Jewish Studies

JEWSHST

Autumn 2026 Semester

3241 Yiddish Culture

Previous Number: 2241

U 3

A bastardized German, a woman's vernacular, a dying tongue, a radical language-this course traces the shifting labels attached to Yiddish, from its early modern beginnings to its contemporary status as a language of mourning and nostalgia, Jewish humor, Hasidic isolation, and Jewish radicalism. Through poetry, fiction, essays, and film, we explore what Yiddish can tell us about the modern world.

Prereq: Not open to students with credit for 2241, Yiddish 2241 or 3241. Cross-listed in Yiddish.

Course Subject Change

Public Health

PUBHLTH

Autumn 2026 Semester

8899.01 First Year Doctoral SeminarPrevious Subject: PUBHHBP

G 1

This first semester seminar course for doctoral students in public health to introduce students to the academic field of health research. The purpose of the course is to a) provide students with a strong foundation on strategies for success as a doctoral student and b) an understanding of the history of public health, including ethical challenges both past and present.

Prereq: Enrollment in a PhD program in the College of Public Health. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

Autumn 2026 Semester

8899.02 Doctoral Seminar: Grant WritingPrevious Subject: PUBHHBP

G 1

A seminar for PhD students to help them compose a career development or dissertation-type grant proposal. The proposal will arise from an examination of current public health problems, national research priorities, issues within public health science, and career patterns of doctorally-prepared public health scientists.

Prereq: Enrollment in PubHlth PhD Program; or permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

Autumn 2026 Semester

8899.03 Doctoral Seminar-Teaching Methods

G 2

A seminar for PhD students to help them compose a career development or dissertation-type grant proposal. The proposal will arise from an examination of current public health problems, national research priorities, issues within public health science, and career patterns of doctorally-prepared public health scientists. Prereq: Enrollment in PubHlth PhD Program; or permission of instructor. Repeatable to a maximum of 2 cr hrs. This course is graded S/U.

Previous Subject:
PUBHHBP

Teaching & Learning Teacher Education

TLTED

Autumn 2026 Semester

3189.03 Field Experience: English Language Education

G 1-2

The field experience is designed to provide: (1) lesson planning, teaching, and classroom management; (2) student learning, interests, and perspectives; (3) the requirements of being a professional educator; and (4) effectively bringing together the work done in a university classroom with work done in 7-12 integrated language arts classrooms. Prereq: Admission to English Language Arts Education Major. Repeatable to a maximum of 4 cr hrs or 4 completions.

Previous Subject:
EDUTL

New Course

Art Education

ARTEDUC

Autumn 2026 Semester

2800 Nature in Mind: Visual Responses to the Living World

U 4

This course explores how artists and communities creatively engage with environmental issues through visual culture, storytelling, and ecological imagination. Grounded in contemporary eco-art practices, this course introduces students to major themes in environmental justice, land use, biodiversity, climate, waste, and sustainability.

Arts and Sciences

ARTSSCI

Autumn 2026 Semester

1094 Interdisciplinary Group Studies

U ½ - 3

Study of special or interdisciplinary topics at an introductory level. Prereq: Permission of instructor. Repeatable to a maximum of 9 cr hrs or 9 completions.

Biology

BIOLOGY

Autumn 2026 Semester

4150 Undergraduate Research Scholars

U 1

This seminar will guide undergraduate research scholars (URS) in life sciences towards a path of discovery allowing student to enhance their high-impact research participation experience at OSU. Must have an established working relationship with a graduate student mentor in a research lab at OSU to enroll. Prereq: permission of instructor. This course is graded S/U.

Business Admin

BUSADM

Spring 2027 Semester

4395 Supply Chain Integration

U 3

An experiential capstone course for undergraduate business students specializing in Supply Chain Management. Students will be expected to synthesize knowledge to solve live business problems. Prereq: BusML 4380, 4383, 4384, 4386 and BusOBA 4232.

Business Admin: Finance

BUSFIN

Autumn 2026 Semester**2221 Finance I****U 1½**

A foundational exploration of how corporations navigate the financial landscape to create value. Students will examine the flow of capital between investors and firms, learning the fundamental relationship between risk, return, and interest rates.

Prereq: Admission to Fisher College of Business. Not open to students with credit for 3120 or 3220.

Business Admin: Marketing & Logistics**BUSML****Autumn 2026 Semester****2251 Marketing I****U 1½**

An overview of the marketing function, the role and scope of responsibilities of marketing within companies' ecosystems, and the decisions for which the marketing function is responsible.

Prereq: Not open to students with credit for 3150 or 3250.

Autumn 2026 Semester**2380 Logistics****U 1½**

A focus on the concepts and methods used to plan and manage logistics activities in a business environment. Students will gain an understanding of the components of logistics management and the tradeoffs required to manage the integrated flow and storage of goods through a supply chain.

Prereq: Admission to Fisher College of Business. Not open to students with credit for 3380.

Chinese**CHINESE****Autumn 2026 Semester****3797 Beliefs and Transformations in Taiwan****U 4**

Through an array of engaging activities including academic reading, video-viewing, cultural excursion, filming project, and self-reflection paper writing, and lectures by instructors and local scholars, participants are immersed in the rich tapestry of Taiwanese communities, cultural heritage, and belief systems.

Civics, Law, and Leadership**CIVICLL****Autumn 2026 Semester****2210E Freedom and Equality in American Literature****U 3**

This course examines the privileged role creative writing has had in defining the terms of American citizenship. Proceeds through close reading of key works of fiction, nonfiction, and poetry to examine how writers have sought to define freedom and equality, shaping and transforming the American understanding of these ideals.

Autumn 2026 Semester**2230 Capitalism and Its Critics: An Intellectual History****U 3**

Where did capitalism come from? What made it possible? This course provides a historical account of the ideas and practices that created the capitalist system along with criticisms it inspired. It considers capitalism as a multi-faceted concept that has informed the beliefs and actions of kings, philosophers, economists, producers, consumers, and citizens.

Autumn 2026 Semester**2410 Citizenship on Trial: Legal Battles Over American Belonging****U 3**

The meaning of U.S. citizenship has been hotly contested over the course of this nation's 250 years. This course considers the U.S. Supreme Court's contributions to defining the terms of American citizenship. Students will read U.S. statutes, U.S. Supreme Court cases, and leading scholarship on constitutional law.

Autumn 2026 Semester**3325 Pluralism and Its Problems****U 3**

This course asks students to reflect on what pluralism means, why it might be valuable, and how we can sustain it as individuals and as a community. The course will take a cross-cultural, comparative approach to understanding pluralism, using case studies of pluralist regimes in the past and present, and examining theories of pluralism from political philosophy, law, and religious studies.

Autumn 2026 Semester**3335 Holy Buckeye! Football and American Civic Religion****U 3**

Is Ohio Stadium the site of a uniquely American civic religion-college football? This course considers college football as a laboratory for central questions in philosophy, politics, economics, and civic thought: how norms emerge, how institutions stabilize behavior, how collective identities are formed, and why people comply with rules they did not choose.

Autumn 2026 Semester**3345 States of Nature: The Nature of State Building in the United States and Western Europe, 1776-1945****U 3**

Throughout history, ideas about nature have been invoked to justify political programs, and environmental realities have shaped state-building efforts. This class will require you to think critically about the cultural and environmental centrality of nature to projects of nation-building, conceptions of national identity, and civic thought.

Autumn 2026 Semester**3355 Markets and Morality in Public Policy Problems****U 3**

This course explores the intersection of American political economy and cutting-edge questions in moral theory. Students read classics of economic theory alongside contemporary debates in political philosophy, and apply their insights to public policy problems. Topics covered may include economic inequality, growth, centralized planning, environmental degradation, marriage and family policy.

Autumn 2026 Semester**3380 Technology and American Democracy: An Inquiry Through History and Law****U 3**

This course explores how American democracy has been reshaped by the development of technology in three related domains: speech, (tele)communications, and privacy. These topics cut across issues of work, identity, family, politics, economics, and law in modern America. We will examine their relationship historically, and in the present.

Consumer Sciences: Consumer&Family Financial Servs**CSCFFS****Spring 2027 Semester****3200 The Science of Personal Finance****U 4**

Discover how patterns in numbers, nature and the mind shape everyday financial decisions. This course treats personal finance as a science, connecting ideas like growth, risk, and randomness to saving, credit, investing and loans. Using simple models and hands-on activities, students identify thinking traps & build stronger habits around budgeting, borrowing, insuring and planning for the future.

Computer Science and Engineering**CSE****Autumn 2026 Semester****5917.01H Capstone Design: Integrated Business and Engineering Software Innovation (IBE-SI)****U G 3**

Capstone design project required for IBE-SI students. Students work on real-world, open-ended problems with oversight and mentorship from an industry partner / sponsor. Teams follow a value creation / product development cycle applying the practices of market research, user-centered design, and minimal viable product (MVP).

Prereq: 2331, BusMHR 2400H and 3400H; and enrollment in the Integrated Business and Engineering (IBE) program.

Consumer Sciences: Hospitality Management

CSHSPMG

Spring 2027 Semester

3620 How Tourism Shapes Our World
U 3

How does tourism shape the world around us? This course explores destinations as lived environments and examines how travel influences culture, community, identity, sustainability, and place. Students analyze real-world examples through discussion, case studies, and applied activities while developing their own destination-based inquiry.

Dance

DANCE

Autumn 2026 Semester

6490 History/Theory/Literature in Practice: Special Topics
G 3

Interdisciplinary study of choreography, composition, performance, archival research, etc. to investigate the body as cumulative history. Discuss various critical and applied perspectives on profound practice. Review of literature on practice across disciplines; critical focus on embodied ways of creating, reproducing, transmitting knowledge, awareness, engagement with corporeal epistemologies.

Prereq: Grad standing. Repeatable to a maximum of 9 cr hrs or 3 completions.

English

ENGLISH

Autumn 2026 Semester

3380 Cinema Revolutions
U 3

This class examines cinema as an ongoing series of technological, industrial, historical, and formal developments that both reflects and transforms the larger societies in which it's situated.

Prereq: 1110.xx; or GE foundation writing and info literacy course.

Ethnic Studies

ETHNSTD

Spring 2027 Semester

5411 Latinx Ethnographies
U G 3

Engaging with canonical and contemporary texts on ethnographic research and writing, during this course, students will learn about how the Latinx community has been imagined and created through ethnographic texts. We will discuss the challenges and limitations of ethnographic writing, and what happens when Latinx scholars start writing their own ethnographies/stories.

German

GERMAN

Autumn 2026 Semester

4604 From the German: Translation in the 21st Century
U 3

Seminar on translation for students of German using project-based learning to cultivate advanced strategic communication and intercultural skills for the contemporary world. Develops student A.I. competencies, rhetorical skills, and media literacies (including legacy and social media) across modules on literary, marketing, and legal translation, as well as trans-medial content adaptation.

Prereq: 2102 or equiv, or permission of instructor.

Landscape Architecture

LARCH

Spring 2027 Semester

7960 Directed Research
G 8

Self-directed landscape architectural design research, with a focus on cultivating an original, cohesive body of scholarly and creative work.

Prereq: 7940; and grad standing.

Music

MUSIC

Autumn 2026 Semester**2525 Introduction to Clinical Fieldwork****U 1**

This is a foundational course in the Bachelor of Music Therapy program, providing students with a comprehensive introduction to the practical application of music therapy principles in clinical settings.
Prereq: 2471, 2473 and 2475.

Autumn 2026 Semester**4638 Music Psychology****U 3**

This course provides an introduction to psychology of music, including acoustics and psychoacoustics, music cognition and learning, the impact of music on human behavior, music for health and healing, and music within a social context.
Prereq: Jr or Sr standing; or permission instructor.

Nursing Practice**NRSPRCT****Autumn 2026 Semester****8120 Evaluating Health Care Data in Advanced Practice Nursing****G 1**

This course prepares students to critically interpret, apply, and communicate health care data. Emphasis is placed on understanding variable types, measurement strategies, and appropriate selection and interpretation of descriptive and selected inferential statistics commonly reported in the health care literature.
Prereq: Enrollment in the Doctor of Nursing Practice (DNP) program; or permission of instructor.

Nursing**NURSING****Autumn 2026 Semester****2891H Introduction to Research Principles****U 2**

Discussion of topics relevant to scientific inquiry and professional engagement to establish a foundation for the honors project.
Prereq: Honors standing; or permission of instructor.

Autumn 2026 Semester**3891.01H Evaluating Scientific Evidence****U 1**

Discussion of topics relevant to locating, evaluating, and synthesizing scientific evidence.
Prereq: Honors standing; and 2891H; or permission of instructor.

Autumn 2026 Semester**3891.02H Research Methods and Measurement****U 1**

Discussion of topics relevant to data collection, measurement, and basic data analysis to strengthen scientific rigor.
Prereq: Honors standing, and 3891.01H; or permission of instructor.

Autumn 2026 Semester**4891.01H Scholarly Writing****U 2**

Discussion of topics relevant to scholarly writing for effective research communication.
Prereq: Honors standing; and 3891.02H; or permission of instructor. This course is progress graded (S/U).

Autumn 2026 Semester**4891.02H Research Dissemination****U 2**

Discussion of topics relevant to presenting and disseminating scholarly findings.
Prereq: Honors standing; and 4891.01H; or permission of instructor.

Autumn 2026 Semester**7375 Applied Clinical Skills for Nurse Anesthesia Practice****G 4**

This course prepares students to provide anesthesia care across the perianesthesia continuum. Students will acquire basic competency in airway management, vascular access, neuraxial anesthesia, ultrasound-guided regional anesthesia, and point-of-care ultrasound (POCUS) to support safe perioperative assessment and decision-making. The course includes structured orientation to clinical sites.

Prereq: 7445; and Enrollment in the DNP program nurse anesthesia track.

Public Affairs, John Glenn College**PUBAFRS****Autumn 2026 Semester****2000 Society and the Public Sector: Federal, State, and Local Government****U 3**

Discover how government shapes society and everyday life! This class explores documents and speeches foundational to American government and examines the structure and functions of federal, state, and local government. Through reflection papers, engaging discussions, and interaction with public servants, you will learn how these foundations, structures, and functions operate in everyday life.

Public Health: Health Behavior & Health Promotion**PUBHHBP****Autumn 2026 Semester****5532 From Evidence to Action: LGBTQ+ Health Promotion in Practice****U G 3**

This course introduces students to the historical, cultural, and scientific forces that shape LGBTQ+ population health in the United States and examines how these forces inform contemporary health promotion practice.

Prereq: (applicable to undergrads only) 3510; or WGSSt/English 2282; or equivalent with permission of instructor.

Public Health**PUBHLTH****Spring 2027 Semester****3060 Technology, Innovation, and Public Health****U 3**

This undergraduate-level course explores how technological innovation has shaped and continues to shape public health practice, policy, and research. Students will trace key technological milestones (e.g., vaccines, sanitation systems, electronic health records) and examine how emerging tools, particularly (AI), are transforming the field today.

Prereq: 2010 and Jr or Sr standing; or permission of instructor.

Spring 2027 Semester**4060 U.S. and International Health Policy****U 3**

This course will introduce students to the fundamental aspects of U.S. health policy and the processes through which health policy is made, implemented, and changed. It will also engage students in cross-national comparisons of health policy and in understanding the role of global health organizations in the health policy of the U.S. and other countries.

Prereq: PubHHMP 3610; and GE foundation writing and info literacy course; or permission of instructor.

Slavic Languages and Literatures**SLAVIC****Autumn 2026 Semester****3390 Tuning in to Red Soundscapes: Politics and Culture of Soviet and Russian Radio****U 3**

The course aims to deepen understanding of the role of radio and sound in shaping the cultural, social, and political environments of the Soviet Union and Post-Soviet Russia. Lenin's sentiment, "Communism is Soviet power plus the electrification of the whole country," highlights the importance he placed on technological advancements, including communications technology, in building the USSR.

Speech and Hearing Science**SPHHRNG**

Autumn 2026 Semester**6565 FUNDAMENTALS IN FIBEROPTIC ENDOSCOPIC EVALUATION OF SWALLOWING FOR SPEECH-LANGUAGE PATHOLOGY I****G 1**

The purpose of this course is to learn the fundamental components of the fiberoptic endoscopic evaluation of swallowing (FEES) procedure for the evaluation and treatment of swallow disorders in the practice of speech language pathology.

Prereq: 6466 and 6764. This course is graded S/U.

Women's, Gender, and Sexuality Studies**WGSST****Autumn 2026 Semester****2328 Survival in the 21st Century****U 3**

What does it mean to survive? And how does "survival" alter when understood as an individual vs. a collective struggle for equitable health and wellbeing? This course examines the historical and contemporary lives of survival. Contemporary popular discourses, from reality television to medical memes, provide the immediate context for our scientific, historical and cultural investigation.

Remove from Withdrawal**Anthropology****ANTHROP****Autumn 2026 Semester****8892.02 Seminars in Physical Anthropology: Non-human Primate Behavior****G 2 - 6**

Non-human primate behavior.

Repeatable to a maximum of 6 cr hrs or 3 completions.

Update Course**Anthropology****ANTHROP****Autumn 2026 Semester****5607 Human Osteology****U G 3**

Human osteology is the study of the human skeleton. This course serves as an intensive examination of the human skeleton as well as commonly encountered nonhuman skeletal elements. Students are expected to learn how to identify and side complete and fragmentary skeletal elements using bony morphology, features, and landmarks.

Prereq: Grad standing; or 2200 or 2200H; or permission of instructor.

Architecture**ARCH****Autumn 2026 Semester****7220 Architectural Theory****G 3**

This course provides the study of the written word within the practice and discipline of architecture. It examines the relations between written representation, architecture and the historical, conceptual, and cultural arguments with which they are associated. Texts by practitioners and theorists will be discussed for their architectural arguments and used to develop new texts.

Prereq: Grad standing. Concur: 7420.

Business Admin**BUSADM**

Autumn 2026 Semester**3532 Entrepreneurship and Innovation: Corporate Entrepreneurship****U 3**

Develop skills and understanding of theories and their application to develop new ideas and viable new businesses within an established firm. Address the development of an internal culture of innovation, processes for reviewing ideas and developing concepts, strategic analysis, positioning for competitive advantage, forms of corporate ventures, and the qualities of corporate entrepreneurs.

Civics, Law, and Leadership**CIVICLL****Autumn 2026 Semester****2420 The Evolution of Citizenship in America, 1775-1920****U 3**

This course surveys the evolution of citizenship in the United States from the Revolutionary War through the ratification of the 19th Amendment. Students consider how individuals and groups outside positions of formal political power worked to expand or restrict who could claim citizenship, with special attention to the relationship between constitutional law and civil society.

English**ENGLISH****Autumn 2026 Semester****3019 The Language of Place: Interpreting our Surroundings****U 3**

This course examines the rhetorical ways that spaces-parks, memorials, museums, cityscapes, and even ordinary places like coffee shops and the campus-operate like a persuasive language to shape our communal identity and profoundly impact our lives.

Prereq: English 1110.xx; or GE foundation writing and info literacy course.

Engineering**ENGR****Autumn 2026 Semester****5797.29 Around the World with Disney Imagineering****U G 4**

In this study abroad embedded course, students have the opportunity to engage with Disney Imagineering at their theme parks and headquarters in various locations. This experience will explore how interdisciplinary interests can contribute to collaborative creations like Disney parks.

Repeatable to a maximum of 12 cr hrs or 3 completions.

Film Studies**FILMSTD****Autumn 2026 Semester****2270.01 Introduction to Film Studies****U 3**

An introduction to the field of Film Studies based on a survey of the major theories of film analysis (for non-majors).

Prereq: Not open to students with credit for 2270.02 or 2271.

Campus: COL LMA
MNS MRN NWK WST

Autumn 2026 Semester**2270.02 Introduction to Film Studies Online****U 3**

An introduction to the field of Film Studies based on a survey of the major theories of film analysis (distance learning; for non-majors).

Prereq: Not open to students with credit for 2270.01 or 2271.

Campus: COL LMA
MNS MRN NWK WST

Human Development And Family Science**HDFS**

Autumn 2026 Semester

2350 Parenting
U 3

Campus: COL LMA

Identification and examination of the theoretical approaches applicable to child rearing in families; emphasis on developing practical skills for working with parents and children.

Autumn 2026 Semester

2367 American Family Issues
U 3

Campus: COL LMA

Development of writing, presentation, and oral discussion skills while critically examining family and related community issues.

Prereq: English 1110.01, 1110.02, or 1110.03.

Autumn 2026 Semester

3189.01 Field Work with Targeted Populations: Children
U 1 - 3

Campus: COL LMA

Field Work for students who are interested in working with children.

Prereq: 2410, and Jr or Sr standing; or permission of instructor. Repeatable to a maximum of 6 cr hrs or 6 completions.

Autumn 2026 Semester

3300 Promoting Early Language and Literacy in ECD&E
U 3

Campus: COL LMA

This ECDE course focuses on theories of language development, the sequence of speech and language development and differentiating between normal and atypical speech. Emphasis will also be placed on the teacher's role in facilitating communication and literacy skills, on planning and implementing appropriate language and literacy activities, and on selecting & using literature to enhance language.

Autumn 2026 Semester

3310 Developing Age Appropriate Curriculum for Infants and Toddlers
U 3

Campus: COL LMA

This course is an overview of care giving for infants and toddlers in group settings. Developmentally appropriate programming for infants and toddlers is emphasized across developmental areas through routines, environment, and experiences with a focus on language and brain development. The role of staff and parent relationships is explored as is state rules for licensed child care centers.

Autumn 2026 Semester

3450 Positive Guidance of Young Children in Group Contexts
U 3

Campus: COL LMA

Examines strategies to help promote adaptive behavior in home, school, and community contexts. Students will learn strategies for managing and preventing behavioral problems and develop an understanding of behavior management practices.

Prereq: Soph, Jr or Sr standing; or permission of instructor.

Autumn 2026 Semester

3800 Professional Development
U 1

Campus: COL LMA

The professional: performance, role in society, position securement, involvement in organizations, and continuing development. Students are encouraged to take this course early in the major.

Autumn 2026 Semester

8189.13 Practicum in Couple and Family Therapy, Masters, Placement
G 1 - 9

The practicum course is designed to train Couple and Family Therapy Students in systemic assessment, diagnosis, and treatment planning in order to provide couple and family therapy to a variety of client presentations. Students in the masters program must obtain 500 hours of client contact, with 250 of those hours in relational therapies. Students are required to be supervised during those hours.

Prereq: 8189.11. Concur: 8189.12. Repeatable to a maximum of 9 cr hrs or 3 completions. This course is graded S/U.

Autumn 2026 Semester**5416 Theory of Strength and Conditioning****U G 3**

This online lecture course will examine the fundamental principles and theories that are the basis of strength and conditioning that allow for workout and training program design. The course is designed to give students the scientific and practical basis for developing, designing, evaluating, and implementing resistance training programs.

Prereq or concur: 3414; or Grad standing.

Landscape Architecture**LARCH****Autumn 2026 Semester****7950 Design Studio V: Design in Detail****G 6**

Processes and techniques of landscape architectural design development, detailing and documentation, with a focus on sustainable design practices.

Prereq: 7940, and Grad standing. Repeatable to a maximum of 16 cr hrs.

Law**LAW****Spring 2025 Semester****6330 Success Skills for Aspiring Lawyers****L 1**

This LP3 course explores the characteristics and skills necessary to long-term success and wellbeing in the legal profession through the lens of the IAALS's Foundations for Practice Study. What does it mean to be an effective lawyer? What skills and qualities do practitioners seek when hiring new grads? Who do you want to be as an attorney? How would you describe your professional identity?

This course is graded S/U.

Autumn 2026 Semester**7001 Basics of Elder Law****L 2 - 3**

Ethical issues in serving elderly clients, Medicare and Medicaid, Veteran's benefits, advanced directives and guardianship.

Mathematics**MATH****Autumn 2026 Semester****2468 Vectors and Matrices****U 1/2**

Math 2468 introduces the fundamental concepts of linear algebra with a practical emphasis, focusing on vectors and matrices. A goal of this course is to prepare students who need to use vectors and matrices in applications.

Prereq: A grade of C- or above in 1152, 1172, 1544, 2153, 2162.xx, 2182H or 4182H. Not open to students with credit for 2568, 4568 or 5520H. This course is graded S/U.

Clinical Research**MCR****Autumn 2026 Semester****7404 Project Management for Healthcare and Clinical Research****G 3**

Principles of project management and strategic planning in healthcare, clinical research, and regulatory settings.

Prereq: Enrollment in the MCR program; or enrollment in CRM cert; or permission of instructor.

Autumn 2026 Semester**7460 Regulatory Strategy and Clinical Trial Reporting****G 3**

Explores regulatory strategy in new medical product development and the roles of regulatory professionals. Scholarly and technical writing skills for regulatory professionals for new product submissions and Food and Drug Administration (FDA) Advisory Panels. Principles of strategic planning, leadership, communication, and team building.

Prereq: Enrollment in MCR program; or permission of instructor.

Autumn 2026 Semester**7481 Data Management and Informatics in Clinical Research****G 3**

Introduction to fundamental principles of clinical research data management and informatics to include the acquisition and management of data during clinical research studies, including source data, data entry, data quality assurance, reporting, and security.

Prereq: Enrollment in the MCR program; or enrollment in CRM cert; or permission of instructor.

Autumn 2026 Semester**7482 Principles of Quality Management for Medical Product Development****G 3**

Concepts and application of total quality management for federal regulation of medical product development including drugs and medical devices.

Prereq: Enrollment in the MCR program; or enrollment in CRM cert; or permission of instructor.

Autumn 2026 Semester**7572 Global Regulation of Medical Products****G 3**

Exploring legal issues related to clinical research and regulatory affairs. Examining the role of regulatory authorities, regulations and guidelines (US, EU and global) in new product development.

Prereq: Enrollment in MCR program; or permission of instructor.

Autumn 2026 Semester**7599 Culminating Project in Clinical Research****G 3**

The culminating project is an independent scholarly project that allows students to apply skills and competencies acquired across the master's program in clinical research. During the course, students will also complete their professional ePortfolio.

Prereq: MCR 7782; or enrollment in Master of Clinical Research program.

Public Health: Health Services Management & Policy**PUBHHMP****Autumn 2026 Semester****6620 Critical Appraisal of Population Health Evidence****G 2**

This course will provide practical experience in examining multiple sources of evidence on population health management and public health interventions and will introduce students to the tools used to perform systematic reviews.

Prereq: Grad standing; or permission of instructor.

Autumn 2026 Semester**7632 Strategic Change for Public Health and Population Health Mgmt****G 3**

This course will provide students a foundation in the theories, concepts & methods of strategic planning and the management of organizational change as applied to public health & population health management.

Prereq: Enrollment in the MPH-PEP or EMHA program; or permission of instructor.

Sociology**SOCIOL****Autumn 2026 Semester****2210 Sociological Aspects of Deviance****U 3**

Study of the definition, identification, treatment, and control of types of legal, moral, and status deviance, such as crime, mental illness, alcoholism, and other individual pathologies.

Social Work**SOCWORK****Autumn 2026 Semester****7189 Advanced Field Practicum****G 1 - 4**

An internship in a social work agency where students will integrate advanced classroom knowledge and skills with practice experiences.

Prereq: 6189. Repeatable to a maximum of 8 cr hrs or 4 completions. This course is graded S/U.

Autumn 2026 Semester**7510 Strengths-based Clinical Social Work with Individual Adults****G 3**

Students will learn several research-informed clinical social work approaches for working with the strengths of individual adults to effect client change such as solution-focused therapy, narrative therapy, strategic therapy, and cognitive-behavioral therapy.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7511 Clinical Social Work with Children and Adolescents****G 3**

Course focuses specifically on the preschool, school aged children and adolescents and provides an overview of: 1) the background of mental health treatment of children/adolescents; 2) development in context; 3) developmental psychopathology; 4) the helping process; and 5) common childhood/adolescent disorders.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7512 Clinical Social Work with Couples and Families****G 3**

Emphasizes a treatment approach that views family members as making up an interlocking system that is the context for the formation and resolution of problems of the family and its members. Focuses on the family as the client rather than individual family members and emphasizes the process and stages of intervention.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7515 Crisis Intervention and Trauma Treatment****G 3**

Covers different approaches and common steps involved in intervening with clients experiencing a crisis. Given that many clients find experiencing a crisis to be traumatic, this course will also cover several research-informed approaches for treating trauma and post-traumatic stress disorder (PTSD).

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7516 Assessment and Diagnosis in Clinical Social Work Practice****G 3**

This course looks at patterns of human behavior and psychosocial functioning conceptualized as psychopathology, deviance, and/or responses to extreme stress. The content addresses such concepts as function and dysfunction, mental health and mental illness, and normality and abnormality.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7517 Social Work Practice in Schools****G 3**

Prepares students to work effectively in the education setting as a licensed school social worker.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7518 Advanced Case Management****G 1½**

Development of competencies in the provision of case management services to address various complex client problems.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester**7519 Advanced Practice in Motivational Interviewing****G 1½**

Course provides students with advanced practice knowledge, skills, and values related to engaging clients in motivational interviewing conversations for the purpose of promoting their intentional behavior change processes.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7520 Pharmacotherapy in Social Work Mental Health and Substance Abuse

G 1½

A survey of key principles, issues, and social work practice implications related to common interventions involving medications for addressing mental health and substance abuse problems.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7530 Needs Assessment and Program Design

G 3

Introduces program development and design, the skills for program implementation and management, needs assessment and program design for collective decision-making in organizations, systems and communities.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7532 Supervision and Human Resource Management

G 3

Provides an overview of models and specific skills used in social work supervision and effective management of the human resources which are appropriate to both clinical and community practice settings. The focus of the course is to acquire the knowledge and skills needed to manage human service workers effectively.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7533 Financial Management

G 3

This course provides the student with the basic knowledge and skills of financial management, in the context of management control, in non-profit, human service organizations.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7534 Prevention Strategies in Social Work Practice

G 1½

This advanced practice 'macro' course examines prevention models and theories, the evidence surrounding specific preventive interventions, and practice issues related to implementing prevention approaches. The course content and assignments provide students with a conceptual background of the development of prevention approaches to mental and behavioral health concerns.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7620 Integrative Seminar I on Mental Health and Substance Abuse

G 3

This course surveys: mental health practice approaches; mental health program and policy issues; mental health research and evaluation. Critical consideration is given to issues relevant to mental health and mental illness across time and stakeholder interests. Students examine public, professional, cultural, economic, and political influences on the development and delivery of mental health care.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7621 Integrative Seminar II on Mental Health and Substance Abuse

G 3

Surveys social work practice, program, and policy issues, theories, and evidence related to substance use, misuse, abuse, and dependency across the lifespan.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Autumn 2026 Semester

7630 Integrated Seminar I on Child and Youth Services

G 3

Course provides students with the opportunity to develop beginning level knowledge and skills for social work practice in the field of services to children and families, as well as knowledge of policies which affect practice in this field. The course is an integrative seminar to explore the continuum of services, programs, and policies which affect families and children.

Prereq: 6201, 6301, 6401, and 6501; or 7500.

Statistics

STAT

Introduction to Mendelian principles, genetic epidemiology, and molecular genetics; family studies; model-based and model-free linkage analysis for mapping disease genes; genome wide association studies; association analysis using haplotypes.

Prereq: 3202, 4202 or 6302; or permission of instructor. Not open to students with credit for 6625.
