	Judicial Decision-Making	L	2
In this seminar, we will examine how judges make decisions.			
8900	Capital University	L	1 - 12
Course taken at Capital University. Students must obtain a course syllabus and get approval from Moritz Associate Dean. Once approval is received, student must apply as a visiting student at Capital. Repeatable to a maximum of 12 or hrs or 6 completions. This course is graded S/U.			
8910	Enrollment in Law	L	0
Enrollment in law, no credit. Repeatable to a maximum of 2 completions. This course is graded S/U.			
8950	Professional Practice Skills Course	L	1 - 3
Professional Practice series focus on specific lawyering skills and are taught by law faculty or distinguished adjuncts. Prereq: Not open to students with credit for 707.02L. Repeatable to a maximum of 9 or hrs or 3 completions.			
8953	Professional Practice Capstone Course	L	1 - 3
Professional Practice Capstone series are taught by distinguished visitors and focus on real-world challenges faced by lawyers in particular areas, such as health law, international trade, or employment law. Prereq: Not open to students with credit for 707.01L. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			
8964	Lawyers as Leaders	L	2 - 3
Combining theory, simulations and case studies, this course develops a descriptive and normative picture of leadership practices and challenges for lawyers. Prereq: Not open to students with credit for 783.			
8990	American Legal History	L	2 - 3
The history of American law from its colonial antecedents until the twentieth century, emphasizing the relationship between law and the changing social, political, and economic conditions. Prereq: Not open to students with credit for 627L.			

Linguistics

2000	Introduction to Linguistics	U	3
This course is an introduction to linguistics science, the study of language. Students will build a foundation in linguistics, learning about the different components that make up language and how these components systematically work together. Prereq: Not open to students with credit for 2000H. GE cultures and ideas course. GE foundation social and behavioral sci course.			
2000H	Introduction to Linguistics	U	3
This course is an introduction to linguistics science, the study of language. Students will build a foundation in linguistics, examining the different components that make up language and how these components systematically work together. Prereq: Honors standing. Not open to students with credit for 2000. GE cultures and ideas course. GE foundation social and behavioral sci course.			
2001	Language and Formal Reasoning	U	3
How natural and artificial languages are alike in structure and use in reasoning; how natural languages differ in principles of use by humans. Prereq: Math 075 or equiv, or Math placement level R. Not open to students with credit for 280. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.			

2051	Analyzing the Sounds of Language	U	3
The sounds that languages use are examined. Quantitative analytical tools used in phonetic science are introduced. Small experiments are conducted to introduce students to research. Prereq: Math 1075 or 1148, or an ACT math subscore of 22 or higher that is less than two years old; or Math Placement Level R. Not open to students with credit for 2051H or SphHrng 2051. GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
2194	Group Studies	U	1 - 3
Introductory topics in linguistics. Repeatable to a maximum of 6 or hrs or 6 completions.			
2367.01H	Language, Sex, and Gender in American Culture	U	3
Discussing and writing about ways that views about sex and gender affect language and its use in speech communities in the US. Prereq: Honors and Soph standing; and English 1110.01 (110.01), or 1110.02 (110.02), or 1110.03 (110.03), or equiv. Not open to students with credit for 2367.01 (367.01), 367, 367H, or 367.01H. GE writing and comm: level 2 and diversity soc div in the US course.			
2367.02	Language and Advertising	U	3
How advertising impacts American culture; how the U.S. influences international advertising and how various populations are represented in ads. Prereq: English 1110.01 (110.01), or 1110.02 (110.02), or 1110.03 (110.03), or equiv; and Soph standing. Not open to students with credit for Linguist 367.02. GE writing and comm course: level 2.			
2501	Linguistics for Language Learning	U	3
Examines language learning through the lens of linguistics. Covers cross-cultural differences and similarities in language use, parts of speech, foreign sounds, typical mistakes, etc. GE soc sci indivs and groups and diversity global studies course. GE foundation social and behavioral sci course.			
2797.01	Global May Study Abroad New Zealand	U	3
Introduces students to the unique history and culture of New Zealand. Through an intensive immersion program students will combine classroom instruction from UC academics with cultural visits and community engagement projects. The focus of the course is on Language and Identity which will enable students to become immersed in the culture and history of New Zealand. GE education abroad course.			
2797.02	Immersive Linguistics: The South of France	U	3
This Study Abroad 3-credit course will introduce students to the linguistic properties of French through inquiry into the unique language, culture, and history of Aix-en-Provence, located in the south of France. This intensive 4-week Study Abroad immersion program will combine formal classroom instruction in linguistic analysis by OSU faculty with cultural immersion in Aix-en-Provence. GE education abroad course.			
3000	Writing for Linguistics	U	3
This course focuses on how to make good linguistic arguments. Students will analyze a range of ways in which arguments are constructed, learn to communicate linguistic information to specialist and general audiences, and acquire the skills to adopt and reflect on social and ethical standards in linguistics. Prereq: English 1110, or completion of GE Foundation Writing and Information Literacy course; and Ling 2000, 2000H, or English 3271.			
3191	Internship in Linguistics	U	1 - 3
Intensive experience in linguistics as a research assistant on a faculty research project or as an intern at a linguistics-related business or organization. Prereq: Ling 2000 (Linguist 201), 2000H (201H), or 4000 (601), and at least 3 additional courses in Linguistics. Repeatable to a maximum of 3 or hrs or 3 completions. This course is graded S/U.			
3401	Words and Meanings	U	3
An introduction to semantics focusing on word meanings, meaning in word formation, meaning change over time, and cognitive processes involved in word learning and use. Prereq: Ling 2000 (Linguist 201), 2000H (201H), or 4000 (601), and English 1110.01 (110.01), 1110.02 (110.02), or 1110.03 (110.03) or equiv.			
3501	Introduction to American Indigenous Languages	U	3
An introduction to indigenous languages of the Americas and their speakers: e.g. history of settlement, language families, linguistic properties, bilingual education, language policies and attitudes. Prereq: English 1110.01 (110.01), 1110.02 (110.02), or 1110.03 (110.03), or equiv. Not open to students with credit for Linguist 307. GE soc sci indivs and groups and diversity global studies course.			
3502	Klingon, Elvish, Dothraki: The Linguistics of Constructed Languages	U	3
Constructed languages like Klingon, Elvish, and Dothraki may seem like the province of ComiCon goers, but they have a long and varied intellectual history. Constructed languages require a deep understanding of both the mechanics of language and how languages relate to the cultures that they come from. This course examines the linguistic complexity of constructed languages. GE foundation lit, vis and performing arts course.			
3601	Language, Race, and Ethnicity in the U.S.	U	3
Objective examination of the relationship between language, race and ethnicity in the context of varieties of English used by minority ethnic and racial groups in the U.S. GE cultures and ideas and diversity soc div in the US course. GE foundation historical and cultural studies and race, ethnicity and gender div course.			
3603	Language Across Cultures	U	3
Investigation of relationships between language and culture in different societies with a view to shedding light on cross-cultural similarities and differences. GE soc sci indivs and groups and diversity global studies course. GE theme lived environments course.			

3605	Language and Social Justice	U	3
This course introduces students to the role that language plays in both affording and denying citizens their rights to equal treatment and opportunity under the law. GE theme citizenship for div and just wrld course.			
3606	Language, Gender, and Sexuality	U	3
This course focuses on analytical thinking about gender, sexuality, and language, relations among them, and relations between these constructs and other social structures like race, ethnicity, and nationhood; and helps in developing critical thinking, reading, and writing skills. Prereq: Not open to students with credit for 2367.01 or 2367.01H. GE diversity soc div in the US course. GE foundation historical and cultural studies and race, ethnicity and gender div course.			
3701	Language and the Mind	U	3
Introduction to the psychological processes for producing and understanding speech, the means by which they arise in the child, and bases in the brain. Prereq: 2000 (201), 2000H (200H), 5000 (4000), Psych 1100 (100), or 1100H (100H). Not open to students with credit for 371, 3701H (371H), Psych 3371 (371), or 3371H (371H). GE soc sci indiv and groups course. GE foundation social and behavioral sci course. Cross-listed in Psych 3371.			
3701E	Language and the Mind	U	3
Introduction to psychological processes for producing and understanding speech, the means by which these processes arise in the child, and their bases in the brain. Prereq: Honors standing, and 2000 or Psych 1100. Not open to students with credit for 3701, 3701H, Psych 3371, 3371E, or 3371H. GE soc sci indiv and groups course. GE foundation social and behavioral sci course. Cross-listed in Psych 3371E.			
3701H	Language and the Mind	U	3
Introduction to the psychological processes for producing and understanding speech, the means by which they arise in the child, and bases in the brain. Prereq: Ling 2000 (Linguist 201), 2000H (201H), 4000 (601), or Psych 1100 (100), or permission of instructor. Not open to students with credit for Linguist 371, 371H, Psych 3371 (371), or 3371H (371H). GE soc sci indiv and groups course. GE foundation social and behavioral sci course. Cross-listed in Psych 3371H.			
3801	Codes and Codebreaking	U	3
Introduction to old and new technology associated with codes and code-breaking and the ways in which it has impacted people's lives.			
3802	Language and Computers	U	3
Introduction to human language technology, explaining the computational and linguistic principles behind such familiar technologies as web search, spam filtering, and text generation. Prereq: Soph standing or above. GE quant reason math and logical any course. GE theme number, nature, mind course.			
3802H	Language and Computers	U	3
Introduction to human language technology, explaining the computational and linguistic principles behind such familiar technologies as web search, machine translation, and spelling correction. Prereq: Honors standing. Not open to students with Fresh standing. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.			
3803	Ethics of Language Technology	U	3
Students will learn about how language processing systems are created, and at what steps in the process bias and unfairness might creep in. They will learn about efforts to define, detect and quantify bias, and how different ethical principles can lead to different results. Finally, students will discuss different ways to remedy the ethical problems of language technology. GE theme lived environments course.			
3901	Language Evolution and Language Change	U	3
A study of how and why languages change and evolve over time, taking into account the linguistic, historical, ideological and cultural factors involved. Prereq: Not open to students with credit for NELC 3101. GE cultures and ideas course. GE foundation historical and cultural studies course.			
3902	Language Endangerment and Language Death	U	3
Examines language endangerment and language death to reach an understanding of the forces threatening the survival of over half of today's 6,000 languages. GE cross-disciplinary seminar course. GE theme migration, mobility, and immobility course.			
4052	Linguistics and the Scientific Method	U	3
Provides a strong grounding in fundamental principles of scientific reasoning illustrated through concrete examples across the Natural and Social sciences with emphasis on Psychology and Linguistics. This course is suitable for students from all backgrounds including non-science majors. Students will gain understanding of what it means to "do science." Prereq: English 1110.xx, or GE foundation writing and info literacy course. GE theme number, nature, mind course.			
4100	Phonetics	U	3
Cross-linguistic survey of the sounds of the world's languages. Prereq: 2000, 2000H, or 4000. Not open to students with credit for 5101.			
4193	Individual Studies	U	1 - 3
Individual Studies. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			

4194	Group Studies	U	1 - 3
Study of topics not regularly scheduled for seminars in linguistics, under the direction of a faculty member. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
4200	Syntax	U	3
Basic elements of syntactic description and an overview of syntactic structure across languages. Prereq: Ling 2000 (Linguist 201), 2000H (201H), or 4000 (601). Not open to students with credit for Ling 5201 (Linguist 602.01).			
4300	Phonology	U	3
Introduction to phonological analysis and description, and an overview of phonological structure across languages. Prereq: Ling 2000 (Linguist 201), 2000H (201H), or 4000 (601). Not open to students with credit for Ling 5301 (Linguist 603.01).			
4350	Morphology	U	3
The grammatical and phonological analysis of words, and their significance in linguistic structure. Prereq: Ling 2000 (Linguist 201), 2000H (201H), or 4000 (601).			
4400	Linguistic Meaning	U	3
Introduction to linguistic meaning across languages, including word meaning, the contribution of syntactic structure, and the role of context in interpretation. Prereq: 2000 (201), 2000H (201H), or 4000 (601).			
4602	Language and Belonging in the U.S.	U	4
Relationships between language and social diversity in the general American speech community; discussion of how individuals and social groups distinguish themselves on the basis of language. Prereq: 2000, 2000H, 2367.01, 2367.01H, 3601, 3606, or English 3271. Not open to students with credit for 3602 or 3602H. GE soc sci indiv and groups and diversity soc div in the US course. GE theme citizenship for div and just wrld course.			
4780	Undergraduate Research Seminar	U	3
Linguistics students learn about cutting-edge research by OSU linguists and get hands-on experience conducting their own linguistic research. Prereq: 4100, 4200, 4300, 4350, 4400, or 4602, and enrollment in Ling major; or permission of instructor.			
4797	Study at a Foreign Institution	U	1 - 30
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as travel and subsistence costs. Prereq: Permission of department. Repeatable to a maximum of 30 cr hrs or 30 completions.			
4998	Undergraduate Research	U	1 - 10
Undergraduate research or creative activities in various topics. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 15 completions. This course is graded S/U.			
4998H	Undergraduate Research	U	1 - 10
Research: assigned reading and individual research. Prereq: Honors standing and permission of instructor. Repeatable to a maximum of 10 cr hrs or 3 completions. This course is graded S/U.			
4999	Undergraduate Thesis Research	U	1 - 10
Undergraduate research or creative activities in various topics culminating in a research thesis and oral defense. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
4999H	Honors Undergraduate Thesis Research	U	1 - 10
Honors undergraduate research or creative activities in various topics, culminating in a research thesis and oral defense. Prereq: Honors standing, and permission of instructor and the Arts and Sciences Honors Committee. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
5050	Technical Tools for Linguists	U G	3
Practical training in standard computational tools for tackling different kinds of linguistic research. Students will learn computational techniques to access, search and format linguistic datasets, including text corpora, speech and audio, structured representations such as parse trees, and experimental measurements. The course will also cover data exploration and basic modeling.			
5051	Quantitative Methods	U G	3
Quantitative methods in the sub-disciplines of Linguistics, including data analysis, interpretation and display of data, inferential statistics, and statistical modeling. Prereq: Ling 2000 (Linguist 201), 2000H (201H), or 4000 (601).			
5101	Phonetics: Phonetic Theory	U G	3
Principles of articulatory phonetics, with some discussion of acoustic phonetics; practice in the production, recognition, and transcription of sounds in various languages of the world. Prereq: 4100 (Linguist 500), 4300 (503), or 5000 (601); or permission of instructor. Not open to students with credit for Linguist 600.01.			
5102	Laboratory Phonology	U G	3
Introduction to laboratory methods and quantitative models of speech for linguistics. Prereq: Ling 5101 (Linguist 600.01). Not open to students with credit for Linguist 600.02.			
5201	Syntactic Theory I	U G	3
Theories of syntax; principles of syntactic description. Prereq: 5401, or permission of instructor.			

284 Linguistics

5202	Syntactic Theory II	U G	3		
	Theories of syntax; principles of syntactic description. Prereq: Ling 5201 (Linguist 602.01). Not open to students with credit for Linguist 602.02.				
5301	Phonological Theory I	U G	3		
	Introduction to phonological analysis and the principles governing the structure, acquisition, and change of phonological systems; survey of major phonological theories. Prereq: 4100 (Linguist 500), 4300 (503), or 5000 (601); or permission of instructor. Not open to students with credit for Linguist 603.01.				
5302	Topics in Advanced Phonology	U G	3		
	Introduction to phonological analysis and the principles governing the structure, acquisition, and change of phonological systems; survey of major phonological theories. Prereq: 5301 or Linguist 603.01. Not open to students with credit for Linguist 603.02. Repeatable to a maximum of 9 or hrs.				
5351	Morphological Theory	U G	3		
	Introduction to and comparison of current theories of morphology with application to linguistic data and problems. Prereq: 4350 or 5000, or permission of instructor.				
5401	Semantic Theory I	U G	3		
	Problems and methods in linguistic semantics, using logic and semantic model theory as analytic tools; reference, compositionality, presupposition, conversational implicature, speech acts, deixis. Prereq: 4400 or 5000 (Linguist 601); or permission of instructor. Not open to students with credit for Linguist 683.01.				
5402	Semantic Theory II	U G	3		
	Montague semantics and more recent semantic theories; analysis of important problems, such as generalized quantifiers, lattice-based accounts of plurals and events, discourse representation theory. Prereq: Ling 5401 (Linguist 683.01). Not open to students with credit for Linguist 683.02.				
5501	An Introduction to African-American English	U G	3		
	Introduction to the structure and history of the varieties of English used by African-Americans and the relationship between language use and socio-cultural context. Prereq: One Linguistics course taken at the 4000 level (300 level) or above. Not open to students with credit for AfAmAst 5501 or 605.				
5551	Field Methods I	U G	3		
	Methodology for determining the phonological system of a previously unknown language through the use of a native informant. Prereq: Two courses from two of the following four groups: 4100 or 5101; 4200 or 5201; 4300 or 5301; 4350 or 5351; or permission of instructor. Repeatable to a maximum of 24 or hrs.				
5601	Introduction to Sociolinguistics	U G	3		
	Survey of approaches to the study of language in its social context: sociology of language, ethnography of speaking, discourse analysis, quantitative sociolinguistics. Prereq: Two Ling courses 2000 (Linguist 201) or above, or 5000 (601); or permission of instructor. Not open to students with credit for Linguist 661.01.				
5602	Introduction to Quantitative Sociolinguistics	U G	3		
	Exploration of language in its social context through the methods of quantitative analysis of linguistic variation, including the Labovian and implicational models. Prereq: 5601.				
5603	Sociolinguistic Field Methods	U G	3		
	Research methods for sociolinguistic fieldwork including interviewing, observation, survey design and experimental work. Focus on methodology, planning and implementation. Prereq: 5601 (Linguist 661.01).				
5612	Introduction to Cognitive Science	U G	3		
	Cognitive science is an interdisciplinary study of the nature of human thought; psychological, philosophical, linguistic, and artificial intelligence approaches to knowledge representation. Prereq: Permission of instructor. Not open to students with credit for Linguist 612, Philos 5830 (612), CSE 5531 (612), or Psych 5612 (612). Cross-listed in Philos 5830, CSE 5531, and Psych 5612.				
5651	Languages in Contact	U G	3		
	Study of the effects of language contact on the structure of the involved languages, and of the characteristics of the individuals and communities involved in language contact. Prereq: Two Ling courses 2000 (Linguist 201) or above; or Grad standing.				
5700	Training in Informal Science Outreach	U G	3		
	The purpose of this course is to provide students with hands-on training in informal science education at the COSI museum. All students will learn to provide outreach education at the museum; advanced students will develop outreach materials, assist in the visible research operations, and mentor other students. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs. Cross-listed in Psych and EduTL.				
5701	Psycholinguistics I	U G	3		
	An introduction to high-level language processing, word recognition, sentence understanding, and discourse processing. Prereq: 3701 (Linguist 371), 3701H (371H), or 5000 (601); or permission of instructor. Not open to students with credit for Linguist 615.				
5702	Cognitive Models of Language	U G	3		
	Models of human language processing and language parsing and interpretation; probabilistic models, issues in experimentation, and model implementation. Prereq: 2000, 2000H, 3701, or 3701H, or any Ling course at the 4000 level or above, or Grad standing.				
5703	Eye Tracking Methods for Psycholinguistics	U G	3		
	A hands-on laboratory course focusing on current techniques for monitoring eye movements as a measure of language processing. We will discuss preparation of auditory and screen-based/real world visual stimuli, and methods for aggregating and analyzing eye movement data. Students will have access to Tobii and ASL Mobile eye trackers. Prereq: Ling 3701H (Linguist 371H) or 5701 (615).				
5801	Computational Linguistics I	U G	3		
	Symbolic and probabilistic computation applied to the structure of words and sentences, models of syntax, parsing algorithms. Prereq: 2001, 3802, 3802H, 4200, 4400, or 5050, or any 5000-level Ling course, or any CSE course, or Grad standing, or permission of instructor.				
5802	Computational Linguistics II	U G	3		
	Computational models of language acquisition and application of machine learning techniques to language processing. Prereq: Ling 5801 (Linguist 684.01). Not open to students with credit for Linguist 684.02.				
5803	Computational Semantics	U G	3		
	Methods for construction semantic representations for fragments of natural language and performing inference with such representations. Prereq: 5801 (Linguist 684.01). Not open to students with credit for Linguist 684.03.				
5891	Proseminar in Cognitive Science	U G	2		
	Provides an in-depth examination of cognitive science from an interdisciplinary perspective. Prereq: Permission of instructor. Repeatable to a maximum of 4 or hrs. Cross-listed in CSE, Psych, Philos, and SphHrng.				
5901	Introduction to Historical Linguistics	U G	3		
	Introduction to the methods and principles of historical linguistics. Prereq: 4100 (Linguist 500), 5101 (600.01), 4300 (503), 5301 (603.01), or 5000 (601); or permission of instructor. Not open to students with credit for Linguist 611.				
5906	Topics in Indo-Iranian Linguistics	U G	1 - 3		
	Possible topics include advanced classical Sanskrit, introductory Vedic Sanskrit, Indo-Iranian or Indo-Aryan linguistics, or studies in the ancient Indian grammarians. Repeatable to a maximum of 9 or hrs or 3 completions.				
6000	Teaching Introductory Linguistics	G	1		
	Designed to train instructors in the techniques and materials used to teach introductory linguistics courses. Prereq: Not open to students with credit for Linguist 830. Repeatable to a maximum of 4 or hrs. This course is graded S/U.				
6001	Proseminar in Linguistics	G	2		
	Introduction to the problems, methods, and tools of linguistic research. Recommended for all candidates for grad degrees. Prereq: Grad standing in Ling or permission of instructor. Repeatable to a maximum of 50 or hrs. This course is graded S/U.				
6193	Individual Studies	G	1 - 12		
	Individual Studies. Prereq: Permission of instructor. Repeatable to a maximum of 24 or hrs or 8 completions. This course is graded S/U.				
6194	Group Studies	G	1 - 3		
	Study of topics not regularly scheduled for seminars in linguistics, under the direction of a faculty member. Prereq: Ling 4000 (Linguist 601). Repeatable to a maximum of 24 or hrs or 8 completions.				
7890.01	Seminar Discussion Groups: TA Workshop	G	1 - 3		
	A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 level or above course in Ling, or permission of instructor. Repeatable to a maximum of 60 or hrs or 60 completions.				
7890.02	Seminar Discussion Groups: Syntax	G	1 - 3		
	A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 level or above course in Ling; or permission of instructor. Repeatable to a maximum of 60 or hrs or 60 completions.				
7890.03	Seminar Discussion Groups: Phonetics/Phonology	G	1 - 3		
	A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 level or above course in Ling; or permission of instructor. Repeatable to a maximum of 60 or hrs or 60 completions.				
7890.04	Seminar Discussion Groups: Pragmatics	G	1 - 3		
	A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 level or above course in Ling; or permission of instructor. Repeatable to a maximum of 60 or hrs or 60 completions.				
7890.05	Seminar Discussion Groups: Language Acquisition Research Group	G	1 - 3		
	A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 (600) level or above course in Ling, or permission of instructor. Repeatable to a maximum of 60 or hrs or 60 completions.				
7890.06	Seminar Discussion Groups: Sociolinguistics/Historical Linguistics	G	1 - 3		
	A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 (600) level or above course in Ling, or permission of instructor. Repeatable to a maximum of 60 or hrs or 60 completions.				

7890.07 Seminar Discussion Groups: Psycholinguistics	G	1 - 3
A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 (600) level or above course in Ling; or permission of instructor. Repeatable to a maximum of 60 cr hrs or 60 completions.		
7890.08 Seminar Discussion Groups: Computational Linguistics	G	1 - 3
A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 (600) level or above course in Ling, or permission of instructor. Repeatable to a maximum of 60 cr hrs or 60 completions.		
7890.10 Seminar Discussion Groups: Topics in Linguistics	G	1 - 3
A selected group study, with emphasis on individual writing and presentation. Prereq: 5000 (600) level course or above Ling; or permission of instructor. Repeatable to a maximum of 60 cr hrs or 60 completions.		
7890.11 Sociolinguistic Meaning Discussion Group	G	1 - 3
Cross-disciplinary discussion group on sociolinguistic meaning. Readings and research drawn from sociolinguistics, anthropology, psycholinguistics, phonetics and social cognition, among others. Prereq: 5000 (600) level course or above in Ling, or permission of instructor. Repeatable to a maximum of 60 cr hrs or 60 completions.		
7890.12 Seminar in Linguistics: Computational and Cognitive Approaches to Language Discussion Group	G	1 - 3
A selected seminar, with emphasis on individual writing and presentation. This particular decimalized subdivision of Linguistics 7890 (Seminar in Linguistics) is specified to be a forum for individual writing and presentation by members of the Computational and Cognitive Approaches to Language Discussion Group. Repeatable.		
7901 Historical Linguistics: Phonology	G	3
An introduction to the methods, conventions, and literature of comparative-historical linguistics with primary attention to the comparison and reconstruction of Indo-European phonological systems. Prereq: Ling 4000 (Linguist 601) and 5901 (611), or permission of instructor. Not open to students with credit for Linguist 801.		
7902 Historical Linguistics: Morphology	G	3
Advanced work in the comparison and reconstruction of morphological and syntactic systems, primarily Indo-European; detailed examination of some of the results of past and current scholarship. Prereq: 7901 (Linguist 801). Not open to students with credit for 802.		
7903 Topics in Indo-European	G	3
Study of various Indo-European languages and language families and exploration in depth of specific problems in Indo-European grammar. Prereq: Ling 7902 (Linguist 802). Repeatable to a maximum of 18 cr hrs.		
8193 Individual Studies	G	1 - 9
Assigned reading and individual research. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.		
8200 Seminar in Syntax	G	1 - 3
Advanced topics in syntactic analysis. Prereq: 5202 (Linguist 602.02). Repeatable to a maximum of 18 cr hrs.		
8300 Seminar in Phonology	G	1 - 3
Advanced topics in phonological analysis. Prereq: 5301 or 5302. Repeatable to a maximum of 18 cr hrs or 6 completions.		
8350 Seminar in Morphology	G	1 - 3
Advanced topics in morphological analysis. Repeatable to a maximum of 18 cr hrs or 18 completions.		
8400 Seminar in Semantics	G	1 - 3
Accounts of semantic judgments in languages, especially within the theory of generative grammar; relationships between syntax, semantics, and language use. Prereq: 5202 (Linguist 602.02). Repeatable to a maximum of 18 cr hrs.		
8600 Seminar in Sociolinguistics	G	1 - 3
Advanced topics in sociolinguistics. Prereq: 5601 (Linguist 661.01). Repeatable to a maximum of 18 cr hrs or 18 completions.		
8650 Seminar in Contact Linguistics	G	1 - 3
The goal of this seminar is to explore in some detail the methodological frameworks and theoretical issues that relate to the origins and development of various outcomes of language contact. Prereq: Ling 5651 (Linguist 685). Repeatable to a maximum of 18 cr hrs or 18 completions.		
8700 Seminar in Psycholinguistics	G	1 - 3
Advanced topics in psycholinguistics. Prereq: Ling 5701 (Linguist 615). Repeatable to a maximum of 18 cr hrs or 18 completions.		
8800 Seminar in Computational Linguistics	G	1 - 3
Advanced topics in computational linguistics. Prereq: 5802. Repeatable to a maximum of 18 cr hrs.		
8998 Non-thesis graduate research	G	1 - 15
Non-thesis graduate research. Repeatable to a maximum of 15 ch or 15 completions. This course is graded S/U.		

8999 Thesis/Dissertation Research in Linguistics	G	1 - 10
Research for thesis and dissertation purposes only. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.		

Master of Business Administration

6200 Organizational Behavior and Team Effectiveness-EMBA	G	3
An overview of factors that influence individual, group and organizational work performance and techniques to improve it; analytical frameworks for determining effectiveness of given techniques in specific circumstances. Prereq: Enrollment in Executive MBA program or permission of instructor.		
6201 Organizational Behavior	G	1½
An overview of factors that influence individual and team performance and techniques to improve it; analytical frameworks for determining effectiveness of given techniques in specific circumstances. Prereq: Enrollment in MBA or WP MBA program; or permission of instructor. Not open to students with credit for 860.		
6202 Leadership	G	1½
An overview of factors that influence individual and team performance and techniques to improve it; analytical frameworks for determining effectiveness of given techniques in specific circumstances. Prereq: Enrollment in MBA or WP MBA program; or permission of instructor. Not open to students with credit for 860.		
6203 Organizational Behavior and Leadership	G	3
This class is about building critical managerial skills needed to excel in careers, as well as providing an understanding of how and why effective leaders do what they do. While being technically proficient is a necessary prerequisite for many jobs, it is equally important to understand the human side of business and management. Prereq: Enrollment in MBA program, or permission of instructor. Not open to students with credit for 6201 or 6202.		
6204 Principled Leadership	G	3
Skills enhancement in professional teamwork and leadership roles. Prereq: Enrollment in Executive MBA program, or permission of instructor.		
6210.01 Accounting for Decision Making-EMBA	G	3
Uses of Accounting by Managers. Prereq: Enrollment in Executive MBA program or permission of instructor.		
6210.02 Accounting for Decision Making	G	2
Uses of Accounting by Managers.		
6210.03 Accounting for Decision Making	G	1½
Focus on establishing a working knowledge of key accounting principles which in turn assists in sound financial decision-making. Prereq: Enrollment in Fisher College of Business, or permission of instructor.		
6211 Accounting for Decision Making	G	3
Examines the role of accounting and financial reporting by investors and managers for decision-making and performance evaluation. Prereq: Enrollment in MBA program or permission of instructor. Not open to students with credit for 800 or 801.		
6220.01 Finance for EMBA	G	3
Course covers time value of money, risk and return, investment criteria, capital budgeting, market efficiency, derivatives, and interest rate parity. Prereq: Enrollment in Executive MBA program or Working Professional MBA program; or permission of instructor.		
6220.02 Finance for Managers	G	2
Provide an overview of Financial Management. Prereq: Enrollment in Bright Program or permission of instructor.		
6220.03 Finance	G	1½
Course focuses on the time value of money and its application in solving corporate finance (project budgeting) and asset valuation problems. The course will cover: the time value of money, estimating cost of capital, estimating financial costs and benefits and making sound financial decisions. Prereq: Enrollment in Fisher College of Business, or permission of instructor.		
6223 Finance	G	3
A market-oriented framework for analyzing the major types of financial decisions made by corporations. The course covers the following topics: present value techniques, capital budgeting, asset valuation, portfolio theory, asset pricing, market efficiency, options, capital structure, financial distress, financial modeling, risk management, mergers and acquisitions and ethics. Prereq: Enrollment in the MBA or WP MBA program. Not open to students with credit for 6221, 6222, or BusFin 810 or 811.		
6230 Operations Management	G	1 - 3
How the operations function contributes to ensuring effective and efficient flow of materials and information within and outside the organization. Prereq: Enrollment in Executive MBA program or Working Professional MBA program; or permission of instructor. Not open to students with credit for 850. Repeatable to a maximum of 3 cr hrs. This course is progress graded.		
6233 Operations Management	G	3
Operations Management (MBA 6233) is designed to provide a solid foundation and deeper understanding of how the operations function contributes to ensuring effective and efficient flow of materials and information within and outside the organization. Prereq: Enrollment in MBA, or permission of instructor.		

286 Master of Business Administration

6240	Organizations, Markets and Management-EMBA	G	3	Microeconomics from a management and organizational perspective, developing a framework grounded in the fundamentals of economic theory. Prereq: Enrollment in Executive MBA program or permission of instructor. Not open to students with credit for 812.
6243	Organizations, Markets and Management	G	3	Microeconomics from a management and organizational perspective, developing a framework grounded in the fundamentals of economic theory. Prereq: Enrollment in MBA or WP MBA program, or permission of instructor. Not open to students with credit for 6241 or 812.
6250.01	Marketing Management	G	3	Focuses on the interrelated elements of the marketing mix, its relationship with the other functional areas of management, and marketing responses to the external environment. Prereq: Enrollment in Executive MBA program or Working Professional MBA program, or permission of instructor.
6250.02	Marketing Management	G	2	Focuses on the interrelated elements of the marketing mix, its relationship with the other functional areas of management, and marketing responses to the external environment. Prereq: Admission to Fisher College of Business graduate certificate program.
6253	Marketing	G	3	Focuses on the interrelated elements of the marketing mix, its relationship with the other functional areas of management, and marketing responses to the external environment. Prereq: Enrollment in MBA program, or permission of instructor. Not open to students with credit for 840.
6260	Global Environment of Business-EMBA	G	3	Political, economic, social and technological forces shaping today's global business environment. Prereq: Enrollment in Executive MBA program, or permission of instructor. Not open to students with credit for 820.
6261	Global Environment of Business	G	1½	Political, economic, social and technological forces shaping today's global business environment. Prereq: Enrollment in MBA or WP MBA program, or permission of instructor. Not open to students with credit for 820.
6270.01	Data Analysis for Managers-EMBA	G	3	Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of statistical inference and regression analysis and their use in decision making. Prereq: Enrollment in Executive MBA program, or permission of instructor.
6270.02	Data Analysis for Managers	G	2	Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of statistical inference and regression analysis and their use in decision making. Prereq: Enrollment in Fisher College of Business, or permission of instructor.
6270.03	Data Analysis for Managers	G	1½	Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of business analytics and their use in decision-making. Prereq: Enrollment in Fisher College of Business, or permission of instructor.
6273	Data Analysis for Managers	G	3	Introduction to data analysis and statistics for business. Emphasis on achieving an application-oriented understanding of statistical inference and regression analysis and their use in decision making. Prereq: Enrollment in MBA or WP MBA program, or permission of instructor. Not open to students with credit for 6271.
6281.01	Professional Development	G	1½	Professional development and skill set enhancement in the areas of leadership, self-awareness, team-based work and ability to adapt to work life in the context of different organizational and global cultures. Prereq: Enrollment in MBA program.
6281.03	Professional Development	G	1½	Professional development and skill set enhancement in the areas of leadership, self-awareness, team-based work and ability to adapt to work life in the context of different organizational and global cultures. Prereq: Enrollment in MBA program, or permission of instructor.
6281.04	Professional Development	G	1½	Professional development and skill set enhancement in the areas of leadership, self-awareness, team-based work and ability to adapt to work life in the context of different organization and global cultures. Prereq: Enrollment in MBA program, or permission of instructor.
6290	Strategy Formulation & Implementation-EMBA	G	3	Focuses on the determination of the strategic direction of the firm and the management of the strategic process. Prereq: Enrollment in Executive MBA program or permission of instructor. Not open to students with credit for 980.
6292	Business Lab Challenge	G	3	Course provides the foundations of project management. Students work in teams to apply these concepts via the execution and presentation of a business project for a local firm. Prereq: Enrollment in MBA program.

6293	Strategy Formulation & Implementation	G	3	Focus on the determination of the strategic direction of the firm and the management of the strategic process. Prereq: Enrollment in MBA or WP MBA program, or permission of instructor. Not open to students with credit for 980 or 6290 or 6291.
6295	Social Impact	G	3	Students will learn about the unique challenges and business environment facing non-profit organizations through the design, execution, and presentation of a socially-impactful consulting project with/for a local non-profit organization. Prereq: MBA 6293, or permission of instructor.
6296	Max Problem Solving	G	1½	The MAX Problem Solving capstone course deploys decision-making models to examine the types of problems faced in leadership today which can vary in complication and impact. Problem solving application will stir discussion and debate for future leaders to embody the best in business stewardship and ethical enterprise principles.

Master of Dietetics and Nutrition

6000	Medical Nutrition Therapy and Pathophysiology I	G	3	Study of nutrition therapy in disease: interrelationships of nutrition with biochemical, physiological and anatomical changes associated with energy balance, diseases of the cardiovascular, musculoskeletal and respiratory systems. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6001	Communications Strategies, Methods and Technology in Dietetics I	G	1	An evidence based review of current topics in dietetics to support the integration of nutrition informatics, scientific evidence and key trends in healthcare to dietetics practice. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6002	Communications Strategies, Methods and Technology in Dietetics II	G	1	An evidence based review of current topics in dietetics to support the integration of nutrition informatics, scientific evidence and key trends in healthcare to dietetics practice. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6050	Nutrition Care Process Laboratory I	G	2	Laboratory: integration and application of knowledge of nutrition, dietetics, metabolism, and physiology to plan and manage the nutritional care of a variety of patients/clients with evidence-based medical nutrition therapy with laboratory and experiential application. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6089	Supervised Practice: Outpatient	G	1 - 5	Supervised practice experience in a specific health care system with outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitian Nutritionists and the supervision of MDN faculty. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN). Repeatable to a maximum of 5 cr hrs or 3 completions. This course is graded S/U.
6100	Medical Nutrition Therapy and Pathophysiology II	G	3	Study of nutrition therapy in disease: interrelationships of nutrition with biochemical, physiological and anatomical changes associated with disorders of Gastroenterology, Endocrine, Renal, Oncology, Nutritional genomics, Intellectual Disabilities. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6150	Nutrition Care Process Laboratory II	G	2	Laboratory: integration and application of knowledge of nutrition, dietetics, metabolism, and physiology to plan and manage the nutritional care of a variety of patients/clients with evidence-based medical nutrition therapy with laboratory and experiential application. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6189	Supervised Practice I	G	1 - 6	Supervised practice experience in a specific health care system with community outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitians and the supervision of MDN faculty. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN). Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.
6200	Medical Nutrition Therapy and Pathophysiology III	G	3	Study of nutrition therapy in disease: interrelationships of nutrition with biochemical, physiological and anatomical changes associated with acute, chronic and terminal illness, surgery and trauma. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6250	Nutrition Care Process Laboratory III	G	1 - 4	Laboratory: integration and application of knowledge of nutrition, dietetics, metabolism, and physiology to plan and manage the nutritional care of a variety of patients/clients with evidence-based medical nutrition therapy with laboratory and experiential application. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).
6289	Supervised Practice II	G	1 - 6	Supervised practice experience in a specific health care system with community outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitians and the supervision of MDN faculty. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN). Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

Master of Dietetics and Nutrition 287

6300	Advanced Nutrition Counseling Education	G	3
Individual and group nutrition education/counseling as applied to responsibilities of the registered dietitian: Theoretical principles and teaching skills needed for effective group teaching of nutrition and to creation of content for a variety of populations and settings. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).			
6350	Advanced Nutrition Counseling Education II	G	2
Individual and group nutrition education/ counseling as applied to responsibilities of the registered dietitian: Theoretical principles and teaching skills needed for effective individual and group teaching of nutrition and to creation of content for a variety of populations and settings. Prereq: 6300 and admission to MDN Program.			
6389	Supervised Practice III	G	1 - 6
Supervised practice experience in a specific health care system with community outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitians and the supervision of MDN faculty. Prereq: Enrollment in the Master of Dietetics and Nutrition (MDN) program. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
6400	Advanced Nutrition and Physical Assessment	G	3
Comprehensive development of skills for nutritional & physical assessment information using evidence-based research. Assessment of macro and micronutrient status will be discussed in the context of inflammation, pathology, aging, and sarcopenia will be investigated. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).			
6450	Pediatric Nutrition Therapy	G	3
Throughout this course, students will discuss and apply evidence-based nutrition therapy for infant, pediatric, and adolescent populations with complex diagnoses. Prereq: Admission to the Master of Dietetics and Nutrition Program.			
6489	Supervised Practice: Culminating	G	1 - 6
Supervised practice experience in a specific health care system with inpatient and outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitian Nutritionists and the supervision of MDN faculty. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN). Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.			
6500	Advanced Community Nutrition and Health Promotion	G	3
Advanced study of community needs assessment, national nutrition policy, design and evaluation of programs and cultural factors to promote the health and nutritional status of the community. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).			
6589	Supervised Practice: Community	G	1 - 5
Supervised practice experience in a specific health care system with community outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitian Nutritionists and the supervision of MDN faculty. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN). Repeatable to a maximum of 5 cr hrs or 3 completions. This course is graded S/U.			
6705	Advanced Nutrition for Performance	G	3
Integrating/applying principles of human nutrition, exercise physiology and biochemistry. Content covers use of nutrients as fuel during exercise, influence of exercise on nutrient req.'s and of nutrients on exercise performance, assessment of energy expenditure/nutritional status, ergogenic aids, needs of special pop.'s, eating disorders in athletes, and interaction of diet/exercise in hlth prom. Prereq: BioPhrm 3312, Biochem 4511, Physio 3200, or HumnNtr 4609, or equiv; or enrollment in the Master of Dietetics and Nutrition (MDN), MS in Health and Rehabilitation Sciences, or MS in Human Nutrition Program; or permission of instructor. Not open to students with credit for HumnNtr or MedDiet 5705.			
6715	Dietary Supplements	G	3
Uses, efficacy, safety, physiological function, and evidenced-based recommendations for dietary supplements and herbs used as interventions in various diseases and conditions or to maintain health. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN), MS in Human Nutrition, or other Grad-level program in HRS; or permission of instructor.			
6735	Non-Diet Approaches to Health	G	3
An advanced course designed to integrate and apply the principles of human nutrition and non-diet approaches to weight management. The course content covers the philosophy of non-diet approaches, the influence of these approaches on weight, biochemical measures, food and physical activity behaviors, body image and satisfaction, and mental health, and the influence of weight bias and stigma.			
6800	Nutrition Entrepreneurship, Management, and Leadership	G	3
Managerial leadership principles for the development/administration of clinical departments in the health care system. Integration of leadership literature and content with facilitated group discussion and learning circles to develop the skills required of leaders.			
6889	Supervised Practice: Food Service Management	G	1 - 5
Supervised practice experience in a specific health care system with community outpatient emphasis to achieve professional competencies. The student works under the direction of Registered Dietitian Nutritionists and the supervision of MDN faculty. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN). Repeatable to a maximum of 5 cr hrs or 3 completions. This course is graded S/U.			

6900	Practice-Based Research in Dietetics and Nutrition	G	3
Overview of research in the Nutrition and Dietetics. This course is intended to prepare students to be educated consumers of research and to enable them to find, understand, interpret, and apply research findings in their professional practice. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).			
6950	Evidence Based Analysis in Nutrition and Dietetics	G	3
An evidence-based review as it applies to nutrition and dietetics, with a critical assessment of the literature based on current topics in nutrition and health, including formulating relevant clinical questions, finding and evaluating evidence, and translating research into practice.			
7990	Nutrition and Dietetics Capstone	G	1 - 4
Provides a mentored evidence-based practice experience to fulfill the requirements of the capstone project as a final graduation requirement for the Master of Dietetics and Nutrition. Prereq: Admission to the Master of Dietetics and Nutrition program (MDN), or permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			

Materials Science and Engineering

2010	Introduction to Engineering Materials	U	3
Introduction to the properties (mechanical, electrical, thermal, diffusive, degradative, magnetic, optical), structure, and processing of engineering materials, including ceramic, metals, polymers, biological, and composite materials. Prereq: Physics 1250 or 1260; and Math 1151, 1161, or 1154 and enrollment in BSET program; and Chemistry 1210 or 1250 or 1910H; or permission of instructor.			
2194	Group Studies in Materials Science and Engineering	U	0 - 6
Special topics in MSE not offered in other courses. Repeatable to a maximum of 12 cr hrs or 8 completions.			
2241	Structure and Characterization of Materials	U	3
Atomic structure of materials and its determination using X-ray diffraction techniques. Introduction crystalline defects and microstructure. Characterizing and quantifying materials microstructure using optical and electron microscopy. Prereq: 2010, Physics 1250 or 1260, Math 1151 or 1161, and Chem 1210 or 1250; and enrollment as MatScEn-BS student; or permission of instructor. Not open to students with credit for both 341 and 342.			
2251	Thermodynamics of Materials	U	3
Fundamental basis of three laws of thermodynamics, phase equilibria, reaction equilibria, solution theory, and phase diagrams and electrochemistry. Prereq: 2010, Physics 1250 or 1260, Math 1151 or 1161, and Chem 1210 or 1250; and enrollment as MatScEn-BS or WeldEng-BS student; or permission of instructor. Not open to students with credit for both 401 and 525.			
2321	Modeling and Simulation Lab I	U	3
A modeling and simulation laboratory appropriate to sophomore-level study in materials science and engineering. Prereq: 2010, Physics 1250 or 1260, Math 1151 or 1161, and Chem 1210 or 1250; and enrollment as MatScEn-BS student; or permission of instructor.			
2331	Structure and Characterization Lab	U	2
Companion laboratory course to MatScEn 2241. Experiments on X-ray diffraction, scanning electron microscopy, optical microscopy, and stereology with applications. Statistical treatment of data and technical reporting. Prereq: 2010, Physics 1250 or 1260, Math 1151 or 1161, and Chem 1210 or 1250; and enrollment as MatScEn-BS student; or permission of instructor. Not open to students with credit for 282.			
3141	Transformation and Processing of Materials	U	3
Introduction to transformations, and the relationship between microstructure, properties, and processing in metals, ceramics, semiconductors, and polymers. Prereq: 2251, and enrollment as MatScEn-BS or WeldEng-BS major; or permission of instructor.			
3151	Transport Phenomena and Kinetics	U	3
Provides students with concepts related to transport phenomena and kinetics as applied to processing of metals, ceramics, polymers, and composite materials. Prereq: 2010 and 2241; and Math 2177 or 2415; or 2174; and enrollment as MatScEn-BS major; or permission of instructor.			
3189	Professional Practice in Industry	U	½ - 3
Preparation of a comprehensive report based on employment experience in a co-op or job in industry. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.			
3193.01	Individual Studies in Materials Science & Engineering	U	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
3193.02	Individual Studies in Materials Science & Engineering	U	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
3261	Introduction to the Mechanical Behavior of Materials	U	3
Survey of the mechanical response of solids to forces and stresses. Responses studied include elastic, viscoelastic, plastic deformation and fracture. Prereq: 2010, and MechEng 2020 or 2040, and enrollment as MatScEn-BS student; or permission of instructor.			

288 Materials Science and Engineering

3271	Electronic Properties	U	3		
	Introduction to structure, property, and applications of electronic materials. Includes electronically and ionically conducting materials, dielectrics, and optical and magnetic materials. Prereq: 2010; and Math 1151 or 1161; and Physics 1251 or 1261; and enrollment as MatScEn-BS student; or permission of instructor. Not open to students with credit for 371.				
3321	Modeling and Simulation Lab II	U	2		
	Modeling and simulation techniques appropriate to junior-level study in materials science and engineering. Prereq: 2321, 3141, and 3151, and enrollment as MatScEn-BS student; or permission of instructor.				
3331	Materials Science and Engineering Lab I	U	2		
	Laboratory experiments related to materials processes and properties. Introduction to experimental techniques used in materials fields. Data analysis, presentation, and technical writing skills. Prereq: 2331, and enrollment as MatScEn-BS major; or permission of instructor. Not open to students with credit for both 581.01 and 581.02.				
3332	Materials Science and Engineering Lab II	U	2		
	Laboratory experiments related to materials application and performance. Advanced experimental techniques and analysis in these areas. Technical writing skills at fully professional level. Prereq: 2241, 2331, and 2251; and enrollment as MatScEn-BS student; or permission of instructor. Not open to students with credit for both 581.02 and 581.03.				
3333	Materials Science and Engineering Laboratory for Welding Engineering Students	U	2		
	Lab experiments related to heat treating, casting, welding, materials characterization, and properties. Introduction to experimental techniques in materials science. Development of technical writing skills. Prereq: WeldEng 2001 and 2601; and enrollment as WeldEng-BS major; or permission of instructor. Not open to students majoring in MatScEn.				
3611	Biological Response to Biomaterials	U	3		
	The biological response to biomaterials implanted within the human body. Prereq: 2010, or permission of instructor.				
4181	Materials Selection	U	2		
	Systematic and quantitative strategies for selecting materials and processes as a foundation for designing with materials. Prereq: 2241, 2331, 2251, 2321, and enrollment as MatScEn-BS major; or permission of instructor. Not open to students with credit for 600.				
4193.01	Individual Studies in Materials Science & Engineering	U	½ - 6		
	Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.				
4193.02	Individual Studies in Materials Science & Engineering	U	½ - 6		
	Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.				
4194	Group Studies in Materials Science and Engineering	U	0 - 6		
	Special topics in Materials Science and Engineering. Repeatable to a maximum of 12 cr hrs or 8 completions.				
4321	Modeling and Simulation-Based Design	U	3		
	Practical modeling and simulation techniques appropriate to senior-level design in materials science and engineering. Prereq: 2321, 3321, and enrollment as MatScEn-BS major; or permission of instructor.				
4381.01	Design and Professional Practice I	U	3		
	An in-depth design project to foster independent thinking and to develop problem-solving skills. Design of experiments, applied statistics, presentation and communication skills will be discussed. Prereq: 3141, 3151, and 3331. Prereq or concur: 3261, 3271, or 3332, and enrollment as MatScEn-BS major; or permission of instructor.				
4381.02	Design and Professional Practice I, Biomedical	U	3		
	First course in a two-course MSE Senior Design sequence with a biomedical engineering emphasis. Introduction to design principles; challenges of biomedical device design; projects focus on helping persons with disabilities. Prereq: 3141, 3151, 3331, and enrollment as MatSEng-BS major. Prereq or concur: 3261, 3271, or 3331.				
4382.01	Design and Professional Practice II	U	3		
	An in-depth design project to foster independent thinking and to develop problem-solving skills. Design of experiments, applied statistics, presentation and communication skills will be discussed. Prereq: 4381.01, and enrollment as MatScEn-BS major; or permission of instructor.				
4382.02	Design and Professional Practice II, Biomedical	U	3		
	Second course in a two-course MSE Senior Design sequence with a biomedical engineering emphasis. Applying design principles; challenges of biomedical device design; engineering and testing devices that focus on helping persons with disabilities. Prereq: 4381.02, and enrollment as MatSEng-BS major; or permission of instructor.				
4998	Undergraduate Research	U	½ - 3		
	Supervised undergraduate research on various topics. Repeatable to a maximum of 6 cr hrs or 6 completions.				
4999	Undergraduate Research	U	½ - 3		
	Supervised undergraduate research on topics in Materials Science & Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.				
4999H	Undergraduate Honors Research	U	½ - 3		
	Supervised research and project work arranged individually for honors students on topics in Materials Science & Engineering. Prereq: Honors standing, Sr standing in MatScEn major, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.				
5193.01	Individual Studies in Materials Science & Engineering	U G	0 - 6		
	Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.				
5193.02	Individual Studies in Materials Science & Engineering	U G	0 - 6		
	Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.				
5194	Group Studies in Materials Science & Engineering	U G	0 - 6		
	Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Repeatable to a maximum of 12 cr hrs or 8 completions.				
5237	Photovoltaics Laboratory	U G	4		
	Introduce student to basic techniques for fabrication and measurement of photovoltaic cells. Learn computer tools for simulation of photovoltaic cell characteristics. Obtain practical experience with contact and series resistance, spectral sensitivity, open circuit voltage, short circuit current, and quantum efficiency of photovoltaic devices and test structures fabricated in lab. Prereq: 3271 or ECE 3030, and enrollment in ECE or MatScEn major; or Grad standing in Engineering, Biological Sciences, or Math and Physical Sciences. Cross-listed in ECE.				
5321	Computational Thermodynamics and Kinetics	U G	2		
	Comprehensive background on computational thermodynamics and kinetics. Includes focus on CALPHAD (Calculation of Phase Diagram) methodology. Prereq: 2251 and 3151 or equivs, or Grad standing in MatScEn or WeldEng; or permission of instructor. Cross-listed in WeldEng 4121 and 7121.				
5431	Advanced Metals Laboratory	U G	1		
	Advanced laboratory covering various topics in metallic materials. Prereq: 2241, 2331, 3141, 3261, and 3332. Prereq or concur: 5441 or 5451; or permission of instructor. Not open to students with credit for 669, or to Grad students enrolled in MatScEn or WeldEng.				
5441	Physical Metallurgy	U G	3		
	Physical metallurgy of ferrous and non-ferrous alloys. Emphasis on alloy design, processing and structure-property relations. Prereq: 3141, 3261, and enrollment as MatScEn-BS major student; or Grad standing; or permission of instructor. Not open to students with credit for both 661 and 663.				
5451	Molten Metal Processing	U G	3		
	An advanced class in application of thermodynamics, kinetics, and macro-transport phenomena to primary metals production, refining, and solidification processing. Prereq: 2251 or 3151; or Grad standing; or permission of instructor. Not open to students with credit for 667, 668, 5451, ISE 5502, or 651.02. Cross-listed in ISE 5502.				
5531	Ceramics Processing Laboratory	U G	1		
	Laboratory experiments involving synthesis/fabrication and characterization of high performance technical ceramics. Prereq: 3141, 3261, 3271, 3332, and enrollment as MatScEn-BS major; or permission of instructor. Not open to students with credit for 619.				
5532	Electronic, Optical, and Magnetic Properties Laboratory	U G	1		
	The course will focus on correlation of electronic and optical properties of materials with the material type, structure, composition, and microstructure. Prereq: 2010, 2241, or 3271, or permission of instructor.				
5541	Structure and Properties of Amorphous Materials	U G	3		
	Provide basic knowledge about the structure and properties of oxide, metallic, semiconducting and polymeric glasses emphasizing viscosity, glass transition, structural relaxation and microstructure. Prereq: 2241, 2251, 3151, and 3261, or permission of instructor. Not open to students with credit for 618.				
5551	Ceramic Processing	U G	3		
	Overview of ceramics processing, including essential topics of: powder synthesis/characterization, colloidal/sol-gel processing, shaping/consolidation, sintering, microstructure development and nanoceramics, and thin films/coating. Prereq: 3141, 3151, and enrollment as MatScEn-BS major; or Grad standing; or permission of instructor. Not open to students with credit for 615.				
5552	Nanoscale Synthesis and Processing of Electronic Materials	U G	3		
	Processing, structure and stability of materials in micro(nano)electronics. Thin film epitaxy, semiconductor heterostructures, quantum confinement, bandgap engineering, electronic properties of defects, nanolithography, self-assembled nanostructures. Prereq: 3141 and 3271, or permission of instructor. Not open to students with credit for 676.				

5571.71 Electroceramics I: Electronic and Ionic Conductors U G 1½

Functional ceramic oxides covering electronic and ionic conductors and their applications in devices. Emphasis on the processing-microstructure-property correlation. Prereq: 3271, or permission of instructor. Not open to students with credit for 5571.

5571.72 Electroceramics II: Dielectric, Magnetic, and Optical Ceramics U G 1½

Dielectric, Magnetic, and Optical Ceramics and their applications in devices. Emphasis on the processing-microstructure-property correlation. Prereq: 3271, or permission of instructor. Not open to students with credit for 5571.

5572 Materials for Energy Technology U G 3

Structure property relationships of materials in energy applications. Photovoltaic materials, solid state photonic materials, electrochemical devices such as batteries, fuel cells and chemical sensors, superconductors, memory and nuclear materials. Prereq: 2241, and 3271 or ECE 2300; and enrollment as MatScEn-BS major; or Grad standing; or permission of instructor.

5575 Ultrafast Laser Materials Processing U G 3

Students are expected to learn basics of laser, non-linear optics, ultrafast lasers, how intense ultrafast lasers interact with materials and ultrafast laser materials processing with a mathematical framework and hands on experience on how an ultrafast laser works, laser safety and how to characterize it and use it to modify materials. Prereq: Math 1150, 1172, and Physics 1250 or equivalent. Prereq or concur: Physics 1251 or equivalent.

5605 Quantitative Introduction to Materials Science U G 3

A quantitative survey of the key elements related to the processing, structure and properties of materials. Structural materials and core aspects are emphasized. Intended for MS/PhD students enrolled in MatScEn who come from a non-MatScEn background. Prereq: Grad standing in MatScEn or WeldEng; or permission of instructor. Not open to students with credit for 2010, 6605, or 605, or to students enrolled in MatScEn-BS.

5611 Materials in Medicine U G 3

The materials science of plastics, metals and ceramics currently used to replace or supplement tissues within the human body. Prereq: 2010 and 3611; or Grad standing; or permission of instructor. Not open to students with credit for both 645 and 646.

5631 Biomaterials Laboratory U G 1

A laboratory experience in the processing and characterization of biomaterials used for the replacement of human tissues. Prereq or concur: 5611 or 5641; or permission of instructor. Not open to students with credit for 649.

5641 Structure-Property Relationships of Polymers U G 3

An understanding of the structure/property relationships that drive the continued expansion of polymers into a wide array of applications. Prereq: 2010, CPHR 2.0 or higher, and rank 3 or 4 in Engineering; or Grad standing; or permission of instructor. Not open to students with credit for both 642 and 643.

5651 Biomaterials Processing U G 3

The relationship between the processing of biomaterials - metals, polymers and ceramics - and the impact that these steps have on final biomedical properties. Prereq: 5611 or 5641; or permission of instructor.

5655 Biomedical Device Additive Manufacturing U G 3

Survey of Additive Manufacturing (AM) patient data acquisition and medical device Computer Aided Design (CAD), medical research and clinical grade AM materials and AM fabrication methods, quality assurance/management systems and regulatory (FDA) approval process. Prereq: 3141, or Grad standing in MGEL, MatScEn, WeldEng, BiomedE, CBE, MechEng, AeroEng, or ISE, or permission of instructor.

5711.70 Introduction to Composites U G 1½

In this seven-week course, students will gain the theoretical background as well as practical knowledge of the structure and properties of ceramic, metal, and polymer matrix composites. Prereq: 3261, or Grad standing, or permission of instructor. Not open to students with credit for 644 or 5711.

5761.71 Mechanical Behavior of Crystalline Solids at Lower Temperature U G 1½

Strength and Deformation Mechanisms in Crystalline Solids at Low Temperatures. Prereq: 3261 or 3332; or Grad standing; or permission of instructor. Not open to students with credit for MatScEn 5761.

5761.72 Mechanical Behavior of Crystalline Solids at High Temperatures U G 1½

Strength and deformation mechanisms in crystalline solids at high temperatures. Prereq: 3261 or 3332; or Grad standing; or permission of instructor.

5763.70 Fracture and Fatigue of Engineering Materials U G 1½

This seven week course will provide a background in fracture and fatigue with a survey of material-specific mechanisms. Prereq: 3261, or Grad standing; or permission of instructor. Not open to students with credit for 5763.

5774 Polymer Membranes U G 3

Membrane separation mechanisms, transport models, permeability computations/measurements, membrane materials/types/modules, membrane contactors/reactions, and applications. Prereq: ChBE 3508 (509), or Grad standing; or permission of instructor. Not open to students with credit for 774 or ChBE 774. Cross-listed in ChBE.

5951 Corrosion U G 3

Introduction of basic principles underlying the electrochemical corrosion degradation of metals, role of corrosion in material failures, and experimental corrosion evaluation approaches. An understanding of the fundamental thermodynamics and kinetics of electrochemical corrosion processes will be developed and serve as scientific foundation for understanding these topics. Prereq: Sr or Grad standing in Engineering, or permission of instructor.

5952 Failure Analysis of Materials U G 3

Failure analysis is the process of seeking the cause and mechanism of failure. Concepts for conducting failure analysis of materials, components, and systems will be introduced. Theoretical background will be reviewed on various failure modes along with case studies. Course will introduce the study of fracture surfaces (fractography) to determine fracture mode and fracture origin when possible. Prereq: Sr or Grad standing in MatScEn or WeldEng, or permission of instructor.

6193.01 Individual Studies in Materials Science and Engineering G 0-6

Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions. This course is graded S/U.

6193.02 Individual Studies in Materials Science & Engineering G 0-6

Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 or hrs or 12 completions.

6194 Group Studies in Materials Science and Engineering G 0-6

Special topics in Materials Science and Engineering. Repeatable to a maximum of 12 or hrs or 8 completions.

6295 Superconducting Materials and Properties G 2

Introduction to superconducting materials and phenomena. It will focus on the description of various materials and their properties in terms of basic superconducting phenomena, and the influence of materials-based properties on these phenomena. Prereq: Grad standing in Material Science & Engineering, Welding, or Engineering; or Math and Physical Sciences; or permission of instructor.

6715 Principles of the Characterization of Materials G 2

Fundamentals of beam-solid interactions and their application to the characterizing the structure and composition of materials. The emphasis of this course will be on techniques utilizing X-ray and electron probes. Prereq: Grad standing in MatScEn or WeldEng, or permission of instructor. Not open to students with credit for 715.

6730 Thermodynamics of Materials G 3

Thermodynamics of mixtures and phase equilibria relevant to metallurgy and materials science. Prereq: Grad standing or permission of instructor. Not open to students with credit for 730.

6735 Corrosion Science and Materials Electrochemistry G 2

Electrochemistry fundamentals, corrosion thermodynamics and kinetics, experimental approaches, corrosion phenomenology, corrosion control strategies, nonmetallic material degradation, electrochemistry of batteries, fuel cells, and electrodeposition. Prereq: Grad standing in MatScEn or permission of instructor. Not open to students with credit for 735.

6737 Diffusion and Interface Kinetics G 3

Detailed atomic and phenomenological descriptions of rate limiting steps, diffusion, and interface kinetics with applications involving mass transport and phase transitions in the solid state. Prereq: Grad standing in MatScEn, or permission of instructor. Not open to students with credit for 737.

6740 Practical Scanning Electron Microscopy Laboratory G 2

Provides basic understanding of scanning electron microscopy characterization methods, understanding of sample preparation & compatibility, various imaging modes, and analytical techniques. This course focuses primarily on the practical operation of a scanning electron microscope, and not on its theoretical background. Prereq: Grad standing; or permission of instructor. This course is graded S/U.

6741 Practical Transmission Electron Microscopy Lab G 2

Transmission Electron Microscopy with emphasis on practical methods. Prereq: Grad standing; or permission of instructor.

6747 Structure and Defects in Materials G 3

Elements of crystallography, structure and defects in solids. Prereq: Grad standing in Chem, Engr, or Physics; or permission of instructor.

6756 Computational Materials Modeling G 2

Introduction to common computer modeling methods, including hands-on work with emphasis on the atomic and nano-scales. Prereq: Permission of instructor. Not open to students with credit for 756.

6765 Mechanical Behavior of Materials G 3

Mechanical response of materials to loads and deformation. Prereq: Grad standing in MatScEn, or permission of instructor.

6777 Electronic Properties of Materials G 2

In-depth analysis of the structure - property relationships and application of materials in electronics, optics and magnetics. Prereq: Grad standing in Engineering or Science or permission of instructor. Not open to students with credit for 777.

290 Materials Science and Engineering

6999 Graduate Research in Materials Science and Engineering G ½ - 18

Research for thesis purposes only. Repeatable. This course is graded S/U.

7193.01 Individual Studies in Materials Science and Engineering G 0 - 6

Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

7193.02 Individual Studies in Materials Science & Engineering G 0 - 6

Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.

7194 Group Studies in Materials Science and Engineering G 0 - 6

Special topics in Materials Science and Engineering. Repeatable to a maximum of 12 cr hrs or 8 completions.

7531 Epitaxial Heterostructures G 2

Science and techniques behind thin film growth and engineering for combining different materials, altering chemical composition at the nanometer scale, while controlling defects and strain. Epitaxial crystal growth will be explained. Students will gain an understanding of the kinetics, thermodynamics, and technology involved in epitaxial heterostructures and self-assembled nanostructures. Prereq: Grad standing. Cross-listed in ECE.

7575 Ultrafast Laser Materials Processing G 3

Advanced study of lasers, non-linear optics, ultrafast lasers, and ultrafast laser materials processing. Modeling of non-linear optics, as well as a study of the interaction of materials and ultrafast lasers. Includes hands-on experience of how an ultrafast laser works, laser safety, how to characterize, and use of ultrafast lasers to modify materials. Prereq: Grad standing in Engineering, Physics, Chemistry or Mathematics. Not open to students with credit for MatScEn 5575.

7855 Electron Diffraction, Imaging and Spectroscopies G 2

Advanced topics in characterizing materials using transmission electron microscopy. Topics covered include electron diffraction techniques, important imaging modes, and widely used spectroscopy methods. Prereq: 6715, or permission of instructor. Not open to students with credit for 855.

7895 Graduate Seminar in Materials Science and Engineering G 1

Presentations and discussion by graduate students, outside speakers on thesis research, and current problems in Materials Science and Engineering. Prereq: Grad standing in MatScEn, or permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

8000 MSE PhD Dissertation Overview G 1

Public review of PhD research and committee guidance on dissertation topic. Prereq: Only open to students who have passed the MSE PhD Candidacy Exam. This course is graded S/U.

8193.01 Individual Studies in Materials Science and Engineering G 0 - 6

Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

8193.02 Individual Studies in Materials Science & Engineering G 0 - 6

Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.

8194 Group Studies in Materials Science and Engineering G 0 - 6

Special topics in Materials Science and Engineering. Repeatable to a maximum of 12 cr hrs or 8 completions.

8999 Graduate Research in Materials Science and Engineering G ½ - 18

Research for dissertation purposes only. Repeatable. This course is graded S/U.

Mathematics

1050 Precollege Mathematics I U 5

Fractions and decimals, basic algebra, graphing lines, factoring, systems of equations. Credit for this course will not count toward graduation in any degree program. Prereq: 1040 (040) or 050, or Math Placement Level T, or permission of department. Not open to students with credit for any Math course above 1050 (050). This course is available for EM credit.

1060 Supplementary Pre-College Mathematics U 2

Math 1060 is a terminal math course designed to satisfy the Quantitative Reasoning: Basic Computation category of the General Education Requirement (GE). Students may follow-up with Math 1116 to satisfy the Mathematical or Logical Analysis category of the General Education Requirement (GE). Students who wish to take math courses higher than Math 1116 should take Math 1075 rather than Math 1060. Prereq: C- or better in 1050, or Math placement level S. Not open to students with credit for any higher numbered math class, or for any quarter class numbered higher than 50. GE quant reason basic computation course.

1075 Precollege Mathematics II U 4

Algebraic, rational, and radical expressions; functions and graphs; quadratic equations; absolute value; inequalities; and applications. Credit for this course will not count toward graduation in any degree program. Prereq: 1074 or 075; or a grade of C- or above in 1050; or Math Skills Assessment Level R or S; or ACT math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for any Math course above 1075, except for 1116; or for any quarter-system course above 075, except for 116. This course is available for EM credit. GE quant reason basic computation course.

1116 Excursions in Mathematics U 3

Critical thinking and problem solving, with relevant topics met in everyday life. Appropriate for non-science majors. Prereq: 1073, 1074, 1075, 75, or 104; or Math Placement Level R or above; or ACT math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for 1152 (153) or above. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.

1118 Mathematics for Architects U 3

Topics in geometry for architecture majors. Prereq: A grade of C- or above in 1148 or 1150, or credit for 148 or 150, or Math Placement Level M or L; and enrollment in School of Architecture.

1120 Precalculus with Review I U 5

This is the first course of a two course sequence covering precalculus. In this first course, topics covered will include an introduction to functions (linear, polynomial and rational), equations and inequalities along with appropriate review. This course is designed with an emphasis on reviewing these fundamental basic algebra skills as they apply to precalculus in a just-in-time manner. Prereq: A grade of C- or above in 1075; or grade of B- or above in 1050; or Math Placement level R. Not open to students with credit for 1121 or above. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.

1121 Precalculus with Review II U 5

This is the second course of a two course sequence in precalculus. In this second course, topics covered will include an introduction to functions (exponential, logarithmic, trigonometric), equations, inequalities and right-angle trigonometry with appropriate review. This course has an emphasis on reviewing fundamental basic algebra skills as they apply to precalculus in a just-in-time manner. Prereq: A grade of C- or above in 1120. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.

1125 Mathematics for Elementary Teachers I U 5

Sequence 1125-1126 involves numbers, geometry, measurement, and mathematical reasoning, for prospective elementary school teachers. Prereq: A grade of C- or above in 1075; or credit for 1074, 75, or 104; or Math Placement Level R or above; or ACT math subscore of 22 or higher that is less than 2 years old; and enrollment in Early Childhood or Special Education major, or in Middle Childhood major or pre-major with area of concentration different than Math.

1126 Mathematics for Elementary Teachers II U 5

Continuation of 1125: numbers, geometry, measurement, and mathematical reasoning, for prospective elementary school teachers. Prereq: A grade of C- or above in 1125; and enrollment in Early Childhood or Special Education major, or in Middle Childhood major or pre-major with area of concentration different than Math.

1130 College Algebra for Business U 4

Algebraic, exponential, and logarithmic functions. Matrix algebra. Applications to business. Prereq: A grade of C- or above in 1075, or credit for 104, or Math Placement Level M or N, or ACT math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for 1131 (131), or for any Math course numbered 1149 (150) or above. This course is available for EM credit. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.

1131 Calculus for Business U 5

Survey of calculus of one and several variables; applications to business. Prereq: A grade of C- or above in 1130, 1144, 1148, or 1150, or credit for 130, 148, or 150, or Math Placement Level L. Not open to students with credit for 1151 (151) or above, or 1134 (132). This course is available for EM credit. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.

1135 Number and Operations for Teachers U 5

The first course in a two semester sequence for teachers of elementary and middle grade students. This course focuses on concepts of numbers and arithmetic operations, including modern and historical perspectives. Prereq: A grade of C- or above in 1075; or credit for 1074, 75, or 104; or Math Placement Level R or above; or ACT math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for 106.

1136 Measurement and Geometry for Teachers U 5

This course is the second in a two semester sequence for teachers of elementary and middle grade students. This course focuses on concepts of measurement and geometry, including modern and historical perspectives. Prereq: A grade of C- or above in 1135.

1138 Fundamentals of Mathematics for Engineers U 4

This application-oriented, hands-on, introduction to engineering mathematics course will provide an overview of the salient math topics most heavily used in beginning engineering courses. All math topics will be presented within the context of an engineering application, and reinforced through extensive examples of their use in the core engineering courses. Prereq: Math Placement Level N. Not open to students with credit for 1151 or Engr 1138. Cross-listed in Engr.

1140 Calculus with Review I U 4

This is the first of a two semester course sequence. The topics covered in Math 1140 will include differential calculus of one real variable, with review of important algebra and pre-calculus concepts. Calculus with Review I is a course designed with an emphasis on reviewing these fundamental pre-calculus skills as they apply to calculus. Prereq: A grade of C- or above in 1148 and 1149, or in 1144, 1150, or 150, or Math Placement Level L. Not open to students with credit for 1141, or 1151 or above, or 151.xx or above. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1141 Calculus with Review II U 4

This is the second of a two semester course sequence. The topics covered in Math 1141 will include differential calculus of one real variable, with review of important algebra and pre-calculus concepts. Math 1141 is a course designed with an emphasis on reviewing these fundamental pre-calculus skills as they apply to calculus. Prereq: A grade of C- or above in 1140. Not open to students with credit for 1151 or above (151.xx, or above). GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1148 College Algebra U 4

Functions: polynomial, rational, radical, exponential, and logarithmic. Introduction to right-angle trigonometry. Applications. Prereq: A grade of C- or above in 1075, or credit for 104 or 148, or Math Placement Level N, or ACT math subscore of 22 or higher that is less than 2 years old, or permission of department. Not open to students with credit for 1144, or for Math courses numbered 1150 (150) or above. This course is available for EM credit. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1149 Trigonometry U 3

Trigonometric functions and their properties. Vectors, polar coordinates and complex numbers. Prereq: A grade of C- or above in 1148, or permission of department. Not open to students with credit for 1144, or for any Math course numbered 1150 (150) or above. This course is available for EM credit. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1150 Precalculus U 5

Functions: polynomial, rational, radical, exponential, logarithmic, trigonometric, and inverse trigonometric. Applications. Prereq: Math Placement Level M. Not open to students with credit for 1144, 1148, or for 1149 or above, or for any quarter Math course numbered 150 or above. This course is available for EM credit. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1151 Calculus I U 5

Differential and integral calculus of one real variable. Prereq: A grade of C- or above in 1148 and 1149, or in 1144, 1150, or 150, or Math Placement Level L. Not open to students with credit for 1152 or 152.xx, or above. This course is available for EM credit. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1152 Calculus II U 5

Integral calculus, sequences and series, parametric curves, polar coordinates, (optional: vectors). Prereq: A grade of C- or above in 1114 (114), 1151, 1156, 1161.xx, 152.xx, 161.xx, or 161.01H. Not open to students with credit for 1172, 1181H or any Math class numbered 1500 or above, or with credit for 153.xx, or Math courses numbered 162.xx or above. This course is available for EM credit. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1154 Calculus I for Engineering Technology U 4

Calculus I for Engineering Technology is the first in a two-course calculus sequence specifically designed for Engineering Technology. It covers standard Calculus topics including limits, differentiation, integration, optimization, and approximation with an emphasis on building mathematical intuition, problem solving ability and using appropriate technology to find solutions. Prereq: A grade of C- or above in 1148 and 1149, or grade of C- or above in 1144 or 1150, or Math Placement Level L. Not open to students with credit for 2153 or above.

1155 Calculus II for Engineering Technology U 4

Calculus II for Engineering Technology is the second in a two-course calculus sequence specifically for Engineering Technology. It covers standard Calculus topics including related rates, Taylor Polynomial approximations, differential equations and functions of several variables with an emphasis on building mathematical intuition, problem solving and using appropriate technology to find solutions. Prereq: A grade of C- or above in 1154.

1156 Calculus for the Biological Sciences U 5

Differential calculus and mathematical modeling in the life sciences. Prereq: A grade of C- or above in 1148 and 1149, or a grade of C- or above in 1150, or credit for 150, or Math Placement Level L. Not open to students with credit for 1151 (151.xx) or above. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1161.01 Accelerated Calculus I U 5

Differential and integral calculus of one real variable. Intended for students having prior experience with calculus. Prereq: Math Placement Level L, and previous calculus experience. Not open to students with credit for any Math course numbered 1152 or above, or for the quarter-system Math courses 151.xx and 152.xx, or for any quarter-system course numbered 162 or above. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1161.02 Accelerated Calculus I for Honors Engineers U 5

Differential and integral calculus of one real variable. Intended for students in Fundamentals of Engineering for Honors (FEH). Prereq: Math Placement Level L, and previous calculus experience. Not open to students with credit for 1152, or 151.xx and 152.xx, or 162 or above. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1165 Math for Middle School Teachers I U 5

Algebra and reasoning for middle school teachers. Prereq: A grade of C- or above in 1148 and 1149, or in 1150, or credit for 150, or Math Placement Level L; and major or pre-major in Middle Childhood Education, within either ASC or EHE.

1166 Math for Middle School Teachers II U 5

Geometry for middle school teachers. Prereq: A grade of C- or above in 1165, and major or pre-major in Middle Childhood Education either within ASC or within EHE.

1172 Engineering Mathematics A U 5

Techniques of integration, Taylor series, differential calculus of several variables. Applications. Prereq: A grade of C- or above in 1114 (114), 1151, 1156, 1161.xx, 152.xx, 161.xx, or 161.01H. Not open to students with credit for 1152, 1534 (153.xx), or 1544 (154), or for any Math class numbered 1172 or above, or for any quarter-system Math class numbered 254.xx or above. Not open to students majoring in Math, pre-Actuarial Science, or Actuarial Science. This course is available for EM credit.

1181H Honors Calculus I U 5

Single variable calculus treated in depth. Prereq: 1151 or 151.xx, and permission of department. GE quant reason math and logical anyl course. GE foundation math and quant reasoning or data anyl course.

1187H Honors Problem Solving U 1-2

Problem solving beyond what is encountered in standard programs. Prereq: Permission of department. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

1193 Individual Studies in Mathematics U 1-3

Individual studies. Prereq: Permission of department. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

1194 Group Studies in Mathematics U 1-3

Designed to give groups of undergraduate students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable to a maximum of 6 cr hrs or 2 completions.

1194H Honors Group Studies in Mathematics U 1-3

Designed to give groups of honors undergraduate students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable to a maximum of 6 cr hrs or 2 completions.

1295 Introductory Seminar U 1

Seminar on mathematical topics for beginning math majors. Prereq: Enrollment in Math major, or permission of department. This course is graded S/U.

2010S Intersections of Mathematics and Society: Hidden Figures U 3

This course examines the intersections of race, gender, and mathematics as it relates to the accomplishments of the African-American mathematicians featured in the book. We analyze how mathematics and the advancement of American society were intertwined from WWII to the Space Race and focus on understanding the mathematical tools used by human computers and scientists at Langley during this time. Prereq: A grade of C- or above in 1148 and 1149; or a grade of C- or above in 1150; or Math Placement Level L. GE cultures and ideas and diversity soc div in the US and service learning course.

2137 Algebra and Coordinate Geometry for Teachers U 3

This is one of two independent courses which follow Math 1136 to provide necessary content for middle grade teachers. This course focuses on algebra, coordinate geometry, and their connections through equations in one or more unknowns. Modern and historical perspectives are woven throughout. Prereq: A grade of C- or above in 1136; and a grade of C- or above in 1149 or 1150, or credit for 150, or math placement level L.

2138 Calculus and its History for Teachers U 3

This is one of two independent courses which follow Math 1136 to provide necessary content for middle grade teachers. This course focuses on functions and calculus, including modern and historical perspectives. Prereq: A grade of C- or above in 1136; and a grade of C- or above in 1149 or 1150, or credit for 150, or math placement level L.

2153 Calculus III U 4

Multivariable differential and integral calculus. Prereq: A grade of C- or above in 1152, 1172, 1534, 1544, 1181H, or 4181H, or credit for 153.xx, 154, 162.xx, or 162.01H. Not open to students with credit for any course 2153 or above, or for any quarter-system class 254.xx or above. This course is available for EM credit.

2162.01 Accelerated Calculus II U 5

Vectors, multivariable calculus, integral theorems. Prereq: A grade of C- or above in 1161.xx, 1181H, or 4181H. Not open to students with credit for semester Math course above 2162.01, or for any quarter Math course numbered 254.xx or above.

292 Mathematics

2162.02	Accelerated Calculus II for Honors Engineers	U	5	3295	Senior Seminar	U	1
	Accelerated multivariable calculus. Intended for students in Fundamentals of Engineering for Honors (FEH). Prereq: A grade of C- or above in 1161.xx, 1181H, or 4181H. Not open to students with credit for 2153, or for a semester Math course numbered 2162 or above, or for a quarter Math course numbered 263.xx or above.				Seminar on mathematical topics and career possibilities for senior math majors and actuarial science majors. Prereq: Enrollment in Math or Actuarial Science major, and permission of department. This course is graded S/U.		
2167	Calculus for Middle School Teachers	U	3	3307	Mathematical Modeling of Real World Problems	U	3
	Concepts of Calculus for Middle School teachers. Prereq: A grade of C- or above in 1165, or credit for 1164 (110); and enrollment in Middle Childhood Education major or pre-major, within ASC or EHE. Not open to students with credit for 111.				In this course in mathematical modeling, students will learn a variety of mathematical techniques and their applications to real world problems. The students will develop their written and oral communication skills through group reports and a final presentation. Prereq: A grade of C- or above in 1131, 1141, 1151, 1156, 1161, or 1181H.		
2168	History of Mathematics for Middle School Teachers	U	3	3345	Foundations of Higher Mathematics	U	3
	Historical and mathematical discussion of topics in the middle school math curriculum. Prereq: A grade of C- or above in 2167, or credit for 111; and enrollment as a major or pre-major in Middle Childhood Education (within either ASC or EHE). Not open to students with credit for 212.				Introduction to logic, proof techniques, set theory, number theory, real numbers. Prereq: Major or minor in Math, CSE, CIS, ECE, IMME, STAT, STEMED-PRE or STEMED-BS, and: If Math, IMME, STAT, STEMED-PRE or STEMED-BS: Prereq: A grade of C- or above in 2153, 2162.xx, 2173, or 2182H. If CIS, CSE or ECE: Prereq: A grade of C- or above in CSE 2321; and a grade of C- or above in 1161.xx, 1172, 1181H, 1534, 1544, 1152, or 4181H.		
2173	Engineering Mathematics B	U	3	3345H	Honors Foundations of Higher Mathematics	U	3
	Multiple integrals, line integrals, vector fields, second order ordinary differential equations. Prereq: 1172 or 1544 (154). Not open to students with credit for 2153, or for any Math course 2173 or above, or for any quarter-system Math course 254.xx or above.				A systematic introduction to problem solving and proof-writing through interesting, non-trivial mathematics. This class serves as a bridge between a problem-oriented Calculus class and the more conceptual classes in the math major. Additionally, this class exposes students to some of math's greatest intellectual successes. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, or 2182H; and permission of department. Not open to students with credit for 3345.		
2174	Linear Algebra and Differential Equations for Engineers	U	3	3350	Introduction to Mathematical Biology	U	3
	Matrix theory, eigenvectors and eigenvalues, ordinary and partial differential equations. Prereq: 2173, and enrollment in Engineering, Physics, or Chemistry major; or permission of Math department. Not open to students with credit for both 2415 (415.xx) and 2568 (568 or 571), or with credit for 5520H (520H and 521H).				Introduction to quantitative and qualitative analysis of several mathematical models for biological systems. Prereq: C- or better in Math 2255, 2415, 5520H; or credit for 255, 415.xx, or 521H. Not open to students with credit for 350.		
2175	Calculus III Bridge Course	U	1	3588	Practicum in Actuarial Science	U	3
	Calculus Bridge Course is a 1-hr course designed to cover topics in the Math 1172-2153 sequence that are missing if a student has taken the Math 1172-2173 sequence. The goal of this course is that 1172-2173-Bridge will satisfy all of requirements of 1172-2153 for each of the Math major tracks and any prerequisites. Prereq: A grade of C- or above in 2173, or permission of department. Not open to students with credit for 2153 or 2182H or above.				Presentations by practicing actuaries on topics drawn from their fields of expertise; oral presentations by students on selected topics in actuarial science. Prereq: Completion of second writing course. Jr standing. Open only to actuarial science majors. Not open to students with credit for 588.		
2177	Mathematical Topics for Engineers	U	4	3589	Introduction to Financial Mathematics	U	3
	Multiple integrals, line integrals; matrix algebra; linear (ordinary and partial) differential equations. Prereq: 1172, 1544 (154), 2153, 2162.xx, 2182H, 4182H, 254.xx, 263.xx, 263.01H, or 264H; and a major or minor in Biochem, BiomedE, Chem, CEEGS, FABEng, MatScEn, CBE, Physics or WeldEng. Not open to students with credit for 2174 or 5520H, or with credit for both (i) 2415 (415), 2255 (255), or 4512 (512) and (ii) 2568 (568 or 571).				Introduction to mathematics used in financial asset pricing, based on the binomial asset pricing model. Prepares students for further study of stochastic calculus in continuous time. Prereq: C- or better in 3345 or credit for 345; and either C- or better in 4530, 5530H, or Stat 4201; or credit for 530, 531H, or Stat 420; or permission of department. Not open to students with credit for 589.		
2182H	Honors Calculus II	U	5	3607	Beginning Scientific Computing	U	3
	Multivariable calculus treated in depth. Prereq: A grade of C or above in 1181H or 4181H. Not open to students with credit for both 162.01H and 263.01H.				Introduction to mathematical theory of algorithms used to solve problems that typically arise in sciences, engineering, and finance. Prereq: Both a C- or better in 2255, 2415, or 5520H, or credit for 255, 415.xx, or 521H; and also a C- or better in 2568 or 5520H, or credit for 568, 571, or 520H.		
2193	Individual Studies in Mathematics	U	1 - 3	3618	Theory of Interest	U	3
	Individual studies. Prereq: Permission of department. Repeatable to a maximum of 6 or hrs or 2 completions. This course is graded S/U.				Financial transactions involving interest: measurement of interest, force of interest, annuities-certain, introduction to financial derivatives. Prereq: A grade of C- or above in 1152, 1172, 1181H, 1534, 1544, 2162.xx, 2153, or 4181H, or credit for 153, 154, 162, 162H, or 191H; and enrollment in Math major, or Actuarial Science major or pre-major. Not open to students with credit for 618.		
2194	Group Studies in Mathematics	U	1 - 3	4181H	Honors Analysis I	U	5
	Designed to give groups of able undergraduate students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable to a maximum of 6 or hrs or 2 completions.				4181H - 4182H is an enriched honors sequence introducing students to mathematical underpinnings of calculus. Prereq: Permission of department.		
2255	Differential Equations and Their Applications	U	3	4182H	Honors Analysis II	U	5
	Ordinary differential equations, their series solutions, numerical methods, Laplace transforms, physical applications. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, 2182H, or 4182H, or credit for 254.xx, 263.xx, 263.01H, or 264H. Not open to students with credit for 2415, 5520H, 255, 415.xx, or 521H.				4181H - 4182H is an enriched honors sequence introducing students to mathematical underpinnings of calculus. Prereq: A grade of B- or above in 4181H, or permission of department. Not open to students with credit for 264H.		
2366	Introduction to Discrete Mathematics	U	2	4193	Individual Studies in Mathematics	U	1 - 3
	Mathematical reasoning, logic, sets, functions, recursive definitions, elementary counting principles. Prereq: C- or better in 1131, 1151, 1161.xx, or 1181H; or credit for 132, 152.xx, 161.xx, 161.01H; or permission of department. Open only to majors in MIS (Management Information Systems). Not open to students with credit for 366.				Individual studies. Prereq: Permission of department. Repeatable to a maximum of 6 or hrs or 2 completions. This course is graded S/U.		
2415	Ordinary and Partial Differential Equations	U	3	4194	Group Studies in Mathematics	U	1 - 3
	Ordinary and partial differential equations: Fourier series, boundary and initial value problems. Prereq: 2153, 2162.xx, 2173, 2182H, 4182H, 254.xx, 263.xx, 263.01H, or 264H; or 2568 and either 1172 or 1544 (154). Not open to students with credit for 2255 (255), 5520H (521H), 2174, or 415.xx.				Designed to give groups of able undergraduate students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable to a maximum of 6 or hrs or 2 completions.		
2568	Linear Algebra	U	3	4345	Formal Proof	U	3
	Matrix algebra, vector spaces and linear maps, bases and dimension, eigenvalues and eigenvectors, applications. Prereq: A grade of C- or above in 1172, 1544, 2153, 2162.xx, 2182H, or 4182H; or a grade of C- or above in both 1152 and CSE 2321. Not open to students with credit for 4568 or 5520H.				This course provides an introduction to formal proof in mathematics. It is designed for math majors who seek a comprehensive understanding of how to use proof assistants and how to encode a mathematical proof in such a way that one can formally verify its correctness. Prereq: A grade of C- or above in 3345, or permission of department.		
2568H	Honors Linear Algebra	U	3	4350	Quantitative Neuroscience	U	3
	This course, an introduction to linear algebra, is aimed at math majors who want a rigorous background in finite-dimensional linear algebra and exposure to applications of modern relevance, including some practice in implementing ideas from this course on a computer. Prereq: A grade of C- or above in 2153, 2162.xx, 2182H, or 4182H; and permission of department. Not open to students with credit for 2568, 4568, or 5520H.				Introduction to mathematical modeling and computational analysis of neuronal systems, Hodgkin-Huxley model, dynamical systems methods, neuronal networks, models for neurological disease. Prereq: 1152 (152) or 1157, or permission of instructor.		

4407	Geometry for Teaching	U	2
Algebra connections between school mathematics and undergraduate mathematics, focusing on the algebra in the Common Core State Standards for Mathematics. Prereq: Enrollment in the M.Ed. program for secondary mathematics. Prereq or concur: 4507; or permission of instructor.			
4420	Capstone Course for Integrated Major in Mathematics and English	U	3
Students combine the Mathematics and English knowledge and skills they have acquired in the integrated major through a capstone experience. Prereq: Sr standing in Integrated Major in Mathematics and English (IMME) Program, or permission of instructor. Not open to students with credit for English 4420. Cross-listed in English.			
4480	Algebra for Teaching	U	2
Algebra connections between school mathematics and undergraduate mathematics, focusing on the algebra in the Common Core State Standards for Mathematics. Prereq: Enrollment in the M.Ed. program for secondary mathematics. Prereq or concur: 4580; or permission of instructor.			
4504	History of Mathematics	U	3
Development of mathematics from primitive origins to present forms. Topics include development of arithmetic, algebra, geometry, trigonometry, and calculus. Prereq: A grade of C- or above in 2568, 4507, or 5520H, or credit for 568, 571, 507, 580, or 520H, and enrollment in Math major or Grad standing in EduTL; or permission of department. Not open to students with credit for 504.			
4507	Geometry	U	3
Topics in Euclidean, spherical, and hyperbolic geometries. Prereq: A grade of C- or above in 3345, and in 2568 or 5520H; or credit for 345, and credit for 568, 571, or 520H. Not open to students with credit for 507.			
4512	Partial Differential Equations for Science and Engineering	U	3
Second order ordinary differential equations via Laplace transforms and series solutions; Fourier series; three archetypical partial differential equations; boundary value problems; Sturm-Liouville theory. Intended for Engineering students. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, 2182H, or 4182H, or credit for 254.xx, 263.xx, 263.01H, or 264H. Not open to students with credit for 4557 (557) or 512.			
4530	Probability	U	3
Combinatorial probability, random variables, independence, expectation, variance. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, 2177, 2182H, or 4182H, or credit for 254.xx, 263.xx, 263.01H, or 264H. Not open to students with credit for 5530H (531H), 530, or Stat 4201 (420).			
4545	Analysis Overview	U	4
Topics in calculus and analysis. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, 2182H, or 4182H, or credit for 254, 263.xx, 263.01H, 264H, or equiv; and a grade of C- or above in 2568 or 5520H, or equiv; and Grad standing in Statistics or Biostatistics; and permission of department (Statistics or Biostatistics).			
4547	Introductory Analysis I	U	3
4547 - 4548 involves advanced calculus: sequences, limits, continuity, differentiation, Riemann integral, sequences and series of functions, Taylor series, improper integrals. Prereq: C- or better in 3345; or credit for 345. Not open to students with credit for 548.			
4548	Introductory Analysis II	U	3
Continuation of Math 4547. Advanced calculus: sequences, limits, continuity, differentiation, Riemann integral, sequences and series of functions, Taylor series, improper integrals. Prereq: C- or better in 4547, or credit for 548. Not open to students with credit for 549.			
4551	Vector Analysis	U	3
Vector operations; Jacobian and change of variables; divergence, gradient, and curl; Green's, Stokes', and divergence theorems; applications. Prereq: C- or better in 2153, 2162.xx, 2173, or 2182H; or credit for 254.xx, 263.xx, or 263.01H. Not open to students with credit for 4182H (264H), 513, or 551.			
4552	Complex Analysis	U	3
Introduction to analytic functions of a complex variable, integral theorems, power series, residues, conformal mapping. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, 2182H, or 4182H, or credit for 254.xx, 263.xx, 263.01H, or 264H. Not open to students with credit for 5522H (522H), 514, or 552.			
4556	Dynamical Systems	U	3
Systems of linear, first-order differential equations; existence and uniqueness theorems; numerical methods; qualitative theory; and physical applications. Prereq: A grade of C- or above in 2153, 2162.xx, 2173, 2182H, or 4182H, or credit for 254.xx, 263.xx, 263.01H, or 264H. Not open to students with credit for 556.			
4557	Partial Differential Equations	U	3
First and second-order PDE's; existence and uniqueness, initial and boundary value problems, Fourier series; Green's functions; wave, heat and Laplace equations; nonlinear PDE's; applications. Prereq: C- or better in 2255, 2415, 4556, or 5520H; or credit for 255, 415.xx, or 521H. Intended for Math majors. Not open to students with credit for 4512 (512), or 557.			

4568	Linear Algebra for Engineering Graduate Students	U	3
Systems of linear equations, vector spaces, bases and dimension, linear maps and matrices, eigenvalues and eigenvectors, applications. Prereq: A grade of C- or above in 1172, 2153, 2162.xx, 2182H, or 4182H, or credit for 254, 263.xx, 263.01H, or 264H, or equiv; and Grad standing. Not open to students with credit for 2568 (568), 5101 (601), 5520H (520H), or 572.			
4570	Applied Algebraic Topology	U	3
This course will serve as an introduction to algebraic topology, with a view toward persistent homology of point clouds for applications to data analysis. Homology of simplicial complexes over a field with a focus on building up intuition about homology moving to a specialized notion of persistent homology of persistence modules. Real-world applications to data analysis will be provided. Prereq: A grade of C- or above in 2568 and 3345.			
4573	Elementary Number Theory	U	3
Prime numbers, modular arithmetic, Diophantine equations, combinatorial analysis; introduction to concepts of abstract algebra. Prereq: A grade of C- or above in 3345 or 4181H, or credit for 264H or 345. Not open to students with credit for 5576H or 573.			
4575	Combinatorial Mathematics	U	3
Classic puzzles of recreational mathematics; matching theory and graph theory; enumeration techniques; combinatorial analysis. Prereq: C- or better in 2568 or 5520H; or credit for 568, 571, or 520H. Not open to students with credit for 5529H or 575.			
4578	Discrete Mathematical Models	U	4
Homogeneous and non-homogeneous difference equations of one or several variables, Markov chains, graph theory, network flows. Prereq: Both a C- or better in 2568 or 5520H; and also a C- or better in 4530, 5530H or Stat 4201; or both credit for 568, 571, or 520H; and also credit for 530, 531H, or Stat 420. Not open to students with credit for 578.			
4580	Abstract Algebra I	U	3
Topics in number theory, group theory, vector spaces and linear transformation, field theory, and field extensions. Prereq: A grade of C- or above in 3345, or credit for 345; and a grade of C- or above in 2568 or 5520H, or credit for 568, 571, or 520H. Not open to students with credit for 581 or 591H.			
4581	Abstract Algebra II	U	3
Continuation of Math 4580: topics in number theory, group theory, vector spaces and linear transformations, field theory, and field extensions. Prereq: A grade of C- or above in 4580, or credit for 5590H or 581. Not open to students with credit for 582 or 592H.			
4990	Undergraduate Seminar in Mathematical Biology Research	U	1
Seminar on research in mathematical biology and its applications, with an emphasis on evolutionary biology, ecology, neuroscience, and cell biology. Prereq: Permission of instructor. Repeatable to a maximum of 3 or hrs. This course is graded S/U. Cross-listed in EEOB 4990.			
4998	Undergraduate Research	U	1 - 3
Opportunity for undergraduate students to do mathematical research. Prereq: Permission of department. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
4998H	Honors Undergraduate Research	U	1 - 3
Opportunity for honors undergraduate students to do mathematical research. Prereq: Honors standing and permission of department. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
4999	Undergraduate Thesis	U	1 - 3
Opportunity for undergraduate students to write a thesis. Prereq: Permission of department. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
4999H	Honors Undergraduate Thesis	U	1 - 3
Opportunity for honors undergraduate students to write a thesis. Prereq: Honors standing and permission of department. Not open to students with credit for 783H. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
5051	Introduction to Mathematical Logic	U G	3
Syntax and semantics of sentential logic, syntax and semantics of first-order logic, compactness of first-order logic, Goedel's completeness theorem, theories and models of theories, Goedel's incompleteness theorems; computability. Prereq: 4547 (547), 4580 (580), Grad standing, or permission of department. Not open to students with credit for 648 or 649.			
5101	Linear Mathematics in Finite Dimensions	U G	3
Vector spaces; linear transformations; inner product spaces; eigenvalues and eigenvectors; Hermitian, unitary and normal matrices; quadratic forms; constraints; Rayleigh quotients; singular value decomposition; pseudo-inverse. Prereq: 2568 (568), 571, or grad standing. Not open to students with credit for 601.			
5102	Linear Mathematics in Infinite Dimensions	U G	3
Sturm-Liouville systems, Hilbert spaces, Fourier and wavelet theory, Green's functions, Helmholtz's equation, cylinder and spherical harmonic solutions, interior and exterior boundary value problems, method of steepest descent and stationary phase. Prereq: 5101 (602). Not open to students with credit for 603.02.			
5111	Algebra I	U G	5
Groups and homomorphisms, group actions and Sylow's theorems, direct and semidirect products, rings and homomorphisms, factorizations in rings, polynomial rings. Prereq: Grad standing, or permission of department. Not open to students with credit for 670.			

294 Mathematics

5112 Algebra II U G 5

Modules and vector spaces, modules over a principal ideal domain, applications to linear algebra, field theory, Galois theory. Prereq: 5111 (671) or 591H. Not open to students with credit for 672.

5152 Introduction to Number Theory with Applications U G 3

Divisibility, fundamental theorem of arithmetic, Fermat's theorem, congruences, Euler's formula, prime numbers, Euler's phi-function, counting primes, powers and roots mod m, quadratic reciprocity theorem, Diophantine approximation, Pell's theorem. Prereq: Both 5101 (602) and 4581 (582); or Grad standing. Not open to students with credit for 683.

5168 Introduction to the Finite Element Method U G 3

Basic concepts, formulation, and application of finite element techniques for numerical solution of problems of engineering and scientific interest. Prereq: 2568 (568) or CivilEn 2060 (406), and CSE 1221. Not open to students with credit for both CivilEn 768 and MechEng 7068. Cross-listed in MechEng and CivilEn.

5194 Group Studies in Mathematics U G 1-9

Designed to give groups of advanced undergraduate and beginning graduate students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable.

5194H Honors Group Studies in Mathematics U G 1-3

Gives groups of honors undergraduate students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable to a maximum of 6 or hrs or 2 completions.

5201 Introduction to Real Analysis I U G 5

Basic metric topology, sequences and series, continuous functions, differentiable functions of one variable, Riemann integration, uniform convergence, Fourier series. Prereq: Grad standing, or permission of department. Not open to students with credit for 651.

5202 Introduction to Real Analysis II U G 5

Continuation of Fourier series, differentiable functions of several variables, implicit function theorem and inverse function theorem, introduction to Lebesgue measure and Lebesgue integration, introduction to Hilbert spaces. Prereq: 5201 (652). Not open to students with credit for 653.

5221 Introduction to Complex Analysis U G 3

Calculus of functions of a complex variable, series expansion and singularities of complex analytic functions, Cauchy's integral theorem, maximum principle, harmonic functions, differentials and residue theory, Weierstrass theorem. Prereq: 4547 (548). Not open to students with credit for 5251 (654).

5401 Applied Differential Equations I U G 3

Existence and uniqueness, linear ODE systems, 2x2, phase plane analysis, conservative and reversible systems, bifurcation analysis, limit cycles, perturbation theory. Prereq: 2255 (255) and 2568 (568 or 572). Not open to students with credit for 615.

5402 Applied Differential Equations II U G 3

Steady state, heat equation, wave equation, PDEs in two dimensions, the Dirichlet problem, nonlinear evolution equations, wave equations by method of characteristic curve. Prereq: 5401 (616). Not open to students with credit for 617.

5421 Mathematics of Infectious Disease Dynamics U G 3

Provides an introduction to mathematical modeling of infectious diseases, including techniques for building and analyzing disease models, and discussions of calibration and comparison of models with data. This course is intended for graduate students in public health or other related disciplines and for upper level undergraduate and graduate mathematics students. Prereq: 1152, 1172, or 153; or permission of instructor. Cross-listed in PubHEpi.

5451 Calculus of Variations and Tensor Calculus U G 3

Euler-Lagrange equations, Hamilton's Principle, Lagrangian mechanics, Hamiltonian dynamics, Hamilton-Jacobi integration theory of dynamical systems, direct methods, tensor calculus, curvature and geometry of continuum mechanics. Prereq: 2415.xx (415) and 2568 (568 or 572). Not open to students with credit for 701.

5520H Honors Linear Algebra and Differential Equations U G 5

Linear transformations and matrices, spectral theorem, ordinary differential equations, existence and uniqueness theorems, phase space, stability, oscillations. Prereq: A grade of C or above in 4182H, or in both 2182H and 3345; or credit for 264H, or in both 263H and 345; or permission of department. Not open to students with credit for 520H and 521H.

5522H Honors Complex Analysis U G 5

Theoretical treatment of complex analysis. Prereq: A grade of C or above in 5520H, or credit for 521H, or permission of department. Not open to students with credit for 4552, 522H, 514, or 552

5529H Honors Combinatorics U G 5

Combinatorial mathematics and its connections with geometry, algebra, analysis, and probability. Prereq: A grade of C or above in 4182H, or in both 2182H and 3345; or credit for 264H, or for both 263H and 345; or permission of department. Not open to students with credit for 594H taken in Au10.

5530H Honors Probability U G 5

Theoretical treatment of probability, with applications within and outside mathematics. Prereq: A grade of C or above in 5529H, or permission of department. Not open to students with credit for 531H or 594H in Au08 or Au07.

5540H Honors Differential Geometry U G 5

Geometry of curves and surfaces in 3-dimensional space, curvature, geodesics, Gauss-Bonnet Theorem, Riemannian metrics. Prereq: A grade of C or above in 5520H, or in both 2182H and 2568; or credit for 520H, or in both 263.01H and 568; or permission of department. Not open to students with credit for 541H.

5571 Linear Algebra for Machine Learning U G 3

This course is an in-depth introduction to linear algebra needed in machine learning and its application. Prereq: A grade of C- or better in 2153, or equivalent; and in 2568, or equivalent; and in 4530, Stat 4201, 3201, or equivalent; and in Stat 4202, 3202, or equivalent.

5576H Honors Number Theory U G 5

Elementary analytic and algebraic number theory, tracing its unifying role in the development of mathematics through history. *Au Sem (odd years). Prereq: A grade of C or above in 4182H, or in both 2182H and 3345; or credit for 264H, or for both 263H and 345; or permission of department. Not open to students with credit for 577H.

5588 Practicum in Actuarial and Quantitative Risk Management U G 3

This course introduces students to the real world practice relative to advanced Actuarial Science topics and more specifically to the MAQRM program. Prereq: CSE 1222, 1223, 1224, or 2111; and Math 2153; and Math 3618; and Math 4530, or Stat 4201; and Stat 4202; and Math 2568; or permission of department; or graduate standing.

5590H Honors Abstract Algebra I U G 5

5590H - 5591H includes elementary number theory, group theory, ring theory, abstract linear algebra, field theory, and Galois theory. Prereq: A grade of C or above in 5520H or in 520H, or permission of department. Not open to students with credit for 591H.

5591H Honors Abstract Algebra II U G 5

Continuation of 5590H: elementary number theory, group theory, ring theory, abstract linear algebra, field theory, and Galois theory. Prereq: A grade of C or above in 5590H or in 591H, or permission of department. Not open to students with credit for 592H.

5601 Essentials of Numerical Methods U G 3

Systems of linear equations, linear least squares, eigenvalue problems, nonlinear equations and optimization, interpolation, numerical integration and differentiation, numerical solution for ODEs, IVPs and BVPs. Prereq: 4556 (556) and either 2568 (568) or 572. Not open to students with credit for 607.

5602 Computational Partial Differential Equations U G 3

Parabolic PDEs: method of lines, stability and convergence; hyperbolic PDEs: shock capturing, flux limiters; elliptic PDEs: direct solvers and iterative methods. Prereq: Under semesters 5601 and either 4512 or 4557. Under quarters either 512 or 557; and 556; and either 568 or 572. Not open to students with credit for 606.

5603 Numerical Linear Algebra U G 3

Fundamentals of numerical linear algebra; solving square systems; QR factorization and least squares; calculation of eigenvalues; iterative methods for linear systems; iterative methods for eigenvalue problems. Prereq: Under semesters 2568 and one of 3607, 5601 or 5602. Under quarters either 568 or 571 and either 606 or 607.

5630 Life Contingencies I U G 3

Introduction to the mathematical theory of contingencies. Includes material from examinations by the Society of Actuaries and the Casualty Actuarial Society. Prereq: A grade of C- or above in 3618; and a grade of C- or above in 4530, 5530H, or Stat 4201; and enrollment in Actuarial Science major or the MMS program in Financial Math; or permission of department.

5631 Life Contingencies II U G 3

Continuation of 5630: Mathematical Theory of Contingencies. Includes material from examinations by the Society of Actuaries and the Casualty Actuarial Society. Prereq: A grade of C- or above in 5630. Open only to Actuarial Science majors, and to MMS students specializing in Financial Math.

5632 Financial Economics for Actuaries U G 3

Introduction to the evaluation of options, futures, and other derivatives, interest models and risk management techniques. Includes material from examinations by the Society of Actuaries and the Casualty Actuarial Society. Prereq: A grade of C- or above in 3618; and a grade of C- or above in 4530, 5530H, or Stat 4201; and enrollment in Math major or Actuarial Science major or Actuarial Science Pre-major, or Grad standing; or permission of department.

5633 Loss Models I U G 3

Introduction to the construction and evaluation of actuarial models, with topics covered by examinations of the Society of Actuaries and the Casualty Actuarial Society. Prereq: A C- or above in Stat 4202; and a C- or above in 4530, 5530H, or Stat 4201. Open only to actuarial science majors, and to MMS students specializing in Financial Math.

5634 Loss Models II U G 3

Continuation of 5633: introduction to the construction and evaluation of actuarial models, with topics covered by examinations of the Society of Actuaries and the Casualty Actuarial Society. Prereq: C- or better in 5633. Open only to actuarial science majors, and to MMS students specializing in Financial Math.

5635 Stochastic Calculus for Finance I U G 3
 Mathematics used in financial asset pricing, based on Wiener (Brownian motion) processes, with applications. Overview of needed real analysis, stochastic processes, Ito Calculus, Risk-neutral measure, connections with PDEs. Prereq: A grade of C- or above in 3589 or 3345; and a grade of C- or above in 4530, 5530H, or Stat 4201; and enrollment in Math major or Actuarial Science major; or Grad standing; or permission of department.

5636 Stochastic Calculus for Finance II U G 3
 Continuation of 5635. Feynman-Kac theorem, diffusion with drift, applications to problems in financial mathematics. Prereq: A grade of C- or above in 5635; and enrollment in Math major or Actuarial Science major, or Grad standing; or permission of department.

5637 Topics in Predictive Modeling U G 3
 An introduction to some basic concepts and methods in statistical learning with emphasis on the mathematics behind these concepts and methods. Prereq: A grade of C- or above in 2568 or 5520H, and a grade of C- or above in Stat 4202; or permission of department.

5651 Mathematical Modeling of Biological Processes U G 3
 Enzyme dynamics, predator-prey and competition model, spread of diseases, plant growth, cell cycle and cell differentiation, reaction-diffusion with advection, cancer models and cancer therapy, wound healing. Prereq: Grad standing; or either 4512 (512) or 557, and 4556 (556), and either 2568 (568) or 572. Not open to students with credit for 865.

5660 Integrated Molecular and Cellular Biology for Non-Biologists U G 5
 Overview of molecular and cellular biology of single cells, tissues, organisms and their interactions, including genetics and biochemistry of single cells. Prereq: Bio 1101 (101) or permission of instructor. Not open to students with credit for any one of MolGen 5660 (660), 4500 (500), 4606 (606), 605, or 661. Cross-listed in MolGen 5660.

5702 Curves and Surfaces in Euclidean Three Space U G 3
 Parametrized curves, curvature of curves; Frenet frames, curves with prescribed curvatures, curves on hypersurfaces; principal, Gaussian, and mean curvatures; surfaces in \mathbb{R}^3 , triangulation and classification of surfaces, Gauss-Bonnet theorem. Prereq: Grad standing or 2153.01 (254) and either 2568 (568) or 572. Not open to students with credit for 642.

5756 Mathematical Methods in Relativity Theory I U G 3
 Special relativity as moving frames; tensors, exterior algebra and exterior calculus; differentiable manifolds and space time structures; parallel transport, torsion and curvatures, metric compatibility; structure equations of differential geometry. Prereq: 2153.xx (254) and one of 2568 (568) or 5101 (601) or 572. Not open to students with credit for 665.

5757 Mathematical Methods in Relativity Theory II U G 3
 Gravitation via geometry; stress energy tensor, fluid dynamics; energy momentum conservation; Einstein's field equations, geodesic world lines via Hamilton-Jacobi theory; Schwarzschild spacetime; gauge invariant perturbation theory. Prereq: 5756 (665). Not open to students with credit for 666.

5801 General Topology and Knot Theory U G 3
 Topological spaces; continuous maps and metric spaces; connectedness, compactness, countability axioms; metrization, compactification, and convergence; combinatorial, geometric, and algebraic techniques in knot theory; invariants of knots. Prereq: Grad standing; or 4547 (547) and either 2568 (568) or 572. Not open to students with credit for 640.

6001 Advanced Mathematical Logic I: Proof Theory G 3
 Logical calculi; cut elimination and Herbrand's theorem; ordinal analysis; ordinal analysis of theories of sets; constructive and intuitionistic logics; realizability; proof mining. Prereq: 5051 (649), or permission of department. Not open to students with credit for 747.

6002 Advanced Mathematical Logic II: Model Theory G 3
 Construction of models, compactness, Lowenheim-Skolem theorems, unions of elementary chains, omitting types; categoricity; saturation; model completeness, quantifier elimination; ultraproducts; definability. Prereq: 5051 (649) or permission of department. Not open to students with credit for 747.

6003 Advanced Mathematical Logic III: Set Theory G 3
 Axioms of set theory; ordinal and cardinal numbers; transitive models of ZFC; the constructible universe L and HOD; forcing; large cardinals; descriptive set theory. Prereq: 5051 (649) or permission of department. Not open to students with credit for 747.

6004 Advanced Mathematical Logic IV: Computability Theory G 3
 Relative recursion; Turing reducibility, structure of Turing degrees; structure of the recursively enumerable degrees and priority arguments; recursion in higher types; generalized recursion; Borel and projective sets; determinacy. Prereq: 5051 (649) or permission of department. Not open to students with credit for 747.

6111 Abstract Algebra I G 5
 Group theory; series and actions of groups; ring theory; modules; UFDs and PIDs; polynomial and Noetherian rings; linear and multilinear algebra. Prereq: 5112, or Grad standing.

6112 Abstract Algebra II G 5
 Introduction to category theory; elementary homological algebra; field theory; finite Galois Theory; infinite Galois Theory; algebraic spaces. Prereq: 6111 (771). Not open to students with credit for 772.

6131 Introduction to Representation Theory G 3
 Finite groups and representations; Irreducible representations; Character theory; Symmetric groups; Symmetric functions; Associative algebras; Quivers. Prereq: 5101 or 5111, or Grad standing, or permission of instructor.

6191 Internship in Mathematical Sciences G 1-5
 Internship and practical experiences, designed primarily for Master level students in the mathematical sciences. Prereq: Permission of department. This course is graded S/U.

6193 Individual Studies in Mathematics G 1-9
 Individual studies. Prereq: Permission of department. Repeatable. This course is graded S/U.

6194 Group Studies in Mathematics G 1-9
 Designed to give groups of PhD students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable.

6211 Real Analysis I G 5
 Measures; integration; introduction to normed linear spaces; introduction to L^p spaces; Fourier analysis; signed measures and differentiation. Prereq: 5202 (653). Not open to students with credit for 750.

6212 Real Analysis II G 5
 Elements of functional analysis; properties and relations of L^p spaces and Fourier analysis; elements of the theory of distributions; selected applications. Prereq: 6211 (751). Not open to students with credit for 752.

6221 Complex Analysis I G 3
 Basic Cauchy theory; harmonic functions; Riemann mapping theorem, conformal maps; analytic continuation; applications of residue calculus; counting theorems for entire and meromorphic functions. Prereq: 5202 (653). Not open to students with credit for 753.

6222 Complex Analysis II G 3
 Approximation theorems; applications to Fourier analysis and number theory; Jensen and Weierstrass Theorems; Basic SCV: Cauchy-Riemann equations in several variables; pseudoconvexity and extension phenomena; d-bar methods. Prereq: 6221.

6251 Theory of Probability I G 4
 Review of measures and integration; independence for events and for random variables; covariance and correlation for random variables; weak and strong laws of large numbers; Borel-Cantelli lemmas; Central Limit Theorems. Prereq: 5202 (653). Not open to students with credit for 722.

6252 Theory of Probability II G 4
 Central limit theorems; Poisson processes; random walks, Markov chains; martingales; Brownian motion; stochastic processes. Prereq: 6251 (723). Not open to students with credit for 724.

6411 Ordinary Differential Equations I G 3
 Existence, uniqueness and smooth dependence; linear systems; periodic and homoclinic orbits; stability, hyperbolicity; stable, unstable, and center invariant manifolds; bifurcations of equilibria and periodic orbits; chaos, strange attractors. Prereq: Both 5202 and either 2568 (568) or 572. Not open to students with credit for Math 715.

6451 Partial Differential Equations I G 3
 Second order linear equations; first order equations: conservation laws, Hamilton-Jacobi equations; Fourier and Laplace transform method, Hopf-Cole and Legendre transform, singular perturbation method; Cauchy-Kovalevskaya Theorem. Prereq: 6411 (715). Not open to students with credit for 717.

6501 Combinatorics and Graph Theory I G 3
 Enumerative combinatorics: factorials, binomials and multinomials, Stirling approximation, recursion and generating functions, Catalan numbers. Graph theory: Kuratowski's theorem, graph coloring, Ramsey theory, matrix-tree theorem, expander graphs. Prereq: Grad standing in Math; or 4581 and 2568; or permission of instructor.

6502 Combinatorics and Graph Theory II G 3
 Ramsey theory, extremal graph theory. First moment method, second moment method, alterations. Concentration inequalities. Lovasz local lemma. Martingale methods. Correlation inequalities. Phase transitions. Random trees, random planar maps. Prereq: 6501 or permission of instructor.

6601 Numerical Methods in Scientific Computing I G 4
 Numerical linear algebra: matrix operations, direct and iterative methods for systems of linear equations, eigenvalue problems; Nonlinear equations and systems; Numerical integration. Prereq: 5603, and permission of the Graduate School; or Grad standing.

6602 Numerical Methods in Scientific Computing II G 4
 Approximation theory: interpolation, projection, integration; Initial value problems: one- and multi-step methods, Runge-Kutta methods, stability analysis; PDEs: advection equation, diffusion equation, stability analysis. Prereq: 6601.

6701 Differentiable Manifolds G 3
 Differentiable manifolds; vector bundles, existence theorem for ODE, flows, sprays; vector fields, differential operators, Lie and exterior derivatives; Poincare Lemma, Darboux's Theorem; Frobenius's Theorem, Lie groups; de Rham cohomology. Prereq: Grad standing or all of 5201 (652), and either 2568 (568) or 572, and 2153.01 (254). Not open to students with credit for 765.

296 Mathematics

6702 Differential Geometry **G 3**

Riemannian manifolds, distance, volume; covariant derivatives, Levi-Civita connection; geodesics, curvatures: sectional, Ricci, scalar; Jacobi fields, conjugate points; Rauch comparison, Hopf-Rinow, Hadamard, Preissman's and Berger's Sphere Theorems. Prereq: 6701 (765). Not open to students with credit for 766.

6801 Algebraic Topology I **G 3**

Simplicial and CW-complexes, operations on spaces; homotopy and homeomorphism type; fundamental group, Seifert-Van-Kampen Theorem; classification of covering spaces; singular and simplicial homology, chain maps, homotopy invariance, functoriality. Prereq: Grad standing or both 5801 (640) and 5111 (670). Not open to students with credit for 756.

6802 Algebraic Topology II **G 3**

Homology of pairs, excision, axioms; Mayer-Vietoris, cellular homology; cohomology groups, Ext and Tor functors, universal coefficients; Kunnet Theorem; Orientation on manifolds; fundamental class; Poincare, Alexander, and Lefschetz duality. Prereq: 6801 (756). Not open to students with credit for 758.

6998 Graduate Research **G 1 - 16**

Graduate research, primarily for Masters and beginning PhD students participating in research projects other than their thesis work. Prereq: Permission of department. Repeatable. This course is graded S/U.

6999 Graduate Thesis Research **G 1 - 16**

Graduate research, primarily for students working on their master theses. Prereq: Permission of department. Repeatable. This course is graded S/U.

7121.01 Algebraic Number Theory **G 3**

Algebraic integers, Dedekind domains, ideal class group; Galois theory of prime ideals, Frobenius automorphisms; geometry of numbers; cyclotomic fields, class field theory over \mathbb{Q} ; quadratic fields; local fields; ideles and adèles. Prereq: 6112. Not open to students with credit for 7121.02.

7121.02 Algebraic Number Theory **G 3**

Algebraic integers, Dedekind domains, ideal class group; Galois theory of prime ideals, Frobenius automorphisms; geometry of numbers; cyclotomic fields, class field theory over \mathbb{Q} ; quadratic fields; local fields; ideles and adèles. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7122.01 Analytic Number Theory **G 3**

Properties and examples of L-functions; primes in arithmetic progression; Riemann-Weil formula; non-vanishing theorem; analysis of L-functions on the critical line; principle of large sieve; Brauer-Siegel theorem, Ikehara-Tauberian theorem. Prereq: 7121.01 and 6222. Not open to students with credit for 7122.02.

7122.02 Analytic Number Theory **G 3**

Properties and examples of L-functions; primes in arithmetic progression; Riemann-Weil formula; non-vanishing theorem; analysis of L-functions on the critical line; principle of large sieve; Brauer-Siegel theorem, Ikehara-Tauberian theorem. This course section is open only to mathematics postcandidacy students. Prereq: Permission of instructor. This course is graded S/U.

7141.01 Algebraic Geometry I **G 3**

Affine and quasi-projective varieties; morphisms and rational maps; nonsingular varieties; sheaves and schemes; first properties of schemes; separated and proper maps of schemes. Prereq: 6112 and 6151. Not open to students with credit for 7141.02.

7141.02 Algebraic Geometry I **G 3**

Affine and quasi-projective varieties; morphisms and rational maps; nonsingular varieties; sheaves and schemes; first properties of schemes; separated and proper maps of schemes. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7142.01 Algebraic Geometry II **G 3**

Sheaves of Modules, quasi-coherent and coherent sheaves; divisors, projective morphism; sheaf of differentials; derived functors and sheaf cohomology; coherent sheaf cohomology of schemes; Serre's Duality, higher direct images, flat and smooth maps. Prereq: 7141.01. Not open to students with credit for 7142.02.

7142.02 Algebraic Geometry II **G 3**

Sheaves of Modules, quasi-coherent and coherent sheaves; divisors, projective morphism; sheaf of differentials; derived functors and sheaf cohomology; coherent sheaf cohomology of schemes; Serre's Duality, higher direct images, flat and smooth maps. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7161.01 Lie Algebras **G 3**

Nilpotent and solvable Lie algebras; structure and classification of simple Lie algebras; Levi-Malcev decomposition; root systems; Dynkin diagrams; introduction to representation of complex semi-simple Lie algebras; universal enveloping algebra. Prereq: 6111, or instructor permission.

7161.02 Lie Algebras **G 3**

Nilpotent and solvable Lie algebras; structure and classification of simple Lie algebras; Levi-Malcev decomposition; root systems; Dynkin diagrams; introduction to representation of complex semi-simple Lie algebras; universal enveloping algebra. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7162.01 Lie Groups and Representation Theory **G 3**

Basic group theory constructions; passage between a Lie group and its Lie algebra; homogeneous spaces; maximal tori; unitary trick and complete reducibility; classification of irreducible unitary representations; Cartan-Weyl theory. Prereq: 7161.01 and 6701. Not open to students with credit for 7162.02.

7162.02 Lie Groups and Representation Theory **G 3**

Basic group theory constructions; passage between a Lie group and its Lie algebra; homogeneous spaces; maximal tori; unitary trick and complete reducibility; classification of irreducible unitary representations; Cartan-Weyl theory. This course section is open only to mathematics postcandidacy students. Prereq: Permission of instructor. This course is graded S/U.

7193 Individual Studies in Mathematics **G 1 - 9**

Individual studies. Prereq: Permission of department. Repeatable. This course is graded S/U.

7194 Group Studies in Mathematics **G 1 - 9**

Designed to give groups of advanced PhD students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of department. Repeatable.

7211.01 Functional Analysis I **G 3**

Linear spaces and linear maps; Hahn-Banach theorem and its applications; normed linear spaces and their duals; Hilbert spaces and applications; weak and weak* topologies; Choquet theorems; bounded linear maps. Prereq: 6212. Not open to students with credit for 7211.02.

7211.02 Functional Analysis I **G 3**

Linear spaces and linear maps; Hahn-Banach theorem and its applications; normed linear spaces and their duals; Hilbert spaces and applications; weak and weak* topologies; Choquet theorems; bounded linear maps. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7212.01 Functional Analysis II **G 3**

Banach algebras, elementary spectral theory; Gelfand's theory of commutative Banach algebras; examples of families of operators; spectral theory of normal, unitary, self-adjoint operators; semigroups of operators; distributions; applications. Prereq: 7211.01. Not open to students with credit for 7212.02.

7212.02 Functional Analysis II **G 3**

Banach algebras, elementary spectral theory; Gelfand's theory of commutative Banach algebras; examples of families of operators; spectral theory of normal, unitary, self-adjoint operators; semigroups of operators; distributions; applications. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7221.01 Ergodic Theory I **G 3**

Measure preserving transformations; isomorphism, conjugacy, spectral isomorphism; measure preserving systems with discrete spectrum; hierarchy of mixing properties; invariant measures for continuous transformations; topological and symbolic dynamics. Prereq: 6211. Not open to students with credit for 7221.02.

7221.02 Ergodic Theory I **G 3**

Measure preserving transformations; isomorphism, conjugacy, spectral isomorphism; measure preserving systems with discrete spectrum; hierarchy of mixing properties; invariant measures for continuous transformations; topological and symbolic dynamics. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.

7222.01 Ergodic Theory II **G 3**

Entropy; topological entropy; flows on homogeneous spaces; structure theory of measure preserving systems; applications to combinatorics and number theory. Prereq: 7221.01. Not open to students with credit for 7222.02.

7222.02 Ergodic Theory II **G 3**

Entropy; topological entropy; flows on homogeneous spaces; structure theory of measure preserving systems; applications to combinatorics and number theory. This course section is open only to mathematics postcandidacy students. Prereq: Permission of instructor. This course is graded S/U.

7412.01 Ordinary Differential Equations II **G 3**

Topological equivalence of nonlinear systems; normal forms of Poincare-Dulac-Birkhoff; classification of vector fields near critical points; local bifurcation theory; topological dynamics; limit sets; flows on the torus. Prereq: 6451. Not open to students with credit for 7412.02.

7412.02 Ordinary Differential Equations II **G 3**

Topological equivalence of nonlinear systems; normal forms of Poincare-Dulac-Birkhoff; classification of vector fields near critical points; local bifurcation theory; topological dynamics; limit sets; flows on the torus. Prereq: Post-candidacy standing in Math, and permission of instructor. This course is graded S/U.

7413 Ordinary Differential Equations III **G 3**

Structural stability; singularity theory of Thom and Arnold; versal deformations; global deformations at separatrix cycle; Anosov diffeomorphisms; Axiom A; symbolic dynamics. Prereq: 7412 (821). Not open to students with credit for 822.

7452.01 Partial Differential Equations II **G 3**

Sobolev spaces, Sobolev inequalities and embedding theorems; Lax-Milgram theorem, Fredholm alternatives, weak compactness; linear elliptic equations: existence, regularity, maximum principles; hyperbolic equations; first order hyperbolic systems. Prereq: 6451 and 6212. Not open to students with credit for 7452.02.

7452.02	Partial Differential Equations II	G	3
Sobolev spaces, Sobolev inequalities and embedding theorems; Lax-Milgram theorem, Fredholm alternatives, weak compactness; linear elliptic equations: existence, regularity, maximum principles; hyperbolic equations; first order hyperbolic systems. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7453.01	Partial Differential Equations III	G	3
Harnack inequalities, De Giorgi-Nash-Moser theory; calculus of variations; monotonicity and sub-super solution methods, Pohozaev identity; hyperbolic conservation laws; quasilinear elliptic and parabolic equations; Schauder theory; strong solutions. Prereq: 7452.01. Not open to students with credit for 7453.02.			
7453.02	Partial Differential Equations III	G	3
Harnack inequalities, De Giorgi-Nash-Moser theory; calculus of variations; monotonicity and sub-super solution methods, Pohozaev identity; hyperbolic conservation laws; quasilinear elliptic and parabolic equations; Schauder theory; strong solutions. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7611	Computational Partial Differential Equations I	G	3
Numerical methods for boundary value problems (BVP); extension to separable elliptic PDEs, fast solvers; irregular domains, variable coefficients; iterative methods; diffusion equations; error analysis; variable coefficients in nonlinear problems. Prereq: 6602 (709). Not open to students with credit for 807.			
7612	Computational Partial Differential Equations II	G	3
Linear hyperbolic equations, finite difference methods; quasi-linear and non-linear equations with shock formation, Lax-Wendroff theorem; flux-limiters, WENO methods; multi-dimensional problems; transport equations; adaptive grids, grid generation. Prereq: 7611 (808). Not open to students with credit for 809.			
7651.01	Applied Complex Variables and Asymptotics I	G	3
Contour integration, conformal mapping; asymptotics of integrals; asymptotic properties of Laplace and Fourier transforms; Riemann-Hilbert problems, applications to singular integral equations; introduction to the theory of elliptic functions. Prereq: 5251 and 5201 and 6451. Not open to students with credit for 7651.02.			
7651.02	Applied Complex Variables and Asymptotics I	G	3
Contour integration, conformal mapping; asymptotics of integrals; asymptotic properties of Laplace and Fourier transforms; Riemann-Hilbert problems, applications to singular integral equations; introduction to the theory of elliptic functions. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7652.01	Applied Complex Variables and Asymptotics II	G	3
Asymptotic expansions; Watson's and Borel-Ritt lemma, stationary phase, steepest descent methods; contractive mapping methods; WKB and boundary layer methods; analyzable functions, transseries; Borel transform; Borel summability of solutions. Prereq: 7651.01. Not open to students with credit for 7652.02.			
7652.02	Applied Complex Variables and Asymptotics II	G	3
Asymptotic expansions; Watson's and Borel-Ritt lemma, stationary phase, steepest descent methods; contractive mapping methods; WKB and boundary layer methods; analyzable functions, transseries; Borel transform; Borel summability of solutions. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7711.01	Riemannian Geometry	G	3
Basic concepts of (pseudo) Riemannian geometry, such as curvature and Ricci tensors, Riemannian distance, geodesics, the Laplacian, and proofs of some fundamental results, including the Frobenius and Lie-subgroup theorems, the local structure of constant-curvature metrics, characterization of conformal flatness, the Hopf-Rinow, Myers, Lichnerowicz and Singer-Thorpe theorems. Prereq: 6702. Not open to students with credit for 7711.02.			
7711.02	Riemannian Geometry	G	3
Basic concepts of (pseudo) Riemannian geometry, such as curvature and Ricci tensors, Riemannian distance, geodesics, the Laplacian, and proofs of some fundamental results, including the Frobenius and Lie-subgroup theorems, the local structure of constant-curvature metrics, characterization of conformal flatness, the Hopf-Rinow, Myers, Lichnerowicz and Singer-Thorpe theorems. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7721.01	Kahler Geometry	G	3
Basic concepts of Kahler geometry, such as the Kahler and Ricci forms, positivity/negativity in cohomology, Kahler-Einstein metrics, and proofs of some fundamental results, including the d-d-bar lemma, Calabi's uniqueness theorems, Matsushima's reductivity theorem for Kahler-Einstein manifolds, and Futaki's isomorphism theorem. Prereq: 6701 and 6221. Not open to students with credit for 7721.02.			
7721.02	Kahler Geometry	G	3
Basic concepts of Kahler geometry, such as the Kahler and Ricci forms, positivity/negativity in cohomology, Kahler-Einstein metrics, and proofs of some fundamental results, including the d-d-bar lemma, Calabi's uniqueness theorems, Matsushima's reductivity theorem for Kahler-Einstein manifolds, and Futaki's isomorphism theorem. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			

7811.01	Homotopy Theory	G	3
Homotopy groups, Whitehead's theorem, CW approximation; homotopy excision, Hurewicz theorem; fibrations, mapping path and loop spaces; fibre bundles, sphere bundles over spheres; obstruction theory, relation to cohomology; Postnikov towers. Prereq: 6802. Not open to students with credit for 7811.02.			
7811.02	Homotopy Theory	G	3
Homotopy groups, Whitehead's theorem, CW approximation; homotopy excision, Hurewicz theorem; fibrations, mapping path and loop spaces; fibre bundles, sphere bundles over spheres; obstruction theory, relation to cohomology; Postnikov towers. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7821.01	Geometric Group Theory	G	3
Caley graphs, Quasi-isometries, Fundamental Lemma of GGT, Bass-Serre theory, Free groups, amalgams, surface groups, Universal covers, Hyperbolic space, Nonpositive curvature and CAT(0) geometry, Hyperbolic groups, Simple complexes of groups, Coxeter groups, Artin groups, Graph products of groups, Actions on CAT(0) cube complexes. Examples of group actions on contractible polyhedra. Prereq: 6801. Not open to students with credit for 7821.02.			
7821.02	Geometric Group Theory	G	3
Caley graphs, Quasi-isometries, Fundamental Lemma of GGT, Bass-Serre theory, Free groups, amalgams, surface groups, Universal covers, Hyperbolic space, Nonpositive curvature and CAT(0) geometry, Hyperbolic groups, Simple complexes of groups, Coxeter groups, Artin groups, Graph products of groups, Actions on CAT(0) cube complexes. Examples of group actions on contractible polyhedra. Prereq: Post-candidacy status in Mathematics Graduate Program, and permission of instructor. Not open to students with credit for 7821.01. This course is graded S/U.			
7851.01	Differential Topology I	G	3
Whitney Immersion and Embedding Theorems, transverse functions, jet-bundles, Thom transversality; classification of vector bundles, collars, tubular neighborhoods, intersection theory; Morse functions and lemma; surgery, Smale cancellation. Prereq: 6701 and 6801. Not open to students with credit for 7851.02.			
7851.02	Differential Topology I	G	3
Whitney Immersion and Embedding Theorems, transverse functions, jet-bundles, Thom transversality; classification of vector bundles, collars, tubular neighborhoods, intersection theory; Morse functions and lemma; surgery, Smale cancellation. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7852.01	Differential Topology II	G	3
DeRahm and Cech cohomology; deRahm Theorem; Grassmannians; Stiefel-Whitney, Euler, Chern, and Pontryagin classes; Gysin sequence, Thom isomorphism; characteristic numbers, multiplicative sequences, Hirzebruch signature theorem; Chern-Weil Theory. Prereq: 6702 and 6802 and 7851.01. Not open to students with credit for 7852.02.			
7852.02	Differential Topology II	G	3
DeRahm and Cech cohomology; deRahm Theorem; Grassmannians; Stiefel-Whitney, Euler, Chern, and Pontryagin classes; Gysin sequence, Thom isomorphism; characteristic numbers, multiplicative sequences, Hirzebruch signature theorem; Chern-Weil Theory. Prereq: Post-candidacy in Math, and permission of instructor. This course is graded S/U.			
7998	Graduate Research	G	1 - 16
Graduate Research, primarily for intermediate PhD students participating in research projects other than their thesis work. Prereq: Permission of the department. Repeatable. This course is graded S/U.			
8000	Topics in Foundations of Mathematics	G	3
Special topics in foundations of mathematics chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8110	Topics in Algebra	G	3
Special topics in algebra chosen by the instructor. prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8120	Topics in Number Theory	G	3
Special topics in number theory chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8140	Topics in Algebraic Geometry	G	3
Special topics in algebraic geometry chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8160	Topics in Representation Theory	G	3
Special topics in representation theory chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8210	Topics in Real Analysis	G	3
Special topics in real analysis chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8220	Topics in Complex Analysis	G	3
Special topics in complex analysis chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			

298 Mathematics

8250	Topics in Probability Theory	G	3
Special topics in probability theory chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8300	Topics in Financial Mathematics	G	3
Special topics in financial mathematics chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8410	Topics in Ordinary Differential Equations	G	3
Special topics in ordinary differential equations chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8420	Topics in Partial Differential Equations	G	3
Special topics in partial differential equations chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8500	Topics in Combinatorics	G	3
Special topics in combinatorics chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8610	Topics in Applied Mathematics	G	3
Special topics in applied mathematics chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8650	Topics in Mathematical Biology	G	3
Special topics in mathematical biology chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8710	Topics in Differential Geometry	G	3
Special topics in differential geometry chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8750	Topics in Lie Theory	G	3
Special topics in Lie theory chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8800	Topics in Topology	G	3
Special topics in topology chosen by the instructor. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8998	Graduate Research	G	1 - 16
Graduate research, primarily for advanced PhD students participating in research projects other than their thesis work. Prereq: Permission of department. Repeatable to a maximum of 20 completions. This course is graded S/U.			
8999	Dissertation Research	G	1 - 16
Graduate research for students working on their PhD dissertation. Prereq: Permission of department. Repeatable. This course is graded S/U.			

Meat Science

2010	Bar-B-Que Science	U	2
Investigating methods to prepare various meat products. Students will gain experience in matching proper cooking methods with different muscles to produce wholesome and palatable products. Students will be introduced to product sensory techniques.			
3110	Introductory Meat Science	U	3
Analysis of the principles of meat science as related to meat animal value factors, processing technology, and merchandising systems affecting the producer, processor, and consumer. Prereq: Biology 1101 or 1113. Not open to students with credit for AnimSci 3110. Cross-listed in AnimSci.			
3191	Internship in Meat Science	U	2
Supervised preplanned employment experience and/or on-site problem solving study program. Prereq: Permission of academic advisor. Prereq or concur: FAES 3191. This course is graded S/U. Cross-listed in AnimSci.			
3210	Food Animal Processing	U	3
Hands-on application of the procedures involved with food animal harvest, inspection, carcass fabrication and merchandising retail products. Prereq or concur: 3110 or AnimSci 3110. Not open to students with credit for AnimSci 355.02.			
3310	Meat Animal and Carcass Evaluation	U	3
Evaluating the factors that influence the value of meat animals and their resulting carcasses, wholesale and retail cuts in accordance with recognized grading standards; laboratory practice. Prereq: Not open to students with credit for AnimSci 305.			
3488	Professional Development in Meat Science	U	1 - 2
Participation in structured co-curricular programs leading to professional development. Prereq: CPHR 2.0 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
4193	Individual Studies	U	0 - 3
Special assignments and advanced research; problems assigned after consultation with the instructor in charge. Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			

4194	Group Studies	U	1 - 3
Special topics area group studies finally proposed for a specific semester by an animal science faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
4510	Processed Meats	U	3
Exploring fundamental changes in soft animal tissues resulting from comminution and application of non-meat ingredients and a variety of cooking methodologies to enhance palatability and value. Prereq or concur: 3110, AnimSci 3110, or FdScTe 2400. Not open to students with credit for AnimSci 555.02.			
4999	Research with Distinction	U	0 - 6
Conducting and reporting research with distinction. Prereq: CPHR 3.0 overall, GPA 3.0 or above in major, and permission of project supervisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
4999H	Honors Research with Distinction	U	0 - 6
Conducting and reporting honors research with distinction. Prereq: Honors standing, FAES 1100H, CPHR 3.4 or above, major GPA 3.4 or above, and permission of honors project supervisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
5510	Advanced Meat Science	U G	3
Exploration of the antemortem and postmortem biochemical principles in skeletal muscle underlying protein functionality and resulting meat quality. Prereq: 3110 or AnimSci 3110. Not open to students with credit for AnimSci 605.			
5810	Branded Meat Products	U G	4
Integration of multiple factors influencing value-added product development including: raw material quality and procurement, processing, packaging, distribution, and complexity of market development and current consumer trends in niche marketing. Prereq: 3110 or AnimSci 3110, and completion of a second writing course. Not open to students with credit for AnimSci 5810 or 555.03. Cross-listed in AnimSci.			

Mechanical Engineering

2010	Statics	U	2
Vector concepts of static equilibrium for isolated and connected bodies, centroids, inertia, truss, frame and machine analysis, and friction. Prereq: Engr 1181 or 1187 or 1281H, and Physics 1250 or 1260, and Math 1151 or 1161. Not open to students with credit for 2010H or 2040.			
2010H	Statics	U	2
Vector concepts of static equilibrium for isolated and connected bodies, centroids, inertia, truss, frame and machine analysis, friction and virtual work. Prereq: Honors standing, and Engr 1181 or 1187 or 1281H, and Math 1151 or 1161. Prereq or concur: Physics 1250 or 1260. Not open to students with credit for 2040.			
2020	Introduction to Mechanics of Materials	U	3
Stress and strain analysis of deformable structural components subjected to unidirectional and combined loads; pressure vessels; stress transformations (Mohr's Circle); beam deflections; column buckling. Prereq: 2010 or 2010H. Not open to students with credit for 2040.			
2030	Dynamics	U	3
Dynamics of particles and rigid bodies; linear and angular motion; work and energy; and single degree of freedom vibration analysis. Prereq: 2010 or 2010H or 2040.			
2040	Statics and Introduction to Mechanics of Materials	U	4
Vector concepts of static equilibrium, truss, frame and machine analysis. Stress and strain analysis of deformable structural components; stress transformations; beam deflections; column buckling. Prereq: Engr 1181 or 1187 or 1281H, and Physics 1250 or 1260, and Math 1152 or 1161 or 1172 or 1181H. Not open to students with credit for 2020.			
2193	Individual Studies in Mechanical Engineering	U	1 - 5
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
2194	Group Studies in Mechanical Engineering	U	1 - 5
Special topics in Mechanical Engineering. The particular topic, credit hours, and the instructor will be announced the semester previous to the one in which the course is offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
2194H	Group Studies in Mechanical Engineering	U	1 - 5
Special topics in mechanical engineering. The particular topic, credit hours, and the instructor will be announced the semester previous to the one in which the course is offered. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
2850.01	Numerical Methods in Mechanical Engineering	U	3
Numerical solutions of nonlinear equations, systems of linear equations, interpolation, curve-fitting, ordinary differential equations. Prereq: Enrollment as MechEng-BS student (No ME majors can enroll in this course), or permission of instructor. Prereq or concur: Math 2174 or 2415 (415), or equiv. Not open to students with credit for 250.			

2850.02	Numerical Methods in Mechanical Engineering	U	3
Numerical solutions of nonlinear equations, systems of linear equations, interpolation, curve-fitting, ordinary differential equations. Prereq: Enrollment as IndEng-BS or ISE-PRE student, or permission of instructor. Prereq or concur: Math 2174 or 2415. Not open to students with credit for 250.			
2900	Introduction to Design in Mechanical Engineering	U	3
Introduction to the discipline of Mechanical Engineering through a structured design, build, and test sequence. Students will fabricate apparatus which requires a basic understanding of the full scope of Mechanical Engineering. Prereq: Enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor. Prereq or concur: MatScEn 2010.			
3260	System Dynamics and Vibrations	U	3
Applications of ordinary differential equations, Laplace transforms, transfer function analysis to first and second order systems, and single-degree-of-freedom mechanical and electrical systems. Prereq: 2850 (250) and 2900, and enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor. Prereq or concur: ECE 2300 or 2300.01 or 320. Not open to students with credit for 481 or 650.			
3360	System Integration and Control	U	3
Modeling of a variety of multi-domain systems, including electromechanical actuators, principles of feedback control, and analysis of control systems. Prereq: 3260 or 3261, and enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor. Prereq or concur: 3503 (504) or 3504. Not open to students with credit for 482 or 571.			
3500	Engineering Thermal Sciences	U	3
Introduction to thermodynamics, fluid mechanics and heat transfer with engineering applications. Prereq: Math 2174 or 2177 or 2255 (255) or 2415 (415), and Physics 1250 (131). Not open to students with credit for 500 or enrolled in MechEng major.			
3501	Introduction to Engineering Thermodynamics	U	3
Principles of engineering thermodynamics from the classical perspective, including first and second laws of thermodynamics, with selected applications. Prereq: 2850 and 2900, and Chem 1210 or 1250; and enrollment as MechEng-BS student; or permission of instructor. Not open to students with credit for 3502, or to MechEng pre-majors.			
3503	Introduction to Fluid Mechanics	U	3
A study of the basic concepts, fundamental equations, and applications of fluid mechanics to engineering problems. Prereq: 2850 (250), and 3501 (501) or 3502, and enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor. Not open to students with credit for 503 or 504.			
3670	Design and Analysis of Machine Elements I	U	2
Design of mechanisms. Application of general mechanical engineering principles to the design and analysis of mechanical components. Prereq: 2020 (420) and 2030 (430) and 2900 and 2850 (250), and enrollment as MechEng-BS student; or permission of instructor. Not open to students with credit for 553 or 561 or to MechEng pre-majors.			
3671	Design and Analysis of Machine Elements II	U	3
Continuation of 3670 and 3571. Prereq: 3670 or 3676, and 3751, and enrollment as MechEng-BS student; or permission of instructor. Not open to students with credit for 563, or to MechEng pre-majors.			
3751	Kinematics and Mechanism Design	U	2
This course is intended to help students develop an intuitive understanding of the design concepts for machinery and mechanisms. Topics covered are: kinematic joints, mobility analysis, kinematic synthesis of planar linkages, computer-aided design of mechanisms, kinematic analysis, Cam motion program synthesis, and cam profile design. Prereq: 2030 and 2900, or permission of instructor. Not open to students with credit for 3670 (Au17 or before), 3553, or 553.			
3870	Introduction to Measurements and Data Analysis in Mechanical Engineering	U	3
Foundation in experimental measurement and data analysis in mechanical engineering; team planning and execution of experiments; technical report writing. Prereq: Stat 3450 or equiv, and 3260 (482) or 3261, and a second writing course, and enrollment in Mechanical Engineering major; or permission of instructor. Prereq or concur: 3503 (504) or 3504. Not open to students with credit for 570.			
4193.01	Individual Studies in Mechanical Engineering	U	1 - 5
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 15 completions. This course is graded S/U.			
4193.02	Individual Studies in Mechanical Engineering	U	1 - 5
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of Instructor. Repeatable to a maximum of 15 cr hrs or 15 completions.			
4194	Group Studies in Mechanical Engineering	U	1 - 5
Special topics in mechanical engineering. The particular topic, credit hours, and the instructor will be announced the semester previous to the one in which the course is offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			

4194H	Group Studies in Mechanical Engineering	U	1 - 5
Special topics in Mechanical Engineering. The particular topic, credit hours, and the instructor will be announced the semester previous to the one in which the course is offered. Prereq: Honors standing, and enrollment in MechEng major; or permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
4505	Introduction to Nuclear Science and Engineering	U	3
Discussion of nuclear energy and nuclear radiation; sources, methods of utilization, and projections for future engineering uses. Prereq: Math 2153 or above and Physics 1251, or permission of instructor. Not open to students with credit for NuclEn 4505. Cross-listed in NuclEn.			
4510	Heat Transfer	U	3
A study of the fundamentals of conduction, convection, and thermal radiation energy transfer with engineering applications. Prereq: 3503 (504) or 3504, and MechEng-BS student (no pre-majors); or permission of instructor. Not open to students with credit for 510.			
4536	Nuclear Reactor Systems	U	3
Introductory course covering concepts of nuclear power reactor systems, thermal and mechanical design aspects, and economics of nuclear power plants. Prereq: 4505 (505) or NuclEn 4505 (505); or permission of instructor. Not open to students with credit for 6536 (736), NuclEn 4536 (736), or 6536 (736). Cross-listed in NuclEn.			
4870	Multidisciplinary Mechanical Engineering Laboratory	U	2
Builds upon prior laboratory experiences and integrates thermal and mechanical system concepts; focus on problem solving using experimental and analytical/computational methods. Prereq: 3360, 3671, and 3870, and enrollment as MechEng-BS or EngPhys-BS student. Prereq or concur: 4510.			
4901.01	ME Capstone Design I: General Projects	U	2½
First course of 2-semester capstone sequence. Students work on design problems proposed by faculty. Emphasis on problem definition, requirements, and design proposal. Prereq: 3360, 3671, and 3870. Prereq or concur: 4510, and enrollment as a MechEng-BS Student, or permission of instructor. Not open to MechEng pre-majors.			
4901.02	ME Capstone Design II: General Projects	U	2½
Second course of 2-semester senior capstone series. Complete work on design problem proposed by faculty. Emphasis on detailed design, prototype, evaluation, and documentation. Prereq: 4901.01, and enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor.			
4902.01	ME Capstone Design I: Student Design Competitions	U	2½
First course of 2-semester capstone sequence. Students work on design problems arising from various student competitions in engineering. Emphasis on problem definition, requirements, and design proposal. Prereq: 3360, 3671, and 3870. Prereq or concur: 4510, and enrollment as a MechEng-BS Student, or permission of instructor. Not open to MechEng pre-majors.			
4902.02	ME Capstone Design II: Student Design Competitions	U	2½
Second course of 2-semester senior capstone series. Complete work on design project associated with student design competitions. Emphasis on detailed design, prototype, evaluation, and documentation. Prereq: 4902.01, and enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor.			
4905.01	ME Capstone Design I: Assistive Devices	U	2½
First course of 2-semester senior capstone series. Students begin to work on assistive devices for persons with disabilities. Emphasis on problem definition, requirements, and design proposal. Prereq: 3360, 3671, 3870. Prereq or concur: 4510, and enrollment as a MechEng-BS Student, or permission of instructor. Not open to MechEng pre-majors.			
4905.02	ME Capstone Design II: Assistive Devices	U	2½
Second course of 2-semester senior capstone series. Complete work on assistive devices for persons with disabilities. Emphasis on detailed design, prototype, evaluation, and documentation. Prereq: 4905.01, and enrollment as MechEng-BS student (No ME pre-majors can enroll in this course); or permission of instructor.			
4906.01	ME Capstone Design I: Product Design Capstone	U	2½
First course of 2-semester senior capstone series. Students begin to work on their design project. Emphasis on problem definition, requirements, design proposal. Prereq: 3360, 3671, and 3870. Prereq or concur: 4510 and 5682.01, and enrollment as a MechEng-BS Student, or permission of instructor. Not open to MechEng pre-majors. This course is progress graded.			
4906.02	ME Capstone Design II: Product Design Capstone	U	2½
Second course of 2-semester senior capstone series. Complete work on design problem proposed by faculty. Emphasis on detailed design, prototype, evaluation, documentation. Prereq: 4906.01, and enrollment as MechEng-BS Student (No MechEng pre-majors can enroll in this course); or permission of instructor.			
4998	Undergraduate Research in Mechanical Engineering	U	1 - 2
Opportunity for undergraduate students to conduct research in Mechanical Engineering. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
4998H	Undergraduate Research in Mechanical Engineering	U	1 - 2
Opportunity for undergraduate Honors program students to conduct research in Mechanical Engineering. Prereq: Honors standing, and enrollment in MechEng major, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			

300 Mechanical Engineering

4999 Mechanical Engineering Undergraduate Research for Thesis U 1 - 3

Students are offered the opportunity to pursue independent project/research. Student presentations and undergraduate thesis writing is included. Prereq: CPHR 3.0 or above, and Sr standing in MechEng major; or permission of instructor. Repeatable to a maximum of 6 cr hrs or 4 completions.

4999H Mechanical Engineering Undergraduate Research for Thesis U 1 - 3

Honors program students are offered the opportunity to pursue independent project/research. Student presentations and undergraduate Honors thesis writing is included, to enable graduation with Research Distinction in Mechanical Engineering. Prereq: Honors standing, and CPHR 3.4 or above, and Sr standing in MechEng major; or permission of instructor. Repeatable to a maximum of 6 cr hrs or 4 completions.

5003 Nuclear Reactor Systems and Analysis U G 3

Intermediate-level course covering thermal and mechanical design aspects of nuclear power plants. The thermodynamics of operating nuclear power plants (BWRs and PWRs) are emphasized. Prereq: 4505 or NuclEn 4505; and MechEng 3501 or equiv; or Grad standing; or permission of instructor. Not open to students with credit for NuclEn 6536. Cross-listed in NuclEn.

5030 Intermediate Dynamics U G 3

This course emphasizes dynamics of single/multi-degree-of-freedom systems, including particles and rigid bodies, and is aimed as an extensive introduction to the principles of analytical mechanics. Of particular interest is the investigation of Lagrange's equations of motion for particles and rigid bodies. Prereq: 2030, or permission of instructor. Not open to students with credit for 5194 (Au14 or Sp16).

5134 Introduction to Vibrations of Deformable Solids U G 3

Introduction to the analysis of the free and forced transverse vibrations of strings, beams, membranes and plates and the longitudinal and torsional vibrations of prismatic bars. Prereq: 2020 (420) or 2040, and Math 2174, 2177, or 2415 (415), and enrollment in MechEng major; or Grad standing in MechEng. Not open to students with credit for 734.

5139 Applied Finite Element Method U G 3

Overview of finite element method, description of finite element software, modeling requirements and techniques, analysis using general purpose software, and case studies. Prereq: 2020 or 2040 or equiv, and enrollment in MechEng major; or Grad standing in Engineering.

5144 Engineering Fracture Mechanics U G 3

Fracture and fatigue of solids; stress intensity factors; stability of cracks; compliance and energy methods; plane stress, plane strain effects; crack propagation and arrest criteria. Prereq: 2020 (420) or 2040, and Math 2174, 2177, or 2415 (415); or Grad standing in Engineering. Not open to students with credit for 744.

5162 Introduction to Laminated Composite Materials U G 3

Introduction to anisotropic material behavior and failure assessment of laminated composite materials. Classical lamination theory, beams, plates and shells. Prereq: 2020 (420) or 2040; or Grad standing in Engineering; or permission of instructor. Not open to students with credit for 662, 762, CivilEn 5162, 662, or 762. Cross-listed in CivilEn.

5180 Mechanics of Biomolecular Systems U G 3

Introduction to biomolecules and systems in the context of cellular functions. In particular the course focuses on the physical properties of biomolecules and the physical interactions that mediate their functions. Prereq: Sr or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 694E (Spring 2010).

5194 Group Studies in Mechanical Engineering U G 1 - 5

Special topics in Mechanical Engineering. The particular topic, credit hours, and the instructor will be announced the semester previous to the one in which the course is offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

5234 Vehicle Dynamics U G 4

A first course in vehicle dynamics devoted to the basic concepts of rubber wheeled vehicles with an actual driving and demonstrated laboratory. Prereq: 3360 (482) and 3671 (563), or Grad standing in MechEng, or permission of instructor. Not open to students with credit for 654 or 754.

5240 Mechanical Vibrations U G 3

Free and forced vibration analysis of single-degree-of-freedom systems with various forms of damping, vibration isolation and control methods and devices, vibration sensors, equations of motion of multi-degree of freedom systems using Lagrange's method, Eigen value problem, modal analysis method for free and forced vibration analysis, frequency-domain data analysis fundamentals. Prereq: 3260 (481). Prereq or concur: 3360 (482), or Grad standing in Engineering. Not open to students with credit for 650, 666, or 7250.

5241 Engineering Acoustics U G 3

Acoustics applications survey. Wave propagation phenomena. Introduction to human hearing. Mathematics review. Acoustic wave equation, propagation, and metrics. Instrumentation for and evaluation of acoustic measurements. Understanding acoustic sources and sound radiation characteristics. Introductory architectural acoustics, engineering noise control, and psychoacoustics. Prereq: 3260, or Grad standing, or permission of instructor.

5339 Simulation Techniques for Dynamic Systems U G 3

Introduction and use of software tools for dynamic system modeling, control system analysis, and design. Application to real world dynamic systems, with emphasis on model development and validation, parameter identification, and results presentation. Prereq: 3360 (571) or equiv, and enrollment in MechEng; or Graduate standing in MechEng; or permission of instructor.

5372 Theory and Applications of Feedback Control U G 3

Introduction to multi-domain (mechanical, thermal, fluid, electrical, electronic, electro-mechanical) system design, dynamic modeling, and control system design and analysis techniques. Prereq: 3360 or 3361, or Grad standing in MechEng, or permission of instructor.

5374 Smart Materials and Intelligent Systems U G 3

Macromechanical modeling of smart materials including piezoceramics, magnetostrictives, shape memory alloys, magnetorheological fluids, and active polymers. Constitutive and system-level modeling. Design of smart dynamic systems. Prereq: 3360 (571) or 3361, or Grad standing in MechEng, or permission of instructor. Not open to students with credit for 774.

5427 Introduction to Turbomachinery U G 3

Introduction to analysis and design of turbomachinery. Prereq: 3503 or 3504 (504), or Grad standing in MechEng. Not open to students with credit for 627.

5463 Introduction to Real Time Robotics Systems U G 3

Components of a robot system, robot forward and reverse kinematics; robot dynamics; robot force generation, robot trajectory generation. Prereq: Math 2177 or 2174, or 2415 and 2568; and Physics 1250, 1250H, 1260, or 2300; and CSE 1221, 1222, Engr 1181, 1281.01H, 1281.02H, 1221, or 1222; or Grad standing in Engr; or permission of instructor. Not open to students with credit for 7752 or ECE 5463. Cross-listed in ECE.

5502 Engineering Thermodynamics U G 3

Technical elective in Engineering Thermodynamics including energy analysis, non-reacting and reacting gas mixtures, combustion, psychrometrics, chemical and phase equilibrium, thermoeconomics and applications. Prereq: 3501 (501) or 3502, or equiv. Not open to students with credit for 502.

5530 Internal Combustion Engines U G 3

Design and operating characteristics of contemporary internal combustion engines, induction/exhaust breathing, boosting, variable valvetrains, combustion and knock, fuel economy, alternative fuels, and advanced powertrains. Prereq: 3501 or 3502 (502), or Grad standing in MechEng, or permission of instructor. Not open to students with credit for 630.

5531 Automotive Powertrain Laboratory U G 3

This course focuses on analysis and testing of advanced automotive systems. These systems include advanced powertrain components like turbocharged GDI engines, electric powertrain components like electric motors, and autonomous vehicle sensing technologies like radar and lidar. Students will conduct labs and use supplied data to conduct analysis typical of practicing automotive engineers. Prereq: 3870, or Grad standing in Engr, or permission of instructor.

5535 Advanced Topics in Solar Energy Systems U G 3

The broad course objective is to understand the design, manufacturing, operations and financing of solar energy plants, systems utilizing classroom lecture and presentation, computer simulation, and two projects. Prereq: Jr, Sr, or Grad standing in MechEng, AeroEng, NuclEn, ECE, CSE, CivilEn, or ISE; or permission of instructor.

5539 Applied Computational Fluid Dynamics and Heat Transfer U G 3

Introduces basic concepts in Computational Fluid Dynamics (CFD) and Computational Heat Transfer (CHT), teaches thermo-fluid analysis of engineering systems, and enhances understanding of fluid flow and heat transfer. Prereq: 3501 or 3502 (502), and 3503 or 3504 (504). Prereq or concur: 4510 (510), or Grad standing in MechEng.

5541 Heating, Ventilating, and Air Conditioning U G 3

Analysis of components and systems for heating, ventilating and air-conditioning. Prereq: 4510 (510), or Grad standing in MechEng. Not open to students with credit for 641.

5550 Engineering Principles in Cancer U G 3

The purpose of this course is to introduce engineering principles in the context of cancer progression and therapy. Prereq: 3500, 3503, or CBE 2420; or permission of instructor. Not open to students with credit for BioMedE 5550 or CBE 5550. Cross-listed in BioMedE and CBE.

5600 Applied Project Management in Product Development Team Environments U G 3

Students learn to apply project management concepts in product development team environments; includes relevant theory, tools, and techniques used in industry; relevant systems engineering concepts for designing complex products are introduced. Prereq: Jr, Sr, Grad status; and enrollment in College of Engineering or Engineering minor. Not open to with credit for 4194 or 5194.

5670 Advanced MCAD modeling with CATIA U G 3

Advanced techniques for solid, surface and assembly modeling using CATIA workbenches. Covers not only construction methods, but also how geometric modelers work internally: constraint solving, geometric DoFs, history roll forward-rollback, BRep data structure, Boolean ops, math representations of curves and surfaces. Teaches effective strategies for modeling, parametrization and robust histories. Prereq: 3670, or Grad standing in Engr, or permission of instructor.

Mechanical Engineering 301

5680	Computer Aided Design and Manufacturing	U G	4
Design of machine components, surfaces, and assemblies using parametric and feature-based design principles and advanced design tools. Prereq: 3670 (561), or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 621 or 683.			
5682.01	Fundamentals of Product Design Engineering	U G	3
Lecture covering the fundamentals of the product design process, from concept creation to final implementation, including product architecture and design for manufacture and assembly. Only open to students enrolled in majors in the College of Engineering. Prereq: Jr, Sr, or Grad standing in the College of Engineering, or permission of instructor. Not open to students with credit for 5682.02.			
5682.02	Product Design Engineering for Entrepreneurs	U G	3
An engineering perspective on product development for non-engineering students in the Entrepreneurship & Innovation minor. This course covers fundamentals of the product design process, from user research to concept creation to final implementation and manufacturing. Not open to students in the College of Engineering, does not count as an engineering Technical Elective. Prereq: Enrollment in a major outside of the College of Engineering, and enrollment in the Entrepreneurship & Innovation minor. Not open to students with credit for 5682, 5682.01, 5194 (AU15, SP16, AU16, Abell), ISE 5682, or 5682.01, or enrolled in a major within the College of Engineering.			
5700	Introduction to Musculoskeletal Biomechanics	U G	3
Introduction to field of musculoskeletal biomechanics at a level appropriate for advanced undergraduates and early graduate students. Fundamental anatomy and physiology. Mechanics of muscle, tendon, ligament, meniscus, bone. Equations of motion for movement. Introduction to experimental methods. Prereq: 3670, or permission of instructor. Not open to students with credit for 6700.			
5751	Design and Manufacturing of Compliant Mechanisms and Robots	U G	3
Introduces methods and theories for kinematic and force analysis, synthesis of rigid body and compliant (flexible) mechanisms and robots. Pseudo-rigid-body model and CAD/CAE software will be used for modeling and analysis study. Students will be required to work on a team project to solve a real world design problem related to mechanisms and robots. Prereq: 3670 or equiv, or Grad standing in Engineering, or permission of instructor.			
5775	Applied Machine Learning for MAE and Robotics	U G	3
Classical and modern methods of machine learning with specific applications to mechanical and aerospace engineering, and robotics. Prereq: Math 2177 or 2174, or 2415 and 2568; and Physics 1250 or 1250H or 1260 or 2300; and CSE 1221 or 1222 or Engr 1181 or 1281.01H or 1281.02H or 1221 or 1222; and AeroEng 3581 or MechEng 2850 or 5463; or Grad standing in Engineering. Not open to students with credit for CSE 5523, ECE 4194.02, or 7868.			
5797	Study at a Foreign Institution	U G	1 - 10
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of department chairperson. Repeatable to a maximum of 15 or hrs or 2 completions.			
6193	Individual Studies in Mechanical Engineering	G	1 - 5
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.			
6193.01	Individual Studies in Mechanical Engineering	G	1 - 5
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions.			
6194	Group Studies in Mechanical Engineering	G	1 - 5
Special topics in Mechanical Engineering. The particular topic, credit hours, and the instructor will be announced the term preceding the one in which the course is offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
6359	Extracellular Matrix in Bioengineering	G	3
Extracellular matrix (ECM) present in mammalian tissue(s) is important for the integrity and tensile strength of the underlying tissue as well as for cell-matrix interactions and matrix mineralization. This course provides an overview of the composition, structure and function of ECM and its application(s) in bioengineering. Prereq: Grad standing in MechEng or BiomedE, or permission of instructor. Not open to students with credit for BiomedE 5359 or 6350. Cross-listed in BiomedE 6350.			
6501	Gas Dynamics	G	3
A study of one-dimensional and two-dimensional steady and one-dimensional unsteady compressible flows. Prereq: 3503 or 3504 (504), and Math 2174, 2255 (255), or 2415 (415); or Grad standing in MechEng; or permission of instructor. Not open to students with credit for 701.			
6505	Intermediate Fluid Dynamics	G	3
Principles and derivations of fundamental equations for incompressible flows with a special emphasis on formulation of problems. Prereq: 3503, or Grad standing in MechEng or AeroEng; or permission of instructor. Not open to students with credit for 705.			

6507	Intermediate Numerical Methods	G	3
Numerical techniques and computer algorithms to solve initial and boundary value problems relevant to engineering applications, such as heat conduction and mass diffusion. Prereq: 2850, Math 2174, 2415, or 4512; or Grad standing in MechEng or AeroEng or NuclEn; or permission of instructor. Not open to students with credit for NuclEn 6507. Cross-listed in NuclEn.			
6510	Intermediate Heat Transfer	G	3
In-depth derivation of equations and principles governing heat transfer with an emphasis on formulation of problems. Mass transfer is also introduced. Prereq: Grad standing in MechEng or AeroEng; or permission of instructor. Not open to students with credit for 710.			
6515	Introduction to Microfluidics and Nanofluidics	G	3
Principles of incompressible fluid mechanics & electrokinetic phenomena at the micro & nanoscale; biomedical applications with a laboratory illustrating fabrication techniques & experimental methods. Undergrad students encouraged to seek permission. Prereq: 3503 or 3504 (504) or equiv, or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 715 or BiomedE 5663. Cross-listed in BiomedE 5663.			
6526	Combustion	G	3
Fundamentals of energy conversion through combustion, thermodynamics and chemical kinetics of combustion, premixed flames, deflagration vs. detonation waves, diffusion flames, droplet combustion, and thermal ignition. Prereq: 3503, 3504 (504), or 4510 (510), or permission of instructor. Not open to students with credit for 726.			
6661	Advanced CAE Simulation for Structural Design	G	4
Advanced FE modeling of nonlinear structural problems; min. weight design and topology optimization. Includes boundary, geometric and material nonlinearities, both rate independent and dependent. The emphasis is on modeling decision making and validation. This is not a traditional FE theory class but a hands-on, software-intensive modeling and simulation class with a significant lab component. Prereq: 5139; or Grad standing in AeroEng, CivilEn, MatScEn, or MechEng.			
6665	Reliability Engineering I	G	3
Focuses on system level reliability modeling approaches. Engineering system reliability modeling and prediction; reliability of programmable devices and human reliability; reliability and risk management of engineering systems. Prereq: 3260 (481), ECE 351, or ISE 4120 (510); or Grad standing; or permission of instructor. Not open to students with credit for 776.01.			
6700	Musculoskeletal Biomechanics	G	3
Fundamental anatomy and physiology. Mechanics of muscle, tendon, ligament, meniscus, and bone. Equations of motion for human movement. Introduction to experimental methods in musculoskeletal biomechanics. Prereq: Grad standing in MechEng or BiomedE, or permission of instructor. Not open to students with credit for 687 or 5700.			
6711	Microscopy in Biomechanics	G	3
Physical principles and modes of light microscopy and atomic force microscopy and their applications for probing biomechanical properties. Prereq: Grad standing in Engineering. Not open to students with credit for BiomedE 6170. Cross-listed in BiomedE 6170.			
6716	Probabilistic Reliability and Safety Assessment	G	3
Methods underlying probabilistic risk assessment (PRA) and how they are used in assessing the public health risk of nuclear systems. Prereq: 4505 (505), NuclEn 4505 (505), Grad standing, or permission of instructor. Not open to students with credit for 5716 (716) or NuclEn 5716 (716). Cross-listed in NuclEn.			
7100	Introduction to Continuum Mechanics	G	3
Continuum mechanics in Cartesian and general coordinates, vectors and tensors in indicial and direct notation, analysis of deformation and stress, balance principles. Prereq: 2020 (420) or 2040, and Math 2174, 2255 (255), or 2415 (415) or equiv; or Grad standing in Engineering; or permission of instructor. Not open to students with credit for 743 and 840.			
7163	Advanced Strength of Materials and Elasticity Theory	G	4
Stress-Strain analysis of elastic solids: curved beams; non-symmetrical bending; non-circular torsion; beams on elastic foundations; load-deflection relations by energy methods; plane problems in elasticity theory; and applications to design Prereq: 2020 (420) or 2040, or equiv, and Math 2174 or 2255 (255) or 2415 (415); or Grad standing in MechEng. Not open to students with credit for 740 or 763.			
7194	Group Studies in Mechanical Engineering	G	1 - 5
Special topics in Mechanical Engineering. The particular topic, credit hours, and the instructor will be announced the term previous to the one in which the course is offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.			
7230	Advanced Dynamics	G	4
Three-dimensional kinematics and dynamics of particles and rigid bodies using vector (Newton-Euler) and analytical (Lagrange's equations and Hamilton's principle) methods. Rotating systems. Non-holonomic systems. Prereq: Sr or Grad standing. Not open to students with credit for 733 or 735.			
7236	Powertrain Dynamics	G	3
Overview of dynamics and control of automotive powertrain systems. Emphasis on subsystem interactions. Analytical and numerical methods for dynamics of gas exchange, fueling, combustion and exhaust, and mechanical engine and transmission systems. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 781.			

302 Mechanical Engineering

7250	Vibration of Discrete Systems	G	3	7751	Advanced Kinematics and Mechanisms	G	3
<p>Concepts of undamped and damped vibrations of single and multi degree of freedom discrete systems. Principles of modal analysis, analytical dynamics and approximate methods. Prereq: 2030, and Math 2174, 2255, or 2415; or Sr or Grad standing in Engineering.</p>				<p>Kinematic design and analysis of mechanisms. The focus is on kinematic representations of rigid transformations in space, derivation and solution of the kinematic constraint equations. Computer projects involve Solidworks and Matlab/Mathematica. Prereq: 3671 (563) or Engr 1183, or Grad standing; or permission of instructor. Not open to students with credit for 751.</p>			
7255	Turbomachinery Dynamics	G	3	7752	Mechanics and Control of Robots	G	3
<p>This course focuses on modeling the dynamics of rotating cyclic structures found in turbomachinery. The methods discussed in this class include traditional analysis methods such as cyclic analysis and small mistuning, and recent developments in modeling large mistuning, multi-stage systems, and friction damping. Prereq: Grad standing in Engr.</p>				<p>Introduction to the mechanical and mathematical principles of robotics including kinematics, rigid body dynamics, control theory, motion planning, sensors and actuators, legged locomotion and manipulation. Prereq: 2030 (430), Math 2174, 2415 (415), 4568 (568), 571, or equiv, or Grad standing in Engineering. Not open to students with credit for 752.</p>			
7259	Sliding Mode Control in Electromechanical Systems	G	3	7761	Optimum Design of Machines and Structures	G	3
<p>Sliding modes an efficient tool to control high order dynamic plants operating under uncertainty conditions. Prereq: 5372 or ECE 5750 (750). Not open to students with credit for 859 or ECE 859 or 7859. Cross-listed in ECE 7859.</p>				<p>Application of optimization techniques to mechanical systems and structures. The structures considered will typically be high performance structures such as in aircraft and spacecraft Prereq: Sr standing, or permission of instructor. Not open to students with credit for 761 or AAE 7844 (844). Cross-listed in AAE 7844.</p>			
7290	Digital Control Engineering	G	3	7765	Principles and Applications of Tribology	G	3
<p>Theory of digital control engineering and its applications to the control of engineering systems including machines, vehicles, and processes. Prereq: 3360 and 3361, or 482 and 571, or Grad standing in MechEng, or permission of instructor. Not open to students with credit for 773.</p>				<p>Mechanisms of friction, wear, and lubrication ranging from macro- to nanoscale that govern interfacial behavior; applications to friction and wear problems. Prereq: Not open to students with credit for 765 or 767.</p>			
7372	Fault Diagnosis in Dynamic Systems	G	3	8038	Advanced Topics in Finite Element Method	G	3
<p>Covers the theory and application of fault diagnosis in multi-domain dynamic systems. Theory and case studies drawn from industrial applications. Prereq: 7380, ECE 4551, 5551, AeroEng 4521, or permission of instructor.</p>				<p>State of the art advances in various areas of finite element methods covering a range of topics including element stability, time integration methods, and adaptive methods. Prereq: 7068 (768) or equiv, or Grad standing in MechEng, or permission of instructor. Not open to students with credit for 838.</p>			
7374	Polymer Smart Materials and Material Systems - Advanced Modeling and Characterization	G	3	8193	Individual Studies in Mechanical Engineering	G	1 - 5
<p>Polymer smart materials and material systems with specific emphasis on mathematical modeling and characterization of ionic electroactive materials. Introduction of ionic electroactive materials as engineering materials and motivate students through various contemporary applications. Fabrication, characterization, electrochemical modeling for actuation, sensing, energy conversion and storage. Prereq: 5374, and Grad standing in Mechanical Engineering; or permission of instructor. Not open to students with credit for 7194 (Sp 2014 or Sp 2017, Polymer Smart Materials).</p>				<p>Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 or hrs or 15 completions. This course is graded S/U.</p>			
7380	Lumped Parameter Modeling and System Analysis	G	3	8194	Group Studies in Mechanical Engineering	G	1 - 5
<p>Mathematical model development and response prediction of linear lumped parameter dynamic systems. Input-output and state-space methods are used to develop insights into design, sensor placement and diagnostics, and actuator selection for control. Prereq: Math 2174, 2415 (415), or 4512 (512), or Grad standing in MechEng, or permission of instructor. Not open to students with credit for 780 or 880.</p>				<p>Special topics in Mechanical Engineering. The particular topic, credit hours, and the instructor will be announced the term previous to the one in which the course is offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 10 completions.</p>			
7383	Energy Conversion and Storage Systems for Electrified Propulsion	G	3	8220	Continuous Time Optimal Control	G	3
<p>Electrochemical energy storage (batteries) and conversion (fuel cells) systems for automotive applications covering state of the art principles of operations and modeling. Prereq: 6526, or Grad standing in Engineering, or permission of instructor.</p>				<p>Embraces the three historical trends in dynamic optimization: Calculus of Variations, Pontryagin's Minimum Principle, and Bellman's Principle of Optimality. Not only mathematical aspects of the three principles will be taught, but also their strengths and weaknesses - it is often less important to know how to apply a given principle than to know when. Prereq: 5372 or ECE 5551, or permission of instructor. Not open to students with credit for ECE 8250. Cross-listed in ECE 8250.</p>			
7384	Principles of Electrification for Vehicle Propulsion Systems	G	3	8230	Nonlinear Dynamics	G	3
<p>Fundamentals of advanced propulsion vehicles (HEV, PHEV, BEV, FCV), covering motivation, architectures, taxonomy and components, energy analysis, modeling, simulation, optimization, and supervisory control/energy management principles. Prereq: Grad standing, or permission of instructor.</p>				<p>Analytical, geometric, and perturbation methods for study of nonlinear mechanical systems, and the dynamical phenomena that arise in nonlinear systems including stability, bifurcations, and hysteresis. Prereq: 7250 (731), or Grad standing in Engineering, or permission of instructor. Not open to students with credit for 832.</p>			
7385	Advanced Methods in the Dynamics and Control of Human and Animal Movement	G	3	8250	Vibration of Continuous Systems	G	3
<p>Mathematical ideas from control theory, optimization, nonlinear dynamics, and numerical computation that will be used to understand human, animal, and movement behavior and design. Prereq: 2030 (430), Math 2174, 2415 (415), 4568 (568), or 571, or Grad standing in Engineering.</p>				<p>Analysis of one, two and three dimensional continuous vibratory systems including strings, beams, membranes, plates and shells using exact and approximate methods with various boundaries. Prereq: 4030 (430) or 7250 (731), and Math 2255 (255) or equiv; or permission of instructor. Not open to students with credit for 734.</p>			
7440	Internal Combustion Engine Modeling	G	3	8322	Vehicle System Dynamics and Control	G	3
<p>Comprehensive coverage of spark-ignited internal combustion engines modeling (fluid dynamics, thermodynamics and combustion). Additional coverage of compression ignition engine modeling and boosting. Prereq: 5530 or 630 or equiv, or permission of instructor. Not open to students with credit for 730.</p>				<p>Control and estimation system designs for vehicle systems. Prereq: Grad standing in Engineering, or permission of instructor.</p>			
7511	Computational Fluid Dynamics	G	3	8352	Robust Control of Mechatronic Systems	G	3
<p>Advanced numerical methods for solving the Navier-Stokes equations using pressure-based techniques. Prereq: 6507 (707) or AeroEng 5615 (615), or permission of instructor. Not open to students with credit for 811.</p>				<p>This course is focused on the application of the parameter space approach of robust control to mechatronic systems including ADAS and automated driving. The students will learn how to design multi-objective low order controllers in parameter space based on Hurwitz stability, D-stability, phase margin bounds, gain margin bounds and mixed sensitivity bounds. Prereq: Grad standing in MechEng or ECE, or permission of instructor.</p>			
7513	Turbulence	G	3	8503	Statistical Thermodynamics	G	3
<p>A study of fundamentals of turbulent fluid flows and a few canonical flows. Prereq: 6505 (705), or permission of instructor. Not open to students with credit for 813 or AeroEng 7875 (875). Cross-listed in AeroEng 7875.</p>				<p>Microscopic aspects of thermodynamics for engineering graduate students. Starts with kinetic gas theory and classical statistics of independent particles. Derives statistical distribution functions and thermodynamic properties of real substances. Prereq: Grad standing in MechEng or AeroEng, and permission of instructor. Not open to students with credit for 803.</p>			
7527	Jet Propulsion	G	3	8504	Physical Gas Dynamics	G	3
<p>Characteristics and performance of air breathing flight vehicle power plants and their components (inlets, compressors, combustors, turbines, and nozzles). Prereq: 4510 (510) or AeroEng 4550 (550), or permission of instructor. Not open to students with credit for 727 or AeroEng 8851 (851).</p>				<p>Physics of nonequilibrium, reacting, ionized gas flows. Analysis of molecular energy transfer processes, chemical reactions, and ionization processes. Applications for hypersonic reentry flows, high-speed flow control, and molecular lasers. Prereq: 8503 (803) or equiv, or permission of instructor. Not open to students with credit for 804.</p>			
				8514	Optical Techniques in Fluid Flows	G	3
				<p>Fundamentals of lasers, optics, and diatomic spectroscopy, and their application to flow and combustion diagnostics. Prereq: Grad standing in Engineering or the Sciences, or permission of instructor. Not open to students with credit for 814.</p>			

8518	Advanced Mathematical Methods in Engineering	G	3
Fourier series, complex differentiation and integration and transform and Green's function for solution of problems arising in heat transfer, solid mechanics, fluid mechanics; linear operators as applied to engineering problems. Prereq: Grad standing in Mechanical, Aerospace, or Nuclear Engineering; or permission of instructor. Cross-listed in AeroEng.			
8603	Irreversible Thermodynamics and Transport of Charge, Heat, and Spin	G	3
Ohm's, Fourier and Fick's laws, which relate linearly the transport of electrical charge, heat and matter to voltages, temperatures and concentrations gradients, are generalized in the framework of irreversible thermodynamics. The microscopic mechanisms of transport of heat, electrical charge and magnetization by elemental excitations (electrons, phonons and magnons) are explained. Prereq: 8503 or statistical mechanics, and permission of instructor.			
8888	Mechanical Engineering Graduate Seminar	G	1
Lecture and discussion of current topics related to Mechanical Engineering presented by graduate students, staff, and guest speakers. Course does not count toward course work required for MS or PhD degrees. Prereq: Grad standing in MechEng, AeroEng, or NuclEn. Repeatable to a maximum of 20 or hrs. This course is graded S/U.			
8901	Future Academic Scholars Training I for MAE	G	2
To provide Ph.D. students in the Department of Mechanical and Aerospace Engineering an opportunity to learn, understand, and practice aspects of effective teaching specific to mechanical, aerospace and nuclear engineering. Prereq: Enrollment in Mechanical, Aerospace, or Nuclear Engineering Ph.D. program; or permission of instructor. This course is graded S/U.			
8902	Future Academic Scholars Training II for MAE	G	2
To provide Ph.D. students in the Department of Mechanical and Aerospace Engineering an opportunity to learn and understand what it takes to get an academic position in a research university and to become a successful faculty member. Prereq: Enrollment as a PhD student in Mechanical, Aerospace, or Nuclear Engineering; or permission of instructor. This course is graded S/U.			
8998	Graduate Research in Mechanical Engineering	G	1 - 16
Mechanical Engineering graduate research for thesis. Repeatable. This course is graded S/U.			
8999	Mechanical Engineering Research for Dissertation	G	1 - 16
Research for dissertation purposes only. Repeatable. This course is graded S/U.			

Medical Dietetics

3100	Human Nutrition and Metabolism	U	3
This course is designed to provide a foundation to prepare future nutrition professionals for dietetic coursework in the MDN major, including nutrition assessment and medical nutrition therapy. This class focuses on the critical aspects of chemical structure, digestion, metabolism, and physiological function and dietary significance of the major energy yielding substances. This course is designed for students applying to the Master of Dietetics and Nutrition program. Prereq: Chem 1210 and 1220; and Biology 1101 or 1113; and HumnNtr 2310; or permission of instructor.			
4500	Health Promotion and Community Nutrition	U	3
Study of community needs assessment, national nutrition policy, design and evaluation of programs and cultural factors to promote the health and nutritional status of the community. Prereq: HumnNtr 2310.			
4900	Nutrition Assessment	U	3
Methods of gathering, interpreting, and reporting nutrition assessment data. Prereq: HumNtr 2310, EEOB 2520, or equiv.			
5189	Dietetic Professional Practice I	U G	1 - 12
Clinical experience in a specific health care system uses inpatient, outpatient, foodservice and community-based dietetic practice. The student works under the direction of Registered Dietitians and the supervision of medical dietetics faculty. Prereq: Enrollment in the MedDiet program. Repeatable to a maximum of 12 or hrs or 3 completions. This course is graded S/U.			
5289	Dietetic Professional Practice II	U G	1 - 12
Clinical experience in a specific health care system uses inpatient, outpatient, foodservice and community-based dietetic practice. The student works under the direction of Registered Dietitians and the supervision of medical dietetics faculty. Prereq: Enrollment in MedDiet. Repeatable to a maximum of 12 or hrs or 3 completions. This course is graded S/U.			
5389	Dietetic Professional Practice III	U G	1 - 12
Field experience in a specific health care system uses inpatient, outpatient, foodservice and community-based dietetic practice. The student works under the direction of Registered Dietitians and the supervision of medical dietetics faculty. Prereq: Enrollment in MedDiet. Repeatable to a maximum of 12 or hrs or 3 completions. This course is graded S/U.			
5705	Nutrition and Physical Performance	U G	2
Integration of nutrition, exercise physiology, and biochemistry. Use of nutrients as fuel, interaction between nutrients and exercise performance, assessment of energy expenditure and nutritional status, interactions among diet, exercise and health. Prereq: 4609 (610). Not open to students with credit for 705. Cross-listed in HumNtr.			

5800	Advanced Nutrition Therapy in Complex Disease States	U G	3
Study of nutrition therapy in disease: interrelationships of nutrition with biochemical, physiological and anatomical changes associated with acute, chronic and terminal illness, surgery and trauma. Prereq: Credit in general chemistry, biology, physiology, nutritional assessment, nutritional therapy, or education and counseling, or permission of instructor. Not open to students with credit for 645 or 885.			
5825	Advanced Practice in Nutrition Assessment and Counseling	U G	3
In-depth analysis of the literature and current practice for use in nutrition assessment and counseling for both healthy and medically complex patients with acute, chronic and terminal illnesses.			
5850	Advanced Management and Current Topics in Medical Dietetics	U G	3
Emphasis on leadership skills for nutrition and dietetics in health care settings. Prereq: 5189. Not open to students with credit for 645.			
6000	Medical Nutrition Therapy and Pathophysiology I	G	3
Study of nutrition therapy in disease: interrelationships of nutrition with biochemical, physiological and anatomical changes associated with energy balance, diseases of the cardiovascular, musculoskeletal and respiratory systems. Prereq: Admission to Master of Dietetics and Nutrition Program (MDN).			
6001	Foundations in Research & Application I	G	1
An evidence based review of current topics in dietetics to support the integration of nutrition informatics, scientific evidence and key trends in healthcare to dietetics practice. Prereq: Enrollment in MedDiet or HthRhSc graduate program. This course is graded S/U.			
6002	Foundations in Research & Application II	G	1
An evidence based review of current topics in dietetics to support the integration of nutrition informatics, scientific evidence and key trends in healthcare to dietetics practice. Prereq: Enrollment in MedDiet or HthRhSc graduate program. This course is graded S/U.			
6003	Foundations in Research & Application III	G	1
An evidence based review of current topics in dietetics to support the integration of nutrition informatics, scientific evidence and key trends in healthcare to dietetics practice. Prereq: Enrollment in MedDiet or HthRhSc graduate program. This course is graded S/U.			
6100	Care and Management of Diabetes Mellitus	G	3
An in depth examination of etiology, epidemiology, and pathophysiology associated with diabetes and disease complications; pharmacological and non-pharmacological treatments; insulin, physical activity and nutritional pattern management; monitoring; symptom management and steps for prevention of secondary complications. Future research and application of evidence based care will be emphasized. Prereq: Biochem or equivalent; or Anatomy and Physio; or HumnNtr 2310, MedDiet 3100, HthRhSc 4530, or equivalent; and Grad standing in MedDiet, HumNtr, or other health related program.			
6300	Evidence Based Topics in Nutrition & Dietetics	G	3
An in depth examination of the role of nutrients and food components and their impact of body systems and health. Prereq: Grad standing.			
6350	Nutrition Support in Critical Care	G	3
Advanced study of specialized nutrition support in critical care. Prereq: Nutrition therapy or equiv. Not open to students with credit for 856.			
6900	Nutritional Genomics	G	3
An introduction to nutritional genomics and translational medicine for the prevention and treatment of disease. Prereq: A course in basic nutrition, and 2 courses in Science, Biochemistry, or Physiology; or permission of instructor. Not open to students with credit for 745.			

Medical Laboratory Science

4000	Medical Laboratory Science Clinical Bacteriology	U	3
Introduce medical bacteriology in the aspects of fundamental epidemiology, disease transmission routes, clinical correlation of microbial diseases, as well as diagnostic tests to identify commonly encountered and clinically important bacteria. Prereq: Micrbio 4000.01, and admission to Medical Laboratory Science online MLT Articulation program or Medical Laboratory Science minor program; or permission of instructor.			
4050	Medical Laboratory Science Hematology	U	5
MedLbS 4050 introduces the student to the theory and application of clinical laboratory procedures used to identify and evaluate the formed elements of the blood and hemostatic mechanisms in health and disease. Prereq: Admission to Medical Laboratory Science online MLT Articulation Program or Medical Laboratory Science minor Program, or permission of instructor.			
4100	Medical Laboratory Science Special Microbiology	U	3
Introduce medical mycology, parasitology, and virology in the aspects of fundamental epidemiology, disease transmission routes, clinical correlation of microbial diseases, as well as diagnostic tests to identify commonly encountered and clinically important viruses, fungi and parasites. Prereq: Admission to Medical Laboratory Science online MLT Articulation Program or Medical Laboratory Science minor Program, or permission of instructor.			

304 Medical Laboratory Science

4150	Medical Laboratory Microscopy	U	2		
Microscopic analysis of urine and other body fluids including correlational pathophysiology. Prereq: Admission to the Medical Laboratory Science minor Program, or permission of instructor.					
4200	Medical Laboratory Immunology	U	3		
MedLbS 4200 provides the student the theory, application, and correlation of clinical immunology knowledge and procedures used to evaluate the function of the immune system in health and disease. Prereq: Admission to Medical Laboratory Science online MLT Articulation Program or Medical Laboratory Science minor Program, or permission of instructor.					
4250	Medical Laboratory Immunoematology	U	4		
Theory and practice of blood banking and transfusion medicine. Prereq: 4000, 4050, and 4200, and admission to the Medical Laboratory Science online MLT Articulation Program; or permission of instructor.					
4300	Medical Laboratory Clinical Chemistry	U	5		
This course will cover the biochemical basis for diseases commonly diagnosed or monitored using tests performed in the clinical chemistry laboratory. The basics of the methods used to perform the tests will be discussed as well as their interpretation. Techniques used to evaluate the validity of testing will be covered. Prereq: Chem 2510 and Biochem 4511; or BioPhrm 3311 and 3312; and admission to the Medical Laboratory Science online MLT Articulation Program or Medical Laboratory Science minor Program; or permission of instructor.					
4350	Professional Issues in Medical Laboratory Science	U	3		
Theory and application of professional, education, and management issues directed specifically towards Medical Laboratory Science. This course will prepare students to function in the roles of laboratory supervisors, managers, and educators. Prereq: Admission to Medical Laboratory Science online MLT Articulation Program, or permission of instructor.					
4400	Introduction to the Medical Laboratory Environment	U	1		
An introduction to the basic principles and safety in the clinical laboratory environment. Prereq: Admission to Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor. Concur: 4405.					
4405	Introduction to the Medical Laboratory Environment Laboratory	U	1		
An introduction to the practice of basic principles and safety in the clinical laboratory environment. Prereq: Admission to Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor. Concur: 4400.					
4500	Phlebotomy	U	1		
The principles and procedures of sample collection as it relates to clinical laboratory testing. In this course, no blood will be drawn. Prereq: HthRhSc 2500 or enrollment in the Medical Laboratory Science Program.					
4505	Phlebotomy Laboratory	U	1		
The practice of sample collection for the clinical laboratory. Prereq: Admission to Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor. Concur: 4500.					
4600	Interdisciplinary Studies in Medical Laboratory Science	U	1		
The application of medical laboratory science in interdisciplinary settings. Prereq: Completion of all MedLbS online Articulation program required courses, including 4000, 4050, 4100, 4200, 4250, 4300, and 4700; or permission of instructor.					
4700	Molecular Techniques in Medical Laboratory Science	U	3		
Theory and clinical applications of molecular techniques used in medical laboratory science. Prereq: 4000, 4050, 4100, and MolGen 4500, and admission to Medical Laboratory Science online MLT Articulation Program; or permission of instructor. Prereq or concur: 4250 and 4300.					
5000	Medical Laboratory Microbiology II	U G	3		
Introduce medical bacteriology in the aspects of fundamental epidemiology, disease transmission routes, clinical correlation of microbial diseases, as well as diagnostic tests to identify commonly encountered and clinically important bacteria. Prereq: Micrbio 4000.01, and admission to Medical Laboratory Science program, or Medical Laboratory Science certificate program; or permission of instructor.					
5000E	Medical Laboratory Microbiology I	U G	3		
Introduce medical bacteriology in the aspects of fundamental epidemiology, disease transmission routes, clinical correlation of microbial diseases, as well as diagnostic tests to identify commonly encountered and clinically important bacteria. Honors-embedded course includes an infectious disease project. Prereq: Honors standing, Micrbio 4000, and admission to Medical Laboratory Science Program; or permission of instructor.					
5005	Medical Laboratory Microbiology II Laboratory	U G	2		
Basic theory and application of clinical laboratory techniques used to identify bacteria pathogenic to humans. Prereq: 4405, and Micrbio 4000; and admission to Medical Laboratory Science Program, or Medical Laboratory Science certificate program; or permission of instructor. Concur: 4400.					
5050	Medical Laboratory Hematology	U G	5		
Theory and application of clinical laboratory procedures used to identify and evaluate the formed elements of the blood and hemostatic mechanisms in health and disease. Prereq: Enrollment in Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor.					
5050E	Medical Laboratory Hematology	U G	5		
Theory and application of clinical laboratory procedures used to identify and evaluate the formed elements of the blood and hemostatic mechanisms in health and disease. Prereq: Honors standing, and admission to Medical Laboratory Science program; or permission of instructor. Not open to students with credit for MedTech 510.01.					
5055	Medical Laboratory Hematology Laboratory	U G	2		
Theory and application of clinical laboratory procedures used to identify and evaluate the formed elements of the blood and hemostatic mechanisms in health and disease. Concur: 4400 and 4405, and admission to Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5089	Clinical Practice in Medical Laboratory Science	U G	1 - 10		
Application of medical laboratory technique under supervision in clinical laboratories or other non-hospital laboratory settings. Prereq: All courses required in the Medical Laboratory Science Certification curriculum except 5600 and 5350. Repeatable to a maximum of 20 or hrs or 4 completions. This course is graded S/U.					
5100	Medical Laboratory Microbiology I	U G	3		
Introduce medical mycology, parasitology, and virology in the aspects of fundamental epidemiology, disease transmission routes, clinical correlation of microbial diseases, as well as diagnostic tests to identify commonly encountered and clinically important viruses, fungi and parasites. Prereq: Admission to Medical Laboratory Science program, or Medical Laboratory Science certificate program; or permission of instructor.					
5105	Medical Laboratory Microbiology I Laboratory	U G	1		
The theory and application of clinical laboratory procedures used to identify fungi, parasites, and viruses pathogenic to humans. Prereq: Admission to Medical Laboratory Science Program or Medical Laboratory Science certificate program, or permission of instructor. Concur: 4400 and 4405.					
5150	Medical Laboratory Microscopy	U G	2		
Microscopic analysis of urine and other body fluids including correlational pathophysiology. Prereq: Admission to Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor.					
5155	Medical Laboratory Microscopy Laboratory	U G	1		
Microscopic analysis of urine and other body fluids. Prereq: 4400, and admission to Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5200	Medical Laboratory Immunology	U G	3		
Theory, application, and correlation of clinical immunology knowledge and procedures used to evaluate the function of the immune system in health and disease. Prereq: Enrollment in Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor.					
5205	Medical Laboratory Immunology Laboratory	U G	1		
Theory, application and correlation of clinical immunology knowledge and procedures. Prereq: 4400, and admission to Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5250	Medical Laboratory Immunoematology	U G	4		
The theory and practice of blood banking and transfusion medicine. Prereq: 5000, 5050, or 5200, and enrollment in Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5255	Medical Laboratory Immunoematology Laboratory	U G	2		
Theory and practice of blood banking and transfusion medicine. Prereq: 4400, 5200, and 5205; and admission to Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5300	Medical Laboratory Science Clinical Chemistry	U G	5		
This course will cover the biochemical basis for diseases commonly diagnosed or monitored using tests performed in the clinical chemistry laboratory. The basics of the methods used to perform the tests will be discussed as well as their interpretation. Techniques used to evaluate the validity of testing will be covered. Prereq: Chem 2510 and Biochem 4511; or BioPhrm 3311 and 3312; and admission to Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5305	Medical Laboratory Chemistry Laboratory	U G	2		
Applications of theory in quality control, method selection and evaluation, and diagnostic techniques in the clinical chemistry. Prereq: 4400; and Chem 2510 and Biochem 4511, or BioPhrm 3311; and admission to Medical Laboratory Science program or Medical Laboratory Science certificate program; or permission of instructor.					
5350	Professional Issues in Medical Laboratory Science	U G	3		
Theory and application of professional, education, and management issues directed specifically towards Medical Laboratory Science. Prereq: Admission to Medical Laboratory Science program or Medical Laboratory Science certificate program, or permission of instructor.					

5400	Molecular Techniques in Medical Laboratory Science	U G	2
Provides the student an opportunity to understand and apply basic molecular biology concepts to perform, evaluate and interpret molecular diagnostic tests used for diagnosis of human disease. Prereq: 5000, 5050, 5100, and MolGen 4500, and admission to Medical Laboratory Science Program or Medical Laboratory Science certificate program; or permission of instructor. Prereq or concur: 5250 and 5300.			
5600	Interdisciplinary Studies in Medical Laboratory Science	U G	1 - 5
The application of medical laboratory science in interdisciplinary settings. Prereq: All Medical Laboratory Science certification track required courses except for MedLbS 5089. Repeatable to a maximum of 5 or hrs or 5 completions. This course is graded S/U.			
5690	Advanced Topics in Medical Laboratory Science	U G	1 - 5
Introduction to skills and resources necessary to enhance professional development and facilitate professional goal setting. Prereq: Enrollment in Medical Laboratory Science program, or permission of instructor.			
5693	Individual Studies	U G	1 - 15
Guided study or individual readings, research, or experiences related to medical laboratory science. Prereq: Admission to Medical Laboratory Science program, or permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions. This course is graded S/U.			
6885	Medical Laboratory Clinical Teaching Practicum	G	2 - 5
Supervised experience in clinical education. Prereq: Admission to Medical Laboratory Science program or MS program in Health and Rehabilitation Science; or permission of instructor. Repeatable to a maximum of 5 or hrs or 2 completions. This course is graded S/U.			
6890	Medical Laboratory Graduate Seminar	G	2 - 5
Investigation of current topics in medical technology. Prereq: Admission to Medical Laboratory Science program or MS program in Health and Rehabilitation Science; or permission of instructor. Repeatable to a maximum of 5 or hrs or 2 completions. This course is graded S/U.			

Medicine, College of

2000.21	Introduction to Medicine	U	2
Designed for students interested in a career in medicine, this course will provide an overview of the field (knowledge and skill requirements), information about prerequisites and applying to medical school. Recommended prereq: Soph or Jr standing. This course is graded S/U.			
2022	A Day in the Life: Undergraduate Physician Shadowing	U	1
Deciding on whether medicine is the right career choice for someone interested in the health professions is challenging. This course is designed to provide a meaningful preceptorship experience with physicians in various disciplines in order to provide the student with a better understanding of the field. A better understanding of medicine is a crucial part of the application process to med school. Prereq: Soph, Jr, or Sr standing. Preference given to those who completed MedColl 2000.21. This course is graded S/U.			
2220	Introduction to Biomedical and Healthcare Research	U	1
The course will introduce undergraduates to the scope of research conducted by faculty, post-doctoral associates, medical and graduate students at The Ohio State University College of Medicine (OSUCOM).			
2225	Biomedical and Healthcare Research Journal Club	U	1
The course is intended for undergraduates who wish to become familiar with current peer-reviewed biomedical and healthcare scientific literature. Students will learn to read, analyze, and summarize original scientific research articles.			
3998	Design, Analysis & Dissemination of Biomedical and Healthcare Research	U	3
MedColl 3998 is a collaborative, experiential and data-driven course-based undergraduate research experience (CURE). Students will learn to understand the importance of collaboration and the iterative nature of biomedical and healthcare research.			
4126	Sexual Orientation, Gender Identity, and Health	U	3
This course is an introduction to LGBT health, including a study of demographics, the background of key healthcare disparities/inequities, and concepts of the interaction between society and health of specific populations within the LGBT community. Prereq: Soph, Jr, or Sr standing.			
4660	Primary Care Across Countries	U	3
This participatory interdisciplinary seminar course will provide a broad perspective to those interested in various aspects of the delivery of primary care services. Specifically, the course will explore why access to high quality, consistent, and comprehensive primary care is central to achieving Health for All. GE theme health and well-being course.			
4660E	Primary Care Across Countries	U	3
This participatory interdisciplinary seminar course will provide a broad perspective to those interested in various aspects of the delivery of primary care services. Specifically, the course will explore why access to high quality, consistent, and comprehensive primary care is central to achieving Health for All. GE theme health and well-being course.			
4790	Exploring Medical Care Delivery and Education from a Global View	U	3
The course provides an introduction to medical care delivery and health science education from a global perspective through intensive instruction and participation in a short-term education abroad program to the destination country.			

4998	Undergraduate Thesis	U	1 - 10
The student will plan, complete, and defend an undergraduate honors thesis focused on psychiatry and behavioral health. Prereq: Permission of instructor. This course is graded S/U.			
5000	Responsible Conduct of Research & Research Ethics	U G M	1
Within research, ethics is considered to be the safeguard of both the researcher and the participant. This course will examine cases which hold to demonstrate this statement. It will analyze a complex system of policies and regulations that govern human subject research and scientific integrity. This class also satisfies the basic components of Responsible Conduct of Research (RCR) education. This course is graded S/U.			
5881	Sustainable Health Care in the Current Climate Crisis	U G M	2
This course will educate students about links between the climate crisis (CC) and health; foster engagement with local leaders addressing the CC; and encourage students to communicate effectively, becoming engaged citizens for sustainable health care. Introductory biology, chemistry, physics, and epidemiology may be helpful prior to enrollment.			
6000	DEVELOPMENTAL AND INTELLECTUAL DISABILITIES DENTAL CERTIFICATE PROGRAM FOR COMMUNITY PROVIDERS	G	3
The goal of this educational program is to improve access to oral health care for individuals with intellectual or developmental disabilities (IDD) in their communities through the creation of a psychologically and behaviorally based IDD dental fellowship program focusing on oral health providers that are currently in practice. Must possess an active license to practice dentistry or dental hygiene in the United States or Canada. Verification of licensure will be performed prior to enrollment. Repeatable to a maximum of 9 or hrs. This course is graded S/U.			
6100	Global Healthcare Innovation	G	1
The course introduces graduate and professional students to the breadth and diversity of global healthcare innovations through guided discussion and case study application.			
6200	Global Health Literacy Practice, Policy and Research	G	3
The course introduces graduate and professional students to health literacy practice, policy, and research across the globe. The course will provide an overview of population-based health literacy definitions and estimates from a global perspective.			
6300	Primary Care Delivery across the Globe	G	3
The course provides a comprehensive overview of the multifaceted aspects of primary care delivery and financing throughout the world. The combined global impact of access to high quality and comprehensive primary care will be explored.			
7100	Teaching and Assessing Professionalism in the Biomedical Sciences	G	3
This course is grounded in three paradigms of modern biomedical professionalism and focuses on designing teaching and assessments necessary for a developmental process that encourages the transformation from lay person to health care professional. Prereq: Acceptance into the Master of Arts in Educational Studies, Biomedical Education specialization, or permission of instructor.			
7193	Individual Studies in Emergency Medicine	G	1 - 3
Research on a basic science or clinical issue in Emergency Medicine (under faculty supervision). Prereq: Permission of instructor, and good standing in the M.S. program in Medical Sciences. Repeatable to a maximum of 9 or hrs or 9 completions. This course is graded S/U.			
7200	Seminar: Employing Simulation in Medical Education	G	3
This course is an exploration of simulation in competency based medical education. The knowledge, skills and attitudes developed in the course will enable clinical educators to facilitate the use of simulation in competency-based curricula. Prereq: Enrollment in the Master of Arts in Educational Studies program, Biomedical Education specialization, or permission of instructor.			
7300	Seminar: Competency-Based Medical Education	G	3
This course is an exploration of the seminal and more recent CBME literature, the process of developing a CBME curriculum and emerging issues related to CBME. The knowledge, skills and attitudes developed in this course should enable clinician educators to participate in and facilitate the development of competency-based curricula.			
7400	Assessment For Competency Based Medical Education	G	3
The knowledge, skills, and attitudes developed in this course will enable clinical educators to effectively design and implement assessments. Learners will make connections between established standards and assessment strategies to measure competency. Prereq: Acceptance into the Master of Arts in Educational Studies, Biomedical Education specialization; or permission of instructor.			
7600	Introduction to Medicine	M	0
An introductory course describing curriculum choices and requirements, support services and security procedures for new medical students in the College of Medicine. Prereq: Enrollment in the College of Medicine, and first-semester medical student. This course is progress graded (S/U).			
7680	Independent Study in Geriatrics and Aging	G	1 - 2
Opportunity for individualized study in the fields of aging, gerontology, and/or geriatrics. Allows for examination of a social, community, or organizational problem; or medical, public health, social welfare issue; etc. in the context of aging. Prereq: Permission of instructor. Repeatable to a maximum of 3 or hrs. This course is graded S/U.			

306 Medicine, College of

7693 Individual Studies M 1 - 16

Special studies in medicine; nature of life processes; foundational science; clinical science; pathophysiology and manifestation of disease. This is a supervised individualized program. Offered all semesters. Prereq: Enrollment in MD program, and permission of instructor. Repeatable to a maximum of 32 cr hrs or 2 completions. This course is progress graded (S/U).

7694 Interprofessional Care for the Underserved Patient G 2

A longitudinal course involving masters of social work, medicine, and pharmacy students in which teams of students will assume longitudinal care of under served patients at the Columbus Free Clinic. This course will help students develop practical competency in the interprofessional delivery of patient-centered longitudinal care, with emphasis on collaborative communication and problem solving. Prereq: Enrollment in the College of medicine, pharmacy, or masters of social work. This course is graded S/U. Cross-listed in Phr.

7700.04 Interprofessional Practicum in Clinical Care: Aging G M 2 - 3

Students experience the breadth, scope, and importance of clinical gerontology in an interdisciplinary team setting through leadership and perspectives of academic and community health and social service providers. This course is graded S/U.

7711 From the Page to the Bedside: Literature for Physicians M 1

Study of literary works that engage with issues of illness, treatment, and medical ethics. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

7762 Clinical Foundations I M 0 - 22

Study of human development, biology, pathophysiology and behavior in a patient-oriented organ-system interdisciplinary manner. Developmental acquisition of the knowledge, skills and attitudes for an effective patient centered clinical encounter. Prereq: Enrollment in College of Medicine. Repeatable to a maximum of 6 completions. This course is progress graded (S/U).

7763 Clinical Foundations II M 2 - 20

Study of human development, biology, pathophysiology and behavior in a patient-oriented organ-system interdisciplinary manner. Developmental acquisition of the knowledge, skills and attitudes for an effective patient centered clinical encounter. Prereq: Enrollment in College of Medicine. Repeatable to a maximum of 6 completions. This course is progress graded (S/U).

7790 Introduction to Applied Gerontology G M 2

Provides a foundation for the further study of aging and development of improved aging services. Physiological, cognitive, and social dimensions of aging are considered. Prereq: Not open to students with credit for 790. This course is graded S/U.

7795 Issues and Trends in Aging G M 2

Study of national, state and local policy issues related to the older population. Problem-based approach is used to assess impact on current and future practices. Prereq: Not open to students with credit for 795. This course is graded S/U.

8764 Clinical Applications M 3 - 20

Foundational and clinical instruction in family medicine, internal medicine, neurology, obstetrics and gynecology, pediatrics, psychiatry, and surgery. Experiential learning in the inpatient, outpatient and community setting. Prereq: Enrollment in College of Medicine. Repeatable to a maximum of 6 completions. This course is progress graded (S/U).

8864 Advanced Clinical Management M 3 - 20

Development of the knowledge, skills, attitudes and behaviors that are required in rapid management and chronic care scenarios. Focus on team communications in life threatening situations and in coordination of care. Prereq: Enrollment in College of Medicine. Repeatable to a maximum of 6 completions. This course is progress graded (S/U).

Medieval and Renaissance Studies

2211 Medieval Kyoto: Portraits and Landscapes U 3

Exploration of cultural, political and economic life in Kyoto, Japan from ca. 900-1467 with emphasis on role of imperial court and rising warrior class. Taught in English. GE culture and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2215 Gothic Paris: 1100-1300 U 3

The arts, architecture, poetry, history, music, theology, food, and fashion of Paris in 1100-1300, the age of Gothic cathedrals and the birth of the university. GE culture and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2610 Science and Technology in Medieval and Renaissance Culture U 3

The history of science in the medieval and early modern world, including medicine, alchemy, optics, map-making, city-planning, and technology through images, texts, and material culture. GE cultures and ideas course. GE foundation historical and cultural studies course.

2618 Travel and Exploration U 3

Intercultural contact between Europe (Spain, Portugal, and other nations) and the 'New Worlds' is explored through early modern narratives of travel, conquest, shipwrecks, and captivity. Prereq: Not open to students with credit for Medieval 218. GE culture and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2666 Magic and Witchcraft in the Middle Ages and Renaissance U 3

A study of the history of witchcraft and magic from 400 to 1700 C.E. within sociological, religious and intellectual contexts. Prereq: Not open to students with credit for Medieval 240. GE culture and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2888 Holy Heroes: Saints' Lives U 3

Study of popular medieval narrative genre in its cultural context; development of ideals of sanctity in the lives of martyrs, confessors, holy fools, and ascetics. GE lit course. GE foundation lit, vis and performing arts course.

3194 Group Studies U 3

Topic varies; special subjects not covered by regular courses. Repeatable to a maximum of 9 cr hrs.

3217 Shakespeare's London U 3

A study of the history, society, and culture of London in the age of Shakespeare and the Tudors and Stuarts from the Protestant Reformation to the Great Fire (1666). Prereq: Not open to students with credit for Medieval 2217. GE culture and ideas and diversity global studies course. GE theme lived environments course.

4193 Individual Studies U 1 - 3

Students may register for individual directed study under this number for work not normally offered in courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.

4504 The Arthurian Legends U 3

The medieval tales of King Arthur's court and the Knights of the Round Table in history, myth, literature, art, and music. Prereq: 6 cr hrs in literature.

4998 Undergraduate Research U 1 - 4

Independent study in Medieval and Renaissance culture and civilization. Prereq: 6 cr hrs in Medieval and Renaissance Studies at the 2000 level, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4998H Honors Research U 1 - 4

Independent study in Medieval and Renaissance culture and civilization. Prereq: Honors standing, and 6 cr hrs in Medieval and Renaissance Studies at the 2000 level, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4999 Research for Thesis U 1 - 4

Independent study in Medieval and Renaissance culture and civilization. Prereq: 6 cr hrs in Medieval and Renaissance Studies taken at the 2000 level, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4999H Honors Thesis Research U 1 - 4

Independent study in Medieval and Renaissance culture and civilization leading to the completion of an undergraduate thesis. Prereq: Honors standing, 6 cr hrs in Medieval and Renaissance Studies at the 2000 level, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

5194 Group Studies U G 3

Interdisciplinary group studies of selected topics in Medieval and Renaissance culture and civilization. Prereq: 6 cr hrs in MedRen at 2000 level or above. Repeatable to a maximum of 9 cr hrs.

5610 Manuscript Studies U G 3

An examination of the development of Latin book production from late antiquity to the Renaissance in the cultural context of the Middle Ages. Prereq: Jr, Sr, or Grad standing. Not open to students with credit for Medieval 610.

5611 History of the Book Studies U G 3

A study of the construction and transmission of books during the era of the hand press (c.1450-1800). Prereq: Jr, Sr, or Grad standing, or permission of instructor. Not open to students with credit for Medieval 611.

5631 Survey of Latin Literature: Medieval and Renaissance U G 3

Survey of selected authors representative of the Medieval and Renaissance periods of Latin literature with discussion of historical background and critical approaches. Prereq: Latin 1103, or equiv. Not open to students with credit for Medieval 631.

5695 Advanced Seminar in Medieval and Renaissance Studies U G 3

Interdisciplinary group studies of selected topics in Medieval and Renaissance culture and civilization, with a focus on research and writing skills. Capstone for MedRen majors. Prereq: 6 credit hours in MedRen at the 2000 level or above. Repeatable to a maximum of 9 cr hrs.

7899 Medieval and Renaissance Colloquia G 1

Graduate students completing the CMRS Graduate Certificate and GIS participate in Medieval and Renaissance lecture series events, film series, and discussions with visiting faculty. Prereq: Grad standing. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

8193 Individual Studies G 1 - 3

Students may register for individual directed study under this number for work not normally offered in courses. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

Microbial Infection and Immunity

Microbial Infection and Immunity 307

4998 Undergraduate Research in Microbial Infection and Immunity U 1 - 5

This course provides an opportunity for individualized study in the fields microbial infection and immunity. This research-focused course will allow students the opportunity to participate in a research environment under the supervision of one of the department's faculty members. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

4998H Undergraduate Research in Microbial Infection and Immunity U 1 - 5

This course provides an opportunity for individualized study in the fields microbial infection and immunity. This research-focused course will allow students the opportunity to participate in a research environment under the supervision of one of the department's faculty members. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

4999 Undergraduate Research in Microbial Infection and Immunity - Thesis U 1 - 5

This course provides an opportunity for individualized study in the fields microbial infection and immunity. This research-focused course will allow students the opportunity to participate in a research environment under the supervision of one of the department's faculty members. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

4999H Honors Undergraduate Research in Microbial Infection and Immunity - Thesis U 1 - 5

This course provides an opportunity for individualized study in the fields microbial infection and immunity. This research-focused course will allow students the opportunity to participate in a research environment under the supervision of one of the department's faculty members. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

5100 Current Topics in Virus-Host Interactions U G 1

Weekly members of the Viruses and Emerging Pathogens thematic area of the OSU Infectious Disease Institute will present a seminar on their cutting-edge virology research followed by a discussion. Topics will include basic virology, antiviral immunity, vaccines, viral pathogenesis, and virus discovery. Prereq: Micrbio 3704 or 5149, or permission of instructor. Repeatable to a maximum of 3 cr hrs.

5500 Departmental Seminar - Recent Discoveries in Immunology and Microbial Pathogenesis U G 1

The Department of Microbial Infection and Immunity Seminar Series will host nationally and internationally recognized speakers on a biweekly basis throughout the semester. This course will educate students in how to prepare for and appreciate these seminars through submission of written-format summary statements. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

5600 Pathobiology of Cystic Fibrosis U G 3

The course will involve a combination of lecture presentations from the Instructors followed by student presentations and critical discussion of research papers that represent classic and recent advances in CF pathophysiology/pathobiology aligned with the lecture topic. Course open to graduate and advanced undergraduate students. Prereq: Jr standing or above.

6600 Pathobiology of Cystic Fibrosis G 3

The course will involve a combination of lecture presentations from the Instructors followed by student presentations and critical discussion of research papers that represent classic and recent advances in CF pathophysiology/pathobiology aligned with the lecture topic. Prereq: Grad standing.

7010 Cellular and Molecular Immunology G 3

Cellular and molecular mechanisms of immune response, cell recognition and communication, molecular biology of cell recognition structures, cytokines, and effector mechanisms. Prereq: Grad standing, or permission of instructor. Cross-listed in Micrbio.

7050 Laboratory Scientific and Management Skills G 2

The course will prepare students in the basic fundamentals of modern laboratory research skills necessary for safe and productive integration into a modern research laboratory. The course will be taught in a modular format by program faculty using a combination of lecture-based and hands-on modalities. Prereq: Bachelor's degree in the biological sciences, or permission of instructor.

7240 Molecular Pathogenesis G 3

In-depth presentation and discussion of the molecular and cellular mechanisms of pathogenesis, emphasizing current research in the field. Prereq: Grad standing, or permission of instructor.

7400 Current Topics in Virus-Host Interactions G 1

Weekly members of the Viruses and Emerging Pathogens thematic area of the OSU Infectious Disease Institute will present a seminar on their cutting-edge virology research followed by a discussion. Topics will include basic virology, antiviral immunity, vaccines, viral pathogenesis, and virus discovery. Prereq: BSGP 7000 or equiv., or permission of instructor. Repeatable to a maximum of 3 cr hrs.

7450 Select Topics in Microbial Pathogenesis G 2

This course will provide an opportunity to read and critique classical and current literature in biomedical science related to host-pathogen interactions. Topic areas will be chosen for discussion using classical and state of the art techniques for the investigation of pathogens in various experimental and natural hosts and organ systems. Repeatable to a maximum of 4 cr hrs or 2 completions.

7452 Microbial Pathogenesis Journal Club G 2

Weekly, one student will present a current paper from the literature that represents some aspect of Host-Pathogen interactions. The presentation will include background and figures from respected top-tier journals. Prior to class, all students turn in summary of manuscript and two questions. Class grades determined by presentation evaluation, written summary of manuscript and participation. Prereq: BSGP 7000, or Micrbio 6010.

7500 Departmental Seminar - Recent Discoveries in Immunology and Microbial Pathogenesis G 1

The Department of Microbial Infection and Immunity Seminar Series will host nationally and internationally recognized speakers on a biweekly basis throughout the semester. This course will educate students in how to prepare for and appreciate these seminars through submission of written-format summary statements. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

7930 Research Rotations in the Immunology and Immunotherapeutics Graduate Program G 1 - 8

This research-focused course will allow students the opportunity to participate in a research environment under the supervision of one of the department's faculty members. A research project will be assigned by a faculty member to meet the individual student's educational goals. Prereq: Enrollment into the Immunology and Immunotherapeutics Graduate Program (I2GP), or permission of instructor. Repeatable to a maximum of 24 cr hours or 3 completions. This course is graded S/U.

7990 Dissertation Writing, MS Program in Immunology and Microbial Pathogenesis G 1

This course will guide students through writing and submission of their dissertation as required for graduation in the Master of Science in Immunology and Microbial Pathogenesis Program. The course will meet weekly to address timing, content, scientific writing style, formatting, content topics, and progress updates. Prereq: Second-year graduate students enrolled in the Master of Science in Immunology and Microbial Pathogenesis Program. This course is graded S/U.

7998 Graduate Research in Microbial Infection and Immunity G 1 - 8

This course provides an opportunity for individualized study in the fields microbial infection and immunity. This research-focused course will allow students the opportunity to participate in a research environment under the supervision of one of the department's faculty members. Prereq: Permission of instructor. Repeatable to a maximum of 72 cr hrs or 9 completions. This course is graded S/U.

8010 Selected Topics in Advanced Immunology G 3

Using didactic teaching and in-class discussion of selected research manuscripts, this course provides students with an understanding of advanced immunological concepts and how they relate to various diseases. This course provides knowledge beyond the general immune mechanisms, as learned in MEDMCIM 7010, to understand the plasticity and specificity of immune responses in health and diseases. Prereq: 7010, or permission of course director.

8998 Dissertation Research in the Immunology and Immunotherapeutics Graduate Program (pre-candidacy) G 1 - 8

This research-focused course will allow students the opportunity to conduct dissertation research under the supervision of one of the I2GP faculty members. A research project will be agreed upon by the I2GP faculty advisor and student. Prereq: Enrollment into the Immunology and Immunotherapeutics Graduate Program (I2GP), or permission of instructor. Repeatable to a maximum of 70 cr hrs or 21 completions. This course is graded S/U.

8999 Dissertation Research in the Immunology and Immunotherapeutics Graduate Program G 1 - 8

This research-focused course will allow students the opportunity to conduct dissertation research under the supervision of one of the I2GP faculty members. A research project will be agreed upon by the I2GP faculty advisor and student. Prereq: Enrollment into the Immunology and Immunotherapeutics Graduate Program (I2GP), or permission of instructor. Repeatable to a maximum of 70 cr hrs or 21 completions. This course is graded S/U.

Microbiology

2000 Introduction to Microbiology Research U 1½

This course introduces undergraduate students to the process of microbiology research and familiarizes students with ongoing Microbiology Research at The Ohio State University. Prereq: Biology 1113, 1113H, or equiv. This course is graded S/U.

2100 Wild Yeast: Isolation to Fermentation U 3

An introduction to yeast biology and microbiological techniques used in fermentation. Students will isolate an unknown yeast from the environment and characterize the growth behavior of the wild strains; use molecular biology and bioinformatics to determine the yeast species they have isolated; use the wild yeast to prepare a fermentation and characterize the finished 'wild' ferment. Prereq: Biology 1110 or 1113, and Chem 1110, 1210, or 1610; or permission of instructor.

308 Microbiology

3194	Group Studies	U	1 - 3		
Study of selected topics in microbial and cellular biology. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U					
3704	HIV: From Microbiology to Macrohistory	U	4		
This course is an interdisciplinary exploration of HIV/AIDS, tracing the evolution of the virus at both the molecular level and within its global historical context. This course is team-taught by a virologist and a historian. Prereq: Not open to students with credit for History 3704. GE theme origins and evolution course. Cross-listed in History.					
3798.05	HIV in Context: East Africa	U	4		
This course is an interdisciplinary exploration of the real world impact of- and response to HIV/AIDS. Prereq: English 1110.xx, or permission of instructor. Not open to students with credit for History 3798.05. GE historical study and education abroad course. Cross-listed in History.					
4000.01	Basic and Practical Microbiology	U	4		
Provides an understanding of microorganisms and their interaction with the human experience. Prereq: 3 cr hrs in Biology. Not open to students with credit for 4000 or 4000.02. GE nat sci bio course. GE foundation natural sci course.					
4000.02	Basic and Practical Microbiology	U	4		
Provides an understanding of microorganisms and their interaction with the human experience. Online/in-person hybrid version of MicrBio 4000.01. Prereq: 3 cr hrs in Biology. Not open to students with credit for 4000 or 4000.01. GE nat sci bio course. GE foundation natural sci course.					
4010	Foundations of Microbiology and Human Health	U	3		
This human health focused class covers microbial metabolism and diversity, microbial genetics, and anti-microbial approaches. The impact of microbes on human health is explored through discussions about antibiotic resistant bacteria, pathogen emergence and re-emergence, host-microbe interactions, microbiome, immune responses, pathogenesis, vaccines, and epidemiology. Prereq: 3 credit hours in college-level Biology. Not open to students with credit for 4000.					
4100	General Microbiology	U	5		
Fundamental principles of microbiology and the characteristics of microorganisms with emphasis on their structure, molecular biology, growth, classification, physiology, ecology, biotechnology, ecology, and applied microbiology. Prereq: Biology 1113, or 1113H, and Chem 1220.					
4110	Microbial Pathogenesis and Immunobiology	U	3		
Provides an overview of microbe-host interactions with an emphasis on virulence mechanisms of bacterial pathogens, host infection routes, immune recognition of microbes, and the cellular and molecular effectors of the host immune system. Prereq: 4000 (509) or 4100 (520). Not open to students with credit for MicrBio 524.01.					
4120	Microbial Physiology and Diversity	U	3		
Principles of microbial growth, metabolism, microbial structure and function, and regulation of microbial metabolism. Prereq: 4100. Prereq or concur: Biochem 4511.					
4130	Microbial Genetics	U	3		
Structure, maintenance, expression, and exchange of genetic materials in microbial cells. Prereq: 4100, MolGen 4500, or 4606.					
4140	Molecular Microbiology Laboratory	U	3		
Advanced laboratory covering structure, maintenance, expression and exchange of genetic materials in microbial cells and methods in immunobiology. Prereq or concur: MicrBio 4130 (MicrBio 581.01). Not open to students with credit for MicrBio 581.02.					
4150	Immunobiology Laboratory	U	3		
This course will provide an introduction to the experimental approaches and laboratory methods commonly used in Immunology research. Topic areas include the purification, characterization and applications of antibodies, the characterization and responses of cells and organs of the immune system, and cell culture techniques for the use of eukaryotic cells in immunology research. Prereq: 4110, or 5122, or permission of the Instructor.					
4193	Individual Studies	U	1 - 3		
Study of selected topics in microbial and cellular biology. Outlined by instructor to meet individual student's needs. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.					
4194	Group Studies	U	1 - 3		
Study of selected topics in microbial and cellular biology. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.					
4591S	DNA Finger Printing Workshops	U	1		
A service learning course whereby undergraduates mentor high school students in molecular biology workshops. Undergraduates present workshops in Columbus Public Schools. Sp Sem. Prereq: MolGen 4500 (500) or 4606 (606). Repeatable to a maximum of 3 cr hrs. This course is graded S/U. Cross-listed in MolGen and Biochem.					
4797	Study at a Foreign Institution	U	1 - 18		
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of department. Repeatable to a maximum of 36 cr hrs or 2 completions. This course is progress graded (S/U).					
4798.01	Study Tour at a Domestic Institution	U	1 - 18		
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of department. Repeatable to a maximum of 36 cr hrs or 2 completions. This course is progress graded (S/U).					
4798.02	Study Tour at a Foreign Institution	U	1 - 18		
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of department. Repeatable to a maximum of 36 cr hrs or 2 completions. This course is progress graded (S/U).					
4998	Undergraduate Research in Microbiology	U	1 - 5		
Laboratory and bioinformatics based research in all areas of microbiology. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 8 completions. This course is graded S/U.					
4998H	Honors Research in Microbiology	U	1 - 5		
Laboratory and bioinformatics based research in all areas of microbiology. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 8 completions. This course is graded S/U.					
4999	Undergraduate Research in Microbiology-Thesis	U	1 - 5		
Laboratory and bioinformatics based research in all areas of microbiology. Thesis. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U.					
4999H	Honors Research in Microbiology-Thesis	U	1 - 5		
Laboratory and bioinformatics based research culminating in an Honors thesis. Prereq: Honors standing, and Jr or Sr standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U.					
5122	Immunology	U G	3		
Cellular and molecular properties of the immune system. Prereq: 4000 or 4110.					
5129	Cellular and Molecular Biology of Pathogenic Eukaryotes	U G	3		
Cellular biology and molecular aspects of parasitism. Prereq: 4100, or permission of instructor. Not open to students with credit for MicrBio 629.					
5147	Eukaryotic Pathogens	U G	3		
Presentations will cover the medically important fungal and parasite pathogens and the virulence mechanisms employed at the host-pathogen interaction to overcome host defenses. Current and potential therapeutic strategies will also be discussed. Prereq: 4100 (520), or permission of instructor. Not open to students with credit for MicrBio 647.					
5149	Introductory Virology	U G	3		
Basic principles of virology with discussion of structures; virus-host cell interactions, detection, production, and control; animal bacterial, insect, and plant viruses used as examples. Prereq: 4100 (520). Not open to students with credit for MicrBio 649.					
5155	Environmental Microbiology	U G	3		
The role of microorganisms and underlying biological principles in elemental cycles and degradation of natural and man-made compounds. Prereq: MicrBio 4000 (MicrBio 509) or 4100 (520). Not open to students with credit for 665.					
5161	Introduction to Computational Genomics	U G	3		
Application of computational tools to the analysis of microbial genomes and their gene products. Recommended background in basic molecular biology, genetics or biochemistry.					
5270	Antibiotics and Microbial Natural Products	U G	3		
Microorganisms are responsible for producing a vast array of chemically diverse natural product small molecules. The unique biological and chemical properties of many of these small molecules have afforded many valuable applications throughout medicine, agriculture, and biotechnology. Here, we cover the biology behind the chemistry of these molecules and their role in human medicine. Prereq: A grade of C- or above in 4120, Biochem 5614, or Phr 4000; or Grad standing; or permission of instructor. Not open to students with credit for Phr 5270. Cross-listed in Phr.					
5536	Food Microbiology Lecture	U G	3		
Microorganisms in relation to the production, processing, and handling of food with emphasis on food transmitted pathogens and minimizing public health risks. Prereq: 4000 (509), 4100 (520), or permission of instructor. Not open to students with credit for MicrBio 636.01 or FDSCTE 636.01. Cross-listed in FDSCTE 5536.					
5546	Food Microbiology Laboratory	U G	3		
Laboratory training for determining the microbiological safety and quality of food with emphasis on handling pathogens and observing analyst's safety. Prereq: 5536 (636.01) or FdScTe 5536 (636.01). Not open to students with credit for 636.02 or FdScTe 636.02. Cross-listed in FdScTe 5546.					
6010	Principles of Microbiology	G	2		
Principles of Microbiology: research practices, conduct and expectations for graduate students, and an introduction to microbiology through landmark papers in the field. Prereq: Grad standing, or permission of instructor.					
6020	Microbial Physiology and Biochemistry	G	3		
Principles of microbial growth, metabolism, microbial structure and function, regulation of microbial metabolism and an introduction to the diversity of microorganisms. Prereq: Grad standing, or permission of instructor. Not open to students with credit for MicrBio 661 or 720.					

6030	Scientific Grant Proposals	G	1
Development of scientific proposals is an essential skill for scientific researchers. This course introduces students to the general structure and essential elements of research proposals. Students will develop a research proposal based on their potential dissertation work and receive individualized feedback. The course is only intended for students in Microbiology graduate program. Prereq: Student must be in the Department of Microbiology PhD Program. This course is graded S/U.			
6080	Advanced Microbial Genetics	G	3
Molecular mechanisms of gene regulation and gene transfer in prokaryotes. Prereq: 4130, or permission of instructor. Not open to students with credit for MicrBiol 680.			
6155	Topics in Microbiome Sciences	G	3
This 'Topics in Microbiome Sciences' course seeks to provide foundational knowledge on select topics relevant for studying microbes in an ecosystem context for environments ranging from the oceans and soils to the human and bioreactors.			
6193	Individual Studies	G	1 - 5
Topics in Microbiology outlined by instructor to meet individual student's needs. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.			
6789	Research Principles and Techniques in Microbiology	G	1 - 8
Research principles and techniques in microbiology for MS and PhD students in microbiology: laboratory rotations. Prereq: Permission of instructor. Repeatable to a maximum of 25 cr hrs or 5 completions. This course is graded S/U.			
6790	Scientific Writing	G	2
A successful researcher is someone who knows both how to do their science, and also how to effectively communicate their findings through the written and spoken word. The purpose of this course is to introduce students to the processes involved in professional or scholarly publication. Prereq: Permission of instructor. Not open to students with credit for Chem 6790. Cross-listed in Chem.			
6797	Study at a Foreign Institution	G	1 - 18
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of department. Repeatable to a maximum of 36 cr hrs or 2 completions. This course is progress graded (S/U).			
6798.01	Study Tour at a Domestic Institution	G	1 - 18
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of department. Repeatable to a maximum of 36 cr hrs or 2 completions. This course is progress graded (S/U).			
6798.02	Study Tour at a Foreign Institution	G	1 - 18
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of department. Repeatable to a maximum of 36 cr hrs or 2 completions. This course is progress graded (S/U).			
7193	Individual Studies	G	1 - 5
Enrollment in non-thesis master's program and written permission of instructor. Not open to thesis MS candidates or PhD candidates. Outlined by instructor to meet individual student's needs. Prereq: Permission of instructor. Not open to Plan A thesis MS or PhD candidates. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.			
7536	Advanced Food Microbiology	G	2
This advanced food microbiology course is designed to help students to build a comprehensive understanding about food-borne microorganisms and gut microbiota and their impact on host health through studying their interactions with the environment and with the host. Prereq: Grad standing, or permission of instructor with approval from the Graduate School. Not open to students with credit for FdScTe 7536. Cross-listed in FdScTe.			
7600	First Year Student Orientation	G	1
Orientation for first-year students in Microbiology and partner graduate programs; lectures on topics important for successful graduate experience; training in presenting scientific work; training in research ethics. Prereq: Not open to students with credit for OSBP 7600 (760), MCDBio 7600, MolGen 7600, or Biophys 7600. This course is graded S/U. Cross-listed in Biophys, MCDBio, MolGen, and OSBP.			
7719	Microbiome in Health and Disease	G	3
This course is designed to introduce students to host-associated microbial communities (specifically human and animal hosts) and their roles in host health and disease. Prereq: Not open to students with credit for VetPrev 7719. Cross-listed in VetPrev.			
7899	Microbiology Colloquium	G	1
Microbiology Colloquium. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
7998	Research in Microbiology	G	1 - 8
Research in microbiology for graduate students prior to completing the Candidacy Examination. Prereq: Permission of instructor. Not open to students who have passed the Candidacy Examination. Repeatable to a maximum of 60 cr hrs or 12 completions. This course is graded S/U.			
7999	Research in Microbiology MS Thesis	G	1 - 8
Research in Microbiology toward completion of a MS thesis. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 3 completions. This course is graded S/U.			

8050	The RNA World	G	2
Evolution, structure and function of RNA with topics including RNA catalysis, RNA editing and modification, ribosomes, ribozymes, tRNA, telomerase, tmRNA, and alternative translation strategies. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 850.			
8161	Microbiome Informatics	G	3
Microbes are major players across diverse ecosystems including humans, soils, and the oceans. Through concept-introducing lectures, hands-on practical exercises and a semester-long group research project, this course will introduce the student to modern approaches for interpreting sequence datasets to improve understanding of microbes and their viruses in complex communities.			
8193	Individual Studies	G	1 - 5
Selected topics in microbiology outlined by instructor to meet individual student's needs. Prereq: Permission of instructor. Not open to MS candidates. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.			
8194	Group Studies	G	1 - 5
Group work on special topics in microbial or cellular biology. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.			
8999	Seminar in Microbiology	G	1
Seminar in Microbiology. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
8999	Research in Microbiology	G	1 - 8
Research for doctoral dissertation only. Prereq: Permission of instructor. Repeatable. This course is graded S/U.			

Military Science

1100.01	Boot Camp Style Physical Fitness Training	U	1
Introduction to U.S. Army "Boot Camp" style physical fitness training. Teamwork and motivation combine with U.S. Army instructors to generate tough, non-nonsense, non-stop mental and physical training. Au, Sp Sems. Prereq: Students must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
1100.02	Basic Mountaineering Course	U	1
Training in the fundamental knowledge and skills required to successfully conduct basic U.S. Army mountaineering and rappelling. Students must sign waivers provided by the OSU Area Recreation Center (ARC) and the U.S. Army Cadet Command. Au, Sp Sems. Prereq: Students must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, students must sign waivers provided by the OSU Area Recreation Center (ARC) and the U.S. Army Cadet Command. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
1101	Introduction to the Army and Critical Thinking	U	1
Introduction to the personal challenges and competencies that are critical for effective leadership. Students learn how developing time and stress management skills, and physical fitness relate to leadership and the Army Profession. No military obligation is required. This course is open to all OSU students. Prereq: All Cadets enrolled in a Military Science course must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity including: marching, laboratory, and field training exercises.			
1102	Introduction to the Profession of Arms	U	1
The organization and branches of the Army, basic military skills, and fundamentals of leadership. Students explore dimensions of leadership values, attributes, skills, and actions in the context of Squad level tactics. No military obligation is required. This course is open to all OSU students. Prereq: All Cadets enrolled in a Military Science course must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity including: marching, laboratory, and field training.			
2001	Leadership and Decision Making	U	2
This course is designed to develop individual leadership skills and inspire self-confidence through experiential learning activities, using critical reasoning and problem solving skills, while applying communication and conflict resolution skills. Prereq: All Cadets enrolled in Military Science courses must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity including: physical fitness training, laboratory, and field exercise training.			
2002	Army Doctrine and Team Development	U	2
The course places emphasis on teamwork in developing effective leadership skills, self confidence, critical reasoning, problem solving skills, and applying communication and conflict resolution skills during training exercises. Sp Sem. Prereq: All students are eligible for the lecture portion of Military Science courses, however, students who wish to participate in any Army ROTC physical activity including: physical fitness training, laboratory, and field training exercise, must have a physician complete a Department of the Army Form 345-R, Medical Fitness Statement prior to participating in the physically demanding portions.			

310 Military Science

3001 Training Management and the Warfighting Functions U 3

This is an academically challenging course where students will study, practice, and apply the fundamentals of Army leadership, Officership, Army values and ethics, personal development, and small unit tactics at the team and squad level. Prereq or concur: 2002, or permission of instructor.

3002 Applied Leadership in Small Unit Operations U 3

Emphasis on leadership, planning, coordinating, navigating, motivating and leading a team or squad in execution of a tactical mission during a classroom Practical Exercise, a Leadership Lab, or a Situational Training Exercise in a field environment. Prereq: 3001, or permission of instructor. All Cadets enrolled in Military Science course must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity including: marching, laboratory, and field exercise training.

4001 The Army Officer U 3

Practical application of adaptive leadership that transitions the focus of student learning from being trained, mentored and evaluated as an MS III Cadet to learning how to train, mentor and evaluate underclass Cadets. Prereq: 3002, or permission of chairman. All Cadets enrolled in a Military Science course must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity including: marching, laboratory, and field training exercises.

4002 Company Grade Leadership U 3

Exploration of the dynamics of leading in the complex situations of current military operations. Students will examine the differences in customs, military law, principles of war, and rules of engagement in the face of international terrorism. Prereq: 4001, or permission of chairman. All Cadets enrolled in a Military Science course must have a physician complete a Department of the Army DA Form 345-R, Medical Fitness Statement for Enrollment in Basic Course, Senior ROTC, in order to participate in any Army ROTC physical activity including: physical training, laboratory and field training exercises.

4193.01 Military Science Individual Studies U 1

This course is for Army ROTC Scholarship Cadets who have completed all Military Science courses required for commissioning but who still need to enroll in other university courses for graduation. Cadets must confirm with the department Scholarships and Admissions Officer that they are designated as an MS 5 Cadet and will continue to receive their Army Scholarship. Prereq: 4002, and permission of instructor. Not open to students with credit for 4193. This course is graded S/U.

4193.02 Cadet Advance Camp U 1

This is a one credit-hour course to prepare Cadets for Cadet Advance Camp. Course is not repeatable. Prereq or concur: 3001.

4193.03 Review of Army Literature U 1

Cadets will study a topic based on the recommended reading list from U.S. Army Cadet Command. Cadets also have the option of choosing an article from a recent journal of The US Army War College Quarterly-Parameters. The journal can be downloaded from the web. Selected readings from Cadet Command or Parameters must be reviewed with the instructor. A term paper is due the week of ROTC Final exams. Prereq: 4002, and permission of instructor. This course is graded S/U.

Modern Greek

1101 Elementary Modern Greek U 5

Introduces students to the language, covering the basic skills of reading, understanding and writing (Autumn semester). Not open to native speakers, or to students with 3 or more years of study in high school, except by permission of instructor. Prereq: Not open to students with credit for 102. This course is available for EM credit. GE for lang course. GE world languages course.

1102 Intermediate Modern Greek I U 5

Offers intensive study of grammar and syntax, with extensive oral and written practice (Spring semester). Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101. Not open to students with credit for 103. This course is available for EM credit. GE for lang course. GE world languages course.

1103 Intermediate Modern Greek II U 3

Continues the 1101-1102 sequence. The course helps students expand their vocabulary and improve their fluency in speaking the language (Autumn only). Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102. Not open to students with credit for 104. This course is available for EM credit. GE for lang course. GE world languages course.

2000 Athens: The Modern City U 3

The history and culture of modern Athens. The way events such as wars and migration transformed the urban fabric of the city. Prereq: Not open to students with credit for 200. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2100 Greece and Beyond: The Crossing of Borders Through Film U 3

Examines cross-cultural encounters between the Greeks and other peoples as depicted in film. GE culture and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2193 Individual Studies U 1-3

Individual studies. Prereq: 1003 or equiv, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

2194 Group Studies U 1-3

Topics in Modern Greek studies. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions.

2240 Travels to Greece: The Search for a Cultural Ideal U 3

Starting in antiquity and ending in today's mass tourism and global migration, the course will introduce students to the phenomenon of travels to Greece. It will examine the reasons people have gone to Greece over the ages and why they have turned Greece into travel ideal. GE cultures and ideas course. GE foundation historical and cultural studies course.

2367 Reading and Writing About Issues in Greek-American Society and Culture U 3

Exploration of representative features of Greek-American culture and reflection on the social diversity in the United States. Prereq: English 110, 111 or equiv. Soph standing. Not open to students with credit for 367. GE writing and comm course: level 2 and diversity soc div in the US course.

2410 Culture of Contemporary Greece U 3

A general survey of socio-cultural trends and issues in modern Greece through close analysis of literature and the other arts. Prereq: Not open to students with credit for 241. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2680 Folklore of Contemporary Greece U 3

A general survey of socio-cultural trends and issues in modern Greece through close examination of ethnographies and other folk expressions. Prereq: Not open to students with credit for 268. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.

3570 CLLC Radio U 3

Student partners prepare 3 target language broadcasts, each 1 hour in length. Broadcasts stream live over the Internet, then become podcast for public use. Student "DJs" conduct target language research on radio broadcast history and at least 15 thematic topics and related music that interests them. Students choose their music and content with approval and guidelines, then produce scripts. Prereq: Permission of instructor.

3710 Modern Greek Literature in Translation U 3

Review of the Modern Greek literary tradition of the last two centuries through representative works and from a theoretical perspective. Prereq: Jr or Sr standing. Not open to students with credit for 371. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

4001 Advanced Modern Greek I U 3

Introduces journalism, literary prose, and media. Students practice discussion and composition. Prereq: 1103. Not open to students with credit for 401.

4002 Advanced Modern Greek II U 3

Completes the language sequence. Students develop translation skills and continue practicing conversation and composition. Prereq: 4001. Not open to students with credit for 402.

4998 Research U 1-3

A program of study arranged for each student. Prereq: Sr standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4998H Honors Research U 1-3

A program of study arranged for each student. Prereq: Honors standing, and Sr standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

4999 Thesis Research U 1-6

A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in Modern Greek. Prereq: Jr standing or above, and enrollment in Modern Greek Major; or permission of instructor or department. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.

4999H Honors Thesis Research U 1-6

A program of study leading to the writing of a thesis and an oral defense that will integrate the experience of earlier courses in Modern Greek. Prereq: Honors standing, Jr standing or above, and enrollment in Modern Greek Major; or permission of instructor or department. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.

5000 Modern Greek Language and Literature U G 3

Literary texts illustrating Greek culture are the basis for discussion and exercises in vocabulary expansion, grammar, syntax, prose composition, and aural comprehension. Au, Sp Sems. Prereq: 4002 (402), or grad standing; or permission of instructor.

5010 Advanced Studies in Modern Greek Language and Culture U G 1-3

Sequel to 4002, giving students the opportunity to continue their studies on an individual and group basis in a structured way with the ultimate goal of achieving bilingualism in speaking, understanding, reading, and writing. Prereq: 4002 with a grade of B or above, and permission of instructor or department chair. Repeatable to a maximum of 27 cr hrs or 9 completions.

5193	Individual Studies	U G	1 - 3
Individual studies. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 3
Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
5797	Study at a Foreign Institution	U G	1 - 9
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of dept chairperson. Repeatable to a maximum of 27 cr hrs or 27 completions. This course is progress graded.			
8999	Dissertation Research in Modern Greek	G	1 - 3
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			

Molecular Genetics

1101	Introduction to Plant Biology: Plants, People, and the Environment	U	5
Plants and their relationships to humans and the biosphere: plant structure and function, growth and development; plant genetics and biotechnology; plant diversity and evolution; practical and economic uses of plants. Prereq: Not open to students with credit for Biology 1101 (101), 1113 (113), 1113H (115H), 1114 (114), 1114H (116H), PlntBio 101, or 102. This course is available for EM credit. GE nat sci bio course. GE foundation natural sci course. NS Admis Cond course.			
2220H	Introduction to Molecular Life Sciences: Research Opportunities and Career Options	U	1
Faculty presentations and facility tours to introduce first- and second- year students to research opportunities in molecular life sciences. Prereq: Honors standing, and Biology 1101 (101), 1113 (113), or 1113H (115H), and 3 additional cr hrs in Biological Sciences; or permission of instructor. Not open to students with credit for 220H.			
2690	Genes and Society	U	3
This team taught, interdisciplinary course (crosslisted as PHILOS 2690) provide science-based exposure to topics in classical and modern genetics but with an emphasis on social and ethical issues. Together we will discuss what genes are, and how they work, and how your genome influences traits and behaviors in the context of social beliefs and philosophy. Prereq: Not open to students with credit for Philos 2690. Cross-listed in Philos.			
3300	General Plant Biology	U	3
Plant structure and function; growth and development; diversity, reproduction, and evolution of lower and flowering plants; people, the biosphere, and plant diversity. Prereq: Biology 1101 (101), 1113 (113), or 1113H (115H). Not open to students with credit for PlntBio 300 or HCS 300. GE nat sci bio course.			
3436	Introductory Plant Physiology	U	3
Topics in plant physiology at the introductory level: diffusion, transpiration, water stress, translocation, photosynthesis, plant growth hormones, tropisms, flowering, and fruit development. Prereq: Biology 1113 (133), 1113H (115H), 1114 (114), 1114H (116H), and 6 cr hrs in Chem. Not open to students with credit for PlntBio 436, 630 or 631.			
4500.01	General Genetics	U	3
The principles of genetics, including molecular genetics, transmission genetics of prokaryotes and eukaryotes, developmental and non-chromosomal genetics, recombinant DNA and genomics, and the genetics and evolution of populations. Taught in person. Prereq: Biology 1101, 1113, or 1113H, and 3 additional sem cr hrs in Biological Sciences. Not open to students with credit for 4500, 4500.02, or 4606.			
4500.02	General Genetics	U	3
The principles of genetics, including molecular genetics, transmission genetics of prokaryotes and eukaryotes, developmental and non-chromosomal genetics, recombinant DNA and genomics, and the genetics and evolution of populations. Taught online. Prereq: Biology 1101, 1113, or 1113H, and 3 additional sem cr hrs in Biological Sciences. Not open to students with credit for 4500, 4500.01, or 4606.			
4500E	General Genetics	U	4
The principles of genetics, including molecular genetics, transmission genetics of prokaryotes and eukaryotes, developmental and non-chromosomal genetics, recombinant DNA and genomics, and the genetics and evolution of populations. Prereq: Biology 1101 (101), 1113 (113), or 1113H (115H), and 3 additional cr hrs in the Biological Sciences. Not open to students with credit for MolGen 4606 (605 and 606), 500, or 500H.			
4501	General Genetics Laboratory	U	1
MolGen 4501 Laboratory complements the MolGen 4500 lecture course. It provides a laboratory experiences in a wide range of molecular genetic laboratory techniques and approaches, and utilization of relevant genetic model systems. Prereq or concur: 4500 or 4500E, or permission of instructor. Not open to students with credit for 5601 (601) or 5602 (602).			
4503	Molecular Genetics Writing Project	U	1
Practice in searching, reading, and analyzing literature in molecular genetics, and in written and oral presentation. Prereq: 4500 or 4606, and permission of instructor.			

4581S	BioEYES: Hands-on STEM learning with zebrafish in Columbus Public Elementary Schools	U	1
A service learning course whereby undergraduates mentor and provide hands on science experiences for upper level elementary school students using the established BioEYES curriculum. Students will be required to participate in off-campus activities; some evening/weekend meetings may be required. Prereq: Biology 1113, and an upper division course in a science or science education department; or permission of instructor. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is graded S/U.			
4591S	DNA Fingerprinting Workshops in Columbus Public Schools	U	1
A service learning course whereby undergraduates mentor high school students in molecular biology workshops. Prereq: MolGen 4500 (500) or 4606 (606). Repeatable to a maximum of 3 cr hrs. This course is graded S/U. Cross-listed in Biochem and MicrBio.			
4606	Molecular Genetics	U	4
A comprehensive genetics course for majors covering transmission and molecular genetics; DNA replication, repair and mutation; transcription and translation; analysis and manipulation of genes at the molecular level. Prereq: Biology 1113 (113), 1113H (115H), 1114 (114), 1114H (116H), or Chem 1210 (121) or equiv, or permission of instructor. Not open to students with credit for 605 or 606; or 4500 (500) unless waived by instructor.			
4700	Molecular Cell and Developmental Biology	U	3
A genetics-based introduction to the structure and function of cells and the early development of invertebrates and vertebrates, with a special focus on the molecular mechanisms underpinning cellular biology and development. Prereq: 4500 or 4606, or permission of instructor. Not open to students with grades of C- or above in 5607 and 5608, except with permission of instructor/major advisor.			
4703	Human Genetics	U	3
This course covers principles of human genetics, including mapping and identification of disease genes, animal models, genetic testing and gene therapy, with a focus on reading the primary scientific literature. Prereq: A grade of C- or above in 4500 or 4606, or permission of instructor. Not open to students with credit for 5733.			
4998	Undergraduate Research in Molecular Genetics	U	1 - 5
Undergraduate research in molecular genetics. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 8 completions. This course is graded S/U.			
4998H	Undergraduate Research in Molecular Genetics	U	1 - 5
Undergraduate research in molecular genetics. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 8 completions. This course is graded S/U.			
4999	Thesis Research in Molecular Genetics	U	1 - 5
A program of reading and research leading to a senior thesis. Prereq: Sr standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U.			
4999H	Thesis Research in Molecular Genetics	U	1 - 5
A program of reading and research leading to a senior honors thesis. Prereq: Honors standing, and Sr standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U.			
5193	Individual Studies	U G	1 - 3
Problem may be selected in the fields of molecular genetics, genomics, cell biology, developmental biology and plant sciences. Prereq: at least 10 credit hours in biological sciences and permission of instructor. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 3
Group study of special topics in the fields of molecular genetics, genomics, cell biology, developmental biology, and plant sciences. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions.			
5300	Cancer Genetics	U G	3
Students will learn about the genetic evolution of human cancer. Specifically, the hallmarks of cellular transformation and tumor progression will be discussed. Students will be introduced to modern approaches aimed at targeting genetic aberrations in cancer cells. Includes hands-on training in the use of online databases of cancer genetics. Prereq: A grade of C- or above in 4606 or 4500; or Grad standing.			
5601	Eukaryotic Molecular Genetics Lab	U G	3 - 4
Current laboratory techniques used in the genetic, cellular, and molecular analyses of yeast, Drosophila, and other model systems. Prereq: 4500 or 4606, or permission of instructor.			
5602	Eukaryotic Cell and Developmental Biology Laboratory	U G	3 - 4
Laboratory course emphasizing techniques and methods central to cell and developmental biology of eukaryotes. Prereq: 4500 or 4606; or permission of instructor.			
5607	Cell Biology	U G	3
Analysis of the structure and function of animal and plant cells and their components, stressing molecular genetic and biochemical approaches. Prereq: 4500 (500), 4500E, or 4606 (606). Not open to students with credit for 607, 607H, 5607E.			

312 Molecular Genetics

5607E	Cell Biology	U G	4
Analysis of the structure and function of animal and plant cells and their components, stressing molecular genetic and biochemical approaches. Embedded Honors includes a recitation that explores cell biology topics from the primary literature. Prereq: 4500 (500) or 4606 (606). Not open to students with credit for 5607 (607) or 5607H (607H).			
5608	Genes and Development	U G	3
Analysis of animal and plant development using modern genetic approaches. Prereq: 4500 (500), 4500E, or 4606 (606). Not open to students with credit for 5608E or 608.			
5608E	Genes and Development	U G	4
Analysis of animal and plant development using modern genetic approaches. Honors Embedded includes a faculty led recitation that explores developmental biology topics from the primary literature. Prereq: Honors standing, and 4500, or 4606, or permission of instructor. Not open to students with credit for 4608.			
5623	Genetics and Genomics	U G	2
A survey and discussion of genomic studies applied to fungal, animal, or plants systems. Prereq: 4500 (500), 4606 (606), 5607 (607), or 5608 (608), or Grad standing. Not open to students with credit for PlntBio 623.			
5630	Plant Physiology	U G	3
Advanced study of plant physiology; regulation of plant growth and development, hormones, and stress physiology. Prereq: 3300, 4500 (500), 4606 (606), PlntBio 300, HCS 300, Biology 1114 (114), 1114H (116H), or permission of instructor. Not open to students with credit for PlntBio 630 or 631.			
5632	Insect Molecular Genetics	U G	2
Structure, genetics, and methodology of insect genes and genomes. Prereq: 4500 (500) or 4606 (606). Not open to students with credit for 632 or Entomol 632.			
5643	Plant Anatomy	U G	3
The structure, function, and development of cells, tissues, and organs of vascular plants. Prereq: 3300, Biology 1114 (114), 1114H (116H), or PlntBio 300, and 10 cr hrs in Life Sciences; or permission of instructor. Not open to students with credit for PlntBio 643			
5645	Quantitative, Population, and Evolutionary Genetics	U G	2
The genetics of populations, including quantitative, population, and evolutionary genetics. Prereq: 4500 (500) or 4606 (606). Not open to students with credit for 640 or EEOB 640.			
5650	Analysis and Interpretation of Biological Data	U G	3
Methods of analyzing biological data including: sampling, descriptive statistics, distributions, analysis of variance, inference, regression, and correlation. Emphasizes practical applications of statistics in the biological sciences. Prereq: Math 1149 or 1150 (150) or equiv, and 10 semester cr hrs at the 3000-level (or 300 level in the quarter system) or above in Agricultural or Biological Sciences. Not open to students with credit for 650.			
5700	Systems of Genetic Analysis	U G	3
Analysis of select fungal, invertebrate, vertebrate, and plant model systems used in modern experimental genetics. Prereq: 4500 (500), 4606 (606), 5607 (607), or 5608 (608), or Grad standing, or permission of instructor. Not open to students with credit for 700.			
5701	DNA Transactions and Gene Regulation	U G	3
Understanding mechanisms of DNA replication, DNA repair and recombination, transcription, translation, regulation of gene expression, and the experimental approaches to these topics. Prereq: 4500, 4606, Biochem 4511, or equiv., and Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for Biochem 5701. Cross-listed in Biochem.			
5705	Advances in Cell Biology	U G	2
An advanced study of selected key areas of research in eukaryotic cell biology. Prereq: A grade of B- or above in 5607, or Grad standing, or permission of instructor.			
5715	Developmental Genetics	U G	2
An advanced study of the regulation of developmentally significant genes and cellular interactions involved in differentiation and pattern formation in invertebrate, vertebrate, and plant model organisms. Prereq: A grade of B- or above in 5608, or Grad standing, or permission of instructor.			
5735	Plant Biochemistry	U G	3
Focus on biochemical processes unique to plants, including photosynthesis, respiration, carbon fixation and carbohydrate metabolic networks, cell wall and lipid synthesis, and nitrogen and sulfur assimilation for macromolecular synthesis. Prereq: Biochem 4511 (511), or equiv. Not open to students with credit for PlntBio 735 or 736. Cross-listed in Biochem.			
5795	Special Topics in Molecular Genetics	U G	1 - 3
Lecture/discussion in a seminar format of publications, current research, or research techniques in the areas of cell biology, development, genetics, genomics, molecular biology, or plant biology. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
5797	Study at a Foreign Institution	U G	1 - 15
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.			

5798	Study Tour: Domestic	U G	1 - 15
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.			
5800	Organelle Biology	U G	2
Structure and function of plastids and mitochondria, apicoplasts and hydrogenosomes. Prereq: 4500 (500), 4500E, or 4606 (606), or permission of instructor. Cross-listed in Micrbio.			
7600	First-Year Student Orientation	G	1
Orientation for first-year students in Molecular Genetics and partner graduate programs; lectures on topics important for successful graduate experience; training in presenting scientific work; training in research ethics. Prereq: Not open to students with credit for OSBP 7600 (760), MCDBio 7600, Biophys 7600, or Micrbio 7600. This course is graded S/U. Cross-listed in OSBP, MCDBio, Biophys, and Micrbio.			
7741	Molecular Virology and Pathogenesis of Viruses	G	5
An integrated study of the molecular mechanisms of virus replication and host-virus relationships that control virus pathogenesis or use as a therapeutic agent. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 770, VetBios 7741 (754), 841, MVIMG 7741 (754), or 841. Cross-listed in VetBios and MVIMG.			
7780	Molecular Genetics Laboratory Rotations	G	3 - 6
Laboratory research procedures, literature readings, and discussions to familiarize the students with specific research areas. Prereq: Grad standing in MolGen. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.			
7807	Gene Expression: Post-Transcriptional Control	G	3
Intensive study of problems in the general area of post-transcriptional control of gene expression. Consists of student presentations and class evaluations of recently published results in these fields. Prereq: 5701 (701) or Biochem 702, and 6 graduate level cr hrs; or permission of instructor. Not open to students with credit for 880.07. Cross-listed in MolBiol and VetBios.			
7890	Molecular Genetics Seminar	G	1
Faculty, graduate students, and outside speakers will participate. Prereq: Grad standing in MolGen. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
7999	Thesis Research	G	1 - 12
Research for Master's Thesis only. Repeatable to a maximum of 60 cr hrs or 12 completions. This course is graded S/U.			
8999	Dissertation Research	G	1 - 12
Research for dissertation purposes only. Repeatable. This course is graded S/U.			

Molecular, Cellular, and Developmental Biology

6193	Individual Studies	G	1 - 3
Individual studies of publications, current research, or research techniques in areas of molecular, cellular, or developmental biology. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
7600	First-Year Student Orientation	G	1
Orientation for first-year students in MCDDB and partner graduate programs, lectures on topics important for successful graduate experience, training in presenting scientific work, and training in research ethics. Prereq: Not open to students with credit for Biophys, MolGen, or Micrbio 7600, or OSBP 7600 (760). This course is graded S/U. Cross-listed in Biophys, MolGen, OSBP, and Micrbio.			
7780	MCDDB Laboratory Rotations	G	3 - 6
Laboratory research procedures, literature readings, and discussions to familiarize students with specific research areas. Prereq: Grad standing in MCDBio. Repeatable to a maximum of 16 cr hrs. This course is graded S/U.			
7890	Seminar in Molecular, Cellular, and Developmental Biology	G	1
Seminar including students, faculty, and outside invited speakers. Prereq: Grad standing in MCDBio. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
7891	Presentation in Molecular, Cellular, and Developmental Biology Seminar	G	1
Seminar including students, faculty, and outside invited speakers. Taken terms the student is presenting. Prereq: Grad standing in MCDBio. Repeatable to a maximum of 6 cr hrs.			
7990	Molecular Life Sciences Seminar Series	G	1
A research seminar course designed to expose doctoral students in the Molecular, Cellular, and Developmental Biology graduate program to cutting-edge research in the molecular and cellular life sciences. Prereq: Grad standing in the MCDBio program. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			

Moving Image Production

2201	Filmmaking Foundation I	U	3
This entry-level course presents moving image production as an artistic, cultural, and multi-modal practice. It focuses on the building blocks of film grammar and offers an introduction to fundamental concepts and tools needed to work in the moving image, grounded in critical and historical context. Students use project-based learning to work independently and collaboratively.			
2202	Filmmaking Foundation II	U	3
This course is second in a sequence to introduce moving image production as an artistic, cultural, and multi-modal practice. It focuses on the building blocks of film grammar and offers an introduction to fundamental concepts and tools needed to work in the moving image, grounded in critical and historical context. Students use project-based learning to work independently and collaboratively. Prereq: 2201.			
2797	Introductory Study at Foreign Institution	U	1 - 6
An opportunity for students to study at a foreign institution and receive Ohio State credit for work completed. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Specific content, location, semester(s) of offering, and prerequisites vary; contact Office of International Affairs for available programs. Prereq: Department permission. Repeatable to a maximum of 15 cr hrs or 5 completions.			
3797	Advanced Study at Foreign Institution	U	1 - 6
An opportunity for students to study at a foreign institution and receive Ohio State credit for work completed. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Specific content, location, semester(s) of offering, and prerequisites vary; contact Office of International Affairs for available programs. Prereq: Department permission. Repeatable to a maximum of 15 cr hrs or 5 completions.			
4191	Moving-Image Production Internship	U	½ - 3
On- and off-campus internships give students the opportunity to gain hands-on experience in an area of academic and professional interest. Permission to enroll is required from a faculty advisor, and the number of credit hours associated with the internship will be determined with the advisor's input. Prereq: Permission of MIP faculty advisor. Repeatable to a maximum of 3 cr hours or 2 completions. This course is graded S/U.			
4200	Cinema Today	U	1
Students to attend a specific set of new films, documentaries, and classics at world-class venues such as the Wexner Center of the Arts and when available, any associated visiting filmmakers' discussions of their work. To synthesize these viewings, students will submit response writings that apply specific elements of film language to answer questions about the films. Prereq: Enrollment in the Moving Image Production Major, or permission of instructor. Repeatable to a maximum of 2 cr hrs.			
4501	Senior Project I	U	3
The first of a two-semester experience in which students develop an iterative pre-production plan and rough cut/draft stage for their individual or collaborative senior project. Students produce a creative work in the areas of animation, documentary, experimental or narrative or combinations of these modes. Group-oriented critiques advance projects to an intermediate stage of development. Prereq: Sr standing, and permission of instructor or department.			
4502	Senior Project II	U	3
The second of a two-semester experience in which students develop their individual or collaborative capstone project to completion. Students produce a creative work in the areas of animation, documentary, experimental or narrative or combinations of these modes. Group-oriented critiques advance projects to an finalized stage of development. A portfolio of creative work is completed. Prereq: 4501.			

Music

1101.01	Beginning Piano I: Group Instruction	U	2
Group instruction for students who have had no previous piano study. Prereq: Not open to students with credit for 101.01, or Music majors. VSP Admis Cond course.			
1101.02	Beginning Voice I - Group Instruction	U	2
Group instruction for students who have had no previous voice study. Prereq: Not open to Music majors. Repeatable to a maximum of 4 cr hrs or 2 completions. VSP Admis Cond course.			
1101.35	Beginning Guitar I - Group Instruction	U	2
Introduction course in guitar for the non-music major. Includes chording, strumming and melodic playing. Prereq: Not open to Music majors. Repeatable to a maximum of 4 cr hrs. VSP Admis Cond course.			
1102.01	Beginning Piano II: Group Instruction	U	2
Intermediate course in piano for the non-music major. Prereq: 1101.01 (101.01). Not open to Music majors. Repeatable to a maximum of 4 cr hrs. VSP Admis Cond course.			
1120	Elementary Music Theory and Aural Training for Non-Majors	U	3
An introduction to the fundamentals of music, music reading, and aural musicianship. Prereq: Enrollment in non-Music major. Not open to students with credit for 1121.			
1121	Elementary Music Theory and Aural Training	U	3
An introduction to the fundamentals of music, music reading, and aural musicianship. Prereq: Not open to students with credit for 121. VSP Admis Cond course.			

2021	Music Theory I for Non-Majors	U	3
Elements of music and musical notation; analytical concepts and terminology; fundamentals of counterpoint and melody; extensive practice through written drill and creative projects. Prereq: Passing of Theory Placement Exam, and permission of instructor. Not open to music majors.			
2022	Music Theory II for Non-Majors	U	3
Principles of diatonic harmony, nonchordal melodic elements, and homophonic phrase structures; extensive practice in part-writing, analysis, and creative application. Prereq: 2021 or 2221, and enrollment in non-Music major.			
2031	The Informed Beginning Pianist	U	3
This course is designed for people with little or no musical background who want to learn how to play piano and gain valuable insights into how piano music has shaped cultural values and norms. GE VPA course. GE foundation lit, vis and performing arts course.			
2032S	Drumming for Wellness	U	4
Students will learn research, theories, skills, and techniques relevant to the use of music in settings in which the focus is to assist in the rehabilitation, treatment, or well-being of people with motor disorders and their caregivers. Course will not count as an elective for music degree programs. GE theme health and well-being course.			
2121	Intensive Music Theory 1	U	5
This course will provide you with a foundation of knowledge and skills to continue developing and advancing your musicianship.			
2200.11	Applied Music (Secondary): Piano	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: 2264.01 or 266.01, and Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.12	Applied Music (Secondary): Jazz Piano	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.21	Applied Music (Secondary): Voice	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.31	Applied Music (Secondary): Violin	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.33	Applied Music (Secondary): Cello	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.34	Applied Music (Secondary): Double Bass	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.36	Applied Music (Secondary): Jazz Bass	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.37	Applied Music - Secondary - Jazz Guitar	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.41	Applied Music - Secondary - Flute	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.42	Applied Music - Secondary - Oboe	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.45	Applied Music - Secondary - Saxophone	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.46	Applied Music - Secondary - Bassoon	U	1 - 2
This course is designed to cover bassoon foundational skills and provide practical knowledge to equip future bassoonists with the tools needed to succeed in the field. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.47	Applied Music - Secondary - Jazz Saxophone	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.53	Applied Music - Secondary - Trombone	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			
2200.54	Applied Music - Secondary - Euphonium	U	1 - 2
Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.			

314 Music

2200.56	Applied Music (Secondary): Jazz Trumpet	U	1 - 2		
	Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.				
2200.57	Applied Music - Secondary - Jazz Trombone	U	1 - 2		
	Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.				
2200.71	Applied Music - Secondary - Percussion	U	1 - 2		
	Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.				
2200.72	Applied Music - Secondary - Jazz Percussion	U	1 - 2		
	Fundamental applied music instruction in areas other than a student's major or principal area. Prereq: Enrollment in Music major. Repeatable to a maximum of 12 cr hrs or 12 completions.				
2201.11	Applied Music - Principal - Piano	U	2		
	Instruction in applied piano to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.12	Applied Music - Principal - Jazz Piano	U	2		
	Instruction in applied jazz piano to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.21	Applied Music - Principal - Voice	U	2		
	Instruction in applied voice to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.31	Applied Music - Principal - Violin	U	2		
	Instruction in applied violin to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.32	Applied Music - Principal - Viola	U	2		
	Instruction in applied viola to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.33	Applied Music - Principal - Cello	U	2		
	Instruction in applied cello to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.34	Applied Music - Principal - Double Bass	U	2		
	Instruction in applied double bass to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.36	Applied Music - Principal - Jazz Bass	U	2		
	Instruction in applied jazz bass to develop musicianship, performance, and knowledge of music literature. Prereq: Enrollment in Music major. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.37	Applied Music - Principal - Jazz Guitar	U	2		
	Instruction in applied jazz guitar to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.41	Applied Music - Principal - Flute	U	2		
	Instruction in applied flute to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.42	Applied Music - Principal - Oboe	U	2		
	Instruction in applied oboe to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.43	Applied Music - Principal - Clarinet	U	2		
	Instruction in applied clarinet to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.45	Applied Music - Principal - Saxophone	U	2		
	Instruction in applied saxophone to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.46	Applied Music - Principal - Bassoon	U	2		
	Instruction in applied bassoon to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.47	Applied Music - Principal - Jazz Saxophone	U	2		
	Instruction in applied jazz saxophone to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.51	Applied Music - Principal - Horn	U	2		
	Instruction in applied horn to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.52	Applied Music - Principal - Trumpet	U	2		
	Instruction in applied trumpet to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.53	Applied Music - Principal - Trombone	U	2		
	Instruction in applied trombone to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.54	Applied Music - Principal - Euphonium	U	2		
	Instruction in applied euphonium to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.55	Applied Music - Principal - Tuba	U	2		
	Instruction in applied tuba to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.56	Applied Music - Principal - Jazz Trumpet	U	2		
	Instruction in applied jazz trumpet to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.57	Applied Music - Principal - Jazz Trombone	U	2		
	Instruction in applied jazz trombone to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.71	Applied Music - Principal - Percussion	U	2		
	Instruction in applied percussion to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.72	Applied Music - Principal - Jazz Percussion	U	2		
	Instruction in applied jazz percussion to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2201.91	Applied Music - Principal - Harp	U	2		
	Instruction in applied harp to develop musicianship, performance, and knowledge of music literature. Prereq: Admission to the School of Music by audition. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.				
2202	Sight-reading for Pianists	U	1		
	Developing tactile and visual skills at the keyboard, ensemble sight-reading duets, two-piano scores, vocal and instrumental accompanying, transposition, and figured bass realization. Prereq: Enrollment in Performance major with specialization in piano. Repeatable to a maximum of 2 cr hrs.				
2203.01	Chorale	U	½ - 2		
	A selected group of mixed voices which performs an extensive repertoire in concerts both on and off campus. Prereq: Admission to the School of Music by audition, and permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VPA Admis Cond course.				
2203.03	University Chorus	U	½ - 2		
	Selected choral works are studied and performed. Prereq: Admission by audition only. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.				
2203.04	Men's Glee Club	U	½ - 2		
	Study and performance of choral literature for men's voices. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. VSP Admis Cond course.				
2203.05	Women's Glee Club	U	½ - 2		
	Study and performance of choral literature for women's voices. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. VSP Admis Cond course.				
2203.08	Statesmen	U	½ - 1		
	Study and performance of small ensemble choral literature for men's voices. Prereq: Admission by audition only. Repeatable to a maximum of 8 cr hrs or 8 completions. VSP Admis Cond course.				

2204.01 University Wind Symphony U ½ - 2
Preparation and performance of traditional and contemporary literature for symphonic band. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. VSP Admis Cond course.

2204.02 University Symphonic Band U ½ - 2
Preparation and performance of traditional and contemporary literature for symphonic band. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.

2204.03 Collegiate Winds U ½ - 2
Preparation and performance of traditional, contemporary, and educational literature for concert band. Prereq: Admission by audition only. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.

2204.04 University Band U ½ - 2
Offers students an opportunity to perform symphonic band literature. Prereq: Prior high school instrumental experience; no formal audition required. Repeatable to a maximum of 16 cr hrs or 8 completions. VSP Admis Cond course.

2205.01 University Marching Band U ½ - 2
The University Marching Band is a selected group of brass and percussion players that performs at football games, rallies, and concerts during Autumn semester. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. VSP Admis Cond course.

2205.02 Athletic Band U ½ - 2
Athletic band provides spirited music for various sporting events (men's and women's basketball, spring football game), as well as several concerts. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 24 cr hrs or 12 completions. VSP Admis Cond course.

2206.01 University Jazz Ensemble U ½ - 2
A select group devoted to arranging, rehearsing, and performing jazz literature with an emphasis on contemporary works. Prereq: Open to all students by audition and/or permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. VSP Admis Cond course.

2206.02 Jazz Lab Ensemble U ½ - 2
An ensemble devoted to the study and performance of music in various styles of jazz. Prereq: Open to students by audition and/or permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. VPA Admis Cond course.

2206.03 Jazz Workshop Ensemble U ½ - 2
An ensemble devoted to the study and performance of music in various jazz, jazz rock, blues, and pop styles. Prereq: Open to students by audition and/or permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. VSP Admis Cond course.

2207.01 University Percussion Ensemble U ½ - 2
A laboratory and performance musical ensemble whose literature consists of original and transcribed works for percussion instruments alone or with percussion as a dominant feature. Prereq: Enrollment in Music major. Repeatable to a maximum of 20 cr hrs or 10 completions. VSP Admis Cond course.

2207.02 Steel Pan Ensemble U ½ - 1
A laboratory and performance experience on authentic steel pans, concentrating on traditional musics of Trinidad, as well as contemporary arrangement. Repeatable to a maximum of 10 cr hrs or 10 completions. VSP Admis Cond course.

2208.01 Small Ensemble: Piano U ½ - 1
Intensive study of ensemble works for piano. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2208.02 Small Ensemble: Voice U ½ - 1
Intensive study of ensemble works for voice. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2208.03 Small Ensemble: Strings U ½ - 1
Intensive study of ensemble works for strings. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2208.04 Small Ensembles: Woodwinds U ½ - 1
Intensive study of ensemble works for woodwinds. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2208.05 Small Ensembles: Brass U ½ - 1
Intensive study of ensemble works for brass. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2208.06 Small Ensembles: Jazz Combos U ½ - 1
Small groups devoted to the study and performance of music in the various jazz combo styles. Prereq: Admission by audition, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

2208.16 Small Ensemble: Gospel Choir U 1
Study and performance of gospel and spiritual choir literature for mixed chorus. Repeatable to a maximum of 10 cr hrs.

2208.20 African Performing Ensemble U ½ - 1
Ensemble dedicated to performing African-derived music. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2208.22 Andean Music Ensemble U ½ - 1
Learning to play and perform music from Bolivia, Peru, Ecuador, Chile, Colombia and Argentina. The course explores various musical genres within the Andean region. Students study techniques and methods for playing Andean instruments and learn to sing in Spanish, Quechua and Aymara. Repeatable to a maximum of 10 cr hrs or 10 completions. Cross-listed in Spanish.

2208.80 Sonic Arts Ensemble U ½ - 1
An ensemble-based course focused on the use of the computer and/or electronic technologies in music performance and music composition, along with the development of new technologies (software and hardware) for sonic arts performance. Prereq: Audition required. Repeatable to a maximum of 10 cr hrs or 10 completions.

2208.99 Small Ensemble: Miscellaneous U ½ - 1
Intensive study of ensemble works for varied ensembles. Prereq: Admission by audition, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. VSP Admis Cond course.

2209 Jazz Improvisation I U 2
Fundamentals of jazz improvisation; seventh chord structures major, minor, pentatonic and blues scales; jazz patterns and phrasing; analysis and improvisation of blues and II-V progressions. Prereq: 2221. Not open to students with credit for 209. This course is available for EM credit.

2215.01 University Symphony Orchestra U ½ - 2
The University Orchestra is an 85-piece orchestra of full instrumentation devoted to the preparation of standard and modern literature. Prereq: Admission by audition. Repeatable to a maximum of 24 cr hrs or 12 completions. VSP Admis Cond course.

2216.11 Applied Music (Non Major): Piano U 2
Course provides fundamental applied piano instruction in piano for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.12 Applied Music (Non Major): Jazz Piano U 2
Course provides fundamental studio instruction in jazz piano for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.21 Applied Music (Non Major): Voice U 2
Course provides fundamental studio instruction in voice for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.31 Applied Music (Non Major): Violin U 2
Course provides fundamental studio instruction in violin for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.32 Applied Music (Non Major): Viola U 2
Course provides fundamental studio instruction in viola for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.33 Applied Music (Non Major): Cello U 2
Course provides fundamental studio instruction in cello for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.34 Applied Music (Non Major): Double Bass U 2
Course provides fundamental studio instruction in double bass for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.36 Applied Music (Non Major): Jazz Bass U 2
Course provides fundamental studio instruction in jazz bass for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.37 Applied Music (Non Major): Jazz Guitar U 2
Course provides fundamental studio instruction in jazz guitar for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.41 Applied Music (Non Major): Flute U 2
Course provides fundamental studio instruction in flute for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

2216.42 Applied Music (Non Major): Oboe U 2
Course provides fundamental studio instruction in oboe for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.

316 Music

2216.43	Applied Music (Non Major): Clarinet	U	2		2232	Jazz Keyboard Harmony	U	2	
	Course provides fundamental studio instruction in clarinet for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					Designed to provide students with piano skills that directly relate to other jazz areas such as composition, arranging, and improvisation. Prereq: 2231 and 2261.01. Not open to students with credit for 232.			
2216.45	Applied Music (Non Major): Saxophone	U	2		2240	Music History I	U	3	
	Course provides fundamental studio instruction in saxophone for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					The development of western art music from ancient times to 1700. Prereq: Music major, or permission of instructor. Not open to students with credit for 240.			
2216.46	Applied Music (Non Major): Bassoon	U	2		2241	Music History II	U	3	
	Course provides fundamental studio instruction in bassoon for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					The development of European and American art music from 1700 to 1900. Prereq: 2240, and Music major, or permission of instructor. Not open to students with credit for 241.			
2216.47	Applied Music (Non Major): Jazz Saxophone	U	2		2242	Music History III	U	3	
	Course provides fundamental studio instruction in jazz saxophone for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					The development of European and American art music in the 20th and 21st centuries. Prereq: 2241, and Music major; or permission of instructor. Not open to students with credit for 242.			
2216.51	Applied Music (Non Major): Horn	U	2		2244	African-American Musical Traditions	U	3	
	Course provides fundamental studio instruction in horn for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					A study of selective genres and styles of music originating primarily in the African-American experience.			
2216.52	Applied Music (Non Major): Trumpet	U	2		2249	European Music Traditions	U	3	
	Course provides fundamental studio instruction in trumpet for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					This is a selective survey of European art music, and Europe-diasporic traditions in other parts of the world from the mid 16th century through the present.			
2216.53	Applied Music (Non Major): Trombone	U	2		2250	Music Cultures of the World	U	3	
	Course provides fundamental studio instruction in trombone for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					A survey of musical cultures outside the Western European tradition of the fine arts. Prereq: Not open to students with credit for 250. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course. VSP Admis Cond course.			
2216.54	Applied Music - Non Major - Euphonium	U	2		2251	The World of Classical Music	U	3	
	Course provides fundamental studio instruction in euphonium for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					An introduction to the world of classical music and to its genres, composers, styles, societies, and historical periods. No music background is required. Prereq: Not open to Music majors. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.			
2216.55	Applied Music - Non Major - Tuba	U	2		2251E	The World of Classical Music	U	3	
	Course provides fundamental studio instruction in tuba for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					An introduction to the world of classical music and to its genres, composers, styles, societies, and historical periods. No music background is required. Music 2251E is an honors embedded course. Prereq: Honors standing or permission of instructor. Not open to students with credit for 251 or Music majors. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course. VSP Admis Cond course.			
2216.56	Applied Music - Non Major - Jazz Trumpet	U	2		2251H	The World of Classical Music	U	3	
	Course provides fundamental studio instruction in jazz trumpet for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					An introduction to the world of classical music and to its genres, composers, styles, societies, and historical periods. No music background is required. Music 2251H is an honors course. Prereq: Honors standing. Not open to students with credit for 251 or Music majors. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course. VSP Admis Cond course.			
2216.57	Applied Music - Non Major - Jazz Trombone	U	2		2252	History of Rock 'n' Roll	U	3	
	Course provides fundamental studio instruction in jazz trombone for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					The history and culture of rock 'n' roll. Prereq: Not open to students with credit for 252. GE VPA course. GE foundation lit, vis and performing arts course.			
2216.71	Applied Music - Non Major - Percussion	U	2		2253	Introduction to Jazz	U	3	
	Course provides fundamental studio instruction in percussion for non-majors and minors. Prereq: Enrollment in Music major, and permission of instructor. Repeatable to a maximum of 16 cr hrs.					A study of the characteristics, styles, structures of jazz, and jazz performers. Prereq: Not open to students with credit for 253 or to Music majors. GE VPA course. GE foundation lit, vis and performing arts course.			
2216.72	Applied Music - Non Major - Jazz Percussion	U	2		2254	Video Game Music	U	3	
	Course provides fundamental studio instruction in jazz percussion for non-majors and minors. Prereq: Permission of instructor. Not open to Music majors. Repeatable to a maximum of 16 cr hrs.					An introduction to the history and function of musical sound in video games. GE VPA course. GE foundation lit, vis and performing arts course.			
2216.91	Applied Music - Non Major - Harp	U	2		2261.01	Keyboard Skills I	U	1	
	Course provides fundamental studio instruction in harp for non-majors and minors. Prereq: Enrollment in Music major, and permission of instructor. Repeatable to a maximum of 16 cr hrs.					Beginning group piano instruction for music majors. Prereq: Music major. Concur: 2221. Not open to keyboard majors or students with credit for 261.01. This course is available for EM credit.			
2221	Music Theory I	U	3		2261.04	Oboe/Bassoon Techniques	U	1	
	Elements of music and musical notation; analytical concepts and terminology; fundamentals of counterpoint and melody; extensive practice through written drill and creative projects. Prereq: Open to Music majors only. This course is available for EM credit.					Pedagogical and performance techniques for oboe and bassoon. Prereq: Music major. Not open to students with credit for 261.46 or 261.42. This course is available for EM credit.			
2222	Music Theory II	U	3		2261.07	Percussion Techniques	U	1	
	Principles of diatonic harmony, nonchordal melodic elements, and homophonic phrase structures; extensive practice in part-writing, analysis, and creative application. Prereq: 2221 or 2021, and enrollment in Music major. This course is available for EM credit.					Percussion instruction for BME majors. Prereq: Music major. Not open to students with credit for 261.07. This course is available for EM credit.			
2224	Aural Training I	U	1		2261.11	Basic Conducting Lab-Instrumental	U	1	
	Training in aural musicianship and music reading; practical application through solfege, dictation and keyboard drill. Prereq: Passing theory placement test. This course is available for EM credit.					Basic conducting skill development emphasizing pulse, rhythm and physical coordination. Prereq: Enrollment in Music major. Not open to students with credit for 261.11. This course is available for EM credit.			
2225	Aural Training II	U	1		2261.12	Basic Conducting Lab-Choral	U	1	
	A continuation of 2224 introducing more challenging diatonic materials. Prereq: 2224, and 2221 or 2221.01. This course is available for EM credit.					Basic choral conducting skill development emphasizing pulse, rhythm and physical coordination. Prereq: Enrollment in Music major. This course is available for EM credit.			
2231	Jazz Theory	U	2		2261.99	Winds, Strings, and Percussion Techniques	U	1	
	The forms and compositional techniques of jazz, including chord progression formulas, chord alteration, lead-sheet paraphrasing, counter melody and bass-line construction, and creative application. Prereq: 2222 and 2225. Not open to students with credit for 231.					Functional knowledge of wind, strings, and percussion instruments. Prereq: Music major. Not open to instrumental majors or students with credit for 261.99. This course is available for EM credit.			

2262.01 Keyboard Skills II	U	1
Intermediate group piano instruction for music majors. Prereq: 2261.01 (261.01), and Music major. Not open to piano majors or students with credit for 262.01. This course is available for EM credit.		
2262.03 String Technique	U	1
Pedagogical and performance techniques for string instruments. Prereq: Enrollment in Music major. This course is available for EM credit.		
2262.04 Flute/Clarinet/Saxophone Techniques	U	1
Pedagogical and performance techniques for flute, clarinet, and saxophone. Prereq: Music major. Not open to students with credit for 262.04. This course is available for EM credit.		
2262.05 Brass Techniques	U	1
Pedagogical and performance techniques for brass instruments. Prereq: Music major. Not open to students with credit for 262.05. This course is available for EM credit.		
2262.11 Conducting (Instrumental)	U	1
Conducting instruction applied to band, orchestra, and ensemble literature and performance. Prereq: 2261.11 (261.11), and Music major. Not open to students with credit for 660. This course is available for EM credit.		
2262.12 Conducting (Choral)	U	1
Conducting instruction applied to choral literature and performance problems. Prereq: 2261.12, and Music major. Not open to students with credit for 661. This course is available for EM credit.		
2262.13 Conducting (Strings)	U	1
Conducting instruction applied to orchestral literature and performance. Prereq: 2261.11 (261.11), and Music major. This course is available for EM credit.		
2263.01 Keyboard Skills III	U	1
Intermediate group piano instruction for music majors. Prereq: 2262.01, and Music major. Not open to students with credit for 263.01. This course is available for EM credit.		
2263.02 Voice Pedagogy	U	1
Vocal pedagogy, anatomy, and physiology of the vocal mechanism. Prereq: Music major. Not open to students with credit for 263.02. This course is available for EM credit.		
2264.01 Keyboard Skills IV	U	1
Intermediate group piano instruction for music majors. Prereq: 2263.01, and Music major. Not open to students with credit for 264.01. This course is available for EM credit.		
2267 String Pedagogy for the Applied Studio	U	1
The organization, development, and pedagogy for the applied string instrument studio. Prereq: 2201, or permission of instructor. Not open to students with credit for 267.		
2271 Introduction to Music Enterprise	U	3
An introductory survey of the patterns and practices associated with the intersection of music, commerce, and society from the early 19th century to the present.		
2288 Bebop to Doowop to Hip-hop: The Rhythm and Blues Tradition	U	3
Examines the aesthetic and historical evolution of Rhythm and Blues: Black music tradition including Bebop, Rock and Roll and Hip hop redefining American popular culture post WWII. Prereq: Not open to students with credit for 288 or AfAmAst 2288 (288). GE VPA and diversity soc div in the US course. GE foundation lit, vis and performing arts course. Cross-listed in AfAmAst.		
2293 Individual Studies: Composition	U	1 - 3
Independent study in compositional techniques. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.		
2297 Music Education Laboratory Ensemble	U	1
Laboratory ensembles which provide performance experience on secondary instruments. Repeatable to a maximum of 3 or hrs.		
2413 Diction for Singers I	U	2
Introduction to phonetic alphabet and advanced study of phonetics and sound production as applied to singing in Italian. Prereq: Music major.		
2414 Diction for Singers II	U	2
Advanced study of phonetics and sound production as applied to singing in German and French. Prereq: 2413, and Music major.		
2470 Introduction to Music Education	U	3
Professional orientation for prospective school music teachers; study of musical development, human relations, discipline, evaluation, philosophy of teaching, and the music curriculum; comprehensive field experience. Prereq: Psych 1100, and Soph standing, and Enrollment in Music Education major. Not open to students with credit for 470.		
2470E Introduction to Music Education	U	3
Professional orientation for prospective school music teachers; study of musical development, human relations, discipline, evaluation, philosophy of teaching, and the music curriculum; comprehensive field experience. Prereq: Honors standing, Psych 1100, and Soph standing in Music Education; or permission of instructor.		

3010 Public Health and Opera	U	4
In this course, we will explore six public health themes that are dramatized in opera as a popular artistic medium. Students will be introduced to the public health aspects of the issue and then presented with information about how the issue has been represented in multiple operas, ranging from the 1700's to current day. Prereq: Not open to students with credit for PubHlth 3010. GE theme health and well-being course. Cross-listed in PubHlth.		
3021 Music Theory III for Non-Majors	U	3
Principles of 18th- and 19th-century chromatic harmony and modulation; extensive practice in part-writing, analysis, and creative application. Prereq: 2022 or 2222, and enrollment in non-Music major.		
3022 Music Theory IV for Non-Majors	U	3
Introduction to the study of the structural principles and forms of homophonic music; Extensive practice through written drill, analysis and creative projects; composition techniques in 20th century music. Prereq: 3021 or 3421, and enrollment in non-Music major.		
3210 Jazz Improvisation II	U	2
Improvisation techniques utilizing blues and pentatonic scales, elaboration of seventh chord structures; analysis of transcribed solos; improvisation of vertical, horizontal, and combination tunes; exploration of Bebop and post-bop literature. Prereq: 2209. Not open to students with credit for 210. This course is available for EM credit.		
3310 Introduction to Operatic Stage Techniques	U	2
An introductory course to stage movement techniques, character analysis, role preparation, as applied to the operatic stage. Prereq: 3401.21 or 3402.21, or permission of instructor. Not open to students with credit for 310.		
3312 Opera Performance	U	½ - 2
Instruction and experience in preparation for opera performance, including study of operatic literature and coaching of operatic roles. Prereq: 3310, and audition; or permission of instructor. Repeatable to a maximum of 10 cr hrs.		
3315 Voice Science and Pedagogy for the Undergraduate	U	2
Vocal pedagogy, anatomy, and physiology of the vocal mechanism. Prereq: Open only to Voice majors.		
3330 Music Production and Reception: Institutions, Patterns, and Practices	U	3
Intermediate survey of the interrelationships of music, media, and commerce in society, emphasizing technology, economics, law, and the public purposes of the musical arts. Prereq: 2271. Not open to students with credit for 330.		
3340 Global Music Histories	U	3
With a focus on developing skills in reading, writing, and information literacy, this course examines how peoples and their musics have interacted and developed through travel, migration, colonialism, and globalization.		
3340E Global Music Histories	U	3
With a focus on developing skills in reading, writing, and information literacy, this course examines how peoples and their musics have interacted and developed through travel, migration, colonialism, and globalization.		
3342 Introduction to Opera	U	3
An introduction to the dramatic and musical conventions of opera. Prereq: English 1110 (110) or 1111 (111). Not open to students with credit for 342. GE VPA course. GE foundation lit, vis and performing arts course.		
3343 Music, Body and Brain	U	3
An introduction to the relationship between culturally conditioned musical experience and physiological and cognitive processes. Prereq: English 1110 or equiv. GE VPA course. GE foundation lit, vis and performing arts course.		
3344 Film Music	U	3
A study of how music has functioned in film across its century-long history, as produced in Hollywood and in other countries, and by filmmakers independent of the studio system. Prereq: English 1110 or 1111. GE VPA course. GE foundation lit, vis and performing arts course.		
3345 Topics in Music History	U	3
Topics vary; study of selected topics in music history and world music. Repeatable to a maximum of 15 cr hrs. GE VPA course. GE foundation lit, vis and performing arts course.		
3347 From Bach to Beethoven	U	3
The styles and genres of five eminent composers of the 18th century: Bach, Handel, Mozart, Haydn, and Beethoven. Prereq: English 1110 or 1111. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.

GE VPA and diversity global studies course. GE theme citizenship for div and just wrld course.	3401.45	Applied Music - Principal - Saxophone	U	2	Applied saxophone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.
3364E	Musical Citizenship: Activism, Advocacy and Engagement in Sound	U	3	This course examines the sonic expressions of people's status, identity, rights, and duties as political subjects across multiple scales of place. We will consider the value of cultural advocacy in the public sector and social activism in the public sphere and the importance of partnering with (non)governmental institutions, community organizations, and grassroots affiliates to advance musical art. GE VPA and diversity global studies course. GE theme citizenship for div and just wrld course.	3401.46	Applied Music - Principal - Bassoon	U	2	Applied bassoon instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.
3370	Music for Elementary Teachers	U	2	Music literature and teaching aids for children, including singing, rhythmic, creative, and listening experiences, and their presentation.	3401.47	Applied Music - Principal - Jazz Saxophone	U	2	Applied jazz saxophone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.
3373	Music for Special Education Teachers	U	2	Music literature and teaching strategies for exceptional children, including singing, rhythmic, creative, and listening experiences. Prereq: Jr or Sr standing, and enrollment in Special Education major. Not open to students with credit for 373.	3401.51	Applied Music - Principal - Horn	U	2	Applied horn instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.
3401.11	Applied Music - Principal - Piano	U	2	Applied piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201), and enrollment in Music major. Not open to students with credit for 401.11. Repeatable to a maximum of 6 cr hrs.	3401.52	Applied Music (Principal): Trumpet	U	2	Applied trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to music majors. Repeatable to a maximum of 6 cr hrs.
3401.12	Applied Music - Principal - Jazz Piano	U	2	Applied jazz piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201(201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.53	Applied Music (Principal): Trombone	U	2	Applied trombone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to music majors. Repeatable to a maximum of 6 cr hrs.
3401.21	Applied Music - Principal - Voice	U	2	Applied voice instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.54	Applied Music (Principal): Euphonium	U	2	Applied euphonium instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
3401.31	Applied Music - Principal - Violin	U	2	Applied violin instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.55	Applied Music (Principal): Tuba	U	2	Applied tuba instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
3401.32	Applied Music - Principal - Viola	U	2	Applied viola instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.56	Applied Music (Principal): Jazz Trumpet	U	2	Applied jazz trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
3401.33	Applied Music - Principal - Cello	U	2	Applied cello instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.57	Applied Music (Principal): Jazz Trombone	U	2	Applied jazz trombone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
3401.34	Applied Music - Principal - Double Bass	U	2	Applied double bass instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.71	Applied Music (Principal): Percussion	U	2	Applied percussion instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
3401.36	Applied Music - Principal - Jazz Bass	U	2	Applied jazz bass instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.72	Applied Music (Principal): Jazz Percussion	U	2	Applied jazz percussion instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
3401.37	Applied Music - Principal - Jazz Guitar	U	2	Applied jazz guitar instruction to develop musicianship, performance, and knowledge of music literature. Prereq: Music 2201 (201), and enrollment in Music major. Repeatable to a maximum of 6 cr hrs.	3401.91	Applied Music (Principal): Harp	U	2	Applied harp instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 2201 (201). Open only to Music majors. Repeatable to a maximum of 6 cr hrs.
					3402.11	Applied Music (Principal): Piano	U	4	Piano instruction to develop professional qualities of musicianship, technique, and knowledge of music literature. Prereq: 2201 (201). Open only to BM in Performance majors. Repeatable to a maximum of 12 cr hrs.

320 Music

3403.55	Applied Music - Principal - Tuba	U	2		4500.01	Review of Music Analysis Techniques	U	2	
Applied tuba instruction in the BA curriculum to develop musicianship, performance and knowledge of music literature. Prereq: 2201 (201), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.					Review of selected music topics; intended for beginning graduate students in music. Prereq: Grad standing, or permission of instructor for undergrads. Repeatable to a maximum of 4 cr hrs.				
3403.56	Applied Music - Principal - Jazz Trumpet	U	2		4500.02	Review of Music History	U	2	
Applied jazz trumpet instruction in the BA curriculum to develop musicianship, performance and knowledge of music literature. Prereq: 2201 (201), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.					Review of selected music topics; intended for beginning graduate students in music. Prereq: Grad standing, or permission of instructor for undergrads. Repeatable to a maximum of 4 cr hrs.				
3403.57	Applied Music - Principal - Jazz Trombone	U	2		4501.11	Applied Music - Principal - Piano	U	2	
Applied jazz trombone instruction in the BA curriculum to develop musicianship, performance and knowledge of music literature. Prereq: 2201 (201), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.					Applied piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3403.71	Applied Music - Principal - Percussion	U	2		4501.12	Applied Music - Principal - Jazz Piano	U	2	
Applied percussion instruction in the BA curriculum to develop musicianship, performance and knowledge of music literature. Prereq: 2201 (201), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.					Applied music instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3403.72	Applied Music - Principal - Jazz Percussion	U	2		4501.21	Applied Music - Principal - Voice	U	2	
Applied jazz percussion instruction in the BA curriculum to develop musicianship, performance and knowledge of music literature. Prereq: 2201 (201), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.					Applied voice instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3421	Music Theory III	U	3		4501.31	Applied Music - Principal - Violin	U	2	
Principles of 18th- and 19th-century chromatic harmony and modulation; extensive practice in part-writing, analysis, and creative application. Prereq: 2222, and enrollment in Music major.					Applied violin instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3422	Music Theory IV	U	3		4501.32	Applied Music - Principal - Viola	U	2	
Introduction to the study of the structural principles and forms of homophonic music; Extensive practice through written drill, analysis and creative projects; composition techniques in 20th century music. Prereq: 3421, and enrollment in Music major.					Applied viola instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3424	Aural Training III	U	1		4501.33	Applied Music - Principal - Cello	U	2	
Intensive training in aural musicianship and music reading; practical application through solfege, dictation, and keyboard drill. Prereq: 2225.					Applied cello instruction to develop musicianship, performance, and a wide reading knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3425	Aural Training IV	U	1		4501.34	Applied Music - Principal - Double Bass	U	2	
Advanced training in aural musicianship and music reading; practical application through solfege, dictation, and keyboard drill. Prereq: 3424.					Applied double bass instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3427	Keyboard Harmony I	U	2		4501.36	Applied Music - Principal - Jazz Bass	U	2	
Systematic review and utilization of basic harmonic materials at the keyboard. Prereq: 3422. Not open to students with credit for 427.					Applied jazz bass instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3428	Keyboard Harmony II	U	2		4501.37	Applied Music - Principal - Jazz Guitar	U	2	
Introduction and practical experience at score reading at the keyboard. Prereq: 3427. Not open to students with credit for 428.					Applied jazz guitar instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3431	Protest in American Music	U	3		4501.41	Applied Music - Principal - Flute	U	2	
Examines the relationship between and among music, media technologies, and both mass and social media from musical, textual, political, economic and social perspectives. Prereq: Not open to students with credit for 431.					Applied flute instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3433	Scoring for Small Jazz Ensembles	U	2		4501.42	Applied Music - Principal - Oboe	U	2	
Scoring projects for jazz combos of various sizes and instrumentation. Prereq: 3422. Not open to students with credit for 433.02.					Applied oboe instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3434	Scoring for Large Jazz Ensembles	U	2		4501.43	Applied Music - Principal - Clarinet	U	2	
Scoring projects for the stage band, with concentration on voicing, ranges, doublings, balance, and notational procedures. Prereq: 3433. Not open to students with credit for 433.03.					Applied clarinet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3446	Jazz Styles and Analysis	U	3		4501.45	Applied Music - Principal - Saxophone	U	2	
Stylistic variants of jazz involving technical and structural aspects so that the student may recognize, play, and score them authentically. Prereq: Permission of instructor. Not open to students with credit for 446.					Applied saxophone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3450	The Art and Politics of Hip-Hop	U	3		4501.46	Applied Music - Principal - Bassoon	U	2	
Explores the world of Hip-Hop, from its birth in the Bronx to its infiltration of music, fashion, television, film, dance, print culture, and politics. It considers critically the intersections of race, class, gender, sexuality, nation, and geography as well as the ways in which Hip-Hop functions simultaneously as aesthetic, analytic, and politic. Prereq: English 1110.xx, or GE foundation writing and info literacy course. Not open to students with credit for AfAmASt 3450. Cross-listed in AfAmASt.					Applied bassoon instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
3578	Introduction to General Music in grades K-8	U	2		4501.47	Applied Music - Principal - Jazz Saxophone	U	2	
Functional music making and introduction to K-8 methods. Prereq: 2470 and enrollment in Music Education major. Not open to students with credit for 578.					Applied jazz saxophone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.				
4193	Individual Studies	U	1 - 3						
Independent study on a special problem or topic in music. Prereq: Permission of instructor. Open to Music majors only. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.									
4194	Group Studies	U	1 - 3						
Group study of various topics in music. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.									

4501.51 Applied Music - Principal - Horn	U	2	Applied horn instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.52 Applied Music - Principal - Trumpet	U	2	Applied trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.53 Applied Music - Principal - Trombone	U	2	Applied trombone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.54 Applied Music - Principal - Euphonium	U	2	Applied euphonium instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.55 Applied Music - Principal - Tuba	U	2	Applied tuba instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.56 Applied Music - Principal - Jazz Trumpet	U	2	Applied jazz trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.71 Applied Music - Principal - Percussion	U	2	Applied percussion instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4501.72 Applied Music - Principal - Jazz Percussion	U	2	Applied jazz percussion instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3401 (401), and enrollment in BA in Music. Repeatable to a maximum of 6 cr hrs.
4502.11 Applied Music - Principal - Piano	U	4	Applied piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.12 Applied Music - Principal - Jazz Piano	U	4	Applied jazz piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.21 Applied Music - Principal - Voice	U	4	Applied voice instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.31 Applied Music - Principal - Violin	U	4	Applied violin instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.32 Applied Music - Principal - Viola	U	4	Applied viola instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402, and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.33 Applied Music - Principal - Cello	U	4	Applied cello instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.34 Applied Music - Principal - Double Bass	U	4	Applied double bass instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.36 Applied Music - Principal - Jazz Bass	U	4	Applied jazz bass instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.37 Applied Music - Principal - Jazz Guitar	U	4	Applied jazz guitar instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.

4502.41 Applied Music - Principal - Flute	U	4	Applied flute instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402), and enrollment in BA in Music. Repeatable to a maximum of 12 cr hrs.
4502.42 Applied Music (Principal): Oboe	U	4	Applied oboe instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.43 Applied Music (Principal): Clarinet	U	4	Applied clarinet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.45 Applied Music (Principal): Saxophone	U	4	Applied saxophone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.46 Applied Music (Principal): Bassoon	U	4	Applied bassoon instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.47 Applied Music (Principal): Jazz Saxophone	U	4	Applied jazz saxophone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.51 Applied Music (Principal): Horn	U	4	Applied horn instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.52 Applied Music (Principal): Trumpet	U	4	Applied trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.53 Applied Music (Principal): Trombone	U	4	Applied trombone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.54 Applied Music (Principal): Euphonium	U	4	Applied euphonium instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.55 Applied Music (Principal): Tuba	U	4	Applied tuba instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.56 Applied Music (Principal): Jazz Trumpet	U	4	Applied jazz trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.71 Applied Music (Principal): Percussion	U	4	Applied percussion instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.72 Applied Music (Principal): Jazz Percussion	U	4	Applied jazz percussion instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4502.91 Applied Music (Principal): Harp	U	4	Applied harp instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 3402 (402). Open only to Music majors. Repeatable to a maximum of 12 cr hrs.
4505 Junior Recital	U	0	Required junior recital for the Bachelor of Music and Bachelor of Music Education degrees. Prereq: 4501 and 4502. Repeatable to a maximum of 4 completions. This course is graded S/U.
4510 Jazz Improvisation III	U	2	Advanced techniques of improvisation; the use of modal devices, complex meters, and innovative forms; concern for speed, endurance, energy levels, and problems of unaccompanied performance. Prereq: 3210. Not open to students with credit for 510.

322 Music

4524	Orchestration I	U	2		4601.12	Applied Music (Principal): Jazz Piano	U	2	
	A fundamental course in scoring for the instruments of the orchestra and band in transcriptions and arrangements. Prereq: 3422. Not open to students with credit for 524.					Advanced jazz piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501), and enrollment in BME major. Repeatable to a maximum of 8 cr hrs.			
4531	Elementary Studies in Counterpoint	U	2		4601.21	Applied Music (Principal): Voice	U	2	
	A fundamental course in counterpoint including study of the basic principles of 16th-century polyphony. Prereq: 3422. Not open to students with credit for 531.					Advanced voice instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open only to BME majors only. Repeatable to a maximum of 8 cr hrs.			
4533	Jazz Composition	U	3		4601.43	Applied Music (Principal): Clarinet	U	2	
	Designed to develop the skills necessary for composing/arranging for small, mixed, and large jazz ensembles. Prereq: 3434. Not open to students with credit for 533.					Advanced clarinet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open only to BME majors. Repeatable to a maximum of 8 cr hrs.			
4535	Composition I	U	2		4601.52	Applied Music (Principal): Trumpet	U	2	
	A fundamental course in composition, with emphasis on creative writing in the small forms. Prereq: 3422. Not open to students with credit for 535.					Advanced trumpet instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open only to BME majors. Repeatable to a maximum of 8 cr hrs.			
4555.05	Studies in Musicology: Music's Meanings	U	2 - 3		4601.53	Applied Music (Principal): Trombone	U	2	
	A variety of approaches to how music conveys meaning, focusing in particular on the capacity of music to allude to other aspects of human experience, such as dance, storytelling, drama, and visual imagery. Prereq: Admission to BM in Musicology, or permission of instructor.					Advanced trombone instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open only to BME majors. Repeatable to a maximum of 8 cr hrs.			
4555.06	Studies in Musicology: Music Research Methods and Bibliography	U	3		4601.55	Applied Music (Principal): Tuba	U	2	
	Survey of the methods and materials for conducting research projects in today's interdisciplinary computerized environment. Prereq: Admission to BM in Musicology, or permission of instructor.					Advanced tuba instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open only to BME majors. Repeatable to a maximum of 8 cr hrs.			
4555.07	Studies in Musicology: Introduction to Ethnomusicology	U	2		4601.91	Applied Music (Principal): Harp	U	2	
	Introduces students to the development, major topics, and methods in the field of ethnomusicology. Prereq: Admission to BM in Musicology, or permission of instructor.					Advanced harp instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open only to BME majors. Repeatable to a maximum of 8 cr hrs.			
4555.12	Introduction to Musicology	U	2		4602.11	Applied Music (Principal): Piano	U	4	
	This course is designed as an introduction to the discipline of Musicology; its history, preoccupations and its methods.					Advanced piano instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502). Open to BM majors only. Repeatable to a maximum of 12 cr hrs.			
4566	Jazz Pedagogy	U	2		4602.12	Applied Music - Principal - Jazz Piano	U	4	
	Organization and operation of the public school jazz ensemble. Prereq: Not open to students with credit for 566.					Advanced jazz piano instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4572	Teaching General Music in Secondary Schools	U	2		4602.21	Applied Music - Principal - Voice	U	4	
	The role of music in adolescents' general education and the development of competencies essential to teaching. Prereq: Professional standing in Music Education. Not open to students with credit for 572.					Advanced voice instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4574	Teaching Choral Music in Elementary and Middle Schools	U	2		4602.31	Applied Music - Principal - Violin	U	4	
	A comprehensive review of choral music methods and rehearsal techniques for young learners. Prereq: Professional standing in Music Education.					Advanced violin instruction to develop professional qualities of musicianship, technique and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4575	Teaching Choral Music in Secondary Schools	U	2		4602.32	Applied Music - Principal - Viola	U	4	
	Choral music rehearsal methods, techniques and strategies for developing choral ensembles in secondary schools. Prereq: Professional standing in Music Education.					Advanced viola instruction to develop professional qualities of musicianship, technique and literature. Prereq: 4502, and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4576	Teaching Instrumental Music in Elementary and Middle Schools	U	2		4602.33	Applied Music - Principal - Cello	U	4	
	The role of instrumental music instruction in education, techniques of teaching instrumental music, study of music appropriate to musical organizations in elementary and middle schools. Prereq: 2261.04, 2261.07, 2262.03, 2262.04, and 2262.05, and professional standing in Music Education.					Advanced cello instruction to develop professional qualities of musicianship, technique and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4577	Teaching Instrumental Music in Secondary Schools	U	2		4602.36	Applied Music - Principal - Jazz Bass	U	4	
	The role of instrumental music instruction in public education, techniques of teaching instrumental music, study of music appropriate to musical organizations in secondary schools. Prereq: 2261.04, 2261.07, 2262.03, 2262.04, and 2262.05, and professional standing in Music Education.					Advanced jazz bass instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4579	Teaching General Music in Elementary Schools	U	2		4602.37	Applied Music (Principal): Jazz Guitar	U	4	
	A study of Kodaly and intermediate Orff methodologies; the planning and implementation of musical experiences for children in elementary schools. Prereq: Professional standing in Music Education.					Advanced jazz guitar instruction to develop professional qualities of musicianship, technique and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4586	Student Teaching in Music in Elementary Schools	U	6		4602.41	Applied Music - Principal - Flute	U	4	
	Assignment to area elementary schools for teaching observations. Prereq: Professional standing in Music Education. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.					Advanced flute instruction to develop professional qualities of musicianship, technique and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4587	Student Teaching in Music in Secondary Schools	U	6		4602.43	Applied Music - Principal - Clarinet	U	4	
	Assignment to area secondary schools for observation. Prereq: Professional standing in Music Education. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.					Advanced clarinet instruction to develop professional qualities of musicianship, technique and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4588	Improvisation Methods	U	2		4602.45	Applied Music - Principal - Saxophone	U	4	
	Introduction to musical improvisation in performance and pedagogy. Improvisation in individual and group contexts. Prereq: 3422, or permission of instructor.					Advanced saxophone instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4601.11	Applied Music (Principal): Piano	U	2		4602.46	Applied Music - Principal - Bassoon	U	4	
	Advanced piano instruction to develop musicianship, performance, and knowledge of music literature. Prereq: 4501 (501). Open to BME majors only. Repeatable to a maximum of 8 cr hrs.					Advanced bassoon instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			

4602.47	Applied Music - Principal - Jazz Saxophone	U	4
Advanced jazz saxophone instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.51	Applied Music - Principal - Horn	U	4
Advanced horn instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.52	Applied Music - Principal - Trumpet	U	4
Advanced trumpet instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.53	Applied Music - Principal - Trombone	U	4
Advanced trombone instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.54	Applied Music - Principal - Euphonium	U	4
Advanced euphonium instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.56	Applied Music - Principal - Jazz Trumpet	U	4
Advanced jazz trumpet instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.57	Applied Music - Principal - Jazz Trombone	U	4
Advanced jazz trombone instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.71	Applied Music - Principal - Percussion	U	4
Advanced percussion instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.72	Applied Music - Principal - Jazz Percussion	U	4
Advanced jazz percussion instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4602.91	Applied Music - Principal - Harp	U	4
Advanced harp instruction to develop professional qualities of musicianship, technique, and literature. Prereq: 4502 (502), and enrollment in BM major. Repeatable to a maximum of 12 cr hrs.			
4605	Senior Recital	U	0
Required senior recital for the Bachelor of Music in Performance degree. Prereq: 4602. Repeatable to a maximum of 4 completions. This course is graded S/U.			
4611	Piano Pedagogy I	U	3
An analysis of teaching techniques and materials for individual and group instruction in piano with an emphasis on the elementary and intermediate levels. Prereq: 4501.11 (501.11), or permission of instructor. Not open to students with credit for 611.			
4679.02	Composition Senior Project	U	2
Preparation of senior composition and half recital of student's composition. Prereq: Music Composition major, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
4679.03	Senior Composition Project: Jazz Studies	U	2
Preparation of senior composition and half recital of student's composition. Prereq: Jazz Composition major, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
4679.04	Senior Thesis: Musicology	U	2
Preparation of senior thesis paper; presentation of senior thesis. Prereq: Musicology major, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
4679.05	Senior Pedagogy Project	U	2
Senior project in Music Pedagogy. Prereq: Enrollment in a performance major, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
4679.06	Senior Project - B.S.	U	2
In this course, students will demonstrate competency in applying creativity, problem solving and critical analysis. Students earn credit by proposing, developing, and completing an independent project. Prereq: Music (BS) major and permission of instructor. This course is graded S/U.			
4895	Seminar in Music	U	1 - 3
Colloquia, workshops, and special topics seminars in music. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			

4998	Undergraduate Research Non-Thesis	U	1 - 5
Research projects determined by instructor. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions. This course is graded S/U.			
4998H	Honors Undergraduate Research Non-Thesis	U	1 - 5
Research projects determined by instructor. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions.			
4999	Undergraduate Research Thesis	U	1 - 5
Research projects determined by thesis subject. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions. This course is graded S/U.			
4999H	Honors Undergraduate Research Thesis	U	1 - 5
Research projects determined by thesis subject. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 2 completions.			
5177	Alexander Technique	U G	1 - 2
The relationship of kinesthetic perception and the postural reflexes to physical coordination in performance. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 4 completions. Cross-listed in Dance and Theatre.			
5194	Group Studies	U G	1 - 3
Group study of various topics in music. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.			
5215.03	Campus Orchestra	U G	½ - 1
The Ohio State Campus Orchestra is an opportunity for non-music majors interested in furthering their musical development, as well as making new friends and experiencing the artistry of performing in a collegiate ensemble. OSUCO is open to students, faculty, staff and alumni, and is also open to music majors playing a secondary instrument. Repeatable to a maximum of 10 cr hrs or 10 completions.			
5415	Diction for Choral Music Educators	U G	2
Offers a survey of lyric diction to acquaint future singers, teachers, and choral conductors with basic concepts and skills for the English, German, French, Latin, and Italian languages. Students will review the rules and symbols of the International Phonetic Alphabet (IPA). Prereq: Open to Music Education majors and graduate choral conducting students.			
5591	Career Development in Music	U G	3
Survey of music marketplace, opportunities, and career strategies. Prereq: Open to Music majors only. Not open to students with credit for 591.			
5604	Introduction to Piano Technology	U G	1
To provide the pianist and piano enthusiast a cursory understanding of the construction and maintenance of their instrument.			
5607	Performance Enhancement I	U G	1
Skills and techniques designed to enhance the quality of public performances. Repeatable to a maximum of 5 cr hrs. This course is graded S/U.			
5620	Extended Tonality from Wagner to Hindemith: Theory and Analysis	U G	2
Systematic analytic observation of tonal art music from the last decades of the nineteenth century to World War II. Prereq: 3422. Not open to students with credit for 620.			
5621	Theory and Analysis: 17th-18th Centuries	U G	2
Analysis of representative works from the 17th-18th century, introducing relevant theoretical concepts. Prereq: 3422, or a score in the upper third on the graduate placement exam. Not open to students with credit for 621.			
5622	Theory and Analysis: 19th Century	U G	2
Analysis of representative works from the 19th century, introducing relevant theoretical concepts. Prereq: 3422, or a score in the upper third on the graduate placement exam. Not open to students with credit for 622.			
5623	Theory and Analysis: 20th Century	U G	2
Analysis of representative works from the 20th century, introducing relevant theoretical concepts. Prereq: 3422, or a score in the upper third on the graduate placement exam. Not open to students with credit for 623.			
5625	Orchestration II	U G	2
Study of 20th-century orchestration techniques, including readings in recent literature on timbre and timbre perception; scoring of transcriptions and students' compositions for various ensembles. Prereq: 4524. Not open to students with credit for 625.			
5630	Composers Seminar	U G	2
Contemporary topics in composition and theory; presentation, performance, and criticism of student compositions and papers. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
5631	Intermediate Studies in Counterpoint	U G	2
Counterpoint based on the polyphonic style of the 18th century. Prereq: 4531, or permission of instructor. Not open to students with credit for 631.			
5635	Composition II	U G	2 - 3
Practice in creative writing; analysis, and evaluation; employment of contemporary methods of composition. Prereq: 4535, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			

324 Music

5636.01	Introduction to Electronic Music Synthesis	U G	3		5797	Study at a Foreign Institution	U G	1 - 12
	Techniques of composition with electronic media, history, literature, and criticism; score preparation. Prereq: 3422, or permission of instructor. Not open to students with credit for 636.					An opportunity to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of dept chair. Repeatable to a maximum of 72 cr hrs or 6 completions. This course is progress graded.		
5636.02	Electronic Music Synthesis	U G	3		5798	Study Tour	U G	1 - 3
	Principles of audio engineering, relationships to other communications media. Prereq: 5636.01, or permission of instructor. Not open to students with credit for 636.					Specialized academic or performance study tour. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.		
5637.01	Composition with Electronic Media I	U G	3		5801	Analysis of Video Game Music	U G	3
	Individual composition projects with electronic media. Prereq: 4535 and 5636.02. Repeatable to a maximum of 18 cr hrs.					This course focuses on the theory and analysis of video-game music, focusing on topics such as functions of game audio, interactivity and immersion, game history and technology, comparisons between game music and film music, musical meaning and tropes, genres and styles, as well as fandom, song covers and nostalgia. Grad student must pass the graduate entrance assessment in music theory or prereq. Grad Prereq: Music 4500.01, or permission of instructor. Undergrad Prereq: Music 3422, or permission of instructor.		
5637.02	Composition with Electronic Media II	U G	3		5802	Analysis of Popular Music	U G	3
	Individual advanced composition projects with electronic media. Prereq: 5637.01. Repeatable to a maximum of 18 cr hrs.					This course provides an overview of scholarship on the theory and analysis of popular music, broadly construed. Students will learn and implement strategies for analyzing form, melody, harmony, lyrics, rhythm, meter, and timbre in various genres (such as pop, rock, metal, hip-hop, EDM, funk, punk, country, and more). There will be readings and pieces assigned for weekly listening. Grad student must pass the graduate entrance assessment in music theory or prereq. Undergrad Prereq: grade of C- or higher in Music 3422; or permission of instructor. Grad Prereq: Grad standing, and a grade of C- or higher in Music 4500.01; or permission of instructor.		
5638	Audio Recording	U G	3		6193	Individual Studies	G	1 - 3
	Audio recording; microphones and microphone placement; multiple-track recording; mixing; equalization and special effects. Prereq: Course work in Circuit Analysis from Electric Engineering or equiv, or permission of instructor. Not open to students with credit for 638.					Independent study on a special problem or topic in music. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.		
5639	Audio Recording Laboratory	U G	3		6200.11	Applied Music (Secondary): Piano	G	2
	Creating an audio recording; familiarity with the recording studio and console, use and placement of microphones; multiple-track recording equalization and special effects; mixing. Prereq: 5638, or permission of instructor. Repeatable to a maximum of 6 cr hrs.					Secondary applied music instruction on piano with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5646	History of Music in the United States	U G	2		6200.12	Applied Lesson (Secondary): Jazz Piano	G	2
	A survey of music in the United States from colonial times until the present. Prereq: Jr, Sr, or Grad standing. Not open to students with credit for 646.					Applied jazz piano study with special emphasis on literature and pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5649	Western Art Music II	U G	2		6200.21	Applied Music (Secondary): Voice	G	2
	A survey focused on repertory and historical issues, with principal emphasis on instrumental genres. Music from 1870 to the present. Prereq: 2242; or Grad standing, and enrollment in Music major. Not open to students with credit for 649.					Secondary applied music instruction on voice with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5652	18th- and 19th-Century Song Literature	U G	2		6200.31	Applied Music (Secondary): Violin	G	2
	Study of selected 18th and 19th century song literature. Prereq: 3422 and 2242, or 2243.02; or Grad standing. Not open to students with credit for 652.					Secondary applied music instruction on violin with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5653.01	Piano Literature I	U G	3		6200.32	Applied Music (Secondary): Viola	G	2
	A study of the formal structures of piano literature from the pre-piano period through the works of Beethoven. Prereq: 3422. Not open to students with credit for 653.					Secondary applied music instruction on viola with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5653.02	Piano Literature II	U G	3		6200.41	Applied Music (Secondary): Flute	G	2
	A study of the piano sonata and other characteristic forms from post-Beethoven to the present time. Prereq: 3422. Not open to students with credit for 653.					Secondary applied music instruction on flute with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5655	20th- and 21st-Century Song Literature	U G	2		6200.43	Applied Music (Secondary): Clarinet	G	2
	The study of selected 20th and 21st century song literature. Prereq: 5652, or Grad standing. Not open to students with credit for 655.					Secondary applied music instruction on clarinet with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5663	School Orchestra Literature	U G	2		6200.47	Applied Music (Secondary): Jazz Saxophone	G	2
	Examines orchestral repertoire for study in elementary, middle, and high school orchestra programs, and develops strategies for teaching these pieces. Prereq: Enrollment in Music major. Not open to students with credit for 663.					Secondary applied music instruction on jazz saxophone with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5664	School Wind Band Repertoire	U G	2		6200.54	Applied Music (Secondary): Euphonium	G	2
	Examines wind band repertoire appropriate for study in elementary, middle and high school band programs and develops strategies for teaching these pieces. Prereq: Enrollment in Music major. Not open to students with credit for 664.					Secondary applied music instruction on euphonium with emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5666	Marching Band Techniques	U G	2		6200.56	Applied Music (Secondary): Jazz Trumpet	G	2
	A study of the marching band including laboratory work in marching techniques, computerized charting, and show design. Prereq: Soph, Jr, or Sr standing, and enrollment in Music major, or permission of instructor. Not open to students with credit for 666.					Secondary applied music instruction on jazz trumpet with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5677.01	Multimedia for Musicians I	U G	3		6200.57	Applied Music (Secondary): Jazz Trombone	G	2
	Designed to provide musicians with the tools to create multimedia works for use in music education, research, or as a creative medium. Prereq: 2220 (220) or 5676 (676), or permission of instructor. Not open to students with credit for 677.					Secondary applied music instruction on jazz trombone with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5677.02	Multimedia for Musicians II	U G	3		6200.72	Applied Music (Secondary): Jazz Percussion	G	2
	Continuation of 5677.01; designed to provide musicians with the tools to create multimedia works for use in music education, research, or as a creative medium. Prereq: 5677.01. Not open to students with credit for 677.					Secondary applied music instruction on jazz percussion with an emphasis on pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5765	Literature for Vocal Music Education	U G	2		6216.12	Applied Music (Non Major): Jazz Piano	G	2
	A study of vocal literature of various cultures and historic periods for use with choral groups in the secondary music program. Prereq: 4575 (575); or Grad Standing, and enrollment in Music major. Not open to students with credit for 765.					Applied jazz piano study with special emphasis on literature and pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		
5772	Music in Early Childhood	U G	3		6216.21	Applied Music (Non Major): Voice	G	2
	Analysis of research, principles, and practices in early childhood music and application to programs of learning for young children. Prereq: Permission of instructor. Not open to students with credit for 772.					Applied voice study with special emphasis on literature and pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.		

6216.36	Applied Music (Non Major): Jazz Bass	G	2
Applied jazz bass study with special emphasis on literature and pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.			
6216.41	Applied Music (Non Major): Flute	G	2
Applied flute study with special emphasis on literature and pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.			
6216.53	Applied Music (Non Major): Trombone	G	2
Applied trombone study with special emphasis on literature and pedagogy. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs.			
6645	Music's Meanings	G	2 - 3
An exploration of approaches to ways that music conveys meaning. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 645.			
6672	Introduction to Ethnomusicology	G	2
The study of different ways in which music has been used outside the western European tradition of the fine arts. Prereq: Grad standing in Musicology, or permission of instructor. Not open to students with credit for 672.			
6673	Introduction to Musicology	G	2
This course is designed as an introduction to the discipline of Musicology; its history, preoccupations and its methods.			
6710	Introduction to Operatic Stage Techniques	G	3
An introduction to stage movement techniques, character analysis, role preparation, and aria interpretation as applied to the operatic stage. Prereq: Grad standing. Repeatable to a maximum of 18 cr hrs.			
6754	Cognitive, Social and Health Benefits of Music Engagement	G	3
Students will become familiar with the focus and methodology of research on the effects of arts participation on individual and collective behaviors, traits, perceptions, health and well-being indicators, and selected neurophysiological processes.			
6786	Music Research Methods and Bibliography	G	3
Survey of the methods and materials for conducting research projects in music in today's interdisciplinary computerized environment. Prereq: Grad standing. Not open to students with credit for 786.			
6812	Graduate Voice Diction and Repertoire Coaching	G	2
Coaching the singer in the authentic sound production of the Italian, French, German, and Russian languages. Prereq: Grad standing in Voice. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.			
6835	Composition III	G	2 - 3
Creative writing at the masters level. Prereq: 5635 (635). Repeatable to a maximum of 18 cr hrs or 6 completions.			
6837	Composition with Electronic Media III	G	3
Advanced composition using electronically generated sound material. Prereq: 5637.01 and 5637.02. Repeatable to a maximum of 15 cr hrs.			
6881	Graduate Conducting Seminar	G	1
Discussion in a seminar setting of issues related to the conducting of literature for choral, orchestral, and/or wind ensembles. Prereq: Grad standing, and/or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
6895	Seminar in Music	G	1 - 3
Colloquia, workshops, and special topics seminars in music. Repeatable to a maximum of 24 cr hrs or 8 completions. This course is graded S/U.			
6998	Master's Research Non-Thesis	G	1 - 3
Research projects determined by instructor. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
6999	Research for Master's Thesis	G	1 - 6
Research projects determined by thesis subject. Repeatable to a maximum of 36 cr hrs or 6 completions. This course is graded S/U.			
7194	Graduate Group Studies	G	1 - 3
A specialized topic in music taught in a group setting. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			
7203.01	Chorale	G	1 - 2
Study and performance of advanced choral repertoire. Prereq: Audition and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
7203.03	University Chorus	G	1 - 2
Study and performance of beginning choral repertoire. Prereq: Audition and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
7203.04	Men's Glee Club	G	1 - 2
Study and performance of advanced repertoire for men's chorus. Prereq: Audition and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			

7203.05	Women's Glee Club	G	1 - 2
Study and performance of advanced repertoire for women's chorus. Prereq: Audition and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
7204.01	Wind Symphony	G	1 - 2
Study and performance of repertoire appropriate for wind ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7204.02	Symphonic Band	G	1 - 2
Study and performance of repertoire for symphonic band. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7204.03	Collegiate Winds	G	1 - 2
Study and performance of repertoire determined by specific ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7204.04	University Band	G	1 - 2
Study and performance of repertoire determined by specific ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7205.01	Univ. Marching Band	G	1 - 2
Study and performance of repertoire for marching band. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7205.02	Athletic Band	G	1 - 2
Study and performance of repertoire for athletic band. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7206.01	Jazz Ensemble	G	1 - 2
Study and performance of repertoire determined by specific ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7206.02	Jazz Lab Ensemble	G	1 - 2
Study and performance of repertoire determined by specific ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.			
7207.01	Percussion Ensemble	G	1
Study and performance of repertoire determined by specific percussion ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 10 cr hrs.			
7208.03	Small Ensemble: Strings	G	1
Study and performance of repertoire determined by specific string ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 10 cr hrs.			
7208.04	Small Ensemble: Woodwinds	G	1
Study and performance of repertoire determined by specific woodwind ensemble. Prereq: Grad standing, audition, and permission of instructor. Repeatable to a maximum of 10 cr hrs.			
7208.05	Small Ensemble: Brass	G	1
Study and performance of repertoire determined by specific brass ensemble. Prereq: Grad standing, audition, and permission of instructor. Repeatable to a maximum of 10 cr hrs.			
7208.06	Small Ensemble: Jazz Combo	G	1
Study and performance of repertoire determined by specific jazz ensemble. Prereq: Grad standing, audition, and permission of instructor. Repeatable to a maximum of 10 cr hrs.			
7208.16	Small Ensemble: Gospel Choir	G	1
Study and performance of gospel and spiritual choir literature for mixed chorus. Repeatable to a maximum of 10 cr hrs.			
7208.80	Sonic Arts Ensemble	G	1
Sonic Arts Ensemble is an ensemble - based course focused on the use of the computer and/or electronic technologies in music performance and music composition, along with the development of new technologies (software and hardware) for sonic arts performance. Prereq: Admission by audition. Repeatable to a maximum of 10 cr hrs.			
7208.99	Small Ensemble: Miscellaneous	G	1
Study and performance of repertoire determined by specific ensemble. Prereq: Audition and permission of instructor. Repeatable to a maximum of 10 cr hrs.			
7215.01	University Symphony Orchestra	G	1 - 2
The University Orchestra is an 85-piece orchestra of full instrumentation devoted to the preparation of standard and modern literature. Prereq: Admission by audition. Repeatable to a maximum of 24 cr hrs or 12 completions.			
7612	Piano Pedagogy III	G	3
An analysis of the development of piano technique through readings in pedagogical treatises and applications in standard piano repertoire from various style periods. Prereq: 7611. Not open to students with credit for 613.			
7715	Structure and Function of the Singing Mechanism	G	3
Anatomy and acoustics of the voice as they relate to developmental vocal pedagogy. Prereq: Grad standing.			

326 Music

7727	Keyboard Harmony for Graduate Students	G	2 - 3		
	Application of keyboard musicianship, including sight reading, harmonization of melodies, improvisation, transposition, realization of figured bass and modulation. Prereq: 2264.01 (264.01), 3422 (422), or equivalent with permission of instructor. Not open to students with credit for 727.				
7740	Studies in Music before 1600	G	3		
	Introduction to scholarly issues in the music of the Middle Ages and the Renaissance. Prereq: 2243 or equiv, 4531 or equiv; and grad standing.				
7754	Midwest Summer String Teachers Seminar	G	2		
	Seminar on current materials, music, assessment procedures, and strategies for teaching string/orchestra in the schools. Prereq: Undergrad degree in Music. Repeatable to a maximum of 20 cr hrs.				
7760	Basic Concepts in Music Education	G	3		
	The principles of music education and of the educational and cultural objectives derived from related disciplines which give direction and purpose to the music education program. Prereq: 4586 (586) or 4587 (587), or equivalent. Not open to students with credit for 760.				
7761	Principles of Music Learning	G	3		
	Analysis of the learning process in music as related to problems of music instruction in the public school. Prereq: 4586 (586) or 4587 (587), or equivalent. Not open to students with credit for 761.				
7764	Principles and Practices in Vocal Music Education	G	2		
	Analysis and appraisal of the organization, purpose, and development of the vocal music program in secondary schools. Prereq: 4575 (575). Not open to students with credit for 764.				
7770	Introduction to Research in Music Education	G	3		
	A study of methods of research as applied to problems in school music. Prereq: 4586 (586), 4587 (587), or equivalent. Not open to students with credit for 770.				
7771	Instrumental Techniques	G	2		
	Introduces and reviews pedagogical techniques and instructional strategies for the teaching of brass, woodwind, percussion and string instruments. Prereq: Grad standing. Not open to students with credit for 771.				
7780.05	Piano Accompanying Practicum	G	1 - 2		
	Study of skills needed for success as a collaborative pianist. Prereq: Grad standing in Piano, or permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions.				
7780.11	Opera Scenes	G	3		
	Performance ensemble class devoted to rehearsing and performing scenes from operatic literature. Prereq: 6710 (710), and admission by audition; or permission of instructor. Repeatable to a maximum of 24 cr hrs.				
7780.12	Opera Performance	G	3		
	Performance ensemble class devoted to the rehearsing and performance of full length operas; advanced rehearsal and performance techniques of operatic literature. Prereq: 6710 (710), and admission by audition; or permission of instructor. Repeatable to a maximum of 18 cr hrs.				
7780.20	African Performing Ensemble	G	1		
	Study and performance of repertoire determined by specific ensemble. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs.				
7780.22	Andean Music Ensemble	G	½ - 1		
	In this course students learn to play and perform music from Bolivia, Peru, Ecuador, Chile, Colombia and Argentina. The course explores various musical genres within the Andean region. Students study techniques and methods for playing Andean instruments and learn to sing in Spanish, Quechua and Aymara. Repeatable to a maximum of 10 cr hrs or 10 completions. Cross-listed in Spanish.				
7784	Bibliography for Musicologists	G	3		
	Intensive survey of bibliographic methods and materials in music research. Prereq: Grad standing in musicology.				
7785	Cognitive Ethnomusicology	G	3		
	Topics and issues in historical musicology and ethnomusicology. Prereq: Grad standing.				
7787	Chinese Music	G	3		
	History theory and practices of Chinese music culture with special reference to the socio-cultural conditions of their development. Prereq: Grad standing. Not open to students with credit for 787.01.				
7788	Music of the Arab and Indian Traditions	G	3		
	History theory and practices of Arab and Indian music cultures with special reference to the socio-cultural conditions of their development. Prereq: Grad standing. Not open to students with credit for 787.02 or 787.03.				
7789	African Music: Ideas Forms and Trajectories	G	3		
	Examination of compositional choices and performance conventions in selected musical traditions from Africa. Prereq: 2251 (251), 6672, or AfAm&Ast equivalent; and Grad standing, or permission of instructor. Not open to students with credit for 789 or AfAmAst 789.				
7791	Problems in Instrumental Music Education	G	3		
	Study of the problems encountered in teaching supervising and organization of the instrumental music program. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs.				
7801.21	Applied Music Principal Voice	G	2 - 4		
	Advanced applied voice study with emphasis on musicianship, pedagogical techniques, and literature. Prereq: Enrollment in Master of Arts in Voice Pedagogy program. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7801.31	Applied Music Principal Violin	G	2 - 4		
	Advanced applied violin study with emphasis on musicianship, pedagogical techniques, and literature. Prereq: Enrollment in Master of Arts in String Pedagogy program. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7801.33	Applied Music Principal Cello	G	2 - 4		
	Advanced applied music study with emphasis on musicianship, pedagogical techniques, and literature. Prereq: Enrollment in Master of Arts in String Pedagogy program. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.11	Applied Music - Major - Piano	G	2 - 4		
	A specialized and intense study of the literature and techniques of piano performance. Prereq: Enrollment in Master of Music degree program in piano program. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.21	Applied Music - Major - Voice	G	2 - 4		
	A specialized and intense study of the literature and techniques of vocal performance. Prereq: Enrollment in Masters of Music program in Voice. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.31	Applied Music - Major - Violin	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on violin. Prereq: Enrollment in Master of Music program in String Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.33	Applied Music - Major - Cello	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on cello. Prereq: Enrollment in Master of Music program in String Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.34	Applied Music - Major - Double Bass	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on Double Bass. Prereq: Enrollment in Master of Music program in String Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.41	Applied Music - Major - Flute	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on flute. Prereq: Enrollment in Master of Music program in Woodwind Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.42	Applied Music - Major - Oboe	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on oboe. Prereq: Enrollment in Master of Music program in Woodwind Performance. Repeatable to a maximum of 24 cr hrs.				
7802.43	Applied Music - Major - Clarinet	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on clarinet. Prereq: Enrollment in Master of Music program in Woodwind Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.45	Applied Music - Major - Saxophone	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on saxophone. Prereq: Enrollment in Master of Music program in Woodwind Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.46	Applied Music - Major - Bassoon	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on bassoon. Prereq: Enrollment in Master of Music program in Woodwind Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.51	Applied Music - Major - Horn	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on horn. Prereq: Enrollment in Master of Music program in Brass Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.52	Applied Music - Major - Trumpet	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on trumpet. Prereq: Enrollment in Master of Music program in Brass Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				
7802.53	Applied Music - Major - Trombone	G	2 - 4		
	A specialized and intense study of the literature and performance techniques on trombone. Prereq: Enrollment in Master of Music program in Brass Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.				

7802.55 Applied Music - Major - Tuba **G 2 - 4**
 A specialized and intense study of the literature and performance techniques for tuba. Prereq: Enrollment in Master of Music program in Brass Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.

7802.71 Applied Music - Major - Percussion **G 2 - 4**
 A specialized and intense study of the literature and performance techniques for percussion. Prereq: Enrollment in Master of Music program in Percussion Performance. Repeatable to a maximum of 24 cr hrs or 6 completions.

7803.01 Choral Conducting **G 2**
 Specialization and intense study of choral conducting techniques. Prereq: Placement exam. Open only to conducting majors in the MM curriculum. Repeatable to a maximum of 8 cr hrs.

7803.02 Orchestral Conducting **G 2**
 Specialization and intense study of orchestral conducting techniques. Prereq: Placement exam. Open only to Conducting majors in the MM curriculum. Repeatable to a maximum of 8 cr hrs.

7803.03 Wind Conducting **G 2**
 Specialization and intense study of band conducting techniques. Prereq: Placement exam. Open only to Conducting majors in the MM curriculum. Repeatable to a maximum of 8 cr hrs.

7805.01 Masters Thesis Recital **G 2**
 Preparation and presentation of musical literature in solo performance. Prereq: Grad standing in the School of Music, and permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

7805.02 Masters Degree Recital: Concerto **G 2**
 Preparation and presentation of repertoire from the concerto literature. Prereq: Grad standing in the School of Music, and permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

7810.11 Practicum in Teaching Applied Piano **G 3**
 A critical analysis of various methods, principles, practices, and materials current in teaching applied music. Prereq: 5613, and Grad standing. Repeatable to a maximum of 6 cr hrs.

7810.30 Music Pedagogy: String Instruments **G 3**
 A critical analysis of various methods, principles, practices, and materials current in teaching applied music. Prereq: Grad standing, and enrollment in Music program, and minimum 6 hours in applied string instruction. Repeatable to a maximum of 6 cr hrs.

7810.40 Music Pedagogy: Woodwind Instruments **G 3**
 A critical analysis of various methods, principles, practices, and materials current in teaching applied music. Prereq: Grad standing, and enrollment in Music program, and minimum 6 hours of applied woodwind instruction. Repeatable to a maximum of 6 cr hrs.

7810.50 Music Pedagogy: Brass Instruments **G 3**
 A critical analysis of various methods, principles, practices, and materials current in teaching applied music. Prereq: Grad standing, and enrollment in Music program, and minimum of 6 hours of applied brass instruction. Repeatable to a maximum of 6 cr hrs.

7814 Observation and Practice of Vocal Pedagogy **G 2**
 An analysis of the principles and current practices in the teaching of voice. Prereq: Grad standing. Repeatable to a maximum of 4 cr hrs.

7815 Seminar for Singing Health Specialists **G 3**
 Required seminar for candidates in the Singing Health Specialization to enable coordination of skills, concepts, and practices necessary for successful SHS certification. Prereq: Admission to Singing Health Specialization. Not open to students with credit for SphHrg 7815.

7829.01 Scale Theory: Transformation and Tonality **G 3**
 Formal approaches to the theory of musical scales, with the premise that the distinct subfields of theory and transformational theory speak to fundamental questions of tonality. Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs.

7829.03 Compositional Modeling and Musical Allusion **G 3**
 Analysis of possible instances of composers who used the work of predecessor as models; interaction in such cases with notions of musical allusion. Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs.

7829.04 Studies in Meter and Rhythm **G 3**
 Theory of meter and rhythm in music; work by Ler Dahl, Jackendoff, Hasty and London; compositional strategies for creating musically interesting rhythms and surfaces. Prereq: Grad standing. Repeatable to a maximum of 12 cr hrs.

7829.05 Special Topics in Theory **G 3**
 Critical examination of major contemporary theoretical viewpoints; concepts of theory construction; topics will vary each semester. Prereq: Grad standing. Repeatable to a maximum of 18 cr hrs.

7835 Composition IV **G 2 - 3**
 Creative writing of large forms at an advanced level. Prereq: 6835 or equivalent. Repeatable to a maximum of 18 cr hrs or 6 completions.

7838 Music Psychology **G 3**
 This course will provides an overview of the field known as music psychology. The main areas of interest are the perception and cognition of music.

7852.01 Performance Literature: Piano **G 2**
 Intensive study of representative piano literature from each style period. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

7852.02 Performance Literature: Voice **G 2**
 Intensive study of representative voice literature from each style period. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 16 cr hrs.

7852.04 Performance Literature: Woodwinds **G 2**
 Intensive study of representative woodwind literature from each style period. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

7852.05 Performance Literature: Brass **G 2**
 Intensive study of representative brass literature from each style period. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

7852.07 Performance Literature: Percussion **G 2**
 Intensive study of representative percussion literature from each style period. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

7905 Doctoral Preliminary Recital **G 2**
 Intended for the graduate student who is preparing for the preliminary doctoral recital. Prereq: Grad standing, and permission of instructor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

8193 Individual Studies **G 1 - 3**
 Independent study on a special problem or topic in music. Prereq: Doctoral standing, and permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.

8810.31 String Pedagogy for Applied Teaching **G 3**
 Examination of pedagogy and repertoire for teaching beginning and intermediate string instrument lessons in an applied studio. Prereq: Grad standing, and enrollment in Music program. Not open to students with credit for 810.31.

8810.32 Pedagogy for Beginning Lower Strings **G 3**
 Examination of pedagogy and instructional materials designed to teach first and second year cello and bass playing skills. Prereq: Music major enrolled in the Master of Arts String Pedagogy degree program. Not open to students with credit for 810.32.

8820 Music Theory Pedagogy **G 3**
 Teaching of music theory in secondary schools and colleges; evaluation and application of the most effective teaching methods and principles in teaching music theory. Prereq: Grad standing, and enrollment in Music program.

8823.01 20th Century Tone Structures: Sets and Series **G 3**
 Fundamental approaches to the analysis of post-tonal music, focusing on aspects of pitch, including Babbitt's serial theory, Forte's set theory, and elements of Lewin's transformational theory. Prereq: 5613 (613), or permission of instructor. Not open to students with credit for 823.

8823.02 Transformational Theory and Analysis **G 3**
 Studies in transformational approaches to music; problematic aspects of tonal music; tonally dissolute music of the 19th and 20th centuries. Prereq: 5623 (623). Not open to students with credit for 823.

8824.02 Computational Musicology II **G 3**
 The use of computers in music research and instruction; music data structures and programming routines for music research and instruction. Prereq: 5621 (621), 5622 (622), or 5623 (623), or equivalent; or permission of instructor. Not open to students with credit for 824.01.

8826 Development of Music Theory I **G 3**
 A study of the principal treatises on music theory from before 1400 to 1700. Prereq: 5621 (621), 5622 (622) or 5623 (623), or equiv, or permission of instructor. Not open to students with credit for 826.

8827 Development of Music Theory II **G 3**
 A study of the principal treatises on music theory from 1700 to 1900. Prereq: 5621 (621), 5622 (622), or 5623 (623), or equivalent; or permission of instructor. Not open to students with credit for 827.

8837 Composition with Electronic Media IV **G 3**
 Advanced composition using electronically generated sound material. Prereq: 6837 (837). Repeatable to a maximum of 15 cr hrs.

8838.01 Topics in Music Cognition **G 3**
 Critical survey of perceptual, cognitive, affective or neuroscience research related to music. Prereq: Permission of instructor. Not open to students with credit for 838.

8850 History of Performance Practices **G 3**
 A study of primary sources pertaining to contemporary attitudes and practices in the performance of music from the Middle Ages to the present. Prereq: Grad standing. Not open to students with credit for 850.

8852.04 Performance Literature - Woodwinds **G 2**
 Concentrated study of representative woodwind literature from each style period. Prereq: 7852.04 (752.04), or Doctoral standing. Repeatable to a maximum of 8 cr hrs.

328 Music

8852.05	Performance Literature - Brass	G	2
Concentrated study of representative brass literature from each style period. Prereq: 7852.05 (752.05), or Doctoral standing. Repeatable to a maximum of 8 cr hrs.			
8852.07	Performance Literature: Percussion	G	2
Concentrated study of representative percussion literature from each style period. Prereq: 7852.07, 752.07, or Doctoral standing. Not open to students with credit for 852.07. Repeatable to a maximum of 8 cr hrs.			
8860.01	Wind Conducting Repertoire	G	3
Concentrated study of instrumentation and repertoire of bands in Western music from the standpoint of the conductor. Prereq: DMA conducting major, or permission of instructor. Not open to students with credit for 860.01.			
8860.02	Choral Conducting Repertoire	G	3
Concentrated study of choral literature from the Renaissance to the present. Prereq: DMA conducting major, or permission of instructor. Not open to students with credit for 860.02.			
8860.03	Orchestral Conducting Repertoire	G	3
Concentrated study of orchestral repertoire from Monteverdi through the present from the standpoint of the conductor. Prereq: DMA conducting major, or permission of instructor.			
8872	Qualitative Research in Music	G	3
This course will examine principles of qualitative research design in social sciences and their application to music teaching and learning. Prereq: Doctoral standing, or permission of instructor.			
8874	Seminar: The Development of Music Education	G	3
Development of music education from the early Greek society to the present day tracing major trends and persons of influence. Prereq: Grad standing. Not open to students with credit for 874.			
8875	Seminar: Psychological Factors in Music Education	G	3
A study of the psychological factors, theory, and research in the musical development of children and adolescents with implications for school music education programs. Prereq: 7761 (761). Not open to students with credit for 875.			
8877	Seminar: Social Factors in Music Education	G	3
A study of the social influences on music education and their relationship to primary and secondary music programs and practices. Prereq: 7760 (760). Not open to students with credit for 877.			
8879	Seminar: Music in Higher Education	G	3
The role of music in higher education historically and in contemporary times, including its philosophical bases, degree programs, and organizations. Prereq: Grad standing. Not open to students with credit for 879.			
8885	Fieldwork in Ethnomusicology	G	3
A study of the theory and practice of ethnomusicological fieldwork. Prereq: Grad standing, and enrollment in Music program. Repeatable to a maximum of 6 cr hrs.			
8886	Theories and Methods of Musicology	G	2
This course serves as an intensive and immersive seminar on current trends, direction, ideas, and orientations in the field of musicology. Students read, reflect on, and discuss a series of recent monographs in the discipline, books which challenge, reimagine, and seek to further develop (or critique) what it means to do (and, for some, undo) musicology today. Prereq: Grad standing, and enrollment in Music program. Repeatable to a maximum of 4 cr hrs.			
8895	Seminar in Music	G	1 - 3
Colloquia, workshops, and special topics seminars in music. Repeatable to a maximum of 24 cr hrs or 8 completions. This course is graded S/U.			
8902.11	Applied Music - Major - Piano	G	2 - 4
Advanced study of music literature in piano performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.21	Applied Music - Major - Voice	G	2 - 4
Advanced study of music literature in voice performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.31	Applied Music - Major - Violin	G	2 - 4
Advanced study of music literature in violin performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.32	Applied Music - Major - Viola	G	2 - 4
Advanced study of music literature in viola performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.33	Applied Music - Major - Cello	G	2 - 4
Advanced study of music literature in cello performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.41	Applied Music - Major - Flute	G	2 - 4
Advanced study of music literature in flute performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			

8902.42	Applied Music - Major - Oboe	G	2 - 4
Advanced study of music literature in oboe performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.43	Applied Music - Major - Clarinet	G	2 - 4
Advanced study of music literature in clarinet performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.45	Applied Music - Major - Saxophone	G	2 - 4
Advanced study of music literature in saxophone performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.46	Applied Music - Major - Bassoon	G	2 - 4
Advanced study of music literature in bassoon performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.51	Applied Music - Major - Horn	G	2 - 4
Advanced study of music literature in horn performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.52	Applied Music - Major - Trumpet	G	2 - 4
Advanced study of music literature in trumpet performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.53	Applied Music - Major - Trombone	G	2 - 4
Advanced study of music literature in trombone performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.55	Applied Music - Major - Tuba	G	2 - 4
Advanced study of music literature in tuba performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8902.71	Applied Music - Major - Percussion	G	2 - 4
Advanced study of music literature in percussion performance. Prereq: Enrollment in DMA program. Repeatable to a maximum of 40 cr hrs or 10 completions.			
8903.01	Advanced Wind Conducting	G	4
Study of advanced wind conducting technique and application to appropriate repertoire. Prereq: Enrollment in DMA conducting program. Repeatable to a maximum of 24 cr hrs.			
8903.02	Advanced Choral Conducting	G	4
Study of advanced choral conducting technique and application to appropriate repertoire. Prereq: Enrollment in DMA conducting program. Repeatable to a maximum of 24 cr hrs.			
8903.03	Advanced Orchestral Conducting	G	4
Study of advanced orchestral conducting technique and application to appropriate repertoire. Prereq: Enrollment in DMA conducting program. Repeatable to a maximum of 24 cr hrs.			
8905	Doctoral Recital	G	2
Intended for the graduate student who is preparing a doctoral recital. Prereq: 7905. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.			
8950	Seminar in Musicology	G	3
Research topic in musicology to be determined by the area. Prereq: Grad standing. Repeatable to a maximum of 30 cr hrs.			
8998	Doctoral Research Non-Thesis	G	1 - 3
Research for non-thesis purposes. Prereq: Grad standing. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			
8999	Research for Dissertation or Document	G	1 - 5
Research for dissertation or document purposes. Prereq: Grad standing. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.			

Naval Science

1101	Freshmen Leadership Lab	U	1
An introduction to the practical application of basic leadership principles in the United States Navy and United States Marine Corps. Prereq: Not open to students with credit for 111. This course is graded S/U.			
1102	Freshmen Leadership Lab	U	1
A continued practical application of basic leadership principles in the United States Navy and United States Marine Corps. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.			
1110	Survey of Naval Science	U	3
Introduction to and survey of disciplines peculiar to naval science including naval tasks & missions, regulations, customs, traditions, & organizational relationships. Students must contact Naval Science Department (292-6015) for orientation program. Prereq: Enrollment in NROTC Unit, or permission of instructor. Not open to students with credit for 111.			
1210	Sea Power and Maritime Affairs Seminar	U	3
An analysis of maritime affairs as related to the United States naval forces, from the Revolutionary War to present day. Students must contact Naval Science Department (292-6015) for Naval ROTC program information. Prereq: 1110, or permission of instructor. Not open to students with credit for 121 and 131.			

2001 Sophomore Leadership Lab I U 1
 An intensified employment of leadership principles and practices relevant to future Navy and Marine Corps officers. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.

2002 Sophomore Leadership Lab II U 1
 A continued employment of leadership principles and practices relevant to future Navy and Marine Corps officers. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.

2110 Navigation I U 3
 A study of navigation and piloting vessels at sea, including the determination of position by dead reckoning, visual bearings, and electronic methods. Prereq: Not open to students with credit for 211 and 221.

2210 Navigation II U 3
 A study of fleet operations including operations and tactics including the study of relative motion of ships at sea, maneuvering board, tactics, and naval communications. Prereq: 2110, or permission of instructor. Not open to students with credit for 221 and 431.

3001 Junior Leadership Lab I U 1
 An advanced application of leadership theory, skills, and practices for perspective Navy and Marine Corps officers. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.

3002 Junior Leadership Lab II U 1
 A continuation of the advanced application of leadership theory, skills, and practices for perspective Navy and Marine Corps officers. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.

3110 Naval Ship Systems U 3
 Study of fundamental thermodynamics, conventional and nuclear ship propulsion systems. For Naval ROTC program information, contact 292-6015. Prereq: Permission of instructor. Not open to students with credit for 311 and 321.

3210 Naval Mission Systems U 3
 Applications of naval weapons systems as they relate to the ships of today's Navy. Theoretical presentation of fundamental weapons concepts including electromagnetic principles, feedback controls, and basic ballistics. Prereq: 3110 (311 and 321). Not open to students with credit for 321 and 331.

3510 Evolution of Warfare U 3
 A study of the evolution of weapons and tactics, illustrating the principles and variables of war used in certain battles from Alexander through the present day. For ROTC program information, contact 292-6015. Prereq: 1210 (121 and 131). Not open to students with credit for 351 and 352.

3530 Modern Basic Military Strategy and Tactics U 2
 Prepares future Marine Corps Officers by studying modern tactical principles, current military developments, & conducting physical fitness training. This course is only open to those students preparing to attend Marine Corps Officer Candidate School. Prereq: Not open to students with credit for 353.

4001 Senior Leadership Lab I U 1
 A culmination of the knowledge, skills, theory, and leadership practices acquired in the Navy ROTC program to ensure that prospective Navy and Marine Corps officers are ready to receive a commission in the United States military. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.

4002 Senior Leadership Lab II U 1
 A continued culmination of the knowledge, skills, theory, and leadership practices acquired in the Navy ROTC program to ensure that prospective Navy and Marine Corps officers meet all necessary requirements for commissioning as military officers. Prereq: Enrollment in Navy ROTC program. This course is graded S/U.

4110 Leadership and Management U 3
 A seminar study of effective leadership in a military setting involving examples from Naval history as well as modern business management practices. Prereq: Enrollment in NROTC program, or permission of instructor. Not open to students with credit for 231.

4210 Leadership and Ethics U 3
 A study of issues relating to naval law, the Uniform Code of Military Justice and the moral principles involved in making informed decisions as a military officer. Prereq: Enrollment in NROTC program, or permission of instructor. Not open to students with credit for 411.

4510 Amphibious & Expeditionary Warfare U 3
 A study of the concepts and evolution of amphibious warfare from history through present. For Navy ROTC program information, contact 292-6015. Prereq: 1210 (131 and 131), or permission of instructor. Not open to students with credit for 451 and 452.

4520 Fundamentals of Maneuver Warfare U 3
 This course prepares future military officers and other leaders for service by studying modern tactical principles, current military developments, and other aspects of warfare and their interactions with and influences on maneuver warfare doctrine. There is a specific focus on the United States Marine Corps as the premier maneuver warfighting organization.

1125 Stories of Belonging and Difference in the Middle East and South Asia U 3
 This course will read and analyze a variety of short stories to illuminate different cultures of the Middle East and South Asia. The goal of the course is to introduce students to diverse cultures through literature. Students will become familiar with a variety of literary representations, social structures and religious, ethnic and racial diversity after the completion of this course. GE lit and diversity global studies course. GE foundation race, ethnicity and gender div course.

2194 Group Studies U 1 - 5
 Special topics to be announced in the semester previous to the one in which the course is offered. Prereq: Permission of instructor or department. Repeatable to a maximum of 15 or hrs or 5 completions.

2200 Introduction to the Modern Middle East U 3
 This course presents students with a multidisciplinary analysis of diversity and change in the modern Middle East. The ultimate goal of the course is to provide students with an enlarged perspective of the political, economic, social and theological issues in the Middle East and its diaspora, with close attention to diverse social categories such as race, religion, gender and ethnicity. Prereq: Not open to students with credit for IntStds 2200. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci and race, ethnicity and gender div course. Cross-listed in IntStds.

2211 The Ancient Near East U 3
 The ancient history of Mesopotamia, Egypt, Anatolia, Persia, Israel, and the Levant to the establishment of the Persian Empire. Prereq: Not open to students with credit for History 2211. GE historical study course. Cross-listed in History. GE foundation historical and cultural studies course.

2241 The Middle East Close-Up: People, Cultures, Societies U 3
 Introduction to the culture of the Middle East as lived in its villages, towns, and cities. Prereq: Not open to students with credit for Anthrop 2241. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies and race, ethnicity and gender div course. Cross-listed in Anthrop.

2244 Films of the Middle East U 3
 Overview of contemporary films from different Middle Eastern countries; how filmmakers of the region view, present, and construct their countries using particular modes of representation. Prereq: English 1110. GE VPA and diversity global studies course.

2680 It's The End of The World!: Apocalypticism in Christianity, Judaism, and Islam U 3
 This course will explore how the end of the world-generally understood to be preceded by enormous wars and disasters as well as the judgment of people and a reckoning of their deeds-was imagined over two millennia by Christians, Jews, and Muslims. The course will cover primary and secondary historical works, as well as fictional bestsellers, about the apocalypse from around the world. Prereq or concur: English 1110.xx, or completion of GE Foundation Writing and Information Literacy Course, or permission of instructor. Not open to students with credit for History 2680. GE historical study and diversity global studies course. GE foundation historical and cultural studies and lit, vis and performing arts course. Cross-listed in History.

2798.01 Experiencing Everyday Life in South Asia U 3
 Introduces students to the history, politics, cultures, and identities of India. Students explore religious and historical sites (of New Delhi, Varanasi, Agra, Mathura, and Vrindavan), experience the political and cultural currents within the country, and see firsthand the broad spectrums of influences that various human movements have made on the landscape of India. Prereq: 3620 or CompStd 3620, and admission to program. GE education abroad course.

3025 Citizenship and Diaspora: Living in Between Countries and Cultures U 4
 This course examines histories, lived experiences, and artistic representations of citizenship and diaspora. Over the course of the semester, we will focus on South Asia, specifically India/Pakistan, and the Middle East, specifically Israel/Palestine, two societies in which citizenship and diaspora have been particularly significant and complex, as well as diasporic communities in the US. Prereq: Not open to students with credit for SAsia 3025. GE theme citizenship for div and just wrld course. Cross-listed in SAsia.

3111 Ancient Empires U 3
 This is an introduction to the history and cultures of the ancient empires of southwestern Asia, focusing on the period from the Akkadian empire to the establishment of Islam (ca 2340 BCE - ca 750 CE). Prereq: English 1110. GE historical study course. GE foundation historical and cultural studies course.

3204 The Middle East in the Media U 3
 Examination of contemporary Middle Eastern cultures through critical evaluation of the media which inform our understanding of international politics. Prereq: English 1110 (110). Not open to students with credit for 344. GE cultures and ideas and diversity global studies course.

3667 Messages from Beyond: Divination, Prophecy, and the Occult in Religion and Culture U 3
 In this course, we will explore how people from antiquity to our time have sought to find meaning in the complexity and uncertainty around their physical and social environment to access what they perceived as hidden realms as sources of meaning. Students will learn how messages from beyond guide their daily lives, provide them with sources of authority or companionship for their art of philosophy. Prereq: Not open to students with credit for RelStds 3667. GE theme lived environments course. Cross-listed in RelStds.

Near Eastern Languages and Cultures

330 Near Eastern Languages and Cultures

3689 Words Across the World U 3

Language, at the heart of our social life, drives much of what humans do: converse, convey beliefs & views, label, categorize, include & exclude people. We'll critically examine how we use language to interact with our lived environments (LE) & analyze & discover ways in which words are used & manipulated to impact our LE & how changes & developments in our LE can have a direct effect on language. Prereq: Not open to students with credit for German 3689 or Spanish 3689. GE theme lived environments course. Cross-listed in German and Spanish.

3700 Mythology of Ancient Egypt and Mesopotamia U 3

An introductory comparative survey of the mythology of ancient Egypt and Mesopotamia. Prereq: English 1110, or GE foundation writing and info literacy course. GE cultures and ideas and diversity global studies course. GE theme lived environments course.

4601 Israeli and Palestinian Literature U 3

An exploration of Israeli and Palestinian history, identity and conflict using a variety of Arabic and Hebrew texts in translation. Prereq: English 110.

4998H Honors Research in Near Eastern Languages and Cultures U 1-3

Offers undergraduate honors students an advanced opportunity to do independent study and research beyond normal coursework. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

4999 Undergraduate Thesis U 1-3

Offers undergraduates with special aptitudes the opportunity to do independent study and research leading to a thesis. Prereq: Sr standing with an average of B in all NELC classes. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

4999H Undergraduate Honors Thesis U 1-3

Offers undergraduates with special aptitudes the opportunity to do independent study leading to an honors thesis. Prereq: Honors, Sr standing with an average of B in all work in NELC, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

5020 Oligarchs, Penthouses, and Yachts, The Global Lives and Times of Eurasian Elites U G 3

Who are the rich and powerful people in Russia, China, Middle East, and Central Asia? How do these Eurasian elites live? What enables them to accumulate so much wealth and influence, and what kinds of business and pleasure do they pursue in global arenas? Unlike many courses that study governments, this course focuses on the privileged classes of Russia, China, and the Muslim-majority world. Prereq: Not open to students with credit for IntStds 5020 or Slavic 5020. Cross-listed in IntStds and Slavic.

5061 The Global Mediterranean U G 3

This course examines the governments, societies, and cultures of the littoral states (empires/nations) of the Mediterranean Sea. We will pay attention to the 'East/West' paradigm as a prism through which to examine past and present events. Prereq: Not open to students with credit for Italian 5061 or CompStd 5016. Cross-listed in Italian and CompStd.

5101 Introduction to the Field of Near Eastern Languages & Cultures U G 1

Offers a concise introduction to the field of Near Eastern Languages and Cultures and its close cognates, focusing on the history and constitution of institutional bases for the study of the Near East. Prereq: Jr or Sr standing, and Arabic, Hebrew, or Islamic Studies major; or Grad standing.

5103 Grammar of Selected Ancient Near Eastern Languages U G 3

Fundamentals of grammar and reading in ancient Near Eastern languages (e.g. Egyptian, Coptic, Sumerian, Babylonian, Northwest Semitic dialects, Syriac). Prereq: Knowledge of a Semitic language, or permission of instructor. Repeatable to a maximum of 12 cr hrs.

5111 Comparative Semitic Linguistics U G 3

An introduction to the study of comparative Semitic linguistics. Prereq: Permission of instructor. Not open to students with credit for JewshSt 5111.

5120 Biblical Aramaic U G 3

Introduction to the language of the Aramaic sections of the books of Daniel and Ezra in the Old Testament. Prereq: Hebrew 1103 (104), or permission of instructor. Not open to students with credit for 620.

5121 Jewish Aramaic U G 3

Provides students grammatical and textual skills to read Jewish post-biblical Aramaic and to introduce them to some of the most important texts written in the language. Introduces grammar of Jewish Aramaic, dialectal differences among the Aramaic of the Dead Sea Scrolls, Palestine, and Jewish Babylonia, and how these differences are reflected in the manuscript and inscriptional evidence. Prereq: Hebrew 1103, or permission of instructor.

5125 Syriac I U G 3

Introduction to Syriac.

5126 Syriac II U G 3

Continuation from NELC 5125 Introduction to Syriac (Syriac I). Prereq: 5125, or permission of instructor.

5130 Ugaritic U G 3

Introduction to the language and literature of Ugaritic; readings in the Ugaritic mythological literature. Prereq: Permission of instructor. Not open to students with credit for JewshSt 5130.

5150 Akkadian I U G 3

Examination of the basics of Akkadian grammar; introduction to a variety of literary and non-literary texts and genres. Prereq: Permission of instructor. Not open to students with credit for 635.01.

5193 Individual Studies U G 1-10

Individual studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

5194 Group Studies U G 1-10

Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions.

5204 Culture and Politics in Central Asia U G 3

Comparative study of cultural legacy and change, including religious and secular life and civil society development, in relation to political trends in Central Asia. Prereq: Jr standing, or permission of instructor. Not open to students with credit for 644.

5401 Methodologies for the Study of Ancient Religions U G 3

Introduction to the methodologies and the scholars who have significantly influenced the study of ancient religion. Prereq: Not open to students with credit for Clas 5401. Cross-listed in Clas.

5568 Studies in Orality and Literacy U G 3

Examination of major theories of writing and of oral composition and transmission, in juxtaposition to case material deriving from a variety of Middle Eastern cultures. Prereq: Permission of instructor. Not open to students with credit for 648 or CompStd 5668 (648). Cross-listed in CompStd 5668.

5645 Contemporary Issues in the Middle East U G 3

Intensive examination of contemporary issues in the Middle East by applying an interdisciplinary approach. Prereq: 2200 or 245, or Jr standing. Cross-listed in IntStds.

5797 Study at a Foreign Institution U G 1-15

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of department. Repeatable to a maximum of 30 cr hrs or 5 completions.

6998 NELC MA Exams G 1-3

Preparation for exams for Master of Arts in Near Eastern Languages and Cultures. Prereq: Master's student in NELC. This course is graded S/U.

6999 NELC MA Thesis G 1-4

Thesis preparation for Master of Arts in Near Eastern Languages and Cultures. Prereq: MA student in NELC. This course is graded S/U.

7301 Theorizing Literature G 3

Accelerated introduction to literary theory and criticism, surveying significant developments in modern and contemporary literary and cultural studies. Prereq: Grad standing, or permission of instructor(s). Not open to students with credit for CompStd 7301. Cross-listed in CompStd 7301.

7501 Narratives of Origin: The Islamic Tradition G 3

How the contours of the Islamic narrative fare in a source-critical context. Prereq: Grad standing, or permission of instructor(s).

7998 Candidacy Exams in Near Eastern Languages & Cultures G 1-8

Preparation for Candidacy Exams in Near Eastern Languages and Cultures. Prereq: PhD student preparing for Candidacy exams. This course is graded S/U.

7999 Research for NELC Dissertation Prospectus G 1-3

Doctoral dissertation prospectus research in Near Eastern Languages and Cultures. Prereq: PhD candidate. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

8189 Field Research in Near Eastern Languages & Cultures G 1-3

Field research for doctoral dissertation in Near Eastern Languages & Cultures. Prereq: PhD candidate. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

8998 Doctoral Research in Near Eastern Languages and Cultures G 1-3

Doctoral dissertation research in Near Eastern Languages and Cultures. Prereq: PhD candidate. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

8999 Dissertation Writing in Near Eastern Languages and Cultures G 1-3

Doctoral dissertation writing in Near Eastern Languages and Cultures. Prereq: PhD candidates. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

Neurological Surgery

6193 Independent Studies in Neurological Surgery G 1-40

Independent research in neurological surgery. Repeatable to a maximum of 40 cr hrs or 40 completions. This course is graded S/U.

8999 Research in Neurological Surgery **G 1 - 18**
 Research for Thesis only. Repeatable to a maximum of 18 or hrs or 18 completions. This course is graded S/U.

Neurology

6000 Health Services Research Seminar Semester I **G 2**
 This course will introduce emerging HSR researchers to major core content areas within HSR, help them to develop an understanding of basic methodological approaches to executing HSR and address topics such as professional and ethical norms in HSR research. The series will use a combination of seminars, faculty-guided individual projects, and small group project work. Prereq: Clinical degree (e.g., MD, RN, DPT), or PhD in HSR-related discipline.

6010 Health Services Research Seminar Semester II **G 2**
 This is the second half of the course to introduce emerging HSR researchers to major core content areas within HSR, help them to develop an understanding of basic methodological approaches to executing HSR and address topics such as professional and ethical norms in HSR research. The series will use a combination of seminars, faculty-guided individual projects, and small group project work. Prereq: Clinical degree (e.g., MD, RN, DPT), or PhD in HSR-related discipline.

6100 Survey of Quantitative Methods for Health Services Research **G 3**
 Lecture will introduce analytic technique, outline the main assumptions, demonstrate execution of the technique with statistical analytic code and instruct on how results of the technique may be interpreted. Learners will be provided w/ exemplar HSR papers that apply the technique & use. Interpretation of those findings will be discussed. Workshops will allow for application of skills. Prereq: Clinical degree (e.g., MD, RN, DPT), or PhD in HSR-related discipline.

8998 Pre-Candidacy Research in Neurology (Laboratory) **G 1 - 8**
 This course provides an opportunity for graduate-level research in the fields of Neurology. This course will allow pre-candidacy PhD students the opportunity to obtain research skills and knowledge by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs or 8 completions. This course is graded S/U.

8999 Research **G 1 - 15**
 Research for thesis or dissertation. Repeatable. This course is graded S/U.

Neuroscience Department

1100 Neuroscience Survey Course **U 1**
 This course will introduce students to the Neuroscience curriculum, explore degree requirements, develop a personalized academic/vocational plan, aid in professional development, familiarize students with academic resources and support services, and establish a relationship with an academic advisor.

1100H Neuroscience Honors Survey Course **U 1**
 Introduces students to the Neuroscience curriculum, explore degree requirements, develop a personalized academic/vocational plan, aid in professional development, familiarize students with academic resources and support services and establish a relationship with an academic advisor. Prereq: Honors standing.

3000 Cellular and Molecular Neuroscience **U 3**
 Course covering cellular and molecular organization of the nervous system. Prereq: Biology 1113 (113) or 1113H (115H), or permission of instructor. Not open to students with credit for NeuroSc 300.

3010 Introduction to Neurophysiology **U 3**
 The course will discuss basic principles of neurophysiology working from the level of the ion channel to the whole system. Prereq: 3000 or 3050, or permission of instructor. Admis Cond course.

3025 History of Neuroscience **U 3**
 Designed for neuroscience majors or non-majors. We will look at the discovery that demonstrated that different areas of the brain serve different functions, the mind-body argument, the birth of experimentation in the brain, and the discovery of neurons, neurotransmitters and neural communication. We will look into the lives of some of the major neuroscientists and their discoveries.

3050 Structure and Function of the Nervous System **U 3**
 Basic principles of the anatomical and neurophysiological organization of the nervous system. Prereq: 3000. Admis Cond course.

3191 Internship in Neuroscience **U 1 - 15**
 Neuroscience students have the opportunity to combine classroom theory with practical application through job-related experiences during a neuroscience related internship (Department Approval of Internship Site is Required). Maximum of 3 credit hours of any combination of Neurosc 3191 and Neurosc 3193 can be applied to the Breadth Requirements of the major. Prereq: GPA 2.0 or above, and enrollment in Neuroscience, and permission of instructor. Repeatable to a maximum of 15 or hrs or 5 completions.

3193 Individual Studies **U 1 - 15**
 This course enables students to pursue research in the field of Neuroscience under the guidance of a Neuroscience faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 99 or hrs or 10 completions. This course is graded S/U.

3305 Introduction to Neuropharmacology **U 3**
 The class will help students understand the effects drugs have on the brain and behavior by introducing them to pharmacokinetics and pharmacodynamics, explaining how drugs are developed and tested in animal models, outlining learning theory behind drug use and abuse. Students will apply their knowledge to better understand how drugs are effective in the treatment of select neurological conditions. Prereq: A grade of C or above in 3000.

4050H Neurogenetics **U 3**
 This course takes a historical approach to gene discovery in neuroscience: spanning classic mutagenesis studies in simple invertebrate systems to the mapping and identification of neurological disease genes in humans, with stops along the way to explore unique genetic systems and studies, such as the Stanford dog narcolepsy project. Prereq: 3000, or permission of instructor.

4100 Basic and Clinical Foundations of Neurological Disease **U 3**
 Discusses basic and clinical issues related to a variety of neurological disease. Prereq: 3000, or permission of instructor. Admis Cond course.

4425 Neurotrauma: TBI, Stroke, & Spinal Cord Injury **U 3**
 This course will introduce upper-level undergraduate students to the topic of neurotrauma. The first part of the course will focus on the causes of neurotrauma, the effects of neurotrauma on the central nervous system, and comprehensive care of neurotrauma patients. The second part of the course will consist of guest lectures from experts in the field of neurotrauma. Prereq: A grade of C or above in 3000.

4550 Autism Spectrum Disorder and Related Neurodevelopmental Disorders **U 3**
 Autism spectrum disorder (ASD) is a complex neurodevelopmental disorder characterized by repetitive and characteristic patterns of behavior and difficulties with social communication and interaction that has its onset during early childhood. This course will explore different aspects of ASD by examining studies on genetics, neurology, neurobiology early intervention, and behavioral science. Prereq: 3000.

4623 Biological Clocks and Rhythms **U 3**
 The broad variety of biological rhythms of animals and humans, including ultradian, daily, lunar, tidal, and annual cycles. Properties of biological clocks and ways in which rhythms are generated and how they are synchronized to the external environment. Prereq: A grade of C or above in 3000 and Psych 3313. Not open to students with credit for Psych 4623.

4640 Neuronal Signal Transduction **U 3**
 Focuses on the fundamental intracellular signaling events and transcriptional control mechanisms that shape CNS physiology and pathophysiology. The course will describe the basic molecular mechanisms that regulate transcriptional and translational control mechanisms in the nervous system. Cellular signaling pathways will be placed within a relevant context. Prereq: 3000.

4850 Contemporary Topics in Neuroscience **U 3**
 Neuroscience isn't easy, but the intrigue is worth the effort. Welcome to a course where we are going to uncover unexpected truths about the brain and discover fascinating techniques for studying it. You will engage in group scholarly thinking over a series of topics to challenge your understanding and educate your peers. Join us for a sneak peek into the here and now of the brain. Prereq: 3000 and Psych 3313.

4998 Undergraduate Research **U 1 - 15**
 Students will be given credit for participating in a research project in the laboratory of a faculty member in the Department of Neuroscience. Prereq: Permission of instructor. Repeatable to a maximum of 10 completions. This course is progress graded (S/U). Admis Cond course.

4999 Neuroscience Undergraduate Thesis Research **U 1 - 15**
 A program of individual research with a Neuroscience faculty member culminating in a thesis and oral examination. Prereq: Permission of advisor. Repeatable to a maximum of 15 or hrs or 8 completions. This course is graded S/U.

4999H Neuroscience Undergraduate Honors Thesis Research **U 1 - 15**
 A program of individual research with a Neuroscience faculty member culminating in an honors thesis and oral examination. Prereq: Honors standing, and permission of advisor. Repeatable to a maximum of 15 or hrs or 8 completions. This course is graded S/U.

5790H Developmental Neuroscience **U G 3**
 Investigates the molecular, cellular and genetic mechanisms responsible for building nervous systems. The brain is a complex structure, yet it develops from a single sheet of cells. We will discuss how this development tolerates tremendous genetic and environmental variability to assemble a functioning nervous system. Prereq: Honors standing, 3000 and 3050, and Jr or Sr standing. Not open to students with credit for 7900.

6193 Individual Studies **G 1 - 15**
 Enables students to pursue research in the field of Neuroscience under the guidance of a faculty member in the Department of Neuroscience. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs. This course is graded S/U. Admis Cond course.

6194 Group Studies **G 1 - 16**
 Group studies course in which various techniques used in Neuroscience research or specific topics in neuroscience will be taught. Prereq: Permission of instructor. Repeatable to a maximum of 16 or hrs or 4 completions. This course is graded S/U. Admis Cond course.

332 Neuroscience Department

7000.01 Neuroscience Research Techniques G 1 - 30

This will provide the necessary skills for students who have a goal to work research laboratory either in academia or industry. They will be assigned to laboratories where they will become competent in various lab skills including but not limited to animal handling, PCR, immunohistochemistry, genetic screening, CRISPR, maintenance of lab notebooks, basic data analysis. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 4 completions.

7000.02 Neuroscience Education Techniques G 1 - 6

To prepare students for a career in teaching neuroscience in an education setting (e.g., high school science, neuroscience courses at community or small liberal arts colleges). Students students will become competent in developing courses, giving lectures, grading exams, counseling students, etc. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 4 completions.

7001 Foundations of Neuroscience I G 4

Discusses basic principles of the cellular, molecular and neurophysiological, and neuropharmacological organization of the nervous system. Prereq: Permission of instructor.

7002 Foundations of Neuroscience II G 4

Discusses the organization of select systems in the nervous system including motor, sensory, autonomic, and higher cognitive centers. Course will cover anatomical, functional and behavioral concepts. Prereq: Permission of instructor. Cross-listed in Dent 7012.03.

7050 Neurobiology of Disease G 3

Neurobiology of Disease will explore the basis of major diseases affecting the nervous system. Prereq: Permission of instructor.

7100 Current Topics in Neuroscience G 1

In this course students will be assigned journal articles in the field of Neuroscience. They will be expected to discuss the papers in class under faculty guidance. Repeatable to a maximum of 15 cr hrs. This course is progress graded (S/U).

7200.01 Neuroscience Laboratory G 1

Laboratory component of NeuroSc 7002 in which students will learn anatomy of the human brain. Prereq: Permission of instructor. Admis Cond course. Cross-listed in Dent 7012.01.

7350 Glial Biology G 2

The course discusses the ontogeny, structural and functional characteristics, and the biological role of astrocytes, oligodendrocytes, microglia, satellite cells, and Schwann cells in the nervous systems. This course discusses the role of glial cells in the induction/maintenance/regulation of the blood-brain barrier. The course also discusses the pathological role of glial cells in diseases. Prereq: Permission of instructor. Not open to Ugrd students.

7500 Neuroimmunology G 2

Discusses research and clinical applications of inflammatory processes within the central nervous system with special emphasis on neurodegenerative disorders, autoimmune disease, and neurotrauma (e.g., spinal injury). Prereq: Permission of instructor. Admis Cond course.

7600 Neuroscience Capstone Project G 2 - 4

The capstone course is designed to evaluate the student's ability to problem solve, carry out a critical analysis of scientific procedures and/or educational material, and their ability to communicate this information to their peers and instructors in the degree program. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 2 completions.

7715 Principles of Neural Circuit Design and Function G 3

This course will describe how neurons and neural circuits process sensory information and control behavior. It will focus on explaining why neural circuits demonstrate specific organizational principles that are conserved through evolution and fundamental to nervous system function. It is intended to explain theory and provide practical examples through both lectures and interactive discussions. Prereq: Permission of instructor.

8998 Research for Dissertation G 1 - 10

Graduate level research in neuroscience. Prereq: Permission of instructor. Repeatable. This course is graded S/U.

8999 Research for Dissertation G 1 - 10

Graduate level research in neuroscience. Prereq: Permission of instructor. Repeatable to a maximum of 20 completions. This course is graded S/U. Admis Cond course.

Neuroscience Graduate Studies Program

7887 Seminar Topics in Neuroscience G 1

Selected topics in current neuroscience research. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 15 cr hrs.

Nuclear Engineering

2194 Group Studies in Nuclear Engineering U 1 - 4

Special group studies of a selected area of nuclear engineering not provided in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is graded S/U.

2500 Nuclear Sciences and Engineering at The Ohio State University U 1

The course is designed to offer information about careers in Nuclear Sciences and Engineering (NE) and describe NE related opportunities at OSU, such as the NE minor and undergraduate research possibilities. It will also provide an overview of the different areas of Nuclear Engineering research performed at OSU, as well as introduce the students to the NE faculty. This course is graded S/U.

4193 Individual Studies in Nuclear Engineering U 1 - 4

Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions.

4193H Individual Studies in Nuclear Engineering U 1 - 4

Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions.

4194 Group Studies in Nuclear Engineering U 1 - 4

Special group studies of a selected area of nuclear engineering not provided in other courses. Prereq: Permission of Instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

4194H Group Studies in Nuclear Engineering U 1 - 4

Special group studies of a selected area of nuclear engineering not provided in other courses. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

4505 Introduction to Nuclear Science and Engineering U 3

Discussion of nuclear energy and nuclear radiation; sources, methods of utilization, and projections for future engineering uses. Prereq: Math 2153 or above and Physics 1251, or permission of instructor. Not open to students with credit for MechEng 4505. Cross-listed in MechEng.

4506 Undergraduate Nuclear Engineering Laboratory U 3

A laboratory course tailored to undergraduates that will provide hands-on experience with nuclear engineering instrumentation and the OSU Research Reactor. Prereq: 4505 (505) or MechEng 4505 (505); or permission of instructor.

4536 Nuclear Reactor Systems U 3

Introductory course covering concepts of nuclear power reactor systems, thermal and mechanical design aspects and economics of nuclear power plants. Prereq: 4505 (505) or MechEng 4505 (505); or permission of instructor. Not open to students with credit for 6536 (736), MechEng 4536 or 6536 (736). Cross-listed in MechEng.

4701 Introduction to Nuclear Power Engineering U 3

For advanced undergraduates in nuclear engineering focusing on the physics and engineering of nuclear reactors and nuclear power plants. Prereq: 4505 (505) or MechEng 4505 (505); or permission of instructor. Not open to students with credit for 701.

4998 Undergraduate Research in Nuclear Engineering U 1 - 6

Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

4998H Undergraduate Research in Nuclear Engineering U 1 - 6

Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

5001 Interactions of Radiation with Matter U G 3

This is the core course in Nuclear Engineering that will be focused on teaching ionization interactions with matter, including topics on radiation sources, the interaction of charged particles, x-ray, gamma-rays, and neutrons with matter, nuclear structure, cross-section, nuclear reaction, radiation dose, shielding, radiation damage, space radiation, interactions with electronics, MC simulations. Prereq: 4505, or Grad standing in Nuclear Engineering, or permission of instructor.

5002 Reactor Physics U G 3

Fundamental neutron physics concepts. Neutron transport and neutron diffusion. One, two, and multi-group diffusion equation. Analytical and numerical solutions of the diffusion equation. Criticality calculations for diffusion. Heterogeneous reactors and homogenization. Introduction to transport solution techniques. Prereq: 4505 or MechEng 4505, or Grad standing, or permission of instructor. Not open to students with credit for 6708.

5003 Nuclear Reactor Systems and Analysis U G 3

Intermediate-level course covering thermal and mechanical design aspects of nuclear power plants. The thermodynamics of operating nuclear power plants (BWRs and PWRs) are emphasized. Prereq: 4505 or MechEng 4505, and MechEng 3501 or equiv; or Grad standing in MechEng or NuclEn; or permission of instructor. Not open to students with credit for 6536 or MechEng 6536. Cross-listed in MechEng.

5004 Materials in Nuclear Systems U G 3

Develop an understanding of the interactions of materials with radiation and the resulting changes in materials properties. Discussion of common materials in nuclear materials. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 6750 or MatScEn 6750.

5606	Radiation Protection and Shielding	U G	3
General principles of radiation, radioactivity, and radiation protection including radiation sources, radioactive decay, radiation interactions, radiation detection, radiation shielding, radiation dose calculations, and biological effects. Prereq: Math 2153, 2173, 2177 or 153, and Physics 1250 or 133; or Grad standing. Not open to students with credit for 606.			
5610	Reactor Safety	U G	3
Introductory course covering concepts of reactor safety, the history of reactor accidents and methods of safety analysis. Prereq: 4505 (505) or MechEng 4505 (505); or Grad standing; or permission of instructor. Not open to students with credit for 610.			
5735	Nuclear Power Plant Operations	U G	3
Introduction to power plant systems, regulatory requirements, integrated plant operations, and emergency responses. Prereq: 4505 (505) or MechEng 4505 (505); or Grad standing; or permission of instructor. Not open to students with credit for 735 or 745.			
5742	Nuclear Instrumentation, Radiation Sensor and Detection	U G	3
Systematic study of nuclear radiation source, interaction with matter and their detection using gas-filled, semiconductor, Scintillation detectors, HPGe spectrometry, pulse processing, and statistical data analysis.			
5776	Nuclear Fuel Cycle and Radioactive Waste Management	U G	3
Review of the nuclear fuel cycle and radioactive waste management, including uranium mining, milling, conversion, enrichment, fuel fabrication, reactor operations, reprocessing, waste treatment, and disposal. Prereq: 4505 (505) or MechEng 4505 (505); or Grad standing; or permission of instructor.			
6193	Individual Studies in Nuclear Engineering	G	1 - 4
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions.			
6194	Group Studies in Nuclear Engineering	G	1 - 4
Special group studies of a selected area of nuclear engineering not provided in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
6507	Intermediate Numerical Methods	G	3
Numerical techniques and computer algorithms to solve initial and boundary value problems relevant to engineering applications, such as heat conduction and mass diffusion. Prereq: 2850, Math 2174, 2415, or 4512; or Grad standing in MechEng or AeroEng, or NuclrEng; or permission of instructor. Not open to students with credit for MechEng 6507. Cross-listed in MechEng.			
6537	Nuclear Reactor Thermal Hydraulics	G	3
Focuses on heat transfer and fluid flow applications in nuclear power reactor systems, including heat transfer in LWR fuel rods, coolant, and reactor internals. Prereq: 6536 (736) or MechEng 6536 (736), or equiv, or permission of instructor. Not open to students with credit for 737 or MechEng 6537 (737). Cross-listed in MechEng.			
6716	Probabilistic Reliability and Safety Assessment	G	3
Methods underlying probabilistic risk assessment (PRA) and how they are used in assessing the public health risk of nuclear systems. Prereq: 4505 (505), MechEng 4505 (505), Grad standing, or permission of instructor. Not open to students with credit for 5716 (716) or MechEng 5716 (716). Cross-listed in MechEng.			
6725	Nuclear Reactor Dynamics	G	2
Nuclear reactor system transient operation, control mechanisms. Prereq: 6708 (705), or Grad standing; or permission of instructor. Not open to students with credit for 720.			
6726	Reactor Dynamics Laboratory	G	2
Measurement of reactor characteristics and operational parameters using the Ohio State University Research Reactor. Prereq: 6708 or 705. Prereq or concnr: 6725, or Grad standing; or permission of instructor. Not open to students with credit for 744.			
6750	Nuclear Materials and Irradiation Effects in Materials	G	2
Develop an understanding of the interactions of materials with radiation and the resulting changes in materials properties. Discussion of common materials in nuclear materials. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 750 or MatScEn 6750 (750). Cross-listed in MatScEn.			
6766	Nuclear Engineering Design	G	2
A practical experience in the design process within the context of nuclear engineering. Students will be organized into groups. A design project will be specified. Each group will produce and present a final design report. Prereq: NuclrEn MS Core, or permission of instructor.			
6881	Nuclear Engineering Seminar	G	1
Discussions by graduate students and invited eminent speakers of their research projects and topics of interest in nuclear engineering. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 10 cr hrs or 20 completions.			
7865	Neutron Slowing Down and Thermalization	G	3
Neutron slowing down in infinite and finite media, thermal spectrum calculations, and cell calculations in heterogeneous core lattices. Prereq: 6708, 704, 705, or 708; or permission of instructor. Not open to students with credit for 865.			

8193	Individual Studies in Nuclear Engineering	G	1 - 4
Designed to give the advanced student opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions.			
8194	Group Studies in Nuclear Engineering	G	1 - 4
Special group studies of a selected area of nuclear engineering not provided in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			
8717	Dynamic Probabilistic Risk Assessment	G	3
The students will review selected papers on dynamic probabilistic risk assessment. Prereq: 6716 (716), MechEng 6665 (776.01), or 6666 (776.02); or permission of instructor. Not open to students with credit for MechEng 8717. Cross-listed in MechEng.			
8998	Graduate Research in Nuclear Engineering	G	1 - 12
Nuclear Engineering research for thesis. Repeatable. This course is graded S/U.			
8999	Nuclear Engineering Research for Dissertation	G	1 - 15
Research for dissertation purposes only. Repeatable. This course is graded S/U.			

Nursing

1100	Nursing Survey	U	1
Introduction to the university community, the College of Nursing, and the profession of nursing with emphasis on strategies for success, resources, and procedures. Designed for students admitted as freshman. 1100H (honors) may be available. Prereq: Enrollment in pre-Nursing. Not open to students with credit for 100. This course is progress graded (S/U).			
2000	LPN to BSN Bridge Course	U	6
Transition course for the LPN entering the BSN program emphasizing nursing and collaborative interventions utilizing the nursing process and concepts of evidence-informed decision-making to include person-centered, interprofessional, global health, systems perspectives, and population-focused care. Prereq: Enrollment in the LPN to BSN traditional track.			
2100	Introduction to Professional Nursing: Concepts and Practice	U	3
Introduction to professional Nursing and the health care delivery system, its history and evolution, and the examination of the legal and ethical basis for professional practice. Prereq: Admission to the Nursing major. Not open to students with credit for 301.01 or 301.02 or 301.03.			
2105	Introduction to Professional Nursing Practice	U	2
Exploration of personal and professional topics designed to assist in promoting successful transition to the nursing profession in a rapidly changing healthcare environment. Prereq: Admission to the BSNA option program.			
2200	Art of Professional Nursing I	U	2
An introduction to professional nursing emphasizing personal, ethical and aesthetic concepts for evidence-informed decision-making. Prereq: Enrollment in BSN traditional program, or permission of instructor.			
2201	Art of Professional Nursing II	U	2
Application of professional nursing emphasizing personal, ethical and aesthetic concepts for evidence-informed decision-making to include person-centered, interprofessional, and population-focused care. Prereq: 2200, and enrollment in BSN traditional program; or permission of instructor.			
2270	Nursing Care of Adults and Older Adults I	U	5
Nursing knowledge essential to caring for adults and older adults with emphasis on health promotion, risk assessment, disease prevention, and health problems. Prereq: 2100, 2410, and 2450. Not open to students with credit for 402 and 403.			
2271	Foundational Knowledge for Nursing Practice I	U	4
The foundational concepts of professional nurse role with emphasis on nursing's distinct practice perspectives in the provision of nursing care across the lifespan and care settings. Prereq: Enrollment in BSN traditional program.			
2272	Foundational Knowledge for Nursing Practice II	U	4
This course is designed to build upon the knowledge, skills and attitudes acquired in Foundational Knowledge for Nursing Practice I, with a continued emphasis on nursing's distinct practice perspective. Prereq: 2200, 2271, and 2451, and enrollment in BSN traditional program.			
2367	Writing About Healthcare Issues in the United States	U	3
Designed to enhance student's critical and analytical reading and writing skills through a study of current health issues in the United States. Prereq: English 1110 (110) or equiv. Not open to students with credit for 367. GE writing and comm course: level 2. GE foundation writing and info literacy course.			
2410	Health Assessment	U	3
Introduction to the foundational health assessment concepts of Nursing and the assessment skills required in the provision of Nursing care across the lifespan. Prereq: Admission to the Nursing major. Not open to students with credit for 301.01 or 301.02 or 301.03.			

334 Nursing

2420	A Nursing Perspective: Life Span Development of Individuals within a Family Context	U	3		
	Study of growth and development of individuals within a family context from conception to death with an emphasis on assessment and interventions utilized in Nursing practice. Prereq: Admission to the Nursing major. Not open to students with credit for 337.				
2450	Pathophysiology for Nursing Practice	U	3		
	Study of pathophysiology and disease processes across the lifespan as a scientific foundation for nursing practice. Prereq: Admission to Nursing major. Not open to students with credit for 385.01 or 385.02 or 385.03.				
2451	Nursing Pathophysiology and Pharmacology I	U	3		
	Study of introductory concepts in pathophysiology and pharmacology as a scientific foundation for nursing practice. Prereq: Enrollment in BSN traditional program, or permission of instructor.				
2452	Nursing Pathophysiology and Pharmacology II	U	3		
	Study of applied concepts in pathophysiology and pharmacology as a scientific foundation for nursing practice. Prereq: 2451, and enrollment in BSN traditional program; or permission of instructor.				
2460	Introduction to Therapeutic Communication for Health Professionals	U	3		
	Introduction to the process of effective communication and collaboration in health care settings. Prereq: Admission to the Nursing major. Not open to students with credit for 301.01 or 301.02 or 301.03.				
2470	Introductory Pharmacology for Nurses	U	3		
	Introduction to pharmacokinetic principles, drug mechanism of action and nursing implications for common classes of medications. Prospective Graduate Entry Nursing students may enroll in Spring semester by contacting nursing@osu.edu. Prereq: 2100, 2410, 2450, and 2460. Not open to students with credit for 604.				
2500	Introduction to Social Justice and Health Policy	U	1		
	This course is a basic overview of health policy, health care systems and the determinants of health and the effects of the health of populations. Prereq: Enrollment in the BSN traditional program, or permission of instructor.				
2780	Scholarship for Evidence Based Practice	U	3		
	Introduction to and application of foundational concepts, skills and competencies of evidence-based practice (EBP), to support implementation to improve practice and outcomes. Includes overview of research methodologies, concepts and ethics to build critical appraisal skills. Prereq: Enrollment in the Nursing major.				
2781H	Honors Research Methods	U	4		
	Introduction to information literacy, nursing research methods, evidence based practice, the linkages between these areas and how they influence professional nursing practice through direct involvement in the research process. Prereq: Honors standing. Soph standing in the major. Not open to students with credit for 541H.				
2782	Foundational Principles of Evidence-based Practice and Nursing Science	U	2		
	Introduction to and application of foundational concepts, skills and competencies of evidence-based practice (EBP), to support implementation to improve practice and outcomes. Includes overview of research methodologies, concepts and ethics to build critical appraisal skills. Prereq: Enrollment in BSN traditional program.				
2798S	Nursing Short Term Study Abroad Program	U	½ - 4		
	Preparing students for travel and learning experiences abroad. Participant in the College of Nursing short term study abroad program required. Domestic field experiences may be allowable. Prereq: Enrollment in Nursing major, and permission of instructor. Repeatable to a maximum of 4 completions. This course is graded S/U.				
2890.01H	Sophomore Honors Seminar I	U	1		
	Discussion of topics relevant to academic, professional, and personal development in nursing. Prereq: Honors standing, and Soph standing in Nursing. Not open to students with credit for 320.01H, 320.02H, or 320.03H.				
2890.02H	Sophomore Honors Seminar II	U	1		
	Discussion of topics relevant to academic, professional, and personal development in nursing. Prereq: Honors standing, and 2890.01H; or permission of instructor. Not open to students with credit for 320.01, 320.02, or 320.03.				
3110	Experiential Learning for the Innovation Studio: Bringing an idea to Life, From concept to prototype	U	3		
	This is an experiential learning course that provides practical hands-on activities for students interested in product design and development. Students will work directly with the College of Nursing Innovation Studio to design and prototype a physical product while learning how to bring an idea to life, from conception to development through commercialization.				
3115	School Health Roles and Responsibilities	U	3		
	Introduction to the scope of roles and responsibilities involved in school health services locally and globally within school and community settings. Consideration of regulatory directives, health goals and resources. Analysis of skills and factors used to promote healthy school environments. Prereq: Admission to certificate program, or enrollment in the RN to BSN major, or permission of instructor.				
3116	Management of School Health Services	U	3		
	Overview of the strategies for promoting school health on a daily, weekly, and annual basis focusing on health promotion and disease prevention. Prereq: Admission to certificate program, or enrollment in RN to BSN program, or permission of instructor.				
3117	Children with Special Needs in Schools	U	3		
	School health services for children with special needs in schools based on best evidence. Interdisciplinary, legislative, and professional aspects considered. Prereq: Admission to certificate program, or enrollment in RN to BSN program, or permission of instructor.				
3118	Practicum in School Nursing	U	3		
	Supervised school nurse field experience in school setting applying the roles and responsibilities of a school nurse according to state and national standards. Prereq: or concur: 3115, 3116, 3117, and admission to certificate program; or permission of instructor.				
3200	Failure to Rescue: Recognition and Management of Clinical Triggers	U	2		
	Designed to introduce students to ECG interpretation and the clinical and decision-making skills necessary to recognize and respond to changes in patients' conditions. Prereq: Jr standing in Nursing, or professional nurse, or permission of instructor. Not open to students with credit for 525.				
3240	Population Health Local to Global	U	3		
	Study of the concepts of community health nursing, global health issues, policies and strategies that positively influence health outcomes local to global across individuals, communities, populations. Prereq: 1100, or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, and 2782; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.				
3260	Nursing Care of Children and Their Families	U	4		
	Nursing knowledge and clinical practice essential to caring for children and their families. Prereq: 1100, or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, and 2782; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.				
3270	Nursing Care of Adults and Older Adults II	U	7		
	Nursing knowledge essential to caring for adults and older adults with emphasis on management of acutely ill patients with complex health problems. Prereq: 2270. Not open to students with credit for 501.				
3271	Nursing Care of Adults and Older Adults I	U	4		
	Nursing knowledge and clinical practice essential for the care of the adult and older adult with acute and chronic health alterations. Prereq: 1100, or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, and 2782; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.				
3272	Nursing Care of Adults and Older Adults II	U	4		
	Nursing knowledge and clinical practice essential for the care of the adult and older adult experiencing acute and critical health alterations. Prereq: 1100, or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, 2782, and 3271; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.				
3275	Adult Nursing 1	U	7		
	Nursing knowledge and clinical practice essential for the care of the adult with acute and chronic health alterations across the lifespan. Prereq: Enrollment in the BSNa option program.				
3276	Adult Nursing II	U	6		
	Nursing knowledge and clinical practice essential for the care of the adult and older adult experiencing acute and critical health alterations. Prereq: 3275, and enrollment in the BSNa option program.				
3280	Nursing Care of Women and Families During Reproductive Transitions	U	4		
	Nursing knowledge and clinical practice essential to caring for women and their families during reproductive transitions. Prereq: 1100, or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, and 2782; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.				
3430	Cultural Competence in Health Care: US and Global Contexts	U	3		
	Introduction to concepts and techniques for the provision of culturally competent care within the U.S. and across global contexts. Prereq: Enrollment in the Nursing major. Not open to students with credit for 440.				
3431	Global Options Nursing Capstone	U	1		
	Capstone Global Health project for students in the undergraduate Global Options Nursing program. Students enrolling in this course will need instructor permission to ensure that all other Global Option requirements are completed before enrolling. Prereq: Enrollment in undergraduate Global Options Nursing program.				
3460	Motivational Interviewing and Communication Strategies	U	1		
	This course will explore theoretical and evidence-based approaches to motivational interviewing which addresses behavior change to improve health outcomes. Prereq: 1100, or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, and 2782; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.				

3780	Evidence-based Nursing Care for Patients in Palliative and End of Life Care	U	2		
Foundation for palliative care through exploration of individual, family, and loved ones' needs at the end of life. Prereq: 1100 or 5115; and 2200, 2201, 2271, 2272, 2451, 2452, 2500, and 2782; and Micrbio 4000.01, 4000.02, or 4010; and HumnNtr 2200, 2210, 2310, or 2410; and enrollment in BSN traditional program; or permission of instructor.					
3798	Nursing Study Tour Cyprus	U	4		
Provides an introduction to global health, well-being and sustainability concepts, examining the blueprint to transform our world through the Sustainable Development Goals (SDGs). Examination of how current and historical human and natural systems impact well-being. Comparison of approaches in Cyprus and the US for addressing some of the most pressing health issues of young adults. Prereq: Not open to students with credit for Geog 3755. GE theme health and well-being course.					
3890.01H	Junior Honors Seminar I	U	1		
Discussion of topics relevant to research and the senior thesis proposal. Prereq: Honors standing, and 3890.02H; or permission of instructor. Not open to students with credit for 420.01H, 420.02H, or 420.03H.					
3890.02H	Junior Honors Seminar II	U	1		
Discussion of topics relevant to research and the senior thesis proposal. Prereq: Honors standing, and 3890.01H; or permission of instructor. Not open to students with credit for 420.01H, 420.02H, or 420.03H.					
4110	Nursing Process in the Perioperative Setting	U	2		
Study of the nursing process with clients in the preoperative, intraoperative and postoperative phase; emphasis on patient care coordinator, nursing roles, and evidence-based practice. Prereq: Jr or Sr standing in the College of Nursing, or permission of instructor. This course is graded S/U.					
4150	Epidemiology Concepts in Nursing and Global Healthcare	U	2		
Introduction to epidemiology concepts as applied in health, wellness, and global healthcare. Emphasis on clinical applications of concepts and innovation of healthcare systems. Includes overview and description on evidence-based epidemiologic applications in nursing and global health. Prereq: Undergrad standing in College of Nursing, or permission of instructor.					
4193	Individual Studies in Nursing	U	1 - 4		
Students will gain skills and knowledge within a focused area of study within the area of expertise of a nursing faculty mentor. The course will expose students to novel scholarly activities and provide individualized learning opportunities. Prereq: Enrollment in Nursing major, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.					
4240S	Concepts in Community Health Nursing	U	4		
Study of community health nursing theory and principles applied to the nursing care of individuals, families, groups, communities, and populations. Prereq: 2270, 3270, and 4260.					
4260	Nursing Care of Children and Their Families	U	4		
Nursing knowledge essential to caring for children and families with emphasis on health promotion, risk assessment, disease prevention, and common acute and chronic health problems. Prereq: 2270. Not open to students with credit for 405.					
4270	Transition to Professional Nursing	U	6		
Exploration of personal and professional topics designed to assist in promoting successful transition from nursing education to a rapidly changing work environment. Prereq: 3270. Not open to students with credit for 503.					
4280	Nursing Care of Women and their Families during Reproductive Transitions	U	4		
Nursing knowledge and clinical practice essential to caring for women and their families during reproductive transitions. Prereq: 2270. Not open to students with credit for 404.					
4340	Psychiatric and Mental Health Nursing	U	4		
Nursing knowledge applied to the promotion of mental health and to the recovery of individuals with psychiatric diagnoses and their families. Prereq: 2270. Not open to students with credit for 512.					
4400	Leadership and Management of Nursing Practice	U	3		
Exploration of leadership and management principles, including an examination of Nursing informatics, as applied to Nursing practice and the health care environment. Prereq: 3270. Not open to students with credit for 503.					
4525	Quality, Safety, and Informatics	U	3		
This course explores advanced concepts of collaboration, design, leadership, implementation and evaluation of quality improvement initiatives in health care utilizing information technology strategies. Prereq: 3276, 4240S, 4341, and enrollment in the BSNa option program.					
4890.01H	Senior Honors Seminar I	U	1		
Discussion of topics relevant to research and the senior thesis proposal and professional development in nursing. Prereq: Honors standing, and 3890.02H; or permission of instructor. Not open to students with credit for 520.01H, 520.02H, or 520.03H.					
4890.02H	Senior Honors Seminar II	U	1		
Discussion of topics relevant to research and the senior thesis proposal and professional development in nursing. Prereq: Honors standing, and 4890.01H; or permission of instructor. Not open to students with credit for 520.01H, 520.02H, or 520.03H.					
4999	Undergraduate Thesis Research	U	½ - 5		
Supervised undergraduate nursing thesis research. Prereq: Jr or Sr standing, or permission of instructor. This course is graded S/U.					
5000	Interdisciplinary Case Management for Working with Underserved Populations	U G	2		
Provides students the opportunity to collaborate with students from other health care professions including pharmacy, health and rehabilitation sciences, nursing, medicine and social work. The students will use a problem-based learning approach to patient care in community health, focusing on populations, living in poverty, with complex healthcare needs. Prereq: Sr or Grad standing. This course is graded S/U. Cross-listed in HthRhSc, MedColl, Phr, and SocWork.					
5100	Coaching for NCLEX Success	U G	1		
This course is designed for nursing students to prepare for the NCLEX-RN licensure exam. Students will develop knowledge on the NCLEX-RN test plan by familiarizing with alternative formats of NCLEX type questions. Prereq: Students in the penultimate semester prior to taking the NCLEX. This course is graded S/U.					
5111	Palliative and End of Life Care	U G	3		
A foundational course using the scope and standards of holistic nursing practice with a focus on developing an intrinsic understanding of whole person care. It will explore the essence of relationship-centered care and compassionate presence based on holistic nursing theory and will explore the skills and competencies necessary for certification. Prereq: Sr or Grad standing in Nursing, or permission of instructor.					
5115	MINDSTRONG: An Evidence-based Program to Reduce Stress and Promote Overall Well-being	U G	1		
Through a series of educational and skills building activities, this course provides an evidence-based program that reduces stress, improves mental resiliency and builds protective factors that improve overall health, well-being, and academic performance. This course is graded S/U.					
5193	Individual Clinical Studies in Nursing	U G	½ - 5		
Students will gain knowledge within the area of expertise of a nursing faculty mentor. The course will provide individualized learning opportunities. Prereq: Enrollment in Nursing major, or permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions. This course is graded S/U.					
5194	Group Studies in Nursing	U G	1 - 4		
Group studies of special problems in Nursing. Prereq: Sr or grad standing in Nursing. Repeatable to a maximum of 10 cr hrs or 3 completions.					
5431	Global Health Care in Your Own Back Yard	U G	3		
Designed for graduate students to develop strategies for culturally competent interdisciplinary health care in selected ethnic communities that have immigrated to the United States. Prereq: 3430 or 6430, or permission of instructor.					
5797	Study at a Foreign Institution	U G	1 - 18		
An opportunity for students to study at a foreign institution and receive OSU credit for work completed there. Students will pay OSU fees and any fees in excess of OSU tuition, as well as all travel and subsistence costs. Prereq: Permission of department chairperson. Repeatable.					
5798S	Study Tour	U G	½ - 4		
Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Must attend required Office of International Affairs (OIA) and College of Nursing pre-departure orientation sessions, and enroll in the U.S. Department of State Smart Traveler Program as required by OIA. Domestic field experiences may be allowable. Prereq: Enrollment in Nursing, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 2 completions. This course is graded S/U.					
6100	Introduction to Professional Nursing Practice	G	2		
Exploration of personal and professional topics designed to assist in promoting successful transition to the nursing profession in a rapidly changing health care environment. Prereq: Enrollment in the Grad entry option of the M.S. in Nursing program.					
6114	Strategies for Personal Health	G	1		
An overview of four dimensions of personal energy (physical, emotional, mental and spiritual) in relation to personal health. Emphasizes development and evaluation of an evidence-based, individually-tailored, and preferred personal health plan. Prereq: Grad standing. This course is graded S/U.					
6240S	Concepts in Community Health Nursing	G	4		
Study of community health nursing theory and principles applied to the nursing care of individuals, families, groups, communities, and populations. Prereq: 6260, 6270, and 7450.					
6260	Nursing Care of Children and Their Families	G	4		
Nursing knowledge essential to caring for children and families with emphasis on health promotion, risk assessment, disease prevention, and common acute and chronic health problems. Prereq: 6270, 6420, and 7450.					
6270	Nursing Care of Adults and Older Adults I	G	7		
Nursing knowledge essential to caring for adults and older adults, with emphasis on health promotion, risk assessment, disease prevention, and health problems. Prereq: 6410 and 6100. Concur: 7450. Not open to students with credit for 622.					

336 Nursing

6271	Nursing Care of Adults and Older Adults II	G	8	7228.01	Advanced Practice Adult-Gerontology Primary Care Nurse Practitioner Clinical Practicum I	G	2 - 6
<p>Nursing knowledge essential to caring for adults and older adults with emphasis on management of acutely ill patients with complex health problems. Prereq: 6270, 6260, 6280, 6240S, 6340, and 7450. Concur: 6480. Not open to students with credit for 631.</p>				<p>Application of advanced practice nursing theories, research findings, skills and interventions, including pharmacological management to the care of adults, focusing on health promotion needs and the most commonly seen diagnoses in primary care. Prereq: 7410, 7450, and 7470.</p>			
6280	Nursing Care of Women and their Families during Reproductive Transitions	G	4	7228.02	Advanced Practice Adult-Gerontology Primary Care Nurse Practitioner Clinical Practicum II	G	1 - 10
<p>Nursing knowledge and clinical practice essential to caring for women and their families during reproductive transitions. Prereq: 6270, 6420, and 7450. Not open to students with credit for 623.</p>				<p>Application of advanced practice nursing theories, research findings, skills and interventions, including pharmacological management to the care of adults, focusing on health promotion needs and the most commonly seen diagnoses in primary care. Prereq: 7228.01.</p>			
6340	Psychiatric and Mental Health Nursing	G	4	7228.03	Advanced Practice Adult-Gerontology Primary Care Nurse Practitioner Clinical Practicum III	G	9
<p>Nursing knowledge applied to the promotion of mental health and to the recovery of individuals with psychiatric diagnoses. Prereq: 6270 and 7450.</p>				<p>Application of advanced practice nursing theories, research findings, skills and interventions, including pharmacological management to the care of adults, focusing on health promotion needs and the most commonly seen diagnoses in primary care. Prereq: 7228.02.</p>			
6403	Interprofessional Leadership	G	1	7230	Clinical Nurse Leader (CNL) Roles and Responsibilities	G	2
<p>Students will engage in discussion and activities to develop interprofessional leadership competencies including interprofessional collaboration and effective communication to lead and serve on health care teams. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U.</p>				<p>Introduction to the roles and responsibilities of the Clinical Nurse Leader (CNL), with an emphasis on the value-added aspects of the CNL role for patient care, outcomes, and healthcare environments. Prereq: Enrollment in the Clinical Nurse Leader (CNL) specialty track of the M.S. in Nursing program, or permission of instructor.</p>			
6410	Introduction to Health Assessment	G	3	7231	Pharmacology for the Clinical Nurse Leader	G	3
<p>Introduction to the foundational health assessment concepts of Nursing and the assessment skills required in the provision of Nursing care. Prereq: Enrollment in the graduate entry program. Not open to students with credit for 611.</p>				<p>Emphasis on advanced knowledge in pharmacology in relation to the Clinical Nurse Leader (CNL) role across healthcare settings. The role of the CNL in patient teaching for safe and effective medication administration and assessment of medication management in chronic disease is emphasized. Prereq: Enrollment in the Clinical Nurse Leader (CNL) specialty track of the M.S. in Nursing program; or permission of instructor.</p>			
6420	A Nursing Perspective: Life Span Development of Individuals within a Family Context	G	3	7238.01	Introduction to Clinical Nurse Leader Practice	G	7
<p>Study of growth and development of individuals within a family context from conception to death with an emphasis on assessment and interventions utilized in Nursing practice. Prereq: Enrollment in the graduate entry program. Not open to students with credit for 637.</p>				<p>Introduction to the role, responsibilities, practice, and skills of the Clinical Nurse Leader. Prereq: Grad standing in Nursing, and Clinical Nurse Leader specialty.</p>			
6430	Cultural Competence in Health Care: US and Global Contexts	G	3	7238.02	Transition to Clinical Nurse Leader Practice	G	8
<p>Introduction to concepts and techniques for the provision of culturally competent care within the U.S. and across global contexts. Prereq: Enrollment in the Grad entry option of the M.S. in Nursing program, Obesity Sciences Graduate Interdisciplinary Specialization, or permission of instructor.</p>				<p>Intensive clinical experience to apply theories and engage fully in the role of the Clinical Nurse Leader (CNL). Prereq: 7238.01.</p>			
6480	Quality and Safety Initiatives in Clinical Practice	G	1	7260	Concepts and Issues in Advanced Family Nursing	G	2
<p>A seminar course designed to promote awareness and develop problem-solving leadership skills in creating and sustaining healthy work environments. Concur: 6271. Not open to students with credit for 633.01.</p>				<p>Issues of health care for family units; development of personalized health care strategies, culturally appropriate plans, examination of sociocultural policies affecting family health. Prereq: Grad standing in Nursing, or enrollment in the Specialization in Pediatric Occupational Therapy. Not open to students with credit for 721.</p>			
7110	School Nurse Wellness Coordinator Practice	G	3	7268.01	Advanced Practice Family Nurse Practitioner Clinical Practicum I	G	5 - 10
<p>School nurse wellness coordinator field experience in a school setting applying the roles and responsibilities of a school nurse wellness coordinator. Prereq: Enrollment in Category 3 School Nurse Wellness Coordinator Certificate program, or permission of instructor.</p>				<p>Focus on primary healthcare of individuals and families across the lifespan. Emphasis on knowledge and skills for patient-centered evidence-based practice, clinical reasoning/judgment for advanced practice nursing, health and wellness, and common pathological conditions. Prereq: 7260, 7403, 7410, 7450, 7470, 7483, 7491, 7500 or NrsPrct 8500, and 7780, and enrollment in M.S. in Nursing program, and enrollment in the Family Nurse Practitioner specialty track; or 7410, 7450, and 7470, and enrollment in BSN-DNP; or permission of instructor.</p>			
7193	Individual Studies in Nursing	G	1 - 4	7268.02	Advanced Practice Family Nurse Practitioner Clinical Practicum II	G	5 - 11½
<p>Students will gain skills and knowledge within a focused area of study within the area of expertise of a nursing faculty mentor. The course will expose students to novel scholarly activities and provide individualized learning opportunities. Prereq: Grad standing in Nursing, or permission of instructor. Repeatable to a maximum of 20 or hrs or 5 completions. This course is graded S/U.</p>				<p>Focus on primary healthcare of individuals and families across the lifespan. Emphasis on interprofessional partnerships, community engagement, and diverse family needs by developmental stage: reproductive, childrearing, aging, caregiving. Prereq: 7268.01.</p>			
7208.01	Adult-Gerontology Acute Care Nurse Practitioner Practicum I	G	3 - 7	7268.03	Advanced Practice Family Nurse Practitioner Clinical Practicum III	G	4 - 12
<p>Designed to build on major components critical to the knowledge of diagnosis and management of pathologies in acutely ill adults. Focus is centered on the acute care nurse practitioner as an initial care provider for patients with acute illnesses. Prereq: 7410, 7450, and 7470.</p>				<p>Focus on primary healthcare of individuals and families across the life span. Emphasis on integration of scientific foundations, social determinants of health, and interprofessional leadership to manage complex healthcare needs of patients. Prereq: 7268.02.</p>			
7208.02	Adult-Gerontology Acute Care Nurse Practitioner Practicum II	G	3 - 10	7280	Conceptual Frameworks for Nurse-Midwifery	G	2
<p>Application of principles of advanced practice Nursing applied to Adult Critical Care as a population focus. Experiences concentrate on clinical decision-making in an interdisciplinary environment. Prereq: 7208.01.</p>				<p>Theoretical, structural, historical, and political/legal foundations of nurse-midwifery in the United States and internationally. Prereq: Enrollment in the Nurse-Midwifery specialty. Not open to students with credit for 724.</p>			
7208.03	Adult-Gerontology Acute Care Nurse Practitioner Practicum III	G	9	7281	Advanced Reproductive Dynamics	G	3
<p>Application of principles of advanced practice nursing applied to Adult Critical Care as a population focus. Experiences concentrate on clinical decision-making in an interdisciplinary environment. Prereq: 7208.02.</p>				<p>Principles of reproductive anatomy and physiology including puberty, genetics, pregnancy, embryonic/fetal development, parturition, puerperium, lactation, and menopause in relationship to advanced practice nursing care. Prereq: Enrollment in the Nurse-Midwifery or Women's Health specialty track. Not open to students with credit for 722.</p>			
7218.01	Advanced Nursing Practice in Pediatric Acute Care I	G	6	7282	Labor and Birth Clinical Immersion	G	1 - 2
<p>Application of advanced nursing knowledge and skills, including therapeutic medical and pharmacologic interventions, in the evidence-based evaluation and management of children with acute, chronic, complex, and critical medical conditions. Prereq: 7330.</p>				<p>Provides orientation to intrapartum care and the role of the health care team for specialty students without prior experience in this clinical area. Prereq: Enrollment in the Nurse-Midwifery, or Dual Nurse-Midwifery and Women's Health specialty; or permission of the course head.</p>			
7218.02	Advanced Nursing Practice in Pediatric Acute Care II	G	11	7288.01	Advanced Practice Nursing: Nurse-Midwifery Clinical Practicum I	G	1 - 8
<p>Application of advanced nursing knowledge and skills, including therapeutic medical and pharmacologic interventions, in the evidence-based evaluation and management of children with acute, chronic, complex, and critical medical conditions. Prereq: 7218.01.</p>				<p>Application of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing care. Prereq: 7281, 7410, 7450, and 7470.</p>			
7218.03	Advanced Nursing Practice in Pediatric Acute Care III	G	10				
<p>Application of advanced nursing knowledge and skills, including therapeutic medical and pharmacologic interventions, in the evidence-based evaluation and management of children with acute, chronic, complex, and critical medical conditions. Prereq: 7218.02.</p>							

7288.02	Advanced Practice Nursing: Nurse-Midwifery Clinical Practicum II	G	1 - 11	7308.02	Advanced Practice Nursing: Care of the High-Risk Neonate II	G	1 - 10
Application of theories, research findings, skills, and interventions including pharmacological management, during the provision of nurse-midwifery care to women and their families. Prereq: 7288.01.				Application of theories, research findings, and interventions for advanced practice nurses managing care in the neonatal intensive care unit. Prereq: 7303 and 7308.01.			
7288.03	Advanced Practice Nursing: Nurse-Midwifery Clinical Practicum III	G	1 - 11	7308.03	Advanced Practice Nursing: Care of the High-Risk Neonate III	G	1 - 10
Application of theories, research findings, complex skills, and interventions including pharmacological management, during the provision of nurse-midwifery care to women and their families. Prereq: 7288.02.				Application of theories, research findings, and interventions for advanced practice nurses in the care of high-risk neonate and their families in a variety of settings. Prereq: 7308.02.			
7288.04	Advanced Practice Nursing: Nurse-Midwifery Clinical Practicum IV	G	1 - 10	7330	Advanced Pediatric Health Assessment	G	4
Integration of theories, research findings, skills, and interventions including pharmacological management, during the provision of nurse-midwifery care to women and their families. Prereq: 7288.03. Not open to students with credit for 859.				Advanced knowledge and skills in the health assessment of children birth through young adulthood with an emphasis on sophisticated clinical reasoning. Prereq: Enrollment in Pediatric NP Primary or Acute Care Specialty. Grad Entry students must have successfully completed all pre-licensure coursework (6100, 6240S, 6260, 6270, 6271, 6340, 6410, 6420, 6430, and 6480).			
7298.01	Advanced Practice Nursing: Women's Health Clinical Practicum I	G	1 - 8	7331	Assessment and Management of Child and Adolescent Mental Health Issues	G	3
Application of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing care. Prereq: 7281, 7410, 7450, and 7470.				Application of theories, research findings, assessment, and clinical management principles to evidence-based child and adolescent mental health screening, early intervention, and mental health promotion. Prereq: Enrollment in M.S. in Nursing program, prior successful completion of an advanced health assessment course, and concurrent enrollment in an advanced pediatric acute or primary care clinical practicum course (Nursing 7218.01, Nursing 7218.02, Nursing 7338.01, or Nursing 7338.02); or permission of instructor.			
7298.02	Advanced Practice Nursing: Women's Health Clinical Practicum II	G	1 - 10	7338.01	Advanced Nursing Practice in Pediatric Primary Care I	G	3 - 8
Application of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing care to women and their families. Prereq: 7298.01.				Application of theories, research findings, skills, and interventions including pharmacological management to advanced practice nursing in pediatric health promotion and preventive care. Prereq: 7330. Not open to students with credit for 859.			
7298.03	Advanced Practice Nursing: Women's Health Clinical Practicum III	G	1 - 10	7338.02	Advanced Nursing Practice in Pediatric Primary Care II	G	3 - 10
Integration of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing care to women and their families. Prereq: 7298.02.				Application of theories, research findings, skills, and interventions including pharmacological management to advanced practice nursing in pediatric health promotion and preventive care. Prereq: 7338.01.			
7299.01	Advanced Practice Nursing: Dual Nurse-Midwifery & Women's Health Clinical Practicum I	G	1 - 8	7338.03	Advanced Nursing Practice in Pediatric Primary Care III	G	3 - 9
Application of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing care. Prereqs: 7281, 7410, 7450, and 7470.				Application of theories, research findings, skills, and interventions including pharmacological management to advanced practice nursing in the care of children with common chronic conditions. Prereq: 7338.02.			
7299.02	Advanced Practice Nursing: Dual Nurse-Midwifery & Women's Health Clinical Practicum II	G	1 - 12	7340	Neuroscience Principles and Concepts Relevant to Psychiatric and Mental Health	G	3
Application of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing/nurse-midwifery care to women and their families. Prereq: 7299.01.				Neurobiological bases of brain-mind-behavior relationships in mental health and illness, including chemical dependence. The promotion, maintenance, and restoration of central nervous system homeostasis will be emphasized. Prereq: Grad standing in Nursing and the Psychiatric Mental Health Nursing specialty. Not open to students with credit for 740.			
7299.03	Advanced Practice Nursing: Dual Nurse-Midwifery & Women's Health Clinical Practicum III	G	1 - 12	7341	Advanced Psychiatric and Mental Health Nursing: Therapies across the Lifespan	G	4
Application of theories, research findings, complex skills, and interventions including pharmacological management, during the provision of advanced practice nursing/nurse-midwifery care to women and their families. Prereq: 7299.02.				Advanced nursing clinical therapeutic interventions with persons across the lifespan diagnosed with mental illness and/or substance abuse. Prereq: Grad standing and enrollment in the Psychiatric Mental Health Nursing specialty. Not open to students with credit for 745 or 777.			
7299.04	Advanced Practice Nursing: Dual Nurse-Midwifery & Women's Health Clinical Practicum IV	G	1 - 11	7342	Motivational Interviewing	G	2
Integration of theories, research findings, skills, and interventions including pharmacological management, during the provision of advanced practice nursing/nurse-midwifery care to women and their families. Prereq: 7299.03. Not open to students with credit for 859.				Critical analysis of theoretical and research findings involved in the conduct of motivational interviewing to create behavior change and improve health outcomes. Prereq: Grad standing, or Sr standing RN-BSN students may enroll via Senior Petition, or enrollment in Interprofessional Healthcare certificate, or permission of instructor.			
7302	Advanced Health Assessment of the Neonate	G	3	7343	Introduction to Nurse Coaching	G	3
Development of advanced health assessment and psychomotor skills to comprehensively assess and manage high-risk neonates. Prereq: Enrollment in the Neonatal NP or CNS specialties. Grad Entry students must have successfully completed all pre-licensure coursework (6100, 6240S, 6260, 6270, 6271, 6340, 6410, 6420, 6430, and 6480).				Provides an overview of the nurse coach role, theory and competencies with application to nurse coaching skills. Prereq: Grad standing and enrollment in the Nurse Coaching certificate program, or Sr standing RN-BSN students may enroll via Senior Petition; or permission of instructor.			
7303	Advanced Newborn/Infant Pharmacology	G	4	7344	Evidence-Based Coaching in Interprofessional Practice	G	4
Pharmacotherapeutic principles applied to the high-risk neonate/infant with an emphasis on pharmacokinetics and pharmacodynamics when applied to neonatal physiology. Prereq: Enrollment in the Neonatal NP specialty.				Review of evidence-based coaching approaches based on the science of behavior change and integrated within patient-centered, interdisciplinary practice. Prereq: Grad standing, or permission of instructor.			
7304	Developmental Care of the High-Risk Neonate and Family	G	2	7345	Advanced Nurse Coaching	G	3
Examination of concepts and research that impact the developmental trajectory of the high-risk neonate and family. Prereq: Enrollment in the Neonatal NP or CNS specialties, or enrollment in the Specialization in Pediatric Occupational Therapy or Pediatric Physical Therapy.				Addresses nurse coaching competencies that promote whole person health. Prereq: 7343, or Sr standing RN-BSN students may enroll via Senior Petition.			
7305	Developmental Physiology and Pathophysiology of the High-Risk Neonate	G	6	7346	Introduction to Health and Wellness Coaching	G	3
Biological basis for nursing care of the high-risk neonate, incorporating analysis and synthesis of principles of embryology, developmental physiology, and pathophysiology. Prereq: Enrollment in the Neonatal Nurse Practitioner specialty track of the M.S. in Nursing program. Not open to students with credit for 7300 or 7301.				Provides an overview of the health and wellness coach role, theory and competencies with application to coaching skills. Prereq: Enrollment in the Health and Wellness Coaching certificate program, and Grad standing; or enrollment in Interprofessional Healthcare Certificate; or permission of instructor.			
7308.01	Advanced Practice Nursing: Care of the High-Risk Neonate I	G	2 - 7	7347	Advanced Health and Wellness Coaching	G	3
Application of theories, research findings, and interventions for advanced practice nurses in the care of neonates and their families, with a focus on high-risk deliveries. Prereq: 7302 and 7305.				Builds upon introductory coaching course to refine coaching skills that promote whole person health. Prereq: 7346.			

338 Nursing

7348.01	Advanced Practice Psychiatric and Mental Health Nursing Clinical Practicum I	G	1 - 5	7382.06	Nurse Anesthesia Clinical Practice VI	G	5
<p>Application of advanced practice psychiatric and mental health nursing biopsychosocial interventions with individuals experiencing mental illness and chemical dependence. Prereq: 7340 and 7341.</p>				<p>This series of clinical practice courses will introduce the nurse anesthesia student to the clinical environment through precepted clinical experiences that will grow progressively more independent over time. Regular seminar sessions will integrate theory and clinical practice. Prereq: 7382.05, and enrollment in the DNP program nurse anesthesia track. This course is graded S/U.</p>			
7348.02	Advanced Practice Psychiatric and Mental Health Nursing Clinical Practicum II	G	1 - 11	7403	Innovation Leadership in Advanced Nursing Practice	G	3
<p>Application of advanced practice psychiatric and mental health. Nursing biopsychosocial interventions with individuals experiencing mental illnesses and chemical dependence. Prereq: 7348.01.</p>				<p>Analysis of organizational leadership and ethical essentials necessary to deliver high quality patient care in diverse settings. Prereq: Enrollment in Grad Nursing.</p>			
7348.03	Advanced Practice Psychiatric and Mental Health Nursing	G	1 - 10	7410	Advanced Health Assessment	G	2 - 4
<p>Application of advanced practice psychiatric and mental health nursing biopsychosocial interventions with individuals experiencing mental illness and chemical dependence. Prereq: 7348.02.</p>				<p>Development of advanced health assessment skills. Emphasis on acquisition of pertinent assessment data across the life span for advanced nursing care for multiple specialties. Prereq: 7450, or enrollment in the Master of Respiratory Therapy (MRT) program. Grad Entry students must have successfully completed all pre-licensure coursework (6100, 6240S, 6260, 6270, 6271, 6340, 6410, 6420, 6430, and 6480). Cross-listed in RespThr.</p>			
7350	Psychopharmacology Across the Lifespan	G	3	7415	Clinical Reasoning with Diagnostic Methods for Advanced Nursing Practice	G	2
<p>Pharmacokinetic principles and application of evidence-based clinical decision-making in relation to Advanced Practice Registered Nurse psychotropic medication prescribing across the lifespan. Prereq: 7470, or permission of instructor.</p>				<p>This course will focus on symptom/health problem assessment, selection, and interpretation of screening, and diagnostic tests in order to formulate a differential diagnosis and treatment plan. Emphasis is on acquisition and analysis of relevant data for the development of a comprehensive and holistic assessment with an understanding of population health and care of diverse population. Prereq: 7302, 7330, or 7410; and enrollment in DNP program; or permission of instructor.</p>			
7378.01	Adult-Gerontology Clinical Nurse Specialist Practicum I	G	10	7445	Foundations of Nurse Anesthesia Practice	G	3
<p>Application of advanced practice nursing theories, research findings, skills and interventions, including pharmacological management to the management of adults and older adults with acute and chronic health problems. Prereq: 7410, 7450, and 7470.</p>				<p>This course will review the history of nurse anesthesia and introduce the student to the foundations of nurse anesthesia practice including the anesthesia delivery milieu, perioperative process, and wellness concepts for the nurse anesthetist. The continuum of anesthesia from sedation to general anesthesia will be presented in the context of equitable and ethical care, patient safety and quality. Prereq: Enrollment in the DNP program nurse anesthesia track.</p>			
7378.02	Adult-Gerontology Clinical Nurse Specialist Practicum II	G	10	7446	Scientific Foundations of Nurse Anesthesia Practice	G	3
<p>Application of advanced practice nursing theories, research findings, skills and interventions, including pharmacological management of adults and older adults with acute and chronic health problems. Prereq: 7410, 7450, 7470, and 7378.01.</p>				<p>Refresh of the basic science of nursing practice, focusing specifically on the chemistry, biochemistry, physics, and genetic principles which underpin nurse anesthesia practice. The course will provide the scientific foundation on which subsequent courses in pharmacology, physiology, and anesthesia practice will be built. Prereq: Enrollment in the DNP program nurse anesthesia track.</p>			
7380	Introduction to Clinical Anesthesia	G	2	7450	Pathophysiology of Altered Health States	G	5
<p>This course will serve as a generalized orientation to the clinical anesthesia environment. The continuum of perioperative nurse anesthesia care, from preoperative evaluation to induction, maintenance, and emergence of anesthesia, including postoperative care will be introduced. Clinical anesthesia skills will be introduced through an on-site intensive session. Prereq: Enrollment in the DNP program nurse anesthesia track, and Nursing 7445.</p>				<p>Analysis of theories and research regarding alterations of health states across the life span with an emphasis on pathophysiological processes. Prereq: Grad standing in Nursing or permission of instructor. Not open to students with credit for 703 or 704.</p>			
7381.01	Advanced Principles of Nurse Anesthesia Practice I	G	4	7455.01	Advanced Physiology & Pathophysiology for Nurse Anesthesia Practice I	G	5
<p>This course will introduce nurse anesthesia practice concepts and skills to prepare the nurse anesthetist to provide safe perioperative and anesthesia care for a variety of surgical subspecialties and anesthetizing locations. Prereq: 7380, enrollment in the DNP program nurse anesthesia track.</p>				<p>This course introduces the anatomy, physiology, and pathophysiology of body systems with an emphasis on the anesthetic implications of expected and altered physiologic states of these systems. Relationships between the different systems will be analyzed, building a foundation for a complex clinical anesthesia practice. Prereq: 7450, and enrollment in the DNP program, nurse anesthesia track.</p>			
7381.02	Advanced Principles of Nurse Anesthesia Practice II	G	4	7455.02	Advanced Physiology for Nurse Anesthesia Practice II	G	4
<p>Nurse anesthesia clinical specialty areas will be discussed, including more complex patients, focusing on developing and implementing safe anesthesia care plans. The course will integrate didactic materials and clinical practice. Prereq: Enrollment in the DNP program nurse anesthesia track, 7381.01, and 7382.01.</p>				<p>This course continues the exploration of the anatomy, physiology, and pathophysiology of the various body systems with an emphasis on the anesthetic implications of expected and altered physiologic states of these systems. Relationships between systems will be analyzed, building on knowledge of the prior content in this course series. Prereq: Enrollment in the DNP program nurse anesthesia track, and a grade of B- or above in Nursing 7455.01.</p>			
7382.01	Nurse Anesthesia Clinical Practice I	G	5	7455.03	Advanced Physiology for Nurse Anesthesia Practice III: Co-Existing Disease	G	3
<p>This series of clinical practice courses will introduce the nurse anesthesia student to the clinical environment through precepted clinical experiences that will grow progressively more independent over time. Clinical Practice IV, V, VI will incorporate clinical anesthesia specialty practice. Regular seminar sessions will integrate theory and clinical practice. Prereq: 7380, 7445, 7446, 7455.02, 7475, and enrollment in the DNP program nurse anesthesia track. This course is graded S/U.</p>				<p>This course explores the anatomy, physiology, and pathophysiology of the renal, hepatic, nervous, immunological, endocrine, gastrointestinal, and hematological systems with an emphasis on the anesthetic implications of expected and altered physiologic states of these systems. Genetic considerations of anesthesia delivery will also be highlighted. Prereq: Enrollment in the DNP program nurse anesthesia track, and a grade of B- or above in Nursing 7455.02.</p>			
7382.02	Nurse Anesthesia Clinical Practice II	G	5	7470	Advanced Pharmacology in Nursing	G	4
<p>This series of clinical practice courses will introduce the nurse anesthesia student to the clinical environment through precepted clinical experiences that will grow progressively more independent over time. Regular seminar sessions will integrate theory and clinical practice. Prereq: 7381.01, 7382.01, and enrollment in the DNP program nurse anesthesia track. This course is graded S/U.</p>				<p>Pharmacokinetic principles and clinical application and principles of the use of drugs and therapeutic devices in the prevention of illness and maintenance of health. Meets criteria for APN's prescribing in Ohio. Prereq: 7450. Not open to students with credit for 706. Repeatable to a maximum of 12 cr hrs or 3 completions.</p>			
7382.03	Nurse Anesthesia Clinical Practice III	G	5	7471	Pharmacologic and Non-pharmacologic Symptom Management for Palliative and End of Life Care	G	3
<p>This series of clinical practice courses will introduce the nurse anesthesia student to the clinical environment through precepted clinical experiences that will grow progressively more independent over time. Regular seminar sessions will integrate theory and clinical practice. Prereq: 7381.02, and 7382.02, and enrollment in the DNP program nurse anesthesia track. This course is graded S/U.</p>				<p>Multidisciplinary symptom management strategies for patients receiving palliative or end of life care from both pharmacologic and non-pharmacologic perspectives. Prereq: Grad standing, or permission of instructor.</p>			
7382.04	Nurse Anesthesia Clinical Practice IV	G	5	7475	Pharmacology for Nurse Anesthesia Practice	G	4
<p>This series of clinical practice courses will introduce the nurse anesthesia student to the clinical environment through precepted clinical experiences that will grow progressively more independent over time. Regular seminar sessions will integrate theory and clinical practice. Prereq: 7382.02, and Enrollment in the DNP program nurse anesthesia track. This course is graded S/U.</p>				<p>This course will focus on medications necessary for safe nurse anesthesia practice including pharmacokinetics, pharmacodynamics and pharmacogenomics of medications used for safe anesthesia. A review of emergency and resuscitative medications, fluid/electrolyte replacement, transfusion therapy and drug diversion will be included. Prereq: Enrollment in the DNP program nurse anesthesia track.</p>			
7382.05	Nurse Anesthesia Clinical Practice V	G	5				
<p>This series of clinical practice courses will introduce the nurse anesthesia student to the clinical environment through precepted clinical experiences that will grow progressively more independent over time. Regular seminar sessions will integrate theory and clinical practice. Prereq: 7382.04, and enrollment in the DNP program nurse anesthesia track. This course is graded S/U.</p>							

7483	Quality Improvement and Informatics	G	3	Explores advanced concepts of collaboration, design, leadership, implementation and evaluation of quality improvement initiatives in health care utilizing information technology strategies. Prereq: Enrollment in Grad Nursing.	7717	Interdisciplinary Perspective on Developmental Disabilities	G	3	Provides an introduction to the psychosocial, medical, and educational implications of developmental disabilities. Prereq: permission of instructor. Not open to students with credit for 717.01 or 717.03. Cross-listed in EduSt, HthRhSc, Psych, SocWork, and SphHrng.
7484	Informatics	G	1	To refine, expand, and extend clinical transformation education to all medical, nursing, and other health professional students. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in SocWork.	7718	Interdisciplinary Perspective on Autism Spectrum Disorders	G	3	Teaches the analytical skills necessary to comprehend and formulate an interdisciplinary framework relating to major scientific and theoretical perspectives in autism spectrum disorders. Prereq: permission of instructor. Not open to students with credit for 717.01 or 717.02. Cross-listed in EduSt, HthRhSc, Psych, SocWork, and SphHrng.
7491	Health Promotion and Disease Prevention across the Life Span	G	3	Analyze strategies to encourage change in both individual's and population's health behaviors that influence risk reduction in multiple settings. Develop educational strategies utilizing advanced critical thinking. Prereq: Enrollment in Grad Nursing or Obesity Sciences Graduate Interdisciplinary Specialization.	7779	Evidence Based Practice for Interprofessional Teams	G	3	Built around the Evidence-based Practice (EBP) and Interprofessional Education Collaborative (IPEC) competencies, learners will build the knowledge and skills of EBP needed to address relevant issues in healthcare in order to improve quality, safety and outcomes for patients, populations, organizations and the communities in which they exist. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor.
7496	Opioid Use Disorder	G	2	Evidence-based training in opioid use disorder (OUD) prevention, diagnosis, and treatment, emphasizing Medication-Assisted Treatment (MAT), to interdisciplinary teams of pharmacy, health and rehabilitation sciences, nursing, medicine and social work students to assure an interprofessional work force prepared to address the opioid epidemic. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in SocWork.	7780	Evidence Based Nursing Scholarship	G	3	Introduction to and application of evidence-based practice (EBP). Includes EBP steps, competencies, and strategies for mentoring and leading integration and synthesis of the EBP process for improving practice and outcomes. Prereq: Grad standing in Nursing, or permission of instructor.
7500	Health Policy and Advocacy	G	2	Analysis of the U.S. health care delivery system and the policy making process, with an emphasis on the social, political and economic factors affecting the delivery of Nursing services. Prereq: Grad standing in Nursing, or permission of instructor.	7781	Responsible Conduct of Research	G	3	Concepts and policies for the responsible conduct of research (RCR). Institutional Review Boards and dissemination of findings will be introduced. Prereq: Grad standing.
7530	Instructional Strategies in Clinical Teaching	G	3	The primary focus of this course is the differentiation of best pedagogical practices for effective teaching in clinical settings. Prereq: Grad standing and active Registered Nurse (RN) licensure.	8110	Scholarly Writing for Nurse Scientists	G	3	Scholarly manuscript writing for refereed publications for nursing and research scientist audiences. Emphasis on writing style and process, with secondary emphasis on journal selection, author guidelines, peer review, and managing revisions. Prereq: Enrollment in PhD program in Nursing, or permission of instructor.
7533	Teaching Tech: Classroom Technologies	G	2	Explore theory behind selection and use of education technology to engage students in the classroom. Theory will be enhanced with practice and application. Basic understanding of education technology and teaching theory required. Prereq: Grad standing, or permission of instructor.	8193	Individual Studies in Nursing	G	1 - 5	Students will gain skills and knowledge within a focused area of study within the area of expertise of a nursing faculty mentor. The course will expose students to novel scholarly activities and provide individualized learning opportunities. Prereq: Enrollment in Nursing program and permission of instructor. Repeatable to a maximum of 20 or hrs or 4 completions. This course is graded S/U.
7534	Teaching Tech: ePortfolios	G	1	The theory behind use and selection of ePortfolio technology will be enhanced with hands-on practice and application of production software. Prereq: Grad standing, or permission of instructor.	8194	Group Studies in Nursing	G	0 - 5	Group studies of special problems in nursing. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 20 or hrs or 4 completions.
7536	Principles of Instructional Design for Nurses	G	3	Theoretical and practical approaches to creation of learning experiences for nursing and health education with an emphasis on backward design and evidence-based instructional design strategies. Prereq: Grad standing in Nursing; or permission of instructor.	8400	Leadership for Nurse Scientists	G	3	Examine current professional issues facing the nurse scientist in academia, practice, and research. Prereq: Enrolled in PhD in Nursing program.
7537	Assessment and Evaluation in Nursing Education	G	3	Principles and processes involved in assessment and evaluation of student learning, courses, curricula, program outcomes, and teaching practices. Prereq: Grad standing in Nursing, or permission of instructor.	8440	Philosophy of Science and Development of Nursing Knowledge	G	3	Examines historical, philosophical, and theoretical basis for nursing science. Prereq: Enrollment in PhD program in Nursing.
7538	Teaching in Nursing	G	3	Application of best pedagogical practices in selected Nursing education experiences. Prereq: 7530, 7536, and 7537; or permission of instructor.	8441	Health Determinant Models for Nursing Science	G	3	Integrates scientific approaches used to investigate, understand and improve health status within the context of Nursing Science. Prereq: 8440, or permission of instructor.
7560	Clinical Trials I: Design and Regulation	G	3	This course provides a fundamental overview of clinical trial design, methods, and regulation with an emphasis on medical product development, clinical trial protocols, preclinical research requirements, and the appraisal of published clinical trials. Prereq: Admission to the MS Pharmacology program, or permission of instructor. Not open to students with credit for Nursing, MCR, or Phr 7770.	8460	Integrative Reviews in Nursing	G	3	Foundation for conducting a systematic integrative review of nursing and health related research and dissemination of scientific writing. Prereq: 8783.
7561	Clinical Trials II: Site Management and Study Leadership	G	3	This course provides a fundamental overview of best practices of clinical trial study and site management, including an emphasis on data, safety, and quality management, and study team leadership. Prereq: 7560, BioPhrm 7560, or Phr 7560, or permission of instructor. Not open to students with credit for 5402 or Phr 5402. Cross-listed in BioPhrm and Phr.	8462	Grant Writing for Nursing	G	3	Introduction to the principles and fundamentals of writing and critiquing research grant proposals in nursing science. Prereq: 8440, 8460, and 8783.
7603	Advanced Management of Relationship-Centered Care	G	2	Precepted clinical experiences in advanced ambulatory and chronic care incorporating an interdisciplinary team care model in nursing and medicine, providing specialized to care for the patient with complex chronic care needs. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U.	8510	Ethics in Healthcare Practice, Research and Policy	G	2	Study of the central ethical dilemmas facing Nursing in health care practice, research, and policy. Prereq: Grad standing in Nursing or permission of instructor. Not open to students with credit for 755.
7604	Hotspotting	G	1	Strategic use of data to reallocate resources to a small subset of high-needs, high-cost patients among interdisciplinary teams of pharmacy, health and rehabilitation sciences, nursing, medicine and social work students. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in SocWork.	8780	Research Methods I	G	3	Survey of quantitative design and measurement approaches relevant to nursing and health. Emphasis is placed on experimental designs and measurement in nursing and health research. Prereq: Enrollment in PhD program in Nursing, or permission of instructor. Not open to students with credit for 902.01 or 912.
					8783	Quantitative Design for Nursing Research	G	3	Quantitative designs relevant to research in nursing and health. Emphasis is placed on non-experimental and experimental designs in nursing and health-related research. Prereq: Enrollment in PhD in Nursing program.
					8784	Qualitative Design for Nursing Research	G	3	Survey of qualitative and mixed methods approaches relevant to nursing and health. Emphasis is placed on observational research designs in nursing and health research. Prereq: Enrolled in PhD in Nursing program.

340 Nursing

8785	Measurement for Nursing and Health	G	3
Measurement theories and principles relevant to nursing science. Emphasis is on psychobiobehavioral measurement in nursing and health-related research. Prereq: 8440 and 8783.			
8786	Advanced Design for Nursing	G	3
Advanced quantitative designs relevant to evaluating causal relationships in nursing and health science disciplines. Emphasis is on multi-level, experimental and quasi-experimental designs appropriate to individual and population health research. Prereq: 8783, 8784, and 8785.			
8891.01	Genetics and Genomics for Nursing Science	G	3
Examine emerging topics in genomics in the improvement of human health and quality of life in individuals, families, and communities from a nursing science perspective. Prereq: 8440, 8441, and 8783.			
8891.02	Secondary Data Analysis for Nursing and Health Research	G	3
Develop an understanding of secondary data analysis from a nursing science perspective. Emphasis on study design and methods including data management and various analytic tools. Prereq: Course in multiple regression.			
8891.03	Critical and Sensitive Periods for Health Development	G	3
Focus on the effects of social, psychological, biological, and behavioral factors that influence health status (health determinants) as they occur across the lifespan with a particular focus on critical and sensitive periods of health development. Examination of health outcomes under varying conditions and across populations. Prereq: 8441.			
8891.04	Interventions for Health Development	G	3
This course will focus on the examination of interventions that disrupt adverse actions of health determinants or alter epigenetic, physiologic, or psychologic changes in order to produce healthier outcomes. Prereq: 8783.			
8980	Research Residency	G	1 - 10
Doctoral research training through participation in on-going research of graduate faculty. Prereq: 8440, 8441, 8460, and 8783. Repeatable to a maximum of 20 cr hrs or 4 completions. This course is progress graded (S/U).			
8999	Dissertation	G	1 - 6
Dissertation research involving the generation of new knowledge that will contribute to nursing science. Develop skills needed for transition to a scientific career. Prereq: Successful completion of PhD in Nursing Candidacy Examination. Repeatable to a maximum of 90 cr hrs or 15 completions. This course is graded S/U.			

Nursing Advancement

2193	Individual Studies in Nursing Advancement	U	1 - 4
Student will gain knowledge and skills within the area of expertise of a nursing faculty mentor. The course will provide individualized learning opportunities. Prereq: Enrollment in the RN-BSN program. Repeatable to a maximum of 20 cr hrs or 5 completions.			
2440	Foundations and Contemporary Issues for Registered Nurses	U	3
Provides the framework for exploration of professional issues in contemporary nursing and health care for nurses pursuing a baccalaureate degree. Prereq: Enrollment in the RN to BSN program.			
2780	Research for Evidence Based Nursing Practice	U	3
An introduction to evidence based nursing practice and the research process. Prereq: Enrollment in the RN to BSN program. Not open to students with credit for 390.			
3110	Health Assessment Across the Lifespan	U	3
Development of health assessment across the lifespan. Prereq: Enrollment in the RN-BSN program, or Registered Nurses in Primary Care Workforce Development Certificate, or permission of instructor.			
3111	Palliative and End of Life Care	U	3
Foundation for palliative care through exploration of individual, family, and loved ones' needs at the end of life. Prereq: Enrollment in the RN-BSN program, or Registered Nurses in Primary Care Workforce Development Certificate, or permission of instructor.			
3112	Failure to Rescue in Nursing	U	3
This course will explore the impact of failure to rescue on patient outcomes and provide evidence-based strategies and skills to prevent failure to rescue in healthcare. Prereq: Enrollment in the RN-BSN program, or permission of instructor.			
3113	RN Practice in Primary Care and Substance Use Disorder	U	3
The course will address the opiate use disorder in primary care. Prereq: Enrollment in Primary Care Workforce Development Certificate (Category 1b), Registered Nurses (RNs) in Primary Care Workforce Development Certificate (Category 4), RN to BSN program, or BSN program; or permission by instructor.			

3114	Care Coordination and Transition in Care	U	3
This course will address the care coordination and transitions in care when caring for patients. Emphasis will be placed on the needs of patients with chronic diseases to include mental health and substance use conditions with a focus on population outcomes. Prereq: Enrollment in Primary Care Workforce Development Certificate (Category 1b), or Registered Nurses (RNs) in Primary Care Workforce Development Certificate (Category 4), or RN to BSN program, or BSN program, or permission of instructor.			
3115	Telehealth Assessment and Management in Primary Care	U	3
Application of RN primary care delivery and design for population health initiatives. Prereq: Enrollment in Primary Care Workforce Development Certificate (Category 1b), or Registered Nurses (RNs) in Primary Care Workforce Development Certificate (Category 4), or RN to BSN program, or BSN program, or permission of instructor.			
3116	Evidence-Based Coaching in Interprofessional Practice	U	3
Introduction to evidence-based coaching approaches for lifestyle behavior change as integrated within interprofessional practice. Prereq: Enrollment in Primary Care Workforce Development Certificate (Category 1b), or Registered Nurses (RNs) in Primary Care Workforce Development Certificate (Category 4), or RN to BSN program, or BSN program, or permission of instructor.			
3117	RN Practice in Primary Care	U	3
This course will provide an introduction to RN primary care delivery and design for population health initiatives. Prereq: Enrollment in Primary Care Workforce Development Certificate (Category 1b), or Registered Nurses (RNs) in Primary Care Workforce Development Certificate (Category 4), or RN to BSN program, or BSN program, or permission by instructor.			
3119	Primary Care Role Development	U	½ - 2½
This course will provide practicum experiences for Registered Nurse (RN) primary care delivery and design for population health initiatives. Prereq: Enrollment in the Category 1 Registered Nurses in Primary Care Workforce Development Certificate program, or permission of instructor. This course is graded S/U.			
3430	Cultural Competence in Health Care: US and Global Contexts	U	2
Introduction to the concepts and techniques for the provision of culturally competent care within the U.S. and across global contexts. Prereq: Enrollment in the RN to BSN program.			
4240	Concepts in Community Health Nursing	U	4
Study of community health nursing theory and principles applied to the nursing care of individuals, families, groups, communities, and populations. Prereq: 2440 and 4780, or permission of instructor.			
4402	Evolving Concepts in Leadership and Management	U	5
Exploration and application of leadership and management concepts as applied to nursing practice and the health care environment. Prereq: 2440 and 4240 and 4780, and enrollment in the RN-to-BSN program.			
4520	Health Care Informatics	U	2
Examination of informatics in health care emphasizing clinical information systems and the use of the information technology (IT) applications to support nursing practice. Prereq: Enrollment in the RN to BSN program.			
4600	Interprofessional Concepts	U	2
Examination of principles, competencies, and practices that support interprofessional collaboration, a culture of safety, and improve patient outcomes. Prereq: Enrollment in the RN-BSN program.			
4780	Evidence Based Practice: Transforming Healthcare	U	3
Examination of principles, competencies, practices, and skills that support implementation and sustainability of evidence-based practice in order to improve quality, safety and improve outcomes for patients, populations, providers, organizations, and communities across the globe. Prereq: Enrollment in RN to BSN program, or permission of instructor.			

Nursing Practice

8193	Individual Studies	G	1 - 6
Advanced individual studies in selected areas for the DNP student. Prereq: Admission to the DNP program, or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
8402	Innovation and Leadership Development for the DNP Nurse	G	2
Examination of leadership development to maximize innovation and positive organizational impact with an exploration of own leadership development. Prereq: Enrollment in DNP program, or permission of instructor.			
8403	Science of Practice Innovation	G	2
Scientific underpinnings for analyzing clinical situations in conjunction with appraising data, theories and concepts that guide nursing practice at the clinical doctoral level. Prereq: Enrollment in DNP program, or permission of instructor.			
8404	Nurse Executive Leadership	G	2
Analysis of the role of the DNP nurse executive within complex healthcare systems. Prereq: 8403.			

8405	Nurse Executive Introductory Immersion Experiences	G	1 - 6
Introductory clinical immersion course for Nurse Executive students matriculating with less than 500 verified graduate level clinical hours. Enables completion of 37.5 to 525 graduate clinical hours. Focus on knowledge, skills, and goals for the nurse executive role, prior nursing roles in relation to nurse executive competencies, and transition to doctoral nursing leadership roles. Prereq: Enrollment in the DNP program Nurse Executive specialization track, or permission of instructor. Repeatable to a maximum of 14 cr hrs or 14 completions. This course is graded S/U.			
8480	Evidenced Based Quality Improvement for the DNP	G	2
Explore the theoretical foundations and application of quality improvement methods, tools and strategies needed to increase organizational effectiveness. Focuses on measurement and accountability in health care delivery systems through the examination and analysis of data, structures, processes, and outcomes. Prepares students to lead and practice in organizations. Prereq: Enrollment in DNP program, or permission of instructor.			
8490	Health Promotion, Theory, and Population Health	G	2
Critical analysis of population-based factors that impact population and personal health care including how structural racism and the social determinants of health contribute to health disparities and how health behavior theories, framework, and evidence-based strategies lead to improvements to community health outcomes. Prereq: Enrollment in the M.S. in Nursing or DNP program, or permission of instructor.			
8500	Nursing Policy for Doctoral Nursing Practice	G	2
Examination of policymaking at the system, local, state, and federal levels to influence evidence-informed policy change affecting health care. Prereq: Enrollment in the M.S. in Nursing or DNP program, or permission of instructor.			
8600	Organizational Culture	G	1
Analysis of complex culture in health care and the impact on organizational structure, relationships, evaluation, and outcomes. Prereq: 8402, and enrollment in DNP program; or permission of instructor.			
8610	Health Informatics and Technology for the DNP	G	2
This course will apply information and communication technologies and informatics processes to nursing practice. It will address skills needed to assess, evaluate, and optimize health information systems/technology to support communication, the delivery of high-quality care, and improvement of population health. These components emphasize the design and implementation of health care technology. Prereq: Enrollment in DNP program, or permission of instructor.			
8780	Clinical Effectiveness and Translation in Clinical Science	G	3
Theoretical underpinnings of nursing knowledge and critical appraisal of clinical relevant research related to clinical effectiveness and translational science concepts. Prereq: Admission to the DNP program, or permission of instructor. Not open to students with credit for NursPrc 951 or 953.			
8781	Methods & Measurement for Evaluation of Evidence-based Nursing Practice	G	2
This course focuses on methods, application and interpretation of data and epidemiological approaches for evidence-based nursing practice. Prereq: Enrollment in DNP program, or permission of instructor and undergrad statistics course in last 5 years.			
8782	Foundations of Evidence-Based Practice (EBP)	G	2
To distinguish the principles of evidence-based practice (EBP) integral to the DNP role. The focus is on identifying and understanding when to utilize evidence-based processes and implementation, dissemination, and sustainability strategies to improve practice and policy influencing healthcare outcomes. Prereq: Enrollment in the DNP program, or permission of instructor.			
8783	Implementing, Facilitating, and Sustaining EBP	G	2
Application of EBP principles and the change process to implement, facilitate, evaluate, and sustain evidence-based-practice changes to improve healthcare. Prereq: 8781 and 8782.			
8784	Disseminating Evidence to Advance Best Practices, Policy, and Outcomes in EBP	G	2
Internalization of the roles and responsibilities of the DNP in EBP through dissemination of evidence. Prereq: 8783.			
8890	Doctor of Nursing Practice Professional Seminar	G	1
Development of scholarly writing and peer review skills in scholarly nursing practice. Prereq: Enrollment in DNP program, or permission of instructor.			
8895	Advanced Practice Nursing: Final Professional Seminar	G	1
This course will prepare APRN students for transition to advanced nursing practice at the DNP level and provide application of evidence-based practice knowledge, skills, and abilities for advanced practice nurses in the care of specialty population. Concur: last APRN clinical courses; or permission of instructor.			
8896	DNP Systems Application I	G	2 - 5
Application, integration and synthesis of knowledge, skills, and abilities to meet AACN Essentials for Advanced-Level Nursing Education sub-competencies with practice experiences designed to help students achieve competencies in the specialty components of the DNP role. Prereq: Enrollment in DNP program, or permission of instructor. Not open to students with credit for 8783. Repeatable to a maximum of 9 cr hrs or 3 completions.			

8897	DNP Systems Application II	G	2 - 5
Application, integration and synthesis of knowledge, skills, and abilities to meet AACN Essentials for Advanced-Level Nursing Education sub-competencies with practice experiences designed to help students achieve competencies in the specialty components of the DNP role. Prereq: 8896. Repeatable to a maximum of 6 cr hrs or 2 completions.			
8898.01	DNP Systems Application III	G	2 - 5
Application, integration and synthesis of knowledge, skills, and abilities to meet AACN Essentials for Advanced-Level Nursing Education sub-competencies with practice experiences designed to help students achieve competencies in the specialty components of the DNP role. Prereq: 8897.			
8898.02	DNP Systems application IV	G	2 - 5
Application, integration and synthesis of knowledge, skills, and abilities to meet AACN Essentials for Advanced-Level Nursing Education sub-competencies with practice experiences designed to help students achieve competencies in the specialty components of the DNP role. Prereq: 8898.01, and completion of the DNP Professional Examination. Repeatable to a maximum of 5 cr hrs or 4 completions.			
8998	DNP Final Document Project	G	1
Students complete a scholarly clinical project based on their individualized goals and interests. Prereq: Enrollment in the Doctor of Nursing Practice Program and completion of the DNP Professional Doctoral Examination. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
8998.01	DNP Final Document Project I	G	1
Students complete a scholarly clinical project based on their individualized goals and interests. Prereq: 8402, 8403, 8404, 8480, 8490, 8500, 8510, 8600, 8610, 8781, 8782, 8896, and 8897. This course is graded S/U.			
8998.02	DNP Final Project Document II	G	1
Students complete a scholarly clinical project based on their individualized goals and interests. Prereq: 8998.01, and completion of the DNP Professional Examination. This course is graded S/U.			

Occupational Therapy

6110	Occupational Therapy Foundations & Theory	G	2
Students gain understanding of the scope and domain of the profession, learn basic models of occupational performance and demonstrate professional behavior. The course focuses on developing the student's understanding of OT, professional practice frameworks and professional behaviors. Prereq: Enrollment in the Doctorate of Occupational Therapy program.			
6120	Human Occupation, Performance, and Analysis	G	3
Students will gain an understanding of humans as being occupationally oriented as described in Occupational Science. This course is also designed to provide the student with integrated knowledge and skills required in the analysis of occupation and occupational tasks. Prereq: Enrollment in the Doctorate in Occupational Therapy program.			
6130	Occupational Therapy Therapeutic Use of Self and Groups Lecture	G	2
Students learn the scope of domain of the Occupational Therapy profession, therapeutic interaction, professional behaviors, and group process. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.			
6131	Therapeutic Use of Self and Groups Lab	G	1
Students will engage in self- and peer-assessment, high level discussion, hands on practice of therapeutic communication, administration of occupational assessments, occupational profile training, and standardized patient lab. Additionally, students will plan, design, and implement group activities at community sites. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.			
6140	Core Skills	G	1
This course provides a foundation for core therapy skills in the healthcare environment. A blend of lecture and skills labs will address fundamental patient safety skills, self-care assistance approaches, infection control, vital signs, and mobility and ambulation. Prereq: OTD students must have successfully completed all courses in program to date with a grade of C or better, and be in good academic standing.			
6150	Neuroscience for Occupational Therapy	G	3
Covers the fundamentals of neuroanatomy and neurophysiology to enable students to interpret, evaluate and treat clients with neurological impairments. Prereq: Enrollment in the Doctorate in Occupational Therapy program.			
6160	Assessing Occupation: Fundamentals of Biomechanics	G	2
This course will provide students with an introduction to the standard impairment-based assessments related to the musculoskeletal system. Students will use their knowledge of anatomy and kinesiology, to direct the assessment of functional movement. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.			
6189	Level I Fieldwork in Mental Health	G	1
Students spend 40 hours of time at mental health sites throughout the continuum of care. This course utilizes observation skills, assessment, and development of OT intervention plans for people with emotional, cognitive, and/or behavioral issues. Prereq: Enrollment in the Doctorate of Occupational Therapy program. This course is graded S/U.			

342 Occupational Therapy

6210 Occupational Therapy Intervention and Assessment for Physical Rehabilitation G 3

Students learn methods of occupational therapy assessment of and intervention to improve neuromusculoskeletal and sensory function in persons with impairment or disability. This class is for enrolled Occupational Therapy Students and is taught in a developmental course sequence as each course builds on content knowledge learned in previous occupational therapy courses. Prereq: Enrollment in the Doctorate in Occupational Therapy program, or permission of instructor.

6211 Occupational Therapy Intervention and Assessment for Physical Rehabilitation Lab G 1

Students learn methods of occupational therapy assessment of and intervention to improve impairments in persons with physical disabilities. Application of these skills is completed in an interactive experiential environment individually, in groups, and in practical lab examinations. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.

6220 Mental and Cognitive Functions G 3

This course introduces students to the etiology, epidemiology, signs/symptoms, associated health conditions, prognosis, and medical management of individuals with mental and cognitive impairment. This class is for enrolled Occupational Therapy Students and is taught in a developmental course sequence as each course builds on content knowledge learned in previous occupational therapy courses. Prereq: Enrollment in the Doctorate in Occupational Therapy program.

6221 Mental and Cognitive Functions Lab G 1

This course focuses on the evaluation and treatment of individuals with mental and cognitive impairment. This class is for enrolled Occupational Therapy Students and is taught in a developmental course sequence as each course builds on content knowledge learned in previous occupational therapy courses. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.

6230 Orthopedics in Occupational Therapy G 3

Students will use their knowledge of Occupational Therapy Theory/Frameworks, anatomy, kinesiology, client factors, and medical conditions to better analyze the occupations and performance skills of adults with orthopedic conditions. Prereq: Enrollment in the Doctorate of Occupational Therapy program.

6251 Advanced Topics; Physical Agent Modalities G 1

Students learn to apply physical agent modalities in occupational therapy practice. This class is for enrolled Occupational Therapy Students and is taught in a developmental course sequence as each course builds on content knowledge learned in previous occupational therapy courses. Prereq: Enrollment in the Doctorate in Occupational Therapy Program, or permission of instructor.

6289 Level One Physical Function Fieldwork G 1

In this course, students will gain an understanding of practice in a physical function setting. This course will utilize observation skills, assessment, and development of occupational therapy intervention plans for people with physical impairments. Prereq: Enrollment in the Doctorate in Occupational Therapy program. This course is graded S/U.

6389 Level I Fieldwork: Pediatric G 1

In this course, you will gain an understanding of pediatric practice. You will learn specific skills in observing and evaluating students who receive occupational therapy services. You will participate in planning intervention activities within the pediatric setting. Prereq: Enrollment in the Doctorate in Occupational Therapy program. This course is graded S/U.

6510S Service Learning in OT G 1

This course exposes students to the emerging practice areas of community health services, inter-generational interventions, and inter-professional relationships in a service learning setting. Prereq: Enrollment in the Doctorate in Occupational Therapy program. This course is graded S/U.

6730 Research Methods G 2

Students analyze research reports, develop research questions, identify research methods and designs, collect, analyze and interpret data related to occupational therapy. Prereq: Enrollment in the Doctorate in Occupational Therapy program.

6740 Health Planning for Individuals and Communities G 2

The goal of this course is for students to develop skills in using principles of evidence-based practice to develop programs through a process of needs assessment, program implementation, and evaluation. Prereq: Grad standing in OccTher (OTD).

7189 Occupational Therapy Fieldwork II G 9

Fulltime fieldwork in selected occupational therapy service settings. Prereq: Enrollment in Masters of Occupational Therapy program. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

7260 Occupational Therapy with Older Adults G 2

The purpose of this class is to help prepare students to work with older adults. Students will gain an applied understanding of the older adult occupational performance and participation, demographic, diversity, varying roles, and systems theory including a transactional, occupation-based, and evidence-based approaches to understanding and servicing older adults.

7261 Occupational Therapy with Older Adults Lab G 1

Students learn methods of occupational therapy assessments and interventions in the older adult population. Concur: 7260 and enrollment in the occupational therapy (OTD) program.

7270 Occupational Performance, Environment and Context: Assessment and Intervention G 3

Students will understand the interaction of conditions, occupations, context, habits, roles, routines and will understand and apply knowledge of occupational therapy assessment and interventions for environmental adaptation, ADL, IADL, work, and social/leisure participation and environment. Prereq: Enrollment in the Doctorate in Occupational Therapy Program. Concur: 7271.

7271 Occupational Performance, Environment, and Context: Assessment and Intervention in OT LAB G 1

Students will demonstrate competence in occupational therapy assessment and interventions for environmental adaptation, ADL, IADL, work, and social/leisure participation. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.

7280 Occupational Therapy for Acute & Chronic Conditions in Older Adults G 1

Students learn advanced practice skills in geriatrics, including treatment and rehab of cognitive impairment, cardiopulmonary conditions, mental health, cancer, endocrine & low vision. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.

7281 Occupational Therapy for Acute & Chronic Conditions in Older Adults Lab G 1

Students will demonstrate evaluation and treatment planning with common geriatric diseases, conditions and syndromes through standardized patient simulations and occupational profiles. This lab has in-depth ICU and Acute Care experiences including early mobilization with a standardized patient on a vent, interprofessional simulations, and extensive exposure to lines, tubes, and equipment. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.

7310 Occupational Therapy for Young Children G 3

Prepares students to work with infants and young children across medical and educational environments. Students will learn to identify performance limitations in young children with a variety of developmental disorders/diagnoses. Students will learn to administer standardized assessments, interpret the findings and develop an intervention plan. Prereq: Enrollment in the Doctorate in Occupational Therapy program, or permission of instructor.

7311 Occupational Therapy for Young Children Lab G 1

This lab course will prepare students to work with infants and young children across medical and educational environments. This class is for enrolled Occupational Therapy Students and is taught in a developmental course sequence as each course builds on content knowledge learned in previous occupational therapy courses. Prereq: Enrollment in the Doctorate in Occupational Therapy Program.

7320 Occupational Therapy for School Age and Adolescents G 2

This course will prepare students to work with school-aged children and adolescents across different health and educational environments. This includes measuring occupational performance, completing standardized assessment and treatment. Prereq: 7310, and enrollment in the Doctorate in Occupational Therapy program.

7350 Advanced Pediatric Occupational Therapy G 2

Students achieve advanced skills in neonatal intensive care practice, mobile computer technologies, group interventions; social skills interventions; parent coaching; cognitive intervention; health and wellness. Prereq: Must be enrolled as an OTD student.

7389 Clinical Doctoral Experience G 9

Students spend fourteen weeks in a medical, community, or educational setting applying the skills and knowledge they have gained during their course work and Level II clinical fieldwork experiences, and implementing the objectives, timelines and programmatic initiatives they identified with their site mentor(s) and capstone advisor. Prereq: Two successful completions of 7189, and enrollment in the entry-level doctoral occupational therapy program. This course is graded S/U.

7411 Assistive Technology G 2

Students apply principles of assistive technology to children and young adults. Emphasis on technology to promote school function and learning, augmentative communication, cognitive aids; pediatric wheelchairs; power mobility; positioning devices. Prereq: Grad standing in Occupational Therapy.

7420 Management in Occupational Therapy G 3

Prepares students to become managers, leaders, and advocates. Emphasizes leadership theories, management skills, human resources issues, strategic planning. Prereq: Enrollment in the Doctorate in Occupational Therapy program.

7430 Supervision, Consultation, & Entrepreneurship in Occupational Therapy G 2

This course explores the various theories, models, and methods that occupational therapists draw upon to provide education and learning experiences outside of the academic environment. Through these topics, students will be prepared to educate a variety of adult learners across settings in ways that support therapeutic outcomes and the profession. Prereq: Enrollment in the Doctorate in Occupational Therapy program.

7440 Fieldwork Preparation I G 1

Covers the theoretical basis for Occupational Therapy fieldwork education and provides students with practical information to enhance their fieldwork experience. Supervision theories and principles are reviewed and applied to Occupational Therapy fieldwork education. Prereq: Enrollment in the Doctorate in Occupational Therapy program.

7447 Fieldwork Preparation II G 1

This course occurs concurrently with two level I courses (6289, 6389) and will focus on application of learning experiences and preparation for level II fieldwork. This course will require active participation and self-reflection to identify personal barriers and mindful strategies for a successful clinical experience. Prereq: 7440, and enrollment in the OTD program.

7610 Occupational Therapy Practice Specialization G 1 - 3

Prepares students to practice in a specialty area of occupational therapy. Prereq: Must be MOT Student. Not open to students with credit for 793 or Allimed 885.01. This course is graded S/U.

7620 Occupational Therapy Research Specialization G 1 - 3

Students participate in research projects, including literature review, measurement; data collection, data analysis and interpretation, and writing research reports. Students report their activities and findings in public venues. Prereq: Must be MOT Student. Not open to students with credit for Allimed 885.01. This course is graded S/U.

7710 Capstone Exploration G ½

This course will introduce the students to the doctoral capstone, both project and experience and help them develop the skills needed to create their individualized capstone. They will select the primary area of focus for the experience as well as their general topic of interest that will guide both project and experience. Prereq: 6740 and 7440. This course is graded S/U.

7720 Capstone Proposal G 2

With individual advisors, the students develop a capstone project proposal. Based on extensive review of the literature, proposals include a rationale, method and evaluation for 1) a new occupational therapy program, 2) an EPB clinical guideline. Prereq: Must be enrolled as an OTD student. This course is graded S/U.

7721 Capstone Preparation G ½

By the end of the course, the students will propose a capstone area of focus, topic and identify potential site mentors and community sites for the experience. Prereq: Enrollment in the Clinical Doctorate of Occupational Therapy program. This course is graded S/U.

7730 Capstone Completion G 2

The students interpret their data and write their findings for the capstone project. Students submit the final document and orally defend it. Prereq: Grad standing in OccTher (OTD). This course is graded S/U.

7770 Advance Topics in Assistive Technology G 2

Students learn how to develop and implement assistive technology (AT) devices, services, strategies and practices. The course covers computer access/technology, alternative and augmentative communication, electronic cognitive devices, driver's rehabilitation, low vision technologies, wheelchairs, electronic activities of daily living, zero-effort technologies, and emerging technologies. Prereq: HthRhSc 5200 or OccTher 7411 or equiv., and Grad standing; or permission of instructor.

7780 Advanced Neurorehabilitation Practice G 2

Teaches the principles, evidence, practice, and documentation of clinical practice in adults with neurologic impairments, as well as analysis of how occupational therapy skills and scope of practice are applied to this population. Prereq: Grad standing in OccTher (OTD).

7790 Advanced Topics in Orthopedic Occupational Therapy G 2

Occupational therapy students will apply foundational and advanced knowledge and techniques to real clients and simulated client populations with musculoskeletal disorders. Prereq: Enrollment in the Doctorate of Occupational Therapy program

7920 Evidenced Based Practice 3: Systematic Review and Clinical Guideline Development G 2

The goal of this course is for students to develop skills in using principles of evidence-based practice to develop clinical pathways that guide evaluation and intervention for individual and/or diagnostic groups through systematic review and synthesis of evidence. Prereq: 6740 and 7440.

Ohio State Biochemistry Program

7193 Individual Studies - Laboratory Rotation G 1 - 12

A qualified graduate student may conduct a minor laboratory research investigation in biochemistry under the direction of program faculty members. Prereq: Enrollment in the OSBP. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.

7600 First-Year Student Orientation G 1

Orientation for first-year students in OSBP and partner graduate programs; lectures on topics important for successful graduate experience; training in presenting scientific work; training in research ethics. Prereq: Not open to students with credit for 7600 (760), MCDBio 7600, MolGen 7600, Biophys 7600, or Microbio 7600. This course is graded S/U. Cross-listed in MCDBio, MolGen, Biophys, and Microbio.

7770 Interdisciplinary Student Seminar G 1

Interdisciplinary Seminar in Advanced Biochemistry. Repeatable to a maximum of 10 cr hrs.

7700.01 Interdisciplinary Student Seminar G 1

Interdisciplinary Seminar in Advanced Biochemistry. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

7890 Colloquium - Advanced Biochemistry Topics G 1

Seminars presented by Ohio State faculty and by faculty and professionals from outside the University. Prereq: Enrollment in the OSBP. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.

Optometry

6180 Basic and Ocular Pharmacology G O 4

An introduction to the mechanism of action and side effects of pharmacologic agents. Prereq: 2nd yr standing in Optom. Not open to students with credit for 680 or 681.

6190 Introduction to Clinical Diagnostic Reasoning in Optometry O 1½

Using a problem-based learning format, optometric cases will be utilized to model and develop diagnostic reasoning skills emphasizing basic science and systemic disease. Prereq: 1st yr standing in Optom.

6200 Introduction to Optometric Business O 2

Introduction to the business aspects of the profession of optometry to help students understand and better prepare for their future as an optometrist from a business and financial perspective.

6220 Billing and Coding O 2

This course introduces students to the billing & coding aspects of the profession of optometry. This knowledge is critical to the successful practice of optometry, regardless of career path. This course is designed to help the students understand and better prepare for their future as an optometrist from a billing and coding perspective. Prereq: 2nd yr standing in Optom.

6400 Optometric Examination O 5

The underlying concepts and interrelationships of optometric tests to permit the development of diagnosis and treatment plans for a specified series of optometric problems. Prereq: 2nd yr standing in Optom.

6410.01 Introduction to Primary Care Testing I O 2

Through lecture and direct patient care, students will learn technical skills for parts of the optometric examination. Interpretation of tests will be covered superficially. Professionalism and interpersonal skills will be emphasized. Prereq: 1st yr standing in Optom. This course is graded S/U.

6410.02 Introduction to Primary Care Testing II O 2

Through direct patient care experiences, students will learn technical skills for parts of the optometric examination. Interpretation of tests will be covered superficially. Professionalism and interpersonal skills will be emphasized. Prereq: 6410.01, and 1st yr standing in Optom. This course is graded S/U.

6420 Diagnosis and Management of Common Vision Conditions O 2

This course focuses on evaluation and treatment for accommodative, vergence, oculomotor, visual perceptual and refractive disorders. Classroom emphasis is on clinical analysis of data, diagnosis, and development of appropriate treatment plans. Laboratory sessions expand into treatment through vision therapy techniques. Prereq: 2nd yr standing in Optom.

6440.01 Introduction to Primary Care Practice O 1 - 4

Introduction to clinical experience in examining the visual system and carrying out corrective procedures. Prereq: 2nd yr standing in Optom. Repeatable to a maximum of 30 cr hrs.

6440.02 Ophthalmic Dispensing O 1 - 6

Clinical experience in ophthalmic design and dispensing; education and experience in dispensary management. Prereq: 2nd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

6450.01 Primary Care Practice O 1 - 6

Clinical experience in examining the visual system and carrying out corrective procedures. Prereq: 3rd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

6450.02 Advanced Ophthalmic Dispensing O 1 - 6

Ophthalmic Dispensing: Advanced clinical experience in ophthalmic design, dispensing, and dispensary management. Prereq: 3rd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

6450.03 Introduction to Contact Lenses O 1 - 6

Clinical experience in specialized phases of optometric practice: contact lenses. Prereq: 3rd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions. This course is graded S/U.

6450.04 Ocular Disease Practice O 1 - 6

Clinical experience in specialized phases of optometric practice: diagnosis and treatment of ocular disease. Prereq: 3rd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

6450.05 Vision Screening O 1 - 6

Clinical experience in specialized phases of optometric practice: binocular vision and pediatrics. Prereq: 3rd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

6450.06 Vision Therapy O 1 - 6

Clinical experience in orthoptics and vision therapy. Repeatable to a maximum of 30 cr hrs or 8 completions.

344 Optometry

6450.07	Community Outreach	0	1 - 12
Clinical experience in specialized phases of eyecare: community outreach. Prereq: 3rd yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.			
6560	Ophthalmic Optics	0	5
Optics of single-vision and multifocal lenses; measurement and fitting of spectacles; lens materials, design and manufacturing; aberrations; prism and centration; managing anisometropia; tints and coatings. Prereq: 2nd yr standing in Optom.			
6610	Epidemiology, Public Health and Environmental Vision	0	3
This course will explore epidemiological theories as they related to public health. Community aspects of providing vision care, environmental influences on visual performance, and protection from diseases/hazards to the eye and visual system will also be covered.			
6620	Practice of Optometry	0	1
Introduction to the profession of optometry including its history, organizations and structures, and the professionalism, cultural competency and ethical decision making required to be a successful optometrist. Prereq: 1st yr standing in Optom. This course is grade S/U.			
6760	Ocular Care Techniques	0	2
Introduction to clinical techniques used in the assessment of ocular health and in the diagnosis and management of ocular disease. Prereq: 2nd yr standing in Optom.			
6770	Advanced Ocular Care Techniques	0	2
Investigation of advanced clinical techniques used in the assessment of ocular health and in the diagnosis and management of ocular disease. Prereq: 2nd yr standing in Optom.			
7140	Systemic Disease for Optometry	0	3
Systemic and ocular manifestations of cardiovascular disease, diabetes, hematology, inflammatory disorders, thyroid disorders, neurological disorders, immunology, infectious disorders, macular degeneration management, laboratory blood work. Prereq: 3rd yr standing in Optom.			
7160	Injections, Lasers and Advanced Ocular Techniques	0	2
Practical experience in injections, ophthalmic lasers and advanced ocular techniques. Prereq: 3rd yr standing in Optom.			
7190	Intermediate Clinical Diagnostic Reasoning in Optometry	0	1½
Using a problem-based learning format, optometric cases will be utilized to further develop clinical diagnostic and management skills requiring basic and clinical science integration. Prereq: 3rd yr standing in Optom.			
7210	Optometric Business Management I	0	3
A deeper dive into the business aspects of the profession of optometry covering practice metrics, human resources, optical management, organizational structure, marketing, business relationships, business plans, financial accounting, entrepreneurship, your professional team, and more.			
7240	Optometric Business Management II	0	2
This course dives deeper into the business aspects of the profession of optometry. This knowledge is critical to the successful practice of optometry, regardless of career path. This course is designed to help the students understand and better prepare for their future as an optometrist from a business and financial perspective. Prereq: 3rd yr standing in Optom.			
7420	Vision of Children	0	2
Examination of pediatric patients, including special examination procedures, development of refractive error, prescribing, ocular health, and child abuse. Prereq: 3rd yr standing in Optom.			
7440	Clinical Binocular Vision	0	5
Classification, epidemiology, diagnosis, and management of nonstrabismic and strabismic binocular vision disorders, accommodative anomalies, amblyopia, oculomotor deficiencies, and visual perceptual lags. Prereq: 3rd yr standing in Optom.			
7450.03	Contact Lenses and Primary Care	0	1 - 10
Clinical experience in specialized phases of optometric practice: contact lenses and primary care. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.			
7450.04	Student Health Care	0	1 - 12
Clinical experience in specialized phases of eyecare: student health care. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.			
7450.05	Binocular Vision and Pediatrics	0	1 - 10
Clinical experience in specialized phases of optometric practice: binocular vision and pediatrics. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.			
7450.06	Vision Rehabilitation	0	1 - 10
Clinical experience in specialized phases of optometric practice: vision rehabilitation. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.			
7450.11	Ocular Disease Externship	0	1 - 15
Clinical experience in specialized phases of optometric practice: ocular disease. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.			

7450.12 Practice-based Care **0** **1 - 12**

Clinical experience in specialized phases of eyecare: practice-based care. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

7450.13 Advanced Care Externship **0** **1 - 15**

Clinical experience in specialized phases of optometric practice: advanced clinical care. Prereq: 4th yr standing in Optom. Repeatable to a maximum of 30 cr hrs or 8 completions.

7460 Low Vision Rehabilitation and Gerontology **0** **5**

Assessment and management of mild to moderate visual impairment, especially related to reading and driving, with special emphasis on the needs of older adults. Prereq: 3rd yr standing in Optom.

7500 Contact Lenses **0** **2**

Optics, design, materials, and measurement of contact lenses, theory, fitting and prescribing of sphericals, post-fitting care, contact lens solutions. Prereq: 3rd yr standing in Optom.

7510 Contact Lens Lab **0** **2**

Measurement, verification, and fitting of rigid gas permeable and soft spherical contact lens designs. Prereq: VisSci 6500 or 6520, and 3rd yr standing in Optometry; or permission of instructor. Concur: 7500.

7520 Advanced Contact Lenses **0** **3**

Theory, fitting, and prescribing of specialty contact lens designs including but not limited to torics, multifocals, corneal reshaping and fitting the diseased or irregular cornea. Prereq: 3rd yr standing in Optom.

7530 Advanced Contact Lens Lab **0** **1**

Fitting of specialty contact lens designs, such as toric, multifocal, corneal reshaping, and scleral designs. Prereq: Optom 7500 (Optomtry 433 and 653), and 3rd yr standing in Optometry program; or permission of instructor. Concur: 7520.

7710 Anterior Segment Ocular Disease **0** **4**

Abnormalities and diseases of anterior segment of the eye with emphasis on identification, diagnosis and general management. Prereq: 2nd yr standing in Optom.

7720 Posterior Segment Ocular Disease **0** **3**

Abnormalities of the posterior segment with emphasis on vitreoretinal disease, vascular disease, and macular disease. Prereq: 2nd yr standing in Optom.

7730 Ocular Neurology **0** **3**

Neurology and neuro-pathology of the visual system and basics of visual field testing and interpretation. Prereq: 3rd yr standing in Optom.

7740 Management of Glaucoma **0** **2**

Glaucoma diagnosis and management including epidemiology, pathophysiology, differential diagnosis, risk assessment, testing strategy and interpretation, medical and surgical management. Prereq: 3rd yr standing in Optom.

7770 Clinical Ocular Pharmacology **0** **4**

Application of pharmacology principles in the clinical setting with emphasis on differential diagnosis and matching drug selection and dosage determination with disease severity. Prereq: 3rd yr standing in Optom.

7790 Surgery and Comanagement of Ocular Disease **0** **2**

Advanced management, pre and post operative management and surgical procedures for ocular disease. Prereq: 3rd yr standing in Optom.

7800 Special Topics in Optometry **0** **½ - 8**

Elective clinical rotations in the professional optometric curriculum. Prereq: Enrollment in Optom, and permission of instructor or department. Repeatable to a maximum of 40 cr hrs or 20 completions.

Otolaryngology

8803 Observations in Clinical Voice Pathology **G** **2**

Med 8803 is an observation course for graduate students in the Singing Health Specialization (SHS) curriculum. Provides students with an opportunity to observe the clinical management of voice disorders including the assessment, treatment. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

8804 Observations in Surgical Laryngology **G** **2**

Observation course for graduate students in the Singing Health Specialization (SHS) curriculum. Students should have completed MED 803 prior to enrollment in this course. This course provides observation experience in a voice disorders clinic with licensed speech language pathologists and is required for the singing health specialization. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

8805 Endoscopy **G** **1**

The course provides students with an opportunity to learn about endoscopy skills, history, and interpretation. Students will participate in a lecture and/or article review then hands on experience with endoscopy skills with Speech Pathologists who are specially trained in endoscopy. Students will begin to understand the anatomy of the vocal mechanism and physiology through developing scope skills. Prereq: Enrollment in Singing Health Program or Speech and Hearing Masters Program. This course is graded S/U.

8809 Issues in Laryngology for the Vocal Health Professional G 2

Advanced anatomy and physiology of the vocal mechanism. Offered for graduate students in the Singing Health Specialization (SHS) curriculum. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

Pathology

3900 Basic Pathology and Disease Mechanisms U 3

Introductory course covering basic pathology concepts with an emphasis on underlying mechanisms of disease. Applications to scientific research and clinical scenarios will be emphasized. Prereq: Biology 1113 or 1113H, and 1114 or 1114H.

4991 Application of Histological Theory and Techniques I U 12

Students in this histotechnology lab will learn gross and microtomy examination of tissue specimens in both a clinical and a research lab environment. These skills will be acquired through repeated practice to perfect each new skill. Prereq: Admission to Histotechnology Certificate program; BS or BA (with minimum of 30 semester hours of a combination of biology and chemistry).

4992 Application of Histological Theory and Techniques II U 12

Students in this histotechnology lab will perform special stains, understand basic electron microscopy, immunohistochemistry, and clinical laboratory compliance. These skills will be acquired through repeated practice to perfect each new skill. Prereq: 4991, and admission to Histotechnology program, and BS or BA degree (with minimum of 30 semester hours of a combination of Biology and Chem).

4998 Undergraduate Research Independent Study Course U 1 - 3

Students will perform laboratory research under the supervision of a faculty member. Course can be used to satisfy requirements for an undergraduate thesis. Prereq: Permission of instructor. This course is graded S/U.

6640 Fundamentals of Oncology G 4

Oriented towards graduate students in cancer-related programs and consists of a series of lectures covering a variety of aspects of experimental oncology. Prereq: Permission of instructor. Cross-listed in VetBios.

7194 Group Studies in Pathology G 1 - 4

Group studies of contemporary topics in mechanisms of disease. Recommended strong background in biological sciences. Prereq: Permission of instructor. Not open to students with credit for 794.

7550 Introduction to Autopsy G 1

Students receive an overview of medical (non forensic) autopsy performance and its role in clinical medicine through hands-on exposure to normal and diseased tissues and organs. Recommended prereq: Basic knowledge of anatomy and pathophysiology. This course is graded S/U.

7750 Introduction to Autopsy G 1

Students receive an overview of medical (nonforensic) autopsy performance and its role in clinical medicine through hands-on exposure to normal and diseased tissues and organs. Prerequisite for the course is basic knowledge of anatomy and pathophysiology. This course is graded S/U.

7793.01 Pathologic Anatomy G M 3 - 9

Students work with an attending pathologist, pathology resident and deiner in prosecting cases while they learn the technical operations of the autopsy service. Prereq: Grad standing, or Med III and IV standing. Concur: An additional 3 hour professional course (when registration is for 3 professional credit hours). Repeatable to a maximum of 18 cr hrs or 2 completions. This course is graded S/U.

7847 Cellular Mechanisms and Pathogenesis of Inflammation G 2

Inflammatory processes in the human host due to interaction with viruses, bacteria, parasites, foreign antigens, or physical trauma and new immunological therapeutic strategies being developed. Prereq: MVImg 701 or Micrbiol 701, or permission of instructor. Not open to students with credit for MVImg 847.

7999 Thesis Research in Pathology G 2 - 10

Research in contemporary topic in mechanisms of disease leading to a Master's thesis. Prereq: Enrollment in Master of Science program in Pathology. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.

8850 Seminars in Pathology G 1

Faculty seminars in immunopathology. Repeatable to a maximum of 14 cr hrs. This course is graded S/U.

8999 Research in Pathology - Independent Study G 1 - 12

Students will perform laboratory research under the supervision of a faculty member. Course can be used to satisfy requirements for a doctoral dissertation. Prereq: Permission of instructor. This course is graded S/U.

Pediatrics

4998 Undergraduate Research in Pediatrics U 1 - 3

Undergraduate Research Experience in Pediatrics. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs or 8 completions. This course is graded S/U.

5077 Introduction into Gene and Cell Therapy U G 1/2

The course aims to give a broad introduction into the history and fast evolving field of gene and cell therapy. We will cover multiple different types of viral and non-viral gene therapy as well as different cell therapies and crispr technology. Appropriately prepared students are advanced undergraduates or graduate students in the field of biology/natural sciences/medicine.

5088 All About AAV - Biology, Design, and Execution of Translational AAV Gene Therapy U G 1

This course will cover highly relevant aspects of AAV Gene Therapy including: overview on AAV biology, vector elements and design, preclinical study design, manufacturing, and regulatory and ethical considerations. Basic knowledge in molecular and cellular biology required prior to enrollment. Repeatable to a maximum of 2 cr hrs.

8999 Doctoral Thesis Research in Pediatrics G 1 - 13

Doctoral Thesis Research in Pediatrics. Prereq: Permission of instructor. Repeatable to a maximum of 12 completions. This course is graded S/U. Admis Cond course.

Persian

1101 Elementary Persian I U 4

Introduction to Persian; development of listening, reading, speaking, and writing skills. Closed to native speakers of this language. This course is available for EM credit. GE for lang course. GE world languages course.

1102 Elementary Persian II U 4

Further development of listening, writing, speaking, and reading skills; reading of simplified Persian texts. Closed to native speakers of this language. Prereq: 1101. This course is available for EM credit. GE for lang course. GE world languages course.

1103 Intermediate Persian I U 4

Further development of listening, writing, speaking, and reading skills; reading of simplified Persian texts. Closed to native speakers of this language. Prereq: 1102. This course is available for EM credit. GE for lang course. GE world languages course.

2104 Intermediate Persian II U 4

Extensive reading from literary texts, with practice in conversation and composition. Prereq: 1103.

2105 Intermediate Persian III U 4

Continued reading from literary texts, with further practice in conversation, composition, and translation. Prereq: 2104.

2193 Individual Studies U 1 - 5

Individual Studies. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

2194 Group Studies U 1 - 5

Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.

2241 Persian Culture U 3

A survey of Persian Culture through the reading of Persian literature in translation, viewing of Persian films, and listening to Persian music. Prereq: Not open to students with credit for 241. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2701 Persian Literature in Translation U 3

A study of Persian literature in translation and the history of its discourses, genres, and styles. Prereq: English 1110, or GE foundation writing and info literacy course. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

3101 Advanced Persian: Reading and Composition U 4

Extensive reading of classical and modern Persian literary texts, with practice in grammar and composition at an advanced level. Prereq: 2105.

3350 Iranian Society Today: Internal Conflicts and Social Movements U 3

This multi-disciplinary course is a journey through political, social, and intellectual history of Iran. The course will discuss intellectual interpretations of post-1979-revolution Iranian society, various new nonviolent social movements in recent two decades, and the role of globalization and media politics in contemporary Iran. GE soc sci indivs and groups and diversity global studies course.

4999H Honors Research U 1 - 3

A program of research for individual students that includes individual conferences and culminates in an honors thesis or oral defense. Prereq: Honors and Sr standing, and GPA 3.5 or above in field of distinction, and approved candidacy for graduation with distinction, and permission of instructor. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

5193 Individual Studies U G 1 - 10

Individual studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

5194 Group Studies U G 1 - 10

Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions.

346 Persian

5601	Persian Prose	U G	3
Selected readings reflecting the major genres of classical Persian prose, plus a modern novel. Prereq: 3101, or permission of instructor. Not open to students with credit for 651.			
5797	Study at a Foreign Institution	U G	1 - 10
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 5 completions.			

Pharmacy

1100	Pharmaceutical Sciences Survey	U	1
Introduction to the University, strategies for student success, academic programs, opportunities in the pharmaceutical sciences and practice, and contemporary issues. Prereq: Enrollment restricted to students in the BSPS program, or permission of instructor.			
2010	Pharmacology: How Drugs Work	U	3
This course presents an overview of basic principles underlying drug action.			
2100	Career Development in Pharmaceutical Sciences I	U	½
This class introduces students to diverse careers in the field of pharmaceutical & health sciences. Students will be grouped based on their career interests, & will work with their instructor/peers to gain knowledge on various career paths. Students will engage with guest speakers & will come away with a sense of their options and a critical understanding of career and professional development. Prereq: Enrollment in the BSPS program, or permission of instructor.			
2101	Career Development in Pharmaceutical Sciences II	U	½
In this professional development course, students identify a plan for pursuing their career goals and acquire practical skills to assist with job searching, networking, personal branding, and applying to graduate/professional programs. Prereq: 2100, enrollment in the Bachelor of Science in Pharmaceutical Sciences program, and Jr standing; or permission of instructor.			
2367.01	Drug Use in American Culture	U	3
This course investigates a given drug by assessing its historical use, clinical properties and risks, its role in American culture, and other issues surrounding its use/abuse in the United States. Students will analyze various sources of information and effectively communicate key messages using a variety of platforms. Prereq: English 1110.xx, or GE foundation writing and info literacy course. Not open to students with credit for 2367.02. GE writing and comm course: level 2. GE theme health and well-being course.			
2367.02	Drug Use in American Culture	U	3
This course investigates a given drug by assessing its historical use, clinical properties and risks, its role in American culture, and other issues surrounding its use/abuse in the United States. Students will analyze various sources of information and effectively communicate key messages using a variety of platforms. Online delivery only. Prereq: English 1110.xx, or GE foundation writing and info literacy course. Not open to students with credit for 2367.01. GE writing and comm course: level 2. GE theme health and well-being course.			
2400.01	Addicting Drugs: Effects, Introductory Neurobiology, and Regulation	U	3
Overview of effects, regulation, and mechanism of action of addicting drugs, with an introduction to function of the nervous system and how this function is altered by drugs. GE theme health and well-being course.			
2410	Drugstore Science	U	3
This course introduces the science behind common drugstore products, including over-the-counter (OTC) medications and drug-cosmetics, including how these products work, potential non-drug alternatives, and various drug-related issues involving their use. Note: Content of this course is not intended to be considered as professional medical advice or to replace advice from a healthcare provider. GE theme health and well-being course.			
2420	Drug Culture and Genetics: Revelations from Otzi to Ozzy	U	3
Humans have been experimenting with chemicals for therapeutic use and taking mind-altering substances for thousands of years. In this course we investigate the genetic evidence of past human drug use, the genetic revelations and techniques involved in therapeutic drug use and addiction behavior today, and the role of genetics in the future of therapeutics. GE cultures and ideas course. GE foundation historical and cultural studies course.			
2450	A Tough Pill: Health Identity, Disparity, and Discrimination	U	3
In this course, students will analyze how their own identities and the identities of others influence experiences within the American healthcare system. They will learn terminology related to concepts of gender, race, ethnicity, sexuality, socioeconomic status, and other identities and apply them to healthcare practice and health disparities. GE foundation race, ethnicity and gender div course.			
2500	Drug Discovery, Development and Delivery	U	3
Provides a comprehensive overview of the drug discovery, development, and delivery process within the U.S. healthcare system, exploring the roles of vested stakeholders (e.g., patients, pharmaceutical industry, providers, insurers, society, etc.) during a drug's "bench to bedside" development including its post-development place in therapy.			

2510	Introduction to Pharmacy	U	2
A survey of the profession of pharmacy, dealing with its history, educational requirements, organization, regulation, and current developments. Prereq: Not open to students with credit for 2511H, 4510, 4511H.			
2511H	Introduction to Pharmacy	U	3
A survey of the profession of pharmacy including its history, scope of practice, educational pathways, ethical foundations, regulation, contemporary issues, career opportunities, and prospects for the future; as well as topics relating to medication use and drug discovery/development. Prereq: Enrollment in the BSPS program and Honors standing, or permission of instructor. Not open to students with credit for 2510, 4510, or 4511H.			
2520	Patient Perspectives	U	2
This course will provide students with the unique opportunity to learn directly from patient speakers (and caregivers if available) about the impact disease states and therapy have on them. In addition to listening to these first-hand accounts, students will be able to thoughtfully engage and meaningfully reflect each week to develop their understanding and empathy for the patient experience.			
2530	Introduction to Pharmaceutical Science Research	U	2
This elective is designed to differentiate investigation-focused pharmaceutical research compared to skills-focused laboratory course work and introduce students to exciting topics of active research in the field in a highly approachable way.			
2530E	Introduction to Pharmaceutical Science Research	U	2
This elective is designed to differentiate investigation-focused pharmaceutical research compared to skills-focused laboratory course work and introduce students to exciting topics of active research in the field in a highly approachable way. Prereq: Honors standing.			
2934	It's Not Magic, It's Pharmaceutical Sciences	U	3
This course will serve as an introduction to pharmaceutical and associated healthcare sciences. Topics covered include the history of medicine, drug discovery and development, natural products, and pertinent public health crises. Topics will be presented through connections made to fantasy narratives, such as Harry Potter. Prereq: Not open to students enrolled in the BSPS program.			
3100	Human Physiology and Disease	U	4
This course examines principles of human physiology and provides an overview of the most common pathophysiological diseases. Prereq: Biology 1113 or 1113H or 1114 or 1114H, and Chem 1210 or 1250 or 1610 or 1910H, and enrollment in the BSPS program; or permission of instructor.			
3191	Experiential Learning in Pharmaceutical Sciences	U	1
Students will begin to develop and solidify their career goals and improve their understanding of career and professional development in the pharmaceutical sciences through hands-on experience in an internship, course lectures and assignments. Students will work closely with supervisors and instructors to explore skills and receive constructive feedback. Prereq: Permission of instructor, and students must already have secured an internship/experiential opportunity. This course is graded S/U.			
3200	Biochemistry for the Pharmaceutical Sciences	U	5
Fundamentals of biological chemistry for the study of the pharmaceutical sciences, including molecular basis of structure, metabolism, genetic replication, transcription, and translation in humans. Ties to drug processes will be highlighted. Prereq: Chem 2520 or 2920H; and enrollment in the BSPS program, or permission of instructor.			
3210	Nature's Medicine Cabinet	U	2
This course covers basic information on natural products that have exerted an effect on human health to be utilized as a foundation in solving simulated practical cases. Prereq: Chem 1110, 1210, 1250, 1610, 1910H, or Biology 1101, 1110, 1113, or 1114, or permission of instructor.			
3400	Therapeutic Frontiers	U	2
Investigation of newly emerging (and at times) controversial strategies for treating disease, including biologics, cell replacement therapy, and vaccines among others. This course also explores the science behind important therapeutic factors such as the placebo effect, the microbiome, and pharmacogenomics. Prereq: Not open to students with credit for 4410.			
3410	Science Communication & Engagement	U	1
Within the Generation Rx Laboratory at the Center of Science and Industry (COSI), students will practice science communication as they create and lead live, hands-on experiments teaching basic drug science. Prereq: Jr or Sr standing, enrollment in the BSPS program, and permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
3420	Generation Rx: America's Drug-Taking Culture	U	3
This course analyzes America's drug-taking culture by examining its past, present, and future. Students will identify factors that fuel it, discuss its influence on a patient's medication experience, and evaluate its role in a current public health crisis. The course will conclude with discussing ideas that promote a culture of health. GE cultures and ideas course. GE foundation historical and cultural studies course.			
3430	Quest for the Cure	U	3
In this course we will discuss the ongoing quest for a cure for cancer, including recent investigations in how cancer is treated, prevented and detected. Like in many quests, cancer has proven an evasive and adaptable villain and our heroic cancer patients, advocates, researchers, and healthcare providers face additional obstacles in the form of cancer health disparities.			

3440	Drugs that Changed the World	U	3						
	Medications have profoundly affected the human experience. The discovery and use of medications such as antibiotics, contraceptives, and vaccines have reshaped our society in the last century. While many of these medications have had a generally positive impact on human populations, they are not free of controversy. This course will explore their complex history, science, and societal impact. GE theme health and well-being course.								
3500	Pharmacoethics: Dilemmas and Decision-Making	U	2						
	Develops core competencies in ethical issues in healthcare settings amidst a biologically, socially, culturally diverse patient population. Discusses the pharmaceutical industry's ethical responsibilities & professional conduct, including clinical drug trials & studies, research, marketing & promotion. Discusses basic principles of business ethics in other healthcare industries.								
3520	Principles of Therapeutics	U	2						
	Designed to provide knowledge about medication therapies and treatment guidelines for common illnesses affecting patients. Prereq: Not open to students with credit for Phr 4520. This course is graded S/U.								
3530	Drugs, Human Enhancement, and the Mastery of Nature	U	3						
	How should we navigate questions of identity in the world of cognitive and mood enhancing drugs? Where do we draw the line on 'smart drugs' for intellectual endeavors or the use of performance enhancing drugs in athletic pursuits? More broadly, we will debate whether and how as a society we might enact particular restraints on our pursuit of human enhancements. GE cultures and ideas course. GE foundation historical and cultural studies course.								
3540	Health Citizenship: Advocacy and Change-Making	U	3						
	The goal of the Health Citizenship: Advocacy and Change-Making elective is to build a foundation of knowledge of historical and current state and federal issues that impact healthcare and cultivate skills to become effective changemakers to improve the healthcare system. GE theme citizenship for div and just wrld course.								
3708	Vaccines: A Global History	U	4						
	This course examines the history and biology of vaccines. We explore the discovery and development of vaccines, along with the political and cultural controversies that have surrounded them for centuries. Team-taught course with faculty member in History. Prereq: Not open to students with credit for History 3708. GE historical study course. GE theme health and well-being course. Cross-listed in History.								
4000	Molecules to Medicines I: An Integrated Approach to the Pharmaceutical Sciences	U	5						
	First course in a two-course series. Principles governing the design, synthesis, delivery, action and use of drugs in disease treatment. Model disease pathophysiology and treatment will be investigated, discussing how biological differences can be targeted for therapeutic gain. Prereq: 3200, 4100, or Biochem 4511, or prereq or concur: Biochem 5614.								
4010	Molecules to Medicines II: An Integrated Approach to the Pharmaceutical Sciences	U	5						
	Second course in a two-course series. Principles governing the design, synthesis, delivery, action and use of drugs in disease treatment. Model disease pathophysiology and treatment will be investigated, discussing how biological differences can be targeted for therapeutic gain. Prereq: 4000; and 3100, EEOB 2520, or Physio 3200.								
4191	BSPS Internship for Curricular Practical Change	U	0						
	Provides professional experience which will prepare students for professional expectations upon graduation. This course accompanies the active pursuit of an internship experience which satisfies the requirements for curricular practical training. Prereq: Enrollment in the BSPS program, submitted CPT application, letter of offer from CPT site, and permission of instructor. This course is graded S/U.								
4193	Individual Studies in Pharmaceutical Sciences	U	½ - 12						
	Laboratory and library work designed to give the qualified student an opportunity to complete an original investigation or pursue an interest in a special problem. Prereq: CPHR 2.5 or above, and Soph standing, and enrollment in the BSPS program, and permission of instructor. Not open to students with credit for Pharmacy 493. Repeatable to a maximum of 30 cr hrs or 12 completions. This course is progress graded (S/U).								
4194	Group Studies in Pharmaceutical Sciences	U	1 - 12						
	Group studies topics in various fields of Pharmacy. Prereq: Enrollment in BSPS program, or permission of instructor. Not open to students with credit for Pharmacy 494.01. Repeatable to a maximum of 12 cr hrs or 12 completions.								
4210H	Problem Solving in Biomedical Chemistry	U	2						
	A course designed to use problem-based learning to promote understanding of biomedical concepts. Case studies will be assigned allowing students to apply biochemical principles and communicate with their colleagues in the course. Prereq: 3200 or 4100, and enrollment in BSPS program.								
4330	Basic Pharmacokinetics	U	2						
	An elementary course designed to introduce the student to the topic of pharmacokinetics. The application of biopharmaceutics and pharmacokinetic principles as they relate to drug absorption, distribution and elimination will be discussed. Prereq: Math 1150 or equivalent, or permission of instructor.								
4420	Molecular Pharmacology-From DNA to Biopharmaceutical Products	U	2						
	Overview of biopharmaceutical products and their production methods. Concur: 3200, or permission of instructor.								
4430	GPCR Pharmacology	U	2						
	The G protein-coupled receptors (GPCRs), also known as seven-transmembrane receptors) superfamily in humans is composed of over 800 members, and is the target of about one-third of all pharmaceuticals. A remarkable array of extracellular signals transmit signals via GPCRs. Our class will focus on the biochemistry and pharmacology of these receptors. Concur: 3200, or permission of instructor.								
4440	Pharmacology of Neurologic and Psychiatric Disorders	U	3						
	This course will serve as an introduction to principles of pharmacological therapy of neurologic and psychiatric diseases. Prereq: 3200 or 4100, or Biochem 4511 or 5613, or Neurosc 3000, or permission of instructor.								
4470	Contemporary Pharmacology	U	1						
	Exploration of current research topics in pharmacology through discussions of recently published pharmacology papers. Enrollment with permission of Instructor. Prereq: 4000, 4400, or 4460; and permission of instructor. Repeatable to a maximum of 3 ch hrs.								
4600	Pharmaceutical Sciences Laboratory	U	3						
	Lab exercises to teach the theory and practice of basic techniques in pharmaceuticals, medicinal chemistry and pharmacology: including spectroscopy, hydrolysis, drug synthesis, pKa determination, IC50 determination, enzyme kinetics, and drug action. Prereq: Chem 2540, and enrollment in the BSPS program or Pharmaceutical Sciences minor; or permission of instructor. Prereq or concur: PHR 3200 or 4100, or Biochem 4511 or 5613.								
4610	Experimental Techniques in Drug Discovery	U	4						
	Examination of the laboratory instrumentation and methods used in the drug discovery process. Prereq: 3200, or equiv. Biochem course, or permission of instructor.								
4997	BSPS Honors Project	U	1 - 4						
	The Honors Project class is designed to provide undergraduate students with practical experience in the pharmaceutical sciences through research, outreach and engagement, internships, and other activities. Prereq: Honors standing, and enrollment in the BSPS program. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.								
4998	General Undergraduate Research	U	1 - 18						
	Course credit earned by conducting research while enrolled as an undergraduate student. Repeatable to a maximum of 60 cr hrs or 12 completions. This course is graded S/U.								
4999	Undergraduate Research Thesis	U	1 - 18						
	Culmination of undergraduate research in the form of written thesis. Repeatable to a maximum of 60 cr hrs or 12 completions. This course is graded S/U.								
5000	Interdisciplinary Case Management for Working with Underserved Populations	U G P	2						
	This course will provide students the opportunity to collaborate with students from other health care professions including pharmacy, health and rehabilitation sciences, nursing, medicine and social work. The students will use a problem-based learning approach to patient care in community health, focusing on populations, living in poverty, with complex healthcare needs. Prereq: Jr or Sr standing in the BSPS program, enrollment in the PharmD program, or permission of instructor. Repeatable to a maximum of 6 cr hrs. This course is graded S/U. Cross-listed in HthRhSc 5000, Nursing 5000, and SocWork 5018.								
5005	Fundamentals of Pathophysiology	U G	3						
	This course provides a fundamental overview of human pathophysiology by comparing dysfunctional body processes to normal physiological function. Case studies will be applied to pathophysiological phenomena. Prereq: Admission to the MS Translational Pharmacology or Master of Clinical Research program, or permission of instructor. Not open to students with credit for HthRhSc 5500, or enrollment in PharmD program.								
5010	Fundamentals of Pharmacology	U G	3						
	This course overviews principles underlying drug action, including an investigation of current treatments for a variety of common diseases. In addition, this course will implement activities that emphasize the ethical aspects and implications of a variety of drug therapies. Prereq: Not open to students with credit for 2010, or 4400, or Pharmcl 5600, or HthRhSc 5510; or enrollment in PharmD program.								
5402	Economic Evaluation of Pharmaceutical and Health Care Interventions	U G P	3						
	Introduction to economic evaluation of pharmaceutical and other health care interventions and services, including evaluating costs and health outcomes, using results to inform resource allocation, interpretation and evaluation of economic evaluations in the literature, and decision analysis in health care. Prereq: Grad, Jr, or Sr standing. Not open to students with credit for MCR 7402 or Nursing 7402.								
5410	Vaccine Hesitancy: Towards Effective Communication	U G P	3						
	Vaccines are among the most significant achievements in modern medicine, providing a safe and highly effective means to prevent disease. However, an increasing number of individuals are refusing vaccination. In this course, we analyze contributing factors to the anti-vaccine movement, discuss the psychology behind vaccine hesitancy, and evaluate the implications of undervaccination.								
5500	History of Pharmacy	U P	3						
	Evolution and development of the profession of pharmacy from antiquity to the present, with emphasis on its Anglo-American development since the 18th century. Prereq: Soph standing in BSPS, or enrollment in PharmD program. Not open to students with credit for 5130.								

348 Pharmacy

5505	Pay It Forward	U P	2	5505	Transitions II	P	½
<p>This course helps students become philanthropists through volunteering and creating services through grants for the community. PharmD and BSPS students will collaborate together in small groups to develop different projects for community partners. Pay It Forward exists in support from Ohio Campus Compact on campuses throughout Ohio. Prereq: Enrollment in the PharmD or BSPS programs. This course is graded S/U.</p>				<p>This course builds on skills and knowledge gained in the first year of the program in preparation for a summer intensive professional experience and the second year curriculum. The major course themes are leadership, entrepreneurship, and innovation. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
5510	Basics of Pharmaconutrition	U P	3	6191	Pharmacy Internship for Curricular Practical Training	P	0
<p>Covers basic information on the effects of dietary factors on pharmaconutrition to be utilized as a foundation in solving patient-related cases in pharmacy practice. Prereq: Undergrad standing, enrollment in the PharmD program, or permission of instructor.</p>				<p>Provides additional experience in a professional pharmacy setting which is necessary to prepare students for experiential rotations that are a required part of the curriculum as the student progresses towards their Doctor of Pharmacy degree. This course accompanies the active pursuit of a pharmacy internship experience which satisfies the requirements for curricular practical training. Prereq: Submitted CPT application, and letter of offer from CPT site, and permission of instructor. This course is graded S/U.</p>			
5520	Advanced Pharmaconutrition	U G P	2	6193	Individual Studies in Pharmacy	P	½ - 12
<p>Provides concepts needed by pharmacists necessary to include nutrition into their daily assessment of patients and integrate their findings into the therapeutic plan. Prereq: 5510, and enrollment in the College of Pharmacy; or permission of instructor. Not open to students with credit for Phr 5155.</p>				<p>Laboratory and library work designed to give the qualified student an opportunity to complete an original investigation or pursue an interest in a special problem. Prereq: Enrollment in PharmD program, and permission of instructor. Repeatable to a maximum of 30 cr hrs or 12 completions. This course is graded S/U.</p>			
5525	Advocacy in Pharmacy	U P	1	6194	Group Studies in Pharmacy	P	1 - 12
<p>The goal of the Advocacy in Pharmacy elective is to build a foundation of knowledge of historical and current state and federal issues that impact the practice of pharmacy and cultivate skills to become effective changemakers in the profession. Additionally, students will engage in discussion and joint learning activities with students from other schools and colleges of pharmacy in Ohio. Prereq: Enrollment in BSPS program or Doctor of Pharmacy program, or permission of instructor.</p>				<p>Group studies topics in various fields of Pharmacy. Prereq: Enrollment in PharmD, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completion.</p>			
5540	Topics in Clinical Pharmacy Research	U P	2	6201	Foundations in Pharmacy Administration I	P	2
<p>Introduction to conducting research in clinical pharmacy including research design issues and to ethical considerations. Faculty conducting research in various populations will discuss their research, followed by class discussion. Prereq: 4000, and enrollment in the PharmD or BSPS program. Not open to students with credit for 5170. This course is graded S/U.</p>				<p>An introduction to the U.S. healthcare system, management, leadership, and pharmacy law, in preparation for roles as pharmacy interns and future pharmacy practitioners. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
5550	Topics in International Pharmacy	U G P	2	6301	Concepts in Patient Care I	P	3
<p>Seminar on global pharmaceutical issues and international practices of pharmacy. Prereq: Jr or Sr standing. Not open to students with credit for 5180. This course is graded S/U.</p>				<p>The first in a two-module sequence addressing concepts and skills that are essential components of exemplary patient care. This module focuses on oral and written communication and drug information skills in the context of using the patient care process to counsel patients about the selection and use of nonprescription medications particularly in community and ambulatory care pharmacy settings. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
5560	Success & Leadership in Pharmacy	U G P	1½	6302	Concepts in Patient Care II	P	2½
<p>Explore the meaning of success and leadership, attributes of successful leaders and what can be done to be a successful leader. Prereq: Enrollment in College of Pharmacy, or permission of instructor. Not open to students with credit for 5610. This course is graded S/U.</p>				<p>The second in a two-module sequence addressing concepts and skills that are essential components of exemplary patient care. This module focuses on oral and written communication and drug information skills in the context of using the patient care process to counsel patients about the selection and use of nonprescription medications, particularly in community and ambulatory care pharmacy settings. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
5590	Chemical Dependency and the Healthcare Professional	U G P	3	6401	Integrated Patient Care Laboratory I	P	3
<p>This lecture- and discussion-based course provides instruction, debate and exploration relating to the impact of chemical dependency on healthcare professionals, including the concepts of addiction, individuals at risk, intervention, withdrawal, emotions, recovery networks, regulatory actions and returning to practice.</p>				<p>First in a two-module professional practice laboratory sequence. Topics include preparation/dispensing of various dosage forms, communication, use of drug information resources, and use of instruments. Prereq: Enrollment in the Doctor of Pharmacy Program.</p>			
5700	Introduction to Personalized Therapeutics and Pharmacogenomics	U G P	3	6402	Integrated Patient Care Laboratory II	P	3
<p>Exploration of the trend to therapy tailored to the individual patient rather than "one drug fits all;" inter-individual differences in drug responses, with emphasis on genetic and genomic factors; ethical, regulatory, and economic issues that impact drug therapies. Credit for introductory biology course recommended prior to enrollment. Cross-listed in BioPhrm and CBG.</p>				<p>Second in a two-module professional practice laboratory sequence. Topics include preparation/dispensing of various dosage forms, communication, use of drug information resources, and use of instruments. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
5797	Study at a Foreign Institution	U G P	1 - 18	6501	Principles of Drug Action I	P	5
<p>An opportunity for students to study at a foreign institution and receive OSU credit for work completed there. Students will pay OSU fees and any fees in excess of OSU tuition, as well as all travel and subsistence costs. Prereq: Permission of department. Repeatable to a maximum of 54 cr hrs or 3 completions.</p>				<p>This module provides basic foundations in the pharmaceutical sciences necessary for the understanding of drugs and the determinants of drug action. The module covers biochemistry and physiology of drug action, physical chemistry of pharmaceutical products, medicinal chemistry and pharmacokinetics. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
5798	International Healthcare Experience in Pharmacy	U P	3	6502	Principles of Drug Action II	P	8
<p>Preparation for traveling abroad to a destination country. Students will be introduced to the culture, history, and healthcare practice in the destination country. Evaluation will be based on participation in individual class sessions and fulfillment of assignments. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs. This course is graded S/U.</p>				<p>This module provides basic foundations in the pharmaceutical sciences necessary for the understanding of drugs and the determinants of drug action. The module covers biochemistry and physiology of drug action, physical chemistry of pharmaceutical products, medicinal chemistry and pharmacokinetics. Prereq: Enrollment in the Doctor of Pharmacy program.</p>			
6001	Introductory Pharmacy Practice Experiences I	P	1	6550	Pharmacy Students East Meets West Videoconference	P	1
<p>First in a two-module sequence of part-time experiences that enhance and complement first-year professional coursework. Students engage in activities in community pharmacies and with other pharmacy partners. Activities provide foundation for attitudes and skills that will be applied during the professional practice laboratory. Prereq: Enrollment in the Doctor of Pharmacy program. This course is graded S/U.</p>				<p>This is a seminar course focused on pharmaceutical issues in the United States and Taiwan. The course will provide students the opportunity to interact with pharmacy students from overseas to learn about global pharmacy practice. The students will use a team-based learning approach in a flipped classroom setting. Prereq: Enrollment in PharmD program, or permission of instructor. This course is graded S/U.</p>			
6002	Introductory Pharmacy Practice Experiences II	P	1	6600	Opioid Use Disorder	P	1
<p>Second in a two-module sequence of part-time experiences that enhance and complement first-year professional coursework. Students engage in activities in community pharmacies and with other pharmacy partners. Activities provide foundation for attitudes and skills that will be applied during the professional practice laboratory. Prereq: Enrollment in PharmD program. This course is graded S/U.</p>				<p>This course is designed to provide health professional students with a baseline knowledge about opioid use disorder. Through six asynchronous modules, students will learn about the neurobiology and treatment of opioid use disorder as well as other related topics including motivational interviewing, ethics and stigma, and adverse childhood events (ACEs).</p>			
6101	Transitions I	P	½	6701	Program Level Assessment I	P	½
<p>Provides students with an orientation to pharmacy school as well as essential skills and tools for successful matriculation to the professional PharmD curriculum. Prereq: Enrollment in the Doctor of Pharmacy program.</p>				<p>The purpose of the PLA is to assess students' competence with knowledge and skills delivered in the P1 year and readiness to proceed in the curriculum. Prereq: Enrollment in PharmD program. This course is graded S/U.</p>			

6801 Interprofessional Education 1 P ½

This is the first of a five-course sequence designed to teach PharmD students how to advance collaboration and quality of patient care by providing interprofessional opportunities for students to learn about, from, and with other members of the healthcare team. This required course will have 2 interprofessional modules with at least one other healthcare discipline present at each time. Prereq: Enrollment in the PharmD program. This course is graded S/U.

6802 Interprofessional Education 2 P ½

This is the second of a five-course sequence designed to teach PharmD students how to advance collaboration and quality of patient care by providing interprofessional opportunities for students to learn about, from, and with other members of the healthcare team. This required course will have 2 interprofessional modules with at least one other healthcare discipline present at each time. Prereq: Enrollment in the PharmD program. This course is graded S/U.

7000 Pharm.D. Program Course Remediation P ½ - 4

This course will be offered at the discretion of the Pharm.D. Academic Review Committee to remediate a course that requires successful completion as a program requirement. This may be used to fulfill the requirement of successful completion of required coursework and repeated within Pharm.D., but students cannot enroll in 7000 more than once for the same course. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Pharm.D. Academic Review Committee. Repeatable to a maximum of 12 cr hrs or 3 completions. This course is graded S/U.

7000.11 Advanced Pharmacy Practice Experience I Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.12 Advanced Pharmacy Practice Experience II Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.13 Advanced Pharmacy Practice Experience III Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.14 Advanced Pharmacy Practice Experience IV Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.15 Advanced Pharmacy Practice Experience V Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.16 Advanced Pharmacy Practice Experience VI Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee.

7000.17 Advanced Pharmacy Practice Experience VII Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.18 Advanced Pharmacy Practice Experience VIII Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7000.19 Advanced Pharmacy Practice Experience IX Remediation P ½ - 2½

This course will be offered at the discretion of the Director of Experiential Education or the Pharm.D. Academic Review Committee to remediate a required APPE course. This may be used to fulfill the requirement of successful completion of the required APPE course and may be repeated within the Pharm.D. program. Prereq: Enrollment in the Doctor of Pharmacy program, and approval of the Director of Experiential Education or the Pharm.D. Academic Review Committee. Repeatable to a maximum of 7.5 cr hrs or 3 completions.

7003 Introductory Pharmacy Practice Experiences III P 1

Introductory pharmacy practice experiences. Students apply didactic pharmacy course work in a variety of pharmacy practice settings. Prereq: Enrollment in PharmD program. This course is graded S/U.

7004 Introductory Pharmacy Practice Experiences IV P 1

Introductory pharmacy practice experiences. Students apply didactic pharmacy course work in a variety of pharmacy practice settings. Prereq: Enrollment in PharmD program. This course is graded S/U.

7005 Introductory Pharmacy Practice Experiences V P 1

Introductory pharmacy practice experiences. Students apply didactic pharmacy course work in a variety of pharmacy practice settings. Prereq: Enrollment in PharmD program. This course is graded S/U.

7006 Introductory Pharmacy Practice Experiences VI P 1

Introductory pharmacy practice experiences. Students apply didactic pharmacy course work in a variety of pharmacy practice settings. Prereq: Enrollment in PharmD program. This course is graded S/U.

7008 Professional Activities P ½

Independent study activities related to advanced pharmacy practice experiences. Prereq: Enrollment in the PharmD program. Repeatable to a maximum of 3 cr hrs. This course is progress graded (S/U).

7010 Advance Pharmacy Practice Experiences Option P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor. Repeatable to a maximum of 12 cr hrs.

7011 Advance Pharmacy Practice Experiences I P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7012 Advance Pharmacy Practice Experiences II P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7013 Advance Pharmacy Practice Experiences III P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7014 Advance Pharmacy Practice Experiences IV P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7015 Advance Pharmacy Practice Experiences V P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7016 Advance Pharmacy Practice Experiences VI P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

350 Pharmacy

7017 Advance Pharmacy Practice Experiences VII P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7018 Advance Pharmacy Practice Experiences VIII P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7019 Advance Pharmacy Practice Experiences IX P 2½

Advanced pharmacy practice experience rotations including ambulatory, community, institutional and elective settings. Students may receive Honors Level Performance distinction and have a textual note added to their official University transcript. Prereq: Enrollment in PharmD program, or permission of instructor.

7103 Transitions III P ½

This module will provide students with essential skills and tools for successful matriculation to their advanced pharmacy practice experiences. It will also continue the development of skills within the affective domain. Prereq: Enrollment in PharmD program.

7104 Transitions IV P 1

This module will provide students with essential skills and tools for successful transition into their role as new practitioner pharmacists. This course is the fourth of a four-course sequence designed to teach PharmD students skills in self-awareness, leadership, innovation, entrepreneurship, and professionalism that are necessary at vital transitions in a career in pharmacy. Prereq: Enrollment in PharmD program. This course is graded S/U.

7120 High Throughput Screening for Pharmaceutical and Biomedical Sciences G P 1

This course for high-throughput screening is for the next generation leading scientists in biomedical and pharmaceutical sciences to 1) understand "minimized", "parallel", and "fast" (high throughput) approaches; 2) appreciate the advantages and disadvantages of modern automation laboratory-enabled research; 3) gain interdisciplinary and multidisciplinary training opportunity. Prereq: Grad standing, enrollment in the PharmD program, or permission of instructor.

7130 Humanistic Pharmacy P 2

The fundamental principles of humanistic practice are open communication, mutual respect, and absence of judgment between patients and health care providers. This course will use current literature, patient cases, speakers, personal reflection, and group exercises to empower students to provide and advocate for humanistic healthcare. Prereq: Enrollment in the PharmD program.

7140 Neurobiology of Addiction G P 2

Covers current knowledge of changes in molecular and circuit pathways in the brain that occur in response to use of addictive drugs and are thought to underlie the behavioral challenges of addiction. Prereq: Grad standing, or enrollment in PharmD program, or permission of instructor.

7150 Pediatric Pharmacotherapy P 1½

A review of pediatric pharmacotherapy of selected diseases with pharmaceutical care ramifications in various settings. Prereq: Enrollment in PharmD program, or permission of instructor.

7170 Pain Palliative Care and Geriatrics P 3

Chronic pain management, palliative care and geriatric pharmacotherapy. Topics address interdisciplinary viewpoints related to disease and associated symptoms management in geriatric and end-of-life care. Prereq: Second yr standing or above in PharmD program, or permission of instructor.

7180 CNS Drug Discovery P 1

The primary objective of this course is to help students learn to critically evaluate scientific papers in the area of CNS drug discovery and to present their evaluations to their colleagues. This objective will be achieved through lecture, student presentations, and group discussions of current, high-impact CNS pharmacological or related research. Prereq: Grad standing, enrollment in PharmD program, or permission of instructor. Not open to students with credit for 8720.

7190 Topics in Oncology Pharmacy P 1

This course aims to expand students' understanding of oncology topics. It will be taught by oncology specialist pharmacists and PGY2 pharmacy residents from The James Cancer Hospital. Students will be exposed to oncology pharmacy administration, medication assistance programs, therapeutics lectures, chemotherapy patient education, relevant current events, and career paths in oncology pharmacy. Prereq: Second-year or higher standing in the PharmD program, or permission of instructor. This course is graded S/U.

7200 Patient Care Services in Community and Ambulatory Pharmacy Practice P 1

Encourages application of pharmacy practice principles & project management skills to community & ambulatory pharmacy. Opportunities & barriers to providing direct patient care in ambulatory care & community pharmacy settings, maintaining collaborative relationships, continuous practice improvement, demonstrating the value of pharmacy practice for stakeholders will be discussed and applied. Prereq: Completion of first year in the PharmD program. This course is graded S/U.

7202 Foundations In Pharmacy Administration II P 3

This course will provide students with an understanding of pharmacy practice management as it fits into the contemporary healthcare system. Students will become familiar with general management concepts and skills that can be applied in a variety of pharmacy practice settings in the evolving healthcare system. Prereq: Enrollment in PharmD program.

7230 Introduction to Veterinary Pharmacy G P 3

This elective is an introductory course to veterinary pharmacotherapy. It will cover basic principles of anatomy and physiology of veterinary patients; the differences in medication pharmacology, pharmacodynamics, pharmacokinetics, and therapeutics in veterinary and human patients; and the laws and regulations that are applicable to veterinary pharmacy. Prereq: Enrollment in PharmD program.

7250 Introduction to Critical Care Pharmacy Practice P 3

This course will be an introduction to pharmacy practice in the intensive care unit and the care of critically ill patients. The primary focus of each class session will be the basic physiologic alterations associated with critical illness and the evidence-based rationale for various therapeutic maneuvers commonly utilized in critically ill patients. Prereq: Second-year standing or higher in PharmD program, or permission of instructor. This course is graded S/U.

7260 The Business of Pharmacy P 3

The intent of this course is to build important 21st century business value skills and expertise, for pharmacy professionals interested in acquiring business knowledge for the purpose of taking on successive management and leadership roles in the healthcare environment. Learners will gain the knowledge and skills necessary for a successful career in the healthcare industry. Prereq: Enrollment in PharmD program, or permission of instructor.

7270 Introduction to Bioinformatics and Genomic Data Analyses G 3

There is a need to train biomedical researchers to undertake cutting-edge cellular experiments that apply genomic-based approaches coupled with computational and statistical analyses to reveal novel biological understanding. This course was designed to develop bioinformatic skills and abilities and to understand genomic data in graduate students who have either little or no previous experience.

7280 Medical Outreach Trips: Making the Most of Service and Learning in Central America P 2

Pharmacy practice finds its place in international healthcare. The goal of this course is to educate the student on medical outreach and holistically prepare the student for service-learning opportunities primarily focused in Honduras.

7290 IPCaL Teaching Assistant Experience P 1

Enrolled students will serve as teaching assistants in the P1 Integrated Patient Care Laboratory (IPCaL) course. Each student will be assigned to one section of IPCaL during which they will assist the faculty and lab team with various activities. In addition to teaching assistant duties, students will also be expected to attend once-weekly lab meetings. Prereq: Third-year (P3) standing in the PharmD program.

7303 Concepts in Patient Care III P 1½

This course focuses on communication and drug information skills in the context of understanding and utilizing the patient care process. Communication and drug information skills will be discussed and applied in the context of community & ambulatory care pharmacy practice. Prereq: Enrollment in PharmD program.

7304 Concepts in Patient Care IV P 1½

The fourth in a series of modules addressing concepts and skills that are essential components of exemplary patient care. This module focuses on learning the elements and process involved in Medication Therapy Management. The module also includes skill development of working in an interprofessional environment as well as appropriate drug information response and medical literature citations. Prereq: Enrollment in PharmD program.

7305 Concepts in Patient Care V P 3

This is the last course in a series of courses addressing concepts and skills that are essential components of exemplary patient care. This module focuses on advancing professional practice skills and concepts related to nonprescription products and integrative medicine practices. Materials will be delivered via lectures, small group activities, and case-based discussions. Prereq: Enrollment in PharmD program.

7350 Drug Discovery and Drug Design G 2

A study of the discovery and design of new drugs; topics include natural products isolation, molecular modeling, molecular targets, and biosynthesis and metabolism. Prereq: Grad standing, and permission of instructor.

7351 Special Topics in Medicinal Chemistry and Pharmacognosy G 2

This course provides advanced training in specialized topics in medicinal chemistry relevant to research interests in the field. The course will enhance students' problem-solving skills, and students will develop grant writing skills related to research topics in medicinal chemistry. Prereq: 7350, or permission of instructor. Not open to students with credit for 8350, 8360, or 8370.

7360 Ambulatory Care Pharmacy Practice P 2

This elective course is designed to provide insight into the role of ambulatory care pharmacists and to gain experience in all aspects of ambulatory pharmacy practice. Students will develop their understanding and knowledge in ambulatory patient care, practice management, and interprofessional relationship building. Prereq: Enrollment in the PharmD program and rank of P2 or higher. This course is graded S/U.

7370	Advanced Pharmaceutical Analysis	G	2		
	The use of NMR spectroscopy in the assay and control methods of drug preparations. Prereq: Grad standing.				
7380	Post-Graduate Residency Preparation	P	1		
	This elective course is designed to develop and refine the skills necessary to be competitive for admission into a residency program. Students will develop their residency application, interviewing skills, professional communication, and gain familiarity with the residency application process. Prereq: Enrollment in the PharmD program at the P3 rank or higher. This course is graded S/U.				
7390	Community-Based Pharmacy Practice	P	2		
	This course provides students with an understanding of community-based pharmacy practice, how to effectively engage with community-based practitioners and their sites, and foundational skills necessary to lead and to manage community-based pharmacy practice. Prereq: Enrollment in the PharmD program.				
7403	Integrated Patient Care Laboratory III	P	3		
	This course is a series of authentic, hands-on experiences that enable students to master component skills that are essential for exemplary patient care and practice integrating those skills in simulated practice settings. Topics include sterile compounding, institutional pharmacy practice, and electronic health records. Students will also continue to develop skills introduced earlier in IPCAL. Prereq: Enrollment in PharmD program.				
7404	Integrated Patient Care Laboratory IV	P	3		
	The fourth course in a series of authentic, hands-on experiences that enable students to master component skills that are essential for exemplary patient care. Students will practice integration of these patient care skills in simulated practice settings. Prereq: A grade of D or above in 7601, and enrollment in PharmD program.				
7406	Integrated Patient Care Laboratory V	P	3		
	This is the fifth course in a series of authentic, hands-on experiences that enable students to master component skills that are essential for exemplary patient care. Students will practice integration of these patient care skills in simulated practice settings. Prereq: A grade of D or above in 7602, and enrollment in PharmD program.				
7407	Integrated Patient Care Laboratory VI	P	3		
	The sixth course in a series of authentic, hands-on experiences that enable students to master component skills that are essential for exemplary patient care. Students will practice integration of these patient care skills in simulated practice settings. Prereq: A grade of D or above in 7603, and enrollment in PharmD program.				
7460	Regulatory Strategy and Clinical Trial Reporting	G P	3		
	Explores regulatory strategy in new medical product development and lifecycle management. Develops scholarly and technical writing skills for regulatory professionals regarding new drug submissions to the Food and Drug Administration (FDA). Describes regulations and guidelines for clinical trial transparency. Prereq: 7770, MCR 7770, or Nursing 7770, or permission of instructor.				
7510	Teaching in Pharmacy	P	3		
	The intent of the course is the preparation of clinical educators who can inspire learners to advance the profession of pharmacy. The course provides exposure to the educational planning process and provides a mix of theory and application. Students will gain the knowledge and skills necessary to facilitate their own development as clinician educators. Prereq: 2nd yr standing or above in PharmD program. This course is graded S/U.				
7550	Research Applications of Clinical Pharmacology	G	3		
	Application of basic and advanced concepts in pharmacology to contemporary research literature to solidify understanding of the pharmacologic principles underlying the individualization of drug therapy and contemporary drug development. Fundamentals of clinical pharmacology for the development, evaluation, and clinical use of pharmaceutical products. Prereq: 5010, BioPhm 5600, HthRhSc 5510, or other general pharmacology course; or permission of instructor. Cross-listed in BioPhm.				
7560	Clinical Trials I: Design and Regulation	G P	3		
	This course provides a fundamental overview of clinical trial design, methods, and regulation with an emphasis on medical product development, clinical trial protocols, preclinical research requirements, and the appraisal of published clinical trials. Prereq: Enrollment in the MS Translational Pharmacology program, or permission of instructor. Not open to students with credit for Nursing 7770, PHR 7770, or MCR 7770. Cross-listed in BioPhm and Nursing.				
7561	Clinical Trials II: Site Management and Study Leadership	G P	3		
	This course provides a fundamental overview of best practices of clinical trial study and site management, including an emphasis on data, safety, and quality management, and study team leadership. Prereq: 7560, BioPhm 7560, or Nursing 7560, or permission of instructor. Not open to students with credit for 7405 or MCR 7405 or Nursing 7405. Cross-listed in BioPhm and Nursing.				
7562	Design and Management of Preclinical Studies	G P	3		
	Fundamental overview of preclinical study design, methods, and regulation with an introduction to the clinical development process. Provides a synopsis of best practices of preclinical trial site and study management, quality and data management, and leadership in the context of preclinical and translational research endeavors. Prereq: Admission to the MS Translational Pharmacology program, or permission of instructor.				
7570	Pharmaceutical Safety and Risk Management	G P	3		
	Comprehensive investigation of pharmacovigilance initiatives and pharmaceutical safety regulation. Pharmaceutical risk management in premarket testing and development, recognition of safety signals, post-approval experience, drug production, risk mitigation, and administration of pharmaceuticals. Prereq: 7770, MCR 7770, or Nursing 7770, or permission of instructor.				
7572	Global Regulation of Medical Products	G P	3		
	Exploring legal issues related to clinical research and regulatory affairs. Examining the role of regulatory authorities, regulations and guidelines (US, EU and global) in new product development, including Good Manufacturing Practices (GMP) and Good Laboratory Practices (GLP). Prereq: 7770 or MCR 7770 or Nursing 7770, or permission of instructor.				
7580	Principles of Safety Pharmacology	G P	3		
	Introduction to organ system studies of current experimental models, risk assessment, and regulatory guidelines for evaluating drug candidates in various organ systems. Prereq: Admission to the MS Translational Pharmacology or Master of Clinical Research program, or permission of instructor.				
7582	Organ System Toxicology	G P	3		
	Principles of toxicology, physiology and pharmacology as they relate to adverse and unanticipated drug effects. Emphasis on cardiovascular, nervous, pulmonary, liver, and kidney systems. Open to students in MS Pharmacology program. Other students, including advanced undergraduate students, may enroll with permission of instructor. Completion of a basic pharmacology class useful but not required. Prereq: Admission to the MS Translational Pharmacology program, or permission of instructor.				
7583	Advanced Organ Systems Toxicology and Risk Assessment	G P	3		
	Principles of risk assessment, toxicology, and physiology as they relate to effects of chemical and pharmacologic agents on the blood, immune, ocular, skin, reproductive, endocrine systems. Includes a review of chemical carcinogenesis, genetic, and developmental toxicity as they relate to chemical or drug exposure. Prereq: 7582, or permission of instructor.				
7584	Applied Pharmacokinetics and Pharmacodynamics	G	3		
	Introduction to basic and advanced concepts in pharmacokinetics, pharmacodynamics, and pharmacology for clinical investigators and other research professionals participating in the conduct of clinical trials. Prior coursework in pharmacology recommended. Prereq: Admission to the MS Translational Pharmacology program, or permission of instructor. Not open to students with credit for 8020, or 7310 and 7320.				
7586	Integrative in Vivo Modeling for Drug Development: Application for Safety and Clinical Pharmacology	G P	3		
	Evaluating drug effects and animal models for safety and toxicity assessment. Prereq: 7582, or permission of instructor.				
7588	Toxic Substances	G P	3		
	Survey the effects of toxic substances on biological systems including the mechanism of action for major toxicants, sources of toxicants, signs and symptoms associated with intoxications, and methods of treatment. Substances presented will include those that may be encountered occupationally, environmentally, medically, and in the context of substance abuse. Recommended prereq: 7582.				
7595	Scientific Writing: Clinical Trial Protocol and Manuscript Development	G	3		
	Best practices in scientific writing; development of an interventional clinical trial protocol (drug/device studies) and the generation of a manuscript for publication. Prereq: Admission to the MS Pharmacology program, or permission of instructor. Cross-listed in BioPhm 7598.				
7597	Scientific Writing: Preclinical Study Protocol and Manuscript Development	G P	3		
	Best practices in scientific writing; development of an interventional (drug/device) safety or efficacy preclinical study protocol and the generation of a manuscript for publication. Prereq: Enrollment in the MS Translational Pharmacology program, or permission of instructor.				
7601	Integrated Pharmacotherapy I	P	9½		
	Teach Pharm.D. students pathophysiology, pharmacology, and pharmacotherapy using an integrated approach. This approach facilitates the development of a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. Prereq: Enrollment in PharmD program.				
7601.01	Integrated Pharmacotherapy Ia	P	4½		
	This course is designed to help PharmD students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. The second of four courses in the Integrated Pharmacotherapy Sequence. Prereq: Enrollment in PharmD program.				
7601.02	Integrated Pharmacotherapy Ib	P	5		
	This course is designed to help PharmD students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. The first of four courses in the Integrated Pharmacotherapy Sequence. Prereq: Enrollment in the PharmD program.				

352 Pharmacy

7602 Integrated Pharmacotherapy II P 9½

This course is designed to help Pharm.D. students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. Prereq: Enrollment in PharmD program.

7602.01 Integrated Pharmacotherapy IIa P 4½

This course is designed to help PharmD students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. Prereq: Enrollment in PharmD program.

7602.02 Integrated Pharmacotherapy IIb P 5

This course is designed to help PharmD students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. Prereq: Enrollment in PharmD program.

7603 Integrated Pharmacotherapy III P 8

This course is designed to help Pharm.D. students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. Prereq: Enrollment in PharmD program.

7604 Integrated Pharmacotherapy IV P 7½

This course is designed to help PharmD students develop a rigorous understanding of the scientific basis for preventing and managing human health disorders, and the ability to integrate and apply that knowledge while providing exemplary medication-related patient-centered and population-based care. Prereq: Enrollment in PharmD program.

7620 Topics in Emergency Medicine Pharmacotherapy P 2

Introduction to the interdisciplinary processes of care in Emergency Medicine and the practice of pharmacy in the Emergency Department. Material will be collaboratively taught by faculty members from the Colleges of Pharmacy, Medicine and Nursing through lecture and round-table discussion with active participation. Prereq: Third year standing in PharmD program, or permission of instructor. This course is graded S/U.

7650 Personal Finance for the Health, Law, and Public Policy Professionals G P 3

This course is designed for the graduate student that wants to learn more about personal finance. The course will cover topics such as budgeting with significant student loan debt, the importance of insurance coverage, home and auto loan purchasing, credit card management, employee benefits, investing, retirement, income tax, and estate planning. Prereq: Enrollment in the health professions, law, or public policy programs. Repeatable to a maximum of 6 cr hrs. This course is graded S/U. Cross-listed in BusFin.

7702 Program Level Assessment II P ½

The purpose of the PLA is to assess students' competence with knowledge and skills delivered in the P2 year and readiness to proceed in the curriculum. Prereq: Enrollment in PharmD program. This course is graded S/U.

7703 Program Level Assessment III P ½

The profession of pharmacy requires pharmacists to use different aspects of their education to resolve problems and juggle multiple tasks at the same time. In order to provide a foundation for these skills, module-based assessments are supplemented in the P3 year with the annual program-level assessment or PLA. Prereq: Enrollment in PharmD program.

7782 Clinical Research Design and Methods G P 3

Study of research design and methods used in clinical research. Measurement issues, bias and confounding, statistical considerations, evaluation of published clinical research designs, and protocol and proposal development. Prereq: Admission to the Master of Clinical Research program, or permission of instructor. Cross-listed in Nursing.

7784 Data Analysis and Interpretation in Clinical and Preclinical Research G P 3

Introduction to the principles of biostatistical methods used in biomedical research. Analysis of clinical and preclinical research data and interpretation of statistical results in biomedical studies. Prereq: Enrollment in Master of Clinical Research program or MS Translational Pharmacology program, or permission of instructor. Not open to students with credit for PubHBio 6210.

7801 Interprofessional Education I P ½

This is the first of a four-course sequence designed to teach PharmD students how to advance collaboration and quality of patient care by providing interprofessional opportunities for students to learn about, from, and with other members of the healthcare team. Prereq: Enrollment in PharmD program. This course is graded S/U.

7802 Interprofessional Education II P ½

This is the second of a four-course sequence designed to teach PharmD students how to advance collaboration and quality of patient care by providing interprofessional opportunities for students to learn about, from, and with other members of the healthcare team. This required course will have 3 interactive collaborations per semester. Prereq: Enrollment in PharmD program. This course is graded S/U.

7803 Interprofessional Education III P ½

This is the third of a four-course sequence designed to teach PharmD students how to advance collaboration and quality of patient care by providing interprofessional opportunities for students to learn about, from, and with other members of the healthcare team. This required course will have 3 interactive collaborations per semester. Prereq: Enrollment in PharmD program. This course is graded S/U.

7804 Interprofessional Education IV P ½

This is the fourth of a four-course sequence designed to teach PharmD students how to advance collaboration and quality of patient care by providing interprofessional opportunities for students to learn about, from, and with other members of the healthcare team. Prereq: Enrollment in PharmD program. This course is graded S/U.

7891 Chromatographic Methods G 2

A study and application of selected chromatographic techniques for the purification of natural products or other organic mixtures. Prereq: Grad standing, and permission of instructor.

7893 Phytochemical Analysis of Natural Products G 2

This course is intended to provide graduate students with the basic skills to be able to select and apply proper techniques to natural product samples for drug discovery, method design, and validation purposes.

8005 Fundamentals of Drug Disposition G 3

An introduction to concepts in drug disposition. Fundamental concepts in drug absorption, distribution, metabolism and excretion (i.e. pharmacokinetics) will be covered. Prereq: Enrollment in the College of Pharmacy.

8008 Pharmaceutical Sciences Research and Communication G 1

An introduction to contemporary concepts in experimental design, data interpretation, and scientific writing in the pharmaceutical sciences. Students will begin to develop their skills in scientific writing, with a particular focus on manuscripts. Prereq: Enrollment in College of Pharmacy.

8025 Pharmacometrics G 3

This is an advanced course focusing on population PK/PD modeling. The course comprises an intensive workshop with hands-on training in the application of pharmacometrics principles and use of statistical modeling software (NONMEM and R). Prereq: 8020 and Math 2415, or any differential equations course; or permission of instructor.

8070 Advanced Drug Delivery Systems G 2

Topics on drug delivery systems with emphasis on tumor targeted delivery and nanovehicles. Prereq: Grad standing, or permission of instructor.

8100 Health System Pharmacy Finance G 3

This course covers selected aspects of financial and managerial accounting as it relates to health systems and pharmacy. Learners will be introduced to financial concepts, issues, vocabulary, and tools that are needed by pharmacy leaders in the healthcare industry. Prereq: Enrollment in the MS in Health-System Pharmacy program, or permission of instructor.

8120 Information Systems for Health-System Pharmacy G 1½

Provides an advanced understanding of information systems, technology and automation systems for health system pharmacy. Includes the various uses and benefits as well as challenges in implementing new technology. Prereq: 8160, and enrollment in MS in Health-System Pharmacy program; or permission of instructor.

8130 Advanced Management and Leadership Principles G 2

The purpose of this course is to equip students with skills and resources that will enable them to become effective managers and organizational leaders by igniting or fueling students' passion for leadership development. This course will delve into concepts of organizational behavior, management dilemmas, diversity, implicit bias, ethical conundrums, and change management. Prereq: Enrollment in MS in Health-System Pharmacy program, or permission of instructor.

8140 Research Methodology G 2

Apply research and design methodology to resolving health system pharmacy issues. Prereq: Enrolled in MS in Health-Systems Pharmacy, or permission of instructor.

8150 Systems Issues with Medication Safety G 2

Describes the components of an effective system for tracking, trending, and reporting adverse drug events (ADE). Understand the techniques used in investigating the causes of events. Integrate medication safety activities as a component of the organizations' safety culture. Prereq: Enrolled in MS in Health-System Pharmacy program, or permission of instructor.

8160 Operations Management in Health System Pharmacy G 2

Reviews the medication use system, evidence-based practices in medication use systems management, operations management and compliance with regulatory and accrediting agencies. Prereq: Must be enrolled in the MS in Health-System Pharmacy program, or permission of instructor.

8170 Planning, Leading and Managing the Pharmacy Enterprise G 2

Pharmacy 8170 serves as a capstone class for students to experience the practical role of a chief pharmacy officer or director of the pharmacy enterprise. By using various online teaching strategies, students will have an opportunity to become expert in planning, organizing, executing and analyzing the pharmacy enterprise. Prereq: 8160, and enrollment in MS in Pharmaceutical Sciences with Specialization in Health-System Pharmacy Administration; or permission of instructor.

8180	Economic Evaluation of the Pharmacy Enterprise	G	1
An overview and appraisal of the economic evaluation of health care programs and services applied to health-systems pharmacy administration. Prereq: Enrollment in MS in Health-System Pharmacy program, or permission of instructor. Not open to students with credit for 8194.			
8190	Community-Based Pharmacy Practice	G	2
This course provides students with an understanding of community-based pharmacy practice, how to effectively engage with community-based practitioners and their sites, and foundational skills necessary to lead and to manage community-based pharmacy practice. Prereq: Enrollment in the MS in Pharmaceutical Sciences program with Specialization in Health-System Pharmacy Administration; or permission of instructor.			
8194	Group Studies in Pharmaceutical Sciences	G	1 - 12
Group studies topics in various fields of Pharmacy. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
8200	Operational Assessment of the Pharmacy Enterprise	G	2
The purpose of this course is to equip students with skills and resources that will enable them to effectively assess the operations of a pharmacy enterprise. Through an approach of simulation, readings and recorded lectures, students will learn and apply the tools necessary to determine efficiency and effectiveness of pharmacy dispensing and productivity systems. Prereq: 8160, or permission of instructor.			
8210	Supervised Project in Health-System Pharmacy I	G	2
Each student enrolled in the Master of Science in Pharmaceutical Sciences with a Specialization in Health-System Pharmacy Administration & Leadership (MS HSPAL) is required to engage in supervised scholarly project under the guidance of their adviser. Students will complete 8 credit hours of supervised project credit. Prereq: 8140 or Nursing 7782. This course is graded S/U.			
8220	Supervised Project in Health-System Pharmacy II	G	2
Each student enrolled in the Master of Science in Pharmaceutical Sciences with a Specialization in Health-System Pharmacy Administration & Leadership (MS HSPAL) is required to engage in supervised scholarly project under the guidance of their adviser. Students will complete 8 credit hours of supervised project credit. Prereq: 8140 or Nursing 7782. This course is graded S/U.			
8230	Supervised Project in Health-System Pharmacy III	G	2
Each student enrolled in the Master of Science in Pharmaceutical Sciences with a Specialization in Health-System Pharmacy Administration & Leadership (MS HSPAL) is required to engage in supervised scholarly project under the guidance of their adviser. Students will complete 8 credit hours of supervised project credit. Prereq: 8140 or Nursing 7782. This course is graded S/U.			
8240	Supervised Project in Health-System Pharmacy IV	G	2
Each student enrolled in the Master of Science in Pharmaceutical Sciences with a Specialization in Health-System Pharmacy Administration & Leadership (MS HSPAL) is required to engage in supervised scholarly project under the guidance of their adviser. Students will complete 8 credit hours of supervised project credit. Prereq: 8140 or Nursing 7782. This course is graded S/U.			
8250	Pharmaceutical Supply Chain Principles for Health System Pharmacy	G	2
Exposure to the key stakeholders in the pharmaceutical supply chain and factors affecting its integrity. Basic concepts in drug procurement and inventory control. Prereq: 8150, and enrollment in the MS in Health-System Pharmacy program; or permission of instructor.			
8320	Biomedical Chemistry for Graduate Students	G	5
This course is specifically targeted for students in the pharmaceutical sciences graduate program. It is intended to provide a fundamental biochemistry background in modern molecular life sciences, enabling students to comprehend principles of drug action covered in other courses. Prereq: Enrollment in the College of Pharmacy graduate program or permission of instructor.			
8380	Advanced Medicinal Chemistry: Structure-based Computer-aided Molecular Design	G	2
Molecular design covering molecular structure, basic quantum chem, molecular mechanics, conformational sampling, molecular docking, scoring function, molecular dynamics, free energy calculation, virtual screening, fragment-based design, protein design. Prereq: Not open to students with credit for Pharmacy 835.			
8390	Recent Advances in Pharmacognosy	G	2
Recent advances in pharmacognosy and natural products chemistry will be explored. Students will gain a more profound understanding of the contemporary scientific literature on natural products. Taught in alternate years. Prereq: Permission of instructor. This course is graded S/U.			
8510	Advanced Pharmacognosy	G	2
The study of research involving biosynthesis of plant constituents of pharmaceutical interest.			
8520	Research Ethics	G P	1
Basic concepts of integrity in the process of research. The course fulfills NIH requirement for research ethics. Repeatable to a maximum of 20 cr hrs. This course is progress graded (S/U).			
8730	Contemporary Pharmacology	G	1
Presentation and discussion related to current topics in pharmacology. Repeatable to a maximum of 20 cr hrs.			

8750	Molecular and Cellular Pharmacology I	G	2
Relates to primary literature-based understanding of molecular and cellular basis of gene regulation, signal transduction, protein function and modifications, cell survival, intracellular trafficking and cytoskeletal dynamics. Importantly, the key pharmacological tools/techniques/drug actions employed in these fields will be discussed. Prereq: 8700; and enrollment in the College of Pharmacy or permission of instructor.			
8880.01	All College Seminar: Presentation	G	½
Presentation of oral and written reports dealing with recent advances in the pharmaceutical sciences. Repeatable to a maximum of 20 cr hrs.			
8880.02	All College Seminar: Participation	G	½
Participation and discussion of research and recent advances in the pharmaceutical sciences. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
8881.01	Medicinal Chemistry: Seminar Presentation	G	½
Presentation of oral and written report dealing with recent advances in medicinal chemistry and pharmacognosy. Repeatable to a maximum of 20 cr hrs.			
8881.02	Medicinal Chemistry: Seminar Participation	G	½
Participation in and discussion of research and recent advances in medicinal chemistry and pharmacognosy. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
8882.01	Pharmaceutics: Seminar Presentation	G	½
Presentation of oral and written reports dealing with recent advances in pharmaceutics. Repeatable to a maximum of 20 cr hrs.			
8882.02	Pharmaceutics: Seminar Participation	G	½
Participation and discussion of research and recent advances in the field of pharmaceutics. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
8884	Seminar: MS in Health-System Pharmacy	G	1
Issues and new information for health system pharmacy will be presented by MS candidates, faculty and guest speakers covering therapeutic updates, project proposals and final results, and current topics. Prereq: Enrollment in MS Health-System Pharmacy program, or permission of instructor. Repeatable to a maximum of 20 cr hrs.			
8993	Individual Study in the Pharmaceutical Sciences	G	1 - 20
Initial research in the pharmaceutical sciences, pre-candidacy. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is progress graded (S/U).			
8999	Research in the Pharmaceutical Sciences	G	1 - 20
Research for thesis or dissertation purposes only. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is progress graded (S/U).			

Philosophy

1100	Introduction to Philosophy	U	3
Examination of major problems, such as the nature of reality, knowledge, truth, morality, and the relation of philosophy to science and religion. GE cultures and ideas course. GE foundation historical and cultural studies course.			
1100H	Introduction to Philosophy	U	3
Examination of major problems, such as the nature of reality, knowledge, truth, morality, and the relation of philosophy to science and religion. Prereq: Honors standing or permission of department or instructor. Not open to students with credit for 101 or 101H. GE cultures and ideas course. GE foundation historical and cultural studies course.			
1300	Introduction to Ethics	U	3
The nature of right and wrong, good and evil; the grounds of moral choice and decision; the resolution of moral conflicts. GE cultures and ideas course. GE foundation historical and cultural studies course.			
1300H	Introduction to Ethics	U	3
The nature of right and wrong, good and evil; the grounds of moral choice and decision; the resolution of moral conflicts. Prereq: Honors standing or permission of instructor. Not open to students with credit for 130 or 130H. GE cultures and ideas course. GE foundation historical and cultural studies course.			
1332	Ethics in the Professions: Introduction to Engineering Ethics	U	3
An examination of contemporary issues in engineering ethics in the context of major ethical theories. Prereq: Not open to students with credit for 1300. GE cultures and ideas course. GE foundation historical and cultural studies course.			
1338	Ethics in the Professions: Introduction to Computing Ethics and Effective Presentation	U	4
An introduction to ethical theory with a special focus on ethical issues that arise in the computing profession. It includes student presentations and feedback to improve discussion skills. Prereq: Not open to students with credit for 1300, 1332 or 1337. GE cultures and ideas course.			
1420	Philosophical Approaches to Racism and Sexism	U	3
An introductory survey of philosophical ways of thinking about and remedying racism and sexism. GE foundation race, ethnicity and gender div course.			

354 Philosophy

1500	Introduction to Logic	U	3	Deduction and induction; principles of clear statement and valid reasoning; fallacies; and the methods by which theories and laws are established. Prereq: Math 1060 or 1075 or equiv; or an ACT Math subscore of 22 or higher; or Math Placement Level R or better. Not open to students with credit for 1500.01, 1500.02, or 1501. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.	2456	Philosophy of Sport	U	3	What is sport? How are sports similar to, and different from, games and arts? What can philosophical analysis add to scientific findings about sporting performance? What, if any, contribution does playing and/or watching sports make to a good, happy, and/or meaningful life? This course explores the nature of sport as a human activity and the value of sport; its role in well-being in particular. GE theme health and well-being course.
1501	Introduction to Logic and Legal Reasoning	U	3	An informal introduction to elementary deductive and inductive logic, concentrating on application to reasoning in legal contexts (e.g., courtroom argumentation and jury deliberation). Prereq: Math 1075 or equiv, or an ACT Math subscore of 22 or higher, or Math Placement Level R or better. Not open to students with credit for 1500 (150) or 151. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.	2458	Animals and Philosophy	U	3	Examination of philosophical questions about the status of nonhuman animals. GE cultures and ideas course.
1520	Probability, Data, and Decision Making	U	3	How to make rational decisions when confronted by uncertainty; foundational issues and techniques pertaining to probability, selection of utilities and analysis of data relevant to decision making. Prereq: Math 1075 or equiv, or an ACT Mathematics Subscore of 22 or higher, or Math Placement Level R or better. Not open to students with credit for 153. GE data anyl course. GE foundation math and quant reasoning or data anyl course.	2465	Death and the Meaning of Life	U	3	Explore the question of whether there is a relation between mortality and a meaningful life. GE lit course. GE theme health and well-being course.
2120	Asian Philosophies	U	3	A survey including at least three of the following philosophical systems of Asia: Hinduism, Buddhism, Jainism, Zoroastrianism, Taoism, and Confucianism. GE lit and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.	2470H	Honors Philosophy in Film	U	3	An introduction to philosophical and aesthetic issues involved with film as an art and as an expressive medium. Prereq: Honors standing, or permission of instructor. GE VPA course. GE foundation lit, vis and performing arts course.
2194	Group Studies	U	1 - 3	Groups of students are given an opportunity to pursue special topics not otherwise offered. Repeatable to a maximum of 9 or hrs or 3 completions.	2500	Symbolic Logic	U	3	A formal presentation of the elements of modern deductive logic; decision and proof procedures in sentential logic and functional logic. Prereq: Math 1075 or equiv, or an ACT Math subscore of 22 or higher that is less than 2 years old. GE quant reason math and logical any course. GE foundation math and quant reasoning or data anyl course.
2338	Computing Ethics for a Just and Diverse World	U	4	This course provides students in computer science fields analytical and critical tools to become ethically attuned citizens who promote and sustain justice in a diverse world. Prereq: GE Foundations in Writing and Information Literacy; Race, Ethnicity and Gender; Historical and Cultural Studies; and Math and Quantitative Reasoning. GE theme citizenship for div and just wrld course.	2540	Introduction to the Philosophy of Rational Choice	U	3	An introduction to various ways of conceiving of rationality and its subsequent role in individual and collective decision-making, with an emphasis on rationality in ethics and how rationality might inform the evaluation of social norms and social conventions.
2340	The Future of Humanity	U	3	Examination of long-term ethical challenges facing humanity due to technological, environmental, and other developments. GE cultures and ideas course. GE theme sustainability course.	2650	Introduction to the Philosophy of Science	U	3	A survey of the main philosophical problems relating to the natural sciences. Prereq: 3 cr hrs in logic or Math above 1075, an ACT Math Subscore of 22 or higher, or Math Placement Level R or better, and 3 cr hrs in natural science, or permission of instructor. GE theme number, nature, mind course.
2342	Environmental Ethics	U	3	Examination of the moral issues generated by the impact of human beings on the natural environment. GE theme sustainability course.	2660	Metaphysics, Religion, and Magic in the Scientific Revolution	U	3	A philosophical examination and critical exploration of the interconnection between the natural scientific, religious and magical traditions in the emergence of the Scientific Revolution. GE historical study course. GE theme number, nature, mind course.
2344	Human Flourishing in a Global Society	U	3	A survey of philosophical accounts of human flourishing on a global scale that include development, well-being, equity, empowerment, sustainability, human rights, and cultural freedom.	2670	Science and Religion	U	3	A philosophical examination of the relationship between science and religion, concentration on issues regarding the creation of the universe and the origins of life. Prereq: Not open to students with credit for CompStd 2670 or RelStds 2670. GE cultures and ideas course. GE foundation historical and cultural studies course. Cross-listed in RelStds.
2367	Contemporary Social and Moral Problems in the U.S.	U	3	An intensive writing course concentrating on the analysis and evaluation of philosophical argumentation concerning contemporary social and moral problems about race, gender, class, and ethnicity. Does not count on a philosophy major or minor program. Prereq: English 1110 or 1110.02 or equiv; and soph standing or above. Not open to students with credit for 367. GE writing and comm course: level 2 and diversity soc div in the US course. GE foundation writing and info literacy course.	2680	Scientific Controversies	U	3	Modern science raises many difficult questions about the nature of the universe and our place in it. This class considers several controversies that arise within science and investigates their broader philosophical significance. How does science work in different domains and at different times, and what can science tell us about ourselves and the nature of the world? GE cultures and ideas course. GE foundation historical and cultural studies course.
2390	Ethics and Leadership in a Diverse World	U	3	Students will engage with leading scholarship on the justification of authority, democratic citizenship, morally responsible decision-making, and virtue ethics to understand how citizenship in a just and diverse society shapes our ideals and practices of ethical leadership. Prereq: One course in Race, Ethnicity and Gender Diversity GE Foundation. GE theme citizenship for div and just wrld course.	2690	Genes and Society	U	3	This team taught, interdisciplinary course (crosslisted as MOLGEN 2690) provides science-based exposure to topics in classical and modern genetics but with an emphasis on social and ethical issues. Together we will discuss what genes are, and how they work, and how your genome influences traits and behaviors in the context of social beliefs and philosophy. Prereq: Not open to students with credit for MolGen 2690. Cross-listed in MolGen.
2400	Political and Social Philosophy	U	3	Philosophical bases of social and political institutions and practices; analysis of such fundamental conceptions as rights, justice, equality, political obligation, and civil disobedience. Prereq: English 1110.xx or 1110.xxH, or equiv. Not open to students with credit for 230. GE cultures and ideas course.	2850	Introduction to Philosophy of Religion	U	3	A philosophical analysis of the nature of religion and the foundations of religious belief. GE cultures and ideas course. GE foundation historical and cultural studies course.
2450	Philosophical Problems in the Arts	U	3	Introduction to major philosophical issues in the arts; examination of artistic intention, representation v. abstraction, the grounds and objectives of art criticism, the import of cultural differences and their application to specific works of art. Prereq: Not open to students with credit for 240 or 240H. GE VPA course. GE foundation lit, vis and performing arts course.	2900H	Freshman-Sophomore Proseminar	U	3	Topic varies; emphasis on current philosophical problems. Prereq: Fresh or soph standing; and CPHR 3.00 or above, Honors standing, or permission of instructor. Not open to students with credit for 4900H. Repeatable to a maximum of 9 cr hrs.
2455	Philosophy and Videogames	U	3	Examination of the philosophical issues that accompany the creation, play, and critique of videogames. GE VPA and cultures and ideas course. GE foundation lit, vis and performing arts and historical and cultural studies course.	3000	Gateway Seminar	U	3	The primary purpose of the gateway seminar is to give students intensive training in reading, researching, and writing about philosophy. Topics will vary. Prereq: Philos major, or permission of instructor.
					3001	Economy, Polity, and Community	U	3	Examines how different ways of thinking about human nature shape our understanding of philosophy, politics, and economics. Prereq: Econ 2001.XX or 2002.01 or 2002.03H; and Philos 2400 or PolitSc 2400 or 2400H; and Econ 5001 or Philos 2500 or 2540 or PolitSc 3500 or 4553 or 4553H; and Philos 3300; and Econ 3400 or IntStds 3400 or PolitSc 3780 or 3780H; and PolitSc 3280 or 4280 or 3380 or 4380 or 4381. Not open to students with credit for Econ 3001 or PolitSc 3001. Cross-listed in Econ and PolitSc.

3002	Tradition, Progress, and Utopia	U	3
Examines how different ways of thinking about social and political change shape our understanding of philosophy, politics, and economics. Prereq: Econ 2001.XX or 2002.01 or 2002.03H; and Philos 2400 or PolitSc 2400 or 2400H; and Econ 5001 or Philos 2500 or 2540 or PolitSc 3500 or 4553 or 4553H; and Philos 3300; and Econ 3400 or IntStds 3400 or PolitSc 3780 or 3780H; and PolitSc 3280 or 4280 or 3380 or 4380 or 4381. Not open to students with credit for Econ 3002 or PolitSc 3002. Cross-listed in Econ and PolitSc.			
3111	Introduction to Jewish Philosophy	U	3
A general introduction to major figures and trends in medieval, modern, and contemporary Jewish philosophy; emphasis on Philo, Saadia, Maimonides, Spinoza, Mendelssohn, and Buber. Prereq: Not open to students with credit for 321 and JewshSt 3111. GE cultures and ideas course. Cross-listed in JewshSt.			
3120	Engaging Time: Philosophical Dimensions of Temporality	U	3
This course introduces the philosophical concept of time. Topics may include: how we measure time; whether time is real or is it the result of subjective perception; God's knowledge of the future; and, the coherence of 'time-travel'. Prereq: Not open to students with credit for Hebrew 3120. GE cultures and ideas course.			
3210	History of Ancient Philosophy	U	3
Major figures and issues in Greek philosophy: presocratics, Socrates, Plato, Aristotle. Prereq: 3 cr hrs in Philos, or permission of instructor. GE lit and diversity global studies course. GE theme traditions, cultures, and transformations course.			
3220	History of Medieval Philosophy	U	3
Major figures in medieval philosophy, including Augustine, Aquinas, Duns Scotus, and Ockham. Prereq: 3 cr hrs in Philos, or permission of instructor. GE lit and diversity global studies course.			
3221	Philosophy and the Just Society in the Classical Islamic World	U	3
Surveying the development and major subjects and thinkers of the most vivid period of Arabic philosophy. Prereq: Not open to students with credit for Arabic 3601. GE theme citizenship for div and just wrld course. Cross-listed in Arabic 3601.			
3230	History of 17th-Century Philosophy	U	3
Major figures in European philosophy in the 17th century. Prereq: 3 cr hrs in Philos, or permission of instructor. GE lit and diversity global studies course.			
3240	History of 18th-Century Philosophy	U	3
Major figures in European philosophy in the 18th century. Background in 3230 recommended. Prereq: 3 cr hrs in Philos, or permission of instructor. GE lit and diversity global studies course.			
3250	History of 19th-Century Philosophy	U	3
Major figures in 19th-century philosophy. Prereq: 3 cr hrs in Philos, or permission of instructor. GE lit and diversity global studies course.			
3260	Movements in 20th-Century Philosophy	U	3
Major figures or movements in twentieth-century philosophy. Prereq: 3 cr hrs in Philos, or permission of instructor.			
3261	Fundamental Concepts of Existentialism	U	3
Key concepts of the movement: commitment, absurdity, freedom, and death, as expressed in the works of Nietzsche, Sartre, Camus, Kierkegaard, and others. Prereq: 3 cr hrs of Philos, or permission of instructor. GE lit course.			
3300	Moral Philosophy	U	3
A rigorous examination of major issues in moral philosophy, such as the basic moral value(s); the relation between value and obligation; justification of moral judgment. Prereq: 6 cr hrs of Philos course work, or enrollment in Philosophy, Politics, and Economics Major, or permission of instructor.			
3310	Morality and the Mind	U	3
An introduction to issues in moral psychology including various interactions between moral philosophy and issues in psychology and cognitive science. Prereq: 3 cr hrs in Philos, or permission of instructor.			
3341H	Ethical Conflicts in Health Care Research, Policy, and Practice	U	3
An interdisciplinary approach to an analysis of central moral dilemmas in health care research, policy, and practice. Prereq: Honors standing; or Jr or Sr standing and permission of department or instructor. Not open to students with credit for 580H.			
3410	Philosophical Problems in the Law	U	3
Introduction to the nature of law and the philosophical and moral problems concerning law; justification of civil disobedience, criminal punishment, plea bargaining, and the enforcement of morality. Prereq: Not open to students with credit for 338.			
3420	Philosophical Perspectives on Issues of Gender	U	3
An examination of metaphysical, epistemological, and ethical issues surrounding sex and gender, with issues chosen to represent both theoretical and practical controversies. Prereq: 3 cr hrs in Philos, or permission of instructor. GE cultures and ideas and diversity soc div in the US course.			

3430	The Philosophy of Sex and Love	U	3
This course will explore both historical and contemporary philosophical perspectives on both sex and love, and the many ways in which sex and love are integral to human health and well-being. Prereq: Completion of GE Foundation Writing and Information Literacy course and GE Foundation Historical and Cultural Studies course, or permission of instructor. GE theme health and well-being course.			
3440	Theorizing Race	U	3
Introduction to issues of "race," consideration of the historical emergence and development of ideas of "race" and of racist practices, along with their contemporary formations. Prereq: 3 cr hrs in AfAmAST or Philos or REGD Foundation; or enrollment in Philosophy, Politics, and Economics major, AfAmAST major, or Philos major; or permission of instructor. Not open to students with credit for AfAmAST 3440. GE theme citizenship for div and just wrld course. Cross-listed in AfAmAST.			
3530	Philosophy of Logic	U	3
Introduction into a variety of distinctly philosophical issues related to logic and its formal development. Presupposes a background in formal logic. Prereq: 2500 (250). Not open to students with credit for 450.			
3600	Introduction to Philosophy of Language	U	3
Survey of philosophical issues regarding the nature of linguistic representation and its role in thought and communication. Prereq: 2500 and 6 cr hrs of Philos course work, or permission of instructor.			
3650	Philosophy of Science	U	3
A rigorous introduction to general methodological issues in the philosophy of science. Prereq: 2500 and 6 cr hrs of Philos course work, or permission of instructor.			
3680	Philosophy of Biology	U	3
A survey of philosophical questions regarding the theoretical foundations and implications of research in biology. Prereq: 6 cr hrs of Philos course work, or permission of instructor.			
3700	Introduction to Metaphysics	U	3
Survey of main philosophical positions concerning the nature of reality, persons, freedom, identity, and causation. Prereq: 6 cr hrs of Philos course work, or permission of instructor.			
3750	Introduction to Theory of Knowledge	U	3
Survey of main philosophical positions concerning knowledge, justification, skepticism, and rationality. Prereq: 6 cr hrs of Philos course work, or permission of instructor.			
3800	Introduction to Philosophy of Mind	U	3
General introduction to the philosophy of mind, the mind-body problem, intentionality, and the nature of consciousness. Prereq: 6 cr hrs of Philos course work, or permission of instructor.			
3810	Philosophy of Action	U	3
Philosophical examination of the nature of human action. Topics include the nature of intention, practical rationality, issues in moral psychology, and the metaphysics of free will. Prereq: 6 cr hrs of Philos course work, or enrollment in Philosophy, Politics, and Economics Major, or permission of instructor.			
3830	Consciousness	U	3
An introduction to consciousness with a focus on the interactions between philosophy, psychology, and neuroscience. Prereq: 3 cr hrs of Philos course work, or permission of instructor.			
4900H	Junior-Senior Proseminar	U	1 - 3
Topics vary; emphasis on recent philosophical writing in some specific area or on some specific problem. Prereq: Honors standing and 6 cr hrs in Philos 2000 level or above coursework, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 5 completions.			
4998	Undergraduate Research in Philosophy	U	1 - 3
Undergraduate research in various topics; independent study. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4998H	Honors Undergraduate Research in Philosophy	U	1 - 3
Undergraduate research in variable topics; independent study. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4999	Thesis Research	U	1 - 3
A program of reading arranged for each student, with individual conferences, reports, and papers. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4999H	Honors Thesis Research	U	1 - 4
A program of reading arranged for each student, with individual conferences, reports, and papers. Failure to receive a mark of S in this course is a disqualification for special honors. Prereq: Sr standing with a grade of A in at least half of the Philos courses taken and with an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. At least 1 semester is required of candidates for the BA with distinction in Philos. Repeatable to a maximum of 9 cr hrs and 3 completions. This course is graded S/U.			

356 Philosophy

5010S	Teaching Philosophy	U G	3						
	Design a set of philosophy lessons and team-teach some of these lessons to secondary school students. Background checks will be required; students may be responsible for associated fees. Prereq: 6 cr hrs of Philos course work at the 2000-level or above, or Grad standing in Philos, or permission of instructor. GE service learning course.								
5193	Individual Studies	U G	1 - 6						
	Individual Studies. Students ordinarily earn from 1 to 3 cr hrs, but honors students may earn up to 6 cr hrs. Prereq: Permission of dept chairperson. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.								
5194	Group Studies	U G	1 - 9						
	Group Studies. Prereq: Permission of chairperson. Repeatable to a maximum of 18 cr hrs or 6 completions.								
5211	Plato	U G	3						
	A survey of central philosophical themes in one or more Platonic dialogues. Prereq: 3210, or 6 cr hrs at the 2000 level or above in Philos coursework, or Grad standing in Philos; or permission of instructor. Not open to students with credit for 601.01.								
5212	Aristotle	U G	3						
	A survey of central philosophical themes in one or more Aristotelian treatises. Prereq: 3210 or 6 cr hrs at the 2000 level or above in Philos coursework, or Grad standing in Philos, or permission of instructor.								
5230	Studies in 17th-Century Philosophy	U G	3						
	An intensive examination of a major philosopher or philosophical problem of the period; topics vary from semester to semester. Prereq: 6 cr hrs of Philos course work at the 2000 level or above, one of which is 3210, 3220, 3230 or 3240; or Grad standing in Philos; or permission of instructor. Repeatable to a maximum of 9 cr hrs.								
5240	Studies in 18th-Century Philosophy	U G	3						
	An intensive examination of a major philosopher or philosophical problem of the period; topics vary from semester to semester. Prereq: 6 cr hrs of Philos course work at the 2000 level or above, one of which is 3210, 3220, 3230 or 3240; or Grad standing in Philos; or permission of instructor. Repeatable to a maximum of 9 cr hrs.								
5241	Studies in 18th Century Philosophy: Kant	U G	3						
	An intensive examination of one or more important themes in Kant's philosophical writings. Prereq: 3230 or 3240, and 6 cr hrs of Philos course work at the 2000 level or above; or Grad standing in Philos; or permission of instructor. Not open to students with credit for 604.01								
5260	Studies in 20th-Century Philosophy	U G	3						
	An intensive examination of one or more central movement in 20th-century philosophy; topics vary. Prereq: 6 cr hrs of Philos course work at the 2000 level or above; or Grad standing in Philos; or permission of instructor. Repeatable to a maximum of 9 cr hrs.								
5261	Phenomenology and Existentialism	U G	3						
	Early existentialist ideas of Kierkegaard and Nietzsche; Husserl's phenomenological method and critical analysis of works of philosophers such as Heidegger, Jaspers, Sartre, Beauvoir, and others. Prereq: 6 cr hrs of Philos course work at the 2000 level or above; or Grad standing; or permission of instructor.								
5300	Advanced Moral Philosophy	U G	3						
	An intensive examination of major issues within moral philosophy such as the foundations of morality; objectivity in ethics; morality, reason and sentiment; virtues and vices. Prereq: 3300, or 6 cr hrs in Philos at or above 3000-level; or Grad standing in Philos; or permission of instructor.								
5310	Metaethics	U G	3						
	This course addresses abstract questions about the nature of moral thinking - such as whether moral facts exist, how to understand the contrast between moral and purely descriptive language and beliefs, and how moral judgments can be justified at all. Prereq: 3300, or 6 cr hrs in Philos at or above 3000-level; or Grad standing in Philos; or permission of instructor.								
5400	Advanced Political and Social Philosophy	U G	3						
	An intensive examination of issues in political and social philosophy, including democracy, civil disobedience, anarchism, totalitarianism, and nature of the state. Prereq: 2400, or 6 cr hrs in Philos at or above 2000-level; or enrollment in Philosophy, Politics, and Economics Major; or Grad standing in Philos; or permission of instructor.								
5410	Advanced Philosophy of Law	U G	3						
	An examination of the nature and function of law and of such problems as the relation of law to morality and the justification of punishment. Prereq: 3410, and 6 cr hrs in Philos at or above 2000-level; or enrollment in Philosophy, Politics, and Economics Major; or Grad standing; or permission of instructor.								
5420	Philosophical Topics in Feminist Theory	U G	3						
	An analytical study of selected philosophical issues arising out of feminist theory, such as the nature of autonomy, or the relation between gender and knowledge. Prereq: 6 cr hrs in Philos at or above 2000-level; or Grad standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.								
5440	Philosophical Perspectives on Race, Education, and Citizenship	U G	3						
	This course allows participants to pursue philosophical questions at the intersection of race, education, and political life. These include: Does education play a very specific role in racialized patterns of benefit/detriment? What role does race play in understandings of educational policy & practice? How does race affect understandings of 'education for citizenship'? Prereq: Not open to students with credit for ESPHE 5440. Cross-listed in ESPHE.								
5460	Philosophy in Literature	U G	3						
	Philosophical problems as reflected in classic works of literature (e.g. Kafka, Sartre, Calvino, Borges, Woolf and others). Topics may include the nature of time and memory; personal identity; time travel; free will and determinism, and the nature of evil. Prereq: 6 cr hrs in Philos at or above 3000-level, or Grad standing, or permission of instructor.								
5500	Advanced Symbolic Logic	U G	3						
	Introduction to the metatheory of first-order logics and languages; axiomatic development of propositional and predicate logic; model theory; soundness, completeness, and Lowenheim-Skolem theorems. Prereq: 2500.								
5540	Advanced Philosophy of Rational Choice	U G	3						
	Advanced study of the principles and methods of the philosophy of rational choice with applications in the theory of knowledge, ethics, and social and political philosophy. Prereq: 2500 or 2540; or enrollment in Philosophy, Politics, and Economics Major; or Grad standing in Philos; or permission of instructor.								
5650	Advanced Philosophy of Science	U G	3						
	A study of the nature and structure of scientific concepts, laws, and theories; appraisal of methodologies, presuppositions, and frames of reference in science. Preferable to have credit for 3650 prior to enrollment. Prereq: 2500, and 6 cr hrs in Philos at or above 3000-level; or 2500, and Grad standing in Philos; or permission of instructor. Not open to students with credit for 655.								
5700	Advanced Metaphysics	U G	3						
	An intensive examination of major metaphysical problems: categories, universals, substance and process, causality and law, space and time, metaphysical presuppositions of knowledge. Preferable to have credit for 3700 prior to enrollment. Prereq: 2500, and 6 cr hrs in Philos at or above 3000-level; or Grad standing in Philos; or permission of instructor.								
5750	Advanced Theory of Knowledge	U G	3						
	An intensive examination of major epistemological problems: the possibility, origin, foundation, structure, methods, limits, types, and validity of knowledge. Preferable to have credit for 3750 prior to enrollment. Prereq: 2500, and 6 cr hrs in Philos at or above 3000-level; or Grad standing; or permission of instructor. Not open to students with credit for 660.								
5800	Advanced Philosophy of Mind	U G	3						
	Classical and contemporary approaches to the nature of mind, mind-body, other minds, intentionality, and other problems. Preferable to have credit for 3800 prior to enrollment. Prereq: 6 cr hrs in Philos at or above 3000-level; or Grad standing in Philos; or permission of instructor.								
5830	Introduction to Cognitive Science	U G	3						
	Cognitive science is an interdisciplinary study of the nature of human thought; psychological, philosophical, linguistic, and artificial intelligence approaches to knowledge representation. Prereq: 9 cr hrs from at least two of these areas: CSE, Ling, Philos or Psych; or permission of instructor. Not open to students with credit for CSE 5531, Ling 5612, or Psych 5612 (612). Cross-listed in CSE, Ling, and Psych.								
5840	Advanced Philosophy of Cognitive Science	U G	3						
	In-depth examination of the influence of results in cognitive science upon the way in which philosophers approach fundamental issues about the nature of the mind. Prereq: 6 cr hrs in Philos at or above 2000-level; or Grad standing; or permission of instructor.								
5891	Proseminar in Cognitive Science	U G	2						
	Provides an in-depth examination of cognitive science from an interdisciplinary perspective. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs. Cross-listed in CSE, Ling, Psych, and SphHng.								
7080	Engineering Ethics	G	1						
	Equip engineering grad students with skills for resolving moral issues that may arise in professional contexts. Includes an introduction to ethics, followed by contemporary issues in engineering ethics, such as the nature and moral status of technology; responsibility; privacy; honesty and integrity, safety and risk; environmental ethics; and the ethics of artificial intelligence. Prereq: Grad standing in ECE. This course is graded S/U.								
8001	Graduate Training Seminar	G	1 - 3						
	This course is designed to provide professional training for all first- and second-year graduate students that will enable them to develop the skills required for success in research, teaching and service. Prereq: Grad standing in Philos. Repeatable to a maximum of 5 cr hrs or 2 completions. This course is graded S/U.								
8100	First-Year Seminar	G	4						
	A typically variable introduction to advanced philosophical methodology. Prereq: First year of Grad standing. Not open to students with credit for 700.								

8102	Seminar in East Asian Philosophy	G	3
Seminar focusing on a particular thinker, school of philosophy, or set of texts from the East Asian philosophical tradition. Topics vary. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 9 or hrs. Cross-listed in CompStd 8896 and EALL 8896.			
8193	Individual Studies	G	1 - 9
Doctoral students may register for individual study in areas not normally covered by courses. Prereq: MA degree, or at least 30 cr hrs in Grad; and permission of dept chairperson. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			
8200	Seminar in History of Philosophy	G	1 - 4
Seminar in History of Philosophy. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8300	Seminar in Value Theory	G	1 - 4
Seminar in Value Theory. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8500	Seminar in Logic	G	1 - 4
Seminar in Logic. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8600	Seminar in Philosophy of Language	G	1 - 4
Seminar in Philosophy of Language. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8650	Seminar in Philosophy of Science	G	1 - 4
Seminar in Philosophy of Science. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8700	Seminar in Metaphysics	G	1 - 4
Seminar in Metaphysics. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8750	Seminar in Theory of Knowledge	G	1 - 4
Seminar in Theory of Knowledge. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8800	Seminar in Philosophy of Mind	G	1 - 4
Selected topics in philosophy of mind; topics vary. Prereq: Grad standing in Philos, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
8900	Placement Seminar	G	1 - 3
This course helps to prepare graduate students in the penultimate or final year of their studies to seek employment, especially academic employment in philosophy departments. Prereq: Grad standing in Philos. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
8999	Dissertation Research in Philosophy	G	1 - 9
Research for dissertation purposes only. Prereq: Repeatable to a maximum of 30 cr hrs or 30 completions. This course is graded S/U.			

Physical Medicine And Rehabilitation

7999	Research in Physical Medicine and Rehabilitation	G	1 - 15
Research for thesis purposes only. Prereq: Grad or Prof standing, and permission of instructor. This course is graded S/U.			

Physical Therapy

6021	Introduction to the Physical Therapy Profession	G	2
Introduction to the profession of physical therapy. Information pertaining to professional development, teaching and learning, social responsibility and individual, cultural and age related variations pertaining to the practice of PT. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
6189	Integrated Clinical Experience	G	1
Part-time clinical experience assigned at an affiliated outpatient facility in central Ohio with the goal of practicing techniques from the musculoskeletal lab and documentation. This course is graded S/U.			
6250	Neural Basis of Movement	G	2
Introduction to sensory and motor systems, basis of the neurologic screening examination and principles of motor control theory. Prereq: Enrollment in Doctorate in Physical Therapy program.			
6260	Pathology for Physical Therapists	G	2
Introduction to pathology and medical management of disease and implications for the physical therapist. Prereq: Enrollment in Doctorate in Physical Therapy program.			

6389	Pediatric Integrated Clinical Experience	G	½
Designed to provide pediatric focused clinical experiences with direct patient/client care supervised by a licensed physical therapist at a clinical site that has been approved by and has a contract of affiliation with the Physical Therapy Division. Expectations to develop and refine problem-solving, clinical decision-making, patient care and communication skills within the pediatric setting. Prereq: Enrollment in the Doctorate in Physical Therapy program. This course is graded S/U.			
6410	Principles and Procedures in Physical Therapy Practice I	G	1
Introduction to basic patient handling skills and clinical measurement. Prereq: Enrollment in Doctorate in Physical Therapy program.			
6415	Acute Physical Therapy Practice I: Procedures Across the Continuum of Care	G	1
Introduces basic transfers and mobility skills and introduction to acute care practice. Advances the principles and skills for patient management and measurement. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
6489	Acute Care Integrated Clinical Experience	G	½
This course is designed to provide the student with an integrated clinical experience reflecting didactic preparation to date. This is a part time acute care clinical experience at an affiliated inpatient acute care facility with the goal of practicing techniques from the acute care components of the curriculum and documentation. Prereq: Enrollment in the Doctorate in Physical Therapy program. This course is graded S/U.			
6589	Service Based Clinical Experience	G	½ - 2
In accordance with the mission and philosophy of the professional education program which is to prepare the student for entry-level competence in the practice of physical therapy, this course is designed to provide the student with a service based clinical experience reflecting didactic preparation to date. Clinical experiences with direct patient/client care are supervised by a licensed physical therapist at a clinical site that has been approved by and has a contract of affiliation with the Physical Therapy Division. This course is graded S/U.			
6689	Performance Oriented Clinical Experience	G	1
This course is designed to provide the student with individualized remediation activities to address identified clinical performance deficiencies. Prereq: Permission of instructor. Repeatable to a maximum of 2 cr hrs or 2 completions. This course is graded S/U.			
7012	Documentation and Reimbursement	G	1
Clinical decision making and professional communication through documentation and reimbursement of clinical activities, including evaluation, goal setting and prognosis. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
7189	Intermediate Clinical Internship I	G	4
Full-time clinical rotation completed in an affiliated outpatient facility with the focus on patients with musculoskeletal impairments. Repeatable to a maximum of 8 cr hrs.			
7220	Musculoskeletal Diagnosis and Management I	G	4
The scientific basis for management of the client with pathology of the musculoskeletal system. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
7235	Biomechanics for Physical Therapy I	G	2
Introduction the musculoskeletal structure and function, the biomechanical basis of human movement, and musculoskeletal disease and injury processes. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
7245	Biomechanics for Physical Therapy II	G	1
Introduction to musculoskeletal structure and function and the biomechanical basis of human movement focus on lower extremity and gait. Prereq: Successful completion of all DPT program courses to date with a grade of C or better (except 8998), and in good academic standing.			
7250	Neurologic Basis of Rehabilitation	G	2
Analysis of normal and pathological neural systems for sensory and motor functions, mechanisms of recovery of function associated with rehabilitation, and introduction to neural development. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
7289.01	Intermediate Clinical Experience IIa	G	4
This is the first part of the intermediate clinical experience II designed to develop intermediate competence in the clinic with patients of various diagnoses for examination, interventions, diagnosis, and development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication. Prereq: Successful completion of all courses in the program to date. This course is progress graded.			
7289.02	Intermediate Clinical Experience IIb	G	4
This is the second part of the intermediate clinical experience II designed to develop intermediate competence in the clinic with patients of various diagnoses for examination, interventions, diagnosis, and development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication. Prereq: Successful completion of all courses in the program to date, including satisfactory progress in 7289.01, and in good academic standing.			

358 Physical Therapy

7389	Advanced Pediatric Integrated Clinical Experience	G	1	Designed to provide an intensive pediatric focused integrated clinical experience for the student enrolled in the pediatric specialization. Clinical experiences are supervised by a licensed physical therapist at a clinical site that has been approved by and has a contract of affiliation with the Physical Therapy Division. Prereq: Enrollment in the Doctorate in Physical Therapy program. This course is graded S/U.	8250	Adult Neurologic Rehabilitation	G	5	Analysis of body function and structure, activity, and participation levels associated with injury to the nervous system. Evidence and rationale for examination, and interventions for adult neurologic rehabilitation. Prereq: Enrollment in the Doctorate in Physical Therapy program.
7420	Musculoskeletal Skills Laboratory I	G	3	Clinical application and skill acquisition related to management of musculoskeletal conditions by physical therapists. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8270	Geriatric Management	G	2	Critical issues in the management of geriatric clients. Prereq: Enrollment in the Doctorate in Physical Therapy program.
7645	Acute Physical Therapy Practice II: Rehabilitation	G	½	This course is designed to promote competence in acute care physical therapy practice and related populations including those in skilled nursing and inpatient rehabilitation facilities. Students will engage in lecture and lab based course work focused on content related to providing PT intervention to the acute patient population. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8272	Cardiopulmonary Rehabilitation	G	2	Evidence and rationale for examination, evaluation, and interventions for prevention of cardiovascular disease and treatment of common cardiopulmonary system disorders. Prereq: Enrollment in the Doctorate in Physical Therapy program.
7915	Research Applications in Physical Therapy	G	1	In order for students to understand the relationship between biomedical research and the clinical practice of physical therapy, this laboratory course will immerse students in faculty-driven research. Students will be exposed to basic science, applied clinical and/or translational research within areas of faculty research in Physical Therapy. Prereq: Enrollment in the Doctorate in Physical Therapy program, or permission of instructor.	8274	Integumentary Systems and Rehabilitation	G	4	Analysis of body function and structure, activity, and participation levels associated with the injury to the integumentary system. Evidence and rationale, and interventions for those with disorders related to the integumentary system. Prereq: Enrollment in the Doctorate in Physical Therapy program.
7989	Elective Integrated Clinical Experience	G	½ - 2	This course provides the student with an integrated clinical experience reflecting didactic preparation to date. This part-time clinical education experience is assigned at an affiliated facility with the goal of practicing techniques from a specific area of practice in physical therapy in order to allow students an opportunity to advance their skills in the given area of practice. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs or 2 completions. This course is graded S/U.	8276	Adaptive Equipment and Community Reintegration	G	2	Analysis of the use of adaptive equipment such as orthotics and wheelchairs to augment rehabilitation. Evidence and rationale for the performance of functional capacity evaluations for community reintegration. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8013	Contemporary Practice	G	1	Critical appraisal of current medical, ethical, political and legal topics impacting physical therapy practice. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8289	Terminal Clinical Internship II	G	8	Develop entry level competence in the clinic with patients of various diagnoses for examination, interventions, diagnosis, development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication.
8030	Topics in Pediatric Physical Therapy	G	1	Critical topics related to health care and education systems delivery in pediatric practice and the role of family and culture in the therapeutic program of the child. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8410	Musculoskeletal Skills Laboratory II	G	3	Application of the knowledge and skills acquired in Musculoskeletal Diagnosis and Management I to specific regions of the musculoskeletal system, gait analysis, acute care, oncology, and wound care. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8050	Topics in Rehabilitation and Long Term Care	G	1	Healthcare systems and critical topics in rehabilitation and geriatric care. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8430	Pediatric Laboratory	G	1	Applications and methods used in evaluation, diagnosis and intervention including neurological, musculoskeletal, cardiopulmonary and integumentary systems in children. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8060	Health Care in America and its Impact on Physical Therapy I	G	2	Analysis of the healthcare system in America and how working within this system impacts the practice of Physical Therapy. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8450	Adult Neurologic Laboratory	G	3	Clinical decision making and techniques for examination, evaluation, and interventions for adult neurologic physical therapy. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8061	Careers and Leadership in PT	G	1	Issues pertaining to careers, leadership, and professional responsibility in physical therapy as part of the healthcare system are discussed in a seminar format. Enrollment is limited to 3rd year students in the doctorate of physical therapy program. This course does not meet every week because a substantial portion of the work is required through out of class assignments. Prereq: Enrollment in the Doctorate in Physical Therapy program. This course is graded S/U.	8474	Integumentary and Community Reintegration Laboratory	G	3	Clinical decision making and techniques for examination, evaluation, and interventions for those with disorders related to the integumentary system, adaptive equipment and community reintegration. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8065S	Service Learning in Physical Therapy	G	½ - 2	This course was designed to provide students with service learning opportunities in physical therapy. Repeatable to a maximum of 16 cr hrs or 8 completions. This course is graded S/U.	8610	Advanced Orthopedic Physical Therapy	G	1	Critical analysis of the current literature and the application of advanced skills related to the orthopedic patient with an emphasis manual therapy techniques and evidence-based interventions. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8070	Management: Administrative Skills	G	2	Administrative skills for the management of PT practice in various settings, introduce basic principles of administration and management that are applicable to PT practice. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8612	Advanced Sports Physical Therapy	G	1	Introduction to Sports Physical Therapy concepts with emphasis on prevention, acute injury management, differential diagnosis, sports-specific rehabilitation and wellness. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8189	Terminal Clinical Internship I	G	8	Develop entry level competence in the clinic with patients of various diagnoses for examination, interventions, diagnosis, development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication.	8630	Clinical Science in Pediatrics	G	2	Typical and atypical development including the effects of disease and damage to the nervous, musculoskeletal, cardiopulmonary and integumentary systems in pediatrics. Prereq: Enrollment in the Doctorate in Physical Therapy program.
8193	Individual Studies in Physical Therapy	G	1 - 3	Graduate study of a selected topic. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.	8635	Advanced Pediatric Elective	G	1	To enhance clinical knowledge and skills to facilitate best practice in pediatric care settings. The course is designed to give students exposure to the diversity of pediatric care including clinical decision making, and multidisciplinary team care. Students will be provided the opportunity to learn various assessment skills, develop appropriate plans of care, expand critical thinking. Prereq: Enrollment in the Doctorate in Physical Therapy program, or permission of instructor.
8210	Musculoskeletal Diagnosis and Management II	G	5	Region-specific application of the knowledge acquired in Musculoskeletal Diagnosis and Management I, gait analysis, and an introduction to acute care, integumentary system management, and oncology. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8640	Complex Scenarios in Physical Therapy	G	1	Critical issues in managing complex scenarios in physical therapy. Repeatable to a maximum of 2 cr hrs.
8230	Clinical Applications in Pediatrics	G	3	Physical Therapy principles of examination, evaluation, diagnosis, prognosis and intervention with children. Prereq: Enrollment in the Doctorate in Physical Therapy program.	8645	Advanced Acute Care Practice	G	1	This course enhances knowledge and skills to facilitate best practice and early mobilization in the acute care and ICU settings. It gives students exposure to the diversity of acute care including integrated clinical decision making, pathophysiology, respiratory, electrocardiograms, nutrition, and technology as part of a multidisciplinary team. Simulated experiences are included. Prereq: Enrollment in the Doctorate in Physical Therapy program.
					8650	Advanced Neurologic Rehabilitation	G	1	Critical analysis of the current literature and the application of advanced skills related to the neurologic patient with an emphasis on evidence-based assessment. Prereq: Enrollment in the Doctorate in Physical Therapy program.

8670	Imaging in Physical Therapy Practice	G	1
Develop an understanding of the basic principles and interpretation of musculoskeletal and neuromuscular imaging. The course will focus on the application of radiographic, CT and MRI images into physical therapy practice. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
8674	Advanced Therapeutic Interventions and Progressions	G	1
Case based analysis, skill acquisition, and patient-centered clinical interventions. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
8676	Differential Diagnosis for Physical Therapists	G	4
Clinical decision making related to systemic disease that can present as neuromuscular or musculoskeletal conditions. Related literature will be utilized to explore systemic origins of disorders related to PT practice. Prereq: Enrollment in the Doctorate in Physical Therapy program.			
8680	Experimental Methods in Biomechanics	G	1½
The purpose of this Experimental Methods in Biomechanics course is to introduce you to the wide variety of equipment that is used to make biomechanical measurements in clinical and research settings. We will discuss the technology/theory that was used to develop each measurement technique, how it is typically used, and its advantages and limitations.			
8789	Practicum Development	G	1
This course will introduce the students to the doctoral capstone, both project and experience and help them develop the skills needed to create their individualized capstone. They will select the primary area of focus for the experience as well as their general topic of interest for the project. Student must be in good standing in the physical therapy doctoral program. This course is graded S/U.			
8915	DPT Case Study Analysis	G	2
Students will work together in a peer group, along with their faculty instructor, for further development of a final written document. Each student will also create an oral presentation describing a key element(s) of their case report demonstrating the ability to apply materials learned across the program to their case report. Each student will provide an oral defense of the case report. Student must be in good standing in the physical therapy doctoral program. This course is graded S/U.			
8989	Capstone Practicum Experience	G	4
Full-time individualized experience focusing on an aspect of physical therapy such as specialty clinical practice, administration or management, teaching, research, service or advocacy. It must include the development of a related project. Repeatable to a maximum of 24 cr hrs. This course is graded S/U.			
8998	Research Practicum	G	1 - 9
Experience within a faculty members research laboratory. Includes exposure to and practice in all aspects of the research process. Repeatable to a maximum of 21 cr hrs or 12 completions. This course is graded S/U.			
8999	Thesis	G	1 - 12
Research Thesis. Repeatable to a maximum of 45 cr hrs or 8 completions. This course is graded S/U.			

Physics

1103	World of Energy: Forces, Electricity, Magnetism, Machines	U	3
An examination of the physical concepts related to energy, including force, electricity, magnetism, and motors. Uses the hands-on discovery mode of instruction. Intended for non-science majors. Prereq: Not open to students with credit for 103. GE nat sci phys course. NS Admis Cond course.			
1104	World of Energy: Light, Thermodynamics, Energy Sources	U	3
An examination of the various forms of energy and energy production with its personal and global impact. Uses the hands-on discovery mode of instruction. Intended for non-science majors. Prereq: Not open to students with credit for 104. GE nat sci phys course. NS Admis Cond course.			
1106.01	Physics by Inquiry: Properties of Matter, Heat and Temperature, and Forces and Motion	U	5
Investigation of the properties of matter, motion and thermodynamics using the inquiry technique. Intended for non-science majors. Prereq: Not open to students with credit for Physics 106 and 107. GE nat sci phys course. GE foundation natural sci course. NS Admis Cond course.			
1107.01	Physics by Inquiry: Circuits, Light and Optics, and Astronomy	U	5
Investigation of the properties of electricity and circuits, light, optics with applications to real-world phenomena such as astronomy using the inquiry technique. Intended for non-science majors. Prereq: Not open to students with credit for 107 and 108. GE nat sci phys course. GE foundation natural sci course. NS Admis Cond course.			
1110	The Physics of Sports	U	3
Examines the physics of motion set in the context of sports. Prereq: Math 1050 (75) or equiv. Not open to students with credit for 110. GE nat sci phys course. NS Admis Cond course.			

1200	Mechanics, Kinematics, Fluids, Waves	U	5
Algebra-based introduction to classical physics: Newton's laws, fluids, waves. Prereq: A grade of C- or above in Math 1120 or 1148, or Math Placement Level M. This course is available for EM credit. GE nat sci phys course. GE foundation natural sci course.			
1201	E&M, Optics, Modern Physics	U	5
Algebra-based introduction to electricity and magnetism, simple optics, overview of modern physics including special relativity and quantum mechanics. Prereq: 1200 (111). Not open to students with credit for 112. This course is available for EM credit. GE nat sci phys course. NS Admis Cond course.			
1231	Physics for Engineering Technology: Electricity and Magnetism	U	3
Calculus-based introduction to electricity and magnetism, for students in Engineering Technology. Prereq: 1250, 1250H, or 1260; and Math 1141 or 1151 or 1154 or above; or permission of instructor. Concur: Math 1152, 1155, 1158, 1161, 1172, 1181H, or 4181H. Not open to students with credit for 1251. This course is available for EM credit. GE nat sci phys course.			
1250	Mechanics, Work and Energy, Thermal Physics	U	5
Calculus-based introduction to classical physics: Newton's laws, work and energy, fluids, thermodynamics; for students in physical sciences, mathematics, and engineering. Prereq or concur: Math 1141, 1151, 1154, 1156, 1161, 1181H, or 4181H. This course is available for EM credit. GE nat sci phys course. GE foundation natural sci course.			
1250H	Honors Physics: Mechanics and Conservation Laws; Special Relativity	U	5
In depth study of classical mechanics including Newton's laws, conservation laws, and introduction to special relativity. Prereq: Honors standing, or permission of instructor. Concur: Math 1151 (152), 1161 (161), 1181H (161H), or 4181H (191H) or above. Not open to students with credit for 131. GE nat sci phys course. GE foundation natural sci course. NS Admis Cond course.			
1251	E&M, Waves, Optics, Modern Physics	U	5
Calculus-based introduction to electricity and magnetism, waves, simple optics, and quantum mechanics; for students in physical sciences, mathematics, engineering. Prereq: 1250, 1250H, 1260, or 1270; and Math 1141, 1151, 1154, or above; or permission of instructor. Concur: Math 1152, 1155, 1161, 1172, 1181H, or 4181H. This course is available for EM credit. GE nat sci phys course.			
1251H	Honors Physics: Electricity and Magnetism; Thermal Physics, Waves, and Quantum Physics	U	5
In depth introduction to: electricity and magnetism including Maxwell's equations, thermodynamics, quantum mechanics. Prereq: Honors standing, and 1250H and Math 1151 or above; or permission of instructor. Concur: Math 1152, 1161, 1172, 1181H, or 4181H or above. Not open to students with credit for 132. GE nat sci phys course. NS Admis Cond course.			
1260	FEH Physics: Mechanics, Thermal Physics, Waves	U	5
Calculus-based introduction to classical physics: Newton's laws, fluids, thermodynamics, waves. Emphasizes group work; for students in Fundamentals of Engineering Honors. Prereq: Honors standing in Engineering, and 1 entrance unit of Physics or Chem. Concur: Math 1151 (152), 1161 (161), 1181H (161H), or 4181H (191H), or above. Not open to students with credit for 131. This course is available for EM credit. GE nat sci phys course. GE foundation natural sci course. NS Admis Cond course.			
1261	FEH Physics: E&M, Optics, Modern Physics	U	5
Calculus-based introduction to electricity and magnetism, simple optics, modern physics including special relativity and quantum mechanics. Emphasizes group work; for students in Fundamentals of Engineering Honors. Prereq: 1260 (131) and Math 1151 (152) or above, or permission of instructor. Concur: Math 1152 (153), 1161, 1172, 1181H, or 4181H. Not open to students with credit for 132. GE nat sci phys course. NS Admis Cond course.			
1270	Classical Mechanics, Conservation Laws, and Special Relativity for Majors	U	5
Calculus-based introduction to classical physics. In depth study of classical mechanics including Newton's laws, conservation laws, and introduction to special relativity. For students majoring in Astronomy & Astrophysics, Engineering Physics, or Physics. Concur: Math 1141, 1151, 1154, 1156, 1161, 1181H, or 4181H or above; and enrollment in Astronomy & Astrophysics major, Engineering Physics major or pre-major, or Physics major. GE foundation natural sci course.			
1271	E&M, Thermal Physics, Waves, and Quantum Physics for Majors	U	5
Calculus-based introduction to classical physics. In depth study of electromagnetism, waves, quantum mechanics, and thermodynamics. For students majoring in Astronomy & Astrophysics, Engineering Physics, or Physics. Prereq: Option 1: Physics 1270. Prereq or concur: Math 1152, 1155, 1161, 1172, 1181H, or 4181H; Or Option 2: Physics 1250, 1250H, or 1260. Prereq or concur: Math 1152, 1155, 1161, 1172, 1181H, or 4181H; and enrollment as Astronomy & Astrophysics major, Engineering Physics major or pre-major, or Physics major.			
2050.01	Polaris Mentoring Program I	U	1
The Polaris Mentorship Class will teach students about issues surrounding diversity and inclusion in STEM, provide time to meet with a near-peer mentor, and introduce students to Physics/Astronomy research at OSU. Prereq: Enrollment in Astronomy & Astrophysics major, Engineering Physics major, Physics major, or University Exploration program; or permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is progress graded (S/U).			

360 Physics

2050.02 Polaris Mentoring Program II U 1

The Polaris Mentorship Class will teach students about issues surrounding diversity and inclusion in STEM, provide time to meet with a near-peer mentor, and introduce students to Physics/Astronomy research at OSU. This is the second and last course of the program. Prereq: 2050.01, or permission of instructor. This course is graded S/U.

2095 Introductory Physics Seminar U 1

Introduction to departmental research programs and to selected topics of interest in contemporary physics. Prereq: 1251, 1251H, 1261, or 1271. This course is graded S/U.

2193 Individual Studies U 1-5

Designed to give a properly qualified student opportunity for independent reading, study, or laboratory work in a specialized field of interest. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

2194 Group Studies U 1-5

Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions.

2300 Intermediate Mechanics I U 4

Vectors and kinematics; foundations of Newtonian mechanics; momentum, work, and energy; conservative and nonconservative forces; potentials; angular momentum; rotation about a fixed axis; rigid body motion; noninertial systems and fictitious forces. Prereq: A grade of C+ or above in 1251, 1251H, 1261, or 1271. Concur: Math 2153, 2162.01, 2162.02, 2173, 2182H, or 4182H.

2301 Intermediate Mechanics II U 4

The special theory of relativity; relativistic kinematics; relativistic momentum and energy. Introduction to quantum systems; photons; the Bohr atom; matter waves. Prereq: Math 2153 or 2173 (254) or above, and a grade of C+ or above in 2300 (261). Not open to students with credit for 262 or 263.

2367 Uses of Science in Solving Problems of Society U 3

Energy, environment, and the arms race are examined using the methods of science; focuses on interaction of science and technology; and social and ethical implications of choices. Prereq: Math Placement S or higher; 1.5-hr 100-level or 1000-level course in either Astron, BioSci, Chem, GeolSci, or Physics; first writing course or equiv. Not open to students with credit for 367. GE writing and comm course: level 2 and nat sci phys course. NS Admis Cond course.

2998 Undergraduate Research in Physics U 1-5

Undergraduate research or creative activities in various topics. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions.

3201H Honors Holography U 3

The basic technique of 3D image making; construction of a diode laser and use of this device to make holograms. Prereq: Honors standing, or permission of dept or instructor. Not open to students with credit for Art 3201H. Repeatable to a maximum of 12 cr hrs. GE VPA course. GE foundation lit, vis and performing arts course.

3470 Optics U 3

Introduces students to the fundamentals of modern optics. Topics will include Maxwell's equations, reflection & refraction, interference & diffraction, lasers and optical imaging. Prereq: 1251, 1251H, 1261, or 1271.

3700 Experimental Physics Instrumentation and Data Analysis Lab U 3

Construction, simulation and statistical analysis of data from advanced experiments in nuclear processes. Introduction to advanced instrumentation and computer controlled data acquisition. Computer programming is required. Prereq: 1251, 1251H, 1261, or 1271; and CSE 1222, 1223, 1224, Engr 1221, Engr 1281H, or Astron 1221. GE data anly course. GE foundation math and quant reasoning or data anly course.

4193 Individual Studies U 1-5

Designed to give a properly qualified student opportunity for independent reading, study, or laboratory work in a specialized field of interest. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

4194 Group Studies U 1-5

Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.

4700 Introductory Electronics for Physicists U 3

Intermediate level introduction to electronic circuits, devices, and instrumentation with emphasis on laboratory experience. Prereq: 1251, 1251H, 1261, or 1271.

4998 Undergraduate Research in Physics U 1-5

Undergraduate research or creative activities in various topics. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.

4998H Honors Undergraduate Research in Physics U 1-5

Undergraduate research or creative activities in various topics; no thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.

4999 Thesis Undergraduate Research in Physics U 1-5

Undergraduate research or creative activities in various topics; culminating in a thesis. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.

4999H Honors Thesis Undergraduate Research in Physics U 1-5

Undergraduate research or creative activities in various topics; culminating in a thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions.

5100 Physics for In-Service Teachers U G 1-10

Designed to deepen teachers' understanding of basic physical concepts and methods of treatment of selected topics, includes lectures, discussions, demonstrations, and individualized lab work. Intended for secondary school science teachers. Prereq: 10 cr hrs in Physics, and teaching experience, and permission of instructor. Repeatable to a maximum of 20 cr hrs or 20 completions.

5261 Environmental Soil Physics U G 3

Principally involves the state and transport of water, heat and gas within soil, and the associated soil physical properties. Prereq: Not open to students with credit for ENR 5261. Cross-listed in ENR.

5300 Theoretical Mechanics U G 4

Development of Lagrangian mechanics, inertia and stress tensors, rigid body rotations and introduction to the mechanics of continuous media. Prereq: A grade of C+ or above in 2301; and Math 2415, 2255, 2174, or 5520H.

5400 Intermediate Electricity and Magnetism U G 4

Introduction to the description of electrostatic fields; dielectrics; boundary-value problems; magnetic fields of steady currents; induction; Maxwell's equations; plane waves. Prereq: A grade of C+ or above in 2301 (263), and Math 2174, 2415 (415), 2255 (255), or 5520H (521H); or permission of instructor. Not open to students with credit for 5400H, 555, or 656.

5400H Honors Intermediate Electricity and Magnetism I U G 4

Advanced treatment of electrostatic fields; dielectrics; boundary-value problems; magnetic fields of steady currents; induction; Maxwell's equations; plane waves. Prereq: Honors standing, Math 2174, 2415 (415), 2255 (255), or 5520H (521H), and a grade of C+ or above in Physics 2301 (263); or permission of instructor. Not open to students with credit for 5400, 555, or 656.

5401H Honors Advanced Electricity and Magnetism 2 U G 4

Plane waves, plane waves in matter; physical optics; coherence, interference, diffraction, and dispersion. Prereq: Honors standing or permission of instructor; (B+ or better in 5400) or (C+ or better in 5400H) or (B+ or better in 555). Not open to students with credit for 656 or 657.

5500 Quantum Mechanics U G 4

Introduction to quantum mechanics, including its historical background, the Schrodinger equation, solutions of one-dimensional scattering and bound state problems. Prereq: A grade of C+ or above in 2301 (263), and Math 2174, 2415 (415), 2255 (255) or 5520H (521H); or permission of instructor. Not open to students with credit for 5500H, 631, or 632.

5500H Honors Quantum Mechanics I U G 4

Advanced treatment of quantum mechanics, including its historical background, the Schrodinger equation, solutions of one-dimensional scattering and bound state problems. Uses Dirac notation. Prereq: Honors status, a grade of B or above in 2301, and a grade of B- or above in Math 2174, 2415, 2255 or 5520H; or permission of instructor. Not open to students with credit for 5500.

5501 Quantum Mechanics II U G 4

Harmonic oscillator, time-independent and time-dependent perturbation theory, addition of angular momenta, fine and hyperfine structure of hydrogen, identical particles, periodic systems, modern physics applications of quantum mechanics. Prereq: 5500, and Math 2174, 2415, 2255, or 5520H; or permission of instructor. Not open to students with credit for 5501H or 633.

5501H Honors Quantum Mechanics II U G 4

The Schrodinger equation in three dimensions, angular momentum, the hydrogen atom; time-independent perturbation theory, time-dependent perturbation theory, scattering theory and the Born approximation, multi-electron atoms. Prereq: Honors status, or permission of instructor; and B+ or above in 5500, or B- or above in 5500H. Not open to students with credit for 5501.

5600 Statistical Mechanics U G 4

Thermodynamics and statistical mechanics; applications to noninteracting classical and quantum systems. Interacting systems, special states of matter, critical phenomena and phase transitions. Prereq: 5500; and Math 2415, 2255, 2174, or 5520H; or permission of instructor.

5680 Big Data Analytics in Physics U G 3

Provides an introduction to machine learning and advanced algorithms, with an emphasis on practical physics-based applications, using publicly available data sets. The goal is to provide an introduction to Data Science for students who may want to pursue this as a career option and/or apply these techniques in a research environment. Prereq: A grade of C+ or above in 1251, 1251H, 1261, or 1271; and CSE 1222, 1223, 1224, Engr 1221, 1281H, or Astron 1221; and enrollment in Physics, Engineering Physics, or Astronomy major; or permission of instructor.

5700 Advanced Physics Laboratory U G 3

Lab course for physics majors. Three advanced experiments from a variety of physics disciplines are carried out. Emphasis is on experimental techniques, analysis of collected data, and formal presentation of experimental results. Prereq: 2301 (263); and 3700 (416); and 5400 (555) or 5400H; and 5500 (631) or 5500H. Not open to students with credit for 616.

5710	Advanced Engineering Physics Laboratory	U G	3
Lab course for eng physics majors. Experiments in optics, materials, and nuclear physics are carried out in a team approach, emphasizing DAQ methods and experimental design, analysis of collected data, and formal presentation of experimental results. Prereq: 3700 (416) and 2301 (263), and 5400 (555) or 5400H, and 5500 (631) or 5500H. Not open to students with credit for 616.			
5800	Engineering Physics Design I	U G	3
Presents fundamentals of engineering-physics design and leads to skills development relevant to a specific design proposal. Technical communication skills, both written and oral, are employed throughout. Prereq: 2301 (263) and a Second Writing course, and Sr standing in Engineering Physics.			
5801	Engineering Physics Design II	U G	3
Continues training in engineering-physics design. Preliminary designs are refined and prototypes are fabricated and tested. Technical communication skills, both written and oral, are employed throughout. Prereq: 5800, and Sr standing in Engineering Physics.			
5810	Topics in Computational Physics	U G	4
Experimental and theoretical aspects of areas of current interest in Computational Physics. Prereq: 5500 or 5500H; and CSE 1222, 1223, 1224, Astron 1221, Engr 1221, or 1281H; or permission of instructor.			
6201	Grad Holography I	G	3
Introduction to the theory and basic technique of 3D image making. Students will construct a diode laser and use it to make holograms. For grad students in the grad specialization "Analysis of Material Culture". Prereq: Grad standing.			
6780	Special Topics Seminar	G	1
A survey of current research problems in physics. Prereq: Grad standing or permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.			
6802	Topics in Elementary Particle Physics	G	4
Experimental and theoretical aspects of areas of current interest in physics. Elementary Particle Physics. Prereq: 5501 or grad standing or permission of instructor.			
6804	Topics in Atomic and Molecular Physics	G	4
Experimental and theoretical aspects of areas of current interest in physics. Atomic and Molecular Physics. Prereq: 5501 or grad standing or permission of instructor.			
6805	Topics in Nuclear Physics	G	4
Experimental and theoretical aspects of areas of current interest in physics. Nuclear Physics. Prereq: 5501 or grad standing or permission of instructor.			
6806	Topics in Condensed Matter Physics	G	4
Experimental and theoretical aspects of areas of current interest in physics. Condensed Matter Physics. Prereq: 5501 or grad standing or permission of instructor.			
6809	Topics in Biophysics	G	4
Experimental and theoretical aspects of areas of current interest in Biophysics. Prereq: 5501 or grad standing or permission of instructor.			
6820	Special Topics	G	4
Experimental and theoretical aspects of areas of current interest in physics. Special Topics. Prereq: Prereq: 5501 or grad standing. Repeatable to a maximum of 24 cr hrs.			
7193	Individual Studies	G	1 - 6
Designed to give a properly qualified student opportunity for independent reading, study, or laboratory work in a specialized field of interest. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 6 completions. This course is graded S/U.			
7194	Group Studies	G	1 - 5
Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 6 completions.			
7401	Electromagnetic Field Theory	G	3
Electric and magnetic fields in material media, Maxwell's equations, electromagnetic waves, radiation by simple systems and by moving charges. Special theory of relativity. Prereq: 5401 and 7701, or permission of instructor.			
7501	Quantum Mechanics 1	G	3
Postulates and Schroedinger eq., linear vector spaces, path-integral formulation; symmetry, orbital angular momentum, central potentials, spin angular momentum. Prereq: 5501 or equivalent, or permission of instructor.			
7502	Quantum Mechanics 2	G	3
Variational method; perturbation theory, semiclassical treatment of electromagnetic radiation, quantized electromagnetic radiation, scattering theory; density matrix; Dirac equation. Prereq: 7501.			
7601	Classical and Statistical Physics I	G	3
Lagrangian dynamics, variational principles, Hamilton's equations, canonical transformations, symmetries and conservation laws. Introduction to statistical physics; fundamental postulates. Prereq: 5300 or grad standing in Physics or permission of instructor.			

7602	Classical and Statistical Physics II	G	3
Entropy, therm. potentials and changes of phase; microscopic expression for entropy and basis of classical ensemble theory. Canonical and grand ensembles; Quantum statistical mechanics. Prereq: 5600 or equiv. or 7601.			
7603	Advanced Statistical Physics	G	3
Interacting systems; Ising and Heisenberg models of magnetism, theory of dense gases and liquids, phase transitions and critical phenomena; non-equilibrium statistical physics, Boltzmann equation. Prereq: 7502 and 7602, or permission of instructor.			
7701	Analytic and Numeric Methods of Physics	G	3
Analytical and numeric boundary value problems, complex analysis, Fourier series, Legendre polynomials, spherical harmonics, and Bessel functions. Prereq: grad standing in Physics or permission of instructor.			
7891	Departmental Seminar or Workshop	G	1
Departmental Seminar or Workshop Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.			
7998	Graduate Research	G	1 - 10
Laboratory and/or theoretical research on an individual basis on topics of current interest. Prereq: 5700, or equiv, and permission of instructor. Repeatable to a maximum of 36 cr hrs or 6 completions. This course is graded S/U.			
8802.01	Topics in Elementary Particle Physics 1	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Elementary Particle Physics. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8802.02	Topics in Elementary Particle Physics 2	G	3
A (continued) systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Elementary Particle Physics. Prereq: 8802.01 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8803.01	Topics in Astroparticle Physics 1	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Astroparticle Physics. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8804.01	Topics in Atomic and Molecular Physics 1	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Atomic and Molecular Physics. Prereq: 7501, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8805.01	Topics in Nuclear Physics 1	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Nuclear Physics. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8806.01	Topics in Condensed Matter Physics 1	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Condensed Matter Physics. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8806.02	Topics in Condensed Matter Physics 2	G	3
A (continued) systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Condensed Matter Physics. Prereq: 8806.01 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8808.01	Topics in the Theory of Quantized Fields I	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Theory of Quantized Fields. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8808.02	Topics in the Theory of Quantized Fields II	G	3
A (continued) systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Theory of Quantized Fields. Prereq: 8808.01 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8809.01	Topics in Biophysics	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each semester. Biophysics. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8820	Special Topics	G	3
A systematic advanced treatment of areas of current interest in physics; topics will be announced each quarter. Special Topics. Prereq: 7501 or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
8999	Research in Physics	G	1 - 12
Research for thesis or dissertation purposes only. Au, Sp, Sum Semesters. Prereq: Permission of Instructor. Repeatable. This course is graded S/U.			

362 Physiology and Cell Biology

3200 Human Physiology U 5

Teaches the physiology of human organ systems, including the following: nervous system, muscle, gastrointestinal, cardiovascular, respiratory, renal, endocrine, and reproductive systems. This course is designed for students who are planning careers in the health sciences. This is a one-semester course. Prereq: 6 sem cr hrs in the biological sciences.

3203 Human Physiology Laboratory U 2

In this course students will learn the principles of human organ system function through hands on human laboratory experiments. Further understanding of these organ system functions will be gain through discussion of related disease case-studies. Prereq: 3200, 1 course in Biology, and 1 course in Chem; or a grade of B or above in EEOB 2520, 1 course in Biology, and 1 course in Chem.

4998 Research - Independent Study U 1 - 4

Students will conduct hands-on laboratory research in the areas of cell biology and physiology under the direction of a faculty member in the department of Physiology and Cell Biology. This will involve learning specific laboratory techniques related to the area of the faculty member's biomedical research program, which may include biochemical, molecular, physiological, and genetic methods. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

4999 Undergraduate Thesis Research U 1 - 10

Students will conduct individual, hands-on laboratory research under the direction of a faculty member in the department of Physiology and Cell Biology culminating in a thesis and oral examination. This will involve learning specific laboratory techniques and scientific methods related to the faculty member's biomedical research program. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

4999H Undergraduate Independent Research U 1 - 10

Students will conduct individual, hands-on laboratory research under the direction of a faculty member in the department of Physiology and Cell Biology culminating in a thesis and oral examination. This will involve learning specific laboratory techniques and scientific methods related to the faculty member's biomedical research program. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

6101 Advanced Human Physiology I G 3

First in two semester graduate course sequence covering Cell, Neuro, Muscle, Cardiovascular, GI, Respiratory, Renal & Endocrine Physiology. Au Sem. Prereq: Enrollment in one of the following graduate programs: IBGP, BiomedE, Sport & Exercise Science, Pharm, Anatomy, Pathology Associate, or permission of course director. Not open to students with credit for PhysioCB 601.

6102 Advanced Human Physiology II G 3

Second in two semester graduate course sequence covering Cell, Neuro, Muscle, Cardiovascular, GI, Respiratory, Renal & Endocrine Physiology. Au Sem. Prereq: A grade of C- or above in Physio 6101 (PhysioCB 601); and enrollment in IBGP, BiomedE, Sport & Exercise Science, Pharm, Anatomy, or Pathol; or permission of course director. Not open to students with credit for PhysioCB 602.

7931 Individual Studies in Physiology and Cell Biology G 1 - 16

Reading, conferences, and laboratory work by individual arrangement with qualified students who desire more intensive and specialized study than is available in other courses. Repeatable to a maximum of 18 completions. This course is progress graded (S/U).

8101 Advanced Cardiac Physiology G 3

Advanced presentation of cardiovascular physiology. 1hr journal club and 2hr class. Au Sem. Prereq: Physio 6101 or 6102, or equiv, and permission of instructor.

8102 Advanced Cardiac Metabolics G 3

This course will provide in-depth understanding of both cardiovascular and metabolic science in order to develop advances to combat cardiometabolic disease. Basic knowledge in Physiology is required prior to enrollment.

8501 Cardiovascular Journal Club G 1

Journal Club - presentation and discussion of pertinent research articles. Au, Sp Sems. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

8999 Research (Independent Study) G 1 - 16

Research for thesis or dissertation purposes only. Repeatable to a maximum of 18 completions. This course is progress graded (S/U).

Plant Pathology

1100 Exploring Plant Pathology U ½

Basic understanding of the global trends within plant pathology, the diversity of career opportunities within the industry, planning for a career and opportunities for professional development.

2000 Molds, Mushrooms, and Mankind U 3

Fungi have influenced human health, migration, and nutrition for thousands of years. This course studies fungal biology and the impact of fungi in society both historically and currently. Sp Sem. GE nat sci bio course.

2001 Sick Plants and a Hungry World U 2

Review of the interactions of plants with plant pathogens and the social, economic, and historic consequences for civilization. Entirely online course. Au, Sp Sems. Prereq: Not open to students with credit for 201.

3001 General Plant Pathology Lecture U 3

Plant diseases are a major constraint to agricultural production and the health of natural ecosystems. This course introduces students to basic concepts of plant pathogen biology, the role of environmental conditions in promoting development of plant diseases and disease epidemics, the mechanisms of plant pathogen interactions, and the development of effective approaches to disease control. Prereq: Biology 1101, or 1113, or 1115H; or Entmly 1101. Not open to students with credit for 6001.

3002 General Plant Pathology Lab U 2

This course introduces students to laboratory techniques used to study plant-associated microbes and to diagnose plant diseases. Topics include parasitism and disease development, fungi, oomycetes, bacteria, viruses, nematodes, plant-microbe interactions, disease epidemiology and disease management. Prereq: Biology 1101, 1113, or Entmly 1101. Concur: 3001. Not open to students with credit for 6001.

3333 Field and Woodland Fungi U 2

General and technical knowledge on the identification and ecology of macrofungi of Ohio. Online content, lab and field experiences. Prereq: Biology 1113 or 1114, or permission of instructor.

3797 Study at a Foreign Institution U 1 - 6

Study abroad opportunities for students in plant pathology, plant health management, etc. and receive Ohio State credit for that work. Prereq: Pre-departure course, and permission of instructor.

3920 Psychedelic Studies: Neurochemistry, Plants, Fungi, and Society U 3

A comprehensive examination of the growing psychedelic studies field, including the relevant chemistry, ethnobotany, history, neurobiology, psychology, and emerging policy options.

4191 Internship Experiences in Plant Health Management U 1 - 6

Individualized experiential learning opportunity designed to link theoretical classroom knowledge with practical application. Prereq: 3001 and 3002, and permission of instructor. Prereq or concur: FAES 3191. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4193 Undergraduate Individual Studies U 0 - 3

Problems may be selected in the various areas of plant pathology. Prereq: CPHR 2.5 or above, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

4321 Managing Biological Invasions for Forest Sustainability U 3

Explores the causes and consequences of, and management options for, biological invasions of forest environments by pathogens and insect pests that lead to widespread tree mortality. These invasions contribute to ecosystem degradation, with ecological and socio-economic impacts and implications for the sustainability of forest ecosystems, industries, and the beings that depend on them. GE theme sustainability course.

4597 Contemporary Issues: Pesticides, Genetic Engineering, and the Environment U 3

Contemporary, cultural, and social issues related to pesticide use, genetic engineering and sustainable plant management. Au, Sp Sems. Prereq: Jr or Sr standing. Not open to students with credit for 597. GE cross-disciplinary seminar course.

4998 Undergraduate Research U 0 - 6

Conducting research. Prereq: CPHR 3.0 or above, and GPA 3.0 or above in major, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4999 Research with Distinction U 0 - 6

Conducting and reporting Research with Distinction (non-Honors). Prereq: CPHR 3.0 or above, and GPA 3.0 or above in major, and submission of Research Plan to College Office, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4999H Honors Research with Distinction U 0 - 3

Conducting and reporting Research with Distinction Honors. Students are expected to present at the CFAES Undergraduate Research Forum and the Denman Undergraduate Research Forum. Prereq: Honors Standing, and FAES 4590.01H, and CPHR 3.4 or above, and GPA 3.5 or above in major, and submission of Research Plan to College Office, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

5003 Principles of Molecular Plant-Microbe Interactions U G 2

Molecular bases of plant-microbe interactions ranging from how microbes cause disease to how plants defend themselves. Emphasis will be given to principles of pathogen virulence, recognition of pathogen, host target proteins, defense activation and signaling. Prereq: 3001 or MicrBio 4000.01 or MolGen 4500, or permission of instructor.

5004 Current Topics Molecular Plant Microbe Interactions U G 2

Examination of current and historical literature defining the molecular aspects that drive host-microbe-environment interactions. Students will participate in journal article discussions, evaluation of literature, and grant proposal writing and peer review. Prereq: 3001 or MicrBio 4000.01 or MolGen 4500, or permission of instructor.

5005 Beneficial Plant-associated Microbiomes and Plant Pathology Research U G 2

The study of beneficial interactions between plants and microorganisms and its applications. This course will equip students with an understanding of the phylogenetic and functional diversity of microorganisms associated to plants, the factors influencing beneficial plant-microbial interaction establishment, and the relevance of managing these interactions in different environments. A basic course in plant biology can also fulfil the prerequisite. Prereq: 3001, Micrbio 4000, or 4100, or permission of instructor.

5006 Practical Computing Skills for Omics Data U G 3

Hands-on experience with general and versatile tools for day-to-day work with 'omics' research data sets from genomics, transcriptomics, and microbiomics, with a focus on foundational skills working in the Unix shell and writing shell scripts, installing software and submitting jobs at a compute cluster (Ohio Supercomputer Center), coding in R, and building flexible, automated workflows.

5010 Phytobacteriology U G 2

Taxonomy, molecular biology, physiology, and ecology of plant-associated bacteria that interact with plants, especially those that cause disease and affect plant health. Video-linked to Wooster. Prereq: 3001 and 3002, or 6001 (401), or permission of instructor. Not open to students with credit for 600.01.

5020 Introductory Plant Virology U G 2

Plant virus structures, genome organizations and replication strategies. Symptoms and diagnosis of virus diseases of plants. Video-linked to Wooster. Prereq: 3001 and 3002, or 6001 (401), and at least one course taken in Biochem, MolBioc, MolGen, or Micrbio; or permission of instructor. Not open to students with credit for 600.02.

5030 Plant Nematology U G 2

Introduction to plant-parasitic nematodes, with emphasis on identification, epidemiology and host interactions. Video-linked to Wooster. Prereq: 3001 and 3002, or 6001 (401), or permission of instructor. Not open to students with credit for 636.

5040 Science of Fungi: Mycology Lecture U G 3

Fungi are some of the most important organisms on the planet. This course covers the diversity, biology, and genetics of fungi. Video-linked to Wooster. Au Sem. Prereq: A course in the Biological Sciences, or permission of instructor. Not open to students with credit for 660.

5041 Science of Fungi: Mycology Lab U G 1

Fungi are some of the most important organisms on the planet. This lab covers the diversity, biology and genetics of fungi. Video-linked to Wooster. Au Sem. Prereq: A course in the Biological Sciences, or permission of instructor. Concur: 5040. Not open to students with credit for 660.

5050 Plant Pathogenic Fungi U G 3

In-depth study of fungal and oomycete pathogens that cause devastating plant diseases that impact crops, landscapes and forests. Topics include pathogens of significant agricultural and ecological importance, including biology, management strategies, and societal impact. The course provides foundational knowledge important for research and careers in plant health and related fields. Prereq: 3001, 5040, or 6001, or permission of instructor.

5060 Practical Experiences in Plant Health: Insects & Diseases of Plants U G 2

Plants can be attacked by a multitude of pathogens and insects. Each plant within a production region has documented pests that can negatively impact plant health. Environment and production practices can influence the outcome of interactions between pathogens and pests. This is a beginning course for students to learn how to recognize symptoms of economically important pathogens and insects. Prereq: 5603 or Entmlyg 5600, or permission of instructor. Not open to students with credit for Entmlyg 5606. Cross-listed in Entmlyg.

5110 Ecology and Management of Pathogens and Insects Affecting Trees in Forest and Urban Environments U G 3

Overview of major pathogens and insects affecting health of forest and shade trees with emphasis on diagnosis, ecology, and management. Video-linked to Wooster. Offered odd years. Sp Sem. Prereq: Not open to students with credit for 610 or Entmlyg 5110 (Entomol 461). Cross-listed in Entmlyg.

5120 Diseases of Ornamental Plants U G 2

This course is designed to train students in identifying important diseases of ornamental plants, in understanding how pathogens spread and how production practices can influence disease development, and in applying principles of integrated plant health management in the greenhouse and nursery, and urban landscape settings. Prereq: 3001 or 6001, or permission of instructor.

5130 Turf Diseases and Integrated Turf Health Management U G 4

A detailed study of the diseases of turfgrass, factors influencing disease severity, and specific measures for disease control such as genetic, cultural, biological, and chemical. Prereq: 3001 (401) or 6001, HCS 3470, and Jr or Sr standing; or permission of instructor. Another option includes HCS 3470, and Jr or Sr standing; or permission of instructor. Concur: PLNTPH 3001. Not open to students with credit for 612 and 613.

5140 Diseases of Field Crops U G 2

Key diseases that impact crop plants with emphasis on identification, management and field evaluations of management strategies. Video-linked to Wooster. Sp Sem. Prereq: Two courses in the Biological Sciences, or permission of instructor. Not open to students with credit for 614.

5150 Diseases of Vegetable and Fruit Crops U G 2

Introductory course on identification and management of economically important diseases of vegetable and fruit crops produced in temperate, sub-tropical and tropical climates, with a focus on diseases impacting Ohio vegetable and fruit production. Prereq: 3001 and 3002; or 6001; or permission of instructor.

5603 Plant Disease Management U G 3

Theory and practice of plant disease management; emphasis on integration of cultural, biological, chemical methods and plant disease resistance. Video-linked to Wooster. Au Sem. Prereq: 3001 (401) and 3002, or 6001, or permission of instructor. Not open to students with credit for 603.

5604 Capstone Course: Problem-Based Studies in Plant Health U G 2

Students will be presented with a current plant health problem from the industry. They will gather diverse information from consultants, synthesize novel solutions, and develop implementation plans. Prereq: Jr, Sr, or Grad standing in PlntPth, Entmlyg, or Plant Health Management. Not open to students with credit for Entmlyg 5604. Cross-listed in Entmlyg.

5685 Plant Disease Diagnosis U G 3

Plant Disease Diagnosis is focused on the diagnosis of plant diseases and identification of causal agents. This is a highly intensive course that meets over two full weeks, including weekends. Students will become acquainted with the current approaches to diagnostics and many traditional and modern diagnostic procedures employed in diagnostic and research laboratories. Prereq: 3001 and 3002, or 6001, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

6001 Advanced Plant Pathology G 2

An advanced level of study in plant diseases caused by fungi, bacteria, viruses, nematodes and parasitic higher plants. For graduate students. Prereq: A course in Biological Sciences, and Grad standing; or permission of instructor. Not open to students with credit for 3001 or 3002.

6002.01 Advanced Plant Pathology Lab - Viruses and Bacteria G 1

This course is intended to prepare students to be able to implement techniques used by virologists and bacteriologists in both lab and field settings. Prereq or concur: 5010 and 5020.

6002.02 Advanced Plant Pathology Lab - Plant Pathogenic Fungi and Nematodes G 1

This graduate course is intended to prepare students to be able to implement techniques used by nematologists and mycologists in both lab and field settings. Prereq or concur: 5030 and 5050.

6030 Advanced Plant Pathology Lab: Nematology G 1/2

This course will prepare students to implement techniques used by nematologists, both in applied diagnostics and research settings. It will provide foundational training in principles and methods applied to the study of plant pathogenic nematodes. The course will cover wet lab techniques for diagnosis and inoculation, computational analysis of genomic sequence data, advanced microscopy. Prereq: 3001, and 3002; or 6001; or permission of the instructor.

6050 Advanced Plant Pathology Lab: Plant Pathogenic Fungi G 1/2

This laboratory course will cover multiple techniques used to isolate, characterize, diagnose, visualize, and otherwise analyze plant pathogenic fungi and oomycetes. Labs will cover hands-on wet lab techniques for diagnosis and inoculation, computational analysis of sequence data, advanced microscopy work, and molecular genetic techniques. Prereq: 3001 and 3002; or 5040; or 6001; or permission of instructor. Prereq or Concur: 5050, or permission of instructor.

6193 Individual Studies G 0 - 6

Projects may be selected in various areas of plant pathology or plant health management. Prereq: CPHR 3.0 or above, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

7002 Plant Disease Epidemiology G 3

Study of the dynamics of plant diseases; statistical modeling of plant disease epidemics. Video-linked to Wooster. Sp Sem. Prereq: 3001 (401) and 3002, or 6001, and an introductory Stat course; or permission of instructor. Not open to students with credit for 702.

7003.01 Agricultural Genomics: Principles and Applications G 2

Reviews the principles of most genomic technologies, new developments in the field and emphasize their application in agriculture. Video-linked to Wooster. Sp Sem. Prereq: MolGen 4500 (500) or Biochem 5613 (613), or permission of instructor. Concur: HCS 7003.02. Not open to students with credit for 7003 (703), or HCS 7003.

7004 Functional Biochemistry of Plant Defense G 3

This course will focus on the basis of biochemical processes as well as signaling pathways and networks involved in plant defense against microbial pathogens. Emphasis will be given to defense hormones and their signaling networks. Prereq: Biochem 2210, and Micrbio 4000.01 or 4000.02, and MolGen 3436; or permission of instructor.

7300 Plant Health Management Seminar G 1

This course is designed to cover current topics in plant health management for students in the Master in Plant Health Management program. Topics and guest speakers may differ from semester to semester and will depend on student interest. Repeatable to a maximum of 6 cr hrs. Cross-listed in Entmlyg.

364 Plant Pathology

7999	Graduate Research Masters	G	1 - 18
Research for master's thesis purposes only. Prereq: M.S. graduate student standing in Plant Pathology, or permission of the instructor. Repeatable to a maximum of 99 or hrs or 99 completions. This course is graded S/U.			
8300	Current Topics in Plant Pathology	G	1 - 2
Readings from the current literature will be examined in detail for both technical and conceptual content. Video-linked to Wooster. Au, Sp, Su Sems. Prereq: Grad standing. Repeatable to a maximum of 6 or hrs.			
8300.01	Molecular Fungal Biology, Genetics, and Genomics	G	2
Designed to explore the biology and genetics of fungal microorganisms. Topics include: fungal reproduction for the major clades, molecular underpinnings of growth, development, and interactions with diverse hosts and whole genome based studies of fungi, including proteomic and systems biology analyses. Primarily literature based. Prereq: 5040.			
8899	Plant Pathology Seminar	G	1
Graduate seminar in plant pathology and professional development. Prereq: Grad standing. Repeatable to a maximum of 12 or hrs. This course is graded S/U.			
8901	Mentored Teaching in Plant Pathology	G	1 - 3
Students work with faculty members to gain intensive hands-on and mentored experiences focused on direct interaction with students and on the scholarly aspects of teaching. Completion of the OSU Drake Institute for Teaching and Learning - Graduate Teaching Orientation is required. Prereq: Grad standing in Plant Pathology. Repeatable to a maximum of 9 or hrs or 3 completions. This course is graded S/U.			
8902	Mentored Extension/Outreach Teaching in Plant Pathology	G	1 - 3
Provides graduate students interested in Extension/Outreach programs with hands-on experience in developing and delivering extension educational programs and materials. Prereq: Permission of the instructor. Repeatable to a maximum of 5 or hrs or 5 completions. This course is graded S/U.			
8998	Graduate Research Pre-Candidacy Ph.D.	G	1 - 18
Research for dissertation purposes only (pre-candidacy students). Prereq: Ph.D. graduate student standing in Plant Pathology not yet having successfully completed the candidacy exam, or permission of the instructor. Repeatable to a maximum of 99 or hrs or 99 completions. This course is graded S/U.			
8999	Graduate Research Post-Candidacy Ph.D.	G	1 - 18
Research for dissertation purposes only (post-candidacy students). Prereq: Post-candidacy Ph.D. graduate standing in Plant Pathology, or permission of the instructor. Repeatable. This course is graded S/U.			

Polish

1101	Elementary Polish I	U	4
Introduction to Polish; development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of this language through regular course enrollment or EM credit, or to students with 2 or more years of study in this language in high school. Prereq: Not open to students with credit for 101. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1102	Elementary Polish II	U	4
Continued development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101 (101.01). Not open to students with credit for 102. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1103	Intermediate Polish I	U	4
Continued development of speaking, listening, reading, and writing skills in cultural context. Closed to native speakers of this language. Prereq: 1102 (102.01). Not open to students with credit for 103. This course is available for EM credit. GE for lang course. GE world languages course.			
2104	Intermediate Polish II	U	4
Increasing functional ability in speaking, listening, reading, and writing practice, vocabulary-building; new grammar structures; start developing higher-level language skills in Polish. Closed to native speakers of this language. Prereq: 1103 (104.01). Not open to students with credit for 407.01.			
3101	Advanced Polish I	U	3
Further develop speaking, listening, reading, and writing skills and grammar competence. Prereq: 2104. Not open to students with credit for Slavic 5194 (Au13, Cretu).			
3102	Advanced Polish II	U	3
Further develop speaking, listening, reading, and writing skills and grammar competence. Prereq: 3101. Not open to students with credit for Slavic 5194 (Sp15, Advanced Polish).			
5230	Polish Literature	U G	3
Polish cultural and intellectual history as represented in the major works of Polish literature and in contemporary media. Taught in English. Readings in English, but students of Polish will do portions of the readings in the original. Prereq: 6 or hrs of Literature courses at the 2000 level or above, or permission of instructor. Not open to students with credit for 630 and 631.			

Political Science

1100	Introduction to American Politics	U	3
Introduction to American politics, the institutions and processes which create public policy, the strengths and weaknesses of the American political systems. Prereq: Not open to students with credit for 3100 (300), 101, or 101H. This course is available for EM credit. GE soc sci orgs and politics course. GE foundation social and behavioral sci course. SS Admis Cond course.			
1100H	Introduction to American Politics	U	3
Introduction to American politics, the institutions and processes which create public policy, and the strengths and weaknesses of the American political systems. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 3100 (300), 101, or 101H. GE soc sci orgs and politics course. GE foundation social and behavioral sci course. SS Admis Cond course.			
1165	Introduction to Politics	U	3
Introduction to politics and political science: power, democracy and authoritarianism, political participation, the state, political institutions, subfields of the discipline, and political research methodology. Prereq: Not open to students with credit for 165 or 165H. GE soc sci orgs and politics course. GE foundation social and behavioral sci course. SS Admis Cond course.			
1200	Introduction to Comparative Politics	U	3
Introduction to modern nation-states outside the United States: problems of state- and nation-building, representation, conflict, and making of government policy in selected countries. Prereq: Not open to students with credit for 100 or 100H. This course is available for EM credit. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci course.			
1300	Global Politics	U	3
Cooperation and conflict in world politics. Covers basic theories of international relations and key issues, including security, political economy, international organizations, and the environment. Prereq: Not open to students with credit for 145 or 145H. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course.			
2120	Follow the Science: The Politics of Health	U	3
In the 20th Century, chronic conditions became the leading killers of Americans and the federal government came to play a much more expansive role in health, including the approval of treatments, regulation of harmful substances, promotion of healthy habits, and funding healthcare. Students will survey these developments and apply the resulting insights to contemporary health policy debates. GE theme citizenship for div and just wrld and health and well-being course.			
2145	Native American Politics	U	3
Overview of the politics and governance of Native Americans. Topics include diversity of political structures designed by Indigenous peoples in North America, their dynamic relationships with the US federal government, the major historical events relevant to Native politics, and salient contemporary issues in Native American politics. GE theme citizenship for div and just wrld course.			
2150	Voters and Elections	U	3
Students will engage in an in-depth study of the mechanics of democracy. Students will take a close look at various forms of voting and representation around the world and examine the motivation and tactics of elite actors (candidates, reporters, interest groups, political parties, media personalities, etc.) and the voting public. GE soc sci indivs and groups course. GE theme citizenship for div and just wrld course.			
2194.01	Group Studies in American Politics	U	1 - 3
Group studies in American politics. Repeatable to a maximum of 6 or hrs or 2 completions.			
2194.02	Group Studies in Comparative Politics	U	1 - 3
Group studies in comparative politics. Repeatable to a maximum of 6 or hrs or 2 completions.			
2194.03	Group Studies in International Politics	U	1 - 3
Group studies in international politics. Repeatable to a maximum of 6 or hrs or 2 completions.			
2194.04	Group Studies in Political Theory	U	1 - 3
Group studies in political theory. Repeatable to a maximum of 6 or hrs or 2 completions.			
2194.05	Group Studies in Public Policy	U	1 - 3
Group studies in public policy. Repeatable to a maximum of 6 or hrs or 2 completions.			
2300	American Foreign Policy	U	3
The role of the United States in world politics since the Second World War, emphasizing structural change in economic and political-military relations. Prereq: Not open to students with credit for 245 or 245H. GE soc sci orgs and politics and diversity global studies course. GE foundation social and behavioral sci course.			
2367	Contemporary Issues in American Politics	U	3
Discussion of and critical writing about controversies in contemporary American politics; aimed at fostering analytical abilities in reading comprehension, oral, and written expression. Prereq: 101 or 300, and English 110 or 111, and Soph standing; or permission of instructor. Not open to students with credit for 367.01 or 367.01H. GE writing and comm course: level 2 and soc sci orgs and politics course. GE foundation social and behavioral sci course.			

2400 Introduction to Political Theory U 3

An introduction to the field of political theory through classic and contemporary texts and selected case studies. Prereq: Not open to students with credit for 210 or 210H. GE soc sci orgs and politics course. GE foundation social and behavioral sci course. SS Admis Cond course.

2400H Introduction to Political Theory U 3

An introduction to the field of political theory through classic and contemporary texts and selected case studies. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 210 or 210H. GE soc sci orgs and politics course. GE foundation social and behavioral sci course.

3001 Economy, Polity, and Community U 3

Examines how different ways of thinking about human nature shape our understanding of philosophy, politics, and economics. Prereq: Econ 2001.XX or 2002.01 or 2002.03H; and Philos 2400 or PolitSc 2400 or 2400H; and Econ 5001 or Philos 2500 or 2540 or PolitSc 3500 or 4553 or 4553H; and Philos 3300; and Econ 3400 or IntStds 3400 or PolitSc 3780 or 3780H; and PolitSc 3280 or 4280 or 3380 or 4380 or 4381. Not open to students with credit for Econ 3001 or Philos 3001. Cross-listed in Econ and Philos.

3002 Tradition, Progress, and Utopia U 3

Examines how different ways of thinking about social and political change shape our understanding of philosophy, politics, and economics. Prereq: Econ 2001.XX or 2002.01 or 2002.03H; and Philos 2400 or PolitSc 2400 or 2400H; and Econ 5001 or Philos 2500 or 2540 or PolitSc 3500 or 4553 or 4553H; and Philos 3300; and Econ 3400 or IntStds 3400 or PolitSc 3780 or 3780H; and PolitSc 3280 or 4280 or 3380 or 4380 or 4381. Not open to students with credit for Econ 3002 or Philos 3002. Cross-listed in Econ and Philos.

3115 Introduction to the Policy Process U 3

Introduction to the workings of policy-making processes within governments, and the use of social science reasoning to evaluate and improve the content of policies. Prereq: Not open to students with credit for 305.

3147 Intersectionality and Identity Politics U 3

This course addresses American racial and gender politics based on relevant research. In particular, it focuses on research and theories centered on different facets of race, gender, and intersectionality in the United States. GE foundation race, ethnicity and gender div course.

3160 Political Polarization & the Culture War U 3

Course examines causes and implications of political polarization in the United States.

3170 Political Psychology U 3

Introduces students to political psychology, its development from parent disciplines, its topics and problems, its research results and methods, and their applications to current affairs. Prereq: Not open to students with credit for 403 or Psych 403.

3191 Political Science Internship U 1

Combines experience in political institutions or policy processes with analysis of that experience. Prereq: Permission of the department. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

3220 Politics of the Developing World U 3

A general introduction to the theoretical and substantive literature dealing with the historical development and contemporary characteristics of the new states of Asia and Africa. Prereq: Not open to students with credit for 541. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course.

3225 Post-Conflict Reconstruction U 3

Examines why some countries recover quickly from war while other countries remain poor and undeveloped. Examines current explanations of post-conflict development; provides background knowledge and tools to evaluate explanations. GE soc sci human, nat, and econ resources and diversity global studies course. GE foundation social and behavioral sci course.

3240 Political Violence U 3

This course will expose students to major theoretical debates and broad empirical patterns of intrastate conflict during the post-World War II era.

3245 Radicalization, Deradicalization, Countering Violent Extremism U 3

Students will gain in-depth knowledge about the multifaceted processes of radicalization and deradicalization and the various approaches to both that have been developed in countering violent extremism policies.

3260 Global Politics of Health and Disease U 3

Introduces students to the global politics of health and disease by examining the conceptual history, organizational actors, practice, and issues of global health politics through interdisciplinary texts in international relations, global health, and health policy.

3280 Politics of Markets U 3

Introduction to the interaction between politics and markets, in theory and in practice. We study how markets are embedded in political and social institutions, and how political systems and markets are organized across time and space. Prereq: Not open to students with credit for 4280.

3290 Comparative Public Policy U 3

This course serves as an introduction to public policy in comparative perspective; its focus is on wealthy democracies. The first part of the course explores broad theories about how and why public policy differs so dramatically across countries. The second part of the course focuses on cross-national differences across specific policy domains.

3310 Defense Policy and National Security U 3

This course addresses some of the basic issues surrounding national security policy. The primary focus is on policy issues related to the use of force between and within countries. The goal of the course is to provide the analytical tools and factual knowledge that are necessary to identify and assess current and future threats to national security.

3310H Honors Defense Policy and National Security U 3

This course addresses some of the basic issues surrounding national security policy. The primary focus is on policy issues related to the use of force between and within countries. The goal of the course is to provide the student with the analytical tools and factual knowledge that they will need to identify and assess current and future threats to national security. Prereq: Honors standing, and PolitSc 1300 (145) or 2300 (245); or permission of instructor. Not open to students with credit for 3310.

3380 Political Analysis of International Economic Relations U 3

Examines the relationship between political and economic events in the international system; topics include global interdependence, inequality, scarce resources, and periphery nation strategies. Prereq: Not open to students with credit for 4380.

3420 Political Theories of Democracy U 3

An examination of theories of democracy, focusing on normative and descriptive dilemmas such as participation versus liberty in democratic societies. Prereq: 2400 (210). Not open to students with credit for 571.

3430 Political Theories of Freedom U 3

Provides an overview of the various ways in which the value of human freedom has been understood and pursued in political life. Prereq: 2400 (210). Not open to students with credit for 570.

3440 Political Theories of Justice U 3

Focuses on debates among political theorists about the meaning of justice; "What is justice?" and "How might we order our world justly?" Prereq: 2400 (210). Not open to students with credit for 572.

3450 Ethics and Public Policy U 3

Contemporary approaches to public policy evaluation and their ethical foundations, including efficiency, security, rights, welfare, and equity. Prereq: Not open to students with credit for 304.

3460 Global Justice U 3

Examines the idea of justice between states and among the people of the world. What would a just world look like? How should we live in our unjust world? Current debates about war, the environment, diversity and poverty will be considered. GE theme citizenship for div and just wrld and migration, mobility, and immobility course.

3500 Political Games: Rational Choice Theory and the Study of Politics U 3

Are political outcomes and institutions the result of decision-making by rational, self-interested political actors? This course explores how the assumption of individual rationality has shaped the field of political science.

3549 Survey Research in Political Science U 3

The conducting of public opinion polls. Prereq: Not open to students with credit for 449, 581, or Comm 449.

3596 Nationalism and Ethnicity U 3

Explores socio-political identities, especially ethnicity and nationality, from a comparative perspective. Drawing upon theories from political science, psychology, anthropology, sociology, and economics, we will study the origins and characteristics of these identities, as well as their consequences for democracy, economic development, and violent conflict. GE soc sci indivs and groups and cross-disciplinary seminar course. GE foundation social and behavioral sci course.

3780 Data Literacy and Data Visualization U 3

Introduction to the tools of data analysis in political science, with an emphasis on data visualization. GE data anyl course. GE foundation math and quant reasoning or data anyl course.

3780H Data Literacy and Data Visualization U 3

Most social science debates can be addressed with data, and sources of data are growing exponentially. This course introduces students to tools of data analysis and principles behind their use in the context of social-science applications. GE data anyl course. GE foundation math and quant reasoning or data anyl course.

3785 Data Science for the Social and Behavioral Sciences U 3

Introduction to new issues in data science, including big data, machine learning, network interdependencies, and automated extraction of meaning from widely varied sources of data.

366 Political Science

3798 Field Research Methods for Politics & Development in Africa: Education Abroad in Malawi U 3

This education abroad course focuses on research methodologies used to understand political and economic outcomes in Africa. The course will be especially useful for undergraduate students who plan to conduct research or design programs and interventions in the developing world.

3905 Political Manipulation U 3

Examines how political actors manipulate the rules and the salience and availability of information to shift political outcomes in their favor. Prereq: Not open to students with credit for 577.

3910 Identity Politics U 3

Explores who controls the meaning of identity in society; examining identity from the perspective of liberal, sociological, and social psychological, structuralist, and institutionalist theories. Prereq: Not open to students with credit for 547.

3912 Political Leadership U 3

Establishment of a working definition of political leadership, investigation of recruitment of leaders, analysis of major functions political leaders perform, and assessment of consequences of political leadership. Prereq: 1100 (100), 1200 (101), or 3100 (300). Not open to students with credit for 612.

4110 The American Presidency U 3

An examination of the American presidency, emphasizing the contemporary role of the president, the institutionalized presidency, and theories of presidential behavior. Prereq: Not open to students with credit for 501.

4115 Bureaucracy and Public Policy U 3

An examination of bureaucracies as political institutions, and a consideration of their role in several areas of public policy implementation. Prereq: Not open to students with credit for 510.

4120 U.S. Congress U 3

Analysis of legislatures and legislators, with a focus on the U.S. Congress and some attention to state legislatures and representative assemblies in other countries. Prereq: Not open to students with credit for 517. GE soc sci orgs and politics course. GE foundation social and behavioral sci course.

4123 Political Crisis and Reform U 3

A survey of previous episodes of major reform in American politics, focusing on strategies used by reformers, evaluating the policy and political impact of their reforms, and applying lessons from these cases to contemporary political problems. GE historical study and soc sci orgs and politics course. GE foundation historical and cultural studies and social and behavioral sci course.

4125 American State Politics U 3

Comparative analysis of politics in the American states.

4126 Ohio Politics U 3

Examination of state politics with special reference to Ohio. Prereq: Not open to students with credit for 506.

4127 Governing Urban America U 3

This course will examine the major problems facing urban communities in the 21st Century; the economic, social, and political forces that have historically shaped - and continue to influence - their development; the role of government in addressing urban problems; and the major participants and stakeholders in city politics. Prereq: Not open to students with credit for 505.

4127H Governing Urban America U 3

This course will examine the major problems facing urban communities in the 21st century; the economic, social, and political forces that have historically shaped--and continue to influence--their development; the role of government in addressing urban problems; and the major participants and stakeholders in city politics. Prereq: Honors standing. Not open to students with credit for 4127 (505).

4130 Law and Politics U 3

Analysis of the roles of judges and lawyers as participants in the American political process; analysis of courts as political institutions. Prereq: Not open to students with credit for 516.

4131 American Supreme Court U 3

This course focuses on the U.S. Supreme Court as an institution and emphasizes the ways in which its formal and informal norms and structures shape the nature and content of the law the Court makes.

4132H Supreme Court Decision Making U 3

Study of explanations for Supreme Court decisions; use of those explanations and independent research to predict justices' positions in current cases. Prereq: Honors standing or permission of instructor. Not open to students with credit for 521H.

4135 American Constitutional Law U 3

Assessment of the contemporary realities of U.S. governmental authority as interpreted by the judiciary; emphasis on judicial review, case and controversy requirements, and legislative and executive power. Prereq: Not open to students with credit for 520.

4136 Civil Liberties U 3

An examination of civil liberties decisions by American courts, their legal and political bases, and their effects on government and society. Prereq: Not open to students with credit for 519.

4137 The Politics of Legal Decision Making U 3

An examination of the literature relating social-science theories and research to the law, focusing on the criminal justice system. Prereq: Not open to students with credit for 515.

4138 Women and the Law U 3

An examination of the legal status of women and the ways in which law affects the situation of women in American society. Prereq: Not open to students with credit for 514.

4139 Gun Politics U 3

Examination of the arguments and issues surrounding gun control in the United States. Prereq: Not open to students with credit for 518.

4139E Gun Politics U 3

Examination of the arguments and issues surrounding gun control in the United States. Prereq: Not open to students with credit for 4139 (518).

4140 Black Politics U 3

Economic, political, and social constraints on the development of black political power; the efforts made by black people in recent times to organize for effective political action. Prereq: Not open to students with credit for 504 or AfAmAst 4504 (504). Cross-listed in AfAmAst 4504.

4143 Race, Ethnicity, and American Politics U 3

The goal of this course is to explore, discuss, and better understand the relationship between perceptions of racial identity, attributions of racial difference, and politics, broadly defined.

4150 American Political Parties U 3

Theories of political parties, party organization, individual voting behavior, nomination and electoral politics, the party in government. Prereq: Not open to students with credit for 575. GE soc sci orgs and politics course. GE foundation social and behavioral sci course.

4152 Campaign Politics U 3

The organization and strategy of American political campaigns; practical politics seen in the light of knowledge about political behavior and public opinion. Prereq: Not open to students with credit for 502.

4160 Public Opinion U 3

Origins and nature of political attitudes; the content of public opinion; the public's influence on policy-making. Prereq: Not open to students with credit for 503.

4164 Political Participation and Voting Behavior U 3

A study of political participation and its correlates, determinants of the vote decision, and analysis of recent American elections. Prereq: Not open to students with credit for 574.

4165 Media and American Politics U 3

This course presents the modern study of the media and its role in the American political system, including supply and demand pressures and how they affect media content, its effects on citizens, and the emerging role of social media in politics. Prereq: Not open to students with credit for 509.

4170 Gender and Politics U 3

An examination of women's participation in political activity, including changes over time in women's political roles and comparison with the roles of men. Prereq: Not open to students with credit for 512.

4175 Women, Government, and Public Policy U 3

An examination of policymaking on gender-related issues and the impact of women in government. Prereq: Not open to students with credit for 513 or WGSSt 4513 (513). Cross-listed in WGSSt 4513.

4191 Internship U 0 - 10

Combines experience in political institutions or policy processes with analysis of that experience in light of relevant scholarly literature. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 3 completions.

4193 Individual Studies U 1 - 10

Students will devote their time to special projects including papers, exams and practical political experience. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

4200 Politics of Modern Democracies U 3

A survey of the basic institutions and politics of modern democracies, with emphasis on representativeness and democratic stability. Prereq: Not open to students with credit for 535.

4210 Politics of European Integration U 3

A survey of the politics of European integration since the Second World War; topics include theories of political integration, institutions of the EU, its policies and decision making, common currency, and internal and external relations. Prereq: Not open to students with credit for 528.

4218 Russian Politics U 3

Survey of the politics of Russia and the former soviet states with emphasis on democratization, economic reform, institutional development, elites, mass behavior, and ideology. Prereq: Not open to students with credit for 533.

4240 Latin American Politics U 3

A study of political processes, institutions, and groups in Latin America, with emphasis on constitutional, geographical, social, and economic environments in which they operate. Prereq: Not open to students with credit for 540.01.

4242 Incomplete Democracies U 3
 Explores various forms of violence including electoral violence and political assassination, organized crime, police brutality, and other human rights abuses in Latin America. Prereq: Soph standing or above. Not open to students with credit for 542 or IntStds 4242 (542). Cross-listed in IntStds.

4245H Democratic Erosion U 3
 How do democracies become less democratic? This course will explore the causes and consequences of democratic breakdown in countries around the world and over time. Prereq: Honors standing, or permission of instructor.

4249 Domestic Politics of International Conflict U 3
 Examination of war and the impact of domestic politics on the war-making decision; influence of domestic institutions and public opinion on leaders' ability/willingness to wage war. Prereq: Not open to students with credit for 579.

4250 African Politics U 3
 An introductory survey of Sub-Saharan African politics from the pre-colonial period to the contemporary era. It will examine the common themes, issues, and trends that shape politics and development across forty-nine countries. Students will gain an understanding of how context shapes political behavior and how historical and political forces have influenced African politics. Prereq: Not open to students with credit for 4597.02 (Au13, African Politics), 4250H, or AfAmASt 4250. GE soc sci orgs and polities and diversity global studies course. Cross-listed in AfAmASt.

4270 The Canadian Political System U 3
 The Canadian political system, including institutional, behavioral, socio-economic, cultural, and ideological components, often in comparison with the United States' political system. Prereq: Not open to students with credit for 527.

4282 The Politics of Income Inequality U 3
 Introduces fundamental politics of income inequality and redistribution, including social policy development, redistributive policy differences between countries, and popularity of differing welfare programs. Prereq: Not open to students with credit for 582.

4285 The Comparative Politics of the Welfare State U 3
 Analyzes different kinds of welfare capitalism including social, economic, and political considerations shaping welfare policy; and contemporary welfare reform as an exercise in reallocation, reorganization, and budget-cutting. Prereq: Not open to students with credit for 578.

4300 Theories of International Relations U 3
 Various theories of world politics, such as realism, liberalism, long cycles, domestic and bureaucratic politics, and decision-making level theory. Prereq: 1300 (145). Not open to students with credit for 550.

4305 International Theory U 3
 Various theories of world politics, such as realism, liberalism, long cycles, domestic and bureaucratic politics, and decision-making level theory. Prereq: 1300 (145).

4310 Security Policy U 3
 National security and military policy issues and trends since 1945; covers containment, deterrence, Vietnam, nuclear weapons, terrorism, and globalization. Prereq: Not open to students with credit for 552.

4315 International Security and the Causes of War U 3
 Examines various issues regarding international conflict and cooperation, including theories of strategic interaction and the causes of war. Prereq: Not open to students with credit for 544.

4318 The Politics of International Terrorism U 3
 Examines international terrorism's concepts and actors, the motivations and causes of terrorism, the experience of the United States, and tensions between freedoms and security. Prereq: Not open to students with credit for 548.

4320 Strategies for War and Peace U 3
 Examination of how political leaders make decisions, emphasizing such issues as leaders' reasoning processes and the impact of public opinion and foreign policy bureaucracies. Prereq: Not open to students with credit for 545.

4326 Russian Foreign Policy U 3
 Basic concepts about, and choices in, Russian foreign policy; development and presentation of patterns of relations with key nations; major problems in future relationships. Prereq: Not open to students with credit for 555.

4327 Politics in the Middle East U 3
 Politics of Arab-Israeli relations, Persian Gulf, Islamic fundamentalism, and oil; processes of change and their effects on governments and international relations. Prereq: Not open to students with credit for 546.

4330 Global Governance U 3
 Examination of emergence and form of global governance, including questions of legitimation, democratization, and enforcement; as well as collective security, humanitarian intervention, and proliferation. Prereq: Not open to students with credit for 556.

4331 The United Nations System U 3
 Activities and potential of the United Nations system in promoting economic well-being, environmental management, resource sharing, social justice, and control of violence. Prereq: Not open to students with credit for 551.

4332 Politics of Globalization U 3
 Examines globalization's origins, impacts on human welfare, and political conflicts that arise from it, including actions of governments, multinational corporations, and the anti-globalization movement. Prereq: Not open to students with credit for 557.

4335 International Environmental Politics U 3
 Theories and debates over sustainable development, environment, and security, and effectiveness of international regimes with a focus on international fisheries management and global climate change. Prereq: Not open to students with credit for 559.

4381 Comparative International Political Economy U 3
 A survey of foreign economic policies followed by European and other advanced industrial economies since the Napoleonic Wars, with a special emphasis on Britain, France, Germany, the United States, and Japan. Prereq: Not open to students with credit for 554.

4385 Quantitative Studies of International Conflict U 3
 Acquaints students with the quantitative literature on conflict and war. Prereq: 4781 or equiv. Not open to students with credit for 4385E.

4385E Quantitative Studies of International Conflict U 3
 Acquaints students with the quantitative literature on conflict and war. Prereq: 4781 or equiv. Not open to students with credit for 4385.

4420H Debating Democracy U 3
 Intensive examination of theories of democracy, focusing on normative and descriptive dilemmas such as participation versus liberty in democratic societies. Prereq: Honors standing or permission of instructor. Not open to students with credit for 565H.

4455 Human Rights U 3
 Examines human rights, including the United Nations Declaration on Human Rights; coercive enforcement of rights; as well as hunger, violence, persecution, and economic rights. Prereq: Not open to students with credit for 564.

4465 Feminist Political Theory U 3
 Examines concepts in feminist political theory including the articulation of feminism, the subjects of feminist theory, the relation of race, class and sexuality to gender experience, and the use of feminist theory to transform conceptions of justice. Prereq: Not open to students with credit for WGSSt 4465. Cross-listed in WGSSt.

4553 Game Theory for Political Scientists U 3
 Provides entry-level understanding of the basic concepts of game theory and how these concepts are applied to the study of political phenomena. Prereq: Not open to students with credit for 587.

4553H Game Theory for Political Scientists U 3
 Provides entry-level understanding of the basic concepts of game theory and how these concepts are applied to the study of political phenomena. Prereq: Not open to students with credit for 4553 (587).

4597.02 Political Problems of the Contemporary World U 3
 Critical political problems of industrialized and developing societies, including governmental legitimacy, conflict and violence, social welfare, equality, and economic development. Prereq: Jr or Sr standing. Not open to students with credit for 597.02, 597.02E, or 597.02H. GE cross-disciplinary seminar course.

4597.02H Political Problems of the Contemporary World U 3
 Critical political problems of industrialized and developing societies, including governmental legitimacy, conflict and violence, social welfare, equality, and economic development. Prereq: Honors standing or permission of instructor; and Jr or Sr standing. Not open to students with credit for 597.02, 597.02H, or 597.02E. GE cross-disciplinary seminar course.

4597.03 Gender and Democracy in the Contemporary World U 3
 Highlighting perspectives from various contexts across the globe, this course explores issues of gender and democracy in the contemporary world. Prereq: Sr standing, or permission of instructor. Not open to students with credit for 597.03 or WGSSt 4597 (597). GE cross-disciplinary seminar course. Cross-listed in WGSSt 4597.

4780 Thesis Research Colloquium U 3
 Designed for Political Science majors writing senior theses. We will study the elements of a successful research paper including how to formulate a question, how to identify the right method for investigating it, and how to conduct research. Concur: Second semester Jr standing, or permission of instructor.

4781 Data Analysis in Political Science I U 3
 Covers basic techniques for analyzing data in political science. Prereq: Math 1151 and one course in PolitSc at the 3000 level or above; or permission of instructor. Not open to students with credit for 485, 4781H (485H), 585, or 585H. GE data only course. GE foundation math and quant reasoning or data anyl course.

4782 Data Analysis in Political Science II U 3
 Covers advanced techniques for analyzing data in political science. Prereq: Math 1151 and 4781 (485), or permission of instructor. Not open to students with credit for 586.

368 Political Science

4784	Complexity Science and the Study of Politics	U	3
Familiarize students with agent-based models and complexity science to better understand political behavior. Prereq: 3780 or 4781, or permission of instructor. Not open to students with credit for 4784E.			
4784E	Complexity Science and the Study of Politics	U	3
Familiarize students with agent-based models and complexity science to better understand political behavior. Prereq: 3780 or 4781, or permission of instructor. Not open to students with credit for 4784.			
4891	Topics in American Politics	U	3
Selected topics in American politics; topics vary by section and instructor. Repeatable to a maximum of 6 cr hrs.			
4892	Topics in Comparative Politics	U	3
Selected topics in comparative politics; topics vary by section and instructor. Repeatable to a maximum of 6 cr hrs.			
4893	Topics in International Politics	U	3
Selected topics in international politics; topics vary by section and instructor. Repeatable to a maximum of 6 cr hrs.			
4893H	Honors Seminar in International Politics	U	3
Intensive study of selected political science topics and issues in a seminar format; topics vary. Prereq: Honors standing or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
4894	Topics in Political Theory	U	3
Selected topics in political theory; topics vary by section and instructor. Repeatable to a maximum of 6 cr hrs.			
4894H	Honors Seminar in Political Theory	U	3
Intensive study of selected political science topics and issues in a seminar format; topics vary. Prereq: Honors standing or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
4920	Politics in Film and Television	U	3
Political films and TV shows often convey an understanding of the political world. How films portray the political process may influence society's attitudes toward politicians and government. Students will compare the portrayal of politics in films and TV to the reality as understood through political science. This is not part of the Film Studies major and does not count toward requirements. Prereq: Not open to students with credit for 4920H.			
4920H	Politics in Film and Television	U	3
Political films and TV shows often convey an understanding of the political world. How films portray the political process may influence society's attitudes toward politicians and government institutions. Students will compare the portrayal of politics in films and TV to the reality as understood through political science. This is not part of the FilmStd major and does not count toward requirements. Prereq: Honors standing. Not open to students with credit for 4920.			
4940	The Politics of Immigration	U	3
Provides overview of international migration phenomenon: patterns of international migration, reasons for immigration, acceptance of immigrants by governments and public, dynamics of anti-immigrant sentiment. Prereq: Not open to students with credit for 543.			
4998	Undergraduate Research in Political Science	U	1 - 10
Undergraduate research in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
4999	Undergraduate Thesis Research	U	2 - 4
Thesis research with thesis adviser. Minimum of two semesters required of candidates for BA with research distinction in political science. Must meet standards for graduation with research distinction. Prereq: Sr standing, and enrollment in PolitSc major, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
4999H	Honors Thesis Research	U	2 - 4
Honors thesis research with thesis adviser. Minimum of two semesters required of candidates for BA with distinction in political science. Prereq: Honors standing, and Sr standing, and enrollment in Political Science major, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
5000	Quantum Mind and Social Science	U G	3
Examines the growing, if still speculative, possibility that consciousness and therefore society are macroscopic quantum mechanical phenomena. If that's right, today's social sciences are based upon a fundamental mistake since they assume that human beings are classical machines. Replacing classical assumptions in social science with quantum ones would be a revolution in thought. Prereq: Permission of instructor.			
5411	Justice, Sin, and Virtue: Ancient & Medieval Political Thought	U G	3
This course focuses on foundational texts in western political thought: from ancient Athens, republican and imperial Rome, the Christian middle ages, and the Italian Renaissance. These works deal with themes that remain central in modern political life, including social justice, political action and religious faith, and the struggle between civic virtue and self-interest. Prereq: Not open to students with credit for 4411 (470), or 6411 (670).			

5412	Life, Liberty, and Property: Early Modern Political Thought	U G	3
Why do we have government? What are the proper limits of its authority? What should we do when its demands conflict with our moral or religious beliefs? These questions lie at the center of early modern political thought, and gave rise to the idea of the social contract. Prereq: Not open to students with credit for 4412 (471) or 6412 (671).			
5413	Democracy, Equality & Revolution: 19th Century Political Thought	U G	3
This course examines some of the earliest and most influential attempts to wrestle with the practical implications of living in a world where people were not only considered equal in theory, but were becoming equal in fact. Topics of discussion will include the relationship between liberty and equality, individualism and conformity, alienation and exploitation, and morality and power. Not open to students with credit for 6413 (672) or 4413 (472).			
5414	Liberalism, Totalitarianism, and Empire: 20th Century Political Thought	U G	3
The 20th century was a time of unprecedented transformations: world wars, genocide, the collapse of colonialism and the spread of capitalism. This course examines the political theories that contributed to these developments as well as efforts to understand these changes. Prereq: Not open to students with credit for 4414 (473) or 6414 (673).			
5797	Study at a Foreign Institution	U G	1 - 10
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Repeatable to a maximum of 30 cr hrs or 15 completions. This course is progress graded.			
6194.01	Contemporary Political Problems	G	3
Contemporary political problems. Repeatable to a maximum of 18 cr hrs or 6 completions.			
6194.02	Contemporary American Political Problems	G	3
Contemporary political problems. Repeatable to a maximum of 18 cr hrs or 6 completions.			
6194.03	Contemporary Comparative Political Problems	G	3
Contemporary political problems. Repeatable to a maximum of 18 cr hrs or 6 completions.			
6194.04	Contemporary International Political Problems	G	3
Contemporary political problems. Repeatable to a maximum of 18 cr hrs or 6 completions.			
6194.05	Contemporary Theoretical Political Problems	G	3
Contemporary political problems. Repeatable to a maximum of 18 cr hrs or 6 completions.			
6350	Politics of Global Climate Change	G	3
Climate change is among the most important challenges of our time and is the subject of heated political debate within and across countries. This course provides an advanced overview of the politics of climate change, with an emphasis on its international and global dimensions. Prereq: Grad standing.			
7000	Foundations of Political Science	G	3
Introductory study of diverse efforts to ground knowledge of politics, positivist, and post-positivist views of science, sources of formal rigor, and interpretation and evaluation. Prereq: Not open to students with credit for 790.			
7095.01	Teaching Political Science	G	3
Examination of issues in teaching political science in colleges and universities, and preparation for teaching careers.			
7095.02	Prospectus and Professional Development	G	3
Advanced course to prepare graduate students to write dissertation prospectus.			
7100	Foundations of American Politics	G	3
Introduction to central research areas and literature of the field of American politics. Prereq: Not open to students with credit for 709.			
7120	Legislative Politics	G	3
Analysis of the functioning and policy product of American legislatures; intensive reviews of selected aspects of the legislative literature to be conducted. Prereq: Not open to students with credit for 717.			
7125	Federalism	G	3
Examination of how multi-level governance shapes the incentives of political elites and affects the ability of voters to hold officials accountable. Covers both American and comparative politics topics and substantive questions dealing with political institutions and mass behaviors. Prereq: Not open to students with credit for 704.			
7140	Race and Ethnicity	G	3
An examination of the role of race and ethnicity in American politics, including public opinion, political incorporation, electoral behavior, and minority representation. Prereq: Not open to students with credit for 707.01 or 707.02.			
7160	Public Opinion	G	3
Intensive analysis of literature on selected topics in public opinion. Prereq: Not open to students with credit for 703.			

7175	Intersectionality and Identity Politics in the United States	G	3
This course is designed to examine the continued significance of race and ethnicity in American society with a focus on racial attitudes, identity, public opinion, and inter-group dynamics.			
7193.01	American Politics	G	1 - 10
Individual studies in political science; student work is evaluated by papers and/or special examinations. Repeatable to a maximum of 36 cr hrs or 36 completions. This course is graded S/U.			
7193.02	Comparative Politics	G	1 - 10
Individual studies in political science; student work is evaluated by papers and/or special examinations. Repeatable to a maximum of 36 cr hrs or 36 completions. This course is graded S/U.			
7193.03	International Politics	G	1 - 10
Individual studies in political science; student work is evaluated by papers and/or special examinations. Repeatable to a maximum of 36 cr hrs or 36 completions. This course is graded S/U.			
7193.04	Political Theory	G	1 - 10
Individual studies in political science; student work is evaluated by papers and/or special examinations. Repeatable to a maximum of 36 cr hrs or 36 completions. This course is graded S/U.			
7193.05	Political Methodology	G	1 - 10
Individual studies in political science; student work is evaluated by papers and/or special examinations. Repeatable to a maximum of 36 cr hrs or 36 completions. This course is graded S/U.			
7200	Basic Theories in the Study of Comparative Politics	G	3
Examination of such concepts and theories as structural-functional analysis, general systems theory, and sociocultural systems as determinants of governmental structures. Prereq: Not open to students with credit for 725.			
7201	Theories of Comparative Politics II: Identities, Mobilization and Institutions	G	3
This course focuses on identities, mobilization, and institutions, broadly defined.			
7205	Democratic Transitions	G	3
Theoretical examination of the dynamics of the transition from authoritarian to democratic regimes, with special attention to southern Europe and South America. Prereq: Not open to students with credit for 744.			
7206	Comparative Political Institutions	G	3
Study of state building process, regime types, and contemporary governmental institutions from a broad cross-national perspective. Prereq: Not open to students with credit for 776.			
7208	State-Building	G	3
Where do national states come from? How strong are they? Course surveys contemporary answers to both questions, examining political, military-strategic, ecological, and cultural explanations for formation and development of national states in Europe. Prereq: Not open to students with credit for 726.			
7220	The Politics of the Developing World	G	3
Theories, approaches, and methods in the analysis of political life in Asia, Africa, and Latin America; discussion of selected case and cross-national studies with theoretical importance. Prereq: Not open to students with credit for 741.			
7260	Authoritarian Politics	G	3
Familiarizes students with basic theoretical and empirical approaches to the study of authoritarian politics; introduces classic and cutting edge research.			
7280	Comparative Political Economy	G	3
A graduate-level course designed to survey contemporary theories on the interaction between economic policies, domestic institutions, the international economy, and their consequences on the macroeconomy. Prereq: Not open to students with 1 completion for 7280 (735). Repeatable to a maximum of 6 cr hrs. Cross-listed in Econ 6745.			
7281	The Political Economy of Income Inequality, Volatility, and Mobility	G	3
Examines patterns, political and institutional foundations, and consequences of income inequality, volatility, and mobility, plus dynamic aspects of income distributions. Prereq: Not open to students with credit for 781.			
7300	Theories of International Relations	G	3
Examination of such basic concepts and theories as equilibrium models, balance of power, national interest, geopolitical configurations. Prereq: Not open to students with credit for 745.			
7310	Security Policy	G	3
Theories of conflict and war causation and an assessment of their durability in a new era of world politics. Prereq: Not open to students with credit for 752.			
7312	Critical Security Studies	G	3
Introduces students to the Political Science subfield of Critical Security Studies (CSS). Prereq: Not open to students with credit for 8194.03 (Sp15, Critical Security).			

7315	Conflict and Peace	G	3
Sources and types of social conflict with special attention to international violence; causes of war; their avoidance and control. Prereq: Not open to students with credit for 751.			
7317	Consequences of War	G	3
Examines theoretical and empirical literature in Political Science on war, peace, and security with focus on the legacies of war.			
7320	Foreign Policy Design	G	3
Problems of designing foreign policy, including organizational, contextual, economic, and public opinion constraints; how to create an information retrieval system to aid decision-making. Prereq: Not open to students with credit for 756.			
7334	International Organization: Rationalist Approaches	G	3
Comprehensive view of international governmental, non-governmental, and business organizations; their roles in solving problems such as poverty, war, pollution; particular attention to the United Nations system. Prereq: Not open to students with credit for 759.			
7336	International Order	G	3
Discussion of the leading books written on the subject of international order.			
7340	Social Theories of International Relations	G	3
An examination of the main themes, debates, and social theories of world politics. Prereq: Not open to students with credit for 748.			
7375	Quantitative Studies of International Security	G	3
Survey of quantitative empirical studies of war, civil war, militarized disputes, and conflict. Prereq: 7553 (786). Not open to students with credit for 849.			
7380	Theories of International Political Economy	G	3
Contemporary literature in international political economy; its ties to classical schools of thought in international relations and political economy; points of contention between them. Prereq: Not open to students with credit for 753.			
7400	Fundamental Concepts in Political Theory	G	3
A graduate survey of the scope, concepts, and methods of political theory, examining important debates throughout political science through works of both canonical and contemporary thinkers. Prereq: Not open to students with credit for 763.			
7410	Radical Cosmopolitanism	G	3
The notion of cosmopolitanism has enjoyed renewed interest among political and critical theorists. This course engages critically with Immanuel Kant's classic account and examines its roots and anthropological commitments seriously and puts it in dialogue with colonial and post-colonial intellectuals, including W. E. B. Du Bois who thought systematically about justice beyond the nation. Prereq: Not open to students with credit for 7499 (Au 2015).			
7499	Selected Topics in Political Theory	G	3
Intensive joint readings and discussions concentrating upon one of the major themes, problems, or movements in political theory; topic information available from instructor. Prereq: Not open to students with credit for 766.			
7551	Quantitative Political Analysis: I	G	3
Explication, interpretation, and application of techniques for quantitative analysis of political data; descriptive and inferential statistics, with emphasis on bi-variate analysis. Prereq: Not open to students with credit for 685.			
7552	Quantitative Political Analysis: II	G	3
Descriptive and inferential statistics with emphasis on multivariate analysis; additional topics offered as desired and possible: scaling, index construction, sampling, measurement reliability. Prereq: 7551. Not open to students with credit for 686.			
7553	Quantitative Political Analysis: III	G	3
A continuation of subjects begun in 7552, including such topics as scaling, index construction, sampling, and measurement reliability. Prereq: 7551 and 7552. Not open to students with credit for 786.			
7555	Causal Mechanisms	G	3
A survey of causal mechanisms in political science, including models of processes, equilibration, optimization, learning, integration, aggregation, evolution, complexity, and universal, contextual, and synthetic models.			
7560	Inferential Network Analysis	G	3
This course presents inferential statistical models for network data in detail. The course will integrate theoretical discussions with practical examples and software code to perform analyses.			
7681	Formal Theories of Politics I	G	3
Major approaches used in modeling politics, including social choice, game theory, and probability models. Prereq: Not open to students with credit for 680.			
7700	Foundations of Political Psychology	G	3
Overview of the field of political psychology; causes, dynamics, and consequences of human thinking and action in politics. Prereq: Not open to students with credit for 806.			
7702	Survey and Questionnaire Design	G	3
Theories of the survey research response process and their implications for question wording and question order effects. Prereq: Not open to students with credit for 702.			

370 Political Science

7720	Political Psychology and International Relations	G	3
A seminar introducing students to theories of international relations that employ psychological perspectives; cognitive world views and political identity, especially nationalism, receive special attention. Prereq: Not open to students with credit for 761.			
7780	Political Science Research Methods	G	3
Introduction to political science research with emphasis on survey and experimental designs, data generation techniques, data processing, and computer utilization. Prereq: Not open to students with credit for 684.			
7781	Text as Data	G	3
Social interaction and conflict comprises the artful (and sometimes painfully in-artful) use of language. This course explores emerging statistical methods for extracting important signals from language stored as text. Topics include text collection and processing; dictionary methods; topic modeling; document clustering; deep learning; and concomitant computational and mathematical challenges.			
7785	Experimental Design	G	3
Experimental methods appropriate for research in political psychology. Prereq: Not open to students with credit for 805.			
7788	Selected Topics in Political Methodology	G	3
An intensive examination of special topics in political methodology. Repeatable to a maximum of 12 cr hrs.			
7789	Survey Research Practicum	G	3
Hands-on applications for students interested in the planning, implementation, and analysis of a scientific sample survey. Prereq: Enrollment in graduate interdisciplinary specialization in survey research or permission of instructor. Not open to students with credit for 7789 or 789 in AEDecon, AgrEduc, BusML, Econ, EduPL, Geog, Comm, PolitSc, Psych, PubHlth, PubAfrs, Sociol, or Stat. Cross-listed in Econ, Comm, and Stat.			
7888	Field Research Methods	G	3
This seminar introduces students to various field methods for developing and testing theories in political science.			
7905	Political Institutions	G	3
This class is an entry-level graduate class into the study of political institutions. The class aims to provide an overview of the field and a foundation upon which students can begin to teach themselves additional works in this literature.			
7910	Identity Politics	G	3
Explores origins, reproduction, and effects of social identity from perspectives of self, group, society, and state. Includes examination of nation, ethnicity, gender, and race in identity politics. Prereq: Not open to students with credit for 737.			
7999	Research for Thesis in Political Science	G	1 - 12
Research for thesis purposes only. Repeatable to a maximum of 48 cr hrs or 16 completions. This course is graded S/U.			
8000	Writing and Publishing in Political Science	G	3
Students work on a pre-existing draft of a paper and develop a polished piece of research suitable for journal submission.			
8194.01	Contemporary Political Problems: US	G	3
Group studies to examine specific contemporary problems in American politics. Repeatable to a maximum of 21 cr hrs.			
8194.02	Contemporary Political Problems: Comparative	G	3
Group studies to examine specific contemporary problems in comparative politics. Repeatable to a maximum of 21 cr hrs.			
8194.03	Contemporary Political Problems: International	G	3
Group studies to examine specific contemporary problems in international politics. Repeatable to a maximum of 21 cr hrs.			
8194.04	Contemporary Political Problems: Political Theory	G	3
Group studies to examine specific contemporary problems in political theory. Repeatable to a maximum of 21 cr hrs.			
8194.05	Contemporary Political Problems: Methodology	G	3
Group studies to examine specific contemporary problems in political-science methodology. Repeatable to a maximum of 21 cr hrs.			
8194.06	Contemporary Political Problems	G	3
Group studies to examine specific contemporary political problems. Repeatable to a maximum of 21 cr hrs.			
8781	Research in American Politics	G	3
Development and execution of a research design on a selected topic in American politics; consultation on substantive and methodological problems offered by faculty. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
8782	Comparative Politics Research Seminar	G	3

Research seminar on various topics in comparative politics. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

8783	Research in International Politics	G	3
-------------	---	----------	----------

Research seminar on various topics in international politics. Prereq: Not open to students with 12 cr hrs for 846. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

8784	Research in Political Theory	G	3
-------------	-------------------------------------	----------	----------

Research seminar in political theory. Prereq: Not open to students with 12 cr hrs for 866. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.

8999	Dissertation Research in Political Science	G	1 - 12
-------------	---	----------	---------------

Research for dissertation purposes only. Repeatable. This course is graded S/U.

Portuguese

1101.01	Portuguese I	U	4
----------------	---------------------	----------	----------

Development of listening, reading, speaking, and writing skills in cultural contexts. Both classroom-based and 100% online sections available each semester. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: Not open to students with credit for 1102.01 or 1103.01 or equiv. This course is available for EM credit. GE for lang course. GE world languages course.

1102.01	Portuguese II	U	4
----------------	----------------------	----------	----------

Development of listening, reading, speaking, and writing skills in cultural contexts. Both classroom-based and 100% online sections available each semester. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01 or 1101.51. Not open to students with credit for 1102.51 or 5501. This course is available for EM credit. GE for lang course. GE world languages course.

1103	Portuguese III	U	4
-------------	-----------------------	----------	----------

Continued development of listening, reading, speaking, and writing skills in cultural contexts. Both classroom-based and 100% online sections available. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01. Not open to students with credit for 5501 or 5502. This course is available for EM credit. GE for lang course. GE world languages course.

2193	Individual Studies	U	1 - 9
-------------	---------------------------	----------	--------------

Independent study for subject matter not covered in regularly offered courses. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 59 completions. This course is graded S/U.

2194	Group Studies	U	1 - 9
-------------	----------------------	----------	--------------

Group Studies. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.

2330	Introduction to Brazilian Culture	U	3
-------------	--	----------	----------

Integrated, multidisciplinary overview of modern Brazilian culture in terms of its visual, plastic, musical, literary, dramatic, and popular arts within socio-economic and political context. Prereq: Not open to students with credit for Portuguese 330. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2331	Portuguese Culture and Society	U	3
-------------	---------------------------------------	----------	----------

Examines Portuguese culture, taking into account intersections with other cultural contexts (e.g., in Europe, Africa, Asia, and the Americas). Taught in English. Prereq: Not open to students with credit for Portuguese 331. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2335	Cannibal Brazil: Cultural Encounters and Negotiations of Identity in Literature and Culture	U	3
-------------	--	----------	----------

Explores a fundamental topic within Brazilian culture, from colonial times to present; cannibalism as cultural practice in both literal and discursive realms. Prereq: Not open to students with credit for 335. GE VPA course. GE foundation lit, vis and performing arts course.

2797	Topics in Foreign Study	U	1 - 9
-------------	--------------------------------	----------	--------------

Credit from study abroad for courses not offered by department at the GE level. Courses may be taught in Portuguese or English. Prereq: Permission of departmental study abroad advisor. Repeatable.

2798.10	Contemporary Issues in Brazil: Cultural, Environmental, & Racial Politics in the SE & NE Regions	U	3
----------------	---	----------	----------

Consists of lectures on special topics by the faculty of University of the UNESP-SJRP, and of ACBEU/Salvador, fieldtrips, and survival Portuguese classes. In Salvador, the course will explore some of the contemporary advances and challenges of the people of Bahia Brazil socially, culturally and environmentally. GE education abroad course.

3191	Internship & Career Exploration	U	1 - 6
-------------	--	----------	--------------

Internship for academic credit under employer supervision, with enrollment and grade evaluation by a faculty sponsor and program coordinator in the Dept. of Spanish & Portuguese. Student must obtain the internship and submit signed employer and department agreement prior to the start of the internship term. Enrollment in another academic department or college level internship course is not permitted during the same term. This course does not apply to the Portuguese Major or Minor program. Prereq: 1103 and 5502, and GPA of 2.50 or above, and Soph. Jr, or Sr standing, and permission of department. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

3401	Advanced Portuguese Grammar	U	3
In-depth examination of difficult points of Portuguese grammar; emphasis on comprehension of key grammatical concepts in the language. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: Portgse 1103.01 (Portgese 103.01 and 104.01) or 5502 (502), or equiv, or permission of instructor. Not open to students with credit for Portgese 401.			
3402	Portuguese Reading and Listening	U	3
Development of students' reading and listening skills through newspapers, magazines, radio and TV stories, and newscasts. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: Portgse 1103.01 (Portgese 104) or 5502 (502), or permission of instructor. Not open to students with credit for Portgese 402.			
3403	Portuguese Conversation and Composition	U	3
Intensive practice in conversation and composition based on short stories written by Lusophone authors with review of grammar. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: Portgse 1103.01 (Portgese 103.01 and 104.01) or 5502 (502), or equiv, or permission of instructor. Not open to students with credit for Portgese 202 or 403.			
3450	Introduction to the Study of Literatures and Cultures	U	3
Strategies for reading and extensive practice in analyzing literary and cultural texts from the Portuguese-speaking world. Prereq: Portgse 3401 (Portgese 401), 3402 (402), 3403 (403) or 5502 (502), or permission of instructor. Not open to students with credit for Portgese 450.			
4193	Individual Studies	U	1 - 9
Individual studies. Prereq: Portgese 3401 (Portgese 401), 3402 (402), 3403 (403); or 5502 (502) and Grad standing; or permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			
4194	Group Studies	U	1 - 9
Topics vary. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			
4510	Portuguese Translation	U	3
Advanced practice in Portuguese-to-English translation based primarily on the contemporary written Portuguese of Brazil and Portugal; emphasis on formal grammar and style. Prereq: Portgse 3401 (Portgese 401), or permission of instructor. Not open to students with credit for Portgese 510.			
4550	Literatures of the Portuguese Speaking World	U	3
In-depth study of a major topic or problem in the literatures and cultures of the Portuguese-speaking world (Portugal, Brazil, Lusophone Africa and Lusophone Asia). Prereq: 3450 (450) with a C- or better; or 5502 (502) and Grad standing; or permission of instructor. Repeatable to a maximum of 12 cr hrs.			
4560	Cultural Expressions of Portugal and Lusophone Africa	U	3
The culture of Portugal and Portuguese Africa from their founding to the present through the study of selected Portuguese-language literature, news, and film. Prereq: Portgse 3450 (Portgese 450); or 5502 (502), and Grad standing; or permission of instructor. Not open to students with credit for Portgese 560.			
4561	Cultural Expressions of Brazil	U	3
Study of the development of Brazilian culture through its Portuguese language, literature, folklore, music, art, and film; special emphasis on contemporary issues. Prereq: Portgse 3450 (Portgese 450); or 5502 (502), and Grad standing; or permission of instructor. Not open to students with credit for Portgese 561.			
4595	Special Topics in Foreign Study	U	1 - 9
Credit from study abroad for courses not offered by department but eligible for Portuguese major core. Arranged only with permission of Departmental study abroad adviser. Prereq: Portgse 3450 (Portgese 450); or 5502 (502), and Grad standing; or permission of instructor. Used only to convert Portgse 5797 (Portgese 697) credit to more appropriate level. Repeatable to a maximum of 59 cr hrs or 16 completions.			
4597.01	Coloniality and Postcoloniality in the Literatures of Portuguese and Portuguese-Speaking Africa	U	3
Focuses on literary representations of the Portuguese colonial experience in Africa in Portuguese and African texts, and their contribution to understanding contemporary postcolonial issues. Prereq: English 110. Not open to students with credit for Portgese 597.01. GE diversity global studies and cross-disciplinary seminar course.			
4597.02	Representing Identity in the Cinema of the Portuguese-Speaking World	U	3
How film in the contemporary Portuguese-speaking world (e.g., Brazil, Portugal, Angola) reflects on race, ethnicity, multiculturalism, and transnational contact. Prereq: English 110. Not open to students with credit for Portgese 597.02. GE diversity global studies and cross-disciplinary seminar course.			
4798	Study Tours	U	1 - 9
Study Tour. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			
4998H	Honors Research	U	1 - 9
Honors research. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			

4999	Research for Thesis	U	1 - 9
Undergraduate research for thesis. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			
4999H	Research for Honors Thesis	U	1 - 9
Topics vary based on research interests. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			
5191	Internship in Portuguese	U G	1 - 6
Use of advanced Lusophone linguistic & cultural skills in a professional training context or industry for academic credit under employer supervision, with enrollment and grade evaluation by a faculty sponsor and program coordinator in the Dept. of Spanish & Portuguese. Student must obtain an internship and submit signed employer and department agreement prior to the start of the internship term. Submission of a completed Internship Enrollment Application & Supervisor Agreement is required. Graduate students must obtain faculty advisor approval and confirm work hour commitment and duties each week of the internship term for enrollment in the appropriate number of credit hours. A maximum of 3 cr may be applied to the undergraduate major or minor program with Undergraduate Studies Committee approval. Prereq: 3450, and GPA of 2.50 or above, and Soph, Jr, or Sr standing, and permission of department. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
5501	Portuguese for Spanish Speakers I	U G	3
Rapid introduction to Portuguese language intended for students with at least high intermediate-level Spanish skills. Undergraduate and Graduate students with high-intermediate to advanced language skills in other Romance Languages may seek instructor permission to enroll. Prereq or concur: Spanish 3401, 3403, 3404, or 3413, or equiv, or permission of instructor. Not open to students with credit for Portgse 1101.01, 1102.01, 1103.01, or equiv. GE for lang course			
5502	Portuguese for Spanish Speakers II	U G	3
Continuation of 501; Portuguese language for students with at least intermediate-level Spanish skills. Prereq: 5501 (501). Not open to students with credit for 1101.01 (101.01), 1102.01 (102.01), 1103.01 (103.01) and 104.01, or equiv.			
5510	Literatures and Cultures in Portuguese, From the Middle Ages to Neoclassicism	U G	3
Overview of literature and culture in the Portuguese-speaking world from the twelfth to the eighteenth centuries. Prereq: 3450 (450) with a C- or better, or Grad standing; or permission of instructor.			
5520	Literatures and Cultures in Portuguese, from Romanticism to Modernism	U G	3
Overview of literatures and cultures of the Portuguese-speaking world in the nineteenth to the early twentieth centuries. Prereq: 3450 (Portgese 450) with a C- or better, or Grad standing; or permission of instructor.			
5530	Literatures and Cultures in Portuguese, from Modernism to the Present	U G	3
Overview of literatures and cultures of the Portuguese-speaking world in the early twentieth to the twenty-first centuries. Prereq: 3450 (Portgese 450) with a C- or better, or Grad standing; or permission of instructor.			
5611	The Portuguese Language	U G	3
Focus on the diversity of Portuguese. Examines the principal areas of linguistic variation in Portuguese and the main dialect differences between Brazil and Portugal. Students conduct basic analyses of linguistic data using computerized corpus tools for hypothesis-testing. Taught in Portuguese. Prereq: 3401 (401); or 5502 (502) and Grad standing; or permission of instructor. Not open to students with credit for Portgese 611.			
5650	Studies in Literatures and Cultures of the Portuguese-Speaking World	U G	3
Intensive exploration of a specific topic or problem; topic varies, for example: modern Brazilian novel, Luso-African literature, Portuguese poetry since 1974. Prereq: 3450 (P450) and one 4500 (500) level literature and/or culture course; or 5502 (502) and Grad standing; or permission of instructor. Not open to students with credit for 650. Repeatable to a maximum of 9 cr hrs.			
5797	Study at a Foreign Institution	U G	1 - 9
An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Repeatable.			
6193	Individual Studies	G	1 - 9
Individual studies. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			
6194	Group Studies	G	1 - 9
Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			
6999	Research for Thesis	G	1 - 9
Research for thesis. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.			

372 Portuguese

7440 Cinema of the Portuguese-Speaking World G 3

In-depth study of a major topic or problem in the cinema of the Portuguese-speaking world (Portugal, Brazil, Lusophone Africa, and Lusophone Asia). Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.

7500 Studies in Literatures and Cultures of the Portuguese-Speaking World G 3

In-depth study of topics in the literatures and cultures of Brazil, Portugal, Lusophone Africa, and Lusophone Asia. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs.

8193.01 Individual Studies G 1-9

Independent Study of a focused problem or topic in the literatures and cultures of the Portuguese-speaking world. Prereq: Permission of instructor. Repeatable. This course is progress graded S/U.

8193.02 PhD Exam Preparation G 1-9

Independent Study to prepare for upcoming PhD examination. Prereq: Permission of instructor. Repeatable to a maximum of 99 cr hrs. This course is graded S/U.

8194 Group Studies G 1-3

Group study of focused problems and topics in the literatures and cultures of the Portuguese-speaking world. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 18 completions.

8500 Seminar in Literatures and Cultures of the Portuguese-Speaking World G 3

Detailed exploration of advanced issues in the literatures and cultures of Brazil, Portugal, Lusophone Africa and Lusophone Asia. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 9 cr hrs.

8999 Research for Dissertation (Post-candidacy) G 1-12

Research for dissertation (post-candidacy). Prereq: Post-candidacy status, and permission of faculty advisor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.

Psychiatry and Behavioral Health

2000 Introduction to Psychiatry in Healthcare U 3

This course will introduce you to a variety of behavioral health professions within the context of the broader healthcare system, and cultivate your understanding of the unique and interdisciplinary functions that professionals play.

2001 Introduction to Pediatric Behavioral Health Care Careers U 2

This course will introduce you to a variety of pediatric behavioral health professions within the context of the broader healthcare system and cultivate your understanding of the unique and interdisciplinary functions that professionals play across a range of pediatric behavioral healthcare settings. This course is graded S/U.

2002 Day in the Life: Undergraduate Independent Study U 2-5

This course provides an opportunity for individualized study in the field of pediatric behavioral health. Deciding on what type of career to pursue in behavioral health can be challenging, given the vast range of professions. Learning about the requirements and what the job can be like in practice, as well as increasing awareness about the personal traits that best align. Prereq: 2001, and permission of instructor. This course is graded S/U.

3400 The Science of Sleep and Dreaming U 3

What is the purpose of sleep and how does it happen? Why do we dream, and how does sleep impact our emotional and physical health? What are the ways that sleep can become disrupted, and what can be done to provide relief? Prereq: Psych 1100, and permission of instructor.

4193 Research Study in Clinical Neuropsychology U 1-10

This course provides for individualized study in the field of clinical neuropsychology. This independent study course will allow the opportunity to obtain research skills & knowledge by working in a laboratory setting within a neuropsychology clinic. Prereq: Psych 2220 and 2300, or permission of instructor. This course is graded S/U.

4998 Undergraduate Research in Psychiatry and Behavioral Health U 1-10

This course provides an opportunity for research in the fields of psychiatry, behavioral neuroscience, psychoneuroimmunology, and cancer. This course will allow students the opportunity to obtain research skills and knowledge by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

6193 Graduate Individual Studies in Psychiatry and Behavioral Health (Laboratory) G 1-8

This course provides an opportunity for research in the fields of psychiatry, behavioral neuroscience, psychoneuroimmunology, and cancer. This course will allow students the opportunity to obtain research skills and knowledge by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 3 completions. This course is graded S/U.

7000 Psychiatry and Behavioral Health Research Techniques (Laboratory) G 1-8

This course provides an opportunity for graduate-level research in the fields of psychiatry, behavioral neuroscience, psychoneuroimmunology, and cancer. This course will allow Master's students the opportunity to obtain research skills and knowledge to complete their dissertation by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 3 completions. This course is graded S/U.

7890 Communications in Neuroimmunology Research G 1

This course is designed for graduate (master or doctoral) level students involved in basic, clinical, or translational neuroimmunology research. Students will develop skills in teaching, analyzing, synthesizing, and communicating their neuroimmunology research to a broad audience. Prereq: Grad standing. This course is graded S/U.

8998 Pre-Candidacy Research in Psychiatry and Behavioral Health (Laboratory) G 1-8

This course provides an opportunity for graduate-level research in the fields of psychiatry, behavioral neuroscience, psychoneuroimmunology, and cancer. This course will allow pre-candidacy PhD students the opportunity to obtain research skills and knowledge by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 3 completions. This course is graded S/U.

8999 Dissertation Research in Psychiatry and Behavioral Health (Laboratory) G 1-8

This course provides an opportunity for graduate-level research in the fields of psychiatry, behavioral neuroscience, psychoneuroimmunology, and cancer. This course will allow pre-candidacy PhD students the opportunity to obtain research skills and knowledge to complete their dissertation by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 8 cr hrs or 6 completions. This course is graded S/U.

Psychology

1100 Introduction to Psychology U 3

A prerequisite to advanced courses; a broad survey of psychological science. Application of the scientific method to the empirical study of behavior with emphasis on individual and cultural differences. Prereq: Not open to students with credit for 100, 1100H (100H) or 1100E (100E). This course is available for EM credit. GE soc sci indivs and groups and diversity soc div in the US course. GE foundation social and behavioral sci course.

1100E Introduction to Psychology U 3

A prerequisite to advanced courses; a broad survey of psychological science. Application of the scientific method to the empirical study of behavior with emphasis on individual and cultural differences. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 1100 or 1100H. GE soc sci indivs and groups and diversity soc div in the US course. GE foundation social and behavioral sci course.

1100H Introduction to Psychology U 3

A prerequisite to advanced courses; a broad survey of psychological science. Application of the scientific method to the empirical study of behavior with emphasis on individual and cultural differences. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 1100 (100), 1100E (100E), or 100H. GE soc sci indivs and groups and diversity soc div in the US course. GE foundation social and behavioral sci course.

1300 Professional Development in Psychology U 1

Professional Development in Psychology will provide students with information and skills to be successful as a psychology major and plan a career in psychology or a psychology-related field. Students will learn about the various resources available at the university to support their success in psychology and the options available to them following their undergraduate education. Prereq: Psych major.

1375 I am. The Psychology of Identity and Culture U 3

Contemporary and historical research into psychological identity; The science of how individual people experience personal and cultural differences. Reading and discourse on the psychology research of: personality, social roles, cultural neuroscience, social categorization, intergroup contact, race, ethnicity, diversity, and more. GE foundation race, ethnicity and gender div course.

2220 Data Analysis in Psychology U 3

Discussion of statistical analysis of psychological data - random samples, graphical and numerical techniques of descriptive statistics, correlation, regression, probability, sampling distribution, and hypothesis testing. Prereq: 1100 or 1100H, and Stat 1450, Math 1120, 1130, 1148, 1149, 1150, or 1151, or equiv, or Math Placement Level M or higher; or permission of instructor.

2220E Data Analysis in Psychology U 3

Discussion of statistical analysis of psychological data - random samples, graphical and numerical techniques of descriptive statistics, correlation, regression, probability, sampling distribution, and hypothesis testing. Prereq: Honors standing, and 1100 or 1100H, and Stat 1450, Math 1130, Math 1148, 1149, 1150, 1151, or equiv, or Math Placement Level M or higher; or permission of instructor. Not open to students with credit for 2220 or 2220H.

2220H Data Analysis in Psychology U 3

Discussion of statistical analysis of psychological data - random samples, graphical and numerical techniques of descriptive statistics, correlation, regression, probability, sampling distribution, and hypothesis testing. Prereq: Honors standing, and 1100 or 1100H, and Stat 1450, Math 1120, 1130, 1148, 1149, 1150, or 1151, or equiv, or Math Placement Level M or higher; or permission of instructor. Not open to students with credit for 2220.

2300	Research Methods in Psychology	U	3
An overview of issues, methods, and techniques of scientific psychological research. Students must be pursuing majors or minors in Psychology. Prereq: 1100 or 1100H.			
2301	Psychology of Extraordinary Beliefs	U	3
Considers beliefs in extraordinary phenomena through the application of the findings and principles of psychological science. Prereq: Not open to students with credit for 301.			
2303	Positive Psychology	U	3
Introduction to the field of positive psychology. Topics include positive affect, subjective well-being, optimism, psychological strengths, emotional intelligence, compassion, humor, and spirituality. GE theme health and well-being course.			
2311	Psychology of Motivation	U	3
A survey of major approaches to motivation and the study of important concepts in motivation, with emphasis on everyday applications. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 311.			
2333	Psychology of Human Sexuality	U	3
Overview of the psychology of human sexuality including the nature and variety of human sexual experience, theories and therapies regarding sexual issues. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 333.02.			
2350	Contemporary Developmental Psychology	U	3
A survey course acquainting students with issues resulting from the social changes of the past decade and from an increased interest in the life span. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 350.			
2367.01	Social Psychology	U	3
Survey of group processes as they affect individual behavior; topics include individual motivation, group behavior, attitudes, and perception of self and others. Prereq: 1100 (100) or 1100H (100H), and English 1110.01, 1110.01H, 1110.02, 1110.02H, 1110.03, 110, or 111, or equiv, and Soph standing or above. Not open to students with credit for 3325 (325), 3325H (325H), or 367.01. GE writing and comm: level 2 and soc sci indivs and groups course.			
2367.02	Abnormal Psychology Analysis	U	3
Major psychological disorders, such as anxiety, mood, & personality disorders, will be clinically described & diagnostically defined. Students will compare & contrast symptoms of psychological disorders with non-disordered behaviors, cognitions, & affects. The emphasis is on critical thinking & analysis of theories, research methods, & empirical findings regarding psychopathology & its treatment. Prereq: 1100 (100) or 1100H (100H), and English 1110.01, 1110.01H, 1110.02, 1110.02H, 1110.03, 110, 111, or equiv; and Soph standing or above. Not open to students with credit for 3331 (331) or 3331H (331H). GE writing and comm course: level 2.			
2376	Interpersonal Relationships	U	3
Surveys the scientific literature on interpersonal relationships, including family, friends, and romantic partnerships.			
2420	Psychology Applied to Sport	U	3
Psychological factors that influence sport participation and performance; psychological techniques to enhance performance; psychological problems associated with sport.			
2462	Psychology of Creativity	U	3
A critical examination of conceptual, theoretical, and methodological problems related to the systematic study of creativity; special attention to background factors related to creative behavior. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 462 or 662.			
2500	Applied Psychology: Human Behavior in the Wild	U	3
Examines how psychological concepts & phenomena are applied in real world contexts, such as law, medicine, social communities, education, sports, business & engineering. It will introduce constructs & research in applied psychology with a focus on domains not covered in traditional intro psych courses. Practicum sessions will be used for student discussion & interactive activities. GE soc sci indivs and groups and diversity soc div in the US course. GE foundation social and behavioral sci course.			
3191	Internship in Psychology	U	1 - 12
Provides psychology majors with an opportunity to intern in a professional setting to integrate academic knowledge with experience in the world of work. Maximum 3 credit hours may be applied to the undergraduate Psychology major. Prereq: 1100 or 1100H, and GPA 2.8 or above, and enrollment in Psych, and permission of instructor. This course is graded S/U.			
3193.01	Individual Studies in Psychology	U	1 - 5
Specialized academic project by individualized agreement between instructor and student. Maximum 3 credit hours may be applied to the undergraduate major in psychology. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 4 completions. This course is graded S/U.			
3193.02	Individual Studies: Teaching of Psychology	U	1 - 3
Specialized study & experience in teaching of psychology. Classroom management, development of presentation materials & skills, demonstrations & active learning, & assessment. Maximum of 3 cr hrs may be applied to undergrad major in psychology. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 6 completions. This course is graded S/U.			

3194	Group Studies	U	3
Various topics within the field of psychology. Prereq: 1100 (100) or 1100H (100H). Repeatable to a maximum of 6 cr hrs.			
3302	Perception and Language	U	3
Foundational issues in perceptual and cognitive psychology will be covered in the context of human language, examining communication via the eyes, ears, and hands. Prereq: 1100 (100) or 1100H (100H), or permission of instructor. Not open to students with credit for 302.			
3310	Sensation and Perception	U	3
Examination of how observers perceive their environment through sensory information; emphasis on major sensory systems including vision, audition, spatial orientation, touch, taste, and olfaction. Prereq: 1100 or 1100H.			
3310H	Sensation and Perception	U	3
Examination of how observers perceive their environment through sensory information; with an emphasis on vision and audition. Prereq: Honors standing, and 1100, 1100H, or 1100E. Not open to students with credit for 3310 (310).			
3312	Memory and Cognition	U	3
An introduction to experimental study of human memory and cognition. Prereq: 1100 or 1100H.			
3313	Introduction to Behavioral Neuroscience	U	3
Introduction to the structure and function of the nervous system in relation to behavior. Prereq: 1100 or 1100H.			
3313H	Introduction to Behavioral Neuroscience	U	3
Introduction to the structure and function of the nervous system in relation to behavior. Prereq: Honors standing, and 1100 (100) or 1100H (100H). Not open to students with credit for 3313 (313).			
3321	Quantitative and Statistical Methods in Psychology	U	3
A concentrated examination of applications of statistical tools in inference in contemporary psychology; hypothesis testing, regression, correlation, and analysis of variance. Prereq: 1100 (100) or 1100H (100H), and a grade of B or above in 2220 (220) or 2220H (220H). Not open to students with credit for 321 or 321H.			
3321H	Quantitative and Statistical Methods in Psychology	U	3
A concentrated examination of applications of statistical tools in inference in contemporary psychology; hypothesis testing, regression, correlation, and analysis of variance. Prereq: Honors standing, and 1100 (100) or 1100H (100H), and a grade of B or above in 2220 (220) or 2220H (220H). Not open to students with credit for 321 or 321H.			
3325	Introduction to Social Psychology	U	3
An introduction to research in social psychology; topics include individual motivation, group behavior, attitudes, and perception of self and others. Prereq: 1100 or 1100H. Not open to students with credit for 2367.01 or 3325H.			
3325E	Introduction to Social Psychology	U	3
An in-depth, empirically based introduction to research in social psychology; topics include individual motivation, group behavior, attitudes, and perception of self and others. Prereq: Honors standing, and 1100 or 1100H. Not open to students with credit for 2367.01 or 3325.			
3325H	Introduction to Social Psychology	U	3
An in-depth, empirically based introduction to research in social psychology; topics include individual motivation, group behavior, attitudes, and perception of self and others. Prereq: Honors standing, and 1100 (100) or 1100H (100H); or permission of instructor. Not open to students with credit for 2367.01 (367.01), 3325 (325), or 325H.			
3331	Abnormal Psychology	U	3
Examination of current theories and empirical findings regarding the major forms of psychopathology and treatment. Prereq: 1100 or 1100H. Not open to students with credit for 2367.02, 3331H, or 3331E.			
3331E	Abnormal Psychology	U	3
Examination of current theories and empirical findings regarding the major forms of psychopathology. Prereq: Honors standing, and 1100 (100) or 1100H (100H); or permission of instructor. Not open to students with credit for 2367.02, 3331 (331), 3331H (331H), or 331E.			
3331H	Abnormal Psychology	U	3
Examination of current theories and empirical findings regarding the major forms of psychopathology. Prereq: Honors standing, and 1100 (100) or 1100H (100H); or permission of instructor. Not open to students with credit for 2367.02, 3331 (331), 3331E (331E), or 331H.			
3335	Psychology of Adjustment	U	3
Examination of psychological concepts and theories related to individual adjustment and adaptation. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 335.			
3335E	Psychology of Adjustment	U	3
Examination of psychological concepts and theories related to individual adjustment and adaptation. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 3335 (335).			
3340	Introduction to Life Span Developmental Psychology	U	3
Consideration of theories and research on psychological development across the lifespan; includes consideration of social policies that influence developmental outcomes. Prereq: 1100 or 1100H.			

374 Psychology

3340E Introduction to Life Span Developmental Psychology U 3

A survey of developmental psychology including some phylogenetic perspective. Prereq: Honors standing, and 1100 (100) or 1100H (100H); or permission of instructor. Not open to students with credit for 340, 340H, or 340E.

3340H Introduction to Life Span Developmental Psychology U 3

Consideration of theories and research on psychological development across the lifespan; includes consideration of social policies that influence developmental outcomes. Prereq: Honors standing, and 1100 (100) or 1100H (100H); or permission of instructor. Not open to students with credit for 340, 340H, or 340E.

3371 Language and the Mind U 3

Introduction to psychological processes for producing and understanding speech, the means by which these processes arise in the child, and their bases in the brain. Prereq: 1100, Ling 2000, or 5000. Not open to students with credit for 3371H, Ling 3701, or 3701H. GE soc sci indivs and groups course. GE foundation social and behavioral sci course. Cross-listed in Ling 3701.

3371E Language and the Mind U 3

Introduction to psychological processes for producing and understanding speech, the means by which these processes arise in the child, and their bases in the brain. Prereq: Honors standing, and 1100 (100), 1100H (100H), Ling 2000. Not open to students with credit for 3371, 3371H, Ling 3701, 3701E, or 3701H. GE soc sci indivs and groups course. GE foundation social and behavioral sci course. Cross-listed in Ling 3701E.

3371H Language and the Mind U 3

Introduction to psychological processes for producing and understanding speech, the means by which these processes arise in the child, and their bases in the brain. Prereq: Honors standing, and 1100 (100), 1100H (100H), Ling 2000 (Linguist 201), 2000H (200H), or 4000 (601); or permission of instructor. Not open to students with credit for 3371 (371), 371H, Ling 3701 (Linguist 371), or 3701H (371H). GE soc sci indivs and groups course. GE foundation social and behavioral sci course. Cross-listed in Ling 3701H.

3375 Stereotyping and Prejudice U 3

Lectures address experimental research in stereotyping and prejudice; readings focus on historical, cultural, and sociological perspectives on issues related to gender, ethnicity, and social class. Prereq: 1100 or 1100H. GE diversity soc div in the US course.

3513 Introduction to Cognitive Neuroscience U 3

Examination of the neuroscientific approach to the study of cognition; primary focus on the psychobiology of memory, attention, language, and spatial orientation. Prereq: 1100 or 1100H.

3530 Theories of Personality U 3

Major theoretical and research orientations in the study of normal and abnormal personality development, with a focus on personality processes. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 530.

3550 Psychology of Childhood U 3

Introduction to the major phenomena, methods, theories, and findings of developmental psychology, especially as they apply to infancy and childhood. Prereq: 1100 (100) or 1100H (100H). Not open to students with credit for 550 or 550H.

3550H Psychology of Childhood U 3

Introduction to the major phenomena, methods, theories, and findings of developmental psychology, especially as they apply to infancy and childhood. Prereq: Honors standing, and 1100 (100) or 1100H (100H); or permission of instructor. Not open to students with credit for 550 or 550H.

3551 Psychology of Adolescence U 3

An examination of the biological, psychological, and social aspects of normal adolescent development. Prereq: 1100 or 1100H.

3551H Psychology of Adolescence U 3

An examination of the biological, psychological, and social aspects of normal adolescent development. Prereq: Honors standing, and 1100 (100) or 1100H (100H). Not open to students with credit for 3551 (551).

3624 Primate Cognition U 3

Research about monkeys and apes with emphasis on their learning, arts, memory, curiosity, language, and neuropsychological problems. Prereq: 1100 (100) or 1100H (100H), or permission of instructor. Not open to students with credit for 624.

3900 A Practical Guide to Ruling the World U 3

Contemporary and historical research research as applied to governing and the governed, including social and political psychology, behavioral economics, and more. Reading and discourse on psychological research including: flags and symbols, authoritarianism, patriotism, protests and rebellion, taxation, the media, police psychology, conspiracy theories, and immigration. Prereq: Completion of GE Foundation Social and Behavioral Sciences course. GE theme citizenship for div and just wild course.

4305 Introduction to Psychopharmacology U 3

Introduction to the effects of drugs upon brain function. Prereq: A grade of C- or above in 2220, 2300, and 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major. Not open to students with credit for 3305, 305, or 597.01.

4320 Psychological Science of Addiction U 3

Addiction is studied at many levels, from how drugs affect neurobiological systems to how psychosocial factors play a role in drug addiction. Likewise, accumulating evidence suggests that we need to consider addiction as a brain disease like other medical conditions. Students will learn neurobiological systems and cognitive neuroscience underlying drug addictions. Prereq: A grade of C- or above in 2367.02, 3313, or 3331.

4475 The Self U 3

Survey of classic and contemporary theory and research on social psychological study of the self; diverse approaches, and various gender, ethnic, and cross-cultural perspectives. Prereq: A grade of C- or above in 2220, 2300, and 2367 prior to SU13, 2367.01, 3325, 3325H, or 3375. Not open to students with credit for 475.

4485 Psychology and the Law U 3

Contributions of psychological theories to the legal system and the role of mental health professionals in this system. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 485.

4501 Advanced Behavioral Neuroscience U 3

Advanced discussion of contemporary issues in behavioral neuroscience, including: synaptic pharmacology, drugs, and behavior, neurodegenerative diseases and the biological bases of psychopathology. Prereq: A grade of C- or above in 2220 and 2300, and a grade of B or above in 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major.

4508 Psychology of Judgment and Decision-Making U 3

An overview of current models and empirical research on cognitive processes in human decision-making and judgment under risk or uncertainty. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 508 or 4508H (508H).

4508H Psychology of Judgment and Decision-Making U 3

An overview of current models and empirical research on cognitive processes in human decision-making and judgment under risk or uncertainty. Prereq: Honors standing, and a grade of C- or above in 2220 and 2300. Not open to students with credit for 4508 (508) or 508H.

4509 Perception of Space and Motion in Sports U 3

Discussion of cognitive, perceptual, and statistical issues that have special application to performance in sports. Prereq: A grade of C- or above in 2220, 2300, and 3310.

4510 Cognitive Psychology Laboratory U 3

Training in experimental and quantitative methods in cognitive psychology; laboratory experiments include topics such as memory, perception, and attention. Prereq: A grade of C- or above in 2220 and 2300; and a grade of C- or above in 3302, 3310, or 3312; and enrollment in Psych major. Not open to students with credit for 4520.

4511 Psychological Testing U 3

An overview of theoretical and practical aspects of the assessment and prediction of human behavior; topics include achievement, intelligence, personality, attitudes, interests, and interpersonal relations. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 511 or 597.02.

4515 Psychology of Emotion U 3

An examination of emotion focusing on how emotions are interconnected to other basic psychological processes such as cognition, motivation, decision making, and well-being. Prereq: A grade of C- or above in 2220 and 2300.

4518 Attitudes: Structure, Function, and Consequences U 3

Survey of theory and evidence related to the structure and functional value of attitudes and their effects on information processing, judgments, and behavior. Prereq: A grade of C- or above in 2220, 2300, and 2367 prior to SU13, 2367.01, 3325, 3325H, or 3375. Not open to students with credit for 518.

4520 Social Psychology Laboratory U 3

Training in experimental and quantitative methods in social psychology. Experiments include topics such as attitudes, persuasion, social cognition, and group processes. Prereq: A grade of C- or above in 2220, 2300, and 2367 prior to SU13, 2367.01, 3325, 3325H, or 3375, and enrollment in Psych major. Not open to students with credit for 4510.

4521 Personnel Psychology U 3

Overview of theory, method, and practices of personnel psychology: job analysis, recruiting, personnel selection, performance appraisal, and training. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 521.

4522 Organizational Psychology U 3

Overview of theory, method, and practice of organizational psychology: motivation, job attitudes, leadership, groups, organizational design. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 522.

4525 Psychology of Personal Security: Global and Local Perspectives U 3

Surveys the diverse psychological literature on personal security, a key ingredient in psychological well-being. Prereq: 1100. Not open to students with credit for 525.

4531 Health Psychology U 3

Introduction to health psychology; health-promoting and health-damaging behaviors; modification of health behaviors; stress and coping; management of illness; stress management strategies. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 531.

4531S	Health Psychology-Service Learning	U	3
Introduction to health psychology; health-promoting and health-damaging behaviors; modification of health behaviors; stress and coping; management of illness; stress management strategies. Includes service learning component, applying course material within a local community agency. Offered on Lima campus only. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 4531.			
4532	Clinical Psychological Science	U	3
Surveys the scientific foundations of clinical psychological interventions and assessment techniques and considers their implications for the profession of clinical psychology. Prereq: A grade of C- or above in 2220 and 2300; and a grade of C- or above in 2367.02 or 3331.			
4540	Counseling Psychology	U	3
Issues within the field of counseling psychology including assessment, counseling skills, multicultural issues, career, professional, and ethical issues. Prereq: A grade of C- or above in 2220 and 2300; and a grade of C- or above in 2367.02, 3331, 3335, or 3530.			
4543	Psychology of Gender	U	3
An examination of the origins and implications of gender differences and similarities and the role that gender plays in the interpretation of behavior. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 4543E.			
4543E	Psychology of Gender	U	3
An examination of the origins and implications of gender differences and similarities and the role that gender plays in the interpretation of behavior. Prereq: Honors standing, and 2220 and 2300. Not open to students with credit for 4543 (543) or 543E.			
4545	Cross-Cultural Psychology	U	3
Introduction to cross-cultural theories and research in various specialties in psychology (e.g., social, developmental, and counseling psychology). Prereq: A grade of C- or above in 2220 and 2300.			
4552	Psychology of Adult Years	U	3
Theory and research related to adulthood as a sequence of psychological stages involving adjustment and coping behaviors; relationship of adulthood to other life-span stages. Prereq: A grade of C- or above in 2220 and 2300.			
4554	Language Development	U	3
A survey of children's language acquisition, including phonemes, words, morphology, and syntax. Roles for universal grammar, linguistic input, social interaction, and statistical learning are considered. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 4554S.			
4554E	Language Development	U	3
A survey of children's language acquisition, including phonemes, words, morphology, and syntax. Roles for universal grammar, linguistic input, social interaction, and statistical learning are considered. Students will participate in a community literacy program. Prereq: Honors standing, and a grade of C- or above in 2220 and 2300. Not open to students with credit for 4554.			
4554S	Language Development-S	U	3
A survey of children's language acquisition, including phonemes, words, morphology, and syntax. Roles for universal grammar, linguistic input, social interaction, and statistical learning are considered. Students will participate in a local elementary school literacy program. Prereq: A grade of C- or above in 2220 and 2300. Not open to students with credit for 4554.			
4555	Adolescent Sexuality	U	3
An examination of the psychological, biological, and social influences on adolescent sexuality. Prereq: A grade of C- or above in 2220 and 2300.			
4571	Psychology of Developmental Disabilities	U	3
Overview of developmental disabilities including causes, nature, and psychological characteristics; diagnosis and psychometric assessments; and behavioral, psycho-educational, and biological forms of prevention and intervention. 20-hr off-campus practicum req. Prereq: A grade of C- or above in 2220 and 2300.			
4571S	Psychology of Developmental Disabilities-Service Learning	U	3
Provides an overview of developmental disabilities including causes, nature, & psychological characteristics; diagnosis & psychometric assessments; & behavioral, psycho-educational, & biological forms of prevention & intervention. This course includes a 20-hr off-campus volunteer assignment with the Allen County Board of Developmental Disabilities (ACBDD). Prereq: A grade of C- or above in 2220 and 2300.			
4597.01	Contemporary World: Aging, Health, and Psychological Functioning in the Modern World	U	3
Addresses primary psychological, social, physical and economic changes related to aging and ramifications of these changes. Prereq: 1100 (100), 1100H (100H), or 1100E (100E), and Jr or Sr standing; or permission of instructor. Not open to students with credit for 597.03. GE cross-disciplinary seminar course.			
4630	Attitudes and Persuasion	U	3
Overview of the major psychological theories and research in the area of attitudes and persuasion - how people's opinions, beliefs, and evaluations are formed and modified. Prereq: A grade of C- or above in 2220, 2300, and 2367 prior to SU13, 2367.01, 3325, 3325H, or 3375. Not open to students with credit for 630.			

4644	Hormones and Behavior	U	3
Exploration of the interactions among hormones, brain, and behavior through an integrative approach. Prereq: A grade of C- or above in 2220, 2300, and 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major. Not open to students with credit for 644 or Neurosc 5644 (644).			
4998	Undergraduate Research in Psychology	U	1 - 5
Supervised collaborative research in psychology. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 8 completions. This course is graded S/U.			
4999.01	Thesis Research I	U	2
Seminar designed to support the writing of the Thesis proposal and data collection, including proposal structure, literature review, research ethics, the IRB process, and data collection methodology. Prereq: Enrollment in Psych, and candidate for degree with research distinction, and permission of department.			
4999.01H	Honors Thesis Research I	U	2
Seminar designed to support the writing of the Honors thesis proposal and data collection, including proposal structure, literature review, research ethics, the IRB process, and data collection methodology. Prereq: Honors standing, and enrollment in Psych major, and candidate for degree with research distinction, and permission of department. Not open to students with credit for 783.01H or 783.02H.			
4999.02	Thesis Research II	U	2
Seminar designed to support data collection/analysis, and writing and defending of the Thesis, including quantitative methods, data interpretation, summary, and presentation, writing results and discussion, poster presentation, and oral defense. Prereq: 4999.01.			
4999.02H	Honors Thesis Research II	U	2
Seminar designed to support data collection/analysis, and writing and defending of the Honors thesis, including quantitative methods, data interpretation, summary, presentation, writing results & discussion, poster presentation, and oral defense. Prereq: Honors standing, and 4999.01H; or permission of instructor. Not open to students with credit for 783.02H or 783.03H.			
5089	Cognitive Aging, Neurodegeneration, and Neuroplasticity	U G	3
This course will cover changes in adult cognition (emphasis on memory) and the brain (structural and functional MRI) as a result of normal aging and age-related neurodegenerative diseases (such as Alzheimer's disease). The course will also cover factors that contribute to neuroplasticity and may attenuate decline, such as nutrition, fitness, physical activity, exercise, and videogaming. Prereq: A grade of C- or above in 2220, 2300, and 3313 or 3513; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.			
5194	Group Studies	U G	2 - 3
Topics vary from semester to semester and will be announced at least one month in advance. Prereq: 1100. Repeatable to a maximum of 12 cr hrs or 4 completions.			
5250	Mood Disorders: Classification, Etiology, and Treatment	U G	3
A survey of the mood disorders, including depression, bipolar disorder, and several variants of these disorders. The course examines the mood disorders in depth, covering historical, cross-cultural, diagnostic, developmental, neuroscientific, etiological, and therapeutic issues. Prereq: Grade of C- or higher in 2220 and 2300, and a grade of C- or higher in one of the following: 2367.02, 3331, 3331H, 3331E, 3335, or 3530; or Grad standing.			
5270	Personality Disorders: Classification, Etiology, and Treatment	U G	3
A survey of research on the classification, etiology, and treatment of personality disorders. In the class, personality disorders will be considered in historical, cross-cultural, developmental, and neuroscientific contexts and current debates will be discussed. Prereq: A grade of C- or above in 2220 and 2300; and a grade of C- or above in 2367.02 or 3331 or 3335 or 3530.			
5309	Human Motor Control and Learning	U G	3
Processes underlying the performance, learning, and adaptation of movement skills such as walking, running, driving, drumming, golfing, catching, text editing, and social communication. Selective perception, attention, and memory in the context of action. Multi-limb coordination and multi-tasking. Prereq: A grade of C- or above in 2220 and 2300; or Grad standing; or permission of instructor. Not open to students with credit for 4309.			
5425	Introduction to Functional Magnetic Resonance Imaging	U G	3
A general introduction to the physical bases of Magnetic Resonance Imaging (MRI), the physiological bases and principles of functional MRI, MRI related safety issues, design and analysis of fMRI experiments, and the operation of the Siemens 3T Trio system with hands-on experience. Prereq: Grad standing, or permission of instructor.			
5505	History of Psychology	U G	3
An introduction to major historical figures, important systems of thought within psychology, historical contexts of the field from subfield of philosophy to the present status as a science and profession. This course will examine the forces and theories influencing methods of investigation, society's relationship to the mentally ill, and key historical and social events that shaped the field. Prereq: A grade of C- or above in 2220 and 2300, or Grad standing. Not open to students with credit for 4505 or 6809.			
5600	Psychobiology of Learning & Memory	U G	3
Integrate coverage of animal learning and human memory, focusing on three key components of the field: behavioral processes, brain systems, and clinical perspectives. Prereq: A grade of C- or above in 2220, 2300, and 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.			

376 Psychology

5602 Behavioral Genetics	U G	3	Behavioral genetics is the field of study that examines the role of genetics in animal (including human) behavior. It is highly interdisciplinary, involving contributions from biology, genetics, epigenetics, ethology, psychology, & statistics. The goal is to provide knowledge concerning the interrelationship of genetics & behavior, & its implications for health & human development & education. Prereq: A grade of C- or above in 2220, 2300, and 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	5628 Developmental Cognitive Neuroscience	U G	3	How does the brain change over the first few years of life and how do these changes support changes in cognition? What brain architecture is present when you are born, and how does it change with maturation vs. experience? How does early brain structure and function constrain later learning and plasticity? We will have lectures on foundational studies and discussions of current empirical papers. Prereq: 3313 or 3513.
5603 Stem Cells and the Brain	U G	3	This course will explore the biology, function and relevance of stem cells for brain and behavior from development through aging. Through lectures and primary research literature, we will discuss what it means to be a neural stem cell, how stem cells shape the brain, and what the role of stem cells might be in brain disorders and mental health. Prereq: A grade of C- or above in 3313, or Grad standing.	5681 Development and Psychopathology	U G	3	Examines theories and research on psychopathology (e.g., autism) during infancy, childhood, and adolescence from a developmental-contextual perspective; emphasis on description, prevalence, etiology, prognosis, and assessment. Prereq: A grade of C- or above in 2220, 2300, and 3550; or Grad standing.
5604 Sex Differences in the Brain and Behavior	U G	3	Explores sex differences in the brain and behavior. Students will learn the importance of studying both males and females in neuroscience research and critical research and methodological issues in the study of sex differences. The goal of this course is to understand sex differences in a range of cognitive, emotional and social behaviors as well as sex differences in neurobiology of disease and mental disorders. Prereq: A grade of C- or above in 2220, 2300, and 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	5684 Psychology of Delinquency	U G	3	Characterization, risk and protective factors, and treatment of delinquency with emphasis on current theories and research practices. Prereq: A grade of C- or above in 2220, 2300, and 3551; or Grad standing.
5606 High-Level Vision	U G	3	Examines the perceptual processes by which humans and other animals are able to obtain knowledge about the three-dimensional environment. Prereq: A grade of C- or above in 2220, 2300, and 3310; or a grade of C- or above in 3310, a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	5700 Training in Informal Science Outreach	U G	3	The purpose of this course is to provide students with hands-on training in informal science education at the COSI museum. All students will learn to provide outreach education at the museum; advanced students will develop outreach materials, assist in the visible research operations, and mentor other students. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs. Cross-listed in Ling and EduTL.
5608 Introduction to Mathematical Psychology	U G	3	Survey of mathematical and computational modeling in psychology. Topics include psychophysical scaling, information processing, probabilistic choice, signal detection theory, model comparison, and Bayesian graphical modeling. Prereq: A grade of C- or above in 2300 and 3321; a grade of C- or above in 3321 and a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	5797 Study at a Foreign Institution	U G	1 - 10	An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: 1100 (100) and written permission of dept chairperson. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is progress graded.
5612 Introduction to Cognitive Science	U G	3	Cognitive science is an interdisciplinary study of the nature of human thought; psychological, philosophical, linguistic, and artificial intelligence approaches to knowledge representation. Prereq: A total of 12 cr hrs from any of the following areas: CSE, Ling, Philos, or Psych, or Grad standing, or permission of instructor. Not open to students with credit for 612, CSE 5531 (612), Ling 5612 (Linguist 612), or Philos 5830 (612). Cross-listed in CSE 5531, Ling 5612, and Philos 5830.	5800 Family Psychology	U G	3	This course serves as an advanced introduction to the field of family psychology, including theories, methods, and key findings. Although many topics will be covered throughout the semester, a primary focus will be on parent-child relationships, couple (romantic) relationships, and how family relationships contribute to children's social and emotional development in diverse families. Prereq: A grade of C- or better in 2220 and 2300; or Grad standing.
5613H Biological Psychiatry	U G	3	Provides a contemporary overview of the biological bases of several significant psychopathologies, including mood disorders, schizophrenia, and PTSD/dissociative identity disorders. Prereq: Honors standing; and a grade of C- or higher in Psych 2220 and Psych 2300, and Psych 3313 or Psych 3513; or a grade of B or above in Psych 3313 and Neurosc 3000 and Neuroscience major; or Grad standing.	5832 Lifespan Sociomoral Development	U G	3	Cognitive, emotional and cross-cultural aspects of moral development and social behavior across the life span. Emphasis on current findings, basic theoretical issues and applied topics (e.g. treatment of antisocial behavior). Prereq: A grade of C- or above in 2220 and 2300; or Grad standing.
5614 Cognitive Neuroscience	U G	3	Neuronal mechanisms of information processing. Prereq: A grade of C- or above in 2220 and 2300, and 3313 or 3513; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	5870 Neuroeconomics and Decision Neuroscience	U G	3	The focus of this course will be on the psychology and neuroscience underlying economic behavior. Discussion will cover various domains of economic decision making and what Neuroeconomics has taught us about them. Prereq: AEEcon 2005, Stats 1450, 2450, Psych 2220, or Econ 3400; and Math 1148 or higher; and Econ 4001.01, 4001.02, 4001.03, AEEcon 4001, Psych 3313, 3513, or 4508. Not open to students with credit for 5870. Cross-listed in Econ.
5618 Introduction to Computational Cognitive Neuroscience	U G	3	Introductory survey of neural-network models, emphasizing their neural foundations and applications to perceptions, memory, and language. Hands-on explorations with simulation software. Intended for students with prior programming experience and prior programming experience is required. Prereq: A grade of C- or above in 2220 and 2300; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	5891 Proseminar in Cognitive Science	U G	2	Provides an in-depth examination of cognitive science from an interdisciplinary perspective. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs. Cross-listed in CSE, Ling, Philos, and SphHrng.
5620 Technology, Efficiency, and Happiness	U G	3	Considers various dimensions for evaluating the behavioral effects of any technology: efficiency, safety, time cost, complexity, environmental impact, social impact. Prereq: 1100, or Grad standing.	5898 Seminar in Behavioral Neuroscience	U G	3	Team-taught seminar on selected topics from contemporary research areas in the field of behavioral neuroscience. Undergrad Prereq: A grade of C- or above in two of the following courses 4501, 4644, 5613H, 5602, 5603, Neurosc 4100, 4425, 4550, 4623, or 4850; or permission of instructor. Grad Prereq: Grad standing; or permission of instructor.
5621 Introduction to Event-Related-Potentials	U G	3	Training to become an independent event-related-potential researcher. Develop skills in experimental programming, application of electrode nets, artifact detection, filtering and component analysis, and localization. Prereq: A grade of C- or above in 2220 and 2300, and permission of instructor; or Grad standing.	6193.01 Individual Studies: Clinical Psychology	G	1 - 9	Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 15 completions. This course is graded S/U.
5622 The Development of Brain and Behavior	U G	3	This course explores the process of brain development from conception through adulthood. The course will cover the basic processes of central nervous system differentiation, how the brain continues to change in infancy, childhood and adolescence, and how environmental variables and experiences shape brain development and program behavior throughout life, in human and animal models. Prereq: A grade of C- or above in 2220, 2300, and 3313; or a grade of B or above in 3313 and Neurosc 3000, and Neuroscience major; or Grad standing.	6193.03 Individual Studies: Developmental Psychology	G	1 - 9	Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 15 completions. This course is graded S/U.
				6193.04 Individual Studies: Cognitive Psychology	G	1 - 9	Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 15 completions. This course is graded S/U.
				6193.06 Individual Studies: Quantitative Psychology	G	1 - 9	Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 15 completions. This course is graded S/U.

6193.07 Individual Studies: Social Psychology G 1 - 9

Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 or hrs or 15 completions. This course is graded S/U.

6193.08 Individual Studies: Behavioral Neuroscience G 1 - 9

Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 or hrs or 15 completions. This course is graded S/U.

6193.09 Individual Studies: Intellectual and Developmental Disabilities G 1 - 9

Individual reading or research projects by special agreement between instructor and student. Prereq: Permission of instructor. Repeatable to a maximum of 27 or hrs or 15 completions. This course is graded S/U.

6210 Biological and Social Bases of Behavior G 3

This is a graduate level introduction to social psychology and neuroscience and their intersection. The first part of the course will familiarize the student with theories, concepts, and research paradigms employed in the field of social psychology. The second part will familiarize the student with principles of drug action as well as neural and chemical influences on socioemotional behavior. Prereq: Enrollment as doctoral student in Clinical Psychology program, and permission of instructor.

6220 Cognitive and Developmental Bases of Behavior G 3

This course provides graduate students with core background in the theory, methods, and central topics of Cognitive and Developmental Psychology. Additionally, the course will cover the intersection of Cognitive and Developmental Psychology with an emphasis on synthesizing methods and findings across disciplines. Prereq: Enrollment as doctoral student in Clinical Psychology program, and permission of instructor.

6609 Introduction to Mathematical Models in Experimental Psychology G 3

An introduction to cognition with a focus on the application of mathematical models. Topic areas include memory, decision making, categorization, word recognition, priming, and reaction time. Prereq: Not open to students with credit for 609.

6650 Seminar in Advanced fMRI Analysis Techniques G 3

For students who have already completed the intro-level fMRI course. We will discuss techniques such as fMR-adaptation, retinotopic mapping, multi-voxel pattern analysis, functional connectivity, representational similarity analysis, real-time fMRI, etc. We will discuss journal articles and experiment ideas applying these techniques. This course is intended for students with prior fMRI experience. Prereq: 5425, or permission of instructor. Repeatable to a maximum of 15 or hrs.

6652 Empirically Supported Therapies for Children with Developmental Disabilities G 3

The course will cover empirically-supported treatments from a variety of theoretical orientations, including behavioral, cognitive behavioral, and developmental approaches, as well as process by which therapies gain empirical support and standards by which a therapy is considered empirically supported. Various formats (e.g., individual, group, parent training) interventions will also be covered.

6700 Introduction to the Language Sciences G 3

A core course that provides students with a general overview of linguistics and surveys the areas covered by the specialization: Language and Cognition, Language and Brain Function, Language and Society, Language and Technology, and Language Description and Fieldwork. Guest faculty will present in their areas of expertise and students will read and prepare assignments in multiple areas. Prereq: Not open to students with credit for German 6700. Cross-listed in German.

6810 Statistical Methods in Psychology I G 4

Basic concepts of descriptive and inferential statistics; includes estimation, hypothesis testing, non-parametric techniques, and analysis of variance. Prereq: 2220 (220), or Grad standing, or permission of instructor. Not open to students with credit for 826 and 827.

6811 Statistical Methods in Psychology II G 4

Simple linear regression and correlation, multiple linear regression, interactions; introduction to other related methods such as nonlinear regression and random effects models. Prereq: 6810 (826 and 827), or equiv. Not open to students with credit for 828.

6820 Introduction to Bayesian Statistics for Psychological Data G 3

An introduction to Bayesian statistics & data analysis for graduate students in the Dept of Psychology. It reviews basic probability theory & Bayes theorem, provides a broad introduction to inference from the modern Bayesian perspective & contrasts that to more traditional frequentist inference. Topics covered include analysis of proportions & means, interval estimates, regression, & Bayes factors. Prereq: 6810 (828), and enrollment in Psychology.

6822 Statistical Mediation, Moderation, and Conditional Process Analysis G 3

The application of principles of linear modeling to exploring questions about mediated (mechanisms) and moderated (conditional) effects. Topics include classic and contemporary approaches to testing mediation and moderation hypotheses, path analysis, indirect and direct effects, probing and plotting interactions, and analytically integrating moderation and mediation analysis. Prereq: 6811 (828) or equiv, or permission of instructor.

6835 Child Development G 3

Major developmental aspects of childhood; review of theory, methodology, research studies, and historical and contemporary writing about children; consideration of interdisciplinary approaches. Prereq: Not open to students with credit for 835.

6849 Research Methods in Developmental Psychology G 3

A critical survey and evaluation of concepts and techniques in study of developmental psychology. Prereq: Not open to students with credit for 849.

6850 Ethics and Professional Issues in Psychology of Intellectual and Developmental Disabilities G 3

Considers ethical questions and dilemmas that psychologists encounter in their everyday practice, research, and teaching. It will take a problem-solving approach to ethical decision-making with students working toward consensus around constructive means for preventing problems, recognizing, approaching, and resolving ethical predicaments in the field of IDD Psychology.

6851 Seminar on the Teaching of Psychology G 3

Designed for first-time teachers of psychology; theory, philosophy, ethics, research, course planning and delivery, and practical strategies to promote teaching excellence. Prereq: Grad standing.

6853 Lifespan Developmental Psychopathology I G 3

Part one of a two-course sequence surveying the major psychopathological disorders across the lifespan from a developmental psychopathology perspective. Prereq: Permission of instructor. Not open to students with credit for 844.01.

6854 Lifespan Developmental Psychopathology II G 3

Part two of a two-course sequence surveying the major psychopathological disorders across the lifespan from a developmental psychopathology perspective. Prereq: Not open to students with credit for 854.

6861 Research Design and Methods in Clinical Psychology G 3

Introduction to the theory and use of clinical methods in psychology, designed for first-year graduate students in clinical psychology. Prereq: Permission of instructor. Not open to students with credit for 861.

6863 Psychometrics G 3

In-depth coverage of classic and contemporary topics in psychological measurement including test construction, reliability, validity, Item Response Theory, and computerized adaptive testing. Prereq: Permission of instructor. Not open to students with credit for 864.06.

6866 Empirically Supported Treatments G 2

Examination of current theories and empirical findings regarding the major forms of psychopathology and treatment. Prereq: Permission of instructor. Not open to students with credit for 866.02.

6867.01 Behavioral Medicine G 3

Behavioral medicine is an interdisciplinary field that examines health, disease prevention, illness, and disease progression. This course surveys the contributions by health psychologists to behavioral medicine. Topics include prevention, psychological responses to diagnosis and treatment, biobehavioral mechanisms of illness/disease, response to chronic illness, health behaviors, and emerging issues. Prereq: Grad standing in any health related discipline.

6867.02 Behavioral Medicine-Cancer G 3

This course provides follow-up to the general offering with a focus on cancer prevention & control. Topics include overview of cancer as an illness, cancer screening, biobehavioral responses to diagnosis & treatment, factors which place patients at risk for poor psychological/health outcomes, psychological interventions, issues relevant to diverse patient groups, & late effects complicating survivorship. Prereq: Enrollment in Health Psychology/Behavioral Medicine certificate program.

6870 Basic Principles of Social Psychology G 3

An overview of theory and research in experimental social psychology, emphasizing the basic motivational and information processing principles underlying the discipline. Prereq: Grad standing. Not open to students with credit for 870.

6880 Techniques and Topics in Cognitive Neuroscience G 3

This course is required for all Cognitive Neuroscience graduate students and for Cognitive Neuroscience concentration students. Students will attend talks given by internal faculty and engage in group discussions about relevant topics and techniques in the field of cognitive neuroscience.

7187 Introduction to Clinical Practice G 3

Overview of important topics relevant to the practice of psychology, with the goal of preparing clinical graduate students for their first practicum experience. Topics include ethics and legal statutes, diversity factors, concepts relevant to supervision and consultation, professional development, and common techniques used in therapy and assessment. Prereq: Permission of instructor.

7188 Practicum in Clinical Psychology G 1 - 9

Supervised practice in psychological assessment and intervention in the department's psychological services center. Open only to students in clinical psychology. Prereq: Permission of instructor. Repeatable to a maximum of 18 or hrs or 6 completions.

378 Psychology

7189	Supervised Field Experience in Psychology	G	1 - 9	7871	Social Cognition	G	3
Supervised experience, either research or operational, in any agency doing professional psychological work such as a school system, a psychological clinic, an industrial personnel department, or a counseling center. Prereq: Soph standing in Psych, and approval of local staff of area in which student is specializing. Supervised by member of local staff and, in the case of an external placement, some member of the outside agency approved by the Dept of Psychology. Repeatable to a maximum of 18 cr hrs or 15 completions. This course is graded S/U.				Introduces research in social cognition: the study of the cognitive underpinnings of social behavior and the ways individuals think about our social world. Prereq: 6870 (870), or Grad standing in Psych, or permission of instructor. Not open to students with credit for 871.01.			
7695.03	Developmental	G	1 - 3	7872	Social Motivation	G	3
Seminar in developmental psychology. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.				Survey of Social Psychology. Prereq: 6870 (870), or Grad standing in Psych, or permission of instructor. Not open to students with credit for 871.02.			
7695.04	Cognitive	G	1 - 3	7873	Attitudes and Persuasion	G	3
Seminar in cognitive psychology. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions.				Coverage of key psychological theories and research on attitudes and persuasion - how opinions, beliefs, and evaluations are formed and modified, and how they influence thinking and behavior. Prereq: Grad standing. Not open to students with credit for 630.			
7708	Psychology of Judgment and Decision Making	G	3	7874	Research Methods in Social Psychology	G	3
Introductory graduate course in the psychology of judgment and decision making, including applications to health, law, economics, environmental issues, and social, cognitive, and clinical psychology. Prereq or concur: Grad level course in statistical methods. Not open to students with credit for 708.				Overview of issues in designing and conducting research in social psychology with emphasis on the statistical, internal, external, and construct validity of social psychological research. Prereq: Permission of instructor. Not open to students with credit for both 876.01 and 876.02.			
7717	Interdisciplinary Perspective on Developmental Disabilities	G	3	7893	Seminar in Developmental Psychology	G	1 - 3
Introduction to the psychosocial, medical, and educational implications of developmental disabilities. Prereq: Permission of instructor. Not open to students with credit for 717.01 or 717.03. Cross-listed in HthRhSc, EducSt, SocWork, Nursing, and SphHrng.				Topics in developmental psychology. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U.			
7718	Interdisciplinary Perspective on Autism Spectrum Disorders	G	3	7894	Proseminar in Cognitive Psychology	G	2
Teaches the analytical skills necessary to comprehend and formulate an interdisciplinary framework relating to major scientific and theoretical perspectives in autism spectrum disorders. Prereq: Permission of instructor. Not open to students with credit for 717.01 and 717.02. Cross-listed in EducSt, HthRhSc, Social Work, Nursing, and SphHrng.				Topics in cognitive psychology. Prereq: Permission of instructor. Repeatable to a maximum of 24 cr hrs.			
7816	Action and Decision Making	G	3	7896	Special Topics in Quantitative Psychology	G	1 - 3
Considers theories of decision making in static and dynamic environments, and theories of action control in dynamic systems (e.g., those involved in driving, sports and music performance). Includes experience with simple dynamic simulations. Prereq: Not open to students with credit for both 815 and 816.				Special topics in quantitative psychology. Repeatable to a maximum of 36 cr hrs or 12 completions.			
7820	Fundamentals of Factor Analysis	G	3	7897	Topical Seminar in Social Psychology	G	2
Basic Common Factor Model and its application in psychology; model, communality estimation, factor extraction, orthogonal and oblique rotation, factor scores, confirmatory factor analysis, use of computer programs. Prereq: Permission of instructor. Not open to students with credit for 820.				A seminar offering in-depth analysis of a topic of current interest in social psychology. Enrollment is repeatable when the topic changes. Prereq: 6870 (870) or 8877 (875.01), or permission of instructor. Repeatable to a maximum of 16 cr hrs.			
7821	Covariance Structure Models	G	3	7898	Advanced Seminar in Behavioral Neuroscience	G	1 - 3
Theory and methods of testing models of covariance structures; general mathematical model, identification, parameter estimation, goodness of fit, model modification, and the use of computer programs such as LISREL. Prereq: 6811 (828) and 7820 (820), or permission of instructor. Not open to students with credit for 830.				Advanced topics in behavioral neuroscience. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 12 completions.			
7822	Fundamentals of Item Response Theory	G	3	7899	IDD Seminar: Topics in Developmental Disabilities	G	1
Basic concepts underlying item response theory; overview of more advanced topics. Prereq: 6811 (828), or permission of instructor. Not open to students with credit for 821.				This seminar course will provide students in the doctoral program in intellectual and developmental disabilities psychology with an overview of applied research and policy initiatives conducted by OSU-affiliated faculty and visiting scholars in the field. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.			
7823	Analysis of Repeated Measures and Longitudinal Data	G	3	7999	Thesis Research in Psychology	G	1 - 15
Review statistical methods for the analysis of repeated measures experiments and longitudinal studies, and investigate the way that participants change over time. Prereq: Permission of instructor. Not open to students with credit for 831.07.				Research for masters thesis purposes only. Repeatable to a maximum of 60 cr hrs or 8 completions. This course is graded S/U.			
7840	Practicum I/DD Psychology	G	3 - 6	8191	Internship in Psychology	G	0 - 9
Observation of children in a representative variety of clinical settings with particular reference to developmental phenomena of growth and behavior; application of research, diagnostic and intervention methodology. Prereq: 2nd yr Grad standing, and permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions. This course is graded S/U.				Full-time supervised training in an approved predoctoral internship agency; supervision and directed experiences coordinated by student's advisor, program training director, and internship training director. Prereq: PhD candidacy in clinical psychology, an approved dissertation proposal, and written permission of advisor. Repeatable to a maximum of 36 cr hrs or 4 completions. This course is graded S/U.			
7845	Cognitive Development	G	3	8192	Internship in Intellectual and Developmental Disability Psychology	G	0 - 9
Intensive survey of theory and research in cognitive development, including development of perception, language, memory, concepts, reasoning, academic skills, and social cognition. Prereq: Not open to students with credit for 845.				Full or part-time supervised training in an approved predoctoral internship agency; applied setting serving children or adults with IDD; supervision and directed experiences coordinated by student's advisor, program training director, and internship training director. Prereq: PhD candidacy in IDD Psychology, an approved dissertation proposal, and written permission of advisor. Repeatable to a maximum of 36 cr hrs or 4 completions. This course is graded S/U.			
7847	Language Development	G	3	8860	Current Research in Cognitive Neuroscience	G	2
Survey of language acquisition, including phonemes, words, morphology, syntax. Prereq: Not open to students with credit for 847.				This course is required for all Cognitive Neuroscience graduate students and for Cognitive Neuroscience concentration students. Students will attend talks by internal/external faculty, workshops given by the invited speaker's students/postdocs, and professional development workshops; students will also be required to give a talk about their research.			
7858	Seminar in the Assessment of Developmental Disabilities	G	3	8876	Professional Issues in Social Psychology	G	3
Exposes students to relevant issues in the assessment of developmental disabilities. An emphasis is placed on intellectual disability and autism spectrum disorders. Prereq: Permission of instructor. Not open to students with credit for 859.01.				Overview of professional issues facing the social psychologist seeking an academic career - focus on review of journal articles and grants as well as broader issues. Prereq: Permission of instructor. Not open to students with credit for 876.03.			
7864	Psychological Assessment	G	3	8877	Current Research: Attitudes	G	3
Theories and methods of psychological assessment; integration of different theories and approaches. Prereq: Permission of instructor.				Advanced training in the conduct, evaluation, and presentation of research related to attitudes, attitude change, and the consequences of attitudes for judgments and behavior. Cannot be taken concurrently with 8878. Prereq: Admission to Psychology's Social Psychology doctoral program. Repeatable to a maximum of 24 cr hrs.			
				8878	Current Research: Social Cognition	G	3
				Advanced training in the conduct, evaluation, and presentation of research related to social cognition. Cannot be taken concurrently with 8877. Prereq: Admission to Psychology's Social Psychology doctoral program. Repeatable to a maximum of 24 cr hrs.			

8880	Current Research in Decision Psychology	G	2
Advanced training in the conduct, evaluation, and presentation of research related to the psychology of decision making. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs.			
8881	Cognitive and Affective Influences in Decision Making	G	3
Provides an introduction to recent trends in decision research. We make choices and perceive risk based on cognitive, affective, and motivational factors that influence how we perceive meaning and construct our preferences. The course will cover theoretical distinctions and their application to practical domains such as health, finances, and the environment. Prereq: Permission of instructor.			
8890	Topical seminar in Decision Psychology	G	2 - 5
Provides an in-depth analysis of a specialized research area in decision psychology. The course will cover theoretical distinctions and might cover their application to practical domains such as health, finances, and the environment. The course is repeatable when the topic changes. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions.			
8891	Advanced Seminar in Clinical Psychology	G	2 - 3
Advanced topics in clinical psychology. Repeatable to a maximum of 12 cr hrs or 6 completions.			
8896	Advanced Seminar in Quantitative Psychology	G	1 - 3
Advanced seminars in quantitative psychology. Prereq: Permission of instructor. Not open to students with credit for 831.08. Repeatable to a maximum of 15 cr hrs or 5 completions.			
8999	Dissertation Research in Psychology	G	1 - 15
Research for dissertation purposes only. Repeatable to a maximum of 60 cr hrs or 15 completions. This course is graded S/U.			

Public Affairs, John Glenn College

1100	Public Affairs Advising Survey	U	1
Introduction to the Public Affairs major at Ohio State, as well as University and Glenn School academic policies and procedures. Prereq: Permission of instructor. Not open to students with credit for 100. This course is graded S/U.			
1191	High School Internship	U	3
Part of an innovative public service internship program for selected high school seniors who are admitted to the OSU Academy. It is coupled with a related intensive academic seminar (PubAfrs 1190). Concur: 1190 (294). Not open to students with credit for 294.			
2110	Introduction to Public Affairs	U	3
Introduces students to the policymaking process and the core crafts on which schools of public affairs focus: policy analysis & evaluation and public administration & management. GE soc sci human, nat, and econ resources course. GE foundation social and behavioral sci course.			
2120	Public Service and Civic Engagement	U	3
This course introduces students to the role an engaged citizenry plays in a democracy. Students will explore trends in civic engagement, the reasons behind these trends, and their consequences; along with issues of social equity in engagement and strategies to increase civic participation. GE theme citizenship for div and just wrld course.			
2130	Leadership in the Public and Nonprofit Sectors	U	3
Students examine theories of leadership; learn the unique challenges of being a leader in the public or nonprofit sectors; analyze the practices, strategies, and habits of successful leaders; and assess their own leadership competencies. Recommended prereq: 2110. Prereq: Not open to students with credit for 290.			
2150	Nonprofit Organizing for Diversity and Justice	U	3
The nonprofit sector is one of the primary venues in which Americans engage in citizenship behaviors, while also serving multiple roles which are central to the advancement of a well-functioning democracy. Through a combination of readings, writings, dialogic debates, and guest speakers, students will become informed nonprofit sector stakeholders and participants. GE theme citizenship for div and just wrld course.			
2160	Exploring Public Affairs	U	1
Overview of public affairs as a field. Exposes students to relevant career opportunities. The course draws on experience of faculty and practicing professionals, providing public affairs perspectives in traditional and nontraditional career paths. Prereq: Open to John Glenn Learning Community students only or by permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
2170	Equity, Justice, and Public Service	U	3
Through exploration of the definitions and intersectionality of concepts including race, gender, ethnicity, and socio-economic status, this course examines how public administration management decisions and policy result - or not - in socially equitable application. GE foundation race, ethnicity and gender div course.			
2193	Individual Study	U	1 - 6
Individual studies in public affairs. Prereq: Fresh or Soph standing and permission of Associate Director of Academic Affairs and Research. Repeatable to a maximum of 12 cr hrs or 5 completions. This course is graded S/U.			

2194	Group Studies	U	1 - 6
Designed to give groups of undergraduate students an opportunity to pursue special studies in topics not otherwise offered. Prereq: Fresh or Soph standing and permission of Associate Director of Academic Affairs and Research. Repeatable to a maximum of 18 cr hrs or 6 completions.			
2367	Writing and Communication in Public Affairs	U	3
Being an effective communicator can determine the reach and impact of policy, as well as the ability to influence change. In this course, you will become a better writer and speaker on a topic of public policy; including communicating to diverse audiences with differing information demands. Prereq: English 1110 or equivalent, and sophomore standing; or permission of instructor. GE writing and comm course: level 2.			
2368	Nonprofit Communications & Grant Writing	U	3
Good communication is a powerful tool for any professional, but it is particularly potent in the world of nonprofits that must build many internal and external relationships. In this course you will sharpen your communication skills through practice, self-critique and peer review, with a special emphasis on policy writing and grant writing. Prereq: Not open to students with credit for Public Affairs 2367.			
2500	History of Public Administration	U	3
This course is an introduction to the history of public administration around the world from the earliest time up to the present, and the emergence and development of government and governing over time. Prereq or concur: English 1110.xx. GE historical study course. GE foundation historical and cultural studies course.			
2620	Science, Engineering, and Technology for Policy and the Public Interest	U	3
Science, engineering and technology policy problems are inherently interdisciplinary and challenging: science and engineering can be used to inform public policy; and public policy shapes the conditions and manner in which science and engineering are performed. This survey course will provide a fast-paced introduction to these realities using examples drawn from contemporary events and analyses. GE theme citizenship for div and just wrld course.			
2630	Contemporary Civil-Military Relations in the United States	U	3
The vision for this course is to connect Americans with their military - to build mutual understanding between military and civilian experiences. As a member of the American public, you have a say in what the military looks like and how it engages with the world. This course teaches you the tools and skills to effectively engage in military veterans policy.			
3000	Public Policy Analysis	U	3
Introduces students to the concepts, theories, and methods of applied policy analysis. Students develop an understanding of market failures and the tools available to public sector actors to mitigate them. Students also learn various methodological approaches to analyze public policy at the formulation and implementation stages. Prereq: Econ 2001.01, 2001.02, or 2001.03, and GE Data Analysis course; or permission of instructor.			
3110	Education Policy in a Changing World	U	3
Reviews how political actors and institutions govern K-12 public education in the United States and helps students analyze contemporary education policy debates.			
3140	Nonprofit Management and Governance	U	3
This course prepares students to manage and lead nonprofit organizations. Through case studies and other materials, students will learn about topics such as organizational creation, leadership, strategic planning, performance evaluation, human resources, finance, marketing, and collaboration.			
3150	Fundraising and Philanthropy for Nonprofits	U	3
Fundraising is a core function within nonprofits. This course builds students' skills, knowledge, and abilities connected to fund development. Students will become familiar with fundraising strategies, processes, evaluation, and systems across nonprofit contexts.			
3210	Civics, the Making of Law, and the Development and Implementation of Public Policy	U	4
This course is an introduction to the range of topics that exists at the intersection of civics, public policy, and law. It provides a grounding in the operation of the three branches of American government and the complexities of their interrelationships, as well as the democratic challenge of organizing them for the promotion of the common good and the advancement of a just & equitable society. GE theme citizenship for div and just wrld course.			
3500	Public Management	U	3
Students are introduced to public management concepts and gain the competencies required to become effective public managers. They consider the unique challenges of managing public organizations and learn how to apply management tools to improve organizational performance. Recommended prereq: 2110.			
3620	US Space Policy and the Global Space Economy	U	3
This course provides a broad survey of US space policy and the national and international actors in the aerospace enterprise. It will explore the origins of the social, political, and economic implications of space policy choices made by American leaders, as well as the geography of space pursuits and the motivations behind various countries' space policies.			

380 Public Affairs, John Glenn College

3800 Career Exploration and Job Readiness in Public Affairs U 1

Professional development skills course for undergraduate public affairs majors. The purpose of the course is to help students explore career options and next steps, develop career-specific skills such as interviewing, networking, and resume development, and connect with professionals in the field of public affairs. Prereq: Enrollment in John Glenn College of Public Affairs, or permission of instructor.

4000 Public Policy Evaluation U 3

Students learn how to design and perform policy evaluations focused on policy processes and outcomes, using both qualitative and quantitative data. There is particular emphasis on the development of research designs and application of analytic methods for public policy evaluation. Prereq: 3000.

4010 Public Affairs Decision-Making U 3

Introduces students to research on decision-making and its practical application in the public and non-profit sectors. Draws on interdisciplinary scholarship that examines how people make decisions and considers the application of these insights in the design of public policy and the management of public and non-profit organizations. Prereq: 3000.

4011 Public Affairs Capstone U 3

A capstone course for public affairs majors that focuses on the integration and application of public affairs knowledge and skills, as well as the transition from undergraduate study. Students complete an applied analysis or research paper on a policy or management topic of interest to them. Prereq: 2110, 2120, 3000, and 3500.

4020 Contemporary Issues in Governance: Washington DC U 3

Academic seminar of the Washington Academic Internship Program. Students will study public policy and management in the federal context. Discussion of common readings will expose students to topical issues in governance and provide a unique opportunity to apply knowledge, utilize analytical tools, and research various subjects in the environment in which policy and administration takes place. Prereq: Jr standing, and acceptance into the Washington Academic Internship Program. Not open to students with credit for 4011.

4021 Research Paper in Public Affairs: Washington DC U 3

Capstone course to write an analytic research paper that examines an important policy or management challenge in the public sector. Paper will be written as part of participation in Washington Academic Internship Program. Prereq: Jr or Sr standing, and acceptance into Washington Academic Internship Program. Concur: 4020 and 4191.02.

4030 Public Budgeting U 3

Provides a high-level understanding of budgeting processes at all levels of government and in the nonprofit sector, as well as the fundamentals of public budgeting from the perspective of a practitioner. Reviews basic methods for public sector budgeting and analysis. Prereq: Econ 2001.01, 2001.02, or 2001.03.

4040 Public Sector Data Sciences and Management U 3

This course provides an orientation to the use of data for decision-making in the public sector. The emphasis of the course is on how to use data in context - when organizations require the analysis of sophisticated data in order to achieve goals or priorities. Prereq: Completion of the PubAffs BA or BS GE Requirement for data analysis.

4191.01 Public Affairs Internship U 1 - 3

Internship with a public, non-profit or similar organization in which students learn about sector combined with academic research component relevant to internship area. Prereq: Students must have internship approved by John Glenn College prior to registering. Students may not receive credit for an internship already completed. Prior approval required. Repeatable to a maximum of 6 cr hrs or 2 completions.

4191.02 Student Internship in Public Affairs: Washington DC U 3

Washington D.C. Academic Internship Program offered through the John Glenn School of Public Affairs. Students from any discipline at the university may apply. Interns explore public policy issues and link experience to theoretical foundations. Students must be accepted to program in order to participate. Concur: 4011 and 4021. Not open to students with credit for 589. Repeatable to a maximum of 9 cr hrs or 3 completions.

4191.03 Student Internship in Public Affairs U 3

Students will work an average of 10-12 hours per week at their designated internship. Internship placements are made with the intent of serving the needs of the host organization or government agency. This class will serve as the academic component of OGIP, sponsored by the State of Ohio Leadership Institute. Prereq: 2120 or PolitSc 3115.

4310 State and Local Government Finance U 3

Financing public services by state/local governments. The fiscal relationship between state/local governments and the federal government. Apply techniques of economic analysis to policy issues. Prereq: Econ 2001.01, 2001.02, or 2001.03. Cross-listed in Econ.

4510 Law and Public Affairs U 3

Introduces students to the legal environment within which public employees and administrators operate, emphasizing the work of the judiciary, and providing a legal basis for the study of public affairs, with a focus on how the courts engage in the policy making process.

4535 International Economic Development U 3

Study of the growth and diversification of developing economies and the causes of poverty and inequality. Analyze the impacts of human capital formation, markets, and public policy on development. Prereq: AEDEcon 2001 (200) or Econ 2001 (200). Not open to students with credit for AEDEcon 435 or AEDEcon 535, or IntStds 4535 (535). Cross-listed in AEDEcon and IntStds.

4998 Undergraduate Research U 1 - 12

Individually supervised undergraduate research and project work in Public Affairs. Prereq: Jr or Sr standing, and permission of the Associate Director of Academic Affairs and instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is progress graded.

4999.01H Honors Undergraduate Thesis U 1 - 3

Honors Thesis in various topics related to Public Policy. Requires an Honors Thesis. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is progress graded.

4999.02H Honors Undergraduate Thesis II U 1 - 3

Honors Thesis in various topics related to Public Policy. Requires an Honors Thesis. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is progress graded.

5030 Local Government U G 3

Designed to provide a basic introduction to local governments and their relationship to state government. The course will cover organization, structure, responsibilities, management, and financing of local governments.

5060 Managing People in Public and Nonprofit Organizations U G 3

This course is designed to enhance students' management and leadership skills, preparing them to diagnose and solve organizational problems, to influence the actions of other individuals, groups, and organizations, and to manage high-performing, successful public and nonprofit service organizations. Prereq: Acceptance into the Public and Nonprofit Leadership and Management certificate program.

5062 Leadership Development Application U G 3

PA 5062 is designed to hone and demonstrate students' accumulated leadership knowledge and skills needed to successfully direct a work group or organization to achieving its public service goals. Prereq: 5060, and acceptance into the Public Leadership and Management Certificate program.

5100 Contextual Awareness for Leaders In Public Organizations U G 3

Cultivates contextual awareness for public officials and the societal environment in which they operate. Effective and inspiring leadership is developed in this course through experiential learning of how one is perceived and how perceptions of others can be managed. Develops awareness of heuristics and biases that may play a role in assessing situations in work and organizational environment. Prereq: Must be accepted to the Ohio Public Servants Leadership Academy (OPSLA). Not open to those with credit for 4600.

5101 Organizational Culture and Ethics into Practice U G 3

Intensive course on organizational culture, types of organizations and how structures influence various cultures (family, workplace, school, country, church); and the relation between organizational and individual ethics. Prereq: Acceptance into the Ohio Public Safety Leadership Academy (OPSLA). Coreq: 5102. Not open to students with credit for 4600.

5102 Organizational Theory into Practice U G 4

Investigates various types of organizations, interagency relations, intergovernmental relations, program evaluation, budgeting and finance, data management, policy making, leadership theory and styles and the relation between type of organization and its functioning. Prereq: Admission to the Ohio Public Safety Leadership Academy (OPSLA). Coreq: 5100 and 5101. Not open to students with credit for 4600

5110 Higher Education and Workforce Policy U G 3

This course provides an overview of higher education and workforce training, and examines the role of government in the strategic planning, funding, and monitoring of education after compulsory schooling. The class will address both the systems in the United States, as well as workforce and higher education in developing and other developed countries.

5120 Social Change Advocacy: Organization, Mobilization, and Activism U G 3

This course engages students in the process of becoming a social change advocate. The course covers a range of advocacy approaches including insider and outsider strategies engaged by nonprofit organizations as well as individuals. Students will complete assignments to learn about the social issue of their choice and prepare themselves to become an efficacious advocate on that issue.

5193 Individual Study U G 1 - 6

Individual Studies in Public Affairs. Prereq: Jr standing and permission of Associate Director of Academic Affairs and Research. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

5194 Group Studies U G 1 - 6

Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.

5240 Race and Public Policy in the United States U G 3

This course explores race and public policy in the United States from Reconstruction to the present. In particular, the class is designed to look at the long history of hot topics in the current policy landscape, including policing, housing, wealth gap, immigration, voting, political representation, and others. Prereq: Jr, Sr, or Grad standing; or permission of instructor. Not open to students with credit for AfAmAST 5240 or CompStd 5240. Cross-listed in AfAmAST and CompStd.

5250 Poverty, Inequality, and Public Policy U G 3

Presents the distribution, trends, causes, and consequences of poverty and inequality in the US and social science frameworks for understanding and analyzing public programs available to poor and near-poor Americans. Current and historical issues in social policy and poverty, program design, and implementation. The role of government, personal choice, education, employment, and discrimination. Prereq: Econ 2001.01, or permission of instructor.

5350 Governing the End of Nature? Environmental Policy in the Anthropocene U G 3

Advanced introduction to the many challenges of governing human relationships with nature when people themselves seem to have become a force for planetary change. The approach is sociological and policy-oriented; it introduces young social scientists, policy scholars, and natural scientists to broadly sociological, historical, political, and economic ways of understanding environmental problems.

5400 Planning for Housing U G 3

Housing - including its uses, meaning, design, and role. The creation of a range of housing to support growth and revitalization of cities and regions. Prereq: Not open to students with credit for CRPlan 320, 752, or 5400. Cross-listed in CRPlan.

5506 Administration of Criminal Justice Policy U G 3

Students will become familiar with the structure of the criminal justice system and the application of public management and organizations theory to the criminal justice system. Many of the applications will focus on Ohio, but the theories and concepts are broadly applicable to the American system of criminal justice.

5513 Excel Basic Skills U G 1

This first of two Excel courses focuses on how to use Microsoft Excel from basic data entry, formatting, filtering and sorting, basic functions and formulas, basic nest formulas, and basic charts and graphs. A variety of techniques and data management concepts are presented and discussed. Real world examples are used to provide context. Repeatable to a maximum of 2 cr hrs.

5514 Excel Advanced Skills U G 1

Excel Advanced Skills focuses on how to use intermediate to advanced Microsoft Excel functionality from nested formulas to data analysis through the use of pivot tables and creating interactive worksheets. A variety of techniques and data management concepts are presented and discussed. Real world examples are used to provide context. Excel Basic class not required but recommended for beginners.

5515 Conversing with Confidence Across Differences U G 1

This course uses self-reflective and case-based approaches to present frameworks and strategies to support students in the development and sharpening of skills necessary to engage in safe, authentic, and effective conversations across differences in a public affairs setting.

5531 Economic Development Policy and Practice U G 3

This course takes a microeconomic and public policy approach to understanding regional economies and economic development. Students will become familiar with methods that are commonly used in the analysis of regional economies, as well as business and public policy issues surrounding redevelopment in our urban core. Prereq: Not open to students with credit for 7531 or CRPlan 7531. Cross-listed in CRPlan.

5545 Make a Difference in Washington U G 1

Intended to orient students to the priorities and complexities of the capital of the United States: what it does, why it does it and how. The mission of the course is to provide a broad view into one of the world's main power centers.

5573 Qualitative Methods in Public Affairs Practice U G 3

This course aims to familiarize students with various strategies employed in conducting qualitative research and to provide students with the basic skills and techniques researchers use to gather and analyze qualitative data and evaluate qualitative analysis. The course is intended for upper-level undergraduate students and graduate students that aim to use qualitative methods in practice.

5590 Fundraising and Development for Nonprofits U G 3

Designed for students interested in careers or volunteer roles in nonprofit management and current professionals in this area, this course teaches skills, theories, and applied methods of generating funding and creating development plans.

5591 Lobbying and Government Relations U G 3

Designed to provide an introduction to lobbying government affairs and at the local, state and federal levels of government. Prereq: Not open to students with credit for 880.06.

5592 Social Marketing for Nonprofit and Public Organizations U G 3

This course covers social marketing approaches for mission-driven organizations. It provides students with an introduction to marketing theory, and will equip them with practical experience developing a social marketing plan that addresses challenges unique to nonprofit and public organizations.

5595 Nonprofit Social Enterprise U G 3

Faced with a tough financial environment and accumulating social demands, nonprofit leaders are increasingly called to be enterprising. Nonprofit social enterprises are tax exempt organizations that draw on market principles to achieve their social mission. The purpose of this course is to introduce the core concepts of social enterprise and to learn how to apply them.

5600 Science, Engineering, and Public Policy U G 3

Presents the history of the interactions between science, engineering, and public policy in the United States and in the context of global concerns (e.g. climate change, competitiveness), inquires into how various federal government, universities, & corporations conduct & fund science and engineering & explore how public sector interests & processes influence sci, engr & public policy. Prereq: Jr, Sr, or Grad standing; or permission of instructor. Cross-listed in EnvEng.

5610 Innovation, Policy, and the Global Economy U G 3

This course examines frameworks and theories of public administration, governance, and policy for science and engineering at the international level. It will critique existing theories of global knowledge development and transfer, governance, and trade through the lens of science and engineering. Prereq: Jr, Sr or Grad Standing.

5620 Rapid Innovation for Public Impact U G 4

The Rapid Innovation for Public Impact course is like a multi-disciplinary capstone or hands-on applications course in which student teams tackle real, contemporary, complex problems sponsored by government or non-profit agencies. Following Lean Innovation methodology, student teams develop minimum viable products (MVP) or prototype-solutions through intensive customer discovery and agile design.

5700 Rebuilding Failed and Weak States U G 3

Tackles the question of how to design policies and programs to rebuild failed and weak states into functioning, if not vibrant, democracies. Prereq: Soph standing or higher or permission of instructor. Not open to students with credit for 670 or IntStds 5700 (670). Cross-listed in IntStds.

5750 Public Policy: The Business-Government Relationship U G 3

Business tools and strategy for influencing government; evolution and direction of public policy toward business. Prereq: Jr standing or above.

5770 Risk & Decision Analysis in Public Affairs U G 3

This course provides a comprehensive assessment of theories and tools for decision-making in the face of risk and uncertainty, giving a rigorous treatment of current issues and approaches in risk analysis through both qualitative and quantitative lenses.

5800 Special Topics Seminar in Public Affairs U G 3-4

Designed to give students an opportunity to pursue special studies in topics not otherwise offered. Prereq: Jr standing or above, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.

5890 US Food Policy U G 3

An examination of national food affairs and policy at the federal level. Attention will focus on contemporary policy issues including food insecurity, health claims, obesity, novel crops, ingredients and processing techniques, sustainability, corporate consolidation, and food advertising; as well as how these issues impact the choices of federal institutions.

5895 Food Insecurity, and Food Assistance Programming and Policy in the U.S U G 3

Students will explore the complex set of factors that influence food insecurity in the U.S.; current approaches to addressing food insecurity in the U.S. at the local, state, and federal levels; the historical, social, political, and economic roots of current programming efforts; the strengths, limitations, and controversies related to such programming; and the potential for social welfare policy. Cross-listed in HthRhSc.

5900 Food System Planning and the Economy U G 3

Examines the social, environmental and economic costs and benefits of our food production, distribution, and consumption. Prereq: Not open to students with credit for AEDEcon 5900 or CRPlan 5900. Cross-listed in AEDEcon and CRPlan.

6000 Public Policy Formulation and Implementation G 4

Overview of the public policy process and the historical and contemporary context in which policy making and implementation are carried out in the United States at the federal, state and local levels.

6010 Legal Environment of Public Organizations G 4

Provides students an understanding of the legal foundations of public affairs. Students use legal reasoning to examine and analyze the constraints imposed on public policy making and program management and implementation by the legal environment. Prereq: Not open to students with credit for 802.

6020 Foundations of Data-Driven Sustainable Energy Systems G 3

Introduction to issues impacting sustainable energy systems across technology, law and policy, business models, resilience, data, geospatial, and decision sciences. Prereq: Enrollment in Data-Driven Sustainable Energy Systems Graduate Interdisciplinary Specialization, or permission of instructor. Not open to students with credit for AEDEcon 6500, EnvEng 6020, FABEng 6020, Geog 6020, or ISE 6020. Cross-listed in AEDEcon 6500, EnvEng 6020, FABEng 6020, Geog 6020, and ISE 6020.

6030 Public Sector Economics G 4

Economic analysis in the public sector. Application of economic analytical techniques to identify and frame public policy problems; analysis of policy solution trade-offs; efficiency; market failure; public choice. Prereq: Econ 2001, or equiv.; or permission of instructor.

382 Public Affairs, John Glenn College

6040	Public Budgeting and Finance	G	4	Survey/analysis of government fiscal activities; taxation principles, intergovernmental relations, fiscal problems; public sector budgeting; budgets as mechanism for planning/allocating/controlling resources; tools for program and results evaluation. Prereq: 6030 or PubHHMP 7602 (CoPH students only); or permission of instructor.	6525	Survey Design in Public Affairs	G	1	Surveys key concepts and methods of survey design and implementation for public program evaluation and public policy analysis. Prereq: Grad standing or permission of instructor.
6045	Fundamentals of Budgeting and Financial Administration	G	2	Focuses on planning and financial decision-making in public and nonprofit organizations. It provides a higher-level understanding of government and nonprofit budgeting processes.	6530	Negotiation for the Public Sector	G	1	Negotiation skills have been identified as critical for effective, successful public management and leadership. Explores the major concepts and theories of negotiation to improve negotiation skills. Through readings, role play exercises and class discussion, students develop an understanding of individual negotiation styles and core approaches to negotiation and dispute resolution. Prereq: Grad standing, or permission of instructor.
6050	Managing Public Sector Organizations	G	4	Learn to manage public sector organizations with a focus on the external environment: context of public sector organizations, their structure, how they operate; managing organizational performance, innovation, and change.	6540	Professional Development Skills: Washington DC	G	1	Public administration professionals face an ever-changing professional landscape in a variety of occupations across the public, nonprofit, and private sectors. This class is specifically taught through the lens of Washington, DC, as it serves students who will intern and take courses in DC next year. Provides tools needed to make students successful in the job search and workforce.
6051	Into to Public Affairs and Orientation to the Program	G	4	Prepares students for their roles as action-oriented administrators, managers and leaders within a democratic system of governance. Through online readings, videos, and exercises students will explore the context of public sector management and leadership. Provides exposure to the full curriculum plan and solidifies the work-based project that will span the degree program.	6545	Washington Navigator	G	1	Students will learn to navigate the nation's capital during their first-semester in Washington to set themselves up for professional success through panels and speakers, professional pathway planning, and networking. This course is only offered in Washington, D.C. and is a required course for students enrolled in the MPA-D.C. program at the John Glenn College of Public Affairs. Prereq: Acceptance into the John Glenn College of Public Affairs MPA-DC program.
6055	Judgment in Managerial Decision-Making	G	2	This course will present a diverse set of models and skills to analyze and guide decisions in operational and managerial settings by drawing on scholarship from economics, psychology, sociology, political science, and management. Provides opportunities for managers to practice how to identify common biases and logical fallacies and employ skills and techniques to compensate for them.	6550	Public Management Communication in a Hybrid World	G	1	An introduction to public management in a rapidly evolving work environment, with an intense focus on how to effectively communicate with remote and hybrid internal and external audiences. We will explore the latest tools and approaches needed to convey critical, complex policy and management information in ways that capture attention and drive results.
6060	Managerial Leadership in Public and Nonprofit Organizations	G	4	Managerial Leadership in Public and Nonprofit Organizations with focus on internal operations, processes, and resources; human resource management, information technology; other aspects of internal capacity.	6565	Coaching as a Leadership Skill	G	1	Coaching is a professional expertise backed by science and a craft best honed by study and practice. It is a skill that can be transformative when used by leaders and managers. This course is designed to share the science that supports coaching as a leadership tool and prepare students/participants to learn and practice fundamental coaching skills that will aid their leadership abilities.
6070	Public Affairs Statistics	G	4	Provides students with analytical knowledge and tools necessary to acquire, manage and analyze data. Students learn probability and statistics to conduct analysis and evaluation and evaluate the quality of analyses conducted by others. Prereq: Not open to students with credit for both 820 and 822.	6890	Special Topics: Skills in Public Affairs	G	1	Contains special topics exclusively appropriate to the "Skills" portion of the Glenn School Masters curriculum. Prior to scheduling, a syllabus with learning objectives, topics, and a rationale will be agreed upon by the faculty. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 8 cr hrs.
6075	Data, Models and Evaluation	G	4	This course will provide the knowledge and tools necessary to analyze data. Students learn about fundamentals of statistics to conduct analysis, and they will develop an understanding of program evaluation and research design in order to evaluate the quality of analyses conducted by others and communicate findings. Work on applied project related to their jobs that culminate in Capstone projects.	7194	Group Studies	G	1 - 4	Designed to give groups of students the opportunity to pursue special advanced studies in topics not otherwise offered. Repeatable to a maximum of 16 cr hrs or 4 completions.
6080	Public Affairs Program Evaluation	G	4	Equips students with knowledge and skills to evaluate public policies and programs. Students learn about different types of evaluations and research designs for conducting evaluations. Exposure to ethical considerations in conducting evaluations. Prereq: 6070, 6070.01, or 6070.02.	7501	Grant Writing in the Public & Nonprofit Sectors	G	3	Grant writing is a useful skill for raising funds in the public and nonprofit sectors. This course helps students understand the complexities involved in grants management, from the beginning process of grant-seeking through writing the proposal and then post-award. Prereq: Not open to students with credit for CRPlan 6610. Cross-listed in CRPlan 6610.
6193	Individual Studies	G	1 - 6	Master's level individual studies in public affairs. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.	7503	Higher Education Policy for Public Leaders	G	3	Provides an introduction to education policy for public sector leaders. Topics include Higher Education economic foundations, budget processes, current policies, and international education and practice.
6194	Group Studies	G	1 - 6	Designed to give groups of students an opportunity to pursue special studies in topics not otherwise offered. Repeatable to a maximum of 18 cr hrs or 3 completions. This course is graded S/U.	7505	Wicked Policy Problems	G	3	Elective course examines "wicked" policy problems, or policy problems that require attention to multiple causal factors (e.g. economic, financial, political, social, cultural, technological).
6500	Public Affairs Skills: Written and Oral Communication	G	2	Being an effective communicator can determine the reach and impact of policy, as well as the ability of a public manager to influence change. Course information includes becoming a better writer and speaker on a topic of public policy - including communicating to diverse audiences with differing information demands. Prereq: Not open to students with credit for 809. Repeatable to a maximum of 4 cr hrs.	7507	Criminal Justice Policy	G	3	Overview of criminal justice system with focus on structural, organizational, and micro-level aspects of the criminal justice policy process; study of key systemic as well as current policy issues and fiscal impacts of policies. Prereq: Not open to students with credit for 840.
6505	Public Affairs Skills: Governmental Accounting	G	1	Explores governmental accounting and financial reporting. Topics include long term financing and state and local government financial condition analysis. Prereq: Not open to students with credit for 852.	7508	Juvenile Justice System Policy	G	3	Studies similarities and differences in juvenile and criminal justice processes, and explores key policy and budgetary issues in the administration of juvenile justice. Prereq: Not open to students with credit for 841.
6510	Conveying Quantitative Data in Public Affairs	G	1	Provides students with an understanding of how to convey complex information visually using software tools so as to facilitate, frame and inform debates around issues in public policy and public finance. Prereq: Grad standing or permission of instructor.	7509	Disasters: Preparedness and Response	G	3	Introduction to planning, policy and management issues that arise when disaster strikes, and the roles of government, non-profits, communities and individuals in emergency preparedness by examining a variety of recent natural and human-made disasters, both in the U.S. and abroad. Cross-listed in CRPlan.
6515	Database Management	G	1	Addresses the efficient and effective use of the database environment as a resource for the support of decision making at tactical, strategic and policy levels within the public sector. Prereq: Grad standing or permission of instructor. Not open to students with credit for 821.	7533	Nonprofit Financial Management	G	3	Management of financial resources is paramount to a nonprofit's success. Designed for students interested in careers or volunteer roles in nonprofit management and current professionals in this area, this course covers how to review and analyze financial statements, develop and edit budgets, and requirements for audits - even if you are not a CPA or financial professional.

7534	Privatization	G	3		
	Examines the theory and current practice of privatization against the backdrop of public policy and public administration. Prereq: Not open to students with credit for 880.07.				
7535	Regulation and Deregulation	G	3		
	Examine the strengths and limitations of economic and social regulation, the occasion for and evolution of their policy development, and the prospects for regulation, deregulation, and re-regulation in the U.S. economy. Prereq: Not open to students with credit for 880.05.				
7550	Contract Management	G	3		
	Provides students with a perspective on the need and methods for managing contract relationships and outsourced services in the public-sector.				
7553	Nonprofit Management and Governance	G	4		
	This is an advanced survey course on nonprofit management and governance, with a concentrated focus on managing the external environment and evaluating nonprofit capacity for organizational performance and social impact.				
7554	Performance Measurement and Management in the Public Sector	G	3		
	Provides students with an understanding of performance measurement and management principles to create useful performance information, to use data to manage operations, to develop more effective employees and to make financial decisions.				
7555	Project Management	G	3		
	Introduction to international standards and methods for project management (PM); the application of tools, the basic, ancillary, and "soft" skills for successful PM; public sector challenges; and strengths/limitations in a complex organic environment. Prereq: Not open to students with credit for CRPlan 6620. Cross-listed in CRPlan 6620.				
7557	Strategy for Public Organizations	G	3		
	Provides students with a strategic perspective on the management and leadership of public sector organizations. Prereq: Not open to students with credit for 812.				
7571	Multivariate Regression Analysis	G	3		
	An applied course in regression analysis in which students use multiple regression to make predictions and test hypotheses to help inform policy analysis. Prereq: 6070 or equiv. Grad level introductory statistics course.				
7572	Policy Simulation and Modeling	G	3		
	Introduction to the development of conceptual and data models for public policy analysis including hands-on experience with using simulations tools for agent-based and system dynamics modeling. Prereq: 6080 (804) or permission of instructor.				
7573	Qualitative Methodologies for Public Affairs Research	G	3		
	This course reviews prominent qualitative methodologies used in public affairs research with an emphasis on the interpretive tradition. Students will learn how to design and conduct rigorous and ethical qualitative research for the purpose of theory- and knowledge-building. The course is intended for doctoral students and research-oriented masters students. Repeatable to a maximum of 6 cr hrs.				
7574	Mixed Methods Approaches for Policy-Related Research	G	3		
	Evaluate the strengths and weaknesses of various mixed method research designs and how to identify a design that is appropriate for your research question. The course will compare different paradigms, sample/case selection logics, and types of evaluation associated with qualitative, quantitative, and mixed methods research. Cross-listed in HthRHSoc.				
7600	Federal Policy & Administration	G	3		
	Provides a unique opportunity to explore U.S. federal policy and administration in the nation's capital. Students will be exposed to a range of issues that are among the most salient to understanding the complexities of the federal government. Students will apply knowledge, utilize analytical tools, and research various subjects relating to the federal policy and administration. Prereq: 6000.				
7610	Follow the Money: Making Sense of the Federal Budget	G	3		
	The federal budget is arguably the most powerful policy tool in the U.S. government and has far-reaching impact not only across America, but the world. This course addresses the role and importance of the federal budget in politics, policy, and management and is designed for students whose careers intersect with the federal government, deepening their understanding of how resources are allocated.				
7650	Public Management in a Hybrid World	G	3		
	This course provides an introduction to public management and management communication in a rapidly evolving work environment, with an intense focus on how to effectively manage and communicate with remote and hybrid internal and external audiences.				
7853	Nonprofit Research Seminar	G	3		
	This course provides public and nonprofit scholars and leaders with an orientation to the essential and distinctive characteristics of the nonprofit sector. The course is a multidisciplinary exploration into nonprofit organizations, philanthropy, and volunteerism in society, and is also intended to introduce students to the research literature in the field of nonprofit studies.				
7900	Capstone: Research Paper in Public Affairs	G	3		
	Students integrate the knowledge and skills gained throughout the MA/MPA program by applying theory to practice through an in-depth policy or management analysis of a defined topic or a specific organization. Prereq: 6000, 6070, or 6080, or permission of instructor. Repeatable to a maximum of 12 cr hrs.				
7910	Capstone: Public Policy Issues	G	3		
	Students integrate the knowledge and skills gained throughout the MA/MPA program by applying theory to practice through an in-depth Public Policy analysis of a defined topic or a specific organization. Prereq: 6000 (801), 6010 (802), 6070 (820 & 822), 6080 (804); or permission of instructor. Repeatable to a maximum of 12 cr hrs.				
7930	Capstone: Public Budgeting and Finance	G	3		
	Students integrate the knowledge and skills gained throughout the MA/MPA program by applying theory to practice through an in-depth Public Budgeting and Finance analysis of a defined topic or a specific organization. Prereq: 6000 (801), 6070 (820 & 822), 6080 (804), 6030 (830), 6040 (730 & 834); or permission of instructor.				
7940	Capstone: Public Management	G	3		
	Students integrate the knowledge and skills gained throughout the MA/MPA program by applying theory to practice through an in-depth Public Management analysis of a defined topic or a specific organization. Prereq: 6000 (801), 6050 (810), 6060 (811), 6070 (820 & 822), 6080 (804); or permission of instructor.				
7950	Capstone: Nonprofit Projects	G	3		
	In this capstone course, students integrate the knowledge and skills gained throughout the MA/MPA program by applying theory to practice through a nonprofit consulting or research project. Prereq: 6000, 6070, and 6080; or permission of instructor.				
7960	Capstone: Information Management	G	3		
	Integrate the knowledge and skills gained throughout the MA/MPA program by applying theory to practice through an in-depth Information Management analysis of a defined topic or a specific organization. Prereq: 6000 (801), 6050 (810), 6070 (820 & 822), 6080 (804); or permission of instructor.				
7980	Capstone: MPA-DC	G	3		
	This course builds on the core curriculum that students have completed in their first year, focusing on the people and processes governing the work of federal agencies. This class provides an opportunity for students to integrate the knowledge and skills gained in the MPA program by applying theory to practice on a topic of each student's choice. Prereq: 6000, 6010, 6030, 6040, 6050, 6070, 6080, and 7600.				
7990	MPAL Capstone	G	3		
	This course builds on the core curriculum that students have completed in the program. Students will integrate the fundamental knowledge and skills gained in the MPAL curriculum and further apply them to relevant workplace situations. Prereq: 6045, 6050, 6055, 6060, and 6075. Concur: 6530.				
8000	Public Policy and Management: Foundations and Approaches	G	3		
	Provides a foundation for the study of public policy and management. Traces the intellectual foundations of the field; explores philosophical foundations of social science inquiry; and integrates public affairs scholarship with scholarship from the social sciences and a wide range of applied fields. Prereq: John Glenn College Doctoral students or permission of instructor.				
8030	Seminar in Public Policy	G	3		
	Provides an overview of the scholarly study of public policy. Surveys interdisciplinary research on the diagnosis and analysis of public problems as well as the process of making and implementing public policy. Prereq: John Glenn College Doctoral students or permission of instructor.				
8040	Seminar in Organizational Theory and Behavior	G	3		
	Provides an overview of the scholarly study of public organizations. Surveys interdisciplinary research in organizational theory and behavior, particularly as it applies to public management.				
8050	Seminar in Public Sector Economics	G	3		
	An overview of the public economics subfield. Applies the policy-analytic tools of micro-economics to examine the desirability and possible impacts of government intervention in markets. It also focuses on the use of modern applied econometric techniques to estimate policy impacts. Prereq: 6030, or Econ 4001, or permission of instructor.				
8055	Public Affairs and Public Choice	G	3		
	Introduces a series of largely non-mathematical public economics and public choice models. The course is built around a series of powerful small thought models and economic concepts that have important implications for public policy. Uses economic modeling techniques and assumptions to explain the policymaking process. A survey of public choice models that can be applied broadly. Prior coursework in intermediate microeconomics required prior to enrollment.				
8193	Individual Studies	G	1 - 12		
	Advanced individual studies in public affairs. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.				
8194	Group Studies	G	1 - 4		
	Designed to give groups of students the opportunity to pursue special advanced studies in topics not otherwise offered. Repeatable to a maximum of 16 cr hrs or 4 completions.				
8620	Innovating for Sustainable Energy Systems	G	4		
	Provides students with the design tools and a framework to understand complex problems and develop within weeks minimal viable products or solutions that address energy-sector needs. Through an intense process of stakeholder interviews and continuous feedback, students acquire experience in systematic innovation, refining problem-statements, navigating public and private sector organizations.				

384 Public Affairs, John Glenn College

8780 Logic of Policy Inquiry G 3

Explore research paradigms to determine how they suit one's values, research interests and objectives. Determine object of study, approaches and language used to acquire/disseminate knowledge. Prereq: Not open to students with credit for 890.

8782 Research Design for Public Policy and Management G 3

An introduction to research design in the social sciences, particularly as it applies to public policy and management. Topics include the generation of research questions; theory development; experimental, quasi-experimental, and non-experimental research designs; defining and measuring concepts; and quantitative and qualitative data collection and analysis.

8890.01 First Year Doctoral Seminar G 1

First in a sequence of three doctoral seminars. Imparts knowledge and skills to help Glenn College doctoral students succeed as scholars.

8890.02 Second Year Doctoral Seminar G 1

Second in a sequence of three doctoral seminars. Imparts knowledge and skills to help Glenn College doctoral students succeed as scholars. Prereq: 8890.01, or permission of instructor.

8890.03 Third Year Doctoral Seminar G 1

Third in a sequence of three doctoral seminars. Imparts knowledge and skills to help Glenn College doctoral students succeed as scholars. Prereq: 8890.01 and 8890.02, or permission of instructor.

8998 Graduate Research Non-Dissertation G 1 - 8

This course is designed to provide reading and research hours for students preparing for candidacy exams. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions.

8999 Research in Public Affairs: Dissertation G 1 - 12

Research for dissertation purposes only. Repeatable to a maximum of 18 cr hrs or 18 completions. This course is graded S/U.

Public Health

1100 Survey of Public Health U 1

An introduction to the University community; strategies for successful transition to and participation in that community; information about University resources and procedures; and (4) information about the College of Public Health and its programs.

2010 Critical Issues in Global Public Health U 3

Public health concepts examining the philosophy, purpose, history, organization, functions, and results of public health practices domestically and internationally. Presents the pressing global public health concerns of the 21st century. GE soc sci indivs and groups and diversity global studies course. GE theme health and well-being course.

2010H Honors Critical Issues in Global Public Health U 3

Critical Issues Global Public Health presents global public health practice and research, examining the philosophy, purpose, history, organization, functions, tools, activities, and results of public health practice at the global, national, state, and local levels. Prereq: Honors standing, or permission of instructor. GE soc sci indivs and groups and diversity global studies course. GE theme health and well-being course.

3010 Public Health and Opera U 4

This course will explore six public health themes that are dramatized in opera as a popular artistic medium. Students will be introduced to the public health aspects of the issue and then presented with information about how the issue has been represented in multiple operas, ranging from the 1700's to current day. Prereq: Not open to students with credit for Music 3010. GE theme health and well-being course. Cross-listed in Music.

3180 Undergraduate Capstone Preparation U 1

The purpose of the class is to prepare undergraduate students in Public Health for their Capstone Experience. Students will learn the critical elements of Public Health Practice and Research as well as professional development skills to prepare them for the workplace and equip them with the tools needed to apply for graduate school. Prereq: Jr standing in BSPH major, or Soph standing for students who intend to complete an Honors Research Thesis. This course is graded S/U.

3180E Undergraduate Capstone Preparation U 1

Prepares undergraduate students in Public Health for their Capstone Experience. Students will learn the critical elements of Public Health Practice and Research as well as professional development skills to prepare them for the workplace and equip them with the tools needed to apply for graduate school. Prereq: Jr standing in BSPH, or Soph standing for students who intend to complete an Honors Research Thesis. This course is graded S/U.

3189.03 Field Experience in Global Public Health: Japan U 3

Global public health concepts and associated metrics; role of cultural, social, economic, and environmental factors on public health in Japan; instructions in a classroom setting on a Japanese campus and through field trips. Prereq: English 1110 (110), and good academic standing, and completion of minimum 4 semesters (2 academic years) of undergraduate education.

3189.04E Field Experience in Global Public Health: Finland and Estonia U 3

Global public health & associated metrics, role of cultural, social, economic, and environmental factors on public health in Finland and Estonia. Cross-listed in PubHlth 3189.04.

3191 Undergraduate Internship in Public Health U 2

Placement of BSPH students in a public health agency or related site for supervised practice experience. Prereq: 3180 or 3180E, Jr or Sr standing, enrollment in BS Public Health major, and permission of advisor. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

3191E Undergraduate Internship in Public Health U 2

Placement of BSPH students in a public health agency or related site for supervised practice experience. Prereq: 3180 or 3180E, Sr standing, and enrollment in BS PubHlth major. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

3193 Individual Studies in Public Health U 1 - 3

Individual study in a public health topic approved by and under the guidance of a faculty advisor. Prereq: Permission of a faculty advisor. Repeatable to a maximum of 6 cr hrs or 3 completions. This course is graded S/U.

3797 Education at a Global Institution U 1 - 15

An opportunity for students to study at a global (non U.S.) institution and receive Ohio State credit for that work. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of department. Repeatable to a maximum of 15 cr hrs or 2 completions.

3998 Undergraduate Public Health Research Seminar U 2

This seminar is designed for undergraduate students that are public health majors or pre-majors that are considering getting involved with research. In this seminar, students will learn about broad categories of research (for example, human subjects versus laboratory) and the ethical considerations for different types of research studies. Prereq: Enrollment in the Public Health major or pre-major, or permission of instructor. This course is graded S/U.

3999 Undergraduate Capstone Research in Public Health U 2

The goal of the Undergraduate Public Health Research Experience Capstone is to provide Public Health students with opportunities to apply public health principles outside of a typical classroom setting and build on public health coursework. This course allows students the opportunity to integrate classroom experiences and principles in an applied research setting. Prereq: 3180 or 3180E or permission of instructor. This course is graded S/U.

4998 Undergraduate Research in Public Health U 1 - 6

Undergraduate research under the guidance of a faculty mentor in a basic or applied area of public health. Prereq: Jr or Sr standing, and enrollment in BSPH major, and permission of advisor. Students who are not junior or senior standing may be eligible with faculty mentor approval. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

4999 Undergraduate Research Thesis U 1 - 3

Conducting a research project and writing a thesis is a Capstone Option for undergraduate Public Health majors. It allows the student a significant opportunity to apply skills learned in the classroom to an applied research project. This is done under the supervision of a faculty advisor. Prereq: 3180 or 3180E, a cumulative GPA of 3.0 or higher, PUBHLTH-BS major, approval of research proposal by undergraduate research committee, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

4999.01H Senior Honors Thesis U 1 - 3

An independent senior thesis course with faculty advisor; subject matter will vary depending upon student's topic. At least two semesters are required for the BSPH degree with research distinction. Failure to receive a mark of S in this course is a disqualification for special honors. Prereq: Honors standing in Public Health, 3180E, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

5015 Public Health Data Analytics I U G 3

In this course, students will gain a very general introduction to data analytics concepts and methods in the context of current and emerging public health issues. Students will be exposed to foundational concepts in data analytics that are relevant to the design, analysis, and interpretation of data-driven decision-making in public health and healthcare settings. Prereq: PubHBio 2210, Stat 3202, 3470, or 5301; or permission of instructor.

5760 Public Health Informatics U G 3

Introduction to the emerging and interdisciplinary field of Public Health Informatics. This course will highlight the history, current and future use of informatics in the public health settings, and give students an understanding of the role and broad application of informatics to promoting health and preventing disease. Cross-listed in BML.

6000 Introduction to Global Health G 2

Overview of current and emerging global health issues, their determinants, actions, and interventions. Prereq: Open to Grad students with registration priority for students enrolled in the Interdisciplinary Global Health specialization.

6001 Methods in Quantitative Data Analysis G 4

Fundamentals of biostatistics and epidemiology for MPH students: Will cover core knowledge areas in quantitative data analysis, morbidity, mortality, and risk assessment to understand population health. Prereq: Grad standing in MPH-MP or MPHPEP-MP, or permission of instructor. Concur: 6002.

6002 History, Values and Essential Services of the U.S. Public Health System G 2

This course will cover the values, history and essential services of the US public health system and the foundations of the social and environmental determinants of health, including the impact of racism, poverty and other structural inequalities. Prereq: Grad standing in MPH-MP or MPHPEP-MP, or permission of instructor. Concur: 6001.

6003	Methods in Public Health Planning and Evaluation	G	2
This course will address the methodology, conceptual frameworks, and strategies for planning and evaluating public health programs. Prereq: 6001 and 6002, and Grad standing in MPH-MP or MPHPEP-MP; or permission of instructor. Concur: 6004.			
6004	Essentials of Population Health	G	4
This course will cover organization, delivery and payment of healthcare services in the US and across the world; the framework for organizing the presentation and use of information concerning the effect of environmental conditions on health status. Prereq: 6001 and 6002, and Grad standing in MPH-MP or MPHPEP-MP; or permission of instructor. Concur: 6003.			
6010	Essentials of Public Health	G	3
An overview of the history and philosophy of public health, and the fundamental principles, concepts, and tools used in promoting the health of populations. The course is intended to orient students to the breadth of the field and introduce cross-specialization perspectives on major issues and problems in public health. Prereq: Enrollment in Master of Science in Public Health (PUBHLTH-MS), Doctor of Philosophy in Public Health programs (PUBHLTH-PH), Doctor of Philosophy in Biostatistics (BIOSTAT-PH), Master of Science in Environmental Sciences (ENVSCI-MS), Doctor of Philosophy in Environmental Sciences (ENVSCI-PH), or permission of instructor.			
6189.02	Field Experience in Global Health	G	1 - 6
Placement in a public health agency or related site for supervised international practice experience. Prereq: Enrollment in public health degree program, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
7000	Public Health in Developing Countries	G	3
Overview of core public health principles and practices applied to global health issues. Prereq: Grad or professional student standing.			
7015	Public Health Data Analytics II	G	3
The focus of this course is on the appreciation of data analytics as applied to current and emerging public health issues. Prereq: 5015, or permission of instructor.			
7189	Applied Practice Experience for Public Health	G	1 - 6
Applied practice experience. Prereq: Enrollment in Master of Public Health (MPH-MP or MPHPEP-MP) degree program, and permission of advisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
7350.02	Topics in Applied Public Health Practice - Leadership	G	1 - 3
Includes theory and applications relevant to specific rubrics of applied public health practice, with a theme of public health management and leadership. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U.			
7996	Integrative Learning Experience Seminar for MPH-PEP Students	G	1
The goal of this course is to facilitate students through the process of planning and developing their Integrative Learning Experience. Prereq: Permission of instructor. This course is graded S/U.			
7998	Integrative Learning Experience for Public Health	G	1 - 3
Final project for MPH degree to demonstrate synthesis of foundational and concentration competencies applicable to a public health topic. Prereq: Enrollment in Master of Public Health (MPH-MP or MPHPEP-MP) degree program, and permission of advisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.			
7999	Thesis Research in Public Health	G	1 - 12
Research for master's students: Thesis research. Prereq: Enrollment in MS degree program, and permission of instructor. Repeatable. This course is graded S/U.			
8802	Seminar for Graduate Interdisciplinary Specialization in Demography	G	3
Course required for students enrolled in the Graduate Interdisciplinary Specialization in Demography (GISD). Presents an introduction to demography (the study of populations) and population health. Prereq: Grad standing, or permission of instructor with approval by Graduate School for undergraduate credit. Repeatable to a maximum of 12 cr hrs. Cross-listed in Sociol.			
8998	Pre-Candidacy Research in Public Health	G	1 - 12
Independent research for doctoral students: pre-candidacy. Prereq: Enrollment in PhD program. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
8999	Post-Candidacy Research in Public Health	G	1 - 12
Independent research for doctoral students: post-candidacy. Prereq: Enrollment as PhD Candidate in Public Health Program. Repeatable. This course is graded S/U.			

Public Health: Biostatistics

2210	Biostatistics for Public Health Research	U	3
Hands-on experience using statistical tools to answer real-world questions. Students will design and implement a short survey and analyze their results. Emphasis on analysis of actual survey data using statistical software. Statistical topics include numerical/graphical summaries, measures of association, and hypothesis testing. Focus is on interpretation, not calculation. GE foundation math and quant reasoning or data anyl course.			

2210H	Honors Biostatistics for Public Health Research	U	3
Hands-on experience using statistical tools to answer real-world questions. Students will design and implement a short survey and analyze their results. Emphasis on analysis of actual survey data using statistical software. Statistical topics include numerical/graphical summaries, measures of association, and hypothesis testing. Focus is on interpretation, not calculation. Prereq: Honors standing, or permission of instructor. GE foundation math and quant reasoning or data anyl course.			
3193	Individual Studies in Biostatistics	U	1 - 6
Individual studies in Biostatistics focusing on applied topics. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.			
5280	Introduction to Genomic Data Analysis	U G	3
Provides an in-depth analysis of a specific question to which genomic methods are applied. Intersperses experimental methods and statistical analysis of biological data. Some experience with programming is recommended. Prereq: Math 1151 or 1156, and Stat 2450 or 2480, and Biology 1113 or MolGen 5660, and Jr standing or above; or Grad standing; or permission of instructor.			
6210	Applied Biostatistics I	G	3
Theory and application of basic statistical concepts for design of studies in health sciences, integrated with statistical software applications. Prereq: Grad standing.			
6211	Applied Biostatistics II	G	3
A second course in applied biostatistical methods with an emphasis on regression methods commonly used in the health sciences. The focus is on linear regression and ANOVA. Integrated with use of computer statistical packages. Prereq: A grade of B- or above in PubHbio 6210 or PubHlth 6001, or permission of instructor.			
6250	Regression Methods for the Health Sciences	G	3
The course will focus primarily on regression models for the different generic problems including methods for hypothesis testing, evaluating assumptions, confounding, and selection of predictors. Prereq: 6211, or permission of instructor.			
6260	Ethics in Biostatistics	G	1
This course examines ethical challenges related to research design, data collection, data integrity and stewardship, data analysis and interpretation, and data reporting in the conduct of public health and biomedical research. Prereq: Enrollment in MPH-MP, PUBHLTH-MS, or BIOSTAT-PH with Biostatistics specialization; or permission of instructor.			
6270	Introduction to SAS for Public Health Students	G	2
Introduction to programming using SAS software to accomplish public health data management and analysis. Prereq: Grad standing in PubHlth, or permission of instructor. Not open to students with credit for Stat 5740 or 6740.			
7193	Individual Studies in Biostatistics	G	1 - 6
Independent study in Biostatistics. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.			
7194	Group Studies in Biostatistics	G	1 - 3
Group studies in biostatistical methods. Format will include lectures, readings, presentations and discussions in an area of special interest to students and faculty. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
7215	Design and Analysis of Clinical Trials	G	2
Design, monitoring, and analysis of clinical trials; includes protocol development, randomization schemes, sample size methods, and ethical issues. Prereq: 6210 or Stat 5301 or PubHlth 6001 or equiv; or permission of instructor. Not open to students with credit for Stat 6615. Cross-listed in Stat 6615.			
7220	Applied Generalized Linear Models in Public Health	G	3
Introduce students to generalized linear models (GLMs) for categorical and discrete data and their application in clinical and public health research. Prereq: 6211 or permission of instructor.			
7225	Survey Sampling Methods	G	3
Sampling from finite populations, simple random, stratified, systematic and cluster sampling design, ratio and regression estimates, non-sampling errors, models. Prereq: 6211 (703) or Stat 5301 (529), or equiv. Not open to students with credit for Stat 6510 (651). Cross-listed in Stat 6510.			
7230	Applied Longitudinal Data Analysis	G	3
Statistical models and methods for the analysis of data arising from longitudinal studies with repeated measurements on subjects over time. Prereq: 6211 or Stat 6450 or 6950, or permission of instructor.			
7235	Applied Survival Analysis	G	3
Introduction to time-to-event data analysis. Topics include summary statistics, non-parametric methods, semiparametric and parametric models, and competing risks analysis. Focus is on analysis of health data using statistical software. Prereq: 6211, Stat 6450, or 6950. Not open to students with credit for Stat 6605 (BioStat 605). Cross-listed in Stat 6605 (BioStat 605).			
7240	Applied Statistical Analysis with Missing Data	G	3
Models and methods for the dataset with missing values, including imputation, likelihood-based, and Bayesian models. Prereq: 6211 (703), or Stat 6201, or 6302, or 6802 (622), or 6302, or 6450, or 6950, or permission of instructor. Not open to students with credit for Stat 6520 (652). Cross-listed in Stat 6520.			

386 Public Health: Biostatistics

7245	Biostatistical Collaboration	G	2
Basic biomedical research methodologies; collaborate with biomedical researchers to design experiments and plan analyses; protocol preparation; professional skills development; statistical report preparation, and writing analytical code for ensuring scientific rigor and reproducibility of results. Prereq: Second year student in MS/MPH Biostatistics program, Interdisciplinary PhD in Biostatistics program, or Department of Statistics programs (PUBHLTB-MS, MPH-B-MP, BIOSTAT-PH, STAT-MS, STAT-PH).			
7250	Special Topics	G	1 - 6
Regular class on special topics in biostatistics. Format will include lectures, readings, presentations and discussions in an area of special interest to students and faculty. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7255	Introduction to Causal Inference in Health Science Research	G	3
This is an introduction course to the commonly used statistical methods for causal inference. The course starts with potential outcome framework as the conceptual foundation for inferring causality. Prereq: B- or higher in 6211, or permission of instructor.			
8235	Advanced Regression Modeling of Time-to-Event Data	G	3
Advanced topics in survival analysis. Proportional hazards models, parametric regression models, length-bias and prevalent sampling, multivariate survival analysis, counting processes, recurrent events. Prereq: Stat 6802 and 6950. Not open to students with credit for Stat 7605. Cross-listed in Stat 7605.			
8450	Stochastic Epidemic Models	G	3
Introduces the basic methods for analyzing large population epidemic data from the viewpoint of the stochastic processes theory. The course will cover the basic SIR (susceptible-infective-removed) epidemic models both under the homogenous and restricted contact structures. Prereq: Stat 6801, and 6540 or 7540; or permission of instructor. Cross-listed in Stat.			
8899	Doctoral Seminar	G	1 - 3
Seminar for doctoral students in Biostatistics. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			

Public Health: Environmental Health Sciences

3193	Individual Studies in Environmental Health Sciences	U	1 - 6
Individual Studies in Environmental Health Sciences. Prereq: Permission of instructor. This course is graded S/U.			
3310	Current Issues in Global Environmental Health	U	3
Fundamental concepts and principles of environmental health are presented through a critical review and discussion of current issues in global environmental health. GE theme lived environments course.			
3320	Fundamentals of Environmental Health Risk Assessment	U	3
This course provides an orientation to the fundamental components of risk assessment including hazard identification, toxicology/dose-response, exposure assessment and risk characterization.			
3330	Global Pandemics and Public Health	U	3
This course summarizes major global pandemics, including communicable (such as COVID-19) and noncommunicable (such as obesity) diseases that are current and from recent history, emphasizes public health threat detection and response, reviews related research articles from high impact journals, and provides a platform so that critical and major questions can be discussed and debated.			
4325	Climate Change and Human Health	U	3
Recognize current controversies about climate change, summarize the evidence about climate change on human health, and identify major human diseases associated with climate change.			
4330	Environmental Epigenetics	U	3
The course will provide a solid foundation in epigenetics and introduce the basic mechanisms of epigenetic control of gene expression, major laboratory methods, and research applications of in molecular biology, epidemiology, and the environmental sciences. Prereq: Biology 1113 or 1114, or permission of instructor.			
4340	Molecular Techniques for Environmental Health Sciences	U	3
This course provides students with a practical, "hands-on" introduction to a variety of techniques applied to the study of living systems at the molecular level to address fundamental public health concerns. One year of college level chemistry and one year of college level biology is recommended.			
4530	Food Safety and Public Health	U	3
Principles and practice of food safety; transmission, inactivation and control of foodborne pathogens, hazards, toxins and allergens; risk assessment, sanitation, and pest control in foods. Prereq: Micrbio 4000 or 4100, or permission of instructor. Cross-listed in FdScTe 4536.			
5315	Principles of Toxicology	U G	3
Fundamentals of dose-response, exposure, disposition and biotransformation of chemicals in mammalian systems; actions of toxicants in major organ systems. Undergrad Prereq: Jr or Sr standing; or permission of instructor.			

5325	Principles of Occupational Health Science	U G	3
Principles and practice of occupational health, including, among other topics, a history of the discipline and in-depth consideration of occupational hazards and risks, including types, sources, exposures and health impacts. Undergrad prereq: Jr, or Sr standing; or permission of instructor.			
5335	Ecology of Infectious Diseases	U G	3
This course provides an introduction to the ecology of infectious diseases. We will investigate infectious disease transmission and control in single- and multi-host systems and for vector-borne diseases. Prereq: One undergraduate-level Biology course, or permission of instructor. Cross-listed in ENR and VetPrev.			
5340	Air Contaminants and Public Health	U G	3
This course will introduce students to the concept of air quality and will focus on the relatedness between its pollution and morbidity. Specifically, students will learn about the categories and types of air contaminants, their natural and anthropogenic sources, and the respiratory and extra-pulmonary effects of air pollution.			
5345	Modeling Transmission and Control of Infectious Diseases in Humans and Animals	U G	3
Provides an introduction to applied infectious disease modeling. Students will learn how the susceptible, infected, removed (SIR) model can represent infectious disease transmission. Prereq: Biology 1101, 1113, or equiv., or permission of instructor. Cross-listed in VetPrev 8830.			
5395	Engineering Design for Environmental Health	U G	3
Students in this course will learn how to incorporate health information into the engineering design process. This material complements risk assessment by focusing on the design of engineering systems. We will discuss balancing financial, health, performance, & other considerations. Quantitative analysis will be conducted in soil, water, air, buildings, and occupational health scenarios. Prereq: Math 1151 or 1161.01 or 1161.02 or equiv., and Chem 1210 or 1250 or equiv., and enrollment in CivilEn or EnvEng or PubHlth-BS with a specialization in Environmental Public Health; or Grad standing; or permission of instructor. Cross-listed in EnvEng 5195.			
6300	Environmental Health Science Issues in Health Administration	G	1½
In this course, we will consider environmental health sciences as a cornerstone to public health. Prereq: Enrollment in HSMP-MHA, or permission of instructor.			
6310	Principles of Environmental Health Science	G	3
Survey of environmental influences on human health and strategies for prevention considering source emissions, environmental fate and transport, human exposure, dose, and biological effects.			
6315	Advanced Environmental Health Science	G	3
Survey of environmental influences on human health and strategies for prevention considering source emissions, environmental fate and transport, human exposure, dose, biological effects, and ultimately disease associated with exposure. Prereq: Enrollment in EHS program, and Grad standing.			
6320	Global Health and Environmental Microbiology	G	3
Fundamentals and emerging issues of health significant microorganisms (bacteria, viruses, protozoa) from water, air, soil and food, and their sources, transmission routes, treatments, detection methods and study tools. Prereq: Undergrad-level Micrbio course, or permission of instructor. Cross-listed in FdScTe.			
6325	Climate Change and Human Health	G	3
Global climate change may have considerable direct and indirect impacts on human health. This course will be based on scientific facts, focusing on both natural phenomena and anthropogenic activities, with emphasis on associations between disease initiation and progression in humans. Prereq: Grad or professional student standing, or permission of instructor.			
6330	Environmental Epigenetics	G	3
The course will provide a solid foundation in epigenetics and introduce the underlying mechanisms of epigenetic control of gene expression, major laboratory methods, and research applications in molecular biology, epidemiology, and the environmental sciences. Prereq: Credit for college level Biology (or related discipline) course, or permission of instructor.			
6340	Molecular Techniques for Environmental Health Sciences	G	3
This course provides students with a practical, "hands-on" introduction to a variety of techniques applied to the study of living systems at the molecular level to address fundamental public health concerns.			
6390	Major Human Diseases in Global Public Health	G	3
Public health is focused on preventing illnesses and injuries or intervening to decrease the impact to populations of people. Emphasize on basic physiology, pathophysiology, and clinical evaluation of major human diseases that have significant global public health impact epidemiologically, politically, and economically with a focus on disease causes and prevention. Prereq: Not open to students with credit for 7390.			
7193	Individual Studies in Environmental Health Sciences	G	1 - 6
Individual studies in Environmental Health Sciences focusing on applied topics. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.			

Public Health: Environmental Health Sciences 387

7194	Group Studies in Environmental Health Sciences	G	1 - 3
Group studies in Environmental Health Sciences. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.			
7360	Water Contamination: Sources and Health Impact	G	3
Water contamination affects our health and daily life. Water contaminants include biological infectious agents, chemical pollutants, and other toxic agents that are transmitted primarily via water, but also through air, soil, food, and human activities. Lectures will cover emerging and fundamental issues, sources of contamination, pathways of transport, public health impacts, and interventions. Prereq: Credit for Undergrad-level Biology course, or permission of instructor. Cross-listed in FdScTe.			
7365	Environmental and Human Health Risk Assessment	G	3
Introductory course that includes discussion of a variety of topics in human exposure and related risk assessment.			
7375	Quantitative Microbial Risk Analysis Modeling	G	3
This course will outline the fundamental sciences and their application in microbial risk modeling. Students will engage in lectures and project-based learning culminating in a functioning microbial risk model. Prereq: Grad level Stat course, or permission of instructor.			
7380	Exposure Science Monitoring Techniques I	G	3
This course will discuss the principles and practices of human exposure sampling of contaminants in environmental and biological matrices with special emphasis on the air matrix. In addition, students will be introduced to analytical techniques and instrumentation for air contaminants in the course.			
7382	Exposure Science Monitoring Techniques II	G	3
The course will emphasize the principles and practices of human exposure sampling and analysis of contaminants in air, water, and soil, as well as analysis of biological specimens (i.e., saliva, urine, exhaled air, blood) for markers of exposure. The course will focus on field sampling, and laboratory analytical instrumentation and methods. Prereq: Grad standing; or permission of instructor.			
7899	Seminar in Environmental Health Sciences	G	1 - 3
Seminar on topics that are relevant to students enrolled in programs in the division of environmental health sciences. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.			

Public Health: Epidemiology

2410	Epidemiology in Public Health	U	3
The course will cover the principles and procedures in the field of epidemiology, with a focus on the application of the principles of epidemiology. GE theme health and well-being course.			
3193	Individual Studies in Epidemiology	U	1 - 6
Individual Studies in Epidemiology. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.			
3410H	Honors Case Studies in Public Health	U	3
This is an advanced undergraduate course in epidemiology that is designed for Honors students in Public Health or a related field. Students will learn about how epidemiology is used in the field of Public Health through a case study approach. Prereq: Honors standing, and 2410.			
3411	Public Health Field Investigation	U	3
This course provides an applied study in investigating and responding to outbreaks, disasters, and other acute public health events. GE theme health and well-being course.			
4410	Social Epidemiology	U	3
This course focuses on how social factors, such as education, neighborhood context, & structural & institutional racism are related to various population health outcomes. Students will learn theories that inform how social determinants of health are measured, & how epidemiologists use these measures to identify determinants of disease & ill health among populations, especially marginalized groups. Prereq: 2410, or permission of instructor.			
4432	Injury: A Public Health Problem	U	3
This introductory course in injury prevention & control is designed primarily for upper-division undergraduates. Students will be exposed to/learn to develop skills such as summarizing research findings, translating & communicating these findings to an identified audience, & utilizing policy & advocacy for initiating public health change as it relates to injury prevention and control. Prereq: 2410, and PubHHBP 3510; or permission of instructor.			
4437	Cancer Epidemiology	U	3
Cancer epidemiology is the study of factors affecting the occurrence of cancer. This course will familiarize students with basic concepts, data sources, and analytic methods commonly used in cancer epidemiology research and practice. Prereq: 2410.			
5411	Outbreak Investigations	U G	3
Principles and practice of field epidemiology, including outbreak investigation and disease surveillance. Prereq: 2410, or Grad standing, or permission of instructor. Not open to students with credit for 615.			
5412	Global Epidemiology of Infectious Disease	U G	3
This course is designed to provide students with an overview of the principles and practices of infectious diseases epidemiology with focus on how the presence and control of communicable diseases affects public health locally, nationally, and internationally.			

5438	Cardiovascular Disease Epidemiology	U G	3
Introduction to the epidemiology of cardiovascular disease; risk factors, specific diseases, diagnostic procedures; review of classic and current studies. Prereq: 2410, 6410, or 6430; or permission of instructor. Not open to students with credit for 817.			
6410	Principles of Epidemiology	G	3
Introduction to the nature and scope of epidemiology; survey of basic epidemiological methods and their application to selected acute and chronic health problems. For non-majors. Prereq: Not open to students with credit for 6430.			
6411	Biological Basis of Public Health	G	3
Molecular and epidemiologic evidence of biological mechanisms in major diseases of concern for public health. Prereq: Grad standing in Public Health, or permission of instructor. Not open to students with credit for 704.			
6412	Basic Principles in Clinical and Translational Science	G	2
Identification of clinical and translational research issues, assessment of the literature, ethically responsible research, cross-disciplinary training and mentoring. Prereq: Enrollment in MPH-CTS program, or permission of instructor. Repeatable to a maximum of 2 completions. This course is graded S/U.			
6413	Conducting and Communicating Research in Clinical and Translational Science	G	2
Design and writing of protocol, study methods and implementation, community engagement, informatics, translational teamwork. Scientific communication skills and dissemination of clinical and translational science. Prereq: Enrollment in MPH-CTS program, or permission of instructor. Repeatable to a maximum of 2 completions. This course is graded S/U.			
6415	Nutrition in Public Health	G	3
Introduction to key concepts and methods in Nutritional Epidemiology and provides students with the tools needed to design, analyze, and critically evaluate population-based diet and nutrition research. Prereq: 6410, 6430, or PubHlth 6001, or permission of instructor.			
6430	Epidemiology I	G	4
Introduction to the nature and scope of epidemiology; survey of basic epidemiological methods and their application to selected acute and chronic health problems. Lecture and laboratory sessions. Prereq: Enrollment in MPH-Epidemiology, or any Public Health MS or PhD program, or permission of instructor. Not open to students with credit for 710.			
6431	Design and Implementation of Health Surveys	G	3
Introduction to health survey methods, with public health applications. Prereq: 6410, or concur PubHlth 6001, or permission of instructor.			
6432	Injury Epidemiology	G	2
Introduction to injury epidemiology; historical context, trends, research methods and issues; survey of areas of injury epidemiology and prevention. Prereq: 6410 or 6430 or PubHlth 6001, or permission of instructor.			
6436	Infectious Disease Epidemiology	G	3
Introduction to the epidemiology of infectious diseases, with focus on basic methods for investigation, control, and prevention of communicable disease. Prereq: 6410 or 6430 or PubHlth 6001, or permission of instructor.			
6437	Cancer Epidemiology	G	3
Epidemiology of cancer, including etiology, risk factors, neoplastic processes, screening, control; application of statistical methods; molecular genetic basis of carcinogenesis. Prereq: 6410, 6430, or PubHlth 6001, or permission of instructor.			
6440	Reproductive and Perinatal Epidemiology	G	3
Epidemiology of reproductive and perinatal health and methodologic challenges unique to this area. Prereq: 6410, or PubHlth 6001, or permission of instructor.			
6441	Epidemiology of Women's Health	G	3
Overview of issues related to women's health from epidemiological and behavioral perspectives. Prereq: 6410, 6430, or PubHlth 6001, or permission of instructor.			
6442	Social Epidemiology	G	3
Social and structural contributors to the distribution of health and disease in populations with emphasis on measurement and methodological challenges. Prereq: 4410, 6410, 6430, or PubHlth 6001; and Grad standing; or permission of instructor.			
7193	Individual Studies in Epidemiology	G	1 - 6
Individual Studies in Epidemiology. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.			
7194	Group Studies in Epidemiology	G	1 - 3
Group Studies in Epidemiology. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs.			
7410	Epidemiology II	G	4
Design of epidemiologic studies including cross-sectional studies, case-control studies, cohort studies, clinical trials, and group-randomized trials. Prereq: 6410 or 6430 or PubHlth 6001, or permission of instructor.			
7411	Epidemiology in Environmental Health	G	3
Principles and application of epidemiologic methods in the investigation and control of health problems stemming from environmental hazards. Prereq: 6410 or PubHlth 6001, or permission of instructor.			

388 Public Health: Epidemiology

7412 Principles and Procedures for Human Clinical Trials G 3

Principles and procedures for clinical professionals in the design, conduct and analysis of human clinical trials. Prereq or concur: 7410 and PubHBio 6211, or permission of instructor.

7430 Epidemiology III G 4

Analysis and interpretation of data from case-control and cohort studies and from clinical trials. Prereq: 7410 and PubHBio 6211, or permission of instructor.

7998 Integrative Learning Experience Seminar G 1

The goal of this course is to facilitate students through the process of developing their Integrative Learning Experience (ILE). By the end of the semester, it is expected that students will have submitted their ILE proposals and literature reviews, ILE approval form, and their application to the IRB and other review boards as needed. Prereq: Enrollment in MPH program in Epidemiology. This course is graded S/U.

8411 Epidemiology of Obesity G 3

Prevalence, trends, risk factors, measurement, outcomes and issues related to obesity; critical reading and discussion of research on epidemiology of obesity. Prereq: 7410 and PubHBio 6211, or permission of instructor. Not open to students with credit for 819.

8413 Molecular Epidemiology of Infectious Diseases G 3

Provides students with the knowledge and skills to study disease outbreaks in humans and animals using molecular biology techniques. Recommended basic knowledge of infectious diseases and molecular biology. Prereq: Permission of instructor. Not open to students with credit for VetPrev 700 or 724. Cross-listed in VetPrev 8700.

8430 Epidemiology IV G 4

Students will gain hands-on experience working with data from existing epidemiological studies. Through structured projects, students learn to develop appropriate research questions, and analyze, interpret, and present their results. Prereq: 7430 and PubHBio 6211, or permission of instructor.

8899.01 Professional Skills for Public Health Doctoral Students G 1

To facilitate professional development of PhD students in the Division of Epidemiology. The course will focus on goal setting, mentorship, scientific writing, and oral presentations. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.

8899.02 Doctoral Seminar in Epidemiology: Teaching Methods G 2

Seminar for doctoral students in epidemiology with a focus on teaching methods. Prereq: Enrollment in PhD program. Not open to students with credit for 875. This course is graded S/U.

8899.03 Epidemiology: History, Social Context, and Ethics G 1

Designed for first year PhD students in the Division of Epidemiology. The purpose of the course is to provide students with an understanding of the history of epidemiology, including its development to its current form. Prereq: Enrollment in Public Health PhD program. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

8899.04 Research Questions and Study Design in Epidemiology G 1

The purpose of this course is to assist students in identifying research questions and considering appropriate study designs for the research questions. Prereq: Enrollment in Epidemiology PhD program, or permission of instructor. This course is graded S/U.

8899.05 Application of Advanced Methods in Epidemiology G 1

The purpose of this course is to examine contemporary methods in epidemiology and understand their appropriate applications. This course is graded S/U.

Public Health: Health Behavior & Health Promotion

3193 Individual Studies in Health Behavior and Health Promotion U 1 - 6

Individual studies in Health Behavior and Health Promotion focusing on applied topics. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.

3510 Role of Behavior in Public Health U 3

Introduction to concepts of health behavior and its role in public health; social determinants of health; applications to selected community health problems and issues. GE theme health and well-being course.

4558 Policy as a Prevention Strategy U 2

This course will prepare upper-level undergraduate students on the key elements of how policy can be used as an intervention to promote primary, secondary, and tertiary prevention. Course activities will build skills for the evaluation of when policy is an appropriate strategy, and how to prepare a policy brief on a formal policy issue that impacts population health. Prereq: GE foundation writing and info literacy course, and GE foundation social and behavioral sci course; or equivalents. Cross-listed in 6558.

6510 Preventing Disease and Promoting Health through Behavioral Science G 3

Examination of behavioral and social science concepts as the basis for public health practice; topics include transferring knowledge, motivating and aiding behavior change efforts, and working with the community. Prereq: Grad standing, and enrollment in Public Health program. Not open to students with credit for 720.

6515 Advanced Preventing Disease and Promoting Health G 3

This course will address the philosophical underpinnings, health behavior theories, and strategies for effective behavioral and social change efforts in public health. Prereq: Enrollment in College of Public Health Graduate Program with specialization in Health Behavior and Health Promotion.

6520 Advocacy for Health Justice G 3

This course will examine advocacy's place in the historical and contemporary practice and promotion of public health, including a turn toward a focus on advocacy to address the social and structural determinants of health. Prereq: Enrollment in Master of Public Health: Health Behavior and Health Promotion program, or permission of instructor.

6535 Community Engagement and Collaborative Community Problem-Solving G 3

This class provides the opportunity to review a number of concepts critical to collaborative community problem-solving. A broad range of literature will be reviewed and students will have the opportunity to experience several simulated processes unique to the collaborative problem-solving process.

6558 Policy as a Prevention Strategy G 2

This course will prepare graduate students on the key elements of how policy can be used as an intervention to promote primary, secondary, and tertiary prevention. Cross-listed in 4558.

7193 Individual studies in health behavior and health promotion G 1 - 6

Individually designed study of selected topics in health behavior and health promotion. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 16 completions. This course is graded S/U.

7520 Community Health Assessment G 2

Models of community health assessment; skills in identifying, analyzing and integrating information concerning community resources and needs. Prereq: Enrollment in Public Health, and Grad standing; or permission of instructor.

7522 Program Planning and Implementation G 3

Planning and implementation of programs to address public health issues in defined populations; development of a health promotion program for a specific community partner. Prereq: Enrollment in Public Health, or Grad standing; or permission of instructor.

7528 Foundations of Professional Practice in Health Promotion G 2

Professional practice settings and expectations for health promotion; application of health promotion theories and perspectives to community problems. Prereq: 6520, or permission of instructor.

7532 Program Evaluation in Public Health G 3

Examination of evaluation models for public health programs; exploration of philosophical and scientific issues in evaluation; and skill building in both qualitative and quantitative evaluation methods. Prereq: Enrollment in Public Health, and Grad standing; or permission of instructor.

7534 Research Methods in Health Behavior and Health Promotion G 3

Social science research methods emphasizing methods used to assess the dimensions of health-relevant behaviors and community-based prevention research. Prereq: Enrollment in Public Health, and Grad standing; or permission of instructor. Not open to students with credit for 834.

7542 Settings and Special Populations in Health Promotion G 3

Critical characteristics of principal settings in which health promotion interventions occur and populations to which they apply such as youth, elderly, racial and ethnic minorities. Prereq: Enrollment in Public Health, and Grad standing; or permission of instructor.

7564 A Public Health Approach to Adolescent Health G 2

Focuses on the health of adolescents in the United States. Emphasis is on examining health and risk behaviors from developmental & contextual perspectives with reference to policies and programs for preventing health problems and promoting the well-being of this population.

7899.01 Seminar: Integrative Learning Experience I G 1

The purpose of the integrative learning experience is to provide students with the opportunity to integrate and synthesize knowledge and experience obtained during their academic course of study. Most culminating projects focus on: (A) Community assessment; (B) Program planning and implementation; (C) Program evaluation or (D) Other projects as approved by your advisor. Prereq: Open only to MPH Health Behavior Health Promotion students preparing for their integrative learning experience. This course is graded S/U.

7899.02 Seminar: Integrative Learning Experience II G 1

The purpose of the integrative learning experience is to provide students with the opportunity to integrate and synthesize knowledge and experience obtained during their academic course of study. Most integrative learning experiences focus on: (A) Community assessment; (B) Program planning and implementation; (C) Program evaluation or (D) Other projects as approved by your advisor. Prereq: Open only to MPH Health Behavior Health Promotion students preparing for their culminating project. This course is graded S/U.

8562 Advanced Theory of Health Behavior Change in Public Health Applications G 2

In-depth examination of theories pertinent to health behavior including history and critique of theoretical approaches. Prereq: Grad standing in Public Health, or permission of instructor.

8899.01 First Year Doctoral Seminar in HBHP G 1
Seminar concerning academic and professional development topics for Ph.D. students, with a focus on selecting research topics, reviewing research, course development, and other topics. Prereq: Enrollment in Health Behavior and Health Promotion Ph.D. Program. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

8899.02 Second Year Doctoral Seminar in HBHP G 1
A seminar for Ph.D. students in Health Behavior and Health Promotion emphasizing the selection and development of research projects including proposing preparation and funding sources. Prereq: Enrollment in PubHlth Ph.D. Program. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

Public Health: Health Services Management & Policy

3193 Individual Studies in Health Services Management and Policy U 1 - 6
Individual Studies in Health Services Management and Policy. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.

3610 United States & International Health Care U 3
Introduction to the history, organization and politics of the global health care system, critical review of selected issues using different analytic frameworks. GE theme health and well-being course.

3650 Health Economics for Health and Policy Students U 3
This course is designed to provide an intuitive understanding of health economics and policy for non-economists. It will cover the basics and health markets and apply those concepts to policy applications. Economics 2001.01 recommended but not required.

6610 Introduction to Health Care Organization G 3
Analysis of arrangements for the organization, financing, and delivery of health care services. Prereq: Not open to students with credit for 800.

6611 Health and Health Care Services in the U.S. G 3
This course provides an overview of the U.S. health care system. Topics covered include health and health care disparities, social determinants of health, health care access and utilization, financing of care through public and private health insurance, provider reimbursement, assessment of quality, quality improvement, and new forms of health care delivery and payment. Prereq: Enrollment in MPH-HMP program, or HSMP-MHA program, or PUBHLTH-PH program, or permission of instructor. Not open to students with credit for 800.

6615 Public Health Leadership and Organizational Behavior G 3
This course introduces students to major theories and concepts of organizational behavior and leadership and applies these to challenges facing public health organizations. Prereq: Grad standing, or permission of instructor.

6620 Critical Appraisal of Population Health Evidence G 3
This course will provide practical experience in examining multiple sources of evidence on population health management and public health interventions and will introduce students to the tools used to perform systematic reviews. Prereq: Grad standing, or permission of instructor.

6625 Leveraging Healthcare Data for Practice and Policy Change G 3
This course will prepare students to develop questions for and utilize results from healthcare database research. Strengths and limitations of healthcare databases commonly used for research will be considered, and special attention will be devoted to nationally representative databases and local electronic medical record data. Prereq: PubHlth 6001, or permission of instructor.

6630 Project Management for Health Care and Public Health G 3
This course introduces students to the role of project management in executing successful projects. The course focuses on concepts & tools of basic project management, with a special emphasis on managing projects in health care & public health settings. Students will learn fundamental techniques for project planning, scheduling & monitoring through case studies, class exercises and assignments. Prereq: Grad standing, or permission of instructor.

7193 Individual Studies in Health Services Management and Policy G 1 - 6
Study of individually designed topics not otherwise available in the curriculum. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 6 completions. This course is graded S/U.

7194 Group Studies in Health Services Management and Policy G 1 - 3
Group studies of special topics within health services management and policy. Repeatable to a maximum of 9 cr hrs or 6 completions. This course is graded S/U.

7601 Economic Analysis of Health Services G 3
This course will cover applications of microeconomic analysis to the health services industry, with emphasis on the market structure and managerial decisions. Prereq or concur: 6611, or permission of instructor. Not open to students with credit for 801.

7602 Health Insurance and Payment Policy G 3
This course examines the health insurance mechanisms used to pay for healthcare in the United States. The course will examine the U.S. system's origins, the incentives and policy implications that the system creates, past and present reforms, and how the US system compares to health care financing systems in other industrialized countries. Prereq: Grad standing in HSMP: HSMP-MHA, MPH-MP with HMP specialization, or PUBHLTH-PH with HMP specialization, or permission of instructor. Not open to students with credit for 802.

7605 Introduction to Health Policy G 3
Introduction to public policy concepts and processes as they apply to the organization, financing, and delivery of health services. Prereq: 6611, or permission of instructor. Not open to students with credit for 805.

7608 The Role of Science in Health Policy-Making G 3
This course will explore the role that science, including social science, plays in public health & health services policy-making. It will consider the conditions under which scientific research findings do & do not influence policy-making with reference to the nature of scientific inquiry & of public policy; the intellectual, institutional, and practical similarities & differences between them.

7610 Public Health Law G 3
The course will focus on the use of legal tools to improve the public's health. The course will survey the legal framework in which the government may regulate for the public's health, addressing issues including the origins and scope of public health authority, constitutional limits on public health powers, emergency legal preparedness, and public health tort litigation. Cross-listed in Law 8810.

7611 Health Care Law for Managers G 3
Overview of the U.S. legal system as it applies to the U.S. health care field. Prereq: Grad standing in HSMP-MHA, or MPH-MP and HMP subplan, or PUBHLTH-PH and HMP subplan, or permission of instructor. Not open to students with credit for 811.

7612 Food and Drug Law G 3
This course explores various FDA law and policy issues related to the regulation of food, drugs, biologics, devices, and tobacco products. Cross-listed in Law 8811.

7613 Tobacco Regulation and Policy G 2
This course examines the regulation of tobacco, with a focus on the role of the US FDA. This course highlights the history, significant provisions, and effects of the 2009 Tobacco Control Act, as well as the vital role that public health researchers and professionals play in influencing how the FDA implements the Act.

7615 Health Services Organizational Management G 3
This course is designed to provide students with a strong foundation in health services management, focusing on human resources management and organizational behavior. Prereq: Grad standing in Public Health (MPH-HMP, MHA, or PhD) or permission of instructor. Not open to students with credit for 815.

7617 Health Services Leadership and Organizational Change G 3
Overview of leadership and organizational change theories, as well as the application of those theories to case studies in health sector organizations. Prereq: 7615 and Grad standing in the HSMP-MHA program, or permission of instructor. Not open to students with credit for 817.

7620 Health Services Finance I G 3
Principles of finance and accounting applied to health service organizations. Prereq: An introductory course in financial accounting, or permission of instructor. Not open to students with credit for 820.

7621 Health Services Finance II G 3
Continuation of 7620 emphasizing financial analysis, financial planning, and capital project analysis. Prereq: 7620, or permission of instructor. Not open to students with credit for 821.

7622 Health Services Financial Decision-Making G 3
Principles of financial decision-making in health service organizations, with emphasis on applications of decision support systems. Prereq: 7621, or permission of instructor. Not open to students with credit for 822.

7624 Health Economics for Experienced Professionals G 3
Designed for public health professionals who wish to enhance their knowledge of the economic principles that drive the health care system. The course will introduce you to the use of economic analysis and economic evaluation for healthcare decision making.

7625 Systems Integration G 1
Students will address complex population health issues using tools learned through the MPH-PEP degree program. Small groups will work through a population health case developed by a community partner, incorporating project management, leadership, health economics, evaluation and operations management tools. Prereq: Enrollment in MPHPEP-MP graduate degree program or permission of instructor. This course is graded S/U.

7631 Strategic Management and Program Development G 3
Techniques and methods for strategic management and project planning in health care organizations and settings. Prereq: Enrollment in MHA program, or permission of instructor. Not open to students with credit for 831.

390 Public Health: Health Services Management & Policy

7632	Strategic Change for Public Health and Population Health Mgmt	G	3
This course will provide students a foundation in the theories, concepts & methods of strategic planning and the management of organizational change as applied to public health & population health management endeavors.			
7672	Clinical Rotations	G	1½
Individual assignments within health care organizations to observe operations. Prereq: Grad standing in PubHHMP, or permission of instructor. Not open to students with credit for 870.02.			
7673	Understanding Health Care Organization Data	G	1½
Application of data from various sources to inform decision making in health services settings and in health policy. Prereq: PubHBio 6210, or permission of instructor. Not open to students with credit for 870.03.			
7678	Approaches to Health Services Research	G	3
Overview of the field of health services research and the role of health services research in improving health care delivery. Prereq: Grad standing in Public Health, or permission of instructor.			
7679	Quality & Patient Safety	G	1½
Examination of quality management and quality measurement in health care with emphasis on patient safety. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.			
7680	Operations Management for Health Service Organizations	G	3
Concepts and techniques for managing operation in health service organizations; emphasis on management perspective and decision-making. Prereq: Grad standing in PubHHMP, or permission of instructor. Not open to students with credit for 880.			
7682	Information Systems for Health Services Organizations	G	1½
This course is designed to provide students with an understanding of issues in the management of information and information technology in health care organizations, the role of information technologies in improving organizational performance, and the application of information technologies in health service organizations. Prereq: 7680, or permission of instructor. Not open to students with credit for 882.			
7683	Operations Management and System Design	G	3
This course is designed to introduce students to fundamental theories, principles and practices for designing and managing operations. The course is structured to emphasize the unique aspects of process and system design in the health care organizations and in the community health system, including processes that cross organizational boundaries and include diverse stakeholders.			
7684	Health Services Strategy and Marketing	G	3
Students will learn principles, discipline, & analytic tools that comprise successful strategic management in healthcare organizations, including: strategic assessment, strategy development, implementation planning, & marketing. Emphasis will be placed on exploring strategic issues related to transitioning from volume to value-based models of care, impacts of ACA & population & community health. Prereq: Grad standing in Public Health - Health Services Management and Policy Master of Health Administration program, or permission of instructor. Not open to students with credit for 7631.			
7686	Qualitative Methods for Health Research	G	4
This course introduces students to the methods and uses of qualitative research applicable both to public health and to the full range of health sciences. Prereq: 7605; or permission of instructor.			
7699	Seminar in Health Services Management and Policy	G	1 - 6
Small group seminar with focus on integrative projects in health services management and policy. Prereq: Enrollment in Public Health PhD program. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
8672	Advanced Topics in Health Policy	G	4
Designed for doctoral and advanced masters students in the College of Public Health and other OSU colleges. It will provide students with a solid background of high-level policy scholarship on topics fundamental to the health care system. Prereq: 7605 or 7640; or permission of instructor.			
8899	Doctoral Seminar in Health Services Management and Policy	G	1 - 2
Doctoral level seminar on topics that are relevant to students enrolled in the PhD program in health services management and policy. Prereq: Grad standing in Public Health, or permission of instructor. Repeatable to a maximum of 9 cr hrs or 6 completions. This course is graded S/U.			

Quechua

5501.01	Beginning Quechua I: Classroom	U G	4
Quechua 5501.01 (501) is a beginning language course for students with no previous study experience in Quechua. This course will be comprehensive, integrating culture and language from the southern Quechua family spoken in Peru. Prereq: Not open to students with credit for 5501.51 or 501 or to native speakers. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			

5502.01	Beginning Quechua II: Classroom	U G	4
For students who have taken Quechua 5501.01 (501) or who have previous basic knowledge of Quechua at the beginning level. This course will be comprehensive, integrating culture and language from the southern Quechua family spoken in Peru. Prereq: 5501.01 (501), or 4 cr hrs of 5501.51; or permission of instructor. Not open to students with credit for 5502.51 or 502 or to native speakers. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
5503.01	Intermediate Quechua I: Classroom	U G	4
For students who have taken Quechua 5502 (502) or who have previous basic knowledge of Quechua at the beginning/intermediate level. This course will be comprehensive, integrating culture and language from the southern Quechua family spoken in Peru. Prereq: 5502.01 (502), or 4 cr hrs of 5502.51; or permission of instructor. Not open to students with credit for 5503.51 or 503 or to native speakers. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
5504.01	Intermediate Quechua II: Classroom	U G	4
Quechua 5504.01 (504) is an intermediate language course intended for students with experience in Quechua. The variety taught will be from the southern Quechua family spoken in Bolivia and Peru. Closed to native speakers of this language. Prereq: 5503.01 (503), or 4 cr hrs of 5503.51; or permission of instructor. Not open to students with credit for 5504.51. This course is available for EM credit. FL Admis Cond course.			
5505.01	Advanced Quechua I: Classroom	U G	3
Quechua 5505.01 is an advanced language course intended for students with experience in Quechua. This course is comprehensive, integrating culture and language. It will be useful for students that want to travel to the Andean countries or who have an interest in studying Quechua language, culture and society. The variety taught is from the southern Quechua family spoken in Bolivia and Peru. Prereq: 5504.01 or 4 cr of 5504.51, or permission of instructor. Students enrolled in Quechua 5501.01/51, 5502.01/51, 5503.01/51, and 5504.01/51 are not eligible to enroll simultaneously in subsequent levels of Quechua. FL Admis Cond course.			
5505.51	Advanced Quechua I: Individualized Instruction	U G	1 - 3
Quechua 5505.51 is an advanced language course intended for students with experience in Quechua. This course is comprehensive, integrating culture and language. It will be useful for students that want to travel to the Andean countries or who have an interest in studying Quechua language, culture and society. The variety taught is from the southern Quechua family spoken in Bolivia and Peru. Students enrolled in Quechua 5501.01/51, 5502.01/51, 5503.01/51, and 5504.01/51 are not eligible to enroll simultaneously in subsequent levels of Quechua. Prereq: 5504.01 or 4 cr hrs of 5504.51, or permission of instructor. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is available for EM credit.			
5506.01	Advanced Quechua II: Classroom	U G	3
Quechua 5506.01 is an advanced language course intended for students with experience in Quechua. This course is comprehensive, integrating culture and language. It will be useful for students that want to travel to the Andean countries or who have an interest in studying Quechua language, culture and society. The variety taught is from the southern Quechua family spoken in Bolivia and Peru. Prereq: 5505.01, or permission of instructor. FL Admis Cond course.			
5506.51	Advanced Quechua II: Individualized Instruction	U G	1 - 3
Quechua 5506.51 is an advanced language course intended for students with experience in Quechua. This course is comprehensive, integrating culture and language. It will be useful for students that want to travel to the Andean countries or who have an interest in studying Quechua language, culture and society. The variety taught is from the southern Quechua family spoken in Bolivia and Peru. Prereq: 5505.01 or 3 credits of 5505.51, or permission of instructor. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is available for EM credit.			

Radiation Oncology

2998	Radiation Oncology Research	U	1 - 3
Radiation Oncology combines aspects of biology and physics to the needs of medicine through treatment with radiation. In this research course, students will work directly with a member of the radiation oncology team to identify a topic related to radiation oncology and participate in research during the semester. Prereq: Completion of Introductory Physics courses. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
3998	Radiation Oncology Research	U	1 - 3
Radiation Oncology combines aspects of biology and physics to the needs of medicine through treatment with radiation. In this research course, students will work directly with a member of the radiation oncology team to identify a topic related to radiation oncology and participate in research during the semester. Prereq: Completion of Introductory Physics courses. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4998	Radiation Oncology Research	U	1 - 3
Radiation Oncology combines aspects of biology and physics to the needs of medicine through treatment with radiation. In this research course, students will work directly with a member of the radiation oncology team to identify a topic related to radiation oncology and participate in research during the semester. Prereq: Introductory physics courses. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.			

4999 Medical Physics Undergraduate Research U 1 - 3

This research course allows the student to explore a topic of interest in medical physics under the close supervision of a faculty member who has agreed to direct the student's work. The course may include directed readings, assisting the faculty member with a research project, carrying out an independent research project, or other activities deemed appropriate. Prereq: Physics 1250 and 1251, or equiv. Repeatable to a maximum of 20 or hrs or 10 completions. This course is graded S/U.

8250 Biology of the Tumor Microenvironment G 2

Cellular and molecular biology of the microenvironment in solid cancers. Signals and mechanisms that promote tumor initiation and progression. Prereq: 2nd year Grad standing, with lab work complete.

8998 Thesis Research in Radiation Oncology (Laboratory) G 1 - 8

This course provides an opportunity for graduate-level research in the fields of radiation oncology. This course will allow pre-candidacy PhD students the opportunity to obtain research skills and knowledge to complete their thesis by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 8 or hrs or 6 completions. This course is progress graded (S/U).

8999 Dissertation Research in Radiation Oncology G 1 - 10

This course provides an opportunity for graduate-level research in the fields of Molecular, Cellular and Developmental Biology in cancer. This course will allow post-candidacy PhD students the opportunity to obtain research skills and knowledge to complete their dissertation by working in a laboratory setting. Prereq: Permission of instructor. Repeatable to a maximum of 10 or hrs or 6 completions. This course is progress graded (S/U).

Radiologic Sciences and Therapy

3089 Radiography Practicum I U 1 - 10

Clinical application of diagnostic radiographic and fluoroscopic imaging performed in radiology. A direct field experience will provide the student with 16-24 hours of clinical experience in imaging departments of a clinical affiliate. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 10 or hrs or 2 completions. This course is available for EM credit.

3189 Radiography Practicum II U 1 - 10

Clinical application of diagnostic radiographic and fluoroscopic imaging performed in radiology. A direct field experience will provide the student with 16-24 hours of clinical experience in imaging departments of a clinical affiliate. Prereq: 3089, and acceptance to the Radiography program.

3200 Evidence Based Practice in the Radiologic Sciences U 2

Introduction to radiologic sciences focusing on innovations impacting clinical practice. The scientific writing process is used to implement the process of analyzing and synthesizing credible evidence to advance clinical practice skills. Prereq: Acceptance in the Radiologic Sciences and Therapy Division.

3289 Radiation Therapy Practicum I U 1 - 10

Clinical application of patient care, simulation and treatment procedures performed in Radiation Therapy. Emphasis is directed toward competently performing machine function and patient setup. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3310 Introduction to the Radiation Sciences U 3

Introduction to the fields in the radiation sciences. Radiation safety, patient care, and clinical practice principles will be emphasized. Application of principles will be reinforced in laboratory sessions. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3389 Radiation Therapy Practicum II U 1 - 10

Clinical application of patient care, simulation and treatment procedures performed in Radiation Therapy. Emphasis is directed toward competently performing machine function and patient setup. Prereq: 3289, and enrollment in RadSci; or permission of instructor.

3411 Radiographic Procedures I U 3

Principles of radiography of the chest, bronchial tree, abdomen, alimentary tract, and appendicular skeleton, with application in the laboratory. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3412 Radiographic Procedures II U 3

Principles of radiography of the vertebral column, spinal canal, bony thorax, cerebral and visceral cranium, arthrography, urinary system, and reproductive systems. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3414 Radiation Therapy Equipment and Instrumentation U 4

An introduction to the terminology, treatment charting, simulation, beam alignment, machine components, and the technical aspects of treatment in a clinical environment. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3425 Radiographic Imaging I U 3

Investigation of the principles of radiation production, radiation protection and radiologic image formation. Prereq: Enrollment in RadSci, or permission of instructor. Not open to students with credit for 425 or RadTech 425. This course is available for EM credit.

3430 General Concentration in Sonography 1 U 3

An introduction to the sonography profession with an emphasis on OB/GYN medical sonography. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3431 General Concentration in Sonography 2 U 3

Provides content information about the use of sonography to image anatomy and pathology associated with the abdominal organs. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3471 Radiologic Physics U 3

Investigation of the principles of radiographic, fluoroscopic, CT equipment; radioactivity; advanced radiation production, emission spectrum, and interaction with matter. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3483 Dosimetry Calculation U 3

Principles of dosimetric calculations, terms and calculation variables are emphasized according to specific beam energies. Common dosimetry problems occurring during patient treatments are discussed. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3486 Diagnostic Medical Sonography Physics 1 U 3

A practical application of the physics of ultrasound production. Emphasis is placed on instrumentation used in medical sonography. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3487 Diagnostic Medical Sonography Physics 2 U 3

A continuation of Rad Sci 3486 with emphasis on the physics of ultrasound to better understand transducers and the interactions of sound waves at every human interface. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3489 Diagnostic Medical Sonography Practicum I U 1 - 8

Instruction and experience in the performance and interpretation of sonographic images. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 or hrs or 2 completions. This course is available for EM credit.

3573 Applied Radiation Oncology I U 3

Introduction to neoplastic disease including incidence, mortality, epidemiology, etiology, detection, prevention, risk, stage and grading. Emphasis on radiation treatment positioning, fields, and doses of disease sites. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3574 Applied Radiation Oncology 2 U 3

A continuation of RadSci 3573 with an emphasis on radiation treatment positioning, fields, and doses of neoplastic disease sites. Prereq: 3573.

3589 Diagnostic Medical Sonography Practicum II U 1 - 8

Instruction and experience in the performance and interpretation of sonographic images. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 or hrs or 2 completions. This course is available for EM credit.

3672 Radiologic Sectional Anatomy U 3

Identification of anatomic structures as seen in cadaver, CT, MR, and sonographic from multiple orientations, to include volumetric 3-D anatomical imaging. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

3689 Sonography Practicum III U 1 - 10

Instruction and experience in the performance and interpretation of sonographic images. Prereq: 3589, and acceptant to the Sonography program.

4089 Radiography Practicum III U 1 - 10

Clinical application of diagnostic radiographic and fluoroscopic imaging performed in radiology. A direct field experience will provide the student with 32 hours of clinical experience per week in imaging departments of a clinical affiliate. Prereq: 3089, and enrollment in RadSci; or permission of instructor. Repeatable to a maximum of 15 or hrs or 2 completions. This course is available for EM credit.

4189 Radiography Practicum IV U 1 - 10

Clinical application of diagnostic radiographic and fluoroscopic imaging performed in radiology. A direct field experience will provide the student with 16-24 hours of clinical experience per week in imaging departments of a clinical affiliate. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 15 or hrs or 2 completions. This course is available for EM credit.

4289 Radiography Practicum V U 1 - 10

Clinical application of diagnostic radiographic and fluoroscopic imaging performed in radiology. A direct field experience will provide the student with 16-24 hours of clinical experience per week in imaging departments of a clinical affiliate. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 15 or hrs or 2 completions. This course is available for EM credit.

4325 Administrative and Quality Management in Sonography U 3

This course will prepare sonography students with an intermediate understanding of how quality management is used to bring forth excellence in a sonography lab located within clinical settings. Prereq: Enrollment in RadSci, or permission of instructor.

392 Radiologic Sciences and Therapy

4326	Administrative Aspects of the Radiologic Sciences	U	2
This course is provided to seniors in preparation for possible management in the hospital or clinical departments. The course is divided into topics that provide readings, discussions and case studies that foster a deeper understanding of management principles. These topics include human resources, employee motivation, cultural diversity, fiscal budgeting, safety, and operational issues. Prereq: Enrollment in RadSci.			
4389	Radiation Therapy Practicum III	U	1 - 10
Clinical application of patient care, simulation, treatment and brachytherapy procedures performed in Radiation Therapy. Emphasis is directed toward machine function, patient set up and variation in procedures. Prereq: 3289 and 3389, and enrollment in RadSci; or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is available for EM credit.			
4426	Radiographic Imaging II	U	3
Advanced radiologic image formation, image assessment, and radiographic quality management and testing. Prereq: 3425, and enrollment in RadSci; or permission of instructor. This course is available for EM credit.			
4432	General Concentration in Sonography 3	U	2
Focuses on the use of medical sonography to image anatomy and pathology associated with the neck, breast, scrotum, extremities and neonatal cranial structures. Prereq: Enrollment in Radiologic Sciences and Therapy program, or permission of instructor. This course is available for EM credit.			
4478	Radiation Therapy Physics I	U	3
Analysis of atomic structure, production, modes of radioactive decay and calculation of source activity. Fundamental applications of brachytherapy implants as it relates to specific source handling, treatment techniques, and treatment planning. Prereq: Enrollment in RadSci, or permission of instructor.			
4482	Radiation Therapy Physics II	U	3
An analysis of interaction and measurement of ionizing radiation in radiation therapy. Concepts include beam quality, measurement of absorbed dose, dose distribution, scatter analysis and electron beam radiation therapy. Prereq: 3471, and enrollment in RadSci; or permission of instructor. This course is available for EM credit.			
4485	Treatment Planning	U	2
Analysis and implementation of new and established treatment methods as it relates to the treatment plans designed for optimal coverage of the tumor volumes, avoidance of critical structures and constraints of the treatment units. Prereq: 3483, and Enrollment in RadSci; or permission of instructor. This course is available for EM credit.			
4488	Diagnostic Medical Sonography Physics 3	U	2
A continuation of Rad Sci 3487 with emphasis on the physics of spectral Doppler, color Doppler, and total quality management with practical application to sonography. Prereq: Enrollment in the Radiologic Sciences and Therapy program, or permission of instructor. This course is available for EM credit.			
4489	Radiation Therapy Practicum IV	U	1 - 10
Clinical application of patient care, simulation, treatment, brachytherapy and treatment planning procedures performed in Radiation Therapy. Emphasis is directed toward machine function, patient set up and variation in procedures. Prereq: 3289, 3389, and 4389, and Enrollment in RadSci; or permission of instructor. Repeatable to a maximum of 10 cr hrs or 20 completions. This course is available for EM credit.			
4520	Vascular Sonography 1	U	3
An introduction to venous imaging and noninvasive testing of the upper and lower extremities and the vascular integration of transplanted organs. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.			
4521	Vascular Sonography 2	U	3
An introduction to arterial imaging and noninvasive testing of the upper and lower extremities and vascular integration of the carotid arteries, and bypass grafts. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.			
4530	Quality Management in Radiologic Sciences	U	3
Investigation of QM principles and techniques specific to the imaging sciences including modality specific quality control testing and national/state requirements. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.			
4589	Radiation Therapy Practicum V	U	1 - 10
Clinical application of patient care, simulation, treatment, and treatment planning procedures performed in Radiation Therapy. Emphasis is directed toward competence in machine function, patient set up, plan changes and variations in procedures. Prereq: 3289, 3389, 4389, and 4489, and enrollment in RadSci; or permission of instructor.			
4615	Radiographic Clinical Correlations	U	3
The fundamentals of radiographic diagnosis are explored with an emphasis on the correlations of the patient's medical history with radiographic findings. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.			
4618	Clinical Radiation Oncology	U	2
Pathology of neoplastic diseases of the human body emphasizing epidemiology, clinical presentation, detection and diagnosis, staging and treatment of the neoplasm relevant to radiation oncology. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.			

4630	Transitions to Clinical Practice	U	2
-------------	---	----------	----------

Provides the practical skills necessary to apply radiation science theory in clinical practice and prepares students for the transition to professional in the imaging science workplace. Prereq: Enrollment in RadSci, or permission of instructor.

4670	Radiobiology and Radiation Protection	U	2
-------------	--	----------	----------

Principles of cellular biology and the reactions from types of ionizing radiation specific to radiation sciences. Emphasis is on effects from radiation exposure, radiation safety and the radiation protection standards utilized in radiation sciences. Prereq: Enrollment in RadSci, or permission of instructor. This course is available for EM credit.

4689	Vascular Sonography Practicum I	U	1 - 8
-------------	--	----------	--------------

Instruction and experience in the performance and interpretation of vascular sonographic imaging. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 2 completions. This course is available for EM credit.

4730	Quality Improvement in Healthcare	U	3
-------------	--	----------	----------

Quality Improvement in Healthcare is the first of two courses designed to provide students with the knowledge and practical experience to effectively implement a quality improvement (QI) project. Students will develop the skills necessary to develop a QI project through both course instruction and under the guidance of a student-identified preceptor. Prereq: 4530, or permission of instructor.

4789	Vascular Sonography Practicum II	U	1 - 8
-------------	---	----------	--------------

Instruction and experience in the performance and interpretation of vascular sonographic imaging. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 2 completions. This course is available for EM credit.

5089	Computed Tomography Practicum	U G	1 - 4
-------------	--------------------------------------	------------	--------------

Advanced operation, and application of CT technology, to include quality management, sectional anatomy, and supervised clinical practicum. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions. This course is available for EM credit.

5189	Magnetic Resonance Practicum	U G	1 - 4
-------------	-------------------------------------	------------	--------------

Theory and clinical education in magnetic resonance imaging procedures. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions.

5289	Mammography/Breast Imaging Practicum	U G	3
-------------	---	------------	----------

This course will provide the participant with knowledge and skills needed to become proficient in mammography. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 6 cr hrs.

5389	Administration and Quality Management Practicum	U G	1 - 4
-------------	--	------------	--------------

A supervised practicum in radiologic sciences administration and quality management. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions.

5589	Vascular Interventional Radiography Practicum	U G	1 - 4
-------------	--	------------	--------------

Theory and clinical education in radiographic and therapeutic interventional procedures related to vascular structures and organ systems. Prereq: Enrollment in RadSci, or permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions.

Radiology

7193.10	Individual Studies in Radiobiology	G	1 - 6
----------------	---	----------	--------------

Individual research study in Radiobiology. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 18 completions. This course is graded S/U.

8999	Research in Radiology	G	1 - 12
-------------	------------------------------	----------	---------------

Research for dissertation. Repeatable to a maximum of 12 cr hrs or 15 completions. This course is graded S/U.

Religious Studies

2102.01	Literature and Religion	U	3
----------------	--------------------------------	----------	----------

Study of relationships between religion and secular literature; analysis of religious and spiritual elements of literature and film of diverse cultures and historical periods. Prereq: English 1110 (110) or equiv. Not open to students with credit for 2102.01H, CompStd 2102.01 (202.01), or 2102.01H (202.01H). GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

2102.01H	Literature and Religion	U	3
-----------------	--------------------------------	----------	----------

Study of relationships between religion and secular literature; analysis of religious and spiritual elements of literature and film of diverse cultures and historical periods. Prereq: Honors standing, and English 1110 or equiv. Not open to students with credit for 2102.01, CompStd 2102.01, or 2102.01H. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

2102.02	Comparative Sacred Texts	U	3
----------------	---------------------------------	----------	----------

Introduction to religious views of the universe, the supernatural, social organization, ethics, etc., through sacred texts (oral and written) of diverse cultures and historical periods. Prereq: English 1110.xx, or GE foundation writing and info literacy course, or equivalent. Not open to students with credit for CompStd 2102.02. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

2222 From Ishtar to Christ: The History of Mediterranean Religions U 3

This course introduces students to the historical facts of 10 ancient Mediterranean religions in a context that trains them to study religions more generally. It also teaches them how two of the most prominent religions today—Judaism and Christianity—succeeded within a richly diverse religious marketplace, and how religions respond to their political, economic, and social environments. Prereq: Not open to students with credit for Clas 2222. GE historical study course. GE foundation historical and cultural studies course. Cross-listed in Clas.

2370 Introduction to Comparative Religion U 3

Introduction to the academic study of religion through comparison among major traditions (Judaism, Christianity, Islam, Hinduism, Buddhism, etc.) and smaller communities. Prereq: English 1110 or equiv. Not open to students with credit for 2370H or CompStd 2370H or 2370. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies and race, ethnicity and gender div course.

2370H Introduction to Comparative Religion U 3

Introduction to the academic study of religion through comparison among major traditions (Judaism, Christianity, Islam, Hinduism, Buddhism, etc.) and smaller communities. Prereq: Honors standing, and English 1110 or equiv. Not open to students with credit for 2370, CompStd 2370, or 2370H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies and race, ethnicity and gender div course.

2670 Science and Religion U 3

A philosophical examination of the relationship between science and religion; concentration on issues regarding the creation of the universe and the origins of life. Prereq: Not open to students with credit for CompStd 2670 or Philos 2670 or 2860. GE cultures and ideas course. GE foundation historical and cultural studies course. Cross-listed in Philos.

2677 Religion and Environmentalism U 3

Examines the complex intersections between religion and environmental movements in North America, beginning with early contact between Europeans and Native Americans. Prereq: English 1110 (110) or equiv. Not open to students with credit for CompStd 2677 (277).

3210 Jewish Mysticism and Kabbalah U 3

The history of Jewish mysticism from antiquity to the present, with emphasis on its implications for the comparative study of religious experience. Prereq: English 1110 or equiv. Not open to students with credit for 2210, 2210H, 3210H, CompStd 2210, 2210H, Hebrew 2210, 3210, 2210H, JewshSt 2210, 3210, 2210H, or 3210H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in JewshSt.

3210H Jewish Mysticism and Kabbalah U 3

The history of Jewish mysticism from antiquity to the present, with emphasis on its implications for the comparative study of religious experience. Prereq: Honors standing, and English 1110 or equiv. Not open to students with credit for 2210, 3210, 2210H, CompStd 2210, 2210H, Hebrew 2210, 3210, 2210H, 3210H, JewshSt 2210, 3210, 2210H, or 3210H. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in JewshSt.

3666 Magic in the Modern World U 3

This course traces the modern revival of magic and neo-paganism, both in new religious movements and in popular culture, novels, music and film, from 1870 to the present. The course examines the intersections between emergent magical groups and various social and political movements. GE cultures and ideas and diversity global studies course. GE foundation lit, vis and performing arts and historical and cultural studies course.

3667 Messages from Beyond: Divination, Prophecy, and the Occult in Religion and Culture U 3

In this course, we will explore how people from antiquity to our time have sought to find meaning in the complexity and uncertainty around their physical and social environment to access what they perceived as hidden realms as sources of meaning. Students will learn how messages from beyond guide their daily lives, provide them with sources of authority or companionship for their art of philosophy. Prereq: Not open to students with credit for NELC 3667. GE theme lived environments course. Cross-listed in NELC.

3671 Religions of India U 3

History and structure of South Asian religions with attention to myth, ritual, art, philosophy, and social stratification. 2370 recommended. Prereq: English 1110 or equiv. Not open to students with credit for CompStd 3671 or SAsia 3671. GE foundation historical and cultural studies course. Cross-listed in SAsia.

3672 Native American Religions U 3

Comparative survey of indigenous religions of North America; patterns and diversity in religious experience, cosmologies, myths, rituals, social organizations, and sacred roles. 2370 recommended. Prereq: English 1110 or equiv.; for students following the new GE system, completion of GE foundation writing and information literacy course. Not open to students with credit for CompStd 3672. GE cultures and ideas course and diversity soc div in the US course. GE theme traditions, cultures, and transformations course.

3673 The Buddhist Tradition U 3

History and structure of Buddhism from founding to present in South, Southeast, and East Asia; emphasis on rituals, beliefs, and local and regional variations. 2370 (270) recommended. Prereq: Not open to students with credit for CompStd 3673 (323), EALL 3223 (323), or RelStds 323. Cross-listed in EALL 3223.

3674 African Religions U 3

Survey of African traditional religions and their interaction with Islam and Christianity in Africa and the diaspora; emphasis on cosmologies, myth, ritual, ethics, and witchcraft. Comparative Studies 2370 (270) or 2370H (270H) recommended. Prereq: English 1110 (110) or equiv. Not open to students with credit for CompStd (324) or RelStds 324.

3678 Religion and American Culture U 3

Thematic approach to the intersections of religion and American culture, with attention to varied topics such as pluralism, nationalism, race, gender, sexuality, law, media, science, economics, and popular culture. 2370 recommended. Prereq: English 1110 or equiv. Not open to students with credit for CompStd 3678. GE diversity soc div in the US course. GE theme citizenship for div and just wrld course.

3679 Popular Culture and World Religion U 3

The representation of religion in visual culture, in the United States and around the world; the ways that religious traditions are represented or misrepresented; the ways religious traditions appropriate popular culture for their own purposes; new forms of religious practice and community that grow directly out of popular culture. Prereq: English 1110. GE VPA course. GE foundation lit, vis and performing arts course.

3680 Religion and Law in Comparative Perspective U 3

Comparative, interdisciplinary approach to studying religion and law. Drawing on concrete cases, historical studies, and theoretical literature, the course explores how the relationship between religion and law has been configured differently in different liberal democracies, such as the U.S., France, and Israel, and what this might mean for contemporary debates. Prereq: Not open to students with credit for History 3680. GE historical study and diversity global studies course. GE theme citizenship for div and just wrld course. Cross-listed in History.

3972 Theory and Method in the Study of Religion U 3

Survey of contemporary theories and methods used in the academic study of religion. Prereq: 2370 (270) or 2370H (270H) or equiv. Not open to students with credit for RelStds 4972 or CompStd 4972 (520).

4873 Contemporary Religious Movements in Global Context U 3

Examination of contemporary religious movements within the context of larger political, cultural, and economic processes, including post-colonialism, modernization, and globalization. Prereq: One course in CompStd, RelStds, or IntStds; or Grad standing; or permission of instructor. Not open to students with credit for CompStd 4873 or IntStds 4873. GE theme citizenship for div and just wrld course. Cross-listed in IntStds.

5871 The Japanese Religious Tradition U G 3

A survey of the Japanese tradition, including Shinto, Buddhism, Taoism, New-Confucianism, and folk religion from the 6th century B.C.E. to the present. Prereq: Not open to students with credit for CompStd 5871 (641) or Japanse 5271 (641). Cross-listed in Japanse 5271.

Respiratory Therapy

4320 Components of Respiratory Health and Disease U 4

A study of normal respiratory mechanisms, manifestations and treatment of respiratory diseases, their clinical courses with specific consideration for the basis of respiratory therapeutics. Prereq: Admission to RespThr.

4400 Basic Respiratory Care U 5

Study and clinical application of theories, procedures, and equipment utilized in delivering, monitoring, and evaluating basic respiratory therapeutics to patients in the hospital setting. Prereq: Admission to RespThr.

4410 Introduction to Clinical Respiratory Care U 4

An orientation to the profession, consideration of professional ethics, introduction to basic cardiopulmonary assessment and life support techniques, infection control, medical record, hospital environment, and role of the Respiratory Therapist. Prereq: Admission to RespThr.

4430 Evaluation of Respiratory Function U 5

Study of methods, instrumentation, standards and clinical applications of pulmonary function testing and arterial blood gas analysis with emphasis on quality assurance. Prereq: Admission to RespThr.

4475 Mechanical Ventilation U 5

Study of various mechanical ventilators and artificial airways, with major emphasis placed on all aspects of the management of the patient-ventilator system. Prereq: 4320, 4400, 4410, and 4430.

4489 Clinical Experience Phase I U 2

Clinical application of basic respiratory therapeutics, intensive respiratory care, and arterial blood gas analysis. Prereq: 4320, 4400, 4410, and 4430.

4500 Respiratory Therapy for Special Populations U 5

Theories, procedures, and equipment applicable to the delivery of respiratory therapy to special populations, including the neonatal, pediatric, home care, sleep, community, rehabilitation, and long-term acute care patient. Prereq: 4320, 4400, 4410, and 4430.

4515 Intensive Respiratory Care U 3

The etiology, manifestations, and treatment of respiratory failure including principles, techniques and equipment associated with advanced cardiopulmonary monitoring and cardiac life support. Prereq: 4320, 4400, 4410, and 4430.

394 Respiratory Therapy

4589	Clinical Experience Phase II	U	3 - 10
Clinical application of adult, neonatal, and pediatric intensive respiratory care; home, continuing, and long-term acute respiratory care; pulmonary rehabilitation; endotracheal intubation. Prereq: 4475, 4489, 4500, and 4515.			
4593	Individual Studies in Respiratory Therapy	U	1 - 5
Guided study of topics or pursuit of individual experiences in respiratory therapy. Concur: 4689, 5525, and 5600. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
4689	Introduction to Advanced Clinical Practice Phase I	U	2
Clinical education and experiences in respiratory therapy competency assurance, alternate care settings, and critical care. Prereq: 4589. This course is graded S/U.			
4789	Introduction to Advanced Clinical Practice Phase II	U	5
Clinical education and experience in respiratory therapy education, administration of respiratory services, and areas of advanced professional practice. Prereq: 4689, 5525, and 5600. This course is graded S/U.			
4895	Seminar	U	1 - 5
Conferences, group discussion, and presentations of selected topics. Prereq: Admission to RespThr. Repeatable to a maximum of 10 cr hrs or 4 completions. This course is graded S/U.			
5520	Issues in Respiratory Care	U G	2
An analysis of current administrative, legal, regulatory, and professional issues which influence the administration of respiratory care services and therapists. Prereq: 5525, 4689, and 5600, or permission of instructor.			
5525	Teaching & Learning Respiratory Therapy	U G	2
Principles and practice of teaching and learning in respiratory therapy. Various education roles and strategies of respiratory therapists in academic, community and clinical settings. Prereq: 4589, or permission of instructor.			
5600	Fundamentals of Respiratory Care Research	U G	2
Survey of research problems, methods, and designs utilized in respiratory care, with emphasis on data collection, analysis, and presentation. Prereq: 4589, or permission of instructor. Not open to students with credit for 593, 600, and Allimed 680.			
7410	Advanced Health Assessment	G	3
Development of advanced health assessment skills. Emphasis on acquisition of pertinent assessment data across the life span for advanced nursing care of multiple specialties. Prereq: Nursing 7450, and enrollment in Master of Respiratory Therapy (MRT) program. Cross-listed in Nursing.			
7700	Ethical Issues in Advanced Practice	G	2
Focus on ethical issues in advanced Respiratory Therapy practice. Ethical principles, case studies and simulated clinical scenarios in advanced respiratory care will be reviewed as students develop skills in analyzing, synthesizing and integrating ethics to support their positions. Prereq: Enrollment in Master of Respiratory Therapy (MRT) program.			
7800	Advanced Practice in Respiratory Care	G	3
Case study approach of theories, procedures and equipment in advanced respiratory care. Integrates critical diagnostic thinking, systems and evidence-based medicine for treatment of patients with respiratory compromise. Prereq: Enrollment in Master of Respiratory Therapy (MRT) program. Repeatable to a maximum of 9 cr hrs.			
7895	Graduate Seminar in Respiratory Therapy	G	1 - 3
Graduate seminars will focus on evidence-based practice, current developments, and professional practice issues in Respiratory Therapy. The seminars will consist of conferences, group discussions, and presentations of selected advanced topics in Respiratory Therapy. Prereq: Admission to Master of RespThr program. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.			
8189	Advanced Clinical Practice I	G	4
Supervised clinical education and introductory experiences in areas of advanced professional practice. Students will develop competence with patients of various diagnoses for examination, interventions, diagnosis, development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication. Prereq: Enrollment in Master of Respiratory Therapy (MRT) program. This course is progress graded (S/U).			
8289	Advanced Clinical Practice II	G	7
Supervised clinical education and intermediate experiences in areas of advanced professional practice. Students will continue to develop competence with patients of various diagnoses for examination, interventions, diagnosis, development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication. Prereq: Enrollment in Master of Respiratory Therapy (MRT) program. This course is graded S/U.			
8389	Advanced Clinical Practice III	G	7
This course provides students with clinical experiences to develop expertise and competence in areas of advanced professional practice. Students will continue to develop competence with patients of various diagnoses for examination, interventions, diagnosis, development of comprehensive plan of care, goal setting, documentation, consultation, delegation, and communication. Prereq: Enrollment in Master of Respiratory Therapy (MRT) program. This course is graded S/U.			

Romance Linguistics

5051	Latin and the Romance Languages	U G	3
Examines the socio-historical factors and the linguistic processes that contributed to the formation of the Romance languages and to their divergences. Course taught in English. Prereq: Equivalent of 1103 in Italian, French, Spanish, Portuguese, Romanian, or Latin; or permission of instructor. Not open to students with credit for 692, French 692, Italian 5051 (692), or Clas 5051. Cross-listed in Clas and Italian.			
8193	Individual Studies	G	1 - 3
Individual Studies. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is progress graded (S/U).			
8194	Group Studies	G	1 - 9
Investigation of minor problems in the various fields of Romance linguistics. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs.			
8999	Research in Romance Linguistics	G	1 - 9
Research for thesis purposes only. Repeatable to a maximum of 99 cr hrs. This course is progress graded (S/U).			

Romanian

1101	Elementary Romanian I	U	4
Introduction to Romanian; development of speaking, listening, reading, and writing skills in cultural context. Closed to native speakers of this language. Prereq: Not open to students with credit for 101, or 2 or more years of study in this language in high school, except by permission of department. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1102	Elementary Romanian II	U	4
Continued development of speaking, listening, reading, and writing skills in cultural context. Closed to native speakers of this language. Prereq: 1101 (101). Not open to students with credit for 102. This course is available for EM credit. GE for lang course. GE world languages course. FL Admis Cond course.			
1103	Intermediate Romanian I	U	4
Continued development of speaking, listening, reading, and writing skills in cultural context. Closed to native speakers of this language. Prereq: 1102 (102). Not open to students with credit for 104 or 111. This course is available for EM credit. GE for lang course. GE world languages course.			
2104	Intermediate Romanian II	U	4
Increasing functional ability in speaking, listening, reading, and writing practice; vocabulary-building; new grammar structures; start developing higher-level language skills in Romanian. Prereq: 1103 (111) or 104. Not open to students with credit for 407, or native speakers of this language through regular course enrollment or EM credit.			

Rural Sociology

1500	Introduction to Rural Sociology	U	3
Principles of society, major social institutions, and social change; emphasizes social changes in rural life, rural organizations, population, and family living. Au, Sp Sems. Prereq: Not open to students with credit for 105, Sociol 1101 (101), or 201. GE soc sci orgs and politics and diversity soc div in the US course. GE foundation social and behavioral sci course.			
3320	Amish Society	U	3
Analysis of the historical, social, religious, economic and cultural dimensions of the Amish. Prereq: Not open to students with credit for 5520.			
3580	Social Groups in Developing Societies	U	3
Contemporary experiences and activism of rural social groups in the context of development and globalization in the Global North and South. Going beyond state boundaries, the course studies the emergence of new development actors, transnational solidarity, and resilience across South-North divide. Prereq: 3 cr hrs in RurISoc, Sociol, or a related social science; or permission of instructor.			
4500	Community Development in Practice	U	3
The application of an asset-based community development framework to address environmental, economic, and social issues at the community-level in the United States. Sp Sem. Prereq: ENR 3500 or permission of instructor. Not open to students with credit for 542.			
5500	Diffusion of Innovations	U G	3
Examine the sociological processes involved in disseminating new ideas and technologies in U.S. and developing nations. Assess the consequences of new technologies for communities, households, and individuals particularly in rural contexts. Au Sem. Prereq: Not open to students with credit for 562 or 662.			
5530	Sociology of Agriculture and Food Systems	U G	3
Overview of sociological theory and research related to agricultural change and food system development, focusing on individual, family, farm, community and environmental impacts. Au Sem. Prereq: 6 units in RurISoc, Sociol, or related Social Sciences, or Grad standing, or permission of instructor. Not open to students with credit for 733.			

5540 Population, Place and Environment U G 3

Focuses on demographic issues in rural settings and related environmental issues, with an emphasis on population change and migration in the context of conflicts, disaster, and resource based development. Prereq: 6-9 cr hrs taken in RurISoc, Sociol, or related social science, or Grad standing. Not open to students with credit for 744.

5580 Social Impact Assessment U G 3

This course provides students with a broad understanding of the fundamental history, concepts, methods, and theories of Social Impact Assessment (SIA) as part of environmental policy and regulation in both US and International contexts. Students are exposed, via scholarly articles, case studies and projects, to existing SIAs from across the US and the world and how quality SIAs are performed. Prereq: Jr, Sr, or Grad standing, or permission of instructor.

5797 Study at a Foreign Institution U G 1-15

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Au, Sp, Su Sems. Prereq: Permission of dept chairperson. Not open to students with credit for 697. Repeatable to a maximum of 30 cr hrs or 2 completions. This course is progress graded.

6500 Rural Poverty G 3

Evaluation of the factors which create and maintain poverty and inequality, with focus on the rural U.S., developing nations, and the comparative analysis of spatial inequalities. * Sp Sem (odd years). Prereq: 15 cr hrs in RurISoc or related social sciences, or Grad standing. Not open to students with credit for 666.

7550 Rural Community Development in Theory and Practice G 3

Theoretical foundations of rural community development; contemporary community development issues; change processes, strategies, and practices. * Sp Sem. (odd years). Prereq: Grad standing. Not open to students with credit for 888.

7560 Environmental Sociology G 3

Sociological approaches to the study of environmental policy. Analysis of major issues relating to the use and abuse of natural resources and pollution. Prereq: Grad standing. Not open to students with credit for 766.

7600 Concepts and Theories in Rural Sociology G 3

Examines the sociological significance of "rurality" and the conceptual perspectives applied to major substantive areas in rural sociology, such as community, environment, and agriculture. * Au Sem (odd years). Prereq: Grad standing. Not open to students with credit for 742.

8500 Development Sociology in Theory and Practice G 3

Overview of sociological principles, theories and research in the evolution of international development and globalization practices, objectives, and policies. Contemporary issues in development and globalization. * Sp Sem (even years). Prereq: Grad standing. Not open to students with credit for 892.

1102.51 Elementary Russian II (Self-Paced) U 1-4

Continued development of speaking, listening, reading, and writing skills in cultural context. Students register for 1-4 cr hrs. Progress is sequential from one cr hr to next. 80% is required to advance. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01, or 4 cr hrs of 1101.51 or 1101.61. Not open to students with credit for 1102.01, or 4 cr hrs of 1102.61. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1102.61 Elementary Russian II (Self-Paced/Individualized Distance Learning) U 1-4

Continued development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101.01, 4 cr hrs of 1101.51, or 4 cr hrs of 1101.61. Not open to students with credit for 1102.01, or 4 credits of 1102.51. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1103.01 Intermediate Russian I (Classroom Track) U 4

Continued development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, or 4 cr hrs of 1102.51 or 1102.61. Not open to students with 4 cr hrs of 1103.51 or 1103.61. This course is available for EM credit. GE for lang course. GE world languages course.

1103.51 Intermediate Russian I (Self-Paced) U 1-4

Continued development of speaking, listening, reading, and writing skills in cultural context. Students register for 1-4 cr hrs during sem. Progress is sequential from one cr hr to the next. 80% is required to advance. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, or 4 cr hrs of 1102.51 or 1102.61. Not open to students with credit for 1103.01, or 4 cr hrs of 1103.61. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit. GE for lang course. GE world languages course.

1103.61 Intermediate Russian I (Self-Paced/Individualized Distance Learning) U 1-4

Continued development of speaking, listening, reading, and writing skills in cultural context. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102.01, 4 cr hrs of 1102.51, or 4 cr hrs of 1102.61. Not open to students with credit for 1103.01 or 4 cr hrs of 1103.51. Repeatable to a maximum of 4 cr hrs. This course is available for EM credit. GE for lang course. GE world languages course.

1133 Intermediate Russian for Heritage Speakers U 4

This course is designed for students who have a Russian background, hear and/or speak (to a different degree) Russian at home and want to learn to read and write in Russian, or to develop their speaking and literacy skills through formal Russian language study. Students must take a Russian placement exam, and test out of Russian 1101 and 1102. Prereq: Not open to students with credit for Russian 1103.01. GE for lang course. GE world languages course.

2104.01 Intermediate Russian II (Classroom Track) U 4

Increasing functional ability in speaking, listening, reading, and writing practice, vocabulary-building; new grammar structures; start developing higher-level language skills in Russian. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1103.01, or 4 cr hrs of 1103.51 or 1103.61. Not open to students with 4 cr hrs of 2104.51 or 2104.61.

2104.51 Intermediate Russian II (Self-Paced) U 1-4

Increasing ability in speaking, listening, reading, and writing; vocabulary-building; new grammar; developing higher skills. Students register for 1-4 cr hrs during sem. Progress is sequential from one cr hr to next. 80% is required to advance. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1103.01, or 4 cr hrs of 1103.51 or 1103.61. Not open to students with credit for 2104.01, or 4 cr hrs of 2104.61. Repeatable to a maximum of 4 cr hrs or 4 completions.

2104.61 Intermediate Russian II (Self-paced/Individualized Distance Learning) U 1-4

Increasing functional ability in speaking, listening, reading, and writing practice, vocabulary-building; new grammar structures; start developing higher-level language skills in Russian. Prereq: 1103.01 or 4 credits of 1103.51. Not open to students with credit for 2104.01 or 4 credits of 2104.51. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is available for EM credit.

2144 Intermediate Russian for Heritage Speakers II U 4

This is the second course designed for students who have a Russian background, hear and/or speak (to a different degree) Russian at home and want to learn to read and write in Russian, or to develop their speaking and literacy skills through formal Russian language study. Prereq: 1133.

2200 Russian Language and Culture for Travel and Business U 1-2

During this course students will gain a general knowledge of Russian every-day cultural etiquette, as well as Russian business culture. Students who do not have previous knowledge of the language are encouraged to register for two credit hours, which will cover both essential phrases and vocabulary to travel in Russia and day-to-day cultural and business matters.

Taught in English. 100% online. Prereq: Not open to students with credit for 3460 or 3460.01. GE VPA and diversity global studies course. GE foundation lit, vis and performing arts course.					

5103	Advanced Russian V	U G	3
Students will continue to develop comprehensive knowledge of Russian in the following skills: speaking, reading, writing, listening, and grammar. Taught in Russian. Prereq: 5102, or permission of instructor.			
5104	Advanced Russian VI	U G	3
Students will continue to develop comprehensive knowledge of Russian in the following skills: speaking, reading, writing, listening, and grammar. Taught in Russian. Prereq: 5103, or permission of instructor.			
5150	Russian for Business	U G	3
This course will provide specific vocabulary and skills to deal with various areas of business and industry in Russia, including oil and natural gas, agriculture, and commerce. Prereq: 4102, or permission of instructor.			
5160	Russian for Open-Source Media Research: Reading & Listening Comprehension, Analysis, and Translation	U G	3
Reading and listening comprehension are essential skills for students of Russian who plan to work as translators, language analysts, or other industry-specific specialists. This class will also provide those who have a general interest in Russian culture a survey of topics dealing with current events, politics, and international relations, and will engage exclusively with authentic texts. Prereq: 3101 or 3121, or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
5193	Individual Studies	U G	1 - 9
Individual study on topic relating to Russian culture, literature, or language under the supervision of a faculty member. Prereq: Permission of department chairperson. Repeatable to a maximum of 18 cr hrs or 6 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 3
Group Studies in Slavic and East European languages and cultures. Repeatable to a maximum of 6 cr hrs or 2 completions.			
5200	Representation of War in Russian Prose and Film	U G	3
In this course we will examine representative works of Soviet and Russian war fiction and film through three major Russian wars: WWII (the Great Patriotic War), the Soviet-Afghan War, and the Chechen War. We will look at the experience of war through the prism of historical trauma and memory and explore the individual and social discourses of the phenomenon in question. Prereq: 4102, or permission of instructor.			
5225	Russian Emigre Literature	U G	3
Analysis of the three "waves" of Russian emigration -- post-Revolutionary, post-WWII, and the so-called "third wave" in the 1970s and 80s through the poetry, fiction, and memoirs by such writers as: Ivan Bunin, Vladislav Khodasevich, Vladimir Nabokov, Nina Berberova, Sergei Dovlatov, Vasily Aksyonov, and Joseph Brodsky. Prereq: English 1110 or equiv, or any 4000-level Russian literature, culture or linguistics course.			
5230	Utopia and Dystopia in Russian Literature	U G	3
Russian writers of the past two centuries have been fascinated with both the idea of utopia and its reverse image of a dystopian society whose aim of perfection has led to the very opposite. In this course, we will explore realist, modernist, Soviet, and post-Soviet utopian and dystopian novels, stories, plays, and essays. Prereq: 2250 or another course on Russian literature or culture is recommended for undergraduates.			
5250.02	The Russian Writer - Dostoevsky	U G	3 - 4
Close Analysis of the major works of Fyodor Dostoevsky.			
5250.03	The Russian Writer: Chekhov	U G	4
This course will cover the work of Anton Chekhov, from early satirical stories through his major stories and plays, and will make forays into other genres, particularly letters. Students will read the texts closely, considering their social, political, philosophical, and aesthetic contexts. Prereq: Not open to students with credit for 5250 (Au15, Brintlinger).			
5250.04	The Russian Writer: Nabokov	U G	3
This course will cover several of Vladimir Nabokov's major works in their cultural, biographical, philosophical, and aesthetic context. Some students will be more familiar with the Russian literary tradition on which Nabokov richly draws, and others will be less familiar. Either is completely fine, as sufficient context will be provided in class and in optional background readings.			
5260	ALI: Russian Open Source Intelligence Research and Analysis (Advanced Language Institute)	U G	3
This course is designed to introduce students to the open-source intelligence (OSINT) process and develop the specialized Russian language skills required for successful work in the OSINT field. This course includes an information technology component and a Russian language component. This course is part of the Advanced Language Institute. Prereq: 3102 or 3122; and GPA of 3.0 or above in language major or minor courses; and Soph standing or above.			
5460	Russian Media	U G	3 - 4
This course will examine Russian media and communication within the context of media analysis and communication studies. The course will briefly review the history of Soviet and post-Soviet media in the late 20th-21st centuries, but will focus primarily on contemporary Russian media.			

5530.02	Madness and Power in Russia	U G	3
This English-language version of Russian 5530.01 facilitates study and research of the important trope of madness in Russian culture for advanced undergraduates and graduate students. Primary readings, discussion and coursework will be offered in English, although parallel and additional readings in Russian will be available for students with advanced language skills. Prereq: Not open to students with credit for 5530.01.			
5601	Structure of Russian I	U G	3
Systematic synchronic description of the structure of Contemporary Standard Russian, focusing on phonetics, phonology, and morphology, and associated theoretical issues. Taught in English. Prereq: 3102, or Grad standing in Slavic; or permission of instructor. Not open to students with credit for 6601 (640).			
5630	Russian Translation: Theory, Practice, and the Profession	U G	3
Theory and practice of translating Russian literary, cultural, political, scientific, and business texts into English. Recommended prereq: 2250. Prereq: 3102 or 3122.			
5701	History of Russian I	U G	3
Survey of the most important developments in the Russian writing system, phonology, morphology, and syntax from Old East Slavic to modern times; Russian among the Slavic languages; main methodologies in historical linguistics. Prereq: 3102 or 503, or Grad standing, or permission of instructor. Not open to students with credit for 720 or 6701.			
5797	Study at a Foreign Institution	U G	1 - 9
Opportunity to study at Russian educational institution and receive OSU credit. Students pay OSU fees, any fees in excess of tuition, travel & subsistence costs. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 9 completions.			
6171	Basic Reading Russian for Graduate Students	G	3
Russian alphabet, basic vocabulary, and basic elements of grammar for graduate students who need to develop reading skills for professional research. Taught in self-paced format. Continued by Russian 6172. Prereq: Grad standing. Not open to students with credit for 571.			
6172	Reading Russian for Research	G	3
Continuation of Russian 6171: further development of reading skills, vocabulary, and grammar for graduate students who need to read Russian for professional research. Taught in self-paced format. Prereq: 6171 (571), and Grad standing. Not open to students with credit for 572 or 573.			
6252	Issues in 19th-Century Russian Literature	G	3
Literature of the Golden Age and Realist periods in cultural and political context. Good reading ability in Russian recommended. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 750 or 751. Repeatable to a maximum of 6 cr hrs.			
6253	Issues in 20th- and 21st-Century Russian Literature	G	3
Silver Age, Soviet, emigre, or post-Soviet literature in cultural and political context. Good reading ability in Russian recommended. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 752 or 754. Repeatable to a maximum of 6 cr hrs.			
6254	Russian Literary Genres	G	3
Genres of Russian literature: e.g., poetry, drama, novel, short story, literary essay. Time periods, authors, and themes are variable. Good ability to read Russian recommended. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 653, 723, or 851. Repeatable to a maximum of 6 cr hrs.			
7150	Language Maintenance and Professionalization	G	1 - 2
Opportunity for graduate students to maintain/enhance their Russian language abilities and improve their lesson planning and teaching skills in Russian language classes. Prereq: Grad standing. Repeatable to a maximum of 16 cr hrs or 8 completions. This course is graded S/U.			
8150	Graduate Student Teaching Apprenticeship	G	1
Graduate students will work with a faculty member who is teaching an undergraduate, non-language course. Students will work with the faculty member to develop skills in creating lesson plans and reading lists, stimulating productive class discussions, assigning appropriate workloads, and grading. Prereq: Grad standing. Repeatable to a maximum of 4 cr hrs.			
8193	Individual Studies	G	1 - 3
Individual studies under faculty supervision in Russian literature, film, culture, or linguistics. Prereq: Grad standing, and permission of the dept chairperson. Repeatable to a maximum of 24 cr hrs or 8 completions. This course is graded S/U.			
8550	Seminar in Russian Literature, Film, or Cultural Studies	G	3
Variable-topic seminar on issues in Russian literature, film, or culture. Repeatable for credit with change of topic. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 24 cr hrs.			

Sanskrit

5902	Elementary Sanskrit	U G	3
Introduction to Indo-European, Indic, and Sanskrit; reading of introductory texts. Prereq: Not open to students with credit for Sanskrit 621.			
5903	Intermediate Sanskrit	U G	1 - 3
Reading of classical Sanskrit texts. Prereq: 5902 (621).			

398 Sanskrit

5905 Sanskrit Reading Group U G 1 - 3
Presents opportunities for further reading of Classical or Vedic Sanskrit texts to allow students to maintain and enhance their command of Sanskrit. Prereq: 5902, or permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.

3333.99 The Soviet Space Age U 3

Exploration of Space Age as a technological/cultural phenomenon, focusing on the Soviet period and the Space Race, in historical context and in a comparative perspective. Taught in English. Offered 100% on-line. Prereq: Not open to students with credit for 3333 or 3333.01. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

3340 The East European Immigrant Experience in America U 3

This course looks at international migration with a special focus of the experience of Eastern European immigrants in the United States. We will explore the role of immigration for American culture and society and discuss the historical background and theoretical concepts related to migrant experiences between the early 1900s and today. GE theme migration, mobility, and immobility course.

3360 Screening Minorities: Representations of the Other in Slavic Film U 3

Film representations of ethnic and religious others in East European cinema. Taught in English. Prereq: Not open to students with credit for 360. GE VPA course.

3800 Bilingualism: Life in Two Worlds U 3

The majority of the world population is becoming increasingly bilingual and bilingualism is viewed as the rule rather than the exception in the 21st century. This course explores the multifaceted aspects of a bilingual individual that more often than not happens to be an immigrant. Navigating multiple languages is examined as an aspect of migration, mobility, and immobility. GE theme migration, mobility, and immobility course.

4520H Slavic and East European Cities U 3

Literary and cultural analysis of a city in East Central, Southeastern, or Eastern Europe (e.g., Sarajevo, Budapest, Prague, Krakow) as an urban space, using sources from many periods and cultures. Repeatable with change of topic. Taught in English. Prereq: Honors standing, and English 1110 or equiv, or permission of the instructor. Not open to students with credit for 520.01H, except by permission of instructor. Repeatable to a maximum of 6 or hrs.

4530 Hacking Slavic Literatures: Literary Analysis in the Digital Age U 3

In this course we explore literary texts in their digital environments and look at the various ways in which we can virtually access, store, circulate, and read books. We work with large collections of famous texts (or: text corpora), digital archives, and collections of bibliographical data (also referred to as metadata) to analyze how themes and styles evolve over time. Prereq: Russian 2250 or equiv.

4597 Politics of Language in Southeast Europe U 3

Social/political import of language in Balkans and neighboring countries; role of language in ethnic identities; manipulation of language to shape political and social structures. Taught in English. Prereq: Jr or Sr standing. GE diversity global studies and cross-disciplinary seminar course.

4798 Study Trip U 1-6

Short-term study abroad directed by a faculty member as a supplement to a course in Slavic and East European literature or culture. Students pay OSU fees, any fees in excess of tuition, travel & subsistence costs. Prereq: Permission of dept chairperson and Office of International Affairs. Repeatable to a maximum of 12 or hrs or 2 completions. This course is graded S/U.

4998 Undergraduate Supervised Project U 1-3

Opportunity for undergraduate majors and minors to do non-thesis research or creative work (e.g., translations) under faculty supervision for credit. Prereq: Major or minor status in one of dept's programs and permission of faculty member supervising the project and Undergraduate Studies Coordinator. Repeatable to a maximum of 6 or hrs or 2 completions. This course is graded S/U.

4999 Undergraduate Thesis Research U 1-3

Faculty-supervised undergraduate research on Russian, Slavic, East Central European, Southeast European, or East European language(s), literature(s), or culture(s), culminating in a thesis. Prereq: Sr standing; permission of instructor under whose supervision the work is to be completed and department Undergraduate Studies Coordinator. Not open to students with credit for 783H. Repeatable to a maximum of 6 or hrs or 2 completions. This course is graded S/U.

4999H Honors Undergraduate Research Thesis U 1-3

Faculty-supervised honors research on Russian, Slavic, East Central European, Southeast European, or East European language(s), literature(s), or culture(s), culminating in a thesis. Prereq: Sr standing; a grade of A in at least half of the Slavic department courses taken and an average of B in the remainder; permission of instructor under whose supervision the work is to be completed and the Arts and Sciences Honors Committee. Not open to students with credit for 783H. This course is graded S/U.

5020 Oligarchs, Penthouses, and Yachts: The Global Lives and Times of Eurasian Elites U G 3

Who are the rich and powerful people in Russia, China, Middle East, and Central Asia? How do these Eurasian elites live? What enables them to accumulate so much wealth and influence, and what kinds of business and pleasure do they pursue in global arenas? Unlike many courses that study governments, this course focuses on the privileged classes of Russia, China, and the Muslim-majority world. Prereq: Not open to students with credit for IntStds 5020 or NELC 5020. Cross-listed in IntStds and NELC.

5193 Individual Studies U G 1-6

Individual study on topic relating to Russian culture, literature, or language under the supervision of a faculty member. Prereq: Permission of dept chairperson. Repeatable to a maximum of 12 or hrs or 4 completions. This course is graded S/U.

5194 Group Studies U G 1-6

Group Studies. Repeatable to a maximum of 24 or hrs or 4 completions.

5450 Global Human Trafficking: Realities and Representations U G 3

This course will introduce students to the development of human trafficking as it has been understood and represented by governments, policymakers, the media, and popular culture. The objective of this course is to scrutinize common understandings and representations of trafficking and to consider the advantages and disadvantages of such understandings and representations. Prereq: Not open to students with credit for WGSSt 5450. Cross-listed in WGSSt.

5457 Ideology and Viewers: East European Film and Media U G 3

This course explores the complex dynamics between ideology, propaganda, and the ways Russian, East European, and U.S. films and media 'tap into the political unconscious' of viewers. With the aid of audience studies and reception theory, the course examines film and media reception and the ideological factors which impact it from the early Soviet and socialist times to the present. Repeatable to a maximum of 9 or hrs.

5797 Study at a Foreign Institution U G 1-9

Opportunity to study at an educational institution in a Slavic-speaking country and receive OSU credit. Students pay OSU fees, any fees in excess of tuition, travel & subsistence costs. Prereq: Permission of dept chairperson. Repeatable to a maximum of 36 or hrs or 9 completions. This course is progress graded.

6000 Slavic Literature, Film, and Cultural Studies Professionalization Forum G 1

Biweekly colloquium for presentations and discussion of research by graduate students, faculty, and visiting scholars. Required for M.A. and Ph.D. degrees in Slavic Literatures and Cultures. Prereq: Grad standing. Repeatable to a maximum of 8 or hrs. This course is graded S/U.

400 Slavic Languages and Literatures

6457	Film Theory, Gender, and National Identity in Slavic Cinema	G	3
Introduction to film theory and exploration of changes in national and gender identities during the 20th century as reflected in Slavic cinema. Taught in English. Prereq: Grad standing, or permission of instructor and approved petition to Graduate School. Repeatable to a maximum of 9 or hrs.

Introduction to scholarly approaches to Slavic and East European Literary & Cultural Studies; historical overview of literary & cultural criticism & theory; basic practical approaches to the study of literary & cultural texts. Taught in English. Prereq: Grad standing in dept, or 25 hrs of Russian and/or Slavic and East European literature, or permission of instructor. Not open to students with credit for Russian 660.			
6501	Introduction to Slavic and East European Studies	G	3
Proseminar on central topics, current research, and research methodology in the Slavic and East European area studies. Taught in English. Required for the M.A. program in the Center for Slavic and East European Studies. Prereq: Grad standing or permission of instructor. Not open to students with credit for 700.			
6625	Old Church Slavonic	G	3
Introduction to the grammar of Old Church Slavonic, with readings in authentic medieval Slavic texts. Taught in English. Prior knowledge of a Slavic language not required. Prereq: Grad standing or permission of instructor. Not open to students with credit for 810 or 7625.			
6999	Masters Research in Slavic	G	3 - 6
Directed research in Slavic for fulfillment of M.A. requirements. Prereq: Grad standing in Slavic and East European Languages and Literatures. Not open to students with credit for 999. This course is graded S/U.			
7480	Slavic Film Directors	G	3
Slavic and East European film directors as auteurs; key notions of contemporary film theory. Taught in English. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 6 or hrs with change of topic.			
7626	Prehistory of the Slavic Languages	G	3
Place of Slavic in the Indo-European languages and development of Indo-European phonology and morphology into Common Slavic and the contemporary Slavic languages, with application of various methodologies of historical linguistics. Prereq: 7625, or permission of instructor.			
7801	College Teaching of Slavic & East European Languages	G	3
Methods & techniques for teaching Slavic/E Eur languages at college level; selection & preparation of teaching & testing materials & other aids. Requires participation in intensive workshop prior to Au sem. Required of all teaching assistants. Prereq: Grad standing. Not open to students with credit for Russian 801.			
7998	Doctoral Research in Slavic	G	1 - 6
Research in fulfillment of pre-candidacy requirements in Slavic Linguistics or Literature/Cultural Studies. Prereq: Enrollment in Slavic Linguistics or Literature Ph.D program. Repeatable to a maximum of 12 or hrs or 4 completions. This course is graded S/U.			
8575	Seminar in Slavic and East European Literature and Culture	G	3
Discussion of primary sources and criticism relating to a selected topic from the literature(s) and/or culture(s) of Slavic, East Central, Southeast, or East European languages other than Russian. Prereq: Grad standing or permission of instructor. Not open to students with credit for 875. Repeatable to a maximum of 12 or hrs.			
8741	Medieval Slavic Workshop	G	6
Biennial intensive Summer or May-term workshop in the methodology of working with medieval Cyrillic manuscripts using manuscripts from the Hillandar Research Library of The Ohio State University. Taught in English. Prereq: 7625, or Russian 6701, or permission of instructor and accepted application to Medieval Slavic Institute through OSU Resource Center for Medieval Slavic Studies.			
8802	Language and Memory: Psycholinguistic Approaches to Bilingualism	G	3
Discussion of psycholinguistic works related to memory and its role in language processing, second language learning, and forgetting. Taught in English. Elective for the GIS in Second Language Studies. Prereq: Grad standing or permission of instructor. Not open to students with credit for 804.			
8803	Language, culture, and cognition	G	3
Discussion of different methodological & theoretical approaches to the Linguistic Relativity (Sapir-Whorf) hypothesis, including data and scholarship from Russian & other Slavic languages. Taught in English. Prereq: Grad standing, or permission of instructor.			
8999	Dissertation Research in Slavic	G	3 - 12
Research in Slavic for dissertation purposes. Prereq: Permission of dept chairperson. Repeatable to a maximum of 36 or hrs or 12 completions. This course is graded S/U.			

1100	Introduction to Ohio State and the College of Social Work	U	1
The purpose of the Social Work Survey Course is to facilitate an eased integration to the OSU undergraduate community, and to assist students with developing relative strategies for a successful transition and participation in the community. Course is designed to provide a preliminary orientation to the social work undergraduate program and curricula. Prereq: Undergraduate standing in the College of Social Work.			
1120	Introduction to Social Welfare	U	3
An introduction to the history, structure, and function of the social welfare institution. Prereq: Not open to students with credit for 220 or 520. GE soc sci human, nat, and econ resources course. GE foundation social and behavioral sci course.			
1130	Introduction to Social Work in Contemporary Society	U	3
An introduction to the core values, fundamental goals, unique functions and methods of the social work profession. Prereq: Not open to students with credit for 230. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.			
1130H	Introduction to Social Work in a Contemporary Society	U	3
An introduction to the core values, fundamental goals, unique functions and methods of the social work profession. Prereq: Honors standing. Not open to students with credit for 1130 (230). GE soc sci indivs and groups course. GE foundation social and behavioral sci course.			
1140	Issues in Social Justice: Race, Gender and Sexuality	U	3
Examines the history of social oppression directed at certain minority populations in the United States and its impact on their current opportunities and lived experiences. The primary purpose is to analyze how racism, sexism, heterosexism and institutionalized discrimination based on ethnicity affect the social welfare and well-being of those living in the United States. GE diversity soc div in the US course. GE foundation race, ethnicity and gender div course.			
1150	Engaging in Civil Discourse	U	1
This course provides frameworks, terminology, and communication skills that are critical for engaging in productive conversations about difficult topics related to diversity, equity, and inclusion (DEI). Students will be introduced to resources, issues, and challenges across campus and the community.			
2110	Sport and Positive Youth Development	U	3
This course focuses on how characteristics of individuals, families, peer systems, schools, neighborhoods & other environmental contexts contribute to the development of social, academic, & health-related problems among youth. Students will apply the knowledge & skills of generalist practice to the design and delivery of prevention and youth development programs in sport/recreation/play settings. GE theme health and well-being course.			
2200S	Nonviolent Communication in Community Agency Settings	U	3
This Service-Learning General Education course will provide students with the fundamentals of nonviolent communication. Students will learn the principles and skills of nonviolent communication in a series of classroom sessions that include both lecture and experiential learning, and then apply classroom learning at a community agency setting. GE service learning course.			
2201	Preparation for International Service Learning	U	1
This online course prepares students for participating in international service learning experiences in the global health area. Students will learn ethical approaches to service in international settings, including asset-based approaches to development; charity and justice frameworks to service; cultural humility; ways in which biases and stereotypes interfere with effective service. This course is graded S/U.			
3101	Professional Values and Ethics	U	3
Introduction to the NASW Code of Ethics, ethical theory, and ethical issues and dilemmas that confront professional social workers. Prereq: Enrollment in SocWork major. Not open to students with credit for 690.			
3201	Social Justice & Social Welfare Policy	U	3
This course will introduce students to social policy analysis and strategies to promote social justice through advocacy. Students will learn how social policy shapes the development, design, and delivery of social welfare programs and how policy contributes to social justice (and injustice). Students will learn different strategies to pursue social justice. Prereq: 1120, and enrollment in SocWork major.			
3301	Lifespan Development in Social Work	U	3
Explores human development across the lifespan, with an emphasis on conceptualizing individuals holistically, taking into account factors from various theories that may have relevance to each age group. Offers information about the importance of understanding lifespan development in social work, basics of lifespan development, research and the scientific method, and major theories and theorists.			
3401	Research & Statistics for Understanding Social Work Problems and Diverse Populations	U	3
This is the first course in the BSSW program sequence preparing students to effectively work with research evidence and statistics as social work professionals. Students will develop the requisite skills and knowledge for beginning to identify, assess, and apply existing bodies of evidence to answer questions about social work problems and diverse populations. Prereq or concur: Math 1060 or 1075 or above, or Stat 1450 or above, or Math Placement Level R or above; and admission to the Social Work major. Not open to students with credit for 3401E.			

3401H Research & Statistics for Understanding Social Work Problems and Diverse Populations: Honors U 3

This is the first course in the BSSW program sequence preparing students to effectively work with research evidence and statistics as social work professionals. Students will develop the requisite skills and knowledge for beginning identify, assess, and apply existing bodies of evidence to answer questions about social work problems and diverse populations. Prereq: Honors standing; and Math 1060, 1075, or Math Placement Level R; and admission to the Social Work major.

3402 Research & Statistics for Understanding Social Work Interventions U 3

This is the second course in the BSSW program sequence preparing students to effectively work with research evidence and statistics as it applies to social work interventions at multiple levels. Students will develop the requisite skills and knowledge for beginning to identify, assess, and apply research evidence to inform and evaluate social work practices at multiple levels of intervention. Prereq: 3401.

3402H Research & Statistics for Understanding Social Work Interventions: Honors U 3

This is the second course in the BSSW sequence preparing honors students to effectively work with research evidence and statistics as it applies to social work interventions at multiple levels. Students will develop the requisite skills and knowledge for beginning to identify, assess, and apply research evidence to inform and evaluate social work practices at multiple levels of intervention. Prereq: 3401H.

3501 Building Engagement & Interpersonal Skills U 3

This foundation course provides the opportunity for undergrad students in the professional social work program to focus on the understanding and use of core engagement and communication skills critical to social work practice. The course will engage each student in the learning and development of social work skills through didactic presentations, skill demonstrations, and experiential exercises. Prereq: Jr or Sr standing, and enrollment in SocWork major.

3502 Generalist Practice with Individuals U 4

Introduces students to the theories, knowledge and skills of generalist social work practice, with an emphasis on work with individuals. The content provides didactic and experiential learning of generalist practice skills that will facilitate and enhance the student's entry into the senior year field practicum and will serve as a foundation for entry level professional practice. Prereq or concur: 3501.

3503 Social Work Practice with Diverse Populations U 3

Foundation knowledge and a social work perspective for working with diverse populations, especially those who are oppressed and marginalized. Prereq: 1140, or any Race, Ethnicity and Gender Diversity GE course. Prereq or concur: 3501.

3597 Adolescent Parenthood and Sexuality: An International Perspective U 3

Examination of the biological, psychosocial and cultural forces that influence adolescent sexual behaviors. International comparisons will be emphasized with respect to teenage sexual trends and national policies and programs. Prereq: Jr or Sr standing. Not open to students with credit for 597. Not open to MSW students. GE cross-disciplinary seminar course.

3600 Introduction to Psychopathology and Social Work Practice U 3

This course will familiarize students with the major mental disorders, offer strategies for building on clients' strengths and resilience, provide basic tools for screening and referral, and impart knowledge of the mental health delivery system and its resources. Prereq: Admission to SocWork major.

3700 Social Work Practice with Digital Technologies U 3

The rapid spread of digital technologies constitutes a monumental shift in contemporary culture?one which necessitates a proactive response by social workers and social service organizations. This elective BSSW course examines the complex intersections of digital technologies and social work practice through the lens of The Grand Challenges for Social Work Initiative. Prereq: 3501.

4188.01 Practicum Seminar I U 1

Integration of knowledge and practice; problem solving and discussion of social work practice issues, values, and ethics. Taken concurrently with field practicum. Prereq: 3502. Concur: 4189. Repeatable to a maximum of 2 or hrs.

4188.02 Practicum Seminar II U 1

Integration of knowledge and practice; problem solving and discussion of social work practice issues, values, and ethics. Taken concurrently with field practicum. Prereq: 4188.01. Concur: 4189.

4188.03 Practicum Seminar I and II U 2

Integration of knowledge and practice; problem solving and discussion of social work practice issues, values, and ethics. Taken concurrently with field practicum. Prereq: 3502. Concur: 4189. Not open to students with credit for 4188.01 or 4188.02.

4189 Field Practicum U 5

Internship in a social work agency. Students integrate classroom knowledge and skills with practice experiences. Prereq: 3502. Concur: 4188.01 or 4188.02. Repeatable to a maximum of 10 or hrs. This course is graded S/U.

4193 Individual Studies U 1-3

Individual study projects in selected areas of social work and social welfare. Prereq: 6 cr hrs in SocWork or related courses, and approval of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4194 Group Studies U 1-3

Group study projects in selected areas of social work and social welfare. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs or 3 completions.

4501 Generalist Practice with Families U 3

This course addresses professional values, knowledge, and skills essential for effective generalist social work practice with families. Emphasis is placed on family theory, models, and strategies for intervention, practice skills, and ethics necessary for beginning practice in social service agencies. The development of culturally competent practice is an integral part of this course. Prereq: 3502.

4502 Generalist Practice with Groups U 3

This course will provide instruction on professional values, knowledge, and skills essential for effective intervention with small groups. Prereq: 3502.

4503 Generalist Practice with Organizations & Communities U 3

The purpose of this course is to assist students in understanding the values, knowledge base, and skills associated with generalist practice when working with task groups, organizations, and communities. Emphasis will be placed on the identification of and utilization of those assessment & intervention skills which enable the social work practitioner to intervene on behalf of various populations. Prereq: 4502.

4503H Generalist Practice with Organizations & Communities U 3

The purpose of this course is to assist students in understanding the values, knowledge base, and skills associated with generalist practice when working with task groups, organizations, and communities. Emphasis will be placed on the identification of and utilization of those assessment & intervention skills which enable the social work practitioner to intervene on behalf of various populations. Prereq: Honors standing, and 4502.

4996H Honors Research Seminar U 3

In this seminar course, Undergraduate Honors Students consider which pathway they will pursue in their thesis: an independent research thesis, or a social impact project. Through a combination of guided group and individualized study, students develop knowledge and skills to select their desired pathway and plan their thesis project, which culminates in a proposal. Prereq: 3401H. Prereq or concur: 3402H.

4998H Social Impact Project U 5

Students will work 1:1 with a faculty mentor to plan and implement an innovative and sustainable social impact project that engages with issues of advocacy, justice, and community building. The project must reflect an informed understanding of the social issue being addressed, the communities being served, and how the project will create change. Prereq: Honors standing, and 3402H and 4996H. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

4999 Thesis Research U 5

Non-honors thesis research. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

4999H Engaging in Knowledge Building Research - Honors Thesis Research U 5

Through guided group and independent study, students further develop and implement their independent social work research studies. Prereq: Honors standing, and 4996H. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

5001 Writing for Agency Practice U G 3

This course will provide an introduction to professional documentation and record keeping, including informed consent forms, biopsychosocial histories, treatment plans, progress notes, termination summaries, and professional correspondence. Prereq: Jr, Sr, or Grad standing in SocWork, or permission of department.

5002 AIDS Survey: Facts and Issues U G 3

This course will provide a review of the physiological, global, cultural and educational issues inherent in understanding HIV disease and implications for social work practice. It will also explore the historical context of HIV and how response to the disease has evolved over the past 30 years in the United States. Prereq: Not open to students with credit for 695.17, 695.18, or 695.19.

5004 International Social Work U G 3

Examines a variety of social issues through a global perspective in order to fully appreciate the role of culturally diverse and country-specific responses to social problems. Prereq: Soph, Jr, Sr, or Grad standing, or permission of department. GE theme migration, mobility, and immobility course.

5005 Human Trafficking: Domestic and Global Perspectives U G 3

Provides a comprehensive understanding of domestic and global human trafficking by examining the causes and economics of human trafficking from a social work perspective. Prereq: Soph, Jr, Sr, or Grad standing, or permission of department. GE theme migration, mobility, and immobility course.

5006 Sexualities, Diversity & Social Work U G 3

Diversity of sexual identities, beliefs, behavior, and lifestyles are explored in the context of social work's mission, values, and ethics for professional practice. Prereq: Jr, Sr, or Grad standing. Not open to students with credit for 695.20.

402 Social Work

5007	Child Welfare I	U G	3		
	This is the first of a series of two child welfare courses designed to provide the knowledge, concepts, and tools for beginning level practice in public and private child welfare. This course focuses on interventions to protect children by strengthening, supporting, and empowering their families. Prereq: Jr standing, or above. Not open to students with credit for 695.21.				
5008	Child Welfare II	U G	3		
	This is the second in a series of two child welfare courses. The first course (SocWork 5007: Child Welfare I) focuses on protecting children through strengthening and supporting their families. This course (SocWork 5008: Child Welfare II) addresses the developmental and permanence needs of children in the child welfare system. Prereq or concur: 5007.				
5009	Family Caregiving: Contemporary Issues, Programs, & Policies	U G	3		
	Course provides students from a variety of disciplines with the opportunity to develop the knowledge and skills to address the needs of individuals providing care for a chronically ill or disabled family member or friend. Programs and policies in place to support caregivers are analyzed and the contemporary challenges faced by caregivers are discussed. Prereq: Jr, Sr, or Grad standing.				
5011	Loss & Grief: A Social Work Practice Perspective	U G	2		
	Examines the theoretical, cultural, social and personal aspects of loss and grief and introduce students to approaches and interventions with diverse populations. Prereq: Sr or Grad Standing in SocWork, or permission of department.				
5012	Social Work Approaches to Conflict Resolution	U G	2		
	Introduces negotiation and mediation skills from a social work perspective to resolve conflict in work with individuals, families, groups, organizations, and communities. Prereq: Jr, Sr, or Grad standing in SocWork.				
5013	Integrative Body-Mind-Spirit	U G	2		
	Introduces knowledge and skills regarding assessment and treatment techniques pertaining to a holistic approach of mind, body, and spirit treatment. Prereq: Jr, Sr, or Grad standing in SocWork, or permission of department.				
5014	Juvenile Delinquency and Correctional Practice in Social Work	U G	3		
	Provides students with knowledge about social work with juvenile and adult offenders. Theories about criminal offending and interventions with both juveniles and adults is covered. Prereq: Not open to students with credit for 503 or 695.13.				
5015	Social Work and the Law	U G	3		
	This course examines ways that social workers can use the law and legal process to advocate for social justice. The purpose is to teach students the legal concepts and principles that shape social welfare policy and impact social work practice. It will also discuss ways students can use this knowledge to influence the legal process and advocate on both a micro and macro level. Prereq: Jr, Sr, or Grad standing.				
5016	Affirmative Social Work Practice with LGBTQ Individuals, Couples, and Families	U G	3		
	With focus on practice application, this course provides a comprehensive overview of the salient psych-social issues and life-course phenomena distinctive to the LGBTQ experience and affirmative interventions. Prereq: Jr, Sr, or Grad standing.				
5018	Interdisciplinary Case Management for Working with Underserved Populations	U G	2		
	Provides students the opportunity to collaborate with students from other health care professions including pharmacy, health and rehabilitation sciences, nursing, medicine and social work. The students will use a problem-based learning approach to patient care in community health, focusing on populations, living in poverty, with complex healthcare needs. Prereq: Sr or Grad standing. This course is graded S/U. Cross-listed in HthRhSc 5000, Phr 5000, and Nursing 5000.				
5021	Summer Institute of Addiction Studies	U G	1		
	The Addiction Studies Institute provides students with state of the art information in working within the field of substance dependency/prevention. The goal is to provide the latest information in treatment planning, prevention, intervention, family work, wellness and recovery and current trends impacting service delivery systems.				
5023	Family Violence: Social Work Perspectives and Interventions	U G	3		
	This is a team-taught course, in collaboration with The Center for Family Safety and Healing, which introduces the fundamental knowledge and concepts for working with victims of all types of family violence. The factors that contribute to family violence and the long term consequences are emphasized. The importance of multidisciplinary teams in responding to family violence is addressed. Prereq: Jr, Sr, or Grad standing.				
5024	Social Work Licensure Exam Strategies and Skills	U G	2		
	Course provides instruction on test taking strategies and developing a study plan and learning content and strategies to pass the Bachelors/Masters level licensure exam. Instruction and a five-volume AATBS study guide provided. All content reflects the changes in the Ohio Social Worker rules and provides students with access to multiple online, full-length practice tests in study and exam modes. Prereq: Sr or Grad standing in Social Work. This course is graded S/U.				
5025	Social Determinants of Health: An Interdisciplinary Perspective	U G	3		
	Prepares students to practice in diverse health settings, with diverse populations, by providing knowledge regarding theories/frameworks related to social determinants of health and skills to apply them. Service provision for underserved populations within an interdisciplinary framework and the importance of social policy to service provision will be emphasized. Prereq: Sr, Grad or Professional standing.				
5026	Exploring Community Food Security Strategies	U G	3		
	Explores the complex interrelated social and environmental issues related to the food system. The development of the global food system and social, economic, health, and environmental consequences related to disparities in the food system will be discussed. Students will spend some class periods working at a food pantry, soup kitchen, produce distribution program and community garden. Prereq: Undergrad or Grad status in Social Work, or permission of instructor.				
5028	Macro-Practice in Community Youth Development	U G	3		
	Prepares students to be informed, resourceful, and proactive in addressing the complex and dynamic issues influencing youth in underserved communities. Prepares students to engage, assess, and evaluate how policy affects service delivery, and the role of macro-level social work practice in promoting positive youth development (PYD). Prereq: Jr, Sr, or Grad Standing.				
5029	SocWork Career Development	U G	1		
	This course will familiarize students with professional development tools and skills. Students will learn how to create a professional portfolio to interview, negotiate, network, and job search; to market their strengths, create a LinkedIn account, build their resume, negotiate during or after a job interview, and engage in workplace professionalism. Prereq: 3502 or 6501.				
5030	Global Social Work Perspectives on Poverty and Inequality	U G	3		
	This course examines the nature and dimensions of poverty and inequality in the U.S. and across the world, considers individual and social consequences of poverty, and examines historic and contemporary approaches to ameliorating poverty including review of major poverty and social welfare policy and programs. Focuses on helping students understand why poverty matters to social workers. Prereq: Soph, Jr, Sr, or Grad standing, or permission of department. GE theme migration, mobility, and immobility course.				
5031S	Neurodiversity: Building Cultural Competence with Developmental Disability	U G	3		
	Service Learning in Neurodiversity: Building Cultural Competence with IDD teaches about engaging with neurodiverse individuals, particularly those with intellectual and developmental disabilities(IDD). Students will learn from the neurodiversity model, which views neurological differences like autism and ADHD as normal and natural variations in the human genome.				
5188.01	Higher Education Field Practicum Seminar	U G	1		
	Integration of knowledge and practice; problem solving and discussion of social work practice issues, values, and ethics for social workers interested in working with college students in higher education settings, covering micro, mezzo, and macro practice. Taken concurrently with field practicum. Prereq: 3502, and enrollment in SocWork-BS program; or 6501, and enrollment in SocWork-MW program. Concur: 4189, 6189, or 7189.				
5188.02	Higher Education Field Practicum Seminar	U G	1		
	Integration of knowledge and practice; problem solving and discussion of social work practice issues, values, and ethics for social workers interested in working with college students in higher education settings, covering micro, mezzo, and macro practice. Taken concurrently with field practicum. Prereq: 3502, and enrollment in SocWork-BS program; or 6501, and enrollment in SocWork-MW program. Concur: 4189, 6189, or 7189.				
5194	Group Studies	U G	1-3		
	Group study projects in selected areas of social work and social welfare. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs.				
5517	Social Work Practice in Schools I	U G	3		
	Designed to provide students with an intro to social work practice in school settings. Students will examine the history of school social work, state and federal education laws, educational issues and policies, conceptual frameworks, and service delivery models with an emphasis on behavioral interventions, case management services, psychoeducation and working with parents/caregivers. Prereq: Jr, Sr, or Grad standing.				
5798.01	India Study Abroad Program	U G	3		
	The course introduces undergraduate and graduate students to history, tradition, and cultural paradigms impact on the social welfare policies and practices in India, with special emphasis on socio-economic, health and mental health programs and services delivery systems.				
5798.02	Social Issues and Human Rights in Nicaragua	U G	3		
	The short term study abroad program in Nicaragua will expose undergraduate and graduate students to the historical and cultural context for social issues and human rights in Nicaragua, the largest and poorest country in Central America. Students will learn about the Sandanista revolution that took place in the 1970s and the current political and development environment. GE education abroad course.				
5798.03	An Exploration of Australia's Systems of Care	U G	3		
	Course is taught in Melbourne, Australia and focuses on two systems of care in Australia: child welfare and children's mental health. Students will learn about the country's policy, research, and practices, especially in relation to Aboriginal peoples, and about Australia's use of technology. Students will reflect on differences and similarities between the US and Australian systems.				

5798.04 Social Issues and Human Rights in Guatemala U G 3

This education abroad program will expose students to the historical and cultural context for social issues and human rights in ethnically diverse Guatemala. Students will learn about the long civil war and its continuing effects on the large indigenous population of Mayans and ladinos. Students will gain exposure to education, health and human services in systems different from those in the U.S. GE education abroad course.

5805 Theories and Biological Basis of Substance Misuse U G 3

The focus of this course is to explore traditional and contemporary theories, and their supporting evidence, related to substance misuse and the etiology of substance use disorders (including addiction). Satisfactory completion of introductory psychology and introductory biology course content is preferable/recommended, but not required. Prereq: Jr, Sr, or Grad standing; or permission of instructor. Not open to students with credit for 3805.

5806 Diagnosis and Treatment of Substance Use Disorders U G 3

The focus of this course is to introduce concepts and current issues related to screening, assessment, diagnosis, and treatment for individuals with potential substance use disorders. It is also designed to meet chemical dependency educational content for Ohio's Licensed Chemical Dependency Counselor credentials. Prereq or concur: 3805 or 5805.

5807 Preventing Substance Misuse U G 3

Introduces students to evidence-based strategies and techniques that are used to prevent individuals from developing a substance use disorder; focuses on prevention as a science and highlights several theories and methodologies that govern prevention practice. Designed to meet chemical dependency educational content for Ohio's Licensed Chemical Dependency Board's Prevention Professional creds. Prereq or concur: 3805 or 5805.

5808 Group and Relationship Approaches Addressing Substance Misuse U G 3

Course focus is to introduce evidence-based, evidence-supported, and evidence-informed models and techniques for group, family, and relationship-based interventions concerning substance misuse; surveys the evidence, techniques applied in group intervention for addressing substance misuse and related problems. Course is designed to meet educational content for Ohio chemical dependency licensure. Prereq or concur: 3805 or 5805. Not open to students with credit for 3808.

5809 Intervening with Individuals Regarding Substance Misuse U G 3

Course introduces students to evidence-based, evidence-supported, and evidence-informed strategies and techniques used with individuals to treat a substance use disorder. It is also designed to meet chemical dependency educational content for Ohio's Licensed Chemical Dependency Board's Prevention Professional credentials. Prereq or concur: 3806 or 5806.

6188 Preparing for Field Education G 1

This course is designed to prepare students for a successful and meaningful field education experience. By providing an orientation to field education, policies and procedures, training on resource acquisition, safety in the field, mental wellness, resilience and self-care, students will be ultimately prepared to be active learners and leaders in field. Prereq: MSW I standing. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

6189 Field Practicum G 2

The focus in field practicum during this part of the educational program is on core social work competencies and learning activities with interrelated and interdependent human systems: individuals, families, groups, organizations, and communities. Prereq or concur: 6501 (744) and 6188. Repeatable to a maximum of 5 cr hrs or 3 completions. This course is graded S/U.

6201 Social and Economic Justice G 3

This course will provide students with foundation knowledge related to social justice in the context of social welfare in advancing human rights of all people. Prereq: Grad standing in Social Work. Not open to students enrolled in the following subplans: ASP, ASF, ASP/ONL, ASF/ONL.

6202 Diversity and Cultural Competence G 3

Conceptual framework for effective and culturally sensitive social work practice with oppressed and vulnerable populations. Prereq: Grad standing in Social Work. Not open to students in the following subplans: ASP, ASF, ASP/ONL, ASF/ONL.

6301 Social Work Perspectives on Development and Behavior Across the Lifespan G 3

Understand the biopsychosocial processes of human development that influence individuals' behavior across the lifespan in order to conduct effective prevention and intervention plans. Prereq: Grad standing in Social Work. Not open to students enrolled in the following subplans: ASP, ASF, ASP/ONL, ASF/ONL.

6302 Organizational & Community Systems G 3

Critically examines explanatory theory regarding the functioning of human service organizations, residential institutions, and communities with applications to social work assessment and intervention. Prereq: Grad standing in Social Work. Not open to students enrolled in the following subplans: ASP, ASF, ASP/ONL, ASF/ONL.

6401 Engaging with Evidence G 3

Develop the requisite values, skills, and knowledge for beginning to apply evidence in identifying, selecting and evaluating social work practices at all levels of intervention, and for introducing those aspects of engaging with evidence that are critical to developing well-reasoned proposals for social work services and intervention programs based on social work evidence. Prereq: Grad standing in Social Work. Not open to students enrolled in the following subplans: ASP, ASF, ASP/ONL, ASF/ONL.

6501 Generalist Practice with Individuals, Families, and Groups G 3

This course will provide instruction on professional values, knowledge, and skills essential for effective social work generalist practice interventions with individuals, families, and groups. Prereq: Admission to the MSW Program; Concur: 6601. Not open to students in the following subplans: ASP, ASF, ASP/ONL, ASF/ONL.

7189 Advanced Field Practicum G 1-4

An internship in a social work agency where students will integrate advanced classroom knowledge and skills with practice experiences. Prereq: 6189 (789.01 or 789.02 or 789.03 or 789.04 or 789.05 or 789.06) or 7400 (or 747). Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

7193 Individual Studies G 1-3

Individual study projects in selected areas of social work and social welfare. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

7194 Group Studies G 1-3

Specialized topic courses in areas of social work and social welfare. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.

7199 Thesis Research G 1-3

Individual thesis research projects in selected areas of social work and social welfare. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

7400 Evidence in Social Work Practice G 2

Students develop knowledge, values and skills about evidence to inform practice and prepare to analyze evidence at all levels of practice. Prereq: ASAP status.

7401 Social Work Evaluation I G 3

This is a two semester course sequence focusing on how to evaluate social work practice and programs. Over the two semesters students will learn how to design an appropriate evaluation strategy, select relevant outcome measure, collect and analyze evaluation data, and use evaluation outcomes to guide practice and policy decisions. Prereq: 6401 (770 and 771) or 7400 (770 and 771) or 8401. Not open to students with credit for 772.

7402 Social Work Evaluation II G 3

This is a two semester course sequence focusing on how to evaluate social work practice and programs. Over the two semesters students will learn how to design an appropriate evaluation strategy, select relevant outcome measure, collect and analyze evaluation data, and use evaluation outcomes to guide practice and policy decisions. Prereq: 7401 or 7403. Not open to students with credit for 772 or 7404.

7484 Informatics G 1

To refine, expand, and extend clinical transformation education to all medical, nursing, and other health professional students. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in Nursing.

7496 Opioid Use Disorder G 2

Evidence-based training in opioid use disorder (OUD) prevention, diagnosis, and treatment, emphasizing Medication-Assisted Treatment (MAT), to interdisciplinary teams of pharmacy, health and rehabilitation sciences, nursing, medicine and social work students to assure an interprofessional work force prepared to address the opioid epidemic. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in Nursing.

7500 Professional Development G 2

Introduces ASAP student to the knowledge, skills, and values needed to prepare for and engage in the second year field practice experience. Prereq: ASAP standing. Not open to students with credit for 747.

7510 Strengths-based Clinical Social Work with Individual Adults G 3

Students will learn several research-informed clinical social work approaches for working with the strengths of individual adults to effect client change such as solution-focused therapy, narrative therapy, strategic therapy, and cognitive-behavioral therapy. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.

7511 Clinical Social Work with Children and Adolescents G 3

Course focuses specifically on the preschool, school aged children and adolescents and provides an overview of: 1) the background of mental health treatment of children/adolescents; 2) development in context; 3) developmental psychopathology; 4) the helping process; and 5) common childhood/adolescent disorders. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.

7512 Clinical Social Work with Couples and Families G 3

Emphasizes a treatment approach that views family members as making up an interlocking system that is the context for the formation and resolution of problems of the family and its members. Focuses on the family as the client rather than individual family members and emphasizes the process and stages of intervention. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.

404 Social Work

7513	Clinical Social Work with Groups	G	3	7550	Community Practice and Development	G	3
<p>Process and methods of advanced clinical social work with groups using various theoretical approaches with different types of groups and member diversity in various settings. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744 or 745 or 746); or 7400 and 7500. Not open to students with credit for 741.05.</p>				<p>Prepares students for social work practice in community settings including engagement, assessment, intervention, evaluation in community practice. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744 or 745 or 746); or 7400 and 7500. Not open to students with credit for 730.03.</p>			
7514	Behavioral Methods in Social Work	G	3	7551	Strategic Planning for Organizational and Community Change	G	3
<p>Fundamental principles and practice of cognitive behavioral treatment (CBT) methods in social work across a variety of settings, practice problems, and client populations. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744 or 745 or 746); or 7400 and 7500.</p>				<p>Use strategic planning methods for engaging others; assessing strengths, needs, and environment; setting goals; developing plans; fostering support and partnerships; and evaluating and monitoring results. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500.</p>			
7515	Crisis Intervention and Trauma Treatment	G	3	7570	Policy Analysis and Social Legislation Process	G	3
<p>Covers different approaches and common steps involved in intervening with clients experiencing a crisis. Given that many clients find experiencing a crisis to be traumatic, this course will also cover several research-informed approaches for treating trauma and post-traumatic stress disorder (PTSD). Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Covers the legislative process of social welfare policy making and provides analytical skills of policy analysis to help legislators with policy choices at both state and federal government levels. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500. Not open to students with credit for 752.</p>			
7516	Assessment and Diagnosis in Clinical Social Work Practice	G	3	7600	Longitudinal Practice	G	½
<p>This course looks at patterns of human behavior and psychosocial functioning conceptualized as psychopathology, deviance, and/or responses to extreme stress. The content addresses such concepts as function and dysfunction, mental health and mental illness, and normality and abnormality. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Experiential opportunity to build competencies in communication, physical examination, and clinical reasoning emphasizing active participation in team-based care. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in Nursing.</p>			
7517	Social Work Practice in Schools	G	3	7601	Patients within Populations	G	½
<p>Prepares students to work effectively in the education setting as a licensed school social worker. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Incorporation of patients' concerns, health care provider goals and skills in team based care for patients vulnerable for illnesses and health issues as a result of their ages, social and demographic conditions, culture, and lifestyle choices. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in Nursing.</p>			
7518	Advanced Case Management	G	1½	7604	Hotspotting	G	1
<p>Development of competencies in the provision of case management services to address various complex client problems. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Strategic use of data to reallocate resources to a small subset of high-needs, high-cost patients among interdisciplinary teams of pharmacy, health and rehabilitation sciences, nursing, medicine and social work students. Prereq: Enrollment in Interprofessional Healthcare certificate program, or permission of instructor. This course is graded S/U. Cross-listed in Nursing.</p>			
7519	Advanced Practice in Motivational Interviewing	G	1½	7610	Integrative Seminar I on Aging and Health	G	3
<p>Course provides students with advanced practice knowledge, skills, and values related to engaging clients in motivational interviewing conversations for the purpose of promoting their intentional behavior change processes. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>This class will introduce students to the critical issues, theories, and knowledge needed to understand and work with older persons in the 21st century. The intent is to provide students with a broad introduction to the field of gerontology and a foundation for which students can study late life in greater depth in other courses in the Graduate Interdisciplinary Specialization on Aging.</p>			
7520	Pharmacotherapy in Social Work Mental Health and Substance Abuse	G	1½	7611	Integrative Seminar II on Aging and Health	G	3
<p>A survey of key principles, issues, and social work practice implications related to common interventions involving medications for addressing mental health and substance abuse problems. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>This course covers health care system models and the roles of social workers with emphases on ethical care and diversity in health beliefs and behavior. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>			
7521	Evidence-based Substance Abuse Treatment	G	3	7620	Integrative Seminar I on Mental Health and Substance Abuse	G	3
<p>Examines specific evidence-informed social work practices in assessment, diagnosis, treatment, prevention, and relapse prevention with substance misuse, abuse, and dependence. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500.</p>				<p>This course surveys: mental health practice approaches; mental health program and policy issues; mental health research and evaluation. Critical consideration is given to issues relevant to mental health and mental illness across time and stakeholder interests. Students examine public, professional, cultural, economic, and political influences on the development and delivery of mental health care. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500.</p>			
7523	Clinical SW Practice with Older Adults	G	3	7621	Integrative Seminar II on Mental Health and Substance Abuse	G	3
<p>Advanced clinical practice with a focus on evidenced-based treatment modalities for older persons and their families. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500. Not open to students with credit for 751.02.</p>				<p>Surveys social work practice, program, and policy issues, theories, and evidence related to substance use, misuse, abuse, and dependency across the lifespan. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500.</p>			
7530	Needs Assessment and Program Design	G	3	7630	Integrated Seminar I on Child and Youth Services	G	3
<p>Introduces program development and design, the skills for program implementation and management, needs assessment and program design for collective decision-making in organizations, systems and communities. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Course provides students with the opportunity to develop beginning level knowledge and skills for social work practice in the field of services to children and families, as well as knowledge of policies which affect practice in this field. The course is an integrative seminar to explore the continuum of services, programs, and policies which affect families and children. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>			
7531	Resource Acquisition for Human Service Organizations	G	3	7631	Integrated Seminar II on Child and Youth Services	G	3
<p>Offers methods of acquiring financial and material resources for human service programs through grant writing, fund raising, lobbying, and campaigns. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500. Not open to students with credit for 742.07.</p>				<p>The second of two in a series, prepares students with competencies essential for working with children, youth, and families in various service settings. Prereq: 7630.</p>			
7532	Supervision and Human Resource Management	G	3	7640	Integrative Seminar I on Community and Social Justice	G	3
<p>Provides an overview of models and specific skills used in social work supervision and effective management of the human resources which are appropriate to both clinical and community practice settings. The focus of the course is to acquire the knowledge and skills needed to manage human service workers effectively. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Focuses on multiple social systems associated with social and economic inequality. Social intervention and social work practice are critically reviewed for advancing community and social justice. Prereq: 6201 (720 and 721), 6301 (733), 6401 (770 and 771), and 6501 (744, 745, or 746); or 7400 and 7500.</p>			
7533	Financial Management	G	3	7641	Integrative Seminar II on Community and Social Justice	G	3
<p>This course provides the student with the basic knowledge and skills of financial management, in the context of management control, in non-profit, human service organizations. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>				<p>Further develop knowledge of community and social justice practice, develop and/or practice skills in the classroom community, explore professional interests that coincide with future goals, and develop strategies for sustainability of selves in this work. Prereq: 7640.</p>			
7534	Prevention Strategies in Social Work Practice	G	1½				
<p>This advanced practice 'macro' course examines prevention models and theories, the evidence surrounding specific preventive interventions, and practice issues related to implementing prevention approaches. The course content and assignments provide students with a conceptual background of the development of prevention approaches to mental and behavioral health concerns. Prereq: 6201, 6301, 6401, and 6501; or 7400 and 7500.</p>							

7717	Interdisciplinary Perspective on Developmental Disabilities	G	3
Provides an introduction to the psychosocial, medical, and educational implications of developmental disabilities. Prereq: Permission of instructor. Not open to students with credit for 717.01 or 717.03. Cross-listed in HthRhSc, EducSt, Nursing, Psych, and SphHrng.			
7718	Interdisciplinary Perspective on Autism Spectrum Disorders	G	3
Teaches the analytical skills necessary to comprehend and formulate an interdisciplinary framework relating to major scientific and theoretical perspectives in autism spectrum disorders. Prereq: Permission of instructor. Not open to students with credit for 717.01 and 717.02. Cross-listed in HthRhSc, EducSt, Nursing, Psych, and SphHrng.			
8101	Research and Professional Development Seminar	G	1
Provides a foundation for doctoral study in social work, emphasizing issues in translational research, standards for research and scholarship, transition from practitioner to academic. Prereq: Doctoral standing in Social Work or permission of instructor. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
8193	Individual Studies	G	1 - 5
Independent study under the supervision of a faculty member. Prereq: Doct standing in SocWork. Repeatable to a maximum of 8 cr hrs or 8 completions. This course is graded S/U.			
8194	Group Studies	G	1 - 3
Specialized topic courses in areas of social work and social welfare. Prereq: Doctoral student in SocWork. Repeatable to a maximum of 9 cr hrs or 9 completions.			
8201	Knowledge Building	G	3
Examines the role of theory and elements of knowledge development for social work, social policy, and social change. Prereq: Doct standing. Not open to students with credit for 900.01.			
8202	Theories of Change for Social Problem Interventions	G	3
Develops students' knowledge of theory and research concerning processes of change with individuals and larger systems, occurring with or outside of planned interventions. Not open to MSW students, but could be open to thesis master's students in other disciplines with permission of instructor. Prereq: Doct standing, or permission of instructor. Not open to students with credit for 900.02 or 900.03.			
8401	Quantitative Methods for Social Work Research	G	3
This course will introduce the components and features of quantitative research that contributes to the interdisciplinary knowledge base used in social work, spanning, for example, developmental processes, behavior, health, mental health, social ecological influences, and social intervention. Prereq: Doct standing in SocWork; or Grad standing, and permission of instructor.			
8402	Qualitative Methods in Social Work Research	G	3
Course reviews basic knowledge on qualitative research; the epistemologies, ontologies, and methodologies pertinent to qualitative inquiry. Paradigmatic, ethical, theoretical, historical, and political issues involved in the conceptualization and conduct of qualitative research are reviewed, with specific application to social work research. Prereq: Doct standing, or permission of instructor.			
8403	Intervention Development and Research in Social Work	G	3
Course guides students in the development of an intervention that addresses an issue in their practice area. They will use/build upon knowledge related to their area of interest. Students will gain knowledge of the prevalence and nature of the issue, the understanding of the individual and social environmental factors contributing to it, and familiarity with existing interventions that address it. Prereq or concur: 8401, and Doct standing in SocWork; or Grad standing, and permission of instructor.			
8404	Implementation Science in Health and Human Service Organizations and Systems	G	3
Familiarizes students with the current state of the knowledge, theories and frameworks, research design, and methods for studying the dissemination, adoption, implementation, and sustainment of interventions in the context of organizations and systems. Given the complex and multi-level context of implementation research, course will cover pragmatic designs and an array of methodological approaches. Prereq: 8402, or equiv. qualitative research course, as determined by instructor, with permission granted by instructor.			
8405	Structural Equation Modeling for the Social and Behavioral Sciences	G	3
Students will learn fundamental concepts, best practices, and skills to conduct and interpret results from three common types of SEM: path analysis, confirmatory factor analysis, and general structural equation models. Appropriate methods for typical types of social science data will be emphasized. Students will also be introduced to two approaches to longitudinal modeling in SEM. Prereq: Doct standing in SocWork, or permission of instructor.			
8406	Mixed Methods Research in Social and Health Sciences	G	3
Course provides an overview of mixed methods approaches, with an emphasis on application to social and health sciences research. Discusses the history and philosophy underlying mixed methods research with a focus on the epistemological underpinnings of mixed methods designs and their components. Research traditions incorporated under the umbrellas of quantitative/qualitative methods are considered. Prereq: 8401 and 8402, and Doct standing in SocWork; or Grad standing, and permission of instructor.			

8407	Methods for Social Welfare Policy Research	G	3
Course focuses on the use of empirical methods in social welfare policy research and acquaints students with several key analytic approaches through a series of directed readings on quantitative work in social welfare policy. Discusses the strengths and limitations of multiple regression analysis and the relationship between regression and causal modeling. Extensions and alternatives are discussed. Prereq or concur: 8401, and Doct standing in SocWork; or Grad standing, and permission of instructor.			
8408	Statistics I for Social Work Research	G	3
Stats I will equip students with knowledge of the role of quantitative analyses in social work research and its relationship to other components of the research process. Content in the course will be related to topics studied in students' research methods and theory courses. Will focus on the application of skills using SPSS and Stata software and on the reporting of findings from analyses. Prereq: Doct standing in SocWork; or Grad standing, and permission of instructor.			
8409	Statistics II for Social Work Research	G	3
Stats II focuses on two topics central to social science research: multiple regression and the development of measures or scales. Introductory to intermediate regression topics will be covered, such as mediation, moderation, dummy variables in regression, and hierarchical regression. The course will prepare students to conduct power analyses, and to generate and interpret confidence intervals. Prereq: Doct standing in SocWork; or Grad standing, and permission of instructor.			
8501	International Social Work and Social Development	G	3
This course focuses on the multidimensional and dynamic local, national, regional, and international contexts and issues that help shape human welfare and social development in various parts of the globe. The course is designed to analyze theories, models, and strategies of social development in industrialized and developing countries. Prereq: Doct standing in SocWork, or permission of instructor. Not open to students with credit for 902.04.			
8502	Social Work Education: Pedagogy, Skills, Opportunities, and Challenges	G	3
This course prepares students to assume educator roles and activities by developing knowledge and skills for effectively engaging in the development and delivery of social work education and engaging in delivering varied professional education activities. Prereq: Enrollment in the Doctoral Social Work program; or Grad standing, and permission of instructor.			
8503	Job Search Seminar	G	3
Course will provide doctoral students with essential knowledge and skills for a successful academic job search. Topics include self-assessment, career planning, effective job search tools and skills, application material, interviewing, campus visits, job offers and negotiation, and transitioning to professional life. Prereq: Enrollment in the Doctoral Social Work program; or Grad standing, and permission of instructor. This course is graded S/U.			
8998	Research	G	1 - 12
Research for independent project or preparation of the written candidacy examination. Prereq: Doct standing in SocWork. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
8999	Research for Dissertation	G	1 - 3
Dissertation research and writing under the direction of advisor and dissertation committee. Prereq: Doct standing in SocWork. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is progress graded (S/U).			

Sociology

1101	Introductory Sociology	U	3
Fundamental concepts of sociology and introduction to the analysis of social problems and interactions (e.g. wealth, gender, race, inequality, family, crime) using sociological theories. Prereq: Not open to students with credit for 1101H, 1101E, 1102, RurlSoc 1500, or equiv. GE soc sci orgs and politics and diversity soc div in the US course. GE foundation social and behavioral sci course.			
1101H	Introduction to Sociology (Honors)	U	3
Fundamentals of sociology and introduction to the analysis of social problems and social interactions, (e.g., wealth, gender, race inequality, family, crime) using sociological theories. Prereq: Honors standing, or permission of department or instructor. Not open to students with credit for 1101, 1101E, 1102, RurlSoc 1500, or equiv. GE soc sci orgs and politics and diversity soc div in the US course. GE foundation social and behavioral sci course.			
1102	Social Foundations of Race, Ethnicity, Gender, and Social Class	U	3
In this course students explore how people's lives are shaped by their race, gender, ethnicity, and social class. The course emphasizes the ways in which these identities and social positions are constructed, along with their consequences. Prereq: Not open to students with credit for 1101, 1101H, 1101E, RurlSoc 1500 or equiv. GE soc sci orgs and politics course and diversity soc div in the US course. GE foundation social and behavioral sci and race, ethnicity and gender div course.			
2194	Group Studies	U	3
Topics vary each semester offered. Repeatable to a maximum of 6 cr hrs.			
2202	Social Problems and Public Policy	U	3
Analysis of contemporary social problems such as inequality, discrimination, and crime. GE foundation social and behavioral sci course.			

406 Sociology

2209	Introduction to Criminal Justice	U	3	Examination of the development and administration of criminal law and agencies (police, courts, corrections); emphasis on criminal proceedings and their justification. GE foundation social and behavioral sci course.	2798.02	Study Tour: Foreign	U	3	Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.
2210	Sociological Aspects of Deviance	U	3	Study of the definition, identification, treatment, and control of types of legal, moral, and status deviance, such as crime, mental illness, alcoholism, and other individual pathologies. Au, Sp Sems. Prereq: Not open to students with credit for 210. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.	3191	Internship Program in Sociology and Criminology	U	1 - 6	An opportunity for work experience and on-the-job learning in sociology and criminology related employment. Employment or experience through the Internship Program conducted under the supervision of the internship coordinator. Requires completion of internship learning agreement. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.
2211S	Corrections: An OPEEP Course	U	3	Examines theory and policy, and is comprised of OSU students and prison inmates with class meetings held in a local state prison. Though course is repeatable, only one iteration will count for GE credit. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs. GE service learning course.	3200	Sociology of Immigration	U	3	Provides a sociological understanding of contemporary migration both globally and with a particular focus on the U.S. The course will examine why migration occurs; how it is sustained over time; and how immigrants are incorporated into the host society. Social relations as central to understanding immigration will be a focus of the course. GE diversity soc div in the US course. GE theme citizenship for div and just wrld course.
2290	Sociology of Death and Dying	U	3	Provides a sociological overview of death and dying, including the demographics of death, social epidemiology, and social meanings of death and dying. GE theme health and well-being course.	3302	Technology and Global Society	U	3	Social aspects of technology, social change, and technological development; underdevelopment and the global economy.
2300	Sociology of Culture and Popular Culture	U	3	Provides a sociological understanding of culture including the influence of culture on inequality and social change and sociological interpretations of popular culture. The course will examine how sociologists define and empirically study culture; theoretical approaches; aspects of culture including media, consumer goods, etc.; prevalence of cultural patterns in all societies.	3306	Sociology of Poverty	U	3	A study of low-income peoples, especially concerning the effect of poverty on them, and their consequent social participation. GE diversity soc div in the US course. GE theme citizenship for div and just wrld course.
2309	Introduction to Law and Society	U	3	Introduction to the law as a social institution, including the origins of law and its relationship to other social institutions, social control, and social change. GE foundation race, ethnicity and gender div course.	3315	Sociology of Terrorism	U	3	Provides a broad review of the definitions, histories, types, and theories of terrorism from a sociological perspective.
2310	Sociology of Gangs	U	3	Broad range of topics related to gang activity with a focus on why individuals join gangs, societal consequences of gangs, and social policy. Prereq: Not open to students with credit for 310.	3380	Racial and Ethnic Relations in America	U	3	Historical and contemporary study of race and ethnicity in the U.S. with a focus on relations within and between groups. Prereq: Not open to students with credit for 2380. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.
2320	Sociology of Education	U	3	Explore how schools shape racial, ethnic, gender, and social class inequalities. GE soc sci human, nat, and econ resources course. GE foundation social and behavioral sci course and race, ethnicity and gender div course.	3410	Criminology	U	3	Theories of delinquency, crime, and criminal careers; scientific aspects of crime measurement.
2345	The Social Structure of American Society	U	3	An exposition of the structural patterns of American society, using sociological theories and data to form an integrated perspective. Prereq: Not open to students with credit for 345. GE soc sci orgs and politics course. GE foundation social and behavioral sci course.	3430	Sociology of the Family	U	3	Analysis of relationships between the family and the larger society including mate selection, status of women, and patterns of husband-wife and parent-child relationships. Prereq: Not open to students with credit for 430.
2367.01H	The Political Elite and Interest Groups (Honors)	U	3	Sociological analysis of American politics and society, emphasizing political elites and interest groups, and the changing role of the state in the economy. Prereq: Honors standing, and English 1110 (110), 1111, or 111, or equivalent; or permission of department or instructor. Not open to students with credit for 367.01H. GE writing and comm: level 2 and soc sci orgs and politics course. GE foundation social and behavioral sci course.	3434	The Child and Society	U	3	A study of the ways in which society socializes children; current breakdown in the socializing processes and implications for the school and other educational agencies. Prereq: Not open to students with credit for 434.
2368	Urban Social Problems	U	3	The place of the city in social organization; the emergence, nature, and problems of modern urbanism; projects based in census and field data. GE soc sci orgs and politics course. GE theme citizenship for div and just wrld course.	3435	Sociology of Gender	U	3	Analyzes multilevel processes that differentiate women and men in education, employment, and relationships. Examines variations in gendered experiences across race-ethnicity, social class, and sexuality. Prereq: Not open to students with credit for 435. GE diversity soc div in the US course.
2370	Social Psychology in Sociological Perspective	U	3	Analysis of relationships between society and the individual. Learning of motives and social roles, socialization, group organization and disorganization. Development of self and personality. Prereq: Not open to students with credit for 370. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.	3460	Environmental Justice	U	3	Examines environmental issues from a sociological perspective, especially human causes of environmental change such as technology, population, and consumption, and social reactions. GE soc sci human, nat, and econ resources course. GE theme sustainability course.
2380	Intersectionalities and Crime	U	3	This course examines the influence of intersectionalities, including dimensions of race, class, gender and gender identity, sexual orientation, and immigration status along with other dimensions of privilege and disadvantage and their relationships to criminality, victimization, and processing within the criminal legal system. GE foundation race, ethnicity and gender div course.	3464	Work, Employment, and Society	U	3	Analysis of work organization; control and authority relationships in the workplace; comparative studies of work and labor movements; industrial decline; automation. Prereq: Not open to students with credit for 464.
2463	Social Inequality: Race, Class, and Gender	U	3	The study of social inequality with a focus on inequalities by race/ethnicity, gender, and class. Prereq: Not open to students with credit for 3463. GE soc sci human, nat, and econ resources course. GE foundation race, ethnicity and gender div course.	3467	Sociology of Religion	U	3	The social role of religious institutions and beliefs, with particular reference to the United States; the relation between religion and other aspects of society. GE diversity soc div in the US course.
2797	Study at a Foreign Institution	U	1 - 9	An opportunity for students to study at a foreign institution and receive Ohio State credit for their work. Students will pay Ohio State fees in excess of Ohio State tuition as well as all travel and subsistence costs. Prereq: Permission of department chairperson. Repeatable to a maximum of 27 cr hrs or 3 completions. This course is graded S/U.	3487	Research Methods in Sociology	U	3	Introduction to sociological research techniques, methodological approaches, and relevant quantitative procedures.
2798.01	Study Tour: Domestic	U	3	Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. Not open to students with credit for 298.01.	3488	Introduction to Sociological Theory	U	3	Introductory statement of the nature of sociological theory, its basic problems, assumptions, major types and orientations, and principal contributions to the discipline. Prereq: 3 cr hrs taken at 2000-3000 level.
					3549	Statistics in Sociology	U	3	An introduction to the application and interpretation of quantitative analysis in sociological research; emphasis on the description of social variables and hypothesis testing. GE data anyl course. GE foundation math and quant reasoning or data anyl course.

3597.01 World Problems in Global Context U 3
 Sociological analysis of contemporary world societies - non-industrialized, industrializing, and industrialized - with special attention to major social institutions and patterns of social change. GE diversity global studies and cross-disciplinary seminar course. GE theme citizenship for div and just wrld course.

3597.02 World Population Problems U 3
 General introduction to population studies, emphasizing how population growth and structure have caused or aggravated social problems in various countries. Prereq: A general education quantitative reasoning course. Not open to students with credit for 597.02. GE diversity global studies and cross-disciplinary seminar course.

3630 Medical Sociology U 3
 Sociological analysis of the distribution of disease, and the nature of health care institutions, health professions, and the delivery of health care services. GE theme health and well-being course.

3798.01 Study Tour: Domestic U 1 - 9
 Specific content, location, semester(s) of offering and prerequisites vary; contact department office for details. Repeatable for differently titled study tours only. Prereq: Permission of instructor. Not open to students with credit for 498.01.

3798.02 Study Tour: Foreign U 1 - 9
 Specific content, location, semester(s) of offering and prerequisites vary; contact department office for details. Repeatable for differently titled study tours only. Prereq: Permission of instructor. Not open to students with credit for 498.02.

3798.03 Genocide and its Aftermath in Rwanda U 4
 Course explores the 1994 Rwandan genocide through active learning experiences in Rwanda. Topics include: origins and causes of the genocide in Rwanda and globally; forms of violence, participants, and victims; aftermath and legal response including gacaca courts and collective memories; and human rights, development, and economic growth in Rwanda today. Prereq: Permission of instructor. GE education abroad course. GE theme citizenship for div and just wrld course.

4000E Social Science Business Collaborative: A Service Learning Approach U 3
 Sociology 4000E is an Honors Embedded course in which students learn to develop research projects through collaboration with a local business on a service project. Uses University resources to address community issues, facilitate data collection, learn project management and present research findings in academic and applied settings and learn through improving the community. Prereq: Honors standing, and 1101; or permission of instructor. Repeatable to a maximum of 6 cr hrs. GE service learning course.

4000S Social Science Business Collaborative: A Service Learning Approach U 3
 Sociology 4000S is course that helps students develop research projects through collaboration with a local business to work on a service project; link university resources to bear on community issues, facilitate data collection, learn project management, present research findings in academic and applied settings, learn through improving the community. Prereq: 1101, or permission of instructor. Repeatable to a maximum of 6 cr hrs. GE service learning course.

4100 Criminal Investigation U 3
 Theory and practice of criminal investigation and prosecution in the U.S. Criminal Justice System with attention to: (1) the roles of the law enforcement officer, prosecutor, and court personnel; (2) familiarization with various investigative techniques; (3) the collection and preservation of physical evidence; and (4) constitutional limitations and ethical considerations. Prereq: Enrollment in Criminology major or minor, or permission of instructor.

4193 Individual Studies U 1 - 6
 Individual studies. Prereq: 12 cr hrs in Sociol, and permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

4462 Advanced Social Stratification U 4
 In-depth theoretical and empirical questions driving the field of inequality, poverty, and social mobility in the 21st century will be explored. We will focus on class, race, and gender inequality in the US, though the course will also develop tools for understanding inequality and poverty across times and places. Prereq: Jr, or Sr standing; or permission of instructor or department. GE theme citizenship for div and just wrld course.

4505 Capital Punishment in the United States U 3
 Examines the role of capital punishment in the contemporary United States. Prereq: Jr or Sr standing; or permission of instructor, or department. Not open to students with credit for 505.

4506 Drugs and Society U 3
 Sociological perspective on substance use. Exploration of the causes, consequences, and criminalization of substance use; consideration of race and class differences in drug enforcement; media portrayals of substance use; global perspectives on drug use and drug law. Prereq: Jr standing or higher, or permission of instructor.

4507 The Criminal Justice System U 3
 Advanced study of the role and operation of the criminal justice system: police, courts, and corrections. Prereq: Jr standing or above, or permission of instructor or department.

4508 Violence U 3
 Examines societal definitions of violence, theories that are most commonly invoked to explain violence, and research designed to critically evaluate theories of violence. Prereq: Jr standing or above, or permission of instructor or department. Not open to students with credit for 4670.02, 508, or 673.

4509 Sociology of Law U 3
 The relationship between law and social order emphasizing the structure of law, social origins of law, and law as a source of social change. Prereq: Jr standing or above, or permission of instructor or department. Not open to students with credit for 509.

4510 Gender, Crime, and the Criminal Justice System U 3
 Analysis of females as participants in and victims of crime, the treatment of women in the criminal justice system, women as workers in criminal justice fields. Prereq: Jr or Sr standing; or permission of instructor, or department. Not open to students with credit for 510.

4511 Juvenile Delinquency U 3
 A sociological perspective in youth and crime; special attention to the magnitude of youth crime, theories, juvenile justice systems, and prevention and control efforts. Prereq: Jr or Sr standing; or permission of instructor, or department.

4610 Sociology of Deviant Behavior U 3
 An examination of the nature, types, and societal reactions to deviant behavior; special emphasis on the process of stigmatization and the emergence of deviant subcultures. Prereq: Jr or Sr standing; or permission of instructor, or department. Not open to students with credit for 610.

4611 Prisons, Jails, and Community Corrections U 3
 Overview of prisons, jails, and community corrections from institutional and prisoner perspectives. Prereq: Jr or Sr standing; or permission of instructor, or department. Not open to students with credit for 611.

4615 Control and Prevention of Crime and Delinquency U 3
 Analysis of the operational effectiveness of special measures and programs pointed toward the control and prevention of crime and delinquency. Prereq: Jr or Sr standing; or permission of instructor, or department. Not open to students with credit for 615.

4629 Health Disparities in Social Context U 4
 Analysis of the social determinants of health and health disparities with a focus on stratification/inequality. Includes variations in health disparities over the life course. Prereq: Soph standing or above, or permission of instructor or department. Not open to students with credit for 5629. GE theme health and well-being course.

4635 Gender and Society U 3
 Advanced seminar on the social and personal meanings of masculinity and femininity and variations across race-ethnicity, sexuality, and social class. Examines gender as a social phenomenon and system of social practices. Prereq: Jr or Sr standing; or permission of instructor, or department.

4650 Undergraduate Seminar in Social Networks U 3
 In this seminar, we will study both the theoretical and substantive development of the field of social networks as well as methodological tools necessary for conducting research. We will explore how our relationships significantly shape many aspects of our lives including cognition, motivations, identity, social mobility, group organization and resource distribution. Prereq: Any GE Basic Computation, or GE Mathematical or Logical Analysis course; or permission of instructor.

4655 Sociology of Sport U 3
 Sport from a sociological perspective; relationship of sport to social institutions; socialization into sport; stratification within sports; sport and small group analysis. Prereq: Not open to students with credit for 655.

4998 Undergraduate Research in Sociology U 1 - 9
 Undergraduate research or creative activities in variable topics. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions. This course is graded S/U.

4999.01 Thesis Research: Sociology (Non-Honors) U 1 - 3
 A conference-thesis course for students not enrolled in the Honors program; subject matter will vary depending upon student's topic. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4999.01H Honors Thesis Research: Sociology (Honors) U 1 - 3
 A conference-thesis course; subject matter will vary depending upon student's topic. At least 2 semesters are required for the degree BA with social distinction. Failure to receive a mark of S in this course is a disqualification for special honors. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

4999.02 Thesis Research: Criminology and Criminal Justice (Non-Honors) U 1 - 3
 A conference-thesis course for students not enrolled in the Honors program; subject matter will vary depending upon student's topic. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

408 Sociology

4999.02H Honors Thesis Research: Criminology and Criminal Justice (Honors) U 1 - 3

A conference-thesis course; subject matter will vary depending upon student's topic. At least 2 semesters are required for the degree BA with crimino distinction. Failure to receive a mark of S in this course is a disqualification for special honors. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

5194.01 Group Studies: Sociological Theory U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.02 Group Studies: Social Organization U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.03 Group Studies: Medical Sociology U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.04 Group Studies: Criminology and Criminal Justice U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.05 Group Studies: Sociology of Education U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.06 Group Studies: Race/Ethnicity/Minority Relations U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.07 Group Studies: Social Psychology U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.08 Group Studies: The Family U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.09 Group Studies: Research Methodology U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.10 Group Studies: Urban/Community/Ecology U G 3

Topics vary each semester offered. Prereq: 3 cr hrs at 2000-3000 (200-400) or higher level. Repeatable to a maximum of 9 cr hrs.

5194.11 Group Studies: Labor Markets/Economy and Society U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.12 Group Studies: Political Sociology U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.13 Group Studies: Population/Demography U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.14 Group Studies: Gender U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5194.15 Group Studies: Unclassified U G 3

Topics vary each semester offered. Prereq: 3 cr hrs in Sociology at 2000-3000 (200-400) level or above. Repeatable to a maximum of 9 cr hrs.

5450 Sociology of Global Health and Illness U G 3

Sociological study of health and illness from a global perspective. Topics include health, illness, and related behaviors; disease processes, correlates of diseases, global efforts to improve health, and comparative health care systems. Prereq: Jr, Sr, or Grad standing; or permission of instructor or department. GE diversity global studies course. GE theme health and well-being course.

5503 Social Change in Central and Eastern Europe U G 3

Examines and discusses various approaches to social change, focusing on Central and Eastern Europe and its transition to the post communist era. It deals with political, economic, and cultural aspects of life in the region. Prereq: 3 cr hrs at 2000-3000 (200-400) or higher level. Not open to students with credit for 503.

5525 Global Criminology U G 3

Provides students an introduction to global crime from a criminal justice perspective. Prereq: Jr, Sr, Grad standing; or permission of instructor, or department. Not open to students with credit for 525.

5605 Sociology of Sexuality U G 3

A social and institutional approach to the study of sexuality with a focus in sexual identities, practices, institutions, communities, and sexuality movements. Prereq: Jr, Sr, Grad standing; or permission of instructor, or department.

5608 Qualitative Methods in Sociology U G 3

A survey of qualitative approaches to social research, including participant observation, intensive interviewing, and archival/documentary analysis. Prereq: 3487, Jr standing or above, and permission of instructor; or Grad standing.

5649 Intro to Quantitative Research/Multiple Regression U G 3

Assumptions, principles, and applications of the multiple regression model in sociological practice; basic model, dummy variables, and special functional forms. Prereq: 3487, 3549, Math 1151, Jr standing or above, and permission of instructor; or Grad standing.

5650 Presenting and Communicating Quantitative Data U G 3

Course will broaden knowledge of social science data sources, sharpen analytic skills, utilize software to graphically present research findings, and develop skills in writing about quantitative research for professional and lay audiences. Prereq: 3487 and 3549, and Jr standing; or permission of instructor.

5797 Study at a Foreign Institution U G 1 - 9

An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Students will pay Ohio State fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Prereq: Permission of department chairperson. Repeatable to a maximum of 27 cr hrs or 3 completions. This course is progress graded (S/U).

5798.01 Study Tour: Domestic U G 1 - 9

Specific content, location, semester(s) of offering and prerequisites vary; contact department office for details. Repeatable for differently titled study tours only. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 3 completions.

5798.02 Study Tour: Foreign U G 1 - 9

Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Repeatable for differently titled study tours only. Prereq: Permission of instructor. Repeatable to a maximum of 27 cr hrs or 3 completions.

5925 Offender Decision Making and Prisoner Reentry U G 3

Introduces students to research on contemporary issues faced by state and federal correctional systems. The course draws from multidisciplinary scholarship that examines offender decision making, factors that promote recidivism, and how to successfully reintegrate inmates back into society. Prereq: Completion of a 3000-level or higher Social course, and Jr or Sr standing; or Grad standing; or permission of instructor or department.

5950 Evidence-Based Practice in Criminal Justice U G 3

This course examines the history and principles of effective evidence-based programs in criminal justice setting. Students will develop an evidence-based solution to a real world problem, in a criminal justice agency of their choosing. Prereq: Completion of a 3000-level or higher Social course, and Jr or Sr standing; or Grad standing; or permission of instructor or department.

6193 Individual Studies G 1 - 12

Individual Studies. Repeatable. This course is graded S/U. Prereq: 18 cr hrs in Social; or Grad standing, and permission of instructor. Repeatable to a maximum of 99 cr hrs or 99 completions. This course is graded S/U.

6582 Sociological Theory G 3

Analysis of classical systems and their representatives, e.g., positivistic social evolutionism (Comte, Spencer, Durkheim), historical materialism (Marx-Engels), and humanistic idealistic reactions (Toennies, Simmel, M. Weber). Prereq: Grad standing. Not open to students with credit for 782.

6650 Categorical Data Analysis G 3

Techniques of analysis for examining nominally measured dependent variables, and treatment of error structures that are heteroskedastic or correlated across cases. Prereq: 6649 (649) and Grad standing, or permission of instructor. Not open to students with credit for 703.

6655 Sociological Research Methods G 3

Theory and practice in essentials of the research process; comparison of alternative approaches and design models; questionnaire construction, interview techniques, and related problems. Prereq: 6649 (649) or equiv, or permission of instructor. Not open to students with credit for 651.

6708 Design and Analysis of Qualitative Sociological Research G 3

Problems and techniques of non-quantitative data analysis including case studies, participant observation, field diary, autobiography, and historical records. Prereq: 6649. Not open to students with credit for 708. Repeatable to a maximum of 10 cr hrs.

6710 Design and Analysis of Sociological Research G 3

Problem formulation, hypothesis testing, argumentation from data, and writing for professional audiences; research practicum leading to a research project. Prereq: Grad standing in Social, or permission of instructor.

6800	Proseminar in Sociology	G	1
Each week an area of specialization within sociology will be discussed by a professor whose major interest is in that area; provides an overview of special topics and current issues. Open only to 1st year graduate students. Prereq: Not open to students with credit for 800. This course is progress graded (S/U).			
6999	Research for Thesis	G	1 - 12
Research for thesis purposes only. Au and Sp Semesters Repeatable. This course is graded S/U. Prereq: Not open to students with credit for 998. This course is graded S/U.			
7700	Writing and Publishing in Sociology	G	3
Designed to review the mechanics of writing and publishing in sociology and related specialty journals. Prereq: 6655 (651). Not open to students with credit for 700.			
7710	Introduction to Social Networks	G	3
Focuses on the theoretical and methodological bases of social network analysis. Prereq: Grad standing, and enrollment in Comm or Sociol program; or permission of instructor. Not open to students with credit for Comm 7710. Cross-listed in Comm.			
7712	Seminar in Social Networks	G	3
The theory, substance, and methods for understanding patterns, causes, and consequences of relationships among populations of actors. Sociol 6649 and 6581 recommended. Prereq: Grad standing, and enrollment in Comm or Sociol program; or permission of instructor. Not open to students with credit for Comm 7712. Cross-listed in Comm.			
7718	Criminology Theory and Research	G	3
An advanced introduction and critical study of measurement, theory and research in criminology. Prereq: Grad standing or permission of instructor. Not open to students with credit for 718.			
7735	Sociology of Gender	G	3
An examination of current theory and research on the sociology of gender through extensive readings. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 735.			
7753	Introduction to Demographic Analysis	G	3
An exposition of census data and vital statistics, demographic rates, life tables, cohort analysis, and similar elementary techniques and data sources in demography. Prereq: Graduate standing, or permission of instructor with approval by Graduate School for undergraduate credit.			
7754	Introduction to Demography	G	3
An exposition of census data and vital statistics, demographic rates, life tables, cohort analysis, and similar elementary techniques and data sources in demography. Prereq: One course in Stat. Not open to students with credit for 754.			
7755	Fertility	G	3
A critical and methodological analysis of fertility, with special emphasis on the social context of reproductive behavior in American society.			
7756	Sociology of Immigration	G	3
Theories and models of population mobility; determinants and consequences of migration and immigration processes; policy implications of cross-national and rural-urban migration. Prereq: Not open to students with credit for 756.			
7758	Health Disparities in the United States	G	3
Social and demographic forces that affect well being, health, and survival. Prereq: Grad standing, or permission of instructor with approval by Graduate School for undergraduate credit.			
7760	Sociology of Conflict and Violence	G	3
Comparative analysis of the sources and impact of conflict and violence. Prereq: 10 cr hrs in Sociol, or Grad standing. Not open to students with credit for 760.			
7761	Social Stratification	G	3
A survey of major theories, issues, and empirical literature on societal stratification and inequality with particular focus on the United States. Prereq: Not open to students with credit for 761.			
7770	Sociology of Culture	G	3
Graduate seminar on the empirical study of shared meanings. Focus on historic and contemporary debates in sociology of culture and methodological approaches for studying various types of culture. Prereq: Grad standing.			
7780	Racial and Ethnic Differences	G	3
An analysis of the origin, persistence, adaptation and change of systems and racial and ethnic differentiation. Prereq: Not open to students with credit for 780.			
7790	Social Organization of the Community	G	3
An examination of the nature, structures, processes, and trends of social organization of modern communities. Prereq: Not open to students with credit for 790.			
7820	Sociology of Education	G	3
Special problems will be considered in different semesters, including urban education, student movements, bureaucratic-professional problems, school-community relations, and innovation. Prereq: Not open to students with credit for 820.			

7837	Political Sociology	G	3
Selected topics in political sociology. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 837.			
7884.08	Seminar: The Family	G	3
Topics in family studies selected to give the advanced student opportunity to pursue special studies not otherwise offered. Repeatable to a maximum of 12 cr hrs.			
7884.14	Seminar: Gender	G	3
Topics in the sociology of gender selected to give the advanced student opportunities to pursue special studies not otherwise offered. Prereq: Not open to students with credit for 884.14. Repeatable to a maximum of 12 cr hrs.			
8580	Issues in Contemporary Theory	G	3
A critical examination of contemporary theory in sociology with an emphasis on individual action in the social context. Prereq: 6582 (782), or 6584 (784), or permission of instructor.			
8607	Causal Modeling	G	3
A survey of advanced problems in the multivariate analysis of sociological data. Prereq: 6649 (649). Not open to students with credit for 707.			
8632	Analysis of Longitudinal Data	G	3
Provides an introduction to event history analysis and other types of longitudinal data analysis. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 852.			
8651	Hierarchical Linear Models	G	3
Introduction to hierarchical linear and nonlinear models; review of three level, latent growth curve, cross-classified, and latent variable models for hierarchical data. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 851.			
8801	PhD Proseminar	G	1
Orientation for new PhD students in sociology. Prereq: Doct standing in Sociol. Not open to students with credit for 801. This course is progress graded (S/U).			
8802	Seminar for Graduate Interdisciplinary Specialization in Demography	G	3
Core required course for students enrolled in the Graduate Interdisciplinary Specialization in Demography (GISD). Presents an introduction to demography (the study of populations) and population health. Prereq: Grad standing, or permission of instructor with approval by Graduate School for undergraduate credit. Repeatable up to a maximum of 12 cr hrs. Cross-listed in PubHlth.			
8999	Research For Dissertation	G	3 - 16
Research for dissertation purposes only. Repeatable. This course is graded S/U.			

Somali

1101.01	Elementary Somali I	U	4
Development of oral proficiency in Somali through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers of the language through regular course enrollment. Prereq: Not open to students with credit for 1101.02. This course is available for EM credit. GE for lang course. GE world languages course.			
1101.02	Elementary Somali I (Online)	U	4
Development of oral proficiency in Somali through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers of the language through regular course enrollment. Prereq: Not open to students with credit for 1101 or 1101.01. This course is available for EM credit. GE for lang course. GE world languages course.			
1102.01	Elementary Somali II	U	4
Continuation of 1101; further work on developing oral proficiency in Somali through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers through regular course enrollment or EM credit. Prereq: 1101, 1101.01, or 1101.02, or permission of instructor. Not open to students with credit for 1102.02. This course is available for EM credit. GE for lang course. GE world languages course.			
1102.02	Elementary Somali II (Online)	U	4
Further develop oral, listening, reading, and written proficiencies in elementary conversational Somali using a competency-based approach. Lexicon control will be developed to a further range of nominal, verbal, and attributive and miscellaneous items. Not open to students with credit for 1102 or 1102.01. This course is available for EM credit. GE for lang course. GE world languages course.			
1103	Elementary Somali III	U	4
Continuation of 1102; further work on developing oral proficiency in Somali through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers through regular course enrollment or EM credit. Prereq: 1102. Not open to students with credit for 101. This course is available for EM credit. GE for lang course. GE world languages course.			

South Asia Studies

410 South Asia Studies

2220 Introduction to South Asia Studies U 3

A multi-disciplinary introduction to South Asia's geographical, political, cultural, and religious contexts and connections. Prereq: English 1110, or GE foundation writing and info literacy course. Not open to students with credit for CompStd 2220, or NELC 2220. GE culture and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in CompStd.

2230 Living Everyday Lives: Systems of Discrimination in the United States and South Asia U 3

The course shows how everyday life in South Asia where caste is a category of oppression compares to everyday life in the United States where race is a category of oppression. Everyday life will also introduce students to how race and caste as categories of oppression interact with gender and ethnicity in the United States and South Asia. GE foundation race, ethnicity and gender div course.

3025 Citizenship and Diaspora: Living in Between Countries and Cultures U 4

This course examines histories, lived experiences, and artistic representations of citizenship and diaspora. Over the course of the semester, we will focus on South Asia, specifically India/Pakistan, and the Middle East, specifically Israel/Palestine, two societies in which citizenship and diaspora have been particularly significant and complex, as well as diasporic communities in the US. Prereq: Not open to students with credit for NELC 3025. GE theme citizenship for div and just wrld course. Cross-listed in NELC.

3220 Citizenship in South Asia U 3

By way of examining literature, historical accounts, primary writings from known historical figures, and contemporary Indian film, this course engages students with a look at how citizenship is imagined in nation states, how it was imagined in colonial India, and how it is manifest in post-colonial South Asia. GE theme citizenship for div and just wrld course.

3625 Understanding Bollywood, Knowing India: Hindi Cinema Since 1960 U 3

Explores life in India from the lens of Hindi language cinema. Course engages with social class, gender, sexuality, Indian diaspora in the West, family structure, marriage, politics, caste, language (special focus on multilingualism in India), religion, and globalization, and how these relate to lived experiences of people in Indian society. Not for Film Studies credit. Prereq: Not open to students with credit for NELC 3625, 3625.01, or 3625.02. GE cultures and ideas and diversity global studies course. GE theme citizenship for div and just wrld course.

3630S South Asian Identities in the United States: Assimilation and Enculturation U 3

The course aims to introduce students to diversity of identities within the immigrant South Asian community in the United States. Students read about how people define, interpret, and understand identity. This is a service learning course and students spend significant time getting to know the range of experiences of South Asians in Central Ohio. GE cultures and ideas and diversity soc div in the US and service learning course.

3671 Religions of India U 3

History and structure of South Asian religions with attention to myth, ritual, art, philosophy, and social stratification. Prereq: English 1110 or equiv. Not open to students with credit for CompStd 3671 or RelStds 3671. GE foundation historical and cultural studies course. Cross-listed in RelStds.

5241 Interdisciplinary Approaches to South Asian Studies U G 3

A connection of the disparate threads of the geographic and cultural entity of South Asia, offering an overview and interdisciplinary perspective on the factors that affect everyday life in the region. Prereq: English 1110. Not open to students with credit for NELC 5241.

Spanish

1101 Spanish I U 4

Development of listening, reading, speaking, and writing skills in cultural contexts. Not open to native speakers of this language through regular course enrollment or EM credit or to students with 3 or more years of high school Spanish. Students with 0-2 years of high school Spanish must take the MultiCAT placement exam. Prereq: Spanish Language Placement Level 9, or permission of department. Not open to students with credit for 1101.01, 1102, 1102.01, 1103, 1103.01, 1113, 1155, or equiv. courses. This course is available for EM credit. GE for lang course. GE world languages course.

1102 Spanish II U 4

Further development of listening, reading, speaking, and writing skills in cultural contexts. Both classroom-based and 100% online sections available each semester. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1101, or 1101.01, or Spanish Placement Level 8. Not open to students with credit for 1102, 1102.01, 1103, 1103.01, 1103.51, 1155, or equiv. courses. GE for lang course. GE world languages course.

1103 Spanish III U 4

Continuing development of listening, reading, speaking, and writing skills in cultural contexts. Both classroom-based and 100% online sections available each semester. A grade of C- or above is required to continue to 2202 or 2213. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1102, or 1155, or equiv., or Spanish Placement Level 7. Not open to students with credit for 1103.51, 1113, 2202.01, 2202.51, or 2213. This course is available for EM credit. GE for lang course.

1113 Intensive Spanish III for Heritage Learners U 4

This course builds on Heritage learners' prior knowledge and skills of spoken and written Spanish, expanding on their ability to communicate in a variety of contexts. It employs a multifaceted approach that fosters the development of the four skills (listening, speaking, reading, and writing). This course requires consistent attendance, pre-class preparation, and active in-class participation. Course is not open to second language learners of Spanish (SLL). Prereq: 1102, or 1155, or equiv., or Spanish Placement Level 7. Not open to students with credit for 1103.51, 1113, 2202.01, 2202.51, or 2213. GE for lang course. GE world languages course.

1155 Intensive Spanish for Review U 4

Intensive beginning Spanish; emphasis on development of proficiency in listening, speaking, reading and writing in cultural contexts. Not open to native speakers of this language through regular course enrollment or EM credit. 3+ years of high school Spanish is required. Prereq: Spanish Placement Level 9. Not open to students with credit for 1101, 1101.01, 1102, 1102.01, 1103, 1103.01, 1103.51. This course is available for EM credit. GE for lang course. GE world languages course.

2150 Culture and Literature of Spain U 3

Introduction to the principal developments of the culture of Spain through literature, art, music, film, and folklore. Prereq: Not open to students with credit for 150. GE cultures and ideas course. GE diversity global studies course. GE foundation historical and cultural studies course.

2151 Latin American Culture and Literature U 3

Introduction to the culture of Spanish America and Brazil through literature, art, music, film, and folklore. Prereq: Not open to students with credit for 151. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.

2193 Individual Studies U 1-9

Individual studies. Prereq: Written permission of department and additional paperwork required. Repeatable to a maximum of 60 credits or 60 completions. This course is graded S/U.

2194 Group Studies U 1-9

Group studies. Prereq: Written permission of department is required. Repeatable. This course is graded S/U.

2202 Spanish IV U 3

Ongoing development of listening, reading, speaking, and writing skills and knowledge of Hispanic cultures. Taught in Spanish. A grade of C- or above is required to move on to Spanish 3000-level major or minor courses. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: 1103, or 1113, or equiv., or Spanish Placement Level 6. Not open to students with prior credit for 2202, 2202.01, 2202.51, 2213, or 3000+ level courses in the major or minor program.

2208.22 Andean Music Ensemble U ½ - 1

Learning to playing and performing music from Bolivia, Peru, Ecuador, Chile, Colombia and Argentina. The course explores various musical genres within the Andean region. Students study techniques and methods for playing Andean instruments and learn to sing in Spanish, Quechua and Aymara. Repeatable to a maximum of 10 or hrs or 10 completions. Cross-listed in Music.

2213 Spanish IV for Heritage Speakers U 3

This course identifies and expands on Spanish heritage students' diverse identities and bilingual range through grammar review, vocabulary building, spelling and punctuation, and the development of composition skills. Listening, speaking, reading, and writing are emphasized through readings, written essays, and oral presentations. A grade of C- or above is required to move on to Spanish 3000-level. Not open to native, non-native, or non-heritage speakers of this language through regular course enrollment or EM credit. Prereq: A grade of C- or above in 1103 or 1113; or Spanish Placement Level 6. Not open to students with credit for 2202, or 3000+ level courses in the major or minor program. This course is available for EM credit.

2242 Introduction to Latinx Studies U 3

Introduction to Latinx studies; history, politics, and cultural production of Latinx communities in the U.S. and its borderlands. Prereq: GE foundation writing and info literacy course, or permission of instructor. Not open to students with credit for EthnStd 2242, or CompStd 2242, or 2322. GE cultures and ideas and diversity soc div in the US course. GE foundation historical and cultural studies and race, ethnicity and gender div course. Cross-listed EtnStd and CompStd.

2302 Spanish Conversation U 3

Intensive practice in conversation on selected topics. Only available through transfer credit or study abroad. Prereq: 1103.01 (103.01 & 104, or 111), or 1155 (103.66), or 2200H (104H), or equivalent with a grade of C- or higher. Repeatable to a maximum of 9 or hrs.

2320 Don Quixote in Translation U 3

Intro to Cervantes's masterpiece, Don Quixote. Students explore the novel through critical reading, writing, and class discussion. The course surveys the most salient features of Baroque Spanish art, and introduces major themes and narrative techniques included in the novel. An informed reading of DQ fosters the awareness of homologous artistic features and social issues in contemporary society. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.

Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 557. FL Admis Cond course.
4516	The Formation of Bolivian National Cultures	U	3	Overview of Bolivian literatures and cultures, and how they reflect the country's identities as well as its changing social, political, and cultural realities in the process of national formation. Taught in English.	4557.20	Introduction to Other Latino Literature in the U.S.	U	3	Study of works by "other Latino" writers, that is, authors from less represented groups within the larger Latino population in the U.S. The "other Latino" writers are part of the new migratory flows between the U.S. and Latin America. Their literary production complements the Latino experience represented by Chicano, Puerto-Rican, and Cuban-American authors. Prereq: 3450 (450) or 3450H (450H).
4532	Modern Spanish Syntax	U	3	Study of modern Spanish grammar; modern tendencies in syntactic analysis. Prereq: A grade of C- or above in 4430 (430) or 4430H (530H). Not open to students with credit for 601. FL Admis Cond course.	4558	Caribbean Narratives Now	U	3	Critical analysis of narratives and cultural productions from Cuba, Puerto Rico, & Dominican Republic. Students will work to rethink race, class, and gender in the islands-nations-regions through examination of representations of nations and space of the Caribbean diaspora in the United States, and the (dis)connections with the Caribbean archipelago. Prereq: 3450, or 3450H, or permission of instructor.
4534	Spanish Phonology	U	3	Analysis of the phonological structure of Spanish and a comparison with English; practical problems of teaching pronunciation. Embedded Honors section available by permission of instructor. Prereq: A grade of C- or above in 4430 or 4430H.	4560	Introduction to Spanish American Culture	U	3	Major elements in the culture of the peoples of Spanish America. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 560 or 560H. FL Admis Cond course.
4534E	Spanish Phonology	U	3	Analysis of the phonological structure of Spanish and a comparison with English; practical problems of teaching pronunciation. Embedded Honors. Prereq: Honors standing, and a grade of C- or above in 4430 or 4430H, and GPA 3.4 or above.	4560H	Introduction to Spanish American Culture	U	3	Major elements in the culture of the peoples of Spanish America. Prereq: Honors standing; and a grade of C- or above in 3450H; and GPA 3.4 or above. Not open to students with credit for 560 or 560H. FL Admis Cond course.
4536	Language Change in Spanish	U	3	Historical development of the Spanish language, including details of phonological, morphosyntactic, and semantic changes; external history; and changes currently in progress. Prereq: A grade of C- or above in 4430 (430) or 4430H (530H). Not open to students with credit for 536. FL Admis Cond course.	4561	Introduction to the Culture of Spain	U	3	Major developments in the culture of Spain. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 561 or 561H. FL Admis Cond course.
4537	Spanish Psycholinguistics	U	3	Overview of child language acquisition, second language acquisition and child and adult language disorders in Spanish-speaking populations. Prereq: A grade of C- or above in 4430 (430) or 4430H (530H). Not open to students with credit for 537. FL Admis Cond course.	4561H	Introduction to the Culture of Spain	U	3	Major developments in the culture of Spain. Prereq: Honors standing; and a grade of C- or above in 3450H; and GPA 3.4 or above. Not open to students with credit for 561 or 561H. FL Admis Cond course.
4538	Language Variation in Spanish	U	3	Survey of linguistic variation across the Spanish-speaking world, including geographical and social factors. Prereq: A grade of C- or above in 4430 (430) or 4430H (530H). Not open to students with credit for 538. FL Admis Cond course.	4564	Spanish Culture During Francoism	U	3	Panoramic view of the culture of Spain during the dictatorship of Franco. Use of literary and filmic productions of that period as representations of the historical, social, political & economic experiences Spain lived during those years. Prereq: A grade of C- or above in 3450 or 3450H.
4542	Taco Planet: Food, Sustainability & Latin(x) American Cultures	U	3	Examines the history, policies, visual representations, culinary techniques, and literatures that bring together Latin(x) American identity, expressive cultures, and culinary practices. Students will visit local businesses and complete instructional kitchen class gatherings to inventory how they can contribute to more sustainable and ethical consumer choices. Taught in English. Prerequisite: 2242, or CompStd 2242, or 2322, EthnStd 2242, or permission of instructor. GE theme sustainability course.	4565H	Latin American Indigenous Literatures and Cultures	U	3	Introduction to continuities and transformations that link Latin American colonial indigenous texts with contemporary cultural expression. Prereq: Honors standing; and a grade of C- or above in 3450H; and GPA 3.4 or above. Not open to students with credit for 565H. FL Admis Cond course.
4551	Spanish Golden Age Literature	U	3	Introductory critical study of major literary works from the 16th and 17th centuries in Spain. Prereq: A grade of C- or above in 3450 (450). Not open to students with credit for 551, 551H, or 551E. FL Admis Cond course.	4567	Spanish Mosaic: Catalonia, Basque Country, Galicia and Andalusia	U	3	Explores the fragmentation and renegotiation of Spanish cultural and political identity in tension with its peripheral "nations": Catalonia, Basque Country, Galicia, Andalusia. Prereq: A grade of C- or above in 3450 or 3450H. Not open to students with credit for 4567H.
4551E	Spanish Golden Age Literature	U	3	Introductory critical study of major literary works from the 16th and 17th centuries in Spain. Prereq: Honors standing; and a grade of C- or above in 3450H (450H); and GPA 3.4 or above. Not open to students with credit for 551, 551H, or 551E. FL Admis Cond course.	4567H	Spanish Mosaic: Catalonia, Basque Country, Galicia and Andalusia	U	3	Explores the fragmentation and renegotiation of Spanish cultural and political identity in tension with its peripheral "nations": Catalonia, Basque Country, Galicia, Andalusia. Prereq: Honors standing; and a grade of C- or above in 3450H; and GPA 3.4 or above. Not open to students with credit for 4567.
4552	Modern Spanish Literature	U	3	Introductory critical study of major literary works from the 18th century to the present in Spain. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 552 or 552H. FL Admis Cond course.	4568	Catalan Cultures	U	3	Critical analysis of the Catalan political history as it relates to its social and cultural history. We will address the ideological, linguistic, and political difficulties of defining Catalan cultures as separate from other cultures of other autonomous communities in the Iberian Peninsula. The course includes discussions on the current political debate surrounding Catalonia's independence. Prereq: 3450 (450) or 3450H (450H).
4552H	Modern Spanish Literature	U	3	Introductory critical study of major literary works from the 19th century to the present in Spain. Prereq: Honors standing; and a grade of C- or above in 3450H (450H); and GPA 3.4 or above. Not open to students with credit for 552 or 552H. FL Admis Cond course.					
4555	Indigenous, Colonial, & National Literatures and Cultures of Spanish America	U	3	Introductory critical study of issues and processes in the formation of indigenous, colonial, and national expression through 19th century regional discourses. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 555. FL Admis Cond course.					

4570 Latin Soundscapes: Musical Cultures of Latin America U 3

Since colonial times, the Latin American region has produced a wealth of musical genres, styles, hybrids, & fusions that allows for exploration of relevant social, cultural, economic, and political issues. This course surveys the richness, diversity, & representation of Latin American music through selection of musical, literary, filmic, & historical texts. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H).

4580 Latin American Film U 3

Study of Latin American film; special attention is paid to the relationship between film and the society in which it is produced. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 580. FL Admis Cond course.

4581 Spanish Film U 3

Study of Spanish film; special attention is paid to the relationship between film and the society in which it is produced. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Not open to students with credit for 581. FL Admis Cond course.

4582 Latinx Cinema: Filmmaking, Production & Consumption U 3

Explores how films by and about Latinxs respond to the U.S. Latinx experience. Analyzes how representational strategies (in terms of race, sexuality, ethnicity, gender, and class) and the deployment of formal devices (such as narrative structure, lighting, cinematography, sound, editing, and mise-en-scene) give various shapes to Latinx experiences and identities. Prereq: Second-level writing course, or permission of instructor.

4595.02 Special Topics in Foreign Study U 1-9

Credit from study abroad for major level courses in Iberian Literatures & Cultures concentration not offered by department but eligible for Spanish major core. Used only to convert 5697 (697) credit to more appropriate content level. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H), and permission of departmental study abroad advisor. Repeatable.

4595.03 Special Topics in Foreign Study U 1-9

Credit from study abroad for major level courses in Latin America Literatures and Cultures concentration not offered by department but eligible for Spanish major core. Arranged only with permission of departmental study abroad advisor. Prereq: A grade of C- or above in 3450 (450) or 3450H (450H). Used only to convert 5797 (697) credit to more appropriate content level. Repeatable to a maximum of 60 cr hrs.

4606 Advanced Business Spanish U 3

An in-depth study of the Hispanic economic, social, and cultural environment as it relates to business. Prereq: 3403 (403) or 3403H (403H), or permission of instructor. Not open to students with credit for 606. FL Admis Cond course.

4610 Contrastive Structures of Spanish and English U 3

Phonetics, phonemics, morphology, and syntax of Spanish contrasted with English. Prereq: A grade of C- or above in 4430 (430) or 4430H (530H). Not open to students with credit for 610. FL Admis Cond course.

4689S Translation and Interpreting in the Latino Community U 3

This course introduces students to foundational concepts in translation and interpretation in community contexts among Latinos in the US. The course analyzes the theoretical, ethical, and sociological dimensions of community translation and interpreting. Prereq: 4430, or permission of instructor.

4798 Study Tours U 1-9

Study Tours. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.

4998 Undergraduate Research in Spanish U 1-9

Undergraduate research or directed experience; non-thesis. Prereq: A grade of C- or above in 3450 (450). Repeatable. This course is graded S/U.

4998H Honors Research U 1-9

Honors research. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.

4999 Research for Thesis U 1-9

Undergraduate research for Thesis. Prereq: Permission of instructor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is graded S/U.

4999H Honors Research U 1-9

An individual program of research culminating in an Honors thesis and oral defense. Prereq: Honors standing; and a grade of C- or above in 3450H (450H); and GPA 3.4 or above. Repeatable. This course is graded S/U. FL Admis Cond course.

5191 Internship in Spanish U G 1-6

Use of advanced Spanish linguistic & cultural skills in a professional training context or industry for academic credit under employer supervision, with enrollment and grade evaluation by a faculty sponsor and program coordinator in the Dept. of Spanish & Portuguese. Student must obtain an internship and submit signed employer and department agreement prior to the start of the internship term. Submission of a completed Internship Enrollment Application & Supervisor Agreement is required. Spanish 3005 or 5689S recommended, but not required. Graduate students must obtain faculty advisor approval and confirm work hour commitment and duties each week of the internship term for enrollment in the appropriate number of credit hours. A maximum of 3cr may be applied to the undergraduate major and/or toward the Immersion Component, or minor program with Undergraduate Studies Committee approval. Prereq: 3450 or 3450H, GPA of 2.50 or above, Soph, Jr, or Sr standing, and permission of department. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

5201 Spanish in the Health Professions U G 3

Introduction to Spanish discourse about health and wellness within the cultural contexts of populations in the US and Latin America. Highlights the complex relationships between language, culture, and power in discourse on health and wellness. Prereq: 3403, or Grad standing and permission of instructor.

5202 Spanish in the Health Professions II U G 3

This course introduces students to the practice of interviewing for health and human services in Spanish. The course analyzes the theoretical, ethical, and sociological dimensions of medical and motivational interviewing in the context of the Spanish-speaking population in the United States. Prereq: 5201, or permission of instructor.

5203 Sociolinguistics and Latino Health U G 3

This seminar examines the relationship between language, health care, and health among Spanish speakers in the US through the dual lens of sociolinguistics and public health. We consider the effect of limited English proficiency on access to health information and we examine some of the measures currently in place to improve the transmission of health information across language boundaries. Prereq: 5201, or permission of instructor.

5389 US Latino Languages and Communities U G 3

We discuss the diversity of Latino experiences and the central role of language in the development of a "Latino" identity, as well as its role in local understandings of ethnicity, gender, and social class. Theoretical concepts include language ideologies, identity, and critical approaches to race and ethnicity. Previous coursework in Latino Studies and/or Sociolinguistics is desirable. Prereq: 5201 or 4430/H, or equiv, or Grad standing, or permission of instructor.

5461 Latino Urbanism and the Reinvention of the American City U G 3

Interdisciplinary course that examines a new trend of urbanism based on the urban experiences of Latinos and the study of this group's social, economic, and cultural impact on cities across the US. Taught in English. Team-taught course cross-listed in Spanish & City and Regional Planning. Prereq: Second-level writing course, and Jr or Sr standing; or Grad standing; or permission of instructor. Not open to students with credit for 4461 or CRPlan 4461 or 5461. Cross-listed in CRPlan.

5501.10 AmerIndian Languages & Cultures (Study Abroad) U G 1-9

AmerIndian languages and cultures (e.g., Guarani, Aymara) offered in study abroad programs. May count toward UG Spanish or Portuguese major/minor by petition. Graduate students must consult with their Program Advisor and complete any documentation required by their program of enrollment. Course may be taught in Target Language, Spanish or English. Prereq: Permission of department. Repeatable to a maximum of 9 cr hrs or 4 completions.

5501.20 AmerIndian Languages & Cultures (Domestic) U G 1-9

AmerIndian languages and cultures (e.g., Guarani, Aymara) offered through OSU or another domestic institution. May count toward the UG Spanish or Portuguese major/minor by petition. Graduate students must consult with their Program Advisor and complete any documentation required by their program of enrollment. Course may be taught in Target Language, Spanish or English. Prereq: Permission of department. Repeatable to a maximum of 9 cr hrs or 4 completions.

5620 Gender and Power in the Americas U G 3

Taught in Spanish, the course focuses on the interpretation of gender and power in hemispheric Latin American and U.S. Latino/a cultural production. The seminar promotes inquiry in the areas of gender and power, performance studies, and the problems and prospects of Latinos as peoples shaped by the legacies of colonial, neoliberal, and patriarchal social orderings. Prereq: 3450.

5630 Seminar in Hispanic Linguistics U G 3

Intensive study of major topic in Hispanic linguistics. Topics vary: e.g., the Spanish pronominal system, American Spanish dialectology, Spanish orthography. Required for students completing the Hispanic Linguistics track of the Spanish Major. Prereq: A grade of C- or above in 4430 or 4430H, plus any two of: 4532, 4534, 4534E, 4536, 4537, 4538, 4595.01, 4610, 4689S, 5389, or Portgse 5611. Repeatable to a maximum of 9 cr hrs.

5630E Seminar in Hispanic Linguistics - Embedded Honors U G 3

Intensive study of major topic in Hispanic linguistics. Topics vary: e.g., the Spanish pronominal system, American Spanish dialectology, Spanish orthography. Fulfills seminar requirement for students completing the Hispanic Linguistics Concentration of the Honors Spanish Major. Honors Embedded. Prereq: A grade of C- or above in 4430 or 4430H, plus any two of: 4532, 4534, 4534E, 4536, 4537, 4538, 4595.01, 4610, 4689S, 5389, or Portgse 5611. Repeatable to a maximum of 9 cr hrs.

414 Spanish

5640	Globalization and Latin America: Multi-disciplinary Approaches	U G	3	7320	Spanish Syntax and Semantics	G	3
<p>Explores current debates on globalization in Latin America and recent and interrelated transformations in the economies, politics, and cultures of the region. <p>Investigation of selected topics in synchronic Spanish linguistics (formal problems in Spanish phonology, morphology, syntax, semantics, and lexicology). Individual topics not repeatable. Prereq: 7320 (732) or 7340 (734) (depending on topic), or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8340	Studies in Synchronic Spanish Phonetics, Phonology and Morphology	G	3
<p>Investigation of theoretical concepts in phonetics, phonology, and morphology and how they have been applied to the analysis of the Spanish language. Prereq: 7340 (734), or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8370	Studies in Spanish Psycholinguistics	G	3
<p>Studies in child language acquisition, second language acquisition and child and adult language disorders in Spanish-speaking populations. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8380	Studies in Spanish Sociolinguistics	G	3
<p>Study of selected topics in Spanish sociolinguistics, for example: syntactic variation, discourse analysis. Prereq: 7380 (738), or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8390	Seminar in Spanish Linguistics	G	3
<p>Collaborative investigation of specific problems in Spanish linguistics (synchronic and historical, formal, and applied topics). Individual topics not repeatable. Prereq: 8330 (833) or 8360 (836), or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8510	Seminar in Medieval Iberia	G	3
<p>Detailed exploration of advanced issues in Medieval Iberia. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			
8530	Seminar in Modern Iberian Literatures and Cultures	G	3
<p>Detailed exploration of advanced issues in Iberian literatures and cultures of the 18th to 20th centuries. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			
8540	Seminar in Contemporary Iberian Literatures and Cultures	G	3
<p>Detailed exploration of advanced issues in 20th- and 21st-century Iberian literatures and cultures. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			
8550	Seminar in Indigenous and Colonial Latin American Literatures and Cultures	G	3
<p>Detailed exploration of advanced issues in indigenous and colonial Latin American literatures and cultures. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			

8560	Seminar in Independence and 19th-Century Latin American Literatures and Cultures	G	3
<p>Detailed exploration of advanced issues in Latin American literatures and cultures of the independence period and the 19th century. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			
8570	Seminar in Modern Latin American Literatures and Cultures	G	3
<p>Detailed exploration of advanced issues in Latin American literatures and cultures of the modern period from approximately 1880 to 1950. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			
8595	Seminar in Comparative Luso-Hispanic Literature and Culture	G	3
<p>Detailed exploration of advanced issues comparing the literatures and cultures of the Portuguese- and Spanish-speaking worlds. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 18 cr hrs.</p>			
8650	Seminar in Latin American Cultures	G	3
<p>Intensive exploration of a cultural period, topic, or problem; topic varies. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8780	Research Methods and Design	G	3
<p>Introduction to research methods and design in Iberian and Latin American literatures and cultures. Required course for Literature and Culture PhD programs. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 803.</p>			
8800	Seminar in Literary and Cultural Theory	G	3
<p>Intensive study of special topics in literary and/or cultural theory with attention to their relationship to Iberian and Latin American literatures and cultures. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs.</p>			
8890	Publication Workshop	G	3
<p>Revision and expansion of a seminar paper for potential publication in an academic journal, based on feedback from instructor and classmates. This course is graded S/U.</p>			
8893	Hispanic Linguistics Colloquium	G	1
<p>Forum for presentation of research in Hispanic linguistics; introduction to professional issues in workshop format. Repeatable to a maximum of 15 cr hrs. This course is progress graded (S/U).</p>			
8894	Literatures and Cultures Colloquium	G	1
<p>Forum for presentation of research in Iberian and Latin American literatures and cultures; introduction to professional issues in workshop format. Repeatable to a maximum of 15 cr hrs. This course is progress graded (S/U).</p>			
8998	Research for Dissertation (Pre-candidacy)	G	1 - 12
<p>Research for dissertation (pre-candidacy). Prereq: Pre-candidacy status, and permission of faculty advisor. Repeatable to a maximum of 64 cr hrs or 15 completions. This course is graded S/U.</p>			
8999	Research for Dissertation (Post-candidacy)	G	1 - 12
<p>Research for dissertation (Post-candidacy). Prereq: Post-candidacy status, and permission of faculty advisor. Repeatable to a maximum of 59 cr hrs or 16 completions. This course is progress graded (S/U).</p>			

Speech and Hearing Science

2194	Group Studies	U	1 - 3
<p>Designed to give groups of students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Not open to students with 5 cr hrs of 294. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.</p>			
2230	Introduction to Communication and Its Disorders	U	3
<p>Survey of the topics, methodologies, and applications of speech and hearing science in normal and aberrant communication; lectures and readings.</p>			
3320	Principles of Phonetics	U	3
<p>Provides articulatory and acoustic descriptions of speech sounds and a comparative study of phonetic transcription systems.</p>			
3330	Language Acquisition	U	3
<p>Introduction to language acquisition in normal children. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.</p>			
3330H	Language Acquisition	U	3
<p>Introduction to language acquisition in normal children. Prereq: Honors standing, or permission of instructor. Not open to students with credit for 3330. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.</p>			
3340	Introduction to the Art and Science of Sound	U	3
<p>Designed to teach the basic principles of acoustics to undergraduate students in the Arts and Sciences who have had little previous experience with math or biological and physical sciences. The student should gain an appreciation of the concepts underlying the generation, transmission and measurement of sound waves traveling through air.</p>			

416 Speech and Hearing Science

3350 Speech-Language Communication Across the Life Span: Issues and Problems in Our Communities U 3

Exploration of the development of communication skills throughout the life span and the consequences of communication disorders for individuals, their families, and their communities. Prereq: Not open to students with credit for 350. GE soc sci indivs and groups course. GE foundation social and behavioral sci course.

3360 Observation in Speech-Language Pathology and Audiology U 3

Observation in appraisal and treatment of communication disorders. Prereq: 2230 (230). Not open to students with credit for 360. This course is graded S/U.

3370S Service Learning in Adult Neurogenics for Speech-Language Pathology U 2

This course involves advancing students' knowledge of disorders resulting from acquired brain injury in adult populations. Students will gain knowledge related to understanding, developing, and utilizing tools to support communication. Through a mutually beneficial community service activity, students will also gain appreciation on the impact a communication disability has on quality of life. Prereq: 2230. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

4420 Anatomy, Physiology and Science of Speech U 3

Anatomy and physiology of the structures involved in speech production and the acoustic characteristics of speech sounds. Prereq: 3320, or equiv course in Phonetics; and Biology 1101, 1102, 1113, 1114, 1113H, or 1114H.

4430 Introduction to Language Science and Language Disorders U 3

Foundational to understanding normal/disordered language development or language altered by neurological disorders is the structure of language and associated cognitive processes. This course will associate the structure of language to principles in the assessment of language/disorders and treatment of language disorders, developmental and acquired, across the life span. Prereq: 2230 (230) or 3330 (330) or equiv, or permission of instructor.

4440 Anatomy, Physiology, and Science of Hearing U 3

The anatomical properties and physiological processes of the system of hearing and balance in humans and the stimulus processing capabilities of the normal auditory system. Prereq: 3340 or equiv; and Biology 1101, 1102, 1113, or 1114; or permission of instructor.

4510 Disability Studies in Context U 3

The history, nature, meaning, and consequences of disability from the differing viewpoints of a range of academic disciplines and professions. Prereq: Not open to students with credit for 510.

4520 Introduction to Clinical Methods in Speech-Language Pathology U 3

Etiology, appraisal, and management of disorders of speech and language in children and adults. Prereq: 3320, 3330, and 4420, or equiv, or permission of instructor.

4530 Introduction to Autism U 3

This course provides an overview of the identification and diagnosis of autism, scientific perspectives on etiology, and the neurobiological underpinnings of autism, as well as treatment components of autism. GE theme health and well-being course.

4540 Introduction to Audiology U 3

The nature, causes, identification, and rehabilitative treatment of persons with hearing disorders. Prereq: 4440 or equiv.

4630 Neuroscience of Speech, Language, and Music U 3

Music and language are integral and universal components of human nature, as proved by their ubiquity across all cultures. This course is designed to offer a general overview of the neuroscience of speech, language, and music, a glimpse of research in this emerging discipline, and a sample of the current and possible applications for the health and well-being of healthy and clinical populations.

4999 Baccalaureate Research and Thesis U 2-10

A program of directed independent study for the academically strong student with an interest in research and the desire to complete a thesis. Prereq: GPA 3.4 or above in SphHrng, and Jr or Sr standing, and permission of the instructor. Not open to students with maximum cr hrs in 4999H or 783H. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

4999H Honors Research and Thesis U 2-10

A program of independent study for the student with special aptitudes; individual conferences and reports, leading to the completion of the Honors thesis. Prereq: SphHrng GPA 3.4 or above, Sr. standing, permission of the instructor and permission of the ASC Honors Committee. Not open to students with 15 qtr cr hrs in 783H. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

5193 Individual Studies U G 1-3

Conference, library, and laboratory work. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

5605 Multicultural Aspects of Communication U G 3

Examination of normal communicative behavior, including development, and the assessment and management of speech-language-hearing disorders of culturally and linguistically diverse populations. Prereq: 3330, Ling 3601, or 3602, or equiv, or permission of instructor.

5732 Introduction to Aural Rehabilitation I U G 3

Assessment and management of communication disorders associated with hearing loss. Prereq: 4540, or permission of instructor.

5741 Voice Disorders and Cleft Palate U G 3

Advanced studies of anatomy and physiology of the vocal tract with clinical emphasis on assessment and treatment of voice disorders, laryngectomy, and cleft lip and/or palate. Prereq: Grad standing in SphHrng or permission of instructor. Not open to students with credit for 741.

5760 Neurology of the Speech and Hearing Mechanism U G 3

The course is to provide you with a survey of the neurological components relevant to the professions of audiology and speech-language pathology. This will involve instruction on the nervous system at the cellular and tissue levels, the peripheral nervous system, the spinal cord, and the brain. Key structures involved in speech, language, and hearing will be discussed. Prereq: Biology 1101 or above.

5785 Research Methods I U G 3

Introduction to research design and data analysis for the hearing and speech sciences. The course is designed to provide training in the areas of quantitative and qualitative data analysis techniques. It is intended to fulfill prerequisites for students who intend to pursue graduate training in clinical speech-language pathology or audiology. Prereq: Stat 1350 or above.

5798 Study Tour U G 1-10

Specific content, location, semester(s) of offering, and prerequisites vary; contact department office for details. Prereq: Permission of instructor. This course is repeatable for different titled study tours only. Repeatable to a maximum of 24 cr hrs or 3 completions. This course is graded S/U.

5860 Augmentative and Alternative Communication for the Multidisciplinary Professional U G 3

This course is designed to provide students with knowledge of augmentative communication/augmentative & alternative communication (AAC). The course will explore the various types of AAC, the procurement process, funding of AAC, and intervention for people with complex communication needs secondary to a variety of diagnoses. Prereq: HthRhSc 5100. Not open to students with credit for HthRhSc 5860. Cross-listed in HthRhSc.

5891 Proseminar in Cognitive Science U G 2

Provides an in-depth examination of cognitive science from an interdisciplinary perspective. Prereq: Permission of instructor. Repeatable to a maximum of 4 cr hrs. Cross-listed in CSE, Ling, Philos, and Psych.

6143 Professional Issues I G 2

Consideration is given to the audiology scope of practice, health privacy issues, and the role of professional organizations. Prereq: Requires acceptance in AuD program. First year AuD students only. Not open to students with credit for 643.01. This course is graded S/U.

6150 The SLPs Role Working with Individuals with Autism G 3

This course is designed to provide students with knowledge in the area of autism by integrating research results with clinical practice. Implications for assessment and treatment for individuals with autism will be discussed. Prereq: Grad standing, and coursework in language development, or permission of instructor.

6170 Clinical and Educational Methods in the Schools G 2

Models, strategies, methodologies, and curriculum involved in planning, implementing, and evaluating team-based instruction for students with communication, language, and learning disabilities. Prereq: Grad standing in SphHrng, or permission of instructor.

6189 Field Experience in the Schools G 4-8

Major practicum experience for students pursuing certification to practice speech/language pathology in schools. Prereq: Grad standing in SphHrng, and permission of instructor. Repeatable to a maximum of 8 cr hrs or 2 completions. This course is graded S/U.

6194 Group Studies G 1-2

Designed to give groups of students an opportunity to pursue advanced studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 7 cr hrs or 7 completions. This course is graded S/U.

6243 Professional Issues II G 2

Discussion centers on ethical practices and licensure issues in audiology. Issues related to counseling, voluntary credentials, and professional advocacy are considered. Prereq: Requires acceptance in AuD program. Not open to students with credit for 643.02. This course is graded S/U.

6466 Normal Swallowing G 2

Students will learn the anatomy and physiology of normal swallowing as well as understand its value to human quality of life.

6705 Audiologic Assessment I G 3

Detailed treatment of the theoretical and practical aspects of standard audiologic assessment. Prereq: Not open to students with credit for 705.

6706 Audiologic Assessment II G 3

Detailed treatment of the theoretical and practical aspects of the physiologic evaluation of the auditory system using immittance and otoacoustic emissions. Prereq: 6705 (705). Not open to students with credit for 706.

Speech and Hearing Science 417

<p>6707 Audiologic Assessment III G 3</p> <p>Study of the techniques involved in the administration and interpretation of electronystagmography, rotation, and posturography assessments. Prereq: 6706 (706). Not open to students with credit for 750.</p>	<p>6771 Counseling in Communication Disorders G 2</p> <p>This course will introduce counseling skills and considerations for individuals and families of individuals with communication disorders across the lifespan. Prereq: 6761, 6762, 6763, and 6764. This course is graded S/U.</p>
<p>6708 Audiologic Assessment IV G 3</p> <p>Detailed treatment of the theoretical and practical aspects of electrophysiologic measures, including electrocochleography, auditory brainstem responses, middle latency responses, and cognitive potentials.</p>	<p>6775 Anatomy and Physiology of the Auditory System G 4</p> <p>The structure, function, and stimulus processing capacities of the ear and central auditory pathways as they relate to performance on tests of auditory function in normal and impaired listeners. Prereq: Not open to students with credit for 775.</p>
<p>6710 Speech Sound Disorders in Children G 3</p> <p>Approaches to understanding the nature and clinical management, especially assessment and treatment, of speech sound disorders in children and youth. Prereq: Grad standing in Speech and Hearing Science, or permission of instructor. Not open to students with credit for 710.</p>	<p>6786 Statistics in Speech and Hearing Science G 3</p> <p>Introduction to descriptive and inferential statistics as they are utilized in speech and hearing science.</p>
<p>6725 Language Acquisition and Early Intervention in Language Delay G 3</p> <p>Development of language in children with an emphasis on the interaction between the development of language and cognition with implications for delay. The emphasis is on children aged zero to five years. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 725.</p>	<p>6843 Practicum in Audiology G 3</p> <p>Students are placed in local audiology clinics to put into practice skills learned in the classroom. Prereq: Successful completion of AuD qualifying examination. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.</p>
<p>6726 Disorders of Language and Literacy: School-Age G 3</p> <p>Assessment and treatment of language disorders in preschool and school-aged children; both norm-referenced and criterion-referenced. The emphasis is on school-aged children.</p>	<p>6844 Practicum in Communication Disorders G 1 - 2</p> <p>Practicum with children and adults having speech, language, or hearing problems. Prereq: Grad standing in Speech and Hearing Science. Repeatable to a maximum of 14 cr hrs or 9 completions. This course is graded S/U.</p>
<p>6733 Adult Audiologic Rehabilitation G 3</p> <p>The impact of hearing loss on social, vocational, and psychological well-being. Treatment options and measures of treatment outcome. Prereq: Not open to students with credit for 733.</p>	<p>6850 Advanced Hearing Science G 4</p> <p>This course is designed to provide beginning graduate students with an understanding of the measurement of stimuli and responses commonly used in clinical and experimental hearing testing. Prereq: Grad standing; or permission of instructor, and approved petition to the Graduate School. Not open to students with credit for 6766 or 6858.</p>
<p>6735 Hearing Aids I G 3</p> <p>The physical and electroacoustic characteristics of hearing aids, including electroacoustic analysis, acoustics of amplification systems, signal processing strategies, and devices used in specialized fittings. Prereq: 6705 (705). Not open to students with credit for 735.</p>	<p>6860 Augmentative and Alternative Communication G 3</p> <p>This course is designed to provide students with knowledge in the areas of augmentative communication/augmentative & alternative communication (AAC). The course will explore the assessment and management of people requiring augmentative & alternative communication secondary to a variety of diagnoses. Prereq: 6725, Grad standing, or permission of instructor.</p>
<p>6739 Voice Disorders G 2</p> <p>This course is designed to provide advanced studies of anatomy and physiology of the voice production mechanism and clinical management of voice disorders for the students in the singing health specialization program.</p>	<p>6990 Capstone Experience in Speech-Language Pathology G 1</p> <p>This course provides students with an opportunity to consolidate their clinical and theoretical education by applying the principles of evidence-based practice to a clinical case or topic within their specialization. This course is graded S/U.</p>
<p>6740 Fluency: Theory and Treatment G 3</p> <p>Theories, principles, and procedures for the appraisal and treatment of persons with dysfluencies in speech. Prereq: Grad standing in SphHrng, or permission of instructor. Not open to students with credit for 740.</p>	<p>7143 Clinical Seminar in Hearing Disorders: Hearing Aid Applications G 1</p> <p>Readings and discussion of topics pertinent to the assessment and treatment of hearing disorders. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 743. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.</p>
<p>6751 Clinical Seminar in Speech and Language Disorders I G 1</p> <p>Lectures, discussions and labs covering the fundamentals of treatment design and case management for Speech-Language Disorders. This course is graded S/U.</p>	<p>7193 Directed Doctoral Studies G 1 - 6</p> <p>Directed, individualized areas of study for doctoral students in either the laboratory or clinical research tracks; conference, library, clinic and/or laboratory involvement. Prereq: Doctoral standing in SphHrng, or permission of instructor. Repeatable to a maximum of 30 cr hrs or 20 completions. This course is graded S/U.</p>
<p>6752 Clinical Seminar in Speech and Language Disorders II G 1</p> <p>Lectures, discussions and labs covering the fundamentals of treatment design and case management for Speech-Language Disorders. This course is graded S/U.</p>	<p>7243 Clinical Seminar in Hearing Disorders: Ethics & Evidence Based Practice G 1</p> <p>Readings and discussion of topics pertinent to the assessment and treatment of hearing disorders. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 743. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.</p>
<p>6753 Clinical Seminar in Speech and Language Disorders III G 1</p> <p>Lectures, discussions and labs covering the fundamentals of treatment design and case management for Speech-Language Disorders. Prereq: 6752. This course is graded S/U.</p>	<p>7343 Clinical Seminar in Hearing Disorders: Counseling and Report Writing G 1</p> <p>Readings and discussion of topics pertinent to the assessment and treatment of hearing disorders. Prereq: Grad standing; or permission of instructor. Repeatable to a maximum of 2 cr hrs or 2 completions. This course is graded S/U. Not open to students with credit for 743.</p>
<p>6754 Clinical Seminar in Speech and Language Disorders IV G 1</p> <p>Lectures, discussions and labs covering the fundamentals of treatment design and case management for Speech-Language Disorders. This course is graded S/U.</p>	<p>7717 Interdisciplinary Perspective on Developmental Disabilities G 3</p> <p>Provides an introduction to the psychosocial, medical, and educational implications of developmental disabilities. Prereq: Permission of instructor. Not open to students with credit for 717.01 or 717.03. Cross-listed in HthRhSc, EducSt, SocWork, Nursing, and Psych.</p>
<p>6755 Clinical Seminar in Speech and Language Disorders V G 2</p> <p>Lectures, discussions and labs covering the fundamentals of treatment design and case management for Speech-Language Disorders. Prereq: 6754. This course is graded S/U.</p>	<p>7718 Interdisciplinary Perspective on Autism Spectrum Disorders G 3</p> <p>Teaches the analytical skills necessary to comprehend and formulate an interdisciplinary framework relating to major scientific and theoretical perspectives in autism spectrum disorders. Prereq: Permission of instructor. Not open to students with credit for 717.01 and 717.02. Cross-listed in HthRhSc, EducSt, SocWork, Nursing, and Psych.</p>
<p>6761 Cognitive Communication Disorders in Adults G 3</p> <p>Impairments in communication due to neurologically related changes in cognition. Pertinent topics include traumatic brain injury, dementia and right hemisphere disorder. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 762 or 763.</p>	<p>7742 Advanced Clinical Seminar in Speech and Language Disorders G 1</p> <p>Readings and discussion of topics pertinent to the assessment and treatment of speech and language disorders and to preparation for the professional life in Speech-Language Pathology. Prereq: 6751, 6752, 6753, and 6754; and Grad standing in SphHrng. Repeatable to a maximum of 5 cr hrs. This course is graded S/U.</p>
<p>6762 Language Disorders in Adults G 3</p> <p>Language disorders resulting from neurological pathology in adults. Prereq: Grad standing, or permission of instructor and approved petition to the Graduate School.</p>	<p>7805 Pediatric Audiology I G 3</p> <p>Etiology and assessment of hearing loss in children. Prereq: 6707 or 707. Not open to students with credit for 805.</p>
<p>6763 Motor Speech Disorders G 3</p> <p>Speech disorders resulting from neurological pathology in adults. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 762.</p>	
<p>6764 Evaluation and Treatment of Dysphagia in Adults and Children G 3</p> <p>The role of the speech-language pathologist in assessment and treatment of swallowing disorders in children and adults.</p>	
<p>6770 Topics in Pediatric Medical Speech-Language Pathology G 2</p> <p>Introduction to specialty topics related to complex pediatric medical conditions and their relevance to speech-language pathologists in all clinical settings. Prereq: 6761, 6762, 6763, and 6764.</p>	

418 Speech and Hearing Science

7806	Adult Hearing Disorders	G	3
The nature, diagnosis, and treatment recommendations of adult hearing disorders. Prereq: 5705, 6706, 6707, or equiv. Not open to students with credit for 806.			
7807	Pediatric Audiology II	G	4
The aural rehabilitation process in children, educational policy for children with hearing loss, and assessment and treatment of children with central auditory processing disorders. Prereq: 6735, 7805, 7835. Not open to students with credit for 807.			
7825	Speech Perception in the Normal and Impaired Ear	G	3
This course is a graduate seminar-format course in speech and hearing science. We will discuss the auditory processing of speech sounds and examine the ramifications of hearing loss and cochlear implantation on this processing. Prereq: Grad standing in SphHrng, or permission of instructor. Not open to students with credit for 820.			
7835	Hearing Aids II	G	3
The selection and fitting of amplification devices and the verification of patient outcomes. Prereq: 6735. Not open to students with credit for 835.			
7843	Advanced Practicum in Audiology	G	3
Students are placed in local audiology clinics, medical practices, and medical centers to put into practice skills learned in the classroom. Prereq: Satisfactory completion of second year of AuD program. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.			
7844	Advanced Practicum in Communication Disorders	G	1 - 8
Advanced practicum with children and adults who have speech, language, or hearing problems. Prereq: Grad standing in SphHrng. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.			
7891	Clinical Seminar in Hearing Disorders: Resumes & Interviewing	G	1
Readings and discussion of topics pertinent to the assessment and treatment of hearing disorders with particular emphasis on preparing for professional practice. Prereq: Grad standing; or permission of instructor. This course is graded S/U. Not open to students with credit for 743.			
7999	Research in Speech and Hearing Science: Thesis	G	1 - 12
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 6 completions. This course is graded S/U.			
8193	Directed Doctoral Studies	G	1 - 6
Directed, individualized areas of study for doctoral students in either the laboratory or clinical research tracks: conference, library, clinic, and/or laboratory involvement. Prereq: Doctoral standing in SphHrng, or permission of instructor. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.			
8900	Doctoral Proseminar in Speech and Hearing Science	G	1
Advanced studies in speech and hearing science to acquaint doctoral students with departmental research, to pose possible dissertation topics, and to improve research/design skills. Prereq: Doct standing and permission of instructor. Repeatable to a maximum of 4 cr hrs or 4 completions. This course is graded S/U.			
8931	Cochlear Implants	G	3
Cochlear implant components and functions. Patient candidacy, implant programming, and rehabilitation procedures. Prereq: Grad standing; or permission of instructor.			
8933	Tinnitus	G	2
Potential physiologic causes of tinnitus and hyperacusis; options for assessment and treatment of the disorders. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 930.03.			
8934	Hearing Conservation	G	2
The effect of noise on hearing, physiological and psychological function, productivity, and communication; federal and state regulations reviewed and effects on communities discussed. Prereq: Grad standing; or permission of instructor. Not open to students with credit for 930.05			
8935	Research to Practice	G	3
A seminar course designed to provide audiology and hearing science students with an opportunity to read and discuss recent journal articles relevant to the practice of audiology. In addition, this course is designed to provide an opportunity for audiology and hearing science students to improve their ability to conduct grand round discussions on audiological cases. Prereq: Grad standing. Repeatable to a maximum of 9 cr hrs.			
8936	Practice Management in Audiology	G	2
This course will address issues associated with the business aspect of the profession of audiology including development of a business plan, basic accounting, marketing, and management of personnel. This course is intended to help students understand and prepare for their future as an audiologist from a business and financial perspective.			
8940	Advanced Studies in Speech and Hearing Science	G	2
Advanced studies in speech and hearing science to provide doctoral students with special opportunities in advanced areas of speech and hearing science and disorders. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 10 completions. Not open to students with 44 qtr cr hrs for 940.			

8943	Externship	G	3
Students are placed in clinical sites for extended periods to solidify clinical skills and gain experience in the day to day workings of an audiology practice. Prereq: Completion of AuD curriculum with exceptions of 8943 and 8997. Repeatable to a maximum of 12 cr hrs. This course is graded S/U.			
8950	Seminar in Speech and Hearing Science	G	2
Advanced seminars in speech and hearing science and disorders. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 15 completions. Not open to students with 44 qtr cr hrs for 950.			
8997	Capstone Project	G	1 - 5
Students complete clinical or research-centered project depending on their career interests. Prereq: Completion of first two years' curriculum in AuD program or permission of academic adviser. Repeatable to a maximum of 14 cr hrs or 9 completions. This course is graded S/U.			
8998	Research in Speech and Hearing Science: Thesis	G	1 - 12
Research for thesis purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 5 completions. This course is graded S/U.			
8999	Research in Speech and Hearing Science: Dissertation	G	1 - 12
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 60 cr hrs or 20 completions. This course is graded S/U.			

Statistics

1350.01	Elementary Statistics	U	3
Introduction to probability and statistics, experiments, and sampling, data analysis and interpretation. Prereq: Math 1050, or Math Placement Level S, or permission of instructor. Not open to students with credit for GE Data Analysis course (AED/Econ 2005, AnimSci 2260, Astron 3350, Chem 2210, 2210H, ComLdr 3537, EarthSc 2245, Econ 3400, ENR 2000, Geog 2200.01, 2200.02, HCS 2260, IntStds 3400, Ling 2051, 2051H, Philos 1520, Physics 3700, PolitSc 3780, 4781, Sociol 3549, Stat 1350, 1350.01, 1430, 1430.01, 1430.02, 1430H, 1450, 1450.01, 1450.02, 2450, 2450.01, 2450.02, 2480, 2480.01, 2480.02, 3450, 3450.01, 3450.02, 3460, 3470, 3470.01, 3470.02, 4202, 5301, or 5302). GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
1350.02	Elementary Statistics	U	3
Introduction to probability and statistics, experiments, and sampling, data analysis and interpretation. Offered online. Prereq: Math 1050, or Math Placement Level S, or permission of instructor. Not open to students with credit for GE Data Analysis course (AED/Econ 2005, AnimSci 2260, Astron 3350, Chem 2210, 2210H, ComLdr 3537, EarthSc 2245, Econ 3400, ENR 2000, Geog 2200.01, 2200.02, HCS 2260, IntStds 3400, Ling 2051, 2051H, Philos 1520, Physics 3700, PolitSc 3780, 4781, Sociol 3549, Stat 1350, 1350.01, 1430, 1430.01, 1430.02, 1430H, 1450, 1450.01, 1450.02, 2450, 2450.01, 2450.02, 2480, 2480.01, 2480.02, 3450, 3450.01, 3450.02, 3460, 3470, 3470.01, 3470.02, 4202, 5301, or 5302). GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
1430.01	Statistics for the Business Sciences	U	4
Fundamentals of probability and statistics: Data collection and summaries, random variables, simple linear regression, two-way tables, conditional probability, sampling distributions, confidence intervals, hypothesis tests, analysis of variance. In-person recitation. Prereq: Math 1131, 1141, 1151, 1156, 1161.xx, or 1181H, or permission of instructor. Not open to students with credit for 1430, 1430.02, or BusMgt 2320. GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
1430.02	Statistics for the Business Sciences	U	4
Fundamentals of probability and statistics: Data collection and summaries, random variables, simple linear regression, two-way tables, conditional probability, sampling distributions, confidence intervals, hypothesis tests, analysis of variance. Partly or fully offered online. Prereq: Math 1131, 1141, 1151, 1156, 1161.xx, or 1181H, or permission of instructor. Not open to students with credit for 1430, 1430.01, or BusMgt 2320. GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
1430H	Statistics for the Business Sciences	U	4
Calculus-based fundamentals of probability and statistics: Data collection and summaries, random variables, simple linear regression, two-way tables, conditional probability, sampling distributions, confidence intervals, hypothesis tests, ANOVA. Prereq: Honors standing, and Math 1131, 1151, 1156, 1161.xx, or 1181H; or permission of instructor. Not open to students with credit for 1430 or BusMgt 2320. GE data anyl course. GE foundation math and quant reasoning or data anyl course.			
1450.01	Introduction to the Practice of Statistics	U	3
Algebra-based introduction to data analysis, experimental design, sampling, probability, inference, and linear regression. Emphasis on applications, statistical reasoning, and data analysis using statistical software. Prereq: Math 1116 or 1130 or above, or Math Placement Level L or M, or permission of instructor. Not open to students with credit for 1450, 1450.02, 2450, 2450.01, 2450.02, 2480, 2480.01, or 2480.02. GE data anyl course. GE foundation math and quant reasoning or data anyl course.			

1450.02 Introduction to the Practice of Statistics U 3

Algebra-based introduction to data analysis, experimental design, sampling, probability, inference, and linear regression. Emphasis on applications, statistical reasoning, and data analysis using statistical software. Offered online. Prereq: Math 1116 or 1130 or above, or Math Placement Level L or M, or permission of instructor. Not open to students with credit for 1450, 1450.01, 2450, 2450.01, 2450.02, 2480, 2480.01, or 2480.02. GE data any course. GE foundation math and quant reasoning or data any course.

1550 Introduction to Statistical Reasoning U 3

Introduction to statistical reasoning through data and application examples, including an introduction to coding in the R software; intended for students considering the Statistics major. Prereq or concur: Math 1152, or permission of instructor. GE data any course.

2450.01 Introduction to Statistical Analysis I U 3

Calculus-based introduction to statistical data analysis. Includes sampling, experimental design, probability, binomial and normal distributions, sampling distributions, inference, regression, ANOVA, two-way tables. Prereq: Math 1131, 1141, 1151, 1156, 1161.xx, or 1181H, or equiv, or permission of instructor. Not open to students with credit for 2450, 2450.02, 2480, 2480.01, 2480.02, or 3202. GE data any course. GE foundation math and quant reasoning or data any course.

2450.02 Introduction to Statistical Analysis I U 3

Calculus-based introduction to statistical data analysis. Includes sampling, experimental design, probability, binomial and normal distributions, sampling distributions, inference, regression, ANOVA, two-way tables. Offered online. Prereq: Math 1131, 1141, 1151, 1156, 1161.xx, or 1181H, or equiv, or permission of instructor. Not open to students with credit for 2450, 2450.01, 2480, 2480.01, 2480.02, or 3202. GE data any course. GE foundation math and quant reasoning or data any course.

2480.01 Statistics for the Life Sciences U 3

Calculus-based introduction to the statistical analysis of biological data, including probability, common discrete and continuous distributions, experimental design, hypothesis testing, linear regression and correlation. Prereq: Math 1131, 1141, 1151, 1156, 1161.xx, or 1181H, or equiv, or permission of instructor. Not open to students with credit for 2450, 2450.01, 2450.02, 2480, 2480.02, or 3202. GE data any course. GE foundation math and quant reasoning or data any course.

2480.02 Statistics for the Life Sciences U 3

Calculus-based introduction to the statistical analysis of biological data, including probability, common discrete and continuous distributions, experimental design, hypothesis testing, linear regression and correlation. Offered online. Prereq: Math 1131, 1141, 1151, 1156, 1161.xx, or 1181H, or equiv, or permission of instructor. Not open to students with credit for 2450, 2450.01, 2450.02, 2480, 2480.01, or 3202. GE data any course. GE foundation math and quant reasoning or data any course.

2510.01 Statistics in the Sports World U 2

Ask and answer questions, debate issues and analyze data from your favorite sports using statistics. Statistical techniques include contingency tables, regression, estimation, confidence levels, testing. Cannot be used to replace a GE data any course. Prereq: One GE data any course, or equiv, or permission of instructor. Not open to students with credit for 201.01.

3201 Introduction to Probability for Data Analytics U 3

An introduction to probability and its role in statistical methods for data analytics. Equal emphasis is placed on analytical and simulation-based methods for quantifying uncertainty. Approaches to assessing the accuracy of simulation methods are discussed. Applications of probability and sampling to big-data settings are discussed. Prereq: Math 1152, 1161.xx, 1172, 1181, or equiv, or permission of instructor. Not open to students with credit for 4201 or Math 4530.

3202 Introduction to Statistical Inference for Data Analytics U 4

Foundational inferential methods for learning about populations from samples, including point and interval estimation, and the formulation and testing of hypotheses. Statistical theory is introduced to justify the approaches. The course emphasizes challenges that arise when applying classical ideas to big data, partially through the use of computational and simulation techniques. Prereq: C- or better in 3201, or permission of instructor. Not open to students with credit for 4202.

3301 Statistical Modeling for Discovery I U 3

Statistical models for data analysis in the linear regression framework. The challenges of developing meaningful models for data are explored, with emphasis on the model building process, the use of numerical and graphical diagnostics for assessing model fit, and interpretation and communication of results. Statistical foundations are introduced along with basic inferential techniques. Prereq: C- or above in 3202; or 4202 and 5730; or permission of instructor. Prereq or concur: Math 2568, or permission of instructor.

3302 Statistical Modeling for Discovery II U 3

This course investigates advanced statistical models for data analysis. The regression methods developed in Stat 3301 are extended to data settings with binary and multi-category outcomes. Commonly used statistical methods for exploring and analyzing multivariate data are introduced. Interpretation and communication of the results of analyses is emphasized. Prereq: C- or above in 3301, and Math 2568 or 5520H; or permission of instructor.

3303 Bayesian Analysis and Statistical Decision Making U 3

Introduction to concepts and methods for making decisions in the presence of uncertainty. Topics include: formulation of decision problems and quantification of their components; learning about unknown features of a decision problem based on data via Bayesian analysis; characterizing and finding optimal decisions. Techniques and computational methods for practical implementation are presented. Prereq: C- or above in 3301, or permission of instructor.

3410 Principles of Data Collection and Analysis U 3

Principles of designing experiments; analysis of variance techniques for hypothesis testing; simultaneous confidence intervals; block designs; factorial experiments; random effects and mixed models; observational data. Prereq: 3202; or 4202 and 5730; or permission of instructor.

3440 Statistics in Quality U 3

Descriptive statistics; introduction to probability; Bayes theorem; discrete and continuous random variables, expected value, probability distributions; interval estimation for means and proportions; hypotheses tests for means and proportions; least squares regression; one- and two-way anova; control charts; process capability indices. Prereq: Math 1152, 1154, 1155, 1161.xx, 1172, or equiv, or permission of instructor. Not open to students with credit for 3450, 3450.01, 3450.02, 3460, 3470, 3470.01 or 3470.02.

3450.01 Basic Statistics for Engineers U 2

Introduction to probability; Normal distribution; Confidence intervals for means; Hypothesis tests for means; Multi-factor experiments; Experiments with blocking. Prereq: Math 1152, 1161.xx, 1172, or 1181, or equiv, or permission of instructor. Not open to students with credit for 3440, 3450, 3450.02, 3460, 3470, 3470.01, or 3470.02. GE data any course. GE foundation math and quant reasoning or data any course.

3450.02 Basic Statistics for Engineers U 2

Introduction to probability; Normal distribution; Confidence intervals for means; Hypothesis tests for means; Multi-factor experiments; Experiments with blocking. Offered online. Prereq: Math 1152, 1161.xx, 1172, or 1181, or equiv, or permission of instructor. Not open to students with credit for 3440, 3450, 3450.01, 3460, 3470, 3470.01, or 3470.02. GE data any course. GE foundation math and quant reasoning or data any course.

3460 Principles of Statistics for Engineers U 3

Introduction to probability, random variables, distributions, expected values; confidence intervals; paired and unpaired t-tests; linear regression; analysis of variance; blocked experiments; fractional factorial experiments; quality control charts. Prereq: Math 1152, 1161.xx, 1172, 1181H, 153, or 254, or equiv, or permission of instructor. Not open to students with credit for 3450, 3470, 427, or 428. GE data any course. GE foundation math and quant reasoning or data any course.

3470.01 Introduction to Probability and Statistics for Engineers U 3

Introduction to probability, Bayes theorem; discrete and continuous random variables, expected value, probability distributions; point and interval estimation; hypotheses tests for means and proportions; least squares regression. Prereq: Math 1152, 1161.xx, 1172, 1181H, or equiv, or permission of instructor. Not open to students with credit for 3440, 3450, 3450.01, 3450.02, 3460, 3470, or 3470.02. GE data any course. GE foundation math and quant reasoning or data any course.

3470.02 Introduction to Probability and Statistics for Engineers U 3

Introduction to probability, Bayes theorem; discrete and continuous random variables, expected value, probability distributions; point and interval estimation; hypotheses tests for means and proportions; least squares regression. Offered online. Prereq: Math 1152, 1161.xx, 1172, 1181H, or equiv, or permission of instructor. Not open to students with credit for 3440, 3450, 3450.01, 3450.02, 3460, 3470, or 3470.01. GE data any course. GE foundation math and quant reasoning or data any course.

4193 Individual Studies U 1 - 3

Individual conferences, assigned readings, and reports on minor investigations. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 5 completions. This course is graded S/U.

4193H Honors Individual Studies in Undergraduate Topics in Statistics U 1 - 4

Individual conferences, assigned readings, and reports on minor investigations in undergraduate topics in Statistics (At honors level). Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

4194 Group Studies U 1 - 5

Designed to give groups of students an opportunity to pursue special studies not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

4201 Introduction to Mathematical Statistics I U 4

Basic concepts in mathematical statistics, including probability, discrete and continuous distributions and densities, mathematical expectation, functions of random variables, transformation techniques, sampling distributions, order statistics. Prereq: C- or better in Math 2153, 2162.xx, 2182H, or 4182H, or permission of instructor. Not open to students with credit for 3201, 4202, 6201, 6301, 6801, Math 4530 or 5530H.

420 Statistics

4202 Introduction to Mathematical Statistics II U 4

Decision theory, point and interval estimation, Neyman-Pearson lemma, likelihood ratio tests, tests for means, variances, and proportions, nonparametric tests, regression, and ANOVA. Prereq: C- or better in 4201, Math 4530, or 5530H, or permission of instructor. Not open to students with credit for 3202, 6201, 6302, or 6802. GE data any course. GE foundation math and quant reasoning or data any course.

4301 Advanced Statistical Inference U 3

Advanced probability models and fundamentals of inferential procedures; distribution functions, moment generating functions, transformations, order statistics, large-sample theory, classical hypothesis testing, distribution-free hypothesis tests. Prereq: 3201 and 3202, or 4201 and 4202; and Math 2153; or permission of instructor.

4302 Computational Statistics U 3

Topics in computational statistics using the R software, including design and execution of classical and modern Monte Carlo experiments, and statistical inference based on resampling methods, such as bootstrap, jackknife, and permutation. Prereq: 3301 and 4301, or permission of instructor.

4620 Introduction to Statistical Learning U 2

The course provides an introduction to the principles of statistical learning and standard learning techniques for regression, classification, clustering, dimensionality reduction, and feature extraction. Prereq: C- or better in 3302, or permission of instructor.

4690 Undergraduate Topics in Statistics U 1 - 4

Various topics in Statistics and Data Analysis that are relevant to an undergraduate audience. Topics vary per offering. Repeatable to a maximum of 12 cr hrs or 3 completions.

4911 Data Analytics Capstone U 4

A teamwork-based synthesis of the Data Analytics major curriculum through the analysis of data supplied by a partnering institution. Prepares students for the complexity of data analysis they will encounter outside of the university in a mentored setting. Prereq: 4620, or permission of instructor.

4998 Undergraduate Research in Statistics U 1 - 5

Designed to give undergraduates experience in carrying out statistics research. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.

4999 Undergraduate Thesis Research in Statistics U 1 - 5

Designed to give undergraduates experience in carrying out statistics research. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.

4999H Undergraduate Honors Thesis Research in Statistics U 1 - 5

Designed to give undergraduates experience in carrying out statistics research. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.

5301 Intermediate Data Analysis I U G 4

The first course in a two-semester non-calculus sequence in data analysis covering descriptive statistics, design of experiments, probability, statistical inference, one-sample t, goodness of fit, two sample problem, and one-way ANOVA. Prereq: Math 1075 or equiv, or Math Placement Level of R, or permission of instructor. Not open to students with credit for 5302. GE data any course. GE foundation math and quant reasoning or data any course.

5302 Intermediate Data Analysis II U G 3

The second course in a two-semester sequence in data analysis covering simple linear regression (inference, model diagnostics), multiple regression models, variable selection, model selection, two-way ANOVA, mixed effects model. Prereq: 5301, or permission of instructor. GE data any course. GE foundation math and quant reasoning or data any course.

5510 Statistical Foundations of Survey Research U G 3

Understand and practice methods of survey research and data analysis including questionnaire design and pilot testing, non-sampling and sampling errors, sampling design, descriptive statistics, estimation, and hypothesis testing; and ethics. Prereq: 1350 (135), 1450 (145), or 5301 (528), and Math 1075 (104), or equiv, or permission of instructor. Not open to students with credit for 6510 (651) or 551.

5550 Introductory Time Series Analysis U G 3

Introduces the statistical methodology and models to analyze time series data in practice. Prereq: 3301; or 4202 and 5302; or permission of instructor. Not open to students with credit for 6550 (635) or 7550.

5730 Introduction to R for Data Science U G 2

Introduces underlying concepts of the R programming language and R package ecosystem for manipulation, visualization, and modeling of data, and for communicating the results of and enabling replication of their analyses. Prereq: 1350, 1350.01, 1350.02, 1450, 1450.01, 1450.02, 1550, 2450, 2450.01, 2450.02, 2480, 2480.01, 2480.02, 3201, 3202, 3450, 3450.01, 3450.02, 3460, 3470, 3470.01, 3470.02, 4202, 5301, or 5302, or equiv., or permission of instructor.

5740 Introduction to SAS Software U G 2

The basic statistical procedures covered will be illustrated using SAS. The intent of the course is to cover some of the SAS statistical methods that graduate students from outside the Statistics Department require for their own research. Prereq: 3202 or 4202 or 5301, or permission of instructor.

5760 Statistical Consulting Support from the SCS U G 3

Graduate or undergraduate students enrolled in this course will work with a graduate student consultant employed by the Statistical Consulting Service for the purpose of making progress on their thesis or dissertation. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.

6040 Mentored Teaching Experience in Statistics G 2

The application of best pedagogical practices in selected statistics teaching experiences. A supervised teaching component is included. Prereq: Grad standing in Statistics or Biostatistics, and permission of instructor. Not open to students with credit for 604. This course is graded S/U.

6111 Foundations of Statistical Theory I G 3

This is the first part of a course that reviews and introduces the mathematical foundations that are necessary for the coursework in the PhD programs in statistics and biostatistics and the statistics MS program, focusing on using mathematical tools for statistical analysis. Prereq: Grad standing in the Statistics MS program, Statistics PhD program, or Interdisciplinary Biostatistics PhD program; or permission of instructor.

6112 Foundations of Statistical Theory II G 3

This is the second part of a course that reviews and introduces the mathematical foundations that are necessary for the coursework in the PhD programs in statistics and biostatistics and the statistics MS program, focusing on using mathematical tools for statistical analysis. Prereq: Grad standing in the Statistics MS program, Statistics PhD program, or Interdisciplinary Biostatistics PhD program; or permission of instructor.

6193 Individual Studies in Foundational Graduate Topics in Statistics G 1 - 4

Individual conferences, assigned readings, and reports on minor investigations in foundational graduate topics in Statistics. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

6194 Group Studies in Foundational Graduate Topics in Statistics G 1 - 5

Designed to give groups of students an opportunity to pursue special studies in foundational graduate topics in Statistics not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 3 completions. This course is graded S/U.

6201 Mathematical Statistics G 4

Probability, random variables, expectation, moment generating functions, discrete and continuous distributions, limit theorems, maximum likelihood and Bayesian estimation, confidence intervals, hypothesis tests, Neyman-Pearson lemma, t and F tests. Prereq: Math 2153 or equiv, or permission of instructor. Not open to students with credit for 6301 or 6801.

6301 Probability for Statistical Inference G 3

Introduction to probability, random variables, and distribution theory; intended primarily for students in MAS degree program. Prereq: Math 4547 (548), or permission of instructor. Not open to students with credit for 6801 (620 or 621), Math 4530 (530), or 5530H (531).

6302 Theory of Statistical Analysis G 3

Estimation, hypothesis tests, best tests, likelihood ratio tests, confidence sets, sufficiency, efficient estimators; intended primarily for students in the MAS degree program. Prereq: 6301 (610) or 6801 (620), or permission of instructor. Not open to students with credit for 6802 (621, 622, or 623).

6410 Design and Analysis of Experiments G 4

Principles of designing experiments; analysis of variance techniques for hypothesis testing, simultaneous confidence intervals; block designs, factorial experiments, random effects and mixed models, split plot designs, response surface design. Prereq: 6201 (521), 6302 (623), or 6802 (622), and 6450 (645) or 6950; or permission of instructor. Not open to students with credit for 6910 (641).

6450 Applied Regression Analysis G 4

Simple and multiple linear regression, diagnostics, model selection, models with categorical variables. Prereq: 6201, or equiv, or permission of instructor. Not open to students with credit for 6950.

6500 Statistical Machine Learning G 3

Statistical models and algorithms for supervised and unsupervised learning; linear and logistic regression; classification and LDA; cross-validation and bootstrap; variable selection; ridge and LASSO penalization; smoothing splines and GAMs; SVM and kernels; CART and random forests; bagging; boosting; feed-forward and convolutional neural networks; k-means clustering and Gaussian mixtures; PCA. Prereq: 6450, or permission of instructor. Not open to students with credit for 7620.

6510 Survey Sampling Methods G 3

Sampling from finite populations, simple random, stratified, systematic and cluster sampling design, ratio and regression estimates, non-sampling errors, models. Prereq: 5301 (529) or PubHBio 6212 (703), or equiv. Not open to students with credit for 651 or PubHBio 7225 (651). Cross-listed in PubHBio 7225.

6520 Applied Statistical Analysis with Missing Data G 3

Models and methods for the dataset with missing values, including imputation, likelihood-based, and Bayesian models. Prereq: 6201, 6302 (623), or 6802 (622), and 6450 (645), 6950, PubHBio 6203, or 703; or permission of instructor. Not open to students with credit for 6520 (652) or PubHBio 7240 (652). Cross-listed in PubHBio 7240.

<p>6530 Introduction to Spatial Statistics G 2</p> <p>Provides an introduction to spatial statistical methods based on the viewpoint that spatial data are a realization from a random process. Prereq: 6450 (645), 6950, or Geog 883.02, or permission of instructor. Not open to students with credit for 8530 (829) or 631.</p> <p>6540 Applied Stochastic Processes G 3</p> <p>An introduction to some of the most commonly encountered stochastic processes. Goals include understanding basic theory as well as applications. Students should be familiar with basic probability, including conditional probability and expectation. Prereq: 6301 (610) or equiv, or permission of instructor. Not open to students with credit for 632.</p> <p>6550 The Statistical Analysis of Time Series G 2</p> <p>To develop knowledge of time series processes, modeling (identification, estimation, and diagnostics), and forecasting methods. Experience is gained in the statistical theory so as to be able to analyze time series data in practice. Prereq: 6201, 6302, or 6802, and 6450 or 6950; or permission of instructor.</p> <p>6560 Applied Multivariate Analysis G 3</p> <p>An introduction to classical multivariate statistical methods based on the multivariate normal distribution. Sufficient matrix algebra will be covered to enable students to understand multivariate methods using matrix notation. Prereq: 6450 (645) or 6950, or equiv, or Math 2568 (568), or equiv, or permission of instructor. Not open to students with credit for 656.</p> <p>6570 Applied Bayesian Analysis G 2</p> <p>Introduces various aspects of Bayesian modeling (including conditionally specified models and models for non-normal data) and simulation-based model-fitting strategies. Prereq: 6301 (610) or 6801 (621 and 622), or permission of instructor. Prereq or concur: 6450 (645) or 6950, and 6302 (623) [with 6301 prerequisite] or 6802 [with 6801 prerequisite]; or permission of instructor. Not open to students with credit for 625.</p> <p>6605 Applied Survival Analysis G 3</p> <p>Introduction to time-to-event data analysis. Topics include summary statistics, non-parametric methods, semiparametric and parametric models, and competing risks analysis. Focus is on analysis of health data using statistical software. Prereq: 6450, 6950, or PubHBio 6211. Not open to students with credit for 6605 or PubHBio 7235. Cross-listed in PubHBio 7235.</p> <p>6610 Applied Nonparametric Statistics G 3</p> <p>Noncalculus treatment of nonparametric tests, confidence intervals, estimation; topics include one- and two-sample problems, one- and two-way analysis of variance, multiple comparisons, correlation. Prereq: 5301, 6201, or 6302, or equiv, or permission of instructor.</p> <p>6620 Environmental Statistics G 2</p> <p>Survey of statistical methods for environmental data, with a focus on applications. Topics include sampling, regression, censoring, risk analysis, bioassay, time series, spatial statistics, and environmental extremes. Prereq: 5302 (529) or 6450 (645) or 6910 or Geog 683.xx or 833.01; prereq or concur: Stat 6910; or permission of instructor. Not open to students with credit for 662.</p> <p>6625 Statistical Analysis of Genetic Data G 3</p> <p>Introduction to Mendelian principles, genetic epidemiology, and molecular genetics; family studies; model-based and model-free linkage analysis for mapping disease genes; genome wide association studies; association analysis using haplotypes. Prereq: 6301 (610) and 6302 (623), or permission of instructor.</p> <p>6650 Discrete Data Analysis G 2</p> <p>Two-by-two tables; cross-sectional, prospective, and retrospective studies; measures and tests of association; log linear models; association graphs; analysis of stratified tables. Prereq: 5302 (530), 6450 (645), 6950, PubHBio 6203, or 703, or permission of instructor. Not open to students with credit for 665.</p> <p>6730 Introduction to Computational Statistics G 2</p> <p>Introduction to computational statistics. Students will learn how to manipulate data, perform statistical analyses, perform simple Monte Carlo experiments, use resampling methods and discuss the results obtained from their analyses. Prereq: 6301 (610), 6302 (623), and 6410 (641) or 6910, and 6450 (645) or 6950; or permission of instructor. Not open to students with credit for 673.</p> <p>6740 Data Management and Graphics for Statistical Analyses G 3</p> <p>Data manipulation for statistical analyses, missing data calculations, merging and transporting data sets, formatting data analysis results, using relational databases and SQL, character data, graphical presentation of data, and macro programming. No prior knowledge of SAS programming is required. Prereq: Not open to students with credit for 5740.</p> <p>6750 Statistical Consulting and Collaboration G 2</p> <p>Role of the statistician as both consultant and collaborator; enhancement of analytical and communication skills; structuring working engagements; introduction to consulting-specific technical skills; experience working on consulting projects. Prereq: 6450 (645) or 6950, or permission of instructor. Not open to students with credit for 600 or 601. This course is graded S/U.</p> <p>6801 Statistical Theory I G 4</p> <p>Introduction to probability, random variables, distribution theory and principles of inference. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Not open to students with credit for 6301 (610) or 620.</p>	<p>6802 Statistical Theory II G 4</p> <p>Introduction to statistical inference: Estimation, hypothesis testing, confidence intervals, and decision theory. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 6801, or permission of instructor. Not open to students with credit for 622.</p> <p>6860 Foundations of the Linear Model G 2</p> <p>Linear models; Least squares estimates; Multivariate normal distribution; Maximum likelihood estimators; Covariance matrices, information matrices; Quadratic forms; Principal components; Orthogonal polynomial regression; Non-central distributions. Prereq: Math 2568 (568) or equiv, or permission of instructor. Concur: 6802. Not open to students with credit for 742.</p> <p>6910 Applied Statistics II G 4</p> <p>Categorical data and inference for proportions, binomial and Poisson regression, analysis of variance, analysis of covariance, experimental designs, the mixed model. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 6801, and 6950; or permission of instructor. Not open to students with credit for 6410.</p> <p>6950 Applied Statistics I G 4</p> <p>One and two-sample problems, exploratory data analysis, simple and multiple linear regression, diagnostics and model selection. Intended primarily for students in the PhD program in Statistics or Biostatistics. Coreq: Stat 6801, or permission of instructor. Not open to students with credit for 6450.</p> <p>6998 Research in Foundational Graduate Topics in Statistics G 1 - 5</p> <p>Research topics in foundational graduate topics in Statistics. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs or 6 completions. This course is graded S/U.</p> <p>7201 Theory of Probability G 3</p> <p>Measure and integration, random variables, independence, integration and expectation, convergence, characteristic functions, central limit theorems. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 6802 (622), or permission of instructor. Not open to students with credit for 722 or 723.</p> <p>7301 Advanced Statistical Theory G 3</p> <p>Fundamental concepts from mathematical statistics, derivation/classification of estimators, large sample asymptotic analysis, and non-asymptotic analysis of high-dimensional estimation. Intended for Ph.D. students in Statistics or Biostatistics. Prereq: 6802, or permission of instructor.</p> <p>7302 Bayesian Analysis and Decision Theory G 3</p> <p>Decision theory, loss functions, priors, posteriors, Bayesian inference, empirical Bayes, hierarchical modeling, computation, and Bayesian model assessment and robustness. Intended primarily for PhD students in Statistics or Biostatistics. Prereq: 7301, or permission of instructor. Not open to students with credit for 7303.</p> <p>7303 Bayesian Analysis and Decision Theory G 3</p> <p>Decision theory, loss functions, subjective and objective prior distributions, posterior distribution, estimation, testing, prediction, sensitivity analysis, hierarchical modeling. Intended primarily for PhD students in Statistics or Biostatistics. Prereq: 7301 or 622, or permission of instructor. Not open to students with credit for 820.</p> <p>7410 Linear Models G 3</p> <p>Theory of the general linear model, definition, assumptions, estimability, hypothesis testing and multiple comparisons. Modern extensions of the linear model, interpretation, inference, prediction and penalized estimation. Multivariate linear models. Prereq: 6802, 6910, 6950, 6111, and 6112; or permission of instructor.</p> <p>7430 Generalized Linear Models G 3</p> <p>Introduces the statistical theory and methods to extend regression and analysis of variance to non-normal data. Students will learn to use fixed and random effect generalized linear models to model univariate and multivariate data. Prereq: 6801, 6802, 6910, 6950, and 7410; or permission of instructor.</p> <p>7540 Theory of Stochastic Processes G 3</p> <p>Markov chains, ergodicity, Poisson process, martingales, Brownian motion, Gaussian processes, diffusion processes. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 7201, or permission of instructor. Not open to students with credit for 832.</p> <p>7541 Advanced Stochastic Processes G 3</p> <p>Markov chains, Point processes, Gaussian processes, Brownian motion, diffusion processes, and other stochastic processes with emphasis on applications and simulation. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 7201, or permission of instructor.</p> <p>7550 Time Series Theory and Methods G 3</p> <p>A systematic advanced treatment of areas of current interest in the statistical theory and methods for the analysis of time series processes. Topics will be announced each semester. Prereq: 6560 (656) or 6860, 6801 (620 and 621), 6802 (621 and 622), and 6950 (645); or permission of instructor.</p> <p>7560 Multivariate Analysis G 3</p> <p>Matrix normal distribution; Matrix quadratic forms; Matrix derivatives; The Fisher scoring algorithm. Multivariate analysis of variance; Random coefficient growth models; Principal components; Factor analysis; Discriminant analysis; Mixture models. Prereq: 6802 (622), or permission of instructor. Not open to students with credit for 755 or 756.</p>
--	--

422 Statistics

7605 Advanced Regression Modeling of Time-to-Event Data G 3

Advanced topics in survival analysis. Proportional hazards models, parametric regression models, length-bias and prevalent sampling, multivariate survival analysis, counting processes, recurrent events. Prereq: 6802 (622) and 6950. Not open to students with credit for PubHBio 8235 or 706. Cross-listed in PubHBio 8235.

7610 Theory of Nonparametric Statistics G 3

Theory of distribution-free statistics based on counting and ranking; U-statistics; univariate and multivariate rank regression; additional topics on nonparametric statistics. Prereq: 6802 (622), or permission of instructor. Not open to students with credit for 761.

7620 Elements of Statistical Learning G 3

Statistical and Machine Learning - Applied modern regression, pattern recognition and clustering techniques for discovery/understanding of underlying statistical structures within large, complex and noisy data sets. Prereq: 6301 (610) and 6302 (623), or 6801 (620) and 6802 (622), or ECE 6001, or 7001, or equiv; or permission of instructor. Not open to students with credit for 760.

7630 Nonparametric Function Estimation G 2

Function estimation with emphasis on smoothing splines, flexible model building with multivariate data, reproducing kernel Hilbert space methods, additional topics in smoothing. Prereq: 6802 and 6950, or permission of instructor.

7730 Advanced Computational Statistics G 3

Covers modern methods of statistical computing, with emphasis on how and why they work. As a prerequisite, students should be able to program basic functions. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 6802 (622) and 6950 (645); or permission of instructor. Not open to students with credit for 773.

7789 Survey Research Practicum G 3

Hands-on applications for students interested in the planning, implementation, and analysis of a scientific sample survey. Prereq: Admission to Grad interdisciplinary specialization in survey research, or permission of instructor. Not open to students with credit for 7789 or 789 in AEDEcon, AgrEduc, BusML, Comm, Econ, EduPL, Geog, PolitSc, Psych, PubHlth, PubAfrs, Sociol, or Stat. Cross-listed in Comm, Econ, and PolitSc.

7998 Intermediate Graduate Research in Statistics G 1 - 4

Research topics in intermediate graduate topics in Statistics. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 3 completions. This course is graded S/U.

7999 Masters Thesis Research in Statistics G 1 - 18

Masters Thesis Research in Statistics. Prereq: Grad standing in Stat. Repeatable. This course is graded S/U.

8010 Seminar on Research Topics in Statistics G 1

Lectures on current research by each graduate faculty member in statistics. Prereq: Grad standing in Statistics. Repeatable to a maximum of 4 cr hrs. This course is graded S/U.

8193 Individual Studies in Advanced Graduate Topics in Statistics G 1 - 5

Individual conferences, assigned readings, and reports on minor investigations in advanced graduate topics in Statistics. Prereq: Permission of instructor. Repeatable to a maximum of 25 cr hrs or 5 completions. This course is graded S/U.

8194 Group Studies in Advanced Graduate Topics in Statistics G 1 - 5

Designed to give groups of students an opportunity to pursue special studies in advanced graduate topics in Statistics not otherwise offered. Prereq: Permission of instructor. Repeatable to a maximum of 25 cr hrs or 5 completions. This course is graded S/U.

8310 Large Sample Theory G 3

Stochastic Convergence, Delta Method, Moment Estimators, M- and Z- estimators, Efficiency of Estimators, U- Statistics, Rank, Sign and Permutation Statistics. Large sample methods for functional data. Prereq: 7201 (722 and 723) and 7302 (821), or permission of instructor. Not open to students with credit for 888.

8450 Stochastic Epidemic Models G 3

Introduction to methods of analyzing large population epidemic data from the viewpoint of stochastic processes theory. Topics will cover the SIR (susceptible-infective-removed) epidemic models both under the homogenous and restricted contact structures. Lectures will introduce the necessary background in probability and statistics along with real-life applications (e.g. HIV, H1N1 and SARS). Prereq: 6801, and 6540 or 7540; or permission of instructor. Not open to students with credit for PubHBio 8450. Cross-listed in PubHBio.

8460 Special Topics in Design of Experiments G 3

Selection of Advanced Topics from: Theory of optimal design; Computational Algorithms; Design and analysis of computer experiments; Design for nonlinear models; Discrete choice experiments. Prereq: 7410 (742), or permission of instructor. Not open to students with credit for 847.

8530 Spatial and Spatio-Temporal Statistics G 3

Geostatistics, kriging, hierarchical statistical models, Markov random fields, spatial point processes, spatio-temporal statistical models. Intended primarily for students in the PhD program in Statistics or Biostatistics. Prereq: 6802 (622) and 6950 (645), or permission of instructor. Not open to students with credit for 829.

8540 Topics in Advanced Stochastic Processes G 3

Dedicated to advanced topics in stochastic processes, such as stochastic integration and stochastic differential equations (SDEs), numerical methods and inference for SDEs, etc. Applications in several areas will be discussed. Prereq: 7201 (722 and 723), or permission of instructor.

8570 Advanced Bayesian Analysis: Modeling G 3

A systematic advanced treatment of areas of current interest in Bayesian analysis. Topics will be announced each semester. Prereq: 7303 (820), or permission of instructor. Repeatable to a maximum of 6 cr hrs.

8605 Advanced Survival Analysis G 3

Counting process approach to modeling life history data, including Nelson-Aalen, product limit, and K-sample estimators. Topics from parametric models, semiparametric proportional and additive hazards regressions, and multivariate survival models. Prereq: 7201 (722 and 723) and 7540 (832), or permission of instructor. Not open to students with credit for Biostat 805 and 806.

8625 Statistical Methods for Analyzing Genetic Data G 2

Basic principles of population genetics; gene frequency estimation; likelihood computation on pedigrees using peeling algorithm, Lander-Green algorithm, Monte Carlo methods; linkage analysis, population and family based association studies. Prereq: 6802, or permission of instructor.

8750.01 Research Group in Statistical Learning and Data Mining G 1

Research group in Statistical Learning and Data Mining. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8750.02 Research Group in Design of Physical and Computer Experiments G 1

Research group in Design of Physical and Computer Experiments. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8750.03 Research Group in Statistical Genetics and Bioinformatics G 1

Research group in Genetics. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8750.04 Research Group in Quantitive Methods in Consumer Behavior G 1

Research group in Quantitive Methods in Consumer Behavior. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8750.05 Research Group in Ranked Set Sampling G 1

Research group in Ranked Set Sampling. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8750.06 Research Group in Spatial Statistics and Environmental Statistics G 1

Research group in Spatial Statistics and Environmental Statistics. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8750.08 Research Group in Observational Data G 1

Research group in Observational Data. Topics vary by the offering. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.

8810 Advanced Topics in Statistics I G 1 - 3

A systematic advanced treatment of areas of current interest in Statistics. Topics will be announced each semester. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 24 cr hrs or 8 completions.

8820 Advanced Topics in Statistics II G 1 - 3

A systematic advanced treatment of areas of current interest in Statistics. Topics will be announced each semester. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 24 cr hrs or 8 completions.

8895 Statistics Seminar G 1

Topics range over the current research interests of statisticians from around the world; some lectures are of an expository nature. Prereq: Grad standing in Statistics or Biostatistics, or permission of instructor. Repeatable to a maximum of 20 cr hrs. This course is graded S/U.

8998 PhD Dissertation Research in Statistics (Pre-candidacy) G 1 - 18

PhD Dissertation research in Statistics (Pre-candidacy). Prereq: Permission of instructor. Repeatable. This course is graded S/U.

8999 PhD Dissertation Research in Statistics G 1 - 18

PhD Dissertation research in Statistics. Prereq: Permission of instructor. Repeatable. This course is graded S/U.

4998	Undergraduate Research Course	U	1 - 6
Undergraduate research in the field of surgery. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 5 completions. This course is graded S/U.			
7050	Seminar in Practice Management for Surgeons V	G	1
Provides surgery residents basic information on business principles related to practice of medicine and surgery. Prereq: Medical Degree and one year of Surgical Residency. This course is graded S/U.			
7190.05	Research Studies in Surgery: Pediatric Surgery	G	1 - 12
Pediatric Surgery. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.01	Individual Studies: General Surgery	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.02	Individual Studies: Pediatric Surgery	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.04	Individual Studies: Surgical Infectious Diseases	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.06	Individual Studies: Surgical Oncology	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.08	Individual Studies: Transplantation	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.10	Individual Studies: Wound Healing	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.12	Individual Studies: Molecular Medicine	G	1 - 12
Conducting basic science or clinical research on a surgically related topic under faculty supervision. Prereq: Must be a PGY-2 or more advanced in surgery residency or related programs. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
8501	Career Development Course for Surgeons	G M	2
This course is designed for surgery residents to strengthen their research practices and data collection skills, to gain the skills needed for grant writing, to enhance awareness of the Surgeon-Scientist Career Path, to develop research skills to enhance independence and career success, to facilitate selection and optimization of first faculty position, and to enhance awareness of career resources. Prereq: Surgical Resident, Surgical Fellow, Surgery Junior Faculty, or permission of instructors. Repeatable to a maximum of 6 cr hrs.			
8505	Communication Through Scientific Writing	G M	1
Scientific writing is a critical skill set necessary to facilitate dissemination of new knowledge and research collaborations, and promote effective communication of ideas and research results. This series of facilitated web-based translational science curriculum is designed to help clinicians enhance their communication skills and disseminate their research findings. Course repeatable one time. Prereq: Enrollment in Masters of Medical Science program, or permission of instructor. Repeatable to a maximum of 2 cr hrs.			
8815	Training in Clinical Research I	G	2
Provide exposure to students to ongoing clinical trials at OSUMC and essential skills that are needed to conduct research. Prereq: Permission of instructor. This course is graded S/U.			
8900	Applications of Immunology in Surgery	G	2
A multi-disciplinary group of students at the graduate, doctoral and post-doctoral level will discuss recently published literature (last 12 months) in the field of immunology and landmark immunology studies from prominent immunology journals as they apply to surgical problems. Students will select articles which are relevant to a broader audience but also relevant to their own research interests. Clinical background in medicine and surgery with interest in immunology, and the application of basic immunology discoveries to surgical practice. Prereq: Grad, or Prof standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs.			
8999	Research in Surgery	G	1 - 12
Research for thesis purposes. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			

Swahili

1101	Elementary Swahili I	U	4
Development of oral proficiency in Swahili through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers of the language through regular course enrollment. Prereq: Not open to students with credit for 101. This course is available for EM credit. GE for lang course. GE world languages course.			
1102	Elementary Swahili II	U	4
Continuation of 1101; further work on developing oral proficiency in Swahili through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers of the language through regular course enrollment. Prereq: 1101. Not open to students with credit for 102. This course is available for EM credit. GE for lang course. GE world languages course.			
1103	Elementary Swahili III	U	4
Continuation of 1102; further work on developing oral proficiency in Swahili through basic listening, speaking, and reading skills using a competency-based curriculum. Not open to native speakers of the language through regular course enrollment. Prereq: 1102. Not open to students with credit for 104. This course is available for EM credit. GE for lang course. GE world languages course.			
2201	Intermediate Swahili I	U	3
Enhances the students proficiency in the speaking, reading, listening, and writing of the Swahili language in meaningful communicative contexts. Prereq: 1103. This course is available for EM credit.			
3301	Intermediate Swahili III	U	3
A cultural and historical overview of the Swahili people and their location in East Africa. Prereq: 2241. This course is available for EM credit.			

Swedish

1101	Swedish I	U	4
Introduction to language and culture of Sweden with emphasis on the acquisition of basic communication skills in a cultural context. Closed to native speakers of this language. Prereq: Not open to students with credit for 101.01, or to students with 2 or more years of study in this language in high school, except by permission of dept. GE for lang course. GE world languages course.			
1102	Swedish II	U	4
Continued development of Swedish language skills and knowledge for effective communication. Emphasis on more advanced language structures and on more nuanced cultural issues. Not open to native speakers of this language through regular course enrollment or EM credit. Prereq: A grade of C- or above in 1101. Not open to students with 102.01 and 103.01. GE for lang course. GE world languages course. FL Admis Cond course.			
1103	Swedish III	U	4
Development of skills necessary for the independent use of Swedish. Discussions, presentations, writing and listening/viewing activities address topics of contemporary Sweden. Prereq: Grade of C- or better in 1102. Not open to students with credit for 103.01, 104.01, or to native speakers of this language through regular course enrollment or EM credit. GE for Lang Course. GE world languages course. FL Admis Cond Course.			

Technical Physics

1150T	Technical Physics	U	5
Principles and applications of forces, motion, energy, matter, heat, thermodynamics, electricity, mechanical waves, and electromagnetic radiation. Prereq: GenMath 1145T (145T) or Math 1148 (148) with a grade of C- or better. Not open to students with credit for 101T or 102T. This course is available for EM credit.			
2194T	Group Studies	U	1 - 3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.			

Theatre

2000.02	Technical Production Practicum: Sound	U	1
Provides experience in technical production activities. Repeatable to a maximum of 6 cr hrs or 6 completions.			
2000.03	Technical Production Practicum: Video	U	1
Provides experience in technical production activities. Repeatable to a maximum of 6 cr hrs or 6 completions.			
2000.04	Technical Production Practicum: Scenic Construction and Painting	U	1
Provides experience in technical production activities. Repeatable to a maximum of 6 cr hrs or 6 completions.			

424 Theatre

2000.05 Technical Production Practicum: Costuming U 1

Provides hands-on experience in practical costuming skills, such as fabric preparation, machine and hand sewing, costume maintenance, and costume crafts while working collaboratively and communicating professionally with a variety of artists involved in the theatrical production process. Repeatable to a maximum of 6 cr hrs or 6 completions.

2000.06 Technical Production Practicum: Lighting U 1

Provides training and experience in lighting production activities. Students learn to hang & focus lights & delve into associated technology. This laboratory meets irregularly; students are required to complete 42 hours of work across the semester and attendance at scheduled weekend lighting load-ins is required. Repeatable to a maximum of 6 cr hrs or 6 completions.

2000.09 Technical Production Practicum: General U 1

Provides experience in technical production activities. Prereq: Not open to students with credit for 205.

2000.11 Technical Production Practicum: Box Office U 1

Provides experience in technical production activities. Repeatable to a maximum of 6 cr hrs or 6 completions.

2000.12 Technical Production Practicum: Self Production U ½ - 1

Provides training and experience in self-production of theatrical events. Repeatable to a maximum of 3 cr hrs or 6 completions.

2000.21 Technical Production Practicum: Publicity U 1

Provides experience in technical production activities. Repeatable to a maximum of 6 cr hrs or 6 completions.

2100 Introduction to Theatre U 3

A study of the art and profession of theatre, with an emphasis on evaluating and appreciating live performance, theatre's cultural importance, and its relationship to issues of social diversity. Students study performance conventions, texts, & spaces from ancient times to present day. While not an acting class, students get firsthand experience in the collaborative process of theatre creation. Prereq: Not open to students with credit for 2100H or 2101H. GE VPA and diversity soc div in the US course. GE foundation lit, vis and performing arts course.

2100H Introduction to Theatre U 3

A study of the art and profession of live theatre with emphasis upon its cultural and social influences in our society. Prereq: Honors standing or permission of instructor. Not open to students with credit for 2101H (101H), 100, or 100H. GE VPA and diversity soc div in the US course. GE foundation lit, vis and performing arts course.

2211 Introduction to Production Design U 3

Introduction to design for theatre and live events including scenic, costume, lighting, sound, and media design. GE foundation lit, vis and performing arts course.

2341H Moving Image Art U 3

The issues and concepts fundamental to the development of an understanding of the aesthetics of film and video from the standpoint of the producer and maker. Prereq: Honors standing or by permission of instructor. Not open to students with credit for 230H. GE VPA course. GE foundation lit, vis and performing arts course.

2367.01 Self Images: America on Stage, 1830 to the Present U 3

Exploration of the images of Americans presented on popular stages through written analysis of theatrical and critical texts. Prereq: English 1110, and Soph standing or above. Not open to students with credit for 2367. GE writing and comm course: level 2 and diversity soc div in the US course. GE foundation writing and info literacy course.

2367.02 African American Theatre History U 3

Examination of aesthetic and sociological evolution in America of African American theatre, literature, and film. Prereq: English 1110 (110) or equiv, and Soph, Jr, or Sr standing. Not open to students with credit for 2367 (367). GE writing and comm course: level 2 and lit and diversity soc div in the US course. GE foundation writing and info literacy and lit, vis and performing arts course.

2700 Criticizing Television U 3

A critical analysis of a wide variety of television programs through viewing, discussing, reading, and writing. Students will focus on the ways in which racial, ethnic, and gender diversity issues are represented on television. Prereq: Not open to students with credit for 2367.03, ArEduc 2367.03, or 2700. GE writing and comm course: level 2 and diversity soc div in the US course. GE foundation writing and info literacy and race, ethnicity and gender div course. Cross-listed in ArEduc.

2797 Introductory Study at Foreign Institution U 1 - 6

An opportunity for students to study at a foreign institution and receive Ohio State credit for work completed. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Specific content, location, semester(s) of offering, and prerequisites vary; contact Office of International Affairs for available programs. Prereq: Department permission. Repeatable to a maximum of 15 cr hrs or 5 completions.

2811 The Craft of Acting U 3

An introductory acting class exploring the basic techniques of imagination, concentration, character development, and script analysis through work on monologues, scenes, and plays. Prereq: Not open to students with credit for 280. GE VPA course. GE foundation lit, vis and performing arts course.

3000 Production Run Crew Practicum U 1 - 2

Students in this course will serve as production technicians as part of the running crew for a theatre production. Each student will receive training for their specific role which may focus on lighting, costumes, media, sound, properties or scenery. No conventional class meetings, only one orientation meeting and three weeks of evening/weekend productions. Repeatable to a maximum of 8 cr hrs or 4 completions.

3111 Stage Directing U 3

An introduction to the basic principles, techniques and challenges of directing for the stage. Prereq: 2811.

3221 Stage Management U 3

Principles, practices, and techniques of stage management, and a survey of modern management techniques. Prereq: 2211. Not open to students with credit for 602.

3241 Theatre Sound Techniques U 3

An examination of the art of sound design as well as an exploration of the craft of sound engineering for theatre. Prereq: 2211. Not open to students with credit for 626.

3351 Television Production I U 3

Fundamentals of television broadcasting through lectures, labs and practicum involvement with OSU's student television station and media lab. Prereq: Not open to students with credit for 300.

3352 Television Production II U 3

Intermediate level course providing students with in depth study of television broadcasting through lectures, labs, and practicum involvement with OSU's student television and media lab. Prereq: 3351 (300).

3411 Introduction to Scenic Design U 3

Introduction to basic design elements for the stage including research, sketching, color theory, model building, drafting and stagecraft. Prereq: 2211. Not open to students with credit for 220.

3511 Introduction to Costume Design U 3

Fundamental exploration of methods of design and production as applies to costumes. Prereq: 2211. Not open to students with credit for 222.

3551 Stage Make-Up U 3

Practical application of theories and techniques of make-up design. Emphasis on presentational styles. Purchase of make-up kit required. Prereq: 2211. Not open to students with credit for 353.

3611 Introduction to Lighting Design U 3

Introduction to basic lighting design elements for the stage including research, collaboration, basic electrical practice, color theory, drafting, and lighting stage work. Prereq: 2211. Not open to students with credit for 221.

3710 Global Performance Traditions U 3

This course examines contemporary manifestations of global performance ritual traditions, including those of Asia and the Asian Diaspora, Africa and the African Diaspora, and the Indigenous Americas. Historical and cultural context is used to center our discussion of the tradition in contemporary practice. GE theme traditions, cultures, and transformations course.

3731 History of Performance I U 3

Survey of representative theatre and performance from Western and non-Western traditions from ancient times to the late 1700s. Prereq: 2100, 2100H, or 2101H.

3732 History of Performance II U 3

In this course, we will delve into the history of theatre from 1780 to the present. Attention will be paid to global contexts, theatrical texts, as well as the history of the crafts of theatrical design, directing, and acting. Prereq: 2100, 2100H, or 2101H.

3797 Advanced Study at Foreign Institution U 1 - 6

An opportunity for students to study at a foreign institution and receive Ohio State credit for work completed. Students will pay Ohio State fees and any fees in excess of Ohio State tuition, as well as all travel and subsistence costs. Specific content, location, semester(s) of offering, and prerequisites vary; contact Office of International Affairs for available programs. Prereq: Department permission. Repeatable to a maximum of 15 cr hrs or 5 completions.

3812 Acting Studio I: Stanislavski U 3

An intermediate acting studio exploring the Stanislavski basic acting technique of given circumstances, intentions, obstacles and strategies, in exercises, scenes and discussion. Prereq: 2811 (280). Not open to students with credit for 2812 or 380.

3814 Acting Studio III: Special Topics U 3

An advanced acting studio focused on various acting topics, techniques, and approaches. Topics may include Shakespeare, improvisation, period styles, and others. Prereq: 2811, and permission of instructor. Not open to students with credit for 382. Repeatable to a maximum of 9 cr hrs.

3815 Acting for the Camera U 3

An advanced acting class focusing on the specific challenges of acting for the camera. Prereq: 2811, and permission of instructor.

Theatre 425

3820 Introduction to Voice Acting U 3

This class provides practical experience in vocal performance through class exercises, discussions, observations, analysis, and interviews with professional guests. This class aims to challenge experienced performers and provide beginners with a basis for further study in vocal performance and insight into their own potential as a voice-over performer. Prereq: 2811.

3821 Accents and Dialects U 3

The fundamentals of acquiring dialects for the stage. Prereq: 2811.

3825 Special Topics in Voice for the Stage U 3

An advanced voice studio exploring various topics including individual voice study, phonetics, vocal design, verbatim theatre, and others. Prereq: 2811 and 3831, or permission of instructor.

3831 Movement and Voice U 3

Basic study and training in movement for actors, voice production, and whole body expressiveness. Prereq: 2811. Not open to students with credit for 2831, or 383 and 386.

3832 Viewpoints Training U 3

Introduction to Viewpoints Training: A method of improvisation that builds ensembles, strengthens physical range, and develops acting, directorial and choreographic skills. Prereq: 2811 and 3831, or permission of instructor. Not open to students with credit for 2832.

3921S Creation of Outreach Theatre U 3

The creation, development and performance of interactive and instructional theatre for social awareness. Repeatable to a maximum of 6 cr hrs.

4000.01 Practicum: Stage Management U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Not open to students with credit for 405.01. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.02 Practicum: Sound U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.03 Practicum: Video U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.04 Practicum: Stage Design U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.05 Practicum: Costuming & Makeup U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.06 Practicum: Lighting U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.07 Practicum: Dramaturgy U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.08 Practicum: Acting U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor, by audition. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.09 Practicum: General U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4000.18 Practicum: Directing U 1-3

Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 8 completions.

4191 Internship in Theatre U 1-12

A cooperative education or internship assignment conducted under the supervision of a faculty member. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 3 completions. This course is graded S/U.

4194 Group Studies U 1-3

Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions.

4381 Narrative Filmmaking Fundamentals U 3

This course provides a foundation in the conceptual and technical building blocks of cinematic narrative, emphasizing collaborative projects. Students will investigate the nature of event, character, and place, developing their production and post-production skills in composition, camera movement, lighting, editing, and sound design to support and enhance storytelling. Prereq: Mvnglmg 2202 or Theatre 5321, or enrollment in Mvnglmg-BA.

4821 Singing Actor U 3

The fundamentals of acting through song. Prereq: 2811.

4921S Performance Studies in Outreach Theatre U 3

Use of improvisational acting techniques to develop the performance of an outreach touring theatre production. Prereq: Permission of instructor, by audition. Repeatable to a maximum of 6 cr hrs.

4998 Undergraduate Scholarship: Research and Creative Activity in Theatre U 1-12

Undergraduate research or creative activities in varying topics leading towards a creative project without a thesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

4998H Undergraduate Scholarship: Research and Creative Activity in Theatre U 1-12

Undergraduate research or creative activities in varying topics leading towards a creative project without a thesis. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

4999 Undergraduate Thesis Scholarship: Research and Creative Activity in Theatre U 1-12

Undergraduate research or creative activities in varying topics that will lead to a thesis. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

4999H Undergraduate Honors Thesis Scholarship: Research and Creative Activity in Theatre U 1-12

Undergraduate research or creative activities in varying topics that will lead towards an Honors thesis. Prereq: Honors standing and permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

5111 Advanced Stage Directing U G 3

Principles, techniques and practices of advanced stage directing with an emphasis on text analysis, research and process. Prereq: 3111 (310). Not open to students with credit for 610.

5189 Field Work in Theatre, Cinema, or Video U G 1-12

Planned production or management experience in an off-campus professional, educational, community theatre, film or video facility, or other agency under supervision. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 3 completions. This course is graded S/U.

5193 Individual Studies U G 1-3

Conference, library, and laboratory work. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.

5194 Group Studies U G 1-3

Group Studies. Repeatable to a maximum of 12 cr hrs or 4 completions.

5210 Drafting & Modeling for Theatre U G 3

An introduction to digital drafting and modeling techniques with an emphasis on design for theatre production; exploration of CAD drafting in 2D and 3D as well as 3D modeling and rendering; enlisting different software applications and methods of integrating them.

5220 Professional Aspects U G 3

Study of the professional theatre as a business; contracts, unions, the theatre marketplace; preparation of resumes, portfolios, audition pieces, interview. Prereq: Not open to students with credit for 600.

5225 Period Styles for Production U G 3

An exploration of period styles from ancient to contemporary; emphasis on architecture, clothing, furniture, jewelry, textiles, and decorative objects.

5305 Painting and Drawing for Theatre U G 3

An introduction to drawing and painting techniques using both physical and digital media; exploration of methods, media, concepts; emphasis on rendering for theatre design.

5310 Fundamentals of Media Design U G 3

A foundational introduction to the skills, tools, best practices, collaborative processes, and theories for media and projection design in a live performance production environment. Prereq: 2211, or permission of instructor.

5321 Film/Video Production I U G 3

Basics of film/video production through lectures, analysis, and projects. Camera, sound, lighting, and editing techniques are practiced in collaborative and individual settings. Prereq: Enrollment in Department of Theatre, Film, and Media Arts majors or minors, or permission of instructor. Not open to students with credit for Mvnglmg 2201 or 2202, or enrolled in Mvnglmg-BA program.

426 Theatre

5322	The Art of Editing	U G	3	Exploration of post-production techniques from editorial concepts to outputting video. Students will expand their knowledge of the editorial process and their analytical skills. Prereq: 5321 or Mvnglmg 2202, or permission of instructor.	5771.02	Theatre for Social Change	U G	3	Advanced study of theatre and performance strategies used for social change and community engagement which includes Theatre for Development, and Augusto Boal's theory and practice.
5323	Film/Video Production II	U G	3	Intermediate film/video analysis and production through research and project assignments with camera, sound, lighting, and editing techniques. Prereq: 4381 or 5321, or permission of instructor. Repeatable to a maximum of 9 or hrs.	5771.03	Out There Alone: The History of Solo Performance	U G	3	Advanced study of the ubiquitous solo performer that considers the classical Greek rhapsodies, to Chautauqua, to contemporary solo artists, many of whom create new works.
5325	The Film Director's Voice	U G	3	This advanced-level course offers students an understanding of the fundamentals of directing narrative film, with an emphasis on the director's personal voice and vision. It considers responsibilities and techniques across all stages of production, from early development through the completion of postproduction, as well as an introduction to promoting your finished project. Prereq: 4381 and 5323, or permission of instructor.	5771.04	American Voices	U G	3	Advanced study of a focused theatre history topic such as African American, Latino/a, Asian American, Native American, women playwrights, and gay and lesbian theatre.
5331	Screenwriting	U G	3	Exploration of creative script-writing for video/cinema; development of short or feature length scripts. Prereq: Permission of instructor. Not open to students with credit for 636.	5771.05	All Singing, All Dancing: The History of Musical Theatre	U G	3	Advanced study on the history and contemporary practice of the art form of musical theatre including an emphasis on the American Rock Musical.
5341	Studies in the Documentary	U G	3	Exploration of the conceptual, aesthetic, critical, social, ethical, and practical issues in the practice of documentary and reality production of cinema and video works. Prereq: 5321 or Mvnglmg 2202, or enrollment in Mvnglmg-BA, or permission of instructor.	5771.06	International Theatre and Performance	U G	3	Advanced study of a focused international theatre history topic such as African, Spanish and Portuguese, Asian theatre, theatre masks, puppets, Irish diaspora.
5401	Engineering for Entertainment	U G	3	An introduction to the technology and engineering behind theatre and entertainment events; focus on motion technology including rigging, tracking and automated systems.	5771.10	Strutting and Fretting Upon the Stage: 400 Years of Shakespeare in Production	U G	3	Explores the history of Shakespeare's plays in production over the last four centuries. Students will seek to understand how his plays reflect the historical moments in which they are interpreted. Students will research and present on a specific production.
5403	Scene Painting	U G	3	An introduction to techniques used in scene painting for the theatre; rendering textures and sketches; emphasis on story boarding to show clear progression of scenic changes. Prereq: Enrollment in the MFA-Theatre program, or permission of instructor.	5798.01	Study Tour: Domestic	U G	1 - 12	Group domestic travel experience. Specific content, location, prerequisites, and semester of offering vary. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 4 completions.
5411	Scenic Design I	U G	3	Presentation of scenic design in three dimensional model form; emphasis on designing for non-proscenium production. Prereq: Not open to students with credit for 643.	5798.02	Study Tour: International	U G	1 - 12	Group foreign travel experience. Specific content, location, prerequisites, and semester of offering vary. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 4 completions.
5412	Scenic Design II	U G	3	Presentation of multiple-setting, scenic design in three dimensional models, renderings and sketches; emphasis on story boarding to show clear progression of scenic changes. Prereq: Not open to students with credit for 644.	5798.03	Study Tour: London	U G	5	Group international travel experience. This course explores the landscape of contemporary British performance by immersing students in a demanding daily schedule of live performances, guest lectures, and museum and exhibition visitations in London and in Stratford-upon-Avon, placing contemporary British performance into its cultural and historical contexts. GE theme traditions, cultures, and transformations course.
5501	Costume Technology	U G	3	This course is a costume construction course intended to acquaint the student with intermediate skills in creating theatrical clothing. Basic understanding of hand and machine sewing is expected. Demonstrations of fabric dyeing in addition to an introduction to the creation of craft accessories are included.	5831	Mime	U G	3	Introduction to Mime: This course will focus on Etienne Decroux and Marcel Marceau's techniques and styles. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 2 completions.
5502	Costume Draping & Patterning	U G	3	This is a practical course designed to allow the student to learn to manipulate fabric over a form to create a pattern. Basic contemporary forms are emphasized, with final projects focusing on 20th century period garments.	5835	Special Topics in Movement for the Stage	U G	3	Intensive study of a problem related to movement of the actor for the purpose of developing specific principles and practices. Prereq: 3831 (2831), or permission of instructor. Repeatable to a maximum of 9 cr hrs.
5503	Advanced Costume Technology	U G	3	This course emphasizes advanced sewing skills: particularly those involved with men's and women's tailored garments.	5840	Theatrical Intimacy	U G	3	An examination of Theatrical Intimacy as a standard of practice for actors and/or performers to engage with each other and perform intimate action called for in scripts and/or choreography. Prereq: 3831, or Grad standing.
5511	Costume Design I	U G	3	Exploration of methods and techniques of design as applies to costumes.	5899	Workshops	U G	1 - 12	Intensive study of a problem common to the participants for the purpose of developing principles and practices relating to it. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 4 completions.
5512	Costume Design II	U G	3	This course is an in depth study of advanced projects in Costume Design with an emphasis on musical theatre.	5911	New Works Lab	U G	3	New writers experiment with a variety of contemporary techniques to write, act, direct and improv short plays, oral histories, video and solo works. Repeatable to a maximum of 6 cr hrs or 2 completions.
5603	Lighting Technology	U G	3	An introduction to and examination of the craft of theatre technology, with an emphasis on technical projects as associated with the responsibilities of a production electrician.	5921	Performing and Teaching Shakespeare for the Actor: A Toolkit	U G	3	An exploration of methods for interpreting, performing, and teaching Shakespeare. Emphasis on Stand Up for Shakespeare technique, the work of John Basil, John Barton, and the Lessac voice system. Students will develop exercises and lessons intended for K-12 students. Prereq: 2831 (383), or permission of instructor.
5611	Lighting Design	U G	3	A study of light as a design element for theatrical performance; analysis and preparation of designs for realized and theoretical theatre applications. Prereq: Not open to students with credit for 625.	5922S	Shakespeare and Autism	U G	3	An ensemble-based interdisciplinary service-learning course where students are trained in the Hunter Heartbeat Method intervention and then conduct interactive workshops with children on the autism spectrum. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.
5612	Lighting Design II	U G	3	An intermediate study and practice of creating lighting in diverse contexts, primarily as a contributing design element in response to various types of live events, such as theatre, musicals, improvisational performance, and busking; defined as a live, manual - and in this case - lighting response to performers as well as an audience in a range of performance situations.	5961	Playwriting	U G	3	Students will write 10-minute plays as exploratory exercises, analyze contemporary plays to deepen familiarity with the theatrical form, and, as a final project, write a one-act play which will receive a staged reading. Seminar and Workshop.
5720	Dramaturgy: Theory and Practice	U G	3	Survey of history, theory, and practical exercises in production dramaturgy, the art of interrogating plays in production.	6194	Group Studies	G	1 - 3	Group Studies. Repeatable to a maximum of 12 cr hrs or 4 completions.

Theatre 427

6210	Studio Praxis	G	3
<p>This is a topics-based, design/scenography class that challenges students to share and build on their experience both within and outside their design disciplines. All MFA design students will participate in the studio each fall semester. Our goal is for you to make work that quickly and creatively respond to the ideas and scripts we work on which hang together under a different theme each year. Prereq: Enrollment in the MFA-Theatre program, or permission of instructor. Repeatable to a maximum of 9 cr hrs.</p>			
6651	Digital and Physical Lighting	G	4
<p>Introduction to basic principles and concepts of lighting as used in theatre and computer graphics. Working in collaborative teams, students develop and execute installation schemes. Prereq: Permission of instructor. Not open to students with credit for 754. Cross-listed in ArtsCol.</p>			
6701	Research Methods	G	2 - 4
<p>Introduction to research methods, tools, and resources in live theatre and recorded performance, and directed research in student's area of focus. Prereq: Not open to students with credit for 801. Repeatable to a maximum of 4 cr hrs.</p>			
6702	Theatre Pedagogy	G	3
<p>In this course, we will delve into teaching our discipline on the college level. We will explore best practices, strategies, techniques, and key concerns in our field. We will develop teaching philosophies and portfolios to aid on the job market, but more importantly, we will demonstrably improve our ability to impact our students' lives.</p>			
6811	Advanced Acting Studio I	G	3
<p>A graduate acting class focused on exploring basic realistic acting techniques. Prereq: Enrollment in MFA in Theatre program, or permission of instructor.</p>			
6812	Advanced Acting Studio II	G	3
<p>A graduate acting class focused on Shakespeare and period styles. Prereq: Enrollment in MFA in Theatre program, or permission of instructor.</p>			
6813	Advanced Acting Studio III	G	3
<p>A graduate acting class focused on contemporary non-realistic acting and acting for the camera. Prereq: Not open to students with credit for 782.</p>			
6821	Foundational Skills in Voice	G	3
<p>A graduate course in voice production for the theatre. Prereq: Permission of instructor. Not open to students with credit for 786.</p>			
6911	New Play Development for the Actor	G	3
<p>Development of new works and fundamentals of playwriting for the actor.</p>			
6999	Research in Theatre: Thesis	G	1 - 4
<p>Research for thesis purposes only. Repeatable to a maximum of 16 cr hrs or 4 completions. This course is graded S/U.</p>			
7000.03	Practicum: Video	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.04	Practicum: Stage Design	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.05	Practicum: Costuming & Makeup	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.06	Practicum: Lighting	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.07	Practicum: Dramaturgy	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.08	Practicum: Acting	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor by audition. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.09	Practicum: General	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
7000.18	Practicum: Directing	G	1 - 5
<p>Individual theatrical performance and production activities at an advanced level under faculty supervision. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			

7215	TRI Special Collections Research	G	3
<p>Advanced study of primary research materials accessed in the Special Collections: Jerome Lawrence and Robert E. Lee Theatre Research Institute Design archives.</p>			
7311	Advanced Moving Image Art	G	3
<p>Exploration of sketchbook approach to research and development of creative cinema/video projects. Prereq: Permission of instructor. Not open to students with credit for 813.</p>			
7413	Advanced Scene Design	G	3
<p>Advanced exploration of scene design for Broadway style musicals and Opera; emphasis on conceptual development, utilizing scale, large financial and production resources, fluid transitions and the expanded production demands of these forms.</p>			
7513	Advanced Costume Design	G	3
<p>Advanced exploration of costume design for high concept performance pieces in opera, dance and theatre, hands-on design assignments, and preparation of theoretical designs.</p>			
7613	Advanced Lighting Design	G	3
<p>Advanced topics in lighting design, including music-based performance, study of lighting designers and the art and craft of design, hands-on design assignments, and preparation of theoretical designs.</p>			
7710	Method: Historiography	G	3
<p>In this course, we will explore the ways theatre and performance history have been (and could be) written. Attention will be paid to the roles of evidence, embodiment, and narrative. Throughout we will ask the question: how can we write a history of an evanescent art? To what end?</p>			
7720	Method: Performance Studies	G	3
<p>Performance Studies has been described as a marriage of Theater and Anthropology, yet it is both more and less than those two disciplines. We will read foundational texts by its major figures, as well as familiarize ourselves with its newer voices. Students will create a practical project that allows them to apply the methodologies we study, including participant-observation ethnography.</p>			
7730	Method: Practice As Research	G	3
<p>In this course, we will delve into the method of practice as research as it pertains to the field of theatre studies. We will read key texts in the field, grapple with approaches, and undertake projects that prioritize practice as research acuity.</p>			
7821	Advanced Dialects	G	3
<p>Dialect analysis and acquisition for the theatre. Prereq: Not open to students with credit for 880.</p>			
7831	Advanced Movement	G	3
<p>Fundamentals of movement for actors: Studies in how the body (the actor's instrument) works and how the body moves. Prereq: Not open to students with credit for 781 and 887.</p>			
7832	Viewpoints and Suzuki Physical Acting	G	3
<p>Viewpoints training: Method of improvisation that builds ensembles, while strengthening acting, directing and choreography. Suzuki, a martial arts style of physical training, will be incorporated. Prereq: Not open to students with credit for 773 and 887.</p>			
7911	Composition	G	3
<p>Advanced instruction in learning multiple ways of creating new performance work. Prereq: Not open to students with credit for 888.</p>			
8000.03	Advanced Studies: Video	G	1 - 5
<p>Advanced Studies in Video. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
8000.04	Advanced Studies: Stage Design	G	1 - 5
<p>Advanced Studies in Stage Design. Prereq: Permission of instructor. Repeatable to a maximum of 32 cr hrs or 8 completions.</p>			
8193	Individual Studies	G	1 - 3
<p>Conference, library, and laboratory work. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 4 completions. This course is graded S/U.</p>			
8700.01	Candidacy Exam Preparation: Area of Specialization	G	1 - 4
<p>Preparation for PhD candidacy examination in the student's area of specialization to be undertaken in tutorial with their faculty advisor.</p>			
8700.02	Candidacy Exam Preparation: Cognate Area 1	G	1 - 4
<p>Preparation for PhD candidacy examination in the student's area of specialization to be undertaken in tutorial with their faculty advisor.</p>			
8700.03	Candidacy Exam Preparation: Cognate Area II	G	1 - 4
<p>Preparation for PhD candidacy examination in the student's Cognate Area II to be undertaken in tutorial with their faculty advisor.</p>			
8798.01	Study Tour: Domestic	G	1 - 12
<p>Group domestic travel experience. Specific content, location, prerequisites, and semester of offering vary. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 4 completions.</p>			

428 Theatre

8798.02	Study Tour: International	G	1 - 12
Group international travel experience. Specific content, location, prerequisites, and semester of offering vary. Prereq: Permission of instructor. Repeatable to a maximum of 36 cr hrs or 4 completions.			
8811	Advanced Acting Studio IV	G	3
A Graduate acting class focused on developing a professional Showcase. Prereq: Not open to students with credit for 982.			
8912	Solo Projects	G	3
Laboratory in solo performer-created works. Repeatable to a maximum of 27 cr hrs.			
8921	Outreach and Engagement	G	3
Exploration of the collaborative outreach and engagement process in the development of an original ensemble creation which will emphasize community themes. Repeatable to a maximum of 9 cr hrs.			
8990	Directed Teaching Experience in Theatre	G	1 - 3
Designed to aid the prospective teacher of theatre in the development of essential teaching skills in a variety of settings. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions.			
8995	Proseminar	G	1 - 5
Reading, directed study, and/or projects in theatre history, criticism, literature, acting, directing, and/or design. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 9 completions. This course is graded S/U.			
8999	Research in Theatre: Dissertation	G	1 - 3
Research for dissertation purposes only. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 9 completions. This course is graded S/U.			

Translational Data Analytics

5141	UI/UX Design	U G	3
Advanced study in the design of digital interactive experiences; application of digital user interface design and validation methodologies. Prereq: 5505.			
5150	Emerging Trends in Data Visualization	U G	3
This course enables students to explore existing, new and emerging approaches to data visualization, topics and trends in visualization research and their applications. Students will research, analyze, write about, explore and make data visualizations. Prereq: 5141 and 5505.			
5193	Independent Study for MTDA	U G	1 - 3
A supplemental learning opportunity for MTDA students to learn about a topic of interest in data analytics and storytelling. Topics will be proposed by the student and approved by the instructor. Students will be required to develop a plan of action which will define a timeline and deliverables throughout the semester. The student will create assignments in collaboration with the instructor. Prereq: Enrollment in the Translational Data Analytics program. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.			
5401	Data Analytics Foundations I	U G	3
The successful working professional must be able to extract useful information from data to address work-related challenges and make data-driven decisions under uncertainty. Proficiency in identifying, sourcing, manipulating and interpreting data is key. This is the first of a two course sequence focusing on programming and analysis in R, taken in parallel with Big Data Computing Foundations. Prereq: Enrollment in the Translational Data Analytics program.			
5402	Data Analytics Foundations II	U G	3
This is the second part of a two-semester sequence focusing on programming and data analysis using R. Taken along with the Big Data Computing Foundations sequence on CS methods for data science. The course focuses on more advanced R such as distribution theory via simulation methods, statistical modeling: A/B testing, ANOVA, multiple linear regression, logistic regression, multivariate analysis. Prereq: 5401, 5621, and enrollment in data analytics major.			
5505	Information Design	U G	3
This course explores the relationship between visual design and the field of information visualization. It presents design strategies of how information can be structured and visualized to create effective communications and to stimulate viewer attention and engagement.			
5620	Practical Learning and Mining for Big Data	U G	3
Building on computational and interpretative skills in data analytics and computing foundations, students will explore practical ways to create data mining and machine learning workflows. Students will learn to mine associations and patterns, to classify, and build predictive models and recommendation systems for data and questions in the context of enterprises. Prereq: 5401, 5402, 5621, and 5622.			
5621	Big Data Computing Foundations I	U G	3
Professionals must be able to locate, scrape, ingest and clean data sources to produce useful information for exploration and visualization to address work-related challenges. Course focus is on programming in Javascript and Python and tools like Hadoop and Scala. This two-semester sequence is to be taken in parallel with a two-semester sequence on fundamental statistical data analytic methods. Prereq: Enrollment in the Translational Data Analytics program.			

5622	Big Data Computing Foundations II	U G	3
Working professionals must be able to locate and scrape data sources, create workflows that ingest and clean data, extract useful information for exploration and visualization and use that information to address work-related challenges. Enrollees gain proficiency in identifying, sourcing, manipulating, and interpreting data. Second course in a two-semester sequence focusing on the Python and Spark. Prereq: 5621, and enrollment in the Translational Data Analytics program.			
5625	Seminar in Data Governance	U G	1
Demonstrate the need for data governance. Emphasize the need to generate trust in data assets in typical projects and enterprises. Identify elements of good data governance. Discuss privacy and security in the context of data governance. Enumerate the advantages of robust and principled governance through the use of case studies. Prereq: Enrollment in the Translational Data Analytics program.			
5626	Seminar in Research Methods	U G	1
This course will provide a high-level overview of general research methods that are common across many disciplines. Topics covered will range from formulating a research question to conducting specific analytical methodologies to writing/presenting results. Course enrollment restricted to graduate students enrolled in MTDA program. Prereq: 5401, 5621, and 5625.			
5627	Design Thinking and Data in Practice	U G	1
Design thinking is a non-linear, iterative process to understand users, challenge assumptions, redefine problems and create innovative solutions. This course will explore the design thinking process as it relates to research methods, data collection and analysis. We will learn from professionals who utilize design thinking paired with a creative mindset to gather and apply data to solve big problems. Prereq: Enrollment in the Translational Data Analytics program.			
5911	Capstone 1	U G	3
This course will provide experiential learning for students in data analysis with design thinking on non-trivial data sets. Students formulate data questions and create complete workflows. Emphasis on teamwork, translational competency and professional competency in data rich environments by deploying and using computing technology, data analysis methods and creation of user interfaces. Prereq: 5401, 5402, 5505, 5621, 5622, 5625, 5626, and 5627.			
5912	Capstone II	U G	3
Experiential learning for students in data analysis with design thinking on non-trivial data sets. Students work with project sponsors formulate data questions and create complete workflows. Emphasis on teamwork, translational competency and professional competency in data rich environments by deploying and using computing technology, data analysis methods and creation of user interfaces. Prereq: 5141, 5150, 5401, 5402, 5505, 5621, 5622, 5625, 5626, 5627, and 5911.			

Turkish

1101	Elementary Turkish I	U	4
Introduction to Turkish; development of listening, reading, speaking, and writing skills. Prereq: Not open to native speakers through regular enrollment, or EM credit. This course is available for EM credit. GE for lang. GE world languages course.			
1102	Elementary Turkish II	U	4
Further development of listening, writing, speaking, and reading skills; reading of simplified Turkish texts. Not open to native speakers through regular enrollment or EM credit. Prereq: 1101. This course is available for EM credit. GE for lang course. GE world languages course.			
1103	Intermediate Turkish I	U	4
Reading of Turkish short stories and poems with attention to literary and cultural appreciation; development of basic language skills. Not open to native speakers through regular enrollment or EM credit. Prereq: 1102. This course is available for EM credit. GE for lang course. GE world languages course.			
2101	Intermediate Turkish II	U	4
Extensive reading from literary texts, with practice in conversation and composition. Not open to native speakers of this language. Prereq: 1103.			
2102	Intermediate Turkish III	U	4
The study of nineteenth and twentieth-century texts, with advanced composition and translation. Prereq: 2101. Not open to students with credit for 202.			
2193	Individual Studies	U	1 - 5
Individual studies. Prereq: Permission of instructor or department. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.			
2194	Group Studies	U	1 - 5
Group Studies. Prereq: Permission of instructor or department. Repeatable to a maximum of 15 cr hrs or 5 completions.			
2241	Beyond Harems and Belly Dancers: Turkish Culture	U	3
An introduction to Turkish culture through reading of literature and criticism, and listening and viewing of films, slides, and performances arranged for the class. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course.			
2701	Mystics, Sultans, Prisoners & Dreamers: Turkish Literature in Translation	U	3
A study of Turkish literature and the history of its discourses, genres, and styles. GE lit and diversity global studies course. GE foundation lit, vis and performing arts course.			

3350 Contemporary Issues in Turkey U 3
 This course provides an introduction to contemporary issues in Turkey. Our understanding of current events will be grounded in deep historical, social, and geographic analyses, informed by both local and global dynamics. Most of the class focuses on political, economic, and social issues to help us contextualize current events and issues. GE soc sci indivs and groups and diversity global studies course.

3797 Global Intercultural Citizenship in the Middle East: Turkey U 4
 The course offers a collaborative online international learning (COIL) virtual education abroad experience that includes immersive opportunities such as virtual reality visits to important sites, online conversations and collaborations with students at a university in the Middle East, and workshops and demonstrations with local scholars and artists. GE theme citizenship for div and just wrld course.

4999H Honors Research U 1 - 3
 A program of research for individual students which includes individual conferences and culminates in an honors thesis or oral defense. Prereq: Approved candidacy for graduation with distinction, which includes faculty adviser and ASC Honors Committee approval of project. A minimum 3.5 pt-hr ratio in the field of distinction, Sr standing, and CPHR commensurate with honors program membership. Repeatable to a maximum of 10 cr hrs or 5 completions. This course is graded S/U.

5193 Individual Studies U G 1 - 10
 Individual Studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions. This course is graded S/U.

5194 Group Studies U G 1 - 10
 Group studies. Prereq: Permission of instructor. Repeatable to a maximum of 20 cr hrs or 5 completions.

5797 Study at a Foreign Institution U G 1 - 10
 An opportunity for students to study at a foreign institution and receive Ohio State credit for that work. Prereq: Permission of department. Repeatable to a maximum of 30 cr hrs or 5 completions. This course is progress graded.

7193 Independent Study G 1 - 10
 Content varies. Repeatable to a maximum of 20 cr hrs or 10 completions. This course is graded S/U.

7601 Studies in Turkish and Ottoman Literature and Criticism G 3
 Movements, authors, and critical schools of Turkish and Ottoman poetry and prose. Prereq: 6 cr hrs at the 5000 level or above. Repeatable to a maximum of 10 cr hrs or 5 completions.

Urdu

1101 Elementary Urdu I U 4
 Study of Urdu language, with appropriate cultural background; development of listening, reading, speaking, and writing skills. Prereq: Not open to students with credit for 101, or to native speakers through regular enrollment or EM credit. This course is available for EM credit. GE for lang course. GE world languages course.

1102 Elementary Urdu II U 4
 Continued study of Urdu language, with appropriate cultural background; development of listening, reading, speaking, and writing skills. Prereq: 1101, or permission of instructor. Not open to students with credit for 102, native speakers, or EM credit. This course is available for EM credit. GE for lang course. GE world languages course.

1103 Intermediate Urdu I U 4
 Continued study of Urdu language, with appropriate cultural background; development of listening, reading, speaking, and writing skills. Prereq: 1102, or permission of instructor. Not open to students with credit for 103, 104, or to native speakers or EM credit. This course is available for EM credit. GE for lang course. GE world languages course.

Urology

4998 Urology Undergraduate Research Course U ½ - 3
 An independent-study style course in which pre-medical undergraduate students have the opportunity to assist in the Department of Urology's research projects. Students will be given the opportunity to learn the research process from start to finish. Students will need to receive a signature to enroll in this course. Not open to students under 18 years of age. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 8 completions. This course is graded S/U.

4998H Urology Undergraduate Research Course - Honors U ½ - 3
 An independent-study style course in which pre-medical undergraduate students have the opportunity to assist in the Department of Urology's research projects. Students will be given the opportunity to learn the research process from start to finish. Students will need to receive a signature to enroll in this course. Not open to students under 18 years of age. Prereq: Permission of instructor. Repeatable to a maximum of 15 cr hrs or 8 completions. This course is graded S/U.

4999 Urology Research for Distinction or Dissertation U ½ - 3
 Advanced undergraduate courses and research providing credit for those conducting research with the Department of Urology with the intention to graduate with research distinction or in order to conduct a research dissertation prior to graduation. Students must be approved by and be working with the course director. Repeatable to a maximum of 6 cr hrs or 2 completions. This course is graded S/U.

Uzbek

1101 Elementary Uzbek I U 4
 Introduction to Uzbek language; development of listening, reading, speaking and writing skills. Prereq: Not available to native speakers. This course is available for EM credit. GE for lang course. GE world languages course.

1102 Elementary Uzbek II U 4
 Continued study of Uzbek Language, with appropriate cultural background; further development of listening, reading, speaking, and writing skills. Not open to native speakers. Prereq: 1101. This course is available for EM credit. GE for lang course. GE world languages course.

1103 Intermediate Uzbek I U 4
 Continued study of Uzbek Language, with appropriate cultural background; further development of listening, reading, speaking, and writing skills. Not open to native speakers. Prereq: 1102. This course is available for EM credit. GE for lang course. GE world languages course.

2101 Intermediate Uzbek II U 4
 Extensive reading from literary texts, with practice in conversation and composition. Not open to native speakers. Prereq: 1103.

2102 Intermediate Uzbek III U 3
 Continued reading from literary texts, with further practice in conversation, composition, and translation. Not open to native speakers. Prereq: 2101.

3102 Advanced Uzbek U 3
 This course aims: to increase fluency in oral expression; develop skills in listening, reading and writing; extend knowledge of literary Uzbek language; and enable research in Uzbek. Course will use four skills approach as well as communicative. Using authentic language materials (newspapers, journals, TV programs) will be emphasized. Prereq: 2102

Veterinary Biosciences

7193.01 Individual Studies in Veterinary Biosciences G V 1 - 8
 Laboratory, library, conference, and reports concerning animal disease problems. This course is to be used by Masters students for research experiences and for Doctoral students prior to candidacy. Repeatable to a maximum of 60 cr hrs or 60 completions. This course is graded S/U.

7193.02 Individual Studies in Veterinary Biosciences G V 1 - 2
 Laboratory, library, conference, and reports concerning animal disease problems. The faculty and student agree on a course project suitable for a letter grade. Prereq: Grad or Prof standing in Veterinary Medicine program, and permission of instructor. Not open to students with credit for 696. Repeatable to a maximum of 5 cr hrs.

7194.01 Group Studies in Veterinary Biosciences G V 1
 Group studies course in topic areas of veterinary biosciences. Prereq: Grad standing, or standing in VetMed program, or DVM, or equiv. This course is graded S/U.

7194.02 Group Studies in Veterinary Biosciences G V 1 - 3
 Group studies course in topic areas of veterinary biosciences. Prereq: Grad standing, or standing in Veterinary Medicine program, or DVM, or equiv. Repeatable to a maximum of 15 cr hrs.

7600 Animal Models of Disease G 2
 This course seeks to optimize translational modelling through selection of the most appropriate animal model for preclinical therapeutic evaluation.

7700 Functional Neuroanatomy V 2
 Structure and function of the Central Nervous System (CNS) studied through discussion and dissection with emphasis on three-dimensional relationships of selected brain and spinal cord regions. Prereq: VMColl 603. Not open to students with credit for 700.

7710 Basic Macroscopic Pathology Lecture V 1
 Basic process of identifying gross lesions in domestic animals and some exotic species.

7711 Basic Macroscopic Pathology G V 1
 Basic process of identifying gross lesions in domestic animals and some exotic species. Prereq: Not open to students with credit for 711.

7712 Applied Veterinary Clinical Pathology V ½
 Designed to review how to evaluate cytology samples from various body systems using a videomicroscope and projected images. Prereq: VetMed 6618 (618). Not open to students with credit for 710.

430 Veterinary Biosciences

7720	Applied Histopathology	G V	2
Interpret histological tissue in actual case material. These changes will be interpreted in the context of clinical history and gross post-mortem findings in order to reconstruct the disease progression. Prereq: VMColl 6550.02 (550.02) and 6530 (530), or permission of instructor. Not open to students with credit for 719 of 720.			
7741	Molecular Virology and Pathogenesis of Viruses	G V	5
An integrated study of the molecular mechanisms of virus replication and host-virus relationships that control virus pathogenesis or use as a therapeutic agent. Prereq: Grad or Prof standing in Veterinary Medicine program, or permission of instructor. Not open to students with credit for 741. Cross-listed in MolGen and MVLmg.			
7800	Canine Surgical Anatomy	V	2
Detailed study of regional anatomy of the thoracic and pelvic limbs as it relates to selected surgical approaches to the limb and joints. Prereq: VMColl 520, and professional standing in Veterinary Medicine program; or permission of instructor. Not open to students with credit for 693. This course is graded S/U.			
7801	Advanced Feline Veterinary Anatomy	V	2
Detailed study of feline body systems based on a regional anatomic approach and small group presentation. Prereq: VMColl 520, and professional standing in Veterinary Medicine program; or permission of instructor. Not open to students with credit for 693. This course is graded S/U.			
7802	International Veterinary Medicine Experience	V	2
The class is organized into two parts. The first portion occurs during the fall and spring semesters, meet every other Wednesday to prepare the students for the trip. The second portion is a ten-day field trip to veterinary colleges in Asia, Europe, South America, and Africa during winter and spring breaks, or at the end of the semester. This course is progress graded (S/U).			
7852	Hematology Case Discussion	V	½
A discussion of laboratory data from clinical cases in an interactive small group setting. The focus is on hematology. Weekly case discussions require student participation. Prereq: VMColl 6618 (618), and 3rd-year standing in Veterinary Medicine program. Not open to students with credit for 852. This course is graded S/U.			
7900	Data Management for Researchers	G	1
Covers all aspects of research data management best practices, as defined by funding agency requirements. Topics include planning for data organization, documentation, preservation, and sharing in an increasingly complex digital environment.			
8739	Specialty Training in Clinical Pathology	G	1 - 10
In-depth study of common laboratory tests, specialized and ancillary laboratory tests, principles of laboratory testing, and quality assurance with an emphasis on data analysis from clinical patients. Prereq: Grad or Doct standing in VMColl, or equiv, or permission of instructor. Not open to students with credit for 739. Repeatable to a maximum of 50 cr hrs or 10 completions. This course is graded S/U.			
8810	Advanced Systemic Pathology 1: Laboratory Animal Pathology	G	2
Lecture course covering the principle diseases of laboratory mice, rats, nonhuman primates rabbits, guinea pigs, hamsters, gerbils, and fish as well as lower vertebrates and animals in zoological collections and wildlife species. Prereq: DVM or equiv. This course is graded S/U.			
8811	Advanced Systemic Pathology 2	G	2
Advanced pathology covering the reproductive, endocrine, ophthalmic, and cardiovascular systems of domestic animals. Prereq: VetBios students in the Combined Pathology Residency/PhD program, or DVM students; or permission of team leader. This course is graded S/U.			
8812	Advanced Systemic Pathology 3	G	2
Advanced pathology covering the respiratory, nervous, and musculoskeletal systems of domestic animals. Prereq: DVM degree or equiv. This course is graded S/U.			
8813	Advanced Systemic Pathology IV	G	2
Advanced Pathology covering the hemic-lymphatic, hepatobiliary, digestive systems, and dermatopathology. Prereq: Enrollment in DVM degree program, or equiv. This course is graded S/U.			
8814	Advanced Systemic Pathology 5	G V	1
Advanced pathology covering the hemic-lymphatic system of domestic animals. Prereq: VetBios students in the Combined Pathology Residency/PhD Program, or DVM students; or permission of team leader. This course is graded S/U.			
8815	Advanced Systemic Pathology VI	G V	1
Advanced pathology covering the urinary system of domestic animals. Prereq: Enrollment in the Combined Pathology Residency/PhD program, or DVM students, or permission of team leader. This course is progress graded (S/U).			
8893.01	Applied Comparative Pathology	G	1 - 4
Advanced training in gross dissection and interpretation of gross lesions in animals. Prereq: DVM degree or equiv. Not open to students with credit for 718. Repeatable to a maximum of 12 cr hrs or 3 completions. This course is graded S/U.			

8893.02	Veterinary Surgical Pathology	G	1
Case-based from surgical biopsies from the Veterinary Medical Center. Students cut in biopsy material, interpret prepared slides, make a diagnosis and write reports under supervision of a faculty pathologist. Prereq: Grad standing in Veterinary Medicine Program, and DVM degree; or equiv. Not open to students with credit for 815. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.			
8895.02	Seminars in Diagnostic Veterinary Pathology	G	1
Seminars correlating lesion interpretation, pathogenesis and clinical signs in veterinary cardio-, dermato-, gross, lab animal, large animal, neuro-, ophthalmic, surgical, and zoo pathology. Prereq: Grad standing in Veterinary Medicine program, or permission of instructor. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.			
8895.03	Seminar in Veterinary Clinical Pathology	G	1
Designed to prepare clinical pathology residents for a career in clinical pathology through in-depth discussion of the principles and application of laboratory testing and quality assurance and interpretation of laboratory data. Prereq: Grad or Doct standing in VMColl, or equiv, or permission of instructor. Not open to students with credit for 800.01. Repeatable to a maximum of 10 cr hrs. This course is graded S/U.			
8895.04	Veterinary Histopathology Seminar	G	1
Weekly histopathology seminars to establish written and oral microscopic descriptive skills and correlate interpretation with pathogenesis. Prereq: Grad standing or permission of instructor. Not open to students with credit for 800.02. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.			
8999	Research in Veterinary Biosciences	G	1 - 10
Research for dissertation purposes only. Prereq: Grad standing in Veterinary Medicine program; or permission of instructor. Not open to students with max credit for 999. Repeatable to a maximum of 60 cr hrs or 60 completions. This course is graded S/U.			

Veterinary Clinical Sciences

4998.02	Individual Studies in Veterinary Clinical Sciences, Undergraduate Research Project	U	1 - 8
A supervised critical investigation of some aspects of animal disease about which there is mutual curiosity of both the student and faculty. This course covers the research experiences of undergraduate students. Prereq: Permission of instructor. Repeatable to a maximum of 30 cr hrs.			
7193.01	Independent Studies in Veterinary Clinical Sciences	G V	1 - 8
A supervised critical investigation of some aspects of animal disease about which there is mutual curiosity of both students and faculty. This course covers research experiences of Masters students and Doctoral students prior to candidacy. Prereq: Standing in Veterinary Medicine program, or Grad standing. Repeatable to a maximum of 60 cr hrs or 60 completions. This course is graded S/U.			
7193.02	Individual Studies in Veterinary Clinical Sciences	G V	1 - 2
A supervised critical investigation of some aspects of animal disease about which there is mutual curiosity of both students and faculty. The faculty and student agree on a course project suitable for a letter grade. Prereq: Grad or Prof standing in Veterinary Medicine program, and permission of instructor. Repeatable to a maximum of 5 cr hrs.			
7194.01	Group Studies in Veterinary Clinical Sciences	G V	1 - 3
Group studies course in topic areas of veterinary clinical sciences. Prereq: Grad standing in Veterinary Medicine program, or equiv. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.			
7194.02	Group Studies in Veterinary Clinical Sciences	G V	1 - 3
Graded group studies course in topic areas of veterinary clinical sciences. Prereq: Grad standing, DVM or equivalent, or veterinary medicine program standing.			
7622	Advanced Equine Medical and Surgical Procedures	V	1
A laboratory course designed to develop skills in ultrasound examination, proper use of diagnostic nerve blocks and intra-articular injections, and surgical procedures in the horse. Prereq: 3rd yr standing in Veterinary Medicine program.			
7700.99	Applied Veterinary Medicine: General Rotation	V	1
Students participate in various clinical rotations to reinforce knowledge and clinical practice. Prereq: 4th yr standing in Veterinary Medicine program. This course is graded S/U.			
7711.01	Small Animal Internal Medicine: Advanced Veterinary Clinical Immunology	G	1
This course will provide an advanced understanding of the principles and mechanisms of the immune system and immune responses in the context of infection, metabolic disease and immunological disorders. Prereq: Permission of instructor.			
7711.03	Small Animal Internal Medicine: Hematology and Oncology	G	1
This course will provide in depth discussion of our current understanding of bone marrow physiology and associated diseases, current understanding of coagulation and platelet function, and cover relevant topics in oncology. Prereq: Permission of instructor.			

7711.05	Small Animal Internal Medicine: Role of Microbes in Health and Disease	G	1
This course will provide in depth discussion of our current understanding of 1) how the gut microbiome aids in animal health; 2) how the gut microbiome is altered during various disease states; 3) techniques used to define the gut microbiome; and 4) evidence-based modulation of the gut microbiota in clinical patients. Prereq: Permission of instructor.			
7711.06	Small Animal Internal Medicine: Vascular Disease and Stress	G	1
This course will provide in depth discussion of our current understanding of 1) ways that stress influences disease, and 2) how to address these stressors and their resultant consequences; 3) diseases that affect vasculature in dogs and cats (e.g., hypertension, aberrant vasculature, thrombotic disease.) Prereq: Permission of instructor.			
7718	Clinical Problem Solving and Treatment in Small Animals I - Internal Medicine	V	2
Exposes the student to approximately 30 clinical cases likely to be encountered in internal medicine of sick dogs and cats using an interactive format with progressive disclosure of information to the students. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 718.			
7719	Clinical Problem Solving and Treatment in Small Animals II - Medical Subspecialties	V	2
Problem-oriented course using case discussions to teach the diagnostic and therapeutic approach to the most common clinical problems in small animal internal medicine. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 719.			
7720	Introduction to Small Animal Clinical Nutrition	V	1
Basic concepts and principles of veterinary clinical nutrition and application of these concepts and principles to the nutritional care of small animal patients. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 720.01.			
7721	Dialysis Therapy	G	1
Introduction to principles and practice of dialysis and related therapies.			
7722	Clinical Problems in Small Animal Cardiology	V	1
Skills in physical examination, radiographic and electrocardiographic interpretation, and management of common cardiovascular diseases in a small group setting. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 722.			
7723	Emergency & Critical Care Volunteer Program	V	1
Clinical exposure to emergency receiving and medical management of hospitalized patients in the intensive care unit through volunteer shifts with the emergency and critical care service and attendance at clinical teaching rounds. Prereq: 1st (second semester), 2nd, or 3rd yr standing in Veterinary Medicine program. Repeatable to a maximum of 2 or hrs. This course is graded S/U.			
7724	Feline Medicine	V	1
Survey of medical diseases unique to the cat and their management. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 724. This course is graded S/U.			
7727	Avian Medicine and Surgery	V	2
An overview of all aspects of avian medicine including nutrition, behavior, captive management, diagnostic and therapeutic techniques, disease problems, anesthesia and surgery. Includes companion birds, wildlife, backyard poultry and zoo species. Prereq: 2nd or 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 727.			
7732	Equine Lameness and Gait Abnormalities	V	1½
Acquaints students with conditions of the horse that produce gait abnormalities as the presenting clinical complaint. Prereq: 2nd or 3rd year standing in Veterinary Medicine program. Not open to students with credit for 732.			
7733	Advanced Equine Medicine	V	2
Common medical problems in adult horses and foals using a problem-oriented, intensive approach. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 733.			
7737	Equine Intensive Care	V	1
Students will be taught to critically evaluate, treat and monitor patients in the equine intensive care unit through supervised patient contact and weekly seminars. Prereq: 2nd yr standing in Veterinary Medicine program. This course is graded S/U.			
7738	Basic Equine Medicine	V	2
Basic equine medicine and surgery, particularly as it applies to the pleasure horse population. Presented from the generalist's perspective and addressing problems most frequently encountered. Prereq: 2nd or 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 738.			
7743	Basic Exotic Animal Medicine - Small Mammals	V	2
Provides a basic background for a new graduate veterinarian regarding exotic species commonly treated in a companion animal setting. The focus will be on mammalian species. Prereq: Grad or professional standing in Veterinary Medicine program. Not open to students with credit for 743.			
7746	Cattle Diseases	G V	4
Diagnosis and treatment of medical and surgical diseases of individual cattle. Prereq: 2nd or 3rd yr standing in Veterinary Medicine program, or Grad standing.			

7747	Small Ruminant Medicine and Surgery	G V	2
Common medical, surgical, and management related problems in sheep, goats, and South American camelids. Prereq: DVM or equiv, or 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 747.			
7749	Equine Ophthalmology	V	1
Comprehensive problem-based discussions of equine ophthalmic cases, clinical patient examinations, and stall-side rounds, ophthalmic techniques laboratory and cadaver surgery laboratory. Prereq: VMColl 6612; 3rd year standing in Veterinary Medicine program. Not open to students with credit for 749.			
7750	Veterinary Anesthesia and Analgesia Pharmacology	G	2
Pharmacology of sedatives, anesthetics, and analgesics, pain mechanisms, and therapies as related to veterinary clinical patients.			
7753	Advanced Topics in Veterinary Clinical Neurology: Neuroradiology	G	3
Discussion of current literature and review of topics in veterinary neuroimaging. Familiarizes the student with MRI physics, normal neuroanatomy, and imaging findings of common ophthalmic diseases in small and large animals. Students must be veterinary neurology and neurosurgery residents to enroll.			
7754	Veterinary Clinical Oncology	V	2
Provides veterinary students with advanced knowledge and understanding of oncology, including cancer diagnosis, chemotherapy, and client communications. Prereq: Third-year standing in veterinary medicine program.			
7762	Clinical Veterinary Ophthalmology	V	1
A problem-based approach to differential diagnosis, final diagnosis, and treatment of ophthalmic diseases in large and small animals. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 762. This course is graded S/U.			
7768	Integrative Medicine	V	1
Overview of integrative medicine, including discussion of the basic science behind complementary modalities as well as their clinical effectiveness. Research considerations also will be presented. Prereq: 1st (second semester), 2nd, 3rd, or 4th yr standing in Veterinary Medicine program. This course is graded S/U.			
7771	Applied Veterinary Clinical Dermatology	G V	1
Case-based problem-oriented studies of common dermatologic problems in dogs and cats. Prereq: 6606, and 3rd yr standing in Veterinary Medicine program or Grad standing; or permission of instructor.			
7775	Anesthesia Case Management	V	1
Covers anesthetic management of veterinary patients for elective and emergency procedures. Prereq: Third-year standing in veterinary medicine program.			
7779	Equine Colic Team	V	1
Diagnosis, treatment, and prevention of diseases of the equine gastrointestinal system. A practical course, in which the students are assigned on-call duty for emergency colic patients. Prereq: 2nd or 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 796.03. Repeatable to a maximum of 2 or hrs. This course is graded S/U.			
7780	Environmental Enrichment for Shelter Dogs	V	1
Review the scientific literature on enrichment in shelter animals and discuss practical means of implementation. It will include discussion of means to identify and mitigate stress in shelter dogs to increase their adoptability and hands on involvement with implementing a behavioral enrichment program for dogs at the Franklin County Dog Shelter. Prereq: Standing in the Veterinary Professional curriculum. Repeatable to a maximum of 2 or hrs. This course is graded S/U.			
7781	Top 20 Medical Conditions in Dogs	V	2
This is a pilot course for third-year DVM student learners who are interested in small animal primary care practice employment and who wish to gain comfort with the ambiguity presented in managing typical cases in that setting. This course is graded S/U.			
7791	Small Animal Theriogenology	G V	1
Control of reproductive function in dogs and cats and how to diagnose and devise a treatment plan for infertility due to infectious and noninfectious causes. Prereq: 2nd or 3rd yr standing in Veterinary Medicine program, or Grad standing.			
7793	Lectures in Equine Theriogenology	G V	2
Focuses on the pathophysiology of common reproductive disorders and how to devise plans to treat common reproductive disorders in horses. Prereq: 2nd or 3rd yr standing in the Veterinary Medicine program or grad standing. Not open to students with credit for 791.01.			
7794	Equine Theriogenology Laboratory	V	1
A laboratory session that will enable students to practice techniques for assessing reproductive function and fertility potential of horses. Prereq: 3rd yr standing in Veterinary Medicine program, and enrollment in the Equine Career Area of Emphasis; or permission of instructor. Concur: 7793. Not open to students with credit for 791.01.			
8100	Nuclear Medicine and Special Procedures in Diagnostic Imaging	G	2
Reviews basic principles of special procedures in diagnostic imaging. Interpretive principles using case examples and a current review of the literature will be targeted with a focus on the ACVR Examination Objectives. Prereq: Students must have a DVM/VMD, or equiv degree; or permission of instructor.			

432 Veterinary Clinical Sciences

8200 Clinical and Didactic Teaching in Veterinary Medicine G 2

A didactic course presenting lectures on teaching theory, and best teaching practices for clinical, didactic, and small groups.

8600.01 Advanced Topics in Comparative Behavioral Medicine G 1

Course familiarizes the student with comparative behavioral medicine by critical review and evaluation of the current and past literature in both human and veterinary medicine with emphasis on study design, methodology, and data interpretation. Prereq: DVM or equiv, or permission of instructor.

8600.02 Advanced Topics in Comparative Behavioral Medicine G 1

Course familiarizes the student with comparative behavioral medicine by critical review and evaluation of the current and past literature in both human and veterinary medicine with emphasis on study design, methodology, and data interpretation. Prereq: DVM or equiv, or permission of instructor. Repeatable to a maximum of 8 cr hrs. This course is graded S/U.

8601.02 Advanced Topics in Veterinary Psychopharmacology II G 2

Course includes a review of psychopharmacology, including mechanism of action, side effects of veterinary psychotropic drugs. Metabolism and excretion of drugs, drug interactions, and combination therapies and their clinical use also discussed.

8781 Research Methods and Grantsmanship G 1

Introduction to grantsmanship, including the development of a research question, use of appropriate statistical methods, and the preparation of a research proposal that will be reviewed by the class. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 800.

8782.01 Techniques in Ophthalmic and Vision Research I G 1

Familiarizes students with current research techniques in comparative ophthalmology. This will include, but not be limited to PCR, cell culture, drug delivery, immunohistochemistry and other common ophthalmic research tools. Prereq: DVM or equiv, or permission of instructor.

8782.02 Techniques in Ophthalmic and Vision Research II G 1

Familiarizes the student with current research techniques in comparative ophthalmology. This will include, but not be limited to PCR, cell culture, drug delivery, immunohistochemistry and other common ophthalmic research tools. Prereq: 8782.01, and DVM, or equiv; or permission of instructor.

8783 Experimental Design & Data Analysis in Veterinary & Comparative Medicine I G 1

Principles and practice of study designs and data analyses commonly used in veterinary and comparative medical research. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 801.

8784 Experimental Design & Data Analysis in Veterinary & Comparative Medicine II G 1

Introduction to the principles and practice of study designs and data analyses commonly used in veterinary and comparative medical research. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 801.

8791 Clinical Correlations in Large Animal Medicine & Surgery G 1

The purpose of this course is to develop clinical expertise in large animal medicine through interactive case-based discussions covering pathophysiology, clinical medicine, treatment, and prognosis. Evidence-based medicine will be emphasized. Prereq: DVMs in residency/Grad programs, or by petition of team leader. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

8820 Advanced Small Animal Internal Medicine - Endocrinology G 2

This course will provide in depth discussion of 1) physiology (and pathophysiology) of endocrine pathways, and 2) how to effectively diagnose various endocrinopathies; 3) how to most effectively manage various endocrinopathies in small animals.

8822.02 Advanced Veterinary Internal Medicine: Gastroenterology G 2

In-depth review of the pathophysiology, diagnosis, and medical treatment of selected gastrointestinal diseases of dogs and cats. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 822.02.

8822.11 Advanced Veterinary Internal Medicine: Comparative Structure and Function of the Integument G 2

Normal anatomy, physiology and functions of the skin and related structures. Prereq: DVM or equiv; or permission of instructor.

8822.12 Advanced Veterinary Internal Medicine: Otology and Audiology G 1

Designed to introduce the student to the basics of ear disease and audiology. Prereq: DVM or equiv; or permission of instructor.

8824 Congenital Heart Disease in Animals G 3

An overview and in-depth analysis of congenital malformations of the heart and great vessels in veterinary species. Complex lesions are emphasized, with a focus on the pathophysiology and diagnostic findings. Subject to approval by course leader. Grad students must be in good academic standing, and they must be a current resident in cardiology or with permission of the team leader to register. Prereq: Permission of instructor.

8826 Cardiac Catherterization in Veterinary Medicine: Hemodynamics, Angiography & Intervention G 3

Principles and practices of obtaining hemodynamic measurements; performing angiographic techniques for cardiac diagnosis; and delivery of catheter-based therapies in veterinary medicine. Prereq: Enrollment in Adv Cardiology Training, or permission of instructor.

8833.01 Advanced Veterinary Surgery: Anesthesia & Critical Care G 2

Review of physiology and medical intervention for selected topics including cardiorespiratory resuscitation, sepsis, and ischemia/reperfusion in veterinary anesthesia and critical care; comparison to similar topics in human medicine when appropriate. Prereq: DVM or equiv; or permission of instructor.

8833.02 Advanced Veterinary Surgery: Surgical Oncology G 1

The purpose of this course is to provide information about surgical oncology, radiation oncology, and the most recent surgical options to treat cancer. Laboratories will be provided to apply surgical techniques for maxillectomy/mandibulectomy. Repeatable to a maximum of 2 cr hrs.

8833.03 Advanced Veterinary Surgery: Respiratory and Thoracic Surgery G 3

Fundamental respiratory pathophysiology, diagnostic techniques for respiratory disease, and respiratory and thoracic surgery methodology in comparative veterinary surgical sciences. Prereq: DVM or equiv, or permission of instructor.

8833.05 Advanced Surgical Sciences: Gastroenterology G 3

The purpose of this course is to provide information about the pathophysiology, anatomy, diagnosis and treatment of medical and surgical disorders of the gastrointestinal tract. Prereq: DVM or equiv., or permission of instructor.

8833.07 Advanced Veterinary Surgery: Musculoskeletal Surgery G 3

Fundamental concepts, principles, and procedures of musculoskeletal surgery in domestic animals. Prereq: DVM or equiv; or permission of instructor.

8833.10 Advanced Veterinary Ocular Microsurgical Techniques I G 2

Cover microsurgical instrumentation, surgical microscopes, care of microsurgical equipment, microsurgical principles and techniques pertaining to the eye. This will include advanced blepharoplastic, corneal and intraocular surgery. Prereq: Veterinary Ophthalmology Resident, or permission of instructor.

8833.11 Advanced Veterinary Ocular Microsurgical Techniques II G 2

Covers microsurgical instrumentation, surgical microscopes, care of microsurgical equipment, microsurgical principles and techniques pertaining to the eye. Will include advanced blepharoplastic, corneal and intraocular surgery. Prereq: VetClin 8833.10, and Veterinary Ophthalmology Resident; or permission of instructor.

8844.02 Advanced Large Animal Internal Medicine: Medical and Surgical Gastrointestinal Diseases G 2½

Comprehensive review of medical and surgical diseases of the gastrointestinal system of horses and ruminants. Prereq: DVM or equiv; or permission of instructor.

8844.04 Advanced Large Animal Internal Medicine: Neurology G 2½

Pathophysiology, diagnosis and management of diseases of the nervous system of large animals. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 822.04.

8844.05 Advanced Large Animal Internal Medicine: Hematology and Oncology G 2½

Physiology and pathophysiology of the hemic lymphatic system in large animals. Additionally, diagnosis and management of selected neoplastic conditions will be discussed. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 822.07.

8844.06 Advanced Large Animal Internal Medicine: Musculoskeletal Diseases G 1

Physiology, pathophysiology and diseases of the musculoskeletal system in large animals. Prereq: DVM or equiv; or permission of instructor.

8844.12 Advanced Large Animal Internal Medicine: Toxicology G 1

Review and update on toxic agents in large animals. Prereq: DVM or equiv; or permission of instructor.

8844.13 Large Animal Internal Medicine Seminars: Neonatology G 1

Focuses on conditions affecting neonates of large animal species covering pathophysiology, clinical medicine, treatment, and prognosis. Emphasis will be on current knowledge and recent comparative literature. Prereq: This course is for DVMs in residency/graduate programs or by petition of the team leader.

8844.14 Advanced Large Animal Internal Medicine: Special Topics G 1

The purpose of this course is to present and discuss the most recent literature / topics (clinical, research) in large animal internal medicine that are not covered in other courses, but that are relevant to residents and grad students. Prereq: DVMs in residency/Grad programs, or by petition of team leader. Repeatable to a maximum of 2 cr hrs.

8855.01 Advanced Veterinary Surgery: Large Animal Urogenital G 2

Students will review urinary physiology and pathophysiology, and will be introduced to the principles of urogenital surgery. Specific large animal urinary and genital conditions and surgical approaches will be covered.

8855.02 Advanced Veterinary Surgery: Gastrointestinal Surgery G 2

Covers advanced large animal surgical techniques of the gastrointestinal tract. Current literature will be reviewed and pathophysiology and medical case management will also be included in the lecture series.

8871 Small Animal Abdominal Ultrasound G 1

Basics of ultrasound physics and a review of the normal and abnormal sonographic appearance of abdominal structures in small animals. Introduction to Doppler imaging, contrast ultrasound, and ultrasound-guided aspirates. Prereq: DVM or equiv; or permission of instructor.

8872 Advanced Equine Sport Horse Surgery G 1

Systematic exposure of the advanced surgery trainee to the "art and science" of arthroscopy, specifically equine arthroscopy, using current textbooks as the guide for complete coverage of equine arthroscopy.

8873 Anesthesia of the Large Animal Patient G 3

Course includes a review of anesthetic risk, pharmacology of anesthetic drugs, pain, and CPR with an emphasis on equine and ruminant patient. The focus of this course is on all aspects of the anesthetic process in the equine and ruminant patient.

8874 Anesthesia of the Small Animal Patient G 4

Course includes a review of anesthetic risk, specific disease conditions in small animal patient with an emphasis on specific domains of the ACVAA board exam and job task analysis.

8894.02 Advanced Comparative Clinical Ophthalmology II G 1

Familiarizes the student with comparative ophthalmology. Case material will be used to enhance student knowledge of diseases and treatment of the anterior and posterior segment and ocular adnexa. Prereq: DVM or equiv; or permission of instructor.

8894.03 Advanced Comparative Clinical Ophthalmology III G 1

Familiarize the student with comparative ophthalmology. Case material will be used to enhance student knowledge of diseases and treatment of the anterior and posterior segment and ocular adnexa. Prereq: DVM or equiv; or permission of instructor.

8894.06 Radiology Known Case Conference Intermediate I G 2

Teach and train radiology graduate students the correct approach to diagnostic image interpretation during their three year program. Radiology graduate students are expected to formulate a ranked list of differential diagnoses and discuss other diagnostic modalities that may aid in further determining a diagnosis. Discussion of pathophysiology will be included. Prereq: 8894.04 and 8894.05, and Veterinary Diagnostic Imaging residency.

8894.07 Radiology Known Case Conference Intermediate II G 2

Teach and train radiology graduate students the correct approach to diagnostic image interpretation during their three year program. Radiology graduate students are expected to formulate a ranked list of differential diagnoses and discuss other diagnostic modalities that may aid in further determining a diagnosis. Discussion of pathophysiology will be included. Prereq: 8894.04, 8894.05, and 8894.06, and Veterinary Diagnostic Imaging Residency.

8894.08 Radiology Known Case Conference Advanced I G 2

Teach and train radiology graduate students the correct approach to diagnostic image interpretation during their three year program. Radiology graduate students are expected to formulate a ranked list of differential diagnoses and discuss other diagnostic modalities that may aid in further determining a diagnosis. Discussion of pathophysiology will be included. Prereq: 8894.04, 8894.05, 8894.06, and 8894.07, and Veterinary Diagnostic Imaging residency.

8894.09 Radiology Known Case Conference Advanced II G 2

Teach and train radiology graduate students the correct approach to diagnostic image interpretation during their three year program. Radiology graduate students are expected to formulate a ranked list of differential diagnoses and discuss other diagnostic modalities that may aid in further determining a diagnosis. Discussion of pathophysiology will be included. Prereq: 8894.04, 8894.05, 8894.06, 8894.07, and 8894.08, and Veterinary Diagnostic Imaging Residency.

8895.02 Advanced Topics in Veterinary Clinical and Comparative Oncology G 1

Critical review of literature on topics related to veterinary clinical and comparative (animal and human) oncology and neoplastic pathology review. Prereq: DVM or equiv; or permission of instructor. Repeatable to a maximum of 6 cr hrs.

8895.04 Advanced Topics in comparative Diagnostic Imaging G 1

Familiarize radiology residents and graduate students with comparative diagnostic imaging by critical review of the biomedical literature. Emphasis on evaluation of study design, methodology, and data interpretation. Prereq: DVM or equiv; or permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.

8895.05 Advanced Veterinary Endoscopy G 1

The student will be able to critically understand the standard procedures performed in small animal internal medicine with respect to techniques, required equipment, procedural decision-making, associated risks, and endoscopic interpretation.

8895.07 Advanced Topics in Veterinary Neurology G 1

A small-group course based on the discussion of the current literature and review of topics of neuroimaging and neuropathology with clinical correlations. Prereq: DVM or equiv, or permission of instructor. Repeatable to a maximum of 18 cr hrs. This course is graded S/U.

8895.12 Advanced Comparative Ophthalmology G 1

Familiarize the student with comparative ophthalmology by critical review and evaluation of the current and past biomedical literature with emphasis on study design, methodology, and data interpretation. Prereq: DVM or equiv; or permission of instructor. Repeatable to a maximum of 9 cr hrs. This course is graded S/U.

8895.13 Journal Review in Comparative Emergency and Critical Care G 1

Familiarize the student with comparative Emergency and Critical Care. The current and past primary literature from selected peer-reviewed journals will be critically reviewed with regards to study design, methodology and data interpretation. Prereq: DVMs in residency/graduate programs, or by petition of the team leader. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

8896.05 Dermatopathology II G 1

Familiarizes students with interpretation of dermatopathology by pattern analysis. Recognition of subtle changes, cellular infiltrates and infectious organisms will be emphasized to allow development of differential diagnoses. Prereq: DVM or equivalent, or permission of instructor.

8896.09 Comparative Ocular Histology I G 1

Familiarizes the student with comparative ocular histology and ocular histopathology. Illustrative histopathologic case material will be used to facilitate discussion of disease processes. Prereq: DVM or equivalent, or permission of instructor.

8896.11 Comparative Ocular Histology III G 1

Familiarizes the student with comparative ocular histology and ocular histopathology. Illustrative histopathologic case material will be used to facilitate discussion of diseases processes. Prereq: DVM or equivalent, or permission of instructor.

8896.14 Advanced Farm Animal Surgery G 2

An in depth study of special topics including the surgical conditions and surgical treatments of cattle, small ruminants, and pigs. Prereq: Resident/grad students in large animal, or permission of team leader.

8896.17 Journal Review in Comparative Emergency and Critical Care G 1

Familiarize the student with comparative Emergency and Critical Care. The current and past primary literature from selected peer-reviewed journals will be critically reviewed with regards to study design, methodology and data interpretation. Prereq: DVMs in residency/graduate programs, or by petition of the team leader.

8896.18 Book Club in Comparative Emergency and Critical Care G 1
1 - Renal Physiology

Covers the principles and practice of applied renal physiology as relevant to residents in the Emergency and Critical Care residency program. Prereq: DVMs in residency/graduate programs, or by petition of the team leader.

8896.19 Book Club in Comparative Emergency and Critical Care G 1
2-Coagulation and Specific Systems

Covers basic and applied physiology of coagulation/coagulation disorders. It will also cover applied systems physiology (GI, reproductive, neurologic, ophthalmologic) and nutrition as relevant to Critical Care Medicine. Prereq: DVMs in residency/graduate programs, or by petition of the team leader.

8896.20 Book Club in Comparative Emergency and Critical Care G 1
III-App Respiratory Physiology and SIRS/Sepsis

Covers the principles and practice of applied respiratory physiology. It will also cover the pathophysiology and management of SIRS and sepsis as relevant to residents in the Emergency and Critical Care residency program. Prereq: DVMs in residency/Grad programs, or by petition of the team leader.

8896.21 Book Club in Comparative Emergency and Critical Care G 1
IV-Shock, Trauma, and CPR

Covers the physiology and management of trauma and shock. It will also cover the principles and practice of cardiopulmonary resuscitation as relevant to residents in the Emergency and Critical Care residency program. Prereq: DVMs in residency/Grad programs, or petition of team leader.

8896.22 Book Club in Comparative Emergency and Critical Care G 1
5-Applied Cardiovascular Physiology

Covers the principles and practice of applied cardiovascular physiology and therapeutics as relevant to residents in the Emergency and Critical Care residency program. Prereq: DVMs in residency/Grad programs, or by petition of the team leader.

8896.23 Book Club in Comparative Emergency and Critical Care G 1
6-Mech Ventilation, Monitoring, Inflammation

Covers the principles and practice of patient monitoring in the ICU, the use of mechanical ventilation, and the pathophysiology of inflammation as relevant to residents in the Emergency and Critical Care residency program. Prereq: DVMs in residency/Grad programs, or by petition of the team leader.

8896.25 Advanced Topics in Anesthesiology: Respiratory Physiology G 1

A small group course based on discussion of respiratory physiology as it pertains to anesthetic practice. Course format involves review and presentation of information from "Respiratory Physiology" by West, as well as other textbooks and journals. Prereq: Veterinary Anesthesiology resident, or permission of team leader.

434 Veterinary Clinical Sciences

8896.27	Large Animal Surgery Current Literature	G	1
This course will be presented in journal club style, with participants presenting current literature related to equine and farm animal surgery. Repeatable to a maximum of 3 cr hrs.			
8897	Advanced topics in veterinary neurology: Neuromuscular disease	G	3
This course is designed to provide advanced, graduate level exposure to electrodiagnostic techniques and diagnosis and treatment of neuromuscular diseases in veterinary medicine. Prereq: Enrollment in the OSU CVM Veterinary Neurology combined residency and graduate program; or permission of the instructor.			
8999	Research in Veterinary Clinical Sciences	G	1 - 15
Research for dissertation purposes only. Repeatable. This course is graded S/U.			

Veterinary Medicine

6000	JUMPSTART	V	0 - 6
In JUMPSTART, students learn foundational concepts needed for learning veterinary science in the first year of study. This course is graded S/U.			
6100	DVM Experience I	V	½
In this course, students experience Veterinary Medicine in a professional setting different from their previous background or primary interest to widen individual opportunities in the professional veterinary world. This course is graded S/U.			
6110	Healthy Animals I	V	6
In Healthy Animals 1 students learn about the normal structure and function of common domestic species. Content is organized into blocks according to each body region using the physical exam as the basis for arrangement. This course covers Healthy Head/Neck, Healthy Limbs, Healthy Thorax, and Animal Behavior. This course is graded S/U.			
6120	Healthy Populations I	V	5
In Healthy Populations 1 students learn how populations of animals stay healthy and how animals, humans, and the environment co-exist. Students explore the foundational methods that veterinarians use to keep populations safe and the various roles that veterinarians take in ensuring population health. This course is graded S/U.			
6200	DVM Experience 1B	V	½
In this course, students experience Veterinary Medicine in a professional setting different from their previous background or primary interest to widen individual opportunities in the professional veterinary world. This course is graded S/U.			
6210	Healthy Animals 1B	V	6
In Healthy Animals 1B students learn about the normal structure and function of common domestic species. Content is organized into blocks according to each body region using the physical exam as the basis for arrangement. This course covers Healthy Abdomen, Healthy Pelvis, Staying Healthy, and Whole Animal Concepts. This course is graded S/U.			
6220	Healthy Populations 1B	V	5
In Healthy Populations 1B students learn how diseases within populations can be prevented and controlled and how animals, humans, and the environment co-exist. Students also learn the laws and regulations that veterinarians use to ensure population health. This course is graded S/U.			
6310	Diseases & Diagnoses 1A	V	6½
In Diseases and Diagnoses 1A, students learn about mechanisms of disease and how to identify, explain, and diagnose diseases within the nervous, musculoskeletal, urinary, and reproductive systems. This course is graded S/U.			
6320	Population Medicine 1A	V	4
In Population Medicine 1A, students expand on their learning from the Year 1 Healthy Populations 1A course and shift their focus toward population disease, diagnostics, and evidence-based methods for management. This course is graded S/U.			
6410	Identifying Diseases and Diagnoses 2B	V	6½
In Identifying Diseases and Diagnoses 2B, students learn how to identify, explain, and diagnose diseases within the respiratory, cardiovascular, digestive, endocrine, and integumentary systems. Students also learn about oncology, behavior, and fundamentals of pharmacology and toxicology. This course is graded S/U.			
6420	Population Medicine 2B	V	4
In Population Medicine 2B, students expand on their learning from the Year 2 Population 2A course and shift their focus toward disease prevention and control within populations, laws and regulations that govern population management methods, and the evidence used to justify management decisions. This course is graded S/U.			
6510	Veterinary Preventive Medicine I: Introduction to Epidemiology and Population Systems	V	2½
Descriptive and analytical epidemiology, including design, analysis, and interpretation of results; host, agent, and environmental factors in disease causation. Prereq: 1st yr standing in Veterinary Medicine program.			
6520	Gross Anatomy I	V	3½
Body and its components as forms, relationships, and mechanical functioning. Prereq: 1st yr standing in Veterinary Medicine program.			

6521	Gross Anatomy II	V	4
Study of the structure and function of body systems of domesticated herbivores using the equine species as a model for dissection. Common anatomic features and species specific differences of the various systems are highlighted. Prereq: 1st yr standing in Veterinary Medicine program.			
6525	Introduction to Veterinary Diagnostic Radiology	V	1
Radiation physics and safety; basic principles of image interpretation; normal radiographic anatomy of small and large animals. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 525 or 526.			
6530	Comparative Structure and Function of Tissues	V	2½
Correlated study of the development, microscopic structure, and ultrastructural morphology of tissues. Prereq: 1st yr standing in Veterinary Medicine program.			
6540	Structure and Function of Cells	V	2
Introduction to structure and function at cellular level including physiological principles of homeostasis, energetics, metabolism, enzymes, nutrition, and growth. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 540.			
6550.01	Comparative Biology of Disease 1: General Pathology and Immunology	V	3
An interdisciplinary study of the interactions between disease producing agents, body systems, tissues, cells, subcellular units, and selected drugs and toxins. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 550.01.			
6550.02	Comparative Biology of Disease II: Animal Pathogens	V	3
An interdisciplinary study of the interactions between disease producing agents, body systems, tissues, cells, subcellular units, and selected drugs and toxins. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 550.02.			
6561	Principles of Veterinary Pharmacology	V	2
Basic principles of pharmacology, pharmacodynamics, pharmacokinetics, and therapeutics. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 561.			
6565	Introduction to Animal Welfare	V	1
Historical, philosophical and scientific developments that have led to our current understanding of animal welfare and how it should be assessed. Welfare issues related to the different uses of animals in society. Prereq: 2nd yr standing in Veterinary Medicine program.			
6570.01	Introduction to Clinical Veterinary Medicine	V	1
Introduction to the basic concepts and skills required to practice clinical veterinary medicine, including the approach to a veterinary case, and some basic psychomotor, surgical and cognitive skills required by clinicians. Prereq: 1st yr standing in Veterinary Medicine program. This course is graded S/U.			
6570.03	Clinical Reasoning and Decision-Making	V	2
Serves as a capstone experience to provide students with the opportunity to integrate the clinical veterinary skills and knowledge required to "think and behave like a clinician" in preparation for their clinical year. Prereq: 3rd yr standing in Veterinary Medicine program.			
6600	Cardiovascular System	V	3
A comparative study of the structure, function, and dysfunction of the cardiovascular system including arrhythmias, abnormal flow, congenital disease, etiologic agents, diagnostic methods, and therapeutic approaches. Prereq: 2nd yr standing in Veterinary Medicine program. Not open to students with credit for 600.			
6601	Respiratory System	V	3
A comparative study of the structure, function, and dysfunction of the respiratory system including reaction to injury, ventilation defects, pneumonias, neoplastic disease, radiological diagnosis, and therapeutic approaches. Prereq: 2nd yr standing in Veterinary Medicine program. Not open to students with credit for 601.			
6602	Urinary System	G V	2½
A comparative study of the structure, function, and dysfunction of the urinary system including diseases of the kidney, bladder, and urethra, and their diagnosis and treatment. Prereq: Grad standing or 2nd yr standing in Veterinary Medicine program.			
6603	Nervous System	V	3½
Comparative study of the structure, function and dysfunction of the nervous system including functional anatomy, pathology, and clinical evaluation of the brain and spinal cord. Prereq: 2nd yr standing in Veterinary Medicine program.			
6604	Endocrine System	V	2½
A comparative study of the anatomy, physiology, and pathology of the major endocrine systems and an introduction to diagnosis and treatment of endocrine disorders. Prereq: 2nd yr standing in Veterinary Medicine program.			
6605	Reproductive System	V	3
A comparative study of the structure, function, and dysfunction of the reproductive system including etiologic, pathogenic, pathophysiologic, therapeutic, and preventive aspects of reproductive diseases. Prereq: 2nd yr standing in Veterinary Medicine program. Not open to students with credit for 605.			

6606	Integumentary System	V	3
Study of the structure and function of the skin and ears as a basis for studying diseases of these organs. A problem-based approach to recognition, diagnosis and treatment of skin and ear diseases of domestic animals. Prereq: 2nd yr standing in Veterinary Medicine program. Not open to students with credit for 606.			
6607	Musculo-skeletal System	V	2½
A comparative study of the structure, function, and dysfunction of the musculoskeletal system including congenital and acquired diseases, their radiographic diagnosis, treatment, and prevention. Prereq: 1st yr standing in Veterinary Medicine program.			
6609	Digestive System	V	3½
A comprehensive study of the gastrointestinal system of domestic animals. Prereq: 2nd yr standing in Veterinary Medicine program.			
6610.01	Clinical Veterinary Parasitology	V	1
Clinical aspects of parasitic infections of cats, dogs, horses, cattle and small ruminants, including symptoms diagnosis treatments, control measures and zoonotic concerns. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 610.			
6610.02	Applied Clinical Veterinary Parasitology	V	1
Laboratory methods used in the diagnosis of parasitic infections in small and large animals. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 616.			
6611	Veterinary Preventive Medicine III: Public Veterinary Practice	V	2
Application of veterinary preventive medicine in society with an emphasis of the importance of the veterinary profession in safeguarding animal and public health. Prereq: Third year standing in VMColl.			
6612	Introduction to Comparative Veterinary Ophthalmology	V	2
Comparative anatomy, histology and physiology of the normal and abnormal eye and adnexa of domestic animals. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 612.			
6613.01	Thinking and Reasoning with Integrated Problems I-A	V	3
In Integrated Problems 1A students apply content learned from didactic courses to clinical cases. Students learn and practice the ways in which veterinary practitioners use various thinking frameworks, observe patients, and gather evidence to make a working problem list. This course is graded S/U.			
6613.02	Thinking and Reasoning with Integrated Problems 1B	V	3
In Integrated Problems 1B students apply content learned from didactic courses to clinical cases. Students learn and practice the ways in which veterinary practitioners use various thinking frameworks, observe patients, and gather evidence to refine a working problem list and begin creating a diagnostic plan. This course is graded S/U.			
6613.03	Thinking and Reasoning with Integrated Problems 2A	V	3
In Integrated Problems 2A, students continue their learning from Year 1 Integrated Problems 1b and expand their approach to clinical cases. Students apply knowledge they learn in their didactic courses to identify and diagnose various problems within individual and population medicine. This course is graded S/U.			
6613.04	Thinking and Reasoning with Integrated Problems 2B	V	3
In Integrated Problems 2B, students continue their learning from Year 2 Integrated Problems 2A and expand their approach to clinical cases by adjusting plans based on new information and exploring initial treatment options. Students apply knowledge they learn in their didactic courses to identify, diagnose, and treat various problems within individual and population medicine. This course is graded S/U.			
6614.01	Professional Identity Development 1A	V	1
Introduction to the profession, ethics, and a variety of communication and self management information and skills necessary to be successful in veterinary school, the veterinary profession and in life. Prereq: First year standing in VMColl. This course is graded S/U.			
6614.02	Professional Development I-B	V	1
Provides students with an introduction to leadership and builds on the foundations of ethics principles. Additional information on communication and self management is provided. Prereq: First year standing in VMColl. Not open to students with credit for 614.02. This course is graded S/U.			
6614.03	Professional Practice Development II-A	V	1
Introduction to social awareness and relationship management, continued discussion of leadership development and application of ethics to build on the foundations of ethics principles. Prereq: Second year standing in VMColl. This course is graded S/U.			
6614.04	Professional Development 2B	V	1
Advanced learning in social awareness, relationship management, leadership development and application of ethics to build on the foundation of ethics principles. Prereq: Second year standing in VMColl. This course is graded S/U.			
6614.05	Professional Development III-A	V	1
Career planning including establishing employment goals, preparing a budget and managing student debt. Resume development, interviewing strategies, evaluating employment offers, negotiation skills and understanding employment contracts. Prereq: 3rd yr standing in VMColl. Not open to students with credit for 614.05			

6614.06	Professional Development III-B	V	2
Continued application of ethical decision making, expression of views through case discussions and writing assignments. Foundation in laws regulating the practice of veterinary medicine and regulating animals in society. Prereq: 3rd yr standing in VMColl. Not open to students with credit for 614.06.			
6615.01	Communication and Collaboration I-A	V	1
In Communication and Collaboration 1A students explore the different ways that veterinarians communicate in their profession and practice the components of core communication skills. Students learn how to take a patient history and manage challenging communication situations with clients and colleagues. This course is graded S/U.			
6615.02	Communication and Collaboration 1B	V	1
In Communication and Collaboration 1B students explore the different ways that veterinarians communicate in their profession and practice the components of core communication skills. Students learn how to take a patient history and manage challenging communication situations with clients and colleagues. This course is graded S/U.			
6615.03	Communication and Collaboration 2A	V	1
Provides students with the foundational tools for effective communication and relationship building. Students will develop an appreciation for the interconnectivity of an informed and supportive community. Students will learn to communicate professionally and collaborate with others effectively in multiple modalities including verbal, written, media in both veterinary and lay terminology. This course is graded S/U.			
6615.04	Communication and Collaboration 2B	V	1
The Communication & Collaboration course provides students with the foundational tools for effective communication and relationship building. The course is part of a thread that runs throughout the core curriculum to assist students in developing, practicing, and refining these skills. This course is graded S/U.			
6616.01	Veterinary Clinical Skills I-A	V	3
Practical laboratory, providing students opportunities to become proficient in a wide array of hands-on skills relevant to veterinary clinical practice. Topics include basic surgical principles, general examination, as well as animal handling and management. Prereq: Enrollment in DVM program. This course is graded S/U.			
6616.02	Veterinary Clinical Skills 1B	V	3
Practical laboratory, providing students opportunities to become proficient in a wide array of hands-on skills relevant to veterinary clinical practice. Topics include basic surgical principles, general examination, as well as animal handling and management. This course is graded S/U.			
6616.03	Veterinary Clinical Skills II-A	V	3
Practical laboratory, providing students opportunities to become proficient in a wide array of hands-on skills relevant to veterinary clinical practice. Topics include basic surgical principles, general examination, animal handling and management, as well as basic diagnostic and treatment skills. Prereq: Enrollment in DVM program. This course is progress graded (S/U).			
6616.04	Veterinary Clinical Skills 2B	V	3
Practical laboratory, providing students opportunities to become proficient in a wide array of hands-on skills relevant to veterinary clinical practice. Topics include basic surgical principles, general examination, animal handling and management, as well as basic diagnostic and treatment skills. This course is graded S/U.			
6616.05	Veterinary Clinical Skills III-A	V	1½
Practical laboratory, providing students opportunities to become proficient in a wide array of hands-on skills relevant to veterinary clinical practice. Topics include surgical principles, and procedures common in diagnosis and treatment of animals. Prereq: Enrollment in DVM program.			
6616.06	Veterinary Clinical Skills III-B	V	1½
Practical laboratory, providing students opportunities to become proficient in a wide array of hands-on skills relevant to veterinary clinical practice. Topics include surgical principles, and procedures common in diagnosis and treatment of animals. Prereq: Enrollment in the DVM Program.			
6618	Clinical Pathology	V	4
Introduction to current concepts of clinical pathology (hematology, hemostasis, clinical chemistry, urinalysis, and cytology) and quality assurance. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 618.			
6635	Veterinary Preventive Medicine IV: Emerging Diseases	V	1
This veterinary course serves two roles: 1) increased awareness of emerging and exotic diseases of animals (EEDA) and the response to them and 2) initial accreditation training (IAT).			
6641	Introduction to Animal Behavior	V	2
Basic concepts and applications of animal behavior with implications for welfare. Emphasis on domesticated animals, with some coverage of laboratory and wild animals in captivity. Prereq: 1st yr standing in Veterinary Medicine program. Not open to students with credit for 641.			
6646	Veterinary Preventive Medicine II: Zoonotic Diseases	V	2
Recognition of zoonotic diseases in the US, host species, methods of transmission, risk factors for exposure, measures for control, prevention, and eradication. Prereq: Second year standing in VMColl. Not open to students with credit for 646.			

436 Veterinary Medicine

7190.01 Applied Veterinary Medicine Experience V 0 - 16

Field or laboratory study in the various areas of veterinary medicine through an approved experience with qualified professionals. Repeatable to a maximum of 52 cr hrs or 12 completions. This course is graded S/U.

7190.02 Applied Veterinary Medicine Experience V 2 - 16

Field or laboratory study in the various areas of veterinary medicine through an approved experience with qualified professionals. Prereq: 4th yr standing in Veterinary Medicine Program. Repeatable to a maximum of 22 cr hrs or 11 completions.

7200 Year 1 Comprehensive Exam V ½

The Year 1 Comprehensive Exam is a cumulative exam created by the OSU CVM faculty that assesses student performance on the core content learned during the first year of the OSU DVM Outcomes-Based Curriculum. This course is graded S/U.

7400 Year 2 Comprehensive Exam V 1

The Year 2 Comprehensive Exam is a cumulative exam that assesses student performance on the core content learned during the first year of the OSU DVM Outcomes-Based Curriculum. This course is graded S/U.

7526 Veterinary Diagnostic Imaging V 3

The detection, description, differential diagnosis, and case management of radiographic abnormalities. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 616.

7562 Introduction to Veterinary Anesthesiology V 2

Introduction to veterinary anesthesia. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 562.

7563 Introduction to Surgery V 2

Introduction to surgery. Prereq: Third year standing in VMcoll. Not open to students with credit for 563.

7564 Clinical Microbiology and Pharmacology of Antimicrobial Agents V 1

Detection and differential diagnoses of bacterial and fungal disease in domestic species and clinical pharmacology of antimicrobial and antifungal agents used in veterinary medicine. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 564.

7613 Veterinary Emergency and Critical Care Medicine V 2

Principles and applications of fluid therapy and emergency and critical care medicine in small and large animals. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 613.

7615.01 Small Animal Operative Practice V 4

Clinical instruction in and application of surgical techniques and treatment of small animal diseases. Prereq: 3rd yr standing in Veterinary Medicine program. Not open to students with credit for 615.01.

Veterinary Preventive Medicine

5335 Ecology of Infectious Diseases U G 3

This course provides an introduction to the dynamics and control of infectious disease in wildlife, including pathogens that may spillover to humans and domestic animals. We will also cover basic epidemiological models, management of disease in free-ranging and captive populations, and disease control policy. The content is suitable for upper level undergraduate, graduate, and professional students. Prereq: Biology 1101, 1113, or equiv.; or permission of instructor. Cross-listed in ENR and PubHEHS.

5721 Introduction to Zoonoses U G 2

This course is focused on providing an overview of the basic characteristics of common and emerging diseases that are shared between humans and animals; these diseases are defined as zoonotic. Prereq: AnimSci 3170, 3270, or Micrbio 4000, or equiv., or permission of instructor.

7193.01 Individual Studies in Veterinary Preventive Medicine G V 1 - 8

Laboratory and library investigations of animal disease problems involving veterinary preventive medicine. Covers the research experiences for Masters students and Doctoral Students prior to candidacy. Repeatable to a maximum of 60 cr hrs or 60 completions. This course is graded S/U.

7193.02 Independent Study in Veterinary Preventive Medicine G V 1 - 2

Laboratory and library investigations of disease problems involving veterinary preventive medicine. The faculty and student agree on a course project suitable for a letter grade. Prereq: Grad or Prof standing in Veterinary Medicine program, and permission of instructor. Repeatable to a maximum of 5 cr hrs.

7194.01 Group Studies in Veterinary Preventive Medicine G V 1

Group studies course in topic areas of veterinary preventive medicine. Prereq: DVM or equiv, or Grad standing, or Veterinary Medicine program standing. This course is graded S/U.

7194.02 Group Studies in Veterinary Preventive Medicine G V 3

Group studies course in topic areas of veterinary preventive medicine. Prereq: Grad standing, or Veterinary Medicine program standing, or DMV, or equiv. Repeatable to a maximum of 15 cr hrs.

7612 Nutrition of Food Animals and Equine V 3

Nutritional diseases and feeding practices for food-producing animals and equine. Prereq: First-year, second semester, or second-year standing in veterinary medicine program.

7700 Introduction to Aquatic Animal Medicine and Health G V 2

Entry-level course exposing veterinary students to the diverse field of aquatic animal health, medicine, and welfare. Concepts will cover principles of aquaculture, the natural aquatic environment, common diseases and treatments. This course is open to The Ohio State University veterinary students of good standing as an elective course.

7710 Ecosystem Health Conservation Medicine G V 3

Principles and application of ecosystem health and conservation medicine will be examined using the One Health One Medicine paradigm. This course may also serve as a component of a non-degree certificate for external veterinarians interested in gaining training in ecosystem health, conservation medicine and/or One Health. Prereq: CPHR of 2.50 or above; and Grad standing or, 2nd, or 3rd yr standing in Veterinary Medicine program.

7710.55 Applied Veterinary Medicine: Beef and Dairy Production Medicine V 2

Students will accompany veterinarians as they provide routine preventive and clinical services to dairy and beef cattle. Dairy and production medicine topics will be covered. Students are expected to participate in the treatment of patients. Prereq: 4th yr standing in the Veterinary Medicine Program. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.

7717 Introduction to Shelter Medicine V 1

An introduction to shelter medicine. Material in the class will focus primarily on basic herd health principles and basic operations within a shelter environment.

7719 Microbiome in Health and Disease G 3

This course is designed to introduce students to host-associated microbial communities (specifically human and animal hosts) and their roles in host health and disease. Cross-listed in Micrbio.

7720 Laboratory Animal Medicine G V 2

Familiarizes students with regulatory and compliance issues, management of animal facilities, the scientific basics of laboratory animal medicine, and the design and performance of animal experiments. Prereq: Not open to students with credit for 721.

7721 Epidemiology of Zoonotic Diseases G V 3

Basic epidemiology of important zoonotic diseases, focusing on their etiology and epidemiology. Common manifestations in humans and animals, diagnostic procedures, and specific preventive and control measures. Prereq: 2nd, 3rd, or 4th yr standing in Veterinary Medicine program. Not open to students with credit for 721.

7722 Foodborne Diseases, Food Animal Production Systems, and Food Safety G V 3

Overview of how the food chain for the most common products of animal origin works, with special emphasis in pre-harvest safety, describes most common food-borne bacterial and viral diseases, antimicrobial resistance, HACCP. Prereq: Grad standing or enrollment in Veterinary Medicine Program. Not open to students with credit for 722.

7723 Biosecurity, Emergency Response & Outbreak Investigation G V 2

An overview of biosecurity, with special emphasis on bioterrorism, preparedness, emergency response, risk assessment, and management of zoonotic and foreign animal disease outbreaks. Regulations and regulatory agencies will also be presented. Prereq: 1st (second semester), 2nd, or 3rd yr standing in Veterinary Medicine program, or Grad standing.

7724.01 Environmental Health at the Human-Animal Interface G V 1

This course will provide an overview of environmental health issues related to human and animal interactions and animal agriculture. Topics will include water and air quality, waste management, occupational safety, and environmental toxicology.

7725 Applied Veterinary Data Analysis G 2

Application of statistical methods and procedures that are introduced in the basic biostatistics courses offered by CPH; structure of the course will be interactive in a laboratory setting for veterinary public health science students. Prereq: PubHBio 6210.

7726 Preventive Medicine Research Design and Methods G 2

Understanding the process used to plan and execute research studies is crucial for students completing their own research projects. This course will introduce students to research methods and designs commonly used in veterinary medicine and public health research.

7727 Current Topics in Food Safety G 1

Weekly graduate seminar on current and emerging topics in food safety. Presentations from OSU faculty and invited external experts from industry, academia, and government. Prereq: Grad standing, or permission of instructor. This course is graded S/U. Cross-listed in FdScTe.

7730 Emerging Zoonotic Diseases in a Global Context G V 2

Overview of the most important emerging zoonotic diseases in different geographical regions of the world, focusing in their local epidemiology, recent outbreaks, prevention, and potential impact in the United States. Prereq: 1st (second semester), 2nd, or 3rd yr standing in Veterinary Medicine program; or grad standing. Not open to students with credit for 730.

7735 Veterinary Practice Management G V 1

Provides business skills, knowledge, and information necessary to successfully operate a veterinary practice. Prereq: Enrollment in DVM program. Not open to students with credit for 750.

7745 Basic Exotic Animal Medicine -- Non Mammalian V 1

Provide a basic background for a new graduate veterinarian regarding exotic species commonly treated in a companion animal setting. Non-mammalian species will be covered (fish, amphibians, reptiles). Prereq: 1st (second semester), 2nd, or 3rd yr standing in Veterinary Medicine program, or Grad standing. Not open to students with credit for VMColl 608.

7760 Opportunities in Global Veterinary Medicine and Public Health G V 1

This elective course is designed as a preparatory course for veterinary professional (DVM) curriculum and Masters of Public Health, MPH-VPH students who plan to engage in international and non-traditional veterinary medicine and public health. This course is graded S/U.

7770 Zoo and Wildlife Medicine I G V 1

General concepts and principles related to zoo and wildlife medicine. Allows Veterinary students to increase their exposure to nontraditional fields of practice. Prereq: Grad or professional standing in Veterinary Medicine program. Not open to students with credit for 770. This course is graded S/U.

7771 Zoo and Wildlife Medicine II G V 2

Intended for students who have an interest in advancing their clinical and practical knowledge of zoo and wildlife medicine. Prereq: 7770; and 1st (second semester), 2nd, 3rd, or 4th yr standing in Veterinary medicine program; or grad standing. Not open to students with credit for 771.

7773 Bovine Palpation V 3

Laboratory and lecture based course designed to familiarize the student with the techniques of bovine reproductive examination, rectal palpation, ultrasound, pregnancy diagnosis and management. Prereq: VetClin 7746 and VMColl 6605, and 3rd yr standing in Veterinary Medicine program, and a Food Animal, Mixed Animal, or Individualized Career Area of Emphasis, and permission of instructor. Not open to students with credit for 796.17.

7774 Bovine Theriogenology G V 1

Physiology of the estrous cycle and synchronization strategies in the bovine. Techniques such as artificial insemination and embryo transfer, causes for embryonic loss, obstetric procedures, transition period, and bull fertility will be covered. Prereq: 3rd yr standing in Veterinary Medicine program; or DVM or equiv; or permission of instructor. Not open to students with credit for 796.18.

7775 Interactive Experiences in Laboratory Animal Medicine V 1

Provides students with an opportunity to obtain practical and clinical experience with traditional laboratory animals and pocket pet species. Coursework is primarily hands-on with supplemental online and didactic material. Prereq: 7720, and Professional standing in Veterinary Medicine program.

7776 Dairy Herd Management and Preventive Medicine G V 2

Applications of preventive medicine practices at the dairy herd level (small or large). Herd health programs, transition period, and laboratory practices in mastitis control will be covered. Prereq: 2nd or 3rd yr standing in Veterinary Medicine program; or grad standing. Not open to students with credit for 796.06.

7778 Topics in Dairy Production Medicine G V 1

Expose students to leaders in the dairy industry and production medicine as well as to ideas that they may not be exposed to anywhere else in the veterinary professional curriculum. Prereq: Grad or professional standing in Veterinary Medicine program. Not open to students with credit for 796.16. This course is graded S/U.

7780 Veterinary Forensics V 2

Covers forensic examination of living and deceased victims as well as proper evidence collection and presentation to aid in the conviction of animal abusers. Prereq: Professional standing in Veterinary Medicine program.

7781 Advanced Topics in Zoo and Wildlife Medicine G 1

Designed for residents in ecosystem and wildlife health, this course consists of weekly seminars given by the students and instructors covering current literature and topical overviews as assigned. Repeatable to a maximum of 9 or hrs.

7895.01 Current Topics in Laboratory Animal Medicine G V 1

This journal club is directed at laboratory animal residents, graduate students and veterinary medicine students interested in current topics in laboratory animal medicine. Emphasis is placed on the three most recent years of selected journals. Prereq: Grad standing, Second semester of first-year, or second-year standing in the Veterinary Medicine Program. Repeatable to a maximum of 9 or hrs. This course is graded S/U.

7895.02 Critical Evaluation of the Scientific Literature G V 1

Introduces students to critical reading of scientific literature related to veterinary medicine and public health. During class sessions, relevant scientific articles will be discussed and critically reviewed using faculty-guided discussions. Prereq: Professional standing in Veterinary Medicine Program. Repeatable to a maximum of 2 cr hrs.

7895.03 Critical Evaluation of the Scientific Literature G 1

Introduces students to critical reading of scientific literature related to veterinary medicine and public health. During class sessions, relevant scientific articles will be discussed and critically reviewed using faculty-guided discussions. Prereq: Grad or professional standing in Veterinary Medicine Program.

7896 Veterinary Disaster Response G V 1

This course is delivered online in an asynchronous format. Students will be expected to complete relevant Federal Emergency Management Agency courses online designed to familiarize students with the Incident Command Structure and animal disaster response. Prereq: Current standing in CVM. This course is graded S/U.

7998 Integrative Learning Experience for Public Health G V 1-3

Final project for MPH degree to demonstrate synthesis of foundational and concentration competencies applicable to a public health topic. Prereq: Enrollment in the MPH degree program, and permission of advisor or director of VPH program. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

8613 Preventing Metabolic Diseases and Records Analysis for Dairy Cattle G V 3

Feeding management of dairy cattle for the prevention of metabolic diseases and analysis of dairy records for production medicine decisions. Prereq: 8796.06 or AnimSci 3130 or equiv; and third or fourth-year standing in professional program in Veterinary Medicine, Grad standing, or permission of instructor. Not open to students with credit for 796.13, or in same term as AnimSci 6303.

8700 Molecular Epidemiology of Infectious Diseases G V 3

Comprehensive overview and detailed discussion on the core molecular approaches that are and can be used in addressing population medicine issues and application of molecular techniques in infectious diseases. Prereq: Not open to students with credit for 700.

8725 Quantitative Methods Capstone Seminar G 3

This seminar is a capstone experience. Much of the work will be student-identified and student-led. The course will consist of work in: identification of new or emerging topics or software in quantitative methods; readings and discussion on advanced topics; student-led demonstrations or presentations; and a final paper. Prereq: Basic statistics and study design or epidemiology courses. Cross-listed in ESQREM and HDF5.

8782 Veterinary Clinical Epidemiology G 1

Intended for clinical residents and veterinary graduate students with a strong interest in the application of epidemiology concepts to the clinical practice of veterinary medicine. Prereq: DVM or equiv; or permission of instructor. Not open to students with credit for 820.

8810 Advanced Concepts and Applications in Veterinary Epidemiology G V 1

In-depth exploration of philosophies that serve as the foundation for the science of epidemiology as it is applied to veterinary medicine. Instructor-guided discussions, assigned readings, and application activities. Prereq: 7721 or VMColl 6646; and VMColl 6510, or PubHEpi 6410 or 6430.

8830 Modeling Transmission and Control of Infectious Diseases in Humans and Animals G V 3

Infectious disease modeling is a methodology used to study transmission dynamics in humans and animals and simulate disease control programs. This course provides an introduction to applied infectious disease modeling suitable for advanced undergraduate students, graduate students, health professional students, and health professionals. Prereq: 1st (second semester), 2nd, 3rd, or 4th yr standing in Veterinary Medicine Program, or Grad standing. Cross-listed in PubHEHS 5345.

8851 Laboratory Animal Medicine I G 2

A series of courses providing the student with a comprehensive view of lab animal medicine practice. Includes diseases, preventive medicine, effective management of an animal care program, performance of research, and facility design. Prereq: Grad standing in Veterinary Medicine program. Not open to students with credit for 793.01.

8852 Laboratory Animal Medicine II G 2

Second in a series of courses to provide students with a comprehensive view of the lab animal medicine practice. Includes diseases, preventive medicine, effective management of an animal care program, performance of research and facility design. Prereq: Grad standing in Veterinary Medicine program. Not open to students with credit for 793.02.

8853 Laboratory Animal Medicine III G 2

Third in a series of courses providing the student with a comprehensive view of lab animal medicine practice. Includes diseases, preventive medicine, effective management of an animal care program, performance of research and facility design. Prereq: Grad standing in Veterinary Medicine program. Not open to students with credit for 793.03.

8854 Laboratory Animal Medicine IV G 2

Fourth in a series of courses providing students with a comprehensive view of lab animal medicine practice. Includes diseases, preventive medicine, effective management of an animal care program, performance of research and facility design. Prereq: Grad standing in Veterinary Medicine program. Not open to students with credit for 793.04.

8855 Laboratory Animal Medicine V G 2

Fifth in a series of courses providing students with a comprehensive view of lab animal medicine practice. Includes diseases, preventive medicine, effective management of an animal care program, performance of research and facility design. Prereq: Grad standing in Veterinary Medicine program. Not open to students with credit for 793.05.

8856 Laboratory Animal Medicine VI G 2

Sixth in a series of courses providing students with a comprehensive view of lab animal medicine practice. Includes diseases, preventive medicine, and effective management of an animal care program, performance of research and facility design. Prereq: Grad standing in Veterinary Medicine program. Not open to students with credit for 793.06, 793.07, and 793.08.

438 Veterinary Preventive Medicine

8891.01	Comparative and Veterinary Medicine Graduate Student Seminar	G	1
Research seminars are the foundation of scientific discourse. This course provides graduate students with experience presenting their research and evaluating presentations by others. Prereq: Grad standing. Repeatable to a maximum of 15 cr hrs. This course is graded S/U.			
8891.02	Comparative and Veterinary Medicine Graduate Student Seminar	G	1
Research seminars are the foundation of scientific discourse. This course provides graduate students with experience presenting their research and evaluating presentations by others. Repeatable to a maximum of 3 cr hrs.			
8999	Research in Veterinary Preventive Medicine	G	1 - 10
Research for dissertation purposes only. Repeatable to a maximum of 60 cr hrs or 60 completions. This course is graded S/U.			

Vision Science

5500	Global Issues in Eye Care	U G	1
Designed for students with diverse backgrounds in healthcare. This course will provide an overview of the common causes of vision impairment and eye disease. Means to eliminate avoidable blindness will also be discussed.			
5998	Individual Studies in Vision Research	U G	1 - 8
Individual investigation of a research problem related to vision and/or the eye. Prereq: Permission of instructor. Not open to students enrolled concurrently in 8999. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
6100	General and Histological Anatomy	O	4
Gross and microscopic anatomy of the body with emphasis on head and neck anatomy and organ systems. Prereq: 1st yr standing in Optom.			
6110	General and Visual Neuroanatomy	G O	4
Anatomy of the central and peripheral nervous system with special emphasis on autonomic system and anatomy of the visual system. Prereq: 1st yr standing in Optom. Not open to students with credit for 531 or 608.			
6130	Pathophysiology I	O	5
Provides a comprehensive introduction to pathology, including: inflammation, genetic disease, and neoplasia. Pathophysiology of blood, GI, endocrine, and respiratory systems will be examined in detail. Prereq: 1st yr standing in Optom.			
6140	Pathophysiology II	O	5
The pathophysiology of the nervous system, muscle systems, cardiovascular, renal, and immune systems. Students will integrate information from VisSci 6130. Prereq: 1st yr standing in Optom.			
6160	Biochemistry for Optometry	O	1
This course is designed to help optometry students integrate biochemistry with concepts related to ocular pathology, and therapeutic treatment. Prereq: 1st yr standing Optom.			
6170	Microbiology for Optometry	O	1
This course is designed to help optometry students integrate microbiology with concepts related to ocular pathology, and therapeutic treatment. Prereq: 1st yr standing in Optom.			
6300	Visual Neurophysiology and Perception	G O	5
Spatial, temporal and chromatic aspects of visual sensation by retina, lateral geniculate, cortex and other brain centers; psychophysics of visual perception; disorders affecting visual pathway. Prereq: 2nd yr standing in Optom.			
6320	Eye Movements and Binocular Vision	G O	5
Characteristics of and clinical evaluation of monocular and binocular eye movements. Prereq: 2nd yr standing in Optom.			
6500	Geometric Optics	G O	5
Vergence, ray tracing and image formation. Refracting and reflecting surfaces, lenses, prisms, model eyes. Magnification, apertures and stops, astigmatism, prismatic effects of lenses, aberrations. Prereq: 1st yr standing in Optom.			
6520	Optics of the Eye	G O	4
Optics of ametropias and their correction, classification and etiology of refractive errors, schematic eyes, retinal image size, optics of clinical instruments, optics of accommodation, aberrations of the eye. Prereq: 1st yr standing in Optom.			
6540	Physical Optics and Photometry	G O	2½
Principles of photometry and colorimetry; light sources; diffraction, polarization, interference, electromagnetic waves, quantum optics, lasers. Prereq: 1st yr standing in Optom.			
6700	Ocular Anatomy	G O	5
Human gross anatomy of the head and neck with special emphasis on the eye and orbit; histology and embryology of the eye and associated structures. Prereq: 1st yr standing in Optom.			
6720	Ocular Physiology	G O	3
Functions and organic processes of the components of the eye and surrounding structures. Prereq: 1st yr standing in Optom.			

7101	Basics of Graduate Work	G	1
Basic information for graduate work, such as citation management, writing abstracts, making presentations.			
7620	Public Health and Environmental Vision	G O	3
Public health/community aspects of providing vision care, health care organizations and policies, vision standards, environmental vision, eye hazards and eye protection. Prereq: 3rd yr standing in Optom.			
7940	Oral Presentation of Scientific Research	G	1 - 3
Student gives a talk based on his/her research or scholarship and improves his/her speaking skills. Prereq: Grad standing in VisSci. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.			
7950	Seminar in Vision Science	G	½ - 1
Series of seminars dealing with new developments in the various areas of vision science. Prereq: Grad standing in VisSci. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.			
7960	Ethics in Biomedical Research	G	2
Provides a general understanding of the issues surrounding the ethical conduct of science including issues related to research involving human subjects, scientific misconduct, and authorship of scientific papers. Real-life case studies will be used. This course is graded S/U.			
7970	Grantsmanship	G	2
The structure of the National Institutes of Health, the principles of good grantsmanship, and description of the grant review process. Emphasis focused on Mentored Clinical Scientist Development Award (K23) and Research Project Grant (R01). Prereq: Grad standing in VisSci. Repeatable to a maximum of 4 cr hrs.			
7980	Statistics in Clinical Research	G	2
Introduction to the basic concepts and methods of statistical analysis of clinical research data. Statistical software packages will be demonstrated along with interpretation of output. Prereq: Grad standing in VisSci. Repeatable to a maximum of 4 cr hrs or 2 completions.			
7990	Assessing the Literature	G O	½ - 2
In-depth discussion of scientific papers. Prereq: Grad standing in VisSci. Repeatable to a maximum of 20 cr hrs or 8 completions. This course is graded S/U.			
7999	Research for Master's Thesis	G	1 - 12
Research and writing conducted towards completion of a Master's thesis. Prereq: Grad standing in VisSci. Repeatable to a maximum of 30 cr hrs or 10 completions. This course is graded S/U.			
8001	Anatomy and Physiology of the Eye	G	2
Advanced gross anatomy and vegetative physiology and molecular biology of the eye. Prereq: Grad standing in VisSci, or permission of instructor.			
8002	Ocular Motility and Binocular Vision	G	2
Advanced topics on eye movements, ocular motility, and sensorimotor aspects of visual perception and binocular vision. Prereq: 6300 and 6320, or permission of instructor.			
8003	Monocular Visual Sensory Processes	G	2
Neurophysiology of the retina, the ascending visual pathway, and the brain, and their functional significance. Prereq: 6300 or equiv., or permission of instructor.			
8004	Optics of the Eye and Specification of the Visual Stimulus	G	2
Ocular image-forming mechanisms of the eye and optics of ophthalmic instrumentation, specification of light, calibration, and control of intensity and spectral composition of light. Prereq: Grad standing in VisSci program, or permission of instructor.			
8101	Designing Clinical Studies	G	1
Learn to design clinical studies to appropriately answer important clinical research questions.			
8103	Circadian Rhythms and the Eye	G	2
Advanced topics in chronobiology with emphasis on the role of the eye in synchronizing circadian rhythms to the external environment. Prereq: 6300, or permission of instructor.			
8104	High Resolution Imaging of the Eye	G	2
Optical imaging of the human retina now allows visualization of single cells in vivo. This course will describe how this is achieved and detail the application to retinal and optic nerve diseases.			
8105	Advanced Ocular Motility	G	1
The basics of experimental design in ocular motility studies including equipment choices, properties of eye movements, and data analyses. Prereq: 8002, or permission of instructor.			
8106	Refractive Error Development	G	2
Students learn about ocular changes that lead to the development of refractive error in children. Prereq: Grad Standing in Vision Science or related discipline.			
8107	Basic Science Experimental Design	G	2
Teaches various aspects of designing basic science experiments, from choosing controls to data analysis.			
8108	Introduction to Matlab	G	2
An introduction to Matlab and its applications in research. Prereq: Grad standing in VisSci or related discipline.			

8111	Advanced Topics in Low Vision	G	1
Advanced topics in models for rehabilitation, patient-reported outcomes measurement, and psychophysical testing of people with permanent vision impairment. Prereq: Grad standing in VisSci.			
8112	Advanced Binocular Vision and Visual Plasticity	G	1
Structural, molecular, and functional considerations of mechanisms underlying visual plasticity. Prereq: 8002, or equiv. with permission of instructor.			
8113	Clinical Trials in Binocular Vision	G	½
Review of recent clinical trials in binocular vision, such as amblyopia and intermittent exotropia. Prereq: Grad standing in VisSci.			
8114	Advanced Contact Lens Topics	G	2
Advanced topics related to contact lens materials and care, lens modalities, advanced fitting techniques, adverse events and regulations. Prereq: Grad standing in VisSci.			
8115	Effective Scientific Presentation Skills	G	2
Develop skills to communicate scientific findings using a variety of presentation formats. Prereq: Grad standing in VisSci or related discipline.			
8116	Scientific Writing	G	2
Developing effective scientific writing skills. Prereq: Enrollment in VisSci PhD program, or permission of instructor.			
8998	Pre-Candidacy Dissertation Research	G	1 - 15
Research and writing conducted prior to completion of the candidacy exam. Prereq: Grad standing in VisSci. Repeatable. This course is graded S/U.			
8999	Post-Candidacy Dissertation Research	G	1 - 15
Research and writing conducted prior to completion of the candidacy exam. Prereq: Grad standing in VisSci. Repeatable. This course is graded S/U.			

Welding Engineering

2001	Introduction to Welding Engineering	U	3
Study of the principles of welding engineering, including processes, design, weldability of materials, codes and standards, and quality assurance. Prereq: MatScEng 2010, Physics 1251, and WeldEng-BS student; or permission of instructor.			
2601	Introductory Arc Welding Laboratory	U	1
Basic skills required for manual and semiautomatic arc welding processes. Prereq: Chem 1210 or 1250; and Math 1151 or 1161; and Physics 1250 or 1260; and enrollment as WeldEng-BS major or pre-major student. Not open to students outside of WeldEng-BS major or pre-major.			
3193.01	Individual Studies in Welding Engineering	U	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
3193.02	Individual Studies in Welding Engineering	U	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under the directions of instructors. Comprehensive report required. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
4001	Physical Principles in Welding Processes I	U	4
Study of the application of physical principles in engineering of arc welding processes and equipment. Prereq: 2001 or 3001, and enrollment in the WeldEng-BS major. Prereq or concur: ECE 2300; or permission of instructor.			
4002	Physical Principles in Welding Processes II	U	4
Study of the application of physical principles in engineering of non-arc welding processes and equipment. Prereq: 2001 or 3001, and enrollment in the WeldEng-BS major or MatScEn-BS major; or permission of instructor.			
4003	Principles of Welding Process Control	U	3
Study of principles and practical application of control systems and control elements of welding processes. Prereq: 4001, and enrollment in the WeldEng-BS or MatScEn-BS major; or permission of instructor.			
4012	Resistance Welding Processes	U	3
Addresses the fundamentals, theory, and application of Resistance Welding processes, with emphasis on processes, equipment, materials, and quality control. Prereq: 4002, and enrollment as WeldEng-BS major; or permission of instructor. Not open to students with credit for 602 or 702.			
4021	Solid-State Welding/Joining	U	3
The welding and joining of materials in the solid state with emphasis on physical processes and metallurgical principles. Prereq: 4002, and enrollment in the WeldEng-BS or MatScEn-BS major; or permission of instructor.			
4023	Brazing and Soldering	U	3
Brazing and soldering processes with emphasis on physical and metallurgical principles, materials, design and application considerations. Prereq: 2001 or 3001 and MatScEn 2251, and enrollment in the WeldEng-BS or MatScEng-BS major; or permission of instructor.			

4024	High Energy Density Welding Processes	U	2
Theory and practice of laser, electron beam, and other high energy density welding processes. Prereq: 4001, and enrollment as a WeldEng-BS or MatScEn-BS major; or permission of instructor. Not open to students with credit for 704.			
4101	Welding Metallurgy I	U	4
Application of physical metallurgy principles to nonequilibrium thermo-mechanical conditions associated with welding in structural alloys and focus on carbon steels. Includes welding metallurgy laboratories. Prereq: MatScEn 2251 and 3141, and enrollment as a WeldEng-BS or MatScEn-BS major. Not open to students with credit for 4611.			
4102	Welding Metallurgy II	U	4
Addresses the welding metallurgy and weldability principles associated with stainless steels, nickel-base, aluminum-base, and titanium-base alloys and other nonferrous alloys. Includes laboratories. Prereq: 4101, and enrollment as WeldEng-BS major; or permission of instructor. Not open to students with credit for 4612.			
4112	Weldability	U	3
Teaches the basic concepts of weldability and focuses on failure mechanisms in welded construction. Failure phenomena that occur during fabrication, repair, and during service are discussed. Prereq: 4101, and WeldEng-BS major; or permission of instructor. Not open to students with credit for 714 or 715.			
4115	Computational Modeling of Additive Manufacturing and Welding	U	3
Fundamentals and applications of numerical methods for modeling additive manufacturing and welding processes and materials. Prereq: Jr or Sr standing in WeldEng-BS major, or permission of instructor.			
4121	Computational Thermodynamics and Kinetics	U	2
Comprehensive background on computational thermodynamics and kinetics. Includes focus on CALPHAD (Calculation of Phase Diagram) methodology. Prereq: MatScEn 2251 and 3141 or equivalents; or Grad standing in MatScEn or WeldEng; or permission of instructor. Not open to students with credit for 7121. Cross-listed in MatScEn 5321.			
4189	Industrial Experience	U	1
Experience in an industrial organization and the submitting of an acceptable report on the work done. Prereq: 4002 and 4202, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 489.			
4193.01	Individual Studies in Welding Engineering	U	½ - 6
Non-thesis research investigations under the directions of instructors. Comprehensive report required. Prereq: Enrollment as a WeldEng-BS major or MatScEn-BS major; and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
4193.02	Individual Studies in Welding Engineering	U	½ - 6
Non-thesis research investigations under the directions of instructors. Comprehensive report required. Prereq: Enrollment as a WeldEng-BS major or MatScEn-BS major; and permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
4194	Group Studies in Welding Engineering	U	1 - 4
Special topics in Welding Engineering. Topic, credit hours, and instructor will be announced in the preceding semester. Repeatable to a maximum of 12 cr hrs or 6 completions.			
4201	Engineering Analysis for Design and Simulation	U	4
Fundamentals of engineering analysis of heat flow, thermal and residual stresses, and fracture and fatigue with applications to design and simulation in welding and manufacturing. Prereq: 2001 or 3001; and Math 2177, or 2255, or 2415, or 2174; and MechEng 2040 or 2020; and Engr 1221 or 1281H; and enrollment in WeldEng major; or permission of instructor.			
4202	Welding Design	U	3
Fundamentals of design and application of codes and standards for welded structures. Prereq: 4201, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 621 or 641.			
4240	Fitness-for-Service of Welded Structures	U	2
The interrelationship of design, fabrication, nondestructive evaluation, fracture mechanics, and reliability concepts in establishing the overall fitness-for-purpose of welded structures. Prereq: 4201, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 740.			
4301	Nondestructive Evaluation	U	3
Main concepts of Nondestructive Evaluation of materials as applied to inspections of joints and structures; principles of conventional methods and their capabilities and limitations. Prereq: 4201, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 631.			
4303	Ultrasonic Nondestructive Testing	U	3
Principles of ultrasonic wave generation, interaction of ultrasonic waves with material structures with emphasis on characterization of material properties, and quantitative ultrasonic evaluation of material discontinuities. Prereq: 4103, and enrollment as WeldEng-BS major; or permission of instructor. Not open to students with credit for 732.			

440 Welding Engineering

4406	Welding of Plastics and Composites	U	3
Theory and practice in welding of plastics and polymeric composites, including theory and analysis of welding processes, part and joint design, and process selection. Prereq: 4201, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 706.			
4407	Adhesive Bonding and Mechanical Joining of Plastics	U	2
Fundamentals of adhesive bonding science and technology and methods for mechanical joining of plastics including fasteners, snap-fits, press-fits, swaging, and staking. Prereq: 4201, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 707.			
4595	Topics in Welding Engineering	U	1
Theory and application of novel and hybrid welding processes. Prereq: 2001, or permission of instructor.			
4602	Welding Procedure Development and Qualification	U	3
This course is an introduction to developing and qualifying weld procedures and personnel to welding codes and standards (e.g., AWS B2.1). Hands on welding is required to qualify welding procedure specifications through weld testing for producing procedure qualification records. Weld inspection and acceptance criteria are also explored on how they affect weld design based on welding codes. Prereq: 4002, and enrollment in the WeldEng-BS major; or permission of instructor.			
4606	Welding Robot Programming and Operations	U	1
Laboratory experience programming and operation of robotic welding systems. Prereq: 2001 or 3001, and enrollment in the WeldEng-BS major; or permission of instructor.			
4901	Capstone Welding Design I	U	2
Group design projects building on all aspects of Welding Engineering. Prereq: Sr standing in WeldEng-BS major, or permission of instructor. Not open to students with credit for 690 and 691.			
4902	Capstone Welding Design II	U	3
Group design projects building on all aspects of Welding Engineering. Prereq: 4901, and enrollment as a WeldEng-BS major; or permission of instructor. Not open to students with credit for 692.			
4998	Undergraduate Research in Welding Engineering	U	1 - 3
Opportunity for supervised undergraduate research in Welding Engineering. Prereq: Enrollment as a WeldEng-BS major, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			
4999	Undergraduate Research	U	½ - 3
Supervised undergraduate research on topics in Welding Engineering (non-honors version). Prereq: Enrollment in WeldEng-BS major, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			
4999H	Undergraduate Honors Research in Welding Engineering	U	1 - 3
Honor program students are offered the opportunity for supervised undergraduate research in Welding Engineering. Student presentation and thesis writing included. Prereq: Honors standing, enrollment as a WeldEng-BS major, and permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.			
5027	Introduction to Additive Manufacturing	U G	3
This course provides an introduction to modern additive manufacturing processes of various materials with an emphasis on use of metals. Explores current applications, limitations, and future uses of AM. Prereq: MatScEn 3141, or Grad standing in Engineering, or permission of instructor.			
5193.01	Individual Studies in Welding Engineering	U G	0 - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under direction of instructor(s). Comprehensive report required. Prereq: Enrollment in MatSEng-BS or WeldEng-BS major, or Grad standing in Engr, or permission of instructor. This course is graded S/U.			
5193.02	Individual Study in Welding Engineering	U G	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under direction of instructor(s). Comprehensive report required. Prereq: Enrollment in MatSEng-BS or WeldEng-BS major; or Grad standing in Engr; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions.			
6193.01	Individual Studies in Welding Engineering	G	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under direction of instructor(s). Comprehensive report required. Prereq: Grad standing in Engr, Math, Physics, or Chem; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions. This course is graded S/U.			
6193.02	Individual Studies in Welding Engineering	G	½ - 6
Investigations in areas of advanced non-thesis research. Library and/or research investigations under direction of instructor(s). Comprehensive report required. Prereq: Grad standing in Engr, Math, Physics, or Chem; or permission of instructor. Repeatable to a maximum of 12 cr hrs or 10 completions.			

6194	Group Studies in Welding Engineering	G	1 - 4
Special topics in Welding Engineering. Topic, credit hours, and instructor will be announced in the preceding semester. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 8 completions.			
6999	Graduate Research in Welding Engineering	G	½ - 18
Research for thesis purposes only. Repeatable to a maximum of 45 cr hrs or 15 completions. This course is graded S/U.			
7001	Physical Principles in Welding Processes I	G	3
Study of the application of physical principles in engineering of arc welding processes and equipment. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4001 (500) or 600.			
7002	Physical Principles of Welding Processes II	G	3
Study of the application of physical principles in engineering of non-arc welding processes and equipment. Prereq: 7001 or 4001, and Grad standing; or permission of instructor. Not open to students with credit for 4002 (600) or 601.			
7003	Principles of Welding Process Control	G	3
Study of principles and practical application of control systems and control elements of welding processes. Prereq: 7001 or 4001, and Grad standing; or permission of instructor. Not open to students with credit for 4003.			
7012	Resistance Welding Processes	G	3
Addresses the fundamentals, theory, and application of Resistance Welding processes, with emphasis on processes, equipment, materials, and quality control. Prereq: 7002 or 4002, and Grad standing; or permission of instructor. Not open to students with credit for 4012 (602) or 702.			
7021	Solid-State Welding/Joining	G	3
The welding and joining of materials in the solid state with emphasis on physical processes and metallurgical principles. Prereq: 7001, 7002, 7101, 7102, 4001, 4002, 4101, or 4102, and Grad standing; or permission of instructor. Not open to students with credit for 4021 (701).			
7023	Brazing and Soldering	G	3
Brazing and soldering processes with emphasis on physical and metallurgical principles, materials, design and application considerations. Prereq: 7101 or 4101, and 7102 or 4102, and Grad standing; or permission of instructor. Not open to students with credit for 4023 (703).			
7024	High Energy Density Welding Processes	G	2
Theory and practice of laser, electron beam, and other high energy density welding processes. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4024.			
7101	Welding Metallurgy I	G	3
Application of physical metallurgy principles to nonequilibrium thermo-mechanical conditions associated with welding in structural alloys and focus on carbon steels. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4101 (610) or 611.			
7102	Welding Metallurgy II	G	3
Addresses the welding metallurgy and weldability principles associated with stainless steels, and nickel-base, aluminum-base, and titanium-base alloys. Prereq: 7101 or 4101, and Grad standing; or permission of instructor. Not open to students with max credit for 4102 (612).			
7112	Weldability	G	3
Teaches the basic concepts of weldability and focuses on failure mechanisms in welded construction. Failure phenomena that occur during fabrication, repair, and during service are discussed. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4112 (714) or 715.			
7115	Computational Modeling of Additive Manufacturing and Welding (Grad)	G	3
Graduate-level instruction on the theory of temperature, stress, deformation and phase transformation for additive manufacturing and welding, as well as application of industry-standard simulation codes. Prereq: Grad standing in Engineering, Mathematics, Physics, or Chemistry; or permission of instructor. Not open to students with credit for 4115.			
7121	Computational Thermodynamics and Kinetics	G	2
Comprehensive background on computational thermodynamics and kinetics. Includes focus on CALPHAD (Calculation of Phase Diagram) methodology. Prereq: MatScEn 2251 and 3151, or equiv, or Grad standing in MatScEn or WeldEng, or permission of instructor. Not open to students with credit for 4121. Cross-listed in MatScEn 5321.			
7123	Advanced Metallurgy for Brazing and Soldering	G	3
Graduate level physical-chemical concepts of brazeability and solderability of metals, ceramics, and glasses and focuses on wetting by liquid filler metals, interfacial reactions, phase compositions of joint metal, hetero-diffusion, liquid embrittlement, as well as strength and reliability of brazed and soldered joints manufactured in aerospace, electronic, optical, mining, and other industries. Prereq: 4023 or 7023, and Grad standing; or permission of instructor.			
7193.01	Individual Studies in Welding Engineering	G	½ - 6
Non-thesis research investigations under the directions of instructors. Comprehensive report required. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
7193.02	Individual Studies in Welding Engineering	G	½ - 6
Non-thesis research investigations under the directions of instructors. Comprehensive report required. Repeatable to a maximum of 12 cr hrs or 12 completions.			

7194	Group Studies in Welding Engineering	G	1 - 4
Special topics in welding engineering; topic, credit hours, and instructor will be announced in the previous semester. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 8 completions.			
7201	Engineering Analysis for Design and Simulation	G	4
Fundamentals of engineering analysis of heat flow, thermal and residual stresses, and fracture and fatigue with applications to design and simulation in welding and manufacturing. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4201 (620) or 621.			
7202	Welding Design	G	3
Fundamentals of design and application of codes and standards for welded structures. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4202 (641) or 621.			
7240	Fitness-for-Service of Welded Structures	G	2
The interrelationship of design, fabrication, nondestructive evaluation, fracture mechanics, and reliability concepts in establishing the overall fitness-for-purpose of welded structures. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4240 (740).			
7301	Nondestructive Evaluation	G	3
Main concepts of Nondestructive Evaluation of materials as apply to inspections of joints and structures; principles of conventional methods, their capabilities and limitations. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4301 (631).			
7303	Ultrasonic Nondestructive Testing	G	3
Principles of ultrasonic wave generation, interaction of ultrasonic waves with material structures with emphasis on characterization of material properties, and quantitative ultrasonic evaluation of material discontinuities. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4303 (732).			
7406	Welding of Plastics and Composites	G	3
Theory and practice in welding of plastics and polymeric composites, including theory and analysis of welding processes, part and joint design, and process selection. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4406 (706).			
7407	Adhesive Bonding and Mechanical Joining of Plastics	G	2
Fundamentals of adhesive bonding science and technology and methods for mechanical joining of plastics including fasteners, snap-fits, press-fits, swaging, and staking. Prereq: Grad standing, or permission of instructor. Not open to students with credit for 4407 (707).			
7611	Welding Metallurgy Laboratory I	G	1
Fundamental understanding of microstructure evolution in alloys and steels during heat treatment, as well as welding through various characterization techniques. Prereq: Grad standing. Concur: 4101 or 7101, or permission of instructor. Not open to students with credit for 4611 (661).			
7612	Welding Metallurgy Laboratory II	G	1
Offered in conjunction with 7102 - Welding Metallurgy II. The course demonstrates microstructure evolution and weldability principles in stainless steels and nonferrous alloys. Prereq or concur: 7102, and Grad standing; or permission of instructor. Not open to students with credit for 4612 (662).			
7895	Graduate Seminar	G	1
Presentations and discussion by graduate students and involved outside speakers on thesis research and current problems in Welding Engineering. Prereq: Grad standing in WeldEng. Repeatable to a maximum of 20 or hrs. This course is graded S/U.			
8004	Theory of Laser Welding	G	2
Theory of high energy density laser welding processes. Prereq: 4024 or 7024, and Grad standing; or permission of instructor. Not open to students with credit for 804.			
8193.01	Individual Studies in Welding Engineering	G	½ - 6
Non-thesis research investigations under the directions of instructors. Comprehensive report required. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions. This course is graded S/U.			
8193.02	Individual Studies in Welding Engineering	G	½ - 6
Non-thesis research investigations under the directions of instructors. Comprehensive report required. Prereq: Grad standing, or permission of instructor. Repeatable to a maximum of 12 cr hrs or 12 completions.			
8194	Group Studies in Welding Engineering	G	1 - 4
Special topics in Welding Engineering. Topic, credit hours, and instructor will be announced in the preceding semester. Prereq: Permission of instructor. Repeatable to a maximum of 12 cr hrs or 8 completions.			
8999	Graduate Research in Welding Engineering	G	½ - 18
Research for dissertation purposes only. Repeatable to a maximum of 60 cr hrs or 20 completions. This course is graded S/U.			

1110	Gender, Sex and Power	U	3
Introduces students to the study of gender, sex, and power. We will draw on a variety of literatures to analyze gender, race, sexuality, and other identities. We will place the study of US women in broader transnational contexts. GE cultures and ideas and soc sci indivs and groups and diversity soc div in the US course. GE foundation historical and cultural studies and social and behavioral sci and race, ethnicity and gender div course.			
1110H	Gender, Sex and Power	U	3
Introduces students to the study of gender, sex, and power. We will draw on a variety of literature to analyze gender, race, sexuality, and other identities. We will place the study of US women in broader transnational context. Prereq: Honors standing, or permission of instructor. GE cultures and ideas and soc sci indivs and groups and diversity soc div in the US course. GE foundation historical and cultural studies and social and behavioral sci and race, ethnicity and gender div course.			
2194	Group Studies	U	1 - 3
Special studies not otherwise offered. Repeatable to a maximum of 6 cr hrs or 2 completions.			
2215	Reading Women Writers	U	3
Study of women writers' strategies for articulating experiences and using literature as a lens for social reality and catalyst for social and political change. GE lit course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course.			
2230	Gender, Sexuality and Race in Popular Culture	U	3
Explores how popular culture generates and articulates our understandings of gender and sexuality and their intersections with race and class. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course.			
2260	Queer Ecologies: Gender, Sexuality, & the Environment	U	3
Queer ecologies seek to disrupt the gendered and heterosexual assumptions embedded in how we understand the environment, nature, and bodies (human and animal). From animal studies, queer and feminist social movements for environmental justice, trans*natures, and sexual politics, Queer Ecologies will articulate a commitment to new thinking about the challenges of planetary and climate change. GE cultures and ideas and soc sci human, nat, and econ resources course. GE foundation historical and cultural studies and social and behavioral sci and race, ethnicity and gender div course.			
2282	Introduction to Queer Studies	U	3
Introduces and problematizes foundational concepts of the interdisciplinary field of queer studies, highlighting the intersections of sexuality with race, class, and nationality. Prereq: Not open to students with credit for English 2282. GE cultures and ideas and diversity soc div in the US course. GE foundation historical and cultural studies and race, ethnicity and gender div course. Cross-listed in English.			
2296H	Topics in Women's, Gender and Sexuality Studies	U	3
In-depth study in women's, gender and sexuality studies focusing on current issues in feminist analysis. Prereq: Honors standing.			
2305	A World of Genders and Sexualities	U	3
Investigates gender and sexuality in transnational and cross-cultural perspective. GE foundation historical and cultural studies and race, ethnicity and gender div course.			
2306	Girlhood	U	3
An examination of the contemporary contexts and social differences of female adolescence, including race, ethnicity, location, sexuality, class. GE foundation race, ethnicity and gender div course.			
2317	Gender at the Movies: Hollywood and Beyond	U	3
A study of the representation of gender in relationship to race, sexuality, and class in cinema. Topics may include stardom, genre, narrative, national cinemas, women and minority filmmakers, and film history. Prereq: Not open to students with credit for 3317. GE VPA course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course.			
2325	Health and Inequality	U	3
An interdisciplinary inquiry into the relationships between health and gender under political, biological, economic, spiritual, cultural and/or socially constructed influences.			
2326	Feminist Perspectives on Addiction	U	3
An interdisciplinary feminist focus on addictive consequences of sex-role socialization, substance abuse, addiction in intimate relationships, and eating disorders; consequences of addiction among women.			
2326S	Feminist Perspectives on Addiction, Service Learning	U	3
Combines the study of feminist scholarship on addiction and volunteer work at a local organization that provides services to persons with substance-abuse issues. Students will use the course material and tools of analysis to think and write critically about their volunteer experiences. It is strongly suggested that students take WGSST 1110 or another WGSST course prior to enrolling. Prereq: Not open to students with credit for 2326.			
2327	Embodying Gender, Race & Ethnicity	U	3
This course examines through a feminist lens how the body is situated, lived, interpreted, and constructed in culture. The course focuses on intersectionality as a key issue in understanding how the body's gender, race, sexuality, health, physical abilities, and class/economic situation are interconnected. GE cultures and ideas course. GE foundation historical and cultural studies and race, ethnicity and gender div course.			

442 Women's, Gender, and Sexuality Studies

2340	Si Se Puede: Latinx Gender Studies	U	3		
Explores the various layers of complexity that have historically made up the Latinx experience in the United States at the intersections of class, race, ethnicity, gender and sexuality. Prereq: Not open to students with credit for EthnStd 2340. GE foundation race, ethnicity and gender div course. Cross listed in EthnStd.					
2367.01	U.S. Women Writers: Text and Context	U	3		
Writing about and analysis of female experiences as represented in U.S. literature by women; emphasis on interdisciplinary relationships between literature and socio-political history. Prereq: English 1110 (110), and Soph standing. Not open to students with credit for 367.01. GE writing and comm: level 2 and lit and diversity soc div in the US course. GE foundation lit, vis and performing arts course.					
2367.02	U.S. Latina Writers: Text and Context	U	3		
Writing and analysis of U.S. Latina experiences, with emphasis on interdisciplinary relationships between literature and U.S. Latina socio-political history. Prereq: English 1110, and Soph standing. GE writing and comm: level 2 and lit and diversity soc div in the US course. GE foundation lit, vis and performing arts course					
2367.03	U.S. Lesbian Writers: Text and Context	U	3		
Writing and analysis of U.S. lesbian experiences, with emphasis on interdisciplinary relationships between literature and U.S. lesbian socio-political history. Prereq: English 1110 (110), and Soph standing. Not open to students with credit for 367.03. GE writing and comm: level 2 and lit and diversity soc div in the US course. GE foundation lit, vis and performing arts course.					
2367.04	Black Women Writers: Text and Context	U	3		
Writing and analysis of black women's literary representations of issues in United States social history. Prereq: English 1110, and Soph standing. Not open to students with credit for AfAmAST 2367.04. GE writing and comm: level 2 and lit and diversity soc div in the US course. GE foundation lit, vis and performing arts and race, ethnicity and gender div course. Cross-listed in AfAmAST.					
2381	Race, Ethnicity & Gender in Spanish Speaking Film & TV	U	3		
This course will examine how cinema and television in Latin America, the US, and Spain reflect issues of race, ethnicity, and gender and reveal social attitudes and prejudices. Not open to students with credit for CompStd 2381 or Spanish 2381. GE foundation race, ethnicity and gender div course. Cross-listed in CompStd and Spanish.					
2400	Higher Power: Feminisms & Religion	U	3		
Why is studying religion important to feminism? What is religion and why should people interested in the study of feminism take it seriously? We will explore the history and current understandings of the term 'religion' in different parts of the world and its relationship to feminism, and we will examine our own assumptions and previous conceptions of what religion means and what 'counts.' GE cultures and ideas course. GE foundation historical and cultural studies and race, ethnicity and gender div course.					
2550	History of Feminist Thought	U	3		
An introduction to and analysis of major texts of feminist theory as it has developed and changed since the Enlightenment. Prereq: Not open to students with credit for 550.					
2702	Gender and Citizenship in Modern Arabic Literature	U	3		
Reading and analysis of representative works of the 19th and 20th centuries by contemporary women authors. Prereq: GE foundation writing and info literacy course. Not open to students with credit for 2702H, Arabic 2702, or 2702H. GE lit and diversity global studies course. GE theme citizenship for div and just wrld course. Cross-listed in Arabic.					
2702H	Modern Arabic Literature in Translation	U	3		
Reading and analysis of representative works of the 19th and 20th centuries by contemporary women authors. Taught in English. Prereq: Honors standing, and English 1110 (110); or permission of instructor. Not open to students with credit for 2702 (372), 372H, Arabic 2702 (372), or 2702H (372H). GE lit and diversity global studies course. Cross-listed in Arabic.					
2750	Natives and Newcomers: Immigration and Migration in U.S. History	U	3		
General survey of (im)migration history in the U.S. from precolonial times to the present. Topics include cultural contact, economic relations, citizenship, politics, family, and sexuality. Prereq or concur: English 1110.xx, or permission of instructor. Not open to students with credit for 2750H, History 2750, 2750H, or 2750E. GE historical study and diversity soc div in the US course. GE foundation historical or cultural studies course. Cross-listed in History.					
2750H	Natives and Newcomers: U.S. Immigration and Migration	U	3		
General survey of (im)migration history in the U.S. from precolonial times to the present. Topics include cultural contact, economic relations, citizenship, politics, family and sexuality. Prereq: Honors standing, and English 1110; or permission of instructor. Not open to students with credit for History 2750 or 2750E. GE historical study and diversity soc div in the US course. GE foundation historical or cultural studies course. Cross-listed in History.					
3100	Islamic Activisms: Gender, Sexuality & Politics	U	3		
This course addresses the complexity of contemporary feminisms in the Middle East by analyzing the political goals, strategies, and activism of women's movements in this region. Through case studies in Afghanistan, Algeria, Egypt, and Iran, we will explore how women's movements in the Middle East position themselves in relation to Islamist, (neo)liberal, nationalist, and socialist ideologies. Prior credit for 1110 strongly encouraged.					
3101	Food & Gender	U	3		
If you are what you eat, then food is a means for understanding gender, sexuality, culture, society, race, and socioeconomic class. This class explores feminist studies of food. By thinking through food, we explore such topics as vegetarianism, diets, pleasure, farming, hunger, fat studies, boycotts, eating disorders, waste, and culinary heritage. This class is literally food for thought.					
3191	Internship in Women's, Gender and Sexuality Studies	U	1 - 3		
Supervised practical experience at a departmental approved internship site related to the student's major or minor in Women's, Gender and Sexuality Studies. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.					
3200	Breaking the Law: An Introduction to Gender Justice	U	3		
Sexual harassment. Revenge porn. Getting married. Becoming a parent. Who we are and how society responds to us in legal contexts can have profound impacts on our lives. This course introduces you to the ways in the law grapples with gender, sexuality and race and the ways that human diversity informs claims to justice.					
3280	Introduction to Trans Studies	U	3		
Examination of intersecting state, social, and cultural institutions that shape transgender struggles through gender identity, gender, race, indigeneity, migration, and socio-economic class. Emphasizes trans of color, queer of color, indigenous, and women of color feminist approaches that engage histories of race and white supremacy, settler colonialism, and empire. Prereq: 1110, 3 credit hours in WGSSt courses, or permission of instructor.					
3300.01S	Feminist Perspectives of Incarceration in the US	U	3		
This course explains the growth in the US prison system and its punitive shift from feminist, anti-racist, and queer perspectives. Students will learn about the historical and ongoing disproportionate incarceration of the poor, people of color, and gender non-conforming people. This service-learning course is an Inside-Out Prison Exchange Program class to be offered in Spring semesters. Prereq: Permission of Instructor.					
3302	Gender, War & Peacebuilding	U	3		
Feminist scholars have demonstrated the multiple and complex ways that gender norms are implicit to the processes of war, militarism, and peace and have examined gender as a system of power that is both instrumental in, and constituted by, militarism and armed conflict. This course explores war and peace as gendered phenomena reliant on socially constructed norms. Prereq: 1110, 3 credit hours in WGSSt courses, or permission of instructor.					
3306	Gender, Media, and New Technologies	U	3		
Explores how race, gender, class, sexuality, and physical ability discourses of the real world are or aren't redefined in the virtual world.					
3320	Topics in Women's, Gender and Sexuality Studies	U	3		
Provides in-depth analyses of specific topics in the areas of difference and diversity, culture and representation, and political contexts and social change. Repeatable to a maximum of 9 cr hrs.					
3370	Sexualities and Citizenship	U	3		
A survey of cultural, social, and political issues related to historical and contemporary lesbian experience in the United States. GE diversity soc div in the US course.					
3385	Women in Political Leadership Internship	U	3		
Offers students opportunities to learn leadership and policy making skills by working with Ohio women lawmakers. Prereq: Not open to students with credit for 385.					
3505	Transnational Feminisms	U	3		
Examines how feminist activists and scholars understand and interrogate contemporary globalization.					
3530	Women, Environment and Development	U	3		
Interdisciplinary study of women's roles as environmental stewards and in resource-based development in global context. Attention given to gender differences in environmental and rural practices. Prereq: Not open to students with credit for ENR 3530. Cross-listed in ENR.					
3575	Feminist Methodology	U	3		
This course will introduce students to thinking critically and analytically about feminist approaches to knowledge production, examining identities and subjectivities, and critical excavations of lived experiences and consciousness. We will focus on how race, class, gender, sexuality, ability, religion, ethnicity, and geopolitical location affect feminist research and scholarship. Completion of 1110 strongly recommended prior to enrollment in this course.					
4189.01S	Reproductive Rights and Justice	U	3		
This class takes an interdisciplinary feminist approach to investigating the history and contemporary politics of reproduction. It focuses on both US and global contexts and links the academic investigation to service learning in the Columbus community. Students will work with organizations who seek to further the goals of reproductive justice in policy, activist, legal, and healthcare contexts. Prereq: 1110, or 3 credit hours in WGSST courses, or permission of instructor.					
4194	Group Studies	U	3		
Special studies not otherwise offered; topic varies; students should consult department course listing. Repeatable to a maximum of 6 cr hrs. This course is graded S/U.					

Women's, Gender, and Sexuality Studies 443

4401 Asian American Women: Race, Sex, and Representations U 3

Examines the experiences and cultural representations of Asian American women for insight into race, gender, sexuality, and citizenship in U.S. and Asian societies. GE historical study and diversity soc div in the US course. Cross-listed in History 3612.

4402 Black Women: Representations, Politics, and Power U 3

Examines the ways in which black women and black womanhood are constructed and represented across cultural, social, and political contexts in the U.S., specifically how they are making meaning of their lives.

4403 Gender and Leadership U 3

Focuses on how gender can influence who becomes a leader, the styles of leadership they employ, and how effective leaders can be.

4404 Regulating Bodies: Global Sexual Economies U 3

Regulation of women's bodies and sexual practices in national and international contexts. Topics include: state regulation of reproduction, population control, and migration of sexualized labor. Prereq: 1110, 3 credit hours in WGSSt courses, or permission of instructor.

4405 Race and Sexuality U 3

Placing the concepts of 'race' and 'sexuality' in the historical frameworks of colonialism, slavery, and 19th century science, we will draw on feminist, anti-racist and queer theorists, literature, and film to investigate how race and sexuality intersect in all our lives. Prereq: 1110, 3 credit hours in WGSSt courses, or permission of instructor.

4465 Feminist Political Theory U 3

Examines concepts in feminist political theory including the articulation of feminism, the subjects of feminist theory, the relation of race, class and sexuality to gender experience, and the use of feminist theory to transform conceptions of justice. Prereq: Not open to students with credit for PolitSc 4465. Cross-listed in PolitSc.

4513 Women, Government and Public Policy U 3

An examination of policymaking on gender-related issues and the impact of women in government. Prereq: Not open to students with credit for 513 or PolitSc 4175 (513). Cross-listed in PolitSc 4175.

4520 Women of Color and Social Activism U 3

Examination of multiple forms of social activism among women of color from various parts of the world concerning local, national, and international issues. GE diversity soc div in the US course.

4524 Women's Work? Sex, Race, Class & Labor U 3

This course explores the evolution of gender roles in labor, both compensated and uncompensated. We examine how these gendered roles have been influenced by sex, and how they continue to be linked to sex, race, and class, as well as other aspects of identity.

4525 Feminist Critiques of Markets - Profiting from Inequality U 3

Should sexist forms of advertising be permissible? Should we be able to charge a higher price on the basis of gender or race? Should we refuse to buy from or sell to people if our moral commitments are incompatible? Feminist Critiques of Markets will engage feminist readings and critiques in the service of answering concerns like these at the intersection of gender, sexuality, race, & class.

4527.01 Studies in Gender and Cinema U 3

Analysis of different film types focused on women to help students understand historical scope, theoretical frameworks, and reading strategies for understanding these films; topics vary. Repeatable to a maximum of 6 cr hrs.

4527.02 Studies in Gender and Cinema: The British Horror Film in London U 3

Study abroad in London, UK for study of the British horror film tradition through the lens of feminist film theory, with emphasis on genre, historical contexts, production modes, and archival research. Course work will include engagement with museums, film studios, West End Theater, horror tourism, and review of scripts available at the British Film Institute and at Leicester University. Students are strongly encouraged to have taken WGSSt 1110 prior to this course.

4540 Women of Color: Art, Literature and Culture U 3

Interdisciplinary feminist study of selected historical and cultural movements through writing by women of color; topics vary by genre and by era.

4560 Crossing Borders with Mexican-American and Chicana Feminisms U 3

Provides a general overview of Chicana feminist theory and practice from the early 1970's to the present.

4575 Women's Studies Senior Seminar U 3

Examination of particular contemporary issues which have crucial implications for feminist inquiry (topics vary). Prereq: 1110, 3575, and Sr standing in WGSSt major or minor, or permission of instructor.

4597 Gender and Democracy in the Contemporary World U 3

Highlighting perspectives from various contexts across the globe, this course explores issues of gender and democracy in the contemporary world. Prereq: Not open to students with credit for 597 or PolitSc 4597.03 (597.03). GE cross-disciplinary seminar course. Cross-listed in PolitSc 4597.03.

4845 Gender, Sexuality, and Science U 3

Examination of relations between gender and science; topics include gendering of "science" and "nature," biological theories of sexual inequality, feminist critiques of science and technology. Prereq: One course in CompStd or WGSSt, or Grad standing, or permission of instructor. Not open to students with credit for 535 or CompStd 4485 (535). Cross-listed in CompStd.

4921 Intersections: Approaches to Theorizing Difference U 3

Examines intersections of race, ethnicity, and gender diversity in various sites within American culture (e.g., legal system, civil rights discourse, social justice movements). Prereq: One course in CompStd, WGSSt, or AfAmAST. Not open to students with credit for AfAmAST 4921 or CompStd 4921. GE theme citizenship for div and just wrld course. Cross-listed in CompStd and AfAmAST.

4998 Capstone Project U 1-5

Open to students completing a capstone project. Should be scheduled in consultation with advisor. Topics vary. This course is graded S/U.

4998H Honors Project U 1-5

Open to students to be used for the completion of an honors project. Should be scheduled in consultation with advisor. Topics vary. Prereq: Honors standing. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.

4999 Distinction Thesis U 1-5

Completion of a distinction thesis. Should be scheduled in consultation with advisor. Topics vary. This course is graded S/U.

4999H Honors Thesis U 1-5

Completion of an honors thesis. Should be scheduled in consultation with advisor. Topics vary. Prereq: Honors standing. Repeatable to a maximum of 20 cr hrs or 20 completions. This course is graded S/U.

5193 Individual Studies U G 1-9

Individual studies in women's, gender and sexuality studies as arranged with an instructor or advisor. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.

5450 Global Human Trafficking: Realities and Representations U G 3

This course will introduce students to the development of human trafficking as it has been understood and represented by governments, policymakers, the media, and popular culture. The objective of this course is to scrutinize common understandings and representations of trafficking and to consider the advantages and disadvantages of such understandings and representations. Prereq: Not open to students with credit for Slavic 5450. Cross-listed in Slavic.

5998 Undergraduate Research in Women's, Gender and Sexuality Studies U G 1-3

Undergraduate research or creative activities in variable topics. This course is graded S/U.

7700 Feminist Inquiry I G 3

Introduction to women's, gender and sexuality studies as an academic field of study and an orientation to the graduate program, facilities, resources, and people. Prereq: Mast, Doct, or Grad minor standing in WGSSt.

7701 Feminist Inquiry II G 3

The second of a two semester course examining interdisciplinary feminist approaches to theory and methodology. The course questions divisions between power, knowledge, objects and subjects of analyses, and the practices of academic engagement. Emphasizes the connection between methodology and epistemology in feminist scholarship. Sp Sem.

7702 Feminist Pedagogy G 3

Assist graduate students in meeting instructional responsibilities and developing necessary skills for college level teaching in women's studies. Prereq: Not open to students with credit for 702.

7760 Feminist Inquiry: Methods G 3

An overview of feminist methodological issues and dilemmas and an introduction to a variety of research methods. Prereq: Not open to students with credit for 760.

7780 Theorizing Global and Transnational Feminisms G 3

Provides a broad comprehension of theoretical aspects of global and transnational feminisms. Prereq: Not open to students with credit for 780.

7790 Research and Writing Workshop G 3

Seminar dedicated to research & writing in feminist studies, leading to a final product such as a MA paper or thesis, a dissertation chapter, an article to be submitted for peer review, or a PhD proposal intended for national funding competitions. Also may include a review of professional development skills involved with peer review publishing, the construction of curriculum vita, & other topics. Repeatable to a maximum of 6 cr hrs.

8163 Practicum in Women's, Gender and Sexuality Studies G 1-3

Credit hours for students participating in an on or off campus practicum, with cooperation with their academic advisor and practicum supervisor. Also for first year graduate students in WGSSt during their second semester of teaching. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

8193 Individual Studies G 1-9

Students may register for individual directed study in subjects not covered in regular course work. Repeatable to a maximum of 24 cr hrs or 24 completions. This course is graded S/U.

444 Women's, Gender, and Sexuality Studies

8800.01	Topics in Feminist Studies	G	3
Feminist studies on a variety of topics at the graduate level. Repeatable to a maximum of 24 cr hrs.			
8800.02	Topics in Feminist Studies	G	3
Feminist studies on a variety of topics at the graduate level. Repeatable to a maximum of 24 cr hrs.			
8800.03	Topics in Feminist Studies	G	3
Feminist studies on a variety of topics at the graduate level. Repeatable to a maximum of 24 cr hrs.			
8800.04	Topics in Feminist Studies	G	3
Feminist studies on a variety of topics at the graduate level. Repeatable to a maximum of 24 cr hrs.			
8800.05	Topics in Feminist Studies	G	3
Feminist studies on a variety of topics at the graduate level. Repeatable to a maximum of 24 cr hrs.			
8800.06	Topics in Feminist Studies	G	3
Feminist studies on a variety of topics at the graduate level. Repeatable to a maximum of 24 cr hrs.			
8998	Research in Women's, Gender, and Sexuality Studies	G	1 - 12
Graduate research not directed towards dissertation. Repeatable. This course is graded S/U.			
8999	Research in Women's, Gender, and Sexuality Studies: Dissertation	G	1 - 3
Research for dissertation purposes only. Repeatable to a maximum of 99 cr hrs or 99 completions. This course is graded S/U.			

Yiddish

1101	Yiddish I	U	4
Yiddish 1101 is an introduction to the Yiddish language and Ashkenazic culture. You will learn to communicate in culturally appropriate ways in Yiddish. We aim to help you develop balanced skills in speaking, listening, reading, and writing. In addition, you will engage with Ashkenazic culture in Europe, Israel, and the United States. This course is available for EM credit. GE for lang course. GE world languages course.			
1102	Yiddish II	U	4
Development of listening, reading, speaking, and writing skills. Reading of simplified Yiddish texts about Yiddish culture. Prereq: 1101. Not open to students with credit for 103, or native speakers of this language through regular course enrollment or EM credit. This course is available for EM credit. GE for lang course. GE world languages course.			
1103	Yiddish III	U	4
Development of listening, reading, speaking, and writing skills. Reading of Yiddish short stories and poems. Prereq: 1102. Not open to students with credit for 103 or 104, or native speakers of this language through regular course enrollment or EM credit. This course is available for EM credit. GE for lang course. GE world languages course.			
2193	Independent Studies	U	1 - 4
Independent studies in Yiddish and Ashkenazic studies. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hr or 4 completions. This course is graded S/U.			
2194	Group Studies	U	1 - 4
Investigation of problems in various fields of Yiddish and Ashkenazic studies. Prereq: Permission of instructor. Repeatable to a maximum of 16 cr hrs or 4 completions.			
2241	Yiddish Culture	U	3
Introductory survey of political, social, ideological, and religious trends as reflected in Yiddish culture, especially folklore and literature. Prereq: Not open to students with credit for 241 or JewshSt 2241. GE cultures and ideas and diversity global studies course. GE foundation historical and cultural studies course. Cross-listed in JewshSt.			
3371	Yiddish Literature in Translation	U	3
Reading, analysis, and discussion of representative works and of the development of major movements and genres in Yiddish literature. Prereq: Not open to students with credit for 371 or JewshSt 3371. GE lit and diversity global studies course. Cross-listed in JewshSt.			
3399	The Holocaust in Yiddish Writing and Film	U	4
We will analyze texts, films & other media produced during and after the Holocaust & consider how these materials open up different perspectives on a seemingly well-known history. We will also consider how these materials participate in ongoing debates about citizenship & statelessness, justice & restitution, the representation of violence, and cultural memory. Readings & discussion in English. GE lit and diversity global studies course. GE theme citizenship for div and just wrld course.			
4998	Undergraduate Research	U	1 - 4
Investigation of problems in various fields of Yiddish and Ashkenazic studies. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			

4998H	Honors Research	U	1 - 4
Investigation of problems in various fields of Yiddish and Ashkenazic studies. Prereq: Honors standing, and permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4999	Undergraduate Research Thesis	U	1 - 4
Research for undergraduate thesis. Prereq: Permission of undergraduate thesis advisor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
4999H	Honors Undergraduate Research Thesis	U	1 - 4
Research for Honors undergraduate research thesis. Prereq: Honors standing, and permission of undergraduate honors thesis advisor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
5193	Independent Studies	U G	1 - 4
Independent studies in Yiddish and Ashkenazic studies. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.			
5194	Group Studies	U G	1 - 4
Investigation of problems in various fields of Yiddish and Ashkenazic studies. Prereq: Permission of instructor. Repeatable to a maximum of 18 cr hrs or 6 completions.			
5671	Yiddish for Speakers of German	U G	3
Yiddish for Speakers of German; intensive overview of Yiddish grammar; stylistics of academic Yiddish; introduction to bibliography in Yiddish and Ashkenazic studies. Prereq: German 201 or higher, or Grad standing in German. Not open to students with credit for 671.			
5672	Yiddish for Reading and Research	U G	3
This course introduces students to Yiddish language & culture with a particular focus on the development of reading skills. It is principally designed for grads & undergrads who want to learn Yiddish for reading/research purposes. Yiddish 5672 will also provide a strong foundation for students interested in Yiddish but who can take only one semester of the language. Open to undergraduate students, graduate students, and community members who have taken at least three semesters of German, or are heritage speakers of Yiddish, or who have other kinds of relevant linguistic preparation, e.g., intermediate/advanced reading knowledge of Hebrew or a Slavic language.			
5797	Study at a Foreign Institution	U G	1 - 9
