Spring Commencement

THE OHIO STATE UNIVERSITY
MAY 8, 2022
Pomp, circumstance, and other songs of a lifetime

—by Professor David Citino, 1947–2005, Late University Poet Laureate
(Originally presented as the 2000 Winter Commencement address)

If you’re like me, you’ve got a big head, not to mention a funny robe, full of music—poems and melodies, the tunes we move to, shower and shave by, study, write to. Not just the incidental, but the momentous music keeping time. Our histories are measures of song. Listen to your heart: drums of Africa, sea-spume of blind, far-sighted Homer, Sappho’s honeyed love lyrics. Often, music speaks for us, one note saying a thousand words. Like Rodolphe in Puccini’s La Bohème, Sono un poeta. I am a poet. Che cosa faccio? What do I do? Scrivero. I write. This ceremony is loud music—pomp and circumstance of the life you began freshman year or that first day of graduate school. In my head I press Play, and the CD of Big Days kicks on. I leap and linger over moments too sweet, nearly, for words. I’ll never escape rhymes from the nursery. Up above the world so high, like a diamond in the sky. We knew from the start our universe was aglow with wonder. Italian, Latin, English songs in nasal accents of Cleveland. Gaudeamus igitur, Juvenes dum sumus. So, let us rejoice, while we are young. Youth is that gift we can’t comprehend while we’re young. This ceremony means you all are less young than you were. Don’t let the heavy knowledge gained from your studies deprive you of the gifts of youth, to be able to rejoice at the drop of a hat, to care for, be moved by others.

Now I hear golden hits of five decades. Big Mama Thornton, and that so-called King (King of what, fried butter sandwiches?) who stole away her hound dog. You ain’t never killed a rabbit, you ain’t no friend of mine. As with those profs and TAs, course after course, you had to produce—kill some rabbits—to earn respect. And at times OSU may have seemed like Heartbreak Hotel, down at the end of Lonely Street, so difficult was it to do your best. Tennessee Ernie Ford, “Sixteen Tons”: St. Peter don’t you call me ‘Cause I can’t go. I owe my soul to the company store. You have been digging deep in mines of knowledge. We all owe our souls to Ohio State, company store of learning, shared experience—precious ore we have in common forever.

Now I hear Domenico Modugno’s fervent urging to wish, sing, fly, Volare, Wo-oo. Cantare, Wo-o-o-o. My grandfather was a peasant farmer, a contadino in Calabria in the toe of Italy. He knew it’s the human lot to dream of flying. Lucky, lucky, lucky me, I’m a lucky son-of-a-gun. I work eight hours, I sleep eight hours, That leaves eight hours for fun.

Hey! He sailed in steerage across the Atlantic, came to Cleveland, where he stayed long enough to work 52 years for the B&O Railroad, before lying down to rest in good Ohio soil. So many of us here today came from elsewhere, or ancestors did. From Tennessee, Italy, Africa, Asia, Appalachia—even, President Kirwan, the wildest of Kentucky and Maryland. Women and men with backs supple as birch trunks. The courage it took to pick up stakes and begin again in a new world! Think of the work those older ones did. For you. You all are facing a change right now.

This sheepskin is your passport. You’re bound for emigration to the next song of your life. Ohio State is the ark on which you’ve been sailing. You’ve been the precious cargo. But, as Noah once said, I can see clearly now the rain is gone. The ark, our university, was filled to overflowing with the diversity of us. Diversity. Networks and talk shows devalue the word. Alma Mater—Carmen Ohio
Graduates and guests led by Elizabeth G. Arteta

Oh! Come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat or winter's cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship—O-hi-o!

Awarding of Diplomas

Excerpts from the commencement ceremony will be broadcast on WOSU-TV, Channel 34, on Tuesday, May 10, at 7 p.m.

Livestream coverage and a replay of the ceremony in its entirety can be viewed at commencement.osu.edu.
A visionary engineer and leader, Mr. Patrick P. Gelsinger has spent more than four decades at the forefront of a technological revolution that has shaped our modern world. He currently leads Intel, a multinational corporation he first joined at age 18. Mr. Gelsinger was named the company’s chief executive officer in 2021.

In an era in which much of the computer manufacturing industry has moved overseas, Mr. Gelsinger has doubled down on Intel’s commitment to America’s manufacturing business, helping to ensure the United States remains competitive in the global semiconductor industry.

Earlier this year, Intel shared plans to invest more than $20 billion in the construction of two new leading-edge chip factories in Ohio — the largest single private sector investment in state history — and an additional $100 million toward partnerships with educational institutions such as Ohio State to develop talent and bolster research programs in the region.

Mr. Gelsinger grew up working on farms of his family and neighbors in Pennsylvania. He graduated from high school a year early and was admitted to Lincoln Technical Institute on a scholarship. After graduating, he began as a quality-control technician at Intel, where he stayed for three decades. Early on, he became one of the top design engineers on the team that created Intel’s iconic 386 microprocessor. A few years later, he led the team that created the 486 processor, which revolutionized personal computers.

While working full time at Intel, Mr. Gelsinger earned a bachelor’s degree in electrical engineering at Santa Clara University and a master’s degree from Stanford University. Also during his time at Intel, he managed the creation of USB technology and Wi-Fi, led 14 microprocessor programs, and played key roles in the creation of the Intel Core and Intel Xeon processor families, which made the company the world’s preeminent microprocessor supplier. In 2001, he became Intel’s first-ever chief technology officer.

In 2012, Mr. Gelsinger was named CEO of VMWare. Under his stewardship, the company became a global leader in cloud infrastructure, enterprise mobility and cybersecurity. He nearly tripled the company’s annual revenues, doubled the size of the company and saw sales grow 134%. In 2019, Glassdoor named him the best CEO in the country.

Mr. Gelsinger holds eight patents in the areas of very-large-scale integration design, computer architecture and communications. Additionally, he is an Institute of Electrical and Electronics Engineers Fellow and serves as a member of the President’s National Security Telecommunications Advisory Committee. He has been married for almost 40 years, is a father of four and a proud grandfather of eight.
Freeman A. Hrabowski III

DOCTOR OF EDUCATION

Dr. Freeman A. Hrabowski III is one of the pillars of excellence and opportunity in American higher education. More than that, he is a civil rights leader, a visionary and a testament to the power of resilience.

Dr. Hrabowski joined the civil rights movement at age 12 following Dr. Martin Luther King Jr.’s call to join the Birmingham Children’s Crusade against school segregation in 1963. Local police unleashed dogs and firehoses on the peaceful protestors. Notorious segregationist Bull Connor spat on the young Dr. Hrabowski and threw him in a police wagon. He spent five days in jail.

A brilliant student, Dr. Hrabowski attended college to study math at age 15 and graduated from Hampton Institute at 19. He went on to earn a PhD in higher education administration and statistics from the University of Illinois at Urbana-Champaign.

In 1992, he was named president of the University of Maryland, Baltimore County (UMBC). During his tenure, he has transformed a young, struggling commuter college into one of the nation’s leading public residential Research 1 (R1) universities. Along with philanthropist Robert Meyerhoff, he created the highly successful Meyerhoff Scholars Program, which has provided hundreds of students the tools necessary to pursue careers in STEM fields. Under his leadership, the number of degree programs doubled, student enrollment grew from 10,000 to almost 14,000, and graduation rates soared. According to National Science Foundation data, UMBC is the number one producer of African American undergraduates who go on to earn PhDs in the natural sciences and engineering, as well as doctorates in the life sciences, mathematics, and computer science. According to the Association of American Medical Colleges, UMBC is the number one producer of African American undergraduates who go on to earn MD-PhDs.

In 2012, Dr. Hrabowski was named by President Barack Obama to chair the President’s Advisory Commission on Educational Excellence for African Americans. He has served as a consultant to the National Science Foundation, National Institutes of Health, National Academy of Sciences, U.S. Department of Education, and numerous universities and school systems.

Over the years, his service has extended to board positions for the American Council on Education, Baltimore Community Foundation, and Joint Center for Political and Economic Studies. He is past president of the Maryland Humanities Council and past chair of the Marguerite Casey Foundation. He currently serves on several corporate boards. Dr. Hrabowski is a fellow in the American Academy of Arts and Sciences, American Philosophical Society, National Academy of Public Administration and National Academy of Engineering.

After 30 years of distinguished leadership, Dr. Hrabowski is scheduled to retire from UMBC this year. Throughout his professional career, he has facilitated the lifelong achievements of countless individuals and helped the nation excel in the global competition for advances in science and technology. His contributions and legacy are significant and will continue to elevate and uplift young people of all walks of life for decades to come.
Robert J. Portman

United States Senator Robert J. Portman has spent more than three decades in public service, starting as a White House aide before being elected to the U.S. House of Representatives representing Ohio’s Second Congressional District in Southwest Ohio. He served the nation as the United States Trade Representative and the Director of the Office of Management and Budget, and he currently represents Ohio in the United States Senate.

Described as having one of the most impressive political resumes in the country, he has demonstrated extraordinary commitment to America and his fellow Ohioans.

Born and raised in Cincinnati, Senator Portman learned the values of dedication, leadership and responsibility at a young age while witnessing his parents start their own business, the Portman Equipment Co. What began as a small forklift truck dealership with five employees grew to employ more than 300 people. After graduating from Dartmouth College in 1979, he earned a law degree from the University of Michigan and later started his own law practice. Early on, he represented his family’s company and other small businesses.

First elected to Congress in 1993, he quickly got to work serving Ohio’s Second Congressional District, tirelessly advocating for some of the state’s most vulnerable residents. In 2000, he was described as “one of the most important legislators in the House” by the Almanac of American Politics.

During the administration of President George W. Bush, Senator Portman served as United States Trade Representative and Director of the Office of Management and Budget. He returned to public office in 2011 after being elected to the United States Senate, and he was reelected in 2016 to a second term. As a Senator, more than 175 of his legislative priorities have been signed into law.

Throughout his career, Senator Portman has been a leader in the national effort to combat the opioid crisis and human trafficking. He is an advocate for veterans; a champion of our national parks and Great Lakes; and an innovator in strengthening the economy and growing our workforce. Recently, he led the Senate negotiations for the Infrastructure Investment and Jobs Act, signed into law last year. This historic, bipartisan legislation represents the largest investment in our nation’s infrastructure in decades.

Senator Portman is currently the Ranking Member on the Homeland Security and Governmental Affairs Committee. He is a member of the Senate Finance Committee, the Committee on Foreign Relations and the Joint Economic Committee. As the Co-Chair and Co-Founder of the Senate Ukraine Caucus, he recently traveled to Poland to help Ukrainian refugees fleeing Russia’s invasion. Among his career honors is the Excellence in Public Service Award from the John Glenn College of Public Affairs, where he serves on the advisory board.

Early last year, Senator Portman announced that he is retiring from public service when his second six-year term as senator ends. He and his wife Jane, have three children: Jed, Will and Sally.
For more than five decades, Dr. Grace Wahba has been one of America’s leading statisticians — a true trailblazer in her field. After completing her PhD in statistics at Stanford University in 1966 and taking up a postdoc with Emanuel Parzen, Dr. Wahba joined the faculty at the University of Wisconsin-Madison in 1967. The first woman faculty member in the university’s statistics department, Dr. Wahba was also appointed to a position at the renowned Math Research Center. During her 51 years at UW-Madison, she would produce several landmark papers on splines, which are a special function in mathematics defined piecewise by polynomials. That work resulted in the publication of her pioneering 1990 book, *Spline Models for Observational Data*, which has garnered more than 8,000 citations.

Dr. Wahba seamlessly integrated advanced mathematics, generalized cross validation (GCV) and powerful computational methods to solve real-world problems — inspiring countless discoveries along the way. Her research has focused on developing advanced statistical models and machine-learning methods to extract important information from demographic studies and clinical trials. As a result, Dr. Wahba’s work has impacted everything from global positioning system satellites to weather forecasting and climate science. Her discoveries have allowed us to better understand the connection between age-related eye disease and diabetes, improve medical imaging, decode the mysteries of DNA microarrays, and so much more.

While working at IBM in the 1960s, Dr. Wahba was tasked with devising a mathematical solution to the challenges associated with using stars to orient satellites in orbit. Her solution, now known as “Wahba’s problem,” remains one of the defining elements of aerospace and robotics.

Dr. Wahba earned a bachelor’s degree in mathematics from Cornell University and a master’s degree in mathematics from the University of Maryland. She is an elected member of the National Academy of Sciences, American Academy of Arts and Sciences, American Association for the Advancement of Science and the International Statistical Institute.

In May 2021, the Institute of Mathematical Statistics (IMS), an international professional and scholarly society, announced the creation of an award in her honor. The IMS Grace Wahba Award and Lecture recognizes her “monumental contributions to statistics and science” — and is intended to honor outstanding statisticians regardless of gender; support diversity in statistical science; and inspire statisticians, mathematicians, computer scientists and scientific researchers in general.
Caroline C. Whitacre

DISTINGUISHED SERVICE AWARD

A distinguished educator, scientist, community leader and volunteer, Dr. Caroline C. Whitacre has demonstrated selfless commitment to helping advance science through research. She is a consummate example of the university’s core mission to create, discover and share knowledge that improves the well-being of local, state, regional, national and global communities.

Considered one of the world’s most acknowledged authorities on autoimmune diseases, Dr. Whitacre’s research has made significant contributions toward understanding and treating multiple sclerosis. She has received research support from the National Institutes of Health, Health Resources and Services Administration, and the National Multiple Sclerosis Society.

As senior vice president for research at Ohio State, Dr. Whitacre oversaw a more than $900 million annual research program. Prior to assuming that role, she served as vice president for research, associate vice president for health sciences research, vice dean for research in the College of Medicine, and director of the School of Biomedical Science.

Additionally, she is an emeritus professor and former chair of the Department of Molecular Virology, Immunology and Medical Genetics. She joined the Ohio State faculty in 1981. During her tenure at Ohio State, Dr. Whitacre received a Faculty Award for Distinguished University Service and recognition as a University Distinguished Scholar. A Buckeye herself, Whitacre received her BA and PhD degrees at Ohio State and completed her postdoctoral training in immunology at Northwestern University Feinberg School of Medicine.

Among her numerous accolades, Dr. Whitacre is a Fellow of the American Association for the Advancement of Science and is a member of the National Academy of Inventors. In 2009, she was inducted into the National Multiple Sclerosis Society Volunteer Hall of Fame for Researchers and received the Lifetime Achievement Award from the National MS Society in 2019. She has chaired various task forces for the society and currently chairs the Scientific Advisory Committee, working toward the society’s mission of curing MS and empowering people with MS to live their best lives.

Since her retirement from Ohio State, Dr. Whitacre — a wife and mother of one grown son — has continued to serve her community. She is currently the village administrator in her hometown of Morrow, Ohio. In this role, she addresses infrastructure needs and leads the effort to submit grants and carry out projects for the advancement of Morrow.
Robert L. Wright Jr.

DISTINGUISHED SERVICE AWARD

Dr. Robert L. Wright Jr.’s broad portfolio of personal and professional successes — realized despite significant societal challenges — defies easy characterization.

He began his journey at Ohio State, where in 1960 he became just the second African American to graduate as a Doctor of Optometry. Today, Dr. Wright is widely regarded as one of the most highly respected business leaders of his generation. He has spent more than 60 years working in government, business and finance to accelerate the health and happiness of and economic justice for Black and minority populations.

Recognizing a significant lack of services and representation in local politics for people of color and regarding issues of concern to them, Dr. Wright launched a consulting firm devoted to race relations, research, minority affairs and public policy in 1974. He put cutting-edge technology to use, developing computerized fundraising programs and a polling system.

In 1985, Dr. Wright founded Dimensions International, Inc. (DI), a provider of technology solutions to both the public and private sectors. Starting with only three employees, he built the company into a world-class organization with more than 100 offices in 10 countries and staff of more than 1,500 individuals. DI was purchased by Honeywell in 2007.

A dedicated public servant and community leader, Dr. Wright also served three consecutive terms on the city council of Columbus, Georgia — developing and supporting legislation related to housing, recreation, employment, industrial development, and street and highway improvements. In 1982, he was appointed by President Ronald Reagan to the position of associate administrator for minority small business at the U.S. Small Business Administration.

Over the course of many years, Dr. Wright has stayed close to his alma mater. He has provided generous support for scholarships, as well as shared both his time and remarkable life experiences with Ohio State students.

A recipient of the 2014 Congressional Black Caucus Foundation Phoenix Award, Dr. Wright is a former chairman of the Presidential Commission for the National Museum of African American History and Culture and a member of the Horatio Alger Association Board of Directors. He has served as a member of The Ohio State University Alumni Advisory Council, the Board of Directors of Aflac, the Board of Trustees for Morehouse School of Medicine, and the Executive Leadership Cabinet for the Martin Luther King Jr. National Memorial Project Foundation.
Dear Graduates,

Congratulations, Buckeyes! We are thrilled to celebrate your many accomplishments in our beloved Ohio Stadium — and overjoyed to do it alongside your loved ones. The fact that we are together today is a testament to your collective dedication and resilience.

Your perseverance and experiences through this time will forever be a part of your journey. You proved that diverse talents and perspectives can be woven together to create solutions that do incredible good. I am inspired by every one of you, though I am not surprised. As Buckeyes, we shine brightest when times are tough, when there is a need for champions to come together to support each other and our communities. We shine our light in dark places and lead in all that we do. Meeting challenges head-on — including the pandemic that changed our world, a growing climate crisis, and serving our community in myriad ways — is simply part of our DNA.

As you begin your careers or continue your studies through graduate and doctoral programs, I know you are all well prepared to lead in your respective fields and continue to pioneer solutions to the challenges facing us today. You are stronger and wiser from your experiences, and today I challenge you to take what you’ve learned at Ohio State and set to work building a future in which every member of our community can share equitably in its opportunity. I know you are up to the challenge — after all, you’re Buckeyes.

As you depart, diploma firmly in hand, think of this as a beginning, not an ending. You are forever part of our Ohio State family — Buckeyes for life. Congratulations, once again. I cannot wait to see what you do next!

Sincerely yours,

Kristina M. Johnson, PhD
President
This momentous occasion inspires opportunities for you to create even more special memories to cap the countless others you have collected throughout your time at The Ohio State University.

And from your very first memories as a Buckeye, I hope you have experienced the energy, pride and unmatched spirit that has greeted and inspired generations of Ohio State students for more than 150 years.

Today, you are formally joining an alliance with more than 600,000 fellow Ohio State alumni living and making a difference in communities around the globe. Your network is expansive, and your friendships are firm. I hope you always feel welcome to lift up your voice with an “O-H,” secure in the knowledge that no matter where you are, you will likely receive an “I-O.”

There are hundreds of alumni societies and clubs in cities throughout the world, organizing everything from game watch parties to scholarship fundraisers. The alumni association also offers career resources for lifelong learning and networking opportunities.

Stay connected by downloading our alumni app at osu.edu/alumni. And feel free to follow me @BuckeyeMolly on Twitter.

Don’t forget that the days of making new memories on your Ohio State journey are never over — because you are Buckeyes for Life!

When we think of Ohio Stadium, what sights, sounds and memories connect us as Buckeyes? Perhaps it's the priceless moments of accomplishment, success and pride of commencement days. Is it to the hard-fought wins and waves of cheers stemming from those last-second Ohio State Buckeye victories? The excitement of the student Block O section? The grace and majesty of Script Ohio? Maybe its iconic shape — one of the most recognized in college football? Revisiting as alumni and feeling the waves of nostalgia and pride wash over us? For Buckeyes, it’s many and all of these things.

As we celebrate our beloved ‘Shoe’s centennial, it provides us the perfect moment to celebrate everything it means to us and to Buckeyes across the world. It’s not so much a celebration of a location, but all those moments that unite our community in pride, in nostalgia and in spirit. 100 Years of Ohio Stadium allows us the opportunity to commemorate all of those moments — big and small — that we hold so dear and close to our hearts.

Ohio Stadium isn't just a building — just a stadium. It's a hallmark of what makes us Buckeyes, what unites us and inspires us. This year, we can come together to celebrate everything it means to Buckeyes around the globe.

This program is not an official graduation list.

This printed program lists students who were eligible to graduate for Spring Semester 2022, as of 5:00 p.m., April 28, 2022, pending the outcome of final examinations and final grades. Therefore, it should not be used to determine a student’s academic or degree status. The University’s official registry for conferment of degrees is the student’s permanent academic record, kept by the Office of the University Registrar, Student Academic Services Building, 281 West Lane Avenue, Columbus, OH 43210-1132.

The colorful ceremonies of The Ohio State University commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably resulted in the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day. In light of our nation’s English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape that, according to ballad folklore, resembles a scholar’s book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral and master’s degrees, not only indicates the type of degree, but also is lined with the official colors of the university.

---

**The Gown**

**Bachelor:** The bachelor gown is black, full cut with long pointed sleeves.

**Master:** The master gown is black, long or short sleeves, with an arc-shaped panel extended for each sleeve.

**Doctor:** The Ohio State University Doctor of Philosophy gown is scarlet with gray velvet panels on the front and three velvet bars on each sleeve. Other doctor gowns are black with velvet panels and bars, the color of which is distinctive of the field of study.

---

**Honors Emblem**

The Ohio State University honors emblem is a scarlet and gray tasseled braid worn over the gown. Students eligible for this curricular honor are those graduating *summa cum laude*, *magna cum laude*, *cum laude*, *with distinction* and with honors.

---

**The Hood**

**Bachelor:** Three feet long with a two-inch-wide velvet edging.*

**Master:** Three and one-half feet long with a three-inch-wide velvet edging.

**Doctor:** Four feet in length with a five-inch-wide velvet edging and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study.

* Not usually worn by candidates for a degree.

---

**Cap and Tassel**

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

- **Graduate School (PhD).................................Gray (Others).................................................Black**
- **College of Arts and Sciences**
  - BA...........................................................White
  - BA Journalism............................................Crimson
  - BAE, BFA....................................................Brown

- **College of Pharmacy....................................Olive Green**
- **John Glenn College of Public Affairs..................Peacock Blue**
- **College of Public Health..............................Salmon**
- **College of Social Work...............................Citron**
- **College of Veterinary Medicine......................Gray**

The gold tassel is worn frequently by those holding the doctoral degree and by college and university administrative officers.

Photography

As a courtesy to those persons receiving degrees today, please remain seated in the stands until the graduates have received their diplomas and moved past the stadium gates. Photographs may be taken from the stands at any time during the ceremony. However, only press photographers are permitted on the field.

A professional photographer will take a photograph of each graduate as the diploma is awarded. A free color print of the photograph will be mailed to the graduate’s address within one month after graduation. You may purchase additional photos, but you are not obligated to do so.

Complimentary Programs

A limited number of programs are available on a first-come, first-served basis. Requests should be sent to the Office of Commencement and Special Events, 1060 Blankenship Hall, 901 Woody Hayes Drive, Columbus, OH 43210-4016.

In the case of inclement weather, every effort will be made to hold commencement as planned. Commencement will take place in Ohio Stadium, unless weather conditions are dangerous or severe, in which case the ceremony will be canceled. No indoor facility on campus can accommodate the graduating class and their guests.

On commencement day, Ohio State officials will be in continuous contact with the National Weather Service to monitor approaching weather. If it is feasible to delay the start of the ceremony and wait for clearing or less severe weather, the start of the ceremony may be delayed up to one hour. Should this happen, any changes will be announced on-site to graduates and guests. Graduates will remain in the assembly locations; guests are asked to remain in protected areas of Ohio Stadium. Your patience and cooperation will help facilitate this plan.

In case of cancellation

If it is determined that severe weather will not permit us to hold commencement, the ceremony will be canceled. Once cancellation has been announced, graduates should report to the locations below one hour after cancellation to receive their diplomas.

It is strongly advised that graduates and guests prearrange a meeting place in case the ceremony is canceled. Guests should not go to French Field House or RPAC where most diplomas will be distributed to graduates. St. John Arena and various locations on West Lane Avenue are some suggested meeting sites.

Diplomas will remain in the following locations until 4 p.m. on commencement day. Diplomas not picked up by 4 p.m. will be taken to Buckeye Link on the first floor of the Student Academic Services (SAS) building, 281 West Lane Avenue. Diplomas will be available for pick up there between 9 a.m. and 4 p.m., May 9–13. If a graduate’s diploma remains unclaimed after 12:00 p.m. on May 13, it will be mailed to the permanent address on record within two to four weeks of commencement. Graduates can verify/change their mailing addresses by navigating to the BuckeyeLink website at buckeyelink.osu.edu. Click on “My Student Center,” then scroll down to the “Personal Information” section to view the address. Click on the “Permanent Address” hyperlink if there is a need to edit it.

Pomp, circumstance, and other songs of a lifetime
(continued from inside front cover)

I say, rather, the richness of us, precious difference, the grand multiplicity of selves that balance this globe and enable it to spin true. Grandson of peasant immigrants, I was given the opportunity to earn a doctorate in English literature from Ohio State—because my family labored long nights around the kitchen table trying to learn this arduous English. I sat where you’re sitting twenty-six years ago. Bob Dylan and Smokey Robinson got me through. Yes, it took a prophet and Miracles! My son earned an OSU Ph.D. in history. Now you, graduates, are being honored—by degrees. We’ve all come together around the kitchen table of Ohio State. Ohio, Round on the ends and high in the middle. For the years to come we’ll sing together, Beautiful Ohio, in dreams again I see, Visions of what used to be. These psalms, sacred thoughts of our tribes, 78’s and 33’s, tapes, CD’s—they take up space in shelves of our skulls, our hearts. They remind us we want a song beyond the run-of-the-mill thrill, the moment throbbing with pleasure or bathed in the blues. We ache for something grander than pure selfishness. Songs sung for one alone are not true music. Arias shared are music of the spheres, ways of saying to another something from the soul. Of course the Buckeye Battle Cry is there. Drive, drive on down the field, Men (and women!) of the Scarlet and Gray. Well, you drove on down the field, and you drove up and down the streets, around and around crowded lots, looking for a place to park, and you searched our dark, ancient library for a decent place to study. My wife, Mary’s, father marched in the first “Script Ohio,” in 1936. He’s here today with us, blowing his horn, I can’t help but feel, as is the sweet mother I lost last year, the one who gave me the stars. Today’s music makes us think of the debts we owe, and never can repay. So many of us would not be here were it not for the lullabies and songs of dear parents, their parents, theirs. Some are here today in the flesh. Many are not. We mourn them with caden of our hearts. Think how many people sang before us, gave us a name, a voice, taught us the right words. We must cherish them by remembering every song. When we sing to others, we honor our fathers and mothers, thank them for this day of profound scarlet and gray pomp and circumstance. O, come let’s sing Ohio’s praise, And songs to Alma Mater raise. Alma mater. Ohio State is our sweet, nurturing mother.

We came of age here, with her help. Well, Mother, we love you, but, like, it’s time we moved out, got a place of our own. You’re standing there, Mom, gray hair, eyes scarlet from crying. We won’t forget you. Now, even though this ceremony means we’re being weaned, taken off the nipple, let’s take care to cherish her all our days. Let’s remember the words to the songs she taught us, and pass them on. We’ll remember always, Graduation Day. Summer’s heat, and winter’s cold. The seasons pass, the years will roll, Time and change will surely show How firm thy friendship, O-hi-O. We call that little number Carmen Ohio. Carmen means song in Latin. You’ve worked hard; she is your reward; today is your reward.

You’re filled to overflowing with the notes, the poems we’ve written together. You know the score. Continue to work hard for yourselves, and one another. Find the ones who need you to sing to, for them, in the world. Graduates, this joyful litany, this hymn our ancestors collaborated on with us, the calling of your name today is music to our ears. Sing that name proudly all your days, as if your life depended on it. It does, you know. It has been an honor for me to speak—and sing—to you today. Thank you, graduates, and, again, Congratulations.
